Greeting From Russians Chilly as Nixon Arrives Asking Peace

'I Can't Believe It!'

AP Wirephotos

QUEEN OF THE LAND — Terry Lynn Huntington, 19-year-old UCLA coed, beams as she is crowned Miss U.S.A. in Long Beach, Calif. The lovely green-eyed brunette has been chosen to represent the United States in the Miss Universe contest tomorrow. The shapely lass (36-23-36) threw herself into the arms of her mother when she heard the good news. The new beauty queen likes swimming, skiing, steak sandwiches, malts and drive-in movies — a typical American girl.

LET'S GET MOVING! — Unscheduled toppling by a lightning-struck chimney turned demolition workers into track stars at East Orange, N.J. Wednesday. The men were working on a wrecking project at a high school when the chimney decided to fall without their help.

Shun Huntington Tickets, Says JP

By MAX E. SIMON

An Oakland County justice of the peace today slammed his court doors shut and urged his constituents to ignore tickets issued by Huntington Woods police officers.

Huntington Woods Justice James Renfrew, in letters to Mayor David Ross and city commissioners, declared:

"No tickets issued in Huntington Woods need be paid by an accused at the so-called violations bureau."

The city's violations bureau is run by the city's police department which, Renfrew contends, is illegal.

Renfrew's sudden action drew a swift reply from City Manager Fred L. Yockey.

"I think he's gone off half-cocked," Yockey snorted angrily.

★ ★ ★

The flareup in Huntington Woods is the latest development in a feud between the justice and other city officials which began in May.

The argument developed when Police Chief John R. McQuater made a public safety report to the City Commission May 4.

Renfrew, at that time, said Yockey did not furnish him a copy of the report which "implied I was hurting the department of public safety's morale."

Renfrew suspended a number of traffic tickets when officers failed to appear at scheduled court hours.

The report made mention of the suspended cases but Yockey said this was for "information only."

★ ★ ★

The justice later charged that he was not being furnished with office space and equipment necessary to maintain his court.

Renfrew's decision to close court came after a Commission meeting Tuesday night. Commissioners denied his requests for office supplies but authorized him a court docket and file cabinet.

The justice said that cases of motorists speeding over 10 miles an hour should be handled through his court. He presently is allowed to handle those viola-

Kennedy Hurls Charges at Hoffa

Accuses Teamsters of Threatening Solons Favoring Labor Bill

NEW YORK (AP)—Robert F. Kennedy, Senate Rackets Committee counsel, hurled a barrage of charges against James R. Hoffa and his Teamster Union last night and urged support for a labor reform bill.

Kennedy said Hoffa and some of his associates "feel they are above the law, that they can fix judges, and fix even members of Legislatures."

Kennedy said Hoffa has been "doing things in 1959 as bad as the things we brought before the committee that he had done in 1955 and 1956."

Kennedy told a nationwide television audience the Senate Rackets Committee is going out of existence this year. He strongly urged passage of the labor reform bill this year. He said Congress would be reluctant to pass it next year, a presidential election year.

The bill, introduced by Kennedy's brother, John F. Kennedy (D-Mass) and Sen. Samuel J. Ervin Jr. (D-NC), has been passed by the Senate but has been in a House committee five weeks. It is expected to come out with considerable changes.

★ ★ ★

Kennedy said Hoffa and his representatives have "threatened and harassed" congressmen not to pass the bill. But he said "more than 12 postcards" from constituents would make any congressmen think twice before voting against the bill.

NO CREDIT

He said Hoffa deserves no credit for the high wages that Teamster Union members have received through their contracts. He said the high wages are restricted mostly to eastern states, where Hoffa played no part in negotiations, while wages in the central states are low. Kennedy said Hoffa had been most active in the contracts in central states.

WASHINGTON (AP)— The House Labor Committee, by a narrow 16-14 vote, today formally approved a compromise labor control bill.

Committee Democrats split down the middle 10-10. Six of the 10 Republicans voted for the bill which was a watered-down version of the measure passed by the Senate earlier this session.

Senate KOs Tax Bill With Blunt Swiftness

LANSING (AP)—The Republican-controlled Senate today voted down the Conlin personal-corporate income tax plan 18 hours after it was approved by the House.

The vote was 21 to 12.

Acting with blazing speed, the GOP majority resorted to extraordinary parliamentary tactics to bring the issue to a quick head. Ordinarily, it could not, under the constitution, have been considered until next week.

GOP senators said their purpose was to "quiet public fear and prevent further confusion" in the bitter seven-months legislative tax struggle.

The vote was strictly along party lines, with Democrats supporting the income tax bill and Republicans standing to a man against it.

In pressing for the quick kill, Republicans provoked frustrated cries of gag rule, steamroller tactics and railroading from Democrats.

Sen. Lynn O. Francis of Midland, Republican floor leader, limited the debate to 20 minutes.

★ ★ ★

Sen. Harold M. Ryan of Detroit, Democratic minority leader, protested that Republicans in their haste were making a mockery of the constitution, which among other things requires a tax bill to lie five days in the opposite chamber after its first passage.

House Democrats, at full strength for the first time this year, cracked the six-month tax stalemate in the lower chamber yesterday, ramming through the key bill in an 11-bill package, 57 to 50.

Five Republicans broke ranks to give it one vote more than the 56 needed for passage.

A strong segment of the GOP Senate majority has adamantly opposed an income tax in any form, whether on individuals or corporations.

FIRST TO PASS

It was the first income tax proposal to pass either chamber this year. The House half an hour earlier had junked a GOP-backed use (sales) tax increase for the third time in 11 weeks.

The income package, authored

2 Pontiac Patrolmen Render Stork Aid

Two Pontiac police officers gave the stork a helping hand last night.

★ ★ ★

Patrolmen Richard Navarre and Dallas Flesher rushed to the home of Mrs. Janet Hoffman, 791 Emerson St., after the woman phoned the police department that she was about to give birth.

With no time to call an ambulance, the two officers delivered the baby themselves.

Fifteen minutes after the new arrival, mother and child were taken to Pontiac General Hospital.

★ ★ ★

They're both doing well.

The baby? It's a girl, Kelli Ruth, weighing eight pounds, three ounces.

AP Wirephoto Via Radio

AIRPORT GREETINGS — Vice President Richard Nixon (left) watches as Soviet First Deputy Premier Frol Kozlov smilingly says hello to Mrs. Nixon at Moscow Airport today. The Nixons traveled by jet from the United States. Another jet, carrying U.S. newsmen who will be covering Nixon's tour, set a new speed record on the New York-Moscow flight.

No Tickets Sold for U.S. Show in Moscow

Exhibit 'Will Be Ready'

MOSCOW (UPI) — The director of the American Exhibition in Moscow said today the show "will be ready" for its scheduled opening tomorrow and "it will be a great show."

★ ★ ★

Director Harold McClellan made the statement to American and Soviet newsmen who were given a preview of the exhibition.

Many of the correspondents estimated, however, that the exhibition only was three-quarters finished and they didn't see how it possibly could be completed on time.

Millions of Soviet citizens were clamoring for tickets for the show, but so far none have been issued.

The worst that can happen if the exhibition isn't finished on time is that the Soviet visitors will have to pick their way through

Related Story on Page 27

piles of boxes, construction materials and mud puddles in Moscow's Sokolniki Park to see what the United States is all about.

But the lack of tickets threatens a catastrophic crush similar to what might occur in the United States if no tickets were offered for a World Series until the first pitch.

Scalpers are standing by licking their chops, only they don't have any tickets yet either.

Soviet authorities planned to issue four million tickets to the exhibition at a ruble apiece—about 10 cents at the tourist exchange rate.

Some of the tickets were to be distributed through official organizations and the rest were to be put on sale at kiosks in the Soviet capital.

An American Exhibition official said, "We had to let the Russians sell the tickets because it would have taken a staff of a hundred people and we couldn't do it."

He added, however, "We have an agreement with the Soviets that, after three or four days, if we don't think enough crowds are coming in we can pull out of the ticket deal with them and make our own arrangements."

There was little chance the Exhibition would suffer from a lack of crowds. The reason officials ruled out sale of admissions at the gate was that it threatened to turn Sokolniki into a human pancake.

Vice President Nixon was scheduled to cut the red, white and blue ribbons signifying the fair's opening at 6 p.m. Moscow time. About 3,000 guests — the cream of Soviet officialdom, including Premier Nikita Khrushchev — were invited to the preview.

AP Wirephoto

THE RAINS CAME — You didn't see anything like this in the Pontiac area yesterday, although the noon hour torrent soaked a lot of people hurrying to and from lunch. It dropped the temperature from the day's high of 90 to 72. The scene here was in Miami, Fla., where 4½ inches of rain fell yesterday and more was expected today.

Dry Spell History Now! Showers Due

More thundershowers are forecast for the Pontiac area tonight as scattered rains continue in the wake of the dry spell that ended last Saturday.

★ ★ ★

Low tonight will be near 72, the U.S. Weather Bureau predicts.

You can go ahead with any weekend outing plans, however. For skies will be generally fair and temperatures somewhat cooler, the weatherman says.

Tomorrow will be partly cloudy amid scattered showers, and it'll be a little cooler toward evening.

87 TOMORROW

Friday's high will be around 87, the Weather Bureau reports, with tomorrow night's low temperatures ranging from 55 to 65.

For those planning to journey north, the up-state forecast is generally the same as for this area, with predicted temperatures a little lower.

Lowest recorded temperature in downtown Pontiac preceding 8 a.m. today was 72. The thermometer read 76 at 2 p.m.

Nikita Blasting Attitude of U. S. Toward USSR

Press Jetliner Clips 63 Minutes From Air Record to Moscow

MOSCOW (AP) —U. S. Vice President Richard M. Nixon flew into Moscow today with a plea for friendship.

He found the atmosphere frigid—with Soviet Premier Nikita Khrushchev again blasting the United States for its attitude toward the Soviet Union.

At the same time, America's biggest commercial jetliner streaked nonstop from New York to Moscow in the record time of 8 hours and 45 minutes.

The flight of the "intercontinental" version of the Boeing 707 knocked 63 minutes off the flying time of the Russian TU 114 prop-jet that set the previous New York-Moscow record when Soviet First Deputy Premier Frol Kozlov returned to Russia earlier this month.

The new record was set by a Pan American World Airways jet-liner, under charter to the U. S. State Department, carrying 96 persons, most of them American newsmen assigned to cover Nixon's 11-day tour of Russia.

★ ★ ★

The two leaders did not meet face to face; that was to come later. But while Nixon was getting an official welcome at the airport, Khrushchev was talking to a Sports Palace crowd welcoming him home from a 9-day trip to Poland. He again took the United States to task for proclaiming this week as "Captive Nations Week," and said:

"They send their governors here (referring to the recent visit of nine U. S. state governors). They are opening an exhibit here—and then they do a thing like this."

Nixon's jet plane brought him to Moscow in 10 hours 54 minutes. He was met by Kozlov.

The Nixon trip is in effect an exchange visit. The vice president's official purpose is to open the U.S. exhibit Friday.

In his brief airport remarks

(Continued on Page 4, Col. 2)

MOSCOW (AP) — Vice President Nixon made his first try at speaking Russian at the airport on his arrival here today, wading right in with the phrase "long live peace."

He said it summed up the feeling of the American government and the American people. His smiling effort to speak the language drew scattered applause and a ripple of amused laughter from the airport crowd.

Nixon has been trying to bone up on Russian phrases and just before he left home he admitted that his efforts thus far were "pretty poor."

Mrs. Langlois Dies of Burns

Five of Her Children Perished in Home Fire Last Week

Mrs. Margaret Langlois, mother of five children who perished in a fire that destroyed their Mount Clemens home, died early today in a Mount Clemens hospital.

The wife of a Pontiac factory worker, Mrs. Langlois, 26, suffered burns over her upper body in a futile attempt to rescue the children.

She succeeded in saving eight-year-old Deborah, still in the hospital with a broken leg, by leaping from a second story window.

Mrs. Langlois had been taken off the critical list last weekend. Doctors said her death was unexpected.

A mechanic at General Motors Truck and Coach Division, Robert Langlois, 26, was on his way to work when the fire broke out.

★ ★ ★

For days afterward he had kept secret from his wife the fate of their five children, although she "suspected." He told her only, "They are in good hands now."

More than $21,000 has been contributed to the "Langlois Disaster Fund" by community groups, friends and neighbors of the family.

State-Aid Rates for Children Get $3 Boost

Gov. Williams today signed into law a measure upping state aid payments for hospital costs in care of children.

The maximum, under the new law, was raised from $19 a day to $22. Similar rates were set for crippled children in a companion bill.

A rise in rates had been sought by both Pontiac General and St. Joseph Mercy hospitals.

Each hospital said it lost money last year because state reimbursement was far less than the actual cost of treating minors qualifying for state aid.

Pontiac General said it lost $37,406 and St. Joseph $49,842.

Pontiac General asked the Legislature to lift ceilings on reimbursements altogether and authorize payment of actual costs. But this proposal was turned down in Lansing.

Although the new rates will cut losses, both hospitals are expected to continue in the red as far as state-aid children are concerned. Average per day patient costs at the hospitals run up to twice as much as $22 a day.

JACQUELINE HART

Missing Woman Baffles Police

Eastern Socialite Gone Since Yesterday as Search Continues

SHORT HILLS, N.J. (AP) — Baffled police admitted today that their search for missing socialite Jacqueline Hart, 21, has been futile.

She disappeared Wednesday after seeing her fiance off at Newark Airport.

Her father Ralph Hart, executive vice president of Colgate Palmolive, pleaded with telephone callers to "keep the line open." He also ordered a second telephone installed in his home, where he and his wife waited "hoping to hear something any minute."

No one could give a logical explanation of why Jacqueline disappeared or where she might have gone—and those close to her declined to speculate.

"I'm scared...I'm just plain scared," said her fiance Stanley Gaines, 25, Fayetteville, W. Va.

Gaines had flown to Pittsburgh but returned here immediately after learning she was missing.

Airport personnel told police they recalled seeing the striking blonde kiss Gaines goodby, then wave to him as he climbed aboard the plane.

Jacqueline's car was found locked, parked in the airport parking lot. Police conducted an exhaustive search of airport grounds, and the marshes surrounding the field. They were joined by a Coast Guard helicopter.

Candidate Tells Truth

JACKSON, Miss. (UPI)—Gubernatorial candidate Robert F. Mason listed $75 worth of campaign expenses in a report filed with the state yesterday. Mason reported the money went for "gadding about, eating, drinking, fiddling and dancing."

Nation's Weather Like Old Cake: Dry to Soggy

By The Associated Press

The nation's weather was like a three-day-old lopsided layer cake today—rather dry at the top of the map and inclined to be stale and soggy in the middle and lower sections.

Thunderstorms erupted during the night and again were general and widespread from the Texas Panhandle eastward into Kentucky and Tennessee. Less intense thundershowers were scattered from Nebraska northeastward into Michigan, while still more showers dampened the southern Rockies and the Southwest.

Warm and humid weather prevailed south and east of the stormy activity, and early morning temperatures were in the sticky 70s.

Violent weather accompanied the thunderstorms in the southern Plains, and heavy rain soaked some communities. Trees were uprooted in a southwestern Oklahoma storm. At the same time, Dyersburg, Tenn., received a 2.26-inch downpour as the storms rumbled through Missouri and Kentucky and Tennessee.

The Weather

The Day in Birmingham

Hills Board of Education Re-Elects Former Officers

BIRMINGHAM — Board of Education officers, elected in Bloomfield Hills for the coming year were all incumbents.

They include Merrill O. Bates, president; Mrs. Jean Martz, secretary; and Max Miller, treasurer. Their terms will expire June 30 of next year.

The resignation of William Donnelly as chairman of the Citizens' Financial Advisory Committee has been accepted by the school board.

Donnelly, a Chrysler Corp. executive, has been transferred by the company to its overseas operation and will live in Geneva, Switzerland.

Data to show what the Birmingham - Bloomfield - Franklin Council on Community Services can offer Franklin Village is currently being gathered.

★ ★ ★

"We welcome any suggestions on the need for services. We're interested in anything going on in the health, recreation, and welfare field," Council Executive Secretary Charles A. Mentzer said.

"Our basic philosophy is to provide those services which will mean happy family and community living. We're not a regulatory agency—it's a matter of complete self determination," Mentzer added.

The Council office is located at 187 S. Woodward Ave.

The Past Matrons of Birmingham Chapter 220 OES will meet 1 p.m. Tuesday at the home of Mrs. Parker Eckerson, 634 W. Lincoln Rd., Birmingham, for a dessert luncheon.

William C. Clark

Service for William C. Clark, 61, a former resident of Birmingham, will be held 3 p.m. Friday from Bell Chapel of William R. Hamilton Co. Burial will follow in Greenwood Cemetery.

Mr. Clark died at his home in Hillsboro, W. Va. Tuesday after a brief illness.

He was a member of the Masonic Lodge in Hillsboro. Surviving are his wife, Myrtle, two sisters and one brother.

Huntington Tickets Are Labeled Illegal

(Continued From Page One)

tors charged with breaking the speed laws by 20 miles or more.

With the police department's violation's bureau handling a great number of speeding motorists, Renfrew said, "ticket-fixing" would not be hard to achieve. It could void tickets, he claimed.

He said he has battled continuously with city commissioners to bring more speeders into his court, but his requests have been denied.

★ ★ ★

"Proper enforcement of the city's traffic laws against 'speedsters' are not to be treated in such sly and cavalier fashion," Renfrew said.

"Children and parents in this community, and the public generally, have the right to adequate enforcement of these laws by the city. The potential or actual evils of 'ticket-fixing' need no comment from me."

Renfrew said that his request for office supplies, "though not of equal importance," are essential for efficient conduct of the court's administrative operations.

★ ★ ★

The court will remain closed until he receives cooperation, Renfrew said.

He declared that payments received by Violations Bureau employes were illegally collected.

Furthermore, he warned, "suit may be brought against any employe or official of this City for recovery of any monies accepted by them."

The justice's letter sent Yockey scurrying for legal advice this morning.

If Renfrew persists in keeping his court closed, Yockey said, the city might try violators under state laws instead of city ordinances.

The city would then be able to press charges against offenders in neighboring justice courts.

★ ★ ★

Such arrangements may be made with the Oakland County Prosecutor's Office, Yockey hinted.

"The people of Huntington Woods will get the protection they're entitled to and wrongdoers will be punished," he declared.

"If that's what Yockey wants, it suits me fine," Renfrew said. "He's going to find out that it's not easy to press charges under state law."

Meanwhile, Chief McQuater said his 12-man department would continue to ticket motorists.

★ ★ ★

"Other police departments run violations bureaus," he said. "Ours isn't any different."

The city manager attacked Renfrew's action as "crazy."

"But its going to be fun in Huntington Woods," he said with a chuckle.

"Up until now, Renfrew's been complaining that he hasn't been given a key to a City Hall Office and hasn't got any stationery," Yockey said.

"He's never called the violations bureau illegal before.

"And if it's illegal, why should he want only the speeders who go 10 miles over the limit instead of 20?"

"What about those under 10 miles an hour. Is the violations bureau legal for them?"

★ ★ ★

Renfrew said he wasn't interested in how the city handled cases where accused motorists pleaded not guilty.

"Let them worry about it," he said. "I'm willing to cooperate — when they cooperate with me."

Seek Dismissal of Vernor Suit

Minority Stockholders Want to Sell Controlling Interest in Firm

Mrs. Shirley C. Vernor, Bloomfield Township widow of the late James Vernor III, yesterday was charged with "harassment" in her fight for controlling interest in the 92-year-old Detroit beverage firm.

The executor of the estate and a group of minority stockholders filed a motion to dismiss Mrs. Vernor's appeal of a Probate Court order that controlling interest be sold for the first time to persons other than members of the Vernor family.

Probate Judge Arthur E. Moore on May 27 ordered the sale of 63 per cent of the stock at a purchase price of $2,350,000.

A hearing on the case has been set for 9 a.m. Monday in Judge Clark J. Adams' Circuit Court.

The motion to dismiss her appeal was filed yesterday by Raymond H. Berry, executor of the estate, and supported by a joinder filed by stockholders and James Vernor Davis, Alice Vernor Davis and Harrison T. Watson, trustees of the Emily Vernor Leonard Trust.

James Vernor Davis is the grandson of the company's founder and present president of the firm. He heads the minority stockholders, distant relatives of Mrs. Vernor, who are attempting to gain controlling interest of the company through the sale to outside investment firms.

Judge Moore approved sale of the 945 shares of common stock to a Detroit firm and another from Cleveland.

Merchants Plan Kiddie Festival at Tel-Huron

Free carnival rides and ice cream, parades, prizes and clowns will be features of the Tel-Huron Merchants Assn. Junior Festival Tuesday afternoon at Tel-Huron Shopping Center.

There'll be 500 ice cream bars distributed to children 15 years or younger and free carnival rides from 2-5 p.m.

The festival will be touched off at 1:30 p.m. with clowns handing out free balloons.

After that, youngsters are invited to participate in parades featuring decorated bicycles and dog-carriages.

Judges will be John W. Hirlinger, manager of the Pontiac Area Chamber of Commerce, and Charito Bitanga, Philippine art student studying at Cranbrook.

The big prize — a bicycle — will go to the winner of the jelly-bean guessing contest, which already is under way.

State Income Tax Plan Passes House

(Continued From Page One)

by Rep. Rollo C. Conlin (R-Tipton), House taxation chairman, would tax individuals at 2 per cent, corporations at 5 per cent and banks at 7 per cent.

Repeal or cuts in other business taxes would leave the state a net of 130 million dollars in new revenue.

Passage set the stage for a possible House vote today on the Lesinski-Green compromise plan keyed to a business profits tax and use tax boost, which would add a penny to the 3-cent sales tax. Both men huddled for hours yesterday with state revenue officials to iron out bugs which would have tripled taxes on thousands of firms.

"I feel sure this is the vehicle for the eventual compromise we've got to have," said Green, House GOP floor leader. "Democrats don't want a use tax; Republicans don't want an income tax. This package contains elements sought by both parties."

Republicans joining Conlin in the income tax vote were Reps. George W. Sallade of Ann Arbor, Louis C. Cramton of Lapeer, Russell H. Strange Jr. of Clare and John C. Morris of Midland.

Democrats William Romano of Warren and S. James Clarkson of Southfield, who voted last month against a piggy-back income tax tied to the federal income tax, took the same stand on the Conlin plan. A surprise rebel was Rep. Gilbert L. Wales (D-Stambaugh) Upper Peninsula iron miner.

SIMMS BROTHERS BIRTHDAY BARGAIN SALE — Starts FRIDAY 9 a.m.

Simms Brothers Say—"Thank You" by Giving Extra Super Values!

This is NOT a sale to make money . . . it's our way of showing that we appreciate your patronage by saving even more money for our customers.

A Personal Message From the Owners—

"The good-will and friendship of our countless customers is our most cherished asset. We hope you can come to our birthday party."

Teamster Arson Suspect Cleared

Burn Victim Questioned by State Police After Tip by Doctor

A St. Louis man who sought treatment for a burnt right hand at St. Joseph Mercy Hospital was questioned by State Police arson squad officers early this morning in the burning of the Bloomfield Township home of Teamster agent Charles O'Brien.

★ ★ ★

Sgt. Oramel O'Farrell of the Redford State Police Post said the man, William Carter, 37, definitely was not involved in the case.

Suspicious doctors called Pontiac Police when Carter came to the hospital at 1 a.m. for treatment of his burned hand. The local police immediately notified the Redford Post.

Carter, who was accompanied by Buster Davis, 47, also of St. Louis explained he had received the burns when they were repairing their car near Monroe.

★ ★ ★

His hand began to hurt as they neared Pontiac so he stopped at the hospital, Carter explained.

O'Farrell said State Police were continuing to check fuel oil dealers in South Oakland and Macomb counties in an effort to find where the arsonist purchased the materials used to set the blaze.

O'Brien's home was put to the torch July 16.

Gets to Seat of Trouble

WIMBLEDON, England (UPI) —The father of a 16-year-old boy who was fined $9 for reckless driving on a motor scooter, advised the court, "I have dealt with him in such a way that he has not yet been able to sit on his scooter and ride it again."

Nixon Receives Cold Greeting

(Continued From Page One)

Nixon warned that in another war "there will be no victors, only losers."

"These are grave and serious problems which divide us—differences which if not resolved could endanger the peace to which we are all dedicated," he said.

Nixon spoke for about 12 minutes. About 100 diplomats were grouped around him. A few American and Soviet flags fluttered in the background. There were no signs or slogans displayed as is customary when visitors from the Soviet bloc come in.

Kozlov responded briefly and the interpretation was even more brief. The interpreter said merely: "The message is peace."

★ ★ ★

Nixon entered a Soviet limousine flying the U.S. flag and headed out the airport gates to the city and Spaso House, the residence of U.S. Ambassador Llewellyn Thompson. That will be his home in Moscow.

There were about 200 Soviet and foreign newsmen present but only a small crowd of Russians at the airport itself.

As Nixon's car headed around the airport building he spotted a large group of travelers, mostly Russians, on the plaza of the administration building. He ordered the car stopped, jumped out and began shaking hands.

★ ★ ★

A small crowd then collected around the car and Nixon, beaming, shook hands with everyone. Then he got in his car and resumed the trip to the city.

It was anticipated he and President Eisenhower's brother, Dr. Milton Eisenhower, and other members of his party would closet themselves with Thompson and his principal aides for a final briefing on Soviet affairs.

Nixon's arrival was not announced immediately either by Moscow Radio or the TV network. Both were using their facilities to cover a friendship rally for Poland then being addressed by Khrushchev in the Sports Palace.

★ ★ ★

The proclamation of this week as "Captive Nations Week" in the United States had hit a raw nerve here. Khrushchev first spoke of it at Warsaw Tuesday. Wednesday Pravda, the Communist party newspaper, loosed a half-page blast against the United States.

It was strictly protocol for Kozlov, rather than Khrushchev, to meet Nixon at the airport. Nixon met Kozlov at the current Soviet exhibit in New York, which President Eisenhower also saw.

Among those traveling with Nixon are Dr. Eisenhower, the President's brother and president of Johns Hopkins University; Vice Adm. Hyman G. Rickover, the Navy's chief expert on atomic submarines; George V. Allen, director of the U.S. Information Agency, and 11 top corporation executives.

★ ★ ★

Just before leaving, Nixon conferred with President Eisenhower and acting Secretary of State Douglas Dillon for 45 minutes.

During his stay in Moscow this weekend, the vice president will have three meetings with Khrushchev and will see numerous other top Kremlin officials. From the Soviet capital, he will go to Leningrad and then will visit four Siberian cities.

Workmen's hammers meanwhile pounded at a fuious pace to prepare for the American exhibit's opening in Sokolniki Park before an invited crowd of 3,000 diplomats and Soviet officials.

Asks Reconsideration of Education Act

LANSING (AP)— A special message from Gov. Williams has urged the Senate to reconsider a decision not to bring Michigan under the National Defense Education act.

The Senate voted 19-12 to send the propoposal to a committee death. It would have permitted the state to participate in a stepped-up science program for local schools. About four million dollars was expected from the federal government in the first year.

Sen. Edward Hutchinson (R-Fennsville) objected that the state would have to pay one million dollars or more yearly in matching grants once the program got under way.

But, Williams said the measure would not cost the state a penny. He said 45 other states presently are participating in the act.

The average person consumes about 12 pounds of salt a year.

Dobb Furniture Plans Store in Pontiac Area

Dobbs Furniture Company of Lincoln Park will have a new store in the Pontiac area about the first part of September. A 130 by 130 foot building is being erected on Woodward avenue, just south of Square Lake road.

Paul Tomey, sales manager for the Lincoln Park store, will be the manager of the new store. He says a general line of furniture will be carried, including Drexel, Flexsteel and Paul McCobb.

OKs Civil Rights Mob-Curb Clause

WASHINGTON (UPI) — The House Judiciary Committee Wednesday approved an administration proposal to make it a federal crime to obstruct court orders in school desegregation cases by force or threats.

The provision is the first point in an eight-point civil rights bill the committee is considering.

It is aimed at curbing mobs such as the one that formed in Little Rock, Ark., when Central High School was integrated in the fall of 1957.

Legislation to make obstruction of court orders a federal offense was part of President Eisenhower's civil rights proposal to Congress. His other proposals also are contained in the committee bill.

Blasts Lack of Courses on Economics

LOS ANGELES (AP) — The president of the Pacific Coast Stock Exchange says America's high schools are turning out a generation of economic illiterates.

Thomas P. Phelan told a Kiwanis Club luncheon Wednesday: "Since the last depression, we've had a paternalistic state in which people look to the government for security."

Until high schools introduce good, stiff courses in economics, he said, graduates will continue to be easy prey for what he termed inflationary government spending.

At the beginning of this century, on the average day, 15 million newspapers were purchased. Today, 57 million newspapers are purchased on the average day.

Nab Former Convict After Terror-Slaying

MARION, Ohio (AP) — A 27-year-old former convict, who earlier terrorized his former wife and her family for five hours in Jeanette, Pa., and then fatally shot her father, was arrested Wednesday night west of here after he was involved in a hit - skip accident.

Police here are holding Patrick Geiger of Irwin, Pa., on charges of leaving the scene of an accident, driving while intoxicated, violation of parole and driving a car with expired license plates.

★ ★ ★

They said Geiger, who shot Joseph Peters, 56, while he was sleeping, struck the rear of a car at the intersection of U.S. 30 and Ohio 37. Geiger did not stop, but Ohio highway patrolmen radioed ahead and Kenton County sheriff's deputies halted the man near Kenton.

Texas Rep. Bruce Alger Files Suit for Divorce

DALLAS, Tex. (AP) — Rep. Bruce Alger (R-Tex) has filed suit for divorce.

Persons close to the Alger family said only "statutory reasons" were given for the divorce suit.

Mrs. Alger, a pretty brunette, has stayed in Dallas with the couple's children almost the entire time that Alger has served in Washington. He was elected to a third term last year. He is Texas' only GOP congressman.

Fire Raging in Idaho

EMMETT, Idaho (AP) — A range fire in southwestern Idaho burned between three and four thousand acres and was out of control early today. Some farm outbuildings were destroyed but no homes appeared to be in danger.

Four tons of bauxite are needed for two tons of aluminum.

A Local Panacea for Torrid Weather

The Pontiac area is the most fortunate in the nation in its means at hand for battling a heat wave.

★ ★ ★

It is merely the sane use of what we have with us.

Mere sober and serious reflection on our home area should make 90 degrees under duress feel like 80 under actual conditions.

Think of the untold millions who haven't a semblance of what we have at our command to meet such an emergency.

Reflect and meditate upon those who live in large city tenements, with never the sight of a leafy tree, fresh flower or blade of grass.

★ ★ ★

Think of the big city parks, so crowded that they're smelly.

Then congratulate yourself on our home facilities for keeping cool — our parks, our tree-lined residential streets — our superabundance of lakes and other features to keep the mercury from boiling over in its tube.

Yes, just try to think of any other location blessed with such tried and true coolers.

★ ★ ★

If, after reading this, you haven't quit mopping your brow, it has miserably failed in its purpose, or you need a doctor—or a psychiatrist.

Castro Doesn't Show Good Statesmanship

All Latin America is in ferment and the United States is caught in the middle. JOHN C. DRIER, U.S. Ambassador to the Organization of American States (OAS) which will meet at Santiago, Chile, in August, points out that there are legitimate attempts at rebellion. But the real danger to the Western Hemisphere is in Communist penetration of revolutionary movements.

★ ★ ★

Both Cuba and Venezuela have refused to let an investigation team from OAS into their lands to estimate the extent of Communist penetration. This naturally arouses suspicion and threatens the effectiveness of the organization.

Writing from Havana, Foreign Correspondent HERBERT L. MATTHEWS of the N. Y. *Times* News Service, says the surprising and inept appearance of the former head of the Cuban Air Force, Maj. PEDRO DIAZ LUIS LANZ, before Sen. EASTLAND'S internal security committee, has aroused more bitterness and resentment against the U.S. than any other event in the history of Cuban-American relations.

★ ★ ★

Cubans generally resent our "interference." They feel that Castro is decidedly anti-Communist. Typical of Cuban leaders is the attitude that however anti-Communist they feel, they will not humiliate themselves by acting as if they were under U. S. domination.

★ ★ ★

CASTRO has a long way to go and is in too much of a hurry. His radical agrarian reform, in some instances amounting to confiscation, has done injustice to many large and small landowners, some of them American.

World Refugee Year Emphasizes Problem

This month sees the beginning of World Refugee Year in which 52 United Nations members are participating. President EISENHOWER has called on all Americans to join in efforts to find a solution to the tragic plight of millions of refugees.

The 200 delegates to the recent White House Conference on Refugees unanimously adopted a resolution asking Congress to raise its "program objectives both with regard to Federal appropriations and immigration to the United States in order to further the aims of world refugee year."

★ ★ ★

Similar bills have been introduced in the Senate and House by Sen. Kennedy and Rep. Francis Walter which would authorize the admission of more refugees on a parole basis. While these proposals would not change the McCarran - Walter Immigration Act itself, they would provide a measure of relief for persons in Europe who desire to come to this country.

★ ★ ★

The United Committee for Refugees representing every section of American life, has proposed $10 million in additional funds for 20,000 refugees over the quota. Organized labor advocates a more liberal policy on immigration in addition to approving a special refugee program. Although it is aware that an immigrant might occasionally deprive a citizen of a job, the AFL-CIO rightly calls attention to the fact that many more are created by an influx of immigrants who in turn are customers for American produced goods and services.

★ ★ ★

It is hoped that before the year ends, Congress will see fit to liberalize our basic immigration policies to bring them more in line with our democratic tradition.

The Man About Town

Local Wild Life

Some of Which Doesn't Appear to Be So Wild

Talking: What you're not learning anything when you are.

An old cock pheasant who has been housing his harem in the brush and weeds across Cass Ave. from the Wisner Stadium has been bothered by a younger cock who flirts with the group. According to

Jarrard Selbey,

who lives near there, much fighting has taken place with the harem appearing to have a neutral feeling. After much persuasion, the old fellow has moved the whole family to the woods near the Oakland Ave. viaduct. There are at least a dozen from this year's hatch.

A pair of woodpeckers were raising a brood in a hole which they had pecked in an old dead tree near the home of

Mr. and Mrs. Harris Huntsman

in Drayton Plains. It was necessary to remove the tree for building operations, all of which were held up for three weeks until the young birds were old enough to leave. They then were tumbled out of the hole by their parents.

That bevy of quail which has grown from a single pair to at least 50 during the past few years, near the home of

Mr. and Mrs. Arnold Fellows,

beside the Dixie Highway about 12 miles northwest of Pontiac, has been augmented by about 20 new members, each "the size of your thumb nail, but fast as chain lightning," according to Mr. Fellows.

Another black bass that met death in endeavoring to make a hole in one was found floating in White Lake by

Markham Smith,

who lives on its shores. It had tried to swallow a golf ball.

Word comes to me from Kent Lake Park near Milford, Oakland County's largest attended recreational playground, that

Terry J. Thompson

of that village has qualified as skipper for the "Island Queen," the unique rear-paddled excursoin boat. It is again making 45-minute trips around the lake from noon until six o'clock every day except Monday.

"The Workers Are Traitors — Trey're All Capitalists"

David Lawrence Asks:

Judge Opening Mail Box to Filth?

WASHINGTON—Is the way being opened to widespread distribution of pornographic or obscene books and pictures in America?

Judge Frederick vanPelt Bryan's decision just rendered in the U. S. District Court in New York, if sustained by a higher court, would seem to deprive the Post Office Department of all its power to keep filthy "literature" out of the mails.

LAWRENCE

Judge Bryan may not have intended such a result, and his written opinion is couched in phrases of earnestness and sincerity.

But he has nevertheless opened up a Pandora's box of troubles for the Post Office Department, whose officials have promptly decided to carry the matter to the Circuit Court of Appeals and the Supreme Court of the United States.

★ ★ ★

Judge Bryan's argument is that morals have changed and people nowaday's accept dirty books as "best sellers."

From this, he reasons that, no matter how offensive even to "a substantial segment of the community," there is no right to bar such books because, after all, people do buy them and read them.

The court opinion says that the material in a book "is not to be judged by excerpts or individual passages but must be judged as a whole," and adds that there has been "general acceptance of the book throughout the country and nothing was shown to the contrary."

★ ★ ★

But Judge Bryan didn't reveal whether the critics had read the expurgated or unexpurgated version of the novel in question.

The expurgated edition has been circulated for nearly 30 years.

Certainly ever since the objectionable passages were eliminated, there was no way of judging what would have been said of the book by the critics if they had received the complete edition.

★ ★ ★

Judge Bryan, in discussing the unexpurgated edition, which alone has been banned from the mails, says:

"It (the book) contains a number of passages describing sexual intercourse in great detail with complete candor and realism. Four-letter Anglo-Saxon words are used with some frequency.

"These passages and this language understandably will shock the sensitive minded. Be that as it may, these passages are relevant to the plot and to the development of the characters and of their lives. The language which shocks, except in a rare instance or two, is not inconsistent with character, situation or theme. . . .

"The tests of obscenity are not whether the book or passages from it are in bad taste or shock or offend the sensibilities of an individual, or even of a substantial segment of the community. . . .

"The statute does not purport to regulate the morals portrayed or the ideas expressed in a novel, whether or not they are contrary to the accepted moral code, nor could it constitutionally do so."

This is a sweeping declaration which would seem to remove all obstacles to the wide distribution of pornographic books.

★ ★ ★

Judge Bryan seems to think that acquiescence of the public in the sale of dirty books in the past indicates that people do not object. He writes:

"In one best-selling novel after another frank descriptions of the sex act and 'four-letter' words appear with frequency. These trends appear in all media of public expression, in the kind of language used and the subjects discussed in polite society, in pictures, advertisements, and dress and in other ways familiar to all.

"Much of what is now accepted would have shocked the community to the core a generation ago. Today such things are generally tolerated whether we approve or not."

But do the American people approve of dirty books, and if there is a trend of that kind in the community, could it mean that the authorities may have been remiss in failing heretofore to suppress such works?

(Copyright 1959)

Dr. William Brady Says:

Organic Health Doesn't Mean Functional Health

Back before the war, the medical authorities drew a sharp line of distinction between serious organic disease and mere functional trouble. They could diagnose organic disease by physical examination of the patient even though the patient was unable of refused to complain.

DR. BRADY

So, many of the eminent doctors then gave full attention to organic diseases and dismissed functional ailments as hardly important enough to take up a doctor's time.

Indeed, even today doctors sometimes assure patients or their families that there's nothing wrong organically, and therefore no reason to worry.

This is not quite so assuring as some doctors may think for, after all, organic disease is usually only functional in its early stage. This does not mean that a functional disorder that persists for weeks or months is necessarily organic. On the other hand organic disease may be well advanced before the patient notices any symptoms.

Here arises the question of undergoing a periodic physical or health examination. Is it advisable? I don't know.

★ ★ ★

Once a certain medical society tried to raise popular interest in the periodic health examination by setting an example. Members of the society were asked to have such examination, but when sufficient time had elapsed they found that only a handful of doctors had bothered with it and so they quietly dropped the project.

A significant difference between functional and organic disease is that functional disease is relatively sharp in onset and of short duration, while organic disease is usually slow and insidious in onset and runs a long or indefinite course. In other words functional disease is generally acute; organic disease generally chronic.

Unfortunately the indiscriminate use of penicillin these days signifies to some people that the doctor is "up-to-date" and so it doesn't occur to them that the doctor neither commits himself on the diagnosis nor instructs patient or family concerning spread of infection. Such instruction takes time, and having administered the shot the doctor just hasn't time to dawdle.

After all, what does it matter whether diabetes, beriberi, shaking palsy, migraine, tetany, epilepsy or hay fever is "organic" or "functional," so far as diagnosis, prognosis and treatment may be concerned?

Nearly every disease is "functional" at first. You should take the statement that "there's nothing organically wrong" as the doctors kindly attempt to reassure you when he or she can't tell as yet just what, if anything, ails you.

Signed letters, not more than one page or 100 words long pertaining to personal health and hygiene, not disease, diagnosis or treatment, will be answered by Dr. William Brady, if a stamped self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan.

The Country Parson

7-23

"The trouble with most of us is that we behave more like ourselves than we should."

Voice of the People

'P.J. From Pontiac' Wants to Start Taxpayers' Union

When industrial workers want more money, they strike. Their demands are granted, industry passes the cost to the consumer and cost of living goes up.

★ ★ ★

When politicians run out of spending money, old taxes are raised and new ones are levied to meet inefficient, incompetent and extravagant Government spending.

★ ★ ★

When the PTA wants more multi-million dollar schools, higher pay for teachers and all the frills and fancies, taxpayers have to pay the check without consideration.

How about a taxpayers' union and committees to sit in on legislators, supervisors and PTA meetings and lower the boom on all fanatical spending?

A taxpayers' strike and no taxes for a year should keep things on an even keel. It's time taxpayers stopped signing blank checks.

P.J. From Pontiac

Another Praises Amateur Show

The amateur show held nightly during the July Fourth celebration at Oakland Park discovered some of Pontiac's hidden talents. Several of the young people who appeared will make other appearances about town.

Diligent work by the show's leadership made the show a fine success and certainly should be complimented.

Northsiders

Readers Expound God's Goodness

I'm tired of seeing innocent people being misled. There are leaders who try to make people think there's something strange or hard to acquire in being a believer and doer of the word of God. Some make believe the life is so hard that you'll be abused and mistreated, burdens so hard to bear.

★ ★ ★

Never in my 42 years have I been mistreated or abused because I believe and live daily as God commanded in the Bible. I'm able to tell the world how beautiful it is and blessings have been bestowed on me because of it.

★ ★ ★

Let us read our Bible more for understanding, practice it more and believe it more.

One Who Cares

The supreme tragedy of today's doomed world is that so many people don't know God. I can't prove there's a Divine Reason or God, but I have faith and that gives me mental peace. When we pray to God for help, even if there is no God, the mental reaction we have will help bring about what we desire and be of great benefit to us.

★ ★ ★

To say there is no God is utter folly. Look around and observe the heavenly bodies and all the evidences of nature and we must surely admit that Someone greater than man created everything and laid down Divine laws. Otherwise, utter confusion would exist and everything would be destroyed.

★ ★ ★

God is a loving God, not vindictive and vicious. He hasn't created a hell to punish us. We create our own hell when we violate His laws. The only thing that will save civilization is for all of us to return to God and live by His laws.

Ralph T. Keeling

Mother Questions Welfare Budget

I'd like to know who the financial wizzard is who figures a budget for welfare recipients. We've had to ask for aid a couple of times in the past six years and got it and both times I called and canceled our aid, thinking someone else worse off than us could use it.

★ ★ ★

My husband got laid off six or eight weeks ago. I've tried to keep going, but am digging us deeper all the time. I was refused aid as I work part time and make from $35 to $40 a week. That may sound like a lot to some, but have you tried to make house payments, lights, gas, clothes and food bills for seven on that?

★ ★ ★

My gas was shut off for nonpayment and I've received final notice on lights. My husband has tried to get work, but he's either too old (37), too young or not skilled. If he gets odd jobs it will pay a baby sitter as our oldest is 11. If I leave four smaller ones with her we'll get in trouble for that (neglect). By March there will be eight of us.

THOUGHTS FOR TODAY

Now this is the commandment, the statutes and the ordinances which the Lord your God commanded me to teach you, that you may do them in the land to which you are going over, to possess it;—Deut. 6:1.

★ ★ ★

Thirty years of our Lord's life are hidden in these words of the gospel: "He was subject unto them."—Jacques Bossuet.

Case Records of a Psychologist:

Hysterectomy Doesn't Kill Charm

Opal's problem should be of interest to all women past the age of 18, for a hysterectomy may ultimately be necessary for any woman, single or married. Today I give you the true facts so don't get neurotic like Opal and worry yourself needlessly about bugaboos that don't exist. "The truth shall make you free," says the Bible.

By DR. GEORGE W. CRANE

CASE B-394: Opal K., age 37, has been happily married for 15 years.

★ ★ ★

"Dr. Crane," she began, "I am about ready for a nervous breakdown.

"Like Hamlet, I don't know whether to follow my doctor's advice or not do so.

"He says I have fibroids of the womb and that it would be wise for me to have it removed by surgery.

DR. CRANE

"I checked with a gynecologist, who agreed that I should have this hysterectomy.

"But I am scared. Would my husband still love me afterwards? Or would I lose my wifely appeal?

★ ★ ★

"Would I be nothing but a nothing and not a woman at all? Please tell me the truth!"

WOMAN'S SEX LIFE

This clinical column tries to relieve your minds of unnecessary fears and misapprehension.

Millions of women have faced Opal's dilemma. Some girls even in the teens or early 20's must also have their wombs removed by surgery.

And they, too, often worry lest they will thereby lose their feminine appeal.

★ ★ ★

The womb (uterus) is NOT primarily a sex organ. It can be removed surgically (hysterectomy) in a wife and her husband cannot tell the difference as regards their happy sex life.

For the womb is simply an extra organ, much like the appendix or gall bladder. It is not an active source of romance or erotic thrills.

When you have your appendix removed or your gall bladder taken out, you don't lose your appetite. For your stomach is the main organ for food.

And in much the same fashion, your womb is excess baggage as regards your wifely function in marriage.

FALSE NOTIONS

If, however, a woman has the old-fashioned and unscientific notion that the womb is the barometer of her physical charm and that its removal will make her frigid as well as unappealing to her mate, then such a woman may grow neurotic after a hysterectomy.

★ ★ ★

For the mind is so powerful, it can often produce many of the symptoms that a patient BELIEVES she should have, even though medically she is O. K.

Actually, a woman after a hysterectomy should be no more frigid than before this surgical operation.

In fact, many women are far more passionate afterwards, partly because they prod themselves into greater ardor to prove that they are still "all there as a woman."

What produces the erotic excitement in marital relations is the tactile stimulation of sensitive nerve endings in the genitalia.

The womb is rather insensitive. It is NOT the source of erotic stimulation in the female, so its absence make no significant difference in her ability to function as a thrilling and thrillable wife.

Better scrapbook this case for you women of 25 or 30 may later need to have a hysterectomy

when you are 45 or 50, so the facts outlined today can relieve your mind of misapprehension.

And send for the booklet "Sex Problems in Marriage," enclosing a stamped return envelope, plus 20 cents (non-profit).

It shows in more detail that a woman's allure is not dependent upon her womb.

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long 4c stamped, self-addressed envelope and 20c to cover typing and printing costs when you send for his psychological charts and pamphlets.

One of Ike's Chosen Ones

Sec. Mitchell in '60 Limelight

By JACK BELL

WASHINGTON (AP)—His designation as a steel strike fact finder puts Secretary of Labor James P. Mitchell in the limelight for a possible 1960 vice presidential nomination bid.

Mitchell is obviously one of 10 Republicans President Eisenhower considers well qualified for future advancement in party affairs — even for the presidency itself.

★ ★ ★

Of the 10, Eisenhower has named only Vice President Richard M. Nixon and New York Gov. Nelson A. Rockefeller. He also has said that he will not choose between them if they contest for the presidential nomination next year.

While the President is keeping to himself the other eight names on his list, he is known to look with a pleased political eye on Mitchell.

★ ★ ★

The labor secretary outlined his one-man fact-finding role Tuesday and told questioning newsmen that his reports to Eisenhower could form the basis for any decisions Eisenhower might make to act. He said he would consult with other government officials and even with the disputing parties if that seems desirable. He indicated, however, his studies will be informal.

Mitchell told a news conference he will be operating under a provision of the law creating the Labor Department which authorizes the secretary to investigate "the causes of, and facts relating to" all labor - management disputes that might affect the welfare of the people.

Mitchell said that so far as he knows, no other labor secretary has acted in a similar manner.

If the secretary can contribute to an acceptable settlement of the steel wage dispute, he will have gained political stature. If he fails, his hopes for the 1960 vice presidential nomination could nose - dive.

★ ★ ★

Because he is a Roman Catholic, Mitchell has figured in a great deal of GOP discussion for second place on the ticket. His chances evidently would be enhanced if the Democrats, meeting first next year, should put either Sen. John F. Kennedy (D-Mass) or California's Gov. Edmund G. (Pat) Brown on either place on their ticket. Both are Catholics.

Politicians here speculate that along with Mitchell, Eisenhower's list of available republicans includes U.N. Ambassador Henry Cabot Lodge, Atty. Gen. William P. Rogers, Secretary of Interior Fred A. Seaton, Secretary of the Treasury Robert B. Anderson, Undersecretary of the Treasury Fred C. Scribner Jr., special presidential consultant Arthur Larson, and civil and defense mobilizer Leo A. Hoegh.

★ ★ ★

Outside of the administration's executive department ranks, Eisenhower is said to regard as comers such men as Sen. Thruston B. Morton of Kentucky, the Republican national chairman; Rep. Charles Halleck of Indiana, the House minority leader; and GOP Govs. Mark O. Hatfield of Oregon and William G. Stratton of Illinois.

AP Wirephoto

ONE-MAN FACT-FINDER — Labor Sec. James P. Mitchell forcefully announces that he will probe the current steel dispute and report to President Eisenhower. Mitchell said he was acting under the law which created the Labor Department and empowered its secretary to investigate the cause of all labor-management troubles that might interfere with the welfare of the people.

War Hero Sentenced by Greece for Red Aid

ATHENS, Greece (AP)—A military tribunal has sentenced Manolis Glezos, World War II partisan hero, to five years in prison, four years exile and eight years loss of all civil rights.

★ ★ ★

His trial had raised a storm of protest among Communists the world over.

The leftist newspaper editor was found guilty of aiding Communist spies in Greece, where communism is outlawed.

The court gave six other defendants in the case sentences ranging from life imprisonment to one year in jail.

★ ★ ★

Ten other defendants were acquitted.

Just Bug Juice

Backyard Rainfall Wasn't

SAN DIEGO, Calif. (AP)—The weatherman was right when he said the mysterious moisture which has been falling on Charles Coval's backyard wasn't rain.

It was bug juice.

The phenomenon was explained by scientists Tuesday after Coval, meteorologists, engineers, newsmen and everybody else admitted they were puzzled.

★ ★ ★

Dr. Rudolph Prisendorfer, research physicist at the University of California, La Jolla, led the unofficial scientific expedition to Coval's backyard after reading about the mysterious sprinkles in newspapers.

He climbed a tree and found the rain-making insects.

Preisendorfer identified them as leafhoppers, commonly called sharpshooters, and scientifically known as homopyera cicadellidae homalodisia.

They excrete a spray of fluid, which the scientist said is sometimes politely called "honey dew," especially when they are disturbed.

The leafhoppers had been keeping wet an area 20-foot square.

Coval, a missile plant engineer who has had more visitors than usual since the rain was discovered Sunday, said he was mighty glad the scientists had solved the mystery.

The United States uses at least one-half of the world supply of cork.

Develop Antimortar Unit

SYRACUSE, N.Y. (UPI) — A mobile radar system capable of pinpointing the location of enemy mortars more than six miles away has been developed by the General Electric Company.

The trailer-mounted device, the AN-MPQ-4A, is designed to protect the foot soldier from mortar fire, considered his most deadly enemy. It detects the shell in flight and electronically computes the exact spot from

Money Pinch Over, Poll Shows

Urge to Spend Is Back

ANN ARBOR — A University of Michigan research team says the money pinch of the 1958 recession has largely disappeared and American families have a greater urge to go out and spend.

About four out of every 10 families have higher incomes than a year ago and expect to spend money this year on housing, cars and major household goods.

The university's Survey Research Center polled 1,300 adults across the nation on consumer attitudes. The study, announced yesterday, covered the period between May and June this year, compared with the same period of the recession in 1958.

Consumers, according to the survey, don't feet that prices are reasonable but have become accustomed to prices which sometime ago were considered too high.

During 1958, many families postponed purchases of durable goods because of recession conditions. However, the center said that with higher personal incomes, "there is no doubt that many families are ready to commit themselves to major expenditures that were postponed until now."

The center cited improvement in housing spending as the greatest, with intentions to buy increased sharply over last year.

Used car buying and to a similar extent, new car buying also were reported up, as were large household appliances, home improvements and dwelling repairs.

However, the researchers said there is no evidence to support a buying splurge by consumers. This is because consumer optimism is less buoyant than in the big spending year of 1955.

Teenager Killed in Gun Fracus

Boy Wounds Six With Shotgun; Shot Down by Off-Duty Policeman

NEW YORK (AP) — A teenage boy fired a shotgun into a Bronx crowd Wednesday night, wounding five children and a man. He was shot to death minutes later by an off-duty policeman.

★ ★ ★

Police said the boy, Carlos Rosario, 16, had fought the night before in Crotona Park with Tommy Lee Allen, 23, a Negro. The pair met again Wednesday night, Rosario produced a shotgun, and Allen ran.

★ ★ ★

Rosario chased Allen and fired at him in a crowd. The pellets struck Allen in the left leg and sprayed five boys whose ages range from 7 to 11.

In his apartment nearby, Patrolman Walter W. Downs, 38, a Negro, heard the blast. He jumped up from the dinner table and rushed to the street.

★ ★ ★

Downs told authorities he ordered Rosario to halt and drop the shotgun. He said the boy lifted the gun and aimed, and Downs shot him down before he could fire.

Allen and the five boys were taken to a hospital. They were not in serious condition.

Paris Coiffeurs Introduce New Swan Hairdo

PARIS (AP)—The Swan Hairdo, with wings of hair swept forward on the cheeks and a pure-browed look, is the season's new style from the Paris hairdressers' syndicate.

★ ★ ★

Coppery reds and silvery blondes are the two colors heavily favored by the French coiffeurs in styles shown Wednesday night in advance of next week's showing of fall and winter fashions.

The swan style sweeps a mass of hair up in a backward slant that looks almost like a high chignon. But short ends are brushed down on the nape in what used to be called a duck tail.

Now, naturally, it's a swan tail.

Side "wings" are curled forward, just showing the ear lobes. Often short, wavy bangs are brushed across the brow.

★ ★ ★

The swan-do, according to its originators, calls for the hair to be cut only one inch long in parts and three inches long in others.

If He's Not Careful, His Siren Will Be Revoked

BALTIMORE (AP)—When John C. Leitz, 38, knocked down a pedestrian, he got a ticket for reckless driving like anybody else.

Leitz, driving a siren-equipped police car at the time, is a member of the police safety patrol.

C. of C. Officials Reject Offer

Blast Coupon Promotion

Officials of the junior and senior chambers of commerce today voiced strong disapproval of coupon book sales promotions, one of which reportedly is about to be initiated in Pontiac.

"We have always vigorously opposed any coupon book operation," said John W. Hirlinger, manager of the Pontiac Area Chamber of Commerce.

"Such promotions victimize both the public and the merchants. The public often gets less than it pays for and merchants sometimes are driven out of business."

The Board of Directors of the Pontiac Area Junior Chamber of Commerce last night turned down an offer to sponsor a coupon book promotion here next month, said Clyle R. Haskill, past president of the Jaycees.

★ ★ ★

"The Jaycees feel this is not a good promotion for merchants, having demonstrated in the past that they cause hardships."

The last big coupon book promotion in Pontiac was in 1953, Hirlinger said, and as a result of it two Pontiac beauty shops were so swamped with demands for free services that they went out of business.

Haskill explained the coupon book operation this way:

Independent promoters sell merchants on the idea of offering free services or merchandise to the public to attract business. The free offers are made through coupons which the promoters sell in book form to the public at no expense to the businessmen.

The books usually sell for about one-tenth the value of the free services and merchandise offered by the merchants.

★ ★ ★

The coupons have an expiration date and often purchasers fail to redeem coupons while they're still good, Haskill said.

Occasionally, a business or service is confronted by so many coupon holders at one time that it cannot fulfill its obligations without going bankrupt, he said.

Chevy Rates First With Millionth Car

DETROIT (UPI) — Chevrolet became the first American car producers to pass the 1,000,000 production mark during the 1959 model year by turning out 39,600 new cars this week, Automotive News said today.

The trade paper said this week's production boosted Chevrolet's total for the year to 1,010,545.

Industry-wide, production this week totaled 125,223 units, a slight drop from last week's 127,502, the trade paper said. In the same week a year ago 85,519 cars rolled off the assembly lines.

Just Like Crime Show

LOUISVILLE, Ky. (AP) — For Harold Spence, it was just like the crime shows.

As Harold, 12, sat in a car at a shopping center Wednesday, a man came out of a savings and loan office with a brown paper bag, jumped into a waiting auto and zoomed off.

"K89-369," Harold said to his aunt, Mrs. Charles Bourne, and rushed into the loan office which had just been robbed of $6,072.

He breathlessly gave the license number. And police were called.

Five minutes later officers cornered Alton (Self) Pendry and Joseph Edward Metcalf, 42-year-old Louisvillians, and found the missing money and a sawed-off shotgun in the stolen car bearing the license K89-369.

Harold, who lives at Levittown, N.Y., is visiting relatives here.

Snakey Performance

ASHEVILLE, N. C. (UPI)— Whiteside snaked through his introduction to a late show Tuesday night in record time. Whiteside said he had spotted a poisonous copperhead snake slithering up the cord of the microphone attached to his chest. He and another announcer captured it before it got within striking, or camera, range.

Named to School Post

ROYAL OAK — Director of Continuing Education in Royal Oak schools, Charles L. Jackson, of 233 Gardenia St., has been named assistant director of the adult education division at Wayne State University, Detroit and University of Michigan, Ann Arbor.

Declares Dividend

DETROIT (AP)—Federal Mogul Bower Bearing Wednesday declared a regular 60 cent dividend payable Sept. 10 to stockholders of record of Aug. 21.

Selassie in Biarritz

PARIS (AP) — Emperor Haile Selassie of Ethiopia ended his two-day visit to France Wednesday and went to Biarritz. He will rest there two days before his next official trip to Portugal.

Senate Formally OKs Promotion for Stewart

WASHINGTON (AP) — Movie star James Stewart at long last won promotion today to brigadier general in the Air Force Reserves.

★ ★ ★

By voice vote and without a word of debate, the Senate finally approved the promotion which has been bogged in controversy since 1957.

★ ★ ★

The long delay was due chiefly to opposition from Sen. Margaret Chase Smith (R-Maine) who questioned that Stewart, a World War II combat pilot, had put in as much time as he should have at reserve duties.

Wheels Slip His Mind

NORFOLK, Va. (UPI) —Navy Ens. J. S. Buzby of Philadelphia walked away uninjured last night from the flaming crash of his plane on a naval air station runway. Buzby then confessed he'd forgotten to put down the plane's wheels.

Has Fine 'Watchlamb'

PENZANCE, England (UPI)— Farmer Norman Hosking reported today that a four-month-old lamb chased a fox out of his turkey yard. Hosking said the lamb had picked up its tough tricks through playing with Hosking's dog.

The Sante Fe Trail became an important trade route in 1822. Regular stagecoach runs from Independence, Mo., began in 1849.

Asks State for Polio Help

Health Department Calls for More Money to Fight Disease Upsurge

LANSING (UPI)—The increased rate of paralytic polio in Michigan has prompted the chairman of the State Health Department's advisory council to call for more money to fight the disease.

In a letter to Rep. Arnell Engstrom (R-Traverse City) chairman of the House Ways and Means Committee, Dr. Henry F. Vaughn said "too few" Michigan children were protected against polio.

He said paralytic cases this year have increased 50 per cent over a year ago.

He said the Legislature should "act promptly in approving the request for $400,000 for poliomyelitis vaccine." This would permit state and local health departments to provide protection for about 400,000 children, he said.

Vaughan said nearly all serious cases occur among persons who have not received Salk vaccine.

Convict Author Has New Action Pending

SAN FRANCISCO (AP) — Convict author Caryl Chessman, sentenced to death 11 years ago, has new legal action pending.

The 38-year-old convict, sentenced on robbery, kidnaping and assault charges, asked the State Supreme Court Wednesday to reconsider a decision July 7 upholding his death sentence.

The 45-page document, as have previous Chessman petitions, said he was "wholly innocent" and contained an offer to take a lie detector test.

The rehearing petition was a routine requirement before Chessman can ask the U.S. Supreme Court to review the July 7 decision.

Indian Actress, Age 110, Lives Each Day Fully

LOS ANGELES (AP) — "I just live for this day only and make it as perfect as I can — why should I worry about tomorrow? I may never get there."

That's the philosophy of Mrs. Tatzumbia DuPea, who's seen a lot of days go by. She'll be 110 Sunday—and is in almost perfect health.

An Indian, she was born in Diamond Wash, Calif., and says she didn't see a white person until she was 24. Her mother was killed in a raid by white settlers.

Mrs. DuPea is far from inactive. She's been in the movies 30 years — playing Indian mother roles. Her debut was in "Cimarron."

NOTICE OF SPECIAL ASSESSMENT—Concrete Sidewalk and Related Work on West Side of North Saginaw Street.

To: Consumers Power Company, M. A. NOTICE OF SPECIAL ASSESSMENT—Concrete Sidewalk on South Side of Perry Street.

To: Radner Inc., Hamilton R. Ryerse, S. J. Dunseith, Joe Salfi and to all persons interested, take notice: That the roll of the Special Assessment heretofore made by the City Assessor for the purpose of defraying that part of the cost which the Commission decided should be paid and borne by special assessment for the construction of Concrete sidewalk on south side of Perry Street from Joslyn Avenue extension to East Line of Lot 42 A.P. 113 is now on file in my office for public inspection.

Notice is also hereby given that the Commission and the Assessor of the City of Pontiac, will meet in the Commission Chamber in said City, on the 28th day of July, A.D. 1959, at 8:00 o'clock P.M. to review said assessment, at which time and place opportunity will be given all persons interested to be heard.

Dated July 21, 1959.
W.O. 7444.

ADA R. EVANS,
City Clerk.
July 23, '59.

NOTICE OF SPECIAL ASSESSMENT—Concrete Sidewalk on East Side of Arlene Avenue.

To: School District of the City of Pontiac and to all persons interested, take notice: That the roll of the Special Assessment heretofore made by the City Assessor for the purpose of defraying that part of the cost which the Commission decided should be paid and borne by special assessment for the construction of concrete sidewalk on East side of Arlene Avenue from Madison Avenue to Columbia Street is now on file in my office for public inspection.

Notice is also hereby given that the Commission and the Assessor of the City of Pontiac, will meet in the Commission Chamber in said City, on the 28th day of July, A.D. 1959, at 8:00 o'clock P.M. to review said assessment, at which time and place opportunity will be given all persons interested to be heard.

Dated July 21, 1959.

Rebel Leader Dies

CUIDAD TRUJILLO, Dominican Republic (AP) — A leader in the recent unsuccessful invasion attempt to overthrow Dominican dictator Rafael Trujillo has died of a heart attack, Lt. Col. Horacio Frias, head of Victoria Penitentiary, announced Wednesday. The rebel leader, Maj. Delio Gomez Ochoa, was confined at the prison awaiting trial.

U. S. population is increasing by 250,000 per month.

Power Project Early

MASSENA, N.Y. (AP) — Power production in the New York state portion of the St. Lawrence power project is scheduled to reach full capacity this week, about five months ahead of schedule. The project is a joint undertaking of New York and the province of Ontario.

The only animal in the world that is purple in color is the blesbok, a small South African antelope.

Quemoy, Matsu Draw Eyes to Far East

Tiny Isles Red-Hot Propaganda

By TOM HENSHAW
AP Newsfeatures Writer

It seems like every time the eyes of a crisis-conscious world are turned on Europe something goes "pop" on the opposite side of the globe.

It's as if the Red Chinese were warning the rest of the world:

"Hey, fellows, don't forget about us!"

★ ★ ★

While the world was building up to resumption of the Geneva conference on Berlin, Communist and Nationalist Chinese planes staged one of the larger air battles of their smoldering war in the Formosa Strait.

And, even as the foreign ministers gathered in Geneva for another round of stalemated talks, Red batteries on the Chinese mainland opened up on the Nationlist-held island of Matsu.

Matsu and its sister islands nestled against the bosom of the Red-held mainland make up the Berlin of the Far East—places where two worlds, Communist and free, live uncomfortably side by side.

The little war in the Formosa Strait has been sputtering alternately hot and cold for 10 years ever since Nationalist Generalissimo Chiang Kai-chek withdrew from the mainland to Formosa.

The fighting centers around two main islands — Matsu, 90 miles from Formosa and 10 miles from the mainland, and Quemoy, 130 miles from Formosa and only 5 miles off the Red-held coast.

Lesser Nationalist islands that figure in the headlines occasionally are little Quemoy and Peisha, Peikantang, Paichuan (the White Dogs) and Tung Chuan near Matsu.

The islands are of negligible military value, although they do help blockade two major mainland ports of Amoy and Foochow. But their propaganda value is enormous.

The fact that the Communists have never been able to dislodge Chiang's small forces from the islands in a decade of sporadic warfare is a black eye for the Reds in the battle of words.

The Reds have never made a concerted effort to invade the islands and, despite almost daily threats, it is unlikely that they will at this time.

A Red failure would be a propaganda defeat of the first order. Invasion could bring the United States into a shooting war which the Reds probably don't want.

And, should the Communists take the islands, it would also remove their main outlet for calling attention to themselves on a global scale.

With the crisis around Berlin building up to new heights, the world can expect to hear more and more of China's offshore islands in the coming weeks.

Churchill, Callas Cruise

NICE (UPI)—Sir Winston Churchill was expected to arrive here from London today to embark on a Mediterranean yacht cruise as the guest of greek shipping magnate Aristotle Onassis. American opera singer Maria Callas also was going on the cruise.

John Walker, an English druggist who died 100 years ago, made the first friction match.

Explosions in Guatemala Rock Embassy, Palace

GUATEMALA (AP) — Two bombs were exploded Tuesday night in front of the American Embassy and another against the palace of the Roman Catholic archbishop of Guatemala. The blasts damaged the buildings slightly, but no one was hurt.

President Manuel Ydigoras offered a reward of 1,000 quetzals—$1,000—for information leading to the arrest of the attackers.

Those Russian Planes Are Rough

Hang On to Your Hat, Mr. Nixon!

EN ROUTE TO MOSCOW—Vice President Richard M. Nixon who is "one heartbeat away from the presidency," will make his jumps around the Soviet Union in a TU104, a big, rakish, twin-jet which could hardly get certification by our Federal Aviation Administration as a safe carrier.

The TU104 is quite an airplane. But FAA would unquestionably point out to any U. S. airline which might want to purchase aircraft of this type that:

(1) A flame-out of either engine on takeoff, or landing approach, probably would mean a crack-up

(2) The absence of what we would consider adequate radar equipment for blind landings and avoidance of storms, and the complete lack of sound depressors on the engine exhausts. We are more finicky about our aircraft than the Russians.

The TU104 is an adaptation of a medium bomber which the Reds at one time developed as an answer to our six-jet B47. In a sense, the Boeing 707 is an extension of our B47, but the changes in the basic design are manifold, as compared to the minor changes made when the Soviet medium bomber became the TU104.

★ ★ ★

The navigator of the plane in which Nixon will ride will be seated in the plexi-glass nose of the TU104, where the bombardier sat in the bomber-parent of the ship.

FEWER INSTRUMENTS

Russian crews fly more by the seat of the pants than do we. They haven't got all the "little black boxes" which our electronics wizards have produced, and thus they have a more substantive respect for nature and its whims.

When Khrushchev, Bulganin, Zhukov and the rest of the bigwigs attended the summit meeting in Geneva in 1955, they tarried in Geneva the night the conference ended for a simple reason: The Rusisa crew of their plane didn't want to fly home at night.

We waited two entire days at an airport in Prague for a TU104 to take us to Moscow, in 1957. There was no explanation, and nothing could be gained by questioning the Czechs at the counter. Finally one said, nervously, "We don't know when it will leave. The Russians never tell us."

★ ★ ★

The weather was bad, but looked pretty much like weather in which U.S. planes fly without concern. Every now and then, during the long wait for the plane to take off, the crew would walk to the plane and start up the two engines and run them up to wide open throttle. The ground all around the airport literally shook as in an earthquake. We were forced to stand behind a stone wall and clap our hands over our ears, the noise was so intolerable.

SLOW TO RISE

We took off in a driving rainstorm, the third day of our wait. It was the longest run I've ever known a plane to take. But once in the air it was pleasant enough. The beefy hostess told us in time we were flying at 30,000 feet and doing just under 600 m.p.h. She served us a tray lunch from an old fashioned looking sideboard which featured cut-glass decanters of red wine.

The Russians have never told us the thrust-power of the engines of the TU104, but it has been estimated by U.S. Air Force men to be around 20,000 pounds, or almost twice the power of the Pratt Whitneys which power the Boeing 707. The air intake vent is enormous.

The TU104 has no reverse pitch, for helping the plane brake to a stop. There are oxygen masks in the flap behind each seat, in case the pressurization fails at altitude, but I don't recall hearing a lecture on how to use same—as you get on the 707 and soon will get on the DC8.

★ ★ ★

The day we left Moscow our plane was covered with snow as it pulled away from the terminal. At the end of the runway it was met by a huge tank-truck. Hoses were pulled from the truck and the crews squirted hot water all over the plane, melting the snow and ice. We took off before the hot water could turn to ice.

Nixon had better practice how to sigh.

Senate Committee OKs Ex-Governor for FTC

WASHINGTON (UPI)—The Senate Commerce Committee Wednesday approved the nomination of former Gov. Sigurd Anderson of South Dakota for a seven-year term on the Federal Trade Commission.

Anderson, a Republican, has been filling an unexpired term on the FTC since 1956. His full term would begin Sept. 26, 1959.

Euratom Center OK'd

ROME (AP) — The European Atomic Energy Agency's first joint research center will be set up at Ispra in Northern Italy under an agreement signed today with the Italian government. By 1962 Euratom plans to invest 40 million dollars in the center, now known as the Italian Center for Nuclear Studies.

Kids Catch Animals for Fun and Profit

WAYNE, N.J. (AP) — Business is booming for the new Humane Exterminating Co. in Pine Lakes, which traps animals and removes them from such places as attics and cellars on a "no catch, no pay" basis.

Prices range from 10 cents for each mouse caught to 35 cents for squirrel. Skunks, the company says, "will not be handled for any amount."

The four company officials, who range in age from 8 to 12, announced the firm made a $2.45 profit in its first two weeks.

Elect Pontiac Dentist to Royal Health Society

Dr. Daniel S. McGeen, a Pontiac dentist, has been elected a member of the Royal Society of Health, a British organization with a worldwide membership of 21,000.

The society seeks to promote world health and encourage high standards among health agencies.

Coporate profits in the U.S. in 1959 are expected to rise about 21.5 billion dollars, compared with $21.8 billion in 1957 and approximately $17.8 billion in 1958.

Puts Money in Meter for Other Motorist

MADISON, Wis. (AP) — Police Officer Wayne Young admitted in court that he put a penney in a parking meter while Marcella McCallum, hired by the police department to check meters, was writing out a ticket for a car at the curb.

Her complaint led to discovery of an ordinance that you can't put money in a meter for another motorist.

The judge dismissed the overparking charge and told Young to mind his own business.

Royal Guest for Tito

BRUSSELS, Belgium (AP) — Queen Mother Elisabeth of Belgium, grandmother of King Baudouin, left by plane for Belgrade Wednesday for a one-week stay in Yugoslavia as guest of President Tito. Tito sent a special Yugoslav plane from Belgrade.

Newspapers' combined run-of-paper color linage, in cities measured by Media Records, Inc., has increased from a little over 46 million lines in 1951 to over 122 million lines in 1958.

Enmity Between Cuba, Dominican Republic Dangerous

'Free' Republics Deadly for Careless

By PHIL NEWSOM
UPI Foreign Editor

The Dominican Republic and Cuba lie some 200 miles apart in the Caribbean. Theoretically, both are republics enjoying freedom of speech and thought. Actually, although for different reasons, both are dictatorships where a careless word or deed may have fatal results.

The enmity between the two could be the spark to alight the Caribbean and confront the United States with a crisis much closer to home than Berlin, Formosa of the Middle East.

In Cuba, is the 32-year-old Fidel Castro, fired with the success of revolution.

In the Dominican Republic is the man twice the age of Castro, 67-year-old Generalissimo Rafael Leonidas Trujillo Molina, self-styled "benefactor," a man old in the intrigue and violence of Caribbean politics.

Castro is the avowed enemy of Trujillo, not from personal acquaintance but from Castro's own avowed hatred of Latin American's established dictators.

In Cuba there is the dreary echo of the firing squads which have cut down nearly 600 persons accused of crimes against the state. In a nation of only a little more than five million it seems an unusally high percentage of those whose opposition to a regime made it necessary for them to pay the final penalty.

In the Dominican Republic, an automobile bearing labor minister Ramon Marrero Aristy plunged late last week from a cliffside road, bearing Marrero Aristy and his chaffeur to fiery deaths.

Marrero was one of those who, while professing loyalty to Trujillo, still planned for a more democratic time after Trujillo's departure.

Early last week, in the United States, he talked of his plans and said then that if his words leaked back to Ciudad Trujillo "I'm a dead man."

So violent death is a stranger to neither country.

Nor is intrigue new against Trujillo. He has been an absolute dictator for 29 years, dating back to a time when Castro was but a baby, three years old.

But Castro is his chief villain now, and it was Trujillo's charges against Cuba that brought about the call for next month's meeting of the foreign ministers of the Organization of American States (OAS) in Santiago, Chile.

Trujillo first preferred charges of interference in internal Dominican affairs against Cuba and Venezuela, a nation also recently freed of dictatorship. The charge was withdrawn after it became apparent that the rising tide of feeling against dictatorships could only result in his defeat.

The OAS now will consider the general question of Caribbean unrest

★ ★ ★

There are many conflicts in the Trujillo story. Enmity between the Dominican Republic and Cuba dates far beyond Castro. Yet, today Trujillo finds himself perhaps the unwilling host to Fulgencio Batista, Cuba's ousted ex-dictator.

She's Pushover in More Ways Than One!

WEST LOS ANGELES (AP) — "I'm sorry," Robert Briggs told his wife in the courthouse corridor.

His wife rushed to him, threw her arms about him and kissed him on the lips Wednesday.

Briggs was in handcuffs. His wife Norma 34, had blackened eyes and her head was bandaged.

★ ★ ★

Briggs, 39, a building contractor, is accused of attempted murder. The state says he pushed his wife and her mother, Mrs. Mary D. Nilson, 65, over a 450-foot cliff in a car. Then he is accused of beating them with a pick ax and a tire iron.

★ ★ ★

He will get a preliminary hearing next Tuesday.

The Rio Grande is the third longest U. S. river.

Humphrey Asks Cancer 'Summit'

Views Well Received in Earlier Talk With Khrushchev

WASHINGTON (UPI)—Sen. Hubert Humphrey (D-Minn) today advocated a "summit meeting" on health to organize an East-West war against cancer.

Humphrey said, "I feel that Soviet scientists have much to contribute to the international conquest of cancer and that they earnestly desire to do so."

His statement was issued as the Senate subcommittee on reorganization and international organizations, headed by Humphrey, released a 40-page booklet titled "Cancer: A Worldwide Menace."

The Minnesota senator did not spell out the details of the proposed meeting, but pointed out that 2,000,000 deaths annually result from cancer and that this almost equals the population of West Berlin.

"If the major powers cannot agree politically on Berlin," he said, "let the leaders of the major powers at least agree on trying to save the lives each year of as many people as live in Berlin."

★ ★ ★

Humphrey's views on international cooperation in medical research were received enthusiastically during the senator's eight-hour talk with Soviet Premier Nikita Khrushchev in Moscow earlier this year.

Humphrey said the world situation offers many clues to the cause of cancer that are not being followed up. For example, he said, the rate of breast cancer is surprisingly much lower in Japan than in the United States.

Study Calls Chivalry Antifemale Tactic

CLEVELAND, Ohio (UPI) — Chances are that a man who takes his hat off when a woman enters an elevator really regards women as inferior.

That is the report of two psychologists who investigated the theory that chivalry usually is a subtle form of male domination.

Dr. Eugene B. Nadler, assistant professor of engineering administration at Case Institute of Technology here, and Dr. William R. Morrow of the Fulton, Mo., State Hospital, surveyed the attitudes of several groups of male college students by means of questionnaires.

One questionnaire asked the students to agree or disagree with statements that women are inferior and should be dominated.

The second questionnaire concerned chivalry, asking such questions as whether "a gentleman should allow the lady to pay the check, buy the tickets, or pay the taxi."

★ ★ ★

Nadler and Morrow said the results showed in general that men who agreed that women are inferior also tended to favor such gestures as taking off one's hat in an elevator.

A third set of questions to measure racial prejudice and anti-Democratic attitudes in general showed that it usually is the man who is biased, narrow-minded and an advocate of force to settle issues who has this contempt for women.

Hawaiians Ask Help for Molokai Lepers

HONOLULU (UPI) — A local businessman has started a correspondence with kings and presidents and just about every other important person in the world in an effort to help victims of Hansen's disease at Kalaupapa Hospital on the Hawaiian Island of Molokai.

Arthur C. Marks began his project last March and says he won't stop "until I reach everyone —even if it takes a lifetime."

The Honolulu businessman said he thinks that "universal love" heals and he asks everyone he writes to send stamps and letters to the lepers on Molokai.

"Stamp collecting will provide hours of entertainment for those poor people," said Marks. "They forget their problems, and they know they are loved."

Replies to his letters are starting to "pour in," according to Marks. He said he is already making plans to divert any surplus stamps to other institutions where "healing love is needed."

Drowned Lovers Wed in Taipei Ghost Rites

TAIPEI, Formosa (AP)—A wedding ceremony was held today for two lovers who drowned themselves four days ago because their parents would not let them marry.

Ushers supported the bodies of Chen Wu-chi, 20, and Miss Tsai Chao-tze, 18, and made them bow to each other.

A Taoist priest officiated at the "ghost marriage," to which the grieving parents consented. The lovers were buried in the same grave.

Gal Journalists Shun Typewriters to Design Cars

★ ★

Invade GM Tech Center

Create New Interior for Pontiac

By LEE WINBORN

Some 35 female members of the press put aside their typewriters for a day last month to pool their ideas in a "Do-It-Yourself" design workshop at General Motors Technical Center in Warren.

★ ★ ★

Upon invitation of the corporation, the women of the press spent two hours in specially-erected studios working with professional company advisers on designs for future GM products.

They ranged from interiors and shapes of new cars to a family kitchen-dining center.

Being in the group assigned to Studio 1 at GM Styling, it was our particular job to design the interior of a low-priced, two-door hardtop in either the Chevrolet or Pontiac price classes.

UNITED DESIRE

We used a Pontiac as our model.

It was obvious at the outset that the five of us were united in a desire to create a car with a classic interior, incorporating practical features to appeal especially to women drivers.

We wanted more of a showcase for the feminine driver and her passengers rather than an eye-stopper in itself.

★ ★ ★

We felt this would allow greater variety of clothes color which the women could wear and still not clash with the interior.

We chose a pearlescent white exterior with an interior of turquoise blue. A striped wool fabric with three shades of blue was selected as the cloth for the seats.

At the ends of the seats and separating the middle of the back seat was matching turquoise blue leather. Blue leather also covered the door panels since we wanted only subdued coloring—nothing shiny in the interior.

NAME MATCHES COLOR

We called the finished product "The Wedgewood" because of the color selected.

Among special features we chose to put in this car were:

1. A pushbutton transmission selector on the horn area of the steering wheel.

2. A collapsible tray under the instrument panel for a woman's handbag.

3. Utilization of the back of the front seats — a collapsible games or writing shelf on the back of the passenger seat and an expandable airplane type pocket on the back of the driver's seat.

★ ★ ★

4. Swivel front seats — first introduced to the auto industry by General Motors on the Pontiac Strato-Star "dream car" in the 1955 GM Motorama.

5. Pockets inside the doors.

6. Note writing pad mounted on the "tunnel" between the seats.

7. Light in the ignition keyhole which goes on when the door is opened.

8. Radar signal device on instrument panel to warn driver if there is an obstruction behind the car when he shifts into reverse.

9. High heel pad of metal on the floor to serve as a carpet protector at pressure point of the heel.

10. A special molding on the back seat to which a baby seat may be attached.

Other members of our group were Opal Baker of the Bell Syndicate, Joan Danzig of the Buffalo Evening News, Joyce Cook of the Flint Journal and Betty Wamlsey of the Windsor Daily Star.

EXPLAINS IDEA

Our studio leaders were Fedele Bianco, chief designer, Pontiac Interior Studio; and Jeanette Linder, a designer with the Buick Interior Studio.

Before starting on our own individual project, Tom Christiansen, manager of staff activities for GM Styling, briefed the whole contingent on the idea behind the "Do-It-Yourself" design workshop.

He pointed out that styling is a "very complicated business requiring the talents of hundreds of trained designers, engineers, clay modelers, draftsmen, skilled model makers and various technical specialists along with supporting administrative personnel."

There are 1,275 employes in GM Styling. And there are reasons for such a large number, Christiansen said.

Involved are all phases of creative design, including the modeling in clay of all full-size automobiles and trucks, construction of minutely accurate fiberglas models in paint and chrome and complete sets of engineering drawings that show every appearance detail of a product.

The engineering drawings are Styling's end product, for they serve as the basis for production engineering, tooling and eventual manufacturing set-ups by the manufacturing divisions.

WIDELY APPLIED.

This format is followed whether the product is a GM automobile, truck, refrigerator, locomotive or an off-the-highway vehicle.

If the new automobile is to be unique in design, its styling must start well over two years ahead of the announcement date.

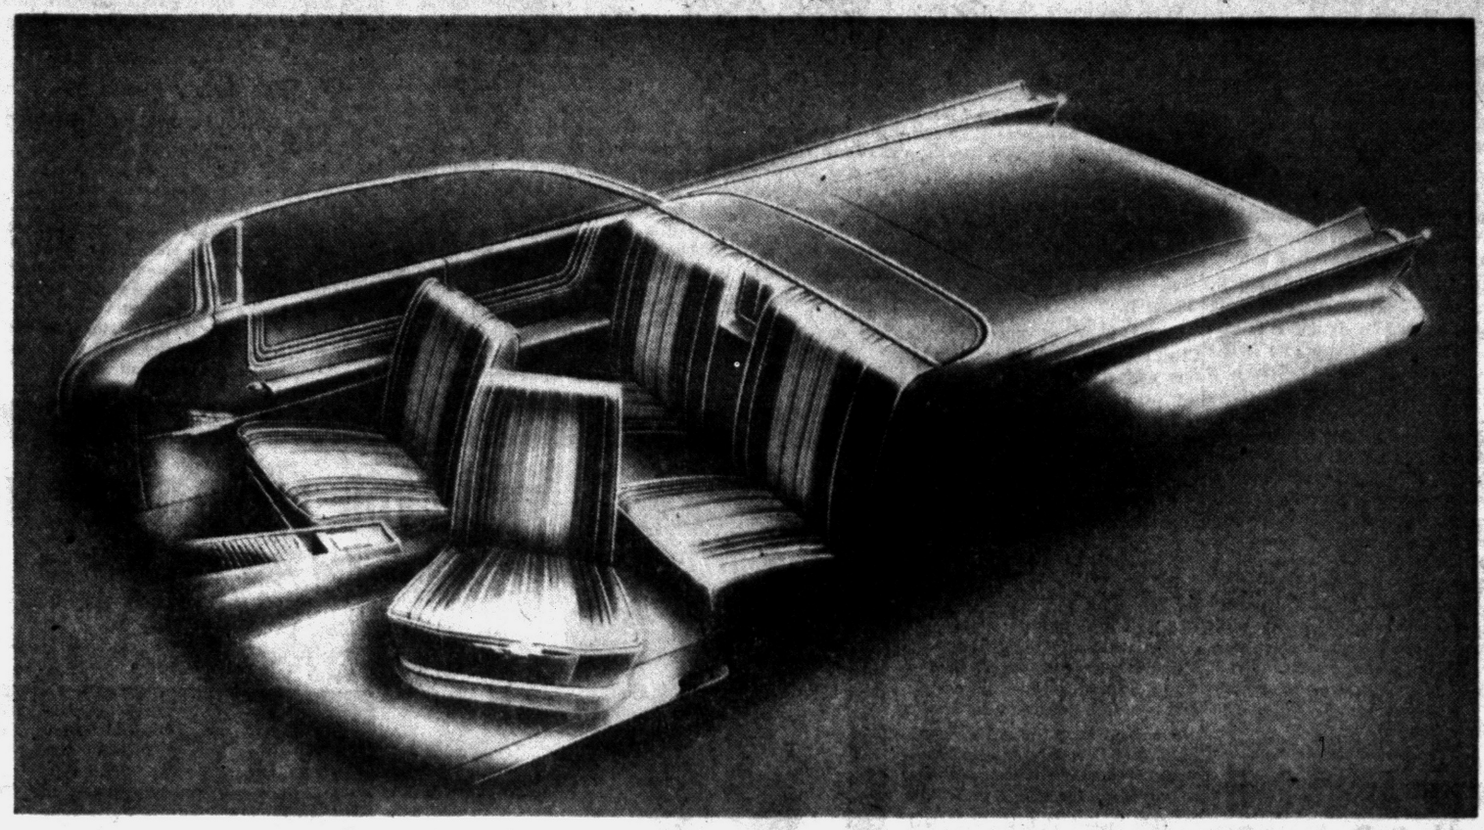

While we were speculating on what the 1960 model will be like, actually the personnel at Styling are now finishing designs of 1961 models.

★ ★ ★

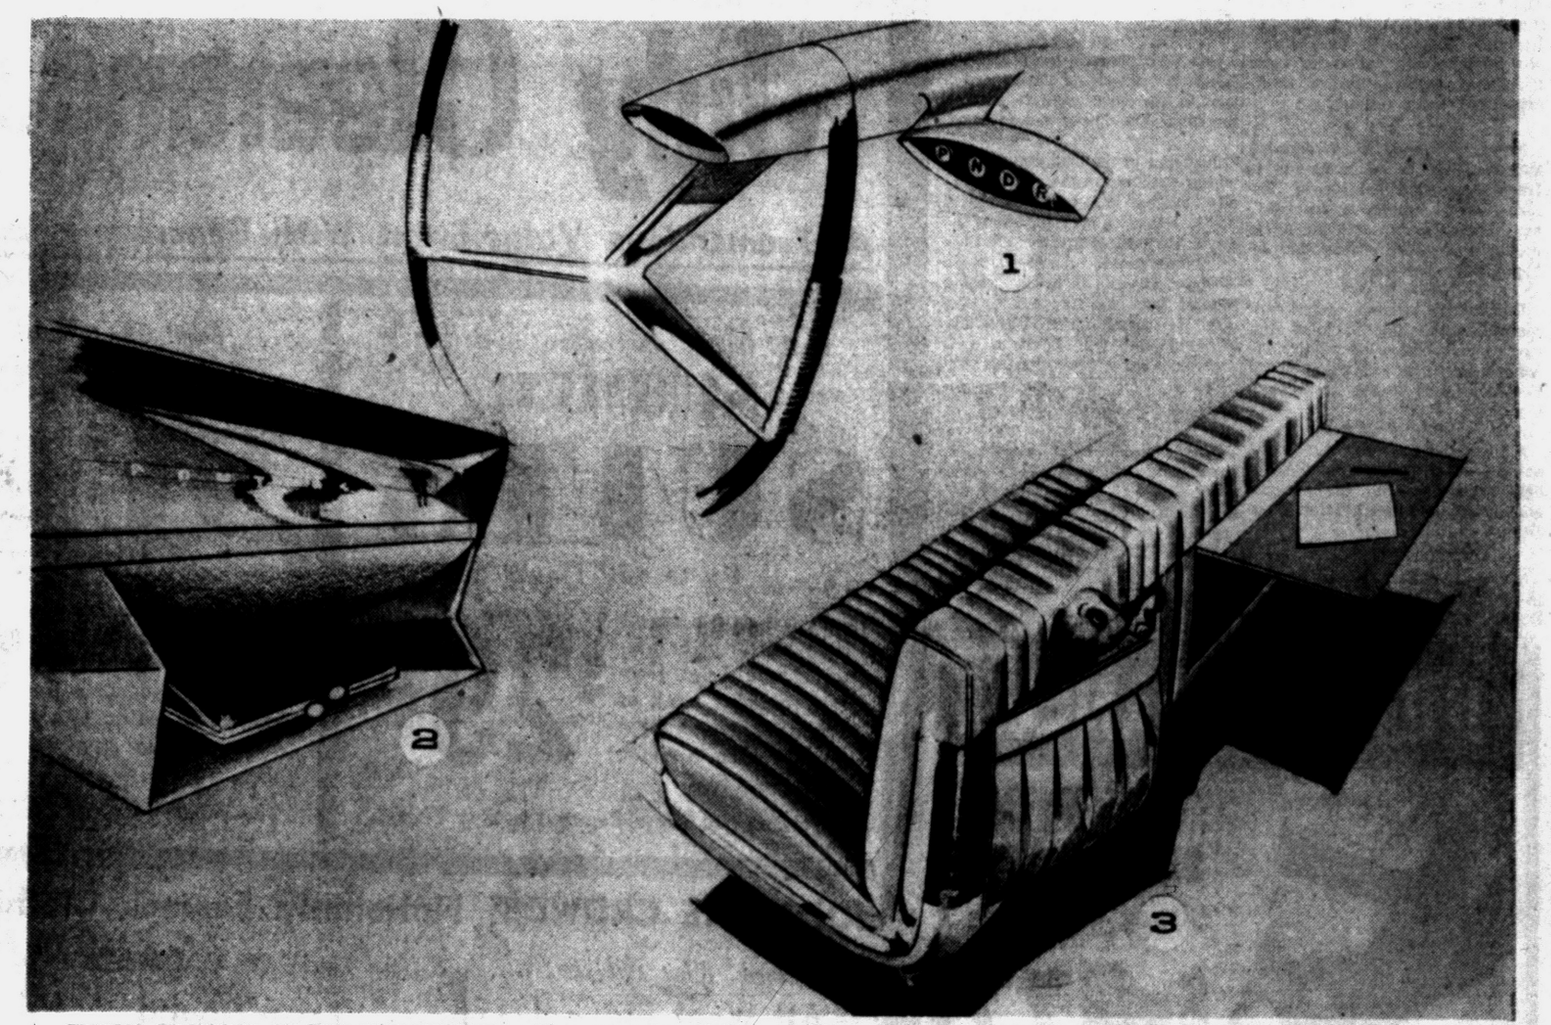

During the two hours the group at Studio 1 was concentrating on ideas for a low-priced, two-door hardtop interior, women writers were also hard at work in six other studios.

They were designing a high-price convertible interior, a family kitchen-dining center, a pickup truck interior, a laundry utility room, a medium-priced station wagon interior and the design of the shape of a new car.

"The success of the first "Do-It-Yourself" design workshop surpassed all our hopes," William L. Mitchell, GM vice-president in charge of the styling staff, said.

SHOWCASE FOR A STYLISH LADY — Here is the "Wedgewood," a two-door Pontiac hardtop with a special interior designed by a group of women writers participating in the first "do-it-yourself" design workshop at General Motors Styling. Swivel seats, unique storage areas and a fashionable turquoise blue combination of wool fabric and matching leather are a few of the styling features designed into this car by the women writers.

SPECIAL FEATURES OF THE 'WEDGEWOOD' — Here are a few of the special features in the "Wedgewood," a special car interior designed by women writers: 1. Push button transmission selector located inside a cone in the steering wheel (projected forward here for illustration purposes, it would actually be recessed in the face of the wheel.) Lights in bracket on steering post would show which button had been selected. 2. A collapsible tray under the instrument panel to store a woman's handbag, and 3. Use of the backs of the two front seats for a collapsible table for note writing or children's games and an airplane-type pocket for added storage.

STUDY PLANS — Joan Danzig (seated) of the Buffalo Evening News, Lee Winborn of The Pontiac Press and Fedele Bianco of General Motors Styling study plans for interior design of a low-priced, two-door hardtop car during a special seminar on styling conducted by GM Styling for women editors.

'Looking Cute' No Soft Job

TV Beauties Work

By CHARLES MERCER

NEW YORK (AP) — "What a soft job. All they have to do is stand on camera, look cute and be admired."

This is a comment that's beginning to bore four pretty girls at NBC-TV who are "show-offs" on the network. Sandra Wirth, Marian Stafford, June Ferguson and Toni Wallace have 14 major beauty titles among them.

★ ★ ★

The girls, who show products and prizes while helping contestants and emcees on NBCTV quiz and audience participation programs, issue this general warning to this year's crop of beauty contest winners:

"Beauty is fine. But a girl must have talent too—and work at it."

Besides "standing around" each Monday through Friday for the visual enjoyment of millions, the four spend about 50 hours a week in rehearsals, sponsor meetings, demonstrations of products and long sessions with makeup and wardrobe men and beauticians. Each, by the way, is a southern belle.

★ ★ ★

Miss Wirth, who hails from Florida, is the tall, tanned blonde who reigns as "Miss County Fair" on the show of that name.

Miss Stafford, from Texas, is the blonde "Pirate Girl" on Jan Murray's "Treasure Hunt."

Miss Ferguson, from West Virginia, and Miss Wallace, from Florida, are models and prize exhibitors on the daytime and nighttime versions of "The Price Is Right."

Summarizing their careers, Miss Wirth says:

"The world is full of beautiful girls. But in show business there's no such thing as a beautiful, lazy girl."

Seven of the nation's top male singing stars — including Elvis Presley — will telephone Dick Clark on his "American Bandstand" show over ABC-TV Aug. 5. The occasion is the second birthday party of the program which now has the largest daytime audience of any network TV show.

"Du Pont Show of the Month" has scheduled its first four dramas of the new season: "Body and Soul," Graham Greene's "The Fallen Idol," Sinclair Lewis' "Arrowsmith," and Charles Dickens' "Oliver Twist." All will be produced by David Susskind for Talent Associates.

★ ★ ★

James R. Hoffa, President of the International Brotherhood of Teamsters, will be the guest on "Face the Nation' Sunday over CBS-TV.

State Air Guard Bases Get $3 Million in Aid

LANSING (AP) — Michigan Air Guard bases will receive $3,100,206 in federal funds in current fiscal year, Maj. Gen. Ronald D. McDonald, state adjutant general, reported today.

The largest share, a total of $1,687,561, will go to units based at the Detroit Metropolitan Wayne County Airport. Units at Battle Creek will receive $994,984 and those at Phelps Collins Field, Alpena, will receive $417,661.

State Solons Want Curbs on Photos

LANSING (AP) — Miffed by recent publication of unflattering pictures, the house Democratic floor leader last night demanded stiffer control over photographers in the house chamber.

★ ★ ★

Rep. Joseph J. Kowalski (D-Detroit) broke into debate over taxes when he spotted an unidentified photographer snapping pictures from the gallery.

"These people should have to receive permission from the speaker before taking pictures," he said. "It's about time we protected our dignity around here."

Kowalski's ire was aroused by newspaper pictures last week which he said "were made to look as if we weren't working." The house was in recess when they were taken, he said.

★ ★ ★

House speaker Don R. Pears (R-Buchanan) said he took a "very liberal" attitude toward commercial photographers, asking only that they not snap lawmakers in "uncompromising positions."

★ ★ ★

The Senate takes a sterner view, having barred outright any pictures in the upper chamber while it is in session except upon ceremonial occasions. Photos may be taken of committee proceedings only with prior consent of the committee chairman.

Nasser Assails Reds for U. A. R.-Iraqi Rift

CAIRO (AP)—President Gamal Abdel Nasser of the United Arab Republic blamed the rift between Iraq and the U.A.R. on Communist intrigue and called for close friendship with a unified, independent Iraqi regime.

★ ★ ★

Nasser's remarks Wednesday appeared to be a response to Iraqi Premier Abdel Karim Kassem's olive branch a few days ago, when Kassem said the Arabs should close their ranks and let bygones be bygones.

★ ★ ★

But Nasser also expressed hurt surprise that what he called slurring insults have continued to come from Baghdad Radio and the People's Court in the Iraqi capital.

★ ★ ★

A throng cheered Nasser at the outdoor rally in Republic Square, held on the eve of the seventh anniversary of the Egyptian revolution.

There are now 12 battleships in mothballs throughout the United States.

Louisville Modernizing Staid Old City

LOUISVILLE, Ky. (UPI)—This semi-Southern city sometimes has been compared with a charming but dowdy dowager, devoted to arts and ancestry but with little interest in changing fashions and times.

★ ★ ★

In her downtown area, Louisville does present much the same face she did a decade ago, the principal changes coming from the razing of a few old buildings and churches to make room for blacktop parking lots—not glass-and-aluminum skyscrapers.

But Louisville, which in reality is more Midwestern than Southern is reacting to the thrust of the 20th Century as surely as other American cities her size. She just isn't making a fuss about it.

Henry Ward of the Louisville Chamber of Commerce puts it this way:

"This city is moving. The town is alive and doing things. In terms of really sound approaches to basic problems, we are way ahead of some others in our class, although they may have some more spectacular building projects under way."

★ ★ ★

Ward said the heaviest impact on the city will come from a 68-mile, $250,000,000 expressway program. Nearly completed is the Henry Watterson Expressway, which loops around the eastern and southern edges of Louisville.

A second factor in the changing pattern of Louisville is a $5,000,000 urban redevelopment bond issue approved by the voters in 1957.

This money is being matched with Federal funds to buy up blighted areas of the city, which are then leveled and sold to private interests for residential, commercial and industrial development.

One such project—the Southwick Housing Area—is under construction in the southwestern part of the city. Two more are planned.

★ ★ ★

Just east of the business district, within walking distance, 10 to 12 city blacks are turning into a Medical Center, pivoting about the city's General Hospital and Children's Hospital. A new Jewish Hospital already is in use, and a 500-bed Methodist Evangelical Hospital is rising. The University of Louisville will build a new Medical School building in the area.

★ ★ ★

On the west side of the business district, a new civic center may soon be taking shape.

Louisville has been criticized recently for not keeping its business district in tune with the times. Much of Fourth street—the principal commercial street—is old, drab and even unkempt.

Its ownership, largely absentee, has been accused of penny-pinching and foot-dragging, but there are signs of ferment.

The recently formed Louisville Central Area, Inc., in just a few months, has raised $300,000 for a three-year budget to maintain a staff that will look into downtown Louisville's problems and see what can be done.

★ ★ ★

LCA already has provided for an independent survey that pointed to a positive market for at least 2,400 medium and high rental apartment units in the downtown area. One prominent local realtor, F. W. Drybrough, has announced he will build a 27-story luxury apartment house just a block from the city's principal intersection.

★ ★ ★

The new bridges and expressways may release some of this pressure to the Indiana side of the river, north and west, but this brings added fears that, unless drastic steps are taken to revitalize Louisville's heart, the whole thing will just fly apart from centrifugal force.

Louisville is not likely to do anything drastic, however. Just as she integrated her public school system without strife or violence through sound planning and respect for the realities of the situation, she is building for the future one solid step at a time.

Name Library Official

LANSING (AP) — Mrs. Loleta M. Fyan, state librarian, has been named vice-chairman-elect of the American Assn. of State Librarians.

Arthur Yabrof of the Detroit Library has been named chairman-elect of the finance division of the American Library Assn.

Lumber Rides the Rails From Cadillac Again

CADILLAC (UPI)—The first railroad shipment of lumber to leave Cadillac in 23 years has left here for Illinois, recalling the days when this community was a lumbering center.

The rough-cut lumber was cut north of Roscommon by a St. Helen firm and brought here by truck for shipment by railroad to Decatur, Ill. Railroad officials said the last rail shipment of lumber was in 1936.

Presidency Requires Too Much Shaving—Adlai

LONDON (UPI)—Adlai Stevenson, appearing on a British television program last night, told his audience that "the best reason for not being president is you have to shave twice a day."

Asked if he would seek another Democratic presidential nomination in 1960, Stevenson answered, "I have run for the presidency twice and that's as much as one man should do."

Carney Reveals Industry Ties

Admiral Says He Earns $50,000 a Year Plus Navy Retirement Pay

WASHINGTON (AP) — Adm. Robert B. Carney testified Wednesday private industry pays him nearly $50,000 a year.

★ ★ ★

But the former Chief of Naval Operations said "it is almost physically impossible" for any one retired officer to have any appreciable influence on a buying decision by his old service, so complicated is the purchasing process.

★ ★ ★

"You would have to have them spaced 10 feet apart all along the line to make sure all the influence points are covered," Carney told a House subcommittee investigating alleged pressure and influence on weapons buying.

Carney listed these civilian jobs:

1. Chairman of the board of the Bath Iron Works, a shipbuilding firm which, he said, does about 98 per cent of its business with the government. He said he was paid $25,000 a year.

2. Consultant and a director of Fairchild Aircraft and Engine Corp. at $12,000 a year plus $200 for each directors' meeting attended.

★ ★ ★

3. Consultant to the management of Westinghouse Corp. at $7,500 a year.

4. A director of Nationwide Securities Corp., a mutual fund, at $3,000 a year.

5. Associate in an unnamed public relations and planning group in New York which pays no salary but provides a secretary.

In addition, Carney said, he receives $12,888 a year Navy retirement pay.

Island of Formosa has a population of about 10 million.

AFL-CIO and ITU Sign Labor Pact

DETROIT (AP)—The Wayne County AFL-CIO and its affiliated International Typographical Union are at peace again.

★ ★ ★

The two came to an agreement in a labor dispute yesterday. As a result, the Detroit Labor News will resume publication.

Pickets of the ITU Mailers Local 40, protesting work done for Labor News by members of the rival International Mailers Union, an independent group, kept AFL-CIO offices in the Labor Temple closed for several days last week.

The offices included the Labor News. Publication of the weekly paper was suspended.

Labor News' mailing operations have been handled by a firm employing both ITU and IMU mailers. Labor News has agreed to move the work to another plant.

'Politics Only Road for Civil Progress'

ANN ARBOR (AP)—The only way the people can get the things they need for civil progress is through politics, Gov. Williams said Tuesday night.

★ ★ ★

The governor spoke to delegates to the Institute on Practical Partisan Politics at the University of Michigan.

"There is a tremendous number of good people in politics," Williams said.

"But, we need a tremendous number more to give us the broad base of participation which alone can expand the value of democracy as a form of government and as a way of life."

★ ★ ★

The governor stressed two points:

1. To serve the people, political parties must become parties that are issue-oriented — not just "ins" and "outs."

2. The action or inaction of government is having an increasing impact on the lives of people. No longer is government responsible solely for freedom of speech and religion, but more and more for freedom from want and fear.

On his first point, Williams said political parties are changing from patronage parties to issue parties.

DEMAND LEADERSHIP

The people, he added, are demanding that the parties give real leadership in issues and be a channel through which the people can make themselves heard on vital domestic and foreign issues.

"This," he continued, "is one of the healthiest developments in America's political history."

On his second point — the extent to which government affects our lives — Williams said:

"The practice of politics deserves a very high place on the scale of public values.

★ ★ ★

"Only through good politics — and that means politics guided by the right purpose and effectively stimulated by the greatest possible participation — can the public sector be advanced."

Schools at Muskegon to Charge $2 to $4 Fee

MUSKEGON (AP) — The Muskegon Board of Education has approved fees for grade school children in the coming school term that will bring an estimated $20,000 to $25,000 a year. The board action followed voter rejection of a 4-mill increase for operating expenses.

Kindergarten pupils will pay $2 a year, and those in grades one through eight will pay $4 for books and other materials.

More than 500,000 U. S. children suffer some form of heart disease.

British Scientists Admit Zeta Machine a Flop

LONDON (AP) — Britain admitted today its Zeta machine — a step toward harnessing the power of the hydrogen bomb — hasn't lived up to expectations and may be scrapped.

The nation's Atomic Energy Authority said designs are being prepared for a new system.

The authority's fifth annual report blamed Zeta's falldown on an energy leak which has baffled British scientists.

"It was rather like trying to pump up a tire with a puncture," the report said.

Zeta was unveiled at Britain's atomic research center at Harwell 18 months ago. Sir John Cockroft, who directed the experiment, said at that time he was "90 per cent certain" his British scientific team had controlled thermonuclear fusion — the so-called H-bomb reaction. But he emphasized it would take two decades, maybe longer, to translate this into everybody use.

Since then the British scientists have admitted their claims proved over optimistic.

overoptimistic.

The idea was to heat the heavy isotopes of hydrogen known as deuterium until they fused to form helium and release energy. Heavy hydrogen is not too difficult nor too expensive to get from sea water so the supply would be inexhaustible.

Zeta was a doughnut-shape tube containing deuterium through which electric jolts were passed. The AEA report said an excessive amount of energy was lost in the tube and as a result not enough energy was available to raise the temperature for a sustained period to the high levels required.

★ ★ ★

The reason for the energy leak is not clearly understood. The main object of the authority's present experimental program is to find out.

The report said a higher pressure operation will be possible when bigger electrical currents are used from Zeta's new condenser and when another similar but smaller machine — Sceptre IV — begins work soon.

Name New York Negro for High Education Post

NEW YORK (UPI)—A Negro educator yesterday was nominated for the post of associate superintendent of schools.

The name of Dr. John B. King, 50, was submitted to the Board of Education by Superintendent of Schools John J. Theobold. The Board is expected to approve the nomination tomorrow, making King the first Negro to become an associate superintendent.

Kansas leads the United States in wheat production — 100,111,000 bushels in 1957.

Shall We Try Again?

PHOENIX, Ariz. (AP) — The Phoenix Area Command of the 15th U.S. Army Corps (Reserve) gave this explanation of the purpose of a recently formed training command:

"The training unit will provide flexibility for assignment of interested reservists surplus to troop program unit assignments in the Phoenix area."

Hawaii Set to Elect 1st Oriental to U.S. Congress Next Tuesday

HONOLULU (AP) — The fledgling state of Hawaii is getting ready to elect the first Oriental to Congress in U.S. history.

The mid-Pacific island chain will hold its first state election July 28.

And, reflecting the multiracial population, three of the six candidates for Congress are of Japanese or Chinese descent.

There's a possibility too of a split ticket that could send two Asian-Americans to Washington.

The islands, on July 28, will elect two U.S. senators and one representative in addition to a governor and State Legislature.

★ ★ ★

Hawaii's Democrats, favored to win on the strength of a heavy primary showing last month, believe they have a winner in youthful, Japanese-American Daniel Inouye, their nominee for the House.

Inouye, 34, a territorial senator, lawyer and decorated war hero, is fast rising in island politics. He lost his right arm in World War II combat while serving in Europe with Hawaii's "Go for Broke" 442nd Regimental Combat Team. The outfit was made up entirely of Japanese-Americans.

★ ★ ★

Inouye is opposed by Hawaii-born Republican Charles H. Silva, 55, a dentist who served in the Terrotirial Legislature and who is trying for elective office again after an absence of seven years. He is at present Hawaii director of public institutions.

Republicans are looking to Chinese-American Hiram L. Fong as the brightest hope for a winner.

Fong, 52, a millionaire businessman, is running for the Senate. He is opposed by Connecticut-born Frank F. Fasi, 38, a territorial senator who scored the major upset of the Hawaii primary June 27 by winning the Democratic nomination.

Two old-timers in island politics are contesting the other Senate seat. They are 70-year-old Democrat Oren E. Long, former governor of Hawaii an dlong-time territorial legislator, and 62-year-old Wilfred C. Tsukiyama, a lawyer, territorial senator and dean of island legislators of Japanese anchestry.

No person of Japanese or Chinese origin has ever been elected to Congress. And only one Asian has been named, Rep. D. S. Saund (D-Calif), a native of India.

Pickup Truck Thief

FLAGSTAFF, Ariz. (AP)—Glenn McNeese was walking along the street when he saw his stolen pickup truck with a stranger at the wheel.

He borrowed a car from a friend and gave chase as the stranger fled. McNeese overtook the thief six miles from town, forced the pickup to the side of the road, climbed in and drove it and the occupant to jail.

HIS IDEA WORTH $5,000 — Highest suggestion award in Pontiac Motor Division history, totaling $5,000 in U.S. Savings Bonds, was presented by S. E. Knudsen (left), general manager, to Omen J. Gibbard (center), plant engineering department. Looking on was Gibbard's foreman, James F. Smyth, 561 E. Montcalm St. Gibbard, 2842 York St., Auburn Heights, in suggesting a major improvement to the car air conditioning system, became the first $5,000 award winner in the Detroit area and the third in General Motors since the maximum was raised to that figure last June 1. Smyth, coincidentally, in 1929 prior to the GM suggestion plan, became one of the first Oakland Motor Car Company suggestion achievers with a $5 award.

Discrimination in Hiring Settled

Report Detroit Area Applicant Denied Job Because of Race

ESCANABA (AP) — A cash settlement for discrimination in hiring —the first in the history of the Michigan fair employment practices commission — was reported from the commission meeting here yesterday.

★ ★ ★

The commission said previous cash settlements involved only discriminatory discharge.

Commissioner Anne H. Cook of Greenville said a Detroit area applicant was turned away from a job opening as a private secretary in a manufacturing firm for racial reasons.

An investigation showed the job went to an applicant with substantially less experience and ability.

The commission reported the firm agreed to make a "substantial" cash settlement and to consider the secretary for the next vacancy of comparable importance.

37 Cities Ordered to Grow Own Food

Chinese Communes in Serious Trouble

By ROY ESSOYAN

HONG KONG (AP)—The barracks-type people's communes into which Red China herded the bulk of its 500 million peasants last year appear to be in serious trouble.

Flood, drought, official mismanagement and peasant discontent threaten the setup Peiping created less than a year ago to try to boost production for its "great leap forward."

★ ★ ★

A few of the communes in the Swatow area of South China already have been dissolved, according to reports reaching Hong Kong.

Several others in Kwangtung Province reportedly are being retained in name only—their communal messhalls, nurseries and old folks' homes have been closed down.

Independent but anti-Communist newspapers in Hong Kong have reported food riots in communes in Kwangtung, Kiangsi, Honan, Hunan and Kansu Provinces.

STORM GRAINARIES

These accounts say hungry peasants have stormed state granaries, attacked military grain convoys and assassinated government and party officials.

There is no way to corroborate these reports and some may be exaggerated. But observers here feel they present an essentially true picture.

Even the official Communist press has admitted food shortages mismanagement and peasant discontent in communes.

Peiping has taken drastic measures.

It has ordered 37 of China's biggest cities to start growing their own food, an admissin the communes are not producing enough.

The Communists have also admitted millions of farmers have fled from communes to cities.

The Red government has indicated it probably will not achieve its ambitious 525 million-ton grain target for 1959.

It has abandoned last year's basic farm policy of intensive cultivation and now is calling for expansion of China's cultivated areas to include every available scrap of land.

The incentive system has been reintroduced. The government now promises that peasants who sow in their own backyards will be able to reap their harvest and not have to hand it over to the state.

Peiping also promises that Kwangtung Province's grain production will go to the peasants first, and then to state granaries. The peasant, not the state, wil have first call on excess production.

COMMUNE TAX CUT

Earier this year, recognizing the problems ahead, Peiping ordered a subsidy of a billion yuan (about $435,000,000) for lagging communes. It also cut the agricultural tax on communes from 7 per cent to 5.2 per cent.

Shortage of food is one of Red China's main problems.

Local welfare organizations report 9 out of 10 refugees from China's communes give hunger as the main reason for escape.

Meat is short and even vegetables are reported scarce.

★ ★ ★

The communes were created to beat China's perennial food problem. But they only aggravated it. In the communes the farmers had to dig coal, build dams, smelt steel and to engage in other non-agricultural tasks. Food production suffered.

Floods, drought ind insects delivered what may have been the overpowering blow.

16 States, D.C. Slate Presidential Primaries

WASHINGTON (AP) — Presidential primaries will be held in 16 states and the District of Columbia in 1960. Since 1956 two states—Minnesota and Montana—have repealed their presidential primary laws.

Voters in most of the primary states will have a chance to express a preference among potential presidential candidates, either directly or indirectly through election of convention delegates. Exceptions are New York's delegates and delegates at large from Illinois and Pennsylvania.

Without going into details on each state primary law as to whether the voting is binding or not on convention delegates, the research division of the Republican National Committee has compiled the following primary information.

States having a direct preference vote for presidential nominees, and the dates of the primaries, are: New Hampshire, March 8; Illinois, April 12; New Jersey, April 19; Pennsylvania, April 26; Indiana, May 3; West Virginia and Nebraska, May 10; Maryland, May 17; and Oregon, May 20.

States not having a direct preference vote for presidential nominees, and the dates of the primaries, are: New Hampshire, Massachusetts, except by write-in, April 26; Ohio, May 3; Florida, May 24; and California, New York and South Dakota June 7.

In the District of Columbia voting on convention delegates May 3, the question of direct preference will be up to the election board.

In the following states, the name of the preferred presidential candidates may appear on the ballot along with delegate candidates supporting him: New Hampshire, Wisconsin, New Jersey, Massachusetts, Ohio, Oregon, Florida, California and South Dakota.

States having no indication on the ballot of presidential preference of candidates for delegate are Illinois, Pennsylvania, District of Columbia, West Virginia, Nebraska and New York.

U. S. Plans to Finance Israeli Tourism Project

WASHINGTON (UPI) — The United States plans to finance a tourism promotion project which Israel has been urging for two years, it was revealed today.

Albert E. Farwell, chief of the Near East division of the International Cooperation Administration, told the House appropriations committee that $30,000 from a technical aid fund of $1,600,000 was earmarked for the tourist corporation of Israel to help develop the Israeli tourist industry.

Cuba became an independent nation May 20, 1902.

Burned in Boat Blast

MOUNT CLEMENS (AP) — Frank Van Damme, 56, of Chesterfield Township, was burned seriously in an explosion on his motor launch Wednesday. He was hospitalized with burns on his legs, face and hands. Gasoline fumes exploded as Van Damme started the engine.

MPA Hails Passage of Right to Know Bill

LANSING (UPI) — Senate passage of a House-approved "right-to-know" bill was hailed today by the Michigan Press Association.

The Senate voted 28-4 yesterday to pass a bill requiring school boards to open their meetings and records to the public.

"This is a victory for freedom of information," said Kenneth R. West, managing editor of the Lansing State Journal and chairman of the MPA's freedom of information committee.

The Senate tacked on six amendments which MPA executive secretary Elmer E. White said would be acceptable.

Rep. William Romano (D-Warren), sponsor of the measure, said he would ask the House to concur in the amendments today.

West said the only objection was a lack of a provision requiring boards to give a notice of hearing.

★ ★ ★

The Lansing editor said the MPA may try next year to get a provision requiring open sessions of zoning boards and other bodies at the township level.

Several Senators admitted after the vote yesterday they were not fully informed on what was in the freedom of information bill.

They said they thought the bill carried an amendment that would allow school boards to take action in closed door executive sessions when it is "in the public interest."

This MPA-opposed amendment was recommended by the Senate education committee but got lost in the shuffle during preliminary debate.

Grand Central to Have Biggest Indoor Clock

NEW YORK (UPI) — The four-faced clock atop the information booth in Grand Central Station's Grand Concourse, longtime friend and foe of an army of commuters and travelers, will have a rival for attention next month.

The Westclox Division of the General Time Corp. has announced plans to install what authorities believe will be the largest indoor clock in the world at one end of the huge terminal.

The company said the newcomer will have a 15-foot diameter and will be the prominent clock from all parts of the concourse.

Report 80 Killed in New Iraq Clash

DAMASCUS, Syria (AP) — The Syrian press today reported new clashes in Iraq. Newspapers said 80 persons died Tuesday at Hindiya about 50 miles south of Baghdad.

This is at the opposite end of the country from Kirkuk, the northern oil center where Premier Abdel Karim Kassem's regime claimed to have crushed a Communist revolt last week.

One Damascus daily said the Hindiya fighting was started by Communists angered because a crowd of anti-Communist demonstrators had set fire to Communist-owned libraries the previous day.

The newspaper, Al Jamahir, said the Communists used hand grenades and machine guns on the townspeople, and the victims included women and children.

Ike Group Urges U. S. Offer Birth-Control Data

WASHINGTON (AP) — A presidential study committee recommended today that the United States supply birth control information, if requested, to certain nations faced with the problem of overpopulation.

The recommendation is included in a report sent to Congress by President Eisenhower. The report deals with the broad topic of economic assistance to the free world's underdeveloped nations.

Eisenhower transmitted the document without comment on its various recommendations. He simply urged careful study.

AM Profits Hit 9-Month Record

60-Cent Dividend Set for Quarter; Rambler Output Doubles

DETROIT (AP)—American Motors Corp. today reported a record nine-month profit of $49,599,962, equal to $8.36 a share.

★ ★ ★

The company said the profit came after provision of $35,986,000 for income taxes.

In 1958 the company had a nine-month profit of $14,583,416, equal to $2.61 a share. Due to previous losses there was no provision a year ago for income taxes.

Directors declared a 60-cent a share cash quarterly dividend payable Aug. 27 to stockholders of record Aug. 6. This was the second straight quarter that a cash dividend has been declared.

Rambler announced that its production for the 1959 model year through last week totaled 351,150 cars, against 162,182 for the same 1958 model period. This is the first year the corporation, formed by a merger of Nash and Hudson in 1954, has sold more than 200,000 cars.

★ ★ ★

The Rambler assembly plant at Kenosha, Wis., has built more cars than any other single plant of any auto producer this year.

Ford Announces Record Pay Figures

DETROIT (UPI) — Ford Motor Company today followed its report of record first-half earnings in record payrolls during the same period.

John S. Bugas, vice president-industrial relations, announced that Ford paid out a total of 561 million to hourly and salaried employes for the first six months of the year, up $120 million over the same period last year.

★ ★ ★

Hourly rated employes had average gross hourly earnings of $2.84, an all time high, and compared with $2.61 for the first six months of 1958.

Average total employment for the first half of the year was 159,131 compared with 141,276 in the same period of 1958.

In the Detroit area, total employment averaged 85,412 men and women, compared with 75,602 in the first six months last year. The area's total payroll was $307 million for January-June and $249 million in 1958.

The area of the Rock of Gibraltar and the accompanying British naval base is two square miles.

Albion Oil Boom May Move Inside City Limits

ALBION (UPI) — Albion's oil boom today was expected to move inside the city limits, providing the City Council approves a drilling ordinance after Monday night's public hearing.

Oil drillers said it was almost certain the oil fields run through the entire western section of the city. Their statements were based on the success Tuesday of a well on the Robert Biewend property just outside the south city limits.

It was the 13th producing oil well in the Albion field, with eight dry holes.

Eight other wells are now under way in the Albion area.

3,000 Seamen Seek to Quit Steel Union

DETROIT (UPI) — Officials of the Seafarers International Union (SIU) today announced 3,000 Great Lakes seamen now members of local 5000 of the United Steelworkers Union have asked the SIU to become their collective bargaining representative.

★ ★ ★

All the seamen are currently laid off due to the shutdown of the steel mills.

Spokesmen for the Great Lakes district of the SIU said the group includes crews of the Pittsburgh Steamship Co., representing some 53 ships, and crews of a total of 39 ships operated by Bethlehem, Inland Steel, Buckeye, American Steel & Wire, Ore Navigation, Republic, International Harvester and Shanago Furnace.

The SIU yesterday filed signed pledge cards in behalf of a number of seamen employed by Pittsburgh Steamship Co. The union said it would ask for elections through the National Labor Relations Board on behalf of the seamen.

Charge Waste in Foreign Aid

House Airs Testimony of Supplies Left to Rot, Mismanagement

WASHINGTON (AP) — Charges of waste and mismanagement in the multibillion-dollar foreign aid program marked House subcommittee hearings made public today.

In one unnamed country investigators found a 20-year supply of WAC clothing, a 45-year supply of 30-caliber carbine ammunition, 70,000 sets of new tire chains left outside without storage and more than a million new carbine and submachinegun clips wasting away.

★ ★ ★

In Pakistan, U.S. aid officials reportedly had a fleet of 229 passenger cars, 529 refrigerators and 1,027 native helpers for a staff of 271 Americans.

★ ★ ★

In Peru, a former aid official testified, the U.S. aid chief used American and Peruvian technicians to improve a livestock operation in which he was a partner. The chief later lost his job.

The testimony was taken in closed sessions during May and June by the appropriations subcommittee headed by Rep. Otto Passman (D-La.) in its yearly review of the aid program.

Administration officials denied some of the allegations and said corrective steps have been taken on others. In general, they pictured the continued large-scale aid sought by President Eisenhower for friendly nations as needed for American's survival in the cold war.

The hearings foreshadowed another round of congressional cutting of the aid program.

There are really 1,800 islands in the famed Thousand Islands in the St. Lawrence River.

Farmington Man Foils $10,000 Plot

'Money Changers' Nabbed

Running $10,000 up into $1,000,000 practically overnight doesn't sound easy.

A Farmington Township man told Detroit Police that two strangers said it was simple.

Carlton Oldford, 38, of 22489 Middle Belt Rd., said Charles Harding, 35, and Jacob G. Webb, 41, had a scheme to turn $1 bills into $100 bills.

Oldford said all it involved was some bleach and a printing press. Take a $1 bill, Oldford said the men told him, bleach out the markings, then put the blank paper through the printing press and roll out a $100 bill.

Oldford said they demonstrated on a crude press and a $100 bill came out all right.

"It must have been some sleight of hand trick," Oldford said.

Oldford said that at the request of Harding and Webb, he took $10,000 in $1 bills out of the bank. Then he called the police.

Police instructed Oldford to cooperate, then arrested Harding and Webb as they accepted the money.

Harding, 17359 Lahser Rd., Detroit, and Webb, whose last known address was in Cosby, Tenn., stood mute yesterday in Recorder's Court to charges of conspiracy to commit larceny by trick and conspiracy to cheat and defraud.

Freed under $2,500 bond each, they were to appear for examination Wednesday.

McKay's Eyes Give New Sight to Two

PORTLAND, Ore. (AP)— Former Interior Secretary Douglas McKay, who died yesterday at Salem, Ore., willed his eyes to an eye bank here.

They provided new sight for two persons last night.

Shortly after his death in a Salem hospital, a physician removed the eyes of the former Oregon governor.

Then the eyes were rushed to the Good Samaritan hospital eye bank here and examined. Last night the corneas were transpanted, one to each of two persons.

Each of those recipients previously had a bad eye said Frank Walter, the hospital's administrator.

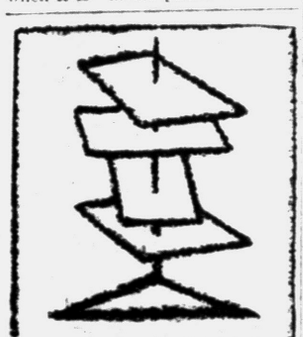

"Douglas and I had talked it over, and we thought it was a wonderful thing," McKay's widow said last night. Then Mrs. McKay said she, too, had willed her eyes to the hospital.

Head of State Police at Houghton Lake Dies

GRAYLING (AP) — State Police Sgt. Wallace B. Shawl, commander of the Houghton Lake post, died of cancer at Mercy Hospital here today. He was 41.

Shawl joined State Police in 1940 and served at posts in Niles, Flat Rock, Bay City, East Lansing and Cheboygan before assuming command of the Houghton Lake post. A native of St. James, Beaver Island, he attended Cheboygan high school. He was a World War Two veteran.

Nigeria, in British West Africa, with 23 million persons, has the largest population in the British, French, Belgian and Portuguese colonies.

Don't Let Ego Get You Down, He Advises

Suave Cary Grant Self-Improvement Bug

NEW YORK (AP)—Cary Grant has become a symbol of suave certainty and self-assurance to millions of movie-goers.

They might be surprised to learn what his biggest interest is when he isn't facing the cameras.

BOYLE

It's self-improvement!

"I'm interested in any kind of self-improvement," said Grant, who rose from a stilt-walker and Coney Island barker to become one of the world's top-paid film stars.

"Mankind has to be interested in self-improvement. If not, we might as well give up."

★ ★ ★

He feels that life for every man is a constant search for himself.

"You go from one plateau to another," he said. "If a man every five years faithfully put down his views of life, love and the world, at the end of 20 years he would find a frightful mass of inconsistencies.

"People cannot stay the same. They change every second. They can't even stay the same in outward appearance."

★ ★ ★

The tall, handsome actor, visiting here after completing his role in Alfred Hitchcock's comedy thriller, "North by Northwest," has learned one thing for sure about himself. Some 57 films in 33 years have given him no appetite for tragic parts. He'll leave Hamlet to others.

"You can make people cry very easily," he remarked. "But it is much harder to make them laugh.

"Yet that is always what I wanted to do. I still do. I love my business, and I shall keep on doing it.

★ ★ ★

"If I can make people laugh, that's enough. It does some good."

For all his air of debonair worldliness, Cary has a strong streak of mysticism in his make-up. He has been intrigued by telepathy ever since he teamed in a mind reading act in his youth.

"Some psychiatrists say the frailest part of us is our mind," he said. "But I think the strongest thing we have is our mind.

★ ★ ★

"It can make us ill or it can accomplish anything. It can even speed the healing of cuts. I know this because I can do it myself. I can heal a cut quicker than most people."

Grant is convinced that what defeats most people is "their own egos — which too often imprison them from new steps to knowledge.

"The biggest problem in the way of self-improvement is the ego—one's unwillingness to admit, even to one's self, one's own ignorance.

"You can never accomplish anything if you worry too much about staying in the same place.

What is the basic rule for self-improvement? Cary gave this answer:

"First, you have to learn how to learn. You have to learn how to concentrate without distraction and how to apply the results of your concentration in any field of endeavor you choose."

★ ★ ★

Asked what had been the biggest handicap in his own self-improvement campaign, Grant suddenly dropped his serious look, and replied smiling:

"Running off at the mouth. If I had any true wisdom, I wouldn't have need to talk about it—to convince you or myself."

Castro to Let People Decide

Will Appear Before Crowd on 26th of July Celebration

HAVANA (AP) — Fidel Castro today said he will decide Sunday whether he will become premier of Cuba again. He gave every indication that he will resume the office.

"We'll let the people decide on the 26th of July," he told a crowd of about 10,000 in the 17,000-seat Sports Palace. That means Castro will announce his decision to the cheering throng at the anniversary celebration Sunday of the start of his revolution against ex-dictator Fulgencio Batista.

★ ★ ★

There was no doubt the "people's decision" would be for the revolutionary leader's return to office. The million-member Cuban Confederation of Workers has called a one-hour general strike today to demand he withdraw the resignation he submitted Friday to force President Manuel Urrutia out of office. And his half a million peasant supporters called into Havana for Sunday's celebration are certain to shout for his return to the premiership.

★ ★ ★

In remarks prior to his televised speech, Castro had given the impression he would stay out of office.

Pioneer for Project Mohole

Men Probe Ocean From 'Hero Board'

(This is the third in a series of articles from aboard the oceanic research ship Vema. Preliminary probings of the ocean floor off Puerto Rico are aimed at providing Project Mohole with the best spot to drill through to the earth's core.

By LEONARD ENGEL

ABOARD RESEARCH VESSEL VEMA (AP)—The men call it the hero board, because "you feel like a bloody hero after you've been out on it in bad weather."

It's a swaying, slender pivoted board that projects out over the side of the far-ranging Columbia University research ship Vema—two thirds of the way aft along the starboard side, and seven feet above the deck.

★ ★ ★

The swaying plank's proper name is the hydro board. It's used for attaching record thermometers and water sample bottles to a wire cable that carries them down to the bowels of the ocean, miles below.

In the weeks I was on Vema, someone was out on the hero board almost every day, sending down and retrieving thermometers and bottles. Vema and three other research ships were cruising the Atlantic north of Puerto Rico, looking for a site for the Mohole, the miles-deep hole that is to be drilled through the earth's crust beneath the sea. Knowledge of water conditions is indispensable to the Mohole project.

★ ★ ★

Moreover, ocean research ships send down thermometers and bottles wherever they go. For water samples and temperature measurements provide clues to one of the most important and most mysterious regions on earth—the region below the surface of the sea.

Oceans cover more than 70 per cent of the earth's surface and contain an almost inconceivably vast mass of water—over 320 million cubic miles of it. Hidden within this huge "inner space" is more life than exists on land—much of it still unknown.

★ ★ ★

Hidden in the "inner space," too, are currents mightier than hundreds of Mississippis, transporting tropical warmth to one shore and chilling cold to another. Recent studies have even connected the oceans with the Ice Ages. Warm Atlantic currents helped bring the glaciers that buried the continents by melting the Arctic ice and converting dry arctic winds to wet, snow-bearing ones.

Oceanographers probe many aspects of the sea simultaneously. Almost all research ships, for example, are constantly on the lookout for new species of marine life.

★ ★ ★

Early on its present voyage, Vema went fishing for a "sea monster"—the adult form of a recently discovered outside eel larva, whose adult form could easily be of sea monster size. No monster was caught, though something of great size and strength struck and straightened out the heavy six-inch iron hook Vema had put down.

And Vema's biology trawl did bring back, off Central America, five specimens of a marine worm belonging to a family thought extinct for 300 million years.

★ ★ ★

Oceanographic ships have long charted currents. At first, the purpose was to aid navigation. Now, they are studied for clues to the migration of fish and the role of the oceans as weather and climate maker.

Meandering ocean waters can be tracked in several ways. One is to look for telltale markers that tag particular masses of ocean water. That's one of the missions of the man on the hero board. The temperature records and water samples he obtains identify water masses deep in the ocean and help reveal ocean water's wanderings.

★ ★ ★

Over the decades, analysis has shown that the temperature, salt content and several other properties of particular masses of ocean water are remarkably constant.

As a result, ocean researchers have been able to work out the main patterns of ocean water flow. Warm water flows along the surface of the ocean from the equator to the poles. Cold water flows back again down below, near the bottom.

When these studies are finished, man will have answers to many puzzling questions not only about the oceans, but about the earth which the oceans dominate.

★ ★ ★

Tomorrow: What's at the Bottom?

UP Legislator Returns to Work After 'Vacation'

LANSING (AP)—Tanned and refreshed, Rep. Gilbert L. Wales (D-Stambaugh) ended his self-prescribed one-week vacation from the legislature Wednesday. But he declared:

★ ★ ★

"If something isn't done around here soon, I'm going back home."

Wales left his lawmaking, post temporarily in anger and disgust over the legislature's failure to make headway on a state tax program. Living expenses in Lansing had taken all his legislator's pay and his family had used up his savings, he said.

Promising to return when the tax stalemate showed signs of cracking, he went back to his miner's job in the Wauseca Iron Mine near Stambaugh.

The United Steel Workers shut down the mine two days later, so he spent the week fishing, swimming and doing odd jobs.

★ ★ ★

Wales drove here from the Upper Peninsula yesterday after learning the House may vote this week on one or more tax plans lined up on its agenda.

Elephants do not drink through their trunks but suck water up into their trunks and then squirt it into their mouths.

Rush Portrait of Buffalo Bill to Moscow Fair

WASHINGTON (AP) — Visitors to the U.S. fair in Moscow will be able to rest their eyes on a portrait of Buffalo Bill after seeing the main exhibit of abstract, modern American art.

The portrait by George Catlin is one of a group of American works the government is rushing to Moscow today because President Eisenhower wants the fair to show "what America likes."

The President had joined the criticism that stormed up when it was discovered that fair officials planned to show paintings and sculptures only from the post-World War II era.

Officials quickly decided to round up 26 older works to join the 49 modern pieces when the fair opens Saturday.

The new selection should please the President, since it includes a painting owned by him and a sculpture that usually decorates the east wing of the White House.

Former MSU Professor Named Vice President

MUSKEGON (UPI) — James M. Apple, a member of Michigan State University's engineering faculty from 1947-57, has been named vice president in charge of manufacturing for Clarke Floor Machine Co., it was announced today.

Clarke President Ernest Cooper said Apple will assume his new duties Aug. 1. Apple, who has written several textbooks on plant layout, materials handling, production and industrial engineering, has been an engineering consultant since leaving MSU's faculty two years ago.

The duckbill and the spiny anteater are the only two types of mammals which lay eggs.

One-key control: only Chevy in its field has done away with fumbling for two or three keys. The same key unlocks the door, starts the engine, opens the glove box and trunk.

WHY DO WITHOUT THIS CONVENIENT LITTLE TOUCH... LET ALONE

THESE BIG CHEVY VIRTUES!

more hat room
more shoulder room
more elbow room
more hip room
and even more room for feet

GREATER ROOMINESS

Official dimensions reported to the Automobile Manufacturers Association make this point abundantly clear. For example, Chevy's front seat room is up to 5.9 inches wider than in comparable cars. And Chevy even offers more front seat head room than all but one of the *high*-priced cars!

MOST ADVANCED ENGINES

We'll let SPORTS CARS ILLUSTRATED talk about Chevy's standard passenger car and Corvette V8's: "Indeed, this device is surely the most wonderfully responsive engine available today at any price." And *every* motor magazine concurs! There are eight V8's to pick from—the widest choice in Chevy's field.

FRESH STYLING

You can tell Chevy's unmistakably modern style with one look. POPULAR SCIENCE magazine's experts took that look and said, "In its price class, Chevy establishes a new high in daring styling."

FULL COIL RIDE

You've almost got to find a really rocky road to show off Chevy's easygoing ride to full advantage. MOTOR TREND magazine gives you an idea, though: ". . . the smoothest, most quiet, softest riding car in its price class."

HIGHER TRADE-IN

N.A.D.A.* Guide Books carry the proof of Chevy's extra trade-in value. They show that Chevrolet used car prices last year averaged up to a solid $128 higher than comparable models of the other two cars in Chevy's field.

*National Automobile Dealers Association

No wonder more people are buying Chevrolets in 59 than any other car

BIGGER BRAKES

Not only bigger, but built with bonded linings for up to 66% longer life. Just to prove what's what, Chevy outstopped both of the "other two" in a NASCAR*-conducted test of repeated stops from highway speeds.

*National Association for Stock Car Advancement and Research

BIGGER SAVINGS

Two Chevrolets packing our pennypinching 6 with Powerglide delivered a whopping 22.38 mpg in this year's Mobilgas Economy Run, winning the first two places in their class and walking away with top honors among all full-size cars. How can you argue with a figure like that?

CHEVROLET

See your local authorized Chevrolet dealer and see how much more Chevy offers!

10 Negroes Sign at Little Rock

Sophomores Enrolling Today in Third Day of School Registration

LITTLE ROCK, Ark. (AP) — Sophomores register at Little Rock's public high schools today in the third day of registration which has seen 10 Negroes enroll for classes at white schools.

★ ★ ★

Seniors and juniors signed up Tuesday and Wednesday. Five Negroes registered each day, eight at Central High School and two at Hall, a new school located in the city's upper-income district.

No incidents have occurred at the schools, but police planned to continue their surveillance after warning potential troublemakers they would be arrested and jailed.

★ ★ ★

Five of the nine Negroes who attended Central in 1957, when violence erupted at their admission, have enrolled there again. Two of the nine have left the city and two have graduated.

Gov. Orval E. Faubus closed the high schools last fall to prevent resumed desegregation at Central. The law under which he acted has been voided by a federal court and the Little Rock School Board plans to open the schools under a pupil placement law to keep integration at a minimum. Thus, school officials emphasized, a student wouldn't necessarily be assigned to the school at which he registered.

★ ★ ★

Friday is the last day of registration, and is set aside for students who couldn't make it earlier.

Rail Dispute Hurts Bay City as a Port

BAY CITY (UPI)—A dispute between the federal government and the railroads is hurting Bay City's chances of becoming a busy Great Lakes shipping port.

★ ★ ★

The Norwegian freighter Lindenfjord refused to enter the Saginaw River here Tuesday to load two giant mobile cranes at the Bay City Shovel Co. because the captain felt that the river was too shallow for his ship.

Thus, Bay City Shovel Co. must ship the cranes to Detroit by rail for loading on the Lindenfjord. Added cost to the company will be $700.

The government has allocated funds to deepen the river, but the Army Corps of Engineers has refused to do the work until railroads which have two bridges crossing the river agree to accept responsibility for any damage to the bridges which might result from the deepening.

★ ★ ★

The railroads say the government should be responsible for possible bridge damage.

Under ideal conditions, the river draft is adequate for ocean-going ships.

But a switch in winds can raise or lower the water level as much as six feet in a short period of time.

Inspectors Have Power to Enforce Vehicle Acts

LANSING (UPI)—Attorney General Paul L. Adams has ruled an inspector for the Michigan Public Service Commission has enforcement authority just like peace officers.

★ ★ ★

MPSC chairman Otis Smith asked whether inspectors, empowered to enforce the motor carrier act, could enforce other vehicle acts.

"Such inspectors may enforce the provisions of the Michigan vehicle code or the motor carrier safety act," Adams said.

He said law gives inspectors all the powers of peace officers, but court decrees indicate their principal area of interest should be the statutes dealing with motor carriers.

Mark Twain was the first American novelist to typewrite his manuscripts.

'Never Know Till You Try,' Says Industry Leader

Can Big Steel Stop Wage Spiral?

By NORMAN WALKER

NEW YORK (AP) — Can the steel industry stop wage-price inflation in America?

Roger Blough, the industry's top leader as board chairman of United States Steel Corp., is dubious. But he says it's sure worth a real attempt.

"You never know until you try," Blough said in an exclusive interview with The Associated Press. "We think some good will come of it."

★ ★ ★

Blough relaxed easily as he discussed issues in the nine-day steel strike with a reporter at his corporation's plush skyscraper offices in New York's financial district.

He wore conservative blue and spoke softly with sureness and with feeling.

"I don't think any one company or industry can do this job of stemming inflation," he said.

He noted that other industries have been granting hefty wage boosts this year.

But he voiced a hope that "depending upon the outcome of our stand" in steel, other employers will lend a hand in resisting inflation.

The bargaining stalemate that led to the steel strike is rooted in the industry's position that it won't give up any new wage and benefit increases to members of the United Steelworkers unless there are offsetting labor cost savings.

Asked if the steel industry intends to maintain that stand, Blough said, "That certainly is our purpose."

★ ★ ★

"I believe the country understands the problem of inflation better than it did 10 years ago, or even two or three years ago," he said. "More people are interested in doing something about it."

Blough said it wasn't a matter of freezing wages throughout the nation. What steel wants stopped, he said, is the constant increase in employment costs—the industry's total labor bill.

There's a difference, he said. At U.S. Steel, for example, individual employes have a chance to increase their earnings through incentive payments and promotions to better jobs.

Have President Eisenhower's repeated entreaties against inflation to the nation generally and to the steel industry, in particular had a part in the present steel industry stand?

"I believe our position is in reasonable conformity with the President's views—and those of millions of citizens," he replied.

How about a steel price cut if steel labor costs are stabilized?

"We're not considering any at the moment," Blough said. "We're concentrating now on achieving a reasonable negotiations result that won't result in employment cost increases."

The interviewer was curious how Blough could go along with a fat steel labor settlement in 1956—the last negotiations—yet is balking at anything like that now.

★ ★ ★

"I think the steel industry feels it was a very expensive contract," he said.

Blough figures the 1956 contract meant an ultimate 81-cent-per-hour labor cost increase, or a raise of about $1,600 per steelworker over a three-year period. The union figures the cost at much less and has offered in vain to settle again on the 1956 increase basis.

The U.S. Steel chief said his industry also needs more leeway to cut costs to end what he described as wasteful manpower and production practices. The striking union has resisted this on the ground it will mean hardships for individual workers.

8 MILES WEST OF PONTIAC

Will Gather in Santiago Next Month

Latin American Reds Plan to Usurp Ministers Parley

SANTIAGO, Chile (UPI)—Latin American Communists are rushing plans to hold a meeting in Santiago next month to coincide with the inter-American foreign ministers' meeting here, informed sources reported today.

The sources said Communists from throughout the Western Hemisphere, along with some left-wing Socialists, would attempt to bathe in some of the limelight that will be shed on the foreign ministers.

The Red-sponsored meeting will aim particularly at capitalizing on the revolutions that have brought new regimes to Cuba and Venezuela by issuing statements of support for the revolts in those countries.

The sources said one item on the agenda would be the "practical means of forming a solid front with the governments and peoples" of Cuba and Venezuela.

The Communists claim about 80,000 members in Venezuela, although President Romulo Betancourt's government in Caracas is solidly democratic and pro-United States.

★ ★ ★

It was in Caracas that Vice President Richard M. Nixon was stoned on a visit in May, 1958. At the time a civilian-military junta was in power, the armed forces having thrown out dictator Marcos Perez Jiminez Jan. 23, 1958. Betancourt was elected in December.

There have been repeated charges of communism tied in with the Cuban revolution, although Cuban government officials have just as often denied it.

The Communists were reported planning to enlist the aid of Chile's largest labor organization, the Central Union of Workers, and the Student Federation to join a massive "act of homage" to the Cuban and Venezuelan delegations to the foreign ministers conference.

The foreign ministers conference was called to consider the explosive situation in the Caribbean and stemmed indirectly from a claim by the Dominican Republic that Cuba was provoking aggression against it.

Now one of the pivotal points of the conference promises to be an expected request by Venezuela to oust the Dominican Rpublic from the Organization of American States (OAS) on the grounds it is a dictatorship.

Chile has indicated it would oppose such action on the grounds that OAS members are states and peoples, not just governments in power at any particular moment.

Sees Dock Fight Shaping Up

MSU Professor Expects Longshoremen's Union Conflict in State

EAST LANSING (UPI)—A Michigan State University economics professor has predicted a battle between unions for control of Michigan dockworkers, made more numerous by the St. Lawrence Seaway.

The AFL-CIO backed International Brotherhood of Longshoremen represents most workers in Great Lakes ports, said Charles P. Larrowe in a new book, "Labor Relations and the Great Lakes."

But Harry Bridges' International Longshoremen's Assn. has announced it intends to fight for membership, he said.

"If this rivalry breaks out into open conflict, warfare on the docks will be intensified by the active involvement of the powerful Teamsters Union, which has thrown its weight behind the ILA," Larrowe said.

★ ★ ★

Other conclusions in Larrowe's book:

—Labor relations on the hitherto isolated inland lakes have developed in markedly different ways than on the seacoasts.

—Intense conflict between dockworkers' unions could jeopardize the success of the seaway.

—Employers, long hostile to unions on the Great Lakes, will have to adapt to them.

How 2-Pct. Tax Plan Hits You

LANSING (AP)—Here are some tables illustrating the effect of the two per cent personal income tax approved yesterday by the House if the Senate should pass the bill and Gov. Williams sign it:

SINGLE MAN, NO DEPENDENTS

Income	Tax
$4,000	$60
$6,000	$96
$8,000	$114
$10,000	$168
$15,000	$258
$20,000	$348

COUPLE, NO DEPENDENTS

Income	Tax
$4,000	$48
$6,000	$84
$8,000	$120
$10,000	$156
$15,000	$246
$20,000	$336

COUPLE, TWO DEPENDENTS

$10,000	$132
$15,000	$222
$20,000	$312

Approve Campaign to Boost State Travel

LANSING (AP) — A $280,750 advertising campaign to boost Michigan travel has been approved by the Michigan Tourist Council.

The budget breakdown:

1. **$129,750 for direct advertising through newspapers, radio and magazines.**
2. **$120,000 to Michigan's four regional tourist associations for cooperative advertising programs.**
3. **$26,000 for vacation promotional literature.**
4. **$5,000 for participation in the northern Great Lakes area council ad campaign.**

The council voted to continue emphasis on the state's year-round vacation attractions through increased promotion of autumn and winter travel.

There's enough salt in the world's oceans, lakes and seas to cover the entire earth with a white mantle more than 100 feet deep.

OKs State Bill for Prison Favor

Medical Aid Inmates Would Receive Special Parole Consideration

LANSING (AP) — The Senate has passed a bill allowing the State Parole Board to give special consideration to potential parolees who donate blood or take part in medical and scientific research projects while in prison.

★ ★ ★

But, a State Corrections Department spokesman termed the measure unnecessary and undesirable.

"The Parole Board already has the power to do what the bill proposes," said Harold Kachelski, research analyst.

"In addition," Kachelski added, "the measure might create conflicts and create bad feeling among inmates who make a contribution but are turned down for parole for other reasons."

★ ★ ★

In other action yesterday, the Senate rejected a measure to require firms to grant leaves of absence with no loss of seniority to persons elected to public office.

Allow banks to open check-cashing and deposit-receiving facilities in towns of less than 1,000 persons if no state or federally chartered bank was operating within five miles. Supporters said this would help vacationers in northern areas of the state.

Exempt court reporters in Wayne County courts of record from the county civil service system.

Make cities responsible for fire inspections of motion picture theaters.

Now He Wants to Go Home

Around the World on $500

LOS ANGELES (AP) — How much do you think it would cost to travel 27,000 miles around the world? A few thousand dollars?

Don Ahlstrom says he did it on a budget of only $500—and has $6 left.

He arrived aboard a Japanese tanker in Los Angeles Harbor Wednesday after completing a tour of 18 countries, mostly aboard a motor scooter.

The bearded, 25-year-old ex-GI says he financed the trip by working at odd jobs since the trek began in October 1957.

Ahlstrom is now looking for a part-time job in Southern California. He wants to save enough money to return home to Mankato, Minn.

Loses Her Case Against Lover

Ex-Washington Hostess Says Broker Hired Her, Didn't Pay

LONDON (AP) — A former Washington hostess who sued her British ex-lover for $372,400 lost her case in the High Court today.

The plaintiff was a 50-year-old Belgian divorcee, Martha Maria Brusset. She said she was recognized as one of the U.S. capital's top three party-throwers when acting as a "business contact woman" for two U.S. corporations from 1947 to 1951. But Washington society reporters said she wasn't quitethat high up on the scale.

★ ★ ★

Mme. Brusset claimed damages from wealthy Edward Lumley, a Lloyds of London insurance broker, on the ground that he hired her to perform similar business services for him but failed to pay off.

★ ★ ★

Lumley said their arrangement was sexual, not business. He described Mme. Brusset as a discarded mistress on whom he had spent vast sums.

Lumley's lawyer denounced her suit as a blackmailing attempt to shake his client down for still more money.

Coast Guard Reports on Carl Bradley Sinking

CLEVELAND (AP) — A Coast Guard report said the freighter Carl B. Bradley, which sank in a gale last Nov. 18 with loss of 33 lives, must have "developed an undetected structural weakness or defect."

The report of an investigating board said the ship's master, Roland O. Bryan, of Loudonville, N.Y. "exercised poor judgment" in "making the decision to, and in proceeding, across northern Lake Michigan from Cana Island toward Lansing Shoal." Bryan was among those who were drowned. Two survived.

However, the Coast Guard commandant, Vice Admiral A. C. Richmond, "disapproved" this conclusion of the Board in reviewing the case.

Long Plans Drive to Colorado Town to Check Weather

DENVER (UPI) — Gov. Earl K. Long of Louisiana planned a drive to the mountain town of Fraser, Colo. today to see why "it gets so damn cold up there," but said he would return in time for another afternoon at Centennial Race Track.

Long won about $100 on four races at centennial yesterday.

The colorful chief executive called off a visit to the tropics nightclub to see stripper Tempest Storm early today. All arrangements for the nightclub junket had been made but the governor got tied up in telephone conversation and canceled the plans.

Fire Chief W. M. Ilton of White Lake Dies

Service for William M. Ilton, fire chief of White Lake Township, will be held 10:30 a.m. Saturday from Donelson-Johns Funeral Home in Pontiac.

★ ★ ★

Cremation will follow at White Chapel Cemetery.

Mr. Ilton, 49, of 891 Union Lake Rd., died of cancer in Pontiac General Hospital yesterday after an illness of three years.

A resident of Oakland County for 14 years, he came here from Ingersol, Ont., where he was born.

He was owner and operator of Ilton's Garage and a member of the Metropolitan Club Spirit 78 and of Dublin Community Center.

He also was a former president of the Oxbow Conservation Club.

Surviving besides his wife, Vida, are his mother Mrs. Minnie Gibbs and his father of Simcoe, Ont., and one sister, Mrs. Frank Davis of Detroit.

Frito Chip Founder Dies of Heart Attack

DALLAS, Tex. (UPI) —Charles Elmer Doolin, the man who founded the multi-million-dollar Frito Company with only $100 in 1932, died yesterday of a heart attack at the age of 56.

Doolin, a native of Kansas City, Kan., bought the corn chip recipe from a Mexican cafe owner and using $25 of his own and $75 that he borrowed parlayed his investment into a $51-million business.

Service was scheduled for tomorrow.

To Hold McKay Funeral in Oregon Legislature

SALEM, Ore. (UPI) — A state funeral will be held here in the House of Representatives chamber at 10 a.m. Saturday for Douglas McKay, 66-year-old former governor and secretary of interior, who died Wednesday.

McKay, who sold newspapers as a boy in Portland and later became the second man from his home state to serve in a presidential cabinet.

Deaths in Pontiac and Nearby Areas

AMASA F. DERNBERGER

LEONARD — Service for Amasa F. Dernberger, 52, of 3008 N. Rochester Rd., will be held at 2 p.m. Saturday at the Bossardet & Reid Funeral Home, Oxford. Burial will follow in the Lakeville Cemetery.

Mr. Dernberger was an Addison Township highway commissioner several years ago and was a press operator at Chrysler Corp. for 23 years.

Surviving are his mother, Mrs. Allie Dernberger; four sisters, Mrs. Lula Kaufman of Detroit, Mrs. Florence Morgan of Grosse Pointe, Mrs. Harriett Inwood of Leonard and Mrs. Marion Liebenow of Oxford; and one brother, DeCou, of Leonard.

MRS. ALFRED EDDY

OXFORD — Service for Mrs. Alfred (Caroline L.) Eddy, 77, of 82 Pontiac St., will be held at 1 p.m. tomorrow at the Bossardet and Reid Funeral Home here. Burial will follow in Michigan Memorial Park.

Mrs. Eddy died yesterday after an illness of several months.

Surviving besides her husband, the Rev. Alfred Eddy, are a daughter, Mrs. Margery Smith of Ferndale, two grandchildren, one brother and six sisters.

DOCK HODGE

OXFORD — Service for Dock Hodge, 55, of 71 Harriet St., will be held at 2 p.m. Saturday at the First Baptist Church in Middlesboro, Ky. Burial will be in Roselawn Memorial Park. Arrangements are being handled by Bossardet & Reid Funeral Home here.

Mr. Hodge died unexpectedly of a heart attack yesterday at the Pontiac Motor Division of General Motors Corp. where he worked as a press operator.

Surviving are his wife, Mattie, two daughters, Gwendolyn Jenkins of Middleboro, Ky., and Mrs. Katie Widiffer of Mountain City, Tenn., and two sons, Clifford M. and Barton J., Hodge, both of Oxford. Seven grandchildren and four brothers and three sisters also survive.

Presbyterian Leader Dr. William Young Dies

LOS ANGELES (AP)—Dr. William Lindsay Young, former moderator of the General Assembly of the Presbyterian Church of the U.S.A., died Tuesday night in his sleep. He was 66.

Dr. Young also had served as vice president of the National Conference of Christians and Jews and was president of Park College, Kansas City, Mo., from 1936 to 1944.

Senate Debates Shiny Car Tags

State Bill Stands Near Vote After Effort to Kill It Fails

LANSING (AP) — A durable bill to tap Michigan motorists 35 cents apiece a year to reflectorize auto license plates was at passage stage in the Senate today after surviving an attempt to kill it.

★ ★ ★

"To put it bluntly, the thing smells," said Sen. John H. Stahlin (R-Belding) in debate yesterday.

But Sen. Stanley F. Rozycki (D-Hamtramck) defended the proposal as a safety measure and a law enforcement aid.

Rozycki contradicted Stahlin's assertion that specifications for the reflectorizing process were tailored to the supply capabilities of a single firm, Minnesota Mining and Manufacturing Co., St. Paul, Minn.

★ ★ ★

Sen. Frank D. Beadle (R-St. Clair) lost 11 to 15 on a motion to return the bill to committee.

He said more than $100,000 in state-owned equipment now used in license plate manufacture would have to be abandoned and $20,000 in new equipment purchased if the bill passed.

Sen. Elmer R. Porter (R-Blissfield said it was the first time he could remember the Legislature being asked to write such restrictive specifications into a bill.

House Group to Meet; May Act on Civil Rights

WASHINGTON (AP) — The House Judiciary Committee will meet again Tuesday, possibly to vote on a controversial proposal that would let the attorney general seek injunctions to enforce all civil rights.

The committee, meeting Wednesday, did not act on this section of a proposed civil rights bill. But it did approve other sections that would make mob action in school desegregation cases a federal crime.

NOTICE OF REVIEW OF SPECIAL assessment roll for the Township of Bloomfield.

To the owners or other persons interested in the following described lots and parcels of land:

Lots 1 thru 9 inclusive; Lots 11 thru 110 inclusive of Charing Cross Estates, Section 24, Bloomfield Township, Oakland County, Michigan.

Please take notice that a Special Assessment Roll has been prepared and is on file in the office of the Township Clerk for public examination. Said special assessment roll has been prepared for the purpose of assessing the cost of the following described improvement to the property benefited therefrom:

For the proposed improvement to the existing water system in Charing Cross Estates, including the construction of 1725 l.f. of 6" C. I Water Mains; 19 Hydrants; and such other necessary equipment for this improvement, in Charing Cross Estates, Section 24, Bloomfield Township:

Take further notice that the Township Board will meet at the Township Hall in the Township at 8:30 o'clock p.m., on Monday, July 27, 1959, for the purpose of reviewing said special assessment roll and hearing any objections thereto.

ROBERT H. DUDLEY,
Township Clerk
July 16, 23, '59.

COMMUNITY NATIONAL BANK OF PONTIAC
Pontiac, Michigan
NOTICE OF SHAREHOLDERS' MEETING

Notice is hereby given that, pursuant to call of its directors, a special meeting of the shareholders of Community National Bank of Pontiac will be held at its banking house at 30 North Saginaw Street, in the City of Pontiac, State of Michigan, on Saturday, August 22nd, 1959, at 10:00 a.m., for the purpose of considering and determining by vote whether an agreement to merge the said bank and the Romeo Savings Bank, located in the Village of Romeo, State of Michigan, under the provisions of the laws of the United States, shall be ratified and confirmed; and for the purpose of voting upon any other matter incidental to the proposed merger of the two banks. A copy of the aforesaid agreement, executed by a majority of the directors of each of the two banks providing for this merger, is on file at the bank and may be inspected during business hours.

July 17, 1959.

A. G. GIRARD,
President

July 18, 20, 21, 22, 23, 24, 25, 27, 28, 29, 30 and 31

Russians Will Tour America for Ruble at Moscow Show

By TOM HENSHAW
AP Newsfeatures Writer

For a nominal fee of one ruble (25 cents) Russians soon will be strolling through an America in miniature scarcely 15 subway minutes from downtown Moscow.

It's the American National Exhibition, more than nine acres of American life and products scheduled to open Saturday with Vice President Nixon and Soviet Premier Khrushchev on hand.

The U.S. exhibit in Moscow's Sokolniki Park, companionpiece to the Soviet exhibition currently running in New York, is designed to give the Russian people an intimate picture of the American way of life.

Dominant features of the exhibit are:

The aluminum geodesic dome, 200 feet across and 78 feet high, containing exhibits of scientific research, education, labor, health and a continuous documentary film on American life.

And, for the Russians whose questions are not satisified by the exhibits, there's an electronic brain rigged up to answer, in Russian, thousands of other questions about the United States.

The glass pavilion, or exhibition hall, a 50,000 square foot fan-shaped structure, housing the exhibits that show American cultural attainments and the abundance of its economic system.

The circarama, or "movie in the round," in which Russian visitors are taken on a cross-country tour of the United States via motion pictures shown on a 360-degree screen. It's the same film, brought up to date, that was shown at the Brussels World Fair.

Scattered around among the trees on the exhibit grounds are the smaller, more specialized displays.

There are exhibits of farm equipment, architecture, photography, publications, fashions, television, automobiles. There's a voting machine where visitors can register their preference of exhibits.

There is even a model American house, where three families of Americans — one from the city, one from the suburbs and one from show business — will be on display four times a day for 30-minute periods.

★ ★ ★

The American exhibit differs from the Soviet show in New York in that personal features of life are stressed over scientific and industrial achievements.

Perhaps the best exhibits of American industry are the buildings themselves, the first such structures to be designed by an American architect in the Soviet Union.

The buildings were put up by Soviet workmen, toiling under the direction of American supervisors. The designs, plus American methods in carrying them out, apparently impressed the Russians as much as the exhibits.

★ ★ ★

And Americans were impressed by some of the Russian building methods, too.

Foundations for the exhibits were laid last March during the cold Russian winter. Engineers were concerned about breaking through the frosted ground and keeping cement from freezing.

The Russians solved the problem by bringing in a machine called a "chattering mimi," which, says architect Welton Beckett, "chewed up the ground as though it were alfalfa."

Then, to solve the concrete problem, they connected the iron reinforcing rods to an electric generator which heated the concrete like toast in an electric toaster.

"These are some cold weather construction methods that came from Siberia and prove that the Russians can teach us many new tricks," says Becket.

Small Loan Overhaul Passes State Senate

LANSING (UPI) — A major overhaul of Michigan's small loan law was approved by a 19-11 vote in the Senate yesterday.

The bill, one of the most controversial of the session, was whisked through the Senate without debate and sent to the House for concurrence in minor amendments.

The state AFL-CIO executive board asked Gov. G. Mennen Williams to veto the bill. Williams said he will "take a close look at it."

Under the bill, the present loan ceiling would be raised from $500 to $1,500. Interest would be cut on loans below $50 but double rates would be charged on unpaid balances betwen $300 and $500.

Life insurance would be issued to protect the loan, with the borrower paying the premium.

Supermarket to Raffle Church in Muskegon

MUSKEGON (UPI)—An unusual "lottery" will be held here Saturday when a supermarket chain raffles off a church.

Fred Meijer, executive vice president of Meijer Supermarkets, Inc., said at least eight congregations have indicated they will be represented at the "lottery."

The church, formerly occupied by Allen Ave. Christian Reformed Church, is on the site of a new supermarket the chain is building.

Meijer officials said the church is in good condition and they thought it was a shame to raze the building. So they offered to give it to any congregation that would remove the building from the property by Sept. 1.

Push-Button Telephones Now in Use

NEW YORK (AP) — You may punch a telephone number someday rather than dial it.

The Bell Telephone Laboratories say is being tried out on home and office phones in Hande, Conn., and Elgin, Ill. If it works out, it might be adopted generally.

The system consists of 10 buttons — three horizontal rows of three each with a zero-operator button at the bottom.

The new method is much faster.

Reports Profits Up

DETROIT (AP)—Wyandotte Chemical Corp. reports profits in the first half of the year were the third highest in history and sales increased 24 per cent over a year ago. Earnings totaled $1,995,000, equal to $1.22 a share. In 1958 first half profits were $463,000 or 14 cents a share.

The forget-me-not is the state flower of Alaska.

Wants Development of Atomic Airplanes

WASHINGTON (AP)— Maj. Gen. Donald J. Keirn, head of the nuclear aircraft development program, recommended today development of two new airplanes for flight tests with atomic-powered engines.

Keirn told the Senate-House atomic research and development subcommittee that "it is important to proceed with the development of two new aircraft having the general characteristics of the Convair proposed Model 54."

The Convair division of General Dynamics Corp. won an air force competition last fall for design of an aircraft meeting nuclear-power test requirements. Its design was designated Model 54.

Keirn, an air force officer, is director of the joint program of the defense department and the Atomic Energy Commission to develop nuclear propulsion for aircraft.

He said the two experimental planes his office has proposed would have the dual purpose of flight testing nuclear power plants and of serving as prototypes or experimental models of a Camal aircraft.

★ ★ ★

This was a reference to an air force proposed weapons system which would keep aloft at all times planes carrying missiles. Camal was derived from the name continuously airborne, missile launchings and low level penetration systems.

Dividend Declared

DETROIT (AP) — Burroughs Corp. declared a 25-cent dividend Wednesday, its 239th in an uninterrupted series of cash dividends over 64 years.

Weekend Togetherness Blasted

Youth Lose in Status Struggle

By PHYLLIS BATTELLE

NEW YORK — Evan Hunter, the young (32) author of a famous and frightening novel about delinquency, frustration and courage called "The Blackboard Jungle," was born in Harlem. He was poor.

He now lives, with his wife and three boys, in Pound Ridge, N. Y. He is well-to-do.

★ ★ ★

Safer, you would think. Green trees for his children instead of black leather. Grass blades instead of switch blades.

"You think so, yes," he said, "and you hope so. But the figures on juvenile delinquency have changed radically. All the statistics of all the federal bureaus show that kids in small towns—kids from so-called 'good families' in suburbia — their delinquency rate is rising twice as fast as the rate in the cities.

"Without trying to sound like a psychiatrist, I'd like to say that it's apparent that this frightening fact points out that, while there's a breaking-down of tight family units all over America, the breakdown is happening twice as fast in middle-class areas. In slum areas, like I used to live in, it was an economic problem when a kid got in trouble with the law, and it still is.

"Now the problem is something that's harder to sympathize with. Other pressures have come to bear — the desire for status, and the desperation to have a ball. Anytime you say anything like this, it sounds like a formula, and you get kidded about advocating the old 'togetherness' bit. But it's all true.

★ ★ ★

"Now that people have money and long for status, the family unit is falling apart, so the kids have to turn elsewhere—to a gang or a clique — for approval. The adults in the family see this, and they read books and articles about what's happening, and then they try to pursue their jobs as parents diligently over the weekends. Everything is together, together, together, ON WEEKENDS.

"I know fathers who work as hard at their togetherness schedule as they do at their jobs. People do work awfully hard, these days, psychologically. And I think kids can sense tensions and pressures more than anything else, And anxiety. Nothing transmits to a kid as readily as anxiety."

Hunter brushed a hand through his crew cut. It's a tough cycle, Everybody trying too hard. That's why he says, when asked how it feels to raise three young sons in the remote suburbs — "You always have to worry, don't you? It's you who make the kids, not the climate."

★ ★ ★

The prolific novelist, who writes under three pseudonyms besides his own name (Hunt Collins, Richard Marsten, Curt Cannon), has just sold his latest book, "A Matter of Conviction," to the movies. Of upwards of 20 novels, this is his sixth film sale.

He concedes that this gives him an advantage over most fathers: financial independence to work at home so that either he or his wife always are on hand when their offspring need someone to turn to.

But over-attention, he knows, is potentially as destructive to a child's ego as absentee parents, or split-shift togetherness.

So he remembers back to his youth in Harlem, and the depression days, when his father was an occasional mailman (he still is) and "everybody in the family pulled in their belts individually, and at the same time felt together.

"My kids don't have to pull in their belts. But what they do, they do individually, knowing there's a family behind them. We don't try to force ourselves on one another there's no 'let's go outside and cook some hotdogs, kiddies' attitude. We just try to treat each other with respect as individuals."

Commence Hunt for Oil Deposits Near Jackson

JASKSON (UPI)—A subsidiary of the Standard Oil Co. of New Jersey has begun a hunt for oil in Conway Township, Livingston County.

Richard Scharlach, field foreman for the Carter Oil Co. of Tulsa, Okla., which has offices here, said the exploration, using techniques never used before in Michigan, is yielding "gratifying results."

He said recent discoveries within a 50-mile radius of Jackson indicate still undiscovered oil deposits in the area.

The world's first Diesel-powered streamliner, the Pioneer Zephyr of the Chicago, Burlington and Quincy Railroad, has completed more than three million miles of service since its first trip in 1939. It now runs between Lincoln, Neb., and St. Joseph, Mo.

Doesn't Expect Shooting

Utah Governor Forecasts Economic War With Reds

NEW YORK (UPI)—Utah Gov. George D. Clyde said Wednesday that his three-week tour of the Soviet Union has convinced him that the Western nations face "a trade war and not a shooting war" with the Soviet Union.

★ ★ ★

Gov. Stephen L. R. McNichols of Colorado and John E. Davis of North Dakota, who arrived aboard the same plane from Europe, said that Soviet Premier Nikita Khrushchev believes that increased U.S.-Soviet trade could lead to better East-West relations.

Following their arrival, Gov. Clyde left immediately for Salt Lake City while the other two governors departed for Washington on state business.

The Utah Republican governor said:

"Trade and communications are the key to the whole thing, but I wouldn't say that increased trade with the Soviet Union was a good thing unless I knew the conditions for it.

★ ★ ★

"Communications must be improved, but we have got to trade on a free and open basis. We must remain adamant where our trade interests are involved. We can't accept the dictate of the Russians on trade matters."

Gov. Clyde added that Khrushchev and other top-level Soviet leaders "are harping on trade all the time, but on their terms."

"They want plastic plants, textile plants and plants for the manufacture of synthetics, but they only want them on a short-term basis because they feel they will be able ultimately to build them for themselves," he said.

Fire Prevention Week to Be Held in October

WASHINGTON (UPI)—President Eisenhower has proclaimed the week of Oct. 4 as Fire Prevention Week.

The president urged state and local governments and private organizations to promote programs for fire prevention. He said effective community programs could save thousands of lives and millions of dollars worth of property each year.

The Man Comes to Dinner

It's Rolled Roast for Mr. Hershey

By JANET ODELL
Pontiac Press Home Editor

That man is still coming to dinner. This time it's the Reverend Mr. Galen Hershey who is president of the Pontiac Pastors' Association. He enjoys eating and is joined by three young sons at breakfast and dinner time.

Any mother who feeds male appetites knows that it takes lots of food. Boys are hearty eaters. So are men. The favorite dinner in the Hershey house is a beef roast, cooked with potatoes and carrots. Baked stuffed potatoes are fine too.

The Hersheys have a freezer and put in a quarter of a beef at one time Mrs. Hershey has the roasts rolled.

Tossed salad is a favorite in this household as it is in so many others. With all the good summer vegetables on hand, this salad is particularly good.

The boys like any dessert. They love cherry cobbler. Mr. Hershey likes lemon meringue pie. Everyone likes maraschino cherry cake.

Here's Mrs. Hershey's recipe for that:

MARASCHINO CHERRY CAKE
By Mrs. Galen Hershey

2¼ cups sifted cake flour
3 teaspoons baking powder
½ teaspoon salt
1½ cups sugar
½ cup soft shortening
¼ cup maraschino cherry juice
16 maraschino cherries, cut into eighths
½ cup milk
4 egg whites
½ cup chopped nuts (optional)

Sift flour, baking powder, salt and sugar together. Add shortening, juice, cherries and milk. Beat in mixer about 2 minutes. Add egg whites, unbeaten, and beat another 2 minutes. Fold in nuts.

Pour into two 8-inch greased pans. Bake 30 minutes at 350 degrees. Frost as desired. A fluffy white frosting is nice on this cake.

ROASTS ARE BEST — Mrs. Galen Hershey feeds not only her husband, but three husky boys. All of them enjoy a roast meat for dinner. Carrots and potatoes are cooked right in with the meat. The Hersheys live on West Iroquois road.

Sherry Accents Dessert Spain Calls 'Cold Love'

The Spanish serve a delicious fruit mold which they call "Amor Frio", or "cold love." Made with an amontillado or oloroso type Spanish sherry, whipped cream and fresh fruit, this is a delectable summer dessert. First dissolve a 3-oz. package of lemon-flavored gelatin in one cup of boiling water, then add ¾ cup Spanish sherry and a pinch of nutmeg or cinnamon. Chill until the consistency of unbeaten egg white.

Meantime beat a cup of heavy cream until stiff, fold into slightly thickened gelatin with 2 cups of mixed fresh fruit which has been sugared to taste. Pour into mold, chill until very firm, about 2 hours.

DISCOVER THE DIFFERENCE WITH ROMAN BLEACH

WHITE-white or grey-white!! There's an amazing difference with Roman Bleach. This cleanser bleach dissolves clinging film which causes greyness — gets clothes WHITE-white.

40 FAVORITE BLEACH OF MILLIONS—CELEBRATING 40 YEARS OF WHITER, CLEANER WASHINGS.

Use Extra Egg Yolks in Marigold Cake

If you wonder how to use extra egg yolks, count on Marigold Cake to come to your rescue — and to please family and guests, too. Frosted with Butter Cream Frosting, this moist golden sponge cake is a tangy treat. Both the cake and frosting are orange-flavored.

Bake in a 10-inch tube pan, Marigold Cake will be a spectacular birthday offering. For summer birthdays, frost the cake, make a cone of aluminum foil and insert in the hole in the center of the cake. Fill with fresh garden flowers.

Marigold Cake

2 cups sifted enriched flour
2 teaspoons baking powder
¼ teaspoon salt
1 cup (about 12) egg yolks
½ cup orange juice
¼ cup hot water
2 tablespoons grated orange rind
1 teaspoon orange extract
1¼ cups sugar

Sift together flour, baking powder and salt. Beat egg yolks until thick and lemon colored. Add orange juice and water gradually to beaten egg yolks. Stir in rind and extract. Add sugar gradually, beating well after each addition.

Gently fold in flour mixture in four additions, blending well after each. Carefully turn batter into ungreased 10-inch tube pan.

Bake in slow oven (235 degrees) 60 to 65 minutes. Invert pan, cooling cake about 1 hour before removing from pan. Frost with Orange Butter Cream Frosting.

Orange Butter Cream Frosting

⅓ cup soft butter or margarine
1 egg yolk, unbeaten
4½ cups sifted confectioners' sugar (about)
¼ cup orange juice
1½ teaspoons lemon juice

Cream butter or margarine and egg yolk until soft and fluffy. Add sugar gradually, beating well. Combine juices; blend in amount necessary to make a spreading consistency. Makes enough frosting for one 10-inch cake.

Start With Basic Sauce to Make Gourmet Food

NEW YORK—Basic white sauce can be turned into a gourmet's delight with a variety of interesting ingredients. **SESAME:** add one tablespoon sesame seeds to melted butter before stirring in flour and milk; saute five minutes. **AMANDINE:** substitute three tablespoons finely chopped almonds for sesame seeds and saute until lightly browned. **CONFETTI:** add a tablespoon chopped parsley and two tablespoons chopped pimento just before serving.

DIVAN: stir one-fourth cup grated Parmesan cheese into the finished white sauce. **PENNSYLVANIA DUTCH:** use bacon drippings instead of butter to make sauce. Before serving, add three tablespoons crumbled cooked bacon.

Prized Trout Best Baked

One of America's prized fishes is the lake trout, caught in the cold waters of the northern tier of States, from Montana to New England, where this fish is known as the togue. The Great Lakes, of course, are the largest source of the lake trout, the biggest of all the trout family.

According to the National Fisheries Institute, more than a million pounds of this fish have been frozen and shipped far from the trout's natural habitat. Trout can be prepared in many ways, but to make the most of its delicate flavor, bake it and serve it garnished with vegetables.

Baked Trout With Vegetables

Plan a half a pound of fish for each serving. If trout is frozen, let it thaw on the refrigerator shelf, then clean and dress it. If trout is fresh, have your fish dealer dress it for you.

A "dressed fish" is a whole cleaned fish, with fins, scales and insides removed. Often the head and tail are removed also. Sprinkle the trout inside and out with salt and pepper. Brush with melted fat.

Place the fish on a large greased oven-proof platter. Bake the fish in a moderate oven, 400 degrees, until it flakes easily when tested with a fork. Allow approximately 12 to 15 minutes per pound cooking time. Brush the fish once or twice with melted fat while it is baking.

Prepare vegetables—preferably

Northern Lights Focus on Salad

This combination of salad ingredients is found in both the German and Scandinavian cuisine.

Luncheon Salad

1¼ cups diced cooked potatoes
1 can (8 ounces) julienne-style beets (drained)
½ cup diced herring fillets in spiced vinegar and wine
1 teaspoon capers
1 tablespoon minced fresh dill
½ cup commercial sour cream or sour cream substitute
Salad greens
2 hard-cooked eggs (sliced)
Cucumber

the potatoes, drained beets, herthe potatoes, drained beats, herring, capers, dill and sour cream. Arrange on salad greens; garnish with sliced eggs and cucumber. Serve at once. Makes 3 servings. We suggest mixing this salad just before serving to preserve the best color.

Ice cream angel roll . . . Slice a thin layer of bar angel food cake from your grocer's ready-to-eat cake department crosswise. Spread with a generous layer of softned ice cream. Roll up, forming a cake-ice cream roll. Place in freezer until ready to serve.

Wonderful topping for fruit salads, for baked apples, for hot gingerbread: Mix together a half cup flaked coconut, a cup of sour cream, 2 tablespoons of maple-blended syrup, about 1 tablespoon of mayonnaise and a dash of ground nutmeg. Yummy!

Extra Around Tuna Make It Feed More

Delicious first course!

Tuna Antipasto

1 can (7 ounces) tuna
2 tablespoons red wine vinegar
⅛ teaspoon salt, freshly-ground pepper
1 small clove garlic
¼ cup finely diced mild sweet onion
Salad greens
Pimientos
Green pepper
Sliced cucumber
Radishes
Hard-cooked egg quarters
Celery, olives

Drain oil from tuna into a small bowl — there should be about 3 tablespoons. Add vinegar, salt and pepper to taste; crush garlic and add with onion. Beat well with a fork.

Add drained tuna and mix lightly; arrange on salad greens on platter; add remaining ingredients. With the lavish number of ingredients included in this antipasto, we find this amount of the tuna mixture will make 8 servings.

Pork Supplies Increase, Blueberries Are Cheaper

Outside shipments of produce were slightly less this week, but more homegrown vegetables have begun to appear. The rains were welcome for lack of moisture threatened to cut Michigan produce supplies.

The number of hogs arriving for market has increased and wholesale prices have decreased slightly. Shoppers will find several smoked pork cuts on "special" this week. Little change is evident in either the supply or price of other red meats and poultry, except on those cuts being featured.

FRUITS — Michigan blueberries are on the increase, and prices are lowering. As supplies grow generous you might think of more ways to use them. At breakfast, blueberries fit as a dish of fruit, on cereal, in muffins or drop a few into your favorite pancake batter.

At lunch or dinner, blueberries add much to fruit cups or salads and top ice cream for an easy dessert. A half cup of blueberries totals only 43 calories and gives about one-fourth your day's quota of Vitamin C.

Watermelon, nectarines, plums and cantaloupe are in good supply and prices are correspondingly reasonable. The heaviest movement of seedless grapes is just beginning.

VEGETABLES — Michigan vegetables are beginning to move to market in greater volume. Recent rains will boost supply and quality of sweet corn, spinach, greens and lettuce.

Michigan celery is gaining better size and crop yields are expected to equal last year's banner production. Michigan potatoes are improving in maturity and quality. Costwise, they represent the best potato value. More homegrown tomatoes are available, but heavy production will come at the end of the month and early in August.

RED MEATS — The spring crop of pigs starting to market is helping increase pork supplies. Most retail prices on fresh cuts have continued about the same, but a wide variety of smoked cuts are being featured. Regular and canned hams, bacon, sausage, franks and luncheon meats are specially priced this week.

Beef supplies and prices show little change. Hamburger and frontquarter cuts such as chuck roasts and steaks are the thriftier choices. Some stores are using the top of the round for boned and rolled rotisserie roasts.

Lamb and veal prices remain about the same as they have been. Lamb shoulder at 55 to 73 cents a pound is an economical choice compared to many other red meats. It can be used for patties, a boned rolled roast for the barbecue spit, or for shish kabobs (that's meat on a skewer in modern language). Top quality veal is scarce, for many calves are going to feed lots to become beef.

POULTRY — Fryer prices have fluctuated considerably in the past few weeks, but the average prices this week range from 39 to 49 cents per pound. The heavier, meatier naturally command the higher price, and stores necessarily charge more for those cut into frying pieces.

The small size turkey might be a summer "regular" on the shopping list while prices remain at the current level of about 50 cents a pound.

FISH — Perch and whitefish represent the best values in fresh water fish. There is a sufficient amount of fresh and frozen ocean perch, cod and haddock.

EGGS & DAIRY — Large size eggs at 45 to 53 cents a dozen are 30 to 30½ cents per pound. Medium size eggs are 27 to 33 cents per pound; small eggs at 29 cents a dozen are 26 cents per pound.

Two-pound cheese loaves, cottage cheese and cream cheese are offered at special prices in many dairy cases this week.

OTHER — Many canned food sales represent excellent buys, for higher prices are beginning to appear on many of these products. Many packers ordered less acreage planted for the 1959 pack. The first of the new pack of red tart Michigan cherries is offered at lower prices, due to the fact that supplies are larger this year.

Molasses Helps Barbecue Limas

Molasses has many quick new flavor tricks to offer even though this sweetening has been on the American scene since colonial days. For example, a half and half blend of unsulphured molasses and prepared mustard (about ¼ cup each) gives a thick, shining glaze to baked ham. This glaze is applied the last 45 minutes of ham baking time, after the ham has been scored and studded with cloves.

Unsulphured molasses gives a spicy accent to canned peaches, apricots or pineapple, or a combination of all three, to be used as a garnish with the meat course. Molasses and mustard might also be used to give a barbecue sauce flavor to lima beans.

Barbecued Green Lima Beans

½ cup unsulphured molasses
¼ cup prepared mustard
1 cup chili sauce
2 tablespoons vinegar
2 teaspoons Worcestershire sauce
⅛ teaspoon Tabasco
4 cups cooked lima beans
1 medium onion, sliced

Mix together unsulphured molasses and mustard; stir in chili sauce. Add vinegar, Worcestershire sauce and Tabasco; mix well. Turn lima beans into skillet or saucepan; stir in sauce. Top with onion slices. Simmer until heated through, about 10 minutes. 8 servings.

Mint growing in the garden? Try adding a bit of it to cream of green pea soup.

Potato Pancakes Are Now a Cinch

Have you ever chopped and changed enough raw potatoes to serve hungry lovers of Potato Pancakes? This recipe might save a lot of homemaker effort.

1 envelope instant mashed potato
2 cups warm water
2 eggs, beaten
¾ teaspoon salt
¼ teaspoon French's onion powder
4 tablespoons flour
5 strips bacon cut in 2-inch lengths

Pour contents of envelope in bowl. Add warm water, mixing until smooth. Stir in eggs, salt, onion powder, and flour. Blend until smooth. Pour over partly Yield: 12 pancakes.

Save on Dishwashing

Sift your dry ingredients—flour, baking powder, salt, etc.—directly to a sheet of waxed paper. Use the paper instead of a bowl as your pouring utensil. The waxed paper is easier to handle . . . saves washing another dish!

TEXANS, TAKE NOTE — This 42-pound cabbage was grown in the Matanuska Valley in Alaska. Herb Hilscher of Anchorage and Barbara Havmeister hold it up to prove that the 49th state isn't a land of ice and snow alone. Barbara is queen of the Matanuska Valley Fair which is held each August at Palmer.

'Kats', 'Peanuts,' 'Mits' on Ballot in Hawaii

HONOLULU (AP) — Candidates of Japanese and Chinese ancestry running in Hawaii's first state election Tuesday seem to have a fondness for American nicknames.

Under Hawii law, a candidate's nickname may appear on the ballot.

The ballot shows these Japanese - Americans among political hopefuls for the State House of Representatives:

Democrats George (Scotty) Koga and Walter (Mits) Harada; Republicans Yoshiichi (Big Mice) Yoshida and Katsugo (Kats) Miho.

Republican Lawrence (Peanuts) Kunisha is running for the state Senate.

Among Chinese-Americans seeking office are Republican Wing Kong (Winkie) Chong for the state Senate and Democrat Frank W. C. (Honolulu Loo) Loo for the state House.

Trust Voting Machines

HAMBURG, N.Y. (UPI)—Mayor William A. Shoemaker, who was defeated by one vote after eight years in office, said he would not demand a recount because "the voting was by machine and the results are accurate."

First friction match was patented in Britain in 1826.

Rule Sheriffs Are Liable for Injuries to Prisoners

LANSING (AP) — Counties have no power to insure their sheriff against liability for injury to county prisoners doing work for the county, Atty. Gen. Paul L. Adams said Tuesday.

Adams, issuing an opinion to Prosecutor J. Franklin Huntley of Barry County, cited a section of the state constitution forbidding counties to be responsible for sheriffs' acts.

If county supervisors direct him, the sheriff is required by law to put county prisoners to work on repair of county properties and similar projects, the attorney general said.

But, he added, the county is not liable for injuries suffered by prisoners performing the work nor is it responsible under the workmen's compensation act for injuries or illness of prisoners since they are not county employes.

News From Men in the Service

Airman Apprentice Gary L. Merwin, son of Mr. and Mrs. W. L. Merwin of 115 Augusta Ave., is stationed at Widbey Island, Wash. with the U.S. Navy. A Pontiac Central High School graduate, he entered the service in February, 1959 and underwent basic training at San Diego, Calif. Before enlisting he was employed in the circulation department of The Pontiac Press.

Friendships Won't Go Up in Smoke . . . Abby

Is It Wrong to Refuse Ashtrays?

By ABIGAIL VAN BUREN

DEAR ABBY: My husband is a minister. Together we seek to maintain a home that will be a blessing to our children and an example of upright living for our neighbors and parishioners.

We are faced with a problem that may seem small to some people but is big to us.

ABBY

We have no ashtrays because we do not enjoy smoke in our home or lungs. We have certain friends who refuse to visit us because they know how we feel about smoking in our home.

Are we being unfair to make this simple request or not?

PASTOR'S WIFE

DEAR WIFE: It is not a "simple request" to a habitual smoker. Your lack of tolerance may occasion criticism from some of your smoking friends. I doubt if any of your really worthwhile friendships will go up in smoke.

★ ★ ★

DEAR ABBY: What do you think of a woman who sits herself in the front seat of the car next to her son and makes her daughter-in-law sit in the back by herself?

JUST WONDERING

DEAR JUST: A mother-in-law should not have to sit herself anywhere. A daughter-in-law, out of respect for her elders, should offer her mother-in-law, first choice of any seat in the car.

★ ★ ★

DEAR ABBY: My sister has three children, ages 5, 9 and 12. I hate to go to her house because she is constantly hitting them.

If one of the kids "looks guilty" she hauls off and hits them. When I ask her what he did, she says, "He LOOKED guilty." She doesn't even give the child a chance to explain anything. These poor kids are in tears most of the time.

I believe in punishing kids when they have it coming, but do you think a mother should hit a child because he "LOOKS GUILTY?"

(P.S. My sister claims she is being a good mother.)

DENA

DEAR DENA: A "good mother" punishes a child only for a very good reason. And she makes sure the child knows that reason. It is not unusual for children to harbor the bitter resentment of undeserved punishments long after they have reached maturity. (P.S. As a "mother" your sister would have made a fine geologist. She has rocks in her head.)

★ ★ ★

DEAR ABBY: My child is 13 years old. He is rather nervous and high strung, and we were advised not to upset him. Lately I have been finding things that I know do not belong to him. He has confiscated other children's property in the past, and we have quietly returned it without making a fuss. We are worried because he has more money lately than he can save from his allowance. There has never been anything like this in our family before, and we want to know how to handle it. Thank you for a printed reply. No names please, was we are well known in this town. MRS. NO NAME

DEAR MRS. N. N.: You do your son no favor by quietly returning objects "confiscated" by him without making a fuss. Stealing is a symptom of something which can be cured only with professional help. Get it at once.

★ ★ ★

For a personal reply, write to ABBY in care of this paper. Enclose a self-addressed, stamped envelope.

Invite Her to Home Just Once

By EMILY POST

Dear Mrs. Post: Is it very rude not to return the invitation of an acquaintance at least once? I went to her house just once but was convinced on that occasion that she and her friends, and I and mine had nothing in common. I'd really rather not encourage any more invitations.

"Mother says I must invite her at least once. If I do so, I will then find it more embarrassing to refuse her in case she should invite me again."

Answer: I agree with your mother, that you should invite her once. If after that you are still not attracted to her, it will not be necessary to see anything more of her. You can always refuse invitations politely by having "previous engagements."

"Dear Mrs. Post: When sending flowers to an anniversary couple who are giving a party in the evening at the club to mark the occasion, should these flowers be sent to the house, or to the club at which they are giving the party?"

Answer: Send your flowers to the house where the couple can enjoy them. If by any chance they would like to use the flowers as decoration for the dinner, they can take them to the club.

"Dear Mrs. Post: I live in a hotel and would like to know what is the correct amount to tip the maid who takes care of my room."

Answer: This depends on how expensive your hotel is and how well she takes care of your room. Five dollars a month is probably a fair tip under average conditions.

"Dear Mrs. Post: I would very much appreciate your opinion on the following matter which a group of friends and myself have been debating. In brief, is it proper at the end of a wedding reception for a guest to remove from the table and take home, such leftovers as liquor, cigarettes, flowers, etc.?"

Answer: Most emphatically not!

Beulah Hayward Wed in Methodist Ceremony

MRS. FLOYD H. ECKER

Vases of gladioli, pompons and palms banked the altar of Free Methodist Church Saturday evening for the wedding of Beulah Pauline Hayward and Floyd H. Ecker. The Rev. Karl Koerner of Flint and the Rev. L. H. Howison officiated at the candlelight ceremony before 400 guests.

★ ★ ★

Parents of the couple are Mr. and Mrs. Charles H. Hayward of Joslyn road and Mr. and Mrs. Robert R. Ecker of Flint.

The bride wore a floor-length gown of lace and nylon tulle accented the skirt. A tiara of pearls and sequins held her silk illusion veil, and she carried a cascading bouquet of pink and white roses.

SISTER TAKES PART

Virginia Hayward was her sister's maid of honor. Bridesmaids were Charlotte Hawkins and Martha Bowen, both of Bentley.

They wore ballerina-length dresses of powder blue organza trimmed with chiffon streamers, and tiaras with veils. They carried semi-cascade bouquets of white carnations and feathered carnations.

★ ★ ★

Flower girl Evelyn Hayward, another of the bride's sisters, wore a matching floor-length dress with a tiara and carried a basket of pink petals.

★ ★ ★

Robert W. Ecker, the bridegroom's brother was best man. Seating the guests were Joseph Ecker, another of the bridegroom's brothers; Charles Hayward, the bride's brother, Charles Hawkins, and Thomas McKay of Flint.

RECEPTION HELD

A reception was held at Roosevelt Temple. Before leaving for a honeymoon at Tawas Bay, the bride changed to a two-piece pink dress with embroidered jacket and white accessories. The couple will live in Flint, where the bridegroom is attending Flint Junior College.

★ ★ ★

Mrs. Hayward wore a blue dress with white accessories and Mrs. Ecker was dressed in a medium blue dress with white accessories. Both had corsages of pink roses.

Box for Treasures

Some gals collect cuff links. If you do, keep them in a small box aside from your other jewelry so that they don't become scratched. And if they're silver, they'll need polishing occasionally.

SHIRLEY HALYBURTON

Mr. and Mrs. William Halyburton of Highland avenue, Lake Orion, announce the engagement of their daughter, Shirley, to Ronald Lee LaFountaine, son of Mr. and Mrs. Ronald LaFountaine of Monticello avenue.

Bride-Elect Honored at Shower Here

Wilma Pfahlert, bride-elect of Gerald Curry, announced the attendants for her wedding August 15 at a bridal shower Wednesday evening. Joanne Healander was hostess for the affair which was held at the home of Mrs. Daniel G. McInnis on Edison street.

Josephine McIntosh will be maid of honor and Miss Healander, Mrs. William C. Pfahlert Jr. and Mrs. Barbara Moore will be bridesmaids.

★ ★ ★

Guests at the shower were Mrs. William C. Pfahlert, Mrs. Charles Curry, Mrs. George Miller, Mrs. Robert Bashaw, Mrs. Harold Lambert and Mrs. Harold R. Schingeck.

Others were Mrs. Moore, Mrs. Eugene Pfahlert, Mrs. Charles Curry Jr., Mrs. Arthur Neal, Mrs. William C. Pfahlert Jr. and Mrs. Samuel Healander.

★ ★ ★

Eleanor Larson, Josephine McIntosh, Ione Samuels, Helen Wesch, Mrs. McInnis and Mrs. William Connelly of Saginaw completed the guest list.

Club Welcomes 2 Newcomers

Members of the Newcomers' Club of Pontiac met Wednesday afternoon at the home of Mrs. Hugh J. Hales of Sylvan Shores.

Following a box luncheon, members in attendance enjoyed an afternoon of bridge. Two guests, Mrs. James C. Wood, a new resident of Pontiac, and Mrs. Andrew Habbick of Brooklyn, N.Y., were present for the affair.

Kind Sandals

Sandals are kind to your feet in hot weather. They provide the needed air-conditioning which you don't get from your closed shoes when temperatures soar.

Cooperative Gathering Is Planned

Mrs. Richard Benham opened her South Avery street home Tuesday to entertain Xi Alpha Nu chapter of Beta Sigma Phi.

★ ★ ★

Assisting Mrs. Benham for the picnic dinner were the outgoing officers, Mrs. William Cheal, Mrs. John Lewis, Mrs. Douglas Menzel and Marie McGill.

Plans were discussed for a cooperative picnic dinner and social to honor former member Betty Kruscha, visiting from Phoenix, Ariz., to be held Aug. 6 at the home of Mrs. Harvey Kerr of Coleman avenue.

★ ★ ★

Program and social schedules for the fall were outlined, and Mrs. Kerr, the president, announced that the state convention would be held Oct. 23-25 in Lansing.

Farewell Party Sunday to Fete David Burrell

On Sunday Janet Evans, daughter of Mr. and Mrs. Robert L. Evans of Lakeland avenue, will entertain at a farewell patio party honoring an Australian student, David Burrell of Melbourne. Mr. Burrell who recently was graduated from the General Motors Institute at Flint, will leave in August.

Guests invited to the gathering are Marjorie Baker, Brooks Robertson, Mr. and Mrs. Richard Kistner, Mr. and Mrs. Thomas Atkinson, John Rogers, and Mr. and Mrs. Robert Rickard.

Others are Mr. and Mrs. Jerry Barnfather, Jerry Guinan, Mr. and Mrs. Charles Scribner, Joan Wilson, the Rev. and Mrs. David Mills, and Mr. and Mrs. Don Weston.

Elegant Poplin

For a feeling of elegance, add a rich, smooth, pure silk poplin to your wardrobe, when you feel the budget can stand it.

Arranger Important Person

Puzzle of Weddings Solved – Almost

By WARD CANNEL

NEW YORK — (NEA)—The last hiccup dies. The last cufflink is closed. The last present is opened. And now, finally, the aisle yawns deep and treacherous ahead. For it is wedding time once again throughout the U.S.

★ ★ ★

And so, in the interests of happier marriages, here are the answers by experts to the most frequently asked questions about American weddings.

Q. Are bridegrooms always nervous before the ceremony?

A. According to Robert Howard, a professional who has arranged more than 25,000 weddings . . .

Q. Just a minute, what kind of a job is that for a grown man?

A. Very important. In our society, sociologists tell us, getting married is almost equal in importance with being born and dying. A wedding arranger ranks with the obstetrician and the . . .

★ ★ ★

Q. Aren't the bride and her mother supposed to go to a lot of weddings so they can criticize them afterward and know what to do?

A. Yes. But it is expected that properly-bred females will cry at weddings—which makes it very hard to remember all the details.

Q. Well, couldn't they just figure out a simple little wedding and be content with that?

A. Oh, large weddings are for the groom's benefit, not the bride's. Take a 200-guest wedding, for example. The wedding department at New York's Hotel Edison tells me this wedding will require the services of at least 75 people for food, drink and decor, not to mention the band, electricians and so forth. With all that employment at stake, what groom could possible back out?

★ ★ ★

Q. O.K. If you look at it that way, you need an arranger. But how come so many weddings are late?

A. According to arranger Howard, some weddings are late because the bride's father has not yet come across with the dowry.

Q. But almost every wedding is late.

A. Yes. And it's not as easy as it sounds. Only an experienced arranger has the sixth sense to tell him what kind of people are being married and just how late the wedding should be.

Q. Is it that hard?

A. Certainly. According to social reporter Vance Packard in his book "The Status Seekers," the middle class is socially meticulous and often demands rigid adherence to manners. This means pacing every distance in order to get split-second tardiness. The upper class, however, is more secure and therefore more relaxed. They will usually settle for something haphazard, like a lost marriage license.

Q. Then it's not true that marriages are made in heaven?

A. Only the bad ones. The good ones are arranged.

★ ★ ★

Q. Then how come we need marriage licenses?

A. According to the Department of Health, Education and Welfare, licensing is a convenient way to collect marriage statistics. For example, by counting licenses, we know there were 1,229,784 marriages in 1923.

Q. Well, how are we doing?

A. Wonderfully well. We now have more statistics than married people.

Q. Then why don't the prices come down?

A. They do. It is already possible to get a marriage license free of charge in Puerto Rico.

The Gibson Girl shirt is coming back this year with a few added features. Sleeves are modified and this lace trimmed shirt is of drip-dry broadcloth. P.S. The black bow may be exchanged for a tailored pin.

Choose Muted and Vivid Tints

Colors Clue to Your Mood

"The colors a woman wears can be as much a clue to her personality as the most revealing confidence she can tell you!" So says Dorothy O'Hara, one of California's leading designers, who has won an international reputation as creator of totally feminine designs.

While certain colors have always had a special meaning — green for envy, red for anger and blue for . . . well, blues—they have their own significance when it comes to fashion.

★ ★ ★

For example, more brilliant shades are generally worn by women with a cheerful, outgoing personality—women who look the world in the eyes and like what they see—while women who prefer more muted tones are usually more reserved, according to the designer who's been called the "Sculptress in Fabric."

Of course, since most women are a combination of both extremes — sometimes retiring — the fashionable wardrobe will consist of both quiet and vibrant hues, to allow a woman to reach for the tint or tone that will best express her mood for the moment.

★ ★ ★

But while vivid color can express cheer and confidence, an over-abundance can express nothing more than bad taste, Miss O'Hara is quick to point out. For example, while one brilliant shade in an overall ensemble suggests optimism, careless choice of accessories can cause unpleasant clashes and discordant contrasts.

On the other hand, if the basic costume is neutral, the bright color accent should be confined to no more than one or two matched accessories, or else a woman might begin to look more like a kaleidescope than a fashion plate.

Fete Rev. Davis at Birthday Party

The Rev. E. H. Davis was honored at a surprise birthday party July 17 during an open house at his Mann road home.

Some 58 members from Clintonville Church of the Nazarene, where he is the pastor, were present for the affair. Members of the church gave the surprise party.

Out-of-town guests attended from Kalamazoo, Detroit, Bay City and Garden City.

Plans to Marry

Mr. and Mrs. Julius Zatik of Rustic Lane, Keego Harbor, are announcing the engagement of their daughter, Janet Carol, to Willis J. Swenson, son of Mr. and Mrs. Willie M. Swenson of Desiax road. A Sept. 12 wedding is planned by the couple.

Pontiac Press Photo

The Rev. and Mrs. Paul M. Hanselman, missionaries to the Belgian Congo, and their children, from left, Peter Douglas, Nancy Jane, Lois Jean and Paul Jr. are home from their work among the natives for a year's furlough. They are staying with Mrs. Hanselman's parents, Dr. and and Mrs. Isaac C. Prevette of Mary Day avenue.

Change Shoes

Take Foot Tip From Guides

By JOSEPHINE LOWMAN

On Saturday, July 25th, the American National Exhibition will open in the Soviet capital for a six-week run. Twenty-eight young Russian-speaking Americans are in Moscow to serve as guides. These young women are there on a task for the State Department. They will have to be on their toes as unofficial United States Ambassadors behind the iron curtain. They also will have to be literally on their feet for hours at a time.

As Ambassadors the girls will have to keep their best feet forward in order to make the best possible impression on the 5,000,000 Russians who are expected to visit the fair. Their job will be to explain and answer questions about the many exhibits which show how the Americans live, what they wear and what they are accomplishing in science, industry and the arts.

As guides the girls will have to be on their feet all day, every day for six weeks. To offset foot fatigue and strain which this heroic job might cause, they have been furnished with a wardrobe of shoes calculated to keep them comfortable. They've also been coached in elementary foot care.

Since many career women and housewives, also, spend hours on their feet, I thought they might be interested to know with what kind of a shoe wardrobe these young women were supplied, and also to learn some of the instructions they were given.

The shoe supply consists of a pair of black flats in soft-brushed leather, a deep red wedge in smooth leather, a mid-heel walking pump in black, smooth leather and a dressy pump in smooth leather with a pointed toe.

All of the shoes are of leather construction, as advised by a foot specialist. The girls require the porosity of the leather soles to keep perspiration from gathering and causing irritation. The soft but sturdy uppers will bend and flex as they walk, yet hold their shape and give the feet firm support.

Here is some of the advcie given to the guides by the foot experts.

1. Change your shoes once, and preferably twice, a day.

2. Give your feet a special bath every day. Use a hand shower, spraying three minutes with hot water and then three minutes with cold, alternating for 10 minutes. End with the cold spray.

3. Cut the toenails straight across, not too short or rounded at the corners. Do not attempt amateur surgery or treatment on corns or calluses. See a foot doctor.

4. Limber the foot muscles with simple exercises such as curling and uncurling the toes, with the shoes on or off. Sit on the edge of your bed and stretch your legs and flex your feet up and down as far as you can.

We all can use profitably some of the advice given to the young unofficial American Ambassadors who are in Moscow this summer.

★ ★ ★

Tomorrow: "Yes, You Can Avoid That 'Hard Look' About Brows."

You should change shoes once, and preferably twice a day.

Get Bored in Kitchen? Fly Away, Advises Pilot

SPOKANE, Wash. (AP)—"Women would probably feel a lot more relaxed if they got out of the kitchen once in awhile and up into the air."

That's the opinion of Aileen Saunders, pretty pilot winner of the 1959 Powder Puff Derby — the transcontinental air race for women.

★ ★ ★

"Flying gets to be second nature after awhile, like sweeping the floors or pinning baby's diaper," remarked the three-time derby veteran. "But even so it's a big thrill to be up there, always invigorating.

"I guess winning this race makes me about the happiest woman in the world. I'm just thrilled to death."

Mrs. Saunders, wife of a California building contractor, flew the 2,470 mile race in a Cessna 142 owned by her husband. She credits him for her victory.

★ ★ ★

"If it weren't for Walter (hubby) I probably wouldn't even know how to fly. I used to accompany him on business trips, finally four years ago he let me take the controls and now says I'm a better flyer than he is. He's only trying to tease me though."

Some 120 pilots and copilots flew the 13th annual derby in ships ranging from 85 to 300 horsepower.

"Naturally most contestants can't afford to pay for all that gasoline and some have to rent planes," she said. "That's why we consider ourselves lucky to get a sponsor. Some husbands act as sponsors."

A West Coast equipment company footed Mrs. Saunders' gas bill and other incidental expenses. First prize money totaled $1,300. Winners were announced Thursday.

Mrs. Saunders who is 32, got married at 16. "Now I'm teaching my 15-year-old son to fly."

★ ★ ★

Derby officials said the Saunders' 145 h.p. ship flew at an average of 111.53 miles per hour. Placement ratings were computed on a handicap basis with capability and elapsed flying time taken into account.

Think Cool and You Will Be Cool

Try the mind over matter theory when the sun reaches its zenith. If you repeatedly tell yourself how hot you are, you only draw attention to it. Dress properly, eat light foods and save heavy work for the cooler hours of the day.

Pageant of Hemlines Steals Florence Preview

By SUE CARDOZO

FLORENCE (AP) — Capucci dropped double hems Wednesday night and all but ran away with the Florence showing of fall and winter fashions.

The young couturier's collection had a big impact on the buyers and fashions writers who have spent the past three days watching the newest Italian fashions in the historic old Pitti Palace. The showings end today with a late afternoon program.

★ ★ ★

His styles had an over-all look which seemed to hit closest to what Italian designers have been trying to achieve.

Capucci's collection is a pageant of hemlines, consistently low. Nearly every costume has two: one on the skirt, another on a jacket or a nine-tenths length coat.

★ ★ ★

The distance between the hems is either several inches, or from the top of the thigh to below the knee. Floor-length gowns are worn with knee-length satin smocks.

The Capucci line is straight — strictly vertical — with elongated tunics or stretched out middies spanning the torso. Sometimes the tunics or tubed skirts are threaded with six-inch belts, but most of the time the waist is a wasteland and tunics a waistless sheath.

★ ★ ★

Some jackets have giant collars and lapels left ajar. But most necklines are cropped and adorned with chokers or chunky jeweled bubbles.

Sleeves end below the elbow, accompanied by long matching gloves, even by day.

The main motif is dramatically interpreted for evening in three white satin nine-tenth length coats worn over black velvet sheaths.

★ ★ ★

The latest wigs by Filippo of Rome were shown with the Capucci collection. The flattened out form indicated Italian hair stylists will probably deflate the currently fashionable puffed out coiffure.

One of America's favorites, Simonetta, softened her basic sheaths with flounces, fringes and clouds of flowing veil. Belts threaded casual and cocktail dresses. Side folds flowed from the waist. For evening, volume was drawn to the rear. Black was the favorite color. Coats were mostly collarless and belted, with rounded shoulders.

Slamming doors loosens joints and operating parts and hastens the need for repair bills.

Make light of warm weather in this stem sheath — a step-in with smart, scalloped buttoning. Marvelous on short, fuller figures — you look so SLIM! Tomorrow's pattern, Misses' dress.

Printed Pattern 4531: Half Sizes 14½, 16½, 18½, 20½, 22½, 24½. Size 16½ takes 3⅜ yards 35-inch fabric.

Printed directions on each pattern part. Easier, accurate.

Send fifty cents in coins for this pattern — add 10 cents for each pattern for 1st-class mailing. Send to Anne Adams, care of The Pontiac Press, 137 Pattern Dept., 243 West 17th St., New York 11, N. Y. Print plainly name, address with zone, size and style number.

Mrs. Pike Opens Home to Meeting

Mrs. Martie Pike opened her home on Silver Hill road Tuesday evening to members of the Lydia Circle of First Christian Church for their monthly meeting.

Participating in the program were Mrs. John Radenbaugh, Mrs. C. S. Baker, Mrs. Denzil Flowers, Mrs. Vane Bolser, Mrs. David Collison, and Mrs. Pike.

Ever melt chocolate-rum wafers and swirl them through vanilla ice cream?

Hover Between Satellites and Black Cats

Teenagers Get Superstitions From Parents

By EUGENE GILBERT

Today's teenagers avoid ladders and black cats and knock on wood just like Mom and Dad, and blame their parents for it.

We asked 671 members of the teen generation across the country point-blank; "Are you superstitious?"

Three in 10 answered point-blank, "Yes."

Thirty-six per cent hedged a little, saying they are only wary of some things. Thirty per cent said never, while 4 per cent didn't answer.

And 70 per cent of the youngsters said their friends are at least partly superstitious. Obviously this answer reflects a deep underlying layer of superstition in the population at large.

"When you live in a house like I do, where my mother is always throwing salt over her shoulder and things like that, you can't help but be superstitious," says 13-year-old Gail Greenberg of Elkins Park, Pa.

★ ★ ★

Kathy Gibbs, 14, of Duluth, Minn., says her superstitions come from "my father and his Irish stories."

There are other reasons too.

"Sometimes things just seem to happen at the right time," says 15-year-old Patti Peereboom of Hoosick Fall, N.Y. And 14-year- old Jerry Gorinsky of Brooklyn says he was "born that way."

Among youngsters who blame their parents, most point a finger at mother. Fifty-four per cent of the teenagers said their mothers are superstitious but only 24 per cent said father is.

Getting down to superstitions:

About half of the young people say they do not walk under ladders, almost twice as many girls as boys prefering to walk around them.

'It would be just my luck to get hit on the head," says 15-year-old Mary Kadish of Bloomfield, Conn.

★ ★ ★

Scott Bradford, 17, of Exeter, N. H., is not one to avoid a ladder, but it isn't because he's fearless. "I'm too lazy to be safe," says he.

Almost half of the youngsters—the girls again outnumbering the boys almost two to one—say they are wary of Fridays the 13th.

"Something always happens without fail," says Linda Whycoff, 17, of Boston.

But Guy Darst, 18, of Harlan, Ky., feels such fear is immature and John Conway says he doesn't fear Friday the 13th 'because Friday the 26th isn't twice as unlucky."

Black cats that cross the paths of teenagers are avoided by only 45 per cent of them.

Annette Kyte, 16, of Coffeyville, Kan., says she walks around them, but doesn't know why.

★ ★ ★

Tom Greenspon, 17, of Charleston, W. Va., says he doesn't avoid a black cat "unless it has a white sctripe down it's back."

Some of the teenagers have other pet superstitions.

Patti Peereboom says her lucky days are Wednesdays and the day after she washes her hair. She also has a sweater she considers lucky.

'If you drop a comb, step on it and quickly pick it up — it brings good luck,' says Jacqueline Smith, 16, of Hartford, Conn.

"Wish on a hay truck, but don't look back at it or it won't come true," says Sandra A. Wibster, 15, of Hallowell, Maine.

Sports-minded Pat Coinkshank, 14, of Duluth, Minn., believes "the third goal always wins in hockey."

★ ★ ★

Mom, the youngsters say, does a lot of knocking on wood and is a big believer that tragedies happen in threes. She also stays out of the way of black cats and ladders.

★ ★ ★

Dad is particularly wary about opening an umbrella inside the house.

Have You Tried This?

Glorify Whole Baked Fish With Tangy Sauce

By JANET ODELL
Pontiac Press Home Editor

When your fisherman husband next brings home a nice large fish, cook it in a special way that befits its importance. Serve it with a sauce suggested by Mrs. Robert Searles of Franklin.

★ ★ ★

Mrs. Searles comes from Seattle where ocean fish is an important part of the diet. She is secretary of the Franklin Women Bowlers' League. In her spare time she enjoys handwork; she is refinishing a beautiful cherry table.

FISH SAUCE

By Mrs. Robert Searles

Chop onions fine and spread over a whole fish that has been prepared for baking. Bake until almost tender. Remove ½ cup drippings from the pan to use in the sauce recipe.

3 tablespoons butter or margarine
3 tablespoons flour
1 cup milk
½ cup fish drippings

Make a white sauce by blending butter or margarine with flour and adding milk. Add fish drippings.

Mix:

4 tablespoons catsup
½ cup tomatoes, tomato soup OR tomato sauce
Bit of green pepper and celery, chopped fine
½ cup mayonnaise

Add above mixture to white sauce. Blend well and spread over fish. Return to oven for 10 minutes. Serve at once.

Comfort is the thing in these fall shoes. Flexible throughout — including the soles — they come in a wide variety of leathers and colors. May be purchased locally.

Posture Makes Teen Swan or Ugly Duckling

The teenager who is self-conscious about her height is probably the one who's always wondering why her best friend looks so much better dressed.

They buy their clothes together (and almost alike), they are about the same height, weight and age. Yet the best friend's clothes always look neat, smooth and pretty. She can do a lot with accessories, true, but is that the whole answer?

Well, no, it isn't. For the truth is, the second gal isn't afraid to stand up straight. She doesn't droop like a hothouse rose in the summer sun. She doesn't let her head hang or her middle slump or her knees jut out.

The first teenager does all of these things and can't figure out why the blouse-and-skirt outfit that looks so great on her girl friend looks like a potato sack on her.

Posture, that's why. Just a simple matter of standing up straight has turned many an ugly duckling into a swan.

More than two-thirds of America's farmers maintain dairy cows.

Great Britain imports about 60 per cent of its total supply of food.

Diane Needle Honored

Diane Mary Needle, bride-elect of Virgil Roberts Jr., was honored at a miscellaneous bridal shower Wednesday evening. Mrs. Albert Ezell was hostess for the affair at her home on Lawrence street, Drayton Plains.

Miss Needle, the daughter of Mrs. Francis Needle of North Anderson street and the late Dr. Needle, will marry Mr. Roberts, whose parents are Mr. and Mrs. Virgil D. Roberts of Oakland avenue, on Aug. 8 at St. Vincent de Paul Catholic Church.

★ ★ ★

On the guest list were Mrs. Needle, Mrs. Roberts, Donna Needle, sister of the bride-elect, Mrs. Robert Borst, Mrs. R. A. White, Mrs. Delbert Cooper, Mrs. James Sheehan, Mrs. William O'Grady and Mrs. Cora Johnson.

Others were Mrs. Charles Sofko, Mrs. Ivan Pierce, Mrs. Matthew Gill, Mrs. Harry Gesen, Mrs. Alma Brodeur, Mrs. Marie Rickner and Mary Johnson.

New Look Beads

Crystal beads and fresh water pearls are being done in an oval shape this season. Lends a different look to a necklace.

Direct Steals From Men

'His' Hats Have Become 'Hers'

By MARY PRIME

NEW YORK (UPI) — What's "his" in hats now is "hers."

★ ★ ★

The new crop of women's hats includes direct steals from the men — the derby, bowler, homburg and fedora.

Slouch and swagger hats are mannish. There even are Cossack hats and chechias—adaptations of the cylindrical Arab cap worn by Russian peasants and shown in fall collections in high, soft shapes in fur.

Many collections include shapkas—a Russian term for a man's cap or hat, which covers a variety of shapes, including the cossack.

FEMININE DETAILS

The mannish styles stress feminine details — soft, supple crowns, varied brim treatments, jewels, furs and veils. There are fedoras with floppy, eye-shadowing brims and slouches, high-crowned cloches and swagger hats with a Garbo look.

These styles go with tie-belted wrap coats, coachmen's coats and the longer belted jackets of suits and dress-and-jacket costumes.

Fur is more important than ever. Mink heads the list, but there also are long-haired furs like lynx and fox.

★ ★ ★

Colored nutria, leopard, broadtail, Persian lamb, chinchilla, sable, hair seal, badger, hamster, fisher and river otter also are popular.

The fur look is so prominent that moderate-priced manufacturers have turned to fox and mink for small hats.

Fabrics are made to look like fur, such as brushed felt simulating mink, seal - like velours and napped beaver materials. Even feathers are clipped and shaped to look like fur.

SILOUETTES IN FUR

Nearly all silhouettes are shown in fur. Walter Florell did a group of mink shapkas.

One slouch hat, which Florell called a "Bachlorette," came in cerulean and white mink, faced with pearl grey felt and banded with white mink.

There was so much fur shown in milliner Irene's collection that a spectator remarked, "Why it's a pet shop!"

★ ★ ★

Because of the extreme shapes and extensive use of fur, trimming is simple — grosgrain or satin bands, feathers, veils and tiny jeweled pins which add a feminine touch to mannish hats and highlight tall toques, checias and turbans.

Veils range from cage types to "shadow veils" shown by Mr. John. They extend to the shoulder and fill in necklines of collarless suits and coats.

Colors are soft and misty — beiges, white, taupe, grey, violet, blue, turquoise and pink. Two and three colors often are combined.

From his fall and winter 1959 collection comes this hat by Walter Florell. The "garcon" silhouette in pale ombre panne complements casual fall clothes.

Most late-day and evening hats are feminine, small and generously sprinkled with jewels.

Silhouettes include snoods, berets, peaked caps, pill boxes, tulle domes and head-hugging cloches. Also for evening are velvet bands with sprays of flowers or feathers that stick straight up.

Fabrics are lush — metallic brocades, velvet, silk jacquards, satin and silk faille.

It's Granddaughter for Judge Adams

Mr. and Mrs. Vernon C. Burris of Sylvester street, Drayton Plains (nee Dorothy Adams) announce the birth of a daughter, Janet Marie, Tuesday at Pontiac General Hospital.

Grandparents are Circuit Judge and Mrs. Clark J. Adams of West Walton boulevard and Mr. and Mrs. Fred N. Burris of South Tasmania street.

Party Honors Mrs. Steele, Former Pontiac Teacher

Mrs. Frances C. Steele of Glendale, Calif., was honor guest at a porch party Wednesday evening at the home of Mrs. William C. Kampe of Chesterfield road, Birmingham.

A former teacher in the Pontiac Public School System, she is visiting her sister, Mrs. John H. Rawley of Elizabeth Lake road, and other relatives.

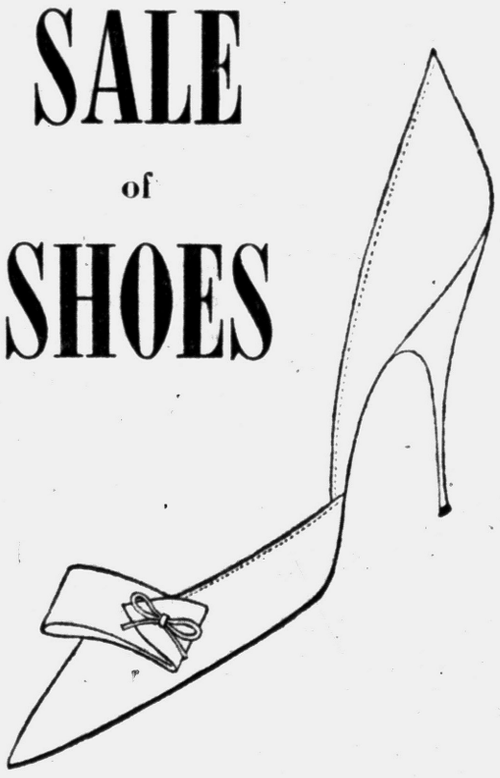

Guests included Mrs. Glenn E. Williams, Mrs. Raymond V. Blevins, Mrs. W. F. Maybury, Mrs. Everett C. Russell, Mrs. Floyd E. Crawford, Mrs. Ralph D. Carr and Mrs. Vern Warden.

Others were Mrs. B. G. Ogden, Mrs. Benjamin D. Church, Mrs. Don Derragon, Mrs. R. R. Anglemier, Mrs. Harold A. Faust of Detroit, Mrs. Clyde E. DeMund of Royal Oak and Mrs. Robert Alspaugh of Walpole Island and Florida.

Mrs. Steele is a member of the staff of the YWCA at Glendale.

Walled Lake Eyes Zoning for Convalescent Home

WALLED LAKE—The City Council is considering a request to change the zoning at Pontiac trail and West road so that a convalescent home can be built there.

The property sought for the home is partly in the city, which had previously designated its area for single-family dwellings, and partly in Novi Township.

In other matters regarding zoning, City Attorney Albert Herzog has expressed the opinion that they should be referred to the City Planning Commission to make recommendations for council action.

After hearing a progress report on work being done in the Decker Heights Subdivision, the Council has decided to leave the bond of Kahner Development Co. at $4,500 until the street paving, sidewalks and other work is completed.

Bids will be opened at 8 p.m. Aug. 4 for removal of garbage and refuge from the city. Bidders are being asked to figure for a two-year period and also to submit an alternate bid including a general trash pickup once a month in addition to the regular weekly collection.

The council is asking for more information from Milford Township regarding the establishment of a dump "somewhere" near Milford road which might be available to city residents if the city contributes to the cost.

The Council has regretfully accepted the resignation of Arnold W. Marens as councilman. A replacement will be considered when the council meets next on Aug. 4. Marens' letter gave no reason for his resignation.

At its next meeting, the Council expects to adopt rules for operation of the Walled Lake Cemetery, as the title should be cleared or transferred at that time, according to Herzog.

★ ★ ★

Justice of the Peace Herman Roth has protested to the City Council that the justice should be allowed to collect fees rather than be put on a salary, as the council has proposed.

★ ★ ★

Sometime ago, the Council passed an ordinance setting the salary at $1,800 per year, effective when Roth's present term expires on July 4, 1960.

Roth was informed by the Council that the ordinance was passed after due consideration of all the facts and that it would go into effect as scheduled.

Holstein Show Is Family Affair

Leonard Man Pulled From Bunny Run Dam

ORION TOWNSHIP — A 25-year-old Leonard man, Fred Fink, was pulled from Bunny Run Dam off Miller road last night when a Lake Orion man heard Fink's two companions frantically screaming for help.

Fink was revived by artificial respiration.

The rescuer, Murray Coleman, 88 McGregor St., dove in after the drowning man when he heard Lawrence Franks and his son, Donald, of 58 Grampion St., calling for aid.

A witness, Mrs. Priscilla Martin of Detroit, told Oakland County sheriff's deputies the Franks and Fink had gone into the water shortly after dinner.

The Franks teased Fink into attempting to swim to an old boat "a considerable distance away," she told deputies.

Fink apparently tired and went under. Donald dove in after him but could not hang on to the swimmer.

Coleman heard the screams and plunged in after Fink.

Fink was given artificial respiration by his companions and treated by a Lake Orion inhalator squad.

Rochester Tax Set for Schools

Board of Education Pegs 1959-60 Figure at 22.53 Mills

ROCHESTER — The Board of Education of Rochester Community Schools last night set the tax rate for the 1959-60 school year.

★ ★ ★

The total millage of 22.53 will include 15.03 mills for operation, 4.50 for the 1954 bond issue and 1.50 mills each for the 1955 and 1957 issues.

In other action, the Board approved construction of a public address booth and refreshment stand at the athletic field. Cost will be approximately $1,000.

Supt. of Schools Donald C. Baldwin was given the go-ahead by the Board to proceed with his investigation of candidates for the new job of administrative assistant for the assistant superintendent.

The chief duty of such an assistant would be to supervise the building construction and current maintenance program.

An approximate salary of $7,000 would be required, Baldwin said in his recommendation.

The Board further authorized the administration to study plans for the new University Hills Subdivision on Avon road at Old Perch road to see if a school site will be needed there.

Baldwin was instructed to report his findings within 30 days.

The superintendent reported that six teachers remained to be hired for next year. Among those needed are visiting and special education teachers.

BIG WINNERS — Stuart J. Hutchins, second from left, accepts the trophy awarded yesterday for having the grand champion Holstein cow in the Black and White Show held at the 4-H Fairgrounds in Pontiac Township. Making the presentation is Lee Hunt, farm manager of Devon Acres, which donated the trophy. Other winners in the show were Hutchins' wife Susan, shown with her first place four-year-old "Dina"; and his brother, Billy, 16, with his first-place winning aged cow, "Ginger." Pontiac Press Photos

Hutchins Clan Outdoes Itself

Father, Wife, Brother Top 7 of 20 Classes in Oakland Competition

The Oakland County Black and White Show of Holstein dairy cattle yesterday turned out to be a family affair.

The three-year-old Holstein cow, Nina, raised by Stuart J. Hutchins, of 2071 John R Rd., Avon Township, won the grand champion trophy at the show.

The same cow was also picked senior champion of the show held at the 4-H Fair Grounds on M24 in Pontiac Township.

Not only did Stuart's Holstein win honors, but his wife Susan's four-year-old cow was first place winner in that class.

Young Billy Hutchins, 16, Stuart's brother, entered the cow which was given the first place ribbon in the aged cow class.

The Hutchins family copped top honors in seven of the 20 classes.

44 ENTRIES

There were 44 animals, representing seven herds, entered in the show. Judge was O. F. Foster of Rochester, former manager of Lakefield Farms.

Ribbons were awarded by the Holstein-Friesian Assn. of America represented by Russell Miller of Williamston.

Larry Middleton of Oakland Township and Janet Long of Commerce Township tied for first prize in the showmanship class, senior division (for 14-year-olds and above).

Tied as showmanship winners in the junior division (under 14 years) were Tommy and Carol Middleton.

The Middleton children's parents are the Keith Middletons, of 2610 Stoney Creek Rd., Oakland Township.

Douglas Long's heifer calf was junior champion of the show. Doug and Janet are the children of Mr. and Mrs. Carlos Long, of 3988 Sleeth Rd., Comerce Township.

Other show winners were cows owned by Ronald Brown of Addison Township, Morris Place of Avon Township and Linda Bulman of Northville.

The show was co-sponsored by the county cooperative extension service of Michigan State University and the U. S. Department of Agriculture.

RAISE PRIZE CALVES — Among the winners in the heifer classes of yesterday's Black and White Show in Pontiac Township were calves owned by Janet Long, 18, left, and her brother, Douglas, 14, far right. Another winner was the heifer raised by Bill Middleton, 19, son of Mr. and Mrs. Keith Middleton, of 2610 Stoney Creek Rd., Oakland Township. Janet and Doug are the children of Mr. and Mrs. Carlos Long, of 3988 Sleeth Rd., Commerce Township.

Carl Buechler Heads Oxford School Board

OXFORD—The Board of Education of the Oxford Area Community Schools held its organizational meeting last night and elected Carl F. Buechler to his third term as president.

Wayne McMeans was named to his second term as secretary, and newly-elected Board member, Ted Pearson Jr., was elected treasurer for the 1959-60 school year.

Exchange Students Visit Ike After Leaving County

Six foreign exchange students, who spent the past year with families in Oakland County were greeted by President Eisenhower and visited with Congressman William S. Broomfield (R-Oakland County) in the nation's capital earlier this week.

The students are Christine Zinnert of Germany, who stayed with Mr. and Mrs. Donald H. Stark, 608 Maple St., Holly, and attended Holly High School; Margareta Englund of Sweden, a visitor with Mr. and Mrs. Dennis Soja, 671 Sweetbriar Rd., Milford, while going to Milford High, and Jacqueline Baron of France, a guest of Dr. and Mrs. L. Jerome Fink, 9 Ottawa Dr., Pontiac while attending Pontiac Central High.

★ ★ ★

The others were Renato Meyer of Argentina, who stayed with Mr. and Mrs. Neree E. Alix, 5546 West Maple St., Birmingham, and attended West Bloomfield High; Lennart Nilson of Sweden, house guest of Mr. and Mrs. James A. Laughlin, 350 Grace St., Avon Township, while going to Avondale High and Rudolph Schild of Switzerland, who stayed with Mr. and Mrs. Robert Grinager, 28810 Halsted Rd. Farmington, while attending Farmington High School.

★ ★ ★

They will return to their homelands within the next week or so, after seeing more of Washington and going on to tour New York.

★ ★ ★

Their visit here has been sponsored by the American Field Service.

Rochester Jaycee Gas Sale Success

ROCHESTER — The success of the Rochester Jaycees second annual Gas Sale has assured the staging of the Easter Egg Hunt for local children at Avon Park next year, a group spokesman reported today.

The Jaycees raised $167 which also will be used to support other community activities sponsored by the organization.

The sale, held Saturday at Joe Deaton's Service Station, was conducted in a carnival-like atmosphere with music being played on a public address system and balloons being given away to the youngsters.

Nineteen Jaycee members manned the gas pumps, washed car windows and changed oil during the sale.

Detective, 79, Can't Remember

Drives Into 3 Cars, House

ROYAL OAK TOWNSHIP — A detective of the local force who is probably the oldest policeman on active duty in the United States can't remember today what happened when his car brushed two cars, rammed another, then crashed into the side of a housing unit here Tuesday night.

In spite of his lapse of memory, Det. Samuel J. Whitfield, 79, is reported by his family to be in an improved condition today. He was treated for cuts and abrasions at Mount Carmel Mercy Hospital in Detroit following the accident and released.

He is now convalescing at his home, 20849 Mendota St., near where the accident occurred.

No one seems to know exactly how it happened. It is possible that Whitfield suffered a stroke while at the wheel of his car.

★ ★ ★

The vehicle went out of control on the street where he lives Tuesday night as Whitfield was returning home from work.

Royal Oak Township Police failed to mention the mishap when questioned by reporters the following morning.

Patrolman Hubert McGee, who was sent to investigate, suffered a slight heart attack and couldn't complete his accident report.

★ ★ ★

Whitfield, a former Oakland County deputy sheriff, has been on the township force for 13 years.

Lathrup Village Gets Full Title to Sewers

LATHRUP VILLAGE — The long-unsettled question of legal ownership of Lathrup's combined sewer system has now been decided with the turning over of an acceptible deed to the city by land developers Mr. and Mrs. Charles Kelley.

The Kelleys built the sewers some years ago. In 1948 they turned them over to the county, and in 1956 the county presented them to the city of Lathrup Village, except for the 11-Mile road sewer line. The Kelleys have held on to the deed itself. Until now they have refused to deal with the city in a long-standing feud.

The city has been unable to sell bonds for its proposed $1,000,000 sewer program until ownership of the system had been established.

APBA Sanctions Special Unlimited Hydro Race

SEATTLE (AP) — American Power Boat Assn. sanction for a special unlimited hydroplane race Aug. 3 on Seattle's lake Washington, site of the Aug. 9 Gold Cup race, was announced Wednesday night by Greater Seattle, Inc.

★ ★ ★

Greater Seattle, sponsor of the Gold Cup, requested the exhibition race in order to allow more of the unlimiteds to qualify for nual event.

★ ★ ★

The exhibition race, as yet unnamed, will be a regulation 45-mile, three-heat affair on the Gold Cup course.

A Mighty Long Ace

ST. LOUIS (AP)— One of the longest holes-in-one in golfing history was shot Tuesday by Jim Tom Blair III, the son of Missouri's governor.

Playing at the St. Louis Country Club, Blair, a former state champion, slugged his tee shot on the eighth hole right into the cup.

The distance—347 yards.

The par 4 hole is a dogleg to the right and the green is shielded by trees.

Blair played the hole the short way, shooting over the trees. He estimated that his ball traveled about 280 yards.

RAISE PRIZE CALVES — Among the winners in the heifer classes of yesterday's Black and White Show in Pontiac Township were calves owned by Janet Long, 18, left, and her brother, Douglas, 14, far right. Another winner was the heifer raised by Bill Middleton, 19, son of Mr. and Mrs. Keith Middleton, of 2610 Stoney Creek Rd., Oakland Township. Janet and Doug are the children of Mr. and Mrs. Carlos Long, of 3988 Sleeth Rd., Commerce Township.

Demands Exam in Traffic Death

Arraign Man in Oxford on Charge of Negligent Homicide

OXFORD TOWNSHIP — Charles L. Lake, 30, of North Branch demanded examination yesterday when arraigned in Justice Court here on a charge of negligent homicide in the traffic death July 5 of Mrs. Roy R. Hendrix, 48, of Orion Township.

Lake, also injured in the crash on M24 at the north end of Oxford, was remanded back to Oakland County Jail where he will be held until he furnishes the $1,000 bond set by Justice of the Peace Fred Stevens.

His examination is set for 1:30 p.m. on July 28 in Justice Court here.

Mrs. Hendrix died en route to Pontiac General Hospital after the accident. Her husband suffered cuts and a knee injury in the two-car crash.

Oxford Police Chief Albert Roberts said the action against Lake was initiated because his car was in the wrong lane.

Voting Today on Controls

Wheat Farmers at Polls

LANSING (UPI) — Michigan farmers are voting at county polling places today on whether to extend wheat marketing quotas for another year.

A two-thirds vote nationwide is required to keep the controls in effect.

★ ★ ★

Only wheat farmers whose acreage allotment is more than 15 acres are eligible to vote, but farmers who intend to exceed their quota and pay federal penalties also can cast a ballot.

The acreage allotments will remain in force even if the marketing quota is not approved.

Major effect of today's vote would be on prices. If the quotas are approved, federal supports will remain at 75 per cent of parity, or $1.78 a bushel. If the plan is defeated, support would be at 50 per cent of parity or $1.19 a bushel.

The nationwide vote has been in favor of the quotas since the plan was instituted again in 1953 following suspension during World War II.

In Michigan, farmers went against the plan in 1955 and 1956.

Police Say Youths Admit Stealing

LEONARD — Two teenage youths and three younger boys from the Leonard area have admitted stealing an outboard motor and other miscellaneous items from a cabin at 1227 Leonard Rd. earlier this month, the Romeo State Police reported today.

The two older youths were identified as Frederick Woolard, 19, and his 18-year-old brother, Kenneth, sons of Mr. and Mrs. Fred Wollard, of 3045 Gilmore Rd., Leonard. Police withheld names of the younger boys.

Investigating officers were to contact the Oakland County prosecutor's office today to determine what action will be taken. The boys were not taken into custody.

Richest Golf Test Begins for Women

MOUNT PROSPECT, Ill. (AP) —A field of 33 women golf pros lined up today for their biggest gold rush.

They teed off on the first lap of the 72-hole $20,000 Mount Prospect Open. The winning bonanza of $6,500 is the richest prize ever offered the distaff side of the tournament circuit, topping by $500 the previous high given by George S. May in his last Tam O'Shanter "world championships" in 1957.

In addition to the pros, there are nine amateurs in the field. Heading this group are 1958 Curtis Cup players Ann Richardson and Barbara McIntire and the 1959 intercollegiate champion Judy Eller.

Competition is on the snug, 6,421-yard Mount Prospect course which carries a women's par of 37-37—74.

Miami Police Ready for Cuba Celebration

MIAMI (UPI)—Law enforcement officers were making preparations today for "almost anything" Sunday when this city's Cuban population will observe the "26th of July" anniversary of Fidel Castro's revolution.

Police Chief Walter E. Headley said he had confidential information that Castro supporters planned to toss Molotov cocktails at backers of ousted Premier Fulgencio Batista.

Headley canceled Sunday as a day off for all officers. He said no parade permits will be issued for that day.

There were reports that "hundreds" of police carrying tear gas weapons and shotguns will patrol the streets in prowl cars.

"We must be prepared for almost anything," Headley said.

Khrushchev to Meet With European Reds

LONDON (AP)—Nikita Khrushchev has called leaders of the Communist bloc in Eastern Europe to a conference in Moscow early next month, diplomatic sources in London report.

The British Foreign Office said it had heard the conference would open Aug. 3 but had no confirmation. Western newsmen in the Soviet capital had similar reports.

There was speculation that the meeting is being called to take further steps toward dovetailing the economies of the satellites with Soviet planning.

The Communist economic organization, known as the Council for Mutual Economic Assistance, has held three sessions in the past year. Red China is not a full member but cooperates with the council.

Personalities Invade State Vacation Spots

By United Press International

Two movie and television personalities were vacationing in western Michigan today while a third one is expected later in the week in northern Michigan.

★ ★ ★

Band leader Bob Crosby, brother of Bing, is combining work with pleasure in Ionia County. He is spending the week at Silver Lake while playing the Lowell showboat.

Burr Tilstrom of Television puppet fame is vacationing at Saugatuck.

★ ★ ★

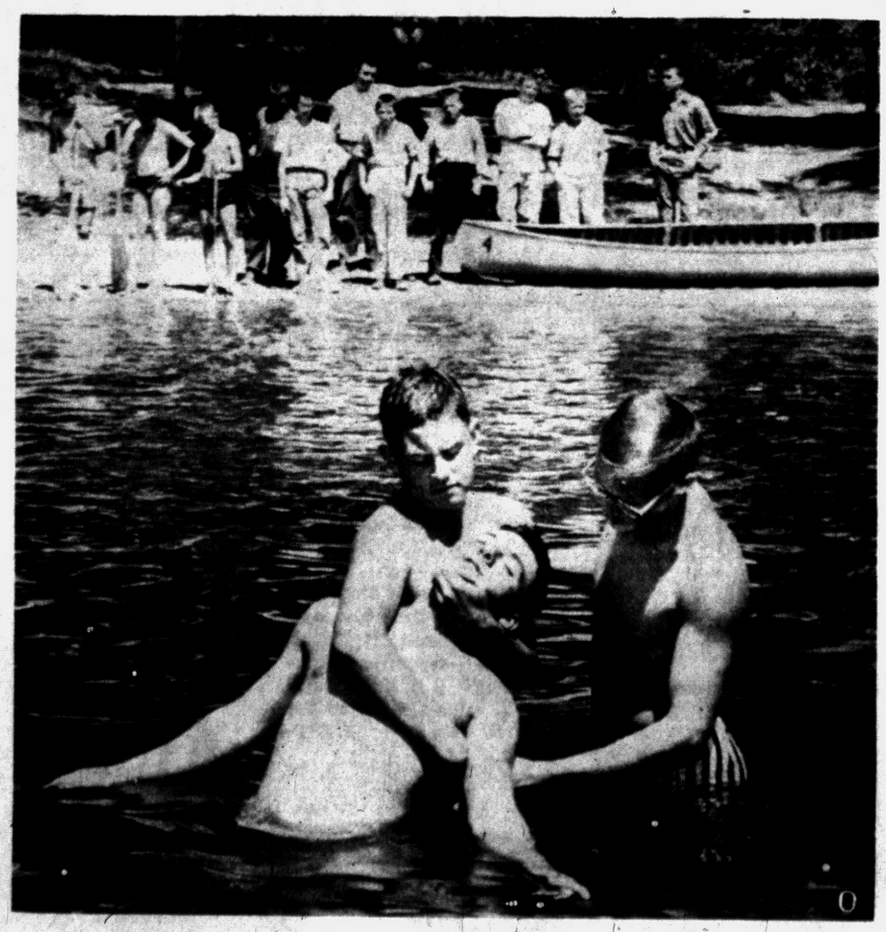

Comedian Joe E. Brown will be in Charlevoix Sunday to be master of ceremonies at the conclusion of that city's annual Venetian Festival. Brown will go from there to Traverse City where he will play a leading role in "Father of the Bride" which opens at the Cherry County Playhouse a week from today.

Walled Lake Brothers Listed on Vet Plaque

WALLED LAKE — A plaque has been dedicated at the Veterans of Foreign Wars National Home for children at Eaton Rapids bearing the names of alumni who served in World War II.

★ ★ ★

Among the names are those of Forrest E. Sims of Walled Lake and that of his brother, Lawrence Sims, who was killed in the war and for whom Walled Lake VFW Post 3952 was named.

PERFECT RESCUE TECHNIQUE — Boy Scouts from throughout the Oakland County area are enjoying facilities of Camp Agawam near Lake Orion this summer. A group is shown here learning water rescue methods. The "victim," Frank Shre of Mount Clemens, is being "rescued" by John Smithson of 2914 Mott St., Pontiac, as instructor Chuck Savage shows the proper way to hold the person in trouble.

Olmedo Begins Doghouse Exit

HAVERFORD, Pa. (AP)—Davis Cup star Alex Olmedo's play in the Pennsylvania Lawn Tennis Tournament is pulling him out of the doghouse.

The Wimbledon champion from Arequippa, Peru, is sticking to his vow not to perform as he did in the National Clay Court Tournament in Chicago last week. He was accused of deliberately throwing a match.

Olmedo and Earl Buchholz Jr., Davsi Cup player from St. Louis, rallied from 1-4, 15-40 last night to defeat the Los Angeles pair of Larry Nagler and Allen Fox, 6-3, 2-6, 6-4. The victory moved them into the quarter-final round of the doubles competition.

33rd Division Veterans Reunion to Start Friday

The annual reunion of Michigan Chapter 33rd Division War Veterans will get under way at 8 p.m. tomorrow in the Veterans Memorial Hall, Detroit.

Men who served with the division are urged to attend by John Scheidegger of the 123 Infantry, president.

Friday's highlight will be the showing of a U.S. Army film of New Guinea, where the Division first saw action.

The reunion will close with a family picnic Sunday at Lola Valley Park.

Epee Title to Russian

BUDAPEST (AP) — Bruno Khabarov of the Soviet Union Wednesday night won the world epee title in a fence-off with Allen Jay of Great Britain, the foil champion.

The fence-off ended with five hits against Jay to four against Khabarov.

Methodist Guild Meets at Four Towns Church

FOUR TOWNS — The Elizabeth Russell Guild of Four Towns Methodist Church will meet at 8 p.m. today at the church.

After the regular business meeting, Mrs. Chester Amann will show colored slides on New York, Ontario and Quebec.

Hostesses for the evening will be Mrs. Amann, Mrs. Bernice Cover and Mrs. Barbara George. Visitors are welcome.

Dillinger Shot 25 Years Ago Wednesday

Death Caught Up July 22

Editor's note—A quarter of a century ago the end came for a stocky, grim-faced Hoosier who had terrorized the entire Midwest. With him died a brief but bloody era that for sheer violence and drama has never been equalled in the history of American crime.

By DON REEDER

INDIANAPOLIS (AP) — Today the name Dillinger is nothing but a faint, bitter taste of memory for his family and the veteran policemen and reporters who were caught up in his sensational, bullet-pocked career.

★ ★ ★

But on that hot night 25 years ago—July 22, 1934—when John Dillinger was shot to death in front of a Chicago movie theater, he was perhaps the most notorious person in the country.

For nearly 30 of his 31 years, John Dillinger accomplished nothing to merit headlines. But by the time he was shot down, he had been blamed in one or another for at least 13 killings, had looted banks of at least $500,000, and had cost law enforcement agencies some two million dollars for the most intense police hunt this country had ever seen.

The Dillinger story actually began May 22, 1933, when he was released on parole from the Indiana State Prison after serving nearly nine years of a 10-21-year term for slugging and robbing a Mooresville grocer of $550.

★ ★ ★

Before his arrest, Dillinger had quit school, worked as a machinist, joined the Navy, and was dishonorably discharged for desertion. He had married a 16-year-old girl. She divorced him while he was in prison.

Dillinger always called his one and only prison term "a bum rap" because his partner in the robbery turned state's evidence and got off with a light term.

"I was just an unfortunate boy," he solemnly told newsmen after one of his arrests.

★ ★ ★

Dillinger wasn't beyond prison walls for a month before he held up the manager of a thread factory in Monticello, Ill. Then he branched out to where the real money was—in the banks.

Dillinger—or the men he worked with—were blamed for dozens of bank robberies in subsequent months all over Indiana, Iowa, Illinois, Michigan, Wisconsin, Ohio, Pennsylvania and South Dakota.

The Dillinger gang was a rather loosely organized outfit, and to this day there is a lot of doubt that Dillinger gave all the orders.

Operating with him were such seasoned gunmen as John Hamilton, George (Baby Face) Nelson, Alvin Karpis and Fred and Arthur Barker.

On Sept. 26, 1933—four months after his parole from the same prison—10 convicts shot their way out of the Indiana State Prison. Dillinger later admitted that he hed engineered the escape by smuggling three revolvers inside some material being shipped to the prison shirt factory.

"In the prison I met a lot of good fellows," he explained. "I wanted to help them out. I stick to my friends, and they stick to me."

★ ★ ★

Stick to him they did. The day before the prison break Dillinger himself was captured by police in Dayton, Ohio. A little more than two weeks later three men walked into the jail at Lima, Ohio, and released him after killing the sheriff.

The Dillinger mob resumed its foray against Midwestern banks, arming for the raids by looting police station arsenals.

Finally on Jan. 25, 1934, Dillinger and three of his men were nabbed without a fight by law officers in Tucson, Ariz. Dillinger was flown to Crown Point, Ind. Five weeks later he bluffed his way out of the "escape-proof" jail with a wooden gun he had carved in his cell.

★ ★ ★

Dillinger's luck held again as he shot his way out of a police trap a month later in St. Paul, Minn., with his French - Indian sweetheart, Evelyn Frechette.

His luck ran out in Chicago as Dillinger left a theater. He saw the police close in and tried to run into a nearby alley. He was dropped with two bullets in his chest and another through his neck.

Hundreds of spectators gathered. Women dipped their handkerchiefs into his blood for souvenirs. A crowd of 2,000 mobbed the morgue for a look at the body.

★ ★ ★

A similar scene took place three days later in Indianapolis when Dillinger's grave. Some chipped spot at Crown Hill Cemetery.

For several years the curious tramped a well-marked path to Dillinger's grave. bsome chipped his small granite headstone for keepsakes.

All that is over now. Scarcely a dozen persons have inquired the way to the grave this 25th summer.

AP Wirephoto

GRIM ANNIVERSARY — On July 22, 25 years ago yesterday, terrorist gangster John Dillinger came to the end of a brief, but violent, crime career as bullets cut him down in front of a Chicago movie theater. He was 31 when death caught up with him on that hot night.

Send Money to Widow

LANSING (AP)—The Senate last night passed and sent to the governor a $6,333 appropriation to the widow of the late Rep. Glenn Hunsberger (R-Grand Rapids) representing the unpaid portion of his salary.

Brazil Presses Fight to Save Caryl Chessman

RIO DE JANEIRO (UPI)—A campaign in support of condemned kidnaper Caryl Chessman and his fight to escape the California death chamber is steadily building up in Brazil.

Brazilians from President Joscelino Kubitschek down have expressed intense interest in the case of the condemned rapist who has been fighting his death sentence for more than a decade.

A group of Brazilian women sent an appeal for Chessman to Gov. Edmond G. Brown urging him to commute Chessman's sentence. The message was brought to the United States by Vera Ribeiro, "Miss Brazil" in the Miss Universe beauty contest at Long Beach, Calif.

Chessman's book describing his life in the death cell has been a best-seller in Brazil, where the death penalty has been abolished.

Newspapers in Rio de Janeiro and Sao Paulo have been campaigning to save Chessman's

Extra, Extra; Cars Jam

ST. LOUIS (AP) — A strike that closed down both St. Louis daily newspapers was the indirect cause of a traffic jam. An enterprising youth selling copies of an out-of-town daily for 15 cents each at a busy intersection backed up traffic for blocks.

Plane Trouble Boils Down to Monkey Business

ALBUQUERQUE, N.M. (AP)—A Plane loaded with 1,800 passengers made an emergency landing here Tuesday night.

An American International Airlines plane, carrying 1,800 rhesus to New York for polio vaccine development, developed engine trouble over Albuquerque and made an emergency landing.

The weather sensitive monkeys were moved inside a hangar because of a cool, dust laden, wind.

The plane was repaired and took off shortly after midnight.

Children normally are farsighted until the age of 8 or 9.

Fastest Canadian transcontinental train is the "Super Continental," which makes its 2,924-mile run from Montreal to Vancouver in 70 hours at speeds of 40 to 70 miles per hour.

Stay Alive Longer!

Here's 6 Heart Health Rules: Follow Them

By LELORD KORDEL
Installment Ten

Senator Lyndon Johnson of Texas, a rugged, hard-driving man of 46, considered himself in excellent physical condition. Suddenly, without warning, he suffered a coronary thrombosis, with myocaridial infarction — injury to a heart muscle.

★ ★ ★

For several days the doctors gave Senator Johnson a 50-50 chance to live.

Today the senator says that his heart attack saved his life. It slowed his pace and taught him to live more sensibly.

The following heart guarding rules, which the Senator's doctors gave him, might have prevented his heart attack—if he had followed them earlier:

1. Keep your weight on the lean side of normal.

Every pound of excess weight subjects the heart to strain. Senator Johnson who formerly weighed 220 pounds now weighs 170 and his waistline shrank from 42 to 36 inches. He keeps his calories down to 1,500 daily, and fights off every excess pound as if it were a political opponent.

2. Get plenty of rest.

Always a man-in-a-hurry, Senator Johnson ate irregularly and slept only when it was absolutely necessary. Rest and relaxation — what were they? Vacations? Never heard of them! The Senator recently took two winter vacations, one in Miami and another ten days on his ranch in Texas. He has learned to rest at least eight hours at night, and an hour in the afternoon.

3. Work is all right, but not overwork.

Many of the senators who had watched Senator Johnson in action will tell you that it was his indefatigable work as majority leader that caused his heart attack. His customary working day averaged around fifteen hours. Quitting time was never before 10 or 11 p.m.

Now he stops work when he feels tired or becomes short of breath, and his meals are regular and carefully planned.

4. Cut down your tensions and temper.

Heart attacks have a tendency to occur more frequently in tension-ridden persons. Senator Johnson was a high-strung, hard-driving perfectionist, who used to get a rash on his hands if he couldn't accomplish all the work he had planned. He has learned to take a calm, sensible, rational approach to his work.

5. Exercise at your own pace.

We know that Dr. Paul Dudley White, President Eisenhower's physician believes in moderate activity for the heart patient. Exercise keeps the circulation active by maintaining good muscle tone throughout the entire body.

Don't, however, engage in vigorous exercise to which you have not been conditioned, particularly if you are muscularly soft. Moderation and regularity, in exercise as well as food, will pay you definite health dividends.

6. Shed your bad habits.

Senator Johnson had been a two-to-three-pack-a-day cigarette smoker. What does he do now? He sucks a hard, fruit-flavored, low-calrie candy ball. He leads a regular, normal, well-balanced family life.

No longer does he work such long hours that he can't find time for his wife and their two daughters. He plans to take his wife on a second honeymoon to Europe.

MANY CAUSES

We now know many of the things that invite artery damage: overweight, overeating, meals rich in fats, worry, tension, and overfatigue.

Good nutrition is important to the health of your heart and blood vessels. Good nutrition means adequate amounts of meat, fish, eggs, vegetables, fruits, seed cereal, and honey, all in variety. It also means, for most of us, fewer calories and less fat.

Dr. John W. Gofman, of Berkeley, Calif. has shown that the physician can estimate the number of cholesterol molecules in the blood, and if there is an excess, warn the patient that there is a likelihood he may suffer a heart attack. The patient can then reduce the molecules in his blood through a low fat, low cholesterol diet.

Some 85 per cent of the American people have a calcium deficiency.

Since there seems to be a definite relationship between calcium and the health of your heart, why not use it as a preventive measure?

Sweet milk is not the answer. Buttermilk is a much better source of calcium, and is far more easily assimilated.

★ ★ ★

Other sources of calcium are: oranges, lemons, figs, almonds, walnuts, coconuts, raw cabbage, cottage cheese, bone meal tablets.

Most of these, you see, are everyday foods that make for an adequate diet. All are available at your nearest grocery store.

Thiamine is one of the B complex vitamins. Because it is so essential to nerve health, it is called the morale vitamin. It aids in the digestion and assimilation of sugars and starches.

REINFORCE DIET

Reinforce your diet with an abundance of the foods which contain the B complex vitamins. These vitamins are all found in green vegetables, meats—both muscular and glandular—legumes, potatoes, whole grains, skim milk, eggs, brewer's yeast, desiccated liver.

We know that a lack of vitamin C can cause lesions in the artery walls, and that an abundance of it strengthens them. It is also an important agent in reducing high blood pressure.

Dr. James C. Paterson of London, Ont., says: "Pressure between capillary walls pays an important role in the causing of hemorrhages of such walls and in coronary thrombosis."

★ ★ ★

What is the best way to take care of your heart? Take care of your general health!

Included in your health regimen should be:

1. Food for health — protein, minerals, vitamins
2. Proper rest
3. Relaxation
4. Suitable and regular exercise
5. Preventoin of infections or prompt treatment if you get them
6. Emotional adjustment

Here is a word of encouragement from Mrs. Lyndon Johnson to the 64 million people now living in the United States who, according to Dr. Norman Joliffe, director of the Bureau of Nutrition in New York City's Department of Health, will succumb to cardiovascular disease:

"My husband has learned," she says, "that common sense is still the best way to guard against a heart attack—as well s to recover from it!"

6 Hurt as Blast Rips Boat Apart

Adults, 2 Children Suffer Burns, Broken Bones at St. Clair Shores

DETROIT (AP) — Six persons aboard a 22-foot speedboat were injured, two seriously, when the craft exploded on a St. Clair Shores canal yesterday.

The blast, blamed on gasoline fumes in the bilge, tore the boat apart and flung its seven occupants, including a baby, into the water. Shore watchers rescued them.

A witness said he saw "cushions and pieces of wood and a woman and a boy in the air."

Only the baby escaped injury.

Thomas A. Evans, 37, of St. Clair Shores, owner of the boat, and his wife, Eunice, 39, were hurt seriously.

Evans suffered a broken leg and burns. His wife suffered burns on her face which doctors said may cost her the sight of one eye. Both are in Saratoga General Hospital.

★ ★ ★

The incident was one of a series of serious mishaps on Detroit area waters this spring and summer.

Also injured were Mr. and Mrs. George Starkey of Detroit, guests of the Evans couple; the Evans' son, Larry, 9, and Michael Starkey, 9.

George Starkey Jr., 2½, was the only one to escape harm.

St. Clair Shores police said Evans apparently failed to open the motor box to release fumes before starting the engine. Shortly before, he had filled up on gasoline for an excursion on Lake St. Clair.

Retains Office as President of Orion Schools

LAKE ORION — Mrs. Ray VanWagoner was re-elected to her second term as president of Lake Orion Community Schools Board of Education last night.

★ ★ ★

Hugh Brady was named to serve a second term as secretary. Richard Young is the new treasurer.

Elected to the post of president pro-tem was James Winship, and as secretary pro-tem, Keith Middleton.

★ ★ ★

All bids for dismantling the bleachers were rejected by the Board which decided to reclaim most of the materials itself.

Measles Cases in City, County Far Under 1958

The Oakland County and city health departments have reported more than a 25 per cent reduction in the number of measles cases last week compared to the same period last year.

★ ★ ★

According to Dr. John D. Monroe, county health director, one case was reported in the city last week compared to 25 over the same seven-day period in 1958. The county weekly total was two compared to 55 last year.

The county health department attributed the large number of cases last year and the great decrease this year to the cyclical tendency of measles.

Following is a list of communicable diseases reported to the two departments last week:

PONTIAC

	Past Week	Prev. Week	Year Ago
Measles	1	1	26

OAKLAND COUNTY

	Past Week	Prev. Week	Year Ago
Chicken pox	1	4	3
Measles	2	21	55
Whooping cough	7	0	0
Dysentery Infections	1	0	3
Infectious Mononucleosis	1	0	0
Rheumatic fever	4	0	1
Salmonella infections	1	0	0

Find Chute Fragment Near Ghost Bomber

WIESBADEN, Germany (AP)—Five days of search in the wastes of Libya have produced another clue to the fate of nine U.S. airmen missing from a World War II ghost bomber.

A message to the U.S. Air Force's European headquarters said today that another piece of parachute has been found. It was picked up in the area where an earlier search last month discovered a trail of markers apparently left by the airmen in a trek to death in the North African desert.

The Army mortuary search team reported that up to Tuesday no trace of the airmen's remains had been found. The message added that the search will continue "until the entire critical area" — more than 1,000 square miles — is covered.

The ghost bomber, a four-engine Liberator, had made a pilotless belly-landing on its return from a bombing raid on Naples, Italy, on the moonless night of April 4, 1943.

It was found practically intact by a team of geologists earlier this year, on hard-packed sand 440 miles southeast of the Libyan port city of Bengasi.

The Amazon is navigable to sea craft for 2,000 miles.

Marks 100th Auto Victim

DETROIT (AP) — Detroit has recorded its 100th traffic victim of the year compared with 88 in the same period last year. The victim was Ernest Striber, 77, who was fatally injured when a car struck him Monday on a west side street.

Part of Mexico lies to the east of Chicago.

Irene Dunne, Hubby Shun Publicity

30 Years of Marriage Go Unnoticed in Hollywood

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP) — It passed unnoticed in a Hollywood that pays more attention to the more transitory of marital unions. But it should be recorded that this month marks the 30th wedding anniversary of Irene Dunne and Dr. Francis Griffin.

The pair sought no publicity on the event and Miss Dunne declined to expound on how to make a marriage last three decades in Hollywood. "I might break the spell," she laughed.

THOMAS

Preston Foster is rounding out his first year as host-greeter at the new Frontier Hotel in Las Vegas. You might think his fine acting talent should be put to better use, but he says he's enjoying the life.

"And I'm talking about doing a TV series here in Nevada, an anthology that would tap the great wealth of history of this state," he said.

★ ★ ★

Harry Belafonte finished out a smash engagement that saw the 4,000-seat Greek Theater filled to the brim for three weeks. He leaves for some more concert dates in the west, then plans to play the Soviet Union.

The singer continues to grow as an entertainer and has the audience riveted to attention throughout his show.

Seldom has there been divergent opinion on a film as has met "Porgy and Bess." The critics have either embraced the movie or picked it to pieces.

★ ★ ★

I side with the pros. There are faults in the film. Some numbers, principally the wake scenes, are poorly staged. And I wish there had been more outdoor shots instead of sticking to the Catfish Row indoor set.

But the over-all effect is an artistic experience. The cast has more verve and acting skill than you usually see in a musical. Even so, the star of the movie is George Gershwin. He created the best score written by an American, and the soaring quality of the music remains unchanged by familiarity. How much richer our musical legacy would be if he hadn't died at 39!

★ ★ ★

One thing about "Porgy and Bess" I cannot buy: the 7½ million dollar price tag. I argued this over a lunch with Producer Samuel Goldwyn, and I remain unconvinced after seeing the film. I doubt if it cost half the publicized figure.

Law Examiner Remains

LANSING (AP) — Gov. Williams Wednesday announced reappointment of Joseph W. Planck of Lansing to the State Board of Law Examiners. The appointment for a term ending June 30, 1964, does not require Senate confirmation.

In 1939 President Roosevelt gave a "hot dog" picnic for the King and Queen of Great Britain at Hyde Park.

In the middle of the central business district of Spokane, Wash., are the Spokane Falls, 70 feet high.

Mickey Cohen Faces Jail Term

Refuses to Talk About His Financial Affairs in Damage Suit

LOS ANGELES (AP) — Mickey Cohen is faced with five days in jail—because he refused to discuss his financial affairs in court.

The ex-gambler was slapped with a contempt of court citation Wednesday while testifying in a $50,000 damage suit brought against him by a waiter, Arthur Black. The waiter says Cohen hit him and threatened his wife during a party in a Hollywood restaurant Jan. 29, 1958. Cohen paid a $500 fine on a battery charge—but denies he hit Black.

Black's attorney asked about ownership of an expensive car which Cohen drove to court. Cohen refused to answer "on the ground it may incriminate me." Superior Judge Joseph L. Call ordered him to answer. Cohen refused on advice of his attorney. He also declined to answer a list of questions about his manner of living.

The judge gave Cohen until Friday to appeal the citation.

GATHERING MOSS AND CUSTOMERS — Norman Butters' parking lot office in Long Beach, Calif., is probably the most unique in the country. It's a 1930 Packard which Butters, 64, drove for awhile and then put up on blocks five years ago. Wired for electricity, the old sedan has a radio, desk and heater. Occasionally Butters turns the engine over to keep it in shape. When he retires, he plans to paint the car and sell it.

Longshoremen to Begin Mapping Pact Strategy

NEW YORK (UPI) — The International Longshoremen's Assn. (ILA) takes the first step toward new contract negotiations Monday with a meeting of Atlantic Coast union officials here.

The officers will select a 100-man wage-scale committee to oversee negotiations and will also formulate union contract demands. The present contract expires Sept. 30. Negotiations begin Aug. 10

The present basic Longshoremen's wage scale is $2.80 an hour.

A recent study shows that 90 per cent of the over 21 million women working in the United States "find time" to read a daily newspaper on the average day.

Telephones All Wet

SAGINAW (AP) — Water in an underground cable knocked 650 telephones out of order in Saginaw for several hours Wednesday. Until service was restored Michigan Bell Telephone Co. intercepted calls for the police department and rerouted them to the fire department, which relayed them by radio to police.

Nearly 14,000 Americans died during 1958 as the result of accidents suffered in the course of their jobs.

Convict Offers His

He Wants Parole for Pal

NASHVILLE, Tenn. (UPI) — Lonnie Taylor, 58, who has spent more time in the Tennessee State Prison here than any other convict now there, yesterday offered to turn down a parole if officials would free another long-term prisoner.

Taylor, who has been behind bars since early 1931, is up for parole after Gov. Buford Ellington commuted his 99-year sentence.

Taylor today told the pardons and parole board he would gladly stay in prison if his prison pal, Horace Woodruff, were freed.

Woodruff entered the prison shortly after Taylor did. Woodruff was sentenced for killing a Nashville policeman.

Woodruff "deserves to be out of here more than any man I know of," Taylor said.

Taylor has been described as a model prisoner who has spent much of his time in the last 10 years trying to help young prisoners to go straight after they get out.

Taylor was sentenced on a burglary conviction in 1931 and was given the additional 99-year term in 1933 after he was involved in an escape attempt in which a trustee was killed.

High school athletics can very often do more to bring about community spirit and harmony than many programs offered in a city.

The city of Saginaw is planning to go all out to promote "Community Progress Through Athletics."

This is the slogan which has been adopted in Saginaw and in a four-page typewritten brochure turned out by the Superintendent of Schools, the schedule and entire calendar is made known.

The purpose of program listed is three-fold: 1. To foster better community spirit with the participation of adults in youth activities. 2. To rekindle interest of adults in school activities and 3. to help finance all extra curricular programs of the high schools.

★ ★ ★

Aug. 13th has been designated as 4-S Day or Athletic Booster Day. Students and adults will make a door to door campaign to get the citizens of Saginaw to buy one or more tickets to home football games of Saginaw High or Arthur Hill.

The designation 4-S stands for: "For Schools, For Students, For Sports, For Saginaw."

The calendar of events for the 4-S campaign started today and continues through August 13th.

It will be interesting to see the results of this commuinty project and might be worth while for other areas, in need of more community spirit, to watch.

NO GAME BETWEEN PCH AND PNH

This will probably be as surprising to many readers as it was to this column, but Pontiac Central and Pontiac Northern will not play on the gridiron this Fall.

When PNH entered the Inter-Lakes Conference it took over Van Dyke's schedule. PCH in the meantime got out of a game with Flint Southwestern in effort to get PNH on the card for the third game.

At the last contact with school officials a few months ago this game appeared a certainty. Now River Rouge is on the PCH schedule instead of PNH.

The reason is that PNH could not get out of its scheduled commitments to open the date for PCH.

Pontiac Central has a real good nine-game schedule starting with Waterford (H) and continuing with Wyandotte (A), River Rouge (H), Arthur Hill (H), Saginaw (H), Flint Northern (A), Ferndale (H), Bay City (H) and Flint Central (A).

It is unfortunate to see Pontiac Northern missing from the list, possibly because of the scheduling circumstances but also because the foresight was missing two of three years ago when the opening or closing date should have been reserved—regardless.

★ ★ ★

The addition of three new teams in the Saginaw Valley will also be unfortunate for future Central schedules. It will mean eight SVC games and Pontiac Northern, thereby eliminating any other local attractions.

DEBUT — Elijah (Pumpsie) Green, made his first Major League start for the Boston Red Sox yesterday against the White Sox. Green is the first Negro ever to play for Boston.

Nelson's 3-Hit Pitching Keeps Spencer in Race

Spencer Floor Covering stayed in the thick of contention in the Waterford American League softball race last night at Drayton Plains with a 2-0 victory over Sno-Bol behind Jack Nelson's three-hit shutout pitching.

★ ★ ★

Tony Hiller's two-run single in the 3rd inning accounted for both Spencer tallies. The winners nicked Sno-Bol hurler Dale Badder for four hits, two by John Studt.

★ ★ ★

In National League action yesterday, Frank Miceli twirled a four-hitter as the Waterford Merchants defeated Walls Service, 6-2. The winners collected 10 hits, led by George Bowers who made 3-for-3.

Cates Hurls PBI to 3-1 Triumph

Allows Just 1 Safety in Class B; Pirates, Jets Play 7-7 Tie

Larry Cates mowed down Talbott Lumber on just one hit yesterday to feature Pontiac Business Institute's 3-1 triumph in a Class B City League baseball game at Jaycee Park.

★ ★ ★

In the Class A ranks at Wisner Field, the Jets and the Pirates settled absolutely nothing as they fought to a 7-7 standstill in a wild contest that was halted after six innings by darkness.

A double by Ken Senter in the 3rd inning was the only Talbott safety off the slants of Cates. The Lumber team's lone run, also in the 3rd stanza, was unearned.

PBI collected seven safeties off the offerings of Dick Deschaine, two each by Gil Trevino and Cates. The winners tallied single runs in the 1st, 3rd and 4th stanzas.

★ ★ ★

A two-run rally by the Jets in the top of the 6th frame tied the Pirates and prevented a decision. The Jets had outhit the Pirates, 9 to 4, with Dave Simmons and Fletcher Davis making two safe blows apiece.

Mouw Takes State Jaycee Golf Title

Shoots Second Successive 72 for 144 Total

Birmingham Loses Team Honors to Ann Arbor's Foursome at Adrian

ADRIAN, Mich. —Chunky Gary Mouw kept up Birmingham's habit of winning individual Michigan Junior Chamber of Commerce golf tournaments yesterday.

Mouw, a 5-foot-6 swinger who enters his senior year at Birmingham High School this fall, fired his 2nd straight two-over-par 72 yesterday at Lenawee Country Club to win the State Jaycee golf championship with a 36-hole total of 144.

It marks the 2nd consecutive year that a golfer representing the Birmingham Jaycee Chapter has won the state crown. Pete Green, who will be a sophomore at North Carolina in September, won the title last summer.

★ ★ ★

The 17-year-old Mouw, who has starred for the last two years in The Pontiac Press Prep Invitational tourney, picked up only one birdie in Wednesday's final round, but he played remarkably steady golf to beat his nearest rival by three strokes.

Willard Karl of White Lake finished 2nd with a 147 total on rounds of 74-73.

Mouw's lone birdie yesterday came on the 475-yard 11th hole where he hit the green in two shots and putted for an eagle three from 35 feet. His putt stopped less than a foot from the hole.

★ ★ ★

While Mouw retained Birmingham's grip on the individual honors, the Birmingham Chapter was forced to relinquish team laurels. Ann Arbor's four-man crew captured the team title with a total of 620, followed by Jackson at 622.

Larry Beaupre of Rochester, representing the Pontiac Chapter, was Oakland County's next best shooter in the tournament with 78-77—155. Thirteen area teenage boys representing Pontiac, Waterford and Birmingham chapters competed in the State Jaycee event.

Mouw, along with Kari, Dennis Golbesky of Dearborn and Dennis English of Lansing, will now represent Michigan in the 14th annual International Jaycee event, scheduled Aug. 22-29 at Portsmouth, Va.

MACHEN SWINGS — Heavyweight Eddie Machen, with a fierce look on his face, swings a right to the head of Reuben Vargas in their scheduled 10-round bout in Portland, Oregon, last night. Machen stopped the San Francisco fighter in the sixth round.

Bengal Hurler Beats Senators to Get No. 11

He Also Socks Homer and So Does Bolling in 6-2 Tiger Win

DETROIT (AP)—Frank Lary, fast proving that he is something more than just a Yankee-killer, has his sights on being a 20-game winner for the second time in his big league career.

The gritty righthander finally evened his lifetime mark against the pesky Washington Senators yesterday with a superb three-hit effort that earned the Detroit Tigers a 6-2 victory.

After Lary wilted in the 90-degree heat at Briggs Stadium, reliefer Ray Narleski came on to get six straight batters—three of them on strikes—and protected Lary's 11th triumph.

Lary had a perfect game for four and one-third innings and a no-hitter for five and one-third. Then Billy Consolo scratched a single down the third base line.

When Roy Sievers homered and Faye Throneberry doubled behind Lary's only walk in the eighth, manager Jimmy Dykes brought on Narleski. The ex-Cleveland hurler, whose performances this year have skipped back and forth between tremendous and terrible, put on one of his good shows and nailed down the club's second straight win over the Nats.

Now the pennant talk in these parts is back to the hush-hush stage once more. The best the Detroit club can talk about, and hope for, is a first division finish and some good individual marks—like Harvey Kuenn winning the American League batting title, or like Lary winning 20 games.

★ ★ ★

The veteran righthander won 21 games in 1956 and is nine games away from the coveted mark now. He likely will get at least 13 more chances to pick up nine victories. Noted for his fast finishes—he won 17 games after the All-Star break the year he reached the 20-game mark—Lary is rated at least an outside chance of making the grade in 1959.

He helped himself to his 11th victory yesterday by slamming his first home run of the season. It came in the seventh inning off Pedro Ramos, and followed a pair of singles and a force play.

Frank Bolling had homered in the fifth and the Tigers picked up an unearned run in the fourth inning. Al Kaline doubled home the final run in the eighth against Truman Clevenger.

Publinx Tourney, Women's City Medal Play

2 Local Golf Events This Weekend

Morey's Golf Club and Pontiac Municipal course will be the scene of hot competitive golfing this weekend.

The Michigan Publinx Golf Association's 54-hole medal play championship is scheduled Saturday and Sunday over Morey's Red, White and Blue layouts while the annual Women's City Medal Play tournament is set for an 18-hole run Saturday at Municipal.

Stopping the reign of Mrs. Zadah DeBolt will be the aim of the other ladies Saturday over the par 34-45—69 city links.

★ ★ ★

Mrs. DeBolt won the women's city title for the 6th time in her career last summer. Mrs. Edith Wright was the champion in 1957.

Wally Smith of Pontiac is the defending champion of the Publinx tourney. The Royal Oak policeman won last year's MPGA medal play test over a 36-hole route at Sylvan Glen with 69-69—138.

★ ★ ★

There are 75 entries for the Publinx tourney at this time and upwards of 125 are expected by tonight's midnight deadline, according to MPGA president Roy Iceberg.

Smith will be a tough foe to conquer. Wally just returned from an impressive showing in the National Public Links tourney at Denver where he went to the 3rd round before bowing to the eventual winner, Bill Wright of Seattle.

★ ★ ★

Two titles will be awarded in the Morey's competition, actual medal total and low handicap score. Twenty-seven holes will be played each day and the starting times are 8 a. m.

All of the area's better Publinx golfers are entered in the tournament, Iceberg said.

★ ★ ★

Tee-off time for the ladies Saturday at Municipal is 12 o'clock noon. Prizes will be awarded through four positions, trophies going to the winner and runnerup and golf balls earmarked for the next two places.

Hitless Relief in Legion Play

Seven full innings of no-hit relief pitching by Ernie Miller of Milford stole the show in American Junior Legion baseball action yesterday as Milford defeated Clawson, 3-1, on the Clawson diamond.

Miller relieved Bill Howard in the 1st inning with two runners aboard and nobody out. He retired the first three batters he faced, then hurled hitless ball for the next six innings.

Clawson's only hit came off Howard before Miller took the mound. All four runs in the contest were unearned.

Berkley trimmed visiting Troy, 4-2, behind the four-hit pitching of Chuck Sunseri. Rich Billings also twirled four-hit ball for Troy, but Berkley iced the verdict with three runs in the 6th inning on a run-producing single by Sunseri and a two-run single by Dick Krinsky.

Racers Have Smorgasbord

The Detroit Metropolitan Speedway in Mt. Clemens will present an "Auto Racing Smorgasbord" this week, with four classes of racing cars competing in programs on three successive days.

Tonight the open-competition Modified Hardtops race on the half-mile track, with such ranking local entrants as Johnny Wallace, Norm Rust, Jack Harvey, Bud Wilson, and Joy Fair.

Dave Coppersmith of Pontiac, who narrowly escaped injury in a series of end-over-end flips last week at the North River Road, will be back in competition this week.

Friday night the semi-Late Model and the Sportsmen's Modified Hardtops conduct their weekly "Crash-o-rama", with complete separate programs for each division.

★ ★ ★

To cap the three-night speedfest, the United States Auto Club's Midget division makes its third appearance of the season at the speedway on Saturday night.

Yanks Again Push Tribe Out of 1st Spot in AL

By The Associated Press

You can say what you want about that American League pennant race, but as far as the Cleveland Indians are concerned, the New York Yankees still are the team to beat.

The still struggling champs, down 4-0 after five innings, knocked the Injuns out of first place for the third time this season and the second time in a week with an 8-5 victory at Cleveland last night.

★ ★ ★

That plunked the Indians a full game behind the Chicago White Sox, who climbed back on top with a 5-4 decision over Boston.

Detroit regained fifth place from Washington by beating the Senators 6-2. And Kansas City edged within a half-game of the now sixth place Nats with a 6-3 victory over Baltimore's third place Orioles.

The fourth place Yankees, winning nine of 16 games with the Indians, and four of the last five, bobbed above .500 once again while moving within a game of third place. They trail the White Sox by 6½.

★ ★ ★

Herb Score had the champs shut out on three hits until the sixth, when Hector Lopez hit a two-run, two-out homer. They chased the young lefty while taking a 5-4 lead in the seventh on Bobby Richardson's two-run double and a two-out single by Elston Howard. A walk and two-out singles by Richardson and Norm Siebern put it away in the eighth.

★ ★ ★

Ryne Duren bagged his 12th save for the Yankees, giving up a run on two hits, but striking out four in three innings of relief that nailed it for Duke Maas (8-5). Maas, 4-0 against the Indians this season and 5-0 against 'em since he became a Yankee last year, was touched for two unearned runs in the second and then gave up home runs by Jim Baxes and Woody Held in the fifth.

★ ★ ★

Sherm Lollar and Nellie Fox each had three of the White Sox' 13 hits, with Fox scoring three runs and Lollar driving in two. It was Lollar's single that brought Fox home with the winner in the ninth to beat the Red Sox and reliever Leo Kiely (3-3). Turk Lown (6-2) won it with a one-hit, two-inning shutout mopup in relief of Early Wynn, who gave up homers by Ted Williams and Red Sox starter Jerry Casale.

It was Williams' seventh home run, leaving him 11 short of his 500 career target.

★ ★ ★

Right-hander Ray Herbert won his fifth in a row for the A's, beating the Orioles with a six-hitter for a 9-7 record, his major league high for victories. Jerry Walker (7-5) lost it, giving up seven hits.

JUST MINOR CUTS — Dave Coppersmith of Pontiac sits in his wrecked car at Detroit Metropolitan Speedway after he flipped end over end three times. Despite the damage to the car, Coppersmith required only first aid for minor cuts and bruises. He will be back in action tonight at the Speedway.

AP Wirephoto

SENATORS COLLIDE — Washington first baseman Roy Sievers (2) runs into second baseman Ken Aspromonte as the two try for a pop up by Detroit's Charley Maxwell yesterday. The ball dropped and Aspromonte was charged with an error. Maxwell later scored as the Tigers won.

Lion Rookies Start Friday, Veterans Next Week

Action Stirs in Pro Football Training Camps

Action on the National Football League front started to stir today as pro teams from coast to coast moved into their training camp sites to prepare for the 40th season of the NFL.

Big news was at Westminster, Maryland, where the World Champion Baltimore Colts checked into Western Maryland College to prepare for their engagement with the All-Stars in the annual classic at Chicago, August 14th.

Things hardly got underway for coach Weeb Ewbank when the Colts announced they had traded guard Fred Thurston for linebacker Marv Matuszak of the Green Bay Packers.

Matuszak, 28, won all-league honors before going to Green Bay after a stay with Pittsburgh and San Francisco.

★ ★ ★

The Colts won nine and lost three last year to win the Divisional title and then beat the New York Giants 23-17 in a sudden-death thriller for the title.

"This is the kind of league where a 7-5 record could give a team a tie for the conference championship and a shot at all the marbles," said Ewbank.

Would he settle for a 7-5 record right now, someone asked? "Not on your life," he replied.

There were 36 veterans and 21 rookies in Colt drills today.

★ ★ ★

Vince Lombardi, who shook the dust and cobwebs out of the Green Bay Packers administrative setup last winter, carries his campaign in the opening of training camp today.

Thirty-eight rookies were due to arrive at the Packer quarters on the St. Norbert College campus, with three others—halfback Bobby Jackson of Alabama, end O. H. Towler of Colorado and guard Andy Cvercko of Northwestern all reporting to the All-Star camp first.

Lombardi also summoned his four quarterbacks to camp today with 30 other vets reporting Saturday.

In Hiram, Ohio, where the Cleveland Browns' opened camp today, Bernie Parrish, who turned to baseball after starring as defensive halfback at Florida two years ago, was a surprise arrival.

Parrish was lured to the diamond after baseball offers from the Redlegs. He was recently with Topeka of the Three-I league.

"I've had it as far as baseball is concerned, I guess football always has been my real love," Parrish said.

The New York Giants made final preparations for camp opening at St. Michael's College in Winooski, Vt. Coach Lee Howell says Baltimore is again the team to beat in the Western Division, and puts his Giants behind Cleveland and ahead of Pittsburgh in the Eastern sector.

★ ★ ★

Eighteen Detroit Lion rookies went through physicals and drew equipment at Cranbrook today with first drills slated for tomorrow.

Some veterans also joined the newcomers, but the bulk of vets was not due until next Thursday. One week later, August 8th, the Lions play their first exhibition game against the Los Angeles Rams in Boulder, Colo.

Coach George Wilson is high on his rookie crop this year indicating that some of the veterans like Jerry Perry, Stan Campbell, Harley Sewell and Ken Russell in the line and backs Dan Lewis and Ken Webb may have to fight for their jobs.

★ ★ ★

The N.F.L. set an attendance record for the seventh straight year in 1958 when 3,006,124 paid to see its regular season games. Sale of season tickets currently is running ahead of the 1958 pace.

The N.F.L. training sites: Baltimore Colts, Westminster, Md.; Chicago Bears, Rensselaer, Ind.; Chicago Cardinals, Lake Forest, Ill.; Cleveland Browns, Hiram, Ohio; Detroit Lions, Bloomfield Hills, Mich.; Green Bay Packers, West de Pere, Wis.; Los Angeles Rams, Redlands, Calif.; New York Giants, Winooski, Vt.; Philadelphia Eagles, Hershey, Pa.; Pittsburgh Steelers, California, Pa.; San Francisco Forty-Niners, Moraga, Calif.; Washington Redskins, Los Angeles.

College All-Stars Begin Training

4 New Gridders Added to Roster for Aug. 14 Battle With Colts

EVANSTON, Ill. (AP) — The College All Star football squad of 52 players today opened training at Northwestern University for its game with the Baltimore Colts, National Football League champions, Aug. 14, in Soldier Field.

Head coach Otto Graham and his five assistants will not start actual practices until tomorrow morning, after equipment has been issued and physical examinations given.

On Graham's staff are Pete Pihos, Don Doll, Lou Saban, Dick Stanfel and John Sauer.

Four additions have been made to the All Star roster announced last month. The new players are Dave Sherer, Southern Methodist end and punter; end Rich Kreitling, Illinois; and tackles Harry Jacobs of Bradley and Ron Luciano, Syracuse.

"We have tried to choose a team with the weight and speed necessary to meet the pro champions on nearly equal terms," said Graham. "We think we did such a job last year when the All Stars defeated the Detroit Lions 35-19 and set an offensive record for the collegians in the series."

More Than 200 Golfers Entered in Hagen Event

TRAVERSE CITY (UPI) —More than 200 golfers are expected to participate in the fourth annual Walter Hagen Invitational Tournament at Traverse City Country Club Sunday.

★ ★ ★

More than $1,000 in prizes and merchandise awards will be awarded to professionals and amateurs with low scores in the 18-hole event. Amateurs will be placed in one of five flights, depending on their handicaps.

★ ★ ★

The legendary Walter Hagen, who lives in Traverse City, is expected to be on hand for the tournament.

Yank Prepsters Meet Rebels in Football Clash

BATON ROUGE, La. (UPI)—The Rebels and the Yankees, two of the finest squads of high school grid stars ever assembled, will battle at 8 p.m. tonight in the 11th annual prep All-America bowl at Memorial Stadium.

★ ★ ★

The 67 players, cream of the nation's prep teams of last year and now destined to be college and professional stars, are primed for the football classic after a week of rugged drills.

Coach Ed McKeever's Rebels will be slight favorites.

Lloyd Jordan, formerly of Harvard, directs the Yankees.

Jack Homel has been a trainer for the Tigers for the last 13 years.

United States Near Gold Cup Sailing Trophy

SANDHAMN, Sweden (AP)—Ernest H. Fay's Sabre, the defending champion, won its second straight race Wednesday, indicating the Gold Cup Sailing Trophy will go to the United States for the third straight year.

Representing the Texas Corinthian Yacht Club, the Sabre gained its victory Wednesday in a light-wind tactics contest. Sweden's Olympic champion Lasse Thoern in his Rush V, who placed second Tuesday, was third Wednesday, with Fram II, captained by Norway's Crown Prince Harald, placing second.

The race is being contested on the Baltic Sea course outside the Sandhamn Island. The first boat to win three races is the winner.

Machen Rips Vargas, Wants Shot at Title

PORTLAND, Ore. (UPI)—Eddie Machen, who said he would do his talking in the ring, hoped today that he was eloquent enough against Reuben Vargas to earn a shot at the heavyweight championship.

★ ★ ★

"I'm ready to take on Ingemar Johansson in his own back yard," Machen said after blasting Vargas in 1:55 of the sixth round for a technical knockout at the Oregon centennial exposition grounds last night.

Vargas, 195, was sent to his knees for an eight count in that round, but he arose and was plastered against the ropes at Machen's mercy. The referee, Ralph Gruman, stopped the fight at that point.

No Argentine Quintet

BUENOS AIRES (AP) — The Argentine Olympic Committee officially announced Wednesday night that Argentina will not send a basketball team to the Pan-American Games in Chicago.

AL Transient Belts 2-Run Homer to Beat Reds, 5-4

Avila Snaps Braves' Slump

By The Associated Press

Bobby Avila, the American League transient, has found a home with the Milwaukee Braves.

At 33, the little infielder found himself shuffled off to Baltimore by Cleveland last winter. The Orioles used him here and there, even in the outfield, then packed him off to Boston. Then, after the better part of 11 seasons in the AL, he was peddled to the Braves Tuesday.

At the moment, the only question about that deal in Milwaukee minds is why they didn't make it sooner. It was Avila who finally put an end to the Braves' losing string at seven last night with his first National League hit—a two-run homer in the ninth that beat Cincinnati 5-4.

The home run not only snipped the Braves' longest slump in six years, but also hoisted them back into third place, 3½ games behind the San Francisco Giants, who padded their skimpy lead with a 6-1 victory over St. Louis. Second place Los Angeles slipped 1½ games back in a 7-2 pasting by the Chicago Cubs.

★ ★ ★

Last place Philadelphia skidded Pittsburgh to fourth 11-4.

Avila's home run, following a walk, ruined rookie Jim O'Toole's first complete game and gave southpaw Warren Spahn (12-10) his 258th major league victory. Spahnie, who had lost three in a row to Cincinnati, hit a home run for the Braves' first run and scored their second after singling, but was tagged for a pair of two-run homers by Willie Jones and Frank Thomas.

The Braves may have lost third baseman Eddie Mathews, the NL home run leader with 29, however, while finding that long sought second baseman in Avila. Mathews drove in a run with a single, but had to leave the game because of a bruised hip after crashing the fence in pursuit of a foul pop.

Young Mike McCormick (9-7) won his fifth in a row and ended the Giants' slump at three with a six-hitter against St. Louis. He had the Cards blanked on four hits until the ninth, when Alex Grammas singled and Hal Smith tripled. Jim Davenport and Willie Kirkland each drove in two runs for San Francisco, Davenport with a double and single and Kirkland with a single and home run.

A walk, Davenport's two-bagger and Kirkland's single gave the Giants a 2-0 lead in the first inning against rookie Dick Ricketts (1-5).

Earl Averill's second grand-slam homer of the season touched off a seven-run second inning for the cubs, making it a breeze for rookie Bob Anderson (6-7). The young righthander, 3-0 against the Dodgers, shut them out on one hit over the last five innings, finishing with a five-hitter and nine strikeouts for his third complete game—all against LA.

The Phillies smacked 19 hits and had a 7-2 lead within four innings at Pittsburgh, scoring two on Ed Bouchee's homer off reliever Bennie Daniels after starter Ron Kline (7-9) failed to survive the second inning. Gene Conley (8-6) had no trouble at all, although giving up 10 hits, all singles. Three of the Buc runs were unearned.

Doctoring Your Golf

By DR. CARY MIDDLECOFF

PATIENT'S COMPLAINT: Sudden blowups.

DIAGNOSIS: "You're worn out by concentration!"

TREATMENT: Not even the best golfers in the world—including the ones who play the game for a entire three or four hours that it takes to play 18 holes of golf.

They know they have to relax the mind between shots. So must the average and the high-handicap golfer.

shots! Don't rush head

Take it easy between down and headlong to the ball in order to swipe at it again as quickly as possible. Talk with your playing companions. Look around at the scenery. Enjoy the game!

Then, when you get to the ball and the time comes for you to play your shot, concentrate hard on the problem at hand. Having just had a few moments of relaxation, you should be much better able to summon up the concentration you need.

But if you keep trying to fight the game every second beginning on the first tee, you may as well expect osme damaging mental lapses before you are halfway through the round.

First Ace at Edgewood

Edgewood Country Club had its first hole-in-one of the season Wednesday when John Kauppinen, 23724 Philip, Detroit, aced the 168-yard 6th hole with a 4-iron. Kauppinen finished his 18-hole round with 83. He made an ace on the 10th hole at Edgewood CC in 1956.

Travis of Royals Whitewashes Elks

The Lakeside Royals scored a 3-0 triumph over the Elks behind the three-hit shutout pitching of Walt Travis to highlight Wednesday night's two-game City League softball program at Beaudette Park.

★ ★ ★

Gary Boe hurled four-hit ball for the Elks and struck out 14 batters. Jim Shorter nicked Boe for two of Lakeside's safeties. The Royals tallied single runs in the 1st, 5th and 6th innings.

★ ★ ★

In last night's other scheduled contest, Stadium Inn banged out a dozen hits off two pitchers for a 7-4 victory over the Pontiac Merchants. Jake Mazur hurled five-hit ball for Stadium and fanned 12. Four different Stadium players made two safe blows apiece.

Going, Going, Going—

HARRISBURG, Pa. (AP) — Pennsylvania's legislature has given final approval to a bill that would virtually abolish the state's Sunday curfew on professional baseball games.

★ ★ ★

The bill says that Sunday games started before 5 p.m. (EST) may be completed, regardless of how long it takes. Under present law the games must be halted at 6 p. m. (EST).

★ ★ ★

Gov. David L. Lawrence, a baseball fan, was expected to sign the bill next week. The house passed it yesterday, 172-12. The senate gave its approval earlier.

Steel, Rubber, Aluminum Talks On or Due

Labor Pacts May Up '60 Car Prices

By BEN PHLEGAR
Automotive Writer

DETROIT (AP) — If you are planning to buy a 1960 model car you might do well to keep a weather eye on the current and upcoming labor negotiations in the steel, aluminum and rubber industries.

The eventual settlement in the steel strike and whatever agreements are reached in aluminum and rubber could have a lot to do with how much the 1960 cars will cost.

If the settlements are followed by price hikes in these basic commodities the cars will cost more. If these industries hold their price lines, cars may still cost a little more. But the jump won't be nearly as much.

The auto industry is steel's No 1 customer, a huge buyer of rubber products and an increasingly heavy purchaser of aluminum. The 1959 models average more than 51 pounds of aluminum per car. The '60s may have even more.

Despite the strike that began last week, steel supplies are no problem to the automakers since they built up heavy inventories. Some of the small suppliers, however, might feel the pinch if the strike runs more than a month.

Tire supplies were cut back this spring by strikes at U.S. Rubber, Goodrich and Firestone. The rubber company labor contracts will be re-opened in August for wage negotiations.

Contracts in the aluminum industry expire next week.

Car prices are nebulous things at best since virtually every sale is the result of individual bargaining. Even with the advent of the official price stickers on all new cars last fall, the suggested factory list prices still remained mostly a starting point for trade talks.

★ ★ ★

Nevertheless, each year it seems to cost a little more to buy a new car. In 1957 the lowest suggested factory list price for a Chevrolet was $1,680. For 1959 it was $1,960. In 1957 the highest suggested factory list for a Ford was $2,354. Today it's $3,063.

One reason is that you can't buy the comparable cars. The line Chevrolet listed for $1,680 two years ago has been discontinued. Ford jumped up to what had been regarded as medium price territory by adding the Galaxie this year.

All of these prices are for what dealers advertise as "full-factory equipped" cars. A car buyer quickly finds this usually means stripped.

Manufacturers and dealers point out that each year something else is added to the standard equipment list, or that improvements are made that are not fully reflected in the prices.

Car pricing is an extremely tricky field. A $1 mistake could cost Chevrolet or Ford 1½ million dollars or more in a single model year. Thus actual factory prices are figured to the closest penny and analysts remain at work on the introductory prices even after actual new model production begins.

★ ★ ★

As the new model dates approach this fall you will see lots of pressure brought to bear on the car manufacturers to hold the price line. Right now only a crystal ball could fortell how successful it will be.

Reds Don't Understand Charges of 'Enslavement'

By J. M. ROBERTS
Associated Press News Analyst

Pravda, the official Communist party newspaper in Moscow, is all upset because Congress, and President Eisenhower at its suggestion, have recommended prayer in behalf of the "enslaved nations" of the Communist sphere.

With customary sublety, the paper promptly replies that the Communist-controlled nations are the truly free ones, and that it is the capitalist countries which enslave the masses.

★ ★ ★

Now the odd part about such Communist fulminations is that they are not merely cynical manifestations of the ideological war.

Relatively speaking, few Americans have ever talked with a real, dyed-in-the-wool Communist. There aren't enough of them in this country to go around.

If you ever have, you have probably experienced a certain feeling of mental block, of unreality, and a lack of ability to communicate.

★ ★ ★

Even the professionals of the International Communist movement, who began as able and clever Russian expansionists wearing communism as a disguise, seem to fall victim of the obsessions they seek to implant in others.

I've heard them talk this enslavement stuff before American workmen who own their own homes and drove to the meetings in their own cars. They attempt to play upon the human psychological factor of dissatisfaction regardless of the current level of achievement. Yet publicly and privately they give every indication of sincerity, as President Eisenhower said of Gen. Zhukov.

★ ★ ★

They are about as easy to argue with as believers in voodoo.

Really at the seat of Pravda's pique, of course, is the persistent suggestion from the West that the positions of the satellite peoples, and even of the peoples of the Soviet itself, are not permanent. The good intenational Communist is perfectly willing to purge people, even by the thousands as they have in Russia, rather than have them persist in non-communism.

For others to encourage them to persist is both a threat to ideological principle and to the materialistic foreign policy of Soviet Russia.

85,000 Veterans to Get Life Insurance Dividend

WASHINGTON (AP)—About 85,000 veterans are going to split a special four million dollar insurance dividend. The payments, starting this month, will average about $50 each.

The Veterans Administration, announcing this today, said the payments will go to holders of National Service Life Insurance policies which had a $5 total disability income provision in force Dec. 31, 1958. Those whose policies were in a state of lapse during December will receive the dividend only if their policies were reinstated before June 1, 1959.

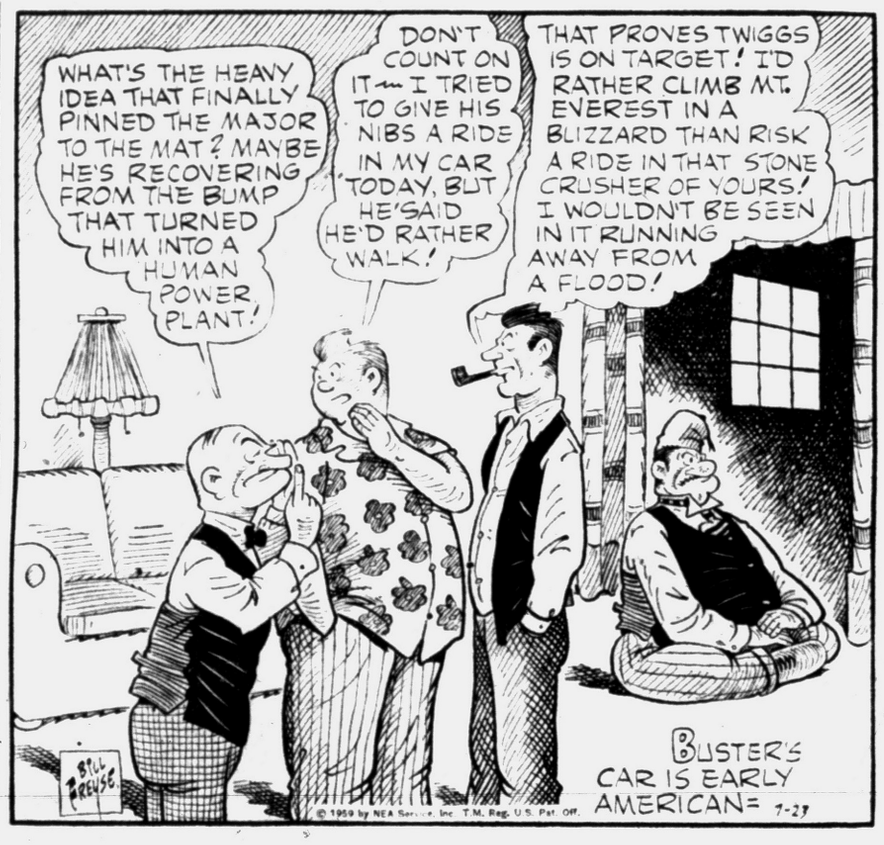

Maine leads the nation in dressed poultry that is graded under Federal-state inspection—more than 143 million pounds during 1958. Second is Arkansas with almost 132 million pounds.

Soybeans Lead Mart Setback

CHICAGO (AP) — Soybean futures prices broke sharply today during the first several minutes of transactions on Board of Trade and led a general market setback.

Nearly all soybean contracts were off two cents a bushel or more on heavy selling following reports of additional overnight rainfall in most central Illinois, a major producing area.

Wheat was ¼ to ½ cent a bushel lower after about an hour. September $1.89; corn ½ to 1⅛ lower, September $1.19⅛; oats ⅛ to ¼ lower, September new type contract 67⅝; rye 1 to 1½ cents lower, September $1.28¼; soybeans 2 to 2⅝ cents lower, September $2.20⅜.

Jackson Sets Probe Into Sheriff's Abuses

JACKSON (UPI) — An investigation of several accusations against the Sheriff's Department has been called for by the chairman of the County Board of Supervisors.

Board Chairman Philip S. Baumgarten said yesterday he has asked the Board's sheriff's committe to study the charges and report on its findings next month.

The Sheriff's Department has been accused of using prisoner labor to build a private raft for undersheriff Glenn Mann, of profiteering, of forcing employes to join the Republican Party, of nepotism, and of defying the Board's order to use two new cars for patrol duty.

"I feel some of the answers Sheriff Fred Hammer gave to the accusations were very weak," Baumgarten said.

News in Brief

Helen Murphy, 693 Lounsbury St., reported to Pontiac Police yesterday that her wallet containing $37 was stolen while she shopped at the J. C. Penny Co., store, 17 S. Saginaw St.

The First Social Brethren Church at 316 Baldwin Ave., was broken into but nothing taken, it was reported to Pontiac Police yesterday.

Notice—Coal Users. Coal prices are lowest at this time of the year, so retail prices are lower also. Mine prices increase when lake shipments start to the north in June and July, and retail prices will probably increase some about August 1. We wish to offer you our lowest price as it means a saving on next winter's heating cost. Place your order soon and save. Blavlock Coal & Bldg. Supply Co 81 Orchard Lake Ave., FE 3-7101. —Adv

Best Carpet Cleaners. Owned and operated by Jim Bradford. A number of years experience with one of Pontiac's largest carpet cleaners. Quality cleaning of carpeting, rugs and furniture. Free estimates at your convenience. Call Jim, FE 2-2442. adv.

Lynching in the U. S. fell from 115 in 1900 to just one in 1951.

DETROIT, July 23 (AP)—Cattle salable 200; trade moderately active, steady in a cleanup affair; supply largely slaughter sows and utility and standard steers and heifers; standard and low good steers 23.50-25.50; utility steers and heifers 21.00-24.00; utility cows 18.00-18.50; canners and cutters 14.00-18.00. Compared last week fed steers and heifers steady to 50c lower, with heifers mostly 25-50c off; cows mostly 1.00 lower; bulls 50-1.00 lower; choice steers 900-1150 lb. 27.75-29.00, few loads 29.50; good to low choice 26.00-27.75; standard to low good 23.50-26.00; utility 22.00-24.00; choice heifers 26.50-27.50; good 25.00-26.50; standard 23.50-25.50; utility 20.00-23.50; utility cows closed 18.00-19.00; canners and cutters 14.00-18.00; utility bulls 22.50-24.00; cutters 20.50-23.00; vealers salable none for the week vealers steady to strong; choice and prime 34.00-38.00, few 38.50; good 30.00-34.00; standard 26.00-30.00; cull and utility 17.00-26.00, sheep salable none compared last week spring slaughter lambs weak to 50c lower; old crop and yearlings 50-1.00 lower; ewes steady; choice spring lambs 22.50-23.00, few lots 23.50; utility and good 20.00-22.00; good and choice old crop and yearlings 17.00-19.00; utility and good 14.00-17.00; cull to choice ewes 4.00-7.00.

Hogs salable 50; not enough offered early for an adequate test compared week ago butchers 25-50c lower; sows steady estimates for Monday cattle 2700; calves 200; hogs 800; sheep 400; final hogs salable 100 butchers steady to 25c lower; nothing on sows; several lots use No. 1 to 3 and No. 2 and 3 butchers 190-240 lb. 14.00-14.25.

Most Stocks Little Higher

NEW YORK (AP)—Most stock market prices stepped higher in relaxed early trading today.

Motors, aluminums and selected electronics led the mild advance which lifted key shares from fractions to a point or so.

★ ★ ★

Some prices, after punching higher at the opening, pulled back as trading progressed.

Steels, aircrafts and chemicals were mixed. Oils eased a bit.

American Motors ran ahead close to a point. Ford, Chrysler and General Motors climbed around half a point.

Alcoa jumped about a point and a half and Kaiser Aluminum close to a point.

Youngstown Sheet & Tube, a strong gainer yesterday, continued higher with a two point advance. Jones & Laughlin rose more than a point. Bethlehem added a fraction but U.S. Steel and Republic Steel dipped a shade.

★ ★ ★

Among opening blocks were: American Motors up ⅞ at 48¾ on 4,500 shares; Bethlehem up ¾ at 57 on 2,400 shares; General Motors up ½ at 56⅛ on 3,500 shares; General Telephone unchanged at 76⅜ on 2,000 shares, and Royal Dutch off ½ at 41⅛ on 3,000 shares.

Detroit Water Hike Set

DETROIT (AP)—Detroiters' water bills are going up by 13 to 15 cents a month in the fall. The Water Board has decided on it, whether or not the city takes over the Wayne County Water System that serves western suburbs.

To Add Parking Space

DETROIT (AP)—The 400-car underground parking garage at the Civic Center's Cobo Hall and convention arena is to open Aug. 31. Two other facilities, one for 600 cars in Cobo Hall's basement and another for 1,150 on the roof, are to be finished later in the year.

"SMALL BEGINNINGS"—From this modest cut rate drug store of only 20 feet frontage (picture taken at second birthday in 1935), Simms Brothers, Inc., Department Store grew to be the largest locally owned cash retail business in Pontiac. Located at 98 N. Saginaw St., the store is celebrating its 25th anniversary this year. Owners of the store, brothers Meyer, Morris and Rubin Simon, cite Pontiac's great potential and the American way of life and business as reasons for their success.

Simms Brothers, Inc., Grew From Depression

'Bad Risk' Is a Success

Pontiac's Simon brothers parlayed a depression, a "bad risk" and the "personal touch" into a version of the old American success story.

Owners of Simms Brothers, Inc., department store, 98 N. Saginaw St., the three Simons boast theirs is the largest cash retail store in Pontiac that is locally owned.

It began as a small drug store with 20-foot frontage in 1934. Celebrating its 25th anniversary this year, the firm now encompasses what used to be six stores with a half acre of floor space and 120 feet building frontage.

It grew to be what it is today through enterprise and perseverance despite "better judgment" in 1934 that the venture was "a bad risk."

Meyer Simon was the spokesman for his brothers Rubin and Morris, and Morris' son Jack, a vice president in the firm, who will complete his service obligation in the Army in August.

★ ★ ★

"We started from small beginnings at the height of the depression," said Meyer. "We were told by various counsel and advisers in Detroit that we were making a mistake . . . that Pontiac was all washed up."

"At that time, in the throes of financial chaos, it was difficult to get two nickels for a dime.

"But, our judgment proved good. We are very confident that Pontiac continues to have a great potential. We are not at all hesitant to invest further in the growth of this city and particularly downtown Pontiac."

Meyer says Simms has always been alert to the changes taking place in the fields of retail and distribution, but maintains the personal association between the store and the public will always prevail.

"The public always likes to see a familiar face among the owner and employes," he says. "This is what has made America strong. The market place in America plays an important role in our way of life.

"It is the 'good morning,' 'thank you,' and the 'how are you?' in business that has made a strong and solid America."

The "personal" touch and "old fashioned American way" spawned a three-floor thriving enterprise from a small cut rate drug store.

Simms now employes as many as 150 people on its staff and sells everything "from mousetraps to $1,000 cameras."

★ ★ ★

The store will celebrate its anniversary with a special sale beginning Friday.

PUBLIC SALE—At 9:00 A.M. on July 31, 1959, a 1959 Ford, Fairlane Cl. Sedan, serial number B9FT200596 will be sold at public sale at 22500 Woodward, Ferndale, Mich., that address being where the vehicle is stored and may be inspected.

Aluminum Firms Line Up With Steel Industry Stand

NEW YORK (AP) — Federal mediators have arranged the first joint peace talks in the nine-day-old steel strike for next Monday.

★ ★ ★

But Joseph F. Finnegan, head of the Federal Mediation Service, repeated that he sees no early solution to the strike which has idled more than half a million steelworkers.

Meanwhile, the three top aluminum companies — Alcoa, Reynolds and Kaiser — rejected the United Steelworkers wage demands and lined up with the steel industry stand. The Steelworkers' contract with the aluminum companies expires July 31.

★ ★ ★

The aluminum companies followed the pattern of the original proposal by the steel producers to the union by urging the union to accept a one-year wage freeze and give up the cost-of-living escalator provision in the old agreements.

A total of 30,500 aluminum workers are represented by the union. About 28,000 other aluminum workers are covered by other unions.

★ ★ ★

After meeting Wednesday with union representatives and twice with steel industry negotiators, Finnegan said: "We feel we now have a better orientation on the differences" between the two sides.

★ ★ ★

He plans to meet today with Secretary of Labor James P. Mitchell in Washington.

Mitchell is acting as a fact-finder for President Eisenhower, who could halt the strike—at least temporarily—at any time through emergency provisions of the Taft-Hartley law.

Union negotiators had hoped that making some gains with the aluminum companies might set a wage pattern for steel. The union had asked a 15-cents-an-hour package in each year of the new contract. Aluminum wages now averages $2.91 an hour.

Report Blasts Rumor Queen 'Expecting'

REGINA, Saskatchewan (UPI)—Increasing speculation that Queen Elizabeth was pregnant has been denied by an official royal spokesman.

Assistant press secretary Esmond Butler said last night he was "authorized by Surgeon Captain D. D. Steele-Perkins to state that French reports that the Queen was pregnant were absolutely nonsense."

The announcement followed speculation that the upset stomach that forced the Queen to take two days off from her tour of the Yukon was really the result of pregnancy.

The monarch looked well yesterday and showed no sign of the three-day illness.

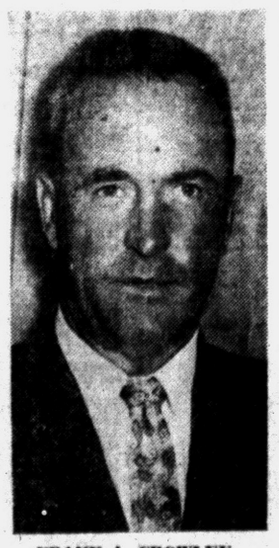

The Queen and Prince Philip, continuing their 45-day, 15,000-mile tour of Canada, will spend five hours here today.

Schools Superintendent Resigns at Howell

HOWELL (UPI) —The Howell School Board last night accepted the resignation of J. Wilis Owen as superintendent of schools, effective Sept. 20.

Owen came to Howell from Dearborn Township last year to succeed the retiring John Page. No successor has been named.

Asteroids are minor planets, none exceeding 300 miles in diameter.

FRANK A. CROWLEY

A charter member and past president of the Waterford Lions Club, Frank A. Crowley, 7341 Deer Lake Rd., Clarkston, has been elected deputy governor of Lions District 11-A2, which includes southeastern Michigan.

Shoot Back, Say Joint Chiefs of Staff

WASHINGTON (UPI) — U. S. military planes operating in international air space around Communist countries are under newly-emphasized orders today to shoot back if attacked by Red planes.

The authority to return fire when under attack is a matter of historic tradition. It has been implied in cold war directives from the joint chiefs of staff and spelled out in service regulations.

U. S. military planes have shot back on numerous occasions and top officials have asserted their right—and responsibility—to do so.

The rules were clarified yesterday in response to questions about the June 16 attack on a U. S. Navy patrol plane by Communist MIG fighters over the Sea of Japan.

Saves Sugar 15 Years

ALFRED, N. Y. (UPI) — When Prof. Ray W. Wingate of Alfred University moved into a new office, two five-pound sacks of sugar were discovered in the top of a phonograph in his old office.

Wingate laughingly recalled that they were part of his World War II sugar ration and that he'd put them there 15 years ago "for safekeeping" while he was out of town.

of iron ore will last about 200 years more at present mining rates.

KIDS DAY AT ELKS CARNIVAL — Youngsters are all smiles and laughter as they get set to board the "helicopter" at the Pontiac Elks Temple carnival. Yesterday's matinee was especially for underprivileged children and about 500 of them enjoyed free carnival rides, ice cream and cotton candy all afternoon. The carnival continues through Saturday night, with proceeds going to charity.

'Keep Talking' Is Amazing in Mere Fact It Still Exists

By FRED DANZIG

NEW YORK (UPI) — Keep Talking, which started life as a CBS-TV summer show, is one year old this month and frankly, I can't bring myself to wish it the traditional "many happy returns."

The fact that the program has survived this long makes it eligible for one of those "They said it couldn't be done" commercials.

Keep Talking, as resilient as a pogo stick spring, has pogoed all over the nighttime schedule, has gone on without sponsors, and on Sept. 29, is scheduled to pop over to ABC-TV's nighttime schedule, which sounds ominous.

The mystifying thing about Keep Talking is that it offers very few laughs, no action, no suspense, no audience participation, no exciting "game" elements.

★ ★ ★

There is a monotony about each show as the celebrities, such as Morey Amsterdam or Danny Dayton, try to insert a special phrase into an ad libbed story and have their opponents fail to pick out the special phrase.

Why does Keep Talking keep going? I suspect it is because of the low budget, which apparently impresses some sponsors.

Vincent Price, with a Vincent van Gogh beard, replaced the bland Carl Reiner as emcee last night and managed to give the half hour a minor lift.

Special guest Errol Flynn was a disappointment. He seemed strangely subdued, or befuddled by it all.

SHORT SHOTS: The Dave King Show on NBC-TV seems to be running out of steam. It's not booking "name" talent and is using sets from earlier shows, all of which gives it a typical summer replacement look.

THE CHANNEL SWIM: The director of Andy Williams' Tuesday night summer show, 27-year-old Norman Jewison, has landed the highly-prized directorial assignment for the CBS-TV variety series that Goodman Ace will produce as a Thursday night alternate with Playhouse 90. Andy still is looking for a fall show.

A filmed anthology series — that means "reruns" — takes over the Tuesday night slot to be vacated by Peck's Bad Girl after the Aug. 4 episode.

Medical Clinic Gets Tax Relief

District Judge's Ruling Will Allow Doctors Corporation Rights

DALLAS, Tex. (AP)—In what was called a far-reaching decision, U.S. Dist. Judge T. Whitfield Davidson ruled yesterday medical clinic associations are taxable as corporations, not as partnerships.

Attorney George Ray of Dallas said the decision was a precedent-setting income tax case affecting doctors, lawyers, architects and others selling personal services.

The case climaxed more than four years of litigation between the Internal Revenue Service and a senior partner in the Southwest Clinic Assn., Dr. Signey Galt.

Davidson ordered refunded income taxes paid by Galt on the basis of partnership in the association, which the IRS contended was a partnership.

Galt contended doctors belonging to the partnership should be taxed only on salaries and bonuses paid them and not on association profits. He said the undistributed profits should be taxed just like those of a corporation.

Ray said Davidson's decision will permit doctors to organize associations rather than partnerships and have all the benefits of corporations under the federal income tax law. Pension funds and other benefit programs can be set up within the organizations, he added.

Archbishop Fluffs Line Marrying Son

LONDON (AP)—Of all people, the Archbishop of Canterbury fluffed a line of the Church of England marriage ceremony.

It happened yesterday at Lambeth Palace, his official residence. Archbishop Geoffrey Fisher was marrying his son Humphrey to Diana Davis, an airline stewardess.

Dr. Fisher reached the line: "A woman should be loving." The Archbishop said: "A woman should be lovely." Hurriedly, he corrected himself. The congregation smiled.

Looks Like Debbie's Bob Neal Is Serious

By EARL WILSON

BEVERLY HILLS — If Debbie Reynolds' boy friend Bob Neal doesn't have serious intentions, then why is he furnishing a big new house here which has a cloverleaf swimming pool in the living room, enabling you to swim into the house instead of walking in, after which you can swim out, or even swim into the library?

WILSON

The rich young Texan — who gave Debbie a diamond clip and her father a speed boat—appraised our B.W. that he's impressed with Debbie because she doesn't call him often.

It seems when you're rich, young and Texan, and live out here, the girls operate on the theory, "Don't call me, I'll call you!" (Bob's friends say the pool itself cost $40,000 and Nicky Hilton calls it "Kookoo Lagoon.")

Lena Horne and Sid Shaw wrote a socko new song: "If You Can't Afford the Punishment, Daddy, Please Don't Commit the Crime," which she sings in Las Vegas and takes with her to a Monte Carlo gala Aug. 21 and to London Sept. 21. Though she'll get a Paris apartment Lena'll keep her 300 West End Ave. pad: "I don't want to live anywhere else," says she.

DEBBIE

Sophie Tucker's sequined western outfit (with two guns and western boots) stunned us in Las Vegas where she announced: "I'm going to go on living it up, because it's too late to live it down." Sophie, who says she has the 70-year-itch, 10 times worse than the seven-year variety, claims the saying, "The way to a man's heart is through his stomach" is a fake. "You never heard Frankie Sinatra or Dean Martin sing a love song to a steak."

Nanette Fabray now pedals her bicycle through Beverly Hills going to ballet class getting ready for TV . . . Steve Cochran is amazed that guys'll choose wives in light they wouldn't buy a suit by . . . Judy Garland impresses her friends now by insisting on going home early. She's feeling the best she has in years . . . Red Skelton says those Gabor girls never carry a grudge—they never hate a guy so much they'll give his diamonds back.

★ ★ ★

WISH I'D SAID THAT: Dick Shawn mentioned that the rock 'n' roll set has a new motto: "Clean Body, Clean Mind—Take Your Pick." . . . **That's earl, brother.**

Wants Headquarters Exempt From Taxes

LANSING (AP) — Atty. Gen. Paul L. Adams said today he will join the city of Lansing in fighting an attempt by the State Bar of Michigan to exempt its newly built state headquarters here from city taxes.

The city has asked the state supreme court to throw out a ruling by Circuit Judge Raymond W. Fox supporting the state bar request for tax exemption on the grounds the $300,000 building is public property.

Adams disagreed, contending the facilities are for the use of attorneys, not the public.

Uses Horse Sense to Deal With Dog

DECATUR, Ill. (AP) — A woman who collects door-to-door usually stops at one house to throw a stick for a big dog which loves to retrieve things.

On one trip she accidentally dropped her purse containing the collection money and the dog grabbed it and raced away. The woman was in pursuit across lawns when she thought to throw a stick.

The dog dropped the wallet and chased the stick.

Change Schools' Name

ALBANY, N.Y. (AP) — The State University's 11 teachers colleges will be called "colleges of education" as of Sept. 1. University trustees said the new name would be more appropriate because the institutions serve as research centers as well as train teachers.

Splitting Up Ships Proves Economical

TEXAS CITY (AP) — Some Texas fleet tanker operators now cut their ships in half — right across the middle — in a radical new plan they call "jumboizing."

The surgery takes away an old, worn-out midsection. Then a larger midsection is inserted.

Result: A bigger, better oil tanker with the same power and speed at a fraction of the cost of a new vessel, and done in a fraction of the time required to build a new ship.

There Oughta Be a Law

BUDAPEST, Hungary (AP) — The Communist-controlled parliament has scheduled a session for July 29-30 to act on the budget and a new civil code dealing with property rights of citizens and state organs.

Moscow Reports Use of New Airliner

LONDON (AP)—Moscow Radio reported today that a new four-engine turbo-prop airliner, the Anio, has gone into service on the Soviet Union's internal air routes.

★ ★ ★

The aircraft made its first passenger flight Wednesday to Simferopol, in the Crimea. The broadcast said it covered the 807 miles in 2 hours 15 minutes at speeds up to 435 miles an hour.

Moscow Radio said the plane's designer, Antonov, is working on a new version of the aircraft which will seat 100 passengers. It did not say how many persons the present model carries.

For the second year in a row, the number of daily newspapers, counting both English-language and foreign-language dailies, in this country has increased.

Watts My Line? Why, Volts Wagen Driver

GRAND RAPIDS (UPI) — Grand Rapids electricians like to dress up their trucks with signs.

A truck owned by one electric company has a sign on the back that reads: "Watts My Line."

And an American-made Consumers Power Co. truck has a sign on the back that reads: "volts wagen."

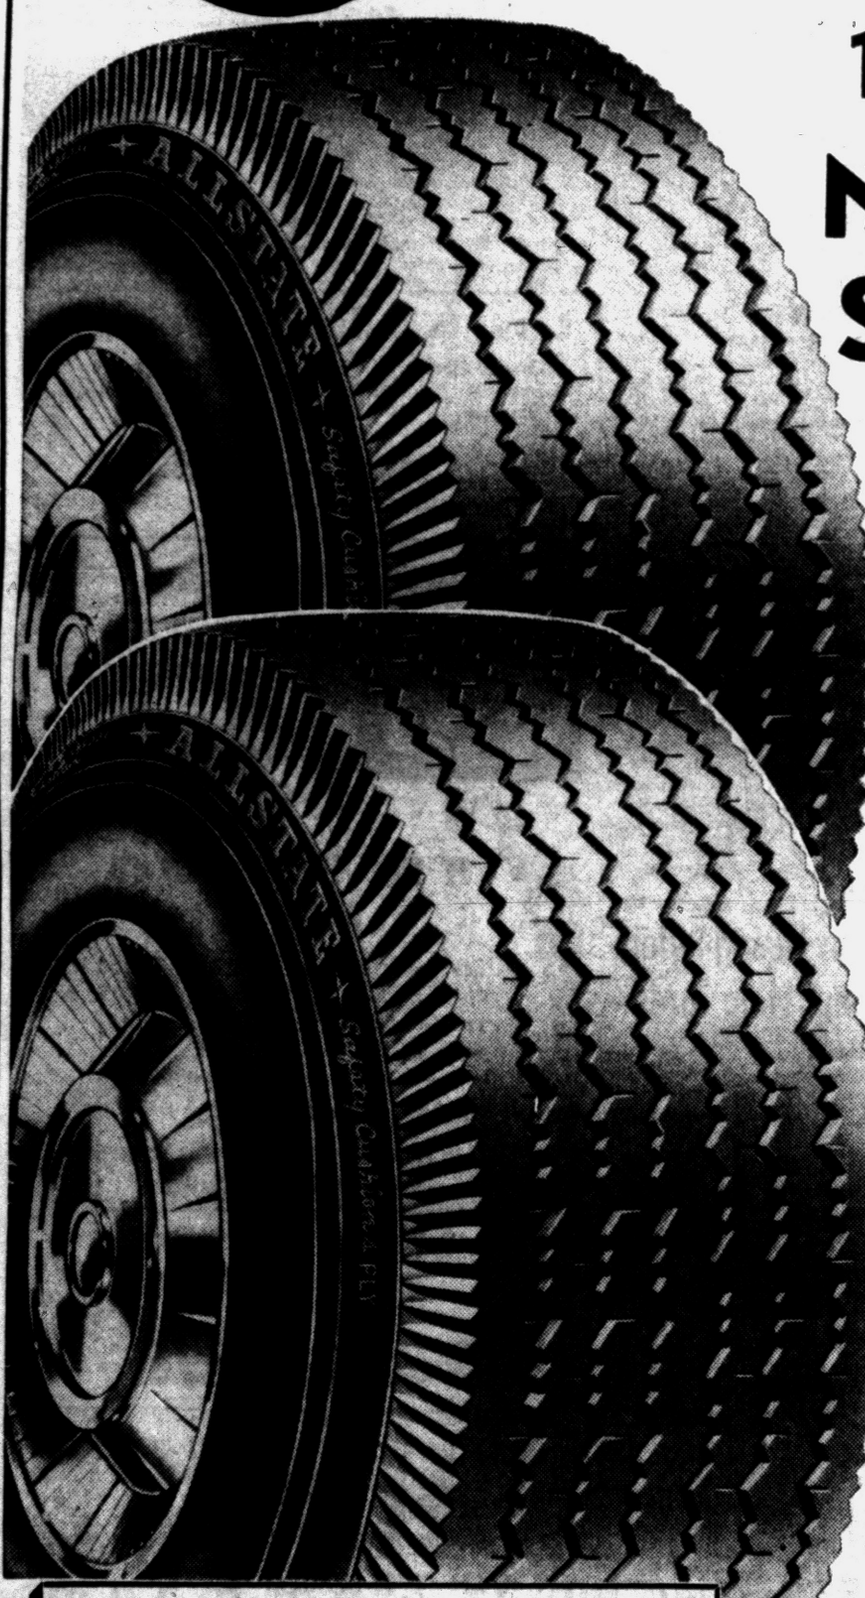

Plane Lands on 1 Engine

BINGHAMTON, N.Y. (AP) — A United Airlines plane, one of its two engines disabled, landed safely Wednesday night at Broome County Airport with 21 passengers and a crew of three. No one was injured. Pilot Mike Baring said he believed carburetor trouble caused the engine to fail near Elmira, N.Y., on a flight from Boston to Cleveland.

Birth rate of the U. S. in 1954 was 25.2 per 1000.
