

N. Koreans Ambush, Kill 6 GIs

SEOUL, South Korea (AP) — North Korean troops ambushed and killed six American soldiers and one South Korean below the armistice line before dawn today while President and Mrs. Johnson slept 30 miles away.

The incident was the gravest involving Americans since the Korean War ended in 1953.

It occurred eight hours before Johnson left Korea for

the United States, but there was no indication that the President was advised of the ambush.

In Anchorage, Alaska, the traveling White House said President Johnson has asked for a complete report on the incident from Gen. Charles H. Bone-steel, commander of the U.S. 8th Army in Korea and of the United Nations Command there. The President met with Bone-

steel yesterday when he visited American and South Korean troops during his stay in South Korea.

GI SURVIVOR

There was one survivor from the U.S. 2nd Infantry Division patrol.

Wounded by a grenade but reported in good condition, he said the attackers wore North Korean army uniforms.

A spokesman for the U.S. 8th Army said the attack occurred under a full moon and the firing was heard at the patrol's base camp.

★ ★ ★

A motorized patrol was sent out to investigate and found the bodies and the wounded man.

'GOOD ENGAGEMENT'

The spokesman said there was evidence that the patrol

returned the Communist fire when it was ambushed.

He described the clash as "quite a good engagement."

There was no report of North Korean casualties.

The United Nations Command announced that the eight-man patrol was jumped by the Communists about 600 yards south of the demilitarized zone between North and South Korea.

Pontiac Press Photo

UNMANNED POLICE CARS—Pontiac's first snow of the season covers the city's unmanned police cars. For the second time within two weeks, only a handful of detectives and patrolmen reported for work today. Supervisory personnel attempted to fill the gap caused by the "rash of illnesses" to policemen.

N-Weapons Accord Near in U.N. Unit

UNITED NATIONS, N.Y. (AP) — The U.N. General Assembly's top political committee was expected to give overwhelming approval today to a U.S.-Soviet appeal to all nations to refrain from any action that might help spread nuclear weapons.

Informed sources predicted the East-West proposal would receive almost unanimous support in the 121-nation committee, with only Albania voting no and France probably abstaining.

The 38-nation resolution was introduced as a stopgap measure until an accord can be reached on a treaty banning the spread of nuclear arms.

Agreement on that pact has been held up by Soviet suspicions that the United States would find some loophole to give nuclear arms to West Germany as a member of an Atlantic nuclear force.

The United States is reported preparing to change the wording of the treaty draft it has proposed in an attempt to reassure the Soviet Union that no nuclear arms will fall into West German hands.

★ ★ ★

Red China's fourth nuclear weapon test last week and its announcement that the warhead was carried by a guided missile has increased clamor for a non-proliferation pact with the loudest demands coming from nations within firing range of the Chinese.

'NEEDLESS CONFUSION'

India has urged that all the nuclear powers be obliged to halt atomic arms production under a nonproliferation pact, but Western delegates complain privately that the Indian demand creates needless confusion and will achieve nothing.

Carpenters Back Friday if Pact OK'd

Carpenters are expected to be back on the job Friday in Oakland County if they agree to a new pact with contractors at a mass union meeting in Detroit tomorrow.

If the agreement is ratified it would end the month-long strike by some 17,000 carpenters in five Southeastern Michigan counties.

Tentative approval was given yesterday by officials of the Carpenter's District Council in Detroit and four employee groups that had opposed the carpenters demand for a separate insurance fund.

The ratification meeting will be held at 8 p.m. in Cobo Arena. The 11 a.m. meeting was called rather than each local holding its own in an attempt to have the carpenters return to work as soon as possible.

★ ★ ★

The reported agreement provides that contractors contribute 30 cents of a worker's hourly pay to the fund. The contractors presently are providing 15 cents.

The agreement reportedly also calls for a wage increase of 10 cents an hour immediately and another 10 cents starting May 1.

10 Die Fighting California Fire

SYLMAR, Calif. (AP) — A blast of flames sweeping up a steep hillside snuffed out the lives of 10 fire fighters in a crew of 25 battling one of four brush fires in Angeles National Forest.

★ ★ ★

The men were veterans, known as El Cariso Hotshots, from Riverside County who had specialized in combatting the hottest of forest fires in Montana, Idaho, California and Oregon.

But they lost yesterday to that unpredictable quality of all fires — the wind behind them that kicked up before they could escape.

"It's something every fire fighter thinks about—a sudden gust of wind," said U.S. Forest Service spokesman Don Porter in reporting the death toll of a blaze that swept 2,100 acres.

★ ★ ★

Names of the dead were withheld pending notification of next of kin. Nine of the 15 survivors

in the crew were in critical condition at the Los Angeles County General Hospital's Burn Center. Suppression leaders said the

Late-Breaking News Items

WASHINGTON (AP) — Red China's latest nuclear blast was not of the hydrogen variety and did not involve thermonuclear materials, a report on preliminary analysis by the United States said today. The explosive, it said, was enriched uranium-235, the same one employed in the three earlier Chinese tests.

MOSCOW (UPI)—A typhoon with winds up to 90 miles per hour heavily damaged cities, collective farms, bridges, highways and railways on Sakhalin Island, off the USSR's east coast, the Soviet news agency Tass reported today. In line with Soviet policy to withhold casualty figures in early reports on natural disasters, Tass made no mention of killed or injured.

RALEIGH, N.C. (UPI)—An apparent tornado struck a suburban area late this morning, and first reports said "quite a few" persons were injured in a trailer camp.

The Big Wake Memorial Hospital in Raleigh said its normal power supply was knocked out when the winds lashed the building. It switched to auxiliary power.

"If that mutt of yours is a Boxer, he sure spends a lot of time on the canvas."

fire was 90 per cent contained early today.

Of the other two fires, one on Camp Pendleton Marine Corps reservation in San Diego County swept 1,900 acres. In Ventura County, a 300-acre blaze burned inland from U.S. Highway 101 through an oil tank farm without damaging structures.

In the Santa Susana Mountains west of the Angeles crest fire, two blazes scorched more than 150 acres.

★ ★ ★

The death toll was one of the worst. In 1956, a fire in the Inaja Forest above San Diego took a similar number of lives. In 1933, 29 died in a brush fire in Griffith Park, Los Angeles.

★ ★ ★

The inferno of flame coursing through Pasadena Canyon in the Angeles crest fire was touched off by a downed power line. Hot blasts of dry desert air—

a storm known locally as the Santa Ana — poured over the mountains, driving temperatures as high as 101 degrees, a record for November. Gusts reached 60 miles an hour.

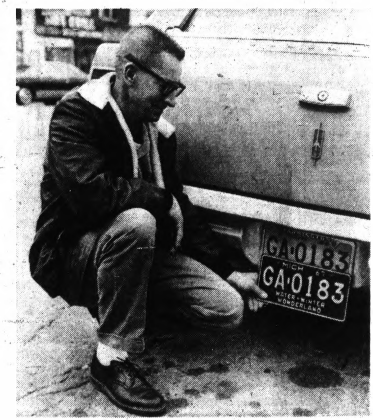

★ ★ ★

No structures were damaged, but early in the day a wall of flames was halted at Olive View Hospital, where most of 600 tubercular patients were evacuated. Also evacuated were 450 patients of a veterans administration hospital in the same area.

Election Preview

Wondering where area candidates in the Nov. 8 election stand on important issues of the campaign?

Then read tomorrow's Pontiac Press, containing statements of local, state and judicial candidates and those running for office in Waterford Township.

NUMBER'S THE SAME—New 1967 license plates went on sale yesterday at secretary of state offices. George F. Adams of 279 Campers, Highland Township, coincidentally received the same number as he had this year. Adams purchased his '67 plates at 10:55 a.m. at the Pontiac office. Last year he said he didn't buy his plates until about 2 p.m. in the afternoon of the first sales day.

42 Pontiac Police 'Sick'; Chief Says 'No Emergency'

By DAVID J. COOK

Only a handful of Pontiac police detectives and patrolmen reported for work today as 42 men called in sick and unable to work their scheduled shifts.

It was the second apparent protest in two weeks by members of the Pontiac Police Officers' Association

(PPOA), presently in the midst of a wage dispute with the city.

The illnesses included 10 patrolmen scheduled to work last night along with 15 patrolmen and eight detectives scheduled for today.

In addition, nine men asked to work an additional shift at the conclusion of their regular afternoon duty yesterday said they were "sick" and unable to.

Police Chief William K. Hanger said the city "faced no emergency as yet" because of depletions in the 117-man police force.

★ ★ ★

"We've got some tired supervisors (captains, lieutenants, and sergeants)," he said, "but right now we're able to man our assignments on a nearly normal basis."

CALL UNANSWERED

Only one call — a complaint of unauthorized parking on private property — went unanswered through the morning as staff officers manned patrol cars.

Patrol Bureau Commander Capt. Harry Nye, who put only two hours last night behind impromptu work shifts, said a required minimum work force would "positively" be on hand this evening.

"We're alright so far," Nye commented, "but I anticipate trouble if and when these 16-hour work shifts start piling up."

The rash of reported sickness drew fire from at least one city official.

CALL IT STRIKE

"They're actually on strike," said Mayor William H. Taylor Jr. "It's just a different procedure."

Sgt. Herbert C. Conoley, PPOA president, said (Continued on Page 2, Col. 1)

First Snowfall Blankets Area

Pontiac's first snowfall of the season blanketed the area early this morning. Drizzle and light flurries during the night turned to a blustering snowstorm by 8 a.m.

★ ★ ★

The U.S. Weather Bureau predicts cloudy and cold tonight with periods of snow occasionally mixed with rain or drizzle. Low tonight is expected to drop to 25 to 30.

Cloudy and colder with occasional snow and a high in the upper 30s is tomorrow's forecast. A chance of snow

'Pay Hikes Will Mean City Deficit'

Any pay adjustment for city employees will almost certainly cause a deficit in the City of Pontiac's 1967 budget, according to City Manager Joseph A. Warren.

Warren released a letter last night at the City Commission meeting in reply to six citizens who had written him of their concern over city employee wages.

Led by police and firemen, city employees have sought pay hikes to keep them in line with similar employees elsewhere. City officials have said the city does not have the money for increased wages.

Warren detailed the history of recent pay increases — one in 1964 and another last year, pointing out that the city compared favorably with other areas until last June.

Patrolmen and fire fighters are paid \$6,084 a year to start and receive \$7,059 after three years' service. After five years, patrolmen can advance to a senior patrolman rating and receive \$7,228 a year.

DETROIT PAY

Warren said "unbelievably large pay adjustments" made in July in Detroit kicked off a series of pay adjustments for municipal employees in the Detroit metropolitan area.

Pontiac's unusual budget year is calendar year results in the city just now preparing its 1967 budget.

While agreeing that a pay adjustment was essential, even if (Continued on Page 2, Col. 5)

MERRILL WEARS A WHITE HAT. SEND Merrill to Congress. —A.D.

LBJ Is Back on U.S. Soil

Birmingham Area News

Public Schools Closing 2 Days

ANCHORAGE, Alaska (AP) — President Johnson returned Tuesday night to American soil and promised that America will take a firm anti-Communist stand in Asia — and you can put it in your pipe and smoke it.

Returning from a seven-nation tour, Johnson was greeted by several thousand residents of Alaska's largest city in a steady, but gentle, midnight rain.

The President told welcome at Elmendorf Air Force Base, four miles from downtown Anchorage, that he was taking a stand in Asia — and Viet Nam — "that stand is going to come true."

Wearing a hat at a rakish angle and an unbuttoned white raincoat, Johnson stood on the

doorstep of his limousine and popped up above the roof — "move back a yard there" — and let the motorcade proceed.

One feature of the reception was a bonfire in the center of a block destroyed in the 1964 Alaska earthquake.

Approaching the blaze, Johnson spied a welcoming banner suspended from two aerial fire ladders, making an arch across the street, and said: "Thank

you very much, firemen. Come on down to the fire."

When he got to the bonfire site, a local singing group broke forth over the public address system into "Deep in the Heart of Texas," drowning out Johnson, who was trying to complete over the smaller loudspeakers mounted in the trunk of his car.

SINGERS QUIET

"We're not in Texas tonight," he said, and started stonily toward the singers a hundred yards away. They subsided.

Viet Nam was the theme of his impromptu speech in Anchorage, too. He said the United States won't permit the Communists to take over South Viet Nam — that if they succeeded there "they might be in Dutch Harbor tomorrow."

Dutch Harbor is a community in Alaska's Aleutian islands.

The President said he did not believe in ignoring a fire "until it gets to your front yard."

VIET NAM AIM

He emphasized again that his aim to get Communist North Viet Nam to the negotiating table — and the sooner they realize it, the better they'll be."

In remarks prepared for an early morning gathering in Anchorage, Johnson "summed up his arduous trip, saying:

"It has been the most rewarding, the most thrilling, the most encouraging journey of my life. I believe it may also have been the most important and the most historic."

BIRMINGHAM — Public schools will be closed tomorrow and Friday for the two-day annual Conference of Regions meeting.

The meeting is sponsored by the Birmingham Education Association.

The purpose of the conference, which covers all subjects and all grade levels, is to provide teachers and administrators with an opportunity to hear what other school systems are doing to improve the quality of education, particularly new programs.

A number of the sessions will be workshops. Information chairman for the workshops is Walter J. Piel, administrative assistant for the Birmingham Public Schools.

E. Ross Hanson, a member of the Birmingham Board of Education since 1960, resigned last night because of what he termed "increased responsibilities at work."

Appointed to fill his position until June 30, 1967, was Mrs. George N. Hilsinger, 15089 Dunblaine. Her appointment will become effective Jan. 1.

Mrs. Hilsinger has been active on citizens committees and

In other board action, William S. Corliss, director of elementary education, resigned to become superintendent of Lincoln Park Public School.

Hanson was president of the board from 1963 to 1965.

Weather's Dirty Politics Hurting State Candidates

By the Associated Press

In some of Michigan's tight races for public office it's hard to tell how the political wind is blowing.

But for candidates on the campaign trail, the winds are blowing cold — so cold, in fact, several campaign appearances had to be canceled Tuesday and today.

Reports of heavy snow in the Upper Peninsula have forced cancellation of Democratic gubernatorial candidate Zolton Ferency's scheduled plane tour of the Upper Peninsula.

Bad weather forced the twinge. DC3 plane carrying Republican candidates through the Upper Peninsula Tuesday to forego landing at Marquette and Ironwood.

Heavy snow, limited visibility, stiff crosswinds and icy runways prevailed as the plane flew over the Marquette airport while the candidates spoke to the disappointed crowd below through the pilot's radio linked with the airport's loudspeaker system.

At Ironwood, Gov. George Romney, Sen. Robert Griffin and other GOP candidates landed, but went no further than the airport lobby where they used a pay phone to speak to a waiting crowd elsewhere in Ironwood.

Despite the freezing weather, several hundred persons turned out to greet the Republicans at Muskegon.

"I hope you're right enough to keep warm," Romney told the huddled crowd, adding hastily: "I don't mean in a liquid capacity — I mean packed together tightly."

LARYNGITIS FOR WILLIAMS

It probably wasn't the cold weather, but G. Mennen Williams, Democratic candidate for the U.S. Senate, has laryngitis.

Williams, down to a hoarse croak as a result of too many political speeches in the past few weeks, canceled all campaign activities today.

WILLIAM STRINGFELLOW

Great Society Is Myth, Says OU Speaker

The Great Society was labeled a "myth," a "fraud" and a "blasphemy" yesterday by an attorney-author speaking at Oakland University.

William Stringfellow, who has written several books as a Harlem attorney and lay theologian, addressed students and faculty members in the current series of appearances by nationally prominent speakers.

"The Great Society blueprints repairs, while the old house has rotted and is in collapse, and it is a new house which must be built," Stringfellow said.

Relatively inconsequential as a movement of social change, the Great Society moreover is a reactionary and retarding influence in American life, in the life of the world," he said.

Commenting on foreign policy, he said the myth that America gained its economic, political and military power because of the moral superiority of "the American way of life."

'SATELLITE NATIONS'

This view is used as a justification to establish a system of satellite nations, through "economic conquest" and "ideological aggression" as well as by the use of military power, he said.

Turning his attention to the domestic situation, Stringfellow charged that "the War on Poverty is itself impoverished."

Stringfellow gave priority to America's racial crisis as the issue "that will determine the very survival of society, as well as any claim to greatness."

Stringfellow also proposed restructuring governmental units to meet "the realities of a mass, atomized, urbanized society."

He warned that attitudes currently prevalent "will lead to the destruction of American society as a society worth living."

Robert Jackson, a member of

Taylor Tells Why Architects Unhired for City 'Concept'

No architect has been hired yet because there is no plan, only a concept for downtown Pontiac redevelopment, Mayor William H. Taylor Jr. explained at last night's City Commission meeting.

Taylor replied to questions raised by spokesmen for the Citizens Committee for Pontiac's Positive Progress, a self-appointed group interested in the downtown project.

"We question your judgment, not your honesty," said the committee's president, Donald R. Frayer of Don Frayer Home Furnishings, Inc., 1108 W. Huron, Waterford Township.

Debate continued last night on whether the city had sufficient architectural advice prior to its decision to approve an agreement with developer A. Alfred Taubman of Oak Park for downtown redevelopment which features a mall-type shopping center.

MOTION REJECTED

Last week the commission rejected a motion to seek further advice.

Spokesmen for the citizens committee last night repeatedly asked what architects were employed by Taubman or had consulted the city.

Taylor said Taubman, who the mayor claimed was a graduate architect, used five architects at various times on his shopping center projects.

"There is no basic plan yet. The traffic study hasn't been completed, so no architect has been hired yet," explained Taylor.

'I DON'T CARE'

District 5 Commissioner John A. Dugan commented, "I don't really care about architects. I'm not interested in architects at this time, the only thing I was interested in was what Taubman could produce."

Taylor said a member of the liaison committee was an architect and had been involved in meetings with Taubman and the city.

District 4 Commissioner Leslie H. Hudson said it was possible that Taubman had not yet selected his architect and probably wouldn't until he had signed contracts from tenants.

"We have the right man," said Taylor. He reiterated that the final plan for downtown would have to be approved by the commission.

FINAL PLAN

He said the final plan might include some of the elements contained in the University of Detroit design.

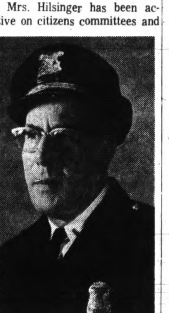

Mayor William H. Taylor Jr. said last night that Pontiac municipal wages can never keep abreast of Detroit, but that the city would continue to keep wages in line with the metropolitan area.

TAX LIMIT

Taylor pointed out that Detroit had an income tax and also did not have the 10-mill tax limit that Pontiac has in its city charter.

District 4 Commissioner Leslie H. Hudson commented that if a portion of the surplus were used for pay hikes, what would happen the following year if a new source of revenue isn't found.

"I hope people realize the financial crisis that we face," concluded Hudson.

Prober Indicts 7 Persons and Meat Firm

GRAND RAPIDS (AP) — Seven individuals and a meat processing company were indicted by Grand Juror Stuart Hoffus here today.

Hoffus, conducting an investigation into alleged violations of state agriculture laws, said his investigation substantially was complete.

Indicted today for conspiring to violate meat processing laws were: Roy Cooper, William Peterman, Gerhard A. Rietsema, Edwin L. McIntyre, Thomas Thoburn, Thomas A. Jack Thomas and Thomas A. Jack Thomas and Thomas A. Jack Thomas and Thomas A. Jack Thomas.

They were to be arraigned in Municipal Court later today.

Cooper, Peterman, Rietsema and McIntyre were indicted previously by Hoffus. They are free on \$500 bond each pending Circuit Court examination.

Cargo Officers Needed

Merchant Marines Hold Crash Course

KINGS POINT, N.Y. (AP) — The U.S. Merchant Marine Academy is double-timing its cadets to provide critically needed officers for the stream of cargo vessels taking supplies to Viet Nam. The cadets are meeting the test in shipshape fashion.

The 207 senior cadets are on a crash course aimed at a Feb. 10 graduation, six months ahead of time.

Rear Adm. Gordon McLintock, academy superintendent, is happy with their progress. "The program is running smoothly and we expect to meet the deadline of graduation with no problems," he said Tuesday.

EARLY DATE

"In anticipation of the stepped-up graduation date," McLintock said, "plans were made in August so that the graduating class could get all required work by the early graduation date."

"While this resulted in minimal cuts in the academic program, it resulted in a heavy workload for the cadets."

The academy accelerated the deck and engine officers' program because that's where the critical shortage is on the ships carrying troops and supplies to Viet Nam.

James W. Gulick, acting head of the U.S. Maritime Administration, has said 550 licensed deck and engine room officers

are needed to offset a mushrooming shortage on the ships.

Gulick said the officers would come from the federal academy here and from five state maritime academies which are also moving up graduation dates.

Kings Point will supply almost half the needed officers. The graduating class will send 76 deck and 131 engine room officers to the Viet Nam-bound ships.

The seniors will receive licenses as third mates or third assistant engineers. They also will receive bachelor of science degrees and commissions in the Naval Reserve.

UNUSUAL TEACHING AREA — Teacher Mrs. Ruth Herberger conducts her class at a unique half-circle desk in Holly's Patterson Elementary School. The desk is the invention of Holly elementary teachers who helped

design the school. The idea of the desk is to put the teacher on the same level with the pupils. It allows small group instruction while others in the room do other work.

INFORMAL STUDYING — No confining tables and chairs for youngsters to study at in the Patterson Elementary School, Holly. There will eventually be more conventional equipment in the instructional materials center, but right now the pupils enjoy studying on the floor. Sprawled on the carpeted steps are (from left) Mike Forbush, 15;22; Riviera Shores, Harry Herber, 3;24; Grange Hall, and Mike Spring, 3;00 Seminole, all of Holly.

Hearing on Street Lights Is Moved Back 3 Weeks

INDEPENDENCE TOWNSHIP — The public hearing for a special assessment district street-lighting project in Clarkston Estates Subdivision No. 2 was changed from Nov. 15 to Dec. 6 at last night's Township Board meeting.

Proposed is the installation of 21 lights on Princess, Oakwood, Squirrel Hill, Sunnydale, and Meadow Lawn in the southern part of the subdivision with a maximum cost to property owners of \$9.48 per lot per year.

In response to the Township Board's request, the Oakland County Road Commission built a path on Walden from the western end of Clarkston Elementary school to the vicinity of Wealthy.

Previously children have been forced to walk on the road because of narrow road shoulders.

Clerk Howard Altman suggested to the board that it take

steps to find new solutions to the dumping problems, even while contracting for the use of the land-fill project in Brandon Township.

RECOMMENDATIONS
The board is currently considering recommendations proposed by Robert Diehl, assistant planner for the Development Planning Co.

In other business, the board accepted the Oakland County Road Commission's offer of \$9,900 for public road construction and maintenance which is to be matched by township funds. The board allocated its portion from the revolving fund.

Music Teacher Confab

EAST LANSING (AP)—More than 100 public school music educators will discuss new methods and materials for music teaching at a conference Nov. 12 at Michigan State University.

National Program

Farm Group Election Near

Oakland County farmers, whether operators or owners, have been notified that Dec. 6 is election day for choosing local committeemen to the Oakland Agricultural Stabilization and Conservation Committee.

Delegates to the county committee will be elected.

Alfred Haack, chairman, says the elected county committee will administer the national farm program in the fields of price support, conservation, crop land adjustment, feed grain and wheat and wool incentive.

Since 1959 the allotment program has been on a purely voluntary basis, according to Marshall L. Mohney, county office manager. Those farmers wishing to share in the price support program follow the allotment procedure. There is no penalty for not doing so, Mohney says.

In Oakland County the committee will represent some 2,000 farmers and a total of 120,000 acres of agricultural land.

Voters to Meet the Candidates

AVON TOWNSHIP — Candidates for the State Legislature and for Avon Township offices will face the voters in a program at 8 p.m. tomorrow at North Hill School, Rochester.

Rochester League of Women Voters will sponsor the meeting. Both Rep. Robert J. Slingerland, D-Lake Orion, and Donald Bishop, Republican candidate for the job, will be present, as will State Sen. Robert J. Huber, R-Troy, and his opponent, Democrat Edward A. Kavanagh.

Township Supervisor Cyril Miller and his opponent, Democrat Louis Berklich, will be there to answer questions about the future growth of the township.

Each candidate will be given time to introduce himself and to state the issues as he sees them. The audience will be permitted a question period, and an informal coffee hour will follow.

Prior to the election, the league will distribute voter guides in the community, listing biographical and political data.

Open House Slated at Oakley School

WALLED LAKE — A community open house will be held at the new Oakley Park Elementary school from 2 to 4 p.m. Sunday in place of a formal dedication.

School officials will conduct tours through the 20-room school located east of the high school on Oakley Park Road.

The school is to serve as the model for another elementary school scheduled to be under construction early in 1967.

TV Clowns Slated for JCs' Fund-Raiser

CLARKSTON — The Clarkston Area Jaycees will sponsor a 1½-hour show at 2 p.m. Sunday in Clarkston High School to raise funds for local Jaycee mental health-retardation programs.

Appearing in the show will be television personalities Bozo the Clown and Milky.

Other performers booked to appear are Fred Daye and his comic band, balloon sculptor Red Ace and the Harold Ramon Harmonettes.

Tickets can be purchased at the door or beforehand from any Clarkston Jaycee.

Each child will receive a free autographed picture of Bozo, according to Jaycees.

Society Slates Dinner-Bazaar

WHITE LAKE TOWNSHIP — The Woman's Society of Christian Service for Four Towns Methodist Church will hold its annual harvest dinner and bazaar from 2 to 7 p.m. Saturday.

Dinner will be served from 5 to 7 p.m.

'Adapts to Changing Ideas'

New Holly School Teacher-Designed

HOLLY — Gone are the days — at least in Holly — when an architect designed a school and teachers learned to live with it; like it or not.

Now teachers get together, decide what they want in a new school, then tell the architect to design a building to their specifications.

A case in point is Patterson Elementary School, the final addition of which was opened this fall.

According to principal Donald Frownfelter, chairman of the planning committee, the building was designed "to be adaptable to the changing ideas that are permeating elementary education."

He said the guiding philosophy was that each child should be given the opportunity to develop his own skills and talents to the maximum; that education should be a continuous process; and that a child's instruction should be geared to his abilities.

WENT TO WORK

Using this philosophy and the fact that no ideas were to be considered impossible or ridiculous, the committee went to work.

"What they came up with is a school fairly unique in the area and one which will hopefully serve as a basic plan for future Holly schools."

One unusual feature is the carpeted instructional materials center which provides for group instruction or individual research in a related, informal atmosphere.

Frownfelter said the center teaches the process of self-education by training the child to independently locate and use appropriate materials.

ROOM MATERIAL

The room will eventually contain 10,000 volumes, film strips, tape recordings and other instructional materials.

Another feature, unique in an elementary school, is a gymnasium devoted exclusively to physical education.

Elementary physical education classes are normally taught in a multipurpose room which is

also used for numerous other activities.

At Patterson, Frownfelter explained, the multiuse has been taken out of the gym and its basic function is to provide space for good physical education.

INTEGRAL PART

He said the philosophy is that physical education is an integral part of the school curriculum and contributes to many important objectives of education.

The gym also provides a place for large assemblies and an area for social functions and community use.

To justify the gym and other features such as lunch rooms, Frownfelter said, the 28-room building was designed to contain

News of the Area

about 1,000 pupils, considerably more than the average elementary school.

"We couldn't have things like a gym in a 13-room school," he said.

Further flexibility is achieved

through use of movable walls between several classrooms.

Folding wall partitions allow for small or large group instruction.

Frownfelter pointed out additional classroom space was

gained through use of narrower hallways.

He said halls are only six feet wide because the planning committee felt wider passages are only wasted space.

"We were fortunate in having a board of education and administration which allowed teachers to plan the building," said Frownfelter.

"The community, too, has accepted this wholeheartedly."

Hopefuls Will Discuss Aims

COMMERCE TOWNSHIP — The Candidates for local township offices will discuss their reasons for running for office at a "Meet Your Candidate Night" Monday.

The program, sponsored by the Commerce Elementary PTA, will be held at 8 p.m. at the school, 520 Farr.

The candidates are for township supervisor, Republican incumbent Thomas Tiley and his Democratic opponent John Dally; for clerk, incumbent Harry Helvey; and treasurer, incumbent Blanche Cummins.

Candidates for the trustee position are Republican incumbent Frank Crawford and his Democratic opponent George Merring.

'Exceptional Child' Topic

WALLED LAKE — Mrs. Mary Ostrowski, special adviser to the Oakland County Board of Education, will speak on "The Exceptional Child" at the 8 p.m. meeting Monday of the Wall Lake Elementary PTA.

Mrs. Ostrowski is also a member of the Michigan Association for Retarded Children.

Books entitled "School Years" will also be available at the meeting to be held in the school's multipurpose room.

'22 Men Needed'; Police Chief Gets 1

SHELBY TOWNSHIP — The Township Board meeting he need to call for help from neighboring police departments on recent weekends has led Police Chief Robert Smith to announce that his department needs 22 more men.

However at last night's Shelby Township Board meeting he agreed to settle for one new patrolman, plus the elevation from the ranks of a police lieutenant and a detective. Approval was given by the board.

Smith says one two-man car is all that is presently available to patrol the 35 square miles of the township after dark and to keep tabs on its 25,000 residents.

Smith's department is currently composed of nine patrolmen and three sergeants.

A regular working day, he says, finds both he and a dispatcher on duty, one sergeant on the road checking ordinance violations and another officer on traffic patrol.

The 13-man force must be split up over a 24-hour, seven-day week, according to Smith, and it's too thin.

"I get the feeling things are beginning to get away from me," he says.

While officers patrol singly in the daytime, Smith says he finds it advisable to double them up after dark.

That leaves two unused cars at night, he reported.

The police department operates on a yearly budget of \$119,064. While officers' pay is equal to that of firemen, still firemen in Shelby have the advantage of having 2.5 mills voted by the people specifically for fire protection. The fire department's yearly budget for a staff of 16 men is \$169,064.

Smith thinks he could use that much and then some, but since police appropriation must come from the township's general fund, he's hampered.

Smith thinks he could use that much and then some, but since police appropriation must come from the township's general fund, he's hampered.

Pair Appointed

IMLAY CITY — Manager Harvey Weatherwax and Mayor John Folk were appointed by the council last night as delegate and alternate to the Greater Lapeer County Utilities Authority.

The two will attend the next meeting called for Nov. 17 in Lapeer to ratify such an authority.

Car Insurance Cancellation Law in Effect

LANSING (AP)—Auto insurers must list valid reasons before they may cancel any liability policies issued from today on, and the policy holder may appeal to the state, under a state law which took effect Tuesday.

"This should take care of one principal complaint we get—that people can't find out why they were canceled," said William Wadsworth, director of the State Insurance Bureau's enforcement section.

Companies now must give 10 days written notice of cancellations and list the reasons, and the new law spells out what the reasons may be.

The policy holder then may appeal to the insurance commissioner, and either the policy holder or insurance company may appeal the commissioner's decision to Circuit Court.

LAWSUITS FEARED

Wadsworth said insurers often did not list reasons for cancellation, especially when the policy holder's moral character was involved, because they feared libel suits.

The law, he said, exempts companies from liability for statements in the cancellation notice or in the commissioner's hearing.

Reasons for cancellation may include an accident or conviction record or physical, mental or other conditions which considered as a whole indicate the driver would endanger the public safety.

They also may include fraud, excessive use of alcohol, narcotics addiction, criminal negligence while driving, car theft, leaving the scene of an accident, loss of license or use of an unsafe car.

DRUNKEN DRIVER

One drunken driving conviction would be reason enough to cancel a policy, Wadsworth said.

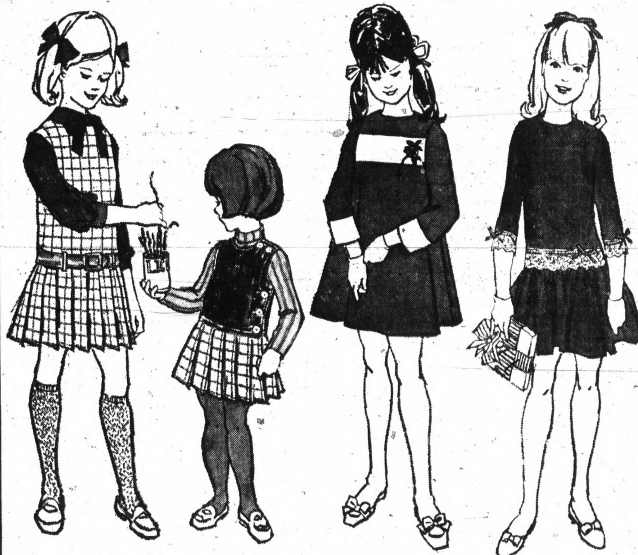

The law applies only to liability policies, and not to policies covering damage to the policy holder's own auto, Wadsworth said. The law also does not apply to cars used strictly for business.

'You Should Sit Down And Talk To These Fellows!'

David Lawrence Says:

De Gaulle Blunders Astonishing

WASHINGTON — Perhaps the greatest tragedy in the field of diplomacy today is the misguided, if not mischievous, effort being made by President de Gaulle of France to break up the Western alliance and unwillingly encourage the Com-munists not only in the LAWRENCE Viet Nam war but in their intrigues inside Europe.

Little is being said publicly here by government officials, but privately they are astonished and depressed by what the French president has been doing.

Nor is the criticism confined to this country. Within the last few days, the London Daily Telegraph, in a strong editorial, said that President de Gaulle's references to Viet Nam in his public statements "were distorted and anti-American up to the limits of what is tolerable between what are — in spite of France's military defeat and economic attacks — still nominally allies."

Looking at the situation from a long-range viewpoint, France is by no means helping even her nationalistic cause. For in the present-day world, no nation can set up a defense by itself, and from time to time the cooperation of allies is essential, especially in the fluctuating cycles of economic life.

The French people have never been informed about what damage President de Gaulle has done to the prestige of France in this country and, indeed, in Great Britain and elsewhere.

The after effects are not always immediately observed.

There are some French diplomats, to be sure, who privately dissent and wish that President de Gaulle would follow a more constructive course. But the impression prevails that French officialdom is inclined to be subservient and is reluctant to deviate from the formal line taken by the French president.

American officials are at a loss to understand the de Gaulle philosophy.

They concede that, when there is no immediate threat of war, the policies of France can continue to be isolated. But once dangers of conflict begin to cloud the skies, the French government will find itself begging for a return of Nato bases to France and for other military help.

NO DECEPTION
At the moment, the Russians are regarded as pacific in

their intentions, but they are by no means deceiving American observers who have followed the curious quirk of Soviet policy in the past. For today the quarrel between Russia and Red China happens to be over which country can help the North Vietnamese the most in their aggression.

On the whole, French policy is deplored here, but the predictions are that in the long run it will be France which will be hurt the most by Gen. de Gaulle's erratic diplomacy.

(Copyright, 1966, Publishers Newspaper Syndicate)

Bob Considine Says:

Omaha, Neb., Is Truly an All-American City

OMAHA — Ah, to be in Omaha now that Indian summer is here!

It was named one of the all-American cities a few years back, and never a judge cast a truer ballot.

Cut yourself a juiced-lard cross section of Omaha, as you'd cut one of its world-champion steaks (which they foolishly call a New York cut), and you've exposed not only the geographical but also the geopolitical heart of the U.S. and a tetch of the homely qualities we tend to forget on the coastlines of our land but which are manifestly American in war and peace overseas.

The five-million ton of grain for the needy of India was sent on its way from a local pier, bidden farewell in person by a Democrat president, LBJ, in country that is traditionally Republican, conservative, hard-working and proudly dedicated to private enterprise.

The President's special assistant, Gen. Maxwell Taylor, was dispatched here last week to explain the Viet Nam war and the Manila conference to thousands of Nebraska high school and elementary teachers.

The finest beauty-and-brains contest the state can offer,

Queen of Ak-sar-ben, was won by a schoolteacher.

NEW MOVIE

An Omahan wrote the new Walt Disney Movie, which is about the siege of Donegal.

Chubby, rosy-jawed Omaha kids win blue ribbons at 4-H stock trials, run vigorous little businesses under the banner of Junior Achievement.

But one comes upon less mighty matters, of course, including a missed putt that cost us two Bucks on the final green of the picture-lard Sleepy Hollow Golf Course. And the questions sent up from the audience after I, a dropout, addressed 6,000 Nebraska schoolteachers. Questions such as "Why are we in Viet Nam?" "How can we warrant more respect as a profession?" "Why is bad news always given a more prominent place than good news?"

Well, why do they call it a New York cut . . . ?

Tundra-Type Igloos

The Grand Rapids Press

A shipment of 22 government-financed, prefabricated, ranch-type igloos has been delivered to Point Barrow, northernmost City in the United States, for distribution to the Eskimos.

If there was any surviving misconception that modern-day Eskimos live in ice igloos, built of sod, whale bones and driftwood, this ought to put it to rest. Oh, some of them do still exist, but only as tourist attractions, says the Department of Agriculture, which sponsored the shipment of prefabricated igloos to Point Barrow in an effort to improve housing conditions among Alaskan Eskimos.

Housing has been a critical problem with Alaskan Eskimos, say the experts in the Department of Agriculture, who know about such things, because lumber is so scarce in the Point Barrow region.

The prefabricated igloos are erected on stilts because if they were put on conven-

Voice of the People:

UAW Director Morris Comments on Editorial

Your editorial "Citizens Puzzled by UAW's Prejudiced Blast at Pontiac" requires a reply.

The UAW is sure that the citizens are not puzzled by the article which appears in the UAW's Solidarity, published not in Detroit, but in Washington, D. C.

The UAW does spend the dues collected from its Pontiac local union membership to improve their lives through collective bargaining which has resulted in increased wages, pensions, complete health, hospitalization, medical, and surgical, life, and sickness and accident insurance, vacations, supplemental unemployment benefits and better working conditions.

You state that "A hefty move citywide is now under way. Kenneth Morris has had a straightforward pledge from all segments to assist him on housing with enthusiasm, time, money and planning."

Are you saying that General Motors, The Pontiac Press, the utility companies, the Community National Bank and the Pontiac State Bank have pledged enthusiastically or otherwise to assist? Do we understand that they have agreed to spend a small part of the hundreds of millions of dollars they have taken in profits? The UAW has made such a commitment.

Have everybody enumerated above put their commitment in writing and then we can create the Pontiac Development Corporation. It would be a non-profit corporation to interest the private sector to redevelop the downtown central business district, build new housing, rehabilitate old neighborhoods, assist in the expansion of present industry, as well as attract new industry, etc.

Can we count on The Pontiac Press? You did not print our last letter in its entirety. If you do not print this letter in full, would you inform your reading public you have edited it?

KEN MORRIS, DIRECTOR
REGION 1B, UAW

(Editor's Note: We have no knowledge of whether the firms listed "have pledged enthusiastically . . . to assist the development." Ascertaining this lies primarily within your own province and activity (as the leader). You started this great housing movement to which we have already subscribed wholeheartedly. You ask when to start and again the reply lies in your own capable hands.

You comment on our failure to print your letters in complete detail. We edit 990 out of a thousand. We edit and shorten practically every AP story we run. We edit and shorten practically every UPI story we run. We edit and shorten local stories, argue stories and our own editorials. (This letter has been reduced 50%.)

We always aim to give our readers the widest variety of things that interest our area the most. We propose to continue. Should your letters be placed in a special category?

Question and Answer

We're third grade students at Wever. Our teacher showed us a picture of a marker she took at Orchard Lake. She had to cut down weeds to take the picture. We'd like to know who cares for it, because we think it is an important historical marker. We study Pontiac history and many third graders go to see this marker. We think weeds should be cut away so people can see it.

THIRD GRADE CLASS
WEVER ELEMENTARY SCHOOL

REPLY

We're sorry to keep you waiting so long, but it took many telephone calls (including several unheeded requests for a return call), before we could get an answer. Police Chief Peters of Orchard Lake is responsible for cutting weeds cut along that road. He says they are cut twice a year and the marker is now clearly visible. However, from the information we could get, there seems to be no provision for cutting weeds that may cover the marker between scheduled mowings.

Air Plan to Expand Area Park Setup

Voters will ballot November 8 on a proposal to authorize the Oakland County Parks and Recreation Commission to acquire park sites while they are available to provide 15 to 20 additional park and recreational areas.

Time is of the essence if this worthy, project benefitting present and future generations is to become reality. Suitable land in Oakland County is becoming scarcer by the day. It took the County 130 years to reach its present 800,000 population. By 1980, the figure will double, and by 2000 it will double again — outstripping recreational facilities threefold.

Financing the park expansion program encompassing every conceivable form of sports and outdoor pursuits would be unbelievably painless.

The County would raise some

\$672,000 annually over a five-year period by imposition of a property tax increase of 25 cents per \$1,000 of assessed valuation — equivalent to an average annual cost of \$1.50 per family.

The amount thus raised by the County would be matched equally by the State and doubly by the Federal government. At the expiration of the five-year project and the demise of the special tax levy, the County would find itself with a superlative \$12.5 million park and recreational system adequate for the needs of present and future residents.

We commend the County Parks and Recreation Commission on its farsighted approach to providing our area with the recreational facilities befitting Michigan's second largest county, and urge voter support for it.

U.S. Last Stronghold of a Free Economy

In Italy, about 75 per cent of heavy industry and 40 per cent of all industry is state owned. In Japan, powerful cartels, backed by government, impose industrywide controls over production, prices and markets. A Japanese tourist is limited to \$500 a year for foreign travel.

In France, government planners, through a program called "persuasive planning," broadly influence the economy. In Great Britain, wages and prices are frozen. Vacation travel abroad is restricted to \$140 per person a year.

In short, the curtain of economic dictatorship is lowering throughout the world. The light of freedom is being extinguished. The United States is the last remaining citadel of individual liberty, and even here, there is talk of controls to meet inflation.

We cannot blame this on war

alone. The Viet Nam war is absorbing less than 8 per cent of total U.S. output compared to 13 per cent in the Korean war. A noted American executive comments that the face of the free market is changing: "Today," he points out, "there can be no doubt that much of the future of capitalism lies within the purview of government attitudes and government performances."

"Strong as our market system is — and great as its accomplishments are — it is not impregnable. It can be engulfed, even by those with the best intentions; for many times those who need the super-productiveness of the market system the most seem to understand it the least."

Unlike the warning of rattlers, the dangers of socialism often are heard as the seductive notes of utopia.

Stylist Sees Hair Tied to Skirt Hem

A hair stylist told the recent Beauty and Harvest Festival at Charlotte, N.C., that the upcoming fashion for midday will be to wear the hair short during the day, when skirts are short, and longer at night (through use of hair pieces), when skirts are longer.

In other words, the length of the feminine hair will be fashion-linked with the length of the feminine skirt.

This may be stylish all right, but it sure is going to seem funny to see women walking around practically bald in the daytime.

Nothing Seems to Pep Up Election

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — President Johnson returns today, puffing with delight from the reception he got on his Asian journey, but it is doubtful the 17-day trip will have much effect on next week's elections.

The story might be different if the North Vietnamese Communists had grabbed at the peace proposals put together at Manila by Johnson and the leaders of six Asian and Pacific nations. But they didn't.

As usual, they ridiculed the suggestion coming from this side.

Johnson had a choice before he made this trip and some day may explain why he went to the Pacific and Asia in the midst of the 1966 election campaigns instead of staying home to help his Democrats.

He may have felt he could help them more by the Manila meeting, the big peace proposal, the grand tour and the image of a busy world leader such a trip creates.

The memory of the trip, and the day-by-day headlines would be vivid in voters' minds when he did return and, in the few remaining days before the election, put on a whirlwind campaign, as he intends to do.

Perhaps this will help more than if he had stayed home all the while.

Alum Filler for Practice Ammo OK'd

By Science Service
DOVER, N.J. — The Army will soon start making practice ammunition with an ingredient borrowed from baking powder, dyes and after-shave styptic pencils — alum.

The search for the ideal filler material lasted two years at Picatinny Arsenal here, largely because the ideal substance had to fulfill so many conditions.

Besides matching the weight and volume of the actual explosive, it had to be stable under all sorts of temperature and humidity conditions.

In addition, it had to permit use of the same loading equipment as the explosive, and to leave the shells easily cleanable after firing.

An alum-based filler appears to be the answer. It has survived storage in 17mm test shells for two years, is stable, odorless, nontoxic, and water-soluble for easy cleaning.

Manufacturing and loading demonstrations of the new filler were held successfully at Aberdeen Proving Ground, Md., the Lone Star Army Ammunition Plant in Texas and Picatinny Arsenal.

Significant savings in material and labor costs are anticipated by use of the alum filler base instead of fillers currently in use.

Archaeology is the study of the remains of ancient civilizations.

'Magic Years' of Preschooler Contab Topic

"The Magic Years" of the preschooler will be explored by parents and teachers during a Nov. 12 conference at Oakland University.

Some 300 persons are expected to attend the program to hear nationally known speakers lead workshop panel discussions.

The program was designed by Mrs. Sidney L. Schuchter of Birmingham, president of the Michigan Council of Cooperative Nurseries.

Luncheon speaker will be Dr. Armin Grams, leader of the human development graduate program at the Merrill-Palmer Institute.

Author of "Children and Their Parents" and "Facilitating Learning and Individual Development," Grams is a certified consulting psychologist in the state.

MORAL TRAINING
His topic will be "Sexual Education and Moral Training of Our Sons and Daughters."

There will be morning and afternoon sessions of the five workshops, including each participant to attend two.

"Self and Self-Discipline in the Preschool Child" will be led by Dr. Ned Papania, director of psychological services for the Detroit Consultation Center and research psychologist at Wayne County Training School.

WORKSHOP LEADER
Leader of the "Creative Activities at Home" workshop will be Mrs. Milton Ganz, nursery school teacher at the Southfield Play Center.

Esther L. Middlewood, chief of the Michigan Department of Health's education section, will lead the workshop on "The Management of Aggression in Young Children."

A panel headed by Dr. David J. Doherty will discuss a topic of special interest to teachers: "Preschool for the Disadvantaged Child." Doherty is assistant director of the Mott Center for Community Affairs at Oakland University.

In addition to OU's Division of Continuing Education, sponsors of the conference are the Greater Detroit Cooperative Nursery Council, Michigan Council of Cooperative Nurseries, the Preschool Association of Metropolitan Detroit and Michigan State Cooperative Extension Service.

Reservations and further information can be obtained from OU's conference department.

Cancerous Tumor's Effects Are Studied

By Science Service.
TOKYO, Japan — Scientists are trying to find out why a cancerous tumor in one part of the body causes sickness of other parts and general body discomfort.

One group reported their work at the ninth International Cancer Congress here.

Drs. Katsutaro Shimaoka, Joseph E. Sokal and Leon Stutzman speculate that the cancerous process involves release of toxic substances into the blood circulation.

Urban League Plans Youth Service Group

An interracial youth service group to be organized later this month is one of some 20 programs designated for implementation by the Pontiac Area Urban League in 1966-67.

Clarence E. Barnes, executive director of the league, said the youth group is intended to be a work activity, with most of its efforts directed toward community service.

The group will be under the direct supervision of Elvin Ryan, a member of the league's professional staff specializing in youth incentive and education, job development and employment opportunities.

Giving Ryan assistance will be Michael Lee and Patricia Keel, Pontiac Central High School students, sent by the league last August to the National Urban League conference in Philadelphia.

Other areas to receive league attention in coming months are health and welfare, housing, and job development.

SPECIFIC PROJECTS

League aims in specific projects were outlined by the group's program committee, under the chairmanship of William M. Jenkins.

Implementation of the projects is now the task primarily of Barnes, Ryan and the other two members of the league's professional staff.

Lonnie Threadgill will work with projects in the areas of housing, health and welfare.

Beverly Romanchuk, currently completing a master's degree at the University of Michigan, will be based at the league's Pontiac office and will be available for assignment to particular areas, according to Barnes.

Housing "geared to meet the needs of all income and population segments" in Pontiac, a "strengthening family life" effort, and an attempt to make city youths aware of recreational opportunities are also among the league's 1966-67 program aims.

Rhodesia Turns on Queen Aide

SALISBURY, Rhodesia (AP)

Hundreds of Rhodesians—black and white—are helping Gov. Sir Humphrey Gibbs pay his bills. He lives in near-exile, shunned by Rhodesia's rebel Prime Minister Ian Smith and many of the white population.

"The governor's broke," says Capt. Christopher Owen, his aide-de-camp.

Sir Humphrey is Queen Elizabeth II's representative in Rhodesia, where Smith declared independence last Nov. 11.

Rhodesian-born, the governor remained loyal to the queen and the British government and stayed at his post, defying demands from Smith's government that he vacate Government House.

NOT RECOGNIZED

The Smith regime doesn't recognize Gibbs. Likewise Sir Humphrey doesn't acknowledge Smith as the lawful authority.

Each month Owen gets a \$700 demand for the rent of Government House.

It's addressed to Stand 8060, Salisbury, since the title "Government House" links the Rhodesian government officials.

Owen files the demand away and forgets about it.

CONTAIN FUNDS

About the same time as the rent comes due a shoal of letters arrives addressed to the governor. They mostly contain funds to assist in paying running expenses.

Donations to the unofficial "governor's trust fund" came mainly from white Rhodesians, subscribe. An African cook and but sympathetic blacks also a priest send \$2.80 monthly.

"Sir Humphrey is not a wealthy man," said Owen. "When the illegal Rhodesian government stopped his salary he was broke."

Gibbs depends almost entirely on his salary as the queen's representative in Salisbury, plus the income from a farm. Severe drought has reduced his farming profits to practically nothing. British Prime Minister Harold Wilson offered to pay for everything, but Gibbs declined.

Junior Editors Quiz on
SALMON

QUESTION: Can salmon really swim up waterfalls?

ANSWER: Our picture shows one of the most stirring sights in nature. It shows the large powerful salmon of the Northwest, who are driven, during the spawning season, by an irresistible urge to come back from the sea to the fresh-water streams where they were hatched from the original eggs.

Foaming falls may lie in the way, but the big fish can hurt themselves up to 10 feet into the air.

By such leaps over the falls and hard swimming in the rapids, they fight their way to the quiet upstream shallows, where they lay their thousands of eggs and then die, their life cycle accomplished.

Many large dams, providing irrigation and electric power, have been built across the salmon streams. These would prevent the fish from swimming upstream, except that the builders include fish ladders, (lower picture), up which the salmon can easily move, leaping from step to step.

The fish ladders encircle the dams on both sides. After working his way up one of these, a salmon emerges on the upper level above the dam and continues to swim upstream.

FOR YOU TO DO: Since this illustrates one of the remarkable things in nature, clip out the drawing and article to paste in your scrapbook.

Sex Clouds Issue
of Airline Service

By DICK WEST
United Press International
WASHINGTON — The other morning on my way to work, I stopped by the airport and spent a few minutes interviewing passengers. I wanted to get their reaction to the dispute between the airlines and Rep. Martha W. Griffiths, D-Mich.

WEST Mrs. Griffiths has challenged the requirement that stewardesses must be "young, attractive and single." It is her contention that home-

ly old married stewardesses could do the job just as well. She said the emphasis airlines put on sex appeal is "an insult to every man who rode a plane." And besides, she said, a stewardess wouldn't be less attractive after getting married.

I am pleased to report that if the passengers I interviewed are typical, Mrs. Griffiths' report is absolutely right. The first man I spoke to had

just landed on the shuttle plane from New York. "Pardon me, sir. Would you mind telling me whether the stewardesses on your plane were young, attractive and single?"

"Oh, yes. Yes indeed. Very much so."

"And did you feel insulted?"

"I have never been so insulted in my life."

"You resent the airline's emphasis on sex appeal, is that it?"

"No. I was insulted by a stewardess. When I asked her for a date she said she only went out with men who were young, attractive and single."

The next passenger I approached had flown in from Chicago.

"Sir, do you think stewardesses would be less attractive after she is married."

"No married men wouldn't give a single girl a second glance."

"Why are you talking so loudly?"

"That's my wife standing over there."

Here Are Helpful Hints

Boyle: No. 1 Hobby Lobby

By HAL BOYLE
NEW YORK (AP) — Doctors are always telling bored middle-aged and elderly people, "What you need is a good hobby. It will add zest to your years."

The trouble with most people, however, is that they don't really want to acquire a good hobby. All they want to do is go on following their bad habits such as eating, drinking, gossiping and chasing members of the opposite sex.

But if your doctor has forbidden you such pleasant pastimes, there are still other ways you can make your declining years endurable.

Here, for example, is an off-hand list of unusual hobbies, any one of which may give you more fun than collecting stamps or sticking pins in expired butterflies — and may also raise the eyebrows of your neighbors: Collecting memorable remarks made at cocktail parties. This is a real test of ingenuity. Literary scholars have estimated that there is an average of only one memorable remark made for every 10,000 cocktail parties in America, so you have

to keep your ears open all the time in order to build much of a collection.

SQUIRREL SWEATERS

Knitting sweaters for squirrels in the park. Turning out the sweaters is fairly easy, but getting the little rascals to wear them — particularly during the summer months — will test all your powers of persuasion.

Learning to eat spinach. This is a test of character. But if you start slowly, nibbling only a few leaves a day, before you know it you will be able to put down from 10 to 25 pounds of spinach a week. You'll wind up with so much iron in your system, you'll clank when you walk.

Keeping the spirit of Santa Claus alive all year round. Pick the biggest elm in your back yard, and starting on Jan. 1 clip all your old greeting cards to its limbs. Then tie on all the beer cans, toothpaste tubes and deodorant bottles you empty during the year. By mid-December you'll have the most colorful Christmas tree in town. People will journey miles to see it — including, probably, the local chief of police.

WATCH TEENS

Watching teen-agers. While going to the zoo has its charms, there is no better way to study modern animal life in the raw than simply sitting and watching the antics of teen-agers. Don't worry for fear that your staring will annoy them. It won't. Teen-agers are unaware that adults over 40 exist.

Doing favors for women. This is a hobby that can keep a man endlessly occupied. No matter how many favors you do for a woman she still always has one more cigarette to be lit, one more errand to be run, one Center at the State Fair more woe for you to listen to. Grounds in Detroit Saturday and Catering to women can even be more than a hobby and turn into a full-time career — as many men have found.

Changing your will. If you announce publicly at least once a month that you have changed your last will and testament again, you'll never be lonely. Your potential heirs will never be sure whether they've been left out or put back in, and they'll compete like crazy in

He Wouldn't Take No for an Answer

NOGALES, Ariz. (AP) — When a service station attendant refused to cash a check for Clarence Finch Lyman, police said Lyman then:

Ripped the cash register from a shelf, short-circuiting the electrical system and plunging the filling station into darkness, and ran off with the register containing \$202.

A short time after the incident Tuesday, police say they apprehended Lyman, 41, and recovered the cash register. He was charged with grand theft and jailed in lieu of \$3,000 bond.

Return Bout Won by Cat

Collision Fatal

CHARLOTTE (AP) — Dale Jewett, 10, reluctantly put his tomcat named Thomas up for adoption six months ago at Sunnyslope, Ariz., nearly 20 miles away.

The 2-year-old cat returned recently and Gary's mother has agreed to keep it. "I hate to throw him out a second time," she said.

Area Mineral Club to Exhibit in Detroit

A gem and mineral show, sponsored by the Michigan Mineralogical Society, will be held at the Community Arts Center at the State Fair Grounds in Detroit Saturday and Sunday.

Displays will include rocks, minerals, fossils and carved rocks.

The Family Lapidary Circle, a mineral club of Waterford, will give demonstrations on cutting and polishing rock and mineral material.

The show will be open from 10 a.m. to 10 p.m. Saturday and 10 a.m. to 6 p.m. Sunday.

A 'Partridge in a Pear Tree' and unique manger scenes will highlight a Holiday Decorations Workshop by Mrs. Arthur Stiller of Holly, at 10:00 a.m., Friday, in the Tel-Huron Community Room. Mrs. Robert DeHaahn, Hammond

Lake (from left) and Mrs. George W. Lampman, Dell Rose Drive, are chairman and cochairman for the affair sponsored by Interlakes branch, Woman's National Farm and Garden Association.

Teens Would Like 'Ists' to Stop

By GAY PAULEY
NEW YORK (UPI). — Teen-agers tired of advice from psychologists, psychiatrists, anthropologists, sociologists — and all the other "ists" — have my sympathy.

"Why don't they stop studying us?" is the chorus from teen-agers as some new report from the ivory towers breaks in to print.

To switch the pace, how about listening to some comments on the glorious teen years from a lot of folks who, though not ignorant, aren't chiefly in the "ist" category.

Would you buy, for example: "Nobody can tell you not to go steady because no human being yet has reached that point of sheer perfection when he can dictate what a heart feels, what a set of emotions orders or what your eyeballs feast on and decide they like."

"The thing to remember here is that you must take your affairs of the heart slow and easy."

Who said it? Rod Serling, creator of the television science-fiction show "Twilight Zone."

Serling and 42 other notables do their saying to teen-agers in a new book — "The Seventeen Book of Very Important Persons" (MacMillan).

Listen to some of the other advice:

"You're all we've got . . . our hope and our real life. Check in now and then by phone

Auditions Open for 'Magnificat'

John Doyaras, director of choral activities at Oakland University, is now auditioning singers for soprano, tenor and bass arias in the forthcoming production of Johann Sebastian Bach's "Magnificat."

To arrange for an audition, Doyaras should be contacted at the University.

Doyaras is director of the University Chorus which is sponsored by the Division of Continuing Education. Open to all qualified area singers, the group receives training in choral and vocal techniques in regular weekly rehearsals.

Visit Daughters

Dr. and Mrs. Irving Gordon, James K. Boulevard, have returned from Columbia, Mo. where they visited their daughter, Judi, during parents weekend at Stephens College. Judi is a sophomore.

Dr. Edwin J. Dobski of Bloomfield Hills attended a recent father-daughter weekend at Chatham College in Pittsburgh. Deborah Dobski is a sophomore.

WOMEN'S SECTION

His Demands Are Costly

High Price of Marriage

DEAR ABBY: I am 24 and have been on my own for six years. I'm engaged to be married, and the kind of wedding my fiancé and I want will cost about \$1,500.

My mother has offered me \$200 toward my wedding, which is the amount she gave my sister for her small wedding, which is all it cost, so you can imagine it was pretty crummy. My fiancé says my mother should pay for the kind of wedding we want as she can afford it.

The truth is, my mother and father were divorced and mother is remarried, and she doesn't think her new husband should put on a wedding for ME, and she personally can afford only \$200.

This is causing trouble between my fiancé and me. He says mother can get the money. What can I say?

SOMEWHERE IN THE MIDDLE

DEAR IN: Tell your fiancé that if HE wants to go into hock up to his fellorets for a fancy wedding, he can finance it because your mother will not. And I would take a good hard look at the man you are planning to marry, dear. Because if this is a sample of his reasoning, you are in for plenty of storms on the sea of matrimony.

DEAR ABBY: Here is a suggestion for parents to help safeguard their daughters during their courting days. First make

a rule that your daughter cannot go out with a young man unless he comes to the house for you to meet.

When he shows up, the mother should entertain him while the father goes outside and takes down his license number and a good description of his car. Color, model, etc.

During the evening, if the daughter has any trouble with him, she could say, "My father took down your license number and will call the police if I am not home at the time they specified." This is foolproof protection for any girl.

DAD

DEAR DAD: And what happens if Jack The Ripper shows up in a taxi?

DEAR ABBY: I am a freshman in college. I am not a wolf but I like to take a girl out

on Saturday nights. I found a real cute and interesting girl in one of my classes. We had a few coffee dates and I finally asked her out for Saturday night.

She said she promised her mother she wouldn't single date, but if I got her girlfriend a date she would go. I did, and we all had a good time.

I asked her again and it was the same story. I have fixed up four of her girlfriends with dates, and I still can't get this girl to date me alone.

Do you think she is on the level, or is this the way college girls get dates for their friends?

FIXER UPPER

DEAR FIXER: I know how you could find out in a hurry. Quit fixing up her girlfriends, and double date with one of your boyfriends and a girl of his choice.

Symphony to Perform for Families

The Sunday afternoon Pontiac Symphony Orchestra family concerts will be held on Nov. 20, March 12 and May 21.

The first two concerts will be played at Pontiac Northern High School. Each concert will be given at 2:30 p.m. and again at 4 p.m.

Meadow Brook's Baldwin Pavilion will be the scene of the last concert, with one performance at 4 p.m.

Family season tickets (three concerts) are \$6 per family and single concert admission is \$2.50 per family.

Cochairmen of this series are Mrs. Palmer Strang and Mrs. Donald Tatroe.

For further information readers may contact Mrs. Norman Legge of Sylvan Lake or the Pontiac Symphony Orchestra, Inc. in the Riker Building.

They're both new in the Sisterhood of Congregation B'nai Israel and use the pre-luncheon hour to get acquainted. Pictured at Tuesday's luncheon are (from left) Mrs. Michael Berkowitz, Argyle Avenue, and Mrs. Gerald Hoffman, Cedarholm Lane.

Sisterhood Says Welcome to New Members Tuesday

A membership luncheon honoring new members took place Tuesday for the Sisterhood of Congregation B'nai Israel at the synagogue on Oneida Road.

Mrs. David Brudno, Mrs. Michael Berkowitz, Mrs. Marion Bailly, Mrs. Haskell Greenfield, Mrs. Gerald Hoffman, Mrs. Abby Holzberg, Mrs. Melvin Lewin, Mrs. Ervin Schreiber and Mrs.

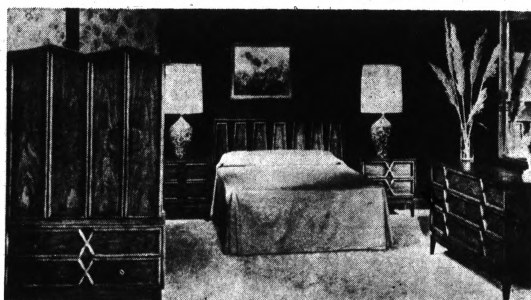

Edsel Kershenbaum were welcomed.

Chairmen of the day were Mrs. Morris Hietstein and Mrs. Irving Merikowitz. Others assisting were Mrs. Alvin Jacobson, Mrs. Charles Jacobs and Mrs. Michael Davis.

Mrs. Mettie Baron Golub, book buyer for J. L. Hudson Co., reviewed "The Fixer" by Bernard Malamud.

Hairdo How-to:

Naturalness Is the Key

By DOROTHEA ZACK HANLE
Editor, HairDo Magazine

The most common hairdo dilemma for today's teen is one of style. Mothers tend to like the plain, simple, little-girl dos; daughters frequently are in disagreement and want to try something new.

Here's where compromise is called for. Of course, times have changed, and Mother may not be up on the new styles. But good taste hasn't

changed, and Mother may be more aware of and more objective about what is and what isn't becoming to her daughter.

Perhaps among the "modern" styles is one that is not only new — pleasing you — but also more becoming, not so exaggerated and winning Mother's okay.

A teen should look her age, should wear styles that play up nice, healthy, shiny hair. The exaggerated, highly

teased styles that parents find so much fault with are not only unbecoming but also out of fashion.

There's nothing wrong with a little teasing of hair to cover a part, fill in a line; but when teasing becomes so exaggerated that parents, and even teachers, object, you must be overdoing.

The same is true of hair spray, using it so excessively that hair seems plastered and untouchable, rather than soft and inviting to the touch.

As for constant rollers and clips and bobby pins bristling in the hair, that's a matter of bad planning.

If hair needs such constant setting, there's something wrong with the cut, or the set itself; or maybe the hair needs a body permanent so that it holds its set better.

What about salons for teenagers? If we're talking about weekly visits, that becomes a matter of economics. Most teen girls these days are very adept at hairdressing (much more so than their mothers), and they need salon visits only for haircutting or for special occasions.

As to the style, the same rules apply for you, the teenager, as for your older sisters. The shape of your face and whether you wear glasses are factors entering into your choice.

If you like brief and breezy dos, or the medium-length, floppy ones, your hair will have to be specially cut, and cut regularly. If you like very long hair, that requires special care and special handling. There are tips in all these areas in this series.

BERNARD PRESSLER

Highlight Horn Units at Concert

Two instrumental ensembles will appear in concert Thursday evening at Pontiac Northern High School. The Ball State Trombone Choir from Muncie, Ind., and the University of Michigan French Horn Ensemble will present programs in the Little Theatre at 8 p.m.

On Friday, both groups will appear in a recital-clinic at a session of the Michigan Education Association District VII meeting.

Bernard O. Pressler directs the Ball State group. Del Wise, instrumental director of John F. Kennedy Junior High School is a former member of the choir.

Prof. Louis J. Stout directs the U of M ensemble which has been playing for the past seven years. The musicians gave a concert here in May.

Both men will conduct a discussion-workshop in their fields.

Disinfectants in Your Wash

Health authorities generally agree that laundering with hot water detergent, followed by dryer-drying or air-drying in sunshine out of doors, is a safe procedure for ordinary home laundry under normal circumstances.

However, U.S. Department of Agriculture research indicates that using a disinfectant such as a liquid chlorine bleach during laundering can help prevent possible spread of disease-causing bacteria if there is illness in the family or neighborhood — especially when using public coin-op laundry centers or other communal facilities.

Dear Friends,
We Invite You to Join
Us as we celebrate our

40th ANNIVERSARY

Please drop in and say
"hello" . . . register for
our daily prize and the
Grand Prize to be given
away at the end of the
week.

We know that you are
going to like all that is
new in Hair Fashions
for the coming season . .
and we are anxious to
serve you . . . day time
as well as Wednesday
and Friday evenings.

Sincerely,
ORA RANDALL
88 Wayne Street

SEW SIMPLE By Eunice Farmer

Dear Mrs. Farmer:

I have some new wool and bought it because of the interesting texture and color. Now a friend tells me I would be using the wrong side of the wool. Would it be wrong to use it this way?

Mrs. R. L. L.

Dear Mrs. R. L. L.:

No, it wouldn't be wrong, if the wool has a finished look on both sides. Often the joining of threads is more pronounced on the wrong side, but I do know for sure that designers often use the wrong side for the effect. For the ones of you who have asked me, the right side of wool is always on the inside fold.

I must tell you about something so different that I know you'll love. The last time I was in New York, I visited a very sophisticated office and was enchanted with the darling, dainty little flowers on my friend's desk. She told me that she had made them just for me and asked me if I knew how they were made. Imagine my surprise when she told me they were made of thread and only took minutes to make.

Because of her generosity, we now have a new leaflet to offer you, just in time for Christmas wrappings, gifts, baubles that's completely new (and who doesn't love to be first).

Just send a small, self-addressed, stamped envelope to Eunice Farmer, in care of The Pontiac Press. We will send you a free copy of the "Thread Flower Story." Drop everything and send for yours today; even your children can make them at home, or in Scout or craft classes.

Ed Munn, Manager

TAILOR TRIX WINNER

Mrs. John Wilson, Salt Lake City, Utah is this week's Tailor Trix winner for her following suggestion:

After an hour or so of laboriously attempting to turn corduroy for belt loops on my daughter's skirts and pants, I gave up in lieu of a better solution. I took a new shoe lace, all woven and trim, and made the fashionable belt loops for the youngsters' new hipster look!

Her Quilt Has Personalities

ST. LOUIS (UPI) — Clara Schmitt's quilt has a lot of faces.

Miss Schmitt, a seamstress at St. Mary's Hospital made a quilt with portraits of almost 50 major league baseball players sewn into it.

The quilt is seven-by-seven feet and each player portrait is about eight by 10-inches, with the player's autograph embroidered. Miss Schmitt found former St. Louis Cardinal player Marty Marion's name the toughest to embroider.

The reason, Marion uses "loops-and-whorls" in his penmanship.

Another tough one was Cardinal manager Red Schoendienst, who she said "writes all that name in such a little space."

Honored at the recent president's ball at Stonycroft Hills Golf Club, Bloomfield Hills, were (from left) retiring president, Jack L.

Barry and Mrs. Barry, Royal Oak; Mrs. Norman F. Ficke and Norman F. Ficke, Bloomfield Village, incoming president.

Lynn L. Zell's Truth Revealed

Mr. and Mrs. William D. Zell of Bloomfield Hills announce the engagement of their daughter, Lynn Lewis to Dale Robert Quinn, son of the Robert Quinns of Oneida Road. Both attended University of Michigan where he is a Sigma Nu affiliate, and have set a Dec. 22 wedding date.

Some experts estimate that India's population will be 550 million by 1971.

Offer Women Self Defense

Beginning Saturday at 3:45, the Pontiac YMCA will hold classes for women in "Self Defense."

Those holding YMCA membership cards will be admitted free; others must pay the course fee of \$15.

The minimum age for the eight-week course is 15. Enrollees will be required to wear loose clothing reminds instructor, Don Walker.

OMEGA
SELF-WINDING SEAMASTER DE VILLE

Gravity . . . nature's most constant source of power . . . activates the mechanism of the Omega Seamaster. An ingenious pendulum-like rotor converts every motion of your wrist into power . . . power which keeps the main spring wound to a level of peak efficiency. Seamaster doesn't need hand winding or power-cells which require periodic replacement. Just set it and forget it. The revolutionary one-piece case design gives slim silhouette distinction and maximum protection from the hazards of water, dust and grime. Lubricated with oil costing \$2000 (to virtually eliminate friction), and checked at 1497 manufacturing stages . . . every Omega Seamaster is made for a lifetime of proud possession.

Proposal Introduced to Regulate the Sale of Christmas Trees

An ordinance to regulate the sale of Christmas trees was introduced last night by the City Commission.

The ordinance would establish a \$3 license fee and require a \$25 deposit from Christmas tree dealers.

Object of the fee and deposit is to help defray some of the city's costs in cleaning up vacant tree lots after the selling season.

In other business, the commission approved an amended dog ordinance for the regulation of dogs. A substitute ordinance that would have eliminated the city's \$5 impounding fee from the ordinance was rejected by the commission. The commis-

sion had deleted the fee about 1½ years ago.

REQUIREMENTS

The new ordinance also requires that no dog houses, pens, coops or kennels be in the front yards of residential lots or within 10 feet of a side or rear lot line, or within 20 feet of an adjacent residential structure.

Also last night, a contract was approved for \$13,751 with DeAngelis Landscaping Co. for a green belt on the north side of Osman, Hovey to Paddock. A contract was approved with the Michigan Department of Public Health for the city's Alcoholism Information Center. The state's contribution is \$3,500, while the city's share is \$14,337 for the fiscal year ending June 30, 1967.

Public hearings were held last night on rezoning to residential-3 property on the north side of Kennett, between the Belt Line Railroad and Alcott School; and rezoning to residential-2 property 21-35 on East Howard. Both rezonings were approved.

Keller had cited "personal reasons" when he resigned from the \$9,490-a-year post.

Pontiac's two municipal judges nominated Keller for the reappointment last night.

Ex-Court Clerk Reappointed

Vacant about a month, the job of Municipal Court clerk was filled last night by the City Commission.

The commission reappointed Martin J. Keller, 61, of 855 Menominee to the post. Keller had created the vacancy in the clerk's post when he resigned about a month ago.

Keller had cited "personal reasons" when he resigned from the \$9,490-a-year post.

Pontiac's two municipal judges nominated Keller for the reappointment last night.

Soviets Say China Plotting to Curtail Ties

MOSCOW (UPI)—The Kremlin, today accused Communist China of plotting the "curtailment of Soviet-Chinese relations."

The Soviet government made the charge in a stiff press statement claiming the Chinese had 31, 1969.

It followed by less than 24 hours a bitterly angry Chinese note accusing the U.S.S.R. of mud-slinging, peridy and collusion with the United States. Today's statement, issued by the Soviet Ministry of Higher and Secondary Specialized Education, claimed that the Soviet Union had paid half the costs for more than 10,000 Communist Chinese citizens to undergo training in Soviet schools.

"On the other hand, only 153 Soviet citizens studied in China through the exchange of students between the U.S.S.R. and the Peoples Republic of China," the statement said.

The statement did not say how far the curtailment of relations was expected to go. But the Soviet ambassador to Peking, Sergei Lapin, returned to the U.S.S.R. months ago.

Deer Chased

LINCOLN PARK (AP) — A deer led police on a three-mile chase here Tuesday before it was shot to death. The five-point buck jumped through a store window, causing about \$200 damage and severely cutting itself. Cpl. Robert McIntosh of the Lincoln Park Police shot the deer, which was weakened from loss of blood after jumping through the window.

yards of residential lots or within 10 feet of a side or rear lot line, or within 20 feet of an adjacent residential structure.

Also last night, a contract was approved for \$13,751 with DeAngelis Landscaping Co. for a green belt on the north side of Osman, Hovey to Paddock.

A contract was approved with the Michigan Department of Public Health for the city's Alcoholism Information Center. The state's contribution is \$3,500, while the city's share is \$14,337 for the fiscal year ending June 30, 1967.

Public hearings were held last night on rezoning to residential-3 property on the north side of Kennett, between the Belt Line Railroad and Alcott School; and rezoning to residential-2 property 21-35 on East Howard. Both rezonings were approved.

SALE APPROVED

The commission also approved the sale of five scattered lots in the urban renewal R20 project. The lots were ordered sold for \$200 a piece to abutting property owners.

The commission received notice of a Circuit Court judgment involving policeman Mrs. Mary P. Caronis. The court awarded Mrs. Caronis \$1,379 in back pay plus \$94 costs in a suit involving her status under the 1964 pay plan adopted by the commission.

The commission approved the appointment of D. J. Smith, assistant plant engineer, Pontiac Motor Division, to the electrical examining board. Smith was named to a term ending Dec. 31, 1969.

Thomas Ware, 454 S. Jesse, was appointed to the Civic Improvement Advisory Committee to represent district 7. He fills a vacancy on the committee caused by a resignation.

Letter Writer Living in Past

SANTA FE, N.M. (AP) — Maurice Trimmer, press aide to Gov. Jack M. Campbell, said his office received a letter recently addressed to Lew Wallace, governor of New Mexico.

Wallace, author of the novel "Ben-Hur," was territorial governor of New Mexico from 1878 to 1881.

Who Cares About Older People?

Everybody cares about older people...in an election campaign. It's what's on the record that counts.

On the record it was the Democratic Party that fought for and secured passage of the late Senator Pat McNamara's Medicare and Medicaid programs—against the opposition of the Republican party. On the record, it was the Democratic Party that increased the level of Social Security benefits during the 89th Congress—against the opposition of the Republican party.

It was the Democratic Party that fought for—and got—Senator Phil Hart's "Truth in Packaging" bill that will help retirees living on fixed incomes get the most for their money when they shop. It was the Democratic Party that passed the rent supplement bill that will help older people find and stay in better housing. And it was the Democratic Party that pushed the program of housing for the elderly.

At the Capitol in Lansing the record is just as impressive. The Democratic legislature gave persons over 65 a \$2500 property tax exemption, raised monthly old age assistance for medical care to \$140 a month, created the Institute of Gerontology to study special problems of the aged, and reduced the fishing license fee for older people to a flat 50 cents.

Older people know who cares about them. They'll show it at the polls on Election Day.

GLENWOOD PLAZA CORNER NORTH PERRY AT GLENWOOD

MERIT SYSTEM TEST — Cora Van Houten, Oakland County personnel office receptionist, demonstrates a secretarial typing examination under the county merit system

for Curtis H. Hall (left), chairman of the personnel policies committee of the County Board of Supervisors, and John Witherup, county personnel director.

Voters to Decide on County Merit System Proposal

By JOE MULLEN

Oakland County voters will consider a merit system proposal Tuesday that, to date, has generated little public interest.

Voters will be asked simply to approve or disapprove of the establishment of the merit system, or civil service program for county employees.

No tax boost is involved in the proposition.

Actually, the county activated an informal merit system program last April when it was approved by the Board of Supervisors. It has been utilized on a trial basis pending the Tuesday decision on its permanency.

Basically, the purpose of the merit system is to assure that the personnel policies committee selection, remuneration and promotion of county employees is based on merit. Competitive examinations are now given prospective employees.

FAIR PROPOSAL

APPEAL PROCEDURE

Establishment of an appeals procedure, giving employees the

opportunity to appeal dismissals, suspensions and disciplinary action, is another specification.

Some county officials, especially those concerned with employee recruitment, have expressed high praise for the merit system. One is vigorously opposed to it and many others have taken no strong stand.

John Witherup, county personnel director, feels the protective provision of the merit system is a definite selling point in recruiting personnel. He termed it a "progressive proposal."

Curtis H. Hall, chairman of the personnel policies committee which drafted the merit system proposal, hailed it as a step forward by county government.

FAIR PROPOSAL

Both Hall and Witherup termed it a fair proposal to both the county as an employer and procedure, giving employees the

"It has good balance," Witherup said. "It provides neither a bosses haven nor a haven for the employees."

Chief critic of the merit system has been County Clerk-Sister of Deeds John D. Murphy.

"Civil service will result in a breakdown of the quality of service to the public," Murphy said.

LESS EFFICIENT?

He explained that employees under civil service, or a merit system, would tend to be less efficient and less courteous in dealing with the public.

"I worked in the Wayne County clerk's office before civil service and service to the public was excellent," Murphy said. "When civil service was adopted, the quality of public service deteriorated."

Murphy said the merit system actually provides no gain in benefits for employees. He feels

job protection provisions of the merit system are unnecessary.

"Turnover of personnel is minor even with a political party switch of department heads through election," Murphy said.

CITES EXAMPLE

He cited his office as an example when he, a Democrat, replaced a Republican in January 1965. He also noted the minor turnover when Democratic County Treasurer James E. Seetler succeeded Republican Charles Sparks a year ago.

The union that represents some 650 of the county's 1,500 employees is promoting a "no" vote in the election.

The American Federation of State, County and Municipal Employees (AFSCME) considers the merit system a maneuver by county officials to deprive employees of bargaining opportunities.

"We are violently opposed to the merit system issue," said Howard J. Draft, the union's

staff representative working with Oakland County employees. "It will be impossible to have both a merit system and an employee contract," he added.

NOT ALL INCLUDED

Not all county employees are included in the merit system document.

Among those excluded are the road commission employees, elected officials, one deputy or assistant to each of the elected officials, attorneys and investigators in the prosecuting attorney's office, and judicial secretaries to the Circuit Court and Probate Court judges.

FALSE TEETH

Chewing Efficiency Increased up to 35%

Clinical tests prove you can now chew better — make dentures average up to 35% more effective — if you sprinkle a little PASTETH on your plates. PASTETH is the alkaline (non-acid) powder that holds false teeth more firmly so they feel more comfortable. No gummy, pasty taste. Doesn't sour. Chews denture odor. Dentures that fit are essential to better your denture regularly. Get PASTETH at all drug counters.

World Reaction to LBJ's Asia Visit Varies

By the Associated Press
World reaction to President Johnson's trip to the Manila conference runs the gamut from optimism through doubt to pessimism.
This is evident from an Associated Press survey of capitals not on the Johnson itinerary, and from a cross-section of opinion at the United Nations.
There Frank Aiken, foreign minister of Ireland, told a reporter: "I would say it appears

to have been a very successful nature of the exercise pre-cluded any serious attention inroads," he said.
There has been no official British reaction to Manila, but friends and the result was as expected. It would be childish to expect anything else."
Ambassador Liu Chieh of Na-tionalist China called the trip encouragement to Asians to join "certainly useful" Johnson's in setting up their own defense assurances "will strengthen the system."

OTHER OPINION

At the other end of the opinion scale, Tanzanian Ambassador J. W. Malecela observed: "As far as clearing the path to peace, the trip has accomplished nothing."

This African delegate added: "The communiqué issued in Manila means very little. What concerns us now is not what is going to happen after the fighting stops but how to stop the fighting."

Ambassador Jose Pinera of Chile said: "I don't think it had any direct contribution to peace. I don't think President Johnson had that idea in mind. It was an effort of countries participating in Viet Nam to close ranks. From that point it appears successful."

Chief S. O. Adebo of Nigeria: "I have always been a firm believer in confidential diplomacy. I would have preferred to see them announce after the Manila conference that they had agreed on certain proposals which they would transmit to the other side and relay confidentially to U. Thant, and let it stop there. This would have given the whole thing an aspect of respectability."

EXPECTED RESORT

Ambassador Gershon B.O. Collier of Sierra Leone: "Just

AP Wirephoto

GENERAL DIES — Gen. Ben Lear Jr., World War II officer who was the center of a controversy over discipline, died in Murfreesboro, Tenn., yesterday at 87. In 1940, he overheard soldiers on a training march shouting "yoo-hoo" at shorts-clad girl golfers. He ordered the troops to march 15 miles, and the incident got wide publicity.

Negro Voters Soar in South

WASHINGTON (AP) — Negro registration zoomed up sharply in the South in the last year and probably increased considerably in the country as a whole.

Negro ballots could weigh heavily — perhaps be pivotal — in some of this year's major election contests if a high percentage of registered Negroes vote.

Precise figures on the number of U.S. Negroes qualified to vote are unobtainable because most states do not keep registration figures by races.

The Democratic National Committee uses the figure six million in news releases which have occasion to mention one. This is the same figure it used in 1964.

However, Louis Martin, deputy committee chairman, a Negro who works particularly in this field, says he believes it is actually considerably higher. For the South alone, he estimates the current total at 2.5 million.

The Republican National Committee says it has no current figures.

The Justice Department's civil rights division reports that Negro registration rose from 687,000 to 1,016,800 between Aug. 6, 1965 and last Aug. 6 in these five states: Alabama, Georgia, Louisiana, Mississippi and South Carolina.

Meat Testimony

LANSING (AP) — The state agriculture director began reviewing hearing testimony today to decide whether two meat companies, accused of processing unspectated meat, should lose their processing licenses.

Fund at \$278,000 in Fire Tragedy

NEW YORK (AP) — The fund retired 10 years ago, endorsed his entire check of \$171 to the families of 12 firemen who died in a Madison Square fire Oct. 17 has risen to \$278,000, including the monthly pension check of a retired Bronx fireman.

The Fire Department said Tuesday that Louis Bock, who

Vital statistics for 1965 estimated 5,400 deaths or 1.8 per cent of the 300,000 cancer casualties from esophageal cancer.

1931.

Our styles have changed, but Osmun's hasn't.

Remember the 30s?

Who can forget the Great Depression? Who can forget how the governor of New York — a man named Roosevelt — began to sound like a presidential candidate?

Meanwhile, back in Hollywood, there were big names. Remember the biggest? They were George Arliss, Ronald Colman, Wallace Beery, Clark Gable, Edward G. Robinson, and Will Rogers. Fredric March won the Oscar for "Dr. Jekyll and Mr. Hyde," and Americans rushed to the 25-cent early show — when they weren't playing Monopoly or listening to Amos 'n' Andy or Jack Benny. And do you remember the undisputed champion of new stars in 1931? An unusual little fellow named Mickey Mouse.

Meanwhile, back in Pontiac, Osmun's opened its first store, dedicated to men's fashions, and, simply, to men. Our windows showed, as they still do, the styles of the times. A lot of attention was given to the dashing design imported from England — the drape shape.

The drape had big shoulders, big lapels, a nipped-waist, and yards and yards of material. Strange as the drape might look today, the fact is that as recently as the early 60s it still had a strong influence on men's fashions.

But the drape is gone, and Osmun's is still here. Which proves nothing, but we hope you're glad it's not the other way around.

Kegler Rolls Hot Series

The 300 Bowl Classic men will be hoping for a repeat while North Hill Lahes' Classic bowlers are expected to bounce back in this week's action.

The "300" bowlers had their first 700 of the campaign last Thursday as Orv Warren ripped into the pins for 268-213-714 (his first sanctioned 700).

Dale Perrell had the runner-up high with his 219-214-638, and Steve Olisek posted 217-223-613 scores. Bob Smith had a 247 game, Ron Slack hit 236, Bud-Marohn 231 and Floyd Pass 230.

North Hill's scores Wednesday, meanwhile, were down for the season's first "position Night" encounters. Ed Avadna of Atlas Market led everyone with 235-237-669.

The Marketmen swept four points from Oakland Vending despite the losers' Charles Palian getting a 244. Atlas, in fifth place, climbed within three of leader, Potere Funeral Home.

The house team now is only one point off the pace after sweeping four as Bill Johns had 223-201.

U. of M. Tests Sub Fullbacks

ANN ARBOR (AP) — Michigan coaches tested a senior letterman and a sophomore Tuesday as possible stand-ins for injured fullback Dave Fisher.

Senior Tim Radigan of Lansing and John Reynolds of Grosse Pointe practiced as fullbacks with the Wolverines. Fisher, of Kettering, Ohio, underwent further X-Rays to determine the full extent of strain on the left shoulder muscle injured in Michigan's last weekend.

Defensive backfield coach who may have been groping for Don James said if Fisher is unable to play against Illinois on Saturday, it will weaken the backfield.

The Wolverines held a general practice session Tuesday for less than two hours.

Dodger Dandy, Again, Best Hurler

LOS ANGELES (AP) — It is true that Sandy Koufax was not exactly thunderstruck when advised he had won the Cy Young Award for the third time.

Reached at his bachelor's home Tuesday in suburban Studio City, the superb southpaw was, however, delighted. The vote was unanimous, just as in the previous years, by the Baseball Writers of America.

The award as baseball's best pitcher to the Los Angeles Dodgers' hero amounts to an unprecedented event. No hurler had ever won it twice, as did Sandy in 1963 and 1965, much less three times.

"I'm thrilled," said Koufax, who may have been groping for words different from his resolute on the previous award occasion.

"It's a great honor to be selected more than once, and it's an even bigger thrill to win it two years in a row.

"Especially," he continued, "since we have some great pitchers in the league—in both leagues, that is."

SHOULD SPLIT
Koufax paused, as if reflecting on the innocent, momentary omission of the American League, and quickly added with a chuckle:

"The way Baltimore pitched against us, maybe they should split the award up between their pitchers."

The Baltimore pitchers, you'll recall, slew the Dodgers four

straight in the recent World Series.

Since the Dodgers fell dead, Koufax has been busy looking after personal business matters and, when possible, a round of golf.

Queried about rumors that he may retire from baseball because of his famous, and infamous, ailing left elbow, Koufax merely said he has given no thought one way or another about his future plans.

His most immediate project, he disclosed, is a visit to a sequestered island in the Bahamas for seclusion and more golf.

"I think I need a vacation," said Koufax, leaving the phone to bood for a golf course.

The 30-year-old Koufax, who had a 27-9 record, may be the last Cy Young Award winner as it is now designed, covering both leagues.

Baseball writers are voting on whether the award should be

given to the best pitcher in each league.

Since it was originated in 1956, National League pitchers have won the honor seven times, including the four to dandy Sandy.

Sandy was the fifth straight California pitcher to bag the 317 and earned run average with award. Teammate Don Drysdale won in 1962 and Dean Chance of the Angels in 1964.

Last season—Sandy not only won more games than any other pitcher, but completed 27 of 41 starts, pitched five shutouts and led the majors in strikeouts with 337 and earned run average with 1.70.

For Preps, Coaches

Ski Racing Clinics Slated

High school ski coaches and the Southfield High School boys' teams are invited to a ski and girls' teams will be the racing clinic, 7-10 p.m. Thursday in the Southfield High School gymnasium.

Sponsored by the Central Division of the United States Ski Association, the clinic will have Caberfae Lodge ski school director Bob Meyer as its moderator.

Meyer, in addition to his Caberfae duties, is the chairman of the coaches' committee of CUSSA and a member of the examining team for certifying professional ski instructors.

Tomorrow's program will cover slalom and giant slalom techniques, training camps, development of young racers, equipment and waxing, films, the CUSSA ski program and discussion.

A clinic registration fee of \$1 per coach and 50 cents per team member will be levied.

Southeastern Michigan Ski League president Jim Mills and

Skipper Harriers Post 22-33 Win

Daye Galloway led Waterford to a 22-33 cross country victory over West Bloomfield yesterday with a winning time of 10:46 over the Marshbank Park course.

Butch Fenlon of the Skippers was second and Dave Maun of West Bloomfield third. Bill Martin and Jerry Biskner placed fourth and fifth, respectively, for Waterford.

Ed Broadway

MSU-Irish Tilt Limited to TV's Regional Plan

KANSAS CITY (AP) — An NCAA spokesman says the Michigan State Notre Dame game Nov. 19 must be a regional television game under NCAA rules, which cannot be changed without going against the reasons why the rules are in existence.

"The NCAA football television plan specifies no member school may appear more than once nationally in any one year, nor more than three times in the two-year period of the plan," the spokesman said.

"The appearance rule is the guts of the NCAA plan. It is designed to reduce as far as possible adverse effects of live television on gate attendance of other college games being played."

"If the NCAA altered the rule, the whole reason for the plan would be negated."

GLENWOOD PLAZA—NORTH PERRY AT GLENWOOD

Along the Outdoor Trail

with DON VOGEL—Outdoor Editor, Pontiac Press

Conservation Mark for 89th Congress

The 89th Congress adjourned with a conservation record weighted heavily on the positive side.

In the field of fish and wildlife, a new basic act allows the Bureau of Sport Fisheries and Wildlife to use Land and Water Conservation Fund monies for a program to protect endangered species of wildlife.

Other significant bills provide protection and conserve North Pacific fur seals and sea otters, while establishing a 12-mile exclusive fisheries zone off the U. S. to protect these waters from foreign commercial fishermen.

During the First Session last year, the 89th Congress authorized an important Federal-State program for anadromous fisheries and gave the Fish and Wildlife Service new authority in chemical pesticides research.

Following action last year to strengthen the Clean Air Act, particularly air pollution resulting from autos, the Congress this year adopted additional amendments significantly boosting the level of the Federal air pollution control program and increased grants to municipalities.

Important gains also were recorded in water pollution control. The "Clean Rivers Restoration Act" of the Second Session expands the federal effort in water pollution control and stimulates State and local cost-sharing in the construction of waste treatment plants to the tune of \$3.4 billion over the next four years.

This year, the Congress also approved the U. S. adhering to provisions of the International Convention for the Prevention of the Pollution of the Sea by Oil.

New research and development in the water field is being provided through the "Marine Resources and Engineering Development Act," the "Water Resources Research Act," and the "National Sea Grant College and Program Act."

Last year, the Congress authorized the establishment of river basin commissions and made grants to states for water planning through the "Water Resources Planning Act."

Several major outdoor recreation areas were provided for by the 89th Congress. During the Second Session, these were established: Cape Lookout National Seashore in North Carolina; the Mount Rogers National Recreation Area in Virginia; the Indiana Dunes National Lakeshore in Indiana; the Pictured Rocks National Lakeshore in Michigan; the Big Horn Canyon National Recreation Area in Montana; and Wyoming; and the Gadsden Mountains National Park in Texas.

There were a few setbacks and near-misses. The 89th Congress granted funds to initiate construction of the controversial Tellico Dam on the Little Tennessee River in Tennessee. Failing to get final clearance for the dam in the last hectic days prior to adjournment were bills to establish the Sleeping Bear Dunes National Lakeshore in Michigan and the Oregon Dunes National Seashore in Oregon.

A measure which would have allowed the Secretary of the Interior to increase the price of the Duck Stamp from \$3 to \$5 failed.

Occupying central interest in the 89th Congress were several major proposals which did not come close to final enactment. Among them were these: bills to impose severe restrictions on the sale and distribution of sporting firearms, and to authorize construction of the Bridge Canyon and Marble Canyon dams near Grand Canyon as part of the Colorado River Basin Project.

Land and water monies allocated to the Kent County Road Commission include \$30,000 for purchase of 60 acres adjacent to Wabash Park and \$13,750 to buy another 60 acres bordering Douglas Walker Park.

The City of Tecumseh will receive \$17,500 to acquire a 22-acre parcel, which features a four-acre spring-fed pond. The recreational site, known as "The Pit" Park, is inside the city limits of Tecumseh.

The remaining \$22,000 allotted to HCMA will be spent for development of sanitary, and electrical facilities at Woods Creek picnic area in Lower Huron Metropark. The park is three miles east of Belleville.

Land and water monies allocated to the Kent County Road Commission include \$30,000 for purchase of 60 acres adjacent to Wabash Park and \$13,750 to buy another 60 acres bordering Douglas Walker Park.

The City of Tecumseh will receive \$17,500 to acquire a 22-acre parcel, which features a four-acre spring-fed pond. The recreational site, known as "The Pit" Park, is inside the city limits of Tecumseh.

The netting project is designed to pinpoint the whereabouts of these fish and produce answers to kokanee growth rates and other questions.

Plans call for shifting the study to Higgins Lake in Roscommon County, another test water for kokanee introductions, as soon as survey work is completed in Torch Lake.

WHITE OPENER—This Michigan wild turkey would prefer no snow. But the big tom will have to use his most evasive tactics to dodge hunters who are in three special areas today opening the state's limited turkey season. A blanket of snow covered the shooting areas making it easier to see the wily birds.

Land Matters Highlight Meeting of Commission

Land matters pegged to boosting fishing and public recreation in Michigan will headline the Conservation Commission meeting Thursday and Friday in Lansing.

Among important land items coming before the Commission is a proposal to buy a 40-acre tract on Thompson Creek in Schoolcraft County which features prominently in Conservation Department plans for promoting steelhead trout and coho salmon runs in northern Lake Michigan streams.

The property, with its strategic location on Lake Michigan, is needed to allow the department to obtain additional water for the Thompson Hatchery which will be geared up for increased steelhead and coho production.

Presently, the hatchery's water supplies are inadequate to meet its needs as a major rearing facility for anadromous fish.

Having a major bearing on fish management plans for northern Lower Michigan is a gift offer of Consumers Power Company, involving the Newaygo Dam, an adjoining impoundment, and water-fronting lands on the Muskegon River in Newaygo County.

The department's plans for improving fish management on the Muskegon River, particularly for steelheads and walleyes, hinge on acquiring this 30-acre water area with 7,350 feet of water frontage.

Presently, the Newaygo Dam blocks the upstream movements of fish. Acquisition of the dam site would allow seasonal drawdowns of the dam's water so that spawning fish could pass farther upstream.

Another land matter rating high on the agenda is a proposal to buy 350 acres at Sleepy Hollow State Park in Clinton County.

Antlerless Deer Decision Expected

LANSING (AP)—The State Court of Appeals is reportedly likely to decide Monday whether or not to order Michigan to limit shooting of antlerless deer.

Court Clerk Ronald Dzierbicki said Tuesday the appeals judges probably will decide next week whether to issue a writ against the State Conservation Department as requested by the Michigan Deer Hunters Association.

The state attorney general's office is expected to file Friday an answer to the petition of association attorney Cyrus Atlee of Gladwin, Dzierbicki said.

Reminders Listed for Getting Found

(EDITOR'S NOTE—The following was prepared by Kenora staff of the Ontario Department of Lands and Forests and is applicable to Northern Michigan as it is to Ontario—or any where else.)

Time Remains in Press Derby
Pheasant Contest Closes Nov. 11

There's still time to bag that big pheasant—if one can be located—and enter it in The Pontiac Press Derby.

The season runs until Nov. 10 and the contest closes at noon, Nov. 11. All entries must be brought to The Press for help in measuring, too. Your Boy Scout and Girl Guide training 2:30 p.m. The building is closed Sunday.

All residents of Oakland County are eligible. Only ring necks taken in Michigan, other than on preserves, can be entered. Length is the determining factor.

Leading the race for the \$50 savings bond is a 41½-inch bird. The runner-up (for a \$25 bond) is 40 inches.

Hunting pressure on pheasants was light to moderate with state lands hardest hit during the weekend. Gunners with dogs did fairly well on rabbits, squirrels and ruffed grouse in the Holly area.

Duck hunting was good on the Lower Detroit River, but only fair at the St. Clair Flats and Saginaw Bay.

Longest pheasant season in the United States is that of Nebraska. It runs from Oct. 23 to Jan. 23.

Fond of nature? Just remember not to venture too far down that unfamiliar trail through the woods without a good guide, a reliable compass and an up-to-date map of the area.

But suppose you do get lost? The Lands and Forests staff at Kenora have some sensible advice.

Of course, the first rule is DON'T PANIC! Try and keep your head. Look around for landmarks. Sit down, and try to get your bearings.

Basic knowledge of woodcraft helps immensely, too. Your Boy Scout and Girl Guide training should assist you, especially in fire building, shelter building, knot tying, knowing which plants are edible and first aid.

Everyone should ask himself the question: "Do I have sufficient knowledge to survive if lost?"

If not, now is the time to learn, and practice skills which may some day be responsible for saving your life or someone else's.

Here are five simple rules that could help you survive what otherwise might be a tragic adventure:

1. Before you enter the woods, tell someone where you are and when you expect to return.

2. Carry with you a knife or axe, waterproof matches, a package of raisins or candy, a compass and map.

3. Be signal conscious—three fires are the international distress code. Build them in a triangle, 60 feet apart. Stay put.

If you do not know the way back, stay in one place and prepare to stick it out. If you have to move, leave a note.

4. Build a fire and shelter.

5. Take stock. Take time to survey what you have on you, and around you.

"These skills, if not already known, should be learned," the Kenora Lands and Forests officers emphasize.

If you become lost, always remember PANIC CAN KILL YOU!

Surplus Tags for Islands

Antlerless Permits to Be Available

Surplus, antlerless deer hunting permits for area 14 (Bois Blanc Island) and area 15 (Beaver, Garden and Fox Islands) will be issued on a first-come, first-served basis.

A total of 135 leftover permits for area 14 will be offered at the Conservation Department's equipment station on Bois Blanc Island, starting Nov. 11.

Another 729 unapplied-for permits covering area 15 will be available at the department's equipment station on Beaver Island, beginning Nov. 18.

Both of these areas are special deer research sites, which largely explains why the department is making an extra effort to issue the full quota of permits for the islands.

Because of processing complications, surplus permits for the other seven undersubscribed areas cannot be issued.

Government Pumps Cash Into Park Rec Facilities

A federal grant of \$198,050 will be used at Stony Creek Metropark to improve recreational facilities.

It is one of five outdoor recreation developments in Southeastern Michigan that qualify for Land and Water Conservation Fund monies.

Under approval given by the U. S. Bureau of Outdoor Recreation, \$281,300 has been earmarked for projects planned by the Conservation Department which is administering the Land and Water Program for this state.

With these local agencies and units of government required to match the federal grants on a 50-50 basis, cost of the projects will total nearly \$500,000.

They were initially approved by the Conservation Department which is administering the Land and Water Program for this state.

As approved last week, the Huron-Clinton Metropolitan Authority will receive \$220,050 in Land and Water money for two recreational projects in Southeastern Michigan.

Of this, \$198,050 will be used at Stony Creek Metropark to provide facilities for a 70-acre tract, including the West Branch picnic area, and to enlarge the existing 34-acre Winter Cove picnic site.

This project is four miles northeast of Rochester.

The remaining \$22,000 allotted to HCMA will be spent for development of sanitary, and electrical facilities at Woods Creek picnic area in Lower Huron Metropark. The park is three miles east of Belleville.

Land and water monies allocated to the Kent County Road Commission include \$30,000 for purchase of 60 acres adjacent to Wabash Park and \$13,750 to buy another 60 acres bordering Douglas Walker Park.

The City of Tecumseh will receive \$17,500 to acquire a 22-acre parcel, which features a four-acre spring-fed pond. The recreational site, known as "The Pit" Park, is inside the city limits of Tecumseh.

The netting project is designed to pinpoint the whereabouts of these fish and produce answers to kokanee growth rates and other questions.

Plans call for shifting the study to Higgins Lake in Roscommon County, another test water for kokanee introductions, as soon as survey work is completed in Torch Lake.

Space Lab Test Tomorrow

Astronauts Rehearsing for Gemini 12

CAPE KENNEDY, Fla. (AP) — The Gemini 12 astronauts start the Gemini 12 doubleheader tomorrow with a two-hour space walk and a full day of rehearsal today. Navy Capt. James A. Lovell Jr. and Air Force Maj. Edwin E. Aldrin Jr. are to start the mission which is to conclude the Gemini program.

Their departure from the earth next Wednesday will be a busy seven-day period during which four space rockets are to be launched from Cape Kennedy.

The fireworks start Thursday with the first unmanned launching in the Air Force's Manned Orbiting Laboratory program, sessions outside the spacecraft to be followed Sunday by a Lunar Orbiter moon shot.

An Atlas is to hurl an Agena target satellite into orbit at 2:16 p.m. (EST) next Wednesday to take a two-hour space walk and twice he is to poke the upper half of his body through an open hatch for lengthy work and photographic exercises.

At 7 a.m. (EST) Thursday the Air Force is to fire its huge Titan 3 rocket on a multiple assignment flight. The rocket first is to hurl an unmanned Gemini capsule 5,000 miles down range to a recovery zone in a test of the heat shield for the Manned Orbiting Laboratory military man-in-space program.

The Titan 3 upper stage is to pitch up and hurl a 38-foot canister into orbit with a bundle of scientific and engineering experiments.

NUCLEAR CLOUD — The dotted area on the map is the approximate path of the radioactive cloud from Red China's latest nuclear test. American government weather and health scientists say the cloud started riding high over the United States yesterday. It is expected to begin heading out over the Atlantic Ocean today.

Roche Assails Local-Level Strikes

FLINT (AP) — General Motors President James M. Roche assailed local strikes at auto plants and said Tuesday night he hopes they are avoided when 1967 labor contracts are written.

"I hope sincerely an agreement can be reached peacefully, without loss of production

the biggest auto firm said, "The local unions were free — after national agreements had been reached — to cripple our operations for as long as five weeks. Many of the issues involved in these local strikes were ridiculous and without merit," he said.

Asked for comment, an official of the UAW said, "We want to study this one before we say anything." The UAW represents most of GM's \$29,000 hourly paid workers in U.S. plants.

Thieves Ignore Cheaper Liquor

CLEVELAND, Ohio, (AP) — Thieves with expensive tastes grabbed 66 cases of scotch from a state store but left less expensive whiskey on the rocks.

Police said 105 cases of cheaper liquor were found outside the store.

3 Die, 19 Hurt by Copter Blades in Carrier Crash

PORTSMOUTH, Va. (AP) — A helicopter crash on the carrier Guadalcanal left the pilot dead and 19 others injured, but no deaths were reported among the crew members of the ship. The crash occurred on Tuesday when the helicopter, a Sikorsky HO4S, was attempting to land on the ship's deck. The pilot, a Marine Corps Maj. William L. Off, died of his injuries. The other 19 injured were members of the ship's crew. Twelve of the injured were taken to a hospital in Norfolk, Va. The other seven were taken to a hospital in Portsmouth. The helicopter was carrying 20 people, including 19 crew members and one passenger. The ship's commandant, Capt. James C. Clarke, said the helicopter was attempting to land on the ship's deck when it crashed. The crash occurred about 10 miles off the coast of Norfolk. The ship's commandant said the helicopter was attempting to land on the ship's deck when it crashed. The crash occurred about 10 miles off the coast of Norfolk. The ship's commandant said the helicopter was attempting to land on the ship's deck when it crashed. The crash occurred about 10 miles off the coast of Norfolk.

'KIDNAPED' TOT FOUND — Nineteen-month-old Daniel Charlene Mittlebach of Sacramento, Calif., was found by a fisherman on a levee road yesterday five days after her mother reported her kidnapped. The tiny girl was weak and suffered cuts and bruises but is in satisfactory condition, according to the hospital.

AP Wirephoto

NY-Moscow Air Deal Near

WASHINGTON (UPI) — The long-sought New York-to-Moscow air agreement will be signed Friday, ending a six-year stretch of Cold War postponements. Informed sources said yesterday that Llewellyn E. Thompson, newly designated U.S. ambassador to Russia, will sign the pact for the United States. Signing for Russia will be Soviet Civil Aviation Minister Yevgeny F. Logvinov. So far, however, no date has been set for the inaugural flight, but officials have predicted that the first flight probably would come in late spring.

Scheduled GOP Film Blasted

WASHINGTON (AP) — Democrats charged that a Republican campaign film scheduled for nationwide television showing Sunday contains "highly distorted and misleading material." The charges were made by Democratic National Chairman John M. Bailey in a letter Tuesday to the Fair Campaign Practices Committee.

Republicans thanked the Democrats for giving them publicity but contended that a final version of the film has not yet been made. The committee said only that it had received Bailey's letter.

SUNDAY SHOWING
The film, entitled "What's Going On Here?" and narrated by actor Raymond Massey, is

scheduled to be televised Sunday on the National Broadcasting Co. network. It was produced for the Republican Congressional Committee by Newsix Inc. of New York City. Film clips are said to include shots of American soldiers being fired on in Viet Nam and of rioting in the streets of American cities. At one point, President Johnson is reportedly quoted as saying, "We only have inflation under the Democrats."

Al Mark, director of information for the Democratic National Committee, said he knew of no top Democratic officials including himself and Bailey who had actually seen the film. He said Democratic charges were based on material "pulled together from various sources."

Firms: Add Safety Items

DETROIT (UPI) — The federal government was urged by the Automobile Manufacturers Association (AMA) yesterday to adopt 29 safety standards in addition to those already mandatory for 1968 model cars.

The 10 items proposed were submitted Oct. 17 to Secretary of Commerce John T. Conner by the trade association of the nation's automakers.

The AMA promised other proposals when the Commerce Department issues further safety standards for cars, trucks or buses.

The items proposed included standards for hydraulic brake hoses, uniform bumper heights, headlights, tail lamps and stop lights, turn signals, reflecting surfaces, tires and rims, optional head rests, roll-over protection, ash trays and lighters, impact protection and armrests.

Beef Price Rise Seen for Next Spring

EAST LANSING (AP) — Live cattle prices this fall indicate the housewife will be paying more for beef next spring and summer, livestock specialists say.

The farmers who fatten up cattle for slaughter paid 20 percent more for their stock this fall than in 1965.

That means if cattlemen are going to make any margin on their labor and feed next winter and spring, beef prices will be higher for the housewife, Michigan State University specialists said.

Average price for steer and heifer calves and yearlings was \$25.25 a hundredweight — up \$5.14, or 5 cents a pound — from the \$24.12 average in 1965, said MSU's W. L. Finley.

FEWER THAN EXPECTED
Prices were bid up, he said, because 14,000 calves were expected but only 9,800 were sold.

Before the fall sales, he said, individual buyers combed Northern Michigan and the Upper Peninsula and offered for \$1 to \$2 more than the 1965 prices for calves.

In addition, Finley said, some cattle raisers held back calves for replacements to build their herds.

Litter Costs Soar

LANSING (AP) — The cost of picking up litter, along state roads has more than doubled in five years, says the Michigan Highway Commissioner. The bill came to \$322,000 in 1961 and to \$743,000 in the year ended June 30, it said.

Hot Loaves Feature of Church Fair

By JANET ODELL
Pontiac Press Food Editor

Grandmother made all her own bread, but we'll bet she never made 120 loaves in one day.

Mrs. R. Allen James, wife of the bishop of the Church of Jesus Christ of Latter Day Saints, will be doing that this week. She'll have one or two helpers, but that's all.

One of the features of the church bazaar scheduled for Friday and Saturday in the church on Woodward Avenue is bread, hot from the oven.

Some of the women make bread at home and bring it in as soon as it is baked. But Mrs. James does her mixing, kneading and baking in the church kitchen.

Several hours before daylight, she arrives at the church to set the first batch of dough. Then it's a repetition of the same processes all day with eager buyers just waiting to purchase the hot fragrant loaves.

The women who have been doing this for a couple of years always use two 25-pound sacks of flour, sometimes three.

The next time someone tells you that women don't bake the way they used to, you refer them to the Mormon women.

Add to Tomatoes for a Side Dish

Weight watchers will appreciate this dish.

Sides Dish Tomatoes...
1 can (1 pound) whole solid-packet tomatoes
2 large ribs celery (without leaves), finely diced (1/4 cup)
1/2 medium green pepper, finely diced (1/4 cup)
2 tablespoons minced sweet onion
1/4 teaspoon salt

Into a shallow container, pour the juice from the tomatoes; mix in the remaining ingredients. If tomatoes are small, halve; if large, quarter; place in container and spoon juice mixture over them. Cover and chill. Makes 4 servings.

Keep Apart

Plastic covers from coffee cans make excellent spoon rests in the kitchen.

But be careful that you don't put a spoon used in mixing onions (or a food that contains them) on the same plastic cover you are using for a spoon with which you are mixing a dessert. That onion may travel!

Pontiac Press Photo

ADVANCE PREPARATIONS — Getting ready to bake over 100 loaves of bread for the Mormon Pioneer bazaar Friday and Saturday are Mrs. Edward B. Jones, Roundhill Court (left) and Mrs. R. Allen James, Huntington Woods. Three-year old Ran Jones, helps take in the bread pans. Bread fresh from the oven will be a feature of the bazaar sponsored by the Relief Society organization of Church of Jesus Christ of Latter Day Saints.

Sweet Sour Sauce Is Excellent on Many Fish

Fish cooked with a tart-sweet sauce is no stranger to the people of the Orient and South Seas. American kitchens might appreciate this exciting flavor more if they served these "20-Minute South Seas Fillets" occasionally.

This interesting recipe will inject new life into your menus, too. Serve it with halibut fillets one week; swordfish the next. It makes a delectable sauce with scallops, shrimp, crab or lobster.

Be sure to follow the recipe directions as to cooking time; fish should never be overcooked. It's "done" when you can flake it with the tines of a fork.

Also, the green peppers should be only crisp-don't, not limp. Convenient, canned tomato sauce furnishes lively taste as well as rich color.

20-Minute South Seas Fillets
1 lb. fish fillets
Salt
2 tablespoons pure vegetable oil
1 onion, chopped
1 green pepper, sliced
1/4 cup blanched slivered almonds
1 (13-oz.) can pineapple tidbits, undrained
2 (8-oz.) cans tomato sauce
1 tablespoon brown sugar
1 tablespoon Worcestershire

sauce
1 tablespoon soy sauce
2 teaspoons cornstarch
1 teaspoon ginger
Sprinkle fish with salt; lightly brown on both sides in oil in skillet. Add onion, green pepper and almonds and saute lightly. Combine remaining ingredients and pour over fillets. Cover and simmer 20 minutes. Makes 4 servings.

Keep Heat Low

High temperatures and long cooking make cheese tough and stringy. It requires a low temperature around 325 to 350 degrees.

YOU MAY HAVE PIN-WORMS AND NOT KNOW IT

Festering, nose-picking, a tormenting rectal itch are often telltale signs of Pin-Worms... ugly parasites that medical experts say infect 1 out of every 3 persons examined. Entire families may be victims and not know it. To get rid of Pin-Worms, they must be killed in the large intestine where they live and multiply. That's exactly what Jayne's P-W tablets do... and here's how they do it.

First—a scientific coating carries the tablets into the bowels before they dissolve. Then—Jayne's modern, medically-approved ingredient goes right to work—kills Pin-Worms quickly and easily.

Don't take chances with dangerous, highly contagious Pin-Worms which infect entire families. Get genuine Jayne's P-W Vermifuge—small, easy-to-take tablets... special sizes for children and adults.

Wrap Bundles of Green Beans in Thinly Sliced Pork Loin

Modern Mrs. Housewife is a lucky gal. With the many convenience foods now at her fingertips, she can change the plainest of platters into personality-plus dishes guaranteed to win her praise upon praise.

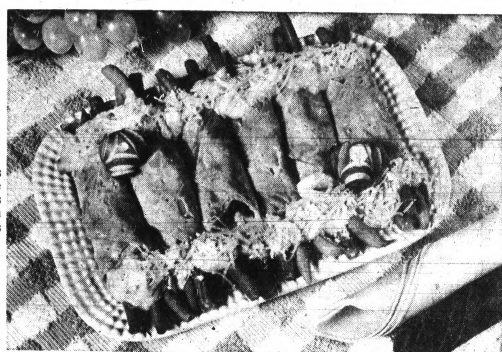

Take green beans, for instance. For years, these gifts of the garden have been a standby of the lady of the house, whose purpose in the kitchen has always been to give her family a well-rounded diet of meats and vegetables.

Beans-In-Blankets
2 packages thinly sliced cooked pork loin
1 can whole green beans
1 can mushroom soup

2 tablespoons corn starch
1/4 cup bean juice
1/4 cup grated cheese
1/4 cup cracker crumbs
Spread out two or three slices of pork loin, one on top of the other. Lay whole green beans in the center of the pork loin and roll. Place rolled up beans in casserole dish.

Mix bean juice, mushroom soup and corn starch until smooth. Cook over medium heat, stirring constantly, until sauce is formed. Pour over pork loin roll ups and sprinkle with cracker crumbs and grated cheese.

Bake for 30 minutes at 350 degrees F. or until hot and bubbly. Makes four servings.

BEANS-IN-BLANKETS — Dress green beans up in jackets of thinly sliced cooked pork loin and top with mushroom soup and cheese sauce. Green beans never had it so good.

a pledge from the management of A&P

What we are about to say is not new.
Matter of fact, it's over 100 years old.

A&P IS DEDICATED TO BRINGING
THE MOST GOOD FOOD,
TO THE MOST PEOPLE,
FOR THE LEAST AMOUNT OF MONEY.

That is the basis on which our company
has grown and prospered over the years.

We think it's important
during this period of time
to reiterate that pledge.

We want there to be no doubt in your mind
about our policy with respect to food costs.

We want you to know we are concerned.
We want you to know we're doing our level best.
We want you to know that
above all, "We Care... About You."

Scotland Yard Seizes Man in Transatlantic Spy Ring Probe

LONDON (AP) — Scotland law under which spies usually are tried in Britain. The arrest followed close on the heels of the seizure by FBI agents in Los Angeles of German-born Herbert Boeckenhaupt, a U.S. Air Force sergeant accused of conspiring to pass defense secrets to the Russians.

A foreign diplomat in London paid on a house at Westfield, a resort town 40 miles east of London.

The Official Secrets Act is the expected link with Boeckenhaupt.

The diplomat was not identified by FBI agents in Los Angeles in published reports, but on charges of conspiracy to commit espionage with Aleksey at an Iron Curtain embassy and R. Malinin, an assistant commercial counselor at the Soviet Embassy in Washington.

London newspapers said the letter was to an "espionage contact" and was intercepted by British security agents who sneaked out of the United States thought not to have diplomatic immunity.

In Los Angeles, the FBI was reported hunting for more "link man" now living in the British capital. There were predictions that Scotland Yard may soon contain any effort to learn whether they contained any American defense secrets.

BACK HOME SAFELY — Mrs. Joanne Williams, the wife of missing Rialto, Calif., bank worker Roger Williams, has her two daughters back, Rochelle, 5, and Kelly, 4, were taken away last July by their father who vanished along with \$536,000 from his bank. The pair showed up on Halloween night, delivered by a baby sitter hired by Williams. He disappeared again.

He, \$536,000 Gone

Absconder Returns Daughters

RIALTO, Calif. (AP) — Reluctant to take his daughters home, and lives sat in the modest white disappeared again. With the help of accounts into Roger Lee Williams, from the daughters, Kelly, 4, and Rochelle, 5, FBI agents "We just can't understand and Rochelle, 5, FBI agents why Roger would do anything added pieces to the puzzling picture like this," said his father, Everett, Tuesday.

"He was so conscientious," "Daddy had a suitcase full of such a good father and a hard money," said Rochelle. "He worker," said his wife, Joanne, bought a new white car, bought "There was no indication any us lots of dresses and toys and thing like this would happen — bought himself some new could happen."

Williams, 27, an assistant bank cashier, disappeared July driving all the time. Once on a 14 with his two daughters. At trip, a long time ago, we went in the same time \$536,000 disappeared a little plane. We went a long way, peared from the bank, and Williams was charged with bank larceny.

CAME BACK — Then on Halloween, the FBI said, Williams rented a motel steak, steak. We ate out all the room three blocks from his time except when daddy cooked house, hired a baby-sitter, to in our motel."

AP Wirephoto

SPECTATORS VIEW DEBRIS — Spectators line a railroad overpass in Dover, N.J., to look down on a train wreck scene. A train engineer in the cab of a passenger train, Archibald M. Speer, 67, was killed when two runaway engines thundered into his train yesterday.

Archives Get JFK Autopsy Pictures

WASHINGTON (AP) — The family of President John F. Kennedy has turned over to the National Archives pictures taken in connection with the autopsy performed after his assassination — pictures that doctors say add nothing to evidence already on record.

A Justice Department spokesman said Tuesday night the department had asked for the 14 X-rays, 25 black-and-white negatives and 26 color transparencies to complete the government's collection of assassination material for the historical record.

The two Navy pathologists who performed the autopsy the night after Kennedy was shot

said in interviews Tuesday night the X-rays and pictures merely back up testimony they gave the commission. And one of them said the photographs were intended for use in the trial of Lee Harvey Oswald, named by the commission as Kennedy's assassin.

"SUPPORTIVE EVIDENCE"

"These photos are nothing more than supportive evidence for information we presented to the Warren Commission," said Cmdr. J. Thornton Boswell, who assisted Cmdr. James J. Humes

A Well-Rounded Program

In addition to both general and specific business training, there are other important areas that we cover in our business educational program. For example, the ability to work steadily and intelligently, to take initiative and responsibility as the situation requires, and to work harmoniously — these are personal attributes that are stressed.

Such a well-rounded program makes our students highly desirable as well-qualified employees in business, government and industry. Our placement service is always available to serve both student and employer.

Carpenters' Accord Likely to Hike Costs

DETROIT (AP) — Carpenters and contractors in five southeastern Michigan counties have agreed on terms to end a month-long strike — but it could boost the average cost of a new house by \$108.

Agreement to end the walkout by the 17,000 members of the Detroit District Council of Carpenters was announced Tuesday.

More than \$500 million in construction projects has been tied up because of the strike.

Settlement terms must be ratified by union members. Ratification meetings were expected to be held this week.

SEPARATE FUND

Terms of the agreement reportedly call for an end to opposition by contractors to a separate insurance fund for the carpenters.

The carpenters struck to enforce their demand to leave a six-union insurance fund and set up their own.

The reported agreement provides that contractors contribute 30 cents hourly per man to the new fund, double the 15 cents they were contributing to the six-union fund.

The agreement reportedly also calls for wage increases of 10 cents an hour immediately and 10 cents May 1.

Industry spokesmen said the cost of home building is likely to increase by 35 cents hourly for carpenter labor — about \$108 a house.

The English tweed weekend suit by Harl Shaffner & Marx

Long weekends are traditional with the British, and they know how to pack for them. Witness this versatile trio borrowed from the British and beautifully translated by H. S. & M. A suit dressy enough for the office; tweedy enough for the country. The extra pair of color-blended trousers give you another outfit. The fabric is a fine Saxony tweed of pure wool, woven in England, in muted herringbones and hopsackings. Coat, trouser and slacks. \$120

Pope, Harriman Confer on Viet

VATICAN CITY (UPI)—Pope Paul VI met with presidential envoy W. Averell Harriman today and vowed to push his efforts to bring peace to Viet Nam.

The Pope urged members of the Catholic Church's international peace organizations to assist him in the task.

U.S. Force in Viet Seen Topping 400,000 Soon

WASHINGTON (AP)—Pentagon sources predict U.S. manpower in South Viet Nam will surge to 382,000 by the end of December and move past the 400,000 mark in January. Plans for this expansion from the 338,000 troops now in the Southeast Asian country are considered all but definite.

Beyond early 1967, however, the view is less clear and the Pentagon is in the process of calculating what it believes four military needs will be. Sources said latest additions to the war will likely be elements of the 9th Infantry Division which was activated last year and has been training for duty since January.

The 9th, with a strength of about 17,000, is virtually combat ready. In addition to a number of support-type units with thousands of troops have been tapped for duty.

When and where the infantry division will deploy is secret for security reasons. There have been reports it would be sent to South Viet Nam's rice-rich delta region, now defended largely by South Vietnamese troops.

Military officials say the Pentagon is at a crossroads in mapping out the course of the war beyond early 1967. This is budget planning time, a period when the services lay out their monetary needs.

Moreover, the Saigon command has recommended a buildup to at least a half million men, while at home Congressional predictions on the required forces have gone as high as 600,000.

AP Wirephoto

SNOW, WHAT SNOW?—As snow begins to appear in Pontiac and environs, down under in Australia, summer is on its way. But it's not quite there yet, as 21-year-old Helen Key finds when she tests the water temperature at Hampton Beach in Melbourne.

Deaths in Pontiac, Neighboring Areas

Mrs. McKindry Seelye Service for Mrs. McKindry (Effie) Seelye, 91, of 222 Linden will be 2 p.m. tomorrow at the Marsh Funeral Home, Marlette. Mrs. Seelye, whose husband was a minister, died yesterday after a long illness.

Surviving are two sons, Vere and Glen Cargill, both of Farmington and three daughters, Mrs. Esther Calbi, with whom she made her home, Mrs. Ruth Erwin of Farmington and Mrs. Florence Cooley of Fort Lauderdale, Fla.

Also surviving are eight grandchildren and 11 great-grandchildren.

This morning. His body is at and Mrs. Gordon E. Hinton of Ganongue, Ont.

Charlotte J. Hinton LAKE ORION — Charlotte J. Hinton, 13-year-old daughter of Mr. Edward G. Hinton of Metamora and Mrs. Ralph J. Bowen, 66 Golden Gate, died yesterday as a result of a gun wound. Her body is at the Allen's Funeral Home.

She was an eighth grader at Hinton, 13-year-old daughter of Mr. Edward G. Hinton of Metamora and Mrs. Ralph J. Bowen, 66 Golden Gate, died yesterday as a result of a gun wound. Her body is at the Allen's Funeral Home.

Surviving are her husband, Mr. Hinton, a machinist with the U.S. Rubber Co., De Lake Orion High School, and a member of the Lake Orion Methodist Church and the Girl Scouts. Surviving beside her parents are a brother, Daniel E. at home Troy and Philip E. of Royal Oak; 10 grandchildren; a brother, and a sister.

Mrs. John McNeil TROY — Requiem Mass for former resident Mrs. John (Ida) McNeil, 62, of Ferndale will be 9:30 a.m. Friday at Guardian Angels Church, Clawson. Burial will be in Mt. Olivet Cemetery, Detroit. A Rosary will be said at 7 p.m. tomorrow at Price Funeral Home.

Mrs. McNeil, a member of St. Pius Church, Hale, died yesterday after a long illness. Surviving are her husband; three daughters, Mrs. Mary Hippler of Troy, Mrs. Vincent Robertson of Clawson and Mrs. Mohammed Mahady of Ferndale; two sons, Albert J. Warnez of Madison Heights and Donald F. Warnez of Ferndale; 20 grandchildren; three sisters; and two brothers.

Mrs. Frank Moss ROCHESTER — Mrs. Frank Moss, 86, of 922 Roselawn died yesterday after a long illness. Her body is at Price Funeral Home, Troy.

Gun Death of Girl in Orion Probed

The gunshot death of a 13-year-old Orion Township girl, found lying on a bed at her home with a rifle at her side early last night, is being investigated by Oakland County Sheriff's deputies.

The victim was Charlotte J. Hinton of 66 Goldengate, daughter of Mrs. Betty Bowen, same address, and Edward G. Hinton, of 100 High, Metamora.

The bullet entered her stomach, according to police. Cause of death was attributed to internal bleeding.

Zip Code Use Is Urged to Avoid Deluge of Mail

An unusually heavy mail load for this time of year and a shortage of employees may result in a future deluge of mail if Zip Code lists aren't used during the Christmas season, Pontiac Postmaster William Donaldson said today.

All "Zip-A-Lists" should be turned in immediately so they can be coded and returned before the Christmas rush, he said. Some 80,000 "Zip-A-List" cards were sent to city residents to be filled out with most-used addresses. The postmaster requests all addresses be printed.

Post office personnel will add the proper Zip Codes and return the lists to senders.

EXTRA CARDS
Extra cards are available at the post office.

Donaldson attributes the current heavy mail load to election campaign literature and Christmas advertising. He noted that candidates should put material in the mail early to ensure its distribution by the Nov. 8 date.

The post office is short 23 authorized regular employees and is presently hiring 50 temporary workers for the Christmas season. Applicants should contact the Civil Service section at the post office.

Restriction on Police Unionism Asked

Legislation that would prohibit county's 1967 legislative program. The separation of police officers from nonpolice in labor organizations was suggested to the committee by Daniel T. Murphy, chairman of the County Board of Auditors.

Murphy said that such legislation would ensure the public that law enforcement officers would not be placed in a position of dividing their loyalties between their oath of office and their labor union ties when called upon to preserve the peace during labor disputes.

"The passage of this amendment to the Hutchinson Act would in no way abridge the right of police personnel to organize and join labor unions," Murphy said.

ONE RESTRICTION
"The only restriction would be that they not affiliate with an organization that admits nonpolice personnel."

If this legislation proposal is approved by the supervisors and enacted into law by the State Legislature in the next session, it would have a direct bearing on the present labor organization structure in Oakland County.

Sheriff's deputies belong to the American Federation of State, County and Municipal Employees (AF-CIO), the same union road commission and other.

The committee also agreed to support five legislative proposals of a dozen submitted for its consideration by the road commissioners.

Among the support measures was that road commissioners continue to be appointed rather than elected.

Some of the road commissioners' legislative proposals were rejected by the legislative committee.

Among those rejected was proposed legislation to limit or eliminate the sale of throw-away glass containers for beverages because they are considered a highway safety hazard.

Candidate Gets Phone Threats in Maryland Race
BALTIMORE, Md. (AP)—George P. Mahoney, the Democratic candidate for governor, was escorted by state police as he campaigned in Southern Maryland Tuesday night after receiving six threatening telephone calls, campaign aides said.

Assistants at Mahoney's headquarters in Baltimore City said two threatening calls were received at his Baltimore County home, and four others at the campaign office.

Because of the anonymous threats, Mahoney canceled scheduled afternoon jaunts to Dundalk Marine Terminal and the Western Electric plant aides said.

Exile May Return to U.S. for Birth of Brainchild

By EARL WILSON
LONDON — Charlie Chaplin left the door open for a return to America in an interview he gave me at Pinewood Studios.

His crutches were nearby. His broken left ankle was still in a cast, in a red sock to keep it warm.

But he was happy, laughing, mellow — and nostalgic — when I asked if he'd go to New York for the American premiere of "A Countess From Hong Kong" in February.

"If the occasion were to arise . . ."

He nodded, twinkled a look at me through his glasses, and fingered the Persian lamb collar of his overcoat.

"Yes, I might. One naturally has an affection for any place where he's had a success."

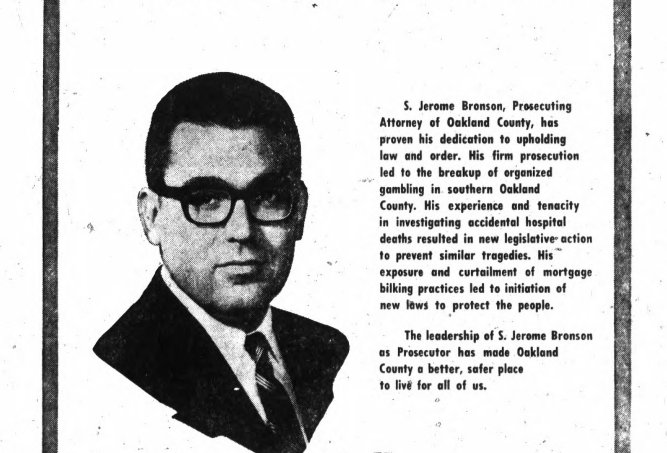

It's almost certain that "the occasion" will arise for the genius of comedy who went into "voluntary exile" in 1952. Some groups want him to do an Ingrid Bergman and return in triumph.

The lusty, gusty 77-year-old is so anxious to get on to producing another picture that he's goaded the comparative youngsters around him into a mid-January premiere of "Hong Kong" in one of the posh London West End theaters.

"Yes, I've got another idea germinating. It keeps an old creep like me alive," he said. "I'm too much of an egoist to let anybody else write it!"

He was in the projection room editing "Hong Kong" and inserting the music. To my surprise, he showed me some of the film.

The experience and courage to serve us all

S. JEROME BRONSON
For JUDGE CIRCUIT COURT

S. Jerome Bronson, Prosecuting Attorney of Oakland County, has proven his dedication to upholding law and order. His firm prosecution led to the breakup of organized gambling in southern Oakland County. His experience and tenacity in investigating accidental hospital deaths resulted in new legislative action to prevent similar tragedies. His exposure and curtailment of mortgage bilking practices led to initiation of new laws to protect the people.

The leadership of S. Jerome Bronson as Prosecutor has made Oakland County a better, safer place to live for all of us.

THE MIDNIGHT EARL

Frank Sinatra's mother-in-law Maureen O'Sullivan's paying him a 2-week visit (while in "The Subject Was Roses" in LA) Peggy Lee led her handsome conductor and friend Frank Sinatra right out in the open during her smash Copacabana opening. Of the many celebs, Tony Bennett got the most tumultuous hand. Joe Namath visited Peggy's dressing room.

Secret Staff: David Merrick's aides urged Diannah Carroll to see one of his out-of-town musicals but he insists he isn't making a cast change.

Duo watching "Man of La Mancha": Rock Hudson and Jim Nabors . . . Connie Stevens gives her brother, Viet Nam-bound, a party at the Coney Island Pub . . . Asked what films he wants to do, Orson Welles says, "Mine. I have drawers full of things written by me."

TODAY'S BEST LAUGH: Comic Jeremy Vernon, a hit at the Copa, said, "It was nice of Mayor Lindsay to redecorate 8th Av. and put hardwood floors all the way up."

WISH I'D SAID THAT: Kidding Ginger Rogers about her age at the St. and Sinners, Walter Kierman said, "Fred Astaire can still dance. Why not? He's had his legs lifted three times."

EARLY'S PEARLS: Lee Tully suggests that on Nov. 9, the day after the elections, we have a moment of silence for the departed politicians.

Johnny Carson reports a Secret Service man came around to see him: "Nothing serious. Just wanted to sell me a subscription to McCall's." That's Earl, brother.

(The Hall Syndicate, Inc.)

Card of Thanks

WE WISH TO THANK OUR MANY friends and neighbors for the beautiful floral offerings and cards. Also special thanks to Rev. Hawthorne, Hawthorne Funeral Home, The Family of Kenneth Hale.

THE FAMILY OF AUGUST THEILMA to thank our friends and neighbors for their thoughtful and generous contributions during our recent bereavement. Also to the Rev. Father and the Board of St. Joseph's Church, and the Board of St. Joseph's Church, and the Board of St. Joseph's Church.

In Memoriam

IN MEMORY OF DOROTHY Pierce who passed away four years ago today, November 2, 1962. God took you four years ago. He did what he thought best. But there's some comfort in the thought that you'll find happiness and rest. Sent missed by her Mother and Brother. Mrs. Georgia Williams and Mrs. Orelia Tousey.

Campaigning 'Also Rans' Hope to End as 'Also Wons'

EDITOR'S NOTE—This is the third in a five-part series on the major statewide races in the Nov. 8 election. It deals with the race for lieutenant governor.

By the Associated Press

The lieutenant governor's race is a contest between "also rans" whose odds it is to try to become "also wons."

Since the 1963 State Constitution went into effect, the governor and lieutenant governor run as a team — ending the sometimes awkward situation in which a governor of one party and a lieutenant governor of another party are elected and forced to work together for the next few years.

That happened in 1963, when Republican George Romney was elected governor while Democrat T. John Lesinski was picked as lieutenant governor.

The situation produced some colorful conflict, but there were questions as to whether this split in the executive office produced anything else for the benefit of the state.

MILLIKEN, BRUFF

This year's contest is between Republican Lt. Gov. William G. Milliken of Traverse City and Democratic challenger John B. Bruff of Mount Clemens.

Each is running on the platform of his party's gubernatorial candidate, and trying to campaign where his running mate isn't.

Milliken is campaigning on the accomplishments of the Romney administration in 1963-64 and of the Romney-Milliken administration, 1965-66.

Bruff, like Democratic gubernatorial candidate Zolton Ferency, is attacking that record, complaining of a \$167 million surplus in the State Treasury while needs go unmet, and claiming most of the advances in the past two years are due to the Democrat-dominated Legislature.

Milliken's schedule is coordinated by a committee that tries to get him into outstate areas where Romney is in the metropolitan Detroit area and vice versa.

Ferency's schedule usually is not announced far enough in advance to allow Bruff to set his own schedule accordingly, but he tries to expand the Democratic gubernatorial campaign by filling the gaps in Ferency's schedule.

Milliken is president of J. W. Milliken, Inc., which runs three department stores in Traverse City, Cadillac and Manistee.

FIRST OFFICE

He ran for his first public office of becoming governor automatically in 1960. He was elected to it.

If Romney fulfills speculation surrounding his presidential possibilities, the Constitution says County contingent knew who he was.

1970 ELECTION

This would put him in a favorable position to run on his own in the 1970 general election.

AN ATTORNEY

Bruff, an attorney, has been active in Macomb County Democratic circles for several years. He served as district representative for Congressman James O'Hara, a Utica Democrat, from 1959 to 1965.

In fact, at the start of the Democratic nomination convention last August, few party delegates outside of the Macomb County contingent knew who he was.

The late U.S. Sen. Patrick V. McNamara appointed him counsel to the Senate subcommittee on labor and a special committee on agriculture.

He did much of the background work on the 1966 Federal Minimum Wage Bill. In fact, he said, it was work on that bill that delayed his return to Michigan to start the fall campaign.

Bruff is a graduate of Chesapeake State University and the University of Michigan Law School.

CAUSE NO. 1758
STATE OF MICHIGAN — In the Probate Court for the County of Oakland, Juvenile Division.

In the Matter of the Petition Concerning Glen, Linda Cheryl and Gary Cronk, Minors.

TO James Cronk, father of said minor children.

Petition having been filed in this Court alleging that said children come within the provisions of Chapter 723A, of the Compiled Laws of 1948 as amended, in that the present whereabouts of the father of said minor children is unknown and said children are dependent upon the public for support, and that said children should be continued under the jurisdiction of this Court.

In the Name of the People of the State of Michigan, You are hereby notified that the hearing on said petition will be held at the Court House, Oakland County Service Center, in the City of Pontiac, in said County, on the 10th day of November, A.D. 1966, at 8:30 o'clock in the forenoon, and you are hereby commanded to appear personally at said hearing, at which time temporary or permanent severance of all parental rights will be considered.

If being impractical to make personal service hereof, this summons and notice shall be served by publication of a copy one week previous to the hearing in The Pontiac Press, a newspaper printed and circulated in said County.

Witness, the Honorable Norman R. Barnard, Judge of said Court, in the City of Pontiac, in said County, this 21st day of November, A.D. 1966.

Public Seldom Listens

Education, Court Races Overshadowed

By The Associated Press
The incumbents say they've done a pretty good job.

The challengers say they could do it better.

The public seldom listens to any of them.

Who are they? You'll find their names at the bottom of your Nov. 8 election ballot. And many of the names may not sound familiar.

FROM EACH PARTY

They are the eight Republicans and eight Democrats running in "the Education Races"—four each for the places on the State Board of Education, University of Michigan Regents, Michigan State University Trustees and Wayne State University governors.

Political partisanship is soft-pedaled and meaty issues are few in these contests, and some of the candidates fear that voters don't realize the importance of the jobs they seek.

In these races, the candidates generally stress their qualifications, backgrounds, ideas and willingness to serve. The incumbents point to their records with pride. The nonincumbents assert it's time for a change.

And about the same can be said for the more-or-less non-partisan State Supreme Court contest, where two Democrats, including Chief Justice Thomas Kavanagh, are fighting to hold their seats.

FIVE INCUMBENTS

The Democrats are fielding five incumbents in the education races and the Republicans have two. Democrats currently have majorities on the MSU and WSU boards and all eight seats on the state board.

All the races are for eight-year terms. Members of the three university boards don't even get paid. Supreme Court justices, however, earn \$35,000 a year.

"I'm afraid we're being overshadowed by the major races," muses Jean McKee, a Democratic incumbent on the WSU board.

An important factor in the school races, most candidates believe, will be party voting. An elector who votes his straight party ticket votes for candidates in those contests whether he knows it or not.

TICKET SPLITTING

"But the fact that so many people are splitting their tickets these days may mean that we'll have an individual fate," says Mrs. McKee.

When state board member Dr. Leon Fill meets with voters, he praises the record of the board rather than criticizing his two Republican opponents.

"Actually," he says, "We try to keep from knocking each other down. We're looking for positive approaches."

The Republican challengers, however, knock the record of the boards.

'MORAL' EDUCATION

It hasn't moved far enough in the matters of "moral" education, eliminating secrecy from its proceedings, improved teacher certification and "real educational leadership," says GOP candidate James F. O'Neil.

"The average student is getting only an average education despite our leadership in expenditures," argues Republican Dr. Leroy Augenstein.

The University of Michigan hasn't good enough "in certain areas, especially in scientific education," says Republican nonincumbent regent Mrs. George Huebner Jr.

The trouble with Republicans is that they won't agree to spend enough money on education, contends incumbent regent Mrs. Irene Murphy, a Democrat.

'FINE RECORD'

In the Supreme Court race, too, the ins say the court has a fine record—but one of the outs contends it splits too often along partisan lines.

"We're very proud of the record this court has compiled in the last few years," says Kavanagh. "It has become one of

the outstanding courts in the United States."

But challenger Brennan says he's made a study showing that

as of 1964, the court was divided in 30 per cent of its decisions.

"In a court of this level," he says, "there is an obligation to reach agreement. Citizens have a right to know where they stand."

Justice Otis Smith, the other

candidate for reelection, says he

also made a study and found that in only 5 per cent of the

"what you might call, in loose

language, partisan splits."

DIFFERING PHILOSOPHIES

And that wasn't because of political pressure, Smith says, but resulted from "differing judicial philosophies."

For the record, these are the education candidates:

State Board—Dr. Fill and Don-

ald M. D. Thurber, D; Dr. Aug-

enstein and O'Neil, R. UM Reg-

ents—Mrs. Murphy and John

Collins, D; Robert Brown and

Mrs. Huebner, R.

MSU Trustees—Warren Huff

and Nathan Conyers, D; Ken-

eth Thompson and Frank Mer-

riman, R. WSU Governors—

Mrs. McKee and Leslie Schmi-

er, D; Dr. Alfred Sokolowski

and Norman Stockmeyer, R.

AF 'Bomblets'
Join Arsenal

By Science Service

WASHINGTON — Miniature

"bomblets," each with its own

parachute, are the latest addi-

tion to the U.S. Air Force ar-

senal, designed to be dropped

on armored targets from fast-

flying aircraft.

The bomblets, developed for

USAF by the Army, are "dis-

persed" from tubes mounted

underneath the aircraft. Each

tube can carry as many as 300

bomblets.

Texans Have UFO as Regular Visitor

BROWNSVILLE, Tex. (UPI) — If you're never seen an unidentified flying object (UFO),

there was something there the 8-17 go by.

Sam Pate, a local merchant

and member of the airport

board, saw it first — a cluster

of three objects that looked like

stars, crossing overhead from

northwest to southwest.

Pate's wife telephoned Rah-

ert Segal, editorial director of

three Rio Grande Valley

newspapers. Segal is a sea-

and disappeared.

"As soon as it disappeared,

two others came from differ-

ent directions and turned,"

Pate said.

UFOs have been appearing

with such regularity since then

between 8-17 and 8-40 p.m. that

Pate calls them "the 8-17."

He thinks they are probably

man-made satellites. But Guy

Bevil of Brownsville, a former

pilot and a UFO enthusiast, be-

lieves they could be spaceships

from another planet.

Tender and tempting, crusted with gold

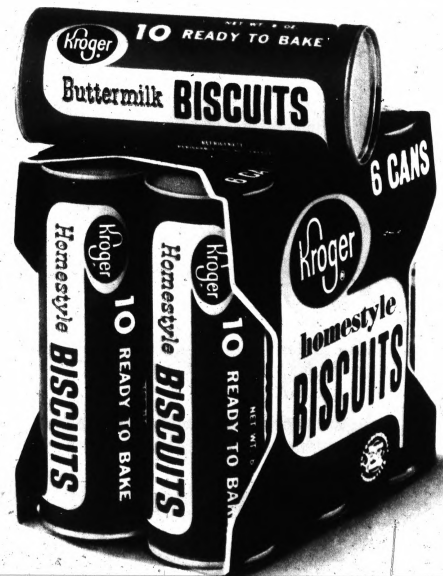

New Kroger Biscuits: guaranteed fine as the best and cost you less

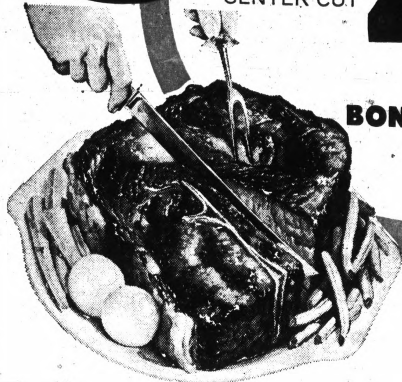

Look what's come between a bride and her biscuits: Kroger's ready-to-bake kind! So light... snow-white—and fluffy tender. Perfect, plump, golden biscuits that sit easy on a man's stomach—every single time. The famous Kroger deep-South recipe calls for white flour and corn flour, shortening and salad oil, milk or buttermilk. And because we don't skimp on the good things, you always bake 'em up with pride. No failures ever! Your choice of sweet, delicate Homestyle Biscuits or the hearty, fragrant Buttermilk kind. Both dated for freshness and guaranteed to bake up high, light and handsome. Smart way to buy 'em is the handy 6-pack. A hundred thousand brides do—every week!

dummy holds a long suit you should always see what you can do to set that suit up. Sometimes you can make a lot of tricks that way."

Jim: "If South decides to try to ruff clubs after winning the first diamond it won't be any trouble at all for the defense to knock him right out of the box. If he works with the nice six-card heart suit in dummy he will be likely to wind up with an overtrick."

Oswald: "Let's see how things go if South goes after dummy's hearts. He wins the first diamond in his own hand and leads a heart toward dummy. West should play low but South should rise with the king. He has heard West open the bidding. The king holds and a second heart puts West in with the ace. It doesn't matter what he leads but he will probably play the jack of diamonds."

"South wins in dummy, plays a trump to his jack and a second trump back to dummy. Then he ruffs a heart to set the dummy." up. After that, all he has to do

2-Card Sense

Q—The bidding has been: West North East South
4♣ Dble. 3♠ 3NT.
Pass 4NT. Pass 4?
You, South, hold:
AK75432 AKQJ864 432
What do you do now?
A—Pass. Your partner knows that your three-trump bid was based on a diamond suit. Your hand is likely to produce 10 tricks at either no-trump or diamonds.

TODAY'S QUESTION

Instead of passing when your partner doubled four clubs, East bids four spades. What do you do now?

Answer Tomorrow

Loser, Wife Are Thankful

NEWPORT, Tenn. — The Newport newspaper recently carried an advertisement from General Sessions Court Judge Benton Giles, who had been elected in a Republican primary election.

He thanked those who had voted for him. Immediately below his ad was another — by his wife, thanking those who did not vote for her husband.

She said that, with him out of politics, she might be able to get him to go to church.

No Subscriber, This Young Pup

BARTON, Fla. (AP) — The Polk County Democrat's circulation director reports trouble with a dog. He's too friendly. A carrier boy, throwing papers onto subscribers' lawns, was the playful pup's victim. Eight times the neighborhood dog picked up a paper in his mouth and proudly scampered back to return it to the helpless delivery boy.

PROTECTIVE MOMENT — A 3-week-old tiger cub is snatched away by its mother, Anita, as photographers try to take pictures at the Amsterdam Zoo.

Astrological Forecast

By SYDNEY OMARR
For Thursday
The wise man controls his destiny. Astrology points the way."
ARIES (Mar. 21-Apr. 19): Accent on home, security, ability to coordinate family efforts. Wonderful for utilizing natural attributes. Stress integrity, independence of thought and action.
TAURUS (Apr. 20-May 20): Keynotes: flexibility, change, make concessions, be versatile. Don't be satisfied with important message in your hand. Listening is due. Can be favorable sign if properly interpreted.
GEMINI (May 21-June 20): Your ability to size up persons, situations is conspicuous. You can save money if patient. Watch for genuine bargain. Emphasis on possessing finances, income possibilities.
CANCER (June 21-July 22): Cycle moves up. Circumstances turn in your favor. Opportunities featured. If you take special care with personal appearance, special occasion might could advance career.
LEO (July 23-Aug. 22): Tendency toward indecision should be overcome. Be anxious to get things done. Don't get involved with group, organization. Some projects. (Aug. 23-Sept. 22): See great degree of harmony. You can patch up take steps to fulfill hopes, wishes. Outlines desired. You are closer to winning than you imagine.
LIBRA (Sept. 23-Oct. 22): Your ability to follow through on plans is appreciated. People in positions of authority are impressed. Be perceptive. Don't respect apparent minor points. OBSESSIVE.
SCORPIO (Oct. 23-Nov. 21): Good luck. Invest points in business, new gain through added knowledge. Study written word. Valuable clue possible through reading your paper. Attend to correspondence, messages, calls. SAGITTARIUS (Nov. 22-Dec. 21): Study SCORPIO message. Set ideas free. Be active. If male or partner expresses concern over money, don't panic. What appears to be capricious swings in your favor.
CAPRICORN (Dec. 22-Jan. 19): Emphasis on legal affairs, partnerships. Be aware of feelings of others. Don't neglect public relations. Trying to force opinions on others could backfire. Listen and observe.
AQUARIUS (Jan. 20-Feb. 18): Fine for visiting with neighbors, relatives. Make necessary concessions. Express interest in hobbies. Share beliefs, desires. You could win valuable ally if mature. PRICES (Feb. 19-Mar. 18): Highlight creative endeavors. Cooperation with AQUARIUS individuals. Also, CEN. Accent willingness to make necessary changes. KEYNOTE: FLEXIBILITY.
PISCES (Mar. 19-Apr. 18):
IF THURSDAY IS YOUR BIRTHDAY
You have fine sense of humor. You are versatile and keep mind open to new challenges, opportunities.
GENERAL TENDENCIES: Cycle high for CANCER, LEO, VIRGO. Special word to PRICES. Communicate. Let others know how you feel.

Drug Effective in Wide Field as Antibiotic

By Science Service
PHILADELPHIA — Two Italian scientists announced they had produced a versatile antibiotic drug which has shown exceptional activity against both Gram-positive and Gram-negative bacteria, including the tuberculosis organism, with no undesirable side effects.

The drug, rifalazine, was derived from the rifamycin family of natural antibiotics discovered in the fermentation broth of a *Streptomyces* mold in 1967.

The first of the rifamycins, Rifocin, has been used in Europe since 1962 to control infections caused by Gram-positive organisms. These include gallbladder and bile duct infections, as well as tuberculosis.

Rifocin is now being tested against leprosy.

Prof. P. Sensi and S. Furesi of the Lepetit Research Laboratories in Milan, Italy, said that after Rifocin was developed, Lepetit investigators wanted to find a rifamycin which worked better than Rifocin when taken orally and which was even more effective against tuberculosis.

Rifalazine, they said, seems to have these qualities. It also maintains protective levels in the blood for at least eight hours and is satisfactorily distributed to the various organs, they reported.

The drug has been found effective against urinary infections, pneumonia, bronchopneumonia, osteomyelitis (bone infection) and localized infections of soft tissue.

Residents of Manila are eating an average of 100 water buffaloes a day. This is causing a shortage as the animals are needed for work.

The Underachiever—3

Fear of Failure Hurts Otherwise Good Students

(EDITOR'S NOTE—This is the third in a 12-part series on a severe problem in today's schools—the underachiever—by Dr. Leslie J. Nason.)

By LESLIE J. NASON, Ed. D.
University of Southern California

Fear of failure contributes to the underachievement of more students than is generally recognized.

"We try to put no pressure on our children," a parent will say. "We do not chide them into trying to live up to our successes. There is no reason for them to be tense because of pressure from us."

But the pressure of living in a family of successful parents, or successful older brothers and sisters is still there.

The underachieving student knows that he is not reaching the standards held by his family, his teachers and his classmates. He knows that he is not being a satisfactory representative of his family or school. If his grades are too low for college he knows it.

These pressures and anxieties make a student tense, inhibit his actions and interfere with learning. In fact, fear of failure can cause failure.

Fear can have an adverse effect on a student's behavior in each of the following activities that affect scholarship:

- The reticence of a student

170 Live Oaks

Will Be Moved

BEAUMONT, Tex. (AP)—Work is to begin soon on relocation of 170 live oak trees which had been doomed but received a reprieve.

The trees, located along 31 miles of U.S. 90 near Beaumont, were to be cut down to make way for widening of the highway to four lanes.

The 170 trees will be moved 20 feet north to form the center strip of the new highway.

afraid to recite in class frequently is not associated with actual fear.

• The child who draws each letter as he writes, or grips his pencil too firmly, may have fear of failure in other physical activities such as climbing or playing ball.

• The child who seems not to try may fear competing with classmates or siblings.

• Failure to adopt goals may be due to a student's fear that he lacks the capacity to reach adequate ones.

• Reluctance to change to more efficient study procedures may be due to fear that the new ones will lead to less satisfactory results than those with which he is familiar.

Individualized programs must be planned to eliminate the block caused by these fears.

LONG FAILURES

For example, Bud was failing in reading, writing and arithmetic; in fact, the failures had lasted so long that now he refused even to try.

One thing Bud needed was an opportunity to fail without fear of disappointing his parents and his teachers. The standards he had set for himself were his own.

In writing, he carefully drew each letter to attain the result he wanted. His attention to the writing process was so complete that frequently in the middle of a word he had to look back at the copy to see what the next letter was.

I explained to Bud that other boys like himself had improved their handwriting without too much work and with startling results. Their homework was completed faster; their arithmetic papers not only looked better but had fewer careless errors.

TRAIN HANDS

I started Bud on a program of training his hands to write with more facility, warning him that at first his handwriting might show a setback.

He was willing to remedy his shortcomings only after he was convinced that his immediate failure to produce acceptable handwriting would not bring

disappointment to his parents and teachers.

Choose a sentence and write it again and again, filling a sheet or two of paper.

After the second writing switch the center of your attention from what you are writing to how you are writing. Try for well-formed letters and properly spaced words.

BE COMFORTABLE

Hold your pen or pencil so that it is comfortable to you; be careful not to squeeze the pen or bend the fingers too much.

Train your hand to write easily and well by keeping your attention on the formation of each word.

Continue with the same sentence for at least 15 minutes, all the time striving for improvement.

You should fill at least two more pages. If your writing ceases to improve and becomes jerky, stop practicing for a time. The poorer handwriting indicates that your hand has become tired or a giant step in the elimination of errors.

The occasional use of numerals as practice material will be approached in a different manner. He could not improve your ability to do neat work in mathematics. It will be mastered this without help.

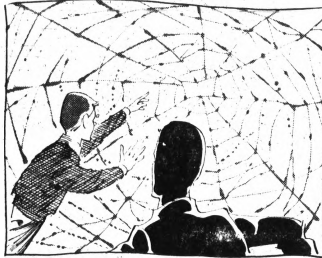

A teacher from another school took on the task of working privately with Bud.

She let him practice reading in a situation where he could stumble on words without fear of exposure to others of his failure.

In an atmosphere where the fear of failure to perform perfectly had been removed, Bud made rapid progress.

Well laid plans will drive fears into the background and free the student for better accomplishment.

(Next: Speeding the slow learner.)
