Firemen Spray Chemical Stock Causing Blasts

Steel Building Melts as Magnesium Explodes; Loss Is \$40,000

BAY CITY (AP)—Firemen stood helpless early today as some two and one-half tons of magnesium ignited and destroyed the main building of the Midland Magnesium Co., about two miles north of the city.

Firemen at first inadvertently sprayed water onto the magnesium in the building. They said they had no way of knowing that magnesium, a chemical that explodes in water, had been stored there.

No one was reported injured in the fire which was first reported at 2:45 a. m. Plant owner Richard McCann, of Bay City, estimated the loss at about \$40,000. The magnesium was stored in a quonset-type main warehouse of steel construction. Observers said the building "just melted."

State Police from the Bay City Post blocked off the area on U.S. 23 and re-routed traffic. They said the glare of the blazing magnesium was visible from as far away as Flint.

Firemen said a special chemical is required to extinguish magnesium fires and none was available to them. Their only course of action, they said, was to contain the fire to the one area.

Authorities said they were unable immediately to determine the fire's origin since the plant was closed for the night.

State Police said an investigation probably would be undertaken later in the day when the heat subsides.

McCann said his plant was a magnesium fabricating firm producing material on a sub-contract basis. He said they had been turning out machine die castings for Chrysler Corp.

The work force normally included 25 persons, McCann added, and he said the destroyed plant had served as factory and warehouse.

Police Go to the Rescue for Forgetful Woman

CLEVELAND (AP)—Mrs. Howard Smith was driving a friend to the airport yesterday when she remembered she had left a pot of stew on the stove. She phoned police for help, saying the door key was under the mat.

Patrolman Robert Allen went to the house, stirred the stew a few times, then dutifully turned off the gas and left.

Pontiac Family Gets Word Korea GI Presumed Dead

Pvt. Frederick J. Hapgood, of 257 Seward St., has been listed by a Defense Department report as "presumed dead" after being missing in Korea more than a year.

He had been listed by the Reds as dead last August.

Pvt. Hapgood came here from Newfoundland in April 1948, and was inducted into the Army in 1949. He was released in the spring of 1950 but re-enlisted in July 1950 when he was 26 years old.

He had served with the 24th Infantry Division but was transferred to the First Cavalry Division as a mortarman.

Pvt. Hapgood made his home with his sister, Mrs. Robert Stephens on Seward street.

Mrs. Stephens said she hadn't heard anything from her brother after the U.N. forces withdrew from a forward position in November 1950.

He was reported missing in action early in 1951.

Two other sisters, Mrs. Cora Brown and Mrs. Cleo Brown, and one brother, Edward, reside in Pontiac.

Both were wounded in the conflict and are still under medical treatment.

Hoover Highly Confident About Country's Economy

WASHINGTON (UP)—Former President Herbert Hoover assured the nation Monday night it can have "high confidence" that the country is not headed into another "great depression" like the one he grappled with two decades ago.

The 79-year-old former President said the "combustible materials" that triggered the depression during his administration are not around now to haunt the first Republican President since he left office.

Mr. Hoover expressed confidence the economy will ride out the current dip, which he declined to give a specific name. But he said if times do get tough, taxes should be cut in order to pump more consumer buying power into the economy.

In a wryly humorous speech before the American Good Government Society, the usually solemn former President observed a battle was going on "over whether or not we are in a dip, a slump, a depression." He added that he "should be regarded as an expert" on the subject of depressions.

"At least I was credited with having constructed one all by myself," he said. "I even received the honor of having that depression named after me by various political candidates."

Mr. Hoover made his somewhat light-hearted analysis of the economy at a dinner where he and Gov. Allan Shivers of Texas were awarded the society's 1954 Good Government Awards.

The former President diagnosed the present situation as "the inevitable result of the ebb and flow of a free economic system." He said scientific discovery, invention and improved production methods have enabled business to sustain itself.

State Police Detective Farrell Babcock and Paul Sullivan, a state auditor, said that McCoy had made the charge to them but that "we haven't had a chance as yet to check out his statements."

McCoy said that he was associated with Seeley and Mrs. Lois Moon Lay, Muskegon realtor, in the Midwest Moving and Transfer Co. of Grand Rapids from 1949 to 1952.

Aud. Gen. John B. Martin Jr. said that the dealings of the Midwest company have been under study.

"There is a possibility," he said, "that the company made improper profits by the moving of houses from land bought from the state for right-of-way."

Seeley was removed last week by Highway Commissioner Charles M. Ziegler on the recommendation of Atty. Gen. Frank G. Millard.

Millard launched an investigation of a study by Martin's staff that revealed the possibility that the state had lost thousands of dollars in western Michigan by improper land deals.

U.S. Bombers Used by French Protecting Laos

Heavy Losses Inflicted on Red Rebels, Forcing Them to Retreat

SAIGON (INS)—American-built planes rushed today by French airmen to inflict heavy casualties on Red troops forced into a retreat from the approaches of the Royal Laotian capital of Luang Prabang.

The French high command announced that units of the Vietminh "iron division" and guerrillas also had withdrawn from the capital's outer defense port of Muongnai, 55 miles north of Luang Prabang.

Attacked constantly by the French airmen, flying fighter-bombers supplied by the United States, the rebels of Gen. Vo Nguyen Giap's division were trying to regroup in the Nam Bac valley at a point 56 miles northeast of Luang Prabang.

The French airmen caught one battalion in close formation at a point six to seven miles east of Muongnai and inflicted heavy casualties.

Hundreds of rafts and sampans and a number of bridges also were blasted.

The threat to Luang Prabang and Muongnai was said to be lessened but it was too early to know the intentions of the enemy who has been regrouping for 48 hours.

There was no indication that the Communists were withdrawing altogether from northern Laos or whether they had decided on new objectives.

The announcement today said that Red troops which failed to take Muongnai since the northern invasion began Jan. 30 suffered heavy casualties from French artillery and plane attacks.

Workers Saved After Cave-In

2 Trapped for Minutes in 13-foot Excavation This Afternoon

Two Pontiac DPW workers were rushed to Pontiac General Hospital about 1 p. m. today after being rescued from a sewer ditch cave-in on W. Brooklyn Ave. near Baldwin Ave.

The men were identified as Floyd R. Rhee, 25, of 95 E. Huron St., and John Merriweather, 33, of 397 Highland St.

Rhee was completely buried for 15 minutes and Merriweather was trapped under 3 feet of earth when the sides of a 13-foot-deep sewer excavation crumbled.

Authorities at the hospital said Rhee is in critical condition with a brain injury and a jaw fracture. Merriweather is reported in fair condition.

Pontiac firemen and other members of the sewer crew dug the men out. The men were laying pipe when the cave-in occurred.

Winter Still Here—Light Snow Tonight

Snow flurries tonight and Wednesday will remind Pontiac area residents that winter won't bow out for 25 more days.

Although the temperature is expected to remain about the same, the U. S. Weather Bureau predicts occasional light snow tonight and flurries tomorrow.

A low of from 30 to 34 tonight and a high from 36 to 40 degrees Wednesday are forecast. The mercury ranged between 29 and 45 degrees yesterday.

The temperature today in downtown Pontiac rose from 29 degrees at 8 a. m. to 35 at 2 p. m.

CHARLES J. MERZ

Former Banker Taken by Death

Charles J. Merz Dies in Battle Creek After Lengthy Illness

Charles J. Merz, 67, former Pontiac banker, died at his home, 160 North Ave., in Battle Creek, early today. He had been in ill health for some time and bedridden since November, 1953. He had lived in Battle Creek since 1932 where he was employed at Central National Bank.

Born in Detroit, Dec. 19, 1886, he was the son of Henry and Julia Merz. He received his early schooling in Detroit, moving with his parents to a farm in Pontiac Township in 1896. He took a course at Pontiac Business College.

His first banking experience was with the former American Savings Bank here where he started work in 1908. He became assistant cashier and director of this bank when he was 27 years of age.

Mr. Merz became cashier and director of the Pontiac Savings Bank late in 1916. He rose to first vice-president of the bank in 1920 following the amalgamation of Pontiac Savings Bank and First Commercial and Savings Bank. He continued in that capacity when the Oakland County Savings Bank joined later the same year. He also was assistant treasurer of the Pontiac Trust Company.

When in Pontiac, he had served as president of Pine Lake Country Club and as a director of the Board of Commerce and the YMCA. He was also a trustee at the First Presbyterian Church of which he was a member.

Mr. Merz was a member of Pontiac Lodge 19, Knights of Pythias. Surviving is his widow, the former Mary A. Giddings, whom he married Sept. 27, 1911; a son, Major Charles Merz of Sairborn, Ohio; a daughter, Mrs. A. J. (Ruth) Michal of Pontiac; four brothers and a sister, Henry of Pontiac, Julius of Birmingham, Herman and Clara of Detroit and Fred of Sarasota, Fla.

Also surviving are four granddaughters.

Refutes Probe Testimony

WASHINGTON (INS)—Annie Lee Moss, Pentagon employee named in Senate testimony today as a "card-carrying" Communist, emphatically denied that she ever had been a member of the Communist party or a Red sympathizer.

Mrs. Moss, who is 48 years of age, colored, and a widow, also denied that she had ever been employed in the Defense Department's secret coding room.

She told International News Service that until two weeks ago she worked as a "router," making a clerical record of incoming and outgoing communications in a Pentagon message center.

Mrs. Moss added that on Feb. 9, she was transferred to clerical work in a Pentagon supply room. She said she was told by her superiors that the transfer represented a promotion.

The woman, who has been absent from her Pentagon job for 10 days because of a throat infection, said she had never been a Communist. "I am a loyal American. I am not now and never have been a Communist," she said.

FBI Informant Names Woman as Communist

Probing Senator Says Annie Moss Works in Code Room

WASHINGTON (AP)—A former FBI undercover informant testified today that she had known as a dues-paying, card-carrying Communist a woman who Sen. McCarthy (R-Wis.) said now is handling "top secret messages" as an Army code room employee.

Mrs. Mary Markward, the FBI informer, named the Army employee as Annie Lee Moss.

Mrs. Markward, trim in a black suit and white gloves, testified at a public hearing called by McCarthy's Senate Investigations subcommittee.

Mrs. Markward told the subcommittee that as a former Communist party official here she had known Annie Lee Moss as a Communist party member. At the time, she said, the woman was a cafeteria worker in the Pentagon.

McCarthy a moment before said the woman, whom Mrs. Markward was to name as, according to the subcommittee's understanding, now working in the code room of the Army Signal Corps, "handling top secret messages."

McCarthy is embroiled in controversy with Secretary of the Army Stevens over McCarthy's charge the Army has "coddled Communists."

Stevens was once scheduled for a face-to-face meeting with the committee today on the issue, but McCarthy deferred the session until Thursday.

Instead, McCarthy decided to go into this case which he described as that of an "alleged Communist" in the Pentagon's "decoding room."

Convening the hearing, McCarthy said the testimony he was about to take should come as "no surprise" to the Army because "the Army had the same information months ago."

He said he had given Pentagon officials notice some time ago that he planned to air the case publicly unless they "did something" about it.

McCarthy said that "in fairness" to Secretary Stevens, he wanted to emphasize that "I doubt very much that Secretary Stevens personally knew about this case."

The hearing was the first in which Democratic members of McCarthy's Senate Investigations subcommittee have participated since they quit the group in a row with McCarthy last July.

Present today were Sen. McClellan (D-Ark.) and Jackson (D-Wash.). The third Democrat, Sen. Symington (D-Mo.) is out of the country.

It also was the first hearing at which the Democrats had their own counsel, Robert F. Kennedy, brother of Sen. John F. Kennedy (D-Mass.).

Mrs. Markward testified, in reply to questions, that she had read (Continued on Page 2, Col. 3)

Birmingham City Manager Reports on Community's Progress From '49 to '53

From Our Birmingham Bureau
BIRMINGHAM — City commissioners took a good look at the city's major accomplishments, past and future, last night.

The basis for the examination was the comprehensive report on every facet of the city from 1949 to 1953 by City Manager Donald C. Egbert.

During that period, the per capita debt was reduced from \$54.74 to \$27.58, the report revealed, while the city acquired capital improvements at a cost of \$2,600,000. Taxes have dropped from \$20 per \$1,000 of assessed valuation to \$19.

Returning to current problems, the lawmakers approved a change in ownership of the Birmingham Cab Co.

Chief of Police Ralph W. Moxley recommended disapproval of the move, due to alleged weak financial backing. Thompson swayed the commissioners from this point of view.

In the continuing fight against Dutch elm disease, the lawmakers approved the purchase of a sprayer and 2,700 gallons of spray to prevent and curtail the blight which destroys elm trees.

Fathers and sons of the First Methodist Church will gather at 6:45 tonight for their annual banquet, sponsored by the Men's Club. Sharing the role of toastmaster will be father and son William and Billy Dove.

The program will feature Norbert Schemansky, middleweight Olympic world champion weight lifter. To round out the program there will be father and son acts, a trampoline act, and singing by the boys choir, under the direction of Rodney Petersen.

A new League of Women Voters committee for the study of election laws will hold its first meeting at 1:30 p.m. tomorrow at the Oakland avenue home of Mrs. Donald G. Howarth, chairman.

Past Chiefs Club will meet at 8 tonight with Mrs. John Simetz, of Pierce street, Co-hostesses will be Mrs. Irene Gifford and Mrs. Grant Capling.

Kiwanis Club will honor Boy Scout Troop B-25, which it sponsors, with a dinner tonight at 6:15 at the Community House. The newly formed troop will be presented with its charter, and a court of honor and installation of leaders will be held.

Parents and guests of the 39 boys in Adams School district and Kiwanians, will number close to 100. Along with a senior patrol leader and four patrol leaders, Scoutmaster Charles B. White and his assistants, Robert Dickinson and John VanderRoest, will be installed.

Cecil Bruton of Detroit, governor of the Kiwanians, will be a guest. Club members Clifford Wright, Charles Savage and Clarence Nichols are in charge of the program.

A return engagement of Mr. and Mrs. Nat Reiss, who will provide a musical background for their movies of Florida, will again highlight tonight's 7 o'clock dinner meeting of the Supper Club of First Presbyterian Church.

Agnes Ross Gould of the church will hold a potluck dinner at 6:30 p.m. at the Berkley home of Mrs. Jack Wiedemann, on Kenmore. Guest speaker Mrs. L. I. Woolson will address the group on "The Organization of the Church and Presbyterians."

American Legion Auxiliary will hold its monthly business meeting at 8 tonight at the post home on South Woodward avenue. A special guest will be Mrs. Eileen Ault, president of the 18th District.

Seeks to Delay 4th Judge Bill

Broomfield Wants Week to Unite County Solons Before Debate Starts

Rep. William S. Broomfield (R-Royal Oak) will ask Michigan House of Representatives today to postpone debating Oakland County's fourth circuit judge bill another week.

Broomfield said in the meantime he'll attempt to unite the county delegation behind his bill, earlier scheduled to come up for debate today.

The bill, approved by the Oakland County Board of Supervisors, is opposed by Reps. Leann Harrelson (D-Pontiac), Walter T. McMahon (D-Hazel Park) and Fred G. Beardsley (R-Oxford).

Both Harrelson and McMahon want the bill amended to let Gov. G. Mennen Williams appoint a fourth judge now instead of waiting for the November election.

The bill as introduced by Broomfield would allow county voters to elect the fourth judge when the new post is filled for the first time.

Broomfield says there isn't any money in this year's county budget to pay the county's share of another judge's salary.

Broomfield said Beardsley believes the county should wait until a new courthouse-office building is built so the judge can have his own courtroom. But Broomfield said the supervisors' meeting hall in the county office building could double as a courtroom in the meantime.

Says Alleged Red Works With Code

(Continued From Page One)

ported regularly and promptly to the FBI while a member of the Communist party.

McCarthy interjected that it could be assumed that the FBI had turned over the information to the government departments concerned. And, he added, a Civil Service Commission report would be introduced to make clear the information about Mrs. Moss "was known to the Army for a long time."

Mrs. Markward's role as an undercover agent for the FBI had been known before. She testified that she joined the Communist party in May 1943 and continued active in it until October 1949 when she was stricken with paralysis.

Among the various party positions she held, she said, was the chairmanship of the "Northeast Club" here in the District of Columbia. She identified Mrs. Moss as a member of this unit.

She swore that she had given reports to the FBI on Mrs. Moss as early as 1949.

Sen. McClellan raised a question as to whether it could be established that the Mrs. Moss referred to by Mrs. Markward was the same one now working in the Pentagon.

Mrs. Markward said she was "not sure" she could identify Mrs. Moss now, even if she were present.

However, when McCarthy asked whether she believed the Mrs. Moss now employed by the Army is the same woman who belonged to the Communist club in the 1943-45 period, the witness answered:

"There is no question in my mind, sir."

Subcommittee Counsel Roy M. Cohn and Francis P. Carr said also there was no doubt on the point.

They said the FBI had other informants besides Mrs. Markward who had identified Mrs. Moss, and that all of this material had been given to the Civil Service Commission and the Army.

McCarthy said the inquiry has nothing to do with his blasts at the Army for honorably discharging Maj. Irving Peress, now a practicing dentist in New York. McCarthy has called Peress a "fifth amendment Communist."

Peress termed the McCarthy charges "sheer nonsense."

It was the Peress case that touched off a barrage of charges and counter charges between McCarthy and Stevens over the weekend.

Specifically, Stevens objected to the way McCarthy questioned Brig. Gen. Ralph Zwicker in a closed hearing in New York last week. Zwicker is commanding general at Camp Kilmer, N. J. As a result, Stevens has ordered Zwicker and Maj. Gen. William Bergin, the Army adjutant general, not to testify in response to McCarthy's summons. Stevens said he would appear himself. Network television coverage of the session is planned.

Stevens got a vote of confidence yesterday from his chief, Secretary of Defense Wilson, who is vacationing at Miami Beach, Fla.

"I have every confidence Secretary Stevens will handle the matter in the proper way and with fairness to everybody," Wilson said in an interview. "Whatever he's doing, I think it is all right."

Fire Blamed on Lightning

Investigators Discover Burned Electric Lines in Ruins

Authorities investigating the M. A. Benson Lumber Co. fire said today that twisted and badly burned electrical wiring indicated the fire was touched off by lightning.

Earlier, several nearby residents said they saw a vivid flash of lightning just before the fire broke out in the lumber company's main building at 549 N. Saginaw St.

Company officials said the tentative damage figure of \$135,000 may go higher after a more complete check of the charred remains. Final estimates are not expected until Wednesday or Thursday.

M. A. Benson Jr., secretary-treasurer of his father's company, said the building was heavily stocked with top grade lumber in preparation for the spring construction season.

He said about 12 wood-working machines were destroyed when fire leveled the building.

Fire Chief John F. Schroeder and Pontiac Electrical Superintendent John W. Emerson investigated the ruins Monday.

Schroeder said he also is trying to run down a rumor that several persons were seen in the building prior to the fire.

Knowland said the presence of the Chinese Communists at Geneva could be justified in discussion of a possible peace settlement in Korea, since the Reds fought in that war.

Jack Habel to Testify in Condemnation Suit

Jack Habel is expected to take the stand tomorrow in Oakland County Circuit Court in an attempt to show why the city should not condemn his property at 11-49 Park St. for use as a municipal parking lot.

The city's suit to condemn the property was adjourned last Friday by Circuit Judge George B. Hartwick until 9:30 a.m. Wednesday.

A jury will decide whether or not the property owned by the Jack Habel Chevrolet Co. should be condemned and if so, what compensation Habel will receive for the land.

Traffic experts called by both sides during the two-week trial have disagreed on the necessity of the land for downtown parking and also on the value of the land.

The Pontiac City Commission is expected to give final approval tonight to placing a \$3,000,000 hospital bond issue on the April 5 ballot.

Commissioners passed first reading of the ordinance last week. A three-fifths vote of city property owners would be needed to approve the plan.

The city must pledge \$1 per \$1,000 of the property tax to back the bond issue. But City Manager Walter K. Willman has said Pontiac would actually only need

Probers Quiz Woman Jeweler

New Yorker, 50, Denies Being Communist, Says Committee Dogged Her

WASHINGTON — Members of the House Un-American Activities Committee told a woman jeweler from New York today they had testimony linking her with Soviet spying activities, but she retorted:

"I have definitely denied it time and time again, and I refuse to answer again."

On that statement, bawled 50-year-old Mrs. Victoria Stone stood refusing to answer more than 60 questions "on the grounds the committee tends to incriminate and degrade me."

The committee, in a formal report, had described Mrs. Stone as a member of an espionage outfit interested in atomic developments. It said the head of the apparatus was Albert A. Adams, reported to have fled to Russia in 1945.

Mrs. Stone replied to only two major questions today, testifying she is not now and never has been a member of the Communist party.

Committee counsel Frank Tavenner said previous sworn testimony indicated that one Philip Levy had visited Mrs. Stone's jewelry store on a number of occasions. Tavenner said testimony indicated Levy furnished a "business cover" for a trip from the United States to Denmark for two men who were apprehended in Denmark on charges of spying for Russia.

Mrs. Stone refused to say whether she knew the men involved, or had transmitted any documents to Soviet agents or Communists.

Rep. Jackson (R-Calif.) commented there was "some merit" to her contention that she was being "dogged" by the committee, but said the committee was offering her an opportunity to clear up the matter "once and for all."

"I have heard all that time and again," she replied. "I think I am best judge of my health."

Near tears after about 20 minutes of questioning, Mrs. Stone told the committee she had testified for the group in 1948, as well as before a grand jury, without claiming protection of the Constitution.

"And still it goes on," she said.

Doty Denies Petition for Restraint Order

Oakland County Circuit Judge Frank L. Doty has dismissed a petition for an injunction against restraint of Bloomfield Hills from interfering with toilet removal from private property there.

The petition was sought by the B & M Fill Land and Top Soil Co., of Royal Oak, which had purchased toilet from a 15-acre tract of land on Quanton road owned by Mrs. Stella Phillips.

In his opinion Judge Doty upheld a Bloomfield Hills zoning ordinance against commercial use of single residence property.

Frank V. Hadas, 71, for 19 years connected with GMC Truck and Coach Division here, died yesterday at his residence, 2036 Renfrew, in Detroit. He had been ill 10 years.

Mr. Hadas came to the truck plant in 1928 and at the time of his retirement in June 1947 was on special assignment to the general manager.

He was born in Detroit Aug. 24, 1882, and is survived by his widow, Clara A.; a daughter, Mrs. Lewis Vice, and a son, Gilbert F., at home.

Funeral will be at 10 a.m. Thursday at Gesu Church, Detroit, with burial in Holy Sepulchre Cemetery. Arrangements are by Ted Sullivan Funeral Home, 14230 W. McNichols Rd., Detroit.

Roland Richards

Roland Richards, 59, of 6441 Logan, Williams Lake died yesterday morning.

The son of Thomas and Etta Richards, Mr. Richards was born in Sanilac County on May 20, 1894. He married Mrs. May Holcomb in Gladwin County in 1914.

Mr. Richards lived in Oakland County for the past 11 years and was last employed by GMC Truck and Coach Division.

In addition to his widow, he is survived by two sons, Thomas C. of Pontiac and Eugene R. of Denver, Colo.; two daughters, Mrs. Marion Williams of Galesburg, Ill. and Mrs. Audrey Hitchcock of Milford; a brother, George Richards of Marlette; two sisters, Mrs. Mary Fox of Snover and Mrs. Kate Woolley of Marlette.

Funeral will be at 1 p.m. Thursday at Hutton Funeral Home, with burial in Hutton Cemetery, LaMont Township. The Rev. George Murphy of United Missionary Church will officiate.

Urge Reds Ease Reich Barriers

West Proposes Talks to Loosen Trade, Travel Restrictions

BONN, Germany (U)—The Western high commissioners want to talk with the Russians about easing restrictions on trade and travel within divided Germany.

They outlined their ideas in similar letters last night to Soviet High Commissioner Vladimir S. Semenov and his Berlin representative, Sergei Dengin. They proposed negotiations for the removal of what they called "unjustifiable obstacles" set up by the Russians between East and West Germany and East and West Berlin.

Acting four days after the wind-up of the Berlin Big Four Foreign Ministers Conference, which deadlocked on the question of German unity, the United States, British and French commissioners suggested elimination of such things as:

The Red border death zones, street barriers, red tape on westerners' travel in East Germany, the Communist system of controls on goods, the barriers to free circulation of books, newspapers, magazines and films.

Proposals for Berlin included the restoration of such city-wide services as mail, streetcars and dial telephones.

The Russians have shown no particular eagerness in the past to junk this system of controls.

Otto Nuschke, Communist East Germany's deputy prime minister, said in a newspaper article Sunday the Eastern price for removing restrictions would be the abolition of "Western agent centers"—his term for such agencies as the American-operated radio Rias, the anti-Communist Fighting Group against Inhumanity and the League of Free Jurists.

East German Communists staged demonstrations in the Soviet zone last night criticizing the Western stand at the Big Four Conference that a unified Germany be based on all-German elections and allowed to choose its partners in economy and defense.

The East German news agency said 10,000 persons rallied at Potsdam, 150,000 at Leipzig and more than 50,000 at Rostock. East Berlin's Mayor Friedrich Bert was quoted as telling the Potsdam gathering the Big Four conference provided evidence "The Western imperialists have not yet abandoned their old intentions of hurling Germany into another war."

Rowston to Oppose More Bars in City

Philip E. Rowston, who is running for Pontiac City Commission from District 2, is the 14th candidate to sign a statement opposing the increase in liquor-by-the-glass permits.

Dr. Henry Savage of the First Baptist Church said Rowston stated he was "not in agreement with the action taken by a majority of the city commission to circumvent the city ordinance" by voting to grant 12 additional licenses.

Thirteen other commission candidates have taken similar stands, although Savage said some signed statements with slightly different wording.

The statements were solicited by Dr. Milton Bank, chairman of the Citizens Referendum Committee which opposes the liquor permit hike.

COFFEE TO SPARE—There's an awful lot of coffee in New York, though hard to get—at any price. On this West Side pier, thousands of bags, totaling 9,000,000 pounds pile up because of a

Follow the Leader Ends in Drowning

TECUMSEH, Okla., (UP)—A 17-month-old boy played "follow the leader" with a flock of ducks yesterday and the game cost him his life.

Mrs. Effie Boyle, mother of Donald Oliver Boyle, said she saw him following the ducks down to a stock pond on the farm of Mr. and Mrs. A. F. Cargill, grandparents of the youngster.

The ducks walked into the pond and began swimming. Young Donald did the same, and sank. He was dead before his mother could reach him.

More Beautiful Women

Bob Considine Says:

Young Singer Making Bid for Bobbysocks' Following

NEW YORK (INS)—Some people... some places... some things.

Tommy Mara is a big, good-looking 18-year-old kid with the face of a Greek God (he's Italian) and the voice of a baritone angel. A few months ago he was unknown save to his nearest of kin. Now he sings for MGM records and has one named "More Than Ever" which seems headed upward.

His father, Jimmy Santamara, an immigrant who did better than fair in the trucking business, has bet a lot of money that Tommy will click.

Father and son have dismissed from their minds the tens of thousands of aspiring young singers who have fallen by the wayside through the years.

They think only of Eddie Fisher, one of Tommy's heroes in life, and the like.

"I always could sing and liked to sing for friends and gatherings in New Haven, Conn., while I was in school," he was saying the other night. "Then somewhere along the way, I found out that you can make as much as \$30,000 with one pop hit. That was it, I guess. Doing what I like to do for money appealed to me."

It's hard for a young fellow not to sing like somebody else, he said. But he's trying, even though he keeps thinking of Fisher. He can't get Fisher out of his mind.

I've seen Sinatra leave places by rear doors rather than walk through a herd of screaming bobbysocks. I asked Mara how he'd feel about that.

"Coming up we wish we were in the shoes of those fellows," he said. "Maybe later it will be different, but now it would be ideal."

Want to go on a safari? Next question: Got \$3,000? If you have the desire and the dough, Temple Fielding is your man. Temp has been leading tourists around the world for five or six years with what I consider a travel guide as necessary as nylon shirts and soap.

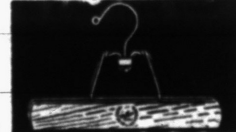

Fielding's guide will never tell you how many cobblestones are on the pavement in front of Notre Dame, but it will tell you where and when to bring Kleenex, where to get a few more mil regis from your buck, and how to get an autographed picture of Farouk in flight.

Fielding is arranging a 65-day safari to leave the first week in April and a 56-day job departing after July 4. He won't guarantee the safari members will shoot a lion, or even meet Hemingway or Ruark. But if I know Fielding, it'll be different.

Comet III, the British jet due in 1956, has thus far been ordered by B.O.A.C. (5) and Pan-American (3). Sounds small but the fleet's 500-m.p.h. speed plus 58 passenger capacity, will enable even these few planes to carry 97,000 trans-Atlantic passengers a year, the same as the gigantic Queens or the incomparable United States.

Thousands of gray whales migrate every autumn from the Arctic, down the western coast of America to the bays of lower California about the middle of March.

Circle Players Rehearse Show

Preparing Production of 'The Male Animal,' March 4-6

The Circle Players of the Pontiac Parks and Recreation Department are busy preparing a play, "The Male Animal," for presentation in the Elks Temple, March 4, 5, and 6, at 8 p.m.

Directed by Miss Pat Stites of Waterford, the play will be sponsored by the Pontiac Education Assn.

The plot concerns the marital and educational problems of a college professor. Melvin Staebler, counselor at Waver Junior High School, will play the leading role, with Joyce Smith, teacher at Eastern Junior High, cast as the professor's wife.

Leading supporting roles will be played by Jim Laefner, of the Pontiac Police Department; Terry Murphy, teacher at Roosevelt High in Keego Harbor; and George Mastick, a General Motors employee.

Others in the cast include Carol Charles, Pan Trent, John Youngpeter, Mary Parrish, Don Chuey, Ella Vaughn, Sam McManus, Walt Henry and Wayne Sharpley.

"The Pontiac Circle Players is a non-profit organization whose members like to produce plays for their own recreation and the enjoyment of others," said Leonard T. Buzz, Parks and Recreation activities supervisor.

Proceeds from the production will go to the Parks and Recreation Department and the Education Assn., Buzz explained.

1,750 REASONS HE'S AGAINST MARRIAGE—Max Sablack, 52, above, of Cleveland, hauled a cardboard box full of 1,750 one dollar bills into the county clerk's office to pay a court-awarded back alimony bill to his ex-wife, now Mrs. Ann Hurd, of S. Amherst, Ohio. Sablack, shown with both hands full of bills, said he had been divorced in 1945, with an oral agreement of no obligations, and that nothing happened until recently, when his ex-wife obtained the judgment.

Dear Brother-in-law

I got your letter this morning
and was glad to learn that you
and my kid sister enjoyed your
recent vacation in Honolulu.

Near the end of
your note, you
mentioned that a
script-writer who
worked on your
last picture had
pointed out that
the plot of one of
my recent col-
umns resembled
a story written
by Xenophon
around 360 B. C.

BILLY ROSE

For all I know, your scrivener
may be right, but you might tell
him for me I always thought a
Xenophon was something you
played with little hammers.

Even if his charge of unorigi-
nality is true, however it wouldn't
bother me. As I ponder it, the
art of story-telling wouldn't be
nearly so artful if a writer didn't

occasionally avail himself of the
classic hand-me-downs from the
past.

The best example is O. Henry's
"The Gift of the Magi," one of
the most popular stories ever writ-
ten. In it, as you may remember,
a young husband pawns his watch
so that he can buy his wife a
comb for Christmas, while his wife
cuts her hair off and sells it so
she can surprise him with a watch
fob.

Well, Alex, if you will turn to
page 218 of the Liveright Edition
of a book called "On Love" writ-
ten by Stendhal over a hundred
years ago, you will find the basic
plot of "The Gift of the Magi" told
as follows.

A long time ago in Araby, there
lived a young man named Abdul-
lah who was in love with a girl
named Celeste. Alas, he was a
Moslem and she a Christian, and
it was an unthinkable sin to marry
outside one's religion.

In despair, the young man
went off to the wars—there was
always a war to go to in those
days—and on the battlefield he
was run through by a lance.

"Is there anything I can do?"
a comrade asked him.

"I am going to die," said Ab-
dullah, "and I shall never again
see Celeste in this world. If I
die in the faith of my fathers,
I shall never see her in the next
world either. I therefore renounce
the Moslem faith and embrace
Christianity, and ask you to be my
witness."

A few days after Abdullah's
death, his comrade was given per-
mission to go to the town where
Celeste lived. To his dismay, he
found the girl had been stricken
by a fatal illness.

"I am about to die," said Ce-
leste, "and since I shall never
see my beloved again in this
world, I want to be with him
in the next. Will you bear wit-
ness that I have renounced Chris-
tianity and die believing there is
no god but Allah and Mohamet
is his prophet. . . ."

This plot turn, my dear Alex,
wasn't entirely original with Sten-
dhal either. It was first set down
a dozen centuries ago in an Arabic
manuscript called "The Book of
Love."

It may well be that the sardonic
O. Henry knew the source of Sten-
dhal's story, and that it was with
tongue in cheek that he named
his version of the ancient tale,
"The Gift of the Magi." Old Ara-
by, as any dictionary will tell you,
was the home of the Magi.

My love to you and my kid
sister.

As always,

Billy

**Art Gallery Reports
3 Paintings Damaged**

GRAND RAPIDS (AP)—The Grand
Rapids art gallery yesterday re-
ported vandalism damage to three
painting treasures, including El
Greco's "St. Francis in Ecstasy."

A small boy has been questioned
and the gallery staff has been
keeping a close watch on all
visitors.

The El Greco and two other
paintings, a "Madonna and Child"
by Cosimo Di Pratense, Renaissance
artist, and a 19th century work,
"Comrades," by Thomas Sully,
were cut and punctured.

Richard T. Yonkers, gallery di-
rector, said the damage was lim-
ited and that repairs could be
made.

The three paintings were de-
scribed as the most valuable given
to the art gallery. The vandalism
took place on the last two Satur-
days, officials said.

For the past seven successive
years, the number of births in the
United States has exceeded 3½
million per year.

The accident rate of truck fleets in the United States has dropped 65 per cent during the past 20 years. Fleets reporting to the National Safety Council in 1952 averaged less than two accidents per 100,000 vehicle miles. The rate was 5.7 in 1934.

House Defeats Bill to Let Townships Keep Fines

LANSING (AP)—A bill permitting townships to keep penal fines for themselves was defeated 17-69 for the second straight year in the House last night.

The bill would have permitted townships to credit their general funds with fines assessed for violation of township ordinances. The money now goes to the county library fund.

Proponents argued that cities now have the power to keep their fines, and "what is good for the cities is good for the townships."

Opponents said the bill would cripple county libraries.

Passed in the House and sent to the Senate were bills permitting townships to pay zoning board members up to \$10 a day and permitting the State Social Welfare Department to revoke licenses of convalescent and nursing homes and like institutions if the owners refuse to permit inspection.

A scheduled House vote on a bill permitting school boards to

take out insurance to protect teachers against damage suits was deferred until today.

The House advanced for votes today bills to:

Require auto titles to indicate if the cars have ever been used as taxis or police cars.

Permit the city manager or mayor to appoint city civil defense directors instead of the governing bodies.

Require new railroads to be built at least 14 feet apart instead of the present 13 feet.

The Senate approved a bill to clear the way for a reported \$100 million power plant development at Harbor Beach, serving the Thumb area.

The bill, which now goes to the House, allows Detroit Edison Co. to buy 88 acres of submerged land in the harbor as part of the site for the power plant.

The Senate passed and sent to the House legislation forbidding the state to sell food to officials

and employees of state institutions.

The measure is intended to stop criticism of favoritism and excessive costs in institutional management.

The upper chamber sent back to committee for more study a bill to forbid damage suits against institutional doctors who administer psychiatric shock treatments to mental patients.

Hospital administrators, who now give some 15,000 of these treatments a year, have reported they must stop unless their physicians are protected against suits for injuries resulting from the drastic treatment. Senators said the bill was not dead and that some solution would be reached.

The Senate voted to remove the age restrictions on licenses to hunt deer with bow and arrow. Also approved was a bill to use county jails to incarcerate persons sentenced for less than one year or for contempt of court.

Paintings which have been found in the walls of European caves were put there by Cro-Magnon man as much as 30,000 years ago.

Far East Parley Set

Only a secretly reached agreement to begin talks on Far Eastern issues at Geneva April 26 saved the Berlin conference from complete failure.

As many observers expected before the Big Four foreign ministers convened, the unyielding attitude of Russia's Molotov blocked any progress toward solution of the German and Austrian problem.

The decision to confine Geneva discussions to the Korean peace and later to Indochina, was reached following concessions by Molotov. He had insisted all along on discussions on all world problems.

For example, he agreed that Red China be admitted to the conference by invitation and not be accepted as an equal partner, as he previously had demanded. On the other hand the West modified its position to the extent of agreeing that Russia in attending the Geneva meeting, would not be considered a Korean belligerent.

For French Foreign Minister BIDAULT the Geneva agreement is a great personal triumph. He was able to return to Paris with the news for his countrymen that at least negotiations to end the seven-year-old Indochina war are assured. Opinion in Paris is divided, however, as to whether this will increase the probability that the French parliament ultimately will ratify the European Defense Community pacts.

Disappointing though the conference was from the West's viewpoint, there is great satisfaction in the fact that Russia failed to divide the West. It also is gratifying that the whole world knows that the roadblocks to settlement of European problems were one hundred per cent Russian.

Popular Promotion

The PRESS feels sure that President EISENHOWER's decision to make CHARLES A. LINDBERGH a brigadier general will meet with widespread public approval.

Before the nomination could be sent to the Senate it was necessary to clear up a regrettable incident of early World War II days. The hero of the first solo flight to Europe had resigned his reserve commission as colonel in the Air Force.

His action followed criticism by the late President ROOSEVELT of LINDBERGH's campaign against U. S. involvement in the war. When the Lone Eagle agreed to accept restoration of the commission he had resigned in 1941, and the promotion, the way was cleared for this long overdue recognition.

It should not be forgotten that as soon as the Japanese attacked Pearl Harbor, Lindbergh volunteered for duty. He served as a civilian consultant to the Air Force and supplied valuable information on the German air force. He also taught pilots of our P-38 fighters how to conserve fuel.

We believe with retired Gen. GEORGE KENNY, LINDBERGH's boss in the Pacific, that this promotion is highly deserved and hope it will get early confirmation.

Convicted Reds Sentenced

In sentencing the six convicted key members of the Communist party in Michigan, Federal Judge PICARD spoke for all loyal Americans.

What he said was no overstatement. He called their crime of conspiring to teach and advocate violent overthrow of the U. S. Government "akin to treason."

Then as even the six accused had expected, he imposed the

near maximum penalties provided by the Smith Act, prison terms of four to five years each plus fines of \$10,000. A striking feature of the court session was the promptness with which all six defendants rejected Judge PICARD's alternative offer to help them get to Russia.

Credit is due Judge PICARD for the meticulous care with which order in the courtroom was maintained and the rights of the accused were safeguarded throughout the four months long trial. In his charge to the jury he emphasized that the defendants were not on trial because they are admitted Communists, but because they conspired to destroy the Government.

The five defendants facing prison terms and the sixth, who may be deported to his native Scotland, are moving to appeal. That in no sense alters the fact that their conviction was a noteworthy victory against the forces of world Communism.

It cannot serve, however, as an excuse to relax the common effort to combat subversion in Michigan or anywhere else.

"If you want to be popular, just be yourself," advises a psychologist. That depends. It's the pursuance of just such a policy that accounts for the unpopularity of many a person.

Oakland County Has Had 4 in Its 133 Year History

Daffynition
 Diplomatic: When you know how to let the other fellow have your way.

Oakland County has had four courthouses since it was organized in 1820. The first was built in 1824, and was a one-story squared-log building on the lot in the rear of the present courthouse. It was succeeded in 1848 by a low one-story frame building on the site of the present courthouse. In 1857 this gave way to a two-story brick building, used until early in this century. The cornerstone of the present courthouse was laid on Aug. 30, 1904, and it was dedicated on Nov. 1, 1905.

The office top conservationist discovers that February takes a space of five lines on the calendar this year, when in 1953 it fit quite neatly on four.

A letter from television star Wally Cox, far better known by the name of "Mister Peepers," tells of his interest in news from Pontiac, as he now owns a farm in this area, near Dryden, and adds that he expects to come and live here a little later.

Chairman of the Oakland County Welfare Board, John A. (Jack) McDonald, says there isn't much new under the sun in his work, and that the same problems exist from year to year. "People will be human," is his comment.

It is difficult to make our county's own people realize its big growth, and Chairman Robert Y. Moore of its Board of Auditors, says the allocation of taxes is a matter in which somebody must do a job that has difficulties too numerous to think about.

Clarence K. Patterson's definition of a successful U. S. foreign policy: "Kick the Russians in the teeth without getting kicked back, and make 'em like it."

Wondering if anybody beat him on getting 1954 vegetables from his garden is Stuart Bradmeier of Keego Harbor. He's been digging parsnips since early in January.

When he was a young man around Pontiac in the closing years of the last century, Hallie Mortimore writes me from Detroit that the military balls at the academy at Orchard Lake were the biggest social events of the season.

With a 1950 population of 123, Lake Angelus is Oakland County's smallest village. Located in two townships, 87 of these were in Pontiac Township, and 41 in Waterford Township.

Wesley Stevens of Sashabaw Plains, states that on February 19th he dug about a pair of parsnips and salsify from his garden.

Supervisor of Pontiac Township for 30 years, Frank Shimmmons has seen its area outside the city changed from a few farms to one that now mostly is covered with residences.

Citizen of Troy Opposes Annexation of Part of Township to City of Birmingham

(Letters will be condensed when necessary because of lack of space. Full name, address and telephone number of the writer must accompany letters but these will not be published if the writer so requests, unless the letter is critical in its nature.)

I am in opposition to private interests paying for and receiving special consideration over the feelings of Troy Township citizens and taxpayers, at a special meeting of the Oakland County Board of Supervisors, held recently and paid for by a private Development Company, in a successful attempt to put the township at a disadvantage in the forthcoming election to have a portion of our township annexed to the City of Birmingham.

What was wrong with general election day in August as originally agreed, except that perhaps too many township taxpayers would go to the polls and vote against it?

It was as fair to the city as to the township, the voters in both communities would have the same incentive to go and vote. In my

opinion that is why the Development Company was only too willing to put up the money for the special meeting. Yes, they are going to pay for the special election in Troy too, and why not?

He Claims Justice Saved Land From Bad Politics

There is only one Supreme Court in these United States, the members thereof speak for the U. S. Constitution. Justice Sutherland, in a written decision of the case, U. S. vs. Curtis-Wright Export Corp. analyzed the powers of the job of the President in his part of office concerning foreign policy.

Here are just a few quotations of that broad decision. "Rulers come and go; governments end and forms of government change; but sovereignty survives. A political society cannot endure

without a supreme will somewhere.

"The first President refused to accede to a request to lay before the House of Representatives the instructions, correspondence and documents relating to negotiation of the Jay Treaty."

In not changing the supreme law of the land the justice saved it from bad politics.

Army Calendar Data in Dr. Peress Case Perplexing in Its Whys and Wherefores

By JAMES MARLOW

WASHINGTON (AP)—When did the Army first learn Dr. Irving Peress commissioned a captain and promoted to major, would not answer questions about subversive organizations to which he might have belonged?

Sen. McCarthy (R-Wis.), in an uproar with the Army over the case, seems to think it wasn't until last August after Peress had been in service many months. McCarthy complains that the Army kept him on five months longer.

Actually—according to the Pentagon—Peress refused to answer two months before he was called to active duty, but was called nevertheless, and remained in service 13 months.

On Feb. 1 in a letter to Secretary of the Army Robert T. Stevens, McCarthy protested that Peress refused to answer a questionnaire last August, was promoted to major in October and was honorably discharged this month.

This was the information given by a Pentagon spokesman on Peress, a New York dentist, whom McCarthy calls a "Fifth Amendment Communist."

The Army needing dentists during the Korean War, commissioned Peress a captain Oct. 15, 1952, and on Oct. 27 and 28, 1952, gave him three questionnaires about membership in subversive organizations. Peress refused to answer, citing the Fifth Amendment which says a man can't be forced to give information which might tend to incriminate him.

Two months later, Jan. 1953, Peress was called to active duty. On Oct. 23, 1953, he was made a major. On Dec. 30, 1953 the Army decided to release him. Why? In a letter to McCarthy on Feb. 16, 1953, Stevens said: Peress' case had "come to the Army's attention" and he was being let out because of his "unwillingness to submit loyalty information."

Since he had refused the information two months before he was called to active duty why did his case have to be called to the attention of the Army, which already had it? Repeated inquiries at the Pentagon last night failed to get an answer.

Stevens conceded in his letter to McCarthy that under the doctors draft law "it has unfortunately been possible in the past for commissions to be tendered to individuals who might be undesirable."

Although the decision to discharge Peress was made last Dec. 30, he was not notified until Jan. 18. Then he was told he would be released no later than April. He was free to resign before then.

Eight days later, Jan. 30 McCarthy called Peress before his Senate investigations subcommittee and said later the dentist still an Army major, had cited the Fifth Amendment in refusing to answer questions about Communist connections. McCarthy never explained how he learned about Peress' case.

Three days later, on Feb. 2, McCarthy announced he had written Stevens the day before demanding immediate court-martial of Peress and investigation and possible court-martial of those officers "who had full knowledge of his Communist activities and either took no steps to have him removed or were responsible for his promotion thereafter."

That same day, Feb. 2, Peress stepped out of the Army at his own request with an honorable discharge.

Stevens was in the Far East while this was happening. When he returned he wrote McCarthy on Feb. 16 that court-martial of Peress now was "impracticable" because, first, he was out of the Army, and second "the Army does not have available facts on which sound charges could be made."

There seems to be no question of spying in this case, Peress, as a dentist, had an insensitive job, although McCarthy says he was recruiting for communism.

Baering Down

Strange how the Bricker codicil sent us on a hunt through the constitution. We were all set to take a fast broom up the compromise chimney.

Up until now the constitution has gone straight to the subject like a bear to a bee tree. It's as plain as a Quaker grandma's hat.

At no time in the document does the comma throw the switch of equivocation. Which reached its zenith in the delphic oracle, "You, Darius, Persia can beat."

You can take that two ways in liquid or powder form. Darius can wallop Persia or twice as versa.

Either way the oracle figured to beat the market. But the genius in the constitution is the simplicity of the language. The egg boils evenly on both ends.

The preamble is a classic in cataloging. The ingredients in the label are union, justice, tranquility, defence, welfare and liberty for the co-makers and their posterity. They weren't packing a picnic basket for Simon to go fishing in a pail.

They looked further ahead than a gal putting widow's weeds in her hope chest.

They didn't quite foretell the price of coffee but they did limit the executive powers of treaty making. That's why we cannot figure the Bricker garnishing of paragraph 2, section 2, article 2. Which states as clear as rain water in a barrel that the executive is herd-ridden by two-thirds of the Senate.

Which translates into thirty-six state legislatures. Same number it required to order a drink in 1932.

First all school children should learn the alphabet so they can locate the correct agencies on Washington glass doors. Next they should memorize the constitution so they can know their rights when they're wrong.

At no time since Washington has the executive been more than a glorified office boy. He must answer at all times to the people of the United States. You can get on the mailing list by voting.

Rheumatiz (Arthritis) Definition Given: Physical Degeneration of Joint Tissues

By WILLIAM BRADY, M. D.

If perchance you read yesterday's story on rheumatiz you may have received three wrong impressions from it, namely, (1) I handle the subject facetiously, (2) I am pessimistic about treatment and (3) I have too little respect for other doctors' views of the nature and treatment of the malady and too much respect for my own.

Now I concede that any or all of these impressions may be right.

As I tried to explain, rheumatism (call it arthritis if you prefer), to the best of my knowledge is still an unsolved riddle.

For years I tried to sell you folks the idea that no specific ailment is or can be identified as chronic rheumatism.

There isn't room here to go into that, further than to say that the word rheum means a "watery discharge" from mucous membrane, especially of eyes and nose, as when due to a cold (Webster).

joints — come, come, now, let's not be absurd.

Since the wisacre portion of the population learned to spell and pronounce it arthritis I have pulled my punches, lest these poor people develop a superiority complex.

But now, I believe, they are beginning to wonder whether they gained anything in swapping their homely old rheumatiz for the more exclusive arthritis.

Chronic (that is, of long duration) arthritis is a misleading term, for the simple reason that inflammation of joint or joints is not a feature of chronic rheumatism. No, children, the notion that inflammation is the essential nature of chronic rheumatism is an error into which the old timers fell because they had inadequate knowledge of the micropathology of rheumatism, that is, the minute changes in the joint tissues, visible under the microscope.

Now we arrive at a critical

point in the story of the rheumatiz. No matter how many times I reach this point I'm always stopped cold.

The new Smith-Corona goes silent, the two-fisted or rather two-fingered typist gets up and walks around the joint, trying to decide what to do . . . and finally concludes twelfth and heads for the bowling green.

But this time there's no bowling (wet greens) and no evasion of duty.

My belief or conviction is that in most instances chronic rheumatism is physical degeneration of joint tissues and cells.

There, I've said it, and now I leave you to look up the meaning of physical degeneration in Webster or in a medical dictionary if you have access to one. (Watch for tomorrow's article.)

Signed letters, not more than one page or 100 words long, pertaining to personal health and hygiene, not to disease, diagnosis or treatment, will be accepted by Dr. Brady if a stamped, self-addressed envelope is enclosed, etc.

Bricker Bill Up Again in Senate

Press for Action This Week on Controversial Treaty-Curb Proposals

WASHINGTON (AP)—The Senate goes back to its lengthy debate on the Bricker proposal to curb treaty powers today with leaders pressing for final action on the thorny question this week.

The proposed constitutional amendment has been before the body for almost a month, although laid aside temporarily for some other business.

Republican Leader Knowland of California told newsmen he thought the Senate now was ready to dispose of the matter tomorrow or Thursday. He said considerable other legislative business is piling up.

Up for consideration today is an amendment offered by Sen. Bricker (R-Ohio) to his own original proposal, which drew strong opposition from President Eisenhower.

Bricker now proposes to write into the already-revised resolution a provision that a treaty or other international agreement cannot become effective as domestic law unless Congress passes legislation on it, or unless the Senate so provides by a two-thirds vote in ratifying a treaty.

This is a substitute for a broader provision which was knocked out in Senate voting last week. But even, the milder version seems doomed.

Next, Sen. Morse (Ind-Ore) may offer a motion to send the entire resolution back to the Judiciary Committee for further study, an action which would shelve it indefinitely.

Knowland has expressed confidence the motion will be beaten.

Next, Sen. George (D-Ga) is scheduled to call up his substitute, which many senators believe will get the most support of any of the alternatives before the Senate.

The key section of George's proposal provides that an international agreement negotiated by a president and not sent to the Senate for ratification can become effective as domestic law only if Congress so provides in separate legislation. This is opposed by the administration.

Sen. Byrd (D-Va) spoke out in behalf of some treaty curb amendment yesterday, telling an audience at Newark, N. J., that "acts of at least two recent presidents have, in the minds of many, violated this fundamental principle" that the Senate shall have a voice in approving international agreements.

Byrd said the Bricker amendment would protect Congress' powers from "usurpation by any president so inclined."

Thimayya Leaves Korea, Job Finished

SEOUL (AP)—Indian Lt. Gen. K. S. Thimayya, chairman of the controversial commission which handled Korean War prisoner operations at Panmunjom, left today for home, his work finished.

Thimayya flew to Tokyo with U. S. Ambassador Ellis Briggs and U. S. diplomat Kenneth Young for a short vacation.

The Indian general was chairman of the Neutral Nations Repatriation Commission, whose work ended Sunday midnight under terms of the armistice agreement. He saw the last of his 6,000 Indian troops put aboard the ship Jalbura today.

An 8th Army honor guard, composed of American, South Korean and other United Nations troops, put on a ceremony for the departing Indian.

No South Korean official showed up at Seoul city air base for the Thimayya departure. But Mayor Kim Tae Son and other Korean officials pointedly waited until the Thimayya ceremony ended before bidding Young goodbye.

Terminal Cancer Patients Prefer to Know the Truth

ANN ARBOR—Patients suffering from "terminal cancer" are in a very special category: they want to know the truth, and yet they don't want the truth to change things too much.

Dr. Norman F. Miller, professor of obstetrics and gynecology and chairman of the University of Michigan Department of Obstetrics and Gynecology, has a few strong words of advice for doctors who are faced with managing the last days of cancer patients.

Speaking from years of experience with women cancer patients, Dr. Miller says, "I not only believe that truth is an important aspect of terminal care; I believe that patients want the truth."

"White lies, misunderstandings and uncertainties are bad medicine," he warns.

Dr. Miller explains that he means that it is the responsibility of all concerned—doctor, patient and members of the family—to keep pace with life and to make as little change as possible in the daily routine.

Citing the various reasons for telling the patient the truth about her condition, Dr. Miller declares that it has been his experience, especially if the patient is a wife or a mother, that such people

an over-solicitous pity which transforms the bedroom into a clinic and the living room into a bachelor's one-room apartment, declares the U-M specialist.

And for the doctor, there was an additional piece of advice: "Don't tip-toe past the room of your cancer patient, just because you feel that you have done all that is medically possible."

"That patient hears you, and she continues to need your reassurance."

For, Dr. Miller declares, "that little personal visit still goes a long way even when all else seems to have been tried."

'Risks' Rehired by Government

291 of 590 Dismissed Find New Federal Jobs, Committee Learns

WASHINGTON (AP)—Eleven State Department employees released in 1953 were suspected loyalty risks, and out of 590 let go as "security risks," 291 got jobs in other federal agencies.

The statistics were contained in testimony made public today by the House Appropriations Committee, whose Democratic members have been insisting in budget hearings that all departments specify how many of their security cases were actually adjudged subversive. Democrats have claimed that the vast majority of the 2,220 federal employees fired or resigned under the Eisenhower administration security program were let out for reasons other than suspected disloyalty.

To date, the committee has made public complete or partial breakdowns by seven agencies of their security dismissals. With approximately 761,500 employees, these departments have accounted for 1,058 security dismissals or resignations in 1953. Forty of these were listed as suspected or actual subversives. Causes of dismissal of the others included drunkenness, homosexuality, over-talkativeness, and incompetency.

The State Department's statistics were given by R. W. Scott McLeod, administrator of security.

He said that 21 employees had been discharged for cause, including 11 with "pro-Communist activities or associations" such as having relatives who were Soviet nationals. Seven of the 11, McLeod testified, had charges pending against them when the Republican administration took office.

McLeod also listed in his breakdown 291 as having transferred to other agencies. He did not elaborate on the point and was not questioned about it. Thus there was nothing to indicate whether all or many of these are still on the federal payroll.

McLeod said that in 99 of these transfer cases the principal security factor was "homosexual deviations." In the same category, he added, 278 investigations were pending.

Besides those fired for cause and transferred to other federal agencies, McLeod's breakdown of the department's 590 security separations last year included 188 who resigned, 50 released through reductions in force, 36 released at expiration of limited appointment, and 4 who retired.

Landlord Practices Brotherhood Ideals

CHICAGO (AP)—Forty-nine tenants in a North Side apartment building have received a letter from their landlord but there was no notice of a rent increase.

"Because this is Brotherhood Week," Jerome M. Schulman wrote the tenants, "we should remind ourselves to have proper respect and consideration for our fellow man. . . . This letter is my feeble step to a practical application of brotherhood: to help take some small burden or worry from the mind of a brother man. . . . Let me assure you that there will be no rent increase unless a future rise in basic costs forces one."

Schulman owns a three-story apartment building and his tenants pay an average rent of \$64 for four rooms and \$76 for five rooms.

Stacking the Deck of Life Doesn't Produce Winners

By LAURA Z. HOBSON

People who cheat at solitaire are no sillier than anybody else who stacks the cards of life.

The jilted girl who tells everybody, "I was tired of him anyway," fools nobody but herself.

The fellow who says, "I got fired because I wouldn't be a yes-man," is also putting on a pair of blinders.

But of all the self-deluders in anybody's social circle, the most amazing is the steady loser at cards, who blames it all on "my losing streak."

Those among us so base as to run a friendly little Friday-night poker game all know the player who stays through a hand of stud with a pair of treys and then squawks because he has to buy another stack of chips every few minutes.

"Brother," he wails, "This losing streak has lasted since September."

Nothing will ever persuade him he doesn't know beans about poker. You know the type. You may never rattle a deck of cards, but you still know the type.

A good strong bout of self-scrutiny does any of us a lot of good, but it's a rare one who can stand that harsh glare long enough to learn something from it.

We prate about so-and-so's inability to be honest about himself

but many of us go on whitewashing our own egos after every dismal little mishap.

If we quarrel with a friend, it's because he was "absolutely infantile" or set in his ways, while we ourselves were sweet reasonableness itself.

If we quarrel with our mates, it's always they who are nagging. If our children draw away from us as they get older, it's for sure they were ruined by the set they met at school.

Like the fellow with the pair of treys, it might be wise if we stopped a moment and looked at a few laws of probability.

If things go sour too often, it just could be that a desire to find out the truth would mark a real change in our happiness and fortune.

There are times, of course, when something goes wrong through no fault of our own—and then it's hypocritical not to stand up for ourselves and say so.

Like my sad experience last Friday. Imagine being cleaned on a ten high straight! Brother, this losing streak is murder.

The cubit measure used in ancient Sumeria and Egypt was approximately the length of a man's arm from elbow to the end of the middle finger—about 20 inches in most jurisdictions.

Examinations of New York policemen showed only 19 of the

force of about 19,000 were flat-footed.

Good Liar Wins Axe, Cherry Tree for Biggest Fib

DENVER (AP)—A radio station here celebrated Washington's Birthday by awarding a prize to William E. Murphy of Denver for the biggest fib submitted by hopeful liars.

Murphy's story concerned Paul Bunyan's little brother Calvin, who built the world's biggest railroad—the IJA&SI. Spelled out, that's Ireland, Jerusalem, Australia & Southern Indiana.

In keeping with the holiday, Murphy won a cherry tree from a local nursery and a hatchet donated by a sporting goods firm.

Pima Indian Succumbs at Claimed 115 Years

KOMATKE, Ariz. (AP)—Alex Tashquith, Pima Indian who claimed to be 115 years old, died yesterday in his one-room adobe home near here.

He was the last of Arizona's "Long Hairs."

He had kept his hair long in traditional Indian defiance of the whites, and even refused to have a doctor treat a fractured leg which he suffered three weeks ago when he fell out of bed.

Jap Scientist Regrets He Missed Dust Storm

DALLAS, Tex. (AP)—Prof. Naotō Kumagai of Japan, probably that country's foremost geophysicist, arrived here yesterday to start a Texas tour and said he was unhappy he missed last week's severe dust storm.

"I am always the student of unusual soil formations," he explained.

DIKE
STOP WATER FROM
AT ONCE

PEERLESS CEMENT PAINT

FIRST—STOP THE LEAKS AT ONCE WITH DIKE!
Simply mix Dike with water to form a putty-like cake, and plug it into the holes or cracks. Almost like magic you will have created a strong, firm barrier that will hold back even heavy water pressure. Dike stops water flow AT ONCE. And it won't turn dark or "bleed through" the Peerless Cement Paint you apply over it.

SECOND—KEEP YOUR BASEMENT DRY AND MAKE IT DECORATIVE WITH PEERLESS CEMENT PAINT
You'll find Peerless Cement Paint is far easier to apply than any cement paint you've ever used. And because of its higher portland cement content, it produces a stronger, more durable coating that effectively seals out moisture (on both interior and exterior applications). Peerless Cement Paint not only will keep your basement bone-dry (if you have first sealed off the holes and cracks with Dike), it will also beautify it so you can turn it into a workshop, recreation room or cheerful laundry.

12 BRIGHT DECORATOR COLORS AND GLEAMING WHITE
One of the new modern paints containing Titanium Dioxide, Peerless Cement Paint has greater hiding power—produces a more attractive appearance on exterior brick, block or stucco walls as well as on basement. Available in 12 bright decorator colors and gleaming white. It also gives a wide range of attractive color combinations.

GOP Troubled Over Tax Plan

Looks to Eisenhower to Bolster Support for Dem-Exposed Policies

WASHINGTON (U)—Republican congressional leaders are looking to President Eisenhower to help bolster public and congressional support for the administration's beleaguered tax program.

Some GOP congressmen already have discussed the prospect of a presidential broadcast to the nation with administration officials. It was learned today. Informed sources said no decisions have been made. Some Republican legislators have expressed concern over almost daily Democratic attacks declaring the Eisenhower program gives too many tax cuts to business and doesn't benefit the average taxpayer enough.

Democratic leaders are firmly predicting enactment of Democratic proposals for an increase in individual income tax exemptions, which would spread the biggest tax reductions among large family and low income groups. They argue this would boost consumer purchasing and help pull the nation out of its current economic dip.

Their various proposals would save taxpayers—and cost the government—from 2½ to 4½ more billion dollars the first year, and possibly more later. They also would increase the prospective federal deficit by that amount.

Key GOP lawmakers concede privately there is some restiveness in Republican ranks over opposing an increase in personal exemptions in this congressional election year. Thus they are looking to the President, whom they credit with great popularity, to help them hold the line—if that is what the administration still wants.

Eisenhower has described his tax program as one carefully balanced to provide both individual and business tax cuts, and to boost consumer buying while at the same time giving badly needed incentives to business.

Palm Springs Finds Ike's Visit Profitable

PALM SPRINGS, Calif. (U)—What's a presidential visit worth to a resort community like this?

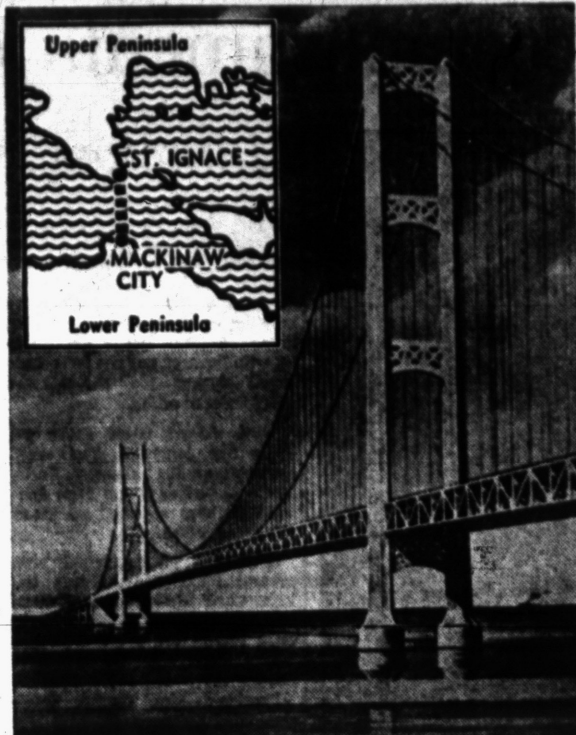

Two weeks ago this desert spa was in the doldrums. Business was off. Hotels had cut rates. It looked like the winter season might be a bust.

Among the things businessmen were gnashing their teeth about was lack of promotion. The Chamber of Commerce budget was a mere \$60,000, none of it for publicity. Rival Las Vegas reportedly spends \$500,000 a year plugging itself.

Now, with Palm Springs basking in the reflected glow of world-wide publicity attendant to President Eisenhower's visit, all that is changed.

Thousands of sightseers jammed the town last weekend. Hotels were sold out. The 10,000 year-around residents were swamped with guests who "just dropped in."

Businessmen say they couldn't have bought so much publicity for a million dollars. And it hasn't cost 'em a dime.

SPANNING THE STRAITS—Ranking with the world's largest spans, the proposed Mackinac Straits Bridge will link Michigan's two peninsulas, as shown in sketch above. Financed by the sale of revenue bonds, the \$80 million bridge is scheduled for completion in November, 1957. When finished, it will be 26,444 feet (over five miles) in length, and will have a 48-foot roadway. With a central span of 3,800 feet, it will rank second only to the Golden Gate Bridge with its span of 4,200 feet. Towers, 522 feet high, will support the suspension cables. Minimum clear height above water at the center will measure 148 feet. The bridge will require the work of over 1,000 men before it's open to traffic.

Communists Convinced They Will Attain Goal, Says U.S. General

HELENA, Mont. (U)—The Communists are "convinced" that someday they will achieve their goal of world communism, Maj. Gen. William F. Dean declared last night. He urged a buildup of our military reserves.

The Reds' No. 1 Korean War prisoner addressed a Helena Korean Honor Day program, held in tribute to war dead. He said the Reds, hope to achieve communism in the United States by one of three methods:

"1. By physiological warfare or propaganda. They have agents here, they have fellow travelers and they are excellent propagandists . . .

"2. The economy attack. They feel if we can have an economic depression that we will have a revolution and communism will take over . . . They encourage the worry wars and the prophets of evil things to come.

"3. By military aggression. But they are not going to attack until they feel we have let our guard down. No country can too long keep a too large military service."

Flight From Dog Fatal

LE MESA, Calif. (U)—Ignacio Hurado, 40, farm hand, ran read first into a tree while fleeing from a Great Dane dog. The coroner said death two days later was from a brain injury.

Boy, 14, Tumbles 125 Feet From Mississippi Bluff

ST. LOUIS (U)—Ken Helvey celebrated his 14th birthday today, lucky to be alive after tumbling 125 feet from a Mississippi River bluff.

His fall was cushioned when he landed on a pile of weeds and leaves. A few inches either way, police said, and he could have landed on a log or pile of broken bottles.

"God was good to him," said Ken's mother as she looked at him in City Hospital. Ken suffered a fractured left upper arm but doctors said the boy's condition was excellent.

The youngster was climbing on the bluff when he took a misstep. The bluff slopes downward for 25 feet and falls off to a 100-foot drop.

Mrs. Eagle Addresses BPW Club

Gives Talk About Her Leader Dog at Monday Meeting

Mrs. Don Eagle was guest of the Pontiac Business and Professional Women's Club Monday evening when the group met for dinner at Hotel Waldron.

Following a talk on her leader dog, Mrs. Eagle held a question and answer period.

Equal rights amendment was the topic chosen for the legislative program which followed. Mrs. Norman Dyer listed advantages to be gained by passage of the amendment. Harriet Gates listed objections to the adoption of the amendment, and a discussion followed.

The second part of the program was in the form of a quiz on national government. Jane Danton presented teams to Miss Gates for questioning.

Taking part in the discussion were Mary Mitchell, Madeline Fox, Fritz Stoddard, Ethel Peterson, Mrs. Robert Eisele, Lucille Lewis, Mrs. Eagle, Jessie Gamble, Mrs. C. William Salton, Ann Gosner, Mrs. Kenneth Cavender and Mrs. Albert Leighton.

Hostesses for the evening were Mrs. Leighton, Mrs. William Todd and Miss Gates.

The group received an invitation from the Utica Business and Professional Women's Club to attend a party to raise funds for hard-of-hearing children or those with impaired vision.

PTA Activities

Executive board of Pontiac PTA Council will meet Wednesday at 1:30 with Mrs. Sarkis Schorkin, 25 S. Shirley Ave.

Alumni of Bowling Green State University living in the area will have an opportunity to renew old acquaintances and to meet new friends at a dinner to be held Saturday at Devon Gables. Helping to plan the event are (left to right) Mrs. Neil R. Crowe and Dick Davis, both of Rochester, and Mrs. Robert Slonaker of Berwick boulevard.

Municipal Candidates Are Guests

Agnes Hilton was speaker at the Monday meeting of the Pontiac Women's Republican Club.

Using the 83rd Congress as her theme, the speaker told the group meeting at the East Iroquois road home of Mrs. Frank McGregor that millions of dollars have been saved during the Republican's short term of office.

Mrs. Albert Kohn spoke on "We Are American Pioneers," commemorating George Washington's birthday, and Mrs. Janette Bathum reported on taxation and citizenship.

Candidates for municipal judge present included G. Edson Hallock, Cecil McCallum and Judge Maurice Finnegan. Also introduced were Philip Rowston and Manley Young, candidates for city commissioner.

President Mrs. George Brown conducted the meeting, with Mrs. McGregor giving the opening prayer and Mrs. A. E. Ball leading the salute to the flag. Mrs. Bathum accompanied at the piano.

Mrs. William Kennedy, president of the Oakland County Republican Women's Federation, invited members and guests to join the federation.

New member of the group is Mrs. Bessie Slaybaugh, and guests included Mrs. Mabelle Wilson, Mrs. Carl Malkin, Mrs. Edith C. Green, Mrs. Harvey Austin, Mrs. R. C. Cummings, Mrs. W. A. Parker and Mrs. William Daugherty.

Mrs. Sadie Williams was in charge of the silver tea following the meeting. Cohostesses were Mrs. McGregor, Mary Chapman and Mrs. Bathum. Miss Chapman poured.

The next meeting will be held at the home of Mrs. W. E. C. Huthwaite.

Experts to Help Scout Skaters

Professional instructions are to be included in a new schedule of Girl Scout roller-skating classes to be held the fourth Monday of each month at the Rolladium.

Instructions for Girl Scouts will be held from 6:15 until 6:45 p.m., open to all intermediates showing an official scout card. The Brownie class has been dropped because of lack of participants. It will reopen only if a sufficient number in this age group should register.

The girls will be working toward a scout skating badge and an RSROA certificate from professional skaters of Michigan. However, the requirements for the two awards are entirely different and will be given separately.

The regular scout skating session will take place from 7 until 9 o'clock, and is open to Brownies, scouts and leaders or parents.

Club Addressed by Mrs. Barrett

Four steps to avoid delinquency were suggested by Mrs. Gertrude Barrett Saturday when she spoke before members of the TBI Club.

Mrs. Barrett, of the Oakland County Law Enforcement Bureau, spoke about her work with juvenile delinquency. She advised members of the group to attend church, to be careful where they go, and if they do get in trouble, to tell the truth.

Five guests were present at the meeting at the Business Institute Office. Betty Bandrup, Clarabelle Amidon, Iola Lewaux, Marie Schimell and Emma Coad.

Officers will be elected and the constitution amended at the next meeting March 20.

Hills Garden Club to Meet on March 1

Mrs. W. F. Streit Will Be Speaker at Christ Church

Board members of Bloomfield Hills Branch of Women's National Farm and Garden Association met with Mrs. Horace P. Shaw of North Woodward avenue Monday.

Mrs. P. M. Thomas, program chairman, announced that the speaker for the March 1 meeting will be Mrs. William F. Streit, who will talk on "Do It Yourself in Lumber and Plants."

Mrs. Streit, who has charge of the Do-It-Yourself Show at the Detroit Women's City Club today and Wednesday, will use mounted pictures and exhibits. She has recently returned from attending the first training course for women in the lumber industry, held in Oklahoma where the industry has recognized the need for the woman's viewpoint.

The speaker is a graduate of the University of Wisconsin, and she is a former vice chairman of the Republican State Central Committee.

The meeting will be held at 1:30 o'clock in Christ Church Cranbrook and will be followed by a tea. Serving will be Mrs. W. G. Ferguson, Mrs. John D. Tebbin and members of the hospitality committee.

On the committee are Mrs. Lester L. Colbert, Mrs. Raymond Ferring, Mrs. Felix Bruner, Mrs. Albert Clarke, Mrs. Howard Harrington, Mrs. Donald O'Toole, Mrs. James Longwell, Mrs. G. J. Huebner and Mrs. William Kahn.

Presiding at the tea table will be Mrs. Donald James and Mrs. Edward P. Turner.

Beverly Bornak Feted at Shower

Bride-elect Beverly Jean Bornak was honored Sunday afternoon with a shower at the home of Mrs. Donald E. Tee on Sylvan Shores drive.

Beverly, daughter of the Gust Bornaks of South East boulevard, will speak her vows April 10 with Jack J. Tee, son of the Emery Tees of Whitfield court.

Shower guests, in addition to the honoree's mother and Mrs. Emery Tee, were Mrs. Gerald Huyghe, Mrs. Mervin Smack, Gail Grimwood, Mrs. Ida Mae Hiltz, Mrs. Roland Kechner, Mrs. Frank Slaybaugh, Mrs. Irene Fenwick, Mrs. James Kechner, Mrs. Forest Wood, Mrs. Clair Wright, Mrs. Joyce F. Jones and Mrs. Carl Tricker.

2nd Workshop Set at Webster

The second in a series of parent-teacher workshops sponsored by Webster School PTA will be held Wednesday evening at 7:30 in the school gym.

At the general session, "Passion for Life," a feature-length, semi-documentary film, will be shown. The film has been praised by officials as an effective instrument for motivating improved educational methods and building good public relations.

After the film, parents and teachers will meet in discussion groups to talk about implications of the film on improving the home and the school curriculum to meet the needs of young people.

NANCY JAYNE BRUCK

Mr. and Mrs. Fred A. Bruck of Barrington road announce the engagement of their daughter, Nancy Jayne, to Park Leigh Watson, son of the Hugh A. Watsons of Lincoln avenue. The bride-elect attended Detroit Business Institute and her fiancé attended Alma College. A September wedding is planned by the couple.

Dolores Anderson Wed in Waterford

Our Lady of the Lakes Church, Waterford, is setting for the Saturday wedding of Dolores Ruth Anderson and Dr. Walter Pontasch of Bloomfield terrace.

She is the daughter of the Roderick M. Andersons of Drayton Plains, and Mr. and Mrs. Johann Pontasch of Vienna, Austria, are his parents.

The bride chose a gown of candlelight tone pure silk shantung with a front skirt yoke and a chapel-length train. The bodice featured a Peter Pan collar of French Chantilly lace. Her veil also was of Chantilly lace.

Daneen Anderson, the bride's sister, was the maid of honor. She wore a gown of aqua magisheen with a fitted bodice and she carried a bouquet of yellow roses.

Attending as bridesmaid was Mary Lou Chappel who wore a gown of pink magisheen and carried a red rose bouquet. Laura Anderson as junior bridesmaid wore a maize gown and carried bronze roses.

Susan Anderson was flower girl wearing an aqua gown and Paul Anderson was ringbearer.

Dr. Goetried Timmerer of Vienna, Austria, was best man and serving as ushers were William Anderson, the bride's brother, and Jack Chappel of Drayton Plains.

The bride's mother chose a navy blue dress with white accessories for her daughter's wedding. After a reception in the home of her parents, the bride changed to a gray suit with matching hat and red accessories. She wore an orchid corsage.

The newlyweds will reside in Drayton Plains after a tour of Ontario. They are planning a trip to Europe in the spring. The bride is a graduate of St.

DR. and MRS. WALTER PONTASCH

Dr. and Mrs. Walter Pontasch were married Saturday. The bride, the former Dolores R. Anderson, is the daughter of the Roderick M. Andersons of Drayton Plains, and the bridegroom is the son of Mr. and Mrs. Johann Pontasch of Vienna, Austria.

Newlywed Pair Residing Here

Mr. and Mrs. Raymond Earl Beason returned to Pontiac recently after a wedding trip through Ohio and Indiana. They were married here Feb. 9 in a double-ring ceremony performed by the Rev. Arthur L. Bingham.

The bride, the former Bette Christensen, is the daughter of Mrs. Glenn Measel of Pine street

and Roger St. Amant of Lake Orion, and the William Daugherty of Prospect street are the bridegroom's parents.

A reception at Devon Gables preceded the wedding trip. The couple is now residing on South East boulevard.

Reader's Digest Reports: ONLY NEW COLGATE DENTAL CREAM with Miracle Anti-Enzyme Ingredient GARDOL® HAS THE CLINICAL PROOF!

(Proof that Brings New Hope to Millions for LIFETIME PROTECTION AGAINST TOOTH DECAY)

5 QUICK FACTS FROM THE READER'S DIGEST ARTICLE

"What About Anti-Enzyme Toothpastes?" December, 1953

- Reader's Digest** says—The most effective anti-enzyme toothpaste ingredient tested was developed in the Colgate-Palmolive Company laboratories.
(It's Colgate's miracle ingredient Gardol (Sodium N-Lauroyl Sarcosinate)—found in no other leading toothpaste!)
- Reader's Digest** says—One of the foremost dental authorities in the world proved that this ingredient binds itself effectively to the tooth—holds acid formation below the decay level in 95 per cent of cases tested.
(Unlike ordinary toothpaste ingredients, effective only for minutes, this protection won't rinse off—won't wear off—all day or all night!)
- Reader's Digest** says—Even 12 hours after brushing, this new Colgate anti-enzyme discovery continues to guard against the enzymes that cause tooth decay.
(Thus, just daily morning and night brushings guard against decay-causing enzymes every minute of the day and night!)
- Reader's Digest** says—In clinical tests, supervised by leading dental authorities—for a full year—people who used ordinary toothpastes averaged almost two and a half times more new cavities than those who used New Colgate Dental Cream with Gardol (Sodium N-Lauroyl Sarcosinate). In fact, of the group using New Colgate's, 4 out of 5 developed no new cavities at all!
(A group of distinguished dentists examined this evidence and agreed—New Colgate Dental Cream with Gardol gives the surest protection against tooth decay ever offered by any toothpaste!)
- Reader's Digest** says—New Colgate Dental Cream is the only toothpaste with clinical proof of its effectiveness in actually reducing the formation of new cavities.

NOW! NEW COLGATE DENTAL CREAM CONTAINS GARDOL (SODIUM N-LAUROYL SARCOSINATE)

Minor Attentions of Older Boy Thrill Impressionable 13-Year-Old-Girl

Talking With Youth at Ice Skating Rink Starts Her Wondering About What to Do

By ELIZABETH WOODWARD
 "Dear Miss Woodward: The other night my girl friend and I (both aged 13) went skating, and we met a boy there who is 18. He kept talking to me, and now I think I like him!"
 "Mom says I should keep to boys my own age. At the present time I do like a boy who is 14. Should I stick to him or make a play for that older boy?"
 You were pretty thrilled over having that older boy pay some attention to you. But there's not

much point in staying thrilled! He may consider you a baby, you know.
 And wouldn't you be wasting steam glowing over attention he may consider the "bouncing on his knee" variety? He wants to date girls who are old enough to keep up with him.
 You'd be smart to stick to boys you can keep up with. Your 14-year-old friend sounds like just what the doctor ordered.
 "Dear Miss Woodward: We've been writing to each other for

nearly two years—he lives in another state. I think he likes me as much as I like him, but I'm beginning to wonder.
 "His last few letters have mentioned this blonde who goes to his school. And in his last letter he asked me what I thought would become of our relationship."
 "I don't know how to answer that. Would you just forget him and stop writing entirely?"
 Hints that he's leading a life of his own are beginning to creep into his letters—and they scare you. Make you feel he's building up to a big letdown for you. But why scare so easily?

You two can't be together—your lives go merrily on far apart. It's normal that he should be attracted enough to have dates with blondes, brunettes and redheads who are where he is. It's normal that you should have fun with the boys who go to your school.

Your friendship is quite separate from all that. It's had enough depth and strength to keep you writing to each other for two years. Why shouldn't it go right on in spite of local distractions?

When you write back to him, skip the blonde, but tell him what you hope will happen to your friendship. And you hope it will continue, you'll be able to get together again soon and he'll go right on thinking you're one of the nicest girls he knows, don't you?

"Dear Miss Woodward: I left a girl behind me when I came away to college. We'd gone together a long time, but she ended it when I went away so she could go with other boys.

"She's changed a lot—all of her friends have turned against her. But I want her back. What do you think?"

Why stew over a girl you're too far away to date? Wait until you get home for a long holiday and see how she looks to you then. You're cherishing memories of how things used to be.

But changes have been made. And more are still to be made. Maybe they will be for the better—when you're around to profit by them!

Dab of Jelly Hides Inside Each Cookie

Recipe Is Given by Louise Sanderson, Teenage Cook

By JANET ODELL

Pontiac Press Food Editor
 Our teenage cook today is Louise Sanderson of Westacres. Completing her senior year in high school, Louise has a variety of interests. She is already an excellent home-maker and accomplished cook.

She belongs to the Future Teachers of America Club and sings in her church choir. One of her newer activities is that of assistant in a Girl Scout troop.
 Louise took a sugar cookie recipe and made it even better by adding a surprise of jelly. Try her idea the next time your cookie jar is empty.

SURPRISE COOKIES

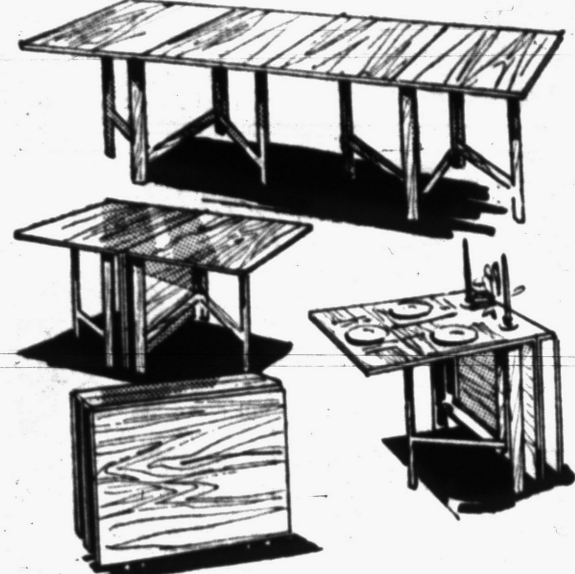

By Louise Sanderson

2 cups sifted flour
 1/2 teaspoon soda
 1/2 teaspoon baking powder
 1/2 teaspoon salt
 Sift these ingredients together. To this sifted mixture add the following:

1/2 cup soft shortening
 1 cup sugar
 1 teaspoon vanilla or 1/2 teaspoon nutmeg
 1 tablespoon milk
 Beat until well blended—about three minutes. Wrap in waxed paper and chill about two hours (chilling is optional). Roll out one-eighth-inch thick. Cut with round cutter.

Place a bit of jelly on each cookie and cover with more cookie dough. Sprinkle with sugar.
 Bake on a greased baking sheet about 10 minutes in a 425-degree oven. Makes about 2 1/2 dozen large cookies.

Any girl can make a millionaire out of her husband if she marries a multimillionaire to start with.

Tiny Wall Table Extends to 112-Inch Banquet Size

By ELIZABETH HILLIER

Give the new favorite kind of party—the sit-down buffet—and you need a table that seats from 8 to 12.

At a sitdown buffet, guests serve themselves buffet style, but there's no juggling of plates on their laps

—they sit down at a table just as if they were to be served.

Very few dining rooms these days are big enough for a permanent table that seats 12, but for sometime party service there may be room, even in a living-dining room area.

The table that's rangy for the party needn't be all the time. Extra capable tables can be found that start small and grow to great lengths.

Sketched is one of them, which hits two extremes, from a 9-inch-wide huddle to the wall to a 112-inch banquet length, seating 12.

In between, this table raises one leaf for two or three, and two leaves for six.

Mary Margaret McBride Says: Simple Gifts Are Special If Chosen Thoughtfully

If anybody thinks I'm a bit out of season with a homily on thoughtful gifts and givers, let him take note that there are only 305 days until Christmas.

A friend, bearing an armload of paper-back mystery stories—not one of which I'd read before, started me on the subject of thoughtful giving.

I was bound to the country for a rest and Janice had taken the trouble not only to check the contents of my escape literature shelves but also to remember that I like my murders laid in a pleasant house-party atmosphere. The books represented no great outlay of money but the donor gave lavishly of time and concern.

Another thoughtful present comes every birthday from a big organization for which I once did some work. It's a box of chocolates and someone with fine feeling and a long memory recalls not only that I prefer milk chocolate to dark but carefully picks out my favorite pieces. High on my list of graceful givers are:

Jane who knows about my blue sitting room and my affection for the tiny red roses that look so charming there; Martin who never fails to mark the anniversary of my mother's death by sending her favorite yellow roses; Jean with her melt-in-the-mouth pecan cookies; Florence with my favorite butter and cream penuche.

Joe Wing, one of my editors, tells me at his house they await with special eagerness the package of black walnut meat sent annually by an Iowa friend. "Frances bakes a walnut cake as soon as the nuts come and the mellow flavor is like a breath from the autumn woodlands of my boyhood when we lugged the walnuts home in a burlap bag from a grove by Indian Creek," Joe recalled dreamily.

The wife of another editor feels quit differently about her father-in-law because of a delicate attention after he had visited her for a few days. Evidently he noticed the weary time she spent ironing tablecloths upon which her active children had spilled milk and jelly. He went right out and bought her a collection of plastic tablecloths.

"I really don't much like plastic tablecloths," Emily confessed sheepishly, "but the realization that he had noticed and cared enough to try to help me made me cry."

This is the kind of giving that is not bare—because the giver and his heart are so very much a part of even the most prosaic-seeming present.

I'm glad there are 305 days until Christmas. Gives us time to educate our hearts.

Dominant Silhouette Is Short, Slim Skirt

Unquestionably the short narrow skirt is the fashion silhouette. It dominates dresses and suits; coats, if not straight themselves, are built around the narrow dress or suit. Shorter this season means midcalf, but many manufacturers have shown them even shorter by way of making the newness of the short look penetrate.

"Shorter" and "straight" introduce a silhouette that has not been seen in a decade.

The modest and simple look of the new fashions adds to the basically youthful character of the silhouette. The use of softer fabrics has a restraining influence, and color in similarly quieted down.

Sink Time Adds Up

Madam, when you complain about doing dishes, you're absolutely right. The statisticians have figured out this interesting fact: If you wash dishes just 15 minutes after each meal, and if you do it for 40 years, you'll have put in 657,000 minutes of drudgery in the dish suds.

By ISABEL DU BOIS

Fifth Day's Menu

Tomorrow you can wake up with a dash of bacon and eggs—and you'll get 'em!

The bacon is fried until crisp. And the eggs are soft boiled again. But it's bacon and eggs just the same.

A pretty good diet for a fat boy!

BREAKFAST

Grapefruit juice, 1/4 cup.
 Bacon, 3 strips, well-cooked and drained.
 Soft boiled egg, 1.
 Toast, whole wheat, 1 slice.
 Butter, 1 teaspoon.
 Coffee, no cream or sugar (skim milk and saccharine may be used).

DINNER

Consomme, clear, 1 cup.
 Chicken roasted, lean meat, 5 1/2 ounces.
 Squash, winter, 1/2 cup, cooked, no butter.
 Beans, snap, 1 cup cooked, no butter.
 Lettuce tomato salad.
 Tomato, 1 medium.
 Orange sherbet, 1/2 cup.
 Milk, skim, 1 glass (8 oz.).
 Coffee or tea no cream or sugar (skim milk or lemon juice and saccharine may be used).

SUPPER

Asparagus soup, 1/4 cup.
 Hard-cooked egg sandwich.
 Hard-cooked egg, 1.
 Lettuce, several leaves.
 Bread, 2 slices.
 Butter, 1 teaspoon.
 No salad dressing.
 Apple, baked, 1 medium, no sugar.

Total calories for day—1,470. (This is considered a safe diet, but before following any reducing program it is advisable to consult a physician.)

Reds Celebrate Army's Birthday

Soviet Military Leaders Boast of Armed Might in Newspaper Stories

MOSCOW (U.S.—Russia's military leaders marked the 36th anniversary of the Red army today with new boasts at the United States and repeated assurances that Soviet armed forces are sharpening their skill with the "newest weapons."

The army chief of staff, Marshal Vasily Sokolovsky, charged in Izvestia that "American imperialists are preparing a new war against the Soviet Union and the people's democracies." He warned that Soviet forces are preparing for combat in the atomic age.

The Soviet defense minister, Minister, Marshal Nikolai Bulganin, in a special order of the day, called on the armed forces for increased vigilance, military preparedness and competence in using the most modern weapons.

Adm. Nikolai Kuznetsov also spotlighted new weapons, writing in Izvestia that the Soviet army and navy had received new arms and equipment "which are greatly superior to the arms and equipment of the second world war."

The parade of special articles also included an interview by the Soviet news agency Tass with Marshal M. Chistyakov, who charged "reactionary circles in the United States and Britain treacherously held up the opening of a second front (in World War II) in order to weaken the U.S.S.R. and save

the fascist aggressors from complete defeat."

It was one of the biggest Armed Forces Day celebrations ever held in the Soviet Union. There were mass sporting events, special meetings and speeches throughout the country, and special radio and television programs.

Ike Will Round Links Today as Holiday Ends

PALM SPRINGS, Calif. (U.S.—This is the last day of President Eisenhower's southern California vacation, and he plans to spend a good part of it on the golf course.

The President and Mrs. Eisenhower are scheduled to start back to Washington by plane tonight and to arrive in the capital early tomorrow morning. There are sleeping quarters aboard their special plane, the Columbine.

After Eisenhower arrives in the capital, Secretary of State Dulles will give him a first-hand report on the Berlin Big Four conference.

Eisenhower arrived here last Wednesday night. He and the First Lady have been guests of Paul G. Hoffman, board chairman of the Studebaker Corp., and Paul H. Helms, Los Angeles bakery executive. The Eisenhowers are staying at the Smoke Tree Ranch home of the Helms.

The President has missed playing golf only one day since he arrived, and White House Press Secretary James C. Hagerty said he has had "a completely wonderful time."

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Relieves Pain—Shrinks Hemorrhoids

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to stop bleeding—without surgery.

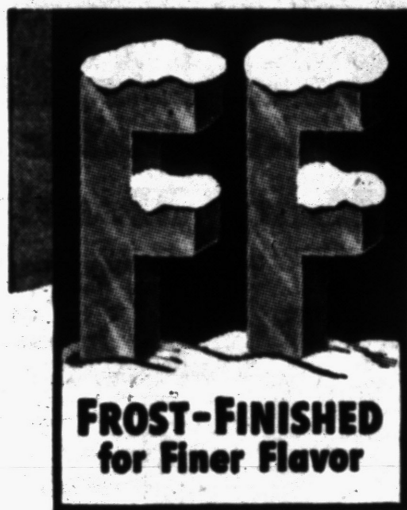

In case after case, pain was relieved promptly. And, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne®)—discovery of a world-famous research institute.

Now this new healing substance is offered in ointment form under the name of Preparation H. Ask for it at all drug stores—money back guarantee.

Greatest Development in Brewing Since Repeal!

NOW
GOEBEL
IS

FROST-FINISHED

Developed in Goebel's great research laboratories

Flavor's up—sugar's down! Yes, because of Goebel's exclusive frost-finishing brewing process, you can now enjoy a beer that's light and dry, low in sugar and starch, yet still retains a rare, full flavor.

Years of research and testing by Goebel scientists stand behind this greatest advance in brewing since beer came back.

Frost-finishing is two additional brewing steps, during which the temperature of the beer is quickly dropped to points close to freezing. This reduces excess sugars and starches to a minimum, and brings the beer to its highest flavor peak.

Ask for today's Goebel 22 next time you visit your favorite tavern or take-out store. You've never tasted a beer with finer flavor, a beer so frosty dry and satisfying.

"May I have
Your

Recipe?"

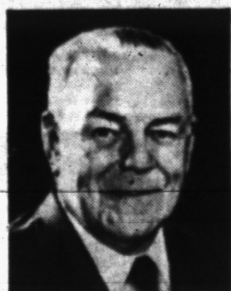

That's what woman after woman reports her friends have said after she has served cakes or muffins or pancakes made with Duncan Hines Mixes. We couldn't receive a nicer compliment...

for it means Duncan Hines has achieved what he set out to do: bring you homemade quality without the work of making homemade cake.

HOW IS IT DONE? Just the way you'd do it at home! By using the very best ingredients — carefully mixed and blended according to a fine recipe . . . in these cases, prize Duncan Hines recipes. And by asking you to add your own fresh eggs.

Duncan Hines

AMERICA'S FOREMOST AUTHORITY ON GOOD EATING

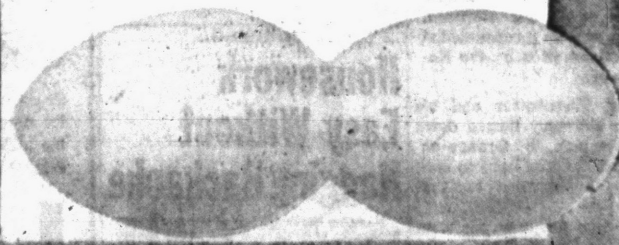

says:

"One of the secrets of fine baking is the use of strictly fresh eggs. No good cook would think of using dried eggs in her prized recipes, and yet factory-dried powdered eggs are the only kind that can be put 'right into' a package of mix. That's why I ask you to add your own fresh eggs to my mixes."

② Made with Duncan Hines Blueberry Muffin Mix—a generous can of juicy, plump blueberries is inside the package.

③ Made with Duncan Hines Buttermilk Pancake Mix—the buttermilk is already in the mix. Buttermilk tenderizes the gluten in the flour, giving you lighter, more tasty pancakes.

Rochester to Re-ballot Tomorrow on School Bond Issue

Technical Error Voided 1st Vote

**\$1.8 Million Fund, OKed
Dec. 15, Again to Be Put
to Election Test**

By HAZEL A. TRUMBULL

ROCHESTER—"Back to the polls" will be the slogan of the Rochester Community School District tomorrow.

The electorate of the district again will cast their votes on one-half of the school building bond issue approved by them Dec. 15 but declared invalid due to a technical error in the notice of election publication.

By a more than two-to-one total of votes, the district endorsed the \$1,800,000 bond issue. This called for a 0.75-mill tax levy to finance the proposed building program.

Omission of a 1-mill tax levied in the Macomb County portion of the district on the pre-election notice voided the tax limitation part of the bond issue.

Bond attorneys asked that that portion of the issue be re-voted upon to make it valid. This is necessary, they said, before the Municipal Finance Commission will allow the sale of the bonds.

Already approved in principle by the Commission, the bond sale will be completed soon after the removal of this technicality.

Donald Baldwin, superintendent of Rochester schools, urged that the people realize the importance of reappearing at the polls to validate this election.

"Many may feel that because it was so overwhelmingly approved on Dec. 15, it will pass this time without their support. It is extremely important for the boys and girls of this school district that everyone come out Wednesday and cast their vote as they did on Dec. 15."

"If approved, the elementary school additions proposed will be started as soon as weather will permit and work will be started on the proposed high school grounds," Baldwin stated.

The issue is to provide a new high school, a high school site, a new North End elementary school, additions to the Goodison and Hamlin schools and additional playground area at Avon School.

The Rochester Citizens' Advisory Committee who worked for several months prior to the successful passing of the Dec. 15 issue again turned out to campaign for Wednesday's re-vote.

"Our work will not be complete until we know that this bond issue has been approved and there are schools on the way for the boys and girls of this district. Too long we have waited for this to become an actuality and we must provide a good educational opportunity for our children," said Wallace Hodges, chairman of the citizens.

All qualified electors of the district are allowed to vote on this issue whether or not they are taxpayers.

Polls will be open from 7 to 8 p.m. on Wednesday with a canvass of the votes to follow immediately after the closing of the polls.

Waterford Township

PTA Groups Arranging for Transportation to Polls

WATERFORD TOWNSHIP—Parent Teacher Associations from the entire Waterford Township School District, together with many civic organizations in the area, today are making final plans to get people to the polls for Thursday's special school election.

These PTA groups may be contacted for information and transportation to the polls.

Two school problems are facing the people and the board of education will present them to the electorate.

To be decided by the voters is the question of rapidly increasing elementary enrollment now housed on stages, in temporary rooms with some half-day sessions and class loads over the recommended size.

A solution for this is the proposal to build four new elementary school buildings and provide additions at Jayno Adams, Williams Lake, Waterford Center and Four Towns schools. Three new sites will also be purchased if the \$1,400,000 issue is approved. The fourth site is now owned by the district.

Equally important is the problem of more pay for teachers which the voters are being asked to consider in the proposal which asks for a five mill levy for a period of five years.

Waterford as one of the 3 largest school districts in Oakland County is 28th on the list in size of teachers salaries.

By offering higher salaries, Waterford will be in a better position to compete with surrounding districts for teachers.

Also to be voted upon is a proposal asking for the revision of the three mill building and site

MOMS Unit to Sponsor Card Party Wednesday

Town Approves Plat for Homes

Rochester Council OKs Plan for 50 Houses in Brentwood Heights

ROCHESTER—Unanimous approval of the final plat, by the Village Council last night, was the go-ahead signal for construction of the new Brentwood Heights subdivision, Village Manager Robert Stone announced today.

Initial work on the 50-home division should be under way within 10 days, according to Felix Anderson of Johnson & Anderson Engineers, Pontiac.

As the first step, the council awarded a contract for storm and sanitary sewers and water lines to the Oak Park Construction Co.

Anderson said actual construction of the ranch-type houses will probably be started within 60 to 90 days.

Under the plan, as drawn up between the village and the H. M. Seldon Co., the subdividers, the village awards all contracts for improvements to the property. The Seldon firm will pay the costs of the concrete streets, water lines, sewers and sidewalks.

The subdivision will have the first combination concrete curb, gutter and street arrangement in Rochester, according to the engineers.

Roosevelt High Card Party Nets \$75 for Juniors

KEEGO HARBOR—Receipts of \$75 from Friday's junior class card party at Roosevelt High School are earmarked for the class trip next year, according to a group spokesman.

The fund-raising party was under the direction of Donald Bradford, junior class activities chairman, and featured a program which included solos by Jack Horner and baton twirling by Marilyn Dreyer.

Mrs. Edward Collins, Mrs. Thomas Curran, Mrs. Jack Malson, Mrs. Kern Murphy, Mrs. Charles Neuman, Mrs. Florence Simpson, Mrs. Sam Warwick and Mrs. George West were room mothers who assisted in the card party plans and serving of refreshments.

Farm Leaders Speculate on Fate of Ike's Program

WASHINGTON (INS)—Washington farm bloc leaders today speculated on the fate of the Eisenhower administration's farm proposals in wake of House Agriculture Committee Chairman Clifford Hope's statement that he favors a two-price plan for wheat and cotton.

Hope, a Kansas Republican and nominally the most powerful farm spokesman in the House, had not previously offered a price support plan to compete with the flexible support system advocated by President Eisenhower and Agriculture Secretary Ezra Taft Benson.

At the time Mr. Eisenhower sent his farm recommendations to Congress last month, Hope declined comment. Many of his close associates, however, believed he eventually would advocate continued rigid, high price supports—at least for one more year.

The plan proposed by Hope, however, is one he had looked upon with favor last summer, and one which was recommended to the administration by the National Grange.

When Mr. Eisenhower and his agriculture secretary turned down the two-price plan, the Grange announced that it would have to split with the administration on that particular issue.

Appearing on the same platform with Hope at Des Moines, Henry A. Wallace, former New Deal vice president, and agriculture secretary, said that the nation must turn either to flexible supports or the two-price plan to solve its agricultural problems.

The two-price system actually is a latter-day relative of the McNary-Haugen Bill which was

strongly supported in the 1920's by Wallace's father, who was agriculture secretary during the Republican administration of President Harding.

The bill never became law. The two-price plan is designed to allow American wheat and cotton farmers to sell their commodity into the export market at competitive world prices.

Under the system, each farmer would grow a certain amount of his crop for domestic sale and a certain amount for export. The portion sold into the domestic market would be under high price supports—probably 100 per cent of parity—though the portion sold into export or channeled into non-food uses would be without government subsidies.

Advocates of the system maintain that it not only would rebuild America's badly depleted export market for agricultural commodities, but would also minimize the need for production controls on important crops like wheat and cotton.

To Start League for Community

Set Meeting Thursday at Coleman Davidson Home in Romeo

ROMEO—Residents here will have the chance to consider the formation of a Romeo Community League Thursday at a meeting in the home of Mr. and Mrs. Coleman Davidson.

The meeting grew out of the conference held in Romeo Dec. 16 when some 87 civic minded persons from 10 communities gathered to discuss ideas for community betterment.

The proposed organization would be designed to concern itself with problems of common concern beyond the ability of individuals or a single organization to solve, according to Dr. Florence A. Browne, planning committee member.

"Such a league would have as its purpose the coordination of effort of organizations now in existence, and it is hoped that representatives of all such groups, cultural, youth, labor and others, as well as interested individuals, will attend the meeting," said Dr. Browne.

Mrs. Max Patrick of Marlette will give a description of the formation of Marlette's Community Council and its program at the meeting.

Blue Carstenson of the University of Michigan Extension Service will also be present to answer questions on experiences of other communities.

Flint Man Injured, Crashes Into Bus

WATERFORD TOWNSHIP—A Flint man was treated for multiple lacerations at Pontiac General Hospital early Monday after his car struck the rear of a Greyhound bus at Dixie highway and Frenches road.

Charles E. Foster was charged with being drunk and disorderly by Patrolman Donald Grevlin of Waterford Township police.

Pleading guilty before Waterford Township Justice Willis D. Leturky, he was ordered to pay \$40 fine and \$20 costs or spend 30 days in jail.

Wedding Vows Said Saturday in Keego Harbor

KEEGO HARBOR—The wedding of Marjorie E. Grimshaw to Stanley F. Seymour, of Pontiac, was solemnized here Saturday in the bride's parents' home.

The double ring ceremony was attended by 40 guests.

Marjorie is the daughter of Mr. and Mrs. J. A. Grimshaw. The bridegroom's parents are Mr. and Mrs. Thomas Seymour, of Hillman.

The bride chose a two piece brown linen dress, beige accessories and a corsage of white hyacinths and red roses.

The bride's attendant was her sister, Mrs. Robert Dennison, of Waterford, who wore a blue linen dress, navy accessories and carried a yellow carnation corsage.

Serving as best man was Charles Behring, of Hillman.

The Grimshaws home, on Moss street, was also the scene of a reception following the ceremony. The new Mr. and Mrs. Seymour will live in Keego Harbor.

List Effects of Plan for Safer Driving

TROY TOWNSHIP—Under a new, more rigid program seeking safer driving, the secretary of state's office suspended the licenses of 99 drivers, revoked the licenses of 276 drivers and placed 108 drivers on probation, according to Troy Township Justice Herbert W. Alden.

Judge Alden also disclosed that several hundred applicants were denied licenses under a new and stiffer examination.

Under Michigan's new driver license law, all authority for driver licensing rests with the secretary of state.

Reservations Still Open for Youth Club Dance

SOUTHFIELD TOWNSHIP—Reservations for a dance sponsored by St. Michael's Youth Club Friday night in Detroit are still available, according to Joel Marquis.

Club members will crown a queen, and her court will be honored during the evening. Music will be by Wally Engel and his orchestra.

Marquis can be reached at EL 1-5541.

Educator Eyes Carver School

Taylor Asked to Study Cheaper Way to Care for Mentally Retarded

LANSING (UP)—Rep. William S. Broomfield (R-Royal Oak) today asked Superintendent of Public Instruction Clair L. Taylor to "do all you can" to provide special teachers and facilities for training mentally retarded children at Oakland County's Carver School in Royal Oak Township.

Broomfield said Oakland County Probate Judge Arthur E. Moore also asked Taylor to prevent sending about 75 children to Lapeer State Home and Training School.

Moore said it would be less costly to care for the children with special courses at the Carver School than to send them to Lapeer.

In a letter to Broomfield, Moore said he believes Michigan should have special classes for retarded children "in every possible location and if necessary bring these youngsters by bus from various communities to a central school location for training."

"This type of program would be a great deal less expensive than the institutional program for mentally defective children which we now operate," Moore said.

Police Ponder Fate of Killer

Man Confesses Murder
of Boyhood Companion
in 1935

CLEVELAND (UP)—Police today considered what action to take against a motor car company worker who said he killed a boyhood companion in 1935 and then let another youth take the blame.

Anthony Derda, 29, walked up to a police inspector in a restaurant and told his story yesterday, saying he wanted to clear his conscience and "get right with God." "That other guy has been living with a black mark on his record all of these years," he said. "I've been living with the actual guilt." He identified the boy killed in a woods near Pittsburgh 18 years ago as Steve Kotola, then about 7. Henry Oberhelman, then 16, was accused of the crime and sent to a boys' corrective school, Derda added.

Pittsburgh police verified young

Kotola had been killed, but said Oberhelman was tried and acquitted of the shooting. Oberhelman later died.

Deputy Police Inspector Chester I. Burnett said Derda gave these details: Derda, 11 at the time, was hunting rabbits with the Kotola boy. The boy taunted him and Derda shot him through the head with a .22 rifle.

Derda then concocted a story for police, saying the boy had stolen his rifle and fled in the woods. When the snow melted 45 days later, the body was found and Oberhelman was blamed.

In Pittsburgh, Joseph Flynn, captain of homicide detectives, described Oberhelman as a "mentally retarded" youth who spent time in mental institutions before and after the shooting. He admitted the shooting at first, then denied it and was acquitted when eventually brought to trial, Flynn reported.

14 State Schools Report Breakins

Weekend Thefts Include
2 at Detroit, Others at
Lansing, Battle Creek

By THE ASSOCIATED PRESS
Police today continued to keep a close watch on the state's schools after breakins were reported Monday in at least 14 places.

Over the weekend, police said, schools at Hastings, Nashville and Woodland in Barry County were hit with thieves getting \$75 from Nashville alone.

In Detroit, Pierce Junior High School of suburban Grosse Pointe Park was robbed of about \$500. Burglars took the money, representing Friday's cafeteria receipts, from a vault in the principal's office.

Grosse Pointe police said the theft looked like a professional job. Detroit police said that burglars, ripping a hole through a brick partition in the principal's office, stole 100 from Central High School Saturday. The money was in three cash boxes in a vault.

Other schools burglarized were at Lakeview, Eagle, Olivet, Charlotte, Battle Creek, Marshall and three at Lansing.

Lansing police said thieves took only pop and candy from the Lansing school, but at Eagle, police said they took a \$55 portable radio and 25 cents in change.

Earlier last week \$3,510 was taken from a vault in the administrative offices of the Van Dyke school system.

Student Survey Finds Many Skip Breakfast

ZEELAND (UP)—One of every four students in instructor M. C. De Jonge's classes at Zeeland High School would rather skip breakfast entirely and sleep longer before the bell rings, he said today. De Jonge said a survey showed 25 per cent would rather sleep longer and skip breakfast, 45 per cent manage "fair" morning meals and 30 per cent eat "adequate" breakfasts.

Gamma Globulin Not Yet Proven

Scientists Say Vaccine
Fails to Offer Evidence
as Cure, Preventative

WASHINGTON (UP)—A committee of scientists reported Monday that gamma globulin—the "miracle" polio serum—has not yet been proven a cure or preventative of the disease.

The committee said in a report that the government has not yet had time to test the serum adequately so that a true evaluation of its worth can be made in the fight against infantile paralysis.

The group was appointed by the Public Health Service to evaluate the data collected so far from cities where gamma globulin has been widely used. It included 20 polio researchers and state and city health officers.

The committee made the discouraging report that the preliminary data indicated that the serum had not "measurably" reduced the number of polio

after one of them had been seized by the dread disease.

The scientists also reported that the serum has shown no measurable effect at cutting the severity of paralysis on persons to whom it was given after they had been stricken.

However, Basil O'Connor, president of the National Foundation for Infantile Paralysis, said in New York, the committee's report in no way questioned the value of gamma globulin as a temporary preventative when it was inoculated into children on a mass basis.

Children Escape Injury in Bus-Truck Accident

BALDWIN (UP)—Seventeen school children escaped serious injury Monday when their school bus collided with a truck in Yates Township of Lake County.

Three of the children had bumps and bruises. The truck driver, James Hood, 77, and his wife, Susie, 58, were hospitalized. The bus driver was not hurt.

Alaska Wedding to End Courtship of Forty Years

MINNEAPOLIS (UP)—The romance of two German youngsters before the start of World War I comes to fruition March 6 in a marriage ceremony at Anchorage, Alaska, after some 40 years of "pen-palling."

Eric Tobehn, now 54, was called too young to become engaged to Charlotte Staudte, 53, when the two were childhood sweethearts in Bad Lovisick, Germany. After Eric was called up for the army, Charlotte's letters followed him through the war years.

Out of the army, instead of returning home, he joined the merchant marine and, in 1926, settled in America. The last several years he has lived at a boarding house operated by Mrs. Oscar Westlund at Mound, Minn., just outside of Minneapolis. Charlotte's letters still came.

But Tobehn didn't have the cash to pay her one-way passage here. He did, however, regale Mrs. Westlund with tales of what a wonderful cook Charlotte was. So Mrs.

Westlund last year sponsored Charlotte and employed her.

A planned wedding last Christmas was abandoned when Tobehn lost his job. Now working for the government in Alaska, he recently wrote to set the date and told of an apartment he has for his bride-to-be in Anchorage.

Her white satin wedding dress all ready, Miss Staudte boards a plane for Alaska Friday.

Yankees Greet 'Big Chief': Tigers Begin Work

Reynolds Ends Holdout After Phone Confab

Champs' Brass Figures Other Unsigned Stars to Fall in Line

By ED CORRIGAN
NEW YORK (U) — The world champion New York Yankees had about everything but a brass band out to meet their big chief, Allie Reynolds, today when the aging hurler checked into their St. Petersburg, Fla., camp.

A holdout until last night, Reynolds came to terms with General Manager George Weiss in a telephone conversation from his Oklahoma City home. He assured Weiss he would get the first plane for the Southland.

Reynolds' signing is a significant one for the Yanks, who still have a dozen discontented athletes to round up, including such first-line pitchers as Vic Raschi and Whitey Ford. The Yank brass regarded Reynolds as the key man in the holdout siege.

Whether Reynolds got his \$2,500 raise, neither he nor Weiss would say. But it was Weiss who made the phone call and Allie certainly doesn't need the money he makes out of baseball to keep himself. So it's fairly certain that he got the \$40,000 he was asking.

Weiss was not particularly worried about the rash of holdouts. With only one day of training behind them, the St. Louis Cardinals suffered a crushing blow when Alex Grammas, their \$100,000 rookie shortstop, suffered a torn shoulder muscle on his throwing arm.

Card officials said the injury happened Friday. Grammas was taken to a hospital and Dr. I. C. Middleton, the team surgeon, said he would be out for an indefinite period.

Seven clubs now are holding organized workouts, although the official training season doesn't start until March 1. Besides the Yankees, the Baltimore Orioles, the Milwaukee Braves, Philadelphia Phillies, New York Giants, Boston Red Sox and Detroit Tigers are limbering up.

Elsewhere along the baseball trail: Manager Paul Richards of the Chicago White Sox has divided his squad into three units with emphasis on conditioning pitchers.

Harvey Kuenn, Detroit Tiger shortstop, apparently is eager to avoid the "sophomore jinx."

Kuenn, the league's "most valuable rookie" last season, wasn't due to show up at camp until next Monday — official opening. He dropped by the park as the team was working out yesterday and couldn't resist the urge to pull on a uniform.

He was one of 26 players who worked under a brilliant sun. Eight Tigers remained unsigned — half of them pitchers.

Wildcats' 'Big 3' Appear in Final Contest at Home

By RIP WATSON

NEW YORK (U) — The sun won't shine bright on the home of Kentucky basketball today, for the three big stars have played their last game there.

All America Cliff Hagan, Frank Ramsey and Lou Tsiropoulos, the last remaining members of Kentucky's 1951 national champions, bowed out on the Lexington, Ky., court in fine style last night as they led Kentucky to a 100-64 rout of Vanderbilt. With Hagan getting 22 points, Tsiropoulos 20 and Ramsey 19, the big three came close to tying Vandy all by themselves.

Barred from play last year by the NCAA, they have two more regular season games away from home, then in all probability will wind up their college careers in a playoff with Louisiana State for the Southeastern Conference championship.

LSU kept pace with Kentucky in the SEC race by whipping Alabama 79-65 as 6-9 Bob Pettit, the best basketball player in the bayous for years, closed his home career with a 35-point scoring outburst.

Dupre took no chances of similar trouble against Bowling Green, stopping the Ohio team with five points in the third quarter while racking up a 79-53 victory. It was the 22nd victory with

Senator Directs Bill at Busch

By HERB ALTSCHULL
WASHINGTON (U) — Sen. Edwin C. Johnson (D-Colo.) introduced a bill today to bring under the anti-trust laws any professional baseball club owned by a beer or liquor company.

Johnson, who also is president of the Western League, said in a speech prepared for Senate delivery when the bill was offered, that his move is aimed at August

S. Busch, president of Anheuser-Busch, Inc., brewers of Budweiser Beer. Busch owns the St. Louis Cardinals.

"So that there may be no misunderstanding," said Johnson, "the bill is aimed specifically at the beer-baseball combination in St. Louis where August S. Busch... has been permitted to gain control of the Cardinals."

The senator accused Busch of

using baseball "merely to sell a few more bottles of beer."

"Baseball to August S. Busch is a cold-blooded beer-peddling business," said Johnson, "and not the great American game which sportsmen revere."

"The Congress should treat his baseball enterprise in that light and deny him immunity from the anti-trust laws."

Johnson said "this unholy al-

liance" between beer and baseball is having "an unhealthy influence upon the youngsters of America."

Johnson's bill follows recent introduction of legislation by Rep. Celler (D-NY) to subject all pro baseball to the anti-trust laws.

Noting this, Johnson said: "If the major leagues want, in the sight of the law, to continue as a sport they should live like a sport and not take advantage of the courts and the Congress to pretend to be a sport while practicing the most obnoxious and savage brand of monopoly ever known in these United States."

"Either they must change their ways or be returned to the jurisdiction of the anti-trust laws. The choice is up to the commissioner of baseball right now."

Pontiac Picked to Host State Paddle Tourney

Top-Ranked Table Net Stars Expected to Play in March Event

Pontiac has been chosen as the site for the 1954 Michigan Open Table Tennis Championships, it was announced today. The tournament, drawing top-ranking net stars from all midwestern states, will be held at the Boys Club, 530 East Pike street, on March 6 and 7.

Perc Secord, tournament chairman, revealed today that nearly 500 invitations have been mailed to players in Canada, Illinois, Ohio, Indiana, Missouri, Wisconsin, Minnesota and Michigan to compete in the event.

Several international players, who have only recently moved to the United States from Europe, also are expected.

Champions will be determined in nine divisions including singles events for men, women, novice, senior men over 40 years of age, juniors under 18 yrs., and boys under 15, and a junior miss class of girls under 18 years. Both men's doubles and mixed doubles also are scheduled.

Entry blanks and spectator tickets may be obtained locally from Secord, 580 West Huron street.

Sparrow Breaks Scoring Record

Ex-PHS Ace Tallies 16 at Tulsa but Titans Drop 17th Contest

TULSA, Okla. (U) — A pair of scoring records fell Monday night as Tulsa crumbled University of Detroit 20-70 in a Missouri Valley Conference game.

Forward Guy Sparrow, held scores in the 1st half, tallied 16 points for Detroit. It puts him at 563 points for the season, three more than the record 560 scored by Norm Swanson in 1951-52.

Guard Dick Nunneley broke Tulsa's single game scoring mark with 31 points.

It was Detroit's 17th loss in 26 games this season, a record for defeats. Titans have two more games to play.

Children's Home Boxing Students in Bouts Tonight

Nine boxing students from Oakland County Children's Home will compete in exhibition bouts with Wayne County youngsters for Dearborn Veterans Hospital patients tonight.

William O. Moulton, children's home superintendent, says the boys, taught by recreation director Harold Dugan, will take part in nine of the evening's 10 three-round matches.

Dugan is teaching boxing to 14 boys 14 to 16 years old. Moulton says, and hopes to enter some youngsters in Golden Gloves competition later.

Those days of glory and defeat are gone. Once the Ivy schedule is operating it is almost a certainty that Penn will add Army and Navy, two long-time rivals, to its Ivy League schedule and let it go at that.

No more Notre Dames, Michigans or Californians after 1956. Pennsylvania is about the only big eastern team the Ivy League arrangement affects. The rest of the Ivy League have been more and more reluctant about wandering off the reservation.

House Is Sure He'll Become Regular Catcher

Bonus Rookie Believes He's Ready; 8 Players Are Unsigned

LAKELAND, Fla. (U) — The white ball disappeared over the outfield fence. Then another.

Frank House—a new, more determined Frank House—was back with the Detroit Tigers. He was using his bat like a whip as the Tigers went through their opening workout yesterday under a glistening sun at Henley Field.

But the sun has not always shone on this 24-year-old catcher, who signed in 1948 with the Tigers for a fabulous \$70,000 and two automobiles. Not one, mind you, but two.

As a bonus player, House was allowed only one year in the minors — and it wasn't enough to make him into a big leaguer. Everybody agreed on this—even House.

"I'd sooner start as a hungry player again than receive a bonus," he said ruefully.

He was farmed to Flint of the old Central League in 1949 but his record was anything but brilliant. He hit .261 in 107 games.

In 1950, he came up to the Tigers—but spent the season in the dismal obscurity of the bullpen as an extra catcher. He saw very little action.

Tigers were battling Yankees for the pennant and manager Red Rolfe had bluntly said: "I'm not counting on House at all. His only chance to see any action is if we are hopelessly out of the race."

And so it went. The troubled life of a bonus player. House eventually went into the army, where he played some ball. He was given his discharge a short while ago and says he's ready to earn a regular spot with the Tigers.

"I've got my confidence back," he said as manager Fred Hutchinson put 26 Tigers through opening day drills. "I did a lot of thinking in the army. I think I'm ready for the big leagues now."

House will have to battle Matt Batts for the Tiger job. But at least he'll have a head start on Batts. The latter is one of eight Tigers who have not signed.

Two of the unsigned players—pitchers Ralph Branca and Steve Gromek—are new with their families and are expected to sign shortly. Others—especially pitchers Ted Gray and Ned Garver—may not be so easy to corral.

Gene Smith Scores Upset Knockout Over Gallardo

NEW YORK (INS) — Kayo artist Gene Smith of Washington, D. C., commanded more respect and recognition today in boxing's featherweight division.

The hard-punching Smith, un-

ranked among the contenders, put a three-round chill on 4th-ranked Dave Gallardo of Los Angeles, in a scheduled ten rounder last night at Eastern Parkway Arena.

Repeatedly landing his overhand right haymaker to Gallardo's jaw, Smith sent the Californian to the canvas three times within 30 seconds and under New York state law referee Barney Felix had to halt the bout at 1:25. Three knockdowns in a round constitute an automatic "technical knockout" in N. Y.

Smith, scoring his 29th kayo in 44 fights, had the fast-stepping Gallardo down in the 1st and shook him up with a solid attack in the 2nd round.

The bout was telecast to many parts of the nation. Smith weighed 127 to Gallardo's 126.

Penn Schedule Is Only One Affected Greatly by Official Ivy Tieup; Intersectional Games Out

By GRANTLAND RICE
NEW YORK — The recent Ivy League arrangement is certainly a sharp division from Pennsylvania's previous plans as carried out last year.

Now Penn will play seven Ivy League teams, with two outsiders thrown in. Remember the schedule last fall which included Vanderbilt, Notre Dame, Army, Ohio State, California, Michigan, Navy, Penn State and Cornell teams from ocean to ocean?

Those days of glory and defeat are gone. Once the Ivy schedule is operating it is almost a certainty that Penn will add Army and Navy, two long-time rivals, to its Ivy League schedule and let it go at that.

Baseball Business! Yankees' Scout Dizzy; Brook Brass Impressed

By THE ASSOCIATED PRESS
ST. PETERSBURG — Paul Krichell, 71, chief scout for the New York Yankees, today was admitted to St. Anthony's hospital for a checkup. He complained of dizzy spells over the weekend.

PHOENIX, Ariz. — Wes Westrum has been demoted to 2nd string catcher by manager Leo Durocher of the New York Giants and he's obviously annoyed by it all. "So I'm not on the first team any more, eh?" He said with a scowl when he went up to the plate for his last batting drill yesterday. He then proceeded to catch a couple of balls over the fence.

VERO BEACH, Fla. — Brooklyn Dodgers' brass, here to look over the team in its early-season workouts, is impressed. Vice president Fresco Thompson said he thinks the Brooks have the best pitching in the National League.

YUMA, Ariz. — Aspirants for battery positions on Baltimore's first major league team in 51 years were set to enter their second day of spring drills this morning. Conspicuously missing was catcher Clint Courtney, who is yet to sign a 1954 Oriole contract.

TUCSON, Ariz. — Hank Greenberg, Cleveland Indians' general

manager, flies here today to get the Tribe's spring training under way. Six of the Indians—including pitchers Bob Lemon and Early Wynn—have not yet come to terms.

TAMPA, Fla. — Pitcher Jack Harshman, a converted 1st baseman, says he thinks he can continue with the Chicago White Sox a winning habit that was tops in the minor leagues.

Harshman, 26 and a southpaw, at one time was a 1st sacker in the New York Giants system. He later turned to pitching and, with Nashville last season, won 23 — including four during Southern Association playoffs.

WEST PALM BEACH, Fla. — Right-handers William Ray Upton and Lee Wheat, obtained from Cleveland last week in the trade for outfielder Dave Philley, worked out today with their new teammates, the Philadelphia Athletics.

ORLANDO, Fla. — Manager Bucky Harris will ease a big load off his mind this spring if he can snap shortstop Pete Runnels out of a sophomore slump.

Runnels sparked for the Senators when he broke into the majors two years ago with a .285 batting average and a classy performance afield. Last year he sunk to .257 and suffered companion miseries in fielding.

DAVIDSON WINS U.S. Indoor Net Championship
Swede Disposes of Dane Kurt Nielsen in 4-Set Final Match

By WILL GRIMSLEY
NEW YORK (U) — The name is Sven Davidson—one "s," if you please. No "double s."

Be sure to get it right. It's a name you're going to be seeing more and more in the next few years.

Sven Davidson, 25, of Stockholm, Sweden, is the new indoor tennis champion of the United States and today stands out as one of the game's most promising young comers.

He won the hardwood crown yesterday with a 2-6, 6-1, 6-1, 6-4 victory over a longtime Scandinavian rival, Kurt Nielsen of Denmark.

The handsome Swede, a tall youngster with coal black hair said he planned to return for our national championships at Forest Hills in late summer.

Two of the unsigned players—pitchers Ralph Branca and Steve Gromek—are new with their families and are expected to sign shortly. Others—especially pitchers Ted Gray and Ned Garver—may not be so easy to corral.

Indiana, had it won from Iowa, would have been guaranteed a share of the conference title and would have needed only one victory in its final two games—against Ohio State and Illinois—for full possession.

As it is, pressure now is on the Hoosiers to prevent either Iowa or Illinois, or both, from claiming a share or even all of the championship.

Indiana has won 10 and lost two, Iowa has a 9-3 mark and Illinois 8-3.

To complete their 14-game conference schedule, Hawkeyes must face Michigan State and Ohio State. Illinois plays Michigan, Northwestern and Indiana, in that order.

Iowa was beaten soundly by both Ohio State and Illinois last week and experts figured the young Hawkeyes had shot their wad in surging to a brief leadership tie with the Hoosiers 10 days ago.

But Coach Bucky O'Connor's sophomores, bouncing back from 74-45 licking by the Illini Saturday, took complete charge against the Hoosiers at Bloomington, Ind.

Championship significance of the Iowa-Indiana and Illinois-Wisconsin battles obscured Northwestern's feat in nothing it 5th straight Big Ten win. Michigan State was the victim, 80-71.

In last night's 4th conference game, Minnesota beat Michigan 79-70.

BIG TEN STANDINGS
CHICAGO (U) — Big Ten basketball standings:

W L Pct. W L Pct.
Indiana 10 2 .333 17 8 .680
Iowa 9 3 .750 15 4 .786
Illinois 8 3 .727 15 4 .786

There was quite a howl from Notre Dame's supporters when Maryland supplanted the Irish as the No. 1 team. Their schedules were entirely too different. The howl grew louder when Oklahoma beat Maryland.

Oklahoma was quite on a level with both teams. No one can figure these games out. Iowa was the strongest team in the country after Nov. 1. Until schedules approach others much closer in the way of toughness nothing can be proved.

It is possible to designate each year the champion of a conference, unless there is a tie. That should be enough in the way of glory for a college team. When from over 400 teams and some 20,000 players you pick the best team in the country, you are taking a lot for granted and most of it is guessing.

NEW TIGER FACES—Here is a group of players new to the Detroit Tigers this season. Rear (left to right) are Earl Harriet, Milt Jordan, Paul Foytack, Frank Lary and Bob Cruse. Front (left to right) are Jim Bunning, Milo Johnson and Dick Donovan. All are pitchers. They posed Monday at the Tigers' Lakeland, Fla., training camp.

Jewelers Nail Down City 'A' Regular-Season Cage Title

Shaw's Jewelry last night clinched its 2nd straight regular-season title in the Class A section of the Parks and Recreation Department's City Basketball League.

Jewelers had to rely on accuracy at the free throw line to edge 3rd-place Chuck's Shack, 61-58, for their 9th victory in nine starts. Each team collected 25 field goals, but Shaw's made good on 11 of 22 chances at the foul line to post the winning margin.

Bob McManus led the Jewelers with 17 points, while Tom Spencer had an equal number for the losers. Oliver Bulck handed Walled Lake Merchants their 9th setback in 10 starts, 54-48, as both teams concluded their Class B schedules.

George Feldman of Walled Lake led scorers with 18 points.

Elks Lodge No. 723 threw the Class D lead into a 3-way deadlock by upsetting once-beaten Phalanx, 41-29. Ed Ringgold piled up 19 points to spark the victory. Panthers ended their "D" season by dismissing Senior Hi-Y, 41-30.

Muskie Dribbles took their 9th straight victory in girls' play on a forfeit from the Unknowns. Racketeers downed Baskettes, 10-5, and

Dick & Wes defeated Skid Kids, 12-6, in other girls' games.

Pin Leads Go to Port Huron and Saginaw

FLINT (U) — Port Huron and Saginaw bowlers gave the pins a thumping to move into high spots of the state bowling tournament Sunday.

A Port Huron pair, Elmer Abdo and William Kilbourne, rolled 1353 for 1st place in handicap couples. Actual count was 1299, good for 2nd place in the actuals.

Emil Witkowski of Saginaw rolled 749 in handicap singles for a tie for 1st with Bernard Shay of Mt. Clemens. Witkowski's actual score of 686 was good for 2nd in the actuals.

Shay leads singles actuals with 685. Joe Norris and Ernest Colter of Detroit lead doubles actuals with 1309. They are now 2nd in the handicap to Abdo and Kilbourne.

Gophers' 2nd Half Surge Defeats UM

MINNEAPOLIS (U) — Minnesota put on the heat in the last half to beat Michigan 79-70 in a Big Ten basketball game last night.

Wolverines, losing their 10th game against two victories, enjoyed a 41-36 halftime lead but couldn't hold Dick Garmaker and Ed Kalafat in the 2nd half.

With two and a half minutes gone of the 4th quarter, Minnesota went into a 60-59 lead and stayed ahead to the end.

Garmaker scored 26 points to run his season's total to 409, a Minnesota record. He is playing his 1st season of Big Ten basketball.

Two things, for sure. The modern bullet travels so far from the tee that on a comparatively tight course such as Brackenridge Park the player usually has only a short wedge shot to the pin. His clubs are vastly improved from those of 25 years ago. As a third important factor, our guess would be that the greens on the old San Antonio course are about 100 per cent smoother than they used to be.

Those men, among the greatest of their time and in some cases still ranked with the authentic stars the game has known, simply did not shoot scores remotely resembling those turned in over the past weekend. NEW YORK (U) — It always was ridiculous to try to compare today's star golfers with giants of a quarter-century ago, and after the turkey shoot they have just put on in the Texas Open at San Antonio we hope never again to be guilty of joining in this silly debate.

Chandler Harper, a not especially conspicuous pro of 40, won the latest renewal of the oldest money tournament with rounds of 60-63-63-259. Johnny Palmer started the final round with a 5-stroke lead over the field, shot a 1-under-par 70 and finished two strokes back of Harper.

This all took place over the same

old Brackenridge Park course where they were playing the Texas Open back in the Gay '20s and where we were following bug-eyed the play of such artists of the period as Walter Hagen, MacDonogh Smith, Bill Mehlhorn, Bobby Cruickshank, the Espinosa brothers and many others.

District Tourney Preview Seen in Area Games

By JACK SAYLOR

It's tournament preview night in the Oakland County area as several games match teams that are entered in the same district prep basketball tournaments starting a week from Wednesday.

At Troy, however, there's some unfinished business to be cleared up before thoughts are concentrated solely on the forthcoming

tournament. Troy's Colts are on the verge of winning their 1st Oakland B sports championship.

For two years, Oakland B schools have had to cool their heels while Roseville reaped the honors in every sport. Spell finally was broken when Avondale and Fitzgerald shared the loop football crown.

Now it's Troy's turn to howl.

Peyton Goodwin's well-balanced quintet has won 11 of 14 games this winter, including eight straight conference starts. A tie for the title is assured, but the Colts want the trophy all for themselves.

A win over Clawson tonight will do the trick. Colts walloped the Bears earlier, 62-41, so should be in a position to celebrate later this evening. Key to Troy's success is Mike DeKane, a talented south-

paw who deserves strong support for all-state honors.

DeKane has averaged over 19 points a game in addition to being a ball-hawking defensive player.

Fred Burnard (6-4) and Graydon Choiniski (6-2) give the Colts strength on the backboard and little Jimmy Murdock (5-5) supplies floor leadership. Jack Acton (6-1) rounds out the starting cast.

They'll be joined by three very good clubs, Warren, Utica and Orchard Lake St. Mary.

Clarkston and Ortonville also are set for same Class C tourney (at Ortonville) and meet tonight on the Blackhawks' floor. Despite their reverse records, tonight's game could be an interesting one.

Clarkston has rolled to an 11-3 record, including the last eight in a row. Ortonville's record is 3-11, but six of the setbacks were by 6 points or less.

Farmington and Livonia-Bentley, another strong Class B pair, are the leading entries in Bentley's Class B test and the winner of their contest tonight will rate as tourney favorite.

Byrd Blames Overwork for Poor Record in '53

By JOE REICHLER

ST. PETERSBURG, Fla. (AP) — Neither the sophomore jinx nor excess weight had anything to do with Harry Byrd's 2nd year demise in 1953, the newest New York Yankee righthander said today.

Byrd, one of the early arrivals at the Yankees' training camp, is still "up in the clouds" since the December trade that sent him from 7th place Athletics to the world champions. He was largely responsible for his dismal 11-20 won and lost record with the A's last season.

"I've read the reason for my so-called bad year was because I didn't work hard enough and allowed myself to get fat," he said. "The truth is exactly the opposite. I think I did too much work last season, but the wrong kind."

"The regular season was like spring training all over again for all our pitchers. We had to run 40 times around the park every day before a game. And we had to pitch batting practice every day except when we were due to start. That went for all pitchers."

Byrd refused to concede that he

Young, Gibson Take State Doubles Crown

CADILLAC (AP) — Detroiters George Young and Therman Gibson won 18 of 28 games Sunday to recapture the Michigan State match game doubles bowling championship.

Young and Gibson held the championship two years ago. Their victims Sunday were Lou Siefert and Bill Burnette, also of Detroit. Defending champions Buzz Fazio and Tony Lindemann were eliminated in the preliminary rounds.

The 1954 champions won by a margin of 482 pins. Gibson topped all four with a 216.2 average. Siefert was next with 197.8. Young, with 196.1, was 3rd and Burnette posted a 194.1.

Knee Bend Key to Delivery

By MARION LADEWIG

Sixth of 12 Articles

The delivery is the phase of bowling that interests most people and to which they devote the most time and effort.

It is the culmination of your stance, approach, backswing, footwork and timing. If anything was faulty in any of those departments,

however, your delivery will not be successful.

A common mistake among lady bowlers is not being the knees—or at least not bending them enough. The knees must bend, and the body leans forward from the waist at this delivery point.

The accompanying illustration shows the ball just being released by the fingers and sent out over the foul line. Note how the ball is released as the arm just begins its upward movement which will end in the follow-through. Be sure the ball is sent out and over the foul line before it touches the alley bed.

Duquesne Still Leads AP Poll

Kentucky and Hoosiers Trail Dukes; No Change in Top Six

NEW YORK (AP)—Duquesne's unbeaten basketball forces continue to lead today in a battle of ballots with Kentucky — also unbeaten — for top national honors.

Dukes from Pittsburgh, for the 2nd straight week, captured the No. 1 spot in the Associated Press poll of sports writers and sportscasters with the Wildcats from Lexington close behind.

The 1st six teams, in fact, held their ground from the previous balloting with Indiana, Western Kentucky, Oklahoma A&M and Notre Dame following leaders in that order.

(Poll votes were in before last night's games in which Indiana was upset by Iowa, 82-64. Duquesne, Kentucky, Western Kentucky and Notre Dame were victorious last night.)

Leading teams:

1. Duquesne (26) (22-0) 934
2. Kentucky (27) (22-0) 891
3. Indiana (13) (12-3) 891
4. Western Kentucky (6) (24-1) 800
5. Oklahoma A & M (11) (21-2) 620
6. Notre Dame (3) (17-0) 440
7. Holy Cross (6) (21-1) 304
8. George Washington (14) (18-1) 291
9. Seattle (4) (24-1) 252
10. Duke (7) (18-0) 150

The 2nd ten: 11. Maryland (5) (21-5) 146; 12. Louisiana State (15-2) 142; 13. La. State (1) (20-4) 138; 14. Wichita (24-0) 86; 15. Oklahoma City (14-5) 85; 16. Dayton (25-5) 77; 17. Kansas (14-4) 74; 18. Colorado A & M (10) (20-4) 55; 19. UCLA (18-5) 53; 20. Iowa (15-4) 50.

Wildcats Trim MSC for 5th Straight Win

EVANSTON, Ill. (AP)—Northwestern trimmed Michigan State 80-71 for the Wildcats' 5th straight victory in the Big Ten basketball race last night. It was MSC's 8th loss against three wins.

Wildcats led from the start. At one time in the 4th quarter MSC pulled up to 44-50 but Northwestern's Bud Grant sank six straight points to choke off the rally.

Spartans missed their 1st 10 field goals attempts and the handicap proved far too much to overcome.

Frank Ehmann and Grant topped Northwestern with 21 and 18 points, respectively. McCoy and Bob Armstrong scored 17 each for MSC.

Leading teams:

1. Duquesne (26) (22-0) 934
2. Kentucky (27) (22-0) 891
3. Indiana (13) (12-3) 891
4. Western Kentucky (6) (24-1) 800
5. Oklahoma A & M (11) (21-2) 620

Wings' Margin Is Comfortable After 3-0 Win

Sawchuk Posts Shutout No. 12 as Canadiens Bow at Olympia

DETROIT (AP) — The Detroit Red Wings, shooting for an unprecedented 6th straight NHL championship, today were in the pretty position of owning a ten-point league lead with only 11 games to play.

But coach Tommy Ivan isn't hollering championship yet.

"We still got five games to play against Toronto and Montreal," the dapper little coach said. "And those games can still cause us trouble."

"Let's just say I feel better after tonight's victory."

Ivan should feel better. The Wings outskated and outfought Montreal for a 3-0 victory before 14,353 fans. It was perhaps the most important victory of the season.

A Montreal win would have given the Canadiens three straight over Detroit in less than a week and cut the Wings' first place lead to six points. But now it's ten and now they seem out of reach of both Montreal and Toronto, which are tied for 2nd place.

Red Wings, who have looked pitiful in losing games last Thursday and Saturday to Montreal, played hard all the way last night to save goalie Terry Sawchuk's 12th shutout of the season.

With Montreal short-handed, Detroit bottled to a 2-0 lead in the first 11 minutes on goals by Capt. Ted Lindsay and Metro Prystai. Gordie Howe set up both goals.

Babe to Miss Play in Best-Ball Event

ORLANDO, Fla. (AP)—International Mixed Two-Ball Golf tournament opens here tomorrow with 85 teams on hand.

The crowds, however, won't see Babe Zaharias, long one of the foremost contenders. The Babe, winner of the Sebring Women's Invitational at Miami Beach Sunday, sent word her doctor had advised her to rest this week.

Leading teams:

1. Duquesne (26) (22-0) 934
2. Kentucky (27) (22-0) 891
3. Indiana (13) (12-3) 891

Job Scramble Marks Start of Cards' Training

ST. PETERSBURG, Fla. (INS) — The "new look" St. Louis Cardinals, under the progressive management of President August A. Busch Jr., are embarked on one of the Red Birds' most competitive springs in history.

Pepperpot manager Eddie Stanky reports that it has been nine years since he has been exposed to a camp that offered such good prospects of a scramble for jobs.

And one of the scrambles is already under way—between regular catcher Del Rice and a newcomer, Dick Rader. Also figuring in the backstop battle are Bill Sarni and Sal Yvars.

But the main bout appears to be between incumbent Rice and Rand, who in his short stint with the Cardinals late last season showed promise of being a better batter than Del.

Pine Lake Country Club pro Henry Ransom, Michigan's only entry in the Texas Open at San Antonio last weekend, finished in a tie for 12th place with Jimmy Demaret. Ransom, who carded 66-65-70-68—269, picked up \$315 for his finish.

Landy's Final Effort 4:02.6

Aussie Misses Fabled 4-Minute Mile in Last Big Start of Year

MELBOURNE (AP)—John Landy, Australia's ace miler, turned in a 4:02.6 clocking tonight at Olympic Park bucking a strong headwind on a track made heavy by a drizzling rain.

Landy's time, just 1.3 seconds off the world standard of 4:01.4 set by Sweden's Gunder Haegg in 1945, was an exceptional achievement in the light of the running conditions.

Police Chief Transfers 1-Man Force to Office

DOVER, Mass. (U)—The Police Department of this wealthy suburban Boston town today for the first time has its own office.

Hitherto, police have worked out of the home of Police Chief Chester F. Heinlein. Townsfolk yesterday dedicated the new office in special ceremonies.

The police chief doesn't expect the new office to be very crowded. The entire regular personnel of the department is Chief Heinlein.

Nursing Home Safety Sought

Fire Prevention Laws Are Recommended by Berrien Prosecutor

WATERVLIET (U)—Joseph Killian, Berrien County prosecutor, passed some fire safety recommendations on to legislators yesterday in the hope that new laws may head off another convalescent home disaster.

At the same time Killian said he would not seek an inquest into the fire at Watervliet Friday night that has brought death to eight aged patients.

Instead of an inquest, Killian said yesterday, he had submitted his recommendations to area legislators by letter. He recommended that law require:

1. Mandatory fire drills monthly.
2. Installation of early warning devices, preferably direct to fire stations.
3. Automatic sprinkler systems or fire extinguishing installations.

Fourthly, Killian said there is a need for a central fire-resistant home to be maintained by county or state for invalids.

The prosecutor said that he and Deputy Fire Marshal Walter Burns of Paw Paw had decided against an inquest as an unnecessary expense since recent fire inspections were favorable.

Little Boy Justifies Shooting Woodpecker

LOS ANGELES (U)—A Sierra Club speaker, making a thundering demand for preservation of natural resources, pointed an accusing finger at his audiences and cried: "What have you done to preserve our forests?"

Dead silence. Then, from the back of the room, a small voice said:

"I shot a woodpecker once."

Freak Factory Does the Work of Frankenstein

By BOB THOMAS

HOLLYWOOD (U)—Come with me into the monster factory. You'll find it on the second floor of an old building at Universal-International. The monster makers who run the joint are make-up chief Bud Westmore and his assistant, Jack Gavin. These fellows can whip up a monster at the drop of a script, and that's what they've been doing lately.

I dropped in at the freak works and found Gavin putting the finishing touches on the latest creation, an ant man.

"This fellow is called a mutant," Gavin explained clinically. "He comes from the planet of Metaluma, where the Metalumans breed them for work purposes. They are half-man and half-ant, an interesting combination."

Interesting enough to scare you out of your wits if you met one in a dark alley. The mutant is a blue-green horror with vivid red veins lashed around its body. It has a two-foot-high head that appears to be an exposed, oversized brain. The arms, with viselike pincers, dangle down to his ankles and he has a shell-like back. He's a doll, all right.

This fellow makes his debut in "This Island Earth," and his keepers, the Metalumans, are also weird. They're more human-like, but they have high domes topped by white hair.

An assignment of this sort is routine for Westmore and Gavin. "We're the little studio equipped to handle big jobs like this," Westmore remarked. "We have our own big bake oven for setting the molds and everything."

Monsters don't come cheap. The mutant came to a bill of \$6,500, which is not bad as monsters go. The boys' last assignment was whipping up a frog man to play the title role in "The Creature From Black Lagoon." He came to around \$12,000.

"We sort of fell down on that one," Westmore admitted. "He wasn't frightening enough. The preview cards indicated that some people in the audience sympathized with him. The trouble was that they photographed the frog man in the bright sunlight. You can't do that with monsters. You have to keep them in the shadows."

Westmore needn't worry. The mutant will restore his reputation as a monstrosity maker.

Universal's penchant for horror goes back to the old days of Lon Chaney and "The Hunchback of Notre Dame." The early talkies brought such hits as "Dracula" and "Frankenstein." From then on it was a makeup man's paradise. They had the Frankenstein monster meeting the Ape Man, Dracula meeting the Mummy and all of them meeting up with Abbott and Costello. Art gum and sponge rubber all over the place.

"One of our toughest assignments was 'Abbott and Costello Meet Dr. Jekyll and Mr. Hyde,'" Westmore recalled. "We had to make up nine Dr. Jekyll masks. The idea was that as one actor bit another, he turned into a Dr. Jekyll. Then at the end we had to turn Lou Costello into a mouse!"

But the most expensive job was for no monster at all. It was making Ann Blyth's tail in "Mr. Peabody and the Mermaid." Bud and his staff spent three months on that job, making tail after tail until the studio bosses decided on one they liked. The cost: \$22,000.

The first Mardi Gras street parade in New Orleans was held Feb. 27, 1838.

300 Hear Talks on 2 Presidents

Circuit Judge Hartwick and W. E. C. Huthwaite on Citizens' Program

Circuit Judge George B. Hartwick and W. E. C. Huthwaite spoke before some 300 men and women at the 16th annual Washington-Lincoln program at Pontiac High School Monday.

Miss Janice Antona's citizenship class and the New Citizens League of Pontiac co-sponsored the affair.

Comparing Washington's era with ours, Judge Hartwick stressed that some of Washington's greatest deeds were the things he didn't do—such as not accepting a crown but insisting on a democracy. Huthwaite gave anecdotes and highlights of Lincoln's life. Congressman George A. Dondero sent greetings.

Al Tiltman led the flag pledge with Mrs. Joseph Bennett accompanying the singing of the national anthem.

Students John Mouradian and Gus Sudan recited the American Creed and Washington's Farewell Address, respectively. Mrs. Alice Hadden and Mrs. Rhoda Swanson read original papers on Lincoln and Washington.

Persons who outlined the United States' system of government included Paul Hansen, Mrs. Mabel Morrison, Mrs. Anna DeLeon, Mrs. Dora Abernathy, Mrs. Olga Hoff, Joe Veia, Mrs. Beatrice Truxton and Mrs. Ellen Tiltman.

Others taking part were Miss Cecily Dubis, Mrs. Lena Sachs, Mrs. Elfriede Riebitz, George Galstian, Mrs. Anita Heffernan, Mrs. Sophia Savvas, Mrs. Betty Frantz and John Walker.

The PHS Senior Girls ensemble sang several selections, accompanied by Miss Marilyn Hardy. Miss Mary Singles played piano numbers.

Miss Antona introduced Lynn D. Allen, Oakland County clerk and Americanism chairman of Cook-Nelson Post 20, American Legion; Mrs. Mary Todd, Americanism chairman for Daughters of the American Revolution; Mrs. Lee Hill and Mrs. Joseph Phillips of the American Legion auxiliary. Mrs. Phillips is Americanism leader for Chief Pontiac Legion post's auxiliary.

The refreshment committee chairman was Mrs. Herbert Langton, with Mrs. C. M. Walter and Mrs. Truxton presiding at the table.

Invalid Father Helpless as Son Burns to Death

LOS ANGELES (U)—An invalid father watched helplessly from a wheel chair while his son, 4, burned to death in a garage fire.

Firemen said the boy, Mark Clark, apparently hid in a car in the garage while playing with neighborhood children yesterday. His brothers, 12, and Edward, 15, tried to reach him but were driven back by the flames.

Overcome by grief, the father, Archie Clark, was taken to a hospital.

California Dog Breaks Freight-Pulling Record

WEST YELLOWSTONE (U)—A sled dog owned by Al Holten, Santa Rosa, Calif., pulled 2,100 pounds of freight 25 feet yesterday and claimed a new world's record.

North American Dog Derby officials said the previous record was 1,800 pounds, set eight years ago in Nome, Alaska.

Officials Discuss New Highways

Senator, Auto Leaders Back State Bond Issue for Building Roads

DETROIT (U)—Senator Joseph Cloon (R-Wakefield), and officials of Michigan Good Roads Federation meet with the Senate Taxation Committee today to discuss a proposed \$300 million bond issue.

Sen. Cloon and the federation are backers of a bill that would amend the State Constitution to permit the bond issue that is designed to build new highways in Michigan.

The backers got approval Monday from a group of auto-connected organizations including auto dealers, the American Automotive Assn., the American Petroleum Institute, state, county and city highway officials, trucking representatives, and the Detroit Board of Commerce.

Many of the representatives said at a Detroit meeting that they favored the bond issue should pay-as-you-go plans prove inadequate. Others said that their groups had not taken a stand, but they were sure they would approve of it.

The proposal was introduced in the Michigan Senate last month by four Republicans and a Democrat. It would require a two-thirds vote of approval by the Senate and House, and approval of the voters.

Sen. Cloon said that Michigan will have a million additional auto registrations more than it has now in 1960.

Senate Approves Bill for New Edison Plant

LANSING (INS)—The Senate last night approved a measure permitting the Detroit Edison Co. to purchase submerged state land for construction of a power plant.

The price set by law was \$18,000. Edison spokesmen said the plant, once built, would provide alternate electric power supplies for the Detroit area in the event of enemy air attack.

MSC Students Kidnap Deans for Blood Drive

EAST LANSING (UP)—"Martial law" settled over Michigan State College Monday as the MSC Veterans Association pulled a mass kidnapping stunt to draw 3,200 pints of blood for the Red Cross.

President John A. Hannah, Dean of Students Tom King and presidents of all student organizations were placed in a stockade in the Union Building and released only after "ransom" was offered in the form of blood donor pledges.

Mrs. Nancy Williams, wife of Gov. G. Mennen Williams, was taken hostage but was quickly released when a flock of coeds volunteered blood.

"We'll have to strain every vein to make our goal," Art Underwood, drive chairman, said. "It's the largest in our history, but we should hit it by Friday."

Nearly 2,000 pints have been pledged so far.

Thinks U.S. Official Should Go to Vatican

WASHINGTON (INS)—Undersecretary of State Walter Bedell Smith has told Congress he believes the U.S. should re-establish formal diplomatic relations with the Vatican.

Smith's personal views on the question of sending a U.S. representative to the papal court were expressed Jan. 25 in testimony before a House appropriations subcommittee made public today.

Asked by Rep. John J. Rooney (D-N.Y.), about the State Department's position on having a personal representative of the President at the Vatican, Smith replied: "That is a political matter and the department has no official position on it. I would like to see relations resumed."

Smith added that "from the point of view of the conduct of diplomatic affairs, and particularly in our global opposition to communism, it would be well worthwhile if we should re-establish some kind of formal relations with the Vatican."

THINGS YOU SHOULD KNOW ABOUT YOUR PROPERTY INSURANCE AGENT—

He Helps Prevent Losses, Too

No insurance can replace lives, homes and jobs lost by fire. Your property insurance agent knows this only too well.

For this very reason he is active in accident and fire prevention campaigns.

In this community he works to strengthen fire prevention ordinances and the facilities of the fire department.

Out of every premium dollar he collects, part is used by the companies he represents to raise fire and accident prevention standards. These companies work through educational and engineering organizations whose efforts have steadily energized the nation's fire and accident prevention measures.

In your home or place of business, your property agent's advice may help reduce or eliminate major hazards. When you follow his recommendations for safety, the property insured may become eligible for lower rates.

It pays to consult a competent property insurance agent about the right protection against fire and casualty for you. His advice costs nothing.

Key to Success at Geneva Will Be Indochina Truce

By PHIL NEWSOM

United Press Foreign News Editor
The Berlin conference settled European boundaries for the foreseeable future. The Geneva conference, which is to include Red China, could settle world boundaries.

The key is Indochina—thus explaining the doubts which have arisen in the United States Congress over the advisability of this new meeting with the Reds and the deep suspicions which have been aroused both in South Korea and Formosa.

The Berlin conference ended in failure for the West, and a victory for the Communists.

To be sure, the victory for the Russians was a negative one since it meant they remained in possession of territory they already held, namely, East Germany and a part of Austria.

The only victory for the West would have been one in which Soviet Foreign Minister Vyacheslav Molotov would have agreed to withdraw Red forces and set those territories free.

Since he refused, the only alternative is a war which neither the Communists nor the Western nations are willing to risk.

But by his negative victory, Molotov achieved a line which cuts across the heart of Europe, from above the mouth of the Elbe in Germany to below the Danube at the point where it enters Yugoslavia.

And he put off, perhaps forever, the question of the East German territories given to Poland east of the Oder-Niese.

The Russians chose France as the weak point of the Western alliance in the conference at Berlin,

and France again is the target of the April conference scheduled for Geneva.

And it is for that reason that the Geneva conference becomes global in scope, and the Berlin meeting but a stepping stone.

At Geneva, the Red Chinese and the Red Russians each will have a bird to kill.

All of French attention today is centered on the hope of a negotiated end to a seven-year war in Indochina.

The French felt that a victory had been achieved in Berlin when the Russians agreed to a five-power conference which would have as one of its objectives a truce to a war which has cost them \$1,000,000,000 a year and 100,000 casualties with no end in sight.

Conversely, Molotov announced frankly in Berlin that one of his objectives was to kill the plan for a European Army, of which France also is the key. He also announced his belief that unless the European Army plan is ratified this year, it is a dead pigeon.

The French will not want to annoy the Reds while the Indochina talks still are in prospect or in progress, thus effectively delaying the army plan.

The Communists, on the other hand, have every reason to delay or prolong as much as possible, simultaneously holding in abeyance the fate of Europe.

From the Asiatic standpoint there are these considerations.

The West, in effect, already has admitted that Korea will remain divided indefinitely.

The Nationalist Chinese on Formosa believe that, whether the

West likes it or not, the Geneva conference gives the China Reds a foot in the door of world councils at Nationalist expense.

And so far as Indochina is concerned, any negotiated truce must involve a compromise.

What happens then to the Reds already scattered the length and breadth of Indochina in such force that the French admit no military victory against them is possible this year?

Bartender Gets Singular Reply to Stock Question

HANOVER, Mass. (AP) — Bartender Harvey Hemmings asked the new customer the usual question, "What'll you have?" The man gave the unusual reply of "Everything you got." The "everything" was \$500 and the "chaser" was a squad of police cars.

Soybeans Show Best Gain Today

CHICAGO (AP) — Soybeans moved to their best price since February 1951, on the board of trade today, breaking through the old OPA ceiling of \$3.33 shortly after the opening.

Action of soybeans had some influence on the rest of the market, although new crop wheat deliveries were firm from the start. Demand entered these months largely on reports of more dust storms in parts of the winter wheat belt over the weekend.

It was the May soybean future which made the new top for the past three years. It moved up to \$3.34 before retreating a bit.

Wheat near the end of the first hour was unchanged to 1/4 cent higher, March \$2.14; corn 1/4 cent lower to 1/4 higher, March \$1.51; oats 1/4 cent lower to 1/4 higher, March \$1.17; rye unchanged to 1/4 cent lower, March \$1.17; soybeans 1 to 3 cents higher, March \$3.31 and lard unchanged to 2 cents a hundred pounds higher, March \$16.92.

Premiere Is Set for March Date

Weather, Music, Items of Interest Will Start at Seven in the Morning

NEW YORK — "The Morning Show," a new daily two-hour program of varied entertainment and musical features, news and information, will start on CBS television network March 15.

Walter Cronkite, known to the national television audience for his role of "anchor man" during the coverage of the 1952 presidential elections and for his current role of narrator on the network's "You Are There" series, will be "anchor man" on "The Morning Show."

Bill and Cora Baird and their inexhaustible horde of marionettes will handle the musical chores, with "Humphrey, the Houn' Dog" as a new puppet character created by the Bairds for "The Morning Show."

Sig Mickelson, whose department is producing the new series, describes "The Morning Show" as "our formula for keeping our viewers well posted on the world's news while, at the same time, giving them liberal portions of popular music and entertainment features."

A new, electronic weather map will be introduced on the program, showing at a glance easy-to-read reports on weather conditions in all sections of the United States. Another feature of "The Morning Show" will be its time signals which will be electronically superimposed on the broadcast so as to be both seen and heard frequently during the two-hour program.

Evangelist Due to Hit Britain This Afternoon

LONDON (AP)—Billy Graham continued to make headlines in London newspapers today. One paper said British firms had been asked to kick in 50,000 pounds (\$140,000) to pay for his three-month evangelistic crusade. Another reported 20,000 pounds (\$56,000) already had been collected.

Graham himself was due in Southampton this afternoon aboard the liner United States.

The Laborite Daily Herald, which got up in arms last weekend because of an unflattering reference to socialism in Graham's advertising calendar, said the subscription call had gone to 6,000 British firms to "help hot-gospel Billy Graham save us from sin."

The Herald's front-page article was entitled "Billy Sends Round the Hat."

The Evening News quoted Graham's campaign treasurer, British motor industrialist Alfred Owen as saying 20,000 pounds already has been collected in five weeks from "industrial sources" and private "prayer partners."

A spokesman for Graham's London "crusade headquarters" declined to comment on the newspaper reports of fund appeals.

The Daily Mail said with considerable awe that Graham's London office looks "like the inside of a military headquarters at zero hour," with 40 assistants working in a room lined with a huge map studded with pins marking church "targets."

Cpl. Batchelor Feels No Court-Martial Due

TOKYO (AP)—Cpl. Claude Batchelor, a U. S. war prisoner who returned to the Allies after first choosing to stay with the Reds, said today he does not think he will be court-martialed when he returns to the United States.

The Kermit, Tex., soldier leaves by air tomorrow afternoon for Travis Air Force Base near San Francisco. He said he does not know where he will be sent from there.

"I had a pretty fair record in prison camp and didn't inform on any of the others," he said in an interview. "I don't think there will be any court-martial for me."

Batchelor said he had cooperated fully with Army intelligence units since he returned to the Allied side New Year's Day. He said his Japanese wife Kyoko would not be able to accompany him home because of his abrupt departure, but would follow him later.

If Women Could Realize Outside World Boring Too!

By SAUL FETT
(For Hal Boyle)

NEW YORK (AP)—The other night I saw a very funny play called "Oh, Men! Oh, Women!"

It concerns a young wife who is unhappy although her husband is a successful actor, loves her, is faithful and is a good provider. She has a nurse for the kids, a cook, maids, gardener, the works.

So, feeling bored and useless, she goes to a psychoanalyst and after a few sessions decides maybe she ought to assert her independence. She suggests a trial separation to her husband. Being a reasonable man, he blows his top, gets loaded and tracks down the analyst.

Why, the lurching actor asks the doctor, do so many modern women feel unimportant and useless in the important job of running a house and raising children? Why do they envy those in the "outside" world? What do they think they're missing? "And, finally, doctor," the actor shouts, "tell me this. Tell me, what's on the outside?"

At this point, both men and women, from the \$6.50 seats to the last \$1.80 seats in the balcony, roared with laughter and stopped the show with wild applause. It was clear the play had struck home in many homes.

Obviously, while few wives have cooks or nurses or psychoanalysts, many wives have the same feel-

ing of boredom, of uselessness, of missing something. Why this great wondrous envy of the mysterious world on the outside, into which husbands all over the country disappear every morning?

In the play, the doctor never answered the question. So let's face it right here and now. Just what is on the outside?

True, the outside has its rises and falls, its triumphs and setbacks, its men who get a \$10 raise or are promoted to vice president or find a polio vaccine or win a Nobel prize. But do wives really know how seldom this happens?

Mostly the outside is millions of men shaving, cramming down the last piece of toast, rushing off and being herded like cattle into the cities in crowded commuter trains and buses. Do they go gaily off, as to a great adventure? They do not. They stuff off, half-asleep, numbed by the hypnotic motion of sameness, driven by unseen whips.

The outside is millions of men at the office glumly picking through the morning mail, growing over new memos from the boss. The outside is millions of men beginning another unglamorous day, reacting to the pressures of half-submerged ambitions, to the pressures of their boss, to the real or fancied competition of their fellow man.

The outside is the mid-morning coffee break which they have, not because they want coffee, but be-

cause there lurks the hope that somehow, five minutes away from the desk will bring new solutions, new stimulation, new horizons. It doesn't.

The outside is millions of men coming back from too much lunch, half-heartedly flirting with the pretty receptionist or secretary, and 99.9 per cent of the time either party would be surprised and a little frightened if anything came of it. This is a semi-automatic maneuver that goes with manhood, a token gesture made to hold on to the franchise.

The outside is millions of men leaving a crowded desk at night with a sense of unfulfillment, millions of men being herded back to the cattle cars, dully reading the evening papers, making perfunctory conversation, secretly wondering when the fun begins.

So relax, girls. The outside is just the inside out.

He Gets \$40 Per Month for One Hour Each Day

ESTHERVILLE, Iowa (AP)—The position of police chief in Estherville is a one-hour-a-day job.

The city council, in naming Harold Isenminger to the post, fixed his salary at \$40 monthly. And

Isenminger and Mayor G. K. Allen agreed that the new chief should put in an hour a day on the job.

The rest of his working day Isenminger gives to the automobile radiator shop he operates here.

The United States has ski resorts in 29 states.

Radiofertilizer Tracer to Speed Tree Growth

TUCSON, Ariz. (AP)—A university professor thinks a "radiofertilizer tracer" he has developed will speed up the growth of citrus trees.

Dr. Wallace H. Fudler said the

technique finds out how much phosphorus is available to trees. All that's left to do, he says, is add phosphorus or take some away.

There were 2,425,000 more births than deaths in the United States in 1953, a new record.

Honey Scars Hurt

DEWITT, N. Y. (UP)—Two-year-old Susan Harris proudly displayed an array of 20 "honey scars" to her playmates. But, getting them wasn't so easy. The tot, attired only in shorts, was attacked by a swarm of bees in the garden of her home.
