

Steel Shortage Blamed for Overpass Delay

OVERPASS WORK DELAYED—A shortage of steel beams has stopped construction work on the Orchard Lake Avenue overpass, now being built as part of the planned relocation of Telegraph Road near the western city limits of Pontiac, Highway Department officials confirmed yesterday. When completed, through traffic on Telegraph Road (foreground) will pass under Orchard Lake Avenue through the overpass (construction in center of picture). The present Telegraph Road will remain as an access route to the mile-long relocation. Traffic on Orchard Lake Avenue, now being routed around the construction site in a loop to the north, is periodically blocked during rush hours.

due through the overpass (construction in center of picture). The present Telegraph Road will remain as an access route to the mile-long relocation. Traffic on Orchard Lake Avenue, now being routed around the construction site in a loop to the north, is periodically blocked during rush hours.

Engineer Tells Why Underpass Project Lags

Harold R. Puffer, State Highway Dept. bridge engineer, has confirmed that the Orchard Lake-Telegraph grade separation will not be completed until June, 1957, because the contractor was "unable to obtain delivery of steel beams."

It was supposed to be finished Dec. 15, 1956.

"We fully expect the final completion of this project will be early in June of 1957 and do not see how it can possibly be any earlier," Puffer said in a letter to the Pontiac Chamber of Commerce.

The chamber last Friday wired Highway Commissioner Charles M. Ziegler asking why a 34-day

steel strike should cause a six-month delay. The Press carried an editorial the same day demanding an answer for the delay.

Ziegler yesterday supported Puffer's reasons for the delay. "It is like this everywhere in the country and there isn't much we can do about it," he replied.

BIG 'E' CLAUSE

Puffer said under the original contract the completion date was December, 1956, "presupposing they (the contractor) could get their steel delivered promptly."

The letter said: "At the time bids were taken (Feb. 8) the earliest delivery date on which the low bidder could procure a firm commitment was Feb. 1, 1947."

"Actually the steel strike has not delayed the completion of this structure materially since the steel situation was critical when we took bids, and promised delivery dates

were running a year to 14 months after the placing of the order."

The letter added that the 1957 delivery date "will no doubt be set back 30 or 40 days. We do not believe, however, that this will substantially delay the final completion of the project inasmuch as the delay comes at a time when the weather is usually not mild enough to pour concrete without freezing."

Ziegler said he expected steel to be delayed a "full 40 days because of the strike. With the highway building program under way in the country the demand for steel is going to be even greater."

Teenager Averts \$250,000 Blaze With Bulldozer

A Utica High School student bulldozed his way into a hero's role Wednesday, preventing what could have been a \$250,000 fire.

Sixteen-year-old Ken Jackson of Washington, a ninth grader at Utica High, was working in Mt. Clemens when a truck caught fire near two gas pumps.

He leaped aboard a bulldozer, and pushed the blazing vehicle away.

One of the pumps led to a 4,000 gallon fuel-oil tank, the other to a 2,000 gallon gasoline tank. High-flaming flames licked at the bulldozer tracks coated with traces of spilled gasoline.

His employer and the neighboring truck owner cited his quick action as preventing loss of storage buildings and equipment in them.

Merged Banks Tap Five for New Posts

Five appointments to executive posts in the merged Oakland County State and Community National banks were announced by president A. C. Girard. All will serve at the Milford institution.

The new branch will be headed by Paul H. Sinclair, former Oakland County State president, who has been named an assistant vice president of Community National.

Norman Bell has been appointed an assistant cashier while three others—Albert Johnson, Mrs. Mary Lou Gharriy and Mervin H. Kidd—were named assistant managers.

Two former directors of the Milford Bank, Bernard K. Kitson and Nelson W. DeGarmo, will serve on the branch's advisory committee.

The appointments will become effective Saturday, date of the formal merger.

GIs Spending Plenty

TOKYO (INS)—GIs and the Army spent \$465 million in Japan the year ending June 30. The Army announced the following breakdown of expenditures: 1. Contracts with Japanese firms—\$235 million; 2. Purchase of Japanese goods—\$85.5 million; 3. Individual spending—\$144.5 million.

Truman to Get in Act Too

Ready, Set, Go—Campaign

KANSAS CITY (INS)—Former President Harry Truman is going to get into the political campaign full blast.

He announced at his Kansas City office yesterday the Democratic National Committee asked him to make two or three speeches a week.

He said the committee is drawing up a list of proposed appearances, probably starting the second week in September. He said he would speak only at the invitation of the committee.

WASHINGTON (INS)—President Eisenhower will launch his bid for the labor vote Saturday—two days ahead of Adlai Stevenson's Labor Day address in Detroit—with a high-powered speech from the White House.

The brief remarks he had been scheduled to make at ceremonies commemorating a new Labor Day stamp have, it was learned, been expanded into what approaches a major address.

Its main theme will be the task the free enterprise system faces in improving the lot of the working man throughout the world as the best answer to communism.

Wyatts' Neighbors Reveal Wierd Tale of Tied Child

By LAWRENCE S. MARTZ JR.

Keego Harbor neighbors of the William Wyatt family, filing through the Oakland County prosecutor's office yesterday, unfolded a strange, grim story.

It was the story of a mother who told them her child was a friend's daughter, being boarded for \$25 a week. The story of the little girl, never seen by the neighbors except as a pale face peeping through upstairs blinds that were always drawn.

Woman Jailed in Riesel Case

Wife of Alleged Brains Hinted to Have Heard Talk on Acid Throwing

NEW YORK (INS)—The wife of an alleged coconspirator in the acid attack which blinded labor columnist Victor Riesel has been held in \$100,000 bail as a material witness in the case.

Mrs. Leni Miranti was arraigned yesterday before U.S. Commissioner Earle N. Bishop. The high bail was set assertedly for her own protection and because she heard conversations pertaining to the acid throwing.

Thomas B. Gilchrist Jr., chief assistant U. S. attorney, told the court: "We want to protect her from bodily harm. She's a witness..."

Mrs. Miranti interrupted the attorney's remarks, saying, "I don't know what I'm a witness to."

The woman's husband, Gondolfo Miranti, 37, was arrested Aug. 17 with Joseph P. Carlinio, 43, each held in \$100,000 bail and charged with conspiracy in the assault last April 5 on Riesel as he emerged from a Broadway restaurant.

Abraham Telvi, described as the acid thrower, was found slain July 28 on a lower East Side Street.

The government charges that the 41-year-old Riesel was attacked to prevent him from testifying before a federal grand jury probing labor racketeering.

Arrested Tuesday and arraigned yesterday in the case were Johnny Dio, 42, labor racketeer and accused mastermind in the plot against Riesel; Charles Tuso, 44; Domenico Bando, 47; Charles Carlinio, 43—no relation to Joseph Carlinio—and Dio's brother Thomas, 40.

Crack Down on Crime

DETROIT (INS)—The Detroit Police Department's two field inspectors were under orders today to work around the clock if necessary in a new crackdown on crime launched by Commissioner Edward S. Piggins.

French Troops Poise for Possible Suez War

Traffic Officials Increase Force for Weekend

Local Safety Authorities Hopeful of Matching Perfect '55 Mark

An all-out onslaught on Labor Day weekend traffic fatalities will be launched tomorrow afternoon when every available police officer and vehicle in Oakland County will be pressed into service for a 78-hour patrol of area highways.

The order for increased vigilance was issued by law-enforcement officials in the face of a National Safety Council warning that 480 persons may lose their lives on crowded thoroughfares.

Local safety officials are hopeful of matching last year's record of no county fatalities against a state toll of 25 deaths.

The Pontiac State Police Post will station troopers at various trouble spots in accordance with a statewide plan to have a record number of officers on Michigan highways.

An estimated three million vehicles are expected to flood state streets and highways between Friday and Monday evening.

"Our entire department will be on duty—all leaves have been canceled from noon Friday to midnight Monday, Sgt. Charles Mulick of the Pontiac Post said yesterday.

Meanwhile, the Oakland County Sheriff's Department and Pontiac Police are also making plans for constant patrol of city and county highways over the first and only long holiday weekend of the year.

"We're going to have everybody out on the road from Friday afternoon to Monday night. All time off has been canceled," Sheriff Frank Irons said.

Pontiac police chief Herbert Straley has reportedly assigned several patrol cars and motorcycles for special duty over the weekend, beginning Friday night.

Red Cross radio cars will be manned by amateur radio operators from the Oakland County Relay League and experienced first aiders.

Temperature, Rain Normal?

Weather Bureau's Figures Challenge Credulity of All

In Monday's Pontiac Press, W. W. Oak, head of the Weather Bureau in this area, set forth his ideas on current weather conditions.

His findings came as a distinct surprise, not to mention a bit of a shock and a challenge to everyone's credulity.

Rain is normal.

Temperature is average.

"This has been a usual summer," says he and he possesses the records to back up his assertions. His declarations come as a huge surprise to a whole host of disbelievers and The Press was included in those ranks.

Asked for statistical confirmation of his assertions, Mr. Oak sends us the average temperature for 1956, month by month, together with the normal.

Here they are:

	1956	Normal
Jan.	26.3	25.3
Feb.	28.0	26.1
March	32.9	35.5
April	45.7	46.6
May	56.8	58.2
June	69.8	68.1
July	71.8	73.1

This shows that through the first seven months the temperature in 1956 averages .4 of a degree warmer than normal. This amount is absolutely imperceptible to anyone, including a thermometer.

The rainfall is also intriguing.

Through July, we are actually 1.57 behind normal. August will probably wipe out this slight deficit, but even so, we will be close to average.

Practically half of this year's rainfall came in two of the seven months: April and May. These two villains produced 8.29 inches. However, normal for these two months is 6.40.

August may show a heavier total than usual.

Here are the figures up to August:

	1956	Normal
Jan.	.93	1.80
Feb.	2.20	1.74
March	2.38	2.35
April	3.96	2.94
May	4.33	3.44
June	1.61	2.90
July	1.20	2.91

Expect Nixon Dad to Die

LA HABRA, Calif. (INS)—Vice President Richard M. Nixon's critically ill father, 77-year-old Frank Nixon, clung to life by the slenderest of threads today. Hope for his recovery virtually was abandoned.

Bolster Britain; Paratroops Shift to Cyprus Bases

NATO Council to Meet in London Next Week to Consider Dispute

NICOSIA, Cyprus (INS)—French airborne troops joined British troops on the island of Cyprus today in case the Suez Canal dispute erupts into war.

The Cyprus Times said 1,000 men arrived. No official figure was given.

Thus Britain and France served notice on Egypt they have a clear-cut plan for military action if shipping is interfered with on the canal.

The first French soldiers to arrive at the British crown colony, under an Anglo-French agreement announced yesterday, landed at the Royal Air Force base at Akrotiri.

The French forces were flown to Cyprus with the announced purpose of being closer to Egypt should there be threats to French lives or property in the Middle East.

In London, the British Foreign Office announced the North Atlantic Treaty Council will meet in Paris next week to consider the dispute.

A five-nation committee representing the Western allies and others is scheduled to begin talks with the Egyptians Monday in Cairo on (Continued on Page 2, Col. 3)

9 Die in Alaska Airliner Crash

22 Go Down in Flaming Vancouver - to - Tokyo Plane; 6 Still Missing

KODIAK, Alaska (INS)—A flaming Canadian Pacific Airlines DC-8B crashed on bleak, desolate Unimak Island at the tip of the Alaska Peninsula last night, killing at least nine of the 22 persons aboard.

The search and rescue unit at Kodiak Naval Station said there were seven known survivors. Six persons were unaccounted for. Several of the survivors were reported to have suffered serious injuries.

The names of those aboard the craft, bound for Tokyo from Vancouver, B. C., were not available. Cmdr. W. W. Clark, executive officer at the naval station, said the plane, seven hours out of Vancouver, went down at 9:58 p.m.

The pilot of the craft, Clark said, radioed Cold Bay, Alaska, just before the crash that his ship was on fire. He did not give the cause.

Clark said the airliner crashed near the shore of Unimak Island.

Burkemo, Fairfield Lead in Motor City

Wally Burkemo and Don Fairfield each fire a red hot 69 to share the early lead in the Motor City golf tournament at the Western Golf course in Detroit today.

The Franklin Hills pro shot a par 36 for the front nine and came in with a 3-under 33 on the back nine.

Dave Douglas held the lead with a 35-36-71 until Burkemo and Fairfield finished at 1:00 p.m.

Tommy Shannon of Orchard Lake, along with Dave Ragan of Daytona Beach, Fla., and Bo Winginger of Odessa, Tex., each carded 72.

Other 18-hole results: Ray Malen, Ben Knott and Ray Beatty with 77; John Knight and Harold Manning with 74; Jim Puntum, Mike Anderson, Edon Briggs with 75; Gary Lester, E. S. McQuerry, Joe Watson and Bill Inman with 76.

Nine holes against Edna Clark, Ben Fleck, Pete Cooper with 37; Johnny Brown, Wally Ulrich and Al Rosenthal with 38 and Doug Ford 39.

Another Alligator Found Locally

Local tourist officials have theorized that some Florida residents, jealous of the natural paradise of Oakland County and the throngs of happy vacationists here, had quietly begun stocking local lakes with a few sharp-toothed Florida imports.

When newsmen began cruising Lower Long Lake in boats in search of the elusive amphibian, publishers voiced doubts of the existence of the 'gator.

One was convinced his reporters were on a boondoggle, soaking up

sun and being gently lulled by the slap of little waves—acts not conducive to grinding out copy.

Plans for the formation of an Oakland County Volunteer Alligator Battalion and Black Panther Auxiliary are still rather nebulous.

ANOTHER ONE—Giving further credence to the theory that someone is stocking Oakland County lakes with young alligators is this little monster that the grinning foursome plucked out of Lower Straits Lake yesterday. Left to right are Donald Mott, Clifford Humble, Robert and Ronald Kinney, all of Commerce Township.

TWO

Dem Pulls Out of Illinois Race

Party Chiefs Look for New Nominee to Enter in Gubernatorial Fight

CHICAGO (INS) — An intense search was carried on today by Democratic leaders to come up with a candidate to replace Herbert C. Paschen as the party's nominee for governor of Illinois.

Paschen, Cook County treasurer, withdrew as a candidate yesterday in Chicago following an investigation into a so-called welfare fund in his office.

His withdrawal came 24 hours after he was called before the Cook County Grand Jury to explain about the fund and shortly before his appointment with investigators for the U. S. Senate Banking and Currency Committee.

In his statement of resignation, Paschen said he had been urged to stay on as a candidate but declared that "I feel I must devote all my energy and time to repel attempts to beset my reputation."

It had been revealed that the fund was maintained through contributions from banks holding interest-free deposits of county money and that some of the money may have been used for political purposes.

The Senate investigators want to know exactly how Paschen's office determined what banks should receive county money.

Paschen's withdrawal now puts Chicago Mayor Richard J. Daley on the spot. Daley, who urged Paschen to step out because he would hurt the ticket, must come up with a strong candidate.

Pontiac Deaths

Mrs. Hamilton Bartlett

Word has been received of the death of Mrs. Hamilton (Sarah) Bartlett, 82, mother of Mrs. Monroe M. Osmun, of 100 Ogden Rd. She died yesterday in Pleasant View Hospital, Corona, after a prolonged illness.

Mrs. Bartlett had lived most of her life in Owosso where she was a member of the Congregational Church.

Besides Mrs. Osmun, she is survived by three other children, Edward Bartlett of Saginaw, Mrs. Dale Williams of Chicago, Mrs. Betty Harcourt of Fenton; nine grandchildren and five great-grandchildren.

Service will be at 2:30 p.m. Friday from the Lyons-Jennings Funeral Home in Owosso.

Mrs. Eric Quickner

Mrs. Eric (Maggie K.) Quickner, 81, died suddenly yesterday afternoon of a heart attack.

She was born in Sweden on Sept. 13, 1874, the daughter of Olaf and Carrie Oslund.

A member of the First Baptist Church, she had been a resident of Pontiac 12 years, coming here from Cambridge, Minn.

Surviving are three children, Ernest Quickner of Minneapolis, Minn., Mrs. Aurelia Nordlund and Doliver Quickner, both of Pontiac; four grandchildren, four great-grandchildren and a sister, Mrs. Della Moss of Pontiac.

A prayer service will be conducted at 8 o'clock this evening at the Sparks-Griffin Funeral Home by the Rev. William E. Hakes of the First Baptist Church. The body will then be sent to Cambridge for burial.

Gold Cup Boat Driver Is Critically Injured

DETROIT (AP) — Veteran powerboat driver Joe Taggart was critically injured today when his motorboat, the "Sho-Mo," was struck by a Detroit River tugboat while he was piloting in Gold Cup trials on the Detroit River, slipping over at about 115 M.P.H. and sank.

Spectators watching the huge unlimited class boat whip over the three-mile course said it "appeared to disintegrate."

Taggart, a veteran Detroit pilot, was rushed to a hospital in a critical condition.

The Weather

For U. S. Weather Bureau Report
PONTIAC AND VICINITY—Partly cloudy with a chance of showers this afternoon. Tomorrow becoming more overcast tonight. Tomorrow's forecast: Partly cloudy with scattered showers or thunderstorms. Little change in temperature. High today and tomorrow 81-82. Low tonight 60-61. South to southwest winds 10-20 miles per hour.

Today in Pontiac

Cost of Public Aid Program Has Risen by \$67 Million

WASHINGTON (AP)—The number of persons receiving public assistance declined during the year ended June 30 but expenditures for assistance programs increased by almost 67 million dollars, the government said today.

The Social Security Administration reported about 5,800,000 persons on various public assistance rolls—a decline of about 69,000 from the previous total.

The report said states, territories and the federal government spent \$2,796,000,000 on all types of public assistance during the fiscal year.

This was the statistical picture for the four aid programs assisted by federal funds:

Old-age assistance—a decrease of 24,800 persons to a total of 2,523,700, but an increase in expenditures from \$1,583,000,000 to \$1,637,000,000.

Dependent children—a decline of 6,680 families brought the number receiving assistance down to 613,700 families and 1,707,600 children. Expenditures increased from 625 to 645 million dollars.

The blind—a slight increase to a total of 105,800. The cost went up from 70 to 73 million dollars.

The permanently and totally disabled—also a slight increase to a total of 258,300. Expenditures jumped from 148 to 166 million dollars.

The number of cases on the general assistance lists—financed by states and localities—dropped by 20,000 to 290,000. The states and

their local governments spent 269 million dollars, down from 287 million in the preceding fiscal year.

The average monthly payment under each of the four federally aided programs was higher in June than it was a year earlier. For old-age assistance it was \$1.99 higher at \$54.29; for dependent children it was \$2.49 at \$39.27 per family; for the blind it rose by \$3.01 to \$80.42 and for the totally and permanently disabled it was \$1.79 to \$56.72.

Luckless Shine Has Rough Time Making a Dime

ALBUQUERQUE, N.M. (AP)—Some days a guy just can't make a dime.

Police said Kenneth Manderville, 11, of Albuquerque, started out to make some money in the downtown area by shining shoes.

After arriving in a busy section of the city, he was told by police shining shoes was not allowed without a license.

The lad started home. He later told police a man drove up to him in a car and told him he was a police officer. The boy said the man searched him and took 25 cents he had in his pocket.

Science Studies 'Solid Physics'

Research Labs Expand to Find New Products, Advance Industry

By SAM DAWSON
NEW YORK (AP)—Curiosity about what goes on inside a solid hunk of matter is costing some corporations plenty. It's likely to cost them more because expensive research facilities are being expanded.

The reason: What scientists call solid state physics has been rewarding many companies with profitable products they couldn't make 10 years ago. One example is the transistor, the little rod that can replace some radio tubes.

Industrialists freely predict that within the next 10 years the major share of many businesses will come from products not now in production.

National Carbon next month will open a multimillion-dollar laboratory in Parma, Ohio, to concentrate on chemical and solid state physics.

Bell Telephone Laboratories' work in that field brought about the solar-battery operated by the rays of the sun.

U.S. Steel opened a research center a few months ago in the Pittsburgh area, where solid state physics is applied particularly to metals. Other steel companies' research scientists work on specific problems in the same field. They learn, for example, about the strength and fatigue of metals, how to improve the one and forestall the other.

Solid state physics studies the ties that bind atoms together in solid matter and the movement of the electrons surrounding the nucleus of the atom. Nuclear physics, on the other hand, studies the core of the atom and from this study comes those loud bangs in the Pacific Ocean and the Siberian wastes.

The study of solids, however, is concerned more with development of materials and processes for the metal, electronic, power, chemical and electro-chemical industries.

By learning how some electrons can move in the solid matter under the influence of electric or magnetic fields or under the influence of light of certain energy or wave lengths, scientists have developed such things as: Non-metallic magnets used in computers of advanced design; non-metallic powders used in modern tape recorders; solid state rectifiers to transform alternating current to direct current.

They are now seeking to perfect: Intermetallics, which they describe as completely new materials with properties not found in materials used by industry today; new catalysts to speed up chemical and physical reactions in industrial processes; new types of TV receiving and transmitting tubes and a host of new electronic marvels.

Dr. W. R. G. Baker, vice presi-

CONVERTIBLE SCOOTER—Disgusted with fighting the elements, a Berlin, Germany, student came up with this do-it-yourself cockpit affair. From scrap materials, he made a shatterproof glass and metal hood that allows him to keep a dry head, no matter what.

dent of General Electric in Syracuse, says, "our research and development engineers are busy constantly developing new products."

Special Delivery

SAN FERNANDO, Calif. (INS)—Navy veteran James J. Sabourin got the duffie bag the other day that he had mailed on ahead from Detroit when he was discharged. Sabourin was discharged in 1948.

Sets Week to Encourage Servicemen to Vote

LANSING (AP)—Gov. Williams today endorsed a campaign by the American Veterans Committee to stimulate soldier voting.

The AVC has set aside next week for an appeal to families and friends of servicemen to write them urging that they cast absentee ballots. Williams proclaimed the period Servicemen's Voting Week.

PRIVATE STUDIO — Berlin sculptor Hans Haupe chips busily away in what may be the world's most primitive working studio. It consists of wooden beams, a few sheets of corrugated sheet iron and weeds to shelter the artist from wind and rain. He's creating stone figures for a West Berlin park.

DA Seeks Early Kidnapers' Trial

Accused Mechanic Is Glum at Indictment—Defense Wants Delay

MINEOLA, N.Y. (AP) — The district attorney's office will seek an early trial for Angelo John LaMarca, accused of kidnapping and murdering 32-day-old Peter Weinberger.

After LaMarca's indictment yesterday, Harold Spitzer, Nassau County assistant district attorney, said: "We will move to get the case on the court calendar as soon as possible."

LaMarca, 31-year-old mechanic and taxicab driver and the father of two, stood glumly with eyes downcast during a brief court session after his indictment. He showed no emotion when the charges were read.

There was no formal pleading to the indictment. David M. Markowitz of New York City, one of two defense attorneys, asked for a week's postponement to "study the indictment." County Judge Cyril J. Brown set Sept. 5 to hear the defense plea.

Markowitz said he planned to have LaMarca examined by a psychiatrist after the arraignment. The lawyer had indicated the day before that the defense would be "temporary insanity"—brought on by "desperation over debts."

LaMarca allegedly attempted to collect \$2,000 ransom from the infant's parents, Mr. and Mrs. Morris Weinberger, after snatching little Peter from his carriage on the patio of the Weinberger home at Westbury July 4. The baby's remains were found last Friday beside a roadside where LaMarca abandoned him.

FEDERAL DEPT. STORES - SAGINAW AT WARREN, PONTIAC

Mothball 'Scare-gulls' May Cut Plane Mishaps

WASHINGTON — The use of mothballs on military airport runways near seacoasts is being considered by the Air Force for protection against seagulls. Plane collisions with the big birds have occasionally caused severe damage to planes and pilots.

The Air Force borrowed the idea from Britain's Royal Air Force, which has had some success using mothballs as "scarecrows" for seagulls. The birds hate the odor.

Tree Is 320 Feet High

HOBART, Tasmania — A 320-foot giant swamp eucalyptus tree found in southern Tasmania recently is believed to be the tallest tree in Australia and possibly the tallest gum tree in the world. Its age is estimated at 350 to 400 years.

A hangar at the Naval Air Test Center at Patuxent River is lined with lead to exclude electrical interference. It can accommodate the biggest military planes while their radio installations are being tested.

Mom Replaces Dad as Justice of Peace

ALBUQUERQUE, N. M. (AP) — The Grier family is keeping public service in the family.

Robert D. Grier was elected in 1954 as a Justice of The Peace of Precinct 4. He was a Republican then but switched to Democratic last April — too late to run as a Democrat under the state's new primary law.

So Mrs. Grier filed as a candidate for the post. She has no opposition

in either Democratic or Republican parties and will be elected automatically. She is a Republican.

Rats 'Walk Like Men'

WASHINGTON — The Smithsonian Institution's mammal collection has received specimens of rats "that walk like men" and many other small mammals of the North African desert. The biped rats are jerboas. They're 7 to 8 inches long, with big bushy tails. They ordinarily progress on their hind legs somewhat like a kangaroo.

'Highest Peak' Erroneously Given

SANTIAGO, Chile — Geographers, geologists and scientists who lugger of measuring instruments reports that Ojos del Salado, at 23,288 feet, is the world's highest mountain. If their measurements are correct, this mountain, on the Chilean border, is 1,000 feet higher than Aconcagua, which has been the loftiest.

Damage Costs Zoom

on the number of in-

Damage was set at \$33.3 million as much as for 1955 and about 5 million more than all of 1954.

Damage in 1955 totaled \$25,844,200 coming in five months. Property in 1954 was \$28,367,400, in the first five

months.

Man, Was He Scared!

OKLAHOMA CITY (AP)—WKY-TV cameraman Cliff Adkins wanted to take pictures at the Southwest American Exposition and set his equipment in the arena. While he was focusing on the bull chutes a rodeo clown walked up behind him and suddenly rang some cowbells in his ear.

Bob Belcher, exposition official, says: "He just grabbed up all his equipment and hurdled the 8-foot fence into the orchestra pit. Don't see how he did it, but he did."

Mothball 'Scare-gulls' May Cut Plane Mishaps

WASHINGTON — The use of mothballs on military airport runways near seacoasts is being considered by the Air Force for protection against seagulls. Plane collisions with the big birds have occasionally caused severe damage to planes and pilots.

The Air Force borrowed the idea from Britain's Royal Air Force, which has had some success using mothballs as "scarecrows" for seagulls. The birds hate the odor.

Tree Is 320 Feet High

HOBART, Tasmania — A 320-foot giant swamp eucalyptus tree found in southern Tasmania recently is believed to be the tallest tree in Australia and possibly the tallest gum tree in the world. Its age is estimated at 350 to 400 years.

A hangar at the Naval Air Test Center at Patuxent River is lined with lead to exclude electrical interference. It can accommodate the biggest military planes while their radio installations are being tested.

Mom Replaces Dad as Justice of Peace

ALBUQUERQUE, N. M. — The Grier family is keeping public service in the family.

Robert D. Grier was elected in 1954 as a Justice of The Peace of Precinct 4. He was a Republican then but switched to Democrat last April — too late to run as a Democrat under the state's new primary law.

So Mrs. Grier filed as a candidate for the post. She has no opposition.

Rats 'Walk Like Men'

WASHINGTON — The Smithsonian Institution's mammal collection has received specimens of rats "that walk like men" and many other small mammals of the North African desert. The biped rats are jerboas. They're 7 to 8 inches long, with big bushy tails. They ordinarily progress on their hind legs somewhat like a kangaroo.

'Highest Peak' Title Erroneously Given?

SANTIAGO, Chile — A party of 27 geographers, geologists, and other scientists who lugged a laboratory of measuring instruments with them reports that Ojos del Salado, at 23,288 feet, is the Western Hemisphere's highest mountain.

If their measurements are correct, this mountain on the Argentine-Chilean border is quite a few feet higher than Argentina's Mount Aconcagua, which has been considered the loftiest.

Meat Output Sets Mark

CHICAGO — The nation's 1955 farm production of meat animals hit an all-time record tonnage of 50 billion pounds, live weight. It exceeded the 1954 total of 48.8 billion pounds, the previous high, and was 5 1/2 billion pounds above the 1953 output.

All the primary kaolin, which is used in the manufacture of porcelain and china, produced in the United States comes from North Carolina.

Weatherman Flooded With Rainy Information

PAWNEE, Okla. — It had been so long since it rained here that when moisture finally came weather observer Loyd Brumington was swamped with calls wanting to know how much fell.

Instead of answering with "hello," Brumington was greeting everyone with a cheery "74 of an inch."

Test Meat Preservative

WELLINGTON — New Zealand plans to make trial shipments of antibiotic-treated meats to London to determine the effectiveness of antibiotics in reducing waste and spoilage of meat, particularly during the shipping period. Selected lots of frozen and chilled beef, lamb, and mutton will be treated before shipment and examined at various times while en route to their destination.

London has 18 railroad terminals.

Non-skuff shark-skin toe and quarter. 8 1/2-12; 12 1/2-3.

Chief Lays Down Law —Cash Buys Coffee

GREENVILLE, N. C. (U. P.) — The cop on the beat must pay for his coffee from now on—and his milk.

Police Chief S. G. Gibbs decreed this after a dairyman reported the freeloading cops had consumed some 60 quarts of his milk. The cops said they thought they drank with the dairyman's consent.

Now, says Gibbs, not even a cup of coffee from any shopkeeper without plunking down the cash.

Tornado Death Toll Dips, But Damage Costs Zoom

WASHINGTON (U. P.) — The Weather Bureau states fewer lives were lost, but property damage ran considerably higher from tornadoes the first five months of this year than in the same period last year.

The figures, which carry midway through the peak of the tornado season, showed 392 twisters, the same number as in 1955 but 29 more than in 1954.

The bureau said twisters killed

28 persons through May compared with 114 in 1955 and only 23 in 1954. Figures were not available on the number of injured.

Property damage was set at \$33,625,900, almost as much as for the entire 1955 and about 5 million dollars more than all of 1954.

Property damage in 1955 totaled \$33,975,700, with \$25,844,200 coming in the first five months. Property destruction in 1954 was \$28,367,400, with \$20,601,700 in the first five months.

Unofficial figures for the first

seven months this year show 511 tornadoes, compared with 417 in the like period a year ago and 514 in 1954. Totals are not available on lives lost and property damage.

The peak period for tornadoes comes in May, according to Weather Bureau records. The major damage is concentrated in from March through July each year. After July the number dwindles.

Man, Was He Scared!

OKLAHOMA CITY (U. P.) — WKY-TV cameraman Cliff Adkins wanted rodeo pictures at the Southwest American Exposition and set his equipment in the arena. While he was focusing on the bull chutes a rodeo clown walked up behind him and suddenly rang some cowbells in his ear.

Bob Belcher, exposition official, says: "He just grabbed up all his equipment and hurled the 8-foot fence into the orchestra pit. Don't see how he did it, but he did."

Bob Considine Says:

Politics Drowns Out Taps for Flying Hero

SAN FRANCISCO (INS)—The trumpet of the GOP convention drowned out the taps at Arlington National Cemetery a week ago.

The hoop-de-doo of the GOP convention smothered the last words said over the simple grave of one of the most remarkable military men of all time—Col. Dave Schilling, USAF.

Dave Schilling was born in Leavenworth, Kan., a month after the curtain slammed down on World War I. It gave him just enough time to grow up for the next World War. Dave was made for that one, and for the weapon he used.

He was an all-around athlete at Dartmouth and one of those rare birds who are secretly anointed to take charge. He could have had a dozen jobs after graduating in '39 with a degree in geology, but he moved resolutely to Randolph Field for flying training.

It never occurred to him to fly anything else except a fighter. "Dave can fly better upside down than most people can fly right side up," a brother officer said of him. It was an understatement.

Dave Schilling had been born to fly. For a time it proved al-

most a handicap, at least as far as he was concerned.

He was a test pilot at the time Pearl Harbor was bombed and the Air Force thought it might be best to keep him in that role. But Dave broke the bonds and soon was in England dog-fighting Herman Goering's best.

33 KNOCKED OUT

In two and a half years of com-

bat flying he rose to the status of "old man" of the 56th Fighter Group. He knocked 33 German planes out of the air to rank among the top U. S. aces of all time.

He picked up a few decorations en route: Two Distinguished Service Crosses, 3 silver stars, 10 distinguished flying crosses, 20 (1) air medals, and awards by Britain, France, Belgium and other coun-

tries. He had 40 ribbons to wear, but seldom got around to pinning them on.

The end of World War II found the U. S. with a new dimension in arms—strategic bombing. Could the fighter plane keep pace with the new long range of bombers on the boards? Dave thought so.

In 1948 he led a flight of F80 jets from the U. S. to Germany, utilizing North Atlantic bases. In 1950 he flew a fighter from England to Maine nonstop—3,300 miles—with the aid of mid-air refueling.

He was moved over to where he belonged all along, with the Strategic Air Command. Curt LeMay had a little task for him: Take a wing of jets to Japan for use in the Korean War.

WORLDWIDE WEAPON

Under Dave Schilling the fighter plane became a weapon of worldwide scope, no longer confined to limited tactical and support missions.

Two years ago he proved, by leading a jet fighter flight from Georgia to North African bases, that SAC's fighter wings based in the U. S. could be in combat on the other side of the Atlantic in less than half a day.

Dave Schilling, who couldn't be downed by the Luftwaffe nor swallowed by the oceans he successfully challenged, was killed in an automobile accident on a peaceful road in England.

Gruff, tough Curt LeMay, deeply moved, said of him, "He was one

FAMILY MEETING—Actress Joan Crawford and her husband, Alfred Steele, meet their adopted twin daughters, Kathy and Cynthia, 9, as girls arrived in London from the United States.

Permanent Ink Made

CHICAGO—A new ingredient has been added to all regular inks made by one of America's leading pen and ink manufacturers. The additive will not wash out and will show up under ultraviolet light after the original writing has been eradicated, the manufacturer claims.

Set for Peak Enrollment

EAST LANSING (U.S.)—A record enrollment of 18,500 students is expected when the Michigan State University fall term starts next month. Registrations will be conducted Sept. 16-21 and classes will start Sept. 24. Registrar Kermit H. Smith said the enrollment should be about 1,300 higher than last year.

Austrian Foreign Trade in '55 Sets Record

VIENNA—Austria believes that a final accounting will show foreign-exchange receipts of about one million dollars from her 1955 foreign tourist trade.

The months of June, July and August themselves accounted for half of that amount. In the tourist year of 1953 the number of regis-

tered visitors was 1,600,000, in 1954 it was 1,900,000 and in the first nine months of the 1955 tourist year the total reached 2,200,000, or more than 30 per cent ahead of the previous year.

The greatest number of tourists were Germans; then came British, Dutch and French.

Sweden appropriated \$400,000 for mass anti-polio vaccination of children in 1957.

DOUGLAS M. MOFFAT

Ambassador to Australia Dies

Succumbs to Blood Clot, Has Been Ill but Death Was Unexpected

SYDNEY, Australia (U) — U.S. Ambassador Douglas M. Moffat died of an embolism—an obstructing blood clot—at St. Vincent's Hospital this afternoon. He was 74.

The American envoy had been ill since last month but his death was unexpected.

A partner in the New York corporation law firm of Cravath, Swaine and Moore since 1913, Moffat was appointed to the diplomatic post by President Eisenhower last Feb. 14. He arrived in Australia in April.

He was a member of the New York Transit Authority from 1953 to 1955 and at the time of his appointment by Eisenhower was chairman of a temporary state commission studying the use of television in education.

During World War I he served as deputy alien property custodian in Manila and in World War II was the principal U.S. representative at the British-American Middle East supply center in Cairo. In Canberra he succeeded Amos Peaslee, who was named deputy to Harold Stassen, President Eisenhower's special adviser on disarmament.

He became suddenly ill on a visit to Queensland last month and underwent an emergency operation at Brisbane, but appeared to make satisfactory progress toward recovery. He went to Sydney for further medical treatment and was on the point of returning to Canberra when the heart ailment developed.

A native of Stanhope, N.J., Moffat is survived by his wife, the former Gertrude Mall, a son and daughter. He was graduated from Yale University in 1903 and from the Harvard Law School in 1907.

Retirement Pay to Leap 80 Times Present Size

CHICAGO — An 80-fold increase in Social Security benefits paid to retired workers, their families, and survivors is expected to take effect as more workers retire.

The benefit payments, now running some \$415,000,000 a month, are expected to increase astronomically as the workers retire. In 1941 the benefits paid amounted

Bread Prices Soar

WASHINGTON—Consumers paid 70 per cent more per loaf for white bread in 1955 than they did in 1946. In the same decade the return to farmers for wheat and other bread ingredients advanced 20 per cent. Charges for processing went up 87 per cent and rail rates climbed 76 per cent during the 10 years, according to an Agriculture Department report.

World's Tallest Dam

ZURICH, Switzerland—A dozen large dams are being built in Switzerland. One, the Grande Dence project, at an altitude of about 8,000 feet, was started in 1950 and is scheduled for completion in 1962. The project's main dam, nearly 1,000 feet high, will be the world's tallest.

Rooming House Burns

DETROIT (INS)—Twenty persons fled from a Detroit rooming house early today and escaped without injury when a fire started in a third-floor room. The blaze started when a smoldering cigarette ignited a mattress.

"ELECTRICAL DESIGNER-DRAFTSMAN"—The Central Engineering Division of an ultra modern multi-plant food processor located in pleasant southern Michigan needs an electrical draftsman for low voltage substations, switch-gear, motor control centers, conduit and wiring systems. Excellent working conditions, adequate salary, exceptional Profit Sharing, Savings and Retirement Plan, outstanding benefit program. Opportunity for future growth and living conditions make this an attractive position for a solid career man. Please send complete resume to Box 35, Pontiac Press, Pontiac, Michigan.

Hillsboro Ends Segregation

Integration Moves Ahead

HILLSBORO, Ohio (U)—Hillsboro, a southern Ohio town of 5,100, expects to have its integration problems solved when school reopens next Tuesday.

For two years charges Hillsboro was segregating Negro elementary school children have been in the news and the courts.

Tuesday all Negro pupils—about 70 of them—are to be admitted to the one-time all-white Webster School. The former all-Negro Lincoln School will not reopen. A small number of Negro pupils attended the Webster School last year.

Until the new Washington School is completed—expected in about two months—all of the town's elementary pupils will be housed in the Webster School. Then, the Negro pupils will be divided, about half and half, between Webster and Washington Schools.

UPPER GRADES MIXED

Hillsboro long has had both Negroes and whites in its junior and senior high schools.

The school board said it did not have the room in the old Webster and Washington Schools for all pupils, so the small Lincoln School was continued in

operation pending completion of new buildings.

Several Negro parents started court action, however, charging segregation. They held their children out of school in protest and gave them private tutoring. They were turned down by U. S. district Judge John D. Druffel of Cincinnati, on the basis of the school board's word there would be integration when there was room in the new buildings.

He was overruled late last spring by the U. S. Court of Appeals. The U. S. Supreme Court declined to review the case.

A court order directed there be complete integration by this fall.

Talk About Luck

UNION, S. C. (U) — One minute John Brady was driving his new auto near here and the next he was sitting on the highway watching the vehicle crash into a railroad tank. Officers said Brady was thrown through the windshield after losing control of the car. He suffered only slight bruises but was stripped of most of his clothing.

The Navajo Indians number about 70,000 today, compared to 7,000 in 1867.

Survivors' Payments Up for Two-Thirds of People

By RAY HENRY
AP Writer

Nearly two-thirds of all the people now getting Railroad Retirement or Survivors payments have had their payments raised as of July 1.

But, no additional money will show up in benefit checks until Oct. 1 because of the paperwork and figuring involved in adjusting the payments. The money for the retroactive raises will be included in the Oct. 1 check.

The increases will be paid automatically, thus no one need apply. The Railroad Retirement Board has asked those getting payments not to write asking about their increases because it will delay work on the payment adjustments.

The bulk of the increases will be 10 per cent of the present payments. Although the most immediately affected people are those now drawing payments, the increases will be reflected in the payments of railroad workers and their survivors who come on the rolls in the future.

Most of the people who'll not get increases now are those receiving payments as wives of retired railroad workers or survivors of deceased railroad workers.

Here are the details of the raises from which you should be able to tell whether you'll get a raise:

Retired worker — Out of some 321,000 retired railroad workers now getting payments, 229,000 will get a 10 per cent raise and 9,000 will get raises of less than 10 per cent. The 23,000 who'll not get increases are retired workers who are getting payments (A) equal to their average monthly

earnings while they worked, or (B) equal to what they'd get in Social Security payments if their work had been covered by the Social Security program.

Wives of workers — Of the 114,000 wives getting retirement payments, 31,000 will get increases of 10 per cent and 13,000 will get less than 10 per cent. Wives who are now getting \$54.30 a month will get no increase. Those receiving more than \$49.36 will have their payments raised to \$54.30. Those getting \$49.36 or less will get a 10 per cent raise.

Aged widows — Of the 153,000 aged widows on the payment rolls, 52,000 will get 10 per cent raises and 7,000 less than 10 per cent. The aged widows who'll not get increases are those getting payments equal to what they'd get under Social Security if their deceased husbands had actually worked under the Social Security system.

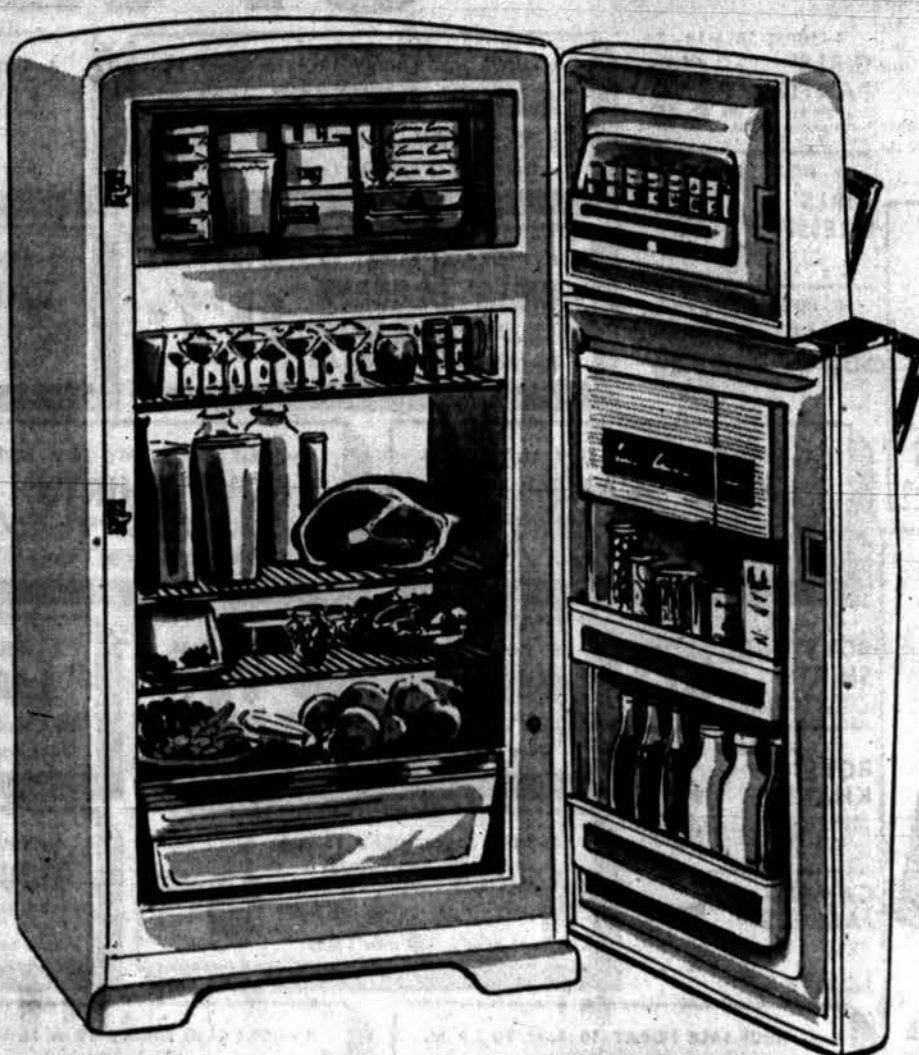

Only a small number of the widowed mothers, children and parents now getting Railroad Retirement survivors payments will get raises. The bulk of the raises will be to such survivors if they're not getting payments equal to Social Security had the railroad workers' employment fallen under the Social Security system.

All retirement pensioners and those drawing the survivors option under the Railroad Retirement system will get raises of 10 per cent.

(You may write to Ray Henry in care of this newspaper about your Social Security or retirement problem. Please enclose a stamped, self-addressed envelope and 25 cents in coin.)

TODAY'S ASSIGNMENT FOR:

JUNIOR EDITORS

CROSSING THE COUNTRY—4
The River Steamer

America has many great rivers, and as soon as settlement of the country began boats were built to transport people and goods. In the early pioneer days it was not unusual to see a log house, built on a barge, floating down the river with horses, chickens, cows and pigs sharing deck space with the family as they searched for new land.

The Mississippi river was a natural place for the development of river boats. Big paddle steamers sailed up and down, carrying the state's cotton crop to New Orleans. Passengers danced on the decks of pleasure steamers, and showboats took companies of actors, singers and dancers to the big river ports. The steamer shown here however was of a type used even earlier than that by traders on the western streams.

Paste this down on cardboard after coloring it with your crayons. Cut around the outlines. Fold the end panels under at the dotted lines and fold the center panel forward, so the picture will stand.

Carefully pin prick all the windows, including those in the pilot house. Put a strong light behind the picture and it will show you how a river ship looked as it paddled along the river at night.

Joy Mowery, Hixon, Tenn., first contributed this idea. If you have an idea send it in care of this newspaper and it may gain you \$10. (Violet Moore Higgins; AP Newsfeatures).

Tomorrow: Across the Country by Car.

Jim Farley OK Following Major Operation on Eye

NEW YORK (AP) — James A. Farley is reported recovering satisfactorily after a major eye operation to repair an injury suffered at the Democratic National Convention in Chicago.

The former postmaster general was operated on last Thursday at Manhattan Eye, Ear and Throat Hospital for the correction of a detached retina of the right eye.

Both eyes are still under bandages, and his hand immobilized to prevent movement of the injured eye, a spokesman said. He is "making normal progress," the spokesman added.

Farley, now board chairman of the Coca-Cola Export Corp., was injured when hit by a scorecard thrown in the burst of enthusiasm when Adlai Stevenson was nominated as Democratic presidential candidate.

An innovation in amphibious warfare, the helicopter assault carrier, is planned by the Navy for the Atlantic Amphibious Force.

Technicalities Shackle Police

Panel at Bar Association Parley Says Legal Outs Make Crime Easier

DALLAS, Tex. (AP) — Technicalities of the law often shackle police and make it almost impossible for them to discharge their duty, a group of police and public officials said at a panel discussion at the American Bar Assn., meeting here.

About 5,000 attorneys are attending the meeting which ends tomorrow.

Prof. Fred E. Inbau of the Northwestern University School of Law asked that police be given a more ample opportunity to interrogate suspects.

Dallas Police Chief Carl Hanson said that as a rule "the professional criminal makes his bond, gets caught again, makes his bond, and has his case reset and reset again and again before he is ever brought to trial."

Inbau said that courts should not reject evidence which is valid merely to discipline the police because of the method they used to obtain the evidence.

In the laymen law panel dealing with crime, Judge William B. McKesson of Los Angeles, Calif., said "Courts know that stiff sentences do not deter crime."

He said, "you can't continue to build bigger and more prisons. And it's not economically feasible to lock up thousands of citizens if there is any better way for them to become productive citizens."

Williams said that probation is the way to supervise an offender.

America Leaders Chorus 'Happy 80th Birthday Kettering'

DAYTON, Ohio (AP)—Charles F. Kettering, inventor and researcher, yesterday headed into his 81st year to the acclaim of hundreds of his present and former associates.

More than 1,000 persons, including many nationally known figures in the industrial, business and entertainment world gathered here to honor "Boss Kettering" on his 80th birthday.

The engineer-scientist credited with contributing more to development of the automobile industry than any other man, was the honor guest in a day-long program at the National Cash Register Co. Country Club. It was like a picnic scene as Kettering received his well-wishers on the wide lawn.

Among those greeting him were Charles E. Wilson, secretary of defense; Roger Kyes of Bloomfield Hills, who heads General Motors Corp.'s Dayton Divisions; U.S. Sen. George H. Bender of Ohio; Col. W. F. Rockwell, chairman of the board of the Rockwell Manufacturing Co., Pittsburgh, and entertainers James Melton and Edgar Bergen.

Also present were 16 members of the National Inventors Council. The Miami, Fla., Surf Club, of which Kettering long has been a member, also sent a delegation.

People prominent in just about every other phase of American life were in the crowd which greeted him. He was honor guest at a club luncheon at noon, following a golf exhibition, and last night he was honor guest at a dinner dance at the Moraine Country Club. The luncheon was served in a tent on the club grounds.

"Kettering is an outstanding American of our times," said Wilson. "He is universally respected as an inventor, engineer, scientist and specialist in the field of human understanding."

Said Kyes: "Kettering is not only outstanding because of his quality of mind, but also because of his vitality. . . . He has the capacity to accomplish many things and to correlate them. When he walks through the woods he sees the trees."

Rockwell said: "Kettering was never satisfied with anything as it is. He is one of the men who might be called a spring that makes things run."

Kettering retired as vice president in charge of research at General Motors in 1947. But he still maintains a deep and active interest in research in many fields.

WORKED AROUND
The man who calls science "merely finding out how nature does things" was born on a farm near Loudonville, Ohio. He was a school teacher, telephone troubleshooter and installer and a National Cash Register employee in his early years.

In 1909 he founded the Dayton Engineering Laboratories Co., which later became a division of General Motors. His hundreds of contributions to the automobile industry include refinements of the automatic starter, improved ignition systems and development of ethyl gasoline.

One of his major projects is the Sloan-Kettering Institute for Cancer Research which he established jointly with Alfred P. Sloan in 1945.

U. S. Doesn't Realize Its Prosperity

Most Americans are too busy living to notice the changes that take place around them. Here did some of the things that struck him most strongly on a cross country tour after five years in Asia.

By SID WHITE

NEW YORK (INS)—America today seems prosperous to the point of bursting.

That is the first impression of a returned native to this land of shiny new automobiles, handsome ranch houses, super highways and still bigger television sets.

Little things, taken for granted by Americans, such as the availability of food, strike one with awe.

And, the noticeable lack of war tension—you might call it complacency—also stands out in sharp relief.

These are impressions of a correspondent based on years of living with war, fear, hunger and Communist danger in the Far East.

Evidence of building, expansion and prosperity was seen everywhere in visits to Honolulu, San Francisco, Los Angeles, Chicago, Detroit, New York and Washington.

FULL, GADGET-FILLED LIFE

Aspects of American living, which must seem commonplace, stand out as sharp emotional encounters on a visit after a long absence, and they add up to a

fast, more gadget-filled, and fuller life for the average American citizen than ever before.

The ordinary super market, for instance, seems an incredible storehouse of edible luxuries, the row upon row of canned goods, the amazing frozen foods and the well-stocked butcher counter bring a gasp of amazement to those accustomed to Asian standards.

To find a stock of readily available, unrationed American cigarettes is a source of delight.

The building boom which has converted empty fields into well-planned communities in the suburbs of most cities is another remarkable trend in American living.

The average persons in cities visited seemed to own a new ranch house, or plan to buy one soon.

The high level of American standards was driven home

forcefully with a visit in Detroit to the new three bedroom home of a close relative.

Just three years out of school, he had purchased the sprawling, brick home on the G. I. bill, with 30 years to pay for it.

Inside his wife proudly displayed a giant refrigerator, a sink with a garbage disposal unit, an electric stove with a built-in exhaust fan and a 24-inch television set.

LIVING WELL

The "gadgets" were either installed by the builder and came with the house, she explained, or were bought on credit.

Most people visited across the country seemed to be living as well, and were just as deeply in debt.

Superhighways seem no less spectacular. The speed lanes of traffic and intricate clover-leaf designs seem to have changed the character of such cities as Los Angeles and Detroit.

Another striking aspect of American living is the growth of television. Everyone, it seems, owns a big, beautiful set and spends a fair portion of his leisure watching it.

The infectious grip of television is most evident to a person not accustomed to its lures. The result is a fascinated viewer who sits before the set for endless hours.

Leaping Hound Dogs!

MEMPHIS, Tenn. (U)—Little Mickey Arledge, who is 4, is a lad who has to be shown. When he saw a dog the other day he cried to his mother, Mrs. Flora Arledge: "Look at that big ole hound dog!" "That's not a hound, Mickey," said his mother. "It's a birdog." Mickey eyed her skeptically. "Lemme see him fly," he said.

The string of television antenna masts seen across the country, even in trailer camps and in isolated rural areas, is standing testimony to the growth and apparent influence of this medium.

Construction of new, modern buildings across the breadth of the nation is also a notable aspect of America's change and growth.

However it is managed, Americans have an unparalleled standard of living, without realizing it.

Outdoor Mate CAMP STOVE

The perfect, compact stove for camping or hunting. Measures 10" x 10" x 12" in height. USE FOR HEATING AND COOKING!

Detroit Police Foil Purses Snatching Ring

DETROIT (AP)—Five Detroit youngsters banded together this summer to pick up some spending money, but police didn't approve of their methods.

The five boys, ranging in age from 14 to 16, formed a purse snatching ring. Police said they had admitted at least 10 robberies.

All were held for juvenile authorities.

ORDINANCE NO. 1321
 Adopted August 29, 1956
 Effective September 1, 1956
 An Ordinance to Regulate the Sale of Beverages Containing Alcohol in the City of Pontiac, Michigan, and to Provide Penalties for Violations of This Ordinance.

The City of Pontiac Ordains:

Section 1: Definitions.
 The words and phrases used in this ordinance shall be construed as follows: (a) Near beer to mean any beverage containing less than one-half of one per cent of alcohol by volume and sold in bottles or cans bearing the certification that the contents contain less than one-half of one per cent of alcohol by volume.

A licensed dealer is any person, firm or corporation holding a license from the Michigan State Liquor Control Commission to sell beer, wine or spirits.

Section 2:
 It shall be unlawful for any person, firm or corporation to sell any near beer as defined in this ordinance to any minor under the age of 21 years.

Section 3:
 Any person, firm or corporation violating the terms of this ordinance may be punished by a fine not exceeding \$100.00 or imprisonment in the Oakland County Jail not exceeding 90 days or to both such fine and imprisonment at the discretion of the court.

Section 4:
 This ordinance shall take effect 10 days from and after its final passage by the City Commission of the City of Pontiac.

Made and passed this 28th day of August, A.D. 1956 by the City Commission of the City of Pontiac.

Dated: Aug. 29, 1956.

Wm. W. DONALDSON, Mayor.
 ADA R. EVANS, City Clerk, Aug. 30, 1956.

Notice of Intention to Construct Curb, Gutter, Grade and Gravel and Related Work on Gillespie and Diston Street Extension.

You are hereby notified that at a regular meeting of the Commission of the City of Pontiac, Michigan held August 29, 1956 by resolution it was declared to be the intention of the City Commission to construct curb, gutter, grade and gravel and related work on Gillespie and Diston Street Extension from Bagley Street to East Line Lot No. 4 Lakeside Homes Subdivision and that the plan, profile and estimate of said improvement is on file for public inspection.

It is further intended to construct said improvement in accordance with the plan, profile and estimate, and that the cost thereof shall be defrayed by special assessment according to frontage and that all of the lots and parcels of land fronting upon either side of Gillespie and Diston Street Extension from Bagley Street to East Line Lot No. 4 Lakeside Homes Subdivision shall constitute the special assessment district to defray \$14,140.00 of the estimated cost and expenses thereof and that \$2,828.00 of the estimated cost and expenses thereof shall be paid from the Capital Improvement Fund.

NOTICE IS HEREBY GIVEN
 That the Commission of the City of Pontiac, Michigan will meet in the Commission Chamber on September 4, 1956 at 8 o'clock p.m. to hear suggestions and objections that may be made by parties interested.

W.O. 7049
 Dated: August 29, 1956
 ADA R. EVANS, City Clerk, Aug. 30, 1956.

Notice of Intention to Construct Curb, Gutter, Grade, Gravel and Related Work on Astor Street.

You are hereby notified that at a regular meeting of the Commission of the City of Pontiac, Michigan held August 29, 1956 by resolution it was declared to be the intention of the City Commission to construct curb, gutter, grade and gravel and related work on Astor Street from Auburn Avenue to Pike Street at an estimated cost of \$22,884.00, and that the plan, profile and estimate of said improvement is on file for public inspection.

It is further intended to construct said improvement in accordance with the plan, profile and estimate, and that the cost thereof shall be defrayed by special assessment according to frontage and that all of the lots and parcels of land fronting upon either side of Astor Street from Auburn Avenue to Pike Street shall constitute the special assessment district to defray \$7,158.00 of the estimated cost and expenses thereof and that \$15,726.00 of the estimated cost and expenses thereof shall be assessed against Lots 11 and 12 of Homestead Park Sub. Lots 11, 100, 101, 102, 103 & 14 of Lot 104 Homestead Park No. 2 two (2) lots each for lots 100, 101 and 102.

NOTICE IS HEREBY GIVEN
 That the Commission of the City of Pontiac, Michigan will meet in the Commission Chamber on September 4, 1956 at 8 o'clock p.m. to hear suggestions and objections that may be made by parties interested.

W.O. 7050
 Dated: August 29, 1956
 ADA R. EVANS, City Clerk, Aug. 30, 1956.

Notice of Special Assessment: Curb, Gutter, Grade and Gravel and Related Work on Clinton River Drive.

The Stein Bids & Bumber Company, City of Pontiac, Lillian E. Kramer and all persons interested, take notice: That the roll of the Special Assessment heretofore made by the City Assessor for the purpose of defraying that part of the cost which the Commission decided should be paid and borne by special assessment for the construction of curb, gutter, grade and gravel and related work on Clinton River Drive from the easterly line of Robert Herndon's Pontiac Apartment Subdivision to westerly line of Lot 10 of said subdivision is now on file in my office for public inspection.

Notice is also hereby given that the Commission and the Assessor of the City of Pontiac will meet in the Commission Chamber on September 4, 1956 at 8 o'clock p.m. to review said assessment, at which time and place opportunity will be given all persons interested to be heard.

Dated: August 29, 1956
 W.O. 7053
 ADA R. EVANS, City Clerk, Aug. 30, 1956.

Notice of Intention to Construct: Curb, Gutter, Grade, Gravel and Related Work on Astor Street.

You are hereby notified that at a regular meeting of the Commission of the City of Pontiac, Michigan held August 29, 1956 by resolution it was declared to be the intention of the City Commission to construct curb, gutter, grade and gravel and related work on Astor Street from Maines Avenue to Michigan Avenue at an estimated cost of \$23,342.00, and that the plan, profile and estimate of said improvement is on file for public inspection.

It is further intended to construct said improvement in accordance with the plan, profile and estimate, and that the cost thereof shall be defrayed by special assessment according to frontage and that all of the lots and parcels of land fronting upon either side of Astor Street from Maines Avenue to Michigan Avenue shall constitute the special assessment district to defray \$8,000.00 of the estimated cost and expenses thereof and that \$15,342.00 of the estimated cost and expenses thereof shall be paid from the Capital Improvement Fund.

Wives Believe in Shared Drudgery

Most Hubbies Perform Household Chores

By PHYLLIS BATTELLE
 NEW YORK (INS)—It has long been the theory of women that men should do more housework.

This is not, you understand, because the woman wants to ease up on her duties. Oh no, nothing like that.

The reason is that in this neurotic, psychiatric, divorce-breeding culture we live in, the accent is on "share." The small woman of today feels that the big man should share her experience; like dishwashing, dusting, laundering and bedmaking.

As a female friend put it: "All the psychologists tell us that the way to happy marriage is a mutual pulling-together. The way I see it, that goes for the disposal of garbage, too!"

In case any housewives are wondering how the national picture looks—so far as male helpmeets are concerned—we have facts and figures today to prove that more men are doing more odd chores around the domestic domain than ever before in history.

In fact, the latest survey of husbands indicates that 95 per cent of the U.S. worse halves are assisting their wives in the drudge duties of home life.

THE SUCKER SEX
 You might even call them the sucker sex.

It breaks down this way: about 25 per cent of the men surveyed help in the preparation of dinner; 50 per cent assist in tidying up the house; 67 per cent either wash or dry dishes; 82 per cent grapple

with the garbage, and 88 per cent keep the gadgets and home equipment in good working order.

This survey, conducted among hundreds of businessmen and laborers by the Tide Washing Clinic, indicates also that it's

the men of 40 and over who do the most work on behalf of their women. In the upper age brackets, 78 per cent of the husbands "help willingly."

The younger men, on the other hand, apparently are too consumed

with their professional and love lives to do the dishes with eager dispatch. Only 61 per cent of them do an un begrudging job around the house.

A great number of these men with domestic inclinations do an inferior job (e. g. break Wedgwood plates, spill coffee grounds on rugs, wipe dust from book ends onto piano, etc.), but most of the wives surveyed would not admit it.

More than half of the missuses questioned said their husbands were as good as they, at keeping a house in order.

MORE MODEST
 The men themselves were more modest. Only 8 per cent boasted

as how they were better at housework than their wives.

It turns out also, from the statistics, that if a woman does work outside her home, she is likely to get 50 per cent more help from her man than if she is unemployed and merely taking care of kids and chores around the local establishment. This figures.

It also figures that one-third of the housewives interviewed would like to hang up their aprons, get a facial and manicure, and go to work.

The idea of a paycheck, a breath of business air, a vacation from the vacuum... all this, and 50 per cent more husbandly help too... is appealing.

Motorboat Ride Fatal to Grosse Ile Woman
 AMHERSTBURG, Ont. (AP)—The body of a Grosse Ile, Mich., woman a bride of two months, was recovered from the Detroit River near here yesterday.

Mrs. Anne Warner, 57, tumbled from a motorboat Tuesday night as she and her husband, Norman, 54, were returning from a trip to Amherstburg.

Warner said he had made a sharp turn to avoid other craft and his wife fell overboard. He said he was unable to find her in the darkness.

Touring Japanese End Visit of Motor City
 DETROIT (AP)—Keikichi Masuhara and other top Japanese defense officials were to leave by military plane for New York today on their tour of key defense areas in the United States.

Masuhara, vice director of the Japanese defense agency, visited the big Detroit arsenal yesterday as well as some of the auto plants for which Detroit is famous.

The group plans to move on to Washington after its New York stop.

DECEMBER-MAY ROMANCE—Casmir Orzechowski, 64, a former rural school teacher, and his bride-to-be, Helen Hawro, who became 15 years old Aug. 26, admire a dahlia bloom in Mesinee, Wisconsin, after taking out a marriage license. The wedding ceremony will take place Saturday, culminating a year's engagement. The bride will have to attend high school until she reaches her 16th birthday. It will be Orzechowski's first marriage.

Martha Raye Files 2nd Divorce Suit
 SEBRING, Fla. (AP)—A suit by comedienne Martha Raye for divorce from Edward Begley is on file here—Miss Raye's second attempt in Florida to dissolve her marriage with her fifth husband.

The 39-year-old entertainer was denied a divorce in Miami Aug. 10 on grounds she had not become a legal resident of this state. Four days later she was found unconscious at her Miami Beach home and a physician said she had swallowed about 20 sleeping pills. Her doctor said he did not know why. She was hospitalized three days.

Miss Raye charged the 32-year-old Begley with desertion in her petition filed at Sebring.

SUPERINTENDENT RIDES JET — Dr. Dana P. Whitmer, superintendent of Pontiac Schools, is shown in the center above after riding in one of the jets used during two weeks annual training by Pontiac Air Force Reservists. Dr. Whitmer is with the pilot, Maj. Thomas Dodson (left), supervisor of Pontiac's physical education

and athletic programs, and Maj. LeRoy Fulton, a Rochester school teacher. Maj. Dodson commands a squadron in the 439th Fighter Bomber Wing, which trained during the summer at Selfridge Air Force base with 120 reservists from Pontiac and Oakland County.

National Safety Body Sizes Pontiac for '55

Local Officials Told of Wrongs

Group's Annual Study of Traffic Activities Are Made Public at Meeting

A group of local officials yesterday afternoon heard what the National Safety Council thinks is wrong with traffic safety in Pontiac.

The Council's annual inventory of traffic safety activities was made public at a meeting headed by Mayor William W. Donaldson.

The Council had a lot to recommend, from more policemen to more posters in school.

It had praise for most of the city's safety achievements of 1955, but also pointed to the 18 traffic deaths which occurred, nine more than the average during the previous three years.

Two aspects of the city's safety program—public safety education and safety organization—have won certificates of achievement from the Council.

The Council also based its report on traffic injuries, traffic engineering, police traffic supervision, traffic courts and school traffic safety education.

Police Chief Herbert W. Straley pointed out that the city's performance, according to the Council's statistics, was bettered last year in all categories except two.

These are traffic engineering—which was not judged here before last year—and deaths and injuries, which rose all over the nation last year.

"The record otherwise shows there is definite progress in safety here," Straley stated.

The report was explained by Cpl. H. L. Potter of the Redford State Police Post. He stressed a point made by the Council:

"If traffic conditions are to be improved in any community, it is essential the citizens understand the program and efforts of their officials, and also that they realize how much their own attitudes and habits contribute to street traffic experience."

Some of the more important recommendations made by the Council:

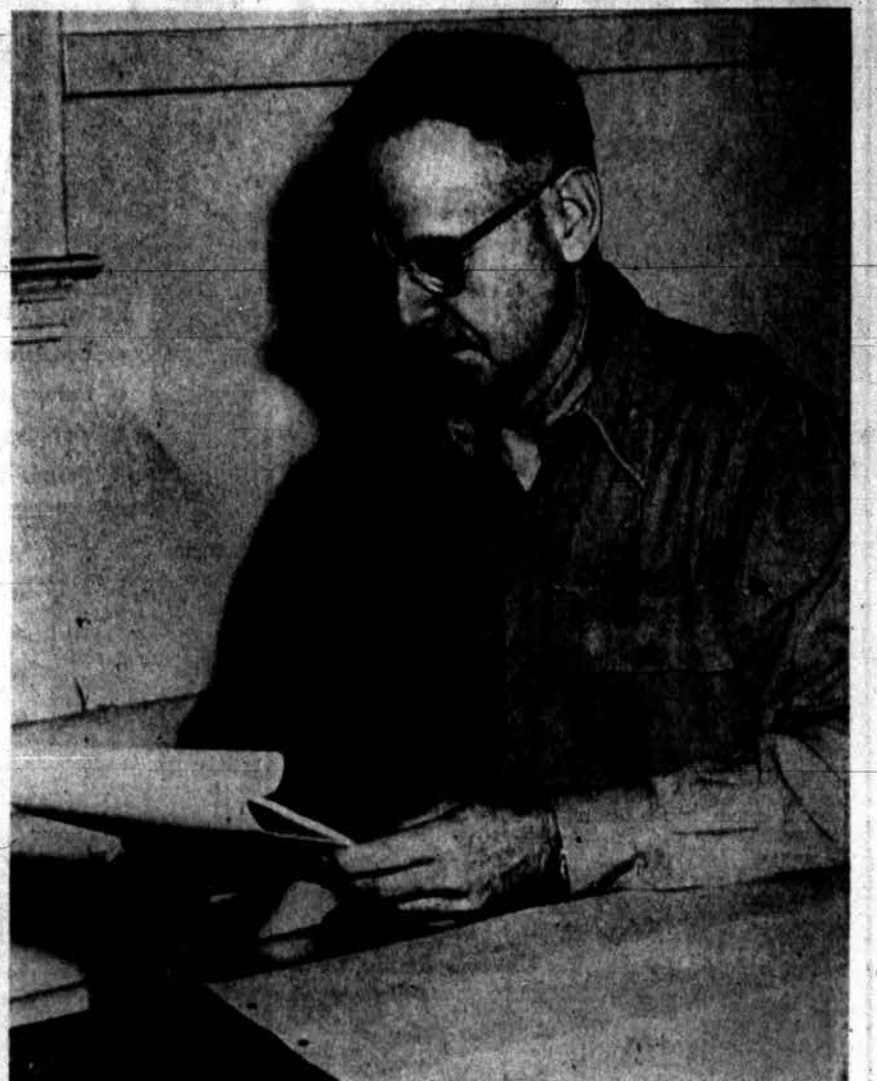

More funds for traffic engineering; more off-street parking, marked crosswalks, one way streets, and use of special pedestrian indications at corners; more turning restrictions at busy intersections; a progressive system of traffic lights.

Thirteen more officers on the police force with nine of them assigned to the Traffic Bureau; more arrests in hit-and-run accidents and an attempt to gain more convictions for accident arrests, and especially more arrests for drunk driving.

Placing the violations bureau under the exclusive jurisdiction of Municipal Court by means of a city ordinance change.

More traffic safety instruction and projects for school children; greater participation in safety methods by parochial schools.

The report praised the efforts of the Chamber of Commerce Safety Committee and the results of monthly safety meetings of city officials.

COLONEL HONORED—Col. Richard D. Mudd, commander of the Tactical Hospital, 439th Fighter Bomber Wing, Selfridge Air Base was recently awarded an Armed Forces Reserve medal cul-

minating 30 years of service which included active duty in two wars. His tour of duty ranks with the outstanding Air Force achievements on record, according to top officials.

Brink's Jury Visits Holdup Scene

BOSTON (INS) — The all-male Brink's jury today was to visit the scene of the biggest cash robbery in history before the prosecution formally opens its case.

Also included on a two-hour

Detroit Hospitalized; Wife Admits Stabbing

DETROIT (INS) — A 40-year-old Detroit was in serious condition at Receiving Hospital today with stab wounds his wife said she inflicted after an argument stemming from her husband's jealousy.

The victim, Edwin Skiba, maintained, however, that he had injured himself when he fell on some glass.

His attractive wife, Joyce, 29, said the argument erupted last night when her husband arrived home from work in an angry state because he had been unable to reach her by telephone during the day.

Mrs. Skiba was held for investigation of felonious assault,

tour were stops at Commonwealth Pier in South Boston; Eggleston Square in Roxbury, near a cafe, owned by McGinnis; the Roxbury house in which Pino lived in 1950, and a Jamaica Plain house occupied by Maffie in 1950.

District Attorney Garrett H. Byrne indicated the first prosecution witnesses will include the three Brink's guards who were bound and gagged during the robbery. They are Thomas Lloyd, James Allen and Herman Pfaff.

Yesterday, after reading of indictments, requests for specifications and prosecution replies, Judge Felix Forte told the jurors:

"Bear in mind you have not as yet heard any evidence. Thursday you will be taken on a view. It is impossible to hear everything at one time. You will hear one thing at a time; one side at a time. Keep your mind open

until you have heard all sides of various issues."

He also warned jurors not to discuss the case until it is given to them to consider.

Dredging Bids on Seaway Start

Amherstburg Channel Slated for Deepening to 27.5 Feet

DETROIT (INS) — The first phase of construction of the St. Lawrence Seaway in the Detroit area was launched today with the announcement that bids will be taken on dredging in the Detroit River.

The Detroit District of the Corps of Engineers said bids on dredging work in the Amherstburg Channel will be opened Oct. 9, with work expected to start not later than April, 1957.

The Great Lakes connecting channels project, of which the Amherstburg Channel is a part, authorizes the Army Corps of Engineers to deepen the channels between the upper lakes and make other improvements in connection with modernizing the 1,300-mile Great Lakes navigation system.

The channel is in the lower part of the Detroit River, opposite Amherstburg, Ont. It is about 15 miles downstream from Detroit on the Canadian side of the river.

The project calls for the channel to be deepened from its present average of about 21 feet to 27.5 feet.

Work on the 150-million-dollar connecting channels project was authorized by Congress last March.

The project will extend the full benefits of the seaway to ports west of Lake Erie.

The channels to be deepened in the Great Lakes include the Detroit River, Lake St. Clair, the St. Clair River and the St. Mary's river.

All work is scheduled for completion in 1962.

Immigrant Boy Kills Aunt Near Bay City

BAY CITY (INS) — A 16-year-old immigrant boy from Austria shot and killed his great aunt early today and when captured later said that a voice had told him to "kill someone."

Rose Rumeltfanger, 56, was shot to death while she slept in her country store, 25 miles from Bay City.

Her husband, Frank, also 56, woke after the shot and grappled with the boy, Nicholas Rumeltfanger, who escaped after hitting the man with a chair.

The boy fled in his victim's car and was captured by State Police after he abandoned the auto. He was armed with a balpeen hammer and .32 caliber pistol. He had lost the .22 caliber rifle used in the shooting during the struggle with his great uncle.

Troopers said Nicholas appeared to be mentally disturbed.

Sanity Tests Postponed for Nurse

NEW HAVEN, Conn., (INS) — Defense plans to have psychiatrists determine the sanity of Virginia B. Jaspers, 33-year-old private nurse who has admitted shaking three babies to death, were postponed indefinitely today.

Edward L. Reynolds, her attorney, said he was forced into the delay because Miss Jaspers' parents were unable to raise her \$50,000 bail.

Although charged only with the technical offense of "idleness," the high bond was fixed in New Haven City Court Tuesday after the six-foot, 220-pound nurse admitted causing the deaths of three infants since 1948 and injuring three others.

sobbing uncontrollably, the woman could give no reason for her acts beyond saying she sometimes lost her temper when children under her care "got on my nerves."

"I ought to be put in the electric chair," she said.

Today her lawyer declared: "If the bail can be raised and she could spend a few days at her home with her family, she would calm down enough for the examination."

Completes 30 Years of Service

Officer Receives Decoration for Top Record at Selfridge

One of the Armed Forces Reserve's most unusual awards, the "Hour-Glass" Medal, went to one of Selfridge Field's top commanders upon the completion of 30 years of service recently.

Recipient of the medal was Col. Richard D. Mudd, commander of the Tactical Hospital, 439th Fighter Bomber Wing.

The accompanying citation outlined Col. Mudd's achievements between June 2, 1926, and June 7, 1956, when he served as head of the medical unit.

The award was made at a formal parade ceremony in which the Wing assembled to watch Col. John W. Richardson, 10th Air Force chief of staff, pin the award to Col. Mudd's uniform.

The officer's years of service include six in World I and World War II.

"His unusual achievements are among the most outstanding in Air Force records," Col. Richardson said in praising the medal-

winner's administrative and organizational ability.

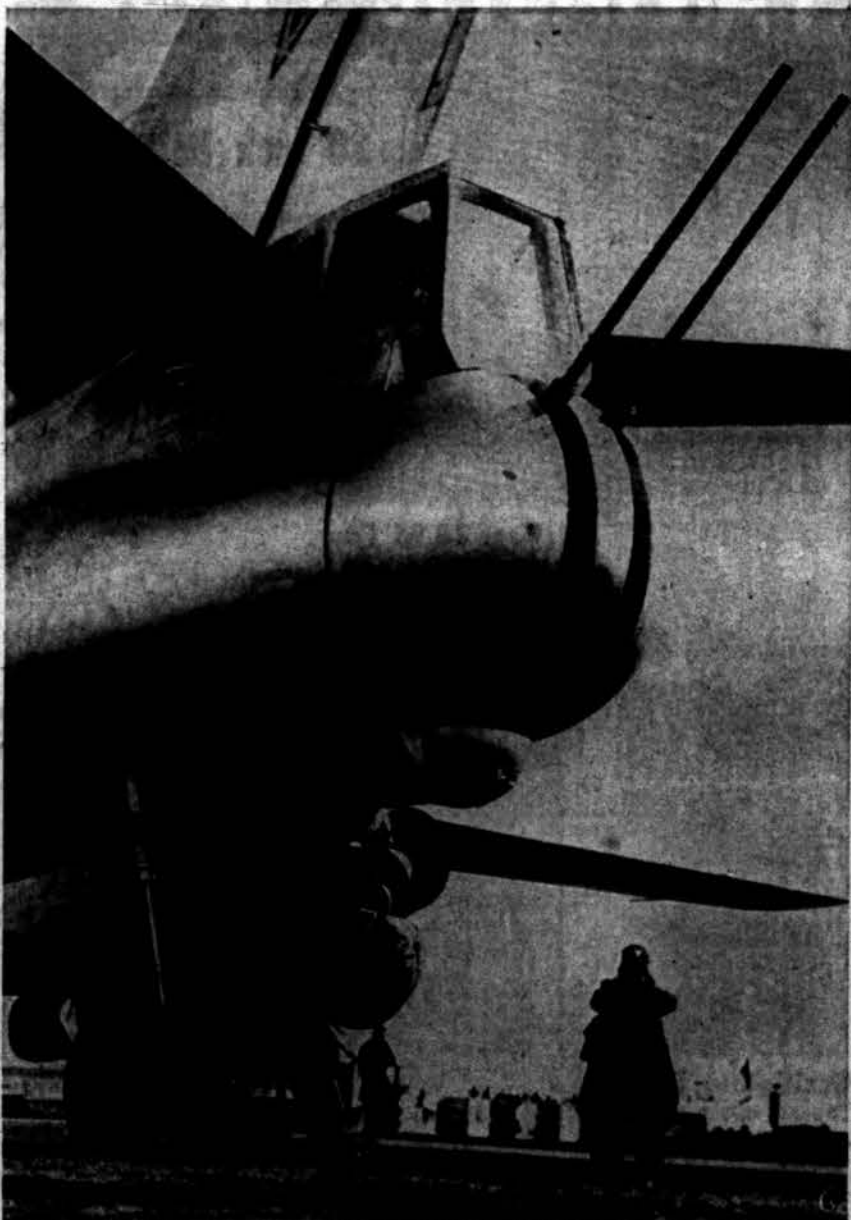

Col. Mudd recently completed two weeks of active duty at Selfridge.

Among his previous decorations are the Legion of Merit and a letter of commendation from Brig. Felix Vidal for outstanding service since activation of the 439th.

They Say:

WASHINGTON (INS) — Labor Secretary James Mitchell: "I believe the workmen of the country are going to vote for the Eisenhower administration, which has given them a high level of prosperity, real wages, jobs and other benefits."

GALVESTON, Tex., (INS) — Dr. G. A. W. Currie describing famed woman athlete Babe Didrikson Zaharias' fight against cancer: "She has shown that not only her physique has been one of the greatest of all times, she also is one of the world's indomitable spirits."

IVAN GOES HOME — A crew member of a Soviet jet bomber IL-28 climbs into the plane's rear entranceway as it prepares to take off from Oranienburg, Germany. The return climaxed a farewell parade in the Soviet zone village by a

Russian air division, recently withdrawn from "occupation duty." The Russians have announced plans to demobilize 1,200,000 men by May, 1957, including 33,500 troops stationed in Germany.

AWARD FOR INGENUITY — Oliver T. Williams (right), an employee in Pontiac Motor Division's axle plant, receives the final payment of a \$2,500 suggestion award from General Manager Simon E. Knudsen (center). Williams was given an initial \$1,250 a year ago when he suggested that engine manifold molds be moved

along the line by air pushers, thus eliminating considerable manual labor. His first suggestion, it was made while he was employed in the division's foundry. Looking on at the left is his foreman, Adam Steinbach of 188 E. Rundell St.

Expert Pigeon Chaser Employs Sticky Methods

BELEVILLE, Ill. (AP) — John Heibel is recognized as an authority on the job of eliminating pigeons from roofs.

He is working on a contract to chase the pigeons from the roof of the local Courthouse at the cost of \$1,100. The process involves spreading a gummy substance on places used as roosts. He says

starlings hate the sticky stuff, too. The goo gets on their feet and the birds have a tough time getting around. But the gelatin-like stuff spread with grease guns, does not kill the birds.

New Zealand sold some 275,000,000 pounds of butter to the United Kingdom in 1955, just under the previous year's total, but her sales to markets outside Great Britain reached a record 56,000,000 pounds.

Sorghum Harvester Perfected by Hoosiers

INDIANAPOLIS — What is believed to be the world's only sorghum harvester has been built and perfected by two brothers, Dennis and Elbert Holbrook, who live at Ray's Crossing, Ind.

The machine cuts the cane, grinds it, and ejects the pulp back onto the ground. The cane's juice is piped into a 550-gallon tank

mounted on a two-wheel trailer and towed behind the harvester.

Tough on Drinkers

YREKA, Calif. (AP) — Ed Axtell, a judicial district judge and a former highway patrolman, is rough on drunk drivers. Six weekend offenders were given in one day fines ranging from \$263 to \$525. One motorist whose record showed several failures in taking tests for a driver's license was fined \$250.

5.6 Billion in Cash Spent for New Homes

NEW YORK—Americans in 1955 bought \$14,400,000,000 worth of new houses, for which they paid \$8,800,000,000 in new mortgage money and \$5,600,000,000 in cash. They also raised \$8,700,000,000 on their old houses and put between 2 1/2 billion and three billion dollars of it into cash payments on new houses. They poured virtually all the rest

(except for \$500,000,000 they put into repairs), or more than five billion dollars, into the spending stream.

A Flying Burglar

MARSHALL, Tex. (AP) — Police found a flying burglar in response to a call from Miss Fonta Brittenum. When they arrived to make an arrest, they found a flying squirrel was the culprit. He was playing on a window screen.

Rainmaking Explained

The Brahmin legends in Thailand hold that rainfall is caused by godly serpents known as Nagas. These supernatural creatures were born 1000 in number and were in the service of the Almighty Brahma. They live below the earth and work as rain givers. The amount of rainfall each year can be gauged from the number of Nagas assigned to the task. The more of them in service, however, the less

rain, since each Nagas tries to shirk his job when in company but when he works alone, he can't evade his duty and works full time, making lots of rain.

Miami Has 535 Hotels

MIAMI—In the past 10 years 45 new hotels and 176 motels have been built in Miami's metropolitan area, adding 10,000 hotel rooms and 5,000 motel units. The area now has 535 hotels and 308 motels.

Ivy League to Keynote Junior Fall Styles

Ivy League is the keyword in junior styles for back to school this year. The young man of the family has a new "grown up" look, and the more grown up he looks, the better dressed he'll be.

In every phase of the junior wardrobe, styles and ideas in design have been borrowed from adult fashions. When the youngster heads back towards the classroom, he'll be attired in a dress-up flannel suit, or an Ivy League sport jacket and slacks, topped by a scaled-down version of the adult duffer jacket.

In more and more sections of the country, the days of sloppy jeans and shirt are dead and departed. This is a happy state of affairs which has probably been helped by some school authorities who are tending to link juvenile misbehavior with untidy dress habits.

A favorite choice for junior back to school suits will be Cambridge gray wool flannel, Ivy League style of course, in many cases with matching eton cap. Other good colors in medium weight flannels and worsteds are light tan and gray-blue.

Boys' sport jackets for fall strongly reflect the men's wear trend toward colorful blazer stripes, they're bold and bright,

in color combinations of wine red and gray, lemon and gray, and khaki.

They also reflect the trend toward lighterweight fabrics, so that medium weight wool worsteds and tweeds are favored.

Top shades for slacks are Cambridge or banker's gray, and tan. Wool fleece, melton and covert are the most popular fabrics for

Rock, Gravel to Replace World's Longest Trestle

SAN FRANCISCO (U)—A spidery legged timber trestle, the world's longest, over which sleek streamliners cross Great Salt Lake in Utah, will be but a memory by 1960. The Southern Pacific Railroad is replacing it with a rock and gravel fill 12.6 miles long.

A land-locked flotilla of tugboats, dredges and barges, just part of 15 million dollars worth of specialized equipment needed for the job, is being assembled. A construction camp for 600 men has been set up.

The trestle originally was 23 miles long but some parts had been replaced with solid fills. Junior outer jackets. Style features

include double-breasted closings, leather fastenings, concealed hoods and large patch pockets. Favored colors are bright red, olive green, tan, blue, and red and green plaids.

How has this style affected the schools? Fresh and seniors alike are busy studying "how to make the grade" that qualifies them as Junior Beau Brummells of the

This fashion consciousness is here to stay with the younger male set.

One of the most important reasons for such youthful sartorial splendor is that younger lads have been inspired by their dads and older brothers growing interest in their wardrobes. What with the exodus to Suburbia and the increase in leisure time the need for more casual sportswear as well as for clothes arose. The style trends that appeared among adults then found their way to the receptive ranks of college and now high school lads.

The fall collections are ample evidence of this. There are dress and sport shirts, sweaters, Ivy League slacks and co-ordinated jackets, shirts and caps galore. for personal choice of wardrobe. Such a vast array leaves room

additions and also satisfies the need to conform.

In coordinates, khaki, ivy-green, and charcoal gray are favored color candidates. Jackets and matching trousers are all carefully tailored.

There's a new direction in the collar story. And it's upwards. Collars are shorter than ever before. Button-down or regular, they are being cut around a fourth inch higher.

Dacron and cotton continues to be a fall item, for lads enjoy wearing (and mom doesn't mind laundering) this miracle 65 per cent cotton and 35 per cent dacron blend fabric. One company, Kaynes, is offering these wash-and-wear sport shirts in white and popular pastel hues.

All this adds up to the fact that the younger generation from age 14 to 18 will rate an A-plus in fashion for the coming semester.

Adds Salt to Wound

BOSTON (U)—While Joseph Cherini clipped his hedge someone slipped into his home and clipped him for \$227. To add insult, the thief locked the door upon leaving, forcing Cherini to climb in.

Rockefeller Foundation Aids Indian Institute

POONA, India—The Gokhale Institute of Politics and Economics, Poona, one of the major centers of social science research in India and a leading school for the re-

search training of young Indian social scientists, has been given a \$150,000 Rockefeller Foundation grant.

The money will be used in developing a long range program of fundamental research on Indian life, institutions, and problems.

Avon Utility Plan Studied

Rochester Eyes Utility Future

Accepts Master Plan for Public Use of Land; Hires Experts

ROCHESTER—"Now is the time to get started on our future plan for public utilities," said Council members Elizabeth Maitrot and Norman Day as the council took up long range planning this week.

The council will follow recommendations of the Area Planning Commission, received here. They include the master plan, for utilities for the entire area.

The council will employ Johnson and Anderson, engineers to investigate those lands that could best be used by the village.

Further study of utilities was made when Leo Stein, Leonard Hyman, builders and their plat engineer, E. J. Giffels of Royal Oak presented a proposed plat of Rochester Heights Sub.

It is located between Romeo and East Tienken Roads and recently purchased of Lyle Knapp, is known as the Korff farm.

Giffels states that the Area Planning Commission had referred the plat to the Council to determine whether or not the Village would supply that portion of the subdivision (about 20 lots) located outside of the Village limits with municipal water and sewage treatment.

Request was granted providing the subdividers construct a storm sewer from the Terry street intersection to the new subdivision and that the subdividers provide a solution to the sanitary sewer interceptor from the property to the sewage treatment plant.

Mrs. K. B. Martin, 320 Williams Rd., asked that signs of "Children Playing" and a 15 mile-per-hour speed limit be placed near Oak Bluff Subdivision. Minimum speed limit for residential sections of 25 m.p.h. will be posted and that a police sergeant will call on Mrs. Williams to discuss the problems.

Christian School Enrolls 100 Pupils

IMLAY CITY—The Imlay City Christian School will open Wednesday with about 100 pupils enrolled for the nine-month term.

John P. VanAmstel, who is returning for his second year, will be principal and will teach the sixth through ninth grades.

Martin Mulder will teach the third to fifth grades and Mrs. Al Brandt will teach the kindergarten, first and second.

Washington Girl to Wed

UTICA—Mr. and Mrs. Andrew Kraucher of 7137 Lindrath, Washington, have revealed the betrothal of their daughter, Dawn, to Richard Russ. Richard is the son of Mr. and Mrs. Walter Russ of 45073 Grant Park, Utica. Wedding plans are incomplete.

Election at Leonard

LEONARD—Sept. 13 voting on the school reorganization here will be at Rowland Hall. Polls will be open at 8 a.m.

Book Sales Low, Orion Schools Alter Schedule

LAKE ORION—Community Schools have revised their schedule for next week because so many students failed to obtain their books during times set up for book store hours last week and the week before.

The schedule is: elementary schools, plus Proper seventh and eighth grades will begin full day sessions on next Thursday morning.

Books for the first through sixth grades will be issued during school hours. Proper is open from 8 a.m. to 2 p.m. each day so seventh and eighth graders can get books before Thursday.

All kindergarten groups will begin Sept. 10.

In the high school, ninth through twelfth will begin with a morning session on Thursday. Seventh and eighth graders will begin there Friday morning, with those not already having books being able to get them that morning.

Ninth and tenth graders will secure their books Thursday afternoon, and eleventh and twelfth Friday.

Ann Guild to Show Flowers and Hats

ORCHARD LAKE—Plans for a hat and flower show Sept. 12 at 8 p.m. to be sponsored by Ann's Guild of Our Lady of Refuge Parish, are well under way.

It will be presented by Parish Hat Shop and Dunstan Flower Shop in the parish hall.

Tickets may be secured from any of the guild members, or by calling Mrs. Thelma Comisky, EM 3-3088, ticket chairman.

County Births

Utica—Mr. and Mrs. Robert Rumble, 8511 24-Mile Rd., announce the birth of a son, William Edward.
Michael Allen is the new arrival at the home of Mr. and Mrs. James J. Mulligan, 41480 East Rd.
The Frank D. Balle, of 44823 Brockton St., are announcing the birth of a son, Frank Lyndel Jr.
Dr. and Mrs. Leroy W. Maxwell, 47413 Eldon St., are the parents of a new son, Kenneth Arthur.

County Calendar

Thomas—The Community Assn. here will serve a beef and chicken cafeteria supper for the public, Tuesday, Sept. 4, at Thomas Community Hall. Serving will start at 6:30 p.m.

After Much MSU Research

Prepare Pocket Manual for Township Board Men

EAST LANSING—A "back pocket" sized manual now in preparation at Michigan State University promises to be of interest to Michigan township board members.

Scheduled for late fall publication, it will detail board powers, duties, modes of procedure and parliamentary rules, announced Prof. Norton E. Long, acting director of the sponsoring Governmental Research Bureau at MSU.

D. Hale Brake, president of the

HAND MADE FOR EASY LIVING—Alex Martin rubs the picnic tabletop that has been finished with outdoor varnish and explains how the lightweight, blond wood table was made. Its leg braces unhook and the legs fold up for easy carrying. Mrs. Martin stands beside their stone barbecue, which Martin also made, and beyond is their Elizabeth Lake home where they find "retirement" busy with continuous activity.

Retirement at Lakeside

Cuts Weight of Table for Outdoor Meals

By DOROTHY JEAN ZACK WATERFORD TOWNSHIP

Retirement doesn't mean that a man stops making things, or that a woman doesn't keep her every

minute as busy as ever, the Alex Martins have found.

Martin retired six years ago, a year after the grey-haired couple moved into the home they had built for themselves on the edge of Elizabeth Lake, at 5060 Cooley Lake Rd.

He has substituted such projects as making lightweight picnic tables for his own and other families, working part time at a golf course less than half a mile away, and fishing.

"There's lots of blue gills, and a few trout we catch out there," he says, pointing out the little canal where his boat lies to Elizabeth Lake's blue surface.

The canal is a short one, and his dock follows the edge of a small inlet. Several friends leave their boats there, also.

A workshop that is small, but effective, is in the basement of the Martins' modern home. Light and airy, it opens onto the two-car garage. A slope leads down from the home's front entrance to the lower-level garage doors.

A typical summer afternoon finds Mrs. Martin helping their nephew, Harold McCann who lives with them, paint the garage doors bright yellow, while her husband supervises a ground-bulldozing job a neighbor is doing for him at the canal's edge.

The lawn being smoothed is an extra lot the Martins have their stone barbecue and frequent cook family dinners.

Built from stones cleared from the canal, the barbecue has a regular chimney flue inside it, and two iron doors that swing up to allow fire-tending.

Cookery is usually in pans, but a spit can be placed from front to back, the Martins say. And their picnic table is one built from a birch, natural wood door.

Martin has edged the door with three-quarter by five inch siding, and used three-quarter-inch pipe for legs. Across the bottom he has put inch-angle iron to keep the pieces from digging into the earth.

"Regular angle iron was too heavy," he says, emphasizing that the table can be carried easily by one man. "So those irons are pieces of old bed rails."

Cutting such metal is just part of the job in his workshop. He has a small press he made himself, with a half-horsepower motor, which he claims will cut inch-iron if need be.

Martin sold furniture and appliances at Sears in Pontiac before he retired.

Besides a housewife's usual duties, Mrs. Martin takes pride in their garden. Rows of colorful blooms edge their terrace and the slanting wall besides their garage ramp.

And she tries her skill at oil painting on days when the weather calls for indoor activity.

Breakfast Keys School Events

Walled Lake Teachers Feted by PTAs; Class Schedule Told

WALLED LAKE—A breakfast meeting of all teachers of the Walled Lake district, was among plans for students and teachers announced at a special meeting of the Walled Lake Board of education Monday night.

The breakfast is being sponsored jointly by all the district's PTAs at 8:30 a.m. Tuesday in the Senior High School.

After the breakfast and general session, teachers will spend the rest of the day and Wednesday in their own buildings preparing for the students who will report for a regular school day on next Thursday.

The senior high school will be in session from 8 a.m. to 2:40 p.m.; elementary schools from 8:45 to 3:10, and the junior high from 9:20 until 4. Bus routes, being determined this week, will be published later.

The board approved the contracts for Frank Cannon who has been assigned to the fifth grade at Union and Mrs. Norma Gaskin, fourth grade, Walled Lake elementary.

Delays in the remodeling of the junior high school kitchen will mean that that cafeteria could not be in operation when school opened, the board decided. Pupils assigned to that building will have to carry lunches until work is completed.

The board appointed Julius Nelson to represent it at the Sept. 5 public hearing on the paving of Ladd, Decker, and West Maple roads to be held in Walled Lake.

An agreement was reached with the contractors of the Decker road school to replace the topsoil after rough grading.

Bids on workman's compensation were opened, but will be asked again at the Sept. 10 meeting of the board since they were not submitted on the same payroll classification.

All PTA presidents will be asked to meet Sept. 10 with the board and representatives of three insurance companies regarding pupil insurance which the PTAs have endorsed. This meeting will occur with the board on September 10.

A petition was presented from Gengary parents asking bus transportation if a fence is erected around the Gengary property. This was tabled for further study.

Mrs. Burgess Leads Gingerville MOMS

LAKE ORION—New officers of the Gingerville MOMS, unit No. 33, are: Mrs. Arthur Burgess, president; Mrs. Pearl Burgess, vice president; Mrs. Kenneth Geck, secretary; Mrs. Chester Gravelle, treasurer; Mrs. Glenn Valance, financial secretary; Mrs. Howard Morris, chaplain; Mrs. Byron Carpenter, historian William and Mrs. Beckett, flag bearer.

To Discuss Farm Policy

LAPEER—Should farmers strive for high price supports, low price supports, direct payments, a two price plan, more acreage and farm control or less controls? These various provisions and alternatives will be discussed by Daniel Stuart of the Agricultural Economics Department of Michigan State University at a farm policy meeting to be held at the Lapeer County Center Building on Tuesday, Sept. 4 at 8 p.m.

Award Supply Contracts

LAKE ORION—Contracts for this year's supplies of gasoline in the school system here were awarded to the Standard Oil Co. and for motor oil and grease to the Pure Oil Co. for a two-year period.

Nora Lee Crawford Wed at Rochester

LAKE ORION—Nora Lee Elizabeth Crawford, daughter of the Lawrence E. Crawfords of Lakeview Ave., became the bride of Donald Oren Cole, son of the Frank Coles of Hixon Rd., at a recent candlelight service, St. John Lutheran Church in Rochester was the scene of the wedding.

The bride's gown was princess style, of sheer lace and tulle. It buttoned down the back to a lowered waistline which formed into the cathedral train.

Her bouquet was fashioned of five white satin leaves in a star-like outline, with an orchid in the center, sprays of lily of the valley and sweetheart roses, and cascade ribbons.

The church was decorated with palms and huge baskets of white gladioli and carnations sprinkled with silver. Altar vases were of filly mums, pinocchio mums and carnations.

Honor attendant was Sharon Cole, sister of the groom. Bridesmaids included Vera Crawford, sister of the bride; Judy Lynch of Detroit; Marjori St. Armour and Sue Ann Simms of Lake Orion and Sandra and Nancy Woolard of Royal Oak. Junior bridesmaid was Janet Griggs.

Flower girl was Sandra Koernig. Bridesmaid's dresses were bal-

Romeo Fete Tomorrow Ball to Start 4 Festival Days

ROME — Carnival spirit will prevail here this weekend with thousands of visitors expected to share in the 24th annual Romeo Peach Festival celebration.

The queen's ball tomorrow night leads off the festival events which will include two parades, a midway - carnival, crowning of the queen by Gov. G. Mennen Williams, and an airport breakfast.

The ball will begin at 8:30 p.m. tomorrow in Romeo High

School auditorium with Peach Queen Ann Zenske, an Armada girl, making her first official appearance. She will lead the grand march.

Ann will receive the key to the village from Village President Ray Mellen in welcoming ceremonies at 1:30 p.m. Saturday on the reviewing stand at Lions Community Field.

The carnival opens at 1 p.m. The first presentation of free variety

acts on the reviewing stand will be at 7:30 p.m.

Final Saturday event is the street dance at 9 p.m. near the corner of East St. Clair and South Bailey streets.

Airplane pilots from communities throughout the state will fly in between 7 and 9 a.m. Sunday morning for a public breakfast in the hangar at Romeo Airport, one mile east of town.

Queen Ann and the 11 members of her court will greet the pilots.

Sunday's high point will be formal coronation ceremony at 4 p.m. in which Gov. G. Mennen Williams will crown her majesty.

Nancy Kovack, 1955 peach queen, will present the scepter to her successor at the ceremony to be in Memorial Stadium on Morton street.

Sunday acts at the carnival midway are set for 5:30 and 8:30 p.m.

A sacred concert is slated for 7:30 p.m. in the Congregational churchyard.

Youngsters of the community will participate in the children's parade, which forms at 10 a.m. at the North Main and Hollister intersection Labor Day morning.

Theme will be "Once Upon a Time."

Climax of the festival, the giant parade set for 2 p.m. Monday, annually attracts over 30,000 spectators to the heart of Romeo.

Over 25 floats and ten bands, plus marching units of various types will take part. Outstanding floats will receive cash prizes awarded by judges at the reviewing stand after the parade.

Television and circus personality Ricky the Clown and his donkey Bambino, will ride in the parade and stage a show at the Lions field starting at 4 p.m.

Another variety show is slated at 7 p.m. at the field.

A fireworks display will close the festival at 9 p.m. at the Lions field, at the east end of Washington street.

Complete Plan for Holiday

Maple Pointe Beach to Have Community Fete Labor Day Evening

COMMERCE TOWNSHIP—Officers and board members of Maple Pointe Beach Improvement Club, Inc. have completed plans for a community get-together to be held Labor Day evening at the club's park at Lower Straits Lake.

The event will begin at 5 p.m. with the sale of hot dogs, soft drinks and other refreshments.

Games for children, men and women have been scheduled. Prizes will be given to winners.

Awards will also be presented to first and second place winners in an amateur talent contest for children and young adults.

Final item on the program will be a community sing around a bonfire. A piano, to be used for musical accompaniment during the sing, will be auctioned off to the highest bidder at the end of festivities.

Organized 10 years ago by property owners of Maple Pointe Beach and Maple Pointe Beach Annex subdivision, the Improvement Club is planning a series of get-acquainted events, youth activities and fund-raising affairs.

General chairman of the Monday party is Clay Stokes. President of the association is W. T. Shull.

County Deaths

James A. Espler
IMLAY CITY—Funeral service for James A. Espler, 84, retired farmer of Imlay City, will be today at 2 p.m. at the Lester Smith & Son Funeral Home. He died Tuesday. Burial will be in the Imlay Township Cemetery.

Surviving are two nieces and a nephew, all living in Canada.

Mrs. Charles McClain
MILFORD—Service for Mrs. Charles McClain, 52, 2580 North St., who died Tuesday, will be at Hammond Haas Funeral Home, 24501 Five Mile, Detroit at 1 p.m. Friday. The body lies there, rather than at Richardson-Bird Funeral Home, as the Press stated yesterday.

Sydney A. Potter
DRAYTON PLAINS—Service for Sydney A. Potter, 77, 5778 Hatchery Rd., who died at 4 a.m. today following a stroke, will be Saturday at the Roch Funeral Home, Lowell.

His body is at the Donelson-Johns Funeral Home until Friday. Married in Houghton, he came here 11 years ago when he retired after owning and operating a service station in Wyandotte.

Surviving are his widow, Marie; a daughter, Mrs. Clarence Gregg of Waterford Township; two sisters, Mrs. Myrtle Alexander of Lowell and Mrs. Glen Loveland of Alto, and a brother, Howard of Lowell.

LeParde's Gather

LEONARD—Twenty-five members of the LeParde family attended a recent family reunion at the home of Mr. and Mrs. Hiram Terry on McKail road here.

MR. AND MRS. CHAUNCEY GOULD

MARRIED 50 YEARS—Mr. and Mrs. Chauncey B. Gould, who spoke their wedding vows 50 years ago Sunday, Sept. 2, will celebrate the anniversary at an open house that day from 2 to 5 p.m. at their home, 3075 Pridham, Keego Harbor. Married on Mrs. Gould's parents farm in Burnside township, Lapeer County, they had been born in that township. They lived on a farm in that area for eight years, and later came to Keego Harbor where Gould became a contractor and builder. Among his buildings is a hall now used as the Church of Christ. Aiding with celebration plans are their children, Mrs. Oscar Cort, of Southfield Township, Mrs. Delford Carson of Waterford Township, and Sinclair Gould, whose farm is eight miles north of Imlay City.

FARM WOMEN MEET — Mrs. Harry Whittaker, of Metamora, center, was hostess to members of the Farm Bureau of Michigan last week in Rochester. With her are at left Mrs. William M. Jones, of Walled Lake, and Mrs. Vivian Braid of Royal Oak. The group discussed its activity in supporting the Sister Elizabeth Kenny Polio Hospital at Farmington, and viewed a film on Sister Kenny's life and work. Mrs. Whittaker is co-chairman of the 11-county region of FBW.

Honor Martha Little Plan Child's Memorial

LAKE ORION—The committee of the Martha Little Memorial Fund have decided upon a white marble stone to stand about four

feet high and two feet wide as a fitting memorial. A picture of the "child angel" will be carved on by the Vermont Monument Co. where they do this specialized type of work, although the stone is being purchased through the Inch Memorial Inc. who are donating part of the cost.

The stone's inscription will contain the dates of her birth and death and a notation that the stone was erected by the Martha Little Memorial Fund.

Plan Banquet, Picnic for Staff at Orion

LAKE ORION—Pre-school activities for Orion teachers and their families include a get acquainted picnic and a banquet, both slated for next week.

The Teachers Club is sponsoring a get acquainted picnic for teachers and their families at 6 p.m. Sept. 4, in the Village Park.

The School Board will personally serve a banquet to the teachers and other full time school employees and their husbands or wives, Wednesday, Sept. 5, at 6:30 p.m. in the Blanche Sims cafeteria.

PTA's of the various schools will introduce the teachers to parents at their first fall meetings.

111 Share Field Day

WEST BLOOMFIELD TOWNSHIP — The Crystal-Echo Town Women's Club sponsored a field day for children of their subdivisions yesterday at midday, with 111 women and children taking part. Races for all ages were featured, with prizes awarded.

Several teenagers of the subdivision aided mothers with the races and the luncheon served later.

MRS. DONALD O. COLE

Lorraine Group to Meet Tonight

WATERFORD TOWNSHIP — Members of the Lorraine Manor Civic Assn. will meet at 7:30 p.m. today at the Pontiac Federal Savings and Loan Building in Pontiac.

There will be reports and discussions of street lighting, street signs and drainage.

After the reports, the social committee headed by Mrs. Fred Barnhart will serve coffee and donuts. All members of the association have been urged to attend the meeting.

WALT DISNEY'S True Life Adventures

LET'S FACE IT.
THERE IS NO SUCH THING AS A TYPICAL MONKEY FACE. THEIR FEATURES VARY GREATLY FROM SPECIES TO SPECIES. HERE ARE THREE VARIANTS:

State Department Says OK Egypt Woos Canal Pilots

WASHINGTON (INS)—U.S. officials say no attempt will be made to prevent Americans from accepting jobs as Suez Canal pilots.

The Egyptian Embassy has announced plans to recruit pilots in the United States because non-Egyptian pilots left their posts following nationalization of the canal.

The State Department had no official comment on the embassy announcement. But officials say it was expected because Egypt has been offering jobs to pilots

in some western European nations.

They said although the U. S. government has no objection to Americans accepting the offers, it probably will be pointed out to them the job entails risks because the canal is a trouble spot.

The embassy said a pilot will get \$856 to \$1,417 a month depending on experience and family status. Most pilots are French and British.

Taxpayers' Arithmetic Improves, Errors Cut

WASHINGTON — More than a million taxpayers made mathematical errors on their federal income-tax returns in fiscal 1955.

The errors totaled \$82,000,000, a drop of \$13,000,000 from the previous year. Bills were sent to these errant for \$63,000,000 more in tax money. Others who made mistakes in arithmetic and paid the government too much received refunds totaling \$19,000,000.

The American Music Conference reports that some 28,000,000 Americans, including 8,000,000 children, play some kind of musical instrument.

Tobacco Usage Falls

THE HAGUE — Sales of tobacco products in the Netherlands in 1955 dropped about 1,500,000 pounds below 1954 consumption although use of cigarettes, cigars, and cigarillos continued upward.

The increase was not great enough to offset a decline of 3,500,000 pounds in smoking-tobacco consumption.

Injuries on Job Cost 193 Million Man-Days

WASHINGTON—Last year 14,200 workers were killed and nearly 2,000,000 injured on the job. These injuries cost 193,000,000 man-days of output—enough to produce 100,000,000 refrigerators, or cut and make 200,000,000 men's suits, or manufacture 1 1/2 billion pairs of

men's shoes or fabricate more than 26,000 jet bombers, or build a million six-room houses, or mine two billion tons of coal.

Pepper was once part of the ransom of Rome. Alaric the Goth demanded, among other things, 3,000 pounds of pepper from captured Rome. And after the sack of the city annual tribute was paid in pepper.

You Do Most Things in High-Grade Trance

CHICAGO—It is estimated that, on the average, you spend only about a minute of every hour doing things that call for anything approaching complete attention. John Pfeiffer contends in his book, "The Human Brain," that we do most things in a relaxed, half-attentive

state, a kind of high-grade trance. He says little concentration is required for a host of automatic actions, such as listening to the radio or watching television, washing dishes, shaving, or dressing.

The capital value of Elre's cattle, sheep and pigs is \$72,000,000 more now than it was in 1948, according to the Agricultural Ministry in Dublin.

Car Had Short Life

CHARLESTON, Ill. — Had Rino Bianchi, 17, been keeping a diary it might have had these entries:

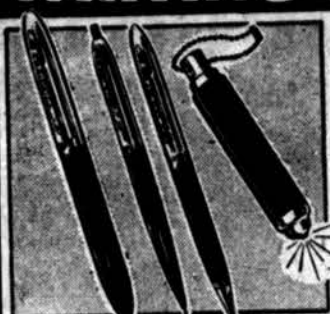

2:30 p.m. — bought new car.
2:45 p.m. — insured car and applied for license.
3:00 p.m. — hit pole and wrecked car.

Grave Social Problem

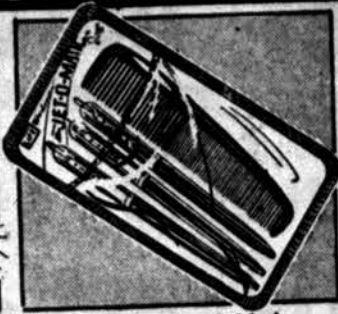

MEXICO CITY — Dr. Mario Gonzales Ulloa reports there are 278,000 Mexicans with facial mutilations, most of them so bad that the victim cannot find work or other. Dr. Ulloa, a surgeon, says it is a social problem surpassing blindness in numbers alone. But, he says, more can be done with

the problem because most victims could be aided and returned to society through surgical reconstruction.

A newly completed \$5,600,000 chemical plant of the African Explosives and Chemical Industries at Umbogintwini, Natal, is the first in the Union of South Africa to produce plastics from basic raw materials.

Scout Delegation to Attend Parley at U. of Indiana

A Pontiac scout delegation is attending the four-day national conference of the Order of the Arrow at Indiana University in Bloomington, Ind.

Attending are three members of the Chippewa Lodge of the Clinton Valley Boy Scout Council. They are Paul Hill of Milford, Tom Stringer of Orchard Lake and Van R. Braidwood of Pontiac.

The Order of the Arrow is a national brotherhood of about 100,000

scout honor campers. More than 2,500 are attending the conference, which emphasizes fellowship, training and exchange of ideas. It ends Thursday.

Rubber Train Wheels

HAIFA, Israel — Israel's first subway will consist of two rubber-wheeled trains of two cars each, connected by a cable. The \$7,800,000 underground cableway will connect the downtown area of the port of Haifa to the 790-foot summit of Mount Carmel. The trip will take 6 minutes and the capacity will be 2,000 passengers an hour in each direction.

Polio Case Reported; TB Increase Shown

Health director, Dr. John D. Monroe, reports this week one new case of polio in the city. Twice as many tuberculosis cases were reported in the county this week over last week.

Measles, chicken pox and mumps decreased in the county, according to the County Health Department.

A breakdown of reports from the health departments on communicable diseases follows:

Pontiac	Past Week	Prev. Year
Chicken pox	1	8
Gonorrhea	2	3
Measles	2	2
Polio	1	0
Rubella	0	1
Tuberculosis	6	3
Impetigo	1	0

Oakland County	Past Week	Prev. Year
Chicken pox	0	4
Measles	3	13
Polio	0	0
Scarlet Fever	0	0
Tuberculosis (all forms)	12	8
Whooping cough	0	10
Mumps	0	2
Infectious Hepatitis	2	0

They've Had Enough

WALLACEBURG, Ont. (U.S.)—The Wallaceburg Boat Club has ordered that all racing craft must have regulation mufflers. The club has been getting complaints about the noise of boats racing on the Sydenham River.

Will Republican Back Truman on TV Show?

By EARL WILSON

HOLLYWOOD—I streaked down here to the land of milk and honeys and I learned that Harry Truman may go on TV regularly to narrate a new forum show.

Ted Granik—producer of "American Forum" and "Youth Wants to Know"—admitted when I caught up with him that he and Truman had "serious discussions" about a new show in Chicago.

"He's interested and available," Granik said, but added "It's strenuous now; however I'm quite hopeful."

From another source I learned that the prospective sponsor (are yuh ready?)—a Republican. My own corny suggestion for the title of the show is "Meet the Prez."

Is an old Goldwyn joke an "Old Gold-wynism"? Old or new, Sam purportedly told somebody, "All the lies they tell about me are true."

Our old chum Frances Faye and her piano-pounding are the big hits on Sunset Strip now. You can hardly get into the joint. Gals love Frances because she knocks her looks. Her hair's cut so short, she looks like Yul Brynner.

"I think when you're pretty, it doesn't matter how you wear your hair," she tells everybody. One woman customer back of me said, "If she looks like that now, imagine what she looks like when she gets up in the morning."

Frances fools 'em—she doesn't get up in the morning. She's a colossal saloon talent, and can be the new Elvis Presley or the new Roberta Sherwood. The Copacabana should book her at once. Roberta Sherwood's a middle-age mother and Frances says: "So am I. I have four French poodles."

It must be tough to be President. Ike told Barbara Gunnarson, the beautiful blonde South Dakota National Committee woman who resembles Faye Emerson, that he's extremely anxious to get people out to vote. "I'd rather they vote against me," he said, "than not vote."

I met Silvana Mangano in a cottage at Beverly Hills Hotel and was impressed by her quiet, ladylike manner. Her husband, Dino De Laurentis, is busily chasing around taking bows for his big money making hit, "War and Peace." She's just being wifely.

She was playing gin rummy with another woman (Mrs. Ralph Serpe). Yet not only that, she'd just been phoning her three children in Paris. How disappointing . . . not one wiggle out of her. Now if it'd been Mamie Van Doren . . .

THE MIDNIGHT EARL IN N. Y. . .

Ed Sullivan and Steve Allen will share the Sept. 28 issue of Collier's—Sullivan with his autobiography, and Allen with a book of fiction . . . Jackie Gleason's planning several new comedy characters for the new TV series . . . Gina Lollobrigida's lawyers warned singer Marya Saunders to quit calling herself "the American Gina" . . . Greta Thyssen, "Miss Denmark of '53," will become a U. S. citizen.

Peter Donald joined the ranks of famous TV fluffers. He announced Bromo Seltzer's "Masquerade Party" was sponsored by "that wonderful product, Alka Seltzer—I mean Alka Bromo—oh, shucks, good night" . . . Johnnie Ray's dating his ex-wife, Marilyn Morrison . . . Oscar Levant, now a production asst. at MGM, wears Bermuda shorts around the office . . . Duo: FFC Charlie Applewhite and socialite Betty Balfour . . . The Havana cafe riot scene in "Guys and Dolls" got the film censored in Cuba . . . Juan Peron's very swank exile—he's raising racing horses in Venezuela.

Since Tito and the Kremlin got chummy, MGM had to cut a line out of the Bob Hope-Katherine Hepburn film, "Iron Petticoat," in which a Russian insults Tito . . . Audie Murphy's getting a medal from Belgium—just 12 years late.

TODAY'S BEST LAUGH: Pianist Roger Williams, asked about another man's work, answered, "The piano's all right—the musician needs tuning."

Motorists should be grateful for the new highways that get them to New York faster, says Howie Cohan. It gives them more time to hunt for parking space. That's earl, brother. (Copyright 1956, The Hall Syndicate, Inc.)

Brazilian City Grows to 45,000 in 15 Years

RIO DE JANEIRO—Ceres, a city of 45,000 in Brazil, was nonexistent 15 years ago, consisting of some 200,000 acres of fertile earth and little else. The Brazilian Agriculture Ministry sub-divided the

area into plots of from 40 to 60 acres and settled some 4,000 farm families on them.

Now the prosperous farm community supports 42 elementary and high schools and has two banks and an airport. Roads radiate from it to all corners of Goias State, in which it is located.

Foresees End of Crippling Polio Epidemics by 1957

NEW YORK (INS)—A possibility that killing polio epidemics may be wiped out in the U.S. by the end of 1957 is foreseen by Basil O'Connor, president of the National Foundation for Infantile Paralysis. Crediting the Salk Vaccine with "bringing a bright dream into the realm of reality," O'Connor said the foundation thinks paralytic polio will be eliminated as an epidemic disease when the vaccine is produced and released in sufficient quantities and used by enough people.

He added, in the foundation's annual report:

"If all concerned cooperate fully — manufacturers, public health men, physicians and parents — we can see it happen in the United States by the end of 1957."

O'Connor said that the development and mass use of the Salk anti-polio vaccine was a "planned miracle."

He explained it was brought about by the skill and dedication of research scientists and practicing physicians, the faith of parents and volunteers and the support of the American people."

AID FOR CHICAGO AREA

Taking note of the sharp outbreak of polio in the Chicago area this summer, O'Connor said the foundation has asked its 3,100 chapters throughout the nation to aid in furthering the vaccination of children and adults not protected at present. He said:

"It is impossible to stress too strongly the importance of completing the full series of injections recommended by Dr. Jonas E. Salk, the developer of the vaccine."

The report showed that well over half the March of Dimes funds were used for patient aid despite the development of the successful polio preventive. Thousands of

handicapped children and adults were cared for an assisted along the long road back to useful lives.

During 1955, \$27,624,000 was spent for patient aid, contrasted with \$28,548,000 expended in 1954. The sum was 56.4 per cent of the organization's funds.

MANHATTAN AT DUSK—New addition to New York City's constantly changing scene is the \$35,000,000 Coliseum, office building and exposition hall, shown here from Central Park.

A total of \$15,841,000 was allocated for grants and appropriations for research and professional education and for the purchase of vaccine and gamma globulin, which provides temporary, short-term protection.

In listing research conducted with March of Dimes support, the report noted that a three-pronged search is under way at laboratories in New York, Ann Arbor, Mich., and Salt Lake City to find a drug to reduce paralysis in children and adults who contract polio.

It added that a "chemical detective story is now in the making" as Salt Lake City scientists try to identify an elusive compound which appears to help monkeys survive the disease even

when it is given to them five days after they are infected with polio virus.

No Bar to Moonshine

MONROE (AP)—Prisoners at the county jail got drunk on confiscated moonshine without leaving their cells. The prisoners inserted a curved shower room pipe through cell ventilation holes into jars of moonshine stored in a hall between bleeps and siphoned the whiskey out.

The Bear Thief

RYE, Colo. (AP)—A thief smashed the windshield of Charles W. Terrill's automobile during a weekend fishing trip. Terrill filed an insurance claim but was turned down. The thief was a bear.

Official Explains Private A-Plants

Manpower, Economic Factors Are Reasons for Federal Giveaway

COLUMBUS, Ohio (AP) — Both manpower and economic factors have caused the government to leave to private industry the development of full-scale atomic power plants, an official said today.

Louis H. Roddis, deputy director of reactor development for the Atomic Energy Commission, said the government has handled early experimental phases of the work "because it was felt that only the government could bear the initial financial burden of research and experimentation."

But as for full-scale plants, he said in an address prepared for the Ohio conference on peacetime uses of nuclear energy and radiation safety:

"The largest reservoirs of technical manpower qualified to work in the atomic energy field are now and will be employed in private industry."

Many of these technicians have been working under government contracts, he said, but added that "there is a better chance for assignment of the best qualified people" if the employing firms are risking their own capital than if they are working for the government on a cost-plus-fixed-fee basis.

Roddis said that economy of construction and operation is a major factor in developing actual power plants and "it is particularly important that we keep before the builders and operators the incentive to do an efficient and inexpensive job."

Congress fought at length this year over a Democratic proposal that the government itself build sample producing power plants of various kinds to help provide its power needs and to spur development of the reactors. Roddis made no reference to defeat of that legislation in his prepared speech.

State to Auction Guns

GAYLORD (AP) — The State Conservation Department reported that 78 confiscated rifles, carbines and shotguns will go to the highest bidders at a sealed bid sale Sept. 21 at Gaylord. The weapons, valued at from \$3 to \$125, will be on display at Gaylord Sept. 17-20.

SHADES OF ORVILLE AND WILBUR—The novel craft, above, is actually a new concept in light aircraft. The English-designed plane, called the M. L. Light Aircraft Mark I, is expected to solve the expensive problem of storing and operating planes. The wing, which is an inflated fabric envelope, can be deflated after flight, rolled up into a bag and packed into the body of the craft. The body is then towed by car and stored in the family garage. The plane can take off within 70 yards, cruises at 58 mph and has a maximum speed of 68 mph.

Scientist Sees Antarctica Fully Inhabited; Some Day

LONDON (INS) — An eminent British explorer-scientist forecast yesterday atomic power might turn Antarctica into the world's "seventh habitable continent."

"If atomic-powered icebreakers can be built," Sir Raymond Priestley asked, "why not atomic-powered settlements on the Antarctic mainland?"

Priestley, 70, discussed the past and future of the continent in the presidential address to the 108th annual meeting of the British Assn., for the Advancement of Science.

He said "harnessing Antarctic gales is another possible source of power."

WAIT AWHILE

But he said permanent settlement in Antarctica must depend on a worthwhile economic objective. The latter, he said, "is not at the moment in sight."

Priestley said he believes for the remainder of this century Antarctica will be the scene of explorations and experiments but no settlement will be tried.

Priestley spoke at length about the strategic importance of the continent in event of atomic war.

The importance of Antarctica as a naval and air base, he said, is

French Names Illegal for All Vietnamese

SAIGON (AP) — The Viet Nam government today decreed that citizens of this former French colony will have to find new first names if their present ones are French.

The decree was another effort of the independent republic to wipe out remaining French influence. Many Vietnamese students who attended French schools during the period of France's rule acquired French first names.

2 Forest Fires Reported

LANSING (AP) — Only two forest fires were reported in Michigan during the past week, causing damage to slightly more than 15 acres, the State Conservation Department reported. The fires boosted the year's damage total to 2,302 acres.

Paine Was Born Pain, History Collector Says

NEW HAVEN, Conn. (AP) — Thomas Paine, the Revolutionary War era philosopher was born a Pain, but changed his name, says Col. Richard Gimbel, who owns one of the largest collections of Paine's works.

Gimbel, retired chairman of the air science department at Yale University, says one of the famous writer's first articles, describing a new method of making salt-peter, was signed "Thomas Pain." By the time he wrote his celebrated pamphlet, "Common Sense," however, he had added an "e" to his name.

Cypriots Doubt British Evidence

Rebels Claim Forgery at Papers Accusing Makarios of Conspiracy

NICOSIA, Cyprus (AP) — The EOKA underground cried forgery last night at documents the British say tab Archbishop Makarios as the director of the violence campaign against Britain's rule over Cyprus.

The British replied they are "convinced the documents are genuine."

EOKA leaflets scattered last night in the port city of Limassol charged "scum who are prepared to accept money" forged and distributed the papers to slander the underground fighting to unite this Mediterranean island with Greece.

British officials announced Monday they had seized the documents and said they included portions of the diary of the EOKA leader "Digenis," whom the British have identified as former Greek army colonel, George Grivas.

Britain charged the documents established that the EOKA chief acted under the personal direction of the exiled archbishop. Colonial Secretary Alan Lennox Boyd said he was absolutely satisfied as to the authenticity of the papers.

The EOKA reply challenged the British account of the seizure of the documents, the type of paper on which they were written and whether they were signed. They quoted Digenis as saying he had "left no diaries in any hiding place."

Hung Jury Frees Man Accused of Drunk Driving

DECATUR, Ill. (AP) — Donald E. Wren, 21, was freed of a drunk driving charge yesterday because a jury discharged itself without reaching a verdict.

The jury retired to deliberate Wren's case at 5 p.m. last Thursday. Judge Rodney Scott instructed the jury to leave a sealed verdict, if one was reached, because he was going home for the night.

The jury went home later leaving a sealed envelope for the judge. In the morning, Judge Scott found the envelope contained a note saying the jury couldn't agree.

Judge Scott ruled yesterday that the jury had discharged itself and was not qualified to deliberate further. He held that retrial of Wren would constitute double jeopardy.

One Bottle Too Many

CHILLICOTHE, Mo. (AP) — Harvey Dean Campbell, 38, testified in Livingston County Magistrate's Court that strong winds and mechanical difficulties caused his automobile to waver along the highway. After all, he said, he'd only drunk one bottle. "Bottle of what?" prosecuting attorney J. P. Morgan asked. "Gin," said Campbell. He paid a fine.

The essential ingredient of natural substance is commonly used in pearls, guanine crystals, in simulated pearls, nail polish, found in herring. This fish-sup-plastics, and leather coatings.

Forest Fires Rage North of the Riviera

NICE, France (U)—Flames raced through dry brush and forests in half a dozen areas north of the French Riviera on a 25-mile front today. One fire got to within 500 yards of the principality of Monaco before being beaten back.

Hundreds of firemen and volunteers battled flames throughout the night.

At a news conference Jean Pierre Moatti, governor of the Alps Maritimes department, said some of the fires started accidentally and spread rapidly because of the lack of rainfall. He said that some were set and that authorities were investigating four suspected "fire bugs."

Crashing Truck in Living Room Doesn't Scare Her

DETROIT (U)—There was a loud crash and the house shuddered, but did Ethel Smith scream and run for her life?

Not her. It was only another vehicle crashing into her living room wall. The same thing has happened six times so far this year.

The truck that hit the house yesterday damaged a television set and knocked a few bricks loose. That's nothing, she says, compared to what a fire engine did four years ago.

The city is widening the street near Miss Smith's corner home, hoping to reduce the accidents.

The truck collided with a car and went out of control before it struck the house. No one was hurt seriously.

AUTOMATIC "AGE DETECTOR"—An electronic device is discouraging under-age persons from patronizing New York City's taverns. Too youthful-looking customers are asked to face the bar's "age detector." Standing before the machine with his identification papers on the stand

below, would-be patron and his papers are photographed on a single film when the bartender pushes the switch. The idea is that under-age people won't allow themselves to be photographed with falsified identification.

Adlai-Estes Criticize Ike's Labor Stand, Scamper Off to Tennessee to Woo Dixie

SIoux CITY, Iowa (U)—Adlai E. Stevenson, who lost four Southern states to President Eisenhower in 1952, turned today to the problem of bringing traditionally Democratic Dixie solidly back into the party fold.

But before leaving here for a conference in Knoxville, Tenn., with party leaders from 10 Southern states, the Democratic presidential nominee loosed twin blasts at the Eisenhower administration's farm and labor policies.

And speaking for himself and his vice presidential running mate Sen. Estes Kefauver (D-Tenn) he said:

"Our confidence in victory next November increases each day as public disillusionment with the Eisenhower administration becomes daily more apparent."

In a direct attack on Eisenhower's labor record, Stevenson said the President has "backed down on his promises to amend the Taft-Hartley Act, stacked the National Labor Relations Board against labor, and opposed the Democrats' fight for a fair minimum wage."

"It is now clear that Gen. Eisenhower has only a deaf ear for labor," Stevenson said in a statement saying he and Kefauver were "proud and heartened" to have been endorsed by a majority of the national AFL-CIO Executive Committee.

He put out the statement during a busy day in which he made two public speeches after addressing party leaders from seven Mid-west farm states who gathered in

Sioux City for a campaign strategy huddle.

The conference brought together Democratic leaders from Iowa, Minnesota, Nebraska, North and South Dakota, Wisconsin and Kansas.

They reported Democratic prospects are bright in the area, although Eisenhower carried all seven states in 1952.

Sen. Hubert Humphrey of Minnesota said "you are going to see cooperation out here for Stevenson and Kefauver the likes of which you haven't seen since Roosevelt's day."

In going to Knoxville for a meeting with Democratic leaders from Georgia, Tennessee, North and South Carolina, Florida, Virginia, Kentucky, Alabama, Mississippi and Louisiana, Stevenson and Kefauver were on the next to last lap of their current political tour. Tomorrow they will wind up this week's traveling with a conference in Chicago with party leaders

\$32 Million Waiting—Maybe It's Yours

WASHINGTON (U)—The government has more than 32 million dollars waiting for citizens to step up and claim.

With only a month remaining to file claims, less than a fourth of those believed eligible for the money have applied.

Eligible are those U.S. citizens who suffered losses at the hands of the Bulgarian, Hungarian, Romanian and Italian Governments through war damage, nationalization of property and failure to redeem bonds payable in U.S. currency.

A year ago Congress authorized the Foreign Claims Settlement Commission to receive and determine claims and certify them to the treasury for payment. The law fixed Sept. 30 as the filing deadline.

WIDE RANGE POSSIBLE

Claims are expected to range from a few dollars for confiscation or destruction of clothing and other personal property to as much as 100 million dollars for expropriation of oil properties.

Money for initial payments will come from liquidation of about 27 million dollars of Bulgarian, Hungarian and Romanian assets in this country which were frozen during World War II and five million dollars paid by Italy under a 1947 agreement.

First '56 Traffic Death Recorded in Reading, Pa.

READING, Pa. (U)—This northeastern Pennsylvania city of 110,000 had its first traffic fatality of 1956 yesterday. Mrs. Eva Leas, 52, was struck by a truck while crossing at a downtown intersection.

Reading was cited last month by the National Safety Council for its outstanding record, especially in view of its size, after passing the six-month marker without a single traffic death.

Tiny Magnet May End Disorders in Stomach

LOS ANGELES (U)—A tiny magnet that can be swallowed like a pill is being used by UCLA psychologists to study stomach disorders.

Every movement made by the magnet in response to stomach activity is recorded electronically. Researchers hope the new technique will lead to a better understanding of ulcers and disorders induced by psychological stress.

Rams Trees, Dies

OWENDALE (U)—Henry Jones, 42, of Sebawing was killed Wednesday night when his car

went out of control after crashing through a highway barricade and ramming two trees. Jones, a creamery worker, was driving alone. The accident occurred on a

Huron County road 2½ miles west of this Thumb Area community. Checking accounts are owned by some 40,000,000 Americans.

Judge Turns on Heat

MINNEAPOLIS (U) — "It takes two hands to drive and two arms to hug a girl properly," said Judge Tom Bergin. "When you try to do both, that's careless driving. Fifty-dollars fine."

George E. Sheehan, 25, explained it was cold, his car heater was out of order, and he was only trying to keep his girl warm. Officers testified they saw him hugging and kissing her while driving.

Girl, 10, Killed on Bike

HOLLAND (U) — Ten-year-old Brenda Muller was killed Wednesday night when struck by a car as she sat on her bicycle watching playmates. The accident occurred on an Allegan County road 13 miles south of Holland. Brenda was the daughter of Mr. and Mrs. Jacob Muller, of Fennville.

UAW to Ask for Hearing on Monroe 'A-Plant' Peril

WASHINGTON (U) — Walter P. Reuther says his United Auto Workers union will ask the Atomic Energy Commission (AEC) for a public hearing on the AEC's permit for a big private nuclear power plant near Monroe.

Reuther, UAW president, said the AEC issued a construction permit Aug. 14 for "an unproved and exceptionally hazardous type of reactor" without assurance from the commission's Reactor Safety Committee the reactor will not constitute a public hazard.

He charged the AEC has "suppressed" the Safety Committee report. Reuther said in a statement yesterday.

"Purpose of the hearing requested by UAW is to get the facts before the public by pro-

viding an opportunity for testimony by competent authorities as to why the AEC construction permit should be set aside until such time as there is adequate assurance that the reactor can operate without danger to the public health and safety."

Reuther said the UAW has a legitimate interest in the Monroe

Husky Twins Born

IRON RIVER (U) — Peter and Mark Saigh, identical twins born to Mr. and Mrs. Fred M. Saigh of Iron River, may easily turn out to be football players. Peter weighed 8 pounds, 15 ounces while Mark weighed 8 pounds, 17 ounces, for a combined total of 17½ pounds.

plant because it will be situated near Detroit and Toledo where many UAW members live.

SENATOR FOR IT

Sen. Clinton P. Anderson (D-NM) said he would give "wholehearted support" to the UAW petition for a hearing.

Anderson earlier expressed doubts over safety of the plant.

In authorizing construction of the 40½-million-dollar plant by 24 private firms, the AEC said it "will not issue an operating license after the plant is built 'until it is firmly established... after careful tests' that the final design provides 'reasonable assurance' for the public health and safety."

AEC commissioner Thomas E. Murray dissented from the com-

mission's majority decision on safety grounds.

The plant, scheduled for completion by 1960, would use a fast neutron breeder reactor to produce some 100,000 kilowatts of electric power. The Detroit Edison Co. would distribute the power.

The AEC said it believes safety problems "can be resolved within a reasonable time," although much experimental and theoretical work still must be done on this type of reactor. A breeder reactor is a type that produces more fissionable material in operation than it uses.

Swedish Volvo cars, costing 30 per cent more than German Volkswagens, hope to develop an American market based on a quality rather than a price basis, Stockholm reports.

1928 Child Slayer Dies Behind Bars

DETROIT (U) — Mrs. Caroline Rose Witschl, 76, sentenced to life in prison 28 years ago in the horse-whip slaying of a 4-year-old boarding child, died last night at the Detroit House of Correction.

She had been ill with a heart ailment for the past year.

Mrs. Witschl was convicted in July 1928 of second-degree murder in the death of Jackie Creekmore, whom she was boarding in her Nankin Township home.

Witnesses testified the woman told them she beat the boy with the blunt end of a rawhide, lead-loaded whip.

The boy died April 21, 1928, several days after he was hospitalized

with injuries Mrs. Witschl maintained he suffered in an automobile accident.

The trial was widely publicized. When Circuit Judge Vincent M. Brennan imposed sentence he called the crime the "most cowardly and hideous" ever brought before him. He described Mrs. Witschl as "a menace to little children."

Alters Charter Policies

Labor Weeding Out Thugs

FOREST PARK, Pa. (AP)—Organized labor appeared today to be embarked on a new attempt to chase racketeers out of the labor movement.

On the heels of action against three unions charged with welfare fund irregularities, the AFL-CIO Executive Council yesterday ordered its 140 unions in effect to quit chartering locals to hoodlums trying to extort money from employers by threatening violence.

It directed all unions to avoid indiscriminate issuing of charters that "can be used to shake down" employers and give "a black eye to the labor movement."

The Federation's action closely coincided with the FBI's arrest in New York of John DiGuardi, alias Johnny Dio, a police character who has for years operated on the racketeer fringe of the labor movement.

Dio, arrested on charges of conspiracy in the acid-blinking of Labor Columnist Victor Riesel, had succeeded for years in operating non-existent or "paper locals" of various labor unions, New York police officials said.

George Meany, AFL-CIO president, said he didn't know whether Dio's arrest meant he helped Riesel but declared that anybody responsible for the "dastardly deed" in the Riesel case should get "the full penalty of the law."

Meany said he felt sure the new AFL-CIO rules requiring newly chartered locals to have legitimate cores of workers would help clean underworld influences from labor organizations.

This was the second step taken by AFL-CIO leaders this week to squelch labor union racketeers. Two days ago the council threatened suspension for a union and possible ouster of two others for union welfare fund frauds as exposed by a Senate investigating committee.

The council, concluding a four-day meeting, turns today to a closed-door review of organizing plans centered mainly on the textile and cigarette-making industries.

A large bird grounded a Dragon Rapida plane taking off from Mare Island in the Loyalty Group, on a flight to Noumea. A home was torn in the wing fabric and the plane turned back.

SEN. GEORGE CONFERS WITH PRESIDENT — Sen. Walter F. George (D-Ga.), the President's representative to NATO, listens to the Chief Executive during a conference at the White

House yesterday preliminary to his departure today on the first leg of his trip to Europe for two months of conferences and a vacation.

Hypnotist Adds His Bit to Widow-Killer Probe

EASTBOURNE, England (AP)—Scotland Yard's investigation of the deaths of rich old widows in Eastbourne was broadened today to include a session with a 68-year-old hypnotist.

Detectives talked with Meynell Bloomfield, who describes himself as a specialist in autosuggestion, about patients he has treated in this seacoast resort town during the past 30 years.

There was no indication of what Bloomfield told the Yard about his patients, but he threw in a demonstration that he said included the hypnotizing of a police sergeant.

Plain-clothes men have been working quietly here for a month in an effort to run down rumors that a mass killer may be at large, preying on rich widows.

After checking more than 300 wills, they have narrowed the investigation to a dozen cases which reportedly show suspicious similarities. All involve elderly women who died between 1934 and 1935.

Supt. Herbert Hannam, officer in charge of the inquiry, indicated he will decide within the next 48 hours whether the information developed so far justifies exhuming any bodies.

Eastbourne, is a haven for the

rich retired, and city officials are anxious to still the rumors of a fiend at work on elderly victims. One out of every four residents in this south coast town is 65 or over. The autosuggestion specialist got into the act when officers sought his help during a routine check of long-time residents.

"I told the police about patients I have treated in this area," Bloomfield told a reporter. "I have been practicing for about 30 years. I was born with hypnotic powers, but the British Medical Assn. doesn't like me because I am unorthodox. I use autosuggestion, which is a form of light hypnosis."

The white-haired hypnotist said he demonstrated on homicide squad Sgt. Charles Hewitt, who is troubled with catarrh. The exhibition was conducted in Bloomfield's consultation room in the 300-year-old mansion where he lives.

"I powered the policeman's hands and my own," Bloomfield said. "The policeman became relaxed as I gained physical contact through his hands. I gently pushed his head to one side and spoke behind his ear through his mastoid bone to the subconscious mind."

Hewitt had no comment on the effectiveness of the treatment.

Convicted for Slaying

DETROIT (AP)—David Tessen, 22, of Detroit was convicted of first-degree murder Wednesday in the holdup-slaying of grocer Simon Kourjian. A Recorder's Court jury found him guilty after an accomplice, Paul Ray, 26, testified against him. Ray is serving a 7½ to 20-year sentence in Southern Michigan Prison for second-degree murder.

West Germany now has 13,247,000 licensed radio sets, against 12.8 million in 1954.

1 Ticket Liable to Cost License

Hare Cracking Down on Reckless Drivers and Speeders

LANSING (AP)—A new move has been ordered to get bad drivers off highways by Secretary of State James M. Hare.

A 12-months' license suspension is in store for motorists guilty of "gross" speeding or reckless driving.

Ordinarily, these infractions are considered minor.

Under the Motor Vehicle Code, suspension or revocation of licenses is mandatory for drunk driving, leaving the scene of an accident or using a car to commit a felony.

Hare said the new drive that was launched Aug. 1, shortens from 45 to 30 or 25 minutes interviews by state examiners of motorists suspected of bad driving practices.

MORE INTERVIEWS

He said this permits a 75 per cent increase in the number of persons called in.

"As a result, we have been able to dig deeper into the pile of questionable drivers and reach categories our limited staff never could get to before," he said.

That is where the single offenders come in, those with violations where suspension or revocation is not usually automatic.

In addition, the state has been interviewing persons on which written reports of physical unfitness to drive have been filed by police or judges.

In August, Hare said, his office has ordered 287 restrictions on driving or driver license probations, 2,351 suspensions or revocations and 1,236 denials of license renewals.

Williams Asks Vote for 18-Year-Olds

LANSING (AP)—Gov. Williams today said he would again urge the Legislature to place a constitutional amendment lowering the voting age to 18 on the November ballot.

"For years," the governor said, "I have urged that our younger citizens be given the right to participate fully in our democratic process."

"Democratic members of the Legislature have consistently supported the 18-year-old vote,

but the Republican majority has failed to act."

"In his acceptance speech at the Republican convention, President Eisenhower again endorsed the reduction of voting age requirements."

"There is still time, at its Sept. 19 meeting, for the Legislature to put the proposal on the ballot. If they do so, I am confident the people will adopt the amendment overwhelmingly."

UM Extends Concerts

ANN ARBOR (AP)—The University of Michigan said Wednesday it will extend its concert services to various areas of Michigan, starting with the Upper Peninsula this fall. The series will include six community concerts and a parallel educational service for young musicians in local schools. Participating cities will be Crystal Falls, Ironwood, Hancock, Newberry and Sault Ste. Marie.

ing with the Upper Peninsula this fall. The series will include six community concerts and a parallel educational service for young musicians in local schools. Participating cities will be Crystal Falls, Ironwood, Hancock, Newberry and Sault Ste. Marie.

Will Join Ford Fund

BATTLE CREEK (AP)—J. Wayne Fredericks, assistant to the vice president in charge of production for the Kellogg Co., will join the staff of the Ford Foundation in New York as executive associate in public affairs Oct. 1. Fredericks has been with the cereal firm since 1938.

Ready in Jiffy Is Ginger Tea

With a jar of instant tea and a chilled bottle of sparkling ginger ale, a completely refreshing drink is ready in seconds. You can make the drink right at the table and prepare a second just as quickly and easily.

The tang of ginger ale poured into a tall, sparkling glass adds a new flavor touch to iced tea.

Keep a supply of bottles chilled in the refrigerator, and with a jar of instant tea on the shelf you can have a cool drink as often as it appeals to you.

Ginger Tea
8 teaspoons instant tea
1 cup water
4 (7 oz.) bottles ginger ale

Put 2 teaspoons instant tea in the bottom of each of 4 (10 oz.) glasses. Add cup water to each glass and stir to dissolve tea. Add ice cubes to each glass. Add the contents of a bottle of ginger ale to each glass. Garnish with a sprig of mint. Makes 4 servings.

Romantic Yolk!

DES MOINES —When Mrs. Morris Lunche was cutting up hard boiled eggs for a wedding "brunch" preceding the marriage of her niece, Shirley Shapiro of Des Moines, the first egg she cut in half had a yolk in the shape of a heart.

SKILLET CLUB FOR MEN

By Frank Kohler

TANTE MUELLER'S HERRING SALAD is highly recommended by Mrs. Mae Doelling Schmidt of our Chicago Daily News Chapter. This requires one large jar of herring prepared in soured cream sauce.

1 jar of herring as above
1 teaspoon prepared mustard
1 medium can dried beets
1 teaspoon vinegar
1 teaspoon sugar
Salt and pepper to taste
2 small apples
3 small pickles
3 potatoes, boiled in jackets
1 pound nicely browned veal
1 cup gravy from the veal
2 small onions, sliced
2 hard boiled eggs
Minced parsley

Remove herring from the jar and cut in small pieces and pour into a mixing bowl along with the liquid from the jar. To this add the mustard.

Drain the beets, reserving their liquid, and put them in the bowl. Stir vinegar, sugar, salt and pepper with the beet liquid, and stir all in.

Peel, core and dice the apples, peel the cooked potatoes and dice them and the pickles, and add all to the salad. Chop the veal fine, and stir that in, with the gravy if you have any.

Stir in the onion, toss all well, chop egg whites and yolks separately, and garnish with them and the minced parsley.

CRABMEAT BROCHETTE is another wonderful summer lunch thing. This was a feature of one of the luncheons at the 1955 Food Editor's meeting in Chicago.

1 pound fresh or canned crabmeat

1 teaspoon dry mustard
1 teaspoon salt
1 teaspoon chopped olives
1 tablespoon cherry wine
1 cup white bread crumbs
Strips of bacon

Pick over the crabmeat carefully, and then combine with everything except the bacon slices. Mix well, then roll into balls the size of walnuts.

Roll a strip of bacon around each ball, and fasten with a toothpick. Broil on all sides until bacon is crisp (about 15 to 20 minutes).

The editors raved — and your friends will, too. This should be served with hollandaise sauce to which chopped chives have been added. A good cucumber sauce would be good, too.

At the presentation the brochettes were accompanied by the chive-hollandaise, tomato slices and thin cucumber sandwiches.

KEY LIME PIE. "You can't blame Adam if he was allergic to apple pie — but he WAS in the wrong Eden. Now, if he had been in Florida..." thus, Charles H. Anderson, Florida News Bureau.

2 eggs, separated
1 can condensed milk
1/4 cup lime juice
1/2 cup (sugar) shell
Sugar to taste
Grated lime rind

Beat egg yolks lightly, beat in the condensed milk, then the lime juice and beat until smooth. Add a bit of sugar if limes are tart.

Pour into pie shell, top with meringue made from egg whites beaten stiff with a little sugar, and brown very lightly in the oven. Sprinkle with lime peel and cool.

Fruit-Flavored Tea Great for Thirsty Summer Guests

Strong, clear tea, flavored with fruit juices, makes refreshing summertime coolers. Here are three recipes gathered from friends who know how to welcome guests with tall tinkling glasses.

Iced Tea Hollywood Style
1 quart boiling water
1/2 cup loose tea (or 15 teabags)
1 quart cold water
1/4 cup lime juice
1/4 cup maraschino cherry juice (optional)

Bring water to a full, rolling boil in a saucepan. Remove from heat. While water is still bubbling, add all of the tea at one time. Stir. Brew 5 minutes.

Stir and strain into pitcher or container holding an additional quart of cold water. Just before serving, add lime and cherry juice.

Serve in ice-filled glasses with sugar to taste. Garnish with a sprig of mint. Serves 8.

Tea Grape Punch
Two cups fresh water
1/2 cup tea
3 cups cold water
1 cup sugar
1/4 cup pineapple juice
1/4 cup grape juice
1/4 cup lemon juice
1/4 cup lime juice

In a saucepan bring two cups of water to a full, rolling boil. Remove from heat. Immediately add 1/2 cup tea. Brew 5 minutes. Stir.

Strain tea into pitcher containing 2 cups cold water. Add sugar and stir until dissolved. Add fruit juices.

Serve over ice cubes. Garnish with lemon slices. Makes 2 quarts.

Iced Tea With Limeade Cubes
One can (8-ounce) frozen limeade concentrate; hot tea.
To prepare limeade ice cubes, add 2 1/2 cups water to undiluted concentrate (or refill can 3 times).

Mix well; pour into refrigerator tray; freeze until firm. Fill each glass with cubes; pour in hot tea. Top with mint leaves.

Unusual Salad Features Orange and Anchovies

This salad has an interesting combination of flavors.

Orange And Anchovy Salad
Romaine
1/2 cup paper-thin celery crescents
2 large oranges
1 can (2 ounces) anchovies rolled with capers
Olive oil
Wine vinegar
Salt
Freshly-ground pepper

Have romaine washed, dried and chilled. Tear into bite-size pieces as you have 1 quart packed down lightly. Arrange in salad bowl with celery crescents.

Cut peel from orange so no white membrane remains; cut segments away from dividing membranes. Place drained orange segments over greens and celery. (You can drink the orange juice.) Drain anchovies well; there should be about 10; arrange over oranges.

Cover and chill; when salad is served, dress at table: sprinkle with 2 tablespoons olive oil, 1 tablespoon wine vinegar, salt and pepper. Toss together and taste; add more olive oil, vinegar, salt and pepper if desired; toss again.

Serve at once, making sure you place an anchovy or two on each portion. Makes 6 servings.

A canned ham, weighing about six pounds, will need to bake about two hours and fifteen minutes in a slow (325 degrees) oven.

Light and Airy Coffee Cream Is Smooth Dessert

We like to serve this dessert when we use fruit as a first course.

Coffee Marshmallow Cream
24 regular-size marshmallows
1 cup very hot double-strength coffee
1 cup heavy cream
Salt

Quarter marshmallows and place in the top part of a double boiler; add coffee. Place over very hot water until marshmallows dissolve; beat with a fork or whisk occasionally. Cool.

Beat cream with a dash of salt until thick; fold whipped cream and cool marshmallow mixture together. Turn into sherbet glasses and refrigerate.

When set, there will be a layer of coffee jelly at the bottom and a layer of marshmallow fluff at the top. Makes six servings.

NOTE: A kitchen scissors will help to quarter marshmallows quickly.

Quick Clam Bisque Fine on Cool Day

An electric blender among the wedding gifts? Then here's a delicious quick soup to prepare with it.

Quick Clam Bisque
1 can (10 ounces) condensed New England style clam chowder
1/4 cup milk
Freshly-ground pepper and minced chives (if desired)

Turn clam chowder into electric blender; blend until smooth. Turn of water cress or parsley.

Quick Clam Bisque Fine on Cool Day

An electric blender among the wedding gifts? Then here's a delicious quick soup to prepare with it.

Quick Clam Bisque
1 can (10 ounces) condensed New England style clam chowder
1/4 cup milk
Freshly-ground pepper and minced chives (if desired)

Turn clam chowder into electric blender; blend until smooth. Turn of water cress or parsley.

Into Saucepan; Stir in Milk. Heat until simmering but do not boil.

Pass pepper-grinder and minced chives with soup if desired. Makes about 2 1/2 cups—3 servings. If soup is thicker than you like, add a little more milk.

Pretty Party Dish
Buffet party: serve cold salmon ringed with jellied consommé madrilene. Choose the red-colored madrilene and flake it with a fork until you have a quivering glistening mass. Garnish with sprigs of water cress or parsley.

Scoop Out Tomatoes, Fill With Sardines

Cool red stuffed tomatoes... chilled silvery Maine sardines... what a taste-tempter! Fill four scooped out tomatoes with this mixture: to the pulp add 2 cans of chopped up Maine sardines, 3 tablespoons of mayonnaise, 1/2 cup chopped celery, one chopped hard-cooked egg, mustard, salt and pepper to taste. Chill, serve on lettuce.

Buffet party: serve cold salmon ringed with jellied consommé madrilene. Choose the red-colored madrilene and flake it with a fork until you have a quivering glistening mass. Garnish with sprigs of water cress or parsley.

Turn clam chowder into electric blender; blend until smooth. Turn of water cress or parsley.

Fancy Spreads to Make Early

Making sandwiches for the crowd can be as easy as falling off a log with this new method of preparing tasty fillings ahead.

All the ingredients for a cheese or meat filling, complete with zesty seasonings that make sandwiches unusual fare, are combined ahead of time. Then each filling is shaped like a log or pressed into a loaf pan and chilled.

When it's sandwich-making time, the Cheese or Liver Pate Log can be evenly sliced and each slice used as the filling for an enticing sandwich.

Cheese Log

1 pound Cheddar cheese, grated
2 tablespoons minced onion
1 cup pickle relish
2 tablespoons minced pimiento
2 tablespoons minced stuffed olives
1 cup fine bread crumbs
1 cup mayonnaise

Combine all ingredients. Mix until well-blended. Shape into a log or press into a small loaf pan. Chill. Slice and use to fill about 10 sandwiches.

Liver Pate Log

1 pound liverwurst
2-oz. package cream cheese
1 cup ketchup

2 tablespoons pickle relish, drained
2 tablespoons Worcestershire sauce
1 teaspoon minced onion
Mash liverwurst with a fork. Beat in remaining ingredients until smooth. Place on waxed paper and shape into a log or press into a small loaf pan. Chill. Slice and use to fill 6 to 8 sandwiches.

Use Cookie Cutter to Shape Hamburgers

Like to shape your hamburgers at home in readiness for the picnic grill? Here's a neat trick. Flatten hamburgers with the palm of your hand. Cut with a cookie cutter. Also, you might pat out the meat to the desired thickness, then cut in squares.

Wrap individually in wax paper.

Jiffy-Whisk Handy

Small French-type whisks are widely available and inexpensive; they're a great help in a kitchen for keeping sauces and custard mixtures smooth during cooking. They also beat up eggs speedily for scrambling or when you want to whip the eggs just slightly for some other dish.

Open both ends of a can of corned beef hash and push out the hash so it is whole. Cut the roll into four slices and brown well in butter or margarine. Serve on toasted buns with chili sauce.

Peanut Butter for Emergency

Let's talk about peanut butter. Of course, we would say lots of nice things about this protein-packed, low-cost food. But we want to think of peanut butter in connection with unexpected guests.

With a jar of peanut butter on the shelf, and a few ideas tucked away in the back of your mind, you're ready for all emergencies.

There's a long list of foods that team up to make good peanut butter sandwich partners, and all of them are easy and quick to make.

As peanut butter sandwich partners, let's consider the fruits first. Sliced oranges head the list, although orange marmalade might be a more economical partner right now.

Chopped dried fruits also mix well with peanut butter and, of course fruit jam combined with peanut butter makes a good sweet sandwich.

ADD CRISP VEGETABLES

Vegetables, such as chopped celery and grated carrots add a

delightful crisp note to peanut butter. And, you might like to try minced green pepper, too.

If you've got peanut butter and honey on hand, guests can never catch you without a dessert.

Just roll out your favorite biscuit dough and spread it with equal amounts of creamed peanut butter and honey. After you've rolled up the dough, cut it into half-inch slices and bake them in a hot oven for about 25 minutes.

You'll find plenty of peanut butter on most grocers' shelves now, so be sure you transfer a jar or two to your own cupboard just for emergency.

Corn Tastes Better Cooked With Bacon

Good-tasting combination!

Corn 'n Bacon

4 slices bacon
1 can (1 pound) whole kernel corn
2 cups finely diced onion
2 tablespoons butter or margarine
Fry bacon until crisp; drain and reserve.

Drain bacon fat from skillet; to skillet add liquid drained from corn and onion; boil rapidly until liquid is reduced to about 1/4 cup. Add corn and butter; heat.

Oatmeal, Pecans Used to Make Luscious Cookies

Get part of the preparation of these cookies done the day before you bake them.

Overnight Cookies

2 cups quick-cooking rolled oats
1/2 cup sugar
2 teaspoons grated orange rind
1/4 teaspoon salt
1/4 cup salad oil
1 egg
1/2 cup chopped pecans (medium-fine)
Stir rolled oats, sugar, orange rind and salt together thoroughly in a mixing bowl. Stir in salad oil; cover and let stand overnight.

The next morning beat egg until thick and ivory-colored; fold into oatmeal mixture with pecans.

Place rounded teaspoonfuls of bet? Good with cold roast beef.

mixture on ungreased baking sheet, 1 inch apart. Bake in moderate (350 degrees) oven 15 minutes or until lightly browned.

Remove cookies at once with wide spatula to cooling rack. Return any cookies that are hard to remove to oven for a few seconds before taking off. Makes about 4 dozen cookies.

Vary Cookie Recipe

Next time you mix a batch of sugar cookies try substituting either chunk-style or creamy peanut butter for half the shortening. For instance, if the cookie recipe calls for 1/2 cup shortening, use 1/4 cup peanut butter and 1/4 cup margarine. A different taste... and one you'll like!

LABOR
DAY

Peaches, Tomatoes Ready; Poultry in Good Supply

The Labor Day weekend is up-
permost in the minds of everyone.
Labor Day means many things,
but most of all it means—no labor.
This is true for food shoppers,
cooks, and merchants alike. Care-
fully laid plans can make Labor
Day fun. Consumer Marketing In-
formation Agent, Mrs. Josephine
Lawyer, suggests that shoppers in-
clude foods being harvested in
peak supply.

VEGETABLES—Many locally
grown vegetables are in good sup-
ply for the holiday.

All summer wet cold weather has
delayed development of true to-
mato color, but now the quality
and quantity is much improved.

Three medium sized tomatoes or
four small ones usually weigh
about a pound. From this 12 to 16
slices or 2 cups of wedges can be
cut.

If tomatoes are not fully ripe,
then ripen in a dry place, light
or dark, at a temperature of
from 55 to 70 degrees F. Putting
underripe tomatoes in the re-
frigerator stops ripening and
makes them watery.

Finger salads are easy and col-
orful when strips of crisp celery
and carrots are attractively ar-
ranged with radishes, green onions
and fresh sliced cucumbers. Cab-
bage and lettuce wedges complete
the salad tray.

FRUITS—Michigan peaches are
in good supply. These, with plen-
tiful plums, melons, and grapes can
make dessert simple or fancy.

Red Haven and Golden Jubilee
are the Michigan peach varieties
most evident in the markets. The
1956 Michigan peach crop is ex-
pected to be about one-fourth
larger than last year.

At the grocery, select peaches
that are free from blemishes or
damaged areas. Most important
in selecting peaches is the color
of the ground or background color.
Peaches picked in the firm-ripe
stage will have a creamy white or
yellow ground color, will be firm,
and will ripen properly. Peaches
with a greenish ground color will
become tough, leathery, and finally
decay without developing ripeness
or flavor.

California reports an 11 per cent
increase in plums over last year.
These along with Michigan's crop
mean good supplies at reasonable
prices.

Some stores will feature ham
at attractive prices, considering
that pork prices continue to rise
at this season. A whole ham will
serve about three people per
pound compared to either the
butt or shank portions which will
yield approximately 2½ serv-
ings per pound.

If the family bids for beef, high
quality steaks are at a premium.
For a thrifter idea, try braised
pot roast with a zippy barbecue
sauce, or hamburger patties
wrapped individually in foil and
cooked over charcoal coals.

Chicken and turkey are good
standbys that yield to many meth-
ods of preparation. Broilers reports
show numbers 30 per cent greater
than last year at this time. The

ten million more turkeys this year
tend to hold prices at levels fa-
vorable to most consumers.

DAIRY PRODUCTS—No day's
menus are complete without dairy
products. A quart of milk for
children and 2 to 3 cups for adults
is a cooling refreshing way to add
to good health. For calorie watch-
ers skim milk, buttermilk, and dry
milk solids have only half the
calories of whole milk, but still
contain the other important food
nutrients for building and keeping
good bones and teeth.

Fried Turkey
Young turkey, about 4 to 5
pounds ready-to-cook weight, dis-
jointed and cut into serving
pieces.

Combine flour and seasonings in
paper bag. Shake 2 or 3 pieces of
turkey at a time in bag until well
coated. Save any leftover flour for
gravy.

Cook to a uniform golden
brown in about 1 inch of hot
shortening. Do not crowd pieces
in skillet and cook the meaty
pieces first. Browning requires
about 15 or 20 minutes for each
piece.

Pour off any excess grease, add
1 or 2 tablespoons of water, if de-
sired, cover skillet, reduce heat,
and cook until tender, about 50-60
minutes. The turkey is done when
the thickest pieces are tender. Un-
cover last 10 minutes of cooking
to crisp skin. Serves 4-6.

More Children Will Get Milk

More children ought to have the
chance to drink more milk. The
Congress of the United States has
said so, in a law that will expand
the Special Milk Program to in-
clude non-profit nursery schools,
camps and settlement houses as
well as schools.

The U.S. Department of Agricul-
ture and the state departments of
education have the job of putting
the expanded milk program into
effect. They are making plans
right now for programs that will
permit several million youngsters
to get milk at a saving of about
three cents for each half-pint.

The Special Milk Program was
in effect in about 62,000 schools
last year, about one-third of the
schools in the United States. The
youngsters in those schools drank
something like 1,400,000,000 half
pints of milk, enough to make a
line of milk cartons twice around
the world.

The idea back of the Special
Milk Program is this: America's
cows have been producing more
milk than America's people drink
and eat.

Congress has felt for a good
many years that it's important to
help dairy farmers to stay in busi-
ness by supporting the price the
dairy farmer gets for his milk.
That costs a good many million
dollars each year, to put milk prod-
ucts into storage.

Two years ago, Congress decided
to spend some of the money to put
milk into stomachs instead of stor-
age. The idea worked with young-
sters in school, and now other chil-
dren will be given the same op-
portunity to drink more milk, with
the Federal Government paying part
of the cost.

Self-Frosted Cake Ready When Baked

It's never much trouble to mix
up a cake, but it does seem a
nuisance that when it's out of the
oven it's still only half finished.
It must cool . . . and then there's
frosting to be made up and spread
on. That's why many women like
self-frosted cakes.

Here's a mighty easy way to
quick-mix a topping that will
guarantee a cake ready to eat
when you've finished baking it.
Blend ¼ cup either creamy or
chunk-style peanut butter, 1 ta-
blespoon enriched margarine, ½
cup granulated sugar and a dash of
cinnamon. Mix until crumbs form.
Then sprinkle over the cake batter.
Just bake, as usual, and enjoy!

Pep up that meat loaf by sea-
soning it with Tabasco sauce.

Try French Method for Chicken Salad

One of our favorite chicken
salads is borrowed from the
French. Of course it's made of the

same ingredients as an American-
style chicken salad, but it's put
together differently.

Shred finely the lettuce you'd
use as the base for the salad and
toss with it the amount of diced
celery you'd ordinarily use . . .
along with a few tablespoons of

mayonnaise. Then to the chicken
add chopped green olives or capers
and a generous amount of mayon-
naise.

Put the lettuce mixture over
the bottom of a pretty salad
bowl or chop plate and carefully

spoon the chicken mixture on
top.

So simple . . . but you'll be sur-
prized at how delicious it tastes.
The simple change in method
seems to make more difference
than you'd think!

Excellent With Fish

For an especially good accom-
paniment for fish, drain the liquid
from a jar of tiny whole beets,
and 3 tablespoons sugar and ½
cup vinegar. Heat long enough to
dissolve the sugar. Combine beets

and 1 cup drained pineapple
chunks and pour liquid over beets
and pineapple. Chill at least 3
hours or overnight.

Use a deep bowl when you are
beating egg whites, rather than a
wide shallow utensil.

Labor Day Picnic Should Be Gala

By JANET ODELL

Pontiac Press Home Editor

One last fling before school starts, and the old familiar fall and winter routine sets in; that's one excuse for Labor Day. Let's have a bang-up picnic and really celebrate.

We are thinking of having a different kind of Labor Day picnic at our house. We're going to have a breakfast picnic. We'll make it a family affair. Our children can see that the guests' children are served while the Better Half and yours truly can concentrate on the grown-ups.

A big tray of fruit, a platter of bacon, some homemade coffee cake and gallons of coffee will take care of the food end. The Better Half can preside at the pancake griddle. It should be fun.

Perhaps you will prefer a picnic meal later in the day. Fine; do it at a time that is easiest for you. Make your food preparation as easy as possible. And have fun yourself.

Have you tried the new canned

Olive Sauces Spark Seafood

Dinners which are tops in flavor and eye-appeal need not take hours of time in the kitchen. A recipe like Baked Green Olive Sea Food—combining lobster, shrimp and scallops with chopped pimiento-stuffed green olives and a Swiss cheese sauce—is simply assembled. It allows an hour of relaxing while the casserole bakes.

Baked Green Olive Sea Food
2 tablespoons butter or margarine
1 cup chopped olives
2 tablespoons all-purpose flour
1/2 teaspoon cayenne
1 cup milk
2 cups grated processed Swiss cheese (about 1/2 pound)
1/2 cup chopped pimiento-stuffed green olives
1 10-ounce package frozen scallops, thawed
1 pound shrimp, cooked, shelled and deveined
1 8-ounce can lobster, drained
Cooked rice

Melt butter or margarine. Add olives and saute 3 minutes. Add flour and cayenne and blend. Gradually add milk and cook over low heat, stirring constantly, until thickened. Add cheese and cook over low heat, stirring occasionally, until cheese is melted.

Add olives, scallops, shrimp and lobster; mix well. Turn into 1-quart baking dish. Bake in slow oven (325 degrees) 1 hour.

Serve over rice. Makes 4-6 servings.

2 tablespoons softened butter or margarine
1 tablespoon anchovy paste
8 slices white bread
1 pound shrimp, cooked, shelled and deveined
1/2 cup sliced pimiento-stuffed green olives
2 cups grated processed American cheese (about 1/2 pound)
1 egg, well beaten
1/2 cup milk
1/2 teaspoon dry mustard
Paprika

Combine butter or margarine and anchovy paste; blend well. Spread on bread. Cut bread into 1 1/2-inch squares.

Alternate layers of bread squares, shrimp, olives and cheese in a greased 1 1/2-quart casserole, ending with bread. Combine eggs, milk and mustard; pour over ingredients in casserole.

Dust lightly with paprika. Place in pan of hot water and bake in moderate oven at 350 for 1 hour, or until firm. Makes 4-6 servings.

Fancy Party Fare

"Finger" sandwiches are fun. Serve them with salads or as party fare.

Trim crusts from slices of sandwich bread. Make a conventional sandwich using a favorite spread. Cut into three or four strips, depending on the width you like.

If you favor fancier shapes, such as stars, hearts, diamonds, etc., cut the bread before spreading on the filling.

Liver Tastes Better

Here's a good way to prepare liver, onions and bacon. Cook the onions in butter or margarine in a skillet until they are limp and golden; remove from the pan and keep hot. Now cook the bacon in the skillet until crisp; remove and keep hot.

Dip liver slices in seasoned flour and fry in bacon fat; after the liver has been turned and is almost done, put the onions over the slices and finish cooking. Serve topped with the crisp bacon.

Food Storage Trick

Storing leftover food in a small bowl in the refrigerator? Place the bowl in the center of a good-sized piece of waxed paper. Bring up edges of paper so they meet; make a drugstore fold. Fold remaining ends of waxed paper under the bowl. Neat package!

New Cheese Filling

That lunchbox favorite, American cheese, can be made into an elegant salad-type filling. Shred the cheese and add chopped celery and chopped, blanched almonds. Mix with mayonnaise or salad dressing.

Sandwich Favorite

Serve an All American Favorite sandwich this month. Just stack up thin slices of roast beef and an onion slice on an enriched hamburger bun; spread with butter or margarine and catsup.

tropical fruit punch for a picnic beverage? Carry it in plastic pouring containers embedded in crushed ice in a carrying container. Take along plenty of paper cups for everyone to have as many drinks as desired.

How about corn on the cob for this picnic? Try roasting it in the ashes. Remove the husks, wrap the ears in aluminum foil after putting a pat of butter and salt and pepper in each package. Fold the foil in a drug store fold and twist the ends. Bake in ashes or hot coals about 30 minutes.

Here are three spreads to serve with corn. Try them all and let your guests decide the one they like the best.

Sesame Seed Spread

1/2 pound margarine
2 teaspoons sesame seed, toasted
Soften margarine at room temperature. Add toasted sesame seed and mix thoroughly. Serve with hot corn on the cob. Makes 1/2 cup spread.

Butter and Bacon Whip

1/2 pound butter
8 slices bacon
Whip 1/2 pound butter with fork. Pan fry and crumble 8 slices bacon. Fold into butter. Serve with hot corn on the cob.

Butter And Blue Cheese Whip

1/2 pound butter
1 tablespoon Blue Cheese Spread
Whip together with a fork 1/2 pound butter and 1 tablespoon Blue Cheese spread. Serve with hot corn on the cob.

You're always interested in new sandwich spreads, I'm sure. Both of the following spreads may be made early and chilled until they are needed. Let your guests assemble their own sandwiches, of course.

This first spread calls for chicken livers. You can buy them frozen.

Pickle Chicken Liver Spread

1/2 pound chicken livers
1 tablespoon melted butter or margarine
2 tablespoons finely chopped onion
1/2 cup finely chopped celery
1/2 cup chopped sweet fresh cucumber pickles
1 tablespoon prepared mustard
2 tablespoons mayonnaise
2 tablespoons pickle liquid
1/2 teaspoon salt

Saute chicken livers in butter or margarine 10 minutes, or until tender. Chop chicken livers. Combine chicken livers and remaining ingredients; mix well and chill. Spread on butter bread or rolls, as desired. Makes 1 1/2 cups spread.

Swiss Cheese Pickle Sandwich Spread

2 cups grated processed Swiss cheese (about 1/2 pound)
1/2 cup chopped sweet pickles
1/2 cup chopped canned pimientos
2 tablespoons sweet pickle liquid
Mayonnaise
Buttered bread slices
Combine cheese, pickles, pimi-

Berry Preserves, Butter Crumbs Top Coffee Cake

Here's a luscious topping for a quick bread.

Strawberry Crumb Coffee Cake

1 1/2 cups sifted flour
2 teaspoons double-acting baking powder
1/2 teaspoon salt
1/2 cup butter or margarine
1/2 cup sugar
1 teaspoon vanilla
1 egg
1 cup milk
1/2 cup strawberry preserves
Crumb Topping

Sift together the flour, baking powder and salt. Cream butter, sugar and vanilla. Beat in egg thoroughly.

Lightly beat in flour, alternately with milk, in 4 additions; beat only until smooth after last addition. Turn into greased baking pan (9 by 9 by 1 1/2 inches).

Bake in moderate (375 degrees) oven 20 minutes or until cake tester inserted in center comes out clean.

Do not remove cake from pan; spread top with strawberry preserves; sprinkle with Crumb Topping. Broil slowly until topping is golden brown—about 10 minutes. Cut in squares in pan and remove with wide spatula. Serve warm.

Crumb Topping

Mix one-third cup flour well with 2 tablespoons sugar; cut in 3 tablespoons butter or margarine until combined.

Keep Your Eye On The Flying Saucer

WATCH THE PONTIAC PRESS for announcement important to every pocketbook in this area!

entos and pickle liquid. Add enough mayonnaise to moisten and mix well. Spread on bread to make sandwiches. Makes about 2 cups spread.

As a change from the usual kabob—you know, a whole meal on a stick—try making a fish-kabob. Keep this recipe handy for Friday meals all during the year. It is just as good cooked indoors as out.

Fishkabobs

Use long skewers, the kind you find in the household department of hardware and department stores. Be sure that the coals are hot and glowing, but not flaming. On each skewer, alternate any combination of the following: Scallop, tomato wedges, shrimp, onion slices, pieces of white-meated fish fillets, green pepper pieces. (It's best to plan on two kinds of vegetables, two kinds of fish. The above are merely suggestions.)

Baste with French dressing, and place on rack or hold over hot coals. Turn several times, basting with each turn. Grill about ten minutes.

If you are picnicking in the back yard, here is an idea for a salad that is yummy. Make the gelatin ring early in the day and fill with chicken salad just before serving.

You can take gelatin salads to the park. Wrap the mold in foil and set it on a bed of crushed ice in a bucket or large pan. Take along the makings for the chicken salad and put them together when you are ready to eat.

Chicken Supper Salad

2 cans 15-ounce each: boned chicken or turkey
4 hard-cooked eggs, chopped
1 1/2 cups chopped celery
1/2 cup mayonnaise
1/2 cup chopped stuffed olives or sweet pickles
Salt and black pepper, if desired
Mix contents of cans of boned chicken with eggs, celery, mayonnaise and olives; season to taste. Chill. Serve in center of ring of gelatin salad on crisp salad greens: 2 packages lemon or lime flavored gelatin
3 cups finely shredded cabbage

Apple Juice Is Fine Thirst Quencher

Do you get hungrier or thirstier at a picnic? Moot question, isn't it?

Apple juice makes a happy solution because it's a thirst-quencher in itself and goes well with just about any kind of food.

Fill the cooler with the individual six-ounce cans of apple juice, take along a can-opener puncher and a supply of straws or paper cups. You're set for the day!

Devil's Mint Cake

Sounds mysterious? Not at all. Start with a Chocolate Devils Food Cake Mix, bake and cool, then top with a fluffy white frosting tinted a pale green and flavored with 1/2 tsp. peppermint extract. Sprinkle with small bits of crushed peppermint, then sit back and listen to your friends rave.

You'll be having more picnics during the fall, we know. But make the one this weekend a super-duper affair.

Apple Juice Is Fine Thirst Quencher

Do you get hungrier or thirstier at a picnic? Moot question, isn't it?

Apple juice makes a happy solution because it's a thirst-quencher in itself and goes well with just about any kind of food.

Fill the cooler with the individual six-ounce cans of apple juice, take along a can-opener puncher and a supply of straws or paper cups. You're set for the day!

Sounds mysterious? Not at all. Start with a Chocolate Devils Food Cake Mix, bake and cool, then top with a fluffy white frosting tinted a pale green and flavored with 1/2 tsp. peppermint extract. Sprinkle with small bits of crushed peppermint, then sit back and listen to your friends rave.

You'll be having more picnics during the fall, we know. But make the one this weekend a super-duper affair.

nish each with a lime slice. Makes 6 to 8 servings.

Apple Juice 'n' Ginger Ale
Combine three cups of chilled apple juice with one and a half cups of cold ginger ale.

Pour over ice cubes into tall glasses, garnish each with a long-stemmed maraschino cherry. Makes four servings. (It's better to make additional quantities as needed than to open the ginger ale in advance.)

Use Canned Soft Drinks in Gelatin, Puddings

As good as canned soft drinks are when served simply in their own frosty containers with a pretty straw slipped into an opening, they lend themselves to other food combinations. A zesty pickup is added to gelatin desserts, sherbets, tapioca puddings and dessert toppings when canned soft drinks are substituted for the liquid and sweetening ingredients.

Sanders Was Inventor of Ice Cream Soda

Legend has it that in 1879, Frederick Sanders, Detroit confectioner, invented the ice cream soda by simply adding ice cream to carbonated beverages.

Using canned soft drinks with their delicious flavors and pretty colors cuts ice-cream soda-making down to half the time. No messy sauces or drippy syrups—the sweetness is right in the canned soft drink. Just use a flavorful canned soft drink, plus ice cream or sherbet and add a pretty garnish.

To Store Pimientos:

When you open a 4-ounce can or jar of pimientos and use only one, you can keep the remainder for a couple of weeks if you add a half teaspoon of vinegar to their liquid and store them, tightly covered, in the refrigerator.

LABOR DAY PICNIC—Make corn on the cob the star of your Labor Day Picnic. Serve it with a whipped butter spread flavored with bacon or cheese and watch your guests come back for

more. Keep your menu simple, do as much work ahead of time as possible and enlist the help of family and guests at serving time.

SALAD BAR — This "make-your-own salad" bar is accompanied by a Jiffy Salad Dressing and Watercress Dressing, both made with instant nonfat milk, "the Heart of Milk."

Jiffy Salad Made Easily

In this do-it-yourself era, let your guests help themselves at a "make-your-own salad" bar. They'll have fun and so will the hostess.

Just arrange large platters—sort of miniature smorgasbord—of seafood, cooked or raw vegetables, deviled eggs, etc.—and have a bowl or lettuce basket full of salad greens nearby. Then provide salad dressings.

Everybody will be happy arranging plates according to personal preferences, and entertaining in this casual manner means you can be the hostess and still enjoy yourself. This "make-your-own salad" bar is so easy and convenient.

Here are two quick and easy salad dressings to provide with your "make-your-own salad" bar, both made with the miracle instant nonfat dry milk:

Jiffy Salad Dressing
1 cup liquid instant nonfat dry milk, chilled
1 tablespoon vinegar
1/2 teaspoon aromatic bitters
Dash of salt

Combine all ingredients; shake well. Chill. Serve on cooked vegetables, salad greens, shrimp or lobster. Makes 1 cup.

Watercress Dressing
1/2 cup water
1 tablespoon lemon juice
1/4 cup instant nonfat dry milk powder
1/2 teaspoon salt
1/2 teaspoon paprika
2 teaspoons minced watercress
Dash Worcestershire sauce

Pour water and lemon juice into deep 1-quart bowl. Combine instant dry milk powder and salt; sprinkle over surface of liquid. Beat with rotary beater or electric mixer until stiff enough to form soft peaks, about 8 to 10 minutes. Fold in seasonings. Chill about 15 minutes. Serve on lettuce romaine or cooked vegetable salad. Makes about 1 cup.

Sandwich Combination

Wonderful open sandwich: Spread fine quality liverwurst over a slice of pumpernickel bread and top with crisply cooked hot bacon. Serve with another slice of buttered bread spread with tomato slices and marinated onion rings.

Good With Chicken

Split baking powder biscuits and slather cut surfaces with butter; sandwich halves together again with pieces of fried ham as filling. Serve with chicken—fried or creamed.

Way to Cook Sauce

In making a white sauce, first melt butter or margarine, then stir in flour. If the liquid to be added is cold, it may be stirred in all at one time; if it is hot, stir it in gradually.

Use Potatoes in Hearty Salad

Potato salad turns main dish when it's used as the base of Hearty Tuna Salad and Hearty Beef Salad.

Both recipes call for chopped sweet pickles, which can run the gamut from the mild candied dill strips to the pungent gherkins.

Hearty Tuna Salad

3 cups cubed, cold boiled potatoes
2 cans (8 1/2 ounces each) tuna, drained, flaked
1/2 cup French dressing
1/2 cup chopped candied dill strips or sweet pickles
1/2 teaspoon salt
1/2 cup chopped celery
1/2 cup salad dressing or mayonnaise

Marinate potatoes and tuna separately, each with 2 tablespoons French dressing; let stand in refrigerator about 1 hour. Mix lightly with pickles and next 3 ingredients.

Sprinkle with paprika and finely chopped parsley. Decorate with tomato wedges. Makes 4-6 servings.

Hearty Beef Salad

2 cups (1 pound can) cubed, cooked beef
1/2 cup (1 medium) cubed, cooked potato
1/2 cup chopped celery
1/2 cup chopped sweet pickles
1/2 cup diced cucumber
1/2 teaspoon salt
1/2 cup French dressing
3 hard-cooked eggs, sliced

Combine all ingredients except eggs; marinate 1 hour. Serve in lettuce cups; garnish with egg slices and mayonnaise. Makes 6 servings.

Better With Pineapple

A little well-drained, crushed pineapple lends a pleasing note to ham or chicken sandwiches.

Grind or chop cooked ham or chicken and combine with favorite seasonings. Then, for each 2 cups of filling mixture, add 1/2 cup well-drained, crushed pineapple.

Sugar Keeps Fresh

Store brown sugar in the bread box, if you have room, to keep it moist.

Fat Measurement

Kitchen tip: Fat does not change in volume during melting so it can be measured in the solid state.

Serve iced coffee topped with whipped cream flavored with a little vanilla.

Pick 'Grooved' Celery

Stuffing celery? Choose branches with deep grooves so they will hold the stuffing well.

Garlic Bread Tasty

Serving soup and dessert for lunch? Thick slices of hot crusty garlic bread will help satisfy soup-eaters.

Prepare a package of vanilla pudding and chill. Serve with fresh or frozen raspberries.

Ripe Cherries in Tall Coolers

In the summer when fresh fruits are in abundance it is well to use them in every way possible. Cherries, for instance, so good in cobbler, pie and just eating in the hand, can be used in delicious tall coolers.

A fine drink can be made by beating together $\frac{1}{2}$ cup chopped cherries and $\frac{1}{4}$ cup vanilla ice cream until soft. Pour into a glass and fill the glass with cold sparkling water or pale dry ginger ale.

Then there's a delicious cherry ice cream soda that you can whip up quickly, and a delicious drink, perfect for a warm afternoon.

Cherry Ice Cream Soda
 $\frac{1}{4}$ cup light cream
 $\frac{1}{4}$ cup cherry or vanilla ice cream
 Sparkling water

Combine cherries and light cream in tall glass. Add ice cream. Fill glass with sparkling water. Stir gently. Serves 1.

Cherry Glow

$\frac{1}{4}$ cup chopped, ripe cherries
 $\frac{1}{4}$ cup water
 $\frac{1}{4}$ teaspoon grated lemon rind
 $\frac{1}{4}$ teaspoon grated orange rind
 $\frac{1}{4}$ cup orange juice
 $\frac{1}{4}$ cup lemon juice
 Pale dry ginger ale

Combine cherries, water, grated lemon and orange rind. Simmer until cherries are soft. Chill. Divide among four tall glasses; add orange and lemon juice. Fill glasses with ice cold pale dry ginger ale. Serves four.

Handy Appetizer

With a can of sardines handy on the shelf, you're never at a loss for a dinner appetizer. Mashed with grated onion and lemon juice, they make a tasty spread or a tasty stuffing for celery stalks and hardcooked eggs. In a matter of minutes, you're ready to serve up a pretty platter to family or guests.

Invert Tomatoes

Remember to invert tomatoes, after you have scooped them out, so you can stuff them with a salad mixture. This way they get a chance to drain.

Make Tangy Gravy

Add catsup, Worcestershire sauce and prepared mustard to those meatloaf juices for a tangy gravy.

Fine Fruit Team

Fresh blueberries make a pretty team when they are mixed with cantaloupe balls or orange cubes.

NEW FROSTING MIXES — Two new frosting mixes are now on the market — Creamy Caramel and Milk Chocolate. Both make a rich, creamy smooth icing that spreads easily, keeps fresh, packs and carries well. Neither requires cooking. The chocolate frosting may be used for candy, a rich marshmallow nut roll. In addition to frosting, the caramel mix can be used for Caramel Sauce. Watch for these new products as you shop.

The Kids Will Love It—and It's Easy to Prepare

Here are two new recipes for ice cream calling for sweetened condensed milk as a base—black cherry and peach-pineapple combinations.

Sweetened condensed milk produces a magically smooth and creamy ice cream. The luscious blend of sugar and milk which characterizes it means failure-proof results, whether you freeze it in the regular refrigerator trays, or in one of those new electrical trays, specially designed for ice cream, and fitted with an agitator to stir as it freezes. Another way to freeze the ice cream that is labor free is in an electrically controlled "old-fashioned" freezer.

Black Cherry Ice Cream

$\frac{1}{2}$ cup ($\frac{1}{4}$ 15-ounce can) sweetened condensed milk
 $\frac{1}{2}$ cup well drained, diced canned black cherries
 $\frac{1}{4}$ cup cherry juice
 $\frac{1}{4}$ teaspoon vanilla extract
 $\frac{1}{4}$ cup heavy cream

Set refrigerator control at coldest point. Combine sweetened condensed milk, cherries, juice and vanilla. Whip cream to custard-like consistency. Fold into sweetened condensed milk mixture. Pour into freezing tray. Cover with waxed paper. Freeze to a stiff mush (about one hour).

Turn into chilled bowl. Break up with fork, then beat with rotary egg beater until fluffy but not melted. Quickly return to tray. Cover tray with waxed paper. Return to freezing unit. Freeze until firm. If made in an electric freezing tray or an electrically run freezer, follow manufacturer's directions for freezing. Makes 1 quart.

For Breakfast or Tea

Mix a little orange marmalade with some cream cheese. Spread on split buttered toasted English muffins. Delicious with hot or iced tea.

Stuff cooked drained prunes with bits of crumbled crispy cooked bacon and serve on salad greens with mayonnaise.

Java Flavors Smooth Cream

Like coffee flavor? Then you'll find this molded dessert a heavenly creation.

It's velvet-smooth to the tongue, has an intriguing flavor and looks so pretty when it's turned out of a mold. It's definitely something to put on your list of extra-special company desserts.

Braslian Cream
 $\frac{1}{2}$ envelope unflavored gelatin
 $\frac{1}{4}$ cup sugar
 $\frac{1}{4}$ teaspoon salt
 $\frac{1}{4}$ egg yolk
 $\frac{1}{4}$ cup milk
 $\frac{1}{4}$ teaspoon instant coffee
 $\frac{1}{4}$ teaspoon vanilla
 $\frac{1}{4}$ cup heavy cream (whipped)

Mix together thoroughly gelatin, sugar and salt in top of double boiler. Beat together egg yolk and 1 cup of the milk; stir into gelatin mixture with the remaining 1 cup milk.

Place over boiling water and cook, stirring constantly, until gelatin dissolves and mixture thickens slightly, about 5 minutes. (Water in lower part of double boiler may touch bottom of top part.)

Remove from heat. Add coffee and vanilla; beat with rotary beater just until coffee is dissolved. Chill, stirring occasionally, until mixture mounds slightly when dropped from a spoon. Fold in whipped cream.

Turn into a four-cup mold or use individual molds; chill until firm. Unmold and if desired garnish with additional sweetened whipped cream (flavored with vanilla) and toasted slivered almonds. Makes eight servings.

A Good Investment

A good investment for a kid away at school is a large, inexpensive trunk, foot locker or wooden packing box. Sheets, bedspreads, curtains and rugs that won't be needed until fall semester can be stored all summer in these.

Have a Purpose

Wrist and arm bracelets—all-time students' favorites—are turning to Florence and Florentine opulence for pattern. The antique stone-studded bracelets now have charms large enough to hold pills, dollar bills and photos.

Gusset Does It

Brief cases for male students can frequently serve as overnight bags. Manufacturers announce new expandable gussets that hold both papers and a shirt, shaving equipment and pajamas.

Use Leftover Legumes

Add those leftover cooked vegetables to a tomato sauce and serve with hamburgers.

CHERRY DRINKS FOR SUMMER — Ripe cherries make wonderful drinks for hot days. In this picture we see Cherry Glow, a citrus fruit drink with chopped ripe cherries in it. Hang a cherry over the side by the stem for an amusing decoration.

Frozen Juice, Ice Cream in Tart Sundae or Parfait

As refreshing as a sherbet, yet it's not a sherbet — as pretty as a sundae, yet not a sundae — but it's a delicious dessert. What is it?

It's vanilla ice cream topped with frozen concentrated fruit juice. The flavorsome frostiness of the undiluted fruit concentrate flows down over the mounds of ice cream to give them a dash of color and add real-fruit flavor. Delicious!

A good name for the dessert is Frozen Fruit Juice Delight.

When serving the dessert to a

Greet Guests With Sundaes

Make-your-own sundaes are a special and gay dessert treat, with the makings for a variety of toppings on the pantry shelf and ice cream in the freezer you can welcome unexpected guests without a worry of what to serve.

Just combine the contents of the instant pudding package with light corn syrup and water according to directions on the package and you have a generous amount of creamy smooth sauce. The instant pudding flavors, including chocolate, vanilla, butterscotch, coconut cream, strawberry cream and banana cream suggest many delightful combinations of sauce flavors. Instant Butterscotch pudding, light corn syrup and a bit of extract flavoring make a rich golden sauce, creamy smooth and a dessert delight. Spoon over vanilla or nut-flavored ice cream. This sauce is a smart topping also for angel food, sponge or pound cake or for vanilla pudding or custard.

Instant Banana Cream pudding is the basis for a wonderful and different ice cream sauce for nut-flavored ice cream and for desserts.

Butter Rum Ice Cream Topping
 $\frac{1}{2}$ package instant butterscotch pudding
 $\frac{1}{4}$ cup light corn syrup
 $\frac{1}{4}$ cup water
 $\frac{1}{4}$ teaspoon rum extract flavoring
 Stir the contents of the pudding package into the corn syrup. Stir in the water and rum flavoring. Makes approximately 1½ cups sauce.

Banana Coffee Ice Cream Topping
 $\frac{1}{2}$ package instant banana cream pudding
 $\frac{1}{4}$ cup light corn syrup
 $\frac{1}{4}$ cup water
 $\frac{1}{4}$ teaspoon instant coffee
 Stir contents of package of pudding into corn syrup. Add water and instant coffee and blend in well. Makes approximately 1½ cups.

Make Double Deckers
 Make a meal of man-sized two-story sandwiches. Try a combination of egg salad and lettuce on the top layer, sliced cold chicken below.
 Or, try a bacon and tomato sandwich with a bottom layer of lettuce and sliced avocado.

Way to Fry Meat

Don't cover meat if you are pan-frying it, and cook it in the small amount possible of fat.

"It's always the biggest bargain in the store!"

BREEZE

the all-purpose detergent with a **CANNON KITCHEN TOWEL** inside every **GIANT ECONOMY SIZE** box!

A bonus in every box! These real Cannon premiums aren't just a "someday" thing. Every time you buy the Giant Economy Size Breeze you'll find a real Cannon Kitchen Towel packed right inside the box. (And a girl just can't have too many of them!) They're full-sized, neatly hemmed and worth up to 25¢. And that's not all!

You'll find that Breeze is tops for everything you wash. It will get sheets and shirts sparkling white. It will get the grime out of kids' dungarees. And yet it will take really kind care of your sheerest nylons — and your hands. You've got to be pleased with Breeze, or Lever Brothers will refund every penny. So next time get Breeze!

IF I USED BREEZE EVEN IF IT DIDN'T HAVE A REAL CANNON PREMIUM INSIDE, IT'S PERFECT FOR ALL MY WASH ... DIRTY CLOTHES, DISHES AND DAINTIES TOO!

P. S. CANNON FACE CLOTH IN EVERY REGULAR SIZE

The kickoff breakfast launching the Pontiac Area Women's Committee, Citizens for Eisenhower, was held Wednesday at First Congregational Church. Some of those responsible for its success were (left to right) Mrs. Ruth Weber Parshall of Mohawk road, Mrs. Lola Jeffries Hanavan of Detroit, cochairman of the Michigan Citizens for Eisenhower; Mrs. Paul Gorman of North Genesee avenue and Mrs. J. A. Rammes of Rosedale avenue. Mrs. Rammes was general chairman and Mrs. Gorman presided at the breakfast. Mrs. Parshall handled publicity.

MSU Guest Gives Talk at Breakfast

Predicts Progress for America Under Eisenhower

Under another Eisenhower administration, this country will grow and prosper, it will be a veritable "fairlyland" of growth, Paul D. Bagwell told 300 members of the Pontiac Area Women's Committee, Citizens for Eisenhower.

The kickoff breakfast for the local organization was held at First Congregational Church Wednesday.

The speaker, head of communications at Michigan State University, pointed to the housing program and its growth through private enterprise.

"Under the Eisenhower administration, private enterprise will go ahead," Bagwell declared. "The best job is done through private enterprise. War and artificial stimuli are not a part of this program."

Defending the country's employment record, Bagwell said there are seasonal layoffs, but noted that there are more than 66,000,000 employed at the present time, as opposed to 2,000,000 unemployed.

MORE POPULATION

With the increase in population (according to the present birth rate, we will have 221,000,000 people living in this country by 1975) we will have to create an additional 21 million jobs, he predicted.

To do this we must attract industry and create a public climate—a desire on the part of those who have money in savings accounts to invest their funds, he pointed out.

The government can not create wealth, Bagwell said. It has no money except that which it receives from the people through taxes. Wealth must come from the private savings of individuals.

Eisenhower has done more to advance the cause of civil rights than has been done in the past 20 years, the speaker noted, and he said that the President has appointed little people to the Cabinet. Discrimination in Washington, D. C., has been done away with, he continued.

"We are fortunate to have a man like Eisenhower at this time. He made a great sacrifice by agreeing to enter the political arena. This is a party of principles, a party of the future," Bagwell concluded.

ANOTHER ADDRESS

Also speaking to the group was Mrs. Lola Jeffries Hanavan, co-chairman of the Michigan Citizens for Eisenhower. She expressed appreciation of the rapid growth of the Pontiac area group, and told members that the President is depending on them for their help. She urged them to work for Ike, to get out the vote and to organize neighborhood like clubs.

In conclusion she said, "Be firm, know your stuff, stick to your cause and to the high principles as exemplified by Eisenhower."

The invocation was given by Mrs. Harry King. Mrs. Paul Gorman presided. Chairman of the affair was Mrs. J. A. Rammes.

For Easier Slicing

Slicing a whole loaf of bread is much easier if all crusts but the bottom are removed before slicing. Remembering to slice the bread lengthwise makes the spreading of the filling easier and less slices of bread to handle.

Time-Saving Tip

Making a lot of sandwiches in big quantities. You will save time by slicing all the sandwich bread before any of the actual sandwich making is done.

Four hostesses for the kickoff breakfast were (left to right) Mary Lou McIntock of Cherokee road, Mrs. Bruce Knight of Detroit, Mrs. John Napley of Menominee road and Mrs. John Benson of South Tilden avenue.

Photographed at the breakfast Wednesday were Mrs. Andrew Dickinson of Lake Angelus and Mrs. (left to right) Mrs. Jack Rothberg of Lake Angelus, George P. Shearer of West Iroquois road.

This 'n' That About Life in Washington

By JANE EADS

WASHINGTON—Alice Roosevelt Longworth is one of the rare species who has a good word for Washington's muggy summer weather. Before taking off for the Republican convention in cool San Francisco and her annual summer sojourn at an even cooler Wyoming ranch, the daughter of the late President Teddy Roosevelt said of Capital heat and humidity: "It's beautiful, I love it."

Handsome, historic Blair House, down Pennsylvania avenue from the White House, has sheltered so many of Uncle Sam's official visitors and entertained so many guests in recent years, its floors were badly showing the wear and tear.

Mrs. Victoria Geaney, official Blair House hostess and resident housekeeper, now has persuaded the government to replace the old black-painted wood with beautiful new marquetry flooring.

Energetic Dorothy D. Houghton, co-chairman of National Citizens for Eisenhower, will take time out from her busy campaign schedule Labor Day weekend to fly to Geneva, where she will receive the Nansen Medal, awarded for distinguished service to refugees.

Will-O-Way Presents Comedy

Final Play Being Staged

Paul Caplan, a newcomer to the Will-O-Way stage this summer, scores a new triumph in his role as Larry Larkin in "King of Hearts" by Jean Kerr and Eleanor Brooke.

This play, dealing with a cartoonist who begins to take himself too seriously, is the final presentation of the summer season.

Janet and Danny Simpson (he's a former Pontiac boy, you remember) have heavy supporting roles. As Dunreath Henry, the long-suffering secretary and fiancée of Larkin, Janet handles her role capably. Her attractiveness is not the least of her virtues.

Danny plays the role of a struggling young cartoonist who not only takes over Larkin's work, but also tries to win over his girl. According to the program notes, Danny is currently to be seen in the movie "Somebody Up There Likes Me."

member of the Will-O-Way clan, does an excellent job as the small boy in the play.

Regular playgoers are always glad to see Bertha Forman and Joe Van as members of the cast. They will also enjoy Happy, a 700-pound newcomer.

"King of Hearts" will play through Sunday, Sept. 16. Tickets are available at the box office.

Renew Plaster Items

To renew old plaster ornaments which look as though they are ready for the junkpile, dip them into a solution of Perma Starch and water. When dry, brush off the excess starch and plaster vases, statuettes, etc. will look as good as new.

Prepare fillings and garnishes ahead of time and store them in the refrigerator. Make up last-minute sandwiches shortly before they are needed.

JILL MARY JACKSON

Mr. and Mrs. Robert Schilling of Bloomfield Hills announced the engagement of their niece, Jill Mary Johnson, and Robert Harvey Kohr. Robert's parents are Mr. and Mrs. Robert F. Kohr of Birmingham. Jill is the daughter of Mr. and Mrs. Bevis Johnson of Surrey, England.

Goodwill Club Gives Funds

Members of the Goodwill Club have presented neighborhood plays, collected pop bottles and received donations from friends to give to the Muscular Dystrophy Fund.

Ranging in age from seven to 13 years, the members are Arthur Azonian and Sandra Azonian, co-chairmen and Robert Bell, Susan Coon and Susan Davidson.

Mrs. Mary Jo Davidson and Mrs. Irene Azonian are advising the group who plan to continue to raise funds for the Muscular Dystrophy Fund.

Several Aid as Breakfast Hostesses

New Members of Citizens for Ike Are Listed

Hostesses for the breakfast held Wednesday at First Congregational Church by the Pontiac Area Women's Committee Citizens for Eisenhower were Mrs. Dora Dawson, Mrs. Robert A. Armstrong, Mrs. George Shearer and Mrs. Vernon C. Abbott.

Others working under the chairmanship of Mrs. J. A. Rammes were Mrs. S. D. Sekles, Mrs. William E. McClure, Mrs. R. L. Bronson, Mrs. Charles Allen, Mrs. A. T. McCullough, Mrs. Adolph Magnus, Mrs. L. H. Schimfnel, Mrs. Eugene T. Cleland, Mrs. K. B. Valentine, Mrs. Howard O. Powers and Mrs. Ferdinand Gaensbauer.

Mrs. Addison K. Oakley, Mrs. John Naz, Mrs. John Napley, Mrs. Robert B. Oliver, Mrs. Sam Warwick, Mrs. R. R. Dougherty, Mrs. Leslie K. Tripp and Mrs. J. Harry Baker, are others.

Completing the list of hostesses were Mrs. Arno Hulet, Mrs. Arthur Selden, Mrs. James C. Covert, Mrs. Harry F. Vernon, Mrs. Charles G. Uligian, Mrs. Lee A. Kremer, Mrs. Albert E. Kohn and Mrs. John Benson.

Additional committee members are Mrs. Earl Treadwell, Mrs. Harry Vernon, Mrs. Charles H. Crawford and Mrs. Thomas Dodson.

Ike Backers Meet

Soloist for the breakfast was Mrs. Rebecca Gould of Orange Grove avenue. She was accompanied at the piano by Charles A. Wilson of Waterford.

Several Aid as Breakfast Hostesses

Additional committee members are Mrs. Earl Treadwell, Mrs. Harry Vernon, Mrs. Charles H. Crawford and Mrs. Thomas Dodson.

Mrs. Helen Teitgen of South Tilden avenue looked happy about the whole idea as she served food for the breakfast.

Personal News of Interest

Robert Callows Entertain at Family Dinner Party

Mr. and Mrs. Robert Callow of West Long Lake road entertained Wednesday evening at a family dinner party for their daughter, Mrs. Peter Crabtree, and her sons, Hodge and Steven, of San Diego, Calif.

Twenty guests attended the dinner at Devon Gables. Mrs. Crabtree and sons will return to their home on Sept. 5.

Mrs. Jack Nicolls, who is moving to a new home in Milwaukee, Wis., was entertained at a Wednesday luncheon at Devon Gables. Mrs. F. Eugene Miller and Mrs. W. Arthur Vernon were hostesses.

Attending were Mrs. William A. Kennedy, Mrs. Robert Sutton, Lauretta Paul, Mrs. William J. Dean and Mrs. L. A. Clemence.

Mrs. Ivan Wilcox was hostess to the annual picnic of Pontiac Toastmistress Club Tuesday evening at her home on Old Orchard drive.

The Clinton H. Watsons and their sons, Joseph and Mark, have returned to their home in Silver Spring, Md., after visiting at the home of Mr. Watson's mother, Mrs. Herbert N. Watson of Nelson street.

Domna Ritter, daughter of Mr. and Mrs. Kevin Ritter of Auburn avenue, is attending the national convention of the National Federation of Catholic College Students being held in Cleveland, Ohio, this week. Miss Ritter is national literary chairman of the organization.

Sharon Hetherington, daughter of Mr. and Mrs. Roy Hetherington of Shoran drive, has returned to her home after spending two weeks in Jacksonville, N. C. While there she visited Mr. and Mrs. George Peterson.

Charles Cole of Lincolnshire drive is returning to his home today after spending the past month in Sault Ste. Marie where he visited at the home of Mr. and Mrs. Arthur J. Stapleton.

He is returning with Mr. and Mrs. Bernard Danton and son, Stephen, of Birmingham who were also guests of the Stapletons for several days following a motor tour of the Wisconsin Dells.

Mrs. Ted Nolde of Elm street and Mrs. Homer Young of Wolfe street returned to their homes by plane Wednesday after spending the past month in California. During their stay they visited Mr. and Mrs. William Underwood of Pasadena.

Mr. and Mrs. Richard Bandy (nee Rosalee Rowley) of Flint announce the birth of a son, Mark Edward, Aug. 20 at St. Joseph Hospital in Flint.

Maternal grandparents of the infant are Mrs. L. M. Rowley of Belmont avenue and Howard Rowley of Jackson. Mr. and Mrs. Von Bandy of Lowell street are the paternal grandparents.

Mr. and Mrs. Frank O'Brien (nee Norma Verwey) of Richardson road are receiving congratulations on the birth of a daughter, Elizabeth Ann, Aug. 25 at St. Joseph Mercy Hospital.

Grandparents of the infant are Mrs. Maurice O'Brien of Ann Arbor and Leon Verwey of Seibert street.

For easier sandwich making, cream the butter until it is the proper consistency. Melting butter only makes it soak into the bread.

Coming Events

The Young People's Group of First Social Brothers Church will hold a supper and ice-cream social on the church lawn, 315 Baldwin Ave. Friday from 5:30 to 8:30 p.m.

Don't Be Too 'Smart' to Start Small

By ANE HEYWOOD

When we are coping with a problem ourselves the best shot in the arm we can get is to meet, or at

WCTU Unit Has Picnic in Clarkston

Speaker Describes the Organization of YTC Groups

Mrs. Edgar Carvey of Clarkston was hostess to the Emor L. Calkins Unit, WCTU, Tuesday. Mrs. Robert Beach of Ortonville assisted her mother at the annual picnic.

Devotions on the theme, "Prayer," were given by Mrs. Rhoda Ruby, who used Bible references to show the importance and power of prayer. Reports were given by Mrs. B. C. McCoy and Mrs. Sue Long.

Mrs. Frank Hardenburg, president, appointed a committee to nominate officers for the coming year. Mrs. Ruby will be assisted by Mrs. Ada Schreck in compiling the list.

Speaker for the day was Hazel Green, state corresponding secretary for state YTC organizations. She was introduced by Mrs. Sadie Patten. A report on the activities of YTC in the state and on the new chapters being formed in the area was given by Miss Green.

She also told of the recent YTC convocation in Shelby, where state officers held instruction classes for delegates.

An explanation was given of the procedure in forming a YTC chapter, beginning with a minimum of seven members, followed by selection of leaders and instruction in promoting temperance.

She mentioned the Ethel Little YTC group in Pontiac and the Sadie Patten group in Royal Oak as examples.

Mention was also made of organized groups of younger children, called Loyal Temperance Leagues.

Following a money-making project within the group, Mrs. William Holthusen was accepted as a new member. Mrs. Robert McCoy and Mrs. Roy Heuser were guests.

Marriage Revealed

Mr. and Mrs. Clarence Moore of South Shirley avenue announce the Aug. 11 marriage of their daughter, Joyce Ann, to Emmett Schmidt. He is the son of Mr. and Mrs. William Schmidt of Beaver Island.

The idea of rhinestone raindrops on a raincoat, popular this year, is equally applicable to shower curtains.

least hear about, others who have successfully coped with a similar problem.

That is why I am always on the lookout for stories of other people who are successfully engaged in a bread-and-butter hobby.

To the despairing in their sixties and seventies, who are afraid life is over, there is no such tonic as the case history of a couple just like themselves to whom life is anything but over.

Mr. and Mrs. M. in New Jersey fit into this tonic category.

They are both 71 and have launched a part-time project which brings in those extra dollars that provide for luxuries. More important than that, it makes them feel young in heart again because they feel they are filling a real need for other people.

LIFE WORTHWHILE

This is the thing that makes life worth living for all of us.

Mr. and Mrs. M. have a mending service.

Mrs. M. is an expert with her

the era of thrift when things were mended year after year.

As she explained, "I get a real glow of satisfaction when I've made something look like new again."

PICKUP SERVICE

Mr. M. has a car and likes to drive and meet people so he does the pickup and delivery without which their service could not have flourished.

"It began when I offered my services to a local laundry," Mrs. M. told me. "They needed someone to do special mending for bachelors."

"Then we put a small ad in the paper and got some private customers. Some were business women and some were bachelors but increasingly we are getting business from busy young mothers who need things mended for the children and can't find the time to do it."

MODERATE FEES

"Our fees are very moderate so almost anyone can afford us."

FOUR-HOUR 'SHIFT'

"I work about four hours a day

—sometimes while we sit and listen to the radio in the evening. Then I usually go with Jim when he picks up and delivers."

It's so much more fun to be taking a drive with a real purpose than just the time-killing kind most of our friends go in for."

If you have any friends who are getting more fun out of life because they have an absorbing hobby or business, won't you write and tell me about them so I can share their experience with my readers?

And if you would like to start a business of your own and don't know how to begin, send a self-addressed stamped envelope to me in care of this paper and I will send you a copy of my pamphlet, "How to Set Up a Home Service."

Furniture Styles for Babies Revamped, Especially Crib

DALLAS, Tex. (INS) — Babies and parents too—never had it so good since furniture makers decided to make a play for the nursery trade.

Besides many conveniences tucked right in the design of the new baby furniture, decorator-conscious mothers and dads get a lift from the lines and colors of the latest cribs, chests and chairs.

What is probably the most important piece of baby equipment—the crib—is really getting a going over by the furniture men.

Cribs now come with built-in music boxes, are collapsible so they may be pushed through doorways, are sized to fit the back seat of a car, and come in decorator colors with contemporary legs and hand-painted decorations.

MUSIC BOXES TOO

The music boxes are sometimes installed in the head or foot board

trickiest is installed at the base of the drop side and is wound by the motion of raising the side when baby is put to bed.

Collapsible cribs, full six-year size, have special end bars which make the ends and sides fold together when the mattress and spring is removed.

There is a special crib, a little wider than standard, which has telescoping legs and a special half-drop side so when baby is traveling in the back seat of the car it can be tended with ease from the front seat.

The trend toward decorator colors and contemporary styles, is an answer to the same demand which makes a mother dress her children in high styled clothes.

A clever safety device introduced this year at the Southwest Furniture Market in Dallas is an adjustable baby walker which gives novice step-takers a chance

to get around the house without harm. The walker has an adjustable seat to grow with the baby and the rubber-covered legs are tipped with free-moving casters.

Beware 'Pasty' Look

Whatever a baby's coloration, he ought not to look pasty. And a dark child can look just as pasty, under his color, as a fair child. This sick-looking color may mean that he doesn't get out enough or get enough sleep and play.

Bread Stays Fresh

To prevent sandwich bread from drying out, keep slices stacked and in a pan lined with a damp cloth and covered with wax paper; then cover sliced bread with wax paper and a damp cloth. Store this in the refrigerator. Fancy sandwiches can be cut ahead and stored in the same manner.

Remember a two-pound sandwich loaf of white bread cuts 28 one-half inch slices or 36 three-eighth inch slices.

Few Modern Day Women Marry to Get Meal Ticket
Men Who Think So Are Behind Times; Most Brides Work to Help Husbands

By RUTH MILLETT
Any woman, however rushed, ought to allow some time in her busy schedule for kindness. It's smart for a woman to be able to manage a job and a home.

It's splendid of a woman to do a great deal for her family.

But she is leading a narrow, self-centered life if she doesn't reserve a little time for doing things for others.

The woman who meant to visit a sick friend but never got around to it, who meant to send over a hot dish to the neighbor who had a death in the family, who meant to invite to her home the newcomer she met and whose loneliness she sensed but never found the time to ease isn't being a whole woman.

By tradition, women are the ones who take time for small kindnesses, who remember and do something about the troubles of others, who keep in touch with friends whether they live close by or at a distance.

WOMAN'S OBLIGATION

If the woman of the family doesn't do these things they are usually left undone, and the woman herself and her whole family feel the difference.

A family's closeness to others, the number and intimacy of its friendships, its feeling of being a part of the community, all rest on the human touch.

Too many women today can find time for a beauty shop appointment every week, but no time to visit the sick.

They find time for self-improvement courses, but no time to improve the lot of others.

They find time for doing everything for their children—much of which their children could and should be doing for themselves—but no time for anyone else's child.

Such close-to-home living makes for selfishness and detachment. It's bad for a woman's personality and growth and bad for her family.

So no matter how busy you are, remember to reserve a little time each week for kindness that goes beyond the walls of your own home.

Bead Curtains Back

Beaded curtains are back—as decorations for other curtains, at the recent International Home Furnishings Show in Chicago, one showroom featured a bead curtain of black wood beads knotted on black cord in front of beige silk drapes.

The back-to-school crowd is taking with them felt motifs from the five-and-dime counters. In amusing shapes and good colors, they are being used on skirts and sweaters.

AP Wirephoto
Pictured as they danced together at last night's dinner dance held in Dayton, Ohio honoring Charles F. Kettering on his 80th birthday are Mrs. C. E. Wilson and the honoree, Mr. Kettering. More than 1200 persons were on hand for the affair from the state and nation honoring the scientist and inventor.

Good-Luck News for Fall

PARIS (INS)—A good luck-give clothes and wear a dowdy charm on the end of your belt is Gabrielle Chanel's prescription for dress trimming next fall.

The famed Paris designer, who's been a "name" in fashion for nearly 40 years, puts the good luck charms on a long gold chain belt, with the charm attached to the dangling end.

She herself wears one—a little jeweled hand—and sometimes she tucks the charm into her skirt pocket, so that the belt looks like a belt with watch-fob chain attached.

Chanel skips most other trimmings, however, except for her favored gold buttons on simple jersey suits. She explains:

ACCENTS FUNCTIONAL

"Clothes must not be fussy. Buttons that aren't functional and bows that don't fasten anything

Best Wife Insurance Is Baby Sitter

By JOSEPHINE LOWMAN

The following quotation from a reader's letter highlights a problem which is prevalent in many homes.

"I had a nervous breakdown not long ago which could have been prevented if my husband had allowed me to hire a baby sitter, once in a while anyway, over the years. I had never been away from my children at all for nine years until I went away for a long rest."

"If I could only date my husband again! I know a wonderful woman who comes to stay with the children of our friends, and we could afford to hire her if my husband would only agree to do so."

"I do not think he realizes how hard I have worked ever since we have been married."

On first impulse we wonder, "what sort of a house is he?" Actually, it is impossible for anyone who has not had the care of a home along with the responsibility of caring for young children to know what a constant and wearying job that can be.

24-HOUR-DAY JOB

While the man in the family works hard for eight hours a day he is away from the confusion which young children create and the constant supervision they require.

Most important, he has some companionship with his contemporaries. No matter how fascinating you find the cute sayings of Junior or how intriguing it is to watch your child develop day by day, a mature person requires some mature companionship.

A woman should get away from the four walls of her house and the prattle of children regularly, and

the husband who does not realize this is extremely shortsighted.

HOME CAN BE TRAP

Yet many women actually are trapped in their own homes and never see any other women except when they take the children along with them.

A baby sitter, periodically, is the best health insurance a man could give a woman. She will come back refreshed from these

short releases. She will keep her own individuality rather than turning into a robot geared only to feed, bathe, dress and monitor small fry.

Otherwise the man himself will be the loser sooner or later, because his wife probably will age prematurely, her interests will have narrowed and she may lose the romantic attitude.

Even if the pennies are hard to come by, the man of the family should insist that she have relief regularly from her home duties, and take her on dates as often as he can! This is vital to his wife's health as well as her happiness.

Many women actually are trapped in their own homes. A woman should get away from her home regularly, and the husband who does not realize this is extremely shortsighted. A baby sitter, periodically, is the best health insurance a man could give a woman.

Don't Miss a Word!

The development of baby's speech is one of the most delightful aspects of watching him grow up. First come the single words which indicate a whole series of things. Later come the two-word sentences and the thoughts.

Negative Age at 2½

Around two and a half is what's called the negative age. Baby doesn't really mean "no," he means he wants to think about it. This is the time to keep orders to a minimum and be sure the demands made on baby aren't too severe.

Urges Age Six Best for Starting Tots at School

PITTSBURGH (INS) — A Pittsburgh reading consultant urges parents not to send youngsters to school before the age of six, even if the birthday is but a month or two past the start of the school year. Edna Mae Bruggeman, a former first grade teacher, feels that most children enrolled too young do not have enough experience with oral language, which serves as an aid to reading and learning.

Instead, she says, parents should help their youngsters in the pre-school years to form adequate language patterns by reading aloud to them rhymes, stories and poems.

Reading, Miss Bruggeman explains, involves more than mere word recognition. "It's a process of experiencing, thinking and learning. It should become a continuous, sequential process of learning during all years of schooling."

To Finish Seams:

If the wrong side of a seam will not ravel, it may be finished by pinking. If the material will ravel, you may put a row of stitching behind pinking, turn the edge of the seam under and machine stitch or overcast.

outfitting yourself for school this fall?
To get the answer to this question and related ones our interviewers went to 46 colleges in 43 states and sampled shopping lists for nearly 2,000 coeds. In addition to looking into buying habits of grammar and school students, survey teams visited such campuses as Vassar, Bryn Mawr, Radcliffe, University of California, Connecticut, Chicago, Nebraska, Oregon, Wellesley, Cornell, Duke, Iowa State, Temple, Syracuse, Purdue, Florida State, Alabama, Kansas, Maine, Texas, Carnegie Tech., Indiana, Missouri and many others.
We were concerned largely with coed-buying habits because girls usually spend about twice as much

as boys in outfitting themselves at the college level.
Champion buyers (and gift recipients) in the back-to-school-set are high school graduates heading off to their first term of college.

This group numbering between 250,000 and 260,000 spends an average of \$436.22 each in preparation for college—nearly twice as much as their brothers or boyfriends spend.

This represents a total market of around \$118,000,000, showing the enormous buying power in the back-to-school group.

FACE IS STEPPING UP

High school and grammar school children spend far less—between \$50 and \$55 in preparing for the fall term.

Due to population increases in this young group, pre-school shopping will affect 41,000,000 people this year—up one third from five years ago.

Our survey shows that 40 per cent of the families of male and female freshmen expect to spend more money in back-to-school buying this than they did last year.

Also, 17 per cent of the parents of high school sophomores, juniors and seniors, and 43 per cent of the parents of high school freshmen planned to spend more than last year.

Let's take a look at the big spenders in the back-to-school movement: the girls beginning college. What will they be buying mostly and where will the money come from?

FATHER FOOTS BILLS

They found that freshmen coeds spend an average \$386.33 for wearing apparel, \$44.28 to decorate and outfit their rooms, and \$25.61 for work and play items like cameras, stationery, radios and fountain pens.

A Midwest coed showed us a typical shopping list. It included every kind of apparel and accessory from lingerie to umbrella and wound up with a wallet—probably on the theory the old one would be worn out at the end of the shopping tour.

Another facet of the whole back-to-school movement, and a rather recent phenomenon, is the amount of influence young people—girls in particular—have on purchases made for them by their parents. Coupled with this is the amount of shopping done independently by young girls.

A survey of girls in the lower high school grades shows that 23 per cent buy their own clothes and personal items, 68 per cent shopped with a parent and only 9 per cent have their shopping done for them.

Among girls in the upper high school grades, the statistics are even more revealing. Here 48 per cent shopped by themselves and 49 per cent were accompanied by a parent. But 90 per cent of those who shopped with a parent said the final choice was with the teenager.

The younger group admitted some influence on the part of a parent, but claimed a strong voice in the final decision.

A more detailed analysis of purchases made by girls beginning college showed that only one out of seven bought an evening gown and only one out of 12 bought evening slippers. This did not mean college social life was in decline. Four out of five purchased dresses, and the same number equipped themselves with dressy high heels.

Called Rude for Secrecy About Dress Impolite One Was Friend Who Asked Name of Store

By EMILY POST

Dear Mrs. Post: "Recently I bought an expensive and very different dress. After having worn it and having received many compliments because of it, a friend of mine asked where I had bought it. 'I refused to tell her, saying the reason I bought the dress was because it different and there were only two or three of this particular model. She was quite surprised at my attitude and told friends that she thought I was very rude and selfish.

"Because we do have many friends in common, I felt I was justified in not telling her. Was I wrong in handling the situation as I did?"

Answer: No you were not. The person who was rude was your friend. It is never considered good manners to copy a friend whom you see a great deal—in fact, you try to avoid it.

Dear Mrs. Post: "A friend of mine is to be married in three weeks and I understand the invitations have been sent out, but I did not receive one.

"I can't understand it as she spoken to me often of her forthcoming wedding and from what she said, I took it for granted that I was to be among the invited guests. Will you please tell me if there is anything I can do about this?"

"I would not dream of going to the wedding without an invitation, and yet, on the other hand, if an invitation was sent, and lost, she might think it strange that I did not go to her wedding."

Answer: If it is a large wedding and she a really intimate friend, you would ask her, of course. But if it is a very small wedding and she is only an acquaintance, you should not ask her and you would not go to the wedding.

Why don't teen-agers realize that love is for two people and loses something when it has an audience?

Hollywood Headlines Director Hits Exploitation of James Dean Tragedy

By JAMES BACON

HOLLYWOOD (AP)—The director who made Jimmy Dean's last picture accuses "fast buck promoters" of sparking a weird, morbid cult for the dead actor.

Newsstands lately have been flooded with articles, even entire magazines, devoted to such morbid topics as "Jimmy Dean Speaks from Beyond;" "Why Jimmy Dean knew he was going to die;" or "Why Jimmy Dean wanted to die."

George Stevens, who directed Dean in the upcoming "Giant," calls all the stories ridiculous.

"Jimmy Dean lived every day for the future. He had no more premonition of death than you or I. These fast buck promoters, out to sell their magazines and souvenirs, won't let the poor fellow die in peace."

Many of the articles are accompanied by photos which Stevens said originally were intended as gag shots. One shows Dean beside an open coffin in a Fairmount, Ind., mortuary. Another is an autographed picture from Vampira, who did a ghoulish television act in introducing horror movies. She was a friend of Dean's and the picture shows her standing beside an open grave beckoning.

"The picture beside the coffin was made when Dean visited a high school chum in his home town. It was a gag picture that

any young man might pose for on an impulse," says Stevens.

"Look at Sarah Bernhardt. When she was 25 years old, she posed lying down with her eyes closed in a coffin. Yet she lived to be 80."

Eastern Town Burning Up Over New Book

GILMANTON, N.H. (U) — The chief topic of conversation in this New Hampshire town of about 800 persons today centered around a book which has caused a controversy even a month before its publication date.

The book, "Peyton Place," was written by 32-year-old Grace Metalious, a Gilmanton mother of three children.

Those who have read advance copies inadvertently stirred up the controversy by describing the book as "spicy," "earthy" and even "shocking."

George Metalious, also 32, said he had to quit his \$3,000-a-year job as a Gilmanton grade school principal in anticipation of being fired because of his wife's book.

Mrs. Metalious expressed the belief that most people in Gilmanton would think the book "dirty" and added she knew her husband would have to leave his job or be fired.

Gilmanton school officials said, however, the book was not involved; that there were "other reasons."

Metalious has taken a teaching position in Stow, Mass., at \$3,400 a year. He said his wife and their children would continue to live in Gilmanton and he would go from Stow every weekend and on vacations.

Stow School Supt. Edward J. Harriman said that when he investigated Metalious last spring he found him acceptable in all respects to fill a teaching job in Stow, a community of 1,700.

Durwood Frost, school committee clerk in Stow, said that unless the book "contains something detrimental to the community or the country, I can't see why he should be jeopardized for something his wife has written."

The tone in Gilmanton was somewhat more varied.

Police Chief Roland Hawkins said: "I don't know what's in the book, but I am to make sure that no book written to corrupt our morals is offered for sale here."

Some people said that residents of Gilmanton were thinly veiled as fictionalized characters in the book.

Farmer Art McClary said he read an advance copy of the book and commented: "It is dirty, but I couldn't tie it to any people living here."

Fred Bucciarelli, proprietor of the general store, didn't read the book but said that "From what I heard, it's going to hurt a lot of people."

He said he will not stock the book, asserting "I'm darned if I'm going to take sides on a story that has split the town in half."

"This is awful for the town's reputation," said Mrs. Nellie Clifford, who has run the town's library for the past 15 years. "I doubt if this library will carry the book. Our annual budget is only \$100."

Mrs. John Gard Jr., another of this town's residents, said "I'm dying to read it."

Six Navy Widows Arrive in Frisco

SAN FRANCISCO (U) — Six widows and 13 children of men lost when a U. S. Navy patrol plane was shot down off the China coast a week ago arrived in San Francisco last night.

Their chartered plane landed at nearby Travis Air Force Base.

A Navy plane brought the body of Airman Albert P. Martin of Delta, Ohio, one of the 16 who was killed on the downed plane.

Newsman were not permitted to talk to the women. The Navy would say only that they would leave today for their homes.

The women are Mrs. Elizabeth Martin; Mrs. Beverly Deane of Grand Rapids, Mich.; Mrs. Dorothy Flood, Chevy Chase, Md.; Mrs. Frances Messinger, Laredo, Mo.; Mrs. Ruth Hutchinson, Cumberland, R. I.; and Mrs. James W. Ponsford, Long Beach, Calif.

Voter! Keep One Eye on the Candidates for Congress

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON (U) — Keep your eye on your candidates for Congress.

The big spotlight in this year's election shines on the presidential and vice presidential candidates

and what they promise. They'll get headlines every day.

But no matter what they promise, the payoff will come in Congress.

You may be an Eisenhower fan or a Stevenson booster. Both are

men of goodwill, and presumably mean what they say.

Nevertheless, in almost everything they say there is a huge, built-in if.

If President Eisenhower, or Adlai Stevenson, becomes president and gets a Congress where a ma-

jority of the representatives and senators goes along with his ideas, then you can expect his ideas to be carried out.

Otherwise, his programs get killed, changed, or wrecked.

In a general way—but only in a very broad and general way—the president will provide the leader-

ship in foreign affairs and national defense.

Unless Congress goes along with him, he'll be like a man talking to himself.

For example: If the president wants to continue the foreign aid program, Congress will have to vote the money to make it possible.

If the president tells Congress about the atomic development he has in mind, or the new ships, or planes or guns he wants, Congress, which holds the purse strings, decides how much he gets.

The president can recommend a tax cut till he's blue in the face, but only Congress can cut taxes.

The president may recommend that federal money be spent to help get schools built. No such money will be spent unless Congress votes it.

Yet, while you can sit at home and see Eisenhower, Stevenson, Vice President Nixon and Estes Kefauver on your TV screen, telling you what they'll do, you may have to hunt around the county or district to hear the congressional candidates.

And when you do hear them—if you want to vote for the man who will reflect your own views when he gets to Washington—be sure he talks on the issue and, if he doesn't, try to pin him down by asking him.

If he's a member of Congress seeking re-election to House or

Senate, the best guide to what he really thinks is not just what he says now but how he voted on the issues last year and the year before and the year before that.

The presidential and vice presidential candidate become such glamorous figures that they and their campaigns are apt to distract attention from local congressional races. This is not intentional, because they know the value of a Congress that will work with them.

For when the oratory dies away, the election is over, and the new Congress takes over in January, a major portion of the power of government will rest not in the White House but under the white dome of the Capitol.

Petitions Would Oust Inkster Councilman

INKSTER (INS)—Petitions were reported being circulated in Inkster today for the removal of Village Councilman Norman A. Bock.

The Middlebelt-Park Manor Civic Association listed 11 charges of irregularities in office against Bock.

The councilman currently is engaged in an argument over an Inkster library bid.

The bid was submitted to Bock's associate in a construction business and the question is whether the bid can be legally accepted by the council.

Finland is commemorating 100 years of stamps by reissuing her first stamp.

WHERE ARE THEY? — A lone stroller wanders through the deserted Piazza d'Eadra in Rome, where there is usually a mid-day crowd relaxing in the open-air cafe. The August heat has driven Romans from their sweltering capital and empty tables

and chairs have become quite normal in the outdoor meeting places of the Eternal City. In a few weeks, when the temperature goes down a bit, the tables will be busy and the cafes will be bustling again as usual. Until then, it is a lonely town.

Red Gal Athlete Fails to Answer Shotlifting Count

LONDON (U) — A Soviet woman athlete failed to show up in court charges and Magistrate Clyde Wilson issued a warrant for her arrest.

Nina Ponomareva, 27-year-old champion discus thrower with a Russian track team visiting Britain, had been released on \$14 bond in the care of a Soviet Embassy official after being booked by police yesterday.

She was due to appear in court this morning. Miss Ponomareva, a dark-haired schoolmistress in private life, was taken into custody by a West End store detective and charged with stealing five hats valued at \$4.60.

Police made inquiries at the Soviet Embassy and consulate, but could find no trace of her. Nor could she be found at the hotel where the Soviet athletic team is staying.

Grand Jury to Hear Trick Testify Again

DETROIT (INS) — The Wayne County Grand Jury inquiry of corruption today for the fifth time was to hear testimony from Russell Trilick, downriver gambling czar. Trilick has been accused of paying off Ecorse City and police officials, including Mayor William W. Volsine, who was the jury's main witness yesterday.

Circuit Judge Theodore R. Bohn's investigation yesterday also heard a 16-year-old girl who said she had been lured into narcotic addiction at a River Rouge teenage hangout. Juvenile Judge Nathan Kaufman brought the girl to court.

Accident Victim Dies

DETROIT (U) — Piorus Oster, 71, of Dearborn died Wednesday of injuries suffered last Friday when he was struck by a car while standing at a Dearborn crosswalk.

Calves Provide Treatment for Burns and Skin Ulcers

By FRANK CAREY

Associated Press Science Reporter
STORRS, Conn. (U) — Navy and New York University scientists are experimentally grafting skin from the embryos of calves onto human subjects in a quest for a new grafting treatment for burns, skin ulcers and other surface injuries.

Among the preliminary results among seven cases treated so far are promising—and some of them, at least, are "remarkably good." This came to light today in an interview with one of the volunteer cases Dr. Orr Reynolds, chief biologist of the Office of Naval Research. He received the calf skin treatment for a slow healing "hole the size of a dime" in his hand following the removal of a wart. The graft material is very thin — "like heavy cellophane in thickness."

Here to attend the convention of the American Institute of Biological Sciences, Reynolds said prior to the grafting, the wound had gone three weeks without appreciable healing, was inflamed and sensitive to air, heat and touch. But pain disappeared within a day after the grafting. Within three days "the graft had taken."

and my own skin began to grow into the area, indicating that the embryo calf skin apparently promotes the growth of your own skin."

"You might say," grinned Reynolds, "that I'm one of the first 'cow' boys. The only other male who has received one of the grafts is Dr. A. N. Silvestri, director of research on the project at the Naval Medical Research Center, Bethesda, Md. He cut his toe with a power lawn mower, taped a graft around the toe — and his wound followed the same kind of course as mine did later."

The scientist said several women have received grafts for skin ulcers with remarkably good results.

Scientists have long sought a method of using readily available animal skin for human grafting, but with little or no success because of the fact that the host tissue tends to react adversely to any "foreign" skin. In fact, skin grafts from man to man are limited to exchange between identical twins.

Skin grafts between adult animals of different species also fail, but researchers found that skin taken from an embryonic calf

could be successfully grafted onto adult mice — apparently because the embryo calf skin contains only partly formed protein and therefore might have less tendency to produce a "foreign body" reaction in adult skin.

Car Backs Over Baby Playing in Driveway

LAKE CITY (U) — State Police reported 14-month-old Raymond Allen Rhodes was killed yesterday when backed over by an auto in a driveway at a house where he and his mother were visitors.

The boy was the son of Mr. and Mrs. Marvin Rhodes of Reed City. Mrs. Luella Heisen, the driver, said she believed raymond was in the house. Moments before, she said, she carried the boy inside. But he apparently slipped out and wandered into the path of the car.

437 FIFTH AVENUE ★ NEW YORK 16, N. Y.

Published by THE PONTIAC PRESS

From the Press Box

BY BRUNO KEARNS
Sports Editor, Pontiac Press

Three years ago in the classified section of a Detroit newspaper, an ad appeared under the heading of BUSINESS OPPORTUNITIES. It read:

Investment required—persons willing to invest with no guarantee of financial return. Dividends paid weekly by 9 to 12 year old boys with pleasure gained through Little League Football.

This was the start of Little League Football in lower Michigan and it took a daring woman to conceive such a unique method for organization.

Today the woman, Mrs. Earl Clark, is commissioner of the original organization known as the Jack Lowther Little Football League.

"The newspaper called me after the ad had run to get verification on whether it was printed correctly, and I assured them it was," said Mrs. Clark.

"I didn't get very many calls about the investment part," she said, "but I sure got a flood of calls from boys 9 to 12 about the football angle."

★ ★ ★

What prompted Mrs. Clark to enter what has always been considered a men's field?

Her love for the game stemmed from her first husband, the late Jack Lowther, former U. of D. and Detroit Lions football star who was killed in an airplane crash in 1952.

"When Jack lived he used to round up all the kids in the neighborhood in the northeast section of Detroit for a pickup game of football," she explained.

"He used to pick up all the discarded football equipment from friends, repair them and pass them out to the kids." After Lowther's death, the boys continued playing on the open fields without equipment and proper supervision.

MRS. EARL CLARK

out to the kids." After Lowther's death, the boys continued playing on the open fields without equipment and proper supervision.

★ ★ ★

The young widow, with two sons of her own, decided to do something about it.

"The boys were endangering themselves, and I saw no reason why something couldn't be done to let them play the game under careful supervision," she said.

Financially, she was unable to purchase the necessary equipment, and she realized she wasn't qualified to teach a youngster the basic fundamentals of the sport.

This is when she got the idea for the ad. It did get the attention of some of the sportswriters and "after I told them what I wanted to do, they really got on the bandwagon."

The publicity produced results. A meeting was arranged and nearly 100 boys and parents along with several football-minded men showed up at a Detroit recreation center and within three months the league was organized with 10 teams.

In one year there were over 400 boys playing Little League Football.

★ ★ ★

"It was really amazing how serious the kids took their participation in the game. They have programs, cheerleaders, public address and everything that goes with the football atmosphere," she said.

Every bit of work and time by parents and those who wanted to help has been strictly voluntary.

Mrs. Clark saw great things for the Jack Lowther Little Football League. The idea spread and teams from Detroit, Hazel Park, Dearborn, East Detroit, St. Claire Shores, Grosse Pointe, Royal Oak, Birmingham, Southfield and other communities became interested in franchises.

★ ★ ★

This year, however, the league was nearly destroyed with the break of several teams which dropped out and organized the All-American League.

The new league has eight varsity teams and the Lowther league has seven plus several teams in each circuit known as junior varsity teams.

Mrs. Clark holds no grudge against the rebellious group. "I'm glad there are more teams giving more boys the opportunity to play," she said in true sportsmanlike manner.

"I just wish we could get more parents and other people interested because we sure need help for the teams," she said.

Being probably the only woman-commissioner of football in the country, Mrs. Clark finds her household in the East Beverly section of Birmingham a busy place when football season comes around, especially with three youngsters.

Football atmosphere, however, is natural in the Clark home. Her husband, Earl "Dutch" Clark, needs no introduction in football circles.

Softball Titles at Stake

Two girls' teams from Pontiac, moral Park. There are five teams playing in the Port Huron event. Eight teams are entered in the Class B tourney at Kalamazoo with the Auto Parts aggregation, city league runner-up, carrying Pontiac hopes. North Side's opening test is scheduled Friday night at 8:30.

Drayton Drug, winner of district and regional titles, lays its hopes on the line in the Class C finals against its 1st round opponent at Coldwater. Each tournament is in progress tomorrow at 6 p.m. at Me-

SPIDER STAGGERS — Spider Webb (right) of Chicago is knocked off balance by Rory Calhoun of New York in the 10th round of their middleweight bout in Chicago Stadium last night. Webb won a unanimous decision over Calhoun who was previously unbeaten.

Motor City Test Under Way

By H. GUY MOATS

Although the \$20,000 Motor City Open golf championship will not have its defending champion in contention, the big event starting today at Western Golf club's layout at Redford lists a very strong field of 126 top pros and some 14 fine amateurs. Cary Middlecoff, who won the 1954 event passed it up this year.

After a preliminary pro-am test yesterday in which the course record of 67 was equaled for the 2nd time in two days, the heavy field settled down today for the long run of four 18-hole rounds of medal play. Yesterday's 67 was fired by Don Whitl of Alameda, Calif. Western's members teamed with 41 pros. The 26-year-old pro carded 35-32-67, against par of 72.

Julius Boros and Mike Fetchick (Manapac, N. Y.) carded 68's. Bob Welling, Detroit driving course pro should have held his

hole-in-one effort of yesterday until today. Welling fired an ace on the 200-yard No. 3 (par 3) hole in a practice round. Had he hit it today it would have brought him \$2,500. Tourney officials offer that amount for any ace carded during the 4-day event.

"Big name" stars, such as Boros, Jack Fleck, Ed Furgol, Mike Souchak, Freddie Haas and

others were late starters today. In the early sets were many Oakland county and metropolitan area players. These included Pontiac's state publicx champ Mike Andonian, Gene Bone of Tam O'Shanter, Billy Martin of Forest Lake, Lloyd Syron of PCC, Tommy Shannon of Orchard Lake, Joe Watrous of Birmingham, Leo Conroy of North

ONE ON THE HOUSE — Billy Klaus of the Boston Red Sox gets his toe on the plate just ahead of the attempted tag by catcher Frank House of the Tigers in the game at Boston yesterday. Klaus scored from second on a single by Dick Gernert. The throw was from Charlie Maxwell. Detroit lost the game, 4-2.

Seeks State Baseball Crown

BATTLE CREEK (U)—The Michigan Amateur Baseball Assn. (MABA) will crown a new champion after long weekend tournament activity in Battle Creek.

Sixteen teams, each one a champion from its own league, will vie for the coveted unlimited age state and/or title beginning Friday afternoon and winding up on Labor Day. Battle Creek Behnke Express, last year's winner, has disbanded so a new title is in the making.

Each team will play one game, starting at 4 p.m. Friday. Thereafter, each entry will play two games per day until eliminated in the two-losses-and-out tournament.

Thirty-four games will be necessary to run off the tournament. So it will be, baseball around the clock with plenty at stake. The winner will represent Michigan in the Amateur World Series of the American Baseball Congress which begins in Battle Creek Sept. 7. Michigan has produced six national champions.

Sutherland Paper of Kalamazoo will enter a strong claim for the title. Sutherland was bidding for its seventh straight last year when Behnke knocked the Papermakers off in the title game before 5,000 fans.

One of the stronger threats in the tourney promises to be General Motors of Pontiac. The GMC team, undefeated in Pontiac's Class A League, compiled an impressive string of 26 victories to easily win the city title. Managed by Paul Parks, the Coaches clash with Battle Creek's entry in Friday's 1st round action.

Here is Friday's first round schedule: Wyandotte vs. Monroe, Sault Ste. Marie vs. Muskegon, Lansing vs. Pinconning, River Rouge vs. Dearborn, Wayne vs. Grand Rapids, Jackson vs. Saginaw, Detroit vs. Kalamazoo and Pontiac vs. Battle Creek.

The Packers were third in the Western end of the league last year with a 6-6 record, 2½ games behind the champion Los Angeles Rams.

Blackburn listed as his major needs at the start of the training period here: Help at quarterback, help at fullback, a No. 2 center and defensive secondary strength.

In Bart Starr the Packers have a great young quarterback who throws an accurate and soft ball. The Alabama rookie appears to be just what the doctor ordered for support of veteran Tobin Rote.

The championship aspirations, of course, are more noticeable with the coaches. Take Coach Liz Blackburn, for instance.

He's not a pessimist, but he doesn't go overboard in saying his 1956 team has a good chance to go a long way in the race. He anticipates a ding-dong battle to determine the Western Conference winner and doesn't have a particular choice for Western laurels. "They're all tough—and apparently tougher than last year," is the way he sums it up.

The Packers were third in the Western end of the league last year with a 6-6 record, 2½ games behind the champion Los Angeles Rams.

Red Sox Chase Hoefl Early

BOSTON (U)—The first inning is always a precarious time for Billy Hoefl.

When his arm is working right, he can match pitches with any hurler in the American League. When it's not, opposing batters hit nearly everything he throws at them.

The young southpaw got off to one of his frequent shaky starts yesterday and the Boston Red Sox jumped on him for six hits and all their runs in a 4-2 victory over the Bengals. The loss was the 12th against 15 victories for Hoefl, who lasted only one and two-thirds innings before Jim Bunning came on in relief.

Tiger batters had their troubles too, leaving 12 men stranded on base. In both the 4th and 5th innings they had two men on bases and couldn't score. In the 6th they loaded the bases with none out—still no score.

First baseman Dick Gernert led the Boston hitting attack, batting in three of Boston's four runs with a double in the first inning and a

single in the second. He added another single in the 7th for a 3-for-4 batting performance.

Gernert's double scored Billy Klaus, who had singled, to give the Red Sox a 1-0 lead in the

first inning. An error by Tiger third baseman Ray Boone, a force play and two singles loaded the bases for Boston in the second and Klaus' force play produced another run. After Ted

Williams walked, Gernert singled for the final two Boston scores.

Detroit opened its scoring in the third inning when Harvey Kuenn socked a double, scoring Bunning, who had singled. A walk to Earl Torgeson, a wild pitch and Charley Maxwell's single to right accounted for Detroit's second run in the 7th.

Brewer racked up his 17th victory against 7 losses with help from reliever Ide Delock, who came on in the eighth.

The Tigers thus wound up their swing of the eastern circuit with a highly creditable record of 6 wins and 3 losses. They return to action tomorrow with a night game at Kansas City.

Mickey Raps 46th

Stengel Even Doubts Mantle Can Hit Mark

NEW YORK (U)—If Mickey Mantle hits 60 home runs this year and matches Babe Ruth's record, the most delightfully surprised man will be his own manager.

"I don't think he can do it," said Yankee Skipper Casey Stengel after Mickey hit No. 46 yesterday and pulled four games ahead of the pace set by Ruth in 1927.

"Don't misunderstand me. He is a great player but it is asking an awful lot for a youngster in the

lead in all departments. And remember the Babe hit 17 homers in September."

Mantle currently is leading the American League in batting average, .367 and runs batted in, 117, as well as homers. Only three players have won the triple crown since they started keeping runs batted in records in 1920.

Ted Williams did it twice, 1947 and 1942. Lou Gehrig won three titles in 1934 and Jimmy Foxx did it in 1933.

Mickey also leads the league in total bases with 340, extra bases with 70 and slugging percentage with .737. In addition to his homers he has hit 19 doubles and 5 triples.

Stengel believes it'll be easiest for Mickey to win the batting

"You don't have to swing too hard if you just figure on getting hits," he said. "And from now on you can be sure the pitchers aren't going to give you any of the best of it. He'll be walked a lot unless he goes for bad pitches. And then he's likely to strike out often."

"But if I was he I wouldn't be too disappointed if I didn't reach Ruth's record. After all he's young. I never had a man who led the league in all divisions."

Stengel then shook his head as somebody related all the departments in which Mickey is No. 1.

"I don't know," he said. "He's marvelous but it's asking a lot for a man to be tops in everything. Still he might do it. But if he does I'll be surprised."

Veteran Jockey Seriously Ill

METHUEN, Mass. (U)—Veteran jockey Darrell Madden, 32, was reported in critical condition last night at Bon Secours Hospital.

Madden, who has been riding horses at Rockingham Park in nearby Salem, N.H., was admitted to the hospital shortly before noon yesterday. A hospital spokesman said he suffered spontaneous convulsions.

Lions See Offensive Contest With Eagles

MIAMI, Fla. (U)—Miamiians who have always flocked to college football games but showed only mild interest in the pros, are expected to give the Detroit Lions-Philadelphia Eagles a 40,000 crowd in the Orange Bowl tomorrow night.

The prospect of seeing such ex-collegians as Howard (Hopalong) Cassidy, Don McIlhenry, John Hammock and Gerald Reichow in action has created considerable interest locally and prompted the sponsoring South Florida Elks Charities, Inc., to expect far more than the 26,000 at last year's exhibition.

The Lions, who arrived at Miami

Beach Sunday after their 20-17 loss to the Chicago Cardinals in Mobile, have staged long, rough workouts under a broiling sun and apparently will be out to take the Eagles.

Coach Buddy Parker took advantage of the hot weather to work off excess poundage from his squad.

He announced that Cassidy, former Ohio State great, definitely would play although Hoppy said a stone bruise on his left heel pains a bit when he steps short.

Nick Korbaw, Lions general manager, said fans will have an opportunity of seeing two of the greatest linebackers in pro football in action in Joe Schmidt of the Lions and Joe Bednarik, of the Eagles.

"Ask anyone in the National Pro League who is the best linebacker in football and your answer will be 'Schmidt or Bednarik,'" Korbaw said.

The Eagles were due to arrive in Miami today. Parker said he expects a closely-contested offensive game in the teams' clash.

Webb Surprises Rory Calhoun

By CHARLES CHAMBERLAIN
CHICAGO (U)—Spider Webb, a clever sharpshooter who once was a National Collegiate boxing champion at Idaho State College, is the newest sensation to burst upon the middleweight scene.

Webb, 24, scored a unanimous 10-round decision last night over previously unbeaten Rory Calhoun of New York, 22-year-old son of an Atlanta, Ga., Baptist minister.

The nationally televised scrap was a slambang affair from the opening bell, with the powerful Calhoun wading in for knockout blows and the nimble Webb using his rights and lefts like an ace.

The victory, before a whooping Chicago Stadium audience of 1,849 which contributed to a gross gate of \$2,298, earned Webb a late October shot at the winner of the Bobby Boyd-Joe Giardello clash in Cleveland Sept. 21 with the winner being lined up for a title chance.

Rough Tactics Ban 2 Jockeys

SALEM, N.H. (U)—Two jockeys have received 10-day suspensions from the Rockingham Park stewards for rough riding. The penalty was for "rough riding after leaving the gate" in Tuesday's second race and was against Larry Adams, second leading rider at the meeting, and Harold Acres.

It's Sally vs. Wiffi Again

DETROIT (U) — Sally Sharp, current state champion, meets Wiffi Smith today in the semifinals of the Women's District Golf Championship. Mrs. H. G. Marquardt, the 1951 winner, plays Helen Grinnell in the other contest.

Barbers Clipped!

Arthurs' 78 Wins Tourney

Everette Arthurs, Cranbrook School barber, put together a fine, steady golf game yesterday, to win the Michigan Senior Men's Barber Championship. Arthurs fired a 78 over Glen Oaks' interesting layout to equal the event's tourney mark set in 1951 by Pontiac's Perc Seccord. Arthurs carded 40-38-78 (544 545 445-40; 444 654 335-38-78).

"Everette was sinking putts from as far away as 18-20 feet, and you can't beat that kind of shooting," Seccord reported. Perc finished in a runner-up spot tie at 83 with Jack Devereaux, of Royal Oak.

Second won a driving contest with a 285-yard poke, with Richard Molinello of Highland Park 2nd with 275 yards. Devereaux won the pitching contest with Hugh Archer 2nd.

The tonsorial shotmakers return to the links next Wednesday at Maple Lane, where Bob Hausman, former PHIS golf star, and ex-city match champ, will defend his Oakland County Barbers' Championship won last year with a 76.

Three Schools Get Cage Bids

NEW YORK (INS) — Notre Dame, Ohio State and Brigham Young have accepted invitations to participate in the 5th annual Holiday Basketball Festival, boosting the field from seven to ten for the Madison Square Garden tourney.

Pied Piper a Winner

DETROIT (U) — Despite rain which fell before the first race, favored Earl's Pied Piper had little trouble in winning the featured 6th race at Hazel Park harness raceway last night. The victory in 2:07 paid \$3.20. Hi-Lo's Apollo was second and Excelul third. The crowd of 4,517 bet \$239,903.

Don Star Enters Army will be inducted into the Army Thursday. An Army spokesman said Jones, captain and playmaker of the National Collegiate champion San Francisco basketball team, will be inducted into the U.S. Olympic basketball team.

Referee Suspended in Disputed TKO Battle Between Los Angeles Fighters

LOS ANGELES (AP) — Welterweight boxer Art (Golden Boy) Aragon of Los Angeles, no stranger to controversy, was in the middle of another one today. The highlights:

He held a disputed ninth-round technical knockout over lightweight Cisco Andrade, whom he outweighed 144½ to 137 pounds. Referee Abe Roth stood suspended by the state athletic commission until he explains what many feel was a premature stop of the fight.

Aragon's share of the estimated \$95,100 purse was held up because he insisted on using too much colloid protection for his eyebrows.

Some 14,000 hometown fans gathered in Wrigley Field last night to see the fireworks.

For seven rounds the Cisco Kid, from nearby Compton, piled up a point margin and while he received many a tremendous punch, he made the Golden Boy look silly most of the way. En route he whacked open Aragon's colloid defense, cutting the left eyebrow deeply.

Then came the eighth. Aragon connected with a terrific long left to the chin that sent Andrade flat on his back. He got up at nine, weathered the round and was even landing a few rights in close himself.

Early in the ninth, Aragon's right and two lefts to the chin and jaw brought Andrade down again. He got up at nine. Andrade offered his gloves to the referee to be wiped off.

Abruptly Roth stepped back, turned and hoisted Aragon's arm in victory. It was the first time Andrade had been stopped in 37 fights.

A small riot ensued. Roth ex-

Junior Legion Nines in National Classic

BISMARCK, N.D. (AP) — Four top-ranking American Legion Junior baseball teams start showing their wares here Sunday to decide which wears the crown in the annual teen-agers classic.

Yonkers, N.Y., New Orleans and St. Louis occupy three of the berths. The fourth participant is being decided this afternoon at Billings, Mont. between Roseburg, Ore., and Hastings, Neb., in Section D after the rainout of their championship contest last night. St. Louis got into the tourney with a 26-4 shellacking of St. Paul, Minn. in a Section C game, shortened two innings by rain, at Bloomington, Ill. last night. Yonkers won its Section A title earlier this week, as did New Orleans in Section B.

plained to astonished boxing writers that he had Cisco behind by five points going into the ninth and was afraid he'd get seriously hurt. Andrade seemed more dazed.

Judge Dynamite Jackson had Aragon in front by only two points. The other judge, Tommy Hart, had Andrade in front by six.

In the dressing room before the fight, Aragon refused to remove

enough of the eyebrow padding. That brought withholding action on his purse.

Then Andrade declined to follow

Coast Girl, Mexican in Quarter-Finals

Private Meets Brass
in Army Golf Trial

EGLIN AIR FORCE BASE, Fla. — Two Texans, first-round leaders in the Inter-Service Golf Tournament, led the teeing off today in the second round of the military's top meet.

They were Lt. Miller Barber of Perrin AFB, Tex., whose one under par 71 yesterday paced the field, and Army Private Wallace Bradley, Ft. Bliss, Tex.

Tan' Heads for Chicago CHICAGO (U) — Mrs. John W. Gubbreath's Summer Tan is to arrive from the East today to run against Swaps in the \$100,000 add-ed Washington Park Handicap on Labor Day.

NEW STANDARD — Standardization of gymnasium suits for Pontiac's junior high school and PHS physical education groups is well under way. Tom Dodson, athletic director said today. Above are Ken Nagley of Eastern Junior High display-

ing the new style markings, with Ronald Wilkinson, 378 Prospect street as his model. The number at bottom is a permanent record for the boy's equipment. He will retain it all through his school tenure, even through high school.

Doctoring Your Golf Game

By DR. CARY MIDDLECOFF
PATIENT'S COMPLAINT: Smothers and fades
DIAGNOSIS: Backswing out of arc
TREATMENT: Just as there is nothing in golf quite so satisfying as a crisp, straight iron shot, so there is nothing more exasperating than those shots that are either smothered in half-hit manner to the left, or that wing out in a feeble fade to find trouble.
When you find yourself in the

Aussies' Hoad
Lauds Rosewall

FOREST HILLS, N.Y., Aug. 30 (U)—Lew Hoad, Australia's blond blaster of the tennis courts who is shooting for a grand slam in the National championships starting tomorrow, rates his roomie, Ken Rosewall, the man to beat.

The big Davis Cup ace, who already has won the Australian, French and Wimbledon titles, has learned through the years to be a diplomat.

Yes, he thinks the Americans offer a strong challenge in Vic Seixas, Ham Richardson and Co., and they'll be very difficult. But as to the toughest man in the draw:

"Rosewall," he admitted today almost apologetically. "Kenny has improved greatly since he was beaten by Richardson in the Eastern championships a couple of weeks ago. After winning the Newport tournament, I wondered if he's let down in the National Doubles, but he was absolutely terrific. I'm not discounting Richardson and Seixas, but I imagine if I get to the final, I'll face Rosewall."

got to relax, loosen up, and you then have to develop a one-piece swing by sweeping the clubhead back straight and low from the ball.

Keep the left arm straight. No wrist break. Now, let the left side follow around readily — the left shoulder, left hip, left knee. This will bring the hands in close to the body, the right arm moving in against the right side, the left shoulder tucked in under the cleft.

You'll find yourself wound up in a powerful yet comfortable pivot, in position to start the downward swing with a pull of the left arm. With the arm-pull, the weight will shift to the left leg automatically, and with the arm pulling down and through the ball, leading the swing, the right hand, out of operation until now, will get in its work about 12 to 15 inches behind the ball and through it.

Let the right side follow into the shot freely so that, at the finish, your weight will be transferred entirely over to the left leg. To do all this, remember one thing: The head doesn't move a particle. (Copyright 1956, John F. Dille Co.)

Phils Get Farmhand

PHILADELPHIA (U) — David Wright, a Camden, N. J. shortstop who will be 19 next month, has been signed to a 1957 contract with the Philadelphia Phillies' Tifton, Ga., farm club in the Class D Georgia-Florida League.

Chaos Seen in Harness Racing Rift

COLUMBUS, Ohio (U)—The sport of harness racing would be "thrown into chaos" if the U.S. Trotting Assn. attempted to rename every horse that has a company name, a high USTA official said today.

horses are so named because a shoe corporation by the same name pays Hanover Shoe Farms of Hanover, Pa., \$80,000 yearly. HTA demanded that "Hanover" horses be renamed within 30 days.

were "ridiculous... an attempt by certain racing interests to discredit Sheppard." He described Sheppard as "a dollar-a-year president who has devoted valuable time in efforts to strengthen USA."

Don Miller, USTA executive vice president, referred to a demand made two weeks ago by the Harness Tracks of America.

Lawrence B. Sheppard, USTA president, is also president of Hanover Shoe Farms and reportedly has a large interest in the shoe firm.

He said an incomplete check of USTA records show that there are 111 individuals naming trotting horses in the manner which HTA protested.

13-, 17-Year-Old Golfers Collide for U.S. Crown

TOLEDO, Ohio (AP) — Blonde Jo Gunderson, a 17-year-old Seattle girl who plays a devastating game of golf with an air of casualness, meets tiny, 13-year-old Sharon Fladoos of Dubuque, Iowa, today in a semifinal match of the 8th annual U.S. Golf Assn. Girls Junior championship.

In the other semifinal match,

Clifford Ann Creed of Opelousas, La., and Mary Ann Musser of Ellicott City, Md., both 17, will go the 18 holes over an abbreviated Heather Downs Course with a girls' par of 37-36-73.

First League Meeting

Oakland County Employees Bowling league will hold its first loop meeting on Thursday Sept. 6 in the County Office Building coffee shop (basement) at 5:15 p.m. Rules for the season will be arranged at this time. All members are requested to be on hand.

Buckeyes Rated Better This Year

COLUMBUS, Ohio (AP) — Woody Hayes is making no over-all predictions, but by his own admission his Ohio State football team is five good players better off than it was last year.

Last year was the year the gridiron Buckeyes won their second straight Big Ten championship and

ran their conference winning streak to 13 in a row.

Woody says they did it with what he calls 17 "real Big Ten football players." This year he says he has 22. He refused to name them, but points out that they are evenly divided between the line and the backfield.

With the opening of fall practice

only five days away, Hayes told a pre-season press audience last night that Ohio State will demonstrate its usual "team" play no matter what the proportion of linemen to backs.

Hayes avoided all serious mention of Ohio State's year probation and Rose Bowl ban for irregularities in its work program for players. Playing the game was his main concern, and here's how he sized up 1956 opponents:

NEBRASKA: "Question mark."

STANFORD: "The toast of the coast." Then, in an obvious reference to the probation difficulties of other coast schools, he added, "at least the only unburnt toast."

ILLINOIS: "One of the outstanding teams in the Big Ten."

PENN STATE: "Quite good."

WISCONSIN: "To be feared the most because they're down."

NORTHWESTERN: "A new coach to be reckoned with."

INDIANA: "Tough last year and tough again."

IOWA: "Just that far from victory a number of times. If we made one mistake last year they could have beaten us."

MICHIGAN: "Their ends outweigh us 45 pounds a man."

Not conclusive quotes, any of them, but plain enough to make it clear that Hayes is taking no team lightly this season, the year the Buckeyes shoot for an unprecedented third straight Western Conference crown.

Howell, Kelly, Gatton Shine

Modified hardtop drivers Benny Howell and Rusty Kelly and Bob Gatton with his old model stock car dominated Wednesday night's doubleheader racing program at the Pontiac Speedway. It was the last Wednesday show of the season.

Howell streaked to victory in the 25-lap feature with Kelly coming in 2nd and Dorris Sanders taking 3rd. Howell also won the dash and pursuit races while Kelly's qualifying time was tops in the preliminary trials. Heat winners were Don Graham and Chuck Partello.

Gatton captured the 15-lap semifinal, followed by Graham and Dick Ogg. Gatton also recorded the fastest qualifying time. Dale Priest took the pursuit race and heat winners were Pete Caldwell and Gatton.

Hardtops will run on the M-59 track Sunday in a twilight program. Time trials start at 5:30 p.m. with the 1st race at 7 o'clock.

New Track Record Set at Darlington

DARLINGTON, S.C. (AP) — Time trials for the rich Southern 500-mile Labor Day auto race here continued today.

The qualifying runs which continue through Saturday will narrow a big field of cars down to the 75 fastest which will start the race.

Qualifiers today tried to better a new track record, set yesterday in a trial run by Speedy Thompson, Monroe, N.C. He drove his Chrysler at a rate of 118.683 miles an hour—shattering the old mark of 112.781 m.p.h. set last year by Ponty Flock of Atlanta, Ga.

Loop Seeks Bowlers

West Side Businessmen's League seeks bowlers who would like to roll on Thursday's at 9 p. m. Lake avenue.

Call FE 4-2083 after 6 p. m. Special meeting for the league has been called for Thursday at 8 p. m. at the West Side Recreation, Orchard

Six National League players in 1955 hit more home runs than Mickey Mantle who won the American League homer crown with 37.

Scouts to Help Get Out the Vote

Enlist 5,000 in Detroit to Hand Out Posters, Distribute Handbills

DETROIT (INS) — Some 50,000 Boy and Explorer Scouts in Detroit will try to get out the vote this year.

The first of the nationwide drive's two phases calls for posters urging everyone to register and vote. They will be placed in major and secondary shopping centers by Sept. 15.

The second phase will take place Nov. 3. A Liberty Bell asking voters to "Heed Youth's Call" will be hung on every doorknob in the nation.

Officials of the Detroit Area

Council of the Boy Scouts of America met at a dinner Tuesday night to outline the program.

General Chairman Robert B. Semple said the activity has two major objectives:

"First, to help instill in adults the determination to exercise their franchise and second, but equally important, to help Boy Scouts and Explorers to better understand and recognize their responsibilities as citizens."

Kenneth Wells, president of the Freedom Foundation of Valley Forge, Pa., which is sponsoring the campaign also addressed the gathering.

He said the effort of three million boys and adult leaders to get out the vote is an example of our "persuasive way of life as compared to the compulsive way of communism."

Kippers now are cured by an electrostatic process taking only three hours instead of the usual six to 18, the British Herring Industry Board announced.

Device Gives Copies Without Carbon Paper

CLEVELAND—A new typewriter attachment that gives copies without carbon paper has been developed by a Cleveland concern.

It controls one to five extra ribbons that are slipped in between the several sheets of paper in the machine. They are moved along during typing at the same rate as the regular typewriter ribbon.

Followed Regulations

LONGMEADOW, Mass. (INS) — The local regulations in Longmeadow called for a fire hydrant every 300 feet, and every 300 feet the workmen installed a fire hydrant.

It took an angry protest from resident Norman Petrie to have the Water Department remove the one carefully planted in the middle of his driveway.

Cuba will soon have its first waxed paper containers factory, Havana learns.

Grain Market Becomes Slow

CHICAGO (U.S.)—Grains started out firm but quickly ran into difficulty when they tried to extend their advance on the Board of Trade today.

More wet weather in Illinois, approach of the date for the new wheat export policy to become effective and a little apprehension over the Suez situation appeared to be behind the initial demand.

Wheat near the end of the first hour was 1/4 lower to 1/2 higher, September \$2.19; corn 1/2 lower, September \$1.46; oats 1/2 lower to 1/4 higher, September \$1.27; rye unchanged to 1/4 higher, September \$1.44; soybeans 1/4 lower to 1/2 higher, September \$2.37; and lard 8 to 13 cents a hundred pounds higher, September \$10.87.

News in Brief

Fleeting guilty to a charge of driving while under the influence of liquor, Carl F. Gray, 41, of Ortonville yesterday was jailed 60 days by Waterford Township Justice Willis Lefurgy, when he failed to pay a \$100 fine and \$25 costs.

A 30-day jail term was received yesterday by Alvin Slusher, 20, of 1531 Collier Rd., who failed to pay a \$50 fine levied by Pontiac Municipal Judge Cecil McCallum. Slusher had pleaded guilty to a charge of reckless driving.

A Farmington man, Donald Jewell, 26, of 21674 Roosevelt St., yesterday was sentenced to 90 days in jail by Farmington Justice Alvin Angle. Jewell was found guilty of driving while his operator's license was revoked.

Five tires and wheels, all worth \$125, were reported stolen Tuesday night from new cars parked in a dealer's storage lot at 147 S. Saginaw St., Pontiac police said.

If your friend's in jail and needs bail, Ph. FE-9-234 or MA 5-4031.

Rummage, Sat. Sept. 1st, St. Vincent's Hall. Dresser & washer.

Rummage, Sat. Sept. 1st, St. Vincent's Hall. Dresser and washer.

Swinging Crane Hurts Worker on the Head

A swinging crane landed a construction worker in Pontiac General Hospital yesterday for observation.

The crane struck Ronald Steele, 24, of 270 Orchard Lake Ave., on the head. He was admitted for a possible concussion, authorities said.

Steele, who works for the Inter-Lakes Steel Products Co. was at a construction job on Highland road in Waterford Township when the accident happened.

Boy, 5, Struck by Auto Suffers Mouth Injuries

A 5-year-old boy, struck down by a car yesterday afternoon on Baldwin avenue, was admitted to Pontiac General Hospital with severe mouth injuries.

Elmer Christman, of 162 W. Howard St. was listed in fair condition authorities said.

According to Pontiac police, the driver, Severo Hernandez, 35, of 142 W. Rutgers Ave., said the boy suddenly stepped off the curb at Tregent street.

Sometimes a Man Is Stuck Without One

ELIZABETH, N.J. (INS)—Sometimes a dime can be important in a man's life.

Take the case of a man who walked into a pharmacy here yesterday.

While Van Daniels of Winston-Salem, N.C., chatted in a phone booth, the store closed.

Luckily, Daniels had another dime. He used it to call police. They came and got him out.

City Woman Injured When Struck by Car

A 62-year-old woman suffered minor injuries when she walked into the side of a moving car yesterday on W. Huron street, Pontiac police said.

Mrs. Edna M. Thomas, of 2652 W. Walton Blvd. was treated at Pontiac General Hospital for bruises to her leg and a sprained wrist, authorities said.

The driver, Velma Burgess, 34, of 195 N. East Blvd. said Mrs. Thomas stepped off the curb after other traffic had passed, according to Pontiac police.

Driver Topples Pole, Cuts Face on U.S. 10

A 23-year-old Melvindale driver suffered minor facial cuts when his car left U.S. 10 last night and sheared off a utility pole.

MARKETS Produce Lower Market

DETROIT (U.S.)—The following prices of locally grown produce of No. 1 and favored grades only, sold by the Farmers' Markets by growers and sold by them in wholesale package lots, were reported by the Detroit Produce Commission Friday:

FRUITS—Apples, Dutchess, fancy, 2.50; No. 1, 2.30-2.50; No. 2, 2.10-2.30; No. 3, 1.90-2.10; No. 4, 1.70-1.90; No. 5, 1.50-1.70; No. 6, 1.30-1.50; No. 7, 1.10-1.30; No. 8, .90-1.10; No. 9, .70-.90; No. 10, .50-.70; Wrong Pepper Seed Puts Firm in Pickle

DETROIT (AP)—A suit for \$121,116 has been filed against two seed companies by the Safe Brothers Pickle Co. of New Baltimore. The pickling firm claims it was supplied the wrong kind of pepper seed.

The suit, filed yesterday, named the D. T. Strickland Seed Co. and the Ferry Morse Seed Co.

Safe Brothers said in the suit that the seeds after planting, produced only mild green peppers, of no use to the firm. The 18 pounds of seed produced 41,501 cases of

the wrong kind of peppers, the suit said. The suit said the Strickland Co. obtained the seeds from Ferry Morse. Because of the wrong type of seed, the pickle firm said, it was forced to reimburse farmers for peppers it could not use, and had to stand a three-year loss of business.

Put the Bite on Him

EASTON, Pa. (AP)—Riding on a motor scooter has its hazards. Just ask 19-year-old Bruce Sottolano. Bruce stopped his scooter at an intersection and a dog ran into the road and bit him on the left leg. He was treated at Easton Hospital for six puncture wounds.

Pair Accused by FBI of Stealing Garbage

BALTIMORE (AP)—Who would steal 148,835 gallons of government-owned garbage?

Two pig farmers, says the FBI. William C. Englehart Jr., 20, of Gloucester, N.J., and Edward J. Lafferty, 40, of Glen Olden, Pa., were charged with larceny by the federal government.

Assistant U.S. Atty. William F. Mosner said Englehart and Lafferty removed garbage from mess halls at Bainbridge, Md., Naval Training Center under contract to

the Navy. They used it as feed for their pigs. They are accused of stealing 148,835 gallons of it by falsifying weight slips.

Actress Joan Bennett Has Second Grandchild

HOLLYWOOD (AP)—Actress Joan Bennett welcomed her second grandchild yesterday, a 7 pound 12 ounce son born to her daughter, Melinda Markey Hayden.

Miss Bennett's first grandchild was born to another daughter, Diana, two years ago. Diana is a daughter by Miss Bennett's first husband, John Fox. Melinda's father is Gene Markey.

Nixon, Family Vacationing in New Jersey

MANTOLOKING, N.J. (AP)—The Richard Nixons enjoy the sun, sand and surf of this quiet resort today before the vice president knuckles down to the task of writing campaign speeches.

Nixon drove from Washington with his wife and two daughters yesterday for a six-day visit at the large beachfront home of Amos J. Peaslee, former ambassador to Australia and now a White House staff adviser. "This is the first vacation

I've had with my family since last spring," Nixon said. "And it was the second time in three years the Nixons have chosen Mantoloking for a holiday. An aide said the vice president meanwhile is keeping in touch with his family in Whittier, Calif., where his ailing father, 77-year-old Frank A. Nixon, is back on the critical list.

News to Post Office

LONDON (INS)—The arrest of a 16-year-old boy for stealing a bag of mail proved embarrassing for the British post office. They didn't know the bag was missing until police returned it—and that was two months after the boy took it.

From the Press Box

BY BRUNO KEARNS
Sports Editor, Pontiac Press

Three years ago in the classified section of a Detroit newspaper, an ad appeared under the heading of BUSINESS OPPORTUNITIES. It read:

Investment required—persons willing to invest with no guarantee of financial return. Dividends paid weekly by 9 to 12 year old boys with pleasure gained through Little League Football.

This was the start of Little League Football in lower Michigan and it took a daring woman to conceive such a unique method for organization.

Today the woman, Mrs. Earl Clark, is commissioner of the original organization known as the Jack Lowther Little Football League.

"The newspaper called me after the ad had run to get verification on whether it was printed correctly, and I assured them it was," said Mrs. Clark.

"I didn't get very many calls about the investment part," she said, "but I sure got a flood of calls from boys 9 to 12 about the football game."

What prompted Mrs. Clark to enter what has always been considered a men's field?

Her love for the game stemmed from her first husband, the late Jack Lowther, former U. of D. and Detroit Lions football star who was killed in an airplane crash in 1952.

"When Jack lived he used to round up all the kids in the neighborhood in the northeast section of Detroit for a pickup game of football," she explained.

"He used to pick up all the discarded football equipment from friends, repair them and pass them out to the kids." After Lowther's death, the boys continued playing on the open fields without equipment and proper supervision.

The young widow, with two sons of her own, decided to do something about it.

"The boys were endangering themselves, and I saw no reason why something couldn't be done to let them play the game under careful supervision," she said.

Financially, she was unable to purchase the necessary equipment, and she realized she wasn't qualified to teach a youngster the basic fundamentals of the sport.

This is when she got the idea for the ad. It did get the attention of some of the sportswriters and "after I told them what I wanted to do, they really got on the bandwagon."

The publicity produced results. A meeting was arranged and nearly 100 boys and parents along with several football-minded men showed up at a Detroit recreation center and within three months the league was organized with 10 teams.

In one year there were over 400 boys playing Little League Football.

"It was really amazing how serious the kids took their participation in the game. They have programs, cheerleaders, public address and everything that goes with the football atmosphere," she said.

Every bit of work and time by parents and those who wanted to help has been strictly voluntary.

Mrs. Clark saw great things for the Jack Lowther Little Football League. The idea spread and teams from Detroit, Hazel Park, Dearborn, East Detroit, St. Clair Shores, Grosse Pointe, Royal Oak, Birmingham, Southfield and other communities became interested in franchises.

This year, however, the league was nearly destroyed with the break of several teams which dropped out and organized the All-American League.

The new league has eight varsity teams and the Lowther league has seven plus several teams in each circuit known as junior varsity teams.

Mrs. Clark holds no grudge against the rebellious group. "I'm glad there are more teams giving more boys the opportunity to play," she said in true sportsmanlike manner.

"I just wish we could get more parents and other people interested because we sure need help for the teams," she said.

Being probably the only woman-commissioner of football in the country, Mrs. Clark finds her household in the East Beverly section of Birmingham a busy place when football season comes around, especially with three youngsters.

Football atmosphere, however, is natural in the Clark home. Her husband, Earl "Dutch" Clark, needs no introduction in football circles.

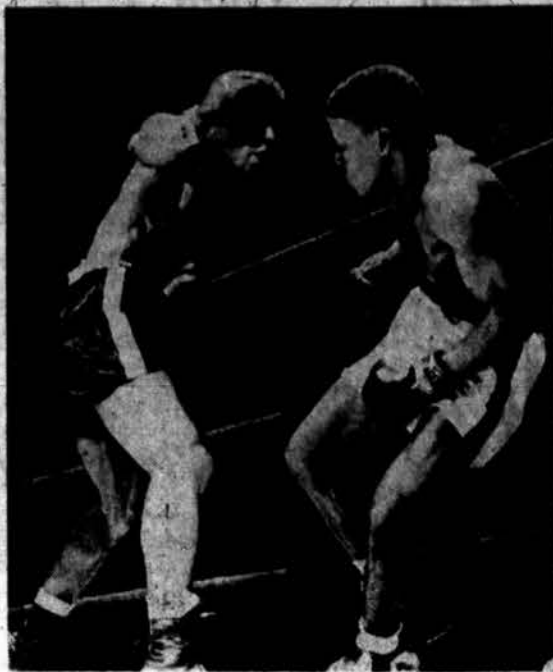

Softball Titles at Stake

Two girls' teams from Pontiac, Pulver Tire and North Side Parks, and the Drayton Drug men's club of the Waterford League will be searching for state championships Friday when the Michigan Softball Association tournaments get under way.

Pulver Tire, city league champion, goes to Port Huron for the state Class A finals. The Pulver squad tackles its 1st round opponent tomorrow at 6 p.m., at Me-

morial Park. There are five teams playing in the Port Huron event. Eight teams are entered in the Class B tourney at Kalamazoo with the Auto Parts aggregation, city league runner-up, carrying Pontiac hopes. North Side's opening test is scheduled Friday night at 6:30.

Drayton Drug, winner of district and regional titles, lays its hopes on the line in the Class C finals at Coldwater. Each tournament is a double-elimination affair.

SPIDER STAGGERS — Spider Webb (right) of Chicago is knocked off balance by Rory Calhoun of New York in the 10th round of their middleweight bout in Chicago Stadium last night. Webb won a unanimous decision over Calhoun who was previously unbeaten.

Motor City Test Under Way

By H. GUY MOATS

Although the \$20,000 Motor City Open golf championship will not have its defending champion in contention, the big event starting today at Western Golf club's layout at Redford lists a very strong field of 126 top pros and some 14 fine amateurs. Cary Middlecoff, who won the 1954 event passed it up this year.

After a preliminary pro-am test yesterday in which the course record of 67 was equaled for the 2nd time in two days, the heavy field settled down today for the long run of four 18-hole rounds of medal play. Yesterday's 67 was fired by Don Whitt of Alameda, Calif. Western's members teamed with 41 pros. The 26-year-old pro carded 35-32-67, against par of 72.

Julius Boros and Mike Fetchick (Manopac, N. Y.) carded 68's.

Bob Welling, Detroit driving course pro should have held his

hole-in-one effort of yesterday until today. Welling fired an ace on the 200-yard No. 3 (par 3) hole in a practice round. Had he hit it today it would have brought him \$2,500. Tourney officials offer that amount for any ace carded during the 4-day event.

"Big name" stars, such as Boros, Jack Fleck, Ed Furgol, Mike Souchak, Freddie Haas and

others were late starters today. In the early sets were many Oakland county and metropolitan area players. These included Pontiac's state public champ Mike Andonian, Gene Bone of Tam O'Shanter, Billy Martin of Forest Lake, Lloyd Syron of PCC, Tommy Shannon of Orchard Lake, Joe Watrous of Franklin Hills, Ray Maguire of Birmingham, Leo Conroy of North

Hills, Wally Burkemo and Chick Harbert.

Playing in Welling's foursome when he made the ace were Andonian, Syron and Martin, all of Pontiac.

Rain early today threatened to make the going a little tough, with soft fairways and greens.

Western is located at Five Mile and Telegraph roads, Redford.

ONE ON THE HOUSE — Billy Klaus of the Boston Red Sox gets his toe on the plate just ahead of the attempted tag by catcher Frank House of the Tigers in the game at Boston yesterday. Klaus scored from second on a single by Dick Gernert. The throw was from Charlie Maxwell. Detroit lost the game, 4-2.

Seeks State Baseball Crown

GMC 9 Strong Threat

BATTLE CREEK (U)—The Michigan Amateur Baseball Assn. (MABA) will crown a new champion after long weekend tournament activity in Battle Creek.

Sixteen teams, each one a champion from its own league, will vie for the coveted unlimited age state sandlot title beginning Friday afternoon and winding up on Labor Day. Battle Creek Behnke Express,

Packers' NFL Title Famine May Be Ended This Fall

STEVENS POINT, Wis. (U)—It's been more than a decade ever since the Green Bay Packers won a National Football League championship.

But the famine that started following the banner year of 1944 when the Packers won both the Western Conference and league playoff titles may be at an end.

There's a wave of optimism billowing this year in Packerland, partly because of a good training period in their Stevens Point summer home and partly due to a couple of impressive exhibition game victories over the Philadelphia Eagles and the New York Giants.

The championship aspirations, of course, are more noticeable

Olympic Site Lodge Ruined

SQUAW VALLEY, Calif. (U)—The main lodge at Squaw Valley is a blackened ruin today but it will not alter plans for the 1960 winter Olympic games.

The redwood structure was destroyed by fire yesterday. Alexander Cushing, manager of the Sierra resort, 150 miles northwest of San Francisco, said the lodge, which he estimated at \$200,000 to \$300,000, was covered by insurance.

Chasing The Home Run Records — Mickey Vernon, New York Yankees, 46 (four games ahead of Babe Ruth's pace of 1927 when he hit 60). Cincinnati Redlegs—128 (major league team record is 251 set by New York Giants in 1947). New York Yankees—104 (AL team record is 182 set by Yankees in 1936). National League—1616 (record is 1,263 set in 1935). American League—888 (record is 975

last year's winner, has disbanded so a new titlist is in the making. Each team will play one game, starting at 4 p.m. Friday. Thereafter, each entry will play two games per day until eliminated in the two-loses-and-out tournament.

Thirty-four games will be necessary to run off the tournament. So it will be baseball around the clock with plenty at stake. The winner will represent Michigan in

the Amateur World Series of the American Baseball Congress which begins in Battle Creek Sept. 7. Michigan has produced six national champions.

Sutherland Paper of Kalamazoo will enter a strong claim for the title. Sutherland was bidding for its seventh straight last year when Behnke knocked the Papermakers off in the title game before 5,000 fans.

One of the stronger threats in the tourney promises to be General Motors of Pontiac. The GMC team, undefeated in Pontiac's Class A League, compiled an impressive string of 26 victories to easily win the city title. Managed by Paul Parks, the Conchors clash with Battle Creek's entry in Friday's 1st round action.

Here is Friday's first round schedule. Wyandotte vs. Monroe, Sault Ste. Marie vs. Muskegon, Lansing vs. Pinconning, River Rouge vs. Dearborn, Wayne vs. Grand Rapids, Jackson vs. Saginaw, Detroit vs. Kalamazoo and Pontiac vs. Battle Creek.

Blackburn listed as his major needs at the start of the training period here: Help at quarterback, help at fullback, a No. 2 center and defensive secondary strength. In Bart Starr the Packers have a great young quarterback who throws an accurate and soft ball. The Alabama rookie appears to be just what the doctor ordered for support of veteran Tobin Rote.

Pabst Keglers Face WXYZ-TV Saturday

Pontiac's Pabst Blue Ribbon bowling team will meet the strong WXYZ-TV squad Saturday night in match games at Cooley Lanes. Bowling starts at 8 o'clock.

Johnny Nickell, who frequently visits Pontiac alleys, Al Paragon, and Hank Nagaskowski are standout members of the Detroit team, which boasts a 980 average. The Pabst quintet includes Les Pennell, Jim Howard, Bill Tipton, Paul George and Bud Marohn—all outstanding keggers in the city.

Red Sox Chase Hoelt Early

BOSTON (U)—The first inning in a single in the second. He added another single in the 7th for a 3-for-4 batting performance.

Gernert's double scored Billy Klaus, who had singled, to give the Red Sox a 1-0 lead in the

first inning. An error by Tiger third baseman Ray Boone, a force play and two singles loaded the bases for Boston in the second and Klaus' force play produced another run. After Ted

Mickey Raps 46th

Stengel Even Doubts Mantle Can Hit Mark

NEW YORK (U)—If Mickey Mantle hits 60 home runs this year and matches Babe Ruth's record, the most delightfully surprised man will be his own manager.

"I don't think he can do it," said Yankee Skipper Casey Stengel after Mickey hit No. 46 yesterday and pulled four games ahead of the pace set by Ruth in 1927.

"Don't misunderstand me. He is a great player but it is asking an awful lot for a youngster in the

lead in all departments. And remember the Babe hit 17 homers in September."

Mantle currently is leading the American League in batting average, .367 and runs batted in, 117, as well as homers. Only three players have won the triple crown since they started keeping runs batted in records in 1920.

Ted Williams did it twice, 1947 and 1942. Lou Gehrig won all three titles in 1934 and Jimmy Foxx did it in 1933.

Mickey also leads the league in total bases with 340, extra bases with 70 and slugging percentage with .737. In addition to his homers he has hit 19 doubles and 5 triples.

Stengel believes it'll be easier for Mickey to win the batting title.

"You don't have to swing too hard if you just figure on getting hits," he said. "And from now on you can be sure the pitchers aren't going to give my boy any the best of it. He'll be walked a lot unless he goes for bad pitches. And then he's likely to strike out often."

"But if I was he I wouldn't be too disappointed if I didn't reach Ruth's record. After all he's young. I never had a man who led the league in all divisions."

Stengel then shook his head as somebody related all the departments in which Mickey is No. 1.

"I don't know," he said. "He's marvelous but it's asking a lot for a man to be tops in everything. Still he might do it. But if he does I'll be surprised."

Williams walked, Gernert singled for the final two Boston scores.

Detroit opened its scoring in the third inning when Harvey Kuenn socked a double, scoring Bunning, who had singled. A walk to Earl Torgeson, a wild pitch and Charley Maxwell's single to right accounted for Detroit's second run in the 7th.

Brewer racked up his 17th victory against 7 losses with help from reliever Ide Delock, who came on in the eighth.

The Tigers thus wound up their swing of the eastern circuit with a highly creditable record of 6 wins and 3 losses. They return to action tomorrow with a night game at Kansas City.

LOVE THAT BAT — Joe Adcock (left) and Lew Burdette were the pair that kept Milwaukee's National League lead intact by downing the Pirates 4-1 yesterday. Adcock hit a 3-run homer in the bottom of the 9th to break a 1-1 tie and Burdette was the winning pitcher.

Keeps Braves in Lead

Spit or Not, Burdette Still Winning

By THE ASSOCIATED PRESS

"Spit," the word Ted Williams hoisted out of the gutter into \$5,000 headlines, now becomes a controversy in the already hectic National League pennant race. Does Lew Burdette use it, or doesn't he while pitching the Milwaukee Braves into championship contention?

The second-place Brooklyn Dodgers, Cincinnati's third-place

Redlegs and the fourth-running St. Louis Cardinals have insisted all along that the big righthander throws the outlawed "spitter". And now the Pittsburgh Pirates have taken up the cry.

Manager Bobby Bragan, pitcher Dick Hall and infielder Dick Cole bellowed so loud and long in demands that the umpires take repeated looks at the ball that they were thrown off the bench and out of last night's game. The umpires

It's Sally vs. Wiffi Again

DETROIT (AP) — Sally Sharp, current state champion, meets Wiffi Smith today in the semifinals of the Women's District Golf Championship. Mrs. H. G. Marquardt, the 1951 winner, plays Helen Grinnell in the other contest.

Miss Sharp and Miss Smith met in the finals a year ago and Wiffi took that match 6 and 4. Wiffi downed Mrs. J. G. Israel 5 and 4 in yesterday's play at the Country Club of Detroit.

Miss Sharp has been in a slump ever since she won the state crown a month ago. After a 10-over-par qualifying score of 87 Monday, Sally went one under par for the 12 holes needed to eliminate 1952 champion Mrs. Don Weiss.

Mrs. Marquardt, the qualifying medalist, was three over par in ousting Mrs. J. P. Stachniskas, 4 and 3. Miss Grinnell sidelined Margie Watkins, 3 and 2.

Barbers Clipped!

Arthurs' 78 Wins Tourney

Everette Arthurs, Cranbrook School barber, put together a fine, steady golf game yesterday, to win the Michigan Senior Men's Barber

Championship. Arthurs fired a 73 over Glen Oaks' interesting layout to equal the event's tourney mark set in 1951 by Pontiac's Perc Seccord. Arthurs carded 40-38-78 (544 545 445-40; 444 654 333-38-78).

"Everette was sinking putts from as far away as 13-20 feet, and you can't beat that kind of shooting," Seccord reported. Perc finished in a runnerup spot at 83 with Jack Devereaux of Royal Oak.

Seccord won a driving contest with a 285-yard poke, with Richard Molinello of Highland Park 2nd with 275 yards. Devereaux won the pitching contest with Hugh Archer 2nd.

The tonsorial shotmakers return to the links next Wednesday at Maple Lane, where Bob Hausman, former PHS golf star, and ex-city match champ, will defend his Oakland County Barbers' Championship won last year with a 76.

At the moment, they're just 1 1/2 games ahead of the Dodgers, who disposed of the Chicago Cubs 11-4. Cincinnati is only three games back after fighting off the New York Giants 4-3. Philadelphia and Robin Roberts outlasted the Cardinals 8-6 in the other NL game.

In the American, Mickey Mantle made up for a three-run error with his 40th home run and a game-winning ninth-inning single as the New York Yankees defeated Kansas City 7-6. Second-place Cleveland stayed eight games back with a 3-2 decision over Baltimore. The Chicago White Sox defeated Washington 9-7 and Boston's Red Sox beat Detroit 4-2.

Three Schools Get Cage Bids

NEW YORK (INS) — Notre Dame, Ohio State and Brigham Young have accepted invitations to participate in the 5th annual Holiday Basketball Festival, boosting the field from seven to ten for the Madison Square Garden tourney.

Already entered in the festival, which runs four days starting Dec. 25, were Temple, Villanova, Fordham, Manhattan, NYU, Niagara and St. Johns.

Notre Dame was slated to play in the Sugar Bowl tournament that week but withdrew, along with St. Louis and Dayton, because of the Louisiana segregation law. The Billikens and Flyers later accepted invites to play in a Louisville, Ky., carnival.

Pied Piper a Winner

DETROIT (AP) — Despite rain which fell before the first race, favored Earl's Pied Piper had little trouble in winning the featured 6th race at Hazel Park harness raceway last night. The victory in 2:07 paid \$3.20. Hi-Lo's Apollo was second and Excelull third. The crowd of 4,517 bet \$239,903.

Don Star Enters Army — K. C. Jones, captain and playmaker of the National Collegiate champion San Francisco basketball team, will be inducted into the Army Thursday. An Army spokesman said Jones' service will not interfere with his place on the U.S. Olympic basketball team.

Referee Suspended in Disputed TKO Battle Between Los Angeles Fighters

LOS ANGELES (AP)—Welterweight boxer Art (Golden Boy) Aragon of Los Angeles, no stranger to controversy, was in the middle of another one today. The highlights:

He held a disputed ninth-round technical knockout over lightweight Cisco Andrade, whom he outweighed 144½ to 137 pounds. Referee Abe Roth stood suspended by the state athletic commission until he explains what many feel was a premature stop of the fight.

Aragon's share of the estimated \$95,100 purse was held up because he insisted on using too much collision protection for his eyebrows.

Some 14,000 hometown fans gathered in Wrigley Field last night to see the fireworks.

For seven rounds the Cisco Kid, from nearby Compton, piled up a point margin and while he received many a tremendous punch, he made the Golden Boy look silly most of the way. En route he whacked open Aragon's collision defense, cutting the left eyebrow deeply.

Then came the eighth. Aragon connected with a terrific long left to the chin that sent Andrade flat on his back. He got up at nine, weathered the round and was even landing a few rights in close himself.

Early in the ninth, Aragon's right and two lefts to the chin and jaw brought Andrade down again. He got up at nine. Andrade offered his gloves to the referee to be wiped off.

Abruptly Roth stepped back, turned and hoisted Aragon's arm in victory. It was the first time Andrade had been stopped in 37 fights.

A small riot ensued. Roth ex-

plained to astonished boxing writers by Roth's decision than by Aragon's punches.

Five points going into the ninth and was afraid he'd get seriously hurt. Andrade seemed more dazed.

Judge Dynamite Jackson had Aragon in front by only two points. The other judge, Tommy Hart, had Andrade in front by six.

In the dressing room before the fight, Aragon refused to remove

enough of the eyebrow padding. That brought withholding action on his purse.

Only the persuasive efforts of his co-manager, an ex-pugilist from New Jersey by name of Frank Sinatra, changed Cisco's mind.

Then Andrade declined to follow

Private Meets Brass in Army Golf Trial

EDLIN AIR FORCE BASE, Fla. (AP)—Two Texans, first-round leaders in the Inter-Service Golf Tournament, led the teeing off today.

In the second round of the military's top meet.

They were Lt. Miller Barber of Perrin AFB, Tex., whose one under par 71 yesterday paced the field, and Army Private Wallace Bradley, Ft. Bliss, Tex.

Tan Heads for Chicago

CHICAGO (AP)—Mrs. John W. Calbreath's Summer Tan is to arrive from the East today to run against Swaps in the \$100,000 add-on Washington Park Handicap on Labor Day.

NEW STANDARD—Standardization of gymnasium suits for Pontiac's junior high school and PHS physical education groups is well under way, Tom Dodson, athletic director said today. Above are Ken Nagley of Eastern Junior High display-

ing the new style markings, with Ronald Wilkinson, 378 Prospect street as his model. The number at bottom is a permanent record for the boy's equipment. He will retain it all through his school tenure, even through high school.

Chaos Seen in Harness Racing Rift

COLUMBUS, Ohio (AP)—The sport of harness racing would be "thrown into chaos" if the U.S. Trotting Assn. attempted to rename every horse that has a company name, a high USTA official said today.

Don Millar, USTA executive vice president, referred to a demand made two weeks ago by the Harness Tracks of America.

horses are so named because a shoe corporation by the same name pays Hanover Shoe Farms of Hanover, Pa., \$80,000 yearly. HTA demanded that "Hanover" horses be renamed within 30 days.

Lawrence B. Sheppard, USTA president, is also president of Hanover Shoe Farms and reportedly has a large interest in the shoe firm. Millar said the HTA demands

were "ridiculous... an attempt by certain racing interests to discredit Sheppard." He described Sheppard as "a dollar-a-year president who has devoted valuable time in efforts to strengthen USA."

He said an incomplete check of USTA records show that there are 111 individuals naming trotting horses in the manner which HTA protested.

Doctoring Your Golf Game

By DR. CARY MIDDLECOFF
PATIENT'S COMPLAINT: Smothers and fades
DIAGNOSIS: Backswing out of arc
TREATMENT: Just as there is nothing in golf quite so satisfying as a crisp, straight iron shot, so there is nothing more exasperating than those shots that are either smothered in half-hit manner to the left, or that wing out in a feeble fade to find trouble.
When you find yourself in the

Aussies' Hoad Lauds Rosewall

FOREST HILLS, N.Y., Aug. 30 (AP)—Low Hoad, Australia's blond blaster of the tennis courts who is shooting for a grand slam in the National championships starting tomorrow, rates his roommate, Ken Rosewall, the man to beat.

The big Davis Cup ace, who already has won the Australian, French and Wimbledon titles, has learned through the years to be a diplomat.

Yes, he thinks the Americans offer a strong challenge in Vic Seixas, Ham Richardson and Co., and they'll be very difficult. But as to the toughest man in the draw:

"Rosewall," he admitted today almost apologetically. "Kenny has improved greatly since he was beaten by Richardson in the Eastern championships a couple of weeks ago. After winning the Newport tournament, I wondered if he's let down in the National Doubles, but he was absolutely terrific. I'm not discounting Richardson and Seixas, but I imagine if I get to the final, I'll face Rosewall."

WEDNESDAY'S HOME RUNS
Robinson: Athletics; Mantle: Collins; Yank: Campanella; Miller: Dodgers; Hank: Baker; Cubs: Sarni; Giants: Ellis; Phillies: Kait; Cardinals: Mathews; Adcock: Braves.

described dilemma, you've got a backswing ailment to cure. You're outside the arc, away from the body as the sketch shows. You've got to relax, loosen up, and you then have to develop a one-piece swing by sweeping the clubhead back straight and low from the ball.

Keep the left arm straight. No wrist break. Now, let the left side follow around readily—the left shoulder, left hip, left knee. This will bring the hands in close to the body, the right arm moving in against the right side, the left shoulder tucked in under the chin.

You'll find yourself wound up in a powerful yet comfortable pivot, in position to start the downward swing with a pull of the left arm. With the arm-pull, the weight will shift to the left leg automatically, and with the arm pulling down and through the ball, leading the swing, the right hand, out of operation until now, will get in its work about 12 to 15 inches behind the ball and through it.

Let the right side follow into the shot freely so that, at the finish, your weight will be transferred entirely over to the left leg. To do all this, remember one thing: The head doesn't move a particle. (Copyright 1956, John F. Dille Co.)

Phils Get Farmhand
PHILADELPHIA (AP)—David Wright, a Camden, N. J., shortstop who will be 19 next month, has been signed to a 1957 contract with the Philadelphia Phillies' Tifton, Ga., farm club in the Class D Georgia-Florida League.

13-, 17-Year-Old Golfers Collide for U.S. Crown

TOLEDO, Ohio (AP) — Blonde Jo Gunderson, a 17-year-old Seattle girl who plays a devastating game of golf with an air of casualness, meets tiny, 13-year-old Sharon Fladoos of Dubuque, Iowa, today in a semifinal match of the 8th annual U.S. Golf Assn. Girls Junior championship.

Clifford Ann Creed of Opelousas, La., and Mary Ann Musser of Elliott City, Md., both 17, will go the 18 holes over an abbreviated Heather Downs Course with a girls' par of 37-36-73.

First League Meeting

Oakland County Employees Bowling league will hold its first loop meeting on Thursday Sept. 6 in the County Office Building coffee shop (basement) at 5:15 p.m. Rules for the season will be arranged at this time. All members are requested to be on hand.

Buckeyes Rated Better This Year

COLUMBUS, Ohio (AP) — Woody Hayes is making no over-all predictions, but by his own admission his Ohio State football team is five good players better off than it was last year.

Hayes says they did it with what he calls 17 "real Big Ten football players." This year he says he has 22. He refused to name them, but points out that they are evenly divided between the line and the backfield.

With the opening of fall practice only five days away, Hayes told a pre-season press audience last night that Ohio State will demonstrate its usual "team" play no matter what the proportion of linemen to backs.

Hayes avoided all serious mention of Ohio State's year probation and Rose Bowl ban for irregularities in its work program for players. Playing the game was his main concern, and here's how he sized up 1936 opponents:

NEBRASKA: "Question mark."
STANFORD: "The toast of the coast." Then, in an obvious reference to the probation difficulties of other coast schools, he added, "at least the only unburnt toast."

ILLINOIS: "One of the outstanding teams in the Big Ten."

PENN STATE: "Quite good."

WISCONSIN: "To be feared the most because they're down."

NORTHWESTERN: "A new coach to be reckoned with."

INDIANA: "Tough last year and tough again."

IOWA: "Just that far from victory a number of times. If we made one mistake last year they could have beaten us."

MICHIGAN: "Their ends outweigh us 45 pounds a man."

Not conclusive quotes, any of them, but plain enough to make it clear that Hayes is taking no team lightly this season, the year the Buckeyes shoot for an unprecedented third straight Western Conference crown.

Howell, Kelly, Gatton Shine

Modified hardtop drivers Benny Howell and Rusty Kelly and Bob Gatton with his old model stock car dominated Wednesday night's doubleheader racing program at the Pontiac Speedway. It was the last Wednesday show of the season.

Howell streaked to victory in the 25-lap feature with Kelly coming in 2nd and Dorris Sanders taking 3rd. Howell also won the dash and pursuit races while Kelly's qualifying time was tops in the preliminary trials. Heat winners were Don Graham and Chuck Partello.

Gatton captured the 15-lap semifinal, followed by Graham and Dick Ogg. Gatton also recorded the fastest qualifying time. Dale Priest took the pursuit race and heat winners were Pete Caldwell and Gatton.

Hardtops will run on the M-50 track Sunday in a twilight program. Time trials start at 5:30 p.m. with the 1st race at 7 o'clock.

New Track Record Set at Darlington

DARLINGTON, S.C. (AP) — Time trials for the rich Southern 500-mile Labor Day auto race here continued today.

The qualifying runs which continue through Saturday will narrow a big field of cars down to the 75 fastest which will start the race.

Qualifiers today tried to better a new track record set yesterday in a trial run by Speedy Thompson, Monroe, N.C. He drove his Chrysler at a rate of 118.683 miles an hour—shattering the old mark of 112.781 m.p.h. set last year by Fonty Flock of Atlanta, Ga.

Loop Seeks Bowlers

West Side Businessmen's League seeks bowlers who would like to roll on Thursday's at 9 p. m. Lake avenue.

Call FE 4-2083 after 6 p. m. Special meeting for the league has been called for Thursday at 8 p. m. at the West Side Recreation, Orchard Lake avenue.

Six National League players in 1935 hit more home runs than Mickey Mantle who won the American League home crown with 37.

Scouts to Help Get Out the Vote

Enlist 5,000 in Detroit
to Hand Out Posters,
Distribute Handbills

DETROIT (INS) — Some 50,000 Boy and Explorer Scouts in Detroit will try to get out the vote this year.

The first of the nationwide drive's two phases calls for posters urging everyone to register and vote. They will be placed in major and secondary shopping centers by Sept. 15.

The second phase will take place Nov. 3. A Liberty Bell asking voters to "Hear Youth's Call" will be hung on every doorstep in the nation.

Officials of the Detroit Area

Council of the Boy Scouts of America met at a dinner Tuesday night to outline the program. General Chairman Robert B. Sample said the activity has two major objectives:

"First, to help instill in adults the determination to exercise their franchise and second, but equally important, to help Boy Scouts and Explorers to better understand and recognize their responsibilities as citizens."

Kenneth Wells, president of the Freedoms Foundation of Valley Forge, Pa., which is sponsoring the campaign also addressed the gathering.

He said the effort of three million boys and adult leaders to get out the vote is an example of our "persuasive way of life as compared to the compulsive way of communism."

Kippers now are cured by an electrostatic process taking only three hours instead of the usual six to 18, the British Herring Industry Board announced.

Device Gives Copies Without Carbon Paper

CLEVELAND—A new typewriter attachment that gives copies without carbon paper has been developed by a Cleveland concern.

It controls one to five extra ribbons that are slipped in between the several sheets of paper in the machine. They are moved along during typing at the same rate as the regular typewriter ribbon.

Followed Regulations

LONGMEADOW, Mass. (INS) — The local regulations in Longmeadow called for a fire hydrant every 300 feet, and every 300 feet the workmen installed a fire hydrant.

It took an angry protest from resident Norman Petrie to have the Water Department remove the one carefully planted in the middle of his driveway.

Cuba will soon have its first waxed paper containers factory, Havana learns.

Grain Market Becomes Slow

CHICAGO (AP)—Grains started out firm but quickly ran into difficulty when they tried to extend their advance on the Board of Trade today.

More wet weather in Illinois, approach of the date for the new wheat export policy to become effective and a little apprehension over the Suez situation appeared to be behind the initial demand.

Wheat near the end of the first hour was 1/4 lower to 1/2 higher, September \$2.19 1/2; corn 1/4 lower, September \$1.46 1/2; oats 1/4 lower to 1/2 higher, September 72 1/2; rye unchanged to 1/2 higher, September \$1.44 1/2; soybeans 1/4 lower to 1/2 higher, September \$2.37 1/2; and lard 8 to 13 cents a hundred pounds higher, September \$10.87.

Grain Prices

News in Brief

Pleading guilty to a charge of driving while under the influence of liquor, Carl F. Gray, 41, of Ortonville yesterday was jailed 60 days by Waterford Township Justice Willis Lefurgy when he failed to pay a \$100 fine and \$25 costs.

A 30-day jail term was received yesterday by Alvin Slusher, 20, of 1551 Collier Rd., who failed to pay a \$50 fine levied by Pontiac Municipal Judge Cecil McCallum. Slusher had pleaded guilty to a charge of reckless driving.

A Farmington man, Donald Jewell, 26, of 21674 Roosevelt St., yesterday was sentenced to 90 days in jail by Farmington Justice Allen Ingle. Jewell was found guilty of driving while his operator's license was revoked.

Five tires and wheels, all worth \$125, were reported stolen Tuesday night from new cars parked in a dealer's storage lot at 147 S. Saginaw St., Pontiac police said.

If your friend's in jail and needs bail, Ph. FE 8-9424 or MA 5-4031.

Rummage, Sat., Sept. 1st, St. Vincent's Hall, Dresser and washer. —Adv.

Swinging Crane Hurts Worker on the Head

A swinging crane landed a construction worker in Pontiac General Hospital yesterday for observation.

The crane struck Ronald Steele, 24, of 270 Orchard Lake Ave., on the head. He was admitted for a possible concussion, authorities said.

Steele, who works for the Inter-Lakes Steel Products Co., was at a construction job on Highland road when the accident happened.

Boy, 5, Struck by Auto Suffers Mouth Injuries

A 5-year-old boy, struck down by a car yesterday afternoon on Baldwin avenue, was admitted to Pontiac General Hospital with severe mouth injuries.

Elmer Chrisman, of 162 W. Howard St. was listed in fair condition authorities said.

According to Pontiac police, the driver, Severo Hernandez, 35, of 142 W. Rutgers Ave., said the boy suddenly stepped off the curb at Tregent street.

Sometimes a Man Is Stuck Without One

ELIZABETH, N.J. (INS)—Sometimes a time can be important in a man's life.

Take the case of a man who walked into a pharmacy here yesterday.

While Van Daniels of Winston-Salem, N.C., chatted in a phone booth, the store closed.

Luckily, Daniels had another dime. He used it to call police. They came and got him out.

City Woman Injured When Struck by Car

A 62-year-old woman suffered minor injuries when she walked into the side of a moving car yesterday on W. Huron street, Pontiac police said.

Mrs. Elda M. Thomas, of 2652 W. Walton Blvd. was treated at Pontiac General Hospital for bruises to her leg and a sprained wrist, authorities said.

The driver, Velma Burgess, 34, of 135 N. East Blvd., said Mrs. Thomas stepped off the curb after other traffic had passed, according to Pontiac police.

Driver Topples Pole, Cuts Face on U.S. 10

A 23-year-old Melvindale driver suffered minor facial cuts when his car left U.S. 10 last night and sheared off a utility pole.

James Costello was treated at Pontiac General Hospital.

State police at the Pontiac Post said Costello was headed south just north of M15 when he lost control.

Oils, Chemicals Lower Market

NEW YORK (AP)—Weakness in oils and chemicals pulled the stock market lower today in early trading.

Losses ran to between one and three points a share in the two divisions, while the changes were narrow over most of the remainder of the list.

It was another quiet session, with trading selective.

In the oils, Gulf was down around three points, Royal Dutch around two, and Standard Oil and Texas Co. both lost fractions. Activity picked up slightly in this group as prices turned down.

Bethlehem was off around a point, while other steels held fairly steady. Motors were irregular, as were rails.

In the chemicals, Allied and Du Pont were off around two points. Air Reduction and Dow dipped fractions.

With activity continuing relatively light at 1,530,000 shares, the market closed slightly lower yesterday after holding firm early in the session. The Associated Press average of 60 stocks dipped 40 cents to \$182.90, with industrials off 80 cents, rails up 20 cents and utilities off 20 cents.

Wrong Pepper Seed Puts Firm in Pickle

DETROIT (AP)—A suit for \$121,116 has been filed against two seed companies by the Safe Brothers Pickle Co. of New Baltimore. The pickling firm claims it was supplied the wrong kind of pepper seed.

The suit, filed yesterday, named the D. T. Strickland Seed Co. and the Ferry Morse Seed Co.

Safe Brothers said in the suit that the seeds after planting, produced only mild green peppers, of no use to the firm. The 18 pounds of seed produced 41,501 cases of

the wrong kind of peppers, the suit said. The suit said the Strickland Co. obtained the seeds from Ferry Morse. Because of the wrong type of seed, the pickle firm said, it was forced to reimburse farmers for peppers it could not use, and had to stand a three-year loss of business.

Put the Bite on Him

EASTON, Pa. (AP)—Riding on a motor scooter has its hazards. Just ask 19-year-old Bruce Sottolano. Bruce stopped his scooter at an intersection and a dog ran into the road and bit him on the left leg. He was treated at Easton Hospital for six puncture wounds.

Pair Accused by FBI of Stealing Garbage

BALTIMORE (AP)—Who would steal 148,835 gallons of government-owned garbage?

Two pig farmers, says the FBI, William C. Englehart Jr., 20, of Gloucester, N.J., and Edward J. Lafferty, 40, of Glen Olden, Pa., were charged with larceny by the federal government.

Assistant U.S. Atty. William F. Mosner said Englehart and Lafferty removed garbage from mess halls at Bainbridge, Md., Naval Training Center under contract to

the Navy. They used it as food for their pigs. They are accused of stealing 148,835 gallons of it by falsifying weight slips.

Actress Joan Bennett Has Second Grandchild

HOLLYWOOD (AP)—Actress Joan Bennett welcomed her second grandchild yesterday, a 7 pound 12 ounce son born to her daughter, Melinda Markey Hayden.

Miss Bennett's first grandchild was born to another daughter, Diana, two years ago. Diana is a daughter by Miss Bennett's first husband, John Fox. Melinda's father is Gene Markey.

Nixon, Family Vacationing in New Jersey

MANTOLOKING, N.J. (AP)—The Richard Nixons enjoy the sun, sand and surf of this quiet resort today before the vice president knuckles down to the task of writing campaign speeches.

Nixon drove from Washington with his wife and two daughters yesterday for a six-day visit at the large beachfront home of Amos J. Peaslee, former ambassador to Australia and now a White House staff adviser. "This is the first vacation

I've had with my family since last spring," Nixon said. And it was the second time in three years the Nixons have chosen Mantoloking for a holiday. An aide said the vice president meanwhile is keeping in touch with his family in Whittier, Calif., where his ailing father, 77-year-old Frank A. Nixon, is back on the critical list.

News to Post Office

LONDON (INS)—The arrest of a 16-year-old boy for stealing a bag of mail proved embarrassing for the British post office. They didn't know the bag was missing until police returned it—and that was two months after the boy took it.
