Subject: Washington D.C. Spending Update

I write to you today regarding wasteful spending in Washington D.C. I appreciate the opportunity to contact you regarding this issue.

I know that the fiscal policies of Washington D.C. need to be reigned in and Congress must work to reduce the deficit. Not only are Democrats in Washington spending our grandchildren into a debtor's prison, the \$1 trillion "stimulus" signed into law by President Obama has clearly failed to spur the economy. Since it passed, unemployment has increased in Michigan and America continues to lose, not create, jobs.

That is why I joined the Republican Conference in an earmark moratorium for this year. Washington has to tighten its belt and learn how to live within its means, just like every Michigan family has to do with each paycheck. I know that fiscal sanity, lower taxes on employers and individuals and balanced budgets will lead to job creation. Please be assured that I will continue to advocate for these policies in Washington D.C.

Thank you again for the opportunity to contact you regarding this issue. If you have any questions or comments, please do not hesitate to contact my office.

Sincerely,

Mike Rogers
Member of Congress
