THE SECRET of Selecting Siding That Protects Your Home Better--Longer!

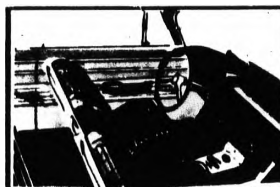

You've heard of aluminum siding. You've heard of steel siding. You've heard of wood siding. These are fine products, but we do not believe you should purchase siding because of the base material. We say this . . . siding should be purchased primarily on the basis of the finish, not on what is underneath. This makes sense, because it is the finish, not the base material that fails. When it (the finish) cracks, curls, peels, wears thin or becomes unsightly for any other reason, repainting or resurfacing is necessary. The secret, therefore, to retaining the beauty of a home at the lowest possible maintenance cost is to select exterior siding that has a finish which gives longest possible service. Solid Vinyl provides that finish.

AS FLOORING — Vinyl takes a merciless beating daily.

AS PIPING — Vinyl carries corrosive liquids and acids.

IN AUTOMOBILES — Vinyl's weatherability and durability makes it the auto makers choice for interior and exterior use.

IN CONSTRUCTION — Vinyl is used to protect the exteriors of modern skyscrapers and high rise apartments.

YES...VINYL is FINAL... period

Chrysler Chief Likely to Be NAB Chairman

Lynn Townsend, board chairman of Chrysler Corp., likely will become the chairman next March of the National Alliance of Businessmen (NAB).

Townsend of 5901 Orchard Bend, Bloomfield Township, said that current NAB chairman Donald M. Kendall, president of Pepsi Cola Inc., had announced at the last NAB board meeting that Townsend would be taking over the chairmanship in March when Kendall's term expires.

The chairmanship of the NAB is filled by presidential appointment.

Currently vice president of the group, Townsend today indicated he would accept the NAB chairmanship.

AID HARD-CORE JOBLESS

NAB is dedicated to finding jobs for the hard-core unemployed. The group was formed in 1968 by President Johnson.

The NAB operates in 125 cities and is striving to place some \$14,000 unemployed in full-time jobs by June 1971. Henry Ford II, head of Ford Motor Co., was the first chairman of NAB.

1st Car on Mac to Get 'Burial'

ST. IGNACE (UPI) — Can a 12-year-old car with no oil in its crankcase find eternal rest at the bottom of the Straits of Mackinac?

Yes, says Michigan's Mackinac Bridge Authority, and has cheerfully arranged for one of its own wreckers to plow a faithful station wagon into 290 feet of water from the center of the spectacular span next Friday.

"It seems to me it is a fitting end to a car with such a distinguished record," explains bridge authority executive secretary Lawrence Rubin. He says it with a perfectly straight face.

The senile station wagon was the first vehicle to cross the Mackinac Bridge when it opened Nov. 1, 1957. So its sentimental owner, Chicagoan Al Carter, decided the best way to mark the anniversary was by driving the wagon off the bridge to its final resting place.

WANTS WHOLE SHOW

Worried that Saturday football games would steal his thunder, however, he decided next Friday, which is Halloween, would be a better day to do it.

The bridge authority and the U.S. Coast Guard said he could have the burial at sea, but couldn't drive it off the bridge and would have to drain the crankcase so as not to pollute the water.

So at 2 p.m. Friday Carter's car will be hoisted over the guardrail, sail 200 feet to the water and sink slowly into memory.

Flighty Flinger Bagged

Parking Ticket Caper Over

OGDEN, Utah (AP) — The Great Parking Ticket Caper has been closed with the capture and speedy trial of a feathered culprit who had become Meter Maid Enemy No. 1 and a hero of motorists everywhere.

It was a sweater, in citation yellow, that spelled an end yesterday to the month-long snafu in crime of Blacky Crow.

Crow's daring snatches of parking tickets from auto windshields had left police muttering in earthly frustration as he made his airborne getaways. Police are uncertain how many tickets Crow took but it is believed to be several dozen.

A CITIZEN'S ARREST

The past few days, Crow had been hanging out near a used-car business headed by Gus Cutrubs. Employees would throw out brightly colored objects for Crow to pick up.

Then, Friday, Cutrubs walked across the lot wearing a sweater the same shade yellow as the city's parking tickets. Crow followed him, and Cutrubs made a citizen's arrest.

Chief L. A. Jacobsen immediately charged the bird with petty larceny. Judge Charles Sneddon imposed a sentence of 30 days in the pen, a wire enclosure to be kept by Cutrubs.

Talks Start Nov. 17 on Arms Race Curbs

WASHINGTON (AP) — The United States and the Soviet Union will start their long-awaited talks on curbing their nuclear arms race in Helsinki, Finland, Nov. 17, the White House announced today.

In a one-sentence statement slated for simultaneous release in Washington and Moscow, the White House said: "Confirming the agreement reached earlier to enter into negotiation on curbing the strategic arms race, the governments of the United States and the Soviet Union will meet in Helsinki on Nov. 17, 1969, for preliminary discussion of the questions involved."

PHASE I OF TALKS

Presidential press secretary Ronald L. Ziegler indicated the term "preliminary discussion" meant dealing with

preliminary matters in getting into substantive negotiations. He described it as phase one of the talks which are expected to go on for a long time and deal with highly important disarmament issues.

Possibilities for accord between the two nuclear superpowers on limiting their race in multiwarhead missiles and in antismile defense systems are items on which U.S. negotiators hope to place priority.

Ziegler disclosed that today's announcement followed a secret call at the White House last Monday by Soviet Ambassador Anatoly F. Dobrynin.

The Soviet envoy brought the Kremlin's long-delayed reply to Nixon's bid last June 11 to begin on the so-called SALT-Strategic Arms Limitation Talks.

SITE SUGGESTIONS

Nixon had said the United States would be ready to open the discussions after

July 31. He suggested Vienna or Geneva as sites, but left alternatives open.

Dobrynin told Nixon he was instructed to inform the President of Soviet readiness to proceed and proposed the Nov. 17 start at Helsinki, Ziegler reported.

Nixon agreed and sent Dobrynin to see Secretary of State William F. Rogers to work out details. The Rogers-Dobrynin meeting, which took place last Wednesday, had been previously disclosed.

Helsinki was not this nation's idea of the best place to negotiate, in part because the Communists have also been pushing for the Finnish capital as a site for their proposed European Security Conference meeting.

However, the administration apparently decided it would not hold up the Big Two disarmament parley in a squabble over a site for the talks.

2 Members Call for Abolishment of State Board

LANSING (UPI) — Two Democratic members of the State Board of Education yesterday dissented from a board policy statement and called for the abolition of the eight-member body.

In a letter to Michigan legislators, Marilyn Jean Kelly and Charles Morton of Detroit said the board "has not functioned adequately during the past five years for reasons which, regrettably will continue to hobble it in the foreseeable future."

Miss Kelly earlier issued a statement outlining her preferred method of selecting the board. Presently, the partisan board is elected at the fall election.

Gov. William G. Milliken proposed abolishing the board and replacing it with a single superintendent appointed by himself. This bill is presently on the Senate floor ready for debate.

The board of education countered with a statement calling the governor's action "ill-advised."

Miss Kelly and Morton said, "Our recommendation is for a constitutional state board of education of seven members, appointed by the governor for staggered six-year terms with the advice and consent of the Senate and with no more than four members from one political party."

They said the governor should use "an expert panel or committee" to recommend persons for the selection. This board would only handle K-12 education.

The two recommended a separate board to take charge of higher education.

COSMONAUT AT HOME — Russian cosmonaut Gen. Georgiy Beregovoy files through the air in a "rocket jet" ride at Disneyland in Anaheim, Calif., yesterday. Beregovoy and fellow Soviet spaceman, Konstantin Feoktistov, also took a make-believe moon voyage at the park. The two cosmonauts received Mickey Mouse watches as remembrances of Disneyland which was once declared off limits to then Soviet Premier Nikita Khrushchev. (Story, Page B-10)

Syrian Force of 300 Crosses Into Lebanon

From Our News Wires

BEIRUT, Lebanon — An armored force of 300 men has crossed into Lebanon from Syria and occupied hills overlooking the village of Yanta, Beirut radio said today.

Yanta is about four miles from Lebanon's eastern border with Syria.

The broadcast said five armored cars, three jeeps with recoilless rifles and eight vehicles towing 120mm mortars made up the force that entered Lebanon last night.

The column was not identified as being a regular Syrian unit, but authoritative sources said they believed it was a contingent from the Syrian army.

TROOPS MOVE UP

The radio said Lebanese army units moved up to the village to block access routes and prevent the force from advancing.

Unconfirmed reports said five Lebanese border guards on patrol near the village had been kidnapped.

The announcement came shortly after Syria said that despite its anger with Lebanon over the guerrilla issue, it would only direct its fire at the Israeli army.

Arab guerrilla forces fought Lebanese security forces throughout the night,

storming police posts in the north and battling for control of two frontier villages in the south.

In the northern port city of Tripoli, where street warfare erupted Thursday, guerrillas and their supporters were reported today to have occupied a number of police posts and to have wrested virtual control of the Old City from authorities.

In Moscow today, Tass distributed a special statement saying the United States is claiming the right to intervene in the Lebanon crisis.

"No outside interference by a big power into the events in Lebanon can be justified," the official Soviet news agency added.

STEPPED-UP ACTION

Meanwhile, stepped-up action continued on the Arab-Israeli front today.

Israeli jets bombed the suburbs of Amman in their closest raids to the Jordanian capital since the 1967 Middle East War. Meanwhile, Egyptian planes struck against Israeli troops in the Sinai Peninsula and Israeli positions at two points on the Suez Canal today.

One aircraft was downed by an Israeli missile, a military spokesman announced. The Egyptian plane was hit by a U.S.-made Hawk surface to air missile and the aircraft exploded in the air, he said.

WHISKER VICTORS — Northern High School wrestling coach Mike Ponder paid up on the student body's decision that he should shave. He submitted to the shaving yesterday in front of a student pep rally. Performing the hairy surgery are (from left) Mrs. William F. Peete (teacher holding the lawn clippers), Dan Chiappelli of the Pontiac Mall Barber Shop and teacher Miss Helen Swanson.

PNH Students Buy Votes; Wrestling Coach Is Shorn

Northern High School wrestling coach Michael Ponder's face is showing. A vote of the students prompted a hair-raising experience yesterday afternoon. Barbers, teachers and students bearing hedge clippers attacked Ponder's beard in front of the entire student body at Northern's homecoming pep assembly.

To help raise money for the drama club's (Northern Players) upcoming play, "Mary, Mary," Ponder let the students vote with pennies and nickels on whether his black woolly beard should stay or go.

When the vote came in at the end of the week, Ponder decided to undergo the humiliation of becoming bare-faced in front of all the students—instead of letting his wrestlers pull out his beard hair by hair using illegal holds.

Though Ponder lost face yesterday, the Northern Players won \$80.07. The price of a shave really is going up.

Curious Copter Pilot Starts Big Viet Battle

SAIGON (AP) — A five-hour fight started by a curious helicopter pilot turned out to be the biggest battle fought by American troops in nearly six weeks, the U.S. Command reported today.

Troops of the U.S. 25th Infantry Division killed 51 North Vietnamese soldiers during the fight yesterday in the Ho Bo Woods area 28 miles north of Saigon. Ten Americans were killed and 12 wounded. The U.S. troops called for air strikes.

The battle in a bomb-cratered abandoned plantation apparently came as a surprise to both the American troops and the North Vietnamese regulars holed up there.

But the surprise was much more costly to the enemy.

SPOTTED MOVEMENT

The battle started when WO Kenneth Young, of Newport, Ohio, pilot of a helicopter gunship, spotted movement in one of the craters. He and another gunship pilot "punched off several rockets apiece," Young said. "When we flew back over the area, we discovered that our rockets had destroyed an enemy bunker and killed three enemy soldiers with AK4F rifles and field packs."

About 100 U.S. infantrymen were shuttled by helicopter to search the area. They drew fire which was suppressed by the helicopter gunships, and four more enemy bodies were found, an Army spokesman said.

Sunday's Outlook Is Warmer, Rainy

Gathering clouds foretell a rainy Sunday in the Pontiac area. The mercury is expected to reach the mid to upper 50s today, dip to the mid-40s overnight. Tomorrow will be a little warmer with a possible high of 60 expected. The warming trend will quickly fade into a colder Monday with more light showers. Rain chance is 20 per cent today and tonight, increasing to 50 per cent tomorrow.

Low temperature in downtown Pontiac prior to 8 a.m. was 40. It had risen to 50 by noon.

House Vet Eyes Race

WASHINGTON (AP) — Speaker John W. McCormack emphatically denies he knew about or aided any influence peddling through his House office. And the 77-year-old Massachusetts Democrat—contrary to previous speculation—says he will seek not only another term as congressman but as speaker.

McCormack told newsmen Friday that Life magazine made an unwarranted and malicious attack on him in reporting the

speaker had let his office and influence be used by a friend and a staff member to seek favors from government officials.

The charges obviously triggered McCormack's decision to run again, thus avoiding any appearance of his quitting under fire.

Until the activities of Nathan Voloshen, a long-time McCormack friend, and Martin Sweig, the speaker's chief aide, were publicized it had been widely

believed among House Democrats that McCormack would retire at the end of the 90th Congress in December 1970.

He will be 79 then, with 43 years of service in the House. McCormack has come under growing criticism from younger Democrats, who felt he was out of touch with them and was failing to provide the leadership needed with the White House in Republican hands.

Mate Kills Coed, 21, and Then Himself

A 21-year-old Michigan State University coed from Orchard Lake was shot to death yesterday by her husband of only three weeks. He then killed himself

with the same weapon, a 12-gauge shotgun, police said.

The couple, Mr. and Mrs. Paul Weitzke of East Lansing, reportedly had been together before the shooting, according to police in Mason, near Lansing, where the murder-suicide occurred.

Mrs. Dianne Weitzke was the daughter of Mr. and Mrs. Herbert W. Huber, 7538 Sweetbriar.

The double shooting took place in the home of her brother in the Sycamore Mobile Home Court about 11 a.m., police said. Both died of head wounds. Weitzke, 26, was dead at the scene. His wife died about 40 minutes after being admitted to a nearby hospital.

Mrs. Weitzke was in her third year of school. She worked part-time at the Hospitality Inn in East Lansing.

Her husband, a Marine Corps veteran, had enrolled in classes this term but then withdrew, according to police. He was from the Owosso area.

Birmingham

Kiwanis Club Installs Its 1970 Officers

BIRMINGHAM — New officers of the Birmingham Kiwanis Club were inducted recently in the annual installation and ladies night dinner.

They are Darrell L. Brustle, Birmingham police chief, president; Williams B. Woodburn, owner of the Birmingham Real Estate Shop, first vice president; Grant W. Barber, principal of Pierce Junior High School, second vice president; John E. Pilkinton of the Birmingham office of Lybrand, Ross Brothers and Montgomery, treasurer; and Jack A. Daugherty of League Life Insurance Co., secretary.

Ralph R. Watts, Jr., of the communications staff of Chrysler Corp., immediate past president will be responsible for increasing the club's membership and aiding in establishing new clubs in Division Six in 1970.

Leiv Larsen of Southfield, lieutenant-governor of Kiwanis Division Six, conducted the official installation ceremony.

Newell H. McCuen, 1044 N. Glenhurst, has been promoted to the new position of manager of forward planning — product analysis and control at General Motors Corp.

He had been chief mechanical engineer for GM's overseas operations.

A native of Evansville, Ind., McCuen attended Massachusetts Institute of Technology and served two years with the Navy as an electronics technician.

He joined General Motors in 1941 as an inspection supervisor with Cadillac Motor Car Division and transferred to Hydra-Matic Division as a project engineer in 1946.

In 1952 he was transferred to Chevrolet Motor Division where he served successfully as senior project, assistant staff and staff engineer. McCuen joined GM Overseas as assistant chief engineer in 1968 and was named chief engineer in 1963.

He is a member of the Society of Automotive Engineers and the MIT Club of Detroit and president of the Bloomfield Country Day School Board of Trustees.

BLOOMFIELD TOWNSHIP — Donald J. LaBelle, 419

Dowling, has been appointed manager of forward planning trucks at General Motors.

He had been assistant chief engineer for research and development at GM Truck and Coach Division.

LaBelle is a native of Detroit. He received a bachelor's degree in mechanical engineering from the University of Detroit in 1939, the year he joined the GMC Truck and Coach engineering department. He became structure and suspension development engineer in 1955 and a year later was named truck engineer.

In 1959 he became assistant chief engineer in charge of truck, electrical and engine engineering and in 1961 was named assistant chief engineer in charge of coaches.

LaBelle is affiliated with the society of Automotive Engineers and the American Ordnance Association.

W. Germany Boosts Value of Mark

BONN, West Germany (AP) — The new West German government, in office less than a week has increased the international exchange rate of the mark to combat inflation and keep the economic boom in check.

The revaluation means Americans will pay more for Volkswagens, German cameras and hi-fi sets.

For the U.S. Army private in Germany, his \$113 monthly pay will be reduced by \$10.40 in buying power, lessening the amount of beer and sausage he can buy.

The revaluation is worth millions to speculators who have been frantically buying Deutschmarks for months in hopes they would be worth more.

NATIONS PROFIT

The nations to whom West Germany owes money stood to gain millions. Singapore said it would profit more than \$30 million through revaluation. If the Bonn government uses a certain number of marks, it will pay back that number despite the increase in value.

It was one of the first decisions of Chancellor Willy Brandt's new Social Democrat government. The announcement yesterday meant the mark is now worth just over 27 cents rather than 25 cents — an increase of 8.5 per cent.

The revaluation will mean 3.66 marks

U.S. Space Shop Seen

TEHRAN (AP) — The commander of Apollo 11, Neil A. Armstrong, predicted today that the first U.S. space workshop with its own launching pad will be in operation by 1972.

The American astronauts and their wives arrived here last night on their world tour.

to the dollar instead of four. The change was announced after the European money marks closed, and it takes effect at midnight Sunday.

German banking officials had favored revaluation for almost a year to try to slow inflation. Prices have been rising 2.7 per cent a year in West Germany.

The higher prices for the goods Germany exports in such huge quantities

may mean some loss of business to Japan. The Japanese compete strongly with the Germans, particularly in cameras, radios, hi-fi and recording equipment.

For the average West German, the change in the value of his money will mean a cheaper foreign vacation. For instance, his new marks will buy more Spanish pesetas and Italian lire. All in-

ternational air travel will be cheaper for Germans.

"I could hardly afford to dine in a hotel when I last visited New York," said a German yesterday. Now he can.

It cost the United States government more than \$1 billion a year to keep more than 250,000 American troops in West Germany and the cost will go up with revaluation.

Two Scientists Urge Satellite Study, Fear Pollution Blocks Sun Radiation

LAS CRUCES, N.M. (AP) — Two scientists said today air pollution may be blocking part of the sun's radiation. They urged a worldwide satellite survey of atmospheric pollutants to determine whether the earth's heat balance is changing.

"Man's continued existence may depend on his measurement and subse-

No-Muzzle Policy Set

WASHINGTON (UPI) — The White House has made it clear it will not ask Vice President Spiro T. Agnew or any other member of the administration to submit to it for clearance, statements or speeches on national issues.

The policy was outlined yesterday by the Presidential Press Secretary Ronald Ziegler.

quent control of factors pertaining to the earth's heat balance," R.S. Wiltshire and W.H. Clohessy of Martin Marietta Corp. in Denver, Colo., said in a paper presented to a meeting of the American Astronautical Society.

The earth's heat balance is delicately controlled by chemicals in the atmosphere that filter some of the sun's radiation and pass other radiation through to the ground. Likewise, heat reflected from the earth into space is controlled by atmospheric chemicals.

A buildup of a pollutant in the atmosphere could change this filtering

Youth Charged With Hijacking

A federal warrant charging a Farmington Township teenager with hijacking at gunpoint a jetliner to Cuba was issued yesterday by a U.S. district judge in Detroit.

The youth, Henry L. Shorr, 17, of 32260 Friar Circle, is still in Cuba, where he diverted a Mexico City-to-Miami flight Tuesday. The plane and passengers returned unharmed the same day.

Federal officials said they would ask that \$50,000 bond be set if the youth returns to the United States.

The son of former Detroit radio disc jockey Mickey Shorr, the youth left home six weeks ago, according to his father.

Judge Damon Keith charged Shorr, the youngest hijacker on record, with "seizing control of the aircraft by threats of force and violence." The maximum penalty for the offense is death.

Sales Record Set at GMC Truck

Record mid-October GMC truck sales were reported today by Martin J. Caserio, a vice president of General Motors and general manager of GMC Truck & Coach Division.

GMC truck sales of 5,146 in the Oct. 11-20 period surpassed the previous high of 3,856 set last year by 33.5 per cent, he said.

Accelerating the sales rate was the introduction of GMC's 1970 truck line Oct. 16, Caserio said. Calendar year GMC truck deliveries, also at a record pace, totaled 117,232 through Oct. 20, a 7.4 per cent gain over the 109,131 sales in the same span last year.

Combined truck-and-coach deliveries of 6,155 in the middle 10 days of October ran 32.4 per cent ahead of the 3,864 sales last year.

Calendar-year truck-and-coach sales of 118,550 through Oct. 20 were 7.2 per cent above the 110,547 deliveries last year.

process, the scientists said, endangering plant and animal life and altering the earth's temperature.

SMALL MODIFICATION

"We might not react to such a change until its effects manifested themselves in a small percentage modification of our natural environment," Wiltshire and Clohessy said.

"This change could be in the heat balance or perhaps in the light to which our eyes and skin are exposed."

A battery of instruments mounted on satellites circling the globe must begin a constant surveillance of the atmosphere to detect changes in transmission of solar radiation caused by pollution, they said.

"We do not have a complete understanding of what pollution molecules injected into various parts of the atmosphere could do to our environment. Hence, we must prepare ourselves by using a global monitoring system watching all the various molecular species over a long period to ascertain their rate of buildup and the nature of their dispersal throughout the atmosphere," they said.

Scientists know what pollutants are being pumped into the atmosphere, but little is known about their interactions once airborne.

Detroit Man Killed in Lapeer County

A Detroit man was killed and another injured in Lapeer County early today when their car went out of control and rolled over four times on M24 about four miles south of Lapeer city.

Dead is Clay J. Evans, 34, of 14211 Patton, the driver. His passenger, Frank Jordan, 35, of the same address, was treated at Lapeer County Hospital and released.

Deputies said the accident occurred about 3:45 a.m. just north of Hunter Creek Road in Lapeer Township. They said the car apparently was traveling at a high rate of speed when it ran off the road.

Evans was dead at the scene, according to deputies.

'Fight Pollution Cooperatively'

CHICAGO (AP) — Cooperation with neighboring states, and not court action against them, was urged yesterday by Atty. Gen. William J. Scott of Illinois for future attempts at curbing pollution.

Scott issued his statement the same day Gov. Richard B. Ogilvie recommended that Illinois file suit against Indiana, Michigan and Wisconsin in the U.S. Supreme Court charging them with polluting Lake Michigan.

While Scott said he had Ogilvie's recommendation under consideration and skirted making an outright rejection, he did indicate he prefers a cooperative approach.

As the governor made public a letter to Scott, stating his position during a speech in Chicago, Scott was meeting

Related Story, Page A-7

with the attorneys general of the three states, as well as Minnesota, Missouri, and South Dakota.

At a news conference, Scott said he and the other six chief state legal officers agreed to take cooperative action against polluters of Lake Michigan and other waters in which the states have a common interest.

Ogilvie said in his speech that the enemy is not the states and their industries, but pollution.

Scott said in a reply to Ogilvie's remarks:

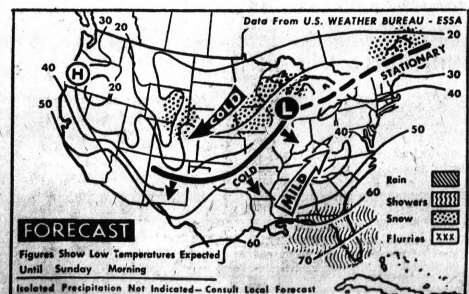

"We feel that the individual states are not the polluters. Our lake is being destroyed individually by local governmental agencies, by industrial and municipal polluters. We are determined our efforts will be used together, working against individual polluters."

The governor said the reason he urged the suing of other states was to enable an initial filing of the lawsuit.

The Weather

NATIONAL WEATHER — Snow is expected tonight over Wyoming, Nebraska, Colorado, northern New England, and from Missouri to the western Lakes area. Showers are expected in Florida and Georgia. It will be warmer through most of the East and cold in the north and central portions of the nation.

Haynsworth Solace: Not 1st Nominee to Come Under Attack

GREENVILLE, S.C. (AP) — The slim, greying chief judge of the U.S. 4th Circuit Court of Appeals declined to answer the conflict-of-interest charges raised against him.

He said: "There is a long tradition in the judiciary—a judge attacked on ethics does not defend himself. That falls within the realm of the bar. So, in this whole area, I won't comment."

Opponents have charged that Haynsworth, 56, ruled in several cases involving companies whose stock he owned and have criticized his rulings in other cases.

Haynsworth said he has never considered asking the President to withdraw his nomination, "nor will I suggest this."

Beatles, Rock, Leary Blamed in Drug Crisis

SAN FRANCISCO (AP) — The Beatles, rock music and drug culturalist Timothy Leary are strong contributors to the drug crisis facing America today, Art Linkletter has told a congressional hearing.

Linkletter was a key witness Friday in the hearings here before the House Select Committee on Crime. The panel is investigating drug abuse in America and its criminal aspects, particularly as it involves young persons.

The television star's 20-year-old daughter died in what Linkletter called a suicide leap last month while on an LSD-induced "flashback."

Linkletter blamed "secret messages" in rock music lyrics as being responsible for encouraging young people to participate in the growing drug abuse scene.

"MISSIONARIES" — He said the "secret messages" are "drop out, turn on and groove with chemicals."

Leading "missionaries" in rock culture, Linkletter said, "are the Beatles." He said he considered "the people who say LSD is harmless—Dr. Timothy Leary and the others—among the murderers of my daughter."

Linkletter recommended educational programs for teachers, parents and youngsters starting in the fourth and fifth grades.

In subsequent testimony, drug producer Fred A. Coe Jr., president of Burroughs, Wellcome & Co. Inc., said his firm is considering discontinuing production

'Army Forced Civilian to Join in Drug Tests'

MONTGOMERY, Ala. (AP)

—A civilian flight instructor at Ft. Rucker has charged that he and others were compelled, through the threat of being grounded or fired, to participate in drug research tests.

James C. Hungerford claimed in a suit filed in U.S. District Court that he and other instructors employed by Ross Aviation Inc., which trains Army fliers, were required to take drugs to determine whether they caused dizziness, sleepiness, blurred vision, nausea or other conditions which would affect flying.

Named in the suit were Ross Aviation, Secretary of the Army Stanley R. Resor and Maj. Gen. Delk M. Oden, the commanding officer at Ft. Rucker.

Ross Aviation said only that its employees are required to meet Army medical standards. A spokesman at Ft. Rucker said the Army would have no comment until litigation in the case is completed.

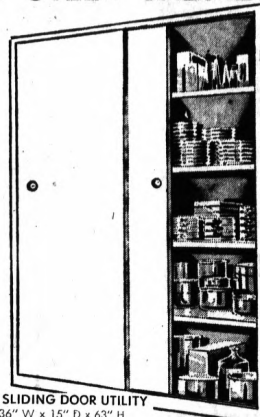

The suit was filed Oct. 8. Judge Frank M. Johnson Jr. has scheduled a show cause hearing Monday on a temporary injunction sought by Hungerford against continuation of the alleged drug tests.

2 Chicago Defendants Send Lawyer to Meet N. Viets

CHICAGO (AP) — Two defendants in the Chicago conspiracy trial who were refused permission to go to Paris for talks with North Vietnamese delegates concerning possible release of U.S. prisoners of war have designated their attorney

to go instead. A telegram from Xuan Oanh, a North Vietnamese delegate to the Paris peace talks, was received Friday. It invited David T. Dellinger, 34, and Rennard C. (Rennie) Davis, 29, to meet in Paris with North Vietnamese

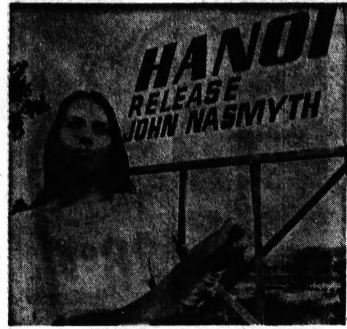

negotiators over the weekend. A motion by William M. Kunstler, defense attorney, that the two be allowed to leave the jurisdiction of U.S. District Court during the weekend recess of their trial was denied. Judge Julius J. Hoffman re-

jected the motion and the U.S. 7th Circuit Court of Appeals upheld his decision when the ruling was appealed by the defense. PRISONER NEWS? Kunstler left Chicago late Fri-

day for Paris to take the place of Dellinger and Davis. A spokesman for Dellinger, Davis and six other men charged with conspiring to promote riots during the 1968 Democratic National Convention said the telegram from

Oanh indicated one of two things: "Either the Vietnamese are ready to give out the names of American prisoners and their health status or they want to release some."

the North Vietnamese just before three U.S. servicemen were freed last August. Davis went to Hanoi after Judge Otto Kerner of the U.S. Court of Appeals reversed a ruling by Judge Hoffman denying Davis permission to visit Hanoi.

AP Wirephoto

Virginia Nasmyth Seeks Her Brother's Release

N. Viet Negotiator Writes POW's Sister

SAN DIEGO, Calif. (AP) — A North Vietnamese negotiator at Paris has written to a San Diego State College coed, whose brother is a prisoner of war. The letter said: "I am glad you got the news about your brother."

The coed, Virginia Nasmyth, 20, said the letter apparently is the first of its kind received by the family of a captured U.S. serviceman. Virginia said Friday she received the brief letter Tuesday from Xuan Oanh, a representative of North Vietnam at the Paris peace talks. Her brother, Air Force Capt. John Nasmyth, was shot down in an F4 Phantom jet fighter on a mission near Hanoi Sept. 4, 1966, and was listed as missing. VERY EVASIVE? Hanoi has never released the names or conditions of the approximately 1,400 U.S. servicemen estimated by the Defense

War Foes Urged to Pressure Reds Over Prisoners

LOS ANGELES (AP) — The American Red Cross is urging opponents of the Vietnam war to put pressure on North Vietnam through a letter-writing campaign to Hanoi on behalf of U.S. war prisoners. Samuel Krakow of Washington, D.C., said Friday campus militants and other peace groups are being asked to express "indignation and concern" over the plight of 413 known American prisoners and 918 others missing and believed captured.

Krakow, director of the American Red Cross International Services Department, told newsmen he thinks North Vietnam would listen to appeals from sources known to be against the war.

North Irish Expecting Bonus From Strife--Tourist Boom

BELFAST, Northern Ireland (AP) — Northern Ireland is looking to one unexpected benefit from its year of trouble: a potential boom in tourism.

This year the province's hotels and caterers have had a thin though not disastrous time. Visitors have fallen by around 10 per cent from last year's

1,197,000. Even if the current quiet continues, they expect little improvement next year.

But 1971, backed by a big "come to Ulster" campaign in the United States, Canada and Germany should tell a different story.

That will be the 50th anniversary of the Northern Ireland state. For the celebrations, Belfast is building a leisure center with concerts and sports hall.

KNOW ULSTER EXISTS
William Stephens, the travel and transportation expert who is chairman of the Northern Ireland Tourist Board, told an in-

terviewer: "At least people now realize as a result of all these troubles that Northern Ireland exists. If things continue reasonably, we can expect a lot of visitors to come and see if we are really as bad as we've been painted."

Tourism now is the province's

sixth biggest money earner, bringing in the equivalent of \$45.60 per person of the 1.5 million population. The main attraction, despite and even during the months of riots, is peace and quiet.

Outside the towns, the years' feuding between Roman Cathol-

ics and Protestants has had virtually no effect. The natives, however much they dislike each other, maintain their traditions of warmth and hospitality to the visitor.

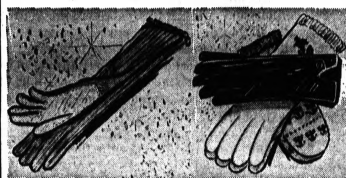

Nearly 800,000 harassing anonymous telephone calls were made in the U.S. in 1967.

Horse Rustler Gets the Stick

SAN ANTONIO, Tex. (AP) — Police are looking for the desperado who rustled about 300 horses from a railroad boxcar at a siding here.

The rustlers may not want to rush the horses to the old corral, however.

The loot was a herd of toy stick horses, all boxed.

Key Resource in Peril

Michigan's and the Nation's oil-producing industry face double jeopardy in measures now before Congress to lower the "depletion" income tax deduction of 27½ per cent and to open legislative doors to substantial increase in the importation of foreign oil.

Pointing out that exploration for new oil wells in the State had declined 40 per cent since 1957 and that 3,697 of its oil wells were "strippers" whose individual production does not exceed 10 barrels a day, Michigan Oil & Gas Executive Secretary WILLIAM PALMER declares that this category represents 36 per cent of total oil production. Nationwide, this type of well numbers 377,000 and pro-

vides approximately one-fifth of all U.S. oil supplies and production.

Over-all, the industry, with its wide-ranging ramifications, importantly affects for good or bad the national economy.

Were either of the Congressional threats to become reality, to say nothing of both, it would strike a crippling blow to a national resource vital to the Country's commercial welfare and military security.

Congress will be well advised to keep hands off tax and product-import revisions which could adversely affect the domestic oil industry, already operating on a slim margin of profit.

Zoo Man Eyes City Captives

Those great piles of stone and steel and concrete we call cities are not the jungles they are often called. They're really zoos.

The claim is made, appropriately enough, by a zoologist in a new book entitled, not surprisingly, "The Human Zoo."

"Under normal conditions, in their natural habitats, wild animals do not mutilate themselves, attack their offspring, develop stomach ulcers, become fetishists, suffer from obesity, form homosexual pair-bonds or commit murder," writes DESMOND MORRIS. Among city dwellers all these things occur, as they do among animals confined under unnatural conditions of captivity.

The modern human animal is no longer living in conditions natural for his species, says Morris. "Trapped not by a zoo collector but by his own brainy brilliance, he has set himself up in a huge, restless menagerie

where he is in constant danger of cracking under the strain."

But bad as it all is, we shouldn't wish to "go back" even if it were possible because, despite the difficulties, the benefits in the human zoo are tremendous. The zoo, like a gigantic parent, protects its inmates and provides them with food, drink, shelter, hygiene and medical care. The basic problems of survival are reduced to a minimum. There is time to spare.

Furthermore, he says, there is something in the human animal that obtains deep satisfaction from being thrown into the urban chaos. This is man's insatiable curiosity, his inventiveness, his intellectual athleticism. The urban turmoil seems to energize these qualities. This is what keeps the system going despite its many disadvantages.

Think about that while you're angling for a slot in the rush-hour freeway traffic or struggling with the other zoo denizens for a seat on the 5:15.

Census Bureau: Is It Too Nosy?

From time to time, in and out of Congress, there are protests that the Census Bureau is being too nosy and asking too many questions of Americans.

The Constitution. It is argued, set up a census only to discover how many

DETOLEDANO people lived in each state so that there could be equitable representation in the House of Representatives.

From the very start, however, the census takers

have sought to get more and more information for the use of Federal departments, labor, and business.

People this year will be asked how many bathrooms they have, and telephones and working television sets, whether "you enter your living quarters directly from the outside" or "through someone else's living quarters."

The census takers want to know whether your bathtub or shower is shared by another family. They will ask how much rent you pay or what your house is worth.

PLACE OF BIRTH
In the questionnaires there will be queries on place of

birth and national origin and whether or not a language other than English is spoken at home. Americans will be asked whether they are native-born, naturalized, or children born abroad of American parents.

Among other questions, the census takers will try to find out if you are part of a mobile family or one that has stayed put, how much education you have, whether or not you are self-employed or work for wages, for whom you work and at what job.

One in every 20 households will receive a long questionnaire which, the Census Bureau estimates, will take about 30 minutes to complete.

GOES INTO DETAIL
It will go into the kind of detail that some have objected to — the number of marriages and divorces, etc. But it will not ask if you've ever been in an automobile accident, whether you belong to a union, what taxes you pay, whether you smoke, what stocks you may hold, or whether you believe in God.

Perhaps the 1970 census will go too far. It is of some economic importance to know what Americans are working at — but not where.

How mobile the American people are and how they live are also of importance in developing sound housing programs, both private and public. And it is true that the data collected by the census takers is of value to government, to scholars, and to business people.

As of now, the Census Bureau has supplied statistics only to those who make inquiries. But at a future date, some 1964, will the government begin to scrutinize those records in order to delve into the lives of Americans as a means of controlling them?

Bob Considine

Battle of Britain Veteran Unaware He Was Missing

NEW YORK — Nice lady named Cholin Hill, Southern belle, was watching Peter Townsend on Merv Griffin's TV show and heard Townsend, whose splendid RAF career was somewhat eclipsed by his troubles with Princess Margaret, say that nobody in London seemed able to locate the only surviving American Spitfire pilot in the Battle of Britain.

Seems that John Kenneth Haviland, born in Mt. Kisco, N.Y., lost contact with the RAF in 1951, or vice versa. The six other Americans who were numbered among the few so immortalized by Churchill, all were killed by 1942.

Nice lady named Hil remembered Prof. Haviland, who teaches an aerospace course at the University of Virginia at Charlottesville. She called a number she had for him. Disconnected. Then she called the Charlottesville phone company and said she must, simply must, get in touch with Haviland.

"It's a national emergency," she assured that soulless corporation.

PROFESSOR SURPRISED

She got through at 2:30 a.m. The professor was surprised that he had been reported as "missing."

"I knew where I was all along," he said.

Thereafter, he appeared briefly on Merv's show, took in the American premiere of "The Battle of Britain," and left the next day to visit Queen Elizabeth II.

Also brought to New York for the first showings of a film portrayal of one of the most decisive battles of history were Robert Stanford Tuck and Adolph Galland. Tuck is a farmer in Easley, Kent. Galland is a West German business and aviation consultant. They are good friends and occasionally hunt together, in season.

In the Battle of Britain they hunted each other: Tuck in his Spitfire, Galland in a Messerschmitt.

Tuck rose to command of the famed Biggin Hill wing of Spitfires. Galland made Luftwaffe general at age 30. He shot down 104 Allied planes before the war was over, but was nearly shot for the independent attitudes he showed toward his superiors.

Once Goering asked him how the Luftwaffe could be improved. Galland asked Fokker to get him a squadron of Spitfires. Hitler puzzled over his surname while presenting him with the Third Reich's highest decoration. "I'm a French Huguenot," Galland said, looking the Fuehrer in the eye.

How sophisticated can we become in space? After their quarter of a million mile voyage from earth, Apollo 12 astronauts, Charles Conrad and Alan Bean plan to land "from 500 to 1,200 feet from the surface," which rests at 2.94 degree north latitude and 23.34 degree west longitude on a 10-degree slope about 150 feet from the lip of a small crater on the moon's Ocean of Storms.

Surveyor 3 has been squatting there in that hostile environment for two and a half years. Conrad and Bean hope to strip it, like an abandoned car on any old American highway. Or a couple of credit house goats repossessing its unpaid-for TV set.

Bruce Biossat

Lindsay May Pull a Miracle

NEW YORK (NEA) — In a city election where none of the three candidates looks like even a minor miracle-maker and none is very well-liked, Mayor John V. Lindsay seems close to pulling off the miracle of getting himself re-elected to a second term.

The first of several New York Daily News citywide polls which shows Lindsay with an 11-point advantage over Democratic nominee Mario Procaccino, the city controller, may be a bit too good to be true — especially since it indicates a mere 3 per cent undecided with well over a week still to go until voting day.

Yet if the mayor actually does pull off a victory with something over 40 per cent of the total Nov. 4 vote, as the poll suggests he might, he will have managed very deftly to have constructed a coalition that only a few months ago looked impossible in the light of the high anti-Lindsay tide running in this chaotic metropolis.

First off, the mayor lost his own Republican party's nomination last June to State Sen. John Marchi, who stands

a rather weak third in the current poll.

LIMITED SUPPORT

Lindsay was forced to run as the choice of the small Liberal party and as an independent.

At that stage his support appeared limited to a family thin upper crust of Manhattan Republicans, a similar thin layer of affluent and usually Democratic Jews, and strong vocal endorsements from prominent black and Puerto Rican leaders.

The mayor was blamed for crime, fueled by rampaging narcotics addicts, for a school strike that ripped the city with Negro-Jewish tensions and left thousands of Jewish teachers enraged at him, for a series of college campus outbreaks, a snowstorm that kept outlying boroughs buried for days, a garbage strike and a general deterioration of city services, for new taxes, for alleged continued favoritism toward the restless black and Puerto Rican minorities.

Talks with many and diverse New York political experts, plus campaign forays with the candidates and some personal sampling of voter reaction suggest convincingly to this reporter that a good deal, though far from all, of this massive hostility toward the mayor has softened in the past few months.

FEW NEW MISTAKES
In a beautifully managed campaign, he has made almost no new mistakes. He is outrageously handsome and well-poised, and this still works wonders for him.

In a curious way the astonishing World Series triumph of the New York Mets may have infused the now almost perpetually angry New York citizen with a touch

of new spirit that is spilling over into other fields.

Kno wledgeable minority leaders say Lindsay may be the first non-Democrat in the post-Franklin Roosevelt era ever to win a majority of black and Puerto Rican voters. Estimates of his percentage take in this sector of the electorate range from 55 to 70 per cent.

But, if he wins, the big accomplishment will have been the recapture of the huge Jewish middle-income voting class whose earlier anger appeared certain to doom his reelection chances. (The Jewish vote normally constitutes 40 per cent of the city total.)

It is not a matter of restored affection but, as one Queens Jewish leader put it, taking Lindsay as "the lesser of three evils."

The great fury over their mountain of grievances has been tempered partly by time and partly by their gathering conviction that their chief alternative, Procaccino, may do worse rather than better.

Mr. and Mrs. Joseph L. Scariotti of 5135 Sparrow Wood; 54th wedding anniversary.

Voice of the People:

'Voice of People Ignored in Rezoning Decision'

The moment of truth—the final disillusionment—came when I attended a City Commission meeting and discovered that there is no voice of the people. I attended with a group of McCarroll School mothers protesting the rezoning of the corner of Perry and Glenwood for a gas station. We contended that this would throw more traffic into an already congested area and become a traffic hazard for our children attending McCarroll.

Mr. Jackson read a statement from the planning commission and traffic commission, stating that a gas station on this corner would cause more accidents at an intersection already designated as sixth on the traffic accident list for Pontiac. The planning commission stated that the City will soon need this property for widening the street and would have to buy it back.

Then our Commissioners, with the exception of Mayor Taylor and Mr. Jackson, voted for the rezoning. No wonder Pontiac is a mess.

'Need More Available Kidney Machines'

It is disgraceful that in this so-called great society of ours a person in need of a kidney machine must beg and wait for 600,000 General Mills coupons to have the privilege of this life-saving device in his home. The cost of the kidney machine is approximately \$3,000. What a pity the large corporations of this state cannot afford to have at least six of these machines to loan the persons in dire need of them.

Has Message for Voters in Avon Township

To voters of Avon Township regarding the vote October 27, do not be misled by the cries and wails of the do-gooders and the school board because last winter the tax raise gave the schools many thousands of dollars which they did not have before.

I suggest we form a committee to police the school board and the wasteful spending policy and find ways to educate the kids in the three R's, not all the foolish things they are taught now. The school board and others at the voting two years ago said "if the voters do not pass the millage we cannot build Rochester Adams High School." We did not pass the millage but they are building the school anyway.

The school district also said \$234,000 was paid for the property on Adams Road, but other persons have stated it was much more. What is the truth? We taxpayers and voters must find out the answer before they drive everyone out of Avon Township with out-of-reason taxes which are being wasted or not being used as this money should be. Vote no on Governor Milliken's school bill as well as this millage.

ARNOLD J. DEKTER

Questions and Answers

(Q) A year ago we bought an AKC English cocker spaniel and we'd like to obtain his pedigree. We're told we have to find someone with English stud books. Would you know anyone with them?

DAVID J. CHIAPELLI
DRAYTON PLAINS

(A) Not offhand, but you can get a copy of your AKC registered dog's pedigree by writing to American Kennel Club, 51 Madison Ave., New York. The fee is \$5 for three generations, \$10 for four generations and \$20 for five. Include your dog's registration number, the breed and his registered name.

(Q) I'm a Waterford teen-ager and would like to know why they stopped the dances they were having at the C.A.I. building. I attended all of them, they were well-organized and there was never any trouble. There are no other dances here, and many of us wish it would open up again.

MARGARET CHAPPEL
(A) We talked with the C.A.I. director, who said it's not quite true there was never any trouble.

While nothing happened inside, there was enough drinking and vandalism outside during and after dances that it was necessary to have police protection. The sight of an officer seemed to discourage some of the patrons, and with bands charging union scale, there were not enough teen-agers attending to meet costs. While C.A.I. sponsored the dances, they lost \$500 in the first month and a half.

(Q) I'm in need of some hops for making honey wine. I know they sell them in Detroit, but I live in Waterford and hate going all the way down there. Would you know if any stores in the Pontiac area sell them?

MRS. BORA
5856 SUTHERLAND

(A) We're sorry to say we were unable to find a source closer than Detroit. However, we couldn't check every store owner around, so if someone lets us know of an individual or dealer who has them, we'll pass the information on to you.

More Talks Set on Flint School Strife

Flint teachers meet again today with the Board of Education in hopes of breaking a deadlock on a strike that has kept 46,000 pupils out of the classroom.

Bargainers from both sides met for three hours Friday in Detroit, but no progress was reported. Morris Milmet, a member of Michigan Employment Relations Commission, said the parties would meet today at the direction of Genesee Circuit Judge Stewart Newblatt.

Sources indicated today's bargaining sessions—to take place in Flint—may be marathon ones.

The Flint district is the largest of seven closed by strikes. The other six, with 25,000 students, include Fenton, Lake Fenton, Flushing and Beecher, all in Genesee County; Chelsea in Washtenaw County, and Harper Creek, which is near Battle Creek.

At the Coleman School District, a tentative agreement was reached on a two-year contract. The teachers, however, had been previously returned to their classrooms under a court order.

Money Lack Braking Flint Bus Service

FLINT (AP)—Bus service in Flint will end Nov. 1 unless \$635,000 is raised to finance the operation, Mayor Donald R. Cronin warned Friday.

Cronin told a public meeting that the \$635,000 is needed to bail the Flint Transit Authority out of debt and provide supplemental revenue for the next 14 months.

He named a committee of government and civic leaders to see whether the money could be raised from public funds or contributions.

If the service is ended, with it would go the Maxi-Cab system under which buses pick up subscription passengers at their homes at regular times and travel over fixed routes.

The system was inaugurated in September 1968. Users of the Maxi-Cab service pay from \$9 to \$18 per week, depending on how far the rider travels. About 300 persons use the service.

Cronin said federal help to the city's bus service "will not be forthcoming." Flint officials recently met privately with Department of Transportation officials in Washington to discuss the financial plight.

Also endangered by the deficits is a Dial-A-Bus service scheduled to be put into effect next month. Under this service, buses would be diverted from regular routes to pick up customers. After about 20 passengers called, a computer would determine the fastest route and buses would pick up passengers at their homes.

The Maxi-Cab system is an experiment financed by the federal government, Flint and private funds.

Lake Pollution Suit Is Urged

CHICAGO (AP)—Gov. Richard B. Ogilvie said Friday he has recommended a lawsuit against Wisconsin, Indiana and Michigan to save Lake Michigan from further pollution.

The governor said he has urged Atty. Gen. William J. Scott of Illinois to file the suit directly in the U.S. Supreme Court.

Ogilvie announced the action during an address to the annual meeting of the Civic Federation, a governmental watchdog organization.

The chief defendants, the governor said, would be the three Lake Michigan states and "the major industries and municipal corporations responsible for wanton pollution."

While the governor was speaking in downtown Chicago, Scott and attorneys general of five states, including Wisconsin and Indiana, were meeting at O'Hare International Airport on interstate problems.

Stone Walls Can't Stop Public Works Chief

By JEAN SAILE

Oakland County's R. J. Alexander, director of public works, has an ulcer that acts up frequently.

But it doesn't stop him from trying a new angle of attack against the stone wall which he is frequently accused of butting his head against.

And it hasn't stopped him from puncturing that mythical wall more often than not.

Accused of building an empire of sewers and water systems, looked on with suspicion at times by homeowners and local governmental officials, Alexander, 62, still believes he can not do otherwise.

"It would be so easy to sit here and let nature take its course," said the man who almost singlehandedly has pushed millions of dollars of county utility programs through Washington, Lansing, the Oakland County Board of Supervisors, local governmental units and taxpayer protest groups.

"I couldn't do that. I've got to accomplish something," said the energetic director.

That Oakland County is well prepared to meet the influx of population expected in the next

10 years is a credit bestowed on Alexander by his peers, and Alexander says he couldn't have done it except for the men who work with him.

It's a dour Scottish face that looks at you from behind dark-rimmed glasses, but the graying director says he's mostly English and French.

MUST BE THICK-SKINNED

For \$25,000 a year (\$27,500 next year if the board of supervisors approves) Alexander worries through such items as:

• Dry wells in Waterford and Independence townships "allegedly" (his word) caused by construction of the Clinton-Oakland Sewer Interceptor.

"The situation is getting cleared up, but last Friday the department had another call about a dry well five miles from the construction site," he believes the chances remote that the construction is to blame.

• Settling ground in Waterford Township near the site of Clinton-Oakland Sewer construction allegedly (again, his word) caused by the dewatering process undertaken to facilitate construction.

"The fact is that the Waterford Township fire station on Elizabeth Lake Road near M59 — the site of the sinking ground — has had like problems for years. The courts will have to settle it."

• The job of convincing local governmental officials that despite Oakland County's numerous lakes, federal and state surveys show that the ground does not contain enough water to meet the area's future needs — "Detroit water (from the Great Lakes) must be used."

• The problem of getting bonding money to accomplish the tasks he sets out to do. He blames the poor bonding market on proposed legislation which would remove the tax-free status from municipal bonds.

"You'd still sell the bonds, but the interest charged would be raised to take care of the

R. J. ALEXANDER

taxes and it would still be the taxpayers who pay."

• The job of pushing through federal and state grants for use on Oakland County projects. He's tied up some \$16 million of those funds for local use this year.

"It's getting easier now. The guidelines are more clearly spelled out."

• The formation of local township authorities to carry out construction of internal sewer systems feeding into the grant Clinton-Oakland.

"I've never been consulted about it (the authority) but they're going to learn an authority will have to pay a much higher interest rate on bonds than the county does."

• The problem of finding an exit for sewage which the Clinton-Oakland should be ready to begin collecting the end of next year.

"Detroit is moving on it now. They're letting bids."

Traffic Campaign

DETROIT (AP) — With 212 persons killed in traffic mishaps in Detroit, Police Superintendent John Nichols ordered his men Friday to crack down on moving traffic violators. Nichols said that so far this year, 35 more persons have been killed in traffic accidents than at the same point last year. Detroit's record year for traffic fatalities was 1937 when 335 persons died.

• The problem of communication with taxpayers.

"If you can get people to know all the background, they're as convinced as we are that these projects are necessary."

• The problem of facing homeowners' wrath when Detroit finds it necessary to raise sewage and water rates.

"We've still got the cheapest rates of any metropolitan area in the United States."

NO MORE SEWERS?

And, Alexander wades through these problems, believing all the while that in 15 or 20 years or some time in the

future, sewers will be nonexistent.

"Each home, motel, factory or whatever will have a small compact facility — electronics, modern technology, I don't know — which will do away with the sewage problem entirely."

"Nature takes care of so many things. Technology is endowed — maybe by some superpower — with the ability to allow us to get out of our self-created situations."

"That doesn't mean that we sit back and wait for it to happen," he contends, explaining

why his ulcer is sometimes a problem.

Rochester Needs New Schools NOW!

- ★ Elementary enrollment has already exceeded capacity.
- ★ Even with the new Adams High School, secondary enrollment now equals capacity.
- ★ Total enrollment will increase by 400 to 700 students per year
- ★ State assistance is at a maximum level. Educational reform will still leave construction aid unchanged.
- ★ This plan is the best bargain ever offered local taxpayers. Only 0.8 mills additional levy will cover new debt.

Delay has already had costly effects!

- ★ Increased costs have added nearly \$800,000 to the cost of construction since February.
- ★ Interest rates have increased more than 1% since the February bond issue failure.
- ★ The School District has been forced to purchase temporary classroom units.

Further delay means mounting costs, more overcrowded classrooms or split sessions

When You Make Friends Along the Way

A World Cruise Takes Time

AP Wirephoto

FLOATING HOME — Mr. and Mrs. Lee Ehrheart and son, Jens Kristian, 4, relax aboard their 48-foot ketch Havorn. The Ehrhearts left Norway 3½ years ago to sail around the world. "We hate to leave new friends," explains Ehrheart when asked why the voyage has taken so long. They've been in San Diego five months and are still not ready to continue the 30,000-mile voyage.

SAN DIEGO, Calif. (AP) — Jens Kristian Ehrheart is riding his bicycle around the world, on the deck of his parents' ketch. After more than three years, the cruise is half over. And Jens Kristian is peddling harder than ever.

He was a year old when his father, Lee Ehrheart, and mother Greta sailed from Norway. He was walking by the time they reached Scotland.

He was talking when they sailed into a harbor of Portugal. The sturdy, 48-foot boat was

midway across the Atlantic, returned to Europe in 1964 to buy a boat and make their trip.

NEW FRIENDS

"We originally thought we would make the circumnavigation faster than we're doing," says Ehrheart, 31. "But I think the people we've met are the reasons we're taking so long. We hate to leave new friends."

Ehrheart, a Pennsylvania native who grew up in Los Angeles, met his wife in Copenhagen while they were attending International Peoples College. They moved to Los Angeles but

returned to Europe in 1964 to buy a boat and make their trip.

In Slanger, Norway, they found their gaff-rigged, double-engine ketch—a fishing boat for 30 years before. The family lives in the main cabin, once a fish hold. The forward compartment, built to sleep eight fishermen, accommodates the Ehrhearts in two large bunks. The rest of the boat consists of an engine room and a wheelhouse and chart room on deck.

Despite the time the trip is

taking, Ehrheart estimates only six months have been spent at sea.

Ehrheart works at odd jobs in harbor to pay expenses. The family spent a summer in England, nearly a year in Portugal, five months at Gibraltar and six months in the West Indies.

Fir Beams On Ceiling And Fireplace Complement Pine Paneling

Colonial Williamsburg Approach Reflected In Living Room Furnishings

Family-Tested Recipe for a Cozy Home

By JODY HEADLEE

Home Editor, The Pontiac Press

Take a basic home plan from a national magazine, add a young couple with enthusiasm and ideas, mix well with more than an ounce of patience and you could come up with a Dutch Colonial that combines the charm of yesterday, the conveniences of today and the freshness of tomorrow.

The Warren L. Carlsons of Bloomfield Township did.

Built in 1963, the two-story is nestled in a cluster of towering trees, its old-gold trim a pleasant blend with the used-brick exterior. Beds of ivy and pachysandra eliminate lawn woes under the trees as well as add texture and height interest to the velvet green lawn.

TWO ENTRANCES

Two front entrances allow easy passage into the formal foyer and the informal family room.

"We put so much of ourselves into this house," said Mrs. Carlson. "we can't

help but love it. And should we ever build again we'd repeat our ideas." This is a sure sign of success, for many times as homeowners live with a plan, they discover its inadequacies and vow to never repeat the mistake.

In decorating the main floor, the Carlsons continue their interest in Early Americana by using both the primitive and Colonial Williamsburg approaches.

Setting the living room's background for the elegance of the 18th century are off-white walls, plush carpeting and draperies.

DUTCH TILES

Highlighting the pine paneled fireplace wall and framing the fireplace are Dutch tiles in blue-on-white. To emphasize the tile's sailing ship pattern, Mrs. Carlson made a three-dimensional crevel picture of a square-rigger.

Throughout the house are displayed Mrs. Carlson's collection of primitive

lighting pieces. Some are reproductions, many are authentic.

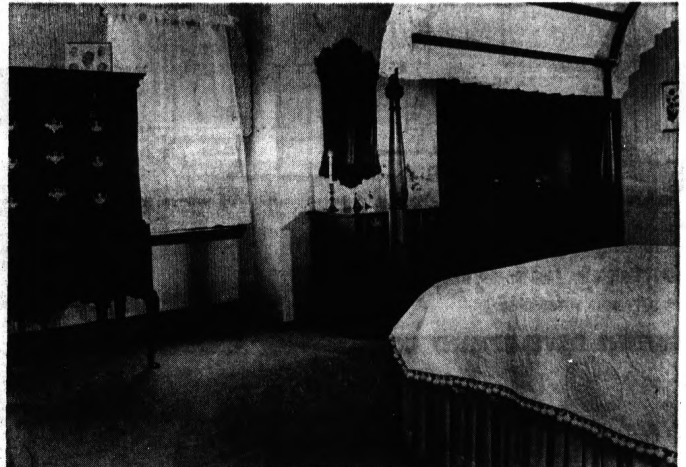

The transition from the formal living room and entrance foyer begins in the bare-floored dining room which also opens off the foyer and continues into the inviting family room paneled in pine.

Hessian andirons are silhouetted against the bright fire in the raised hearth fireplace. Natural herbs hang from the fir beams above the fireplace, typical of the early housewife's method of drying her herbs while creating a pleasant fragrance throughout her home.

TEN YEARS AGO

"We began collecting our antiques about 10 years ago," said Mrs. Carlson, pointing to a commode they discovered in Connecticut. Lighting the piece is a tin pudding mold transformed into a lamp.

More of Mrs. Carlson's early lighting collection can be seen on the fir mantel beam and on the hearth.

Off-White Carpeting And Blue-On-White Wallpaper Used In Bedroom

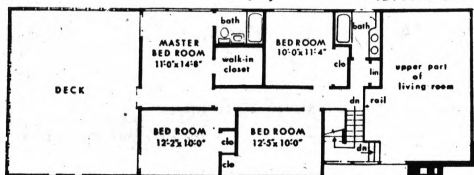

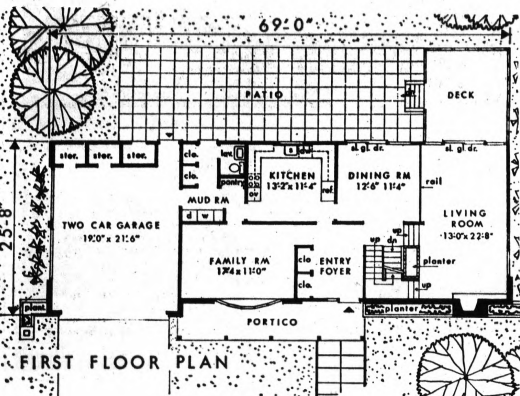

Crisp Rustle Of Dried Leaves Provides An Autumn Symphony At The Warren L. Carlsons In Bloomfield Township

FRONT CHIMNEY and vertical columns extending from the ground to the roof balance the generally horizontal exterior lines of this two-story house, which has a clean, crisp

appearance and a pleasant portico in front of the entrance door and family room. See story on Page B-3.

FLOOR PLANS: Plenty of space for outdoor relaxation here, with large rear patio, accessible from the dining room, laundry area and the garage; a deck reached through sliding glass doors from the living room; and an even larger deck off the master bedroom.

S-16 STATISTICS

Design S-16 has a living room, dining room, kitchen, family room, lavatory, laundry-mud room, and entrance foyer, totaling 1,159 square feet. There are four bedrooms and two baths on the second floor, adding 893 square feet. The two-car garage, which has separate storage areas, has a full deck above it. There is another deck and a patio at the rear. Over-all dimensions, which include the garage, are 69' by 25' 8".

Simple Patterns Fit Modern Life

If you like modern or contemporary styling in your living room, use vat dyed fabrics with simple patterns — clean-cut geometrics, stylized small scale designs, widely spaced florals. Textured or crisp fabrics fit the modern feeling. Colors are bright and clear, or neutral. Best of all, vat colored fabrics are fast to laundering, light, cleaning, chlorine and "rubbing off."

How to Build, Buy or Sell Your Home

Full study plan information on this architect-designed House of the Week is included in a 56-cent baby blueprint. With it in hand you can obtain a contractor's estimate. You can order also, for \$1, a booklet called **YOUR HOME—How to Build, Buy or Sell it**. Included in it are small reproductions of 16 of the most popular House of the Week issues. Send orders to House Plans, The Pontiac Press, P. O. Box 9, Pontiac, Michigan 48066

Enclosed is 50 cents for baby blueprint on S-16

Old World Flavor Brings Intimacy

A warm, rustic look with Old World flavor brings intimacy to this dining room setting.

Such decorator touches as an oak mantle and an intricately-designed folding screen combine with the Spanish furniture to create an atmosphere found in the gracious haciendas that color the Mexican countryside.

The furniture, from the "Mexicana" collection by Broyhill Premier, takes a new direction in Spanish styling by blending the rustic charm of Mexico with the romantic beauty of Spain.

The deep brown-tone finish harmonizes with the off-white stucco walls, green octagonal rug and inlaid oak flooring. And the gold color of the seat covers

is picked up in accents throughout the room.

BREAKFRONT

The breakfront features a deep geometric block pattern on its doors, and has hardware with the solid block of primitive Mexican furniture. All pieces are made of oak veneers and oak solids.

Two-Story Offers Quality, Elegance

The two-story house is still a favorite for those who desire extra space at proportionately lower costs.

This one offers quality and elegance uncommon in many traditional two-story designs.

The crisp and contemporary exterior is composed of brick and wood siding and a large expanse of glass.

Two-story columns at the front of the house provide a pleasant motif which enhances the regal-looking entrance.

SUBTLE BALANCE

By contrasting strong horizontal lines with the vertical columns architect Samuel Paul has given the structure a subtle balance.

A certain glamour which results from multi-level interiors and which is unusual in two-story homes, has been achieved here by raising the living room four steps above ground level.

The spacious cathedral - ceiling living room is 22' 8" by 17' in size and is situated so that it enjoys both front and rear views in addition to overlooking the formal dining room.

Embracing the same side of the living room as the dining room is the highly attractive double-run stair to the second-floor bedrooms.

TWO BALCONIES

Balconies at both the midplatform and second floor overlook the living room.

The few steps from the living room to the midplatform afford a shorter climb from the living room to the bedrooms, in addition to serving as a most attractive entry when entertaining.

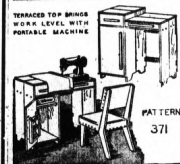

Redwood paneling is effective on this entire wall.

A true brick planter is nestled alongside this stair bathed in an abundance of daylight.

FIREPLACE

Large expanses of glass at both the front and rear permit the entrance of daylight with wide roof overhangs offering shade and shelter.

Embracing the front wall of

A STORAGE STAND for a portable sewing machine may be made of solid stock and plywood. A feature of this stand is that the terraced top brings work even with the machine foot. Pattern 371, which gives material list and illustrated steps, is 50c. It also is in the Sewing Corner Packet No. 16 with three other patterns, designed by a sewing specialist - all for \$1.50.

GLEAMING FLOORS — The richness of well-polished, deep-stained oak floors adds authenticity to the formal dining room of the Warren L. Carlson home in Bloomfield Township. An old chopping bowl filled with

squashes, pumpkins and Indian corn inject a harvest note to the round drop-leaf table. Off-white walls, draperies and glass sheers establish the room's monochromatic background.

Crunch Hurts U. S. Families

WASHINGTON (UPI) — The real estate industry is caught in a squeeze between tight money and continuing inflation which threatens to make it impossible for the average middle income family to buy a home of its own.

The National Association of Home Builders (NAHB), says the "credit crunch" is already as bad as it was in 1966. It could get worse.

★ ★ ★

"Unless some fast turnaround in the availability of money occurs, the seasonally adjusted annual rate of housing starts by the end of this year and early next year will drop to 1 million units or below," Association economists said in a recent report.

"The bulk of middle income households will be drastically shut out of the new-housing market."

There were 1.54 million housing starts last year and economists had expected an even better year in 1969. Then the credit crunch set in.

The nation's money managers, principally the Federal Reserve Board, have tightened up on the growth of the money supply in an effort to stifle inflation.

★ ★ ★
The tight-money situation hits the housing industry two ways. Mortgage interest rates are so high that many would-be customers simply cannot afford them.

Even worse, in some areas mortgage money simply isn't available at any price. Lenders are using their dwindling supply of funds to make more profitable business loans. Meantime, housing costs also are rising, further complicating the

GATE

\$8.95 UNIVERSAL FENCE

MILFORD RD., North of M-59 362-5529

COMBAT SHORTAGE

In an effort to combat the shortage of money for housing, the Federal Home Loan Bank Board has announced plans to offer the nation's savings and loan associations, long-term loans of five years instead of the present one-year loans.

Board Chairman Preston Martin said \$200 million would be made available in the new program to help savings and loan associations make mortgage loans.

But \$200 million is a relative drop in the bucket compared with the problem. It will not come close to offsetting net withdrawals of savings from savings and loan associations.

Adding to the woes of the mortgage money market, Treasury Secretary David M. Kennedy has announced the Nixon administration will ask Congress to increase interest rates on U.S. savings bonds from 4½ to 5 per cent.

SHRINKING SUPPLY

At the higher rate, the bonds will surely draw some savings away from savings and loan associations and commercial banks, thus shrinking the supply of loanable cash.

Some lending institutions are refusing to make real estate loans without an "equity kicker" clause. Such a provision requires the borrower to repay part of the loan in stock, cutting in the lender on the profits of the venture.

Equity kickers are useful in financing apartments and shopping centers but are impractical in financing single family homes. If the popularity of the practice continues to increase, it will divert additional mortgage money from single family to multi-family projects.

Oriental Flavor Added to Roofs

Some of the most imaginative of the new home designs have the upswept roof with a distinctive Oriental flavor.

Such impressions are achieved with laminated lumber or solid wood ceiling beams tapered at their extremities under a sweeping canopy of wood roof decking.

Little Cracks Grow Into Big Problems

Cracks in walls, foundations and floors are unsightly. But more importantly, they lead the way to further disintegration. Repairing small cracks is easy. The damage that can result if

they are not repaired in time is less easy and more costly to correct.

How you do it is fairly simple. What you use to do it with requires thought.

Generally a good hardware dealer will stock all the materials you need and will be able to advise you which to use for each job.

FILLERS
Some crack fillers come ready to use (caulking, plastic wood). Others require mixing, usually with water (plaster patch, mortar mix). Some you can improvise yourself (glue and sawdust).

Cracks in plaster, concrete or stucco generally need widening before they can be filled. All loose and crumbling material must be cleaned out.

Undercut the crack so that it is wider at the bottom than at the surface. This will prevent the patching material from pulling out.

Fine cracks in plaster can be closed with spackling compound which is rubbed into the crack and wiped away. In this instance, widening the crack is not necessary.

PATCH

For other cracks in plaster, widen the crack and then wet it thoroughly. Then use patching plaster which you mix with water.

Mix only what you will need

over a short period of time. Do not use plaster of Paris. It will not work as well.

Cracks in concrete — foundations, walks, drives, etc., are done in the same way. Clean out, undercut and wet down.

If you have trouble getting a concrete patch to hold, try some of the chemical bonding agents

that are available. These are first applied to the edges of the crack and then the patching material used as usual.

COMMERCIAL
Use a commercial sand-cement mix. Use plenty. You can trowel away the excess. Keep moist for several days until the patch is thoroughly set.

Cracking in flooring can hurt appearance as well as filling up with dirt. Clean out completely by scraping or sanding since any dirt, oil or wax will keep the new material from adhering.

Use plastic wood or wood putty and overfill the crack. Then sand it down flush with the surrounding surface when it is hard.

COLORS
Such materials can be colored with powdered pigments to match the old wood surface. This must be done before using it. If you are going to stain the wood, use sawdust of the same type of wood mixed with a good resin glue.

When dry it can be sanded and finished.

ENTRY GETS ROUGH WEAR

There's nothing like a floor-to-ceiling mirror to enhance the appearance of a foyer or entranceway. The mirror will make the entry look larger and more attractive, too.

Since the entry gets rougher wear than almost any other part of the house, materials that are both durable and attractive should be used. Quarry tile meets both these requirements, which is why it is so often found on foyer floors.

Ceramic tile is ideal for the walls of your entry, since it's now available in many decorator patterns and shapes, plus more than 250 colors and shades.

A quarry tile floor and wall of either glazed tile or mosaics can combine with a floor-to-ceiling mirror to transform a routine entranceway into a focal point of the home.

GRANDMA'S KITCHEN ADAPTED—The Warren L. Carlsons of Bloomfield Township wanted a kitchen with the look of yesterday and the practicality of today. Incorporating used brick and pine with a stainless steel counter stove and double ovens solved their dilemma. Bunches of dried herbs and the pine utensil rack hint at the welcome warmth of grandmother's farm kitchen.

Transparent Finishes
Protect, Beautify Grain

Some six million cars and 856,000 trucks were junked in 1966.

Transparent wood finishing materials fall into two general categories: those which lie on the surface and those which penetrate.

The surface coatings include varnish, lacquer, shellac and the various synthetics. The penetrating substances include sealers and stains, linseed oil and turpentine.

All have the same purpose — to protect and beautify the wood without hiding its natural grain. The surface coatings may be applied to raw wood or wood from which the old finish has been removed, as well as to previously finished surfaces which are in sound condition and which have been properly prepared.

But a penetrating finish is designed to fill the pores of the wood and so cannot do its job unless it is applied to bare wood.

THREE POINTS

In using these so-called natural finishes, bear in mind three points: (1) All finishes change the tone of wood, tending to make it darker; (2) wood darkens with age; and (3) when an entire wall has been finished, it appears darker than a small sample of wood with the same finish. It is wise, therefore, to select a surface or penetrating finish that produces a shade lighter than you actually want it to be.

Stains and penetrating sealers usually must be wiped off within minutes after they have been applied.

The directions on the container of the product you buy will tell you how long a time should elapse between the application and the wipe-off. The latter is necessary to prevent some of the material from remaining on the surface, preventing proper drying. It also regulates the intensity of the color. The quicker the wipe-off, the lighter the shade. Oil stains also can be made lighter by diluting them with turpentine or the recommended thinner.

One of the oldest penetrating finishes, designed to give wood the patina it usually achieves only after years of tender care, involves the use of a mixture of boiled linseed oil and turpentine.

APPLY MIXTURE

After the linseed oil and turpentine have been mixed, spread it on the wood, using either a clean paint brush or a clean, lintless cloth. As soon as you have completed the application, take another clean cloth and wipe off any excess, being sure to wipe and not rub. After waiting about an hour — and using still another cloth — rub and keep rubbing. In fact, repeat the rubbing chore as often as you want during the ensuing weeks, the idea being to give the wood a rich, mellow appearance.

There are different theories on the proportions that should be used for this mixture, but we have found that two parts of boiled linseed oil and turpentine produce the best results. By the way, you purchase the linseed oil already boiled; don't try to boil it at home.

Ceramic tile manufactured in the United States contains clay, feldspar, flint and talc.

OPEN SUNDAY 2 to 5 P.M.

News of Area Churches

The principal speaker at the annual Bible conference of Sunnyside Chapel will be Dr. Hugh Farrell, a former Roman Catholic monk of the Discalced Carmelite Fathers, one of the strictest monastic orders.

Dr. Farrell has preached in the United States, Canada and many parts of Europe, telling his story of a changed life.

Meetings will be held at 7 p.m. each evening tomorrow through Wednesday.

North Perry Baptist

It's "Fly the Banner Day" at North Perry Baptist Church tomorrow.

Each person attending the 10 a.m. Sunday school hour will be given a miniature Christian flag.

A continuing contest is being held to procure larger American and Christian flags.

Mount Hope Lutheran

The fifth anniversary of the establishment of Mount Hope Lutheran Church will be celebrated Sunday with a special sermon and program following the 10:30 a.m. service.

A movie of the original dedication ceremony will be shown; a commemorative tree planted to mark the day; and a fellowship brunch will be served.

Messiah Missionary Baptist

The choirs are in charge of the 3:30 p.m. appreciation service Sunday for pastor and Mrs. Roy C. Cummings of Messiah Missionary Baptist Church. The Mount Calvary Baptist Church of Flint will be guests.

A 7 p.m. service Wednesday will climax the appreciation service for Pastor Cummings. Burnette Baptist Church of Detroit will be visiting that evening, along with the congregation of Macedonia Baptist Church of Pontiac.

First Baptist

"Tomorrow is 'Unite Our Country Day' in Sunday School at First Baptist Church, 9:30 a.m. This is the last Sunday of the 'Citizens for Sunday School' contest.

Rev. Robert Shelton will speak at 10:45 a.m. and 7 p.m. services. Special music at the services will be provided by the chancel choir, Singing Omegans, chapel choir, team trio and a French horn trio.

Choirs of four Lutheran Baptist Church. Roger Ringbloom will provide special music at both services.

Reaching Women will meet Wednesday morning at 9:30 for coffee and Bible study led by Mrs. John Venneman.

The True Seekers Class is planning a Halloween party at the Ed Justin home in Lake Orion Saturday.

Columbia Baptist

Revival services will be held at Columbia Avenue Baptist Church beginning Sunday at 7:30 and continuing through Nov. 2.

Rev. Max Cadenhead, director of Christian social ministries for the Baptist State Convention of Michigan, will be the evangelist. Columbia's minister of music, John Markle, will lead the singing.

A nursery will be provided for children through age three.

St. James Missionary Baptist

At 3:30 p.m. Sunday, the New Morning Doves and the Original Morning Doves will present a song concert at St. James Missionary Baptist Church.

Commerce United Methodist

The Women's Society of Christian Service of Commerce United Methodist Church will serve a smorgasbord in the church's dining room Nov. 1 from 5:30 to 7:30 p.m.

Reservations may be obtained by contacting Mrs. Charles W. Gulf of 2087 Kralage Court, Union Lake.

Memorial Baptist

New pastor, Rev. Duane Lindsay, formerly of Reading, will be speaking at the 11 a.m. and 7 p.m. services at Memorial Baptist Church.

Church of Christ Sets Youth Rally

Waterford Church of Christ is sponsoring a youth rally starting at 4 p.m. today and continuing Sunday. The young people will take charge of the 10 a.m. service, and will be honored guests at a congregation-sponsored pot luck dinner to be given at 12:30 p.m.

Two speakers will address the youngsters Saturday evening and again on Sunday.

St. Mark's Lutheran Church

St. Mark's Lutheran Church on Commerce Road in Union Lake will host Wednesday's day-long fall rally of the Lutheran Women's Missionary League, Pontiac zone. Luncheon will be served at noon.

The rally will open with registration and coffee at 9:30 a.m. Theme of the day will be "Grace, Glory and Gratitude."

Rev. Carl E. Lutz, pastor of St. Paul's Lutheran Church in Pontiac will be the guest speaker for the afternoon session. He will show slides and describe his eight years of experience as a missionary in the Philippines.

Life as Missionary Is Topic

Why I Go to Church

(EDITOR'S NOTE — This is the 18th in a series of articles written by Pontiac area citizens.)

By F. JAMES McDONALD
A General Motors Vice President and
General Manager, Pontiac Motor Division

Our world is filled with challenges and opportunities. This is as it has always been. If we seemingly have more problems today than in the past, it could well be the result of the world collectively spending less time meditating on our purpose for being here.

I believe that God has given us life on earth so we can earn a place with Him in eternity. With today's multitude of pleasures, anxieties and interests it is easy to become distracted from this life's objective.

A church environment offers the best opportunity to mentally set aside these worldly distractions. We must use our God-given talents to the best of our ability in the pursuit of a better life on earth for all. We must do this without becoming entangled in purely materialistic goals. This requires continual re-evaluation of our endeavors. Weekly church offers the opportunity for this continual re-evaluation.

F. JAMES McDONALD

Atonement Sets Activities for Coming Week

Pastor Crea Miller Clark will preach the third in a series of sermons on "The Vows We Take" Sunday at 10:45 a.m. in Church of the Atonement, United Presbyterian, 3535 Clintonville Road.

Members of the Youth Fellowship and friends will collect money for UNICEF beginning at 4:30 p.m., returning to the Church for refreshments.

At 6:30 p.m., participants in the South Dakota Work Camp will show slides and discuss their experiences.

The Women's Rebekah Circle will meet at 8 p.m. Monday at the minister's home on Clintonville Road.

Marks 25th Anniversary

Christ Lutheran Church of School until the new church Waterford Township will building was dedicated on May observe its 25th anniversary 15, 1949.

Tonight and tomorrow, a banquet will be held in the church parlor at 6:30 tonight with Pastor Arvid E. Anderson, who served the congregation from 1956, providing seating for more than 450 with ample room for Sunday School classes and offices.

When Rev. Anderson left after 11 years of service, the congregation had grown to a baptized membership of over 1,000. Rev. Wayne E. Peterson, the present pastor, began his ministry in 1963. Since his arrival, the members have built a new parsonage on Norris Street and installed a Wicks Pipe Organ in the Church. The present membership is some 700 adults and almost 350 children.

Under Rev. Anderson's leadership, another new building was constructed in 1956, providing seating for more than 450 with ample room for Sunday School classes and offices.

Pastor Philip A. Jordan of Fremont, Calif., who served as first pastor from 1945 to 1949, returns to the church to address a special message to the congregation on "Unchanging Mission," at Sunday's 11 a.m. worship service.

Special music will be provided by the choirs under direction of Ann Peterson and Mrs. John Wiley. Rev. Anderson will deliver a special greeting.

Two informal fellowship hours, at 6 p.m. Saturday and following the service Sunday, will give members opportunity to visit with the former pastors and their wives.

Christ Lutheran Church was organized Oct. 23, 1944, at the old Community Activities building. The charter membership roll included 59 adults and 28 children. Under Pastor Jordan's leadership, the congregation purchased property at Airport and Williams Lake Roads and began to plan the construction of a first unit building.

In 1947, a disastrous fire completely destroyed the old CAI building and all church furnishings and equipment were lost. Thereafter, the congregation met at the Williams Lake

Christ Lutheran Church of School until the new church Waterford Township will building was dedicated on May observe its 25th anniversary 15, 1949.

It's Oldsters' Day at Silvercrest Baptist

Dr. John Hunter pastor of Silvercrest Baptist Church, has named Sunday "Senior Citizen Day" in the church.

Congregation members will pick up their guests from area nursing homes, in cars and buses, for transportation to the morning service.

Every guest will be under the supervision of men and women prepared to do the job.

Patients in wheel chairs will be taken care of in small 10-passenger buses.

Each senior citizen attending will be recognized with a gift of recognition from Rev. Leland Lloyd, and there will be special director of Christian education.

Arrangements are under the direction of Rev. Leland Lloyd, and there will be special director of Christian education.

SENIOR CITIZENS DAY — Residents of area nursing homes will be the guests of the congregation of Silvercrest Baptist Church Sunday morning. Shown, (standing, from left), are Rev. and Mrs. Leland Lloyd, assistant minister of the church and his wife, and Mrs. Marian M. Curtis, activity director of the Bloomfield Nursing Center on Square Lake Road. Patients are (from left) Mrs. Lila Vanuyl, Mrs. Buelah King and Mrs. Elsie Dill.

Guest Speaker

Fred Kendal, long-time director of Israel's Remnant, an evangelical witness among the Jews in the Detroit area, will speak at the 11 a.m. service Sunday in Union Lake Baptist Church.

MEMORY TIME — Rev. Wayne E. Peterson, (right) pastor of Christ Lutheran Church of Waterford Township, shows charter member Donald J. Beedle of Milford and Mrs. Effie Cobb of Eason Street, an old picture of the first unit of the church which was constructed in 1949. Mrs. Cobb is on the committee for the 25th anniversary observance taking place today and tomorrow.

Meeting Moratorium Eyed by Methodists

By LOUIS CASSELS
United Press International
The program council of the United Methodist Church has struck a blow for economy in an area where churches are notoriously prodigal spenders.
It has formally recommended that America's second largest Protestant denomination suspend all national conventions, convocations and consultations for a period of 31 months beginning next May 1.
The proposal will be brought before the 1970 Methodist General Conference. Recommendations of the program council carry a lot of weight, since it is the denomination's top coordinating unit.
The idea of a moratorium on church meetings — other than those required to transact the official business of the denomination — was advanced two years ago by Methodist Bishop Gerald Kennedy of Los Angeles.

HEAVY EXPENSES INVOLVED
He pointed out that heavy expenses are involved in bringing together delegates from all parts of the country to spend from three days to a week talking about some issue of current concern.
Various agencies and boards of the United Methodist Church sponsor about 10 such meetings a year, on the average.
Bishop Kennedy calculated that the church could save nearly \$2.5 million annually by curbing the ecclesiastical propensity for meeting, making

speeches and passing resolutions.

Scientific Prayer

Before men could fly the first airplane, they had to do more than want to fly, they had to learn the laws of flight to set them free from the earth.
Similarly, when men pray and seem to receive no answer, can it be that they have something first to learn about prayer . . . and about the benevolent laws of God?
Hear Harold Rogers, C.S., of The Christian Science Board of Lectureship, speak on "Scientific Prayer."
You and your friends are most welcome to this free lecture.

22 years of evangelistic work, are now at home at 1230 Nancywood, Waterford Township. From 1943 to 1947, Hawkins was pastor of the Church of Christ located at East Pike and Tasmania in Pontiac.

Worship, Study, Fun on Unitarians' Schedule

A number of activities are scheduled this week at Birmingham Unitarian Church, 651 Woodward Avenue, in addition to the worship services at 9:30 and 11:15 a.m. tomorrow.

The final gathering at the coffee house is scheduled tonight from 8 to 12 p.m. Tomorrow the religious education department will hold

its fall family festival — an afternoon of fun which includes square dancing and a pumpkin decorating contest — from 3 to 5 p.m. Baby sitting service will be provided in the nursery.

At 8 p.m. Sunday, newcomers will gather at the home of Mr. and Mrs. Audrey Meister, 48 Manor Road, Birmingham. Associate minister Stanley Stefancic and others will be present to answer questions concerning Unitarianism and the church.

The issues study group will hold its next meeting on Thursday at 12:45 p.m. The topic under discussion will be "Abortion and Women's Rights."

Witnesses in Seminar at Lapeer

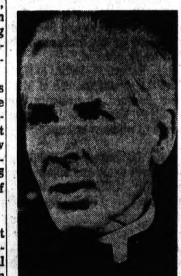

Local Jehovah's Witnesses are attending a three-day religious seminar at Lapeer High School, which began Friday, evening and will continue through Sunday.

The meeting is sponsored by the Watchtower Bible and Tract Society of New York and carries as its theme, "The Right Kind of Ministers."

Angelo Catanzaro, district minister, is serving as convention chairman and principal speaker. Catanzaro has been associated with the Watchtower Society since 1935. He has served as a traveling minister and convention speaker in 28 states.

A ministry school, talks and demonstrations with appropriate counsel from Catanzaro, are planned to assist Witnesses in their preaching activities.

Today will feature a mass baptism by immersion of new candidates for the Christian ministry. At 2 p.m. Sunday, Catanzaro will deliver an address entitled "True Worship Versus the False." All sessions are free and open to the public.

BISHOP FULTON J. SHEEN

Sheen Resigns as Bishop of Rochester

NEW YORK (U.P.) — "The retirement was dictated by spiritual considerations, and so desire to motion at the same time that the best could not catch hold."

The "moment of return" came last week when he resigned as Roman Catholic Bishop of Rochester, to go back to New York City and television, preaching, writing, and working more than ever for the poor.

During his three years in Rochester, Sheen, now 74, ran into frequent criticism of his methods. Conservative Catholics complained he was changing too many things. Progressives, including many Rochester priests, felt he put so many new ideas into motion at the same time that the best could not catch hold.

"I move too fast. I'm too progressive," he admits. Except for saying that he will set up an office in Manhattan and that a new television contract is being negotiated, Bishop Sheen has kept to himself for the moment the details of his future plans.

Christian Scientist to Lecture Here

Harold Rogers, C.S., Christian Science practitioner and former arts-entertainment and music Editor of The Christian Science Monitor, will lecture at 4 p.m. in First Church of Christ, Scientist, 164 West Lawrence Street, on Nov. 1.

Coming to a knowledge of God through scientific healing prayer is to be the subject of his talk. Rogers received his education at the University of the Pacific in Stockton, Calif., and at the Juillard School of Music in New York City.

He turned to Christian Science following an automobile accident during his college days. In was announced recently that a Polish translation of Science and Health with Key to the Scriptures, by Mary Baker Eddy, founder of Christian Science, was published on Oct. 3.

The book is printed with English and Polish texts on

facing pages, a format used for all translations of Mrs. Eddy's Books.

Full Schedule of Activities

The Women's Association of First Presbyterian Church is sponsoring a sold luncheon, card party and boutique in the Church dining room on Nov. 5 at 12:30 p.m.

Tickets may be obtained by contacting members of the women's group or from Mrs. Douglas Booth or Mrs. A. J. Warwick.

The Pioneer Fellowship is taking part in the annual UNICEF trick or treat canvass. The Good Fellowship Group will meet at noon Nov. 7 in the Church dining room for a pot luck luncheon and traveleque.

Baptist Minister Limits Speeches

HIGH POINT, N.C. (UPI) — One of the nation's most requested public speakers, the Rev. Tom Haggal, a Baptist minister, says he never speaks longer than 45 minutes.

"People can't be as attentive after than," Rev. Haggal, who makes about 1,000 speeches around the country, explained.

EVANGELIST HERE—Gingelville Church of Christ, 4193 Baldwin Road, will be the site of a series of gospel sermons by evangelist Gene Frost of Cullman, Ala. Services will start each evening at 7:30, beginning Monday and continuing through Nov. 2. Sunday's schedule is at 9:45 a.m. and 6 p.m.

Dance Proceeds to Building Fund

The building fund of St. George Greek Orthodox Church will benefit from the proceeds of the annual fall dinner-dance sponsored by the Board of Trustees.

The affair will be held tonight in the Kingsley Inn Ballroom, with dinner at 7 p.m., followed by dancing to the music of the Evyankas, a Greek-American band from Cleveland, Ohio.

Shipments of clothing, toys and treats to be sent to the Phuc-Thien Orphanage and villagers in An Khe, South Vietnam, will be topped off by the appearance of Santa Claus in the village this Christmas. Mrs. John Handley (at left) of Birmingham, has provided the suit. At right is Mrs. Charles Toby, chairman of the project; center is Mrs. Robert Hoehn, coworker in the drive, both of St. Joseph Street, West Bloomfield Township.

Aid for Orphanage

Jaycettes Set Drive for Viet

The nine chapters of District 12 Jaycee Auxiliary are initiating a drive for clothing and supplies for the Phuc-Thien Orphanage and the villagers in An Khe, Vietnam.

The need of these people was brought to the attention of local persons by Army Sgt. John Handley Jr., while home on leave some weeks ago. He has since returned to duty in a civil pacification program with headquarters in An Khe.

There are 63 children in the orphanage. Sgt. Handley said that medical supplies and food can be obtained, but that otherwise the children and villagers have virtually nothing. Jaycette chapters taking part are in

the Auburn Heights, Clarkston, Davisburg, Holly, Orion area, Ortonville, Pontiac, Rochester and Waterford. Each area will have a drop-off station. Any of the Ogg Cleaners may be used as a drop-off station, plus the National Guard Armory in Pontiac.

Jaycettes are requesting donations of clothing in the 3-10 size range, including light-weight jackets. Perfect condition is not required as the older girls in the orphanage will mend useable articles.

CANDY, TOO

Books, puzzles, games, toys, wrapped candy, pens, pencils, writing paper, chalk, scrap materials, needles and thread, are other suggested items.

The shipping deadline is Nov. 15, for pre-Christmas arrival. Donations to defray shipping costs may be sent to Pontiac Jaycee Auxiliary, in care of Mrs. Charles Toby, general chairman of the drive, at her St. Joseph Street address.

Calendar

MONDAY

Pontiac Area Mothers of Twins Club, 10:30 a.m., Broadway Avenue home of Mrs. Jerry D. Hockey.

Pontiac University of Michigan Alumnae Club, 6:30 p.m., Omega Road home of Miss Iana C. Hook. Cooperative dinner.

TUESDAY

Kappa Delta Sorority, 12:15 p.m., Detroit Institute of Arts. Luncheon and tour.

Oakland County Dental Hygienists' Society, 7:30 p.m., S.S. White Caulkins Building in Southfield. Expert from University of Detroit on treatment of dental disease.

Avalonide Band Boosters Club, 8 p.m., Avalonide Junior High School. Parents are requested to bring their children's instruments.

Pill Is Problem for Youth, Parents

NEW YORK (UPI) — Even in the absence of parental consent doctors should prescribe contraceptives for sexually involved teen-agers who consult them, according to four faculty members of the University of Washington Medical School in Seattle.

They urged this course on the profession in the new issue of the influential journal, "Postgraduate Medicine."

"Although the teen-ager should be encouraged to seek parental consent, the physician should try to manage the situation so that the patient's suffering is minimized."

"We feel that unwanted pregnancy is a disease, a disease with consequences that affect every level of society."

The urgers were Dr. Nathaniel N. Wagner, associate professor of psychology and psychiatry; Dr. Ronald J. Pion, director of family planning and education in the school's department of Obstetrics and Gynecology, and Pion's research assistants, Nina Perthou and Byron Fujita.

There are no grounds for fearing lawsuits by parents who have not consented to their teen-agers getting contraceptives, in their view.

"If such a case is brought to court, a logical argument can be made for a legal finding that a teen-ager old enough to be sexually involved and to seek medical assistance is old enough to be considered responsible."

Keep Smiling When People Gush at Baby

By ELIZABETH L. POST
Of the Emily Post Institute

Dear Mrs. Post: I have an exceptionally beautiful eight-month-old baby and I am very proud of her. My problem is that wherever I take her she is complimented constantly, and I just don't know what to say. Of course I say "thank you," but sometimes the same person will compliment her five or six times.

Also, when I walk on the street, passing people will say something — not directly to me, but loud enough so that I can hear it. hat do I do then, just act as if I didn't hear them and keep going? It's a wonderful problem I know, but how can I answer these people without feeling foolish? — Mrs. R.S.

Dear Mrs. S.: If all problems were as pleasant as yours, I would be out of a job!

For the time being just smile, say "thanks," or "You're so nice to say so." When you overhear complimentary remarks not directed to you, simply smile broadly and look as proud as you are.

Later on, as she understands more, for the baby's benefit, you must try to stop the flow of compliments or she will inevitably be "spoiled" or made conceited by the constant flattery.

When compliments are repeated over and over, don't try to answer each one. Just acknowledge the first, and smile happily at the others.

Dear Mrs. Post: Is it proper for a young clergyman (35) to remain seated when a 71-year-old lady member of his church enters the room? He is there to call on her because she has been ill. — "Puzzled"

Dear "Puzzled": No. Any 35-year-old man should rise when an elderly lady enters the room, no matter who he is or for what reason he is there.

Public Pressure Rids Baby Foods of MSG

WASHINGTON (AP) — Three companies say they will discontinue use of monosodium glutamate MSG, in their baby foods although they believe the current public concern over whether it poses a threat to the health of infants is unwarranted.

Gerber Products Co., Beech Nut Inc. and H. J. Heinz Co., all announced they will stop using MSG at least temporarily.

Dan Gerber, chief executive of the nation's largest maker of baby food, insisted Friday that MSG "is a safe and wholesome ingredient in baby food" but his firm was stopping use of the additive "because a tremendous amount of unwarranted publicity has served to confuse the consumer."

parent to doctors if the wearer is incontinent or unconscious.

VANITY

Watts attributes a great deal of the reluctance to wear the warning insignia to vanity. "The average homemaker won't wear the identification for the same reason that many Hollywood movie stars, who'll even donate their services to our organization, won't let it be known that they themselves are members. People just hate to admit they're not Mr. or Miss or Mrs. Perfect."

That explains why the necklaces, which can be worn under one's clothes, are so much more popular than the bracelets. Watts said that women often order the bracelet, and then inform him that they don't wear it because "it's so conspicuous and it doesn't complement my outfit." So the organization has fashioned a gold bracelet, which will contain the necessary medical warning.

Watts believes that the major problem facing Medic Alert is educating the public. He backs up his claim that 40 million Americans should be wearing this emergency identification by citing statistics that:

- There are 1,800,000 epileptics, as well as diabetics, who can mistakenly be taken for drunk when ill.

- Ten million heart patients take anticoagulants which must be counteracted by other drugs in order to prevent excessive bleeding in an accident. Other heart patients are vulnerable to common anesthetics, stimulants and sedatives.

- About 10 per cent of the U.S. population is allergic to horse serum, also given routinely to accident victims.

Watts, in New York from Foundation headquarters in Turlock, Calif., to make plans for the first national organ transplant information center, emphasize that Medic Alert is primarily an information center and that is the role it will play in the organ bank.

"It is the only vehicle endorsed by the A.M.A. that will put the donor in touch with the donee. It alerts your wish to someone in a hospital emergency room."

The organization is staffed around the clock, and information, including detailed medical records, names of physicians and a list of kin on each member is available to doctors and other authorized personnel 24 hours a day via collect telephone call.

New Mom Gets Message About Keeping Up House

By ABIGAIL VAN BUREN

DEAR ABBY: I was one of those sloppy housekeepers who never seemed to get her housework done. I could sit for hours, day-dreaming, and when my husband came home from work, the house looked about the same as when he left, or worse!

Gary never complained, so for four years we lived in a pippen, whether I was working or not.

Finally I became pregnant, and when the day came for me to go to the hospital I left behind dirty dishes from three days, an oven full of dirty pots and pans which had been "hidden" there for weeks, and soiled clothing piled high to the ceiling right next to my new washer-dryer.

This is only a partial description, but it will give you an idea of what a lousy housekeeper I was.

I realize this is long, Abby, but I'm sure it describes many homes from Boston to San Francisco, and I want to be sure these lazy women recognize themselves.

Well, I am sending you a copy of the letter my mother wrote to me while she stayed at my house when I was in the hospital. Perhaps if you print it, it will wake up some other lazy wives. It sure did wake me up. And though it's been two years, her letter has been read and re-read and cherished. I am still ashamed of my old habits, I've changed the names, so free to print it as it is.

"Dear Lisa,

Just a note between us girls. I am cleaning your house today so you won't have so much to do when you come home.

Now you're probably saying, "Gee, that's sure nice of you Mom, I didn't ask you to." Well, the truth of it is, you didn't. But I wanted to, and it sure needed it. But that is all in the past. Let's look at the future.

"Dear Lisa,

You are now a mother, and it's time you became a housekeeper, so get busy! If Gary made you a living the way you keep house, you would starve to death. He does his job well, and you should start doing your job, too. Okay?

If you're tired, talk to your doctor. If you're too lazy, talk to yourself. You may say, "Mom, you have no right to say this!" I say, "Oh, yes, I have. It's a mother's right."

Your house is spotless now. Keep it that way! And when you get over being mad, make a pot of coffee and invite me over.

All my love, MOM"

DEAR ABBY: Recently I was asked to baby-sit (without pay) with my daughter's children while she and her husband went out for dinner.

I went directly to their house from work, thinking that was what they expected. When I got there I noticed she had TV dinners ready for the children, but nothing for me, so I went home (only a few blocks away), got myself a bite and brought it back and sat with the children. They ate their dinners and part of mine! All the while, their mother looked on.

I must have spoiled this daughter more than I know, for her to be so thoughtless. What can I do now, if anything? Ask her to feed me next time, too? Or am I too sensitive?

DEAR GRANDMA: It's difficult to believe that a daughter could be that thoughtless, but if you're in, tell her the next time she asks you to sit she should be prepared to feed you.

DEAR ABBY: When being introduced to a person, is it okay to say, "I have certainly heard a lot about you?"

RON
DEAR RON: It all depends on what you've heard.

Everybody has a problem. What's yours? For a personal reply write to Abby in care of The Pontiac Press, Dept. E-600, P.O. Box 9, Pontiac, Mich. 48056 and enclose a stamped, self-addressed envelope.

Hate to write letters? Send \$1 to Abby in care of The Pontiac Press, Dept. E-600, P.O. Box 9, Pontiac, Mich. 48056, for the booklet, "How to Write Letters for All Occasions."

Horse Fanciers Have Their Ball at Metamora Hunt

By SHIRLEY GRAY

A few horse-fanciers from hereabouts are going to have a ball tonight, after some hot and dusty competition in the Metamora Hunter Trails. Among those at the evening gala, a formal affair at Metamora Hunt, will be Karl and Barbara Aronson, from San Francisco, the St. James, Humphreys and Mr. and Mrs. Albert Hastings, all of Bloomfield Hills.

The Robert Dows, the Alvin Wassermans, the Robert Lambs and Mr. and Mrs. Walter McPhail will be there from Birmingham.

Others are Mr. and Mrs. Irving Goldman of Franklin and the Warren Packards of Troy, whose daughter Lisa is among those competing.

Barbara Aronson, cochairman of the ball with Mrs. Troy Mashmeyer of Grosse Pointe, will take part in the trials, as will Mrs. Dow and Goldman.

Mr. and Mrs. Thomas E. Wilson of Bloomfield Hills will have a very special weekend guest with them, their son Tom Jr., a U.S. Army captain. Tom, who finished his stint in Vietnam in August, will dash home from San Francisco, where he based for the remainder of his tour of duty, and back again Monday.

The senior Wilson is one of the joint masters of the Metamora Hunt, sharing honors with Edward C. Parker of Metamora.

DINNER-DANCE

The Friday night dinner dance at the Village Woman's Club was a sort of "sing for your supper" party. There was a Sing Along on the agenda, with shaky sopranos and tremulous tenors following the firm lead of Steven Hauser on loan from the Grunays.

Mr. and Mrs. J. C. Siegmund Jr. are chairmen.

Public Pressure Rids Baby Foods of MSG

A spokesman for Beech Nut said the company will stop using MSG in all products "pending the outcome of the studies just initiated by the Food and Drug Administration."

The Heinz spokesman, voicing "full confidence that the industry use of MSG will be vindicated by more accurate and scientific findings than those now available," announced its decision to discontinue use of MSG "in deference to public concern."

SENATORS SPEAK OUT

Early Friday, two senators called for restrictions on use of MSG.

Sen. George S. McGovern, D-S.D., said that until questions about the additive are resolved it "should be removed from baby food or the amounts in baby food drastically reduced."

Sen. Robert C. Byrd, D-W. Va., said the FDA should ban use of MSG in baby foods because experiments indicate the additive "may pose a threat to the health of millions of infants."

Byrd contended the additive has no nutritional value and apparently is added only "to titillate the taste buds of mothers."

Cosmonaut's Son Dates U.S. Girl While Soviets Enjoy Tour of Disneyland

ANAHEIM, Calif. (AP) — A visit to Disneyland proved to be extra-special for Viktor Beregovoy, 19-year-old son of Soviet cosmonaut Georgy Beregovoy.

The young man met Kathy Birk, 20, a Russian-speaking hostess at the amusement park, Friday and promptly dated her up for a party in the evening at the home of actor Kirk Douglas.

Then it was arranged for Miss Birk to accompany the family to San Diego—another stop on the American tour by two Russian space travelers and their party. Part of her mission will be to explain professional football to Viktor when they attend the Chargers game Sunday.

Kathy, born in Paris of Russian parents, calls it all "terrifically exciting."

Other members of the Soviet group appeared to find the full day at Disneyland elating also.

"I feel 25 years younger," said Viktor's father, a major general.

Beregovoy and fellow cosmonaut Konstantin Feoktistov, a civilian scientist, went through at least a dozen rides and exhibits—including a make-believe moon voyage.

'MOUSEKETEER' HATS

Although skies were cloudy, the Russians were in high spirits as they

Baby Doing 'Real Well' Though 3 Months Early

MUSKOGON, Mich. (UPI) — A tiny infant girl battling big odds was reported "doing real well" Friday in Muskegon General Hospital.

She is Faith Marie Casebolt, daughter of Mr. and Mrs. Donald Casebolt of Runt, Michigan, who weighed about one pound 10 days ago.

AP Wirephoto

Some of the fair sex got a go at Britain's first women's pipe smoke-in at London's Festival Hall recently. From left are Lindsay Duguid, 21, of Southampton and June Blackledge, 18, of Prescot, England. Needless to say, the demonstration of various style pipes was sponsored by a British tobacco company.

MRS. WAKEFIELD

MRS. MULLINS JR.

Couples Say Vows

Shelley Dahn carried a bouquet of chrysanthemums with roses as she was escorted to the altar of St. George's Episcopal Church in Milford for her marriage recently to Kirk Wakefield.

The church parish house was the setting for the reception honoring the newlyweds.

Patricia Acree and Mike Lamphere stood with the couple as honor attendants.

Gowned in satin with Venetian lace, the bride is the daughter of Mr. and Mrs. Charles Dahn of Highland.

The son of Mr. and Mrs. Robert Wakefield, also of Highland, and his bride are honeymooning in northern Michigan.

MULLINS-FENTON

Suzanne Fenton carried a bouquet of roses, carnation, Stephanotis and lily for her wedding recently to Paul E. Mullins Jr.

The couple was feted at a reception in the Clarkston Golf Club following the nuptials.

Mrs. Curtis Arnold was matron of honor for the bride who was gowning in peau de soie with seed pearls.

James Munsell attended the bridegroom as best man.

The son of Mr. and Mrs. Paul Mullins of Mahopac Drive,

Orion Township and his bride, are honeymooning in northern Michigan and Canada.

Parents of the bride are Mr. and Mrs. James J. Fenton of Chamberlain Street, Orion Township.

AVIS-WITT

Gail Marie Witt and Dennis Lee Avis were married recently in Evangel Temple. They greeted guests at a reception in the Knights of Pythias Hall.

Vera and John Andritsis were maid of honor and best man for the couple.

Parents of the newlyweds are Mr. and Mrs. Harold Witt of Augusta Avenue and Mr. and Mrs. Lester Avis of North Opdyke Road, Bloomfield Township.

Gold Star Wives Have Tea Today

The Midwest Regional Gold Star Wives of America, Inc. is slating a tea on Saturday from 2-5 p.m. in the Melgs Road home of Mrs. Richard E. Caswell.

The group is formed to assist widows of servicemen who died on active duty within the past ten years. A special guest will be Mrs. Karen T. Sinitic of Chicago, regional president.

Room and Board Usually Major Costs

By ANNE TAYLOR

AP News Feature

Dear Miss Taylor: I have been offered room and board in a private home for the next two years at \$100 a month. After all my deductions for income tax, Social Security, hospitalization and so on, I have a take-home pay of \$320 a month.

I hope to save as much as possible in the next two years. I'm planning to keep my expenses to the minimum: no new clothes, very little for incidentals. My transportation amounts to \$20 a month.

Please advise me on how much I should allow for savings. How much for incidentals? A. S. Cleveland, Ohio

Dear Miss A. S.: You are fortunate to have your biggest budget items — food and housing — stabilized at a very fair rate. Even so, you better not pare your living expenses to the point you suggest. It may not be realistic. Have you looked at the way the Consumer Price Index is rising lately?

I hardly believe that any lady can avoid buying clothes from time to time no matter how firm her resolve. And besides, you should be prepared to spend about five per cent of your income for clothing upkeep and an occasional scarf or handkerchief. I suggest that you allow no more than 30 per cent of your monthly take-home pay for a savings program. That will give you about \$2,500 after two years a figure I feel you think is too low but which I think is realistic.

HOW TO SAVE

For a two-year crash savings program that you contemplate (and I hope you continue to save after that), buying U.S. Savings Bonds may not be the best course. Interest rates are relatively low for two-year periods.

Want Recipes

We have requests for two cookie recipes. One reader wants a recipe for "those big round molasses cookies, old-fashioned with an indentation for jelly in the center." The other wants one for buttermilk cookies.

Keep your requests and answers coming and we'll have a real swinging recipe exchange. Letters or cards only for the answers; we cannot take phone calls.

A savings bank would bring you a better return. And you should ask your bank about certificates of deposit that pay five per cent and which sometimes can be purchased in amounts as small as \$25.

Here's another option: Invest in a mutual fund, although be careful not to sign up for a long-term program. Ask a local broker to name a fund which has a consistently good record for five years and which has outperformed the popular market averages for the past six months.

After you receive the information, make the decision yourself. It's your money, and the broker's, a fact that too many people discover only when it comes time to pay the bills.

New Fabric Aid

A new fabric coordinate for the home seamstress is called Blazon. It is 100 per cent Acrilan bonded to acetate tricot. It looks like wool but washes like cotton. The manufacturer says it wears like iron. It is available in bright colors and patterns.

I'm Saving New Antiques for Future

By BETTY CANARY

I thought the flea markets were only a fad but, seemingly, nostalgia knows no bounds.

I go to them and look around and get sick just thinking about how rich I could have been. If only I had KNOWN.

One thing I think about is the collection my aunt started years ago. She started what I thought were remarkably ugly dishes (I still think so) called "gaudy willow." Today they would be worth a small fortune. She wanted to give me part of her collection and I turned her down with polite words and a snicker.

Actually, I'm not surprised the gaudy willow I refused turned out to be worth a fortune. After all, I'm the girl who bathed her Shirley Temple doll until the skin peeled off. And who else would have lost Two Mickey Mouse watches?

The marble-topped table my mother-in-law gave us when we were first married? Well, we took that old thing, threw the base into the trash heap and put wrought iron legs under the top.

I saw one like it last weekend. The price tag said \$275.

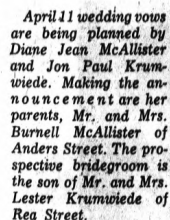

COOL FORTUNE

And those dishes my grandmother tried to force upon us when she moved into an apartment? I took some cups and saucers and my sister liked a soup tureen and a platter or two. But we told her to just give all those cheap glass things to the Salvation Army store. "But I think they are so pretty," she insisted. "Just take a few pieces." Not us. Who wanted any old carnival glass tumblers that now sell for \$3.50 each or the bowls that today are worth a cool \$35? I just try not to think about my mother's bottle collection. All those old bottles she'd picked up and saved because she thought they were "just darling."

Truthfully, I never thought I would grieve over throwing away my uncle's insulator collection when he died. We merely thought he was crazy. But, because his insanity manifested itself only in the collection of power-line insulators, nothing was ever out of personal Keep America Beautiful campaign. That's not insulators are now going for not a bad investment in itself.

Secondly, I believe saving the bottle instead of creating a mountain of broken glass will be an act of good citizenship, a kind of personal Keep America Beautiful campaign. That's not insulators are now going for not a bad investment in itself.

Secondly, I believe saving the bottle instead of creating a mountain of broken glass will be an act of good citizenship, a kind of personal Keep America Beautiful campaign. That's not insulators are now going for not a bad investment in itself.

April 11 wedding vows are being planned by Diane Jean McAllister and Jon Paul Krumwiede. Making the announcement are her parents, Mr. and Mrs. Burnell McAllister of Anders Street. The prospective bridegroom is the son of Mr. and Mrs. Lester Krumwiede of Rea Street.

Mr. and Mrs. William K. Prisk of Royal Oak announce the engagement of their daughter, Candice Lee, to Kenneth M. French. The prospective bridegroom is the son of Mr. and Mrs. Kenneth French of Shawnee Lane.

Oakland University students, Dana Jane Satterlee and Joel R. VanAmberg will marry. Her parents, Mr. and Mrs. Dane R. Satterlee of Grand Rapids announce the engagement and wedding plans. The prospective bridegroom is the son of Mr. and Mrs. H. K. VanAmberg of Utica.

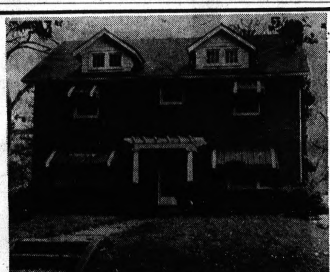

Mr. and Mrs. Lawrence Sanders of Whitfield Street announce the engagement of their daughter, Barbara Jean, to Gary Lee Noel. The prospective bridegroom is the son of Mrs. Oscar Noel of Cranberry Beach Boulevard, White Lake Township and the late Mr. Noel. Spring wedding vows are being planned.

Party pajamas arrive on the scene. These are from Biki of Milan. They are extraordinarily flattering, even for those who swear they will never wear pants. The pants are cut low, fit beautifully over the hips and then become very full. The top, also full, has long narrow sleeves closed with zippers at the wrist — another zipper is at the back neck. Make the bra top of the same fabric to complete the costume.

Choose from these fabrics: silk jersey, lawn, soft cottons, or one of the man made fabrics. NA-2040 is cut in Misses sizes 16. Size 12 requires approximately 4 1/2 yards of 45" fabric for 3 piece pajamas. To order: pattern NA-2040; state size, include name, address, and zip code. Send \$1.75 postpaid to SPADEA, Box N, Dept. PX-4, Milford, N.J. 08048. Tel.: 201-995-3201.

This re-cut, pre-perforated Spadea Designer Pattern is in ready-to-wear sizes that produce a better fit and are easier to make. Order normal ready-

FAMILY PLANNERS — Dr. George Comitis, director of family planning for the Office of Economic Opportunity, explains the OEO's family program at a Washington news conference yesterday. OEO Director Donald Rumsfeld (right) announced nearly a 50 per cent increase in funds allocated for the program.

WASHINGTON (AP) — The Office of Economic Opportunity has boosted by \$7 million the amount it will spend this year in its war against the population explosion. OEO Director Donald Rumsfeld announced Friday that the federal antipoverty agency will spend \$22 million in the year ending next June 30 to provide family planning services to millions of women who have not had previous help in limiting the number of their children.

Rumsfeld released a survey that showed family planning

services were available to nearly 5 1/2 million women in only 200 of the nation's 3,072 counties. The survey also said only one out of seven low-income women received family planning help in fiscal year 1968.

“Surveys have repeatedly indicated that poor women desire about the same number of chil-

dren as nonpoor women,” Rumsfeld said. “But because they generally do not have access to family planning services, the poor have many more children than the nonpoor.”

More than six million automobiles driven in the United States are at least 12 years old.

Troopers Switch

LANSING (AP)—State Troopers Dennis Beaudette, 37, Iron River, and Nelson Maydamacker, 26, Brighton, will switch assignments Nov. 9. The Michigan State Police office made the announcement Friday.

Mexico has 11,410 religious buildings dating from Spanish colonial times.

'Campus Strife' a Problem for the Colleges'

LAWRENCE, Kan. (AP) — Sen. Robert Griffin, R-Mich., said Friday night that “members of the faculty, the alumni and the student body of a college have to determine whether the campus is to be a center of learning or merely a battleground for rebellion and anarchy.”

Griffin, the minority whip in the senate, spoke at a Republican Federation of Women dinner.

He said that “while Congress can and must help” such problems as campus violence and some of the other social problems that cry out for solution, the government has a limited role to play.

Speaking at the home of the University of Kansas, where there was some student disorder last spring, Griffin said too many people engage in political pressure tactics rather than become involved in the nitty gritty of human problems.

NEW LAW AFFECTS VACATION CERTIFICATES

Tie-ins with real estate developers will have to be revealed to holders of “free vacation” certificates redeemable in Florida.

A new Florida state law requires promoters of “contests” offering vacations in Florida to tell “winners” whether they will have to listen to a spiel by a real estate developer as part of the price of the “free” vacation.

Nothing about the vacation available with the certificate is free. Even the certificate costs money, usually a \$15 “registration fee,” and is good only for several days’ room rent at a motel cooperating in the promotion.

Remember — you don't get something for nothing.

PNH Treats Homecoming Crowd by Halting Waterford

At Clarkston Field Tonight

F-Birds Favored Over Hawks

The Pontiac Firebirds will be concerned about what happens in Lansing tonight with the Dayton Colts, they may lose sight of the fact that their opponent, the Southwest Michigan Hawks, may be tougher than they realize.

The game at Clarkston High School Field has the Firebirds favored by 10 points over the team from the Benton Harbor-St. Joe area, but of any teams in the MFL, the Hawks are most capable of pulling an upset.

In their recent encounters with the division leaders, the Hawks battled their foes to a near stalemate for more than a half before falling.

Against Lansing two weeks ago,

the Hawks took a 7-0 lead and trailed at halftime 12-7 before losing 34-7.

This will be the final regular season home game for the Firebirds and what happens tonight in Lansing will decide any hopes for a Central Division playoff or MFL championship.

Lansing is a three point favorite to defeat Dayton, however the Colts could be fired up with the news from the league office that they have been awarded the protest against Lackawanna which used an ineligible player in their 36-36 deadlock last week.

This gives Dayton and Lackawanna the same 9-3 records and sets up a possible playoff in the Lakes Division.

There is no chance for both divisions to have playoffs however since the Firebirds must play Dayton next week and the winner will then be forced into a playoff within its division.

A capacity crowd of 2,500 is expected at Clarkston's field with the kickoff slated for 7:30 p.m. Gates will open at 6:15.

Doug Holcomb will start at quarterback for the Firebirds against Mickey Stewart, young quarterback from the Benton Harbor area. Former Michigan State runner who had a short trial with the Bears Mitch Prulett is a probable starter at running back for Southwest Michigan in place of Sam Ojnes, who is out with an injury.

Pontiac Press Photo

AIR ROUTE — Pontiac Northern quarterback Doug Talbott takes to the air early in the game to get the Huskies started on their 32-12 victory over Waterford last night. Talbott completed a 21-yard pass to Bruce Bennett on the Huskies' third play of the game. It came in a six-play, 80-yard series that produced PNH's first score.

Northern Up 30-0 at Half; Huskies Eye Record Season

By FLETCHER SPEARS
Coach Dave Schmidt of Pontiac Northern is happy. And why not. He and the Huskies are winning and they're en route to the school's finest football record.

But there's a bit of puzzlement even in winning for Schmidt.

SPEEDY START

For a half last night, the Huskies looked like world-beaters as they rolled to a 22-0 halftime lead over visiting Waterford, but they became mired in their own misuses in the second half and wound up with a 32-12 decision.

"I don't know," says Schmidt shaking

his head. "For two quarters we looked great. Then."

Same for the past several games. The Huskies have blitzed their opponents in the first two quarters and then it appeared the offense went home.

NO MATTER

But it hasn't mattered much. That's the thing about winning. The victory, before a large homecoming crowd, raised PNH's record in Inter-Lakes League play to 4-1 and its over-all mark to 5-2.

Wins in the club's last two games against Walled Lake Western and Pontiac Central would up the win-loss total to 7-2, bettering the previous best victory record of 6-3 in 1963.

The loss for Waterford was the fourth in league play and left the Skippers at 2-5 over-all.

UPS SERIES LEAD

Also on the statistical side, PNH claimed the Jimmy Dey Post No. 12 trophy for the seventh time in the 11-game series with Waterford. The Skippers have won three and the other was a tie. The 32 points was the highest total by either team in the series.

After a smooth first half, the second became a game of bobbles by both squads. For the game, the two fumbled 16 times — 9 by PNH — and the winners intercepted four passes.

CONVERT BOBBLES

Waterford's two scores came on PNH miscues. Fullback Craig Whistons scored both Skipper six-pointers. From his defensive end post, he moved into the PNH backfield in the third stanza, picked off an attempted lateral and romped 82 yards to a touchdown. In the fourth, he capped a 14-yard drive following a PNH fumble with a two-yard smash for the second tally.

Tom Holt, Al Nance and Jack Dunn provided the spark for the Huskies.

THREE SIX-POINTERS

Holt scored three times on runs of 3 and 11 yards and he hauled in a 43-yard pass for the other. Dunn tallied on a 21-yard scamper, while Nance scored 16 yards for the other PNH marker. Steve Humphrey booted two extra points.

Nance emerged as the top ground-gainer with 102 yards in 11 trips. Dunn was 70 in 10 tries, while Holt gained 53 on nine carries.

LEAD BLOCKING

Center Leo Garcia, guards John Hill and Jerry Vance along with Tom Bailey and Rich Redmond provided the blocking up front for the PNH speedsters, while Mario Castillo and Dave Guy led the defensive charge.

Waterford managed only 57 yards total offense against the stiff PNH defense.

Northern scored the first three times it had the ball. The Huskies went 80 yards in six plays in their first series with Dunn romping the final 21 yards.

Waterford fumbled on the second play following the kickoff and Northern went 26 yards in five plays, the payoff coming on Holt's three-yard run.

Defensive back John Smith intercepted the first of two passes to set up the third PNH tally. That was at the Waterford 16, and on second down from there, Nance rambled off the left side for the score.

Warriors' Air Game Too Much for Mott

The successful aerial show of Walled Lake Western will arrive here next week for a one-night stand against Pontiac Northern.

The Warriors of Western rode the accurate right arm of quarterback Roy Coomer to a 38-16 victory over Waterford Mott last night.

PNH NEXT

The triumph raised the warriors' record in their first year of competition to 6-1, and the squad will move onto the

WOLL Is Held to 14-14 Tie

Royal Oak St. Mary had to score a late third period touchdown in order to hold Waterford Our Lady of Lakes to a 14-14 tie game Friday night.

Both teams which had previously been tied for third place in the Northwest Parochial league, still find themselves deadlocked with identical 4-2-1 records.

The Irish took the initiative and scored in the opening period when Dan Columbo crashed his way over from the two yard line.

The run for the two point conversion failed leaving St. Mary's with a 6-0 lead going into the second quarter.

Laker quarterback Dave Calme connected on two scoring pass plays to end Pat McColligan, 40 and 14 yards, while Jim Tracey added the conversion run giving WOLL a 14-6 halftime edue.

Jim Columbo capped Royal Oak's 63-yard drive late in the third period with a five yard scoring run and then added the conversion to tie the game up.

Ex-Giants' Hurler Dies

BALTIMORE (UPI) — John Needles Bentley, who while pitching for the New York Giants lost the final game of the 1924 World Series to Walter Johnson, died Friday at the age of 74.

field at Wisner Stadium next Friday to test PNH.

Coomer, one of the area's candidates for All-State honors, had his usual productive night. He hit on 14 of 21 tosses for 263 yards and three touchdowns.

UPS PRODUCTION

The yardage brought his season total to 1,588, while the three scoring strikes hiked his season production to 17.

After a scoreless first quarter, Walled Lake pushed across 20 points and wound up with a 20-8 lead at intermission. The two traded six-pointers in the third and the Warriors wrapped it up with two touchdowns in the final stanza.

FIFTH LOSS

The loss for the Corsairs was their fifth in seven decisions.

Jim Diemling hooked up with Coomer to get the ball rolling in the second period for the Warriors.

After the 20-yard strike to Diemling, Paul Christian ran a two-point conversion and it was 8-0.

SQUARES COUNT

Mott came right back, however, with Terry Ruffatto picking off a Coomer pass and romping 41 yards for six points. A pass from Gerald McNair to Bruce Clifton knotted it at 8-8.

Then the Warriors pulled away. Bob Zacks, who has caught six touchdowns passes this season, pulled in a 33-yarder from Coomer, and Christian was on the receiving end of a 15-yarder shortly before halftime.

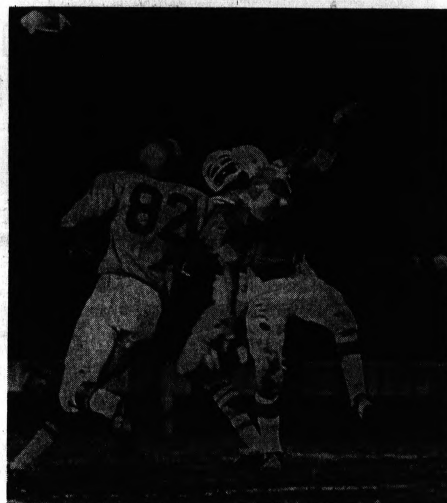

Jack Lewis raced in from two yards out to raise the count to 20-8 in the third, shortly before Mott's Charles Dohnner tallied on a three-yard run.

In the final frame, Coomer ran 22 yards for one score and Christian ramblled nine yards for the final tally. The offense-minded Warriors totaled 484 yards for the night while giving up 208.

Tie Breaks Tie in W-O Grid Race

Kettering Tops Wolves, 36-6, for 2nd Win

By DON VOGEL

Waterford Kettering's football team saw red last night. Instead of charging blindly ahead, the Captains played over a rain of penalty markers and fumbles to down winless Clarkston, 36-6, in a Wayne-Oakland League game.

Kettering was red-flagged 16 times for 205 yards in penalties. In addition, the Captains lost three of six fumbles and had two passes intercepted.

In between they rushed for 258 yards, passed for 120 more and the Kettering defense checked Clarkston with 16 yards and no first downs rushing. The Clarkston homecoming fans also had to suffer through six fumbles — two lost — and 93 penalty yards.

TWO TOUCHDOWNS

Bob Gratz led the Captains to their second victory against five setbacks by gaining 128 yards in 20 carries. The junior halfback scored two touchdowns on runs of five and two yards and also chucked up a pair of two-point conversion dashes.

Quarterback Paul Curry, whose ball handling and passing kept the Wolves' defense off balance, scored once from the 11; Dan Pillow punched across from the 10; and reserve quarterback Mike Myers scored from the three on the last play of the game as Kettering piled up 21 points in the fourth quarter.

Clarkston moved into contention once in the third period when quarterback Mark Swanson hit end Mark Walter with a six-yard touchdown pass to make the score 15-6.

Although the Wolves suffered their seventh setback, they had the defensive star of the game, Linebacker Bill Logan, a 5-10 and 195 senior, made tackles all over the field, punted, ran back a kickoff 19 yards, recovered a fumble and threw a pass that was dropped.

PASSING PROBLEM

Curry also had trouble with his receivers. He hit five of 14, but four others were dropped. He retailed by intercepting one Clarkston pass.

The Kettering defense, led by Rick Coloma, completely throttled Clarkston's ground game. The Wolves had a minus six yards rushing in the second half.

The height of futility for the Wolves came in the third period. Bob Rumble recovered a Kettering fumble on the Captains' 14.

Three running plays were stopped at the line of scrimmage and a fourth down pass was good for only seven yards. On the first Kettering play, the Captains again fumbled and the Wolves took over on the three.

The first running play lost five. Swanson gained two on a keeper and then connected with Walker in the end zone. It was Clarkston's last chance.

The Captains quickly came back by driving 68 yards in six plays with Curry sliding off tackle after a fake to Gratz that had the Wolves chasing the wrong player.

The next time the Captains got the ball, Curry hit end Jim Myers with a 24-yard pass to setup Pillow's 10-yard scoring run.

A recovered fumble by Coloma in the first period on the Clarkston 31 gave Kettering its opening scoring chance. Gratz finished the drive with runs of 21 and five yards. He scored again in the quarter after a fake punt by the Wolves failed. Gratz carried in from the 22 on two tries.

Clarkston's defense was in a shambles. Quarterback Jim Walker (Schultz pass from Walker) was intercepted by Jim Myers (Schultz pass from Walker) and a 10-yard run (Schultz pass from Walker) was intercepted by Jim Myers (Schultz pass from Walker).

Clarkston's defense was in a shambles. Quarterback Jim Walker (Schultz pass from Walker) was intercepted by Jim Myers (Schultz pass from Walker) and a 10-yard run (Schultz pass from Walker) was intercepted by Jim Myers (Schultz pass from Walker).

Clarkston's defense was in a shambles. Quarterback Jim Walker (Schultz pass from Walker) was intercepted by Jim Myers (Schultz pass from Walker) and a 10-yard run (Schultz pass from Walker) was intercepted by Jim Myers (Schultz pass from Walker).

Clarkston's defense was in a shambles. Quarterback Jim Walker (Schultz pass from Walker) was intercepted by Jim Myers (Schultz pass from Walker) and a 10-yard run (Schultz pass from Walker) was intercepted by Jim Myers (Schultz pass from Walker).

SHIFFY QUARTERBACK — West Bloomfield signal caller, Bill Bullock, (15) finds some running room as teammate Ron VanGorder (66) blocks out a would be Milford tackler. Blocks like this didn't come often enough as Milford held the Lakers to a 16-16 tie. Milford's Kerry Devine (65) comes from behind to help on the tackle.

Utica Wallops Oxford

Orion Whips Romeo

While Utica and Rochester Adams were wrapping up league victories, Lake Orion kept its second place position in the Oakland-A's north division by handing Romeo a 30-0 setback.

End Tom Perry gathered in a 24 yard pass from quarterback Ed Kubilius in the first period to open the Dragons scoring attack with fullback Jim Liebert making the conversion run.

Liebert climaxed Lake Orion drives of 55 and 48 yards with two one yard tallies in the second period giving the Dragons a 22-0 halftime lead.

Romeo, which couldn't build up enough offensive momentum to cross Lake Orion's 40 yard line, allowed Ron Allison to score the Dragons final touchdown on a one yard plunge in the third period.

Milford Stuns Lakers, 16-16; Andover Wins

A third period rally by Milford lessened West Bloomfield's chances of winning the Wayne-Oakland league grid tie outright as the Redskins held the high flying Lakers to a 16-16 tie game Friday night.

Though West Bloomfield remains undefeated in league play its title hopes were dimmed as Bloomfield Hills' Andover notched another victory by dumping Clarenceville, 36-22. Andover's seventh straight win gives it a 6-0 Oakland-A record while West Bloomfield is now 5-0-1.

The Lakers, who had went into the Milford contest tied with Bloomfield Hills Andover for the Wayne Oakland lead, each with 5-0 records, will now have to defeat the Redskins next Friday night in order to emerge as league champions.

The Lakers appeared to be headed for their sixth straight after holding a 16-0 halftime lead.

MILFORD BOUNCES BACK
Milford fired up and bounced back with two quick tallies within three minutes after the opening second half kick and almost scored again at the onset of the final quarter while stalling West Bloomfield's offensive efforts.

The Lakers scored their first touchdown on the second play from scrimmage when halfback Kim Woodruff drove off right tackle and rammed 73 yards for the tally.

John Huguel's conversion run made it 8-0.

With only 8:23 remaining in the first half, Huguel capped West Bloomfield's 66 yard drive by bulging his way over from the four yard marker to score.

Woodruff scored the conversion this time.

Milford turned the tables and on the Redskins first play after receiving the second half kickoff, Tom Newcombe took a pitch out around right end and dashed 85 yards to paydirt.

Matt Partridge ran his first of two all important two point conversions.

Less than a minute and a half later Milford struck again for its second touchdown.

The Lakers took Milford's kickoff and unable to move in four downs, attempted to punt from their own 29 yard line.

Defensive guard Roy Parks rushed in to block Laker Jim Hull's punt, the ball rolled free and the Redskins' defense yard line where Dave Parks scooped it up and dashed into the end zone.

BARONS ROLL
The Barons of Bloomfield Hills Andover rolled merrily towards the Wayne Oakland league football championship by dumping Clarenceville Friday night, 36-22.

Andover held only a 14-8 halftime lead, but roared back to score twice in the final quarter, one of which was nullified by a clipping penalty.

Howard Troy scored Andover's first touchdown on a 30 yard pass play from Roley early in the first period.

Roley scored next on a 77 yard keeper run with just a little over a minute remaining in the half.

In between Mike Duman had fired in a 11 yard scoring pass to Bob Weller while Chuck Kolozewski ran the conversion to keep Clarenceville in contention.

Lahser Now Awaits Utica

Adams Upsets Avondale, 14-8

Oakland-A Division
Champs to Meet

Bloomfield Hills Lahser, co-champions of the Southern Division of the Oakland-A Conference, gets ready for its showdown game next week with Utica, the Northern Division champ.

Lahser rolled over Rochester 20-0 with a minimum effort as Mike Atkins scored twice and Dan Damiani added another TD.

Rochester Adams meanwhile stunned Avondale 14-8 behind the running of Mike Hall in a Northern Division game.

A defeat for Adams would have pitted the new school in a cellar team playoff with Rochester, however in the playoffs as setup, Adams would play Madison or Troy, while Rochester would probably face Oxford.

Lahser scored in the opening period on an 80 yard march in 12 plays featured by a 38 yard run by Atkins in the series. Atkins went the last six yard and the conversion run failed.

LONG PASS
In the second period, a drive of 75 yards in seven plays helped by a 44 yard pass from Tom Cates to Bernie McPheeley, led to the Lahser TD with Atkins sweeping for the one yard.

After an interception by McPheeley on the Rochester 33 it took eight plays and Damiani scored from the two.

AVON LEADS
After Gary Perry scored on a two yard run and Al DeClerk ran for two points, Avondale had an 8-0 lead in the third quarter.

Mike Hall then raced 56 yards and made it 8-6 when the run for two points failed.

In the fourth quarter Hall went 36 yards and then ran the conversion to make it 14-8, and he had another long distance touchdown called back.

In 20 carries for the night Hall had 193 yards rushing. Avondale defense was a key factor in the first half, holding Adams inside the 15 three times.

GRID SPARKPLUGS — Guard-linebacker Bill Logan (left) of Clarkston and quarterback Paul Curry of Waterford Kettering turned in exceptional performances against each other last night. However, Curry had more support from his teammates and Kettering won the Wayne-Oakland League game, 36-6.

Richmond Holds Top in Southern Thumb

Unbeaten Richmond maintained its grasp on first place in the Southern Thumb league by dumping Almont 24-8.

The Blue Devils scored four touchdowns in the first half and added a two point safety in the third period as they ran their league mark to 5-0 while topping their overall standings to 6-1.

Dan Armstrong scored once each in the first and second periods on runs of one and seven yards, while Neil Evans and Jerry Carls added the other two markers.

Dale Schultz scored Almont's only touchdown on a 35 yard pass to Jim Walker, but gave up two points when he was trapped in his own endzone late in the third period.

Richmond's Jerry Clark led both teams in individual rushing yardage collecting 177 yards in 19 attempts.

Thurston Ices League Crown

Detroit Thurston wrapped up the Northwest Suburban grid Championship yesterday, clipping Wayne John Glenn, 20-14.

The victory kept the Eagles record unblemished as they finished their opening schedule with a 5-0 record and a 7-0 overall mark.

In other league play, Birmingham Groves took the measure of Oak Park, 28-14.

In action today, North Farmington takes on Livonia Franklin in a 2 p.m. tilt at the Patriots' field.

New Australian Leads at Sydney

SYDNEY, Australia (AP) — Guy Wolstenholme, a Briton who recently became an Australian, shot a second straight 71 and went into the halfway lead with a pair of Australians Friday in the Australian Open golf championship.

Wolstenholme was tied at 142, with Peter Thomson, who also had two 71s, and Bruce Devlin, 72-70.

Gary Player of South Africa was only one stroke behind with 74-69-143.

Lee Trevino, the former U.S. Open champion from El Paso, Tex., finished badly for a 73 that placed him five shots off the pace at 147.

S. Lyon Hikes Record to 4-3

With 28-14 Nod

South Lyon ran up a 16-8 lead at intermission and pushed across two more six-pointers in the third stanza last night in downing Milan, 28-14.

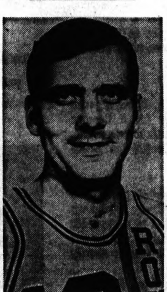

Brad Lloyd scored twice on runs of five and ten yards, while Dave Kochalko went over on a four-yard run and Jim Baran on a three-yard jump.

Dave Brandon led the South Lyon (43) ball-toters with 128 yards on 14 attempts.

Battle of Defensive Powers

Wounded Lions After Share of Division

The Minnesota Vikings, newly established National Football League powerhouse, gun for their fifth straight victory Sunday against the wounded Detroit Lions in a Central Division showdown.

The Vikings, 4-1, pit the NFL's leading defense and second most prolific offense against the Lions, 3-2 in the 2-3 p.m. EST game before more than 47,000 spectators at Metropolitan Stadium.

Injuries have ripped through Lions' ranks.

Six players who were on the bench when the season opened are in the starting lineup—quarterback Greg Landry, cornerback Bob Williams, flanker John Wright, fullback Larry Watkins, kicker Errol Mann and guard Frank Gallagher. Rookie running back

Albie Taylor also is expected to see action.

But coach Bud Grant of the Vikings fears a wounded animal.

"While the Lions are coming in wounded," he said, "it makes you a little wary. In spite of what we hear of their injuries, they give us problems and their typically strong defense is still intact."

The Vikings' defense, led by the bruising front of ends Jim Marshall - Carl Eller and tackle Gary Larsen-Alan Page, has allowed the least points in the league, 55, the least yardage, 1,016, least first downs, 59 lead touchdowns 7 and only one touchdown rushing.

Detroit's defense, featuring 255-pound tackle Alex Karras, isn't far behind — 72 points and 1,149 total yards.

Offensively, the Vikings have scored more points, 152, than any team in the league except the Kansas City Chiefs. Kicker Fritz Cox is the NFL season leader, 17 extra points and 11 field goals for 50 points.

Quarterback Joe Kapp has completed 58 of 114 passes, 50.9 per cent, for 502 yards and 10 touchdowns. Gene Washington, John Beasley and John Hen-

son each have caught three TD passes.

Running back Bill Brown, the team's leading rusher at 181 yards when the Vikings beat Detroit twice and won the Central Division title, returns to the lineup after missing two games with an ankle injury.

Grant says the Vikings are in better physical shape since the second exhibition game.

Landry, starting his fourth game in two seasons, led the Lions to a 13-7 victory over the Chicago Bears last Sunday. The 6-foot-4, 205-pounder completed nine of 21 passes for 121 yards and one touchdown and led rushers with 57 yards in five carries.

The top Detroit receivers are Charlie Sanders, 17 receptions for 254 yards, and Earl McCulloch, 10 for 133. Nick Eddy leads the rushers, 173 yards in 42 carries, none that Mel Farr is out for the season.

BIG PRODUCER — Pontiac Northern's Tom Holt (21) is carried by Waterford's Steve Mann (56) and an unidentified teammate in the first half of their game at Windsor Stadium last night. Holt scored three touchdowns to spark the Huskies to a 32-12 victory.

Rams, Cowboys After No. 6

Bears Start Rookie QB Again

CHICAGO (AP)—Rookie Bob Douglas is almost as big as Roman Gabriel.

But, after that, quarterback comparison figures to end abruptly in Sunday's National Football League clash between the winless Chicago Bears and unbeaten Los Angeles Rams.

The 6-foot-3, 215-pound Douglas makes his Wrigley Field debut as an unenviable field general rival to the 6-4, 220-pound Gabriel, who has directed the Rams to five straight victories and the Coastal Division lead.

Getting to Gabriel through such pass protectors as Bob Brown, Ken Innan, Charlie Cowan, Tom Mack and Joe Scelloni is one thing. And bringing him down, even when reached, is another.

OTHER GAMES

Dallas (5-0), the other unbeaten club in the NFL, will be at home to the New York Giants (3-2) in the lone Monday night game to be carried by the full television (CBS) network at 9:30 p.m. est. The Giants upset the big southpaw's jolting baptism

in a 13-7 loss to the Lions at Detroit last Sunday.

Douglas takes a puny NFL record of 4 completions on 9 passes for 41 yards and 1 touchdown against Gabriel's five-game mark of 1,053 yards and 11 TDs on 87 hits in 166 tosses.

Getting to Gabriel through such pass protectors as Bob Brown, Ken Innan, Charlie Cowan, Tom Mack and Joe Scelloni is one thing. And bringing him down, even when reached, is another.

State Drivers Hold Top Spots in Vulcan 500

FALLADEGA, Ala. (AP)—The \$50,000 Vulcan 500 stock car race at the Alabama Motor Speedway Sunday shapes up as a battle of the Carolinas against Michigan at speeds in excess of 190 miles per hour.

Top qualifier at 194.476 m.p.h. in trial runs this week was Jim Vandiver of Charlotte, N.C., in a 1969 Dodge. He'll be in the pole position.

In the No. 2 slot is Benny Parsons of Detroit. He qualified in a 1969 Ford at 193.610 m.p.h. Another Michigan driver, Ron Grana of Farmington, qualified for the third slot in a 1969 Ford at 191.610.

Completing the Carolina team is Tiny Lund, of Cross, S.C., who qualified in a 1967 Ford at 190.718.

Funeral Today for Former Yankee Hurler

HARTFORD, Conn. (AP)—A funeral service will be conducted Saturday for Walter "Monk" Dupiel, who pitched for the New York Yankees during the war years and later played with two other major league baseball teams.

Dupiel died Thursday in Hartford Hospital at the age of 51. He was a native of Hartford and lived here for 11 years in Unionville.

He broke into the majors by compiling a 13-13 record with the Yankees in 1944. After a 109 mark the following season, he played two years in the minors. One year with the Philadelphia Phillies and three with the Chicago Cubs.

Angels Obtain Reds' Pitcher

CINCINNATI (AP)—The California Angels Friday purchased Cincinnati Reds farmhand Mel Queen, who posted a 6-1 record with the Indianapolis Indians of the American Association this year.

Queen was 1-0 with the Reds early in the year before developing arm trouble and being sent to Indianapolis April 28. He was 1-0 with Cincinnati in 1967.

U.S.-Soviet Boxing Teams Start Competition Today

LAS VEGAS, Nev. (AP)—A young fighter with Joe Louis' striking style heads a team of Americans Saturday in amateur boxing competition with the Soviet Union.

David Matthews, 19, of Akron, Ohio, has won 62 of his 65 fights, 33 by knockout, with a shuffle that resembles the former heavyweight champion.

Kazoo Senior Golfer Ousted

PINEHURST, N.C. (AP)—Curtis Person of Memphis, Tenn., continued to dominate the field in the 18th annual North and South Senior Men's golf championship as he defeated Dr. John Mercer of Sarasota, Fla., Friday, 4 and 3, in the semifinal round.

After halving the first hole, defending champion Person won the next five. He collected a birdie on the third with a six-footer, then had two pars, before Mercer snatched back temporarily on the eighth with a birdie chip after halving the seventh.

In the final round Saturday Person plays David Goldman of Dallas, Tex., whom he has defeated in four of six previous meetings.

Goldman won Friday over Joel Shepherd of Kalamazoo, Mich., 4 and 3. Goldman bog-

Drag Racers Get Ready

DALLAS, Tex. (AP)—Three Californians turned the top times Friday as the nation's top dragsters warmed up for the National Hot Rod Association's World Finals this weekend.

Jim Nichol of Walnut Creek, Calif., driving a Dodge-powered car in the top fuel class, was clocked at 6.70 seconds for the quarter mile strip. His top end speed was 218.4 miles per hour.

Also entered in the top fuel class, Gerry Glenn of Panorama City, Calif., posted 6.74 seconds and a top speed of 218.97 m.p.h. while Tom McEwen of Long Beach, Calif., had a practice run of 6.90 seconds and 214.73 m.p.h.

Nichol, 22, is driving the car formerly assigned to Lee Roy Goldstein of Detroit. Goldstein was burned about the face in an accident a week ago and is out of action until next season.

The day's top speed was posted by Howdy Williams of Omaha, Neb., also in the top fuel class. He was clocked at 220.04 m.p.h. but his elapsed time of 6.86 seconds was lower than the others.

In the popular super stock class, representing the so-called Detroit "muscle" cars, Ronnie Fox of Burlington, N.C., posted a top time of 10.27 seconds and the day's best speed in that category, 125.54 m.p.h.

Omaha Hurler Called

KANSAS CITY, Mo. (UPI)—Paul Spittleroff, a 23-year-old left-hander who helped Omaha to the American Association championship last season, was called up Friday by the Kansas City Royals of the American league.

City Youth Is Injured in Crash; Driver Held

Richard E. Hensel, 18, is listed in poor condition at Pontiac General Hospital today with massive internal injuries as a result of a truck-car accident last midnight.

The driver of a dump truck which police say ran head-on into Hensel, of 49470 Peyton, is being held in Oakland County jail on charges of being drunk and disorderly.

The truck driver was identified as Ronnie D. Smith, 29, of

F.) Cowser, 74, of Royal Oak will be 10 a.m. Monday at Price Funeral Home, with burial in White Chapel Memorial Cemetery.

Mrs. Cowser died yesterday. Surviving are three daughters, Mrs. Orin Chapman and Mrs. Frances V. Toudale, both of Royal Oak, and Mrs. J. D. Thompson of Ferndale; one son, Charles L. of Royal Oak; two sisters; 10 grandchildren; and four great-grandchildren.

Mrs. Volmore Dallaire

ROCHESTER — Former resident Mrs. Volmore (Aline) Dallaire, 65, of Florida died today. Her body may be viewed tomorrow evening at Pitney Memorial Chapel.

Mrs. John J. Dudek

OAKLAND TOWNSHIP — Mrs. John J. (Mary A.) Dudek, 54, of 295 Predmore died yesterday. The body is at William R. Potere Funeral Home, Rochester.

Robert E. Lentz

HIGHLAND TOWNSHIP — Service for Robert E. Lentz, 37, of 2787 Lakeway, will be 1 p.m.

Death Takes Treasurer for Birmingham

Russell T. Berger, treasurer of the City of Birmingham, died yesterday. He was 64.

Service will be 3 p.m. Monday at the First Presbyterian Church of Birmingham, with burial in Roseland Park Cemetery, Berkeley, by Manley Bailey Funeral Home.

Surviving are his wife, Mabel, and two sisters, including Mrs. Frank Turcott of Birmingham.

Active in many civic affairs, Berger of 947 S. Bates, Birmingham, was a charter member of the Birmingham Lions Club and was a member of M A P E R S, Birmingham Historical Board, the Birmingham Historical Society and Phi Gamma Delta Fraternity. Berger was employed by the City of Birmingham for 34 years, 25 years as its treasurer.

Man Is Robbed of \$60, Pants in City Holdup

Joseph Sandler was robbed of \$60 and his pants yesterday morning in Pontiac.

Sandler of Oak Park told police that while parked at the corner of California and Franklin, he was approached by three youths, one of whom asked the time.

Wielding a broken pop bottle, the youths took Sandler's pants and \$60, according to police. Sandler gave police a description and license number of the three youths drove away in.

Two Rob Station in Waterford Twp.

A Waterford Township gasoline station was robbed of \$150 early today by two bandits, one of them carrying a gun.

Charles Grahl, an attendant at Chuck's Shell Station, 4790 Dixie, told township police the robbery entered the station shortly after 6 a.m. while he was alone.

They escaped north on the Dixie in an older model black Cadillac, possibly a 1965 model, Grahl told police.

He said the gunman carried a .38 caliber snubnose revolver.

Monday at the Richardson-Bird Funeral Home, Milford, with burial in Highland Cemetery.

Mr. Lentz died yesterday. He was an inspector at Numatics Inc., Highland Township.

He was a member of the F & A M Lodge 586, Livonia; Moslem Temple Cycle Patrol, Scottish Rite Lodge of Detroit and the Beaumont-Huron Valley Shrine Club.

Surviving are his wife Alice; four sons, Ronald, Larry, Richard and Robert D.; a daughter, Lois, all of Highland; his mother, Mrs. Mary Lentz; and one brother.

Baby Boy Preston

ORION TOWNSHIP — Graveside service for the infant son of Mr. and Mrs. Sidney Preston of 3816 Silver Valley was this morning at Hillcrest Cemetery, Onaway, by Chagnon Funeral Home, Onaway.

The infant died at birth Thursday.

Surviving are his parents; grandparents, Mr. and Mrs. Norbert Pauley of Onaway and Mr. and Mrs. Thomas Preston of Pontiac; and great-grandfather, Charles Bowles of Onaway.

Mrs. Lillian Rau

PONTIAC TOWNSHIP — Service for Mrs. Lillian Rau, 53, of 3130 Brookham will be 11 a.m. Monday at William R. Potere Funeral Home, Rochester, with burial in White Chapel Memorial Cemetery, Troy.

Mrs. Rau died yesterday. Surviving are one daughter, Miss Deborah Rau of Pontiac; two sons, John of Rochester and Lawrence of Pontiac; her father, Sam Vida of Columbus, Ohio; one sister; one brother; and one grandchild.

Mrs. Edward Starr

BLOOMFIELD TOWNSHIP — Private service for Mrs. Edward (Jane) Starr, 82, of 1759 Deer Run was to be 3 p.m. today at Manley Bailey Funeral Home, Birmingham, with burial in Rose Hill Cemetery, Chicago.

Mrs. Starr died yesterday. She was a member of Fifth Avenue Presbyterian Church of New York.

Surviving are one daughter, Mrs. Lee Terrill of Bloomfield Township; three grandchildren; and six great-grandchildren.

Mrs. Paul Weitzke

ORCHARD LAKE — Service for former resident Mrs. Paul (Dianne L.) Weitzke, 21, of East Lansing will be 3 p.m. Monday at the Richardson-Bird Funeral Home, Walled Lake, with burial in Oakland Hills Memorial Gardens, Novi.

She is survived by her parents, Mr. and Mrs. Herbert W. Huber; two brothers, Kenneth P. of Mason and Ronald of Orchard Lake; grandparents, A. C. Wheat of Walled Lake, Mrs. Esther Huber of Lakewood, Ohio, and Frederic Huber of Miami, Fla.

Chevy Van Work Leaving GM Truck

Chevy vans will be pulled out of GMC Truck and Coach Divisions operations in Pontiac when a new assembly plant for the lightweight trucks opens in Lordstown, Ohio.

The move is part of the effort of both GMC Truck and Coach and the Chevrolet Division to cooperate in an effort toward the end of duplicated production.

GMC Truck and Coach will confine its operations to assembling medium and heavy trucks of 14,000-pound capacity and more while the Chevrolet Division will handle the lightweight vehicles.

GMC Truck and Coach halted the assembly of pick-up trucks one year ago as the first phase of the division of responsibility.

News in Brief

Edward Morris, 24, of 506 Bay arrived home Tuesday afternoon to find that his home had been entered. Missing was a \$350 television set and a \$150 police investigation, according to Pontiac.

Lodge Calendar

Installation of Officers, Pontiac Chapter, No. 228, O.E.S., Monday, Oct. 27, 1969—8:00 p.m. at Roosevelt Temple, 22 State Street, Pontiac, Michigan.

Rail Passenger Service Cuts Not in Domain—ICC

CHICAGO (AP) — A survey by the Burlington railroad shows its commuters are smoking less and want to be isolated from fellow passengers who haven't kicked the habit, the railroad announced Thursday.

A spokesman for the Chicago, Burlington & Quincy Railroad Co. said the survey indicated 80 per cent of its commuter passengers prefer to ride in nonsmoking cars, so smoking will be permitted in fewer cars during rush hour. More than 5,000 of the route's 20,000 commuters responded to questionnaires, the spokesman said.

Big 3 Profit Picture Mixed in 3rd Quarter

DETROIT (AP) — With returns in from all the Big Three automakers, the third-quarter profit situation is sharply mixed.

Ford Motor Co. completed the picture Friday when it reported July-September profits of \$54 million, down 25 per cent from the \$78 million posted in the same period of last year.

Earlier, General Motors, the giant of the industry, reported third-quarter profits up 25 per cent while Chrysler Corp., No. 3 firm, said its earnings

were down 87 per cent for the period.

Board Chairman Henry Ford II attributed the decline in profits largely to "a nonrecurring charge of 15 cents a share associated with the discontinuance of a number of Philco-Ford's low-volume consumer products as well as higher labor and material costs."

For the first nine months of 1969, Ford reported profits of \$460 million, down from \$463 million last year.

Sales for the period were \$10.7 billion, up from \$10.2 billion in the first nine months of 1968. Third quarter sales were \$3.2 billion, up 21 per cent from the \$2.7 billion record in the July-September period last year.

The Comstock Lode yielded more than \$300 million in gold and silver in 20 years.

16-CENTS A SHARE
For the third quarter, Ford's profits fell to 50 cents a share from 66 cents in 1968.

Flint Strike Costs Hit \$2.8 Million

FLINT (AP) — General Motors Corp. announced Friday that wages lost because of a United Auto Workers strike at Flint have reached \$2.8 million.

The strike, over production standards, has also caused the loss of scheduled production of more than 21,000 Chevrolet Monte Carlos and Chevelles, said Alfred F. Platt, manager of the struck Fisher Body No. 2 plant.

NOTICE OF PUBLIC HEARING on a Proposed Ordinance

**HEARING DATE: TUESDAY,
OCTOBER 28, 1969 at 8 P.M.**

Notice is hereby given that a public hearing will be held by the Pontiac City Commission in the Commission Chambers, City Hall, 450 Wide Track Drive, East, Pontiac, Michigan on Tuesday, October 28,

ORDINANCE NO.

An Ordinance to provide minimum standards for Housing in the City of Pontiac, including single family, two-family, and multi-family dwellings, lodging and rooming houses, dormitories, and other structures, and to provide penalties and remedies for the violation thereof.

**Adopted:
Effective:
The City of Pontiac Ordains:**

City of Pontiac HOUSING CODE Article I General Provisions and Definitions

Section H-100.0 SCOPE

Short Title. This Ordinance shall be known and cited as the "City of Pontiac Housing Code" and is referred to herein as the "Housing Code" or "this Code."

Purpose. The purpose of this Code is to protect the public health, safety and welfare in buildings used for housing purposes as hereinafter provided:

1. Establishing minimum standards for basic equipment and facilities for light, ventilation, space heating, sanitation and safety from fire; for space, use and location; safe and sanitary conditions for cooking equipment in all dwellings in the City of Pontiac;
2. Placing the responsibilities of owners, operators and occupants of dwellings in the City of Pontiac;
3. Providing for administration, enforcement and penalties.

Minimum Covered. The provisions of the Housing Code shall apply to all structures used for human habitation which are now, or may become in the future sub-standard with respect to structure, protection against fire hazard, equipment or maintenance, inadequate provisions for light and air, lack of proper heating, sanitary conditions and overcrowding, or otherwise may be found to be a menace to the safety, health or welfare of their occupants. The existence of such conditions, factors or characteristics adversely affect public safety, health and welfare and lead to the continuation, extension and aggravation of urban blight, or constitute a menace to the public, therefore, requires the establishment and enforcement of these minimum housing standards.

Article I Definitions

Section H-100.0 SCOPE

Unless otherwise expressly stated, the following terms shall, for the purposes of this Code, have the meaning indicated in this article.

H-100.1 — **Interchangeability.** Words used in the present tense include the future; words in the masculine gender include the feminine and neuter; the singular number includes the plural and the plural the singular.

H-100.2 — **Terms Defined in Building Code.** Where terms are not defined in this article and are defined in the City of Pontiac Building Code, they shall have the meanings ascribed to them as in the Building Code or Zoning Ordinance.

H-100.3 — **Terms Not Defined.** Where terms are not defined under the provisions of this Code or under the provisions of the Building Code they shall have ascribed to them their ordinarily accepted meanings or such as the context herein may imply.

Section H-110.0 DEFINITIONS

Attic. An attic is a portion of a building situated partly or wholly in the roof space.

Approved. Approved as applied to a material, device, or method of construction shall mean approved by the building official or approved by the authority designated by this law to give approval to a material or method.

Basement. A portion of the building partly underground, but having less than half its clear height below the average grade of the adjoining ground (see cellar).

City of Pontiac Building Code. The Basic Building Code, latest edition and accumulative supplement issued by the Building Officials Conference of America, or such earlier edition and supplement thereof otherwise approved by the City Commission.

Boarding houses, Lodging house, Tourist house. Shall mean any dwelling occupied in such a manner that certain rooms are leased or rented to persons without any attempt to provide therein or therewith, cooking or kitchen accommodations for individuals leasing or renting rooms.

Building Official. The official designated by the City of Pontiac to enforce building, zoning, or similar laws, or his duly authorized representative.

Cellar. The portion of the building partly underground having less than more than half its clear height below the average grade of the adjoining ground.

Certificate of Compliance. A certificate issued by the building official indicating that a specific building is in compliance with all of the provisions of this Code and with all other codes and ordinances of the City of Pontiac containing requirements for dwellings.

One Family Dwellings: A building containing one dwelling unit with not more than 2 lodgers or boarders per family.

Two Family Dwellings: A building containing two dwelling units with not more than 2 lodgers or boarders per family.

Multi-Family Dwellings: A building containing more than two dwelling units.*

Dormitory: A building arranged or used for lodging (3 or more persons) and having common bath and bathroom facilities.

Hotel: A building arranged or used for sheltering, sleeping, or feeding, for compensation, for the accommodation of at least 50 guests.

Dwelling Unit: One or more rooms arranged for the use of one or more individuals living together as a single sleeping unit, with cooking, living, sanitary, and sleeping facilities.

Exterior Property Areas. The open space on the premises and on adjoining property under the control and management of the owner.

Extermination: The control and elimination of insects, rodents, or other pests by eliminating their harboring places by removing or making inaccessible materials that may serve as their food, by poison spraying, fumigating, trapping, or by any other approved methods.

Family: A group of persons related by blood, marriage, or adoption with and including the degree of first cousins.

Garbage: The animal, fish, fowl, fruit, and vegetable waste resulting from the handling, preparation, cooking and consumption of food.

Grades For Buildings. Shall be for the purpose of this Code, the average level of the ground (finished surface) adjacent to the exterior walls of the building.

Habitable Floor Area. The total area of all habitable space in a building or structure.

Habitable Rooms: A room or enclosed floor space arranged for living, eating, and sleeping purposes (not including bathrooms, water closet compartments, laundrys, pantries, foyers, hallways, and other accessory floor space).

Infection: The presence of insects, rodents, vermin or other pests within or contiguous to a multi-family dwelling, dwelling unit, rooming house, rooming unit, or premises.

Motel: Any room or group of rooms forming a single habitable unit used, or intended to be used for living and sleeping but not for cooking or eating purposes, excluding hotels or dormitories.

Multi-Family (Multiple) Dwelling. (See Dwellings).

Occupant: Any person including owner or operator living and sleeping in a dwelling unit or having actual possession of said dwelling unit.

Openable Area: That part of a window or door which is available for unobstructed ventilation and which opens directly to the outdoors.

Operator: Any person who has charge or control of a multi-family dwelling or rooming house in which dwelling units or rooming units are let or offered for occupancy.

Owner: The owner or owners of the premises or lesser estate therein, a mortgagee or vendee in possession, assignee of rents, receiver, executor, trustee, lessee or other person, firm, partnership, or corporation owning or operating a building or other dwelling unit.

Person: An individual, firm, corporation, association or partnership.

Privacy: A condition in a dwelling in which access to every living room and every bedroom is available without passing through a bedroom or a room containing a water closet.

Plumbing or Plumbing Fixtures: Those fixtures defined as plumbing under the Plumbing Code of the City of Pontiac.

Premises: A lot, plot, or parcel of land including the buildings or structures thereon.*

Rooming House. (See Dwellings—Boarding House).

Rooming Unit: Any room or group of rooms forming a single habitable unit used or intended to be used for living and sleeping, but not for cooking or eating purposes.

Rubbish: Combustible and non-combustible waste materials, except garbage and the term shall include the residue from the burning of wood, coal, coke, and other combustible materials, papers, newspapers, bones, vegetable, rubber, leather, tree branches, yard trimmings, tin cans, metals, mineral matter, glass, crockery, dust and other similar material.

Supplied: Installed, furnished, or provided by the owner or operator.

Safety: The condition of being free from danger and hazards which may cause accidents or disease.

Sanitary Conditions: Conditions in and about a dwelling or dwelling units that are clean and in sanitary condition, free from any accumulation of garbage, rubbish or waste material that would create a health hazard or nuisance.

Standard Dwellings: A dwelling of any class which is so equipped, maintained, and constructed as to provide a safe, sanitary, and healthful dwelling.

Dwelling: Any one-family, two-family, or multi-family dwelling, dormitory, lodging house or motel.

Sub-Standard Dwellings: A dwelling of any class which is not equipped, maintained, and constructed as to provide a safe, sanitary, and healthful dwelling.

Mechanical Ventilation: The process of supplying and removing air by power-driven devices.

Natural Ventilation: Ventilation by opening to outer air through windows, skylights, doors, or chimneys.

Workmanlike: Whenever the words "workmanlike state of maintenance and repair" are used in this Code, they shall mean that such maintenance and repair shall be done in a reasonably skillful manner.

Yard: An open unoccupied space on the same lot with a building extending along a street, or rear, or other lot line.

Legal Representative: The Director of Law of the City of Pontiac and his authorized subordinates or any other attorney or attorneys properly retained to represent the City in regard to the enforcement of this Code.

Enforcement Officer: The Director of the Division of Housing Code Enforcement of the City

of Pontiac or his duly authorized subordinates, or any other official or employee of the City duly authorized to enforce the provisions of this Code.

* Whenever the words "multi-family dwelling," "residence building," "dwelling unit," "rooming house," "dormitory," "boarding house," "lodging house," or "motel" shall be construed as though they were followed by the words "for any part thereof."

Article II ADMINISTRATION

Section H-200.0 APPLICABILITY

Every portion of a building or premises used or intended to be used for residential purposes, except hotels serving transient guests only, real homes, convalescent homes, and nursing homes, shall comply with the provisions of this Code, irrespective of when such building shall have been constructed, altered, or repaired, except as hereinafter provided.

H-201.1 — **Application of Building Code.** Any alterations to buildings, or changes in use therein, which may be caused directly or indirectly by the enforcement of this Code shall be done in accordance with applicable sections of the Building Code or other codes and ordinances of municipality.

H-201.11 — **Certificate of Compliance.** When any dwelling or dwelling unit shall be caused to be vacated through condemnation, damage by fire or other causes, or rehabilitation, or the removal or conversion of the number of units of occupancy, a Certificate of Compliance shall be first obtained prior to occupancy. Said Certificate shall contain the approval of the Building Official.

H-210.1 — **Groundwater Clause.** No provision of this Code shall be enforced against any dwelling existing at the time of the adoption thereof, unless the violation places in jeopardy the health, safety or welfare of the public or the occupants of said dwelling.

H-212.0 — **Existing Buildings.** This code establishes minimum requirements for occupancy of all buildings-used for human habitation and does not replace or modify requirements otherwise established for the construction, repair, alteration, or use of buildings, equipment or facilities excepted as provided in this article.

H-212.1 — **Existing Remedies.** Nothing in this Code shall be deemed to abolish or impair existing remedies of the municipality or its officers or agencies relating to the removal or demolition of any buildings which are deemed to be dangerous, unsafe, or insanitary.

H-213.0 — **Buildings Converted or Altered.** A building, not a dwelling, if hereafter converted or altered to such use shall thereupon become subject to all the provisions of this act as well as the Building Code and Zoning Code, relative to dwellings. The spirit of this act will be observed and no conversion or alteration shall be made to evade the provisions of this act.

H-214.0 — **Alterations and Change of Occupancy.** No dwelling hereafter erected shall at any time be altered so as to be in violation of any provision of this Code. No dwelling erected prior to the passage of this Code shall at any time be altered so as to be in violation of those provisions of this Code, the Zoning or Building Codes, applicable to such dwellings.

If any dwelling or any part thereof is occupied by more families than provided for in this Code, or is erected, altered, or occupied contrary to law, such dwelling shall be deemed an unlawful structure and the enforcing authority may cause such dwelling to be vacated.

H-216.0 — **Dwellings Moved.** If any dwelling be hereafter moved from one lot to another, it shall thereupon be made to conform to all the provisions of this Code and the Building Code.

H-218.0 — **Emergency Order.** Whenever the Housing Official finds that an emergency exists whereby a violation of this ordinance creates an imminent danger to the public health or safety or to the health or safety of the occupants of any dwelling, he shall proceed forthwith to issue an order rectifying the existence of the emergency and under such remedial action as necessary to meet the emergency, if necessary, to protect the health and safety of the residents or the public health or safety, the Housing Official shall order that the premises be vacated forthwith and that they shall not be reoccupied until the order is complied with or executed.

Notwithstanding any other provision of this ordinance any such order or orders shall be effective immediately and complied with in the time and manner prescribed in said emergency order.

H-221.0 — **Inspections.** The Housing Official shall make, or cause to be made, inspections to determine the conditions of dwellings, dwelling units, rooming houses, rooming units, and other premises used as dwellings in order to safeguard the safety, morals, and welfare of the public under the provisions of this Code. The Housing Official, upon the showing of proper identification of all reasonable times is authorized to enter and inspect any dwelling unit or part thereof. In cases in which entry to any dwelling, dwelling unit or portion thereof is refused, intimidated or otherwise refused to charge thereof, the Housing Official is authorized to apply to a court of competent jurisdiction for a warrant to inspect the same.

Warrant for a housing inspection shall be issued by said court in all cases in which it shall appear that probable cause exists that a dwelling may contain violations of this Code or of other codes, laws, and ordinances of the City of Pontiac or State of Michigan applicable to dwellings. For purposes of this section, "probable cause" shall be defined in accordance with the law relating to warrants for inspections under housing or health codes.

H-223.0 — **Lodging Houses.** Lodging houses, boarding houses and tourist homes shall comply with the provisions of this Code for dwellings, and shall also comply with Ordinance No. 1101 of the City of Pontiac.

Section H-230.0 CORRECTION OF VIOLATIONS

In the case of a violation of this Ordinance where correction is required, but where condemnation or demolition is not justified, a correction notice shall be served upon the owner or operator or person responsible for the violation.

H-230.1 — **Contents of Notice.** A Correction Notice issued hereunder shall:

1. Be in writing.
2. Include an identification of the premises where the violation exists sufficient for identification.
3. Specify the violation which exists and the remedial action required.
4. Allow a reasonable time for the performance of any act it requires.

H-230.2 — **Service of Notice.** A Correction Notice issued hereunder shall be served upon the owner or person responsible for the violation, as follows:

1. By personal delivery, or by leaving the notice at the usual place of abode of the person to whom the notice is directed with a person of suitable age or discretion; or
2. By depositing the notice in the United States Mail, addressed to the person to whom it is directed at his last-known address, First Class postage prepaid thereon; or
3. By posting a copy of the notice in placard form in a conspicuous place on the subject premises or by both posting and personal delivery or mailing as herein provided.

H-230.3 — **Prosecution of Violation.** In case any Correction Notice is not complied with within the time set therein, the Housing Official may request the legal representative to initiate an appropriate legal action or proceeding against the property owner or person responsible for the violation, to obtain the following relief:

1. To restrain, correct or remove the violation or refrain from any further execution of work.
2. To restrain, or correct the erection, installation, or alteration of such building.
3. To require the removal of any work in violation.
4. To prevent the occupation or use of the building, structure, or part thereof erected, constructed, installed or altered in violation of, or not in compliance with the provisions of this Code, or in violation of a plan or specification under which an approval, permit, or certificate was issued, or
5. To enforce the penalty provisions of this Code.

Section H-240.0 CONDEMNATION

Dwellings or multi-family dwellings shall be condemned as dangerous structures or unsafe or unhealthful for human habitation as herein provided.

H-240.1 — **Structures Unfit for Human Occupancy or Dangerous Structures.** Whenever the Housing Official finds that any dwelling constitutes a hazard to the safety, health or welfare of the occupants or to the public health or safety, or is in disrepair or insanitary, it is vermin-infested or rodent-infested, or because it lacks necessary sanitary facilities or equipment or otherwise fails to comply with the minimum provisions of this Code, but has not yet reached such condition as to justify the issuance of a demolition notice on hereinafter provided, he may declare such dwelling to be unfit for human habitation or "condemned" and order it to be vacated.

If any dwelling or any part thereof is occupied by more occupants than permitted under this Code, or was erected, altered or occupied contrary to the Building or Zoning Code, such dwelling shall be deemed an unlawful structure, and the Housing Official may cause such dwelling to be vacated. It shall be unlawful to again occupy such dwelling unit if it is occupied, as the case may be, has been made to conform to the law.

Any order requiring a dwelling to be vacated shall prescribe the time within which it must be vacated, which may be not less than twenty-four hours nor more than sixty days from the time the order is issued, provided, however, that in cases of extreme immediate danger to the health or safety of the occupants, the order may be made effective at such time as it is issued.

H-240.2 — **Posting of Notice.** Any dwelling declared as unfit for human habitation or condemned shall be posted with a placard by the Housing Official. The placard shall include the following:

1. Name of the city.
2. Name of the department having jurisdiction.
3. A statement of the reason or reasons why it was issued.
4. The requirement that the dwelling, when vacated, must remain vacant until the provisions of the order are complied with and the condemnation notice is withdrawn.
5. The date that the placard is posted, and
6. A statement of the penalty for the defiance or removal of the placard.

H-240.3 — **Form of Notice.** Whenever the Housing Official has declared a dwelling to be unfit for human habitation or condemned, he shall give notice to the owners of record and/or occupant of said declaration. Such notice shall:

1. Be in writing.
2. Include an identification of the property or premises sufficient for identification.
3. Include a statement of the reason or reasons why it was issued.
4. State the time within which the dwelling must be vacated.
5. State a time within which violations must be corrected.

H-240.31 — **Service of Notice.** Service of a Condemnation Notice shall be as follows:

1. By personal delivery, or by leaving the notice at the usual place of abode of the person to whom the notice is directed with a person of suitable age or discretion; or
2. By depositing the notice in the United States Mail, addressed to the person to whom it is directed at his last-known address, the postage prepaid thereon; or
3. By posting a copy of the notice in placard form in a conspicuous place on the subject premises or by both posting and personal delivery or mailing as herein provided.

H-240.32 — **Removal of Placard or Notice.** No person shall deface or remove the placard from any dwelling which has been declared as unfit for human habitation or condemned or for any other purpose under this Ordinance, except by authority in writing from the Housing Official.

H-240.4 — **Vacating of Declared Building.** Any dwelling which has been declared and placed as unfit for human habitation or condemned by the Housing Official shall be vacated and the building shall be deemed to be unsafe and dangerous, and no person shall occupy any dwelling or part thereof which has been declared or placed by the Housing Official as condemned after the date set in the declaration.

H-240.41 — **Occupancy of Building.** No dwelling which has been declared as condemned shall again be used for human habitation or occupancy until written approval is secured from the Enforcing Officer and/or a Certificate of Compliance is obtained. The Enforcing Officer shall remove such placard whenever the defect or defects upon which the declaration was based have been eliminated.

H-240.5 — **Report of Notice to Vacate.** The Housing Official shall furnish a copy of each Notice to Vacate a dwelling to the Chief of the Fire Prevention Bureau, Building Inspector, and any other official of the city concerned therewith.

Section H-250.0 DEMOLITION

Dwellings shall be demolished when determined unfit for human occupation and a hazard to the health, safety and welfare of the occupants or the community as set forth below.

H-250.1 — **Structures to be Demolished.** Any vacant dwelling which is unsafe, dangerous, or that constitutes a hazard to the health, safety, or welfare of the community, shall be deemed to be unsafe dwelling and:

1. Inadequate or improper construction or materials, creating a possibility of complete or partial collapse.
2. Gross decay and dilapidation creating a possibility of partial or complete collapse.
3. Damage by fire, windstorm, or other Act of God creating a possibility of partial or complete collapse.
4. Existence of defects in the heating system or electrical wiring which create a hazard of fire.
5. Infestation of vermin or rodents to the extent that a health hazard to adjacent or nearby premises.
6. Gross defects in the plumbing or waste-disposal systems resulting in insanitary conditions which are a hazard to health.
7. The existence of open doors or windows or other openings or means by which entrance may be gained by vandals or other unauthorized persons, without breaking into the premises, creating a hazard of fire and a haven for possible illegal activities.
8. Any other condition in the dwelling which creates a danger to the public or to other persons.

H-250.2 — **Demolition Notice.** The Director of Housing Code Enforcement shall issue a written notice requiring the demolition and removal of all unsafe dwellings, which shall be known as a Demolition Notice. Said notice shall require that said buildings be demolished and removed from the premises or in the alternative that said building be rehabilitated so that it complies with all the requirements of this Code and all the Codes and ordinances of the City pertaining to such dwellings.

H-250.21 — **Contents of Notice.** Said notice shall contain:

1. A description of the real estate and the specific dwelling sufficient for identification.
2. A statement of the reasons for which it is being issued.
3. The requirement that the dwelling be demolished and removed from the premises in accordance with all laws and ordinances of the City within a stipulated time, or that it be in the alternative, be rehabilitated and made safe and secure.

H-250.22 — **Posting of Notice.** Any dwellings upon which a Demolition Notice is issued shall be posted by the Housing Official. The notice shall include the following:

1. Name of the city.
2. Name of the authorized department.
3. Reason or reasons why the notice was issued.
4. Date the notice was posted.
5. Description of the dwelling sufficient for identification.

H-250.23 — **Serving of Demolition Notice.** Serving of a demolition notice shall be as follows:

1. By personal delivery, or by leaving the notice at the usual place of abode of the person to whom the notice is directed with a person of suitable age or discretion; or
2. By depositing the notice in the United States Mail, addressed to the person to whom it is directed at his last-known address, the postage prepaid thereon; or
3. By posting a copy of the notice in placard form in a conspicuous place on the subject premises or by both posting and personal delivery or mailing as herein provided.

H-250.25 — **Removal of Notice.** No person shall deface or remove a demolition notice from any dwelling which has been posted or placed for demolition except by authority in writing from the Housing Official.

H-250.4 — **Enforcement of Demolition Notice.** In case any demolition notice is not promptly complied with in accordance with its terms, the Housing Official may request the legal representative of the City to commence an appropriate action in a court of competent jurisdiction against the owner or owners of the subject dwellings.

1. To enforce the penalty provisions of this Code.

2. To obtain an order requiring compliance with the demolition notice.

3. To obtain an order requiring compliance, and providing in the alternative that if compliance does not occur within thirty days, that the City of Pontiac is authorized to enter said property and to enforce compliance with the demolition notice by demolition and removal of the offending dwelling from the premises, and that if this occurs the City shall be authorized to assess the costs of the demolition and the cost of the legal proceedings against the property upon which the dwelling is located as a special assessment.

4. Nothing herein shall prevent the Housing Official from taking any other action or remedy that may be provided by law.

H-250.41 — **Report of Demolition Notice.** The Housing Official shall notify the Building Inspector, Department Chief of the Fire Prevention Bureau, the Assessor's Office, and any other designated official or department of the City as required of each demolition notice issued.

H-250.5 — **Occupancy of Dwelling.** No dwelling upon which a demolition notice has been issued shall again be used for human habitation or any type of occupancy, in whole or in part, until the demolition notice has been rescinded and a certificate of compliance issued by the Housing Official.

Section H-260.0 RIGHT OF APPEAL

When litigation is not pending before any court of competent jurisdiction on the subject matter, any owner or person who is aggrieved by the ruling or decision of the Housing Official in any matter relative to the interpretation or enforcement of any of the provisions of the Housing Code may appeal the decision or interpretation.

This appeal must be filed with the enforcing officer, in writing, within thirty days of the date of the decision or interpretation.

Appeals shall be heard and decided by the City Commission of the City of Pontiac, as the Board of Appeals under this ordinance. A hearing shall be held at a reasonable time as determined by the City Commission, not more than thirty days after the appeal is filed and the appeal shall be decided at the time of the decision of the City Commission. The appellant shall have the right to appear in person or by agent or attorney and present any relevant oral or documentary evidence. The enforcing officer shall also have the right to present oral or documentary evidence. The Housing Official of the City of Pontiac shall be authorized agent shall serve as Secretary to the City Commission acting as the Board of Appeals under this ordinance. At the conclusion of the hearing a decision shall be rendered in accordance with the majority vote of the Commissioners present and voting.

ARTICLE III ENVIRONMENTAL REQUIREMENTS

Section H-300.0 SCOPE

The provisions of this article shall govern the minimum conditions of property and buildings to be used for human occupancy. Every building or structure occupied by humans, and the premises on which it stands, shall comply with the conditions herein prescribed as they may be amended by the Housing Official. The Housing Official shall cause periodic inspections to be made of dwelling premises to secure compliance with these requirements.

Section H-310.0 EXTERIOR PROPERTY AREAS

No person shall occupy as owner-occupant, or let to another for occupancy, any dwelling unit for the purpose of living therein, or premises which do not comply with the following requirements:

H-310.1 — **Sanitation.** All exterior property areas shall be maintained in a clean and sanitary condition, free from any accumulation of rubbish, garbage or any blighting influences detrimental to the property or neighborhood.

H-310.2 — **Girding and Drainage.** All premises shall be graded and maintained so as to prevent the undue accumulation of stagnant water, storm water or surface water thereon, or within any building or structure located thereon.

H-310.3 — **Noxious Weeds.** All exterior property areas shall be kept free from weeds or plant growth which are detrimental to the public health and safety of the area, or which are in violation of any ordinance of the City of Pontiac.

H-310.4 — **Insect and Rodent Harborage.** Every owner of a dwelling or multi-family dwelling shall be responsible for the extermination of insects, rodents, vermin or other pests in the exterior areas of the premises; except that the occupant shall be responsible for such extermination in the exterior areas of the premises of a single-family dwelling. Whenever infestation exists in the shared or public parts of the premises of other than single-family dwelling, extermination shall be the responsibility of the owner.

H-310.5 — **Accessory Structures.** All accessory structures including detached garages shall be maintained structurally sound and in good repair.

Section H-320.0 EXTERIOR OF STRUCTURE

No person shall occupy as owner-occupant, or let to another for occupancy, any dwelling or multi-family dwelling, dwelling, dwelling unit, rooming house, rooming unit, or part thereof for the purpose of living therein which does not comply with the following requirements:

H-321.0 — **Foundations, Walls and Roof.** Every foundation, exterior wall, roof, and all other exterior surfaces shall be maintained in a workmanlike state of maintenance and repair and shall be kept in such condition as to exclude rodents.

H-321.1 — **Foundations.** The foundation elements shall adequately support the building at all points, be sound and in good repair.

H-321.2 — **Exterior Walls and Trim.** Every exterior wall and all trim

Tips for Serviceman Gifts Offered

Time Is Short for Overseas Yule Mail

Christmas is just around the corner — that is, if you're sending a gift package to a serviceman stationed overseas.

With mailing deadlines quickly approaching, now's the time to start preparing Christmas packages, reminds Lyle Heide, director of Service to Military Families for the southeastern Michigan chapter of the American Red Cross.

caps, stationery, pocket calendars and plastic picture identification holders.

When packing gifts, a good "filler" in unbuttoned popcorn, chewing gum and wrapped pieces of hard candy. This helps keep small items from sliding.

WRAPPING ADVICE

Fruitcakes, cookies, or other perishable items must be

wrapped individually in foil and packaged in metal air-tight containers. Snack items, such as nuts, party crackers and canned tuna or chicken should always be sent in their tins and include a small can opener.

Gifts of clothing should be selected carefully, says the Red Cross. In some areas, heavy work socks can be used and

sweaters and sport shirts are appreciated for off-duty wear.

Suggested mailing deadlines for surface and air travel areas: Parcel Airlift (PAL), Oct. 28 to Nov. 30. PAL mailing costs the regular parcel post rate to the APO or FPO departure point plus \$1 for air service from your city to the overseas base.

Space Available Mail (SAM), Oct. 21 to Nov. 23. Parcel post rate to APO or FPO departure point is the only fee. Air Parcel Post, Nov. 30 to Dec. 11. Airmail postage should be used.

Rites for Unionist

DETROIT (AP) — Funeral services will be held Sunday for Phillip F. Koerner, retired vice president of the Retail Clerks International Association. Koerner, 73, died Friday in a suburban Detroit hospital. He retired in 1964 after 30 years with the retail clerks union.

Ice Follies Returning

Ice Follies of 1970, with guest star Peggy Fleming, one of the most heralded female skaters since Sonja Henie and Barbara Ann Scott, returns to Olympia Stadium in Detroit for 16 performances, Nov. 13-23.

The theme for this year's production, assembled by the Shipstade and Johnson, is "Showtime 70." Top billing goes to Miss Fleming, who has won 18 first-place awards

in major skating competition around the world, including the 1968 Olympics and World Figure Skating championship.

Tickets for the show, priced at \$3, \$4 and \$5, are available at all major J. L. Hudson stores and the Olympia box office. There will be three shows on Saturdays, at noon, 4 and 8:30 p.m.; and two on Sundays, at 2 and 6:30 p.m. Weeknight shows begin at 8.

HONORS FOR PAINTER

The Post Office Department has released this design for a stamp honoring William M. Harnett, an American painter of the past century. The six-cent stamp, which will be issued in Boston Dec. 3, reproduces Harnett's "Old Models" painting.

According to reports from Red Cross staff members working in Vietnam and other overseas military locations, soldiers appreciate such gifts as home-baked goodies, snapshots of family and friends and taped voices.

Other preferred gifts include paperback books, current issues of sports and automobile magazines, washclothes, soap bars on ropes, wash-and-dry towellettes, ballpoint pens with

Fired Over Mod Look

Pilot Feels Ha(i)rassed

LOS ANGELES (AP) — Andrew Ingbar is an experienced commercial airline pilot. He's 27, tall, and handsome. His hair curls thickly over his coat collar and his sideburns reach well below his ears.

"The hair, Ingbar said Thursday, is the reason Cal-State Airlines fired him Oct. 1.

"Cal-State confirmed that Ingbar had been dismissed. It said

he had been warned two weeks earlier that he would be fired if he didn't get a haircut.

Cal-State President Richard Dick said, "Pilots have got to be dignified, to inspire confidence.

We're serving John Q. Public, you know. We fly five Beech 99s to 11 cities in California, plus Las Vegas, and there's no separate pilot's compartment.

They're right there for everyone to see.

"We have no complaints about his abilities as a pilot. But I understand there was a negative public reaction."

Ingbar said he refused to cut his hair as a matter of principle.

"For one thing, I like it this way," he said. "For another I'm trying to show what people are going through, not just students but professional people as well. People are being cut down because of the way their shell looks, and their professional ability doesn't make any difference."

At discharge Ingbar had 2,500 hours flight time, and was senior copilot.

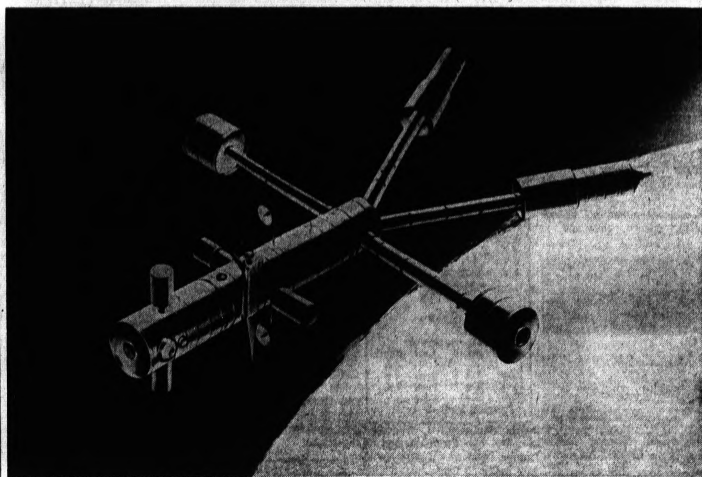

He asked the federal Equal Employment Opportunities Commission to help him get his job back and said they told him to call back in a month and if they'd let him know if they could help.

2 From OCC to Join Talks

"Improved Communications Between High Schools and Community Colleges" will be discussed by Mrs. Carol Stencel at the 12th annual fall Business Teachers Roundtable Saturday at Taylor Center High School.

Mrs. Stencel is chairman of the Business Education Department of Oakland Community College's Orchard Ridge Campus.

Conference chairman for the Roundtable, which is sponsored by the Michigan Business Education Association, is Mrs. Patricia Seraydarian, instructor in secretarial sciences, also at Orchard Ridge Campus.

Bridge Tricks From Jacobys

By OSWALD AND JAMES JACOBY

When South's next bid is diamonds, North raises to show the king and South goes to the grand slam.

West, determined not to look foolish, opened the ace of

Pass 5♥ Pass 7♠
Opening lead—A

he ruffs a second heart high. He gets back to dummy again by ruffing his nine of diamonds. He ruffs a third heart, leads a trump to dummy, ruffs a fourth heart high.

This will leave him with one trump, since he has played one and ruffed four hearts. He will be holding the ace-queen-jack of clubs and his ace-jack of clubs.

Dummy will still have two trumps. He will lead a trump to dummy, discard his jack of clubs on dummy's last trump while West follows with his last trump. Then lead a small club to his ace, where his two diamonds will take the rest of the tricks.

South ruffed, proceeded to play out three rounds of trumps, and eventually could only make 12 tricks. East hung on to all his diamonds and enough hearts to prevent the establishment of a heart in dummy.

West should really have opened a trump on the bidding. If it had, South would have gone down. As it was, the heart opening gave South a chance to reverse the dummy and make it hand by playing it upside down.

The dummy reversal play would also be a sure thing, provided the diamonds did not divide 7-6.

At trick 20, South leads a diamond to dummy's king. Then

New Princess on Grid Team

DANBURY, Conn. (AP) — The 1969 Fall Weekend Princess at Western Connecticut State College is 6-foot-3, weighs 270 pounds and plays middle guard on the football team.

Joe Sacca of New York City, sponsored by the football team, won as a write-in candidate over five young ladies whose names were on the ballot.

"It started as a prank," a reporter on the student newspaper said, "and it just snowballed."

The Peace Palace at the Hague, Holland is the home of the International Courts of Arbitration and Justice.

Earl 'Exposed' to the Song Marvin Sings in New Film

By EARL WILSON
NEW YORK — "Don't you want to hear me sing?" Lee Marvin sort of roared at me, and inasmuch as he is close to a foot taller, I was dying to hear him sing. "Don't worry — it'll be over in about a half hour," he grinned.

He put on the first recording he's ever made.

"I sound like a harpooned walrus," he decided (when he got to the tender part).

"Did you like it? Were you comfortable?" I asked him.

"Hell, no. That's not my gimmick in life. I'm playin' this record for you now just to alleviate any idea that anybody else sung it for me. Nobody else could sing like that but Lee Marvin."

It was "Wandering Star" from "Paint Your Wagon" and it was the sneaky idea of Alan Jay Lerner. One day when the picture was half finished, he casually remarked to Marvin, "There's some singing." Marvin answered, "I don't sing." Lerner said: "Don't worry about it."

Marvin didn't — then. "So one day we're going to cut it. I've got the words on some cards. I get in this booth like an armored tank around me to protect me. Nelson Riddle's conducting. He's got 85 musicians, and they play and then he points to me in the booth, his finger straight at me, and I can't move my mouth."

"Hell, man, I'm up there in that booth with all these guys that know what they're doing. It's like being in grand opera. Nelson says, 'We'll work at the piano first.'"

He got through it, and got through another one, and he isn't worried about the musical quality, because he says, "It's part of the character."

"But I'll never do any more singing," he insisted. "I'll take my gold record, and I'll retire."

THE WEEKEND WINDUP

Peter O'Toole and his wife Stan will be here for the premiere of "Goodbye, Mr. Chips" — flying, as usual, in different planes. Jerry Lester's touring in a show called "Lonesome on the Road," explaining how lonesome an entertainer gets traveling in a show — with 16 girls.

The Lambs will honor Pat O'Brien Nov. 15, his 50th year in show business. Rug specialist Edward Fields is discussing a project with the Pentagon — new carpets for Air Force One. (Does the President do a lot of pacing?)

WISH I'D SAID THAT: A man declared he's very much anti-war. "In fact, I don't even talk to my wife."

REMEMBERED QUOTE: "As a man grows older and wiser, he talks less and says more."

EARL'S PEARLS: Someone described a B'way phony. "He even has fillings in his false teeth."

Surplus Zoo Animals on the Block in NY

NEW YORK (AP) — Could a llama born in Central Park Zoo find happiness on a Massachusetts farm with a pig and six ducks? Would a leopard find any affinity with a black belt karate expert?

Those are the sort of questions weighed by Gabriel A. Wechsler, assistant administrator of the Municipal Service Administration, in considering bids to buy the city's surplus zoo animals.

Twenty-one animals from the Central Park and Prospect Park zoos were up for sale Thursday, including a wallaby, a jaguar, a bear, a monkey, a yak, a llama and a leopard.

A farm couple from Massachusetts bid \$25 for the llama and promised in their letter that the barnyard animals would be "congenial." The karate expert offered the high bid of \$450 for the leopard.

TO BE CHECKED OUT
Like all the bidders, he will be checked out first to determine if he can offer adequate quarters for the cat.

"We're not going to let even a gentle animal go to a family with a three-room apartment in the Bronx," Wechsler said. "And we won't sell a jaguar to any private person. We have to ask what are your facilities for a jaguar—jaguars can hurt things."

An animal is put up for sale because of overpopulation or if it doesn't get along with its cage or yard mates.

"A father animal doesn't like it," Wechsler noted. "If his son becomes a rival for the mother."

TABLE MANNERS — Like most youngsters, Shauri-Jet, a 15-month-old chimpanzee, isn't fond of getting washed at meal time, as you can easily see (left). All cleaned up, the chimp shows off her best table manners (above). It's all part of an education program at Lincoln Park's Children's Zoo in Chicago where a "tea party" is held each afternoon.

Hawaii Language Bank Aids Foreigner in Distress

HONOLULU (AP) — The new Honolulu Language Bank means a foreigner in trouble no longer has to use frantic hand signals to describe his plight to would-be Samaritans.

And if a Balinese man is held up and the only witness to the robbery is an Afrikaner, a Chinese-Hawaiian policeman can find help.

A scientist in need of someone who speaks Japanese can locate his man merely by making a telephone call.

The language bank is a pilot project sponsored by the Hawaii International Community Service Organization.

4 CHINESE DIALECTS
It has quickly grown to 300 volunteers who speak 31 languages, including four Chinese dialects and such esoteric idioms as Afrikaans, Gujarati and Ilocano. A card file of persons fluent in these tongues is maintained at the bank.

"The language resources we have in this community are amazing," says Judith Kirkendall, director of the International Institute, where the bank is located.

A number of recent police cases underscored the language problems encountered in this Pacific crossroads:

Big Election Victory Seen for Portugal Regime

LISBON (AP) — The Portuguese government faces opposition candidates in the parliamentary election Sunday for the first time in 43 years, but it is expected to win an overwhelming majority.

The campaign, which ended Thursday night, has been marked by unprecedented debate that formerly would have meant a one-way ticket to prison.

Nearly 300 candidates from the National Union Movement, the only authorized political party, and from three opposition groups are in the running for the 130 seats in the National Assembly. Political observers say the opposition groups may win six seats.

Under the dictatorship of Premier Antonio de Oliveira Salazar, the opposition group always withdrew before the election, claiming the government's restrictions prevented them from campaigning effectively.

SOME REFORMS

That has been changed by Marcello Caetano, who became

premier 13 months ago, after the 80-year-old Salazar had a stroke.

Despite opposition from conservatives, Caetano introduced reforms, amended the election laws to still opposition cries of rigged balloting and ordered the censors to be more liberal.

Caetano, a 63-year-old constitutional lawyer, is not running in the elections. He is appointed to his office and is not a member of the assembly.

But during the monthlong campaign, Caetano has made many public speeches and appeared on television repeatedly, urging the voters to support his policy of evolution toward democracy by supporting the National Union list. It contains many moderate conservatives loyal to him.

ALLOWED TO RETURN

Challenging the National Union are the Electoral Democratic Commission, consisting of radical Socialists and crypto-Communists, and the Electoral

Committee of Democratic Unionists, made up of moderate Socialists and progressive Catholics and led by Mario Soares, a lawyer Caetano allowed to return from exile last December.

The two groups, prevented by law from organizing a nationwide party, are running separate slates in Lisbon and the northern cities of Oporto and Braga. They have a combined slate in 16 of the other 22 constituencies.

In addition, a small monar-

chist slate is running in Lisbon. Caetano's National Union list already is assured of 29 seats for lack of opposition in the African districts of Angola, Mozambique, Portuguese Guinea and Cape Verde; Timor in the Indonesian archipelago, and Macao, on the China coast.

BELIEVED FOUND—A Detroit metallurgist says he may have located the Griffin, the first ship to sail the Great Lakes. The ship was last seen in 1679 after being loaded with furs in Wisconsin's Green Bay and start-

ing out for Niagara Falls. The ship, probably 50 to 60 feet long, is shown here in an artist's conception on display at the Dossin Museum on Belle Isle in Detroit.

AP Wirephoto

1st Great Lakes Ship Is Believed Located

DETROIT (AP) — A Detroit metallurgist says he may have located the Griffin, the first ship to sail the Great Lakes and a source of an Indian ghost ship legend.

The French explorer LaSalle—Robert Cavellier Stier de LaSalle—built the ship at Niagara Falls in 1679 and sailed it across Lakes Erie, St. Clair, Huron and Michigan to Wisconsin's Green Bay. LaSalle, who had some exploring to do in Illinois, loaded a six-man crew to sail her back to Niagara Falls.

That was the last report of the Griffin or her crew. Some say she sank and the crew died with her while others say the crew scuttled the ship and made off with the valuable cargo.

Indian tales had the Griffin's ghostly shape sailing the Great Lakes, unable to rest on the bottom because of the foul nature of her demise.

FORMS COMPANY

Richard Brownes of Detroit has formed an underwater search company and says he will begin his search after the spring thaw. He won't say exactly where.

"But I will say that the spot is about 12 miles off Drummond Island in the north channel opposite Thessalon, Ont.," said Brown. He said he and his part-

ners will use a 41-foot cruiser to hoist the ship, if found.

If the Griffin was en route to Lake Erie and was following a direct course, the North Channel—which leads to Lake Superior—would be out of the way. Orrie Vail, a Griffin devotee from Tobemary, Ont., claims he has found the Griffin near his home on Greenough Point which juts into Lake Huron nearer the logical return route for the Griffin.

Vail charges about 50 cents to see the pieces he claims came from the Griffin.

DIVING BELL

Brownes said he and his partners are installing a winch and boom on the cruiser to raise the ship if found. He is also trying to bring a diving bell to the area so pictures can be made. "She's in 60 feet of water on the reefs," Brownes said. "We can reach her just using diving equipment."

Most of what is known of the Griffin came through Father Louis Hennepin, a Jesuit priest who accompanied LaSalle and kept a diary. Drawings of the Griffin have been based on sketches by Father Hennepin.

The ship was probably 50 to 60 feet long, and its capacity was known to be about 45 tons,

said Robert Lee of the Dossin Museum on Detroit's Belle Isle.

'TUNS, NOT TONS'

"Tuns, not tons," said Marine expert Lee who explained that a tun is a barrel. The Griffin would hold about 45 barrels, he said.

It was Father Hennepin who told of the ship being built at the great falls under the watchful eyes of the Indians who were greatly impressed with the size of the ship, Lee said.

Lee said the ship was named for the Griffin, a creature of Greek mythology which had the head and wings of an eagle and the body of a lion. Lee said it was common in the late 1670s for ships to be named for pagan gods.

"They are all Christians, you know," said Lee, "but I guess they were hedging their bets... just in case."

After dispatching the Griffin, LaSalle and Hennepin left by canoe for the southern end of Lake Michigan. They continued their explorations in Illinois where nearby communities along the Illinois River are named for them.

Dutch exports of poultry products had a value of \$79.8 million in the first half of 1968 compared with \$67.8 million the corresponding period of 1967.

Sunday at 1 P.M. AN IMPORTANT Persian Rug AUCTION

• A NOTE ABOUT THE SALE •

On behalf of London Persian Importers we announce this short notice catalogue sale. Instructed thereto by the agents of these importers, we shall sell without reserve of their request, a superb collection of outstanding pieces of Persian and Oriental Carpets and Rugs. All these items are the most the most carefully and expertly chosen examples of hand-knotted intricate patterns and historical designs. Each piece is described in the catalogue that will be available during the view period.

Deputy Fired in Ticket Fix Is Reinstated

DETROIT (AP) - A Wayne County sheriff's deputy who reported that he voided traffic tickets and had them in a chicken coop on his farm has been reinstated to his job with back pay.

Paul Paciorek, who was discharged as a result of his allegations that his superiors had ordered him to hide the tickets, was reinstated by the Wayne County Civil Service Commission after he received back pay minus wages he earned since his discharge in July 1966.

Paciores' allegations led to a grand jury investigation and subsequent indictments of Sheriff Peter Buback and Under Sheriff James Bommarito. Charges were later dropped against the men, who are no longer in the department.

The Civil Service Commission originally upheld Paciorek's discharge, but was ordered to reconsider the matter by Wayne County Circuit Court. He has this of this serious and unacceptable danger.

DEFENSE OUT

Television manufacturers also had a statement out in defense of their product.

The Electronic Industries Association's consumer products division, saying it represents nearly all U.S. makers of TV receivers, described the sets as "safe products."

The congressmen had asked about the reports of fires caused by television sets following an Associated Press article in which Stewart M. Staffer, staff counsel for the presidential panel, confirmed the probe.

Elkind said the commission expects to make its findings at a meeting Tuesday, when the "submissions of the major manufacturers of television appliances will have been analyzed, at least preliminarily, and laid before the commission."

"If an unreasonable hazard is

Fire Hazards of TV Under Investigation

WASHINGTON (AP) - A found, "the public to those having more serious presidential commission expects will promptly make consequences," the commission to determine Tuesday if there is an announcement of its findings said.

A potential fire hazard inherent after notifying the manufacturer. Royal said in a statement in the 55 million television sets are involved, "as required by Friday night the public has a right to know the 'full facts' in use across the nation."

Arnold B. Elkind, chairman of the National Commission on television makers in this the chance of property damage, plan for the meeting Friday in country and some abroad. In resulting from the so far unrefused to identify the manufacturer who have occurred in some of the sets caught fire were not in operation."

"We have taken, and are taking, every measure consistent with the National Fire Protection Association, based on information would urge the presidential

But one congressman urged from three states, projects more commission to make "a full dis- than 7,000 fires a year are closure of all the facts, including by television sets. This the names of the domestic and the estimate of 1,000 higher than the estimate of 1,000 manufacturers in

7,000 fires a year attributed to of the International Association added. These statistics reflect "incl- have been making successful action "to eliminate the source dangers ranging from those invol- safety efforts to control fire and damage to the TV set only safety hazards.

People in the News

By the Associated Press

Brigitte Bardot suffered a bruised right hip in a riding accident when her foot caught in the stirrup as she fell from a galloping horse and she was dragged 150 feet. The accident, which came to light yesterday, occurred last Sunday while Miss Bardot, 35, was visiting the country home of Paris hair dresser Jacques Dassange and his wife, Corinne.

When the men went hunting, the two women and a third friend went to a stable and rented horses for a ride. Mrs. Dassange's horse started to gallop and Miss Bardot's mount followed.

"I was completely panic-stricken," the newspaper France-Soir quoted Miss Bardot as saying. "I let go the reins and hung onto the horse's mane, screaming to Corinne, 'Stop! Stop! I don't know how to gallop.' That must have been hilarious."

Mrs. Dassange fell and suffered a broken pelvic bone. Miss Bardot held on a bit longer and then she too fell. By the time her foot pulled free of the stirrup she had fainted. A physician who was hunting party gave first aid to the women. By Thursday Miss Bardot had recovered sufficiently to visit Mrs. Dassange at the hospital.

Finch's Daughter Marched in Viet Protest

Secretary of Health, Education and Welfare Robert Finch says his good daughter took part in Vietnam War Memorial Day activities Oct. 15.

Finch said in Palo Alto, Calif., yesterday that his daughter Maureen, 19, a sophomore at Occidental College near Los Angeles, "went into her community around her campus talking to housewives about the war."

The son of another administration Cabinet officer, Defense Secretary Melvin Laird, also participated in Memorial activities, but Vice President Spiro T. Agnew says he ordered his daughter not to.

Finch, a former California lieutenant governor, appeared later before the Stanford University students gave first aid to the women. By Thursday Miss Bardot had recovered sufficiently to visit Mrs. Dassange at the hospital.

Finch

should be made now to shift national priorities for when the Vietnam war ends.

Actress Ali McGraw Weds Film Executive

Ali McGraw, who won stardom with her first movie, "The Graduate," has married the production chief of Paramount Pictures.

Miss McGraw, 30, and Robert Evans, 38, were married yesterday in a private courtyard ceremony in Palm Springs, Calif.

It was her first marriage. A studio spokesman said the two met while "Goodbye, Columbus" was being filmed.

ALI MCGRAW

said the two met while "Goodbye, Columbus" was being filmed.

Actress Rosalind Russell Hurt by Floating Log

A floating log hit Rosalind Russell in the head but the mishap kept the 56-year-old actress away from the scene she was filming for only an hour.

Spokesmen for United Artists Studio in Hollywood said Miss Russell, swimming in an eight-foot deep tank yesterday, was hit by a six-foot-long log flipped partly out of the water after she pushed away from it.

After resting, she returned to the set of "The Unexpected Mrs. Pollifax."

Mysterious Dylan Album

NEW YORK (AP) - Someone has issued a mysterious album of Bob Dylan performing his own songs, most previously unreleased.

Columbia Records, which has Dylan under exclusive contract, says it will seek a court injunction to halt distribution in the United States and Canada.

The origin of the two-record album is shrouded in secrecy. It is sold in an unmarked white cover, with both records bearing blank labels. There is no indication anywhere of who is performing what.

But Dylan fans have found out and are buying the album at a brisk rate. At first it was sold under the counter, but it surfaced last week in several record shops here, advertised in the window as the "White Wonder."

Columbia Records estimated that about 5,000 copies of the album had been pressed. But many were surprised when told Friday that stores were selling the "White Wonder" openly.

Dawnald Henderson, assistant general manager at Columbia, said the firm was going into U.S. District Court in Los Angeles and Canadian courts to seek an injunction against distribution and sale of the album.

FCC Announces New Rules

Cable TV to Get Its Chance

WASHINGTON (AP) - Cable TV will get its chance to show what it can do, but the Federal Communications Commission doesn't think regular network and local television broadcasters have to worry about being upstaged.

The commission announced new rules Friday that require large cable systems to require their own programs in competition with the networks and existing studios and guarantees the same right to smaller systems. The FCC also ruled cable TV operators will be allowed to present some paid commercials.

Specific rules are to be published next week and will take effect 30 days later.

The commission's top authority on cable TV says, however, that cable TV can't do its best against conventional broadcasters in the competition for viewers until some other issues are decided.

CRUCIAL QUESTION
Perhaps the most crucial

question, said Sol Schildhouse, chief of the FCC's cable-TV unit, is in a news conference, that of allowing cable systems to bring signals from "distant" TV broadcasting stations into or near existing TV markets.

Importing "distant signals," said Schildhouse, is the bread-and-butter operation of cable TV in its present form and the FCC has not yet made up its mind how to regulate it.

The FCC said, however, that it would take "any action necessary" to protect existing free television "should there be any adverse effects."

ELIZABETH S. MULLEN

Teen of the Week Is a Central Senior

Elizabeth S. Mullen, a senior at Pontiac Central High School has been selected as this week's Teen of the Week.

Elizabeth, a B-average student, is active in Student Council and other school activities.

She is the daughter of Mr. and Mrs. Arthur Mullen of 161 Judson.

Bills to Aid Migrants Are Planned

LANSING (AP) — A Democratic state legislator has announced he is introducing bills aimed at improving education programs for migrant workers and requiring operators of farm labor camps to report all migrant children under 16 years of age living in their camps.

Another bill sponsored by Rep. Dale Kildee of Flint would allow state reimbursement to districts which transport migrant children from camps to area schools. Kildee says the bill has the support of House Speaker William A. Ryan.

Meanwhile, a Republican congressman and three state legislators say their survey shows thousands of migrant workers are attracted to Michigan by its educational and health programs.

A report issued by U.S. Rep. Guy VanderJagt, R-Mich., and Sens. Charles O. Zoller, Benton Harbor, Oscar E. Bouwman, Muskegon, and Gary Byker, Hudsonville, said Michigan has more than \$1.4-million migrant public health budget.

The GOP study found Michigan migrants "frequently live better than their friends who do not come north each year." But some 20,000 fewer came this year, the study found because of agriculture automation and "the depressed market which last year caused a 10 per cent loss in investment by growers."

Throughout Michigan

Rec Fund Meetings Set

LANSING (AP) — The State Department of Natural Resources will hold meetings with local government officials throughout Michigan in late October and early November to explain how communities can become eligible for grants under the \$30-million local recreation bond program.

Communities, including those whose first recreation proposals were sent back for further information, now have until Dec. 2 to file applications for a share of the bond money.

The proposals passing department screening will be submitted to the Legislature in January for final approval.

Rock Concert Promoter Has 'Devil to Pay'

DETROIT (AP) — Some outraged people fear "witches" and the "devil" himself may show up at a rock concert Halloween night in Detroit.

Mike Quatro, promoter of the concert and "black mass," says some 100 irate Detroiters have written letters expressing fear of diabolical consequences from the show.

"Our youth today are confused enough," wrote one worried mother, "without seeing real witches and Satan himself."

Another letter writer said, "Satan is causing enough trouble in the Detroit school system now without encouraging the young people to follow him in a mass meeting."

PLEASE TO DEVIL?

Others ominously warned that the black mass would defile decency and "please the devil." One writer said he believed the show was run by Communists.

Another said the concert would lead to hippies "parading in the nude."

Promoters of the rock concert are billing it to include "Satan himself" (an actor dressed as Satan might be pictured) along with 16 rock bands. Also on the roster are mystic Peter Hurkos and the so-called "high priest of LSD," Dr. Timothy Leary.

Quatro seems unafraid: "I certainly don't take all these witches and devils seriously."

"If these other people do," he said, "then I guess they ought to be worried."

Quatro says he called the Archdiocese of Detroit and the Detroit Association of American Baptist Churches to clear the matter.

"Not only did they both agree the show was harmless," Quatro said, "a spokesman for the Baptists told me his son was going to be there."

"It's all in fun," he said.

12 Americans Die in Vietnam Action

WASHINGTON (AP) — Twelve U.S. soldiers killed in action in Vietnam have been identified by the Pentagon.

The list includes three men from the Midwest. Killed in action:

MARINE CORPS — D. Cooper, Iowa; P. C. Leonard, D. Cooper, Michigan; Lance, Col. Robert L. Thome, Vassar; P. C. Michael E. Cotes, London.

Died not as a result of hostile action:

ARMY — Pvt. David J. Bellinger, Wisconsin; Pvt. David J. Bellinger, Wisconsin; Pvt. David J. Bellinger, Wisconsin.

Missing not as a result of hostile action:

ARMY — Capt. Lawrence E. Booth, Spec. 5 Ernest B. White, Spec. 4 Dennis M. Ruffin.

NAVY — Gunnar Mate, P. C. Peter E. Gulioff.

SUNDAY ONLY

BOMBSHELLS

Things Are Brewing on TV This Week

Viewers get the Halloween treatment instead of the treat this week. The trick is to decide which witch to watch.

It's natural (hardly supernatural) that such programs as "bewitched" and "The Ghost and Mrs. Muir" should come up with something on the witch vein. Also, "Mr. Dressup" has someone costumed as a sorceress.

★ ★ ★

If you want to sit a spell and watch these shows, "The Ghost and Mrs. Muir" and "Bewitched" are on Channel 7 Thursday night at 7:30 and 8:30, respectively, and "Mr. Dressup" has his Halloween show Friday at 11 a.m. on Channel 9.

For those looking for television treats other than Halloween specials this week offer a circus, a brass band, a band of undersea researchers studying whales, and a whale of an opera presentation.

TWICE ON SUNDAY

The circus rings twice on Sunday. Channel 50 presents a behind-the-scenes look at Ringling Brothers Circus in its winter quarters at Venice, Fla., on a telecast at 12:30 p.m. Channel 2 presents the same show at 5:30 p.m.

The musical band is Herb Alpert's Tijuana Brass. Herb is joined by Petula Clark on his third TV special and they spend the hour spoofing movie motifs. It ends with a concert spot filmed at a Hollywood sound stage once owned by Charlie Chaplin. The brass tunes up at 9 p.m. Wednesday on Channel 4.

★ ★ ★

Jacques Cousteau leads an expedition studying the California gray whale as it completes a 5,000-mile migration from the Arctic Ocean. The journey ends at ancestral breeding grounds in Baja California. The one-hour show begins at 7:30 p.m. Tuesday on Channel 7.

A 2½-hour opera "Louis Riel" is presented on Channel 9 Wednesday starting at 8:30 p.m. The historical work tells the story of a Canadian agitator who led his people in rebellion against the government. The libretto is in French and English.

★ ★ ★

Detroit Lions fans can watch their team against the Minnesota Vikings Sunday on Channel 2 starting at 2:30 p.m., and the National Football League presents its first regular season Monday night game this week as the New York Giants face the Dallas Cowboys at 9:30 on Channel 2.

The American Football League Oakland Raiders, with no special programming in jeopardy of being delayed by their game as happened last week, take on the San Diego Chargers Sunday at 4 p.m. on Channel 4. This contest is preceded by the Buffalo Bills meeting the Miami Dolphins at 1:30.

This Week's Cover

"Herb's Third Special" on The Pontiac Press TV Schedule cover this week refers to Herb Alpert's special "The Brass Are Comin'" Wednesday at 9 p.m. on Channel 4. Petula Clark will be one of his guests.

Confrontation? No, it's just Danny Thomas (left) and Jimmy Durante meeting nose-to-nose on the "Jimmy Durante Presents the Lennon Sisters House" Friday at 10 p.m. on Channel 7.

Mikki Jameson displays her haunting beauty in an appropriate theme. She's a charming part of the cast of "Adam-12," Saturdays at 8:30 p.m. on Channel 4.

Chrysler Chief Likely to Be NAB Chairman

Lynn Townsend, board chairman of Chrysler Corp., likely will become the chairman next March of the National Alliance of Business-men (NAB).

Townsend of 5901 Orchard Bend, Bloomfield Township, said that current NAB chairman Donald M. Kendall, president of Pepsi Cola Inc., had announced at the last NAB board meeting that Townsend would be taking over the chairmanship in March when Kendall's term expires.

TOWNSEND

The chairmanship of the NAB is filled by presidential appointment.

Currently vice president of the group, Townsend today indicated he would accept the NAB chairmanship.

AID HARD-CORE JOBLESS

NAB is dedicated to finding jobs for the hard-core unemployed. The group was formed in 1968 by President Johnson.

The NAB operates in 125 cities and is striving to place some 614,000 unemployed in full-time jobs by June 1971.

Henry Ford II, head of Ford Motor Co., was the first chairman of NAB.

1st Car on Mac to Get 'Burial'

ST. IGNACE (UPI) — Can a 12-year-old car with no oil in its crankcase find eternal rest at the bottom of the Straits of Mackinac?

Yes, says Michigan's Mackinac Bridge Authority, and has cheerfully arranged for one of its own wreckers to plop a faithful station wagon into 290 feet of water from the center of the spectacular span next Friday.

"It seems to me it is a fitting end to a car with such a distinguished record," explains bridge authority executive secretary Lawrence Rubin. He says it with a perfectly straight face.

The senile station wagon was the first vehicle to cross the Mackinac Bridge when it opened Nov. 1, 1957. So its sentimental owner, Chicagoan Al Carter, decided the best way to mark the anniversary was by driving the wagon off the bridge to its final resting place.

WANTS WHOLE SHOW

Worried that Saturday football games would steal his thunder, however, he decided next Friday, which is Halloween, would be a better day to do it.

The bridge authority and the U.S. Coast Guard said he could have the burial at sea, but couldn't drive it off the bridge and would have to drain the crankcase so as not to pollute the water.

So at 2 p.m. Friday Carter's car will be hoisted over the guardrail, sail 200 feet to the water and sink slowly into memory.

Flightly Flinger Bagged

Parking Ticket Caper Over

OGDEN, Utah (AP) — The Great Parking Ticket Caper has been closed with the capture and speedy trial of a feathered culprit who had become Meter Maid Enemy No. 1 and a hero of motorists everywhere.

It was a sweater, in citation yellow, that spelled an end yesterday to the month-long career in crime of Blacky Crow.

Crow's daring snatches of parking tickets from auto windshields had left police muttering in earthly frustration as he made his airborne getaways.

Police are uncertain how many tickets Crow took but it is believed to be several dozen.

A CITIZEN'S ARREST

The past few days, Crow had been hanging out near a used-car business headed by Gus Cutrubs. Employees would throw out brightly colored objects for Crow to pick up.

Then, Friday, Cutrubs walked across the lot wearing a sweater the same shade yellow as the city's parking tickets. Crow followed him, and Cutrubs made a citizen's arrest.

Chief L. A. Jacobson immediately charged the bird with petty larceny.

Judge Charles Sneddon imposed a sentence of 30 days in the pen, a wire enclosure to be kept by Cutrubs.

Talks Start Nov. 17 on Arms Race Curbs

WASHINGTON (AP) — The United States and the Soviet Union will start their long-awaited talks on curbing their nuclear arms race in Helsinki, Finland, Nov. 17, the White House announced today.

In a one-sentence statement slated for simultaneous release in Washington and Moscow, the White House said:

"Confirming the agreement reached earlier to enter into negotiation on curbing the strategic arms race, the governments of the United States and USSR have agreed that specially designated representatives of the United States and the Soviet Union will meet in Helsinki on Nov. 17, 1969, for preliminary discussion of the questions involved."

PHASE 1 OF TALKS

Presidential press secretary Ronald L. Ziegler indicated the term "preliminary discussion" meant dealing with

preliminary matters in getting into substantive negotiations. He described it as phase one of the talks which are expected to go on for a long time and deal with highly important disarmament issues.

Possibilities for accord between the two nuclear superpowers on limiting their race in multilateral missiles and in antimissile defense systems are items on which U.S. negotiators hope to place priority.

Ziegler disclosed that today's announcement followed a secret call at the White House last Monday by Soviet Ambassador Anatoly F. Dobrynin.

The Soviet envoy brought the Kremlin's long-delayed reply to Nixon's bid last June 11 to begin on the so-called SALT-Strategic Arms Limitation Talks.

SITE SUGGESTIONS

Nixon had said the United States would be ready to open the discussions after

July 31. He suggested Vienna or Geneva as sites, but left alternatives open.

Dobrynin told Nixon he was instructed to inform the President of Soviet readiness to proceed and proposed the Nov. 17 start at Helsinki, Ziegler reported.

Nixon agreed and sent Dobrynin to see Secretary of State William P. Rogers to work out details. The Rogers-Dobrynin meeting, which took place last Wednesday, had been previously disclosed.

Helsinki was not this nation's idea of the best place to negotiate, in part because the Communists have also been pushing for the Finnish capital as a site for their proposed European Security Conference meeting.

However, the administration apparently decided it would not hold up the Big Two disarmament party in a squabble over a site for the talks.

2 Members Hit State Board

LANSING (UPI) — Two Democratic members of the State Board of Education yesterday dissented from a board policy statement and called for the abolition of the eight-member body.

In a letter to Michigan legislators, Marilyn Jean Kelly and Charles Morton of Detroit said the board "has not functioned adequately during the past five years for reasons which, regrettably will continue to hobble it in the foreseeable future."

Miss Kelly earlier issued a statement outlining her preferred method of selecting the board. Presently, the partisan board is elected at the fall election.

Gov. William G. Milliken proposed abolishing the board and replacing it with a single superintendent appointed by himself. This bill is presently on the Senate floor ready for debate.

The board of education countered with a statement calling the governor's action "ill-advised."

Miss Kelly and Morton said, "Our recommendation is for a constitutional state board of education of seven members, appointed by the governor for staggered six-year terms with the advice and consent of the Senate and with no more than four members from one political party."

They said the governor should use "an expert panel or committees" to recommend persons for the selection. This board would only handle K-12 education.

The two recommended a separate board to take charge of higher education.

The present board is not functioning properly due to "structural flaws attributable to the constitutional convention (1961-62), hostility from the legislature, lack of sympathy and cooperation from the governor, apathy from the political parties and the public.

COSMONAUT AT HOME — Russian cosmonaut Gen. Georgiy Beregovoy flies through the air in a "rocket jet" ride at Disneyland in Anaheim, Calif., yesterday. Beregovoy and fellow Soviet spaceman, Konstantin Feoktistov, also took a make-believe moon voyage at the park. The two cosmonauts received Mickey Mouse watches as remembrances of Disneyland which was once declared off limits to then Soviet Premier Nikita Khrushchev. (Story, Page B-10)

Syrian Force of 300 Crosses Into Lebanon

From Our News Wires

BEIRUT, Lebanon — An armored force of 300 men has crossed into Lebanon from Syria and occupied hills overlooking the village of Yanita, Beirut radio said today.

Yanita is about four miles from Lebanon's eastern border with Syria.

The broadcast said five armored cars, three jeeps with recoilless rifles and eight vehicles towing 120mm mortars made up the force that entered Lebanon last night.

The column was not identified as being a regular Syrian unit, but authoritative sources said they believed it was a contingent from the Syrian army.

TROOPS MOVE UP

The radio said Lebanese army units moved up to the village to block access routes and prevent the force from advancing.

Unconfirmed reports said five Lebanese border guards on patrol near the village had been kidnapped.

The announcement came shortly after Syria said that despite its anger with Lebanon over the guerrilla issue, it would only direct its fire at the Israeli army.

Arab guerrilla forces fought Lebanese

security forces throughout the night, storming police posts in the north and battling for control of two frontier villages in the south.

In the northern port city of Tripoli, where street warfare erupted Thursday, guerrillas and their supporters were reported today to have occupied a number of police posts and to have wrested virtual control of the Old City from authorities.

In Moscow today, Tass distributed a special statement saying the United States is claiming the right to intervene in the Lebanon crisis.

"No outside interference by a big power into the events in Lebanon can be justified," the official Soviet news agency added.

STEPPED-UP ACTION

Israel jets bombed the suburbs of Amman in their closest raids to the Jordanian capital since the 1967 Middle East War. Egypt sent its bombers against Israeli troops in the Sinai Peninsula for the second successive day.

The Egyptian raids dealt "heavy losses in personnel and equipment" to the Israeli camp at Rummana, 12 miles east of the Suez Canal, Cairo said.

Pontiac Press Photo

WHISKER VICTORS — Northern High School wrestling coach Mike Ponder paid up on the student body's decision that he should shave. He submitted to the shaving yesterday in front of a student pep rally. Performing the hairy surgery are (from left) Mrs. William F. Peete (teacher holding the lawn clippers), Dan Chiappelli of the Pontiac Mail Barber Shop and teacher Miss Helen Swanson.

PNH Students Buy Votes; Wrestling Coach Is Shorn

Northern High School wrestling coach Michael Ponder's face is showing. A vote of the students prompted a hair-raising experience yesterday afternoon. Barbbers, teachers and students bearing hedge clippers attacked Ponder's beard in front of the entire student body at Northern's homecoming pep assembly.

To help raise money for the drama club's (Northern Players) upcoming play, "Mary, Mary," Ponder let the students vote with pennies and nickels on whether his black woolly beard should stay or go.

When the vote came in at the end of the week, Ponder decided to undergo the humiliation of becoming bare-faced in front of all the students—instead of letting his wrestlers pull out his beard hair by hair using illegal holds.

Though Ponder lost face yesterday, the Northern Players won \$93.07.

The price of a shave really is going up.

47 Reds, 10 Gl's Die in 5-Hour Viet Fight

SAIGON (AP) — American troops killed 47 enemy soldiers in their biggest battle in more than a month. There was no assistance from government troops, a spokesman said today.

The U.S. Command said the five-hour battle, fought by the U.S. 25th Infantry Division, 25 miles northwest of Saigon yesterday, left 10 Americans dead and 12 wounded.

It came at a time when the United States is trying to shift the major ground fighting to the South Vietnamese. Asked why no government troops joined the battle, a spokesman for the division said, "No request for assistance was made by American forces."

However, another U.S. officer with knowledge of the area said it appeared to be a question of speed.

'NEEDED IN A HURRY'

"They needed reinforcements in a hurry," he said, "and there wasn't anyone available except more American troops."

Most of the U.S. casualties occurred in the last couple of minutes of the battle when enemy troops concealed in "spider holes" popped out on all sides and killed eight and wounded eight with furious small arms fire.

The U.S. troops recovered enough to shoot back, and many of the 47 enemy dead were killed in the exchange, officers said.

Sunday's Outlook Is Warmer, Rainy

Gathering clouds foretell a rainy Sunday in the Pontiac area. The mercury is expected to reach the mid or upper 50s today, dipping to the mid-40s overnight.

Tomorrow will be a little warmer with a possible high of 60 expected. The warming trend will quickly fade into a colder Monday with more light showers.

Rain chance is 20 per cent today and tonight, increasing to 50 per cent tomorrow.

Low temperature in downtown Pontiac prior to 8 a.m. was 40. It had risen to 50 by noon.

The battle appeared to support the belief of some U.S. intelligence officers that the Communist command is planning a new winter campaign starting in early November.

44 ENEMY KILLED

Allied communications today reported 44 enemy killed in scattered ground fighting across the country the previous day. U.S. losses were three killed and 18 wounded with South Vietnamese casualties reported as one killed and four wounded.

In Saigon today, South Vietnamese President Nguyen Van Thieu says he has not discussed the question of a unilateral ceasefire.

The official Vietnam Press Agency said Thieu gave a flat "no" yesterday when asked whether Nixon had consulted him on the question. There has been speculation that Nixon might announce some kind of cease-fire in the speech he has scheduled for Nov. 3.

W. Germany Boosts Value of Mark

BONN, West Germany (AP) — The new West German government, in office less than a week has increased the international exchange rate of the mark to combat inflation and keep the economic boom in check.

The revaluation means Americans will pay more for Volkswagens, German cameras and hi-fi sets.

For the U.S. Army private in Germany, his \$13 monthly pay will be reduced by \$10.40 in buying power, lessening the amount of beer and sausage he can buy.

The revaluation is worth millions to speculators who have been frantically buying Deutschmarks for months in hopes they would be worth more.

NATIONS PROFIT

The nations to whom West Germany owes money stood to gain millions. Singapore said it would profit more than \$30 million from revaluation. If the Bonn government owes a certain number of marks, it will pay back that number despite the increase in value.

It was one of the first decisions of Chancellor Willy Brandt's new Social Democratic government. The announcement yesterday meant the mark is now worth just over 27 cents rather than 25 cents — an increase of 8.5 per cent.

The revaluation will mean 3.66 marks

U.S. Space Shop Seen

TEHRAN (AP) — The commander of Apollo 11, Neil A. Armstrong, predicted today that the first U.S. space workshop with its own launching pad will be in operation by 1972.

The American astronauts and their wives arrived here last night on their world tour.

to the dollar instead of four. The change was announced after the European money marks closed, and it takes effect at midnight Sunday.

German banking officials had favored revaluation for almost a year to try to slow inflation. Prices have been rising 2.7 per cent a year in West Germany.

The higher prices for the goods

Germany exports in such huge quantities

may mean some loss of business to Japan. The Japanese compete strongly with the Germans, particularly in cameras, radios, hi-fi and recording equipment.

For the average West German, the change in the value of his money will mean a cheaper foreign vacation. For instance, his new marks will buy more Spanish pesetas and Italian lire. All in-

quent control of factors pertaining to the earth's heat balance," R.S. Willshire and W.H. Clossessy of Martin Marietta Corp., Denver, Colo., said in a paper presented to a meeting of the American Astronautical Society.

The earth's heat balance is delicately controlled by chemicals in the atmosphere that filter some of the sun's radiation and pass other radiation through to the ground. Likewise, heat reflected from the earth into space is controlled by atmospheric chemicals.

A buildup of a pollutant in the atmosphere could change this filtering

process, the scientists said, endangering plant and animal life and altering the earth's temperature.

SMALL MODIFICATION
"We might not react to such a change until its effects manifested themselves in a small percentage modification of our natural environment," Willshire and Clossessy said.

"This change could be in the heat balance or perhaps in the light to which our eyes and skin are exposed."

A battery of instruments mounted on satellites circling the globe must begin a constant surveillance of the atmosphere to detect changes in transmission of solar radiation caused by pollution, they said.

"We do not have a complete understanding of what pollution molecules injected into various parts of the atmosphere could do to our environment. Hence, we must prepare ourselves by using a global monitoring system watching all the various molecular species over a long period to ascertain their rate of buildup and the nature of their dispersal throughout the atmosphere," they said.

The names of the victims were being withheld by the Lapeer County Sheriff's Department until the families of both men are contacted.

Deputies said the accident occurred about 3:45 a.m. just north of Hunter Creek Road in Lapeer Township. They said the car apparently was traveling at a high rate of speed when it ran off the road.

The driver was dead at the scene, according to deputies. The passenger was taken to Lapeer County Hospital.

Record mid-October GMC truck sales were reported today by Martin J. Caserio, a vice president of General Motors and general manager of GMC Truck & Coach Division.

GMC truck sales of 5,146 in the Oct. 11-20 period surpassed the previous high of 3,856 set last year by 33.5 per cent, he said.

Accelerating the sales rate was the introduction of GMC's 1970 truck line Oct. 16, Caserio said.

Calendar year GMC truck deliveries, also at a record pace, totaled 117,232 through Oct. 20, a 7.4 per cent gain over the 109,131 sales in the same span last year.

Combined truck-and-coach deliveries of 5,155 in the middle 10 days of October ran 32.4 per cent ahead of the 3,894 sales last year.

Calendar-year truck-and-coach sales of 118,550 through Oct. 20 were 7.2 per cent above the 110,547 deliveries last year.

House Vet Eyes Race

McCormack Hits Charge

WASHINGTON (AP) — Speaker John W. McCormack emphatically denies he knew about or aided any influence peddling through his House office. And the 77-year-old Massachusetts Democrat—contrary to previous speculation—says he will seek not only another term as congressman but as speaker.

McCormack told newsmen Friday that Life magazine said an unwarranted and malicious attack on him in reporting the

speaker had let his office and influence be used by a friend and a staff member to seek favors from government officials.

The charges obviously triggered McCormack's decision to run again, thus avoiding any appearance of his quitting under fire.

Until the activities of Nathan Voloshen, a long-time McCormack friend, and Martin Swigg, the speaker's chief aide, were publicized it had been widely

believed among House Democrats that McCormack would retire at the end of the 90th Congress in December 1970.

He will be 79 then, with 43 years of service in the House.

McCormack has come under growing criticism from younger Democrats, who felt he was out of touch with them and was failing to provide the leadership needed with the White House in Republican hands.

Conflict Is Denied By Official, Partner

A claimed conflict of interest involving Rochester City Attorney Arthur Cox has been denied by Cox and a business partner, developer Sidney Weinberger.

Cox is listed a part-owner with Weinberger of a newly-established development firm, Bloomer Park Co., 134 W. University, Rochester, Suite 314.

As city attorney, Cox interprets ordinances regarding development. "Mr. Cox will definitely not be placed in a conflict of interest situation, as Bloomer Park Co. will not be going after city development projects," Weinberger said. "The only thing Bloomer Park Co. is concerned with is the land we own in Avon Township (Bloomer State Park)."

Cox said his business connection with Weinberger, a major developer in Rochester, is "insignificant" and will not affect his legal work for the city.

Still, the conflict of interest accusation may be brought up at a public hearing Monday. At that hearing, Weinberger will propose using three acres of public land — in the Rochester Municipal Park — to provide additional parking space at his 134 W. University office complex.

Two Scientists Urge Satellite Study, Fear Pollution Blocks Sun Radiation

LAS CRUCES, N.M. (AP) — Two scientists said today air pollution may be blocking part of the sun's radiation. They urged a worldwide satellite survey of atmospheric pollutants to determine whether the earth's heat balance is changing.

"Man's continued existence may depend on his measurement and understanding of the earth's heat balance," R.S. Willshire and W.H. Clossessy of Martin Marietta Corp., Denver, Colo., said in a paper presented to a meeting of the American Astronautical Society.

The earth's heat balance is delicately controlled by chemicals in the atmosphere that filter some of the sun's radiation and pass other radiation through to the ground. Likewise, heat reflected from the earth into space is controlled by atmospheric chemicals.

A buildup of a pollutant in the atmosphere could change this filtering

process, the scientists said, endangering plant and animal life and altering the earth's temperature.

SMALL MODIFICATION
"We might not react to such a change until its effects manifested themselves in a small percentage modification of our natural environment," Willshire and Clossessy said.

"This change could be in the heat balance or perhaps in the light to which our eyes and skin are exposed."

A battery of instruments mounted on satellites circling the globe must begin a constant surveillance of the atmosphere to detect changes in transmission of solar radiation caused by pollution, they said.

"We do not have a complete understanding of what pollution molecules injected into various parts of the atmosphere could do to our environment. Hence, we must prepare ourselves by using a global monitoring system watching all the various molecular species over a long period to ascertain their rate of buildup and the nature of their dispersal throughout the atmosphere," they said.

ROBERT F. MARASCO

Ex-Beret Hurt; Slaying Suspect

SOUTH AMBOY, N.J. (AP) — Former Army Capt. Robert F. Marasco, a central figure in the controversial Green Beret murder case, was injured critically early today in a traffic accident.

Attendants at Perth Amboy General Hospital, where the 27-year-old Marasco was taken, said he was in critical condition with head injuries suffered in a two-car mishap.

South Amboy police said Marasco's car was struck head-on by another vehicle which crossed the median line. The driver of the second car, Thomas Green Jr., 22, of Cliffwood, was killed.

A passenger in Marasco's car, Jacqueline Ziegenbalg, 34, of Old Bridge, was hospitalized with leg injuries.

1 OF 8 CHARGED

Marasco, a resident of Rutherford, was one of eight Green Berets the Army charged this summer with the murder of an alleged Vietnamese double agent.

The charges were dropped last month.

The Army had identified Marasco as the man who did the shooting in the alleged murder.

Marasco was discharged from the Army at Ft. Monmouth this month. He said then that he did not know what he planned to do except that he would "look for a job." He was an insurance salesman before entering military service in 1966.

Last Wednesday Marasco was granted a divorce from his wife, Denise, at Jurez, Mexico.

Birmingham

Kiwanis Club Installs Its 1970 Officers

BIRMINGHAM — New officers of the Birmingham Kiwanis Club were inducted recently in the annual installation and ladies night dinner.

They are Darryl L. Bruestle, Birmingham police chief, president; Williams B. Woodburn, owner of the Birmingham Re-sale Shop, First vice president; Grant W. Barber, principal of Pierce Junior High School, second vice president; John E. Filkins of the Birmingham Business Office of Lybrand, Ross Brothers and Montgomery, treasurer; and Jack A. Daugherty of League Life Insurance Co., secretary.

Ralph R. Watts, Jr., of the communications staff of Chrysler Corp., immediate past president will be responsible for increasing the club's membership and aiding in establishing new clubs in Division Six in 1970.

Leiv Larsen of Southfield, lieutenant-governor of Kiwanis Division Six, conducted the official installation ceremony.

Newell H. McCuen, 1044 N. Glenhurst,

has been promoted to the position of manager of forward planning — product analysis and control at General Motors Corp.

He had been chief mechanical engineer for GM's overseas operations.

A native of Evansville, Ind., McCuen attended Massachusetts Institute of Technology and served two years with the Navy as an electronics technician.

He joined General Motors in 1941 as an inspection supervisor with Cadillac Motor Car Division and transferred to Hydra-Matic Division as a project engineer in 1946.

In 1952 he was transferred to Chevrolet Motor Division where he served successfully as senior project, assistant staff and staff engineer. McCuen joined GM Overseas as assistant chief engineer in 1960 and was named chief engineer in 1963.

He is a member of the Society of Automotive Engineers and the MIT Club of Detroit and president of the Bloomfield Country Day School Board of Trustees.

BLOOMFIELD TOWNSHIP — Donald J. LaBelle, 919

Dowling, has been appointed manager of forward planning trucks at General Motors.

He had been assistant chief engineer for research and development at GM Truck and Coach Division.

LaBelle is a native of Detroit. He received a bachelors degree in mechanical engineering from the University of Detroit in 1958, the year he joined the GMC Truck and Coach engineering department. He became structure and suspension development engineer in 1955 and a year later was named truck engineer.

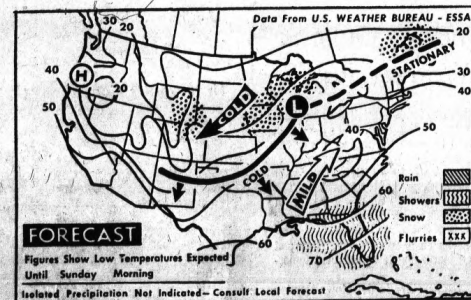

In 1960 he became assistant chief engineer in charge of truck, electrical and engine engineering and in 1961 was named assistant chief engineer in charge of coaches.

LaBelle is affiliated with the society of Automotive Engineers and the American Ordnance Association.

Colonial Williamsburg Approach Reflected In Living Room Furnishings

Fir Beams On Ceiling And Fireplace Complement Pine Paneling

Pontiac Press Photos by Edward R. Noble

Family-Tested Recipe for a Cozy Home

By JODY HEADLEE

Home Editor, The Pontiac Press

Take a basic home plan from a national magazine, add a young couple with enthusiasm and ideas, mix well with more than an ounce of patience and you could come up with a Dutch Colonial that combines the charm of yesterday, the conveniences of today and the freshness of tomorrow.

The Warren L. Carlsons of Bloomfield Township did.

Built in 1963, the two-story is nestled in a cluster of towering trees, its old-gold trim a pleasant blend with the used-brick exterior. Beds of ivy and pachysandra eliminate lawn woes under the trees as well as add texture and height interest to the velvet green lawn.

TWO ENTRANCES

Two front entrances allow easy passage into the formal foyer and the informal family room.

"We put so much of ourselves into this house," said Mrs. Carlson, "we can't

help but love it. And should we ever build again we'd repeat our ideas." This is a sure sign of success, for many times as homeowners live with a plan, they discover its inadequacies and vow to never repeat the mistake.

In decorating the main floor, the Carlsons continue their interest in Early Americana by using both the primitive and Colonial Williamsburg approaches.

Setting the living room's background for the elegance of the 18th century are off-white walls, plush carpeting and draperies.

DUTCH TILES

Highlighting the pine paneled fireplace wall and framing the fireplace are Dutch tiles in blue-on-white. To emphasize the tile's sailing ship pattern, Mrs. Carlson made a three-dimensional crewel picture of a square-rigger.

Throughout the house are displayed Mrs. Carlson's collection of primitive

lighting pieces. Some are reproductions, many are authentic.

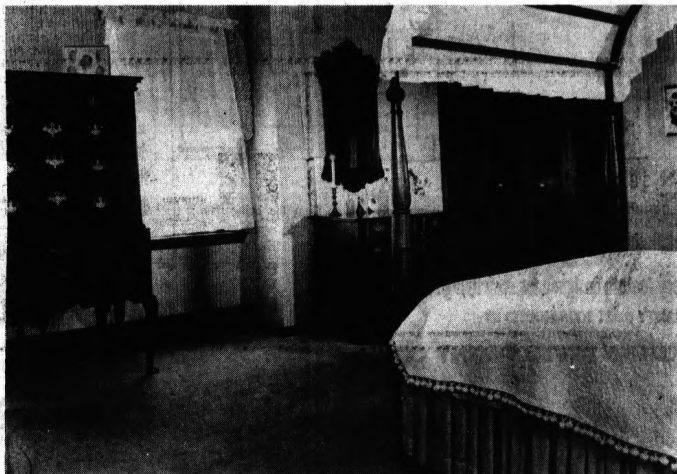

The transition from the formal living room and entrance foyer begins in the bare-floored dining room which also opens off the foyer and continues into the inviting family room paneled in pine.

Hessian andirons are silhouetted against the bright fire in the raised hearth fireplace. Natural herbs hang from the fir beams above the fireplace, typical of the early housewife's method of drying her herbs while creating a pleasant fragrance throughout her home.

TEN YEARS AGO

"We began collecting our antiques about 10 years ago," said Mrs. Carlson, pointing to a commode they discovered in Connecticut. Lighting the piece is a tin pudding mold transformed into a lamp.

More of Mrs. Carlson's early lighting collection can be seen on the fir mantel beam and on the hearth.

Off-White Carpeting And Blue-On-White Wallpaper Used In Bedroom

Crisp Rustle Of Dried Leaves Provides An Autumn Symphony At The Warren L. Carlsons In Bloomfield Township

Room and Board Usually Major Costs

By ANNE TAYLOR
AP News Feature

Dear Miss Taylor: I have been offered room and board in a private home for the next two years at \$100 a month. After all my deductions for income tax, Social Security, hospitalization and so on, I have a take-home pay of \$320 a month.

I hope to save as much as possible in the next two years. I'm planning to keep my expenses to the minimum; no new clothes, very little for incidentals. My transportation costs about \$20 a month.

Please advise me on how much I should allow for savings bonds? A. S. Cleveland, Ohio

Dear Miss A. S.: You are fortunate to have your biggest budget items — food and housing — stabilized at a very fair rate. Even so, you better not pare your living expenses to the point you suggest. It may not be realistic. Have you looked at the way the Consumer Price Index is rising lately?

I hardly believe that any lady can avoid buying clothes from time to time no matter how firm her resolve. And besides, you should be prepared to spend about five per cent of your income for clothing upkeep and an occasional scarf or handkerchief. I suggest that you allow no more than 30 per cent of your monthly take-home pay for a savings program. That will give you about \$2,500 after two years, a figure I feel you think is too low but which I think is realistic.

HOW TO SAVE

For a two-year crash savings program that you contemplate (and I hope you continue to save after that), buying U.S. Savings Bonds may not be the best course. Interest rates are relatively low for two-year periods.

A savings bank would bring you a better return. And you should ask your bank about certificates of deposit that pay five per cent and which sometimes can be purchased in amounts as small as \$25.

Here's another option: Invest in a mutual fund, although be careful not to sign up for a long-term program. Ask a local broker to name a fund which has a consistently good record for five years and which has outperformed the popular market averages for the past six months.

After you receive the information, make the decision yourself. It's your money, not the broker's, a fact that too many people discover only when it comes time to pay the bills.

New Fabric Aid

A new fabric coordinate for the home seamstress is called Blazum. It is 100 per cent Acrilan bonded to acetate tricot. It looks like wool but washes like cotton. The manufacturer says it wears like iron. It is available in bright colors and patterns.

I'm Saving New Antiques for Future

By BETTY CANARY

I thought the flea markets were only a fad but, seemingly, nostalgia knows no bounds.

I go to them and look around and get sick just thinking about how rich I could have been. If only I had KNOWN.

One thing I think about is a collection my aunt started years ago. She started what I thought were remarkably ugly dishes (I still think so) called "gaudy willow." Today they would be worth a small fortune. She wanted to give me part of her collection and I turned her down with polite words and a snicker.

Actually, I'm not surprised the gaudy willow I refused turned out to be worth a fortune. After all, I'm the girl who bathed her Shirley Temple doll until the skin peeled off. And who else would have lost TWO Mickey Mouse watches?

The marble-topped table my mother-in-law gave us when we were first married? Well, we took that old thing, threw the base into the trash heap and put wrought iron legs under the top.

I saw one like it last weekend. The price tag said \$275.

COOL FORTUNE

And those dishes my grandmother tried to force upon us when she moved into an apartment? I took some cups and saucers and my sister liked a soup tureen and a platter or two. But we told her to just give all those cheap glass things to the Salvation Army store. "But I think they are so pretty," she insisted. "Just take a few pieces." Not us. Who wanted any old carnival glass tumblers that now sell for \$3.50 each or the bowls that today are worth a cool \$35? I just try not to think about my mother's bottle collection. All those old bottles she'd picked up and saved because she thought they were "just darning."

Truthfully, I never thought I would grieve over throwing away my uncle's insulator collection when he died. We merely thought he was crazy. But, because his insanity manifested itself only in his collection of power-line insulators, nothing was ever done about him. Glass insulators are now going for not a

pretty penny but for several beautiful dollars each. Also, now we know who was crazy.

I know it is too late for me to collect the rewards on the collections of my ancestors. What I want to do is figure out how to invest in something today so my children and grand children can reap rewards on some tomorrow.

I have done a lot of thinking about what particular kind of saving would be the wisest and I have, at last, made my decision.

I am going to save throw-away bottles. This particular item, in good condition, will be scarce in the future. First of all, because most people today do as they are told and every one of those bottles says, "No return." Therefore, people throw them away and unbroken ones should be in short supply some day.

Secondly, I believe saving the bottle instead of creating a mountain of broken glass will be an act of good citizenship, a sort of personal Get America Beautiful campaign. That's not a bad investment in itself.

MAKE OVER PAGES

April 11 wedding vows are being planned by Diane Jean McAllister and Jon Paul Krumwiede. Making the announcement are her parents, Mr. and Mrs. Burnell McAllister of Anders Street. The prospective bridegroom is the son of Mr. and Mrs. Lester Krumwiede of Rea Street.

Mr. and Mrs. William K. Prisk of Royal Oak announce the engagement of their daughter, Candace Lee, to Kenneth M. French. The prospective bridegroom is the son of Mr. and Mrs. Kenneth French of Shawnee Lane.

Oakland University students, Dana Jane Satterlee and Joel R. VanAmberg will marry. Her parents, Mr. and Mrs. Dane R. Satterlee of Grand Rapids announce the engagement and wedding plans. The prospective bridegroom is the son of Mr. and Mrs. H. K. VanAmberg of Utica.

Mr. and Mrs. Lawrence Sanders of Whitfield Street announce the engagement of their daughter, Barbara Jean, to Gary Lee Noel. The prospective bridegroom is the son of Mrs. Oscar Noel of Cranberry Beach Boulevard, White Lake Township and the late Mr. Noel. Spring wedding vows are being planned.

MRS. WAKEFIELD

MRS. MULLINS JR.

Couples Say Vows

Shelley Dahn carried a bouquet of chrysanthemums with roses as she was escorted to the altar of St. George's Episcopal Church in Milford for her marriage recently to Kirk Wakefield.

The church parish house was the setting for the reception honoring the newweds.

Patricia Acree and Mike Lamphere stood with the couple as honor attendants.

Gowned in satin with Venetian lace, the bride is the daughter of Mr. and Mrs. Charles Dahn of Highland.

The son of Mr. and Mrs. Robert Wakefield, also of Highland, and his bride are honeymooning in northern Michigan.

MULLINS - FENTON

Suzanne Fenton carried a bouquet of roses, carnation, Stephanotis and ivy for her wedding recently to Paul E. Mullins Jr.

The couple was feted at a reception in the Clarkson Golf Club following the nuptials.

Mrs. Curtis Arnold was matron of honor for the bride who was gowning in peau de soie with seed pearls.

James Munsil attended the bridegroom as best man.

The son of Mr. and Mrs. Paul Mullins of Mahopac Drive,

Orion Township and his bride, are honeymooning in northern Michigan and Canada.

Parents of the bride are Mr. and Mrs. James J. Fenton of Chamberlain Street, Orion Township.

AVIS-WITT

Gail Marie Witt and Dennis Lee Avis were married recently in Evangel Temple. They greeted guests at a reception in the Knights of Pythias Hall.

Vera and John Andrisits were maid of honor and best man for the couple.

Parents of the newweds are Mr. and Mrs. Harold Witt of Augusta Avenue and Mr. and Mrs. Lester Avis of North Opdyke Road, Bloomfield Township.

Gold Star Wives Have Tea Today

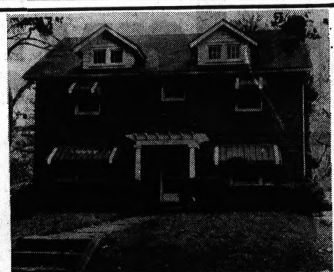

The Midwest Regional Gold Star Wives of America, Inc. is slating a tea on Saturday from 2:5 p.m. in the Meigs Road home of Mrs. Richard E. Caswell.

The group is formed to assist widows of servicemen who died on active duty within the past ten years. A special guest will be Mrs. Karen T. Sinitic of Chicago, regional president.

Want Recipes

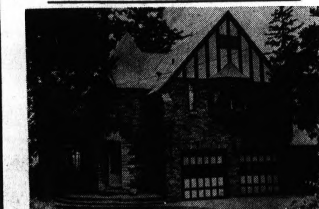

We have requests for two cookie recipes. One reader wants a recipe for "those big round molasses cookies, old-fashioned with an indentation for jelly in the center." The other wants one for butterlick cookies.

Keep your requests and answers coming and we'll have a real swinging recipe exchange. Letters or cards only for the answers; we cannot take phone calls.

SEMINOLE HILLS COLONIAL 2 LOTS

Immediate possession on this brick home having spacious living room with fireplace, dining room, large kitchen, 8x20 porch and lavatory on first floor. 3 bedrooms, including master bedroom 13x19 with dressing room, and ceramic bath on second floor, heated 13x15 room on third floor. Full basement, recreation room 13x15. 2 car garage. \$24,500, terms

OPEN SUNDAY 1-5 P.M. SYLVAN LAKE FRONT

4-bedroom English Manor brick on north shore, newly carpeted and attractively decorated. Living room 14x21, formal dining room, modern kitchen with breakfast nook, 2 fireplaces, 1 1/2 baths, recreation room, 2 car attached garage. Reduced to \$42,900, terms. Directions: West on Voorhees off Telegraph to grocery store, turn left to 2605 Sylvan Shore Drive. Your hostess, Edith Priestap, home phone 682-9354

Biki

Party pajamas arrive on the scene. These are from Biki of Milan. They are extraordinarily flattering, even for those who swear they will never wear pants. The pants are cut low, fit beautifully over the hips and then become very full. The top, also full has long narrow sleeves closed with zippers at the wrist — another zipper is at the back neck. Make the top of the same fabric to complete the costume.

Choose from these fabrics: silk jersey, lawn, soft cottons, or one of the man made fabrics. NA-2040 is cut in Misses sizes 8-16. Size 12 requires approximately 4 1/2 yards of 45" fabric for 3 piece pajamas. To order pattern NA-2040, state size, include name, address, and zip code. Send \$1.75 postpaid to SPADSEA, Box N, Dept. PX-6, Milford, N.J. 08048. Tel.: 201-685-2201.

This re-cut, pre-perforated Spades Designer Pattern comes in ready-to-wear sizes that produce a better fit and are easier to make. Order normal ready-

the newest crinkle!

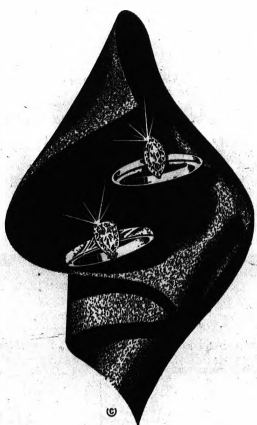

The crushed patent look. See how it reflects lights. In black manmade, link trim. On rounded toe, mini-bell heel. Pick your new slick, mini-priced!
