

Brake's nomination by the GO last week to run this spring for Supreme Court justice move Black to seek the Democratic endorsement, he explained.

However, inner party circles are said to be cool toward Black. (Continued on Page 14, Col. 4)

nominating convention to-morrow at 11 a.m. in the Civic Auditorium.

To be nominated, besides the two justices, are two persons for the Board of Regents of the University of Michigan; two for the State Board of Agriculture, governing body of Michigan State College; one for superintendent of public instruction, and one for the State Board of Education, which controls teachers' colleges.

—Circuit Judge Eugene F. Black

Area Population Boom Predicted

Cooperation Is Urged to Control Expected Growth

The combined population of Oakland, Wayne and Macomb Counties may reach 3,140,000 by 1970, municipal officials from the three units were told yesterday.

Over 250 representatives opened the two-day, fifth annual planning and zoning conference of the Detroit Metropolitan Area Regional Planning Commission at the Detroit Veterans Memorial.

Planning Analyst Paul M. Reid cited the rush of industry and residents to the areas outside of Detroit proper. He said between 1950 and 1955 some 176,000 home building permits were issued in the metropolitan area, of which only 33,000 were in Detroit.

Reid urged cooperation in planning to control mushrooming growth.

T. Ledyard Blakeman, plan commission executive director, told the conference that the state must expect more responsibility in planning urban-community development.

"We spend billions for growth," he stated, "yet only a drop in the bucket for planning."

Board Will Consider Teachers' Pay Hike

BLOOMFIELD HILLS — A special March 3 meeting on budgeting and study of teachers' salary schedules has been called by the Board of Education, following a pay-raise request from a committee of teachers this week.

The wage scale was raised last year and ranged from a starting salary of \$3,600 to a maximum of \$6,000 over a 12-year period.

Teachers are now asking for a minimum of \$4,000 and a maximum of \$7,000, a suggestion to which board members were receptive, according to Suppt. of Schools Eugene Johnson.

"The final picture has not yet been determined, but some sort of improvements are in the offing," Johnson said.

Also taken under study was a request from Johnson for an additional 20 teachers next fall to bring the teaching staff to a total of 70.

GM February Sales Reach New Record

DETROIT (AP)—General Motors reported today its retail sales of passenger cars during the first 20 days of February totaled 193,217, a new record for that period.

The total of retail deliveries for the period from Jan. 1 through Feb. 20 was 454,471, also a new high mark for the period.

GM reported its dealers sold 555,323 used cars in the Jan. 1-Feb. 20 period. This compared with a former high mark of 474,274 for the same period, recorded in 1941.

The corporation reported that despite the current high rate of production dealer stocks of cars "continue to be abnormally low in relation to the rate of sales and for this time of year."

State Senate Receives Judges' Pay Hike Bill

LANSING (UP)—A proposal to equalize the salaries of Supreme Court justices, judges of the Grand Rapids Superior Court and Detroit Recorder's Court judges was passed by the House and sent to the Senate yesterday.

The measure, a constitutional amendment, was scheduled for a vote on March 2, but sponsors agreed to amend the original proposal and put it up for vote yesterday. It passed 77-8.

The original bill also included members of boards and commissions paid by the state, but these provisions were killed yesterday.

Arkansas was the first state to ratify the Child Labor Amendment, doing so in 1924.

Motor Vehicle Sales Hit New January High

DETROIT (AP)—The Automobile Manufacturers Assn. says factory sales of motor vehicles hit a new January high of 736,108 last month. The association said yesterday the total included 636,242 cars and 89,866 trucks and coaches.

Factory sales totaled 766,169 in December and 531,124 in January 1954.

Export sales last month totaled 40,240 or 5.5 per cent of the industry total, the association said.

Auto makers exported 32,067 vehicles or 5.9 per cent of the industry total in January 1954.

Total 1954 exports amounted to 401,476 cars, trucks and coaches, or 6.1 per cent of overall factory sales, the association said.

Pontiac Deaths

John Dennis Dunlap

John Dennis Dunlap, 40, of 3390 Richmond St., Watkins Lake, died Wednesday night after a seven months illness.

Born in Toledo, Ohio May 8, 1914, he was the son of Silas and Bessie Smith Dunlap. On Feb. 25, 1939, he was married to Wilma Farrand in Angola, Ind.

Coming here from Franklin, Pa., 20 years ago, he had been an assembler at the Pontiac Motor Division and was last employed as a dynamometer operator at General Motor Truck & Coach Division.

Besides his widow, he is survived by his parents and three children, Arthur, John Dennis Jr., and Karen, all at home. Also surviving are three sisters, Mrs. Ivan Calhoun of Mt. Clemens, Mrs. Clarence Uhl and Donna Dunlap, both of Franklin; three brothers, Edward, Ernest and Richard, all of Pontiac.

The funeral will be held Saturday at 2 p.m. from the Pursley Funeral Home. The Rev. Arvid Anderson of Christ Lutheran Church will officiate with burial in Mt. Avon Cemetery, Rochester.

Mrs. Charles H. Nicholson

The funeral for Mrs. Charles H. (Julia Danforth) Nicholson, 45, of 2154 Avondale, Sylvan Lake, who died yesterday, will be held Saturday at 2:30 p.m. from the Orchard Lake Community Church. The Rev. Barney Roepcke will officiate with burial in Acacia Park Cemetery, 13 Mile and Southfield Roads.

John Edward O'Rourke

The Rosary will be recited at the Dudley H. Moore Funeral Home, Auburn Heights tonight at 8 p.m. for John Edward O'Rourke, 61, of 2058 Knollwood Ave. The Rev. F. T. Stack will officiate at 10 a.m. Saturday at the service to be held from the St. Hugo of the Hills Catholic Church. Burial will follow in Mount Hope Cemetery.

Mr. O'Rourke died suddenly at his home Wednesday night.

Anna J. Stanley

Anna J. Stanley, 74, of 101 E. Howard St., died at her home Wednesday after an illness of six months.

Born in Franklin, Pa. June 9, 1880, she was the daughter of Samuel and Jane Norcross Boal.

Mrs. Stanley had been in Pontiac 14 months coming here from Erie, Pa.

Surviving is a son, Jesse Meely of Erie.

The body was taken to the Burton Funeral Home, 602 W. 10th St., Erie, Pa., Thursday night for the funeral Saturday at 2 p.m. Burial will be in Wintergreen Gorge Cemetery. Arrangements were by the Pursley Funeral Home.

SEATO Talks End on Optimistic Note

(Continued From Page One)

danger that confronts us and of the urgency in dealing with it.

"I am confident that sense of urgency will be carried into the work of our permanent representative and of our political, military and economic experts."

Dulles and British Foreign Secretary Anthony Eden discussed Formosa at length last night. Unofficial sources said Eden expressed the belief Red China would not invade Formosa. He is also understood to have urged that the coastal islands of Quemoy and the Matsu complex be abandoned by the Chinese Nationalists.

Dulles offered to share 220 pounds of nuclear fuel with Manila pact members interested in building atomic research reactors.

Californians Scurry as Raid Siren Wails

SAN FRANCISCO (AP)—The eerie wail of an air raid siren awakened thousands of residents south of Golden Gate Park early today and sent hundreds rushing into the streets to scan the dark sky.

Police, swamped by telephone calls, reported a short circuit had set off the huge siren. It wailed 40 minutes until repaired.

Definitely a Mistake

DETROIT (INS)—Henry Blazczak, 37, admitted to police he made a major blunder when he tried to cash a bad check at a supermarket. The check was drawn on a bank that went out of business 30 years ago.

THE OUTCAST—This bronze statue, called "Groping Boy," was returned to a New York art dealer because citizens of Bristol, Va., called it "idiotic, ridiculous and a monstrosity." The figure, which shows a boy helping a fawn from a stream, was originally purchased for the yard of a new Bristol school. The people paid \$2,600 for the sculpture by Italian artist Pericle Fazzani.

Civic Groups Pledge Support for Fluoride

(Continued From Page One)

ural fluoridation was very great and continued research pointed up the fact that the desirable proportion should be one part of fluoride to one million parts of water to reduce decay without inducing mottling.

"In 1938 public health officials acknowledged the fact that fluoridation was destined to become an important phase of public health. Research centers were set up all over the country," he states.

Citing the case of Oak Park, Ill., as that of Maywood, Ill., Dr. Wertheimer said that Maywood's 1.1 fluoridation revealed that only 258 cases of decay was apparent as against 722 in Oak Park without fluoridation.

Fluoridation, he said, does not benefit only youngsters, it also has proved that adults of 40 years and beyond have two-thirds less decay and lose 17 times less teeth.

Grand Rapids reports after 10 years of fluoridation that it has two-thirds less decay.

"No other health measure in history has ever had so much supportive evidence to bear out its conclusions," declared Dr. Wertheimer who said that contrary to charges made by the opponents of fluoridation, experimentation was made on animals and not human beings.

Dr. Chester V. Toney, associate chief of the state health department, spoke briefly stating that the mechanical devices employed to fluoridate water supplies were "fool proof" and could only dispense the proper quantities of the fluoride.

He also said that figures have been kept to prove that the incidence of heart disease, cancer, etc. is no greater in communities who had fluoridation than in non-fluorine areas.

Prior to the PTA council meeting, an organization meeting for the League for Healthy Citizens named Dr. George Petroff as president.

Other officers elected included Mrs. Harry King and Monroe Odom as vice-presidents, Noel Buckner, secretary and Rev. Herbert Ryan as treasurer.

A list of endorsing organizations was read as follows:

Pontiac City Commission
Oakland County Health Department
Oakland County Medical Society
Oakland County Dental Society
Oakland County Water Works
Pontiac Parent-Teachers Association
League of Women Voters
Oakland County Industrial Union Council, CIO

Pontiac Chamber of Commerce
Pontiac Junior Chamber of Commerce

The City Federation of Women's Clubs which is composed of Business and Professional Women's Clubs

Child Study Club (Group III)
Junior Pontiac Women's Club
Jimmy Day Auxiliary, Post 12, Amvets

Keweenaw Women's Club
Daughters of Penelope
League of Catholic Women
Newcomer's Club
Panhelene

Parent Guidance
Pontiac Typographical Auxiliary
Pontiac Women's Chorus
Pontiac Women's Club
Round Table Club
Sisterhood Beth Israel
Sisterhood Temple Beth Jacob
Societists

Waterford Township B & P Women's Club
Women's Literary Club
Zonta Club
Tippaclub Chapter

A review of the supporting organizations points up the following facts:

1—100 per cent of the Pontiac dentists are supporting fluoridation.

2—Six out of seven commissioners are on the board of directors of the League for Healthy Citizens.

3—Six out of seven school board members are on the board.

4—Both the CIO and AFL have endorsed the program.

5—The group is representative as it includes names from all walks of life in Pontiac.

Named to the advisory board of the League for Healthy Citizens are:

Dr. John D. Mohr, chairman.
Dr. Leonard Klausmeyer, co-chairman

Dr. Samuel Chafetz
Dr. Charles E. Neale

GM Will Seek Long-Term Pact

Curtice Reports Jobs, Wages Increase During Past Five Years

DETROIT (INS)—General Motors President Harlow Curtice today declared that regardless of the outcome of impending UAW demands for a guaranteed annual wage, GM will press for another long-term contract.

Although the union has warned that it will never again be tied down by another five-year agreement such as the one GM pioneered, Curtice says GM wants a long-term contract because it has proved a boon to both the company, the stockholders, the employees and the customers.

The first five-year contract, achieved under the now Secretary of Defense Charles E. Wilson when he was head of GM, will expire this spring. Negotiations for renewal of both the Ford and GM contracts will start early in April.

Thanks to the five-year agreement, Curtice said, GM had no major strike during the period, it added 82 thousand new jobs, and increased hourly earnings 44 cents and for skilled workers 10 additional cents. GM obviously would like this to continue, he hinted.

Weather Again Delays Third Nevada A-Test

LAS VEGAS (INS)—The third atomic explosion of the current series of tests on the Nevada desert has been postponed again because of poor weather.

A weather check will be made today but the Atomic Energy Commission said yesterday that weather conditions are not expected to permit firing the much-postponed shot from atop a 500-foot tower for the next few days.

Highway Program Passed by House

(Continued From Page One)

The Peltz-Williams bill only a slim chance of passage in the Senate.

Sen. Haskell R. Nichols (R-Jackson) said the Senate bill, now in the drafting stage, would be held up until the House bill is studied in committee Monday.

But he said there appears to be little sentiment among senators to abandon their own bill in favor of the House plan.

Another major roadblock in the way of the House bill is a deadline for placing it on the April 4 ballot.

Sec. of State James M. Harp said earlier no proposal could be put on the ballot after Friday. But legislators said the deadline has been extended until early next week.

Sen. Creighton R. Coleman (R-Battle Creek), the Senate majority leader, said Senate Republicans will take time to "dig below the surface" to find out why Gov. Williams has accepted the Peltz plan with a few revisions when he had originally called it "political feather-bedding" and said it would not build integrated highway systems he wanted.

England's Puritan parliament of 1644 outlawed Christmas celebrations.

Detroit Draws Up Plans for Parking Assessment

DETROIT (UP)—Detroit Corporation Counsel today was drafting an enabling act to permit the city to assess business up to 30 per cent of the cost of new parking facilities in the area.

The measure, which would have to be approved by the state Legislature, was proposed by Councilman James H. Lincoln, former law partner of Gov. G. Mennen Williams.

Lincoln said the measure would be used only in emergency cases where construction costs exceeded anticipated costs. He said consideration had been given to parking facilities in 28 outlying business areas in Detroit.

Detroit Takes Action on Youngsters' Court

DETROIT (INS)—Recorder's Court took the first step toward setting up a youth court in Detroit yesterday by assigning 15 investigators to youth problems exclusively.

All 15 will be reassigned from general duty in the court probation department. The investigations will be made after a youth's conviction with the purpose of rehabilitating him and giving him special supervision.

Cranbrook Galleries Announce New Hours

BLOOMFIELD HILLS — During March galleries of the Cranbrook Academy of Art will be open to the public Saturdays and Sundays from 2 to 5 p.m. only. It was announced by Wallace Mitchell, recently appointed director. Regular daily schedules will be resumed in April after completion of alterations and rearrangements now in progress.

Youths Are Found Guilty in Attempted Rape Case

An Oakland County Circuit Court jury yesterday found two 20-year-olds guilty of assaulting and attempting to rape a 16-year-old girl in Royal Oak last Nov. 24.

Slated for sentencing by Judge George B. Hartwick Monday are Donald A. Loveday, of 2208 Barrett, Royal Oak, and James P. Jacobs, of 19350 Carrie, Detroit.

NOTICE! RABIES VACCINATION CLINICS

Saturday, February 26, 1955—1 P. M. to 4 P. M.

DAVISBURG . . . Town Hall
Davisburg, Michigan

VACCINATION COST—\$1.50

Since this is the only clinic scheduled for Springfield Township this season, it is urged that all owners make use of the above facilities if their pets have not already been properly vaccinated.

OAKLAND COUNTY BOARD OF HEALTH

ALFRED C. GIRARD

Girard Appointed Bond Chairman

Alfred C. Girard, president of the Community National Bank, has been appointed 1955 Oakland County chairman of the savings bond division of the U.S. Treasury.

Girard will direct the volunteer effort to meet the county's sales quota of \$13,202,500 worth of Series E and Series H bonds, said Noble D. Travis, state chairman.

The sum is part of the largest peacetime quota in Michigan history, \$321,800,000, an increase of nearly \$20,000,000 over last year.

GOP Strengthened in House Tax Fight

(Continued From Page One)

who favored the pay raise will hesitate to vote against the tax cut, which is designed primarily to benefit low-income groups.

Democratic leaders also drove hard on the point that the President in spite of his opposition to the reduction, hunted strongly in his budget message to Congress that he will propose some kind of income tax cut next year.

Halleck insisted that no promise had been made to Republican members that they would have an opportunity to vote for a tax cut before next year's elections.

The tax cut would cost the government an estimated \$2,100,000,000. It is tied to a bill carrying out President Eisenhower's request for extension of present corporation income and excise tax rates that are due to drop April 1. These extensions would save the government an estimated \$2,800,000,000.

Even if the bill slips through the House, it faces formidable opposition in the Senate. Sens. Harry Byrd (D-Va.) and Walter George (D-Ga.) have already announced they are against it at this time. The Senate Finance Committee will take up the bill Monday.

Senate GOP leaders forecast they might be able to hold all 47 Republican senators behind the President if the tax reduction ever reaches the Senate floor for consideration.

Adding his name yesterday to the list of 12 others already circulating petitions for three City Commission vacancies was Manley Bailey. Deadline for filing is 4 p.m. tomorrow.

A junior high school square dance will have youngsters pre-empting from 7 to 9:30 p.m. tonight at the YMCA.

Earl G. Potter, Service for Earl G. Potter, 68 of 343 Baldwin Ct., will be held at 1 p.m. Monday from Manley Bailey Funeral Home, with burial in Davison Cemetery. A resident of Birmingham since 1916, he died suddenly Thursday at his home.

The Day in Birmingham Sewage Plant Enlarging May Replace Interceptor

BIRMINGHAM—Not altogether ignored in past discussions, Birmingham's sewage treatment plant on the Rouge River was considered yesterday as a possible means of helping to rid the Upper Rouge Valley of impurities.

At a meeting in Lansing, Birmingham, Bloomfield Hills, the City of Lathrup Village, and Southfield and Bloomfield Townships were declared in default of orders by the State Water Resources Commission to abate Rouge pollution.

Since plans for construction of the proposed \$2,740,000 Evergreen interceptor sewer haven't yet jelled due to disputes over allocation costs, City Manager Donald C. Egbert said enlargement of the city's plant is being given consideration.

Costs in such a project would be shared by Birmingham, Bloomfield Hills and Township and Troy Township, which was not cited by the Water Commission.

In answer to a statement by Lathrup officials that Lathrup and Southfield could build their own interceptor to Detroit for considerably less, Egbert said today that financing the project with revenue immediately available was the "major problem" of the two municipalities.

"Discussions such as this have no business in the picture until backed by competent financial analysis," said Egbert. "It's ridiculous to argue until we know what we're talking about."

Latecomers to the Secretary of State's office at 820 S. Woodward can still beat Monday's deadline for purchasing 1955 license plates. Edwin P. Dowd, branch manager, said hours for both tomorrow and Monday will be from 9 a.m. to 9 p.m.

Youngsters attending tomorrow's 10:30 story hour at Baldwin Library will hear Children's Librarian Kathleen Picket read "Seven at One Blow" and "The Twelve Dancing Princesses."

Tonight is the night when Junior Chamber of Commerce members honor Birmingham's "Outstanding Young Man of 1954." At a dinner open to the public and starting at 7:30 at Devon Gables last year's winner, Edward E. Wilson, will present the distinguished service award. Lt. Gov. Philip A. Hart will be guest speaker.

Evening's story hour at Baldwin Library will hear Children's Librarian Kathleen Picket read "Seven at One Blow" and "The Twelve Dancing Princesses."

Insane Felons Tear Up Ward

Two Attendants Slightly Injured in Wild Melee in Maryland

CROWNSVILLE, Md. (AP)—Insane criminals tore up their maximum security ward last night at Crownsville State Hospital for Negroes, where riots are becoming a harbinger of spring.

The melee was the third in the same building in three years—all of them about this same time.

Two attendants were hurt, but only slightly. Two others were trapped in the second-floor ward by the screaming patients but were later released unharmed.

Leo Jolin, supervisor of night shift attendants in C Building which houses criminal patients,

was beaten about the head by the rioters. Anthony Moles was stabbed with a splinter of wood.

The riot at the hospital eight miles north of Annapolis broke out about supper time. It ended two hours later when 60 Anne Arundel County policemen talked their way into the barricaded ward. About 15 state troopers also were on hand.

Chief Wilbur Wade said the eight ringleaders apparently wanted to be taken to Central Police Station in Baltimore. They agreed to surrender after being promised they would be taken there.

Several of the leaders had hidden razor blades in their mouths, Wade said. The eight were handcuffed and taken to the county jail at Annapolis.

During the riot, beds and benches were broken, pipes and other plumbing was torn from walls and ceilings and water ran ankle deep on the floors.

C Building houses about 300 patients, but only a handful were involved.

Solons See Nothing to Disqualify Harlan

WASHINGTON (AP)—Two Senate Judiciary Committee members said today they have heard no testimony warranting rejection of Judge John Marshall Harlan's nomination to the Supreme Court. "I don't believe anyone is making any case against the judge," said Sen. Hennings (D-Mo.), who last November described Harlan's nomination as a good one. "I've heard nothing to disqualify him," Sen. Butler (R-Md.) said in a separate interview.

Most testimony at yesterday's committee hearing was favorable to the jurist, with only two witnesses appearing in opposition. But other opponents were waiting their turn.

Harlan, confirmed by the Senate last year as a judge of the 2nd U.S. Circuit Court of Appeals in New York, also may take the witness chair himself during the day.

A single Douglas fir tree yields enough lumber to build four small houses.

Ankle Deep in Beans

Tourists who go for a walk through the streets of Guayaquil, Ecuador, may soon find themselves up to their ankles in cocoa

beans. The beans, from which chocolate is made, are spread out to dry on tarpaulins covering several waterfront streets of this tropical river port.

AF to Test Jet Bomber in Arctic

By ELTON C. FAY

AP Military Affairs Writer
ELMENDORF AIRFORCE BASE,
 Alaska (U)—The Air Force's newest strategic bomber, the all-jet B52, may soon be brought to Alaska for tests under brutal weather conditions their pilots would expect to encounter in case of war.

There are some questions about arctic operations that cannot readily be answered back in the States, even in atmospheric test chambers or above 30,000 feet, where temperatures may go far below zero in summer.

These questions are posed by the weather. In the air, they may take form in tricky, almost unpredictable arctic storms. On the ground,

they are brought on by bitter, unrelenting cold.

There are reasons to believe that the all-jet B52 may possess distinct advantages over the present piston-jet B36 heavy bomber.

A major problem of arctic operation, for example, is "cold soak"—the congealing of lubricants, chilling of carburetors and condensation of vapor in fuel and oil lines that result from prolonged exposure of parked aircraft to extreme temperatures.

Among other things, a jet engine needs no "warm up" period prior to taking off. The white-hot flame sets the turbine spinning almost instantly. The pilot needs only to

take a quick reading of instruments.

Another hazard of arctic air operations is "ice fog," created when low temperatures and a dew-point of moisture coincide. A single piston-engine plane making a takeoff run can create a blanket of ice fog which will hang over the runway for hours if there is no wind. This closes the runway to further takeoffs or landings.

But pilots believe that a jet engine has noticeably less tendency to create ice fog.

Along with ground operations of planes, the weather imposes trouble for airborne planes. Again, jets have an advantage because they operate best at high altitudes, above the layers of weather. But they must take off and land through the weather layer.

The mission of the 7th Weather Group, with its headquarters here and a reconnaissance squadron operating from Elmendorf Air Force Base, in the vicinity of Fairbanks, is to forecast the tricky storms that come rolling out of Siberia and down from the polar regions. The group takes its reading on conditions beyond the reach of land observation stations scattered

throughout Alaska. "Ptarmigan" flights of RB29s survey the weather northward to the pole. "Loon" flights check the weather outward over the Aleutian chain.

The 7th Weather Group is an element of a world service operated for the Air Force and Army. Information from this service also is fed into an international weather forecasting system, which includes Russian weather observations.

So far as can be determined, weather reports from the Russians are reasonably factual and accurate.

Indeed, there are examples of the Soviets going out of their way to be cooperative.

Airmen chuckle over a recent incident. An aircraft flying over the western fringe of Alaska lost radio contact with its home base because of atmospheric conditions. The base was unable to contact the plane directly to inform the pilot that bad weather had closed the field.

Russians somewhere on the eastern tip of Siberia could read the radio messages from the base plainly and knew, possibly by radar, the position of the plane. They contacted the American aircraft and relayed the message.

Soviet neighbors in this part of the world appear to have a rigid set of rules controlling their reactions.

A single American plane flying a routine weather patrol along the American side of the Iron Curtain seems to cause no concern across Bering strait. But if a second weather plane joins the first, Red fighters go aloft.

Driver Skips \$1 Toll, Also \$500 in Prizes

CORPUS CHRISTI, Tex. (U)—City officials and a large crowd waited at the toll gate to give the one-millionth driver across Padre Island Causeway some \$500 in prizes.

The vehicle was sighted coming at a brisk speed. But suddenly, the driver wheeled his car around and scuttled back toward Corpus Christi.

It was obvious, the delegation of greeters said, the driver had just seen the \$1 toll charge posted over the gate.

Mrs. Phil Marker, Corpus Christi, came along then and collected the prizes.

Mao Toasts Lama

TOKYO (U)—The Dalai Lama and Panchen Lama of Tibet were hosts yesterday to Mao Tse-tung and other Chinese Communist leaders in Peiping, the Red radio said today. Mao, who is suspected of holding the Dalai Lama in Peiping

while the Communists solidify their control of Tibet, drank a toast to his hosts. The occasion was the Tibetan New Year.

An oil company in the Persian Gulf gets fresh water supplies by distillation from the sea and uses 720,000 gallons a day.

Dulles 67 Today

BANGKOK (U)—U.S. Secretary of State Dulles observed his 67th birthday today. Members of the U.S. delegation to the Manila Pact gave him a silver cigarette case and embassy employees sang "Happy Birthday."

Gas Pipe Repaired, Town Warming Up

TOPEKA, Kan. (U)—There was a decided temperature change in Topeka today—both indoors and outside.

Gas was restored to this state capital and seven nearby communities after a pipeline break Wednesday left the majority of homes in the area without heat. The natural gas began flowing into home furnaces yesterday afternoon.

To avoid any hazard workmen had to turn off some 32,000 meters then go back and turn them all on before pressure could be restored. Temperatures rose today from yesterday's 11 degrees.

Baby-Sitter Convicted of Killing 18-Month-Old

OKLAHOMA CITY (U)—An 18-year-old baby sitter, jointly accused with a half-brother of killing a baby boy last September, was convicted yesterday of first degree manslaughter.

A District Court jury fixed sentence at 20 years imprisonment.

Bennie Westley McGrew and his half-brother Kenneth James Brewer, 18, were charged with beating, whipping and squeezing 18-month-old Thomas Harris between their knees into unconsciousness Sept. 24. The child was left in their charge.

Kenneth James is under mental observation.

Bank's Invitation Taken Literally by Depositor

ROCHESTER, N.Y. (U)—Lincoln-Rochester Trust Co. wrote its usual "new depositor" welcome letter to Stephen Gerhardt and invited him to take advantage of all of the bank's facilities.

Gerhardt, who proved to be only 5, showed up at the bank yesterday to accept the invitation. He was given a personally supervised ride on the escalator by Bank President John W. Remington.

Grow More Corn Reds Tell Youth

U.S. Farming Methods Praised in Soviet Bid to Bolster Agriculture

MOSCOW (AP)—The Communist party today called on its youth division to spearhead a vigorous campaign to grow corn in the American style.

This was in line with a speech by party chief Nikita S. Khrushchev last month praising American farming methods, particularly in planting more corn to feed livestock. Failure in the field of agriculture was one of the main reasons cited by Georgi M. Malenkov when he resigned as premier Feb. 8.

The appeal to young farmers was made by the Central Committee of the Young Communist League (Komsomol). It was described by Tass and published in all Soviet newspapers.

Western observers have expressed scepticism over the ability of Soviet agriculture to copy the American system of corn-hog production, due to climatic conditions in this country. The Komsomol appeal does not admit this difficulty, saying:

"Corn is truly a wonderful plant. It grows excellently in the South of our land and also, under conditions, in the North."

Deaths Last Night

NEW YORK (AP)—John W. Peck, 45, a vice president of the Shell Development Co. who joined the Shell Oil Co. in 1917 as an attorney and at one time was manager of the St. Louis marketing area. Born in Kansas City.

BERLIN (AP)—Carst Joseph Skarada, Berlin chief of the Public Safety Division of the U. S. High Commission, and formerly city manager and chief of police of Flint, Mich.

BAYONNE, N. J. (AP)—George J. Madden, 60, retired assistant superintendent of the U. S. Postal Transit Service in New York. Born in Ogdensburg, N. Y.

Mother Who Killed Sons Eager for Electric Chair

HOUSTON (AP)—Pretty Ann Williams, who says she strangled her two young sons and then dismembered their bodies, hopes to end her troubles in the electric chair, she told police.

Should the attractive red-haired woman be executed, she would be the first woman to die in Texas electric chair. "I wish they'd electrocute me and get it over with," she told Dr. C. A. Dwyer, Harris County psychiatrist, yesterday.

Dwyer said two examinations had convinced him the Pasadena, Tex., dime store clerk is "absolutely sane," although "running from reality."

"She has poise and bearing," he said, "above average intelligence."

The bodies of her two sons—Calvin, 9, and Conrad, 8—were found Tuesday night in a shallow grave near Alagoa, Tex., in adjoining Galveston County. A young friend of Mrs. Williams unwittingly buried the bodies after she told him the four bundles contained spoiled venison.

At present the woman faces four murder charges, two here in Harris County, where she says she killed the boys, and two in Galveston County, where the bodies were found. Prosecutors decided last night, however, that Galveston County would handle the case.

Mrs. Williams, 28, broke down and cried several times as Dwyer questioned her in her jail cell yesterday. The psychiatrist described her as belligerent at first. "I'm not going to answer," she told him. "Everything I say will be used against me. I know there's something wrong with me."

"I thought I was doing the right thing," she answered when Dwyer asked if she believed she had done anything wrong. She has said she dreaded having the children grow up in poverty as she had done. She also said other children had taunted her boys because their father was in a federal prison for interstate transportation of a stolen automobile.

She said she loved the children and that "they were very good boys."

Of the killings, "I can't explain it now. I don't know how I could've done it."

Dwyer asked if she thought such a crime deserved the death penalty.

"That's the law," she replied. "I think it would be better. I don't think I'll ever get straightened out again."

70,000 Settle in Australia

GENEVA, Switzerland (AP)—Australia has taken the largest number (70,000) of the 300,000 European migrants settled in new homes in the past three years with the help of the Intergovernmental Committee for European Migration. The United States was third with 32,164.

Cadillac

The Story that Silence Tells!

You'll probably never hear a 1955 Cadillac! It is so wonderfully quiet in operation that you can detect only the soft whisper of the wind... and, occasionally, the pleasant song of the tires on the pavement.

Insofar as the car itself is concerned, there is only—silence!

But listen to the remarkable story this silence tells about the "car of cars!"

"Here," it says, "is a mechanism so flawlessly designed and engineered that

every component performs with perfection.

"Here is truly scientific styling—so basically good and sound that there is no noticeable resistance from wind or road.

"And here is craftsmanship so superb that not a trace of vibration can be heard."

And how eloquently it speaks of the satisfactions of Cadillac ownership!

It testifies to the rest and relaxation to be found at the wheel. It promises peace of mind... and greater driving

safety. And it pledges dependability—and endurance—and economy of operation.

Clearly, no one can tell the Cadillac story as convincingly as the car itself!

And if you haven't as yet "heard" this remarkable story, we hope that you will accept our invitation to come in and spend an hour at the wheel.

You'll agree, we're certain, that the 1955 Cadillac is its own best spokesman!

FRIDAY, FEBRUARY 25, 1955

Ike Calls Dems' Tax Cut Fiscal Irresponsibility

President EISENHOWER has put the Democrats' \$20 tax cut plan into proper perspective.

Seldom has the Chief Executive been as emotionally wrought up as when he told reporters that the proposal is fiscal irresponsibility. The President was especially vigorous in his denunciation of the Democratic strategy.

★ ★ ★

Its effect would be to leave him no choice but approve the \$1.4 billion tax cut in order to get the \$3 billion extension he asked of corporation income rates and excise levies due to be reduced April 1.

With great vehemence the President declared that we simply can not have this kind of thing in responsible government. While he said the cut would return the Nation to deficit spending, he declined to state whether he would veto the proposal. He also refrained from pointing to the obvious political expediency in the partisan maneuver.

★ ★ ★

There isn't much doubt about solid Democratic support for this vote catching bill introduced by Rep. MILLS of Arkansas. Nor is there any doubt about solid Republican opposition to it.

One powerful Democratic voice in the Senate has been raised against it, however, that of Virginia's Sen. BYRD. Like President EISENHOWER, he has come out against this or any other tax cut until the Federal budget is balanced.

★ ★ ★

That is the only sound stand when our ability to pay taxes is greater than ever before. Nothing else makes sense when our budget can't be balanced because of world wide commitments and the demands of stepped up national defense.

Congress should reject the cynically political MILLS bill. Its enactment would make sound fiscal policy and wise debt management impossible.

The national interest would suffer greatly from enactment of the cynically political MILLS bill.

Dondero Tells President N.Y. Wants Private Power

In a letter to President EISENHOWER, Congressman GEORGE A. DONDERO cites by implication, the need for the long overdue "go ahead" for private development of additional Niagara Falls power.

The Royal Oak lawmaker's letter was prompted by a notice in the *Legislative Digest* that the issue of who would develop this \$4,000,000,000 project is to be left to the Federal Power Commission.

Then, citing the President's statement that this matter could be resolved best by leaving it to the people concerned, Rep. DONDERO briefed the President on the project's history.

★ ★ ★

On February 9 last, 493 of 500 New York State towns voted in favor of private development. A similar decision was reached by the counties of the State of New York in January, 1954.

In the 83rd Congress, as chairman of the House Public Works Committee, Rep. DONDERO introduced a bill for private construction. This provided that the Niagara project be built jointly by the five private power companies which serve 98 per cent of the Empire State.

★ ★ ★

This bill was passed by the overwhelming House vote of 262 to 120, including the yes votes of 32 of New York's delegation of 41 members. However, it died in the Senate due to the "political

manipulation by leaders in New York State, not on the merits of the case."

We share Rep. DONDERO's opinion on this essential project. There isn't any doubt about the need for the power nor the people's desire to have it produced by private enterprise. Another important fact is that if developed privately the project would pay taxes. Publicly developed, it would be tax exempt.

Reminders of Spring

Somehow about this time of year despite weather suggesting just the opposite, things begin to remind us that Winter is on the wane.

Although it is still hard to believe, the days are longer, the air is clearer and the sun is brighter. All of a sudden the number of "first robins," most of which probably have been here all Winter, increases.

Without warning the Little Woman comes home with the new license plate and the Major Leagues begin gathering for the start of Spring training March 1.

For the Winter weary these happenings help bolster flagging spirits. They'll also speed the day between now and the arrival of that shy maid Spring. That, it will cheer you to know, is only about four weeks away.

MONEY passes through most people's hands so fast that the germs on it become air sick.

The Man About Town

Heads Detroit Show Manager of the Biggest Event of Kind in Nation

Old age: A condition you think others reach before you do.

An Oakland County man is manager of the annual

Michigan Flower Show which takes place at the State Fair grounds March 26 through April 3. He is

Werner M. Hoy.

For the past 22 years a resident of Springfield Township, one of Michigan's outstanding landscape designers, he has been connected with this annual exposition since 1928. It now is claimed to be the largest flower show in the United States. Mr. Hoy this week is acting as judge at the Cleveland Flower Show.

Digging potatoes from his garden all winter.

Webster Nordman of Auburn Heights reports that the ground never has been frozen deep enough to injure them.

Advertising for his lost dog in a Pontiac Press classified.

Garfield Woodward of Drayton Plains surely got results. Three dogs were brought to him, one of which was his own.

In California for a few months.

Albert Weber sends word that he's just far enough from Los Angeles to escape the smog.

A resident of Pontiac from the time of his birth in 1870 until 1930.

Ulysses S. Westgate writes from Missoula, Mont., where he has since lived: "Michigan winters are extremely mild compared to what we get here, often four feet of snow stays with us for three months or more, and sometimes for a whole month the mercury does not get above zero."

To keep the ears warm these cold February days, we recommend a cap with fur flaps such as the one being worn about town by Pontiac attorney

William J. "Bill" Beer.

Two lemons, each measuring over 20 inches around were received by

Mr. and Mrs. Arnold Pincomb of Rochester some time ago, sent them by their son in Florida.

There are so many living five generation families that reports on them are hardly news, but a letter from

Mrs. Owen Vickerson of Lake Orion says, "If everything goes well, we'll have six living generations in our family in April."

A former resident of Oxford, now living in Royal Oak, 87 year old

William Althouse tells me that he put the roofs on a great many Oakland County buildings, and in his best days could lay more shingles in a day than any other two men.

A luncheon partner makes this suggestion for a slogan for one of the political parties: "We'll hit some ticks in '56."

Verbal Orchids to

Thomas O. Harland of 41 Allison St.; eighty-second birthday.

Fred S. Fowler of Birmingham; ninetieth birthday.

Mrs. Helena Ward of Thomas; eighty-third birthday.

Mr. and Mrs. Louis J. Engel of Ferndale; golden wedding.

The One-Way Hurry

James Marlow Says:

Secret Report Contradicts President's School Plan

WASHINGTON — President Eisenhower's school aid plan, 17 days after he offered it to Congress, already looks like a wreck. He produced it Feb. 8. He said 300,000 classrooms are needed and unless the federal government helps the states, the emergency will continue.

He suggested a three-year plan under which the government would give states and local communities 200 million dollars as a gift and 900 million in loans.

In Congress, Democrats and some Republicans jumped on the plan. So did one educator after another. Summed up, this was the criticism:

The 200-million-dollar gift was far too small for school needs. And by the interest on its loans, the government would be making money at states' expense.

Under the plan, states would have to set up special agencies to handle the loans. But some states' constitutions forbid such an arrangement. The three-year plan would be too brief for some of those constitutions to be changed.

Some states would have to pass special legislation to get in on the program. Some other states right now don't know whether they could participate. About eight are in position to take advantage of the loan arrangement right now.

Powerful Democrats, particularly Sen. Hill of Alabama are for dumping Eisenhower's proposal and substituting one which would give states not the 200-million-dollar gift suggested by the President over three years but one billion in two years.

And the segregation question was raised. Since the Supreme Court has banned segregation in public schools, should the government give any state money for new schools unless segregation in them is forbidden?

Then yesterday another development was leaked out but not by anyone in the Eisenhower administration. This was it:

In 1953 at Eisenhower's request, Congress set up a 25-man commission to study federal state problems. To do the spade work, the commission set up 14 committees, including one on education. That committee has 15 members, including Dr. Samuel M. Brownell, commissioner of the United States Office of Education.

Portraits

By JAMES J. METCALFE

"I like the smell of bottled paste. The kind we use at home. . . For pictures and for souvenirs. . . Of places where we roam. . . The kind that helps our children in. . . Their schoolwork and their play. . . For life to stick together in. . . Its most delightful way. . . I like the odor of that paste. . . That joins the lands and seas. . . To fill the scrapbooks that embrace. . . Our happy memories. . . It is the fragrance of the past. . . That never leaves the page. . . But seems to grow more wonderful. . . And beautiful with age. . . It is the scent of friendship that. . . Will never go to waste. . . As long as there are loving hearts. . . To share a jar of paste."

THOUGHT FOR TODAY

And he said unto them, How is it that ye do not understand?—Mark 8:21.

Think not for wrongs like these unscoured to live; Long may ye sin, and long may Heaven forgive; But when ye least expect, in sorrow's day, Vengeance shall fall more heavy for delay.

—Churchill

Voice of the People

Citizens' Interest in Fluoridation Program Is Increasing as Shown by Varied Letters

Letters will be condensed when necessary because of lack of space. Full names and addresses of writers will be published unless the writer asks that the letter be held in confidence.

There has been the assertion that when water is boiled chlorine is driven off but the fluoride is concentrated. The fact is that the proof that the boiling of water containing one part per million is not harmful can be found by the statistics of the many cities consuming naturally fluoridated water for a great many years.

These vital statistics indicate no significant difference as a result of the consumption of said water. According to the American Water Works, only if a person would consume the residual left after boiling away 20 quarts of water off he could scrape it all off the kettle every day for 20 years might there be some effect.

Reassured

I wonder just what kind of a person it is who signs himself "Loyal American" and dares to call those who disagree with him on fluoridation "communists" and "subversives." He must be one himself to want to force his opinion and tastes on others who do not want it, or perhaps he is a paid agent for the firms who make the machinery to put fluoride in the water.

Has this person let experiments be conducted on himself to make sure it does no harm to any part of the body? What's the matter with pure water when you can get it? Those who want fluoridated water can find some way to put it into their own water in tablet or liquid form. Doctors are not, by any means, agreed as the benefits of fluoride, which has never been tried long enough to be proven.

"Loyal American" sounds like someone who stands to gain a profit from fluoridation or is it a Communist plot to have a large supply of poison handy to the water supply to wipe out whole cities with the least effort?

Now that he has brought communism into it, because we do not agree on fluoride, perhaps we should look more closely into where it started. Could it have been a commie idea in the first place?

Just Plain American

I received an article in October, 1953, stating that fluoridation of water is known in Communist circles as a valuable of Red warfare to be used as an outright poisoning of the population so it will not resist Communist domination. It also stated that Rena M. Vale

former Communist Party member, says that this is planned for America. I wrote and sent this article to the editor of the Pontiac Press asking his advice and following are portions of his letter to me. I quote:

"Fluorine is a poison, but it is not added to drinking water, of course, in such a quantity as to be at all dangerous. For the sake of Pontiac's children, I hope that the time will come when fluorine will be added to our water supply, but because of the cost, I am sure there is no chance that this will be done for many years."

"Certainly fluorine could be used for the poisoning of the population and as a vehicle of Red warfare, but the U. S. Public Health Service is not, of course, suggesting its use in any such quantities."

Mrs. Wm. Pittman 3375 Motorway Dr.

I have been reading with interest the many letters concerning fluoridation. I would bring out one point that has not yet been mentioned.

There is nothing further from my mind than to oppose progress, particularly where the health of our children is concerned, but I am against keeping any information on this controversial subject from the people.

Several times, you have affirmed that fluorine is tasteless but you did not mention the fact that the State Health Department requires that chlorine also be added when any city adds fluorine.

Chlorine is far from tasteless, especially if the water is the least bit warm, as in the middle of the summer.

Let the people keep this in mind when they vote on April 4.

Charles S. Maher 662 Lenox Ave.

Editor's Note: Dr. John D. Monroe, director of public health for both Oakland County and the city of Pontiac, states that the State Health Department does not require chlorine to be added when any city adds fluorine. "We add chlorine only when bacteria content of the water is high," said Dr. Monroe.

It has come to our attention that statements are being circulated in your area that the Michigan Department of Health requires chlorination equipment to be either in operation or installed as a stand-by for all water supplies to which fluoride is added for the reduction of dental caries.

All such statements are not founded on fact, as it is not now or has it ever been a policy of this department to always require dual equipment of this nature.

Chlorine is applied to safeguard

Case Records of a Psychologist

Parents' Sins of Omission Turn Child Into Confirmed Psychopathic Person

Terry is now a psychopathic personality. There was a direct road from his high chair to jail and maybe ultimately the electric chair. His parents helped make him what he is today by their sins of omission, which are sins that many intelligent parents are very guilty of nowadays. So don't preen your parental feathers till you pass the tests described below.

By DR. GEORGE W. CRANE Case N-359: Terry V., aged 25, is the adult personality whom we described yesterday when he was only 5 years of age. "Dr. Crane, what can be done to help our son?" Terry's mother wept bitterly.

"In high school he didn't get along very well with other children and his grades were not good. He was in trouble frequently, and was expelled once. He started drinking and smoking, despite all our arguments to the contrary."

"And he got into a wild crowd. He was accused of taking money from the lockers in high school to wager on horse races. His father and I always made up any such money losses that were charged against him."

"And when he insisted we give our permission so he could enter the Army we did so. He served in Korea but was in trouble frequently. He was A.W.O.L."

"I forgot to mention that while he was in the Army he got a girl in trouble and had to marry her."

"Terry then deserted her, after she had two children, and got mixed up with another girl, who bore him a child out of wedlock."

"Her parents made a fuss but while this trouble was still brewing, he suddenly married another girl."

"The rules, instead of letting him develop into a selfish little grandstander."

Many parents are guilty of sins of omission, which cause disaster just as surely as actual sins of commission.

Terry's parents would never have taught him to go forth at night to break into a neighbor's house and loot the silverware or pocketbooks of that home.

No that sin of commission would obviously have been too heinous for any parent other than a Fagin type.

But Terry's parents smiled tolerantly when they learned that he took money from the purse of other adults and children, even while he was of kindergarten age.

And they thought he would grow out of his naughtiness, so they recited the trite statement that "Boys will be boys, you know."

They trained Terry, by their sins of omission, to become a selfish, uncooperative adult brat. He has no sympathy for women, as witness his mistreatment of them and his desertion of two wives.

Terry is now a fairly confirmed psychopathic personality, but his parents are accessories to his crimes by their failure to administer correct training in childhood, including an occasional paddling.

Send for my 200-page "Tests for Good Parents," enclosing a

stamped return envelope plus a dime.

Use them regularly and have one of your PTA discussions on them for there is a direct road from the high chair to the electric chair.

a water supply against possible bacterial contamination, while fluorine is added to prevent tooth decay. The application of one of these chemicals does not depend on the other for satisfactory or worthwhile results.

LaRue L. Miller, Chief Section of Environmental Sanitation Division of Engineering, Michigan Department of Health.

The anti-fluoridation group has been presenting arguments based chiefly on repudiation of scientific discoveries and ideas contrary to their established beliefs.

Their arguments can be briefly summarized as follows:

1—Fluoridation is mass medication that leads to socialized medicine and infringes on the rights of the individual. 2—Fluoridation is an experiment and no one knows what the outcome will be. 3—Fluorine is a poison.

There are any number of public health practices that are carried on daily as a matter of routine. For example, smallpox vaccinations and quarantine for contagious illnesses are "musts" and no one seems to object. The good that will be derived by future generations from fluoridation of water surely overwhelms any "infringement on the individual's rights."

Any number of public health agencies, communities, professional dental and scientific organizations can be cited as stating that fluoridation is a beneficial health practice. It is beyond the experimental stage. There is more than enough scientific evidence to justify its use.

Fluorine is a poison. Sodium and chlorine, that compose sodium chloride or table salt, are also poisons. People still use salt.

Let us hope that there are enough intelligent and civic-minded citizens in Pontiac who realize the benefit of a fluoridation program and will do something more than passively agree with it.

An Interested Bystander

I am writing in reply to a request made by Lois Zurbrugg about her chemistry book.

The book used in my chemistry class is out of date. You, Lois, are fortunate to have the newer and better edition of this book.

Build this wood-paneled room

in Your Expansion Attic . . .

Save by doing it yourself!

PLANKWELD* makes is easy to build that extra room you need and want . . . even if you have never tried carpentry work before.

You see, PLANKWELD is a beautiful, new, pre-finished Weldwood® Plywood—specially designed to permit easy installation. The panels are edge-grooved so that they fit into each other to form a neat lap joint. They are held firmly to the studs by simple, concealed metal clips. If you use them over an existing plaster wall, they need no framing or furring. All visible nailing is eliminated.

Once the panels are up, you have nothing more to do except sit back and enjoy the natural beauty of these wood-paneled walls for years to come. The

rich, lustrous, factory-applied finish will last indefinitely! In fact, like all Weldwood Plywood, PLANKWELD is guaranteed for the life of the building on which it is installed!

Moderately priced, PLANKWELD is available in such beautiful woods as birch and oak. It comes in easy-to-handle panels 1/4" thick, 16 1/4" wide and 8' long.

Look for the PLANKWELD ad appearing in full color in your favorite home magazine this month. And stop in to see our PLANKWELD on display. We'll be glad to explain how easily and inexpensively you can create that extra living space.

Airport Changes Deserted Isle

Once Desolate Atoll in Pacific Is Now Home of 280 Persons

WASHINGTON—Mid-Pacific Canton Island offers an example of man's unrelenting urge to spark new life in off-trail places.

Some 17 years ago the atoll knew only the screams of sea birds, furtive movements of small wildlife and sighs of sea wind in palms. Today it boasts features of an average American community—sounds of fire engine bells, rattles of market pushbaskets and banter of schoolbound children.

The transformation is described in the current issue of the National Geographic Magazine by Howell Walker of the foreign editorial staff.

Change was predicted in 1937 by a party of visiting astronomers. Aware of the air age and the atoll's position 1,909 miles southwest of Honolulu, one member wrote: "Canton Island promises to be an important commercial airplane base in the South Pacific."

Two years later the island's wave-washed sleep broke under roaring motors of Pan American World Airways. A seaplane base was established in the lagoon to service flying boats operating between the United States and Australasia.

During World War II—more than a century after its discovery by whaling vessels—the island turned into a stepping-stone for Allied seaborne supplies.

Today three airlines under different flags stop regularly at Canton's airport. Some 280 persons inhabit the island. Their life is not entirely unlike that back home. They have small, neat homes, a hotel, a kindergarten and grade school.

In their hospital in February 1953, "the first American child born on Canton Island came into a coral world," Walker says. The hospital on such occasions flies a baby blanket from the flagstaff, pink for a girl, blue for a boy.

Pets abound in the population. "Dogs and cats seem to be everywhere," Walker writes. "One dog has a habit of catching fish in the lagoon." A small boy had 10 rabbits. Parakeets are popular, particularly a pair named Bill and Co. A maintenance engineer owns a monkey named Mary.

War-time eyecores have disappeared under civic-minded clean-up drives. And nearly every resident tries gardening in the sunbaked ground. The community has planted a thou-

sand coconut trees, ornamenting the landscape.

For back-home reminders Canton has two theaters (cartoons and westerns are favorites), Girl Scouts, a bulging commissary and a sign whose many fingers give flying distances to earth's far corners: New York 7,049 mi., San Francisco 4,468 mi., London 10,501 mi., Manila 7,309 mi., Johannesburg 16,190 mi.

London is meaningful in Canton Island's affairs. The United States and the United Kingdom in 1939 assumed joint control of the island for at least 50 years. Each nation supports a post office. Airlines of each equally share port facilities and give employment to many islanders.

Airmen's Video Lets Arabs See How Yanks Live

TRIPOLI, Libya (U)—Since the U. S. air base at nearby Wheelus Field installed a TV transmitter for servicemen and their dependents, Tripoli residents have been getting their first view of American life.

Two TV sets have been set up in store windows on the city's main shopping street, the Sharia Istiklal. Crowds gather around them every evening.

"This American entertainment rejuvenates me," declared 65-year-old Mohamed Ben Ali, as he stood in front of the store window set wrapped in his barracan, a white, blanketlike outer garment.

Mohamed, a retired small farmer, said he could not afford a radio and has to think twice before he pays for a seat in an Arabic theater to see an Egyptian film. "So I come every evening to see what the new world has to offer," he said.

Mohamed and his friends soon will be seeing occasional Arabic shows as Libya is able to make use of TV time made available on the Wheelus transmitter.

Trapped in High Chair, Baby Burns to Death

LAKEWOOD, Colo. (U)—A 15-month-old boy, left alone in his high chair, burned to death yesterday when flames swept the home of Mrs. Dolores Watson.

The mother was at a neighbor's, trying to free an auto from a snowdrift, when a daughter, Mickey, 4, called in distress.

Neither Mrs. Watson, whose husband is a Rocky Mountain Arsenal employee, nor firemen could enter the blazing structure to rescue her son Kitrick.

Fire Chief Gerald Ecker said the blaze probably started from a kerosene stove.

'Brown Jug' Overflows Welcome, Ayres Claims

HOLLYWOOD (U)—Contrary to the popular song, actor Lew Ayres is one fellow who doesn't love "The Little Brown Jug."

Ayres complained to police yesterday that ice cream vendors, playing a recording of that song on their routes to attract customers, could be heard half a mile away.

Police talked to the vending company. And the salesmen not only changed the record - they agreed to play it softer.

Sets Red Cross Month

WASHINGTON (U)—President Eisenhower has designated March as Red Cross Month.

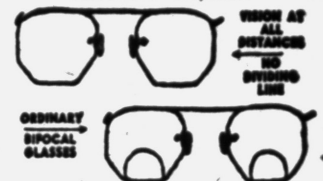

Costa Rica started coffee production in the 1820s and coffee still is the country's chief export.

First chemical plant in America opened in Boston in 1635, making saltpeter and alum.

**It's got getaway
 in cruising, too!**

(You just have to try Variable Pitch Dynaflo®!)

HOTTEST BUICK IN HISTORY

No wonder you see so many 1955 Buicks on the highways—they're setting up bigger sales than ever before in history—topping the popularity that has already made Buick one of the "Big Three."

SAY you're held to a crawl behind a slow-moving vehicle.

Suddenly, it's safe to pass.

So you press down the pedal, and up comes a spectacular burst of instant acceleration—a power-surge that carries you out, around and back in lane in fewer seconds than you thought possible.

It's like a second getaway cutting in when you need it most—and it's due to a smart idea Buick engineers picked up from the modern airliner.

Maybe you've heard of it.

It's the action you get from twenty variable pitch propellers in the 1955 Buick's new Dynaflo Drive.*

They bite into oil—but they do what the plane's propellers do in air.

They give you far better gas mileage in cruising range

—they give you quick getaway and emergency acceleration when you need them. You switch the pitch just by pressing the gas pedal beyond full throttle position—and you get an instantaneous safety-surge.

This is action that you will find nowhere else on the automotive horizon. This is action that is electrifying in its response—smooth to the absolute—satisfying beyond belief.

We'd like you to sample the greatest Dynaflo yet—just to see for yourself why this is the big talk of the new-car buyers, and the envy of the industry.

The thrills are waiting for you now at the wheel of a '55 Buick. And we're waiting to show you the facts and figures on power, room, ride and price that have us booking orders at an all-time record rate. Can you make it this week?

*Dynaflo Drive is standard on Roadmaster, optional at extra cost on other Series.

A Little "Dutch" Chair and Stool

Here is a straight chair in "Pennsylvania Dutch" style to match the rocker, dresser and table you made this week. You can place the little stool in front of the chair when you set up your German colonial room.

The chair and stool can be colored the same as the other pieces of furniture, with pink or orange tulips and bright decorations. Paste them on stiff red or blue paper. Cut out the two pieces carefully along the dark lines.

Fold the front and sides of the chair down and the back part up along the dotted lines. Fold down the two ends of the stool. Fold down the two tabs marked X on the chair and paste them to the sides to make the chair stand straight.

Now the chair and stool will look like the small drawings.

U.S. men have a higher death rate from heart disease than those in most other countries, although age.

From Income Tax Levy Vets' Benefits Exempt

WASHINGTON (AP) — Veterans were reminded today that any Vet-

erans Administration benefit payments they have received need not be counted in figuring their federal income taxes.

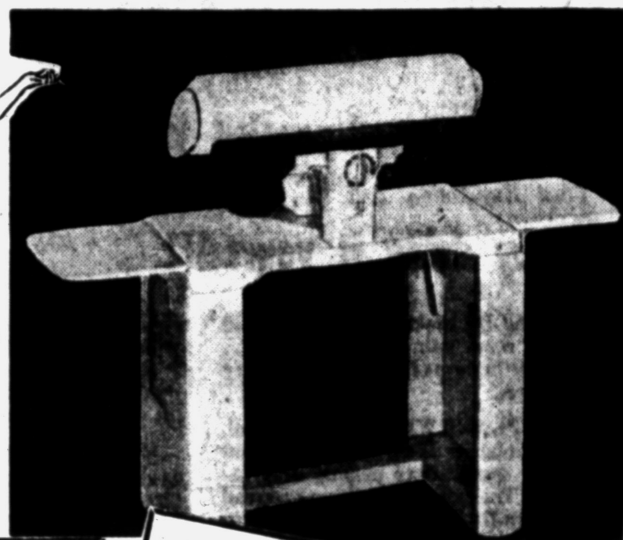

Death benefits to families of deceased veterans also are exempt from federal taxation, said an announcement from the Veterans Administration and Internal Revenue Service.

Report 8 Subs Given to China

U.S. Officials Also Say
Russians Are Training
Crews for Small Craft

WASHINGTON (AP)—Russia is reported to have turned over to Red China perhaps eight small coastal-type submarines.

American officials who reported this today said the Russians are also training Chinese Communist crews to operate the craft.

At least three of these submarines are said to have been seen at the Chinese Communist harbor at Tsingtao, across the Yellow Sea from Korea.

Little firm information appears to be available here on whether any of the subs have been operating in the Formosa area. However, the Chinese Nationalists claim their planes have sunk two submarines in the area in recent days.

One report is that four to eight Russian-built submarines were formally transferred to the Red Chinese last September.

Russian coastal submarines are described as vessels of some 205 tons equipped with two to four torpedoes. This would make them far smaller than the average American fleet-type submarine which displaces some 1,500 to 1,600 tons.

**Berlin Orchestra
Arrives in U.S.
Despite Protests**

NEW YORK (AP)—Despite protests by the New York City local of the AFL American Federation of Musicians, the Berlin Philharmonic Orchestra has arrived here without incident.

Plans by Local 802 to stage demonstrations and picket the 104-member orchestra failed to materialize yesterday when the musicians landed at Idlewild.

The local has contended that the orchestra's conductor, Herbert von Karajan, and its manager, Dr. Gerhard von Westernman, have Nazi party records.

At the airport Von Karajan told newsmen "I occupy myself with music. I have nothing to say about politics. I come here as a musician."

The orchestra opens a series of 26 concerts in the United States and Canada with one in Washington this Sunday. The New York opening has been set for March 1 at Carnegie Hall.

During the five-week tour the orchestra will visit 21 cities.

New York Subways Turn Down A-Power

NEW YORK (AP)—The New York City Transit Authority has given up any idea of using atomic energy to run the subways.

It plans to go ahead with a five-year, 178-million-dollar rehabilitation of the electric power plants.

The TA announced yesterday it had studied, and rejected, the atomic energy idea.

An engineering firm made a survey for the authority and reported that atomic power has not advanced to the stage where it could be adapted for the subways.

The golden spike driven to symbolize the completion of the first transcontinental rail route in 1869 was presented to Stanford University. It is now in the Wells Fargo Bank in San Francisco for safe keeping.

Floods in Australia Kill 5, Spread Havoc

SYDNEY, Australia (AP)—The worst floods in recent years ravaged nearly 100,000 square miles of New South Wales state today. Five persons were reported dead.

Floodwaters swirled through at least 50 towns between Sydney and the Queensland border, forcing thousands from their homes.

Torrential rains spilled scores of rivers over their banks. Among the worst hit communities were Singleton, a town of 4,300 in the Hunter River Valley about 80 miles north of Sydney, and Maitland, a town of 20,000 about 30 miles downstream. Singleton was covered by water 20 feet deep in some places.

Two men were electrocuted at

Maitland when a helicopter attempting to rescue them crashed, pitching them from a rope ladder onto a power line.

Three persons died when floodwaters swept a truck off a bridge at Singleton.

City Treasurer to Take Back Taxes Until Monday

Pontiac property owners who have failed to pay 1954 taxes and special assessments have until Monday to pay the delinquent bills

at the treasurer's office at City Hall. Murray M. Ashbaugh, city treasurer, said yesterday that after March 1 back taxes and assessments may be paid only at the Oakland County treasurer's office. An additional penalty will be added after Monday.

Claims Nudism Is Democratic

Exponent of Sunbathing and Foes Meet on the House Floor

LANSING UP—There's one thing about nudist camps: With or without a program, you can't tell a colonel from a GI.

So said one of the country's leading exponents of nakedness—Narvel E. Packwood, executive director of the American Sunbathing Assn.

Packwood and several other nudists appeared (fully clothed) on the floor of the House last night to sound off in favor of the sun and the open air.

The occasion: A public hearing on an anti-nudist bill, conducted by the House Judiciary Committee.

"Nudism teaches you a true sense of values," Packwood said. "For example, when a colonel visits a nudist camp the brass on his shoulder disappears and he is no better than a GI."

Packwood went ahead to say that nudists, as a rule, are better educated and better behaved, if not better clothed, than most other people.

The Rev. Braxton B. Sawyer, Fort Smith, Ark., evangelist, led the anti-nudist forces. Several ministers from the Battle Creek area stood behind him.

Sawyer told reporters his campaign against nudism was financed by Radio Pulpit, Inc., of Fort Smith, Ark.

He told the committee two other states have outlawed nudist camps—New York and Ohio. Arkansas is also considering a ban on nudists, he said.

The nudists said the Sunshine Gardens Camp in Battle Creek is the only nudist colony in Michigan, although there are five nudist clubs which meet regularly.

The bill, introduced by Rep. Peter J. Kelly (D-Detroit), would impose penalties on nudists, nudist camp operators and publishers of nudist magazines.

After the hearing, committee members said they would have to give the bill more study.

But privately, they conceded it has only the barest chance of passing.

Award Dinner Slated at General Hospital

Pontiac General Hospital will honor 24 long-term employees March 31 at a dinner and award presentation ceremony at the hospital, according to Miss Lauretta Paul, hospital director. The employees, three of whom are retired, have worked for the hospital for from 10 to 31 years.

SHOO-SHOO, CHOO-CHOO — A shotgun and her two Afghan hounds help Lenora Davis keep workers off her property in Lyons, Ill. The Chicago Sanitary District wants to build a railroad spur on the property, but the embattled householder says her lease does not expire until December, 1957.

Brando Gives Up T-Shirt for Tux in Social Debut

HOLLYWOOD UP—A new Marlon Brando, dapper in a tuxedo, made his Hollywood social debut last night.

Brando, heretofore the leading exponent of the sweat shirt school of acting, accepted an award of the Hollywood Foreign Correspondents' Assn. and the Foreign Press Assn. for the best performance by a dramatic actor in 1954. The associations' members are reporters from foreign countries who cover Hollywood.

Brando, whose portrayal of the punchy pug of "On the Waterfront," is among the top contenders for an Oscar. He said that he would attend his first Academy Award presentation March 30.

"I hope I'm lucky enough to win it," he said. Brando was accompanied to the star-studded affair by Miss Celia Meredith, whom he described as "my assistant."

Brando, usually described as a recluse among Hollywood actors, chatted affably with reporters and posed all over the Ambassador Hotel's Coconut Grove with other stars.

Roosevelt Lodge Dinner to Honor Past Masters

Raymond Kneisel and other past masters of Roosevelt Lodge 510, F.A.M., will be honored at a banquet Saturday night in the Masonic Temple, 22 State St.

William H. Bannan, warden of Southern Michigan State Prison at Jackson, will be guest speaker. Members of Areme Chapter 503, Order of Eastern Star, will serve the banquet. A dance will be held following the dinner.

State Gets Carloads of Foods From U.S.

LANSING UP—Michigan received 83 carloads of surplus foods from the U.S. Department of Agriculture during January, the State Department of Administration reported today.

The food is for distribution to state institutions, schools and welfare recipients.

State Controller James W. Miller estimated the value of the shipments at \$1,080,509. Included were

33 cars of butter, 2½ concentrated orange juice, 7 grapefruit sections, 8 pinto beans, 9 cheese, 13 dried milk, 9 shortening and 2 salad oil.

Dream Tour for Two

Taking your honeymoon soon? For \$100 a day an enterprising chap named "Jungle Jim" Price of Panama City will find you a small secluded island in the Pacific, provide you with a 10-foot luxury yacht and throw in a skipper who doubles as chef. It's called a "Honeymoon Tour."

Relax, Japan Tells U.S.

TOKYO UP—The consensus of a dozen business leaders in advance of Japan's nationwide election Sunday is that the United States is

"not justified in getting nervous." Shozo Hata, president of the Sumitomo Bank, summed up their views in stating: "All Japanese in their right minds are pro-American."

State Testimony Nearing Close

Phenix Prosecution to Call Only Three More Witnesses

BIRMINGHAM, Ala. — The prosecution today neared the end of testimony it hopes will convict Albert Fuller for the slaying of A. L. Patterson, Phenix City vice foe.

Fuller, 35-year-old former chief deputy sheriff, is one of three former officials charged with murdering Patterson, Democratic nominee for attorney general.

Arch Ferrell, former prosecutor there, and St. Garrett, former Alabama attorney general and the man Patterson would have succeeded, are the others.

Chief prosecutor Cecil Deason said he expects to call only three more witnesses, making 45 in all.

A courthouse janitor, Quinzie Kelley, identified Ferrell yesterday as the man he saw moving at

"between a fast walk and a run" from the area where Patterson was slain June 18.

Roderick Biddow, chief defense counsel, drew from Kelley the admission that he first told state investigators he did not know the man and repeated that version to officials for several months.

Crippled Jet Lands on Foamy Runway

MOUNT CLEMENS — Self-ridge Air Force Base officials have credited an unique rescue operation with minimizing the danger of a crackup in the crash landing Wednesday of a T-33 jet trainer.

Lt. Col. Robert J. Rankin and Maj. Harry R. Cassleman of the 30th Air Division at the Willow Run Air Station, escaped injury in the emergency landing after bringing their crippled ship down on a landing strip covered with fire extinguishing foam.

It was the first time the process had been used, base officials said. The plane developed landing gear trouble while preparing to make a landing.

The plane was undamaged.

Testimonial Dinner Given Williams, 44

GRAND RAPIDS — Some 600 persons turned out last night to honor Gov. G. Mennen Williams at a \$50-a-plate "non-partisan" testimonial-birthday dinner.

Williams was 44 years old Wednesday.

The governor spoke only briefly to thank supporters for the honor.

Earlier in the day the governor's press secretary, Paul Weber, spiked a move to announce a Williams-for-President boom.

The Muskegon delegation to the Democratic state convention opening here tomorrow wanted to give new emphasis on its re-

cently adopted resolution endorsing Williams for the 1936 presidential nomination.

Gifts to Gov. Williams included a high fidelity record player, a case of strawberry preserves, and a sketch of himself from which a full length portrait is to be painted.

The "non-partisan" dinner was planned by Mayor F. Joseph Flaugh of Benton Harbor.

Examination Is Waived

Franklin Hill, 36, of 125 S. Perry St., charged with auto theft, waived examination yesterday and was bound over for Oakland County Circuit Court arraignment March 21 by Municipal Judge Cecil McCalm.

Hill is held in the county jail in default of a \$1,000 bond.

Detroit Woman Lawyer in New Traffic Jam

DETROIT — Mrs. Louella S. Puett, 73-year-old attorney who police say has a four-page traffic record, was convicted in Traffic Court yesterday of failing to yield the right of way to a pedestrian.

And Mrs. Puett, who told news-men "officers think it is cute to give me parking tickets," still has two Traffic Court charges to answer.

Friday she is scheduled to face charges of leaving the scene of an accident. On April 20 she is to answer to four unpaid tickets.

Sentence was set for March 10 on yesterday's conviction.

She left the court saying: "Officers persecute me."

Talbot Testifies on Jet Airfield

Tells House Committee Today Why He Picked Cadillac as Site

WASHINGTON (AP)—Secretary of the Air Force Talbot was called before a House Appropriations subcommittee today to explain why he switched a proposed jet fighter base from one Michigan site to another.

Chairman Cannon (D-Mo) of the appropriations committee recently ordered Talbot to hold up a \$3,635,000 appropriation for construction of the base spotted near Cadillac. He said his committee had approved the grant with the understanding the base was to be built in Homestead Township, Benzie County.

Cannon said the committee felt that the allocation of construction funds for "any site other than the one justified before our committee would be contrary to the purpose for which the appropriation was made."

Talbot's explanation was requested for a closed session of a subcommittee headed by Rep. Mahon (D-Tex).

After the Homestead site was announced last summer, the House Armed Services Committee protested it was too close to the National Music Camp at Interlochen. Dr. Joseph E. Maddy, camp director, had expressed fear the jet plane noise would interfere with the activities of his nationally famous institution.

The armed services group directed that the base be located at least 15 miles from the music camp. Talbot recently told that committee his decision to move the base to Cadillac was in line with its instructions.

Rep. Ruth Thompson (R-Mich) bitterly assailed the subsequent shift to Cadillac, claiming that all during the dispute Talbot had insisted to her that the Benzie site met the Air Force's requirements and would not be abandoned.

Both locations are in Miss Thompson's congressional district. She contended Talbot put her "in the middle with my constituents" by getting her backing for the Benzie site, then switching to Cadillac without consulting her.

Ann Victor Wed to W. J. Harmon at Orchard Lake

KEEGO HARBOR — Ann Elizabeth Victor and William James Harmon spoke their vows Saturday at a Solemn High Nuptial Mass in Our Lady of Refuge Church at Orchard Lake.

Ann is the daughter of Mr. and Mrs. Michael M. Victor of Keego Harbor. William's parents are the Earl W. Harmon of Richmond.

The bride was dressed in a gown of white satin and lace, with long sleeves and high neckline and a short train. Her finger ring veil of tulle and lace was held by a Queen Elizabeth tiara, and she carried the traditional white bridal bouquet, centered with an orchid.

Judith Victor was her sister's maid of honor, and bridesmaids were Patricia Marshall, Mrs. Stanley Eljolt, and Janice Harmon, sister of the bridegroom.

Gordon Harmon was best man for his brother, and other attendants were Carl Millican Jr., Stanley Eljolt, and the bride's brother, Michael Victor.

Ringbearer was Robert Harmon, brother of the bridegroom, and the bride's cousin, Kathleen Victor, served as flower girl.

Breakfast for 60 guests was held at Chieftain Hall following the ceremony, and a reception for 300 guests was held in the evening.

Following a honeymoon in Northern Michigan, the newlyweds will make their home in Richmond.

Dogs to Be Inoculated at Davisburg Saturday

DAVISBURG—A non-profit clinic where dog owners may have their pets vaccinated for rabies will be set up from 1 to 4 p.m. tomorrow at Davisburg Town Hall, Springfield Township.

Dogs will be inoculated, as required for licensing, for \$1.50 each. The clinic is co-sponsored by the Oakland County Veterinarians Assn. and county health department.

MSC Opening Branch Office for Detroit Area

EAST LANSING (UP)—The continuing education service of Michigan State College today announced the opening of a branch office in Detroit's Penobscot building.

Dr. Edgar L. Harden, dean of the continuing education service, said the regional office in the greater Detroit area will serve Wayne, Oakland, Macomb and adjacent counties under the direction of Lowell R. Eldund, assistant professor at MSC.

Educator's Widow Dies

BIG RAPIDS (UP)—Mrs. Frances Clark, 77, widow of a former president of Ferris Institute, died yesterday. Mrs. Clark's husband died in 1941.

Jaycees Discuss Big Home Show in Waterford

WATERFORD TOWNSHIP—Waterford Junior Chamber of Commerce, at a board meeting this week, worked out plans for a 3-day Home and Garden Show, as well as voting to sponsor a high school speech contest.

The home show will be held April 29, 30 and May 1 in the CAI Building. John Chase is chairman of the affair.

"What United Nations Means to Me" will be the topic for the annual speech contest. Jaycees will present an award to the winner for the Waterford district, and that winner will be eligible to enter the state contest.

It was reported by Philip Nelson, chairman of the Incorporation Study Committee, that questionnaires were being sent to civic organizations in the township to get their opinion on the incorporation issue.

Kavanagh Facing Stiff Opposition

(Continued From Page One)

ing long-time Democrats are more deserving of the posts.

Another strong candidate for the high court is Circuit Judge Steven J. Roth, of Flint, former attorney general and widely popular in the party.

Other court hopefuls include Hazen J. Hatch, of Marshall; Arthur G. Lyon, of Coldwater; Edward J. Ryan, of Kalamazoo; Leon Cousins, of Detroit; and Robert McAllister, of Grand Rapids.

Kavanagh, 37, is making his first bid for a statewide public office. He is the son of a well-known Democratic family. His father, the late T. Giles Kavanagh, was secretary of the Democratic State Central Committee.

The candidate resides at 32865 Faircrest, Southfield Township, with his wife and four children. He has practiced law since 1943.

Oakland County and the rest of the delegations will caucus separately tonight at 10 p.m.

The Friday night caucus is an efficiency move being tried for the first time this year. Traditionally, caucuses are held immediately before the actual convention opens and usually delay the formal proceedings.

The Oakland group was authorized at its previous county convention to adopt unit rule by majority vote, if it so desires.

Unit rule would allow the delegation to cast its 86 votes in a bloc.

For nominations other than the twin Supreme Court posts, indications are that Lynn M. Bartlett, assistant superintendent of Grosse Pointe Schools, is the leading candidate for state superintendent of public instruction.

William E. Baker, superintendent of Mesick Consolidated Schools, also is in the race, but observers said he might be shifted to one of two openings on the board of agriculture state.

The other is reserved for Dr. Connor D. Smith, of Standish, whom Gov. Williams has twice named to the board.

Paul Adams, Sault Ste. Marie attorney, may have the inside track for one of the board of regents spots. As an Upper Peninsula man, he could counter the Republican nominee, J. Joseph Herbert, of Manistique.

The other opening apparently lies between Eugene B. Power, of Ann Arbor, and John M. Veale, of St. Clair Shores.

Rivals for a single opening on the State Board of Education are Frank A. Semperger, Melvindale School official, and John H. Schneider, former Wayne County Circuit Court commissioner.

Delegates to the convention are apportioned on the basis of last November's partisan vote for secretary of state. Under this rule, Wayne County has 651 votes out of a total of 1,380 and thus has a dominant voice in the proceedings.

Oakland County is second in strength with 86 votes.

Also elected tomorrow will be a state chairman, vice chairman and new state central committee.

Present chairman, Neil Staebler, is unopposed for re-election as is Adelaide Hart, Detroit school teacher, for vice chairman.

Another innovation this year is the ruling out of speeches during the formal convention. The general idea, Staebler said, is to streamline proceedings.

Besides the 101 regular delegates representing governmental units in the county, Oakland has three delegates at large. They are County Chairman Carlos G. Richardson, immediate past County Chairman Willis M. Brewer and Lt. Gov. Philip A. Hart.

Marlette Pastor Robert Kyster, Installed in Rites

MARLETTE—Rev. Robert Kyster, the new pastor of the Marlette and Lamotte Presbyterian churches was formally installed yesterday with Rev. John Meyer of the Flint Presbytery in charge of the special service.

Rev. Charles Kennedy of Sandusky gave the charge to the pastor, and the Rev. Stephen Crowell of Lapeer the charge to the congregation.

Rev. Robert Yelten of Crosswell gave the installation sermon, and a reception followed the program.

Chiang Troops Leave Nanchi

Evacuation Carried Out in Secret for Fear of Red Interference

TAIPEI (INS)—The Chinese Nationalist completed evacuation of troops from Communist-menaced Nanchi Island today in a new tightening of defense lines around Formosa.

A Nationalist military spokesman said the evacuation—which was carried out in secret for fear of Red interference—began Wednesday and was finished at noon today.

The spokesman, Col. Hsiung Eng-teh, said the move was made without the assistance of United States forces. This differed from the evacuation of the Tachen Islands, 200 miles north of Formosa, two weeks ago when the U. S. 7th Fleet took part.

Col. Hsiung said the decision to evacuate Nanchi which lies 140 miles north of Formosa and only 23 miles off the Red China mainland, was made "for the purpose of consolidating the defense line and meeting strategic requirements of strengthening the defense" of Formosa and nearby islands.

Up until the last few hours before the Nanchi evacuation was completed, the Nationalists officially denied that such an operation was in progress.

Even while the Nanchi operation was being completed, Nationalist planes carried the air war to the Reds for the eighth straight day.

The Air Force said that "three to four" Red jets were sunk by Nationalist planes 15 miles south-east of the Tachen.

Other planes bombed Red installations on Pelichian Island, just north of Nanchi, reportedly starting large fires.

\$800 Damage Done by Fire in Waterford

WATERFORD TOWNSHIP—Fire at a house at 4036 Quillen St. caused an estimated \$800 damage yesterday.

Occupant of the home, Mary Ramage, turned in the alarm at 5:40 p.m. The house was owned by Robert J. Schultz.

The blaze started around the motor of the refrigerator in the kitchen, Waterford Township firemen said, and damage was mostly from smoke. Both house and contents were covered by insurance.

Photographs can be made of stars no human eye can see.

Air Force Reveals Work on Intercontinental Missile

WASHINGTON (UP)—The Air Force today let Atlas—a fantastic intercontinental missile of the future—out of its bag of secret weapons.

For the first time, the Air Force admitted it was working on an intercontinental ballistic missile called Atlas. But the work, it was indicated, is still in the early development stage.

Gen. Nathan F. Twining, Air Force chief of staff, told reporters that work on the Atlas was "just getting going."

Twining's statement was the first time any Air Force official has even admitted the existence of the Atlas project, being carried on by Convair Division of General Dynamics Corp.

Air Force information officials have not even been authorized to use the word Atlas in terms of a weapon. Their stock answer was that Atlas was a Greek god who held up the world.

Twining also disclosed that development is nearing the payoff stage in another intercontinental missile, called the Snark.

Twining said the Snark—a long-range pilotless bomber—is "coming along fine" and already has been tested. The tests presumably were conducted at the Air Force's missile range stretching down into the South Atlantic from Patrick Air Force Base, Cocoa, Fla.

Twining, along with Air Secretary Harold E. Talbot, yesterday briefed the Senate Armed Services Committee on the Air Force's program, including development of guided missiles.

Such missile names of the future as Atlas, Snark, Bomarc and Falcon were cast before the senators, who admittedly were impressed.

One senator, who declined to be identified, said, "I heard things I never heard of before."

The committee continued its closed-door briefings today (at 10 a.m. EST) with testimony from Navy Secretary Charles S. Thomas and Adm. Robert P. Carney, chief of naval operations.

After the closed-door meeting yesterday, Chairman Richard B. Russell (D-Ga) told reporters that Air Force officials "think they are making fine progress" on development of intercontinental missiles.

Talbot emphasized to the committee that "early development of a ballistic missile is critical to the security of our country."

He pointed out that the Communists took over the German V-2 research installation after

Sheep Starving in Wyoming as Drifts Pile Up

By UNITED PRESS

Icy winds whipped Wyoming snows into swirling ground blizzards today, blocking ranchers who tried to bring food to 24,000 starving sheep.

The ranchers said they would use Army tractors and even call for an airborne haylift if the snows beat them back today.

The storm brought little new snow to the frozen Wyoming ranch country. But the 40-mile-per-hour winds tugged and churned the tons of snow left by last week-end's blizzard.

The snow drifted across highways so fast that a V-shaped plow clearing the way for five feed-loaded trucks yesterday couldn't get through.

Near Sweetwater, Wyo., ranchers found the body of Sam Myers, 42, in snow-covered sagebrush. He apparently had left his snow-blown truck a half mile away and tried to walk three miles to his ranch home.

Ranchers estimated that about 24,000 sheep were snowbound in south central Wyoming. The snow blanket was so thick that the huge flocks probably haven't been able to graze since the blizzard hit last week.

There was no telling how many of the sheep have already starved or been frozen to death, the ranchers said.

High winds and possible snows were forecast for today as the ranchers grouped into new rescue crews.

If they fail, a spokesman said, they may turn to tractors and other military equipment made available by the 6th Army.

Pick Candidates at Imlay for Election March 14

IMLAY CITY — At the annual caucus for the nomination of candidates for the March 14 election, the following were nominated:

President, E. C. Muzzy; clerk, Clifford Dorow; treasurer, H. A. Kersten and William Lengemann; assessor, Mark Cheney, and trustees for two-year terms, three to be elected, John F. Folk, Levi Spencer and William Mills.

All are incumbents except Lengemann. Dorow had been appointed clerk during the past year when Walter Richards resigned.

Patricia Ann Watson Plans June Wedding

DRAYTON PLAINS — Mr. and Mrs. Kenneth C. Watson of Sashabaw road have announced the engagement of their daughter, Patricia Ann, to Nathan B. Williams Jr.

He is the son of Dr. and Mrs. Nathan B. Williams of Belle Plaine, Iowa. A June 18 wedding in Ann Arbor is planned by the couple.

World War II along with the German rocket scientists.

"This fact, along with the known ability of the Soviets to produce fusion (H-bomb) weapons, makes it imperative that our country be first to develop an operational long-range missile," Talbot said.

American officials said the United States stood behind the British-French plan for the eventual scrapping of all atomic and hydrogen weapons, but that it tied this in with step-by-step reductions in military manpower as well as conventional weapons.

Fear Missing Children Dead

Pair Lost Wednesday Near Saginaw Believed Drowned in River

SAGINAW (INS)—State Police and searchers today expressed fear that a 10-year-old boy and his eight-year-old sister, missing from their Birch Run home since Wednesday night, fell into the Flint River and drowned.

The youngsters, Charles and Georgianna Schram, are members of a family that lives in a tarpaper home eight miles south of Saginaw and only half a city block from the river.

Police are continuing to drag the river but they think the bodies may be under a pileup of ice caused by a mild thaw Wednesday night.

Captain Earl Secriest of the Bay City State Police Post said there wasn't a clue to the fate of the children. He explained:

"The two were last seen by a friend at 6:25 p.m. Wednesday on a highway that runs along the river. We feel the river is the only possible answer to the disappearance as we have checked out all the surrounding area—barns, houses, swaps, woods, every place the children might be."

Yesterday nearly 300 volunteer searchers, led by State Police and sheriff's deputies, combed the area in an effort to locate the missing children.

A red hunting cap similar to the one Charles was wearing was found near Mt. Morris, 17 miles from the Schram home yesterday, but police have since decided it did not belong to the boy.

The missing children are two of 11 in the family of Mr. and Mrs. George Schram.

U.S. Calls on Reds to Reduce Armies

LONDON (AP)—The West countered Soviet demands for a nuclear weapons ban today with an overall disarmament proposal calling on Russia and Red China to reduce their armies.

The offer was made known to newsmen as delegates of the United States, Britain, France, Canada and Russia made ready to resume secret disarmament talks that ended in stalemate here last June.

U.S. Delegate Henry Cabot Lodge Jr. was scheduled to meet in London's Lancashire House with Russia's Deputy Foreign Minister Andrei Gromyko, British Minister of State Anthony Nutting, France's Jules Moch, and Norman Robertson, Canadian high commissioner.

The five powers are conferring as the U.N. Disarmament Commission subcommittee.

GOLDEN ANNIVERSARY—State Representative Fred Beardsley and Mrs. Beardsley of Oxford will mark their 50th wedding anniversary Sunday with a 4-8 p.m. open house at their 12 Hudson Ave. home. They were married in Addison Township March 1, 1905, and lived there until moving to Oxford seven years ago. The Beardsleys have three children, twelve grandchildren and five great-grandchildren. Currently serving his fourth term, he was Addison Township supervisor for 13 years.

Lapeer Democratic Head Submits Her Resignation

LAPEER — The recent appointment of attorney John G. Libbers as probate judge sparked the resignation yesterday of Mrs. Ethel La Fortune, chairman of the Lapeer County Democratic Committee. It was disclosed today.

Two other members of the committee, Percy O. Crawford, vice-chairman and Dortha B. Collier, treasurer also resigned with Mrs. La Fortune.

Libbers, a former Circuit Court Judge, was appointed over protests of the Lapeer Democratic Committee, according to Mrs. La Fortune, who said her name was also submitted for consideration.

Libbers replaced Judge Glenn Hollenbeck who died several weeks ago.

Mrs. La Fortune's resignation was the culmination of a dispute with state Democratic Chairman Neil Staebler which began when Staebler sent in poll challengers at the Nov. 2 election.

"This act built up again a barrier that took me five years of hard work to break down, and finished bi-partisan election boards," Mrs. La Fortune claimed.

"Conditions are a little different here in Lapeer County than in the large cities, where challengers are more or less accepted. Here they are counted as an insult to the Democrats working on the board," she stated.

A pruning demonstration, using old as well as young fruit trees, will be given at 10 a.m. tomorrow by Carl Bailey, Oakland County horticultural agent. He will conduct operations at the home of C. R. Stetler, 505 Martindale Rd., Milford.

Plan Pruning Show

Air Force Depending on Ground Observers

By PHYLIS BATTELLE
ROSLYN, N. Y. (INS) Should an enemy decide to drop in on us someday, bearing lethal gifts, the chances are he'd be atomized by his own ambition.

He would find our shorelines are protected not only by radar, jets, electronic missiles and the best military minds teamed with the most trouble-shooting military hearts, but also with an enormous army of U. S. civilians, with their eyes on the skies, dedicated to the proposition that nobody is going to devastate this countryside or these city streets if they can help it.

Priests are scanning the airways for unknown aircraft from their monastery roofs. "Lifers" are watching for unfriendly planes from their prison walls.

An elderly couple, one nearly blind and the other nearly deaf

are grouping their limited facilities to spot potential trouble before it reaches our borders. Far be it from me to spread complacency in these dangerous times, but having just watched one arm of our crafty nationwide air defense operation in sizzling action, my nerves are considerably calmer. The headquarters I visited is the 26th Air Division, which is centered at Roslyn on Long Island, and is responsible for the air defense of 44 millions of us in nine Eastern states — including my home town, New York City.

Here, on a 330-acre estate once lushly enjoyed by millionaire Clarence Mackay, is a two-story windowless, bomb-proof building that holds the secret of what's going on throughout the nine-state area every moment of every day. It is the "control center."

In a modernistic, dim-lighted room, there is a giant plexiglas board on which is a map of the area. On this map, every plane in the skies is charted — the known or friendly planes (usually commercial airlines) in yellow, the occasional unknowns in red. The men and women who chalk in the routes of planes from catwalks behind the great map get their information not only from radar scopes, but from more than 47,000 members of the Ground Observer Corps in this area.

These are the volunteer civilians who act as radar's human counterpart, standing on watch from hilly terrain near their homes, to pick up the first drone of a plane and flash the news by direct phone line from their post to the center.

"Radar is often uncertain at low altitudes," one of its technicians admits. "An enemy aircraft could in all probability sneak through its net by flying in low, and that's why the Air Force depends so strongly on the ground observers."

There is tenseness when an unknown is spotted and the red sign goes up on the board. Nothing can be done until the plane's path is charted — until another observer spots it and confirms the track it is flying.

Then fevered activity starts. Flight plans of all commercial airlines are checked, and if no plane is scheduled to be on that course at that place, at that time, it is very much worth investigating. Out goes a quick alert to the nearest fighter squadron base which happens in this case, to be 60 miles away at Suffolk.

Within three minutes, two 660 M.P.H. F-86D Sabre-Jets are

screaming toward the unknown plane, guided by radar and laden with electronically-operated missiles.

Dozens of other Sabre Jets are powerfully poised, ready to take off, should the unknown be the enemy.

These quick alerts, which are called scrambles, are necessary many times each week. So far,

no unknown has proved to be a hostile plane. Usually, it's a commercial liner off-course, or a private plane.

But Air Defense, and the action-loving young jet flyers, and the home-loving ground observers are ever ready and looking for trouble.

Should an enemy come to call, he wouldn't get a warm reception, but a hot one!

(Monday: Miss Battelle interviews jet pilots as they wait, restlessly, for the call to scramble.)

Woman Judge Presides

NEW YORK — The first woman appointed to preside in city court trials here is, appropriately, Justice Amsterdam. This city once was New Amsterdam.

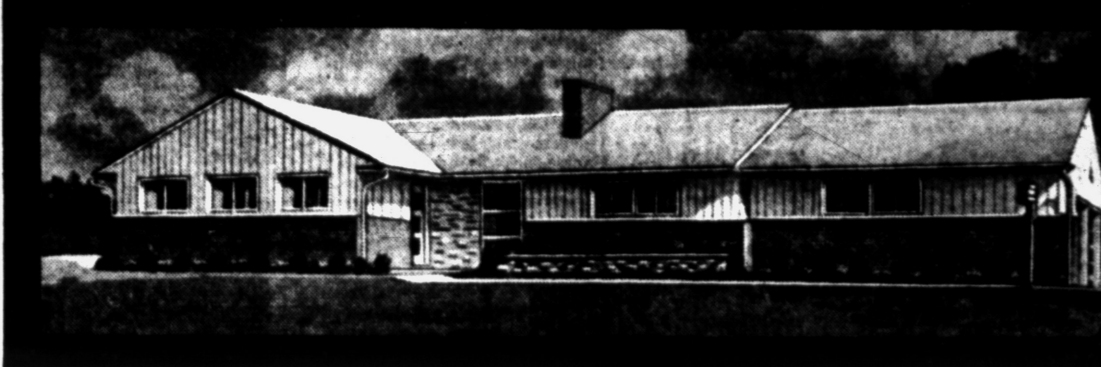

The appointment is not the first for Miss Birdie Amsterdam.

Fifteen years ago, Miss Amsterdam, normally a municipal court justice, was the first woman elected to the New York (Manhattan) county bench.

Number of persons who play an instrument was estimated last year at 27 million.

Happy Is The Day When Backache Goes Away

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When acute everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 60 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

Speaker Takes Zontians on Tour Via Imagination

Minister From Flint Describes Journey Through Europe and Near East

The Rev. Elmer I. Braden of the Community Presbyterian Church, Flint, addressed members of the Zonta Club of Pontiac Thursday at Hotel Waldron.

The Rev. Mr. Braden showed colored slides taken during the Inter-Cultural Travel Seminar held June 25 through Aug. 6.

Among the 27 included in the seminar were rabbis, priests and

ministers. The tour began at the United Nations Building, with the first pictures being taken in Copenhagen, Denmark, in the town square.

Its magnificent town hall which is over 400 years old and Elsinore Castle, where Shakespearean plays are produced in the courtyard, where high points of interest.

Going into Berlin, on the imaginary tour, Zontians saw blocks of devastation, saw the refugee center which divides East and West Berlin, and in the Russian Zone they stopped at the Garden of Memories Cemetery to view the mass graves of the Russian soldiers who had given their lives in an attempt to destroy the Nazis.

Of particular interest was the city of Munich where Hitler, a diabolically clever ruler, rose to power. They also saw the gas chambers where masses of people were killed.

The Rev. Mr. Braden said these people were told they were going into the building for showers, but instead were gassed, and he pointed out the side of the building which was used as an incinerator.

The plane carrying the group approached Istanbul (Constantinople) at night, and the speaker said it was like "coming down on shining diamonds."

As the travelers entered Lebanon they saw the refugee camp for Arabs who had been forced to leave their homes and farms, and had come to this devastated camp of unbelievable poverty. These people are supported only by the United Nations, the speaker noted.

Zontians saw the Valley of Mesopotamia where the great world conquerors came to set up their buildings, and saw the temple where the statue of Jupiter was built.

Slides of Jerusalem, showed the Damascus Gate, the reproduction of the Roman Praetorium where Jesus was tried, and the great wall surrounding the east side of the city.

Down the Roman road which leads to Jericho is the Inn of the Good Samaritan. Members of the Zonta Club saw pictures of the inn, which now is a post for the army.

Also included in the tour were trips to the River Jordan and to the Sea of Galilee. And from there they could see the spot where the sermon on the Mount was preached.

The travel seminar included trips to Rome, where they saw the pope's quarters, to Paris where they went up in the Eiffel Tower, to Buckingham Palace where they saw the changing of the guards, and to Westminster Abbey where they viewed the coronation chair.

Circle Has Meeting

Members of Rebekah Friendship Circle met Wednesday for a cooperative luncheon at the Matthews street home of Mrs. Joe Hudson. The next meeting will be held at the Mariva street home of Mrs. Bert Downey.

The attractive ensembles worn by these members of Beta Sigma Phi Sorority are just a sample of what's in store for those who attend Arthur's Fashion Show on March 3 in Pontiac High School auditorium. The event is sponsored by the City Council of Beta Sigma Phi Sorority. Adjusting the wedding gown modeled here by Shirley Slavbaugh of Fourth street are (left to right) Mrs. Robert Bego

of Drayton Plains, Mrs. Richard Allen of Monterey avenue, Helen Baldwin of East Pike street and Mrs. W. L. Thomas of Spokane villa. Tickets for the 8:30 affair may be purchased from sorority members or at the door. Proceeds will aid the Child Psychiatry Fund at Pontiac State Hospital and the Pontiac Foundation.

Newcomers Hear Florida Calls Manvilles

Mr. and Mrs. Charles J. Manville of North Berkshire road are making plans to leave soon for a winter vacation in St. Petersburg, Fla.

Mr. and Mrs. Charles Shearer of Pine Grove avenue have returned from a month's visit with her brother-in-law and sister, Mr. and Mrs. Earl J. Smith of Dunwoody, Ga. The Shearers also spent a few days touring St. Petersburg, St. Augustine and Tampa, Fla.

A two-month stay in Tucson, Ariz., and Sacramento, San Diego, Van Nuys and Los Angeles, Calif., has been enjoyed by Mr. and Mrs. Frank G. Mapley of Porter street.

Mr. and Mrs. Dan Murphy of Mechanic street are spending the winter months at Long Beach, Calif. They were recently honored at an open house given by their nephew and niece, Mr. and Mrs. Harry Mycroft of Temple City, Calif. The celebration observed the Murphy's 50th wedding anniversary.

Jean L. Hilton, daughter of Mrs. Lillian Hilton of Seminole avenue, has been named to the deans' list at Kalamazoo College, Kalamazoo. Area residents also named to the

Sisterhood Meets at Sutter Home

Chapter AW PEO Sisterhood met at the West Iroquois road home of Elda Sutter recently. Attending the meeting from Kalamazoo was Eloise Reed.

During the program Mrs. James Boaz read the state chapter by-laws and a constitution quiz was led by Mrs. George Reed.

Ladies Aid Meets for Sewing, Lunch

Ladies Aid Society of Oakland Avenue United Presbyterian Church met Thursday at the church for sewing and luncheon.

The Rev. Theodore Allebach led devotions. Hostesses for the day were Mrs. Chris Greve and Mrs. Miner DeMond.

Other travelers are Mr. and Mrs. Owen A. Luckenbach of Willis street who are in Nassau.

Mrs. Richard Wagner of Abbey Road gave a tea today in honor of her sister, Mrs. Robert Z. Alexander. She is visiting for two weeks from her home in St. Louis, Mo.

Mr. and Mrs. Richard E. Jamieson are sojourning in Florida for the next three weeks.

SAGINAW AT WARREN, PONTIAC

Now Books for Children Can Speak

Editor and Author Trying to Stimulate Reading Interest

By DOROTHY ROE
AP Women's Editor

Did you ever wish books could talk? Well, now they can, thanks to the efforts of a book-loving couple named Bernard and Darlene Geis, who decided somebody had to do something to give books a fighting chance in the battle for children's interests waged by television, movies and radio.

"We had been working on a new series of books for preschool children," says Darlene, who is the mother of two sons, Peter, 11, and Stephen, 5. "That's our field. Bernard edits children's books and I write them. We worked hard getting the kind of pictures that would appeal to nonreading readers, and tried them all out on our boys."

"But my husband kept saying it wasn't quite enough—the books should be able to speak for themselves."

One evening he rushed home with a strange-looking book. It had a round piece of grooved paper glued on the front cover and a hole punched in the middle.

They read the book to Peter and Stephen, then Daddy said nonchalantly to the boys:

"Now put this on your phonograph and play it."

The youngsters stared in disbelief, but obeyed, and suddenly the room was full of sound. The book was talking.

Mr. and Mrs. Geis now have 10 such books in process of publication.

The record is not just a repetition of the text, but is coordinated with it, with musical arrangements by Jimmy Carroll and a 15-piece orchestra. When the story has to do with a farm, the sound track has the voices of real farm animals. When it's about the zoo, children can hear a real lion's roar.

Square Dancers Entertain Club From County

Patriotic decorations were used in Daniel Whitfield School when members of Promenaders Square Dance Club entertained the Gaytimers Club from Commerce Tuesday evening. Master of ceremonies for the evening was Engel Groenber.

Mr. and Mrs. Howard Fair had as their guests, Mr. and Mrs. Benjamin Brown. Guests from the Gaytimers Club were the Ed Bergmans, the Bill Kings, the Leonard Fields, the Guy Pattens, the Marshall Wheelers, the George Sweazys and Ralph Irland.

Others were the Walter Lorangs, the Lawrence Adamases, the Lynn Greggs, the Art Petars, the Ray Legassas, the Frank Shotwells, the Ben D'Arcys, the Al Pirtles, the Dorothy MacDonalds, the Bill Hurbushes and the Stig Dinielons.

Callers were Mr. Hurbush, Warren Allen, Mr. Sweazy, Mr. Groenber, Harry Anderson, Oscar Forslund, Mr. Danielson, Mr. Lorange and Mr. Petar. Mr. and Mrs. Bob Earl took care of the decorations.

Stabafas Initiate Seven Into Group

An initiation tea held by the Stabafa Club recently honored seven new pledges. Myrla Henry, Sharon Gale, Terry Fortino, Janet Thomas, Lea Berg, Gail Blamy and Delores Surowitz. Lynn Benter was hostess for the tea at her home on East Iroquois road.

Mrs. Basil Brown, club sponsor, welcomed the pledges and gave the club history. The group is being initiated this week and will be honored at an informal dinner March 1 at the Utica road home of Judy and Mary Inman. Judy Baker of Navajo road will be hostess for the formal initiation, March 8.

BEVERLY CLAIRE SILK

Mr. and Mrs. A. E. Silk of South Johnson avenue announce the engagement of their daughter, Beverly Claire, to Ronald Rentschler, son of the Herman Rentschlers of Saline. Both are graduates of Michigan State Normal College.

JANE ELIZABETH STEINHELPER

The John Steinhelopers of South Genesee avenue announce the engagement of their daughter, Jane Elizabeth, to David C. Grover. He is the son of Mrs. John Hendry of Woodstock road and Verne W. Grover of Duluth, Minn. April 30 is their wedding date.

Style Show to Be Staged on Tuesday

Pontiac High School auditorium will be a busy place Tuesday evening when Tipacon Chapter of American Business Women's Association sponsors a Spring Fashion Show by Arthurs.

Modeling for the occasion will be Mrs. Charles Barrett, Shirley Booth, Lois Dustin, Mrs. Allen W. Hawke, Doris Hendrian, Karen Hoff and Mrs. Bengt Pulla.

Others will be Mrs. Benjamin Jerome Jr., Shirley Steinbaugh, Pat Sweeney, Selma Thoin and Mary Ellen Wyngarden.

Fashions for the younger set will be modeled by Johnny Stevens, Susan Putnam, Melinda Porritt, Steve Pargo, Linda Olds, Barbara Graybiel, Linda Fraser and Donna Douglas.

Mrs. Edward Van Tassel is serving as general chairman of the show. Tickets for the 8:30 affair may be purchased from members of the association or at the door.

Mrs. Danielson Tells Group About Hats

Mrs. Donald Boufford opened her home on South Johnson street Tuesday evening to members of the Modern Homemakers Club. The project, "New Hats From Old" was given by Mrs. Stig Danielson and Mrs. Eric Danielson.

Mrs. Tom Nelson was a guest of the group and Mrs. Cecil Bell was voted into the club as a new member.

Rebekahs Report Hospital Projects

District visitations and hospital bed service were reported upon when Welcome Rebekah Lodge 246 met Thursday evening in Malta Temple.

The reports were given by Mrs. Lillian Smith of Hamburg Lodge and Mrs. Chris Bailey of Birmingham, district president, respectively.

Mrs. Elsie Peddington was in charge of the social hour when 100 members and guests were present.

Designer Says American Women Are Meticulous

By BARBARA BRENT
HOLLYWOOD—Last week, American women got a bouquet from a man who usually dispenses brickbats. The harsh critic who went soft is Don Loper, internationally famous designer and decorator.

Mr. Loper has infuriated more American women with his scathing criticism of their taste and grooming habits—and gotten away with it—than almost any other man alive.

However, last week a sharp criticism from the French newspapers of the appearance of American lady tourists brought Mr. Loper to our defense.

"I am keenly aware of the elegance of celebrated French beauties," Loper said. "I think every American woman can learn something from them, as can every woman in the world."

"However, I do think the average French woman does not show to advantage next to the average American woman in every respect."

"For example, American women are better friends with soap and water. To be blunt, the American woman understands and practices complete personal cleanliness. Alas, this cannot be said of every French woman."

"Consider the matter of hair alone. A French woman is pos-

sibly a bit more clever about styling. She is wise about finding a becoming coil for herself and staying with it."

However, the effect of her wisdom is sometimes entirely lost because she shampoos her hair too seldom.

The average American woman has learned that her hair requires cleansing twice a week or oftener. I am amused at our Hollywood stars, who usually come to me for

ittings in the morning. Almost always they arrive with wet hair in curlers.

During the period of fitting, their hair dries and just before we slip the dress on, they comb out their hair. Some of them actually wash their hair at my atelier because they insist they cannot judge a dress unless their hair is absolutely clean and right.

We have reached a point where we keep on the shelves jars of their favorite shampoo.

"French women will go to greater lengths to achieve a perfectly accessorized costume. I think it is fair to say that American women are not as aware as the French of the importance of finishing a dress with the proper coat, hat and shoes."

This is why I always design complete costumes for American women, since I know that they do not like the chore of running down all that they need.

"However, to speak bluntly, I have never seen an American

woman destroy the effect of a bare evening gown or sheer stockings, by failing to remove hair under her arms or on her legs.

The same cannot be said for the French women. Even French models—to the horror of most American eyes—offend in this respect."

HAZEL MARION SORLES

Mrs. Roy Bullock of Yale street and Charles Sorles of Earlemore boulevard announce the engagement of their daughter, Hazel Marion Sorles, to Robert Armstrong. He is the son of Mr. and Mrs. Jack Armstrong of Lake Orion. March 19 is the date for the wedding.

Sorority to Attend Stage Production

Mrs. James Perquette of Crescent road was hostess recently to members of Zeta Lambda Chapter of Beta Sigma Phi Sorority. The chapter's yearly project was discussed and plans were made to attend a stage show in Detroit during March.

Members played cards preceding the serving of refreshments by the hostess. The next meeting will be held at the Harper street home of Marjorie Courtney.

Culture Club Sets Dads' Night Date

Child Culture Club is planning Dads' night for March 24 at Westacres Club House. Plans for the event were made at the Thursday evening meeting held in the Barrington road home of Mrs. Charles L. Bowers.

Members answered the roll call question, "Do you feel there was as much emphasis on teenagers and their problems when you were young as there is now?"

Mrs. John Jess and Mrs. John Harding conducted a question and answer period. Cancer pads were made.

At the next meeting on March 10, a panel discussion on "Parents, Are They Problems?" will be held. Officers will be elected. Mrs. Francis Robinson will be hostess.

Stress Nature and Details of Work Before Telling Where It Was Done

Volunteer Experience Is Valuable

By ANNE HEYWOOD
It's a well-known fact that people are apt to value us to just the extent that we value ourselves. We put on our own price tag, and others take it at face value.

But many of us overlook this fact when it comes to vocational matters. The woman who has worked like a dog for years, in her volunteer job, almost always dismisses it as unimportant, because she wasn't paid. And then she wonders why the employer does the same!

Elaine L. is facing this problem now.
"I've worked 14 years," she writes, "in three different volunteer jobs."
"First, I was a fund raiser for the Community Chest, where I worked full time during the campaign, ringing doorbells and giving talks. Between times, I did paper work and typing and filing on a part-time basis."

Here's How to Remedy an Off-Center Window

Here's a trick that puts an off-center window in its place and settles that urge to push it over on the wall.

The arduous hanging of tier curtains does the pushing, or seems to, which works just as well. First, find the center of the wall.

If you don't like the book someone lent you after telling you how much he enjoyed it, try to find something good to say about it. If you say flatly you didn't care for it you are not just running down the book.

You are also low-rating your friend's taste.
White Collar Gals Escape Ironing
If you're a literal white collar girl—lots of fancy collars and cuffs for sweaters and blouses—try this. Smooth them right side down, after their washing and rinsing, onto the rim of the bathtub. Press hard. See if you can escape ironing.

The curtains, of course, must be wider than the window. Make them a little more than twice the measurement from the center of the wall to the outer edge of the window frame that is on the narrower strip of wall.

Hang the rod to project forward from the window, not within the window frame, but so the rod center is at wall center. One side of the curtains will extend beyond the window onto the wall; and make sure the curtains turn backward to the wall so the one side looks like the other. Make the tiers in three sections so that either the top or bottom tier can be opened to let light in through the glass.

Employ Paper to Fix Curtain
CHICAGO (INS)—Tissue paper can help you in mending sheer white curtains beyond detection. Cover the hole with the paper and then run it back and forth under the sewing machine. Laundering will soak the paper away and the darn will be hard to detect, in fact almost invisible.

Handle your last job, the parent organization one, the same way. In short, when your experience has been volunteer, make it a point in your resume to stress the work you did, and mention at the end the place where you did it.

If you need height—

Empire blouse with long triangles of inset color enables the short figure to look tall in the new two-color fashion.
Mrs. N. H.—A refreshing contrast to heavy winter outer-wear is the attractive and inspired separates outfit. Clear blues, aqua to flower blue range, porcelain blues, Delft or Copenhagen, ideal antidote to February doldrums.

Forecast—weddings in spring—and here is a handsome table setting for a bachelor buffet. Designed for masculine interests and appetites, it features an appropriate goodluck horseshoe of red and white carnations.

McBride Has No Passion for Fashion

By MARY MARGARET MCBRIDE
I don't understand so many things people write about sports, viz: "Adios Harry, son of Adios, came out of the East today to take the biggest prize, the ninth annual \$69,332.06 Little Brown Jug."
I don't understand most of the things people write about finance, viz: "Blank & Co. are reoffering the mat prices to yield from 0.70 per cent for those due Feb. 1, 1956 to 2 per cent for the 1974 maturity."
And though it's supposed to be woman's concern, I also don't understand the things like this that people write about fashion: "Trim fitted suits are banded with a pretend-belt at the hem of the jacket . . . nimbly neutral with a slim dress that has three waistlines—one at the waist, one on the hips and one under the bustline . . . (I've never even quite understood the old H-line, much less the new A line that the fashion writers have been seeing at the spring Paris openings.)"

The three sets of quotations were lifted from the same publication a while back and as I copied them I reflected that judging from his writing, Mark Twain, whose birthplace and mine were separated by only seven miles, must have felt much the same sort of puzzlement. When the newly rich in California during gold-rush days were bringing over Paris fashions, for instance, the humorist reported for his newspaper on a ball he'd attended.

"Mrs. B." he wrote deadpan, "was arrayed in a superb speckled foulard with stripes running fore and aft. Mrs. J.B. wore a heavy rat-colored brocade silk, studded with large silver stars and trimmed with organdie."
They were using French names for everything, so Mark gave Miss C. an elegant "chevaux de la reine" (queen's horses) trimmed with bands of "guipure" (vellum-lace) and a "Mohair Garibaldi shirt."

Chocolate Is in Cake and on Top Too

Mrs. Hartung Bakes Favorite Dessert With Unusual Icing

By JANET ODELL
Pontiac Press Food Editor
Every time a survey is taken chocolate cake comes out a winner. You can count on everyone liking it. We think you'll be pleased when you try Mrs. Glen Hartung's recipe for a Milk Chocolate Cake.

The Hartungs are enthusiastic square dancers. Mrs. Hartung works in the PTA, is president of the Ladies Metropolitan Club Auxiliary in Pontiac Township, and bowls on a team. During leisure hours at home she likes to knit and sew a bit.

MILK CHOCOLATE CAKE
By Mrs. Glen Hartung
¾ cup sugar
2 squares unsweetened chocolate, melted
¼ cup butter or margarine
1 teaspoon vanilla
4 eggs, separated
¾ cup sifted cake flour
1 teaspoon cream of tartar
¼ teaspoon soda
¼ teaspoon salt
1 cup milk
Add ¼ cup sugar and 3 tablespoons water to chocolate. Cream butter well. Add remaining 2 cups sugar gradually, beating until light and fluffy. Add vanilla, then egg yolks, one at a time, beating well after each addition. Add chocolate mixture and blend thoroughly. Add sifted dry ingredients alternately with milk, beating until smooth. Fold in egg whites, beaten until stiff but not dry. Pour into three round 9-inch layer pans, lined with waxed paper. Bake in 350 degree oven for 50 minutes, or until done. Let stand for 5 minutes. Turn out on racks to cool. Fill and frost with Chocolate Cream Cheese Frosting.

Cream Cheese Frosting
¼ cup butter or margarine
8 ounce package cream cheese
2 squares unsweetened chocolate, melted
Dash of salt
3 cups sifted confectioners sugar
1-3 cup cream
1 teaspoon vanilla
Cream butter. Add cheese, chocolate and salt; blend. Add sugar alternately with cream, beating thoroughly after each addition. Add vanilla.

679
by Laura Wheeler

Jiffy-crochet this lovely set for your home. Mix and match colors—it's smart, easy, thrifty!
Crochet pattern 679: Use inexpensive rug cotton to make both lovely bathroom rug and seat cover. Crochet another rug for your bedroom, too. Done in a jiffy! Send 25 cents in coins for this pattern—add 5 cents for each pattern for 1st-class mailing. Send to 124 Pontiac Press Needlecraft Dept., P.O. Box 164, Old Chelsea Station, New York 11, N.Y. Print plainly pattern number, your name, address and zone.

PETUNIA!
Here's a tiny bit of cheese. And a mushroom too—hooray! (The day I clean my icebox out is also Meatloaf Day!)

She says that men don't have to wear trousers, citing the Arabs, Chinese and Scots, and adds that women have demonstrated that they can wear skirts or pantaloons and still remain women.
She notes the senselessness of rules about invariable hats and gloves and handbags. She believes, and I do, too, that there is little point in gloves except to keep hands warm or protected from rough work.
She points out that the sack suit, sign of the successful businesswoman, with its binding jacket, rather tight uncomfortable trousers, is certainly psychologically and physiologically cramping.
All I really want—and I think Mark Twain and Elizabeth Hawes will say amen to have each person (especially me) express individuality by wearing the clothes in which he feels comfortable and happy.
And if the idiots who go in for "chevaux de la reine" trimmed with bands of "guipure" like doing it, I say amen for them, too even though it's all Greek (as well as French) to me.

Two-piece in half sizes! Here it is—your new spring-to-summer dress! That narrow scalloped neckline is very new, very flattering, too. This is the size range designed for the shorter, fuller figure. No alteration worries! Look taller and slimmer!
Pattern 4592: Half sizes 14½, 16½, 18½, 20½, 22½, 24½. Size 16 takes 4½ yards 39-inch.
This pattern easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.
Send 35 cents in coins for this pattern—add 5 cents for each pattern for 1st-class mailing. Send to Anne Adams, care of 137 Pontiac Press Pattern Dept., 243 West 17th St., New York 11, N.Y. Print plainly name, address with zone, size and style number.

Bolster Morale
Have a really pretty umbrella this spring, to ward off showers and bolster morale at one and the same time. Might be white with a carved pink rose as handle.

Cosmetics Trouble to Allergic Boy

Way Can Be Found to Avoid, Overcome 'Stuff They Wear'

By ELIZABETH WOODWARD
"Dear Miss Woodward: Every time I get within two feet of a girl wearing perfume or lipstick I begin to cough and sneeze violently. I'm just plain allergic."
In the last few months I've been asked to numerous parties and dances by different girls but I didn't go with them because the stuff they wear makes me miserable. Do you think I should ask these girls not to wear cosmetics or should I just refuse them and stay at home?
It sounds as though you've already been to the doctor about your allergies since you know what makes you cough and sneeze. A lot of people break out in blotches, choke and wheeze without knowing what causes it all.
An allergy doctor can treat you so that your reaction isn't so violent, and can give you something to take on occasions like dances and parties that will make you less sensitive.
While you're getting your allergy under control you might be wise to turn down invitations for dressed-up indoor social doings. But, so you won't get a reputation for being a woman-hater, think up things to do with the girls outdoors.
Develop a vague sort of sprained ankle when dancing is indicated. But keep it vague enough so it won't interfere with ice skating, ping-pong or going over to a girl's house to watch television.
Since most girls consider perfume and lipstick as necessary as shoes, you'd better get yourself one steady gal. A fresh, scrubbed, outdoor-type who is a good sport and has a big heart.
You can't very well ask all the girls to leave off their war paint as the price for going out with you. But you could persuade one special girl that you adore her unvarnished beauty. If she likes you she'll be sympathetic and cooperative. With her you can have fun, sneeze-free.
"Dear Miss Woodward: A month ago she said she didn't want to see me any more. But now her friends tell me that she does. I'm afraid if I go back to her she'll think she can send me away and get me back at the snap of her fingers.
Should I go back to her or should I play a waiting game and see what she does, or should I forget about her entirely?"
You apparently still like her and would like to go back. But don't gallop back. Call her up just to see how she is. Don't make any dates for a while. Play a tantalizing game to see what she does. Then when you do take her out, don't let it be old-home week. Keep your distance and your independence. If she's not sure you've come back permanently, there will be no snapping fingers in her attitude.

A Cellulose Glue Good for Repair

By HUBBARD COBB
Not so very long ago when you wanted to stick two things together you had a nice choice between flour paste and animal glue.
Well, since then there are a whole lot of new adhesives kicking about and some are good for some things and some are good for others.
Liquid animal glue, casein glue and resorcinol glue are all fine for wood. The animal glue is ready to use but won't stand much moisture. Casein needs mixing and is almost waterproof, while resorcinol is waterproof but tricky to mix.
For fixing up toys, making models and repairing small china items about the house a type of cellulose cement is just fine. It's ready to use and is water resistant.
For heavy jobs about the house such as fastening fixtures to tile wall, replacing brick and fastening objects to metal or glass you can use a rubber base adhesive. This particular adhesive is not too suitable and won't take too much heat.
If you want to copy your kitchen counter or a table top with some of this laminated plastic then you need a contact bond type of adhesive. These are very strong and, as their name implies, grip upon contact.
This means that you don't need any clamps to hold the plastic down while the adhesive sets. The hitch here is that you have to be right the first time — the cement grips so well that it's difficult to move things about after the cement has taken hold.
Another useful adhesive to have around the house is liquid solder. This is easy to apply and is fine for fastening metal wood or glass. The joint is not as strong as with some other types of adhesives but it's plenty strong enough for many household repair jobs.

THE THRILL OF THE SEA . . .

Fact as exciting as fiction hides from human sight under the ocean's waves!

REMOTE CONTROL—The Whirlybird, world's first fully remote-controlled helicopter, goes for a trial spin while its "pilot" works controls on the ground. Developed for the Navy by Kaman Aircraft Corporation at Bloomfield, Conn., the research craft always carries a man aboard to grab the controls if something goes wrong. It flies up, down, forward, backward and sideways.

Faith Buys New Furnace at Catholic Home for Aged

SCRANTON, Pa. (U)—Thanks to boundless faith in its patron saint and to the generosity of sympathetic people the country over, the Maloney Home for the Aged now has enough money to pay for a badly needed new heating plant.

About a month ago, a Little Sisters of the Poor, a Roman Catholic order of nuns, who manage the house, were dismayed to find the two boilers, which supplied heat for 125 residents, worn out past repair. Contractors told them it would cost at least \$25,000 for replacements.

The sisters, sworn to poverty, turned to an unfailing source of riches—their belief. One of the symbols that belief is the image of St. Joseph, their patron saint. They placed a little statue of St. Joseph over the broken boilers, and they prayed to the saint for help.

At the same time they ordered new boilers. Said Sister Superior Martin Marie: "St. Joseph never failed us before and we knew he would help us now."

The story of the home's troubles

got national attention. Money came in—cash, checks, pledges.

Today officials of Dunmore Borough, neighbor to Scranton, called at Maloney Home with \$1,100. Laymen who had lent a hand to the effort said "We've gone over the top—\$25,000 and more, maybe as much as \$30,000 when everything is in."

Sister Superior Martin Marie broke the news to the 125 elderly men and women before noon on Ash Wednesday.

Some of the old people wept. Others prayed. Tears were not long becoming laughter, quiet, grateful laughter.

Wins Bomb Damages

BRIDGETON, N.J. (U)—Leon Fralinger installed a homemade bomb to protect his summer cottage on Delaware Bay from trespassers. Frank Gordon, of Spring City, Pa., an ironworker, says he entered the unlocked cottage in 1951 to get warm and set off the bomb. He lost two fingers. Yesterday Fralinger was ordered in Atlantic County Court to pay Gordon \$2,000 damages.

Some People Waste Life by Counting Everything

By MARGARET LATROBE

Would you believe that the world is full of people who go around counting things?

Roses in the wallpaper—"We got 4,000 big red flowers in the bedroom, with three green leaves to each stem. Let's see, that adds up to 12,000 items—and the next time I'm having petunias and a white picket fence. Gee, that'll keep me busy when I catch the flu!"

Or telephone poles along the country roads. "Want to take a little drive, dear? (One, two, three, four—more fun counting by fours unless you come out with three left over, in which case you carry three to the next string of poles.) It's such a lovely day. Let's drive out past the new housing development (—three, four, one, two, three, four) and see how many new ones are finished."

Or window panes and stair steps. "We have 14 risers on the stairs at home, 42 poles on the bannister and 15 treads. How many have you? The trouble with small-paned windows is that either there are too many or not enough. Imagine setting a row of five! You are constantly having to carry one, and start on the second row all mixed up. Unless, of course, you count by odd numbers—which would be very odd indeed!"

Or cracks in cement sidewalk—humph! Child's play, that's what. Now you take a brick walk—there you have a problem worthy of a fellow's best efforts. This gets into higher mathematics and if you are adept at mental arithmetic, it behooves you to move to a location paved in brick sidewalks!

They say there are folks who don't count—a very strange breed, if you ask me. They don't even know what you are talking about when you tell them that between your place and theirs is a grand total of 84 telephone poles, six brown apartments, two red ones, and one under construction. This one looks like it'll wind up white—then the saints preserve us! What can you do with one white apartment house?

Medical authorities think this counting kick is a psychoneurotic manifestation, probably harmless—then again, it could lead to all

Travel Abroad Said Educational Even if Informal

NEW YORK (AP)—A student travel expert says visits abroad can be educationally rewarding without being a part of a formal academic curriculum.

John E. Bowman, executive director of the Council on Student Travel, yesterday addressed the National Conference on Exchange of Persons sponsored by the Institute of International Education.

Bowman, discussing "teen-age and summer foreign experience," said the values to be gained by travel abroad "bear examination" from an economic, social and educational viewpoint.

Some 700 foreign student advisers from colleges and universities throughout the nation divided into eight groups headed by panel members familiar with various phases of international student or trainee exchanges.

Olaf Olsen, training director of the employee relations department of the Standard Vacuum Oil Co., urged that all foreign students coming to the United States be subjected to a thorough "indoctrination program" to acquaint them with American customs.

The institute is a nonprofit organization administering international exchange programs of students and specialists.

Burglars Crack Safe Jammed for 2 Years

MIAMI, Fla. (AP)—Burglars did the owners of Woodlen Gardens florists a favor yesterday by forcing open a safe that had been jammed shut for two years. The safe was empty and the

burglars didn't get a nickel for their efforts.

They did get arrested, however. Police charged Francis A. Piegli, 31, and Douglas K. Frost, 30, with breaking and entering.

There are only 18 calories in a teaspoon of sugar.

2 of Firm's Executives Pursue License Hobby

CHICAGO (AP)—An American and a Canadian, both executives for the same company, have the same novel hobby. Elmer W. Rietz, export manager for the Powers Regulator Co. of

suburban Skokie, has had Illinois automobile license No. 2398 for 44 consecutive years.

Paul Charles, the firm's office manager at Winnipeg, Man., has been issued provincial license No. 179 for 44 years running.

Each man still has all his plates nailed to his garage wall. The two discovered their similar

interests and compared notes in a recent telephone conversation.

30 Tickets Cost \$1,225

CHICAGO (AP)—Edward Hawthorne, 31, a laborer, was fined \$1.225 for 30 traffic tickets, some dating back to 1951.

TAX LINEUP — As the deadline for filing income tax returns draws nearer, lines at the door of the local Internal Revenue Service office, 53 W. Huron

St., grow longer and longer. The picture above is a typical scene at the office nearly every day.

Local Internal Revenue Office Busy Checking, Filing Income Tax Returns

That headache you feel coming on again will be 42 years old today — but don't feel badly, you're sharing it with an estimated 56 million other Americans.

The headache in point — the federal income tax — became law on Feb. 25, 1913, when Secretary of State William J. Bryan announced in Washington that the necessary two-thirds of the state legislatures had ratified the 16th amendment.

Today, that 36-word addition to the Constitution has developed into the major source of income for the United States, providing nearly half of every dollar Uncle Sam spends.

Collecting all those bucks with which we part so reluctantly is the Internal Revenue Service, which maintains a field office for Oakland County at 53 W. Huron St. in Pontiac.

Right now, the staff there is busy checking and making out returns for area residents who gather in long lines each day to make their contributions to the nation's biggest kitty.

Lyle D. Russell, administrative supervisor of the local office, pointed out that these functions are an extra service to the public, however. The agency's real job is to collect those dollars that some taxpayers forget about when they make out their returns.

The routine work of the office falls into three categories, including:

1 — Examining returns in individual taxpayers for mathematical errors and other obvious mistakes, which result in either over- or under- payment of taxes.

2 — Collecting delinquent taxes, securing returns from individuals who have neglected to report in-

come, and investigating cases of suspected tax fraud.

3 — Checking questionable deductions claimed on returns, and making adjustments in these instances where additional tax is due the government.

Russell added that plans are now being formulated to increase the staff of the local office by adding several special agents. He declined to estimate how much more tax money might be collected by the new men, but a recent statement by a Washington official

indicated that income tax men bring in about 20 times their salaries each year in taxes that otherwise would be missed.

But no matter how you feel, the income tax is still with us, and the easiest way out is just to pay up and forget about it. After all, most of us only have to pay a few hundred dollars every year, but the guy who makes a million bucks only gets to keep \$100,000 or so.

All of which proves it's getting mighty tough to make a million dollars.

NONE BATTER — Harold Wingerter, a geologist at Liberal, Kans., dives into 63 pancakes to see if he can still eat that many. He did once — in a contest while on a summer field course from Northwestern

University — with only water to wash them down. Syrup and butter were out. Since then, he's claimed to be the world's champion pancake eater. Any challenges?

Nixon Raps Cohn-Schine Report

Hits Criticism of U.S. Libraries

USIS Centers Serve Valuable Purpose, Says Vice President

PANAMA (U) — An unexpected thrust by Vice President Richard M. Nixon at some comments on U.S. information libraries in Europe made two years ago by two investigators for Sen. McCarthy (R-Wis) heightened interest in a Nixon speech scheduled today.

The vice president was due to speak this afternoon at ceremonies opening a new U.S. Information Service center here and Panamanians were waiting to see if he had anything more to say on the matter.

Telling a news conference yesterday that he favored expansion of the U.S. library program, Nixon said libraries in Europe received some "undeserved criticisms" two years ago. He did not mention Roy Cohn or G. David Schine by name but left no doubt he was referring to them.

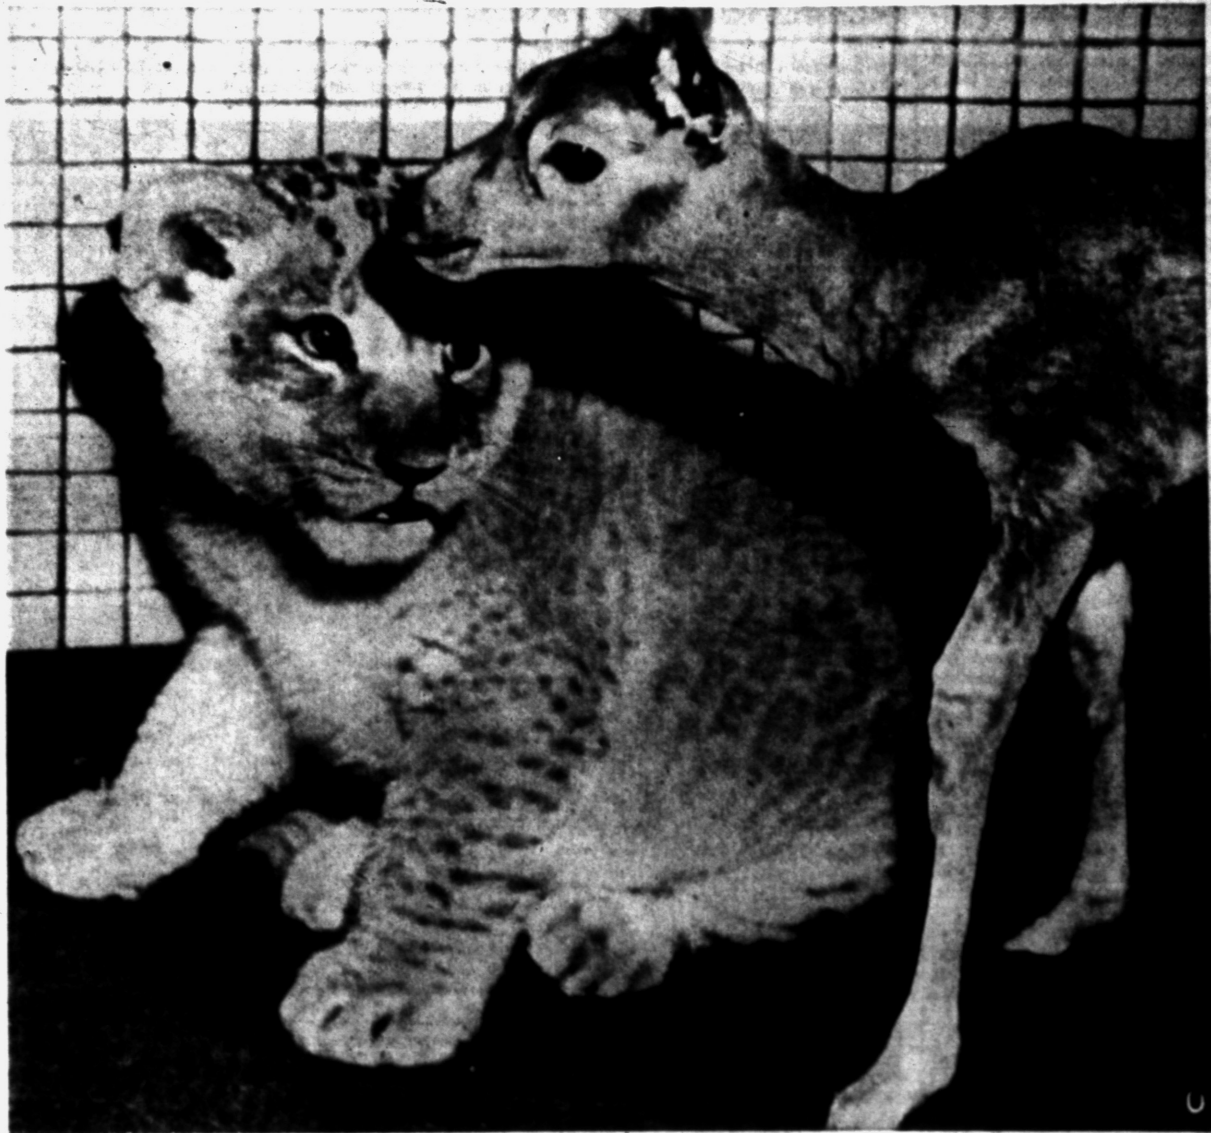

While some phases of the two-year-old report were justified, the vice president added, "such criticism as a whole was undeserved and gave library facilities" a bad name.

Nixon described the libraries as the "solid backbone for our efforts at making friends abroad" and declared the "American people should be told the tremendous value of such programs."

Cohn was chief counsel for McCarthy's investigating committee and Schine was a committee consultant. During a trip to Europe, they told newsmen they had found in U.S. information centers books by authors who had refused to tell the committee whether they had been or were then Communists.

"We feel that U.S. information centers should give a true picture of the United States," Cohn said. He added that they should not contain books "by a bunch of Communist liars who intend to overthrow the government of the United States and wipe the United States off the globe."

The vice president, who is now on a goodwill tour of Caribbean countries, was to be host at dinner tonight to Panama's President Ricardo Arias Espinosa.

FAIR NOW—They're buddies now, but wait till they grow up. This tender scene was recorded recently in Philadelphia's Zoo when a 2-

month-old lion cub and a week-old Indian antelope made their public debut.

Intake Department Expedites County Juvenile Cases

An intake department set up last July to screen petitions asking that youngsters be handled by Oakland County Juvenile Court is paying off in higher efficiency, economy and public relations.

All petitions are now routed directly to James Van Leuven, senior child welfare worker.

"In the past, petitions were taken by anyone available," said James Hunt, director of juvenile services. "This sometimes resulted in cases which could have been disposed of unofficially with less time and effort, being sent through the court."

"Now VanLeuven talks with police officer, school official or individual making the complaint and can determine what type of action is called for."

For example, said Hunt, if parents come in with a child who has a problem, VanLeuven holds a conference with them.

He might decide the matter is best handled through juvenile court or should be routed to a private agency. If a private agency is recommended, VanLeuven contacts it himself and makes an appointment for the persons involved.

"In this way we don't pass the buck," Hunt stated. "We make sure the other agency can help and that the people get to it."

If the case is accepted by the county group, it is assigned to a worker for investigation and processed for court.

When VanLeuven receives a complaint from police, he contacts them immediately to get their views on how the case should be treated.

If it's decided the youngster will be handled unofficially, there is no court hearing and no court record.

"A significant number can be adjusted through off-the-record action," Hunt explained. "But if they weren't screened through the intake department, many would appear in court."

As an example, VanLeuven recalled one youth who had been truant from school. "In screening the application, I discovered he didn't want to attend school be-

cause he lacked proper clothes.

"We secured clothes from the Salvation Army and he's attended regularly since. If we had just taken the complaint, he would have appeared in court where the cause probably would have been discovered, but at loss of time and effort for all concerned."

With all petitions coming through one point, court record keeping is simplified and valuable statistics can be gathered, Hunt pointed out.

"If it's obvious during screening that a youth has an emotional problem and needs clinical help, we arrange that immediately," the director stated.

A similar intake department was set up Jan. 1 in the neglect and dependency department under direction of Mrs. Rosalind B. Hill, county agent.

Mrs. Hill makes the same official - unofficial decision. "Many times a family needs only temporary Salvation Army help, while in other cases neglected or dependent children must be placed in an agency through official action," said Hunt.

1,000 Japanese Vie for Votes in General Election

TOKYO (U) — More than 1,000 Japanese politicians who differ more in methods than purpose are appealing for votes in Sunday's general elections.

An anticipated 75 per cent of Japan's 49 million eligibles will vote, possibly deciding which direction the country will take in the cold war struggle between East and West.

Prime Minister Ichiro Hatoyama and his Democratic party advocate stronger trade ties with Communist China. They are also pushing for the restoration of relations with the Soviet Union.

Crusty old Shigeru Yoshida, deposed by Hatoyama last December after six years as premier, says that would bring Japan closer to the Communist orbit.

Hatoyama, proclaiming strong friendship for the United States, which purged him from public life after World War II, implies he may seek revision of the constitutional ban on rearmament.

Both Hatoyama and Yoshida are seeking Diet seats, all 467 of which are to be filled.

U.S. May Quit Obeying Truce Due to Buildup

WASHINGTON (U) — The United States and its Korean War allies eventually may denounce armistice limits on the size of forces because of Communist violations.

The United States has accused the Chinese and North Korean Reds of introducing jet airplanes into North Korea contrary to provisions of the July 1953 cease-fire agreement. Similarly, officials say the Reds have increased their total strength and otherwise violated provisions designed to keep Communist and United Nations forces in about the ratio which existed at the end of the fighting.

To counter this buildup, some officials feel it may be necessary to declare the limitations invalid and meaningless. Presumably that would mean putting into South Korea later types of weapons—particularly jet planes—than those which were there at the end of the war.

Representatives of the United States, South Korea and 15 other nations which fought in Korea met at the State Department late yesterday.

The United States advised the others that the U.N. Command was gravely concerned over the Communist buildup.

U.S. Helps Refugees

UNITED NATIONS, N.Y. (U) — The United States has recently given eight million dollars for U.N. relief to Palestine refugees in the Near East and has announced a new pledge of \$4,700,000 in addition to the 12 million pledged last year.

U.S. May Quit Obeying Truce Due to Buildup

WASHINGTON (U) — The United States and its Korean War allies eventually may denounce armistice limits on the size of forces because of Communist violations.

The United States has accused the Chinese and North Korean Reds of introducing jet airplanes into North Korea contrary to provisions of the July 1953 cease-fire agreement. Similarly, officials say the Reds have increased their total strength and otherwise violated provisions designed to keep Communist and United Nations forces in about the ratio which existed at the end of the fighting.

Watts Raps Traffic Violator Fining System

DETROIT (UP)—Veteran Traffic Judge John Watts said today the present system of fining traffic violators is outdated.

"I hope to see the day when suspension of driving privileges replaces fines altogether. It seems that a fine is just a means of a bad driver buying the right to drive," Watts said.

Watts said the longer written tests which Michigan started giving to drivers last month was only "a start in the right direction" towards keeping dangerous drivers off Michigan highways.

He said rejections of license applications have doubled in Detroit since the number of questions in the written examination was doubled.

"The written examination merely assures that new drivers are familiar with the rules of the road," Watts said.

However, he said most applicants who fail on their first try pass the examination on their second attempt.

He said stiffer penalties for moving violations, wider use of high school driver's training

courses, photographs on licenses, and practical tests for license applicants are "musts" if Michigan's staggering traffic death toll is to be reduced to any great degree.

Watts said most schools in Michigan offer driver's training courses, some consisting only of classroom lectures and others with actual operation of vehicles.

"There has been talk of making driver's training in high school mandatory," he said. That's too extreme because there are many students who aren't interested in

driving. But I do think students who want a driver's license should be required to take the high school training."

The judge said traffic court makes use of practical tests to determine whether a violator should be permitted to continue driving. The tests include braking reaction, scope of horizontal vision and depth perception.

"These practical tests are an important part of our traffic clinic and tell us how qualified a person is to drive," Watts said. "They are invaluable and the day is not too distant when they

will be required of all license applicants."

He said photographs on driver's licenses would prohibit use of the licenses by other persons, stressing that many persons who are not qualified to drive merely "borrow" a license when they want to get behind the wheel.

"The longer written examination requires a person to learn the rules of the road," Watts said. "Now we have to get rid of incapable drivers and drivers who know the rules but refuse to follow them."

Spotlight on Milford and Clarkston Tilt

Clarkston and Milford hold the high school basketball spotlight on the final night of the regular season as these two highly regarded Class B clubs battle for the Wayne-Oakland championship at Milford.

Each has lost only two games all season. Milford has won 13, one more than Clarkston. Their league

records are identical, 10-1. Milford's loss was to West Bloomfield at Keego Harbor. Clarkston bowed on its home floor to Milford.

An overflow crowd is expected to flood the tiny Milford gym for the contest.

Titles also will be determined in other area leagues. Southfield and Berkley are favored to win and thus share the Inter-Lakes championship. Both are on the road, however, and upsets in either game are far from out of the question.

Berkley plays at Walled Lake and Southfield meet Farmington, which owns a 10-5 record and a 5-game winning streak. Southfield carries an 11-4 mark, with eight straight victories to Farmington.

Berkley's record is 10-4, while Walled Lake has been in-and-out at 8-7. In the other I-L game, Waterford, fresh from its non-league upset of Milford, goes to Van Dyke.

Birmingham bids for its 11th straight victory and first place in the Eastern Michigan League at East Detroit. Roseville, which has 10 straight, is favored to topple Avondale and keep the Oakland-Brown all to itself.

Utica, Almont and Inlay City all have titles assured in the Bi-County, Southern Thumb and South Central Leagues, respectively, and will win outright if they get by tonight's games.

In tonight's other pre-tournament action, Rochester (10-5) goes to Lake Orion (5-10); Northville is at West Bloomfield (7-7), as Sam Minard's club bids for a finish over .500; Holly plays at Clarendonville; Troy (10-5) is at Clawson (0-15) and Ortonville (1-14) travels to North Branch.

The schedule:

Day City in Pontiac; Waterford at Van Dyke; Berkley at Walled Lake; Southfield at Farmington; Northville at West Bloomfield; Clarkston at Milford; Holly at Clarendonville; Rochester at Lake Orion; Lapeer at Romeo; Avondale at Roseville; Troy at Clawson; Farmington at Madison; Birmingham at East Detroit; Hazel Park at Ferndale; Mount Clemens at Owosso; Ortonville at North Branch; Inlay City at Mayville; Highland Park at Royal Oak; Shirine vs. Chas Tech at UD; Lake Shore at Utica; Eastland at Warren; Center Line at South Lake; Almont at Cape; Brown City at Armada; New Haven at Memphis.

Davidson Near County Prep Scoring Title

Eaglet Ace Pernicki Makes Top Advance of Past Week

Barring a complete reversal of form in his team's game against Clarkston, Milford's Jim Davidson should clinch the prep basketball scoring championship of Oakland County tonight.

The slender Redskin forward has accumulated 298 points in 18 games. His 20 points against Waterford Tuesday kept his season-average at 19.3. Jim Simer of Madison remains 2nd at 18.3, just a shade over Lionel Bradley of St. Freds.

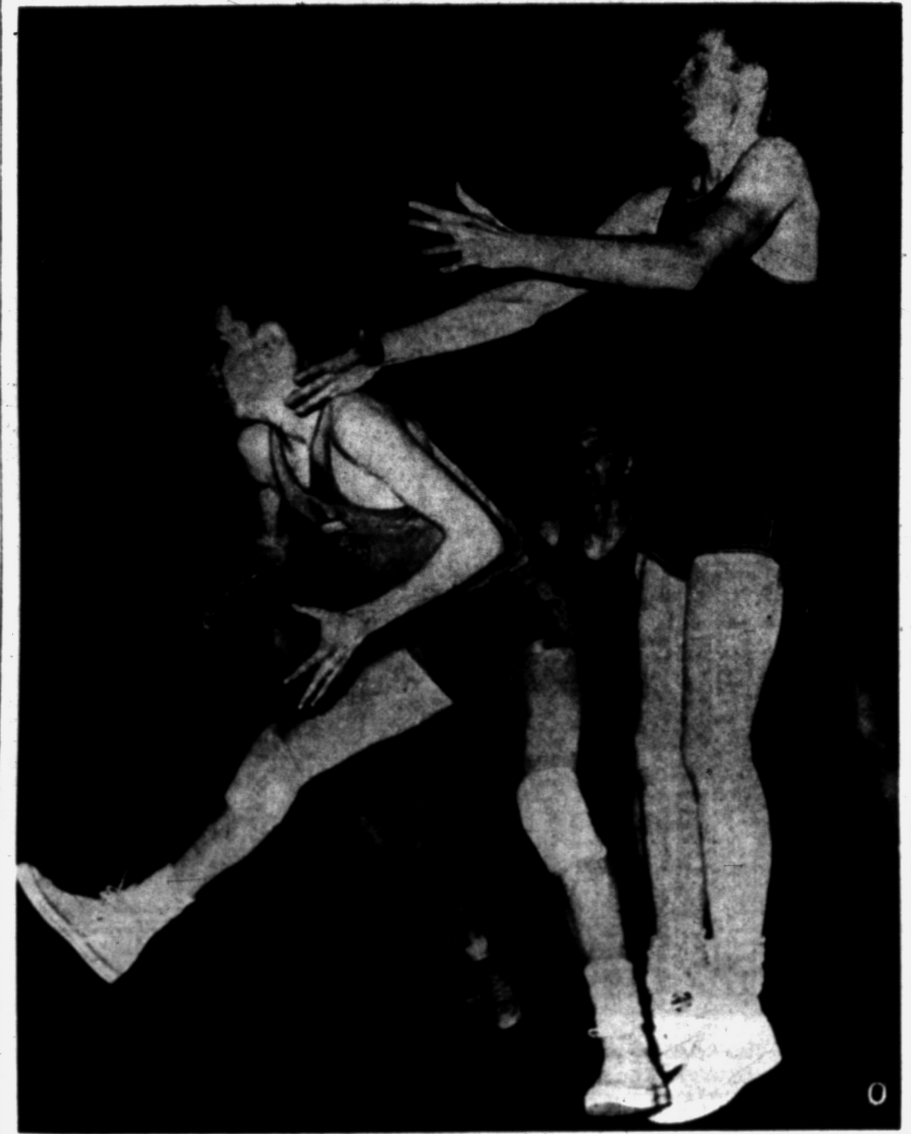

The biggest rise of the past week was made by Orchard Lake St. Mary star Vince Pernicki. He tossed in 47 points in 2 games to wind up the regular season with a 18.7 average, good for 6th place.

Most of the leaders still have at least one game to play. Royal Oak's Bob Kelly re-appeared among the top 10 by getting 37 points in 2 games to reach the 15-point mark and 9th place.

Here is this week's top 10:

Player	Points	Games	Avg.
Jim Davidson, Milford	298	18	16.5
Jim Simer, Madison	298	18	16.5
Lionel Bradley, St. Freds	298	18	16.5
Tom Gould, Milford	298	18	16.5
Hugh Kirk, Shirine	298	18	16.5
Vince Pernicki, O.L. St. M.	298	18	16.5
Don Troy, Shirine	298	18	16.5
John Keller, St. Mary	298	18	16.5
Bob Kelly, Royal Oak	298	18	16.5
Bob Evans, Southfield	298	18	16.5

*Season complete
*Doesn't include Thursday game

LOW BRIDGE — Marty Keller, St. Michael player had just grabbed a 4th period rebound off Oxford Hugh's backboard, Friday night, as the Press camera clicked. The long individual with the surprised stance, is Oxford's Dwight Spiker. It was a

case of "low bridge" for Keller, who ducked under Spiker's outstretched arms to keep possession of the ball. Shamrocks' Bob Anderson is in the background. Shamrocks surprised Oxford with a 51-48 victory.

Hart in Masters Court Feature

Defending Champions in Jacksonville Test Eye Final Rounds

JACKSONVILLE, Fla. (U-P) — Doris Hart of Coral Gables, Fla., National Women's Champion, met Mrs. Georgia Johnston of Jacksonville in today's feature match of the Masters Tennis Tournament.

Thursday, she defeated Mary Taylor of Jacksonville 6-0, 6-1. Herb Flam of Beverly Hills, Calif., moved into the men's semifinals with an easy 8-6, 6-1 victory over Lonnie Jordan of Montgomery, Ala.

Jerry DeWitts of San Francisco and Ulf Schmidt of Stockholm, Sweden, also made the round of four. Schmidt beat Don Platt of Toronto, Ont., 6-4, 6-0 and DeWitts eliminated Allen Quay of the University of Miami 7-9, 6-4, 6-1.

Art Larsen of San Leandro, Calif., top seeded and defending champion, reached the semifinals Wednesday.

Coach Gets New Pact With Praise for Work

PROVIDENCE, R. I. (U-P) — Alva Kelley, Brown University football coach, has been given a new 5-year contract.

The university announced Wednesday night that the new pact "came as a result of the splendid work that has been done by Kelley and his staff since their arrival at Brown in 1931."

The Bruins compiled a 6-2-1 record last fall.

Santa Anita 1954 Winner Looms as Favorite Again

ARCADIA, Calif. (U-P) — The \$100,000 added Santa Anita Handicap comes up for its 18th running Saturday and the probable favorite may be the 1954 winner. Rejected, racing under the chocolate brown silks of the King Ranch of Texas.

A field of around 14 candidates was expected to be named through the entry box today.

Probable starters include Rejected, Determine, Poona II, Por-

'No-Raid' Pact Set Up

WASHINGTON (U-P) — A pioneer "no-raid" agreement between the Washington Redskins and Calgary Stampede pointed the way today toward an end to the feud between professional football clubs in Canada and the United States.

Commissioner Bert Bell of the National Football League hailed the agreement as "a step in the right direction." He called on other clubs on both sides of the border to follow the lead and end the play-

er raids.

Attorneys for the two clubs signed the agreement Thursday night, at the same time settling a \$50,000 damage suit brought by the Redskins against Stampede Coach Jack Hemminger for luring away two Redskins tackles.

Bernard Nordlinger, an attorney for the Redskins, said Calgary agreed to pay a "substantial" sum to settle the case out of court, but

66 Tops by One Demaret Is Surprise Houston Open Leader

HOUSTON, Tex. (U-P) — Jimmy Demaret, who has broken par only six times in 25 rounds in the 8-year-old Houston Open, was the surprising leader today as the second round began in the winter tour's richest tournament.

Demaret took four strokes off par on the back nine Thursday to post a six-under 66 for the 7,200-yard Memorial Park Course. He was among the early finishers and few thought the score would stand as the day's best round.

But Ed Furgal, the National Open Champion from St. Louis, was the only other player to match Demaret's 32 on the final nine and

for the first time in the history of the tournament the colorful Jimmy led the field.

The 66 left Demaret one stroke ahead of Bill Trombley of Dallas. Tied at 68 were Furgal, Jack Burke Jr., who works with Demaret at Kiamesha Lake, N.Y., and Wesley Ellis, young Riverside, N.J., pro making his first swing of the winter tour.

The 44-year-old Demaret and Burke were born and raised in Houston and are familiar with practically every tree and gully on the sprawling Memorial Course. Burke won the tournament in 1932 but victory always has escaped Demaret in the Houston Open. He finished 73rd last year.

But he had his putter working beautifully Thursday.

He missed five greens on the front nine but made the turn with a two-under 34 by taking birdies on the first green with a 25-foot putt and on the eighth with two putts.

4 Sports Pages in Today's Pontiac Press

Morgan hailed the agreement and said he was relieved at the decision that he could play in Canada.

Modzelewski dubbed himself the "black sheep" of the ruckus and said "everyone gets to play where they want to but me. I don't want to play any more in Washington, but if I have to go back I guess that's it."

He expressed hope he would be traded to the Pittsburgh Steelers.

As part of the agreement, the Redskins also get to keep quarterback Eddie LeBaron and end Gene Brito, who jumped to Calgary a year ago and jumped back at the close of last season. Both clubs claimed rights to the two.

Marciano Likely Will Defend His Title Against England's Don Cockell in San Francisco in May

NEW YORK (U-P) — Everything is set for Rocky Marciano to defend his world heavyweight title against Don Cockell, a pugny Englishman. Thursday, May 19 at San Francisco's Kezar Stadium. Only the formal signing remains.

All the financial details were ironed out Thursday at a conference in the office of Jim Norris, President of the International Boxing Club. Marciano will get 40 per cent, Cockell 20 per cent of gate receipts and any extra TV or movie money.

Marciano was due down from camp at Grossinger, N.Y., to sign the papers before the British heavy weight and his party return to England. They are booked to sail Saturday.

In case Cockell should upset the champ, there is a rematch clause in the agreement, calling for another match within 90 days with each fighter getting 30 per cent.

Fisher, Pontiac 5s Win Union Playoffs

Fisher 596 and Pontiac 653 won first round playoff victories in the UAW-CIO basketball league playoffs at Eastern Junior High School Thursday night.

Fisher's routed Milford, 74-16, as Goldsworthy collected 18 points. Local 653 outlasted a 4th quarter rally to trip General Motors Truck 594, 47-44.

Morris had 16 points for 653, while GMT quintet was led by Fisher with 11.

Lafayette in NIT, Too

NCAA Left in Cold in New England as Uconns Join Holy Cross in NY Test

By THE ASSOCIATED PRESS
Somebody had stole the New England "champion" right out from under the noses of the NCAA basketball tournament committee and all the NIT can say in defense is "who, me?"

The NIT, once again engaged in its cold war with the NCAA, popped the question to Connecticut Thursday and got an acceptance to its 12-team tournament at Madison Square Garden March 12-19. The NCAA made it an eye for

an eye, however, by getting a "yes" from Memphis State just an hour before the Memphis dark-horse (17-3) received an NIT invitation.

With Connecticut in the bag, the NIT needs but two more teams to round out its field. The other entries are Holy Cross, the defending champion, Duquesne, Dayton, Niagara, Manhattan, St. Francis (Pa.), Cincinnati, Lafayette and Louisville. Lafayette came in with Connecticut Thursday.

The other teams apparently are destined to be runners-up from conferences that send their champs to the NCAA.

Now that Connecticut (20-3), an NCAA entry last season, and Holy Cross (17-6) are unavailable, the NCAA has a problem on its hands in picking the "New England Champion" called for in its eastern regionals. The Uconns and Crusaders are the class of New England.

The "champ" will have to be either Williams (14-1), Amherst (13-4), Tufts (10-6) or Rhode Island (12-9). Amherst and Williams could be the leading contenders and Amherst was the team that spilled Williams 68-60. They meet again March 5.

Nashua, Prince Noor, Doge Are Top Flamingo Entries

MIAMI, Fla. (U-P) — Nine and possibly 11 names, representing the country's best 3-year-olds, go into the entry box at Hialeah Park today for Saturday's mile and a furlong Flamingo Stakes.

If all 11 go to the post, this important test for Triple Crown candidates will have a gross value of \$139,800, with \$102,800 net to the winner.

Nominations closed last Dec. 15 with 89 at \$200 each. Owners must put up \$1,000 more to enter and another \$1,000 to start. The track adds \$100,000.

Air lines and railroads reported a heavy influx of visitors and Hialeah officials expect last year's record 34,948 Flamingo crowd to be exceeded.

Belair Stud's Nashua, champion 2-year-old of 1954 owned by William Woodward of New York, was even money choice. Sunny Jim Fitzsimmons, who has been training horses for most of his 80 years, calls Nashua "a better prospect than any 3-year-old I've ever had."

His chief competition is expected from Hasty House Farms' Prince Noor, winner of the Everglades, and Paul Andolino's unbeaten Boston Doge, winner of eight straight. Amber's Folly carries the silks of Eugene Constantine Jr. of Dallas, Tex., and Cup Man races for Paul Mellon's Rokeby Stable of Upperville, Va. Mrs. Elizabeth Graham brought Apollo from California several weeks ago and this colt will add a Far West flavor to the race.

Other likely starters are Mrs. Marion du Pont Scott's Saratoga, at 6 to 1 behind Boston Doge at 4 to 1; C. F. Morris' Munchausen and C. V. Whitney's Little Dell.

The 1955 edition of the Flamingo, which originated in 1926 at Tampa Downs as the Florida Derby, will be broadcast and televised nationally over CBS from 4:45 to 5 p.m. (EST).

Barbers Hold Table Net Lead

Barnfather Tops Rival Saunders in Leading Match Thursday

PONTIAC TABLE TENNIS ASSOC. Pts.
Capitol Barbers 68 Short's Variety 21
Furney Drug 66 Pontiac Varnish 29
Post, & Berry 60 Huron Market 29
China City 28 Fleet Carrier 24

Capitol Barbers had a 4-point lead in the Pontiac Table Tennis Association today after sweeping 6 points from Fleet Carrier Thursday night, while second place Furney Drug was splitting with China City, 3-3.

Pontiac Cigarette Service pulled within 2 points of Furney's by downing Huron Market, 5-1. Pontiac Varnish and Short's Variety tied, 3-3.

Sid Barnfather of China City defeated Jerry Saunders of Furney's, 21-19, 21-19, in the night's feature match. In an outstanding women's match, Ellen Tiffany of Pontiac Varnish tripped Patty Stoutenberg, 19-21, 21-19, 21-14.

Everett Faunce Named Utah State Grid Head

SALT LAKE CITY (U-P) — A slight young man who terrorized Big Ten opponents in the late 1940s Wednesday was named head football coach at Utah State Agricultural College.

He is Everett George Faunce, 28, called Ev by his football opponents when they could get within hailing distance.

W. Va. Tech Top Small College in Cage Scoring

NEW YORK (U-P) — West Virginia Tech, not even listed among the leaders a year ago, practically has a new small college team scoring record all wrapped up as the basketball season hits the final stages.

Through games of Wednesday, Tech averaged 108.9 points a contest while running up a 15-4 record. That's well beyond the reach of runner-up Baltimore 98.7 and away beyond the present season record of 96.7.

Tech also has the small college individual scoring lead according to NCAA Service Bureau Statistics through last Saturday with George Swyers averaging 35.2 points a game.

Canadian Pro Club Signs Texas Gridder

HAMILTON (U-P) — Coach Carl Voyles of the Hamilton Tigercats said Thursday he has signed Franklin Bons, 190-pound end from Austin College, Texas, for the 1955 Big Four Football League season.

Voyles also confirmed reports that Tiacs have acquired Austin quarterback Don Watson, bringing to four the number of players from the Texas College signed by Hamilton. The others are center Jack Taylor and tackle Ken Durham.

World's Best Amateurs in Puck Title Action

BONN, Germany (U-P) — The world's best amateur ice hockey teams go into action today in what probably will become one of the most hotly contested world championships in history.

In the next 10 days teams from the United States, Canada, Russia, Czechoslovakia, Sweden, Switzerland, Poland, Finland and Germany will play for the title, now held by Russia, in a round robin tournament.

Hawkeye Fans Get Look at Kramer in Basketball

IOWA CITY, Iowa, (U-P) — Ron Kramer is only a Michigan sophomore but he has earned a large measure of greatness by Iowa athletic standards.

Last October the 210 pound Kramer, as an end, caught a 29-yard touchdown pass and kicked the deciding extra points as the Wolverines upset Iowa, 14-13 in football.

Saturday afternoon the Iowa basketball team will get its look at the versatile Kramer.

A share of first place in the Big Ten Conference rests on the outcome. A half-game out of first now, an Iowa victory would put the

choice is, the team will play Canisius in a first-round tripleheader at Madison Square Garden March 8. The card also will feature LaSalle, the defending NCAA champ, that became the official Mid-Atlantic Conference choice Thursday, vs. the Northern Conference champ and Villanova vs. the Atlantic Coast Conference winner.

Both the Southern and ACC play tournaments next week to determine their champions. If North Carolina State, on probation by the NCAA, wins the ACC title, however, the runner-up will make the Garden date.

The tripleheader winners advance to Philadelphia's Palestra March 11-12 along with the Ivy League champion, probably Penn, to determine the East Coast king.

Another first-round elimination is set for Lexington, Ky., March 8 with the Mid-American Conference champion jockeying with three at-large choices — Memphis State, Penn State and Marquette, the team with the longest winning streak after making Notre Dame its 21st consecutive victim Thursday night 84-74.

Marquette Nabs 21st Straight Cage Victory

Notre Dame Is Beaten, 84-74; Floyd Hits 56 in Furman Rout

By THE ASSOCIATED PRESS
You can't beat consistency and if Marquette's Warriors aren't the most consistent outfit in college basketball this season they'll do until something better comes along.

The Warriors, No. 5 in this week's Associated Press poll, collected their 21st consecutive victory last night by defeating Notre Dame 84-74. It wasn't quite as easy as some of the others, but Marquette still has the season's longest winning streak in hand after dropping its opener to Michigan State.

Notre Dame had a 37-25 lead at the half and was holding on for a 49-49 tie before Don Walczyk's two foul shots put the Warriors out front to stay with 11 minutes to go.

Walczyk was high with 27 points. Maryland and Georgetown got involved in a double-overtime scrap, finally won by the Terps 57-49 as Georgetown managed only a single point in the second extra period.

Furman, the nation's top scoring team, sank 47 field goals—seven more than Maryland and Georgetown combined—while clobbering Clemson 124-87 in its final regular season game.

Darrell Floyd, leading major college scorer, had 56 points as the Paladins went over the 100 mark for the 12th time in 26 games. They ended with a 17-9 record.

West Coast Women on Pan-Am Team

FORT LAUDERDALE, Fla. (U-P) — Two California women divers have won positions in the Pan American swimming trials at Mexico City March 12.

Mrs. June Stover Irwin of the Pasadena Athletic Club and Paula Jean Myers of Los Angeles outscored Gail Benton of the Los Angeles Athletic Club Wednesday in dives from the 10-meter board.

Together with defending champion Pat McCormick of Los Angeles Athletic Club, June and Paula will compete in Mexico.

Hawkeye Fans Get Look at Kramer in Basketball

It is the Hawkeyes' last home game of the season and their third appearance on the Big Ten's basketball television series (CBS). Game time is 3 p.m. (EST).

Kramer, a 6-foot-3 center with No. 27 on his jersey, ranks eighth in conference scoring with a 19.3 average.

PHS Five Shoots for 5th Valley Victory

Babe Sees Foe Shine in Open

Suggs Shoots 6 Under Par to Capture Lead, as Virus Strikes Babe

SARASOTA, Fla. (U.P.)—Louise Suggs was riding high in the Sarasota Women's Open Golf Tournament today while her old rival, Babe Zaharias, sat on the sidelines, a victim of illness and exhaustion.

The Babe, in bed with a virus attack the first three days this week, struggled through Thursdays opening 18 rounds. Then her husband, George Zaharias, said she was withdrawing from the tournament on doctor's orders, but that she would resume her golfing "after a good rest."

Miss Suggs zipped over the 6,282-yard par-74 Bobby Jones course in 67. She had a 3-stroke lead over Betty Hicks of Palm Springs, Calif.

Miss Suggs sank a 40-foot put for an eagle, piled up five birdies and was never over par for any hole.

Lone Survivor Still Tagged Dog to Beat

GRAND JUNCTION, Tenn. (U.P.)—Lone Survivor, veteran pointer of the field trial circuit, was still tagged today as the dog to beat in the National Bird Dog Championship.

Survivor, owned by Dr. E. R. Calame of Jonesboro, Ark., turned in a near flawless eight-bevy hunt Wednesday to become a favorite in the nation's top field trial.

Kilsyth Rusty Doone, owned by Mrs. Gerald Livingston of New York and Quitman, Ga., led the pack in Thursday's run.

AP Wirephoto

A MASS BREAK—A group of Pittsburgh Pirates farmhands practice breaking from base Thursday under the coaching of Ray Welch (83) of Stroudsburg, Pa., at the club's training base at Ft. Myers, Fla. Going through the pitching motion in the foreground is Bob Wade of Los Angeles. Welch was hired by the Pirates to teach rookies the proper method of running and breaking from bases.

Shooting Dog Champ Selection to Begin

UNION SPRINGS, Ala. (U.P.)—Finals in the National Shooting Dog Championship are expected to begin today after the last of 56 entries finish morning qualifying runs.

Eight dogs will be put down in four braces to finish the 45-minute qualifying hunt from which judges pick the best dogs for final title tries.

The National Shooting Dog Champion will probably be named Saturday after 8 to 12 finalists finish their 90-minute payoff performances.

Shamrock JV's Drop Title Tilt in Overtime

St. Michael's High School reserve basketball team lost the 2nd Division JV championship game at Holy Redeemer gym Thursday night in a 46-44 overtime thriller to Grosse Pointe St. Paul.

The junior Shamrocks led 41-40, but a St. Paul foul shot tied the score with 10 seconds of regulation play remaining. The Grosse Pointers collected a 5-3 advantage in the overtime.

Chuck Brown had 15 points for St. Mikes.

Olympic Ski Jump Trials Set in U.P.

IRON MOUNTAIN, Mich. (U.P.)—A pair of teenagers, Rudy Maki of Ishpeming, Mich., and Ragnar Ulland of Seattle, head a group of sensational young stars who are expected to make it hot for veterans in Olympic ski jumping try-outs starting today.

A field of about 40 of the nation's best jumpers, including all six members of the 1952 Olympic team, will compete in three days of intense trials for six spots on the U.S. team that will be sent to the 1956 winter Olympic games at Cortina, Italy.

Both tackle Walter Jenkins and halfback Vic Zucco of Wayne were named to Michigan State Normal College's All-Opponent football squad.

Tonight's Tilt on Home Floor Next to Last

Wolves Figured Tough Foe, but Chiefs Rate as Favorites

SVL STANDINGS

Coach Art Van Ryzin's hopeful basketball Chiefs tonight set their sights on the Saginaw Valley Conference 3rd spot, and incidentally on their 5th Valley victory. Just now, going into the game here against Art Paddy's Bay City Central Wolves, Chiefs stand at stalemate (4-4) in Valley status.

A win would assure Pontiac of 3rd place, whatever happens in the season's finale here, next Friday against the league champs, Arthur Hill. The Hills club has already nailed down the title.

"We're going to win this one," Chiefs' mentor declared this morning. "We have to win it, if we take 3rd place alone."

While Van Ryzin expects a hard battle with the Wolfpack, he was confident his club would come through okay.

Chiefs should be given the favorite's spot in this encounter because of the record. But that's something that doesn't always work out that way, like the upset win the Wolves hung on Saginaw, Tuesday night, 73-71.

Early in the season Pontiac took the measure of Bay City in the Wolves' own gymnasium, 33-26, in one of the Chiefs' lower-

Two Important Archery Events Set for Pontiac

A busy season awaits the Pontiac Archery Club as the 1955 field archery season will find two of the state's three biggest tournaments being held on the club's range in the Pontiac Lake Recreation area.

The National tournament will be held at Ludington, but the Metropolitan Archery Association championship and the Michigan Archery Association shoot are slated for Pontiac.

These two affairs, along with the annual Tom Grove Fun Shoot, will total 1,000 archery registrations.

The season starts April 17 with a 6-target tourney. Tournaments also are listed for May 15 and June 5.

The National Field Archery test will be at Ludington, July 25-28.

On Aug. 14, the Metro Association event will be at Pontiac and on Aug. 28 it's the Michigan Archery Association tourney. The Tom Grove Fun Shoot is listed Sept. 5 (Labor Day).

The season winds up with a broadhead shoot, Sept. 28, which should get hunters ready for bow hunting, Oct. 1.

These two affairs, along with the annual Tom Grove Fun Shoot, will total 1,000 archery registrations.

Shamrocks Edge Oxford in Hot Battle

Braves Clinch Jr. High Title

Down Lincoln, 47-37, for 3rd Championship in 4 Years

Em Ghianni's Washington Junior High school basketball team clinched the City Junior High championship for the 3rd title in the last 4 years Thursday by beating Lincoln, 47-37, on the Rail-splitters' floor.

The victory gives the Braves a 7-1 record. Their only loss was to Eastern. In 4 seasons, Washington has compiled a 37-3 record, with all 5 losses to Eastern.

ern. Thursday's game was close for 3 quarters.

Then the Braves stole the ball on several occasions and piled up a winning margin. Henry DeWalt had 17 points for Washington and Charley Barge added 12, but Lincoln's Walker was high for the game with 20 points.

In the other league game Thursday, Jefferson defeated Wever, 38-13, with Larry Douglas and Gene Lawson each netting 10 points.

WASHINGTON 8 9 11 14 42
LINCOLN 7 11 9 11 37

Won on Gift Basket

IONIA, Mich. — After losing its first six games, Ionia High School scored a one-point basketball victory — with the help of a gift. The winning margin came on a shot into the wrong basket by a Greenville substitute. The final score was 49-48.

Triple-Header Cage Tilt, Banquet for Harper Visit

VIVIAN CAIN
Henry Harper's 3rd annual visit to Pontiac will be a big affair, again, Saturday night. The former PHS athletic star and later a Western Michigan College athlete, brings two basketball teams from Peoria, Ill., plus an old-timer quintet with which he will play. A banquet will follow the games, in Jefferson Junior High School.

The Peoria cagers represent the Carver Community Center of which Harper has been director for many years, following a similar tour of duty with the now non-existent Southwest Community Center here.

Plans for the affair call for a preliminary game between the Pontiac Debs (Phyllis Smith, Jewell Reeves, Joyce Owens, Evangeline Crabtree, Laura Ballard, Dolores Ramsey, Hardy Cowart, Alice Yeargins, Dorothy White, Gloria Austin, Mignon Thomas, Ruth Pilgrim and Selma Gross) and the Peoria Lionettes. A former Pontiac girl, Mrs. Octavia Vivian, plays with the Lionettes.

At 8 o'clock Pontiac City League Nomads play the Peoria Lions. The feature, at 9 p.m., is the old-timers battle. Nomads' lineup will include Hubert Price, Willie DeWalt, Jim Patterson, Bob Devine, James Jenkins and Joe Mendoza. Peoria's top ace is Jerome Cain, high scorer and playmaker. Pontiac's old-timers will have Art Branner, Bob Seay, Dave Simmons, Hubert Taylor and Bill Garland as its nucleus.

Prep Cagers Put on Probation for Quitting Game

LANSING (UP) — The Whittemore, Mich., high school basketball team was placed on probation today for walking off the floor before completing a game with Tawas High School.

The Whittemore superintendent and coach were censured.

M. J. Turck Jr., superintendent, also was told he can't watch the team play any more this season.

Turck admitted to state officials yesterday he was a little "emotional" when he ordered coach Edward J. Dudo to take the Whittemore team off the floor with a minute and a half remaining in its Class D game with Tawas Feb. 15.

Turck said he was angry at the "rough tactics" being used during the game and felt it "unwise" to continue the contest.

Whittemore, which had won 12 straight games, was behind 48-34 at the time of the "walk-off."

Lake Becomes Manager

OAKLAND, Calif. (AP) — Eddie Lake, former Detroit Tigers infielder, says he has signed to manage the Spokane, Wash., club in the newly formed Northwest Baseball League.

Lake played with the Oakland Oaks after leaving the major leagues. The Northwest league replaces the Western International, which broke up last year.

Al Benton Sought on Check Charge

DETROIT (UP) — Alton Benton, former Detroit Tiger pitcher, was sought by Detroit police today on a bad check charge.

Recorder's Judge Paul E. Krause issued a warrant for Benton's arrest after he was identified by a car salesman as the man who made a down payment on a car with a bad check on a Detroit bank and never returned.

Benton had no account at the bank. Benton's present address was unknown but it was believed he was living somewhere in Oklahoma. He is a native of Wayne, Okla.

Champagne Golfer

IPOH, Malaya (AP) — W. H. Downs, manager of a rubber estate, shot a hole in one on the 180-yard second green at the Sungai Patani golf club here. He paid the traditional penalty of buying champagne for every member of the club.

Final Period Rally Leads to 51-48 Victory

Anderson's Free Shots Margin as St. Mikes 5 Wins 13th Game

A rally in the final three minutes brought St. Mikes' basketball team, which had trailed throughout the game, from behind for a 51-48 victory over Oxford in the Pontiac High School gym Thursday night.

It was the 13th victory in 15 games for Bob Mine-weaser's quintet and the loss ended Oxford's regular season play with 10 wins and 6 defeats. Both will compete in district tournaments at PHS next week.

Larry Spencer's outside shooting and driving and the scoring of Mike Benedict kept Oxford in front, 30-14 at the quarter, 38-25 at the half, and 43-36 at the three-quarter mark.

But the Shamrocks pulled up and with 3 minutes to go Bob Anderson's 2 free throws tied the score and gave St. Michael a 46-45 lead. Joe Wilhelm followed with a basket which was matched by Oxford.

With 36 seconds left, Anderson meshed another pair of free throws to give the Shamrocks a 51-47 lead and Spencer's foul shot ended the scoring.

Anderson's free throws were the vital points, but the bulk of the Shamrock total came from John Keller (18), Joe Wilhelm (11) and Marty Keller (10). Spencer had 20 points for Jean Harkness' Oxford club, and Benedict added 14.

Oxford	G	P	St. Michael	G	P
Benedict	1	0	Wilhelm	1	1
Dr. Spiker	1	0	Keller	1	1
Bergin	1	0	M. Keller	1	0

Landmark of The Full Package

- 1 Dollar Difference
- 2 Complete Service
- 3 Low-Cost Financing
- 4 Maximum Trade-in

These are factors to consider if you want to get the FULL PACKAGE in the car you buy. That FULL PACKAGE awaits you at L. C. Anderson, Inc., in a new Buick, Pontiac or Chevrolet or in a fine used car. Here you may be sure of a sound appraisal and new car price savings that spell the minimum dollar difference. Here you will get friendly, efficient service from trained mechanics. And here your used car will be handled by a high-volume dealer who will narrow down the dollar difference to YOUR best advantage.

1. Dollar Difference

You get the best money deal, the smallest dollar difference between what you pay for your new car and what you're allowed for the old. That's what really counts, whether you get a sound trade-in appraisal from your dealer or a long discount from a factory with a short pay-off when you try to sell the used car yourself.

2. Complete Service

You get the full service package. Service from the man who sold the car to you! Service from the man who wants you as a long-time customer! It is his job to prepare the car for delivery, to inspect, adjust and service it during the vital break-in period. And it is his job to keep your car running smoothly. Why be on your own?

3. Low-Cost Financing

You have the advantage of expert counsel on your choice of a finance company or bank to finance the car you buy. You have help in selecting the cheapest and wisest insurance protection. That is important because buying a new car need impose no burden on the budget if your package includes aid in choosing the financing and insurance.

4. Maximum Trade-In

You save time, trouble and dollars by turning in your old car at a value that can be recovered only by the high-volume, low-profit tactics of a used car Super-Market. Here skillful re-conditioning and attractive display enable full-time used car salesmen to narrow the dollar difference that you pay. Make sure that your deal gives you the full package.

Saddler Defends Title

NEW YORK (AP)—Featherweight champion Sandy Saddler finally takes his crown out of the deep freeze tonight against little old Teddy (Red Top) Davis in a title 15-rounder in Madison Square Garden.

This is the skinny, 28-year-old champion's first title defense in 41 months and he's a surprisingly low 7-5 favorite to beat the 31-year-old ex-railroad cook from Hartford, Conn.

On their records Sandy (139-12-2) should be at least 3-1 over Davis (58-47-2), the "losingest" challenger of all time. If he wins, Red Top will be the oldest guy ever to capture the 126-pound diadem. Eugene Cricqui and Johnny Dun-

dee were 30 when they first ascended the throne.

Maybe the odds are so small because almost everyone has forgotten there's such an animal as a featherweight king. The National Boxing Assn. as a matter of fact, says there isn't. It lifted the New Yorker's crown for not defending it within the required six months period but didn't name a successor. Tonight's victor, however, will be recognized as champ by the NBA.

There will be \$30,000 added to the pot tonight from the radio-television receipts. The 10 p.m. (EST) scrap will be broadcast and telecast coast to coast by NBC. A crowd of some 7,500 will pay about \$30,000 at the gate. Saddler gets 40 per cent and Davis 20.

Saddler, as, usual, declined to make any prediction but manager Charley Johnston wasn't as hesitant.

"Sandy will flatten him like a 50-year-old dime," said confident Charley. "What's he got to beat Sandy with?"

"Skill, experience and a solid chin," was the valiant reply of chubby Mushky Salow, Red Top's manager.

"I've been around a long time and I never figured I would ever get a chance at the title," said Davis. "I'm going to beat him. I've just got to. I've been around too long to blow it now."

With so many defeats on his record, including five by kayos, it's not surprising that Red Top never got a shot before.

But get it he did by the very simple process of whipping Percy Bassett in a 12-rounder in the Garden last Nov. 26. Percy was the No 1 contender then and had licked every other featherweight of note around.

That was Davis' last fight and made his record six victories out of six for 1954. He has won 10 out of his last 11. The sole loss was to welterweight contender Tony DeMarco.

Saddler has fought four times for the title, all with Willie Pep, winning three and losing one. He stopped Willie the last time in the ninth round on Sept. 26, 1951.

He went into the Army in 1952 and got out in April 1954. He refused to defend his title until he had enough tuneups and felt he was ready.

Saddler had 10 of the non-title scraps, winning nine and losing a decision to Hachin Khalif of Algeria. But in his last start, he blitzed Lulu Perez, once a contender, in four heats.

Many U.S. Films Banned in India

Propaganda, Sex Cited as Reasons for Movies Being Banned

NEW DELHI (U)—Cold war propaganda, glamorized vice, too much sex, battlefield brutality—all are grounds for banning a foreign movie from India's screens.

The Central Board of Film Censors says in the past four years

it banned 90 foreign films and permitted 325 to be shown only after cuts. A total of 1,167 features were brought into India during this period.

Most of the banned films—some 66—were from the United States. Russia followed with 10 banned.

Details of the bannings are not given by the censors except in general terms.

The American "Dial M for Murder" is an example. A government spokesman commented that the film's theme of a husband plotting his wife's death was "not suitable for Indian audiences."

Sex and drinking reportedly kept "The Moon Is Blue" from Indian screens.

If a film tends to "wound the susceptibilities" of foreign nations or to disparage the heads of foreign states, it's forbidden.

Propaganda reportedly causes most of the banning of Russian films.

Paramount's "Ceasefire," a Korean War movie, was banned last summer.

A government spokesman commented:

"It's a propaganda film. If we permit one side to show that kind of film, then the Indian government would be in a position where it could not forbid the other side to show a similar film."

The American musical "Gentlemen Prefer Blondes," with Marilyn Monroe and Jane Russell, was severely clipped because the stars "displayed their thighs."

Thanks largely to protection of the National Audubon Society, roseate spoonbills have made a strong comeback in Texas. They have also increased in Florida. In 1890 they had disappeared from Texas and almost from Florida.

2nd Atomic Sub Near Launching

Sea Wolf Will Carry Engine Different From That in Nautilus

WASHINGTON (U)—The nation's second nuclear submarine, the Sea Wolf, probably will be launched within the next two or three months.

The sister of the 3,000-ton Nautilus—but with improvements in design and an atomic engine of different type—has been building since June 1953.

On the basis of time required for building the first hull, the Sea Wolf apparently will be scheduled to go down the ways at the Electric Boat Division of General Dynamics Corp. at New London, Conn., sometime in May.

If the Nautilus pattern is followed, the Sea Wolf will have when launched the framework and some other components—although not the fuel load—of the atomic furnace.

A land-based model of the Sea Wolf's engine was started at West Milton, N.Y., in 1953 by the General Electric Co. under contract with the Atomic Energy Commission.

Presumably that test plant—a copy of the one that will be installed in the Sea Wolf—is about ready for trials, if not actually in operation. The AEC and Navy declined today to say.

The nuclear power plant in the Nautilus, built by Westinghouse Electric Corp., and that for the Sea Wolf are of different types.

The AEC and Navy decided, at the outset of the nuclear submarine program, to build both types and then decide which design was the more efficient and easier operating. The Nautilus has been under trial since last month. The Sea Wolf probably will not be ready until sometime in the spring of 1956.

Ex-Country Boy Stares at Clusters of Slickers

By EARL WILSON

NEW YORK—I love to rubberneck in N.Y.—sometimes, like the Buckeye bumpkin I am, I poke my good ear up against clusters of city slickers, to eavesdrop.

Three disputatious gentlemen on 5th Av. were gesticulating wildly as they pointed across at St. Patrick's Cathedral. "A heated religious debate is ensuing!" I decided.

"I'm telling you," I heard one exclaim, "you couldn't get it without a wide-angle lens!"

N.Y. is the paradise of the picture punchy, 6 camera-toters to the block, 7 if you count me.

"Tis also the city of celebrity canyons. Down in Wall St. the man who was almost president, Tom Dewey, strolls to lunch—unbodyguarded, alone. But on many lapses suddenly sprout new blue and white badges—"Dewey for President."

Uptown on perky Park Av. Mrs. Steve Allen (lovely Jayne Meadows of TV) who says you can cool beer quickly by pouring it over ice a few times... Over on E. 75th, still peppery at 81—"the boy from Painted Post," IBM Tycoon Thomas J. Watson, is off for Florida. The white-haired old sales genius and zillionaire still keeps his home number and address in the phone book.

Wonder if he's seen those teasing signs: "Before you louse it up, top and THINK?" One in Garry Moore's CBS office on W. 57th merely roars out: "THINK!"

What's it about Garry that you gals all love? Wholesomeness? The Baltimore-St. Louis-Chicago-Los Angeles Boy Who Made Good has never once said, "I'll fire the writer who gave me that joke." He says:

"Did you ever hear those comedians pause after a big laugh and say, 'That joke was written by J. Harold McSnuff, so applaud him, not me?'"

Marilyn Monroe undulating past the Trans-Lux on Lexington Av. (scene of her famous skirt-blowing) is unrecognized by many, due to her hat... which IS NOT a Garbo coiled-type. Mrs. Milton H. Greene, wife of the Veep of M&M Productions, tells me: "It's just a man's hat with the brim pulled 'way down."

THE MIDNIGHT EARL...

Red Buttons was asked whether his wife can drive. "Can she drive!" shouted Red. "You oughta see her tickets!"... Marlon Brando's fiancée Josanne—back in town—laughs at the bust-up rumors.

While Betty Hutton was divorcing him in Vegas, Charlie O'Curran started plans to rehearse the Blackburn Twins and Genie Stone for their Copa opening... Irving Berlin's daughter, Linda, the actress, turned 22... Lil St. Cyr was fully dressed for her wedding to Ted Jordan.

Gene Krupa has a crew cut—color: gray... Joyce Mathews is with Billy Rose down in the B.W.I. ... Nat (King) Cole left the Vegas Sands to fly to Chicago; his mother became very ill... Dorothy Hart will be the hostess at the sports car show.

Stripper Sherry Britton got laryngitis (but we'll bet nobody's noticed)... Wealthy Herb Seegal's reported romancing Celeste Holm—but his Harwyn Club dates are with Janis Paige.

(Copyright 1955)

DOROTHY HART

Gene Krupa has a crew cut—color: gray... Joyce Mathews is with Billy Rose down in the B.W.I. ... Nat (King) Cole left the Vegas Sands to fly to Chicago; his mother became very ill... Dorothy Hart will be the hostess at the sports car show.

Clay Goddess Leaving Pond for New Home

LOS ANGELES (U)—Quan Yin is coming up in the world. She's moving to Beverly Hills.

Quan Yin, a five-foot clay statue of the Chinese goddess of mercy, has stood in Los Angeles' "Old China City" since 1937.

She was ankle deep in the Pond of Promises and in the dreams and wishes of lovers and tourists who threw pennies at her feet.

But today Quan Yin is on the way out. Old China City, with its twisting streets and curio shops, is being torn down.

Frank Martin, one of the owners of the property, said the city will be razed to make room for a parking lot. He intends to put Quan Yin in the back yard of his Beverly Hills home.

Quan Yin stood at the entrance of the tiny walled replica of old China, built when the Union Station crowded many shops out of the older Chinese quarter.

Millions of tourists have walked past the statue and into the crooked streets of the city. They have passed down alleys that smacked of streets of Bubbling Well road in Shanghai, explored shops, taken rickshaw rides. They have eaten the great Irish dish of chop suey, served up with chopsticks at the Fong Fung house.

Today it's a different scene. Walls are coming down. Electric saws whirl through timber. Nails cry as workmen pull them like teeth.

Quan Yin stands alone in the Pond of Promises. A few goldfish undulate past her feet. No pennies splash about her.

But maybe it's all for the best. After all, how long can a girl live on promises?

May Call Ship USS Congress

Navy Suggests Name—if Lawmakers Agree to Put Up Money

WASHINGTON (U)—The Navy says it wants to name its fifth supercarrier the USS Congress—if it can get Congress to put up the money for it.

The Navy suggested the name yesterday in outlining a program to build the carrier and 33 other warships next year. The \$1,300,000,000 program also calls for converting 6 carriers and 22 other warcraft for modern warfare.

A 4,600-ton nuclear-powered radar picket submarine and two other 2,300-ton atomic subs are among proposed new vessels.

Rep. Cannon (D-Mo.), chairman of the House Appropriations Committee, is on record opposing a requested 180 million dollars for the proposed new 60,000-ton Forrestal-type carrier.

How much support Cannon will get is not yet clear.

Chairman Vinson (D-Ga.) says the House Armed Services Committee will open hearings probably next week, to review the effectiveness of the giant flattops.

Air Force generals sharply attacked their value in bitter congressional hearings in 1949, while advocating all-out production of intercontinental bombers.

The Navy proposal to name the new carrier the Congress was inserted without explanation in a new bill calling for construction to start during the year ending in mid-1956 on 13 destroyers, a guided missile submarine, 9 minesweepers and other small craft.

In addition to the carriers, the Navy said it wants to modernize one heavy and one light cruiser and other craft.

Although there is currently a surplus of rice in the world, the United Nations Food and Agriculture Organization says more production is needed if the very low per capita consumption of many Asiatic peoples is to be raised.

WATCH FOR
SOMETHING
NEW MARCH 5

Catch Thieves, Seek Motorists With Loot

YOUNGSTOWN, Ohio (U)—Pursued by police after a holdup in Niles that netted \$500 to \$600, two men tossed several hundred dollars in small bills from their speeding pickup truck yesterday.

The patrolmen caught the fleeing pair, but now police say they are looking for motorists who stopped their cars, grabbed up the cash and drove off.

Police identified the pair as Arthur McCan, 27, of Youngstown, and John W. Blair, 26, of Niles, both held on an open charge.

\$3 Million Paid for Film Rights to Lone Ranger

By LOUELLA O. PARSONS
HOLLYWOOD (INS)—"The Lone Ranger," read, seen and heard by 90 million people in the King Features comic strip, on television and radio, now becomes a motion picture.

Jack D. Wrather, former Texas industrialist, paid \$3,000,000 for the rights and has made an arrangement with Jack L. Warner whereby "The Lone Ranger" will be filmed on the Warner lot. Wrather is married to pretty Bonita Granville, and before he came into the picture business in Hollywood he was an important figure in his home state, Texas.

Clayton Moore plays the Ranger on TV, and Bruce Beemer on radio. Talk is that Moore may act in the motion picture.

Debbie Reynolds and her mother go with Eddie Fisher to London for his Palladium date starting March 20—but fear not that the young people will get married at this time.

They are serious about having a big wedding on June 17—so this trip is just in the nature of a vacation for Debbie.

She's in Hollywood now finishing up some publicity pictures for "Hit the Deck" and when she leaves March 13 to join Eddie in New York she won't be back until April 15.

Debbie doesn't have to report for "Jumbo" at MGM until September so she'll have plenty of time to take Eddie up on his promise to show Paris to her and mamma.

The teenagers have a champion in Maureen O'Sullivan Farrow, who has a teenager of her own in her son Michael.

"Don't ever say anything to me about the boys and girls of that age being unsympathetic," said Maureen. "When Mike was hit by an automobile and broke his leg, just out of the air came all his pals, both girls and boys, to see him. Some of them stayed up with me until five in the morning at the hospital. Since then, Mike has had so much attention from them, too."

I'm wondering if other mothers are like Maureen, letting their children bring home their school friends and making them welcome. This would do much toward solving the frightening youth delinquency problem.

Chatter in Hollywood: The love idyl of Josanne Mariani-Berenger and Marion Brando is no more. She left for New York, a career and possibly Europe. He remains on in Hollywood. Someone very close to Brando said the engagement is off and that he has been very attentive to Rita Moreno.

No one really thought he had any intentions of marrying Josanne when the engagement was announced by her stepfather, but it gave her good publicity and probably a chance to get a good job.

Freddie Brisson was on the telephone bright and early to tell me that he and his co-producers Robert Griffin and Harold Prince have Gwen Verdon tied up for 18-months for their new musical, "Damn Yankee."

"So she couldn't possibly be in Anita Loos' show 'Gentlemen Chase Redheads,'" said Freddie, "not for a long time anyway."

As for Carol Haney, Freddie reminded me that she'll remain in his hit "Pajama Game" until June when she goes to MGM under contract.

"Damn Yankee" opens May 5th. When Brisson takes off for New York with Rox Russell next week, he'll start rehearsals.

Snapshots of Hollywood collected at random: Robert Taylor and his bride, Ursula Thiess have been in Paris for a week before he goes to London for "Quentin Durward." Then Ursula goes to Hamburg to visit her family before rejoining Bob. She'll try to bring her little boy back with her.

Marilyn Monroe, so report goes, has put in a bid for the estate of the late Governor Harold G. Hoffman of New Jersey. This 22-room house is located in Llewellyn Park near South Orange where Thomas Edison made his home.

James Cagney will drive his own sulky several times during the spring meeting at Santa Anita.

George Raft was stag at Peter Vesco's Peacock Lane. Where were your gals, George?

At the Sportsman's Lodge, Joan Crawford was back with her ex-boy friend Milton Rackmil. And Dan Dailey and his bride, Gwen, as peaceful and happy as kittens, sat a few tables away.

Zasu Pitts, her friends will be sorry to hear, is back in St. John's Hospital.

The whereabouts of Jean Peters mystifies 20th. They've been trying to get her for days to make an appearance with "A Man Called Peter," her best picture to date.

EASY CHOICE—It's not too difficult to select the prettiest face in this group at Miami Beach, Fla. Posing beside a pile of coconut "faces" is Esther Claire, a former "Miss Miami Beach."

Lecturer Proves Point the Hard Way

LINTHICUM HEIGHTS, Md. (U)

State trooper Joseph White lectured to the Linthicum Heights Methodist Men's Club last night on the horrors of reckless driving.

He showed the 63 members a safety film and emphasized in his talk that 90 per cent of highway accidents are caused by defective drivers.

Then he left and the club went into its business session. Suddenly the trooper came back.

"This is embarrassing," he told Frederick Lang, "I just knocked a dent in your door."

The safety lecturer had backed his cruiser into the listener's car. White made arrangements for repairs.

The proportion of women among all persons at work in the United States increased from 17 per cent in 1890 to 24 per cent in 1940 and was close to 30 per cent in 1952.

Nonsmokers Show Their Lung Power

BOISE, Idaho (U)—Sen. John Raser asked unanimous consent last night that the State Senate relax Rule 24 of the regulations which govern the session. Sen. Raymond L. White objected.

Raser then moved that it be relaxed. Lt. Gov. J. Berkeley Larsen put it to a voice vote, and ruled the "noes" had it.

Raser then demanded a roll call vote. The clerk called the roll, and Raser won 27-12.

The result: Senators were allowed to smoke at the night session.

The moral: Nonsmokers apparently have the loudest voices.

Capital Cureall: Push

WASHINGTON (U)—Many persons have wrestled in vain with the heavy door to the Senate Agriculture Committee room and turned away believing it was locked. The staff now has placed on the door a sign which reads: "Door Unlocked. Push Hard."

Hal Boyle Says:

Testing Newest Jet Planes Doesn't Call for Daredevil

FARMINGDALE, N. Y. (U. P.)—Would you be afraid to ride in a jet airplane as it broke through the sound barrier?

The public generally pictures this as a frightening physical ordeal in a plane vibrating like a sparrow caught in a tornado.

Oscar P. ("Bud") Hass, a veteran test pilot who won his wings at 17 and now is 47 and a grandfather, says this is only one of many misconceptions about the work of the elite fliers who test the nation's war planes.

"In most airplanes today if you didn't have a speed indicator you wouldn't know you'd gone through the sound barrier," he said. "You usually don't even know when it happens."

Hass, director of flight operations at Republic Aviation Corp., supervises a crew of 16 pilots who test the new F4s Thunderbolt fighter bombers. The planes can exceed 650 miles an hour and carry an atomic bomb.

Bud estimates there are perhaps no more than 600 jet test pilots in America.

"It's a pretty new field," he said. "Hardly anyone in it deliberately set out to be a jet test pilot. Most of them are former armed forces fliers with combat records. There is no other place for them to get the experience."

Nice work if you can get it. The pay is good—in the \$10,000 a year class. The hours are good—an average of 35 hours a month in the air, compared to 85 for a commercial transport pilot. The fliers check in at 7 a. m., and check out at 3 p. m.

There is also plenty of fresh oxygen and exercise on the job. The test pilot really starts his main

chore at an altitude of 40,000 feet. But no daredevils need apply. No manufacturer wants to put a hot rod flier in the cockpit of a \$400,000 airplane. The test pilot is an intensely serious young man, who must serve both as a scientist and a highly paid bookkeeper as he puts a plane through predetermined flying maneuvers. Then another pilot takes the plane up and does it all over again. Before accepting delivery, the Air Force then puts the plane through the tests a third time with one of its own pilots.

What is the life expectancy and the future of a jet test pilot?

"There is a limit to how long a man wants to do it as a regular routine," said Hass, who still makes a couple of flights a week himself. "After 40 or 45, most men don't want to take the physical punishment of high altitude flying. But their work gives them an all-around knowledge of airplanes, and usually they take another job in the industry."

How dangerous is it? Jet pilots have to pay an extra premium if they take out personal insurance. But Hass has never had a serious injury.

"A couple of my men have had to bail out," he said, "but we've never lost a man in 120,000 take-offs and landings in 10 years."

"The mortality rate among all test pilots is probably lower than among service fliers on ordinary day-to-day tactical missions."

Only 1 per cent of the students who concentrate on English, history or social sciences in college will go into careers in those fields, a study made at the University of Michigan indicates.

Additional Mortgage Insurance Predicted

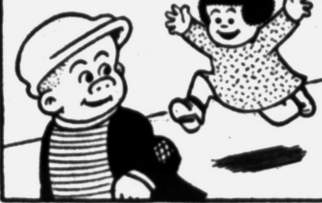

WASHINGTON (U. P.)—Sen. Sparkman (D-Ala.) predicted Senate approval today of an authority for an additional \$1½ billion dollars of government insurance on housing mortgages.

"This has got to go through or else our housing program will come to a stop," Sparkman said in an interview before the start of debate.

The government has underwritten slightly more than 20 billion dollars of home financing through the Federal Housing Administration and related programs. Sparkman, chairman of a banking subcommittee on housing, said existing authority will run out within "the next few weeks."

ANY MORE QUESTIONS?

STATE OF MICHIGAN—In the Probate Court for the County of Oakland,
J. J. F. JONES, Clerk.

In the matter of the petition concerning Margaret Ann Barney, minor. Cause No. 100,000.

To Douglas and Barbara Jean Haynes, parents of said child.

Petition having been filed in this Court alleging that the present whereabouts and the place of residence of said child is unknown and the said child is dependent upon the said parents for support and maintenance, and that the said child is under the jurisdiction of this Court.

In the name of the people of the State of Michigan, I, the undersigned, Clerk of the Court, do hereby certify that the hearing on said petition will be held at the Court House in the City of Pontiac, Michigan, on the 17th day of March, A. D. 1935, at two o'clock in the afternoon, and that the said child is to appear personally at said hearing.

If it being impractical to make personal appearance of the said child, the same shall be served by publication of a copy one week previous to said hearing in the said Free Press, a newspaper printed and circulated in said County.

Witness, the Honorable Arthur E. Mason, Judge of Probate in and for the City of Pontiac in said County, this 23rd day of February A. D. 1935.

ARTHUR E. MOORE,
Judge of Probate.

Ventriloquist Prefers Playing to Younger Set

Paul Winchell on Saturdays

Feels Accomplishment in Helping to Educate Children Via Television

By WAYNE OLIVER

NEW YORK (AP)—One of the early stars of nighttime network television, Paul Winchell, now is entertaining the kiddies on NBC Saturday mornings and says he's well content with the arrangement.

"I like it much better," says ventriloquist Winchell, the voice of Jerry Mahoney and Knucklehead Smith, his dummy costars. "I feel I'm accomplishing something good. We try to make it fun for the kids but also to include educational elements."

"There's a much heavier responsibility than on a night show when your only responsibility is to be as entertaining and as funny as you can. Children are tremendously impressionable. We never do anything on the show that isn't tailored to the idea that youngsters must be able to understand it—and repeat it."

Winchell, now 31, was well known in radio, supper clubs and theaters when he first went on TV in late 1948. For 2½ years he was co-featured with Dunninger's mind reading act, and then for two seasons he and his wooden pal Jerry had their own program billed as the Paul Winchell and Jerry Mahoney Show.

"I changed that the next season to the Paul Winchell Show, starring Jerry Mahoney," Paul recalls. "That was because the program listings had been carrying it as the Jerry Mahoney Show. I didn't mind losing my identity—but I wasn't going to lose it to a block of wood."

Planes Evacuating Vietnamese to South

PARIS (AP)—About 250 Vietnamese are being evacuated daily by plane from the Hanoi area to South Viet Nam, the French News Agency reported today from Saigon.

An airlift was established Tuesday between Hanoi and Saigon to speed the evacuation.

The report said about 22,000 Vietnamese were awaiting removal.

All transfers of persons between South Viet Nam and the Communist-led North must take place by May 18, under terms of the Geneva armistice agreement on Indochina.

Bob Considine Says:

Woman Seeks News of Dead Son

NEW YORK (INS) — On a recent trip to a place where I had to make a talk for a local newspaper, the editor met me at the airport and said, "There's a lady waiting at the shop to see you. She read you were coming. You saw her boy die during the war."

She was a fine looking, gentle woman in her fifties and showed no distress because of her long wait.

"I've thought of writing you for years," she said, taking a carefully folded clipping from the New York Mirror from her pocketbook. "But I always knew in my heart we'd get to meet, and then I could hear from you directly."

She showed me the clipping. It was dated November 1944 and written from a Newfoundland airbase. I happened to get there shortly after a hospital plane, coming in from overseas, hit a mountain near the base. A dog-tired Army Air Force doctor had just come down from the mountain with a report on the dead and the re-injured.

My interview of him naturally contained a lot of quotes and there was inevitably a sprinkling of personal pronouns as the doctor spoke.

"Here's the part about my boy," she said, pointing into the body of the story. The doctor was still being quoted. He was saying, in effect:

"There was this one boy I'll

never forget. Bad shape, but great spirit. He said to me, 'Doc I always wind my watch, this time of day; will you wind it for me? And, 'Doc, this stretcher's so comfortable it must have box spring mattress.'"

"After a time I closed his eyes." I couldn't understand what connection the fine lady thought I might have had with her boy. My face showed the question.

Missionary Quizzed in Death of Orphan

KOBE, Japan (U)—A missionary, 39-year-old Herbert Belknap, has been questioned by Japanese police here in connection with the death of his mixed-blood adopted son, the U.S. consulate said today.

A spokesman said he had no information on the death of the 8-year-old boy.

The newspaper Yomiuri in Tokyo said an autopsy had shown the youngster, Hitoshi Uenishi, died an unnatural death Wednesday. It said the boy had been beaten.

No charges have been filed.

Belknap, of Inglewood, Calif., identifies himself as an independent missionary. He adopted the boy, of American and Japanese ancestry, about a month ago, the consulate said.

"All I want to know is was he blinded? Was he blind when you closed his eyes?"

It was a hard minute or two, as I sought words to explain that I had not been at her son's side... that it was the doctor who was talking, and the "I" referred to him, not to the reporter.

For a moment I had a wild desire to lie, to tell her that her lad was not blinded, that he thought of her at the end, that he died easily and bravely. I had to bite my tongue to keep back the lie, for it could only have led to more questions, a description of him, and additional heart-break when she knew I was inventing.

So I explained the quote and the inner quote, and could not look at this mother who for more than a decade had waited for this day.

But all she said was, "I see. I see." I asked if I could help her to find the doctor, probably long since mustered out.

"No," she said thoughtfully, putting the clipping back in her purse. "This has been enough, I think. It has been enough to be with someone who was in the same area with him when he was killed. He was a fine boy, my son. And I don't think he was blinded."

And as she left I thought of her as the symbol of a mother's faith in her child, her country and, primarily, her God. The years had seen composure take

precedence over open grief. But it is a composure that never truly gives rest to the parent of a child who grew up to get killed in war.

The questions this dear lady asked of a stranger are questions that have been asked since before recorded history. Countless generations of survivors of wars have been questioned by the bereaved, on the one, slim chance that the answer will part the heavy curtain that dropped between a loved one.

Shouldn't such questions be constantly asked in U.N.—as a reminder?

The elaborately-carved temples and decorations at Ajanta and Ellora, in the Indian state of Hyderabad, were hewn from the solid rock by Buddhist monks, priests, and laymen, who worked by sun and torchlight for more than 1000 years on the job.
