

Michigan Leads U.S. in Traffic Fatalities

Roundup Celebrities

WINNER CHECKS PRESS PUBLICITY — Jo Anne Warren, a Girl Scout from Lubbock, Texas, read her prize-winning essay in arena ceremonies Wednesday at the Senior Scout Roundup. She is shown here in the Press tent, reading Pontiac Press articles about the camp. Jo Anne placed first in a contest entered by some 2,000 scouts.

LUNCHEON GUESTS — Dr. Lillian Gilbreth, noted efficiency engineer and mother in the book "Cheaper by the Dozen," chats with Dr. Albert E. Heustis, Michigan State Health Commissioner. Both were guests of the Girl Scouts at a luncheon Wednesday at Haven Hill. Dr. Gilbreth, a long-time member of the Scout organization, was speaker at the Independence Day ceremonies.

Noted Engineer Talks at Scout Ceremonies

By JANET ODELL

"We are in need of three kinds of education," Dr. Lillian Gilbreth, eminent engineer, told an audience of 8,000 people Wednesday afternoon at the Girl Scout Roundup celebration of Independence Day.

"We need educated minds that are alert and intellectually curious. We need educated hands that can acquire new skills. We need educated hearts that recognize and love beauty wherever it is found."

Dr. Gilbreth, speaking mainly to the 5,000 teenagers in the arena, said they would find that likeness between people mean more in the long run than differences. She praised the Scout group for the way in which they are living together during this first Senior encampment.

Dr. Gilbreth has been a member of the national Girl Scout board and its consultant for a quarter of a century.

Commenting that machines are fast freeing people from monotonous work and giving them more free time, Mrs. Gilbreth defined

free time as "time when you are at peace with yourself and other people; when you are emotionally serene and can look around for some activity that is satisfying to you."

CELEBRITIES SPEAK
Other celebrities who spoke briefly were Jacqueline Cochran, manufacturer, and Charlton Heston, star of the forthcoming movie, "The Ten Commandments." A message from President Eisenhower was read.

Mrs. Roy F. Layton, national Girl Scout president, presided at the patriotic ceremonies. Following a prayer written by Benjamin Franklin and presented by Mrs. Layton and a Girl Scout verse-speaking choir, a flag ceremony took place.

Scout color bearers carried 150 American flags, 48 state flags, six territorial flags and half a dozen historic flags. When these flags were formally placed across the arena, Mrs. Layton led the audience in the pledge of allegiance.

The youngest speaker on the program, Jo Anne Warren, a Girl Scout from Lubbock, Texas, read her prize-winning essay "What America Means to Me."

The day's program concluded with fireworks in the evening. Visitors were invited to stay instead of having to leave at sundown as usual. More than 2,500 had come by four o'clock to see this first all-state camp for Girl Scouts. Cars were still streaming into the parking lot where MP's were directing traffic.

Ike Gets Odd Gift

TOKYO (INS)—President Eisenhower is due to get a gift from Japan but he will probably need a microscope to appreciate it. Shuji Kawai, 25-year-old clerk, said he is sending the President 53 grains of rice—each one painted with a character from the Japanese phonetic alphabet.

Anti-Trust Suit in Offing Against General Motors

Charges of 'Monopoly' in Bus Manufacture Will Be Lodged

FROM OUR WIRE SERVICES
WASHINGTON—An anti-trust suit against the giant General Motors Corporation is planned by the Justice Department.

Attorney General Herbert Brownell Jr. announced last night that GM "would be charged with engaging in 'unlawful activities which have given it a monopolistic position in the manufacture of buses.'"

Brownell said the manufacture of automobiles would not be included in the action against the world's largest manufacturing concern, producer of 55 per cent of the nation's cars and an estimated 80 per cent of its buses.

Brownell said attorneys for General Motors have already been informed of the impending action which will be filed in the U. S. District Court for the Eastern district of Michigan.

(In Detroit, a GM spokesman said the corporation had received no official word of the pending suit and refused to make further comment.)

Brownell said Defense Secretary Charles E. Wilson, former GM head, had not yet been advised of the coming anti-trust action.

The suit was recommended by Judge Stanley N. Barnes, who, before leaving the Justice Department to become a judge of the Ninth Federal Circuit Court of Appeals at San Francisco, had been head of its anti-trust division.

RESULT OF STUDY?

GM also manufactures trucks, refrigerators and other home appliances, parts and accessories, locomotives, diesel equipment and aircraft engines.

The Senate monopoly subcommittee conducted a study last year to determine the corporation's impact on the nation's economy.

One of the charges made during the subcommittee hearings was that competing bus manufacturers had been cut off from supplies of GM-made diesel engines.

General Motors has been in the truck business since 1911 when it organized the General Motors Truck Company. In 1925 Yellow Truck & Coach Mfg. Co. was organized with General Motors Truck (Continued on Page 2, Col. 2)

Office of City Clerk Open for Registration

The City Clerk's office in the City Hall will remain open until 8 p.m. tonight and tomorrow for last minute registrations for the coming Aug. 7 primary.

The last day to register for the primary is Monday, July 9.

The office will open Saturday from 9 a.m. until 1 p.m. to accommodate un-registered voters in the city.

Picnickers Throng Parks Despite Cool Day

CASS LAKE THRONGS — Happy picnickers above are part of the near-capacity crowd of 27,000 that packed Dodge State Park No. 4 at Cass Lake on Independence Day yesterday. At the 8 a.m. opening of the park, 508 cars already were lined up to enter. In spite of overcast skies, parks all over the county saw sizeable crowds.

Twining to Visit Ike on Farm

To Discuss, 'Possibly' Decide U.S. Airpower Question

GETTYSBURG, Pa. (INS)—The politically sizzling question of whether the United States needs to beef up its airpower to keep up with the Soviets may be decided today at President Eisenhower's Gettysburg farm.

Gen. Nathan F. Twining, Air Force Chief of Staff, was flying to Gettysburg to give the convalescing chief executive a first-hand report on the "well controlled" look he got at the Russian Air Force during his visit to Moscow.

Flying up with him from Washington were Defense Secretary Charles E. Wilson, Air Force Secretary Donald Quarles and Adm. Arthur W. Radford, chairman of the Joint Chiefs of Staff.

Democrats are demanding that the administration spend the extra 900 million dollars tacked on to the Air Force budget by Congress—mostly to buy more B-52 jet bombers.

Twining's report on the jets shown off by the Soviets could bring a shift in the administration position that there is no need for the extra money.

The Air Force chief will hold a news conference in Gettysburg after his report to the President.

Wilson, who has been doing most of the talking for the Pentagon during the current squabble with Congress on the airpower issue, will take a back seat to Twining today.

Dissension in Bonn?

BONN (INS)—A powerful section of Konrad Adenauer's West German government coalition was reliably reported today to be ready to accept a new invitation to visit Moscow for talks with Soviet leaders.

Crowds Visit Parks Despite Dark Clouds

The sun was shy yesterday, but Independence Day crowds were not.

County parks and lakes were well attended, despite overcast skies and threats of rain.

Highways saw heavy traffic, but only one local fatality occurred in the 36-hour period from 6 a. m. Tuesday to 6 a. m. today.

Frederick A. Freer, 35, of Madison Heights died when the auto he was riding in left Twelve Mile road in Farmington Township at 7:50 p.m. Tuesday and struck a tree east of Haggerty road.

The driver, Eugene Buck, 29, of Hazel Park is in critical condition in Redford Receiving Hospital. Both men were pinned under the wreckage 35 minutes.

There were no drownings reported in the county.

Five-hundred and eight cars were lined up at 8 a.m. to enter Dodge State Park No. 4 at Cass Lake. The lead car had been there since 2 a.m., park officials said.

CROWDS TURN OUT

Morning crowds, hopeful that the sun would come out, reached 27,000 before attendance fell off in the afternoon.

Good attendance was reported at other county parks. Visitors at the Girl Scout National Encampment at the Highland Lake Recreation Area, numbered less than 3,000 persons.

Although no official count was available, thousands attended public fireworks last night at Oakland Park near the Pontiac Motor Division main plant.

HIT BY BOAT

The propeller blade on a moving speedboat inflicted severe facial cuts on a Detroit, swimming in Walnut Lake, four miles south of Pontiac in Bloomfield Township.

Earl F. Heffner, 32, was listed (Continued on Page 2, Col. 3)

Steelworkers Revive Talks

Great Lakes Freighters Filled With Ore Tied Up in Detroit, Muskegon

PITTSBURGH (U)—With the five-day-old steel strike about to cut more sharply into the nation's business after a holiday lull, federal mediators undertake today to pinpoint disputed issues and revive contract negotiations.

Joseph F. Finnegan, chief of the Federal Mediation Service, and two aides slated a late-morning session with David J. McDonald, president of the striking United Steelworkers, and an afternoon conference with basic steel industry representatives.

Tomorrow the government intends to clamp a temporary freeze on selected steel items now stock-piled in warehouse to assure that defense producers will have enough supplies to continue work for as long as possible.

Meanwhile, Detroit Steel Corp. became the third nonstriking firm in two days to boost prices in anticipation of added labor costs. Major mill products were boosted \$7 to \$16 a ton.

47,000 NOTIFIED

Close to 47,000 workers in allied industries—principally railroads and trucking—have been furnished or notified of impending layoffs. The number is expected to climb considerably this week.

Six loaded iron ore carriers are anchored in the Detroit River and three others are tied at Detroit docks. Seven freighters already have found anchorage or dock space in Muskegon Harbor.

And 15 ore vessels, with no place to unload their cargo, docked at the Cleveland harbor yesterday. "They are coming in all the time," a dispatcher in the harbor tug office said. "I don't know how many will be anchored there before it's over."

Steel company negotiators, in their last offer, proposed a 52-month pact which they said provided a 17.23-cent hourly package increase the first year, including a 7.3-cent-an-hour wage boost.

Union officials called the offer inadequate. They computed the value of the "package" at 14 cents. Just what the union wants in the way of a pay hike and length of contract never has been spelled out publicly.

Prestrike average hourly earnings were \$2.46.

Breaks Atlantic Record

DETROIT (U)—Pan-American World Airways reported today one of its planes has flown the Atlantic from Detroit to Shannon, Ireland, in record time of nine hours and 24 minutes for the 3,660-mile flight, an average of 390 miles an hour. This was 29 minutes faster than a June 1 flight.

10 Die in State; 126 Death Toll Across County

Safety Council Expects 150 in Final Tally; Three Drown in State

By THE ASSOCIATED PRESS
Michigan reported the most number of Independence Day traffic deaths—10.

Georgia and Illinois each listed eight, Ohio seven and Texas and New York, six each.

At least 15 persons, including 10 in motor traffic, were killed in Michigan.

Crisp, cool weather—unusual for the Fourth—kept down holiday travel to some degree. There was not the customary urge to run for relief from congested cities.

The nation's traffic deaths over the Fourth of July appeared edging toward the preholiday estimate of 130.

With final figures still to come in, the traffic toll for the 30-hour period starting at 6 p.m., local time Tuesday and ending midnight was 136.

In other violent deaths, 72 drownings were reported and there were 34 deaths in miscellaneous accidents for an over-all total of 232. No fireworks fatalities were reported this year.

EXPECT 150 DEATHS
The number of traffic fatalities as well as the over-all total was far greater than that reported on Memorial Day (109 and 174) and compared with a normal traffic toll of 80 for a Wednesday in early July.

The National Safety Council, which before the holiday had said 130 persons might be killed in automobile accidents, said indications were the final toll may approach 150.

In Michigan three drownings were reported. On the highways three persons were killed in one crash and two boys in another when their bicycle was hit by a car.

George McKiernan, 55, of Neebish Island died on the St. Marys River in the Upper Peninsula when his head struck a ship-to-shore cable. His neck was broken.

THE FATALITIES:
Obra McKenney, 34, and his wife, Ruth 31, of Barnabas, W. (Continued on Page 2, Col. 1)

Train Ploughs Through Crowd

3 Die, 5 Hurt as Illinois Sightseers Block Track Near Fireworks Display

FOX LAKE, Ill. (U)—A speeding passenger train rammed into a crowd watching a Fourth of July fireworks display last night from a railroad track. Three persons were killed and five injured. An estimated 80 to 100 lined the track. Several others were on a nearby trestle when the three-coach Milwaukee Road train neared this northern Illinois resort community.

Some 500 others were in the fenced-in American Legion field in Riverside Island, scene of the fireworks display sponsored by the Legion.

The first bomb in the display was exploded shortly after 9 p.m. when the holiday special, bound for Chicago from nearby Walworth, Ill., approached.

Firemen and legionnaires had warned the group on the track and trestle that a train was due. They urged the crowd to leave the tracks and watch the fireworks display in the Legion field. About 15 minutes earlier a freight train had passed and the group left the track and trestle, only to return.

Fireman Jim Tutz said he saw the passenger train approaching and didn't believe any one was in danger.

"After the train had passed," Tutz said, "I saw seven bodies strewn along the track. There was a stunned silence after the accident. There was no panic."

Snowballs Fly on Cool Independence Day

FIRE CRACKERS . . . PHOOEY! — Jim Nelson, 70 Illinois, (second from left), 11-year-old son of Mr. and Mrs. R. S. Nelson, decided last January that if he couldn't have firecrackers on Independence Day, he'd throw snowballs. So Mom's freezer kept the signs of winter until yesterday when the neighborhood banded together for a snowball fight. Helping him celebrate the day are (left to right) Lynn Nelson, Richard Johnson and Jack Riley.

For More Fun on Your VACATION

This comes under the head of "When You'd Love to Live Forever," one of the themes in Jim Williams' OUT OUR WAY cartoons. We hope you have that sort of vacation, one with lasting memories. Add to your enjoyment by having The Pontiac Press sent to your vacation address so you can follow all the comics. Just phone FE 2-8181.

Long Island Baby Boy Kidnaped

WESTBURY, N. Y. (INS) — A month-old boy and the kidnaper who snatched him from his Westbury home and left a \$2,000 ransom note were the object of a widespread search today.

The note, left for Morris Weinberger, father of Peter Weinberger, and acknowledging that "I'm scared stiff," demanded the money by 10 a.m. today and threatened death to the child if its conditions were not met.

A few minutes before the baby

was whisked from his carriage on the rear patio of the family's fashionable \$40,000 Long Island home yesterday afternoon his mother had stepped into the house.

She came back to the patio to find the note which read:

"I hate to do this to you, but I am in great need. I am scared stiff. I could ask for more but I am asking for only what I need. Put \$2,000 in small bills in a garage (name withheld). Do not notify police before noon tomorrow or I'll have to kill your baby."

PAYOFF READY

An apparent attempt was made at the 10 a.m. deadline today to pay off the \$2,000 ransom asked by the kidnaper who threatened death to four-week-old Peter Weinberger. However, there was no immediate indication that the effort succeeded.

Last Oct. 31, only three miles from the Weinberger home, three-year-old Stephen Damman was snatched from outside a supermarket in the town of East Meadow.

Police have been unable to clear up the Damman child's disappearance.

Police conducted a door-to-door questioning of neighbors of the Weinbergers, last evening. They also began a check on domestics who had formerly worked in the Weinbergers' home.

On the basis of the note and comparatively small sum of money demanded, Westbury Police Commissioner Alfred J. Touhy speculated the kidnaper might be a "distraught woman."

Another possibility was raised by information given separately by a neighbor and two 13-year-old youngsters. The two boys stated they saw a shabbily dressed stranger in a 1951 sedan parked about 200 feet from the Weinberger home.

The neighbor reported seeing a man driving by several times, before stopping and asking directions to an address "which I knew didn't exist."

The Weinbergers' other child, Lewis, is 4.

ARNO L. HULET

Arno L. Hulet Heads Township

Succeeded Anderson as Treasurer, Now in Supervisor Post

BLOOMFIELD TOWNSHIP — New supervisor of Bloomfield Township Arno L. Hulet, named Monday by the township board, has been in township employ for about 25 years.

Hulet followed David Anderson as treasurer when Anderson was named Supervisor in November, 1950. Now he takes Anderson's spot at the top of the township staff.

Anderson had submitted his resignation to the board Monday. He died unexpectedly Tuesday morning, although he had been in ill health for several months.

Hulet had been elected several times as justice of the peace, which automatically gave him a seat on the township board, since about 1930. He won elections to the treasurer's post after being appointed in 1950.

He and his family reside at 2355 Franklin Rd. He was elected president of the state Hi-Twelve Club and the First Congregational Men's Club and American Legion post commander in Pontiac.

Aid Bill Still Off 700 Million

House - Senate Group Compromise to Reflect Wishes of 2 Lawmakers

WASHINGTON (INS) — House and Senate conferees seek a compromise foreign aid bill today.

They said the final draft will strictly reflect the wishes of two lawmakers retiring from Congress — Sen. Walter F. George of Georgia and Rep. James P. Richards of South Carolina.

Right now, the two veteran legislators, working on their last major proposal after long careers in Congress, are some 700 million dollars apart in their ideas of how large a foreign assistance program should be allowed this fiscal year.

President Eisenhower asked for four billion, 900 million dollars for the House, backing Foreign Affairs Committee Chairman Richards, voted three billion, 800 million. The Senate, with Foreign Relations Committee Chairman George leading the way, approved four and one-half billions.

Members of the group seeking a compromise said nothing publicly about what the final result will be or when it will be reached.

But several of them echoed the sentiment of Rep. John Vorys (R., Ohio), who told a newsman: "In this case, the two chairmen will sit down and write the bill."

Both men are Democrats.

Anti-Trust Charges Loom Against GM

(Continued From Page One)

as a subsidiary and General Motors Corp. holding a large interest.

UNIT REPORT

Shortly afterward GMC Truck & Coach Division was organized in Pontiac.

The GMC Truck & Coach Division in Pontiac is the sole manufacturer of transit and inter-city buses produced by the corporation. Production of the two types of vehicles reached 2,915 units last year.

Local officials of the division had no comment to make today regarding the impending legal action.

The statement showed GM had total sales of all products in 1955 amounting to \$12,443,277,000 and net income of \$1,189,477,000, both record totals. How much of the over-all sales volume and net profit came from the individual divisions of GM was not indicated.

The report did show, however, that suppliers got \$6,073,000,000; employees in wages and salaries \$3,378,000,000 and that taxes, federal, state and local, took \$1,588,000,000. Net working capital of the corporation stood at \$2,058,258,000. Value of real estate, plants and equipment, was listed at \$2,353,032,000.

Brownell formally announced his plans yesterday at the opening of a new TV show, on which he was the guest.

Some observers saw the move as an election-year action aimed at combating Democratic criticism that the Eisenhower administration is a "big business administration."

Brownell, however, denied such was the case. He declared: "I would certainly not agree there are any political overtones in connection with this case whatsoever. It's being handled strictly on the merits."

Accident Victims Compare Notes in Hospital Beds

Two boys in room 105 of Pontiac General Hospital can compare notes today about dangerous holiday traffic.

Both were struck by cars in separate accidents at Walled Lake last night.

Howard A. Hughes, 14, of New Hudson, suffered a broken right leg, Roger Ritter, 4, of Detroit, suffered a broken left leg.

Oakland County Sheriff's deputies have not completed reporting the accident details.

But Howard was struck while riding his bicycle on S. Shore Drive near the Walled Lake Amusement Park. Roger was on foot when the car hit him on E. Lake drive, deputies said.

Both are in good condition, authorities said.

Fireworks Explode; Boy to Lose Fingers

KALAMAZOO — A 16-year-old Kalamazoo youth lost the tips of two fingers yesterday when a giant firecracker exploded in his hand.

Doctors say they may be forced to amputate the rest of both fingers.

The youth, Thomas Hanson, son of Mr. and Mrs. Edward Vuurma, lit the firecracker as he was riding in a boat on nearby Gull Lake with his brother, Ronald, 7, and a friend, Thomas Buttery, 16.

The firecracker fell to the boat deck and as Hanson picked it up it exploded.

Refreshment Stop for Tired Drivers Avoids Fatalities

CLARION, Iowa — Sheriff Robert Blecker of Wright County today counted as "a real success" his experiment with a "refreshment stop" for motorists as a means of reducing highway accidents during the heavy Fourth of July holiday traffic.

With local insurance agents underwriting the costs, Blecker set up a stand at the junction of busy highways U.S. 69 and State 3 east of here to provide free coffee, doughnuts and milk for motorists.

The stand was manned continuously from 2 p.m. July 3 to 8 a.m. July 5 when "we ran out of just about everything," Blecker said. He estimated nearly 6,000 cars "from Canada to Texas and New York to California" made stops.

Served were 6,000 doughnuts, 4,800 cups of coffee and 243 gallons of milk. The idea was to give motorists a "rest break." Only one serious accident occurred in the county.

"Fellows who have driven all over the United States said they never saw anything like this before," Blecker said.

Corregidor Island Toured by Nixons

MANILA — Vice President Richard M. Nixon, visiting the Philippines as President Eisenhower's representative, today toured famed Corregidor Island.

Nixon and his wife were accompanied by President and Mrs. Ramon Magsaysay on the trip to the World War II island fortress across Manila Bay.

It was the first sightseeing excursion for the vice president since he arrived here Tuesday to attend the celebration of the 10th anniversary of Philippine independence.

(Read Lawrence page 6.)

The Nixons were to be hosts at a dinner tonight at the U.S. Embassy in honor of President and Mrs. Magsaysay.

Manila newspapers today hailed Nixon's visit and his speech.

Crowds Fill Parks Despite Dark Clouds

(Continued From Page One)

In fair condition in Pontiac General Hospital. He also suffered a fractured jaw.

Heffner told sheriff's deputies he was trying to help a toppled water-skier, when the tow boat turned around and plowed over him. It was driven by Walter Melenofsky, also of Detroit.

A driverless outboard-motor craft went wild on Union Lake, six miles west of Pontiac. It crashed into the boat of William Lapere, Royal Oak, splitting open the side.

Wayne Klein, of Detroit told sheriff's deputies he had been flipped from the boat when it tossed in the wake of another craft. He swam to safety.

Argentine Takes Lead

HOYLAKE, England — Argentina's Enrique Bertolino took the lead in the British Open Golf Tournament with a 36-hole total of 141 today as he escaped the worst of the windy, rainy weather that shattered Mike Souchak's hopes.

Souchak, the powerful ex-football player from Grossinger, N. Y., fought his way through driving rain and gale force winds to score his second 74 and reach the half-way point with an aggregate of 148.

Bertolino, who had a 69 to finish the first round, the Welsh professional champion, shot 34-38-72 later in the day when the wind and rain had abated.

This Is News!

FITCHBURG, Mass. — A four-point buck weighing about 80 pounds leaped to his death from a 3-story business building on Main Street here. The street is at the foot of a slope and the rooftop easily is accessible from a hill at the rear. An eyewitness said the deer walked "nonchalantly" off the roof to a sudden death.

DETROIT — A total of 24,000 pupils are going to public summer school in Detroit.

State Leads Nation in Traffic Deaths

(Continued From Page One)

Va.; Mrs. Lillian Wulf, 31, of Toledo, Ohio on U.S. 25 near Monroe.

Dorothy Parker, 16, of Dearborn, yesterday after collision with a train north of Monroe.

Richard Asbury, 14, of Muskegon, yesterday on M22, near Manistee.

L. T. Hamilton of Flint yesterday in Flint.

William Turner, 14, and his brother, Robert, 10, of Dowagiac, Tuesday night when an auto hit their bicycle six miles from their home.

Herman Smith, 28, of River Rouge, Tuesday while racing with a friend on Detroit street.

Eric Easter, 37, of Davison, yesterday on M21 near Potter's Lake.

DROWNING VICTIMS:

Paul F. LeCureux, 31, of Corunna, drowned yesterday in Bass Lake near Traverse City.

Florence LaBar, of St. John, drowned yesterday in Houghton Lake.

James Leggon, 27, of Muskegon Heights, drowned in Idlewild Lake in Lake County yesterday.

Willard LeRoy Mulholland, 3, of Ann Arbor, was crushed when a log bolting his driveway broke loose and rolled over on him.

Aussie Beats Richardson

WIMBLEDON, England — Top-seeded Lew Had of Australia spotted Ham Richardson of Westfield, N.J., the first set then came on to win, 3-6, 6-4, 6-2, 6-4, in their semi-final match in the Wimbledon Tennis Championships. Had will meet Ken Rosewall, second-seeded Australian, in the final tomorrow.

The Day in Birmingham

Face Trimming of Costs on Elementary Building

BIRMINGHAM—With low bidder \$150,000 above the expected cost for Midvale Elementary School, board members here face the possibility that trimming may be necessary for all four of the elementary schools to be built before 1957.

Midvale was the first of the proposed schools for which bids were taken by the board. Figures are being studied by the school architect following their acceptance at a Monday meeting.

The other three buildings will be up for construction bids within the next two months, predicts Dr. Richard Featherstone, assistant to the superintendent.

Low bid on the Midvale school was \$784,500 for total construction work. It was submitted by the Freeman Darling firm.

The board had expected to pay about \$639,000 for the school. Midvale will stand on the northeast corner of the high school site.

Trimming of costs apparently will start when the architect returns the bids to the board at its July 17 meeting, but may not be required for the other three schools.

"Financial conditions might tend towards higher prices for construction now because of the steel strike and because school projects go full force in summertime. Such a job would have to be begun at once and construction schedules may be already crowded," theorized Dr. Featherstone.

He forecast that the other three buildings may have lower costs if the steel strike is settled later, and if other factors change.

He said the board, which must act within 30 days on the bids, may have to reject all of them. A special meeting to consider them is not likely, since vacations for board members hinder securing a quorum.

About 25 to 50 potential voters are registering each day, reports City Clerk Irene Hanley. Approximately 90 registered on Saturday, she says, and the number will probably increase as the Monday deadline nears.

Her office is open from 8 a.m. to 5 p.m. today, tomorrow and Monday, and from 9 a.m. to 1 p.m. on Saturday. She warns, "A line usually forms on the final day."

Recreation department director Robert Girardin has released a new schedule for days that the new playground coordinator will visit playgrounds.

The coordinator is Don Hoff, and he began work this week, visiting playground fields and aiding the older boys, especially with ballgame activities. Hour of opening on each playground is 9:30 a.m. daily, with Hoff visiting one field a day.

A tax bulletin was mailed to residents this week, explaining what the new budget includes.

It reveals that 14.7 goes to general administration, 13.44 goes into capital improvements, 17.1 to public works, 14.2 to police protection, 11.98 to fire protection, 5.16 to forestry and parks, and 4.95 to employ protection. Other small items are listed as well.

The total amount is for \$1,151,694.

Estimate 12 Million in Kremlin Army

PARIS (INS)—Allied experts estimated today that the Kremlin has 12 million men under arms and ready for war.

Supreme Allied Headquarters also said its latest information indicated that Russia has 20,000 operational planes and more than 450 submarines and that the European satellites have 2,500 warplanes.

At present, the SHAPE report said, the Soviet army, navy and air force totals six million men. Half of these are ground troops, the bulk in 175 divisions.

The satellites—Poland, Czechoslovakia, Romania, Hungary, Bulgaria, Albania and East Germany—were estimated to have armies totaling 4.5 million men.

Total satellite air force manpower was put at more than one million and naval personnel was estimated at a half million.

County Deaths

Mrs. Wayne Eddy

ROCHESTER—Service for Mrs. Wayne (Ethna) Eddy, 62, of 1585 Rochester Rd., will be at 2 p.m. Saturday from St. Paul Methodist Church, with burial in White Chapel Memorial Cemetery. The body will be at the William R. Potere Funeral Home here until noon Saturday.

Mrs. Eddy, who died yesterday at Pontiac General Hospital, was a member of the OES, the Rochester Garden Club and was a past president of the Rochester Women's Club.

She is survived by her husband; her father, Erwin Hubbard of Hinckley, Ill.; two daughters, Mrs. William Burke and Mrs. David Herkless, both of Rochester; a sister, Mrs. Lucille Ackerman of Hinckley, and eight grandchildren.

Mrs. Ada Neal

ORION TOWNSHIP—Service and burial for Mrs. Ada Neal, 78, of 3770 Morgan Rd. will be held at Hayti, Mo., where the body was sent today from Sparks-Griffin Funeral Home, Pontiac, Mrs. Neal, ill for several months, died yesterday at her home.

A resident here three months, Mrs. Neal is survived by her daughter, Mrs. Clyde Spicer, with whom she made her home; a sister, Mrs. Lillie Davis of Kenneth, Mo., and three grandchildren.

Charles E. Miner

OXFORD — Service for Charles E. Miner, 77, 1951 Balwin Rd., a farmer and lifetime county resident, will be at 2 p.m. Sunday at the Flumerfelt Funeral Home, Oxford. Burial will be in Oakwood Cemetery, Mt. Pleasant.

Mr. Miner died at his home early today.

Surviving are his widow, Elizabeth; two children, Mrs. Ruth Mann, Oxford and Mrs. Myrna Holtz, of Rochester; two sisters, Mrs. Bertha Baker of Linden and Mrs. Winnie Jones of Oxford, and five grandchildren.

For an Englishman, auto nuts and bolts are fittings.

Pontiac Deaths

Mrs. Fernando Hoskins

Mrs. Fernando C. (Lillian May) Hoskins, 94, of 730 Forest St., Royal Oak, died at 6:15 yesterday morning in Clawson after a brief illness.

A resident of Pontiac and Oakland County more than 50 years, Mrs. Hoskins had worked with her husband in the Hoskins Studio on North Saginaw street for many years. Mr. Hoskins died in 1932.

She was born in Kenosha, Wis. Oct. 7, 1861, the daughter of Lafayette and Eliza Woodworth and married in Wisconsin in 1882. The Hoskins came to Pontiac from Cheboygan.

She leaves four daughters, Mrs. Ray Davis of Royal Oak, Mrs. William Harris of Long Beach, Calif., Mrs. Lloyd Graves of San Fernando, Calif., and Mrs. Max Flickinger of Glendora, Calif.; two sons, Earl Hoskins of Birmingham and Frank Hoskins of Pontiac.

Other survivors include 20 grandchildren, 42 great-grandchildren and 10 great-great-grandchildren.

Service will be at 1:30 p.m. Saturday from the Voorhees-Siple Chapel with Dr. Milton H. Bank of the Central Methodist Church officiating. Burial will be in Perry Mt. Park Cemetery.

'Bone' in Child's Throat Turns Out to Be Cough

One-year-old Deborah Rodden may wonder what all the fuss was about.

She choked while chewing on a bone last night. With the aid of the Pontiac Fire Department, who was rushed to Pontiac General Hospital.

X-rays revealed no bone in her throat, technicians told her parents. Mr. and Mrs. Jack Rodden, Deborah went home, suffering from a slight cough.

Cyclist Hospitalized After Street Accident

Struck by a car while riding his bicycle yesterday, Richard Van Trease, 14, of 650 E. Beverly Ave., is listed in good condition today in Pontiac General Hospital.

He suffered cuts, bruises and a broken elbow, authorities said.

The driver, Jack A. Lewis, 19, of 1081 Stanley Ave. said the boy suddenly pulled out into Montclair avenue east of Glenwood avenue at 1:30 p.m., according to Pontiac police.

Richard was thrown against a parked car, they added.

Rochester Man Injured in Collision on Highway

A Rochester resident, 19, sustained slight injuries in a two-car accident on Rochester road, one mile north of Rochester early yesterday.

Edward G. Grabman was treated for head cuts and hip injuries in Rochester, Oakland County Sheriff's deputies said.

An on-coming driver, Richard F. Kincannon, 17, of Royal Oak told deputies his car went across the center lane on a curve and rammed into Grabman's car.

Argentine Takes Lead

HOYLAKE, England — Argentina's Enrique Bertolino took the lead in the British Open Golf Tournament with a 36-hole total of 141 today as he escaped the worst of the windy, rainy weather that shattered Mike Souchak's hopes.

Souchak, the powerful ex-football player from Grossinger, N. Y., fought his way through driving rain and gale force winds to score his second 74 and reach the half-way point with an aggregate of 148.

Bertolino, who had a 69 to finish the first round, the Welsh professional champion, shot 34-38-72 later in the day when the wind and rain had abated.

Oh, What Joy to Hear English Once Again!

By PHYLLIS BATTELLE
NEW YORK (INS) — Foreign travel is very broadening (you eat a great deal to keep up strength). It is also restful (you spend much time in bed with confused stomach from the change in water), and some find it profitable, too (you can buy stuffed alligators and wild boars' teeth for a pittance).

Foreign travel makes you tolerant of the peoples of other lands (if you don't understand what they're saying, what's to be intolerant of?), and certainly it gives you pause to think (in cus-

toms offices alone, the inactive pause is worth two week's meditation time in New York). But the greatest benefit of traveling to foreign lands is the resurgence of life, love and good humor that overcomes you when, once again, you touch toe upon the United States.

Sweet, familiar home. Adrenalin was never like this. After two weeks of roving through South American lands where Spanish is the language of tongue and pen, and bewilderment is the continual state of the English-speaking tourist, it is glorious

to hear those time-honored words: "Okay, lady, which're yer bags?"

TRUTHFUL NEWSPAPERS

And then, when you have declared your stuffed alligator and been cleared of suspicion of small pox and yellow fever, what joy to buy a newspaper whose headlines you not only can understand—but can believe.

You do not realize, until you have spent time in countries where the news is controlled, and where the front pages are filled with advertisements and presidential prop-

aganda, what it means to read a U. S. paper.

Until you've been out of the States, you skip over a newspaper and complain about politics and hate gossip columnists.

Now you read and delight in everything.

Mickey Mantle is still hitting homers and to read about them, after a two-week hibernation from baseball, is to be present in Yankee Stadium, helping him punch them out.

The weather, says the lower left-hand corner of the front page, will

be warm and humid. How delightful; how typically New Yorkish.

The Democrats and Republicans are wrangling. Marilyn Monroe and Arthur Miller are selling their house, the price of pork is going down, the scalper price of "My Fair Lady" tickets is going up. Ike is in his farmhouse and God is in His heaven.

You were starved, that was the trouble, for the American language. Now, with a newspaper in your lap, you are comfortably approaching home.

The taxi stops, and the driver points. "This your joint?"

It sure is . . .

Steel Strike May Hurt State Highway Plans

LANSING (U) — The steel strike is not expected to have any immediate effect on the state's road building program, Highway Department officials said.

"If the strike is over soon it won't make any difference in our plans at all. But if it's a long one, we could be in trouble," said Carl A. Weber, deputy highway commissioner.

Weber said the department orders most of the steel needed for bridges and other highway structures from 12 to 14 months in advance of the time work starts on a project.

The next deliveries are sched-

uled in November, he said, so that the strike could not have much effect on work scheduled for this summer.

"If the strike drags on for months, however, it could hold us back," Weber added.

Oh! A Fireman's Life

BIG LAKE, Minn. (U) — The volunteer fire crew never dreamed there were so many things in Big Lake that could burn. They got their first alarm at 2 p.m. and kept spraying water steadily until midnight. Their assignments included a grass fire, a burning cottage, another grass fire, one at a brooder house and barn, a flaming car and a third grass fire. Then the car broke out in flames again and had to be doused for good.

Neighborliness in Cities Still Is Prevalent

SPRINGFIELD, Ohio (U) — Today's cities are not as impersonal, anonymous and cynical as they're supposed to be, says a Whittenberg College sociologist, Dr. Karl H. Hertz.

In a Springfield survey, he found the average person knew at least 75 per cent of the other people in his block. A kind of "impersonal neighborliness" is emerging in today's city, Hertz says. "It lacks the close personal relationships we associate with rural communities, but it's there."

"Impersonal neighborliness" means exchanging favors and possessions without taking an active interest in the other fellow's personal or social life, he explains.

100 Spas in France Have Mineral Springs

PARIS—France has some 1,200 mineral springs and more than 100 spas or "thermal resorts" where persons can "take the waters."

The spas have been popular with prince and peasant alike since the Roman Empire. The course of treatment usually takes 21 days. The season for bathing in the springs begins in May and ends in October.

Danish Scientist Made First Aluminum Pellet

COPENHAGEN—Aluminum was discovered in 1807, but it was not until 1825 that the first pellet of aluminum was actually produced, by the Danish scientist Oersted, and not until 1845 that the German

scientist Wohler was able to produce enough to determine its specific gravity and thus establish one of its outstanding characteristics—lightness.

The Pup Escaped

AURORA, Ill. (U.S.)—Mrs. Russell Freeman, 67, and Mrs. Jennie C. Olson, 70, were in a car driven by Mrs. Freeman. Mrs. Freeman and Clifford Johnson, 40, driving a truck both swerved to avoid a small dog crossing the highway.

Both missed the dog but they collided head on. Mrs. Freeman suffered a dislocated right leg, and Mrs. Olson received chest and rib injuries as well as a fractured hip. Johnson escaped injury.

FOR ATHLETE'S FOOT USE A KERATOLYTIC BECAUSE— It is an agent that dissolves and peels off infected skin. Exposes more germs to the killing action. Get instant relief. It is pleasant in ONE HOUR, your feet are back to normal. Today at Himm's Bros. Drug Dept.

Delivers Mail by Water Route

Sometimes a Pleasure, Sometimes a Hazard on Hamlin Lake

LUDINGTON (U.S.)—Rural postman Lloyd Davids covers a mail delivery route that is sometimes a pleasure—sometimes a hazardous adventure.

Davids drives a 20-foot motor boat delivering mail to about 100 dockside mailboxes on Hamlin Lake.

He and his wife have had the delivery contract for the past five years.

The Hamlin Lake route opened in 1930 and resumes each year from June 15 to Sept. 10. Davids and his wife spend up to four hours daily, except Sunday, in servicing the route.

In addition, they operate a resort on the lake and Mrs. Davids teaches school in Milliken, near Lansing, during the winter months.

Davids says they never have missed carrying out their deliveries, although storms sometimes make it a dangerous job. He recalls one particularly rough time last year off dead man's point.

BOAT ON ITS SIDE

Davids related that storm-whipped waves threw his boat completely out of the water and over on its side. He bent the steering wheel in efforts to hang on. Fortunately the craft righted itself and withstood the storm, he said.

One of their best "customers," he says, is Camp Douglas Smith—a children's camp—to which parents continually send blankets and sleeping bags.

Europe's Jewry Sees Problem of Survival

PARIS (INS)—A meeting of Jewish leaders has been told that after surviving other dangers European Jewry today faces the problem of survival as a social and cultural entity.

Moses A. Leavitt of New York City, American Joint Distribution Committee executive chairman, said that Jewish communities were weakened by years of war and persecution. He spoke at a joint meeting in Paris of the AJDC and the Conference on Jewish Material Claims Against Germany, of which he is treasurer.

"Capital investment is an investment in Jewish survival," Leavitt said. "We don't want to erect monuments. We want to erect or help maintain institutions that will make Jewish life richer, fuller, and, we hope, more Jewish."

The Claims Conference manages reparations funds awarded to Nazi victims. The AJDC maintains an aid program for needy Jews in 25 countries.

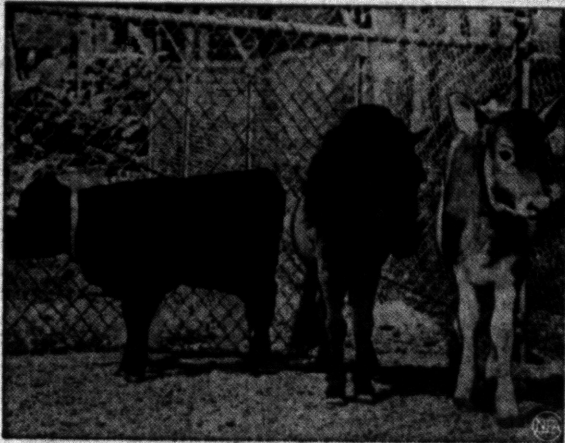

Needs Another Lesson

ALBUQUERQUE, N. M. (U.S.)—Mrs. Oscar Turner, 26, just learning how to drive, backed her car across a vacant lot, through a brick wall and into a swimming pool. She and a passenger, Mrs. Bernice King, had minor injuries. Mrs. Turner's son, Jack, 2, was uninjured.

Happy Is The Day When Backache Goes Away

Heading backache, headache, or muscular aches and pains may come on with over-exertion, emotional upsets or day-to-day stress and strain. And folks who eat and drink unwisely sometimes suffer mild bladder irritation...with that restless, uncomfortable feeling. If you are miserable and worn out because of these discomforts, Doan's Pills often help by their pain relieving action, by their soothing effect to ease bladder irritation, and by their mild diuretic action through the kidneys—tending to increase the output of the 15 miles of kidney tubes. So if aching backache makes you feel dragged-out, miserable, with restless, sleepless nights, don't wait, try Doan's Pills, get the same happy relief millions have enjoyed for over 60 years. Ask for new, large, economy size and save money. Get Doan's Pills today!

MINIATURE — Three-week-old Dexter calf, left, and a five-week-old Guernsey calf, right, bracket a 1 1/2-year-old horse, "Maggie," on the N. Clarkson Earl farm near Ridgefield, Conn. The Earls hope to mate the tiny animal with a nine-year-old miniature stallion imported from England to establish a line of miniature horses in this country.

Security for You

Employing Home Help? Then Follow These Steps

By RAY HENRY
AP Writer

My next-door neighbor was in a mild spin the other day because she'd hired a maid to help her with the housework. She didn't know what to do about the maid's Social Security. And, she was afraid she'd get into trouble with the government if she didn't do something immediately.

The maid didn't know what to do either. She just knew the Social Security tax had been taken out of her pay at the place she'd worked before.

My neighbor was relieved to find that the Social Security administration has made it simple for people employing household help to meet the problem. After first deciding whether the payments have to be made at all, there are five simple steps to follow.

Here's the story:
If you pay \$50 or more in cash wages every three months to a household worker, you must take the five steps. Included among household workers are cleaning women, cooks, laundresses, chauffeurs, gardeners, baby sitters, nursemaids, handymen.

It makes no difference how many days you employ the household worker. And, it makes no difference how many other persons the employee works for.

The first step is to inform the Internal Revenue office in your area that you employ for example, a maid who comes under Social Security.

You can do this with a special form from your Social Security office, but a postcard or letter will do. The office you inform should be the same one with which you file your income tax. Why this step must be taken will be obvious from

later steps you must take.
Your second move should be to ask your maid for her full name and Social Security number. (A booklet entitled "Facts for Household Workers" which you can get from any Social Security office may help you to explain to the maid why you need the number and what Social Security means.)

Step three involves deducting two per cent of your maid's cash wages for her share of the Social Security tax. If your maid objects to paying her part or if you don't want to make the deduction from her pay, you may pay out of your pocket the amount you should deduct. Keep a record of the wages you pay.

The fourth step is filling out a special form at the end of each calendar quarter which the Internal Revenue office will send you. Compute from the wage record you've kept, how much tax you owe the Social Security. The amount must be four per cent — two per cent for your maid and two per cent from you as her employer — of the total cash wages you've paid. Return the completed report and your tax payment to the Internal Revenue office.

Then, as the final step, at the end of each calendar year give your maid a written report showing:

1. The total amount of wages you've paid her during the year, and
 2. The total amount of Social Security tax you've withheld from her wages.
- (You may write Ray Henry in care of this newspaper about your Social Security or retirement problem. Please enclose a stamped, self-addressed envelope and 25 cents in coin.)

Triangle Mystery Watch Operates on Swing Shift

DAYTON, Maine (U)—Joe Zilenski has an odd, fan-shaped watch, but it won't tell him anything but the time and that's not what the 39-year-old farmer wants to know.

Instead of a round or square face, the watch has a dial like an automobile gasoline gauge. It runs from left to right and the stubby hands spring back to the left to start their journey to the right anew after every cycle.

What Zilenski wants to know is why would anyone make such a watch?

He has tried to get the answer. He started by asking the Connecticut home-owner on top of whose trash barrel the disabled chronometer was found back in 1932.

He got nowhere. So he tried watchmakers everywhere he was stationed while he was in military service for more than four years.

REFUSED \$500 OFFER

Joe spent \$38 to have the watch repaired. He says he has refused a \$500 offer for the curio from a New York jeweler. The latter didn't know anything about it either.

The watch has a 21-jewel movement. Exterior markings include engraved lilies, a pastoral scene and the words "Holy Friars," which he believes means Holy Friars. Inside are two engraved peacocks.

Zilenski says the watch may have been a gift to someone in a religious order and that it was meant to be carried around the neck.

The face bears the name "Electro Watch."

The only clue to its origin has been advanced by Louis E. Albert, a Portland jeweler. Albert auditor general in May.

PUZZLE — Why should anyone make this kind of watch, asks Joe Zilenski.

He saw the picture of a similar watch once in a magazine. It was one of a collection of old timepieces and was described as an English-made Sector, also known as "The Flirt."

State Liquor Examiner Appointed by Williams

LANSING (U)—Joseph J. Pernick, 32, Detroit lawyer, has been named a member of the board of hearing examiners of the State Liquor Control Commission.

The appointment was announced by Gov. Williams. Pernick was named as successor in a post occupied by Frank S. Szymanski until his appointment as state lead pencil for marking storm windows and screens.

U.S. Magazine Facing Ban in South Africa

CAPETOWN, South Africa (U)—Customs Authorities in Capetown have held up import of the July 2 issue of the U.S. weekly magazine Newsweek, pending a decision by censors on whether the issue is to be banned.

The cover carries a portrait of South African Premier Johannes Strijdom with a Negro child in the background. Inside there is a 3½-page article titled "African showdown: The Boer Strijdom puts white mastery to the test."

There is a special weather-proof lead pencil for marking storm windows and screens.

HOPES TO SOLO TO MOSCOW—Max Conrad, to youth of the Soviets. Four of Conrad's hops in right, veteran of five solo Atlantic crossings, shows included stopovers. His New York-Paris solo in Sen. Hubert Humphrey (D-Minn.) route Conrad 1954 was made nonstop in a light, two-engine plane. proposes for a non-stop flight to Moscow in August. The Winona, Minn., flier is shown with the senator bearing with him letters from young Americans in Washington, D. C.

Walnut, pecan and hickory nuts say horticulturists at Purdue Uni- Algeria has a 620-mile coastline facing France.

Portuguese Offer Cheap Tourist Rates

NEW YORK, N. Y. — Portugal offers the tourist some of the lowest prices to be found anywhere in Europe.

The Portuguese escudo ranks with the Swiss franc and the American dollar as the strongest currency in the world.

A double room with meals in Portugal's finest hotel costs only \$14 a day, and a cup of coffee at a sidewalk cafe goes for as little as three cents.

A fare of about two and a half cents entitles the visitor to a ferryboat ride around the capital city of Lisbon, and less than one cent is the price for a trip on a cable car.

One of the largest visitor attractions in Portugal is the ancient fishing village of Nazare. Here, a tourist can get a handknit, turtle-necked sweater for about \$4 or a souvenir fishing cap for about fifty cents.

Detroit Opens Haven

DETROIT (U)—A new \$300,000 Mariner's Inn, Detroit haven for homeless men, has opened for business. The old quarters is being razed after 30 years to make room for a plaza near the city's waterfront civic center.

Named to NEA Board

PORTLAND, Ore. (U)—William A. Comar of Hillsdale was nominated as Michigan member to the board of directors of the National Education Association.

ONE-TRACK MIND — Chains no longer blind him, but "Pepper" keeps to the track he wore in the back-yard turf as a tethered pup. Owner Wally Sulander of Minneapolis, Minn., watches the 1½-year-old canine victim of the daily grind.

2 Thieves Commit Suicide As Police Close Up Trap

LAWRENCE, Mass. (U)—Authorities said today a pair of bungling jewelry store robbers took their own lives rather than surrender after police trapped them in an attic.

The dead men were identified as Warren Dockham, 34, of Malden, a salesman of aluminum windows; and his nephew, Richard P. Witham, 20, of Boston's Roxbury section.

The identifications were made by Dockham's 34-year-old bride of two months, Rita.

Dr. Joseph A. Jachimczyk, state pathologist, said an autopsy showed Witham shot himself in the mouth and Dockham shot himself in the right temple.

The bodies were found by police Tuesday night about an hour after the two men were routed from an Amesbury street jewelry store by James R. Kay Jr., 36, son of the proprietor.

Kay said he had intended to hand over jewels the men demanded but became infuriated when the robbers beat him on the head with their pistols.

Despite head wounds, Kay pulled a pistol from a drawer and fired on the two men as they fled. One of the shots struck Witham on the hip.

The pair by-passed their car, parked nearby, and ran into a three-story house, taking refuge in the attic.

Police exchanged several shots

with the pair and then fired tear gas into the hideout. Later police burst in and found the two bodies sprawled near each other on the floor.

Richard Zartanian, proprietor of the Central Loan Co., Lynn, identified Dockham and Witham as two of three men who robbed him and his daughter, Mrs. Jessie Marokian of Lowell, of \$10,780 last May.

Police said Dockham had registered his car at Jacksonville, Fla., where he spent a short time earlier this year.

Both Dockham and Witham had police records, authorities said.

Boats Need Chemicals

BOSTON — Pleasure boats are supplying one of the fastest-growing markets for a host of chemicals and are expected to send profits on some chemicals to record levels this year. These craft last year used some 5,600,000 gallons of special paints and varnishes, 160,000 pounds of nylon lines, and 460,000 gallons of liquid detergents.

Radar Spots Lightning

HONOLULU — For the first time radar has spotted hidden lightning flashes, some of them 100 miles long, it was reported at a recent American Meteorological Society meeting in Honolulu. The lightning strokes had previously been hidden from direct observation by clouds.

Commies Maintain Hold Despite Change

By JOHN M. HIGHTOWER
WASHINGTON (U)—Moscow's iron fist is beginning to show through its anti-Stalin propaganda.

Those like Secretary of State Dulles who rushed to claim victories for the West in the current internal Communist upheaval may well prove to have been premature, at least.

Reports from behind the Iron Curtain today provided U.S. officials, including Dulles' own State Department experts, with evidence that the wordy but serious crisis over ideology which has shaken the Communist camp to its dialectical foundations has not weakened nor even gravely threatened its real power.

Though holdouts may yet boldly appear, there are signs that lesser Red chieftains are prepared to follow the Moscow leadership through present policy reverses just as they follow Stalin when he purged old friends in the 1930s and made his turnabout pact with Hitler on the eve of World War II.

Heads 'Youth of Unity'

LEE'S SUMMIT, Mo. (U)—Charles Butterworth, 18, Detroit, was elected president of Youth of Unity at the organization's 20th annual conference yesterday.

and made his turnabout pact with Hitler on the eve of World War II. Here are the signs:

1. In Warsaw the Red regime has created a special commission to investigate last week's Poznan riots, and purge leaders of the workers who demonstrated for bread and liberty. Reports are that hundreds have been arrested and some already shot. Ruthless use of naked power to purge critics in the Stalinist manner does not suggest that the Polish regime is about to relax its hold and reform its political and economic policies.

2. In Italy Palmiro Togliatti, veteran Communist leader and

close friend of the late Joseph Stalin, approved "without reserve" the anti-Stalin drive of the Khrushchev. Despite his earlier strong criticisms, Togliatti also indicated he would accept a Soviet whitewash statement on the Stalin situation, issued Monday.

3. Radio Moscow reported that the Red high command is blanketing the Soviet Union with "agitators" — a Red term for propagandists — to carry forward and explain the downgrading of Stalin. The action suggests a central control of political thought of the type which was characteristic of the Stalin period.

4. A Budapest radio commentator said that from now on his country will pursue a "policy based on Leninism-Marxism and in line with the tradition of the country." This was regarded by officials here not as a defiance of Moscow, though superficially it might seem to be, but as straightforward acceptance of the new Kremlin line of greater freedom of action for Communist parties in all countries.

Japan's 1955 rice crop totaled 32,505,000,000 pounds, an increase of 30 per cent over the previous year.

Leaps Bullfrog Fine

NASHVILLE, Tenn. (U)—Fred Todd pleaded guilty to illegal possession of a bullfrog and a conservation agent told General Sessions Judge Brown Taylor there is a \$25 minimum fine for possessing a bullfrog in mating season. Taylor dismissed the case and observed: "I am not going to fine any man \$25 for just having a bullfrog!"

Mail Speeded Up

WASHINGTON — The handling of publishers' mail has been speeded by discontinuing bulk weighing of every mailing. Now the total weight of the over-all mail shipment is computed from statements of the copies involved and verified by taking sample weightings of mail loads selected at random.

Silver-Spooned Gothamite Off to Amazonian Jungle

NEW YORK (INS)—Young Ivan Obolensky has left wealth and comfort behind to help record and decode a strange and perhaps archeology-shaking "river of writing."

The slim, 31-year-old New Yorker—born of Russian nobility and the famed Astor fortune—is vice president of the Amazonia

Foundation, and one of an eight-man expedition which has set out for the plateau of the Aymara tribe and nearby areas in the mountainous border area of Bolivia and Peru.

There on boulders and cliffs of a small tributary to the world's mightiest river, explorers have found undeciphered writings.

These writings, Obolensky said before his departure, seem to have characters and symbols resembling those of Chinese script. He added:

"They may lead us into a new world. They may provide the key to the ages-old civilization whose culture and technological progress will stagger us."

WORKS ON NOVEL
Obolensky, intense and energetic, was born with the much-maligned "silver spoon." He is the grandson of the late John Jacob Astor, who went down in the Titanic disaster. His father is Serge Obolensky, one-time Russian prince and a New York hotel executive.

He wed Claire Elizabeth McGinnis, daughter of the late Felix S. McGinnis—a self-made western railway magnate—in 1949. They have three children.

The young husband, silver spoon or not, sat down to five years intensive work on his first novel, "Rogues' March," to be published soon by Random House. He is active in many philanthropic and charitable organizations.

A VICE PRESIDENT

He recently became vice president, under President George Michanowsky, of the Amazonia Foundation. Michanowsky is a former professor of comparative civilizations, and is leading the expedition in South America.

Obolensky said the undeciphered writings "are the only evidence of the people who once lived there. They seem to have known that a great disaster was imminent. In several places the writings are exactly the same. It is as if they wanted to leave a message and wanted to be sure that we saw it."

"The indications are," he said "that the mountains may have flung up when the people lived there. The upheaval may have wiped out all but a remnant of the race."

Loudspeaker System Quiets Crying Baby

ELK CITY, Okla. (AP)—Holly Jean Hancock, infant daughter of the pastor of the First Baptist Church here, had been crying every Sunday when she was left in the church nursery.

However, the attendants in the nursery soon found a way to make the child coo—they switch on the public address system, and when the baby hears her daddy's preaching voice she is perfectly happy.

Journalistic Fraternity Cites Lansing Chapter

MADISON, Wis. (AP)—The Lansing, Mich., alumni chapter of Theta Sigma Phi, national professional and honorary fraternity for

women in journalism, received an alumni-at-large award at the group's 24th national convention here. Wayne University, Detroit, was cited for an outstanding student chapter.

New Alma President

ALMA (AP)—Dr. Harold C. Vandenberg has been named acting president of Alma College. He succeeds Dr. J. Stanley Barker, recently appointed president of Grove City (Pa.) College. Vandenberg

Bosch, former administrative assistant at Wayne University, will serve until the Alma board of trustees makes a permanent appointment.

A flapper is a male copper worker.

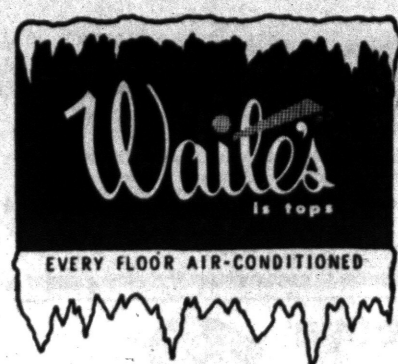

Marquette Plant Closes

MARQUETTE (AP)—A month-long shutdown of the Marquette plant of Munising Wood Products Co. was announced this week. The company said the layoff was due to a combination of "seasonal

fluctuations" in business, vacations and extensive repairs to equipment.

Some 30,000 suggestions are made annually by British railway employees for improving traffic conditions.

OKAY THERE—Checking a patient in the out-clinic is nurse, Capt. Jean Coakley from Harper Hospital in Detroit. Camper Marina Crum from Sodas, N. Y. says, "But all I came for was a band-aid. I cut my hand!"

SICK BED STAY—A letter home about life in a Girl Scout camp hospital comes from patient Sydney Woolworth of Berkeley, Calif. She writes "I've been here since Friday with tonsillitis. I can hardly wait to get out." Friends keep Sydney posted that she's missing out on quite a few activities!

Girl Scouts Camping Out in Hospital, Too

By JANICE MAYHOW

Two weeks camping in the "wilds" of Michigan plus having the honor of attending the first national Girl Scout Roundup isn't such great stuff to eight patients at the camp hospital in Highland Recreation area.

And talk about hospital! In the midst of 1500 acres of woodland the 323 General Hospital, Army Medical Reserve Unit from Detroit moved in and set up complete hospital facilities for the 5,000 campers and their 1,000 leaders.

Col. Wesley G. Held, M. C. is commanding officer for the staff of 185 persons.

On duty for the two weeks period are 100 enlisted men, 20 nurses, 20 doctors and 15 administrative officers. They man every kind of operation from X-ray and dental work to optometry, attending hospital wards, physical therapy section, laboratory and pharmacy.

The medical unit even comes complete with surgical tent for service plus the promise of four outside hospitals standing by in case of necessity.

These include St. Joseph Mercy Hospital, Pontiac General Hospital, Beaumont Hospital in Royal Oak and the University of Michigan Hospital at Ann Arbor.

Everything equipment-wise folds into boxes, into crates, iron carriers or some such carrying case for quick and easy transportation.

If they run out of space for some department, they just haul up another tent. All tents are complete with electricity and running water.

The medical unit operates five first aid stations in each of the five camps. Twenty dispensaries are furnished throughout the camp grounds by the Girl Scouts.

Work so far for the 155 men staff hasn't been too bad. Col. Held reports. One girl was taken to Pontiac General Hospital with

suspected appendicitis but luckily she didn't have it.

"We've treated many cases of sunburn, sore throats, heat rash and the many cuts and bruises campers can obtain putting up tents and pounding in stakes," he added.

As of Monday 456 girls had been treated in the out-patient clinic, 35 admitted to the hospital for treatment and 5,428 checkups given to campers and staff.

The only people not too happy about the hospital, about camp or the great state of Michigan were the eight spending their hours in the hospital.

One Washington state advocate said she was convinced the one thing that would cure her, was an apple from Washington. "That's the only way to keep the doctor away," she sighed.

St. Augustine's Fort Saved City 3 Times

ST. AUGUSTINE, Fla. — St. Augustine was settled by the Spaniards in 1565 and burned and looted by Sir Francis Drake in 1586. English pirates plundered the settlement again in 1688.

Erection of Castillo de San Marcos in 1672 ended the town's troubles in this respect. The fort withstood three English attacks.

More than 700,000 miles of rural U.S. highways were surfaced from 1920 to 1935.

Wilson's Crash Box to See Tito at Opera

By EARL WILSON

KIEV—Tito got his show on the road—playing the Russian sticks—and my son Slugger and I were amazed at how little protection was being given the head Jug.

We practically fell into the dictator's lap when he and his beautiful wife—and she is—went strolling off to the opera. A few hundred soldiers were standing at ease in front of the opera house. The show was half over.

"Keep walking—don't stop," I advised Slug.

Walking right past the army we crashed the front door. When the woman ticket taker asked for our tickets we pretended we didn't understand her—in fact, we didn't.

Just as though we knew what we were doing, we strode into a first-floor box—and saw Tito, in uniform applauding the actors at the intermission.

And the actors up on the stage began clapping for him.

"Let's go to his box," I said to Slug. "He'll probably be having a drink or a smoke."

He was. All I had to say was "Americaneeske journalist-kee," and we were in a nest of Russky photogs with Rollei-flexes, strobelights and other modern gadgets. In fact, there were two TV cameras in the audience, and a girl told me later, "I saw Tito on television."

Suddenly he swung out of the bar back to his box with his smiling wife, who was in a long, black dress.

He waved to the pop-eyed crowd in the lobby—including the Wilsons, who were almost standing on their toes.

One Russian of semi-official status was remarkably frank when I asked him about Tito's other plans here: "The Council of Ministers makes his plans and prints them in the paper the day after he does them, and that's all we know."

"Is he staying at a villa?" I asked.

"Three villas," he said.

"But the photographers seem to know his plans, because they are going with him."

"In my opinion they are not going with him—they are following him."

"Is he going to the Intourist hotel?" I asked.

"I don't know that, too," he said.

"There must be a press secretary for the Council of Ministers," I said. "Can I get his phone number?"

He looked at me wearily. "You get it?" he exclaimed. "We can't even get it!"

THE MIDNIGHT EARL IN N.Y. . . .

Jerry Lewis was greeted loudly in Toots Shor's, and Jackie Gleason said in mock surprise, "Why all the commotion, for half an act?" . . . RKO wouldn't let its blond Diana Dors attend a big party here until assured Jayne Mansfield wouldn't be around to hog the cameras.

Lenny Kent's doing so well at the Copa that one of his ex-wives wants the alimony boosted . . . Jack Dempsey leaves for H'wood July 14 to be technical adviser on his film bio . . . Tony Curtis carries his own baby pictures around, to prove that his new young'un looks like him . . . Dee Drummond, a pretty singer, is wanted for the lead in the upcoming show "Angles and Curves."

Piper Laurie and Cleo Moore are on a no-makeup kick—just clean faces and a smile . . . Tiny Jo Sullivan (5 feet tall) stood on a chair at "Most Happy Fella" to be photographed with Gregory Peck (6 feet).

DEE

Earl's Pearls . . .

Medical science does such queer things that any day now we expect to read that snake-bites are being used to cure the liquor habit.—Nuggets.

WISH I'D SAID THAT: These days a real friend is one who'll visit you even if you don't have air conditioning.—Alan Dale.

TODAY'S BEST LAUGH: They tell of the thrifty umbrella manufacturer who's saving his money for a sunny day.

"By the time a man understands women," sighs Hal Chadwick, "his wife won't let him out of the house night." That's earl, brother.

Geographic Issues Map of Alaska Area

WASHINGTON — In the Aleut tongue the word "alashka," which gave Alaska its name, means "big land" or "mainland." Today that American frontier is not only big, it's booming.

Population has nearly tripled in 16 years, from 72,524 in 1940 to more than 208,000 in 1956, the National Geographic Society reports. With plenty of room for more, Alaska still boasts 2.8 square miles per person — it now holds an optimism as broad as its boundaries of

forests, farmlands, fisheries, oil and mineral deposits, scarcely tapped.

The new National Geographic Alaskan map and text, based on recent aerial surveys, charts the Territory with accuracy never before possible. Insets reveal extent of the mapped region, as broad as the United States itself.

Peak Jewelry Exports

LINZ, Austria — Austria exported about 90 per cent of its 1955 costume-jewelry production. The exports were worth approximately \$7,500,000, a new record. Four times as much of this jewelry was bought abroad last year as in 1950.

THE BERRYS

By Carl Grubert

Germans Can Dial for Jokes, Newscasts

BONN—You can learn just about anything over the phone in Germany these days by dialing special numbers. You can get weather reports, correct time, jokes, new recipes, fairy stories for the kiddies' bedtime, sports results, and theater information.

The newest addition is news-

casts—3-minute summaries of late news are given 24 hours a day in Cologne, Dusseldorf, Kiel, Coblenz, Luebeck, and Muenster.

Greek Currants Down

ATHENS — Greece produced 63,000 short tons of currants in 1955, a drop of 14,000 tons from the year before and some 25,000 tons below the 1948-52 five-year average crop.

Norway Takes Pride in Town Hall of Oslo

When the severely modern municipal building in Oslo was completed, the Norwegians humorously likened it to gjetost, the popular goat cheese which is the same shade of brown and served in rectangular blocks.

Since then, other modern buildings have grown up around the

Rodhuset, or Town Hall, and now Norwegians, accustomed to the functional architecture, point with pride to their "goat cheese." The building boasts the largest clock in Europe and several of the largest murals in Scandinavia.

India's new railway equipment plant at Perambur is expected to be able to produce 350 railroad coaches a year within five years.

German Cargo Ships Gain by 400,000 Tons

BONN — The West German merchant marine today has more tanker and tramp-ship tonnage, though less liner tonnage, than the German shipping lines owned before World War II.

At the start of this year the total freight tonnage was 2,630,000 —

not counting coastal and fishing vessels—an increase of 400,000 tons during the past year.

U. S. Grant to Brazil

BELO HORIZONTE, Brazil — The Rockefeller Foundation has granted \$339,000 to help the University of Minas Gerais, Belo Horizonte, expand its medical school, the fourth oldest in Brazil.

PENNEY'S

Grain Market Wheat Steady

CHICAGO (AP)—Wheat held steady in an otherwise irregular grain market on the Board of Trade today.

Grain men said there appeared to be a little additional buying in wheat based on flour business but that demand from this source was not very large.

Corn and soybeans worked lower, particularly the new crop months. Favorable crop growing weather and a private estimate of bumper production of these grains was behind the selling.

Wheat near the end of the first hour was 1/4 lower to 1/4 higher, July \$2.04 1/2; corn 1/4 to 1/4 lower, July \$1.45 1/2; soybeans 1/4 to 1/4 lower, July \$12.72 1/2; lard 5 to 10 cents a hundred pounds higher, July \$10.25.

Blue Cross Offers One-Year Program

DETROIT (AP)—A full year of hospital, medical and surgical care is offered to groups of 50 or more in a new plan just announced by Michigan Blue Cross-Blue Shield.

At present the basic group contract covers only four months or 120 days.

The additional coverage, including hospital and doctor bills, will cost nine cents more a month for single subscribers and 17 cents a month for a family.

William S. McNary, executive vice president of Michigan Blue Cross, said present group contracts can be extended to a full year's coverage through special 245 day "riders."

WANTED

3 professional men to share space in downtown, on North Saginaw. Phone FE 4-7071

MARKETS

DETROIT, July 5 (AP)—Eggs, P.O.B. Detroit, cases included, federal-state graded: Whites—large 40-45, weighted average 40 1/2; extra large 47; large 47 1/2; medium 45 1/2; small 43 1/2; extra small 41 1/2; Grade B large 38-40, weighted average 39 1/2; extra large 41; large 41 1/2; medium 39 1/2; small 37 1/2; extra small 35 1/2; Grade C large 35-37, weighted average 36 1/2; extra large 38; large 38 1/2; medium 36 1/2; small 34 1/2; extra small 32 1/2; Grade D large 32-34, weighted average 33 1/2; extra large 35; large 35 1/2; medium 33 1/2; small 31 1/2; extra small 29 1/2.

Comment: Market full steady. Prices unchanged to one cent higher; receipts short on extra large and jumbo sizes and short on top quality nearby packs. Ordinary quality packs appear ample but not burdensome. Demand fairly active. Some midwestern commercial grades large A whites taken in at 24 1/2 cents and large A browns at 34 cents.

CHICAGO BUTTER AND EGGS
CHICAGO, July 5 (AP)—Chicago Mercantile Exchange: Butter steady; whole-cow buying prices unchanged; receipts 1,000,000; A.A. cream 34 1/2; A 34 1/2; B 34 1/2; C 34 1/2; D 34 1/2; E 34 1/2; F 34 1/2; G 34 1/2; H 34 1/2; I 34 1/2; J 34 1/2; K 34 1/2; L 34 1/2; M 34 1/2; N 34 1/2; O 34 1/2; P 34 1/2; Q 34 1/2; R 34 1/2; S 34 1/2; T 34 1/2; U 34 1/2; V 34 1/2; W 34 1/2; X 34 1/2; Y 34 1/2; Z 34 1/2.

Wing Bros., Now Eighty, to Mark Twin Birthdays

HASTINGS — The double thrill of a twin birthday is expected to be greatly magnified next Sunday in an open house celebration at nearby Coates Grove Church as the Wing Brothers mark their 80th birthday.

Rev. Fay C. Wing, for 12 years the pastor at the church, and his twin, Jay C., eagerly look forward to the celebration.

Spry and alert, despite their years, the two still look enough alike to confuse casual acquaintances.

"When we were young," says Rev. Wing, "a farmer neighbor of ours near Cascade used to use both our first names in addressing us. He called us both 'Fay-Jay' when he met either of us alone—that way he knew he was at least half right."

The brothers were born in St.

Legislators to Hear Anti-Nudist Pastor

BATTLE CREEK — The Arkansas minister who fights nudism is returning to Michigan to appear as a witness before a legislative hearing.

The Rev. Braxton Sawyer of Fort Smith, Ark., has been invited by Rep. Peter J. Kelly (D-Detroit) to give testimony on Kelly's anti-nudist bill.

On a visit to Michigan two years ago Sawyer was ejected from a nudist camp near Battle Creek. He has toured the country in a campaign against nudism.

Kelly said he is going to reintroduce his bill as the result of a recent incident at the sunshine gardens camp near here. Four men and two women, arrested at the camp Saturday, are to be in court Monday on indecent exposure charges. Kelly's bill failed once before.
