

Two in Michigan

Blasts in 3 States Take Lives of 6; Cuts Detroit Gas

LIBERAL, Kan. (AP)—An explosion flashed through a big pipeline compressor station here in the southwest corner of Kansas yesterday, killing three workmen and threatening natural gas supplies as far east as Detroit.

Officials of Panhandle Eastern Pipeline Co. said they hoped to restore deliveries to 70 per cent of normal today.

★ ★ ★

They indicated this would mean no curtailment of gas for household use along Panhandle Eastern's system in Kansas, Missouri, Illinois, Indiana, Ohio and Michigan.

Industrial users in the six states were cut off immediately.

The Michigan industries are: Corning Glass Co., Albion; Mueller Brass Co., Port Huron; Albion Malleable Iron Co., Albion, and Michigan Seamless Tube Corp., South Lyon. All buy natural gas directly from Panhandle.

A Detroit spokesman for Panhandle said all four industries had standby gas facilities and he had heard of none closing because of a lack of fuel.

The whole area presently is in the grip of a cold wave.

There were about 25 men in the plant. Fourteen were burned and battered by the explosion. Three were reported in critical condition. Four were released from a hospital after treatment.

★ ★ ★

The blast blew the metal roof and sides off the main compressor building, 364 by 68 feet. It wrecked the engines and compressors. An adjoining machine shop was heavily damaged. Five other buildings and eight houses on the 80-acre plot 15 miles northeast of Liberal had lesser damage.

One company official said the loss might run several million dollars.

Those killed were Melvin Swafford, 35, who lived on the station; James Hanes, about 30, Paul's Valley, Okla.; and Ivan Hill, about 40, Liberal.

A company spokesman said failure of a piece of equipment on a compressor engine caused the blast. Workmen said they heard a hissing noise just before the explosion.

Fear 4 Dead in Blasts

PEORIA, Ill. (AP)—Two rapid-fire explosions in a city gas line leveled a house and a two-story building last night, killing three persons. One other is missing and believed dead. Five were injured.

Killed by the blasts and subsequent fire were Perry Traub, 40, operator of a grocery in the building, and John J. Heitzman, 61, owner of both the building and the house.

Heitzman's son-in-law Robert J. Einfeldt, about 45, and Einfeldt's son Robert Jr., 11, were believed dead in the charred rubble.

Police said witnesses reported Traub had called Heitzman to report a gas leak in his store. They reported Heitzman, joined by Einfeldt, went with Traub to search for the leak shortly before the explosions.

Tank Trucks Explode

MIDLAND (AP)—Tank trucks loaded with highly inflammable benzol exploded in the Producers' Transport, Inc., building here yesterday, injuring five men and causing an estimated \$300,000 in damages.

The first blast came while workers were trying to thaw out frozen benzol in two 9,000-gallon tank trucks with steam.

Later a leak was found in one of two remaining loaded tankers. Most of the benzol was frozen and company officials decided to shoot holes in the truck to eliminate a continuing fire hazard.

The shots caused another small explosion and fire that quickly was brought under control.

It was the first blast that caused the injuries and damage.

Benzol freezes at 40 degrees and the chemical was being thawed to be pumped to the Dow Chemical Co. plant across the street. Producers' Transport hauls chemicals for Dow.

Dow said the fire will not affect plant operations.

Blast Wrecks Hotel

HOUGHTON (AP)—Sixteen persons were driven into 5 below zero temperatures Wednesday when a fire and explosion wrecked the Hotel Binder at Bruce's Crossing about 55 miles southwest of Houghton. There were no injuries. Damages were estimated at about \$30,000.

City Manager Sees No Change in Tax Rate

Commission May OK
Record High Budget at
Jan. 29 Meeting

City Manager Walter K. Willman said last night that city residents could almost be assured that the city's \$13.70 tax rate could be continued for the fourth straight year.

"Considering that it hinges on the final determination of the Board of Review in May, we think we can safely say that our present \$13.70 rate can be perpetuated," he said.

His statement followed approval by the City Commission of the city's 1937 capital improvement program.

Willman asked commissioners that if they have any additions or deletions to this year's proposed \$3,381,719 budget, that they should bring them up at the Jan. 22 public hearing.

Possible adoption of the budget, a record high, is expected Jan. 23. Commissioners, under the City Charter, must approve the budget by the end of the month.

The accepted capital improvement program calls for an expenditure of \$3,228,000, of which \$375,000 will come from city taxes. The balance is derived from special assessments and from state gas and tax weight receipts.

LARGEST PROGRAM

Including the possible beginning of a \$3 million auxiliary sewage treatment plant, and the continuing work on the \$3.5 million hospital addition, the city is undertaking this year the largest (\$3,763,000) capital improvement program in its history.

The future widening of Perry Street and the city's share of the completion of the work on the Orchard Lake - Telegraph road separation, called for the allocation of \$750,000 in the year's program.

The largest share of some \$2,555,000 new work on the city's streets, sidewalks, and sewers, involves an expenditure of an estimated \$633,000 for new sewers. Willman explained that the approval of the program was within \$3,000 of the estimated money allocated in the budget for the work. Final acceptance will come when the budget is approved, he added.

The remainder of the program includes money allocated toward the completion of the Pontiac General Hospital addition; the new fire hall, and the Public Safety Building.

Not Recommended for Michigan Beaches Today

WHAT? NO SNOW?—These youngsters on the beach at Miami seem to be having as much fun as they would be building snowmen, sledding or ice skating back home. But this activity is not recommended for Michigan beaches at present.

Would Take 'Novel' Legislation

Van Wagoner Says Toll Roads Through State Still Possible

By FETE LOCHER

Hopes for a north-south toll road past Pontiac are not dead, Murray D. Van Wagoner, former consultant for the Michigan Turnpike Authority, said yesterday.

Rejuvenation of the authority and its plan for a "pay-as-you-go" expressway from Rockwood to Saginaw depends at the moment, on two big "ifs," according to the former governor and state highway commissioner who spoke here last night.

If the hurdles can be overcome, he said, the road may be built in the face of competition with free roads proposed by the State Highway Commission.

First, Van Wagoner said, the Legislature must pass certain "novel" pieces of legislation re-

quired by a bonding company which has shown interest in the project. Second, the bonding company itself must make good an offer to finance the highway if the legislation is passed.

Van Wagoner's disclosure came before he addressed the

annual dinner of the Oakland County Employees Credit Union in the Civic Room of the Federal Savings and Loan Assn., 761 W. Huron St.

He also left the door slightly ajar to run for the post of state (Continued on Page 2, Col. 1)

Officials to Study Motion to Transfer County Seat

A resolution was presented to the Oakland County Board of Supervisors this morning asking for the shift of the county seat from Pontiac to Royal Oak.

No discussion was held on the proposal, drafted by the Royal Oak Chamber of Commerce and presented by Mayor Howard K. Kelley. It was referred to the Special Courthouse Committee for study.

The resolution stressed that the building of the new courthouse had been slowed "by one or more minority groups." Kelley pointed out that the majority of the county's population lives south of Bloomfield Hills.

The resolution urged the supervisors to take "whatever action necessary to implement the request." It did not specifically call for a county-wide election.

In other action before the Board, supervisors decided on a special election for April 1 at which time voters will be asked to decide whether the county should have a county jury commission.

If accepted, the selection of jurors would be made once a year on a county wide basis, instead of the present system of selection by supervisors on a township basis.

Supervisors also approved a new contract with the State Highway Commission which will call for an increase to 4 per cent in the bonds to finance the proposed Northwestern Highway.

A month ago, the commission told supervisors that the first contract's rate of 3 1/2 per cent would not tempt bonding company.

Committee Chairman Don R. MacDonald said the state would absorb the added expense. "Otherwise, the contract is exactly the same as the first," he said.

Gals' Fashions at Auto Show

Trucks Also Will Be
Displayed Here in City
on Feb. 1-3

Among the special attractions in the 1937 Auto Show being sponsored by the Pontiac Automotive Trade Assn. Feb. 1-3, will be a ladies style show.

"The entire show will be highlighted by special features," Richard I. Moore, manager, announced today.

The style show will be held Sunday afternoon, Feb. 2. It will be sponsored by the Bloomfield Fashion Shop.

The three-day show will feature some 70 new, 1937 cars to be displayed by eight auto dealers in the city. Wilson GMC Co. is expected to enter a display of trucks.

The show will be held at the new service building of the Oliver Motor Sales, Inc., 40 Walnut St. Sufficient space will be available for parking, Moore pointed out.

It is the first large auto show in Pontiac in the last 25 years, E. Curtis Matthews, president of the association, said.

6 a.m. ... -5	2 p.m. ... 6

A teeth-chattering and record five degrees below zero shivered an unwelcome greeting to downtown Pontiac this morning, making the warm blankets look like a tempting retreat.

The numbing temperature snapped a 64-year-old record low for Jan. 17 of -2 set back in 1893.

The Automobile Club of Michigan reported its busiest day of the winter, answering some 2,200 emergency calls during the morning rush hours.

Emergency service in Pontiac was two to five hours behind.

Residents will have to look back to the winter of 1951-52 for a similar experience of below-zero temperature drops. It was three below on Dec. 16 and four below on Jan. 30.

The Weather Bureau's prediction was for a warming spell—with the mercury to climb to a low of around four to eight degrees tonight.

Tomorrow's high is expected to reach 15 degrees. The low for Friday night is predicted to drop back to around two to six degrees above zero.

The giant cold wave is gripping most of the country today and has already claimed 49 lives and shows no sign of immediate fading, the Weather Man said.

The forecasters say it may get a (Continued on Page 2, Col. 2)

'Hell Frozen Over,' Paradise 13 Below

HELL, Mich. (INS)—It was 10 degrees below zero in Hell today! Hell is a tiny community in Lower Michigan near Pinckney. The town was covered by a foot of snow and ice and oldtime residents laughingly said: "Hell sure is frozen over."

It was even colder in Paradise—13 below.

Paradise is a lake front village on Whitefish Bay of Lake Superior in Michigan's Upper Peninsula. It is made up of a half dozen families, a restaurant and a beer garden.

Here's Sight for Raised Eyebrows

BLOOD PRESSURE GOING UP, TOO — Sen. Harry F. Byrd (D-Va.) presented this expression as he took a good look at President Eisenhower's new budget. Byrd, chairman of the Senate Finance Committee, will have a lot to say about how money will be spent. (See related budget story on page 2.)

Newsprint Price Goes to New High

VANCOUVER (AP)—An increase of \$4 a ton in newsprint was announced Wednesday by Powell River Sales Co.

M. J. Foley, company president, said the increase is effective March 1, and will increase the base price in New York to \$134 a ton.

The boost is in line with those announced previously by Abitibi Paper & Power Co., Consolidated Paper Corp., St. Lawrence Corp. and Bowater Paper Co.

The last general increase of \$4 a ton brought the price of newsprint to \$130 a ton at the start of 1936.

Tenth in a Series

FBI Ends John Dillinger Career

(Editor's Note: The following article is the tenth in a series of daily highlights on the activities and history of the Federal Bureau of Investigation. Taken from Don Whiteland's new book, "The FBI Story," today's account is one of 30 which will appear each day in the pages of The Pontiac Press.)

By DON WHITEHEAD

John Herbert Dillinger led a kill-crazy gang which swept through the Midwest from September, 1933, until July, 1934, leaving a trail of ten men murdered, seven wounded, four banks robbed, three police arsenals plundered and three jails from which prisoners were freed.

But it wasn't the murders or the robberies or the jail deliveries which first sent the FBI after Dillinger, because none of these crimes was a federal law violation.

'WOMAN IN RED'

the thieves in dinner jackets who had been corrupting federal, state and local governments; about the only difference was that one group used guns and the other didn't.

But this tolerance gave way to angry demands that something be done about the menace of the gangsters and racketeers.

SPECIAL KIDNAP LINE

The country and Congress came to the realization that the federal laws were woefully weak in combating interstate crime.

Criminals were operating with high-speed automobiles, armored cars, high-powered rifles, machine guns and armaments which could better than those of the law enforcement agencies.

Crime wasn't localized. One gang could, and frequently did, operate across the lines of a half-dozen states.

By 1933 bank robberies were occurring at the rate of almost two a day. Kidnapings had increased alarmingly despite the Lindbergh Kidnap Law.

The attorney general had urged

people to report kidnappings to the FBI by calling the special "kidnap" number—NATIONAL 8-7117, Washington, D. C.

Many of the gang operations were not in violation of federal statutes and there were some curious inconsistencies in the laws.

For example, a bank official who embezzled \$50 from a federal bank in 1933 had violated a federal law.

But a gang of bandits might rob a federal bank of \$100,000, machine-gun the bank officials and escape into another state without violating a single federal statute. And the bandits could be reasonably sure that pursuit would end at the state line.

Dillinger, wanted in Indiana for the murder of an East Chicago policeman, was recognized in Tucson, Ariz., and arrested with three members of his gang.

Tucson police found, among other odds and ends at the Dillinger hide-out, three Thompson sub-machine guns, two Winchester

Mt. Holly to Boost Winter Sports in Area

Pontiac City Affairs

City Employees Win Accrued Sick Leave

City commissioners last night approved an amendment to the 1956 personnel rules which will allow for partial payment of accumulated sick or leave time to employees retiring under the pension plan. The change was part of a request of city employees approved earlier this year.

Retiring employees will receive 50 per cent of accrued time up to a maximum collection of 90 days. A limit of \$1,500 was imposed. The amendment is retroactive to Jan. 1, 1957.

Breezing through a 25-point agenda, containing mostly routine public improvement items, in 40 minutes, commissioners established a new assessment formula for odd-shaped lots in Pontiac.

The special formula was instituted after problems arose in assessing these lots, city officials pointed out.

LETTER OF THANKS
Commissioners also heard a letter from Carl F. Rose, 368 East Blvd., thanking them for restoring parking to one side of East Boulevard between Whittemore and Elm.

After hearing a report from City Attorney William A. Ewart, commissioners authorized starting condemnation proceedings to acquire property for the extension of East Huron street. "This is the initial step to link Huron with Paddock at Michigan," City Manager Walter K. Willman said.

The water superintendent was instructed to prepare plans to install a water main in Mt. Clemens street from Emerson to Bay, and in Bay street from Mt. Clemens south to the existing main.

As no objections were voiced last night, commissioners authorized the city assessor to prepare special assessment rolls for partial payment of the following two-inch blacktop paving projects in Pontiac:

Alton street from Franklin to Motor; Astor street from Main to Michigan; and Auburn to Elm. Severely damaged.

Van Wagoner Eyes Turnpike Changes

(Continued From Page One)

highway commissioner in the spring elections.

A member of the Mackinac Bridge Authority, Van Wagoner said opening of the bridge this November may be accompanied by traffic jams unless the highway department takes action.

NEED ACCESS ROADS

He said limited access highways are needed on both sides of the bridge to funnel traffic smoothly across.

Van Wagoner said the turnpike authority chairman, George N. Higgins of Ferndale, had asked him to inspect state highway construction at the southern end of the proposed turnpike today.

"Higgins is enthusiastic about the proposal of this bonding company," Van Wagoner said, pointing out it is the first company to make an offer since the turnpike plans were shelved last August.

As a possible candidate, Van Wagoner commented: "Once I said I'd never run unless they paid more money. Now there's talk of raising the highway commissioner's salary to \$18,000. That doesn't mean I will run, but I don't want to say right now that I won't run, either."

He spoke to an audience of 200 about the bridge, which he said is progressing "splendidly and a little ahead of schedule."

Mrs. Pat Hooper was elected president. Other new officers are Herb Radunz, vice president; Mrs. Lois Tutor, clerk; John Jones, treasurer; Dr. Paul Thoms and Radunz, members of the board of directors; James Van Leuven, members of the credit committee; and Clifford Steffy, member of the supervisors committee.

from Laurel to Highway; Bondale and Cedarlane avenues from Earlmore to Howard; Clinton river drive from the highway line at Robert Herndon's Pontiac Apartment Subdivision to the west side of lot 65 of the subdivision; Bondale street from South to Highway; Grandview avenue from Baldwin to Kimball; Hazel avenue from Telegraph to Starr; and Herndon avenue from Clinton River drive to Orchard Lake avenue.

In further action, confirmation of four other public improvement projects were established.

A gathering of some 40 school children attended last night's meeting as part of their civics classes.

Mercury Plummets to Record Depths

(Continued From Page One)

Little warmer by Sunday, but the long-range prediction is for sub-normal temperatures in the area until mid-February. Snowfall is expected to be about average for the next 30 days.

Pontiac Municipal Airport reported a low of 4 last night, while some residents of the area said their thermometers reached as low as 3.

Residents continued to button up that proverbial overcoat as the weather continued to hover around zero for nearly one week now.

Despite the severe wave, most state highways were reported clear or slippery in spots.

NEW ENGLAND SUFFERS

Built in New England and the northern part of the Atlantic seaboard, residents were digging out of a fresh snowfall which dropped up to eight inches of snow in some places.

Most of the 49 persons who had died have collapsed from heart attacks brought about from shoveling snow.

Up at Sault Ste. Marie the thermometer dropped to 12 degrees below zero, for what is believed to be the state's low. At Grand Marais, it was -7.

The lowest temperature recorded in the downtown Pontiac preceding 8 a.m. was five degrees below zero. At 2 p.m., the temperature read six above zero.

Railroad Sues Driver

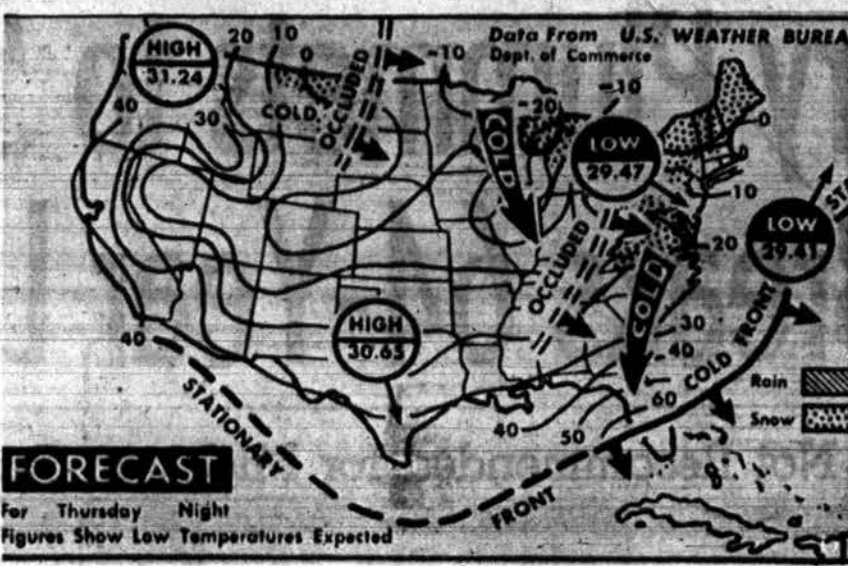

TOLEDO — In a switch from the usual, a railroad sued a motorist yesterday as the result of an automobile-train collision. The New York Central System asked common pleas court to award a \$1,948 judgment against John Woody of Toledo. It said Woody was traveling too fast on an icy road last Feb. 28 and slid into a passenger train, damaging two of its cars.

WILLIAM J. DEAN

Pontiac Rotary Club elected William J. Dean president at the club's meeting today noon. Other officers include: Vice president, Carlton C. Patterson Jr.; secretary, James F. Slattery; treasurer, Francis F. Miller, and directors, Gordon H. Hayter and Ralph E. Cromis.

The Azores in the Atlantic Ocean comprise 888 square miles in area and they still belong to Portugal.

FORECAST

For Thursday Night

Figures Show Low Temperatures Expected

FORECAST FOR TONIGHT — Most of the East is expected to be cloudy tonight with snow or snow flurries forecast for the Middle Atlantic states; update New York, northern New England, the upper Great Lakes area and eastern Montana.

Occasional snow flurries are expected in the Pontiac area. It will continue cold in the East and in the Northwest while higher temperatures are expected in the Great Plains. Below is thirty-day forecast for precipitation and temperatures.

Review U.S. WEATHER BUREAU Department of Commerce

New Branch Opened Pontiac Deaths by Community Bank

The Bloomfield Hills Branch of the Community National Bank has opened for business, although the formal opening of the branch will not take place until Jan. 25.

Dawson C. Baer, assistant vice president of the bank, is manager of the new branch.

The branch is located on W. Long Lake Road, just opposite the MacManus, Johns & Adams advertising agency building. The new building is equipped for drive-in service, and contains conference rooms and luncheon for employees. Facilities are available to serve patrons at desks or at the traditional teller cages.

Proclaim Teachers' Day

LANSING — Gov. Williams has proclaimed today, Jan. 17, as Teachers' Day in Michigan and has asked all citizens to join in expressing their gratitude to the state's teachers.

Mohammed was born at Mecca, Arabia, in 570 A.D.

Byrd's Eyebrows Also Raised

Humphrey Asserts Spending Can and Must Be Curtailed

WASHINGTON — The Secretary of the Treasury, in complaining that President Eisenhower's budget is too big, doesn't talk like a man quarreling with the boss. He talks like a man whose boss agrees with him.

George M. Humphrey startled 90 reporters at a news conference, held in connection with yesterday's record peacetime budget proposals, by announcing that rising government spending "should promptly be stopped."

Sen. Harry F. Byrd also was one who raised his eyebrows as he took a look at President Eisenhower's new budget today. Byrd, who is chairman of the Senate Finance Committee, will have a lot to say about how money will be spent during the coming year.

"I think there are a lot of places in this budget that can be cut," said Secretary Humphrey.

"Name three," said a reporter, and Humphrey demurred.

"I don't believe it is up to me," he said.

Area Driving School Is Newest of Kind

One of the newest methods in police campaigns to put better drivers on the road will be inaugurated tomorrow night with the opening of Waterford Township's school for convicted traffic offenders.

The first of its kind in the county, the classes will be conducted by Police Chief Frank Van Atta who will stress the highway dangers of excessive speed, carelessness, drinking and other bad driving habits.

The school will be conducted at the Waterford Township Hall on M-59 at Crescent Lake road.

Students will be made up of offenders placed on probation by Justice Willis D. Lefurgy. Attendance at the school will be one of the conditions of probation, according to the plan.

Former Justice Sherman Minton of the U.S. Supreme Court was in the U.S. Infantry on the Verdun front in World War I.

Radar Will Use Color

BEVERLY HILLS, Calif. — A radar device is being perfected that will aid air traffic control by showing landing airplanes in one color, planes taking off in a second color, and planes at a certain distance in a third color.

Proclaim Teachers' Day

LANSING — Gov. Williams has proclaimed today, Jan. 17, as Teachers' Day in Michigan and has asked all citizens to join in expressing their gratitude to the state's teachers.

Mohammed was born at Mecca, Arabia, in 570 A.D.

The Day in Birmingham

Police See Bright Spot — No Fatalities in 1956

BIRMINGHAM — One bright spot in the forthcoming annual report of the Birmingham Police Department is that for the first time in about ten years no fatal accident has been recorded. Police Chief Ralph W. Mosley said that the general overall picture will, he believes, show a slight decrease in crimes handled by the department last year.

He added that traffic mishaps would be apparently down somewhat but that he felt the personal injury incidents would probably show an increase. In the fire department, Fire Marshal George Scott said that Birmingham had been very fortunate in the past year.

He said "we are particularly fortunate in the extreme cold weather the past week has brought us. Contrary to the usual pattern, no fires have resulted from it. This is undoubtedly due to the face of the in-

All Birmingham, Bloomfield Hills and Bloomfield Township residents are asked to contact Alice Morgan at 1835 Holland Ave., MI 6-3537 with news items for The Pontiac Press.

crease in furnace controls and the modern trend toward fuels other than coal and wood. With the burning of other fuels the householder has little or no opportunity of overtaxing his furnace."

City Manager, Harold K. Schone, said the North Evergreen sewer authority Tuesday approved final agreement. A Township Board will receive the agreement for consideration Friday evening and their prompt approval is predicted.

Since construction plans have already been approved all that remains is the sanction of the State Health Department. As soon as that is received the way will be opened for the acceptance of bids and should that be hurried through, March 1 might possibly see action in the construction line.

Birmingham Unit, Civil Air Patrol, is currently conducting a membership drive in the cadet branch for 14 to 20 year olds. Current activities of the group include the addition to their building of the Berz Airport of Troy, and plan for a public dance they will sponsor at the Community House on March 16.

An agreement has been reached between John W. Gaffill and the City of Birmingham permitting the use of the rear portion of his Ham-

the real ski enthusiast enjoys, now supplemented with a cafeteria, warming room and everything else offered by any public resort in the nation.

Mount Holly has created a traffic problem on the Dixie Highway. It is advised that those coming for "spectating" only, do so during the week, as on weekends the parking facilities, which will accommodate several hundred cars, often are occupied by spectators' cars to the exclusion of those wishing to ski.

PLAN SPECIAL RUNS
Bus lines and rent-a-car representatives at the luncheon said that plans are being perfected to make special runs to Mount Holly from Detroit and other large cities.

Murray Titsworth, superintendent of the area, said, "Nature gave us a great foundation for this project, then the Dixie Highway opened up this section, and the great industrial development brought almost unprecedented growth in population. We are fortunate that we have men with the desire and financial means to work in conjunction with our state in making it possible for everybody to profit by use of their resources."

Nationally famous winter resorts, like Lake Placid in the East and Sun Valley in the West, are "away off the beaten path," as compared to Mount Holly, which is expected to be a magnet to attract winter tourists from areas far outside the Michigan borders.

MUCH TO OFFER
With a slide that drops 175 feet in the 1,200-foot ski slope, it has all of the so called "hazards" that

News Flashes

FAIRBANKS, Alaska — An Air Force B50 crashed on takeoff from Elson Air Force Base near here early today.

A crew of 12 was believed to be aboard. There was no immediate information on the fate of the crew members.

Your Income Tax

This is one of a series of articles prepared by the U. S. Internal Revenue Service to help you prepare your Income Tax Return.

RETIREMENT SAVINGS

Retirement can pay you a savings on income tax. If you received compensation such as wages, or other amounts for personal services in each of any ten calendar years, you may qualify for retirement credit. If your deceased husband (or wife) would qualify for this credit, you may claim the credit even though you did not meet the earnings test.

You may qualify if — under 65 years of age — your retirement income is only that income received from a pension or annuities under a public retirement system and included in gross income.

If 65 years of age or over you qualify if your retirement income includes pensions, annuities, interest, gross rents, and dividends included in gross income.

If both spouses have retirement income, both could qualify and then each is entitled to the credit.

Further information on income tax problems is available, without cost, to taxpayers at the Internal Revenue Service office, 535 W. Huron St. Phone PB 5-5000.

Bill Would Punish Unwed Mothers

ATLANTA, Ga.—Rep. Jack Ray of Warren County said last night he plans to introduce in the House a bill making unwed mothers subject to possible criminal prosecution.

"Something has got to be done about the increase of illegitimacy in the state," Ray said. "We've got to penalize the mother who is heartless enough to brand a child with a lifetime stigma."

Under terms of the bill, a sworn statement that a woman is a

mother of an illegitimate child would be "prima facie" evidence for prosecution.

Ban California Trucks?

SACRAMENTO, Calif.—In a move to reduce highway accident Assemblyman Charles H. Nelson (D-Los Angeles) proposes in a bill to ban trucks from freeways from Saturday noon until Sunday midnight.

TV Actress Shocked

TWIN FALLS, Idaho—Attractive Barbara Nelson, local actress, was recounting the virtues of an electric range during a commercial on Station KLDX-TV here when she reached for the door of the oven, suddenly recoiled and fell to the floor. The camera quickly switched to another scene.

Later, an announcer explained she had received "a slight electrical shock." She was not badly hurt.

To Free Mom's Hands

SAN DIEGO, Calif.—A projected \$700,000 bowling alley plans to have baby sitters on its staff, to leave mother's hands free for bowling.

Knowland Out in '60: Friends

Chances Slim Senator Will Seek Nomination, Say Colleagues

By JACK BELL
WASHINGTON (AP) — Some colleagues of Sen. Knowland (R-Cal.) said today they see less than a 50-50 chance that he will seek the 1960 Republican presidential nomination.

They reached that conclusion after re-assessing his announcement last week that he will leave the Senate when his present term expires in January 1959.

His surprise announcement was interpreted widely at first as indicating he plans to run for the Republican nomination for governor in California next year. That move was considered a possible stepping stone toward a bid for the presidency.

Knowland declined to confirm or deny the speculation.

Gov. Goodwin J. Knight of California hopes to learn on a visit here in the next few days whether there is any such possibility. Knight, planning to attend President Eisenhower's inaugural, expects to confer with Knowland.

Knowland, a Republican, has given every indication he wants to run for re-election next year.

If Knowland should choose to seek the governorship, signs now point toward a primary battle with Knight. The winner, if elected governor, then might pit himself against another Californian, Vice President Nixon, in the battle for the party's 1960 presidential nomination.

While he hasn't closed the door to this possibility, Knowland has gone a long way toward convincing some of his associates that personal considerations were more influential than political reasons for his decision to retire from the Senate.

Bread or Bacon for Bookmark?

Librarian Also Tells of Intriguing Love Notes Left Between Pages

ALBANY, N. Y. (AP) — Librarians think bacon and eggs make interesting bookmarks.

They also find teenage love notes more fascinating than some of the books they are found in. "You name it, we've seen it," says Mrs. Barbara Rau, librarian in the suburban town of Bethlehem.

"If they can be eaten, we eat them," she adds. "We had a fried egg last week; cold, of course. And we've had several strips of bacon, lettuce leaf, bread rings and celery stalks."

Mrs. Rau reports garters and suspenders are not as popular as they once were. But: "If it's clothing, we wear it if we can't find the borrower."

Other bookmarks found at her library have been a \$20 bill, government bonds, cigars, zippers, jewelry and love notes carved with lipstick.

One note read: "Darling, I am leaving you for Jim. Goodbye, P. S. Your Supper is in the refrigerator. Hope you like ham and cole slaw."

The writer, however, left no snack for the librarian.

Base Has Costly Base

BOSTON—Safeguarding the underpinning of the 38-year-old South Boston Army Base along the water front has called for the building of more than a mile of bulkheading. More than 120,000 feet of steel piling, 177,000 cubic yards of special sea-water concrete, and more than \$10,000,000 in state and federal funds have gone into the pier's rehabilitation.

They Last and Last

DES MOINES (AP) — Jo Pike teaches the first grade at nearby Clive School. She occasionally gives her pupils "telling time" to relate things which interest them. The other day at "telling time" a little boy reported: "We've just got a new car at our house."

A fellow pupil commented: "What's so great about that? We've had a new car for years now."

about 90 per cent water.

Rip Van Winkle Couldn't Sleep with Naggling Backache

Now! You can get the fast relief you need from nagging backache, headache and muscular aches and pains that often come with restless nights and miserable tired-out feelings. When these discomforts come on with over-exertion or stress and strain — you want relief — want it fast! Another disturbance may be mild bladder irritation following wrong food and drink — often settling up a restless uncomfortable feeling.

For quick relief get Don's Pills. They work fast in 3 separate ways: 1. by speedy pain-relieving action to remove tension of nagging backache, headache, muscular aches and pains. 2. by their soothing effect on bladder irritation. 3. by their mild diuretic action tending to increase output of the 15 million of kidney tubules.

And last but not least this 3-way medicine goes to work. Enjoy a good night's sleep and the same happy relief millions have for over 20 years. Ask for Don's Pills and save money. Get Don's Pills today!

U.N. Could Maintain Pressure on Hungary

Although Hungarian Reds refuse to admit United Nations observers, there is a small group of U.N. agriculture and industrial experts in that country.

That this mission was permitted to enter Hungary at all indicates that the KADAR regime is not without respect for the world body. The Red dictator also may be hoping for some help for his revolt-crippled economy.

The defiant attitude of the Communists has not kept Hungary's story from the world. Refugees and exiles are telling of Red oppression and brutality and films vividly portray what happened to freedom in that land.

Now Secretary General HAMMARSKJOLD has proposed that the U.N. General Assembly set up a special committee to investigate events in Hungary. The committee would maintain a steady light of publicity on events there and would remind the Soviets and everyone else that what is happening is being recorded by the U.N.

Testimony of Hungarian refugees could be taken and responsibility for repressions and atrocities fixed. The findings could then be formally presented to the U.N. and through it to the entire world.

Although Communists profess to despise moral pressure, they are keenly aware of it. Conditions in Hungary are grim but not entirely hopeless.

Knowland Carefully Plans His Moves

Senate Minority Leader WILLIAM F. KNOWLAND's announcement that he is quitting the Senate to spend more time with his family, came as a surprise.

But it's not expected that he will quit politics. Experienced observers think that his retirement at the end of the present Congress is preliminary to his candidacy for the Governorship of California in 1958 and the Republican presidential nomination in 1960.

Last year he was sufficiently interested in the Presidential nomination to challenge President EISENHOWER until the latter announced for a second term. It does not appear likely that Mr. KNOWLAND whose whole life has been devoted to politics and who has worked hard and conscientiously, is going to give up his political ambitions now.

Now only 48, he won re-election in 1952 by the largest vote ever polled in California. He has a great deal of support in the Conservative wing of the Republican party and was selected by the late Senator TAFT to succeed him as party leader.

The amiable and forthright Sen. Knowland may feel that by making his position plain at this time he will have a freer hand in opposing some parts of Administration foreign policy.

As Governor of California in 1960 or even as a prominent citizen, Mr. KNOWLAND's chances of beating Vice

President Nixon for the Presidential nomination perhaps might be better than if he remained in the Senate. The historic odds are roughly eight to one in favor of a Governor rather than a Senator winning the Presidential nomination, says *Congressional Quarterly*, in a check of records since 1912.

Not by Seniority Only

While seniority only is considered all too often, coveted assignments to committees are not always handed out for that reason.

A case in point is Senator KENNEDY's assignment to the Foreign Relations Committee, vacated by retiring Senator GEORGE. The 14 members of the Democratic Steering Committee who were present unanimously favored the able Massachusetts Senator, still serving his first term.

The committee attempts to give every Senator one assignment of his choice before meeting other demands. But observers see in the flouting of the seniority rule recognition of 39 year old Senator Kennedy as a rapidly rising power in the party. At the Democratic Convention last year he lost the Vice Presidential nomination to Senator Kefauver by a narrow margin.

Senator KEFAUVER, who has been in the Senate four years longer than Mr. KENNEDY, had also asked for the assignment. But the Tennesseean already ranks high on both the Judiciary and the Armed Services Committees.

There are at present three Southerners, Senators FULBRIGHT, SPARKMAN and LONG on the Foreign Relations Committee. The addition of Mr. KEFAUVER would have given too much representation from one area. However, he was not the only member denied a committee place sought on grounds of seniority.

Many factors including experience, aptitude and geographical balance should have as much bearing on assignments as seniority.

The Man About Town

About Mt. Holly

Groveland Township Letter Writer Doesn't Like Name

A letter just drifts in, under a Holly postmark, from

"An Irate Grovelander."

who wonders why the new ski resort in that township has been named "Mount Holly." He asserts, "When Groveland has the goods to make anything famous, we want the credit. Where would this ski resort be without the Dixie Highway, of which Groveland has more mileage than Holly Township?"

A close check on the map shows that Mount Holly is located very near the line between Holly and Groveland Townships. In fact, a part of the land on which it is situated is on the Holly side of the border.

It is in the Holly Recreation Area, purchased by the Michigan Department of Conservation. For several miles around it, the people are served by the Holly postoffice—where this man's letter was mailed.

But, from a lifetime's observation, Groveland is Oakland County's most scenic area in the opinion of MAT. And its beauties are greatly enhanced by the view from Mount Holly.

Many readers of this column report finding dead birds. Hurry, folks; this is STARVATION, on account of the snow covering their food supply. Get out your feeding board. Save the lives of some of your best friends.

Delivering the Ransom Note

David Lawrence Says:

Tax Cut Can't Be Effected 'til '58

WASHINGTON — There will be a tax cut in a year or so only if the members of Congress, working with the executive departments, really prepare for it in advance—and the preparations will take at least 12 months.

This unusual way of laying before the American people the problem that confronts them if they want a reduction in taxes is largely the result of the cumbersome way the federal government operates. For the budget just submitted by the President is the one that takes effect July 1 next and represents many commitments of an emergency nature already in process.

If a tax cut is to be achieved, it will be in the year 1958 when the expenses in the next budget have already been sufficiently reduced to make way for the tax changes and when presumably some idea has been gained of how much the tax collections for 1957—a good year from an economic standpoint—will increase.

What must be fully recognized, if there is to be a tax cut, is the need for removing politics from the spending program. The pendulum has swung so far in the direction of federal aid for all sorts of projects that it will not be possible to swing it the other way without the support of an informed public opinion.

KEY PASSAGES

Secretary of the Treasury George Humphrey, the man who is basically responsible for President Eisenhower's fiscal policies, said some things in his press conference Wednesday with newsmen which are as important as the passages the President transmitted in his budget message to Congress.

The secretary made a realistic statement that should be noted carefully because it contains the key to the whole economic future of the United States. He said:

"The billions of dollars spent annually by the government for military equipment and manpower go into the spending stream but are not matched by an increase in the production of peacetime goods, so that heavy pressure is put on the price of goods which all the people must buy."

"This imbalance makes it more difficult to keep the cost of living within bounds. Monetary measures alone may not be sufficient for this task unless the federal government makes reductions in its manpower and in its purchases which will help to increase the production of additional peacetime goods and so help to hold down prices. Moreover, the funds so released will then be available to build up the capital needed to help create the new jobs and to build the new schools."

What this means is that there is a kind of military economy dominant today. It is based on a huge expenditure for nonproductive purposes. On international issues, America has no choice, however. If must, as Mr. Humphrey says, "remain both militarily and economically strong."

So the real question is this: When such a pressure of circumstances over which this country does not have control is being applied, should there not be a

corresponding obligation to do away with the luxuries or at least to postpone them till such time as the nation can afford them?

SELF-DISCIPLINE

Mr. Eisenhower, in his recent "State of the Union" message, referred to "self-discipline" and the need for restraint by the leaders of business and of organized labor in handling prices and wages. But Secretary Humphrey spells out some additional obligations.

He says the public must cooperate in "limiting its demands upon the federal government for only essential federal functions." He calls for pruning of federal government expenses all along the line and says plainly that there must be "actual and substantial reductions through improved efficiency."

If the world could be made more peaceful and armaments could be

reduced, it would be an ideal situation. For the money thus released would go into productive expenditure and permanent jobs. This cannot be insured, however, because of the uncertainty in the world situation. Hence, the alternative is to find ways and means of restraining and deferring expenditures—spreading them over a longer period of time.

The spending spree has to come to an end and a bigger surplus obtained before tax reduction can be made. And the tax cut must be used as a stimulus to the economy so as to take up the slack in unemployment arising from the transition period when manpower is reduced in armament industries and labor is changed over to productive peacetime industries.

(Copyright, 1957, New York Herald Tribune Inc.)

Dr. William Brady Says:

Yes, You CAN Get Hurt Doing My Somersaults

It was one of those journalists known as "science writers" who spread the false tidings, in a popular magazine with many readers, of the "poisonous" nature of that old standby of professional and domestic medicine, boric acid.

The physicians who published the original report, on which the "science writer" went to town, later acknowledged the error they had made—they had used a "test" for the presence of boric acid in urine which is unreliable and misleading.

But to the best of my knowledge neither the "science writer" who spread the false tidings nor any of his colleagues who marketed similar articles in smaller publications has published a correction.

Today comes a clipping of a newspaper item by a physician, printed under a headline screaming that "boric acid can poison your baby."

FRIGHTFUL THOUGHT

Such a statement frightens even a callous soul. Makes me realize I CAN take a bad beating on the bowling green this afternoon—but I'm going to bowl, come what may. Also I CAN break my neck doing my morning rolls, but I'm not quitting that foolishness just yet, either.

Carbon tetrachloride CAN poison anyone who inhales the vaporized stuff in the air of a poorly ventilated place, but it is still one of the best dry cleaning agents and fire extinguishers for commercial or domestic use.

Since Topsy was a colt physicians have known that boric acid or its sodium salt (borax, sodium borate) is poisonous if taken internally.

ENTERS BLOOD

They have known, too, that boric acid, like many other chemicals or drugs applied externally, is absorbed into the blood if applied to an open wound or a raw surface or to a break or breaks in the skin.

The physicians said, "Doctors, mothers, and grandmothers have been using boric acid for years. Most of the time it has done no harm."

Which reminds me that most of the time my "somersaults" have done no harm—at any rate they have done me no harm. If

you have tried, or if you should someday throw caution to the wind and try the stunt and be rushed to the hospital, don't complain to me.

Stand letters, not more than one page or 100 words long pertaining to personal health and hygiene, not to disease, diagnosis or treatment, will be answered by Dr. William Brady. If a stamped self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan.

(Copyright 1957)

Case Records of a Psychologist:

Explains Cause and Cure of Acne

Norma is a victim of the most common complex among American teen-agers. It can cause bitterness and anti-social behavior unless you face this bugaboo intelligently and apply the counter-attack mentioned below. Scrapbook this case record for discussion in high school classes.

By DR. GEORGE W. CRANE

Case T-376; Norma Q., aged 17, is a very shy high school senior. "Dr. Crane, you can already guess my problem, I imagine," she began and I noticed her face was covered with the pimples (acne) which are the bugaboo of thousands of teenagers.

"I hate myself every time I see my face in the mirror, for these ugly red lumps ruin my complexion."

"And some of the girls at high school have even said they think I must have a venereal disease or something."

"Oh, it is awful, so why should I keep on living when I am so utterly miserable?"

FACTS BEHIND ACNE

Such skin conditions are acne make up the major reason why high schoolers consult their health advisers.

"But acne is not a venereal disease, so you victims of acne can banish that secret cause for worry."

Furthermore, acne tends to clear up considerably after adulthood has been attained, though it doesn't always disappear entirely.

Voice of the People

Disgusted Over Salesman Who Goes Out of Business

Letters will be condensed when necessary because of lack of space. Full name, address and telephone number of the writer must accompany letters but these will not be published if the writer so requests unless the letter is critical in its nature.

I wonder how many housewives have been taken in by a kind, friendly salesman from an appliance store that was located on North Perry Street.

He sells you a sewing machine, promises all sorts of things besides a free \$18 turkey for Christmas, then suddenly goes out of business and leaves you holding the bag.

I believe this kind of operator should be run out of town before they get started.

Very Disgusted

'Should Eliminate Joe Louis' Taxes'

The U.S. should forgive Joe Louis his taxes. He can never pay them and he hasn't got the money. Too many people "owned a piece" of him.

Gym

Readers Question

City Bus Situation

I would like to know why the City bus company took the bus off Edison street—I see they run some of the time, but not at times so people who live on Edison can use it.

I feel sorry for the ones who have to depend on the bus to get downtown, those who have no car. I see it runs at certain times of the day, early in the morning, but what about the ones who want to go downtown shopping? As for myself, I don't care because I have my car to use, but what of the others?

As a taxpayer, I think the people should have a voice in what they want. They raise our taxes and don't ask us if we can pay them. Let's see what other people have to say about it.

Taxpayer

Why not give us people in Perry Park and on Edison street a little bus service in the day time? Why give it all to Mt. Clemens and East Boulevard? We people in Perry Park and on Edison street have been using the bus for years and now you take it all away from us. Why not give us a bus every hour during the day and the other people the same? That way we all can get downtown or other places. Hope something can be done about this.

Rider

'When Do We Get Tax Reductions?

I am ready for an income tax reduction, but news from Washington says "no soap." I thought these All-American Republicans were going to reduce expenses immediately and cut taxes.

I don't mind paying for roads in the U.S. or for defense for the U.S., but I object to dish out my dollars to these Europeans. Let them pay their own bills. Most of us on this side of the Atlantic are weary of trying to finance the whole world.

When do we get those GOP tax reductions?

S. J.

Four U.S. Men Can Beat Champ

Bobby Morrow of the U.S. is the Olympic sprint champion and yet a lot of people think there are four sprinters right here in the United States that can beat him.

Certainly there are two. Leamon King won every practice race he ran against Morrow in Australia, but King was only eligible for the relay. Dave Sime was injured before the Olympic tryouts can beat Morrow. And a lot of people think Willie Williams and Muchison can, also.

Watch for the next AAU championships.

H.S. Track Man

'What Is Wrong With Suggestion?'

I think that the Harry Pryle road way over the Grand Trunk tracks in Pontiac is the most sensible suggestion yet. What's wrong with it?

Pete

'Faithful Reader' Defends 'Phonies'

I read the article one of the subscribers sent in, concerning Jayne Mansfield, Marilyn Monroe and Elvis Presley.

I don't believe anyone with any intelligence at all could call the two actresses "phonies." What I saw of them didn't look phony and I would surely like to see the girls she or he speaks about who have as much talent and can compete with Jayne and Marilyn.

As for Elvis, who is this subscriber? Possibly a Yul Brynner fan? Please let's not have our boys going to school without any hair.

Faithful Reader

'Solve Problems Before Starting'

Let's avoid the trouble before trouble begins, which leads me to the traffic approaching the light in Waterford from Dixie Highway and off Andersonville road.

If the "no parking from here to corner" could be pushed or put back to the driveways of both the hotel and barber shop, it would be much safer, since the hotel, grocery store and barber shop provide parking space for their customers. Let's get away from that "pull in your elbow feeling" as we come around the corner or approach the corner.

If those who believe as I do have any connections or authority to pass on this idea through the right channels, please do so.

Looking Back

15 Years Ago

FIVE JAP vessels sunk by U.S. fleet.

CAROLE LOMBARD killed in plane crash.

20 Years Ago

COLD WAVE halts ravages of Ohio and Mississippi Valley floods.

RULES LAID down for strike negotiations.

so the skin helps destroy the hostile chemical products.

DANISH ACNE

The skin is thus our great ally in fighting enemy poisons, as well as serving as the helpful wrapping paper around our bodies.

Then use a blackhead remover, which you can buy at a drugstore, and employ it to get rid of the blackheads.

But never pinch your blackheads with your fingers, for that tends to make a larger, more permanent red lump out of your original pimple.

After the soaping, hot towel and removal of the blackheads, then slap cold water on your face to shrink the pores. Afterwards, use a plectrum of cotton dipped in rubbing alcohol to wipe the skin.

Meanwhile, eat a varied diet and avoid constipation. After that, turn your attention outward upon your human environment and join the "Compliment Club".

Smile and give people deserved praise. You'll then win friends galore despite acne and any other defects.

For a fuller discussion, send for my booklet "The Psychology & Medicine of the Face", enclosing a stamped return envelope, plus 20 cents (non-profit).

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long 3c stamped, self-addressed envelope and 20c to cover mailing and printing costs when you send for his psychological charts and pamphlets.

(Copyright 1957)

"At least you could put handcuffs on me."

TODAY'S ASSIGNMENT FOR:

JUNIOR EDITORS

An Eskimo Canoe

The Eskimo often uses a water tight boat called a kayak. It is made of strong, thin skin stretched over a bone frame.

The rider crawls into the small opening in the center of the kayak which then fits tightly about him. Using one small paddle he can drive it at high speed through the choppy waters.

Though the air and water are cold, the sun is bright and shines on the snow with a dazzling light that could cause snow blindness. To avoid this the Eskimo wears snow glasses of bone with narrow slits. The glasses tie on over his fur hood.

Paste this picture on cardboard and color with crayons. Cut out the parts carefully. Then fold under the outside ends of the lower panel and bring the center panel forward.

Now fasten the boat and rider behind the base, clamping the two parts together with a brass fastener or bent pin. Attach the paddle to the Eskimo's coat in the same way and it will move up and down.

Put the snow goggles over the Eskimo's face, fold back the tabs behind his head and watch him ride over the icy waves.

(For this idea, A. W. Bemis of Rutland, Vt., wins \$10. Send your ideas to Junior Editors care of this newspaper. Violet Moore Higgins; AP Newsfeatures.)

Tomorrow: Snow Camouflage

French Crows Fail to Decipher American Calls

UNIVERSITY PARK, Pa. (AP) — If you don't think birds can talk just ask three scientists at Pennsylvania State University.

Dr. Hubert W. Frings, Mabel Frings and Joseph Jumber report that birds of the same species from different countries have difficulty understanding each other.

In a series of tests with French scientists the Penn State trio found that cries of a French crow brought no reaction from crows in Maine although a small percentage of the crows in Pennsylvania responded.

Crows, they said, have various specific sounds that might be

classified as assembly calls, food finding calls or alarm calls.

The assembly call of the American crow, when played to roosting French crows, prompted some of the French crows to fly toward the sound. All other calls, however, brought no reaction, the scientists reported.

Rats Show No Ill Effects

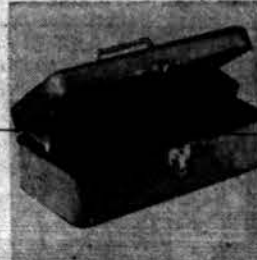

CHICAGO — According to the Bulletin of the National Society for Medical Research, four generations of rats have been living on irradiated food at the University of Michigan for the past two years with no harmful effects. Food consumed, the society's findings say, was irradiated at levels much higher than would be used for commercial pasteurization or sterilization.

Tax Experiment Taxing

EMERYVILLE, Calif. (AP)—This town's six-month old experiment in substituting a 1 per cent sales tax for a property tax has failed. The city council last night announced it has reached a financial crisis and planned to return to the property tax next year. It cited the Alameda County Taxpayers' Assn. for predicting the sales tax would produce \$347,601 revenue in the final quarter of 1956. City Auditor George A. Bicoulet said only \$78,070 was realized.

Man Expanding Record of Space

Known Universe Now 25 Times More Vast Than Once Believed

WASHINGTON — The universe is vaster and more complex than astronomers had believed.

New ideas of its size and make up are revealed in a report on the National Geographic Society Palomar Observatory sky survey, recently completed, which has expanded known space 25 times.

Astronomer George O. Abell writes that tens of thousands of star galaxy clusters, the largest units of matter known, have been found in the far reaches of space. Before the survey began, scarcely three dozen such clusters had ever been seen.

100 BILLION SUNS

The size of such galaxies can be seen from the Milky Way, of which our own solar system is a tiny fraction. It contains more than 100 billion suns, gathered in a gigantic pinwheel spinning in space. Light, traveling 186,000 miles a second, requires 100,000 years to cross from rim to rim. In contrast, light from the moon reaches the earth in about one and a quarter seconds.

It is groups of such huge star systems that have been discovered in the survey. As many as 50,000 individual galaxies have been found in a section of the sky no larger than the bowl of the Big Dipper.

Some astronomers hope that study of the survey will bring them closer to knowing how the universe was created.

Two conflicting theories on this basic question are now in the forefront. One holds that all matter was once packed together in a "super-dense" state. A tremendous explosion started in flying outward.

The other theory declares that the universe is in continuous creation. New galaxies are being formed to take the place of others that are rushing out into space. New matter to create new stars appears all the time, so the stars can merge into galaxies and move away.

GALAXIES SPEED AWAY

The tendency of distant galaxies to speed away from us and from each other is confirmed by the sky survey. By careful measurements of the color of the light given off, astronomers have been able to demonstrate that distant galaxies are moving away with tremendous speed, some as fast as 38,000 miles a second — a fifth the speed of light itself.

Establish Location of Drake's Landing

SAN FRANCISCO — Navigators and historians have combined their efforts and managed to pinpoint the landing place in 1579 of Sir Francis Drake in what is now a port of northern California's "red-wood empire."

Extensive research has established that his ship, the Golden Hind, was beached in a small cove on the west side of Drake's Estero, a tidal inlet on the north shore of Drake's Bay in Marin County about 30 miles north of the Golden Gate.

Hungary's Medical Needs to Be Studied U. S. Doctor Does Survey

BOSTON (INS) — A report on Hungary's needs in medical supplies and equipment is being prepared by Dr. Dean A. Clark, general director of the Massachusetts General Hospital and one of the few westerners allowed in Hungary since the revolution.

The report will be submitted to the Rockefeller Foundation, whose president Dean Rusk, accompanied Dr. Clark on a trip to Hungary. Also making the trip was Dr. John

Meier, the Foundation's European medical representative.

Dr. Clark said he saw no violence, but did see evidence that the Hungarians are firmly anti-communist and now are devoting themselves to rebuilding their country. He said:

"Hungarian flags — without the Russian star — flew everywhere from almost every building and home. New roofs have appeared on buildings where the original

was shot away. There is still rubble, but it is neatly piled off the streets and the sidewalks.

"Buses and streetcars were running in profusion and always seemed filled. No tanks were patrolling, but they stood at street corners. We saw no Russian soldiers. We saw no violence."

Dr. Clark said his mission into Hungary was concerned only with surveying that country's medical needs, and had nothing to do with the political situation there.

The mission was conducted with the approval of both the State Department and the Hungarian Government, and was under the

auspices of the Hungarian Red Cross. Dr. Clark left Boston a week ago, arrived in Vienna on Friday, and then drove the 200 miles to Budapest.

U. of M. Heart Pump Proven Aid in Surgery

ANN ARBOR (IN) — A heart pump which bypasses blood around the heart permitting delicate surgery has been developed at University of Michigan hospital here. First used clinically at the hospital last November, the pump has achieved satisfactory results in several operations since.

Gov. Williams Protests National Guard Order

LANSING (IN) — Gov. Williams has protested to President Eisenhower and Defense Secretary Wilson against the Army's order requiring new National Guard enlistees to undergo six months active duty training.

The governor's telegram to Wilson said:

"Your proposal to make it mandatory for all men enlisting in the National Guard to take six months training with active Army and budget bureau stoppage of armory construction will seriously endanger National Guard status

as the nation's first line reserve force."

He called the action "arbitrary" and said the Guard's continued growth is imperative to the nation's security.

The text of the telegram to the President was not disclosed.

Tissues for Tears

CHICAGO (IN) — Tears she had seen women shed in court during seven years as a public defender prompted Katherine Nobelly, appearing for the first time as Women's Court Judge, to place a box of tissues on the bench for just such emergencies.

Austria to Feel Red Oppression, Says Refugee

LANSING (AP) — A Hungarian refugee from Russian domination of his homeland has predicted that Austria will be next.

Odon Banyask, 30, of Gyor, Hungary, a graduate of the Budapest Technical Institute, fled Hungary with his wife, Ilona, 28, after the Russians occupied his country in force.

He said he feared reprisals for helping to organize early resistance against the Communists.

He first escaped to Austria where he found work as a plastics engineer.

"But the people there felt they would be next," he said. The fear of the Russian is greater than ever in Austria because the people there feel the free world failed Hungary."

Banyask then came to this country and is being sponsored in Lansing by his wife's aunt.

He said his wife is expecting a baby within two months and "is elated because her first child will be an American citizen."

Only 17 per cent of American men reaching majority remain bachelors.

RETURN POSTAGE—The political return of the Saarland to West Germany was celebrated by Saarbrücken postal authorities by the issue of this postcard. It bears a special stamp issued by the Federal German Post, bearing the Saarland coat of arms.

**Warring Nations
Overran Syria**

**Ancient Land—Knew
Ravages of Invaders
in Past Centuries**

WASHINGTON — The ancient land of Syria — a focal point in today's struggle for power in the Near East — has been a prize for competing empires for centuries.

Egypt ruled there in the days of its glory. Assyrian hordes overran it. The Babylonians came, to be driven out by the Persians. The night of Macedonia and Greece, the thoroughgoing conquest of the Romans, the Mongol devastation, and the rise of the Caliphs have marked the land.

Held by the Ottoman Turks before World War I, Syria was under French mandate between the two World Wars, the National Geographic Society says. It is now an independent republic and a member of the Arab League.

NEAR EAST CROSSROADS
Along Syria's ancient caravan routes traveled traders, warriors, and religious leaders, bearing ideas that have had a profound effect on western civilization. Abandoned after the discovery of an all-sea passage to India and China, these routes survive today in the form of an oil pipeline and roads that, in normal times, carry part of the Near East's wealth to the Mediterranean.

Syria's 4,000,000 people live in a 70,000-square-mile area — about the size of North Dakota.

Where it borders the eastern Mediterranean, Syria is blessed with adequate rainfall. As it extends inland to form a giant wedge between Turkey and Iraq, the country falls away into deserts. At its southern tip, Syria borders Israel and Jordan. The southwest corner is blocked from the sea by mountainous Lebanon.

FERTILE OASIS
The capital, Damascus, is an oasis only 40 miles from the Israeli line.

The site is so fertile that the prophet Mohammed reportedly refused to pass through Damascus' gates after a desert journey, saying, "A man may not enter paradise twice, and I prefer to await the immortal paradise."

Founded by Noah's grandson a few years after the great flood, according to legend, Damascus may well be the oldest continuously inhabited city in the world. Today it is a commercial and industrial center with a population of 400,000.

**Frozen Package
Proves to Be
\$1,200 in Cash**

MATADOR, Tex. (U) — Frozen lettuce was one item Mrs. Harold Campbell had not counted on storing in her ranch home deep freeze near Matador, Tex.

Putting away 500 pounds of frozen steaks and roasts, she noticed one unlabeled package. That she laid aside to thaw for lunch.

Then the Campbell Ranch received an urgent phone call from the butcher in town. He had started looking for the weekend receipts which he had hidden in the freezing department.

Had Mrs. Campbell noticed anything unusual in her purchases? Only the unlabeled package.

She then discovered, to the butcher's delight, that it contained about \$1,200 in cool cash.

Shotgun Was Loaded

CASPER, Wyo. (U) — Johnny Shotgun came to town recently—and police complained he got loaded. Shotgun, an Arapahoe Indian, was arrested for creating a disturbance at an auto court. He was returned to the Wind River reservation after forfeiting a \$10 bond.

Would Test Prestige, as East Respects an Astute Bargain

Friendly Asian Leaders Eager for Ike to Visit Orient

(Editor's Note: The following dispatch is based on a 2,000-mile tour of Southeast Asia by the NEA Special Correspondent, customarily based at Bangkok, Thailand.)

By EDWARD R. KENNEDY
SINGAPORE (NEA)—Asia has just "discovered" President Eisenhower. Diplomats in Southeast Asia now feel that a visit by the President to the Far East after his talks in Washington with Prime Minister Nehru might score heavily in the Afro-Asian "neutralist" bloc which Russia has been courting.

"He is the most popular man in the world today," an Indian diplomat exclaimed with the air of a man making a great discovery.

Eisenhower is more popular in Asia than Nehru," a Burmese asserted.

The combination of world events in the past two months plus the illness of Secretary of State John Foster Dulles and Sir Anthony Eden refocused Asian attention upon Eisenhower as a man of action instead of a somewhat fussy living legend as Asians had been prone to regard him.

Unbelievably they saw him break with traditional policies and allies on the Suez issue.

His personal popularity with Asian neutrals soared and U. S. prestige and popularity rode on his coat tails. There still are reservations in the Asian mind. Secretary Dulles is considered by Asians to be a disciple of the grand alliance with colonialism and a Europe First policy. The new development is that they now see the President as a man who is willing to override him.

COULD SELL U.S. HONESTY

Particularly in the eyes of Pro-American Asian leaders in Thailand and the Philippines, who have struggled to sell U.S. honesty and integrity to neutral neighbors, an Eisenhower tour of Asia would be a godsend and a powerful counter-irritant to creeping communism.

Many Asian leaders have visited America in the last year or so and would welcome a return courtesy—notably U Nu of Burma, Sukarno of Indonesia, Phibul Songram of Thailand and, of course, Nehru.

When Bulganin and Khrushchev barged through this area preaching co-existence they gained much face. Chou En-lai's recent sweep through the neutral Asian countries has bolstered Red China's trade and propaganda aims.

But the "traveling salesmen of communism" are hotly controversial figures. Eisenhower is not. Not

even the Russian and Chinese Communist propaganda beamed at this area has ever attempted to attack him personally.

CHOU MIGHT COMPROMISE

An Asian tour by Eisenhower

undoubtedly would result in pressure being applied to the U. S. for a solution of Red China's international status.

An observer just back from Peiping quoted Chou En-lai as

saying he would accept a settlement of the Formosa issue to make that island an autonomous and disarmed state. He would agree to the removal of mainland military installations that could be a

threat to Formosa, it was reported. In other words, if Chiang Kai-shek would denude himself of all armed protection, Chou would disarm a few provinces of Red China.

Regardless of the one-sidedness of such feelers, many Asians see Red China as in a mood of compromise and believe the U. S. should at least test it.

British newsmen here recently returned from the China mainland say that Chou made numerous broad hints of his willingness to deviate from Moscow's cast of puppet characters in return for a rapprochement with the United States. He is reported to have even indicated that if his personality is an obstacle, he would step aside and let any acceptable Chinese leader negotiate with the U. S.

NEGOTIATION SAVES FACE

To Asians, the present impasse clearly indicates a solution through negotiation by a third party—the system used whether buying a piece of property or selecting a wife. The middleman asks the question and proposes the terms and no face is risked by either principle.

Nehru now seems ready to be cast in this role. After his recent conferences with Chou, he went to Washington with his Indian carpet bag loaded with concessions designed to appeal to world opinion.

IKE AND NEHRU AT THE WHITE HOUSE—Should the President return the visit? "Eisenhower is the most popular man in the world today," claims an Indian diplomat.

News of the Men in Service

Serving abroad with the U. S. Army are Robert A. and William J. Winkelman, sons of Mr. and Mrs. John Winkelman, of 4947 Lakeview St., Cass Lake.

Pvt. Robert Winkelman is stationed in Asmara, North Africa. He is a graduate of West Bloomfield Township High School, and received his basic training at Fort Leonard Wood, Mo.

Pvt. William J. Winkelman is with the artillery unit in Kitzingen, Germany. He is also a graduate of West Bloomfield Township High School, and received basic training at Fort Ord, Calif.

On January 20 Navy Reservist David A. St. Dennis, Chief Quartermaster, USNR, of 1107 Boston St., will begin a two-week cruise in the Caribbean area.

He will meet with 222 other Navy Reservists in New Orleans; and after four days of sea training, the ship will anchor at Havana, Cuba.

From Havana, the ships will return to New York City.

Army Specialist Third Class Olaf S. Blomberg, whose wife Pamela Sue, lives in Linden, is participating with the 187th Airborne Infantry Combat Group in "Operation Market II," a mid-January training exercise, conducted at Fort Bragg, N.C.

After the test, he will return to his regular station at Fort Campbell, Ky.

He is the son of Mr. and Mrs. Sven O. Blomberg, of 2767 Grant St. A 1953 graduate of Avondale High School, he entered the service in Feb., 1954.

About five-eighths of the area of Panama is unoccupied.

Record Pineapple Year

TAIPEI—Formosa produced 1,200,000 cases of canned pineapple in 1956, more than 6½ times the record high of 1945. Last year's production totaled 900,000 cases.

Shot in Back Saves Life of Boy With Ailing Lung

AUSTIN, Minn. (U)—A shot in the back probably saved 16-year-old Bryan Boettcher's life.

Doctors treating the youth after he was accidentally wounded while hunting found he had a collapsed lung, a condition caused by a rare lung disease.

Boettcher was told if the ailment hadn't been discovered when it was, it likely would have proved fatal.

Most of the islands of the south Pacific were made by volcanic action.

Shoplifter Pegged Right, Hid Loot in Wooden Leg

OKLAHOMA CITY (U)—Police caught a shoplifter "flatfooted."

The 42-year-old man was arrested walking out of a grocery store carrying a pound of coffee inside his wooden leg.

Thief Can Equip Hideout

SAN ANTONIO, Tex. (U)—This thief apparently is all set for a snack and an evening of watching his favorite programs. He took nine TV sets and a deep freeze from a warehouse.

Educators Cite Zooming Enrollments

Urge State Boost College Funds

LANSING (U) — Michigan State University may have an enrollment of 44,000 by 1970 — equal to the population of many of the state's larger cities.

Pupils attending Michigan's primary and secondary schools next year will outnumber this year's total by some 70,000.

To keep pace of growing numbers of children in this 6-18 age category, the equivalent of 10 classrooms must be built in the state every day of the school year.

These were facts tossed at Gov. Williams yesterday by state educators who sought to impress him with the urgent need for boosting state revenue for schools.

TOUGH PROBLEM

It was the toughest problem the governor has yet encountered in his efforts to scale down budget requests from a record 500 million dollars to something closer to the 330 million appropriated by the Legislature for the current fiscal year.

★ ★ ★
Educators and representatives of

various citizen and professional groups interested in school problems had their say before Williams during the second day of the hearings yesterday.

Heads of public welfare agencies, as well as public health and mental hygiene officials, make their appeals today.

Representatives of state colleges and universities told Williams they must have 94½ million dollars for operating costs alone during the 1957-58 fiscal year.

Car Washing Banned in Berlin's Streams

BERLIN, CONN. (U) — Police today banned the practice of washing automobiles in brooks in outlying sections of this city.

The practice was started some time ago when car washing was curtailed because of a water shortage in nearby New Britain.

In addition to polluting the streams, police say, the brookside car washers are cluttering the stream banks with unsightly debris.

year, an increase of about 24 million dollars over the current year.

Their requests for capital outlay, including new buildings, came to more than 66 million dollars. The Legislature allotted less than 21 million for 1956-57.

CAUGHT IN 'SQUEEZE'

University of Michigan President Harlan H. Hatcher, speaking as president of the Michigan Council of College Presidents, told the governor that the state colleges are caught in a prize squeeze that is pressing in on all sides.

Enrollments are going up substantially faster than had been anticipated, he said. There is a "great obsolescence to take care of" in college buildings, he added.

Hatcher pointed out that the state gave no money for new buildings from 1929 to 1945, and the colleges "had a backlog of some 15 years to make up for."

COSTS MOUNT

As enrollments mount, so does the need for larger facilities, he said. To combat inflation, in-

structors require bigger salaries. Last year, Hatcher said, instruction costs in institutions of higher learning totaled about 60 million; next year are requests for 75 million.

★ ★ ★

Dr. John A. Hannah, president

of Michigan State University, said a survey conducted by the Council of College Presidents in 1954, indicated that total enrollment in state colleges, by liberal estimates, would climb from about 100,000 to 215,000. Actually, he said, there are indications it will reach 270,000.

Refugee Asks Back Pay, Shoveled Snow in '33

CASPER, Wyo. (U) — Casper Mayor Tom Nicholas received a card from a Romanian refugee asking \$1.80 which he said was due him for shoveling snow in Casper in 1933.

Joseph Faganu, writing from a refugee camp near Rome, said he had been jailed and forced to shovel snow without pay in Romania and Yugoslavia before being allowed to enter Italy in 1954.

Faganu's duties at the Italian camp? Shoveling snow!

CHICAGO—More than 30 states and the District of Columbia now impose sales taxes. They are already the major source of revenue in 25 states. And sales taxes are scheduled to be given serious consideration in at least three states during the 1957 legislative year, when 45 state legislatures meet.

Fishing Will Help Junior Climb to the White House

By HAL BOYLE
NEW YORK (AP)—Typewriter tale: A wise mother will teach her boy to fish right now—that is, if she hopes later in life he'll angle for an address at the White House, Washington, D.C.

The odds are heavy against the lad who hasn't at least learned to dangle a worm in water at the end of a pole.

The current issue of "The Fisherman," a magazine, cites these statistics:

A majority of U.S. presidents, from Dwight Eisenhower right on back to George Washington, member of the first sport fishing club formed in North America, have been more or less ardent followers of Izaak Walton.

Far Better Chance

The voters elected 14 consecutive fishing presidents, but never have elected three nonfishermen in a row.

Calvin Coolidge bowed to tradition and apparently became a fisherman after his election.

Grover Cleveland, one of a number of presidents criticized for spending too much time fishing, replied:

"Every patriotic, thoughtful citizen, whether he fishes or not, should lament that we have not among our countrymen more fishermen."

Commented President Herbert Hoover: "The American people have respect for privacy only on two occasions: one of them is praying, and the other is fishing, and the president can't pray all the time."

President Eisenhower's tip: "Caution is the most valuable asset in fishing, especially if you are the fish."

The Cap Situation

In the 1920's famous people like Bobby Jones, Babe Ruth, Bernard Baruch and the Duke of Windsor wore caps.

But from a peak of 55 million caps in 1927 production fell to 27 million in 1937, and these were mostly work or sport caps.

Why the slump? The Cap and ster films in the 1930's murdered Cloth Hat Institute says the gangster business.

"Every time Jimmy Cagney threw a pie in Mae's face, he was wearing a cap," said Eugene Saunders, president of the institute. "Every crook, hoodlum, thug or murderer left a cap at the scene of the crime."

"In 1932 alone, 254 cap-wearing movie criminals were either killed or jailed. The producers should have been executed."

The cap manufacturers, riding a new boom, are proud that caps now adorn the heads of people like President Eisenhower, baseball star Ted Williams, actor Rex Harrison and author Ernest Hemingway.

This time the cap makers have declared an open war against movie or TV producers who "identify gangsters by having them wear a cap." Tophats, fedoras, derbies or football helmets—all okay. But caps—no!

"It's them or us," said Saunders.

Newest In Headgear

While we're on the subject of headgear, we might as well cap it with what's new in men's hats.

It seems there's been a revolution. A survey by the John B.

Stetson Co., came up with these discoveries:

A man's wife has less to say—well, less influence anyway—about her husband's choice of a hat than any other item in his wardrobe.

The old social distinctions in the wearing of certain hat styles has died out.

The banker no longer wears a stiff bowler.

Newspapermen no longer affect flamboyant hats but—bless you, Mr. Stetson!—dress more like doctors. So do actors. Doctors themselves, on the other hand, are getting more informal in their hat tastes.

Businessmen are dressing as elegantly as bankers used to.

Ball players still look like ball players, even though some have eight-hat wardrobes ranging from jaunty Tyrolean numbers to smart evening hats.

Few detectives wear derbies any more. The young FBI agent leans toward a popular narrow brim hat and can easily be mistaken for a carefree collegian.

Long, Hard Wear

Lawyers buy conservative hats but give them long and hard wear.

Advertising men? There'll always be an ad man, but you can't pick him out by his hat. The best bet is that it will look like the one worn by his biggest client.

The only other conclusion reached was that a hat in Philadelphia will sit straighter on the head than a hat in Dallas. A hat that slants sideways or slopes back on the head is no longer a tipoff of its owner's occupation.

It merely indicates he's from the wide open spaces—and particularly if he lifts it when a lady passes.

Benefactors Thanked by Grateful Doctor

OSHKOSH, Wis. (AP)—Dr. Ricardo Fernando of the Philippine Islands, spent a week here meeting members of the Methodist Youth Fellowship who helped him get his medical education.

For the past five years the teen-agers contributed \$600 annually to help pay for the 28-year-old physician's schooling.

Dr. Fernando received his degree in the Philippines and is now taking postgraduate work in internal medicine at Harvard Medical School and serving at the Massachusetts General Hospital in Boston.

Burma became an independent state in 1948.

TREASURES OF HISTORY—Fragments of the past, these 2,000-year-old sculptures imbedded in the side of a medieval era structure along the famous Appian Way receive careful attention by a Roman workman. During the days of the Roman Empire, the stones adorned the villa of the patrician "Cotta" family. The family name is visible on the fragment at the left of the worker. The recovered pieces of the ancient sculpture were inserted in the medieval masonry centuries afterward, but now the whole structure is in danger of crumbling away.

Ike Didn't See Drought of Texas' Human Side

DALLAS (AP)—President Eisenhower saw crippling damage on his 1 1/2-hour, ground-level inspection of Texas drought land this week. What he couldn't see in full is the human side of the drought, and that adds up to a national problem.

For instance: he couldn't see farmers borrowing money for tractor fuel to keep their land from blowing away, once-proud farmers accepting food relief packages for their families, or the procession of young men going broke and leaving their farms for city jobs.

Nor could he, by the limitations of time and distance, gain an insight into the privation brought in by the 750-million-dollar drought loss suffered last year by Texas farmers alone.

State Agriculture Commissioner John White said today that the 750 millions are hard, specific figures based on production losses.

"That doesn't," he said, "include rangeland deterioration—you can't put that in dollars and cents. And it doesn't include the losses from premature sale of market cattle. And it doesn't include the losses caused by sale of foundation herds at less than replacement costs."

Most Texas cities are booming with their new industries, oil and oil-related wealth. On the other hand, dryland farmers and the small-town businessmen who depend on their purchases, are having a rough going.

The President didn't see the locked store entrances or the busi-

ness places empty of customers. He heard a great deal of the need for cheap and easy federal credit for farms which have suffered seven years of drought, but he couldn't see exactly what it's needed for.

One great need is to prevent farm destruction by wind erosion—the weather phenomenon that results in great dust storms.

H. N. (Red) Smith, head of the Texas office of the U.S. Soil Conservation Service, said in November \$70,000 acres underwent emergency plowing to protect them from wind erosion. Another 400,000 acres were treated in December. And 6,200,000 acres in 68 counties, he said, are in condition to blow when the winds really get fierce starting in February and continuing through May.

"The farmers are going to have to have help either in credit or in government cost sharing," Smith said. "This unquestionably is the worst we've ever had."

Simulate Space Travel in Pressure Laboratory

BEVERLY HILLS, Calif.—A Beverly Hills manufacturer has developed the first space-travel-simulation laboratory in the United States.

It can approximate pressures that might be encountered several hundred miles above the earth. The chamber, about 15 feet in diameter, makes it possible for human operators to perform tasks that might be required during space travel.

Fabric, Style Names Due to Famous People or Places

WASHINGTON — What's in a name? In the case of clothes, many fabrics and styles owe their identity to famous folk or faraway places.

Geography, in particular, has contributed richly to words associated with the wardrobe, the National Geographic Society says.

Although American teenagers made "blue jeans" a household phrase, its origin can be traced to Genoa, Italy. Many centuries ago the city specialized in weaving a heavy twilled cotton cloth

called jone or jean. The material, dyed blue, became a favorite fabric for making work clothes. Henry VIII once bought a large shipment of it for the British royal household.

Some wearers of jeans call them Levis or dungarees. British sailors coined the word dungaree from the name of a Bombay suburb which produced a similar type of heavy-duty sailcloth that manufacturers dyed blue and made into trousers. The word Levis honors Levi Strauss, a San Franciscan who pio-

neered in overall-making in the mid-19th century.

Curiously enough, the word pants derives from a third-century Roman doctor, Pantaleon, who was martyred for his Christian faith. Canonized as San Pantaleone, a favorite saint of Venice, his name was fixed to a lovable stock character in Italian comedy. The comedian's costume featured baggy trousers, hence the words pants, loon and penis.

Wellington and blucher boots take their names, respectively

from Britain's Duke of Wellington and Prussian General Von Blucher. American cowboys put on Justins named after Texas boot-maker Joe Justin who set the style in prairie footgear.

Many a well-known name pops up in fashion. The Eisenhower military jacket appeared in World War II. Countless American boys wear as Sunday best the Eton jacket and Eton collar made popular at the fashionable British school. A single-breasted-topcoat with hidden buttons bears the name of the fourth Earl of Chesterfield. If the

topcoat flares and has sleeves extending to the neckline, it's called raglan after the British general, Lord Raglan. A knitted jacket which buttons up the front should remind its wearer of the seventh Earl of Cardigan.

Names of numerous fabrics evolved from the places of true or supposed origin: Jersey from the Channel Island of the same name; worsted from the British city, Worstead; muslin from Mosul in ancient Mesopotamia; gauze from Gaza in old Palestine; damask from Damascus,

and calico from Calicut, India. Goals of Kashmir contributed cashmere.

Contrary to popular belief, tweed has no connection with Scotland's River Tweed. The word comes from tweek, a dialectal form of twill.

Hat derives from the ancient Norse word hattr meaning heavy hood. Among the distinctive styles, a derby gets its name from the fourteenth Earl of Derby; Homburg from the German town of that name; fedora from Sardou's drama, "Fedora." John B. Stetson's product pleases American cowboys to such an extent that they cover their heads with Stetsons and John B.'s.

BRUSHING OFF THE WORLD — The young lady at left is cleaning up the Middle East, a problem which has bedeviled many a good man lately. She and her partner make it seem easy and so it is because the "world" and its moon are only interesting exhibits at a Frankfurt, Germany, show called "Space Unlimited." It is sponsored by the Information Section of the U. S. State Department.

Nuclear Scientists Shatter Parity Principle in Physics

NEW YORK (AP)—Ten scientists have shattered a long-standing fundamental concept of nuclear physics, Columbia University reported yesterday.

One scientist compared the achievement to the late Albert Einstein's development of the theory of relativity. Einstein's theory unlocked the secret of the atom and ushered the world into the atomic-hydrogen age.

The discovery, the university said, opens the way for a whole new set of explanations of the atom, the world and the cosmos (the orderly and harmonious arrangement of the universe).

It overturned the "principle of conservation of parity" concept upon which scientists for 30 years have based their predictions on the behavior of the atom. The university said the long-held belief will now have to be abandoned in the light of the new discovery.

The parity law held that a system of matter based on right-

handedness, or spin to the right, could be interchanged with a left-handed system by "reflection," as if in a mirror. The interchange or reflection, the law held additionally, would not change physical laws.

The parity principle told physicists that phenomena of nature look the same whether observed directly or through a mirror, except that right and left are reversed. It was impossible, however, to differentiate between the real image and the mirror image of a phenomena when the photograph was taken through a mirror.

The recently completed experiments, the university said, enable scientists to identify the images correctly.

(When familiar objects, such as handwriting, are photographed directly and by mirror, the mirror image is easily identified. The problem becomes acute when unfamiliar phenomena are observed.)

The 'Rock,' Britain's Only Mideast Bastion

Gibraltar—(INS)—The dramatic spectacle of "the rock" rising like a bristling monster out of the blue-green waters of the Gibraltar Straits, strikes the traveler impressively as a symbol of the continuing struggle for control of the strategically important Mediterranean Sea.

The game has been played at a desperate pace even in recent months with such strange realignments of allies as found by the British side-by-side with Israel against Egypt, despite Britain's long attachment to the Arabs.

The chips move back and forth but Gibraltar still stands guard.

for Britain at the Western portal of the sea most fought over—and for longer years—than probably any other in the world.

But the awesome "rock" speaks of different things to different people.

To the old British imperialist, nostalgia for the great years of his country's worldwide power, it recalls the happy days when the Royal Navy's Mediterranean Fleet together with dozens of garrisons around the sea's perimeter, assured John Bull's dominion over it.

To him, too, it recalls the days when British diplomacy could

identify the interests of the Arabs, Greeks, and other Mediterranean peoples with those of Great Britain.

But for the other persons who live in the present as a student of contemporary affairs, the impregnable "rock" talks a different tongue.

GUARDED WHOLE SEA

It speaks with embarrassment of the role it used to play—of the days of gunboats before man found wings or split the atom—when, with a few well aimed shots, it could keep whole fleets out of the strategic sea.

And at the other end was Suez, also then dominated by Britain, which could team up with Gibraltar at but a wink from the War Office to make the sea a British lake.

To the visitor to whom Gibraltar speaks this language, the venerable fortress stands for other things as well. It makes him look to the very future which the once powerful Gibraltar dreads to contemplate.

For two new mighty powers have come into the Mediterranean who are relative strangers there.

One is the United States of America whose Sixth Fleet is now the mightiest mobile fortress and air base in all the reaches of those strategic waters.

It is the other new force in the

Mediterranean which is, however, the more significant in altering the balance of power.

This is Soviet Russia which for centuries under the Czar, and more recently under Stalin, tried its mightiest to gain footholds in the Middle East and elsewhere in the Mediterranean basin.

Every student of the situation has known that Russia always had a vital interest in that embattled sea, if only for reasons of geography. But it is equally understandable why the British always—almost always—refused to recognize that interest.

Time and again—at Yalta, Pots-

dam, and elsewhere—Stalin brought up the matter of taking control of the Dardanelles from the Turks. But he also asked, almost as frequently, for other Russian rights in the Mediterranean area, such as his bombshell demand for Tripoli in 1945.

But these direct demands never paid off. It was only the soft post-Stalin approach that succeeded. Without firing a shot or moving a soldier, the new Soviet leadership has gained by subtle diplomacy and propaganda in a couple of years what their predecessors couldn't get for centuries.

Playing upon anti-colonial sen-

timent among the Arabs, which means capitalizing anti-British and anti-French emotions, the new Soviet purr has so much displaced Western prestige in the Arab world that experts dread to think what might happen to the remnants of British forces in the area if some mistaken diplomacy should touch off what would be the worst kind of war—what the Arabs would regard as a "holy war," between the Christians and the Moslems.

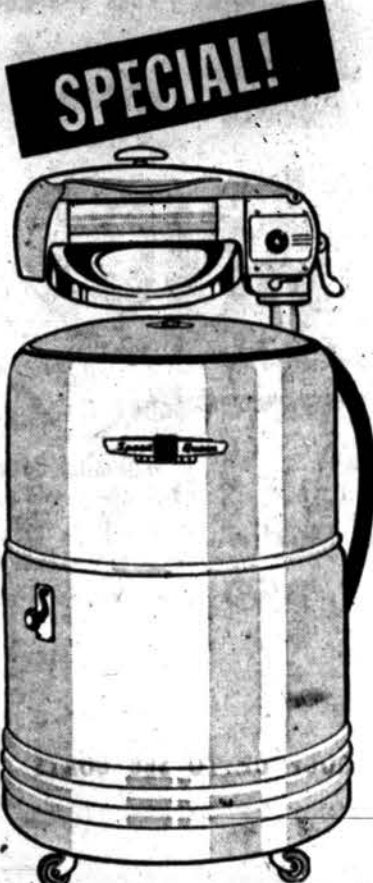

The deteriorating situation is worsened by the frail state of the West's anti-communist military alliances in the area.

Greece's tireless pursuit of independence for Cyprus, another British-ruled bastion in the turbulent sea, has seriously weakened the eastern flank of the North Atlantic Treaty Organization.

Britain, Greece, and Turkey are at loggerheads over Cyprus just at a time when Britain needs the island more than ever as a staging point for possible military operations in the Middle East.

Looking eastward from Gibraltar over the deceptively calm waters of the Mediterranean, the Western visitor also sees the rickety state of the Baghdad Pact, the disagreement between France and Italy over Suez policy, and the commitment of virtually the whole French army to fighting guerrillas in Algeria.

If the situation is pitiable enough for the West to make the Russians laugh up their sleeves, it is almost enough, too, to make poor old Gibraltar weep her scores of coastal defense batteries into tears of molten steel.

Sen. Williams Pays His Way

Delaware Man Called Watchdog of Treasury; Uncovers Corruption

NEW YORK, N. Y. — He has saved the government incalculable millions; uncovered large-scale official corruption and sparked revision of the tax laws — yet, Sen. John Williams (R-Del.) has never asked Congress for a dime.

Sen. Williams — called "the Senate's watchdog of the treasury" by a profile story in the recent issue of a national magazine — has never appropriated a penny for his investigations and pays his own way on inspection trips across the country.

Yet, he has forced the resignation or outright dismissal of 133 officials in the Internal Revenue Service alone.

It was Williams, points out the article, who helped force the resignation of William Boyle as chairman of the Democratic National Committee for interfering on behalf of a private client who wanted a loan.

Not long afterwards, Williams accused GOP National Chairman Guy Gabrielson of similar habits and Gabrielson was replaced. Now 52, Williams has had no formal education beyond high school. When he ran for the Senate, he had never held office except in the Millsboro town council.

Among the changes being brought about entirely or largely because of Sen. Williams are the following:

(1) — All Internal Revenue appointments are now made under Civil Service.

(2) The Statute of Limitations has been extended from three to five years in all cases involving bribes or payoffs of government officials.

(3) Tax delinquencies, never added up, are now compiled and an annual inventory is published.

Bell Booms Out Sound

MONTREAL — The grand-bourdon bell of Notre Dame Church in Montreal is the 16th largest in the world. It exceeds by more than 5,000 pounds that of St. Peter's Cathedral in Rome. It weighs 24,780 pounds, was installed in the west tower of Notre Dame 100 years ago, and is rung only about 40 times a year.

Changed Yeast in Time

PORT HURON — The local YMCA has a new address now—700 West Fort St. It took quick action by the Board of Directors to change it from Beer street.

Bob Considine Says:

Soldiers Don't Fade---They Thrive

NEW YORK (INS) — Irving Berlin, the greatest, wrote a song for Bing Crosby in "White Christmas" which went something like this:

What can you do with a general When he stops being a general? Oh what can you do with a general who retires?

Who's got a job for a general When he stops being a general? They all get a job but a general no one hires.

And the song went on to say:

It seems this country never has enjoyed So many one and two and three And four-star generals unemployed.

The master's work may be in need of a brief rewrite. The generals are now doing pretty well, a fast checkup showed today. (There aren't any benefits being run for admirals, either.)

Remember when "I Didn't Raise My Boy to Be a Soldier" was hotter than the Kissel Kar? Well, you'd be a chump not to raise the kids that way today, if you expect them to make something of themselves in the tycoon department later on in life.

Gen. Douglas MacArthur, who will be 77 next week, is active as chairman of the board of Sperry Rand. Adm. Bill Halsey, his strong right naval arm in the Pacific war, is firing broadsides for the International Tel and Tel. Air Force Gen. Carl Spaatz is military analyst for Newsweek.

Other Tycoons

Gen. Walter Bedell Smith is with American Machine and Foundry. Gen. Lucius Clay heads up Continental Can. The top quartermaster of World War II, the late Gen. Brehon Somervell, headed up Koppers.

Gen. Ira Eaker, who was in charge of the Army's 8th Air Force when the raids on Germany were opened, is with Hughes Tool. Gen. Harold George of Air Transport Command (now MATS) is senior vice president in charge of administration for the Remo-Woolridge Electronics Group of Beverly Hills, Calif.

Gen. Jimmy Doolittle was all set to retire recently from his executive post with Shell Oil, having attained the remarkable (for Doolittle, at least) age of 66.

Wishing to remain partly active, he accepted the post of chairman of the Air Force's Scientific and Advisory Board, chairman of the National Advisory Committee for aeronautics, chairman of the Stassen commission to study air inspection methods, became a member of the National Air Museum advisory committee and a mem-

ber of the Presidents (another general!) Foreign Intelligence Board.

Then Shell asked him to stay on his rolls a few more years. So now, having reached retirement age, Doolittle has seven jobs instead of one.

More In Top Jobs

Gen. Hugh J. Casey runs Schenley Distilleries. Gen. Gruenther, having turned down several \$100,000-a-year jobs, is president of the Red Cross at a modest \$30,000. Gen. Mark Clark is president of The Citadel.

Gen. Ernest Harmon is the prexy of Norwich (Vt.) University. Gen. George Kenney heads the Arthritis Foundation. Gen. Vince Malloy, one of the first B17 men, is with United Aircraft. Gen. Omar Bradley is an important cogwheel with Bulova.

Gen. Joseph T. McNarney, who ran the air war in Italy, is big with Convair. Gen. C. R. Smith runs American Airlines. Carter L. Burgess, former assistant secretary of defense and colonel under Eisenhower, is the new president of TWA.

Gen. Ennis Whitehead is at Northrup. Adm. John Cassidy who headed the 6th Fleet, now heads the flight safety work.

Cello Fellow's Fireman

HALIFAX — James Johnstone, professional Australian cello player, worked his passage here as a fireman on a freighter. He put his instrument to good use entertaining crew members on the voyage. He became a member of the Halifax Symphony Orchestra, shortly after his arrival.

dowed by the Guggenheim Foundation. Gen. Ben Chidlaw, USAF, is big at Thompson Products.

Adm. DeWitt Ramsey runs the Aircraft Manufacturers Association. Gen. J. B. Montgomery, former head of the 8th Air Force, is with General Electric, and Gen. Claire Lee Chennault is chairman of the board of CAT, the Formosan airline.

And that's just for starters, Irving. Original term of a copyright under U.S. law is for 28 years.

Iraq's Development Board will spend \$1,164,800,000 for projects 1955-60. The manufacture of jet engines has greatly increased the demand for cobalt, an essential material.

Arrest Scatters Segregationists

Charge Peace Breach as Youth Yells at Chief of Police in Louisville

LOUISVILLE, Ky. (AP)—A 17-year-old pro-segregationist who last week won his fight to enter Louisville Male High School was arrested after trying to oust a police chief from a meeting he was conducting last night.

Shively Police Chief Luther Melton said Billy Branham, who moved here recently from Detroit, was charged with breach of the peace.

Chief Melton quoted the youth as saying, "Get out that door. You heard me, get out!"

Branham was a first denied admittance to the high school when he said he did not believe in racial integration. He was later admitted but was told he'd be expelled if he actively opposed integration. Twelve other youths were arrested at the meeting held in Shively, a nearby suburb. Two escaped while being booked at headquarters. Five of them, juveniles, were taken to Children's Center on delinquency charges and five were jailed on charges of breach of peace and drunkenness.

Melton said he went to the meeting hall after receiving a report that a group of youths were meeting there. State law forbids the meeting of minors in establishments licensed for alcoholic beverages.

The officer said from 30 to 35 youths were in the hall listening to a speech by Branham. Melton said he didn't know what the speech was about but that he heard "something about the First Amendment and Abraham Lincoln."

Melton said Branham asked what business the police chief had there. The officer said he replied he had stopped by to determine if a liquor-license law was being violated. Then, Melton said, the boy told him to get out.

School supt. Omer Carmichael said he would await developments before commenting on any possible action by the school board.

Page Had Him Pegged

SANTA FE, N. M. (AP)—Nine-year-old Christy Chavez was a bit confused while she was an honorary page in the State Senate. Her father, Sen. Fabian Chavez, asked Christy to take a message to the presiding officer, Lt. Gov. Joseph Montoya. "Who's that, Daddy?" Christy asked. "The man with the gavel," "Oh," she said, "You mean the judge!"

He's in Mint of Trouble

DENVER (AP)—An employee of the U. S. Mint has been charged with stealing unstamped 25-cent pieces and cashing them through coin vending machines. Kenneth Leroy Neal, 20, of Limon, Colo., faces a possible maximum sentence of 10 years in prison and a \$10,000 fine if convicted. He was released on \$500 bond.

PRACTICE FOR PARADE—These pretty majorettes of the marching band of Stevens High School, Claremont, N. H., get off a big kick as they practice in the snow in front of the school for President Eisenhower's inaugural parade in Washington Jan. 21.

Insects Feel Nature's Sting

World of Spider, Wasp Preys on One Another in Lethal Circle

WASHINGTON—Pain-killing injections came along relatively late in man's history, but nature has been using them for ages.

The recipient of one of nature's merciful hypodermics, however, generally ends up dead and eaten, the National Geographic Society says.

Most spiders, for example, have fangs and poison to quiet the struggles of their insect food. But the tarantula, one of the largest spiders, is itself victimized by the Pepsis wasp. Its death comes after a strange performance in which the tarantula makes no move to defend itself until the end.

DUEL IN THE SUN
Each species of Pepsis preys on a particular species of spider. Flying low over the ground in the southwestern United States, the female wasp searches out her own spider and examines it with her antennae—a tactic that would get most insects killed. But, from the wasp, the spider accepts this handling.

Measured that she has the right victim, the wasp moves off a little and digs a grave. The spider makes no attempt to escape. Pepsis digs a hole some 10 inches deep and wide enough to accommodate the spider.

Then she attacks, seeking to put her stinger into a soft spot where one of the spider's legs enters its body. A tough shell protects it elsewhere.

The tarantula, though clearly

annoyed, does little to save itself except shift its ground slowly. At the climactic moment, the spider seems to realize its danger and puts up a strong fight—too late.

Pepsis inserts her stinger, pumps in poison, and the spider drops, paralyzed. Then it is dragged to the hole and placed—still alive—in the bottom. Taken away at this

stage, the spider can be revived to some degree in the laboratory. If nothing interferes, the wasp lays her egg on the anesthetized spider and fills the hole. When the larva hatches it will find a plentiful supply of fresh food.

A turtle has no teeth. But, its jaws have sharp edges for tearing and it swallows its food whole.

Guns Break Windows of Integration Leader

TALLAHASSEE, Fla. (AP)—Windows in the house of an integration leader were reported smashed by gunfire last night during meeting of the Negro Inter-Civic Council. The disorder was the most recent in a long series in smoldering integration difficulties here. About 20 white persons attended the council meeting. They were identified as students at Florida State University. They were scattered through the church where the meeting was held.

The Rev. C. K. Steele, president of the council, told the meeting that "no group of Negroes could move freely in and out of white communities as long as youngsters have been moving in our community throwing rocks and shooting guns without being arrested." After he went home, Steele reported two windows of his home

had been broken by shotgun pellets. He also said the window of a car owned by Dr. M. C. Williams, Negro dentist who is the council's secretary, was smashed with a brick. The car had been parked near the church.

Town Without a Fire

GRAYSON, Ky. (AP)—There hasn't been a fire here in a year. The last blaze within the city limits occurred Dec. 11, 1955, said Fire Chief Leonard Carrico, who heads a volunteer department of 20 men. The city, population 1,800, put on no special fire-prevention campaign during the year.

Which Shell Came First?

DECATUR, Ill. (AP)—Harvey White found an egg nearly the size of a baseball in his henhouse. He said it was laid by a Plymouth Rock hen. Opening it, he found another normal-sized egg. Inside that was the white and yolk of a normal egg.

Know Cleaning Acids

Beware of cleaning compounds that contain acids. Household detergent and water is the best way to keep ceramic tile walls, floors and counter greening between major house cleanings. When it comes to removing stains that may accumulate through

neglect, try a weak solution of muriatic acid if ordinary scouring powder fails.

Avoid acids that could cause permanent damage to plumbing fixtures. Some homemakers have come to grief this way, because the enamel finish of tubs, lavatories and toilets are vulnerable to harsh acids.

GET YOURS TODAY
at WAITE'S, DOWNSTAIRS

Now comes one of the greatest sales and money-saving events in our 23 years of business in Pontiac. Here is your chance to buy and save on on fine quality merchandise at unbelievable low, low prices!

HERE ARE REAL BARGAINS!

It's Quality . . . as well as low prices, that make a good value.

It is well to consider just what comprises a good value and a bargain. We believe a bargain to be an unusual offering caused by an unusual event, or condition that actually forces a reduction in price, but not a reduction in quality.

Because we want to dispose of our winter merchandise stock during the next 15 days, one will be able to buy quality at a sacrifice and still get quality. If you are looking for money saving bargains you will be here Thursday morning at 10:00 when the doors open.

GEORGES NEWPORTS

THE QUALITY STORE OF NATIONAL BRANDS

74 NORTH SAGINAW ST.—Between Huron and Mt. Clemens

HERE'S THE STORY FOR THIS SALE!

Like all business men we are optimists. We must buy goods in anticipation of your needs. This fall, Christmas and Winter was no different. We bought the finest nationally advertised goods for you . . . but, unforeseen record warm weather in September, October, and November did not allow us to move sufficient amounts of warm clothing for winter needs. The unexpected strike cut into our Christmas business. This created an overloading of seasonable merchandise which must be moved. Our policy is not to carry goods over from one season to the next so we have decided to clear our store in the next 15 days. Our loss is your gain. Even at these low low prices you can charge it.

BIG \$200,000 STOCK DISPOSAL SALE!

Be Here When the Doors Open Friday, 10 A. M. Every Department in Our Store Will Be Offering Drastic Price Reductions. Follow the Crowds to the Biggest Sale in Years

STORE IS CLOSED TODAY

Our store is closed all day today, Thursday, January 17, to hire and train new help, to mark down prices, and to arrange the store and stocks for this great Sale. All goods on racks and tables easy to see and easier to buy. Everything marked plainly at SALE PRICES . . . DON'T MISS IT . . . COME EARLY.

YES, think what this GIGANTIC DISPOSAL SALE means to you and your family. Despite today's high prices, over \$200,000 worth of family needs will be on sale. This sale will be throughout the store, in every department on nationally advertised Dresses, Coats and Suits, Fur, Domestic Linens, Towels, Hose, Lingerie, Women's Sportswear, Accessories, Women's Robes, Men's Clothing, Men's Furnishings, Boys' Clothing, Infants' Wear, Children's Wear, Teen-age, Toys and Furniture, Shoes, Millinery, Jewelry and Small Appliances. THE PRICES SPEAK FOR THEMSELVES. IF YOU EVER SAVED IN YOUR LIFE YOU WILL SAVE IN THIS SALE. TELL YOUR FRIENDS, COME SEE FOR YOURSELF.

Group to Cut Budget Request

Committee Scans Needs of Departments Before Applying Hatchet

WASHINGTON (U) — The House Appropriations Committee set out today to try to whittle down President Eisenhower's request to spend \$71,807,000,000 during the next fiscal year.

One day after receiving Eisenhower's budget message, subcommittees arranged to begin scanning behind closed doors the fiscal needs of the Interior, Post Office and Treasury departments.

★ ★ ★

Members hope to chop substantial sums from the \$73,300,000,000 in requests for new appropriations, some of which would carry over to later years.

★ ★ ★

Some Democrats and some Republicans complained about the size of the budget for the year starting next July 1, referring to it as inflationary.

The President forecast a year-end surplus of \$1,800,000,000 which he said would be applied toward reduction of the \$72-billion-dollar national debt, now costing more than seven billions annually in interest charges.

Some members are known to feel that if Congress could cut the planned spending total several billion more, there might be enough of a surplus to provide tax relief in 1958, a congressional election year.

Young Dems to Name Committees Thursday

The Pontiac Young Democratic Club will meet at the home of Edward Keen, 183 Pingree St., at 7 p.m. Thursday.

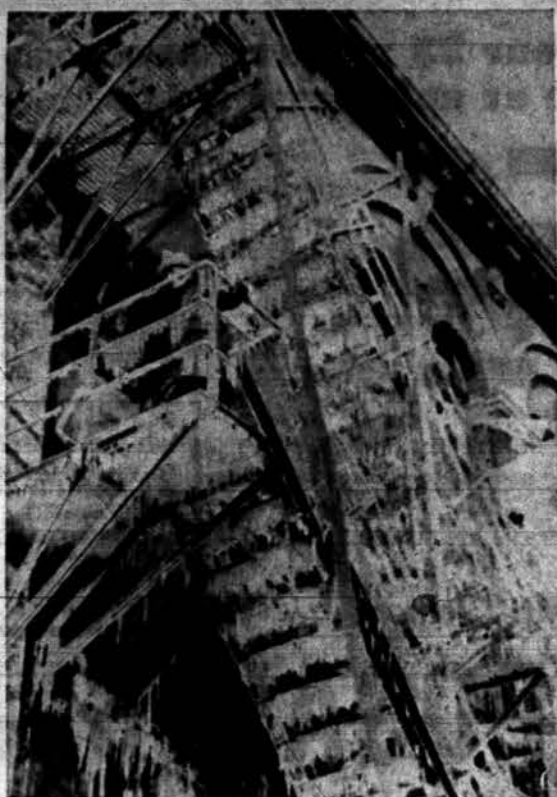

General committees will be appointed and plans will be discussed for a skating party and dance.

Route Dog, Snaps Ankle

PITTSBURGH (U) — Albert T. Lindenseller, 54, told police he was going from house to house distributing handbills when a dog ran at him and latched on to his pants. He tried to shake the dog loose, nearly lost his pants in the process and then fell to the ground as the dog scampered away. Now he's in a hospital with a broken ankle.

Pup Held for Ransom

DENVER (U) — Ocho, a black Labrador retriever puppy, is missing and his masters, Mr. and Mrs. A. Hansen, are convinced the dog is being held for ransom. Mrs. Hansen said a man's voice on the telephone asked her to describe the dog. Then he asked what reward she was offering. When she suggested \$10, the man said "not enough" and hung up.

AP Wirephoto

BUT NO COLD ESCAPE — Icicles hang from a fire escape after firemen battled a recent fire in the Odd Fellows Temple in Chicago with the temperature dropping toward zero. Spray from streams of water played by firemen caused the icicles.

Children's Clinic Board to Meet

County Guidance Group to Make Public Report on Prospective Branch

The Board of Directors of the Oakland Child Guidance Clinic have scheduled a public meeting at the Jane Adams School in Royal Oak on Jan. 23.

Purpose of the community meeting, said Madeline Half, clinic director, will be to report to southern Oakland County residents on the planning progress of the prospective Child Guidance Clinic branch for Southern Oakland County.

Further plans were made for the board's annual meeting Feb. 12 at Northwood Inn. Speaker Ralph Rabinovitch, director of Hawthorne Center, will speak to

the board on "Why Our Disturbed Children?"

The nominating committee presented a slate of directors to be elected at the February meeting.

Mrs. Eugene Hunter, board member and one of the staff members will attend a Children's Forum in East Lansing on Feb. 13, Miss Half said.

Board members also heard a report from Mrs. Withrop Conrad of the board and Mrs. William Thomas, supervisor of the Birmingham branch of the Child Guidance Clinic on plans for a formation of community wide committee to insure continuation of the branch in December, 1958 when by the Birmingham Junior League, terminates.

Many Hunt, Fish

WASHINGTON — A recent survey by the interior Department shows that one in every three households in the United States has one or more fishermen or hunters. The ratio ranges from one in two households in rural areas to one in six in big cities.

Orchard Lake Sends Call for New Church Minister

REV. EDWARD D. AUCHARD

The Orchard Lake Community Church has invited the Rev. Edward D. Auchard to become the new minister effective Feb. 1.

The Rev. Mr. Auchard, an associate pastor of the First Presbyterian Church, has been active in the Pontiac Pastors' Association and has served on the staff of the Pontiac School of Religion the past three years. In December, he was elected as a director of the Pontiac Area Chamber of Commerce.

A native of Kansas, he attended Kansas State College, York College in Nebraska and Eden Theological Seminary in St. Louis, Mo.

He received his Bachelor of Divinity degree at the United Theological Seminary in Dayton, Ohio and his Master of Theology at the Louisville Presbyterian Seminary.

He also attended Garrett Biblical Institute in Evanston, Ill. The Rev. Mr. Auchard came here from Grace Presbyterian Church, St. Louis, Mo.

'Corpse' on Railroad Was Only a Sleeper

SILVER CITY, N.M. (U) — Apparently there are still a few rugged individuals around to uphold the tradition of the old west.

The body of an unidentified man was reported lying on the crushed rock roadbed of the Santa Fe Railroad right of way between Deming and Hatch, N.M., recently.

The report was relayed over the police radio from the Sheriff's office to officials in Dona Ana County.

Police investigated and found the man was simply taking a nap.

FBI Ends Notorious Career of Gang-Leader Dillinger

(Continued From Page One)

rifles mounted, as machine guns, five bullet-proof vests and more than \$25,000, part of which was identified as loot from an East Chicago bank.

ESCAPES JAIL

Dillinger was returned to Indiana and placed in the county jail at Crown Point to await trial. But he escaped on March 3, 1934.

He always claimed he frightened the jail guards with a wooden gun which he had fashioned with a razor blade as he whiled away the time in his cell. The red-faced guards said Dillinger had a real .45 which someone had slipped to him.

Dillinger grabbed two machine guns, locked up the guards, stole the sheriff's automobile and headed for Chicago.

The instant he crossed the Indiana-Illinois state line, he violated a federal law—the National Motor Vehicle Theft Act, commonly known as the Dyer Act, which prohibits transportation of a stolen motor vehicle across a state line.

On two occasions, Agents thought they had Dillinger trapped. Each time he escaped in a barrage of machine-gun fire. But the circle was tightening.

ELUDE AGENTS

In April the Dillinger gang was found at Little Bohemia Lodge, a summer resort some 50 miles north of Rhinelander, Wis. Warned by barking dogs of the approach of an FBI raiding party, Dillinger and his buddies escaped.

A short distance from the lodge, Lester Gillis, alias "Baby Face" Nelson, a member of the Dillinger gang, killed Special Agent W. Carter Baum, and wounded another agent and a local officer.

On the first day of June, Hoover called Special Agent Samuel P. Cowley into his office to give him a special assignment.

Cowley was a hefty, 34-year-old Utah lawyer who had served as a missionary in the Mormon Church before he joined the FBI. He was to take charge of the Dillinger search.

Cowley's search led him to Chicago. Dillinger was reported in hiding, recovering from a doctor's attempt to disguise the Dillinger features by plastic surgery.

Cowley and Melvin Purvis, special agent in charge of the Chicago office, worked closely with two East Chicago policemen, Capt. Timothy O'Neill and Sgt. Martin Zarkovich, in running down the scores of rumors and tips from people who thought they had recognized Dillinger.

The break in the case came on July 21. O'Neill and Zarkovich brought a dark-haired, middle-aged woman to the FBI.

She was Ana Cumpanas, and she was in trouble. The Immigration and Naturalization Service wanted her deported as an undesirable alien because she was the madam of a bawdyhouse in Gary, Ind.

Her proposition was this. She would lead John Dillinger to the FBI—but she wanted a promise that she would receive a reward and also that something would be done to permit her to remain in the United States.

The reward was promised. Purvis said he would do what he could to help her, and he would call her cooperation to the attention of the Labor Department, which handled deportation matters.

Ana Cumpanas said that John Dillinger was planning to take her and his girl friend, Polly Hamilton, to a movie theater the next evening.

How would other FBI agents, who hadn't seen Ana Cumpanas, be able to identify her? Ana said she would be dressed in red.

The FBI men and the policemen recognized Dillinger when he entered the theater with his girl friend and "the Woman in Red." Despite the plastic surgery, the outlaw was identified beyond doubt.

Cowley called Hoover, who was pacing the library of his home in Washington. The decision was made to take Dillinger as he came out of the theater, rather than risk a gun battle inside the crowded show house.

When the trio emerged, by pre-arrangement Purvis lit a cigar. Dillinger must have sensed that something was wrong. He glanced over his shoulder and saw an agent moving toward him.

He darted toward an alley, clanking a pistol from his pants pocket. But before he could get his gun into action, three FBI agents fired five shots. Slugs tore into Dillinger's body and he pitched on his face. The chase was over.

Cowley paid Ana Cumpanas \$5,000 from the \$10,000 reward money which the federal government had posted. The two East Chicago policemen each received \$2,500. But a federal judge ordered her deported, and she died in 1947 in the little Romanian town of Timisoara.

(Tomorrow: The FBI Laboratory.)

The United States and Canada use 700,000 tons of sulphur each year in the manufacture of paper.

3,000 Gems in Crown

LONDON — The imperial state crown, worn by the Queen when she opens Parliament and normally on view in the Tower of London, is set with more than 3,000 precious stones — diamonds, pearls, sapphires, rubies, and emeralds. A huge diamond, the Second Star of Africa, blazes from the rim of the crown just below a ruby presented to the Black Prince, the son of Edward III, in 1367.

Infant Mortality Said Too High

Physician Warns Care Essential During First Year of Life

DETROIT (INS) — A California physician believes that despite medical advances, too many babies are still dying in that first crucial year of life.

Dr. James L. Dennis, speaking in Detroit, said that 80 per cent of all deaths in the first year of life occur during the first month, and that mortality on the first day is highest of all.

The Oakland pediatrician said reversal of this trend is in the hands of two groups — general practitioners, who provide about 75 per cent of the nation's pediatric care, and parents, who must recognize symptoms and seek medical care in time.

Dennis said one of the major causes of infant deaths is an ailment often considered minor — diarrhea. He pointed out that in 24 to 48 hours, diarrhea can remove enough vital fluids from a tiny body to cause dehydration, shock and death.

In such severe diarrheas, replacement of body fluids is the required emergency treatment. But this must be done carefully, he said, using fluids containing the right proportion of chemicals, and infusing them at the proper rate.

Another pediatrician, Dr. Katherine Kuder of Raritan, N. J., recommends that family doctors use their influence to prevent conception of additional children under conditions which pose a threat to the health and well-being of the mother and the family.

Dr. Kuder, who recently returned from India where overpopulation exists to the point of starvation, suggested that doctors discuss spacing of the next pregnancy during post-natal checkups, advising when another child can be borne safely.

She declared that regardless of the religious beliefs of the patients, acceptable methods of spacing childbirths sensibly can be advised.

Metallic Paint Cuts Heat

ST LOUIS — The practice of using metallic paint on heating radiators has lost favor because it has been established that this

retards radiation of heat. Radiators should be painted with a flat wall paint of the same tint as the walls, or with an enamel. Metallic coatings should be used instead on pipes and storage tanks where it is important to keep heat in.

Air Improves Sherry

JEREZ, Spain — Sherry is the only wine that won't turn to vinegar when left exposed to air. In fact, oxygen improves it.

WOULD BE TRAVELER — Long Branch, N.J. policeman takes a statement from Henry Raciner after the former Cornell University psychology major's 17-foot rubber kayak was beached by winds some 30-odd miles from the starting point of a projected around-the-world

trip. He had pushed off from Gravesend Bay in Brooklyn, N.Y. Equipment of his frail craft, foreground, included radio receiver, concentrated food, water, fishing spear, and baseball bat with which to beat off sharks.

Health Director's Report Points Up Alcoholic Study

Major activity of the Pontiac City Health Department in 1936 was to organize and establish a Pontiac committee on alcoholism and rehabilitation of the alcoholic, says Dr. John D. Monroe, health director, in an annual report to the city.

The department also arranged for establishment of an Alcoholism Information Center, which began operation on May 1 at the City Health Department. Mrs. Frances Kessler, public health nurse, serves as head of the project.

A city-wide survey was initiated in 1936 by the health department to determine the number of sub-standard dwellings within the city limits. The survey was aimed particularly at the temporary dwelling units, some of which have no connection with the city sewage system, and those dwelling in "gross disrepair," Dr. Monroe accounts.

Of the survey, Dr. Monroe says

the department is gradually pin-pointing the dwellings and beginning processes to force cleaning up of the units. The job is about 25 per cent completed, he said.

Protection for Jury

SANFORD, N. C. (U) — Juries in Lee County Superior Court are expected to reach their verdicts on the merits of the case, even when there are pretty lady witnesses. An addition to the courtroom is a box around the witness stand which completely hides the occupant's legs.

Thieves Bide Time

CARLSLE, Ky. (U) — When thieves broke into Parks School they took everything edible in sight except a turkey. The next day the big Tom was cooked for the children's lunch. That night the thieves returned and made off with the bird.

Special inoculation clinics occupied much of the time of the health workers during the year. Diphtheria and polio were the two diseases the department urged protection against, Dr. Monroe said.

A major outbreak of diphtheria in Detroit prompted city health officials to add an extra immunization clinic. These extra clinics were well attended, Dr. Monroe says, with waiting lines of city residents.

Another duty begun last year by the City Health Department was the inspection and licensing of nursing homes and homes for the aged. This new duty was in cooperation with the State Health Department which requested help with the project.

City nurses and sanitarians are visiting the homes for inspection purposes four or five times yearly, Dr. Monroe said, in an effort to keep the standards high.

Classes to Open in Dog Training

Register for 10-Week Course at Waterford CAI Building

Registrations are being taken at the recreation office of Waterford Township from families wishing to train their dogs in obedience.

A demonstration of training techniques will be given at 8 p.m. Monday, at the Community Activities Inc. Center on Williams Lake road.

Regular classes will begin at 8 p.m. Wednesday and Wednesdays thereafter for 10 weeks. Training is designed to develop canine obedience, better companionship and attention to instructions.

Jim Richman, training director of the Southern Oakland County Dog Obedience Training Club, will conduct the classes.

This is the second 10-week session in dog obedience training, co-sponsored this winter at the community center by the recreation department and Southern Oakland County Training Club.

Old Army Mule Fading Away

Put Out to Pasture in Favor of Helicopters; Served U.S. Well

WASHINGTON — Like other old soldiers, the Army mule doesn't die easily. But it's fading away.

The United States Army's plan to put its last unit of combat mules to pasture in favor of helicopters will close an almost legendary chapter. Northern armies alone used 450,000 pack mules in the Civil War. Out of 25,000 that went abroad with the American Expeditionary Force in the first World War, 5,000 were casualties.

The unsung hero of many a muddy logistics problem served well in Italy, Tunisia, Burma, New Guinea, and other combat zones in World War II. By and large, however, GIs broke in jeeps rather than the lop-eared, hoof-propelled, slow-starting conveyance known as the Army mule.

MULE POPULATION DROPS

The mule has cause to kick. Superannuated as a soldier, it isn't doing so well down on the farm either, the National Geographic Society says. In civilian life it competes against the tractor.

In 1940 the mule population in the United States totaled about 4,000,000; that of horses, nearly 10,500,000. Since then, their numbers have decreased so rapidly that the Agriculture Department's Estimates Division hasn't found it practicable to count them separately. The combined mule-horse population plummeted to a low of 3,902,000 in 1954.

The mule's ultimate future in the United States? Perhaps glamorous retirement as West Point mascot or as Equus asinus in zoos. Unhappily, the Army mule hasn't much to show for its long career. Few if any have been honored with heroic odes, memorial statues, or Good Conduct Medals.

Instead it has been the butt of countless jokes and quips. It supposedly stimulated, among generations of mule skinner, some of the choicest vocabularies in military history.

None denies the mule's habit of kicking — and kicking hard. Mistreat a mule, and it never forgets. The 19th-century humorist Josh Billings once said, "I've known mules to be good for six months so as to get a chance to kick." And the Southern field hand says, "Mule don't kick accordin' to no rule."

At the end of the Civil War, no less than a thousand Union soldiers qualified for disability pensions as the result of having got too close to the combat end of a mule.

Weekend Jail Term for Traffic Offender

PITTSBURGH — Charles F. Graham, 44, won't miss any time from his job even if he has to go to jail for drunken driving.

After sentencing Graham to jail, in addition to fining him \$100, Judge Loran Lewis learned he might lose his job if he missed any time. The judge stipulated that Graham can begin his sentence at 9:30 a.m. Saturday and end it at 6:30 a.m. Monday in plenty of time to report for work.

Outdoorsmen Ticketed

LANSING — Arrests for conservation violations totalled 1,571 in November with convictions obtained in 1,482 cases, the State Conservation Department reported today.

IF YOU HAD A NECK AS LONG AS THIS FELLOW AND HAD A SORE THROAT DUE TO COLDS, ALL YOU WOULD HAVE TO DO IS TAKE A TONSYLINE. IT SHOULD QUICKLY RELIEVE IT. GET A TONSYLINE.

Seek Employers for Handicapped

By JAN HAYHOW

The County Board of Education and the government office of vocational rehabilitation have joined forces to discover mentally and physically handicapped students in the high schools and junior highs who may have trouble earning their support when school days are finished.

The two agencies feel if these students are discovered while still in school, they can be trained to do jobs which suit their abilities.

Working on the project locally are Donnie Smith Jr., special education consultant with the Pontiac Public Schools and Raymond Kaluzynski, vocational rehabilitation consultant who has offices at the county board of education, 1025 N. Telegraph Rd.

Their main task now, the gentlemen agree, is to find employers willing to take on these handicapped students and give them training as part of Pontiac's business education program.

According to Kaluzynski, the vocational rehabilitation department which is under the U.S. Department of Public Instruction, will pay the employers for any cost or time incurred in the training of the youngsters.

So far five of these special education students in the Pontiac schools have been placed with local employers on this basis. Smith says that he knows of approximately 54 more in the junior

high schools alone who could qualify for this type of training.

IN VARIOUS TRADES

One young man is in a retail store working for experience in window display techniques; another is training in a funeral parlor as receptionist. Still another of the five works in a shoe repair shop and another in a dry cleaning establishment.

Smith and Kaluzynski believe that this method of discovering and training these handicapped students will be highly beneficial to the employers also in that turnover rates of employment will diminish.

"We don't dwell on a youngster's disabilities," Kaluzynski said. "Rather we look for his abilities through psychological testing. The employer benefits from this factor too because he is aware completely of what his trainee can do."

The two departments joined forces in the project for several reasons—among them a belief that training the student while he was still in school would benefit the community as a whole because with no special training and such disabilities, chances of a suitable employment are almost nil. Youngsters

in such a situation could become a future burden on society, educators believe.

Salaries for the trainee are entirely up to the employers. Normally the youngster gets no pay as his job is strictly on a learning basis.

Both Smith and Kaluzynski are seeking employers who would be willing to aid in training these youngsters in a definite job. Smith sent nearly 200 letters to prospective local employers in December. The two hope for calls from employers because time limits in individual contact with all the business owners or managers in the Pontiac area.

Chou Visits Hungary, Returns to Moscow

BUDAPEST — Chinese Communist Premier Chou En-lai left Budapest today after a 20-hour visit.

Just before the Chinese leader departed by Soviet jetliner, he and Kadar signed a joint statement which presumably reaffirmed the Peking regime's support of the Kadar government.

The content of the statement

had not been announced several hours after its signing.

Chou arrived yesterday from Warsaw, stayed until midmorning today and then flew back to Moscow. Presumably his stay in the Soviet capital will be brief since he is due in Kabul, capital of Afghanistan, Saturday.

Think Postage High?

WASHINGTON — In the early days in the United States, postage for a one-sheet letter cost as much as 25 cents.

Newspapers Gain Readers

BOSTON — Daily newspaper circulation in the United States has grown almost twice as fast as the adult population since 1940, despite "severe economic and operational difficulties" in the last decade, the New England Assn., of Circulation Managers was told.

In a luncheon talk at the 40th annual convention of the organization, Richard C. Steele, general manager of the Worcester Daily Newspaper Assn., said newspapers have grown "both in influence and in stature to hitherto unattained heights."

"Ours is the largest individual sales item in the United States," Steele told the circulation men.

"More copies of the daily newspaper are sold every day in the United States than bottles of milk, packs of cigarettes, loaves of bread or units of anything else."

Steele said that if newspapers are to make a profit in the face of operating costs that he said have climbed 150 per cent in the last 10 years "the day of the 10 cent daily newspaper is not far distant" and advertising rate increases of 20 to 30 per cent may be necessary.

FRIGID PASTIME — How not to mind the cold weather is shown by skin diver Martin Cornell of Belmont, wearing a wet type underwater exposure suit. Cornell, doing some underwater fishing around Massachusetts' north shore, settled for two large cakes of ice.

Requests Due States for Old-Age Help

This year the legislatures of 45 of the 48 states will meet and be faced with urgent requests to do more to meet the needs of their older people.

The Council of State Governments, a research and service agency run jointly by the states, has just released a summary of the problems of older people that the states face.

Broken down, the council sees eight major problems which the states and the Federal government must solve before the nation's 14 million people over 65 can expect to have their basic needs met.

1. Unemployment — Most older people want to work and do continue working as long as they are physically fit and can find employment. But, employment chances begin to fade as age creeps up; compulsory retirement often cuts off work which can never be found again; the available jobs go to young persons; and skills and trades become obsolete.

The trend toward fewer employed older people will continue. In 1890, for example, 68 per cent of those over 65 were working. By 1950, the percentage had dropped to 43 and, by 1975, it's expected to be only 35 per cent.

2. Income — The major concern of most older people as they near retirement is how to live on a sharply reduced income. Many must depend on children for support, but must have to look to the government for pensions and assistance.

3. Housing — The housing of most older people is more dilapidated, more in need of repair than the average; less suitably designed for their needs. A larger per cent of the income of older people has to go for rent than is true for the population as a whole.

4. Health — At present older people suffer from chronic illness much more than younger people. Patients 65 or over in hospitals were more than double their proportion of the total population. But, older persons are least able financially to bear the costs. Too many older people have little knowledge of nutrition.

5. Mental health — Loneliness, rejection, lack of usefulness and insecurity become the lot of many older people who once had pride and enjoyment in their work. Thus, they lose interest in the future and present and tend to escape into memories of a happier past; or else they substitute fantasy for reality. This deterioration results in mental illnesses and need for hospital care.

6. Old age and nursing homes — Many older people are forced into such homes due to chronic illness, financial necessity, mental disorder, infirmity or being unwanted by friends. Many of these homes provide

little more than custodial care. The low level of care in these homes generally is due to too little money from states to inspect the homes, enforcement and other services. The care is also related to the low grants for medical care under old age assistance in many states.

7. Recreation — At 60, the average man can look forward to about 16 more years of life with about 10 years of work and 6 in retirement. The years in retirement now often are a shock for older people because they're usually unprepared for it. For the first time in their adult lives they have free

time on their hands and most of them don't know what to do with it. Few have the chance to take part in activity centers, adult education, etc.

8. Political — One-fourth of the voting population is over 60. They may develop into a pressure group, organized to promote their own interests at the expense of other groups in society.

(You may write Ray Henry in care of this newspaper about your own Social Security or retirement problem. Please enclose a stamped, self-addressed envelope and 25 cents in coin.)

Doctor in the House

SUNNYSIDE, Wash. (AP) — Yakima County Democrats were meeting to elect a state committeeman. Dr. Rober Hall of Sunnyside was nominated. A woman delegate asked loudly, "Who is Dr. Hall?"

and then she fainted in the warm room. Dr. Hall revived her. She seconded his nomination and he was elected.

About one-fourth of all North Carolina's crop land is planted to corn.

Sober Christening

ENID, Okla. (AP) — Sixteen-year-old Judy Gilger, Enid, christened an Airline's newest flight out of Enid by smashing a bottle on the nose of the first plane to take off. Since Oklahoma is legally dry,

the bottle held no alcoholic beverage—Enid officials decided a bottle filled with wheat from this farming community was more appropriate.

Chile has never conducted a complete national census.

New Drugs Potent

BOSTON — New cortisone-like drugs, called preni-steroids, are three to five times as potent as the older forms and are said to cause far fewer dangerous or annoying side effects.

Man Draws Social Security at 118

CHARLESTON, W. Va. (INS)—William Davis doesn't have a recipe for longevity but he's doing all right without one — he's 118 years old.

Davis was a guest of honor at a Kanawha Welfare Council luncheon in Charleston recently. The meeting was called to discuss the problems of old age.

And Davis has a solution to them: money. At the luncheon he showed the contents of his pockets — one thin dime.

Davis is the oldest person in the United States on the Social Security rolls. He was 97 when the Social Security Act was passed and went to work as a porter in a local Bus Terminal in order to qualify. He retired at the age of 105.

Establishing his age took painstaking research. There were no laws regarding birth certificates when Davis was born, but the record of an 1850 North Carolina slave auction, at which he remembered being sold, listed his name. The law prohibited a child under 13 years of age from being sold, so authorities assume him to be at least 118.

"Dad," as he is called by his devoted landlady and his friends, lives in a small, privately-owned home for the aged here. He's one of its spriest residents and has outlived most of the people who were there when he arrived.

Davis cuts grass and does yard work in the summertime and he helps with the housework at the home, making his own bed, washing dishes and scrubbing floors.

He doesn't smoke or drink but he doesn't attribute his old age to lack of bad habits. Neither does he sermonize. Mrs. Ruth M. Hill, his landlady, confirms his lack of bad habits but admits that he does

U.S. May Give Aid to Poland

Gomulka Seen Pursuing an Independent Policy Despite Attack

WASHINGTON (AP)—State Department officials were reported convinced today that Poland's trying to follow an independent line.

They tend to discount, as the result of pressure, Poland's joining Communist China in an attack on United States foreign policy yesterday.

★ ★ ★
This government is still giving favorable consideration to plans for making surplus cotton and wheat available to Poland, officials said.

★ ★ ★
But they recognize that political relationships within the Communist bloc are in a state of turmoil. The next few weeks, or even days, could bring developments which would change the American thinking.

The United States has given encouragement to the Polish government of Wladyslaw Gomulka, which took control last fall. Gomulka, a victim of Stalinism in earlier years, became his country's Communist party boss in what appeared to be a break from Russian domination.

Churchill Takes Rest on French Riviera

NICE, France (AP)—Sir Winston Churchill has arrived by plane for his annual winter vacation on the French Riviera. He brought along his painting equipment and a pet parakeet named Toby.

A young English girl joined unexpectedly in the reception for the 82-year-old former prime minister. She rushed up and shook his hand, saying:

"I am so proud to shake the hand of a great man." Churchill turned aside grumbling: "I didn't understand a word of what she said."

occasionally exhibit a fiery temper — no cussing, though.
A devout Christian, he attends Charleston's Glorious Liberty Church regularly and sometimes composes hymns. He entertained the other guests at the luncheon by singing "Jesus on the Mainline," which he wrote himself.

SMART DRESSER

Davis is a natty dresser. He appeared at the luncheon in a stylish grey-flannel suit. He is a small man, about five feet, four inches in height and quite slender. His face is relatively unlined, his hair snow white and abundant.

The only President who ever did

anything for him, Davis says, was Franklin Delano Roosevelt. Although he voted in every election in which he was considered eligible to cast a ballot, he doesn't consider himself either a Democrat or a Republican. He says he votes for the man, not the party.

Born a slave, he had two owners before he was freed and was so fond of the second family to which he belonged that he stayed there for many years after the Civil War and adopted the family surname of Davis.

He remembers the Civil War well, and claims to have met "all the generals — Confederate and

Union." But he also claims to remember meeting George Washington. Most of the time, however, his mind is clear and his conversation lucid.

After the Civil War he worked for a railroad — he can't remember which one — for many years before moving to West Virginia in 1903. He was married twice and outlived both wives. He also outlived his 16 children. He doesn't know if he has any grandchildren living or any descendants at all.

Davis cannot read at all and can write only well enough to sign his name. He has never attended school of any kind. He lives on \$30 a month.

Great Britain Trims Air Force

Attribute Reduction in Part to Gas Pinch, Money Economies

LONDON (AP)—Britain's shortage of fuel and money has forced cutbacks in its air defenses.

Part of the reduction was attributed to diminished requirements, but money and gasoline economies plainly were factors.

★ ★ ★
The Ministry of Supply announced a cut of 100 in the number

of supersonic Hunter Jet fighters on order from manufacturers. It said RAF requirement had shrunk. The Air Ministry said most units of the Royal Auxiliary Air Force were being disbanded. The auxiliaries are part-time fliers assigned the role of defense against low-level attack.

★ ★ ★

The announcement said the RAF is no longer needed because the prime danger now is from high-level attacks. The regular Royal Air Force defends against these.

The admiralty also announced the disbanding of the air branch of the Royal Naval Volunteer Reserve.

In still another economy move, the War Office announced that draftees will not be called up for part-time training this year.

FILL 'ER UP — Successful first test of the new in-flight refueling system for extending the range of jet fighters is pictured above as two Navy F3H-2N Demons make contact during recent experiments near St. Louis, Mo. Developed by Beech Aircraft Corp., Wichita, for the McDonnell Aircraft Corp., the new system

enables a fast jet fighter to draw fuel from a similar type plane of comparable performance. Fuel is transferred to the receiving fighter through a flexible steel hose which pays out from a reel inside.

United Press Photo

Food From the Henhouse Still on Best Buy List

Where can the food shopper buy a pound of protein food for as little as 22 to 27 cents? Not in red meats, fish, or cheese, but plentiful supplies of high quality eggs are now offered at these attractive prices reports the Consumer Marketing Information Agent, Mrs. Josephine Lawry.

Whether the family choice is beef, pork, lamb, veal or poultry, this is a week when many stores are featuring some of these cuts. Checking food ads and other timely market information will guide the shopper to foods in good supply, of good quality, and that are priced accordingly.

EGGS & POULTRY—Prospects are for more poultry meat and eggs to be available in the first half of 1957, and already this is noticeable.

Large size grade A eggs are one of the most economical protein foods. A dozen of these eggs weighs two pounds and costs between 43 to 54 cents in most markets. The thrifty price tag, the high quality protein, and the few calories eggs contain are reasons why the wise shopper will add extra eggs to the market list.

What could be nicer than the old fashioned fragrance of a chicken stewing? This week shoppers will find light weight stewers, just right for the small size family, specially priced in some stores. Compare chicken parts with whole fryers. At current prices parts may give

more both from the standpoint of amount of meat bought, and the satisfaction each person can have in getting the piece he likes.

OTHER MEATS—Chuck roast is the attention-getter in the beef department. The blade cut is about 10 cents less per pound than the arm or English cut. Even though these cuts are called roasts, for best results they should always be

Civil Defense Course Postponed to Jan. 29

The refresher course in Civil Defense Rescue Training for 30 men of the Pontiac Parks and Recreation and Cemetery Depts. will be held Jan. 29 instead of Jan. 21, William Aho, rescue training director, announced today.

The change was necessitated because one Civil Defense instructor will be out of town Jan. 21, Aho said.

Stage Coach Returns

OKLAHOMA CITY (AP) — The old stage coach in the basement of the Historical building will be refurbished and placed on display many times during 1957 when Oklahoma celebrates its 50th anniversary of statehood. It was in use long before the run of 1889 and during the run as Oklahoma Territory was opened.

braised in a covered pan with liquid added.

Rib end and loin end pork roasts are good values for the freezer since pork supplies will become lighter and more expensive as the spring approaches.

Wholesalers report that lamb is slightly lower, and some retailers are featuring it. Shoppers can enjoy most cuts for a few cents less per pound this week.

Veal prices remain about the same as last week. The frozen veal rolls may be a wise choice. Leave the outside fat covering to keep the meat moist and flavorful while cooking.

FRUITS & VEGETABLES — Not many can pass the citrus counters without selecting from the orange and grapefruit supplies. Both are being sold by the pound and by the unit. Compared to other fruits, they are tops in economy. Besides they provide large amounts of Vitamin C which is needed each day.

For salads or snacks, Michigan Delicious apples are about 5 to 10

cents less per pound than the western Delicious apples. A four pound bag of Michigan Spy apples is enough for one 9-inch pie or about three cups of apple sauce. These will cost still less than the Delicious variety.

A heavy supply of broccoli is bringing cost reductions in some stores. Lettuce quality is better, and most of that being shipped from the Imperial valley in California is excellent.

Vine ripened tomatoes are a better value in flavor than those packed in 14-ounce tubes.

Most Irish potatoes range between 4½ to 8 cents a pound, depending upon the area grown and the size package being sold. Dry onions at 4 to 10 cents a pound are another vegetable to combine with other foods or to serve in creamed and scalloped dishes.

Canned vegetables, fruits and juices, and many frozen vegetables are among the featured items this week. Check the pantry and freezer before deciding which of these to include on the market list.

VISITATION DAY—The visitors to Pontiac High School from General Motors Truck & Coach Division yesterday took in the chemistry facilities at the school. From left to right: Dr. Dana P. Whitmer, superintendent of schools and host for the day, observes

along with Richard C. Woodhouse, general sales manager; Earl A. Maxwell, personnel director and Philip J. Monaghan, general manager, while student Marcia Galbraith shows them her chemistry manual. At right in Francis Staley, principal of Pontiac High.

Potter Proposes to Observe Five Monday Holidays

WASHINGTON (U)—There would be at least five long holiday weekends each year under legislation proposed today by Sen. Potter (R-Mich).

Under his bill New Year's day, Washington's birthday, Memorial day, Independence day and Veterans' day would be observed annually on the Monday nearest their calendar dates.

New Year's day now is celebrated on Jan. 1, Washington's birthday on Feb. 22, Memorial Day on May 30, Independence Day on

July 4 and Veterans' day on Nov. 11.

"Both business and labor have indicated support of this idea," Potter said. "Businessmen like an uninterrupted week because it makes for greater production. Workers approve the plan because it provides an opportunity for more complete relaxation."

Thanksgiving and Christmas Day would continue to be observed on the fourth Thursday of November and Dec. 25.

New Diphtheria Case

DETROIT (U)—Detroit recorded its eighth diphtheria case of 1937 Wednesday. The victim was a young woman living on the city's near East side. A 2-year-old boy living in the same house contracted the disease Monday.

Executives, Educators Exchange Ideas

A visit to Pontiac High School yesterday brought a free exchange of ideas on education between executives from General Motors Truck and Coach Co. and hosting educators.

The occasion was second in a series of Visitation Days between Industry and Education in Pontiac.

It was a day of visiting classroom sessions, interspersed with orientation, discussion and conference meetings for the visiting members of Pontiac industry.

The industrial visitors began their day with an orientation period at 10 a.m. under the supervi-

sion of Dr. Dana P. Whitmer, superintendent of schools.

Following the initial meeting, the visitors were divided into groups for classroom observation which included seeing classes in college preparatory program; the industrial vocational program and the business education program.

Lunch was an informal discussion period where visitors asked questions and offered ideas for improved study.

General topics covered in a conference period after lunch included such topics as teaching a student to want to work and contribute to organization; teaching a student to

accept responsibilities; creating desire in a student to apply resourcefulness to solving problems; and discussing opportunities schools offer to develop leadership potentiality in a student.

The two groups also touched on the testing programs in the schools, adult education, curriculum improvement and in-service education for teachers.

Besides Whitmer educators participating in the conference included Francis Staley, principal of Pontiac High; Dr. Russel Curtis, coordinator of secondary education; Richard C. Fell, director of

vocational and adult education; William J. Lacy, business education instructor; Vernell Duffy, coordinator of apprentice training; Raymond J. Graff, supervisor of trade; Mrs. Agnes Buckley, girls' counselor; Guy Bevington, social studies instructor; Mrs. Ralph Forman, also social studies instructor; Robert Beauchamp, English instructor; Edwin Heikkinen, mathematics teacher and Forrest E. Brown, science teacher.

Attending from General Motors Truck were P. G. Monaghan, general manager; C. V. Crockett, chief engineer; V. P. Blair, comptroller; R. C. Woodhouse, general sales manager; E. A. Maxwell, personnel director; and Elmer Rosenberg, director of education and training.

SPECIAL RELISHES—Easy-to-make relishes are at your finger tips with these recipes. If you are looking for something unusual to serve, make up a jar of Applesauce Catsup, Ginger Lemon Prunes, Herb Stuffed Olives or Crisp Pickle Spears. They'll take only minutes to prepare.

Here Are Some Relishes Easy to Make and Good

Have you been wishing you had something different to serve at a holiday party? Like some relishes, for instance? Stop wishing and start preparing, for here are the recipes.

All of these food ideas start with commercially glass packed foods but it is you who adds the special touch to make them new, exciting, and deliciously different.

Applesauce Catsup has a decided tang that is just the perfect accompaniment for roast pork or the holiday suckling pig. While for a flavory Burgundy Beef Stew, the Ginger Lemon Prunes add a note of piquancy.

Two other relishes, Herb-Stuffed Olives and Crisp Pickle Spears will

add real interest to the relish tray and are delightful with any meal.

Apple Catsup
1 (15 ounce) jar thick apple sauce
1/2 teaspoon powdered ginger
1/2 teaspoon powdered cinnamon
1/2 teaspoon dry mustard
Dash powdered cloves
Dash Tabasco sauce
1/2 teaspoon finely minced onion
2 tablespoons sugar
1/2 cup cider vinegar

Open jar of applesauce; save lid. Place applesauce in a saucepan. Add the remaining ingredients to applesauce and mix well. Cook gently over low heat for 10 minutes, stirring occasionally. Spoon back into jar. Replace cap tightly and store in refrigerator until ready to use.

Ginger Lemon Prunes
1 (1 pound 1 ounce) jar stewed prunes
1 small lemon
1/2 cup brown sugar
1/2 cup white vinegar
1/2 teaspoon powdered ginger

Open jar prunes; drain and save syrup. Cut lemon into thin slices. Mix lemon slices, prune syrup, vinegar, powdered ginger, sugar, and allspice together in saucepan. Bring mixture to a boil. Reduce the heat and cook gently for 5 minutes. Meanwhile, cut candied ginger into small pieces and add to prunes.

Remove cooked mixture from heat. Discard allspice and lemon slices. Pour spiced liquid over prunes and candied ginger. Recap jar. Cool. Then store in refrigerator until ready to use.

Herb Olives
1 (15 ounce) jar stuffed olives
1/2 cup olive oil
1/2 teaspoon oregano
1/2 teaspoon tarragon
1/2 teaspoon ground dill
1 tablespoon chopped onion

Remove cap from jar. Pour 1/2 cup brine off olives. Mix the olive oil, oregano, tarragon, dill, and onion together. Add to olives in jar. Recap jar tightly and shake.

well. Let stand in refrigerator to season for several days before using.

Crisp Pickle Spears
1 (15 ounce) jar sweet pickles
1/2 cup sugar
1/2 teaspoon mustard or celery seeds

Drain juice from pickles. Remove pickles from jar and cut lengthwise into sixths. Return half the pickles to jar. Sprinkle with half the sugar and seeds. Add remaining pickles. Sprinkle with remaining sugar and seeds. Replace cap tightly. Store in refrigerator for 5 days, turning upside down every other day. Pickles will be crisp and delicious.

Soup Is Fine Pick-Up

Good for the youngsters when they come home from school, good for you when energies and spirits lag in the middle of a busy morning or afternoon—a soup break. It takes but a minute to heat a cup of steaming, savory beef broth and flavor it with a dash of cinnamon or Worcestershire or lemon juice for added tanginess. A perfect pick-me-up!

Dessert to Win Cheers

For a dessert that will win loud cheers from the juniors simply do this: Stir a little peanut butter, bristly into canned apple sauce, sprinkle chopped peanuts on top and serve with cream. In fact, even grownups will go for this dish.

Hawaiian Touch for Ham Cones

When the choice large slices of ham have been served, the tender, tasty, meat near the bone is wonderful for croquettes.

Add a Hawaiian touch with a slice of delicious pineapple baked with the croquette in an individual foil cup. These cones may be frozen, then used as needed.

Ham Cones, Hawaiian
3 cups ground cooked ham
1/2 cup ground onion
1/2 cup chopped parsley
1/2 cup dry mustard
1/2 cup brown sugar
1/2 cup pineapple syrup
1 egg, slightly beaten
1/2 cup crushed cornflakes
10 drained pineapple slices (1 No. 3 can)

Combine ham, onion, parsley, mustard, sugar, syrup, egg; mix well. Shape into 10 cone-shaped patties; roll in crushed cornflakes. Place on baking sheet; quick-freeze for 1 hour; wrap each cone in heavy-duty aluminum foil; freeze.

When ready to use, unwrap cones; place a drained pineapple slice on foil under each ham cone; bring edges of foil up around side of pineapple slice to form cup. Place on baking sheet; bake 45 minutes in moderately hot oven 375 degrees. Serve in foil cups. Yield: 10 servings.

Like cooked dried fruit? Then, for handy disposal of kitchen quilted type. After fat congeals, try teaming apricots, figs and pears in a compote. heavy duty foil, such as the new Or store in foil for future use.

Lunch Consultant's Job Unique

By JANET ODELL
Pontiac Press Home Editor

Oakland county schools are leading the way again. At the present writing this is the only county in the United States to have a full-time school lunch consultant and nutritionist on the county school staff.

Mary Slater, a native of neighboring Indiana, has been on the job since late August. She is pioneering in the field and occasionally

finds the going a little less than smooth—there's no one with whom she can compare notes. She must work out all problems by herself.

Some southern states have county supervisors who do centralized planning and buying; but nowhere is there a home economist doing just a consulting job.

There are about 10,000 children in the county's schools. Thirty-one

of the thirty-two districts have school lunch programs. It is the aim of Miss Slater, the school superintendent and the cafeteria personnel to provide the best possible hot lunches for the children at the most reasonable cost.

School lunch programs, Miss Slater thinks, should be teaching devices. They can embrace all phases of school work and can teach a number of things, especially in the elementary grades.

They can teach responsible handling of money, citizenship, social graces and good eating habits. The cafeteria should not be just a catering service.

Working with a steering committee composed of county school administrators and school lunch people, Miss Slater is planning and working out a program designed to benefit the entire county. There is already a yearly countywide workshop at which a state or national figure in the nutritional or food field speaks.

In the future Miss Slater hopes to set up a training instruction program of six to eight weeks duration. It will be slanted towards the needs of managers, cooks and administrators. In the meantime, she does individual consulting wherever needed.

Another aspect of her job is helping principals and teachers with nutritional education programs. Cooperating with the public health department, she furnishes material for such programs.

Since schools with hot lunch programs get certain foods from the United States government, Miss Slater works with managers and cooks, suggesting ways they can make best use of these surplus foods.

Since September some of the foods received and used by schools have been meats, cheese, eggs, dry milk, flour, cornmeal, peaches, green beans, turkey, oil butter and shortening.

A resource file is being started with material on all aspects of quantity food service and nutrition education. This will be kept at the county Board of Education office and will be available to anyone who needs it. A statistical and financial survey designed to show where improvement can be made is in the offing.

Like all businesses, the school lunch program is a seasonal one. Many factors affect the number of children served. Inclement weather always means more children staying for hot lunch. The layoffs last fall were reflected in fewer children's buying their lunches. Christmas and spring always mean a drop off in attendance. Each lunch room manager must be able to cope

with these situations and run her cafeteria efficiently.

"Our biggest competition," Miss Slater confessed, "is the little hamburger joint across the street from the school." It is difficult for some children to pass up eating at such places, even though their school hot lunch is designed to give them maximum nutrition at minimum price.

Only one school in the county is a hold-out in selling soft drinks in the lunch room. Most of the schools have gotten rid of them for not being consistent with the facts of good nutrition.

Parents of Oakland county's children can be glad they live in an area where their children's food at school receives such attention. With the hundreds of dedicated women running the cafeterias and with a person like Mary Slater to guide them, the program is bound to become even better than it has been.

Values Reflect Big Corn Crop

It's a case of good judgment, when you buy canned sweet corn by the case. You may find your favorite food store offering some mighty attractive values in case lots of 24, or in smaller units of two, three or a half dozen cans.

The prices for many brands are so low that you probably will find canned corn is one of the most economical vegetables you can serve your family this winter.

The Department of agriculture says we can thank the canning companies, the farmers who grew the corn, and the weather man for the good values in sweet corn.

More acres were planted to the best varieties, and rain came at the right times to Wisconsin, Minnesota and the other areas that produce most of our sweet corn.

BIGGEST CROP EVER
It all combined to produce a

much bigger crop of sweet corn than we've ever had, with the result that the canners' warehouses are bulging at the seams with cases of sweet corn.

With so much sweet corn on hand, the canners have cut their prices and the savings are being passed on to you at your retail store. You'll probably find your favorite brand of sweet corn considerably cheaper than it has been for several years, with special inducements to buy in case lots.

Suppose you do stock up your family larder with an extra supply of canned corn, either whole kernel or cream style. How will you use it?

There are dozens of interesting ways to serve corn, at any meal of the day. For example, try it at breakfast, by adding a little whole kernel corn to waffle batter.

You'll find that the crunchiness corn gives to waffles makes them more interesting, and the flavor is something every member of the family will enjoy.

For dinner, serve Indian Cole

slaw: To shredded cabbage, add chopped onion, green pepper and pimiento. Season with salt, pepper drained whole kernel corn.

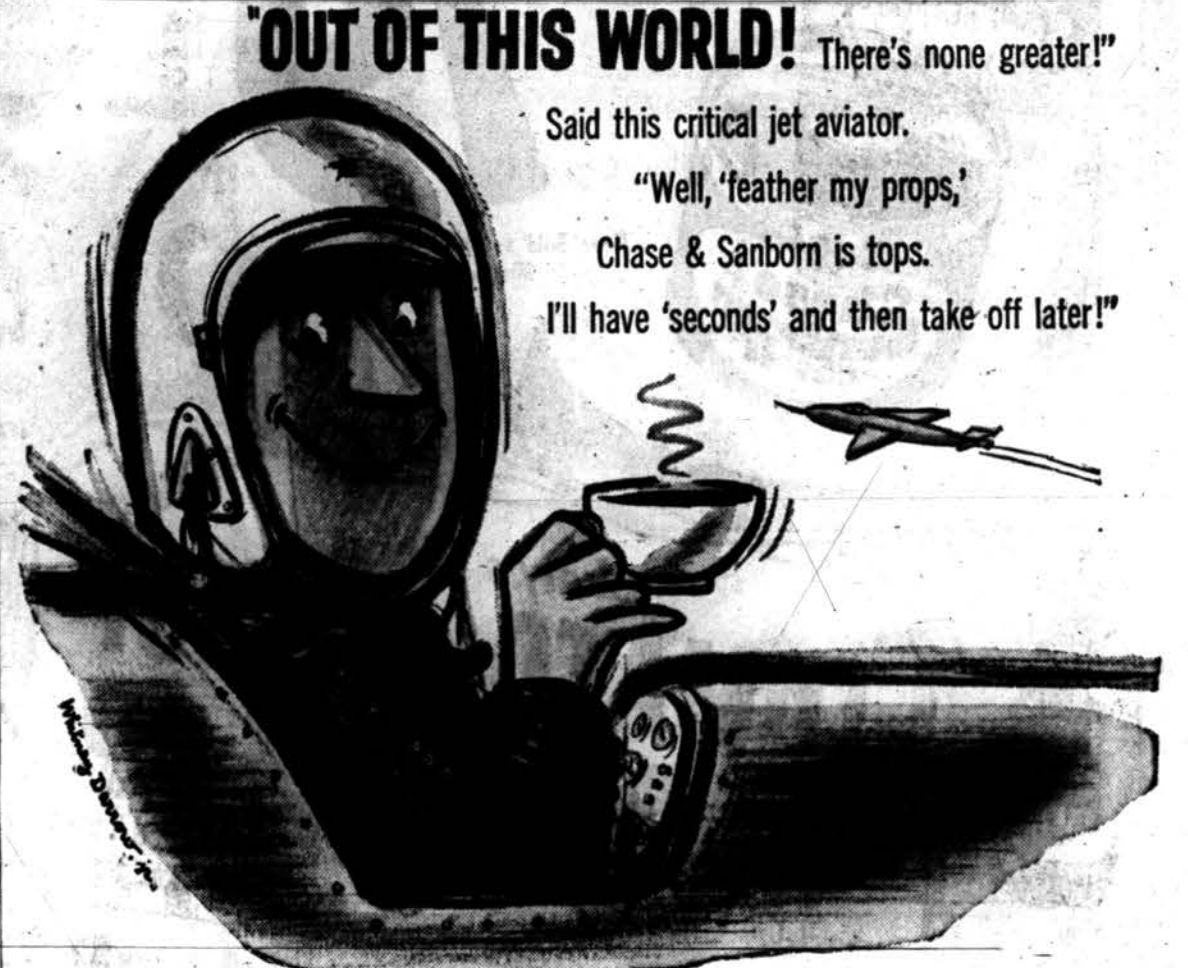

Use Chocolate Milk as Base for Punch

Chocolate milk can be used as the base for a punch. This one has a ring of frozen rum-flavored ice cream in the punch bowl.

Festive Chocolate Milk Punch
1 pint vanilla ice cream, softened
1/2 teaspoon rum extract
1/4 cup maple syrup
1 quart bottled or carbonated chocolate milk

Combine ice cream and 1/4 teaspoon rum extract; blend. Turn into 8-inch ring mold or 6 individual molds and pack firmly; freeze until firm. Unmold and arrange in punch bowl.

Combine remaining 1/2 teaspoon rum extract, maple syrup and chocolate milk; mix well and pour into punch bowl. Garnish as desired. Serves 10-12.

Plan a Roast, Buy Eggs, Both Are Good Values

Let's go to market with a shopping list. Shopping will be quicker, and the money spent will buy more with pre-planning before the week's trek to the grocery. Pork, beef, poultry, eggs, citrus, broccoli, potatoes and carrots are among the choice selections at this time, reports the Consumer Marketing Information Agent, Mrs. Josephine Sawyer.

MEATS—Satisfy winter appetites by choosing the variety of meat cuts at reasonable cost.

Many pork cuts could be considered a wise investment to store in the freezer until later when pork will be higher. Among the thriftest is pork loin. This week there is a slight reduction in smoked ham prices. Smoked picnic shoulders are attractively tagged.

Beef prices have taken a fractional drop. Among the best buys, are roasts. Beef roasts vary in cost according to the cut and grade. The blade chuck is perfect for a pot roast if economy is the key-word; the round steak is especially marked for swissing; and standing rib roasts are tempting for more elegant eating.

There is little change in poultry on the wholesale market, but some retailers are featuring turkeys and ducks. These may be smart selec-

tions for the family with freezer space available.

Lamb shoulder chops or roast, veal roasts from the leg, rump, or sirloin, and the frozen veal rolls are cuts the shopper may wish to check.

EGGS—Eggs are an important protein food. Two large size eggs will substitute for a serving of meat. Egg supplies are abundant and quality is mostly Grade A or excellent. Since eggs can be served at any meal, and because they combine so well with many other foods, they are a favorite for the market list. In addition to the one recommended each day, why not include several extra eggs for each member of the family this week?

FRUITS & VEGETABLES—Freezing weather in the southern states has had a real effect on vegetable quality and price, but supplies are now getting back to normal. Mid-winter appetites will welcome colorful supplies of broccoli and carrots shipped from other states.

Potatoes at 4 to 7 cents a pound are one of the best values in vegetables. One potato gives much more than energy. Among other nutrients it gives one-third of the day's need of Vitamin C.

Heavy supplies of Navy beans and rice keep those vegetables at

the head of the economy list. Winter weather is a natural time for steaming dishes of baked beans and the many combinations made from rice using meat, fish, or vegetables.

Most citrus fruits are of very high quality. Medium sized Florida oranges and grapefruit are the thrifty buy. No other fresh fruit in the market compares in price with grapefruit at 8 to 10 cents a pound. Medium sized Temple oranges are slightly higher than last season, yet most retailers consider them a good value.

CANNED FOODS—The new processing season for citrus juice is one reason for the specials now found in canned and frozen juices. If there is extra pantry space, this may be the time to stock.

Besides juices, canned peaches, corn, peas, beans and tuna are other items to check for storage.

Swiss Steak (Ranch Style)
2 pounds steak, cut 1/2 inch thick
1 tablespoon fat
1/2 cup flour
1/2 teaspoon salt
1/2 teaspoon pepper
1 teaspoon paprika
1/2 teaspoon onion salt
garlic clove, cut fine
medium onion, sliced
cup water

Cut steak in six pieces. Pound flour into steak with a meat hammer or edge of heavy saucer. Pan-fry in hot fat in skillet.

Place meat in casserole or Dutch oven. Add seasonings and water. Cover, and bake in moderate oven (350 degrees F.) about 2 hours. Add more water (about 1 cup) if liquid becomes too thick. This makes a rich brown gravy to serve over rice or potatoes. Serves 6.

Jam Supply Dwindling? Here's Perfect Answer

If the jelly and preserve supply is getting low, here is a remedy—Pineapple and Strawberry Jam, made with canned crushed pineapple and frozen berries.

Heat together in a large saucepan 1 can (No. 2) crushed pineapple, 1 package (10-oz.) frozen strawberries, 2 tablespoons lemon juice and 5 cups sugar. Bring to a full rolling boil; cook, stirring for one minute.

Remove from heat and stir in 1/4 cup of bottled liquid pectin. Skim and stir for 5 minutes. Pour into 12 sterilized 4-oz. glasses. Seal.

Cook at Low Heat.

Lamb should be cooked at a low temperature. Low temperature helps cut down the cooking losses. In addition, lamb is more juicy and more tender when cooked at a low temperature.

Cheese Bread Fine for Buffet

Platters of meat, lettuce, relishes, bread and butter are set on the table. And of course guests make their own sandwiches.

New this year for the sandwich table is a cheese bread, even-textured and delicious, yet made with fast from biscuit mix. (Only four ingredients are stirred together and baked.) The cheesy flavor is baked right into the bread. You'll find cheese bread topped with turkey gives a sandwich de luxe.

The cheese bread recipe is one of 137 given in a new recipe booklet devoted to uses of biscuit mix. There are a myriad of ideas for easy, inexpensive main dishes, snacks and breads made with biscuit mix as a base.

Cheese Bread

1 egg beaten
1 1/2 cups milk
2/3 cup biscuit mix
1/2 cup grated sharp cheese

Blend all together. Beat 30 seconds, until well blended. Pour into well greased waxed paper-lined 8x5x2 1/2 loaf pan. Bake 1 hour at 350 degrees. When serving cold, slice thin.

CHEESE BREAD — Buffet suppers and late evening refreshments call for simple food. Sandwiches are always in order. To the variety of

breads you always serve add Cheese Bread, made with biscuit mix and sharp cheese. It's wonderful with cold meats.

Corned Beef Can Be Used in Many Delicious Ways

By JANET ODELL

Pontiac Press Home Editor

Last week a reader in Wixom wrote me asking for some corned beef recipes. This article is an answer to her letter.

Originally, my office cookbook says, "corned beef was preserved by dry salting—embedded or sprinkled with 'corns of salt' (coarse). But as brining took the place of salting, the term still held, and we say 'corned' beef instead of brined or pickled beef."

Nowadays you may buy corned beef already cooked in cans, or you may cook it yourself. Our favorite grocery store carries it wrapped in a heavy plastic film that is left on during the cooking process. I follow directions on the package.

If you still have a butcher who corns his own beef, the cooking process is a bit different. Soak the meat in cold water for an hour. Place in a kettle, cover with cold water and add one teaspoon of vinegar for each quart of water. You may also add a carrot and an onion. Simmer gently until tender, allowing 20-30 minutes a pound. New England is the home of the boiled dinner. From a cook-

book I bought in Massachusetts last summer this recipe comes:

Cape Ann Boiled Dinner

Place a 5 or 6 pound corned brisket of beef in a large kettle, cover with cold water, bring to a boil and drain the water. Then cover the meat with boiling water, reduce the heat and let it simmer gently for 3-5 hours, or until nearly tender.

Cool and skim off excess fat. Then add the following vegetables: one medium-sized yellow turnip pared and quartered, 6 small parsnips peeled, 6 small carrots scraped, 8 small onions and 6 medium sized peeled potatoes. Boil uncovered about 20 minutes, then add 1 medium-sized cabbage cut in quarters and cored. Cook until cabbage is soft.

Place meat in center of a large platter and flank it with the vegetables. You ought to have 6 beets that have been cooked separately and buttered. Call in a large and hungry family to sit down and eat heartily.

If there is any meat left after the above dinner, use it to make this good sandwich filling.

1/2 pound corned beef
1 tablespoon sweet pickle relish

2 hard cooked eggs, chopped
1/4 cup rich milk
1 tablespoon lemon juice
1/2 teaspoon salt
Pepper

Mix all ingredients together. This makes enough for 8 sandwiches.

Another recipe using cooked corned beef is this one for a meat loaf.

Corned Beef Loaf

4 crackers, crushed
1 1/2 pounds cooked corned beef, ground
1 egg, slightly beaten
1/2 cup water
Pepper
1/2 teaspoon sage
1 onion, minced

Mix crackers and corned beef. Add rest of ingredients and mix thoroughly. Place in greased loaf pan. Bake 45-60 minutes in a 350-degree oven. Serve hot or cold. Serves 6.

A quick dinner casserole using canned corned beef is the following one.

Corned Beef and Corn

Chop two medium onions and fry in 2 tablespoons hot fat. Add a 12-ounce can of corned beef, cut small and a No. 2 can of cream style corn. Stir to mix. Heat and serve. Serves 4-6.

Have you ever thought of baking corned beef? After simmering it

until tender, place it on a roaster rack. Rub the surface with a cup of brown sugar and place whole cloves in a diagonal pattern on the meat. Bake in a 325-degree oven until brown.

I hope these recipes help you, reader from Wixom.

Bake Party Meat Loaf in 'Surprise' Package

One more way to make a meat loaf partied is to pack the meat mixture into a hollowed-out loaf of French bread. Bake it and bring the whole loaf to the table to be sliced. Evaporated milk is a fine moistener for meat loaf. MSG, of course, builds up the good beef flavor in the loaf as well as in the gravy, served separately.

Easy Main Dish

Mix chopped canned Vienna sausages with hot cooked rice. Stir a little hot milk into process cheese spread and combine with the rice and sausages. Place in well greased individual baking dishes and broil about 6 minutes, until bubbly and browned. Serve garnished with parsley.

Pass Mug of Hot Soup to 'Drop-In' Guests

The convivial custom of "dropping by" after church is on the increase — and a more commendable way of socializing is hard to imagine. Hot Buttered Soup makes

an ideal beverage to serve to Sunday visitors. It quickly warms them when they come in from inclement weather and serves as a first course for midday dinner as well.

Offer a "drinking" soup, such as tomato, consomme or beef golden, do wonders for cooked

in each cup or mug. And pass toast strips, pretzels or cheese sticks as crunchy texture contrasts.

Thin strips of onion, cooked gently in butter until they are golden, do wonders for cooked snap or wax beans.

Muffins 'Plum' Good

Add canned purple plums to bran muffins for an extra fruity flavor. Drain and pit the plums and mix with muffin batter made from your favorite bran muffin mix. Bake as directed on the package.

Serve Goulash Either as Stew or as Soup

CHICAGO (INS)—In Hungary, goulash can be a soup as well as a stew.

In fact, say Ruth and Richard Rosen, goulash is served over there just as often as a soup. The Rosens have a joint career of compiling recipes from around the world and then adapting them to ingredients available in the United States.

Women who try goulash as a soup on their families will find it just as hearty, but not so rich, as the stew. It is definitely a stick-to-the-ribs dish.

To make the goulash soup, combine: Six thinly sliced onions, six

tablespoons butter, two pounds cubed beef, two chopped tomatoes, two red or green pimentos, salt and pepper to taste, two tablespoons paprika. Cook over low flame 45 minutes. Add 1½ quarts of hot water a little at a time. Cover and simmer 1½ hours.

Add four small (raw) potatoes, cut in pieces and simmer another 20 minutes. Add two smoked sausages, cut in pieces, and simmer 10 minutes longer. Serve in warm soup bowls with the meat and sausage.

Add Flavorful Dash

When packing crisp, cold, carrot sticks, cauliflowerettes, and similar vegetable bits, give them a shake of MSG before closing the sandwich bag, waxed paper or foil, and putting into the lunch box.

Fillet Baked With Crispy Cereal Coating

The next time you're planning to have fish for dinner, try this interesting new recipe for Crisp Baked Fish that's simple to prepare and will provide a flavorful taste treat for the whole family.

To make it, fish fillets are cut into serving pieces, dipped in milk and crushed oven-toasted rice cereal, and then baked in a very hot oven for about 15 minutes until the fish is tender and the coating is crisp and golden brown. If you wish, frozen fish may be

used—and for a richer coating use undiluted evaporated milk.

Crisp Baked Fish
1 pound fish fillets
¾ cup oven-toasted rice cereal
¼ cup milk
1 teaspoon salt
4 teaspoons salad oil
Cut fish into serving pieces, allowing about ¼ pound for each serving. Crush rice cereal into fine crumbs. Combine milk and salt. Dip fish in milk, then in rice cereal crumbs.

Arrange on well-oiled baking sheet or shallow pan.

Sprinkle oil over fish. Bake in extremely hot oven (500 degrees F) about 15 minutes. Serve immediately with slice of lemon or tartar sauce.

New 'Headpiece' Can Dress Up Your Potatoes

Even mashed potatoes can be made interesting to your family if you put your imagination to work on them. Home economists of the U. S. Department of Agriculture say it's something like the woman who gets tired of what she sees in the mirror, so she goes out and gets a new hat.

In the same way, if you want to make mashed potatoes more interesting, put a new hat on them: Top them with something. The topping doesn't have to be costly or exotic; just something to change the looks and taste.

A very simple "new hat" for

mashed potatoes is grated cheese, either the prepared kind commonly used on spaghetti, or American cheese which you grate yourself. Once in a while, put a topping of creamed tuna on your mashed potatoes. Or, select another common food, one which the Department of Agriculture classifies as "plentiful" in January: Eggs. Top each serving of mashed potatoes with a poached egg. Or fry sausage, either link or patty, and top each serving of potatoes with sausage.

Those suggestions from the Department of Agriculture happen to deal with mashed potatoes, but the USDA home economists say you can work similar tricks to add new interest to potatoes prepared in almost any way.

Mushrooms Add New Flavor to Vegetables

Having a lot of people? This vegetable dish will be ample.

Vegetable Medley
2 packages (10 ounces each) frozen green peas
1 cup boiling water
Milk
3 tablespoons butter or margarine
½ pound mushrooms (sliced thin with caps and stems together)
4 tablespoons butter or margarine
2 jars (1 pound each) small boiled onions (drained)
Salt
Pepper

Cook peas according to package directions in 1 cup boiling water; drain. Add enough milk to the cooking liquid from the peas to make 3 cups; reserve.

Melt 3 tablespoons butter in 9 or 10-inch skillet; add mushrooms; cook quickly, stirring often until mushrooms are wilted.

In a large saucepan, melt the 4 tablespoons butter over low heat; stir in flour. Remove from heat.

Gradually add combined pea liquid and milk, stirring until smooth after each addition. Cook and stir constantly over moderately low heat until thickened and bubbly. Mix sauce with drained peas, cooked mushrooms and drained onions. Add salt and pepper to taste. Reheat. Makes 12 to 16 servings.

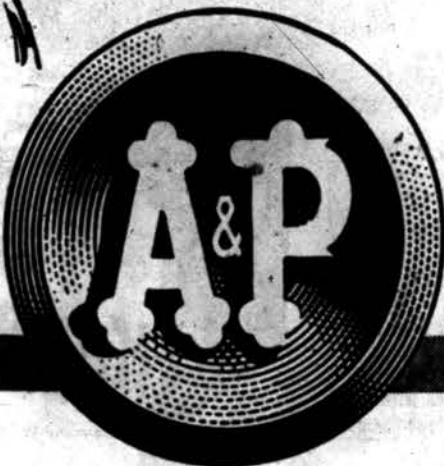

A fruit pie should be covered and kept at room temperature; before serving the pie may be heated in the oven.

Extra-Special Spice Cake Has Unusual New Topping

For those of you who get nostalgic for the days (not too long ago) when you made a cake from scratch, here's a recipe to revive fond memories.

All sorts of good things go into this luscious cake—fragrant spices, plump raisins, applesauce and last but not least, dark and tangy real New Orleans molasses.

When the cake comes from the oven—beautifully light and fine-textured—you have a sense of satisfaction that comes only with the knowledge that you did it all yourself! And for many of you, this more than compensates for the small amount of extra time spent in preparation.

When you top this extra-special cake with new and luscious Orange Molasses Frosting, the combination is an unbeatable one. Serve it to the family and watch the smiles of appreciation. Serve it for afternoon tea or a bridge party and be prepared for requests for the recipe by admiring friends!

Molasses Applesauce Cake
1 cup sifted cake flour
1/2 cup salt
1/2 cup baking soda
1/2 cup cinnamon
1/2 cup nutmeg
1/2 cup cloves
1/2 cup shortening
2 eggs
1 cup real New Orleans molasses

1 cup thick strained applesauce (or canned applesauce)
1/2 cup vanilla
1/2 cup raisins
Heat oven to 350 degrees. Sift together flour, salt, baking soda and spices. Cream shortening; add sugar and beat until light. Stir in eggs, one at a time. Combine molasses, applesauce and vanilla; add alternately with dry ingredients, mixing just enough to blend. Add raisins by combining with last portion of flour mixture. DO NOT OVERBEAT. Pour batter into two greased and floured 8-inch cake pans. Bake about 30 minutes, or until cake tests done.

You'll agree that this frosting is the perfect complement for the cake, with its delicate blend of orange juice and real New Orleans molasses.

Orange Molasses Frosting
1/2 cup butter
2 cups sifted confectioners' sugar
1/2 teaspoon salt
3 tablespoons real New Orleans molasses
1 tablespoon orange juice
2 teaspoons grated orange rind
Cream butter until soft. Gradually stir in one cup confectioners' sugar and salt. Blend in molasses, orange juice and grated rind. Add remaining sugar gradually until frosting is proper consistency for spreading.

CORN AU GRATIN — Here is one of those lucky combinations that ends up as a main course that is extra special. A nest of corned beef hash is filled with canned corn, subtly seasoned and sauced. The final touch is a sprinkling of grated cheese to melt over the top as it is baked.

Bumper Supply of Corn Means Variety of Dishes

Why is this year's bumper crop of sweet corn such an important event in the culinary world? Twenty-one times a week — 630 times a month—most housewives step into their kitchens to turn out meals for their families.

Small wonder that most women are constantly on the look-out for the best food at the lowest prices. The abundant supply of canned corn, so especially fine in quality, means that pantry shelves everywhere can be stocked with this favorite of vegetables.

Corn is among the more adaptable of canned foods since it may appear in appetizing ways at any of those 600 and more meals a month. It offers colorful appeal not only as a deliciously seasoned and buttered vegetable at dinner but in dressing for poultry and rolled roasts as well.

Luncheon finds canned corn in a hundred and one different casserole combinations, for it enhances many things, from seafoods to macaroni and souffles.

Corn au Gratin in Hash Nest is a popular example of an easy family casserole. Corn is welcome at the breakfast table, too, where it may join with fried

dried beef and scrambled eggs or appear in pancakes or muffins. Between times, you'll find it in soups and chowders.

Whole kernel and cream style corn are equally popular. Most cream style corn is packed in the 16 or 17 ounce size can, while 48 per cent of the whole kernel goes into the 12 ounce and 36 per cent in the 16 or 17 ounce size. Lesser amounts go into the 8 ounce and the No. 10 institutional sizes.

Corn au Gratin in Hash Nest
1 can (1 lb.) corned beef hash
1 can (12 or 16 oz.) whole kernel corn
1 can condensed cream of chicken soup
1 tablespoon chopped onion
1/2 cup grated cheese
Press corned beef hash into a buttered shallow baking dish to form a nest. Combine corn, soup, onion and parsley; pour into nest. Top with cheese. Bake in a moderate oven (350 degrees) about 30 minutes. Six servings.

Whip Strained Foods
Use strained or junior baby food prunes in a whip. A container of baby food that is 4 1/2 ounces will yield 1/2 cup, one that is 6 1/2 ounces yields 3/4 cup and one that is 8 ounces yields 1 cup less 2 tablespoons.

Morning Grouch Sure to Cheer This Breakfast

Worth getting up for!

Mandarin Bananas

For this have a can of Mandarin oranges thoroughly chilled. Just before serving, peel and flute a banana by drawing the sharp tines of a fork down the fruit; cut into thin crosswise diagonal slices. Add banana to orange sections and syrup.

Sugar and Spice Waffles

2 cups pancake mix
2 cups milk
2 eggs
1/2 cup butter or margarine (melted)
1/2 cup chopped pecans or walnuts
2 tablespoons butter (melted)
1/2 cup dark brown sugar (firmly packed)
2 teaspoons cinnamon
Put mix, milk, eggs and 1/2 cup melted butter in a mixing bowl. Beat with rotary beater (hand or electric) until fairly smooth; lightly stir in chopped nuts. Bake on hot waffle iron until steaming stops.

Drizzle the 2 tablespoons melted butter over the waffles; mix to gether the brown sugar and cinnamon; sprinkle over waffles. Makes 5 servings.

Fry Salmon Patties to Golden Brown

Like Grandma used to make!

Salmon Patties

1 can (about 8 ounces) salmon
1 small onion (finely grated)
1/2 cup fine dry bread crumbs
Pepper
1 egg
2 tablespoons butter or margarine

Turn salmon, including liquid in can, into a mixing bowl; remove any large bones; flake with a fork.

Mix in grated onion (pulp and juice), 1/2 cup of the bread crumbs and pepper to taste. Beat egg until thick and lemon colored; fold into the salmon mixture. Shape into 8 small patties; roll in remaining bread crumbs.

Fry patties in butter in skillet (about 9 inches), using low heat and browning on both sides. Makes 3 servings.

Eat Protein Foods

If the diet is lacking in protein the body will have to use some of its own tissues as a source of the materials necessary for daily upkeep and repair. Meat, poultry, fish, eggs, cheese and milk are all excellent protein foods.

Township Fire Loss Hits 16-Year Low

COMMERCE TOWNSHIP — Total fire loss in the area served by the Commerce Township fire department hit a 16-year low during 1936, amounting to only \$30,275.

The outstanding record was compiled in the face of a steady population growth which has been taking place in the area. Normally, total fire loss reaches

about \$75,000 in a 12-month period in Commerce Township.

Fire Chief Ray Price attributed the sharp decrease to two factors: no delay when citizens reported fires and no delay in answering calls. "Four or five minutes lost in case of a fire can make a tremendous difference," Chief Price pointed out.

Altogether, the township fire department made 173 runs last year to protect property that had a total value of \$264,650; dwellings worth \$180,750 and household contents

worth \$83,900. Total loss to homes and contents came to \$13,175 in Walled Lake city district and \$17,100 in the remaining portion of the township.

SLIGHTLY OVERSIZE—Three-year-old Bill Winters of Hershey, Pa., is trying to get a good grip on this huge carrot. He is preparing to sample the healthy vegetable while visiting a display at the Pennsylvania Farm Show.

Your PTA Is Planning:

Fluorine at W. Bloomfield; Travel Film at Davisburg

WEST BLOOMFIELD — Applications for fluorine treatments have gone home to parents with children in the second, fifth and eighth grades in the school district.

The PTA of the various schools will sponsor the program in cooperation with the school, the Oakland County Health Department and the State Department of Health.

Huston Reads Eulogy at Rites for Bogart

BEVERLY HILLS, Calif. — Friends of Humphrey Bogart, the unconventional actor, are saying "So long, Bogie," but in the conventional, respectful way at the funeral services today.

A brief service at All Saints Episcopal church will be conducted by the Rev. Kermit Castellano, associate rector.

The eulogy has been written and will be read by Bogart's friend and director, John Huston. Cremation will follow, the ashes to be placed in a crypt at Forest Lawn Memorial Park in nearby Glendale.

Spend 4 Hours Week Scanning Skies

Seasoned Skywatchers at Romeo 13

By LEE WINBORN
Romeo Correspondent

ROMEO — Deserving of the town's gratitude and rightfully proud of their continuous service to the community are two local sky-watchers, Junior grade—Stu Card and Jim Phillips.

Saturday is the day most boys sleep in an hour or two after a hard week at school, but such is not the case with these two 13-year-olds. They rise even earlier than usual—in fact, around 5:30 a.m.—to get ready to go on duty at 6. They are members of Romeo's Ground Observer Corps.

For the past 11 months Stu and Jim have stood four-hour watches at the local tower every Saturday morning. If something particular, like basketball practice, is scheduled, their shifts occasionally may be cut down to two hours. The only weekly tours of duty they have missed have been when they have accompanied their families on a vacation.

ROMEO SKYWATCHERS — On duty every Saturday morning, even before dawn, are two GOC members. They are Stu Card, left, and Jim Phillips, who regularly scan the skies for possible impending disaster. Both 13-year-olds are seventh graders at the Crowell street school.

Young Card's pal and GOC partner, Jim Phillips, is a son of Mr. and Mrs. William Phillips, 146 S. Fremont St. A Boy Scout, too, Jim became interested in manning the tower when his older sister, Arlene, and teacher, Mrs. Owen Bishop, went to bat for him and his friend. They felt the two boys were trustworthy and mature enough to accept the responsibility of standing watches at the local post and serving Romeo's citizens.

Immunization Drive for \$12,750 at Commerce Church

Jan. 24 at Orion
For Carpenter, Proper, Blanch Sims, St. Joseph and Webber Students

LAKE ORION—An Immunization Clinic for Blanch Sims, Carpenter, Webber, Proper and St. Joseph students in the Kindergarten through the fifth grades will be held at the Blanch Sims School in Lake Orion on Jan. 24. The program is also available to preschoolers whose parents will bring them to the school between 9 and 11 a.m. Thursday morning.

Dr. John Monroe of the Oakland County Health Dept. will be the director and two doctors will assist him.

Transportation for all school children will be arranged by the administration.

Available are original immunization for diphtheria and tetanus; boosters for the same; original vaccinations; re-vaccinations, recommended every five years; and polio vaccine.

Mrs. Robert Sheardy, health chairman of the Blanch Sims PTA, is arranging for volunteer helpers in the entire area.

Any parents of the outlying areas wishing further information may call Clinton Galbraith, principal of the outlying schools at FE 2-5423.

Commerce Township — The Commerce Methodist Church Building Fund Committee is launching an all-out drive to raise \$12,750 through the sale of debentures. The money will be used to complete the financing of the first unit of the new church.

With the City Bank of Detroit acting as official registrar, the debentures are being sold by various church members under the direction of Leslie Thomas, building chairman.

W. Bloomfield Ups Deadline

Pay Taxes Sans Penalty Until Feb. 28; Highway Confab Held

KEEGO HARBOR — A motion to extend the deadline for payment of property taxes, without penalty, until Feb. 28, has been passed by the city council here.

Tax returns are coming in slowly, according to Eileen VanHorn, city clerk.

A joint session recently was held with officials of the Village of Orchard Lake, Sylvan Lake City and Keego Harbor were present.

A representative of the Michigan State Highway Department was on hand to discuss the widening of Orchard Lake road.

The highway is to be altered in all three areas and property owners are concerned about the effect it will have on their communities. The state spokesman said that all three municipalities must agree on the proposed plans before anything is definitely done.

Style Steppers Plan 'Presidents Ball'

AVON TOWNSHIP—Stiles Steppers Square Dance Club is holding its President's Ball Saturday evening at the Avondale Community Hall on Auburn near Crooks road.

Guests will be presidents of all other Square Dance Clubs.

Fire Destroys Spikehorn's Shop at Houghton Lake

HARRISON — Fire destroyed John E. (Spikehorn) Meyers' curio shop and three adjoining log cabins yesterday.

The 84-year-old colorful Houghton Lake tourist area character was carried to safety.

Meyers has been badly crippled since he fell and broke a hip two years ago. He was lying in his room when the fire broke out.

James R. Darling, Clare County sheriff, said one bear was missing from Spikehorn's zoo which included 10 bears and several deer and monkeys.

Darling said damage would run about \$30,000.

The shop and zoo were located two miles south of Harrison on US27 and M61.

Seek Tighter Control on TB Hospitalization

LANSING — A joint committee seeking a strengthened state tuberculosis control law has given up on getting a complete rewrite of the statute and decided to try instead to amend it.

At a meeting yesterday, the committee set up a panel of three physicians to prepare suggested amendments for presentation to the legislature.

They were instructed to propose rewrites of sections of the law dealing with examination of persons suspected of having tuberculosis, commitment of unwilling patients by court order and retention of unwilling patients in a security hospital.

The committee reasserted its belief that a security unit for unwilling patients also is essential. Conversion of the Northern Michigan Tuberculosis Sanatorium at Gaylord for this purpose has been discussed.

"An effort to amend the law will be meaningless unless a security facility is provided," said Dr. Ireland.

Optimists Slate Gov. Jim Frans at Southfield

SOUTHFIELD TOWNSHIP — Fruitridge Inn will again be the scene of the Optimists meeting here tonight when Optimist Governor Jim Frans appears as main speaker.

Southfield Optimists, are planning now to attend the 17th District Optimist convention in Grand Rapids, May 10-11.

Home Fire Started by Defective Chimney

Pontiac firemen report a defective chimney was the cause of a fire which started in the living room partition at the home of Dewey Newport, 45 N. Hilldale Drive, Wednesday.

Building damage was \$100 and a \$10 content loss was reported by firemen.

Village Grants Franchise

AVON TOWNSHIP—A special election was held here yesterday to grant the Consumers Power Co. a 30-year franchise. Result of the voting: 125 total returns; 118 for the franchise, 7 against.

Puts Price on His Head

BEAUMONT, Tex. — A metal can company executive here has insured his brain for \$100,000. "I make my living with my brain," said Lloyd C. McManus, 37, president of Southern Iron and Metal Co., explaining the policy he has taken out with Lloyd's of London. He said the policy will run 10 years, but wouldn't say how much of a premium he will have to pay.

World Lauds Memory of Beloved Musician

NEW YORK — The body of the body will be flown to Italy for burial in the family chapel in Milan.

Outside the Milan opera, La Scala, the Italian flag was lowered to half mast yesterday. The orchestra there halted rehearsal for one minute of silent tribute when word of his death was received.

Not only the great personages mourned the loss of the diminutive man who wove magical webs of entrancing music with his baton. There were also the countless "little people" — their lives enriched by the tapestries of sound produced for them by a dedicated artist.

Said President Eisenhower in a statement:

"As man and as magician he gained the admiration of the world. He spoke in the universal language of music, but he also spoke in the language of free men everywhere."

There will be a Solemn Requiem Mass in St. Patrick's Cathedral at 10 a.m. Saturday. Later

"The music he created and the hatred of tyranny that was his are part of the legacy of our time."

James F. Nye, who last week was named "Outstanding Young Man of Pontiac in 1936," has been nominated by the Junior Chamber of Commerce as a candidate as one of five outstanding young men during the past year in Michigan.

The announcement of the five winners will be made Feb. 9 in Grand Rapids at the 1936 Five Outstanding Young Men of Michigan Banquet.

Melvin Eller, president of the Jaycees, is expected to head a delegation of six members to the banquet.

U. S. Senator Frank Church of Idaho will be the keynote speaker at the banquet expected to be attended by 350 Michigan Jaycees and their wives. Church, at 32, is the youngest Senator in the Senate.

BAR OWNER TESTIFIES
The first witness was William P. Babcock, chairman of the Pontiac General Hospital Board of Trustees and owner of the Stadium Bar, 353 Oakland Ave. Babcock employs McCowan as a bartender.

Babcock described how Sexton, 30, had been drinking in the bar the night of the shooting and had left with McCowan.

McCowan's wife, Joanne, was called to testify about her husband's disappearance.

Two other Pontiac policemen testified at yesterday's session. They were Patrolman Fred Stormer and Sgt. William Hanger Jr.

The officers testified they believed Sexton had been drinking, but neither described his condition as "drunk."

Sexton's counsel, Attorney Clarence L. Smith, said Sexton has received four head injuries since his service in the Navy during World War II.

County Calendar

Drayton Plains
Blue Star Mothers Chapter 15 will hold their regular monthly meeting at 7:30 tonight at the Drayton School. Regular business will be conducted, followed by installation of the new officers for 1937.

David W. Halle of Royal Oak has been hired by the City of Troy for its engineering department.

Trinity WSCS Sponsoring Tuesday Lunch

KEEGO HARBOR—WSCS of the Trinity Methodist Church will sponsor a lunch to be served in the church at 1 p.m., on Tuesday.

The meal will be prepared and served by a food firm with the ladies of the society being responsible for the sale of tickets.

Tickets may be purchased from members of the group and should be obtained ahead of time.

Practical Nurses to Meet

The Oakland County District of the Michigan Practical Nurses Assn. will meet at the home of Mrs. Helen Beske, 18730 Sunnybrook, Birmingham, at 7:30 tonight. All members are requested to be present.

Council Views Fire Prevention

WALLED LAKE — The city council of Walled Lake now has under consideration a fire prevention ordinance which includes many of the features contained in the Michigan Fire Prevention Act.

City councilmen discussed the proposed ordinance when it was introduced formally at their regular meeting held earlier this week.

This ordinance, considered vital to a city the size of Walled Lake by officials of the city fire department, covers certain regulations designed to eliminate fire hazards. Its passage would empower city officials to enforce the regulations.

A new fire department ordinance pertaining chiefly to organizational structure is now in effect. It clarifies the delegation of authority among members of the fire department.

Walled Lake has had its own fire department for several months, having purchased a fire hall from Commerce Township last summer. The city accepted delivery of its own fire truck last September.

The city's fire department is headed by Ray Price, who serves as chief when available from his duties as chief of the Commerce Township fire department. Assistant fire chief is Art Graham.

The candidates were guests of the Independence civic league and addressed the group of 150 people. George McRae, chairman of the meeting, stressed the importance of the primary election.

He urged everyone to register, stating that registration books would be closed Jan. 21.

He also stated the aims of the Civic League were to inform the voters in a question and answer period followed the introduction of the candidates.

'This Our World' to Be Reviewed at Waterford

WATERFORD TOWNSHIP — The Book Review Club of Waterford Township will meet at 1 p.m. Monday, at the CAI building on Williams Lake road.

"This Is Our World," by Louis Fischer, will be the book to be reviewed by Mrs. Leland Banyan.

Hostesses, Mrs. Kenneth Valentine, Mrs. Henri Buck and Mrs. Carl Putnam will serve tea, following the program.

Albert Charles Wagner
CLARKSTON — Service for Albert Charles Wagner will be held at 2 p.m. Saturday from the Sharpe Funeral Home here. The Rev. Donald Myers will officiate, with burial in Davisburg Cemetery.

Milk Dating Ordinance Repeal Threat Beaten
DETROIT — Common Council turned down unanimously yesterday an attempt to repeal the city's milk-dating ordinance.

The ordinance requires dairies to mark on containers of milk offered for retail sale the date beyond which the milk is not to be sold.

Samuel T. Angott, president of the Detroit Milk Dealers Assn., led the fight for repeal. He said dating is obsolete, unnecessary and costly.

Angott hinted that the cost of the dating process might force a rise in milk prices.

Councilwoman Mary V. Beck led the fight to keep milk dating.

Pair Honeymooning in Southland

Donna Anne Gingell Weds David Kirby

THOMAS—At a candlelight service, Donna Anne Gingell, daughter of Mr. and Mrs. Lawrence Gingell, became the bride of David Kirby son of Mr. and Mrs. Wilby Kirby of Oxford. The vows were spoken Saturday evening in the Thomas Methodist Church.

The double-ring ceremony was performed by the Rev. Fred Clark.

Given in marriage by her father, the bride wore a gown of white lace and net fashioned with a Peter-Pan collar and leg-of-mutton sleeves. Her fingertip veil was attached to a tiara of orange blossoms. She carried an arm bouquet of white carnations and roses.

Phyllis O'Dell was maid of honor and the bridesmaids were Laurene Gingell, sister of the bride and Joyce Wildey, cousin of the bride.

Robert Kirby, assisted his brother as best man. The ushers were Freddy Gingell and Duane Wildey, Karen Curtis, cousin of the bride, was the flower girl and David Jackson, cousin of the groom, was the ring bearer.

A reception followed the ceremony in the Thomas Hall with 150 guests attending.

Upon their return from a southern honeymoon, the newlywed couple will make their home in Oxford.

MARILYN I. DOTY

Mrs. Irene Doty of Clyde and Ellsworth Doty of North Milford Road, announce the engagement of their daughter, Marilyn Irene, to Alvin Ray Frank. He is the son of Mr. and Mrs. Ray Frank of Fish Lake road, Holly. No date has been set for the wedding.

MR. AND MRS. DAVID KIRBY

Bright Hats Bow In for Spring

Undulating gray felt with darker gray grosgrain ribbon is shown here by Sally Victor. The style is reminiscent of the hats worn in the 1920s.

Beatrice Martin spotlights the "Parfait Look" as a surprise accent for tailored wools in her spring collection. The designer frosts blue linen straw with lacy veiling which is applied with delicate forget-me-nots and ferns and sprinkled with blue dewdrop rhinestones.

Laddie Northridge designs an early spring picture bonnet of soft natural beige balibuntal straw, over an overbrim of moss green velvet. Multi-color baby sunflowers are strewn on the graceful brim.

Mrs. M. M. Burgess Accepts Post

Michigan Nephrosis Group Meets

Mrs. M. M. Burgess of Bloomfield Hills has accepted the position of chairman for the Michigan 1937 fund raising drive for the National Nephrosis Foundation.

Chapter members viewed a film shown by Douglas Adair, president of the Michigan chapter. The film was entitled, "Children With Nephrosis." Mr. Adair was introduced by Mrs. Thomas S. Torgerson of Birmingham.

Church Unit Has Election of Officers

Mrs. Stephen Turner was elected president of St. Monica Unit of St. Michael Altar Society when the group met Tuesday evening at the home of Mrs. Merle Berry on Kemp street. Mrs. Omer DeConinck will serve as secretary-treasurer for the year.

Appointed to committees were Mrs. Louis Petruska, Mrs. John Wargel, Mrs. Leon Edmonds, Mrs. Ronald McNeerney, Mrs. Rudy Pfeiffer and Mrs. Charles Loubent, telephone, and Mrs. John Keesling, publicity.

Mrs. Arthur Ebert, Mrs. Ben Budwit, Mrs. Constant DeJager, Mrs. Kenton Plourde, Mrs. Arthur Birchmeier and Mrs. Merritt Johnson will serve as cochairmen for the monthly projects of the unit.

Following the business meeting, members participated in a program of games and refreshments were served by the hostess.

City Garden Club Will Meet Monday

Pontiac Branch of Women's National Farm and Garden Association will meet Monday at 1:30 p.m. in the home of Mrs. Robert Oliver on West Iroquois road.

The program, "Fun and Flavor With Herbs," will be presented by Mrs. Carl Collin. The speaker will tell how to grow herbs, how to cook with herbs, and how to make flower arrangements with herbs.

MRS. TOM MALONE

Pastor's Wife to Lead Choirs

Mrs. Tom Malone, choir director and wife of Dr. Malone, pastor of Emmanuel Baptist Church, will direct the combined choir for the citywide service being held Friday at 7:30 p.m. The service will be held at the Temple Baptist Church on Grand River avenue, Detroit.

Dr. Bob Jones, noted evangelist and founder of Bob Jones University, will speak on the subject, "The Perils of America, Where Are We Headed?"

The meeting is sponsored by the Michigan Chapter of the American Council of Christian Churches.

Coming Events

Pontiac Rebekah Lodge 450 will meet Friday at 8 p.m. in Malta Temple, 22 Perkins st.

Mr. and Mrs. Harley R. Young of Auburn avenue announce the engagement of their daughter, Betty Jo, to Ronald E. Ide. He is the son of Mr. and Mrs. Emerson Ide of LaFay avenue. The couple plans a May wedding.

BETTY JO YOUNG

The side-to-side look is shown on this turban toque. Straw is sewn with white cotton for the silhouette which culminates in a front knot touched with red velvet.

Guild Reports Are Heard by St. Vincent's Women

Annual reports of Guilds of St. Vincent de Paul Church were heard at the annual dinner-meeting at the church hall, Tuesday evening. Two hundred guild members attended. Mrs. William B. Dean, president, presided.

Reports were given by Mrs. Genevieve Nye for St. Ann guild, Mrs. Roland Landry, St. Barbara guild; Mrs. Wallace Holland, Blessed Martin dePorres guild; Mrs. Marshall Sprague, St. Catherine and Mrs. Albert Teays, St. Elizabeth guild.

Other chairmen and the guilds they represented include Mrs. Paul Spadafora, St. Eulalia; Mrs. Philip Yap, St. Joseph guild; Mrs. Alfred Martinez, Our Lady of Guadalupe; and Patricia McMahon, St. Theresa guild.

Lillian Meldrum and Florence Landry also gave reports. Mrs. Charles Thayer gave a resume of the work of St. Bernadette guild of Sacred Heart Church, Auburn Heights and Mrs. Ralph Cotcher reported on guilds of St. Benedict Church. Both churches were former missions of St. Vincent de Paul Church.

Mrs. Dom Zaffina told of help needed in preparing altar linens and reports were heard on the work done by the League of Cath-

The turban look is here again! This one of green and pink cotton satin is trimmed with shaded pink violets and is named for Mme. Indira Gandhi of India. Another design by Sally Victor.

Smiths Start on Cruise January 31

Mr. and Mrs. W. Walter Smith of Doris road are leaving on Sunday for Houston, Tex. On Jan. 31 they will sail from Houston on a 42-day cruise that will take them to the eastern coast of South America.

On their return to Houston they will spend several weeks in the South before coming back to Michigan in the early spring.

Mrs. William G. Kemp entertained at a desert bridge in her East Hammond Lake road home Wednesday evening. Three tables of bridge were in play during the evening.

On Friday, Grace McLaughlin of Ottawa drive will fly to Milwaukee, Wis., where she will meet her mother, Mrs. Edward L. McLaughlin, who will motor there from Monmouth, Ill.

They will spend the weekend putting the finishing touches on the new home to be occupied by Grace and Dr. Robert Jones following their marriage Jan. 26 in St. Benedict Church.

On Tuesday Mrs. McLaughlin will accompany her daughter back to Pontiac where she will remain until after the wedding. Mr. McLaughlin will join them later on in the week.

Mrs. Carl E. Brown was hostess to members of her bridge club in her home on Canterbury drive Wednesday evening.

Mr. and Mrs. Roy Murphy of Winton street are vacationing in Florida. Among the places they will visit are Clermont and Miami Beach.

Mr. and Mrs. Hanley Rothenberg of Detroit announce the birth of a daughter, Susan Lynn, Dec. 22.

Grandparents of the infant are Mrs. Irving Hollander of Rochester, N.Y., and Mr. and Mrs. Barney Rothenberg of South Genesee avenue.

Brother Succumbs

Mrs. Charles W. Seaman of Menominee road received word Monday of the death of her brother, John Cousin of Doris, W. Va.

Pontiac High PTA Plans Rumor Clinic on Jan. 31

DR. MORTON J. SOBEL

Mrs. Magnus Entertains Club

Fifty-three members and guests of Junior Child Study Club met at the home of Mrs. Adolph Magnus in Bloomfield Hills Tuesday. Mrs. Hugh Hale, Mrs. John Madole, Mrs. George Wetterhahn and Mrs. Charles Sanft assisted the hostess.

A panel composed of Julie Hickman, Ruth An DeGrow, John Hickman, Glen Jaloy and Lyndon Salathiel, students of Waterford High School, discussed "The Trouble With Parents."

Announcement was made of the joint luncheon of Child Study Clubs to be held Feb. 19 at Pontiac Federal Savings and Loan Building.

Meeting Conducted by Plymouth Group

Ethlynn Peterson opened her home on East Huron street to members of the Plymouth Group of First Congregational Church Wednesday evening. Devotions were given by Mrs. Fred Conner who used as her topic, "Making Right Decisions."

Committees were appointed for the year and plans for the program were discussed.

Mrs. Amy Johnson showed pictures taken last fall on her trip through the Adirondacks and White Mountains.

Newlyweds Will Reside in Pontiac

Beatrice L. South, Jerry D. Hockey Exchange Vows

First Presbyterian Church was the setting for the Saturday evening marriage of Beatrice L. South and Jerry D. Hockey. The Rev. William H. Marbach performed the 7:30 o'clock ceremony.

Beatrice, daughter of Mrs. O. D. Robinson of Onaway and William L. South of Royal Oak, chose a gown of satin and lace for her wedding. Her fingertip lace-trimmed veil was held in place by a seed pearl crown. She carried an arrangement of pink roses.

Grace Jewell attended the bride wearing a gown of coral net over taffeta. Her headpiece was of tawny gold roses and she carried a bouquet of matching flowers.

Jerry, son of Mrs. John Hausman Jr. of Astor street and the late Clarence C. Hockey, asked his cousin, George Federspiel Jr. of Saginaw, to serve as best man. Seating the guests were William Ireland, William Snow and Clifford Douglas.

A reception for 350 guests was held immediately following the ceremony at the David Bellis VFW Hall in Drayton Plains. The newlyweds will make their home on Broadway avenue.

Ladies Auxiliary Lists Members of Committees

Mrs. Merrell Petrie presided at the Tuesday evening meeting of the Ladies Auxiliary of Metropolitan Club Spirit Six held at the American Legion Home.

Committees appointed were Mrs. Ralph Dean, Mrs. Ruel Baker and Mrs. Victor Bodamer, constitution and bylaws; Mrs. Harold Wright and Mrs. John Ott, emergency and welfare; Mrs. John C. Wilson, rummage; Mrs. Ruel Baker, ways and means, and Mrs. Evi Allen, sunshine.

Others serving are Mrs. Victor Bodamer, publicity and historian; Mrs. Omer Winton, nominations and elections, and Mrs. John DePauw, Mrs. Wilson and ment.

Mrs. Depauw, Mrs. Wilson and Mrs. Harry Isenberg conducted the games hour following the meeting.

JULIA COLLEEN REX

The engagement of their daughter, Julia Colleen, to William Raymond Goodwin is announced by Mr. and Mrs. Leo Bex of Sanford, Fla., formerly of Pontiac. William is the son of Mr. and Mrs. Wilbur Black of North Perry street. The couple plans a June wedding.

Child Fears Abandonment by Mom

By MURIEL LAWRENCE

While Karen put her crayons away in preparation for bed, her babysitter Edna glanced through a new picture magazine.

Turning a page, Edna said, "Isn't this something? Look at this knockout necklace they've found buried with these old Egyptian mummies." And she showed 4-year-old Karen the vividly colored photographs of ornaments, painted coffins and swathed figures with monstrous heads.

Later, Karen couldn't sleep. Daddy was with Mummy and could be trusted not to let anyone put her into a painted coffin.

Nobody, she told herself, would treat her Mummy like an Egyptian one, stuffing her into horrid bandages along with her pearl beads and new earrings.

But her mother's absence remained full of menace for her. She stayed awake until her parents got home when she burst into tears, crying out, "Mummy, come here! Oh, please come here..."

FEAR RETURNS

The next night, she was again overwhelmed with fear that her mother's absence might mean disappearance into a painted coffin. The moment her mother left her to go downstairs, it began to threaten her.

After five minutes, she couldn't stand it; and began to make the demands that would force her mother to bring back her reassuring presence.

She wanted more water. She wanted her blanket tucked better. What was the dark thing outside her window? But of her fear, she did not speak at all.

So her mother couldn't explain that Egyptian mummies were not mothers at all, but ancient kings and queens. Not knowing why Karen feared her absence, she couldn't deal with her little girl's terror of losing her into a painted coffin.

But she could register the fact that somehow her absence had become terrifying to Karen—and undertake to restore its innocence and familiarity.

EXPLAINS PLANS

So what she did was to lie down beside Karen and tell her the story of her evening's plans. She said, "When I go downstairs, I'll turn on the lamp beside my chair. I'll

sit down, open my sewing basket and take out that blue skirt of yours I'm making longer for you. "How cozy and safe I'll be! As I thread my needle, Daddy will say, 'Listen to this, honey'—and begin to read to me from his newspaper..."

Like filtered sunlight, a new brand of face makeup on the market casts a flattering glow on any complexion.

Bride-Elect Entertained

Party Fetes Jean Vought

Pat Donelson and Nancy Kent Mrs. Richard Smale, Roberta Love were cohostesses at a bathroom shower honoring bride-elect Jean Vought. The Wednesday evening affair was held at the Donelson residence on Mohawk road.

Jean, daughter of Mr. and Mrs. Max Vought of South Genesee avenue, will become the bride of Edward W. Sizemore on Jan. 26. Edward is the grandson of Mr. and Mrs. Edward F. Sizemore of Henry-Clay avenue.

Attending the shower were Mrs. Vought, Mrs. Sizemore, Barbara Snover, Mrs. Gordon Sizemore, Mrs. Paul Duggan, Mrs. William Turner, Mrs. Thomas Mahan, Mrs. Harold Bigelow, Mrs. William Beal, Mrs. Donald Guilds, Mrs. Clifford Todd and Mrs. Ernestine Griffin. Completing the guest list were

Hostesses Urge Dieter to Overeat

Guest Should Say Doctor Has Issued Strict Orders

By EMILY POST
A reader asks: "Will you please write something in your column to the hostesses who keep urging guests to taste this, that or the other thing by saying, 'Oh, you simply must try this, it is very delicious.'"

"I am trying very hard to diet and it makes it very difficult to refuse when the hostess is so persistent, and I usually wind up eating something that I am not supposed to just because it is awkward to keep saying 'No thank you.' I am sure many of your other readers have come up against this same problem and a word from you would, I feel sure, help a great deal."

Answer: Your situation is far from unusual, and when you are the victim of your hostess' excess of hospitality, the only advice I can give you is to say: "Oh, I would love some, but my doctor's orders are very strict."

"Dear Mrs. Post: Two years ago my husband and I planned to have a party on our silver wedding anniversary. However, shortly before this my husband's father died and plans for the party were cancelled.

The following year when it came time to think about celebrating our anniversary again, something else happened and we could not have the party. Now, two years later, we would still like to celebrate our anniversary. Would it be proper to have a belated silver anniversary at this time, or is it too late to do anything?"

Answer: If all your friends understand the situation, I see no reason why you may not have a belated celebration.

"Dear Mrs. Post: Is it in bad taste for a young woman to take her handbag with her onto the dance floor? Will you please answer this as much controversy has arisen over it?"

Answer: A large daytime bag or leather would be as out of place as galoshes on a dance floor. A small evening bag of velvet or brocade can easily be held in her left hand, as it rests on her partner's arm.

Keep 'Innards' Dry

Toys with mechanical "innards" should never be immersed in water. Instead, rely on a "sponge bath" to keep them clean. Using soap or detergent suds, wipe the surface with a well-lathered sponge. Then rinse-wipe with a clean damp cloth.

Lads 13 to 16 Consider Miss Monroe Tops

'You Can Have the Girl Next Door, I'll Take Marilyn'

By EUGENE GILBERT

President of the Gilbert Youth Research Co.

Marilyn Monroe reigns as the unchallenged heart throb of boys between 13 and 16—but gets an inexplicable cold shoulder from older sophisticates between 17 and 19 years of age.

★ ★ ★

"Kid stuff," a grizzled elder of 18 told us during the course of one of our surveys. "Marilyn is not the kind of girl I could ever hope to meet, so why get riled up about her?"

But the kids were willing. "You can have the girl next door, I'll take Marilyn," a boy of 14 said.

And a 15-year-old summed matters up: "When she walks, my knees get weak."

Spurning Hollywood's blonde queen of superlatives, the older group installed Natalie Wood and Kim Novak as first and second choice among movie actresses.

★ ★ ★

In addition to this phenomenon, our latest survey on teenage opinion showed that TV's effect on youngsters' movie-going habits has been something short of revolutionary. No less than 48 per cent of the teeners still troop faithfully to the pictures once a week.

"I'd go more often," a 13-year-old Montana girl confided, "but my allowance won't stretch that far."

The teeners still like the movies; 48 per cent hike off to the movies at least once a week.

And a California youngster: "My mother says it's bad for my eyes to go more often than once a week, but I try to sneak in another time whenever I can manage it."

A twice-monthly visit has the next highest percentage—29 for the 12-14 age group and 30 per cent of teenagers between 15 and 17.

Adventure films are favored by the boys while musicals provide the top attractions for the girls.

Returning briefly to the subject of screen favorites, Marilyn emerged as No. 1 overall choice for all boys despite the defection of the 17-19 group. Natalie Wood was the runner-up.

Miss Monroe drew a blank with the girls. They picked Debbie Reynolds and Kim Novak. Among girls 13 to 16, Debbie led the list, while falling to second place in the choice of the 17-19 group.

Among male stars, the late James Dean headed the boys' list, followed by the perennially rugged John Wayne.

Dean came out second best with the girls, who picked him in second place behind handsome Rock Hudson.

SINGLE FEATURES

Despite their continuing loyalty to the films, teenagers generally seem satisfied with the trend away from double features and the emphasis on fewer, more spectacular pictures.

A Miami girl commented, "Last week I saw 'War and Peace.' It was the greatest, but I surely wouldn't have sat through another picture that day." (An understandable reaction; 'War and Peace' consumes nearly four hours.)

★ ★ ★

And a Vermont girl said: "Oklahoma" was the best movie I ever saw. I'm glad there was no double feature. Some movies are so good that seeing something immediately following would break the mood."

Thirty-two per cent of the boys prefer adventure films (not including Westerns) to all others. "Blood and thunder, that's for me," a Baton Rouge, La., lad declared. "Give me pirates and adventure any time."

The girls (30 per cent) favor musicals. "They make me feel happy

and relax all the tension of the day for me," a 16-year-old explained.

Musicals are ranked second by the boys, while love stories, with 15 per cent, are solidly entrenched in second place among the girls.

"What's more interesting to any female than romance?" a 13-year-old female from Connecticut demanded.

Boys, on the other hand, rate love as dreary film fare, putting romantic pictures in last place on their list with 2 per cent.

Behind adventure and musical films, mystery and suspense pictures are third choice for all teeners (9 per cent of the boys and 10 per cent of the girls).

HORSE OPERAS

The time-hallowed horse opera still enjoys a solid following to wind up in fourth place, with 10 per cent of the lads and 7 per cent of the girls citing Westerns as their preferred type.

Less than 1 per cent of the girls like war films, but 8 per cent of the boys favor them. "We all have to go into the service some day," a 17-year-old boy said. "It's good to learn something about it now."

Age, naturally, is an important factor in youngsters' film preferences.

In the 8 to 11 year group, for both sexes, adventure pictures led with 24 per cent; Westerns came next with 19; musicals were third with 14 and mystery shows fourth with 12.

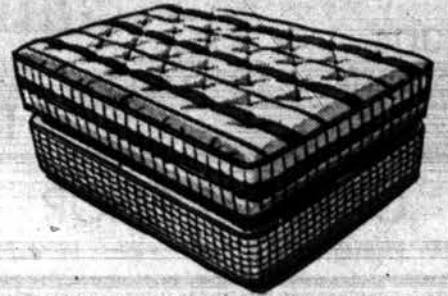

The lineup in the 12-14 age category were: Musicals, 24; adventure, 24; romance, 11, and mystery 9.

In the 15 through 17 group: Adventure, 21; musicals, 19; mysteries, 9, and romance, 8.

Four out of ten in the total group of teenagers queried enjoy reading about Hollywood doings, though the interest is higher (56 per cent) among the girls than among the boys (39 per cent.)

★ ★ ★

Spokesman for the 60 per cent of the boys who are bored by Hollywood stories was a lad who commented, "Believe me, I've got better things to do with my life than to read some press agent's made-up tale about any sexy-looking dame."

Rural Projects Need Investigating

By ANNE HEYWOOD

It seems to me that most Americans dream of retiring to the country and making a good comfortable living. They want to do this in their early middle years, too—not after 60.

★ ★ ★

My mail is full of requests from people who want information about roadside stands and dairy farming and country gift shops.

But there are also—more of the pity—letters from people whose country projects have failed miserably and who now want advice on how to get a job.

Nine times out of ten, the trouble is twofold: They have not sufficiently investigated the particular countryside involved and they underestimated the intelligence of the so-called "natives."

Mr. and Mrs. J. had this very problem.

LOVED THE PLACE

They had spent one summer in a lovely country village and had fallen in love with the place, so they decided to move there and set up a home secretarial-book-keeping business.

Mrs. J. had excellent secretarial skills, and Mr. J. was a good accountant. There were quite a few writers in the surrounding countryside and a few small businesses in the village.

In one of those triumphs of wishful thinking over intelligence, they invested their lifetime savings in a small house and the necessary equipment for their business.

The small businessmen didn't take them up, partly because they

already had some help on their premises and partly because they didn't take quickly to strangers. Some of the writers gave them manuscript typing to do, but they were slow in paying bills and couldn't afford to pay very much.

BACK TO THE CITY

After two years, Mr. and Mrs. J. sold their house, recouped what losses they could and moved back to the city.

This tragedy could have been avoided had they really spent considerable time there, summer after summer, and become acquainted with the people and their potential needs.

Mrs. Swanson
Receives Award

Mrs. Pipsan Saarinen Swanson of Bloomfield Hills received the Louise Bolander Award for 1937 at a luncheon held at the Hotel Sheraton in Chicago, on Jan. 9 by the Home Fashions League.

The award is given annually to a woman residing and working in the Middle West who has made an outstanding contribution to some facet of the industry.

Mrs. Swanson has for several years been active in designing furniture, fabrics and glassware and is also well known for her interior design.

Gathering Held
by Fellowship

Mrs. John Appleton was hostess to members of the Christian Women's Fellowship of First Christian Church Tuesday evening in her home on Hudson avenue. Mrs. Arthur Smith conducted the business meeting.

"Introduction to Southeast Asia" was the topic of the program presented by Mrs. William Bantien. The worship theme, "The Light We Walk In Encircles the Globe," was presented by Mrs. Denzil Flowers.

Recordings of missionary songs completed the program. Refreshments were served by the hostess.

Use Wooden Spoon

Use a wooden spoon or fork to stir food cooked in enamelware. The wood leaves no dark marks on the surface so hot soap or detergent suds will wash such pots and pans clean without scouring.

Auxiliary Meets
With Mrs. Salfi

The Auxiliary of the Italian American Club met recently at the home of Mrs. Joseph Salfi on Cherokee road.

A Valentine party and cooperative dinner is planned for Feb. 11 at the home of Mrs. Robert J. Ranzilla of Parcels circle. Mrs. Settimo Sesti will assist the hostess.

On Saturday evening a dinner will be held at the Elks Temple honoring Mr. and Mrs. Donald Finelli who are leaving soon for their new home in Marion, Ind.

Refreshments were served by the hostess at the close of the meeting.

It's Not Too Late to Join Marathon

By JOSEPHINE LOWMAN
I want to give one day a week during the time my eight-week self-improvement Marathon is running to help you reach the goal you are shooting for.

Already calls are coming in asking when the Marathon booklet will reach readers. I receive a tremendous number of requests for these and we are getting them out to you just as rapidly as we possibly can, with an extra staff of secretaries.

When your booklet reaches you, read it over carefully. Follow the directions faithfully. The directions are important to your success. Count your eight weeks from the time you receive instructions.

All of the most usual defects in beauty are covered in the booklet but if you have some special problem which is not, I will be glad to give you even more personal help. Send your letters in immediately and I will discuss any troubles you mention in a future column about Marathon.

Have a heart thought! Please make your letter short since I am deluged with mail at the present time.

It is a good idea to give your skin special lubrication when you are reducing. A body lotion is also a fine idea. When on a slimming diet your fat intake is lower than usual. Also the pad of fat under-

This girl points out the "Eight Weeks to Popularity" section in the Marathon booklet. You'll enjoy grading yourself as you progress in the Marathon.

neath the skin is decreasing. In winter the skin is drier anyway.

I would like to call your attention to the "Eight Weeks to Popularity" section at the back of the Marathon booklet. I think you will enjoy grading yourself. You may not show up very well at first, when you are eating less than usual and have a few sore muscles.

Remember! It is probably now or never! Procrastination is a strong habit but now you have company all over the country, thousands of women who are indulging in self-improvement with the Marathon routine.

I also am getting letters from readers who want to know if it is too late to join Marathon. If some of you failed to join last week and would like to do so now send 10 cents and a stamped, self-addressed envelope with your request for the Marathon booklet. Address Josephine Lowman in care of The Pontiac Press.

Tomorrow: "Bend to the Left — Then to Right to Reduce Waist."

Leather Coats Cut Slim, Offer Walking Ease

NEW YORK (NEA)—Leather has become a year-around fashion. It has also become a fashion more nearly within reach of the average wallet.

Lately, designers have cut it into straight, slim young coats that offer walking ease without the fulness that has characterized a good many leather coats in seasons past.

These are coats designed for town as well as country wear. As much as any one style can be, these are coats to be worn over nearly anything in a wardrobe. Anything, that is, that follows out the straight, slim lines.

Mrs. W. D. Thomas Hosts January - March Group

Mrs. William D. Thomas of Shoreview drive was hostess at the Tuesday luncheon meeting of the January-March Group of First Presbyterian Church. Mrs. George Cram and Mrs. Roy G. Ashwin assisted the hostess.

Mr. Herbert McCulloch, newly elected chairman, presided at the business meeting. The Bible study was given by Mrs. Avery Shearer and Mrs. Thomas spoke on the history and customs of Thailand.

Committee chairmen appointed are Mrs. Walter J. Baumgartner, hostesses; Mrs. Mahlon Benson Jr., social action and education; Mrs. Cram, thank offering.

Mrs. Gandhi Is Intrigued by Gadgets

Nehru's Daughter Buys Home Items and Toys in U. S.

By JANE EADS
WASHINGTON—A State Department official who accompanied Indira Gandhi, daughter of India's Prime Minister Nehru, during her recent visit says Mrs. Gandhi's "sales resistance on gadgets is low."

On a shopping spree edged in one day between conferences at the children's Bureau, hospitals, the National Art Gallery and places of historic interest, Mrs. Gandhi purchased a wide variety of tricky household items, as well as a number of electronic toys for her two sons—aged 12 and 10.

Gregoire or Caroline

Prince Tells Baby Names

MONTE CARLO (U)—If it's a boy, Prince Rainier and Princess Grace are going to name him Gregoire. A girl will be called Caroline, Prince Rainier told a news conference today.

The other names of the prince will be Georges Pierre Richard. The other names for a girl will be Louise Marguerite.

The names are all French and traditional in Monaco's reigning family, the Grimaldis. No names were chosen to honor Grace's Irish-extraction family, the Kellys of Philadelphia.

The baby is expected in the next few days.

The prince said the delivery

New Type Door Easy to Install

Need more privacy? Want to make two rooms out of one? A new kind of folding door may be your answer. It's woven of wood slats with vinyl plastic strips and is completely opaque.

The makers claim that even an inexperienced housewife can install this folding door, with nothing more difficult to handle than a screwdriver.

And think how simple this wood-and-plastic surface will be to wash. Just apply soap or detergent suds with a sponge or cloth, rinse, wipe it dry, and your door looks like new.

Men Seldom Appreciate Achievements of Women

And Few Can Solve the Mysteries Posed by Feminine Behavior

By RUTH MILLET

Few men realize: When they see a beautifully decorated, neatly kept and livable home, how much thought, effort and homemaking skill some woman has put into it.

When they see a slim, trim, middle-aged woman, how much self-denial and self-discipline are responsible for her successful fight against middle-age slump and spread.

That the more simple a well-dressed woman's costume seems to be the more it probably cost.

That when a hostess says that she didn't "go to a bit of trouble" for the unexpected dinner guest, she is being more gracious than honest.

That one reason why a woman is so put out when her husband doesn't like her new hat is that she most likely went to half a dozen stores and tried on a dozen hats at each before deciding on

the one she felt was just right for her face and wardrobe.

That the girl who keeps her job after marriage isn't likely to ever be the kind of wife a man can put on a housekeeping allowance or dole out money to—even if her working-wife days number less than one full year.

That a man who is completely helpless in the kitchen has no business thinking a woman is a nitwit because she can't make her checkbook balance.

That the neatest housekeeper invariably has tidy husbands.

That a woman other women don't like is a poor marriage risk, simply because women are better judges of other women than men are.

That the worst time in the world a man can choose for criticizing his wife is in the hearing of her mother-in-law.

That any wife whose husband doesn't bother to make her happy is going to make him miserable.

JOANN MARIE MABRY

Mr. and Mrs. William H. Mabry of Auburn Heights announce the engagement of their daughter, Joann Marie, to Lyman Lloyd Pemberton. He is the son of Mr. and Mrs. Lyman Pemberton of Fairgrove avenue. A summer wedding is planned.

Sulphuric acid is made from oxygen, hydrogen and sulphur.

Saturday Dance to Benefit School

Mr. and Mrs. Al Feliks are serving as chairman of the square and round dance being held Saturday in St. Vincent de Paul Parish Hall. The dance is sponsored by the Moms and Dads Club of St. Frederick School, with proceeds to be used to benefit school activities.

Dancing will be from 9 p.m. to 12 a.m. A local orchestra will provide the music.

Other committeemen for the affair include Mr. and Mrs. Grover Schatz, checking; Mr. and Mrs. Jack Guilford, decorations; Mr. and Mrs. Robert Crosswell, prizes; Mr. and Mrs. Bill Talbot, tickets; and Mr. and Mrs. Phil Yapco and Mr. and Mrs. Frank Bader, refreshments.

Church Unit Meets

Maxine Nelsey and Cassandra Stewart were cohostesses to members of the Deborah Missionary Society of Lakeland United Presbyterian Church. Mildred Lockert presented the program on "Prayer" at the Monday evening meeting held at the church.

So High School Senior Will Pick Right School

Start Making Plans for College Now

By DOROTHY V. WHIPPLE, M.D.
AP Newsfeatures

Do you have a son or daughter in the senior year of high school this year? If college is on the horizon, now is none too soon to start planning. Even during the junior high school year much groundwork can be laid to help arrive at that most important decision—what college?

There are literally thousands of colleges in these United States. Somewhere there is at least one and maybe many more that are just exactly right for your Mary or your Bill. The first job is to find that college. The second of course is to have that college accept Mary or Bill.

College is a lot more than just a place where youth acquires academic education. The four college years are critical years in shaping adult life. It is here the youth will get started on the work he wants to spend his life doing. It is here he makes friends that last a lifetime. During college years he may well meet his future wife (or husband).

Help your son or daughter select a college with all these objectives in view. Help him, but don't make the decision for him. He must think out his needs and desires and try to match them against the offerings of various institutions.

COUNSELORS ASSIST

Many high schools have competent college counselors who can be of great assistance, but many high schools have no one with the time or the up-to-date knowledge needed for this job. But whether the high school helps or not the parents certainly want to have a part in this major decision in the life of their son or daughter.

A good place to start is with a copy of a standard college guide available at most book stores. This guide lists all the colleges in the country, and gives a few pertinent facts about each one, such as location, size, coeducation, costs, religious preference if any, special courses, size of library, etc.

With this guide to help you, you will not miss any college you

might have forgotten about or might never have heard of. What does your son or daughter want, a big school, a school near home, a coeducational one? What courses does he want? What can you afford to pay for his education?

MAKE A LIST

Make a list of colleges that seem to offer what you want and send for their catalogues. Most colleges offer pretty well-rounded liberal arts courses. If you want some specialty your choice will automatically be narrowed.

Cornell for example has an outstanding course in hotel management; Wisconsin's School of the Dance is known the country over; Oberlin has a special course for music majors; Antioch combines academic work and experience in the working world. From the catalogue you can learn about the special interests of each college.

After you have read the catalogue try to visit as many of the colleges that sound attractive as you possibly can. Write to the Dean of Admissions and make an appointment. Deans are always

glad to talk to prospective students. You can get more of an idea of a place in a visit than from a printed page. Perhaps you can go as a family group to visit some college. Perhaps your son or daughter can go alone during one of the vacations.

Narrow your choice down to not more than half a dozen and to these your child can fill out application blanks.

Alter Eating Habits or Diet Is Useless

Dieting is not only a matter of shedding pounds, it's a matter of reforming food habits. If you go back to your same old way of eating, you'll pile up poundage again.

So it's important to consult your doctor when you start a diet. He'll give you a list of high protein foods that will change your eating habits and make it possible for you to pass up fattening foods with ease.

Cold Feet Like Stretch Knit Toe Warmers

Despite central heating and electric blankets, there are still lots of cold feet on cold nights. For people who don't like heavy blankets, and who can't stand having bedding tucked in, Grandmother's remedy is the best—wearing bed sox.

The up-to-date versions of these "toe warmers" are made of lightweight wool and wool-nylon or wool-rayon blends in a stretch knit designed to conform to and fit any size feet.

These bed sox stay snug-fitting because they return to their original size and shape when laundered in warm soap or detergent suds.

Edna Scully Feted at Bridal Shower

Mrs. J. Harold Smith and Mrs. William G. Brode were cohostesses at a miscellaneous shower in the Smith residence on Indianwood drive recently honoring bride-elect Edna Frances Scully.

Edna, daughter of Mrs. Dora R. Scully of South Sanford street and Thomas P. Scully of North Woodward avenue, will become the bride of Leon T. Messenger Feb. 16 in St. Vincent de Paul Church. Leon is the son of Mr. and Mrs. Leon Messenger of Baldwinville, N. Y.

Light from the sun reaches the earth's surface in about eight minutes.

BRING HOME SOMETHING NEW!

Coke in big new king-size...at the popular 12-ounce price!

YOUR GREAT BUY

in quality refreshment!

New bigger value! It's big - 12 ounces! Serves 2 full glasses! It's the one-and-only Coca-Cola!

Yes, right now treat yourself to the big 12-ounce King-Size bottle of Coca-Cola. And you pay no more to get the world-famous quality... the real great taste of Coca-Cola. This is a bigger value. Look for this new bottle... in a new carton. Then bring home the Coke in 3 convenient sizes... King-Size, Regular-Size and Family-Size.

It's just as thrifty to bring home the Coke...so why settle for anything but the world's favorite refreshment

Chief, Trojan Tilt SVC 'Showdown'

By BRUNO L. KEARNS
Sports Editor, Pontiac Press

The wheel of fortune will pick the top contender for the Saginaw Valley Conference title Friday night when unbeaten Pontiac tangles with high flying Saginaw at PHS.

This is a "must" game for the Chiefs as well as for the Trojans. By winning, Pontiac, now 4-0 in

league play, could take a two-game lead ahead of Saginaw.

By losing, the Chiefs would be pushed into a deadlock for the SVC lead with the Trojans who are 3-1 in the conference and 5-1 for the season.

Saginaw presently has the honor of being the top scoring team

in the conference having piled up 238 points in league play. Pontiac is next with 223 points, but the Chiefs have the best defensive mark, allowing the opposition only 183 points.

In the individual scoring column, the Trojans boast the best balanced point-making unit in the SVC with five players in the top twenty.

Pontiac's Dave Diehm still leads the circuit with an 18 point average. This is a drop of one point per game over the last two games. Hudson Ray boosted his average from 12 to 14 points per game. This moved him up a notch to the 4th position.

Only other Chief in the top 20 is Dick Whitmer who has an eight point mark. Steadily mov-

ing up in points behind Diehm is Saginaw's Deb Blondin with a 14.1 average.

Teammates Bill Halliday, 6-foot-1 guard and forward Dick Yates, 6-foot-2, are also hitting in the double figures for the Trojans with 12.1 and 11.1 averages respectively.

The other two Saginaw cagers among the elite are Gary Potts, 6-foot-4 center, and Dick Jones, a reserve forward. The other regular is guard Larry Rousseau the team's playmaker and top floor man who is not considered a scorer.

Potts is the player who replaced Bill Frost when the 6-foot-5 center was disciplined early in the season. This happened on the eve of the Flint Northern game which hurt the Trojans for their only loss. Since then Potts has filled in adequately and Saginaw is now riding a four-game streak.

Pontiac coach Art Van Ryzin, pleased with the about face of Hudson Ray who did a great job against Flint Northern, will start his regular lineup of Dick Whitmer and Jim Skinner at forwards, Diehm and Larry Peet at guards along with Ray.

Another player who may be called on for extended action is guard Charley Barge who kept Peet on the bench for the entire second half of the Northern game with his exceptional floor play.

Terry Zellhart will be ready to move into the forward slot behind either Whitmer or Skinner.

Ray will have to be at his best on the boards tomorrow, Saginaw, with its height, has controlled the boards against all of its foes thus far, but in Pontiac, the Trojans will meet their match in height.

A brisk advance ticket sale has been reported for the crucial game. Reserved seats are available at Osmonds downtown until Friday 5:00 p.m. and can be purchased until 4:00 p.m. at the high school today.

General admission windows will open at 6:00 p.m. Friday. The game is listed as the top game in the state, with Pontiac rising its 2nd place ranking against the 9th place Trojans.

Player-School	Pts.	Av.
Diehm (Pon)	108	18.0
Blondin (Sag)	97	16.1
Ray (Pon)	84	14.0
Kaniski (Sag)	82	12.4
James (Sag)	82	12.4
Halliday (Sag)	73	12.1
Yates (Sag)	70	11.1
Busch (Sag)	64	10.6
Miller (Pon)	71	10.1
Jeffes (Pon)	61	8.7
Potts (Sag)	41	8.2
Whitmer (Pon)	48	8.0
Rae (Sag)	44	7.3
Jones (Sag)	39	7.1
Thomas (Pon)	39	7.1
Roberts (Sag)	39	7.1
Gillard (Pon)	39	7.1

Many Athletic Figures Gather at Elks Temple

Annual Father and Son Banquet Draws Leading Celebrities Tonight

Celebrities from athletic, industrial and political fields will be present at the annual Father and Son banquet tonight at the Elks Temple.

Chairman Alger Connor reports a brisk sale of tickets and expects another top crowd for the affair which drew 700 people last year.

The banquet has annually been one of the highlights in Oakland County each year with many of the outstanding sports figures taking part in its success.

Toastmaster tonight will be sportscaster Bob Reynolds, with representatives from the Detroit Tigers, Lions, University of Michigan, Michigan State and the University of Detroit listed among the guests.

Special guest for the youngsters is "Milky" the Twin Pines magic clown.

Numerous athletic awards from the various sports will be presented as door prizes.

The dinner gets underway at 7:00 p.m. and according to Connor tickets were still available today.

Jefferson, Braves Struggle for First

Defending champion Washington collides with Jefferson today in a fight for 1st place in the Pontiac Junior High League basketball race. Game time is 3 p.m. on the Washington court.

Jefferson is unbeaten in three starts while the Braves have a 2-0 record.

Eastern meets Madison at Eastern's gym in this afternoon's remaining Junior High League contest.

CHIEF FOE—The player Pontiac will have to watch tomorrow night in the big game against Saginaw will be Deb Blondin, 6-foot forward who is the second best scorer in the Saginaw Valley Conference to date with a 16.1 average. Five Trojans are among the league's top 20 scorers.

Ladewig Returns to TV Bowling

DETROIT (AP)—Marion Ladewig of Grand Rapids, six times the national individual match game bowling titlist, will appear on "Bowling Champions" Saturday evening against former match game champion Sylvia Wene of Philadelphia.

In her last "Bowling Champions" television appearance (WXYZ-TV, 5:30 p.m.) the Grand Rapids woman bowled 215-219-227 for a 661 series.

The Leafs, however, rallied and made a battle of it in the final period as Sid Smith and Dick Duff beat goalie Jacques Plante.

Montreal Wins to Extend Lead

Canadiens Beat Toronto 3-2 to Push Margin to Five Points

By THE ASSOCIATED PRESS

The Montreal Canadiens rapidly are making shambles of the National Hockey League race.

After a slow start they now hold a 5-point margin over the second place Detroit Red Wings following a 3-2 triumph over the Toronto Maple Leafs in the league's only game last night.

The victory stretched the Canadiens' unbeaten streak to 9 games put together with 8 victories and 1 tie.

Toronto's defeat kept the Leafs from stretching their one-point margin over the New York Rangers in their duel for the fourth and last position in the Stanley Cup playoffs.

Montreal scored all of its goals in the second period with Jean Beliveau, Henri Richard and Dick Moore coming through. Moore's goal was his 21st of the season and his ninth against Toronto.

The Leafs, however, rallied and made a battle of it in the final period as Sid Smith and Dick Duff beat goalie Jacques Plante.

NEW ORLEANS (AP)—The Football Rules Committee of the National Collegiate Athletic Assn. diagnosed the game "pretty good as it is today," but cracked down on face mask grabbing as a growing danger.

The three-day sessions ended yesterday with Committee Chairman H. O. "Fritz" Crisler, athletic director at the University of Michigan, terming the get-together "unusually satisfying."

The committee, endowed by the NCAA with final say on football legislation, imposed a 15-yard penalty for protective face mask grabbing and declined to expand the present substitution rule.

E. E. "Ted" Wieman, committee secretary and athletic director at the University of Denver, said the 25-man group felt the practice of grabbing the masks could lead to "dangerous situations."

Strict enforcement of the new ban will be left to the officials, Crisler said.

Expansion of the substitution rule, proposed by retired Columbia University Coach Lou Little as a representative of the Ameri-

"Confusion Bowl" Dems, GOP in Battle on Basketball Court

COLLEGE PARK, Md. (AP)—Without a speaker to call them to order, a group of Republican and Democratic congressmen roamed the basketball court in organized confusion last night.

The 10-minute game, played at halftime of the Maryland-Georgetown college game, ended in a 106-106 tie.

The competitors used a regulation ball and shot at regulation baskets, but both parties introduced several amendments to the game known as basketball.

There were nine men on each squad and none was pigeon-holed because they all took the floor at the same time. The usual plan of attack was three men in the back court and six in the front court.

The resulting congestion got fairly rough at times and loads of fouls were called. But instead of debating the calls, the congressmen stepped bravely to the foul line—and missed.

William "Fish Bait" Miller, doorkeeper in the house for 25 years, introduced the players to the crowd of 5,000 in the University of Maryland Fieldhouse and kept up a running commentary over the public address system.

Rep. Jack Westland (R-Wash.) and Rep. Earl Wilson (R-Ind.), left to right, attempt to find the handle on the ball. In two, three-minute periods, the game finished in a 106-106 tie. Wait—both teams were given 100 pts. each at the start.

Rep. Jack Westland (R-Wash.) and Rep. Earl Wilson (R-Ind.), left to right, attempt to find the handle on the ball. In two, three-minute periods, the game finished in a 106-106 tie. Wait—both teams were given 100 pts. each at the start.

Antitrust Laws Face Pro Football

WASHINGTON (AP)—The government contended today that professional football is a business and ought to be subject to federal antitrust laws.

Solicitor General L. Lee Rankin took this position in a brief filed with the Supreme Court, which scheduled oral arguments this afternoon in a suit charging the National Football League (NFL) seeks to monopolize pro football.

The suit was filed by William Radovich, former lineman for the University of Southern California and the Detroit Lions. Radovich claims \$105,000 in damages from the NFL, its Commissioner Bert Bell, the nine remaining clubs that were in the league in 1948, and others.

Radovich says he was boycotted because he jumped from the Lions to the Los Angeles Rams of the defunct All America Conference.

He also says the NFL prevents players from becoming free agents by use of a contract reserve clause and a blacklist. The reserve clause binds a player to a club.

Losing out in the lower courts, Radovich appealed to the Supreme Court.

The government entered the case as a "friend of the court."

"The business of professional football enjoys no general exemption from the Sherman (Antitrust) Act," Rankin's brief said.

The government contended the lower courts were wrong in saying the Supreme Court's decision on organized baseball required a ruling that "professional football, no matter how interstate its character, is not subject to the Sherman Act."

The Supreme Court has held that baseball is not a business subject to federal antitrust laws.

Radovich's lawyers, however, cited high court decisions putting professional boxing and legitimate theater bookings under antitrust jurisdiction.

NFL attorneys replied in their brief that "the pattern of the organization and operation of professional football is identical with that of organized baseball."

Then, on Dec. 14, 1954, the NBA dethroned Saddler for failing to defend his crown within a six-month period. The New York State Athletic Commission declined to take similar action.

The New York commission also leans toward Saddler's corner in the latest hassle.

"We're not going to take any man's championship away if he's got a legitimate reason for not fighting," said Chairman Julius Helfand. "His condition will be determined shortly and the New York commission will act accordingly."

Helfand explained he had ordered Charley Johnston, Saddler's manager, to bring the fighter to the commission's office tomorrow for a physical examination. However, since Johnston's wife is hospitalized in Miami, he said it would be all right for the exam to be postponed until next Friday.

Temporary NBA Order

Strip Saddler of Crown

MILWAUKEE (AP)—Spindly-legged, Sandy Saddler, no longer the boss of the pro featherweights in the eyes of the National Boxing Assn., will have a chance to regain the championship by proving "physically unfit" next week.

The NBA stripped Saddler of his crown yesterday for failing to sign for a title defense, but said it would "reconsider" after he undergoes a physical examination.

Saddler was injured in an auto accident last July and hasn't fought since. He last defended the 126-pound title on Jan. 18, 1956 when he stopped Flash Elorde of the Philippines in the 13th round.

This marks the third time, in and out of the ring, that Saddler has lost the championship. He first lost it to Willie Pep on a 15-round decision Feb. 11, 1949 after he had won it from the Hartford, Conn. fancy-Dan four months earlier.

Then, on Dec. 14, 1954, the NBA dethroned Saddler for failing to defend his crown within a six-month period. The New York State Athletic Commission declined to take similar action.

The New York commission also leans toward Saddler's corner in the latest hassle.

Philgas 5 Upended, Drug Tops League

Philgas lost its chance to tie Drayton Drug for 1st place in the Waterford League basketball race when Matthews-Hargreaves unloaded a 68-60 upset win last night at Isaac Cray Junior High.

Gino Apolloni meshed 19 points to spark Matthews-Hargreaves. A 20-point effort by Jerry O'Shaughnessy of Philgas was tops for the evening.

The Drug quintet is now in sole possession of the league lead with a 6-1 record. Philgas occupies the runner-up spot on a 5-2 mark.

NEW ORLEANS (AP)—The Football Rules Committee of the National Collegiate Athletic Assn. diagnosed the game "pretty good as it is today," but cracked down on face mask grabbing as a growing danger.

The three-day sessions ended yesterday with Committee Chairman H. O. "Fritz" Crisler, athletic director at the University of Michigan, terming the get-together "unusually satisfying."

The committee, endowed by the NCAA with final say on football legislation, imposed a 15-yard penalty for protective face mask grabbing and declined to expand the present substitution rule.

E. E. "Ted" Wieman, committee secretary and athletic director at the University of Denver, said the 25-man group felt the practice of grabbing the masks could lead to "dangerous situations."

Strict enforcement of the new ban will be left to the officials, Crisler said.

Expansion of the substitution rule, proposed by retired Columbia University Coach Lou Little as a representative of the Ameri-

can Football Coaches Assn., met with strong opposition, Crisler said.

Under the plan offered by Little, substitutes as well as starters would be permitted to return to the game once each quarter. The present rule allows only starting players to return once each period.

The committee also took action to strengthen what Crisler termed

can Football Coaches Assn., met with strong opposition, Crisler said.

Chips Retire Podoley's '62'

MT. PLEASANT (AP)—The number "62" worn by star halfback Jim Podoley will be retired at Central Michigan College.

It's the first time in the history of the school a football player's number has been taken out of active use.

Podoley, an all-around athlete, lives in Mt. Morris. He averaged more than 40 yards per touchdown in scoring 51 times in the four years he played on the Chippewa varsity. He won the Kansas relays decathlon twice.

Podoley, who was a fourth round choice of the Washington Redskins in the National Football League draft, will be honored during the halftime of tomorrow night's basketball game against Eastern Michigan College.

OCSC Rifle, Pistol Clubs Pick Officers

The two rifle and pistol clubs in Oakland County Sportsmen's Club this week named their officers for 1957, with John Treeful and Milt LaPorte heading the respective groups.

OCSC Rifle and Pistol Club retained all officers as follows:

President, John Treeful, Ferndale vice president, Frank Stephens of Ferndale; secretary-treasurer, Merrick Guy of Ferndale; executive officer, Robert Gubins of Birmingham; instructor, Bert Bean of Flint and assistant instructor, Kjell Danielson, Pontiac.

David B. Wilson Rifle and Pistol Club officers are president, Milton LaPorte of Royal Oak; vice president, George Foxworth of Drayton Plains; secretary-treasurer, Fred Mayer of Pontiac; executive officer, Cash Bond of Pontiac and instructor, Emmett Teeley, Commerce.

To coordinate the programs of the two rifle-club and of the recently organized pistol club with the parent organization, the Oakland County Sportsmen's Club, and with the Michigan Rifle and Pistol Association, the following rifle and pistol committee members were elected:

Chairman, Robert Gubins; committee, Fred Mayer, John Treeful, Milton LaPorte, Merrick Guy (secretary), Cash Bond (public relations).

Top Bowlers in Elks Meet

By CHUCK ABRAH

Some of the outstanding bowlers in Michigan will be seen in action on local alleys during the next eight weekends as Pontiac Elks Lodge 810 holds the annual state bowling tournament.

Competition begins Saturday afternoon at the Elks and Huron Bowl with team, doubles, and singles play to be held each weekend as contestants from 41 different alleys battle for top honors.

There will be a wealth of fine talent in action every week during the major event for state Elksdom with some former records likely to be topped by the highest number of entries in history.

Pontiac will be well represented with some 106 teams taking part. The big names among city entries

include Les Rothbarth, William Bull and Joe Bonfiglio.

Rothbarth ranks with Pontiac's all-time best. He has been averaging over 200 recently and will be gunning for a repeat of his 1952 performance of dominating the singles play. Les took the handicap division with a 701 and won in actual pinfall with 671 in that tourney.

Bull has been active in a Detroit league and has been hitting 200 or better consistently. Bonfiglio, well known manager at the Huron Bowl, is another who can knock them over with the best.

Appearing from Detroit will be Hal Allen, who gained fame with his late brother several years ago as the youngest pair to win

an ABC doubles tourney, Herb Case and Ed Haines among others. Case ranks high in Motor City circles. Haines formerly starred in Elks National competition and was state champion in 1955.

Saginaw resident Claude Schultz, a very popular and able kegler there and around Detroit, will be another big name to watch during the meet along with such Royal Oak area stalwarts as Tom Wilson, Bill DeWitt, Hal Vanderbeck and Gene Brannock.

Three gents who have ranked with Muskegon's best in recent years will lead the delegation from that sports-conscious city. They are Ray Meiser, Alfonso Giocco and "Doc" Binkley. Vin Baldwin, a runner-up in state play one winter, tops a group of Battle Creek bowlers coming to town near the final stages of the tournament. Others from that area include Ed Tesser, Don Hainline and Bob Nisbet.

Grand Rapids will be the sixth ranking city in the number of entries but is certain to be represented by some of the more experienced tourney stars. Kaminski's Market of the Furniture City will be out to regain the team award it won in 1953.

That aggregation is led by Ed Danowski, who has been among the top 10 bowlers in Grand Rapids for the last 15 years. He boasts several 700 scores with a high series of 762 and has a high single of 299 and a 1800 series in match play.

Ed Duba was city champ there several times and has finished high in ABC tourneys. Many of the Grand Rapids' boys will take part in the Peterson Classic in Chicago before coming here.

These big names and many more give an indication of how big an event the local Elks will be putting on Saturday through March 10.

Maples Meet Hazel Park

Birmingham and Hazel Park are still searching for their first victory in the Eastern Michigan League basketball race, but one of them is destined to lose that distinction before the evening is through. The two schools face each other in a battle of cellar-dwellers to-

night at Hazel Park. Both teams have 0-2 league records.

Birmingham has dropped EML decisions to Mt. Clemens and Fort Huron and a non-conference verdict to Royal Oak while compiling an overall season mark of 3-3. Hazel Park lost to East Detroit and Mt. Clemens in its only starts.

Forward Bob Isbell has been the mainstay of the Maple attack thus far with 111 points in six games for an 18.5 average.

Louis Pavloff is Hazel Park's best point-maker. The Vikings were heavily damaged by graduation this season.

Colts Sign McMillan

BALTIMORE (AP) — Charles "Chuck" McMillan, Baltimore Colts defensive halfback who spent the last two years in the Army, signed his 1957 contract today. McMillan was discharged from the service last fall. He is the fifth player to come to terms.

BALTIMORE (AP) — Charles "Chuck" McMillan, Baltimore Colts defensive halfback who spent the last two years in the Army, signed his 1957 contract today. McMillan was discharged from the service last fall. He is the fifth player to come to terms.

Warren Giese Stays at South Carolina

COLUMBIA (AP) — Warren Giese has let the cat out of the bag. He finds the head football post at the University of South Carolina "wonderful" and intends to stay there.

Despite a reportedly tempting offer of \$17,500 a year from the University of Houston, Giese announced last night that he is going to continue at South Carolina. The 32-year-old coach conferred Tuesday night with University of Houston officials, returning yesterday to huddle with South Carolina President, Donald Russell and Athletic Director Rex Enright.

Chicago — The pro Cardinals head coach Ray Richards played his college football for Nebraska in the 1927-29 seasons.

Duncan Lanum, Dartmouth's 1956 freshman captain, is a heavy-weight wrestler on the Indiana varsity.

Cadilli Scores Upset Victory

BOSTON (AP)—Miguel Berrios' upset loss to Gil Cadilli today added further confusion to boxing's unsettled featherweight division.

Cadilli beat Berrios, the second-rated feather contender, on a split decision in a nationally televised 10-round bout last night at Mechanics Building.

The verdict came only a few hours after the National Boxing Assn. stripped Sandy Saddler of the title for not defending his championship within a specified time.

Cadilli, who weighed 127½ and who is an unranked club fighter from San Francisco, won on the identical 99-95 point-system voting of Referee Eddie Bradley and Judge Johnny Slavo. Judge Joe Santapio voted for Berrios, 98-95.

Brother Was Judge

DENVER (AP)—Cowboys suspect rodeo Judge Jim Tescher of Sentinel Butte, N.D., of throwing his weight around behind the scenes at the National Western Stock Show Rodeo.

His brother, Tom Tescher, scored exactly zero in bronc riding Tuesday. Yesterday Tom reappeared wearing this sign: "I'm Tom, not Jim—go kin."

Prep Loop Leads at Stake

Leadership of eight leagues will be at stake Friday night in several important high school basketball games around the Oakland County area.

Heading the list is the battle of Saginaw Valley Conference giants in the Pontiac High gymnasium. The Chiefs, boasting a 4-0 record, tangle with Saginaw (3-1).

Pontiac can take a huge stride towards wrapping up the SVC title or it can stumble and share the lead with the Trojans.

Another battle of giants is scheduled in the Eastern Michigan League at Port Huron where the defending champion Big Reds encounter unbeaten East Detroit. The Huron quintet, stung by Ferndale two weeks ago, can bounce right back into the picture with a triumph over the Shamrocks.

Ferndale's EML scrap with Mt. Clemens on the Bather court is also important. The Raisinplitters, beaten only by East Detroit, could further complicate matters by downing Mt. Clemens (2-0).

Walled Lake's perfect mark and Inter-Lakes Conference lead go on the block against invading Farmington. Berkley will gun for victory over Van Dyke and hope for the Vikings to be upset, thereby creating a three-way tie for 1st place among Walled Lake, Berkley and Farmington.

A Lake Orion upset over unde-

feated Troy coupled with a Madison triumph at Roseville would cause a two-way tie for the top in

the Oakland-B League. Clarkson could deadlock Northville for 1st spot in the Wayne-Oakland Conference with a decision over the rangy Mustangs.

The No. 1 game among the smaller schools will be the Suburban Catholic League struggle at Highland Park between Orchard Lake St. Mary and St. Benedict. Both teams are unbeaten in conference competition.

Imlay City and Millington, each carrying a 2-0 record, fight for the South Central Conference lead while the New Haven-Dryden and Almont-Brown City encounters involve leadership of the Southern Thumb circuit.

Defelice Goes Into Bruin Cage Tonight

BOSTON (AP)—Rookie Norm Defelice took over as the Boston Bruins' regular goalie today with Terry Sawchuk suspended for quitting the National Hockey League club and pulling a disappearing act.

The 23-year-old Defelice, who started out the 1956-57 season as a spare goalie for Hershey in the American Hockey League, will be in the net for tonight's game against the Detroit Red Wing at the Boston Garden.

Sawchuk was suspended by the Bruins yesterday less than 24 hours after he told club officials he was quitting hockey. The suspension could result in a lifetime ban against Sawchuk, one of the NHL's top paid players.

"The suspension stands unless we find that Terry is still a sick man," Coach Milt Schmidt said. "If he is, then I'll be the first to go to his aid, and when he is

completely well the club will welcome him with open arms."

The 27-year-old Sawchuk informed Schmidt of his sudden decision to quit Tuesday and then disappeared. He told Schmidt he planned to return to his home in Milford, Mich., but it was believed he was in seclusion in Boston. He has a plane reservation to fly to Detroit tomorrow morning for an interview on a Canadian television show.

Syracuse vs. Philadelphia at Boston			
St. Louis at Boston			

Sawchuk, the league's all-star goalie in mid season balloting, was stricken with infectious mononucleosis, a blood disease, and sidelined for two weeks last month. Defelice replaced him in the Boston goal.

Sawchuk is considered by many as the top goal tender in hockey. He draws a salary reported as high as \$15,000 a year, but told Schmidt Tuesday he "didn't care about the money."

AL Night Tilts at Record 237

CHICAGO (U) — The American League opens its 1957 baseball season with the traditional "presidential opener" at Washington April 15 and follows up with a record schedule of 237 night games.

The previous high in night contests was last season when 228 were scheduled and 226 played.

The Baltimore Orioles will open at Washington in which the President or some other national figure will toss out the first ball, officially inaugurating the new campaign.

Other openers on April 16 find Chicago at Cleveland, Detroit at Kansas City, Washington at New York and Boston at Baltimore.

Boston, Detroit and Chicago stage their home openers April 18. New York will be at Boston, Cleveland at Detroit and Kansas City at Chicago.

Heading the night game parade are Baltimore and Kansas City. Both have booked more than half of their 77 home games under the lights. The Orioles have 41 night

games scheduled and Kansas City has 43. Washington has 38, Cleveland 31, Chicago 22, Detroit 21, Boston 18 and New York 17.

Only Washington, Kansas City and Chicago play less than night games in 1957 than 1956. The White Sox and A's play 1 less home night game than the previous season while Washington has scheduled 7 less.

Detroit played only 14 home night contests in 1956. Baltimore added 5 more, Boston 4 and Cleveland and New York 1 each.

Although the world champion New York Yankees are expected to repeat with ease, Detroit, Chicago, Cleveland and Boston appear solid contenders.

Three of the top five rated teams finish the season at home. They are Boston, Detroit, and Chicago.

Doubleheaders are scheduled on all three holidays — Decoration Day, the Fourth of July and Labor Day. In twin bills May 30 Cleveland plays Chicago, Kansas City at Detroit, New York at

Washington and Baltimore at Boston.

July 4th doubleheaders have Chicago at Kansas City in a morning-afternoon affair, Detroit at Cleveland and Boston at New York. Washington is at Baltimore.

Labor Day doubleheaders have Washington at Boston, New York at Baltimore, Kansas City at Cleveland and Chicago at Detroit.

WHAT IS A BARGAIN?

Remember This — It Takes More Than Price to Make Good Value!

In these days of high prices when we see and read so much of BARGAINS... BARGAINS... BARGAINS it is well to consider just what comprises a good value and a bargain. We believe a bargain to be an unusual offering caused by an unusual event or condition that actually forces a reduction in price but not a reduction in quality. On such an occasion one can buy quality at a sacrifice and still get quality, because we are forced through absolute necessity to dispose of our merchandise stocks during the next 15 days regardless of cost, or loss of profits. Nothing like it will ever happen again. If you are looking for genuine money-saving bargains you will be here Friday morning, promptly at 9:00 o'clock, when the doors open.

BLUE OR PINK? — This handsome crib was especially made for the expected child of Princess Grace and Prince Rainier III of Monaco. Three hundred hours were devoted by craftsmen to the rattan wickerwork, which is lined with quilted satin.

Clubs Working on Delinquency

Boys Form Groups to Halt Damage; Name Is Kiwanis Key

NEW YORK, N. Y. — Fighting against juvenile delinquency and vandalism, Kiwanis Key clubs made up of young conscientious Americans are earning recognition and respect throughout the country. Dedicated to prevent damage, protect the properties of others and abstain from any type of vandalism, youngsters have been attacking local problems with tremendous zest—and results—reports a recent issue of a national magazine.

The first Key club was created in 1925 as a means to correct serious juvenile problems. In 1942, with the help of local Kiwanis clubs, Key International was formed. Today 1443 clubs in the United States and Canada with a membership of 34,000 are attacking national problems with potent impact.

In Dallas, Tex., Key club activities called a halt to ugly teenage terror and damage that had been plaguing the city for some time. In Pennsylvania Key clubbers sponsored an effective drive to rid communities of horror-crime comic books, and in New Hampshire Key

club members prepared and distributed anti-vandalism posters and made moving radio and television appeals to stop all acts of vandalism.

"We've never lost a club for lack of membership or lagging interest," claims Frank McCabe, director of Key Club International.

'Big' Grain of Salt for Atomic Research

GRAND SALINE, Tex. (AP) — If you want to take something with a grain of salt, better specify the exact size now.

A salt mine here made itself quite a hunk of salt recently.

It cut a block three feet wide, three feet high and three feet six inches long, and weighing two tons.

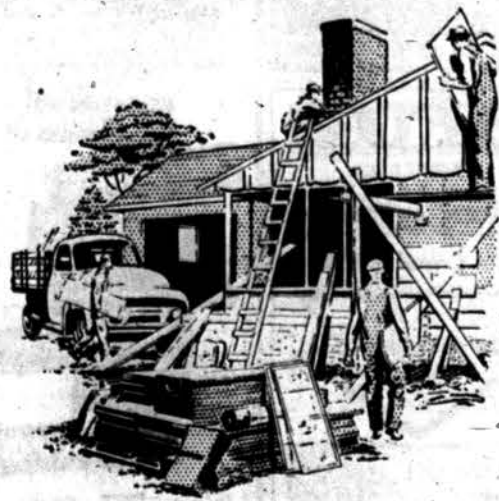

The salt was shipped to the University of Texas at Austin, Tex., where scientists will use it to determine if salt domes can be used to dispose of radioactive wastes.

Jerez, Spain, Is Source of True Sherry Wine

JEREZ, Spain—It takes five to seven years for a newly planted Palomino grapevine, the source of Spanish sherry, to yield in any volume.

Average production for one vine per year is about 7 pounds. When these grapes are grown outside the Jerez area the resulting wine is not sherry, but an ordinary table wine.

Are You Thinking of BUILDING

or Considering . . . Remodeling

YOU'LL SAVE TIME! We have house plans for your selection, divided into price groups. Remodeling plans are also available for many types of home problems. You save time in deciding what you want done, and we save you time because we do the job faster.

YOU SAVE MONEY! We save you more dollars on every type of construction because our trained crews know how to save time . . . thereby saving you money! Our volume business enables us to purchase at a lower price . . . also saving you money.

Projected Visit by Marshal Tito Still Not Denied

WASHINGTON (AP)—A congressional observer said today the government may invite Yugoslav President Tito to visit the United States — but not until after Congress adjourns.

The source, asking not to be quoted by name, said he thinks officials will try in this way to avoid giving undue offense either to the Yugoslav government or to protesting members of Congress.

There have been reports, unconfirmed officially, that Tito has already been invited to come to this country, possibly in April.

In a House speech yesterday, Rep. Keating (R-N.Y.) said that no matter how Tito's "apologists in official circles may feel" the Yugoslav President is not welcomed by the people or Congress of the United States.

Keating, a senior Republican who often handles administration legislation, added, "If an invitation to make a state visit here has not been extended to him, the idea should be immediately abandoned. If an invitation has been proffered, it should be promptly withdrawn."

Another Republican, Rep. O'Konski of Wisconsin, told the House he would resign from Congress if Tito came to this country as an official guest.

India's automobile output has increased by more than 50 per cent, but the vehicles are largely assembled by parts imported from abroad.

Can McDonald Explain Stories?

LOS ANGELES (AP)—Marie McDonald tells her kidnapping story to the county grand jury today.

British actor Michael Wilding, her escort of recent months, also has been subpoenaed to tell what he knows of it. So have 13 other persons, including her former husband, shoe magnate Harry Karl, and her mother Mrs. Marie Tuboni.

Presumably "The Body," as the shapely blonde has been tagged by press agents, will be asked to explain what a grand jury spokesman described as "glaring inconsistencies" in her accounts of the crime.

Egg Exports Increase

OSLO (AP)—Norwegian egg exports in the first three quarters of 1956 compared with 671 tons in the corresponding 1955 period.

Hollywood Headlines

Jackie Coogan Embarks on New Phase of Career

By BOB THOMAS

HOLLYWOOD (AP)—"It's just like old times," said Jackie Coogan as his career started to take off again.

Jackie is currently enjoying his best role in years — playing Joe E. Lewis' pal, Swift Morgan, in "The Joker Is Wild." He had to turn down five other parts because the Frank Sinatra picture kept him tied up through December.

The story of the Coogan revival goes back a year and a half to a drama he did on the Climax TV show.

When the producer, Martin Manulis, launched his ambitious Playhouse 90 series he thought of

Jackie for a role in the first show, "Forbidden Area." Sinatra happened to catch Jackie as the comical Air Force cook, hurriedly phoned director Charles Vidor.

"Turn on your TV set; I've found our Swift," Sinatra said. Vidor had been watching the show and quickly agreed.

"It's a real thrill for me," Jackie remarked, "and not merely because it's the best part I've had in a long, long time. My folks lived next door to Swift in Chicago; I've known him since I was three years old."

Jackie calculated this is the fifth or sixth time he has been discovered in his 40-year career. He did his first film role at two for the old Essanay studios in Chicago.

He started "The Kid" with Charlie Chaplin at five and finished it at six.

"The Kid" made Jackie the great child star of the silent era. His top salary with his own production company at Metro: \$22,500 a week. His father also drew \$5,000 a week as producer.

He managed to stay in the limelight as an adolescent in films like "Huckleberry Finn" and "Tom Sawyer." Later he made college pictures with his ex-wife, Betty Grable. After the war, he did a couple of GI pictures with Jackie Cooper and was set for a lush five-year deal But Cooper mixed the plan to go on the stage.

In recent years, Coogan has done a TV series, "Cowboy G-men," many TV shows and occasional pictures. Once he subbed for another comic in a two-week night club date here, stayed for 16 weeks and toured the country for 2 1/2 years.

No Red Shirt, Red Face

MCLESTER, Okla. (AP)—Robert Stevenson, a deer hunter from Shawnee, Okla., was red faced because he forgot his red shirt. Gage Ranger Marion Geter arrested Stevenson for being without the Oklahoma required hunting color. He was fined \$10.

Latest Favorite Island Paradise

Hawaii Calls; Scenery, Sun, Fruits, Flowers—Plenty of Places to Stay

HONOLULU, OAHU—This land of sun, pineapple juice and orchids is catching up with Bermuda and the Caribbean as America's favorite tropic isle. Some 130,000 tourists in search of sand, sea and serenity traveled to Hawaii in 1956. This record influx, statistics show, netted Hawaii a greater increase in tourism for the year than any other resort island.

By 1959 when jet service cuts flying time to Hawaii from eight to under five hours, the islands will be ready to put up twice as many tourists as they do today. Waikiki, for example, is now undergoing a multi-million dollar face-lifting to provide more hotel and beach space. And inns are abounding above the palms all over the archipelago.

Typical of the brand new hostilities is Kaiser's Hawaiian Village with its landscaped gardens, thatched-roof cottages for guests and series of swimming pools, all built on reclaimed swamp land.

Another spectacular inn with 322 rooms smack on the beach at Waikiki is Roy Kelley's Reef Hotel, which adjoins the big, luxurious Edgewater. A score of cozy apartments and garden studios have sprung up along the Ala Wai Canal, just a barefoot hop from the beach. Rates without meals run as low as \$6 single or \$10 double.

HONOLULU ONLY SMALL PART OF HAWAII

Tourists should remember that Honolulu is not Hawaii — merely a tiny part of the island of Oahu. People who do manage to shake the sands of Honolulu's Waikiki from their feet can find their own private version of the South Seas on half a dozen neighboring islands.

Accommodations are springing up everywhere, and the scenic splendor of white beaches, coral gardens, green mountains, jagged cliffs, waterfalls and tropical foliage is endless.

Typical of the first-rate inns that have arisen on the outer islands is the Hana-Maui less than an hour and a half by air from Honolulu International Airport. The Hana-Maui specializes in guest cottages composed of bedroom, dressing room, bath and lanai porch opening on a terrace. Rates are \$25 a day for two with all meals, use of tennis courts, golf course and bathing facilities.

Actor Mulhare to Play the Lead in 'My Fair Lady'

NEW YORK (AP)—An arbitrator has ruled that Rex Harrison may be replaced by an Irish actor in Broadway's smash hit "My Fair Lady."

The dispute threatened to shutter the show when the producers announced last week that Edward Mulhare would fill in for Harrison when the star of the musical begins a four-week vacation Feb. 4. Actors Equity had protested the importation of a foreign actor. Equity claimed any trained American actor could play the part just as well.

Both sides accepted Theodore W. Kheel as arbitrator.

Kheel ruled in favor of Mulhare and his decision was accepted as binding by Equity.

Kheel, in his decision, noted that an equity resolution of last March—barring use of foreign actors—exempted shows in production or rehearsal at the time. At that date, "My Fair Lady" was in production.

Japanese Trade Zooms

TOKYO—Japanese exports during the first half of the current fiscal year (April-September, 1956) amounted to \$1,220,000,000, an increase of \$248,000,000 over the corresponding period of the previous year. Imports totaled \$1,632,000,000 in the six-month period—a rise of \$397,000,000.

Expert Inspection

Only the best can pass this test—and that's only their first step toward earning our OK trademark

We Chevrolet dealers can't take the credit for engineering rugged dependability into the many makes and models of used cars we take in trade. But we do take the responsibility for restoring it before we sell them as OK Used Cars.

We'll welcome your inspection too. Look all of them over carefully and see if the cars under the red OK aren't sounder buys. Thriftier buys, too, because more cars are being traded in on new Chevrolets than any other car—and big volume like that means big savings! Read about the other OK Used Car advantages—then come see these beauties for yourself!

RECONDITIONED FOR PERFORMANCE
We've trained experts and modern facilities to do this job properly.

RECONDITIONED FOR SAFETY
We rebuild that "like new" feeling of safety into OK Used Cars.

RECONDITIONED FOR VALUE
Restored so beautifully—you'd think they'd have to cost more!

HONESTLY DESCRIBED
Our cars live up to what we say about them. Our reputation depends on it.

SOLD WITH A WARRANTY
Our signature in writing shows we believe in the OK Used Car you buy.

USED OK CARS

CHEVROLET

Only franchised Chevrolet dealers display these famous trademarks

This Home Is an Orphan

Grayling Would Welcome Boys' Vocational School

LANSING 15 — The State Boys Vocational School, as welcome in most communities as a poke in the eye with a sharp stick, may have found a home.

Lansing, present unwilling host to the home for wardward boys, has been trying to get the school out of its near downtown location for years.

The most bitter complaints come from householders living in the neighborhood. The youngsters, many of them accomplished car thieves, go AWOL from the unfenced school as often as a dozen times a week.

More often than not they pick up a car—preferably new—so they can head off for the horizon in style.

Last year, the legislature approved a new location for the

school at Whitmore Lake, near Ann Arbor. But local residents were unanimous in their bowls of protest sounded at mass meetings.

But now the warm-hearted people of Grayling in the northern Lower Peninsula say they would be happy to take the home and the boys under their wing.

There's a direct contrast to the attitude at Whitmore Lake. There, local residents, groups from Ann Arbor and the Livingston County board of supervisors reacted as if they had been asked to play host to a leper colony.

At Grayling, Bob Hayes, secretary-manager of the Crawford County Chamber of Commerce, said Grayling would welcome the school.

"We recognize that it would be

as beneficial to us as a new industry," Hayes said.

The Grayling city council and the county board of supervisors also said they would welcome the school.

HAS NO FEARS

Grayling, with several prison camps in the vicinity, apparently has no fears about the teen-age delinquents.

"We would like to see if we couldn't help those kids," said Hayes.

Advantages cited include the unlimited space in the county, lower costs for maintenance and security, the availability of nearby hospitals and vocational training through the conservation department.

The legislature already has approved their purchase of 276 acres near Whitmore Lake for the school at a cost of \$30,000.

But the matter will come up again this session with Whitmore Lake residents already building up pressure on their legislators against the proposal.

Jack Lescoulie Gets Emcee Chore on New 'Tonight'

Tony Randall Scores in Film

MGM Due to Pile Up Fat Profit by Leasing Movie Backlog

By JACK O'BRIEN
NEW YORK (INS) — Jack Lescoulie gets the tough job of shepherding all those "Tonight" columnists on NBC-TV starting Jan. 28 as emcee of the show's Steve Allen and Ernie Kovacs leave behind.

Tony Randall, the "Harvey West" of "Mr. Peepers" fame, may be lost to TV for good: He's been pronounced so good in 20th Century-Fox's "Oh Men, Oh Women" comedy that he was signed to a long-term film pact after its first studio screening.

Sam Marx will head MGM's new TV film assembly line... Biggest offer MGM had to buy all of its old film backlog was \$35,000,000 (from promoter Matty Fox) but already, using a five-year lease arrangement, MGM has sold \$34,000,000 worth of leases — in only 29 cities.

This means MGM is in a splendid position — there are some 300 U.S. cities with TV stations and MGM gets the films back in the happy ending.

Meanwhile, the five-year lease arrangements permit stations leasing same to use them without limit — every night, if they choose.

PSYCHIATRIC FILMS
Paddy Chayevsky (Marty's author) will collaborate with the American Psychiatric Assn. in a filmed TV series.

Marlene Dietrich's reason for smooching regular TV: "I'm too old to be a serial queen."

Edgar Bergen is a terrible ventriloquist but part of his charm is that he admits it with such high humor.

Bing's Boy, Gary Crosby, had an Army disc jockey show in Frankfurt, Germany, mostly jazz.

Muntz TV says it'll have a \$29 color set this spring...

NEWER MOVIES
The big push is on to free post-1948 films for television...

Ted Berkelman, upon considering TV's untidy material, says the motto now seems to be: "I'll toss you — double entendre or nothing."

Ten years ago TV sets totaled a few more than 15,000; today we have about 37,000,000.

Paramount bought the Dot record label.

We still insist, even as Lawrence Welk, Vincent Lopez and Guy Lombardo proved in their far more frilly school of ricky-tick music on TV, that there can be a very real spot somewhere along the TV dial for a good jazz program.

Trouble with too many jazz shows which tried and sank in their channels was pure pretentiousness, or compromising with taste, with what is real jazz.

WHY BE JEALOUS?
Why are stars so bitterly jealous of getting their TV salaries raised beyond the law of diminishing returns when they simultaneously complain and boast that "We can't keep it, anyway, with taxes this way."

The way they're cutting out movies to fit into TV schedules, they'll probably release "The Four Horsemen" two at a time.

Lewis Explains Why He Dislikes Hollywood

By EARL WILSON

NEW YORK—Jerry Lewis was up in his hotel suite putting golf balls into an electrical dings that shot the ball back when he got it in the cup.

"Why are you doing this week's big Saturday night TV show here instead of in Hollywood?" I asked him.

"Because I don't like Hollywood studio audiences and I never did!" Jerry's eyes blazed through the glasses he wears because of headaches.

"I don't think you ought to say that," interrupted a friend in the corner.

"Why shouldn't I say it? It's true!" Jerry pointed the putter at me. "They're the same audience every show, and they're blasé. I can name the audience to you. There's Sylvia who wears a busted shoe she never got fixed, and Harry who brings some sandwiches that stink up the place. Who do you think goes to those shows? Guys that can't get jobs."

"I had one audience that looked like 600 fuzzy nights."

"That's not a nice thing to say about Dean Martin's relatives," joked Jack Keller, Jerry's publicist and pal.

"I'm a hambone and I like people to like me. And I love New York," resumed Jerry. "When I go down the street here people say 'Hi, Jer, glad to have you back in town.' Know what they say in Hollywood? 'Get out of my way, jerk!'"

"And the New York hotel operators say 'Mr. Lewis, gee, we're happy you're back.' But in Los Angeles when I say 'This is Jerry Lewis,' they say, 'So what?'"

THE MIDNIGHT EARL...

Grace Kelly's favorite photog, Howell Conant, and big staff leave shortly for Monaco to shoot the baby. (Press Agent Rupert Allen of the Arthur Jacobs office flew there to herald it) ... Barbara Hutton, wearing ocelot now, says, "I'm so sick of mink."

LILLO

Lilo's opening was a chi-chi and heavily black tie affair.

Duo: Garbo and Baron Rothschild... Roy Rogers is having trouble shaking off a virus he picked up in Africa.

Earl's Pearls...
Tommy Mara thinks the reason romances lasted longer in the old days is because the bride looked the same after washing her face.

WISH I'D SAID THAT: "A little common sense would prevent many divorces. Marriages, too."—Anna Herbert.

TODAY'S BEST LAUGH: Jan Murray met a guy with an unusual job—he makes the rounds of the cars at a drive-in, telling the couples the film's over.

Oh for the good old days, sighs Lisa Kirk, when the pan-handlers asked for a nickel for a cup of coffee, and so did the restaurant owners... That's earl, brother.

To Probe Proposal Cutting AF Funds

WASHINGTON (AP)—Sen. Russell (D-Ga.) said today he is looking into a proposed \$1,209,000,000 cut from last year in authorizations for Air Force funds.

Both he and Sen. Jackson (D-Wash.) said in interviews they are pleased with President Eisenhower's budget proposals to increase actual spending by all three services during the year ending June 30, 1958. But both said they will question military officials closely about budget plans.

The budget sent to Congress yesterday proposes a \$82-million-dollar increase, to \$17,472,000,000, in next year's Air Force spending from both old and new appropriations. Authorization for new spending, at \$16,481,000,000, would be \$1,209,000,000 below the amount

Judy Garland Contract Canceled by CBS

NEW YORK (AP)—The husband of Judy Garland says the Columbia Broadcasting System has ended its three-year contract with the singer two years ahead of the expiration date.

Last week, CBS said it had dropped plans for Miss Garland's Feb. 25 show, which would have been her second program under provisions of the contract—calling for one show a year for three years.

TEL AVIV—Israel's first oil field, the only one discovered so far, is estimated at more than 50,000,000 barrels. Discovered in 1953, the field six miles north-east of the Gaza Strip has nine flowing wells.

HOUSTON, Tex. (AP)—A former policeman who gained fame as an undercover narcotics agent was fined \$500 after pleading guilty to a charge of felony theft of an automobile.

Texas J. Foster, 30, entered the guilty plea under a statute that says if stolen property is returned voluntarily before prosecution is started, the maximum punishment is a fine of \$1,000.

In 1952, Foster was named one of the nation's 10 outstanding young men by the U. S. Chamber of Commerce for his work as an undercover narcotics agent. He now works as a private detective.

Former Agent Pleads Guilty to Theft of Auto

Mrs. Nancy Oechler, a neighbor, got Sandra out, then tumbled in while trying to help Mrs. Rynarzewski.

Neighbor Mitchell McFarland and an unidentified truck driver pulled the two women out. They did it without falling in.

Mrs. Rynarzewski ran from her home and hauled Leona to safety, but when she tried to lift Sandra, she fell in.

Icebergs Having Excellent Year

Navy Patrol Reports Antarctic Whopper 208 Miles Long

WASHINGTON — Cold weather note: Antarctic icebergs are having an impressive year.

Mammoth islands of ice—Antarctica's largest export—drift into the world's southernmost shipping routes in November, December, and January, the National Geographic Society says.

Recently the Navy icebreaker Glacier spotted a flat-topped iceberg estimated to be 208 miles long and 60 miles wide. The biggest ever seen, it was roughly the size of Massachusetts and Connecticut combined.

From Greenland, meanwhile, icebergs of a different type are voyaging southward toward the North Atlantic's crowded shipping lanes. The 400 or so ice masses that survive the 1,500-mile journey normally make their appearance in March, April, May, and June.

Though North Atlantic ice conditions have been relatively light in recent years, the greatest danger zone still exists off the Grand Banks in seas where the Titanic foundered in 1912.

Icebergs in those fog-shrouded waters had been the terror of transatlantic navigators for centuries.

Alertness of ice patrol planes and ships—aided by such tools as radar and loran—now prevents collisions. But only the attrition of pounding sea and warming waters can destroy the icebergs. They have resisted experimental demolitions.

How are icebergs born? In Antarctica the largest and commonest type—a lustrous white rectangle with smooth top and clifflike sides—becomes dislodged from shelf ice extending many miles seaward.

Major Arctic icebergs are produced by about 18 large glaciers on Greenland's west coasts. As inland ice streams touch the sea, buoyancy breaks off irregular chunks. Size and shape vary widely, but the most distinctive form is 300 to 500 yards long with spires rising perhaps 250 feet.

Poor Rescue Efforts Land 4 in River

BALTIMORE (AP)—Sandra Phillips, 11, fell through the ice into Back River. Her friend, Leona Rynarzewski, also 11, tried to pull her out and fell in too.

Mrs. Rynarzewski ran from her home and hauled Leona to safety, but when she tried to lift Sandra, she fell in.

Mrs. Nancy Oechler, a neighbor, got Sandra out, then tumbled in while trying to help Mrs. Rynarzewski.

Neighbor Mitchell McFarland and an unidentified truck driver pulled the two women out. They did it without falling in.

Mrs. Rynarzewski ran from her home and hauled Leona to safety, but when she tried to lift Sandra, she fell in.

Snarling Roles, Shocking Acts, Bogey's Chief Line

on the career and off-screen life of one of Hollywood's most fabulous characters. Humphrey Bogart, who died Monday of cancer.

By LEE BELSER

HOLLYWOOD (INS) — "I'd never hit a lady. They're too dangerous."

Humphrey Bogart was talking, elaborating his denial of reports he had shoved two glamor girls across a New York nightclub floor because they tried to grab his companion of the evening — a stuffed panda.

Incidents and off-hand remarks like that helped Bogey build in private life a tough-guy reputation to match his snarling screen roles. But the screen character and reputation came first.

In 1936, while King Edward VIII was abdicating the throne of England for "the woman I love," Bogey was finishing up the movie that was to make him famous and the role that was to stamp him as a rugged, red-hot, name-calling individualist.

The movie, of course, was "The Petrified Forest" and the role was Duke Mantee, a stubble-faced convict who spent hours fiddling with the fears and emotions of the inhabitants of a roadside cafe.

A one-time brokerage house messenger in New York, son of a physician father and artist mother, Bogart stormed his way into the theater because he craved an exciting life and the privilege of being important enough to wear sneakers and dungarees to holy-toity places.

He was barred from several nightclubs, not because of his dress, but because he occasionally liked to have too good a time, by his own standards.

He loved to shock people almost as much as he loved to sail his yacht and he never bothered to separate the women from the ladies. Once he plopped down between two distinguished but slightly inebriated pillars of society and commented:

"These dames will be flat on

the floor in 20 minutes."

With the exception of his handsome wife, Lauren Bacall, the colorful actor had a high disdain for most females and repeatedly branded movietown glamor gals as "95 per cent stupid broads!"

The famous movie bad-man admitted that his phenomenal success was due to three people—the late Leslie Howard, Director John Huston and Lauren Bacall. Howard gave him his first movie break ("The Petrified Forest").

Huston cleverly steered him through his early acting chores. His marriage to Miss Bacall was generally regarded as one of the happiest in Hollywood.

These three people—and a load of talent—helped him to a golden Oscar for his performance in "The African Queen," and unanimous praise from critics for his recent performance in "We're No Angels," "The Harder They Fall" and "Desperate Hours."

And whereas he earned \$500 a

week for "The Petrified Forest," he drew \$250,000 per picture just before his death.

He was one seasoned Hollywood product, seamy face, skinny frame and all, who not only kept pace with important movie newcomers but was far ahead of most of them.

Always humorously critical of tinseltown hoop-de-do, Bogart continuously belittled the academy awards. He said, "Any bum can win an Oscar," but he made as humble a speech as any school

kid when he was handed his golden statuette in 1931.

Knowing the actor was a great admirer of Abraham Lincoln, a pal took the opportunity to murder him with, "You know, Bogey, you remind me a lot of Lincoln."

Bogart, expecting a high compliment, said "I do?" and then the squelch came:

"Yeh, both of you were failures until you were 52!"
