Coed Disappearance Still Puzzles Police

Father Arrives in Ann Arbor to Join Search

Appeals on Television for Information About Girl Missing 10 Days

ANN ARBOR (AP) — The disappearance of a 20-year-old blonde coed from the University of Michigan campus 10 days ago was still a mystery today.

Herman Agler of Susquehanna, Pa., joined Ann Arbor Police in an attempt to find his attractive daughter, Barbara.

The 42-year-old life insurance salesman told police that Barbara appeared to be in good spirits when he last talked to her by phone Jan. 17, the night before her disappearance. She is one of five children.

Appearing on a television newscast in Detroit last night, Agler appealed to Barbara to get in touch with her parents "if she is listening."

"Amnesia (loss of memory) is a possibility but not a probability," Agler said.

Agler said a search of Barbara's room at a private rooming house in Ann Arbor failed to provide any clues. He said she apparently had taken no extra clothing with her.

Barbara, a junior, was majoring in physics. Her father said she was studying for a career in atomic research.

Agler criticized the university for not reporting his daughter's disappearance to police.

He said police first learned she was missing when he telephoned from Pennsylvania last Friday, shortly after he was notified by the college.

University officials said they notified the family last Monday by letter. Agler said the first word he received was when Dean of Women Deborah Bacon telephoned him last Friday.

Israel Spurns Dag's Proposal

Sticks by Own Plans to Keep Egyptians Out of Disputed Areas

UNITED NATIONS, N.Y. (AP) — Israel today stuck by its own proposals to keep Egyptian troops out of the Gaza Strip and the Gulf of Aqaba coastline.

It denounced U.N. Secretary General Dag Hammarskjold's suggested solution as an attempt "to restore a regime which has already ended in disaster."

Egypt still insisted on Israel's unconditional withdrawal, from all Egyptian territory as the 80-nation General Assembly took up Hammarskjold's report that Israeli invasion forces had "not fully complied" with five Assembly requests to return to their 1949 borders.

Israel offered once again to negotiate with Egypt of an over-all peace settlement. Egypt has spurned similar suggestions in the past. An Egyptian spokesman maintained full Israeli withdrawal was necessary before any other issues are taken up declaring:

"The Israelis are trying to force a solution by their arms on Egypt."

The secretary general urged Israel's early withdrawal from the last areas Israeli troops still hold three months after their invasion of Egypt — the disrupted Gaza Strip on the Mediterranean and he south coast of Egypt's Sinai Peninsula, where Egyptian guns had barred Israeli shipping from the Gulf of Aqaba.

Los Angeles Gets First Snowfall in Eight Years

LOS ANGELES (AP) — Snow fell in downtown Los Angeles last night — the first in eight years.

It melted on contact, however. In the higher suburban areas and in the surrounding hills it was another matter. Roads were closed and scores of winters sports fans were stranded for a time.

The weatherman says the last time it snowed in most sections of Los Angeles was in January 1949.

Citrus ranchers stoked up orchard heaters to save valuable crops in subfreezing citrus districts.

Williams to Ask Record Budget for State Needs

Solons Expect Figures to Reach 400 Million as Costs Hit New Levels

LANSING (AP) — The Michigan Legislature returns tonight to hear detailed report on the bad news — at least, as assessed by Gov. Williams.

After the lawmakers meet in brief session tonight, the Governor will spell out to them tomorrow his recommendations on state spending need for 1957-58.

He already has served notice that his proposed state budget will call for record high expenditures, expenditures so vital that they can't be reduced without "making the blood run."

The lawmakers expect the total of proposed general fund spending to shoot beyond the 400 million dollar mark, as against the 300 million actually appropriated by the legislature for the current fiscal year.

Reception of the budget probably will overshadow all other events of the week on the legislative scene.

For at least six weeks, even Republican money experts in the House have said they looked for an absolutely necessary increase in expenditures of from 40 to 80 millions of dollars.

Presumably, this meant that they anticipated a general fund budget that could easily run 410 million dollars—just to maintain the present level of state services, after making allowance for mandatory pay increases for state employes, step ups in money for education based on higher enrollments, staffing new state institutions and setting aside money to match federal grants for welfare purposes.

Two of the variables in choosing between the 40 and 80 million increase figures are revenue estimates for the fiscal year starting July 1 and how school needs are reckoned.

Another decision of the Governors' that will be reflected in his budget will be his determination on the level of state outlay for construction purposes, including whether the state should press ahead with buildings at state mental institutions and prisons planned or started.

Although the Governor is expected to call for enactment of a corporation profits tax to raise the additional money required to support his spending proposals, he may not do this tomorrow, reserving a discussion of how to raise needed revenues for a separate message later on.

Car Hits Ditch, Two Men Killed

City Resident, Relative Die in Sunday Crash While Moving Furniture

A Pontiac man and his brother-in-law were killed yesterday when the car in which they were riding swerved into a ditch one half mile north of Brockway near Yale in St. Clair County.

Dead is Norman Welch, 46, of 430 Lowell St., Pontiac, and Lloyd D. Conger, 52, of Yale.

Driver of the automobile, John H. McLennan, 25, of 650 Lounsbury Ave., told police he must have fallen asleep at the wheel. McLennan is also a brother-in-law to Welch. The three men were transporting furniture to the Conger home at the time of the accident.

Welch's nephew, John Welch, of 430 Lowell St., was riding in a pick-up truck behind the automobile when he saw it leave the highway and crash. He summoned police.

Welch is survived by his wife, Esther, 30, and a son, Ronald Gary, 18 months.

Ike Again Asks for School Aid

Four-Year Program of U. S. Help Would Cost $1,300,000,000

WASHINGTON (INS)—President Eisenhower asked Congress today for a $1,300,000,000 four-year program of federal aid to relieve the critical shortage of school classrooms across the nation.

★ ★ ★

The chief executive also proposed the authorization of 750 million dollars to buy school construction bonds from school districts which are unable to market them at reasonable interest rates.

This request, part of the administration school program of last year, would boost the total federal aid to education to more than two billion dollars over the four-year period.

The new program, outlined in a special message to Congress, was almost identical to that which died on Capitol Hill last year in a battle over an anti-segregation amendment.

★ ★ ★

Eisenhower again proposed that the federal assistance be distributed on a bases of need, with a larger share going to the states least able to pay for needed school facilities.

He probably will get more than he is asking from Congress in school aid, though there will be a battle again over the method of apportioning the federal dollars to the states.

Many Democrats along with some Republicans favor greater federal assistance than Eisenhower recommends.

Greece to Add Soldiers

ATHENS (AP) — Greece will soon increase her army by 9,000 more men to meet NATO requests for a stronger defense line along the Albanian and Bulgarian frontiers.

'Escort' Suspect Found by Police in Chicago Jail

Grill Skid-Row Habitue, Identified From Picture as Bedwell's Companion

CHICAGO (INS) — A hillbilly singer, reportedly identified today as the companion of the confessed slayer of the Grimes sisters, was located in jail on drunk charges.

The man, William Cole Willingham Jr., 28, was still being sought this morning when the warden of Chicago's city jail said the singer was jailed Saturday on drunk and disorderly conduct charges.

Investigators immediately began quizzing Willingham to determine if he is the "Frank" named by Edward L. (Bennie) Bedwell as his drinking buddy during the "lost weekend" which led to the death of Barbara Grimes, 15, and her 13-year-old sister, Patricia.

A picture of Willingham was identified by Mrs. Minnie Duran, owner of a restaurant where two men ate with the girls during their sordid jaunt through Chicago's skid row district.

Police awakened Bedwell early today in his cell in the Bedford Park sheriff's station, but the 21-year-old honky-tonk drifter said he could not positively identify Willingham's picture as that of his companion. He said it did bear a close resemblance, however.

★ ★ ★

Police said Willingham worked as a photographer's assistant for a loop firm selling coupons from house-to-house.

FIRED FROM JOB

Harry Cohen, the owner of the firm, described Willingham as a "hill billy singer" from Virginia who worked for him in October and November and was fired in November.

Willingham was described as a habitue of "the street" (skid row) for some three or four months. Mrs. Duras said he gave his address as Post Office Box 1032, Richmond, Virginia.

It was disclosed that Willingham also worked in a loop restaurant and spent 30 days in Bridewell jail on a disorderly conduct charge. He was released shortly before Christmas.

The description of the man Bedwell identified as "Frank" corresponds closely with that of Willingham, police said.

Bedwell said the man had brown

Advisory Board Elects Officers

Group Studies Needs of Area to Plan Future Oakland M.S.U. Branch

With thirty-odd members in attendance, Michigan State University's Oakland County advisory board convened Saturday noon at the Bloomfield Hills Country club in an organization meeting and to hear President John A. Hannah outline plans.

The following officers were elected: Harold A. Fitzgerald, chairman; Paul McKee of Mt. Clemens, vice chairman; Dana P. Whitmer, secretary; and Louis H. Schimmel, treasurer.

Discussion centered around the kind of institution that should be launched at the outset. President Hannah believes that ultimately a variety of colleges will be located on the Oakland campus, but the East Lansing institution is anxious to start with one this community most needs and wants.

Committees will be named this week for studying the various problems incident to opening and a second meeting of the entire group will be held within a month.

Union Leaders May Ask for Penalties Against Members Who Won't Testify

MIAMI BEACH, Fla., (AP)—The AFL-CIO Executive Council today ordered its 140 unions to remove from office any union official refusing testimony at a public inquiry into union affairs.

The Council adopted the policy with one negative vote, cast by President Dave Beck of the Teamsters Union, Largest AFL-CIO affiliate.

MIAMI BEACH, Fla. (AP)—AFL-CIO leaders were expected to take a strong stand today against union men invoking the Fifth Amendment to avoid giving testimony on alleged labor union racketeering.

Sentiment among union leaders appeared divided as the policy-making AFL-CIO Executive Council opened a winter meeting to decide organized labor's attitude toward an expected congressional investigation of union affairs.

One school, probably dominant among council members, counseled for cooperation with any Senate probe and ouster from the labor movement of any union official claiming Fifth Amendment immunity against testifying, on grounds of possible self-incrimination.

George Meany, AFL-CIO president, and a strong influence among council members, was reliably reported to favor this course.

But another strong union group, composed of former AFL union building trades leaders including President Dave Beck of the teamsters union, was reported to favor encouraging union officials to avoid testifying in a congressional labor investigation.

"If crimes have been committed, why is it any concern of Congress?" a top building trades leader said privately. "Why should we condemn anyone until he is tried and convicted in the courts?"

★ ★ ★

Regardless of what labor does, Congress apparently is all set to establish a special committee with broad powers to delve into union practices.

Hospital Official Mum on Position

Undecided After Board Denies Hike to Director of Pontiac General

Miss Lauretta Paul still was mum today about her $13,000 position as director at Pontiac General Hospital.

"My mind is still an open book as it always has been," she answered to a Press query whether she would remain at the city hospital.

The Board of Trustees refused to grant her a $2,000 pay hike which was contained in the proposed 1957 hospital budget. The 11 members compromised and agreed to raise her salary to $13,000 for the year.

★ ★ ★

Following the rejection, Miss Paul said she was "undecided" whether she would remain as director. She criticized the trustees for not taking in account "the responsibility that goes with administering two hospitals (the new annex included) and for building a third one."

Today she said she had been approached by other hospitals. She refused to say how many and whether she had accepted or rejected any offers.

Rosebush Quads Sad as Boxer Fails to Return

The Rosebush quads have lost a playmate and all four are mighty unhappy little six-year-olds.

Mugs, their two-year-old boxer has just disappeared. The spirited, tan dog has been gone for a week now and Mrs. Kenneth Rosebush, the quad's mother, says that he's never run away before.

"I'm afraid someone has taken him," she said.

★ ★ ★

Playing in the snow isn't quite as much fun this week for Keith, Kenneth, Kristine and Krystal. Mugs used to pull them on their sleds (even though he upset them more often than not, said Mrs. Rosebush) and he would invariably try to ride the Oxford School bus with four friends every morning.

Mrs. Rosebush asks that if someone spots a stray boxer with a light brown collar with brass knobs around his neck, please return him to their home, 3043 Baldwin St., in Oakwood.

Woman Still Critical From Auto Crash

Mrs. Rosalie Pape, 68, of 614 Church St., Fowlerville, remains in critical condition, Pontiac General Hospital officials said today, from injuries she received in a head-on collision that injured two others at Bogie Lake Rd. near M-59 early Saturday.

Mrs. Pape suffered compound fractures of both legs, three fractured ribs and a fractured jaw.

Mrs. Pape's husband, Albert, 69, suffered a fractured jaw and neck lacerations. His condition is listed as satisfactory.

Oakland County Sheriff's deputies reported that the driver of the other car, Simon Studebaker, 37, of 3134 Poplar St., Milford, swerved into the path of Pape's oncoming car. Studebaker suffered scalp lacerations. His condition is listed as satisfactory.

Your Income Tax

This is one of a series of articles prepared by the U. S. Internal Revenue Service to help you prepare your Income Tax Return.

PROFIT NOT TAXED?

If you sold your personal residence at a profit — and within one year after (or before) the sale — you purchased and occupied another residence, and the cost of the new residence is equal to or more than the adjusted sales price of the old residence — or if you begin construction of another residence within one year, either before or after the sale of the old residence, and occupy it not later than 18 months after the sale, and the cost is equal to or exceeds the adjusted sales price of the old residence — the gain is not taxable.

If you had a profit and the cost of the new residence does not equal the proceeds from the sale of the old residence — the difference is taxable.

The adjusted sales price is the gross selling price, less commissions, less expenses to assist in its sale such as redecorating, which work must be performed within 90 days prior to the contract to sell date and must have been paid within 30 days after the sale.

Further information on income tax problems is available, without cost, to taxpayers at the Internal Revenue Service office, 53½ West Huron St. Phone FE 2-0208.

Conviction of Gold Reversed by Court

WASHINGTON (AP) — The Supreme Court today reversed the conviction of Ben Gold on charges of filing a false non-Communist oath under the Taft-Hartley Act.

★ ★ ★

The court divided 6-3 in ordering a new trial for the Russian-born former president of the International Fur & Leatherworkers Union.

Gold's conviction was reversed "Because of official instrusion into the privacy of the jury."

Near the close of the government's case in Gold's trial in U.S. District Court here, FBI agents contacted three members of the jury or their families in connection with an unrelated case.

★ ★ ★

The Supreme Court said in a brief unsigned order the fact that the intrusion was "unintentional does not remove the effect of the intrusion."

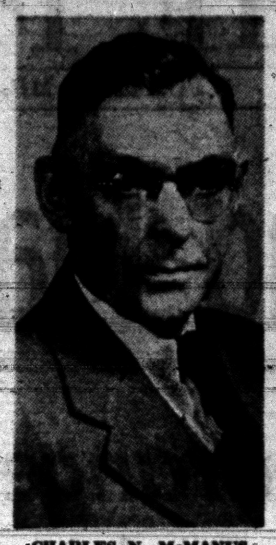

Justice Reed wrote a brief dissenting opinion, in which Justices Burton and Clark joined. Clark wrote a similar dissenting opinion in his own name.

The Day in Birmingham

Island View Vacation Up for Hearing Tonight

BIRMINGHAM — City Commissioners tonight, at a public hearing, will consider the vacating of Island View drive, between Brookside and Park streets.

Property owners on the two adjoining streets have presented a petition of opposition bearing 39 signatures.

They cite a reduction in the size of the flood basin between the existing drive and Brookside as one of the reasons for their opposition. Spring floods and other high waters already present a problem which homeowners feel will be increased if the drive is vacated.

Other reasoning includes reduction of undeveloped area through which the proposed North Evergreen Interceptor can be constructed, also reduction in property values.

Further business to come before the commission will be an additional discussion of the off-street parking ordinance; recent city purchases and the second quarterly financial statement for 1956.

City clerk Irene Hanley will ask the approval of the appointment of Andrew Butt as deputy city clerk and deputy court clerk while Miss Hanley is on vacation.

U. of M. Survey on 1957 Campaign Starts in Area

Approximately 50 to 75 Oakland County residents will be interviewed for a tri-county political profile survey conducted by the University of Michigan's Detroit Area Study which starts today.

★ ★ ★

Harry Sharp, director of DAS, said professional interviewers and graduate students, carrying identification, will try to determine reaction and interest in the "1956 political campaign, it's effect on people's lives, what radio and television speeches they heard and how this influenced them."

A total of 800 families will be interviewed in the survey conducted in Wayne, Macomb and Oakland Counties. All interviews will be anonymous and no attempt will be made to record names, according to Sharp.

★ ★ ★

The primary purpose is an academic one to find out about metropolitan communities. This information will be available to many agencies including public utilities, city planners and school boards, Sharp said.

Previous DAS surveys were: popular consensus on moral values (1956); family life (1955); influence of government agencies (1954); child-raising practices (1953); and membership of city people (1950).

Attempt to Hire Killer Backfires

Toledoan Seeks Death of Wife; Gets Patrolman and Escort to Jail

DETROIT (AP)—Police said Junies Daniels, 53, of Toledo, Ohio, came to Detroit yesterday to hire a gunman to kill Mrs. Daniels but he landed in jail.

Daniels, a construction worker, was held without charge for investigation of conspiracy to commit murder.

Detective Lowell Marquis said this was how police got wind of the alleged plot and nipped it:

Daniels showed up at the home of Frank Williams, 32, in Detroit and said he had heard Williams could "set up a man to commit murder." Williams left the house on the pretext of looking for a gunman but instead tipped off police.

Police had Williams return home with a patrolman in plain clothes posing as a gunman.

The patrolman, Thomas Taylor, quoted Daniels as saying he wanted his wife, Julia, 38, killed and gave Taylor a $20 down payment. The patrolman said Daniels told him Mrs. Daniels had $4,000 in life insurance and also owned some real estate.

Shedding his disguise as a tough guy, the patrolman took Daniels to police headquarters. He said all Daniels had to say then was, "Wait until my wife finds out."

A native of Pleasant Plains, Ark., he is survived by his wife and five children.

WASHINGTON (INS) — Mrs. Paulina Longworth Sturm, granddaughter of Theodore Roosevelt, died last night shortly after being found unconscious in her Washington home.

Coroner A. MacGruder MacDonald scheduled an autopsy today to determine the cause of death. Police said an empty bottle discovered near her may have contained sleeping pills.

Mrs. Sturm, 31, was found on a living room sofa by her 10-year-old daughter, Joanne.

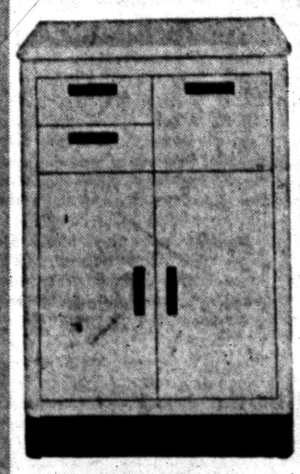

Police rushed Mrs. Sturm to Georgetown University Hospital, where she died an hour later.

She was the daughter of Nicholas Longworth and Alice Roosevelt Longworth, President Theodore Roosevelt's daughter, who survives her. In her childhood Mrs. Sturm was known as the "Valentine baby" because she was born Feb. 14, 1925, two days after her mother's 41st birthday.

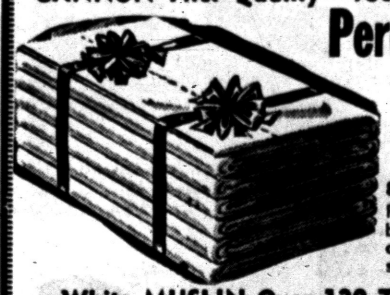

Her husband, Alexander McCormick Sturm, died in 1951 at the age of 28 after a long illness. They were married in 1944.

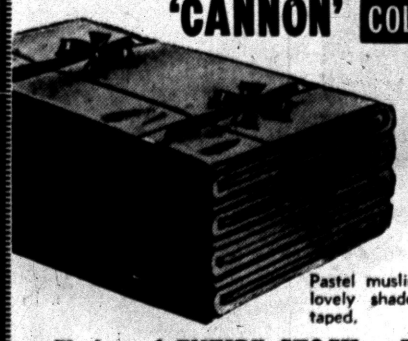

Mrs. Sturm's father died in 1931 while serving as an Ohio Congressman and Speaker of the House of Representatives.

Provide Home, Urges Nixon

Asks Congress' Support for Official Residence for Vice Presidents

WASHINGTON (AP) — Vice President Nixon says any official residence Congress may authorize for incumbents of his office should be "made available to whoever is inaugurated as vice president in January 1961."

Nixon said he is buying a six-bedroom home in northwest Washington. He did not disclose the purchase price, but it was reported to be $75,000. Nixon now owns a smaller home in the same area.

* * *

In his budget message, Eisenhower recommended that the government acquire an "official home for vice presidents."

The vice president wrote Rep. Wainwright (R-NY), author of a bill to authorize construction of such a residence. Nixon said the bill should specify a home for the next vice president "so that there would be no question but that the Congress is providing such a residence was doing so for the office rather than for a particular individual who holds the office."

Nixon pledged his "unqualified support" for a bill along these lines.

German Saboteurs Find Nemesis in FBI's Wartime Defense of U.S.

(Editor's Note: The following article is the nineteenth in a series of exciting episodes taken from "The FBI Story," by Pulitzer-Prizewinner Don Whitehead.)

By DON WHITEHEAD

Hitler boasted in 1940 that his armies and air force were invincible. But even at the peak of Nazi power in Europe, the German High Command was secretly worried.

Air Marshal Hermann Goering and S. S. Chief Henrich Himmler, among others, were complaining bitterly about failure to establish reliable agents in the United States.

Espionage agents were being trapped singly and in groups by American counterespionage. Something had to be done to replace these agents, and also to cripple the American industrial giant by sabotage before it became too great a threat.

The Nazis decided on a bold gamble: Agents who had once lived in America, men who knew the country and its customs well, would be trained in espionage and sabotage.

* * *

Then they would be slipped into the United States by submarines with enough money and sabotage supplies to last them for two years.

Eight men who knew America well entered the Nazi sabotage school at Quentz Lake, near Berlin, in April, 1942. They were taught in theory and in practice how to use explosives, incendiaries, detonators and timing devices. They rehearsed phony life stories as an actor learns his lines for a play.

STORIES SUPPORTED

These life stories were documented with false birth certificates, draft deferment cards, social security cards and automobile drivers' licenses.

George Dasch, 39, was the leader of team No. 1, which included Ernest Burger, 35, Heinrich Heinck, 34, and Richard Quirin, 34.

Team No. 2 was under command of 32-year-old Edward Kerling. His companions were Herman Neubauer, 32, Werner Thiel, 35, and Herbert Haupt, 22.

In all, the saboteurs carried a small fortune of $175,200, most of it in $50 bills.

Kerling and his men boarded a submarine, and on the night of May 26 the raider slipped out to sea. Two nights later, U-boat 202, the Innsbruck, left the submarine base carrying Dasch and his team.

Each group carried four waterproofed boxes containing high explosives, TNT molded to look like pieces of coal, fuses, detonators, primers and an assortment of mechanical and chemical timing devices.

Sixteen days after leaving Lorient, the Innsbruck surfaced off the beach near Amagansett, Long Island.

* * *

The U-boat moved slowly through a heavy fog to a point about 440 yards off-shore, and then the motors were stilled. It was almost midnight on Friday, June 12. Seamen inflated a rubber boat. The four saboteurs climbed in.

GUARD NEARS BEACH

At about the same time, 21-year-old Seamon 2-c John Cullen was leaving the Amagansett Coast Guard station to make the midnight beach patrol.

He was alone and unarmed and the fog swirled around him on the lonely stretch of sand. The beam from his flashlight was a white cone stretching into gray nothingness.

Dasch saw the light approaching. He hurried forward to intercept Cullen and recognized the Coast Guard uniform.

"What's going on here?" demanded Cullen. "Who are you?" He saw that two men were struggling with an object in the water.

Dasch said casually, "There's nothing wrong. We're fishermen. Our boat ran aground and we're going to wait here until daylight."

Cullen said, "It will be four hours until sunup. You had better come with me to the station."

* * *

Dasch said, "I'm not going with you."

"You'll have to go," the youth retorted.

"Now, listen," Dasch growled. "How old are you? Do you have a father and mother? I don't want to kill you. You don't know what this is all about. Why don't you forget it? Here is some money. Go out and have yourself a good time."

"I don't want the money," Cullen said. Then from out of the fog a man ran up and said something in German. Dasch clapped his hand over the man's mouth and snapped, "Shut up!"

Cullen was thoroughly alarmed now. He didn't know how many men were out there in the fog or what they might do to him. He had no way to defend himself from a gang attack.

Dasch grabbed Cullen by the arm and shoved a wad of bills into the Coast Guardsman's hand and stared at him. "Look in my eyes! Look in my eyes! Would you know me if you ever saw me again?"

Cullen began backing away. "I never saw you," he said. Once out of sight of Dasch, Cullen turned and ran for his station to sound the alarm.

Dasch returned to his companions: "It's all right," he said. "I fixed everything."

Quickly the saboteurs buried the boxes of equipment in the sand dunes, then walked inland.

* * *

Back at the Coast Guard station, Cullen aroused four of his mates and told them what had happened. He showed them the money—$260. The five men armed themselves and went back to the beach.

At daybreak, they found footprints and followed them into the dunes, where they found the buried cache of equipment. The saboteurs had been too excited to smooth the sand and cover their tracks.

INTO NEW YORK

At the same moment, Dasch and his men were sitting on the platform of the Amagansett station of the Long Island Railroad, waiting for it to open.

Finally the ticket agent arrived. "You're out early this morning," he said genially.

"Yes," Dasch said, "we've been fishing."

The saboteurs boarded the 6:57 for New York City.

Warning that enemy agents had landed on Long Island reached the FBI shortly before noon, almost 12 hours after the landing. Director Hoover ordered the FBI into action.

But the next day, Dasch and Burger sat in Dasch's hotel room. The blood-pounding excitement was gone now. They knew they were hunted men. They were well aware that death was the usual penalty for wartime espionage and sabotage.

* * *

Dasch told Burger, "I'm going to notify the FBI. I'm going to Washington and tell them everything." Burger nodded. He had had enough.

A few days later, the telephone rang in FBI headquarters. A man asked to speak with Hoover.

"My real name is George John Dasch. I have just arrived from Germany with some important information. I am in room 351 at the Mayflower Hotel."

AGENTS REACH HOTEL

Within minutes, two FBI agents were at the hotel. They brought Dasch to headquarters, where he poured out the story. He told them of Edward Kerling and his team who, it turned out, had better luck.

They had landed undetected just before dawn on June 17, about 25 miles south of Jacksonville, Fla. They buried their boxes of equipment, caught a bus into Jacksonville. Kerling and Thiel went to New York by way of Cincinnati. Haupt and Neubauer to Chicago.

From the records of previous investigations made of persons who had returned to Germany before the war, FBI agents located relatives and friends of the saboteurs and kept them under surveillance.

Fourteen days after the first saboteurs had landed on Long Island, all eight were in the custody of the FBI. The Nazis' grandiose scheme of sabotage had failed. In two weeks on American soil, the men had managed to spend only $611.38 of the $175,200 treasury.

After military trials, Dasch received a 30-year sentence, Burger life imprisonment and the other six were executed. Dasch and Berger's sentences were commuted after the war and they were deported to Germany.

4 Congressmen Seek Tito Ban

House Members to Ask President Not to Invite Yugoslav to U.S.

WASHINGTON (AP)—Four House members today begin circulating a petition asking President Eisenhower not to invite Communist President Tito of Yugoslavia to come here.

Announcing plans to seek the signatures of fellow representatives, the four said they do not wish to embarrass the President but that "we do not believe the millions of good people of the United States should be embarrassed by an invitation to Tito to come here as an official guest of the United States."

* * *

Sponsors of the petition are Calif), Keating (R-NY), Madden (D-Ind) and McCormack (D-Mass), the House Democratic leader.

* * *

Rep. May (R-Conn) said in a statement today 'that if Tito should come to the United States "we would indicate to the world . . . that the United States is willing to compromise its moral position in the world struggle against communism."

Objections also have been voiced by some Catholic and veterans groups.

* * *

There were indications the Eisenhower administration eventually will decide to resume sending military aid to Yugoslavia. Deliveries of new equipment, halted last July when Tito seemed to be edging back into the Moscow fold, would include jet fighter planes.

The reported invitation to Tito and military - Economic aid to Yugoslavia are in line with American policy to encourage Communist nations to pursue a course of independence from Russian domination.

Gunman Robs Church

INDIANAPOLIS (AP)—A gunman entered the Joshua Baptist Church yesterday and told the Rev. A. S. Oglesby, "Sorry to disturb your service but this is a stickup." He took purses from several worshipers, then walked out. There was no estimate of the loot.

Mitchell Sees New Personnel Setup

'Industry Must Accept More Women, Oldsters'

WASHINGTON (AP) — Secretary of Labor Mitchell says that industry will have to revise its personnel policies to make way for more women and elderly persons who will be needed to fill jobs over the next eight years.

In addition, he said, industry, in cooperation with schools and colleges, must undertake technical training on the job and in classrooms to produce quickly the large number of skilled workers necessary to support the expanding economy and population.

* * *

A new labor department study of manpower needs between now and 1965 said the present rate of expansion of the economy and population indicates the country will have to produce goods and services worth 560 billion dollars a year by the middle of the next decade.

Such a gross national product — the total value of all goods produced and services rendered — would compare with an output of 391 billion dollars in 1955 and something like 412 billion in 1956. Consuming this output, the study showed, will be a population grown to a total of about 193½ million by 1965.

The department said this situation requires that more than 10 million workers be found to take the minimum number of jobs necessary to provide for goods and services for the increased population. The study estimated the labor force in 1965 at 79,200,000 persons, including civilian job holders, the armed services and a minimum number of unemployed.

OLDER AGE GROUP

Of this total, 74 million will be needed for civilian jobs — nearly 11 million greater than the average in 1955 and 9 million greater than last year.

* * *

The chief sources of this manpower, the study said, will have to be the age group past 45, rapidly increasing in size because of increased life expectancy, and from the young and inexperienced under the age of 25.

* * *

The study said that although there will be increasing productivity per person, another factor to be reckoned with will be possible shorter hours of work. It said that, based on trends in recent years, a 6 per cent cut in annual hours of work may be expected by 1965. This may be in longer vacations, more holidays or a shorter working day.

The study said more than half the increase of about 10 million workers will be women who will be called upon for a greater variety of occupations.

French Rebuff Poujade in Polls

Tax Rebel Receives Only Fraction of Votes in Paris District

PARIS (AP) — Voters of a Left Bank Paris district have sharply rebuffed tax rebel Pierre Poujade's first try for an elected political office.

In voting for a vacant National Assembly seat yesterday in the 1st Dist. of the Seine Department (county), the leader of the new political movement that was the surprise of th 1956 election got only 19,906 of the total 319,091 votes cast (6.4 per cent).

* * *

The seat in the runoff election was won by independent (moderate right wing) Julien Tardieu with 170,953 votes. He had led in the first election two weeks ago but did not get the necessary majority. Only a plurality was needed in the runoff.

Communist Lucien Monjauvis was second with 72,734 votes. In last year's general election the district gave the Communists 120,330 votes.

* * *

Poujade ran fourth.

Advocating big tax cuts and a "states general" to completely remark the French political system, Poujade in 1956 led a new political movement which startled observers and politicians by electing 51 persons to the Assembly.

Poujade himself was not a candidate last yar. Disqualifications and desertions have left only about 35 of his adherents in the Assembly, and Poujade's popularity appears to be dropping rapidly.

NEW YORK — There were 11.9 lost-time injuries for every million man-hours worked in American manufacturing industries during the second quarter of 1956. This compares with 24.2 lost-time injuries in 1926—the first year for which national figures are available.

Restores Heart Action by Pounding on Chest

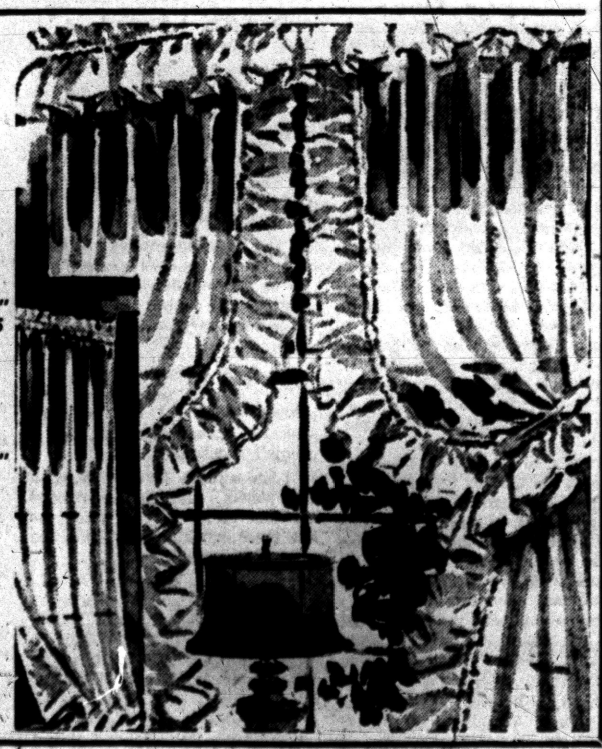

CINCINNATI (AP) — A physician said last night he restored the heart beat of a woman by pounding on her chest with his fingers.

The doctor, who declined use of his name, said the woman's heart stopped beating while she was waiting in line in a restaurant.

The woman, Mrs. Ethel Otting of nearby Madeira, was rushed to Jewish Hospital where aides said she is "responding to treatment."

State Shouldn't Accept Hare Offer to Pay Loss

We believe any fair minded person would approve of the State of Michigan picking up the tab for James M. Hare's shortage.

His branch manager at St. Clair Shores, a woman, went south with nearly $75,000 of State funds. (And she's still at large, probably smiling at the consternation reigning back in Michigan.)

★ ★ ★

A blanket bond protected the state for all but $16,000 and Hare volunteered to pay this himself and discussed the sale of his home. A partial equity in a house the defaulting woman left behind, plus a bank account, will reduce the total loss somewhat.

★ ★ ★

The Secretary of State is probably negligent in not having his entire procedures duly protected. At the same time he is the innocent victim of a robbery and his error lies in his judgment instead of a wrong act.

★ ★ ★

The State of Michigan should assist him in an hour of need like this, especially since his own motives have never been questioned.

It was an "honest" mistake.

Japan Imposes Quotas on Textile Exports to Us

In a five year pact just announced, Tokyo has agreed to limit its textile exports to this country under threat of U.S. import quotas.

The Japanese government also agreed to cut exports of special types because of American manufacturers' complaints. However, our own domestic production of cotton textiles appears to have increased in recent years.

★ ★ ★

Japan buys five times as much raw cotton from us as it sends back to us in textiles. But American producers contend that last year our market was flooded with Japanese ginghams and velveteens.

There is some talk of asking India to decrease its textile exports "voluntarily." But India not being heavily dependent on the U.S. is unlikely to comply.

★ ★ ★

Some Washington officials fear that Japan's self-imposed quota of 236 million square yards annually will bring demands for like protection from other domestic industries.

Business to the Rescue of Our Higher Education

The Council on Financial Aid to Education formed four years ago by prominent industrialists to promote business giving, suggests that corporations might be asked to donate one per cent of net income to education.

★ ★ ★

In the past year 20,000 businesses and industries contributed about $100 million to higher education. Yet with college enrollments rapidly increasing and teacher salaries lagging, the need for new funds is far from being met.

Dr. Wilson Compton, head of the Council and a former university president, says fears that business giving might slant higher education towards business interests alone have not been borne out. As a matter of fact the greatest dollar giving was earmarked for "unrestricted or general purposes."

★ ★ ★

A public service advertising campaign is to be launched in cooperation with the Advertising Council. It will emphasize the general need for increased support of higher education by everyone who can help, including business and industry.

★ ★ ★

It would appear that American business and industry are doing everything possible to meet the challenge of education's need for more funds.

Better Methods

Reasons Why Our Winters Do Not Seem So Severe

Meat: What in 1937 you could hardly carry $3 worth, and in 1957 you can hardly see.

"You don't tell the whole story," writes

Ambrose Fetherbridge

of Birmingham, after reading our stories about winters being milder than they were several years ago. He points out that with better heating equipment, better roads and transportation facilities, better ways of clearing away the snow, better methods of fighting the ice on our highways, and improvements in many other respects, the winters are more endurable. He also says our forefathers were more content and really enjoyed being snowed in for a few days, when now "we're crazy if we're held up for even a few minutes."

An enthusiastic raiser of that most interesting of all flowers, the amaryllis, is

Mrs. Robert A. Penfold

Ice fishing on the lakes in the Pontiac area has reached such proportions that

Losing Out to the Big Dough Boys

David Lawrence Asks:

Why Did Aswan Dam Talks Fail?

WASHINGTON — Did Secretary of State Dulles "direct" Nasser to seize the Suez Canal and did he "direct" the British and French troops to go into action there last autumn?

Thus a casual reading of the statement made to the Senate Foreign Relations Committee by Senator Fulbright of Arkansas, Democrat, gives the impression that Mr. Dulles is responsible for everything bad that has happened in the Middle East.

Mr. Fulbright wants to know about the course of our relations with Colonel Nasser; how and why we became involved in the Aswan Dam project, and what led to the secretary's abrupt withdrawal of the offer just as it was being accepted by Colonel Nasser, "a procedure calculated to give the greatest possible offense."

This correspondent presents today a brief summary of what happened on the inside with reference to the so-called "abrupt" termination of the Aswan Dam negotiations:

1. In November 1955 the United States government, the British government and the World Bank carried on at Washington a negotiation with the Egyptian minister of finance, and an agreement was worked out to help finance the building of the Aswan Dam.

SPEED AGREEMENT

2. An agreement was accelerated because Egypt had made an arms deal for Russian arms to be supplied through Czechoslovakia. The World Bank had been working for three years on the Aswan Dam problem.

3. The agreement provided that the United States would grant $56,000,000, Great Britain $14,000,000 and the World Bank about $200,000,000, making a total of $270,00,000.

4. The terms were taken back to Cairo for Nasser to approve. The Egyptian president didn't like the agreement, particularly the conditions of repayment laid down by the World Bank. So, in February 1956, Nasser invited Eugene Black, president of the World Bank to come to Cairo to discuss it. During a two-week visit, Mr. Black urged Nasser to accept the agreement as being very liberal indeed, but Nasser said he wasn't satisfied. One of the things that worried him was that the $270,000,000 left him about $130,000,000 short of the $400,000,000 he needed in foreign exchange. He wanted a commitment for that $130,000,000.

5. Word was transmitted to the United States and British governments, and they promptly said they would give "sympathetic consideration" to his request. But at that time the foreign-aid bill was pending in Congress. Although President Eisenhower and Secretary Dulles couldn't say so, they wanted the broad power or so-called "blank check" authority for "long range" aid primarily to handle a situation like this. It would have taken 18 years to build the Aswan Dam and a long-range commitment couldn't be given without the consent of Congress.

6. At this time there was a decided sentiment in Congress against long-range commitments, the adminstration's foreign-aid bill was in trouble and several southern senators feared competition from Egyptian cotton with American cotton if this country, in effect, relieved Egypt of some of her obligations in the foreign exchange markets of the world.

7. In July 1956 Nasser accepted the original conditions of the World Bank but still wanted to get a change in the terms of the grants by the American and British governments. The Egyptian ambassador at Washington, after a trip to Cairo, told Mr. Dulles that Nasser now was prepared to go ahead. But between February and July 1956 Nasser had involved himself more deeply with the Russians and had mortgaged more and more of his cotton to pay for the arms from the Communists.

★ ★ ★

If Congress had been willing to let Mr. Dulles make a pledge of $130,000,000 more back in February 1956, would there have been a crisis in the Middle East?

The President is asking again for some of the same kind of broad authority to deal with an ever-changing situation in the Middle East. Will he get it, or will Congress block it again?

Dr. William Brady Says:

Young Folk Show Sense Despite Hokum Handouts

From the general customs of young people today, and from the pictures in magazines in late winter and early spring, it would seem that insurance companies, public health agencies, and cold cure concerns are dragging their feet.

The young man who goes hatless and the young woman who goes—just who, I wonder, takes the old hokum seriously?

When this column was young, it used to be a red letter day when a grateful parent wrote to thank me for teaching, that "exposure" to everyday cold, sudden change, dampness, draft, insufficient clothing, wet feet, chilly environment, or whatever unpleasant condition a morbid imagination can suggest may give more or less discomfort but never causes any illness or indisposition other than frostbite.

For a considerable time there I carried on like a small boy whistling his way past the graveyard late at night.

Today the average young person wears or leaves off what he pleases in any circumstance. Only—well, say, superficially educated mothers, grandmothers, and maiden aunts concern themselves about it. And their trick specialists.

If your youngster is an idiot, of course, you should decide what he or she should wear or not wear. If the youngster is not feeble-minded, he (or she) knows whether he is comfortable.

I am happy to know that this common sense view is gaining in popularity despite the quaint croaking of the insurance companies, the public health agencies and the cold cure concerns. Nowadays I worry only when the day's mail doesn't bring any letters from grateful parents.

Here's a good chuckle from last winter's advice by the insurance company:

"Eat well-balanced meals to help keep resistance built up."

A "well-balanced" meal, you understand, knucklehead, is nourishing but easily digestible. The balanced part is vague, but never mind about that.

Just concentrate on building or maintaining your "resistance," whatever it may be. No medical or health authority dares to put in writing a definition of "resistance."

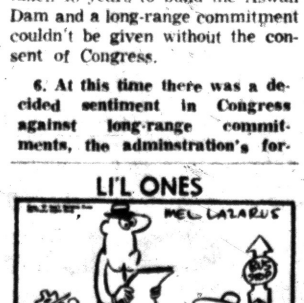

There's no scientific evidence to support the idea or theory of "resistance" as a condition that renders an individual more or less susceptible to any ailment or disease or to any group or class of diseases, such, for instance, as the respiratory infections.

Let no sophomoron try to twist this into denial of immunity. When the old fogies prate about building "resistance" or about "lowered resistance," we may be sure they don't mean immunity to diphtheria, typhoid fevers or smallpox. If you want immunity you simply go to your physician and tell him you want it. He'll give you the specific protection you need. Price, a dollar up. If you want a good laugh, go to your physician and tell him you'd like, say, $29.75 worth of resistance against everything.

People who babble about "resistance" should put up or shut up, don't you think?

Signed letters, not more than one page or 100 words long pertaining to personal health and hygiene, not to disease, diagnosis or treatment, will be answered by Dr. William Brady, if a stamped self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan.

"Think it looks like him, Jerry?"

Case Records of a Psychologist:

Degree Doesn't Make Good Teacher

Remember the Biblical statement about the blind leading the blind? Well, college professors who never conducted a business of their own, are trying to teach students how to do it. English professors who never have sold a poem, story, novel or even some greeting card verses, are trying to teach our children how to write salable material.

By DR. GEORGE W. CRANE

Case T-385: Alva J., aged 35, is a South Carolina school teacher who is now taking some graduate work here at Northwestern.

"Dr. Crane, I attended the national convention," he announced with a wry face, "but I never was so disappointed in all my life.

★ ★ ★

"Why, those famous educators, whose names I had admired, were so dull and uninteresting when they read their papers, that the audience went to sleep.

"I'm not exaggerating! In fact over three hundred people got up in the middle of one man's address and walked out. It must have been very embarrassing to him.

"I'd have walked out, too, but in the South we are a little more polite. However, I did leave as soon as he was through, for I couldn't stand any more.

"I had already listened to seven dry papers, and that convinced me that either I was wrong, or else these educators can't practice what they preach.

★ ★ ★

"Dr. Crane, isn't the primary purpose in education the art of motivating the student so that we retain his interest? Then how can an educator claim to know his stuff when he can't keep his audience or his students awake?"

Well, Alva, that's what I should like to know, too! I've ceased going to most conventions for this very same reason.

In ten or twenty minutes I can glean the important facts from later annual reports of the meeting.

★ ★ ★

One trouble with American education is exactly what Alva has pointed out; namely, the fact that too many teachers don't understand applied psychology.

Why, in one graduate seminar in education at a famous Eastern university not long ago, the professor was lecturing to his 33 graduate students on the great necessity for arousing the student's interest.

He explained that school children cannot be expected to learn much if they aren't motivated properly.

BLIND LEAD BLIND

But in that very seminar at that same instant, 17 mature men and women were sitting with eyes shut, and breathing regularly, with at least all the external signs of slumber!

★ ★ ★

Talk about the blind leading the blind! A few years ago I was invited to read a paper at our Midwestern Psychological Association. It was a symposium on the family.

One gray haired woman wasted the time of the entire audience for 15 minutes telling us about an extensive survey she had conducted among young mothers.

She then reported the apparently profound and startling scientific fact that after their first baby was born "there was a marked change in the orderliness of the home. It required much more time to keep the house tidy!"

DUMB DORAS

My wife happened to be with me. It was her first visit to a psychological convention. She looked at me with the puzzled expression of one who thinks, "Is the speaker all there mentally?"

★ ★ ★

For such simple axiomatic facts are admitted in geometry without proof as being self-evident. It's time psychology and some other sciences got wise to "horse sense" and what it implies.

Imagine wasting time asking young mothers if a baby upsets the routine of a home!

It is also high time that all teachers were tested for their gumption and social understanding.

★ ★ ★

College diplomas alone don't mean their owners will be good teachers. However, school boards and college deans have long been slavish worshipers of such advance degrees as M.A. and Ph.D.

Send for my "Study Club & Test for a Good Teacher," enclosing a stamped, return envelope and 20 cents.

I presented it to the Chicago school principals, and many such educators are now using this rating scale to pep up their teachers.

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long 3c stamped, self-addressed envelope and 20c to cover typing and printing costs when you send for his psychological charts and pamphlets.

'Pontiac Earns Applause for Fine Snow Removal'

Letters will be condensed when necessary because of lack of space. Full name, address and telephone number of the writer must accompany letters but these will not be published if the writer so requests unless the letter is critical in its nature.

Pontiac deserves a round of applause for the way we have had our streets cleaned following these sudden snow storms. The city has the necessary equipment and the man power to make it work. I think we have had a marvelous job of snow removal and a splendid job of reducing the slippery ice to slush.

Some cities haven't the men and some haven't the necessary equipment, but we are apparently well stocked with both, plus the know-how and the supervision.

'Team Rooter' Praises Fans

Several people have written to praise the high school basketball team. How about the fans? I think the people of Pontiac deserve a little praise, too, for supporting the team so well. It's really a sight to behold to see so many Pontiac citizens cheering for the players.

'Walks Are Unused, Why Shovel Them?'

A reply and a query for the "Weary Postman" who chides us about not shoveling walks.

I have lived in Pontiac 30 years and have always been proud to keep my walks clear of snow at all times. What does the postman do? He wades across my lawn through the snow, completely ignoring the sidewalks, from one end of the street to the other, both sides. I put up wickets and he steps over them.

Query: Am I supposed to shovel a path across the lawn or must I put up a fence, or must I continue to repair damage to lawn done by the postmar, paper boys, hand bill distributors, and others too lazy to take the extra ten steps?

'Guesser' Thinks of Bergman's Girl

I've heard several people asking why Ingrid Bergman didn't arrange to see her 18-year-old daughter when she visited the U.S. for the first time in eight years. Perhaps the young lady point blank refused to go to New York. They did talk on the phone.

She and her father changed her name after Ingrid's mess, and it's possible she's through with La Bergman.

'What Can We Tell Boys About Drink?'

I was interested in Mr. Vogel's letter about taking a stand against alcohol. We do not drink and we have four boys and we are anxious that they realize the dangers of alcohol. When they see, hear and read its advertisements and ask why people use it if it is harmful and wrong, what do we answer? That it is "legalized," that the people want it?

Will that make sense to them or to any clear-thinking person?

'Drinker a Menace Even Next Day'

Booten Herndon says, "Dr. Leon A. Greenberg of Yale University has found that it takes 24 hours for the body to burn up a pint of alcohol. Thus a heavy drinker can be almost as great a highway menace the morning after as the night before."

Everyone that drives should think this over carefully.

'King of Torts' Advises Personal Injury Victims

Lawyer Writing Book on How to Sue

By LEE CARSON

NEW YORK (INS)—A new kind of first aid book is in the process of being written by one of the nation's top trial lawyers, Melvin Belli of San Francisco, dubbed "The King of Torts" by his fellow barristers.

★ ★ ★

Tentatively titled "What to Do Until the Lawyer Comes," the book will give all those in a position to sue the script, direction and cues on civil suits—with the accent on personal injury.

It will include advice to all potential litigants around the world—giving them a bird's-eye view of what goes on with people from Bangor to Bangkok, legally speaking.

Mr. Belli, who is said to have raked in more dough for clients on damage and personal injury suits than anyone on three continents, has some pertinent and pointed advice.

"The first rule is, don't do a thing until you call a lawyer . . . and call one as soon as you have recovered consciousness."

★ ★ ★

Running down the table of contents on legal first aid . . . be careful in choosing a lawyer . . . remember that law courts tend to favor men in injury suits, figuring that a housewife is a housewife but a wage-earner is valuable to family and community.

"The unemployed housewife is worth very little on the hoof to judge and jury." Mr. Belli states.

Another prime Belli rule is "do not let an insurance adjuster buy you off without advice of attorney."

★ ★ ★

Lawyer Belli, who has even pulled a $400,000 award out of a federal judge on a case against the federal government for a client, is of the opinion that the law profession "may well be loaded with incompetent or even nefarious attorneys," but that they must "police themselves via the various bar associations."

As for the terrible log-jam of cases in most courts, he says that there must be an increase of courts and judges in areas where the population has outgrown the existing facilities.

"I'm also for abolishing vacations for judges where there is a backlog of cases, absolutely turning down all the ruses of delay and excuses.

"A judge in southern New Jersey also had a good idea when he made all justices virtually punch a timeclock. They had to be on the bench from 9:30 a.m. to 4:30 p.m. with a half-hour out for lunch. Believe me, that cleaned up a lot of cases."

FAVORS DRAMATICS

As a first-rate trial lawyer, Mr. Belli believes in the use of dramatics, visual aids and "better timing than the most subtle play calls for" to present cases.

★ ★ ★

In his book "Ready for the Plaintiff," he explains at great length and in detail the effectiveness of the use of such gimmicks as skeletons, colored charts, human bones, photographic blow-ups, mysterious packages wrapped in butcher paper, and horribly graphic drawings and artificial limbs.

"Until very recently visual aids and exhibits were seldom if ever used in civil cases—only in criminal—which makes no sense," he notes, "You can help both judge and jury with these things. To say nothing of their effect on the case for the client."

A handsome, smartly horn-rimmed man with a definite flair for the dramatic, Melvin Belli has parlayed the use of personality as well as gimmicks into a multi-million-dollar-a-year practice. But as his wife, Joy, will tell you, he earns it.

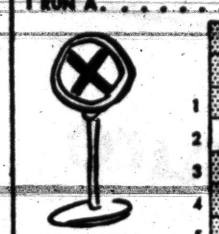

In all cases, Belli prefers a jury to a judge.

"A judge can have personal prejudices," he explains. "A jury, if you pick it carefully—is a much better risk."

Paris to Get Skyscraper — First Since Eiffel Tower

PARIS (INS) — The first "skyscraper" to be built in Paris since 1889 has been authorized by city officials.

The building will be a 21-story apartment house. It will rise to a height of about 200 feet. Formerly Paris housing regulations had forbidden structures of more than 12 stories.

The city's other "skyscraper"—the only one—is the Eiffel Tower, built in 1889 and rising to a height of 985 feet.

Conant Quits Job as Envoy to Bonn

WASHINGTON (AP) — President Eisenhower today accepted with "deepest personal regret" the resignation of Dr. James B. Conant as ambassador to West Germany.

An exchange of letters made public by the White House disclosed that Conant, former president of Harvard University, told Secretary of State Dulles in September he wished to return to private life "for personal reasons" by mid-February.

Eisenhower's note of acceptance was lavish in its praise of Conant's service and contributions to German-American relations.

"During your tenure the FEDERAL Republic of Germany has taken its rightful place in the family of nations, and due in no small part to your tireless and skillful efforts as high commissioner and then as our first ambassador, our relations with the Federal Republic are close and cordial," the President wrote.

ROME (AP) — James D. Zellerbach, new U.S. ambassador to Italy, today presented his credentials to Foreign Undersecretary Alberto Folchi.

Zellerbach arrived last Saturday to replace Ambassador Clare Boothe Luce.

Likes Publishers, but Cool to Reporters

Ike's Press Relations an Important Facet of Public Confidence, Goodwill

By DOUGLAS LARSEN
(First of Three Dispatches)

WASHINGTON (NEA) — President Eisenhower starts his second term with press and public relations—as far as he and the White House are concerned—almost technically perfect.

Ike's press secretary, Jim Hagerty, has set a standard which is unequalled for being fair, open and cooperative. Any White House correspondent will testify to this.

On the other hand, Ike's departments have been under constant fire by responsible critics for unnecessary restrictions on information.

The State Department, for instance, is currently under fire for banning entry of U.S. newspapermen into Red China. The White House itself was criticized by newspapers, radio and TV on the eve of inauguration for barring reporters and cameras at the President's oath-taking. There has been some carping about the gradually diminishing frequency of the President's press conferences.

Ike is personally responsible for both facets of this conflicting situation. Investigation reveals that almost all cases of over-zealous news censorship by his agencies can be traced to some official's belief that he was following presidential orders.

IKE GOES ALL OUT

As far as Ike's personal public relations go, however, he has gone all-out to give the public maximum information.

For example, after his first election he told Hagerty he was interested in TV newsreel coverage of his press conferences. Hagerty found that new film was being developed which would allow movies of the conference without the prohibitive lighting otherwise needed.

"Well, let's keep investigating this new film and push its use if possible, to get the TV men into the conference," Ike told Jim.

When the new film was successfully developed the conferences were immediately opened to the TV newsreel men. Thanks to Ike's interest in this detail millions of Americans are given an inside look at these sessions.

★ ★ ★

To improve his TV appearances Ike and Hagerty together agreed to ask movie actor Robert Montgomery to assist in perfecting and handling production details. The result has been a happy one.

The New York advertising firm of Batten, Barton, Durstine and Osborn got into the act just after Ike was first nominated and has also assisted Ike's TV and radio appearances ever since, through the Republican National Committee.

Ike has become personally very friendly with BBD&O President Ben Duffey. But in answer to the charge that "Madison Avenue" dominates GOP public relations, it is claimed that the agency plays a relatively minor part in White House affairs.

What almost amounts to a cliche in town is the claim that Ike likes publishers but is luke-warm toward working reporters. Ike is friendly with several top publishers; has them to dinner, plays golf with them and frequently discusses public relations matters with them.

ALOOF TO REPORTERS

On the other hand, he has never cottoned up to the working White House press the way former Presidents Truman and Roosevelt did, on a first-name basis. Truman was genial and on excellent personal terms with all reporters and talked to a few privately from time to time. Roosevelt had his pets and took personal pokes at some, like telling one to go stand in a corner.

After a year or so Ike began calling the Dean of White House reporters, UP's Merriman Smith, "Muriam," and on rare occasions calls veteran Washington Post reporter Edward T. Folliard "Eddy." There have never been the impromptu sessions between Ike and the press on trips that there used to be with Truman.

Once, Ike wrote Andy Tully of Scripps - Howard Newspapers a warm note thanking him for a story Andy had written praising Ike for being frank about his health. Other White House correspondents have had similar experiences but Ike has never had private conversations with reporters.

On the other hand, Ike became irritated—privately — at the White House reporters when they wrote that he had caught an over-limit number of fish during a Colorado vacation. He was angry when a poll among them during the 1952 campaign revealed that the majority favored Stevenson. There are many more instances of his having become irritated with stories.

A recent book, "Never a Shot In Anger," about World War II press coverage in Europe written by Col. Barney Oldfield traces Ike's present attitude to reporters to the end of World War II when AP jumped the gun on the story of the end of the war.

"Up to now," Ike wrote in a report on the matter, "I have felt free to take all correspondents into my confidence."

SEEKS PERFECTION

Whatever his personal feelings might be for reporters, Ike has not let it interfere with efforts for perfection in his press relations. At first his press conferences were obvious ordeals. Now he appears to enjoy them, and handles himself beautifully.

One of the more significant public relations innovations of the White House resulted in the book by reporter Robert Donovan called "Eisenhower: The Inside Story." Donovan was given access to a mass of secret documents for its preparation. It revealed facets of Ike's administration, such as his urge to create a third party, which otherwise might never have been revealed.

It is believed that this was the idea of Assistant to the President Sherman Adams.

But it must have been approved by Ike beforehand. It's another example of Ike's desire to be 100 per cent frank with the American public, although it irritated other White House correspondents who did not have the same inside track.

Budapest Frees U.S. Prisoner

Woman Photographer Completes Jail Term, Reaches Vienna

VIENNA (UP) — Hungary's Communist government has released Mrs. Georgette Meyer (Dickey) Chapelle, an American free-lance photographer arrested after she slipped across the border on the night of Dec. 5.

The 36-year-old New York City resident said "Prison life was rough" but that she was not mistreated. She added she once was questioned for what she thought was about eight hours.

★ ★ ★

A Budapest court convicted her Saturday of entering Hungary illegally and sentenced her to 50 days in jail — the time she had already served. She was told to get out of the country by midnight Sunday and stay out.

U.S. Consul Richard Selby drove her from Budapest to the border in a legation car. She was wearing the long brown overcoat, herringbone slacks and high-laced brown shoes she had on when arrested.

Mrs. Chapelle told the Budapest court she slipped into Hungary to deliver "a token gift of medicines to the Hungarian people." She declined to talk about that after returning to Vienna.

★ ★ ★

Mrs. Chapelle said she had lost weight as a result of the prison's skimpy diet. She had coffee and bread for breakfast, cabbage or potatoes for lunch, and some extras on Sundays, a slice of bacon or jam.

Relman Morin Says:

Works in White House-or Isolation Booth?

WASHINGTON (AP)—There is a man in the White House who spends most of his time in the answer box on a kind of super quiz show.

★ ★ ★

His task, in part, is to come up with the information if a member of the President's staff should happen to ask—

"Is it okay for the secretary of the treasury to own a yacht?"

Answer: No. An old law sets him apart from the rest of us in this respect. The intent of it was, apparently, to keep the man who handles the nation's money from goofing off on sunny summer afternoons.

"Does the whole Cabinet have to be renominated when a President starts his new term?"

Answer: Only the postmaster general. His tenure has a specific expiation date, so he must go through the forms again.

And so on, six days a week, sometimes on Sunday.

PUSH-BUTTON SANTA — Even old Santa Claus may be the victim of automation, judging by this coin-operated toyvending machine in San Maeo, Calif. Three-year-old Claudia Svoring, of Belmont, Calif., makes a purchase from the converted cigarette machine. It offers a choice of nine toys at 10 cents each.

The man who gets these queries—and most are infinitely more complicated—is A. Wayne Hawks, chief of the Office of Records in the White House. He is alert, sharp eyed, a former sportswriter and telegraph operator, two professions that help a man in almost any job.

He came to the White House shortly after the attack on Pearl Harbor when, naturally, the president's communications ballooned to fantastic proportions. Later, Hawks came into his present assignment.

★ ★ ★

Hawks is forever poring over dusty records, chasing that elusive ghost known as the "intent" of a law. As time passes, a statute may come to assume forms wholly unlike the aims of Congress when the law was passed.

He also has saturated himself, from necessity, with the background of a famous running dispute—the actions of different presidents with respect to denying information to congressional committees. Remember the Army McCarthy hearings of several years back?

With respect to history, background information, legal opinions and so on, why not simply go to the Department of Justice, the Library of Congress, or whatever department was primarily involved?

★ ★ ★

"We do, sometimes, Hawks said. Then he added, like a hallmark of Washington today—

"But mostly its a question of time. There's so much to do you have to save minutes wherever you can."

Took Car on Trial Run

OSHKOSH, Wis. (AP) — "Take it home and give your wife a ride," the salesman at the used car lot told Melvin Kuehn. So, Kuehn says, he took the auto to the home of his divorced wife and showed it to her. As a result, a federal warrant for auto theft was issued against Kuehn. The used car lot is in Toledo, Ohio. His ex-wife lives in Oshkosh.

State Flier's Body Found in Caribbean

MIAMI, Fla. (AP) — The body of a Michigan airman who was missing after the collision of two B47 jet bombers was found yesterday in wreckage submerged in the Caribbean Sea.

Homestead Air Base officials said the body of Maj. William E. Norris, 41, of Lansing, Mich., was in the nose section of one plane near Isle of Pines south of Cuba's western tip.

The body of Lt. Earl S. Chrisawn Jr., 26, of Rock Hill, S.C., a crewmate of Norris, was found in the water yesterday.

No trace has been reported of Capt. James H. Parker, 35. Three other officers were rescued from lifeboats and an island near Isle of Pines the day after Thursday's collision.

Norris leaves his widow and three children and his father, Earl M. Norris 2813 Lee Blvd., Lansing.

Ella Fitzgerald Goes to Hospital

An Abscessed Appendix Forces Cancellation of Theater, TV Schedule

NEW YORK (INS)—Singer Ella Fitzgerald has been hospitalized with what doctors described as a possible ruptured appendix, forcing cancelation of her appearances at New York's Paramount Theater.

The singer stubbornly refused to yield to the illness, continuing a week's engagement at the theater as long as possible, though she already had admitted to friends on opening day last Wednesday that she was feeling ill.

When she registered a temperature of 103 degrees Sunday her manager, Norman Granz, brought her to New York Hospital. Doctors refused to elaborate on her condition but said "no operation has been scheduled at this time."

Canceled by the abscessed appendix development were planned appearances on the Ed Sullivan TV show last night and in the American Theater Wing "Serenade to the White House."

A projected six-weeks tour of European appearances also had to be dropped.

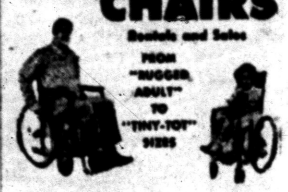

Drafts Bill to Create 42 Federal Judgeships

WASHINGTON (AP)— Rep. Celler (D-NY) drafted a bill today to create 42 new permanent federal judgeships, including one new district judgeship in Eastern Michigan.

The proposed legislation would provide the biggest single increase ever made in the federal judiciary.

Celler, who is chairman of the House Judiciary Committee, said the increase would "alleviate the current congestion" in U.S. courts, while "at the same time attacking the backlog."

STRANGE CREATURES — 1

The Dragon

This week we'll meet some strange creatures mostly from legends and story books. For an unusual collection, save them day by day.

Here is a dragon — with the body of a crocodile, the legs of a lion and the wings of a bat. His tail had a forked tip. Smoke belched forth from his nostrils.

The dragon was considered a sign of evil. Brave knights often were pictured as ready to fight a dragon in order to rescue a beautiful maiden in distress.

Color the picture and paste it down on cardboard. Make the dragon green with a bright red tongue and orange flames coming from his nostrils.

Cut out the parts carefully. Attach the sword arm behind the right shoulder of the knight with a brass fastener or pin. Then the warrior can swing his weapon at the dragon. Put on his helmet, holding the top tabs behind his head and inserting the lower tab in the slot at the top of his tunic.

Fold down the middle on the dotted line so the enemies face each other.

(This idea was first submitted by Patricia Thompson, Nashville, N. C. If you send a usable idea care of this newspaper you may win the Junior Editors $10 award. Violet Moore Higgins; AP Newsfeatures.)

13 Airmen Rescued From Alaskan Ice

ANCHORAGE, Alaska (AP)—Thirteen crew members were rescued safely last night after a C124 Globemaster caught fire and was set down on ice in Cook Inlet near here.

★ ★ ★

None of the men was believed seriously hurt. All but one walked from the rescue craft, the Air Force reported.

The plane left Elmendorf Air Force Base, near here, with cargo bound for McChord Air Force Base, Wash. A few minutes later one engine caught fire and the pilot attempted to return to the base but was forced down only a couple of miles from the strip on his final approach.

★ ★ ★

Within 15 minutes helicopters from 71st Air Rescue Squadron were at the scene.

Italy Cuts Opera Budget

MILAN, Italy (AP)—La Scala and other Italian opera houses may have to cut two months off their current seasons. The government proposes to reduce its opera subsidy to $4,200,000 from six millions.

Police Guarding California Home Haunted by Cat

GLENDORA, Calif. (AP) — A policeman has been assigned to the cat-haunted home of Mr. and Mrs. Vincent Carta.

For 23 days now a cat has been trapped somewhere in the walls of the Cartas' new $16,000 tract home. The cat's meows — plus a flood of curious visitors, callers and helpful letters — have been taking a toll of the family's nerves.

The policeman was assigned yesterday to keep the curious passers-by from bothering the family. Mrs. Carta is an expectant mother and her physician advises quiet.

She hasn't had much of it since the cat got trapped. Plumbers, veterinarians and X-ray men have visited the home in an attempt to locate and free the cat. All have failed.

★ ★ ★

The cat's cries are getting weaker, bringing up another problem: What to do if the cat dies somewhere in the framework? Mrs. Carta says she will move if the cat dies in the walls.

Seek End to Strike at American Motors

KENOSHA, Wis. (AP) — Representatives of the American Motors Corp. and the United Auto Workers are scheduled to meet today in another effort to settle the strike that has halted production of Nash, Hudson and Rambler automobiles since last Tuesday.

Some 5,000 production workers at the Kenosha plant, represented by Local 72 of the UAW, left their jobs in a dispute over 19 grievances, principally concerning short term layoffs and seniority. The strike also has idled 1,500 workers at the AMC body plant in Milwaukee where Local 75 is not involved in the dispute.

Negotiators met for four hours Saturday. After the session Harvey Kitzman, UAW regional director, said, "we had a long discussion on a very friendly basis of that the company's problem was and what the union's problem was. We agreed to mull matters over and come back to the bargaining table on Monday."

Sir Winston Churchill has been made "citizen of honor" of Cap Martin, the Riviera village in France where he has been vacationing.

Bob Considine Says:

Next: Round-The-World In 39 Hours

NEW YORK (INS) — The passing show . . .

By a remarkable coincidence, the round-the-world non-stop B52s touched down at March Air Field base exactly 51 years after the day the U.S. army rejected Orville and Wilbur Wright's first effort to sell it an airplane.

The first round-the-world flight was made 32 years ago by a formation of U.S. Army Air Corps Douglas biplanes. It took 175 days. Scandinavian Airlines has asked me to be a passenger on its first scheduled round- the-world trip, via the North Pole route. Flying time: four days. Hardly enough time to finish the smorgasbord.

The Boeing B-52s made it in 45 hours and 19 minutes, with a still secret number of midair refuelings. The Boeings had to sacrifice 50 per cent of their altitude and 60 to 70 per cent of their speed in order to nuzzle up to the KC-97 tankers. They'll be able to shave six hours off the record when the 52 can be refilled from 4-jet KC-135 cows.

Tough, competent Maj. Gen. Archie J. Old, Jr., who led the flight, interrupted the press conference after the triumph with a stentorian roar:

"Sergeant Donovan Higginbotham!"

★ ★ ★

A fellow from Lansing, Mich., no bigger than a jockey stood up bashfully.

"Sergeant Higginbotham serviced our engines before we left," the general said. "More than anybody else, he's the one who really got us around the world."

In view of these recent aeronautical feats, plus the imminence of a Geophysical year in which we propose to make the earth look like a symbol of the atom, what with satellites flying about, why not claim the moon for the U.S.?

RUSSIANS WANT MOON

Pierre Huss makes it sound both reasonable and even urgent in the February issue of Mechanix Illustrated. The UN correspondent of International News Service states that the Russians have designs on the moon, hope to be able to do something about it by 1970. Our claim is valid, he asserts:

★ ★ ★

"The first contact was made with the moon by the U.S. Army Signal Corps on January 10, 1946. Lt. Col. John H. Dewitt made the historic contact by radar at Evans Signal Laboratory, Belmar, N.J. The power radio impulse shot at the moon echoed back in two and one half seconds, a round-trip of 477,000 miles."

THE BERRYS — By Carl Grubert

You can't always spot a dictator in advance. Sometimes a potential dictator is just a sweet young girl in a wedding gown . . . George Gobel says a Californian was arrested on a serious offense: "driving a Jaguar without a smug expression."—Earl Wilson.

CONSTIPATED?
new laxative discovery un-locks bowel blocks
without gag, bloat or gripe

Constipation is caused by what doctors call a "thrifty" colon. A "thrifty" colon is one that, instead of retaining moisture as it should, does the opposite: robs the colon of so much moisture that its contents become dehydrated, so dry that they block the bowel; so shrunken that they fail to excite or stimulate the urge to purge that propels and expels waste from your body.

TO REGAIN NORMAL REGULARITY two things are necessary. *First*, the dry, shrunken contents of your colon which now block your bowel must be re-moistened. *Second*, bulk must be brought to your colon to S-T-R-E-T-C-H STIMULATE it and so, excite its muscles to action; to a normal urge to purge.

ONLY A BULK LAXATIVE can 1) re-moisten this dry, shrunken waste and 2) supply vital bulk to re-create a normal urge to purge. And, of all bulk laxatives, COLONAID, the amazing new lavative discovery is so effective that it relieves even chronic constipation overnight, yet is so smooth, so gentle it has been proved safe even for women in the most critical stages of pregnancy.

SUPERIOR TO OLD STYLE bulk, salt or drug laxatives, COLONAID neither gags, bloats nor gripes; does not interfere with your absorption of vitamins and other valuable food nutrients; and in clinical tests, did not cause rash or other side reactions.

IT'S A PHYSIOLOGICAL FACT: Exercise tones your body! And COLONAID exercises your colon to tone it against constipation, overnight! Whether occasional, frequent or chronic, whatever your degree of constipation, get COLONAID, in easy-to-take tablet form at any drug counter, today! The price, only 98c for the economical 60 tablet package, brings you positive relief at less than 2c per tablet.

'Blooding' Custom in British Sport Draws Protests

LONDON (AP) — Arguments for and against fox hunting have been stirred again — by the "blooding" of two babies according to tradition.

The faces of Anne Blundy, 5 months, and Robert Tucker, 18 months, were touched with the bloody severed paws of a fox killed by the Belvoir hunt on a farm owned by the children's grandmother. An authority of the hunt explained the "blooding" practice:

"The idea in the old days was that the child would become a good sportsman."

The protests came flooding in.

"The practice belongs to the age of the caveman," said a vicar, the Rev. R. T. Sievewright.

"An obscene rite, a barbarism more in keeping with Mau Mau ritual than the standards of a civilized Christian country," said the National Society for the Abolition of Cruel Sports.

In response, Sir Harold Nutting, 74-year-old squire of Quenby Hall, declared: "Blooding is an ancient and delightful custom. All young men in hunting life should be blooded."

U. of M. Has Courses for Pontiac Realtors

Registration for a University of Michigan Extension course in Pontiac will be held Wednesday at Lincoln Junior High School.

Two sections of Real Estate Sales Techniques will be taught by W. Earl Taylor. Regular teaching will also begin at the Wednesday sessions.

Objective of the course, says Ardell A. Henry, supervisor of the Extension Service for the lower Thumb area is to help those taking it to sell more real estate and to build confidence and power in dealing with others.

Registration times are at 4:30 and 7:30 on Wednesday at Lincoln, Henry said.

Infant Deaths Drop

NEW YORK—In 1942, forty out of every 1,000 babies born alive in the United States died within the first year. Today the infant mortality rate stands at 26 per 1,000.

Real Break for Birthday

OKLAHOMA CITY (AP)—Six-year-old Michael Sullivan had been worried about how he was going to cut his birthday cake since he broke his left arm and had to have it in a cast.

Just before the party, he fell off a low fence and broke his right arm.

Plan Refresher on Civil Defense

30 Employes of City to Get 4-Hour Briefing on Rescue Method

As part of an intensified Civil Defense program in Pontiac, some 30 members of the Parks and Recreation and Cemetery Depts. will go through a four hour refresher course in rescue training tomorrow afternoon at the incinerator plant off East boulevard.

The men will work with a live "casualty" and remove him with rescue equipment from a simulated "bombed in" basement, from a high roof down a side of the building, and from the same roof by means of a stretcher sliding down a rope.

Robert A. Stierer, administrative assistant to the city manager, said this course would be followed by classes in rescue techniques for heads of the city's health, water and department of public works, Feb. 4-7.

William Aho, director of rescue training, will conduct the courses. He will be assisted by Stierer, Kenneth P. Anthony, superintendent of city cemeteries, and Donald E. Nagel, city forester.

Stierer said the course tomorrow will see three teams perform which would be called upon in case of enemy attack or natural disaster.

1 in 5 Vehicles Fail to Pass Safety Tests

WASHINGTON—During the 1956 national Vehicle Safety Check Program, nearly 2,200,000 automobiles and trucks were voluntarily checked for safe operation. One out of every five vehicles checked was found to need maintenance attention to one or more parts.

Of the 10 items safety-checked, rear lights, brakes, and front lights stood out as parts most frequently in need of immediate service attention.

Romney Calls Employers Underdogs

Auto President Protests 'Inflationary' Wage Hikes

SAN FRANCISCO (AP) — George Romney, American Motors Corp. president, protested today against the encouraging "of inflationary wage increases through unrestricted concentration of union power."

"Most employers now are the underdogs," Romney said in a speech prepared for delivery to the National Automobile Dealers Assn. convention.

* * *

Romney, with a current United Automobile Workers strike at his Kenosha, Wis., American Motors Co. plant, noted in his speech that Walter Reuther "has already declared that in 1958 the UAW would 'win the highest economic wage concession we have ever won.'"

* * *

Continuing his quotation of the UAW leader, Romney said Reuther had declared, "We cannot convince General Motors to part with its millions by pious platitudes. We've got to have a wallop."

"It is an economic absurdity to discipline prices through the competitive process and, at the same time, encourage inflationary wage increases through unrestricted concentration of union power.

"The biggest economic decision our industry and our nation must make is whether to permit industry to go down the present union road of unrestricted concentration of power, or whether to restrain both and make them go down the American road of division and distribution of power."

* * *

Romney was the first of the motor industry's top brass to address the NADA convention. The NADA just one year ago was protesting loudly before Congress against the selling pressure of the automobile manufacturers.

* * *

Carl E. Fribley of Norwich, N.Y., NADA president, said in his annual report address that the "major surgery" of the O'Mahoney-Celler bill on dealer franchises had corrected most of the conditions causing anemic or no-profit operations for dealers while the manufacturing twin was "healthy and strong."

Romney contended that "the chain reaction of pattern wage setting basically fixes the level of costs and prices."

* * *

"What would be the reaction of car buyers to an industrial counterpart of Walter Reuther negotiating and fixing with him the level of labor costs for all car companies if the level is then followed by price increases by all companies?" Romney asked.

He declared the antitrust laws should be modernized and "the basic conflict between the antitrust laws and the labor laws should be eliminated."

Unlike Carefree High Schoolers of the 1920's

Today's Teens Face Harsh World

By RELMAN MORIN

NEW YORK (AP)—The teen-ager's high school newspaper came into the house the other day, like a bulletin from outer space.

★ ★ ★

Foreign news on page one. They have "adopted" a town in Greece and a Greek student had written back. A competent report described developments in a constitutional question. Other items reflecting a world incredibly different from your own high school world, more complicated, showing stresses and anxieties unimaginable to the teen—ager of a generation ago.

Think back a moment.

No shadow of war darkened America in the 1920s. War had been locked away securely, people said, by the Kellogg-Briand Pact; nations bound themselves never again to use force. Armies were small. Conferences in Washington and London had drawn the fangs of the big navies, limiting them, in theory, to purely defensive capabilities.

★ ★ ★

A "dictator" was a dusty word in the pages of ancient history. few people had even heard of "genocide."

The atom? Intercontinental missiles? Buck Rogers stuff. Oh, sure, there were bombs, but not very big ones. Besides, how could anyone bomb America? The oceans were much too wide.

On another front, the future stretched ahead into reaches of dazzling promise. Business was booming. The stock market, running wild, was going through the roof. Not unreasonably one way or another, a young man might hope to make—and keep—a million dollars before he was 40, which, of course, was getting pretty well along in years.

★ ★ ★

It was a serene, uncomplicated world, with cerulean skies and favorable winds.

And in a wink, it blew to bits. First the depression, then the dictators, then war in several forms.

For nearly 30 years, Americans have lived with this triple-headed spectre. Their children grew up with it. They have breathed insecurity from the knowledge of being vulnerable to unpredictable forces and men.

Yet there is a brighter side to this.

★ ★ ★

The depression taught us about unbridled speculation. Adolf Hitler taught us the dangerous idiocy of dictators. Hiroshima gave us a preview of the dimensions of any future war. And the Russians have been able instructors, teaching us about subversion and infighting in a cold war.

Today few Americans assume that the oceans are still wide enough to shield them from physical harm. They know about war and the necessities for military service. They would expect to sacrifice rather than appease.

★ ★ ★

So a parent may regret that his children aren't having it quite so good in some ways as he did at their age. But he can be glad they are better equipped for a rough world than he was.

Take Unusual Coins

DILLWYN, Va. (AP)—Yeggs who robbed a safe may attract some attention if they try to dispose of the loot.

The haul included a set of Cuban coins, several United States 2-cent pieces, some nickels thicker than those in use today, a number of large U. S. pennies, 100 Indianhead pennies and about 20 very old silver dollars.

C. I. Poole, owner of the general merchandise store which was robbed, valued the odd coil collection at $200.

Graceful Walk Will Make Good Impression

By JOSEPHINE LOWMAN

Once in a while it is fun to let my readers peep into my mail bag. The half million letters come to me each year from people in all walks of life, of all ages and from all section of the country. Therefore their letters provide a good cross-section as to what women are interested in; what their problems are.

★ ★ ★

For a few days now I will write about some of the questions these letters provoke.

"Dear Mrs. Lowman:

"Have you ever been in a car which is parked by the curb, or in a crowded railway station or in a hotel or some similar place, and watched women as they walked by? Have you ever deliberately observed the manner in which they walk?

"I did this not long ago and was truly astounded to see how very few women move with grace. They either waddle, or walk stiff-legged in a jolty manner, or take mincing little steps, or swing along with a manly stride using their arms as though they were propellers.

"This really is not an exaggeration. I think it would be most helpful to us if you would give us some pointers which will help us develop a graceful walk."

★ ★ ★

What this reader says is true. There is need for instruction and thought along this line. Here are the pointers:

First, pull your abdomen in and tuck your hips under. Reach straight forward with each step, not to the side. Place one foot in front of the other as though you were walking a straight line. The knees should be relaxed.

LONG, SLOW STEPS

Practice taking long, slow steps as though you were dancing with a sort of glide step forward. Try to keep the steps smooth as you shorten them to a natural pace.

Let your arms swing at your sides but do not "pump" with them.

The habit of walking about the room with a book on your head is splendid practice for improving your walk as well as your posture. The book will not remain on your head if your walk is jerky.

The habit of walking about the room with a book on your head is splendid practice for improving your walk as well as your posture.

It is indeed well worth while to develop an attractive walk. This can make a great difference in the impression you give.

THOSE ON MARATHON SHOULD BE IMPROVING

Those of you who started in on the eight-week self-improvement Marathon at the beginning should be "over the hump" by now. After this much time you should be fairly well accustomed to cut rations and should not miss the larger amounts you consumed before.

★ ★ ★

You also should be past the stage of muscle soreness, except once in a while when you use a new group of muscles or use them in a new way.

I am certain that most of you are beginning to notice that your clothes are getting looser. Isn't it a wonderful feeling when you have to take the seams in instead of let them out?

For years you have no doubt heard women blame overweight on their glands. Do not be misled by this. Overweight is due to glandular deficiency in such a small percentage of women that you should not even hold the thought.

★ ★ ★

However, if you actually have dieted faithfully, counting everything you eat or drink at meals and in between meals, with no cheating, and if you are sure that you are counting the calories correctly, and still fail to lose weigh, you would be wise to ask your doctor for a metabolism test.

If he then finds that you need medication he will prescribe it for you and this, plus your diet, will bring you the figure you long for.

AND EXERCISE, TOO

Unless there is some reason for not exercising, you will obtain a much prettier result if you do so. This will not only aid you in a loss of pounds, but if you concentrate on the right exercises, they will speed the loss in inches where you want to lose most. Therefore you will not only lose the extra pounds but will bring your figure into better proportion.

★ ★ ★

It is a fine idea to pay special attention to skin lubrication during a period of reducing. Even though you may not generally use a body lotion, do so now. Also load the cream and oil onto your face and neck.

I run my eight-week self-improvement Marathon each January. If you missed it and would like to join to see how much you can improve your appearance and health in eight weeks time, send 10 cents and a stamped, self-addressed envelope with your request for the Marathon booklet. Address Josephine Lowman in care of The Pontiac Press.

Pretty Solon Rules Out Party Whirl

Rep. Iris Blitch of Georgia Puts Her Duties First

By JANE EADS

WASHINGTON—Rep. Iris Blitch (D-Ga), one of the prettiest members of Congress, says lawmakers can't do their best job in Capitol Hill and stay aboard the Washington party-go-round as well.

"The job comes first," she observes, "You have to draw a line, as I found out when I first came here in 1954. I've had to cut down on my social life both here and at home. Now, I only go to the functions where I think my presence will be of importance to my district."

So drastically did she limit her social engagements, she adds, that she didn't even go to the White House, generally considered a "must" bid, when invited with other members of Congress.

"You have to work out your life here by yourself," she explained, "sort of by rote, not by note."

★ ★ ★

Things are easier this session for the petite, dark-eyed congresswoman, whose extremely youthful appearance belies the fact she is mother of two grown children and a grandmother.

GETTING ORGANIZED

"I spent so many long hours getting organized during my first term," she said, "now I have my entire staff back with me. It's a blessed relief.

"I'm almost up on all my current correspondence and all my files have been moved up from my offices at Homerville, my home, and Waycross."

★ ★ ★

Mrs. Blitch won her first term by unseating a four-term veteran, Don M. Wheeler, in Georgia's 8th District. She had served two terms in the State Senate, one in the Georgia House and was a former Democratic national committeewoman.

She ran for Congress at the insistence of her family, especially her son, Brooks, now 22, a graduate of the University of Georgia who is leaving his studies at Emory Law School to enter the Navy.

Her daughter, Betty, married to Henry D. Turberville and living in Phoenix City, Ala., presented her with a grandson six months ago.

Her husband, Erwin Blitch, a druggist, is owner of 3,000 acres of timber plus a cattle ranch.

NEEDS SUPPORT

"No woman can go into public office without the 100 per cent cooperation of all the members of her family," Mrs. Blitch said. "It has to be a family affair."

★ ★ ★

Mrs. Blitch lives in Virginia, where she is visited from time to time by her husband and children.

Waiting for the first visit from her grandson is a playyard complete with swings, a slide and exercise bars.

"And, he can't even sit up by himself yet," she laughs.

Most Women Dread Day When Hubbies Quit Work

Feminine Attitude, Behavior Continue to Puzzle the Opposite Sex

By RUTH MILLET

There are some things men don't generally understand about women.

★ ★ ★

For instance, although women talk glibly about the day when their husbands will be able to retire, most secretly dread it. They know that a man with nothing to do is underfoot around a house.

That when a woman criticizes her best friend in talking to her husband she isn't, in her mind, being disloyal. She is just building herself up by mental comparison.

That what a man marks down as cattiness about other women is often just the plain, unvarnished truth a woman is afraid a man won't see for himself.

★ ★ ★

That a woman is as annoyed by a husband's criticizing the way she runs the house as he would be if she went down to his factory or office and criticized the way he handled his job.

THOUGHT MATTERS

That what a man gives a woman for a gift doesn't matter very much so long as she knows he gave it a lot of thought and picked it out himself. What infuriates a woman is having a man run out at the last minute and buy just anything in order to have a gift for a special occasion.

★ ★ ★

That any woman enjoys being told she is a good cook, but no woman would rather have a compliment on her cooking as on her looks.

That one sure-fire way of riling a woman is to comment on another woman's stupidity with the masculine remark, "If that isn't just like a woman!"

That a woman not only wants to know a man loves her, she wants to have him say so—and often.

Mrs. Hedley Hosts Local Story League

Mrs. Walter H. Hedley was hostess to the Pontiac Branch of the National Story League at her home in Birmingham. Plans for spring activities were discussed at the recent meeting.

Featured on the program were Mrs. Joseph E. Swift, Mrs. Theodore Fauble and Mrs. Elmer Hutson, who told stories. Laura Cobb, Julia Dalzell and Mrs. W. M. Twichel were evaluators for the evening.

Edward Sizemore Takes Jean A. Vought as Bride

The Rev. Richard C. Stuckmeyer of Grace Lutheran Church officiated at the ceremony Saturday evening uniting Jean Ann Vought and Edward W. Sizemore in marriage.

Two hundred guests attended the 7:30 o'clock service.

Mr. and Mrs. Max Vought of South Genesee avenue are parents of the bride. Edward is the grandson of Mr. and Mrs. Edward F. Sizemore of Henry Clay avenue.

The bridal gown was fashioned of Schiffli-embroidered nylon tulle with a Sabrina neckline and long sleeves tapering to points at the wrists. The skirt was floor-length.

A crown headpiece of tulle embroidered with seed pearls and iridescent sequins held the bride's fingertip veil, and she carried a white orchid with white carnations and lily of the valley on a white Bible. Her only jewelry was a single strand of pearls.

SISTER ASSISTS

Janet Vought was her sister's only attendant. She wore a ballerina-length aqua dress with a V neckline, fitted bodice and full skirt. She carried a bouquet of pink carnations.

Gordon Sizemore was best man for the service and seating the guests were Bill Turner and Paul Duggan.

When greeting her guests at the reception held in the civic room of the Pontiac Federal Savings and Loan building, Mrs. Vought wore a brown and beige dress with beige accessories and an orchid corsage.

Mrs. Sizemore wore a navy blue dress for her grandson's wedding. Her accessories were navy and white and her corsage was also an orchid.

* * *

For her wedding trip, the new Mrs. Sizemore changed to a blue and white striped wool jersey dress with navy accessories and the orchid from her bridal bouquet. On their return, the newlyweds will reside in Pontiac.

This year, in addition to the bridge party, Panhellenic sponsored the Civic Players group, with proceeds also to the scholarship fund.

Boy Claims Courtesy Is Sissified

Says His Friends Would Make Fun of Good Manners

By EMILY POST

A mother writes me as follows: "I have a 16-year-old son who says I am trying to make a sissy out of him because I insist that he follow certain rules of courtesy, such as rising when a lady comes into a room, tipping his hat when meeting a lady on the street, etc.

"He says none of the boys in his group follows these practices and that if he were to do so he would be the laughing stock of all his friends and they would never stop ribbing him.

"Am I wrong in insisting that he follow these courtesies even though the others in the group do not, or should the maxim, 'When in Rome do as the Romans do,' be followed?"

Answer: You are right in expecting him to behave as a well-bred person and the unwillingness of his friends to be polite is evidence of ignorance on the part of their parents in failing to bring them up properly. Every well-born man is polite and their is nothing "sissy" in having good manners.

"Dear Mrs. Post: I have just received an invitation written on an 'informal' card reading: 'To meet Mrs. Henry Brown' and the time and date. This invitation does not include R. s. v. p. However, I am wondering whether or not it should be acknowledged anyway, and if so, how?"

Answer: Because no special preparation has to be made for a definite number of guests, no answer is necessary if you are going. If you cannot go, a note of regret, while not expected, would be a thoughtful courtesy.

"Dear Mrs. Post: If two young couples go into a restaurant and sit in a booth for four, is it best for the girls to sit on one side together and the men across, or for each girl on a side with her own friend next to her?"

Answer: There is no definite rule—generally boy and girl sit next to each other.

Maple Leaf Club Names Officers, Committee Heads

Mrs. Vivian Tubbs was elected president of the Maple Leaf Luncheon Club at the Friday luncheon-meeting held at Hotel Waldron.

Other officers include Mrs. Leo J. Heenan, secretary; and Mrs. Fred Johnson, treasurer. Mrs. Ernest Sadler was welcomed as a new member.

Mrs. Tubbs appointed Mrs. George Bolton as program chairman; Mrs. H. J. Endries, press chairman, and Mrs. William McClure, historian.

Mrs. William H. Bedard, outgoing president, presented perfect attendance pins to Mrs. Endries, Mrs. Wendell Newman, Mrs. H. T. Rombough, Mrs. Stewart Townsend, Mrs. McClure and Mrs. Erwin Rogge.

Hostesses for the February meeting will be Mrs. Townsend, Mrs. Frank Becker, Mrs. Newman and Mrs. Charles Lloyd.

Receive Degrees at White Shrine

Mrs. John Walls and Mrs. Wilma Bendle of Pontiac White Shrine 22 received the degree of the order, and members of shrines from southeastern Michigan exemplified the work of the group, at a recent meeting.

Committee members for the buffet supper were Catherine McCrindle, Mrs. H. W. Blaicher, Mrs. Wilfred Fleming, Olive Burgess, Florence Wallace, Mrs. Davy Gilpin, Mrs. L. R. Buffington, Mrs. Clinton Clough and Mrs. John Sellman.

The Shrine was host recently to 200 representatives and officers at a recent school of instruction.

134 Attend Dance of Allemanders Club

Sone 106 members and 28 guests attended the Saturday dance of the Allemanders Square Dance Club, held at Isaac Crary School.

Sam Joan, club caller, mixed square dances and novelty dances during the evening. Refreshments were served by the group.

Members of the primary department of the First Presbyterian Church-Sunday School attended the reception for the Rev. and Mrs. Edward D. Auchard Sunday following his last sermon. Mrs. Auchard and daughter, Joanne (left), were photographed with John Hoffman of Miller street and Ann Thomas (right) of Shore View drive.

Quadrille Club Dance Is Held

William Schmiel served as master of ceremonies at the Sa-Shay Quadrille Club dance held Friday evening in the Elks Temple. Assisting were Bert Denham, Oscar Denham, John DePauw, Howard Upton, and William Spalding.

Guests attending the party were Mr. and Mrs. James Calek, Mr. and Mrs. James Teppley, Mr. and Mrs. Carl Tenney, Mr. and Mrs. Roy Holberg, Jane Thornberry, Fred Beckwith, Mrs. Frances Erb, Mrs. Grace Olsen and Elmer McQuern.

During the evening prizes were awarded to Mrs. John DePauw and Harold MacDonnell.

She Profits by Working 'For Free'

By ANNE HEYWOOD

"It never pays to do things for free. If they don't pay for a thing, people don't value it."

I don't know how many times I've heard that thought expressed in one way or another. But even if it were true—which I don't really believe—the way it makes people look, the thin-lipped and unattractive faces it gives people, is enough to discourage me from believing it.

Moreover, some of the "luckiest" breaks come to people as a direct result of things they've done "for free."

Take, for example, Lucia K. Lucia is a young mother who has three children in primary school. Before her marriage, Lucia had begun to study art.

But she soon realized that she just couldn't afford art courses and that she would have to take a job to help support her father and mother. So she switched to beauty school and became an expert hairdresser.

"The art training helped a lot," she told me. "I used to design hairdos which did the very most for my customers."

RESUMED WORK

Later, when the children were in school, she resumed her interest in hairdressing. She helped friends with their hair styles, did the cutting and setting—all for free—and was perfectly marvelous at it.

One day her club gave a big fashion show. Club members acted as models and the town's best specialty store supplied the clothes.

Lucia did the hair styles for all the models and selected the proper hats for those who were wearing daytime costumes.

Some people said she was wasting her time, doing all that work for no pay. But the show was a big success. So much so, that the store decided to give many more.

★ ★ ★

And they hired Lucia to help! She was hired on a part-time basis to work with the models and to advise women on what hats to buy.

INTERESTING JOB

Lucia now has the kind of flexible hours and good pay in an interesting field that most women only dream of having. But then, most women aren't willing to do anything for nothing!

★ ★ ★

If you would like an interesting job, but have no idea what field is right for you, send me a stamped, self-addressed envelope and I'll send you my pamphlet, Pointers Toward Finding Your Basic Interest.

Expect Arrival of Turncoat

Hawkins Should Cross Into Hong Kong With Wife This Week

HONG KONG (AP) — Another Korean War turncoat is on his way home to the United States.

The U. S. consulate said Samuel David Hawkins, former U.S. Army private from Oklahoma City, would probably cross into Hong Kong this week after three years in Red China.

★ ★ ★

Hawkins is reported to have married a White Russian girl in China. His mother, Mrs. Carley Jones said in Oklahoma City two weeks ago the consulate in Hong Kong had notified her the couple would be permitted to go to the United States.

Hawkins' departure will leave in China 13 of the 21 U. S. soldiers captured during the Korean War who refused repatriation. Six others have returned and one died of a heart attack in China.

Hawkins attended Peiping University for two years and since has worked in an auto repair plant in the Chinese capital. He complained to a Pakistani newsman last summer that he found life drab in Peiping and had to attend meetings four or five times a week after working all day at the plant.

Beltsville Lambs Promise Better Meat and Wool

BELTSVILLE, Md.—Hybrid lambs, some of which have been developed at the United States Department of Agriculture Research Center, Beltsville, promise ranchers increased efficency in meat and wool production. Representing two and three-way purebreds, the Beltsville hybrids have far outclassed their parent stock in production and in reduced mortality.

The lambs are crossed of purebred Hampshires, Southdowns, and Merinos of strains improved through several years of selective mating and line breeding.

The Department says commercial raisers can produce vigorous hybrid lambs by crossing their own grade flocks with high-quality purebreds of another breed.

COLUMBUS, Ohio (AP)—Pet shop owner Walter Gray ordered a female golden squirrel monkey from a New York importer. A box arrived with two monkeys — the female and a baby born in transit.

U.S. to Build Pavilion for Exhibits in Belgium

NEW YORK (AP) — A five-million-dollar circular pavilion will house United States exhibits at the World's Fair at Brussels, Belgium.

More than 50 countries, including Russia, are expected to send exhibits to the fair, which opens a seven-month run in April 1958.

The U. S. building, being shown here in scale models, will be 340 feet in diameter and 95 feet high with 120,000 square feet of exhibit space on two levels.

Close Finishes Mark YMCA League Tilts

Most of Saturday's YMCA Community League basketball games were tightly contested affairs, with the "Y" and Waterford Hi-Y argument winding up 20-18 for YMCA, and St. George edging taller Phalanx No. 1, 29-26 for the closest margins. Sousans' 11 points were tops for St. George. Jarrett (11) paced YMCA.

★ ★ ★

In another game, fast-breaking Stone Baptists dumped Lake Orion Hi-Y 31-24 with Nichols and Robertson leading the way with 11 and 16 points respectively. Phalanx No. 2 upset Pontiac Hi-Y 27-14, led by Holloway, Albright and Hart, each with six points.

Hi-Y Swishers edged First Baptists in another close one.

Wings Win, 3-1; Lead Montreal By 3

By BILL CORNWELL

DETROIT — Saturday and Sunday were highly rewarding days for the Detroit Red Wings. Yes, indeed!

The Wings skated to a 3-1 victory over Toronto Sunday night before 13,967 delighted spectators at Olympia Stadium to complete a two-game weekend sweep from the Maple Leafs.

In contrast with Detroit's fruitful weekend was Montreal's utter frustration. During the same two-day span the Canadiens were held to a 4-4 tie at home by the lowly Chicago Black Hawks and handed a 5-2 drubbing by the Bruins last night in Boston Garden.

The result of all this was to catapult the Red Wings into 1st place in the tense National Hockey League race, three points ahead of Montreal.

Detroit's performance here last night was not as impressive as Saturday's 4-1 win over the Maple Leafs at Toronto. But it was still plenty good enough.

Norm Ullman and Dutch Reibel connected for 1st period goals and rugged Johnny Bucyk supplied the clincher in the 3rd stanza at a time when the Leafs were having target practice at goalie Glenn Hall's expense.

Hall had a busier evening than Ed Chadwick, coming up with 31 saves compared to 28 for the Toronto netminder. He made 14 stops in the 3rd period, a few of them at point-blank range.

Thirteen penalties were assessed, all confined to the 1st two periods, and four violations figured in the scoring.

Ullman's 12th goal of the season was posted at 8:36 while Toronto's Barry Cullen was in the penalty box for hooking. Ullman received Alex Delvecchio's relay at the left of the cage and rifled a 15-footer past Chadwick for the game's opening tally.

Reibel rang up his 12th goal of the year at the 12:04 mark while Detroit's Ted Lindsay and Marc Reaume of the Leafs were both sitting it out for high sticking.

Billy McNeill, who was given an assist on the play, banged a hard shot which caromed off the boards. Reibel rescued the rebound and flipped it past the unprotected Chadwick.

The Leafs came charging back for their lone goal. With newcomer Gordon Strate off for holding, Rudy Migay slapped George Armstrong's rebound into the cage with only 49 seconds remaining in the 1st period. Hall made a brilliant save on Armstrong's shot, but he had no chance on Migay's follow-up.

Although scoreless, the middle stanza was the most action-packed session of the entire 60 minutes.

Midway through the period the public address system announced Boston's triumph over the Canadiens. The good news perked up the Detroiters considerably, but they couldn't cash in on their opportunities.

Bucyk's goal at 11:38 of the final period, No. 6 for the season, was a picture effort. He took Bill Dineen's long pass, raced in to the left of Chadwick, faked him out of position and flicked a backhander into the net.

Toronto applied frequent pressure on Hall in the 3rd period, but the Wing goaltender always responded to the challenge.

Then Bucyk clicked and the pressure of an unsafe 2-1 lead was relieved.

The veteran Lindsay was credited with an assist on Ullman's goal, enabling him to tie Montreal's Jean Beliveau for the NHL scoring leadership.

Pistons Boost 1st Place Hold

By THE ASSOCIATED PRESS

Out of the weekend of competition in the National Basketball Assn., the Boston Celtics emerged as even more of a shoo-in for the Eastern Division title and the Fort Wayne Pistons strengthened their shaky hold on first place in the Western Division.

★ ★ ★

In their lone game, the Celtics easily defeated Philadelphia 107-87 yesterday to boost their lead over the second place Warriors to 6½ games. The Warriors also lost to Fort Wayne 101-98 Saturday and saw their margin over third place New York cut to a half-game as the Knicks dropped a 103-102 overtime decision to Fort Wayne yesterday after beating Minneapolis 122-107 Saturday.

★ ★ ★

The Pistons' two victories gave them a full game advantage over the St. Louis Hawks, who handed Rochester a 107-83 setback Sunday for the Royals' 10th successive defeat.

Syracuse moved in on the leaders in the Eastern Division with two triumphs — 99-95 over Rochester Saturday and 94-93 over Minneapolis Sunday.

LINDSAY IS JOHNNY-ON-THE-SPOT — Ted Lindsay (7) of the Detroit Red Wings is ready and waiting as teammate Norm Ullman (16) tries to pass the puck on play broken up by Toronto Maple Leafs in last night's game. Lindsay has been praised for his brilliant play in the last month which has helped boost the team into first place. Detroit won the game 3-1.

St. Louis Team Wins Pin Crown

ST. LOUIS (AP) — St. Louis again reigns as the National team match game champs of bowling after a strong triumph over Chicago.

★ ★ ★

The St. Louis team held a 1,064 pin margin after the 24-game match that began in Chicago last weekend and ended here last night.

Chicago held a 136 pin margin after twelve games at home, but the defending champions needed only two games on familiar alleys here to erase that deficit and grab a lead they kept enlarging.

★ ★ ★

The winners poured it on in the last block of three games last night, winning 3,429-2,923.

Ray Bluth of St. Louis had the high average for the tournament —215. Teammates Pat Patterson and Don Carter, National match game champ, averaged 213 and 212, respectively. Carl Richard had the loser's high average — 212.

Three Enter Playoffs in Thunderbird Meet

PALM SPRINGS, Calif. (AP) — There were 273 strokes to a golf ball that brought on a playoff today between Jimmy Demaret, Ken Venturi and Mike Souchak for the $2,000 top money in the Thunderbird Invitational tournament.

But the most spectacular stroke of them all was the last one Souchak smote on the 18th green in the windup round.

It traveled 40 precious feet up the green and straight into the hole. This putt had more pressure attached to it than Iron Mike's sturdy 212 pounds.

★ ★ ★

It gave him a 67, a 72-hole total of 273 and forced a three-way playoff with rollicking Jimmy Demaret and Venturi, the 25-year-old ex-amateur star from San Francisco.

This playoff was for 18 holes and if they finished in a tie, a sudden death duel was in the offing. Thunderbird's par is 36-35—71.

Three years ago Souchak, 29-year-old ex-Duke University football player, engaged in a playoff here with Shelley Mayfield and Freddie Haas Jr. Mayfield and Mike finished the 18 all even, shaking Haas loose. Then Mayfield beat Souchak on the 20th hole, sinking a seven-foot putt while Mike missed an 8-footer.

★ ★ ★

Yesterday's emotion-jammed finish was tremendous, a climax to one of golf's more interesting experiences.

Demaret had surged into a tie for the lead en route toward the 18th. He overshot the last green—the one he shot an eagle on in 1953 to beat his pal, Ben Hogan, by a stroke in this same tournament—but he recovered to get his par four and a 67 for the day.

★ ★ ★

On came Souchak, Venturi and Julius Boros, the latter by then out of contention. Venturi, who as an amateur had led all the great pros in the Masters last year for three rounds, had shown signs of cracking at the 14th and 15th holes.

In the Masters he did crack, but not here. He got on the last green nicely and putted up some three feet from the cup. It was fairly sure he'd sink the putt and tie Demaret.

★ ★ ★

Souchak, however, had to make a birdie with his 40-foot putt.

He did it and he, the crowd, and the onlooking Demaret, if not Venturi, went wild.

Mike threw his club and his cap in the air. He rushed over and went into a hugging match with Demaret, who seemed as delighted as Souchak over the putt.

Souchak buried his head on Jimmy's shoulder. He said, just loud enough to be overheard, "Jimmy, I didn't make that putt. The Lord did."

★ ★ ★

He lifted his head. Tears were streaming down his face.

Venturi got his putt for a 69 and cracked, "I've seen it all."

Cary Middlecoff had a 70 for 274 and $650, and tied at 275 were Boros and Dick Mayer, whose 66 was one of the low scores of the day.

Art Wall Jr., co-leader with Venturi starting out, had trouble with a tree on the 12th and finished with a 72 for 276.

Bada-Bone Duo Leads Doubles

Pair Totals 172 Pins Over Average in GMC Tournament

A man-woman combination posted the most pins over average and the male member of the duo went on to compile the high actual game to feature the opening week of bowling in the GMC Annual Doubles Tournament.

Golfer Paul Bada was the individual hero of the day as 220 doubles keglers competed at the Pontiac Recreation alleys. About the same number are expected to see action when the event comes to a close next Saturday and Sunday.

Bada teamed with Wilhelmina Bone for the most pins over average with 172. His single game score of 247 topped that department.

Oz Jewett and Dick Carmichael took the honors in doubles series hitting 1203. Carmichael also finished 1st in high actual series with 659 pins.

In the women's division, Ruby Keller's 211 was good for the high actual game. H. Clark had the best series of 546. Red Foster led the field in most pins over average in series with 122, and D. Robitaille had the top mark for most pins over average game with 76.

Need Trades to Be Contender

Phils Have Mound Strength

(Another in a series of managerial views on the pennant races, written under the managers' own bylines—Philadelphia Phillies.)

By MAYO SMITH

LAKE WORTH, Fla. (AP)—Before the Philadelphia Phillies can be considered a strong pennant contender, we must first secure a top flight shortstop and right fielder. Roy Hamey, our general manager, is making every effort to secure these two men for us and, if he does, he will be conspicuous in the National League in 1957.

I think we have everything else to be a factor in the championship race. Certainly, we have the calibre of pitching a good team needs. In fact, pitching is the strong point of the club.

The addition of Jim Hearn and Jack Sanford, a service returnee to a staff headed by Robin Roberts, Curt Simmons, Harvey Haddix and Bob Miller, makes us rich in that department.

Our biggest weakness last year, next to a leaky defense, was poor relief pitching. Jack Meyer, who doubled as a relief and starting pitcher for us last year, had arm trouble part of the campaign and he should be sound again this season. We are bringing up four good looking prospects from the Miami Marlins and I'm hoping to get some help from them.

★ ★ ★

At the present it is difficult to say whether we are stronger than we were last year. But I'm sure we didn't hurt ourselves over the winter.

I was pleased when Hamey got Rip Repulski, as well as infielder Bobby Morgan, from the Cardinals in exchange for Del Ennis.

I think we'll get greater mobility from the younger and speedier Repulski, who is not only going to help us in left field but I'm sure his bat will prove beneficial, too.

★ ★ ★

I'm tremendously pleased with the work of Stan Lopata last year. His catching suits me fine. He set a club record for righthanded batters when he hit 32 home runs last year.

As far as defensive standouts, Willie Jones topped the league's third basemen for the fourth year in succession. My admiration for Willie embraces more than his glove work. I think he is one of the finest clutch hitters in baseball.

As for the 1957 pennant race, I expect it to be every bit as exciting as the '56 thriller. Brooklyn will be the club to beat, but they have several "ifs" such as Pee Wee Reese, Carl Furillo and Roy Campanella. If Brooklyn should fail, it will be a ding-dong battle between Milwaukee and Cincinnati, with Milwaukee having a slight edge, due to better pitching.

Seeks 3rd Senior Title

Watrous in PGA Playoff

DUNEDIN, Fla. (AP) — Two-time winner Al Watrous of Birmingham, Mich., and Bob Stupple of Cedar Rapids, Iowa, competing for the first time, tangled today in an 18-hole medal play battle to determine the PGA Senior champion.

★ ★ ★

They finished the regular 54 holes all even at 210 yesterday. That broke the tournament record of 212 set in 1955 by Mortie Dutra of Calexico, Calif. Dutra finished in a three-way tie for seventh this year with 216.

★ ★ ★

The winner gets $1,000 and a trip to England to play against the British Senior champion next summer. The loser gets second place money of $700.

Stupple shot yesterday's low score of 70 to gain the tie. He is 50, the minimum age to compete in the senior event.

Watrous, 57, came in with a 71, one under par for the 6,589-yard PGA national course. He has won this tournament twice.

★ ★ ★

Stupple is relatively unknown. His only tournament victory was in the St. Petersburg Open in 1933.

In a three-way tie for third with 211 were Willie Goggin, Rutherford, N.J.; Jack Ryan, Louisville; and Jim Barfield, Grand Rapids, Mich.

★ ★ ★

Gene Sarazen of Germantown, N.Y., whose first round 65 was a tournament record, wound up with 212, good for sixth place.

The 1956 winner, Pete Burke of Cold Spring Harbor, N.Y., was in a four-way tie for 10th with 217.

Buckeye Quints Surprise of Big 10

By THE ASSOCIATED PRESS

While the main contenders in the Big Ten basketball race have been keeping tabs on each other, "have-not" Ohio State has shot to the front and shows no signs of letting up.

The surprising Buckeyes, who already have swept to a 6-0 league record (11-3 overall), go after No. 7 tonight against Michigan State. Before the season got under way, the Buckeyes were written off. They had a poor freshman team last season and lost the talents of Robin Freeman, their high scoring ace, by graduation.

So this season was figured to be no picnic for coach Floyd Stahl, who has won just one league title—1950—in 10 years of piloting the Buckeyes.

But the club has demonstrated it doesn't buckle under pressure. Last Saturday, the Buckeyes licked Northwestern, 83-73, after permitting the Wildcats to tie it at 65-all with eight minutes remaining.

★ ★ ★

Illinois, Purdue and Michigan (all 3-1) are tied for second place and after the week's action one of them should have undisputed possession of the spot. The Illini, No. 9 in the Associated Press poll, are the Buckeyes' biggest threats.

Meanwhile, North Carolina (15-0) and Kansas, (12-1) the big boys of the nation, get back into action. The top-ranked Tar Heels have what appears to be an easy assignment against Western Carolina (12-6) Wednesday.

Here is a quick rundown on the other conferences:

Missouri Valley

First-place Bradley (6-0) is not scheduled, but St. Louis (4-1) has an important game with Oklahoma A&M (1-3) tomorrow night. The Aggies hold a strange jinx over St. Louis at Stillwater. In nine tries, St. Louis never has won on the Aggies' home floor. But they must this time to stay in the running.

Pacific Coast

UCLA (4-0) plays two important games with Oregon State (2-4) this week, California (6-0) is idle. Washington just about eliminated Oregon State as a title threat over the weekend by trimming the Beavers twice.

Ivy League

Princeton (5-0) still the class of the league, but doesn't get back into action until a week from Tuesday.

Southwest

Rice (4-1) leading but can't afford to relax with SMU and Baylor (both 4-2) hot on the Mustang's trail.

Drayton Dog Places Second in Eastern Test

Crestview's Robin Hood, owned by Thomas N. Higgins of Drayton Plains placed 2nd in the Southeastern Brittany Club field trial open derby stake in Pinehurst N. C. over the weekend. He was close to the winner, Kaymore's Remarkable Ruby, owned by Herbert Farnsworth of Andover Mass.

PINEHURST, N. C. (AP) — A Columbia, S. C., dog dominated the Southeastern Brittany Club's annual field trials yesterday. Huchoirs Martin, owned and handled by James H. Williams of Columbia, won the Open All-Age Stake.

Captain-Sponsor Bowling Tourney Begins Feb. 2

Any sponsored team bowling in Oakland County is eligible to compete in the 7th annual Captain-Sponsor Tournament to be held Feb. 2-3 and 9 at the Land-O-Lakes alleys, it was announced today by the sponsoring Bowling Proprietors Association of Greater Pontiac.

Competition is scheduled throughout the opening weekend and will conclude the following Saturday. A banquet at the Old Mill Tavern will bring the event to a close the night of Feb. 9.

Numerous prizes will be awarded following the keg play. Some of these will be for high scores, most strikes, youngest and oldest bowler and many others.

Teams from leagues at the Association's nine alleys are expected to comprise the majority of entries in the event.

Top area scores the local keglers will be aiming at in the three days of bowling are a 290 posted by L. Redmond among men and Ann Carlson, who hit the women's high of 255.

Oakland County Prosecutor Fred Ziem and noted Detroit bowler George Young will be among the guests at the post-tourney fete. Many other outstanding keglers and several alley operators will also attend.

Falcon Rally Brings CIO League Victory

A second half uprising brought the Local 594 Falcons a 48-39 victory over Local 653 in Sunday's top UAW-CIO League basketball game at Jefferson Junior High.

Facing a 28-21 deficit at halftime, the Falcons rallied in the 3rd quarter to grab a 38-36 lead and then win going away. John James with 11 points and Cy Simpson and Gene George with 10 apiece were high scorers for the Falcons. Al King of Local 653 took game honors with 17 points.

In yesterday's other CIO contest, Local 596 led all the way to defeat the Local 594 Vikings, 49-40. Jim Pembroke tallied 22 points for the winners while the Vikings' Chet Woodmore made 15.

Local Teams Pace Elks Tourney

By CHUCK ABAIR

New leaders were listed in every division except singles today following the second weekend of play in the Michigan State Elks Bowling Tournament being held here under the sponsorship of Lodge 810. Six more weekends will complete tourney play.

★ ★ ★

Pontiac teams are almost completely dominating the five-man event thus far and seven local keglers rank among the top 10 in singles play to give the host city strong representation. Battle Creek, which made its 1st appearance this past weekend, in very impressive fashion, and Detroit have taken charge of the doubles event.

A red-hot Dickie's Service team took over the lead in both the singles handicap and actual pinfall divisions with scores of 2301 and 2832 as only two of last week's best 10 survived elimination.

Detroit star John Gavie and Pontiac's Ralph Puckett remained atop the singles handicap heap. Gavie also leads in singles actual with a 691.

★ ★ ★

The doubles standings show nine newcomers in the top bracket with the Battle Creek duo of M. Ralph-H. Fisher combining for a 1321 Sunday in handicap. A Detroit pair, which failed to make the select circle in handicap play, paces actual scorers with 1217.

Battle Creek entry H. Zook dumped Gavie from the lead for the handsome all-events trophy by compiling an 1843 total based on 572 in team play, 653 in doubles and 618 for singles.

One of the big surprises of the weekend was the failure of defending team champion Chuck's Shack to even rank among the top 10. The locals, who won the handicap crown a year ago with a score of 3071 playing as the Little Horns, wound up 49 pins out of 10th place with a 2875 score.

★ ★ ★

Pontiac holds all but 5th place in team handicap action and the 1st three spots in actual pinfall. Forster Tool Co. is the runner-up in handicap with 3000, third is Stadium Inn with 2992, and the Carlings Black Label gang is 4th with 2987.

M. Ralph, a doubles leader, made a strong bid for singles honors. He is 3rd in handicap scoring with 698 and is tied with John Fortier for 2nd place in actual pins with 644. City kegler C. Horrall dropped from 3rd to 4th in handicap with his 693. He is deadlocked with J. Haddrill, also of Pontiac.

Battle Creek has presented six of the 10 doubles handicap leaders thus far. Following the Ralph-Fisher combo, Leo Russell-Elmore Bose, of Petoskey, ranks 2nd with 1301, BC's Zook and J. Cebelak teamed for 1292 to hold down 3rd, and the Cereal City pair of Bill Pattison and J. Jennings are 4th with a 1283.

The Battle Creek Elks also took 5th, 6th, and 9th places in a big weekend. High for Pontiac is the M. Clark-B. Landey duo with 1268 for 8th place.

Sandra Stockton Selected City Ice Carnival Queen

The new queen, who embellished her honors by winning the figure skating title for girls 16 years of age and above, succeeds Miss Suzanne Danner to the throne. Miss Danner, 1956 queen, reigned over the two-day festivities until Sandra's coronation last night.

Mary Jo McBrearty, 202 Ogeman, and Connie Ladd, 592 Markle, were honored by joining Miss Stockton on the five-ton ice throne as members of her court.

An ice show Sunday evening by the Pontiac Ice Skating Club and Saturday's exhibition hockey game were other highlights of the city carnival, co-sponsored by the Parks and Recreation Department and the North Side Community Club.

Races, the silver skates derby and figure skating for boys and girls of all ages were additional features of the annual winter outing. The winners of all competition are listed below.

Nestor's Shuts Out All-Star Squad, 4-0

Nestor's All-Stars, who swept through all competition to win the Junior Hockey Tournament, continued to go unchallenged in Saturday afternoon's City Ice Carnival exhibition game at the North Side ice skating rink.

The All-Stars chalked up a convincing 4-0 victory over an all-star squad selected from the remaining tourney teams. Goalie Bob Nestor had very little work to do while turning in his shutout.

Don Aird fired three goals and Lyndon Salathiel accounted for the final tally. Aird scored twice in the 1st period and once in the 2nd stanza against goalie Gary Thomas. Salathiel counted against goalkeeper Clayton Clark in the 3rd period.

Two penalties were called against the losers while unbeaten Nestor's suffered none.

Pancho Wins Another

WELLINGTON, New Zealand (AP) —Pancho Gonzales of Los Angeles again defeated Australia's Ken Rosewall in a profesional tennis match at Auckland today. The scores were 16-14, 6-4, 9-7. Gonzales has won seven of the eight matches played in the series.

Gardner, Levitsky Still Hold Office

James Garner is still the Independence Township Building Inspector and Jacob Levitsky is still the Electrical Inspector, but whether they will continue to serve in these positions will be considered at a special township board meeting tomorrow night, 8 p.m., in the township hall.

Town Supervisor Floyd Andrews' attempt to remove Gardner and Levitsky in a special board meeting Saturday afternoon was delayed to give the attorneys more time to study the issues, according to Andrews. Paul I. Meredith is representing Gardner while Edward J. Fallon is the township attorney.

Andrews claims he wishes to discharge Gardner and Levitsky because they are "just not doing the job."

In a motion, first placed before the board at the January 15 meeting and restated again Saturday, Andrews asked for the right to change the building department personnel as he sees fit since he is responsible for its operation, with the help of the building inspector.

Andrews later withdrew his motion, after a recess in the Saturday meeting during which time the board conferred with Fallon, with the condition that "providing this meeting can be legally adjourned until Tuesday, at 8 p.m.—said meeting to be called to consider the matter of the discharge of the building and electrical inspectors and such other matters as may come before it."

Gardner, who will be opposing Andrews for the supervisor's post in February's primary, states that Andrews first suggested that he (Gardner) resign when petitions for Gardner began to be circulated for the election.

★ ★ ★

He claims that "the petitions were circulated unbeknownst to me."

Stating that he couldn't see any reason why he should resign, Gardner has continued his duties in the $450.00 a month position, although he turned in his keys to Andrews when requested to do so on Saturday, Jan. 19.

Other members of the board present Saturday were Dr. Fred Tucker, Ira Snader, and Harold Doebler. The fifth member, Rolfe Smith, was not present then or at the January 15 meeting.

★ ★ ★

Meredith, Gardner's attorney, challenged the legality of the Jan. 15 meeting, when the board adjourned, and after the spectators had left, reconvened to take action on the discharge of Gardner and Levitsky.

★ ★ ★

A feeling that the Saturday meeting wasn't publicized properly was expressed by William C. Godfrey, a local resident. Godfrey also said that when he called the township hall Saturday, just before noon, to inquire about the meeting, he was told nothing until he gave his name and address.

MR. AND MRS. W. F. PORRITT

To Honeymoon in Florida

Porritt Rite Saturday

ROCHESTER — Kathryn Ann Korff became the bride of William F. Porritt at a candlelight ceremony at 8 o'clock Saturday in the First Congregatical Church, with 350 witnessing the ceremony. The Rev. E. John Yuells read the rites.

The bride is the daughter of the Hardy Korffs and Mr. Porritt is the son of Mrs. Ora and the late Mr. Porritt of 335 Silver Bell Rd.

The bride who was given in marriage by her father, chose for her wedding a gown of Italian silk taffeta and lace, fashioned with a mandarin neckline, basque waist, and bat wing sleeves of appliqued lace over taffeta. A coronet of tulle held her short veil. She carried a white satin Bible topped with a white orchid and stephanotis.

Mrs. Jack Berean, matron of honor, and Mrs. Robert Harris, bridesmaid, wore identical princess ballerina gowns of tangerine and aqua crystalette taffeta.

Jack Berean served as best man and ushering the guests were Robert Porritt, Ross Waite, Edward Braid and William Farmer.

Mrs. Laurence Kirkton sang "I Love You Truly" and "The Lord's Prayer" before the ceremony. The bride's mother chose dusty rose lace and Mrs. Porritt, moonstone blue lace for the ceremony. Both wore white orchids.

A reception for the guests followed in the church hall.

For traveling to a Florida honeymoon the bride wore a cinnamon wool suit and matching accessories. Upon their return the couple will reside on Silver Bell road, Pontiac.

Lowes-Alward Rite Read at St. John

ROCHESTER — Two hundred guests were present at the Jan. 26 marriage of Ileen Barr Purdie Alward and Edward W. Lowes, in St. John's Lutheran Church here. The 8 p.m. ceremony was held with the church decorated entirely in bouquets of white flowers.

The bride, daughter of Mr. and Mrs. Edward W. Alward of 406 Wesley Ave., wore a ballerina-length gown of white nylon with inserts of seeded pearls and irridescent sequins. Pearls and sequins, identical to those in the gown, made up the headpiece which held a fingertip veil. The prayer book carried by the bride was topped by a white orchid, lilies of the valley and streamers.

Serving as matron of honor was the bride's sister, Mrs. John Lowes of Rochester. Attending as bridesmaids were Carolyn J. Keast and Mrs. James Stewart both of Rochester.

The bridegroom, son of Mr. and Mrs. Joseph Lowes of 1885 Squirrel Rd., Auburn Heights, was attended by his brother Kenneth Lowes as best man. John Lowes and Wes Ellis were ushers. All are from Rochester.

A reception in the church parlors immediately followed the ceremony. The couple will honeymoon in Nassau, the Bahamas.

The bridegroom is a graduate of Michigan State University and the bride also attended school there.

40 Thousand Expected at MSU 'Farm Week'

EAST LANSING (AP)—The first of an estimated 40 thousand Michigan farmers and their families gathered today for a look at their future at the start of the 42nd annual Farmers' week at Michigan State University.

Theme of the week-long show is "Blueprint for Tomorrow's Agriculture."

The very latest in farm machinery and such modern items as plastic greenhouses will be on display.

But, today, the farmers took a fond look at the past.

It was "horse day" with a horse-pulling contest by heavyweight teams from five states as the main attraction in the livestock pavilion. Owners of purebred dairy herds also scheduled a series of meetings.

The Michigan Committee on Rural Electrification and the MSU department of agriculture engineering scheduled an afternoon meeting for the state electric power suppliers.

Dairymen were to assemble for their annual banquet in the evening. The program will become more general tomorrow with a showing of prize hogs and steers, the main event in the livestock arena.

A forum will discuss the question of whether young people should enter farming as a career in these times.

Group meetings will include plant pathologists, growers of Christmas trees, home economists, fruit and nut growers, beekeepers, poultry men and foresters.

Farmington Water Unit Asks Gain to Invite Stat Men to Meeting

By MARY CELINSKE
Farmington Correspondent

FARMINGTON TOWNSHIP — Members of the water study committee, meeting yesterday with Dr. S. A. Broadman, new Township Health Officer, decided to forward a letter to Albert Gain, Township Supervisor, requesting that Harvey Kenny of the Michigan Municipal Finance Commission and John E. Vogt of the Michigan Department of Health be invited to attend the next board meeting.

The committee's decision to request the meeting between the board and representatives from the state came after Dr. J. J. Gadbaw, former health officer and committee chairman read a letter from Vogt suggesting that such a meeting be held.

The committee, discouraged by 2½ years of going promises and no progress, has hope that the board meeting with Kenny and Vogt can find some means to expedite financing of a proposed water system.

Last week Gain announced that the engineers were to "go ahead with estimates of the proposed water system as originally planned." This places the entire program exactly where it was in January 1955. The meeting yesterday was held primarily to acquaint Dr. Broadman with progress on the proposed system. William Fisher, president of Old Colony Civic Assn., Charles Lorion, president of the Kendallwood Civic Group and John Byrne, representing Section 26, were also present at the meeting.

Put on your thinking caps and look below. A new puzzle is waiting for you to solve and $600 is waiting to be won. The right combination of words in the answers below can mean money in your pocket, so read the rules and clues carefully.

The puzzle consists of (1) a number of circles which contain a few scrambled letters, and (2) a corresponding list of clues to these words printed below. The object is to arrange each group of circled letters into a word that best fits its clue. The word which you select for Circle No. 1, then would be the one which you would print in the space to the right of (1) below.

You'll notice that some circles contain $ signs in pots of gold. You may use such a symbol as any letter you wish. However, it and all letters in that circle must be used. The $ sign, of course, can represent ANY letter in the word.

Errol Flynn's Taxes Are at Last in Clear

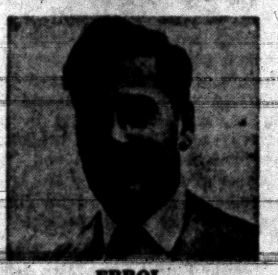

By EARL WILSON

NEW York — I was sort of glad seeing Errol Flynn win $10,000 the other night on "The Big Surprise" TV show because . . . well . . .

★ ★ ★

"I was so broke for four years," declared Flynn — telling for the first time how he got out of hock and settled an $850,000 income tax claim — "that I overtipped shamelessly to pretend I wasn't.

"I tossed $20 bills around, but actually I couldn't afford to buy Pat a new dress, he confessed further. "But she looked wonderful to me all the time—I like blue jeans anyway."

ERROL

★ ★ ★

Flynn frankly revealed all about his "poverty period"—which ended just a few months ago—when the name of Joe Louis came up.

"Three years ago you owed more than he did!" spoke up a friend.

★ ★ ★

"You just have to pay it up!" Flynn said. "The only reason I wasn't put in jail . . ."

Flynn charged that "a friend," who was in charge of his finances, "would take a $50,000 check I gave him to pay my taxes, and apply it to his taxes."

The "friend" died leaving a verbal message for Flynn. It said: "Tell Errol I'm sorry."

★ ★ ★

"Then I got a tax bill for $850,000! Even with my meager knowledge of accounting, I knew this wasn't just a bad day at the races.

★ ★ ★

"They considered fraud charges against me — fraud means jail. Then they saw my story was true, for my friend had also handled several other much bigger wheels the same way.

"So I worked for the last two years paying off bills I didn't even know I owed."

1956 Fourth Largest Building Year in History

CHICAGO—The United States Savings and Loan League reports that even though housing starts in 1956 declined 17 per cent from the 1,328,000 starts in 1955, the year was still the fourth largest building year in the country's history.

The league noted that the 1956 level of home building—some 1,100,000 units—has been exceeded only by those of 1950, 1954, and 1955.

CAIRO (AP)—Egypt has completed the seizure of 64 British and French insurance companies in retaliation for the invasion of the Suez Canal zone. Their operations are being transferred to nine Egyptian insurance firms.

★ ★ ★

The insurance companies, along with British and French banks and trading agencies in Egypt, were "Egyptianized" 10 days ago as enemy property. Other foreign firms were given five years to convert themselves to Egyptian joint stock companies.

★ ★ ★

Estimates of the value of the British and French properties range from 210 million to 980 million dollars. However, most of them have the bulk of their assets banked in Paris or London, where the Egyptians can't get at them.

Ava Signs With Zanuck for 'The Sun Also Rises'

By LOUELLA O. PARSONS

HOLLYWOOD (INS) — A lady can change her mind, can't she? After saying "no" to starring in Darryl F. Zanuck's production, "The Sun Also Rises," Ava Gardner put her valuable name (with permission of MGM) to a contract to star in this Ernest Hemingway story.

This is no if, but, or maybe. Darryl cabled me that he has Ava's signature on a contract and that she will report to him the last of next month in Mexico. Henry King, the director, who is in London now conferring with Zanuck, already has footage filmed in Spain.

"The Sun Also Rises" is one of the Zanuck independently financed motion pictures to be made, of course, for 20th Century-Fox.

Bette Davis, almost frozen in at her home in Maine, will thaw out in two weeks when she comes to the coast to star in a Ford Theatre of TV-Screen Gems feature, "Footnote on a Doll." It's based on an incident in the life of Dolly Madison.

There's another very strong woman's role in the story and when Screen Gems bosses telephoned Bette to ask her which role she'd like to take, she laughed, "If they're equally good, I'll take them both!"

She suggested Natalie Schaefer for the other good part and Natalie has accepted.

All you girls in Chicago, Miami, New Orleans, Havana and Acapulco who have talent and good looks, get ready. Sands hotel maestro Jack Entratter is leaving tomorrow to find new faces and new talent for his Las Vegas shows. He is taking Mrs. Entratter with him.

UNPREDICTABLE GUSSIE

Snapshots of Hollywood collected at random: Surprise! Surprise! "Lace Panties" Gussie Moran walked into the Bantam Cock with Eddie Hand. Everyone thought this was finished, especially after her short-lived marriage to another man.

A vital statistic item. Elinore Donahue, who plays the teenage daughter in Bob Young's "Father Knows Best" TV series, is expecting a baby in May. She is married to Richard Smith, sound technician.

Anne Francis and Jerry Nathanson continuing their romance, started in Palm Springs, by dining at the Luau. Is it all over between Joan Davis and Jerry?

Abbe Lane flies to Madrid for one day for the premiere of her Spanish picture, "Susanna and I," a La Ingrid Bergman.

Cubby and Nedra Broccoli, whom I saw often in London this past summer, are home and will vacation in Palm Springs with their two children.

That's all today. See you tomorrow.

Bomb Shatters Negro's Home

Newsman Fired On as Continued Violence Hits Alabama Capital

By HENRY S. RADSHER

MONTGOMERY, Ala. (AP)— Negro's home and a service station-taxi stand were dynamited in another of a series of incidents at this racially troubled state capital yesterday.

A short distance away, an unexploded bomb was found smoldering on the front porch of an integration movement leader's home.

The unexploded bomb, containing 12 sticks of dynamite, was placed at the unoccupied home of the Rev. Martin Luther King Jr., who has been the top spokesman for Negroes seeking to break racial barriers here.

In the 15th incident of violence in five weeks, a white telvision newscaster was shot at twice last night. He was not hit.

No serious injuries were reported in the early morning blast which damaged the home of Allen Robertson, 59-year-old hospital attendant. Three persons were slightly injured by flying glass at the service station, a few feet from the house.

★ ★ ★

Bob Underwood of station WCOV-TV, apparent target in the shooting incident, said, "I would assume this was connected with the threatening telephone calls." Two large-caliber bullets hit his car as he was leaving his studios, one penetrating the windshield agout a foot from him, the 29-year-old news director and police reported.

★ ★ ★

Underwood said he had "tried to be fair with white and Negro" in his news coverage but callers accused him of slanting his reporting against Negroes. He reported "about two dozen" threatening calls sine a Negro bus boycott began.

Eleven Navy Fliers Parachute to Safety

HOLBROOK, Ariz. (AP) — Eleven Navy airmen parachuted from a PV-2 patrol bomber in a snow storm last night just before it crashed and burned between Holbrook and Winslow, Ariz.

Deputy Sheriff C. F. Lee said all 11 were lcated by searchers who scoured the foothill country after the burning plane was sighted. He reported one man had a broken leg but all the others apparently were unhurt.

The plane was en route from Los Alamitos, Calif., to the Hutchinson, Kan., Naval air station, its home base.

It crashed about 10 miles north of Joseph City.

There was no immediate indication what caused the plane to crash.

Burma has extended her barter trade pact with Soviet Russia to cover five years and will supply rice in exchange for machinery and services, Rangoon learns.

Townfolks Mark Special Occasion by Tossing Buns

ABINGDON, England—A recent visit by the Queen an also the 400th anniversary of the chartering of Abingdon, in Berkshire, 55 miles northwest of London, were both marked by the town's quaint custom of bun throwing.

This curious affair originated at the coronation of King George IV in 1820 and is carried out only on occasions of very special importance. The Mayor and other town officials, clad in their robes of office, climb to the balcony of the County Hall and throw buns to the people in the square below.

There is a scramble to get one of the buns. On display in a glass case are sample buns from each throwing since 1820.

Argentina's new government has announced plans to develop its own domestic oil resources.

NOTICE OF SALE

Township of Waterford, Oakland County, Michigan

$100,000 Sewer Improvement Special Assessment Bonds.

Sealed bids for the purpose of Sewer Improvement Special Assessment Bonds, to be issued by the Township of Waterford, Oakland County, Michigan, of the par value of $100,000 will be received by the undersigned, at the Township Hall, 4995 West Huron Street (M-59), in said township, until 8:30 o'clock p.m., Eastern Standard Time, on Monday the 11th day of February, 1957, at which time and place said bids will be publicly opened and read.

Said bonds will be dated February 1, 1957, will be coupon bonds in the denomination of $1,000 each, will be numbered consecutively in the direct order of their maturities from 1 upwards, and will bear interest from their date at a rate or rates not exceeding 4½% per annum, payable on October 1, 1957, and thereafter semi-annually on each April 1 and October 1. Each bid shall state the annual interest rate or rates upon which it is submitted, expressed in multiples of ¼ of 1%. The interest rate for each coupon period on any one bond shall be at one rate only. Accrued interest to date of delivery of such bonds must be paid by the purchaser at the time of delivery. Both principal and interest will be payable at such bank or trust company as shall be designated by the original purchaser of the bonds.

Said Sewer Improvement Special Assessment Bonds will mature serially in the amount of $10,000 on April 1 in each of the years 1958 thru 1967. The bonds of this series are subject to redemption at the option of the township, in direct numerical order, on any one or more interest payment dates on and after October 1, 1957, at the par value thereof and accrued interest. Notice of redemption shall be given to the holders of bonds called for redemption by publication of such notice not less than thirty (30) days prior to the date fixed for redemption, at least once in a newspaper or publication circulated in the City of Detroit, Michigan, which carries as a part of its regular service, notices of the sale of municipal bonds. Bonds so called for redemption shall not bear interest after the date fixed for redemption, provided funds are on hand with the paying agent to redeem the same.

The said bonds are to be issued in anticipation of the collection of an equal amount of special assessment against lands in Special Assessment District No. 13 in said township to defray the cost of constructing sewers in said district, as assessed on Special Assessment Roll No. 13, and in addition, will pledge the full faith and credit of the township for the payment of the principal and interest thereon.

For the purpose of awarding the bonds, the interest cost of each bid will be computed by determining, at the rate or rates specified therein, the total dollar value of all interest on the bonds from March 1, 1957 to their respective maturities and deducting therefrom any premium. The bonds will be awarded to the bidder whose bid on the above computation produces the lowest interest cost to the township. No proposal for the purchase of less than all of the bonds or at a price less than their par value will be considered.

A certified or cashier's check in the amount of $2,000 drawn upon an incorporated bank or trust company and payable to the order of the Township Treasurer must accompany each bid as a guarantee of good faith on the part of the bidder, to be forfeited as liquidated damages if such bid be accepted and the bidder fails to take up and pay for the bonds. No interest shall be allowed on the good faith checks and checks of the unsuccessful bidders will be promptly returned to each bidder's representative or by registered mail.

Bids shall be conditioned upon the unqualified opinion of Berry, Stevens & Moorman, attorneys, Detroit, Michigan, approving the legality of the bonds. The cost of said legal opinion and of the printing of the onds will be paid by the Township. Bonds will be delivered at Detroit, Michigan, or each other place as may be agreed upon between the township and the purchaser.

The right is reserved to reject any or all bids.

Envelopes containing the bids should be plainly marked "Proposal for Bonds."

Steels Retreat in Early Deals

NEW YORK (AP)—The stock market headed irregularly lower in quiet early trading today.

Pivotal stocks took losses of from fractions to a point of more. There was a scattering of small gainers.

Steels retreated as Bethlehem lost around a point and Youngstown well over that. Republic and U. S. Steel dropped fractions.

Mixed news and uncertainties both at home and abroad have produced a hesitant attitude in Wall Street, brokers said. There was sentiment, too, that the market's technical position required a test of the November lows before any strong buying urge could develop.

There was some fairly heavy selling in the motors division with Chrysler and General Motors down fractions. Ford, however, was steady.

★ ★ ★

Boeing dropped around a point and United Aircraft a major fraction. Leading rails were narrowly mixed with a downside tendency. Northern Pacific and Santa Fe were steady to higher but New York Central, Illinois Central and Baltimore & Ohio were easy.

Small gaines were posted by Southern California, Edison, Goodrich, International Nickel, United Air Lines and Alcoa.

Losses were taken by Du Pont, Allied Chemical, Montgomery Ward and Kennecott Copper.

Among opening blocks were General Motors off ⅜ at 40⅜ on 5,000 shares, Chrysler off ¼ at 65⅛ on 1,500 and U. S. Steel off ⅛ at 63½ on 2,500.

Chamber to Recommend Action to City

Backs Revision of Fire Laws

Pleas from Pontiac Fire Marshall Charles F. Metz were answered when the Chamber of Commerce Safety Committee voted unanimously to recommend the City Commission take steps to initiate a fire prevention ordinance and fire code.

The committee moved to advise the Commission after Metz reported on his investigation of fire hazard, complaints of two Pontiac stores.

"We don't have a definition of a fire hazard in Pontiac. I've lost several court cases because of this. If I don't have a law, I can't enforce it," explained Metz.

The committee decided to support current legislation now in the Michigan House of Representatives defining inebriety and sobriety in terms of blood alcohol while operating a motor vehicle.

A sub-committee of Sherwin M. Birnkrant, assistant city attorney, Capt. Joseph Koren and Lt. Clayton Randolph, of the Pontiac Police Traffic and Safety Bureau, submitted a report on the chemical tests to determine alcoholic influence.

The bill, supported by Leslie H. Hudson, representative from Pontiac, states chemical tests to determine alcoholic content of the driver's blood, if the driver consents to the test, must be used in any criminal prosecution to determine the defendant's influence under liquor.

Alcoholic percentages in the blood defined in the bill include: 0.05 per cent-not under the influence; 0.05-0.15 per cent-not presumed was or was not under the influence; 0.15 per cent or more-presumed, not conclusively, defendant was under the influence of intoxicants.

The safety committee also decided to support proposed legislation for a uniform vehicle code, written by the National Committee on Uniform Traffic Laws and Ordinances, to have uniform traffic laws and regulations throughout the United States.

A baby-sitters school of three lessons including first aid and child care is being planned.

Sue Sturgis, Oakland County Extension Agent, told the committee Waterford may be the first area to conduct the school for girls and boys over 12 years.

The Fourth Annual May Auto check will be held May 13-17 according to Paul Merideth, chairman of the five day campaign.

The Chamber of Commerce Safety Committee will sponsor this event, Inspection of autos for defective equipment will be held from 9 a.m. to 3 p.m. and 5:30 p.m. to 8 p.m.

Alcoholic Beverage Tax Nets State $542 Million

CHICAGO—During fiscal 1956, state governments collected $542,000,000 in taxes on alcoholic beverages, with almost 65 per cent of the total coming from distilled-spirits taxes.

Only 29 states impose a tax on distilled spirits, but another 16 obtain revenue from liquor consumption through the operation of monopoly systems in which the states operate liquor stores.

Blasts Freeze Meat

CHICAGO—Meat processors have developed a method of using wind tunnels to freeze meat rapidly by using high-speed fans to blast it with frigid air.

Pamela Britton Omits Clowning

Arthur Lake Provides the Humorous Element in New Series

By CHARLES DENTON

HOLLYWOOD (INS)—Does your "Blondie" look different lately?

She should, for the obvious reason that the video version of Dagwood's harried helpmeet is a different gal in both looks and character than the one who brought "Blondie" tripping out of the comic strip and onto the screen back in the 1930s.

★ ★ ★

The basic fact that Pamela Britton has replaced Penny Singleton at Dagwood's side for the television treatment of the apparently ageless domestic comedy doesn't cover all the changes in "Blondie" by any means.

"Blondie originally played comedy herself," Pamela explained between shots the other day. "But in the TV version, it was decided to let Dagwood—Arthur Lake—be the clown.

"Blondie is now the girl who loves him and watches over him—and plays straight to him. Personally, I think it's a good idea. I have a feeling I will last a lot longer with the public if I don't have to mug every week."

★ ★ ★

Pamela has no qualms about being compared with Miss Singleton, either favorably or unfavorably, because of a human quality discreetly referred to as age.

NEW AUDIENCE

"I feel that we're playing to a brand new audience," she said, "particularly the younger viewers. The first 'Blondie' picture was made in 1936. The kids who loved it then have all grown up, and there's a brand new generation to see it now."

Nor is Pamela leery about subjugating her personality so thoroughly to Blondie's that she winds up without an identity of her own.

"That could happen, I know," she said blithely. "Blondie is such a familiar characterization. And I wouldn't care a bit. I'll be perfectly happy to sign autographs 'Blondie'."

A sidelight on the show is that it may give birth to a "first litter of the theater." The pooch that plays Daisy in the TV version is the offspring of the original Daisy.

★ ★ ★

Furthermore, like the first Daisy, this one is a he-dog.

Company Report Has Salty Advice, History Lesson

LONDON (INS)—Ever read company reports? Dull aren't they? Nothing but a lot of talk, statistics and figures.

But now a British businessman, one John Palmer, is changing all that. The report of his Cheshire United Salt Company is a real gem. Besides dealing with the usual figures and details of the firms' activities, Palmer has provided readers with a salty discourse on salt.

Without salt, declares the 70-year-old Palmer, there would be no paper, glass, soap, explosives, ham or bacon.

And Palmer harks back into history, too, to disclose that the vital word "salary" really drives from salt.

Roman soldiers, he explains, got salt for their wages. It was called their "salarium," from the Latin for salt.

★ ★ ★

Palmer, who has been in the salt-making business all his life, literally lives on salt. His home at Sandbeach, Cheshire sits on buried salt deposits.

And this energetic executive has a salty humor too. His report even contains words of advice for the superstitious:

"Don't worry if you spill the salt—you are helping us to make a living."

Five-Story Building Razed Before Building

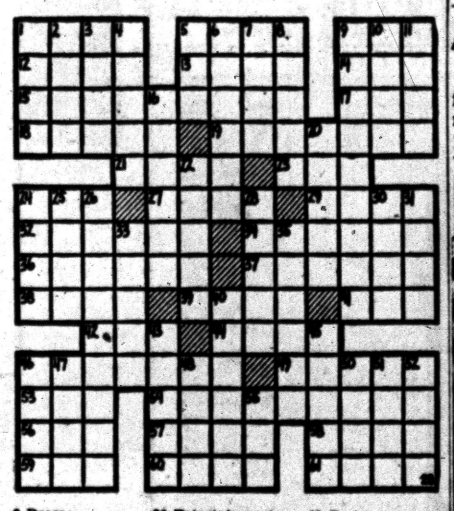

PORTLAND, Ore.—A new record in razing not-too-old buildings was set recently by a building-and-loan institution in Portland.

The first five floors of an eight-story, reinforced-concrete structure had just been completed when the owners decided to enlarge it. So they demolished everything that had just been put up—right down to the basement-floor level, and an 11-story steel-frame structure rose instead.

Winning Gomulka Faction May Purge Old Stalinists

By JOHN H. MARTIN
INS Foreign Director

A purge of old-line Stalinists is expected in Poland now that Communist Party Secretary Wladyslaw Gomulka has scored tremendously in the general parliamentary elections.

★ ★ ★

It was the strangest election ever held in a Red-ruled land, and more strange turns are projected.

The 50-year-old Gomulka, in his appeal for Poles to support his list of Communist candidates, was endorsed by the Roman Catholic Church.

Catholics backed Gomulka because of a feeling that he will restore more liberty to unhappy Poland than Gomulka's own Stalinist enemies in the Red party. Polish voters went along with this reasoning.

★ ★ ★

A clash between Gomulka and Moscow puppets in the party was inevitable ever since Gomulka was brought back into the upper ranks of the party.

TROUBLED LIFE

Gomulka's life is scarred with the story of Eastern Europe. He was imprisoned as a Communist during the prewar Pilsudski regime. He limps from a bullet wound of 24 years ago.

★ ★ ★

He was active against the Nazis in World War II, led the Polish police state after the war when he was known as "Poland's Little Stalin," then was tossed out of the party and imprisoned for refusing to join the Stalin-directed uproar against Yugoslav dissident Marshal Tito in 1948.

Although a dedicated Communist since the age of 16, he was arrested in 1951 while on a vacation in the Carpathians. His wife also was jailed.

Gomulka was charged with being a deviationist, with failing to confess his errors and with misconduct during the occupation days.

★ ★ ★

He was released in bad health two years ago and his comeback has been sensational since then.

His "rehabilitation" was a sequence of the pilgrimage of Nikita Khrushchev, Soviet party secretary, and Nikolai Bulganin, Soviet Premier, to Belgrade in 1955, when they begged Tito's pardon and sought to get the Yugoslav firmly back into the Soviet orbit.

GREAT POPULARITY

Gomulka's showdown last October, when despite Russian threats of drastic reprisals, he insisted on reforming the puppet Politburo and did so, won him immense popularity in his homeland.

To many Poles, the tight-lipped Gomulka is a protent, a sign that the regime will go on changing, that the man who stands for what is called the "Polish road to socialism" will put the main accent on "Polish."

Gomulka may not last in power in a land torn by unrest and in a nation under the shadow of encircling Soviet troops.

But whatever happens, he will go down in history as the man who, against perhaps far more odds even than those which Tito faced, put Poland on the road to greater freedom.

Kentucky Hires Negroes

FRANKFORT, Ky. (AP)—The Kentucky Council on Human Relations reports that 112 Negro teachers are now employed in schools attended by whites as a result of desegregation moves.

Officer Beats Traffic on Foot to Save Baby

NEWPORT, Ky. (AP) — A fleet-footed policeman was instrumental in saving the life of an 18-month-old boy.

James Neace was taken to a hospital after drinking a poisonous solution. Doctors needed a sample of the poison to prescribe an antidote.

Officer William Schoepf quickly drove to the Neace home, but got tangled in traffic on the way back.

Schoepf grabbed the bottle and ran a half mile to the hospital. Aides said, he arrived in time for them to give proper treatment.

When someone's counting on you...
you can count on life insurance

Your life insurance gives him immediate protection—for the *full amount*

From the day you get a policy you know your family is protected for the *full amount* of the contract.

More than three-quarters of a million dollars a week is now going to families of policyholders who died less than a year after buying their policies.

The kind of protection that life insurance alone can give you is the basic reason why it is owned by six out of seven families.

But Americans use life insurance in other ways, too. For example, your policies can help you accumulate money for children's education . . . for emergencies . . . for your own retirement. The best person to explain these additional uses is your own life insurance agent.

You will also find helpful suggestions in the new booklet, *Your Life Insurance—and How to Use It*, which we have prepared as a service for America's policyholders. Your free copy will be mailed promptly; simply send your name and address on a postcard to Dept. E.
