SAFETY VISIT—Fireman Edward A. Hunter is invited by Mrs. Pat McCarrick of 484 N. Perry to inspect her home for fire hazards. The visit was part of the Pontiac Fire Department's two-week voluntary home fire inspection program, which runs through Saturday. The project is being carried on in conjunction with Michigan Week.

N. Viet Sounds Note of Doom in Paris Talks

PARIS (AP) — North Vietnam's envoy raised the possibility today that the Paris peace talks might fail. He told U.S. Ambassador W. Averell Harriman the United States would bear "the full and entire responsibility."

Related Story, Page C-3

Harriman accused North Vietnam, following today's meeting, of using the talks to "make a propaganda impression on the world."

★ ★ ★

"A lot of people are getting disgusted with these allegations about the war in Vietnam which have no basis in fact whatever," he said.

A North Vietnamese spokesman said that during today's session, which lasted about three hours, Xuan Thuy told Harriman "in the event these official conversations do not conclude with result, the American side must bear full and entire responsibility."

CHANGE DEMANDED

The spokesman quoted Thuy as telling Harriman that thousands of Americans, and "progressive opinion" around the world, demand he change his attitude. Thuy denounced what he called "obstinateness and lack of seriousness of the American side."

The meeting was the fourth in the series which began 10 days ago. The next meeting will be Monday at 10:30 a.m. The interlude will be the longest yet.

★ ★ ★

Harriman said he had suggested "we abandon the practice of going out with public statements so that we can make some progress with discussions across the table."

He said he thought the North Vietnamese would not go along, and if they did not the United States delegation would then report publicly what Harriman said.

Arguing as much for the world gallery as for their adversary, the envoys have repeated their governments' justification for involvement in the war.

ROCKY IN DETROIT—New York Gov. Nelson Rockefeller answers newsmen's questions after landing in Detroit last night. Accompanying the GOP presidential candidate is Michigan Lt. Gov. William Milliken (left), who flew with him from Albany.

Rocky Asks Tax Hike, Public Spending Curb

DETROIT (AP) — Gov. Nelson A. Rockefeller, stepping up his bid for the Republican presidential nomination called today for a temporary income tax increase and for a halt in "the habitual rise in public spending," and proposed other measures for dealing with the country's economic ills.

He made the proposals in a speech prepared for delivery at the Economic Club of Detroit.

★ ★ ★

The New York governor charged the Johnson administration with "grave failures in leadership" in not seeking a

tax increase in 1965—to accompany the increased Vietnam war effort and the launching of the war on poverty—to stem growing inflation.

DINED WITH FORD

Rockefeller arrived in Detroit Tuesday to seek Michigan delegate support for his presidential bid. Accompanied by his wife, Happy, the governor dined Tuesday night with Henry Ford II in what Rockefeller described as a "purely social" visit with an old friend.

FOUR PROPOSALS

Besides urging a check on federal spending in today's speech, Rockefeller outlined four other proposals designed to "restore confidence in our dollar and check our inflation":

★ ★ ★

● Enactment of a "temporary increase in income taxes at least as large as the 10 per cent across-the-board surcharge suggested by the administration."

He said: "This—combined with restraint on spending—could cut the deficit from $20-billion plus to a "manageable $5.8-billion."

★ ★ ★

● Reassessment of U.S. financial commitments around the world. "We can find ways to afford what we must do. But the record of our balance of payments deficits shows that we cannot do all we might like. Here, too, we must set firm priorities," he said.

● Avoidance of further domestic and international trade controls and restrictions and work to eliminate existing controls.

● New tax incentives to attract private capital into urban redevelopment "where public capital alone cannot possibly carry the burden."

DANGER YEAR

Rockefeller said the inflation rate began to climb markedly in 1965 because "our government chose to ignore the most fundamental facts of economics: Any major war moves the economy toward its full capacity—and beyond if civilian buying power is not curtailed by a tax increase."

★ ★ ★

"In 1965," he continued, "the escalation of the war in Vietnam moved the economy almost immediately into full output. In that same year the administration launched its war on poverty. Expenditures on the war in Vietnam have gone toward $30 billion a year. Expenditures on the war on poverty have gone to nearly $28 billion—about triple the figure for 1960."

OCC Unveils Plan for Ghetto Students

By DICK ROBINSON

A pilot program to subsidize 50 students from the Detroit ghetto to attend Oakland Community College this fall and to guarantee them admission to Michigan State University was unveiled by OCC officials last night.

If the program is successful, most of the students would later come from Oakland County, college officials said.

★ ★ ★

Detroit students are to be selected by the Higher Education Opportunity Committee at Wayne State University on the basis of a desire to succeed and positive attitudes and values rather than academic performance, explained Mitch Tendler, OCC community relations director.

★ ★ ★

The students will not have to pay tuition but will be given $300 a year for expenses, such as for books.

MATCHING FUND SETUP

Half of the $300 will be paid by the college and half under a matching fund arrangement from a $50,000 equal opportunity grant under the Higher Education Act of 1965.

Tendler said the college is working on getting bus transportation donated to take the students back and forth to the Orchard Ridge campus in Farmington Township.

★ ★ ★

Gordon Sabine, vice president for special projects at Michigan State University, said MSU would accept the inner-city students if they stay at OCC for two years and maintain at least a "C" average.

At OCC the students would take 12 credit hours, including a college-oriented course, developmental English and guidance counseling courses for about five hours a day.

WOULD WORK AT JOB

They would work at a job on campus as part of the college's work-study program for about three hours a day. Pay would be $1.25 per hour, provided by the federal government.

Trustee Ralph R. Tyndall remarked that he felt there are enough people in Oakland County who could benefit from the program.

★ ★ ★

Orchard Ridge Provost Dr. Richard E. Wilson explained that the machinery was already set up in Detroit to locate promising students.

OCC is also planning to start in July a one-year pilot program called Continuing Opportunities Program for Education (COPE) to provide educational counseling and training for ghetto residents of Pontiac and Royal Oak Township to enable them to compete in the job market.

★ ★ ★

It is designed to upgrade the educational opportunities of ghetto residents and to test the feasibility of training grassroots leaders to conduct the administration of the project.

Wilson said two other ideas in this area — faculty donating their time for teaching and a counseling center off campus — are also being considered.

Forecast Is Mild, Chance of Rain

The weatherman predicts partly cloudy and mild with a chance of showers tonight and tomorrow.

And Friday's prediction is more of the same—cloudy with some rain likely.

★ ★ ★

Temperatures falling to a low of 42 to 48 tonight will aim for a high of 65 to 70 tomorrow.

Today's winds southwesterly at five to 15 miles per hour will continue.

LOW TEMPERATURE

Precipitation probabilities in per cent are: today and tonight 10, tomorrow 30.

★ ★ ★

Forty-three was the low temperature prior to 8 a.m. in downtown Pontiac. Sunshine pushed the temperature to 66 by 2 p.m.

Jackson Picketing

JACKSON (AP) — The Jackson City Commission was picketed at its meeting for the second week in a row yesterday by two groups — one demanding an open-housing ordinance and the other calling for a 10 per cent wage hike for some city employes.

Housing Ballot Phrased

The ballot wording for the referendum election on Pontiac's fair housing ordinance was approved by city commissioners last night.

City voters will decide June 24 whether the ordinance adopted by city commissioners earlier this year will be put into effect.

★ ★ ★

The wording of the ballot:

"Shall Ordinance No. 1577 of the ordinances of the City of Pontiac prohibiting discrimination by reason of religion, race, color or national origin in the sale, rental or dealings, concerning real estate located in the City of Pontiac, be adopted?"

Voters then can choose either, "for the ordinance," or "against the ordinance."

★ ★ ★

The ordinance, approved 4-3 by the commission, was never put into effect. Petitions requesting a referendum election were filed with the city clerk delaying the effect until a referendum election could be held.

Hamlin Opposes Airport-Vote Bill

Delos Hamlin, chairman of the Oakland County Board of Supervisors, today urged the State Senate to defeat a bill which would require a countywide vote on development of the proposed Oakland-Orion Airport.

The bill, as amended, was approved by the House yesterday without a vote to spare.

★ ★ ★

As approved by the Senate, the amended bill would have required a popular vote on all airport land acquisition in Oakland County. Bishop amended it in the House to cover only acquisitions of more than 600 acres—exempting the Oakland-Pontiac Airport in Waterford Township.

"This is bad legislation, aimed specifically at crippling the development of Oakland County," Hamlin said.

OPPOSITION CITED

The amendment to the bill, which gained 55-34 House approval, was offered by Rep. Donald Bishop, R-Rochester, who told House members, according to an Associated Press report, that his mail had strongly indicated opposition to the airport. A single vote could have reversed the decision, as exactly 55 were needed.

The bill, in a different form, has passed the Senate and as amended will return to the Senate. "I would certainly urge the Senate to reject this bill," Hamlin said. "And if not, I hope Gov. Romney will veto it."

★ ★ ★

The master plan for the facility was approved by the County Board of Supervisors last December. It has since met with Michigan Aeronautics Commission approval and is now under consideration by the Federal Aviation Agency.

Committee OKs Reserve Center

Location of a new $380,000 Army Reserve Center in Waterford Township met approval of an Oakland County Board of Supervisors committee today.

The buildings and grounds committee unanimously approved leasing the land, owned by the county, to the Army. The proposal will go before the entire Board of Supervisors at 9:30 a.m. Monday at the county courthouse auditorium.

★ ★ ★

A representative of the Chicago District of the Corps of Engineers told the committee the structure would replace present rented facilities at 40 Walnut in Pontiac.

★ ★ ★

It would be the new home of the 2nd Battalion, 2nd Brigade (BCT), and Battery C, 4th Battalion, 20th Artillery. Both units are composed of Pontiac area reservists.

IN COUNTY CENTER

The new building would be located on Watkins Lake Road, north of Pontiac Lake Road on 3½ acres of land in the county center. The Army would lease the site for $1 and after 25 years the building would revert to county ownership, under the proposed agreement.

The Army spokesman said if he received a lease or agreement by June 30, construction could start within the year and be completed in about 16 months.

★ ★ ★

The old site in Pontiac is a former garage. In January the building was burglarized and some 50 weapons taken including three rocket launchers.

Committee members said the advantages to the county would be in obtaining, after 25 years, a large building free of cost. The added security to the community with better Reserve facilities was also cited.

★ ★ ★

A disadvantage would be loss of the 3½ acres which could be used for county buildings, committee members said.

Columbia, SF State Sit-Ins Ousted

By United Press International

Students who seized school buildings at Columbia University in New York and across the nation at San Francisco State College were forced out almost simultaneously by police during the night.

★ ★ ★

At Columbia, nearly 150 students were evicted from barricaded Hamilton Hall by police who battered down entrances leading from an underground tunnel. Police then swept the sprawling campus to disperse 2,000 more angry students who goaded them, broke windows in the university library with rocks and set small bonfires in protest against the police action. At least 45 students were injured in the police sweep.

★ ★ ★

It was the second time in a month police evicted Columbia University students from campus buildings. Last month, five buildings were forcibly cleared of student rebels who occupied them in protest against plans to build a gymnasium in a park used by Negroes in nearby Harlem and against defense related university research programs.

Tuesday, rebels seized Hamilton Hall again — this time in protest against the suspension of Mark Rudd, leader of the first insurrection. Rudd was among those arrested early today.

27 ARRESTED

At San Francisco State Tuesday night, helmeted police cleared students from the school's administration building, arresting 27 persons. Nearly 200 students staged a sit-in at the building earlier in the day, demanding elimination of the Air Force Reserve Officers Training Corps from campus and a change in university policy toward minority groups.

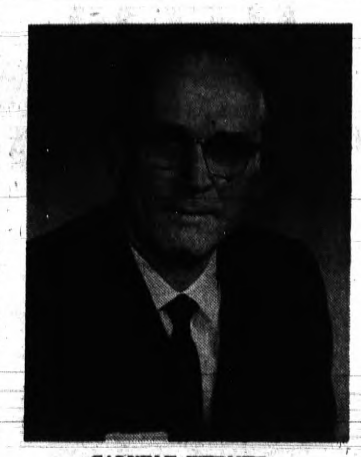

★ ★ ★

The number in the building dwindled by night but 26 volunteers remained to submit to arrest.

Those who remained, 15 men and 11 women, removed barricades before police moved in for the arrests.

★ ★ ★

Also taken into custody was attorney Terence Hallinan of San Francisco, who suffered a deep cut on the head.

10 Attorneys From India to Visit Area

BIRMINGHAM — Ten attorneys from India arrived last night for a month-long stay in area homes.

The visitors, nine men and a woman, are sponsored by the International Visitors Division of the International Institute of Metropolitan Detroit in cooperation with The Experiment in International Living, Putney, Vt.

During their stay they will become "members" of host families, observing and participating in the American way and life. They have been in Washington, D.C. since arriving in the U.S. Sunday.

The Indians are Mrs. Mani K. Cooper, Harbhajan S. Khurana, Saktinath Mukherji, Ramnaklal K. Dhami, Vinaykant L. Mehta, Adik R. Wamanrao, Vijay Mansingh, Sheshadri, Anil A. Mehta and the group leader Preetam B. Chugani.

HOSTS

They are being hosted by Mr. and Mrs. Clarence L. Hudson, Dr. and Mrs. Edwin Deer, Mr. and Mrs. Henry McQueen, Mr. and Mrs. Robert Veryzer, Mr. and Mrs. Don Simpson, and Mr. and Mrs. Bethel Kelley, all of Birmingham; Mr. and Mrs. Glen Wilson and Mr. and Mrs. Raymond Rappaport of Bloomfield Hills; Mr. and Mrs. Harold Alpert of Oak Park and Mr. and Mrs. John Hubbard of Orchard Lake.

Tours of many local and Detroit manufacturing plants, legal facilities and tourist attractions have been planned for the group during its stay.

Leaving Oakland County June 24, the attorneys will travel by bus to the University of North Carolina in Chapel Hill, for a week-and-a-half look at campus life. After their campus visit, a week's tour of New York City is planned before their return to India July 13.

Mrs. James Rae, 519 Rivenoak, Birmingham, is project chairman for this and similar groups of foreign visitors to the area.

BLOOMFIELD TOWNSHIP — Handicapped youth and their prospective employers will have an afternoon to get acquainted at the first annual Career Day for the Handicapped, to be held tomorrow at Marian High School, 7225 Lahser.

E. Eugene Russell, president of the Pontiac Area Chamber of Commerce, will be the featured speaker. Special guests will be Mrs. George Romney and the Rev. Roger Arnett, whose career as an athlete was cut short after the loss of a leg.

Representatives from 26 trade and technical schools in the metropolitan area will be present to discuss training opportunities with students and their parents.

While the students explore further educational possibilities, employers will meet with members of the Governor's Commission on the Employment of the Handicapped and specialists in vocational rehabilitation.

TO BE PRESENT

Present will be Earl Maxwell, Oakland County chairman, and Robert Millman, Michigan Vocational Rehabilitation, Department of Labor, Lansing; Lloyd Chapman, director, Michigan Rehabilitation Institute, Palinwell, and Irving Feldman, Vocational Rehabilitation Service, Detroit.

15th Heart Is Transplanted

HOUSTON, Tex. (AP) — The heart of a 17-year-old boy beat today in the chest of Louis John Fierro, the world's 15th heart transplant patient and the fourth to receive a donated heart at St. Luke's Episcopal Hospital.

A surgical team led by Dr. Denton A. Cooley implanted the heart in 30 minutes last night. Fierro, 54, an Elmont, N.Y., automobile salesman, was listed in "highly satisfactory condition" half an hour later.

★ ★ ★

The donor was Hubert Brungardt of Pasadena, Tex., who died at 10:35 p.m. A hospital spokesman said the teen-ager suffered a brain hemorrhage.

Fierro was admitted to the hospital Monday afternoon. Attendants said he had suffered numerous heart attacks.

SUFFERED CONVULSIONS

Brungardt left high school earlier this year after suffering from convulsions. He went into a coma Friday and never regained consciousness, the spokesman said.

The youth's parents, Mr. and Mrs. Humbert Leo Brungardt, have five other children.

Girl Abducted and Assaulted

An 18-year-old girl was abducted by an armed man yesterday while on her way to classes at Pontiac Northern High School and criminally assaulted after driving hundreds of miles on the orders of her assailant, city police were told.

The girl, a senior at the high school, contacted police about 7:30 p.m.

★ ★ ★

She told officers that the man jumped into the passenger side of her car when she stopped for a light at Columbia and Joslyn about 8:30 a.m.

He brandished the knife, she said, and told her to keep driving or be killed.

DRIVES NORTH ON I-75

The victim said she was directed to drive north on I-75 nearly to the Mackinac Bridge, then told to drive south to a rest area just north of Frankenmuth.

The kidnaper, who had allowed only two stops — both for gasoline — chose a deserted area after passing several busy ones, police were told.

★ ★ ★

The victim said she resisted the man's advances once the car was stopped, but was struck several times and knocked unconscious.

When she awoke, the man was gone, she said.

Police were contacted by the girl's parents after she drove home. She was treated at Pontiac General Hospital before talking with investigators.

The assailant was described as a medium-built white man in his 20s, about 5-feet-10 and 170 pounds.

Hearing June 10 on Tax Protest

The Michigan Court of Appeals has scheduled a hearing for June 10 in Detroit to review a Pontiac attorney's case against Michigan's state income tax.

The attorney, Richard D. Kuhn, said he was informed yesterday of the hearing date. The hearing will be in the first Federal Building at 10 a.m.

★ ★ ★

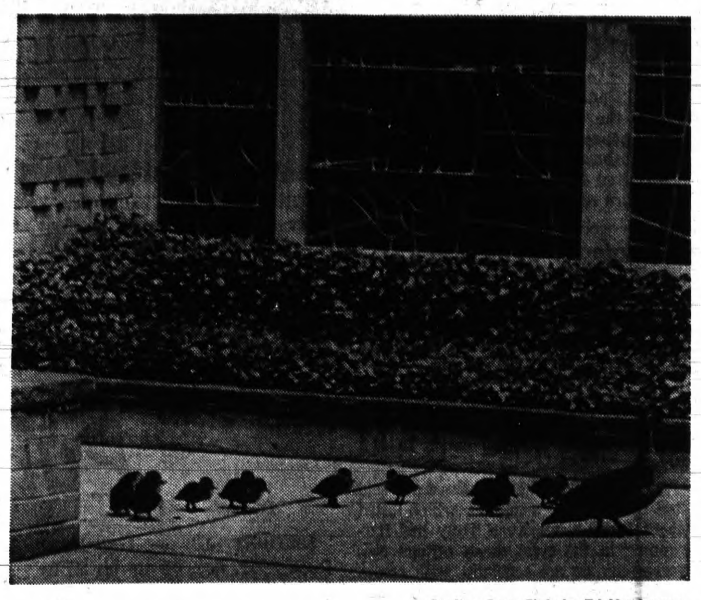

Kuhn has challenged the tax act on a number of grounds, including the fact that the public was prohibited from calling a referendum on the issue.

He filed his appeal after being denied relief by Oakland County Circuit Judge William R. Beasley last fall.

★ ★ ★

Believing that the state will have to return all income taxes if he's successful, Kuhn has paid his own taxes under protest as a means of establishing a refund claim.

Assigned to hear the case are Appellate Judges Thomas G. Kavanagh and Charles L. Levin, and visiting Circuit Judge Stewart A. Newblatt of Flint.

THE CHURCH'S FLOCK — This duck and her 11 ducklings have been under the wing of Central Methodist Church for the last six weeks. Landing in the enclosed courtyard at 3842 Highland, Waterford Township the duck laid her eggs in a nest in the plants alongside the building and is now carefully raising the youngsters. Rev. James McLaurin said the birds are fed and use the pool in the courtyard. He hopes the flock will prove faithful and return each year.

GM Exec Picked General Leader of Detroit UF

A former GMC Truck and Coach Division manager, Calvin J. Werner, has been named general chairman of the United Foundation of Detroit.

Werner of 2633 Endsleigh, Bloomfield Township, was chosen "because of his outstanding leadership qualifications and his wholehearted efforts on behalf of the 1967 Torch Drive," said Wendell W. Anderson Jr., foundation president.

★ ★ ★

Werner, a GM vice president, is general manager of the Cadillac Motor Car Division.

He estimated that more than 150,000 volunteers will be needed to carry the campaign message to contributors in Wayne, Macomb and southern Oakland counties.

Werner is a member of the GM administration committee and serves on the board of regents of General Motors Institute.

He is a fellow of the Institute of Electrical and Electronics Engineers, a life member of the American Ordinance Association and past president of its Michigan Chapter, and a trustee of the Foremanship Foundation.

Woman Killed in 2-Car Crash

A collision in Independence Township yesterday took the life of a 40-year-old Pontiac woman and left two of the three persons involved in the mishap hospitalized.

Killed at Sashabaw and Maybee about 11:45 a.m. was Mrs. Marjorie Tipton of 3900 Oakknoll, Waterford Township.

She was driving a car east on Maybee which collided with a car driven south on Sashabaw by Mrs. Clifford Barber, 28, of 4990 Sashabaw, Waterford Township, according to Oakland County sheriff's deputies.

Mrs. Barber and her daughter, Kimberly, 6, are reported in satisfactory condition in Pontiac General Hospital.

PASSENGER TREATED

Lewis Caverly, 44, of 2070 M-15, Ortonville, a passenger with Mrs. Tipton, was treated and released, hospital officials said.

Deputies said the impact of the collision carried both vehicles into a corner service station where they knocked out several gas pumps.

Wife Is Freed in Death Case

An Oxford Township mother of two was found innocent yesterday of murdering her husband last summer.

Acquitted in Oakland County Circuit Court was Mrs. Lois O. Greene, 37, of 1540 S. Lapeer.

A jury returned the verdict following a three-day trial, presided over by Circuit Judge James S. Thorburn.

Mrs. Greene, a librarian at Oakland University, had been charged with the Aug. 21 shooting of her husband, William, 38. He died of two 32-caliber bullet wounds in the head.

SHOT SELF

She testified that her husband had shot himself after becoming emotionally upset about the consequences of last year's civil disorder.

A witness for the prosecution, Dr. Richard E. Olson, said that he had examined the body at the scene and it was his opinion that neither wound was self-inflicted.

Greene was found dead by Oakland County sheriff deputies responding to a shooting complaint about 3 a.m. at the Greene's mobile home in the Parkhurst Trailer Park.

The Greene's two sons are 9 and 5.

phases of construction this year. More than $250,000 has already been spent on land acquisition at Oakland-Orion.

TWO STRIPS

In the first phase of construction, two medium-sized landing strips would be built, probably by 1970. This would meet immediate growth needs reflected by the almost-capacity operation at Oakland-Pontiac.

Ultimate plans call for four runways, two 7,000-feet long. The facility would be fully equipped for all-weather, night-day operation for general aviation purposes, serving small and medium-sized craft.

Hamlin said, "Airports are as vital to our county as other services like sewers. We are falling behind in aviation and could even use a third airport in the western part of the county."

He urged defeat of the bill, which would deprive the county of a "valuable asset."

Book Reveals County Growth

By ED BLUNDEN

Oakland County is growing by leaps and bounds, both in numbers of people and in affluence, and the future appears to call for more of the same.

All this is revealed in a new publication containing a wealth of information about Oakland County and the surrounding area. It is published by the Oakland County Planning Commission.

★ ★ ★

Called "Profile 68" the book is a storehouse of data on the county's past and present with projections of probable future growth.

George N. Skrubb, county planning director, said the book will prove valuable to public officials, bankers, businessman, real estate interests and educators. It can be obtained for $1 from commission offices at 1 W. Lafayette.

COMPARISONS

"Profile 68" includes such information as the fact that in this seven-county region, Oakland has the highest effective buying income per household — some 40 per cent of its families earn more than $10,000 per year.

Besides Oakland, information is compared with six other counties, Wayne, Macomb, Livingston, Monroe, St. Clair and Washtenaw.

★ ★ ★

The lists of data are broken down into four categories: population, economy, land development and services.

Skrubb points out the information contained in 79 subsections is of the type most frequently asked to be supplied by various agencies and businesses.

POPULATION INFORMATION

Information on population shows that Oakland is the largest county outside Wayne in the state. Oakland's present population is approximately 900,000. It also shows that between 1940 and 1960 the population of Oakland more than doubled and is expected to double again by 1990.

However, this is due to the influx of families and not mainly to the birth rate. As a matter of statistic, the county birth rate has dropped dramatically in the last 10 years. For 1966 it was 19.7 per 1,000 persons, slightly lower than the seven-county average. This compares to the more prolific year of 1956 with a rate of 31.4, over 50 per cent higher.

★ ★ ★

Another statistic projects that Oakland will pass the leading county, Washtenaw, in 1970 in education, based on the number of school years attended per person.

Regarding the economy, the period 1958 to 1966 shows over-all employment in Oakland increased 100 per cent in figures supplied by the Michigan Employment Office. Over half of the 195,000 county jobs are in manufacturing mostly with the auto industry.

FOURFOLD INCREASE

County retail sales in 1966 were $1.5 billion, the book reports, a four-fold increase since 1950. In addition it is shown the total deposits in commercial banks exceeded $1 billion, a five-fold climb in the same period.

Concerning land development, the planning manual points out Oakland has 900 square miles with 28 per cent defined as devoted to urban use. Lakes, ponds, rivers and streams occupy four per cent and the rest, 68 per cent, is classified as agricultural land or vacant.

★ ★ ★

However, looking forward to 1990, it is projected that 54 per cent of the county will be in urban use. Statistics on authorized new dwelling units in the seven-county area are a sharp indication of Oakland growth.

The number of units noted is the highest in Oakland and accounts for 38 per cent of all new housing in the area in recent years. In 1965 and 1966 some 21,500 dwelling units were added.

In the matter of services, the new book points out the county's equalized valuation of over $4 billion is about 10 per cent of the state total.

★ ★ ★

Over 70 public and private medical facilities serve the county; there are 13 colleges, universities and institutes with enrollment totaling over 15,000; about 40 public and private libraries contain over a million volumes.

Poor People's March Donations Are Sought

The Oakland County Ministerial Association is seeking contributions to help support the Poor People's March on Washington, D.C., the association's president, the Rev. Matthew M. Scott announced today.

★ ★ ★

Rev. Scott said donations will be accepted at any of the three churches, St. James Missionary Baptist Church, 345 Bagley; East Side Church of God, 343 Irwin; and Mount Calvary Baptist Church, 97 Mariva.

Press Group Hits Registration Bill

The Inter American Press Association has called on the governor of the United States Virgin Islands to veto a bill passed by the Legislature which would require prior registration of newspapers and magazines.

★ ★ ★

Following is a statement issued by Tom C. Harris, Chairman of the IAPA's Committee on Freedom of the Press:

"We are deeply concerned over a Bill passed by the Virgin Islands Legislature and sent to Gov. Ralph M. Paiewonsky for signature. This bill will require the prior registration of all written materials, including newspapers and magazines, for public consumption and other purposes. Registration must be made before the Commissioner of Finance.

'FREEDOM CURTAILED'

"Any law that requires registration of a publication with a government or government official in order to be published goes against freedom of press and we are shocked that a Legislature would pass such a law in view of the Constitution of the United States, whose very First Amendment prohibits abridgement of a free press.

"In the interest of maintaining a free press in the U.S. Virgin Islands we are calling on the governor to veto this bill and to see that it is not reinstated after the veto. Our association has been proud to have always listed the Virgin Islands among those countries with a free press. If this bill becomes law that status will change."

More Aid to Feed Poor Urged

WASHINGTON (AP) — Secretary of Agriculture Orville L. Freeman says Congress must come up with more money and grant added authority if his department is to expand programs for feeding poor Americans.

"Right now we are stretched to the very limit of our budget —our available manpower—and our legal authority to carry on these programs," he told the House Education and Labor Committee.

★ ★ ★

His remarks were prepared for a hearing today.

Some committee members said Tuesday they intended to question Freeman sharply about improving the school-lunch program.

MALNUTRITION STUDY

The committee is considering a resolution calling for a presidential commission to study malnutrition and report by Jan. 1.

Before about 35 persons from the Poor People's Campaign attending Tuesday's hearing, Rep. Roman C. Pucinski, D-Ill., contended immediate action—not further study—was needed.

★ ★ ★

"These people sitting in this room don't want to wait," he said. "They're here in Washington now because they want action now.

"We can't tell them there'll be more studies. We've had enough studies."

WARNING GIVEN

Freeman endorsed the resolution for a study.

And on the eve of the testimony, the Agriculture Department issued a warning to 53 counties in eight states it will step in unless they participate in federal food programs for the poor. A spokesman said the department "is determined to get the hungry fed by the end of the year."

★ ★ ★

"If we are to close the nutrition gap," Freeman told the committee, "we must continue to knock down the walls of public indifference, to gain widespread public recognition of the full range of needs and priorities of the poor.

"We must obtain more funds and additional legislation to meet the needs and priorities which cannot presently be met.

NEW AUTHORITY

"We have requested additional funds, and are seeking new authority to reach out to those people who cannot be reached today," he said.

Freeman said it was ironic that despite progress in the last seven years, "it is the U.S. Department of Agriculture that is severely criticized in public print and in congressional and nongovernment reports for allegedly callous indifference to the plight of the poor."

★ ★ ★

He said that in the 1960s the concept of family food assistance programs has shifted "from distributing a few surplus food items to increasing food purchasing power and improving nutrition through the use of food stamps" to help provide adequate diets.

In 1960, Freeman said, the Department of Agriculture offered only five food items—lard, rice, flour, nonfat dry milk and cornmeal. About 1,200 counties and areas were involved, with an average participation of 3.5 million persons.

ALMOST DOUBLE

This year, he said, the Commodity distribution Program includes—or soon will—2,400 counties and about 6.1 million persons.

Beginning Tomorrow in Birmingham

Jaycees to Start Campaign for Civic Plaza

By TOM GRAY

BIRMINGHAM — The drive to raise money for this city's $50,000 civic plaza will get under way tomorrow, according to Jaycees Executive Vice President Ronald L. Miller.

The Jaycees received formal approval from the City Commission this week of the concept and commitment for the plaza, which will extend north from the front of the Municipal Building to Martin Street.

★ ★ ★

Possible uses of the plaza, Miller said, include art shows, automobile shows, band concerts, flower and garden club displays, and political campaign speeches.

Miller said the Jaycees will be distributing a brochure with information on the proposal at a booth planned for the Village Fair which opens tomorrow in Shain Park.

CONTACTS PLANNED

During the summer and fall, he added, the group will be contacting foundations, industrial interests, service clubs, merchants and private individuals in an effort to raise the needed funds.

The only uncertainty remaining is the actual date of completion, Miller said. "In view of the building trades work stoppage, we feel that a realistic goal would be completion of the plaza in time for presentation to the city in Michigan Week, 1969."

★ ★ ★

The present proposal, he said, began in 1964-65, with formulation of general plans for the downtown area of Birmingham by the civic design committee, a group of interested citizens including architects and designers.

The work of the committee resulted in construction of a scale model of the central business district, paid for by the Jaycees.

NEED EMPHASIZED

"It was at this time that the need for a civic plaza was brought to light," Miller related, adding that the project was taken on by the Jaycees in hopes of providing a catalyst for work in other parts of the city.

The club pledged $10,000 last July for initial exploration of plans for the plaza. The city's urban design consultants, Johnson, Johnson and Roy, prepared a design for the proposal and budget in the amount of $39,178.

★ ★ ★

The budget was approved at a general membership meeting of the Jaycees in March, Miller said. The six weeks since that meeting, he continued, have been spent forming subcommittees and plans for funding the project.

Civic Plaza As Conceived By Urban Design Consultants

Imlay City Council Okays Benefits; Pay Dispute Over

IMLAY CITY — Everyone's at work in this village today.

Everyone, at least, employed by the village government.

★ ★ ★

The Village Council last night approved fringe benefits which ended a pay dispute which had caused all municipal employes but one to submit their resignations.

★ ★ ★

Okayed by the council, according to Village Manager Harvey Weatherwax, were full hospitalization insurance for employes and their families and a three-week paid vacation for employes after seven years.

NO PENSION PLAN

Weatherwax, the only employe not to resign, added, however, that the new budget contained no provisions for a pension plan or for resumption of the cost-of-living schedule, both principal points of discontent.

In place of the schedule, which amounted to $350 to $500 for each employe, the council had approved straight wage increases.

★ ★ ★

Public Works Supt. Kenneth Harley said at that time, however, that while the council had informed him of a wage increase, the elimination of the cost-of-living allowance was not made plain until after approval of the budget.

"They gave us $500," he commented, "but they took $400 away."

SPECIAL MEETINGS

Efforts at settlement of the dispute began immediately after the resignations were submitted. The council held special meetings Wednesday and Thursday nights, and Weatherwax met with employes Friday.

After that meeting, the village manager announced that the resignations, which had originally been scheduled to take effect Monday, had been extended to Wednesday.

★ ★ ★

Council President John Folk said the new benefits would not necessitate any change in the village's present tax rate of 9 mills. Earlier, Folk had stated that the salary raises were all the village could afford without boosting the rate.

Budget, 17-Mill Tax Levy OK'd by Keego Council

BY BETTY ANN SCHULTZ

KEEGO HARBOR — The nearly dozen residents who spoke up at last night's public hearing on the city budget asked how their taxes are spent and registered complaints about city services.

The City Council unanimously passed the 1968-69 budget and a tax levy of 17 mills for city operations, the same tax levy as last year. The budget remained essentially unchanged from what was proposed.

★ ★ ★

The only change was a transfer of $240 from the $2,000 contingency fund to the salary of the clerk-treasurer.

Total figures for the balanced budget are $143,930, up $18,000 from last year.

$5,540 FOR ROADS

Mayor Gene Yates explained that $5,540 goes for roads (no funds were allocated for roads last year) to add to $21,500 from state gas tax funds and $300 miscellaneous for the total road fund. road fund.

Salary increases include $200 for the city manager for a total of $9,000. The manager also received $200 more mileage allowance for a total $600.

★ ★ ★

One resident objected to the city manager's raise on grounds that he has less government administrative experience than the former manager, Gary L. Dickson. Mayor Yates answered that "knowledge will sometimes go farther than book learning."

Greig, previously on the council for eight years, accepted the manager's post last February and left his general and machine work job at nearby Daniels Manufacturing Co.

RAISES FOR PATROLMEN

The three patrolmen get about $500 raises each for average salaries of about $7,200. Chief James Sisk's salary goes up $714 to $8,200.

The clerical department is budgeted about $3,500 over last year's $9,450 allotment. Of the increase, $500 goes to the clerk-treasurer for a total salary of $4,740 and $700 goes to the Clerk Mrs. Josephine Ward for a salary of $6,100.

★ ★ ★

Budgeted for capital improvements is $400 to finance road repair and some equipment for the proposed fire department to be formed with Sylvan Lake and Orchard Lake within about a year, said Mayor Yates.

Other allocations are $650 for the area's Youth Protection and Child Guidance group and $12,500 for fire protection from the West Bloomfield Township department.

INCREASE

Most revenues are derived from $64,200 in property taxes, an increase of $20,200 from last year. This is mostly due to an increase in the city's state equalized valuation from $4.8 million last year to $5.2 million this year.

Several residents complained that while they are paying more money they are getting less services. Specific gripes centered on rutted roads, poorly maintained drainage ditches, and unmowed weeds.

★ ★ ★

City revenues are also up because of $6,000 from state income tax rebate. $9,000 decrease is anticipated in court and police fines due to the expected lower court reorganization.

West Bloomfield Gets Sewer Bond Sale OK

WEST BLOOMFIELD TOWNSHIP — The sale of $350,000 in special assessment bonds for sewers in the Brookfield Highlands Subdivision has been approved by the Michigan Municipal Finance Commission.

★ ★ ★

The beginning and completion dates of the project won't be definite until the bonds are sold, said Township Supervisor John Doherty.

$150,000 Gift Awaits Farmington Area

About 70 Farmington area residents are scrambling to take advantage of a $150,000 gift.

The gift is the Luman Goodenough estate on five treed and flowered acres at 24705 Farmington, Quakertown.

★ ★ ★

Some proposed uses of the house include an employment service, baby sitter director, art and music classes, dances, clubs, lectures and senior citizens' activities.

★ ★ ★

The son and two daughters of Goodenough offered the house, part of which was built in 1869, to the Farmington area last December.

MONEY RAISED

The two conditions of the gift are that the house be used as a community center and that by this December enough money be raised to renovate it and operate it for one year, explained David N. Mills, a director of the Farmington Community Center, Inc.

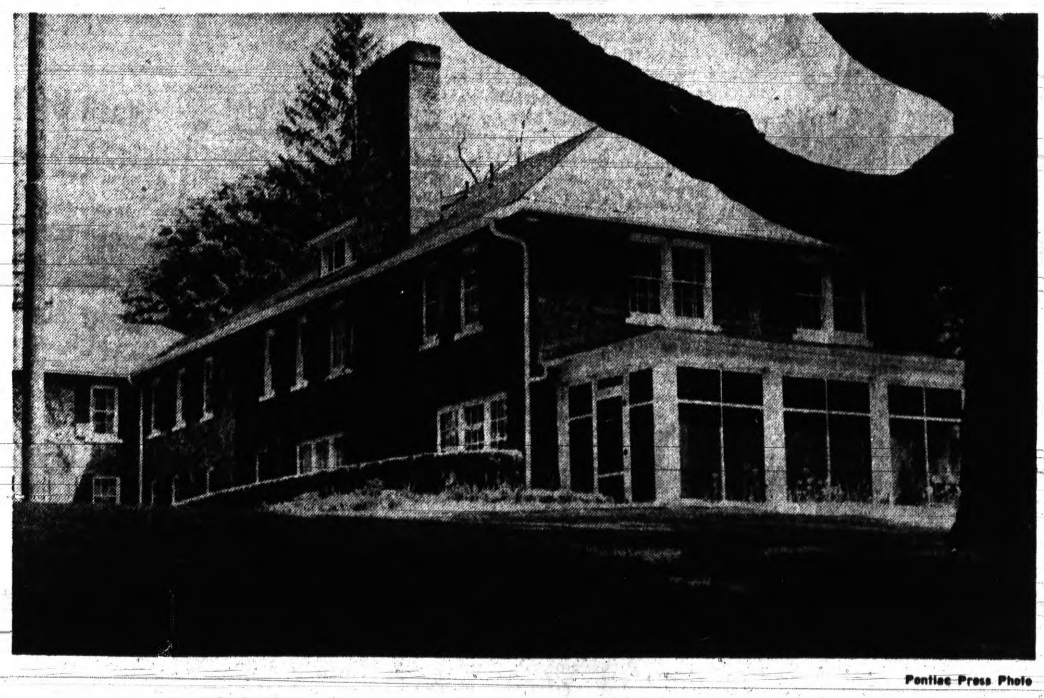

Mills reported that $30,000 has been estimated as the operation cost for one year and that $20,000 is needed for reconstruction.

The board of directors meets tomorrow night to discuss a money-raising campaign.

Other members of the board are Mrs. Thomas Czubiak, Mrs. Anne Moseman, Mrs. Harry Farmer, Wendell Brown, Fred E. Harrison, Richard Justice, Robert Orians and Mrs. Richard Peters.

★ ★ ★

The board of the nonprofit organization was formed in early March. Of the 200 residents who attended the meeting in the living room of the estate, 65 volunteered to serve on finance, organization, planning, and house and grounds committees.

Misalliance Can Defeat Idealism

In a Cleveland suburb, two youths described as "hippie-types" walked out into a highway's rush-hour traffic and rescued a three-year-old who was tricycling down the center line.

In Brussels, Belgium, a group of "hippies" was living it up in a discotheque when word came that an ancient church nearby was afire and priceless paintings were in danger of being destroyed. Several of the youths ran into the building and saved the art.

★ ★ ★

Isolated instances, the skeptic might say. But he would be wrong. By and large, today's teen-ager is not bad. He wants to look different—who wants to be a stereotype? He craves peace—who wants war? He espouses justice, tolerance and fair play—who's arguing?

Where contemporary youth may go wrong is in his associates. When one is in a minority—and what idealist isn't?—one is likely to align himself with anyone who seems to further his cause.

Too often this results in his being duped into a partnership that negates his original motivation. But being misguided is certainly not a blunder exclusive to youth; rather it is one which has been shared by young and old alike from time immemorial.

★ ★ ★

Today's youth is better educated, more politically astute and more economically solvent than his father. Because he doesn't have to worry about finding a job or getting his next meal, he can be concerned about starving children in India, racial equality and finding peace through international good will.

The road to maturity is intersected with many detours and a large number of us never reach our destination. Maturity is not an accrual of years but a state of awareness that is being found more and more among the young.

Echo I Seen Ending Life in Blaze of Glory

Scientists don't know whether it will end with a whsst! in a streak of flame across the sky or a pfsst! as it flutters to earth like an old rag, but they do know that Echo I's days are numbered.

The first fate seems the more fitting one for the 100-foot aluminum-coated balloon that was launched Aug. 12, 1960, as a passive communications satellite to bounce television signals across the Atlantic.

★ ★ ★

Echo I was the first satellite that could easily be seen with the naked eye, and people used to wait for its passage every night following the daily schedules printed in the newspapers. It was later joined by the larger Echo II.

The Echoes have long since been eclipsed by more sophisticated communications satellites like Telstar and Syncom, which have made "Live from Europe via satellite" programs a routine event.

★ ★ ★

Echo I has begun dipping deeper into the atmosphere. We hope that when the battered, punctured satellite finally does fall to earth, it will do so in a spectacular way. Just for old time's sake.

Castro Tightens Screws on Private Initiative

A recent news dispatch describes the plight of more than 48,000 small businesses in Cuba that have been nationalized so far in FIDEL CASTRO'S sweeping "revolutionary offensive" against antigovernment elements.

According to the intelligence, the Cuban government, in general, does not plan to indemnify owners. But, some of the pre-CASTRO firms with a good record of service to government might get paid. Apparently, if a business firm has maintained good public relations with the government, it stands a chance of receiving a payoff.

★ ★ ★

Morover, said the dispatch, "the government reported all bank accounts of small business owners had been frozen, with proprietors allowed a maximum withdrawal of $200."

Most of the owners and employes of the seized companies are expected to be sent into agriculture, or what the government calls productive labor . . . those whom it was impracticable to shift into other occupations immediately were given a $50 loan to live on during April.

Those who still believe that the principle of government of limited powers is old-fashioned might well regard the dire economic state of CASTRO'S island paradise.

The Wallace Potential Is Surveyed

By RAYMOND MOLEY

PHOENIX, Ariz. — This is the Western terminus of an automobile trip through several Southern states with stopovers in North and South Carolina, Alabama, Louisiana and Texas where I discussed the political situation with editors, businessmen and Republican political leaders.

MOLEY

It was quite natural that the major subject of interest was the possible impact upon the new Republican party in those states of the presidential candidacy of George Wallace in 1968.

★ ★ ★

I was told by responsible Republican leaders in South Carolina that while Wallace has been seeking support there, Republican prospects have never been so bright. Only recently a Republican mayor and city council were elected in Anderson, a former Democratic stronghold.

Alabama is probably safe for Wallace, but editors and political leaders there have the distinct impression that Wallace's potential elsewhere has slipped.

The death of Mrs. Lurleen Wallace has brought Albert Brewer into the governor's office. He has always been a Wallace man but is expected to tend more and more to be his own boss. Thus, the Wallace power base may be weakened.

In Louisiana one must distinguish between the northeast around Shreveport and the south which includes New Orleans. The northeast is conservative and leaning toward the GOP. The south is unpredictable and in places corrupt.

★ ★ ★

So far as the presidential preference of the state is concerned, much depends upon Gov. John J. McKeithen who, after his renomination, is enjoying rising popularity. And it may be that LBJ will induce him to support Hubert Humphrey or some other candidate chosen by the President. Thus he will be no stooge for Wallace.

In Texas there is as always a struggle between the long-established conservative Democratic party and the Yarborough liberals. Wallace recently visited east Texas and received a fair welcome. But neither of the Democratic factions will attach themselves to his cause.

To be sure, a great deal will depend upon the identity of the Democratic candidate selected in Chicago. If Robert Kennedy should be the nominee, the entire Southeast will reject him and probably divide its electoral votes beween Richard Nixon and Wallace. If Humphrey should be nominated, Wallace would have some appeal but not so much. Eugene McCarthy is not considered likely to be the nominee.

Over-all, it is my conclusion that from here on Wallace will be less and less a threat to the major candidates.

★ ★ ★

If Nixon and Humphrey — or some dark horse selected by LBJ — are nominated, the grave crises facing the nation will induce among voters a mood of serious concern about the future. In that mood voters are not likely to grant themselves the luxury of a protest vote for Wallace who cannot be elected.

They may well be convinced that if Wallace gets enough electoral votes to throw the election into the House, another crisis will be faced, for the nation would be substantially leaderless until the new Congress meets in January. People will more likely vote for a candidate who offers some assurance of stability and order.

It Loses A Little Something In The Translation

David Lawrence Says:

Candidates Are Inconsistent

WASHINGTON — Presidential candidates are out to get votes, and some of them do not realize their own inconsistencies. Just the other day Sen. Robert F. Kennedy of New York made a speech in Los Angeles which certainly was received with favor by Protestant, Catholic and Jewish groups which have been staunchly supporting the cause of Israel against Egypt and the Arab countries. Mr. Kennedy said:

LAWRENCE

"We cannot — and will not — permit the Soviet Union to achieve an imbalance in the Middle East. We can and will fully assist Israel—with arms if necessary — to meet the threat of massive Soviet military buildups. We cannot — and will not — render Israel defenseless in the face of aggression."

★ ★ ★

But during the last three years, on the other hand, the Soviet Union has been sending munitions to North Vietnam as well as bombing planes and other weapons of war mounting to a total of at least a billion dollars a year.

Yet no demand has been made by any of the presidential candidates that economic sanctions be taken against the Soviet Union and other Communist countries.

FORGOTTEN PURPOSES

Sen. Kennedy, in a speech in Portland, Ore., last month, criticized the administration's attitude even more severely when he said:

"American foreign policy has become identified with power, and in that obsession we have forgotten our purposes . . .

"By the unilateral exercise of our overwhelming power, we isolated ourselves. To many of our traditional allies and neutral friends, we behaved as a superpower ignoring our own historical commitment to a decent respect for the opinions of mankind."

Kennedy, in his speech on Monday, nevertheless recommended a stern policy in the Middle East and favored aid necessary" to meet the threat of the Soviets.

★ ★ ★

Opposition to the war in Vietnam has been expressed by presidential candidates appealing to voters who are fearful that their sons may be drafted or to the families of those young men who are already in the armed forces of the United States in Southeast Asia.

A large number of people in this country are deeply concerned with the events in the Middle East, particularly with the fate of Israel. Hence the political candidates see a big advantage in proclaiming their firm support of American intervention in the Middle East.

★ ★ ★

President Johnson, in announcing that he would not accept nomination for reelection, had hoped to take the Vietnam issue out of the campaign, but foreign policy seems to have remained an issue in the speeches by the two democratic candidates, Sen. Kennedy of New York and Sen. Eugene McCarthy of Minnesota.

It may well be questioned whether American involvement in the Middle East would be any more popular politically than the current participation in Vietnam.

Bob Considine Says:

Marchers Are Peaceful but Hoodlums Rule D.C.

WASHINGTON—So far, the most peaceful people in the nation's capital are the several thousand poverty marchers who are bivouacked on the lush green mall not far from the Lincoln Memorial.

CONSIDINE

Their plywood Resurrection City is still far from completed. Whether it is ever completed is a moot question. The movement is bankrupt.

★ ★ ★

But those who have come here are not in any ugly mood.

It is the lawless young resident Negroes and white hoodlums who have terrorized this capital of the Free World.

These are the punks who burned large portions of the city's business districts earlier this year. These are the reasons why the reign of terror continues.

BUS DRIVER KILLED

Last Thursday night and early Friday morning, a D.C. bus driver was killed at his wheel by a band of Negro youths, and six other drivers were held up and robbed at gunpoint.

The busmen's union demanded that a policeman ride every bus, but Washington's harrassed Negro mayor, who is also named Washington, pleaded that there just were not that many policemen available.

★ ★ ★

The dead bus driver was the fifth person killed in robberies in less than three weeks.

A check by a team of Washington Post reporters showed that hundreds of small D.C. merchants have been told that if they do not cooperate with those who prey on them, their stores will be burned.

FEAR REPRISAL

Many are afraid to call the police, for fear of instant reprisal.

Liquor store owners have found Washington a nightmare in recent weeks. The current issue of the Washington Examiner carried a full page black-bordered ad by the Washington Retail Liquor Dealers Association Inc.

★ ★ ★

It's startling headline reads: Ben Brown Is Dead. The ad features Brown's obituary, as it appeared in local papers after he was murdered while trying to protect his property. The ad's message read, in part:

"When hoodlums — regardless of age, sex or color — are undeterred by the prospect of effective law-enforcement, no one is safe. If criminals can loot, burn and kill in the inner city without fear of consequences, it is only a question of time before you, your family and your business can feel the effect. It makes no difference where you live, work or play: When law enforcement ceases, disrespect for the law is encouraged."

Washington has become a painted sepulchre.

Suggests Board Explain Changes in Recreation

Waterford Township deserves a complete explanation of the recent board action dissolving the recreation department responsibilities with the board of education. It has been a long and progressive relationship. The department has progressed and the recent addition of a successful community school program has given the township a more diversified program than other areas, all on a limited budget.

★ ★ ★

A divided program will cost the Township far more than its share of the other type of operation. Our community recreation should not be at the mercy of a few disgruntled sports fans or tossed into a political arena to be changed after each election.

★ ★ ★

I am sure the present board does not have any background that will assure Waterford any better program than we have had per dollar invested.

'Moving Brings Adventure and Problems'

For an ADC mother of four young daughters, moving is both an adventure and a problem. An adventure because we look forward to a new home, new friends, maybe a bigger yard, nearby woods or beach. The problem is where does one go? I'm told "two children would be fine, but four would be too many." Some open their doors to people with dogs, but not to an ADC mother of four lively youngsters. I don't become discouraged or give up, I shall continue to call until one day someone will say "I would be happy to help."

'Changes Needed to Remain Great Nation'

The U.S. is the greatest and most powerful Nation in the world. We produce more food than all the rest of the world. There is no doubt we produce more political eggheads and screwballs than any other nation. If there are not some changes made soon we will not remain the greatest Nation. We need a new president, an almost new Congress and a new Supreme Court. The revolution this Nation needs is one by the voters.

Answers Letter on Pictures at Local Theaters

I wonder what D. DeLaire expected to see when he entered the Campus Theater. The pictures and titles shown in The Pontiac Press ad are suggestive enough to leave very little to the imagination. The advertisement does state one has to have proof that he is 18 years old to enter. The drive-ins say 16, and then do not demand proof. They run some pictures I wouldn't want my teen-agers to see nor would I go to them. I'm not condoning pornographic pictures but if people aren't looking for dirt and smut, I suggest they avoid places they may find these things.

Replies to Letter on Recent School Event

In answer to a recent letter regarding an art show at Blanche Sims School, this was a poster contest, not an art show. Its purpose was to gain new members for the P.T.A. and to get posters to use for publicity. The rules stated that each poster must be brought by parent and child and the poster must state Blanche Sims Intermediate P.T.A. The poster referred to was of a cross with the words "the cross" printed on it. The statement "I don't understand" didn't mean we didn't know what it stands for but that the connection wasn't understood.

Explosion Brews

Hillsdale Daily News

Cuban refugees arriving on the twice-a-day airlift to Miami say an internal explosion is brewing on their island.

They point to Castro's arbitrary closing of 6,452 businesses and all the 955 bars and cabarets in Havana —all privately owned.

★ ★ ★

Castro, according to the Citizens Committee for a Free Cuba, has accused proprietors and clients of being "counterrevolutionaries."

Castro has also ordered the national lottery closed down, claiming that "bums and loafers" were living off it.

★ ★ ★

In short, say the refugees, there is beginning to be serious question about the man's sanity, even among his supporters.

Food and clothing are almost impossible to find even for those who have money. Sporadic anti-Communist demonstrations have been reported in Gulnes, Sancti Spiritus, and Camaguey, Cuba's third largest city.

The sugar crop is disastrously small.

Says the Citizens Committee: "It is at least possible that Castro himself may not last out another year in power. But this possibility will depend in large measure on Washington's ability and willingness to capitalize on Cuba's internal unrest."

Turtlenecks

Toronto (Can.) Star

The turtleneck sweater is the most dashing piece of men's wear since boxer shorts.

For too long the turtleneck had been the exclusive property of British submarine crews and an occasional blue-water sailor.

★ ★ ★

Now it's fashionable for the well-dressed man-about-town to have several for day wear and one or two silk ones to go with his dinner jacket.

But, as usual, business offices are the holdouts. It would take a bold man, indeed, to show up at his brokerage, trust company or insurance office in anything but a sensible shirt and tie.

★ ★ ★

Well it's time we started thinking about the sartorial unthinkable. If a secretary can look fetching in a mini, there's no reason why a junior executive shouldn't look dashing in a turtle.

★ ★ ★

It is, after all, spring. And as the Canticles say, "the flowers have appeared in our land, the time of pruning is come."

Why shouldn't the sight of the turtleneck be seen in the land?

Gary Negroes End Boycott of Schools

GARY, Ind. (AP) — Negro leaders in Gary have called off a seven-day school boycott in the face of a court injunction and a planned march on city hall by whites.

Jesse S. Morris, 35, who directed the demonstration against alleged school segregation, said, "We squeezed as much out as we could. What we got is considered good. We've alerted parents to the issue, and it's up to the parents and adults to apply the screws to school officials in the future to see that what has begun is continued."

★ ★ ★

The boycott, which began May 13 and kept as many as 20,000 pupils out of Gary's 44 public schools, was called off Tuesday after Judge A. J. Stodola of Lake County Superior Court issued, at the request of school officials, an injunction prohibiting continuation of the boycott.

Three white groups representing about 1,000 persons announced a march to city hall today to ask Mayor Richard G. Hatcher why he permitted the boycott to last so long.

AGREES TO MEETING

"We object to children being used as pawns, as a solution to any grievance, by teaching them civil disobedience," said a joint statement by the groups.

Hatcher, first Negro mayor of this steel center of 182,800 population, more than 50 per cent Negro, agreed to meet with the white groups but termed their move "an act of provocation."

★ ★ ★

Hatcher said he had no authority to end the boycott but that he has been pressured to arrest idle pupils for truancy. "How can you put 20,000 parents or children in jail?" the mayor asked.

★ ★ ★

The list of absentees dropped gradually with about 8,000 reported Tuesday. The average daily total is 2,500, officials said.

IMMEDIATE REMOVAL

Negroes also sought immediate removal of acting School Supt. Clarence E. Swingley, scheduled to retire June 30.

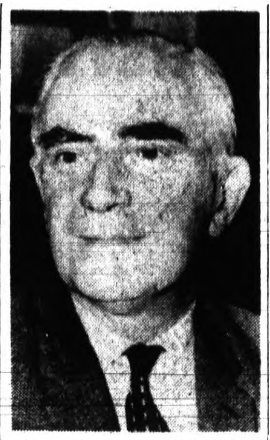

★ ★ ★

Morris said it was Swingley's "unwillingness to communicate that led up to the boycott." About a dozen Negroes stormed the Gary School Service Center Friday and held it until a meeting with school officials was arranged.

★ ★ ★

The boycott cost Gary an estimated $100,000 in state aid, based on the loss of 75 cents a day per absent pupil.

'69 Fords to Have 2 New Safety Features

DETROIT (AP) — Ford Motor Co. said Monday it would introduce on its 1969 model cars two new safety features—an energy absorbing frame and a computerized skid-control braking system.

Standard-sized Ford and Mercury cars are to be built on frames featuring S-shaped side rails — the frame members which ordinarily go straight forward on either side of the car's chassis.

★ ★ ★

The new braking system, to be available as optional equipment with Thunderbird and Continental Mark III autos, will prevent rear wheels from locking through the use of an under-the-dash solid state computer about the size of a paperback book.

In a severe impact, the firm's Product Development Group said, the S-shaped frame members collapse, absorbing shock and reducing front seat belt loads by as much as 25 per cent.

ABSORBS NOISE

In addition to absorbing shock under high impact, the firm says, the new frame absorbs noise and vibration in ordinary road use.

The solid state electronic components in the antiskid-device computer, Ford says, read electric signals from sensors on rear wheels and then transmit directions to an actuator in the engine compartment.

★ ★ ★

The vacuum-powered actuator then regulates brake fliud pressure to the rear brakes.

When the system — dubbed "Auto-Linear" by the firm — is operating during a panic stop, the effect is said to be similar to the result when a skilled driver pumps the brakes lightly on a slick surface.

STOPPING TIME

Because the device is designed to prevent the rear wheels from locking altogether —a condition not conducive to ideal deceleration — stopping time and distance may be decreased, the firm says.

★ ★ ★

Directional stability is maintained during all braking action, Ford adds.

Should the device fail to operate, the auto maker says, the brakes would function as though the car were not equipped with the Auto-Linear. A dashboard light would warn the driver in the event the unit fails.

Talks to Continue in Ranney Walkout

GREENVILLE (AP) — Negotiations on a new contract to end a strike by the United Auto Workers union against Ranney Refrigerator Co. were to continue today.

Dale Swan, president of UAW Local 308, reported "no progress" at a bargaining session Tuesday with company representatives called by a federal mediator.

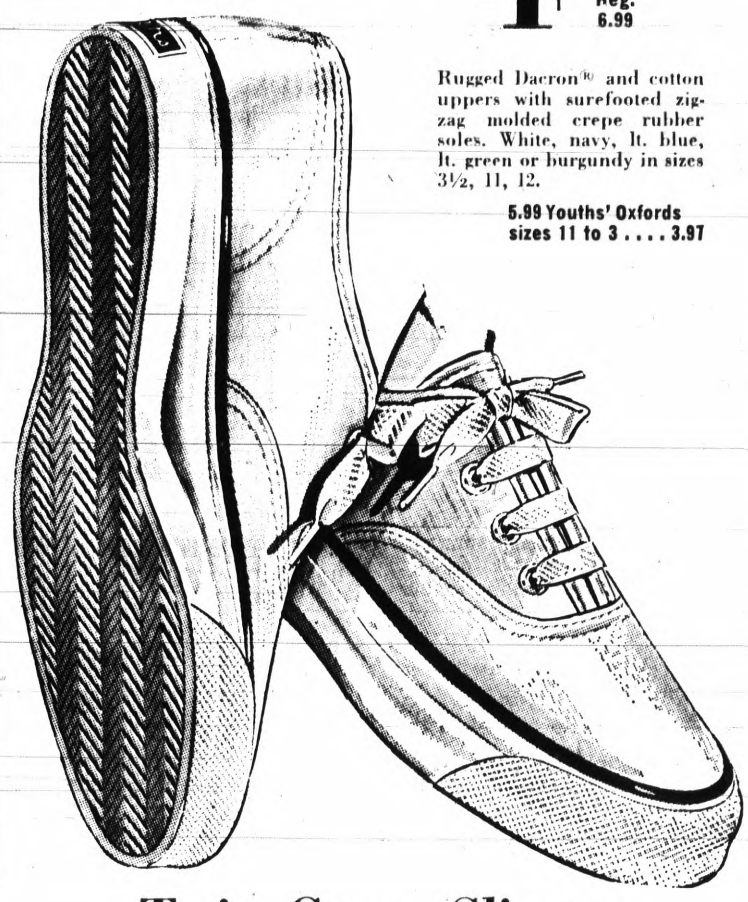

★ ★ ★

Members of the union walked off their jobs April 8 in a new contract dispute after the old pact expired.

Poor Determined to Wait for Justice

By WHITNEY M. YOUNG, JR.
Executive Director
National Urban League

Washington, D.C. once more is the place of assembly for thousands of marchers seeking broad changes in our system. The Poor Peoples' March is, however, different from those which preceded it.

In the first place, it's not a one- or two-day affair. Temporary living quarters have been set up, and Rev. Ralph Abernathy, Dr. Martin Luther King's successor as head of the Southern Christian Leadership Conference, is determined to keep the marchers in Washington until the actions of Congress reflect the seriousness of our domestic crisis.

★ ★ ★

Another difference is that this march is not the special province of any single ethnic group. Negroes predominate, but that is only because so many of the poor are black.

But poor whites, like those in Appalachia who were promised an end to their poverty but go nothing more than promises, are also marching.

OTHER MARCHERS

So too are American Indians who saw a continent stolen from them and then were reduced by the victors to the most abject poverty.

Puerto Ricans and other Spanish-speaking citizens are also Washington-bound, seeking an end to the discrimination which keeps them out of jobs and to the end of exploitation of farm labor and migrant workers.

★ ★ ★

Many Americans suffer the dull ache of poverty. Negro share croppers forced off the land in Mississippi are literally starving. Doctors have testified to the effects of malnutrition on young children. Many are crippled for life because of starvation diets.

Other effects of poverty are rat-infested homes, broken families, bad health, and the horrors of watching beautiful young children lose their innocense and potential, and become hardened and old before their time.

MOST WEALTHY

And all this is happening in the midst of the most fabulously wealthy nation in history.

Some people, including congressmen, have already protested the march. I guess it makes them nervous when they have to see the poor with their own eyes. It's much easier to vote against rent supplements and antipoverty funds when you don't have to see the results of your work.

★ ★ ★

To the people who say that such a march of citizens to the nation's Capitol is a tragedy, I would say that the real tragedy lies in the fact that the poor should have to march at all. The real tragedy is that of a society which refused to listen to the cries of poverty for all these years.

The poor shouldn't have to march. Others should be marching. America's privileged people—the rich and the upper-middle classes who reap such enormous benefits from our way of life—ought to be dramatically calling on Congress to provide a measure of justice for the poor.

AT LEAST RIDE

Congress itself ought to be out marching to the poor sections and to the ghettos of America which it helped to create. And if members are too busy to march, at least let them ride to the poverty-stricken areas. That way they could get some reading done too — books like the Kerner Commission Report, which tells what has to be done to end our urban crisis.

And once they get to the ghettos, these lawmakers ought to climb the rickety stairs, smell the uncollected garbage, eat the surplus food, battle the rats at night. I have a hunch that educational marches to the slums could change an awful lot of votes.

YOU MAY HAVE
PIN-WORMS
AND NOT KNOW IT

Fidgeting, nose-picking, a tormenting rectal itch are often telltale signs of Pin-Worms...ugly parasites that medical experts say infest 1 out of every 3 persons examined. Entire families may be victims and not know it.

To get rid of Pin-Worms, they must be killed in the large intestine where they live and multiply. That's exactly what Jayne's P-W tablets do . . . and here's how they do it:

First—a scientific coating carries the tablets into the bowels before they dissolve. Then — Jayne's modern, medically-approved ingredient goes right to work—kills Pin-Worms quickly, easily. *Ask your pharmacist.*

Don't take chances with dangerous, highly contagious Pin-Worms which infect entire families. Get genuine Jayne's P-W Vermifuge . . . small, easy-to-take tablets . . . special sizes for children and adults.

Gala Events Herald Festival's Opening

In five short weeks the fifth season of Meadow Brook Music Festival will commence.

As in past years, a large group of women from the metropolitan Detroit area and from out-state spend many hours promoting the summer musical event and selling tickets.

Teas and coffees are given to stir up enthusiasm and to acquaint new members of the committees with both the technical aspects of promotion and with the Festival itself.

Within the past week, more than 200 women have attended such meetings; others are planned.

Mrs. Stephen S. Page, chairman of the Walnut Lake area, arranged last Friday's tea at the Lone Pine Road home of Mrs. Martin Butzel.

Mrs. Russell Barget, working with Mesdames Leonard Meldman, R.T. Gerhart and Donald Somers, supervised the Tam O'Shanter Country Club coffee.

★ ★ ★

The Detroit Symphony Orchestra with Camilla Wicks, violinist, will open the season June 27. Season tickets are available from the Festival office at Oakland University.

Pontiac Press Photos

Tam O'Shanter Country Club hosted a coffee Tuesday morning for members of the Meadow Brook Festival committees; it was a "first" for this type of party. From the left are Mrs. Charles Pollock and Mrs. Merle Peterson both of Orchard Lake, Mrs. Reed Shankwiller of Wild Ridge Road, West Bloomfield Township and Mrs. Don Somers of Birmingham.

Mrs. Martin Butzel, Lone Pine Road (in foreground) was hostess at a recent tea for Meadow Brook Festival committee members in the Walnut Lake area. These dedicated women are working hard to sell tickets for the fifth season of the nationally known festival. In the rear, from left, are Mesdames Lowell D. Parker, of West Maple Road; Robert E. Clark, Turner Drive; Earnest W. Elliott, Wendell Road, and Kenneth G. Kuffer, Normanhurst Lane, all West Bloomfield Township.

Enjoying the midmorning sun at Tuesday's event is this Meadow Brook Festival Committee trio (from left) Mrs. Virgil Boyd of Bloomfield Hills, who with her husband is cochairman of the Festival; Mrs. D. B. Varner (Oakland University's first lady) and Mrs. Russell Barget of Walnut Lake.

Girl Returns Gifts Following Brief Marriage

By ELIZABETH L. POST

Dear Mrs. Post: Yesterday, I received from a bride of three weeks my wedding gift to her with a note reading, "Since our marriage was only temporary, I feel obliged to return your lovely wedding present."

★ ★ ★

I know she was right. I know that all wedding gifts are given for the couple's married life, and should this state not be realized, the present must be returned. But, on the other hand, wasn't I on the receiving end at the wedding reception? Couldn't the bride keep my gift? — Marion

★ ★ ★

Dear Marion: The girl was right in her thoughtfulness, but wrong in her action. Wedding gifts need not be returned, no matter how brief the marriage. The exceptions are presents to her from the groom himself, or presents of particular sentimental value given to them both from his family. These should be returned.

WHEN WORN?

Dear Mrs. Post: Would you kindly state your views on the use of a diamond wristwatch with diamond wristband? I have a friend who wears hers in the morning and afternoon — but not in the evening.

Along with the watch she wears her diamond engagement ring on the right hand — in addition to necklace and earrings (not diamonds). How about the use of a diamond studded watch with a plain wristband — do the same rules apply? — Evelyn

★ ★ ★

Dear Evelyn: When a diamond wristwatch has a diamond band it becomes ornamental jewelry rather than a necessity. It may be worn in the daytime, but only when the wearer is "dressed up." Such a watch should never be worn when marketing, taking part in a sport, etc.

★ ★ ★

Your friend uses more jewelry than is in good taste for daytime wear. If the watch did not have a diamond band it might be worn any hour, except — again — when participating in sports.

Just Summer Romance; Don't Plan on Wedding

By ABIGAIL VAN BUREN

DEAR ABBY: I am a divorcee. Last summer I met a man on a plane. He's my age (late forties), is extremely charming and attractive and he's very successful in his work.

ABBY

We hit it off immediately and had several dates while I was in the city. We keep in touch with each other through letters and telephone. He admits to having a "deep feeling" for me, but says he has had two unsuccessful attempts at marriage and he's made up his mind not to get that involved again. He says he had "conditioned" himself against marriage. Can this be?

He is busy with his work and I am busy with mine, and I also have teen-aged children. I think this guy is worth pursuing, and I realize if this is going to develop into anything more serious and lasting we will have to see more of each other.

I could go to his city again this summer, and I'd like to, but I don't want to be obvious. How should I go about it?

A SUMMER ROMANCE

DEAR ROMANCE: Sorry, but I can't give you a blueprint for going about something I think would be a mistake. If you're looking for marriage, you won't find it with this charming, attractive twice divorced man who, by his own admission, has "conditioned" himself against it. But if you want another "summer romance," he sounds like a cinch.

★ ★ ★

DEAR ABBY: My sister and I are worried about our seven-year-old sister. She keeps wanting to be someone's animal. One day she might want to be someone's horse, and the next day she might want to be someone's dog, or cat. I suppose this doesn't seem much like a problem, but she never wants to be the "master" — she always wants to be the animal. Is something wrong with her? HER "MASTERS"

★ ★ ★

DEAR MASTERS: This could be the subject of an interesting psychological study. One who prefers to be "mastered" appears to want desperately to please. This is usually the way the younger child ingratiates himself to his older siblings and playmates.

It's normal in childhood, but could warp the personality if carried beyond the adolescent years.

★ ★ ★

DEAR ABBY: As a mailman, I would like to reply to the woman who wondered where her brother-in-law, the postman, got all the magazines and "free samples?"

Many of these "occupant" samples have outdated addresses. Since they are sent third class mail, they are unreturnable and undeliverable, so they are supposed to be destroyed. Instead of doing this, we mailmen are allowed to take them home. Nothing unethical about that, is there?

Re the magazines with the addresses cut off: If a magazine is not deliverable, the address is cut off, and sent back to the publisher, and the magazine is either destroyed or the postman is allowed to take it home.

All mailmen are not honest, but I am, so you may sign this, "The cleanest-shaven best-smelling, best-read, most happy-go-lucky mailman in Upper Michigan. THAT'S ME

YWCA President Has Personal Reaction to Problems of Race

NEW YORK (NEA) — Who is the middle-class Negro? Where does he fit in the current jumbled skein of race relations? What has the moderate being doing all these years?

Trying to answer these questions with her words and actions is Mrs. Robert W. Claytor of Grand Rapids. Helen Claytor is several months into her three-year term as president of the YWCA National Board of the United States.

★ ★ ★

Her election is timed perfectly. So much so that it may appear a planned coincidence to those unaware of the internal changes taking place behind the famed Blue Triangle.

However, her position is a logical step in the organization's goals that touch more than 2.5 million women "that their lives may be open to new understanding and deeper relationships."

Mrs. Claytor is a YWCA career woman. "It was," she said here recently, "one of the few job possibilities for an educated Negro when I graduated from the University of Minnesota."

OTHER ACTIVITIES

Her other activities include the Michigan Welfare League and State Youth Commission, Kent County Planned Parenthood Council, Christian Social Relations Department, Episcopal Diocese of Western Michigan and National Women's Advisor Committee on Poverty.

Her experiences bridge the years of opportunity and nonopportunity for her people. "I realize," she commented, when asked about her three children, "that the things my older son, Roger Wilkins, does now were not possible for me to do when I came out of college."

Wilkins, son of her late husband, whose brother is Roy Wilkins of the NAACP, is director of Community Relations Services, U.S. Department of Justice. Her pride glows in her gentle face, framed by her soft, graying hair.

★ ★ ★

"Roger says that a Negro to make it today has to be born in the North or be especially strong or both.

"I had everything going for me."

Mrs. Claytor then explained that, except for two brief occasions — "those little dinky times" — when she lived in pocket ghettos in Kansas City and New York, hers has been an integrated life. Her father, a self-educated lawyer, and her mother, who taught cooking on an Indian reservation in a Civil Service job, moved to Minneapolis from South Dakota so their three daughters could receive a good education.

"My father had a tremendous drive for education and I was happy he was alive to see me become a member of Phi Beta Kappa.

"His passion for excellence keeps me straight when I am tempted to squeeze by with less effort than I should put into a job," she explained.

LIVED ON HOPE

"My feeling always has been that, if I was prepared, there was some hope I could become part of the mainstream of life."

Certainly she has. The Negro doctor, lawyer and businessman represent, she said, "those of us who didn't settle for segregation. We had hope."

Continuing outbreaks of violence, and even self-destruction, Mrs. Claytor lays at the altar of hopelessness.

"The response we are getting from youth now is that there is no hope, no chance to be trained, no jobs, no future. They feel there is nothing to lose if they riot."

★ ★ ★

Unfortunately, sympathetic middle-class Negroes are almost as resented as Whitey, she said. "Those in the ghettos resent Negro doctors and lawyers offering advice and help unless they live there. They say they want to do it themselves."

Mrs. Claytor's younger children by her second marriage to a Grand Rapids doctor, she admitted, "are more militant and less patient than I but they indicate they want to work in a responsible way.

"My dauhter says she wants to do something of social significance and my son says he wants to be a lawyer, working for social justice."

★ ★ ★

This, then, is a sketch of a middle-class Negro who this month and through the summer will be urging YWCA groups in the United States to take part in a deep dialogue program to "Break the Barriers."

NO HOPE IN GHETTO

"Hope is what the ghetto people lack today.

"The middle-class Negro is coming along fast. But the mass of Negroes live in a morass of hopelessness. Their income is the same as during the Depression. They live in a perpetual state of depression.

"The tragedy is," she continued, "that no one listened through the years when we tried to point this out."

MRS. CLAYTOR

Faculty Unit Fills Offices

At a luncheon meeting held in the Pontiac Elks Club Saturday, Mrs. David Carpenter, of Warren, was installed as president of Oakland Community College Faculty Wives for the coming year.

Serving with her will be: Mrs. Richard Thompson and Mrs. Joseph Kelty, Vice presidents; Mrs. James Hansen and Mrs. John Davenport, secretaries and Mrs. Earl Long, treasurer.

★ ★ ★

The club, which was established to promote friendships, acquaint newcomers with the area and to raise funds for educational services at OCC, will begin its fourth year.

★ ★ ★

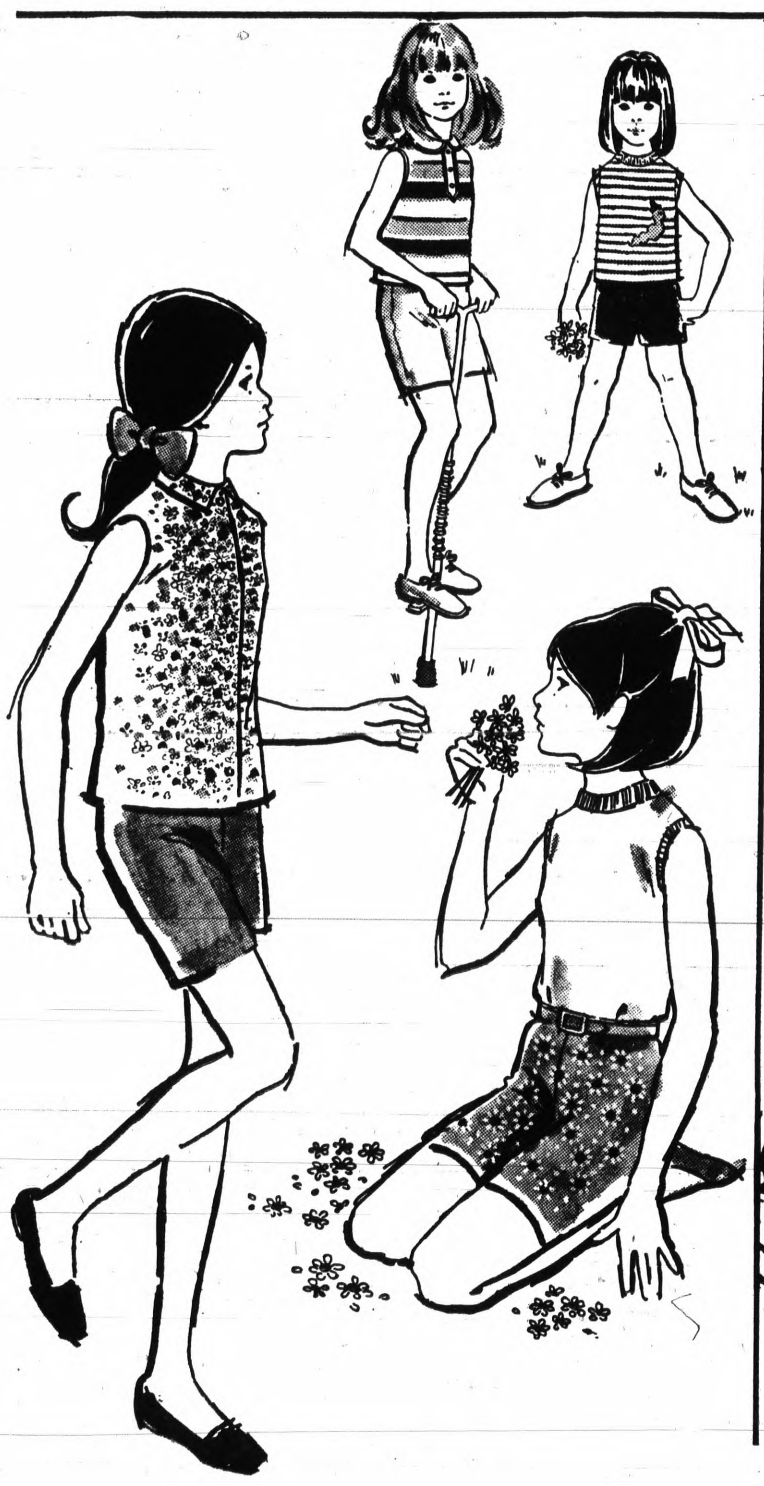

Proceeds of all money-making projects will be used for book scholarships for three deserving students, one from each campus, during the 1968-'69 semesters.

★ ★ ★

Luncheon cochairmen were Mrs. Walter Fightmaster and Mrs. Henry Graham.

Rent 'Anything' Taken Literally

CHICAGO (UPI) — "Borrow anything your heart desires" is the motto of a nationwide system of rental centers. Some customers have taken the slogan literally.

SEW SIMPLE
By Eunice Farmer

Dear Miss Farmer,

You tell us that pattern companies very rarely make mistakes, but I must ask about the position of a dart on a new pattern. There is no bust line dart. Instead, the dart extends at an angle from the armhole to a point above the bust.

I have read that a dart may be repositioned to the most becoming line for the individual. I have never heard of a dart that extended from the armhole and wonder if there was an error in the pattern. If not, can the position of this dart be changed?

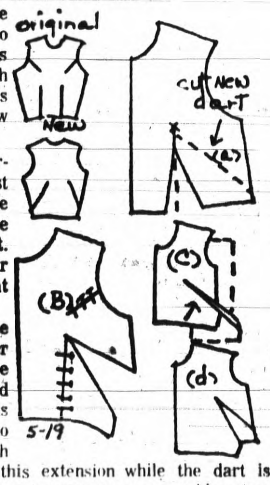

Mrs. E. H.

Dear Mrs. E. H.:

Yes, the position of any dart may be changed, but if you are a complete beginner at sewing I wouldn't suggest you begin by changing the darts. Follow the instructions carefully, step by step, and then try your next experiment on an inexpensive piece of fabric. If this works out, you will have new courage to experiment more often.

★ ★ ★

If you wish to change your dart to a French dart, one that extends from below the waistline at the side seam and angles up to the point of the bust, you must draw a line on your pattern for this dart. Slash your pattern on this new line (a).

Now, cut your pattern at the center of the dart you wish to take away. Lap the seam lines of the original dart over each other and pin closed (b). This will automatically open the new dart to the correct width.

You have one more important detail to complete. You must know just how large the side seam extension should be for the new dart before cutting garment. Pin a piece of paper under your pattern, forming an extension at the side.

Next fold your pattern on the new dart, bringing the lower edge of the dart up to meet the top edge (c). The extended paper should be included in this fold. If there are any changes to be made at the side seams such as adding extra width, draw this extension while the dart is still folded in place. Cut your pattern on your new side seam marks, unpin the pattern and fold down the new dart (d). You will be amazed to find the shape of the side seam to accommodate this dart.

I hope you won't be discouraged by mentally trying to follow these instructions. File this column away until you wish to change the darts and then follow my instructions step by step—it really works!

Tired-Eye Treatment

To rest tired eyes, try closing them and cupping them with the hands for a few seconds.

The engagement is announced of Bonnita Anne Knox and Lloyd C. Van Gordon. The bride elect, a student at Oakland Community College, is the daughter of Mr. and Mrs. Burt Knox of Cascade Street, Commerce Township. Her fiance, who has attended Central Michigan University, is the son of the Maurice J. Van Gordons of Lakeside Street, White Lake Township.

Wedding Bells Ring for Three Area Pairs

A double ring ceremony in Auburn Road Church of the Nazarene Saturday joined Linda Kaye Caldwell and Richard Edward Fancy in Marriage.

For the afternoon rite, the bride was attired in white satin with on overdress of scalloped lace. The mantilla veil of matching lace was capped with a cluster of daisies.

She carried a white Bible with daisies and yellow baby roses.

★ ★ ★

Diana Gill and Fred Hargrave served as honor attendants for the couple whose parents are Mr. and Mrs. Tunis Caldwell of Melvin Street, Avon Township and the Raymond Fancys of Natick, Mass.

Completing the bridal party were Kathy and Judith Caldwell and Barbara Fancy as bridesmaids, with Mike Burton, Greg Hill and Bruce Wigton as ushers.

The newlyweds greeted guests at a reception in the church parlors.

Miracle-Holiday

United Presbyterian Church was the setting Saturday for vows spoken by Sandra Elizabeth Holiday and Ronald Miracle of Briggs Street.

★ ★ ★

The bride, in full-skirted lace over taffeta with attached train and bouffant veil, was attended by sisters Carol and Barbara as maid of honor and bridesmaid.

The bridegroom's attendants were James and Gary Miracle and Michael Holiday.

PARENTS

Parents of the couple are Mr. and Mrs. Clifford Holiday of Gainesborough Street and Mrs. C. B. Miracle of Pineville, Ky., and the late Mr. Miracle.

A reception followed in the church parlors. The couple will reside in Pontiac.

Miles-Kitzmiller

Carrying a bouquet of white roses and carnations, Beverly Ann Kitzmiller became the bride of Floyd P. Miles Jr. in First Baptist Church of Pontiac Friday evening.

★ ★ ★

Her peau d'ange lace sheath was accentuated with a petaled headpiece and veil of illusion.

Matron of honor was Mrs. Raymond Cochran with bridesmaids Mrs. Donald Kitzmiller and Carolyn Rudlaff. Sherrie Rudlaff was flower girl.

Best man was Richard Rudlaff with Gary Kitzmiller, Daniel Miles, Vern Roberts and William Foster ushering.

★ ★ ★

Following a reception in the church parlors, the daughter of the Irvin B. Kitzmillers of Rochester Road, Oakland Township and son of the senior Mr. and Mrs. F. P. Miles of West Columbia Street, left for a honeymoon trip to the HemisFair in San Antonio, Texas.

A gold wool knit dress (left) with a white bib and cuffs edged in brown to match the neckline bow, knitted in Italy for fall 1968. Pockets are slashed into side seams. On the right is a brown and white striped coatdress, its casual outline banded in a diagonal stripe — in wool knit. Double buttons are set between the V neckline and the leather belt held by buttoned tabs. Francesca for Damon creates this trio of knits for fall '68. Line available locally.

THE FRAGRANCE OF FLOWERS

Man has used flowers for thousands of years in making perfume. Scents from roses, lilies, and hyacinths are among the oldest known types. Perfumes were once produced from actual flowers, but today most of them are made from chemical processes.

With the scientific ability of man, the capture of the true fragrance is always difficult. We have yet to capture the just right, delightful scent that fills the air around an orange grove on a balmy evening.

There is no substitute for real flowers, and we are exceptionally proud of the arrangements and bouquets we prepare right here in our shop.

Make Two-Way Mixer

DEAR POLLY — I want to tell Betty that I made a do-it-yourself mixer with my portable one. I first set the bowl in the sink on top of a wet sponge so the bowl does not slip.

I move the bowl far enough from the edge of the sink so the mixer rests on the bowl and the mixer handle on the top of the sink drainboard. The bowl must be approximately the same depth as the sink bowl or the mixer will fall.

To prevent splattering, I cover the bowl top with waxed paper that is long enough to reach up and slip under the switch of the mixer to hold it up. I even use this method for "churning" butter with my electric mixer. — ELMA

★ ★ ★

DEAR GIRLS — I also found that my portable mixer worked well when the bowl on the wet sponge was set in a corner of the sink with the mixer resting on the side of the bowl and against the corner of the sink — POLLY.

DEAR POLLY — I have a method that works well for using a portable mixer without having to hold it. I use a wire cakecooler or wire broiler-rack. Insert the part of beater into which you attach the actual beaters between the wires, then attache the beaters and place it all over a bowl of the right depth and size so the rack will fit well over the top of the bowl.

★ ★ ★

When something needs lengthy beating, I turn the bowl now and then or scrape down the sides as you would with a larger mixer. — VERDA

New State Treasury Building Is Opened

LANSING (AP) — Champagne corks popped, compliments flowed, oratory soared—but there also were some sly quips of criticism as the first building in Lansing's new capital complex officially was opened Tuesday.

State Treasurer Allison Green proudly presided at the ceremonies for the new State Treasury Building.

★ ★ ★

Green was quick to point out that the champagne as well as the dinner provided for legislators and other top state officials was paid for by contractors and architects for the building—not from state funds.

"We're quite happy with the new building," Green said of the four-story, $6.3 million structure behind the State Capitol.

"This is although the air conditioning isn't quite tuned in yet and some people are unhappy about the old furniture."

SOME CRITICAL

Employes and others have been critical of the battered furniture and ancient filing cabinets moved into the newest state building.

"The old State Capitol should be the museum, not this building," suggested Atty. Gen. Frank Kelley, one of the most articulate critics of the furnishings.

★ ★ ★

"It looks as if Coxey's army had moved in," Kelley said, referring back to a march on Washington in 1894 by the unemployed.

Green said the Legislature was asked for money for new furniture last year but failed to provide it. Meanwhile, he added, a current bill would provide $35,000 a year for replacing some of the older furnishings.

PROUD OF DESK

The state treasurer was proud, however, of a desk being used by his chief deputy, Carroll Newton. This has been authenticated as once the executive office desk of former Gov. Albert E. Sleeper, who served from 1917-20.

An ornately carved desk in his office, decorated in the fashion of an elaborate coffin, is believed to be even older, Green said.

The austere and forbidding outside appearance of the treasury building, a four-story highway department building and a seven-story general office building, both still not completed, also came in for some barbed comments.

"I know it has been called 'neo-penal' in style and referred to as 'Fort Romney'," said A.N. Langius, director of the State Building Division.

SENSE OF STRENGTHT

"But I believe there is a sense of strength, permanence and discipline."

The harsh look of the buildings, Languis said, later will be softened by the planting of some 210 shade trees and 129 ornamentals, the laying of 3,200 yards of sod, the planting of flowers and addition of a reflecting pool or fountain.

★ ★ ★

Langius quoted such statistics as the fact that the lighting has 200 foot candlepower and the air in the building is changed every six minutes.

First key to the new building was presented to Gov. George Romney who was quick to reply to the "Fort Romney" reference.

THE KREMLIN

"I've heard it called 'the Kremlin' too," Romney said.

"These will be efficient, functional tools of government," Romney said of the entire complex. "The new State Capitol," he added, "must also be a thing of beauty. Something we can be proud of 100 years from now."

★ ★ ★

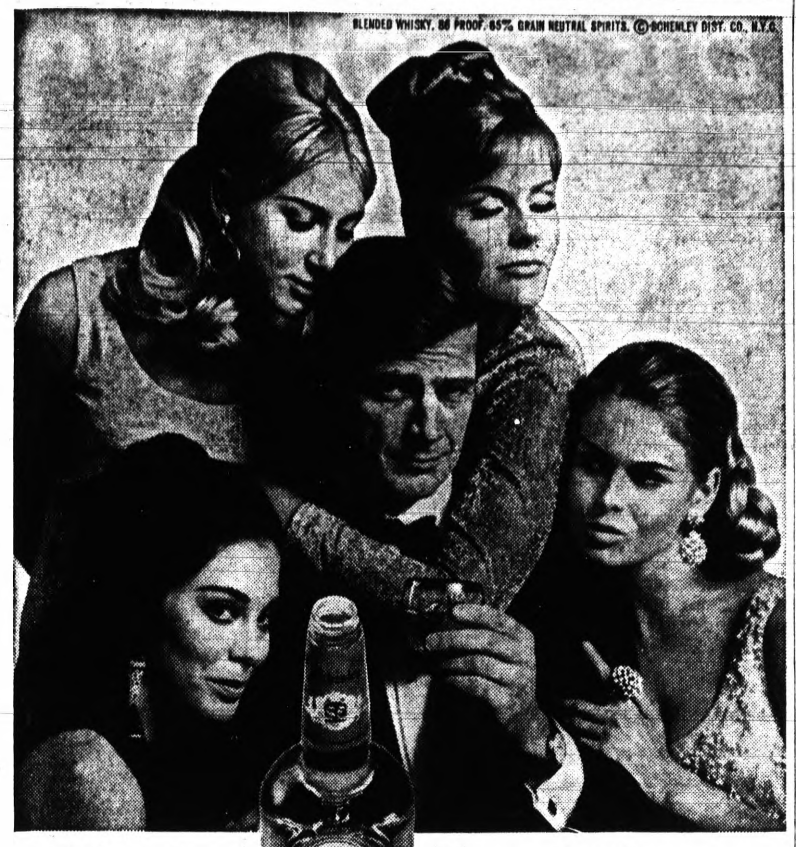

John R. Dethmers, chief justice of the State Supreme Court, was not too impressed.

The Supreme Court decor features the original wood paneling, highly polished with age, and portraits of long dead former justices. Spitoons were removed just recently.

Detroit Council Overrides 18 Cavanagh Vetoes in Budget

DETROIT (AP) — The Common Council killed Mayor Jerome P. Cavanagh's proposal to raise Detroit property taxes in overriding him 18 straight times Tuesday in adopting a 1968-69 city budget.

Each time the council voted 7 to 0 to override Cavanagh vetoes of changes it previously had made in his $460 million budget for the fiscal year beginning July 1.

★ ★ ★

It was the most serious political blow Cavanagh has suffered in tangles with the council.

Bernard Klein, city controller, told newsmen he was "almost at a loss for words" and said he "can hardly believe council acted in this irresponsible manner."

CALLED VINDICTIVE

He blamed vindictiveness on the part of some council members.

Cavanagh's office announced he would hold a news conference at 10 a.m. Thursday to discuss the action which he said in a previous statement would have "almost catastrophic consequences."

★ ★ ★

Cavanagh proposed in his budget a $2.83 increase per $1,000 or assessed valuation in Detroit's property tax.

The increase would have brought in an estimated $14.2 million annually and would have raised the rate to the limit permitted by law. The council voted to reject it originally, Cavanagh vetoed that action and then the council overrode the veto Tuesday.

MOTIONS BY RAVITZ

With Councilman Mel Ravitz making the motions, the council made these changes which Cavanagh opposed:

- Limited to $1,200 pay raises for city employes.
- Deleted proposed reorganization of the Police Department.
- Eliminated 12 Fire Department cadet positions.
- Deleted $1 million of a $2.5 million low cost housing appropriation.
- Deleted an $850,000 appropriation designed to give policemen a onetime $225 payment in lieu of salary increases from last March 1 to July 1.
- Raised back to $339,000 an anticipated increase in Traffic Court fines, which Cavanagh had cut to $245,500.
- Estimated a proposed city income tax increase would bring in an additional $9 million. (Cavanagh proposes to double the current one per cent tax on city residents, but legislation to permit this still is pending in Lansing and the mayor said he doubted it would have immediate effect when passed.)
- Estimated 57 additional police patrolmen proposed by the mayor.
- Reduced to $30,000 a proposed $60,000 annual travel appropriation.
- Reduced the motor transport fund of the Department of Public Works by $500,000.
- Deleted provision for a new staff assistant in the mayor's office and refused a pay raise for the new title of deputy to the mayor.

In submitting his budget originally, Cavanagh told council men that "there are two basic problems on which there is almost total community agreement: increased police protection and an adequate supply of low-cost housing."

"The budget submitted to you," he said, "would constitute a major step toward realizing these objectives."

Carpenters Pact

SAULT STE. MARIE, Ont. (AP) — Contractors in the Sault Ste. Marie, Ont., area Tuesday signed a three-year contract with 300 carpenters. The pact calls for a 70-cent hourly wage hike by 1970. The workers, members of the United Brotherhood of Carpenters and Joiners of America, received $3.70 an hour under the old pact.

State Eyes Possible Link of Poor Driving, Genes

LANSING (AP) — Some of the worst drivers in the Grand Rapids area will be asked to submit to a voluntary blood test for the sake of science — to determine whether a genetic theory may have any relationship with bad driving.

Secretary of State James Hare suggested the study to test validity of a theory that an extra Y (male) chromosome may be related to poor driving attitudes.

★ ★ ★

Hare recently noted that several studies of convicts showed more than a normal number of them had the extra Y chromosome.

Hare said he is trying to set up a pilot study, to be conducted at Grand Rapids' Butterworth Hospital.

VOLUNTEERS ONLY

"We're legally hamstrung," he added. "We cannot make these persons go in for a blood test. But we will urge them to submit voluntarily."

★ ★ ★

Hare said he was told by Dr. Joseph Mann, director of laboratories for the hospital, that if only two double Y chromosome persons were found in the study, the hypothesis of a relationship would be "quiet well established."

★ ★ ★

Hare quoted Mann as saying the hospital has not encountered a double Y (male) in studying 29 normal males.

Oakland Schools' Pamphlets Honored

Three Oakland Schools publications are among 136 from across the country being honored as "marked by professionalism unfortunately rare in published material distributed by schools."

More than 1,200 publications were entered in the 1968 school public relations awards contest conducted by School Management Magazine.

The three pamphlets prepared by Mrs. Polly Carithers, director of public information, and other staff members, were First Jobs-Better Jobs, An Adjusted Study Program and Launguage Arts.

U.S. Education Benefits—9

Scholarships for Health Profession Students

(EDITOR'S NOTE — This is the ninth article in a 15-part series on U.S. educational and training benefits available to you.)

By RAY CROMLEY
NEA Publications

Students of medicine, osteopathy, dentistry, optometry, podiatry and pharmacy are eligible for Federal Health Profession scholarships.

The student must be from a low-income family, require the money to pursue his course of study and be attending or have been accepted in a public or private nonprofit school.

★ ★ ★

The scholarships range up to $2,500 a year. They are awarded directly by the schools.

For information, write Division of Health Manpower Education Services, Public Health Service, Arlington, Va. 22203.

MAY SEEK LOANS

Full-time students in courses leading to degrees in medicine, dentistry, osteopathy, optometry, pharmacy, podiatry and veterinary medicine may apply for Health Professions Educational Assistance Act loans.

These are for students who have the capacity and ambition to pursue careers in the health professions. They must not be receiving National Defense Education Act funds.

★ ★ ★

The loans range up to $2,500 a year. They are repayable over a 10-year period, beginning three years after the student finishes his full-time study.

Students should apply directly to the patricipating institution in which they are enrolled.

Up to half of the loan made to a student of medicine, dentistry, optometry or osteopathy may be canceled for students practicing in an area short of practitioners. The state health authority determines which areas are short.

The loan is reduced by 10 per cent for each year of such practice.

★ ★ ★

Up to 100 per cent of the loan may be canceled for physicians, dentists and optometrists if the student practices his profession in a designated shortage area characterized by low income. The loan is reduced at the rate of 15 per cent a year.

For information write Division of Health Manpower, Public Health Service, Arlington, Va. 22203.

There are three major National Institute of Health Associate programs in the medical and biological sciences. All are intended to provide broad opportunities for career development in a medical specialty or basic science.

1. The clinical associate participates in both clinical and laboratory research.

2. The research associate conducts only laboratory research.

3. The staff associate contributes to research not specifically designated in the other categories.

INFORMATION

For information, write the Chief of Clinical and Professional Education, National Institutes of Health, Bethesda, Md. 20014.

Atomic Energy Commission fellowships in health physics are for graduate students who intend to remain in the field of health physics or to prepare graduate students for a career in health physics.

Junior Editors Quiz on WOOD

QUESTION: This is supposed to be an age of metal, but why are so many things made of wood?

★ ★ ★

ANSWER: Look around and you'll see huge numbers of things made of metal, concrete or plastic. It does seem remarkable, however, that we find good old-fashioned wood still being used in so many different ways.

This is because wood is a wonderful material for constructing things. It is strong as well as light. Above all, it can be very easily worked by cutting, sewing or nailing. Try to drive a nail into a block of concrete and you'll get the point. For these reasons, wood is used in the construction of almost all houses.

(1). Another value of wood leads to its use in many places inside a house. Wood is extremely attractive; its grain or figure makes it more warm and interesting looking than a cold mechanical surface. Nowadays, handsomely grained plywood is widely used for wall surfaces.

(2). Another great use of wood, which you probably know all about, is woodworking as a hobby (3). Many feel it to be the most practical and pleasant of all materials. If you try woodworking, get someone to show you how to use tools. You need sharp tools, but learn to carve the wood rather than your fingers.

(You can win $10 cash plus AP's handsome World Yearbook if your question, mailed on a postcard to Junior Editors in care of this newspaper, is selected for a prize.)

HUD Shelves New Projects in Michigan

WASHINGTON (AP)—The Department of Housing and Urban Development (HUD) said Monday it has suspended all new urban renewal projects in Michigan because of a State Supreme Court ruling.

The ruling, involving a planned urban renewal project in Kalamazoo, was that the project was not valid because the city had approved it by resolution instead of ordinance.

★ ★ ★

Most city charters in Michigan require a referendum — or special election—to approve an ordinance, a HUD spokesman explained.

★ ★ ★

Until the apparent legal impasse is worked out, the spokesman said, HUD has notified all local renewal agencies that they should make no new commitments on urban renewal projects.

TELEGRAMS

Notification was made in telegrams sent Friday.

The spokesman said one question under study was whether the State Legislature could remedy the situation by passing a law.

★ ★ ★

While no new contracts are to be signed or property acquired until the issue is settled, the HUD spokesman said the local renewal agencies are not to default on any previous contract commitments and salaries are to be paid as usual.

Kelley to Appeal Upset of Cycle Safety Helmet Law

LANSING (AP) — Atty. Gen. Frank Kelley has decided to fight an Appeals Court upset of a state law requiring motorcycle riders to wear safety helmets.

Kelley said Tuesday he has filed an application for leave to appeal the decision to the State Supreme Court.

The attorney general said he is starting the legal fight on the request of State Police, the Michigan Prosecutors Association, safety groups and many interested private agencies.

The American Motorcycle Association brought the original court suit, naming State Police Director Col. Fredrick Davids as defendant.

Davids was named since the Legislature gave State Police power to enact rules for enforcement of the helmet law.

The motorcycle group argued that the helmet requirement was "an improper invasion of their personal freedom."

Ingham County Circuit Judge Richard Robinson ruled the requirement was a proper exercise of police power.

A Court of Appeals reversal, upsetting the circuit court, noted that "the individual in our society is still master of his fate and captain of his soul."

SEAT BELTS

Accepting the helmet law, the Appeals Court decision said "would also justify a requirement that automobile drivers wear helmets or buckle their seat belts for their own protection."

The application for leave to appeal cited State Police statistics on motorcycle deaths.

★ ★ ★

Last year, State Police said, 79 persons were killed in motorcycle accidents. Of these, 45 persons, or 57 per cent, died of head injuries.

Aid for Ford Foe

GRAND RAPIDS (AP)—U.S. Sen. Philip A. Hart, D-Mich., and state Atty. Gen. Frank J. Kelley are expected to attend a Democratic party fund-raising dinner June 6 in Grand Rapids to help boost the campaign of Laurence E. Howard, 5th District Democratic candidate for Congress, vying for a seat now held by Gerald R. Ford Jr., a Grand Rapids Republican.

'General to Get No. 2 Post'

WASHINGTON (UPI) — Lt. Gen. Bruce Palmer Jr. will be brought home from Vietnam to become Army vice chief of staff, it was reported today.

★ ★ ★

Palmer, 55, a native of Austin, Tex., and a 1936 West Point graduate, gained prominence in command of paratroopers during the brief U.S. occupation of the Dominican Republic in 1965.

★ ★ ★

If his appointment is confirmed, he presumably will continue to serve in the Army's No. 2 post for a year or more after Gen. William C. Westmoreland, commander in chief in Vietnam, becomes Army chief of staff July 1.

Italian Conductor Dies in Car Crash

VERCELLI, Italy (AP) — Arturo Basile, a leading Italian conductor, died Tuesday when his car swerved off the road and crashed against a roadside stone. He was 54.

Basile was accompanied by Marika Galli, 24, sister of Gianna Galli, an opera soprano. She too died in the accident.

12 N. Viet Divisions in South, Says U.S.

SAIGON (AP) — While North Vietnam claims at the Paris talks that it has no troops in South Vietnam, U.S. intelligence sources say it has practically stripped its own territory of soldiers and now has the equivalent of at least 12 infantry divisions in South Vietnam.

The sources say this is confirmed every day by captured documents and prisoner interrogations. U.S. intelligence officers are able to pinpoint the areas where the North Vietnamese troops are operating in South Vietnam.

* * *

The officers cite figures indicating the North Vietnamese have taken over the major fighting effort, with an estimated 80,000 combat troops in the South to 40,000 main force Vietcong.

* * *

They say that Hanoi sent two full divisions south earlier this year. They indicate that most of North Vietnam's divisions have been committed to the South. Only the elite 308th Home Guard Division based around Hanoi and Haiphong, another division near Dien Bien Phu that operates in Laos and eight or nine divisional headquarters remain in North Vietnam, intelligence officers believe.

The intelligence sources say North Vietnam has nine full numbered divisions in the South, plus the equivalent of another division in four independent regiments operating in the central highlands.

* * *

Two Vietcong divisions flanking Saigon—the 9th and the 5th—are 80 per cent North Vietnamese soldiers, the sources report.

* * *

The heaviest concentration of North Vietnamese troops with big artillery support is along the northern frontier just below the demilitarized zone. Here at least three divisions face U.S. and South Vietnamese forces. Intelligence officers locate them thus:

- The 304th Division, on the western flank of the demilitarized zone, is threatening the allied combat base at Khe Sanh, near the Laotian border.
- The 320th Division, on the eastern flank of the DMZ, is threatening the allied bases at Con Thien and Dong Ha. The latter is headquarters for the U.S. 3rd Marine Division.
- The 324th Division operates in the Hue area, 50 miles south of the DMZ.
- A fourth North Vietnamese division, the 325th, retreated into Laos when allied forces lifted the siege of Khe Sanh last month. Since then the 325th has returned to South Vietnam, and the intelligence officers say they know where it is. But they decline to disclose the location for security reasons.

FARTHER SOUTH

Farther south along South Vietnam's eastern coast, intelligence sources place the 2nd North Vietnamese Division below Da Nang. The 3rd Division is about 100 miles farther to the south in the mountains and rice-producing plains of Binh Dinh Province.

The fifth North Vietnamese Division is operating halfway between Saigon and the demilitarized zone, in the vicinity of Cam Ranh Bay.

* * *

In the central highlands near the triborder of South Vietnam, Cambodia and Laos is the 1st North Vietnamese Division. This division, plus the four independent regiments, threaten the central highlands including isolated population centers and such allied bases as Pleiku, Kontum and Dak To.

* * *

The remaining three North Vietnamese divisions form a 90-degree arc around Saigon and surrounding Gia Dinh Province, which contain 15 per cent of South Vietnam's population.

EXCLUSIVE 7TH

To the west-northwest of the capital is the exclusively North Vietnamese 7th Division. North of the city is the 9th Division and to the east-northeast is the 5th Division.

The 5th and the 9th, Vietcong divisions, have suffered heavy losses in battles with U.S. troops since 1965, and replacements have come from the North. Now 80 per cent of these two divisions are North Vietnamese regulars, according to intelligence reports.

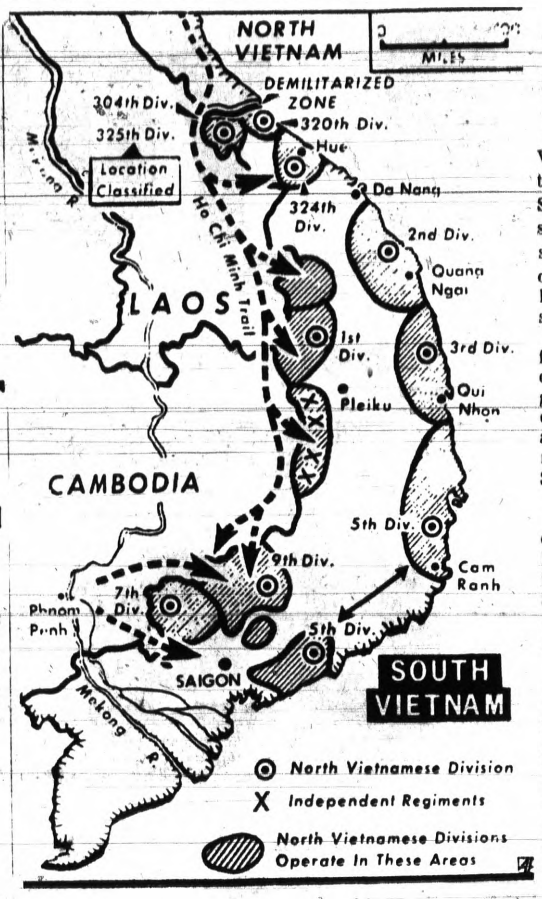

* * *

Intelligence officers rate the North Vietnamese 7th Division west-northwest of Saigon as "the worst in the country."

"They've never done anything right," said one American officer.

A North Vietnamese division in South Vietnam is estimated to average about 7,700 men. American intelligence officers estimate that only one out of every five or six North Vietnamese soldiers infiltrates into South Vietnam through the demilitarized zone.

The majority, these sources say, move around the western edge of the buffer zone and down the Ho Chi Minh Trail through Laos. Some branch off into South Vietnam through the A Shau Valley. The others continue on down the Ho Chi Minh Trail into Cambodia and work their way into the central highlands and other points farther south.

LOCATION OF NORTH VIETS — The map shows infiltration routes and the order of battle of North Vietnamese troops in South Vietnam, according to U.S. intelligence sources. Besides the nine numbered NVA divisions, there are four independent NVA regiments, equal to a division, operating in the Central Highlands. Another NVA division, the 325th, is not shown because of security reasons. North Vietnamese troops comprise 80 per cent of two Vietcong divisions, the 5th and 9th, flanking Saigon. A regular NVA division, also numbered the 5th, operates near Cam Ranh Bay.

Israeli Experiments Make Desert Bloom

LONDON (UPI)—Dr. Hugo Boyko believes the deserts of the world can be made to bloom and produce food through a "scientific breakthrough" — brought bauot by current experiments in the Negev desert of Israel.

Dr. Boyko, president of the World Academy of Art and Science, says the experiments involve the use of the salty water frequently found under deserts, for irrigation purposes.

★ ★ ★

In the desolate southern Negev, water from such an underground salt sea is now helping produce its second crop of juncus-esparto (used in the manufacture of high class paper pulp).

But this is only the first step in what Dr. Boyko foresaw, in a contribution to a special issue of "science journal," as the eventual bringing into useful cultivation of the deserts of the world.

MAJOR VICTORY

"The conquest of desert areas for food production would mean a major victory in the war against the growing threat of starvation by overpopulation," he wrote.

Nearly 40 years ago Dr. Boyko called the attention of scientists to his observation that the salt tolerance of plants in the sand and gravel steppes of central Europe was higher than on the clay particles of normal agricultural soil.

The reason, he discovered, was that sand particles do not absorb salt and the porosity of sandy soil allowed the salt to be quickly washed down unto the sand.

At the same time, the less-soluble components of seawater remained on the surface for a longer time and provided a completely balanced plant nutriment.

Small-scale experiments have taken place over the years in various countries, Dr. Boyko said, but rarely under real desert conditions and never on a commercial level.

Now the Desert Development Corp. of New York has planted some 2,000 acres in the Negev with juncus-esparto and expects soon to harvest the second crop.

"Sand deserts with similar, and in most cases much better, conditions cover vast areas in all the continents," Dr. Boyko said. "Our present experience indicates that a great variety of vegetables, cereals and fodder plants can easily be grown on these deserts."

Traffic Engineers Report

Stop-and-Go Increases Smog

DETROIT (AP) — If cities could find a way to eliminate stop-and-go traffic from their expressways they could reduce materially pollutants automobiles contribute to their smog, three experts reported Monday.

The report was made at a midyear conference of the Society of Automotive Engineers by Lucien Duckstein, Michael Tom and Louin L. Beard of the systems engineering department of the University of Arizona.

★ ★ ★

"It is shown," they said of a study, "that a stop-and-go flow of cars produces twice as much pollutant as an equivalent volume of smooth flow."

Drivers who accelerate quickly at traffic lights and elsewhere also contribute more pollutants than one who accelerates at a constant uniform rate, the three reported.

EDUCATION POSSIBLE

They said it was "not impossible to conceive a driver education campaign to increase awareness of what can be done about abating pollution," and suggested traffic engineers consider pollution as well as transit time in planning traffic control.

★ ★ ★

M. I. Weinberg of the transportation research department of Cornell Aeronautical Laboratory, Inc., suggested "one worthy and immediate solution to the current dilemma of congestion requires no technical development, no new equipment."

★ ★ ★

"Nothing" is required, he said, "but that the motoring public become convinced that the common good might be served by a little less 'rugged individualism' in their use of the automobiles they drive.

★ ★ ★

"If, by cooperative use of their four- and six-place vehicles they would increase the average occupancy from the current less-than-two-per-vehicle to perhaps three or more, the problems of traffic congestion, smog and parking difficulties miraculously would disappear — at least for many years."

OCC Faculty Unit to Host Candidates

Thirteen candidates running for three seats on the Oakland Community College Board of Trustees have been invited to make get-acquainted presentations at a public meeting tomorrow.

Sponsored by the OCC Faculty Association, the meeting is scheduled for 2:30 p.m. in the Oakland County Supervisors Auditorium, 1200 N. Telegraph.

★ ★ ★

A question-and-answer session will follow talks by the candidates.

3 Firms Develop Limited Electric Cars

DETROIT (AP) — With the internal-combustion engine under attack as an ear-wearying pollution-spewer, engineers said yesterday they have developed quiet, pollution-free electric cars that meet most commuter and suburban needs.

But some knotty problems remain, and the vehicle's capabilities are severely limited.

★ ★ ★

Three experimental efforts—by Ford Motor Co., General Electric Co., and Electrical Fuel Propulsion Co.—were described in research reports prepared for the Society of Automotive Engineers meeting in Detroit.

★ ★ ★

Robert A. Aronson of Electric Fuel Propulsion, a Ferndale, Mich., firm said EFP's Mars II experimental electric car "will meet the driving requirements of many residents of urban and suburban areas in terms of speed and range."

TOP SPEEDS

Top speed of the Mars II, he said, is 60 miles per hour, compared to 55 mph for GE's Delta and 40 mph for the Comuta developed by Ford of Britain researchers.

The typical medium U.S. — built automobile can go more than 200 miles on a full tank of gasoline before needing refueling, and this far outdistances the range of the electrics.

★ ★ ★

EFP says its model has a maximum range of 125 miles, GE says its model can go 105, and Ford says the Comuta's range is 40 miles before batteries are exhausted of power and need recharging.

★ ★ ★

Still, the researchers noted, such range and speed capabilities would be suitable for most commuter needs and suburban driving.

Reading is still the fastest way to program the human brain.

Man's brain, the human computer, faces a problem. Like man-made computers, the brain can process data with such lightning speed that men are hard-pressed to devise ways of feeding it information fast enough.

In fact, the human brain has been called the world's finest, most expensive computer. By comparison, the largest electronic computer in use today looks like a child's plaything.

But in an era of "information explosion," how do you "program" information to the human brain? Spoken language is far too slow. The average person speaks about 150 words per minute. The mind can think far faster than that.

In fact, man has yet to devise a means of feeding information to his brain that is more efficient than the written word. Fast readers can read up to 1,500 words a minute—ten times the average rate for the spoken word. Scanning can accelerate this rate still more.

Perhaps some day men will devise some electronic system to program their own brains more rapidly. Until they do, no method is as efficient as the written word.

The alphabet, movable type and the printing press are among man's oldest inventions. But as tools for furthering human knowledge they are as modern as the most modern computer.

Perhaps this is the reason more people still get more information from daily newspapers than from any other source.

Is McCarthy Hubert's Stalking Horse?

By JACK BELL
AP Political Writer

WASHINGTON (AP) — Sen. Robert F. Kennedy's top advisers are urging him to attack Sen. Eugene J. McCarthy as a stalking horse for Vice President Hubert H. Humphrey.

This development represents a considerable turnaround in the three-way race for the Democratic presidential nomination —after McCarthy announced his candidacy last winter, he was tagged by political detractors as a stalking horse for Kennedy.

* * *

It had been Kennedy's earlier hope that once he had chalked up victories over McCarthy in the primaries—as he did in Indiana and Nebraska and now expects to do in Oregon and California—the Minnesota senator would throw his support behind him at the Chicago convention.

* * *

Consequently he has taken pains to avoid any other than pin-prick attacks on McCarthy. But McCarthy has rejected Kennedy's repeated invitations to join forces with him against Johnson administration policies.

TURN EXPECTED

Kennedy strategists have surveyed the 164 delegates counted in McCarthy's column from New Hampshire, Wisconsin, Massachusetts, Pennsylvania and some other states. They have concluded a majority of them will turn to Kennedy when the chips are down.

They contend many of these delegates linked themselves to McCarthy when he offered the only alternative to President Johnson's reelection and remain more anti-Johnson than pro-McCarthy.

* * *

For all practical purposes, the Kennedy lieutenants are counting McCarthy out of the running for the nomination.

* * *

They are convinced that when the final accounting comes, McCarthy will spurn Kennedy and turn to his old political associate Humphrey, despite differences with the vice president on Johnson policies.

WAITS FOR CHANGE

McCarthy, campaigning in Oregon Tuesday, hinted he might end up supporting Humphrey but also said he is waiting to see whether the vice president changes his view of Vietnam war policy.

Later, however, McCarthy said he has been accused of acting as a stalking horse for Humphrey and of running a campaign financed with Texas money.

"And neither of these things is true," he said.

But Kennedy's advisers are telling the New York senator he ought to pound away on the campaign theme that a vote for McCarthy is really a vote for Humphrey.

READY EXPLANATION

This effort to pin a Humphrey label on McCarthy apparently would be calculated to provide a ready explanation for the Kennedy camp if their candidate fails to collect a majority of the Democratic vote in either the Oregon or California primaries.

President Johnson's name remains on the Oregon ballot despite his withdrawal from contention. A former Johnson delegate slate is running uncommitted in California.

In Prtland, labor leaders are promoting votes for Johnson as a means of preventing Kennedy from getting a majority. They are also canvassing for votes for Humphrey, whose name is in the vice-presidential slot on the ballot.

All of this points toward a muddled outcome that may require a great deal of explaining unless the New York senator emerges as a clear-cut winner.

Convention Delegate Strength Polled

WASHINGTON (AP) — Nearly half the Republican national convention delegates have been chosen in 29 states, the District of Columbia and the Virgin Islands. And more than one-third of the Democratic delegates have been picked in 21 states and the national capital.

Some of the delegations are only partially filled out, by selection in congressional districts, with more selections to be made at state conventions.

* * *

Including those, there remain 1,731 Democratic votes to be assigned and 678 Republican.

In some states, delegates were firmly committed in advance, or are legally bound to vote for a presidential candidate because he won a preferential primary. In the other states the Associated Press has polled the delegates regarding their first-ballot choices. Here is the tabulation to date:

Orion Home Gutted by Fire

A midnight blaze gutted the two-story house of Walter Upthegrove, 2151 Orion, Orion Township, last night.

Fire Chief Jack Caylor had no estimate of damages. He said the blaze apparently started in the basement near a clothes closet and rose through partitions into the attic.

Upthegrove, home alone at the time of the fire, was reportedly awakened by the smell of smoke. Mrs. Upthegrove and a eaughter were absent from home when the fire broke out. A dog was said to have suffocated.

The Orion Township Fire Department recieved the call at 12:17 a.m. and was on the job until 5:54 a.m. they were aided by Oxford, Addison, Rochester, Independence and Metamora fire departments.

Rec Dept. to Join Effort for M-Day

The Pontiac Department of Parks and Recreation will take part in an organized effort to conduct a Michigan Day June 8 at Cedar Point recreation area in Sandusky, Ohio, recreation supervisor Richard L. Cain announced today.

Tickets are on sale at the recreation office at city hall at $4.50.

Plans call for 15 Michigan high school bands to take part in a parade starting at noon.

Cedar Point is billed by the owners as "the Disneyland of the Midwest."

City Marine Dies in Viet

A Pontiac man, Marine Pfc. Leslie G. Aputen, son of Mrs. Bernard Aputen of 471 Going, died in Vietnam May 15. He was 19.

Pfc. Aputen died of wounds from artillery fragments received in action near Quang Tri. He had been in Vietnam since Dec. 28.

Aputen entered the Marine Corps in May 1967. He took basic training at the Marine Corps Recruit Depot in San Diego, Calif., and advanced artillery training at Camp Pendleton, Calif.

Aputen is a graduate of Eastern Junior High School and of the Isabella Job Corps in Isabella, Minn.

Surviving are his mother; two brothers, John of Pontiac and Tony of the Philippines; a sister, Robin at home; and a grandmother, Mrs. Edith Hills of Pontiac.

Coal-Rich Land Brings No Bidder

WINDOW ROCK, Ariz. (AP) — Land estimated to contain 450 million tons of coal failed to bring any bidders Tuesday when it was put up for lease by the Navajo tribe.

The 40,280 acres of land is located in San Juan County, N.M., north of Gallup. Bureau of Indian Affairs officials said they expected bids to be submitted from oil and natural gas companies.

Military Plane Crashes, Burns

LINCOLN, Mass. (AP) — A C54 military plane crashed in flames near Hascom Air Force Base today. The plane was demolished, and witnesses said three persons were taken out. Their fate was unknown.

★ ★ ★

The plane, which normally carries a crew of three, came down in a swampy area and skidded into the woods. The nearest house was several hundred yeards away.

★ ★ ★

The crash scene is near the Lincoln-Concord line, about 20 miles west of Boston.

All that remained of the plane was debris.

★ ★ ★

Flames sputtered from the wreckage, which was scattered in woods about a half mile from a Hanscom runway.

Authorities said the plane was en route to Hanscom from Andrews Air Force Base, Md.

★ ★ ★

Emerson Hospital in Concord said it had admitted one man taken from the plane, but his injuries were not serious.

A chemical additive has been found that is expected to double the life of whole blood in cold storage.

Cyclone Toll Rises in Burma

RANGOON, Burma (AP) — Reports from the Arakan area said Tuesday night the death toll in the May 10 cyclone has passed 1,000 and 2,000 other persons were missing.

★ ★ ★

The storm, packing winds of 130 miles per hour, damaged over 20,000 acres of paddy fields in the coastal region on the Bay of Bengal, officials said. More than 10,000 families were reported homeless.

Alcoholism claims some 20,000 lives annually in the U.S.

Michigan Grown Foods Are Base of New Recipes

By JANET ODELL
Food Editor, The Pontiac Press

You can grumble all you like about Michigan politics, taxes and weather, but it's still a good place in which to live.

★ ★ ★

Once a year, during Michigan week, we stop and take a closer look at our state. Pretty good, pretty good.

★ ★ ★

According to information from the Michigan Department of Agriculture, Michigan places fifth or higher in the production of more than 20 farm products. Agriculture is second as a source of revenue in the state.

GREAT VARIETY

"The variety of Michigan grown quality foods enables us to come closer to completely setting the family table than in any other state," says Hildegard Hesse, District Extension Consumer Marketing Agent in Detroit.

★ ★ ★

With that in mind, plan to give your family one or more all-Michigan meals this week. The children might enjoy helping you select the foods.

START WITH APPLES

Michigan apples are marketed in more than half the United States and in Canada. And with controlled atmosphere storage, the fresh apple season has been prolonged.

★ ★ ★

Northern Spies make a good apple pie. Top it with a crunchy brown sugar crumb topping (made with Michigan sugar, of course) and crown it with a golden tracing of melted zesty cheese which is another delightful Michigan product.

GOLDEN APPLE PIE

½ cup sugar
½ teaspoon cinnamon
¼ teaspoon nutmeg
5 cups thinly sliced peeled apples
1 9-inch unbaked pastry shell
cup brown sugar
⅓ cup flour
Dash of nutmeg
2 tablespoons margarine
1 cup (4 oz.) shredded sharp cheese

★ ★ ★

Combine sugar, cinnamon and nutmeg; toss with apples. Place apple mixture in pastry shell. Combine brown sugar, flour, nutmeg and margarine, mixing until crumbly. Sprinkle apples with crumb mixture; bake at 400 degrees, 30 to 35 minutes.

Top with cheese; return to oven until cheese melts. Serve warm. 8 servings.

DRY BEANS

Over five million 100-pound bags of dry beans in 1967 constituted the largest bean cop in the country. Nearly all the nation's pea beans are raised here.

★ ★ ★

Ham comes from Michigan porkers and the onions in this convenient casserole can be Michigan onions. Some of the latter are exported to Europe during the winter months.

HAM PARTY BAKE

2 pounds dry navy beans
2 medium onions, sliced
½ cup molasses
½ cup ketchup
2 tablespoons vinegar
2 teaspoons dry mustard
1 teaspoon ginger
3 to 4 pound ham shank
Salt to taste

Soak beans in cold water overnight. Next day add more water to cover if necessary and add onions. Bring to boil in covered saucepan and simmer 1 hour.

Drain and reserve 3 cups, adding water if necessary to make 3 cups. Mix liquid with molasses, ketchup, vinegar, mustard and ginger. Place ham, surrounded by beans, in pan or large earthenware casserole and pour liquid over all.

★ ★ ★

Cover and bake in 350 degree oven 1 hour and 25 minutes. Remove ham and cut into medium-sized cubes and reserve.

★ ★ ★

Continue baking beans, uncovered, 1 hour and 40 minutes longer. Return ham pieces to beans during final 30 minutes of baking. Serves 12.

TIP: Excellent reheated next day with a little tomato juice added if more moisture is needed.

HAM PARTY BAKE

MUSHROOM AND CELERY SALAD

Crisp Salad Features Mushrooms, Celery

If you're a compulsive nibbler, eat raw mushrooms — but be sure they're Michigan mushrooms this week. The mushroom growers in neighboring Macomb County grow some of the biggest and best-tasting mushrooms you can buy.

Although low in calories and therefore the weight watcher's friend, mushrooms are satisfying.

★ ★ ★

Try them in this salad which also features another Michigan food — celery. Kalamazoo was the birthplace of the U.S. commercial celery industry and Michigan ranks third in its production.

MUSHROOM AND CELERY SALAD

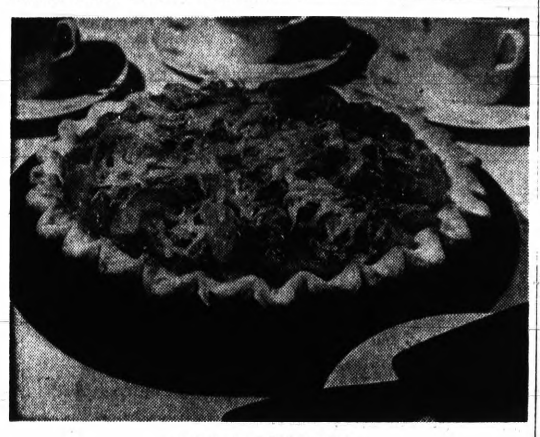

½ pound mushrooms
2 cups diced celery
2½ tablespoons olive or salad oil
2 tablespoons lemon juice
¾ teaspoon salt
¼ teaspoon sugar
⅛ teaspoon ground white pepper
⅛ teaspoon onion salt
⅛ teaspoon instant garlic powder.

Slice mushrooms (makes 2½ cups). Combine mushrooms and celery in salad bowl. Mix oil, lemon juice, salt, sugar, white pepper, onion salt and garlic powder. Shake well. Pour over mushrooms and celery, coating well.

★ ★ ★

Serve on lettuce lined salad plates. Yield: 6 portions approximately 66 calories per portion.

MARKET BASKET

GOLDEN APPLE PIE

Serve Sauce on Waffles

Waffles or French toast dripping with hot, fresh Michigan strawberry sauce can make an occasion of a Saturday brunch or a Sunday night supper.

STRAWBERRY TOPPING

1 cup crushed Michigan strawberries
1 cup water
⅓ cup sugar
4½ tsp. cornstarch
1 cup strawberries, cut in half
1 teaspoon butter

In sauce pan combine crushed Michigan strawberries and water. Blend thoroughly sugar and cornstarch in small bowl, then add to strawberry mixture, stirring well.

Cook over medium heat stirring constantly until mixture comes to a boil and has thickened. Remove from heat, stir in butter, then add strawberry halves.

Place in a chafing dish or on thermostatic unit (low — or 175-200 degrees) to keep warm while preparing waffles or French toast.

★ ★ ★

Let each person help himself to topping then pass the unsweetened whipped cream, sour cream or shaker of confectioners sugar for garnish. Serves 4-6 people.

Crumble Tarragon for Sharp Sauce

Tarragon leaves add elegant aroma to this easy-to-make sauce for seafood, chicken or sliced tomatoes.

Tarragon Pickle Sauce

½ cup sweet pickle relish
¼ cup olive or salad oil
1 teaspoon instant minced onion
¾ teaspoon tarragon leaves, crumbled
¼ teaspoon instant garlic powder
2 tablespoons white vinegar
1 tablespoon lemon juice

Combine all ingredients. Blend well. Chill in a covered bowl 1 hour or longer. Stir thoroughly just before serving.

Serve with seafood, fried chicken or sliced tomatoes. Good, too, over hot cooked green beans, zucchini or other mild green vegetables. Yield: 1 cup.

Add Tomato Sauce to Shirred Eggs

Good choice when neighbors come for an informal visit are these eggs.

SHIRRED EGGS WITH TOMATO SAUCE

- 1 can (8 ounces) tomato sauce with tomato pieces
- 2 tablespoons medium or dry sherry
- 8 eggs
- ¼ to ½ cup freshly grated Parmesan cheese

Turn the tomato sauce into 4 shirred egg dishes (each about 6 inches across and 1 inch deep) stir ½ tablespoon sherry into each portion of tomato sauce. Break 2 eggs into each dish, being careful not to puncture yolks. Sprinkle with Parmesan.

Bake in a 325-degree oven until yolks feel firm to the touch but are still soft inside—about 20 minutes. Serve in the baking dishes. Makes 4 servings.

FOR A SPRINGTIME TEA — Rum Cake De Luxe is the piece de resistance at this informal spring tea.

Delicate Cake Has Cherry Rum Filling

Even in these busy, hectic days the charming ritual of afternoon tea still holds its own. In the relaxed atmosphere of your living room, you can entertain friends easily and graciously.

Refreshments need not be elaborate — small sandwiches, cinnamon toast, hot buttered biscuits, and a truly luscious cake as the piece de resistance. One like this delectable Rum Cake Deluxe — four layers of tender white cake spread with a rum-flavored fruit and nut filling, covered all over with fluffy white frosting is delectable.

RUM CAKE DELUXE

- 1 cup butter or margarine, room temperature
- 2 cups sugar
- 8 egg whites
- 3¼ cups sifted cake flour
- 2 teaspoons double acting baking powder
- 1/16 teaspoon salt
- 1 cup milk
- 2 teaspoons vanilla

Cream butter and sugar together until light and fluffy. Add whites, about one or two at a time, beating well after each addition. Fold in flour, sifted with baking powder and salt, alternately with milk mixed with vanilla, beginning and ending with dry material.

Divide into four ungreased 9-inch layer pans lined on the bottoms with waxed paper. Bake in preheated moderate oven (375 degrees F.) for about 20 minutes, or until edges shrink slightly from sides of pans and tops spring back when gently pressed.

Cool in pans on racks for about 5 minutes. Remove from pans, invert on racks and remove paper, turn right side up and finish cooling. Fill and frost.

RUM FILLING

- 3 egg yolks
- 1 cup sugar
- ½ cup butter or margarine, room temperature
- ½ cup well drained and finely minced Maraschino cherries
- ½ cup finely chopped pecans
- ⅓ cup rum

Beat egg yolks well in a 2-quart saucepan; beat in sugar and butter. Cook over very moderate heat, stirring constantly, until quite thick. Remove from heat. Stir in cherries, pecans and rum. Cool.

Spread evenly onto first three cake layers. Stack carefully and top with fourth layer. Frost.

FROSTING

- ½ cup sugar
- ¼ cup white corn syrup
- ⅛ teaspoon salt
- 2 tablespoons water
- 2 egg whites, well beaten
- ½ teaspoon vanilla

Place sugar, syrup, salt and water in 1-quart saucepan. Boil over moderate heat until syrup spins a thread or thermometer reaches 242 degrees.

Gradually beat about half the syrup into the beaten egg whites. Place remaining syrup in a pan of hot water to keep warm. Continue beating until mixture holds thick and shiny peaks.

Swirl onto sides and top of cake. Store in a cool place. Serve at room temperature.

Freeze-Drying Is Ideal Way to Store Fowl

EAST LANSING, Mich. — Freeze-dried chicken, which requires no refrigeration, has been made more tender and juicy through research conducted by Michigan State University food scientists.

Dr. L. E. Dawson and his colleagues have tested four meat tenderizing enzymes on the new product and have succeeded in getting nearly any degree of tenderness a consumer might want.

In freeze-dried chicken, moisture is removed by sublimation. In other words, the moisture goes directly from ice to vapor.

Since this moisture is removed without heating, explained Dawson, there is little change in protein and nutritional value and no other damage to the meat from heating.

MSU has been working with this product because it has a great potential use for the armed forces, astronauts, sportsmen and others who want to be able to carry a food supply with them that requires no special storage. To reconstitute the meat it needs only to be heated in water.

Freezer Can Stand a Spring Cleaning

Do note a date for cleaning the freezer, too.

Check the contents and see that older foods are rotated to the front of the freezer for using before they have passed the most desirable use period.

For checking on meats, keep the following storage times in mind: beef, six to 12 months; fresh pork, three to six months; lamb and veal, six to nine months; ground beef, three months.

Bacon is not recommended for freezing. Cured and smoked hams should not be kept frozen for longer than 60 days because of the possible development of rancidity.

You'll always find Michigan-Made Sugar in the finest places, like

blueberry pie

3 c blueberries, fresh or frozen
2 T flour
¼ c Michigan-Made sugar
Dash salt
Flaky pastry for double 9-inch pie
1 T lemon juice
1 T butter or margarine

If fresh berries are used, pick over, discard stems and leaves; wash and drain well. If frozen berries are used, drain well. Combine berries with flour, sugar and salt; mix well. Line nine-inch pie pan with half the pastry; fill with the berry mixture; sprinkle lemon juice over top and dot with butter; carefully put on top crust, sealing well to edge of pan. Cut vents in top crust and bake at 450 degrees 40 minutes or until fruit is tender and crust is golden; if crust browns too fast, cover with a piece of brown paper. Cool completely on rack.

That's why 6 out of 10 Michigan homemakers buy Michigan-Made Sugar

Opening lead—♥Q

By OSWALD AND JAMES JACOBY

In the Jacoby method, the immediate jump to three of a minor suit after an opening no-trump is merely a game invitation in no-trump. North has too good a hand for a mere game invitation and wants to suggest slam possibilities.

JACOBY

He does this by responding two clubs. As far as South knows this is an ordinary Stayman bid and South rebids two diamonds showing that he doesn't have four cards in either major suit.

★ ★ ★

Now North bids three diamonds, which is the slam signal. It says, "Partner, I am interested in a diamond slam." With a better hand, North might plan to go all the way to the slam. With this hand North does not want to push past game. He only has 12 high card points, not enough to warrant taking the bidding past three no-trump.

When South hears the three diamond call he becomes interested in getting to a slam. He only has 16 points for his opening no-trump but they look golden for slam purposes. He has three aces and the king of diamonds and his jack of clubs is supported by the 10. South starts slam proceedings by bidding three hearts.

★ ★ ★

This doesn't excite North at all. He had suggested a slam when he bid two clubs and three diamonds. He does not want to go past three no-trump under his own steam.

South continues with four clubs and once more North signs off. This time with a four diamond call.

South gives one more slam invitation by bidding four spades. This costs nothing because North can still go to five diamonds or four no-trump, but by this time North is ready to act on his own and North jumps to the diamond slam.

★ ★ ★

There is no trouble in the play. South draws trumps, loses the club finesse and eventually discards North's third spade on his long club.

Astrological Forecast

By SYDNEY OMARR
For Thursday

"The wise man controls his destiny . . . Astrology points the way."

ARIES (Mar. 21-April 19): Accept added burden with knowledge that it provides showcase for your abilities. Superiors will be interested in how you react. In personal life, aid one who has been down on his luck.

TAURUS (April 20-May 20): Give consideration to individual confined to home, hospital. Get busy with project which promotes a worthy cause. Don't shirk responsibility toward activity which improves community.

GEMINI (May 21-June 20): Older person could help you fulfill some desires. New approach appears necessary. Accent originality, independence. Strive for clarity of expression. Be diplomatic with friends.

CANCER (June 21-July 22): Follow through on hunch. Intuition is honed to razor-sharpness. Applies especially where career, ambitions are concerned. Get in to see the boss. Cut through red tape. Push ahead.

LEO (July 23-Aug. 22): Grass may appear beautiful, green afar. But wise course is to remember resolutions concerning savings, bank account. Don't overextend yourself. Fine for practical vacation planning.

VIRGO (Aug. 23-Sept. 22): If you are watchful where partnership funds enter picture, all is well. Not wise to take anything for granted. Do some personal investigating. Dig deep for information. Go to source.

LIBRA (Sept. 23-Oct. 22): Wise to lie low. Let others make first offer, suggestion. Evaluate what you hear, see and read. Utilize your innate ability to achieve balance. Avoid extremes. Heed words of mate, partner.

SCORPIO (Oct. 23-Nov. 21): Obtain hint from Libra message. Your role today may be subordinate but is temporary. Shore up reserves. Cement relations with neighbors, fellow workers. Break routine. Dine out.

SAGITTARIUS (Nov. 22-Dec. 21): Tonight much of what was confusion becomes clarified. A child's words may prove significant. Avoid self-deception. See persons, situations in realistic light. The truth can set you free.

CAPRICORN (Dec. 22-Jan. 19): Be responsible for property, possessions. Work out details which could lead to profitable transaction. Duty at home should be completed before any pleasure activity.

AQUARIUS (Jan. 20-Feb. 18): Hold off on short journeys which tend to deplete your energy. If visit is necessary, let others come to you. Take care with what you put in writing. Later, home atmosphere improves.

PISCES (Feb. 19-March 20): Keep plans flexible. Don't commit yourself where expenditures are concerned. In making any purchase, check price, quality. You can obtain genuine bargain if not in too much of a hurry.

IF THURSDAY IS YOUR BIRTHDAY you are dynamic, attractive to opposite sex, possess much intellectual curiosity. Current cycle demands that you carefully examine any partnership proposals.

GENERAL TENDENCIES: Cycle high for TAURUS. Special word to SCORPIO: include family member in pleasant outing designed to relieve tension.

CONSTRUCTION—The new outlet for the Men's Social Service Center of the Salvation Army in Pontiac is expected to be open by the end of June. The building will house donated items to be sold as they are received. It is in the rear of the parking lot of the current center at 118 W. Lawrence. The 10,000-square-foot building faces Pike. Goods refinished by Social Service members will still be sold at the center on 118 W. Lawrence.

Money Seen as Key to American Dream

LONDON (AP) — A British correspondent says the American "dream-saying" that any little boy can grow up to be president should go on to say: "Always provided he happens to have about $5 million to spare."

Back in England from covering the American presidential campaign, John Edwards wrote in the London Daily Sketch: "Is cash more important than the candidate?

★ ★ ★

"With certain reservations, the answer is 'yes.'

"The sheer weight of a candidate's expense account can wipe out the opposition and win the party nomination."

WHO BEST?

Henry Brandon, Washington correspondent of the Sunday Times of London, wrote that "normally the American electorate would ask itself the simple question: 'Who would make the best president?'

"But this year there is much evidence that, consciously or unconsciously, it is trying to resolve a more complicated question: 'Do we need a conciliator or an innovator?'

★ ★ ★

"The answer," Brandon said, "is complicated by the fact that it is not only a matter of the policies a candidate advocates, but also his personality."

An Associated Press sampling of foreign commentary on the United States found the British newspaper Economist discussing crime.

RISE IN CRIME

"Many members of Congress came back after their Easter holiday convinced that what worried Americans most was the rise in crime," the Economist reported from Washington.

"To find this out it was not necessary to leave Washington," it added: "One of the capital's largest banks has recently abandoned its practice of staying open until 7:30 on Friday nights; too many of its staff were frightened of going home so late."

★ ★ ★

Kazuma Egashira, foreign editor of the Tokyo newspaper Mainichi, found something to impress him—vigorous studies in the United States on Red China.

After attending a three-day seminar at the University of Michigan in Ann Arbor, Egashira wrote: "The intensity of their interest in Chinese can be summed up by saying Americans are trying a hand, not a small one, in speaking Chinese. "The United States, I have come to realize, is now at the most advanced stage and has perhaps no equal in the world in gathering information needed for research on China.

"It is possible that as American researchers in Russian affairs have contributed to attaining peaceful coexistence between the United States and the U.S.S.R., studies now under way on China may make the same contribution—this time for detente between the United States and China."

Battleship Gets Concrete Deck

SAN JACINTO BATTLEGROUND, Tex. (AP) — A concrete deck will replace the teakwood on the battleship Texas, which is permanently moored here.

★ ★ ★

"It was the only way we could save the ship from rusting away," said Lloyd Gregory of Houston, chairman of the Battleship Texas Commission.

★ ★ ★

The teakwood was rotting, allowing water to seep through.

The bow of the battleship is getting the first concrete deck at a cost of $23,000. The stern deck will be covered next year if funds are available.

★ ★ ★

"It would have cost a million dollars to replace the deck with teakwood—if we could find the teakwood," Gregory said.

For those of you who missed Vernors' new slogan, here it is again.

No slogan? That's right, no slogan. *Vernors is so different it doesn't need a slogan.* We don't need a lot of square, so-called "catch" phrases to tell you Vernors and Vernors One-Calorie are very different—that it's different because it's flavor-aged 4 years in wood. Try gingery Vernors. The taste is unfiltered by slogans.

(Special note: The space in the box above would normally be used to once again hit you with a big, fat slogan. Since we have no slogan, we donate this space to you ... the tired, over-sloganed American consumer. It's yours! Do with it as you will. Doodle in it, make angry symbols or just sit and contemplate its clean, uncluttered, soothing emptiness.)

Mongolism Clues in Cats?

Calico Chromosomes Studied as Similar

BUCKLEY, Wash. (UPI) — Two geneticists at a state institution for mentally retarded children here spend much of their time counting chromosomes of calico cats.

Drs. H. C. Thurline and Darwin E. Norby are seeking ways to combat mongolism and other anguishing child disorders.

★ ★ ★

While working on a research project several years ago, they discovered that male calico cats have an extra chromosome.

According to the laws of nature, there are not supposed to be any calico tomcats. But the law is broken occasionally, and four calico toms are among the 200 cats in residence at Rainier School where Thurline and Norby are employed.

ONE OF 600

One of every 600 persons is born with the mental defect generally called mongolism. This is the result of having one more chromosome than normal.

"We think that the same factor that causes male calico cats may cause mongolism in human babies," said Thurline.

★ ★ ★

"Of course, this does not mean that male calico cats are mongoloid. We are studying the basic cell biology in cats for the factors in cell division that could be responsible for any of the abnormalities in the number of chromosomes.

"We are looking for the common denominators."

EVERY CELL

Every cell of every living thing has several chromosome pairs. Corn for example, normally has 20 chromosomes in 10 pairs. Normal cats have 38 in 19 pairs, and humans have 46 in 23 pairs.

One of these pairs determines sex. The female carries a pair designated as XX, while the male's sex pair is XY. The reproductive cell is only half of one pair, the 21st pair, to be explicit.

★ ★ ★

Thus, the female egg can have only an X while the male sperm can have either X or Y. If the male sperm carrying X fertilizes an egg, the offspring will be XX, which is female. If the sperm is Y, the offspring will be XY, or male.

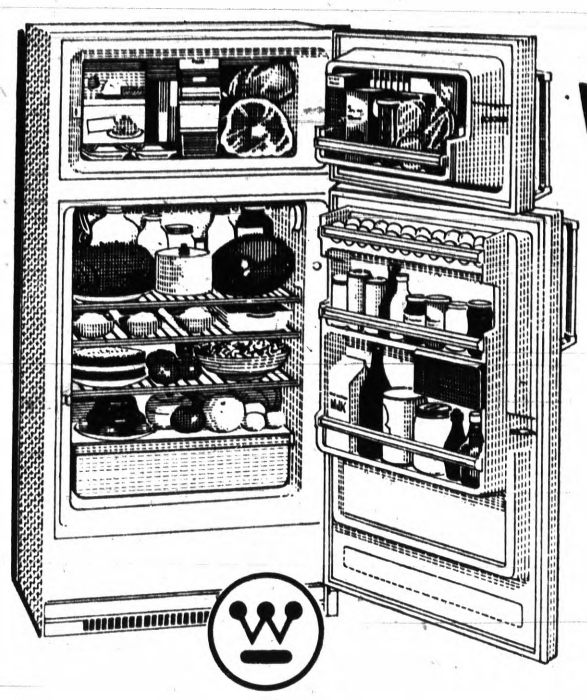

★ ★ ★

In cats, only the X chromosome carries the genes that determine orange and black coat colors. (Incidentally, this seems to be the only animal which has this inheritance trait.) However, the X chromosome can carry only one of the two colors, not both.

CROWD AT SECOND — Minnesota Twins' Rod Carew rolls into Detroit Tigers' second baseman Dick McAuliffe in breaking up a double play attempt in their game in Minnesota last night. McAuliffe was shaken up on the play but remained in the game. At left is shortstop Tom Matchick.

Detroit Strategy Fails as Rollins Gets Big Single

ST. PAUL-MINNEAPOLIS (AP) — Mayo Smith only tinkered with his line-up. Cal Ermer dismantled his line-up, and he won the game.

"I guess I didn't go far enough," quipped Smith after his American League-leading Detroit Tigers lost 3-1 to the Minnesota Twins Tuesday night.

"Apparently I didn't make the right moves."

WINNING SINGLE

Rich Rollins laced a two-run single to left in the eighth inning to snap a 1-1 tie and break up a tense pitching duel between the Twins' Dean Chance, who pitched a four-hitter, and the Tigers' Joe Sparma.

★ ★ ★

Ermer turned his line-up topsy-turvy, with only Harmon Killebrew, Tony Oliva and the pitcher batting in the spots they occupied the game before.

Twins' catcher John Roseboro led off and Cesar Tovar dropped to the No. 7 position in the eyebrow-raising shuffle by Ermer.

"I was trying to get us out of a slump," Ermer said. "Besides, Roseboro gets on base a lot."

★ ★ ★

The former Los Angeles Dodgers' catcher did reach base twice, walking in the first to score Minnesota's initial run and singling in the third. He left the game in the eighth when he caught a foul tip, bruising his right hand.

EXPLAINS MOVE

Smith benched regular shortstop Ray Oyler in favor of rookie Tom Matchick, explaining that "Oyler has seldom hit very well against Chance, and Matchick is a left-handed batter." Matchick went hitless against Chance.

★ ★ ★

The Twins took some liberties with Tiger left fielder Willie Horton's arm in the eighth when they broke the game open, but Smith just charged it off to "the Twins have good speed."

Rod Carew launched the rally with a bouncer over Don Wert's head at third base for his third hit. Carew never broke stride on the routine single and legged it into second base ahead of Horton's throw.

PASSED BALL

After Rich Reese struck out, Carew went to third on Bill Freehan's passed ball and Killebrew grounded out with Carew holding third. Freehan, expecting a fastball, couldn't handle a curve Sparma threw.

Tony Oliva was intentionally walked, and when Rollins drilled his single to left, Oliva streaked all the way home from first as Horton again was challenged.

★ ★ ★

Rollins also had singled in the first when Killebrew's hit scored Roseboro.

DISAGREEMENT—Eddy Stanky of the Chicago White Sox and umpire Hank Soar exchange opinions on a call at first base in the eighth inning of a game in Baltimore last night. Orioles' Frank Robinson, who was called safe on the play, eventually scored Baltimore's lone run in a 2-1 loss to Stanky and the Chisox in 12 innings.

Simardzija Is 2nd in National All-Star Meet

GARDEN CITY, N.Y. (AP) — Records fell by the wayside Tuesday as Wayne Zahn of Atlanta led the men and Mary Baker of Central Islip, N.Y., paced the women through the preliminary round of the 27th annual National All Star Bowling Championships.

Mike Samardzija of Pontiac jumped from 8th place yesterday to second with a 1,339 block and a total of 3,922 pins just three pins ahead of Ray Bluth.

Zahn, who won the 1966 Professional Bowlers Association's National Championship on these same lanes, erupted for a 1403 block. This boosted his 18-game qualifying total to 4043, 12 pins better than the previous record set by Chuck O'Donnell of St. Louis in 1950.

Bluth of Warson Woods, Mo., surged into third place in the men's standings with games of 223, 236, 279, 267, 234 and 234.

His six-game series of 1473 erased the former mark of 1472 set by Gene Rhoda of Valparaiso, Ind., in the 1965 tournament's qualifying round and equaled by Dennis Taylor of Cleveland in this year's opening round.

★ ★ ★

Taylor, who led through the first two rounds, slipped to fifth with 3876. It took 3615 to make the semifinals.

Mrs. Baker, a pert brunette left-hander, gained to top rung in the women's division with an 858 series for a 12-game total of 2503.

Kipke Recalls Grid Past, Talks of Present Game

DETROIT (AP)— Harry Kipke, who used to punt footballs almost out of sight for Michigan football teams in the early 1920's, snook a lot of hands Tuesday night, held other people's drinks for them, and talked about athletics — how it used to be and how it seems now.

The occasion was the 14th annual induction into the Michigan Sports Hall of Fame at Cobo Hall.

★ ★ ★

The dinner and ceremony also honored Ebbie Goodfellow, star hockey player of the Detroit Red Wings' first 25 years, and former Michigan State baseball coach John Kobs, who died last Jan. 28 at the age of 69. His award was accepted by his widow, Mrs. Lauretta Kobs.

PLAYS GOLF

Kipke, now 68, has retired from his job with the Coca-Cola Co. to his summer home in Port Huron. He plays golf, goes down to Ann Arbor on Michigan football Saturdays, but "otherwise I just use the television set," he said.

Honored for an athletic career that began almost a generation before television, Kipke easily singled out his favorite moment in sport.

It was the 1922 football game against Ohio State in Columbus. The then-new stadium was dedicated that day, but Kipke was an ungracious guest. Michigan won 19-0, and "I think I made 18 of those points," Kipke recalled.

Sonny Werblin Sells Jet Stock

NEW YORK (AP) — Sonny Werblin, who breathed life into the struggling American Football League by spending big, big money for players, has stepped out as an owner and president of the New York Jets.

Werblin sold his "little better than 20 per cent" of the club to four mostly silent partners, Donald Lillis, Phillip H. Iselin, Townsend Martin and Leon Hess.

AP Wirephoto

IN HALL OF FAME—Three former Michigan sports stars were inducted into the Michigan Sports Hall of Fame at the 14th annual induction in Detroit last night. Joining the Hall were Ebbie Goodfellow (left), star hockey player of the Detroit Red Wings; the late John Kobs, former Michigan State baseball coach, whose wife, Lauretta, received the award for her husband; and Harry Kipke, former University of Michigan football great.

Cougars Gain 6-0 Win Over Dallas

DETROIT (UPI) — The Detroit Cougars romped to a 6-0 North American Soccer League victory Tuesday over the Dallas Tornados.

Halfback Roy Cheetham slammed the ball into the net three times on kicks from the penalty spot, awarded after Dallas players fouled Cougars close to the goal. Other Cougars finding the range were Johnny Kerr, John DeSir and Walter Bruce.

Dueling Continues for Spots in '500'

INDIANAPOLIS, Ind. (UPI)—A few of the drivers who have not yet qualifed for the Indianapolis 500-mile race on Memorial Day appeared Tuesday to have found the necessary speed to put them and their machines into the starting lineup.

Carl Williams, Grandview, Mo., Mel Kenyon, Lebanon, Ind., and rookies Gary Bettenhausen, Tinley Park, Ill., and Billy Vukovich, Fresno, Calif., all turned in times in the 164 miles per hour bracket Tuesday which most observers feel should be enough to make the lineup for May 30.

Seventeen spots remain to be filled in the 33-car starting lineup, with Saturday and Sunday the final two days of qualifications.

Williams was clocked at 164.8; Bettenhausen at 164.1; Vukovich at 164.5, and Kenyon at 164.2.

Bettenhausen was in a car vacated by Art Pollard, Medford, Ore., who jumped into one of Andy Granatelli's turbines and qualified at 166.297 m.p.h.

Indians Trade Shutouts With Oakland A's

OAKLAND (AP) — Pitching is the name of the Cleveland Indians game.

They scored only one run in 20 innings against the Oakland A's Tuesday night, but still got a doubleheader split.

The Indians won the first game 1-0 in 11 innings behind the four-hit pitching of Sam McDowell but lost 2-0 in the second game to John Odom of the A's.

Manager Alvin Dark of the Indians blamed the lack of runs on "home run fever."

LOOK TO FENCE

"Even the little guys are swinging for the fences," he said. Of course, Dark was happy that one of his little guys swung for the fence. Jose Cardenal's homer in the 11th inning won the first game.

★ ★ ★

"We got to start scoring some runs," Dark said. He didn't want all the good pitching to go to waste. In the 21 Cleveland wins this season, Indian pitchers have 12 shutouts.

Odom said he figured he had to pitch a shutout to win, also.

"That's the way all the pitchers on our team feel," he said.

GETS TIRED

"I got tired but I just kept pitching," he said. Odom had been out for two weeks with a sore shoulder before his start against the Indians. He lost to Cleveland 3-1 earlier in the year when McDowell also beat Oakland.

This time Odom was fortunate and didn't have to pitch against Sam.

Cardenal also gave Odom trouble. He had three straight hits before Odom struck him out in the ninth inning.

In tonight's game it will be Jim Nash 1-4 for Oakland and Stan Williams 2-1 for Cleveland. The Indians are in second place in the American League two games behind the league-leading Detroit Tigers.

Northville	11	2	Holly	6	7
BH Andover	7	6	West Bloomfield	5	8
Clarkston	7	6	Clarenceville	5	8
Milford	7	6	Brighton	4	9

Senior Brian Parrott's first starting assignment for Bloomfield Hills Andover as a pitcher Tuesday resulted in the school's first no-hitter in five years.

The hard-throwing right-hander, who normally does the Barons' catching, blanked Clarenceville in a Wayne-Oakland League makeup game, 2-0, to give them a share of second place.

The Trojans' Jim McCammon even outpitched Parrott for five innings, retiring the first 16 batters he faced.

★ ★ ★

In the sixth, however, Larry Appleby broke the spell with a double and scored on Bob Foreman's single. Randy Marshall plated an insurance tally with another single.

Parrott walked eight and coach Hal Henderson was on the verge of lifting him in the sixth when he walked the bases full, before bouncing back to retire the side.

★ ★ ★

The hitless gem gives Parrott a string of 12 straight innings in which he hasn't allowed a safety. He has allowed only two earned runs in 20 innings (mostly in relief). Andover is now 8-8 over-all.

Hall of Fame Honor for Yank, Frenchman

INDIANAPOLIS, Ind. (AP) — The late Tony Bettenhausen, two-time winner of the national driving championship, and French mechanic Jean Marcenac have been named to auto racing's Hall of Fame, the Indianapolis Motor Speedway announced Tuesday.

Bettenhausen was named on 90 of the 100 ballots cast by race officials, historians and news media representatives on the selection committee. Marenac received 89 votes.

Special ceremonies will be held Thursday night. Garry Bettenhausen who is trying to qualify a car for this year's 500 on May 30, has been asked to accept the bronze medallion for his father. George Souders, who won the 500 in 1927, will aceept for Marcenac.

Long Outboard Race on July Schedule

TOPINABEE (AP) — The 20th annual Top O' Michigan outboard marathon race, covering 87 miles from Topinabee on Mullett Lake to Alanson on Crooked River and return, is scheduled July 13-14. Qualifying runs are scheduled the opening day with the marathon run along the inland waterway the following day. Last year about 75 boats entered in the five classes took part in the race.

TROY, N.Y. (AP) — Dave Burkhart, an outfielder from Warren, Mich., and Jack Hart, a shortstop from Darien, Conn., have been elected cocaptains of the Rensselaer Polytechnic Institute baseball team for next season. Both are 20-year-old juniors.

Pontiac Catholic Fails in Bid to Grab Baseball Lead

Pontiac Catholic lost a chance to regain sole possession of the top spot in the Northwest Catholic League diamond race Tuesday when Detroit St. Rita rallied for a 3-2 victory and took over the lead.

Waterford Our Lady of Lakes registered the first baseball victory in the school's history and ousted St. Francis de Sales from the race with a 7-1 upset win.

Farmington Our Lady stayed a half game off the lead by thumping Orchard Lake St. Mary, 9-2, and Royal Oak St. Mary trimmed Ferndale St. James, 12-2.

★ ★ ★

ROSM and Pontiac Catholic's Titans meet today in a battle to determine who will remain in contention with the season slated to conclude this weekend.

FIRST HOME RUN

The Titans took a 2-0 lead at St. Rita on a long home run by sophomore Tom Jamnik, the first ever by a PCHS batter, and the baserunning of soph Tim Boyer. He walked, stole two bases and scored on an overthrow.

★ ★ ★

But Tom Smith's homer started St. Rita's victory drive. A wild pitch after two walks and a bases-loaded double in the seventh ended the battle.

★ ★ ★

OL St. Mary took a 2-0 lead, also, as Mick Krogulecki singled, Van Muehfeld doubled and Joe Yakel plated both with a two-out single in the opening inning.

GRAND SLAM

Dennis Perry's grand slam roundtripper in the second overcame the lead. Tom Webster had a solo homer and winner Ross Patton cracked a two-run single. All three Lancers had two hits.

Waterford OLL broke the win barrier after seven losses despite only getting one hit. The Lakers scored three in the first without a hit, and after de Sales tied it in the second, Jerry Yezbick broke the deadlock with an rbi-single in the third.

Brian Haskins whiffed 11 and scattered three hits to post the mound triumph.

PCH Golfers Halt Rochester

The Chiefs of Pontiac Central turned some hot hot shooting into a 153-162 golf victory over Rochester yesterday at Pontiac Municipal Golf Course.

The Chiefs' Gary Balliet led the way with a 36, while teammates Dick Kallis and Norm Runyon posted 37s.

Carl Griffis, Fred Wade and Chuck Leyman posted 40s for Rochester.

Northern, Central Foiled in Efforts on Tennis Courts

Pontiac Northern and Waterford both dropped tennis outings Tuesday with the Huskies' match against Rochester being shortened by rain.

The Falcons closed their dual meet season by topping PNH, 4-2, for a 10-3 record. Rochester won all the singles matches. Northern is 3-8.

Waterford was blanked by Inter-Lakes League rival Livonia Stevenson, 7-0, giving the Skippers a 3-12 mark. Both WTHS and Northern are 1-5 in the I-L circuit. The Spartans are 6-2.

Brother Rice in 1-0 Verdict

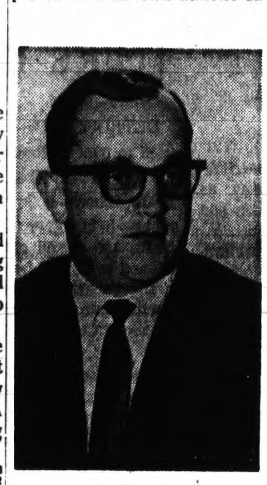

Birmingham Brother Rice avenged an earlier loss Tuesday afternoon by upending Harper Woods Notre Dame, 1-0, for the Warriors' third victory in a row.

Now 10-5, Brother Rice scored the only run in the third inning as Dave Fournier walked and came all the way round on two errors.

Marv Dudek stopped Notre Dame on three hits, striking out eight. The Warriors are now tied for second in the AA Division and meet pacesetting Catholic Central today.

Pontiac Catholic —the city's newest high school — will climax its first season of athletic endeavors by the bottle green, gold and white clad Titans with an All-Sports Banquet at 6:30 p.m. next Monday in school cafeteria.

John McVay, the football coach at the University of Dayton, will be the principal speaker. The PCHS followers will be honoring one championship team: the girls' basketball sextet.

Another highlight of the evening will be the presenting of the permanent Steve Griffin Memorial Awards to the outstanding boy and girl athletes for the year.

★ ★ ★

Steve Griffin was one of Pontiac's best known and highly regarded sportsmen. While his chief sports interests were baseball and amateur boxing, he originated the Griffin Trophy in 1935 for the winner of the St. Michael-St. Frederick annual football game.

★ ★ ★

Steve became known as the "Friend of Youth" because of his devotion to amateur boxing and his generosity in aiding the city's junior baseball program.

★ ★ ★

The Griffin Memorial Award for excellence in athletics was originated by his sister Rose Griffin to honor the best St. Mike athletes following Steve's untimely death in 1941 at age 45.

★ ★ ★

He succumbed to a heart attack just two weeks after being named to the State Boxing Commission.

CONTINUING

When St. Mike was included in the merger to create Pontiac Catholic, Miss Griffin elected to continue the memorial awards.

It hasn't been an easy first year for Titan athletes. Deprived of their own athletic facilities due to delays in construction, they have had to use various other city buildings and grounds for practice and games.

★ ★ ★

But athletic director Mel Larsen has found encouragement.

"The enthusiasm is there. That's what is important and impresses me the most," Larsen comments. "The number of boys who want to play football next fall is almost double what we had last year."

★ ★ ★

Helping the situation, too, is the realization that the school lockerroom and gymnasium facilities will be ready. Work hasn't begun yet on the outside facilities — such as a football practice field, a baseball diamond or an all-weather track—although the plans have been approved.

COACHING CHANGES

Additional coaches will be hired and only one mentor has been lost, baseball coach Don Stuckey will move to St. David's next fall.

Promoted to fill that vacancy is Jim Conlen, a Central Michigan graduate (1966) who is the assistant basketball mentor at PCHS and worked, too, with the reserve football squad last fall.

★ ★ ★

Another baseball assistant being promoted is Clarkston's Paul Tungate. Roger (Pete) Thompson has guided the Wolves since 1961 but is leaving to be Co-Op Program coordinator for the Westwood Heights School System near Flint.

★ ★ ★

Former Rochester High School net star Rick Watson—the Oakland County men's singles champion — won eight of his first ten singles matches and matched that mark in doubles as a freshman on the Kalamazoo varsity.

He also posted a key singles victory in the Hornets' Great Lakes Colleges Association Tournament championship — the first by an MIAA member.

Radatz Whiffs 11 as Toledo Beats Buffalo

By the Associated Press

It took a lot of king-sized statistics—23 walks, 24 strikeouts and 10 pitchers—before the Syracuse Chiefs were able to best the Rochester Red Wings, 6-5 in a 14-inning, 4½-hour International League series opener Tuesday night.

★ ★ ★

Dick Radataz struck out 11 and allowed just six hits in pitching Toledo past Buffalo, 4-1. Bob Christian drove in three runs with a homer and a single.

★ ★ ★

The loss dropped the Red Wings to within only a half game of the pursuing Columbus Jets and Louisville Colonels in the league's tight upper division race.

Torrid Duel Continues in O-A League

Utica and Clawson continued to win the close ones in the torrid battle for the Oakland A League championship yesterday.

Pacesetting Utica scored twice in the seventh inning for a 3-1 conquest at Troy. Runner-up Clawson needed nine innings to nudge by Romeo, 1-0.

Madison (5-4) made a successful trip to Rochester, (5-4) tying the Falcons for third place, 3-0.

Utica's Chieftains upped their mark to 6-1 and 19-3 overall when winning hurler Gerald Yeager singled home two unearned runs in the seventh. Rob Dilday's triple and a sacrifice fly by Donn Somers tied the game in the second.

★ ★ ★

Terry Morgan's double led to an unearned run for Troy in the first. Utica now has won eight games in a row.

In a night game at Clawson, Paul Rajala's two-out single scored Mike Heist with the lone run and gave the host Trojans their 14th straight win.

★ ★ ★

They are 7-2 in the O-A race. Brad Czajka stopped them on 10 strikeouts and two hits for eight innings, but Romeo could only manage Corky Semp's opening-inning infield safety over the nine innings.

Rochester was limited to three hits by Madison's John Havrelko. Jerry Caudill's doulbe scored the only run the Eagles needed.

Pitchers Sharp in City Action

Sharp pitching and lusty hitting carried J. A. Fredman and Ron's Roost to victory last night in city recreation softball action.

Ralph Long gave up only one hit—a second-inning single—as Ron's blanked Ray's Sunoco, 8-0, and Larry Hansen gave up only two safeties as Fredman whipped the Merchants, 12-1.

Three singles and a couple of walks helped Ron's to a four-run first inning and that was all Long needed. The game was called under the five-inning rule.

Paul Davis singled home a run in the first and brought three more home in the fifth with a home run to pace the Fredman attack.

Mets Take 17-Inning Tilt

Giants Win, Share Second

By the Associated Press

Herman Franks got the game he'd been waiting for. Larry Shepard still is waiting.

Franks' San Francisco Giants beat Atlanta 6-4 Tuesday night and moved into a tie for second place in the National League with the Braves.

★ ★ ★

Shepard's Pittsburgh Pirates fought the New York Mets 17 innings before bowing 4-3 and dropping into the cellar.

OTHER GAMES

In other National League games, Los Angeles crushed St. Louis 9-2, Houston bombed Cincinnati 8-2 and Chicago edged Philadelphia 6-5.

★ ★ ★

"It's about time we did something right," said Franks after the Giants, losers in three of their last four games, had taken a 5-0 lead and then held off a late Braves' rally. "But I was worried. Thank goodness for Jim Ray Hart."

Hart blasted his ninth homer in the first inning, driving in two runners ahead of him. Ray Sadecki held off the Braves until the fifth, when Deron Johnson homered and he left the game in the seventh when Bob Bolin and Frank Linzy were called on to quell the uprising.

★ ★ ★

Shepard, who recently threatened to fine his players if they didn't produce, had himself to blame for his club's latest defeat, its fifth in a row.

With a man on second and one out in the 17th, he replaced smoothfielding Bill Mazeroski at second with Chuck Hiller, who is not exactly winner of the Golden Gloves award.

MAKES ERROR

Shepard later said his strategy was to have Hiller bat third in the 18th inning for the pitcher. But there never was an 18th inning, because after Elroy Face retired one batter, Ken Boswell grounded to Hiller, who threw the ball away, letting the winning run score.

GARY PLAYER'S GOLF CLASS: If you get nervous on the first tee...

FLYING HOME—Cincinnati's Pete Rose dives toward the plate as Houston catcher Dave Adlesh waits for a throw from the outfield that came too late. Rose made a safe belly landing, coming in from second on a soft fly off the bat of Tony Perez that fell into center field for a hit. Houston won, 8-2.

U.S. Open Field Grows

By the Associated Press

Bill Collins, forced off pro golf's multi-million dollar tour by a bad back, still wants another shot at the U.S. Open championship. He is swinging right along in that direction.

The burly 39-year-old former winner of the Buick and New Orleans opens, shot a five-under-par 66 Tuesday for a 36-hole total of 140 to lead the Westchester, N.Y., regional qualifying for the U.S. Open at Rochester next month.

Collins was not the leader of the some 2,500 golfers who competed in regional tests throughout the country Monday and Tuesday as the first step toward qualifying for the big one at Rochester's Oak Hills Country Club June 13-16.

★ ★ ★

Gibby Gilbert, with a 136 at Memphis, Jack Montgomery with a 137 at Dallas and R. B. McLendon, with a 139 at Memphis, preceded Collins' 140 in the two-day competition for the right to compete in sectional eliminations June 3-4.

Collins was a member of the U.S. Ryder Cup team in 1961 and finished seventh in the 1964 Open. The former touring pro from Purchase, N.Y., put together rounds of 74 and 66 at New Rochelle, N.Y., and is confident he can do it again in the sectional qualifying. He left the tour several years ago.

Gilbert, pro at the Hillcrest Country Club in Hollywood, Fla., posted rounds of 66-70 for his 136 over the par 70 Memphis Country Club course. Montgomery, of Fort Worth, Tex., got his 137, seven-under-par, at the Dallas Country Club. McLendon, of Birmingham, Ala., posted his 139 on the same course on which Gilbert played.

STATE GOLFER

John Lively of Canton, Tex., shot a Memphis course record of 65 in his afternoon round, but his morning 76 left him tied at 141 with Dale Douglass of Denver, Everett Vinzant of Kansas City, John Molenda of Port Huron, Mich., Hideyo Sugimoto of Tokyo and Rocky Thompson of Wichita, Tex.

South Lyon '9' Moves Closer to Loop Crown

Defending Southeastern Conference champion South Lyon moved within one win of gaining a share of the 1968 baseball title with an 8-2 victory over Dexter Tuesday.

The Lions now are 8-2 in the loop with two games left, Dexter slumped to 6-3. Larry Roper scattered nine hits in hurling South Lyon to an 11-3 mark over-all.

Dexter took a 2-0 lead in the second, but the Lions roared back with two out in their half. Five hits, five stolen bases and a wild pitch gave them five runs.

Steve Schwartz capped the outburst with a two-run single, and did likewise in the winners' three-run fourth. Roper whiffed nine and walked none in winning his sixth.

Playoff Decides Opener of Women's District Golf

Mrs. John Hume of Birmingham took the opener of the Women's District Golf Association weekly events yesterday by downing Mrs. Frank Richart of Ann Arbor in a six-hole playoff.

Both carded 82s over the Red Run Country Club course to pace a field of 99.

Holding the third spot was Joyce Kazmierski of Grosse Ile with a 41-43-84.

Using total score for each three holes of a playoff, Mrs. Hume and Mrs. Richart were still deadlocked after three holes, but Mrs. Hume picked up three strokes in the next trio to win the overtime match, 30-27.

Milford Golfers Topple Andover

Milford trimmed Bloomfield Hills Andover, 156-165, at Highland Hills Golf Course yesterday to up its golf record to 15-5.

★ ★ ★

Ted Weinberg had a 38, while teammates Matt Partridge and Steve Burrows posted 39s for the Redskins. Andover was paced by John Hageman's 40.

Stokers Halt Beacons

BOSTON (AP) — The Cleveland Stokers defeated the Boston Beacons 4-1 Tuesday night in a North American Soccer League game before 4,485 at Fenway Park.

Waterford Skippers Supreme on Links

Waterford completed a sweep of its spring golf matches with Kettering with a 200-212 victory yesterday at Pontiac Country Club.

Rod Skelton and Randy Berry fired 38s for the Skippers while Sid Graves had a 41 for WKHS. The winners now have 700 points to 100 by Kettering in the All-Sports Trophy duels.

The Skippers are hosts today to the Inter-Lakes League meet at PCC. Walled Lake forged a three-way tie among itself, WTHS and Stevenson with a 205-207 win over Waterford Monday aided by a penalty.

I Bet You Didn't Know

By John Carter

Here's one that's hard to believe . . . Did you know that no one has ever hit a home run out of Yankee Stadium . . . That's right — In all the stadium's long history, no one has ever hit a fairball out of Yankee Stadium during a game. . . Several players have come within a foot or two of doing it, but nobody's done it yet . . . That's rather amazing when you consider all the great sluggers who have played many games there.

★ ★ ★ ★ ★

Did you know that there was once a violinist with a symphony orchestra who became a big league baseball player? . . . His name was Eddie Basinski . . . He played second base and shortstop for the Dodgers in 1944 and 1945 and for the Pirates in 1947.

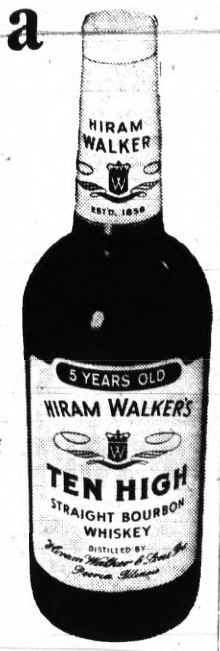

★ ★ ★ ★ ★

When a relief pitcher comes into a baseball game, or when any pitcher starts an inning, do you know how many warm-up pitches they are allowed to throw from the mound? . . . There is a definite rule in the official rule book on this . . . It says a pitcher may throw no more than eight warm-up tosses and he must complete them within one-minute . . . Notice that the next time you see a ball game . . . The only exception is if the previous pitcher is injured and a new pitcher must come in without having had a chance to warm up in the bull pen . . . Then the umpire can allow him to warm up longer on the mound.

Waterford Ends Streak of Loop Titlist

Waterford's streaking Skippers nipped Stevenson, 1-0, Tuesday to end the Livonia Inter-Lakes League titlist's hopes for an unbeaten loop campaign.

The win also set up the Skippers for a Friday second-place showdown with Walled Lake, a 7-6 victor over Farmington. Both are 4-3 with one game remaining.

Waterford Mott suprised Bloomfield Hills Lahser, 3-2; Oxford took an 8-5 trimming from Lutheran East; and Royal Oak Dondero dropped an 8-1 verdict at Wyandotte.

★ ★ ★

Rod Kennedy hurled the third straight one-hitter by the WTHS staff and Terry Crawford's double plated the only run in the second inning.

NO RUNNERS

Right-hander Kennedy retired 15 straight batters after a scratch single off his glove in the opening inning. It was his second one-hit performance within a week. WTHS now has won five in a row for a 14-8 record.

★ ★ ★

Walled Lake is 8-6 after Dan McDole's three hits sparked a 10-hit attach. The Vikings went ahead for good on a three-run surge in the third, and Wally Williams' two-run double scored the clinching pair in the fourth.

Williams also had a triple and rbi in the first. Dave Horton saved the win for Chuck O'Brien by fanning four of the six batters he faced in the sixth and seventh.

★ ★ ★

Carl Fournier's long drive to center field scored Terry Ruffatto with the winning run in the eighth inning for Mott. It gave the win to Randy Cooper, now 5-0.

Mott is 8-4 and avenged an earlier loss to Lahser (6-3).

Lutheran East held a 3-1 lead at Oxford, then broke loose for five runs in the last inning. The Wildcats (1-11) then retaliated for four markers.

★ ★ ★

Loser Dave Kastelic pounded three singles and a triple for Oxford. Darrell Marsh had two singles and accounted for two runs in the seventh inning outburst.

★ ★ ★

Dan Falkenbury had three of Dondero's four hits and scored the Oaks' (5-5) lone run on a passed ball.

Southfield Halts Andover Netters

Southfield blanked Wayne-Oakland League net champion Andover, 6-0, in a rain-shortened match Tuesday.

The defeat ended a 13-match victory string for the Barons who are 14-3. It was their second loss to Southfield.

Pontiac Colt Is Winner

DETROIT — Sudan's Special, a three-year-old specialty colt from the Sudan stables of Pontiac, stayed on gait for the entire mile in the $3,500 Michigan colt stake for three-year-old trotters Tuesday at Wolverine Raceway and that netted a victory in 2:10 1-5.

The crowd of more than 5,700 made Hickory Choice, Lady Edgeworth and Elby Chip the choices in the wagering but the even-oney Hickory Choice broke twice, Lady Edgeworth once and Elby Chip just couldn't catch up.

★ ★ ★

Meanwhile, driver Clyde Snook had Sudan's Special in front and he stayed there for the final three quarters of the mile for a rather easy victory.

★ ★ ★

Fair Ruler came on strong in the stretch drive to finish second a length back while Elby Chip was third a had back of Fair Ruler.

Fregosi Back to Sink Bosox

ANAHEIM (AP)—The Boston Red Sox have lived to the day they failed to protect Jim Fregosi in the American League's 1960 expansion draft.

The youthful shortstop had only one year of pro experience under his belt, hitting .267 at Alpine, Tex., when the California Angels drafted him.

At the same time, the Red Sox protected such players as pitcher Billy Muffett, infielder Don Buddin and outfielder Carroll Hardy.

★ ★ ★

Meanwhile, Fregosi developed into the American League's all-star shortstop last season. And this season he is making life miserable for his former Boston employers.

Tuesday night Fregosi broke a 1-1 tie with a two-run homer in the sixth inning to propel the Angels to their second straight victory over the Red Sox, 5-1.

★ ★ ★

The night before, he slammed a homer, triple and double before completing the cycle with an 11th-inning single that toppled Boston, 5-4.

Fregosi has played in three all-star games, 1964-66-67 and seems destined for it in 1968. He has raised his season average to .276 and has fielded brilliantly.

WASHINGTON (AP) — Andy Kosco's leadoff home run in the ninth inning gave the New York Yankees a 2-1 victory over Washington Tuesday behind Mel Stottlemyre's six-hit pitching.

The Yanks have won three straight games and the Senators have lost four in a row.

Kosco's homer, his sixth of the season, was the seventh hit off losing pitcher Joe Coleman, 2-3. Stottlemyre, who struck out seven, is now 5-3.

BALTIMORE (AP) — Gerry McNertney's single in the 12th inning drove in the winning run Tuesday night as the Chicago White Sox outlasted Baltimore 2-1.

Ken Berry led off the Chicago 12th with a bunt single and went to second when Brooks Robinson threw wildly to first. Sandy Alomar then beat out a bunt, with Berry holding second.

McNertney then bunted foul on two pitches off Orioles' reliever Eddie Watt, 1-3, and then singled to right, scoring Berry.

The Orioles tied it 1-1 in the eighth, Boog Powell's single drove in the run after a walk and Frank Robinson's scratch single.

Brabender allowed three hits in the nine innings he worked.

State Okays Fund for Fighting Lamprey Eel

Need Control in Lake Huron

Conservation Office Asks Federal Help

LANSING (UPI) — The State Senate authorized the Michigan Department of Conservation to spend $150,000 to fight the lamprey eel in Lake Huron if the federal government fails to provide the funds.

Without adding to the total conservation budget of $13.2 million, the Senate amended the bill to permit the state to take over the federal share of the lamprey control program if necessary.

SEES LOSSES

"If you don't continue this program, you could lose millions of dollars and millions of pounds of fish," said Sen. L. Harvey Lodge, R-Pontiac.

Sen. Garland Lane, D-Flint, said there is evidence that the lamprey is gaining dominance in Lake Huron and is threatening "to take over again."

The State Conservation Commission has urged President Johnson, Secretary of State Dean Rusk and the Michigan congressional delegation to pump back into the lamprey control program $150,000 that was cut last year.

A lack of U.S. dollars has stymied chemical treatment of lamprey — producing tributaries since last year and unless $150,000 is provided to match Canadian funds, control work on Michigan's side of Lake Huron will remain stalled until mid-1969.

Holds Annual Puppy Match

The Detroit Bulldog Club will stage its annual puppy match Sunday afternoon in the hall at 177 Vester, Ferndale.

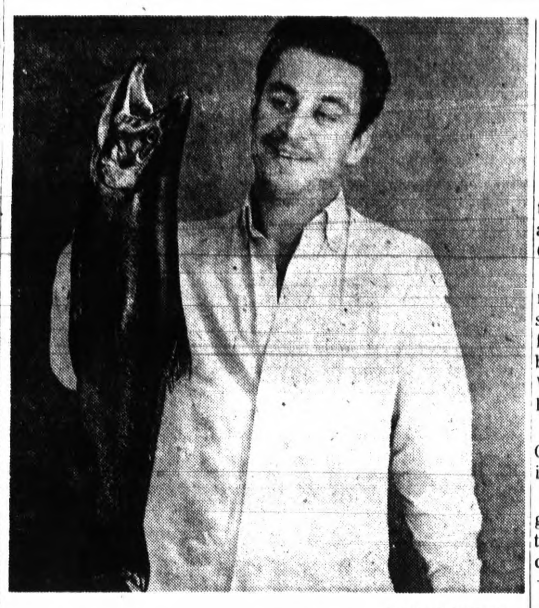

All purebred bulldog puppies (up to one year in age) are eligible. Entries are $1 each and will be taken at the door. The judging will begin at 1 p.m.

There will be handling demonstrations for new exhibitors. A junior showmanship competition also is planned. Additional information is available from Mrs. John Kinzie at 651-6549.

NICE CATCH—Wayne King of Pontiac holds the 25 Inch and 5½ pound trout he hooked last weekend along the Clinton River near School House Lake. King was testing a 'Coho Marader' lure when he caught the big rainbow.

Hooks Big Trout

Proves Lure Theory

Wayne King proved a theory to himself Saturday morning, and probably to a few other Clinton River fishermen.

King, a tackle and lure manufacturer who owns a bait shop at 219 Auburn, was fishing for rainbow trout along the bottom of the Clinton River off Walton Boulevard near School House Lake.

Using his own lure (Wayne's Coho Marader), he hooked a 25-inch, 5½ pound rainbow trout.

"It's my theory that the bigger rainbows use the same tactics as the steelhead," King commented.

"I tested this in Oregon during the winter, and now I'm proving it here."

Mott Triumphs

Bruce Clifton of Waterford Mott won two events and shared in another yesterday but it came in a losing effort as the Corsairs dropped a 69-49 track decision to Hartland.

★ ★ ★

Clifton won the 440 (53.4), the long jump (17-1¾) and had a hand in the winning mile relay team.

Rec Leader Still Unbeaten

Three-hit pitching by Jerry Thomas carried unbeaten Day's Sanitary Service (5-0) to a 1-0 victory over Clarkston Appliance (3-2) last night in Waterford Township softball action.

★ ★ ★

Losing pitcher Harold Hughes gave up only two hits, but both came in the second and produced the only run of the game. Bud Thomason beat out an infield single, moved to second on a sacrifice, to third on a passed ball and scored on a two-out single to left by Dick Cooper.

★ ★ ★

Thomas and Hughes struck out six batters apiece and yielded one walk each.

★ ★ ★

In the second game, Ward Body (2-3) downed Lighthouse Lanes (1-4), 10-3, behind the hitting of Jim McDonald.

★ ★ ★

McDonald lashed a triple and two singles, knocked in one run and scored twice to pace the attack. Bob Frasier picked up the victory with a four-hitter. Two of the hits were doubles by Walt Poe.

Slate Sail Races for Watkins Lake

The Watkins Lake Yachting Association plans to begin its annual spring racing series Memorial Day weekend for the junior and senior fleets.

Both fleets will race Saturdays during the season, and Sunday races are slated for senior thistle, snipe and sun fish sailors.

Commodore Dave Green has announced that this summer's special events will include the sailors' breakfast June 23, the fun races July 4, and Venetian night Aug. 10.

Slowpitch Pitcher Posts 2nd Shutout

Shutouts, a rarity in Slowpitch Softball, aren't so scarce in the Walled Lake Industrial Softball League.

Pitcher Norm Bayliss of the Imperial Molded Products recorded his second one of the season last night, blanking Mobil Temperature, 9-0, on four hits.

It was the third victory in four outings for IMP and boosted it into second place in the "A" Division.

Walled Lake Building Maintenance Monday shut out Kimberly North, 4-0, for its initial triumph in "B" action.

Unbeaten Penny Manufacturing (6-0) coasted past Haggerty Lumber, 28-2, in another game last night.

Trading Is Active

Market Rally Gathers Strength

NEW YORK (AP)—A stock market rally gathered strength early today in active trading.

Gains outnumbered losses by a ratio of about 8 to 3, and the Dow Jones Industrial Average was up between three and four points.

Otis Elevator's block of 209,600 shares pushed it to the top of the list of volume leaders. It opened at 43½, off 1¾ but quickly erased most of this loss.

★ ★ ★

IBM leaped 9 points after a slight delayed opening. Litton Industries rose 3, Lear, Siegler, Santa Fe and Sanders Associates more than a point each.

★ ★ ★

Advances of about a point were made by Goodyear, Control Data, Polaroid and Pittston Co.

FRACTIONAL GAINERS

Fractional gainers included Chrysler, Goodrich, United Aircraft, Sperry Rand, Allied Chemical, Penn Central, Texaco, United Air Lines, Reynolds tobacco, Alcan Alumnimum, Commercial Credit and Thrifty drug.

But the advance was not running away with itself.

★ ★ ★

MacDonnell Douglas sagged more than a point. Savannah Electric & Power was down a fraction. Other fractional losers included du Pont, Air Reduction, Phelps Dodge, Standard Oil of California, Lorillard and Pfizer.

Tuesday the Associated Press Average of 60 Stocks rose 1.7 to 329.6.

Holly GI, Sent Back to Battle, Is Still Fighting

By ED BLUNDEN

Spec. 4 Mike Phelps of Holly, one of the airborne troops dispatched to Vietnam on an emergency basis last February, is still there, according to his latest letter.

The trooper is fighting in Vietnam for the second time after having been wounded, decorated and having contracted Asian diseases in arduous combat. He was sent back in February after nine months in the States.

MIKE PHELPS

★ ★ ★

His outfit, the 3rd Brigade of the 82nd Airborne Division, now attached to the 101st Airborne Division, is apparently engaged in fighting near Hue.

His mother, Mrs. Kenneth Phelps of 1124 Lambert, said his recent letters

RUSHED TO VIETNAM

indicated his unit had recently been in some of the fierce fighting around the former imperial capital.

Phelps was in a contingent of 3,500 paratroops rushed to Vietnam from Ft. Bragg, N.C., in February during the attack on the cities. Including some Marines, 10,000 men were sent to bolster U.S. forces, short of men at that time.

Phelps had already served in the Viet fighting, as had about a third of the 3rd Brigade. In fact he had spent a solid year in combat and holds the Purple Heart and Bronze Star.

★ ★ ★

Rotated back to the states and Ft. Bragg, Phelps spent nine months in the U.S. before being returned to the fighting by presidential order.

★ ★ ★

Officers contacted by The Press at the time the order was issued said the movement was an emergency measure and, before the end of February, Defense Department spokesman announced a phase-out plan was being initiated to return those who had already served in combat and had less than a year between tours.

'GOING INTO EFFECT'

On April 10, an Associated Press dispatch quoted the Pentagon as saying the phase-out was being put into effect and would include some 1,350 paratroops who were veterans.

Phelps wrote his mother, about this same time that he and others in his unit were waiting for shipment home. However, this has not occurred yet (six weeks later) and the brigade is now apparently seeing plenty of action.

★ ★ ★

When the 3rd Brigade first arrived in South Vietnam it was stationed in a relatively quiet sector south of Da Nang, near Chu Lai.

Phelps wrote that he didn't think any more of the veterans were being sent back and said he didn't expect to be shipped out before the end of August.

★ ★ ★

The Defense Department was phoned again yesterday by The Press and a spokesman insisted, "No promises have been broken."

'700 RETURNED'

He said the veterans were being "sent back in a steady stream . . . on a priority basis." He said there was no shortage of troops there, but added "There's only so much transport." He said 700 had been returned already.

He said the Defense Department last week had formulated a policy on the entire shipment of 3,500 men in the 3rd Brigade sent over in February.

★ ★ ★

While the unit will stay there, the personnel are to be rotated back to the states and replaced. The ones with the most recent prior Vietnam service would leave first, he said.

He added that for troops who had not served in Vietnam prior to the emergency shipment in February, the "temporary duty in Vietnam would not count toward a tour of duty.

COULD BE REASSIGNED

In other words, after their return they could be reassigned to Vietnam and would have to serve a year there in spite of the fact they would have as much as six months in the Asian country on a "temporary duty" basis.

The spokesman said men of the brigade were being given a chance to sign up for a tour of duty, in which case the "temporary duty" would count toward the required year and the men would remain with the unit.

★ ★ ★

Phelps' three-year enlistment is up in October. A paratrooper from Detroit, who was sent at the same time as Phelps, was also reported still in Vietnam.

Mrs. Ray Polletti said her son, Pete, was reported injured April 9, but she said she has not heard anything from him or the Army since. His discharge is due in July.

Polletti served twice before in Vietnam and received two Purple Hearts and a Bronze Star, his mother said.

★ ★ ★

Both Mrs. Polletti and Mrs. Phelps have been engaged in a letter-writing campaign, contacting political leaders, in the attempt to get their sons back in the U.S. They contend their sons have done their part and that the reassignment to combat duty is unfair.

Police Marksman Wounds Himself

JACKSON (AP)—Trooper Richard Grabner, a member of the Michigan State Police championship pistol team, is recovering in a Jackson hospital from a minor gunshot wound suffered when he shot himself in the left hand while attempting to dispose of a dog.

★ ★ ★

Sgt. Jack Brouard of the Jackson Post said Grabner, a specialist in recruiting and public relations, came to the post Monday and agreed to dispose of the dog when it was brought in. Grabner suffered a broken finger which required surgery, he said.

Grabner, 33, is an 11-year veteran of the State Police.

Youth Charged in Double Killing

KALAMAZOO (AP) — An 18-year-old orderly at a convalescent home faces examination next Wednesday on five counts of murder growing out of a weekend double slaying in which the victims died of multiple stab wounds.

★ ★ ★

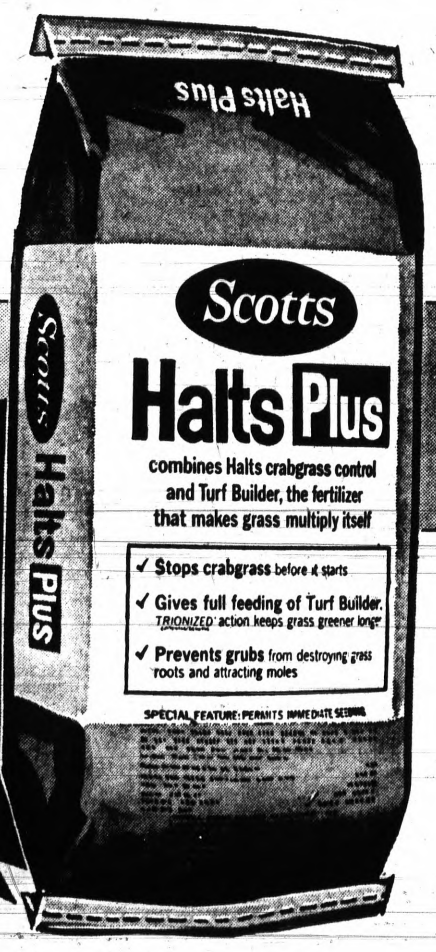

He is Lawrence Nichols Jr., arrested Tuesday at his Kalamazoo home. The victims were Sylvia Vincent, 51, and Elmer Webb, 82, whose bodies were found in Webb's apartment Sunday. Nichols was charged with murder in each death and with murder while perpetrating robbery and while perpetrating rape in the death of Mrs. Vincent.

No One 'Dogs' It Here

Students are big, little, spotted, shaggy and curly. Some of them are pedigreed and some are just good sports.

All agree that it's a doggone good course in dog handling now being offered on Tuesday evenings at the Oakland County 4-H Fairgrounds.

★ ★ ★

Just one thing—nobody "dogs it" on Tuesday nights. Reg Armstrong of the Southern Michigan Obedience Training Club and the teacher in charge sees to that.

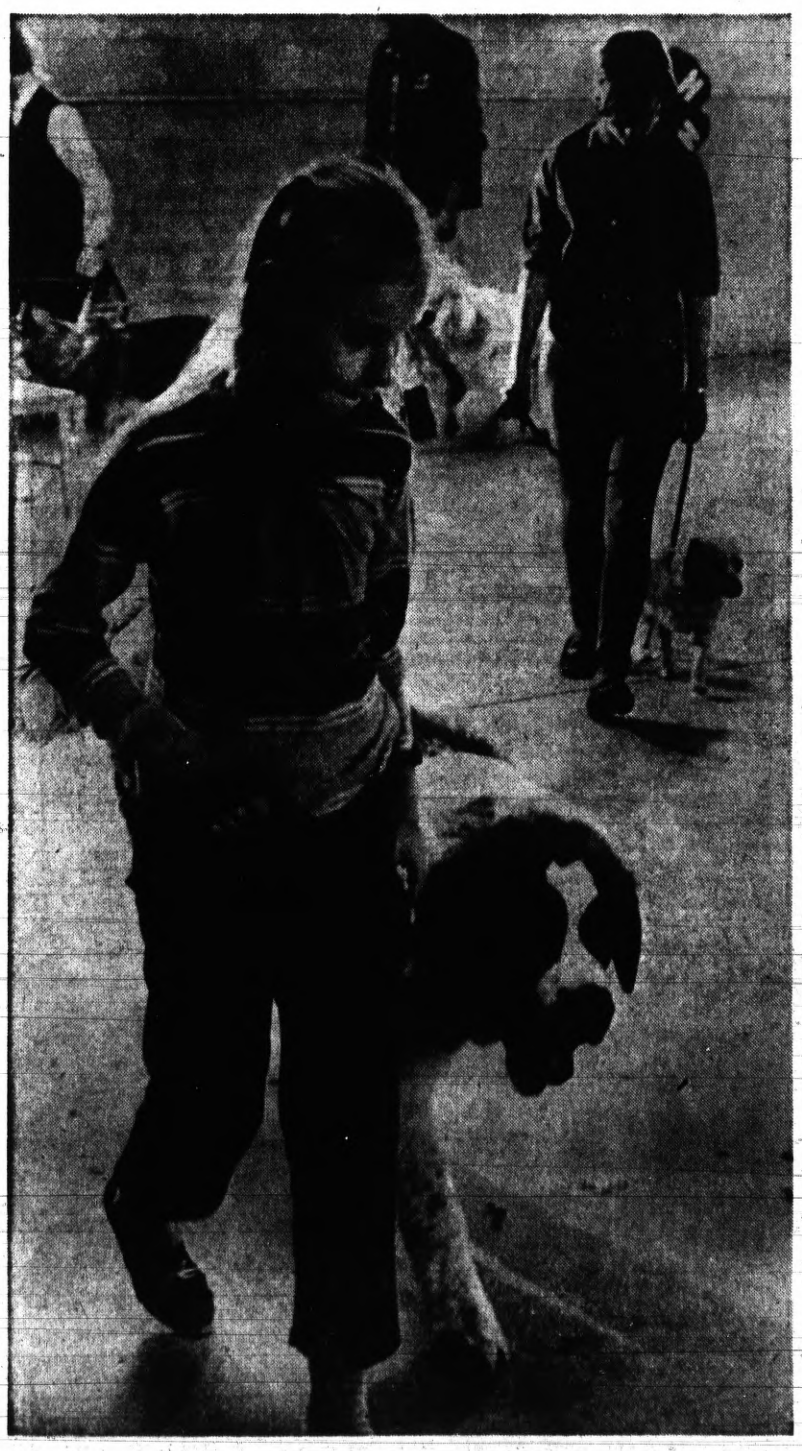

Object of the course is the care and training of dogs. The canines are there to find out what "Stay!" "Sit!" and "Heel!" really mean. Their young masters and mistresses are there to get some instruction, too.

'KIDS ARE LEARNING'

The kids are learning about cooperation and sportsmanship, dog management, the identification of breeds, dog health, and even the possibilities of careers in the field.

But nobody's hounding them —it's mostly a matter of getting the most enjoyment from owning a dog.

House OKs Measure on Filling Judgeships

LANSING (AP)— A measure to give the governor power to fill vacant judgeships won House approval Tuesday, but a proposed State Police reserve force was stalled by a debate over its racial composition.

Faced with the threat of a Saturday session, the House continued meeting from morning until night to work on the big stack of Senate-passed bills still before it. The current deadline for passing bills is Friday.

★ ★ ★

Given 89-2 approval by the chamber was a proposed constitutional amendment which would, if approved by the Senate and the voters, restore some of the governor's power to appoint judges when vacancies occur.

The State Constitution of 1908 gave judicial appointment powers to the governor. The 1963 constitution provides for special elections and permits the Supreme Court to temporarily fill vacancies with retired judges.

UNTIL ELECTION

Under the House proposal, introduced by Rep. Dennis Cawthorne, R-Manistee, an appointed judge would serve until the next general election, and would be eligible to run for the remainder of the term.

A bill authorizing the Department of State Police to set up a reserve force of unspecified size —intended to help man police posts when troopers are called to deal with riots or other emergencies — was laid over until today.

★ ★ ★

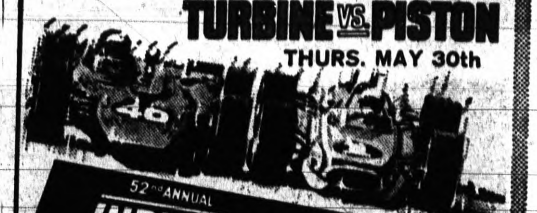

Several Negro members objected to a house committee proposal limiting members of the reserve force to former policemen. "This means there will be no black policemen on this force," said Rep. David Holmes, D-Detroit.

Negro members charged there are few Negro ex-policemen because Michigan's police departments discriminate in hiring officers.

LAST PLACE

Rep. Charles J. Davis, R-Onandaga, said the force should be limited to persons with police experience, even if their primary duty is answering the telephone. "One of the last places where we want an inexperienced person in the State Police is on the desk," Davis said.

County to Take Over

Health Staff Shift OK'd

City commissioners last night approved a contract with Oakland County to transfer the city's health department personnel to the county payroll.

The transfer takes effect June 1. Commissioners also gave preliminary approval to amending four city ordinances and repealed three others because of the change.

★ ★ ★

Health department personnel, under terms of the contract, are assured of keeping retirement and pension benefits accrued in city service.

The city negotiated with the county earlier in the year for the transfer. City Manager Joseph A. Warren said functions which had been performed by the city health department will be taken over by the county, except for recording of vital statistics and housing code enforcement.

NEW DIVISION

He said a division of housing code enforcement, which will concentrate efforts of the city in that field, is now being established.

The ordinances, when given final approval, will be amended to delete references to the health department. They include ordinances to regulate public lodging houses, regulate the sale of liquor, prohibit public nuisances and another which adopts by reference the state housing law.

★ ★ ★

Three ordinances which stand to be repealed regulate the handling of ice, the production, handling and sale of milk and the sale of food.

Warren said the ordinances are obsolete, since the functions they cover are now regulated by state or county laws and agencies.

OTHER ACTION

In other action, the commission:

- Referred to the city manager a request for sale of city-owned land at the southwest corner of Featherstone and East Boulevard for construction of a nursing home.

★ ★ ★

- Approval a resolution thanking the Pontiac Area Jaycees and Michigan Week Chairman Clyle Haskill for initiating a cleanup of the downtown area Saturday.
- Set a June 4 public hearing to consider construction of curb, gutter and paving on Emerson from Featherstone to University.

★ ★ ★

The purchase offer for the city lot — the site of the city's old incinerator — was made by Art Swartz, 64 W. Princeton, and Col. Arthur Becker of Southfield, through a Victor Woods, a real estate agent.

The commission asked the city manager to secure appraisals on the land.

CITIZEN PETITION

Joseph E. Neipling director of public works and service, said citizens in the area of Emerson had requested the street im-

Joseph E. Neipling, director of presented in December 1966.

He estimated the project would cost $96,860, with the abutting property owners being assessed $27,884 and the city paying the rest.

★ ★ ★

Neipling said construction of the Richton Storm Drain now makes the project feasible.

Head of NAACP Declines Second Rights-Unit Term

City commissioners last night accepted the request of James Mathews, president of the Oakland County Chapter of the NAACP, that he not be reappointed to the city's human relations commission.

★ ★ ★

Mathews siad, "Other commitments have become more demanding" on his time.

Mathews ended a two-year term on the commission Monday.

City Affairs

Liquor-License Transfer OK'd

Cith commissioners last night approved transfer of a Class C liquor license at 849 Baldwin from Robert O. Rivest to Irving Allowitz of Westland.

A similar request — one which would have transferred the license from Rivest to Allowitz and Allowitz' mother, Mrs. Marion Freedman — was turned down by the commission two months ago.

★ ★ ★

At that time commissioners stated they refused the request because of an arrest and conviction record of Mrs. Freedman's husband.

City Manager Joseph A. Warren recommended the approval after the request was resubmitted in Allowitz' name alone.

Bermuda's Independence Lies in Vote

Associated Press Writer

HAMILTON, Bermuda (AP) — Whether Bermuda's Negro majority would unite or split was the big question today as the holiday island elected its first autonomous government. Unity could mean the island will break with Britain.

Complete independence after 284 years as a British colony is a major plank of the predominantly Negro Progressive Labor party. But the predominantly white United Bermuda party which wants to remain British, is bidding for the Negro vote with 13 Negro candidates out of its total of 39.

A third party, the Bermuda Democratic party, is largely Negro but middle class in appeal. It could hold the balance of power if neither of the large parties wins a majority.

The vote of the Negro population—63 per cent of Bermuda's 50,000 residents—became more important under new one-man, one-vote rules. The voting age has been lowered from 25 to 21, and certain property owners no longer get two votes.

RACIAL RIOTING

A month before the election, two days of racial rioting shook Hamilton, and as a precaution against further violence, the British frigate Leopard docked Tuesday with a crew of 14 officers and 215 men.

★ ★ ★

They and 150 Royal Inniskilling Fusilliers brought here after the riots stayed off the streets, however.

★ ★ ★

There was only the slightest suggestion of tension. The PLP was denied a permit for a motorcade late Tuesday. It accused the colonial administration of backing the UBP.

American tourists, who can fly the 670 miles from New York to Bermuda in less than two hours, seemed barely aware an election was taking place, so noiseless was the campaigning.

MAJOR ISSUE

But the Americans were a major issue because the 200,000 who come every year in pursuit of sun, relaxation and cheap liquor bring $30 million annually—the local economy's backbone.

Other Americans have invested heavily here and are acknowledged to back the UBP.

Since the rioting tourism has been off 15 per cent. The PLP contends the only permanent guarantee of calm and growth of tourism is independence.

★ ★ ★

The UBP claims a PLP victory would cut into foreign investment and the tourist trade. It says the PLP is Communist-allied and has "friends" in the Soviet Union.

★ ★ ★

The PLP, which lists three whites among its 38 candidates, has called the colonial government racist, dominated by a small white power clique—"the forty thieves"—and dedicated to the status quo.

★ ★ ★

The new 40-member House of Assembly will control all government functions except defense, police, and foreign affairs. These are retained by the governor, Lord Martonmere, a British appointee.

POPPY FLOWER DAYS—Miss Poppy of 1968, Loraine Charter of 675 Reynolds, and Garland L. Baldwin, commander of American Legion Chief Pontiac Post 377 will lead post and auxiliary members in selling poppies tomorrow through Saturday.

Poppy Sales Will Benefit Needy GIs

Red paper poppies will be sold throughout Oakland County tomorrow through Saturday by Veteran's groups raising money for needy servicemen and women, hospitalized veterans and their families.

★ ★ ★

Selling the flowers will be members of two American Legion posts — Chief Pontiac 377 and Cook Nelson 20 — their auxiliaries and members of City of Pontiac VFW Post 1370.

★ ★ ★

"Through wearing the little red flower, thoughtful Americans everywhere are able to offer simple and sincere appreciation to our gallant Yanks," commented Mrs. L. D. McLauchlin, poppy chairman for the Post 377 Auxiliary.

Miss Poppy, Loraine Charter of 675 Reynolds, is appearing at civic and service clubs throughout the city promoting poppy days.

3 State Men Killed in Vietnam Combat

WASHINGTON (AP) — The Defense Department Tuesday reported the names of three more Michigan men killed in Vietnam combat.

Army casualties listed were: Sgt. Harry H. Desormeaux, son of Mr. and Mrs. Gerald Desormeaux, Sault Ste. Marie, and Pfc. Gregory A. Rindy, son of Mrs. Doren Kocik, Roseville.

★ ★ ★

Also killed was Marine Lance Cpl. Ronald J. Markel, husband of Mrs. Ronald J. Markel, Waldron.

Administrators Get OCC Teaching Pacts

Eleven Oakland Community College central office administrators were given five-year teaching contracts last night despit objections by one trustee.

Trustee David W. Hackett said he objects to giving administrators a teaching rank, particularly those who have no teaching experience.

Administrators get teaching contracts for security purposes, Hackett was told.

"I'm looking at this from my standpoint as a teacher, student and board member," Hackett remarked, "and all the views are crisscrossing."

OK CALLED MISTAKE

He said "it would be a mistake" if the board approved the contracts and since this policy was followed once before he said "if you make one mistake, you don't make it twice."

Executive Vice President Dr. Ervin L. Harlacher explained that he thought this policy was a "good approach." He said OCC possibly was the only community college in the country to give administrators five-year teaching contracts in addition to their administrative contracts.

Harlacher and Board Chairman George R. Mosher agreed that the policy should be reviewed at a later date, possibly with the new OCC president when he is hired.

Only two of the 11 administrators given teaching contracts have no teaching experience and possibly would be more knowledgeable in their fields than teachers already in them, according to Harlacher.

In other business, the board:

• Passed a resolution to open for negotiation the salary clause in the faculty's 1966-69 contract.

• Adopted a resolution annexing a small portion in southeastern Troy to the OCC district. The area, which is in the Warren School District and in no community college district, will mean extra revenue for OCC.

• Heard a report that the OCC spring enrollment of nearly 3,000 is almost double last year's, that applications for summer are coming in five times as fast as last year and that many students in northwestern Detroit have taken advantage of the lowered out-of-district tuition rates.

Banquet Will Honor Oxford High Band

An honors banquet for members of the Oxford High School Band and its director, Wendell Honsinger, will be 6 p.m. tomorrow at the Oxford Area Community High School.

Sponsored by the Oxford Band Parents Association, the dinner is in recognition of the many awards received this year by the group.

★ ★ ★

Two members of the band, Penny Houck and Mike Kozachik, have been chosen to participate in the statewide Honors Band with which the Honors Orchestra will perform in concert Saturday at the Michigan Youth Arts Festival, St. Joseph.

★ ★ ★

Penny has also been selected to participate in the Junior Seminar at the University of Michigan. Mike's several district and state honors include being a three-time winner of the Oxford Music Club Scholarships. He has been admitted to the School of Music at Michigan State Univresity and plans to major in public school and instrumental music education.

GUEST SPEAKER

The banquet, emceed by Richard Kroninger, chairman of the parents group, will feature George Cavender, assistant director of bands at the University of Michigan, as guest speaker.

★ ★ ★

The annual spring concert in the high school auditorium will follow the dinner. Lloyd Conley, Clare Junior High Band director, and special guest will conduct his own compsiton "Symphonic Invention."

Tuition Tax Offset Urged by McDonald

Congressman Jack McDonald, R-19th District, said today he favors credits against the federal income tax to offset part of the cost of tuition and fees for higher education.

He expressed hope that the House Ways and Means Committee will hold full hearings on the proposal this year.

★ ★ ★

Though the House recently took significant steps to extend student aid programs, McDonald said it is not enough to do the entire job.

★ ★ ★

"As the costs of college continue to rise and as more and more students seek higher education, additional steps will be required to promote educational opportunity for able young Americans regardless of their financial circumstances," said McDonald.

He said that he is contacted by numerous young men and women who are fully qualified for college academically "and have a deep desire to continue their education—but simply cannot find a way to pay for it."

"I talk with many parents who have saved toward their children's college education for years only to find that rising costs have made those savings inadequate," McDonald said.

★ ★ ★

Although family income levels are rising, the costs of college "are soaring out of sight," he added.

According to one estimate noted by McDonald, the average annual cost to a resident at a public college or university was $1,640 in 1967 and will be $2,160 by 1977. The average annual cost for a resident student at a private institution was $2,570 last year and will be $3,280 in 10 years, he said.

It's REALTOR WEEK

May 19th Through May 25th

. . . a time set aside each year to focus attention on the professionally qualified people who list . . . sell . . . rent . . . manage and appraise property – private, commercial, industrial . . . THE REALTORS.

REALTORS follow the profession born of widespread ownership of Real property and have built their calling to professional caliber through The National Association of Real Estate Boards. The term REALTOR connotes business competence and high standards of business practice. Every REALTOR has pledged that he will observe and abide by a code of ethics promulgated by The National Association and adopted by his local board, of which, today, there are more than 1800 boards comprising some 85,000 members.

At this time of REALTOR Week, the members of the Pontiac Area Board of REALTORS rededicate themselves to these high standards set by and for all REALTORS in the service, interests and protection of their clients.

TED'S CORNER

Should you try to sell your home yourself, or list it with a professional, "The Realtor"? Here are a few proven facts. You do not have the time to arrange for financing — the realtor can save you needless expenses. You may accept an insincere offer and spend months perhaps and litigation to free your property in order to put it on the market once more. The realtor will enlist the service of fellow real estate agents giving the owner the advantage of his entire local sales market. Most buyers seek a reputable broker because they realize the pitfalls of direct negotiations. The realtor will price the property to sell at a fair market value. The average owner over prices but eventually accepts a price below the market value. Let your broker do the talking and leave the selling to us.

MEMORIAL DAY SPECIAL

Here is one way to make camping vacation, hunting and fishing trips most luxurious. It's the all new Apache Ramada — 8 sleeper, the biggest seller of the Apache Tribe. An easy-to-operate crank telescopes this compact camper into a full sized trailer in a matter of seconds. Want a camping trailer that really sleeps a gang? Then the Ramada is for you and it tows easily and economically at normal highway speeds. Complete with dinette, waist high galley, ice box, plastic windows, spare tire and wheel, bottle gas assembly, and heater. Bank terms available. $170 down and 36 months on the bal.

RANGER, YUMA, DOMINGO, CIMARRON

The newest and finest travel trailer on the market in these 4 models. Apache has the only insulation that meets the exacting standards necessary for the use in space vehicles or nuclear submarines. It is called Urethane. This material is water proofed and non-burning. Perma-frame cabinetry is exclusive with Apache travel trailer regardless of price or size. Wide, wide track suspension. A waping increase of 8 per cent over the trailer means safer vacations, more stability from crosswinds and when passing other trailers. 15 per cent down. 5 yrs. on bal., bank terms.

Once the Block's Nutty Kid, 'Crazy Sol' Coins One-Liners

By EARL WILSON

NEW YORK—They call him "Crazy Sol" Weinstein and he's one-liner happy.

"There was always a nutty kind on every block, and in Trenton, I was that nutty kid." He came from a poor family. "My father was a humble junk peddler — and in those days junk was rags and iron, and not dope. We lived in a fetid little alley. You had to have a sense of humor, so I started writing one-liner jokes."

WILSON

He was an obituary writer on the Camden Courier. "I hold the record for Delaware County for the most survivors in one obit—29," he says proudly.

He became a columnist. The columnist's name was supposed to be Duffy. He became Duffy. "I was Irish for 5 years. Boy, did they have the wrong parish!"

★ ★ ★

"In 1957, I mailed in a joke to Joe E. Lewis . . . "I just drank my 1,000,000th drink. National Distributors gave me a golden shot glass.'

"He sent me a check for $150. Do you know what that is to a guy making $100 a week?"

Crazy Sol began writing books, and his latest, "You only Live Until You Die," is full of one-liners about Israel Bond Oy Oy 7, the Israeli secret agent spoof of James Bond, 007. There's a girl researcher for Xerox, Kopy Katz.

"I never let up with the jokes," Sol says. "I knew somebody'd combine Jewish humor with James Bond, and I was first to do it. My Oy Oy 7 is very contemporary. He drives a Castro convertible which he converts into a couch."

Sol leered slightly. Oy Oy 7 is a great lover. Sol himself is a quiet family man who drinks diet potions. "I'm so non-violent they threw me out of Weight Watchers," he says. He lives in Levittown, Pa., "where all the house are different but the people look the same.

THE MIDNIGHT EARL . . .

At **Ethel Kennedy's** luncheon at Tavern on the Green, we heard that **Frances FitzGerald**, dtr. of **Marietta Tree**, a **Bobby** backer sitting on the dais, wasn't there because she's for **McCarthy**. The younger generation, you know.

Liz Taylor and **Mia Farrow** will fly to Amsterdam to film scenes for "Secret Ceremony" . . . **Monique Van Vooren** wore a dress made of hair at her party for the cast of "Hair." "Sorry I'm late," she said,"—but I had to comb my dress: . . . **Myrna Loy** is heading for Oregon to campaign for **Sen. McCarthy**.

★ ★ ★

WISH I'D SAID THAT: Nowadays there seem to be more folk singers than folk listeners.

REMEMBERED QUOTE: "A filing cabinet is a place where you can lose things in alphabetical order."

EARL'S PEARLS: Bobby Ramsen, bothered by a noisy ringsider at the Latin ¼, snapped, "Well, there's one alcoholic who doesn't want to remain anonymous."

With so many entertainers involved in politics, Joey Adams was asked if he thought he could be elected to Congress. "Nah," said Joey, "—I got a lousy agent." . . . **That's earl, brother.**

Critics' Poll Picks 'Africa' as Tops in TV

By RICK DU BROW

HOLLYWOOD (UPI) — "Africa," ABC-TV's four-hour prime time documentary, is the most honored entry in television's third annual critics' consensus poll.

Eighteen daily television columnists from around the nation participate in the poll. There are no categories, no limitations on nominations and no formal ceremonies, except for publication of the results. The period covered was from mid--May, 1967, to May 1, 1968. "Africa" received 13 votes.

★ ★ ★

Runners-up with nine apiece, were:

- The late Ted Yates of NBC-TV, killed in the Arab-Israeli war, and honored posthumously for his contributions to video's personal journalism as a producer-tor-writer-reporter.
- The ABC-TV special entitled "The Undersea World of Jacques Cousteau."

★ ★ ★

- Melvyn Douglas, for his performance in the "CBS Playhouse" drama "Do Not Go Gentle Into That Good Night," about an old man who refuses to be put out to pasture by his family.
- "CBS Playhouse" as a series.

HONORABLE MENTIONS

Under new rules inaugurated this year, "for more equitable consideration of programs not viewed by all critics' consensus members," special honorable mentions were accorded to:

- NBC-TV's live coverage of the confrontation between Sen. J. William Fulbright and Secretary of State Dean Rusk in the Vietnam hearings. (eight votes).
- "NET Playhouse" as a series. (seven votes).

★ ★ ★

Eight votes were also cast for "Do Not Go Gentle Into That Good Night." And others receiving seven votes were:

- The networks for their coverage of the assassination of Martin Luther King and its aftermath.

★ ★ ★

- CBS-TV's Sol Hurok presentation of classical music, his second such broadcast for the network.
- The Frank Sinatra-Ella Fitzgerald Special on NBC-TV.

SIX VOTES

Entries getting six votes were the "Public Broadcast Laboratory" series "Where is Prejudice?"; "Misterogers' Neighborhood" and "NBC Experiment in Television" — also a series.

...IF YOU'RE NOT SATISFIED WITH EVERYTHING YOU BUY AT FARMER JACK'S!

Farmer Jack's standards have always been the highest in town, where you could depend on the finest food qualities at low, 'bushel an' case' prices! But, he wanted t'make his stores even better for all the fine cust'mers who've become his friends, too!

So, Farmer Jack decided that money-saving 'double discounts on all different kinds of featured food items, would be something t'please every single customer, and that he meant business about making the Farmer Jack Markets--positively the 'worlds greatest'!

Then Farmer Jack initiated his own meat inspection--in addition to the USDA Choice Grade label that Government Inspectors put on all the beef, lamb and poultry he buys! "Double Grading," says Farmer Jack, "gives my customers better meat, an' saves 'em money, too!"

When Farmer Jack offered, "double your money back" on any item that isn't satisfactory"--everybody thought he'd flipped'! But, when y'stop t'think he only sells the very best qualities, in all of his food--maybe the ol' boy was dumb like a fox--hmm--what do you think?

no more shopping "pet peeves" at Farmer Jack's!

Food items should fill every space, right to the brim, because empty areas, to a food shopper, appear more like miserable monsters mocking their out-of-stock inconvenience! Farmer Jack has taken steps to correct this, and proving that he "dares to be different," he's asking your help!

Whenever you find missing items, Farmer Jack wants you to let him know! The number to call is 931-6600, ext. 741 during the working day, or 931-6970, if it's after 5 o'clock! However, he can't always control the supply of featured, or 'double discount' items. But, he had 'Rainchecks' made up, so delivery is guaranteed at the extra low price!

FARMER JACK'S

Farmer Jack's Steaks Are Graded Twice!

BOTH U.S. CHOICE & "DOUBLE GRADED" LABELS ARE ON ALL FARMER JACK BEEF!

Only the 'choicest of the choice' meat, like the big steak buys featured here, are sold at Farmer Jack's--and you can taste the delicious difference when you take your first bite! Farmer Jack's meat is all "double graded", and we know it's hard t'believe, but it costs less, too!

After the U.S. Government has graded the meat,

Farmer Jack grades

what the grader has graded.

Only the best--gets the "DOUBLE GRADED" label--that's on all of Farmer Jack's U.S. Choice meat! Even after a side of beef has met the government's specifications for quality and tenderness, Farmer Jack's Meat Inspectors--Inspect it again! Farmer Jack insists that every piece of meat shall meet his high standards of quality, because the government sometimes isn't quite fussy enough for the ol'farmer! ALWAYS look for Farmer Jack's "DOUBLE GRADED" label--it's your guarantee of the 'choicest of the choice' quality meat!

N. Viet Sounds Note of Doom in Paris Talks

PARIS (AP) — North Vietnam's envoy raised the possibility today that the Paris peace talks might fail. He told U.S. Ambassador W. Averell Harriman the United States would bear "the full and entire responsibility."

Related Story, Page C-3

Harriman, accused North Vietnam, following today's meeting, of using the talks to "make a propaganda impression on the world."

★ ★ ★

"A lot of people are getting disgusted with these allegations about the war in Vietnam which have no basis in fact whatever," he said.

A North Vietnamese spokesman said that during today's session, which lasted about three hours, Xuan Thuy told Harriman "in the event these official conversations do not conclude with result, the American side must bear full and entire responsibility."

CHANGE DEMANDED

The spokesman quoted Thuy as telling Harriman that thousands of Americans, and "progressive opinion" around the world, demand he change his attitude. Thuy denounced what he called "obstinateness and lack of seriousness of the American side."

The meeting was the fourth in the series which began 10 days ago. The next meeting will be Monday at 10:30 a.m. The interlude will be the longest yet.

★ ★ ★

Harriman said he had suggested "we abandon the practice of going out with public statements so that we can make some progress with discussions across the table."

He said he thought the North Vietnamese would not go along, and if they did not the United States delegation would then report publicly what Harriman said.

Arguing as much for the world gallery as for their adversary, the envoys have repeated their governments' justification for involvement in the war.

Jackson Picketing

JACKSON (AP) — The Jackson City Commission was picketed at its meeting for the second week in a row Tuesday night to two groups — one demanding an open-housing ordinance and the other calling for a 10 per cent wage hike for some city employes.

Rocky Asks Tax Hike, Public Spending Curb

DETROIT (AP) — Gov. Nelson A. Rockefeller, stepping up his bid for the Republican presidential nomination called today for a temporary income tax increase and for a halt in "the habitual rise in public spending," and proposed other measures for dealing with the country's economic ills.

He made the proposals in a speech prepared for delivery at the Economic Club of Detroit.

★ ★ ★

The New York governor charged the Johnson administration with "grave failures in leadership" in not seeking a tax increase in 1965—to accompany the increased Vietnam war effort and the launching of the war on poverty—to stem growing inflation.

DINED WITH FORD

Rockefeller arrived in Detroit Tuesday to seek Michigan delegate support for his presidential bid. Accompanied by his wife, Happy, the governor dined Tuesday night with Henry Ford II in what Rockefeller described as a "purely social" visit with an old friend.

FOUR PROPOSALS

Besides urging a check on federal spending in today's speech, Rockefeller outlined four other proposals designed to "restore confidence in our dollar and check our inflation":

★ ★ ★

● Enactment of a "temporary increase in income taxes at least as large as the 10 per cent across-the-board surcharge suggested by the administration." He said: "This—combined with restraint on spending—could cut the deficit from $20-billion plus to a "manageable $5.8-billion."

★ ★ ★

● Reassess U.S. financial commitments around the world. "We can find ways to afford what we must do. But the record of our balance of payments deficits shows that we cannot do all we might like. Here, too, we must set firm priorities," he said.

● Avoid further domestic and international trade controls and restrictions and work to eliminate existing controls.

● Provide tax incentives to attract private capital into urban redevelopment "where public capital alone cannot possibly carry the burden."

DANGER YEAR

Rockefeller said the inflation rate began to climb markedly in 1965 because "our government chose to ignore the most fundamental facts of economics: Any major war moves the economy toward its full capacity—and beyond if civilian buying power is not curtailed by a tax increase."

★ ★ ★

"In 1965," he continued, "the escalation of the war in Vietnam moved the economy almost immediately into full output. In that same year the administration launched its war on poverty. Expenditures on the war in Vietnam have gone toward $30 billion a year. Expenditures on the war on poverty have gone to nearly $28 billion—about triple the figure for 1960."

Hamlin Opposes Airport-Vote Bill

Delos Hamlin, chairman of the Oakland County Board of Supervisors, today urged the State Senate to defeat a bill which would require a countywide vote on development of the proposed Oakland-Orion Airport.

The bill, as amended, was approved by the House yesterday without a vote to spare.

★ ★ ★

It would require the board of supervisors to call an election on land acquisition for an airport more than 600 acres in size.

This affects the proposed Oakland-Orion Airport in Orion Township but not the present Oakland-Pontiac Airport in Waterford Township.

"This is bad legislation, aimed specifically at crippling the development of Oakland County," Hamlin said.

OPPOSITION CITED

The amendment to the bill, which gained 55-34 House approval, was offered by Rep. Donald Bishop, R-Rochester, who told House members, according to an Associated Press report, that his mail had strongly indicated opposition to the airport. A single vote could have reversed the decision, as exactly 55 were needed.

The bill, in a different form, has passed the Senate and as amended will return to the Senate. "I would certainly urge the Senate to reject this bill," Hamlin said. "And if not, I hope Gov. Romney will veto it."

★ ★ ★

The master plan for the facility was approved by the County Board of Supervisors last December. Its since met with Michigan Aeronautics Commission approval and is now under consideration by the Federal Aviation Agency.

It was proposed to begin the first

DeGaulle Seen Beating Censure

PARIS (AP) — President Charles de Gaulle's government appears certain to defeat the censure motion in the National Assembly tonight, but the strike crisis smothering activity in cities showed no sign of abating.

More than 2 million workers joined the strike yesterday, bringing the number in revolt against the government to more than 8 million, or about half the nation's work force. The strike hit Les Halles, the capital's central food market where workers went on a 24-hour walkout.

★ ★ ★

Most major industries, transport and public services were idle. Electricity and gas still were being supplied, and telephones and telegraph were operating.

For Parisian, the strike meant no banks open, huge piles of garbage in streets, no public transportation, no mail, little commercial entertainment, and lineups for food and gasoline.

SAME IN OTHER CITIES

The situation was similar in Bordeaux, Brest, Clermont-Ferrand, Lille, Lyon, Marseille, Poitiers, Rennes and Toulouse.

Deputies in the National Assembly bogged down yesterday in discussion of the French education system. This postponed the vote on the censure motion at least until late tonight.

★ ★ ★

Debate continued today on the opposition motion accusing the government of refusing to deal effectively with demands of students, workers, teachers and farmers. But it appeared certain that anti-Gaullists would be unable to muster the necessary 244 votes for Jacques Duhamel, leader of a bloc of 42 deputies.

Israel Defies U.N.

UNITED NATIONS, N.Y. (AP) — Israel defied the U. N. Security Council last night, saying it would not comply with a new demand that it rescind the annexation of the Arab sector of Jerusalem.

★ ★ ★

The demand, proposed by Pakistan and Senegal, was adopted by a 13-0 vote in the 15-nation council earlier in the night. The United States and Canada abstained.

OCC Unveils Plan for Ghetto Students

By DICK ROBINSON

A pilot program to essentially "pay" 50 students from the Detroit ghetto to attend Oakland Community College this fall and to guarantee them admission to Michigan State University was unvealed by OCC officials last night.

If the program is successful, most of the students would later come from Oakland County, college officials said.

★ ★ ★

Detroit students are to be selected by the Higher Education Opportunity Committee at Wayne State University on the basis of a desire to succeed and positive attitudes and values rather than academic performance, explained Mitch Tendler, OCC community relations director.

★ ★ ★

The students will not have to pay tuition but will be given $300 a year for expenses, such as for books.

MATCHING FUND SETUP

Half of the $300 will be paid by the college and half under a matching fund arrangement from a $50,000 equal opportunity grant under the Higher Education Act of 1965.

Tender said the college is working on getting bus transportation donated to take the students back and forth to the Orchard Ridge campus in Farmington Township.

★ ★ ★

Gordon Sabine, vice president for special projects at Michigan State University, said MSU would accept the inter-city students if they stay at OCC for two years and maintain at least a "C" average.

At OCC the students would take 12 credit hours, including a college-oriented course, developmental English and guidance counseling courses for about five hours a day.

WOULD WORK AT JOB

They would work at a job on campus as part of the college's work-study program for about three hours a day. Pay would be $1.25 per hour, provided by the federal government.

Trustee Ralph R. Tyndall remarked that he felt there are enough people in Oakland County who could benefit from the program.

★ ★ ★

Orchard Ridge Provost Dr. Richard E. Wilson explained that the machinery was already set up in Detroit to locate promising students.

OCC is also planning to start in July a one-year pilot program called Continuing Opportunities Program for Education (COPE) to provide educational counseling and training for ghetto residents of Pontiac and Royal Oak Township to enable them to compete in the job market.

★ ★ ★

It is designed to upgrade the educational opportunities of ghetto residents and to test the feasibility of training grassroots leaders to conduct the administration of the project.

Wilson said two other ideas in this area — faculty donating their time for teaching and a counseling center off campus — are also being considered.

Forecast Is Mild, Chance of Rain

The weatherman predicts partly cloudy and mild with a chance of showers tonight and tomorrow.

And Friday's prediction is more of the same—cloudy with some rain likely.

★ ★ ★

Temperatures falling to a low of 42 to 48 tonight will aim for a high of 65 to 70 tomorrow.

Today's winds southwesterly at five to 15 miles per hour will continue.

LOW TEMPERATURE

Precipitation probabilities in per cent are: today and tonight 10, tomorrow 30.

★ ★ ★

Forty-three was the low temperature prior to 8 a.m. to downtown Pontiac. Sunshine pushed the temperature to 63 by 12:30 p.m.

Housing Ballot Phrased

The ballot wording for the referendum election on Pontiac's fair housing ordinance was approved by city commissioners last night.

City voters will decide June 24 whether the ordinance adopted by city commissioners earlier this year will be put into effect.

★ ★ ★

The wording of the ballot:

"Shall Ordinance No. 1577 of the ordinances of the City of Pontiac prohibiting discrimination by reason of religion, race, color or national origin in the sale, rental or dealings, concerning real estate located in the City of Pontiac, be adopted?"

Voters then can choose either, "for the ordinance," or "against the ordinance."

★ ★ ★

The ordinance, approved 4-3 by the commission, was never put into effect. Petitions requesting a referendum election were filed with the city clerk delaying the effect until a referendum election could be held.

Columbia, SF State Sit-Ins Ousted

By United Press International

Students who seized school buildings at Columbia University in New York and across the nation at San Francisco State College were forced out almost simultaneously by police during the night.

★ ★ ★

At Columbia, nearly 150 students were evicted from barricaded Hamilton Hall by police who battered down entrances leading from an underground tunnel. Police then swept the sprawling campus to disperse 2,000 more angry students who goaded them, broke windows in the university library with rocks and set small bonfires in protest against the police action. At least 45 students were injured in the police sweep.

★ ★ ★

It was the second time in a month police evicted Columbia University students from campus buildings. Last month, five buildings were forcibly cleared of student rebels who occupied them in protest against plans to build a gymnasium in a park used by Negroes in nearby Harlem and against defense related university research programs.

Tuesday, rebels seized Hamilton Hall again — this time in protest against the suspension of Mark Rudd, leader of the first insurrection. Rudd was among those arrested early today.

27 ARRESTED

At San Francisco State Tuesday night, helmeted police cleared students from the school's administration building, arresting 27 persons. Nearly 200 students staged a sit-in at the building earlier in the day, demanding elimination of the Air Force Reserve Officers Training Corps from campus and a change in university policy toward minority groups.

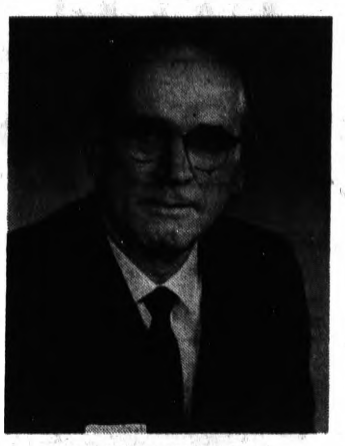

★ ★ ★

The number in the building dwindled by night but 26 volunteers remained to submit to arrest.

Those who remained, 15 men and 11 women, removed barricades before police moved in for the arrests.

★ ★ ★

Also taken into custody was attorney Terence Hallinan of San Francisco, who suffered a deep cut on the head.

10 Attorneys From India to Visit Area

BIRMINGHAM — Ten attorneys from India arrived last night for a month-long stay in area homes.

The visitors, nine men and a woman, are sponsored by the International Visitors Division of the International Institute of Metropolitan Detroit in cooperation with The Experiment in International Living, Putney, Vt.

During their stay they will become "members" of host families, observing and participating in the American way and life. They have been in Washington, D.C. since arriving in the U.S. Sunday.

The Indians are Mrs. Mani K. Cooper, Harbhajan S. Khurana, Saktinath Mukherji, Ramnaklal K. Dhami, Vinaykant L. Mehta, Adik R. Wamanrao, Vijay Mansingh, Sheshadri, Anil A. Mehta and the group leader Preetam B. Chugani.

HOSTS

They are being hosted by Mr. and Mrs. Clarence L. Hudson, Dr. and Mrs. Edwin Deer, Mr. and Mrs. Henry McQueen, Mr. and Mrs. Robert Veryzer, Mr. and Mrs. Don Simpson, and Mr. and Mrs. Bethel Kelley, all of Birmingham; Mr. and Mrs. Glen Wilson and Mr. and Mrs. Raymond Rappaport of Bloomfield Hills; Mr. and Mrs. Harold Alpert of Oak Park and Mr. and Mrs. John Hubbard of Orchard Lake.

Tours of many local and Detroit manufacturing plants, legal facilities and tourist attractions have been planned for the group during its stay.

Leaving Oakland County June 24, the attorneys will travel by bus to the University of North Carolina in Chapel Hill, for a week-and-a-half look at campus life. After their campus visit, a week's tour of New York City is planned before their return to India July 13.

Mrs. James Rae, 519 Rivenoak, Birmingham, is project chairman for this and similar groups of foreign visitors to the area.

15th Heart Is Transplanted

HOUSTON, Tex. (AP) — The heart of a 17-year-old boy beat today in the chest of Louis John Fierro, the world's 15th heart transplant patient and the fourth to receive a donated heart at St. Luke's Episcopal Hospital.

A surgical team led by Dr. Denton A. Cooley implanted the heart in 30 minutes last night. Fierro, 54, an Elmont, N.Y., automobile salesman, was listed in "highly satisfactory condition" half an hour later.

★ ★ ★

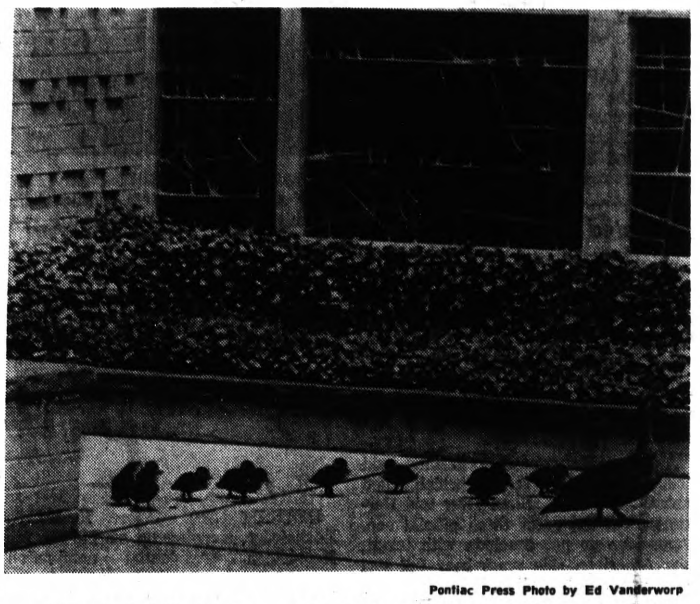

The donor was Hubert Brungardt of Pasadena, Tex., who died at 10:35 p.m. A hospital spokesman said the teen-ager suffered a brain hemorrhage.

Fierro was admitted to the hospital Monday afternoon. Attendants said he had suffered numerous heart attacks.

SUFFERED CONVULSIONS

Brungardt left high school earlier this year after suffering from convulsions. He went into a coma Friday and never regained consciousness, the spokesman said.

The youth's parents, Mr. and Mrs. Humbert Leo Brungardt, have five other children.

THE CHURCH'S FLOCK — This duck and her 11 ducklings have been under the wing of Central Methodist Church for the last six weeks. Landing in the enclosed courtyard at 3842 Highland, Waterford Township the duck laid her eggs in a nest in the plants alongside the building and is now carefully raising the youngsters. Rev. James McLaurin said the birds are fed and use the pool in the courtyard. He hopes the flock will prove faithful and return each year.

GM Exec Picked General Leader of Detroit UF

A former GMC Truck and Coach Division manager, Calvin J. Werner, has been named general chairman of the United Foundation of Detroit.

Werner of 2633 Endsleigh, Bloomfield Township, was chosen "because of his outstanding leadership qualifications and his wholehearted efforts on behalf of the 1967 Torch Drive," said Wendell W. Anderson Jr., foundation president.

★ ★ ★

Werner, a GM vice president, is general manager of the Cadillac Motor Car Division.

He estimated that more than 150,000 volunteers will be needed to carry the campaign message to contributors in Wayne, Macomb and southern Oakland counties.

Werner is a member of the GM administration committee and serves on the board of regents of General Motors Institute.

He is a fellow of the Institute of Electrical and Electronics Engineers, a life member of the American Ordinance Association and past president of its Michigan Chapter, and a trustee of the Foremanship Foundation.

Girl Abducted and Assaulted

An 18-year-old girl was abducted by an armed man yesterday while on her way to classes at Pontiac Northern High School and criminally assaulted after driving hundreds of miles on the orders of her assailant, city police were told.

The girl, a senior at the high school, contacted police about 7:30 p.m.

★ ★ ★

She told officers that the man jumped into the passenger side of her car when she stopped for a light at Columbia and Joslyn about 8:30 a.m.

He brandished the knife, she said, and told her to keep driving or be killed.

DRIVES NORTH ON I-75

The victim said she was directed to drive north on I-75 nearly to the Mackinac Bridge, then told to drive south to a rest area just north of Frankenmuth.

The kidnaper, who had allowed only two stops — both for gasoline — chose a deserted area after passing several busy ones, police were told.

★ ★ ★

The victim said she resisted the man's advances once the car was stopped, but was struck several times and knocked unconscious.

When she awoke, the man was gone, she said.

Police were contacted by the girl's parents after she drove home. She was treated at Pontiac General Hospital before talking with investigators.

The assailant was described as a medium-built white man in his 20s, about 5-feet-10 and 170 pounds.

Hearing June 10 on Tax Protest

The Michigan Court of Appeals has scheduled a hearing for June 10 in Detroit to review a Pontiac attorney's case against Michigan's state income tax.

The attorney, Richard D. Kuhn, said he was informed yesterday of the hearing date. The hearing will be in the first Federal Building at 10 a.m.

★ ★ ★

Kuhn has challenged the tax act on a number of grounds, including the fact that the public was prohibited from calling a referendum on the issue.

He filed his appeal after being denied relief by Oakland County Circuit Judge William R. Beasley last fall.

★ ★ ★

Believing that the state will have to return all income taxes if he's successful, Kuhn has paid his own taxes under protest as a means of establishing a refund claim.

Assigned to hear the case are Appelate Judges Thomas G. Kavanagh and Charles L. Levin, and visiting Circuit Judge Stewart A. Newblatt of Flint.

Woman Killed in 2-Car Crash

A collision in Independence Township yesterday took the life of a 40-year-old Pontiac woman and left two of the three persons involved in the mishap hospitalized.

Killed at Sashabaw and Maybee about 11:45 a.m. was Mrs. Marjorie Tipton of 3900 Oakknoll, Waterford Township.

She was driving a car east on Maybee which collided with a car driven south on Sashabaw by Mrs. Clifford Barber, 28, of 4990 Sashabaw, Waterford Township, according to Oakland County sheriff's deputies.

Mrs. Barber and her daughter, Kimberly, 6, are reported in satisfactory condition in Pontiac General Hospital.

PASSENGER TREATED

Lewis Caverly, 44, of 2070 M-15, Ortonville, a passenger with Mrs. Tipton, was treated and released, hospital officials said.

Deputies said the impact of the collision carried both vehicles into a corner service station where they knocked out several gas pumps.

Wife Is Freed in Death Case

An Oxford Township mother of two was found innocent yesterday of murdering her husband last summer.

Acquitted in Oakland County Circuit Court was Mrs. Lois O. Greene, 37, of 1540 S. Lapeer.

A jury returned the verdict following a three-day trial, presided over by Circuit Judge James S. Thorburn.

Mrs. Greene, a librarian at Oakland University, had been charged with the Aug. 21 shooting of her husband, William, 38. He died of two 32-caliber bullet wounds in the head.

SHOT SELF

She testified that her husband had shot himself after becoming emotionally upset about the consequences of last year's civil disorder.

A witness for the prosecution, Dr. Richard E. Olson, said that he had examined the body at the scene and it was his opinion that neither wound was self-inflicted.

Greene was found dead by Oakland County sheriff deputies responding to a shooting complaint about 3 a.m. at the Greene's mobile home in the Parkhurst Trailer Park.

The Greene's two sons are 9 and 5.

phases of construction this year. More than $250,000 has already been spent on land acquisiton at Oakland-Orion.

TWO STRIPS

In the first phase of construction, two medium-sized landing strips would be built, probably by 1970. This would meet immediate growth needs reflected by the almost-capacity operation at Oakland-Pontiac.

Ultimate plans call for four runways, two 7,000-feet long. The facility would be fully equipped for all-weather, night-day operation for general aviation purposes, serving small and medium-sized craft.

Hamlin said, "Airports are as vital to our county as other services like sewers. We are falling behind in aviation and could even use a third airport in the western part of the county."

He urged defeat of the bill, which would deprive the county of a "valuable asset."

BLOOMFIELD TOWNSHIP — Handicapped youth and their prospective employers will have an afternoon to get acquainted at the first annual Career Day for the Handicapped, to be held tomorrow at Marian High School, 7225 Lahser.

E. Eugene Russell, president of the Pontiac Area Chamber of Commerce, will be the featured speaker. Special guests will be Mrs. George Romney and the Rev. Roger Arnett, whose career as an athlete was cut short after the loss of a leg.

Representatives from 26 trade and technical schools in the metropolitan area will be present to discuss training opportunities with students and their parents.

While the students explore further educational possibilities, employers will meet with members of the Governor's Commission on the Employment of the Handicapped and specialists in vocational rehabilitation.

TO BE PRESENT

Present will be Earl Maxwell, Oakland County chairman, and Robert Millman, Michigan Vocational Rehabilitation, Department of Labor, Lansing; Lloyd Chapman, director, Michigan Rehabilitation Institute, Palinwell, and Irving Feldman, Vocational Rehabilitation Service, Detroit.

Book Reveals County Growth

By ED BLUNDEN

Oakland County is growing by leaps and bounds, both in numbers of people and in affluence, and the future appears to call for more of the same.

All this is revealed in a new publication containing a wealth of information about Oakland County and the surrounding area. It is published by the Oakland County Planning Commission.

★ ★ ★

Called "Profile 68" the book is a storehouse of data on the county's past and present with projections of probable future growth.

George N. Skrubb, county planning director, said the book will prove valuable to public officials, bankers, businessman, real estate interests and educators. It can be obtained for $1 from commission offices at 1 W. Lafayette.

COMPARISONS

"Profile 68" includes such information as the fact that in this seven-county region, Oakland has the highest effective buying income per household — some 40 per cent of its families earn more than $10,000 per year.

Besides Oakland, information is compared with six other counties, Wayne, Macomb, Livingston, Monroe, St. Clair and Washtenaw.

★ ★ ★

The lists of data are broken down into four categories: population, economy, land development and services.

Skrubb points out the information contained in 79 subsections is of the type most frequently asked to be supplied by various agencies and businesses.

POPULATION INFORMATION

Information on population shows that Oakland is the largest county outside Wayne in the state. Oakland's present population is approximately 900,000. It also shows that between 1940 and 1960 the population of Oakland more than doubled and is expected to double again by 1990.

However, this is due to the influx of families and not mainly to the birth rate. As a matter of statistic, the county birth rate has dropped dramatically in the last 10 years. For 1966 it was 19.7 per 1,000 persons, slightly lower than the seven-county average. This compares to the more prolific year of 1956 with a rate of 31.4, over 50 per cent higher.

★ ★ ★

Another statistic projects that Oakland will pass the leading county, Washtenaw, in 1970 in education, based on the number of school years attended per person.

Regarding the economy, the period 1958 to 1966 shows over-all employment in Oakland increased 100 per cent in figures supplied by the Michigan Employment Office. Over half of the 195,000 county jobs are in manufacturing mostly with the auto industry.

FOURFOLD INCREASE

County retail sales in 1966 were $1.5 billion, the book reports, a four-fold increase since 1950. In addition it is shown the total deposits in commercial banks exceeded $1 billion, a five-fold climb in the same period.

Concerning land development, the planning manual points out Oakland has 900 square miles with 28 per cent defined as devoted to urban use. Lakes, ponds, rivers and streams occupy four per cent and the rest, 68 per cent, is classified as agricultural land or vacant.

★ ★ ★

However, looking forward to 1990, it is projeced that 54 per cent of the county will be in urban use. Statistics on authorized new dwelling units in the seven-county area are a sharp indication of Oakland growth.

The number of units noted is the highest in Oakland and accounts for 38 per cent of all new housing in the area in recent years. In 1965 and 1966 some 21,500 dwelling units were added.

In the matter of services, the new book points out the county's equalized valuation of over $4 billion is about 10 per cent of the state total.

★ ★ ★

Over 70 public and private medical facilities serve the county; there are 13 colleges, universities and institutes with enrollment totaling over 15,000; about 40 public and private libraries contain over a million volumes.

Poor People's March Donations Are Sought

The Oakland County Ministerial Association is seeking contributions to help support the Poor People's March on Washington, D.C., the association's president, the Rev. Matthew M. Scott announced today.

★ ★ ★

Rev. Scott said donations will be accepted at any of the three churches, St. James Missionary Baptist Church, 345 Bagley; East Side Church of God, 343 Irwin; and Mount Calvary Baptist Church, 97 Mariva.

Press Group Hits Registration Bill

The Inter American Press Association has called on the governor of the United States Virgin Islands to veto a bill passed by the Legislature which would require prior registration of newspapers and magazines.

★ ★ ★

Following is a statement issued by Tom C. Harris, Chairman of the IAPA's Committee on Freedom of the Press:

"We are deeply concerned over a Bill passed by the Virgin Islands Legislature and sent to Gov. Ralph M. Paiewonsky for signature. This bill will require the prior registration of all written materials, including newspapers and magazines, for public consumption and other purposes. Registration must be made before the Commissioner of Finance.

'FREEDOM CURTAILED'

"Any law that requires registration of a publication with a government or government official in order to be published goes against freedom of press and we are shocked that a Legislature would pass such a law in view of the Constitution of the United States, whose very First Amendment prohibits abridgement of a free press.

"In the interest of maintaining a free press in the U.S. Virgin Islands we are calling on the governor to veto this bill and to see that it is not reinstated after the veto. Our association has been proud to have always listed the Virgin Islands among those countries with a free press. If this bill becomes law that status will change."

Jaycees to Start Campaign for Civic Plaza

By TOM GRAY

BIRMINGHAM — The drive to raise money for this city's $50,000 civic plaza will get under way tomorrow, according to Jaycees Executive Vice President Ronald L. Miller.

The Jaycees received formal approval from the City Commission this week of the concept and commitment for the plaza, which will extend north from the front of the Municipal Building to Martin Street.

★ ★ ★

Possible uses of the plaza, Miller said, include art shows, automobile shows, band concerts, flower and garden club displays, and political campaign speeches.

Miller said the Jaycees will be distributing a brochure with information on the proposal at a booth planned for the Village Fair which opens tomorrow in Shain Park.

CONTACTS PLANNED

During the summer and fall, he added, the group will be contacting foundations, industrial interests, service clubs, merchants and private individuals in an effort to raise the needed funds.

The only uncertainty remaining is the actual date of completion, Miller said. "In view of the building trades work stoppage, we feel that a realistic goal would be completion of the plaza in time for presentation to the city in Michigan Week, 1969."

★ ★ ★

The present proposal, he said, began in 1964-65, with formulation of general plans for the downtown area of Birmingham by the civic design committee, a group of interested citizens including architects and designers.

The work of the committee resulted in construction of a scale model of the central business district, paid for by the Jaycees.

NEED EMPHASIZED

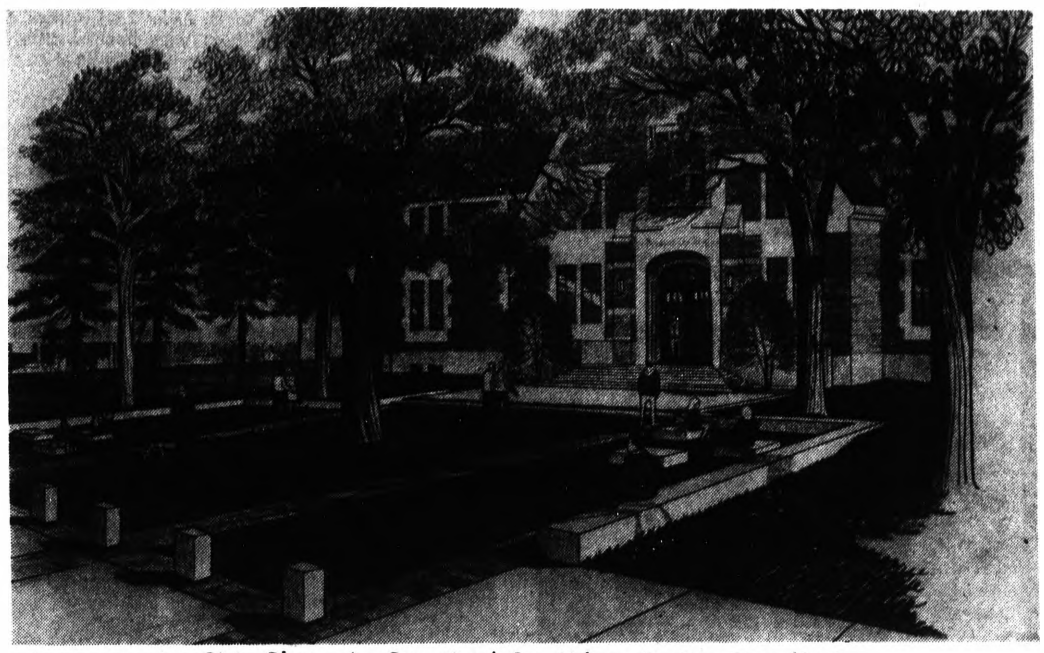

"It was at this time that the need for a civic plaza was brought to light," Miller related, adding that the project was taken on by the Jaycees in hopes of providing a catalyst for work in other parts of the city.

The club pledged $10,000 last July for initial exploration of plans for the plaza. The city's urban design consultants, Johnson, Johnson and Roy, prepared a design for the proposal and budget in the amount of $39,178.

★ ★ ★

The budget was approved at a general membership meeting of the Jaycees in March, Miller said. The six weeks since that meeting, he continued, have been spent forming subcommittees and plans for funding the project.

Imlay City Council Okays Benefits; Pay Dispute Over

IMLAY CITY — Everyone's at work in this village today.

Everyone, at least, employed by the village government.

★ ★ ★

The Village Council last night approved fringe benefits which ended a pay dispute which had caused all municipal employes but one to submit their resignations.

★ ★ ★

Okayed by the council, according to Village Manager Harvey Weatherwax, were full hospitalization insurance for employes and their families and a three-week paid vacation for employes after seven years.

NO PENSION PLAN

Weatherwax, the only employe not to resign, added, however, that the new budget contained no provisions for a pension plan or for resumption of the cost-of-living schedule, both principal points of discontent.

In place of the schedule, which amounted to $350 to $500 for each employe, the council had approved straight wage increases.

★ ★ ★

Public Works Supt. Kenneth Harley said at that time, however, that while the council had informed him of a wage increase, the elimination of the cost-of-living allowance was not made plain until after approval of the budget.

"They gave us $500," he commented, "but they took $400 away."

SPECIAL MEETINGS

Efforts at settlement of the dispute began immediately after the resignations were submitted. The council held special meetings Wednesday and Thursday nights, and Weatherwax met with employes Friday.

After that meeting, the village manager announced that the resignations, which had originally been scheduled to take effect Monday, had been extended to Wednesday.

★ ★ ★

Council President John Folk said the new benefits would not necessitate any change in the village's present tax rate of 9 mills. Earlier, Folk had stated that the salary raises were all the village could afford without boosting the rate.

Budget, 17-Mill Tax Levy OK'd by Keego Council

BY BETTY ANN SCHULTZ

KEEGO HARBOR — The nearly dozen residents who spoke up at last night's public hearing on the city budget asked how their taxes are spent and registered complaints about city services.

The City Council unanimously passed the 1968-69 budget and a tax levy of 17 mills for city operations, the same tax levy as last year. The budget remained essentially unchanged from what was proposed.

★ ★ ★

The only change was a transfer of $240 from the $2,000 contingency fund to the salary of the clerk-treasurer.

Total figures for the balanced budget are $143,930, up $18,000 from last year.

$5,540 FOR ROADS

Mayor Gene Yates explained that $5,540 goes for roads (no funds were allocated for roads last year) to add to $21,500 from state gas tax funds and $300 miscellaneous for the total road fund. road fund.

Salary increases include $200 for the city manager for a total of $9,000. The manager also received $200 more mileage allowance for a total $600.

★ ★ ★

One resident objected to the city manager's raise on grounds that he has less government administrative experience than the former manager, Gary L. Dickson. Mayor Yates answered that "knowledge will sometimes go farther than book learning."

Greig, previously on the council for eight years, accepted the manager's post last February and left his general and machine work job at nearby Daniels Manufacturing Co.

RAISES FOR PATROLMEN

The three patrolmen get about $500 raises each for average salaries of about $7,200. Chief James Sisk's salary goes up $714 to $8,200.

The clerical department is budgeted about $3,500 over last year's $9,450 allotment. Of the increase, $500 goes to the clerk-treasurer for a total salary of $4,740 and $700 goes to the Clerk Mrs. Josephine Ward for a salary of $6,100.

★ ★ ★

Budgeted for capital improvements is $400 to finance road repair and some equipment for the proposed fire department to be formed with Sylvan Lake and Orchard Lake within about a year, said Mayor Yates.

Other allocations are $650 for the area's Youth Protection and Child Guidance group and $12,500 for fire protection from the West Bloomfield Township department.

INCREASE

Most revenues are derived from $64,200 in property taxes, an increase of $20,200 from last year. This is mostly due to an increase in the city's state equalized valuation from $4.8 million last year to $5.2 million this year.

Several residents complained that while they are paying more money they are getting less services. Specific gripes centered on rutted roads, poorly maintained drainage ditches, and unmowed weeds.

★ ★ ★

City revenues are also up because of $6,000 from state income tax rebate. $9,000 decrease is anticipated in court and police fines due to the expected lower court reorganization.

$150,000 Gift Awaits Farmington Area

About 70 Farmington area residents are scrambling to take advantage of a $150,000 gift.

The gift is the Luman Goodenough estate on five treed and flowered acres at 24705 Farmington, Quakertown.

★ ★ ★

Some proposed uses of the house include an employment service, baby sitter director, art and music classes, dances, clubs, lectures and senior citizens' activities.

★ ★ ★

The son and two daughters of Goodenough offered the house, part of which was built in 1869, to the Farmington area last December.

MONEY RAISED

The two conditions of the gift are that the house be used as a community center and that by this December enough money be raised to renovate it and operate it for one year, explained David N. Mills, a director of the Farmington Community Center, Inc.

Mills reported that $30,000 has been estimated as the operation cost for one year and that $20,000 is needed for reconstruction.

The board of directors meets tomorrow night to duscuss a money-raising campaign.

Other members of the board are Mrs. Thomas Czubiak, Mrs. Anne Moseman, Mrs. Harry Farmer, Wendell Brown, Fred E. Harrison, Richard Justice, Robert Orians and Mrs. Richard Peters.

★ ★ ★

The board of the nonprofit organization was formed in early March. Of the 200 residents who attended the meeting in the living room of the estate, 65 volunteered to serve on finance, organization, planning, and house and grounds committees.

Gala Events Herald Festival's Opening

In five short weeks the fifth season of Meadow Brook Music Festival will commence.

As in past years, a large group of women from the metropolitan Detroit area and from out-state spend many hours promoting the summer musical event and selling tickets.

Teas and coffees are given to stir up enthusiasm and to acquaint new members of the committees with both the technical aspects of promotion and with the Festival itself.

Within the past week, more than 200 women have attended such meetings; others are planned.

Mrs. Stephen S. Page, chairman of the Walnut Lake area, arranged last Friday's tea at the Long Pine Road home of Mrs. Martin Butzel.

Mrs. Russell Barget, working with Mesdames Leonard Meldman, R.T. Gerhart and Donald Somers, supervised the Tam O'Shanter Country Club coffee.

★ ★ ★

The Detroit Symphony Orchestra with Camilla Wicks, violinist, will open the season June 27. Season tickets are available from the Festival office at Oakland University.

Mrs. Martin Butzel, Lone Pine Road (in foreground) was hostess at a recent tea for Meadow Brook Festival committee members in the Walnut Lake area. These dedicated women are working hard to sell tickets for the fifth season of the nationally known festival. In the rear, from left, are Mesdames Kenneth G. Kuffer, Normanhurst Lane; Earnest W. Elliott, Wendell Road; Robert E. Clark, Turner Drive; and Lowell D. Parker, West Maple Road, all West Bloomfield Township.

Enjoying the midmorning sun at Tuesday's event is this Meadow Brook Festival Committee trio (from left) Mrs. Virgil Boyd of Bloomfield Hills, who with her husband is cochairman of the Festival; Mrs. D. B. Varner (Oakland University's first lady) and Mrs. Russell Barget of Walnut Lake.

Girl Returns Gifts Following Brief Marriage

By ELIZABETH L. POST

Dear Mrs. Post: Yesterday, I received from a bride of three weeks my wedding gift to her with a note reading, "Since our marriage was only temporary, I feel obliged to return your lovely wedding present."

★ ★ ★

I know she was right. I know that all wedding gifts are given for the couple's married life, and should this state not be realized, the present must be returned. But, on the other hand, wasn't I on the receiving end at the wedding reception? Couldn't the bride keep my gift? — Marion

★ ★ ★

Dear Marion: The girl was right in her thoughtfulness, but wrong in her action. Wedding gifts need not be returned, no matter how brief the marriage. The exceptions are presents to her from the groom himself, or presents of particular sentimental value given to them both from his family. These should be returned.

WHEN WORN?

Dear Mrs. Post: Would you kindly state your views on the use of a diamond wristwatch with diamond wristband? I have a friend who wears hers in the morning and afternoon — but not in the evening.

Along with the watch she wears her diamond engagement ring on the right hand — in addition to necklace and earrings (not diamonds). How about the use of a diamond studded watch with a plain wristband — do the same rules apply? — Evelyn

★ ★ ★

Dear Evelyn: When a diamond wristwatch has a diamond band it becomes ornamental jewelry rather than a necessity. It may be worn in the daytime, but only when the wearer is "dressed up." Such a watch should never be worn when marketing, taking part in a sport, etc.

★ ★ ★

Your friend uses more jewelry than is in good taste for daytime wear. If the watch did not have a diamond band it might be worn any hour, except — again — when participating in sports.

Just Summer Romance; Don't Plan on Wedding

By ABIGAIL VAN BUREN

DEAR ABBY: I am a divorcee. Last summer I met a man on a plane. He's my age (late forties), is extremely charming and attractive and he's very successful in his work.

ABBY

We hit it off immediately and had several dates while I was in the city. We keep in touch with each other through letters and telephone. He admits to having a "deep feeling" for me, but says he has had two unsuccessful attempts at marriage and he's made up his mind not to get that involved again. He says he had "conditioned" himself against marriage. Can this be?

He is busy with his work and I am busy with mine, and I also have teen-aged children. I think this guy is worth pursuing, and I realize if this is going to develop into anything more serious and lasting we will have to see more of of each other.

I could go to his city again this summer, and I'd like to, but I don't want to be obvious. How should I go about it?

A SUMMER ROMANCE

DEAR ROMANCE: Sorry, but I can't give you a blueprint for going about something I think would be a mistake. If you're looking for marriage, you won't find it with this charming, attractive twice divorced man who, by his own admission, has "conditioned" himself against it. But if you want another "summer romance," he sounds like a cinch.

★ ★ ★

DEAR ABBY: My sister and I are worried about our seven-year-old sister. She keeps wanting to be someone's animal. One day she might want to be someone's horse, and the next day she might want to be someone's dog, or cat. I suppose this doesn't seem much like a problem, but she never wants to be the "master" — she always wants to be the animal. Is something wrong with her?

HER "MASTERS"

★ ★ ★

DEAR MASTERS: This could be the subject of an interesting psychological study. One who prefers to be "mastered" appears to want desperately to please. This is usually the way the younger child ingratiates himself to his older siblings and playmates.

It's normal in childhood, but could warp the personality if carried beyond the adolescent years.

★ ★ ★

DEAR ABBY: As a mailman, I would like to reply to the woman who wondered where her brother-in-law, the postman, got all the magazines and "free samples?"

Many of these "occupant" samples have outdated addresses. Since they are sent third class mail, they are unreturnable and undeliverable, so they are supposed to be destroyed. Instead of doing this, we mailmen are allowed to take them home. Nothing unethical about that, is there?

Re the magazines with the addresses cut off: If a magazine is not deliverable, the address is cut off, and sent back to the publisher, and the magazine is either destroyed or the postman is allowed to take it home.

All mailmen are not honest, but I am, so you may sign this, "The cleanest-shaven best-smelling, best-read, most happy-go-lucky mailman in Upper Michigan.

THAT'S ME

Italian Conductor Dies in Car Crash

VERCELLI, Italy (AP) — Arturo Basile, a leading Italian conductor, died Tuesday when his car swerved off the road and crashed against a roadside stone. He was 54.

Basile was accompanied by Marika Galli, 24, sister of Gianna Galli, an opera soprano. She too died in the accident.

12 N. Viet Divisions in South, Says U.S.

AP Wirephoto

LOCATION OF NORTH VIETS — The map shows infiltration routes and the order of battle of North Vietnamese troops in South Vietnam, according to U.S. intelligence sources. Besides the nine numbered NVA divisions, there are four independent NVA regiments, equal to a division, operating in the Central Highlands. Another NVA division, the 325th, is not shown because of security reasons. North Vietnamese troops comprise 80 per cent of two Vietcong divisions, the 5th and 9th, flanking Saigon. A regular NVA division, also numbered the 5th, operates near Cam Ranh Bay.

SAIGON (AP) — While North Vietnam claims at the Paris talks that it has no troops in South Vietnam, U.S. intelligence sources say it has practically stripped its own territory of soldiers and now has the equivalent of at least 12 infantry divisions in South Vietnam.

The sources say this is confirmed every day by captured documents and prisoner interrogations. U.S. intelligence officers are able to pinpoint the areas where the North Vietnamese troops are operating in South Vietnam.

★ ★ ★

The officers cite figures indicating the North Vietnamese have taken over the major fighting effort, with an estimated 80,000 combat troops in the South to 40,000 main force Vietcong.

★ ★ ★

They say that Hanoi sent two full divisions south earlier this year. They indicate that most of North Vietnam's divisions have been committed to the South. Only the elite 308th Home Guard Division based around Hanoi and Haiphong, another division near Dien Bien Phu that operates in Laos and eight or nine divisional headquarters remain in North Vietnam, intelligence officers believe.

The intelligence sources say North Vietnam has nine full numbered divisions in the South, plus the equivalent of another division in four independent regiments operating in the central highlands.

★ ★ ★

Two Vietcong divisions flanking Saigon—the 9th and the 5th—are 80 per cent North Vietnamese soldiers, the sources report.

★ ★ ★

The heaviest concentration of North Vietnamese troops with big artillery support is along the northern frontier just below the demilitarized zone. Here at least three divisions face U.S. and South Vietnamese forces. Intelligence officers locate them thus:

- The 304th Division, on the western flank of the demilitarized zone, is threatening the allied combat base at Khe Sanh, near the Laotian border.
- The 320th Division, on the eastern flank of the DMZ, is threatening the allied bases at Con Thien and Dong Ha. The latter is headquarters for the U.S. 3rd Marine Division.
- The 324th Division operates in the Hue area, 50 miles south of the DMZ.
- A fourth North Vietnamese division, the 325th, retreated into Laos when allied forces lifted the siege of Khe Sanh last month. Since then the 325th has returned to South Vietnam, and the intelligence officers say they know where it is. But they decline to disclose the location for security reasons.

FARTHER SOUTH

Farther south along South Vietnam's eastern coast, intelligence sources place the 2nd North Vietnamese Division below Da Nang. The 3rd Division is about 100 miles farther to the south in the mountains and rice-producing plains of Binh Dinh Province.

The fifth North Vietnamese Division is operating halfway between Saigon and the demilitarized zone, in the vicinity of Cam Ranh Bay.

★ ★ ★

In the central highlands near the triborder of South Vietnam, Cambodia and Laos is the 1st North Vietnamese Division. This division, plus the four independent regiments, threaten the central highlands including isolated population centers and such allied bases as Pleiku, Kontum and Dak To.

★ ★ ★

The remaining three North Vietnamese divisions form a 90-degree arc around Saigon and surrounding Gia Dinh Province, which contain 15 per cent of South Vietnam's population.

EXCLUSIVE 7TH

To the west-northwest of the capital is the exclusively North Vietnamese 7th Division. North of the city is the 9th Division and to the east-northeast is the 5th Division.

The 5th and the 9th, Vietcong divisions, have suffered heavy losses in battles with U.S. troops since 1965, and replacements have come from the North. Now 80 per cent of these two divisions are North Vietnamese regulars, according to intelligence reports.

★ ★ ★

Intelligence officers rate the North Vietnamese 7th Division west-northwest of Saigon as "the worst in the country."

"They've never done anything right," said one American officer.

A North Vietnamese division in South Vietnam is estimated to average about 7,700 men. American intelligence officers estimate that only one out of every five or six North Vietnamese soldiers infiltrates into South Vietnam through the demilitarized zone.

The majority, these sources say, move around the western edge of the buffer zone and down the Ho Chi Minh Trail through Laos. Some branch off into South Vietnam through the A Shau Valley. The others continue on down the Ho Chi Minh Trail into Cambodia and work their way into the central highlands and other points farther south.

GM MARK OF EXCELLENCE

How to raise your sights without raising your new-car investment.

Just do one simple thing many low-priced-car buyers should do, and don't. Price check an Olds 88.

You'll discover a lot of so-called low-priced cars cost as much or more.

Suddenly, you can raise your sights to a full-size Olds 88 and all its benefits.

You'll gain Olds big-car room.

Big-car stability and strength. The kind of deep-comfort ride you get on its full 123 inches of wheelbase. All the GM safety features, too. Plus the extra assurance that's yours in an Oldsmobile.

You'll also be rid of some problems, too. Like paying extra for a big V-8 engine. (And our Rocket 350 runs smooth and easy on regular gas.)

That's a pretty good return on no increase in investment, isn't it?

Is McCarthy Hubert's Stalking Horse?

By JACK BELL
AP Political Writer

WASHINGTON (AP) — Sen. Robert F. Kennedy's top advisers are urging him to attack Sen. Eugene J. McCarthy as a stalking horse for Vice President Hubert H. Humphrey.

This development represents a considerable turnaround in the three-way race for the Democratic presidential nomination —after McCarthy announced his candidacy last winter, he was tagged by political detractors as a stalking horse for Kennedy.

★ ★ ★

It had been Kennedy's earlier hope that once he had chalked up victories over McCarthy in the primaries—as he did in Indiana and Nebraska and now expects to do in Oregon and California—the Minnesota senator would throw his support behind him at the Chicago convention.

★ ★ ★

Consequently he has taken pains to avoid any other than pin-prick attacks on McCarthy. But McCarthy has rejected Kennedy's repeated invitations to join forces with him against Johnson administration policies.

TURN EXPECTED

Kennedy strategists have surveyed the 164 delegates counted in McCarthy's column from New Hampshire, Wisconsin, Massachusetts, Pennsylvania and some other states. They have concluded a majority of them will turn to Kennedy when the chips are down.

They contend many of these delegates linked themselves to McCarthy when he offered the only alternative to President Johnson's reelection and remain more anti-Johnson than pro-McCarthy.

★ ★ ★

For all practical purposes, the Kennedy lieutenants are counting McCarthy out of the running for the nomination.

★ ★ ★

They are convinced that when the final accounting comes, McCarthy will spurn Kennedy and turn to his old political associate Humphrey, despite differences with the vice president on Johnson policies.

WAITS FOR CHANGE

McCarthy, campaigning in Oregon Tuesday, hinted he might end up supporting Humphrey but also said he is waiting to see whether the vice president changes his view of Vietnam war policy.

Later, however, McCarthy said he has been accused of acting as a stalking horse for Humphrey and of running a campaign financed with Texas money.

"And neither of these things is true," he said.

But Kennedy's advisers are telling the New York senator he ought to pound away on the campaign theme that a vote for McCarthy is really a vote for Humphrey.

READY EXPLANATION

This effort to pin a Humphrey label on McCarthy apparently would be calculated to provide a ready explanation for the Kennedy camp if their candidate fails to collect a majority of the Democratic vote in either the Oregon or California primaries.

President Johnson's name remains on the Oregon ballot despite his withdrawal from contention. A former Johnson delegate slate is running uncommitted in California.

In Prtland, labor leaders are promoting votes for Johnson as a means of preventing Kennedy from getting a majority. They are also canvassing for votes for Humphrey, whose name is in the vice-presidential slot on the ballot.

All of this points toward a muddled outcome that may require a great deal of explaining unless the New York senator emerges as a clear-cut winner.

Convention Delegate Strength Polled

DELEGATES

WASHINGTON (AP) — Nearly half the Republican national convention delegates have been chosen in 29 states, the District of Columbia and the Virgin Islands. And more than one-third of the Democratic delegates have been picked in 21 states and the national capital.

Some of the delegations are only partially filled out, by selection in congressional districts, with more selections to be made at state conventions.

★ ★ ★

Including those, there remain 1,731 Democratic votes to be assigned and 678 Republican.

In some states, delegates were firmly committed in advance, or are legally bound to vote for a presidential candidate because he won a preferential primary. In the other states the Associated Press has polled the delegates regarding their first-ballot choices. Here is the tabulation to date:

Panel Confers on Court Bill

LANSING (AP)—The issue of lower court reorganization rested in a House-Senate conference committee today, while in the House some backers fumed angrily about the makeup of that committee.

House Speaker Robert Waldren Tuesday rejected traditional procedure and included among the three House negotiators on the complex bill only one member of the committee which was most familiar with it — the judiciary committee.

★ ★ ★

"This is not in my mind a slap at the judiciary committee or any member of the judiciary committee," Waldron said.

"I think Waldron has yielded to pressure from persons outside this House — maybe certain Northern Michigan probate judges," retorted committee member J. Robert Traxler, D-Bay City.

"I believe at this point he'd be willing to compromise for any sort of a bill — and principles be damned," Waldron said.

★ ★ ★

Waldron named as one of the House conferees Rep. Donald Holbrook, R-Clare, judiciary chairman and chief sponsor of the bill. Also named were Reps. James Heinze, R-Battle Creek, and Richard Young, D-Dearborn Heights.

All three are attorneys, but neither Heinze nor Young is a sponsor of the bill or a member of the committee which spent months considering it. Generally, conferees on a bill are its sponsors or members of the committee which reported it to the floor.

★ ★ ★

The Senate negotiators are Sens. Robert Richardson, R-Saginaw, L. Harvey Lodge, R-Waterford, and Roger Craig, D-Dearborn. All three are members of the Senate Judiciary Committee.

Bermuda's Independence Lies in Vote

By JOHN VINOCUR
Associated Press Writer

HAMILTON, Bermuda (AP) — Whether Bermuda's Negro majority would unite or split was the big question today as the holiday island elected its first autonomous government.

Unity could mean the island will break with Britain.

Complete independence after 284 years as a British colony is a major plank of the predominantly Negro Progressive Labor party. But the predominantly white United Bermuda party which wants to remain British, is bidding for the Negro vote with 13 Negro candidates out of its total of 39.

A third party, the Bermuda Democratic party, is largely Negro but middle class in appeal. It could hold the balance of power if neither of the large parties wins a majority.

The vote of the Negro population—63 per cent of Bermuda's 50,000 residents—became more important under new one-man, one-vote rules. The voting age has been lowered from 25 to 21, and certain property owners no longer get two votes.

RACIAL RIOTING

A month before the election, two days of racial rioting shook Hamilton, and as a precaution against further violence, the British frigate Leopard docked Tuesday with a crew of 14 officers and 215 men.

★ ★ ★

They and 150 Royal Inniskilling Fusilliers brought here after the riots stayed off the streets, however.

★ ★ ★

There was only the slightest suggestion of tension. The PLP was denied a permit for a motorcade late Tuesday. It accused the colonial administration of backing the UBP.

American tourists, who can fly the 670 miles from New York to Bermuda in less than two hours, seemed barely aware an election was taking place, so noiseless was the campaigning.

MAJOR ISSUE

But the Americans were a major issue because the 200,000 who come every year in pursuit of sun, relaxation and cheap liquor bring $30 million annually—the local economy's backbone.

Other Americans have invested heavily here and are acknowledged to back the UBP.

Since the rioting tourism has been off 15 per cent. The PLP contends the only permanent guarantee of calm and growth of tourism is independence.

★ ★ ★

The UBP claims a PLP victory would cut into foreign investment and the tourist trade. It says the PLP is Communist-allied and has "friends" in the Soviet Union.

★ ★ ★

The PLP, which lists three whites among its 38 candidates, has called the colonial government racist, dominated by a small white power clique—"the forty thieves"—and dedicated to the status quo.

★ ★ ★

The new 40-member House of Assembly will control all government functions except defense, police, and foreign affairs. These are retained by the governor, Lord Martonmere, a British appointee.

Poppy Sales Will Benefit Needy GIs

Red paper poppies will be sold throughout Oakland County tomorrow through Saturday by Veteran's groups raising money for needy servicemen and women, hospitalized veterans and their families.

★ ★ ★

Selling the flowers will be members of two American Legion posts — Chief Pontiac 377 and Cook Nelson 20 — their auxiliaries and members of City of Pontiac VFW Post 1370.

★ ★ ★

"Through wearing the little red flower, thoughtful Americans everywhere are able to offer simple and sincere appreciation to our gallant Yanks," commented Mrs. L. D. McLauchlin, poppy chairman for the Post 377 Auxiliary.

Miss Poppy, Loraine Charter of 675 Reynolds, is appearing at civic and service clubs throughout the city promoting poppy days.

3 State Men Killed in Vietnam Combat

WASHINGTON (AP) — The Defense Department Tuesday reported the names of three more Michigan men killed in Vietnam combat.

Army casualties listed were: Sgt. Harry H. Desormeaux, son of Mr. and Mrs. Gerald Desormeaux, Sault Ste. Marie, and Pfc. Gregory A. Rindy, son of Mrs. Doren Kocik, Roseville.

★ ★ ★

Also killed was Marine Lance Cpl. Ronald J. Markel, husband of Mrs. Ronald J. Markel, Waldron.

Administrators Get OCC Teaching Pacts

Eleven Oakland Community College central office administrators were given five-year teaching contracts last night despit objections by one trustee.

Trustee David W. Hackett said he objects to giving administrators a teaching rank, particularly those who have no teaching experience.

Administrators get teaching contracts for security purposes, Hackett was told.

"I'm looking at this from my standpoint as a teacher, student and board member," Hackett remarked, "and all the views are crisscrossing."

OK CALLED MISTAKE

He said "it would be a mistake" if the board approved the contracts and since this policy was followed once before he said "if you make one mistake, you don't make it twice."

Executive Vice President Dr. Ervin L. Harlacher explained that he thought this policy was a "good approach." He said OCC possibly was the only community college in the country to give administrators five-year teaching contracts in addition to their administrative contracts.

Harlacher and Board Chairman George R. Mosher agreed that the policy should be reviewed at a later date, possibly with the new OCC president when he is hired.

Only two of the 11 administrators given teaching contracts have no teaching experience and possibly would be more knowledgeable in their fields than teachers already in them, according to Harlacher.

In other business, the board:

● Passed a resolution to open for negotiation the salary clause in the faculty's 1966-69 contract.

● Adopted a resolution annexing a small portion in southeastern Troy to the OCC district. The area, which is in the Warren School District and in no community college district, will mean extra revenue for OCC.

● Heard a report that the OCC spring enrollment of nearly 3,000 is almost double last year's, that applications for summer are coming in five times as fast as last year and that many students in northwestern Detroit have taken advantage of the lowered out-of-district tuition rates.

Banquet Will Honor Oxford High Band

An honors banquet for members of the Oxford High School Band and its director, Wendell Honsinger, will be 6 p.m. tomorrow at the Oxford Area Community High School.

Sponsored by the Oxford Band Parents Association, the dinner is in recognition of the many awards received this year by the group.

★ ★ ★

Two members of the band, Penny Houck and Mike Kozachik, have been chosen to participate in the statewide Honors Band with which the Honors Orchestra will perform in concert Saturday at the Michigan Youth Arts Festival, St. Joseph.

★ ★ ★

Penny has also been selected to participate in the Junior Seminar at the University of Michigan. Mike's several district and state honors include being a three-time winner of the Oxford Music Club Scholarships. He has been admitted to the School of Music at Michigan State Univresity and plans to major in public school and instrumental music education.

MISS HOUCK

KUZACHIK

GUEST SPEAKER

The banquet, emceed by Richard Kroninger, chairman of the parents group, will feature George Cavender, assistant director of bands at the University of Michigan, as guest speaker.

★ ★ ★

The annual spring concert in the high school auditorium will follow the dinner. Lloyd Conley, Clare Junior High Band director, and special guest will conduct his own compsiton "Symphonic Invention."

Tuition Tax Offset Urged by McDonald

Congressman Jack McDonald, R-19th District, said today he favors credits against the federal income tax to offset part of the cost of tuition and fees for higher education.

He expressed hope that the House Ways and Means Committee will hold full hearings on the proposal this year.

★ ★ ★

Though the House recently took significant steps to extend student air programs, McDonald said it is not enough to do the entire job.

★ ★ ★

"As the costs of college continue to rise and as more and more students seek higher education, additional steps will be required to promote educational opportunity for able young Americans regardless of their financial circumstances," said McDonald.

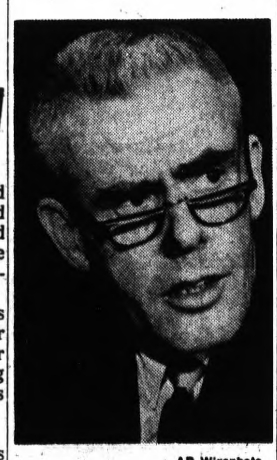

He said that he is contacted by numerous young men and women who are fully qualified for college academically "and have a deep desire to continue their education—but simply cannot find a way to pay for it."

"I talk with many parents who have saved toward their children's college education for years only to find that rising costs have made those savings inadequate," McDonal dsaid.

Although family income levels are rising, the costs of college "are soaring out of sight," he added.

According to one estimate noted by McDonald, the average annual cost to a resident at a public college or university was $1,640 in 1967 and will be $2,160 by 1977. The average annual cost for a resident student at a private institution was $2,570 last year and will be $3,280 in 10 years, he said.
