Red Story Belittles U.S. Offer on Sites

MOSCOW (AP) — The news agency Tass reported from Hanoi today that "Hanoi circles" found the U. S. proposal of 10 new countries as sites for first talks to be "far from constructive."

"In none of the 10 countries named yesterday by U.S. secretary of State Dean Rusk is the North Vietnam side likely to have equal conditions as compared with the American side," Tass said.

The Tass story noted that the United States had complained that Warsaw was not a neutral country, yet some of the countries proposed by Rusk are "far from being neutral, are actively supporting the United States in its war of aggression in Vietnam, for instance, Japan and Malaysia."

The United States objected to Phnom Penh because there is no U. S. Embassy there, Tass said, yet North Vietnam "has no relations with the countries suggested by Dean Rusk and no means of communication needed by the Vietnamese side."

Although the new U.S. proposal raised to 15 the number of nations it lists as acceptable locations for such talks, diplomatic sources in Washington were betting that Paris — not included in the newly padded total — would eventually be agreed on by both countries.

Noting the United States had already proposed Laos, Burma, Indonesia and India, Secretary of State Dean Rusk added six more Asian locations — Ceylon, Japan, Afghanistan, Pakistan, Nepal and Malaysia.

In Europe, he named the capitals of Italy, Belgium, Finland, and Austria in addition to the previously discussed Geneva, Switzerland.

President Johnson, returning from Honolulu consultations with President Chung Hee Park of South Korea, told newsmen that any site agreeable to him must provide U.S. allies with access to the talks.

North Vietnam said today, however, it does not want a South Vietnamese representative at the same table when it sits down for peace talks with the United States.

GOVERNOR VISITS — Emerging from City Hall this morning are Mayor William H. Taylor Jr. (left), Gov. George Romney and Police Capt. Donny Ashley. Romney met with city officials to discuss city problems and steps being taken to alleviate racial tension.

Report Is Denied

Did CIA Fire Ky?

SAIGON (AP)—Both the U.S. Embassy and Vice President Nguyen Cao Ky today denied a report being investigated by a Senate subcommittee that the CIA fired Ky for smuggling opium in 1963.

The report, made to the Senate Foreign Expenditures subcommittee, said Ky commanded air crews in a secret CIA operation flying saboteurs to North Vietnam and took advantage of the setup to fly opium from Laos to Saigon.

The U.S. Embassy said there was "no truth" in the story that Ky was removed from any position by any element of the U.S. government for opium smuggling or for any other reason.

Asked if the embassy had any information connecting Ky with opium smuggling, an embassy spokesman said only: "There is no truth to the allegation."

★ ★ ★

"The vice president just laughed when he saw the story," said a spokesman for Ky.

GROUNDLESS

He said it was groundless news, and there is no truth to it at all."

The spokesman added that Ky took part in the flights over North Vietnam, "but he would not get involved in smuggling. You know he pays no attention to matters about money."

The Senate subcommittee's staff director, Joseph Lippman, made the report available to The Associated Press in Washington with the stipulation that the source could not be identified.

★ ★ ★

Lippman said the report was considered highly reliable. The subcommittee is headed by Sen. Ernest Gruening, D-Alaska, a critic of U.S. involvement in Vietnam.

Phone Strike Effect Minimal

WASHINGTON (AP) — The AFL-CIO Communications Workers said their biggest telephone strike in 21 years was 90 per cent effective today in most areas of the nation, but telephone service remained near normal.

The strike had a minimal effect on the Bell System's nation-wide direct dialing network, but the American Telephone & Telegraph Co. said service was disrupted in several areas when cables were cut.

Operators, repairmen, linemen, clerks and other employes of Bell System companies have gone on strike in 15 states and the District of Columbia.

The Pontiac regional office of the company announced, "Management people are manning the switchboards and other vital facilities and we expect the handling of calls will be substantially normal."

"However, we urge customers to dial their own long-distance calls whenever possible."

LONG STRIKE SEEN

Joe Veresh, president of CWA Local 4012, said his unit, involving about 700 workers, will stay out as long as necessary. "I predict a long strike," he said.

About 200 workers appeared in front of the Bell offices at Mill and East Huron in Pontiac at 3 p.m. yesterday in a mass demonstration as the strike began nationally.

The strikers include 23,000 employes of

Romney Meets City Officials, Negro Leaders

Gov. George Romney — in Pontiac today to meet with city officials and Negro leaders — said he will meet tonight with presidential candidate Richard M. Nixon "to discuss national and international issues."

Romney said he intends to maintain contacts with all presidential candidates.

He said he thinks the Michigan delegation to the Republican nominating convention — to be elected April 27 — should remain uncommitted to any candidate until the convention is ready to meet.

He did not rule out the possibility of being a favorite-son candidate. "That's up to the delegation," he said.

★ ★ ★

Romney was to meet with Nixon at the governor's Bloomfield Hills home about 5 p.m.

THIS MORNING

The governor said he met with city officials this morning to find out "what is being done with the community's problems."

Romney visited a planned senior citizens housing site, a rent-supplement housing project now under construction and the Crystal Beach housing project before meeting at 10:45 a.m. with Pontiac Negro and civil rights leaders for a discussion of community problems.

The governor attended a luncheon with officials of Pontiac Motor Division to discuss the plant's job opportunity program.

Crime Rate in City Begins to Level Off

If the trend established in the first quarter of 1968 continues throughout the year, Pontiac's crime rate has begun to level off after several record jumps.

The crime index, which consists of the seven major "part one" offenses, is down 1 per cent through March of 1968, according to Pontiac police.

These crimes are murder and negligent manslaughter, forcible rape, robbery, assault, burglary, larceny and auto theft.

The sum of all of these offenses committed during the first quarter in Pontiac is only one less than through March of 1967. And the crime index rose 30.8 per cent last year.

But at least one encouraging pattern aside from the leveling-off is reflected in the current figures.

Except for rape, crimes which entail violence or the most direct threat of violence have been reduced.

Three murders — one fewer than through March of 1967 — have been investigated in the city.

Assaults are down 12 per cent and armed robberies have dropped by 61 per cent. All robberies, including strong-arm, are down by 60 per cent.

★ ★ ★

Eleven rapes during the first quarter of 1968 as opposed to three for the same period last year make this the fastest-rising crime — up 267 per cent.

Also showing an increase are auto thefts, up to 98.4 per cent, and larceny, up 28 per cent.

Burglaries are down 17.3 per cent.

Fed Raises Discount Rate

WASHINGTON (AP) — Americans face the prospect of harder-to-get loans at higher interest rates following the second increase in little more than a month in the Federal Reserve system's discount rate.

★ ★ ★

In what it termed an attempt to beat back accelerating inflation, the Federal Reserve Board stepped harder on the economic brakes in approving effective today a discount rate of 5.5 per cent for 3 of its 12 banks — New York, Philadelphia and Minneapolis. It had been 5 per cent.

The other nine banks are expected to follow in a move virtually sure to trigger higher interest rates on loans throughout the economy. A nationwide AP survey showed meanwhile that interest rates on home mortgages are nearing 8 per cent already in some sections and the cost of an average home has climbed about $2,500 since 1966.

The new rate is the highest since just before the 1929 stock market crash when it went to 6 per cent.

One government source said the boost from 5 per cent was not unexpected in view of congressional inaction on President Johnson's request for the 10 per cent income tax surcharge, pushed by the administration as an anti-inflation weapon.

BOOST IN MARCH

A boost in the discount rate from 4.5 to 5 per cent in mid-March was designed to stem inflation and cope with the gold crisis which reached its peak at that point.

No Europe ABM Setup

THE HAGUE (AP)—The United States and its major Atlantic allies agreed today that present circumstances do not justify an antiballistic-missile system to defend Western Europe against a Soviet attack.

School Aide Spells Out Disciplinary Procedures

(EDITOR'S NOTE — This is the last of two articles on discipline in the Pontiac School District.)

By DICK ROBINSON

Parents and many community resources are used by the Pontiac School District to help suspended students return to the classrooms.

But parents don't always respond to an invitation to discuss the child's school problems with a school principal, administrators report.

Asst. Supt. William Lacy explained that procedures for administrators to follow in disciplinary cases are spelled out in a nine-page policy.

It was first put into effect for secondary schools last school year and was extended to elementary schools this year.

The policy requires that a parent of a student whose classes are closed to him be notified of the punishment and is asked to meet with the principal.

STEPS ARE OUTLINED

The principal is to outline steps the students must take to return to school.

If the problem is not resolved within the two school days, the student is suspended. Parents again are asked to meet with the principal.

If the problem is not solved in 10 school days, the student's record is to be reviewed by the principal.

The principal is to:

- Determine that the board of education policies and procedures have been followed.
- Make sure all reasonable means have been used to help the student return to school.

The student then is to be suspended until the remainder of the semester if he has not returned to school five days after the case is referred to the principal.

Again the parent is invited to discuss the problem further with the principal.

RIGHTS DENIAL SEEN

"Currently, there is no appeal process in cases of suspension in many school districts," the Michigan Civil Rights Commission remarks. "This actually results in denying the student the Constitutional right to an education."

However, Lacy said, Pontiac students can appeal suspension decisions of a principal to the school superintendent and then to the board of education.

A student who is to be excluded has a right to a hearing before the board of education or school officer, Lacy said the school attorney has advised.

'White Views Must Change'

By BOB WISLER

The only thing that will end racial turmoil, discord and inequity in this country is a change of attitude by white America, Ramon S. Scruggs, personnel director-urban affairs, of the American Telephone and Telegraph Co. told a capacity audience at the annual Urban League dinner last night.

Scruggs, senior vice president of the

Related Story, Page A-2

National Urban League Board, was main speaker at the 18th annual Pontiac area dinner attended by some 400 persons at Oakland University.

Scruggs said he had come to the conclusion that racial problems will not fade, "that there isn't really anything the Negro can do about it," until there is this change in attitude.

"All of us — white, Negro, Protestant, Jew, Catholic, militant, moderate — must close ranks if we are to save this society," he said.

Scruggs, a 35-year member of the Urban League, said there are some encouraging signs — he mentioned the election of Negro mayors in Cleveland, Ohio and Gary, Ind., with white support.

"One hopeful note, and the most important, is that business leadership is beginning to understand and moving to do something about it (attitude)," he said.

But, Scruggs, cited a number of factors which he said show too little or no change — segregated patterns of housing locking Negroes into overcrowded ghettos, continued segregated schooling despite Supreme Court decisions, lack of job opportunities, judgments that Negroes are Negroes first and Americans second, perpetuation of myths about Negroes.

The myths must be destroyed or they will destroy America, he said.

Scruggs, in his speech and in a press conference earlier, made it clear that every Negro, from those who have been successful according to the nation's standards to those trapped in the despair of the ghetto, feels that the "American society has cheated and looted them and they seethe inside."

RAMON S. SCRUGGS

He said society is proceeding on false assumptions by believing that it is "dealing with a group of stupid people," or that the "black man is not creditable when he says, 'Give me liberty or give me death.' "

Scruggs said there "is potential for eruption everywhere."

The Negro, he said, before television, didn't realize "the extreme contrast between the white and black world. Now he has seen and realizes more fully the inequities," he said.

He also chided advertising for keeping the Negro "invisible," and out of sight and out of the minds of the majority of whites.

STILL STRUGGLING

Scruggs, who was raised and went to school in Nashville, Tenn., predicted that the urban south will solve its racial problems while Northern cities are still struggling with theirs.

Scruggs said he doesn't believe that violence will achieve anything for Negroes, but he said he understands well the rage that drives Negroes to violence.

He said Dr. Martin Luther King's death was possible because his killer believed that King's death was wanted and would be supported by white society.

"The job ahead for white America is to fulfill the dream of Martin Luther King," he said.

Light Rains Seen on the Weekend

There's a chance lawns and gardens will get a light sprinkling over the weekend.

The U.S. Weather Bureau forecasts the following day-by-day official report:

TODAY — Mostly cloudy and cooler. High 53 to 58. Cloudy and not so cool tonight with rain beginning late tonight. Low 46 to 50.

TOMORROW — Cloudy and a little warmer with occasional rain.

Precipitation probabilities in per cent are: today 10, tonight 40 and tomorrow 60.

A pleasant 46 was the low temperature in downtown Pontiac preceding 8 a.m.

The mercury reading was 68 at 2 p.m. p.m.

RFK Spending 'Heavy'

CHICAGO (UPI) — Sen. Robert F. Kennedy is spending "unprecedented" amounts of money in his drive to obtain the presidency, the Chicago Tribune said today.

★ ★ ★

The newspaper quoted an unidentified Indiana Democratic party official as saying the Kennedy forces have committed at least $600,000 to the Hoosier campaign and will be spending more.

Humphrey, Rockefeller Being Prodded to Announce

From Our News Wires

Vice President Hubert H. Humphrey among the Democrats and Gov. Nelson A. Rockefeller of New York among the Republicans are being prodded to join the run for the White House.

Humphrey has made clear he's ready to run — apparently it's just a matter of timing the announcement — while Rockefeller has been less clear on whether he will actually campaign against former Vice President Richard M. Nixon for the nomination.

Twenty-three leading Republicans, including Michigan Gov. George Romney, have agreed generally that Rockefeller should formally declare his presidential candidacy "very soon."

A spokesman for Sen. Jacob K. Javits, R-N.Y., who called the GOP meeting yesterday, said the concensus of the discussion was that Rockefeller should be urged by all to move fast.

Sen. Thruston B. Morton, R-Ky., a leader in the drive to get Rockefeller into the race, said the meeting produced "gratifying" reports of nationwide backing for the New York governor.

"I have talked to him and I'm convinced Nelson is in the mood to go right now," Morton said. "But there are some fence-sitters around the country who want to hear him say he'll see it through."

Romney, it was learned, joined in the consensus that Rockefeller should make it clear quickly he will be a committed, aggressive candidate.

Romney has so far refused to endorse anyone for the GOP nomination since he dropped out of the race Feb. 28. He declined to say whether his presence of the meeting meant he would now come out for Rockefeller, who once was strong for Romney.

★ ★ ★

The Michigan governor was scheduled to meet privately with front-runner Richard M. Nixon at a dinner at Romney's Bloomfield Hills home tonight.

CANDIDACY RAPPED

Morton said the presidential candidacy of Sen. Robert F. Kennedy, D-N.Y., "has a lot of people in the business and political community very much worried."

Romney was the only governor present. Sens. Morton, Clifford P. Case, R-N.J.; John S. Cooper, R-Ky.; and Edward W. Brooke, R-Mass.; attended along with New York Reps. Charles E. Goodell and Ogden R. Reid.

Javits' office said the senator spoke to "a number of governors" by telephone about the meeting, but that most were tied up with other business and are being briefed on the session.

★ ★ ★

Also present were former GOP National Chairman Leonard W. Hall, J. Irwin Miller, chairman of the Draft-Rockefeller Organizing Committee, and Detroit financier Max Fisher.

AIDES AT MEETING

Hall was chairman of Romney's short-lived campaign, and Fisher for years has been Romney's chief fund raiser.

Sen. Eugene J. McCarthy, fighting Sen. Robert F. Kennedy for the Democratic nomination, said in Bloomington, Ind., Humphrey should announce now if he plans to campaign in support of U.S. policy in Vietnam — a policy McCarthy opposes.

Inconsistency of Parents Topic of Discussion

By LOIS FRIEDLAND

The inconsistency between what parents demand of their children and how they themselves act is the main gripe of kids today. This problem and how to solve it was the topic of discussion at last night's Family Service of Oakland County annual banquet at Devon Gables.

★ ★ ★

Some 150 persons listened to the discussion led by Dr. Norman Kagan, a professor of educational psychology at Michigan State.

Assisting him was a student reactor panel including Cecilia Brown, 17, of Pontiac Central High School and Brian Goring, 18, of Royal Oak Dondero High School.

Grant N. Howell, managing editor of the Royal Oak Tribune, was elected president of Family Service at the meeting. Others elected were Robert Seaton of 33654 Alta Loma, Farmington; vice president; and Stanley Badelt of 331 Roanoke, Bloomfield Township.

★ ★ ★

Newly elected board members were Paul N. Averill of 1497 Loch Ridge, Bloomfield Township, Richard Craig of 35 Pleasantview, Dr. Harvey Burdick of 190 Ottawa, Mrs. Stephen Miller of 3550 Larkwood, Bloomfield Township, Charles J. Snell of Pleasant Ridge and Alex Seskin of Huntington Woods.

BECOME FRIGHTENED

Parents try to instill ideals and values in children, but when they stand up and 'be' what parents tell them parents are scared because they're afraid the children will be nonconformists, explained Kagan.

The panel suggested that "turning on" was one way some youths attempted to escape the current scene and to create a new morality through the heightened perception caused by drugs.

Dropping out of school and illegitimate pregnancy are other ways taken by youth to react.

Kagan pointed out that youth is no longer needed by most adults except to help clean house or mow the lawn — and the young people know it. Several of the audience agreed that this situation was created, in innocence, partially by their wanting to give children everything they didn't have.

New Visiting Hours at Pontiac General

New visiting hours go into effect Monday at Pontiac General Hospital. They were set last night by the board of trustees.

Requested by Hospital Administrator Harold B. Euler, the new hours will be on a one-month trial basis.

★ ★ ★

Instead of noon to 8 p.m. hours, visitors will be allowed between 11:30 a.m. and 1:30 p.m. and 4 and 8 p.m.

Euler requested the change in hours because the hospital's current building program has severely taxed the hospital's parking facilities.

For Community Service

Urban League Honors 3 in City

The Pontiac Area Urban League last night presented awards for outstanding community service in the past year to Mansfield C. Samples, Mrs. Marie Johnson and Joseph Durant.

BARNES

Executive director, Clarence E. Barnes, of the Pontiac Area Urban League, received a special award from 10 Pontiac organizations for "outstanding service working with community organizations for better human relations."

Samples, a Pontiac Motor Division employe, was honored for his work as chairman of a committee which worked with more than 300 "unemployables" hired by Pontiac Motor under a special job opportunity program.

Mrs. Johnson, a local bondswoman, received an award for working with young Negroes last summer to help quell disorder during the city's only civil disturbance.

Durant, who with his partner, Ernest Kent, manages K-D TV sales and service at 506 S. Saginaw, was cited for his role in organizing Harambee, Inc., an all-Negro nonprofit organization formed to develop and rehabilitate housing in the southwest section of the city.

PARTNER GIVEN CREDIT

Durant acknowledged his partner for his role in the formation of Harambee.

E. Eugene Russell, past president of the Urban League, presented the three awards.

The award to Barnes was given on behalf of the Rema Club, the NAACP, the Oakland County Ministerial Fellowship, Voice of Oakland County Action League, POOBY, Harambee, Inc., Les Bon Hommes, the Negro Professional and Businesswomen's Club, the Pontiac Varsity Club and the 761st Tank Battalion.

Also cited for past service by the league were retiring board members William Jenkins and Mrs. Laura Carey and deceased board member Mrs. Lazette Baker.

ICC Subpoenas Bank Officials

WASHINGTON (AP) — An Interstate Commerce Commission examiner subpoenaed top officials of five banks and brokerage houses today.

★ ★ ★

They were ordered to supply voting and ownership records of hidden stockholders in a group of western railroads.

It was the first time a commission official had gone so far to clear up the question of who actually owns some of the nation's largest railroads.

Examiner Nathan Klitenic issued the subpoenas in the case of the Chicago, Rock Island & Pacific Railroad.

★ ★ ★

Several midwestern lines are seeking to control—or in some cases, dismember it.

ORDER SHOCKED SOME

Klitenic shocked some of those present at ICC hearings on the case when he ordered supplied to the commission the names and addresses of the real owner of 1,000 or more shares of stock in the Union Pacific, Southern Pacific, Santa Fe, Chicago & North Western and the Denver & Rio Grande Western railroads.

He issued subpoenas to Francis J. Lyons, partner in Hold & Co., Washington; Arnold McCullough, partner in Cudd & Co., New York City; T. C. Lewis, partner in Sigler & Co., New York City; Eugene Banks, partner in Brown Brothers Harriman & Co., New York City, and James E. Thompson, president, Merrill Lynch, Pierce, Fenner & Smith, New York.

Charge Ohioan in Area Murder

An Akron, Ohio, youth was charged with murder today in the slaying of an Oak Park insurance man whose body was found in a field in Pontiac Township Feb. 19.

Oakland County Sheriff Frank Irons identified the suspect as Richard Broughton, 20.

Det. Harry Maur said that at least two more persons are involved in the murder of George Cobitz, 50, of 23311 Coolidge, but that warrants have not yet been issued.

Two detectives from the Oakland County Sheriff's Office, Fred Pender and Harry Jones, are in Akron today questioning Broughton.

It was not expected that he would immediately be returned since he has indicated that he would fight extradition, according to Maur.

Police were led to Broughton, according to Maur after receiving information from two other men arrested earlier this week in Cleveland, Ohio.

They were in possession of Cobitz' car and several credit cards.

Maur said that while they probably would be charged with conspiracy to possess a stolen car, they are not believed to have been connected with the death.

They have been identified as Richard Zebb and Rawleigh W. Banks, both of Cleveland.

Blood-Donor Setup Keeps Girl Alive

Timing is crucial in keeping a little 5-year-old girl with a rare blood disease alive and on her way to being cured.

A system has been organized so Sally Harrington, daughter of Mr. and Mrs. Emanuel Harrington, 3991 Perkins, Waterford Township, can have daily doses of fresh platelets — an element in the blood which allows it to clot.

Donors are asked to call the Michigan Community Blood Service, 3112 Woodward, Detroit, to make appointments for giving blood.

An organized system of blood donations is necessary because platelets are fresh for only six hours after taken from a donor. Sally, in St. Joseph Mercy Hospital, requires platelets from at least eight donors a day.

Bell Strike Disruption Minor

the Bell subsidiary, Western Electric Co., who install telephone equipment in most areas of the nation, and some 140,000 Bell System telephone operators, clerks, repairmen, linemen and other employes in 15 states and the District of Columbia.

The union has rejected company offers to increase wages 7.5 per cent over 18 months.

The Bell system said the union is demanding 12.5 per cent. Telephone installers now average $3.27 per hour and Bell System workers average $2.79.

While conceding the strike will have little immediate effect on most telephone service, Beirne said that if company officials thought they could maintain the $30 billion, highly computerized nationwide system for long without the strikers, "they must be taking something somewhat stronger than LSD."

Striking CWA members in Atlantic City, N.J., injected a bizarre note into the walkout by picketing a telephone pole—after first removing a ladder and thereby trapping a foreman working atop the pole.

President Calls Off Speech to Congress on Urban Problems

AUSTIN, Tex. (AP) — President Johnson has called off a planned speech to Congress that many had felt would include sweeping new attacks on big-city problems.

He told newsmen Thursday while flying home from California that since he had originally scheduled the address, Congress has passed a civil rights bill with a strong open-housing section. He said he therefore no longer sees any need for a special address to a joint congressional session.

★ ★ ★

Johnson announced April 5 he would appear before Congress. This word came a day after the assassination of Dr. Martin Luther King Jr. However, the President postponed his April 8 speech when he learned later that the slain civil rights leader's funeral was not to be held until April 9.

Johnson had said he would make recommendations and suggestions for action—"constructive action instead of destructive action in this hour of national need."

CONGRESS PRESSURE

There had been speculation Johnson would propose major programs to meet the needs of the cities, many of them swept by violence following King's slaying. But it was also widely noted the chief executive already was under congressional direction to cut spending in the face of a mounting deficit—a price he had said he was willing to pay for enactment of his proposed 10 per cent surcharge on income taxes. That proposal is still before Congress.

The President, who resumed his vacation stay at the LBJ Ranch, was watching for a break in negotiations with North Vietnam over where peace contacts should be made.

★ ★ ★

Appearing relaxed on his return from a three-day Hawaiian trip, Johnson reported his talks there with President Chung Hee Park of South Korea were "very helpful to both" of them.

The President indicated he did not foresee a summit conference of Saigon allies prior to the launching of any serious peace talks with Hanoi.

'VERY IMPORTANT'

But, he said, "It is very important we maintain close contacts. In the days ahead we will be meeting with the various ones (allies) periodically."

As the State Department in Washington proposed 10 new possible sites for negotiations with Hanoi, Johnson emphasized four conditions "you have to have" anywhere talks are held:

- Adequate and presumably secure communications for the negotiators.
- Available diplomatic representation for all governments involved in the Vietnam war.
- Access for news coverage.
- A spot where neither side would have a psychological or propaganda advantage.

First Program Set for Parents of Students

The first in a three-part series of programs for parents of children in the Waterford School District will be presented Tuesday by the Waterford Township Youth Assistance Committee.

"Narcotics, Sex and Respect for the Law" will be the topics discussed at the initial session. All the meetings will be held at the Cherokee Hills Elementary School, 2690 Wewoka, beginning a 7:30 p.m.

The guest speakers at the first meeting will be Charles Woodruff, an Oakland County assistant prosecutor; Gerald St. Souver, investigator for the prosecutor's office; and Sherwin Sokolov, a county psychologist.

Rev. Alden M. Hathaway, associate director at Christ Church Cranbrook will discuss "Value Differences Between Generations" at the second meeting April 30.

The final program, May 7, will have Dr. Robert Williams, director of counseling services of the Oakland County Board of Education, discussing "Problems Parents Cause in Their Children."

Mrs. Norman R. Pankner, 3181 Whitfield, Waterford Township, is program chairman.

Millage Division Time

Budgets in Fantasyland

By L. GARY THORNE
Assistant City Editor—Suburban

It is "Alice in Wonderland" time for most school boards, township boards, the intermediate school board and county government officials.

The occasion is the annual division of the 15 mills allocated to carry on the aforementioned government. The division is accomplished by the County Tax Allocation Board, which met Monday for the first time this year.

News Analysis

According to state law, the allocation board must meet each year on the third Monday in April. Thus, local units must transmit their proposed 1968-69 budgets by that date, which tends to add—for several reasons—a bit of fantasy to the budgets.

The major reason for the fiction is that the local units — school boards, township boards and the like — do not know what tax base they have upon which to spread the allocated millage.

The equalization process, whereby the tax base is established each year, does not take place until May. The tax base always changes mostly upward, but local governments only guess at the outcome.

BOUND TO BE WRONG

Naturally, the tax base determines how much actual money will result from a given amount millage.

In drafting their budgets, school and township officials can project an increase in the tax base or use last year's valuation. In either case they are bound to be wrong.

School officials, of course, must deal with still another imponderable, namely, state aid. Distributed on a per pupil basis, state aid also fluctuates from year to year, which in itself is complicated.

* * *

In addition, the actual head count to determine the total amount of state aid each year is not accomplished until the fourth Friday in September.

PUNCH LINE

The punch line for the whole maze is that the fiscal year for school districts begins July 1 and for townships on April 1.

Faced with this system and always hopeful of the maximum of amount from the allocation board, local governments tend to present dream budgets to the board, knowing, of course, that adjustments will be necessary later.

The allocation board adheres to a traditional pattern and does not radically alter the division of the 15 mills from year to year, which is at least something constant in the guessing game.

* * *

It perhaps is a legitimate question to ask why government officials don't solicit a change in state laws, but then maybe there is a place for levity in the serious business of government.

Romeo to Vote on $2.3 Million in School Bonds

ROMEO — A $2.3-million bond issue will be on the June 10 ballot in this school district.

The board of education has voted to schedule an election on the issue at the same time as the regular board election. A separate proposition will ask authorization for an additional $175,000 in bonded funds for a new athletic building at the high school.

An elementary school with 18 classrooms, two kindergarten rooms, and added instruction areas would account for $849,000 of the package, the highest single expenditure.

Also included in the program would be a vocational wing and larger cafeteria and kitchen facilities at the high school; four additional classrooms; offices and relocation of the homemaking area in the junior high school; and the addition of instructional areas and offices to Croswell Elementary School.

A citizens' advisory committee appointed to study building needs of the district recommended many of the changes which would be provided if the bond issue is approved.

In other business, the board authorized the hiring of a full complement of 154 teachers for the 1968-69 school year.

Previously, the board had directed Supt. of Schools T. C. Filppula to draw up a budget based on a limit of 130 teachers, because of the district's financial difficulties.

Citizens also are slated to vote on a request for operating millage at the June 10 election, to be divided into 5 mills additional and 3 mills renewal.

Requests for 8 mills failed in November and January. Filppula said recently that the district faces a $300,000 deficit by the end of next year, without any changes in program.

All that he included in preparing the projection, Filppula said, was increments in the present teacher salary schedule, and the addition of new teachers to bring the staff up to its recommended level.

The superintendent estimates the cost of the bond issue in terms of millage at about 4 mills. However, since the amount being levied for earlier issues will be decreased by about 2 mills during the coming year, the total cost to the taxpayer "shouldn't be much over 2 mills," Filppula said.

Few Road Improvements Planned by Oxford Twp.

OXFORD TOWNSHIP — Little in the way of road improvements is contemplated in the $81,380 budget adopted for 1968-69 by the Township Board.

Supervisor Lee Valentine said only about $1,000 of the $2,500 township improvement fund would be spent on roads.

He added that if the county did not come up with additional road monies, the township was thinking of requesting a special road millage.

The 1968-69 budget is about $10,000 over 1967-68.

* * *

Valentine said $13,000 has been budgeted for fire fighting in 1968-69. The township does not have a fire-departmentand pays the village of Oxford for fire protection.

RUNS ARE COSTLY

Each run costs about $175, said the supervisor. In the past, he explained, the annual cost has been about $9,000 to $12,000. Numerous recent grass fires have increased the annual firefighting bill.

According to the supervisor, thenew budget includes pay raises of $1,200 for himself, the clerk and assistant clerk. Their new salaries will be $6,600, $5,600 and $5,600 respectively.

The treasurer is to get $200 raise, to $3,800. Trustees are to receive a $5 raise, $20 per meeting.

The park fund, financed by a .75-mill levy, would get $15,000 in the new budget, the same as in 1967-68.

Income for 1968-69 is projected at $73,700, compared to $71,094 the previous year. Valentine said the budget includes a balance of $22,589 from 1967-68.

Milford Township Budget Shows Revenue Increase

MILFORD TOWNSHIP — The approved preliminary budget for 1968-69 for this community appears to be much the same as that of 1967-68.

However, a breakdown of expenses and income shows a major difference to be an increase of tax revenue.

Anticipated tax revenue for 1968-69 comes to $76,793. The township took in $71,712 in tax revenue during the fiscal year which ended March 31.

The reason for the increase is more construction in the township, explained Township Supervisor William L. Mainland.

* * *

The 1967 county equalized valuation was $23,388,500. The valuation for 1968 is anticipated to be $24,761,600.

Besides tax revenue, the township starts the fiscal year off with a balance from the previous year. The 1968-69 budget calls for a carry-over of $3,829, making a total working base of $80,622.

The 1967-68 budget began with a carry-over of $8,228 and a total working base of $79,941.

Anticipated expenses for 1968-69 are $76,443, leaving a $4,179 balance. Disbursements last year amounted to $76,111 including capital outlays for cemetery equipment.

* * *

The budget going to the Oakland County Tax Allocation Board includes a request for a continuation of the 1.38-mill allocation.

Library Millage Put on Tax Bill

MILFORD TOWNSHIP — After 39 years, the financial uncertainties plaguing the library here are expected to end with the 1968-69 budget and tax levies.

A half-mill approved in 1929 just for the library will finally be put on the tax bill in December.

This means that 50 cents of every $1,000 assessed valuation will be collected for library operation.

However, since 1929, the library has received funds from an allocation made by the township after the taxes were collected. Usually, this amount was about what the half-mill would have brought in.

* * *

In 1967, the allocation was $11,000 or about a half-mill. Next year, the library is assured of nearly $12,000.

STABLE FINANCES

The stability of library finances came about through an opinion of the state attorney general. Once the library board found a record of the vote in a 1929 newspaper, the attorney general declared that the tax was still valid. Residents at the annual township meeting agreed.

* * *

Mrs. Bartlett Smith, library board chairman, said she isn't too sure why the tax has never been levied.

Police Sift Clues in Imlay Murder

IMLAY CITY—Police are still checking leads and sifting clues but have not yet found the killer of a 28-year-old St. Clair woman whose body was found near this village two weeks ago.

A spokesman from the Lapeer County Sheriff's Department said this morning that investigators had "nothing definite to report" in the murder of Mrs. Sylvia Ann Langowski.

* * *

The woman's body was discovered in a vacant house on Graham Road in Imlay Township April 4.

At that time, examination by Dr. Leon Borouch, Lapeer State Home pathologist, revealed that she had been dead for two-to-four months.

Scouts to Clean Banks of River

FARMINGTON — The 100 Boy and Cub Scouts to be seen around the banks of the Rouge River tomorrow aren't on a fishing trip.

They're spending the first of three consecutive Saturdays cleaning up the refuse in and near the river.

It is part of a project to make a nature trail along the river from Grand River and Powers to Shiawassee. Most of the trail is in the city park.

Hartley Thornton, a city resident and the naturalist at Proud Lake Recreation Area, has interested several groups in the project.

Area junior high school students in a junior conservation club are studying the water and soil in the nature trail area.

* * *

Junior high science and biology classes are studying the area's plants and animals.

Local garden clubs will spruce up the banks after they are cleaned by Scouts.

The project won't cost the city anything, said Thornton.

Fund Vote Tuesday for Lapeer County

Residents of Lapeer County will go to the polls Tuesday in a special election on the question of applying general fund money to improvements at the county's general hospital.

There will be no additional tax levy involved, because the $600,000 involved has been accumulated in the fund over a period of time.

* * *

However, the authorization of citizens for the expenditure is required by law. The hospital proposition will be the only one on the ballot.

Oxford Schools Receive Bond Bids

OXFORD — Bids have been received on $2.5 million in bonds to finance construction of a junior high school and additions to three elementary schools.

Detroit Bank and Trust Co. was the lowest of four bidders with an interest rate of 5.05 per cent.

Construction is to get under way later this year.

Committee Says in Progress Report

Detroit 'Still Critical' Racially

DETROIT (AP) — The racial situation remains critical and Detroit is too little changed from the city that exploded into the nation's headlines in July 1967, the New Detroit Committee said yesterday in a progress report.

The goals of social progress that were enunciated in the wake of the riots last year remain largely unfilled, the report said, adding that "in every area Detroit must do more."

The committee asserted, however, that "if we are willing to pay the price in the terms of energy and money, the urban crisis can be solved."

The New Detroit Committee, which numbers some of the city's top industrial, labor and civic leaders among its members, was appointed by Mayor Jerome Cavanagh and Gov. George Romney to help the community tackle the problems which caused last summer's riot.

The committee came up with a series of recommendations and said that in every sector of need, new programs must emerge.

CHANGE, CREATION

Among other things it said that existing agencies must change or be replaced and new local agencies and institutions created.

* * *

"In many cases, the very agencies that have been charged with ministering to the needs of the poor have in themselves become major irritants, the report explained.

It said that, to many Americans, racism merely means active bigotry and discrimination but that racism in reality and practice is more subtle.

* * *

It is the belief that because you do not hate you have not harmed anyone, the committee commented.

COMPLEX, COSTLY

"The crisis of the city is a complex and costly one," the committee said, adding that Detroit alone cannot solve the problem.

It will take money in amounts only the federal government can supply, it said, and will take the cooperation of both private and public interests to provide steady jobs, adequate education and decent homes.

* * *

To ease tension, the committee proposed passage of open occupancy and landlord - tenant bills, revised housing and building codes, a state rent-supplement program for low-income families and power for the State Housing Development Authority to provide mortgage loans of up to 10 per cent of the cost of housing.

Walled Lake to Air Water Payments

WALLED LAKE—Residents have the chance to voice opinions on how they will pay for the projected citywide water system.

A public hearing on the proposed ordinance dealing with the system's financing is set for Tuesday at 7 p.m. in the Walled Lake Junior High School cafeteria, 615 N. Pontiac Trail.

* * *

First reading of the ordinance was held several weeks ago. Second reading is expected at a meeting some time after the public hearing, said a city official.

Two readings are required before the council can vote o nthe proposed ordinance.

HOLLY ACHIEVERS — Members of the Holly Achievers 4-H Club display some of the projects they have prepared for Oakland County Achievement Day, to be held tomorrow at Pontiac Northern High School. Present were (from left) John Miller, 11; Nancy Prose, 10; Roger Payne, 11; and Tina Hillman, 11, along with the projects in each of the areas worked on by the club — foods, clothing, arts and crafts and dog obedience. The Achievement Day will open at 9:30 a.m., with the dress review scheduled for 7:30 p.m.

Profession and Private Life

Soviet Woman Doctor Busy

MOSCOW (AP) — Up to half a doctor's day in this bureaucratic society must be devoted to filling out forms and other paper work.

This is disclosed in a detailed report of a Soviet doctor's life, given in the newspaper Komsomolskaya Pravda.

★ ★ ★

Dr. Svetlana Parkhomenko makes 105 rubles or $116.67 a month, so she is about as well off as a typical teacher.

Dr. Parkhomenko works at a polyclinic, as do about two-thirds of this country's doctors. The polyclinics are like outpatient centers at Western hospitals.

TREATMENT FREE

Treatment is free, though the patients have to buy some of their own medicine.

Dr. Parkhomenko is expected to handle five cases an hour at the clinic, No. 32 in the Zhdanov district of Leningrad.

★ ★ ★

House calls to bedridden patients, which take more time because of the distances involved, average 30 minutes each.

Dr. Parkhomenko, 30, received the normal six years of medical education after being graduated from high school. She married an army officer, Stanislav, and they have a 7-year-old son who is looked after at his school. After her day at the clinic the doctor has to shop, prepare the family dinner and do housework.

MOVED AROUND

The couple has moved around a lot because of the husband's military career. Their apartment is filled with secondhand furniture picked up along the way.

Dr. Parkhomenko hopes eventually to do postgraudate study and become a specialist, which would mean better pay and less routine.

A woman going into medicine is no rarity in the Soviet Union. It boasts 26 doctors per 10,000 people, against 1 per 10,000 in the United States, and three-quarters of these are women.

Dr. Parkhomenko said she lost her temper only once, shortly after starting practice, when she shouted at some noisy patients waiting to see her. She decided then that "When the doctor quarrels with his patients it is, in the final analysis, the doctor who is to blame."

Her aloofness shows in her refusal to use the familiar personal pronoun "ti" in addressing patients. A colleague commended this, saying "It is dangerous for a doctor to cross over a certain line."

'Peace' Faces Ho Credibility Gap

Two can play the credibility gap game, as Ho Chi Minh is demonstrating in the rush of events following President Johnson's partial bombing suspension and fresh bid for peace talks.

Although at first denouncing the President's offer as a fraud, Hanoi later announced it was willing to send envoys to meet with U.S. officials to discuss "the unconditional cessation of bombing and all other acts of war."

★ ★ ★

The words "unconditional" and "all other" are kickers that should be sufficient warning not to get our hopes up too high.

Some of the bitterest and costliest fighting of the Korean War took place after the Communists agreed to begin talking about an armistice. And, no one should need reminding, a permanent settlement to that war has not yet been achieved.

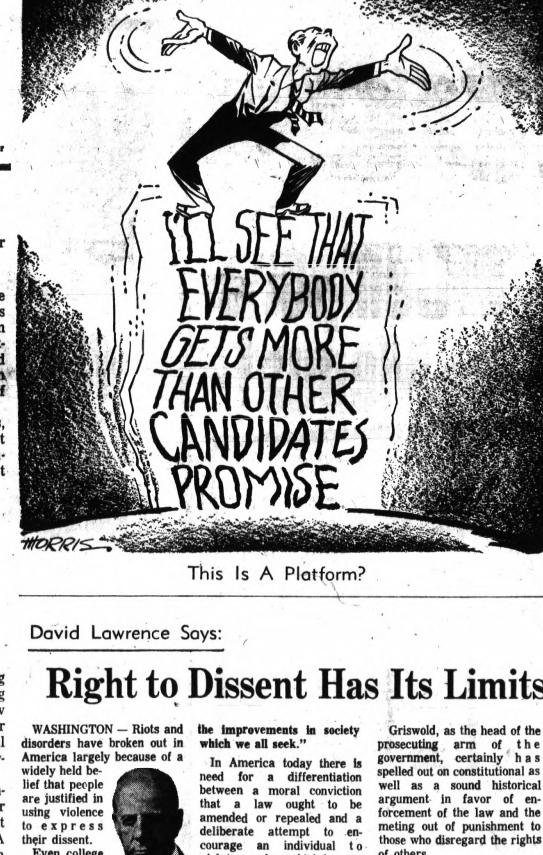
★ ★ ★

Neither should we forget that the widest credibility gap which remains to be spanned is and always has been the belief or hope that North Vietnam would allow an independent and popularly governed South Vietnam to long exist after the withdrawal of American forces.

As Johnson said in his address, "The United States will not accept a fake solution to this long and arduous struggle and call it peace"—at least, not during his presidency.

★ ★ ★

About that, there should be no credibility problem whatever, either on the part of Americans or the North Vietnamese or anyone else.



This Is A Platform?

'Revenooers,' Moonshiners Still Feudin'

America's longest running feud, that between the moonshiners and the "revenooers," goes on.

According to the Licensed Beverage Industries, Inc., government statistics show that approximately 55.7 million gallons of illegal liquor were produced in 1966. This represented an estimated loss in public revenue of $477 million.

A total of 17,774 illicit stills were seized by Federal, state and local lawmen that year.

★ ★ ★

While moonshine production was down by more than three million gallons from 1965, production per still was up nationally by the interesting figure of 3.2 per cent. In the "moonshine belt" of 12 Southeastern states, production increased by 6.9 per cent.

The trend is toward larger, better concealed stills and big-business-type systems of production, wholesaling and retailing—modern in everything except quality and purity. Better law enforcement methods and stiffer punishments are sending the illegal operators farther underground, literally.

One still was found in an abandoned coal mine in Alabama. Another was discovered at the newly built Georgia Raceway in Peach County. A trapdoor in a dummy ticket booth opened into a 125-foot tunnel that led to the bubbling still.

★ ★ ★

The State Alcoholic Beverage Commission of Tennessee has purchased a twin-engine plane to help ferret out above-ground operations. Some moonshiners have countered by renting helicopters to check on their camouflage.

The feud goes on, for as long as people continue to buy the rotgut, there will always be someone around willing to take their money.

Deadly Weapon Aimed Against Dutch Elm Disease

The Dutch elm disease that has been ravaging America's magnificent elms for nearly 40 years was an unwanted immigrant from Europe.

Now another organism from across the Atlantic is being encouraged to take up residence in this Country in hopes of saving the remaining trees from almost certain extinction.

★ ★ ★

Tiny European wasps, credited with checking the disease in Europe, are being bred by the millions in American laboratories, reports *Organic Gardening* magazine. The wasps lay eggs next to the larvae of the elm-bark beetle, which is responsible for spreading the fungus blight. Upon hatching, the wasp larvae feed on the beetle larvae and destroy them.

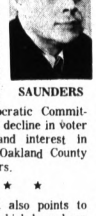
The wasps will be a welcome ally, not only to tree-owning individuals and communities who have been spending many thousands of dollars a year for the removal of infected elms and the chemical spraying of healthy ones, but to those who fear that the widespread use of pesticides may have consequences much more undesirable in the long run than the loss of the elms.

Registration Key to Voter Turnout

By DICK SAUNDERS

What can we do to improve our voting record?

We need to make it easier for people to register and to vote and then seek means to get them to the polls.



SAUNDERS

Yesterday I outlined figures in a study and report made last year for the Oakland County Democratic Committee showing a decline in voter registration and interest in Pontiac and Oakland County in recent years.

★ ★ ★

That report also points to some efforts which have been made to spur voter registration and recommends further steps which might improve our voting record.

Various efforts have been made by the Democratic and Republican parties, the Pontiac Area Urban League and the AFL-CIO. The last two have been limited primarily to Pontiac and of all four the AFL-CIO registration drive seems to be most effective.

Yet, the total registered voters in Oakland County and Pontiac has continued to decline while the population increases.

The report suggests some interesting changes in state laws to spur voter registration and involvement.

- Put registration back on a four-year basis. The two-year legislation passed in 1964 is designed to help the clerks in keeping their records up-to-date . . . but it is a definite hinderance to people trying to exercise their right to vote.
- Permit 18-year-olds to vote. Closing the gap between the time students study about government and actually participate in it would increase interest in government and the number of registered voters.
- **Initiate a system of reciprocal registration. This means a person could register in any community and his registration would be forwarded to the clerk in his home community (currently, a person must register where he lives).**
- Carry this a step further and put a central office in charge of all registration, doing away with all local files. A person could register anywhere — with his auto registration, his income tax return, at work, etc. His registration would go to a statewide central office which would then forward registration lists to municipalities and townships.
- Move the registration date closer to the date of voting. This would take advantage of the growing interest in elections generated by campaign issues and candidates.

For more immediate results, working within existing laws, the report recommends a planning committee be initiated to organize a countywide bipartisan voter registration campaign with an executive committee on which all major interest groups in the county are represented.

The county clerk, city, village and township clerks would also be closely involved from the early stages.

The report recommends active support by newspapers, radio and television and utilization of the public relations and advertising expertise available in Oakland County.

★ ★ ★

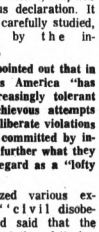
Special efforts should be directed toward the poor and schools should be utilized to communicate the importance of registering.

Until some of these steps are undertaken, it seems that issues important to many will continue to be decided by far too few.

David Lawrence Says:

Right to Dissent Has Its Limits

WASHINGTON — Riots and disorders have broken out in America largely because of a widely held belief that people are justified in using violence to express their dissent.



LAWRENCE

Even college professors, clergymen and others who are well-educated have openly proclaimed that disobedience of a law which is disliked is morally right.

It is significant, therefore, to note an address which has just been delivered by Erwin N. Griswold, the solicitor general of the United States — the man who has to prosecute cases in court on behalf of the Department of Justice. He was formerly dean of Harvard Law School.

His speech this week at the Tulane University School of Law in New Orleans, La., was a momentous declaration. It ought to be carefully studied, particularly by the intellectuals.

Griswold pointed out that in recent years America "has become increasingly tolerant of the mischievous attempts to excuse deliberate violations of the law" committed by individuals to further what they personally regard as a "lofty cause."

He analyzed various examples of "civil disobedience," and said that the latest manifestation of "grim, mindless destruction" in more than 100 cities indicates that the national temperament has become "too much acclimated to violence as a method of social protest."

While conceding that there is, of course, a "right to dissent," Griswold insisted that the Constitution and the laws of the land make clear that the right to differ has limits.

MORAL FERVOR

Griswold referred to the moral fervor of some demonstrators and declared that experience has shown that the ultimate legal success as well as the moral quality of civil disobedience depends "on the restraint with which it is exercised."

He said that, without intending in any way to disparage the objectives of any individual or group, he is primarily concerned that "some contemporary forms and philosophies of protest may in fact unwittingly retard the improvements in society which we all seek."

In America today there is need for a differentiation between a moral conviction that a law ought to be amended or repealed and a deliberate attempt to encourage an individual to violate any law which he may dislike.

Griswold, as the head of the prosecuting arm of the government, certainly has spelled out on constitutional as well as a sound historical argument in favor of enforcement of the law and the meting out of punishment to those who disregard the rights of others.

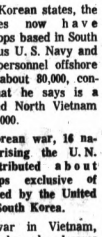
Bob Considine Says:

Asian Claims Korean, Viet Wars Not Alike

NEW YORK — There is no real relationship between the war we shut down in Korea 14 years ago and the one we're trying to cool in Vietnam, says Young Han Choo of San Francisco, who was South Korean consul general there in 1949-60. He's upset about the whole thing.



CONSIDINE

For example:

There was no South Korean Communist party waging war against the government in Seoul during the war of the early 1950s.

The 200,000 North Korean troops who spilled across the 38th Parallel were well-trained, and well-equipped with tanks, artillery and an air force.

They outnumbered the Republic of Korea forces, which the U.S. had trained as a constabulary, about 4 to 1.

★ ★ ★

Later, as Gen. Douglas MacArthur's forces reached the Yalu, with high hopes of bringing about a united Korea, "nearly one million Red Chinese army 'volunteers' came into the Korean war," according to Young Han Choo.

Also, the Korean states, the seven allies now have 1,338,850 troops based in South Vietnam, plus U. S. Navy and Air Force personnel offshore numbering about 80,000, confronting what he says is a Vietcong and North Vietnam force of 222,000.

In the Korean war, 16 nations comprising the U. N. forces contributed about 45,000 troops exclusive of those invested by the United States and South Korea.

In the war in Vietnam, South Korea has placed some 50,000 troops, a point sure to be mentioned more than once in the talks beteen President Johnson and President Park at Hawaii this week.

★ ★ ★

President Park suspects us of being ready to make an excessive overture to North Korea to get back the men of the Pueblo.

South Korea is by far the greatest contributor of manpower and clout to the war in Vietnam other than the South Vietnamese themselves and the Americans.

Thailand is next with 12,500, then Australia with 7,500, the Philippines, 2,400, and New Zealand, 450.

It's not our most popular war.

Young Han Choo wants to know why we're now calling up more men when we have the other side so badly outnumbered and there's no menace from the Red Chinese.

His peace plan: Invade North Vietnam, reunify it, stage a national election, abide by its result, and get the hell out of there. His hunch is that if such an election took place, with no outside interference, Ho Chi Minh would get the nod.

Reader States Opinion on Judge's Miniskirt Ban

Recently I read in The Pontiac Press about Judge Beer banning miniskirts in his court of law. I don't wear miniskirts but it makes me mad when a judge of law starts telling women what they can wear in court.

★ ★ ★

We're supposed to live in a free country but I'm beginning to wonder. If women appear neat and clean, what difference does it make what they wear?

Mother Is Opposed to Loss of Boys' Lives

I am an American citizen and do not protest the laws that govern our country. I do not agree with draft card burners, but as yet there has been no war declared. I am the mother of two sons aged 17 and 27 and am very much against a war or anything else that might take their lives.

★ ★ ★

I am against my sons or any other boys not having anything to say about their own lives after they reach the age 18. I know what my husband lived through after his return from World War II and do not want this way of life for either of my sons. I want my sons' minds and bodies as they are.

Yes, I am bitter about whatever this is that our American boys are giving their lives for when they haven't had a chance at more than 18 to 20 years of life.

Two Give Views on City Election Results

I am a Negro and have resided in Pontiac for seven years. I just want to express my disgust of the outcome of the City Commission returns. I believe Mr. Tucker would have been a credit to our Commission. Just what else does the white community want from us? They have everything else. I have been in several white communities and have seen their beautiful homes. Then I come back home and see the two-room shanties on muddy riverbanks that the Negroes live in, and they're not even roped off to protect our children.

EDITH A. DAVIS
197 LUTHER

The time has come for a change in the way we vote for our City Commissioners. The people that live in the district should be the only ones to vote for whom they would like to have represent them. In District I we have expressed our desire for Charles Tucker but our wishes have not been heard. Someone who doesn't live in our district has said who should represent us on the City Commission. This is unfair to the people in District I. We should do something about it.

HELEN CROCKER

(Editor's Note: The two communications above criticize our election system. A president of the United States may fail to carry 20 or 25 states but he's still the president of those states. A governor can lose 70 out of the 83 counties in Michigan but he's still the governor of those 70 counties. By a definite vote, Pontiac citizens decided that a citywide election would be exactly that.)

Peace Formula

New York Times

About a year and a half ago, Senator George D. Aiken of Vermont suggested that the United States declare unilaterally it had "won" the war in Vietnam and then proceed toward de-escalation.

He speculated that North Vietnam might follow Washington's lead and also declare it had won the war; both sides thus would save face and more readily enter peace negotiations. This whimsical proposal may not be so far-fetched as it has appeared.

Hanoi has declared: "The generalized offensive and uprising of the South Vietnam armed forces and people early this year have inflicted on the U.S. aggressors and their lackeys a fatal blow. Nothing can save from collapse the puppet administration and army, props of U.S. neo-colonialism in South Vietnam. Nothing can save the U.S. aggressors from a total defeat."

General Westmoreland proclaimed the failure of the foe's heralded Tet offensive and affirmed that "militarily, we have never been in a better relative position in South Vietnam."

The American commander added that "the spirit of the offensive is now prevalent throughout Vietnam, with advantage being taken of the enemy's weakened military position."

Providing neither side gets carried away by the implications of its own rhetoric, the quixotic Aiken plan may yet prove to be the winning formula for peace in Vietnam.

Marion (N.C.) News

As usual, constructive news travels much slower than bad news. In the wake of last summer's city riots, a great deal of unspectacular spade work has been going forward to find jobs for the hardcore unemployed of the "inner cities."

★ ★ ★

Committees made up of businessmen and Negro leaders are finding job opportunities for thousands. The work of these committees has led to the establishment of recruiting centers, businesses, and factories in the hearts of the worst ghettos.

★ ★ ★

Lack of jobs may not have been the primary cause of last summer's riots, but one thing is certain: Jobs and economic stability go together.

★ ★ ★

Moreover, in the long run, the primary source of job opportunities must remain in productive, self-supporting, taxpaying enterprise. This is the only way we can move ahead in a nation of free people.

We cannot look to government as a primary employer and still expect to retain our liberties.

A Junior Editors Quiz About ZIP CODE

QUESTION: How does the zip code work?

* * *

ANSWER: The zip code is a modern system which postal authorities have worked out to speed letters for everybody's benefit. The use of numbers helps clerks sorting mail to move it quickly. If a letter is addressed "New York 20," the clerk knows at once the general area of the city the letter is going to.

* * *

The zip code is a further improvement on this. Zip stands for zoning Improvement Plan.

There are five numbers in the zip code. The one at the left stands for large areas; for example, 1 covers New York and Pennsylvania. The next two numbers mean a certain section of this area; 25, for example, would locate you in the Poughkeepsie-Newburgh section.

The last two numbers show communities within sections; so, 50 would show you were in the city limits of Newburgh, N.Y.

* * *

Postmasters would like you to do two things: (1) put your own zip code after the return address on the upper left of your envelope and (2), if you know the zip code of the person addressed, put it to the right of the bottom line of address.

GM Officials Are Available to Give Talks

Speakers from the General Motors facilities in Pontiac are available to service clubs and other community organizations to talk on current automotive subjects, according to Martin J. Caserio, general manager of GMC Truck & Coach Division and chairman of the GM Plant City Committee in Pontiac.

Caserio said that three different presentations are available for interested groups and scheduling arrangements can be made by contacting John Castle at GMC Truck & Coach Division.

"Traffic Safety Today," a slide-illustrated talk, takes a broad view of traffic accident causes and discusses GM research and testing procedures and automotive design changes that have contributed toward passenger safety.

The second talk, "Air Pollution," is also slide-illustrated and deals with the automotive exhaust emission problems and what GM is doing about them.

A third speech, "The Automobile and the Future," discussing many facets of public and private transportation now under development is also available.

In addition to the talks, plant tours are also offered at the three GM divisions here. They are, each weekday, as follows: GMC Truck & Coach 10 a.m. and 1:30 p.m. and Fisher Body, 10 a.m., 1 p.m. and 7 p.m. Tours at Pontic Motor may be arranged through the Tour Lobby.

Breath Tests Cut British Road Toll

LONDON (AP) — Britain's breath-test law, six months old, has reduced highway deaths and wrought a dramatic change in the nation's social life.

Country pubs — once the mecca for motorists who liked to drive out of town for a few pints of beer — report bar sales off. Some rural publicans say the drop in drive-in trade is as high as 80 per cent. City bars are less affected.

* * *

Even the brewers cannot deny that the stiff legislation, enabling police to carry out spot roadside breath tests, has had a telling effect on highway casualties.

The Ministry of Transport reported that road deaths were down by 579, or 23 per cent, for the three months after the new law came in last October.

DECEMBER DEATHS

Deaths in December, usually a bad month, were down 33 per cent — 654 compared with 980 the previous year.

"There is no doubt about the effect of the new regulations," says a Transport Ministry spokesman.

The Royal Society for Prevention of Accidents comments:

"The new regulations have had a spectacular effect in cutting deaths by 23 per cent and serious injuries by 16 per cent in their first three months.

"Now we are worried by an upward trend in child pedestrian casualties — up 3.4 per cent last year. This underlines the need for an urgent training program and we shall start a new campaign in May."

CABBIE BUSINESS

A London taxi firm reported a 25 per cent increase in its business after the pubs close at 11 p.m. Some British couples who visit pubs regularly take turns driving — the husband has just one drink and drives one night, the wife takes it easy and drives the next.

"I've given up my car and now use cabs or hire cars when I go drinking," said businessman Frank Furner. Hire cars are chauffeured automobiles rented on an hourly basis.

Many Britons who never took much to the American habit of drinking at home are buying their beer and scotch in liquor stores and supermarkets.

"I used to love to take the wife out for a spin to a country pub, but I'm an eight-pint man and it's got a bit risky," said Jim Brown. "This bloomin' breathalyseer has taken the fun out of drinking."

PROTESTS LODGED

Motorists' organizations and the breweries protested when the new law started, charging the restrictions were an infringement on individual liberties.

Barbara Castle, the fiery 56-year-old red-haired transport minister who masterminded the scheme, was denounced as a Hitler.

"I expect this law to cut down the number of road deaths in this country. Can you argue against that?" she snapped.

Mrs. Castle was proved right and won promotion to first secretary of state and minister for employment and productivity in Cabinet reshuffle this month.

Under the law, police can order a motorist to breathe into a tube containing yellow chemical crystals. Alcohol on the breath turns the crystals green, and anyone with more than 80 milligrams of alcohol in 100 militeres of his blood faces a maximum $240 fine or four months in prison or both.

Crayfish Rules Each Spring in Louisiana

WASHINGTON — The lovely crayfish rules supreme in Louisiana each spring.

* * *

Tons of the tasty crustaceans, also called crawfish, are rounded up from submerged ranches. Families fish the bayous in narrow, flat-bottomed pirogues and boil their catch at impromptu feasts along the highways.

Breaux Bridge, called the Crayfish Capital of the World, celebrates the season with Gallic clan. The colorful town in the heart of southern Louisiana's French-speaking Cajunland annually welcomes thousands of visitors to a three-day Crawfish Festival. In 1968 the miniature Mardi Gras will be May 3—5.

The crayfish represents more than an excuse for a celebration. Rice farmers have found they can raise the decapods in their paddies as a valuable source of income, the National Geographic Society says.

* * *

Processing plants package and freeze the harvest. The Louisiana Crawfish Development Association predicts the young industry could grow from a current $4 million to a $40 million annual business.

World's Finest Bourbon a 173-Year-Old Secret

CHICAGO, ILL.—Before you can call yourself the world's finest anything—you'd better have a case in your favor.

Jim Beam Bourbon has that "case."

The whole matter started with Jacob Beam—who would be 200 years old this year—and a secret he discovered.

The secret, in the case of Jim Beam Bourbon, goes back to 1795, and it is still hush-hush today. The secret lay in the heart of Kentucky where there was, and is today, the right combination for pleasure. The right land. The right climate: the perfect Bourbon formula.

In north central Kentucky, Jacob Beam found clean iron-free water—water that came from limestone springs considered the very finest. Beam set out to make Bourbon in the rolling cou[ntry] and he added his own [s]pecial pride.

Synthetic Food Created at 'M'

Slated to Supplement Diets in Poorer Lands

ANN ARBOR — A nutritious synthetic food, designed to supplement the diets of children and adults in underfed countries of the world, has been developed by a University of Michigan scientist.

Prof. Lloyd E. Brownell of the department of chemical engineering has produced the Batina seed, which closely resembles rice, from purely vegetable sources.

The major components are cereal flours (mostly wheat with some oats, barley, and corn), toasted legume flours (soy), wheat germ, dehydrated yeast, and vitamin and mneral supplements to give a completely balanced food.

"This is probably the first really successful product which could be substituted for rice in typical rice recipes," Brownell commented. "It should be a great boon to solving malnutrition in the tropics.

★ ★ ★

Our philosophy was to develop a food which the countries could produce themselves, using local food sources, at minimal cost.

MAJOR CAUSE OF DEATH

Malnutrition is one of the major causes of death in the tropics, where infant mortality sometimes runs 45 times as high as in the United States and Europe. Protein deficiency and famine often stunt the growth and mentality of the children who do survive.

"The U.S. Department of Agriculture has developed a food, known as CSM (corn, soybeans, and milk) for consumption in these countries," Brownell said. "But it is a gruel, really a baby food, and not adequate in texture for adult tastes.

"My idea was to create a food which would not only be nourishing for children, but which would also be a nutritious and satisfying supplement for adults.

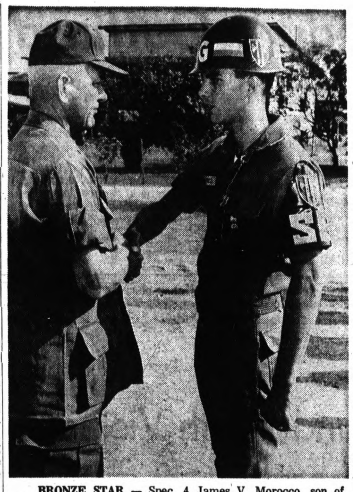
★ ★ ★

Rice is a basic food — probably the favorite one of people in the tropics — so I wanted to create something which would cook like rice and have the consistency so it could be easily substituted in native dishes."

★ ★ ★

Brownell deliberately produced a lentil-shaped disc rather than rice-shaped seed because rice is considered almost sacred in some parts of the world and an imitation might be offensive.

More than a million Americans die of heart disease every year.



BRONZE STAR — Spec. 4 James V. Morocco, son of Mr. and Mrs. Sidric V. Morocco, 224 Whims, Oakland Township, receives congratulations from General William C. Westmoreland, commander of U.S. forces in South Vietnam, for earning the Bronze Star. Morocco, who has been in Saigon with the 716th Military Police Battalion since June, earned the medal for his actions in the Vietcong attack on Saigon in late January and early February.

Pole Claims 'Anti-Red Bias'

WARSAW (AP) — The Polish government press agency correspondent in New York has written that American Jewish observances of the 25th anniversary of the Warsaw ghetto uprising are being politically slanted against Communist Poland.

★ ★ ★

A dispatch by Stanislaw Glabinski, carried in Polish newspapers yesterday, said the political significance of these ceremonies are revealed by the bulletin issued by the American Jewish Committee," which does not pull any punches when it comes to the slandering of Poland.

Glabinski charged that at the main anniversary ceremony, slated for New York next Monday, "It is planned in advance that resolutions directed against people's Poland will be adopted."

The correspondent said that New York television is preparing a one-hour program about the ghetto uprising in which an old English documentary film will be used.

State Election Law Changes Are Proposed

LANSING (AP)— Elimination of the precinct delegate from the ballot and earlier counting of absentee ballots are among recommendations made to a Senate committee studying proposed changes in Michigan election law.

The recommendations were made to the Senate Education-Elections Committee at a hearing earlier this week in Redford Township, Sen. James Gray, D-Warren and a member of the committee, reported.

★ ★ ★

Gray said the hearing was held to allow township clerks and other interested parties to make recommendations before the committee begins work on legislation to be introduced next year.

CLERKS TESTIFY

Earlier counting of absentee ballots and elimination of the precinct delegate were suggested by James Walker of Clinton Township, one of two township clerks testifying before the committee, Gray said.

Present law requires absentee counting boards cannot begin totaling absentee votes until 7 p.m. on election day, Gray said.

★ ★ ★

The fact that the precinct delegate post appears on the ballot often is confusing to voters, Gray said, since it is a party office rather than a public office.

Discipline Procedure Outlined

(Continued From Page One)

The school district's maximum penalities are for the following offenses:

● Truancy (unauthorized absence) — closed classes for first and second incidents and suspension for remainder of semester thereafter for students over 16 years of age.

Under 16 — contact parents on first incident, close classes after second and third incidents, suspend the fourth time and suspend and possibly refer to court the fifth time.

A student is considered truant if after 10 days absence in one semester he doesn't submit written evidence of illness, injury or a death in the family.

● Smoking — for students over 16, close classes first two incidents, close classes the third and possibly suspend for the semester. For students under 16, close classes first two times, suspend the third and suspend the fourth time and possibly refer to court.

● Other violations — for students over 16, close classes the first two incidents and suspend for the remainder of the semester the third time. Under 16, close classes or suspension first two times, suspension third time, suspension or refer to court fourth and fifth incidents.

GRADUATION IS GOAL

"It is desirable to have all pupils remain in school until they have graduated from a senior high school," the school policy says.

"Every resource available to the school district and parents should be used to achieve this purpose.

"Under certain conditions it can be in the best interest of a pupil or the other pupils of a school for a pupil to be denied the privilege of attending a school."

RAF Patrol Plane Down

LONDON (AP) — A Royal Air Force Shackleton patrol plane slammed into a Scottish hillside in thick mist today with 11 men aboard. Four bodies were recovered and there was little hope of any survivors.

It was the fourth Shackleton crash in six months. The three earlier crashes claimed 30 men, 13 of them in a similar hillside crash in eastern Scotland in December.

Heaviest Raids of the Year

U.S. Warplanes Pound North Vietnam

SAIGON (AP) — U.S. warplanes made their heaviest raids of the year on North Vietnam Thursday, flying the largest number of missions in nearly four months, military spokesmen announced today.

Hitting targets in the southern panhandle in accordance with President Johnson's curtailment order, U.S. pilots took advantage of clearing weather to fly 145 missions, one more than a year's previous record on Jan. 6. It was the largest number since Dec. 26, when 150 were flown.

★ ★ ★

The total was nearly triple the average number of missions the Americans flew against enemy supply routes, convoys and gun positions in the southern part of North Vietnam before Johnson on April 1 ordered them to stay south of the 20th parallel of latitude.

Ten days later the President, in a move never publicly announced, put the northern limit for bombings raids at the 19th parallel, 170 miles north of the demilitarized zone. The curtailment was aimed at inducing the North Vietnamese to open peace negotiations.

169 MILES NORTH

The deepest reported penetration Thursday was a raid by Navy A4 Skyhawks from the carrier Enterprise on a railroad bridge one mile below the 19th parallel and 169 miles north of the demilitarized zone.

Some U.S. sources say that despite Johnson's curtailment order allowing the North Vietnamese to move war supplies with impunity down to the 19th parallel, a distance of 140 miles from Hanoi, there has been very little change in enemy truck traffic in the southern panhandle.

★ ★ ★

The U.S. Command said a limited damage assessment showed the raiders Thursday destroyed or damaged 14 bridges, 13 trucks and 16 boats, barges or sampans; cut bridges and roads in many places, and touched off several secondary explosions and fires, indicating the planes hit fuel or ammunition dumps.

The pilots reported antiaircraft fire was light to moderate.

HELICOPTER CRASH

One of the worst helicopter crashes of the war occurred in South Vietnam. Two U.S. Army UH1 choppers collided in flight 59 miles southwest of the coastal city of Qui Nhon while on a combat operation. Eighteen South Vietnamese civilian irregulars and eight American military personnel were killed. There were no survivors.

Over South Vietnam, Air Force B52 bombers made six more raids late Thursday and Friday on the North Vietnamese buildup in the A Shau Valley west of Hue. The eight-engine Stratofortresses dropped an estimated 1,000 tons of bombs on troop concentrations, bunkers, truck parks and gun positions in the stronghold where U.S. officers think the North Vietnamese may be readying another big push against Hue.

ENEMY TOLL RISES

The fighting northeast of Saigon Thursday raised total enemy casualties to 937 killed and 293 captured since Operation Complete Victory was launched April 8, the U.S. Command said. Allied casualties include 84 Americans and 65 South Vietnamese killed and 427 Americans wounded.

The Viet Cong used tear gas and rocket-propelled grenades to try to stop a mounted troop of the U.S. 1st Infantry about 30 miles northeast of Saigon.

OU Chancellor Will Address OCC's Grads

Oakland University Chancellor Durwood B. Varner will address about 200 graduates of Oakland Community College at OCC's second annual spring commencement, April 28.

OCC President John E. Tirrell will confer associate degrees and certificates of program completion to the two-year graduates at 2:30 p.m. in Southfield High School.

★ ★ ★

Provosts Dr. Stanley J. Hergenroeder of Highland Lakes campus, Dr. H. Vaughn Whited of Auburn Hills and Dr. Richard E. Wilson of Orchard Ridge will present the graduates.

Faculty will participate in the traditional academic procession. Music will be provided by the OCC Choir and Community Band.

Visitors Banned at Riot Prison

RALEIGH, N.C. (AP) — No visitors will be permitted at Central Prison in Raleigh this weekend, North Carolina Correction Commissioner Lee Bounds says.

The ban on visitors was ordered he said, because of the riot in which six prisoners died and 77 were injured earlier this week. Bounds also said leaders of the uprising will be prosecuted if there is sufficient evidence against them.

Bulgaria: Are Changes in the Air?

SOFIA, Bulgaria (AP) — The "Aida" was a bit off-key and the tenor singing Radames' in Sofia Opera's staging occasionally was so ridiculous that even patient Bulgarians snickered.

The audience apparently wore its Sunday best, but dresses were modest, suits rumpled, and many men had no neckties.

★ ★ ★

A Western visitor is bound to feel that the Bulgarians deserve better, both in opera and in their standard of living. People tell him things have been worse, but he has a hard time getting rid of the impression that he is in "little Russia."

It is not only the Cyrillic letters on street signs and stores, nor the army and police uniforms which are almost identical with those in the Soviet Union. Nor is it the Georgi Dimitrov Mausoleum, almost a replica of the Lenin Tomb in Moscow.

UNFAIR COMPARISON

It is the whole atmosphere, the great number of marble and plaster memorials, the huge posters of the Soviet party chief together with his Bulgarian counterpart, Todor Zhivkov, and the men's wide - brimmed hats and baggy trousers.

It would be unfair, though, to compare this country with Czechoslovakia, or even with neighboring Romania. Bulgaria does not have the raw material resources of both countries, nor the democratic traditions of Czechoslovakia. Bulgarians furthermore have a soft spot in their hearts for the Russians for helping throw off the Turkish occupation 90 years ago.

★ ★ ★

Westerners living here and closely observing developments tell you change is in the air in Bulgaria, too.

A Western diplomat commented: "The attitude that 'this is Russia's most faithful ally and will remain so' is wrong. Things are fluid here, too, and Bulgarians are no less patriots than other East Europeans. Bulgaria has been putting all of its eggs in the Russian basket, but is trying to get some of them out again."

MISSES SUMMIT

Zhivkov, who is also Bulgarian premier, recently visited Turkey. He considered the trip so important that he sent apologies to the Eastern summit in Dresden which was called for the same time.

Russia is still Bulgaria's main trading partner, but Bulgaria started two years ago to step up trade with West Germany, Italy, France and Britain.

★ ★ ★

Bulgaria has begun a reform of its economy called "the new system of economic management." The goals are the same as elsewhere in Eastern Europe — decentralization and the injection of profitability in the economic system.

The reform entailed price boosts, especially for rents and food products of animal origin. They were partly offset by pay boosts, but sources here say the price rises were considerably higher than the wage increases.

BASIS FOR TOURISM

Bulgaria's Black Sea coast provides the basis for booming tourist industry, and officials say 1.7 million visitors came here last year.

The Bulgarians expect about 200,000 youths for a summer youth festival, and work is in progress to pretty up this gray capital. Prices are reasonable for the foreigner, and Sofia is a motorist's dream—no parking problem anywhere because of few cars.

Camera Angles

She Ponders Turning Pro

By IRVING DESFOR
AP Newsfeatures

Antoinette Jongen, a Manhattan executive secretary, is a talented, dedicated camera fan with a dilemma.

Should she turn her spare-time absorbing hobby of photography into a full-time profession? Would it be wise to change a fascinating, pleasureable diversion into a serious means of earning a livelihood?

It is a question that tantalizes many talented amateur photographers, but there are no authoritative crystal balls to turn to.

Any decision reached by the capable, Holland-born young lady will not be a hasty one. She is consulting with experts and pondering their advice in order to reach a sensible solution.

★ ★ ★

Curiously enough, it was spectacular success in winning the grand prize in two major photography contests in 1967 which precipitated the present predicament.

COLOR SHOTS WIN

Early in 1967, Miss Jongen won the top prize in Saturday Review's international competition with a color slide of a sleeping youngster in India.

And in late fall, she won the grand award in the 3M Dynachrome slide film contest with a color shot of a girl's profile.

She shared the $1,500 prize with the model and two assistants who helped during the shooting sessions.

★ ★ ★

It is hard to believe that Miss Jongen's interest in photography began less than five years ago. It started in Montreal, Canada, in 1963, a year after she had arrived there from her native Helmond, Holland.

CAMERA TOUR OF U.S.

Later that year she came to the United States but before settling down in New York City, she made a camera tour of the country. The mixture of travel and photography proved to be an agreeable combination that wetted her appetite for more.

It took more than a year of work, of intensive photo magazine and travel reading and constant experimentation in picture taking before a plan took shape.

When it materialized, it turned into an itinerary for a world tour that would span a year of travel photography. She wanted to avoid the "shoot and run" technique typical of most tourists limited to a short vacation period.

★ ★ ★

It was on the boat trip returning to America, some 1500 color slides later, that Miss Jongen was encouraged by the reception of knowledgeable travelers to a sampling of her pictures.

COMMENDATIONS CHORUSED

Later, others in the publishing and business world chorused their commendation. One of the suggestions she followed to enter the Saturday Review contest resulted in the bulls-eye top award, as mentioned.

She joined a camera club and haunted the club's darkroom to learn the technical side of film processing and print enlarging.

She spent hours making the "right" print and one weekend was so absorbed that 11 hours went by before she finished.

★ ★ ★

When she read about the Dynachrome contest, she made up her mind to shoot specifically for it. She felt it was an opportunity for an impartial panel of judges to evaluate her work. Her confidence and her accomplishment in winning the top award were both remarkable.

And that is why today a talented amateur photographer wrestles with an immortal question:

"To be or not to be . . ." a professional photographer?

Republicans Lose Grasp on Vermont

BELLOWS FALLS, Vt. — Vermont, once the most Republican of states, isn't Republican anymore.

Republican State Chairman Elbert G. Moulton told Windham County Republicans Wednesday the state is now one-third Republican, one-third Democrat and one-third independent.

★ ★ ★

"This is not a Republican state, Moulton said, "It's an even-steven state."

Vermont was under Republican control for more than a century.

★ ★ ★

In 1958 William E. Meyer was elected as a Democratic congressman. In 1962, Gov. Philip H. Hoff became the first Democrat to be elected in 107 years. In 1964, President Johnson took the state by a 2-1 margin.

PORTRAIT UNVEILED — Mrs. Margaret Truman Daniel unveils a portrait of her mother, Mrs. Harry S. Truman, with the help of Mrs. Lyndon B. Johnson. The portrait, painted by Mrs. Greta Kempton, was shown in a White House reception yesterday. It was a gift from the White House Historical Association.

Interstate Guard-Aid Plan Falls Flat

WASHINGTON (AP) — Inertia apparently has killed any chance for a proposed "mutual assistance pact" which would allow states to send their National Guard units to help other states cope with riots this summer.

Some key officials say they believe the idea, advanced at a governor's conference last fall, will never get off the ground.

★ ★ ★

"The thing seems to have bombed," said one Pentagon official, who spoke of legal questions along with lack of action in state legislatures and Congress.

As things stand now, states have no legal basis for sending their National Guard troops outside their own borders. In the backwash of the Newark and Detroit riots, the National Governors Conference last October endorsed the draft of a model "National Guard mutual assistance pact."

COULD REQUEST

A Washington staff member of the National Governors Conference said the proposed pact envisioned that the governor of a state with a civil disturbance problem bigger than it could handle alone could request the governor of another state to send "aiding forces" to help out.

Assuming forces were sent, the proposed compact provided such features as insurance protection of National Guardsmen assigned to riot duty in a state other than the one in which he was enrolled.

★ ★ ★

The National Governors Conference took the position that this kind of a compact would require congressional consent.

The draft was introduced in several state legislatures but conference staff members said that so far as they know only Virginia has enacted the necessary bill.

NOT INTRODUCED

Meanwhile, the sources said that no consent legislation has yet been introduced in Congress.

Some federal lawyers say there are legal complications over the question of command of Guard forces sent across state lines unless they are in federal service. The proposed mutual aid pacts would not apply to federalized National Guardsmen, considered U.S. troops.

In the recent riots following the slaying of Dr. Martin Luther King Jr., more than 47,000 National Guardsmen were mustered by governors and 15,000 were federalized.

In cases where state Guard troops were unable to deal with the problem, federal help was requested and more than 26,000 regular Army and Marine troops saw duty in Washington, Baltimore and Chicago.

Two Youths Jailed in Shooting Incident

TRAVERSE CITY (AP) —Two Traverse City youths were held at Grand Traverse County Jail Thursday, one for sentencing and the other for trial, in the shooting and wounding of a car salesman at Traverse City earlier this month.

Jerry McCoy, 17, pleaded guilty to assault with intent to commit murder at his arraignment before Circuit Judge Charles Brown and was remanded to jail to await sentencing. Jack Lown, 18, stood mute and a plea of innocent was entered. No trial date was set. Bonds of $30,000 each were not furnished.

McCoy and Lown were accused in the shooting of Marshall G. Pratt at his home. He was wounded in the head and is in serious condition at Munson Medical Center at Traverse City.

CARSON CITY, Nev. (AP) — Unemployment increased 150 per cent in Goldfield this month. Last month two persons in the historic mining community applied for state unemployment benefits. This month five persons applied.

Envoy Incident Role of Mrs. Truman Told

WASHINGTON (AP) — Dean Acheson says Bess Truman once intervened to prevent her fiery-tempered husband from possibly straining America's international relations with a misguided attempt to avenge her honor.

Acheson, secretary of state under President Harry S. Truman, said Thursday the incident was touched off when the ambassadors of two unfriendly nations both were invited to a White House fete. One ambassador withdrew at the last moment, he said.

★ ★ ★

"The President," said Acheson, "believing the ambassador had been rude to Mrs. Truman, instructed me the next morning to ask for the ambassador's recall."

Acheson, telling his story at a White House gathering for an unveiling of a new portrait of Mrs. Truman, said he told the president it was the protocol office's fault for inviting the feuding envoys to the same dinner.

TRUMAN UNMOVED

But the president remained unmoved, said Acheson, until Mrs. Truman talked to him over the phone, then told the secretary of state: "You must not let Harry do what he's going to do."

Acheson said Truman backed down only after the secretary pretended to quote criticisms which he attributed to Mrs. Truman.

★ ★ ★

The names of the ambassadors, their countries or the year the incident took place weren't revealed by Acheson.

Mrs. Lyndon B. Johnson said it hadn't been easy to get Mrs. Truman's permission to add the portrait to the permanent White House collection.

TYPICAL MODESTY

"In typical modesty," said Mrs. Johnson, her predecessor as first lady put her off several times before reluctantly agreeing.

Mrs. Truman, who lives with her husband in Independence, Mo., didn't attend the ceremony. But on hand was the Truman's daughter, Mrs. Clifton Daniel of New York.

Hunt for King Case Suspect Intensified

By JAY BOWLES
Associated Press Writer

MEMPHIS, Tenn. (AP) — The nation's police agencies intensified a nationwide search today for Eric Starvo Galt, the elusive fugitive sought in the assassination of Dr. Martin Luther King Jr.

They were aided by thousands of wanted posters, just gaining wide distribution two days after the FBI publicly identified Galt, 36, as the man it had sought secretly since a week after the April 4 slaying.

★ ★ ★

The FBI refused comment on queries about whether it believes Galt is the man's real name or was simply a cover built painstakingly over a number of months by the beer-drinking lover of hillbilly music.

Two aliases—John Willard and Harvey Lowmyer—were listed on the federal conspiracy warrant issued against Galt in Birmingham, Ala., Wednesday afternoon and the first-degree murder warrant issued by the state against him here Wednesday night.

NO REFERENCE

"John Willard" was the name used by the man who checked into a Main Street rooming house three hours before King was shot as he stood on the balcony of a motel here. There has been no reference to the second alias.

The federal agency denied a report that it had taken into custody the man it said Galt described as his brother and that the brother was aiding in the search. The federal warrant, issued Wednesday, claimed that Galt and the brother entered into a conspiracy March 29 to violate King's civil rights.

★ ★ ★

The FBI covered many specific details about Galt's life over the past several years in its release including the fact that he is an avid dancer, has "rural speech," apparently lacks education and has a "nervous habit of pulling at an ear lobe with his left hand."

But except for his age, the FBI's statement was void of vital statistics, including Galt's birthplace or of any details of his movement prior to 1964.

IN MEMPHIS

The statement disclosed for the first time that Galt was in Memphis the day before King was shot, although he did not move into the rooming house from which the fatal bullet was fired until the day of the assassination.

A night clerk at a motel here said that a man registered there as "Eric S. Galt" the day before the slaying, but stayed in his room all night and received no visitors.

★ ★ ★

There were these other developments:

● The U.S. attorney's office in Kansas City quoted an informant of "apparent reliability" as saying King was among persons marked for death if Robert Bolivar Depugh, leader of the militant right-wing Minutemen organization, ever went to jail. The statement was included in a court motion to dismiss an appeal from Depugh on a conviction for a National Firearms Act violation.

● A Birmingham man who said he had a brief business dealing with Galt told reporters that the hunted man once told him he had a wife living in the Rocky Ridge section of the Alabama City. There was no official confirmation.

ON THE WANTED LIST — The FBI in Washington yesterday started circulation of this poster calling for the capture of Eric Starvo Galt, sought in the murder of Dr. Martin Luther King Jr. The poster, signed by FBI Director J. Edgar Hoover, bears two photographs of the man the FBI says is Galt—one photo with eyes closed and the other with eyes drawn by an FBI artist.

Smoking Tips for Card Games

Cut Down by Keeping Busy---Psychologists

WASHINGTON (AP) — Bridge players who want to cut down on cigarette smoking should avoid situations that might be boring—like being dummy too often in the card game—two Connecticut psychologists suggest.

Instead, they said, the players should keep busy with hands and brain and make lots of trigger-quick decisions while under fire—like the winning bidder who plays the hand.

★ ★ ★

Such tips for smokers in general were implied Thursday in a report by two University of Bridgeport researchers. They have been carrying on a wide-ranging study of smoking behavior by people in various workaday and social situations, including bridge-playing.

★ ★ ★

Reporting to the 39th annual meeting of the Eastern Psychological Association, Dorothy T. Hoffman and Eugene P. Boyko said they took a smoking survey during five duplicate-bridge tournaments at a local club.

Smoking during bridge tournaments was heavy, said the psychologists.

★ ★ ★

Indeed, they said, only a fraction of a per cent of 25 million respondents to smoking surveys of the U.S. Census Bureau and the American Cancer Society reported smoking rates as high as those observed among the card players.

Fish, Food, Fun, and Sun Offered State Tourists

GRAND RAPIDS (UPI) — Fish, food, fun and sun. That pretty well sums up what Western Michigan resorts on a 350-mile Lake Michigan stretch from Benton Harbor to Sault Ste. Marie have to offer tourists this summer.

The West Michigan Tourist Association lists 125 events ranging from county fairs and art shows to world famous festivals for the 1968 spring, summer and fall seasons.

★ ★ ★

The big ones start with the National Trout Festival at Kalkaska April 26-28. Kalkaska has a population of about 1,500 and, with the help of communities for miles around, hosts about 50,000 fishermen who are lured by the various trout streams in the area. It is the 32nd festival with Eugene Little of Williamston and Victoria Scheer of Grayling reigning as king and queen of the festival.

On May 12-18, the Blossom Festival at Benton Harbor and St. Joseph will be held. It annually attracts about 400,000 persons with a flock of beauty queens from various Southeastern Michigan points competing for the Blossom Queen crown.

It Could Have Avoided a Strike at Bell

President Eisenhower once said there are a lot of things *worse* than a strike.

True. But there are a lot of things *better* than a strike, too.

A labor-management agreement, for instance.

Or a plan for voluntary arbitration.

In the Bell System, there's not much time!

CWA—the Communications Workers of America — has set a strike date of April 18, 3:00 p.m.

If we strike, it will be very effective — throughout large areas of the Bell Telephone System.

But frankly, we'd rather find agreement than strike.

We believe the strength and reasonableness of our arguments for a substantial pay increase ought to be recognized by the immensely profitable Bell System.

CWA has proposed voluntary arbitration

CWA is ready to place the economic facts before an impartial referee, and to accept his recommendations.

That way, we would get agreement without resort to strike. For the facts are clear: a substantial pay increase for telephone workers should be in the cards this year.

Bell Telephone System is making a profit of over two billion dollars a year — and the rate of profit is going up. Productivity of Bell System employees is way up.

Pay rates need to keep pace. So far, management has refused our peaceful formula — and hasn't made a good enough offer.

But there's still time.

If Bell offered to treat their employees equitably, there'd be no strike.

If Bell accepts our peaceful formula or proposes a realistic plan for settlement, there'd be no strike.

CWA is a reasonable union. We're ready for anything that makes sense.

But if the company's reply is nonsense, then CWA will be on strike April 18.

It's up to Bell.

"Whooping it up," Ralph Norvell appears the prize catch of Tipacon Charter chapter members Mrs. Clifford Marsh, left, and Mrs. Garland Hale. Norvell, named 1968 "Boss of the Year" at a recent ceremonial meeting, was awarded the chief's headdress by outgoing "Boss" Harold A. Cousins. Mrs. Marsh resides on Sharon Street, Norvell on Wenonah Drive and Mrs. Hale on North Perry Street.

Norvell Named "Boss of Year"

Ralph Norvell is "Boss of the Year" for Tipacon Charter chapter of the American Business Women's Association. In keeping with the "Indian Pow-Wow" theme, Norvell was initiated into the tribe through the donning of a chief's headdress.

Short Changed Uncle Sam

Pay Now and Sleep Later

By ABIGAIL VAN BUREN

DEAR ABBY: I haven't been able to sleep very well lately. You see, I cheated a little on my income tax. (Deductions.) Any suggestions?

SOL

DEAR SOL: Send the internal revenue department a check for $100. And if you still can't sleep, send the balance.

* * *

DEAR ABBY: I just finished crying my eyes out over something that is not my fault. A very nice boy from school started dating me and I was on cloud nine. I was never popular, and he was like an answer to my prayers.

Well, he just called me up and told me he couldn't date me anymore because his parents have forbidden him to.

* * *

The reason was they heard that my older sister had a baby out of wedlock. (She did, but Abby, I have never done one thing out of the way, so why should I have to suffer for something my sister did?) I have even had girl friends tell me they couldn't go around with me anymore because of my sister's reputation.

I am not like my sister, and don't see why people should hold this against me. How can I prove that I am a "nice" girl when I have this against me?

"MARKED" IN SCRANTON

DEAR MARKED: "Don't try to "prove" anything. People who are not willing to judge you on your own record are not worth having as friends.

* * *

DEAR ABBY: Some new neighbors moved into our area, and we share a two-party line. Abby, this woman speaks as good English as I, because I have heard her, but when she talks on the phone she always speaks a foreign language. I consider this an insult to me. What do you think of a neighbor like this?

BURNED UP

DEAR BURNED: She's smart. She speaks a foreign language because she suspects that someone may be listening. And she is obviously right.

* * *

DEAR ABBY: I would like to say something to "A FATHER," who thinks children ought to be fed first so he and his wife can have a nice quiet dinner after he has put in a hard day's work.

Who, may I ask, is going to prepare two meals—one for the children and another one, later, for the Lord and Master? The cook? Sorry, we don't have one.

And who is going to look after the children while father and mother are enjoying their peaceful meal without children fighting and screaming? The nursemaid? Sorry, we don't have one of those either. Besides, if the kids are by themselves, Mother will probably have to get up and referee,

Separate meals may work in somebody else's house, but not in ours. We all eat together. It's not always quiet and peaceful, but somehow we'll manage to live through it.

OHIO MOTHER

CONFIDENTIAL TO B.L. OF B.B. H.: The answer is yes. And who said it better than Max Nordau?

"It may sound shocking, yet I must say it, we can love several individuals at one time with nearly equal tenderness, and we need not lie when we assure each of our passion."

* * *

Everybody has a problem. What's yours? For a personal reply write to Abby, c/o The Pontiac Press, Dept. E-600, P.O. Box 9, Pontiac, Mich. 48056, and enclose a stamped, self-addressed envelope.

* * *

Hate to write letters? Send $1 to Abby, c/o The Pontiac Press, Dept. E-600, P.O. Box 9, Pontiac, Mich. 48056, for Abby's booklet "How to Write Letters for All Occasions."

Apartment Life Calls for Much Thoughtfulness

By ELIZABETH L. POST

Dear Mrs. Post: I read with great interest your article "Lack of Consideration Worst Social Offense." You might also have mentioned the apartment dwellers with no rugs and whose children scream, run and hammer on the floor and walls from 5:30 in the morning until 10 at night and whose parents say, "It's our home and we'll do as we please."

Please speak up for the people who have wall-to-wall carpeting and take care that neighbors are not upset by radio, TV, or other noises—T. Sherman

* * *

Dear Mr. Sherman: Apartment house living is community living, and only by considering one's neighbors can life be made pleasant. Not every one can afford wall-to-wall carpeting, but some sort of floor covering helps to deaden sound. Children, active as they are,* must be taught to channel their energies into quieter pastimes.

TV and radio sets should be heard only by those actually enjoying them. The quote you give can be changed from a deplorable statement into an acceptable one by simply adding "as long as we don't disturb our neighbors."

INTRODUCTIONS

Dear Mrs. Post: What would the proper introduction be under the following circumstances. My mother-in-law has remarried. My name is Smith, her new name is Jones. How would I introduce my mother-in-law and her husband to friends, and would my husband introduce the couple in the same way?—Mrs. Norton.

* * *

Dear Mrs. Norton: In order to make the various relationships clear, you must get all the information into the introduction. To do this best, say, "Mrs. Stranger, I'd like you to meet John's (or my husband's) mother and stepfather, Mr. and Mrs. Jones." This explains the difference in names and is perfectly correct and friendly.

FAMILY PORTRAITS

Dear Mrs. Post: We have a family of five children, one of whom is married. We had a family portrait made, but it excludes our married son. We have received criticism because we did not include him. We thought that this was proper because he has his own family. —Mrs. B.

* * *

Dear Mrs. B.: The fact that your son is married does not make him any the less a member of your family. The nicest thing to do in having a family portrait made would be to include all the married children and their wives and husbands.

Erma Bombeck, suburban housewife and syndicated columnist, will be the featured speaker at the annual Awards program of Pontiac Area United Fund Women's Division next Thursday at Spring Lake Country Club. Mrs. Bombeck, mother of three, writes for women about women's problems and entitles her column, appropriately, "At Wit's End."

Assorted Dishes of Personalities at May Benefit

A favorite recipe of Mrs. Lyndon B. Johnson, of Mrs. George Romney, of Jeannette MacDonald and a hundred others will be available at the May Day Recipe Tasting Luncheon planned for May 1 at the GMTC Employes Credit Union Building.

* * *

The event, sponsored by the Women's Auxiliary of Drayton Plains Nature Center, will run from 11 a.m. to 3 p.m. in the auditorium of the building on Woodward Avenue across from St. Joseph Mercy Hospital. The GM Girls' Club is assisting with arrangements.

RECIPES

Recipes will be sold at from 10-25 cents. The charge for the luncheon is $1.50. Proceeds will be used to operate the Center which has been visited by some 7,000 students and 3,000 adults during the past year.

* * *

The noon hour (from 12-1 p.m.) is reserved for business people. Others should plan to attend earlier or later.

* * *

The luncheon will begin with appetizers and progress to breads, rolls, meat, casseroles, salads, desserts, tea and coffee.

Mrs. Robert J. Smith of Fernbarry Drive is ticket chairman.

Battle of Hemline Is Undecided

By LEONORA DODSWORTH
AP Fashion Writer

FLORENCE (AP) — The skirt length battle was still undecided as the showing of Italian lines for fall and winter ended in Florence today.

Fifty-nine houses have fought it out on the Pitti Palace runway, and everything goes, from long bare legs to covered calves.

The boutique houses went mad about maxis. The knitwear houses were a little more cautious with only an occasional long skirt.

The ready-to-wear lines from the couture houses were even less prepared to take risks: the maxi was in a definite minority.

* * **

The 1930s theme has been given a good second inning. Fox furs, droopy dresses in draped crepe, floating scarves and platinum blonde hair were copied straight from the Hollywood sketchbooks of 30 years ago.

Belted coats were a constant in all collections. Double-breasted styles are poular with tiny fitted tops buttoned up to neat band necklines, but revers are returning.

Sleeves are set-in and narrow. Below the waist, coats fan out in gentle flares, clever cuts, subtle seaming, bright metal buttons and plenty of pockets.

SUITS

Suit jackets are long and lean and usually with belts. Skirts are shaped just off the straight but plenty of pleats are still around.

* * *

Classic tweeds are back, all the "wellbred" weaves and country club checks. Chalk-striped flannel in gray or navy is a favorite choice for sharply tailored suits cut on mannish lines.

The screaming colors that the Italians used to love are replaced by somber muted shades in keeping with the somewhat sedate styles being shown. Gray has got it almost all its own way for day and evening. Also important are beige, black, white and olive.

Membership Tea Set by Republican Women

The Pontiac Republican Women's Club is giving a membership tea Monday at 1:30 p.m. in the Illinois Road home of Mrs. Joseph Chummings.

Margaret Scott, president, reports some outstanding speakers will be there. Interested persons may attend.

Tours of Art Center

Free public tours of the Pontiac Creative Arts Center are planned for Saturday. Hours are 10 a.m., 2 and 3 p.m.

'Floral Fantasy' in Mall Show

Women of 20 branches of Woman's National Farm and Garden Association have been working since January on plans for the upcoming Pontiac Mall Flower Show which will take place Oct. 14-19.

The theme this year is "Of Cabbages and Kings, A Floral Fantasy."

Mrs. Ross Thompson, schedule chairman, used the stories "Alice in Wonderland" and "Through the Looking Glass" for her inspiration in making out the schedule which was distributed at the fourth general committee meeting recently.

The theme covers the seasons from cabbage night (Halloween) to the three kings (Twelfth Night).

There will be two classes open to the public. Any non-member desiring to enter one or both of these classes should write to Mrs. Joseph Carpenter of Fernbarry Drive, for details.

Drayton Plains Nature Center will again receive the $1,500 award given by The Pontiac Mall to the participating branches.

Mrs. Newton Skillman of Lake Angelus is general chairman for the show.

Mr. and Mrs. John Fliehman of Farmington announce the betrothal of their daughter, Cheryl, to R. Jan Appel. He is the son of Mr. and Mrs. C. J. Appel of South Avery Road. The bride elect and her fiance, seniors at Michigan State University and Central Michigan University, respectively, will wed Aug. 24.

Garden Group Sponsors Teacher's Nature Training

A review of the book "Carefree Gardening" highlighted the April meeting of the Better Home and Garden Club at First Federal Savings of Oakland on Huron Street.

Members voted to send a teacher to the Michigan Dept. of Conservation School at Higgins Lake this summer.

* * *

The crocus was the exhibit flower for the month.

Mrs. John Armstrong addressed the group on the subject of water and air pollution.

Committee for the day was comprised of Mrs. Marie George, Mrs. W. H. Eustice and Violet Crawford. Margaret Wilmot attended as a guest.

* * *

A visit to the Seven Ponds Nature Center is scheduled for May 20, with luncheon at the Chuck Wagon in Dryden.

The next meeting of the group will be held at the Lake Orion home of Mrs. John Plassey. It will begin with potluck luncheon at 11 a.m. Nature study will follow.

'Sound of Thinking' Convention Theme

"The Sound of Thinking" is the theme of the 44th annual convention of the Michigan Federation of Temple Sisterhoods (District 11 of the National Federation of Temple Sisterhoods, which includes Windsor, Ontario), slated Monday through Wednesday at Stouffer's Northland Inn and Temple Emanu-El, Oak Park.

* * *

Keynote speaker at the Tuesday 7 p.m. banquet at the Inn will be former Michigan Supreme Court Justice Otis M. Smith, who is currently on the University of Michigan Board of Regents and serves on the legal staff of the General Motors Corporation.

His topic will be "Negro-Jewish Relations in Time of Crisis." Non-members may make reservations to attend.

* * *

The principal speaker at the plenary session, 9:30 a.m. Tuesday at the temple, will be executive committee member, Mrs. Paul J. Basinger of Chicago, who currently serves as chairman of the NFTS Department on Religion and Education. Visitors may also attend this session.

SEMINAR

A seminar on "Crisis in Youth: How to Keep Your Cool" will feature Dr. Eliot Luby of Lafayette Clinic and Wayne State University; Rabbi M. Robert Syme of Detroit and Gerald Garfield, University of Michigan student and former president of the Youth Group at the host temple.

* * *

About 100 delegates are expected to attend the convention. Displays relating to projects of various sisterhoods will be set up in the temple.

* * *

The women typically work in behalf of the blind; service to youth; for social justice and international relations; family education and particularly the "Institutes on Judaism for Church Women" which seek to further interreligious understanding.

* * *

Mrs. Irving Steinman of Temple Beth Jacob is chairman of the constitutional revisions committee whose work will be voted on at this convention. Mrs. Maurice Weiner of Birmingham is arrangements chairman.

Sorority Alumnae Set Benefit Bridge

Mrs. Lynn Townsend of Island Lake will open her home for a benefit bridge on April 26 sponsored by Alpha Gamma Delta Alumnae. Mrs. Alvin Clark is arranging the day's event.

A portion of the proceeds will be given to the Alpha Gamma Delta Founders' Memorial Fund for international altruistic projects with the remaining funds being donated to FAR camperships and "New Horizons."

On April 27, the sorority will be observing an annual international reunion day in honor of the founders. Undergraduates and alumnae from Michigan and Northern Ohio will meet at Bowling Green University for the reception and luncheon.

Eleven-year-old Shawn Kelly and his mother, Mrs. Clark Kelly of Detroit, find shopping at Montgomery Ward in The Pontiac Mall more comfortable dressed in casual attire. Her powder blue cotton and Dacron pantsdress can be worn with dress shoes as shown or take on a more active sportswear look with sandals. Shawn's Bermudas combine red, navy with gold and teamed with a red knit shirt that pops into washer and dryer. Ward executive, Gene Berry investigates goodies in the pantry shop before a golf date in bright yellow nylon windbreaker. Under it is the ever-popular white knitted turtle neck. A non-crushable narrow brimmed canvas hat completes the handsome outfit. All fashions shown available at the store.

Trend Watcher

Advises on Ward's Fashions

BY JEANNE NELSON

Rita Perna, claiming New York City as her hometown but seldom there anymore, battles for "the woman's point of view" in a giant corporation. Here in Detroit Thursday for a local Montgomery Ward stockholder's meeting, this tiny but vocal dynamo outlined the future fashion picture and projected policies of the huge firm at a press luncheon in the Pontchartrain Hotel.

★ ★ ★

Miss Perna who holds degrees from New Rochelle College and Columbia University, initiated the name designer plan a few years back whereby noted designers developed boutique-type fashions made here in America exclusively for Wards.

Now, the corporation's national fashion coordinator has revamped this program into the newly formed Designer Advisory Council program. This updated turn will incorporate the thinking and trend interpretations of world acclaimed designers Fabiani, Simonetta, O'Kennedy, Helm, Hobson, Aponte, Stillman and Gernreich.

The international group will advise on color, fabric and cut of all better, ready-to-wear merchandise making critical choices on the right look for now.

INDIVIDUALIST

On the subject of "now fashion" Miss Perna says "the trend towards a more individual look — geared to time, place and event is making itself felt throughout the merchandising industry. Women are becoming less satisfied with the idea of adapting the familiar sheath to afternoon and evening wear merely by choices of fabric and detailing."

"Current and projected demands call for differing images in dress for all the varying roles today's woman has taken on. Her life is no longer simple but so complex and in many cases divided into career and home, that her wardrobe is now necessarily one encompassing a great many moods."

Referring to fashion as woman power — at the pocketbook level Rita Perna describes her company's fashion philosophy as one of a definite feeling of responsibility for style leadership.

In conclusion, the astute fashion analyst, listed in "Who's Who" and "The Beautiful People," says "there should be no price penalty for good fashion. Instead, good taste should make fashion good for all."

RITA PERNA

Policeman's Tot Is a Wanderer

REDWOOD CITY, Calif. (AP) — Police were unable to get a little 3-year-old girl, found wandering around in a supermarket, to reveal her name or home address.

★ ★

The police were stymied until Patrolman A. J. Mayer strolled in. Instantly the little girl shouted: "That's my daddy." The embarrassed father quickly took little Irene home.

Volunteers Are Needed

The Oakland County Volunteer Bureau's "Expanding Their World" program, devoted to enriching the lives of culturally, economically, and racially deprived adults and children in Oakland County and to developing friendship with them, needs adults, college students, and teenagers to carry out the program.

Specific needs are for art teachers, tutors in junior and senior high school subjects, handicraft and good grooming instructors, and classroom aides. In addition, whole families can enter the one-to-one family program which pairs Negro and white families with children of comparable ages so they may get to know each other in a natural, sincere way by meeting in each other's home.

There are many more opportunities for volunteers in this program. For further information, contact the Oakland County Volunteer Bureau in Birmingham.

Students Convey Books to Library

ST. LOUIS, Mo. (AP) — When the 850 girl students at Fontborne College gathered in front of the college recently, it was not a student demonstration nor a pep rally.

Instead, the girls formed a human conveyor belt and passed 50,000 books from hand to hand, transferring the volumes from the old library at the college to a new one. The books were passed down three flights of steps, across a patio and into the new building.

The little skimmer dress that fits nice 'n' easy and always looks nice 'n' neat is essential for travel wardrobes. Gay Gibson's version has a two-piece look with a solid color top joined to a ticking stripe flared skirt in a waistcoat effect. The stay-fresh canvas fabric is an easy-care blend of Eastman Kodel polyester and cotton that defies wrinkles, looks crisp throughout a busy day's activities. Line carried locally.

Sculpture and Painting Is Topic at Meeting

"Sculpture and Painting" was the topic of speaker Mrs. Mary Underwood at Tuesday's meeting of Phi Chapter, Beta Sigma Phi sorority.

Members took part by creating their own abstracts. Mrs. Karl A. Stickel hosted the group in her Lake Oakland Shores Home.

* * *

Mrs. Kenneth Haake will represent the chapter at the annual all-sorority fashion show and premier showing of "Rosie" at the Huron Theatre Tuesday.

* * *

Members, spouses and guests will attend a social evening at the Haake home on West Huron Street Saturday.

Steel Wool Strainer

When washing your hair, place a piece of steel wool in the drain opening before you begin your shampoo. You will find that all the loose hairs cling to it, preventing them from clogging the drain.

News Analysis

"As the saying goes," the old man liked to say, "there's no use in crying over your hair if you've lost your head."

The old man lost his political head a few years back. This week, on his 74th birthday, he was unlikely to be crying at all. He may have had a good sardonic laugh.

★ ★ ★

Nikita S. Khrushchev, living out his waning years in obscurity, knows how to read between the lines of Pravda and Izvestia.

What he reads can give him a good helping of grim satisfaction. The men who dumped him unceremoniously from his pinnacle 4½ years ago are up to their necks in problems. Their words and deeds indicate a bad case of Kremlin jitters.

SAME SOLUTIONS

They called Khrushchev a "hare-brained schemer" for the way he tried to attack those same problems. Now they are trying to do pretty much the same thing as Khrushchev did, and their success is far from spectacular.

The Soviet Communist party is getting sassed more frequently and with more impunity than ever was the case when Khrushchev was party boss and premier.

The Kremlin is trying even harder than Khrushchev did to bring about a world Communist meeting to unify a movement which resists unification.

★ ★ ★

Communist Romania's leaders have defied the Soviet hierarchy. Czechoslovakia is in ferment from a wave of reform sentiment which the Soviet leaders evidently regard as dangerously contagious. Reform elements moving into control openly accuse the Soviet Union of Stalin's day of having engineered political murders in Czechoslovakia. Some in high places in Moscow today were part of that Stalin apparatus.

Soviet leaders have inspired an intensive campaign against capitalist influence." The Communist party is being told it is the target of a "secret war" waged by the United States to undermine Communist systems.

Engineer-Turned-Guerrilla Wields New Mideast Force

BEIRUT, Lebanon (AP) — A 39-year-old engineer — turned-guerrilla has emerged as a force that could influence events in the turbulent Middle East for years.

★ ★ ★

At age 19, Jerusalem-born Yasser Arafat left Palestine with nearly a million other Arab refugees when the state of Israel was created in 1948.

★ ★ ★

Now the soft-spoken explosives expert is trying to stage a forceful comeback as a sort of a non-Communist Middle East Che Guevara. Neither Israel nor the Arab countries are likely to laugh him off.

Within four years Arafat has built Al Fatah, an organization described as a Palestine national liberation movement, into an active armed force.

NOT POSSIBLE

In fact, some have come to believe that a political settlement of the Arab-Israel conflict is not possible without Al Fatah's consent.

The least Al Fatah seeks is establishment of a predominantly Arab state embracing all of Palestine. That was the name used for the territory of Israel before Jewish leaders took it over 20 years ago.

★ ★ ★

An Al Fatah spokesman says:

"Jews can live in the Arab state of Palestine on the same basis as the Arabs have lived in the state of Israel after 1948.

"We shall never recognize Israel even within her prewar boundaries. Israel has been established in a country which belonged to us and we shall lay down arms only when that country is entirely ours again.

In 1965, Arafat, then known only by his code name of Abu Ammar, was ridiculed when he declared his guerrilla war against Israel with only a couple of hundred men.

At the time Israel scoffed at Al Fatah hit-and-run raids. Jordan and neighboring countries, which feared Israeli reprisals, cracked down on the guerrillas trying to operate from their territory.

★ ★ ★

Now Al Fatah claims to have thousands of highly trained and well armed guerrillas operating against Israel from both the eastern and western banks of the Jordan. Spokesmen say the organization was not seriously affected by Israel's recent air and land attack against Jordan.

King Hussein of Jordan, once an archfoe of Al Fatah, now appears to be befriending the guerrillas despite massive reprisal strikes by Israel.

MUM ON SOURCES

Al Fatah is tight-lipped about its sources of money and arms, but informed sources say it receives money from almost all Arab states.

Its survival has apparently driven many Palestinians living in the Arab world to almost idolize guerrillas, especially after the humiliation of the regular Arab armies in battle against Israel last June.

★ ★ ★

Some sources say thousands of Palestinians are joining Al Fatah training camps in the Arab countries and pouring in contributions to its treasury.

★ ★ ★

To the slim, 5-foot-6 inch Arafat, manpower is not a problem, though he concedes 150 of his men have been killed in action in the last four years.

"We receive hundreds of applications daily," he said.

★ ★ ★

From the start he set this motto for Al Fatah: "Until they liberate their land, Palestinians cannot afford the luxury of political parties. They must work shoulder to shoulder in a national unity."

★ ★ ★

When he left Palestine, Arafat studied and graduated as an engineer from Cairo university. He later joined Egypt's military academy and specialized in explosives.

Cancer May Be Cured Before It's Understood

By Science Service

WASHINGTON — Medical science may well find a cure for cancer before it ever fully understands the disease.

While laboratories around the world perform endless sophisticated experiments to find out why some body cells go mad and create malignancies, medical men in hospitals try what treatments they can devise for actual victims.

Of their three main weapons — surgery, radiation and drugs—the drugs seem to be making the most progress.

Several new chemical agents were reported at this week's meeting of the American Associaton for Cancer Research in Atlantic City.

★ ★ ★

Researchers from the National Cancer Institute at Bethesda, Md., and the Memorial Sloan-Kettering Cancer Center of New York City report good results from Ara-C, or cytosine arabinoside.

DRUGS ARE EFFECTIVE

A Sloan-Kettering research team, headed by Dr. T. S. Gee, used Ara-C in combination with 6-thioguanine. Both drugs were effective against acute leukemia, cancer of the blood-forming organs.

Dr. Edward S. Henderson and his co-workers report that a new method of administering Ara-C has caused the temporary disappearance of all evidence of the disease in 19 of 40 patients with acute myelocytic leukemia—a type of leukemia against which little progress has previously been made.

Earlier methods had involved lower dose or rapid injection of Ara-C, but significantly greater effect was found when greater intravenous doses were given for four hours a day for four consecutive days, then repeated at one-week intervals.

★ ★ ★

Each infusion was preceded by a priming dose one-sixth as large as the main dose, Dr. Henderson says.

MARROW DAMAGE LESS

"The average duration of complete remission," Dr. Henderson reports, "was estimated to be at least three months. Although some other drugs had achieved similar lengths of remission, Ara-C did not produce as serious damage to the bone marrow."

An updated report on the use of L-asparaginase at Sloan-Kettering revealed that 13 of 24 children suffering from acute lymphoblastic leukemia had favorable responses.

The longest remission was 34 weeks when the drug was given by intravenous injection in three different dose schedules.

★ ★ ★

Side effects have been few, Drs. Lisa Tallal and Herbert Oettgen say and "when compared to those of the commonly used therapeutic agents are relatively mild."

IN SCANT SUPPLY

L-asparaginase is an enzyme, which becaue it is not available in large quantities, could not be given in large doses.

Studies in mice, however, have shown that the amount of the drug required to achieve permanent cure of transplanted leukemia, is much larger than the amount needed for temporary remission.

The defect in certain cancer cells that causes them to die when exposed to L-asparaginase was described by Dr. Bernard Horowitz, head of a Sloan-Kettering team.

★ ★ ★

Previous studies had shown that the enzyme breaks down the amino acid call L-asparagine, which seems to be essential to their growth. These sensitive cancer cells must acquire asparagine from an external source such as the blood.

ENZYME IS EFFECTIVE

When the enzyme, asparaginase, is introduced into the patient, it destroys the asparagine needed by the cancer cells and they die.

Since normal cells can make their own asparagine, they are not harmed by the introduction of asparaginase.

The lack of asparagine synthetase by certain cancer cells, which makes these cells dependent on an external source of asparagine, is the first clearly defined qualitative biochemical difference found between normal cells and cancer cells.

Put-Off Club Getting Ahead

PHILADELPHIA (AP) — The local Procrastinators Club of America is getting ahead of itself.

About 30 club members, wives and children welcomed the 1968 baseball season Wednesday night. But instead of going to Connie Mack Stadium, where the Phillies and Los Angeles Dodgers were playing, they went instead to the city's new stadium site, where foundations soon will be laid.

★ ★ ★

They also carried signs lauding the exploits of ball players of an earlier era.

A policeman suggested the need of a permit for the gathering.

★ ★ ★

"We'll get one tomorrow," promised Don Rosenblitt, club vice president.

Smokey the Bear Gets Okay for 24th Year

WASHINGTON (AP) — Smokey the Bear, given a resounding vote of confidence by the public and his sponsors, starts his 24th year today of telling the people: "Only YOU can prevent forest fires."

Sponsors gave him the go-ahead Thursday after disclosing a nationwide public opinion poll showed 90 per cent of all adults and nearly all school-age children are fully acquainted with his efforts to stop man-made fires.

* * *

The fire-fighting bear and his campaign are sponsored by the U.S. Forest Service, the National Association of State Foresters and the Advertising Council.

Smokey didn't attend the ceremony. The bear that survived a forest fire and sparked the campaign instead munched peanuts at the National Zoo, his home since 1950.

* * *

Undersecretary of Agriculture John A. Schnittker told the meeting that, despite great progress in reducing forest fires losses in recent years, 125,000 blazes last year burned forest land equivalent to a 2.5-mile-wide strip extending from New York City to Los Angeles.

More than 10½ million Americans have high blood pressure, and 66,000 of these die each year.

Negro Official Quits in Nevada

LAS VEGAS, Nev. (AP) — Bert Babero, the only Negro member of the Nevada Equal Rights Commission, has sent his resignation to the governor.

* * *

"I am tired of sitting around and waiting for something to do," he said in the letter Thursday.

Man Sought in Bank Swindle Arrested

PALM BEACH, Fla. (AP) — Thomas Nelson Truax, 28, charged with fleeing California after allegedly milking $510,000 from bank accounts of the Association of Bay Area Governments, was arrested in this millionaires' playground early today, the FBI said.

Fred A. Frohbose, special agent in charge of the Miami office of the Federal Bureau of Investigation, said Truax was charged here specifically with conversion of a $60,000 government check to his own use.

* * *

Truax had been sought from coast-to-coast since warrants were issued Feb. 8 in San Francisco charging him with theft of government property.

Frohbose said Truax would be held for a hearing later today before the U.S. commissioner here. He was booked at the West Palm Beach City Jail.

Frohbose said Truax was arrested at about 1:30 a.m. (EST).

Truax was assistant executive director of the Association of Bay Area Governments when he vanished.

IT'S A CONTACT SPORT — There's rugged contact in baseball, too, as exemplified yesterday at Shea Stadium in the first inning. Big Ron Swoboda of the New York Mets barrels into San Francisco catcher Jack Hiatt who manages to hang onto the ball in his bare hand after making the tag. Swoboda broke for home when Art Shamsky was caught in a rundown between first and second base. The Giants gained a 5-3 victory.

Kaline Marks Milestone by Belting Homer

By BRUNO L. KEARNS
Sports Editor, Pontiac Press

For Al Kaline it was 2,000 T.G. (Tiger Games), and a happy celebration it was for the Detroit Tigers and the veteran outfielder.

Kaline, Willie Horton and Dick McAuliffe all blasted home runs to whip the Cleveland Indians, 5-0, and make the new milestone one to remember.

★ ★ ★

Right-hander Joe Sparma also made a big contribution to the happy occasion, in which Kaline became fourth Tiger ever to play 2,000 games, by hurling a 7-hit shutout which pushed the Bengal winning streak to six and a first place tie in the American League with the Minnesota Twins.

Kaline has another record within reach. His first homer of the season in the 5th inning, a moment after McAuliffe made the score read 3-0 with his second, put him just one more blast from Hank Greenberg's all-time Detroit total of 306.

He almost belted it in the 8th inning when with two outs and the bases loaded, he sent Jose Cardenal to the center field warning track for his long fly ball. Had he plulled it, it would have easily cleared the left field fence.

GOOD DEFENSE

The Tigers played an outstanding defensive game especially by McAuliffe at second base, where he stopped a couple Tribe rallies with backhanded stabs.

Horton, who laced out a homer in the bottom of the 10th, hit the same pitch yesterday off Steve Hargan. He hit the 2-1 count the first time up into the left field seats to make it 1-0.

★ ★ ★

A single by Norm Cash, a walk to Bill Freehan and a clutch single by Jim Northrup made it 2-0 in the 4th inning, before the two more homers in the 5th.

After McAuliffe laced a pitch into the third deck of Tiger Stadium, Don Wert laid down a perfect bunt for a single. However he was caught stealing just before Kaline's home run.

The final Tiger run came after a walk to McAuliffe and a stolen base, only the third for the Tigers in seven games. Horton followed with a two-out single for the 5th and final run.

★ ★ ★

The Indians, who used five pitchers, loaded the bases on Sparma in the fourth inning, but pitcher Hargan grounded out to short.

The strategy of walking shortstop Larry Brown intentionally to let Hargan bat paid off. Oyler took Hargan's grounder and touched second for the force play.

INDIAN DROPS BALL

Oyler had a single in the 8th inning, but in the 6th frame with two outs he hit a fly ball to left center and as Cardenal appeared to make a try for it, left fielder Leon Wagner had it in his golve and dropped it for an error. Oyler got all the way to third on the play.

★ ★

On Wednesday, Wagner dropped a liner of Oyler's for a two-base error.

Sparma, who won his first game of the season, and became the second Tiger pitcher to go the distance was pleased with the team's first shutout.

"I smelled the shutout in the 8th inning and I really worked hard to try to hold on to it," he said.

The Tigers open a three-game series in Chicago tonight against the White Sox who have yet to win a game in six starts.

Mickey Lolich will get his second starting assignment in the Tigers' first night game of the season at Comiskey Park.

SHEDDING A TEAR? — Professional baseball players aren't the type who cry easily but Cleveland pitcher Steve Hargan (foreground) appears rather remorseful as Detroit slugger Al Kaline trots around the bases following his upper deck home run to the opposite field yesterday at Tiger Stadium. The blast was the third by the Bengals off Hargan in a 5-0 victory.

Montreal Skates Shine, 9-2

Canadiens Drub Chicago; Blues Defeat Flyers

By The Associated Press

A single skate beat the Philadelphia Flyers, while several pairs of flashing blades did in the Chicago Black Hawks.

A puck bounced off a skate — there is a question of whose skate — and into the net for what proved to be the winning goal in St. Louis' 3-1 victory over the Flyers Thursday night in the final game of the best-of-7 National Hockey League playoff series.

★ ★ ★

The swift Canadiens simply skated off and left Chicago, trouncing the Black Hawks 9-2 as the best-of-7 East Division final series opened in Montreal.

In the other game, the visiting Minnesota North Stars gained the right to meet St. Louis in the West Division final series by beating Los Angeles 9-4 and taking the semifinal set for games to three.

The game at Philadelphia was tied 1-1, when Larry Keenan scored for St. Louis at 10:45 of the second period.

★ ★ ★

Keenan said his shot hit the goal post, then hit Philadelphia defenseman Larry Zeidel's stick and bounced off goalie Bernie Parent's skate into the net.

HIT GOAL POST

But Parent said the puck hit the post and then caromed off Zeidel's skate and into the net.

★ ★ ★

Getting an assist on the play was 43-year-old Doug Harvey, who also played a good defensive game for the Blues. St. Louis called him up Thursday from Kansas City of the Central League. It was Harvey's 129th Stanley Cup game.

St. Louis opened the scoring in the first period on a 30-foot power-play goal by Frank St. Marseille. Philadelphia tied it in the same period on Bill Sutherland's shot. The final goal came on a 75-foot shot by Red Berenson into an empty Philadelphia net with 50 seconds left.

When asked if the Black Hawks will have to hit more and not try to skate with Montreal, Chicago Coach Billy Reay snapped that the Hawks were trying to do just that.

★ ★ ★

"You can't hit what you can't catch, and we couldn't catch them," he said.

The well-rested Canadiens, who won their series with Boston 4-0, zipped to a 7-0 lead before the weary Hawks scored a pair in the final period. Chicago played just last Tuesday night and beat New York for a hard-earned 4-2 series triumph over the Rangers.

HULKING IN FRONT OF HULL — Montreal goaltender "Gump" Worsley uses his considerable bulk to protect the nets against the charge of Chicago superstar Bobby Hull (9) early in last night's Stanley Cup semifinal game at the Forum home of the Canadiens. Worsley blanked the Black Hawks for two periods and the Canadiens cavorted to a 9-2 triumph.

Race in Tourney of Champs Paced by Two Veteran Pros

LAS VEGAS, Nev. (AP) — Paced by two old pros and a member of the younger set in golf, no fewer than 10 players were within three strokes of each other today as play went into the second round of the $150,000 Tournament of Champions.

The veterans were Gardner Dickinson, 40, and Dan Sikes, 37, and the friendly upstart was Kermit Zarley, 26, each of whom shot three-under-par 68s in the first round of action Thursday.

★ ★ ★

The weatherman promised warmer skies and abated winds following the first round chill which prevailed over the 6,708-yard par 36-35—71 Stardust County Club layout.

Deadlocked at 70, two shots behind the leaders, were five challengers, including Billy Casper and newly crowned Masters champion Bob Goalby.

Bracketed with them in quest of the $30,000 top money in this 16th annual spring event were 48-year-old Julius Boros, Don January and another 26-year-old contestant, Randy Glover.

★ ★ ★

Even with par 71 were George Archer and Dudley Wysong.

Well back at 76 was Frank Beard, who won the T of C a year ago. The personable pro from Louisville, Ky., hit into the water hazard for a bogey 6 on the first hole.

Beard wound up with three double bogeys. The last one came on the final hole when his tee shot literally disappeared from sight.

No one has yet determined where it went, but it cost Frank two penalty strokes to bring his total for the round to six.

ABA Has Draft Date

MINNEAPOLIS, Minn. (AP) — Officials of the American Basketball Association announced Thursday that the leagues annual meeting and player draft will be conducted in Minneapolis, May 5-7.

★ ★ ★

The meeting had been previously scheduled for Los Angeles April 6-8. The change became necessary when the ABA playoffs were extended longer than had been anticipated.

No Official Invite Given South Africa

LAUSANNE, Switzerland (AP) — The president of the organizing committee for the Mexico Olympic Games made it clear today that no invitation had been sent to South Africa — "because we have no official information that the South Africans have been re-admitted to the games."

Pedro Ramirez Vasquez said, "We have not received any official word from the International Olympic Committee asking us to invite South Africa. We cannot act solely on press information.

★ ★ ★

"The IOC will request us to invite South Africa depending on decisions taken here by the executive board or by a later plenary session of the full IOC."

The Mexican Olympic chief, said, however, that a resolution will be put to the executive board of the IOC, meeting here in emergency session Saturday and Sunday to discuss the South African question.

Vasquez said that although Mexico has received no official notification of the Grenoble postal vote, he has come to Lausanne to apply IOC rule No. 41 which entitles any Olympic organizing committee to present an appeal in case of controversy threatening the status of the games.

This appeal will be presented by General Jose de Clark, Mexico's representative on the nine-man executive board.

Vasquex added that General Clark will also point out that the Grenoble postal vote, decided by a simple majority, was invalid because under IOC rules any change in the regulations requires a two-thirds majority.

He rejected the claim put forward by IOC officials that as South Africa was never formally suspended there is no question of changing the rules. "South Africa was definitely suspended at the 1963 meeting in Baden-Baden West Germany," he said.

The executive board, under the presidency of 80-year-old American Avery Brundage of Chicago, was called into session after more than 40 countries threatened to boycott the Mexico Games if apartheid South Africa was allowed to compete.

POSTAL TALLY

South Africa was re-admitted to the Games on a postal vote of the 71 members of the IOC Congress during the Winter Games in Grenoble in February.

No official voting figures were given but unofficially it was reported that South Africa squeezed in by a majority of between three and five.

Rule 41, on which Mexico's resolution will be put to the IOC, is headed "Final Court of Appeal and reads: "The executive board of the International Olympic Committee decides all matters of controversy of a non-technical nature concerning the Games.

"Such matters may be submitted only by national Olympic committees, international federations or the organizing committee. In addition the executive board may intervene in all questions of a non-technical nature."

Vasquez said that when Mexico applied to stage the Games it was fully aware that the question of the re-admission of South Africa may come up. "But it would have been pointless to mention it because we never act on suppositions."

Heavy Smelt Runs Start; Perch Biting

Heavy smelt runs are under way along Lake Huron north of Bay City and at Point Pelee near Leamington, Ont.

Action on perch continues good on Saginaw Bay near Grindstone City and Bay Port and in Lake St. Clair — particularly the canals south of 10 Mile.

★ ★ ★

Steelhead fishing is expected to remain good on the Platte, Little Manistee and Pere Marquette rivers this weekend and there's always the coho salmon in Lake Michigan near New Buffalo.

Smelt runs are good at Boutell Road in Bay County, the Singing Bridge south of Tawas and the Thunder Bay River at Alpena. An exceptional run is under way at Hessel in the Upper Peninsula.

Runs are light in the East Jordan area. The Conservation Department reports smelt are still in Lake Huron at Port Huron, but are expected to move into the St. Clair River at any time.

Perch fishing also has been tops in the U.P. near Cedarville and Drummond Island. But the big news in this area is the heaviest smelt run in years.

Golf, Tennis Seasons Open for Pioneers

Oakland University's 1968 tennis and golf seasons begin today at different fields of combat the netters journey to Grand Rapids to meet Calvin, and Albion visits the Pioneer linksmen at Holly Greens Golf Course.

Tennis coach Corey Van Fleet has nine candidates to pick his lineup from, including a Saginaw duo who rank as the top two singles hopes and the No. 1 doubles squad.

Sam Purdy and Bill Stark, though, are being pressed by Glen Beier and Mike Gallagher of St. Clair. Rick Bishop of Royal Oak and Kentuckian Dave Martin also play singles.

A Rochester graduate, Tom Foxlee, is hoping for a doubles spot along with Al Younger of Detroit and Hal Williams of Royal Oak.

Last year's Pioneer netters were 3-1. This year's team has a seven-match schedule.

* * *

The golfers are slated for 10 matches plus a shot at the Alma Invitational. In addition to today's match, they will meet DIT tomorrow at noon and have encounters every day next week.

Seven of the matches will be at Holly Greens. The pioneers will play both Oakland Community College campus teams, and meet Wayne State twice.

After Homer Mark

Mantle Starts 'Countdown'

By RON RAPOPORT
By the Associated Press

Ted Williams is looming right up ahead, but Mickey Mantle has his sights set on Jimmy Foxx.

The home-run countdown season began in earnest Thursday night when the Yankee slugger hit his first one of the season in New York's 6-1 victory over California.

* * *

It was Mantle's 519th career home run, just two short of Williams' total, which is now the fourth best ever compiled. Foxx' total is 534 and Mantle is trying for a crack at it this year.

FRONT-RUNNERS

"I don't set goals," Mantle said after the game, "but it would be nice to pass Foxx this year."

Ahead of Foxx are Babe Ruth with 714 and Willie Mays, who has 565 and is probably good for a few more yet.

* * *

"What I want to do is finish third," said Mantle, not wanting to appear greedy.

* * *

In other American League games, Oakland beat Baltimore 4-3 in 13 innings, Boston beat Chicago 3-0, Detroit topped Cleveland 5-0 and Washington edged Minnesota 7-6.

Mantle's homer came in the fourth inning with Bill Monbouquette on base and Roy White hit another two-run homer in the same inning. Monbouquette turned in a sparkling performance on the mound, allowing just five Angel hits, one a homer by Roger Repoz.

WINNING RUN

John Donaldson drove in the winning run for the Athletics with a sacrifice fly in the 13th for Oakland's first victory in its new stadium. The key play in the inning came when Brooks Robinson tried to force a runner at second on a bunt and failed. Had he gone to first, Donaldson's fly would have been the third out of the inning.

Jose Santiago pitched a two-hitter against the White Sox who are still looking for their first victory of the season. Santiago held the White Sox hitless for five innings.

* * *

Rod Carew was tagged out in a run-down with two out and the bases loaded in the ninth and the Twins' six-game unbeaten streak ended. The Senators scored six times in the fifth inning. Ted Uhlaender and Bob Allison homered for the Twins.

GIFT FROM TITANS — Success in high school baseball often depends on the ability to take advantage of the opposition's defensive lapses. Rochester's Mike Scally slides home Thursday with the Falcon's first run in a 6-1 victory as pitcher Jeff Solwold of Pontiac Catholic is unable to grab the ball (arrow) in time to make the tag. Scally doubled and came home from second on a wild pitch as the Titans failed to recover from the misplay promptly. Umpire Dick Bye, batter Dane Meredith and on-deck hitter Les Littlejohn have close-up views of the action.

Shrine Falls on No-Hitter

Rochester, Walled Lake 9s Win

Pontiac Catholic handed Rochester a 6-1 baseball victory yesterday as the undefeated Falcons upped their record to 3-0.

Walled Lake overcame two early Brother Rice leads for a 3-2 triumph in Birmingham; and Royal Oak Shrine suffered a 1-0 no-hit loss to Detroit Benedictine in a AA Division contest.

★ ★ ★

The PCHS Titans outhit Rochester, 4-3, but five errors and other defensive lapses led to every Falcon run. Tom Herling and Al Thomas combined to strike out 11 of the losers.

Tim Boyer doubled home the only Pontiac Catholic tally.

Shortstop Dave Girard singled twice, doubled and walked to produce 1-0 and 2-1 Brother Rice leads. But Walled Lake struck back in the sixth with the aid of an error.

★ ★ ★

The Vikings loaded the bases in the sixth with two outs. Pat Piilo's screaming liner was knocked down by sophomore southpaw Steve Fisher but he rushed his throw to first for a two-run error that decided the game.

Walled Lake and Brother Rice are both 2-1.

Shrine suffered its first loss when Bob Smarda's single scored the only run of the game in Benedictine's half of the sixth inning and it was held hitless by Bill Knight.

Loser Jim Chiesa struck out 16 but allowed his only hit and one of the two walks in the fateful sixth.

Lake Orion 9 Boosts Mark

Dragons Clip Oxford in Prep Play, 4-2

Lake Orion boosted its baseball record to 4-2 Thursday with a come-from-behind 4-2 win over Oxford as winning pitcher Ed Cowger sparked the decisive rally.

Novi remained unbeaten with an easy 8-2 romp over Manchester; and South Lyon trimmed Saline, 5-2, to square its record in the Southeastern Conference.

Cowger doubled home the tie-breaking run in the last of sixth after Darrell Marsh's single and triple produced both Oxford tallies.

Cowger scored an insurance run on a fielder's choice. The Orion hurler whiffed 10. Ed Bretzlaff doubled home two runs for the Dragons in the fifth inning for a brief 2-1 lead.

★ ★ ★

Lee Snow fanned seven and scattered eight hits as Novi won its second game with a loss. Phil McMillan singled twice to drive in two runs, including the tie-breaking safety in the Wildcats' seven-run fifth inning.

Double Win for CMU 9

MOUNT PLEASANT (UPI) — Central Michigan put 36 hits together Thursday and had little difficulty with visiting Calvin College, downing the Grand Rapids school 10-1 and 14-4.

The double win boosted the Chippewas' mark this season to 15-2 while Calvin dropped to 2-9. The first game went nine innings, the second went six.

Wolves, Andover Keep Pace

Northville Wallops Lakers

Defending champ Northville combined 11 hits and six West Bloomfield errors for a 15-3 triumph Thursday, while Clarkston and Bloomfield Hills Andover stayed even with the Mustangs in Wayne-Oakland League victories.

Andover trimmed Milford, 9-1, as John Baumann scattered three hits. Dick Johnson's three-hitter led Clarkston to a 7-1 win at Brighton.

Holly erupted for seven runs in the second inning to rout Clarenceville, 9-3. Northville, Andover and Clarkston all are 2-0 while Holly is 1-1 in league action.

Northville's Mustangs tallied four times in the first inning on one hit, then salted the game away in the fourth on Dennis Primeau's grand-slam home run. Stan Nirider added a triple, two singles and a pair of rbi's for the winners.

Mickey Elwood tripled and singled twice for West Bloomfield, now 0-2 in the circuit.

★ ★ ★

Roger Hershamn rapped a two-run double in Andover's seven-run third inning at Milford and Dick Souther drove in two runs in the outburst. Rick Maxwell had two rbi's for the Barons, also. Milford is now 1-1.

★ ★ ★

Rbi-singles by Phil Morse (the winning pitcher), Mike Tubbs and Chuck Keefer highlighted Holly's big inning.

Champions' Round in Women's Meet

PINEHURST, N.C. (AP) — Connie Day, a 25-year-old Cleveland, Tenn., blonde, met 41-year-old Mrs. Alice Dye of Indianapolis today for the women's North and South Amateur Golf Championship.

They also met in the tournament last year, Miss Day winning it 4 and 3—but that was in the semifinals.

★ ★ ★

Each had a difficult test before pulling out a victory in Thursday's semifinals over the Pinehurst Country Club's No. 2 course.

Mrs. Dye edged Maureen Crum of Lakeland, Fla., 1-up, and Miss Day delivered a 15-foot birdie putt on the 21st hole to outlast Kay Beard of Campbellsville, Ky.

Aussie Meets Spanish Pro

PARIS (AP) — Ken Rosewall of Australia and Andres Gimeno of Spain meet tonight in the final of the pro tennis tourney at the Pierre de Coubertin Stadium.

★ ★ ★

Rosewall beat Pancho Gonzales of Los Angeles 6-4, 8-6 and Gimeno defeated Rod Laver of Australia 9-7, 6-1 in Thursday's semifinals.

Military May Get Services of Big Rookie

BALTIMORE (AP) — The Baltimore Bullets won the financial battle for Westley Unseld but the U.S. Army might get first crack at the two-time All-American's services.

* * *

Unseld, 6-foot-7¾ center from the University of Louisville, signed an undisclosed long-term contract with the National Basketball Association club Thursday and said he still hadn't heard word regarding the Army physical he took recently.

The maximum height for the Army is 6-foot-8.

12th Inning Cards' Weakness

By the Associated Press

Bob Lee has found a chink in the St. Louis Cardinal armor. The World Champions show a definite weakness around the 12th inning.

Lee, Cincinnati's veteran reliever, picked up his second straight 12th inning victory over the Cards Thursday night and the score both times was 4-3.

* * *

In the only other National League games scheduled, Atlanta rode Felipe Alou's second home run of the game to a 5-3 ninth inning victory over Chicago, and Willie Mays' bases-loaded double drove in three runs as San Francisco rallied for a 5-3 victory over the New York Mets.

Lee worked out of a 12th inning jam and picked up Wednesday's victory when Pete Rose doubled a nd came in on Lee May's single. On Thursday, the big left-hander had to work a bit harder for the victory, going three innings before another Rose double broke it up.

FROM BEHIND

Atlanta was down to its last out, trailing Chicago 3-2 in the ninth. But Sandy Valdespino singled and pinch hitter Mike Lum tripled him home. Pete Mikkelsen relieved for the Cubs and Alou lined his second homer of the game to win it for the Braves.

* * *

Alou and Clete Boyer had accounted for Atlanta's first two runs with solo homers—Boyer's run batted in was the 500th of his major league career.

Adolfo Phillips had a two-run shot for the Cubs.

* * *

It may have been a costly victory for the Braves. Slugger Joe Torre was struck in the side of the head by a pitch in the eighth inning and left the field bleeding from the nose. He was taken to a hospital for X rays.

"The preliminary examination on Torre looks good," said Atlanta Manager Luman Harris. "He was bleeding from the nose but wasn't cut badly. Torre said he never saw the ball, didn't freeze or anything just never saw it."

* * *

Mays stroked two doubles against the Mets—the second one clearing the bases in the seventh inning. That wiped out a 3-2 New York lead built mostly on pitcher Don Cardwell's two-run homer.

The Giants had loaded the bases with two out against Cardwell on two singles and a walk. Danny Frisella relieved and Mays sliced a two-strike pitch to right field for the winning hit.

The two doubles gave Mays 1,116 extra base hits in his career, tying him with Ted Williams for seventh place on the alltime list.

Coleman Is Chosen to MSU Grid Staff

EAST LANSING (UPI) — Don Coleman, Michigan State's greatest football star who once quit football because he would rather teach, has been named the first Negro member of MSU's coaching staff.

* * *

Coleman, about to turn 39, will leave his school principal's job in Flint June 15 to join Coach Hugh (Duffy) Daugherty's staff. His appointment was announced Thursday by the MSU Board of Trustees.

No mention was made of Coleman's race, but his appointment came just two weeks after Negro students demanded the university begin hiring some Negro coaches. MSU officials said they had been interviewing candidates for the coaching slot for some time.

Debbie Meyer Sets Record in AAU Swim

PITTSBURGH (AP) — Debbie Meyer was 12. In her mind, she was a failure.

She had been swimming for seven years—four of them in competition—and hadn't made much of a ripple in the swimming world.

"I didn't think I'd be anything and I thought I'd quit," confesses the Sacramento, Calif., lass.

But 12 years doesn't make a lifetime, and Debbi e kept on splashing.

Thursday, she slashed an incredible 12.8 seconds off the women's AAU 500-yard freestyle record by churning to victory in 4:54.1.

Two other records were set in the AAU spring women's championships.

Kaye Hall of Tacoma, Wash., swam the 100-yard backstroke in 0:59.3, breaking the previous record of 1:06.6 set by Catie Ball of Jacksonville, Fla.

Claudia Kolb of Santa Clara, Calif., swam the 200-yard individual medley in 2:08.5, bettering her own record of 2:09.7.

Miss Kolb, 17, holds two world records and won a silver medal in the 1964 Olympics at the age of 13.

Celtics Hope for Third Straight Over 76ers Tonight

By the Associates Press

The Boston Celtics, who twice have bounced back from the verge of elimination, hope to make it three in a row over the Philadelphia 76ers tonight and set another record in the National Basketball Association.

Never before in the NBA playoffs has a team won a best-of-7 series after being down 3-1. Thus it would be an unprecedented feat for the Celtics to whip the 76ers again in the deciding game tonight in Philadelphia.

* * *

Such an accomplishment would give Boston the Eastern Division final playoff title and put the Celts in position to win back the NBA championship. They had won an unprecedented eight consecutive NBA crowns until Philadelphia took the championship last year.

Tonight's winner will oppose the Los Angeles Lakers in the championship playoff series with the first game scheduled for Sunday at either Philadelphia or Boston.

Pittsburgh took the lead Thursday night in the opening of the championship series in the American Basketball Association. The Pipers beat New Orleans 120-112 to go one up in the best-of-7 playoff.

Connie Hawkins led the Pipers with 39 points and good floorwork. Austin Robbins, with 41, and Doug Moe, with 30, combined for 71 points for New Orleans, but the Bucs fell behind early and never caught up. At one point they trailed by 18 points.

The game was at the Civic Arena in Pittsburgh where the second game also will be played Saturday night. The third and fourth are scheduled for New Orleans next week.

Waterford Thinclads Win; PNH Tripped

Farmington took the measure of Pontiac Northern and Waterford remained undefeated in track meets yesterday.

* * *

Northern won only four events as the Huskies lost the Inter-Lakes meet, 72½-45½. Waterford won every event in downing Wayne John Glenn, 115-33. Southfield Lathrup, the other participant in the triangular, did not score.

Rochester breezed past Utica Stevenson, 100-18, and West Bloomfield routed Clarenceville, 81½-36½.

Larry Biskner won the high and long jumps, the pole vault and ran a leg on the first place 880 team for Waterford. Steve Lohff took both dashes and Tim Willis captured the two hurdle races.

* * *

Gary Miller won the long jump and the high jump (6-0) and Bob Woodruff took the 100 (10.3) and 220 (23.2) to pace Rochester. Dave Marr ran a 52.8 44 for the Falcons who are 3-1 in dual competition.

Terry Conley stepped the 100 in 10.4 and the 220 in 23.0 to lead West Bloomfield. The 880 relay won in 1:32.3 on the composition track at Clarenceville.

NEXT STOP: CLEVELAND — Cloverleaf Lanes in Cleveland is the destination of these five Pontiac area women bowlers next week as they will vie for UAW-CIO championship at the annual International Tournament. (Left to right) Bonnie Beach, Bernice Stafford, Mary Stafford, Angie Bushey and Judy McRath teamed together for the first time to win the unions' Region 1 and 1A titles last month at Sunnybrook Lanes in Utica.

Woman Sets Keg Record

ROCHESTER, N.Y. (AP) — Mrs. Millie Ignizio Martorella of Rochester, current queen of the nation's women bowlers, finished an 81-game league schedule this season with a record 219 average.

An official of the women's International Bowling Congress said it was the best sanctioned average ever rolled by a female kegler.

Mrs. Martorella fired 10 700-and bettered her last season's 212 average, which also was tops in the nation. She will defend her queen's title May 13 at the WIBC Tournament in San Antonio, Tex.

63 Puts Lunn in Golf Lead

Two Strokes Ahead in Azalea Tourney

WILMINGTON, N.C. (AP) — That loud chirping sound noted along coastal North Carolina Thursday was made by dozens of birdies—recorded in wholesale lots in the first round of the $35,000 Azalea Open Golf Tournament.

* * *

Five eagles added to the uproar as the so-called lesser lights of the pro tour made mincemeat of par. Fifty-seven of the 144-man field bettered the regulation 71 for the 6,575-yard Cape Fear Country Club course.

The day's biggest catch, an eagle and seven birdies, went to Bob Lunn. The 1963 Publinx champion, who will be 23 next Wednesday, matched the course record with a 63 that gave him a two-stroke lead over Steve Reid.

* * *

In addition, Lunn set a course record with his 28 on the back nine, seven under par and only one shot over the PGA nine-hole mark set by Mike Souchak when he won the 1955 Texas Open.

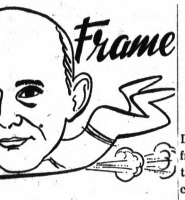
Plans Widget Tryouts

Yellow Cab entry in the city junior baseball Widget boys' program will have tryouts 9 a.m. Saturday at Jaycee Park.



By JERE CRAIG

Another outstanding year in local league bowling is rapidly closing its books on the winter season with 11 establishments reporting scores high enough to gain special recognition on The Press' High Score List.

While the list isn't "all-inclusive" of the many excellent scores reported this season (nearly 25 men had actual 715 or better series, and more than 20 women surpassed 245 actual games), it does reflect the cream of the crop for the Pontiac area.

Perhaps the season's high point was reached on the last Thursday of March at 300 Bowl when veteran Millie Anderson rolled 278-235-202 for a 715 series.

That is the highest sanctioned series ever rolled locally by a woman and her 278 game was only 11 pins away from Shirley Pointer's 289 high game of two years ago.

Mrs. Anderson received a plaque late Thursday afternoon from the 300 Bowl coowners Garry and Larry Crake just before her final session with the Lawyer's Title League members who cheered her on to the record effort.

While Millie was leading the distaff scoring, George Ellman bowled a 768 just this month at North Hill Lanes to top the men's series list.

As usual, several perfect games were rolled. Ray Brancheau (Sylvan Lanes), Ed Bate (Livonia's Wonderland Lanes), Dick Carmichael (Lakewood Lanes) and Vince Spencer (Rochester Lanes) all had 300 games to reach the high point of their careers.

* * *

A hearty pat on the back of the bowling shirt or blouse to all those on the list. Hopefully, the list is complete but, if not, it is urged that league secretaries next season be mindful of this new feature and be complete in reporting their individual league highs.

SPARE PINS

Familiar local bowler Joe Foster is currently in line for a $1,000 payoff for his efforts at the rich Petersen Classic in Chicago. Joe already has earned $100 for leading his particular squad with 1550 for eight games.

That places him among the top 75 at this year's tourney. Northville's Mike Eastland had a 1552 on a different squad and also is in the $1,000 payoff bracket.

Former American Bowling Congress team champion 300 Bowl bowled at Cincinnati this week in the ABC meet. While not cracking the top 10, "300" had a 2823 total and will make some money.

Brooks Robertson had a 604 in the team event and finished with a 1740 All-events score. Dave Moreno (624) and Larry Crake (612) also had strong performances.

The County Retirees League continues to grow at West Side Lanes. More than 150, about three times the number at the first one four springs ago.

Recently two triplicates highlighted the action. Charter member Isadore Mintz rolled three 121s last week, and a team of Jim Kenney, Jim Langsford, Al Kohn, Eugene Shelton and Bill West had matching 668s.

Ammon Martin's 256 game, two 613s in a row by Martin Seigers and Erma Larson's 494 are the high actual scores this season for the retirees.

Phoenix Kegler Classic Leader

CINCINNATI (AP) — Dave Davis, a leading touring pro from Phoenix, Ariz., combined three big games for a 741 to claim the lead in classic singles of the American Bowling Congress tourney Thursday.

* * *

Davis had games of 275, 235 and 231.

In regular singles, Gary Lewis of Chicago racked up a 279 and finished with 734 to grab seconds in singles, as he missed overtaking leader Wayne Kowalski of Revere, Mass., who has 738.

By Oswald and James Jacoby

The previous four columns have been written by James Jacoby to describe his new team. Today Jim goes one step further by asking his teammate Bobby Wolff to write about his favorite hand of all time.

JACOBY

Bobby writes, "I usually get into the bidding with two aces and five spades, but the unfavorable vulnerability and maybe a sudden burst of caution caused me to pass over South's heart opening.

After North's three heart and South's four heart calls I expected to lead against a routine game contract, when much to my surprise North cue bid both diamonds and clubs and thereby carried South to a heart slam.

"It isn't often that I find myself on lead against a slam with two aces. It is even less frequent for me to decide not to lead either of them.

"Fortunately the bidding had proceeded slowly so that I had time to think over my lead while South was puzzling over his partner's six club call. It wasn't hard to decide against the club lead. North clearly had shown that he did not have any clubs. It also seemed pointless to lead a red card.

"The suit to attack was spades. North had bid just like a man with the king of spades. I couldn't get two tricks by leading my ace. Maybe an underlead would work. I led the four of spades. South pondered, played dummy's jack and went down one."

This happy ending reminds me of one of Oswald Jacoby's least happy hands. He also underled the ace of spades against a heart slam. Dummy held the queen; declarer the jack. After a low play from dummy, third hand played the 10 of spades instead of the king and declarer made an impossible slam.

CARD Sense

Q—The bidding has been:

West	North	East	South
	1 ♣	Dble	2 ♠
Pass	3 ♥	Pass	?

You, South, hold:
♠ K 8 7 6 ♥ K 3 ♦ 7 4 3 ♣ 8 5 4 2
What do you do now?

A—Bid four spades. You have the same two kings you started with, but that king of hearts appears to be a key card.

TODAY'S QUESTION

Again East doubles your partner's one spade opening. You, South, hold
♠ K 8 7 6 ♥ K 3 ♦ K 8 6 5 4 ♣ 3 2
What do you do now?

Staff Contracts Before Board

OCC Trustees Will Meet on Thursday

Oakland Community College Board of Trustees will meet next Thursday to approve contracts for its administrators and faculty for 1968-69.

Administrative staff recommendations were presented to the board last night. Faculty contracts are being negotiated.

A recommendation to withdraw a $27,000 proposal to landscape the Orchard Ridge campus in Farmington Township this spring was postponed because of the absence of Trustee Mrs. Lila Johnson.

In other business, Billy Rose of Waterford Township was named to the new position of associate dean of career and evening programs at Auburns Hills campus in Pontiac Township.

★ ★ ★

His salary for 12 months, beginning in July, will be $14,700.

It was announced that the Highland Lakes campus newspaper, The Second Front, was awarded seccnd place in Michigan junior college competition by the Michigan Collegiate Press Association.

Joel Smith is editor and Tom Moors is news editor. Both live in Birmingham.

Arranging Brings Enrichment

When asked the secret of his enthusiasm and the unfailing freshness with which he viewed life, a great poet once said simply, "I perceive beauty." The same possibility is open to anyone who loves and handles fresh flowers.

A newly creative way of looking at every growing thing is one of the life enriching pleasures that flower arranging brings.

Save Your Hand

Never unclog your power mower while it is running. A hand is no competition for a running blade.

There are 25 per cent more women gardeners than men in the U.S.A. recent polls reveal.

Area Man to Show Design Pointers

Flower arrangement demonstrations will be conducted at Free Lawn and Garden Fair by Utica florist Chuck Bannow at 10 a.m., noon, 2 and 4 p.m. in the demonstration area.

See the techniques of floral design and hear the pointers on how to make pleasing designs with flowers in the home.

Learn from the experts and see in person the principles of harmony, rhythm, unity, scale, balance and accent in practice.

The fair will be held May 4 at Michigan State Fair Grounds.

The Cape Hyacinth, galtonia candicans, is a valuable summer-flowering bulb with long, slender leaves and a candelabra-like spray pure white bell-shaped blossoms borne on a scape 3-4 feet tall.

Tree Care, Topic at Garden Fair

You can plant trees anytime they're dormant, from fall through April. But early spring is the preferred time, says Jack Schwartz, urban horticulturist. The soil is usually moist in early spring, and temperatures are cool.

Plants can grow new roots and become fairly well established before hot, dry weather starts. For information on how to best plant and care for your trees attend the Free Lawn and Garden Fair May 4, at the Michigan State Fairgrounds.

Selecting the location for trees and shrubs requires careful planning. In general, it's best to plant shrubs at least three feet away from a building. Small flowering trees may be planted as close as eight to ten feet from the house, but large shade trees should be planted at least twenty-five or thirty feet away—and preferably thirty-five to forty.

You'll also need to consider telephone and electric lines overhead, sidewalks, sewer pipes, curbs and driveways.

★ ★ ★

You can buy trees at nurseries either with bare roots or with a ball of soil wrapped in burlap around the roots. Bare-rooted trees dry out quickly if left uncovered. Keep roots moist, and plant as soon as possible. Bare-rooted trees may cost you less to buy, but they usually don't grow as well or as fast as balled and burlapped ones.

PREPARE SOIL

Soil preparation is very important for the future growth of any tree or shrub. The hole should be half again as wide and deep as the ball of earth or the root system. Straight sides and a flat bottom in the hole are recommended. That way—more good soil can be placed near roots and plants settle more evenly. If roots show growth in two main directions, you may find it best to place a small mound of soil at the bottom of the hole to support the tree.

Discard subsoil and mix the topsoil with generous amounts of peat moss, compost, leafmold or similar material. You may want to use sand if the soil is heavy. Be sure to plant trees or shrubs at the same level they were growing before—and no deeper.

Place balled and burlapped plants in the hole with the burlap on. After the plant is packed with soil, loosen the top of the burlap and leave it at the sides of the plant. Add several gallons of water. Allow it to settle before filling the rest of the hole with soil. Form a basin around the tree to hold future water. Three or four inches of peat moss or other humus will also help hold moisture.

★ ★ ★

Trees up to two inches in trunk diameter will need one to three stakes for support. Trees with a diameter over two inches will probably need guy wires the first two years. Pieces of garden hose or inner tube at points of contact help protect bark from damage by wires.

Prune the plants while they're dormant to balance their tops with the loss of roots that occurs when transplanting. Another reason for pruning is to shape the tree. When you prune—keep the tree's natural shape.

Remove low growing limbs by making a clean cut close to the trunk and shorten other limbs. But be careful not to cut back the leader—or main shoot—since it may determine the tree's shape.

★ ★ ★

Careful planting practices pay off in faster growth and a healthier plant.

African Violet Show to Open April 27

The Michigan State African Violet Society presents its ninth annual show in the South Lyon Youth Center, Pontiac Trail, South Lyon.

Open to the public, show hours are from 2-8 p.m. April 27 and noon to 5 p.m. April 28.

This year's theme is "African Violets Visit South Lyon."

Among the awards are a silver bowl, a gold rosette and a green rosette from the African Violet Society of America. Exhibitors are divided into classes (novice, amateur and advanced). Each will compete for recognition in his own class.

Erwin Erkfitz will lecture on poisonous sprays April 28 at 2 p.m. In addition there will be workshops and a clinic on the care of African violets.

Fertilizer Makes Difference

"Yellow lawns, sick trees and, generally poor coloring of flowers and vegetables" have been reported in great numbers in the past weeks according to Jack Schwartz, urban horticulturist, of the County Cooperative Extension Service.

These problems are best answered if the home gardener thinks back to the abnormally wet, late spring and early summer experienced this year.

It should be understood that when fetilizers are applied we are, for all practical purposes, applying three essential nutrients to the soil. These are: NITROGEN, PHOSOPHORUS, and POTASSIUM.

Phosphorus and potassium when applied in a regular fertilizing program, are often tightly held in the soil and are, therefore, often present in quantities equal to or surpassing the plant requirements for the year.

The first element, nitrogen, persents a different story. It is from this nutrient that we get the predominant green color in our plants as it aids in the formation of chlorophyll, the green coloring of plants.

POOR COLOR

Without sufficient quantities of nitrogen, plants turn a color that is not appealing to the conscientious gardener. Unfortunately, nitrogen is relatively easily leached or washed from the soil in the presence of excessive rainfall and lawn watring.

The reverse of this situation can also be true. If an application of fertilizer were put on early in the year, and it stayed cold, as it did this spring, and this first application was then followed by a second application the groundwork was laid for trouble to develop.

The release of the nitrogen for plant use depends upon suitable temerature and moisture. The warm weather came, as did the rains, the nitrogen was released in the soil and subsequent "burning" resulted.

Understanding this we can easily see why many plants today do not show the rich green color that one might expect to see in years of a more normal rainfall and temperature pattern.

Many lawn maintenance firms have been unjustly accused of "not applying enough fertilizer" or "not putting on the right kind," or even told they are "falsely advertising when guaranteeing a green lawn."

It is the suggestion of the County Cooperative Extension Service that all those concerned with this problem make compensations for the extreme rainy conditions and apply additional nitrogen fertilizer, as necessary, to supplement that lost by leaching.

Evergreens All-Season Favorites

Is your garden drab and uninteresting? If it is, plant some evergreens. Any or all kinds will give you points of interest all through the drab season out of doors. They also help shield your house from winds and noise and shelter birds.

Planting is simple. All come balled and burlapped usually. Just make a hole at least 50 per cent larger in diameter than the ball. Then shovel some good enriched soil containing peatmoss to retain moisture into the bottom and fill in around the ball with the same type of soil wetting it well and leaving a shallow saucer-like depression over the soil ball to hold water.

Proper soil preparation is the secret of plant success.

Now, for a guide to what to choose for specific purposes:

If you want very low evergreens near the house, in the rock garden or to face down taller plantings, try the swarf spreading junipers, the bluish creepers like Wilton and Bar Harbor; the always-green Sargent, Pfitzer and Japanese junipers; the low but upright Andorra Juniper which turns a bronzy tone in winter. And a little taller, the mugho pine. All are easy to handle and prune.

UPRIGHT

For an upright pyramidal but extremely slow-growing plant to use in rock gardens, etc. the dwarf Alberta spruce has no equal. If you'd like a colorful evergreen hedge, plant every winter hemlocks, yews or even pines. One cutting a year is all thats needed.

Suppose your plans call for middle-sized trees, up to 30 or so feet, set out red cedars (green, bluish or yellow-tinted) in poor soil and windy places. They will give you a tall, narrow effect. Where soil is damper and there is less wind use arbor-vitae and the plume cypresses.

Now for the larger trees. For relatively narrow, pyramidal trees try the formal spruces, Colorado blue and blue white spruce. For a softer effect try the blue-tinted white fir, the Nordmann and the hemlocks.

Finally, this brings us to the broad spreading and tall pines such as the bluish-tinted eastern and western white pines. For beach use try the Japanese black pine, the sturdy Norway pine and the rugged Oriental-looking Scots, pine.

Whichever is your choice all will serve you well and long.

Cutting Grass Is a Science

Mowing a lawn is more than just "cutting the grass." Doing the job wrong could be the big reason your lawn doesn't look as good as it should.

Michigan State University research shows the best cutting height for Kentucky bluegrass, red fescue and ryegrass is 1½- to 2 inches.

For bentgrass, the species most commonly used on sports turfs, the ideal height is ¼ to ½ inch.

Then there is your mower. MSU studies show that mowing with a reel-type mower will give you a lawn of superior appearance, especially if you have a high maintenance lawn — one that is carefully fertilized and watered.

College Professor Glad Enthusiast

One of the biggest boosters for growing gladiolus is Dr. Earl J. Hamilton, professor of economics at the University of Chicago, and winner of many awards in glad competition.

Dr. Hamilton is better able than most folk to spread the glad word about glads around the world. He speaks six languages fluently.

A Safety Must

Prevent mowing accidents before you mow your lawn, clear the work area of all children and pets.

"No occupation is so delightful to me as the culture of the earth, and no culture comparable to that of the garden," said Thomas Jefferson.

FIRST YEAR — The patio's paved, the rocks in place. Your setting is all set. Now you need a yearly change of scene so the setting doesn't become monotonous. Why not change the flowers?

For instance, one year you might use Wild Cherry zinnias edged with ageratum in front of the fence; plant a few Carefree geraniums between the rocks with ageratum to soften them.

SECOND YEAR—The next year a change is obviously needed, so first plan an entirely new color scheme. Use the gray-white leaves of dusty miller as an edging, backing them with bright salmon geraniums.

Then, around the rocks, mass Peach Blossom petunias all by themselves for a two-toned effect of salmon-pink petals with white throats. Design a new planting each year this same way.

Hang on to Christmas Lights

Have you put away your electric Christmas tree lights until next December?

Well, bring them back out!

You're not only missing a sensible return on your initial investment by keeping them stored, but you're also passing up several opportunities this year when electric tree lights can serve both a romantic and practical purpose.

And if you hurry, you can be the first on your block.

According to Albert V. Sadacca, president of World Wide Enterprises, Inc., there are at least three national occasions during any one year where electric tree lights can be used to liven up your home — Decoration Day, July 4th and Thanksgiving Day.

NOVEL ACCENT

"You can easily liven up both the interior and exterior of your home on these holidays by simply stringing twinkling electric tree lights in strategic locations," he indicates. "Why just associate twinkling lights with Christmas when you can use them in the garden area, around exterior doors, and in your living room and dining room. Can't you just imagine miniature lights twinkling in a variety of colors while your guests are having dinner?

"Strange as it may seem, there are no city ordinances, state laws or federal regulations forbidding the citizen to only use electric tree lights at Christmas time. Honest!"

Sadacca is literally in love with the splendor of twinkling lights. He often strings them out at his residence in Florida, just to see the amazed — but pleased — expressions on the faces of his guests.

"It's easy to see that the message has gotten through," he said.

He also emphasizes the use of electric tree lights on very happy occasions, such as birthdays and anniversaries.

"These are happy occasions, and the twinkling lights constantly reflect happiness, and that is as good a reason as any. Everybody admits that outside lights at Christmas time give a warm feeling, so why just stop at Christmas time?"

These tomatoes were grown in Redi-Earth. They almost crowded the man out of his garden. Give your transplants plenty of room to grow when you plant them in Redi-Earth.

Plant your shrubs, trees, vegetables and flowers in new Redi-Earth® and *sta-a-a-a-a-nd back!*

They all grow faster. Bigger. Stronger. Healthier. And more beautiful.

WHAT IS REDI-EARTH?

Back in 1960, professional growers were becoming alarmed. They couldn't get good rich topsoil anymore. As a result, their flowers, shrubs and bushes took longer to grow. They didn't bear as well. And too many of them sickened and died.

Scientists at Cornell University in Ithaca, New York, took on the project of finding a better growing medium.

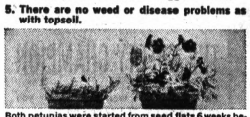
They tested hundreds of formulations before they settled on one.

It consisted of horticultural vermiculite, sphagnum peat moss, special trace elements and plant nutrients. We call this same mix Redi-Earth.

THOUSANDS OF "PRO'S" NOW USE REDI-EARTH

Professional growers all over the country now use Redi-Earth. They find that:

1. More seed springs to life.
2. Growing time is reduced up to five weeks.
3. The plants grow even bigger and healthier than in rich topsoil.
4. Shrubs and bushes grow bigger; fill in better. Flowers produce more and bigger blooms.
5. There are no weed or disease problems as with topsoil.



Both petunias were started from seed flats 6 weeks before the picture was taken. Left plant was grown in rich topsoil. Right plant was grown in Redi-Earth.

As a result, some of the food you eat and many of the plants and bulbs you buy were grown in Redi-Earth.

YOU CAN'T MAKE A MISTAKE WITH REDI-EARTH

Redi-Earth comes in a bag. Easy to store. Easy to handle, lightweight. And it's easy to use.

1. Dig your hole as wide and deep as instructions direct.

2. Pour 2" to 6" of Redi-Earth into bottom of hole.

3. Place the shrub, bulb, tree, flowers or vegetables in the hole.

4. Fill in around ball or roots with Redi-Earth, tamp down, fill in top with dirt. Then water and sta-a-a-a-a-nd back!

You can't make a mistake with Redi-Earth because all the mixing is done for you. It is a complete, scientifically balanced, one-step growing medium.

Redi-Earth is guaranteed to work. You must be satisfied with it or we will refund your money.

Wednesday, Thursday and Friday

Garden Forum to Be Held Next Week

By JODY HEADLEE
Pontiac Press Garden Editor

There's still time to register for the seventh annual Clara B. Ford Garden Forum at Greenfield Village but it's running short.

The three-day forum next Wednesday, Thursday and Friday will feature well-known speakers from around the country including Carlton B. Lees, executive director of the Massachusetts Horticultural Society and Robert P. Wintz, executive director of the Chicago Horticultural Society.

The two experts will kick off the program Wednesday. Lees' topic will be "Better Gardens Make a Better World," and Wintz' "Garden Annuals — Our Perennial Favorites."

To accommodate working gardeners, this year's forum has scheduled two evening meetings, Wednesday and Thursday.

* * *

Dr. P. P. Pirone, senior plant pathologist, The New York Botanical Gardens, Bronx, N. Y., will discuss "Plant Diseases and Pests and Their Control" at 8:30 p.m. Wednesday.

PLANT PALS

"Botanical Immigrants — Garden Flowers, Roadside Weeds and Shade Trees," will be the topic of Thursday evening's speaker Dr. Richard A. Howard, director, The Arnold Arboretum, Harvard University.

Speaking during the day Thursday will be Barbara Emerson, AmChem Products, on "The Back Yard Garden," Isabel Zucker, director, National Garden Bureau and president Garden Writers' Association of America on "Flowering Shrubs and Trees to Know and Grow."

Marshall Engle, Greenfield Village florist, will give a demonstration on "Drying Plant Materials for Flower Arrangements" beginning at 2 p.m. Thursday.

* * *

James A. Fowler, naturalist and director of Education, The Henry Ford Museum, will share the speaker's podium Friday with Robert G. Wheeler, director of crafts, The Henry Ford Museum. Wheeler will speak on the Early Dutch influence of Early American gardens ("In the Beginning") and Fowler "Our Heritage of Natural Beauty."

If you can't arrange to attend all of the lectures, you may register for portions. Contact the Henry Ford Museum-Greenfield Village for information.

For gardeners interested in something new, a special exhibit of new introductions in full bloom will be on display.

Historic Garden Week will be held in Virginia, under the sponsorship of The Garden Club of Virginia, April 20-27.

Plant Roses in Proper Soil

Now is an excellent time to plant roses in most parts of the country. The plants which have been in air conditioned storage are still fresh and full of vigor, the ground is warming up, yet the weather is still cool. Thus, the plants are encouraged to build up good root systems — if the soil is properly prepared for them — while the cool weather holds the tops back.

But, what kind to plant? For most people this means the floribundas and hybrid teas. Both are everblooming; produce attractive, shapely flowers; and grow on moderate-sized plants. The major difference between the two groups is that the hybrid teas are more inclined to produce single; specimen blooms whereas the other group are more likely to be cluster-flowered. Polyanthas are still more cluster-flowered.

Then, of course, there are the climbers. Today nearly all are everblooming or nearly so. For connoisseurs there are the shrub roses, most of which are old-fashioned types of iron-clad hardiness. These include the hybrid perpetuals which bloom intermittently throughout the season and the species and old historical types. Lastly are the miniatures—little everblooming beauties usually 6 to 10 inches tall, for edgings, pot plants, low beds, etc.

DIG WHOLE BED

For better results prepare the soil for some of your plants by digging out the whole bed, not just individual holes. Dig the top shovel depth out and pile it to one side. Then dig down and prepare the soil in the bottom as you do any garden soil with humus, plant food, etc. another full spade deep.

Next improve the top layer you removed in the same way and return it to the hole. Settle the bed by watering it well, leave it set a week, then plant your roses.

You will find your roses in this double-deep soil will be twice as good as the others. It's work but you can prepare a small piece of your bed this way every year until it is all remade.

* * *

In either case spread the roots out carefully, water well and bank the soil up around the plants 6 to 8 inches high until growth is well started. Then hoe it back down and rake the bed evenly.

TASTE TEMPTING — Here's one answer to that perpetual complaint of home makers—"if only someone would invent a new vegetable." The one pictured is more a celery than a cabbage, but really isn't quite either one.

Oriental-Flavor Is Accented

Inscrutable as the Orient is supposed to be is this interesting vegetable named Crispy Choy loose-leaved Chinese cabbage.

While it is not really a new vegetable, having been used extensively for cooking in Oriental countries, it is new to most American home makers.

It may be used for any purpose for which you use celery, raw or cooked, but don't expect it to taste like celery for it doesn't. Instead it has the mildly pungent flavor of Chinese cabbage.

The big advantage of this vegetable over celery, as far as the gardener is concerned, is its ease of growth, for celery is a very "fussy" crop to raise.

It requires, for instance, rich soil, copious watering and blanching, while loose-leaved Chinese cabbage requires none of these.

Transplanting Tip

When transplanting a plant, shrub or rose bush, always dig a hole large enough to hold the root system without serious cramping.

A Look at TV

'The Enormous Egg' Lays One

By CYNTHIA LOWRY
AP Television-Radio Writer

NEW YORK (AP) — Fantasy is a delicate business, and sometimes it comes off better in book form than in visual form.

Thursday night's NBC broadcast of "The Enormous Egg" was an example of the difficulty.

* * *

The hour-long "Children's Theatre" special was adapted from a book about a little boy and his pet dinosaur. It started with Nate Twitchell's hen, Henrietta, producing a very large egg which ultimately hatched into a pound-and-a-half dinosaur, the first in millions, of years.

This in itself must have presented parents throughout the nation with a difficult question to answer. How come a hen laid a dinosaur egg? Well, the author of the book had to get into his story somehow.

TV SAVES DAY

At any rate, the dino, named Uncle Beazley, grew to enormous size, was moved to the Smithsonian Institution for care, got into trouble with the authorities when it tipped over a milk truck, and narrowly escaped extermination at the hands of an overzealous and ignorant senator. Then Nate appealed for help on television, and, of course, TV saved the day and the dino.

The idea of a huge, gentle dinosaur pet with a taste for marigolds had charm, but conversion into TV had problems. Uncle Beazley, for instance, was played by a series of dinosaur models ranging in size from tiny to enormous, but all were patently unmovable.

* * *

The narration of exerpts from the book frequently had Ed McMahon's deep, adult voice incongruously matching the jib movements of the young boy.

The action did give young viewers an incidental tour of the nation's capital from the Washington monument to the Senate.

The treatment was similar to that of the previous "Rabbit Hill," and used humans, most of them amateur actors, going through silent scenes while McMahon read.

Until last year, Broadway's "Tony Awards" were given out with little public fanfare. Then Alexander H. Cohen, one of the top producers, volunteered to put a "Tony Awards" show on network television. He persuaded colleagues to permit numbers from their hit shows to be shown on television. He played down the envelope-opening and the thank-you speeches. He came up with one of the brightest, fast-moving and entertaining shows of the season.

Cohen's second "Tony Awards" comes up Sunday night—90 minutes long this year, live, with numbers from principal coming attraction of eight Broadway hits. It is the the TV weekend.

Office Veteran Offers Some Ideas for Efficiency

By HAL BOYLE

NEW YORK (AP) — American business firms spend millions of dollars each year hiring efficiency experts to make their offices run more smoothly and productively.

These so-called experts make complicated time and motion studies and diagrams on how the office can be laid out, ideally, to get the work done better and more quickly.

BOYLE

* * *

In many cases it's all a big laugh to the white collar peons involved, and a waste of the management's own time and motion. For the efficiency experts overlook the key factor—the people involved.

"You can't make people work harder just by moving them around like they were pieces in a jigsaw puzzle," remarked a friend of mine, Jim Dodder.

EASY SOLUTION

"For half what an efficiency expert charges, I could tell my boss easily how to double our office output."

As Jim has soldiered successfully for 30 years on the same job, his opinion seemed worth listening to.

* * *

How would you do it, Jim?

"By trickery and paying attention to the human factor."

How's that, Jim?

"Well, to start with, I'd forget all about those time and motion studies. In any office, the staff is divided into two groups—those who talk about their work, and those who actually do the work.

FIRST STEP

"The first step to take is to move the desks of the talkers into one corner of the room, and the real workers into another corner. That would keep the drones from annoying them."

"Anything else, Jim?"

"Sure. Lots more. Most of the time wasted in an office is waster at the beginning and end of the day and during coffee breaks.

* * *

"The ordinary office is supposed to operate between 9 a.m. and 5:30 p.m. That's a joke. Most employes don't limp in until 9:15 and after 5:15 they don't do anything but go to the powder room or watch the clock.

"The way to beat that is to have the morning coffee break start promptly at 9 a.m. with a free cup of java on every employe's desk. You start the afternoon break at 5:15 on the dot by distributing to each desk another free cup of coffee or martini—as the employe desires."

MORALE?

"What about employe morale Jim? Any suggestions about how to improve that.

"Certainly, said Jim. Most bosses think the hired hands spend most of the day griping about the low pay. That's not really true. Most employes know they are never going to get rich working in an office—or they are out of their pea-shelling minds if they don't.

"What really drives them off their rockers is the fact that the washroom is always running out of towels, the pencil sharpeners are too dull, the water coolers are usually out of order and there are too few meatballs in the spaghetti served in the company lunchroom.

* * *

"Any personnel director could keep a happy shop if he himself did nothing but carry towels to the washroom, sharpen the pencil sharpeners once a month, check the water coolers twice a day and see there are enough meatballs in the spaghetti."

INVITING DISASTER

"How many meatballs, Jim?"

"If they put in five the employes would build a monument to management. But when they put in only two or three, they simply are inviting chaos."

A tool for transplanting trees carves a seven-foot hole around the roots, picks them up and holds them for transportation.

'Jacks' the Drawing Cards at Gotham's Hotel Openings

By EARL WILSON

NEW YORK — Jack Benny's pulling $20,000 a week plus all the room service he and Mary Livingston can use at the Waldorf Towers for his engagement at the Waldorf Empire Room, but his big satisfaction is the Celebrity Mob which outdid all celebrity mobs. Pity poor Jack Cassidy. How would you like to be a comparative youngster opening at the St. Regis Maisonette when the 74-year-old Champion's a few blocks away with all the Booze Who there in one of the great turnouts of history?

WILSON

"My God, how can they afford me?" Jack asked, mentioning that only he and Maurice Chevalier do one show a night, "Chevalier, of course, because of his age . . ."

"One critic said I play the violin like Heifetz in that we both hold it under our chin," Jack said. "I've been called the Van Gogh of the violin — I've lost my ear."

* * *

Jack Cassidy—who lent on at 11:07 p.m. hoping some of the Benny audience would get over — said, "Gee, I hope Jack Benny gets a few people, too."

Mostly he kidded himself about his "humility" (looking into a mirror and saying "If I don't do this once a day, I get lonely"), switching velvet jackets in mid-act, mentioning wife Shirley Jones, singing to names that included David Merrick, Jack E. Leonard, Fay Wray, Goddard Lieberson, Cyril Ritchard, Dick Benjamin, Paula Prentiss, Gila Golan, Lee Remick — and the headwaiter who brought out the bouquet of roses.

It was quite a night all in all for a pair of Jacks.

Lake Michigan Reported Dying

MILWAUKEE, Wis. (AP) — A Great Lakes research conference was told Thursday that if Lake Michigan pollution were stopped today it would take 1,000 years to reduce impurity of the water to one-tenth of what it is now.

"There can be little doubt that serious problems of lake euthrophication (less oxygen in lower stratum in summer) are here," said Clifford L. Risley Jr., Chicago, director of the Federal Water Pollution Control Administration's Lake Michigan Basin office.

Risley spoke at a University of Wisconsin-Milwaukee conference attended by educators, engineers and scientists.

It takes more than 100 years to change the water in Laek Michigan as rivers and rainfall contribute and the St. Lawrence system drains the lake chain, Risley explained.

* * *

In the Milwaukee area alone, he said, there is now 15 times the level of plant nutrients required to produce nuisance levels of seaweed growth and there is no likelihood of a quick decline. Plant nutrients in the Green Bay area are almost half again as concentrated.

* * *

Risley said gains in water purity from better effluent purification could be offset by the burgeoning population in the Great Lakes Basin.

* * *

Stanford H. Smith, Ann Arbor, Mich., a senior investigator in the U.S. Bureau of Commercial Fisheries, told the conference that by weight, more than half of the fish in the lakes are alewives. He said lost populations of fish are unlikely to come back.

W. Bloomfield Sets Showcase, Hawkins Dance

By BOB BROWNE

This week could be called the lull before the storm at West Bloomfield as students and teachers were off for spring vacation.

The storm strikes next week when the annual Student Showcase and Sadie Hawkins Day fall on Thursday and Friday.

The Showcase will take place next Thursday from 8 until 9:30 p.m. This will be the 13th annual showcase, but the first to be held at the new building.

According to William Porter, math teacher and chairman of this year's showcase, the 1968 show promises to be "the best one ever."

* * *

Among the many attractions of the show will be a dramatic play, the Cafe International, exibits and demonstrations, and a musical cavalcade.

PLAY NEW FEATURE

The play, a new feature this year, will be an adaption of Shirley Jackson's, "The Lottery", and will be presented by the drama classes. This is the story of death by chance in an Early American setting.

The Cafe International, presented by the language department, is another new feature of the Student Showcase.

Students will wear costumes of the countries they are studying.

* * *

There will be interpretive readings in the foreign tongues and interpretations of these readings plus native songs.

DEMONSTRATIONS SCHEDULED

A series of demonstrations and exhibitions will be presented Thursday to show the type of work done in many of the classrooms.

Included will be experiments and dissections by the chemistry and biology departments.

The musical part of the program will be handled by the music and band classes in the cafetorium.

Next week marks the annual reversal of the boy and girl roles in the dating game as the cheerleaders sponsor the Sadie Hawkins Day and Dance Friday.

Revised Cast List Is Announced for Holly Staging of 'Pinafore'

BY MARCIA CLARK

Students at Holly High School vacationed all this week in observance of the Easter holidays.

Darrell Burgett, director of the HHS music department, announced the revised cast list for the student production of HMS Pinafore last week.

Mark Parker will portray the Right Honorable Sir Joseph Porter K.C.B., Brad Addis, Capt. Corcoran; Tim Pierce, Ralph Rockstraw, Mike Chittick, Dick Deadeye; Russell Lemon, Bill Bobstay; Chuck Keely, Bob Bechet; Marilyn Mayo, Josephine; Judy Diehl, Cousin Hebe; and Denise Grady, Buttercup.

The talent show to be held Wednesday will be directed by Vicki Dubbert and Maureen McKenny.

The sophomore class held a bottle drive April 17.

* * *

The class is setting a precedent this year — sophomores will clean up after the junior-senior prom.

Sophomore girls will serve at the junior-senior banquet.

Students Can Get Revenge

By PENNY McMILLEN

Cream pies, a band and 11 sticky students are the ingredients for the dance sponsored by the Vanguard, the Stevenson High School newspaper.

Next Friday, a dance will be held in the SHS cafetorium which editor-in-chief, Jim Beck hopes "will attract those students and teachers who have wanted revenge on the staff all year." They will have the opportunity to gain it.

Even the adviser, Mrs. Ruth Prescott, has agreed to stand at the receiving end of the whipped cream pies.

Tthe Vanguard has held a bake sale that reaped a considerable profit. More bake sales and another dance, May 17, are in the offing.

* * *

An Easter party of a different sort was given by Sandra Lampi's home economics classes last week.

PARTY HELD FOR RETARDED

At Kleino and Utica roads in Sterling Township is the Maplegrove School for Retarded Children and Miss Lami's students have been visiting the school every day for the past month.

As Easter drew near, the girls decided to give a party for the children as a finale to the students' daily visits.

The girls made name tags for each of the 22 children and served cupcakes, ice cream and milk.

* * *

Various games were played, but the biggest success with the children was the distribution of Easter baskets by the one **and only Easter Bunny. The bunny was Jackie Freeman, junior, aomplete with** pink suit and cottontail.

APPRECIATION SHOWN

The children showed their appreciation to the girls by passing out Easter each had made.

Working with the girls in setting up their party were the Maplegrove teachers, Mrs. Elizabeth Walz, Mrs. Virginia Bell and Mrs. Bell's assistant, Mrs. Frances Smith.

Tickets for one of Stevenson's two semiformal dances are on sale. The junior prom is scheduled for May 4, and decoration, band, and publicity preparations are being handled by the class of '69.

Pontiac Press Photo

GETTING EVEN — Stevenson High School students irritated at errors of commission or omission by the Vanguard (newspaper) staff will have revenge next Friday at the paper-sponsored dance and pie-throw. Junior Debbie McCarter (left) practices her pastry technique on Vanguard staff member Penny McMillen.

Vacation in Colorado

Groves Club SKIdaddles

By KIM SEROTA

Months of waiting, delays and changes ended as members of the Wylie E. Groves High School Ski Club traveled to Arapahoe Basin, Colo. this week.

The group consisted of 56 Groves students and advisers Mr. and Mrs. Russ Harvey, Mr. and Mrs. Marvin Parent and son Geoffrey, and Doug Shields and daughter Kim. Also on the trip were 10 students from Seaholm and Dave Tomachuck, Berkshire Junior High Ski Club adviser.

The Seaholm students were invited to become trip members to complete the group while Tomachuck joined the club to check on the possibility of a trip for his own group.

The Colorado trip, which cost $225 per person, began last Thursday. The skiers left Groves during school to go to Metropolitan Airport. There the group split and took two separate flights to Denver with stopovers in Chicago. The first group spent several hours shopping and sightseeing in Denver.

* * *

In the afternoon, both groups boarded buses and traveled across the Continental Divide to the ski area.

The first two nights of the trip the club stayed at the Red Buffalo Apartments in Silver Thorn, Colorado and on Saturday moved into the Arapahoe Basin Lodge.

CANCELED ONCE

The trip had been canceled once and when the dates of spring vacation were decided the ski week was scheduled again with the changes.

During the week the group skied the area's 24 slopes and trails. Because of its elevation (10,800 feet to 12,500 feet above sea level) the snow, which measured 90 inches deep, still was good for skiing.

In the evenings the group had many activities. After dinner the club was allowed to use the lodge's Rathskeller for dancing.

* * *

Sunday a member of the Arapahoe Basin Ski School showed skiing films to the group. Monday night was "gambling night" and featured card and dice games with play money.

SUNRISE SERVICE

Also included in the trip activities was an Easter Sunrise Service held outdoors on the lodge deck with the sun rising between the mountain peaks. The service was given by Shields and students Sally Brown and Linda Garrison.

Tuesday the group finished the trip with slalom racing competition and final runs. It arrived in Detroit at 2 a.m. and the students returned to classes Wednesday.

Two Groves juniors recently learned they will be living abroad this summer.

Sandy Kahn was notified that she will travel to Switzerland as a Youth for Understanding exchange student.

* * *

Sue Dickson also has been accepted as an American Field Service representative. Her summer country has not yet been determined.

Parents to Join Students at Avondale Registration

By JAN MALANE

The guidance department at Avondale High School is trying something new. When students register for classes for next year, their parents will be there, too.

Appointments with parents are made and the student is called from class at that time. This allows the parents to ask questions concerning the courses offered.

Several Student Council members will attend the Annual High School Institute of Human Relations tomorrow at Highland Park High School.

The subjects that will be discussed are the new morality, the generation gap, dropouts, integration, riots, and protests.

* * *

The Governor's Conference on Student Leadership will be held Wednesday at Oakland University.

DELEGATES LISTED

Students attending are Al DeClerck, Alice Leitch, Rick McDonald, Sharon Somers and Mary White.

The conference will be broken down into small groups that will discuss various topics. Two of the topics are "Student Government: An End or The End" and "Successes and Failures of Student Organizations."

The featured speaker of the conference will be Lieutenant Governor William G. Milliken.

There also will be a conference on citizenship at Camp Kett April 29-30 and May 1. Four students from AHS and four students from Avondale Junior High will attend. The theme of the conference is "My Society: Apathy or Involvement."

* * *

Among the topics to be discussed are teacher - student relationships, drinking and smoking, poverty, school spirit and the lack of it, racial problems, and state to nonpublic schools.

Northern High Swim Club Sets Show May 2-4

By BETTY ATWELL

The fantasy of fairyland will be relived in water May 2-4 by the Catalina swim club at Pontiac Northern High School.

The "Tales from Fairy Land" presentation will open with the familiar story of the Old Woman and the Shoe.

Six male students will be featured in pink frilly skirts as they portray the good fairies in another well-known tale.

Gary Cotter, Leigh Dushane, Greg Hasted, Jim Black, Mike Harroun and Eric Gage will be the "beaus in pink."

* * *

In the girl-boy combination, Brenda Drake will play Sleeping Beauty with Greg Sanderson, Prince Charming.

MARY POPPINS, TOO

Barbara Deacon will be Mary Poppins in another sequence of the program.

Six couples will wind their way to the gingerbread house as Hansel and Gretel.

Lorna Anderson and Gary Cotter, Alon Hilty and Gary Hasted, Ellen Stickney and Jim Black and Janet Young and Eric Gage are among the "Hansel and Gretel" swimmers.

* *

Others are Doris Coon and Mike Harroun and Kay Ridley and Leigh Dushane.

ANOTHER FAVORITE

Linda Falk will stumble into her own world of fantasy as "Alice in Wonderland."

Others featured in the tale are Kay Ridley as Cheshire Cat; Chris Martin, the White Rabbit; Debbie Tenjeras, queen of Hearts; and Janet Young, the Mad Hatter.

The senior trio, Sandy Vied, Dawn Guenther and Terri Lamberson, will portray the "Three Musketeers."

* *

The "Three Blind Mice" will be played by juniors Debbie Tenjeras, Julie Tangen and Connie Miller.

SENIOR DUET

The senior duet is made up of Karen Zock and Chris Martin.

Cindy Keils, Linda Pruett and Connie Miller were recently accepted to go overseas as exchange students, next year.

Walled Lake Students Vie for Council Posts

By JOANNE SANDERSON

The annual campaigning for Walled Lake High School's Student Council elections got under way recently.

Candidates for president are Pat Elwood, Tom Lareau, Keith Pattison and Ken Proffitt.

Campaigning for the vice presidency are Chris Grapentine, Jim Marttila, Dean Unick and Mark Wendell.

Running for the position of secretary are Carol Marshall and Pam Munger.

* * *

Competing for treasurer are Lynn Cook, Pat McDonald and Linda Stein.

Cheering Session Held at Lake Orion

By DIANE CHAMBERLIN

A meeting was held recently for Lake Orion High School freshman, sophomore and junior girls interested in trying out for cheerleading.

A demonstration of skills and cheers required was given by this year's cheerleaders, and the responsibilities which acocmpany the job were discussed.

Members of the Buttons, girls' service organization, are now baby-sitting for the children of parents who wish to attend adult sex education classes at LOH.

The Buttons also assisted in the recent parent-teacher conferences by serving coffee to parents and teachers and distributing report cards to the parents.

* * *

The Girl's Athletic Association at LO is now engaged in a new sport — swimming. Each Tuesday night from 7 to 9 the club swims at Oakland University.

Dominican Will Present 'Gidget Goes Hawaiian'

By ANDI BARNES

For the past month something new has been seen almost constantly on the campus of Dominican Academy—boys. They were imported for the production of the annual school play.

This year Dominican will present "Gidget Goes Hawaiian," somewhat different from other plays given by D.A.

After frantic and furious practice, the curtain will go up next Friday at 8 p.m. at Lake Orion Junior High School.

Other performances will be given April 27 at 2 and 8 p.m.

* * *

The play is directed by Peggy Lane, assisted by student director Sidney Mitchell.

The cast includes Sue Lane, Gidget; Leo Sabatini, Moondoggie; Cookie Welch, Abby; Ann Foulks, Aunt Fay; Nancy Hiatt, Mrs. Hofer; and William Rathburg, Mr. Hofer.

Others in the play are Kathy Gondert, Jean; Pat Gondert, Lani; Lenni Johnson, Ilina; Dianne Morse, Dorretta; Dave Rathburg, Stan; Pat Norton, PA voice; Sharon Yezbick, hostess, and Becky Biebuyck, Miss Donnely.

Still others are Karri Brinkman, Linda DeRycke, Gussie Griggs, Donna Noble, Debbie Noble, Kathy Spitzer, Liz Tacey, Brad Gallinat, Jeff Young, Tim Whippo, Kelly Sweeny and Alexandra Pope.

Hit by Interest Rate News

Mart Weathers Early Decline

NEW YORK (AP) — The stock market weathered a sharp early decline on news of higher interest rates and cut its losses considerably in quieter trading early Friday afternoon.

The Dow Jones industrial average at noon was off 5.95 at 903.26.

In the first wave of selling, the Dow was down 11.44 points.

Losses still outnumbered gains by 4 or 5 to 1, improving the early ratio of 8 to 1 for losses over gains.

The market reacted to surprise news that the Federal Reserve Board had raised the discount rate to 5½ from 5 per cent inan antiinflationary move taken because of the failure of Congress to increase taxes. The rate hike was followed quickly by a boost in the prime rate—the basic rate the largest banks charge to their biggest and best credit risks—to 6½ per cent from 6 per cent.

★ ★ ★

The interest rate increases fanned out to commercial credit and other interest rates.

The Associated Press average of 60 stocks fell 2.7 to 324.5 with industrials off 4.9, rails off .5 and utilies off 1.3.

★ ★ ★

Prices on the American Stock Exchange recovered selectively from a sharp early decline. Levin-Townsend Computer gained 4, Electrospace 2, Guerdon Industries, Data Processing and Apache Corp. more than a point each. Saxon Paper and National Equipment Rental were down more than a point each.

Cash for Marina

NORTHPORT (AP) — $308,500 federal grant has been approved for construction of a 53-boat marine on Grand Traverse Bay at Northport in Northwest Lower Michigan. The state is to provide an additional $208,500 for the project.

Accord Gained at GM Plants

But UAW Strikes at Atlanta, Ga., Facility

DETROIT (AP) — Hours after 2,800 United Auto Workers struck a General Motors Corp. plant at Willow springs, Ill., Thursday, tentative agreement was reached in a local strike by 1,800 workers at another GM facility in Atlanta.

Earlier in the day, General Motors and the UAW also reached tentative settlement for 1,250 workers at the firm's Chevrolet assembly plant at Framingham, Mass. That plant was struck March 4 in a local contract dispute and idled 1,450 workers at the companion Fisher Body plant. A ratification vote is set for Saturday.

★ ★ ★

Tentative agreement on a local contract at GM's Chevrolet Assembly plant in Atlanta was reached after a 32-hour bargaining session. A ratification vote is set for Saturday. The plant was struck March 8 over local working conditions.

Meanwhile, in Willow Springs day shift production workers at the Fisher Body stamping plant halted production of metal parts for GM cars in a dispute over the handling of local grievances. They were joined in the walkout by workers on the second and third shifts.

AGREEMENTS

A spokesman at General Motors said the company now has local agreements with 165 of 168 local bargaining units.

Still unresolved is a pact with 900 workers at the companion Fisher Body plant at Atlanta, 3,000 workers at a General Motors assembly division plant at South Gate, Calif. and 200 at a Bloomfield, N.J. plant, which packages GM parts for shipment overseas.

★ ★ ★

A company spokesman said the 900 workers at the Fisher Body plant at Atlanta, idled by the strike at the Chevrolet assembly plant there, are expected to return to their jobs if the pact is ratified while negotiations continue toward the second contract.

A GM spokesman said the Willow Springs strike was authorized by UAW officials in Detroit. Union spokesmen were not immediately available for comment.

LONG MEETING

The company spokesman said negotiators for the company and the union had been meeting for two weeks without agreement on pending grievances.

Leave Granted to OU Prof Facing U.S. Deportation

A Pakistani sociologist who is being forced by federal immigration laws to leave the country this month may rejoin the faculty of Oakland University for the 1969-70 academic year.

Saghir Ahmad, assistant professor of sociology, was granted a year's leave of absence yesterday by the Michigan State University Board of Trustees at its monthly meeting in East Lansing.

The leave is to permit him to fulfill a foreign residency requirement of the Immigration and Naturalization Service.

Oakland University officials and the student body had tried to intervene in the deportation but Ahmad's appeal for a waiver of the law was denied earlier this month bv the U.S. Department of Health, Education and Welfare.

★ ★ ★

He has been in the United States since August, 1966 on a practical training visa which expired last February. The law says he must spend eight months out of the country before seeking to return as an alien resident.

PONDERS FUTURE

Ahmad said he will leave the country by the April 30 deadline the federal government has given him. He is considering job offers from Canadian and English universities but may return to Pakistan for independent research.

In other board action, the trustees approved one appointment and accepted $75,900 in major grants.

Virginia B. Morrison of Ann Arbor will join the OU faculty in the fall as associate professor of education. She now holds a similar position at Wayne State University.

Two grants will support reading study programs being conducted by the university's School of Education.

★ ★ ★

The Department of Health, Education and Welfare gave $33,193 to support an advanced study program under the direction of Assistant Professor Harold C. Cafone.

LARGE DONATION

Royal Oak Schools donated $20,707 to support a reading and study improvement program being conducted by Professor Harry T. Hahn.

Other grants accepted for OU were $15,000 from the National Science Foundation to support research entitled "Human Operators Controlling Compensatory Systems" and $7,000 from the Harlan Foundation in Southfield.

★ ★ ★

Harland Foundation gave $5,000 to Meadow Brook Theatre and $2,000 to Oakland's Project 20, a program to encourage youths from disadvantaged backgrounds to pursue a college education.

Plea to Exempt Some Building in Strike Made

DETROIT (AP)—Taking cognizance of a possible strike by building tradesmen May 1, the New Detroit Committee asked both unions and contractors Thursday to exempt from any work stoppage housing for low- and moderate-income families which is financed entirely by federal funds.

Current contracts of most building tradesmen expire April 30. They are seeking sizable increase in pay and fringe benefits and negotiations reportedly are near a deadlock.

★ ★ ★

The committee reported that Detroit is experiencing "one of the most distressing shortages in its history, particularly housing for low and moderate income families."

"The City of Detroit, as well as the metropolitan area," the committee continued, "faces the prospect of a major labor disagreement between the general contractors and the unions of the building trades whose contracts expire April 30.

CAUSE DELAY

"A labor dispute could cause irreparable delay to programs directed toward solving the housing problems of the low- and moderate-income families."

It said Federal Housing Administration records could be used in determining what housing developments are being financed 100 per cent by federal funds.

Military Bill Cuts Pondered

Antiballistic-Missile Program Is Kept In

WASHINGTON (AP) — Further attempts to cut the $22-billion military procurement bill are planned in the Senate after following futile efforts to trim research funds and delay deployment of an antiballistic missile system.

Sen. Joseph S. Clark, D-Pa., planned to offer amendments today to cut at least $2 billion out of the bill, which authorizes spending for military hardware and research in the year starting July 1.

★ ★ ★

But final action on the bill is expected later in the day with overwhelming approval of the full amount likely.

Sen. Gaylord Nelson, D-Wis., led an unsuccessful fight Thursday to eliminate the so-called thin ABM defense system.

WON'T BACK

"I cannot in good conscience vote for a program that will launch us into a spiraling missile escalation which has no end and no purpose either," he said.

Nelson lost 41 to 17 in his effort to trim the $342 million provided in the bill for procurement of the ABM system, designed to provide protection from potential attacks in the early 1970s from Communist China.

Sen. John C. Stennis, D-Miss., floor manager of the bill, said "we would be doing a dangerous thing" by cutting the ABM project out of the bill and added the system would be valuable in case a later decision is made to deploy a $40 billion ABM system to defend against any attack from the Soviet Union.

Trustees Budget Expenses

$11.3 Million for OCC Projects

Oakland Community College Board of Trustees approved a tentative $6.3-million operating budget and a $11.3-million building program for 1968-69 last night.

It is an increase of about $1 million over the current expenditures because of an expected 25 per cent increase in enrollment said OCC officials.

The board felt the budget justified the levying of the maximum 1-mill tax levy for operations and one-half mill tax for payment of principal and interest on outstanding bonds. A resolution was adopted to continue these taxes.

Trustees emphasized the budget probably will be changed later, depending upon faculty salary negotiations and state aid.

★ ★ ★

A year ago, a $5.6-million budget was approved. Later it was reduced to $5.3 million because funds from the state, based on student enrollment, fell short of the estimate.

Revenue is anticipated to exceed expenditures by $444,208 in the new budget.

Estimated revenue is placed at $6.7 million. The one-mill local tax will provide about $3.2 million or 48 per cent of the total.

State aid is expected to provide 29 per cent of the income. The state gives $357 for transfer students and $425 for vocational students.

Expenditures are estimated at $6.3 million, up $917,000 over the current budget.

ROLLS TO DOUBLE

More than $2 million is slated for the new Orchard Ridge campus where enrollment is expected to almost double with completion of the campus this spring.

Orchard Ridge had 1,549 students last fall and 3,000 are estimated for this fall.

Some 1,800 are estimated for Auburn Hills in Pontiac Township and 1,700 for Highland Lakes in Waterford Township, both about the same as last year.

★ ★ ★

Total enrollment at the three campuses is estimated at 6,500, up 1,300.

About $11.3 million is requested to be spent on buildings and sites, most of it to place permanent buildings at Aburn Hills.

Most of the revenue to pay for building and site expenses is expected to come from $9.5 million to be left over at the end of this fiscal year.

Income for the building and site fund comes from state and federal funds.

★ ★ ★

A tentative $7.3 million will be spent to construct boiler, science, general assembly, vocational tenchnical and a learning resource center, math and business buildings, among other improvements, at Auburn Hills.

MASTER PLAN

More than $1.6 million is earmarked to prepare a master plan for the new Madison Heights campus and construct a first phase of buildings.

The college is expected to have just enough money to pay off the debt it owes on bonds, leaving an estimated balance of $64,720 in June, 1969.

Principal and interest is placed at a total of $1.4 million. A half-mill levy will produce about $1.6 million of revenue.

★ ★ ★

In a related item, OCC will not seek an injunction to stop all of Michigan's 28 community colleges from getting federal Higher Education Facilities money through the state.

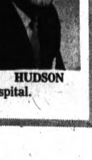
OCC disputed the funding procedure at a hearing yesterday with the results that the wording of the procedure would be clarified.

At Hospital

Hudson Honored

A letter of commendation was ordered last night by the board of trustees of Pontiac General Hospital for District 4 City Commissioner Leslie H. Hudson.

Hudson was cited for his efforts in behalf of the hospital in securing land for additional hospital parking.



HUDSON

A realtor, Hudson, who leaves his commission post next Monday, has assigned options for 10 parcels on South Johnson south of the Medical Arts Building at the corner of West Huron to the hospital board. He forfeited his standard realtor fee, which would have totaled $10,231.

The newly created hospital building authority is slated to purchase the property and provide added parking for the hospital.

Woman Mum on Money Loses $35,000 Claim

A Roseville woman's claim to $35,000 seized by grand jury investigators was dismissed yesterday when she refused to tell how the money had come into her possession.

The action was taken by Oakland County Circuit Judge Frederick C. Ziem against Mrs. Shoefard Bice during a hearing to determine the owner of the money.

She and her husband had petitioned the court last September for the return of the money, which they say was taken from their home by two state police troopers assigned to the Hazel Park Race Track inquiry.

Mrs. Bice testified Wednesday that the money had been in a safe in the basement of her home, but then she took the fifth amendment when asked where the money had come from.

★ ★ ★

In addition to the Bices, the Internal Revenue Service and the county have filed claims.

FILE CLAIM

The money was first turned over to the county at the end of the investigation, but the order was withdrawn when the Bices filed their claim.

The Internal Revenue Service contends the money belongs to an alleged bookie, Roy L. Clark of Hazel Park, who the IRS says owes $42,211 in back taxes.

Bice's claim is still pending, though that of his wife was dismissed. He reportedly is ill, however, and has not yet been called to testify.

★ ★ ★

The hearing has been adjourned for a month.

SOMETHING NEW– JUST FINISHED
Ready-to-move-into Apartments between two lovely lakes

Have Apartment families been slighted? We think so. Just because you don't want to bother with home owner chores, is no reason you shouldn't be living beside a lake or enjoying the swimming, fishing, sailing, water-skiing, that goes with it. So we built Sylvan-On-the-Lakes and these lovely 1- and 2-bedroom apartments are ready to move into now. For as little as $152 a month you get a large living room, separate dining area, complete kitchen with built-in appliances, loads of closet and storage space, laundry facilities, carpeting, air-conditioning and parking area. Private beach. Come on over. Last one in is the sissy!

CONSIDERING A NEW HOME?
Do yourself a favor and compare before you buy. If a beautiful brick home is your family's desire, be sure you pick a home made of quality brick. Nails may look alike to you, but some are better than others . . . YOUR house is only as sturdy as the materials which go into its construction. Be especially careful about wiring; living in an inadequately wired home can become quite annoying. Don't settle for that old standard lumber. Check the hardware the plumbing fixtures, the insulation. Your home should contain the finest. HOW CAN YOU BE SURE? Visit our model homes open for your careful inspection at:

FACTS ABOUT COLOR TV ANTENNAS
Experience has proven that the following facts apply to most locations in this area regarding Color TV Antenna installation.
• Modern, broad-band antennas are definitely superior for color reception.
• Lead-in wire should be high quality, low-loss type
• One continuous lead-in to set is best without couplers or series outlets.
• Good antennas are more directional — they tend to reject stations from other directions.
• Effects of weather on antennas and lead-in wire can cause severe loss of performance.
For specific information contact your TESA of OAKLAND COUNTY service dealer. He will be glad to assist you.

'Teacher's Pet Rated Higher'

SAN DIEGO, Calif. (AP)—A pupil whose values are similar to his teacher's will receive higher grades than he otherwise would, a Michigan researcher said Thursday.

Dr. Walter L. Thomas of Grand Rapids told the Association for Childhood Education International's Study Conference that teachers tend to give highest grades to pupils they like.

★ ★ ★

"I hated to find that out," Thomas said of findings in a research project involving 25 classrooms, each with about 35 pupils, in Indiana, Illinois and Michigan.

Thomas is director of the federally financed four-year Project on Student Values at Grand Rapids, designed to devise curriculum materials to improve children's values.

COMPARISON

He said year-end cumulative grades were compared with results of "value tests" given by researchers to children and teachers.

"The more similar the values of the child and the teacher, the higher the student's grades will be," he said, regardless of intelligence and achievement.

★ ★ ★

"We are playing games with ourselves" because teachers allow their own prejudices to influence their grading, Thomas said.

Greek Dictators on Unsure Path

ATHENS (AP) — Greece's dictatorship, a year old Sunday, has brought order to this volatile nation but it faces a growing mood of uncertainty and doubt in the land.

Without bloodshed the regime has rid itself of formidable opponents like King Constantine and Andreas Papandreou. It has wiped out the corruption that bedeviled earlier governments, and is holding out the prospect of a return to parliamentary democracy for 8.5 million Greeks. The barriers of diplomatic isolation raised for a time by other NATO nations are down and relations are back to normal.

Over-all the colonels who engineered the coup d'etat last April 21 have proved they know how to use power but they have shown shortcomings in the skills of government and economics. They have failed to inspire discernible popular support.

Greece lives in an atmosphere of unreality. Despite accusations from abroad that political prisoners are mistreated, the regime has emerged as a remarkably gentle dictatorship in dealing with the people as a whole. Fewer soldiers and police are in sight than there were a year ago. The tourist sees more heavily armed police on the streets of Paris and Rome.

UNDERSTANDING

The regime talks of economic improvement and social progress and pleads for understanding. Only the severest critics find any hint of Fascist glorification of force or individual leaders.

The number of political prisoners has dropped from more than 6,000 arrested early in the coup to 2,400 who refuse to forswear political activity. Government officials say the prisoners are treated no worse than those held anywhere in Europe or America.

★ ★ ★

The average Greek seems to believe this.

"The psychological pressure is terrible, of course," said a Greek journalist recently released after confinement. "But there was no physical mistreatment."

IT COULD BECOME HARSH

Greeks in general consider their dictatorship a mild one, but many fear it could become harsh at anytime. They still have no idea where the regime is heading, and some believe it doesn't know either.

But if there is no evidence of wide popular support, there is also no sign of potential rebellion. On this, rightist and left-wing opponents of the regime agree.

★

The big challenge so far — King Constantine's countercoup last December — collpased in hours. The regime let him flee to Rome and he is said to have been told to keep away until they tell him to come back. The general view in diplomatic and political circles now is that Constantine is finished — at least for the next few years. Papandreou also is in exile.

Even the regime's opponents appear willing to concede that the military men-turned civilians who run the country are free of corruption. "Hand grease" — the Greek term for bribes — has disappeared. People are afraid to employ bribery any more.

At the same time, the cumbersome civil service has been bludgeoned into a semblance of efficiency through warnings and wholesale dismissals.

The regime also has managed to clean up the long-standing Cyprus problem. Relations with Turkey promise to become better. There had been fears that in bowing to Turkey in the Cyprus crisis of last fall, the government would face disruptions in the armed forces. This has not come about.

On the contrary, the junta, under Premier George Papadopoulos, formerly a colonel, has tightened its grip on the armed forces by looping off high officers of doubtful loyalty. More than 600 older officers have been purged.

When the coup occurred, many Greeks were relieved that someone finally had eneded disorder and kicked out the squabbling political factions that seemed to be carrying the country toward anarchy.

The atmospinere has not improved in the way many Greeks hoped. People are worried about their economic future.

The press and the arts still are under iron censorship. People are afriad to talk openly, to converse freely on the telephone, to express opinions.

Uncertainty and lack of confidence are helping create a recession mentality. Greeks are hoarding money, cutting sales in durable goods and consumer items. Unemployment is on the rise, and it looks as though the tourist trade is heading for a second bad summer.

Orders and decrees frequently are issued, only to be countermanded. This has encouraged the sense of uneasiness and doubt. The uncertainities arfe hindering the foreign investment the regime wants.

New Sites Offered for Talks by U.S.

WASHINGTON — The United States, indicating growing impatience with the impasse over where to make initial peace contacts with North Vietnam, is looking to Hanoi for a speedy reply to the latest American proposal listing 10 new potential sites.

Although the new U.S. proposal raised to 15 the number of nations it lists as acceptable locations for such talks, diplomatic sources in Washington were betting that Paris — not included in the newly padded total — would eventually be agreed on by both countries.

These diplomats, including some from nations allied with the United States in the war, reasoned that since neither Washington nor Hanoi has mentioned Paris as a possible site its compromise selection would result in neither side losing face.

Noting the United States had already proposed Laos, Burma, Indonesia and India, Secretary of State Dean Rusk added six more Asian locations — Ceylon, Japan, Afghanistan, Pakistan, Nepal and Malaysia.

In Europe, he named the capitals of Italy, Belgium, Finland, and Austria in addition to the previsouly discussed Geneva, Switzerland.

'MUST PROVIDE ACCESS'

President Johnson, returning from Honolulu consultations with President Chung Hee Park of South Korea, told newsmen that any site agreeable to him must provide U.S. allies with access to the talks.

North Vietnam said today, however, it does not want a South Vietnamese representative at the same table when it sits down for peace talks with the United States.

In a broadcast monitored in Tokyo,

Immediately after the meeting at Romney's Bloomfield Hills home, Nixon was to return to Washington, D.C., by plane from the Pontiac-Oakland Airport.

Romney in City for Racial Talks

Gov. George Romney met with Mayor William H. Taylor Jr. and city officials this morning to discuss Pontiac's racial climate and to explore the possibility of expanding opportunities for jobs, housing and education.

After the morning meeting, the governor visited parts of the city before meeting with Negro leaders at the Pontiac Area Urban League offices.

The governor was to meet with officials of Pontiac Motor Division for a noon luncheon to discuss the plant's recently initiated job-opportunity program.

PONTIAC PICKETS—Michigan Bell Telephone Co. workers mass outside the company building at Mill and East Huron at 3 p.m. yesterday as a national strike called by the Communication Workers of America began. The local, No. 4012, covers most of Oakland County. After the mass demonstration, picketing was reduced to small groups which appeared in front of most Bell offices today across the nation.

Report Is Denied

Did CIA Fire Ky?

SAIGON (AP)—Both the U.S. Embassy and Vice President Nguyen Cao Ky today denied a report being investigated by a Senate subcommittee that the CIA fired Ky for smuggling opium in 1963.

The report, made to the Senate Foreign Expenditures subcommittee, said Ky commanded air crews in a secret CIA operation flying saboteurs to North Vietnam and took advantage of the setup to fly opium from Laos to Saigon.

The U.S. Embassy said there was "no truth" in the story that Ky was removed from any position by any element of the U.S. government for opium smuggling or for any other reason.

Asked if the embassy had any information connecting Ky with opium smuggling, an embassy spokesman said only: "There is no truth to the allegation."

★ ★ ★

"The vice president just laughed when he saw the story," said a spokesman for Ky.

GROUNDLESS

He said it was groundless news, and there is no truth to it at all."

The spokesman added that Ky took part in the flights over North Vietnam, "but he would not get involved in smuggling. You know he pays no attention to matters about money."

The Senate subcommittee's staff director, Joseph Lippman, made the report available to The Associated Press in Washington with the stipulation that the source could not be identified.

★ ★ ★

Lippman said the report was considered highly reliable. The subcommittee is headed by Sen. Ernest Gruening, D-Alaska, a critic of U.S. involvement in Vietnam.

School Aide Spells Out Disciplinary Procedures

(EDITOR'S NOTE — This is the last of two articles on discipline in the Pontiac School District.)

By DICK ROBINSON

Parents and many community resources are used by the Pontiac School District to help suspended students return to the classrooms.

But parents don't always respond to an invitation to discuss his child's school problems with a school principal, administrators report.

Asst. Supt. William Lacy explained that procedures for administrators to follow in disciplinary cases are spelled out in a nine-page policy.

It was first put into effect for secondary schools last school year and was extended to elementary schools this year.

The policy requires that a parent of a student whose classes are closed to him be notified of the punishment and is asked to meet with the principal.

STEPS ARE OUTLINED

The principal is to outline steps the students must take to return to school.

If the problem is not resolved within the two school days, the student is suspended. Parents again are asked to meet with the principal.

If the problem is not solved in 10 school days, the student's record is to be reviewed by the principal.

The principal is to:

- Determine that the board of education policies and procedures have been followed.
- Make sure all reasonable means have been used to help the student return to school.

The student then is to be suspended until the remainder of the semester if he has not returned to school five days after the case is referred to the principal.

Again the parent is invited to discuss the problem further with the principal.

RIGHTS DENIAL SEEN

"Currently, there is no appeal process in cases of suspension in many school districts," the Michigan Civil Rights Commission remarks. "This actually results in denying the student the Constitutional right to an education."

However, Lacy said, Pontiac students can appeal suspension decisions of a principal to the school superintendent and then to the board of education.

A student who is to be excluded has a right to a hearing before the board of education or school officer, Lacy said the school attorney has said.

Phone Strike Causes Little Initial Disruption

WASHINGTON (AP) — The biggest telephone strike in 21 years appeared to cause little initial disruption of service after 165,000 union members across the nation walked off the job.

Joseph A. Beirne, president of the striking AFL-CIO Communications Workers of America, urged another 500,000 employes of the Bell Telephone System to refuse to cross picket lines in support of CWA demands in the wage dispute.

Company officials promised to maintain most service with supervisors.

Both union and company officials predicted little trouble for telephone subscribers in placing calls except for long-distance and other services that require an operator.

Installation of new phones also was sharply curtailed.

The strikers include 23,000 employes of

Light Rains Seen on the Weekend

There's a chance lawns and gardens will get a light sprinkling over the weekend.

The U.S. Weather Bureau forecasts the following day-by-day official report:

TODAY — Mostly cloudy and cooler. High 53 to 58. Cloudy and not so cool tonight with rain beginning late tonight. Low 46 to 50.

North - to - northeast winds at 8 to 20 miles per hour becoming 10 to 20 miles east to southeast this afternoon and tonight.

TOMORROW — Cloudy and a little warmer with occasional rain.

SUNDAY — Partly cloudy and warmer.

Precipitation probabilities in per cent are: today 10, tonight 40 and tomorrow 60.

A pleasant 46 was the low temperature in downtown Pontiac preceding 8 a.m. The mercury reading was 64 at 12:30 p.m.

City Crime Rate Begins to Level Off

If the trend established in the first quarter of 1968 continues throughout the year, Pontiac's crime rate has begun to level off after several record jumps.

The crime index, which consists of the seven major "part one" offenses, is down 1 per cent through March of 1968, according to Pontiac police.

These crimes are murder and nonnegligent manslaughter, focible rape, robbery, assault, burglary, larceny and auto theft.

The sum of all of these offenses committed during the first quarter in Pontiac is only one less than through March of 1967. And the crime index rose 30.8 per cent last year.

But at least one encouraging pattern aside from the leveling-off is reflected in the current figures.

Except for rape, crimes which entail violence or the most direct threat of volience have been reduced.

Three murders — one fewer than through March of 1967 — have been investigated in the city.

Assaults are down 12 per cent and armed robberies have dropped by 61 per cent. All robberies, including strong-arm, are down by 60 per cent.

★ ★ ★

Eleven rapes during the first quarter of 1968 as opposed to three for the same period last year make this the fastest-rising crime — up 267 per cent.

Also showing an increase are auto theft, up 98.4 per cent, and larceny, up 28 per cent.

Burglaries are down 17.3 per cent.

Fed Raises Discount Rate

WASHINGTON (AP) — Americans face the prospect of harder-to-get loans at higher interest rates following the second increase in little more than a month in the Federal Reserve system's discount rate.

★ ★ ★

In what it termed an attempt to beat back accelerating inflation, the Federal Reserve Board stepped harder on the economic brakes in approving effective today a discount rate of 5.5 per cent for 3 of its 12 banks — New York, Philadelphia and Minneapolis. It had been 5 per cent.

The other nine banks are expected to follow in a move virtually sure to trigger higher interest rates on loans throughout the economy. A nationwide AP survey showed meanwhile that interest rates on home mortgages are nearing 8 per cent already in some sections and the cost of an average home has climbed about $2,500 since 1966.

The new rate is the highest since just before the 1929 stock market crash when it went to 6 per cent.

One government source said the boost from 5 per cent was not unexpected in view of congressional inaction on President Johnson's request for the 10 per cent income tax surcharge, pushed by the administration as an anti-inflation weapon.

BOOST IN MARCH

A boost in the discount rate from 4.5 to 5 per cent in mid-March was designed to stem inflation and cope with the gold crisis which reached its peak at that point.

The board cited spiraling inflation and a desire to strengthen the dollar abroad in announcing its action and at the same time approving higher interest rates — up to 6.25 per cent — which banks may pay to attract more savings through certificates of deposit of $100,000 or more.

★ ★ ★

The second move will enable commercial banks to compete more effectively for savings with high interest rates elsewhere in the economy — on corporate bonds, for example.

'White Views Must Change'

By BOB WISLER

The only thing that will end racial turmoil, discord and ineuity in this country is a change of attitude by white America, Ramon S. Scruggs, personel director-urban affairs, of the American Telephone and Telegraph Co. told a capacity audience at the annual Urban League dinner last night.

Scruggs, senior vice president of the National Urban League Board, was main speaker at the 18th annual Pontiac-area dinner attended by some 400 persons at Oakland University.

Scruggs said he had come to the conclusion that racial problems will not fade, "that there isn't really anything the Negro can do about it," until there is this change in attitude.

"All of us — white, Negro, Protestant, Jew, Catholic, militant, moderate — must close ranks if we are to save this society," he said.

★ ★ ★

Scruggs, a 35-year member of the Urban League, said there are some encouraging signs — he mentioned the election of Negro mayors in Cleveland, Ohio and Gary, Ind., with white support.

'HOPEFUL NOTE'

"One hopeful note, and the most important, is that business leadership is beginning to understand and moving to do something about it (attitude)," he said.

But, Scruggs, cited a number of factors which he said show too little or no change — segregated patterns of housing locking Negroes into overcrowded ghettos, continued segrated schooling despite despite Supreme Court decisions, lack of job opportunities, judgments that Negroes are Negroes first and Americans second, perpetuation of myths about Negroes.

The myths must be destroyed or they will destrou America, he said.

Scruggs, in his speech and in a press conference earlier, made it clear that every Negro, from those who have been successful according to the nation's standards to those trapped in the despair of the ghetto, feels that the "American society has cheated and looted them and they seethe inside."

RAMON S. SCRUGGS

He said society is proceeding on false assumptions by believing that it is "dealing with a group of stupid people," or that the "black man is not creditable when he says, 'Give me liberty or give me death.' "

Scruggs said there "is potential for eruption everywhere."

The Negro, he said, before television, didn't realize "the extreme contrast between the white and black world. Now he has seen and realizes more fully the inequities," he said.

He also chided advertising for keeping the Negro "invisible," and out of sight and out of the minds of the majority of whites.

STILL STRUGGLING

Scruggs, who was raised and went to school in Nashville, Tenn., predicted that the urban south will solve its racial problems while Northern cities are still struggling with theirs.

Scruggs said he doesn't believe that violence will achieve anything for Negroes, but he said he understands well the rage that drives Negroes to violence.

He said Dr. Martin Luther King's death was possible because his killer believed that King's death was wanted and would be supported by white society.

"The job ahead for white America is to fulfill the dream of martin Luther King," he said.

Building in 1968 Still Seen Good

NEW YORK (AP) — Most bankers and home builders expect 1968 to be a good year despite rising interest rates and higher building costs, a nationwide survey shows.

Industry spokesmen gave their views in an Associated Press survey concerning the industry's prospects.

Most of them expect 1968 to be better than 1967 but not without its problems. Some were less than enthusiastic.

In Tallahassee, Fla., builder Al Albert, said the situation "in one word is rotten." Prices and money conditions have forced him out of the mass-produced home market he said.

★ ★ ★

In Detroit, builders are apprehensive about labor costs after current contracts expire May 1.

'GRIM PICTURE'

"Undoubtedly home prices will go up, said William E. Stewart, secretary of the Detroit Association of General Contractors. It's a very grim picture."

But to most of the industry the year looks good.

The National Association of Home Builders in Washington forecast 1.3 million housing starts this year, up from 1.3 million last year.

"Home builders are looking for a fairly good year, although they are walking on eggs about the money situation," said Mel R. L. Smith of the U. S. National Bank in Portland, Ore.

Humphrey, Rockefeller Being Prodded to Announce

From Our News Wires

Vice President Hubert H. Humphrey among the Democrats and Gov. Nelson A. Rockefeller of New York among the Republicans are being prodded to join the run for the White House.

Humphrey has made clear he's ready to run — apparently it's just a matter of timing the announcement — while Rockefeller has been less clear on whether he will actually campaign against former Vice President Richard M. Nixon for the nomination.

Twenty-three leading Republicans, including Michigan Gov. George Romney, have agreed generally that Rockefeller should formally declare his presidential candidacy "very soon."

A spokesman for Sen. Jacob K. Javits, R-N.Y., who called the GOP meeting yesterday, said the concensus of the discussion was that Rockefeller should be urged by all to move fast.

Sen. Thruston B. Morton, R-Ky., a leader in the drive to get Rockefeller into the race, said the meeting produced "gratifying" reports of nationwide backing for the New York governor.

"I have talked to him and I'm convinced Nelson is in the mood to go right now," Morton said. "But there are some fence-sitters around the country who want to hear him say he'll see it through."

Romney, it was learned, joined in the consensus that Rockefeller should make it clear quickly he will be a committed, aggressive candidate.

Romney has so far refused to endorse anyone for the GOP nomination since he dropped out of the race Feb. 28. He declined to say whether his presence of the meeting meant he would now come out for Rockefeller, who once was strong for Romney.

★ ★ ★

The Michigan governor was scheduled to meet privately with front-runner Richard M. Nixon at a dinner at Romney's Bloomfield Hills home tonight.

CANDIDACY RAPPED

Morton said the presidential candidacy of Sen. Robert F. Kennedy, D-N.Y., "has a lot of people in the business and political community very much worried."

Romney was the only governor present. Sens. Morton, Clifford P. Case, R-N.J.; John S. Cooper, R-Ky.; and Edward W. Brooke, R-Mass.; attended along with New York Reps. Charles E. Goodell and Ogden R. Reid.

Javits' office said the senator spoke to "a number of governors" by telephone about the meeting, but that most were tied up with other business and are being briefed on the session.

★ ★ ★

Also present were former GOP National Chairman Leonard W. Hall, J. Irwin Miller, chairman of the Draft-Rockefeller Organizing Committee, and Detroit financier Max Fisher.

AIDES AT MEETING

Hall was chairman of Romney's short-lived champaign, and Fisher for years has been Romney's chief fund raiser.

Son. Eugene J. McCarthy, fighting Sen. Robert F. Kennedy for the Democratic nomination, said in Bloomington, Ind., Humphrey should announce now if he plans to campaign in support of U.S. policy in Vietnam — a policy McCarthy opposes.

Inconsistency of Parents Topic of Discussion

By LOIS FRIEDLAND

The inconsistency between what parents demand of their children and how they themselves act is the main gripe of kids today. This problem and how to solve it was the topic of discussion at last night's Family Service of Oakland County annual banquet at Devon Gables.

★ ★ ★

Some 150 persons listened to the discussion led by Dr. Norman Kagan, a professor of educational psychology at Michigan State.

Assisting him was a student reactor panel including Cecilia Brown, 17, of Pontiac Central High School and Brian Goring, 18, of Royal Oak Dondero High School.

Grant N. Howell, managing editor of the Royal Oak Tribune, was elected president of Family Service at the meeting. Others elected were Robert Seaton of 33654 Alta Loma, Farmington; vice president; and Stanley Badelt of 331 Roanoke, Bloomfield Township.

★ ★ ★

Newly elected board members were Paul N. Averill of 1497 Loch Ridge, Bloomfield Township, Richard Craig of 35 Pleasantview, Dr. Harvey Burdick of 190 Ottawa, Mrs. Stephen Miller of 3550 Larkwood, Bloomfield Township, Charles J. Snell of Pleasant Ridge and Alex Seskin of Huntington Woods.

BECOME FRIGHTENED

Parents try to instill ideals and values in children, but when they stand up and 'be' what parents tell them parents are scared because they're afraid the children will be nonconformists, explained Kagan.

The panel suggested that "turning on" was one way some youths attempted to escape the current scene and to create a new morality through the heightened perception caused by drugs.

Dropping out of school and illegitimate pregnancy are other ways taken by youth to react.

Kagan pointed out that youth is no longer needed by most adults except to help clean house or mow the lawn — and the young people know it. Several of the audience agreed that this situation was created, in innocence, partially by their wanting to give children everything they didn't have.

Blood-Donor Setup Keeps Girl Alive

Timing is crucial in keeping a little 5-year-old girl with a rare blood disease alive and on her way to being cured.

A system has been organized so Sally Harrington, daughter of Mr. and Mrs. Emanuel Harrington, 3991 Perkins, Waterford Township, can have daily doses of fresh platelets — an element in the blood which allows it to clot.

★ ★ ★

Donors are asked to call the Michigan Community Blood Service, 3112 Woodward, Detroit, to make appointments for giving blood.

An organized system of blood donations is necessary because platelets are fresh for only six hours after taken from a donor. Sally, in St. Joseph Mercy Hospital, requires platelets from at least eight donors a day.

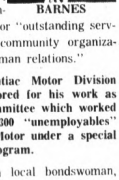
For Community Service

Urban League Honors 3 in City

The Pontiac Area Urban League last night presented awards for outstanding community service in the past year to Mansfield C. Samples, Mrs. Marie Johnson and Joseph Durant.



BARNES

Executive director, Clarence E. Barnes, of the Pontiac Area Urban League, received a special award from 10 Pontiac organizations for "outstanding service working with community organizations for better human relations."

Samples, a Pontiac Motor Division employe, was honored for his work as chairman of a committee which worked with more than 300 "unemployables" hired by Pontiac Motor under a special job opportunity program.

Mrs. Johnson, a local bondswoman, received an award for working with young Negroes last summer to help quell disorder during the city's only civil disturbance.

★ ★ ★

Durant, who with his partner, Ernest Kent, manages K-D TV sales and service at 506 S. Saginaw, was cited for his role in organizing Harambee, Inc., an all-Negro nonprofit organization formed to develop and rehabilitate housing in the southwest section of the city.

PARTNER GIVEN CREDIT

Durant acknowledged his partner for his role in the formation of Harambee.

E. Eugene Russell, past president of the Urban League, presented the three awards.

The award to Barnes was given on behalf of the Rema Club, the NAACP, the Oakland County Ministerial Fellowship, Voice of Oakland County Action League, POOBY, Harambee, Inc., Les Bon Hommes, the Negro Professional and Businesswomen's Club, the Pontiac Varsity Club and the 761st Tank Battalion.

★ ★ ★

Also cited for past service by the league were retiring board members William Jenkins and Mrs. Laura Carey and deceased board member Mrs. Lazette Baker.

Ohioan to Face Murder Charge

Oakland County sheriff's detectives said they expect a warrant to be issued later today against an Ohio man, charging him with the murder of George Cobitz of Oak Park, whose body was found in Pontiac Township Feb. 19.

★ ★ ★

Sgt. Harry Maur said the man's name cannot be released until the warrant is actually signed. He said the suspect will be sought in Cleveland.

Maur said the pending warrant is the result of leads resulting from the arrest—Wednesday of two Cleveland men who reportedly were in possession of Cobitz' car.

Richard Zebbs and Rawleigh W. Banks, both in their 20s, will be extradited to Oakland County on a charge of conspiracy to possess a stolen motor vehicle, Maur said.

★ ★ ★

The car had been missing since Cobitz, a 50-year-old insurance executive who lived at 23311 Coolidge, was found in a field off Doris Road by a passing truck driver.

★ ★ ★

He had been beaten on the head by a blunt instrument, sheriff's deputies said.

The victim's license plates and serveral of his credit cards have also been recovered in Cleveland, according to deputies.

Previously, he was corporate vice president-marketing, and general sales manager and general marketing manager for the Ford Division. He is a graduate of Hamilton College, Clinton, N.Y.

New Visiting Hours at Pontiac General

New visiting hours go into effect Monday at Pontiac General Hospital. They were set last night by the board of trustees.

Requested by Hospital Administrator Harold B. Euler, the new hours will be on a one-month trial basis.

★ ★ ★

Instead of noon to 8 p.m. hours, visitors will be allowed between 11:30 a.m. and 1:30 p.m. and 4 and 8 p.m.

Euler requested the change in hours because the hospital's current building program has severely taxed the hospital's parking facilities.

State Election Law Changes Are Proposed

LANSING (AP)— Elimination of the precinct delegate from the ballot and earlier counting of absentee ballots are among recommendations made to a Senate committee studying proposed changes in Michigan election law.

The recommendations were made to the Senate Education-Elections Committee at a hearing earlier this week in Redford Township, Sen. James Gray, D-Warren and a member of the committee, reported.

★ ★ ★

Gray said the hearing was held to allow township clerks and other interested parties to make recommendations before the committee begins work on legislation to be introduced next year.

CLERKS TESTIFY

Earlier counting of absentee ballots and elimination of the precinct delegate were suggested by James Walker of Clinton Township, one of two township clerks testifying before the committee, Gray said.

Present law requires absentee counting boards cannot begin totaling absentee votes until 7 p.m. on election day, Gray said.

★ ★ ★

The fact that the precinct delegate post appears on the ballot often is confusing to voters, Gray said, since it is a party office rather than a public office.

Discipline Procedure Outlined

(Continued From Page One)

The school district's maximum penalities are for the following offenses:

● Truancy (unauthorized absence) — closed classes for first and second incidents and suspension for remainder of semester thereafter for students over 16 years of age.

Under 16 — contact parents on first incident, close classes after second and third incidents, suspend the fourth time and suspend and possibly refer to court the fifth time.

A student is considered truant if after 10 days absence in one semester he doesn't submit written evidence of illness, injury or a death in the family.

● Smoking — for students over 16, close classes first two incidents, close classes the third and possibly suspend for the semester. For students under 16, close classes first two times, suspend the third and suspend the fourth time and possibly refer to court.

● Other violations — for students over 16, close classes the first two incidents and suspend for the remainder of the semester the third time. Under 16, close classes or suspension first two times, suspension third time, suspension or refer to court fourth and fifth incidents.

GRADUATION IS GOAL

"It is desirable to have all pupils remain in school until they have graduated from a senior high school," the school policy says.

"Every resource available to the school district and parents should be used to achieve this purpose.

"Under certain conditions it can be in the best interest of a pupil or the other pupils of a school for a pupil to be denied the privilege of attending a school."

Heaviest Raids of the Year

U.S. Warplanes Pound North Vietnam

SAIGON (AP) — U.S. warplanes made their heaviest raids of the year on North Vietnam Thursday, flying the largest number of missions in nearly four months, military spokesmen announced today.

Hitting targets in the southern panhandle in accordance with President Johnson's curtailment order, U.S. pilots took advantage of clearing weather to fly 145 missions, one more than a year's previous record on Jan. 6. It was the largest number since Dec. 26, when 150 were flown.

★ ★ ★

The total was nearly triple the average number of missions the Americans flew against enemy supply routes, convoys and gun positions in the southern part of North Vietnam before Johnson on April 1 ordered them to stay south of the 20th parallel of latitude.

Ten days later the President, in a move never publicly announced, put the northern limit for bombings raids at the 19th parallel, 170 miles north of the demilitarized zone. The curtailment was aimed at inducing the North Vietnamese to open peace negotiations.

169 MILES NORTH

The deepest reported penetration Thursday was a raid by Navy A4 Skyhawks from the carrier Enterprise on a railroad bridge one mile below the 19th parallel and 169 miles north of the demilitarized zone.

Some U.S. sources say that despite Johnson's curtailment order allowing the North Vietnamese to move war supplies with impunity down to the 19th parallel, a distance of 140 miles from Hanoi, there has been very little change in enemy truck traffic in the southern panhandle.

★ ★ ★

The U.S. Command said a limited damage assessment showed the raiders Thursday destroyed or damaged 14 bridges, 13 trucks and 16 boats, barges or sampans; cut bridges and roads in many places, and touched off several secondary explosions and fires, indicating the planes hit fuel or ammunition dumps.

The pilots reported antiaircraft fire was light to moderate.

HELICOPTER CRASH

One of the worst helicopter crashes of the war occurred in South Vietnam. Two U.S. Army UH1 choppers collided in flight 59 miles southwest of the coastal city of Qui Nhon while on a combat operation. Eighteen South Vietnamese civilian irregulars and eight American military personnel were killed. There were no survivors.

Over South Vietnam, Air Force B52 bombers made six more raids late Thursday and Friday on the North Vietnamese buildup in the A Shau Valley west of Hue. The eight-engine Stratofortresses dropped an estimated 1,000 tons of bombs on troop concentrations, bunkers, truck parks and gun positions in the stronghold where U.S. officers think the North Vietnamese may be readying another big push against Hue.

ENEMY TOLL RISES

The fighting northeast of Saigon Thursday raised total enemy casualties to 937 killed and 293 captured since Operation Complete Victory was launched April 8, the U.S. Command said. Allied casualties include 84 Americans and 65 South Vietnamese killed and 427 Americans wounded.

The Viet Cong used tear gas and rocket-propelled grenades to try to stop a mounted troop of the U.S. 1st Infantry about 30 miles northeast of Saigon.

Hunt for King Case Suspect Intensified

By JAY BOWLES
Associated Press Writer

MEMPHIS, Tenn. (AP) — The nation's police agencies intensified a nationwide search today for Eric Starvo Galt, the elusive fugitive sought in the assassination of Dr. Martin Luther King Jr.

They were aided by thousands of wanted posters, just gaining wide distribution two days after the FBI publicly identified Galt, 36, as the man it had sought secretly since a week after the April 4 slaying.

★ ★ ★

The FBI refused comment on queries about whether it believes Galt is the man's real name or was simply a cover built painstakingly over a number of months by the beer-drinking lover of hillbilly music.

Two aliases—John Willard and Harvey Lowmyer—were listed on the federal conspiracy warrant issued against Galt in Birmingham, Ala., Wednesday afternoon and the first-degree murder warrant issued by the state against him here Wednesday night.

NO REFERENCE

"John Willard" was the name used by the man who checked into a Main Street rooming house three hours before King was shot as he stood on the balcony of a motel here. There has been no reference to the second alias.

The federal agency denied a report that it had taken into custody the man it said Galt described as his brother and that the brother was aiding in the search. The federal warrant, issued Wednesday, claimed that Galt and the brother entered into a conspiracy March 29 to violate King's civil rights.

★ ★ ★

The FBI covered many specific details about Galt's life over the past several years in its release including the fact that he is an avid dancer, has "rural speech," apparently lacks education and has a "nervous habit of pulling at an ear lobe with his left hand."

But except for his age, the FBI's statement was void of vital statistics, including Galt's birthplace or of any details of his movement prior to 1964.

IN MEMPHIS

The statement disclosed for the first time that Galt was in Memphis the day before King was shot, although he did not move into the rooming house from which the fatal bullet was fired until the day of the assassination.

A night clerk at a motel here said that a man registered there as "Eric S. Galt" the day before the slaying, but stayed in his room all night and received no visitors.

★ ★ ★

There were these other developments:

● The U.S. attorney's office in Kansas City quoted an informant of "apparent reliability" as saying King was among persons marked for death if Robert Bolivar Depugh, leader of the militant right-wing Minutemen organization, ever went to jail. The statement was included in a court motion to dismiss an appeal from Depugh on a conviction for a National Firearms Act violation.

● A Birmingham man who said he had a brief business dealing with Galt told reporters that the hunted man once told him he had a wife living in the Rocky Ridge section of the Alabama City. There was no official confirmation.

ON THE WANTED LIST — The FBI in Washington yesterday started circulation of this poster calling for the capture of Eric Starvo Galt, sought in the murder of Dr. Martin Luther King Jr. The poster, signed by FBI Director J. Edgar Hoover, bears two photographs of the man the FBI says is Galt—one photo with eyes closed and the other with eyes drawn by an FBI artist.

Smoking Tips for Card Games

Cut Down by Keeping Busy---Psychologists

WASHINGTON (AP) — Bridge players who want to cut down on cigarette smoking should avoid situations that might be boring—like being dummy too often in the card game—two Connecticut psychologists suggest.

Instead, they said, the players should keep busy with hands and brain and make lots of trigger-quick decisions while under fire—like the winning bidder who plays the hand.

★ ★ ★

Such tips for smokers in general were implied Thursday in a report by two University of Bridgeport reearchers. They have been carrying on a wide-ranging study of smoking behavior by people in various workaday and social situations, including bridge-playing.

★ ★ ★

Reporting to the 39th annual meeting of the Eastern Psychological Association, Dorothy T. Hoffman and Eugene P. Boyko said they took a smoking survey during five duplicate-bridge tournaments at a local club.

Smoking during bridge tournaments was heavy, said the psychologists.

★ ★ ★

Indeed, they said, only a fraction of a per cent of 25 million respondents to smoking surveys of the U.S. Census Bureau and the American Cancer Society reported smoking rates as high as those observed among the card players.

Fish, Food, Fun, and Sun Offered State Tourists

GRAND RAPIDS (UPI) — Fish, food, fun and sun. That pretty well sums up what Western Michigan resorts on a 350-mile Lake Michigan stretch from Benton Harbor to Sault Ste. Marie have to offer tourists this summer.

The West Michigan Tourist Association lists 125 events ranging from county fairs and art shows to world famous festivals for the 1968 spring, summer and fall seasons.

★ ★ ★

The big ones start with the National Trout Festival at Kalkaska April 26-28. Kalkaska has a population of about 1,500 and, with the help of communities for miles around, hosts about 50,000 fishermen who are lured by the various trout streams in the area. It is the 32nd festival with Eugene Little of Williamston and Victoria Scheer of Grayling reigning as king and queen of the festival.

On May 12-18, the Blossom Festival at Benton Harbor and St. Joseph will be held. It annually attracts about 400,000 persons with a flock of beauty queens from various Southeastern Michigan points competing for the Blossom Queen crown.

In the Bell System, there's not much time!
CWA—the Communications Workers of America — has set a strike date of April 18, 3:00 p.m.

If we strike, it will be very effective — throughout large areas of the Bell Telephone System.

But frankly, we'd rather find agreement than strike.

We believe the strength and reasonableness of our arguments for a substantial pay increase ought to be recognized by the immensely profitable Bell System.

CWA has proposed voluntary arbitration
CWA is ready to place the economic facts before an impartial referee, and to accept his recommendations.

That way, we would get agreement without resort to strike. For the facts are clear: a substantial pay increase for telephone workers should be in the cards this year.

Bell Telephone System is making a profit of over two billion dollars a year — and the rate of profit is going up. Productivity of Bell System employees is way up.

Pay rates need to keep pace. So far, management has refused our peaceful formula — and hasn't made a good enough offer.

But there's still time.
If Bell offered to treat their employees equitably, there'd be no strike.

If Bell accepts our peaceful formula or proposes a realistic plan for settlement, there'd be no strike.

CWA is a reasonable union. We're ready for anything that makes sense.

But if the company's reply is nonsense, then CWA will be on strike April 18.

It's up to Bell.

"Whooping it up," Ralph Norvell appears the prize catch of Tipacon Charter chapter members Mrs. Clifford Marsh, left, and Mrs. Garland Hale. Norvell, named 1968 "Boss of the Year" at a recent ceremonial meeting, was awarded the chief's headdress by outgoing "Boss" Harold A. Cousins. Mrs. Marsh resides on Sharon Street, Norvell on Wenonah Lane and Mrs. Hale on North Perry Street.

Norvell Named "Boss of Year"

Ralph Norvell is "Boss of the Year" for Tipacon Charter chapter of the American Business Women's Association. In keeping with the "Indian Pow-Wow" theme, Norvell was initiated into the tribe through the donning of a chief's headdress.

★ ★ ★

Mrs. Howard Hess, assisted by Harold A Cousins, 1967's "Boss," performed the selection and crowning of the new chief Thursday evening.

Mrs. Sigmund Fitz, president, welcomed bosses to the 15th annual Boss Night party at Spring Lake Country Club.

Mrs. Richard Veazey, editor of the Community Cultural Calendar, gave a vocational talk about the Community Arts Council.

★ ★ ★

Mrs. John Shada was principal guest speaker and entertained the group with her tribal message "Heap Big Heart."

Oxford Boy Scout Troupe No. 32 performed Indian dances.

Guests attending were Mrs. Adeline Larsen, northeast district vice president, and Patricia Odgers, president of the Candle Glo chapter, both of Flint.

★ ★ ★

Boss night chairman, Mrs. Henry Bourque, was assisted by Mrs. Richard Veazey, Macie Stoycheff, Mrs. Betty Opdenhoff, Mrs. Lawrence Murph,y Ruth Woodworth, Mrs. Garland Hale, Mrs. Clifford Marsh, Mrs. Walter Latozas, Mrs. Fitz and Kathleen Hawkins.

Short Changed Uncle Sam

Pay Now and Sleep Later

By ABIGAIL VAN BUREN

DEAR ABBY: I haven't been able to sleep very well lately. You see, I cheated a little on my income tax. (Deductions.) Any suggestions?

SOL

DEAR SOL: Send the internal revenue department a check for $100. And if you still can't sleep, send the balance.

★ ★ ★

DEAR ABBY: I just finished crying my eyes out over something that is not my fault. A very nice boy from school started dating me and I was on cloud nine. I was never popular, and he was like an answer to my prayers.

ABBY

Well, he just called me up and told me he couldn't date me anymore because his parents have forbidden him to.

★ ★ ★

The reason was they heard that my older sister had a baby out of wedlock. (She did, but Abby, I have never done one thing out of the way, so why should I have to suffer for something my sister did?). I have even had girl friends tell me they couldn't go around with me anymore because of my sister's reputation.

I am not like my sister, and don't see why people should hold this against me. How can I prove that I am a "nice" girl when I have this against me?

"MARKED" IN SCRANTON

DEAR MARKED: "Don't try to "prove" anything. People who are not willing to judge you on your own record are not worth having as friends.

★ ★ ★

DEAR ABBY: Some new neighbors moved into our area, and we share a two-party line. Abby, this woman speaks as good English as I, because I have heard her, but when she talks on the phone she always speaks a foreign language. I consider this an insult to me. What do you think of a neighbor like this?

BURNED UP

DEAR BURNED: She's smart. She speaks a foreign language because she suspects that someone may be listening. And she is obviously right.

★ ★ ★

DEAR ABBY: I would like to say something to "A FATHER," who thinks children ought to be fed first so he and his wife can have a nice quiet dinner after he has put in a hard day's work.

Who, may I ask, is going to prepare two meals—one for the children and another one, later, for the Lord and Master? The cook? Sorry, we don't have one.

And who is going to look after the children while father and mother are enjoying their peaceful meal without children fighting and screaming? The nursemaid? Sorry, we don't have one of those either. Besides, if the kids are by themselves, Mother will probably have to get up and referee.

Separate meals may work in somebody else's house, but not in ours. We all eat together. It's not always quiet and peaceful, but somehow we'll manage to live through it.

OHIO MOTHER

CONFIDENTIAL TO B.L. OF B.B. H.: The answer is yes. And who said it better than Max Nordau?

"It may sound shocking, yet I must say it, we can love several individuals at one time with nearly equal tenderness, and we need not lie when we assure each of our passion."

Group Representatives Attend Annual Confabs

A number of area women will be traveling various distances within the next week or so to attend conventions of their organizations.

PILOT

Pilot International's District 15 convention is scheduled at the Vendome Hotel in Evansville, Ind. today through Sunday.

★ ★ ★

Delegates of the Pontiac group are Mesdames: Glenn J. Dolan, president-elect; Neil Burkholder of Livonia; Joseph Ferris of Orchard Lake and Lee C. Richert of Thorpe Street.

FEDERATION

The annual convention of the Michigan Federation of Women's Clubs will be held in Traverse City Tuesday through Thursday.

★ ★ ★

Mrs. Lee Hill, Mrs. George Brinkman and Mrs. David Saks will represent the Pontiac Women's Club and the Pontiac City Federation of Women's Clubs.

★ ★ ★

Also attending will be Mrs. Douglas Trueman of Lake Orion, state communcation chairman; and, from Bloomfield Hills, Mrs. Hans Schjolin, president of the Oakland County Federation of Women's Clubs.

Mrs. Forbes S. Hascall will attend in her capacity as secretary-elect of the Southeastern District of the Michigan Federation.

★ ★ ★

The Birmingham Women's Club will be represented by Mrs. Melbourne Apple and Mrs. Olaff Runge.

SOROPTIMIST

The Midwestern Regional Conference of Soroptimist Clubs will take place April 26-28 in the Sheraton-Cadillac Hotel, Detroit.

★ ★ ★

Apartment Life Calls for Much Thoughtfulness

By ELIZABETH L. POST

Dear Mrs. Post: I read with great interest your article "Lack of Consideration Worst Social Offense." You might also have mentioned the apartment dwellers with no rugs and whose children scream, run and hammer on the floor and walls from 5:30 in the morning until 10 at night and whose parents say, "It's our home and we'll do as we please."

Please speak up for the people who have wall-to-wall carpeting and take care that neighbors are not upset by radio, TV, or other noises—T. Sherman

★ ★ ★

Dear Mr. Sherman: Apartment house living is community living, and only by considering one's neighbors can life be made pleasant. Not every one can afford wall-to-wall carpeting, but some sort of floor covering helps to deaden sound. Children, active as they are, must be taught to channel their energies into quieter pastimes.

TV and radio sets should be heard only by those actually enjoying them. The quote you give can be changed from a deplorable statement into an acceptable one by simply adding "as long as we don't disturb our neighbors.

INTRODUCTIONS

Dear Mrs. Post: What would the proper introduction be under the following circumstances. My mother-in-law has remarried. My name is Smith, her new name is Jones. How would I introduce my mother-in-law and her husband to friends, and would my husband introduce the couple in the same way?—Mrs. Norton.

★ ★ ★

Dear Mrs. Norton: In order to make the various relationships clear, you must get all the information into the introduction. To do this best, say, "Mrs. Strangler, I'd like you to meet John's (or my husband's) mother and stepfather, Mr. and Mrs. Jones." This explains the difference in names and is perfectly correct and friendly.

FAMILY PORTRAITS

Dear Mrs. Post: We have a family of five children, one of whom is married. We had a family portrait made, but it excludes our married son. We have received criticism because we did not include him. We thought that this was proper because he has his own family. —Mrs. B.

★ ★ ★

Dear Mrs. B.: The fact that your son is married does not make him any the less a member of your family. The nicest thing to do in having a family portrait made would be to include all the married children and their wives and husbands.

Assorted Dishes of Personalities at May Benefit

A favorite recipe of Mrs. Lyndon B. Johnson, of Mrs. George Romney, of Jeannette MacDonald and a hundred others will be available at the May Day Recipe Tasting Luncheon planned for May 1 at the GMTC Employes Credit Union Building.

★ ★ ★

The event, sponsored by the Women's Auxiliary of Drayton Plains Nature Center, will run from 1 a.m. to 3 p.m. in the auditorium of the building on Woodward Avenue across from St. Joseph Mercy Hospital. The GM Girls' Club is assisting with arrangements.

RECIPES

Recipes will be sold at from 10-25 cents. The charge for the luncheon is $1.50. Proceeds will be used to operate the Center which has been visited by some 7,000 students and 3,000 adults during the past year.

★ ★ ★

The noon hour (from 12-1 p.m.) is reserved for business people. Others should plan to attend earlier or later.

★ ★ ★

The luncheon will begin with appetizers and progress to breads, rolls, meat, casseroles, salads, desserts, tea and coffee.

Mrs. Robert J. Smith of Fernbarry Drive is ticket chairman.

Erma Bombeck, suburban housewife and syndicated columnist, will be the featured speaker at the annual Awards program of Pontiac Area United Fund Women's Division next Thursday at Spring Lake Country Club. Mrs. Bombeck, mother of three, writes for women about women's problems and entitles her column, appropriately, "At Wit's End."

Battle of Hemline Is Undecided

By LEONORA DODSWORTH
AP Fashion Writer

FLORENCE (AP) — The skirt length battle was still undecided as the showing of Italian lines for fall and winter ended in Florence today.

Fifty-nine houses have fought it out on the Pitti Palace runway, and everything goes, from long bare legs to covered calves.

The boutique houses went mad about maxis. The knitwear houses were a little more cautious with only an occasional long skirt.

The ready-to-wear lines from the couture houses were even less prepared to take risks: the maxi was in a definite minority.

★ ★ ★

The 1930s theme has been given a good second inning. Fox furs, droopy dresses in draped crepe, floating scarves and platinum blonde hair were copied straight from the Hollywood sketchbooks of 30 years ago.

Belted coats were a constant in all collections. Double-breasted styles are poular with tiny fitted tops buttoned up to neat band necklines, but revers are returning.

Sleeves are set-in and narrow. Below the waist, coats fan out in gentle flares, clever cuts, subtle seaming, bright metal buttons and plenty of pockets.

SUITS

Suit jackets are long and lean and usually with belts. Skirts are shaped just off the straight but plenty of pleats are still around.

★ ★ ★

Classic tweeds are back, all the "wellbred" weaves and country club checks. Chalk-striped flannel in gray or navy is a favorite choice for sharply tailored suits cut on mannish lines.

The screaming colors that the Italians used to love are replaced by somber muted shades in keeping with the somewhat sedate styles being shown. Gray has got it almost all its own way for day and evening. Also important are beige, black, white and olive.

Membership Tea Set by Republican Women

The Pontiac Republican Women's Club is giving a membership tea Monday at 1:30 p.m. in the Illinois Road home of Mrs. Joseph Chumming.

Margaret Scott, president, reports some outstanding speakers will be there. Interested persons may attend.

Tours of Art Center

Free public tours of the Pontiac Creative Arts Center are planned for Saturday. Hours are 10 a.m., 2 and 3 p.m.

'Floral Fantasy' in Mall Show

Women of 20 branches of Woman's National Farm and Garden Association have been working since January on plans for the upcoming Pontiac Mall Flower Show which will take place Oct. 14-19.

The theme this year is "Of Cabbages and Kings, A Floral Fantasy."

Mrs. Ross Thompson, schedule chairman, used the stories "Alice in Wonderland" and "Through the Looking Glass" for her inspiration in making out the schedule which was distributed at the fourth general committee meeting recently.

The theme covers the seasons from cabbage night (Halloween) to the three kings (Twelfth Night).

There will be two classes open to the public. Any non-member desiring to enter one or both of these classes should write to Mrs. Joseph Carpenter of Fernbarry Drive, for details.

Drayton Plains Nature Center will again receive the $1,500 award given by The Pontiac Mall to the participating branches.

Mrs. Newton Skillman of Lake Angelus is general chairman for the show.

Mr. and Mrs. John Fliehman of Farmington announce the betrothal of their daughter, Cheryl, to R. Jan Appel. He is the son of Mr. and Mrs. C. J. Appel of South Avery Road. The bride elect and her fiance, seniors at Michigan State University and Central Michigan University, respectively, will wed Aug. 24.

Garden Group Sponsors Teacher's Nature Training

A review of the book "Carefree Gardening" highlighted the April meeting of the Better Home and Garden Club at First Federal Savings of Oakland on Huron Street.

Members voted to send a teacher to the Conservation School at Higgins Lake this summer.

★ ★ ★

The crocus was the exhibit flower for the month.

Mrs. John Armstrong addressed the group on the subject of water and air pollution.

Committee for the day was comprised of Mrs. Marie George, Mrs. W. H. Eustice and Violet Crawford. Margaret Wilmot attended as a guest.

★ ★ ★

A visit to the Seven Ponds Nature Center is scheduled for May 20, with luncheon at the Chuck Wagon in Dryden.

The next meeting of the group will be held at the Lake Orion home of Mrs. John Plassey. It will begin with potluck luncheon at 11 a.m. Nature study will follow.

'Sound of Thinking' Convention Theme

"The Sound of Thinking" is the theme of the 44th annual convention of the Michigan Federation of Temple Sisterhoods (District 11 of the National Federation of Temple Sisterhoods, which includes Windsor, Ontario), slated Monday through Wednesday at Stouffer's Northland Inn and Temple Emanu-El, Oak Park.

★ ★ ★

Keynote speaker at the Tuesday 7 p.m. banquet at the Inn will be former Michigan Supreme Court Justice Otis M. Smith, who is currently on the University of Michigan Board of Regents and serves on the legal staff of the General Motors Corporation.

His topic will be "Negro-Jewish Relations in Time of Crisis." Non-members may make reservations to attend.

★ ★ ★

The principal speaker at the plenary session, 9:30 a.m. Tuesday at the temple, will be executive committee member, Mrs. Paul J. Basinger of Chicago, who currently serves as chairman of the NFTS Department on Religion and Education. Visitors may also attend this session.

SEMINAR

A seminar on "Crisis in Youth: How to Keep Your Cool" will feature Dr. Eliot Luby of Lafayette Clinic and Wayne State University; Rabbi M. Robert Syme of Detroit and Gerald Garfield, University of Michigan student and former president of the Youth Group at the host temple.

★ ★ ★

About 100 delegates are expected to attend the convention. Displays relating to projects of various sisterhoods will be set up in the temple.

★ ★ ★

The women typically work in behalf of the blind; service to youth; for social justice and international relations; family education and particularly the "Institutes on Judaism for Church Women" which seek to further interreligious understanding.

★ ★ ★

Mrs. Irving Steinman of Temple Beth Jacob is chairman of the constitutional revisions committee whose work will be voted on at this convention. Mrs. Maurice Weiner of Birmingham is arrangements chairman.

Pontiac Press Photo

At left is Mrs. Marvin Talan of Antique Lane holding an ancient prayer book. Mrs. Kenneth Dickstein of Orchard Lake (right) displays a kiddush cup decorated with grape clusters. All three women delegates to the convention are members of Temple Beth Jacob.

Hurt by Interest Rate News

Stock Market Takes Stiff Loss

NEW YORK (AP)—The stock market took a stiff loss in active trading early today on news of stiffer interst rates. The ticker tape was late.

Losses outnumbered gains by about 8 to 1 on the New York Stock Exchange, and the Dow Jones Industrial Average toppled about 11 points.

Johns-Manville and Avnet lost about 2 each, Whittaker 3.

Down a point or more were all the Big Three Motors, United Aircraft, Raytheon, Zenith, Alcoa, Anaconda, General Electric, IBM, M-G-M, Westinghouse Electric, Eastern Air Lines, Occidental Petroleum, Roan Selection Trust and Parke, Davis.

The market had seven straight days of advance behind it and the raising of the discount rate by the Federal Reserve Board was regarded as an "excuse" for a market correction which analysts have been predicting right along, purely on a technical basis.

★ ★ ★

The boost in the discount rate was followed quickly by advances in the prime rate by major banks to 6½ per cent from 6 per cent. This is the basic rate that the big banks charge to their biggest customers.

The raise in the discount rate was widely interpreted as an anti-inflationary measure taken by the "Fed" in absence of the tax increase it has long supported.

★ ★ ★

The rise in the basic interest rates fanned out to a boost in commercial paper interest rates.

Accord Gained at GM Plants

But UAW Strikes at Atlanta, Ga., Facility

DETROIT (AP) — Hours after 2,800 United Auto Workers struck a General Motors Corp. plant at Willow springs, Ill., Thursday, tentative agreement was reached in a local strike by 1,800 workers at another GM facility in Atlanta.

Earlier in the day, General Motors and the UAW also reached tentative settlement for 1,250 workers at the firm's Chevrolet assembly plant at Framingham, Mass. That plant was struck March 4 in a local contract dispute and idled 1,450 workers at the companion Fisher Body plant. A ratification vote is set for Saturday.

★ ★ ★

Tentative agreement on a local contract at GM's Chevrolet Assembly plant in Atlanta was reached after a 32-hour bargaining session. A ratification vote is set for Saturday. The plant was struck March 8 over local working conditions.

Meanwhile, in Willow Springs day shift production workers at the Fisher Body stamping plant halted production of metal parts for GM cars in a dispute over the handling of local grievances. They were joined in the walkout by workers on the second and third shifts.

AGREEMENTS

A spokesman at General Motors said the company now has local agreements with 165 of 168 local bargaining units.

Still unresolved is a pact with 900 workers at the companion Fisher Body plant at Atlanta, 3,000 workers at a General Motors assembly division plant at South Gate, Calif. and 200 at a Bloomfield, N.J. plant, which packages GM parts for shipment overseas.

★ ★ ★

A company spokesman said the 900 workers at the Fisher Body plant at Atlanta, idled by the strike at the Chevrolet assembly plant there, are expected to return to their jobs if the pact is ratified while negotiations continue toward the second contract.

A GM spokesman said the Willow Springs strike was authorized by UAW officials in Detroit. Union spokesmen were not immediately available for comment.

LONG MEETING

The company spokesman said negotiators for the company and the union had been meeting for two weeks without agreement on pending grievances.

Leave Granted to OU Prof Facing U.S. Deportation

A Pakistani sociologist who is being forced by federal immigration laws to leave the country this month may rejoin the faculty of Oakland University for the 1969-70 academic year.

Saghir Ahmad, assistant professor of sociology, was granted a year's leave of absence yesterday by the Michigan State University Board of Trustees at its monthly meeting in East Lansing.

The leave is to permit him to fulfill a foreign residency requirement of the Immigration and Naturalization Service.

Oakland University officials and the student body had tried to intervene in the deportation but Ahmad's appeal for a waiver of the law was denied earlier this month by the U.S. Department of Health, Education and Welfare.

★ ★ ★

He has been in the United States since August, 1966 on a practical training visa which expired last February. The law says he must spend eight months out of the country before seeking to return as an alien resident.

PONDERS FUTURE

Ahmad said he will leave the country by the April 30 deadline the federal government has given him. He is considering job offers from Canadian and English universities but may return to Pakistan for independent research.

In other board action, the trustees approved one appointment and accepted $75,900 in major grants.

Virginia B. Morrison of Ann Arbor will join the OU faculty in the fall as associate professor of education. She now holds a similar position at Wayne State University.

Two grants will support reading study programs being conducted by the university's School of Education.

★ ★ ★

The Department of Health, Education and Welfare gave $33,193 to support an advanced study program under the direction of Assistant Professor Harold C. Cafone.

LARGE DONATION

Royal Oak Schools donated $20,707 to support a reading and study improvement program being conducted by Professor Harry T. Hahn.

Other grants accepted for OU were $15,000 from the National Science Foundation to support research entitled "Human Operators Controlling Compensatory Systems" and $7,000 from the Harlan Foundation in Southfield.

★ ★ ★

Harland Foundation gave $5,000 to Meadow Brook Theatre and $2,000 to Oakland's Project 20, a program to encourage youths from disadvantaged backgrounds to pursue a college education.

Plea to Exempt Some Building in Strike Made

DETROIT (AP)—Taking cognizance of a possible strike by building tradesmen May 1, the New Detroit Committee asked both unions and contractors Thursday to exempt from any work stoppage housing for low- and moderate - income families which is financed entirely by federal funds.

Current contracts of most building tradesmen expire April 30. They are seeking sizable increase in pay and fringe benefits and negotiations reportedly are near a deadlock.

★ ★ ★

The committee reported that Detroit is experiencing "one of the most distressing shortages in its history, particularly housing for low and moderate income families."

"The City of Detroit, as well as the metropolitan area," the committee continued, "faces the prospect of a major labor disagreement between the general contractors and the unions of the building trades whose contracts expire April 30.

CAUSE DELAY

"A labor dispute could cause irreparable delay to programs directed toward solving the housing problems of the low- and moderate-income families."

It said Federal Housing Administration records could be used in determining what housing developments are being financed 100 per cent by federal funds.

Military Bill Cuts Pondered

Antiballistic-Missile Program Is Kept In

WASHINGTON (AP) — Further attempts to cut the $22-billion military procurement bill are planned in the Senate after following futile efforts to trim research funds and delay deployment of an antiballistic missile system.

Sen. Joseph S. Clark, D-Pa., planned to offer amendments today to cut at least $2 billion out of the bill, which authorizes spending for military hardware and research in the year starting July 1.

★ ★ ★

But final action on the bill is expected later in the day with overwhelming approval of the full amount likely.

Sen. Gaylord Nelson, D-Wis., led an unsuccessful fight Thursday to eliminate the so-called thin ABM defense system.

WON'T BACK

"I cannot in good conscience vote for a program that will launch us into a spiraling missile escalation which has no end and no purpose either," he said.

Nelson lost 41 to 17 in his effort to trim the $342 million provided in the bill for procurement of the ABM system, designed to provide protection from potential attacks in the early 1970s from Communist China.

Sen. John C. Stennis, D-Miss., floor manager of the bill, said "we would be doing a dangerous thing" by cutting the ABM project out of the bill and added the system would be valuable in case a later decision is made to deploy a $40 billion ABM system to defend against any attack from the Soviet Union.

Damage Put at $51 Million in April Riots

NEW YORK (AP) — The American Insurance Association reported Thursday that estimates of insured property damage in the widespread disorders that followed the assassination of Dr. Martin Luther King Jr. had risen to $51 million.

Last week, the association made an estimate of $45 million on the losses in about 100 cities hit by racial disorders.

★ ★ ★

The association said further examination of damage in Washington, D.C., and Baltimore raised the total.

The association's new estimate for Washington was $19 million, including 21 businesses in high-valued property areas which applied for a total of $7 million in losses.

★ ★ ★

The insured losses figure for Baltimore was increased to possibly $12 million.

Property damage not covered by insurance is not included in the association's figures.

Trustees Budget Expenses

$11.3 Million for OCC Projects

Oakland Community College Board of Trustees approved a tentative $6.3-million operating budget and a $11.3-million building program for 1968-69 last night.

It is an increase of about $1 million over the current expenditures because of an expected 25 per cent increase in enrollment said OCC officials.

The board felt the budget justified the levying of the maximum 1-mill tax levy for operations and one-half mill tax for payment of principal and interest on outstanding bonds. A resolution was adopted to continue these taxes.

Trustees emphasized the budget probably will be changed later, depending upon faculty salary negotiations and state aid.

★ ★ ★

A year ago, a $5.6-million budget was approved. Later it was reduced to $5.3 million because funds from the state, based on student enrollment, fell short of the estimate.

Revenue is anticipated to exceed expenditures by $444,208 in the new budget.

Estimated revenue is placed at $6.7 million. The one-mill local tax will provide about $3.2 million or 48 per cent of the total.

State aid is expected to provide 29 per cent of the income. The state gives $357 for transfer students and $425 for vocational students.

Expenditures are estimated at $6.3 million, up $917,000 over the current budget.

ROLLS TO DOUBLE

More than $2 million is slated for the new Orchard Ridge campus where enrollment is expected to almost double with completion of the campus this spring.

Orchard Ridge had 1,549 students last fall and 3,000 are estimated for this fall.

Some 1,800 are estimated for Auburn Hills in Pontiac Township and 1,700 for Highland Lakes in Waterford Township, both about the same as last year.

★ ★ ★

Total enrollment at the three campuses is estimated at 6,500, up 1,300.

About $11.3 million is requested to be spent on buildings and sites, most of it to place permanent buildings at Aburn Hills.

Most of the revenue to pay for building and site expenses is expected to come from $9.5 million to be left over at the end of this fiscal year.

Income for the building and site fund comes from state and federal funds.

A tentative $7.3 million will be spent to construct boiler, science, general assembly, vocational tenchnical and a learning resource center, math and business buildings, among other improvements, at Auburn Hills.

MASTER PLAN

More than $1.6 million is earmarked to prepare a master plan for the new Madison Heights campus and construct a first phase of buildings.

The college is expected to have just enough money to pay off the debt it owes on bonds, leaving an estimated balance of $64,720 in June, 1969.

Principal and interest is placed at a total of $1.4 million. A half-mill levy will produce about $1.6 million of revenue.

In a related item, OCC will not seek an injunction to stop all of Michigan's 28 community colleges from getting federal Higher Education Facilities money through the state.

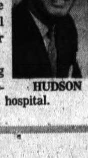
OCC disputed the funding procedure at a hearing yesterday with the results that the wording of the procedure would be clarified.

At Hospital

Hudson Honored

A letter of commendation was ordered last night by the board of trustees of Pontiac General Hospital for District 4 City Commissioner Leslie H. Hudson.

Hudson was cited for his efforts in behalf of the hospital in securing land for additional hospital parking.



HUDSON

A realtor, Hudson, who leaves his commission post next Monday, has assigned options for 10 parcels on South Johnson south of the Medical Arts Building at the corner of West Huron to the hospital board. He forfeited his standard realtor fee, which would have totaled $10,231.

The newly created hospital building authority is slated to purchase the property and provide added parking for the hospital.

SOMETHING NEW— JUST FINISHED
Ready-to-move-into Apartments between two lovely lakes
Have Apartment families been slighted? We think so. Just because you don't want to bother with home owner chores, is no reason you shouldn't be living beside a lake or enjoying the swimming, fishing, sailing, water-skiing, that goes with it. So we built Sylvan-On-the-Lakes and these lovely 1- and 2-bedroom apartments are ready to move into now. For as little as $152 a month you get a large living room, separate dining area, complete kitchen with built-in appliances, loads of closet and storage space, laundry facilities, carpeting, air-conditioning and parking area. Private beach. Come on over. Last one in is the sissy!
