Welcome Sight to Flint Area

AP Wirephoto

GM GETS STEEL — Several carloads of steel have just arrived at the GM Fisher Stamping plant in Grand Blanc near Flint. They promise a back to work call in the very near future to 38,000 Flint area workers laid off in the steel strike — probably next week. This is the first shipment received from any strikebound steel mill since last July. Most of the steel is from Republic Steel Co.

Record Early Snowfall to Keep On Sifting Down

★ ★ ★ ★ ★ ★ ★ ★ ★

Hunters Happy Over Improved Trail Outlook

Roads Icy in Places but Mostly Slushy as Storm Tapers Off

A record early snow storm swept over the Pontiac area and the southern half of lower Michigan last night and early today leaving three inches of snow on the ground.

The storm was expected to taper off slightly today. However, snow was expected to continue falling throughout the Lower Peninsula tonight and Saturday.

The overnight snow left highways slushy and, in some spots, slippery. Northbound hunters and other motorists were urged to drive with caution.

Smiles appeared on the faces of local hunters, as the fall will provide tracking snow for them. The deer season opens Sunday.

Many traveling hunters were trapped in the storm. State Police reported a steady stream of hunters yesterday and today.

★ ★ ★

Thirty-six trucks and about 75 men of the Oakland County Road Commission were ready for the snow last night.

They moved out at 8:30 p.m., worked over the county's 2,484 miles of roads and had them in good shape by the early morning rush hour.

"There was more slush than slippery spots," said Elmer B. Hess, radio dispatcher for the Commission.

12,000 TONS OF SALT

He said there are 12,000 tons of salt stockpiled to keep roads

Pontiac Press Photos

EARLY WINTER MORN' — This striking winter scene was taken by Pontiac Press photographer Eddie Vanderworp while the city slept. The street is Algonquin road. Not many actually saw such a scene. The early morning traffic turned the gleaming white snowflakes into muddy slush on most streets.

Williams Fights the Snow, GOP in State Stump

Braces for Heckling as 3-Day Drive Ends Up North Today

ALPENA (AP) — Gov. Williams, traveling most of the night through a snowstorm, carried his "save our schools" campaign to Michigan's north country today and braced for more heckling from Republican "truth squads."

Republican State Chairman Lawrence B. Lindemer said GOP questioners probably would be waiting at three cities to argue the governor's contention that schools will suffer unless the Legislature comes up with 110 million dollars in new taxes.

"We want to get the Republican side of this thing to the people," he said at Lansing.

Bad weather grounded small aircraft last night so Williams and Lynn M. Bartlett, state superintendent of public instruction, hopped into the governor's sleek black limousine and took off on the final leg of their three day, 10-city tour of the state.

If snows continue, they planned to split up here, with Bartlett carrying the Democratic tax message to Traverse City and the governor going on to Marquette.

★ ★ ★

Republicans, passing out hundreds of "facts sheets" as the governor delivered his cash crisis message yesterday at Detroit and Grand Rapids, promised that the GOP-controlled Legislature would not renege on promised financial support to schools.

"There will be no cuts of any kind in any state services," the statement declared.

With charts and figures, Williams tells every audience that schools will be left holding the bag for nearly 40 million dollars in "rubber checks" next year under a 72-million-dollar nuisance tax package drafted by GOP state senators.

★ ★ ★

The state, he said, lost 110 millions when the State Supreme Court threw out the use (sales) tax increase last month and must get it back to balance 1959-60 appropriations.

A friendly debate last night between Williams and Rep. Robert E. Waldron (R-Grosse Pointe) at Wayne State University made it plain that Republicans and Democrats use different sets of figures in calculating state cash needs.

For Michigan Workers

Aid-for-Jobless Ideas Pour In to Committee

DETROIT (AP)—A "GI bill" for the jobless, unlimited layoff benefits and a 10-point program for economic health have been suggested to a special U.S. Senate committee as ways of reducing unemployment in Michigan.

More suggestions were expected to be offered today as a U.S. Senate special committee on unemployment hears 15 more witnesses in the second of its two-day hearing at Detroit. The committee is headed by Sen. Eugene McCarthy (D-Minn).

The GI bill plan was offered to the committee yesterday by Gov. Williams, the unlimited benefits by August Scholle, president of the Michigan AFL-CIO, and the 10-point program by Walter P. Reuther, United Auto Workers president.

Others who testified at the opening session were Louis G. Seaton, General Motors Corp. vice president; Malcolm L. Denise, Ford Motor Co. vice president; John D. Leary, Chrysler Corp. vice president; Robert J. Egan, mayor of Flint, and James L. Tanner, mayor of Bay City, who did not appear personally but gave his views in a written report.

Williams, who arrived late in the day and spoke before a nearly empty room, told the committee:

"Congress should consider a 'GI bill' for the technologically displaced worker. It would combine a subsistence for a subsidy for retraining, and, where necessary, travel aid for removal to such areas of the country where newly learned skills are in need.

"The training program can best be conducted with the assistance of industry in the form of on-the-job training. I am confident that the nation will recover the cost of such a program through the recovery of abilities and aptitudes of retrained workers and through the reduction in cost of direct relief and other 'cushions' to which unemployment of long duration inevitably leads."

Williams laid much of the blame for unemployment with the Eisenhower administration.

Reuther blamed "apathy" on the part of the Eisenhower administration for the unemployment problem and said his 10-point program would "assist unemployed workers and their families and help restore depressed communities to economic health."

Among his suggestions were early retirement with full social security benefits for older workers laid off, and not likely to be rehired.

Chrysler Shuts Off One Assembly Line

DETROIT (AP)—A steel shortage, which has knocked General Motors out of automobile building, will shut down its first Chrysler assembly line today and bring that automaker's idle to 7,500.

General Motors has 220,000 out of 320,000 hourly rated employes idled.

★ ★ ★

Chrysler announced that its Detroit Imperial assembly plant will suspend operations at the end of today's shift, idling 1,100 and an additional 230 will be laid off at its Detroit Gear and Axle plant.

The company said its other assembly plants across the country are scheduled to operate next week on short work weeks of three or four days.

GMC Gets Contract for Missile Carrier

General Motors Truck and Coach Division has been awarded a $1,094,000 subcontract by the Boeing Airplane Co. for work on the Minuteman intercontinental ballistic missile weapon system.

★ ★ ★

GMC will provide a truck-tractor and two carriages for the Minuteman. Powering the unit will be the new V-12 gasoline engine which the division will use extensively in the 1960 truck line going on display Monday.

The engine will provide the power for ground transportation of the missile, P. J. Monaghan, GM vice president and general manager of the Truck and Coach Division, said.

★ ★ ★

Another important feature of the tractor and trailers is air suspension, which was pioneered by GMC in its coaches six years ago and later adapted to some of its commercial highway tractors.

No date for the start of production was announced.

Sign of Prosperity

LONDON (UPI)—The Daily Telegraph said today it has new evidence of Britain's booming prosperity. It cited a London County Council report that the number of city pawnshops had dropped from 214 to 153 since 1951.

Airport Officials Looking Ahead

Hope to Take Dip Into 1961 Federal Funds for Terminal-Tower Plan

Pontiac Municipal Airport officials today were looking to next year to repair the damage done to the terminal-tower project by a $50,000 slash in 1960 federal aid.

The terminal building itself was not affected by the cutback, but the Federal Aviation Agency (FAA) refused to allot any matching funds for a proposed $137,000 system of taxiways, aprons and loading areas to connect the terminal area with the runways.

"It would be a pretty silly terminal building trying to operate without these facilities," said Homer D. Hoskins, airport manager.

Taken aback by the FAA announcement, Hoskins said he probably would seek funds for the facilities when he submits his request for 1961 aid at the end of the month.

RELEASED IN JULY

The move, if successful, would cut into improvements that would otherwise have been programmed in 1961, he said.

Some federal funds are to be released next July, and if Pontiac gets a share, the connecting facilities might be under construction in time for use when the terminal is completed next fall, Hoskins said. The FAA is scheduled to announce its next appropriations in February.

Pontiac had sought $178,000 from FAA to help finance a $356,000 construction program next year.

What it got was a $128,250 grant to help extend the main east-west runway 1,500 feet, strengthen it with a coat of asphalt and add lighting.

To get the federal funds, the city and state now have only to put up $44,700 apiece in matching funds, making a total of only $267,000 for next year's construction program.

The city, however, has already promised to put up $89,000 on the assumption that the federal government would grant the full $178,-

(Continued on Page 2, Col. 5)

'WE LIKE OUR WORK' — Up early this morning, the children of Mr. and Mrs. F. J. Schoenemann, 14 Wenonah Dr., couldn't wait to get outdoors. There was work to be done. Karen, 4, and Keith, 3, plowed into their task of clearing the walks with their large snow shovels.

Crash Halts Wedding of City Cadet

High school sweethearts who were to have been married in less than three weeks were separated by death late yesterday when two Air Force jets collided over Tinker Air Force base near Oklahoma City, claiming the life of a Pontiac airman.

Dead is Robert C. Wiand, 23, of 48 Gingell Ct.

It took searchers six hours to recover his body a half mile from the wreckage.

He was the son of Robert J. Wiand, 49 Gingell Ct., and Mrs. Agnes Holloway of Marine City.

★ ★ ★

A captain in the cadet ranks, Wiand would have received his pilot wings after four years of training this month.

"He was getting his wings on Nov. 25 — just 12 more days," his father said today.

"He was coming home on leave Dec. 2 to get married Dec. 5 to his high school sweetheart, Jean McDaniel, 404 Maple St., Holly.

Wiand was a student pilot in a T33 jet trainer. First Lt. Dale Dawson of Vance AFB, Enid, Okla., was at the controls of the trainer, circling over the base in a flight pattern.

★ ★ ★

At the same time, a flight of 19 jet fighters en route from George AFB, Calif., to Myrtle Beach, S.C., was taking off after refueling at Tinker.

Wiand's plane collided with a jet fighter F104 piloted by Capt. Melvin V. Corley. The planes exploded and pilots Corley and Dawson suffered only burns and bruises when they bailed out.

Reports did not say whether Wiand rode the stricken craft to the ground or bailed out unsuccessfully.

Raised in Clarkston, Wiand was graduated from Holly High School at the age of 16. He enlisted in the Air Force when he turned 17.

★ ★ ★

"I'm thankful that Bob's flying buddy, Lt. Dawson, survived," his father said.

'Presidential Candidates' Straining at Political Bit

BY THE ASSOCIATED PRESS

Although a full year away from the 1960 big presidential campaign, possible would-be candidates are busy sowing political seeds.

With New York's Gov. Nelson A. Rockefeller invading Western territory, Vice President Richard M. Nixon bobbing up in the Middle West, and Sen. John F. Kennedy drawing a capacity crowd in Wisconsin, the air all over the nation is full of presidential whispering.

★ ★ ★

His hat in the air — not yet in the ring — GOP's Rockefeller is serenading California today hoping to open the corral where Nixon has virtually all the state's Republicans tethered.

They like Rockefeller's music but so far there are no signs of a stampede starting.

In Los Angeles Thursday, he received a warm, friendly, howdy-podner type of welcome when he arrived in the state. People turned out in large numbers at a luncheon and a dinner where he spoke.

TALKED WITH NIXON MEN

Party leaders talked politics and prospects with him at informal receptions. A number of influential Californians, known to be staunch Nixon supporters, met him in private receptions.

But — wherever Rockefeller went, saucer-sized "Nixon Now" lapel buttons met his eye.

A toastmaster's mention of Nixon's name during dinner preliminaries touched off a wild, standing, whooping-and-hollering explosion of applause for the vice president. Rockefeller joined it.

★ ★ ★

Perhaps, by coincidence, Rockefeller's place at the Western States Republican Conference dinner was directly in front of a huge colored photograph of Nixon.

And finally, although the majority of the people in the luncheon and dinner audiences rose when he was introduced, many remained seated.

★ ★ ★

He reads his speeches meticulously, following every comma and dash in the text. But he stumbled frequently. Once or twice, misreading a word, he found himself in the middle of a sentence going nowhere.

Doggedly, he backed up and began the sentence all over.

He was interrupted by applause only once in the World Affairs Council speech, a long one. The applause for the dinner address came more frequently but it was never stormy.

Rockefeller's million-volt personal charm appeared far more effective in the small, informal meetings with party faithful than

(Continued on Page 2, Col. 4)

County AFL-CIO Council Backs Police Trial Board

The Oakland County AFL-CIO Council is supporting the Pontiac Police Trial Board in its dispute with the Pontiac Area Chamber of Commerce.

Fred V. Haggard, council president, announced today that delegates have gone on record supporting the stand taken by Cecil Mullinax, Trial Board vice chairman, before the City Commission earlier this week.

Mullinax, a Pontiac Motor Division employe and prominent PAW member, asked the council for support.

Haggard said the Chamber of Commerce "is putting the cart before the horse."

"The delegates are of the opinion that the chamber is jumping to conclusions in saying the Police Trial Board cannot be an effective part of city government. They feel the chamber has no sound basis for this judgment, since the board has yet to hear a case.

"We cannot see how any organization could condemn a group of good citizens (the seven-member Trial Board) who are willing to give of their time without pay or thanks to serve the citizens of the city."

Chamber officials Tuesday are to formally present the Commission a request for a spring election to present certain city charter amendments they feel will strengthen Police Department administration.

The chamber recommends, in part, that the Trial Board be converted into a board of review, that it give up its administrative powers to set rules and regulations for the department, and that the police chief no longer be responsible to it, but rather to the city manager only.

It also recommends that the position of public safety director be eliminated.

Haggard joined Mullinax in noting that the Trial Board, reconstituted by voters this spring when they kicked out civil service for police, has worked smoothly and cooperatively with the police administration the past six months.

★ ★ ★

"Since the AFL-CIO Council was a supporter of the Trial Board, we feel that it should be given a fair chance before it is condemned to death by any person or organization," said Haggard.

Grass Always Greener

MEMPHIS, Tenn. (UPI) — Memphis Zoo keepers stopped work yesterday claiming the animals were better fed than they were.

Christmas Due Early for 11,309 Here Tomorrow

That little bit taken out of each paycheck for the past 12 months will pay big dividends tomorrow for 11,309 Christmas Club depositors at Community National and Pontiac State Banks.

That's when the two banks will mail out checks to those persons who have set a little bit aside since last November to help ease Christmas expenses.

Community National and its branches had 6,953 depositors in its 1959 club. They deposited a total of $638,345, for an increase of $18,408 over $619,937 deposited by 8,106 persons last year.

Pontiac State and its branches recorded a total of $378,949 from 4,356 depositors. This compares to a 1958 total of $334,527 from 4,390 accounts.

★ ★ ★

Monday the Pontiac Federal Savings & Loan Assn. will mail out their 1959 Christmas Club checks totaling $54,140 to 694 depositors. Last year it had a total of $51,889 from 599 accounts.

Total deposits for all three banks comes to $1,071,434, or an increase of $65,081 over the combined total of $1,006,353 of the three clubs last year.

All three banks announced that accounts for the 1960 club may be opened beginning Monday.

News Flash

DETROIT (AP) — General Motors Corp., whose auto building operations have been halted completely because of the steel strike, today announced plans to recall about 10,000 workers in its Fernstedt Division by Nov. 23.

Fernstedt makes body hardware for GM cars and resumption of operations at the division necessarily would precede a recall to workers in assembly plants.

Hare Considers Governor Race

Says He Will Announce Intentions in January; Laughs at Detroit Story

LANSING (UPI) — Secretary of State James M. Hare, leading Democratic vote-getter in the last election, said today he is "very seriously considering running for governor.

Hare said that he will announce in January exactly what he plans to do, but he made it clear that he has his sights set on the governor's office.

"All of us on the administrative board have agreed that we would

Who Is Hare? Page 4

not make any announcements without due consultation with other members," he explained. The board is the governor's cabinet."

★ ★ ★

"We have several members that may run. I have always advocated an open primary."

A Detroit newspaper reporter said in a story today Hare told him flatly and without qualification he was going to run for governor in 1960.

Asked about the report, Hare laughed and said:

★ ★ ★

"Well, it was like this. We were at a Detroit Press Club dinner and we were all ready to leave for home.

"He turned to me and asked, 'Are you running?' And I told him 'Sure, I am'."

Mayor of Utica, Father-in-Law Sued for $50,000

A $50,000 damage suit has been instituted against Utica Mayor Edward Church and his father-in-law by the mayor's former son-in-law, Fred Riebel, 21, of 454 Gateway St., Pontiac.

★ ★ ★

The court action stems from a scuffle May 31 between the mayor, his father-in-law, Henry Kollmorgen, and Church's daughter's ex-husband.

The family quarrel occurred at Kollmorgen's gas station, 44880 Van Dyke. Riebel says Kollmorgen hit him.

Kollmorgen, 69, subsequently paid a $25 fine after pleading guilty to an assault charge in Macomb Justice Court.

Church pleaded "no contest" at his court appearance, and a plea of guilty was entered for him. He was fined $25.

Riebel, divorced last March from Church's daughter, Barbara, claims he was dragged from his car by the two older men, was "severely" beaten and suffered "permanent neck, back and hip injuries."

As a result, Riebel says he is limited in the type of employment he can seek.

MADAME PANDIT

U.S. Standing Behind India

Herter Statement Says Red China in Wrong; Offers Moral Support

WASHINGTON (UPI) — The United States swiftly assured India of its moral backing today in a border dispute with Red China. India says the Chinese forcibly seized some of her territory.

Secretary of State Christian A. Herter, who first told a news conference this country was taking no sides, later issued a statement saying the Red Chinese, in using force, were "wholly in the wrong." This word was given to the Indian Embassy here and dispatched to the U.S. embassy in New Delhi.

★ ★ ★

President Eisenhower is scheduled to go to New Delhi on a good-will mission within a month. Officials were afraid that unless Herter's remarks were clarified, resentment against the United States might sour the President's visit.

★ ★ ★

Replying to news conference questions, Herter said the United States has no way of knowing directly whether India or Red China is right in the disputed territorial claims, and has taken no sides on the issue.

★ ★ ★

But 35 minutes later he issued a formal statement saying:

"The questions asked me on this subject seemed to me directed at the legal rights along the borders, and my answers accordingly related only to the legality of the rival claims. There is the further and more important point that, whatever may be the merits of a dispute, force must not be used to settle it. The Chinese Communist regime has clearly used force and, in this respect, is wholly in the wrong."

Gather Stewed Pigeons

BATH, England (UPI)—Police rounded up a flock of pigeons yesterday on drunk charges. The birds were wobbling in the street after invading a malthouse and sampling fermenting barley.

Madame Pandit Says:

Eisenhower to Get 'Warmest Reception'

By PETE LOCHBILER

The people of India will give President Eisenhower "the warmest reception of all" during his good will tour next month, predicts India's foremost woman.

Ike's recent efforts to ease international tensions through negotiation and better understanding have the full sympathy of India, explained Mme. Vijaya Lakshmi Pandit yesterday after a talk in the Birmingham Town Hall series.

The Khrushchev visit and the President's trip to Russia next year — "These show true imaginative leadership," Mme. Pandit had told her full house audience of nearly 1,300 women and a handful of men at the Birmingham Theater.

Mme. Pandit is the sister of Jawaharlal Nehru, India's Prime Minister, and in her long career, devoted to freedom and peace, has held many important posts. She was president of the U.N. General Assembly in 1953, and is a former ambassador to the United States and to Russia. She also has been India's High Commissioner to England the past five years.

She is on a six-weeks coast-to-coast speaking tour on behalf of her country.

Attired in a lavender-patterned black silk sari, silver-haired Mme. Pandit, 59, chatted easily in the lounge of Birmingham Country Club on subjects ranging from China to her three married daughters.

"President Eisenhower's visit to New Delhi won't help ease tensions between India and China," she said. "His will be a friendly visit, and besides, our two big democracies see eye-to-eye on the China situation.

"But his presence will give us strength and determination to continue our efforts toward a peaceful settlement with China."

★ ★ ★

Asked to tell what she thought of communism, the petite but energetic Mme. Pandit replied sharply:

"I'm not a bit interested in communism. I think only positive thoughts. If everyone thought only positive thoughts, the world would be a better place."

She was firm in the belief that politics is everyone's business nowadays, women as well as men.

And women can do as well as men in every level of government, she emphasized, the highest as well as the lowest.

"I believe the common man, using his common sense, comes to decisions on important problems that are usually right, or not far wrong," she said.

Appearing on the Birmingham Theater stage, Mme. Pandit's first words were a request to have the theater lights turned up.

"I can't talk well unless I see who I'm talking to," she explained.

Her talk dwelt largely on the historical forces that have shaped modern India and the unique but difficult role which her country has chosen in today's troubled world.

"We believe in the word, not the sword," she said.

"In our 5,000 years of religious history, Buddhism taught us tolerance and non-violence and Hinduism taught us to bargain rather than try to conquer by force."

★ ★ ★

India's habit of sometimes appearing friendly to the Western world and sometimes to the Eastern gives rise occasionally to misunderstanding, but is explainable, she said.

"We believe it important that there should be at least one country which judges each international situation on its own merits, instead of being allied to one country or another and committed to its cause.

"To use a phrase of Thomas Jefferson, we try to steer clear of entangling alliances and, in the main, have gained the trust of both sides — the U.S.A. and the U.S.S.R.

★ ★ ★

"This is why we have been able to head such causes as the peace mission in Korea and Viet Nam.

"We believe in seeking every avenue towards peace."

Now, Mme. Pandit lamented, India is being sore-tried to abandon her traditional role by such acts of aggression by Red China as the Tibetan occupation.

"All efforts at negotiation have failed so far, nor do I know how long we can continue to seek a peaceful settlement."

★ ★ ★

"If India is forced to relinquish her peaceful stand, it will be because there is nothing else left to do," she promised.

But armed conflict, she insisted, would leave India the poorer — not only materially but also spiritually.

★ ★ ★

"It is still our hope that we, if no one else, can take a model stand in behalf of peace," she said.

Mme. Pandit gave her talk again today to another sellout town hall audience.

Charge Driver in Hit-Run Death

Birmingham Man Has Denied Guilt as Youth Dies in Hospital

A Birmingham man has been charged with manslaughter in the hit-run death of a 16-year-old Mount Clemens boy who died yesterday of injuries suffered Tuesday.

Eric F. Kerry of 1989 Webster St. was charged with the crime minutes after the victim, Frank Bono, died of brain injuries suffered when he was thrown from his motor scooter on Grosebeck highway.

A passenger with Bono, Daniel R. Rank, 15, is in Mount Clemens General Hospital. His condition is listed as satisfactory today.

Kerry pleaded not guilty at his arraignment before Justice Francis Castellucci, and was released on a $3,000 bond. Examination was set for Nov. 24.

Until Bono's death in Detroit Osteopathic Hospital, Kerry was being held in Macomb County Jail for investigation of felonious driving and leaving the scene of an accident.

★ ★ ★

Kerry was picked up less than a half hour after the accident by Macomb County sheriff's deputies after he had abandoned his car.

On information from his wife, police found Kerry in a restaurant in Fraser.

Deputies quoted Kerry as saying "I expected you and I'm glad it is over. I don't know why I ran. I just lost my head."

The Day in Birmingham

Pancake Supper Planned to Aid Foreign Student

BIRMINGHAM — Pancakes! Pancakes! And more Pancakes.

All the pancakes you can eat are being offered at a supper Nov. 19 sponsored by Bloomfield Hills High School Student Council from 5:30 to 7:30 p.m. in the school cafeteria.

Charge for the supper, that includes, sausages apple sauce, syrup and coffee and milk, is $1 for adults and 75 cents for students.

The purpose of the supper is to partially raise funds to finance a trip to the school for a foreign student who would spend his or her senior year at the Bloomfield Hills High School.

The money will help defray the cost of the trip and text books, and will reimburse the student's adopted-family during the stay in this country.

★ ★ ★

In the past, the student council of the school has had two foreign exchange students attend senior classes. In the 1958-59 semester, a boy from Germany studied at the school. This year, a boy from Sweden is here.

Money for their trips was raised through other pancake suppers, dances and donations.

The cost to bring a foreign student to this country, under a program set up by the American Field Service, is $1,000.

Bloomfield Township residents have been warned by Police Chief Norman Dehnke not leave outgoing letters and checks in mailboxes overnight.

Chief Dehnke said he has received complaints from residents in the Foxcroft area regarding the mail situation.

He said residents should keep a close watch on in-coming and out-going mail, particularly where money or checks are involved.

He warned that tampering with the mail is a federal offense

Two Bloomfield Township men have been named to the Dean's list at Yale University for the 1958-59 college year. This means that they are in the top 10 per cent of their classes.

They are John Richard Burgis, son of Mr. and Mrs. R. W. Burgis, 3052 Burning Bush Rd., and Bruce Wayland McCaul, son of Mr. and Mrs. E. W. McCaul, 700 Lone Pine Rd.

Burgis is studying for a bachelor's degree in Russian. McCaul is seeking a bachelor's degree in physics.

James Anderson

Service for former Birmingham Police Chief James Anderson, 70, of Fenton will be Sunday at 2 p.m. in the Bowles and Son Funeral Home, Linden. Burial will follow at the Fairway Cemetery.

Anderson died yesterday following a stroke in Flint Osteopathic Hospital.

Anderson, who was police chief in Birmingham for many years, retired from the department in 1933.

He was a member of the Fenton IOOF No. 125, the Gold Age Club of Fenton, and the Argentine Methodist Church.

He is survived by his wife Mabel, a daughter, Mrs. Milo Geisper, of Clio, a grandson, a brother, George, of Warren, a sister, Anna Grove, of Birmingham, and nieces and nephews.

Ex-Pontiac Woman Dies in Fort Wayne

Mrs. Eleanor Schuck, 69, a former Pontiac resident, died in her sleep while visiting her daughter, Mrs. Anne Hartwell of Fort Wayne, Ind.

★ ★ ★

The daughter of the late George H. Gardner, Mrs. Schuck left Pontiac 35 years ago to make her home in Florida.

She leaves another daughter, Mrs. Jean Everingham of Miami, Fla.

Service will be held Saturday evening in Coral Gables, Fla.

$5,500 Tucked Away

The average American household has a nest egg of at least $5,500, about 33 per cent of it in the bank, 31 per cent in life insurance savings, 16 per cent in government savings bonds and about 2 per cent in credit unions and the like.

'60 Would-Be Candidates Sounding Out People

(Continued From Page One)

from the public platform Thursday.

Rockefeller's lieutenants, however, profess to be anything but disappointed today.

San Francisco Bay area radio and TV stations plan to cover his visit today, despite a furore in Los Angeles over the governor's policy of holding separate press conferences for the press and radio-TV newsmen.

★ ★ ★

Nixon continues what he calls a non-political tour today.

He goes to Appleton, Wis., for a mid-morning panel discussion on world problems at Lawrence College.

Then tonight he is in Indianapolis for the national convention of Sigma Delta Chi, a journalism fraternity. Nixon will make a talk and answer questions.

It was a bad time for a top Republican to come to this part of Wisconsin. It's a big cranberry center, and the administration has warned that some cranberries might be contaminated with a weed killer that has caused cancer in rats in laboratory tests. Nixon gallantly came all out for cranberries.

★ ★ ★

"I certainly expect to have cranberries for both Christmas and Thanksgiving," he said at a news conference.

The way Nixon figures it, the Republicans should have only two candidates for the 1960 presidential nomination. He didn't say who these two would be but he apparently was referring to himself and Rockefeller.

John F. Kennedy (D-Mass) drank a cranberry juice toast Thursday night and drew a capacity audience in the Republican stronghold of Marshfield, Wis.

Kennedy's latest tour, which includes seven stops, will be climaxed tonight when he delivers the keynote address at the state Democratic convention in Milwaukee.

Delegations came from as far as 150 miles and all areas of the state to hear Kennedy at the rally. The crowd was estimated at 1,500, called by backers the largest Democratic gathering in the history of the 7th district.

★ ★ ★

Kennedy's only comment on the cranberry issue was that he felt the federal government had the right to act.

Sen. Stuart Symington (D-Mo), also considered a potential candidate for the Democratic presidential nomination, attended the National Grange Convention at Long Beach, Calif., yesterday. He made a good fellow of himself by sampling the biscuits made by a delegate from Albany, N.Y.

In the meantime, Sen. Lyndon Johnson (D-Tex) was at a Johnson-for-President rally yesterday at Snyder, Tex. A crowd of more than 700 cheered him on.

Airport Officials Look to '61 Funds for Help

(Continued From Page One)

000. The state has also promised $89,000.

CAN ALSO TRIM

It will be up to the City Commission and the State Board of Aeronautics either to leave their shares in the project at $89,000 apiece, or to trim them as the federal government did.

Working with a $63,000,000 budget, the FAA today allocated $57,076,702 for 288 airport construction programs in 49 states and two territories.

The unallocated funds are for contingency and probably couldn't be tapped by Pontiac for additional aid, an FAA spokesman said.

Although Pontiac's grant was cut, it was still the third highest in the state outside the Detroit Metropolitan Area.

★ ★ ★

Grand Rapids got $895,000, Kalamazoo, $414,500; Metropolitan Airport, $387,000; Willow Run Airport, $144,050; Flint, $107,500, and seven other cities amounts ranging from $63,000 for Ann Arbor to $17,250 for East Tawas.

On the subject of more short-haul airline service in Michigan, State Aeronautics Director James D. Ramsey said the Civil Aeronautics Board should be able to clear up objections to the present plan for more routes in time to have new service in operation "no later than next fall."

Because there have been so many objections filed, deadline for filing has been extended from Nov. 23 to Dec. 14, Ramsey told a Lansing meeting of the statewide Airlines Service Committee which Hoskins attended.

Scheduled for service on a route between Detroit and Cheboygan, Pontiac has filed an objection, asking for a route leading to Pittsburgh and industrial centers in Ohio.

France has a population of about 40 million people. This does not include its colonial population.

Winter Sneaks In Early and Dumps 3-Inch Snow

(Continued From Page One)

passable this winter. Some was used last night, he said.

He said the heaviest snowfall was reported in the southern part of the county where there was some three inches.

U.S. Weather Bureau records for the past 88 years show only nine snowfalls of three inches or more recorded on Nov. 12 or earlier.

Hazardous driving warnings are still in effect throughout the area. The death of a Constantine woman, Mrs. Mattie Halvorsen, 60, was blamed on icy roads.

She was killed yesterday in a two-car accident on slippery M-60, six miles northwest of Three Rivers.

The new snow blanketed lower Michigan as far north as Gladwin but was heaviest in Oakland County. The Upper Peninsula continued to get heavy flurries along to the Lake Superior shore in the Copper Country.

The storm had football fans muttering this morning about unlucky Friday the 13th as they looked ahead to watching contests on sloppy fields from their wet seats in the stands.

Traffic in Oakland County moved normally during the early morning rush-hour traffic. No unusual jams were reported by police.

★ ★ ★

The Pontiac State Police Post reported a tieup on Waterford Hill early last night before the county road trucks swung into action.

Snow depths in other areas were two inches in Flint, three inches in Grand Rapids, 10 inches in Houghton, three inches in Jackson, three inches at Marquette, six inches at Mount Clemens, two inches at Muskegon, one at Oscoda, three at Saginaw and five at Ypsilanti.

They will bring occasional snow mixed with light rain to the Pontiac area. Winds will be east to northeast at 12-16 m.p.h. Occasional snow will fall tonight, diminishing to snow flurries tomorrow. One inch of additional snow is likely to pile up.

Little temperature change is expected, with the low tonight 30 and the high tomorrow 33. The high today will be 34.

In the Upper Peninsula light snow or flurries were expected today, tonight and tomorrow.

Over the weekend temperatures will average 8-10 degrees below normal, with the cold gripping the area through Sunday.

It won't get warmer until Monday or Tuesday, the Weather Bureau reports.

The barometric pressure was 30.1 and the humidity dial read 100 at 10:15 a.m.

Twenty-nine was the lowest temperature recorded in downtown Pontiac preceding 8 a.m. The mercury was at 34 at 2 p.m.

The Weather

Kreps Gets Pro-Tem Post

Sylvan Mayor Re-Elected

Sylvan Lake Mayor William B. Taylor was re-elected last night at the City Council's 1959 reorganizational meeting.

He will be serving his second consecutive one-year term as mayor. Also re-elected to his second term as mayor pro-tem was former mayor Anthony Kreps.

Taylor of 1935 Warwick Ave. has been a councilman since 1956. He was re-elected to a second three-year term last week and sworn in at last night's meeting.

WM. B. TAYLOR

Also sworn in was Joseph E. Gilson of 1915 Woodland St., the other newly elected councilman. Gilson, who formerly served on the Council for 15 years, was elected to the post left vacant by the resignation of John N. Doherty.

★ ★ ★

Kreps, who lives at 2282 Garland Ave., is serving his 11th year on the Council. He was mayor for seven years.

The Council also reappointed Donald R. MacDonald to the Oakland County Board of Supervisors and William Bigford as the city's second constable.

In other business, the Council ordered a public hearing to be held at 8 p.m. Dec. 2 at the City Hall on an appeal by Sam Warwick, a city builder, for a change in zoning ordinances so that a restaurant might be built on a lot owned by him at Orchard Lake Avenue and Warwick street.

★ ★ ★

A new fire contract with West Bloomfield Township was accepted. The agreement will increase the basic cost for the first five fire runs from $2,500 to $3,250 and add a $25 charge for each resuscitator call.

The Council also agreed to renumber some 20 ordinances and amend several others in a codification change, transfer special sewer assessment funds to the general fund and to change city employes' pay period from the 1st and 16th to the 10th and 25th of each month.

Ike Enjoying Weather, Golf

Has No Pressing Tasks at Augusta, so He'll Just Rest for Trip

AUGUSTA, Ga. (AP) — The weather is mild, the golf course is in wonderful shape, and President Eisenhower settled down today to enjoy both.

★ ★ ★

For the moment, no pressing tasks of government are intruding on the Chief Executive. No major ones are in sight before next week.

So for the next few days Eisenhower can count with a measure of confidence on getting in what he came here for—his favorite sport on his favorite course and the stockpiling of some rest for a taxing overseas tour next month.

In 19 days, the President will visit three continents and the capitals of 11 nations and will travel 20,000 miles. The trip to Europe, Asia and Africa starts Dec. 3.

★ ★ ★

Before that, the budget and legislative programs that go to Congress in January have to be whipped into form. Budget Director Maurice H. Stans and other officials are expected to trek down from Washington next week to lend a hand with that.

In the interlude, the championship Augusta National Golf Club beckons, from the presidential doorway. Eisenhower has a white frame cottage near the 10th tee.

U. S. Has 21 Fairviews

There are 21 municipalities named Fairview in the U.S.

Ousts Reporter From Poland; Knows Too Much

WARSAW, Poland (AP)—Poland's government Thursday lifted the accreditation of New York Times correspondent A. M. Rosenthal and ordered him to leave the country as soon as possible.

★ ★ ★

Rosenthal, who has been assigned to Poland since June 1958 said he was told he had "probed too deeply into the internal situation in the country."

He added that no accusation of false reports had been made. A foreign ministry official, when asked if any of Rosenthal's articles were untrue, replied

★ ★ ★

"The question of falseness is not the question. You have probed too deeply into affairs concerning the (Communist) party and the leadership."

Chapel for All Faiths Dedicated at Pugsley

TRAVERSE CITY (AP) — Dedication services were scheduled today for an all-faiths chapel at Camp Pugsley, Michigan's only probation recovery camp.

Funds for the chaple were donated by W. C. Taggart, Big Rapids oil magnate and philanthropist, who will make the formal presentation.

The dedication address will be by Judge Earl C. Pugsley of Hart, an early backer of the theory of a probation camp.

Secretary Peeks at Williams' Chair

Hare's Office Door Always Open

By ROGER LANE

LANSING (AP)—Tinkering in matters medical is a long time hobby of Secretary of State James McNeil Hare, the fellow in Lansing who signs your driver license.

How he came by the hobby tells a good deal about Jim Hare.

A strapping, 6-foot 3-inch ex-athlete, he was classified 4-F by his local draft board in 1941—that is, physially unfit for military service.

Hare, 30 then, was sick and had been for nearly two years.

"I ran from doctor to doctor. They told me it might be any number of things. I was told I might die in a couple of years if I didn't find out what it was," he recalled.

"The fourth doctor said I should go to a psychiatrist on the theory the trouble was psychosomatic. I knew the pains were real. I think that's what got me started."

Hare, a Detroit school teacher, legged it to the Wayne University medical book store and bought a couple of medical books, determined to solve the mystery himself.

DIAGNOSED TROUBLE

Research and discussion with the draft board physician followed.

An eminent Detroit diagnostician confirmed Hare's hunch—amoebic dysentery, then widely regarded as purely a tropical disease. It apparently was picked up on a visit to the 1939 New York World's Fair.

Hare recovered although not in time to see military duty.

Hare did not forget about the episode. He bought more medical books and extended the range of his inquiries.

That's how it is he maintains today a small medical laboratory in his basement.

★ ★ ★

At 49, Jim Hare's pompador is edging higher, his forehead creeping back. The lean 170 pounds he packed as a varsity football end at Wayne has grown to a comfortable but not bulgy 215.

His clothes, usually a little rumpled, give more the appearance of a well-to-do farmer dressed for town than the big city school teacher he is basically. He's not much on formality.

The door to his office is always open, allowing passersby to peek in or wave a greeting. He likes it that way.

He once startled newsmen by saying his office ran its business in a "vivarium." This, it turned out, is a kind of rectangular goldfish bowl.

Despite a savor for off-beat

JAMES M. HARE

word and phrases and an academic background, Hare is no high domed intellectual—strictly a low pressure guy.

A CUP OF COFFEE?

The first thing a visitor gets when he walks in is an offer of coffee brewed daily in an anteroom in a silvery, Sputnik like urn.

Hare smiles a lot and talks readily. As he talks, he's likely to emit an occasional deprecating chuckle like a housewife in her morning clothes welcoming an unexpected guest.

In the ruling clique of Michigan Democrats, he has a reputation as something of a "loner."

Some persons, fastening on comparatively trivial differences with "The Chief"—as the secretary calls Gov. Williams, are tempted to call him a "renegade" but that is too strong.

Two years ago, Hare alone on the all-Democratic state administrative board voted against raising the meal allowance for state employes away from home on state business.

★ ★ ★

Where others accepted in silence the civil service commission's recent multi-million dollar pay increase for state employes, Hare found fault saying it should have been tailored more to benefit low-pay workers.

In late October, he criticized reflectorizing state license plates a few months after the governor signed a bill approving it. There have been other similar differences.

Although he is appropriately coy publicly, it is universally accepted among Democrats that Hare yearns to step in when Williams steps out as governor.

Zealous Williams followers privately frown on some of the secretary's behind the scenes moves in this direction. They feel he is trying to feather his own nest at the expense of the "cause."

At least a few Democrats in high office feel Hare overestimates his strength in the party, an estimate that leans heavily on his ticket-pacing 303,474 margin for an unprecedented third term in 1958.

They say he would get slaughtered in Wayne County if he bucked Williams in a primary.

KNEW HIM . . . ONCE

Even some Democrats are surprised to learn that Hare's acquaintance with Williams dates from boyhood when their families lived around the corner from one another in the Detroit neighborhood where Wayne University now stands.

"I knew him casually," Hare recalls. "I used to play with HARE'S OFFICE

his older brother. We went to different churches and schools and didn't often see each other."

When Williams went East to prep school in his early teens, Hare stayed in Detroit. For 23 years they didn't see each other again.

The year before Williams was graduated from Princeton and entered University of Michigan law school, Hare left Wayne for the school of hard knocks.

"I graduated as a business education major in June 1932. It was at the depths of the depression," he said.

★ ★ ★

"I got a job in the Ford (Motor Co.) foundry pouring steel castings for 65 cents an hour, the roughest job you'll ever find.

"Every week or so they would line us up and count off. Every sixth or seventh guy was laid off. I lasted about nine weeks. There were no unions then.

★ ★ ★

"I guess that's what made a Democrat out of me, born and raised as I was in a Republican family. (His father was an attorney)."

He bounced around at other factory jobs, meanwhile picking up credits in night school, and joined the Detroit public school system in 1935.

In the ensuing year, he managed to work in 32 credit hours at Wayne and U. of M., winning his M.A. degree.

For 19 years, Hare basically followed the teacher's calling in the political and social sciences, along the way getting active in the Detroit Teachers Federation and politics—in 1943, when he first was elected a Democratic precinct delegate in the 13th Congressional District.

A strange blending of his academic and political careers catapulted him into high state office.

★ ★ ★

"It sounds strange now," said Hare who has been having differences with the state civil service commission, "but I wanted to write my doctoral dissertation on civil service."

★ ★ ★

With the help of Hicks Griffiths, then Democratic state chairman, he was installed as personnel director at the Michigan State Fair, a summer job in 1950, hoping to gather material for the dissertation.

Soon afterwards Hare was made state fair manager. The fair, formerly a steady money loser, showed a profit in the next three years. He was rewarded with the Democratic nomination for secretary of state, an office no Democrat had filled since election of Leon D. Case in 1936.

The Democratic tide of 1954 swept him into office over incumbent Republican Owen J. (Pat) Cleary by a margin of 55,132 votes. His margin swelled to about 82,000 in 1956.

Williams and Hare came together again after the Democratic disaster of 1946, crossing paths in the formation of the Americans for Democratic Action (ADA) in Michigan.

Hare, sparkplug in the organizing move, was elected its first chairman.

Less than two years later, he fell in with early supporters of Williams, than a liquor control commission member, in Williams' bid for governor, and help put over the election of Griffiths, Williams' law partner, as state chairman.

★ ★ ★

In Lansing, he has built an impressive economy record.

Not so long ago, a Republican legislator interrupted a tirade against Williams as Hare walked through the chamber.

"We wouldn't have the same trouble with him," said the lawmaker. "You can work with Hare."

Not a few Republicans make the same distinction between Hare and Williams.

Deaths in Pontiac and Nearby Areas

MRS. EDWARD W. JOHNSON

Service for Mrs. Edward W. (Anna L.) Johnson, 55, of 593 Raskob St., will be held at 1:30 p.m. Saturday at the Huntoon Funeral Home with burial in Perry Mount Park Cemetery.

She was a member of the First Baptist Church and the Eunice Philathea Class of her church.

Surviving are her husband; her mother, Mrs. John Elrod; a daughter, Mrs. Lois Rathbun of Pontiac; a son, Edward W. at home; two sisters, Mrs. T. W. Melden of Pontiac and Mrs. O. F. Pirtle of Columbia, Tenn., and two brothers.

Mrs. Johnson died from injuries received in an auto accident in Pontiac yesterday.

BABY GIRL SCHULZ

Graveside service was held today at Perry Mount Park Cemetery for Baby Girl Schulz, infant daughter of Mr. and Mrs. John Schulz of 244 Whittemore St.

Surviving besides the parents are a sister, Cheryl, at home; and grandparents, Mr. and Mrs. Alfred Schulz of Pontiac, Mrs. Eva Hight of Pontiac and Ben Goodman of Grand Rapids.

The baby was dead at birth yesterday at Pontiac General Hospital.

MRS. RAY ANDERSON

LAPEER — Mrs. Ray (Grace) Anderson, 73, of 806 N. Main St., died today at Lapeer County General Hospital after a brief illness.

Arrangements are being made by Baird Funeral Home here.

Mrs. Anderson is Past Noble Grand of Maine Rebecca Lodge and Past Matron of Martha Chapter No. 146, OES, both in Lapeer.

Surviving are a son, Lloyd of Pontiac; three daughters, Mrs. Hymen Hoffman of Fenton, and Mrs. Clark Gregory and Mrs. Harold Worden, both of Lapeer; 12 grandchildren and five great-grandchildren.

Two sisters, Mrs. Ethel Dockham of Lapeer and Mrs. Harold Rowden of California, also survive.

ALBERT M. GAYLOR

IMLAY CITY — Service for Albert M. Gaylor, 79, of 861 Blacks Corners Rd., will be held at 4 p.m. tomorrow at Muir Brothers Funeral Home here. Burial will follow in Mount Pleasant Cemetery, Dryden.

Mr. Gaylor died Wednesday after an extended illness. His body will be at his residence until noon tomorrow.

Surviving are his wife, Lizzie; two sons, Leon of Lake Orion and Alvin of Fibre; a daughter, Mrs. Eathel Dockham of Dryden; 16 grandchildren and eight great-grandchildren.

MRS. GORDON HALEY

TROY—Service for Mrs. Gordon (Margaret) Haley, 69, of 350 Fabius St., will be held at 1 p.m. Monday at Price Funeral Home. Burial will follow in Oakview Cemetery, Royal Oak.

Mrs. Haley died yesterday in St. Joseph Mercy Hospital, Pontiac, after an extended illness.

Sole survivor is a son, Frederick J. Poole of Troy.

MISS ALICE HAZARD

COMMERCE TOWNSHIP —Miss Alice Hazard, 75, of 3372 Edgewood Park, died today at her home after an illness of 10 months.

Miss Hazard taught in the Highland Park public school for 40 years. She was a member of St. Patrick's Catholic Church, White Lake Township.

Arrangements are being made by Donelson-Johns Funeral Home, Pontiac.

Surviving are two brothers and seveal nieces and nephews.

JOHN O. O'CONNOR

AVON TOWNSHIP — Service for John O. O'Connor, 69, of 3605 Culbertson Rd., will be held at 11 a. .m. Saturday at St. Andrew's Catholic Church, Rochester. Burial will follow in Mount Avon Cemetery.

Mr. O'Connor died yesterady at Avon Center Hospital after a lengthy illness.

Rosary service will be at 8:30 p.m., today at William R. Potere Funeral Home, Rochester.

Surviving are his wife, Evelyn; two sons, Theron Dion of Troy and Robert O'Connor of Lake Orion; and five grandchildren. Three sisters and two brothers also survive.

Superstitious? Here's a Girl Who Can't Help It

CHICAGO (AP) — Today, Friday the 13th is the 13th birthday of Gayle Lee Kraft of suburban Bellwood.

Gayle's name totals 13 letters. The last four digits of her telephone number, Linden 4-1741, total 13. She lives at 131 Rice Ave., an address that starts with 13 coming or going.

Tonight she'll have 13 youngsters as guests at a voodoo birthday party.

Cheating on Nudists

SPRINGFIELD, Ore. (UPI)—Resident caretaker A.B. Stevens narrowly escaped when the main building of the Willamettans Nudist Colony burned to the ground Wednesday night. Stevens said he had time to take with him only a few personal possessions and "the clothes on my back."

Reducing Pill Ad Claims Under Probe

NEW YORK (AP)—Advertising used to promote sale of the Regimen brand of reducing pills is under investigation by Dist. Atty. Frank S. Hogan who said his office is seeking to determine whether claims made for the pills constitute false and misleading advertising under the state penal code.

He said that the Regimen investigation was part of a probe into complaints of false advertising and has no connection with his offices inquiry into television quiz show fixes.

There was no immediate comment from the pill manufacturer or its advertising agency.

Avery Estate Seeks $1.5 Million Tax Refund

DETROIT (AP)—A suit seeking refund of $1,573,329 in estate taxes was filed by executors of the estate of the late Waldo A. Avery in U.S. District Court here yesterday.

Avery, a brother of Sewell Avery, former chairman of Montgomery Ward & Co., left an estate valued at 19 million dollars when he died Feb. 3, 1958. He was a co-owner of Detroit's Majestic Building and a resident of suburban Grosse Pointe Farms.

The suit charges the government wrongfully collected estate taxes on trust funds totaling $6,311,832 set up by Avery for his four children.

Reluctant About Federal Job

Ike's Research Projects Choice Seeking Advice After Criticism

SAN DIEGO, Calif. (AP)—Dr. Charles L. Critchfield, newly appointed director of the Advanced Research Projects Agency, said Thursday night he has asked the Pentagon to advise him on whether to take the job in view of congressional and press criticism.

★ ★ ★

Critchfield, 49, director of scientific research at Convair, was named to head the agency Nov. 4 by Defense Secy. Neil McElroy to succeed Roy W. Johnson. He was scheduled to assume his duties next Monday.

★ ★ ★

Under the arrangement with the Defense Department, Critchfield's estimated $40,000 annual salary was to be continued by Convair.

★ ★ ★

A 1951 law permits the Pentagon to employ up to 10 unpaid consultants. The same law forbids such men from engaging in any discussion on defense contracts with the firms paying their salary.

★ ★ ★

After Critchfield's appointment was announced, it drew criticism from Rep. Chet Holifield (D-Calif) and certain newspapers as a "possible conflict of interest."

Also Acts Against Negro Voters

Alabama Legislature OKs Segregated School Funds

MONTGOMERY, Ala. (AP) — The Alabama Legislature, determined to strengthen its stand for racial segregation, has passed bills to finance private segregated schools and put brakes on Negro voters registration.

The action came without opposition Thursday night the last few hours of the 1959 session. The bills were sent immediately to Gov. John Patterson for his signature.

The school measure would allow the state to appropriate public funds directly to private schools where public schools have closed because of orders to integrate. The bill is patterned after an existing law which permits allocation of state money to private colleges.

The Legislature also approved a measure to authorize the payment of school tuition directly to a student even though his school was not under a threat to integrate.

Three measures dealt with voter registrars. Another would make it possible for state attorneys to find out who was behind any suit brought against the state. This measure apparently is aimed at the National Assn. for the Advancement of Colored People and similar organizations which might finance a suit seeking integrated schools.

Two of the bills dealing with boards of registrars were passed by the Senate without debate. They previously had cleared the House.

The first allows a board of registrars to use 12 days a year to catch up on its paper work. The second allows the registrars to spend up to 20 days in each even-numbered year visiting the precincts within the district—and registering only those applicants within the precinct.

The effect of these measures is to cut down on the time a board of registrars could be available for interviewing voter applicants.

In most counties the boards now meet about 58 days a year. Since they can use 12 days for clerical work and then visit around the country for 20 days they will only be available for interviews only 26 days.

A board probably could avoid any attempt at mass registration by Negroes by shutting down for clerical work on a day it seemed likely that numerous Negroes were preparing to register. And it could avoid Negro-dominated precincts on its visits in the even years. Under law the registrars must visit all precincts at least once during the odd years.

The third measure makes it mandatory for all courts to report to the boards of registrars those convictions that could disqualify a person from voting.

Try Again to Murder Iraqi Premier Kassem

CAIRO (UPI) — Two Cairo newspapers reported today another unsuccessful attempt to assassinate Iraqi Premier Abdel Karim Kassem. It was the second such report in the Cairo press since the abortive attempts on his life last Oct. 7.

Both Al Ahram and Al Gomhouria reported from Beirut that the attempted assassination leaked out yesterday in a radio Baghdad broadcast.

The report said an ambulance carrying unknown armed men sneaked into the hospital where Kassem is convalescing.

Al Gohmouria said they opened fire and hurled a hand grenade in the direction of Kassem's room on the second floor and sped away.

Al Ahram said the men exchanged fire with the hospital guard, using sub-machineguns and grenades. The newspaper said the two men gave up the attempt and drove away in the ambulance.

Al Ahram said two motorcycle riders chased them but lost their vehicle in the Baghdad streets.

Classical Cuss Words

CLERKENWELL, England (UPI)—Magistrate T. F. Davis offered no consolation yesterday to a man who complained "my landlord swore at me in Greek."

"You can't swear in Greek," Davis replied. "It's a classical language."

Tries Silent Treatment for Young Hoodlums

Sixty days of self-denial and silent treatment are the price four young hooligans must pay for a mugging episode near Port Huron recently.

★ ★ ★

This seems little enough for the near fatal beating a Canadian youth suffered at their hands. Like many judges imposing sentences, Circuit Judge Edward T. Kane found himself at wits end and as a result is trying something new.

According to the sentence, the hoodlums will have to give up smoking and will have only religious reading matter while serving 60 day jail terms. They will also be denied candy or other delicacies from relatives.

★ ★ ★

The four cannot be given trusty status and can have no visitors except clergymen.

It's quite obvious that there is nothing too tough in this type of treatment, but at least their 60 day cooling off period will not be remembered as just another lark.

★ ★ ★

If experimenting with various types of sentences for some of the pernicious attacks will help alleviate a few, we are all for it.

It takes more than an admonishing finger that junior just made a mistake.

Our Sumptuous Harvest Outweighs Drab Colors

What happened! Debates over shades of beauty are usually one of the joys of man. Not so this year, at least for the fall golfer.

★ ★ ★

This fall the annual discussion, whether foliage this October surpasses that of last year, seems to have been decided in favor of 1958.

The reason: Lack of an early cold spell to bring about a change in color before sharp winds blew leaves helter-skelter in yards and roadways and out of normal sight. Also, according to our MAT, the lack of rain at the right time contributed.

★ ★ ★

At any rate, we did have a change of sorts, and perhaps that's just nature's way of taking care of us—small consolation for the ruddy outdoorsman that relishes fall colors.

Other years there were always devotees who pointed to their favorite maple or sumac as "prettier 'n ever." Last year certain streets in the community or area boasted deep reds and bright yellows surrounded by shapely evergreens, but Nature's honors this year seem to have gone to the painted harvest.

★ ★ ★

Roadside stands all fall have boasted ripe, orange-colored pumpkins, crimson and rust colored apples, yellow turnips and deep red bittersweet. Weekend crowds at the stands attest to the lures of these sumptuous goods.

Our spectrum of colors may not have been at its best, but the abundance of fall is the harvest of man.

Argument Small Price Compared to Lives

From the study of 70 auto collisions, state safety officials have come up with the conclusion that drinking drivers were involved in 42 per cent of the fatal auto accidents in Michigan.

★ ★ ★

We don't know whether this percentage is higher or lower than other states, but we'll agree it's too high.

The Secretary of State's office has its point system for taking drivers with bad records off the highways. The public isn't likely to accept such gadgets as the device which refuses to unlock your car's ignition if your breath shows too much alcohol.

But there is one safety device which isn't working as well as it could. That is the passenger who entrusts his safety, and that of everyone else on the highway, to someone whose reflexes have been hampered by liquor. This acquiescence is usually to avoid an argument with the intoxicated driver who is sure his ability is not impaired.

★ ★ ★

A few more people willing to risk an argument to save lives will cut this high correlation of accidents and booze. A bruised ego is a sound alternative to a battered body.

QUESTION for the primary class in deduction: Why is the life-span of men who wear double-breasted coats several years shorter than average.

A girl needs watching like a hawk
Who coos to boys in baby-talk.

The Man About Town

Turk Still Is King

Bird Finds Ready Sale at a Good Prevailing Price

Fool: What a man makes out of himself when given the chance by a woman.

Although now a more common item, turkey still is the table centerpiece for Thanksgiving and Christmas in the Pontiac area. Other fowls may threaten, but the turkey hen and gobbler are still gobbled.

Proof of this is found in the 1959 program with Oakland County's largest turkey raisers,

The Travis Farms

at 1400 Mack Road in Addison Township. According to its owner,

Fred L. Travis

who makes paper at Rochester as a regular business and raises turkeys as a hobby and side line, 13,000 of these highly temperamental and hard to raise birds are being killed and wrapped in individual packages. They are mostly for the large city trade. Mr. Travis has been dealing in turkeys for 21 years, 14 of which have been at this location.

His farm manager for the past several years,

Robert L. Smith,

says this is the finest bunch they ever have produced. The prices run about the same as last year, 59c a pound for the hens and 49c for the gobblers.

My close watcher for historical facts,

Arnold Fessenden

of Bloomfield Hills, calls attention to this day as the tenth anniversary of the settlement of "the most costly steel strike in our history; 42 days."

State politicians appear to be grabbing off the honors when the American Institute of Steel Construction designates the Mackinac Bridge as the nation's most beautiful bridge. In the publicity little is said of

David B. Steinman,

world's greatest bridge builder, who designed and constructed this "Mighty Mac."

Appearing to have gone nuts, the family dog of

Mr. and Mrs. Eben Gunness

of Waterford closely guarded something he had buried in the yard. When an investigation was made, much against his will, it was found to be an old football.

If He Doesn't Wear Out Limbering Up—

David Lawrence Says:

World Enters Big Propaganda Era

WASHINGTON — This is a strange era in international relations. Time was when "balance of power" was the phrase most often heard.

By this was meant, of course, the balance of military power. Today the phrase that describes the current objectives could better read "the balance of propaganda power."

LAWRENCE

For the "summit" meetings and the "presummit" conferences and consultations in the next several months all add up to a belief that war itself is not imminent and that, in the interim, talk is a good substitute.

★ ★ ★

Officials here have become convinced that Khrushchev is trying to "buy time" and that he really wants to use for domestic purposes some of the money that would otherwise have to be spent for increased armament.

This fits in with the American Government's desire for a stabilization of the arms race so that budgets will not have to be augmented each year to take care of possible threats of enlarged preparations by the Soviets.

Another factor in the armament dilemma is the rise of missiles, with nuclear power. The assumption is that conventional forces will not have to be as large as heretofore.

★ ★ ★

Many military experts vehemently protest any such reasoning as likely to leave America and her Allies unprepared for "limited wars," but the governments of the West evidently are persuaded that threats of the use of nuclear power will be enough to prevent any major war.

Now President de Gaulle has demanded for France the right to make nuclear weapons, and he offers the curious suggestion that maybe Soviet Russia and the United States might not always be rivals but could be allies and that France must be ready to protect itself.

This line of reasoning is fantastic, but it fits in with Gen. de Gaulle's nationalistic strategy in endeavoring to restore the prestige of France as a world power.

★ ★ ★

Meanwhile, the "summit" meeting between the East and the West has been postponed till next spring, and between now and then there will be lots of other collateral conferences, all presumably aimed at developing solidarity on the side of the West.

★ ★ ★

Concurrently, there will be some penetrating propaganda operations by Khrushchev inside the Western countries. The schedule looks like this:

DEC. 3-19: Visit by President Eisenhower to at least 11 countries in Asia, Africa and Europe.

DEC. 19-21: Meeting of President Eisenhower, Prime Minister Macmillan, President de Gaulle and Chancellor Adenauer.

DEC. 22: Conference of the NATO foreign ministers.

MARCH 15-30: Visit of Soviet Premier Khrushchev to France.

APRIL 5-8: Visit of President de Gaulle to Britain.

MID-APRIL: Conference of Western leaders before "summit" metting.

MAY (exact date not fixed): Summit conference of East and West — the first since 1955.

But these conferences are not expected to be definitive. The British concept, as expressed by Prime Minister Macmillan, is that there should be a whole series of "summit" conferences for the next several years.

★ ★ ★

The idea has found favor with Premier Khrushchev, too. All the governments seem to like the thought of conferences under klieg lights for some time to come.

Certainly, insofar as the threat of war seems to have receded, there will be relief felt everywhere, at least on the surface. But warnings are being uttered by those who fear the whole "talk" idea is merely a plot to cause the West to let down its guard.

This is the era of propaganda warfare, and the Russian strategy is to lull its opponents into inaction while the Communists consolidate their holdings all over the world.

The Country Parson

"I guess the most shocking part of life is the sudden realization that you are just like the people you have been criticizing."

Dr. William Brady Says:

Cod Liver Oil's Vitamin A Can Cure Night-Blindness

On two occasions I have cited an English authority, W. R. Aykroyd, M. D., (Vitamins and Other Essentials, Heinemann, London) who said: "The writer has sometimes given Newfoundland fishermen, victims of 'night - blindness,' a single tablespoonful of cod liver oil, with the gratifying result that they were able to see on the following night. There are, one fears, few other remedies in medicine so rapid and so reliable."

DR. BRADY

The active principles of cod liver oil are vitamin A, vitamin D and iodin. The vitamin A is what corrects night-blindness.

★ ★ ★

Yahbut, who wants to gulp down a whole tablespoonful of cod liver oil?

If that's too formidable, be pleased to know that it is not necessary, so far as prevention and correction of night-blindness is concerned, for you can get more vitamin A in one or two little tablets (tasteless) of crystalline vitamin A acetate than you get in a tablespoonful of cod liver oil.

It is well known among fishermen of the sea that not only fish liver and fish liver oil but rabbit liver, seal liver and chicken liver prevents or corrects night-blindness. Skippers sometimes order members of the crew to eat the liver of a sea-bird such as the gull or puffin.

But the value of liver for night-blindness was recognized quite a while ago — Aykroyd states that according to Eber's Papyrus (1500 B. C.) a disease supposed to be night-blindness was "cured by the roast liver of an ox."

Well, sir, I've been considering and cogitating the matter for years since Aykroyd feared there are few other remedies in medicine so rapid and so reliable as vitamin A.

Before I commit myself I beg to remind you that vitamin A is not medicine, and so far as we are concerned neither is vitamin D, or vitamin B-complex, or calcium, or iodin, or complete protein (the essential amino-acids).

VITAMINS BEST

Limit the field to straight medicines, drugs, old or new, and I'll say there is no medicine whose specific effect on an ailment is at all comparable with the effect of vitamin A on night-blindness, ascorbic acid, (vitamin C) on scurvy, calcium and vitamin D on degeneration of joint tissues (rheumatiz) or iodin on adolescent lassitude. These are all essential for normal nutrition. They correct what medicine can't cure.

★ ★ ★

Signed letters not more than one page or 100 words long pertaining to personal health and hygiene, not disease, diagnosis, or treatment, will be answered by Dr. William Brady, if a stamped, self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan.

(Copyright 1959)

Voice of the People

Readers Continue to Send Letters About Van Doren

The Van Doren fiasco should make us stop and think what's happening to us. What became of the old saw, "Honesty is the best policy?" It seems to have been replaced by "Get all you can, no matter how you get it." The thing most respected in a man these days is his ability to make piles of money. So what if he didn't get it ethically — integrity is only a word, rapidly becoming archaic.

★ ★ ★

Conscience is another archaic word. Let's conform to the times. Live for today and don't worry about tomorrow's remorse. The Senate subcommittee praised Van Doren for telling the truth, under oath, when he saw he could no longer lie successfully, under oath. Something's wrong with a public that awards admiration for such dishonesty.

★ ★ ★

The time has come for each of us to examine our goals. If we don't do it soon, we may find we've gone the way many other great civilizations before us. Greed, corruption and ignorance will have rotted us from within.

Concerned Citizen

—

How can those who defend Van Doren's "mistake" expect children, teen-agers and college students to do their work honestly when a college professor accepts money for cheating and then lies to cover up as long as he can hope to get away with it?

★ ★ ★

Not so long ago students at West Point were not excused for this. Have character and honor dropped so much since then that people think it isn't important if their children are taught by a self-confessed cheating and lying professor?

★ ★ ★

I don't believe he should be taken back on the teaching staff.

Concerned

—

The Van Doren editorial and publicity try to belittle and discredit him and that was unkind and unfair. I can think of many criminal deceptions we encounter every day with much more far-reaching results and more disturbing consequences.

★ ★ ★

We, the public, placed Van Doren on a pedestal. We, the press, take him down. But don't forget to place him in line with countless other idols who possess feet of clay.

★ ★ ★

The climax of this story is: Don't ask a $10,000 question and then give the answer. It's a crime. Or is it?

Mrs. V. Jozwik

—

This scandal should cause us to examine our own principles. Ours has been a nation built on adherence to certain basic principles of integrity, fair play and love for our fellow-man.

Probably most of us have been guilty of casting aside our own principles for personal satisfaction or material gain. Most of us go unpunished except for condemnation by our own consciences.

It frightens me to think a few weeks ago I probably would have accepted the same proposition offered Van Doren. Today I would reject such an offer. His punishment is severe and cannot be lessened without endangering the future of millions. Are you willing to have this nation exhibit to the world our willingness to condone fraud and cheating as an acceptable American trait? We should be grateful to our Congressmen who recognized the danger and magnitude of this fraud and exposed it.

Thankful Citizen

The Press carried the best editorial on the TV quiz. Working on a rummage sale last Friday, one of my co-workers who is a former Pontiac-er and never ignores a page in your paper also thought it was the best summary of the whole situation.

Mrs. R. E. Vogt
Birmingham

—

Those Van Doren fans say in effect, "Aw, shucks, Mister, he hasn't hurt anyone." No? How about his opponents? Maybe his cheating really robbed them of more than the $129,000 he won. It's perfectly possible and even likely.

★ ★ ★

One contestant who was beaten by the crooks has sued the whole shebang for a huge sum of money and it looks like a good suit. Let's forget that silly nonsense about "he hasn't hurt anyone and he is very, very sorry."

★ ★ ★

That sounds like reasoning from the nursery.

Disgusted

—

Why don't you newspapers knock off and just let Van Doren lie? (Hey, how do you like that pun?)

THOUGHTS FOR TODAY

Let all men know your forbearance. The Lord is at hand.—Philippians 4:5.

★ ★ ★

The two powers which in my opinion constitute a wise man are those of bearing and forbearing. —Epictetus.

Case Records of a Psychologist:

Don't Let Heart Misguide Brain

If your heart is breaking, memorize Paul's true case, for it is duplicated millions of times. If you follow your Heart vs. your Brain, you will probably end in divorce and cheat your future children. If you follow your Brain, you will enjoy a greater love in the future, and be able to finance a proper home for your children. Get hep.

By DR. GEORGE W. CRANE

CASE C — 495: Paul G., aged 19, is now a college sophomore, preparing to enter Dental College. Two years have elapsed since yesterday's Case Record.

"Dr. Crane, I'll give you a progress report," he began. "You may recall I was almost crazy with indecision.

DR. CRANE

"My high school sweetheart wanted us to elope and threatened to marry another fellow if I didn't agree with her plan.

"Thanks to your counsel and that of my high school advisor, I reluctantly gave her up.

★ ★ ★

"For a week or two, I couldn't eat or sleep or study. I just went around in a daze, with no feelings at all. I felt dead inside. Mechanically, I went through the motions of living.

"But slowly I began to eat again and regain a little interest in my school work. My grades had dropped that final term from 'A' to 'B' but I still had a good record, so I came on to college.

"And within six months I had completely recovered from my old infatuation. In fact, I met my former sweetheart at Christmas vacation and she didn't upset me at all.

"I could then take her or leave her, so to speak. But half a year earlier I just couldn't believe I would ever get over our romance. It just didn't feel possible.

"Now I am heading into Dental College and have met a lovely coed who plans to be a school teacher.

"She is far superior to my high school sweetheart. And I also get just as much palpitation of the heart from her as I ever did from that girl in high school."

ONLY ONE CHANCE

High schoolers, you don't get two educational chances in this life. For when you drop out of school to elope, that "pegs" your future living standards.

★ ★ ★

Dr. Paul C. Glick, of our U.S. Census Bureau, has shown that a person with a high school diploma earns $49,000 more in his lifetime than does the fellow who quit after the 8th grade.

And each year of college adds an additional $25,000 to your lifetime income. Thus, a college graduate earns $100,000 more than even the high school graduate.

When you quit school, you thus pull the financial rug out from under your future wife and children.

★ ★ ★

If you thus fail to get your high school diploma, that means you have automatically picked a second-rate hut for your children's home. So get hep.

It also foretells a jalopy for your family instead of a nice new automobile.

It places them on the wrong side of the tracks. And you will not be given a second chance in this world, for your educational future usually stops with the last year you attained in school.

If we mature advisors agreed with your infatuated outlook and told you that you would Never fall in love again, then it might be worth while to drop school and elope.

★ ★ ★

But all such advisors will tell you that love comes a second

time so learn a trade or get a college education Before you marry.

Smart folks Stay happily married, but the selfish or thoughtless ones fill our divorce courts and jam our relief rolls.

So send for my 200-point "Tests for Sweethearts," enclosing a stamped return envelope, plus 20 cents (non-profit).

Use them to bolster your Brain and curb your Heart during teenage love affairs.

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long 4c stamped, self-addressed envelope and 20c to cover typing and printing costs when you send for his psychological charts and pamphlets.

Writing on Wall Reads 'Yankee Go Home'

Anti-American Tension Grows in Cuba

HAVANA (AP)—The handwriting on Cuba's business walls is getting more legible. It seems to read "Yankee Go Home."

In spite of his frequent appeals to American businessmen to invest in his underdeveloped country, Prime Minister Fidel Castro has fomented an atmosphere of anti-Americanism that not only scares off new capital but has old investors worried.

Recent actions of the government Castro heads indicate the trend.

Government agents showed up suddenly in the offices of foreign oil exploration companies last month and sealed their files.

★ ★ ★

Many company executives were alarmed by the unprecedented move. The ink on the authorizing law was hardly dry. It appeared in a special one-page supplement to the official gazette. Some businessmen said the edition containing the law had not been distributed widely.

One businessman explained the action this way:

"When Mexico nationalized its oil industry, some American firms burned their files, Mexican technicians have been here to advise the Cuban government on mineral and oil development."

A new law covering petroleum exploration is reportedly in preparation.

A tough new minerals law has already gone into effect. It imposed a 5 per cent tax on all minerals extracted from Cuban land and another 25 per cent on all minerals exported. It also contained various fixed fees on mineral lands themselves.

★ ★ ★

American mining investments here are estimated at from 180 to 200 million dollars.

Coincident with these developments, the agrarian reform program underwent a speedup. The increasingly powerful National Institute of Agrarian Reform (INRA) took over thousands of acres of sugar and cattle lands, many of them American owned, in the interior last month. Most sugar land holders had thought they wouldn't be touched until at least next year.

The government actions came shortly after Ernesto (Che) Guevara, a hero of the revolution, stepped formally into the government as chief of INRA's industrial division. Guevara is considered the leader of the anti-American campaign here.

In early October, surcharges on tariffs, ranging up to 100 per cent, were slapped on a wide variety of imports from apples to airplanes. A number of small American-owned businesses expect to suffer severely once their inventories are exhausted.

★ ★ ★

Demands are growing in Havana for government take-over of the Cuban Electric Co., a subsidiary of the American and Foreign Power Co.

The government has been operating the Cuban Telephone Co., subsidiary of American Telephone and Telegraph, since early in the year.

Castro has said in recent speeches that if foreign investors won't put new capital into Cuba, then the Cuban government itself will take care of the nation's industry.

The machinery is in motion.

California Town Again Cuts Taxes

SAN LEANDRO, Calif. (UPI)—Property taxes in this city of 66,700 residents have been cut again, for the 12th consecutive year.

The City Council said it has been able to decrease the tax rate from $1.98 in 1947 to $1.25 this year by "prudent spending and administration — and, particularly, pay-as-you-go financing."

Egypt is about as large as Texas and New Mexico combined.

Western GOP Congressmen Fling Cranberry Barrage at Bureaucracy

WASHINGTON (AP)—Two Republican congressmen from cranberry-growing states blame "a stupid bureaucrat" and "bureaucracy at its worst" for the present cranberry mess.

Secretary of Welfare Arthur S. Flemming's announcement Monday that the government was confiscating two shipments of contaminated West Coast berries has virtually halted sale of cranberries at the peak of the Thanksgiving market season.

★ ★ ★

Rep. Joseph W. Martin (R-Mass) said at Pawtucket, R.I., Thursday: "The cranberry mess is a good illustration of what happens when a stupid bureaucrat wanders into a field about which his knowledge is limited."

And Rep. Thomas M. Pelly (R-Wash) said at Seattle he would demand "a thorough investigation of the cranberry mess" when Congress convenes in January. "This appears to be a classic example of bureaucracy at its worst."

Sen. Richard L. Neuberger (D-Ore) had no harsh words but joined others who have said the government has a responsibility to protect innocent cranberry growers from financial damage due to the scare. Neuberger proposed that the government buy up the untainted parts of the 1959 crop.

The cranberry scare started when Flemming announced that traces of a weed killing compound had been found in two shipments of cranberries grown in Washington and Oregon. Laboratory tests of the weed killer, he said, indicated that it could cause cancer of the thyroid in rats. It was assumed, but not proved, it might affect humans.

NO TROUBLE IN EAST

He said there was no indication of trouble with cranberries grown in Massachusetts, New Jersey and Wisconsin, which produce much more than the western states.

But Flemming did not say how to tell the difference between eastern and western berries. He said housewives who couldn't be sure should avoid buying any.

★ ★ ★

Flemming stood his ground Thursday at another news conference. He said he learned of the danger only last Sunday and added, "It is that kind of information that I believe we have no right to sit on."

And he said he would stand by his word that he would eat no cranberries until the whole situation is straightened out. He hoped that could be done by Thanksgiving, but said he could not be sure.

★ ★ ★

Flemming also told newsmen, "as to any responsibility to indemnify the growers, I have not looked into it and I do not want to get into that."

Flemming's food and drug administration is conducting extensive field tests to determine which berries are tainted and which aren't.

"I hope the industry will come in with a plan that will be acceptable and one which will identify the contaminated from the non-contaminated berries," he said.

Discovery of gold at Coloma, 60 miles east of Sutter's Fort, Calif. started the historic gold rush in 1848.

Hypnosis Used on Alcoholics

Psychotherapist Makes Addicts Violently Ill, Resent Liquor

CHICAGO (AP) — A psychotherapist reported today he used hypnosis successfully to make chronic alcoholics violently ill from the sight, smell or taste of liquor.

Dr. Michael M. Miller of the Howard University Medical School, Washington, D.C., said he had only four relapses among 24 patients treated by hypnosis. One of the early failures so far has responded well to additional treatment.

★ ★ ★

He also reported hypnosis has been successful in correcting such conditions as overeating, compulsive cigarette smoking and certain instances of drug addiction.

★ ★ ★

In all instances, the technique involved stimulating unconscious aversion reactions — causing the subject to hate or be disgusted or nauseated by the substances he once craved.

Duration of alcoholism among his drinking patients ranges from 3 to 34 years. The average number of treatments was two and the average length of time the group has remained away from alcohol has been six months.

About 81 million persons in the U.S. are in a state of marriage.

Sex Is Changed... Pastor Is Shocked

Former Soldier Becomes Bride

MIAMI, Fla. (AP) — A former Army private—whose sex was changed by Danish doctors—became a bride in Miami a month ago, it was learned today.

She now lives a happy newlywed as Mrs. Ralph H. Heidal in a Miami apartment. Her former identity as Charles Earnest McLeod came to light in a copyrighted story in the Miami Herald.

PASTOR SHOCKED

The Baptist pastor who performed the ceremony on Oct. 11 was shocked.

"I'm going to call my doctor and get some tranquilizers," said the Rev. A. H. Stainback. "I wonder what the deacons will say."

There was no apparent law violation in the marriage, State Atty. Richard Gerstein said he knows of nothing under Florida law that would make it a crime.

Florida law does not require previously unmarried persons over 22 to furnish birth certificates in order to get married. Therefore, there was no indication of Mrs. Heidal's original sex.

Mrs. Heidal, who now calls herself "Charlotte," is 34. Her husband is 36.

★ ★ ★

Christine Jorgenson, who gained worldwide fame after a similar operation, was recently refused a marriage license in New York state because her birth certificate lists her as a male.

★ ★ ★

Of the operation, Mrs Heidal said "All I have done is merely correct a mistake. It is a tragic social problem. My psyche has always been female. I always thought, felt and reacted like a woman."

She was reared in Dyersburg, Tenn., the daughter of Charles McLeod Sr.

WAS UNHAPPY

Her childhood and the years before she became a woman were very unhappy, she said. At home, she explained, she was treated "neither as a male or female—more as a nonentity. I was miserable—and I wanted to die."

She served in the U.S. Army three months in 1948 before getting a medical discharge.

Five years ago, she said, she decided on conversion.

Mrs. Heidal said her married life is noraml except she cannot have children. "All we ask is just a chance to be happy," she said.

Innocent Plea Entered for 4 Accused in Fraud

DETROIT (AP)—Four men accused of mail-order fraud stood mute in U.S. District Court yesterday. Judge Clifford O'Sullivan had pleas of innocent entered for them.

Held for trial were David L. Ratke, 38, Hartsdale; Monroe Cain, 31, Scarsdale; Louis S. Wolf, 35, Levittown, and Abraham B. Wolf, 37, New Rochelle, all of New York.

They were accused of advertising through the Detroit post office a device they claimed would let motorists run their cars half on gas and half on air.

Postal investigators said the device, known as a turbo-jet converter, did not function as advertised.

Dag Calls On King in Troubled Laos

VIENTIANE, Laos (AP)—U.N. Secretary General Dag Hammarskjold today began a personal study of the situation in rebellion-troubled Laos with a call on King Savang Vatthana.

It was the first major audience granted by the 52-year-old monarch since the death two weeks ago of his father, King Sisavang Vong.

★ ★ ★

Hammarskjold later paid a social call on Prime Minister Phoui Sananikone. He was to meet with Phoui and other cabinet ministers tonight in the first of a series of talks expected to lead to the appointment of a personal representative to stay in Laos as a U.N. observer.

Here's the reason...

NOTHING WORKS LIKE TUMS for You!

No other antacid contains TUMS medically-recognized formula for relief from Acid Upset . . . (indigestion, heartburn, gas). Each TUMS tablet is scientifically compounded of *three* carefully selected antacid medicines...which are recognized by doctors as being among the most effective known to medical science.

TUMS three antacid medicines work together to:

1. Neutralize excess stomach acids . . . for FAST relief.
2. Soothe and protect stomach walls . . . for LASTING relief.
3. Act *gently* . . . for SAFE relief! No acid rebound or side effects.

The scientific TUMS formula has never been surpassed. That's why today you're so wise to rely on TUMS for *fast, lasting, safe* relief from Acid Upset. Always keep TUMS on hand. 3 rolls 30¢.

Bahutus Strike Back at Old Masters

Watutsi Tribe Losing Its Strength

By ROBERT MUSEL

LONDON (UPI) — A David and Goliath war is being fought in Ruanda-Urundi, next door to the Belgian Congo, and what is dying with the Watutsi warriors is the legend of their invincibility.

The Bahutus, who are a people of medium height, are killing off their masters of 300 years—the giant Watutsi, one of the strangest and most fascinating tribes on earth.

★ ★ ★

I spent some time among them in one of their capital towns, Astrida, where the Watutsi—they prefer that spelling to the Americanized Watusi—have ruled for three centuries over the cool hills of their beautiful land.

They came down out of Egypt or Ethiopia centuries ago, bringing with them the lyre-horned cattle exactly like those depicted on ancient Egyptian tombs. And their legend of invincibility had protected them ever since.

Without really fighting a battle the skinny giants, many of them seven feet and over, made slaves of the pygmy Batwas (four feet high) and subject peoples of the Bahutus.

They have brought in the pygmies and their blowguns and poisoned darts to aid them in their battle for survival.

The Watutsi are people of tremendous presence. Their faces are delicately chiseled, their swaying walk gracefully impressive. To emphasize their height they wear romanesque togas draped down from the shoulder.

The Batwas and Bahutus had never seen anything like them. They accepted instantly that these towering invaders must be the great warriors they said they were. And the Watutsi, without throwing a spear or firing a poisoned arrow, shrewdly added to the legend—for they are most remarkable people.

For example they have large drums decorated with souvenirs separated from alleged battle victims. No one knows where they got these private mementoes—since no one can remember that they ever fought a war before this one—but the sight of the drums was enough to make every male pygmy and Bahutu a more devoted servant.

LEARNED TO DANCE

They had no folk dances of their own—but tourists pay to see folk dancing. So the Watutsi got themselves a choreographer and quickly worked out a few folk routines.

For years they spread around the fable that they could jump over eight feet—a good foot over the world's record. I paid a bottle of whisky and got permission from an aide of the ruling Mwami, or the eminent proprietor as he is also known, to watch his high jumping.

It turned out they jumped off from an ant-heap about a foot high instead of the flat ground.

I estimated that off the flat they would be lucky to clear six feet.

DIDN'T LIGHT A PIPE

Ingenious people the Watutsi, for 300 years they parlayed one bluff after another into a life of luxurious indolence, never raising a hand to light a pipe or pick up the gourd of banana beer while one of their slaves was around.

The lazy life did the Watusi no good as a race. They were racked with disease and declining in numbers due to their deficient diet of banana beer and cereals—they do not keep cattle for meat but for social position.

There are stories that during a great famine 40 years ago some even died alongside their cattle rather than eat them.

Meanwhile the hardworking Bahutus were multiplying and acquiring political leaders who had shaken off the old taboos about the Watutsi. Now that Ruanda-Urundi will be given its freedom by Belgium in a year or so, the Bahutus are striking at their old masters to ensure that control of the land will be in their hands.

★ ★ ★

They are cutting off the feet of the Watutsi they catch—an old fighting method in that direct part of the world.

In a way it is sad to see the Watutsis go. When Hollywood filmed "King Solomon's Mine" some of the Watutsi were used as atmosphere.

Later the film company flew a copy of the movie down to Astrida and it was shown to the tribe. The European woman proprietor of a local hotel was in the audience and she speaks the native language.

"You should have heard the Watutsi complaining that the camera was spending too much time on Stewart Granger (star of the film) and not enough on them," she said.

"What do you Americans say? Hams. Yes, that's what they all are, hams."

Polk & Co. to Start Worldwide Operation

DETROIT (AP) — The organization which has compiled statistics on motor vehicle registrations in the United States since 1924 said Thursday it plans to expand its service to a worldwide operation.

The R. L. Polk & Co. figures long have been regarded by the auto industry as the most reliable report of new car sales.

Polk's international section will be headed by Don F. Collins, formerly of Chrysler Corp.

South Dakota's Bad lands are in the southwest part of the state, slightly east of the Black hills.

Oil from Brazil nuts is used for lubricating watches.

Now, Rural Mailmen to Face Goat Danger

WASHINGTON (UPI) — Postmen who have learned to outrun and outwit the family dog today started considering some new dangers like bulls, goats, geese and other assorted farm animals.

These animals are owned by 300,000 rural families which will be seeing the mailman for the first time by the end of the winter. The families represent about one million persons who come under a new extension of rural delivery mail service.

Not only will the farm families be seeing the uniforms of the postal carrier, but so will their animals.

The post office said it hoped the farm animals would not bite, butt or otherwise molest the carriers. The post office's health and safety division pointed out that mailmen have been winning the war against Fido and other animals.

In the 1959 fiscal year, only 378 bites and scratches were recorded. The total has been decreasing since the post office inaugurated a new policy two years ago not to deliver mail where there is a menacing dog or other animal in sight.

★ ★ ★

That policy was adopted over a score of other ideas submitted to dissuade growling dogs from attacking. The suggestions included clubs, bottles filled with ammonia to squirt the animals and battery-operated shock sticks.

"Farm animals generally are enclosed nowadays," a spokesman said.

"A larger problem in the post office department," he pointed out, "is slips, trips and falls." He said they cause much more lost time than animal bites.

The departing is testing special rubber suction cup soles for mailmen's shoes in an attempt to decrease the number of falls from snow, ice and rain.

The post office did not say how many of the slips, trips and falls occurred while mailmen were dashing away from snarling animals.

103-Year-Old Firm to Move Out of Detroit

DETROIT (UPI) — The Ferry-Morse Seed Co., which originated here 103 years ago, Thursday announced it will move its few remaining operations here to California.

The firm's main plant, the packet division, was moved earlier this year to Fulton, Ky.

Now, the firm said, its main offices will be shifted from here to Mountain View, Calif. Most of the 75 employes still in Detroit are expected to transfer to California.

Real name of Andy Razab, composer of "Ain't Misbehavin" and other Broadway song hits, is Andreamentania Paul Razafinkeriefo.

West Germany Has Good Army

Nothing Compared to Hitler Strength but Is Big Aid to NATO

BONN, Germany (UPI) — The West German armed forces marked their fourth anniversary Thursday, their numbers grown from 101 to more than 200,000.

★ ★ ★

Those 101 men who gathered in a cold garage to be sworn in four years ago were top officers and noncoms from the Hitler Wehrmacht. There were two other qualifications: They had to have clean wartime records and they had to be willing to give up 10-year civilian careers.

Now, recruits and draftees have increased the forces to a point where they form a sizable contribution to NATO, although their strength is nothing to compare with the scores of divisions and thousands of ships and planes Hitler built up.

Few among the Germans or their Allies welcomed the new army at its creation, because memories at home were too vivid of two lost wars.

Chancellor Konrad Adenauer fought five years for the armed forces. He convinced the West the forces were necessary to face East German militarism.

★ ★ ★

The first 101 men formed the core of a service that now numbers 144,000 soldiers, 56,500 airmen, and 21,500 sailors. Six billion dollars has been spent on training and equipping them.

Within 18 months, Defense Minister Franz Josef Strauss predicts their strength will reach the planned maximum of 300,000.

Strauss tries to combine the efficiency of the old German army with as large a dose of democracy as any army can afford. The army got back its traditional general staff system, but monocles and goose-stepping are out.

Germany's Allies also took measures to make sure the armed forces would remain in their defensive role. They drastically limited air force and navy weapon strength, with German agreement, and banned German manufacture of atomic, bacteriological or chemical weapons.

Used to Use Wood

CHICAGO—As late as 1880, about two-thirds of America's homes were still heated by wood.

Discovery in 1870

Diamonds and gold were discovered in Africa in 1870.

Coldwater C. of C. Seeks Down Moll Area

COLDWATER (UPI) — Members of the Coldwater Chamber of Commerce and others petitioned the city Thursday for construction of a downtown shopping mall similar to the one recently built in Kalamazoo.

Several merchants visited Kalamazoo earlier this week to inspect the mall and reported a similar project would aid business in downtown Coldwater.

Fair Gates Click

Seeking Power for Emergency

Waterford Is Pondering Auxiliary Generator in Township Hall

Waterford Township officials are studying the possibility of installing an auxiliary generator power plant in the township hall in case of an emergency.

★ ★ ★

A regulation established for civil defense by the federal government requires that a community have a permanent power generator which can supply fuel for 14 days.

The rule applies to townships that acquire police and fire short-wave radio equipment where the government pays half the cost and the township the rest.

Until the restriction took effect in September, the state and the township paid for the radio equipmen on a 50-50 basis, with a provision that it be used solely in case of a disaster emergency.

★ ★ ★

Township Supervisor Elmer Johnson said several different sources for the power plant are being examined.

When the government has inspected and approved the plant selected, the government splits cost of the plant and its installation, Johnson said.

Cross Offering $1,000 Reward

Money Put Up in Hunt for Information Linked to Stoning, Bombing

MOUNT CLEMENS (AP) — Cross Co. has offered a $1,000 reward for information leading to the arrest and conviction of vandals in the stoning and paint-bombing of the homes of three employes.

★ ★ ★

The company's automation machinery plant in Fraser near Mount Clemens was struck last Aug. 4 by Local 155 of the United Auto Workers Union in a dispute over a new contract.

The stonings and paint-bombings Wednesday night and early Thursday were the latest incidents in the violence-marked strike.

Targets of the attacks were the homes of three nonstrikers.

A rock also was thrown through a window of the home of a man who does not work for the Cross Co. Police said this apparently was done by mistake. Two Cross foremen live on the same street.

Earlier in the strike, three other houses and a car were smeared with paint.

Archie Beveridge, an official of UAW Local 155, said, "The Union knows nothing about any paint bombings."

★ ★ ★

Ralph E. Cross, company president said police departments in Southeastern Michigan will be asked to provide additional protection for nonstrikers.

Meanwhile, contract negotiations between the company and the UAW were reported at a standstill. Talks have been adjourned until next week.

Triskadekaphile —Do You Know If You're One

NORTH HOLLYWOOD, Calif. (AP)—Superstition pooh.

They'll defy 'em all at the annual meeting of the Friday the 13th Club. And probably get out in one piece.

★ ★ ★

What'll they do? Break mirrors —bad luck, you know. Light three smokes on one match—bad. Walk under ladders — very bad.

The Friday the 13th-ers are a proud lot. They have their own queen.

Study Shows Fish React to Medicines

STANFORD, Calif. (UPI)—Fish are just as sensitive as humans to stimulants and sedatives, according to a report issued by a team of Stanford Medical School researchers.

Tests on guppies, goldfish and blind fish from Mexico showed that sedatives caused the fish to become so sluggish they could easily be scooped out of the water by hand. Stimulants sent them racing about in erratic patterns.

Car Steel Percentage Will Be Unchanged

NEW YORK (UP)— The 1960 automobiles will be made of 91 per cent steel, the same as 1959 models, according to Steelways, the official publication of American Iron and Steel Institute.

★ ★ ★

More than 100 different types and grades of steel are used in new automobiles. In 1911 autos, only 11 different types were in use.

Pays for Farm Work

California uses more hired farm labor than any state.

Master Your Tensions

Relax—Take One Project at a Time

GEORGE S. STEVENSON, M.D. and HARRY MILT

For weeks, things have been going along beautifully. You are operating at top speed. Tasks click off effortlessly. There's confidence, precision, decision, in every step you take.

Then all of a sudden this whole delightful picture is shattered. Your assurance is gone. You become aware of all your burdensome responsibilities. You realize you're swamped. You feel hopelessly trapped.

Has it happened to you?

It happens to almost everyone, many times. And when it does, each person goes into his own favorite, escape fantasy. The college boy wishes he were a grocery clerk. The factory worker wishes he were a carefree college boy.

The executive dreams of the simple life of the sporting goods store owner. The housewife has visions of trouble-free days on a tropical beach. Everyone wishes wildly he were someone else, somewhere else.

Well, that is one way to handle a tension-filled trouble-filled situation, and not at all a bad way. It does help to let the mind and imagination wander. Unfortunately such dreams do not last long.

★ ★ ★

What can you do then?

First you must realize that this is only a temporary condition; that it has happened to you before and will happen again; and most important, that there is no need to go through a great deal of suffering waiting for the agonizing, paralyzing state of mind to pass away by itself.

The comfort you get from this thought alone will begin to relieve some of the tension. This sets you up for the second step — tension-breaking action.

PICK ANY PROBLEM

Select a single problem or task —just one — the one you consider most important at the time, and get to work on it. The others can wait.

If it's too difficult to decide which is the most important task, pick the one you think will be easiest to handle. Don't worry about how trivial it may be. The important thing is to start doing something.

The minute you start, your feelings will begin to change. Soon things will start falling into place again.

★ ★ ★

Anyone who sets himself unrealistic goals and deadlines and then throws everything he's got into the program is asking for trouble. When you do this, you leave nothing with which to cushion a blow — even a small blow. So instead of being able to bounce back, you go all to pieces.

Taking one thing at a time enables you to pull out of your breakneck pace. You are no longer a slave to a time table. You are putting things in their proper perspective so that a task like doing over a house, or finishing a basement, or even getting ahead on your job, doesn't become the sole reason for living.

You can be overwhelmed also simply because you've never learned to break up and stagger your work. When you let everything pile up and tackle it all at once, you're bound to get tense.

HOW FAMILY PLANS

Neighbors used to wonder about the easy-going couple who never seemed to be in a rush and yet got so much accomplished. They inquired and learned the couple's secret. The first Sunday of each month, they sit down for two or three hours and lay their plans. They list everything they think will be coming up, aside from routine. They include such items as household repairs, heavy shopping, sewing projects, carpentry, outings, visits to doctors, dentists and relatives, and what have you. Then they budget their activities evening by evening and weekend by weekend. What they can't fit in they list for first consideration the following month. They allow for emergencies by leaving blank spaces on the calendar.

Boring? Dull? This family doesn't think so. They believe they can crowd much more into life — both work and fun — by budgeting.

In business too it is possible to budget work, or at least to ration it.

The mere sight of a mountain of work can make you feel overwhelmed. The answer is, cut down the mountain to a molehill and get the rest out of sight.

One executive does it this way. When his workday begins, he places on top of his desk only the work he is sure of finishing that morning. When that is finished, out comes another batch for the afternoon. This way he never experiences the sinking feeling that comes from looking at a mass of unfinished work.

If planning and budgeting and rationing don't help you, you may have to face another reality. Either there is too much work in the job for one person, or you have taken on more than you have the capacity to handle.

★ ★ ★

You may have to ask for additional help, or to have your work load cut down. If this doesn't work, you are faced with the choice of finding another job or staying on the present job and "taking it." There is just no way to reduce tension caused by an excessive load of work or responsibility.

EACH HAS HIS LIMIT

One thing many people fail to realize is that there is a limit to each one's capacity. Some people can handle a dozen complex jobs and never feel the strain. The rest of us are much more limited and should not expect to perform beyond our capacities. Yet many people do.

They may be dominated by a compulsive need to control everything in their surroundings and thus make everything come out all right. The only way the ycan do this, they feel, is to get in on everything, to take on one more responsibility after another, one task after another. No wonder they feel overwhelmed.

Or they become overwhelmed because they take on more than they can handle in an attempt to prove they are indispensable.

No one is indispensable, but there are some people who won't admit it, even to themselves. They need to feel indispensable to hide a fear that they're not needed at all. Sometimes this is caused by an ingrained feeling of inferiority? But it also is caused by being displaced from a position of importance which has been held for a long time.

Many mothers feel this way when their children leave home. So do workers nearing retirement age, or executives who fear a pending reorganization will displace them.

Still another cause of the overwhelmed feeling is lack of confidence in others. You've heard people say, "The only way to get it done is to do it myself." Check and you'll find almost certainly that such people you know have loaded themselves with work and responsibility they are having a hard time keeping up with.

Some people take drastic solutions to get away from their overwhelming burdens. They sell out and move, or outfit a boat and sail around the world. Most of us have to stay where we are and work out the best solution we can.

Take a look at all those extra things you do and ask yourself: "Do I really have to keep this up?"

(Condensed from "Master Your Tensions and Enjoy Living Again," by George S. Stevenson, M.D., and Harry Milt; Copyright, 1959, by Prentice-Hall, Inc.)

Mackinac Bridge Wins National Beauty Prize

DETROIT (UP)—A shapely silhouette and noble proportions have won a national beauty prize for "Mighty Mac."

The Mackinac Bridge was proclaimed "America's most beautiful bridge" at ceremonies here yesterday honoring the 100-million dollar span.

A stainless steel placque was accepted for the bridge by Prentiss M. Brown, bridge authority chairman.

The bridge, linking Michigan's peninsulas, won top honors in Class 1 of a contest conducted by the American Institute of Steel Construction. The bridge was cited by the judges "for its strength, handsome silhouette and the beauty it gains from its noble proportions and mass."

Pontiac Central High School Acclaims a 'Last'

'Egg and I' Production

Rehearsals Start at Rochester High

By MARCIA SEED

The Rochester High School Senior Class will present "The Egg and I" at 8 p.m. on Nov. 19 and 20 in the junior high school auditorium.

The play is a three-act comedy based on the book by Betty MacDonald.

The story is of a family that gives up life in a city to operate a chicken ranch in the Olympia Mountains of Washington.

The two girls, Ann and Joan MacDonald, portrayed by Nancy Ebbert and Linda West, respectively, find the adjustment a difficult one.

It is difficult not only because it is a new life, but also because they miss their boyfriends.

Many humorous incidents arise from this situation because Joan never quite finds the right boy among the many possibilities. When she finally does fall in love with Thad (Gary Frederick), he will talk only of chickens.

MEET CHALLENGE

Barbara Curtis as Betty MacDonald and Bill Lovelace as Don MacDonald in this heart-warming comedy meet the challenge of leaky roofs, prying neighbors, outdoor plumbing and a threat of failure.

Pontiac Press Photo

YOUCH, THAT'S HOT! — Rehearsals are in progress at Rochester High School for the production of "The Egg and I" Nov. 19 and 20. The realism of Nancy Ebbert's howl as she dips her foot into a hot tub should go over big with audiences. The thespians are (from left) Gary Friedrich, Nancy, Barbara Curtis and Bill Lovelace.

Santala Is Northern President

By ED SANTALA

Northern's January class of 1960 elected its slate of officers Tuesday. Elected to the various posts were Ed Santala, president; Ron Martin, vice president; Sandra Tinson, secretary, and Sharron Monroe, treasurer.

The classes from Northern and Central are complying with the Board of Education's request to combine the proms, commencement exercises and baccalaureate services.

Further and more detailed plans for the functions were made at a meeting of the class officers and administrators from both schools.

Dates for the commencement, baccalaureate and prom were set. The commencement will be held at Central on Jan. 28. The prom and baccalaureate will be held at Northern on Jan. 16 and 24, respectively.

★ ★ ★

Today at McCarroll School, members of the Pontiac Northern Chemistry classes are having a civil defense drill with the students of McCarroll.

The purpose is to see if it is possible to move all the students out of the school in case of an air raid. They were transported to Herrington Hills School.

Helping with the drill were Ron Card, Ruth Christenson, Joyce DeWeese, Johanna Lampi, Sandra Hilderly, Karen McKinney, Dick McLaughlin, Charles Hawkins and Sharon Nelson.

Pontiac Press Photo

LAST OF JANUARY OFFICERS — Officers have been elected for the last January graduating class at Pontiac Central High School. The semester setup has been abolished at the school in favor of full school year classes. Last of the cold weather class officers are (from left) Dick Brown, 142 Washington, president; Karen Oxley, 2714 Hillendale Dr., vice president; Eleanor Miteff, 287 Elizabeth Lake Rd., treasurer, and Marilyn Vernon, 158 W. Rundell, secretary.

January Grads Elect Officers

Dick Brown Is Named Last Midyear Prexy; Karen Oxley Is VP

By BARBARA GRIFFIN

The last mid-year class at Pontiac Central High School has elected officers to guide them for the remainder of the semester until their graduation in January.

The new officers are Dick Brown, president; Karen Oxley, vice president; Marilyn Vernon, secretary; and Eleanor Miteff, treasurer.

Mid-year changes in semesters have been abolished at Central in favor of full year terms.

★ ★ ★

Central will participate in the Saginaw Valley debate competitions with tournaments at Bay City Nov. 19, Saginaw on Dec. 3 and Flint Central on Jan. 14.

Veteran debaters from last year's conference championship team include Kay Cline, Nadine Morris, Cynthia Williams, Harold Tate, Roger Olsen, Ken Freer, Douglas Spurlock and Clark Davis.

DOLPHINS BUSY

For the next month, the Pontiac Central Dolphin Club will be busily buying music, sewing costumes, painting scenery and working out routines for its Christmas water show to be given the third week of December.

Since the Central pool is being closed for rebuilding and renovaton in January, the Dolphins decided they would rather give a brief Christmas show as a gift to the public than none at all.

★ ★ ★

Plans have been made to present the show three or four times at a school assembly prior to a one night performance.

The show will feature a Christmas card theme and include six numbers, among them a trio, duet, and finale.

Members of the music committee for the show are Susan Dunlap, chairman; Virginia Norvell, Carolyn Rouse and Bonnie Valuet. Printing programs and tickets will be the job of Vicki Corpron and Sue Hamilton.

Sewing costumes will be Kay Whitfield, chairman; Martha Spark and Judy Fink. Members of the Publicity Committee are Sheila Goldberg, chairman; Rada Youngblood, Joan Monteith, Judy West and Cynthia Nolf.

★ ★ ★

Sue Ann Hathaway, Barb Griffin and Barb Strang are in charge of narration. Members of the Props and Art Committee are Lynne Vieriech, chairman; Micki King, Donna Helmkamp, Becky Bryce, Diana Rigotti and Lee Sharette.

Adviser of Dolphins is Mrs. Nelma Wood.

★ ★ ★

Dolphins were invited to attend the Aquatic Art Symposium held this weekend at the University of Michigan. Several members will travel to Ann Arbor tomorrow to see routines by other clubs, films and demonstrations in synchronized swimming by the renowned Beulah Gundling.

St. Michael Students Hold Test Tubes, Noses in Chemistry Lab Experiments

By BARBARA ARDELAN

"Sulphur fumes everywhere, but no fresh air to be found."

This is the phrase coined by St. Michael students passing the chemistry lab last week.

Future scientists, nurses and engineers were busy contemplating various experiments with sulphur and phosphorus, many of which proved to be distasteful.

The seniors have become right-handed all of a sudden since their class rings were distributed this week.

The following students were summoned to appear in Probate Court as jurors of the Teen-Age Traffic Court of the city of Pontiac. Chosen on the basis of perfect attendance during the first quarter were Jane Bentham, Jean Cassabon, Pat Clevering, Tom Dabbs and Patrick Donahue.

HELP YOUTH

This court, sponsored by the Exchange Club of Pontiac, has as its motto, "Helping Youth Help Youth."

The high school students received their report card marks last Monday. Their parents came Tuesday and Wednesday to pick up their cards and have an informal talk with the homeroom teachers.

Many students became members of the school Honor Roll. In order to be on the Roll of Honor one must have a minimum of 11 honor points. The maximum amount of points is 15. This is based on 3 points for each A, 2 points for each B, and 1 point for each C.

C.S.M.C. officers were elected this past week. They are: president, George Drake; vice president, Tonya Hurst; secretary, Barb Gottschalk, and treasurer, Paul Chapdelaine. Senior representative to the C.S.M.C. is Thomas Lauinger.

Pontiac Press Photos

CHEMISTS ALL — St. Michael chemistry students had their hands and noses full with experiments this week. Studies were being conducted on sulphur and phosphorus which emit strong odors under certain conditions. No wrinkled noses here, though, as these four young chemists see for themselves what happens. They are (from left) Barbara Gottschalk, 5959 Cooley Lake Rd.; Jane Bentham, 241 Nelson St.; Paul Chapdelaine, 48 Chamberlain St.; and Patrick Donohue, 651 Williams Lake Rd.

Walled Lake High Students Hear Guest Lecturers

By PAULA PROULX

Since Monday, seniors in government and sociology classes at Walled Lake Senior High school have heard lectures from various areas of the working world and the Armed Forces.

The girls were visited by representatives from the Burfoughs Corporation, who discussed the use of office machines; a representative from Michigan Bell Telephone Company and one from the J. L. Hudson Company.

The Oakland County Child Guidance Clinic sent Miss Madeline Half who discussed child psychology. Donald Carros, personnel director from Pontiac General Hospital, talked about jobs open in hospitals in addition to those for nurses.

★ ★ ★

The Army, Navy, Marines, Coast Guard, Air Force, and the N.R.O.T.C. were represented and discussed various aspects of the armed forces with the boys.

Also represented were the Socony-Mobiloil Company and Soldarity House to discuss retail merchandising and apprenticeships.

W. Bloomfield Drafts Speeches

By DODI DWYER

Pens and typewriters have been doing double duty at West Bloomfield High School as the students prepare their speeches for the "I Speak For Democracy" contest.

★ ★ ★

The following students have been chosen to present their speeches to the student body in an assembly: Carol Knapp, Sandy Kuyper, Nancy McClurg, Shelia Murphy, Jack Newton and Judy Walberg.

A panel of judges, chosen from the teachers, will then select one student to represent West Bloomfield High School in the county-wide competition.

If chosen to represent the county, the student will then compete in the statewide contest.

★ ★ ★

A tape-recording of each state winner will be sent to the contest headquarters in Washington, D. C. for the national judging.

BASIC THEME

The speeches are judged on basic theme, organization, style delivery and originality with a possible total score of a 100 points.

The award for national winner includes a $1,500 scholarship to any college chosen, a gold recording of the script, a free trip to Washington for four days of activities.

★ ★ ★

Each school, county, and statewide winner will also receive a certificate of merit. The contest closes Dec. 16.

Clarkston Science Students Cohesive

By PAULETTE KIMBALL

The first meeting of the newly-formed Science Club at Clarkston High School was held last week.

President Shanna Stewart is assisted by Larry Blackett, vice president; Sandy Hollis, secretary; and Sue Larkin, treasurer.

Committees were designated for the purposes of planning field trips and money-making projects. The field trip already taken this year was to MSUO to hear a series of lectures and have lunch in the new cafeteria.

Selected for investigating possible future trips were Sue Cushman, Dave Smith and Sue Turek.

Composing a list of money-making projects to be presented at the next meeting are Pat Asher, Craig Smith, Sally Taylor, Sharon Collick, and Carolyn Ruggles.

★ ★ ★

Requirements set up for receiving a membership pin are payment of dues by Nov. 26, the minimum of three missed meetings and a project entered in the Science Fair next spring.

The club will belong to the Science Clubs of America once again this year.

Cards Out at St. Fred

By PAT VILLELLA

Many a relieved sigh was heard last week as St. Frederick students received their first report cards.

The seniors led the way with 25 per cent of their class making the Honor Roll.

Waterford 'Class of 1961' Announces New Officers

By JOHN TEEUWISSEN

Waterford Township High School Class of 1961 elected its class officers for 1959-1960 last week.

Chosen to lead the juniors were Richard Wagner, president; Sally Hickman, vice president; Patricia Dovre, secretary, and Joyce McKenna, treasurer.

Pep Club is sponsoring bus transportation to the Skippers' last football game of the 1959 season tonight. Cost of the trip, to see the Waterford team battle it out with Wayne, will be $1.

Next Friday will be the annual fall sports awards assembly. Letters and recognition will go to the boys who participated in football and track this fall.

The coaches will make the awards to the varsity and junior varsity athletes.

Underclassmen had their pictures taken yesterday and today at the high school. The pictures will be used for the Waterlog in addition to their personal use by the students.

TOOK PHOTOS

Ties and sweaters were the order of the day and combs were also much in evidence as the sophomores and juniors primped for their photos.

As the football season comes to a close, both boys and girls are turning their attention to basketball competition.

Tryouts for the Skipper cage team are being held with those basketball players on the football team joining the others on the court next week.

The Girls Athletic Association held tryouts for its inter-school basketball team last Monday. They recently finished their field hockey competition.

Both Hi-Y and GAA sponsor tnra-school basketball competition.

Emmanuel Christian Picks Team's Name

By EVELYN CHAPEL

The student body chose the name for the football and the basketball teams. They were named by Duke Marion, a senior of Emmanuel Christian School.

The name he chose was Lancers. The prize was three dollars.

The juniors got underway with planning the senior banquet. The students on the committee are: Ken Brown, David Bee, Evelyn Chapel, Sharon Charpender, Bob Hutto and Sandy Zietek.

The juniors also have committees working on a Thanksgiving Basket for some families. The chairman of this committee is Judy Carie.

Tonight the seniors are planning a class bowling party. After attempting to bowl they plan to go to Judy Jones' house for refreshments.

New Labor Watchdog Has Tough Job Cut Out

WASHINGTON (AP) — The nation's new labor rackets watchdog is a former FBI agent named Daniel L. O'Connor.

His appointment hasn't been announced yet but O'Connor already is busy at work in a Labor Department office as enforcement chief of the anti corruption provisions of the new labor law.

★ ★ ★

O'Connor is assembling a staff to insure fair elections in labor unions, honest handling and reporting of union funds, and elimination of Communists and convicts from union leadership — as required under provisions of the new law.

★ ★ ★

Some of the 90 investigators formerly employed by the Senate rackets probers — the group that turned up the labor corruption story that led to passage of the new labor controls—are being interviewed for jobs on O'Connor's staff. There will be more than 100 such sleuths.

★ ★ ★

Selection of O'Connor, a veteran Washington lawyer with a half dozen years' service with the Federal Bureau of Investigation, came as key sections of the new labor control law went into effect today.

Some sections of the new law became operative on Sept. 14, when President Eisenhower signed the new legislation. Others became effective today and still more will go into effect in mid-December.

TIGHTER BANS

Today's new provisions are amendments to the Taft-Hartley Act dealing with changes in the rules for labor-management relations rather than provisions aimed at curbing labor union corruption.

★ ★ ★

The latest changes were the most controversial and include tighter bans on picketing and boycotts. They also permit the states to take over jurisdiction of labor cases over which the National Labor Relations Board declines jurisdiction.

Stuart Rothman, the NLRB's general counsel, and the man who will administer this part of the law, told the New York City Chamber of Commerce Thursday that nobody can figure out exactly at this point the full meaning of the picketing, boycott and other T-H law changes.

★ ★ ★

He said the new labor relations rules will have to be measured against facts in particular cases.

However, they tighten boycott and picketing controls over unions and prohibit outright the "hot cargo" clause arrangements between employers and unions.

The Teamsters Union, particularly, had used the "hot cargo" arrangement to cut off deliveries to innocent third party employers in labor disputes to bring pressure on primary employers at odds with the teamsters.

★ ★ ★

Other parts of the new law effective today will permit strikers to vote in bargaining rights elections and allow pre-hire contracts in the construction industry. Unions had sought these changes.

Saginaw Launches Hospital Fund Drive

SAGINAW (AP) — A campaign to raise $1,700,000 for expansion of Saginaw General Hospital officially was under way today.

★ ★ ★

The program calls for a five-story addition to the present hospital at an estimated cost of $2,500,000 for building and equipment.

The hospital has on hand $300,000 in gifts and $500,000 is available in government grants provided construction is started not later than July 1960. This leaves $1,700,000 to be raised.

At a campaign kickoff dinner last night, initial gifts of $647,000 were announced, leaving $1,053,000 to be raised. The goal for completion of the campaign was set for Feb. 29.

★ ★ ★

The expansion will increase the capacity of the hospital to 315 beds. The present hospital, built in 1922 and added to in 1944, was designed for 194 beds. But in recent years well over 200 beds have been in use.

Just Like California

French Morocco resembles California in climate.

AP Wirephoto

MR. HEARNE'S SON — David Hearne, above, 21-year-old son of Irish Ambassador John J. Hearne, has claimed diplomatic immunity in connection with the fatal injury Wednesday night of a pedestrian in Washington, D.C. Police quoted young Hearne as saying he was trying to make sure his car had missed a pedestrian when his auto struck a second pedestrian. No charges have been lodged but young Hearne was to appear at an inquest today.

Snowed Under an Avalanche of Wart Offers

EAST LANSING (AP) — A Michigan State University professor has received a nationwide response to his appeal for warts.

★ ★ ★

An Associated Press story last week told how Prof. Walter Mack, a virus specialist, needed some of the tiny skin tumors for a cancer research project.

Since then, Mack reported, letters and telephone calls have been pouring in from all over the country.

"So far it has been impossible even to count the number of letters we've received," he said. "More than 100 must have come in today's delivery."

★ ★ ★

Despite being snowed under with communications, Mack expressed gratitude for the wide interest in cancer research.

★ ★ ★

Warts from selected persons are removed at a MSU laboratory for study by Mack.

The project, backed by the American Cancer Society, is aimed at finding out if there is a relation between skin tumors such as warts and internal tumors.

PIN-WORMS MAY BE A FAMILY AFFAIR

Fidgeting, nose-picking and a tormenting rectal itch are often telltale signs of Pin-Worms . . . ugly parasites that medical experts say infest *one out of every three* persons examined. Entire families may be victims and not know it.

To get rid of Pin-Worms, these pests must not only be killed, but killed in the large intestine where they live and multiply. That's exactly what Jayne's P-W tablets do . . . and here's how they do it:

First—a scientific coating carries the tablets into the bowels before they dissolve. *Then*—Jayne's modern, medically-approved ingredient goes right to work—*kills* Pin-Worms quickly and easily.

Don't take chances with this dangerous, highly contagious condition. At the first sign of Pin-Worms, ask your druggist for *genuine* Jayne's P-W Vermifuge . . . the small, easy-to-take tablets perfected by famous Dr. D. Jayne & Son, specialists in worm remedies for over 100 years.

Britain, France Move Closer?

De Gaulle Gets Way on Summit Planning; Will Visit London

PARIS (UPI) — British Foreign Secretary Selwyn Lloyd returns to London today from a mission to Paris that apparently resulted in Anglo-French unity on planning for the East-West summit meeting.

★ ★ ★

An announcement yesterday that French President Charles de Gaulle will make a formal state visit to London April 5-8 was a good indication that Britain had given up its hopes of a summit meeting before then.

De Gaulle will be busy entertaining Russian Premier Nikita Khrushchev during a two-week visit to Paris beginning March 15.

De Gaulle's visit to London comes soon after Khrushchev leaves and yesterday U.S. Secretary of State Christian Herter said De Gaulle's U.S. visit would have to be fitted into the loose schedule of international meetings prior to the summit.

★ ★ ★

Since De Gaulle wants to visit Washington before the summit meeting, it appeared today the East-West conference may be delayed until summer—and that the British are now resigned to the delay.

★ ★ ★

If Britain has indeed made concessions to De Gaulle on summit planning, the announcement of his London visit crowned many other hopeful signs of new-found harmony between Britain and France.

Hazel Park Man Critical After Car Bashes Tree

A Hazel Park man was in critical condition today at Pontiac General Hospital with injuries suffered when his car smashed into a tree in White Lake Township early this morning.

★ ★ ★

Oakland County sheriff's deputies identified him as Morris J. Bateman, 35, of 459 W. Goulson St. He suffered multiple face cuts and possible internal injuries.

Bateman was unable to make a statement.

★ ★ ★

Deputies said he was alone in his car driving east on Elizabeth Lake road west of Williams Lake road when he skidded 200 feet and smashed into the tree. The accident happened shortly before 3 a.m.

British Crew Launches 8th Thor Successfully

VANDENBERG AIR FORCE BASE, Calif. (UPI)—A Royal Air Force crew successfully launched a Thor intermediate range ballistic missile yesterday.

The firing was the eighth made by RAF crews trained at this central California missile base.

Churches Pushing Campaign Against Sunday Store Hours

Strong stands against Sunday store openings have been taken Detroit Council of Churches and by the Pontiac Pastors' Assn., the the Roman Catholic Archdiocese of Detroit.

★ ★ ★

All three organizations have urged that since Sunday is the traditional day of worship in all churches, stores stay closed.

The Pontiac association, comprising most of the Protestant churches in the area, adopted a resolution urging parishioners to patronize only those stores that stay closed on Sundays.

"There is an over increasing practice on the part of certain business establishments to be open for business seven days each week," the resolution read in part.

"Therefore, we pledge ourselves, God being our witness, that we will, at all times, patronize those merchants and establishments which observe the day of rest."

Archbishop John F. Dearden of Detroit has urged that archdiocese priests urge Catholics to stage a drive to "curb the abuse of needless Sunday shopping." He asked the concerted cooperation of all churches to encourage shopping during the normal business week only.

The Detroit Council of Churches went on record for similar announcements to be made from pulpits for four consecutive Sundays beginning Nov. 15.

★ ★ ★

"Each pastor will be asked to urge his people not to patronize businesses which operate on Sunday," a council spokesman said. "This includes not only refusing to patronize them on Sunday but other days in the week as well."

According to Rev. C. Warren Wilson, chairman of the Social Services Committee of the Pontiac association, the boycott is not intended to create a hardship on those who do not observe Sunday as the day of worship, if they are faithful in observing the day their beliefs have established.

Exempted from the boycotts are those essential businesses—such as drugstores, gas stations and some other—which must remain open on Sundays.

2 City Women Hurt in Autos on Slippery Roads

Two Pontiac women drivers were injured in separate accidents caused by slippery snow-covered roads in Oakland County last night and early today, according to Oakland County sheriff's deputies.

Taken to Pontiac General Hospital shortly before 5 a. m. was Carrie Rooksberry, 36, of 181 Lorberta Lane. She suffered a head cut when her car hit an icy spot and struck a tree on Pine Lake road as she left the Pine Lake Country Club in West Bloomfield Township.

Dorothy A. Ramin, 20, of 3088 Grant St., was taken to St. Joseph Mercy Hospital with a head injury suffered in a head-on collision with another car on Rochester road south of Hamlin road, Avon Township.

She told deputies her auto went into a spin and skidded over the center line into the path of an oncoming auto driven by Fern M. Smith, 41, of Imlay City.

Both women were treated and released.

Detroit Cranberries 'Clean' in 1st Tests

DETROIT (AP) — Federal food inspectors said yesterday initial tests showed no signs of a weed-killing chemical in 30 samples of cranberries offered for sale in the Detroit area.

★ ★ ★

The chemical is said to induce cancer in experiments on rats.

T. C. Maraviglia, chief inspector here for the Federal Food and Drug Administration, said, "We can't say everything is all right until we've checked about 400 samples. But if the rest of the tests run out like the first ones did, there couldn't be any danger in eating cranberries."

Most of the cranberries sold in Michigan come from the East Coast or Wisconsin where no contamination has been reported.

Fruehauf to Pay 30 Cent

DETROIT (AP) — Fruehauf Trailer Co. resumed dividend payments yesterday on its common stock by declaring a 30 cent dividend payable Jan. 4 to stockholders of record Dec. 4.

Islanders Fear Madman Loose

Staten Residents Worry About Possibility of 2nd Hand Grenade

NEW YORK (AP)—Fear of an unknown killer, who used a hand grenade to take a life gripped a quiet residential section of Staten Island today.

Many residents asked: "Can a madman be roaming our streets?"

★ ★ ★

The wave of fear and speculation followed in the wake of the death Thursday of Concetta Giarletta at a hospital, and a telephoned threat to another Staten Islander that "your garage is going to be next."

★ ★ ★

It was a hand grenade rigged to her garage door that shattered the 41-year-old housewife's legs last Tuesday night and wounded her so badly that doctors couldn't save her. Her 50-year-old husband, Frank, waiting to put their car in the garage, was unhurt.

★ ★ ★

Neighbors said the dark-haired woman was without a known enemy in the world.

Police, possessing a hand grenade handle as the only clue, speculated that she may have been the victim in a bombing meant for some one else, or the random target of a madman.

Many Staten Islanders voiced fears that a homicidal successor to George Metesky, the so-called "Mad Bomber," might be at large.

Metesky planted 32 homemade bombs in New York City in 17 years, before he was captured in 1957 and committed to a state hospital for the insane. His bombs injured 15 persons.

Ferris Institute Seeks Funds for Expansion

BIG RAPIDS (UPI) — The Board of Control of Ferris Institute will seek $2,351,141 for capital improvements at the school next year.

★ ★ ★

A request for the funds has been submitted to the Legislature as part of its 1960-61 budget. New construction would take up $2,102,500 of the request and remodeling and alterations would cost the rest.

Durocher All Through; Runs Around With Larri

NEW YORK (AP) — Leo Durocher has a new romantic interest, blonde Hollywood actress Larri Thomas, 26, the Daily Mirror said today.

It said Hollywood reports have it that the former baseball manager's 12-year marriage to actress Laraine Day "is all over but the legal formalities."

Durocher, dubbed "The Lip" for his quick-tongued habits while in big-league baseball, moved out of their Beverly Hills, Calif. home several months ago, the newspaper said, and added:

"Since then his constant little sidekick has been Larri, a Wayne, Pa. girl who went all the way to Hollywood to make good."

Apalachin Raid Two Years Old

None Ever Convicted After Police Intervention at Gangland Confab

NEW YORK (AP)—Something was afoot up on the hill. Three big cars had pulled in and parked beside the imposing Barbara mansion. Police were curious. They posted a watch.

That was two years ago today near Apalachin, N. Y.

★ ★ ★

By next day, the number of expensive cars gathered there had grown to 20, and police finally moved in to find out what was going on. They, and other authorities, still are wondering.

Sixty-three gangland figures and friends convened that day at the country estate of the late Joseph Barbara Sr. Police questioned them, took their names, but had no basis for further action.

There was no gunplay; no overt crimes committed. It was, on the surface, just a party of pals. Authorities since have called the affair an underworld convention.

★ ★ ★

Last spring, a federal grand jury indictment named all of them —27 as defendants and 36 as conspirators—and charged they had plotted together to thwart the law and conceal the purposes of the meeting.

Four of the defendants still are fugitives, and the cases of two have been severed because of heart attacks, with 21 left on trial before a jury of eight men and four women.

★ ★ ★

Bombarded with a series of about 100 defense motions seeking on various grounds to upset the case, U. S. Dist. Judge Irving R. Kaufman has turned them all down—except one still pending.

In effect, it is a challenge to the police right to invade the Apalachin gathering in the first place. Kaufman has reserved ruling and will hold hearings starting Monday.

British Tax Law Lacks Romance

LONDON (UPI)—It's a good idea to see your accountant before getting married in England because in many cases two definitely cannot live as cheaply as one.

The British tax system makes the difference. Married couples often lose allowances to which they're entitled as single persons.

Laments a 68-year-old man who married four years ago:

"It was foolish of me not to consult an accountant before getting married. We might have elected to remain single."

About two-thirds of Arkansas is forest-covered.

Won't Be Sorry to Leave White House

Secrecy Cloaks Mamie's World

By FRANCES LEWINE

WASHINGTON (AP)—Mrs. Mamie Eisenhower, who will be 63 tomorrow, has managed to keep a private life of her own during the seven years she has been in the White House.

By the time her birthday rolls around next year, her successor as first lady will have been named.

From all indications, Mamie won't be sorry to relinquish the role.

She has not sought, as Mrs. Eleanor Roosevelt did, to be a national figure in her own right.

Nor, like Mrs. Bess Truman, has she openly evidenced dislike for the social and public appearances that go with being first lady.

She has kept her own public appearances to a minimum. She never makes any speeches, holds no news conferences or press interviews and accepts few outside invitations.

★ ★ ★

Her unofficial White House comings and goings are not disclosed.

During the Eisenhower administration, the traditional White House social season has been whittled down and finally was eliminated entirely this year.

This elaborate entertaining for Congress, Supreme Court, diplomats, military and officialdom once brought thousands to the White House for receptions and formal dinners. It probably won't be revived in the remaining years of the Eisenhowers' tenure.

For the entertaining she has done, Mrs. Eisenhower has gained a reputation as a gracious hostess at 1600 Pennsylvania Ave. She charms guests and visitors with her ready smile, just the right inquiry, pleasantries and flattering comment.

★ ★ ★

She is a gay and friendly guest of honor at outside social gatherings. She has preferred invitations from groups of government or military wives, probably because she has most in common with them.

Ceremonially, Mamie has appeared with the President and has gone out on her own for such things as the christening this year of the atomic-powered passenger-cargo ship Savannah.

Beyond these public and semi-public appearances, though, the world of Mrs. Eisenhower is private.

Secrecy and security have been employed through the years to give Mrs. Eisenhower some privacy. Everyone from chauffeurs to chefs at the White House is under a no-talking rule.

★ ★ ★

Mrs. Eisenhower frequently makes unannounced visits near Washington. She slipped in a side door to see her niece, Ellen Doud Moore, graduate from Holton Arms School in June.

CASUAL SHOPPER

On occasion, too, she has shown up unexpectedly as a casual shopper both in Gettysburg, Pa., and in the Washington area.

Mrs. Eisenhower has found a private and secluded vacation spot at Elizabeth Arden's Maine Chance health and beauty resort near Phoenix, Ariz. She went there in February 1958 and 1959 and may go again early in 1960.

Mrs. Eisenhower's only other trips without the President have been to Denver to visit her 81-year-old mother, Mrs. John S. Doud.

Her most frequent companion—traveling and at home — is her only sister, Mrs. Frances (Mike) Moore, wife of businessman-broker, ex-Army officer George Gordon Moore.

Mrs. Moore, who resembles Mamie, is perhaps the most accessible of the Eisenhower family.

She says Mrs. Eisenhower's favorite card game still is Bolivia — a more difficult version of Canasta. And the first lady joins the President in watching TV westerns.

DON'T TALK

If Mrs. Eisenhower has the girls in to play cards at the White House, nobody but the card players knows about it. And they don't talk.

Typical is Mrs. George E. Allen, who like her friend-of-presidents' husband is a frequent visitor both at the White House and at the Eisenhowers' Gettysburg farm home. She turns away inquiring reporters, declaring: "I can't tell you anything."

Mrs. Eisenhower is protected, too, by her social secretary, Mrs. Mary Jane McCaffree, an ex-New Yorker who got her training as executive secretary to top businessmen.

Mrs. McCaffree has carried over an efficient technique of protecting her boss from being approached by the press. Every inquiry about Mrs. Eisenhower has to go through Mrs. McCaffree, who brushes off virtually every one of a personal nature.

The President at a news conference this summer said any decision about taking an apartment in Washington when he leaves office would be up to Mrs. Eisenhower. He suggested "You had better get some of your lady reporter friends to go and talk to her about it."

★ ★ ★

A lady reporter tried, but couldn't get through by phone to Mrs. Eisenhower.

But Mollie Parnis, New York dress designer who has provided clothes for Mrs. Eisenhower since pre-White House days, says she gets through without any trouble.

Mrs. Eisenhower likes to discuss her personal things, says Mollie, and "she gets on the phone herself" to talk over the dress problems.

About three times a year, Mollie Parnis presents designs at the White House for the first lady to look over. Mrs. Eisenhower likes "easy (full) skirts," a little skin showing for afternoon dresses and prefers the tops of her arms covered, the designer reports.

As a customer, Mollie Parnis finds Mamie the "easiest, kindest, most considerate, and least temperamental."

AP Wirephoto

GOOD-HUMORED CHAT — Mamie Eisenhower, the nation's first lady for the past seven years, and her husband get together with the Rev. Dr. Edward L. R. Elson after church services at the National Presbyterian Church in Washington. Mamie, who will be 63 years old Saturday, has managed to live a private life in Washington due largely to the secrecy observed by her friends and associates.

Steel Union to Resume Strike at End of Injunction

NEW YORK (AP)—The United Steelworkers Union plans to resume contract talks shortly after Thanksgiving with aluminum, copper and can companies.

But prospects for a break in the basic dispute with the steel industry remain bleak.

The steel union's 171-member wage policy committee voted unanimously Thursday to renew the 116-day steel strike if no agreement is reached by Jan. 26.

That's the expiration date of the 80-day Taft-Hartley injunction that sent half a million steel workers back to plants across the nation. The injunction went into effect last Saturday.

Referring to a hope expressed by Secretary of Labor James P. Mitchell that both sides could settle their dispute before then, the union president, David J. McDonald, said:

"I know of no foundation for such a statement. Of course we'll try again — we're certainly going to give it the old American try."

McDonald said no date had been set for resuming talks with steel producers.

He indicated the union would start exerting pressure immediately, however, for wage agreements covering 100,000 other members employed in the non-steel metal industries.

Aluminum and can workers have remained on the job beyond contract expirations. Most of the copper workers have been on strike for three months.

The deadlock in steel has particularly affected aluminum negotiations, since that industry traditionally follows the contract pattern set in steel.

McDonald described the policy committee as solidly behind union officers in their handling of the steel negotiations and the strike.

Electric Chair Awaits Two Negroes in Rape

RAIFORD, Fla. (AP) — Two Negroes convicted of raping white women go to their death in Florida's electric chair today after losing last minute pleas for commutation of their sentences to life imprisonment.

★ ★ ★

The condemned men are Willie George City, 22, and John Edward Paul, 24.

City pleaded guilty to rape of a white widow at her home at Largo. Paul was convicted of raping a 47-year-old grandmother at Clearwater.

U.N. Vote Fails Over A-Test Ban

Group Hoping to Ask France to Delay Her Sahara Blast

UNITED NATIONS, N.Y. (AP) —A majority of the United Nations Thursday night asked France to call off her planned atomic test in the Sahara Desert, but the vote apparently was just short of the total necessary to put the U.N. Assembly on record against the test explosion.

★ ★ ★

The U.N. Assembly's Political Committee, on which all 82 U.N. members are represented, approved a resolution calling on France not to hold the test by a vote of 62-26 with 10 abstentions. But this was two votes short of the two-thirds majority of those voting necessary to secure adoption of the resolution in the Assembly.

★ ★ ★

The outcome of the vote was a technical victory for France, thanks to the two-thirds rule. It was obvious, however, that the Soviets and the Asian-African sponsors of the resolution would stage a major propaganda campaign contending that the majority of the U.N. oppose the French atomic test.

The balloting came after flat notice from Jules Moch, French disarmament expert, that his government would go ahead with its plans regardless of how the vote came out.

Both the United States and Britain joined France in opposing the resolution, whose Asian and African sponsors charged that the proposed test would turn the Sahara into a radioactive no man's land and endanger thousands of lives.

Arthur Schwartz, noted composer of such Broadway song hits as "I Love Louisa" and "Alone Together," also is a lawyer.

Hare, Hare Now! Leonardo Uses Contact Lenses

DALLAS, Tex. (AP) — Leonardo da Vinci is a happy albino rabbit who finds his carrots with the aid of contact lenses.

★ ★ ★

Leo is on display at a pre-convention meeting of the Delta Regional Optometric Contact Lens Conference which begins Sunday.

The contact lenses give Leo's eyes a bright blue appearance instead of the normal albino pink.

★ ★ ★

Officials here said the rabbit was named after the man, who among other things, discovered the principles of contact lenses in 1508.

Bureaucracy Is Huge

WASHINGTON — The federal government has more employes than the nation's eight largest corporations combined.

Okay School Bonds

STANTON (AP) — Voters Thursday approved an $815,000 bond issue for a school building program by a count of 445 to 250, according to Supt. Jack McConkey, and approved a proposed two-mill tax levy for school operations by a vote of 473 to 254. The building project includes a new high school, an elementary school addition and remodeling the present high school.

Timeless Israeli Knits Are Impressive

Pontiac Press Photos by Eddie Vanderwerp

Israeli knits made their fashion show debut Wednesday afternoon at Kingsley Inn. Shown at top left is the very popular three-piece sand and white striped suit with a collar that converts to a cardigan line. Its square neckline and mid-upper arm sleeve length add versatility to the suit.

At top right is a one-piece dress with V neckline in a modified surplice. The figure-flattering cummerbund contrasts in rich earth red tones.

At left, a three-piece citrus suit with free-form jacket that is neither fitted nor boxy, but falls softly. Back interest is supplied with a set-in yoke, accented with two large citrus-colored pearl buttons. The scoop-necked blouse is two-toned, correlating with white lined jacket collar with faint citrus dot.

By MARJORIE EICHER

Alvin's scored a U.S. fashion first Wednesday with the initial public showing of Israeli knits designed by Alid.

More than a score of the classic knits was modeled to a packed luncheon audience at Kingsley Inn.

Long established in Europe, the line was first imported to this country about 5 years ago and was pioneered by the local store.

★ ★ ★

The designs are classic and timeless. Although supple, the knits have a body that makes them ideal for travel.

Styling is flawless — achieving a true basic quality that may be dressed up or down to the occasion.

My luncheon partner, coordinator of the show, was wearing a favorite ensemble that had seen 5 years of hardy service. It looked new.

Knits, traditionally difficult to wear, are not always exciting in color and lose their shape. This line has perfected machines that produce a unique lock stitch, insuring more body and a fabric that tailors and blocks beautifully.

★ ★ ★

The colors almost sing in their clarity, and the natural tones achieve a richness from the fabric — you almost have to feel its texture to appreciate it.

Each of the designs was exciting. My favorites included a dramatic purple one piece dress with a 6 foot stole. An opening in the belt permits the stole to be draped from the waist and worn in a variety of ways.

★ ★ ★

A three piece navy and white suit is a natural for cruise and early spring wear. It features a nautical collar descending to a cardigan border and ending in a V point for back interest. Self-belted, it has side slant pockets and a solid white overblouse.

A one piece navy and white striped sheath, sleeveless and with a scoop neck has an unusual midriff treatment. A knife-pleated knitted belt criss-crosses in the front and is caught in the back with pearl buttons.

★ ★ ★

The knits, ranging from $55 to $125, deserve serious consideration in even a modest clothing budget. Their timelessness, quality and tailoring give service and that peace of mind a woman has when a fashion is unquestionably "right."

Israeli knits may be seen in a trunk showing at Alvin's this afternoon and tonight from 5 to 9 p.m.

Psi Chapter Welcomes New Members

Psi Chapter of Sigma Beta sorority held its November meeting recently at the Voorheis road home of Mrs. Wallace Williams.

President Mrs. Charles Fournier, welcomed new members, Mrs. John Spragg, Mrs. Carmen Tosto and Mrs. James Chartier.

Reports of the recent national convention in Cincinnati were given by Mrs. Fournier and charity chairman, Mrs. James DeFlorio.

Mrs. DeVere Games who is moving to New York, was honored.

★ ★ ★

Hostess for the month's social activities will be Mrs. Thomas Thornberry, Mrs. William Deuman and Mrs. William Spalding.

Vasa Lodge Sets Meeting

Scandinavian Vasa Lodge 510 will meet Saturday evening at 7:30 p. m. at the KP Hall on Voorheis road. Dancing will follow the meeting.

Mr. and Mrs. Folke Carlson and Mr. and Mrs. Erick Pearson will serve refreshments. All Scandinavians and their friends are invited to attend.

Carry Pack of Crackers With You

By EMILY POST

"Dear Mrs. Post: I have an ulcer and because of it can eat very little at one time. I do, however, have to eat often. When I am at home I usually have a glass of milk or a cracker or two when I begin to feel a pain.

"When I go visiting this presents quite a problem. Would it be proper when in someone else's house to ask the hostess for a cracker should I feel the need for it?"

Answer: I think the simplest thing to do would be to carry a few crackers in your purse and should you feel the need for them, say, "Please don't pay any attention to me, but I have to have this." It is just the same exactly as if you had to take a pill.

"Dear Mrs. Post: There are occasions when I have to address letters to my employer's young son who will be thirteen shortly. Up to now I have prefixed the title Master to his name. I was told the other day that this is incorrect and that he is much too old to be addressed as Master. Will you please tell me if I am wrong, and if so how should he correctly be addressed?"

Answer: A boy of thirteen is too old to be addressed as Master and too young for Mr. and at that age should be addressed as John Smith without any title.

"Dear Mrs. Post: When salad (such as lettuce and tomato) is served, is it permissible to cut the tomato and lettuce with a knife? I think it is but a friend of mine insists that it is most improper to cut salad with a knife and that a fork alone is correct. Will you settle this please?"

Answer: It was always correct to cut salad with silver knives, but because the vinegar in the salad turned the old-fashioned steel knives black, these could not be used. It is correct to use the modern stainless steel knives just as though they were silver.

JOYCE MEYER

Mr. and Mrs. Walter A. Meyer of Barrington road have announced the engagement of their daughter Joyce Elaine to James Flynn, son of Mrs. Margaret Flynn of Detroit and the late Harry Flynn. A Feb. 6 wedding is planned.

Sno-Ball Chairmen Named

The Keloa Klub met Wednesday evening at the home of Barbara Atwell on Menominee road. Sharon Young, vice president, was named general chairman of the New Year's Sno-Ball dance.

Other chairmen announced were: Wendy Maneck and Valerie Vasbinder, decorations; Barbara Shadley and Kay Whitfield, tickets; Sue Sommerville and Pan Noren, programs; Judy Dearing and Mary Jo Whitfield, refreshments; and Mary Aughenbaugh and Cathy Calhoun, publicity.

Others are: Judy Ward, patrons; Kay Jerome, music; Sue Smith, door prize; and Mary Lou McLaughlin, post dance.

The successful participation of the club in the Halloween UNICEF drive was announced. Members were told that their candidate for Miss High Fever Follies, Donna Douglass, placed second in the contest.

Women's Section

Musicale Enjoys Program

Hears of Worldwide Trip

By MARY LOUISE LINDQUIST

The Pontiac Tuesday Musicale enjoyed an international program at Fellowship Hall of Grace Lutheran Church this week.

Mrs. Ferdinand Gaensbauer offered slides and comments on her recent trip around the world. A very active member of the club for many years, she was introduced by Mrs. H. B. Euler.

In seven and a half weeks, Dr. and Mrs. Gaensbauer traveled 24,300 miles and logged more than a hundred hours of air time.

Besides plane, they traveled by train, boat and camel-back — from which they saw the Sphinx and Pyramids in the Egyptian desert.

★ ★ ★

Mrs. Gaensbauer wore a dress of Tai silk, handwoven and dyed in Bangkok. Before the showing of slides, Carolyn and Gretchen Gaensbauer and Christine Boss modeled some of the clothes bought on the trip.

Though the trip was hurried, the Gaensbauers feel it was long enough to get a better understanding of the people.

Learning more of the culture of the various countries, they believe the western world cannot change a civilization rapidly.

★ ★ ★

London, Paris, Rome, Cairo, Athens, Jerusalem, Bangkok, Hong Kong, Singapore, Tokyo, the Philippines and Anchorage, Alaska were on the itinerary. The audience was impressed by Mrs. Gaensbauer's explanation of some of the religions, living conditions, the need for education and the respect for learning.

★ ★ ★

Committees for the day were Mrs. Robert Isgrigg and Mrs. Benjamin Jerome Jr., floral; Mrs. Dora Dawson and Mrs. Helen Teitgen, door hostesses; and Mrs. Jack Habel and Mrs. William Thomas, tea table.

The social committee was headed by Mrs. Cecil McCallum and Mrs. Howard Grady. Others were Mrs. Ralph Becker, Mrs. Merle Voss, Mrs. H. C. Cites, Mrs. Carroll C. Braid, Mrs. Cecil Newstead and Mrs. William W. Donaldson.

Auxiliary Has Final Meeting

The final educational meeting of the 18th District American Legion Auxiliary was held Thursday evening at Clawson American Legion Post.

Chairmen of the 18th District there were Mrs. William Kramer, finance; Mrs. George Danuck, legislative; Mrs. John Saeks, Girls State; Mrs. Harry Sissen, Pan-American; Josephine Fortin, juvenile delinquency; and Phyllis Froelich, treasurer.

Homemaking Conference Is Under Way

GRAND RAPIDS (UPI) — The three-day 12th annual Michigan Conference for Homemaking got under way here Thursday with about 300 homemaking and home economics teachers attending.

The conference aims to pinpoint new trends and developments affecting family life and planning of homemaking programs to meet the needs.

Main speakers include Dr. Floride Moore, head of the home economics department of Columbia University; Betty Ruth Joyce, field secretary of the American Home Economics Assn., and Mrs. Rex Todd Withers, chief of the homemaking education service of the State Department of Public Instruction.

Hair Tonic Plus Massage Helps

A good hair tonic and scalp massage done regularly will add to the health of your hair.

Of course, this assumes that you are getting at least eight hours' sleep each night and eating a healthful diet. Use a tonic with a low alcoholic content because it is less drying.

For Little Visitors

Be prepared for young visitors by keeping an old suitcase packed with discarded jewelry, veils, both men and women's pocketbooks and hats and other grown up articles the kiddies can play with.

Some News From Bloomfield Hills

By RUTH SAUNDERS

BLOOMFIELD HILLS — Mr. and Mrs. Floyd W. Knox of North Cromwell road, Franklin, announce the marriage of their daughter Anne Elizabeth to Cranston F. Jones of Birmingham, Wednesday noon, in the chapel of First Presbyterian Church of Birmingham.

The Rev. W. Glenn Harris read the service.

The bridegroom is the son of Mrs. Griffith Jones of Milwaukee.

After a wedding trip to New York, Mr. and Mrs. Jones will live on Eton road, Birmingham.

★ ★ ★

Junior League Players began their fall trouping schedule Monday and will continue through Nov. 20 in elementary schools in Oakland County. Mrs. William H. Breech and Mrs. Weslau Wright are directing "Ricky Tick," written especially for the theater group by Jervis McMechan.

Members of the cast include Mrs. Everell E. Fisher, Mrs. Franklin Butler, Mrs. John K. Armstrong, Mrs. Andrew J. Shepard, Mrs. Wendell Breland, Mrs. Lewis Saxby and Mrs. Frank M. Allen.

Mrs. William H. Klenke, Mrs. Leslie P. Durgin, Mrs. Robert W. Scripps and Mrs. Donald Taylor are in charge of scenery, costumes and transportation.

★ ★ ★

Mr. and Mrs. Robert B. Grindley came from Kansas City, Mo., Wednesday for a long weekend visit with Mr. Grindley's parents, Mr. and Mrs. Robert F. Grindley of Sodon Lake road. Young friends of the visitors have been invited to an evening party today and others to meet young Mrs. Grindley tomorrow.

★ ★ ★

Mr. and Mrs. R. Jamison Williams went down to Princeton, N.J. last weekend for a visit with their son Rick who is a freshman at Princeton University.

★ ★ ★

Alumnae of Bradford Junior College have been invited to a reception Saturday afternoon to meet Earl D. Batcheldor, dean of admissions for Bradford.

Hosts will be Mr. and Mrs. Carleton P. McLain Jr. of Goodhue road, Bloomfield Hills.

★ ★ ★

Headmaster and Mrs. Harry D. Hoey of Cranbrook School were hosts to juniors of the school at a reception in their home.

They will give a reception Sunday for seniors of both Cranbrook and Kingswood schools.

Mr. and Mrs. Douglas A. Stuart (Norma Lee Remington of Davison) of Houghton, formerly of Pontiac, announce the birth of a son Ted Robert, Oct. 14.

At Christian Temple

Hold Church Banquet

Nearly 200 members and guests attended the 20th annual banquet given by the Christian Endeavor groups at Christian Temple Thursday evening.

The Rev. Lola P. Marion gave the invocation followed by group singing led by William S. Blackstone. Pianist was Mrs. James Maddox. Mrs. Howard Blackburn, mistress of ceremonies, acted as barker for the program featuring a circus theme.

★ ★ ★

Entertainment was provided by The Bell Ringers, a local vocal and instrumental group.

Decorations chairman was Mrs. John McKinney, assisted by Mrs. Arthur VanZandt, Mrs. Elmer J. Dunlap, Mrs. Maddox, Shirley Plake, Lois Hefner and Mrs. Harold Eagle.

Mr. and Mrs. Paul Morse and Mary Ellen Sirbaugh were ticket chairmen.

Mrs. Dunlap and Mrs. Howard Bertram served on the purchasing committee. Kitchen and dinning room chairmen respectively were Mrs. James Marshall and Mrs. Irene Godfrey.

Intermediate C. E. members Sherry Bertram and Jackie Campbell also helped plan the circus theme.

★ ★ ★

Counselors of the various C.E. groups are Mrs. Ralph Johnson, Senior C.E.; Mr. and Mrs. VanZandt and Mrs. Blackburn, intermediate C.E.; Mrs. Purma Rouse, junior C.E.; and Mrs. Earl Day, beginner C.E.

The Rev. Luther Sheffield closed the program.

Pontiac Press Photo

Pontiac Woman's Club members are making arrangements for a noon luncheon and benefit card party slated Nov. 18 at the Masonic Temple on State street. Mrs. Alfred H. Coles, left, prize chairman, and Mrs. Earl A. Eddy, ticket chairman, admire a colorful plate, hand-painted by Mrs. Chadd Mellinger, which will be given as a door prize.

Those Fairy Tale Endings Deceive

Marital Happiness Takes Effort

By DOROTHY ROE
AP Women's Editor

"And so the brave prince slew the dragon, rescued the beautiful princess, carried her away to his castle and they were married and lived happily ever after."

American young people have been reading too many fairy tales, says Dave Mace, founder of marriage counseling services in Britin, now a visiting professor of family study at the University of Pennsylvania.

The contention of movies, television and current romantic fiction is that the altar is the goal of every girl and boy, and is the gateway to lifelong bliss.

BLISS? SOMETIMES

Sometimes the bride and groom do not live happily ever after, says Dr. Mace, writing in a new pamphlet, "What Makes a Marriage Happy?" published by the Public Affairs Committee. And the main reason is that neither partner tries hard enough.

"Many people are unhappy in marriage because they expected to get too much for too little effort," he writes.

Often the honeymoon is over when Mary first sees John touseled, unshaven and grouchy, before his first cup of coffee in the morning.

Or when John sees Mary at bedtime with greasy cream on her face and her hair up in curlers. Or when John forgets to kiss Mary goodby in the morning. Or when Mary telephones John in the middle of a business conference and ask if he loves her.

NO FAIRY STORY

Life isn't a fairy story, points out the professor. And two young people starting out to make a new life together represent only the raw materials out of which a happy marriage can be achieved.

★ ★ ★

So what does it take to make a happy marriage? Well, says the professor, if you can answer yes to the following questions you can consider yourself happily married:

1. Are you good companions?
2. Do you settle your arguments by mutual adjustment?
3. Would you choose each other again?
4. Do you approve of marriage generally as a satisfactory way of life?

★ ★ ★

5. Do you consider your marriage happier than most?
6. Are you willing to give and take?
7. Do you think of yourselves as "we" instead of "you" and "I"?

If you can pass this test, says Dr. Mace, you really do have a pretty good chance of living happily ever after.

by Anne Adams

Especially becoming! Side-draped neckline flatters your face and draws attention away from any figure flaws. Bodice flows smoothly into slim skirt. For crepe, wool, silk. Tomorrow's pattern: Doll wardrobe.

Dear Abby Says Loose Tongues Wag

Tell Critical Family In-Laws It's All Your Husband's Fault

By ABIGAIL VAN BUREN

DEAR ABBY: I gave my husband four beautiful daughters. We would have liked a boy but, like everyone, we took what we got and liked it.

ABBY

At every family gathering my in-laws always bring up the subject of how nice it would be if we had a son to carry on the name. I cannot have any more children so this is out of the question. What can I say to these people when they tell me how sad it is that we don't have a son to carry on the family name? They certainly irritate me.

IRRITATED

DEAR IRRITATED: Tell them that you'd have been happy to have had a son. But a woman cannot reap boys when her husband plants girls. And smile your brightest when you inform them that it is common knowledge that the sex of a child is determined by the father!

★ ★ ★

DEAR ABBY: When I was married, twenty-six of my husband's relatives pitched in and gave me a waffle iron. (They got it wholesale, too.)

One of the aunts who was in on this gift happens to be very well-to-do. This aunt is moving into a new home and all the relatives are giving her a housewarming. She "requested" individual cash gifts rather than presents because she is afraid she might get things that won't look good in her house.

I figured out that her share of my waffle iron was about a dollar. If you were in my place, what would you give her?

GYPED

DEAR GYPED: If you believe in "an eye for an eye and a tooth for a tooth," she is entitled to a dollar. However, since it is your husband's aunt . . . pass the buck and let him decide.

★ ★ ★

DEAR ABBY: My husband is a minister and he is besieged by these neurotic women who are always demanding that their minister come to their homes for private consultations. I know that the minister is expected to visit "shut-ins." But I am speaking now of wommen who are separated from their husbands and tell their ministers all the intimate details which should concern only their doctors and lawyers. Should my husband bother seeing these women?

NO NAMES PLEASE

DEAR NO NAMES: Your husband, because of the nature of his profession, like the physician and lawyer, must listen to a certain amount of neurotic complaints. Don't add to his problems by protesting too much. His job is tough enough as it is.

★ ★ ★

CONFIDENTIAL TO LENNY: When her birthday comes around, forget her past, but remember her present.

★ ★ ★

CONFIDENTIAL TO MRS. J. O'B.: One of the hardest things in the world to teach a child is that "Truth is more important than the consequences."

PRISCILLA BISHOP

Mr. and Mrs. George Bishop of Deland street in Drayton Plains have announced the engagement of their daughter Priscilla to Norman T. Atkins, son of Mrs. Evelyn Atkins of Sacramento, Calif., and Corum C. Atkins of Waterford Township. No date has been set for the wedding.

Discusses Club Ills and Pills

"The Ills and Pills of Women's Clubs" was discussed by Pontiac Toastmistress Club at a dinner meeting Tuesday evening at the Hotel Waldron.

Leading the discussion were Mrs. R. O. Proust and Mrs. James Webb, chairman and secretary of Council 4.

★ ★ ★

Other guests were Mrs. J. R. Schaffer, Mrs. Leon Windsor and Mrs. J. A. Shaw.

Mrs. Clayton Rule gave the invocation; Mrs. Ivan Wilcox, the table topic; and Gwen Polk, the inspirational close.

The next meeting will be Nov. 24 at the Moreland avenue home of Mrs. George Gaches.

The population of India began its great increase when cholera and malaria were brought under control.

Teach Him Values Without Nagging

It is the wise parents who help their children to realize what it costs to live and what it means to make a living without nagging them about it.

It is also the wise parents that give their children the opportunity to handle some money of their own. If you do this you are helping them meet life as an adult.

Warren Hughes, left, discusses the problems of being a chef at the annual St. Vincent de Paul bazaar and dinner with Mrs. Francis Theeringer, cochairman of the dining room committee, William Roach and Grover Schatz who will also serve as chefs Saturday and Sunday at the church.

Mrs. James McGuire, left, looks on as the Rev. Thompson Marcero of St. Vincent de Paul Church draws up final plans for the annual autumn dinner and bazaar sponsored by the church guilds. On the right is Mrs. William Roach, cochairman of the dining room.

St. Vincent to Hold Annual Bazaar

The annual autumn dinner and bazaar sponsored by the guilds of St. Vincent de Paul Catholic Church will be held Saturday and Sunday. The bazaar opens at noon Saturday. Dinner will be served at noon Sunday.

The Rosary Altar Society with Mrs. E. J. Schendt in charge and the Moms and Dads clubs under Mrs. Grover Schatz and Mrs. Jack Guibord will participate. Booths at the bazaar will display miscellaneous articles, jewelry, heirloom sheets and pillow cases and games for children.

★ ★ ★

Guilds assisting, along with their chairmen are St. Anne, Mrs. Oral Frigitt; St. Barbara, Mrs. Thomas Carey; Blessed Martin de Pores, Mrs. Wallace Holland; St. Elizabeth, Mrs. Alex Fenlon.

Others are St. Eulalias, Mrs. Albert Terys and Mrs. Joseph Spadafore; Our Lady of Guadaloupe, Mrs. Richard Gross; St. Joseph, Mrs. Mary Mogg, and St. Gerard, Mrs. Richard O'Connor.

Ed Gallagher is chairman of the bazaar, James Gatton is in charge of publicity and Philip Yapo heads the house committee.

Jack Kudray is accounting chairman, Charles Berch is in charge of prizes and George Tewksbury is ticket chairman.

★ ★ ★

Chefs will be Warren Hughes, William Roach, Carl Peterson, Russell Morrow, Grover Schatz and Russell Wright.

Mrs. John Wyzgoski and Mrs. John Annis are in charge of the kitchen and Mrs. Francis The ringe rand Mrs. Roach are cochairmen of the dining room.

Others are Keith Swett, dishwashing; Mrs. Arthur Crawford, publicity; Mrs. Margaret McGuire, treasurer, and Mrs. Coleman Lee, tickets.

Concluding the list are E. J. Schendt and Frank Monro, properties; Mrs. Frigitt, check room; Mrs. Robert Cahill and Mrs. James Rydman, pies.

★ ★ ★

Mrs. W. B. Dean is general chairman of the event.

School Toured

Over 400 parents were given firsthand information on student work and activities at the Hawthorne School open house Wednesday evening.

Parents, greeted at each room by the teachers and room mothers and fathers, were shown their children's accomplishments.

Following the guided tour, they were served refreshments in the multipurpose room by members of the PTA board, under the chairmanship of Mrs. Norbert Hoffman.

The December PTA meeting will be the annual Christmas play.

Sorority Unit Sees Holiday Food Ideas

Members and guests of Xi Alpha Nu Chapter of Beta Sigma Phi sorority met Tuesday evening at the Consumers Power Co. auditorium.

A demonstration was given on preparation of holiday foods. Afterward, a drawing was held and the food prepared for the demonstration was given away.

Cake Decorating Lesson Given

Cake decorating was demonstrated by Mrs. Harry Hammond to the Suburban Heights Extension Club Wednesday evening.

Mrs. Harvey Cowell opened her Shoals street home to the group.

The lesson, "Planning the Use of Your Family Dollar," was given by Mrs. Donald Hewlett and Mrs. Kenneth Beadle.

A dramatic cape collar narrowing into a contrasting border is elegance personified in this warm but lightweight Borgana pile fabric with the rich look of fur. In white or beige with deep brown trim. Available locally.

Many Visit Whitfield at Open House

A big turnout of parents, friends, community business and professional men marked Whitfield School's open house Wednesday evening.

In observation of American Education Week, the event made it possible for teachers to receive guests in their rooms with room mothers assisting.

Several special education teachers were present to meet and discuss with the parents their parts in enriching the student's curriculum.

A social hour concluded the evening, with refreshments served in the cafeteria.

Drayton Woods Club Gathers

Drayton Woods Extension Club met at the Edgevale street home of Mrs. Charles St. John Wednesday evening.

Mrs. Neil Hunter and Mrs. Charles Hotchkiss presented the lesson, "The Christmas Workshop," to 10 members.

Frequent use of strong bleaches may harm any fabric, say home economists.

Renowned Designer Trigere Entertains Guest in Kitchen

By ROSE McKEE

WASHINGTON—Pauline Trigere, the noted fashion designer, likes to entertain friends in, of all places, her kitchen.

It's a "dressed up" kitchen and, she said, she "destroyed a dinette" in her New York apartment to make the kitchen larger. It gets its chic from the flowery French paper on the walls, a chandelier and such things as its table—"a simple slab of light beige marble on a black iron stand."

Miss Trigere, recently named to the Coty Fashion Hall of Fame in ceremonies at New York's Metropolitan Museum of Art, was asked how she lives as a top career woman.

She said she has a "small" Park avenue apartment and a "house in the country that I own, love and care for and where I really cook and garden."

Her apartment has two bedrooms, one for her two grown sons and one for herself, a "tiny library filled with old books, an enormous foyer, a living room where I have the piano and paintings and the kitchen, where I receive and entertain up to six guests. If there are more, I use the foyer."

★ ★ ★

Asked if she had a favorite room, the vivacious designer said, "I really live all over the apartment. I go into the boys' room the least but I use the kitchen a lot and the boys and I sit and talk in the foyer, but maybe I really live in the bathroom.

"I like to soak in the bathtub and I sketch (fashions) in the bathtub. I have a telephone there and I telephone. The tub (rim) is covered with little pencils and paper because I write notes to myself there and sketch and I get great relaxation."

But "best yet," she told the National Assn. of Home Builders, is her weekend home in Connecticut. In New York, "Evelyn who has been with me 18 years" does most of the cooking "but at my house, I am the cook."

Her kitchen there is of dark brown wood "and I have slabs of marble all over because I am an unruly cook—if the phone rings, I have to put a hot pot down someplace so I have marble so that I can put it down and nothing burns."

★ ★ ★

Her kitchen has folding doors to the dining room and both have flagstone floors. Sliding glass walls in the dining room look to a patio which is paved in flagstone "so it looks all one."

There is an eight-foot sofa and a fireplace in the living room for guests' relaxation.

Miss Trigere has one unwritten rule. Her guests "amuse themselves and do what they want to —if not, they are not invited."

She herself spends a great deal of time in her garden, which she has been nourishing along for the five years she has had the house. She said:

"I forget everything when I'm at the house. I completely forget fashions. It's a great tonic. But when I get in the car to come back to New York, my mind starts working very quickly and I get ideas. I jot them down and they get translated Monday morning."

Miss Trigere, who recently showed her latest creations before the Women's National Press Club in Washington, said she wears "old dungarees or chic black slacks" when she is in the country. At home in her apartment, she is apt to don a dress "with a full skirt so I can sit on the floor."

Blue Star Unit Hears Report on Activities

Blue Star Mothers of America, Chapter 4, met Tuesday evening at the YMCA.

Mrs. George Leinenger, president of the past-presidents organization reported on its activities.

A $50 scholarship was awarded to a local Sterling college student.

A report on forthcoming money-making dinners was given.

The group voted to prepare Thanksgiving baskets for needy veterans and completed plans to attend the Gold Star Mothers' installation Nov. 18.

In this exercise, from Josephine Lowman's leaflet No. 2 on abdominal exercises, she makes the books go down by pulling the stomach muscles in. Repeat slowly, making the abdominal wall go up and down.

Exercise—Again!

Strenghen Lax Muscles

By JOSEPHINE LOWMAN
(The Question Box)

Q. "Since giving birth to my second child my measurements are bust 35 inches, waist 27 and hips 35. I am 5 feet, 5 inches tall and weigh 110 pounds. I feel and look best at this weight so I do not want to gain. My problem is my large waist and a pad of fat just below my waist. How can I remedy this?"

A. You are very much underweight, so much so that it is hard to believe that you feel or look your best at this weight. Even if you have a small build you should weigh 123 pounds. If you have a medium frame you should weigh 136 pounds.

You are so thin that I don't see how you could have any fat on you but you probably have lax abdominal muscles. At any rate take abdominal exercises. If you or any of my readers would like to have them send a stamped, self-addressed envelope with your request for leaflet No. 2 to me in care of this paper.

Q. "Please advise me if I should lose weight and where. I am 53 years old, 5 feet 3½ inches tall and weigh 138 pounds. My bust measures 38 inches, waist 30 and hips 38½. I exercise a few minutes each morning, am very active and do not look my age."

A. You did not tell me anything about your build and that makes a big difference. If you have a small frame, you are overweight—about 18 pounds. More likely, since you did not mention your build, you have a medium frame in which case you should lose only five or six pounds.

If you have a very heavy build, you should weigh more than that. Take waist-slimming exercises for a loss of a couple of inches in that measurement.

Q. "Is cosmetic wax or a depilatory best to use?"

A. You can use either one.. I think a depilatory seems easier.

Q. "If I do not use soap and water in my ears I get blackheads in them. Someone told me that using soap in the ears causes wax to form in them. Please tell me if this is true."

A. It is probably not a good idea to push soapsuds into the ears, but it should be possible to wash the ears with soap and water without doing so. Do not use so much soap and do use a thin wash cloth which you can put over your forefinger.

Tomorrow: "The Thin Gals Will Like This Exercise."

Friendship Needs Care, Consideration

By RUTH MILLETT

If you want to hold onto your friends —

Don't feel obliged to tell them things "for their own good."

They might start telling you things they think you ought to know and offering you advice.

Never try to monopolize a friend's time. That is the quickest way in the world to wear out your welcome.

Be loyal, standing up for your friends when anything is said against them and foregoing the temptation to tell things about them you ought to keep to yourself.

Be a press agent for your friends — passing along all the good things you know about them and building them up to others.

MUST TAKE

Let your friends do things for you. It's not enough to be willing to be a friend to others, you have to let them be a friend to you.

Never get in competition with your friends or try to outdo them. When competition begins, friendship ends.

Be as quick to express your pleasure at a friend's good fortune as you are to offer sympathy when trouble comes his way.

Don't impose on your friends or use them. And be sure that you always pay your own way.

Never repeat anything that a friend tells you in confidence. One of the real joys of friendship is in knowing that you can talk freely to a friend and unburden yourself and know that what you have said will go no further.

Don't take your friends for granted. Be as pleasant and agreeable to old friends as you are to new acquaintances, instead of expecting your friends to take you "as is" — if "as is" means at your worst. Friends deserve the best you have to offer.

Expert Claims Girls Should Get German Measles

WASHINGTON (UPI)—A prominent hearing specialist says all little girls should be exposed to German measles so they will have had the illness by the time they become mothers.

★ ★ ★

Dr. Victor R. Alfaro, head of Georgetown University's otolaryngology department, said yesterday that German measles can hurt the sight and hearing of a newborn baby.

"As far as hearing is concerned," Alfaro said, "damage is so severe to the nerve elements of the ear that hearing can never be restored."

Alfaro spoke at the opening session of a five-day workshop on the "psychological assessment of the deaf" at Gallaudet College, the world's only college for the deaf.

A selected group of 20 psychologists from 11 states is attending the conference aimed at giving them a deeper understanding of problems of handicapped persons.

Sometimes Child's Tantrum Is Justified

By MURIEL LAWRENCE

It's after lunch, and we've just given Buddy a cherry candy. As we replace the jar on the mantelpiece, the phone rings. We return to discover that our four-year-old has pulled a chair over to the mantelpiece, climbed up on its arm, secured the candy jar — and is in the act of helping himself to another one.

We're annoyed, not only because he's risked a fall but because our rule is only one afterlunch candy. So we rush at Buddy, and ignoring his protests, snatch the jar and the lemon candy he's about to put in his mouth.

He responds with a temper tantrum.

As he howls in despair on the floor, the meaning of his protests suddenly hits us. Buddy, we realize, was trying to tell us that instead of sneaking the second candy he had exchanged the cherry one for the lemon. And that in our state of surprised annoyance, we had closed our ears to his explanation.

Do we restore the lemon candy to Buddy?

Almost universally, child guidance books say "No." In sum, they say: "No child should be allowed to gain his end by means of a tantrum. If he does he'll explode whenever he is denied what he wants."

I do not agree.

Were I Buddy's mother, I would give him his candy. I would correct my mistaken judgment whether or not he chose to regard my action as encouragement to tantrums. I would deal with him as justly as possible. If he misinterpreted my effort as weakness, then that would be his mistake—one that he'd have to correct at the proper time just as I had corrected mine.

In this matter the child guidance books bewilder me. They sound like 19th-century empire builders who felt obliged to stand pat on any mistakes they made with the natives lest they "lose face." In the long run, such empire builders have not only "lost face" but lost the empires along with their pretensions to perfect judgment.

We should surely deny Buddy his candy if we do not see our mistake. But if we do see it and are too scared to correct it lest we invite more tantrums, our discipline is compelled by fear, not by a sense of justice. In the long run, such discipline foments just the rebellions we try to avoid as the empire builders have discovered.

Pontiac Artists to Hear Critique

Mrs. Elsa Goodman, Detroit artist, will conduct a critique and group discussion at the meeting of the Pontiac Society of Artists this evening at 7:45 p.m. The meeting will be held at the Adah Shelly library.

Mrs. Goodman is a member of the Palette and Brush Club and owns and operates Hughes Art Gallery in Detroit.

Little Bit of Everything in These Drop Cookies

By JANET ODELL
Pontiac Press Home Editor

Let's face it—cookie recipes are a favorite subject whenever cooking is discussed. Mrs. August Schnitker shares one with us that contains all sorts of good ingredients.

★ ★ ★

Mrs. Schnitker is active in church work, taking on most of the secretarial duties in her church. Cooking is her hobby.

CHEWY CHOCOLATE CHIP COOKIES
By Mrs. August Schnitker

1 cup shortening
1 cup brown sugar
1 cup granulated sugar
2 beaten eggs
2 tablespoons water
1 teaspoon vanilla
1 teaspoon soda
1 teaspoon salt
3 cups raw oatmeal
2½ cups chocolate bits
1 cup nutmeats
1 cup coconut
1½ cups sifted flour

Cream shortening and sugars until fluffy. Beat eggs in and continue beating until light. Add water and vanilla. Add dry ingredients, oats, chocolate, nuts and coconut. Drop by teaspoonfuls on greased baking sheet. Bake 12 minutes at 375 degrees.

U.S. Favoring Ban on N-Tests

If Talks Continue With Reds, Herter Likely to Extend Time

WASHINGTON (AP) — The United States probably will make a limited extension of its ban on nuclear weapons testing if negotiations with the Soviet Union for an international test prohibition continue to make progress.

This was indicated Thursday by Secretary of State Christian A. Herter at a news conference. Herter said in response to a question that "I would personally favor the extension, if it were a matter of weeks only while we were still talking."

He added that he had serious doubts about any longer suspension beyond Dec. 31, the current expiration date.

In taking this line he appeared to be reflecting U.S. concern over the possibility that if tests are delayed too long without the protection of an international inspection system the Soviets may secretly resume their own testing and get ahead of the United States in nuclear weapons development.

Negotiations for an international agreement have been under way at Geneva for more than a year among the United States, Britain the Soviet Union. The United States and Britain stopped testing when the negotiations started. The Soviets did so a few days later.

The U.S. delegation to the United Nations, apparently acting on last-minute instructions from the State Department, voted Thursday night against a resolution urging France to call off its forthcoming A-bomb test in the Sahara.

The U.N. Political Committee approved the resolution 46-26. But the vote was short of the two-thirds majority needed for approval in the General Assembly and was regarded as a victory for France.

Tiger Owner Coleman Weds California Socialite

MIAMI, Okla. (AP) — Wealthy industrialist and sportsman George L. Coleman and the former Dawn L. Soles were married here Thursday.

Coleman, a part owner of the Detroit Tigers baseball team, and his socially prominent bride from Montecito, Calif., were married in a private ceremony at the home of his mother, Mrs. G. L. Coleman Sr.

Coleman, about 55, obtained a divorce last April from his first wife, the former Elizabeth Fullerton. The bride last Monday obtained a divorce from Louis G. Soles, wealthy Santa Barbara merchant.

AP Wirephoto

YOUNG PRESIDENT — Dr. C. M. Hardin, chancellor of the University of Nebraska, is the new president of the American Assn. of Land Grant Colleges and State Universities. At 44, he is believed to be the youngest ever to hold the post. He formerly served at the University of Wisconsin and Michigan State.

It's Faster, Farther on State Roads

LANSING (AP) — Michigan motorists are traveling farther and faster, the State Highway Department reported today.

A 10-month check showed traffic volume up 6.1 per cent over the same period last year. Michigan drivers are expected to log a record 31 billion miles compared to 30½ billion last year.

Nearly 20 per cent of passenger cars checked on three and four lane divided highways were exceeding the state's 65-mile-an-hour speed limit during October.

Nearly 80 per cent of all commercial vehicles were topping the 45-mile-an-hour truck speed limit on the four lane divided limited access highways.

The Detroit area had the greatest traffic increase—13.1 per cent. A decline of 3.1 per cent was noted in the eastern end of the Upper Peninsula.

Meanwhile, the secretary of state's office reported vehicle license transactions for the year ending Oct. 31 brought in $2,138,000 more than the same period last year.

Sales netted $63,415,000 on 3,576,231 transactions, an increase of 100,890 licenses.

Population to Jump

WASHINGTON — Population of the U.S. will increase by about 63 million in the next 20 years, the census bureau estimates.

Council to Plan for Old Folks

One Idea Is Liberalizing SS Ceilings on Earnings; President Concerned

WASHINGTON (UPI) — A government advisory council has called for a government program to help America's old folks meet higher medical costs.

★ ★ ★

President Eisenhower, who received this and other recommendations from the Federal Council on Aging, said a "many sided" campaign should be waged to improve life for the nation's elder citizens.

"For example, I am sure we can do more to employ productively and utilize the skills and experience of our 15 million aged," the President said.

Arthur S. Flemming, secretary of health, education and welfare, told newsmen yesterday in making the report public that he also would favor increasing minimum social security benefits by:

"—Liberalizing" the $1,200 annual ceiling on outside income which can be earned by recipients of old age payments who are under 72 years old.

—Boosting minimum old age benefits from $33 to $40.

Flemming, chairman of the seven-member council, said the administration "has deep-seated concern" about the ability of old people to pay their medical bills.

★ ★ ★

He said federal experts were trying to solve the problem but "haven't been very successful."

Neither the report nor Flemming issued any specific recommendations in this area. However, Flemming said he opposed any legislation providing for a form of government health insurance.

Farm Workers Total Takes Another Drop

WASHINGTON (UPI) — The number of workers on the nation's farms is getting smaller.

A total of 8,600,000 persons were at work on farms in late October. This was 1 per cent less than a year ago and 6 per cent below the average for the same month in the past five years.

The Agriculture Department said the decline has been due to steady improvement in farm practices and machinery. Despite the drop in manpower, farm production has gone steadily higher.

Old-Age Sex Activity Said to Vary Widely

DETROIT (AP) — More than seven out of 10 healthy married couples over 60 are sexually active, some into their late 80s.

This, at least, is the conclusion of studies of couples ranging in age from 60 to 93 in the Durham, N.C., area made by a Duke University research team.

★ ★ ★

Results of the research were reported here today by Dr. Gustave Newman, Duke Medical School psychiatrist, at the 12th annual meeting of the Gerontological Society. Gerontology is the scientific study of old age.

★ ★ ★

Newman pointed out that the sexual activity of the older couples varied widely, but said the frequency of sexual intercourse averaged about three times a month.

The age at which couples over 60 stop having intercourse also varies widely and most frequently stops because either the husband or the wife develops ill health.

Walled Lake Firm Keeps Gas Turbine Under Wraps

By JIM LONG

WALLED LAKE — Sam Williams knows what he is talking about but he is hesitant to discuss his company's newest invention — and you can hardly blame him.

Williams is president of the Williams Research Corp. which recently announced development of a compact gas turbine engine about the size of a bread box.

The reason for the tight-lip policy, Williams explained, is that competition is so high that to give specific details of his engine would be cutting his own throat.

"It may be several years," Williams said, "before we release specifications of the new engine."

He was willing to admit, however, that the new engine is the first compact, economical, medium horsepower engine to be developed.

★ ★ ★

"Gas turbine engines are being used now in the aircraft industry, but they are all large and impractical to power smaller machines such as automobiles and boats," said Williams.

He added that Ford, Chrysler and General Motors have all developed a type of gas turbine and are in the process of removing the bugs.

A prototype of his engine, Williams said, has been tested on the Detroit River for 15 months and has proved itself equally suitable for the automotive and aviation field.

COMPACT ANSWER?

Williams said he was not free to tell if the engine had been tested in an automobile yet.

However, he did say that the gas turbine could easily be the answer for the small type cars now being produced by the American auto industry.

"Where space and weight are at a premium, then this engine certainly solves the problem for compactness and lightness."

Williams began his company five years ago after 12 years with the Chrysler Corp. He is a graduate of Purdue University.

★ ★ ★

His company, which only moved into a new plant on W. Maple road this past week, employes 30 persons. The company was formerly located at 12-Mile and Telegraph roads, Southfield.

The firm has been working on the basic concepts used in the new turbine for four years.

CREDITS STAFF

The 38-year-old research engineer credited his staff of engineers, technicians and craftsmen with making the development possible within such a relatively short period.

The engine, in addition to being compact and light, Williams said, provides fuel economy approaching that of the most modern marine and automotive piston engines.

The turbine can be run on all types of fuels, kerosene, aviation jet fuels, marine and automotive diesel fuels and gasoline, he said.

"Simply stated," Williams said, "the turbine employs a new type of heat exchanger which uses the exhaust heat, normally wasted, by re-introducing it into the engine to make more efficient use of the fuel.

★ ★ ★

"In effect," he said, "the engine is partially powered by its own waste. The ultimate exhaust is cool enough to touch with the bare hand."

The engine, which is more than half aluminum, when used in a boat sounds like a fan, Williams said.

He explained that the engine is vibrationless because of the absence of power impulses and reciprocating pistons.

"There is a complete absence of the piercing high-frequency whine associated with an aviation turbo-jet engine," Williams said.

★ ★ ★

The company also develops other new products as a service to industry, but Williams said he'd rather not disclose what they are in view of the competition.

AP Wirephoto

DEVELOPS NEW ENGINE — Walled Lake research engineer Sam Williams, president of Williams Research Corp., looks over the low-cost, lightweight, medium horsepower turbine engine developed by his engineers. It is the first compact turbine developed with automotive, marine and aviation applications. The engine develops one horsepower for each pound it weighs and is about the size of a bread box.

Pontiac Press Photo

MOVING DAY — Today is moving day for Oxford village personnel who are going from the old Village Hall at 50 S. Washington St. to quarters in the former Ray C. Cooke home at 22 W. Burdick St. Village offices will occupy the entire first floor of the large, frame house. Shown putting things in order for the opening of the new facility Monday are, from left, Village Manager Ralph Precious, Deputy Clerk Mrs. Patricia Tyrrell and Fire Chief Ellsworth Sage.

Court Dissolves Washington Fee on Gravel Tabs

By LEE WINBORN

WASHINGTON TOWNSHIP — A decision has been handed down in Macomb County Circuit Court ordering Washington Township to rescind its resolution requiring payment of a $100 permit fee by gravel mining operators.

Circuit Judge Philip J. Glennie has enjoined Ralph Sheldon, township zoning administrator, to issue permits and certificates to all mining operators who have applied for them.

Visiting Judge Glennie ruled that the section of the ordinance establishing the $100 permit fee was unenforcable.

He further ordered that permit fees already paid by three mining firms be returned.

The court action was initiated by a Washington Township couple, Mr. and Mrs. Robert F. Fettig, who charged that the zoning laws, adopted in October 1958, were not being enforced.

They contended this lack of enforcement had resulted in "chaotic conditions throughout the western portion of the township, endangering the public health, safety and welfare of all inhabitants of this section."

Township attorneys and the Fettigs have agreed that greater control over mining operations will be possible as a result of the court decision.

The zoning administrator concurred, adding that a more vigorous enforcement program will be undertaken.

New Fad Dies Fast at Utica

UTICA — There has been no recurrence of some 65 Utica Community High School students' attempt to set a new fashion trend in school, Principal Allan Hinsdale reported today.

Teachers who saw both boys and girls attired in new blue sweat shirts beaing mottos' "Tappa Kegga Daey" and "Tri Alka Salza", Wednesday raised their eyebrows. Assistant Superintendent Elvin Betz sent the students home.

All the boys and girls arrived within an hour in the accepted dress, but not before setting off a little reaction at home.

Ira W. DeShazo, of 9026 Shannon Rd. said, "I don't see any implication in the mottos like the school officials claim."

'CHEERS WORSE'

"The shirts are not nearly as suggestive as some of the cheers they allow," DeShazo stated emphatically.

His son, John, 17, is a member of the swimming team and had worn one of the new shirts to school.

The shield emblem on the sweaters pictured a foaming beer stein connected to a beer barrel.

★ ★ ★

Principal Allen Hinsdale took exception to both the emblem and the wording. He said it was "obvious" that the students had beer on their minds—not school work.

Many parents agreed it was "just a harmless way" for the students to "let off steam."

A number of the sweat shirt owners said they still were going to wear them, "but not in school," they added hurriedly.

Council Will Advise MSU on Vegetables

EAST LANSING (AP) — A 14-member research and extension advisory council has been formed to advise Michigan State University staff members and researchers in the vegetable field.

Leaders of Michigan's vegetable industries, a 50-million-dollar annual business, were named to the group.

Members are: John Bosgraff, Hudsonville; Roy Burghart, Greenville; Robert Debruyn, Zeeland; Ray Floate, Benton Harbor; William Hayes, Fremont; Bela Kendedy, Bangor; Carl Moser, Coloma; Harold Schonfeld, Imlay City; Forrest Smith, Lansing; Frank Smith, Carleton; Ivan Stein, South Haven; Herbert Turner, Saginaw; A. E. Hildebrand, Holland, and Charles Schwyn, Blissfield.

Detroit Seed Firm Move Won't Affect Area Station

AVON TOWNSHIP — Ferry-Morse Seed Co.'s announcement that it plans to move its main office from Detroit to California will have "no immediate effect" on the experimental station here, Company President James Pottinger said today.

He added that there are no plans in the foreseeable future to move the seed growing and testing facilities on East Hamlin road.

Pottinger said the only company employes to be left in Michigan are the 11 men working on this farm near Rochester.

Changing market patterns have dictated the move, according to the firm's president. Originally, he said, most of the Ferry-Morse seed crop was grown in Michigan, Ohio and Illinois.

★ ★ ★

As these areas become urbanized it was necessary to center research and production in farming centers of the West and South.

Earlier this year, the company's main plant, the packet division which turns out 1,000,000 seed packages a day, was moved from Detroit to Fulton, Ky. Only the main office was left in Detroit.

Of the 75 employes left in Detroit, most are expected to transfer to California, company officials said.

★ ★ ★

In 1930, the D. M. Ferry Co. merged with C. C. Morse & Co. of California, to become the largest distributor and largest breeder-grower of garden seeds in the world.

Afraid of Unions in Farm Effort

Bureau Official Cites Try by 'Irresponsibles' to Control Labor Supply

INDIANAPOLIS, Ind. (UPI) — An official of the American Farm Bureau Federation said yesterday that "irresponsible" labor unions are attempting to gain control of the farm labor supply.

★ ★ ★

Matt Triggs, assistant legislative director, told the Indiana Farm Bureau convention that the AFL-CIO not only has been campaigning to organize farm labor, but has been pressuring for federal minimum wage and hours laws to farm labor and to ban workers under 16 years of age.

"You can't close down a farm like you can a factory," Triggs complained. "For this reason any effective organization of farm workers would mean the subservience of farmers to labor union leaders."

Triggs warned that if the secretary of labor denies state or federal employment office services to farmers to recruit out-of-state labor unless they meet specified wage, housing and transportation conditions, then the farm community is in danger of being placed under a personal dictatorship.

"This is too much power for any one man to have over farmers," Triggs said. "The next secretary of labor could be a protege of Walter Reuther."

Walled Lake Blaze Under Investigation

WALLED LAKE — Investigation to find the cause of a fire that extensively damaged a house near Hawk Lake Wednesday continued today by Walled Lake Director of Public Safety James A. Decker.

Decker said that damage to the house was estimated at $6,000.

The fire, which Decker believes started in an upstairs bedroom, spread through the second floor and collapsed the roof.

The frame house at 2000 Decker Rd. is the residence of Mr. and Mrs. Pearl Howard. They have been visiting in Kentucky the past week.

Decker said the fire may possibly have started from something that had been smouldering since Monday, the day the Howards left on their trip.

The fire was put under control in two hours by the Walled Lake and Commerce Township fire departments.

Police Chief Blames Patrolmen

Southfield Official Escapes Punishment

SOUTHFIELD — The reason why one of the city fathers here was not issued a violation ticket for speeding and driving without a license last month was because the patrolmen were new on the job and feared repercussions, said Acting Police Chief Milton Sackett yesterday.

★ ★ ★

Councilman John J. Hollywood was stopped near his home at 2 a.m. Oct. 16 by Southfield police who said that Hollywood had been driving 75 m.p.h. in a 50 m.p.h. zone. He was unable to produce a driver's license, and the patrolmen drove him home.

Sackett said Hollywood had been drinking, but was not intoxicated. "The patrolmen were severely reprimanded for not issuing a violation ticket," Sackett added.

"I reported the incident in a written statement to City Administrator Robert J. McNutt, asking if further disciplinary action should be taken."

He added that McNutt told him the affair had gone far enough, and that he would speak to Hollywood about it.

★ ★ ★

"I discussed the matter with Justice Clarence E. Reed, who said that further action was up to McNutt."

Hollywood had left his license at home, according to McNutt. Sackett said as far as he knew this was the only case here where a violation ticket had not been issued when it should have been and that 257 such tickets were issued during the past month. He refused to name the two patrolmen.

McNutt denied any attempt was made to cover up the incident, saying that while the case was not publicized no attempt was made to hide the facts. They were included in police reports logged for the day.

Mayor Donald Swanson said that he had no knowledge of the incident.

"Captain Sackett had been instructed as had McNutt to treat all citizens alike," said the mayor. "There is no intention on my part to protect any city official from any violation at any time."

Appoint 2 to Utica Offices

UTICA — The Utica City Council has confirmed appointments of local attorney Richard B. Stavoe and Earl R. Carr as justice of the peace and street commissioner, respectively.

★ ★ ★

Stavoe, who lives in St. Clair Shores, will fill the unexpired term of E. James McClellan, who resigned last week. McClellan was elected to his third four-year term July 4.

Presently assistant prosecutor for Macomb County, Stavoe said he would resign that job today and move to Utica this weekend.

Stavoe's office is at 45112 Cass Ave., Utica. He will take over his new duties on Monday. He was named over three other candidates for the job.

★ ★ ★

Carr lives at 11076 Russell St. He replaces Sreten Novak, who resigned recently, and takes over his new job Wednesday.

Stephen Foster, who wrote "My Old Kentucky Home," found his first hit in "Massa's In The Cold, Cold Groun'." In the 4½ years of its popularity, it earned him $906.76 royalties.

California Scientists Have New Oat Plant

WASHINGTON (UPI) — Scientists working for the Agriculture Department and the California Experiment Station have developed a new variety of oats.

The new plant is a red oat with short straw and is resistant to lodging and shattering. It is called "curt" and is adaptable for pasture and hay production.

Police Also Seeking Driver

Say, Whose Car Is This?

NOVI — The Goodfellow meeting was over and everyone was leaving the village fire station when they noticed a car blocking the entrance.

A check of the Novi Village offi

A check of the Novi Village offices where the fire station is located, failed to turn up the car's owner. So with some help, Fireman James Hensley pushed it out of the way.

Yesterday Lee BeGole, Public Safety Director in Novi, was notified that the car had been stolen and then abandoned in front of the village offices which also house the Novi Police Department, after a wild chase.

He was able to piece together the story of what happened only after five law agencies converged on his office seeking more information on the stolen car.

★ ★ ★

The car, BeGole said, had been stolen from a service station early Wednesday evening in East Lansing. It was not reported then because attendants had thought the owner had picked it up. He had not.

Later that evening, Detroit police chased a car for speeding on Five Mile road. It was the same car, only they didn't know it. Failing to catch up to the speeding car, they asked for a road block to be set up.

Police from Redford Township and Livonia set up a road block at Five Mile and Inkster roads.

★ ★ ★

BeGole said he was told the car zoomed through the road block like a "rocket."

By this time State Police from the Redord Post gave chase, along with the Redford and Livonia police.

Another road block was set up at five Mile and Levan roads. Again the stolen car shot through it. This time Livonia police on the road block fired several shots in continuing the chase.

BeGole said that the car, traveling at speeds up to 100 m.p.h., went through Northville so fast police there were not even notified.

★ ★ ★

It was somewhere outside of Northville, BeGole said, that pursuing officers lost the fleeing car.

The only reason the car was abandoned, BeGole theorized, was because it ran out of gas.

To Sponsor 7 Delegates at Chicago 4-H Meeting

EAST LANSING (AP) — Michigan business firms will sponsor seven delegates to the national 4-H Conference Nov. 29.-Dec. 3 at Chicago, Mary Woodward, assistant state 4-H club leader, said today.

The seven will bring the Michigan delegation to 30.

★ ★ ★

Selected were: Joyce Endres, Marine City; Lois Howe, Eagle; James Heibeck, St. Johns; Eleanor Foreman, Webberville; David Bennett, Williamston; Kenneth Waite, Williamston, and Loretta Moore, Branch.

Nearly two-fifths of the entire South American continent lies within the Amazon River basin.

Choose Carefully, Though

You May Need a Lawyer

By FAYE HENLE
NEA Columnist

How often have you pondered: Do I need a lawyer and how do I go about getting one?

The most lucid answers to these questions came at a recent meeting, one in a series entitled "Know Your Law," sponsored by The Women's City Club of New York. They were offered by Judge Frederick van Pelt Bryan who underscored the following:

"Don't overlook legal advice when writing your will, when you are engaged in any type of real estate transaction, even signing a lease or when buying a cooperative apartment."

When it comes to domestic relations he notes that once the rift appears permanent, the record of how a man and woman conduct themselves in many instances may become the determining factor in the settlement of property, support, custody rights and such. At such time a lawyer should be consulted to help decide what should and what should not be done.

It goes without saying that if you've committed a crime, been served a summons or are involved in a case of negligence, you'll need counsel.

WIDE CHOICE

You have 200,000 lawyers to choose from in the U.S. — one for every 750 persons. The judge counsels you to choose with care.

Select your lawyer by querying friends who appear successful; you may check their recommendation at your local Bar Association. They will tell you whether your choice has a good reputation. Or, you may ask your bank to recommend a lawyer. Or, ask the Bar Association directly. The association will give you a panel of names to choose from.

Don't select the nice young man you've just met at dinner or someone's friend or a relative. Also, avoid the spectacular lawyer, the one who always gets his name in print.

Establish the same relationship with your lawyer that you would with your family doctor. Tell him all. In this way only can he best serve your interests. Leave it to him to refer you to a specialist if and when he thinks your case requires it.

Fees? Be prepared to pay more for the specialist and for the lawyer working in a large law firm. Often, such attorneys are not interested in small cases. Frequently an individual or a lawyer with but one or two associates will serve your needs better.

You have a right to query a lawyer on how much he'll charge and to shop around. However, once you have retained counsel, don't tell your problems to every lawyer you meet and if one should be indiscreet enough to offer you advice, don't phone your counsel suggesting that he handle your affairs thus and so..

★ ★ ★

Lawyers generally base their fees on the amount of their time involved, on the complexities of the case and or the amount of money involved.

In negligence cases most lawyers operate on a contingency basis meaning that if they lose the case, you pay nothing, if they win the cost to you may be a flat 33⅓ per cent of the settlement or 50 per cent of the first $1,000 and so on on a descending percentage basis.

Upsala an Old School

STOCKHOLM — Upsala University in Sweden was founded in 1477, and is one of the oldest schools in the world.

Miss World's Statistics Likened to Cattle Bulletin

VATICAN CITY (UPI) — The Vatican City newspaper Osservatore Romano said the way the new Miss World was displayed in a scant bathing suit was reminiscent of "the weigh-in at hippodromes or of a dog show."

★ ★ ★

It likened the careful reporting of her weight and height to "the bulletin of a cattle market."

Dentist Says TV Pitches Rigged

Can't Swallow Toothpaste Ads

CHICAGO (UPI) — A spokesman for the American Dental Association charged Wednesday night that some television toothpaste commercials are just as rigged as the quiz shows exposed by Congress.

Dr. Harold Hillenbrand, secretary of the association, said much of the toothpaste advertising on television and in print actually discourages proper dental care.

"Unsupported advertising claims continue to give television viewers as well as readers a false sense of security about dental caries (decay), peridontal (gum) disease, bad breath due to diseases of the nose, sinuses, lung and the gastrointestional tract, and serious systematic diseases presenting a variety of oral symptoms," Hillenbrand said.

Hillenbrand said the Dental Association recognizes toothpastes "solely as helpful adjuncts in cleaning the teeth."

"They are appreciated because of their abrasive and detergent actions and may assist in removal of stains and other foreign substances," Hillenbrand said. "Beyound this, no other merits for dentifrices have been scientifically established."

OTHERS AGREE

Hillenbrand's statement followed recent sharp criticisms of toothpaste advertising by Arthur S. Flemming, Secretary of Health, Education and Welfare, and by Dr. Paul H. Jeserich, Ann Arbor, the president of the Dental Association.

Jeserich last week urged Congress to take action to halt "reckless claims" for toothpaste brands. Flemming said Monday that "people who believe the misleading advertising they hear and read and see — and who buy and use the product — may be lulled into a false sense of well-being and fail to obtain proper care from a dentist."

Hillenbrand said the Dental Association has been pressing for federal action for more than a year but "with one or two exceptions, nothing has been done, and the public continues to be duped."

As a "bright spot in the dentifrice advertising picture," Hillenbrand cited several manufacturers who now claim only that their toothpaste is a good cleansing agent.

On the debit side, Hillenbrand said, were such claims that a toothpaste could provide teeth with an "invisible shield" against tooth decay through just one brushing a day.

★ ★ ★

Hillenbrand said toothpaste is no substitute for regular toothbrushing, public health measures such as water fluoridation or regular dental care.

He also doubted whether the advertising industry could police itself in the field of toothpaste commercials. The only real solution, Hillenbrand said, would be laws which would permit federal agencies to control the advertisers.

Vitamins were discovered only about 25 years ago.

Is IRS Grabbing Censorship?

Internal Revenue Men Want to Tax Lobbying Business Expenses

WASHINGTON (AP) — Witnesses from trade and labor organizations today challenged a proposed internal revenue service regulation on lobbying expenses as being what some called "censorship by taxation."

The rule would broaden the government's present stand against permitting the deduction of lobbying costs as a business expense.

It would rule out advertising intended to "promote or defeat legislation . . . even though the legislation may directly affect the taxpayer's business."

Leading off a list of 46 witnesses scheduled to be heard Thursday and today, C. James Proud, president and general manager of the Advertising Federation of America, called on the revenue service to postpone adoption of any new rule until Congress can act on the issue. Six bills already are pending.

"What we are talking about is the basic right of any citizen to express his views publicly, through advertising, without being penalized," Proud told a three-man IRS hearing panel.

"Almost every advertisement could be considered as politically controversial, if it happens to deal with any subject under the sun on which any member of government or a politician outside of government has uttered a single word . . .

"In effect the IRS is taking unto itself the role of censor in seeking to delineate . . . distinctions between 'political' on the one hand, and 'economic, financial and social' on the other hand."

The AFL-CIO, along with nine other labor organizations, raised its voice against the proposal. Its spokesman, Robert C. Mayer, said that legislative and political activity is a normal form of union activity.

Oil 1st in Louisiana

Oil was first discovered in Louisiana in 1901.

On Borromean Islands in Lake Maggiore in North Italy, Napoleon once carved the word "Victory" on a tree. Souvenir hunters have carved away the whole tree.

LEAVES COURT — Thurman Whiteside is shown outside a U. S. District Court in Washington Thursday after a judge ruled that a second trial for him and Richard A. Mack should be put off indefinitely. Mack, former member of the Federal Communications Commission, and Whiteside, a Miami lawyer, are charged with conspiring to rig the FCC's award of Miami Channel 10. The trial will not proceed until after the Supreme Court rules on a pending appeal.

Irish and British Settle Old Dispute by Compromise

LONDON (AP) — Prime Minister Harold Macmillan announced Thursday settlement of a dispute over a two million dollar art collection which for more than 40 years has been one of the reasons why the Irish hate the British.

The collection consists of 39 paintings — most of them by French impressionists — left by Sir Hugh Lane, a rich Irishman, who died in the sinking of the liner Lusitania in 1915.

Although claimed by Ireland, the paintings have remained in Britain for four decades.

Macmillan told the House of Commons it has been agreed that the collection will be divided into two parts, one to be placed on exhibition in Dublin, the other in London. Every five years the two parts will be exchanged.

Warn Markets of State Laws on Deer Storage

LANSING (UPI)—Storage of unskinned deer in a locker plant in the same room with other meat or other food products is prohibited by State Locker Plant regulations, the Michigan Department of Agriculture warns.

Foods and Standards Division chief J. L. Littlefield said deer placed in grocery stores, meat markets and similar establishments must also be stored so there will be no violation of state regulations that all food must be protected from contamination by "dust, vermin, animals or persons."

Littlefield also said state standards for hamburger do not provide for the use of venison and that department inspectors are alerted during and immediately after deer season to make sure deer meat does not reach trade channels for human consumption.

Drive Hits Goal 104 Pct.

GRAND HAVEN (UPI) — The 1959 Tri-Cities Community Chest drive reached 104 per cent of its goal with a 12-day extension, Chairman A. E. Jacobson Jr. announced Thursday in reporting the final pledged amount at $68,500. It was $2,500 over the goal and the best community fund effort in several years. The 1958 drive failed to reach its quota.

A coating washed from the silvery scales of sardines is applied to glass beads to make artificial pearls.

Hill Likely to Get OK as Commission Head

LANSING (UPI)—It appeared likely today that George E. Hill, 39, of Marquette, will be confirmed by chairman of the State Public Service Commission.

★ ★ ★

His appointment by Gov. Williams to succeed Otis M. Smith, newly installed as state auditor general, was announced last week.

★ ★ ★

Hill was interviewed late yesterday by the Senate Business Committee, which screens appointments.

Afterward, Sen. Edward Hutchinson (R-Fennville), committee chairman, said "he made a very favorable impression."

He said committee action, however, was put off until next week because the Senate will not meet again in full session until Tuesday night, and one committee member had a few other questions to ask.

Hill, a Democrat, was elected to a third term as Marquette County prosecutor a year ago.

"St. Louis Blues," the classic song by W. C. Handy, was first written on a cigar box.

Open Hearings on Job Troubles

State Senate Group Looks Into Michigan's Employment Picture

HANCOCK (UPI)—A special State Senate committee today opened statewide hearings on expanding job opportunities in Michigan.

★ ★ ★

Spokesmen for small business, labor unions, industry, local government officials from the western half of the Upper Peninsula were among those invited to testify.

Sen. Carlton H. Morris (R-Kalamazoo), committee chairman, said nine or 10 sessions will be held. The second is set Dec. 17 in Battle Creek.

Borrowing from the so-called Haber Report on the state's economic future, Morris said the conclusion is "inescapable" that the state needs 400,000 additional jobs to produce full employment.

★ ★ ★

The Republican senator said that full-time employment opportunities must be increased at the rate of 100,000 a year to keep pace with expected population growth through 1970.

Republicans long have contended the state has been backsliding, rather than gaining, in late years under policies of the Democratic regime in Lansing.

Before the hearing started, Morris said he hoped witnesses would focus on taxation, labor relations and "governmental attitude" as leaders on the list of Michigan problems.

★ ★ ★

Two other members of the five-man committee accompanied Morris north from Lansing, Sens. John P. Smeekens (R-Coldwater) and Harold M. Ryan (D-Detroit). The committee has $5,000 to finance its activities.

This Lochinvar automatic electric water heater keeps hotter water always on tap

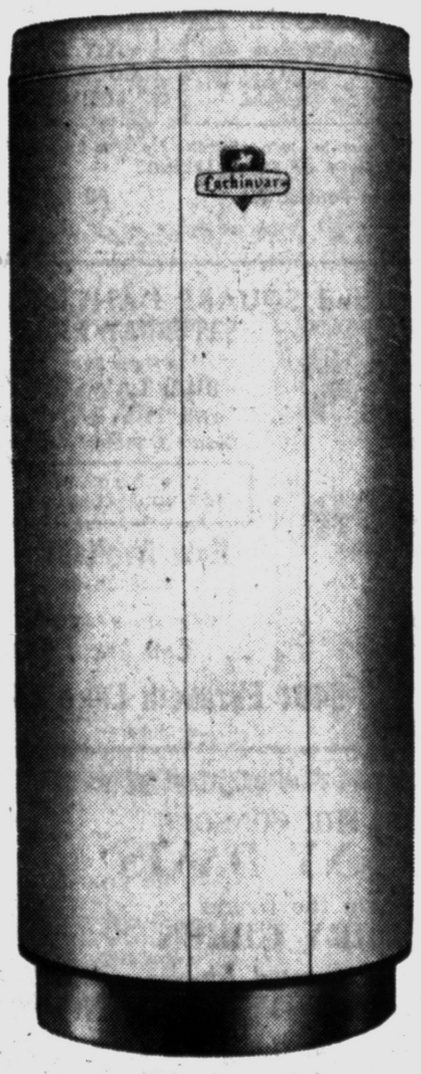
DETROIT EDISON'S SUPER SUPPLY PLAN . . . makes a Lochinvar electric water heater even more efficient. You'll have all the hot water you want for all the family's needs—24 hours a day, for an operating cost as low as $3.88 a month. Ask Edison how this water heating service, combined with a new Lochinvar electric water heater, can mean hot water aplenty round the clock. GET IT HOT . . . GET A LOT!

LIVE BETTER ELECTRICALLY

$99.95 52-gallon Model No. 52DE

Check these features!

1. **FAST HOT WATER DELIVERY**—Powerful heating units, plus ample storage, provide a ready reservoir of hot water at all times. Plenty for baths, laundry, dishes and other needs.
2. **WRAP-AROUND HEATING UNITS**—Spread heat evenly around tank wall for fast, efficient absorption by the water. High wattage heating units assure fast recovery.
3. **SNAP-ACTION THERMOSTATS**—Extremely sensitive to heat changes. Positive action control holds water at 160° hot!
4. **EXTRA-HEAVY STEEL TANK**—High-quality copper-bearing steel, galvanized inside and out with an extra thick coating of virgin zinc.
5. **STEEL JACKET**—With a gleaming porcelainized white finish.
6. **INSULATION**—A full three inches of Fiberglas insulation blankets the entire tank. Holds heat in for top efficiency and economy. Outside casing always cool to the touch.
7. **INSTALL ANYWHERE**—No flue or nearby chimney required. Place the heater where YOU want it.



GET IT HOT . . . GET A LOT . . . GET A Lochinvar

Some Held Cranberries Okay for GIs in Japan

TOKYO (AP) — U. S. armed forces in Japan today were told they can eat cranberries if they don't come from Oregon and Washington.

Headquarters at first banned all cranberries and cranberry products after word that some have been contaminated by a herbicide.

Nuisance Taxes Are Spelled Out

Phone Bills and Wires, Laundry, Auto Repair in 3 Pct. List

LANSING (AP)—Diaper service and taxicab operators could breathe easier today after a spelling out of service industries subject to the Republican nuisance tax plan.

But there was bad news yesterday for many other businessmen — and their patrons — when the Senate taxation committee put the flesh on what until then had been a skeleton bill.

TO RAISE 40 MILLION

The measure is designed to raise 40 million dollars a year toward a revised total of 74 million provided in the emergency tax program.

As expected, the bill called for a 3 per cent use tax levy on telephone calls — other than those made from coin boxes — telegrams, and dry cleaning, laundry, auto, appliance and home service or repair bills.

A tax already is charged in the case of repairs on parts. The pending bill would further tax labor costs.

★ ★ ★

Here are some of the other kinds of activity that will be covered if the bill passes in its present form:

Auto washing and waxing; cleaning, fumigating or razing buildings; auto towing; armored car service; repair and alteration of clothing; home decorating; land clearing except the mere leveling of land in commercial farming.

Left out of the coverage area, as expected, were professional services rendered by lawyers, dentists and physicians, and such services as haircuts, manicuring, beauty treatment and shoe shines.

The bill, which amends the ill-fated use tax increase act riddled Oct. 22 by the Supreme Court, would bring materials used on state construction projects under the levy, effective with jobs bid after Dec. 1.

The recent enacted tax, effective Sept. 1, on materials used by contractors on federal projects would be lowered by the bill from four per cent to three per cent.

The changes involving state and federal construction contracts were written in at the suggestion of Louis M. Nims, state revenue commissioner, to meet constitutional objections raised by the Oct. 22 Supreme Court decision.

Nims said that without a tax on state construction the levy on federal construction would be held discriminatory and an undue burden on interstate commerce if tested in court.

Many Cans Produced

About 39 billion cans are annually produced in the United States to hold food and nonfood items.

The United States Steel Corp., in 1901 became the first billion-dollar private enterprise.

Mr., Mrs. Leonas Get Word From Russian Daughter

CHICAGO (UPI)—Mr. and Mrs. Paulius Leonas, whose children have been living behind the Iron Curtain for 15 years, believe today that they may be reunited before long.

★ ★ ★

Leonas and his wife became separated from their children when the Red army invaded Lithuania in 1944. The parents came to Chicago as displaced persons in 1953 and since then their attempts to have their children released have been in vain.

This summer, however, Leonas decided to forego red tape and cornered Soviet Premier Nikita Khrushchev in a hotel lobby in Des Moines, Iowa, during his tour of the U. S.

Leonas obtained a promise from Khrushchev that his children, Regina, 20, and Tomas, 17, would be released. But until yesterday, they had received no favorable word regarding the promise.

Yesterday, Leonas received a letter from Regina. He said "it is the first indication that Khrushchev is going to keep his promise."

★ ★ ★

Leonas said the letter stated that the minister of the interior at Vilnius was familiar with their case and they only have to wait for official notification.

Minnesota was owned successively by England, Spain and France before it became a part of the United States through the transaction that brought in the Louisiana purchase.

Forestry Employe Admits Arson

PASADENA, Calif. (AP) — A U. S. Forest Service employe who says he was "fed up with the service and wanted to get even" is accused of setting the Angeles Crest fire last month.

The blaze claimed two lives, destroyed 14,388 acres of watershed and caused an estimated 1½ million dollars damage.

The employe, William D. Grater Jr., 20, of nearby Tujunga, was booked on suspicion of arson Thursday night.

Forest Service investigators said he admitted setting the fire which threatened foothill communities, 30 miles north of Los Angeles.

Hollywood Headlines:

Robert Blake, Now 26, Sad Over Child Actors

By VERNON SCOTT
UPI Hollywood Correspondent

HOLLYWOOD—The conflicts and small tragedies of child actors are clearly mirrored in Robert Blake who is undergoing phychotherapy to straighten out his tangled life.

Blake, who never attained stardom, was acting steadily at the age of 5. By the time he was 14 Bob had worked in hundreds of movies, including 35 costarring roles as Little Beaver in the "Red Ryder" series and some 50 "Our Gang" comedies.

He's 26 now, back in the acting business, but admittedly in need of a skull mechanic.

"I was like most child performers," he said bitterly. "I did acting because I was told to, and you can hardly call what I did acting.

"I didn't like it. It was no kind of a life. I had nothing going for me at school or at the studios—or at home. So when I was 14 I packed up and left home."

From pampered child actor, Bob drifted from job to job, mostly manual labor with construction outfits. At one point he hied off to New York to work as a box boy in a grocery store.

IN ALASKA YET

Then Bob put in a two-year hitch in the Army—in Alaska yet—where he switched from the infantry to special services.

After his stretch in the service, Bob discovered there was no money coming to him from his childhood earnings. It had all been spent.

"All that stuff about the so-called 'Jackie Coogan law' protecting earnings of kid stars is just baloney," he said. "My money—and there was plenty of it—just disappeared. It went to support the family.

"Someday I'll write a story about the Hollywood children—the Scotty Becketts, Alfalfa Switzers and Spanky McFarlands. Forcing a kid to become a performer is one of the worst things that can happen to a child. It's turning them into adults while they're still youngsters.

★ ★ ★

"Even now when I see a kid working on a set it depresses me."

Blake says he wouldn't need a psychiatrist if he weren't an actor, claiming performers must become very involved with themselves to give convincing performances as he is doing in Allied Artists' "The Purple Gang."

"I was never a child star," he he concluded. "I was a child worker. And it's something I would never do to any children I may have."

Snow-Covered Fields Expected for Final Night of Prep Football Slate

Northern Hosts Grand Blanc, Falcons at Avon

Waterford and Maples Meet Annual Rivals; Orion at Holly

By CHUCK ABAIR

The curtain rings down on another big schoolboy football season this weekend with the possibility of snow-covered fields expected to have considerable bearing on the outcome of several games.

Officials at host schools throughout the sector were having their gridirons cleared today but more of the white stuff is anticipated before tonight's games are over.

Some of the feature action is set for Wisner Stadium, Avondale, Wayne, Southfield, Holly, Ortonville, Utica and Oxford.

Pontiac Northern, one of the major highlights of the fall, will be at Wisner to take on strong Grand Blanc.

★ ★ ★

Avondale meets Rochester, Waterford visits Wayne, Birmingham goes to Southfield, Holly takes on Lake Orion, Clarkston is homecoming guest of Ortonville, Romeo and Utica tangle and Oxford vs. Millington.

Elsewhere, league champion Ferndale is at Hazel Park and Port Huron plays East Detroit in Eastern Michigan contests, Royal Oak Dondero and Kimball collide in a city battle, Fitzgerald goes to Roseville, Northville vs. improved Howell, Imlay City is at Swartz Creek and Country Day travels to Lutheran East.

The only Saturday contest will have Cranbrook at Gilmour.

★ ★ ★

Grand Blanc, unbeaten but tied twice, will be favored and may be helped slightly by the weather because of its capable running attack.

A Northern upset would cap a remarkable debut for Coach Ed Heikkinen & Co. The Huskies can wind up 6-3 by winning.

The new Pontiac school will be in good condition physically with the exception of back Jan Lawrence, who will be limited to spot duty including punting.

★ ★ ★

Bill Cox and Larry Bland ran well in their 1st starts a week ago and are ready to go again. Bland replaced injured George Graves at fullback.

Rochester is a slim choice to gain its 4th triumph in five games with Avondale. The Yellowjackets pulled a 7-6 upset last fall.

Both coaches, Gene Konley of RHS and Frank Crowell of Avon, are fighting letdowns after defeats in games they were "fired-up" for. Back Bud Peel is again expected to see little or no action for the Jackets. The Falcons are in good shape despite some sickness.

★ ★ ★

Rochester, 6-2, will have the over-all weight edge because of its big backfield. The Konleymen have a 182-94 point record. Avon has scored 137 and allowed 107 in a 6-1-1 year.

Waterford is counting on a big night for battling Bill Bryce to beat its traditional final opponent. Wayne has been going strong after a slow start sparked by a veteran backfield.

Birmingham will be favored but is ripe for reversal by hungry Southfield. Both teams have been riddled by injuries and bad breaks.

★ ★ ★

Orion, which lost its first three games, can top .500 by tripping Holly. The Broncos are much better than their losing record indicates.

Clarkston should breeze past Ortonville to complete a dismal year for the Blackhawks. The Romeo-Utica skirmish is a tossup every year. Romeo has come on strong in recent weeks.

Oxford fans will get their last look at Doug Stott in action as the Wildcats try to clinch 2nd in the South Central.

College Harrier Teams Run for NCAA Crown

WHEATON, Ill. (AP) — The team title will be up for grabs tomorrow in the second annual NCAA college division cross country run over the Chicago golf course.

★ ★ ★

Defending champion Northern Illinois will not return, choosing instead to defend its Interstate Conference crown tomorrow at Charleston, Ill.

★ ★ ★

Paul Whitley of Kansas State Teachers will return to defend his individual championship.

Pontiac Press Photo

STEADY HUSKIE — Center Jim Heisler will head the Pontiac Northern line as the Huskies close out their 1st grid season tonight at Wisner Stadium against highly-rated Grand Blanc. Heisler has been a tower of strength on offense for PNH.

Pontiac Press Photo

FACES FALCONS — Little Jim Douglas will be a starting halfback for Avondale when the Yellowjackets entertain neighboring Rochester tonight. He is still looking for his 1st points of the season. The Falcons lead the series three to one.

Unbeaten College Grid Teams in Big Contests

By United Press International

Syracuse, Texas and Southern California are expected to continue their march toward unbeaten and untied seasons while Louisiana State, Northwestern and Penn State try to rebound Saturday on a college football card filled with important conference and traditional contests.

★ ★ ★

Several of the lucrative Jan. 1 Bowl berths could be decided but it's considered more likely that such close races as the Big 10, Pacific Coast Conference and Southeastern Conference battles will continue down to the final week of the campaign.

★ ★ ★

Syracuse, the new national leader, is rated a whopping 36-point choice over Colgate, Texas is rated six points over Texas Christian and Southern California is 14 points over Baylor. Indications now are that Syracuse and second-ranked Texas will go on to a Cotton Bowl showdown that would be one of the most attractive Bowl pairings of all time.

Colgate has won only one of seven games while Syracuse has rolled past Kanas, Maryland, Navy, Holy Cross, West Virginia, Pittsburgh and Penn State.

★ ★ ★

Texas Christian has been coming fast since early-season losses to L. S. U. and Arkansas but Texas is given the edge because of a more potent offense. Southern California, apparently enroute to a perfect season, is competing only for the national championship since it is ineligible to play in the Rose Bowl.

★ ★ ★

L. S. U., beaten last Saturday after 19 straight victories, is a 22-point favorite over Mississippi State Saturday night, Northwestern is six over Michigan State and Penn State is 18 points over Holy Cross. L. S. U. still has a strong chance to play in the Sugar Bowl. Northwestern is battling Wisconsin for the Big 10 title and the visitor's Rose Bowl bid and Penn State is expected to go to either the Liberty or Gator Bowls.

Wisconsin, which tied Northwestern for the Big 10 lead last Saturday, is favored by 10 points over Illinois.

Washington, which still has the inside track for the West Coast's berth in the Rose Bowl is favored by six points over California but Oregon is rated no better than even money against Washington State. Washington and Oregon are in a two-team battle for the lucrative bid because of Southern Cal's ineligibility.

Colorado, which seized the inside track for the Big Eight's Orange Bowl bid last Saturday is a surprise underdog to a Nebraska eleven that has lost to Texas, Kansas, Indiana, Missouri and Iowa State. The Buffaloes (4-4) would be the Big Eight's Bowl choice if they finished second in the race because Oklahoma is ineligible to go for a second straight time.

★ ★ ★

Clemson, which rules the Atlantic Coast Conference with seeming ease and almost certainly will receive a major post-season bowl bid, is rated 14 points over Maryland.

94,000 Were Unaware of LA Bomb Scare

LOS ANGELES (AP)—A bomb hoax threw officials of Memorial Coliseum into a scare last Sunday with more than 94,000 packed into the arena for the Los Angeles Rams - San Francisco 49ers football game.

★ ★ ★

Frank Bull, who handles the public address system for the Ram games, said yesterday Coliseum General Manager Bill Nicholas came to his booth and said a woman had called and said a bomb would explode between 3 and 4:15 p.m.

★ ★ ★

The call proved to be a hoax. Bull said police made a hurried but quiet check through the big Coliseum.

Lions' Offense Is Last in Pro League

Puzzling Rams Also Very Low in Point Total

Los Angeles Figured as Highly Explosive Running Unit

DETROIT (AP)—The Detroit Lions have the least productive offense in the National Football league.

They've scored only 90 points in seven games. It's no wonder they are at the bottom of the Western Division.

The Los Angeles Rams, who play the Lions Sunday at Briggs Stadium, are considered the most explosive team in the NFL. They have a bevy of fast, hard runners in Ollie Matson, Jon Arnett, Tom Wilson and Joe Marconi, and a top notch passer in Billy Wade.

This offense has produced 138 points in seven games. Only five other teams have scored more. It's puzzling why the Rams are just one notch above the Lions. But they are.

"It's because we keep losing the ball too much," said Bert Rose, the Rams' advance man. "Last week we had 28 first downs and gained 436 yards. But we got only two touchdowns and lost. We just can't get the ball over the goal line.

The Rams have lost their last three games. One of the defeats was inflicted by the Lions, the only game they have won this year.

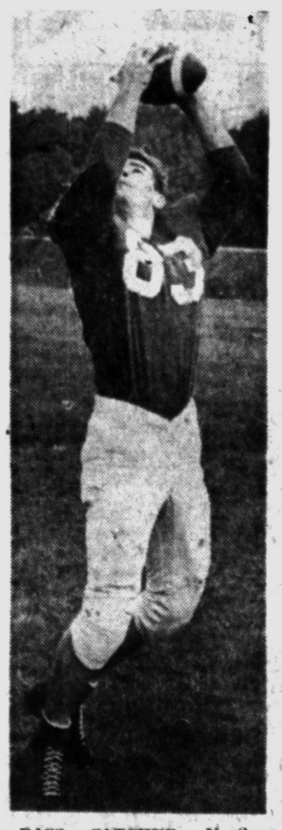
Both coach Sid Gillman of the Rams and George Wilson of the Lions feel Los Angeles is due for a hot game.

"We've been somewhat unfortunate," Gillman said yesterday in Los Angeles. "We've made mistakes that have kept us from putting things together, we hope to eliminate any mistakes from now on. We're not out of contention."

"They're ready to explode at any time," Wilson said. "I just hope they wait another week.

Gillman said he may change quarters for Sunday's game. Wade, ranked second among NFL passers, may be benched in favor of Frank Ryan, Gillman said.

Wilson will start Earl Morrall at quarterback. The second-stringer piloted the Lions to their only victory at Los Angeles. Jerry Reichow has been switched back from end to assist Morrall at quarterback.



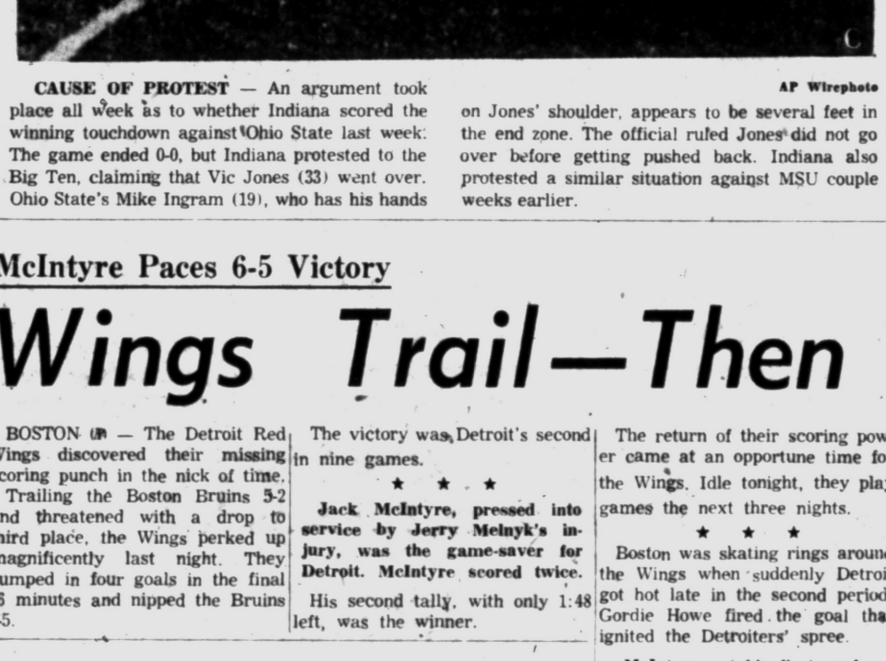
PASS CATCHER — Northern receiver Dave Fox will likely have a busy time trying to catch a wet football tonight as the Huskies attempt to finish 6-3 by upsetting strong Grand Blanc here.

Leading Ground Gainer

AMES, Iowa (AP) — Fullback Tom Watkins is the leading ground gainer in college football this fall and at a position he didn't want to play.

★ ★ ★

The 182-pound junior, who reached Iowa State by way of Chicago and Los Angeles, has run for 707 yards in eight games. He should add to that appreciably in tomorrow's game here with San Jose State.



OSU GOAL

AP Wirephoto

CAUSE OF PROTEST — An argument took place all week as to whether Indiana scored the winning touchdown against Ohio State last week. The game ended 0-0, but Indiana protested to the Big Ten, claiming that Vic Jones (33) went over. Ohio State's Mike Ingram (19), who has his hands on Jones' shoulder, appears to be several feet in the end zone. The official ruled Jones did not go over before getting pushed back. Indiana also protested a similar situation against MSU couple weeks earlier.

McIntyre Paces 6-5 Victory

Wings Trail—Then Boom!

BOSTON (AP) — The Detroit Red Wings discovered their missing scoring punch in the nick of time.

Trailing the Boston Bruins 5-2 and threatened with a drop to third place, the Wings perked up magnificently last night. They pumped in four goals in the final 26 minutes and nipped the Bruins 6-5.

The victory was Detroit's second in nine games.

★ ★ ★

Jack McIntyre, pressed into service by Jerry Melnyk's injury, was the game-saver for Detroit. McIntyre scored twice.

His second tally, with only 1:48 left, was the winner.

The return of their scoring power came at an opportune time for the Wings. Idle tonight, they play games the next three nights.

★ ★ ★

Boston was skating rings around the Wings when suddenly Detroit got hot late in the second period. Gordie Howe fired the goal that ignited the Detroiters' spree.

McIntyre got his first goal — and his first of the National Hockey League season — at 1:44 of the third period. Billy McNeill tied the score 5-5 almost 10 minutes later and McIntyre won the game at 18:12.

★ ★ ★

The six goals were the most made by Detroit this year.

Marcel Pronovost sent Detroit ahead 1-0 midway in the first stanza. But Guy Gendron evened the count just before the end of the period.

★ ★ ★

Gendron scored again early in the second frame and Leo Labine boosted Boston's advantage to 3-1 at the 2:16 mark. Within three minutes, Alex Delvecchio scored for Detroit and Johnny Bucyk matched it for Boston.

Leo Boivin sent Boston ahead 5-2 at the 13:21 mark and at 14:01 Howe started Detroit to victory.

Terry Sawchuk came through with 38 saves in the Detroit goal and made up for the lapses of the defensemen in front of him.

The Wings play at New York tomorrow, Chicago Sunday and return home Monday for another game with Chicago.

In last night's only other NHL game, league-leading Montreal beat fourth place Toronto 3-0. Goalie Jacques Plante got his first shutout while Phil Goyette scored twice for the Canadiens.

Dees Leads Scoring

Pistons Win, 107-93

NEW YORK (UPI)—The Detroit Pistons held off the rallying Minneapolis Lakers in the last quarter last night to score a 107-93 victory in the opener of an N.B.A. doubleheader at Madison Square Garden.

Elgin Baylor, the Lakers super-shooter, got 33 points but had a poor opening quarter, scoring only three against the pressing efforts of the Pistons' rookie star, Bailey Howell of Mississippi State.

The Pistons, who broke a four-game losing streak and climbed out of the Western Division cellar, led by 19 points, 51-32, in the second quarter. Minneapolis, however, chopped the Detroit lead to six points, 92-86, with 6:28 remaining in the game.

★ ★ ★

Archie Dees and Chuck Noble then sparked the Pistons back on the scoring track. Dees emerged as Detroit's high scorer with 23, one more than Gene Shue. Howell scored 20.

Only two Lakers scored in double figures, Baylor and Ed Fleming who had 15 points.

Stilt Hits 55 Against Royals

By United Press International

Wilt Chamberlain, averaging 40 points a game, may become the first point-a-minute player in National Basketball association history.

The Philadelphia rookie, who has ripped apart the best defenses in the circuit, climbed to a personal high of 55 points Thursday night as the Warriors defeated the Cincinnati Royals, 124-116.

In other games, the Detroit Pistons beat Minneapolis, 107-93, and Syracuse whipped the Knickerbockers, 113-104, in a New York doubleheader.

Chamberlain, also bidding for a new season rebound record, grabbed 29 caroms and put the game out of Cincinnati's reach when he scored 12 straight points in the first six minutes of the fourth quarter. The Royals were trailing, 92-88, when Wilt went on his spree.

Jack Twyman, who paced Cincinnati to a 67-58 halftime lead, was the Royals' high scorer with 32 points.

Issue Boat Challenge

DETROIT (AP) — The United States, through the Yachtsmen's Assn. of America, has challenged Canada for the Harmsworth Trophy, symbolic of International powerboat supremacy.

Three American boats will be picked to race the Canadian standard-bearer next August at Picton, Ont. Canada won the Harmsworth last summer when its Miss Supertest beat the U.S.'s Maverick on the Detroit River.

From The PRESS BOX

Shooting in the Oakland County Sportsmen's Club winter indoor archery leagues begin Dec. 4 and Dec. 6. Practice shooting will be permitted on Friday nights at 7 o'clock, starting tonight, and Sundays at 2 p.m. Instructors also will be present to assist beginners.

★ ★ ★

The Lincoln B football team finished an undefeated season in the Pontiac Junior High League with a 26-6 victory over the Washington Blues. Lincoln B had two ties.

★ ★ ★

The Chicago Cardinals of the National Football League have signed Perry Richards, 207-pound offensive end, who played with the Detroit Lions last season.

★ ★ ★

The University of Detroit freshman team wound up a perfect season yesterday with a 28-13 triumph over Western Michigan.

Jerry Gross, ex-Bay City Central standout, led the Titans by completing 15 of 30 passes. The Detroit frosh ended their season 4-0.

★ ★ ★

The two-horse spill in Wednesday's International race has been called "entirely unavoidable" by steward Joe Flanagan.

★ ★ ★

The Detroit Junior Wings moved into first place in the six team border cities hockey league last night with a 5-2 victory over the Wallaceburg Knights of Columbus.

It was the Detroit squad's fourth straight win.

★ ★ ★

Michigan State's varsity and freshman basketball teams will hold their annual pre-season Green-White game tonight in conjunction with MSU's annual cage clinic.

Rebuild Plum Hollow Clubhouse in 1961

The clubhouse at Plum Hollow Golf Club, burned out Tuesday in a $500,000 fire, will not be rebuilt until 1961.

Club President Harold Oldham told Plum Hollow members last night members will have to use makeshift facilities next year.

"There must be time for proper planning of the financial and building problems plus more time for construction," he said.

All-Star Pin Points

KEY — The second range-finder from the right is Tony Lindemann's favorite spot. It's no more than 15 feet from his eyes.

EASIER TO HIT A SPOT
By TONY LINDEMANN

Advocates of spot bowling are many . . . and with good reason.

They maintain that it is easier to hit a spot 15 feet away from their eyes than one 60 feet distant.

Using the spot bowling method, the bowler picks out a board approximately nine or 10 from the right or a range-finder over which he rolls his ball. He lines up his right shoulder with that spot and the 1-3 pocket. He concentrates on a straight line approach and rolls the ball directly over the selected spot.

If the ball goes to the right or left of the target, you should either move your spot or change your position at the foul line where you release the ball. When the ball goes to the 1-3 pocket you have found your spot. Strive to hit it consistently.

Once your spot is set for your particular ball, it will be easier for you to get strikes more consistently than by aiming at the pins 60 feet away.

Don Newcombe led the Cincinnati pitchers in strikeouts with 101 during the 1959 season.

PCH Tackles Oldest Rival in SVC

Chiefs' Finale Is League Foe Flint Central

Pontiac Central Has Bitter Memories of Successive Beatings

By BILL CORNWELL

Coach Jesse MacLeay and his Pontiac Central football players have some personal scores to settle tonight when they tackle old rival Flint Central in a Saginaw Valley Conference outing at Flint's Atwood Stadium.

Not even Thursday evening's snowfall and the threat of hazardous playing conditions on the Atwood turf can make MacLeay and his gridders forget their last trip to Flint to meet the Indians of Bill Doolittle.

It was two years ago, MacLeay's first as head grid coach here, that the Chiefs made the trek to Flint to face the Indians, supposedly on even terms. There the Chiefs and MacLeay were victims of a humiliating 48-6 drubbing, the worst defeat in their Saginaw Valley history.

Flint Central handed PCH a 38-0 licking last year, but Doolittle had one of his greatest teams then and the loss, although one-sided, was not so hard to take as the 1957 rout.

As it turned out, the Indians were Valley co-champions with Bay City Central a year ago and the 1958 pasting on the Wisner gridiron was considered respectable under the circumstances.

Now history is repeating itself, at least for the first couple of steps. It's the final game of the season for PCH, just like it was then. The teams are rated even, just like they were then. It's up to the Chiefs to avoid a repetition of the 3rd step.

Flint Central is Pontiac Central's oldest football rival and victories have been few and far between for the Chiefs. The series began in 1908 and the Chiefs have won only 11 times while losing 31 and tying two.

★ ★ ★

PCH has not defeated the Indians since 1952 when Hercules Renda was at the helm. The Chiefs posted a 21-18 triumph over the Flint squad at Wisner and ended the year with a 4-3-1 record, their last previous winning season.

The Chiefs have pleasantly exceeded all expectations this fall by rolling to a 6-2 record, their finest effort in more than a decade. Whether or not the same desire that carried them to last Friday's upset victory over Bay City Central can produce a grudge win this evening remains to be seen.

Flint Central will have plenty of incentive for an all-out effort. The Indians still have a chance to gain a share of the Valley title and defeat by the Chiefs would eliminate them. Flint has a 2-1 league record while PCH is 2-2 with a chance to move up in the final standings.

The Indians, with an over-all season record of 4-3, are sparked by quarterback Dick Kucharski and halfback Fred Nickerson, who has been the workhorse of their split-T attack. Kucharski rolls out well and also passes well, boasting a 40 per cent completion average.

Injuries will hamper the Chiefs with Charley Brown and Allen Howze both nursing ailing legs and Dick and Joe McCauley favoring a tender ankle and knee, respectively.

A battle of breaks could develop if slippery running conditions prevail and the ball is wet to discourage passing and encourage fumbling. Tonight's win may go to the team with the best ground offense. Kickoff time is 8 p.m.

FAREWELL GAME — Quarterback Fred Staley (above) will be one of 22 Pontiac Central gridders playing their farewell high school game tonight when the Chiefs battle Flint Central in Saginaw Valley football action at Flint's Atwood Stadium. Staley will direct the PCH offense.

14 End Wayne Play

DETROIT (AP) — Fourteen seniors will be bowing out Saturday when Wayne State travels into Indiana for its final game of the season, meeting Valparaiso. A victory Saturday will boost the Tartars' record to 5-2 and would be the school's best gridiron showing since 1947.

Site Any Place but N.Y. Floyd Says

Rematch Early in 1960?

NEWTOWN, Conn. (AP)—Former heavyweight boxing champion Floyd Patterson, who ought to know, says his rematch with Ingemar Johansson will be held "early next year."

★ ★ ★

Patterson, who is training here in a determined effort to regain boxing's richest prize, expects the bout will be held "any place but New York."

The 24-year-old Negro fighter clams up about details, however.

But if the fight is going to be held early in 1960, the size of the expected crowd and weather conditions would dictate a Southern or Pacific Coast outdoor site.

At New York yesterday, Johansson said he would prefer to fight next spring in New York. In Goteburg, Sweden, Edwin Ahlquist, Johansson's adviser, also put in a pitch for New York.

Meantime, at Miami, Fla., Vincent J. Velella said he would sue to attach every avenue of Johansson's income if the champion refuses to fight Patterson in Miami's Orange Bowl March 1.

★ ★ ★

Sports Editor Don Sharpe says in the Danbury News Times today that the ex-champion is unhappy about New York and the personal treatment he (Patterson) received there in his title bout.

Losing the crown and taking a right hand pasting from Johansson last June in the Yankee Stadium isn't exactly what Patterson means.

There's more to it than that, he told Sharpe. Here again, he scored a point, and buttoned his lips.

Patterson and his manager, Cus D'Amato, have moved into a former roadhouse here, high in the Connecticut hills, where the fighter is preparing for revenge.

He says he wants more than anything else to regain the title and to restore D'Amato, currently under suspension in New York state, to good standing.

★ ★ ★

Floyd, a strange mixture of engaging humbleness and shyness, says that Johansson's right hand blow that floored him the first time last summer was not a lucky punch.

"Like most others," explains the ex-champ, "I thought that Ingemar's well publicised right was highly overrated, if it existed at all."

Stressing that there are "no large differences" between himself and his manager, Patterson says he is giving serious thought to a proposed exhibition tour in Canada.

During a recent sparring session in the ring set up on the dance floor of the now bankrupt roadhouse, Patterson cracked three ribs of one of his sparring mates.

He's ready, says trainer Dan Florio.

2 Victory Hungry Pros Pace Lafayette Event

LAFAYETTE, La. (AP) — Two golfers who have tasted little of victory's nectar led the way into today's second round of the $15,000 Lafayette open golf tournament. But their margin was such that it could easily vanish by sundown.

Young Jerry Pittman of Tulsa, Okla., 22-year-old one-time Texas collegiate golf king, and veteran Bob Watson, 36-year-old home professional from Ardsley-on-Hudson, N.Y., each posted 66 yesterday to share first-round honors.

Dave Hill, Michigan open golf champion, shot a 36-33—69 in the opening round yesterday of the $15,000 Lafayette open golf tournament.

Hill, 22, is a former amateur star from Jackson who has spent the last two years as an assistant pro at the Elks CC, Kalamazoo.

Masked Goalie Blanks Leafs

Plante's Brilliant Saves Help Stretch Win String to 11

MONTREAL (AP) — Masked goalie Jacques Plante Thursday night racked up his first shutout of the National Hockey League season and two goals by Phil Goyette and another by Dickie Moore gave the Montreal Canadiens a 3-0 victory over the Toronto Maple Leafs.

★ ★ ★

The victory lengthened to 11 an undefeated string by the NHL leaders and kept them five points ahead of Detroit.

Plante, who became the first goaltender to wear a mask in competition after being injured a few weeks ago, led the league in shutouts last season with nine. He also won the Vezina Trophy, awarded to the goalie with the lowest goals against average, for the fourth straight year.

The Montrealers had an edge in play, outshooting the Leafs 40-33, but were given great support by Plante who had to come up with several spectacular saves in the last period and preserve his shutout.

★ ★ ★

Goy scoreeeet dsalasttifg reoti Goyette scored his first goal at 4:23 of the first period. A sharp deflection of Andre Pronovost's shot gave Goyette his second at 19:23 of the second period — his fourth goal in Montreal's last two games.

Moore scored the final goal at 9:21 of the last period.

Rain Halts Action in Japan Net Test

TOKYO (AP) — Rain and slippery courts combined today to keep alive the Philippines' faint hopes of capturing the Japan national tennis sigles championship.

Davis Cupper Raymond Deyro, behind two sets to one in his semi-final tussle with Barry MacKay, of Dayton, Ohio, was given a day's respite when the big American star asked that the match be postponed because of slippery courts.

MacKay was leading Deyro, the only Filipino left in the tournament, 6-0, 4-6, 6-2.

The match will be resumed Saturday.

For Sportsmanship

Trio Are Award Hopefuls

BOSTON (AP) — A one-eyed quarterback, a deaf end and a one-armed center join George Roden of Colby College among the 1first nominees for the Swede Nelson Sportsmanship Award for football.

★ ★ ★

Bob Schloredt of the University of Washington who lost his left eye due to a boyhood incident, wingman Sammy Oates of Hardin-Simmons and Gerald Lebrasseur of American International today were listed in the first group of candidates.

★ ★ ★

The award has been presented annually since 1946 by the Gridiron Club of Boston in honor of Nils V. Nelson, former Harvard lineman and longtime influential friend of the game.

★ ★ ★

The award is given: "To the player who, by his conduct on the gridiron, demonstrates a high esteem for the football code and exemplifies sportsmanship to an outstanding degree."

Co-captain Roden, a halfback from West New York, N.J., was lost to his team in the third game of the season against Williams. The Colby star sustained a shoulder separation due to unselfish concern for a teammate.

A sophomore back was shaken up on Colby's second touchdown in the 42-14 victory and Roden, normally a safety man on kickoffs, told the player to "stay back, I'll go down under the kick." When Roden brought down the ball carrier and a pileup resulted he was injured.

★ ★ ★

Schloredt, Oates and Lebrasseur have drawn support for their devotion to football in spite of handicaps. Schloredt stepped in after regular Bob Hivner was hurt in the second game and has directed the Huskies to a 7-1 record.

Oates, who gets his signals by sign language, has caught 25 passes for 270 yards.

Rademacher Flattens Keener in 1st Round

COLUMBUS, Ga. (AP) — Pete Rademacher scored his fourth straight comeback victory Thursday night with an easy first-round knockout over Buddy Keener of Baltimore.

★ ★ ★

Rademacher, a heavyweight jabbing like a welterweight, threw a right-hand flush on the jaw in the early seconds and finished off Keener with another right to the jaw. Keener went down for the count with eight seconds left in the round.

Proud Lake Range Is Open All Year

Area hunters who have not yet sighted in their deer rifles will find suitable facilities at Proud Lake Recreation Area, says area manager Alfred Masini. The 100-yard range will be open the year around and targets may be had at the ranger station, corner of Wixom road and Garden road, 3½ miles southeast of Milford.

A shotgun range is also located in the same portion of the area, at corner of Childs Lake and Dawson roads.

This Is 'Get Even' Sunday in NFL Race

★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★

Leaders Face Tough Contests in Rematches

Favor Bears to Stop Rampaging 49ers in Western Division

By United Press International

This is "get even" Sunday in the National Football League.

All six games match teams which have met before this season. Sweeping the home-and-home series with a rival during the season is one of the league's toughest tasks.

That means six coaches are "running scared" Sunday and five of them have teams in the thick of the division races.

Coach Red Hickey's San Francisco Forty-Niners, two games in front in the Western Division, provide a typical example of Sunday's setup in their clash with the Bears at Chicago. The Bears (3-4) seek revenge for a 20-17 defeat suffered last month at San Francisco. The oddsmakers figure they'll get it, tabbing the Forty-Niners (6-1) two-point underdogs.

Coach Weeb Ewbank's Baltimore Colts, defending league and Western Division champions, are closest to San Francisco. The Colts (4-3) are 9½ point favorites to down the Green Bay Packers (3-4) at Milwaukee. The Packers lost recently at Baltimore, 38-21.

Coach Jim Lee Howell's New York Giants (6-1) must whip the Pittsburgh Steelers (2-4-1) to assure themselves of maintaining their one-game lead over the Cleveland Browns (5-2) in the Eastern race. The Giants are 7½ point choices to defeat the team they had to sweat to edge at Pittsburgh, 21-16.

★ ★ ★

Paul Brown's Cleveland club visits Washington and is favored over the Redskins (3-4) by 7½ points. The Browns whipped the Redskins at Cleveland, 34-7, but Washington upset the Colts last week and may be tougher to handle this time.

Coach Buck Shaw's Eagles (4-3) are two games behind the Giants and entertain the Chicago Cardinals (2-5) at Philadelphia. The Eagles rallied for a 28-24 triumph over the Cardinals at Minneapolis and are four-point choices to down the Chicago club again.

It's the same story in the other game. The Los Angeles Rams (2-5) visit the Lions (1-5-1) and are 2½ point choices to revenge the 17-7 defeat Detroit handed them in California.

Defense, as usual, rules the league and the Forty-Niners, Giants and Browns will throw three of the top defensive units at their Sunday foes.

★ ★ ★

The Bears, who won their last two games after losing four of their first five, will try to dent a San Francisco defense that has allowed only 88 points. The Forty-Niners lead the league in scoring with 189. They began a rugged road trip last week by winning at Los Angeles and play in Baltimore and Cleveland after Chicago before ending their regular season with two home games.

New York has allowed only 35 points in sweeping its last five starts and the defensive platoon may get another stiff workout against Pittsburgh. New York's top quarterbacks, Charley Conerly and George Shaw, are hampered by injuries.

Cleveland has allowed only 86 points, the league's best mark. The Browns have been clicking offensively in recent games and face a Washington defense that has allowed more points than any other club, 195. Don Bosseler, Washington's fullback, is injured.

The Cardinals lost to the Eagles last month after building a 24-0 lead. Norm Van Brocklin's passes to Tommy McDonald pulled the Eagles from behind in that game. That 1-2 punch figures to provide most of the Cardinal problems again this time.

Whitetails Go Into Hiding

Hunters Will 'Work' for Deer

By JERRY CHIAPPETTA
United Press International

A special UPI survey showed today that hunters will have to work hard at finding deer in Michigan during the Nov. 15-30 season because of the good natural food supply and bad weather.

★ ★ ★

Late reports from all the popular deer hunting areas said a record October rainfall has driven whitetails into "unnatural haunts" in some areas, mainly in the eastern end of the upper peninsula and on Drummond Island.

"Rough going was the outlook for the remainder of the U. P., while hunters in the northwestern section of the Lower Peninsula will find deer mainly in the heavy cover because of the abundance of food.

The Northeastern lower Michigan area will be about the same as last year, with deer sticking to high grounds and the "back in" sections.

Generally, back roads were found to be in poor condition, some even closed, because of the rain and today's snow storm. However, the popular "club country," as of today, had escaped exceptionally heavy snow.

More than a foot of snow covered most of the Lake Superior shore of the Upper Peninsula while the interior sections have around 6 to 12 inches. Hunters will probably find several inches of snow opening day below the straits.

A special weather forecast called for "below freezing" temperatures by 6 a.m. Sunday judging from the latest weather indications.

Harry L. Aldrich, chief of region two of the conservation department, was more optimistic than others contacted for the special deer survey.

He said, "of course, last minute changes in the weather will be the big factors. It won't bother the deer as much as it will the hunters.

"They (hunters) just won't go out in a storm. They seem to prefer to play poker or just sit around camp telling lies."

Aldrich added that his Northern Lower Peninsula area "has plenty of deer and we should have an excellent opening day."

Here is a section by section breakdown on conditions to be found:

CENTRAL AND WESTERN UPPER

"Rough going for hunters . . . too much snow . . . about a foot or more in the woods," according to Ken Lowe at Marquette. "Some roads are washed out and blocked because of the snow on top of the heavy October rains. Deer are plentiful though."

EASTERN UPPER AND DRUMMOND ISLAND

"We had a record six-inch October rainfall," reported Woodro Jarvis of Detour. "We expect an average kill if hunters will get back in and away from the roads and open areas to hunt. Deer are in the swamps. The three main roads on the island are open. Side roads are in bad shape although there is not much snow here."

NORTHWESTERN LOWER

"You'll have to get off the roads to kill a deer here," said Gordon Charles of Traverse City. "We had almost no crop damage, which is good. This means there is a terrific amount of food for deer and they can get all they want to eat in an area as big as your backyard. There were plenty of mushrooms and acorns too. We aren't seeing the deer we saw last year — they're not roaming around."

NORTHERN LOWER

"We expect a good hunting season in our area," reported Jim Doherty of Petoskey. "We had no starvation here and deer came through fat and sassy. There have been a couple of albino deer spotted and we hope no one shoots them. We also had a hit-run bear fatality. The black bear was found dead along a road in Northern Emmet County, near Levering."

NORTHEASTERN LOWER

"There is a heavy deer concentration and this is always good hunting," said Ed Allen of Alpena. "There is a good feeding program here and deer are in good condition. Back roads are fair. We should have excellent hunting. There's a lot of excitement here about deer hunting."

Make Decision Monday on Final AFL Franchise

PHILADELPHIA (AP) — Bob Carpenter, owner of the Philadelphia Phillies, said last night that there will be an announcement Monday whether Philadelphia will get the new American Football League's final franchise.

Carpenter has been studying the pro draft system and the chances of obtaining good players.

Harry Wismer, president of the New York franchise, has said that the last of eight franchises would go to Philadelphia or Boston. The new league hopes to be in operation next year.

Arkansas Coach Inks New Pact

FAYETTEVILLE, Ark. (AP) — Frank Broyles signed a new five-year contract Thursday as University of Arkansas head football coach. His salary was upped by $1,500 after a so-far proud season for the Razorbacks.

The signing put an end to rumors that the 34-year-old advocate of the belly-wing offense would move to the University of Florida. Rumors had been flying that Broyles would take over if his old boss, Bob Woodruff, was pushed out of the Gator post at the end of this season.

Broyles weathered the rumors with the same calm he carried last year through some of Arkansas' darkest moments. He lost his first six games as Razorback head coach, then his team caught fire and won its last four games.

This year the Hogs won four straight before losing to Texas and Mississippi. They hold a 6-2 record and a shot at the Southwest Conference championship.

The board of trustees raised Broyles salary from $16,000 a year to $17,500, the maximum set by the Arkansas Legislature.

Navy Will Stress Football Quality

ANNAPOLIS, Md. (AP) — Navy plans to revise its football recuiting program and shift the emphasis from quantity to quality, according to Asst. Athletic Director E. E. (Rip) Miller.

"We've got to cut down on the number of boys we've been working on and concentrate harder on those top level ones we know can make the grade scholastically as well as athletically," said Miller, who directs Navy's recruiting program.

The former Notre Dame lineman said the competition with other colleges is "terrific and we have the special problem of no gimmicks to offer." He was referring to the academy policy of no scholarships.

Miller said his office has been considering as many as 2,000 high school athletes a year and encouraging as many as 5,500 to take entrance exams.

Capitol Upsets PTTA Leader

Newberry Market's table tennis team tasted defeat for the first time this season by losing a 4-2 match to Capitol Barbers.

The setback dumped Newberry into third place behind Capitol and Nutrilite.

The four big points for Capitol were scored by Pete Secord who defeated Jim Reed, 21-18, 21-6; and Carol Ryan who defeated Gloria Hartman.

In mixed doubles Miss Ryan and Dick Lesner were victorious as were the men's doubles of Secord and Paul Collis.

Other games saw L. H. Cole defeat Cone Top, 5-1, with Ruby Nichols continuing unbeaten for Cone.

PTTA STANDINGS

	W	L		W	L
Capitol Barber	27	3	Cones Soil	12	18
Nutrilite	26	4	Dorris & Son	12	18
Newberry	25	5	Aluminum	10	20
L. H. Cole	16	14	Pont. Motor	10	20
Seaman	15	15	Frostop Inn	8	22
Fox Cleaners	15	15	A & W	4	26

THURSDAY'S RESULTS
Capitol 4, Newberry 2; Nutrilite 6, A&W 0; Fox Cleaners 5, Frostop 1; Seaman 5, Pontiac Motor 1; L. H. Cole 5, Cone Top 1 and Dorris & Son 5, Aluminum 1.

THURSDAY'S FIGHTS
By The Associated Press
PORTLAND, Ore. — Joe Sullivan, 190, Stockton, Calif., stopped John Massey, 199, Portland, 1.
COLUMBUS, Ga. — Pete Rademacher, 200, Columbus, knocked out Buddy Keener, 205, Baltimore, 1.

Key Game at Bay City

SVC Grid Crown at Stake

The Saginaw Valley Conference football championship will be at stake tonight when Bay City Central and Flint Northern collide on the Bay City gridiron.

Most of the pressure leans on Bay City in this eagerly-awaited showdown tilt as the Wolfpack concludes its 1959 season.

The Wolves, now residing in 2nd place with a 3-1 league record after last week's loss to Pontiac Central, can clinch at least a share of the crown for the 3rd straight year by winning. A defeat, on the other hand, automatically eliminates them.

Northern currently leads the Valley race with a 3-0 mark and the Vikings can guarantee themselves a co-title by disposing of Bay City.

If the Vikings slip past the rugged Wolfpack, they still must face Flint Central, their bitter crosstown foe, in the traditional Thanksgiving Day battle at Atwood Stadium.

Central, presently holding 3rd spot with a 2-1 record, still has an opportunity to gain a piece of the title it shared last season with Bay City Central. In order to do it, however, the Indians must beat Pontiac Central (2-2) tonight at Atwood. The contest is the final one of the season for PCH.

Saginaw High and Arthur Hill renew their city feud tonight on the Hillite field to complete the SVC schedule.

It's actually a battle between the also-rans in the Valley race since Arthur Hill has a 1-3 mark while the Trojans are winless in four games and hoping to drag the Hillites into the cellar with them. It's the final game of the year for each school.

Prep Front

By BILL CORNWELL

Elmer Engel, now in his 10th year as head football coach at Bay Central High School, never has won any popularity contests with his fellow coaches. He also has been much maligned by members of the sports writing fraternity.

But the controversial Engel, who among other things has been accused of pouring it on against outclassed foes, has found at least one fast friend and ardent admirer right here in the city of Pontiac.

His name is Jesse MacLeay, presently trying to improve the gridiron fortunes of Pontiac Central and doing an excellent job. It was MacLeay and his PCH gridders who whipped Engel's lads a week ago to ruin a perfect season and end their 19-game unbeaten string.

Engel has a first class rating in MacLeay's book. "He's a fierce competitor, a great coach and a real gentleman," said MacLeay. "He has an intense desire to win and his boys are always well coached in solid football fundamentals."

ENGEL

"He was a gracious loser, had worlds of praise for our kids and complimented us for gaining a victory which meant so much to him," MacLeay said, "and he's a fine gentleman as far as I'm concerned."

No matter what one personally thinks of Engel, it's mighty difficult to argue with his record. Under his guidance, football at Bay City Central has risen from the depths to a place of eminence in Michigan prep circles.

His teams have won or shared the Saginaw Valley Conference grid crown the last two years and entering tonight's SVC title showdown at Bay City against Flint Northern, he boasts a record of 69 wins, only 17 losses and three ties. Six of those defeats came in 1950, his 1st year at the school.

Hank Fonde, currently a member of Bump Elliott's staff at the University of Michigan, was Engel's counterpart at Ann Arbor High School when he was controlling the gridiron destinies of the Pioneers.

Fonde, like Engel, never won any popularity polls. He just won football games — one right after another.

★ ★ ★

We suspect that Engel, like all true members of the coaching profession, has a burning desire to win, but also readily recognizes and willingly acknowledges a superb effort by the enemy. He gave MacLeay credit where credit was due.

LOST FIELD GOAL

We were so close to the forest that we couldn't see the trees in last week's field goal report. A Prep Front reader informs us that Chuck Deschaine of St. Frederick placekicked a field goal for the Rams last season.

★ ★ ★

The informant is correct. A check of our files reveals that Deschaine booted a 16-yarder against Royal Oak St. Mary a year ago when the Rams raced to a 70-0 triumph. Apparently the fielder became lost among all those points.

KEEGO BANQUET COMING

West Bloomfield's annual fall sports banquet, which honors the Laker football and cross country teams, is scheduled Tuesday, Nov. 24, in the high school gymnasium at 7 p.m. The guest speaker will be Jack Simmons, assistant grid coach at the University of Detroit. Letters will be awarded.

HONOR TEAMS NEXT

The Associated Press' annual classes A, B, C and D will be selected Monday at Lansing and announced during the first week of December. The annual Pontiac Press All - Oakland County grid squads will be announced on Saturday, Nov. 21.

'M' Frosh Contest Ends in 19-19 Tie

ANN ARBOR, Mich. (AP)—Michigan's freshman football squad wound up fall drills yesterday with an annual intrasquad game that ended in a 19-19 tie.

The Whites came from behind with touchdowns by Jack Stroebel of Chicago and Doug Eggleston of Grand Rapids. A touchdown by Ed Hood of Detroit had sent the Whites ahead in front.

But the Blues came back with three consecutive touchdowns. Dave Glinka, a promising quarterback from Toledo, passed to Dave Conrad of Plymouth for the first Blue six-pointer. Then Dave Rimey of Dayton, Ohio, and Jim Ward sent the Blues ahead 19-6 before the Whites came back.

Four for Lanoway

SAN MATEO, Calif. (AP)—Canadian jockey Gordon Lanoway won four races Thursday at Bay Meadows.

MSU Can End Wildcat Rose Scent

Northwestern Must Win to Stay in Race

Hot-and-Cold Pattern of Spartans Indicates Loss Saturday

EAST LANSING (AP) — If Michigan State is hot — watch out Northwestern.

If the Spartans are cold, they're doomed to a three-three season in Big Ten football play.

The Michigan State pattern in Big Ten play this season has been a consistent win one and lose one on alternate Saturdays. If the Spartans follow this form, they will lose to favored Northwestern and leave the Wildcats in good position in the conference title duel with Wisconsin.

Here's the way it has gone for State in Big Ten competition:
A win over Michigan 34-8.
A loss to Iowa 37-8.
A win over Indiana 14-6.
A loss to Ohio State 30-24.
A win over Purdue 15-0.

Coach Duffy Daugherty tried warming up his team last week with gas-fed heaters spotted behind the bench.

He'll need them again. Northwestern will arrive flushed with the Rose Bowl fever.

★ ★ ★

Snow flurries and a temperature in the freezing low 30's are predicted for the last home game in Spartan Stadium.

Given these conditions, fumbles could play an important role. Both teams have had trouble holding onto the ball. Northwestern partly blames four lost fumbles for 24-19 defeat by Wisconsin last week.

The Wildcats have fumbled 25 times and lost the ball 18 times this season. But Michigan State tops this with 33 fumbles and 22 losses.

The squads are much alike. Both have good passing quarterbacks and runners rated among the top speedsters in the conference.

★ ★ ★

John Talley of Northwestern has completed 24 passes for 546 yards and four touchdowns. Dean Look has completed 33 for 558 yards and seven touchdowns, and has thrown a scoring pass in every game he's played.

Burly Ron Burton, an Associated Press All-American nominee, is the power runner in the Wildcat backfield. Michigan State will counter with Herb Adderley, Workhorse for the Spartans all season.

Fullback Blanche Martin won't start for Michigan State because of his shoulder sprain. Park Baker, lightest man on the squad at 162 pounds, will get the assignment.

Michigan State and Northwestern haven't played since 1925. The Wildcats won all three games played early in the century.

A crowd of close to 60,000 is expected for the Spartan home finale despite the prediction of chilly watching weather.

Unhappy Indiana Awaits Michigan

★ ★ ★ ★ ★ ★ ★ ★ ★

BLOOMINGTON, Ind. (AP) — It's Michigan's turn to defend heartbreak ridge tomorrow.

The Wolverines, getting better by the week, invade Bloomington for the first time since 1932 to battle Indiana.

★ ★ ★

And the Hoosiers are unhappy, grumbling and in a mean frame of mind.

"How many heartbreaks can a team take without losing its competitive edge and all-out will to win?" wondered Phil Dickens, Indiana coach.

Heartbreak Ridge has become the goal line that has divided his Hoosiers from a good seaon.

Twice Dickens has bitterly disputed officials, claiming his ball carriers have crossed Heartbreak Ridge. Twice his protests were turned down and he has been outspoken afterward.

A week ago officials ruled Vic Jones hadn't crossed the goal and Indiana had to settle for a scoreless tie with Ohio State. The Hoosiers had a chance to tie Michigan State earlier. But again officials ruled the Indiana back had not reached Heartbreak Ridge.

The Hoosiers, therefore, are ninth in the Big Ten, behind Michigan.

Michigan has bounced back steadily after its poor start and seems to improve with each game.

★ ★ ★

The Wolverines have won three of their last five games, last week's 20-15 upset of Illinois the high spot.

With victories tomorrow and next week the Wolverines would achieve what once looked impossible — a winning season in coach Bump Elliott's first year.

But the Hoosiers are favored by a touchdown tomorrow.

★ ★ ★

Indiana has three fine running backs in Vic Jones, Teddy Smith and John Henry Jackson. Jackson excells as a passer and has top receivers in Earl Faison and Ted Aucreman. Jones and Smith were stars of the Hoosiers 8-6 triumph over Michigan last year. The Wolverines can be expected to throw up the same solid defense that stopped Illinois last week. It's headed by little Jerry Smith, who intercepted Illini passes, and Alex Callahan.

Michigan's attack is geared by quarterback Stan Noskin.

This will be only Michigan's second appearance at Bloomington. The Wolverines won the 1932 game 7-0 and the 1900 game 12-0.

Michigan has a 26-6 edge in the series.

College Football

by

"RED" BLAIK

NEW YORK (AP) — The revelation that TV quiz shows were rigged must account for it.

Many people have asked me how I managed to pick such upsets last week as Tennessee over Louisiana State, Michigan State over Purdue, Georgia Tech over Notre Dame and Harvard over Princeton. They wanted to know if somebody had tipped me off ahead of time.

"Of course," I replied. "I knew all the time those underdogs would win." And now, if you'll excuse me, I'll get into my isolation booth and "sweat out" this week's script.

Miami over South Carolina Friday. A lot of credit due Fran Curci for Miami's creditable record.

Pittsburgh over Notre Dame. A tough one to pick. Both have gone intellectual.

Georgia Tech over Alabama. But hardly a rabbit hunt for the Engineers.

Auburn over Georgia. An edge to the plain, tough Plainsmen line.

Wisconsin over Illinois. Dale Hackbart has the big Badgers headed for the Big Ten title and the big bowl in Pasadena.

★ ★ ★

Michigan over Indiana. A novel sight — the Maize and Blue at Bloomington.

Army over Oklahoma. Both are "snakebitten" and out of step, but they'll still play a classic in Owen Field.

Southern Methodist over Arkansas. Even though the Razorbacks are the surprise of the Southwest Conference.

Mississippi over Tennessee. But if the Vols can add the Rebels to Auburn and LSU, they'll rate as best in the Southwestern Conference.

★ ★ ★

Rice over Texas Aggies. Both are better than their records.

Vanderbilt over Tulane. In keeping with their scholastic standards, the winner will receive a full set of the Encyclopedia Britannica.

Texas Christian over Texas. Against lodge rules to go clean in the SWC.

Oregon over Washington State. Casanova and Sutherland — two fine coaches.

Southern California over Baylor.

The Trojans stay in the race for the national championship.

Syracuse over Colgate. Ben Schwartzwalder's dilemma is how to be neighborly and yet keep his squad sharp.

UCLA over North Carolina State. Tailback Kilmer reaching top form for the big crosstown battle with Southern Cal.

Dartmouth over Cornell. In four downs.

★ ★ ★

Penn State over Holy Cross. Each lost only to Syracuse. Nittany can't afford a letdown.

Iowa over Ohio State. No championship involved—merely .500 respectability.

Northwestern over Michigan State. One vote for the Wildcats and the most dangerous runner of the year—Ron Burton.

OCSC Splits Match With Dearborn Five

Oakland County Sportsmen's club riflemen split a match in their latest outing against Dearborn capturing the actual side with 937-925 but dropping the handicap, 1007-994.

High actual card was Don Postma's 193 for OCSC with Brehm's 191 tops for Dearborn. Rhodes' 210 handicap total swung that division for Dearborn.

The scores:

OCSC	Act.	Hc.	DEARBORN	Act.	Hc.
Carlson		201	Rhodes	188	210
Bond	185		Wilkinson	186	199
Bennett	187	197	Sawyer	176	202
Farnam	185	198	Brehm	191	199
Postma	193	201	Penegor	184	197
Saylor	187	197			
Totals	937	994	Totals	925	1007

Rookie Bob Allison led the Washington Senators in hits, triples, total bases and stolen bases last season.

If You're Superstitious:

Friday the 13th—Throw Out Dollars

By PHYLLIS BATTELLE

NEW YORK — Today is Friday the 13th—but who's counting?

Oh, really?

Well, if you are one of the great harassed horde of people who still is touchy about the number 13 (surveys prove a majority of Americans, including 70 per cent of our bright, brash teen-agers, are superstitious), here is a suggestion.

Toss out all your dollar bills. Go on—pitch 'em. The American dollar bill may be somewhat a symbol of success, but since the year 1935 it's been, even more, a symbol of flagrant thirteenism.

Turn George Washington over on his face, look at the seals on the backside of your hard-earned money, and cringe.

There are two seals. On the left is an incomplete, or truncated pyramid, shorn off abruptly at the top of the 13th step.

On the right is the great American bald eagle, holding in one talon 13 arrows, and in the other, 13 leaves with 13 berries on an olive branch.

Over the eagle's head are 13 stars.

★ ★ ★

Obviously, to the superstitious, money brings bad luck.

Give it to your enemies, ye of little faith.

That way you can touch all the bases, trading safety and savings for peace of mind and poverty.

100,000 COLLECTED

Our expert on superstition is Claudia de Lys, the world's foremost collector of lore on luck and the lack of it. She has nearly 100,000 superstitions stashed away in the files of her New York apartment.

"The design on the dollar bill," Claudia says, "was ordered by Henry Morgenthau Jr., who was secretary of the treasury in 1935. As all Americans should know, the many uses of the number 13 refers to the 13 original Colonies. The number should be considered lucky for Americans today—but most people live, without realizing it, in a far, far past."

It was the ancient Hindus who started the "unlucky 13" superstition. But it was in a remote Scandinavian legend that the reason for fearing 13 was pinned down.

Loki, the principle of evil, is supposed to have joined the 12 Scandinavian demigods at a feast. He was uninvited, of course, but the Scandinavians are hospitable, so what can you do?

He ordered Hodur, the symbol of darkness and night, to shoot Baldur, the bright symbol of the sun, with an arrow of mistletoe.

After that, 13 guests at one table became a taboo.

How mistletoe preserved its good name only Santa Claus knows.

★ ★ ★

As for exactly why Friday is considered an evil omen (when everybody knows that eggs laid on Friday will cure stomachache)—that is something we forgot to ask Miss De Lys. However, it probably has something to do with the fact that Friday is payday and, since money is jinxed, isn't everybody?

Of course we are.

Cross my heart and hope to be third on a match.

Man, 82, Dies; Was on Casey's Ballad Train

NEW ORLEANS (AP) — William H. Crittenden, 82, who was on Casey Jones' Cannonball Express when it was wrecked 59 years ago, died here Wednesday.

Crittenden was the last known survivor of the famed wreck on the Illinois Central at Vaiden, Miss.

Jones was trying to make up an hour and a half.

Crittenden, a native of Centralia, Ill., remembered the crash vividly years later.

Looking from broken train windows into the predawn half-light, Crittenden said he watched four men carrying a cot.

He said Jones was on the cot and that was his last memory of him.

★ ★ ★

Later he heard that Jones was dead and that his Negro fireman, Sim Webb, had leaped to safety just before the crash. Webb died several years ago.

Crittenden said he rode in an express car behind Jones' engine when the train plunged into the rear of a freight train. Negro rail laborers sang about the big smashup and a writer later immortalized it in a ballad.

The official account was that the freight train should have been off on a side track to let Jones by. Railroadmen tried frantically to flag Jones down, but he didn't have time to stop.

U. of M. to Show Works of Franklin P. Adams

ANN ARBOR (UPI)—An exhibit of the works of former newspaperman and author Franklin Pierce Adams, widely known as FPA, go on display here today in the main lobby of the University of Michigan library.

The exhibit, to run one week, is being held in connection with Adams' 78th birthday Sunday, Nov. 15.

Adams, who attended the university in 1899 and 1900 and received an honorary degree here in 1914, is now living in New York.

Shenandoah National Park in northwestern Virginia covers 193,473 acres.

Grain Dealings Steady to Firm

CHICAGO (AP) — The grain futures market was steady to firm all along the line at the start of dealings today on the board of trade.

The advances were limited mainly to small fractions on a light and scattered demand against meager offerings. Dealers said there were no especially important new market factors overnight and that the activity appeared to include short covering for the weekend.

The steadiness in wheat was understood to be a carryover of support related to word that India is negotiating for a four-year agreement involving a huge amount of U.S. grain.

After about an hour trend fractions were draggy with wheat ⅛ to ¼ cent a bushel higher, December $2.01⅞; corn ⅛ higher to ⅛ lower, December $1.12⅞; oats ⅛ to ¼ higher, December 78¾; rye unchanged to ½ higher, December $1.34½; soybeans ⅛ to ½ higher, November $2.21¾.

Pontiac Woman Dies in Auto Collision

Mrs. Anna L. Johnson, 55, of 593 Raskob St., was killed yesterday when her car collided with one driven by a woman eight months pregnant.

Doctors said the accident had no effect on the condition of Mrs. Norma Clark, 28, of 3180 Watkins Lake Rd., Waterford Township. The collision occurred at the intersection of Barkell and LeBaron streets.

Mrs. Clark was in satisfactory condition at Pontiac General Hospital. She is being treated for possible head injuries. Her 19-month-old son Gerald was treated and released.

Police said Mrs. Clark apparently ran a stop sign, or stopped and entered the intersection when her car collided with that of the dead woman.

Typhoon Emma Rips Through Okinawa

NAHA, Okinawa (AP)—Typhoon Emma blasted through Okinawa early today with winds of more than 110 miles an hour ripping roofs from houses, uprooting trees and causing landslides.

Downtown Naha was flooded with water 6 feet deep in low-lying areas. Debris, mud and water soaked many shops, damaging thousands of dollars worth of merchandise.

No deaths or serious injuries were reported in the Naha area. But contact was broken with the northern part of the island, where Typhoon Charlotte last month killed 45 people.

The Weather Bureau in Tokyo said the storm was expected to pass 180 miles east of the main Japanese islands and die in the Pacific.

U.S. farms have more automobiles than telephones.

For IMMEDIATE DELIVERY as Follows:

6,722 lbs. of 19 guage .043 tolerance, .004 thick and 4 63/64 inches tolerance, 1/64 inches wide. 30,815 lbs. of same except width is 5 17/32 inches tolerance, 1/64 inches wide. All extra deep drawing cold rolled steel and coils. This steel has been wet and has been pickled and oiled to remove rust. This processing has not proved satisfactory to the consignee and this steel is on hand, refused at Memphis, Tenn., Terminal of Ellis Trucking Co., Inc., located at 1334 N. Second St., Memphis and may be inspected there. Invoice price was $3,045. Make us an offer for entire lot—no part lots. Best cash offer takes. F. O. B. Memphis.

ELLIS TRUCKING CO.

Stocks Dullish on Friday 13th

NEW YORK (AP) — A few electronics advanced while the stock market drifted along irregularly this afternoon. Trading was comparatively dull.

Gains and losses of most key stocks went from fractions to a point or so. Some of the favored "science" stocks rose several points.

★ ★ ★

The space age group as a whole, however, was spotty, a number of these issues backing away as profits were taken.

The market as a whole was said by brokers to having nothing to spark a renewal of interest, either on the buy or sell side.

A drop of more than a point by U.S. Steel was a depressing factor among the major industrials. The rails perked up just a bit, as they will reap the immediate harvest when carloadings increase on the full resumption of steel production.

★ ★ ★

The shutdown of car production at General Motors because of steel shortages continued to have a dampening effect. GM common was easy.

The fact that today is "Friday the 13th" did not escape mention in brokerage offices and although this was scarcely a major factor it was no help to those who want bullish enthusiasm.

General Time, which is one of the "science" stocks, snared some trading interest and spurted 5 points or so, leaving it about 20 points below its 1959 high. Motorola advanced about 3 and Ampex about 2.

Small fractional losses were taken by Texas Instruments, Radio Corp., Raytheon and Sperry Rand.

★ ★ ★

Thiokol, which received another rocket contract, was up about a point at the start, then showed a net loss of around a point in later dealings.

Eastman Kodak advanced more than a point on a few trades. U.S. Rubber was around a point to the good.

SERVICE MANAGER OF YEAR — Named service manager of the year at Pontiac Motor Division's National Service meeting was W. D. "Mac" McGarrity (left). He is shown here accepting an engraved desk trophy from H. J. Hales, the Division's general service manager. McGarrity, who is now service and parts manager in Pontiac's Los Angeles zone, competed with representatives from 26 other sales zones.

Dems Stalling GOP Plan to Crack State Tax Crisis

LANSING (AP) — New doubts shrouded the fate of the Republican cash crisis plan today as lawmakers oiled their deer guns, rested or worked at home.

★ ★ ★

Meanwhile, over-all cash in the state treasury sank to a new low. The key general fund balance showed $4,959,703 in the red. A net of $7,942,907 was available to the treasurer for all purposes.

The GOP sales tax proposal was temporarily on the shelf, stalled by Democrats, and it was anybody's guess whether the Senate would hustle through emergency nuisance tax bills after its return Tuesday night.

Some Republicans, miffed by yesterday's developments, said they would withhold votes for the nuisance taxes until Democrats lowered the blockade on the sales tax resolution.

★ ★ ★

In major events yesterday:

1. Minority Democrats, saying it was a case of "first things first" demanded that Republicans deliver on their 74 million dollars in nuisance taxes before providing needed support for a sales tax increase referendum in 1960.

2. Four bills carrying the tax package were reported to the floor, with changes in beer and cigarette tax increase, for decisive action next week.

3. A second 1960 ballot proposal on taxing corporation profits was changed by Republicans into an income tax proposition unacceptable to Democrats, who said they would never take it in its present form.

4. Only 24 of 109 members answered roll in the house. No business was transacted.

★ ★ ★

The growing urgency of the cash situation was underscored by the treasury figures. Six months ago on the eve of the May 7 payless payday total treasury balances topped 150 million dollars.

Since then, a succession of new fund juggling devices have been introduced by state administrators.

★ ★ ★

In the main tax package changes:

1. All the temporary levies were given expiration dates — June 30, 1961. A date of Dec. 30, 1960 was mentioned when the GOP program was first unveiled Wednesday.

2. The beer bill called for doubling, instead of tripling, the present $1.25 levy, to produce a revenue gain of seven million dollars a year instead of 14 millions. Organized brewery workers had protested the higher rate.

3. The tobacco bill called for a two cents a pack, rather than a one cent, increase in the existing five cents state levy, to yield 17 million dollars instead of $8,500,000 a year in added revenue.

As charged, the overall value of the package was boosted $1,500,000 to 74 million dollars.

Anti-Hoffa Man Missing 4 Days

Kentucky Police Comb Auto Found Near River Thursday Night

CORINGTON, Ky. (AP) — Police were combing the abandoned automobile of an anti-Hoffa Teamsters Union official today in hope of turning up a clue to his mysterious disappearance.

John Curtsinger, a trustee of the Teamsters' Cincinnati Local 100, has been missing since he left his home at nearby Florence, Ky. Monday to attend a union meeting.

His car was found parked near the Ohio River yesterday, a parking ticket timed 2:30 p.m. Tuesday on its windshield.

Police found some of Curtsinger's clothing in the car, but said they understood he was in the practice of carrying spare clothing. They were dusting the car for fingerprints today to determine whether anyone else had been in it.

Curtsinger's wife says she fears for her husband's life.

She said Curtsinger had been upset since a recent brawl between Local 100 officers, who oppose the policies of Union International President James Hoffa, and a group of pro-Hoffa drivers.

Curtsinger had filed assault and battery charges against one of the drivers, Morris Isserson, whose trial is scheduled later this month.

James Luken, president of Teamsters Joint Council 26, told police Curtsinger "was scared something was going to happen to him if he testified" against Isserson.

News in Brief

The theft of $330 from a wallet in his room was reported to Pontiac police yesterday by Sam Seaton, 494 N. Johnson Ave.

Someone broke into the Sears Roebuck & Co. warehouse, 481 N. Saginaw St., it was reported to Pontiac police yesterday. Nothing was reported missing.

Two burglars broke into a building at 1200 E. Walton Blvd. and stole 128 sections of galvanized sheet metal, it was reported to Pontiac police yesterday. The building is leased by Clifford R. Elliott, 1490 Delrose Dr., Bloomfield Township.

Severe Cold Hits Rockies After Snow

DENVER, Colo. (AP)—Intense cold that plunged temperatures to near-record lows locked the Rocky Mountain states in a wintry grip today on the heels of a 25-inch snowfall that buried Montana.

★ ★ ★

The temperature was 22 below zero today at Cut Bank, near the Montana-Canada border.

It was 18 below at Great Falls and 13 below at Helena, Montana's capital city, which bore the brunt of the blizzard. The coldest temperature ever recorded at Helena was 37 below zero.

Sub-zero readings were common from Montana south to Colorado along the eastern slope of the Rockies. The Continental Divide formed a barrier that moderated temperatures west of the mountains.

BRINGS 14 DEATHS

At least 14 deaths have been attributed to the massive storm which rushed out of Canada and now has engulfed much of the nation's midsection, from the mountains to the Midwest.

Seven deaths within a week have resulted from Montana's whiplash storms. Four were airmen who died in the crash of three jet fighters. Two motorists were killed and a Lutte man died of exposure.

Icy roads caused six highway deaths in Illinois, and another accident took the life of an Iowa motorist.

Two hunters are unaccounted for in mountain terrain near Missoula, in western Montana.

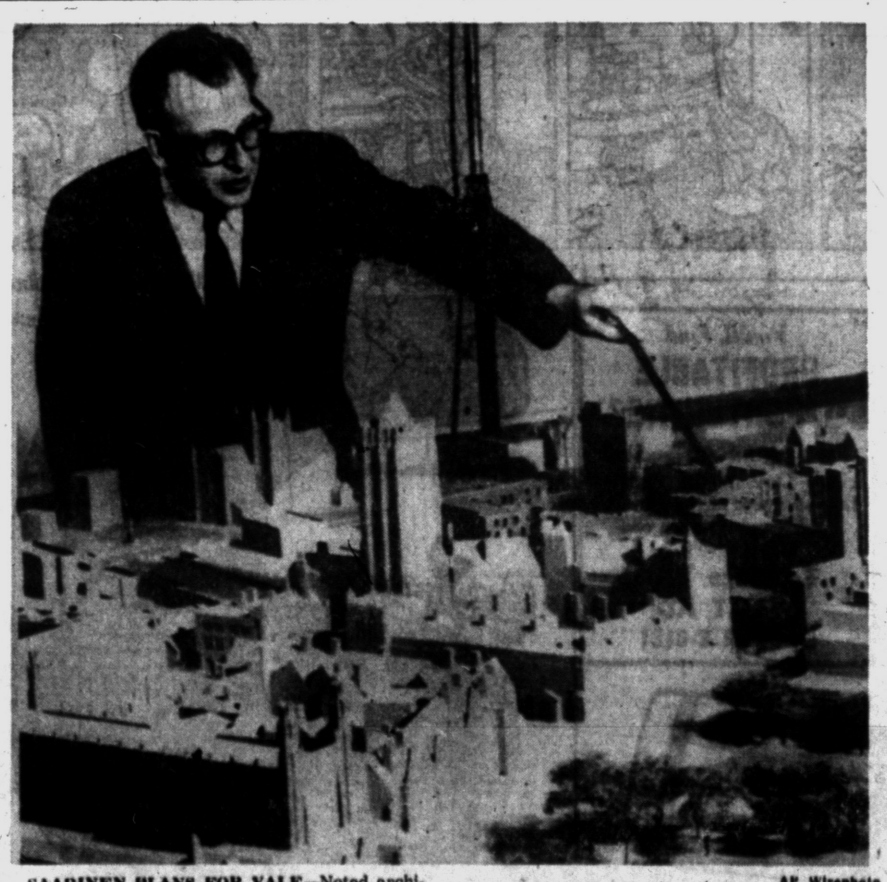
The snowfall tapered off along southern Montana Thursday night, leaving 20 inches of snow on the ground at Billings.

The Weather Bureau issued heavy snow warnings today for the area from Michigan through Iowa. Snow and freezing rain fell throughout the Midwest and into Kansas and Nebraska.

★ ★ ★

Travel facilities were slowed and, in some places, suspended. Schools were closed in scores of towns in Montana and Wyoming.

Joe Venuti, composer-violinist with Paul Whiteman's orchestra for eight years, wrote "Ain't Doin' Bad Doin' Nothin." He can't give a birthplace address because he was born at sea.



SAARINEN PLANS FOR YALE—Noted architect Eero Saarinen of Bloomfield Hills points to model of one of two new residential colleges he has designed for Yale University, New Haven, Conn. The new colleges will cost $7,500,000 and are scheduled for completion in 1962-63. Models of the proposed additions are to left and right of Saarinen's pointer. Buildings in the foreground are models of the university's existing plant. AP Wirephoto

Expense Money Gets Board OK

Two School Officials to Get Flat Rates for Business Needs

The Board of Education last night unanimously voted an annual flat rate expense account of $750 for Dr. Philip J. Proud, assistant superintendent in charge of certified personnel, and $500 for Dr. Otto C. Hufziger, assistant superintendent in charge of business.

★ ★ ★

Past practice provided reimbursement for business-connected expenses.

Superintendent Dr. Dana P. Whitmer said he submitted the recommendation because his two aides were paying from their salaries expenses incurred by nature of their positions that were hard to itemize.

Hard-to-itemize expenses not previously reimbursable, according to Whitmer, include such items as meals and overnight guests for interviews, business transactions and meetings.

The sums arrived at for flat rate expense accounts are based on what the government allows for men in their positions," he said.

"Expense monies are not subject to income tax payments providing that expenses incurred are reported," said Whitmer. "This stretches the dollars received by the administrators."

To Visit Paris Via Travelogue

Second Kiwanis Show in Current Series Offers Curtis Nagel Films

The second show in this season's Travel and Adventure Series, sponsored by the Downtown Pontiac Kiwanis Club, will feature Curtis Nagel Tuesday night at the Pontiac Central High auditorium.

Nagel and his assistant, William Moore, have won top honors in the travelogue field.

Tuesday's program, "Portraits of Paris and the Riviera," is scheduled to begin at 8 p.m.

Season ticket holders will see the grand boulevards, atmospheric Montamartre, the Palace of Fountainbleau, the latest collections in Paris fashions and spend a night in gay Paris via Nagel's colorful film.

There also will be a 30-minute film of the Brussels Fair.

Proceeds from the sale of season tickets to the series are going toward the various childrens groups aided by area Kiwanis clubs.

No tickets will be sold at the door.

Going Shopping? Put License Tag on Your List

Making out a list of errands to do this weekend? Why not include purchase of your 1960 license tags.

This was the suggestion from Willis M. Brewer, branch manager of the Pontiac Secretary of State's Office, who said sale of the new license tags are about even for what they were this time last year.

He urged motorists again not to forget their car titles.

The office at 96 E. Huron St. is open weekdays from 9 a.m. until 5 p.m. and on Saturdays from 9 a.m. until 1 p.m.

New tags, which go on the 1959 full-size plates, have been on sale since Nov. 2 throughout the state.

Monroe Legislator Bows to 'More Qualified Man'

LANSING (UPI) — Rep. William Sterling (D-Monroe) won't run for Mayor of his hometown because he thinks another man seeking the position is "eminently qualified for the post."

Sterling said he decided not to put his name on the ballot in the race even though he filed for the job a week ago.

He said Dr. Lawrence Frost, a Monroe chiropodist and former city commissioner, would be the man for the position and said, "I plan to work for his election whenever and wherever possible."

Mayor Milton Knabusch is seeking re-election also.

Warren Salary $35,000

Chief Justice Earl Warren of the United States Supreme Court has a salary of $35,000 a year.

TV News and Reviews

'Hidden Image' Timely; Gimmicks Ruin Impact

By FRED DANZIG

NEW YORK (UPI) — Playhouse 90 on CBS-TV presented a plan of uncanny timeliness last night.

★ ★ ★

"The Hidden Image," by David Karp, dealt with political integrity and personal humanity and integrity, subjects that much of today's national dialogue is concerned with.

The author pressed home the point that only the dead are invulnerable to temptation and it is the test of a man when he can fight it off.

The play's timely message is one thing, however, and its effectiveness is another.

★ ★ ★

I felt Karp cluttered his story with too many gimmicks, inconsistencies and contrived situations to set up his leading character, played by Franchot Tone, for the final display of undiluted integrity.

His straining to keep the play going until the climactic last few minutes made for some rather repetitive dialogue and meaningless razzle-dazzle in the play's middle.

DIALING AND FILING: Sammy Davis Jr., starring on CBS-TV's Zane Grey Theater, was cast as an Indian-hating cavalryman trying to lead his all-Negro unit out of an Indian ambush.

★ ★ ★

His acting touched about every emotional base as he raced, back and forth, between hysteria and tranquility. In the end, Davis placed duty above prejudice, as expected.

THE CHANNEL SWIM: West Point cadets meet Annapolis middies on GE College Bowl Sunday, Nov. 29, (the last of CBS-TV's quiz shows.) This clash comes ope day after their traditional gridiron game at Philadelphia.

NBC-TV's Project 20 takes over the Sunday Showcase hour on Jan. 31 for "Not So Long Ago," a film re-creation of America at work and play during the years from 1945 to 1950 . . . CBS Radio presents the fifth annual "Christmas Sing With Bing" on Dec. 24 . . . Ethel Merman reports that 21 minutes of her one-hour NBC-TV special on Tuesday, Nov. 24, will be taken up by her 34 songs from Broadway shows . . . Frank Sinatra's guest roster for his ABC-TV special on Sunday, Dec. 13 now includes Ella Fitzgerald, Red Norvo and the Hi-Los . . . Dave King returns to his old summertime spot on NBC-TV Wednesday, Nov. 25 as a guest on the Perry Como Music Hall.

AUTHENTIC — Lee Remick, playing role of a depression widow, wears dress made of an old bedspread, on location at Charleston, Tenn. The picture, "Wild River," is being filmed by Elia Kazan and story concerns dam-building days of TVA.

Theater Couple Planning to Wed in Beverly Hills

LOS ANGELES (AP) — Film and TV actor Darryl Hickman and Actress Pamela Lincoln plan to merry Nov. 28.

They took out a marriage license Thursday.

The couple said the wedding will be at the Immaculate Heart Church in Beverly Hills. Hickman's brother, Dwayne, also an actor, will be best man.

Hickman is 28, Miss Lincoln 22.

Tin That Stretches Like Rubber Being Developed

WASHINGTON (AP) — Scientists are developing tin compounds that stretch like rubber and can be vulcanized. They say the new development may help meet space age demands for materials that resist heat and flames.

Dr. J. C. Montermoso, of the Quartermaster Research and Engineering Command, Natick, Mass described the new material today to chemists and engineers attending the International Rubber Conference.

Montermoso said the key element of the new material is tin, rather than carbon—which is used in most natural and synthetic rubbers. The material has the tongue-twister identification of "alkyl tin methacrylate polymers."

A state hospital for the insane, located at Williamsburg, Virginia, is believed to have been the oldest such institution, publicly-supported, within the limits of the U.S.

Motorists OK License Tabs

Hare Reports Surprising Early Rush for 1960's State Vehicle Markers

LANSING (AP) — Michigan motorists show no signs of displeasure at the date tabs they must fix to their old license plates in the 1960 registration year.

★ ★ ★

Secretary of State James M. Hare said today 37,374 tabs have been issued in the 10 days since sales began Nov. 1. Last year 39,860 full-sized plates were sold in a comparable period.

Hare said the brisk pace of tab sales was noteworthy since, in past years, many motorists always made their plate applications early to try to get low numbers.

Motorists must supply their own nuts and bolts to attach the 1960 tabs to the 1959 plates. Hare said it's a simple operation — only one nut and bolt is needed for each tab.

NO COMPLAINTS

Hare reported his office has received no complaints from drivers who might prefer new plates instead of tabs. He pointed out that Michigan motorists have become accustomed to seeing the tabs in use on out-of-state cars.

Some gripes are anticipated from drivers whose 1959 plates are bent or rusted. But, Hare noted anyone can order a new pair of plates for a $2 fee.

The tabs — with a green 1960 on a yellow background — are being issued for the first time since World War II.

★ ★ ★

Hare promoted their use as an economy measure. He estimated they will save the state $266,000 in the current fiscal year.

Commercial vehicles, subject to more wear and tear than passenger cars, still get new, full-sized plates.

Doolittle in Group to Advise on N-Use

WASHINGTON (UPI) — The Atomic Energy Commission (AEC) has named a 12-member advisory committee on peaceful uses of nuclear explosives, including Lt. Gen. James H. Doolittle who led the first World War II raid on Tokyo.

★ ★ ★

AEC Chairman John A. McCone said the committee was picked from the fields of science, government and business to advise the commission on its program, known as Plowshare, to turn nuclear explosives to peaceful uses.

★ ★ ★

The program was announced two years ago but none of the proposed experiments have been approved by the AEC. It has been suggested atomic explosives might be used to dig harbors or level mountains, among other things.

The Red Cross is the only volunteer society authorized to render aid to the Medical Department of the U.S. Army.

Hollywood 'Conspiracy' Hurts Television as Movies Rally

By ERSKINE JOHNSON

HOLLYWOOD (NEA)—There are signs that television has begun to slip from the pinnacle it has held as the nation's favorite entertainment medium.

Some TV fans are moving slower than others, but signs of mass unrest with home screen fare, other than news and sporting events, are everywhere.

Book publishers have sensed the revolt; book sales are up.

Movie makers and theater owners have sensed it; movie attendance is up.

Newspaper publishers have sensed it: advertising is up.

Why this seemingly overnight shift in the public's leisure time interests?

TV's rigged quiz shows certainly contributed. A poll in Broadcasting Magazine indicated the public's confidence in video programs dropped sharply after Charles Van Doren's appearance before the House investigations group.

TV's insatiable "we don't want it good, we want it tomorrow" demands have kept the overall quality of many programs too low.

TV also has failed to give its audience something new. The constant imitation of one Western after another, one private eye show after another has lessened the sense of excitement that once went with viewing.

★ ★ ★

But perhaps TV's biggest mistake was turning, for the third time, to Hollywood to help keep the lights burning in those little windows in the corners of America's living rooms.

Hollywood welcomed TV and then blackjacked it in a Dead End Alley of TV's own creation.

Television came to Hollywood — first for old movies to help fill time it couldn't fill. Then TV came to Hollywood for the help of its stars.

TV's third desperate trip to Hollywood — for hours of telefilms and for rights to reproduce old movies as "live" shows — was the visit that apparently blew the electronic fuse.

★ ★ ★

Hollywood's promise for this year's telefilms looked great on paper.

As recently as last September, I was among those hoodwinked about TV's future because of Hollywood's rosy film promise. So were TV fans who, because of old movies on TV, had never lost the Hollywood film habit. But while millions of TV dollars poured into Hollywood for filmed entertainment, showmanship and quality were forgotten.

Agents, sponsors and advertising agencies dictated the rules, copied each other — and flopped as TV film makers.

Hollywood's major studios grabbed TV's easy money and then failed to deliver film they are capable of producing because TV didn't want it and couldn't afford it.

Today the millions of dollars Hollywood took from TV for its old movies and the money it is taking right now for worse-than-B-movie telefilms are piling up in a giant Hollywood war chest. These millions are being used in an all-out effort to break the nation of the TV habit and return them to the movie going habit.

★ ★ ★

After 12 years, movie makers are back on their feet fighting a confused TV industry that doesn't know where to go next for entertainment to fill its time without becoming pay TV.

It it's any comfort, the TV industry can look at the history of mass entertainment in the U.S. over the last 30 years and find justification for saying, "We shall rise again." For certainly the movies have done just that a number of times.

The early silent movies killed the stage and vaudeville at the mass level. The silent movies habit was fading and then kept alive by the addition of between-movie stage shows, pit orchestras and giveaways.

The birth of the "talkies" revived the movie-going habit. Indoor sound movies were saved by outdoor sound movies in Technicolor. World War II escapism then brought movies their biggest prosperity.

★ ★ ★

In 1947, TV started to capture the public's fancy and by 1951 it had. Hollywood fought TV with 3-D and bigger screens. But TV was the bargain and people remained home and Hollywood suffered the blackest days in its history.

Today, Hollywood theater movies are roaring back as an entertainment force with films so adult that TV, except for news and sporting events, could become something conceded to the children in the home.

If history repeats itself, perhaps it will only be at that point that the TV industry will find and use the new ideas and approaches that could make it king again. The possibilities already exist.

The development of video tape has widened TV horizons even if most programming doesn't take full advantage of it.

And someday, they'll get the price of color TV sets down to where they'll attract mass consumer interest.

Obviously TV isn't going to disappear as an entertainment, information and advertising medium but if the current trend in viewer interest continues, it's going to have to make some changes.

Worms Destroying Their Brethren

ITHACA, N.Y. (UPI) — A disease which only worms contract is being used by entomologists at Cornell University to destroy cabbage loopers, a type of pest which attacks cabbage, cauliflower and broccoli.

★ ★ ★

A special virus, harmless to man and all warm-blooded animals, is given to several of the worms. They then start an epidemic that can kill all the loopers on an acre of crops.

"THEY SUSPENDED HER" — The Rev. Mr. Lasco Mitchell waves a letter of suspension given to his 15-year-old daughter, Eulene. Vigor High School in Mobile, Ala., took the action when the girl refused to attend physical education classes. The county school board turned down the minister's request that his daughter be excused from the class on religious grounds.

Sarnoff, Board Chairman, Speaks:

NBC for Quiz Shows — but Clean and Vigorous

NEW YORK (AP) — Robert W. Sarnoff, board chairman of the National Broadcasting Co., said Thursday that TV quiz shows should not be eliminated just because "irresponsible, fast-buck operators once infiltrated" some of them.

"The hard, not the easy, way for network television to respond to the quiz scandal," he said, "is to devise effective means of eliminating deception and to apply them with rigor and vigilance."

The approach differs from that enunciated recently by Frank Stanton, president of the Columbia Broadcasting System, who called for doing away with quiz programs dealing in big money and lavish prizes.

Sarnoff, speaking at a luncheon following the annual meeting of NBC television affiliates, described a new "television information office," set up by NBC to investigate areas of possible deceptive practices.

★ ★ ★

"The unit will not be a private police force," he said, "but an executive staff group which will help us separate the gray areas into black and white, into acceptable and nonacceptable.

"From it, we will see reasonable ground rules for safeguarding the integrity of our programming and practices."

He said stopping connivance in quiz shows will be a tough job, because as testimony before House investigation in Washington established, it is easy to rig a quiz show.

"A dishonest producer, a susceptible contestant alone in a room or a car — and the integrity of a program enjoyed by millions is in jeopardy.

★ ★ ★

"But however easy to rig, however hard to detect, we cannot avoid the task. A bank does not close down because of a dishonest teller, the treasury does not eliminate 20-dollar bills because counterfeiters make them."

★ ★ ★

He urged industry steps to challenge views that quiz show rigging typifies over-all TV services, and to counter any ideas that TV is just a "restricted mixture of a few entertainment palliatives."

There is a need, he said, to "delineate between the malpractices of the few and the constructive and fruitful efforts of the many in the TV industry."

Full name of symphonic conductor Leopold Stokowski is Leopold Antoni Stanislaw Boleslawowicz Stokowski.

Nemo's Projects Aim Toward Happinessville

By EARL WILSON

NEW YORK — On Broadway the other morning a character was heard declaring to another character, "You ought to hear the zava-zava they're putting down about you."

★ ★ ★

WILSON

"Zava-zava" is the latest creation of Henry (The Neem) Nemo, the corpulent composer credited with inventing "square," "cat," "in the groove," out of this world," "Be-bop," "solid," and all those slang words ending in "ville."

"Zava-zava" was coined by The Neem to replace all the four-letter obscenities in today's slauguage.

"A cat can put down the expression 'zava-zava' instead of some foul word he's been sending with, and nobody's offended because nobody knows what the expression 'zava-zava' means," The Neem was explaining.

The Neem blinked through his heavy glasses. "You could say 'Don't give me any more of your zava-zava.' Or, 'Don't put any more of that zava-zava down.' Or, 'Did you see that chick? That's a zava-zava of a cat'."

NEMO

The Neem is quite happy at helping humanity this way.

"It's already a very happy adventch," the man said. "Since everybody on our route is an echo chamber, so let 'em pick up."

The Neem hopes for help from Sid Caesar, a cat he had a lot of adventches with back in the school world, and also from Audrey Meadows, whom he calls "The Rock of," and from Joe Pasternak, one of the greatest cats in the Hollywood world. Unfortunately, Mario Lanza won't be around to pick up.

"I was always turning him on for happinessville out in Hollywood," The Neem remembered.

The Neem hopes zava-zava may be his monument because it'll sweeten that world world. "I just like to turn people on to happinessville," he beamed.

EARL'S PEARLS: Definition of a pedestrian: A man who didn't believe his wife when she told him the family needed two cars.

WISH I'D SAID THAT: A female is one who believes if you charge it, it's not spending, and if you add a cherry to it, it's not intoxicating . . . That's earl, brother.

Brothers Construct Old Time Cannon

WAUKESHA, Wis. (AP) — Arthur Williams and William Schuster, whose hobby is building and reconditioning historical firearms, have constructed a Civil War type cannon from scratch.

★ ★ ★

With no blueprints available, Williams, with caliper in hand, measured the cannon in a park here. The casting, shaping and drilling of the brass weapon were done at a foundry.

The cannon shoots accurately at 100 yards.

Reading studies indicate that a seventh grade child should read about 230 words a minute; a high school student from 260-300 words; and a college senior 300-350.

Poultry Farmers Expected to Get Big Income Hike

WASHINGTON (UPI) — Agriculture Department economists predict that poultry farmers will get a big boost in income next year — perhaps by as much as 12 to 16 per cent.

★ ★ ★

For 1960 as a whole, prices of broiler chickens and eggs are expected to average above this year's levels.

Gross income probably will rise 6 to 8 per cent with practically all the improvement going into net income because production costs are expected to remain the same.

Production of both eggs and broilers will be down in the first half of 1960. The department said this will lead to higher prices.

★ ★ ★

Prospects for the later part of next year will depend on production. The output of eggs late in the year is expected to rise to the 1959 level.

Broiler production also could go up later in 1960 if prices during the first half of the year are relatively good.

To enable the blind to read by touch, ancient Peruvians had a pioneer Braille system of their own. It was the quipu, a set of knotted strings that indicated words by varying knot sizes and the intervals between them.
