ROCHESTER, MICHIGAN 48063

# AMERICA JUST MATURING, McCREE TELLS GRADS

---

Wade H. McCree, Jr., Judge of the United States Court of Appeals for the Sixth District, painted a positive picture of America's future when he addressed more than 2,200 students and their parents at OU's commencement June 2.

McCree disagreed with those who said America was past its peak. The nation is just maturing, McCree said. He urged the young people in the audience to look to their own inner strengths and wisdom to tackle the problems of the country. It is a day of reckoning but not a day of judgement, he said of America's current state of troubles.

The judge received an honorary Doctor of Laws degree as a highlight of the ceremonies in Baldwin Memorial Pavilion. Honored with McCree were: Benjamin H. Anibal of Birmingham, pioneer automotive engineer and retired vice president in charge of engineering, Pontiac Division, General Motors Corporation; Charles O. Hucker, Ann Arbor, former chairman of the OU Department of History and current professor of Chinese and professor of history at the University of Michigan; and J. Edward Lundy of Dearborn, executive vice president, finance staff, Ford Motor Company. Hucker received an honorary doctorate in humanities and Anibal, Lundy and McCree received honorary doctorates in law.

During the program, Ms. Augustine Wright and Don Johnson were honored as the Matilda R. and Alfred G. Wilson award winners for 1973-1974 as the outstanding female and male graduates.

*There was no generation gap at Oakland University's 12th commencement exercises Sunday, June 2. Among more than 2,200 students who were cited were the oldest and youngest graduates in the school's history. **Harry Schucart**, 72, of Southfield, chats with **Allen Regueiro**, 16, of Troy. Schucart received a B.A. degree in philosophy and Regueiro a B.A. in music [piano]. Schucart has already enrolled in OU's master's program in history and Regueiro plans to go on to graduate study in music. Shown in the above photo are Schucart [left], President O'Dowd, and Regueiro.*

---

## Wilson Award Winners

*Oakland University President Donald D. O'Dowd, center, poses with the Matilda R. and Alfred G. Wilson award winners who were announced at the 12th commencement exercises Sunday, June 2. They are **Augustine Wright**, Pontiac, and **Don Johnson**, Watervliet. The students are chosen on the basis of their scholarship and contributions to school, class and community. Each winner receives a cash award. Ms. Wright has been active in Ujamaa Theatre, Oakland Center programming activities, and is currently first Vice President to the Oakland County Chapter of the NAACP. Johnson is active in student government, he has worked on the campus newspaper, was a student intern, and organized and founded the OU chapter of PIRGIM [Public Interest Research Group In Michigan].*

# REMEMBER WHEN YOU WERE A KID?

**WELL NOW YOU CAN HAVE YOUR  
CAKE AND EAT IT TOO!!!**

Oakland University is having a Birthday Party its fifteenth - and you're invited! All Oakland facilities will be open and active, with displays, demonstrations, exhibitions, dancing, music, marching bands, sports, lectures, films, and on and on and on! And it's all free! You won't believe how much the campus has changed in ten years, five years, three years, or even the last year. but you'll love coming back and celebrating our fifteenth on Sunday, September 29 from 11:00 a.m. to 7:00 p.m.

Mark your calendar now  
and don't forget to be there!

## ANNOUNCEMENT

The Annual Membership Meeting of the Oakland University Alumni Association will be held Friday, October 25, 1974. At that time, the election of the Board of Directors will take place. Any Alum holding a current Alumni Association Membership Card will be eligible to attend. Absentee ballots and an information sheet on all candidates will be sent to all Alumni Association members in September.

Membership in the Alumni Association is available to anyone who has received a degree from Oakland, and contributes at least five dollars annually to the Alumni Fund. Contributions to the Alumni Fund are deductible on both Michigan State and Federal Income Taxes.

University privileges are extended to Alumni Association members such as:

1. Use of Kresge Library.
2. Use of Sports and Recreation Facilities.
3. Discounts on Meadow Brook Theatre tickets, Meadow Brook Hall tours, and the Academy of Dramatic Arts Studio Company performances.

The Alumni Association is governed by an eighteen member Board of Directors, elected for staggered three-year terms. The Board decides Alumni Association policy, develops alumni programs, plans alumni activities, recommends allocation of funds, etc. Board meetings are open to all members. Anyone interested in serving on the Board should call Elaine Petz, Office of Alumni Relations, 377-2158.

## FALL APPLICATIONS ARE UP 22 PERCENT

Admissions applications for fall of 1974 are running 22.3 percent ahead of last year, Jerry Rose, director of Admissions and Scholarships, reports.

The figures comparing June 5, 1974, with June 5, 1973, show 3,217 applications currently compared with 2,629 last year. There are 2,390 applications from first time in college freshmen (FTIAC's) now compared with 2,082 last year. There are 814 transfer applications while there were 547 on this date in 1973. Thirteen new students are in the miscellaneous category.

In addition, residence hall applications are up. There are 965 FTIAC students and 172 transfers requesting residence hall accommodations. The respective figures for 1973 were 900 and 120.

Final figures for fall of 1973 showed 1,248 FTIAC students and 978 transfers in a total student body of 9,638.

---

## LETTER FROM THE PRESIDENT

---

Dear Fellow Alumni:

Management by Objectives has come to the Alumni Association. Our June Board meeting was spent developing one and five year goals. Many hours have been spent in searching out positive directions that will better serve alumni and the community. Some of our brainstorming sessions have been very favorable in developing service-oriented ideas. Some of these are alumni sponsored seminars, undergraduate-alumni affiliations, weekend colleges, and helping hand projects. We, as your Alumni Board, encourage you to voice your opinions and ideas about the directions you would like the Association to travel.

Socially, the spring has been a busy season too. The Women's Luncheon at Meadow Brook Hall gave the Association positive exposure in the eyes of the community. The 1964 Class Reunion reinforced the independent and unique status of Oakland University in higher education that drew the first students to the campus. Many were surprised and pleased at the innovative growth of Oakland in ten years.

As the *Quarterly* goes to press, the 1974 Fund Drive is well underway. Please remember that contributions are Michigan Tax deductible. Alums, Oakland needs your support - physical, moral and financial. Many of you have already worked very hard on the mailing; your President appreciates the efforts each of you have put forth.

Please save some of your vacation days in summer, 1975, for the first Alumni College. More about this unusual event in the next *Quarterly*.

Happy Summering. See you in September at Wilson Weekend and OU's Birthday Party.

Sincerely,

Mary Wermuth  
President, Alumni Association

---

## FUND DRIVE: PROGRESS REPORT

The 1974 Alumni Association Annual Fund Drive commenced May 2, with a goal of \$10,000. Alumni have already contributed over 58% of that goal in the first two months of the Drive.

Two hundred and thirty alumni have participated, seventeen as Pioneer Club members (\$50 or over).

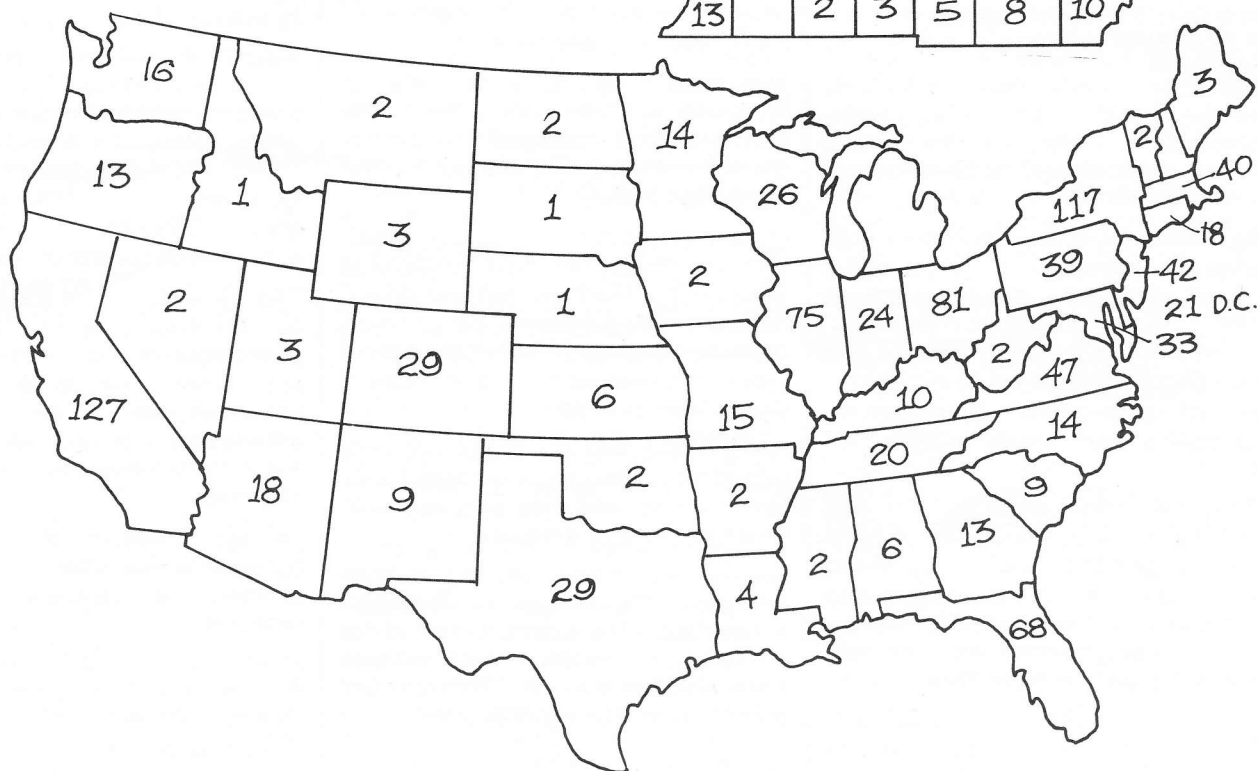

The total of \$5,851 consists of \$4,141 in individual contributions, \$1,400 in proceeds from the Friends of Oakland Swimming Meet, and \$310 in corporate matching gifts.

ATTENTION all Moms, Dads, Aunts, Uncles, Grandparents, Guardians and friends of Oakland alums (as well as you strangers) who are reading this. When the questionnaire arrives at your home, please forward it to the addressee or return it to the postman.

The Educational Research and Planning Office

## STUDENT'S PHILOSOPHY IS "EASY ON THE EARS"

Reginald "Shoo Bee Doo" Fields is one philosopher who would rather let his fingers do the talking.

"I practice a philosophy of my own spreading the good vibes," Fields said. And for Fields, a bass viola player, those good vibes can be spread through music as well as by written or spoken words.

The slender musician-philosopher completed his studies at OU in June with a B.A. in philosophy and he hopes to enter graduate school in philosophy. But he remains confident that he can serve people through his music as well as by any other means. He is accomplishing his current ends with his own combo.

Fields was nicknamed "Shoo Bee Doo" by fellow students for his habit of scat singing to himself as he walked. He now talks fondly of a recent winter term tour with the Leon Thomas orchestra. The group toured Michigan, Ohio and played in New York City.

"People were down," Fields said. "They would come into the university

halls or clubs and you could see in their eyes that they wanted something." Music gave them that lift, Fields said. He himself was well received.

The intense young artist was on independent study during the winter term and thus managed the professional musician's stint without hurting his studies unduly.

In fact, if it wasn't for that tour, Fields says he might not have completed school at all. Fields himself was down, he explained, following the untimely death of a brother earlier in the school year. "Graduation really looked shaky," he recalled.

But the tour and his music not only helped his audiences, it brought Fields spirits up as well. He was ready to return to OU and graduate.

While an undergraduate, he was honored with the Gladys B. Rapoport Scholarship. The award is named for the Director of Financial Aids and was made possible through gifts from OU alumni Jill and Douglas Bastain.

The award is based on significant contributions to Student Life and the Residence Halls.

Again, it was by spreading his philosophy through music that Fields made his contributions. He organized a group of musicians and promoted a series of bi-weekly jazz concerts at the university. He also co-chaired a large concert committee and he has played at numerous on and off-campus dates.

The initial reason for the concerts was not just the urgent need for some type of entertainment on campus, he said at the time. The entertainment he visualized was not entertainment for entertainment's sake, but entertainment to achieve racial congruity on campus.

"Music is universal," claims the musician-philosopher. "It's something everyone can dig; black, green, yellow or purple."

Most recently, Fields was honored by the Oakland Black community with an Outstanding Achievements in Special Programs award.

# INTENSIVE PLANNING MARKS ENTRY INTO HEALTH SERVICE EDUCATION

Oakland University has moved vigorously since the spring of 1972 to establish suitable programs in health science education, an area ranking high in national priorities and student demand.

A decision was made early to create four-year programs with a firm base in the liberal arts and ones which would make use of Oakland's existing strengths, explains **Dr. Moon J. Pak**, assistant to the provost for the health science professions. Pak holds both an academic doctorate and a medical degree.

The moves into these new programs also reflect a university-wide commitment to develop academically strong professional programs as OU becomes a diverse institution of medium size, Pak said.

Among the most recent developments are Board of Trustee approval on May 22 for the establishment of an organized faculty of nursing and approval of a bachelor of science degree (B.S.N.) in nursing. The B.S.N. program was approved by the State Board of Education in May and it will be presented to the State Board of Nursing this fall for that body's consideration. The program should start in the fall, 1974. More than 300 freshman students will be in the first pre-nursing class, Pak said. A search for a dean is underway.

The last new organized faculties established at the university were in 1969 in economics and management and performing arts.

The four-year program follows the National Association of Nurses current position that four years of training are now necessary to prepare for this profession. Development was in accord with the Oakland Health Education Programs, a consortium of seven Oakland County medical centers. Each of these institutions has already signed a letter of intent to accept OU nurses for the clinical training that will comprise most of the last two years of the program.

Careful attention has been paid to the school's location and to health care needs of the people in the area in the years ahead. Demand for nurses will continue to be strong, Pak predicted.

Planning of the new school and for the nursing curriculum is underway with many competent nursing educators participating as consultants, Pak explained. Miss Agnes McMenemy, director of Providence Hospital School of Nursing, has been working closely with this university effort in the capacity of an adjunct associate professor and assistant to the provost in nursing, Pak said.

Pak cites the undergraduate degree programs which began last fall.

## ENVIRONMENTAL HEALTH PROGRAM

The program prepares students for the high demand professional career opportunities existing in both government and industry, collectively termed environmental specialist. Successful graduates of the program should be able to identify and offer technical solutions to environmental problems in the areas of water resources, air resources, food resources, radiation, and general sanitation.

The multi-dimensional nature of the discipline requires students with broad scientific inclination with bias toward public service. Required courses encompass biology, chemistry, physics, mathematics, environmental study, and include 16 credits in field work. Interested students must consult with the program director to obtain specific information on the required courses to receive counseling.

## MEDICAL PHYSICS PROGRAM:

Medical physics is a relatively new health-related professional program, which is concerned with the use of physical techniques in the diagnosis and treatment of disease. In the past the subject was most closely associated with radiation therapy in the development of which it played a vital

part. Today it also includes the physical aspects of X-ray diagnosis, nuclear medicine, radiation safety, ultrasonics, lasers, thermography, image intensification, EKG and EEG. It is also involved in related areas such as patient monitoring, and general instrumentation. In addition to clinical duties surrounding these techniques, medical physicists are engaged in research and development, consultation and service, and teaching of residents, hospital personnel and undergraduates. Most of the progress made in the last decade in both diagnosing and in treating cancer can be directly traced to the increasing use of physics in medicine.

Required courses represent a core of physics courses around which relevant biology, chemistry, and mathematics courses are added. During the fourth year, students will take part in an internship at a local hospital, which entails their taking courses, alongside hospital residents, in such areas as physics, radiology, nuclear medicine, and medical instrumentation. Ten credits are granted for the work. Interested students must consult with the program director to obtain specific information on the required courses and to receive counseling.

## MEDICAL TECHNOLOGY PROGRAM:

The program prepares a student for a highly professional health career opportunity existing at clinical pathology laboratories in hospitals. Medical technologists work under the supervision of a pathologist and are primarily responsible for the operation of the laboratory performing a wide variety of tests on which physicians base their diagnosis and therapeutic plan of a disease. They also direct the works of medical laboratory technician and laboratory assistants whose scope of training is much less extensive.

Medical technology students take a three-year academic program at Oakland based on the educational guideline set forth by the Council on Medical Education of the American Medical Association and fourth year in an affiliated and approved Hospital-School of Medical Technology. This is followed by the national certification examination to become a registered medical technologist, and the eligibility for the bachelor's degree from the university. It should be pointed out that the completion of the medical technology program is contingent upon the student's successful admission to one

*Continued on next page...*

## SPECIAL PROJECTS ALUMNI REUNION

*President and Mrs. Donald D. O'Dowd, Associate Director of Athletics Eugene Bolden, and Alumni Association Board member and OU Trustee David Lewis and his wife Kathy at the Special Projects alumni reunion held June 2 at the Oakland Center. Approximately 100 alumni attended.*

*Dr. Pak...continued from page 7*

of the Hospital Schools of Medical Technology affiliated with the University.

Interested students must consult with the program director to obtain specific information on the required courses and to receive counseling.

In Medical Technology, OU has signed an agreement with five hospitals that have fourth year internships in medical technology and will also participate with a sixth hospital that is establishing such a program. This will give OU 58 possible intern slots for its students who would go three years to OU and take a fourth year internship at a hospital. Internship admission is still by application to the hospitals, Pak said, but the agreement gives OU an important entry into these hospital programs. The five hospitals that are currently affiliated with Oakland are: Crittenton Hospital, Rochester; Pontiac General Hospital, Pontiac; St. Joseph Mercy Hospital, Pontiac; Providence Hospital, Southfield; and William Beaumont Hospital, Royal Oak.

Programs under study for future implementation are physical therapy, Physician's Assistant, Gerontology, Optometry, and graduate program at the master's level in the health science areas. A number of programs of less than degree status are being studied or have already been implemented, Pak said.

Upon favorable committee recommendation and approval by the Provost, many of these programs are envisioned to begin in the academic year 1975-1976, Pak said.

He commented briefly on a possible new administrative structure for Health Science Programs.

In early 1974, Vice Provost George T. Matthews made a series of comprehensive recommendations to the university community, which upon adoption and implementation will introduce profound and progressive changes to the University, Pak explained.

One of the recommendations, which is currently under study by a committee,

involves establishing a Health, Science Center in the university which will house administratively all the health-related programs in the university.

The above recommendation will provide identity to the programs; provide opportunity for sharing of resources and faculty expertise among different health science programs; instill all-important teamwork concept to the students; provide a broader base on which many new programs can be added or ineffective programs be abolished in the future; and help maintain the thrust of health science education in Oakland University, Pak said.

The current members of the Committee on Health Science Programs in addition to Dr. Pak are: Boaz Kahana, chairman, Department of Psychology; Abraham R. Liboff, chairman, Department of Physics; John R. Reddan, associate professor, Department of Biological Sciences; and Paul Tom-boulion, chairman of the Department of Chemistry.

---

*'Twas the night before Open House and all through the campus  
Not a creature was stirring, not even a wampus.  
The banners were hung from the buildings with care,  
In hopes that ten thousand soon would be there!  
Jan in her kerchief and Don in his cap  
Had just settled down for a long autumn's nap,  
When out on the lawn there arose such a clatter  
Public Safety came to see what was the matter.  
And what to their wondering eyes should appear  
But five hundred alumni and .....*

(To Be Continued)

*You won't want to miss the exciting conclusion to our story, describing the 1974 Wilson Weekend to be held September 28 in honor of Oakland University's 15th Birthday! Watch for it...it will be coming to your home soon!*

## Alumnae Luncheon

Guest speaker Elizabeth Orion, Academy of Dramatic Arts, and Jan [Mrs. Donald] O'Dowd at the Alumnae Luncheon.

Dorothy Rose and Karen Gullet Keavy model Hadley creations.

The 1974 Alumnae Luncheon was held Saturday, May 11 in Meadow Brook Hall. A mid-morning tour of the Hall was followed by sherry and luncheon. During the luncheon, alumnae modeled summer fashions from Hadley's. Afterwards, accomplished actress Elizabeth Orion spoke on "Life in the Theatre." Over 150 alumnae and guests attended.

---

## NEWS OF O.U. ALUMNI

---

### 1963

**Donald Johnson** and his wife are living in Havre, Montana, with their two children, ages 6 and 1½ years old. Don is Editor and Photographer for the Havre Weekly News.

**Walter Ament** and his wife have recently opened "A Stroll Down Memory Lane," an old fashioned ice cream parlor in the center of Clawson at 14 Mile and Main. They plan to also take craft items and antiques on consignment. An old fashioned ice cream parlor certainly will make their children (ages; 2½, 4½, and 6½) the envy of their playmates. All Oakland alumni are invited to stop by and visit with the Aments during the long, hot summer.

### 1964

**Rody Yezman** sent his regrets for being unable to attend the '64 Reunion this May and informed us that both he and his wife, Doris, are attending Catholic University of America in Washington, D.C. They have completed the course work, passed their major comprehensives, and are in the process of completing dissertations for their Ph.D's. Their dissertations will be related to the field of Educational Psychology and Evaluation. Doris is a psychologist with the Prince George County Schools in Maryland and Rody works as a Research Assistant to the Honorable Lucien N. Nedzi, Member of Congress.

### 1965

**David L. Brockmann** has completed his eighth year teaching the fifth grade in Romeo, Michigan. Prior to this he taught one year in Utica.

**Jerry and Annette ('66) Johns** are the proud parents of a daughter - Beth Ellen. Jerry is currently an Associate Professor in the Northern Illinois University Reading Center. He was recently awarded a Fellowship for the Interdisciplinary Seminar on Reading at the State University of New York at Buffalo which was attended by professionals throughout the world. Annette has been busy with Beth and recently completed several courses in philosophy at Northern Illinois University.

### 1967

**John '67 and Cynthia '68 Alter** had a daughter, Jennifer Leigh, in June, 1972. John is working in the office of the Administrator of the Environmental Protection Agency at the agency headquarters in Washington D.C., as a Management Analyst. Cynda is busy with "Jenna" and many artistic pursuits. They plan to stay in D.C. for at least two years.

**Charles Maly** advises us he is married to a former Oakland student, Cheryl Pfister. They reside in Detroit with their daughter (5) and son (2). Chuck is self employed in the communications consulting field. His firm, Communications Advisors, Inc. deals primarily in telephone, teletype, and data communications.

**William and Sherri Newman** are enjoying their life in Muskegon where Bill is in litigation work and was recently made a partner in his law firm. Sherri is teaching first grade and doing quite a bit of ballet. She recently played the part of Louise in "Carousel", and Alice in "Alice in Wonderland". She has almost completed her graduate work at Western Michigan University - a masters degree in Creative Dramatics and Dance for Children.

**Thomas and Sandra ('68) Volgy** are in Tucson, Arizona. Sandy is working on her Ph. D. in Psychology at A.S.U. and Tom is a professor of Political Science.

### 1968

**Myles and Anita (Kranitz) Schlank** are residing in Piscataway, N.J., where Myles is going back to school full time at Rutgers. He will be on scholarship from the Essex County Welfare Board, and will be working on his Masters in Social Work, specializing in Social Policy. Myles, Anita, and their son, David, one year old, will be living on campus in married student housing until completion of his degree.

### 1969

**Douglas J. Wigton** is a lieutenant, MC, USNR, interning at the U.S. Naval Hospital in Jacksonville, Florida.

### 1970

**Don M. Chamberlin III** is now Vice President of the Don M. Chamberlin Agency, Inc. in Farmington, Michigan, and is married to the former Sandra Ann Barry. Sandy teaches third grade in Northwest Elementary of Howell Public School.

**Al Mann** recently became an Administrative Assistant to the Republicans in the State House of Representatives. He resigned his office as President of the Rochester Jaycees when his new position required that he move to Lansing. He is a former Outstanding Jaycee for the State of Michigan. In addition to his community work, he has been active in numerous political campaigns. Also, he is a past vice president of the OU Alumni Association.

**Carole G. Tarasiewicz** presently of Woodhaven, Michigan, announces the birth of a son, Brian James, March 6, 1974.

**Robert Cogan** is alive and well living in Denver, Colorado.

**Genevieve Speier** is a "dedicated civil servant" in Cincinnati, Ohio (Claims Representative, Social Security Administration).

---

## 1971

**Edwin V. and Sandra (Nightingale) Blasius** are married and living in Normal, Illinois. Ed works at the Health Department in Lincoln, Illinois. He received his masters in Public Health from the University of Michigan. Sandra received her masters in Guidance and Counseling from the University of Denver in August, 1972, and is working as an Assistant Area Manager in Illinois State University Residence Halls.

**Clark E. Chapin** is a Physical Scientist with U.S. Environmental Protection Agency, Ann Arbor, Michigan. He received his M.S. in Physics from the University of Michigan, 1973.

**Ronald Reabe** is attending the University of Western Australia in Perth, roughly 11,500 miles from OU as the crow flies. He is completing a graduate diploma in Education. He advises us that Australia has abolished all university tuitions, and pays a healthy living allowance as well.

**Sherrell (Bolton) Shanahan** is completing her third year of teaching for Grand Blanc Schools (3rd grade). She was recently awarded as a "National Outstanding Teacher." She is currently working towards her M.A.T. in the Teaching of Reading at OU.

**Dorothy Speier** is also a "dedicated civil servant" in Detroit, Michigan (Contact Representative for Veteran's Administration).

**Caroline Lind Stern** received her M.A. in English Literature, specializing in Middle English, from U. of M. She interrupted work on her Ph. D. after one year in order to marry Richard Stern, a student in the Doctor of Denistry Program at Ann Arbor.

**Bruce E. Wigton** is working in marine construction for Hydro-Dredge in Falmouth, Massachusetts.

**Elizabeth Zivanov** is working in Residence Halls in Albany, New York. She received her masters degree in Guidance and Counseling from Penn State University in 1973.

## 1972

**Michael G. Ardelean** writes to us from the beautiful hills of Vermont where he lives with his wife and two boys. After further education in Nursing Home Administration at Michigan State, he took a position as administrator of a 98 bed extended care facility in Bennington. He graciously extends an invitation to any OU alum visiting New England within the next year or so to look him up.

**Paul T. Elder** was honored May 2, at the Heart Association's annual meeting in Detroit, and selected by the Scholarship and Awards Committee of Wayne State University as the outstanding Michigan Heart Association Research Fellow of 1973. He was selected on the strength

of research done last summer under the direction of Moon J. Pak, Department of Biological Sciences. He had obtained a Heart Association research fellowship for his research on the "Effect of Emetine on the Electromechanical Property of Heart Muscle."

**Betsy J. Good** has recently taken a position as Program Supervisor, Howell State Hospital, Howell, Michigan. Prior to this she taught Music/Special Education for Lake Fenton Schools for one and one-half years.

**Ann E. (Doe) Hunt** informed us of the birth of her son, Chance Abraham. She and her small family reside on a farm in rural Clare County, near the village of Lake, Michigan. They live the "simple" life, producing most of their own food.

**Nancy (Gast) Morand** was recently married and is now residing in Windsor, Ontario, Canada.

**Timothy Shanahan** is completing his second year of teaching for Holly Area Schools (1st grade). He has made workshop presentations to teachers at the National Council of Teacher's of English National Convention in Chicago, and at Eastern Michigan University. In June he will receive his M.A.T. in the Teaching of Reading at Oakland.

**David K. Wigton** builds pipe organs for Berkshire Organ Company, in W. Springfield, Massachusetts.

## 1973

**Katherine (Cullen) McCafferty** has informed us of her recent marriage and change of residence. She is now living in Colorado Springs, Colorado.

### ATTENTION OU SONGSTERS

A group of alumni who were involved in Oakland University's Chorus - Men's Octet (later better known as "The Buckets") is interested in getting together to once again enjoy "a beautifully harmonious relationship."

While this group was active there were female soloists who joined it from time to time. You are invited to rejoin.

Anyone interested in becoming active in good music and good times once again can contact Chuck Maly, 313-273-1211.

# COMING EVENTS

## S.E.T.

September 6, 7, 8, 13, 14, 15 . . . . . House of Blue Leaves

*All performances at 8:30 P.M.*

Ticket information can be obtained by calling - 377-2245

## MEADOW BROOK ART GALLERY

September 29 - October 27

"Prints by Contemporary Artists Selected from the Richard Brown Baker Collection."

*Gallery Hours: Tuesday - Friday 1-5 p.m.*

*Saturday and Sunday 2-6:30 p.m.*

On evenings when there is a performance  
at Meadow Brook Theatre - 7:30-8:30

## SPORTS ● SOCCER
