

Babe Loses Her Toughest Battle...to Cancer

Tito Leaves on Surprise 'Vacation' to Soviet Union

BELGRADE, Yugoslavia (AP)—President Tito left today with Soviet Communist party boss Nikita Khrushchev for a surprise visit to the Soviet Union.

Tito was accompanied by his wife Jovanka, Vice President Aleksander Rankovic and Djuro Pucar, chairman of the state of Bosnia-Herzegovina and a member of the Yugoslav Communist party Politburo.

Stevenson Asks 'Who's at Helm'

Ex-President Smiles His Approval as Adlai Slaps at Ike

KANSAS CITY, Mo. (AP)—Adlai E. Stevenson, scrapping hard right under Harry Truman's nose, accused President Eisenhower last night of "consistent rejection of the positive responsibilities of leadership."

With the former President smiling approval, Stevenson told a cheering overflow audience in the 2,300-seat music hall of Municipal Auditorium:

"There is only one question to be asked about the Eisenhower administration. That is: 'Who's in charge here, anyway? Who is this businessman's administration keeping the street?'"

Only last month at the Democratic National Convention, Truman fought to keep the presidential nomination from going to Stevenson. Truman called Stevenson a "defectist" then.

Last night, in the heart of Truman's Missouri stamping grounds, the former President introduced Stevenson as a man with the "ability and experience" required for the White House.

Then Truman sat and beamed as Stevenson slipped into the Eisenhower administration and fired sharp criticism at the President himself.

Stevenson carries his campaign across the Kansas River to neighboring Kansas City, Kan., for a speech at the Wyandotte County Courthouse today, then flies on to St. Louis for a major address tonight.

Army Calls Up Four Who Missed Drills

WASHINGTON (INS)—The army was disclosed today to have made the first use of its new power to call civilian reservists to active duty if they fail to take part satisfactorily in weekly military drills.

Four reservists were ordered to 45 days' duty in uniform. Although the names were withheld, it was learned that all were privates living in New York City, and two were "graduates" of the six-month training program.

Elsewhere in the country, orders for active duty have been drawn up against a number of reservists, but have been held in abeyance pending efforts to persuade the civilians to resume regular drills.

After mid-1957, however, hundreds of thousands of men including all draftees and volunteers who have served less than five years in the regular forces will become subject to the 45-day call if they fail to take part in 48 drills and 17 days' summer training a year.

Ballots for this initial sample have been distributed in factories and offices throughout the nation and in today's Pontiac Press for the first time. Returns are now being tabulated in the offices of Babson's Washington Service, weekly newsletter founded by Roger W. Babson, noted economist and statistician.

Next week's report will show early voting trends in the presidential race.

Pontiac Mostly Fair, Says Weatherman

Tonight is expected to be mostly fair with a low near 50 degrees. Mostly fair tomorrow and a little warmer is predicted. The high is expected to reach from 70 to 74 degrees.

In downtown Pontiac the lowest temperature preceding 5 a.m. was 43. At 2 p.m. today the thermometer registered 68 degrees.

JACKSON (INS)—Violence Behind Bars, a book about the 1952 Southern Michigan Prison riots, has been written by Vernon Fox, former psychologist at the prison.

The book was published by Vanguard Press, New York. Fox subsequently resigned following criticism of his part in negotiations with the riot leaders.

Tiger Pilot Harris Quits; Sunday His Last on Club

By INTERNATIONAL NEWS SERVICE
Walter O. "Spike" Briggs, president of the Detroit Tigers, today revealed Tiger Manager Stanley "Bucky" Harris has resigned, effective Sunday.

Harris' resignation was mailed to Briggs from Kansas City Sept. 5 with the request it be made public today. Briggs accepted Harris' resignation saying, "I have personally admired Bucky all my life and feel that this move of his will work out for the best."

Briggs praised Harris for the way he brought the Tigers back during the past two months.

Harris, 39, has handled baseball clubs for more than 20 years. He was a star second baseman for the Washington Senators for five years before taking over the helm of the Senators in 1954.

His resignation will take effect the day before the new owners of the Tigers officially assume control.

Completion of the \$1½ million dollar deal for the club will take place Monday with an exchange of papers between the president of the baseball company and a group of 11 businessmen, headed by broadcaster Fred A. Knorr of Dearborn, and John E. Fetzer of Kalamazoo.

These, of course, are statistical figures and such a coincidence would envision Stevenson winning all of these states by the narrowest of margins. Yet, they serve to point up the importance of measuring even the slightest

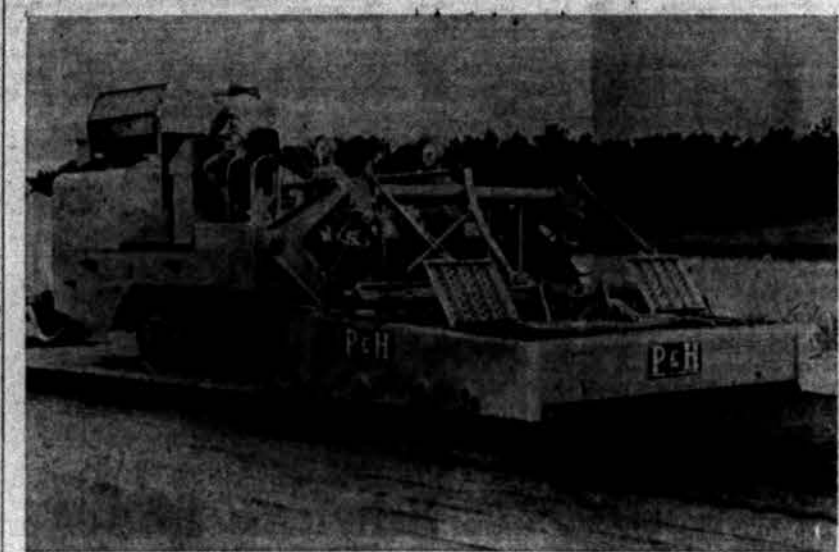

movements of voter sentiment in critical areas.

These so-called "doubtful" states are those which were won by President Eisenhower with a majority of less than 6 per cent of the total vote cast.

The race for control of the new Congress, say Babson-poll officials, will be decided for practical purposes in 121 congressional districts and in 22 Senate battles. (See complete list on Page 5.)

The House seats, now held by 70 Republicans and 51 Democrats, were selected on the basis of relatively small margins of victory in previous elections and the tendency of the district vote to reflect the popularity of a presidential candidate.

Runway Nearly Ready

BUILDS RUNWAY — This is the soil cement machine which is being used to build the new, 4,000 foot east-west runway at Pontiac Municipal Airport. By mixing the topsoil, cement and water, it lays down a hard, solid base for the runway which costs only one-third as much as reinforced concrete. Later an asphalt surface is added.

Pontiac Municipal Airport is constructing a paved, east-west runway 100 feet wide and 4,000 feet long. That's a lot of runway. It will be ready in October.

When you add a clear approach area from the east that is 2,000 feet long, and an equally long clear approach area from the west, you have a stretch of 8,000 feet, more than a mile and a half, in which planes may operate without ground hazards in landing and taking off.

To add further to this safety factor, the Detroit Edison power lines paralleling Williams Lake Road are to be moved further west.

Paralleling the new runway there is also being built a taxi strip 40 feet wide and 6,100 feet long. This connects with the old gravel east-west runway which, in the future, will become merely a part of this new taxi strip.

Planes will taxi down this strip before moving over onto the runway to take off, or will move back along the taxi strip after landing.

SEVERAL OTHERS
The airport has several other runways. Its north-south runway is 2,500 feet long. Its southwest-northeast runway is 2,400 feet long. Both are paved. Also there is a northeast-southwest, sod runway 3,000 feet long. This is usable in the summer and winter. Being unpaved, it is too soft for use during the spring months. However, these are completely out-dated for even medium sized planes today.

All of these runways will continue to be used by smaller craft except the old east-west runway which is being turned into the new taxi strip.

Construction of the new runway has been done under the direction of Robert Peckham, a project engineer employed by the city for this purpose. He has done a fine job, in the opinion of Homer Hoskins, manager of the airport, who is watching every construction detail.

The paving machine is worth an article by itself. It is called (Continued on Page 5, Col. 1)

UAW Ford Council Seeks Shorter Week
DETROIT (AP)—A shorter work week with a boost in pay will be the main targets for the United Auto Workers' National Ford Council in 1958 negotiations with the Ford Motor Co.

This became apparent yesterday when the 150-member council, representing 130,000 Ford workers, adopted a resolution listing those demands as the chief objectives in the next round of contract talks.

The vast increase in productivity resulting from automation makes the achievement of this goal not only possible but essential to the maintenance of full employment in our economy.

There was no mention of any specific length of the proposed work week or pay scales.

Pontiac Airport to Open Strip Next Month

Commercial Companies May Schedule Flights by End of '57

This is the second of three articles describing expansion at Pontiac Municipal Airport. Today's article describes construction of the east-west runway which will enable larger two-engine planes to land. Manager Homer C. Hoskins says he hopes the improved facilities will make it possible to bring in regular commercial airline passenger and mail service before the end of 1957.

Pontiac Municipal Airport is constructing a paved, east-west runway 100 feet wide and 4,000 feet long. That's a lot of runway. It will be ready in October.

When you add a clear approach area from the east that is 2,000 feet long, and an equally long clear approach area from the west, you have a stretch of 8,000 feet, more than a mile and a half, in which planes may operate without ground hazards in landing and taking off.

To add further to this safety factor, the Detroit Edison power lines paralleling Williams Lake Road are to be moved further west.

Paralleling the new runway there is also being built a taxi strip 40 feet wide and 6,100 feet long. This connects with the old gravel east-west runway which, in the future, will become merely a part of this new taxi strip.

Death Wins Greatest Athlete Counted Out After Long Fight

MILDRED 'BABE' ZAHARIAS

25-Year Career Ends; Starred at Every Sport She Tackled

GALVESTON, Tex. (AP)—Babe Didrikson Zaharias, the greatest woman athlete the world has known, died today after a stubborn battle with the one competitor she couldn't beat—cancer.

Earlier this morning before her death, George Zaharias, her husband, said: "She's had enough agony, sadness and pain. And so I'm losing my wife, partner and love. God's will be done. I know she'll live forever in the hearts of millions."

Almost from the start she was known affectionately to sports fans as The Babe, a tag hung on her by her family.

She showed versatility early. She could kick any kid in the block.

See the Sports Section for additional stories about the career of Babe Didrikson Zaharias.

won a marble tournament, and was first-place winner in a harmonica contest.

Cancer struck in 1953 just after she won the golf tournament named for her—the Babe Zaharias Open in Beaumont.

After she underwent surgery that time, she came back to win seven golf tournaments.

But the cancer couldn't be stopped and her life became a succession of operations and days following days in John Sealy Hospital here.

She died in the quiet of a hospital room, far from the crowds of frenzied sports fans that cheered her every accomplishment.

The Babe never lost consciousness. She never sank into a coma. She slipped off into death during her sleep.

George was in the room. "She died in her sleep," (Continued on Page 5, Col. 1)

Soapy Defends Handmade Shoes—'My Feet Hurt!'

JACKSON (INS)—Gov. G. Mennen Williams confessed today why he wears handmade shoes, reportedly costing \$45 a pair, F. O. B. New Jersey.

The governor said: "I've got big feet and they hurt." He confided a family secret that all the boys in the Williams clan have been bothered by corns and added:

"They hurt too!" Williams' explanation was in response to Detroit Mayor Albert E. Cobo's criticism of his out-of-state purchases.

Fourth Suicide Attempt Kills Ex-Serviceman

ST. JOSEPH (AP)—A recently discharged serviceman made good his fourth suicide attempt today by jumping into Lake Michigan as two policemen tried to lure him from a pier.

St. Joseph policemen Arthur Gaul and John Nichols said Donald Seaman, 24, of Benton Harbor, had made unsuccessful attempts to jump from buildings in Chicago, Washington and Philadelphia.

Speaks at UM Rally
Dewey Claims Reuther Decides Dems' Strategy

ANN ARBOR (AP)—President Walter Reuther of the United Auto Workers is trying to mastermind the Democratic state and national campaigns, Thomas E. Dewey said last night.

"Reuther appears to be determining Democratic strategy and acts as if he was a candidate himself," the former New York governor told a student gathering at the University of Michigan, his alma mater.

He said Gov. Williams was at first "violently in favor of anyone" but Adlai Stevenson as the party's presidential nominee, but was later ordered to start the Stevenson bandwagon and "meekly swallowed all his words."

"If this country should ever elect a man who threatens to undermine our defenses," Dewey said, "that day we will have lost all of our allies and stand naked and alone in a hostile world."

Dewey, twice a Republican candidate for president, blasted the Democratic party nationally and in Michigan in an address before a rally of young Republicans on the campus of the University of Michigan, his alma mater.

He said no dictator would risk war with the United States as long as Eisenhower is president.

"If this country should ever elect a man who threatens to undermine our defenses," Dewey said, "that day we will have lost all of our allies and stand naked and alone in a hostile world."

Dewey, twice a Republican candidate for president, blasted the Democratic party nationally and in Michigan in an address before a rally of young Republicans on the campus of the University of Michigan, his alma mater.

He said no dictator would risk war with the United States as long as Eisenhower is president.

Turning to Michigan politics, Dewey observed that "Gov. Williams is running for re-election—or should I say Walter Reuther (president of the United Auto Workers) is running for election?"

Reuther, he said, wouldn't be able to give Williams much time this election year because he has "moved out to the larger scene."

"He has transferred his devious embrace from the four-term governor of Michigan to the one-term governor of Illinois," (Stevenson), Dewey said.

System Claims Perfect Batting Average

Press to Carry Babson - Poll Survey Result

The Babson-poll, four-year old election polling method with a perfect batting average in two national elections, will announce one week from today in this newspaper results of its first countrywide survey of Eisenhower-Stevenson sentiment in the current campaign.

Ballots for this initial sample have been distributed in factories and offices throughout the nation and in today's Pontiac Press for the first time. Returns are now being tabulated in the offices of Babson's Washington Service, weekly newsletter founded by Roger W. Babson, noted economist and statistician.

Next week's report will show early voting trends in the presidential race.

Identical race in these states which either candidate won by a narrow margin in 1952.

Babson-poll officials point out that, despite the heavy margin by which President Eisenhower won election in 1952, it would take a switch of less than one million votes from the figures of four years ago in about a dozen pivotal states to move those states from the Eisenhower to the Stevenson column in the 1956 election.

Press Ballot on Page 5

These, of course, are statistical figures and such a coincidence would envision Stevenson winning all of these states by the narrowest of margins. Yet, they serve to point up the importance of measuring even the slightest

movements of voter sentiment in critical areas.

These so-called "doubtful" states are those which were won by President Eisenhower with a majority of less than 6 per cent of the total vote cast.

The race for control of the new Congress, say Babson-poll officials, will be decided for practical purposes in 121 congressional districts and in 22 Senate battles. (See complete list on Page 5.)

The House seats, now held by 70 Republicans and 51 Democrats, were selected on the basis of relatively small margins of victory in previous elections and the tendency of the district vote to reflect the popularity of a presidential candidate.

Because of the fact that voters

frequently leave party ranks in their choice of candidates for the Senate, the list of doubtful races for seats in the upper house is necessarily larger. In all, 35 seats are being contested. Of these, Republicans appear certain to win in four states—New Hampshire, North Dakota, South Dakota, and Vermont.

The Democrats, on the other hand, should have an easy time of it in Alabama, Arkansas, Florida, Georgia, Louisiana, North Carolina, Oklahoma, and in two contests in South Carolina.

That leaves 22 senatorial contests in which there's at least some element of doubt. Republicans now hold 13 of these seats; the Democrats nine. The GOP will need to make a net gain of one seat

for Senate control if Eisenhower is re-elected (the Vice President would break the 48-48 tie) or two seats if the Democrats win the White House.

Readers of The Pontiac Press are invited to participate in this nation-wide poll by filling out the ballot printed on this page and mailing it to Babson's at the address indicated. Only those of voting age should participate in the poll and only one ballot should be submitted by each person during the entire period between now and Election Day. The Babson-poll ballot will be reprinted each week for use by additional members of readers' families.

If you've never before been invited to participate in a national poll, here's your opportunity!

Pontiac Deaths

Frank Decesare

The Rosary will be recited for Frank Decesare of 138 Earlmor Blvd. at 8:30 this evening in the Melvin A. Schutt Funeral Home. His body was brought from his residence to the funeral home this afternoon.

Service will be at 11 a.m. Friday from St. Vincent de Paul Catholic Church with burial following in Holy Sepulchre Cemetery.

Besides his wife, Mr. Decesare is survived by several brothers and sisters, Dominic of Yonkers, N.Y., Ottavio of Italy, Alessandro, Pedro and Adeline, all living in Tripoli.

He had served in World War I and was a member of the Veterans of Foreign Wars.

Mr. Decesare died Tuesday in St. Joseph Mercy Hospital.

Larry and Gary Eagle

Larry and Gary Eagle, twin sons of Richard and Betty Lee Eagle, of 102 E. New York Ave., died shortly after birth yesterday in St. Joseph Mercy Hospital.

The babies, born prematurely, were taken to Sandusky today for prayer service and burial. Arrangements were by the Hutton Funeral Home.

Alex Gavis

Alex Gavis, 67, of 104 Henderson St. died early this morning in Pontiac General Hospital. He had been ill nearly two years.

He was born in Crete, Greece, on Aug. 15, 1889 and married 36 years ago to the former Penelope Gavis. His parents were Spyros and Kiriaki Vaylonas Gavis.

Coming here from Boston, Mass. about 25 years ago, Mr. Gavis operated a restaurant before his retirement.

He was a member of the St. George Greek Orthodox Church and of the Cretan and Ahepan societies.

Surviving are his wife; a niece and nephew raised by Mr. and Mrs. Gavis, James Haven of Dearborn and Mary Perry of Arlington, Mass.; several brothers and sisters, John S. and James Gavis, both of Pontiac, Mrs. Anastasia Marakis and Mrs. Zepheria Matohos, both living in Greece.

A niece and two nephews, Myrtle, John and Emmanuel Marakis are also residents of Pontiac.

Prayers will be said at 8 o'clock Friday evening at the Farm-Snow Funeral Home.

The Rev. Dr. Achilles A. Siagris, his pastor, will conduct the funeral service at 2 p.m. Saturday in the St. George Greek Orthodox Church. Burial will be in Perry Mount Park Cemetery.

Frank M. Weston

Frank M. Weston, 71, of 19 Dwight St., died yesterday afternoon at the home of his daughter, Mrs. Louis B. (Norine) Livingston, 2820 Woodbine drive. He had been ill three years.

Born in Pontiac on Sept. 20, 1885, he was the son of Harvey and Sarah Parrish Weston. On April 1, 1912, he was married here to Eugenia Brondige.

A resident of Pontiac all his life, he had been employed by the City of Pontiac in the water department for 40 years. He retired in October 1948.

Besides his daughter, Mrs. Livingston, Mr. Weston leaves two grandchildren; one sister, Mrs. Maude Place of Pontiac; two brothers, Albert of Big Rapids and Edward of Pontiac.

Service will be at 2 p.m. Saturday from the DeWitt C. Davis Funeral Home with burial in Perry Mount Park Cemetery.

Girl Darts in Road, Lands in Hospital

A five-year-old girl, hit by a car near her house on Rapid street yesterday afternoon, was reported in fair condition in Pontiac General Hospital today.

Debra Smith, of 219 Rapid, was admitted, authorities said, because of possible internal injuries suffered when she darted into the path of an auto driven by Honey Bee Henry, 29, of 281 Rockwell Ave.

A witness confirmed Henry's statement he could not stop in time, Pontiac Police said.

The Weather

Out to Spur Ike Vote

CHEBOYGAN (U)—A group of Republicans meeting with Sen. Potter (R-Mich) has formed an organization of "minute men for Ike" pledged to get out the GOP vote. Each member signed an agreement to vote for President Eisenhower Nov. 3 regardless of weather, and to enroll three other

minute men in a "register-and-vote-for-Ike" drive.

Koala Lives in Pouch

MELBOURNE—The koala, which resembles a Teddy bear, spends a short time kangaroo-like in its mother's fur-lined pouch. The koala spends its childhood in tree-tops, often as high as 150 feet above the ground.

Jamaica sold 4,100,000 stems of bananas to June of this year, well above 1935.

On Road to Worst Year in History

A Crime Every 12 Seconds in U.S.

WASHINGTON (INS)—FBI Director J. Edgar Hoover reports a 14.4 per cent increase in crime in the first half of 1956 and says the rate threatens to reach a record by December.

The grim forecast of possibly 2½ million major crimes this year appears to dash 1955 hopes that the devastating postwar crime wave had reached its peak.

Last year crime totals dropped two-tenths of a per cent. But Hoover says "Any encourage-

ment found in the trend of last year was rudely shaken by the abrupt rise for the first half of 1956."

He warned the midyear increase is the worst in a decade, bringing the crime total as of June 30 to an estimated 1,281,120 serious offenses.

RISES EVERYWHERE
Every type of major crime but robbery shows an increase this year. And the "sharp" rise is as troublesome in rural areas as in small towns and heavily populated cities.

The largest increase is in auto theft. It is up 22.5 per cent. The smallest increase is 2.8 per cent for aggravated assaults.

Every day from January to June an estimated 37 Americans were slain and 280 other felonious

assaults were committed; 55 women were raped; 738 cars were stolen, and 4,377 larcenies, 164 robberies and 1,463 burglaries were committed.

These and other serious offenses mean there was a major crime committed somewhere in the U.S. every 12.2 seconds. On a population basis that means a serious crime for every 125 persons.

Violence abounded. Murders totaled 6,678, while 57,346 were assaulted by rapists or potential killers. Robberies jeopardized lives and safety of another 28,946.

The criminal onslaught took its toll in other ways. Figures show that in 1955 there were 55 policemen killed on duty.

CONVICT 14 OF 100
For every 100 major crimes committed in 1955, city police cleared

28 by arrest and charged 20 persons, 14 of whom were found guilty. Police in 1,771 major cities arrested more than 2,900,000 persons on charges other than traffic violations.

An FBI analysis of these figures discloses, on the average, one person out of every 22 in these cities was arrested and charged with some offense in 1955. Countless others were arrested but released without filing of charges.

Summing up the crime situation, Hoover warned:

"If the current trend continues for the remainder of this year, 1956 will be the fifth consecutive year in which more than two million major crimes will have been committed and the first year in which the crime total will reach the 2½ million mark."

Zoo Officials Try to Entice Roving Black Swan

CINCINNATI (U)—Officials of the Cincinnati Zoo found their missing black swan but they couldn't catch it.

The swan, one of two at the zoo, disappeared last Friday. It finally was spotted yesterday on one of five small lakes in Spring Grove Cemetery. But flew away to another lake.

Zoo officials now plan to use "bait" in an effort to trap the swan. Bait will be corn, bits of bread—and the other black swan. They're hoping, of course, the swans are the opposite sex and that the wanderer will be enticed to rejoin its partner.

The difficulty is that the sex of the swans isn't known.

Tenant Farmer Burns to Death in House Fire

EAU CLAIRE (U)—A 47-year-old tenant farmer from Arkansas burned to death last night in his house in this farm community, 12 miles southeast of Benton Harbor. He was identified as Sid Hodge. Deputies said the fire apparently started from an overheated oil cooking stove.

Acheson Chides Foreign Affairs

Claims Administration Fails to Serve U.S. Interests Fully

WASHINGTON (U)—Former Secretary of State Dean Acheson said last night the Eisenhower administration's record in foreign affairs "requires the judgment that it has failed to serve the interests of the country."

"We seem to be playing Russian roulette with an atomic pistol which would destroy ourselves and everyone else too," former President Truman's secretary of state said at a Democratic fundraising dinner in suburban Bethesda, Md.

"Through this mile-wide hole in the line the Russians scored again and again with the ball carried by the dove of peace."

Acheson declared that the United States and its allies have lost ground during the past four years, adding, "It would be unfair to lay all this at the door of this administration."

"But the administration has used our power badly," he said, "and much of our power it has hardly used at all."

Acheson, now in private law practice here, said the Republicans upon taking over in 1953 "might have reaped the harvest which seven years of hard and not unintelligent work" by the Democrats had produced.

"But unfortunately," he continued, "the Eisenhower Republicans had become the prisoners of the primitive propaganda and slogans which they had taken over from the McCarthy-Taft-Knowland forces in order to win the election."

Acheson said the nation does not now have ground forces "adequate to deal with limited operations," and he said "there is even question whether we are maintaining the nuclear capacity necessary" as a deterrent to major aggression.

First-Time Father Downright Confused!

PHILADELPHIA (U)—Luigi Caruso, 21, became a father for the first time and after a look at his new-born son, fainted.

When he was revived, the exuberant Luigi put his hand through a glass telephone booth in the hospital corridor.

When police came to see what the noise was all about, Luigi, who doesn't speak English, feared he was in trouble and ran up to the hospital roof. He refused to come down until the police went away.

When he came down, doctors gave him a sedative and he was sent home to calm down.

Mother and son were doing much better, the hospital reported.

Grounded B52s Tested, May Fly Again Soon

WASHINGTON (U)—The nation's B52 heavy bombers may take to the air again as rapidly as each plane passes a "rigid inspection of the internal systems."

The Air Force imposed that condition as it lifted a blanket order which had grounded all the big jet planes for more than a week. The grounding was ordered as a precautionary measure after one of the planes crashed Sept. 17 near Madera, Calif., killing five crew members.

Life for Grocer's Killer

DETROIT (U)—David Tesen, 22, was given a life sentence yesterday for the first-degree murder of a Detroit grocer during a holiday March 2. Judge W. McKay Skillman sentenced Tesen, a Detroit, in Recorder's Court. Tesen's accomplice pleaded guilty to second-degree murder and is serving a 7½ year term.

Babe Dies of Cancer After 3-Year Fight

(Continued From Page 1)

Zaharias said, "It was real nice and peaceful, as a peaceful as a baby. She just floated away. It's been a long battle and The Babe fought it the way she knows how to fight, giving ground reluctantly all the way and an inch at a time."

"The last thing she said to me," George said, "was 'I ain't gonna die.'"

At 1 a.m., all members of the family now in Galveston filled into the room and one by one Babe recognized them and they spoke to her.

"She gave them all the nod," George said.

The big man paced the corridors all during the night. He was in and out of her room as has been his fashion 24 hours a day since she became ill.

For months, the whole world knew that death soon would reach the superb athlete. At times, her husband, George Zaharias, could hardly talk to newsmen as emotion gripped him.

At one time, when her life was fading, a spark of competitive spirit flamed again, and from her hospital bed she shook her fist and declared, "I'll beat this thing yet."

It was not until Sept. 23—a Sunday—that the hospital finally admitted the end was inevitable and near. A spokesman said this was possible because the Babe had lost interest in newspapers and no longer listened to her radio. They had avoided frank statements earlier for fear they would depress her.

Her final weeks were relatively free of pain, although she was given narcotics at times. This comfort was made possible because surgeons cut a nerve.

Almost to the last, Babe put up a courageous show. But friends were sick at heart to see the decline of the once-great athlete.

When remembrance of her specific feats had faded, sports fans still remembered her gusty outlook on life.

While winning the British Amateur, someone asked how she could drive a golf ball so far.

"I just loosen my girle and let the ball have it," she replied.

Almost constantly with her in her declining months was George Zaharias, the wrestler turned promoter and real estate operator, whom she married in 1938. He was known as the "Weeping Greek from Cripple Creek." They were married a year after they met at a golf tournament. He is considered wealthy.

Runway Completion Expected in Month

(Continued From Page 1)

A P. & H. soil cement machine. It is big as an army tank and costs \$60,000. Two of them are working on the runway.

It mixes soil, cement and water thoroughly to make a soil cement base for the runway. First the runway is graded. Then dry cement is poured out of bags onto the ground and leveled off.

Then the soil cement machine comes along. It agitates the soil and cement, mixing them and adding a metered amount of water.

Afterward a large, sheepfoot roller comes along and compacts the surface. A road grader then levels the surface and a heavy, rubber-tired roller further compacts it.

Then another machine comes along and again blades, or agitates, the surface. This refines and completes the mixing process. Another rolling with a smooth roller completes construction of the runway base.

After the base has hardened its surface is treated with an asphalt emulsion, two coats of sealer and two coats of crushed stone. This provides the final, smooth surface.

With this machine it has been possible to build this runway at about one-third the cost of reinforced concrete, yet the runway will provide a waterproof, smooth, hard, safe surface which should last many years.

Allocation of federal funds already has been made to cover high intensity lights for the runway, taxi strip lighting, and for removal of the power line along Williams Lake road. This will be done next year.

Construction of the runway costs some \$185,000. Land for it cost another \$162,000.

GRADING CONTRACTOR
The first grading job was done last year and cost \$35,000. John F. Walser of Pontiac, was the contractor. He is also subcontractor for the grading and drainage work under this year's contract.

The federal government provides half the money for purchase of the land and also for the runway construction. The city has to provide the other half for land but only one-quarter for construction. The state puts up the other quarter.

The runway will be ready early in October, making it possible for twin-engine planes to land and take off without danger. Its completion marks a milestone in improvement of the Pontiac Airport.

HERE IS YOUR BABSONPOLL BALLOT

Please vote only once during this nationwide election survey.

- In 1952, for which Presidential Candidate did you vote?
Democratic ☐ Republican ☐ Other ☐ Didn't Vote ☐
- In 1956, how do you intend to vote for President?
Democratic ☐ Republican ☐ Other ☐ Don't Know ☐ Won't Vote ☐
- For which candidate for U. S. Representative did you vote in 1954?
Democratic ☐ Republican ☐ Other ☐ Didn't Vote ☐
- In 1956, for which candidate for U. S. Representative do you intend to vote?
Democratic ☐ Republican ☐ Other ☐ Don't Know ☐ Won't Vote ☐
- In which Congressional District do you vote (or who is your present Congressman)?

What State?

Ballot—unsigned—should be mailed directly to:

List Districts Where Outcome Unsure

Here is the list of states and congressional districts in which Babsonpoll analysts say there is reasonable doubt as to the outcome in the November election. (See Page 1).

The Babsonpoll has arranged for concentrated coverage in these areas in its 1956 survey of voting trends. The list follows:

Arizona—District 1. Senate.

California—Districts 6, 7, 9, 11, 12, 13, and 29. Senate.
Colorado—Districts 1, 3, and 4. Senate.
Connecticut—Districts 1, 2, 3, 5, and At Large. Senate.
Delaware—District At Large. Senate.
Florida—Districts 1 and 7. Senate.
Idaho—District 1. Senate.
Illinois—Districts 3, 4, 10, 11, 12, 18, 21, 23, and 25. Senate.

Indiana—Districts 3, 5, 6, 8, 9, and 11. Senate.
Iowa—Senate only.
Kansas—Districts 1, 2, 5, and 6. Senate.
Kentucky—District 3. Two Senate races.
Maryland—Districts 5, 6, and 7. Senate.
Massachusetts—Districts 1, 2, 8, and 10. Senate.
Michigan—Districts 6, 7, 11, 12, 14, 17, and 18. Senate.
Minnesota—Districts 3, 7, and 9. Senate.
Missouri—Districts 2, 4, 6, 7, 8, and 11. Senate.
Montana—Districts 1 and 2. Senate.
Nebraska—District 2. Senate.
Nevada—District At Large. Senate.
New Jersey—Districts 1, 6, 8, 11, and 12. Senate.
New Mexico—2 Districts At Large. Senate.
New York—Districts 4, 5, 6, 7, 12, 15, 17, 24, and 25. Senate.
North Carolina—Districts 9 and 10. Senate.
Ohio—Districts 3, 6, 9, 11, 14, and 15. Senate.
Oregon—Districts 2, 3, and 4. Senate.
Pennsylvania—Districts 3, 5, 6, 8, 10, 11, 19, 22, 24, and 25. Senate.
Utah—Districts 1 and 2. Senate.
Virginia—Districts 6 and 10. Senate.
Washington—Districts 1, 2, 6, and At Large. Senate.
West Virginia—Districts 1, 2, 3, and 4. Senate.
Wisconsin—Districts 1, 2, 5, and 8. Senate.

Pontiac City Affairs

Two File Damage Claims at Commission Meeting

Pontiac city commissioners last night authorized City Manager W. K. Willman to negotiate for two parcels of land needed for the completion of the widening of Bay street south of Mt. Clemens.

Two residents of the area, Earl R. Morrow, 1290 Mt. Clemens St., and Melvin A. Boersma, 1286 Lock St., filed claims for damages of \$2,500 and \$500 respectively, resulting from the street widening.

Willman said he would negotiate for settlement of these payments while attempting to secure the right-of-ways.

Morrow claimed it would cost \$5,000 to relocate his garage necessary in the 60-foot widening. Boersma said the project would result in \$500 damages to his property.

ACCEPT LAND CONTRACT
Other business taken up before the commission, which acted on a 10-point slate in less than an hour, was the acceptance of a land contract for purchase of the property at 63 S. Parke St.

Public hearings will be conducted next Tuesday on curb, gutter, grade, gravel, and related work projects proposed for First avenue from Joslyn to Highway, and on Hollywood avenue from Kennett to Parkdale.

Assessed cost of the First avenue job will be \$18,620.40. City cost will be \$2,931.24. Total cost will be \$21,551.64, while cost for a 50-foot lot will be \$200.

The city will pay \$1,871.82 for the Hollywood avenue project. Assessed cost will be \$1,902.28. Total cost will be \$3,774.10 while cost for a 120-foot side lot will be \$388.

Kitchins Co. of Lansing will be awarded a contract for paving, curb, and gutter work for several projects in Pontiac after submitting a low bid of \$185,000 for the work.

Commissioner Philip Rowston set four assessment payments for the water main in Telegraph road from Orchard Lake to Golf drive.

Commissioner Roy Cooley set three payments for a similar project in Pearsall avenue from Bagley to Wrenn, while Commissioner Floyd Miles established two payments to pay off the assessments for Durant street from Ingewood to Pershing.

Commissioners referred a communication from the State Highway Dept. concerning possible city participation in the widening of M218 to Willman.

Curb, gutter, grade, gravel work for Carlisle street from West Columbia to Cornell was declared a public necessity after Commissioner Miles offered a petition for the work signed by residents of the area.

Alien Profs Teach Here

CHICAGO—Of the 782 foreign college faculty members in the United States this year for teaching chores, 192 are instructing in the field of medicine. Only 45 of the 1,275 American professors teaching abroad are in the medical field.

Philippines Add Roads

MANILA—With American aid, more than 250 miles of roads in the Philippines have been built or repaired and nearly 50 bridges have been built and construction of 125 more begun in the past five years. In Mindanao more than 500 miles of new roads are being built to make undeveloped areas more accessible.

Bud Guest to Speak to Vaughan Parents

BLOOMFIELD HILLS—Edgar A. Guest Jr. radio stroller on "the sunny side of the street" and a new neighbor in the community, will be kick-off speaker at Vaughan School PTO meeting at 8 p.m. Monday at the school.

Newspaperman and radio commentator for over 20 years, "Bud" Guest plans a spontaneous program for the get-acquainted meeting.

The Russell Stricklands of Country Club Drive, serving together as presidents, will welcome parents and teachers to the meeting, along with Mrs. Hazel MacGill, school principal and other board of directors members.

Hospitality arrangements are headed by the Robert Nelsons, presidents-elect.

Finest Woman Athlete, Babe Zaharias Dies

The death of BABE DIDRIKSON ZAHARIAS has touched the hearts of the whole nation.

Here was the greatest woman athlete of all time. Twenty-five years ago she flashed across the sports horizon as a skinny tom-boy out of Texas. She became an outstanding star in every sport she tried and she tried practically all of them.

She hit nine home runs in one baseball double-header. She averaged 239 in a three-game bowling match. She drove 245 yards in golf and won the British women's championship; beat LOUISE BROUGHT in tennis. She won two gold medals in the Olympics, and was an All-American in basketball. She swam, dove, fenced and skated.

BABE ZAHARIAS first attained nationwide prominence at the 1932 Olympic Games. For a quarter of a century she remained in the spotlight. She had great natural ability coupled with the will to win that characterizes the true champion. Whatever contest she entered, she played for keeps.

Then three years ago she underwent an operation for cancer. Doctors said she never would play championship golf again. The next summer she won the Women's National Open Golf championship. But last year the pain came back. She has been confined to the hospital for many weeks.

Here was a foe even BABE ZAHARIAS could not beat. Her fighting heart kept her alive for months, while her body wasted away to less than ninety pounds.

When first told that her recurring pain was due to cancer, the Babe's comment was typical. "That's the rub of the green," she said.

Letters and telegrams encouraging her to keep up the fight came in daily from admirers. The BABE DIDRIKSON Cancer Fund she sponsored has topped \$40,000, dedicated to aid the fight against this disease.

She married GEORGE ZAHARIAS, a three hundred pound wrestler, in 1938. They have been inseparable. He has lived for weeks in an apartment across the street from her hospital room.

The world of sport has lost its greatest woman athlete. The nation has lost a fine citizen who was an inspiration to many. Her final battle for life has given added impetus to those who are seeking to find new ways to fight this dread disease.

Minimum Speed Laws

The American Automobile Association announces that it will seek enactment of state laws setting minimum as well as maximum rates of speed on highways. This is a subject which has interested motorists for some time.

Certainly excessive speed causes more accidents than unusually low speeds, but every motorist has experienced times when the driver who travels at a snail's pace on a through highway becomes a positive danger. In other words, there comes a time when deliberation can be overdone.

Some drivers take an unnecessary

long time to turn a corner. This tempts those following to swing out a bit to avoid coming to a full stop while the slow mover completes his or her turn. That swingout may mean an accident, yet in such a case the excessively slow mover has been a contributing factor.

This does not mean that drivers should rush around corners to keep the highway clear. They should move slowly enough to keep their cars under control and to avoid any danger of accidents. But they still owe some consideration to the other drivers who are on the highway.

William B. Backenstose

The death of WILLIAM B. BACKENSTOSE has removed a former business man who for many years was a well known figure in the city's business and social life. A lifelong resident of this city, he had a wide circle of friends who held in high esteem this quiet, modest, friendly man.

Mr. Backenstose was interested in everything that went on in Pontiac. He loved this city and its people.

He was not one to seek prominence. He preferred the quietness of his home and the company of his friends. To the latter his complete integrity and his fine, wholesome personality made him a pleasant companion and a valued friend.

MARILYN MONROE says she dresses to please men. With reference to some things, it takes mighty little to please men.

The Man About Town
Less Than 2 Days

Football Contest to Close Promptly at Noon Saturday

Sorry: What you'll be if you don't act at once on the suggestion below.

With the close of the football contest less than two days away, a list of the games is published today for the last time. The prize is \$300 in U. S. Savings Bonds, and it goes to the person making the nearest prediction to the outcome of these 13 games:

- Sept. 29—Mississippi vs. Kentucky.
- Oct. 6—Michigan vs. Michigan State.
- Oct. 12—Duke vs. Southern Methodist.
- Oct. 14—Detroit Lions vs. Los Angeles Rams.
- Oct. 28—Michigan State vs. Notre Dame.
- Oct. 27—Stanford vs. Southern Calif.
- Nov. 2—Pontiac vs. Saginaw.
- Nov. 3—Detroit vs. Cincinnati.
- Nov. 10—Texas vs. Baylor.
- Nov. 17—Georgia vs. Auburn.
- Nov. 22—Penn vs. Cornell.
- Nov. 24—Michigan vs. Ohio State.
- Dec. 1—Army vs. Navy.

You can either write out your winners or clip this list and check the teams which you think will win. If you think a game will be a tie, do not check either team. Be sure to include your name and address. Every member of your family is eligible to compete, regardless of age.

All entries must be RECEIVED in The Pontiac Press Office by Saturday noon of THIS week, Sept. 29—and that's only day after tomorrow.

Another letter rolls in from our old friend,

Meyer Simon, from Geneva. Mr. and Mrs. Simon are in the midst of a really extensive European trip, and will not be back for more than a year. That's what I call a real vacation. He writes: "This is a fascinating city. Not only do the watches and clocks tick here, but the world's pulse also ticks here. Have been looking in at a conference and lecture. It seems to me that the participants regret the past and fear the future, which makes them very unhappy with the present."

What appears like a garden miracle is reported by

Mrs. Elmer Holmquist, of 385 Whittemore St. A three-foot rose bush worked its way through a crack, and is doing well inside the building, although its roots are outside.

Easter lilies continue to do second blooming stunts until they no longer are news.

Verbal Orchids to—

Mr. and Mrs. Fred Sanders

of 3370 Gregory Road; golden wedding.

Mrs. Dandle Grace Andrus

of Rochester; eighty-third birthday.

Mrs. William Shields

of Mariette; eighty-eighth birthday.

Running Himself Out of Business, We Hope

David Lawrence Says:

Ike Laid It on the Line in Peoria

WASHINGTON—Just about the most penetrating speech in many a campaign from the standpoint of clarity, persuasive argument, and all-around effectiveness politically was delivered Tuesday night at Peoria, Ill., by President Eisenhower.

Short sentences, with crisply presented points the listener could retain for future discussions, gave the address a distinctiveness reminiscent of FDR at his best in the famous "fireside" chats.

Apart from the sincerity and earnestness with which Eisenhower delivered his speech there was a powerful force of simplicity in his argument. While not mentioning his opponent by name Eisenhower pointedly refuted weakness after weakness in the economic doctrines of Adlai Stevenson. Thus, in a striking passage, the President said:

"No farmer—nor any citizen—will trust politicians who go to the cities to denounce inflation and come to the country to promise loose credit. Nor will any citizen trust any politician who promises expanded governmental expenditures, reduced taxes and—at the same time—a balanced budget."

CONTRADICTIONS?

Eisenhower thus summed up the whole Republican defense against the Democratic effort to sectionalize the issues of the campaign. For years the Democrats have been urging more and more spending of government money. On the farm question they have been advocating a return to "rigid price supports." This means the farmer may plant as much as he pleases and the government, in effect, will guarantee to buy it from him at a fixed "parity" price. This also means using money from taxpayers in all parts of the country to keep on buying the surplus production, whatever it is.

Eisenhower boldly tackled in the center of the farm belt itself the basic issue when he said:

"Rigidly fixed price supports at 90 per cent of parity without regard to supply conditions—and so encouraging surpluses that depress market prices—in, for the farmer, mockery and deceit. That kind of program compels drastic quotas, allotments, government regulation. It robs the farmer of a chance for full income parity. It is a program for politicians, not farmers."

Somebody in authority had to say this flatly and tell the farmers the facts about the "rigid price support" fallacy which has plagued the American economy for many years. Few people, farmers or city folks, have realized the federal government has bought surpluses amounting to nine billion dollars. This big sum is one of the reasons for budget deficits which have prevented tax reduction.

The administration has taken its position for gradual removal of the surpluses and for a market in which supply and demand are permitted to operate. This has been a difficult position to maintain politically, however.

Progress is being made toward

the steady sale of surpluses stored up from previous years. At the same time prices appear to be getting progressively better. The question is whether the farmer wants to reverse the trend and change administration.

Eisenhower has taken a most delicate issue directly to the people. He has presented the facts unequivocally—in answer to the cry of "farm depression."

Will the President, however, be able in the next few weeks to overcome the political effects of months and months of attack by his critics?

His own spokesmen and campaign-ers in the contests for Congress will have to carry on for him. The trouble there is many of them

already have accepted the opposition argument. This makes the President's aggressive exposition all the more commendable. It was a brave speech.

Looking Back

15 Years Ago

BRITISH ARMY may fight on Russian front.

NAZIS CLAIM unparalleled victory in East.

20 Years Ago

TOLEDO CAPTURED by Spanish fascists.

FRANCE MAY pass currency bill to devalue franc.

Dr. William Brady Says:

Doctor Gives Dissertation on Protective Face Masks

Oculists, optometrists and dispensing opticians; bank clerks; ticket agents; conductors; post office window clerks; barbers; hairdressers; manicurists; physicians who examine and treat nose and throat troubles and the nurses or near-nurses who assist them. All these should regularly wear suitable masks while at work, especially when any respiratory infection is prevalent or epidemic, such as influenza, diphtheria, septic sore throat, infantile paralysis or an unidentified disease glibly described as "a virus."

Primary purpose of the mask is to protect clients. This is the reason why physicians and dentists wear masks when at work, even if barbers and spectacle fitters laugh the suggestion off as "nifty."

Secondary purpose of the mask is to protect one's self from catching whatever clients may have.

The old-timers, and characters in "Men in White" still favor the white cheesecloth mask. It is so impractical.

But not less than ten layers of cheesecloth (gauze) having 32 threads to the inch mesh, is pretty uncomfortable to wear for more than a few minutes in any circumstances.

Away back about the time Tony was a pup, a New York physician, Dr. Lewis Silvers, pioneer in the electrocoagulation (diathermy) treatment of infected tonsils, devised and gave to the world a face mask which is far more efficient than the quilted gauze or cheesecloth kind, not uncomfortable to wear all day, if necessary, and no more grotesque than the cheaters affected by many morons with the Hollywood obsession.

The Silvers mask is perfectly transparent and stands away from actual contact with the face, for ventilation and comfort. It is easily disinfected or sterilized by washing with soap and water, and so it may be used over and over until it becomes scratched or fogged up.

Cheesecloth (gauze) is washed, cheesecloth masks, even though made of not less than ten layers of cloth having not less than 32 threads to the inch mesh—usually the cheesecloth masks used in nineteenth-century hospitals are just make-believe—probably catch most of the larger or visible moisture droplets which carry germs or virus.

But such makeshift masks are still pervious to minute, invisible, or impalpable droplets and therefore should not be countenanced to

day—except, of course, for the characters in Men in White or Medic, or in the "clinics" set up in every trading center where everybody strives to keep up with the Joneses.

Signed letters, not more than one page or 100 words long pertaining to personal health and hygiene, not to disease, diagnosis, or treatment, will be answered by Dr. William Brady, if a stamped self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan.

(Copyright 1956)

Case Records of a Psychologist:

Lose 10 Pounds on 10-Day Diet

Wives, if you want to protect your marriage from becoming platonic, then keep slender. Use the medical facts given below to make dieting easier and more fun, too. Inject some competition. Many church groups have the dieters contribute the salvaged food money into church projects, for every pound of fat you consume via dieting saves you \$2.50 in groceries.

By DR. GEORGE W. CRANE

Case S-376: Margaret S., aged 17, is the girl who telephoned me from the Chicago Union Station.

"I'll just die if I don't take off weight," she wailed over the phone.

So I promised to mail her the diet chart by which she could lose 10 lbs. in 10 days. But I also asked her if she had anybody else in her family who might be willing to join her in a dieting spree.

She said her mother was fatter by far than she was, and would be glad to take off some pounds.

So I urged her to enter into friendly competition with her mother, for this adds zest and thus increases the motivation.

"Make a deal with your mother that whoever loses the smaller amount at the end of the week, must do all the dinner dishes for the following week," I suggested.

"Ugh, I hate doing dishes," Margaret told me over the phone.

"Then you'd better see that you stick faithfully to your diet," I warned her.

HOW TO DIET

Dieters must realize that it is really much harder to lose weight than it is to stop the tobacco or liquor habit.

Voice of the People

Pee Wee Football League Praised by PTA Group

Letters will be condensed when necessary because of lack of space. Full names, address and telephone number of the writer must accompany letters but these will not be published if the editor so requests unless the letter is critical in its nature.

Last Saturday night at Beaudette Park, Pontiac witnessed one of the finest examples of community spirit we have seen in many years. We speak of the wonderfully organized Pee Wee Football League.

The large crowd viewing the games played by the six participating teams were truly amazed at the excellent job of coaching and training that these youngsters have amassed in just a few short weeks. It is this type of organized youth activity completely run and supervised by non-paid interested adults that breeds true community spirit and prevents growth of juvenile delinquency.

Most of these same boys would normally be playing backyard football under no supervision and without proper protective equipment and thus be subjected to more chances of injury were it not for

the time and effort of these generous men. Our hats are off to these tireless workers and we hope that nothing ever deters them from expanding the program in years ahead. Their efforts are completely endorsed by the Daniel Whitfield PTA Executive Board.

Mr. and Mrs. Victor Sait
Youth Chairman
2215 St. Joseph.

'Eleanor Roosevelt Great One to Talk'

Eleanor Roosevelt said that she disliked Nixon because he made some associating-with-Reds cracks about Helen Douglas in a California Senatorial campaign. No matter what Helen did, she didn't have Young Communists sleeping in Lincoln's bed in the White House, as Eleanor did.

She also said that the President's health is an issue and we must consider the VP succession. Just like she and the dying FDR did when they picked Bubblehead Wallace? Phew!

Ed K.

Hal Boyle Says:

Comic Phil Silvers Gets That Sophomore Feeling

NEW YORK (U)—Ever wonder why so many comedians wear glasses?

A Broadway cynic might say the reason was "so they can make their audience look larger." But if this were true most comedians would wear hearing aids, too, in order to convince themselves they were getting louder laughs.

SIGN OF WEAKNESS

Phil Silvers says this is why he first started wearing specs as stage props 25 years ago: "I learned people like a sign of weakness in a performer. It makes him seem more human, and gives them more of a fellow-feeling toward him."

Phil wore only empty frames when he originally donned his trademark glasses as a young burlesque comic. But now, at 44, he finds it convenient to wear lenses in them. He finds they are a great help in reading the fine print on racing forms—and to see where he is going.

Just where he is going is very much on Phil's agile mind these days.

After 30 hectic years as an entertainer, he feels he is in the position of a sophomore at the moment.

BIG TV GAMBLE

Before the opening of the 1955 television season CBS gambled nearly a million dollars on a new network series called "You'll Never Get Rich," starring Silvers as Sgt. Bilko.

They hadn't even lined up a sponsor, but their goal was to end the eight-year reign of NBC's Milton Berle as TV's Tuesday night king.

Phil succeeded where Red Skelton, Red Buttons, Gene Autry and Frank Sinatra had failed. He dethroned Milton, became the comedian of the year. But this year?

"I'm a sophomore now," said Phil, wryly. "And the brickbats are sure to come."

SEVERAL YEARS

But Silvers, while lacking the supreme self-confidence of the ordinary Harvard sophomore, in whom all wisdom is said to repose, feels his role as the fast-talking Sgt. Bilko will last for several golden years.

"We are planning pretty far ahead, so the audience won't get tired of him," he said. "For one thing we don't intend to keep Bilko in the Army forever. Eventually we'll convert him into a civilian, where we can put him into new comedy situations."

Right now Bilko takes all Phil's waking hours—and many hours he should be sleeping, too. He has to learn, rehearse and film a new 15-page script every week.

"I never left a show in my life," he said, "and I'll stay with this one until its gone."

Portraits

BY JAMES J. METCALFE

In school we studied literature . . . Poetic plays and such . . . And for the larger part of it . . . We did not care so much . . . It seemed useless on our way . . . To earn a livelihood . . . That we were puzzled as to how . . . It could do any good . . . But as the years went by, we learned . . . Those hours were not wasted . . . Not even if that culture was . . . A dish we only tasted . . . Somehow it helped the grammar of . . . Our vocal chords and pen . . . And there were famous passages . . . We quoted now and then . . . The classics are no guarantee . . . Of ultimate success . . . But they can guide the intellect . . . To greater happiness.

(Copyright 1956)

For it is an axiom in psychology that you can succeed better when you break off a bad habit entirely and suddenly, than when you taper off.

But we human beings can't eliminate all food, so we must invariably taper off when we try to shed surplus poundage.

Alcohol and caffeine also stimulate hunger, so be careful about drinking heavily of coffee, tea, the cola beverages and all liquor. Alcohol, moreover, is very fattening in its own caloric value, for

we physicians can prescribe various drugs. But you can get much the same effect by dehydration. If the weather is cool and you are not doing heavy manual labor, restrict your fluids.

My 10-day diet allows you one full glass (8 oz.) of total fluids the first day, two glasses the second, and three glasses on each of the next eight days.

And by "total fluids," I refer to soup, coffee, milk, fruit juices, etc.

As your system dries out, your mouth feels cottony. By the same token, your gastric juice apparently is reduced, so you don't unduly crave food, though you may wish you had some ice water.

Many housewives pour one glass of water into an entire ice tray with the partitions left therein. Then, when thirsty, they slip out a thin ice wafer and suck on it.

Your resulting 10-lb. loss at the end of the first 10 days is obviously due in part to your dehydration. But it is a tonic to your morale to take up a notch in your belt or girdle.

Meanwhile, you ladies can eat 300 calories worth of food per day and you men, 1,500.

At the end of the 10 days, you will then be enthusiastic, and willing to keep on with a more rational diet.

So send for my booklet, "How to Lose 10 Lbs. in 10 Days," enclosing a stamped return envelope, plus 20 cents. Get your friends or plump club members to join you, for obesity kills part of your allure.

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long 30 stamped, self-addressed envelope and 20¢ to cover typing and printing costs when you send for his psychological charts and pamphlets.

pure alcohol is almost twice as fattening as sugar, starch or protein. The actual ratio is seven to four.

Everybody has a reserve supply of fat and sugar in the body. But we do not have any storage of protein.

So in your dieting, always include 400 to 600 calories worth of protein foods to keep your muscles from shrinking. These include cottage cheese, meats, gelatine, etc.

DIET STRATEGY

Your stomach will require several days to shrink down to a smaller volume. Meanwhile, you may get a hungry headache, so employ an aspirin.

And to help kill your hunger,

Device Detects Vapor

LOS ANGELES — A small easily carried water-vapor analyzer so sensitive it can detect one drop of water in the air of an average-size room is now available. Until now some operations in the chemical,

oil, and metallurgical industries could not operate at peak efficiency because of their inability to detect minute traces of water.

Of India's 43,645 tourists in 1955, 11,028—the largest number came from America.

Bricklayers on Rise

WASHINGTON — The Department of Labor reports that there are 500 more bricklayer apprentices in the United States now than a year ago, but there still are 2,000 fewer apprentices in brick-

laying and masonry than in 1950. The ratio is about one apprentice for every 12 journeymen compared with one for every seven journeymen in 1950.

Eight U. S. presidents did not veto a single bill.

They'd Rather Work

KANSAS CITY, Mo. (INS) — Jackson County Sheriff Arvid Owsley has a unique system for dealing with fathers jailed for non-support of their families. He makes them wash dishes in

the jail kitchen. Claims the prisoners are soon clamoring for parole even with the condition they get a regular job and settle down.

Australia and West Germany signed an air transport agreement at Bonn.

Aussie Tax Hiked

CANBERRA—Figures announced by Australia's federal statistician show that Australians paid an average of £A113 (\$354) in direct and indirect taxation last fiscal year. That represents an increase

of £A2/15/9 (\$6.18) per capita over the year before, but is less than in the 1953 fiscal year, when Australians paid £A116/18/7 (\$363) per person.

There are about 2,000 species of snakes in the world.

Concrete Given Tests

OTTAWA—An Ottawa testing laboratory helps the City make wise purchases. Since concrete for wharves and other construction in Canada must survive severe freezing and thawing, the laboratory freezes the test slabs to zero

and then thaws them in 40-degree water eight times a day. The slabs are also put under pressure to see how they stand up under weight loads.

There are about 23 million bicycles in the U. S.

Barges Carry Oil

NEW YORK—Barges carried more than 3,400,000,000 gallons of petroleum and petroleum products on the Mississippi River system and the South Atlantic Intracoastal Waterway in 1955. This traffic originated in Texas, Louisiana,

Mississippi, and Arkansas. The 1955 movement of this cargo was 550,000,000 gallons greater than in 1954.

The U. S. natural gas industry has customers today in 43 of the states.

British Propaganda

LONDON (INS)—The British Government has decided to spend more money telling the world about Britain. The sum allocated to the overseas information services has been increased by \$332,000 to \$2,010,000. The extra money will be

spent mainly on film services, including television films, and pamphlets and magazines.

The world's first bicycle is believed to have been made in Karlsruhe, Germany, the invention of a forester named von Drais.

He's Older Man Now

DES MOINES, Iowa (AP)—Philip E. Martin, Des Moines, suddenly discovered he was 12 years older than he thought he was. Martin believed he was 57 years old—until he received a letter from his sister who informed him he was

two years older than she. Her age, she said, was well past 65. Martin investigated and learned his sister was right. He was 69 instead of 57.

Industry Area Shifts

NEW YORK—About 61 per cent of the nation's workers are in goods-producing industries—manufacturing, farming, construction, and mining—compared with 65 per cent in 1919. In the same period

workers in the service industries—trade, government, transportation, and public utilities, finance, and miscellaneous others—climbed to 37 per cent from 35 per cent.

Ohio is the fifth largest coal-producing state.

Fishing Class Starts

HALIFAX—A new mobile trailer school for commercial fishermen has been established in Nova Scotia. The government offers three courses—in engines, navigation, and nets and gear—to fish-

men of the province. The latest trailer is called the Blueseal Princess; its forerunner, still in service, is named the Blueseal Queen.

There are about 8,000 public hospitals in India.

Pension Checks Rise

NEW YORK—Official figures indicate that there are more than 7,250,000 Americans 65 years of age and over receiving regular benefits under retirement programs, the equivalent of 51 per

cent of the 14,000,000-plus persons in that age bracket. Only 28½ per cent of persons in the 65-and-over bracket received such benefits at the start of 1951.

About 4,600 persons are engaged in leather industries in Canada.

Charity in Action

AMARILLO, Tex. (AP)—When his 2-year-old son was injured when struck by a car while playing in a driveway, W. J. Carroll forgot about the fence he was building to keep the youngster in the back

yard. But his neighbors didn't. "I came home from the hospital one night and there the fence was—finished," Carroll said.

Syria has set a new record of cotton lint output this year, with 85,000 tons.

Negro's Home Badly Burned

Arson Suspected When House in White Section Flames in Alabama

MOBILE, Ala. (AP) — A Negro's home in a white section was badly burned last night, less than 24 hours after the house was peppered by three shotgun blasts.

Fire Inspector J. B. Foster said it apparently was arson.

A burned portion of a nail keg was being checked to determine if it contained anything inflammable. An officer who found it under a rear bedroom had said he thought it had held kerosene.

Booker T. Guley, 37, said that windows had been smashed frequently by bricks and he had received threatening telephone calls since moving into the house Sept. 4.

After shotgun charges were fired into the house Tuesday night he took his wife and five children to stay with a brother in nearby Prichard.

Guley said yesterday he was moving out as soon as he could sell the house and find another place.

"I guess I'll try to sell what's left of it," the mechanic said last night.

He said he used all his money as a down payment for the \$7,500 home after a Negro real estate agent told him "the white people were going to move out (of the section) and the colored people move in."

The block, in suburban Toulminville, has about 10 white families. It is about a block and a half from the outskirts of a Negro residential section.

Stands Out in a Crowd

TUCSON, Ariz. (AP) — Robert Svob reported his car stolen and gave police this description: Lawn mower wheels on back, tubular pipe frame, powered by a gasoline motor from a washing machine. Svob, 13, said he built the car at a cost of \$25.

\$50,000 in Prizes Given High Schoolers

Ford Motor Displays Winning Art Projects

By NORMA NIKRANT

DETROIT (AP) — When Junior comes home from school talking about the hours he's spent at the poker table, don't worry.

He's probably been working on a handcrafted masterpiece in shop class that turns out to be a 12-foot table skillfully inlaid with different woods.

The way young Wayne Roberts of Sweet Home, Ore., did it, the poker table comes with a set of short legs to change it into a coffee table—making it a two-way gift for both parents.

Wayne's poker table is one of the prize winning items on display here in the Ford Motor Co.'s industrial arts awards program. Some \$50,000 in cash prizes was divided among 80 high school youths who turned in winners in nationwide competition.

There's proof that youth has a sharp eye on the future in the

plastics field — like the ruby red plastic lazy Susan of Michael Zysowki, a 13-year-old from Wilmington, Del.

There's an impressive eight-piece set of glass and wrought metal table and chairs, built by William Varga, 18, of Cleveland.

And there's the refractive telescope machined by Richard Harris, 18, of Detroit, who used surplus parts for a cylinder and old railroad ties for a base.

Is young America lazy? Not if the chemist's analytical balance, built by Douglas Goodell, 16, of Detroit, is any standard. It took Douglas a solid year of school work, besides tracking down salvaged metal for the delicate machine parts.

There's the hand built metal tool chest of Ronald Kress, an eleventh-grader from Para, Ohio; patterns for a commercial airliner pump, by Leo Aho, 18, of Cleveland; a full size metal shaping machine, by Lyle Jacobson, of Bellingham, Wash.

Shop teachers who accompanied

their prize winning pupils on a kids like to take things home to trip to Detroit say many of the best items were built "because

Some of those items reflect

AND AWAY THEY GO! — If your eyesight was a little more youthful you could see the snow fields and the aurora borealis. That's what Lois, 4, Linda, 3, and Louise Lemke, 2, probably have in their mind's eyes as this Alaskan malamute, Silver Chief, pulls the dog cart — oopse, sled — through a much more gentle climate — a park in Pewaukee, Wis.

U.S. Observers See A-Test in Australia

CANBERRA, Australia (AP) — Britain exploded an atomic weapon today at its new Maralinga proving ground in Australia.

Scientific records are being collected for accurate evaluation

and all safety precautions are in operation," the announcement said.

It is believed the devices being tested are destined to become warheads in guided weapons being developed in British factories and tested at Australia's Woomera rocket range, adjoining Maralinga.

For the first time a group of American military observers witnessed a British atomic test.

108 NORTH SAGINAW

New York City Opens Downtown Heliport

NEW YORK (INS)—Helicopters yesterday began whirling regularly into New York City's first big downtown heliport, a riverbank site on the Hudson at 30th Street.

Mayor Robert F. Wagner hailed it as a memorable event in New York transportation. Robert L. Cummings, president of New York Airways, said a million helicopter passengers "may be coming in and out of the city by 1958."

For the time being, Cummings' line is operating only mail and cargo flights at the \$320,000 Port Authority base, while his pilots familiarize themselves with the place.

Before Thanksgiving he says he hopes to hook in 30th Street to his passenger schedules which reach from Stamford, Conn., to Trenton, N. J.

Bendix to Build at UM?

ANN ARBOR (U)—Mayor William E. Brown Jr. has disclosed Bendix Aviation Corp. is considering building a large facility to house its systems engineering unit on the University of Michigan campus. Brown made the disclosure at a special meeting of the city council to consider negotiations with Parke, Davis & Co., Detroit pharmaceutical firm, for locating in Ann Arbor.

Bob Considine Says:

Trade Fair Exhibits Win Friends for U.S.

NEW YORK (INS)—The U. S. sells itself in assorted ways overseas. It sends over a million men. It sends lollipops. It sends a fleet. It sends surplus soybean curd.

And it sends exhibits to international fairs. This year close to 50,000,000 foreigners will goggle at U.S. gee-gaws planted in fairs by the U. S. Department of Commerce's Office of International Trade Fairs.

A Reader's Digest summary of what we show at fairs, written last year, pointed out that we knocked the Russians for a loop by sending Cinerama against them in Bangkok, and a 6-foot wooden chicken (with a sound track on how and why chickens lay eggs) against their exhibit at Bari, Italy.

We gave away frozen custard in Bogota, Colombia, made from surplus powdered milk from Wisconsin.

At Paris' big international fair we drove the mural-conscious Russian exhibitors back to Moscow by presenting a model five-room American home, complete with a good-looking young "mother," working the most modern kitchen gadgets, "father" putting around the Ford Thunderbird in the carport and working at his power-

tools, and the "children" (actually children of U.S. troops stationed in France) frolicking with toys in the playroom.

ADVICE ON ORANGES

An American exhibit in Spain taught that country's citrus packers how to prepare oranges for shipment and how to concentrate and can their juice.

In Karachi we taught Pakistanis (worried about their lagging juke trade) how to turn the stuff into soft fiber for uses beyond burkap bags.

Our atoms-for-peace exhibits

Voters Get New Chance to OK School Bonds

GRANT (U)—Voters of School District No. 7, who tied 138-138 on a proposed bond issue Sept. 10, will vote again Friday on a revised proposal to finance a new elementary school.

The tied vote defeated a proposal which sought a bond issue of \$150,000 for the school and improvements for the high school.

The board of education and a citizens' committee have revised the proposal to a \$150,000 bond issue for a seven-room elementary school with office and recreation room.

have struck subtly but hard at the Russian propaganda that we seek only to rattle atomic swords. Our TV shows in Indonesia won millions.

We wooed East Germans by showing—in nearby West Germany—the average wardrobe of an American family, with price tags (the greatest wonder of all) attached to each article, and statistics showing that an American carpenter makes enough money in three weeks to outfit his family for a year.

The government works closely with private industry in these exhibitions, and there again we make strides. Occasionally, a Communist nation will make a great effort to prove that it is hip in the ways of production.

At the International Trade Fair in Lyon, France, Red China proudly showed off heavy machinery, motorcycles and other things not easy to come by. But its representatives had to look out the window when other nations indicated an interest in buying and asked for delivery dates.

VOTING MACHINE

At the Indonesia fair, people lined up for miles to see a typical U.S. voting machine in operation. Electric shavers have literally drawn tens of thousands of specta-

tors. So have exhibits of Lionel trains.

His Majesty Mohammed Zahir Shah, King of Afghanistan, appeared on TV for the first time at the U.S. pavilion at the Kabul fair. "Do it yourself" kits killed the people at Stockholm, Damascus, Vienna and Zagreb.

Veteran Pilot Retiring to Find Time for Flying

NEW YORK (INS)—American Airlines' Capt. Owen "Chuck" O'Connor, who started flying way back when an aircraft was an "aeroplane" or a "crate," ends his 40-year career Friday.

O'Connor, who lives in Newport, R. I., steps down from the cockpit for the last time at Idlewild Airport. He has been an American Airlines pilot for 27 years.

He will begin retirement by taking a flying vacation in Sweden, Finland and Australia, the only countries he's missed as a World War I Navy pilot, a World War II Air Transport Command pilot and a commercial airline pilot.

In both the Navy and the ATC he received many commendations for bravery.

Trade fairs reach back so far in history that there is no clear story of their beginning. Xerxes, King of the Persians, conducted a whooper about 480 B. C. to "display the riches of the kingdom" and perhaps pick up a bob or two that he had not already stolen.

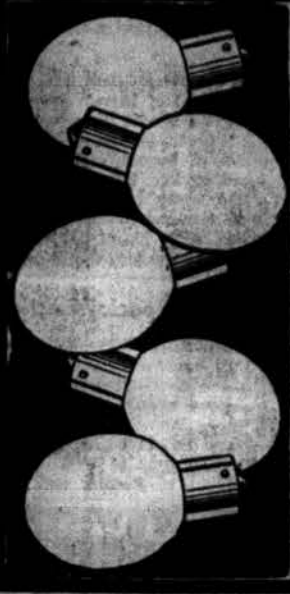

There were trade fairs in Jerusalem in Christ's time, trade fairs in the shade of castle walls through the Middle Ages. Albert, Queen Victoria's consort, put these fairs on their current footing 105 years ago at London's Crystal Palace.

We let U. S. participation largely languish until President Eisenhower urged a \$2,000,000 federal support program for such endeavors shortly after going into the White House.

Undersecretary of Commerce Walter Williams, Seattle realtor and insurance man, has run our operation from the start. With a limited budget and a world of imagination he probably has contributed as much to the winning of the cold war as the whole overseas arms program.

A passenger automobile uses about 75 pounds of rubber for its tires and about 50 pounds or more for its engine mountings and other uses.

WE MAKE IT FOR YOU

IT'S THE '57 INNER FORD IN ACTION

Mr. Horsepower! That's the title this '57 Ford has already won. With up to 245 hp Ford simply flattens mountains that would knock the wind out of any other car.

You're seeing why the '57 FORD will "take nothing from nobody"

"Gangway!" That's what you'll say as you flash ahead in the new kind of Ford for '57. For Ford's Silver Anniversary year of building V-8's, you'll have more skedaddle than any other low-priced car ever... up to 245 hp. And wait till you take this spitfire over the hills and down the straightaways. It's fun-driving at its finest!

But more scat is only half the powerful difference in the new Ford. There's more savings, too. Ford engineers have built an easier breathing engine for far fewer gas

stops. Ford's new low silhouette carburetor teamed with the new higher compression combustion chambers, new giant intake valves and new king-size manifolds bring you more zip on a slim-size gas diet.

In the new kind of Ford you'll "take nothing from nobody"—except from another Ford, perhaps. Action-Test this power sensation at your Ford Dealer's Wednesday. You're due for a thrill! And just wait till you see the beauty this new power's wrapped in!

V-8

You can have Thunderbird GO up to 245 horsepower strong in any of the various '57 Ford models you choose.

Six or V-8, the going is great!

SIX

The new Mileage Maker Six, America's most modern six, delivers 144 hp; is available in all Ford models for '57.

Your Tomorrow Starts with a New Kind of Ford—see it Oct. 3rd

YOUR LOCAL FORD DEALER

Gasworks at Paris Is Europe's Largest

PARIS — The French capital has put into operation the largest gasworks in Europe. The coking plant can produce about 600,000 cubic meters of gas daily. (A meter is 39.37 inches.)

Each year the plant will use an average of 550,000 tons of coal to produce 200,000,000 cubic meters of gas, 400,000 tons of coke, 18,000 tons of crude tar, 5,000 tons of crude benzol, 1,200 tons of ammonia, and 20,000,000 kilowatt hour of electricity.

The new Paris-Sud Gasworks was built to supply gas to the Left Bank, the southern suburbs, and large towns and cities in the Departments of Seine et Oise, Seine et Marne, Oise, and Yonne.

It will also receive, adapt, and transmit 1,100,000 cubic meters of

gas received daily by feeder lines from the Lorraine steel mills.

Honeymooners' Delight

CHEBOYGAN (In)—A community welcome is being prepared for newlyweds Mr. and Mrs. Eugene M. Reed of Detroit, who won a free honeymoon trip offered by the Cheboygan County Tourist and Resort Council. The prize includes free lodging, meals and entertainment for a week; a day on Mackinac Island, keys to the city from Mayor Quincy Leslie and a radio appearance.

Order Special Election

DETROIT (INS)—Wayne County's Board of Supervisors has ordered an election Nov. 6 to determine whether 22.5 acres of Van Buren Township will be incorporated into Belleville. The land is located south of Belleville in the vicinity of Sumpter and Savage.

New Yorkers Let Princess Enjoy Privacy

Grace Serenely Fades From the Spotlight

By PHYLLIS BATTELLE
NEW YORK (INS)—It is hard to think of Grace Kelly, the prettiest palace-keeper in town, as being a forgotten woman.

That, however, is exactly what she is trying to make of herself on this, her first visit "home" since she became, officially, serene.

Grace was aware last April, when she married Rainier, that, by virtue of publicity, she was being made "the world's most beautiful bore." She didn't want it to happen again on this trip because, as she said frankly upon her arrival, "I was even bored with myself myself."

As a consequence, the pregnant princess is showing New Yorkers

exactly how serene a sensation it is to be a serene highness.

She is loafing in her apartment. She is strolling bareheaded under Central Park trees. She is holding hands with her husband in candlelit bistros, and she is looking cooler and calmer than any woman, however endowed with tranquility by nature or marriage, has any right to look.

EMBALMED IN OBLIVION

"Her highness," remarked a friend from her more hoopla era as a movie star, "appears to be embalmed in oblivion. May some of it rub off on this hurly-burly city."

Of course, it won't because, even in the days of her Hollywood glamor, Grace was accustomed to roaming the streets aloofly serene, as

if trying to spread a benevolent peace upon us all.

It didn't work then; wherever she walked, there was pushing and shoving and general shocked confusion. Grace Kelly's over there! Who's got a pencil and paper? Why don't she take off those dark glasses? Hey, Miss Kelly—

Now it's different. With her husband beside her, Grace can walk into the busiest store on Fifth avenue and a pall of bliss settles over the ladies in the layette section. People no longer bellow, but speak in hushed voices.

Grace can hardly hear the salesgirls, they're so piously respectful. Grace is having the time of her

life fading into this haze of revered back-seatedness.

If she cared to, she could attend a theater opening with Jayne Mansfield and would discover delightedly that Jayne got the bawling attention once accorded her—while her own serene sensibilities are allowed to shrink into a chair amidst an adoringly shy crowd.

AWE OF ROYALTY

The reason the former Miss Kelly is being left alone these days is a many-sided one. It involves Americans' awe of royalty and fairy tales.

It involves the traditional respect for motherhood. Even more, it has to do with Grace's own ability to "stand off" and still be admired.

She is an actress of proven ability, and when you combine theatrics with a royal title . . . well, you've mixed a powerfully heady concoction.

A good actress could never play a beauteous princess this adeptly, and neither could a beauteous princess. Not without stage experience.

The upshot of it is that blasé New Yorkers are impressed as they never were before when Grace was in the limelight.

And Grace, commanding respect with every dignified stride, never has been able to stroll the city streets more freely.

It's a happy relief for all, now that Miss Kelly has settled down to being missus princess.

Amputees Can Swap Their Useless Shoes

EASTBOURNE, England — Ernest Clarke of Eastbourne makes a hobby of swapping shoes. Through his swapping service a one-legged person can send in the useless shoe of a pair and get in return a shoe for the other foot.

Aside from packaging and mailing expenses, the service is free. Clarke, now 70 got started on his unusual hobby when, after accidentally acquiring 1,000 shoes and giving them away, he began to get letters from amputees asking for odd shoes. Now he sends shoes all over the world.

Says Clarke: "It is my life's pleasure and I intend to see it put in other hands to be carried on when I am gone."

Open Mon., Thurs., Fri., Sat. Nights to 9

TODAY'S ASSIGNMENT FOR:

JUNIOR EDITORS

FAMOUS INDIAN CHIEFS-4

Sequoyia

Sequoyia, son of a German trader and a Cherokee mother, is remembered for inventing an alphabet for his people. He was brought up among his tribe unable to speak English, read or write, but when he saw how white men could write he set about inventing an alphabet for the Cherokees.

He completed it in 1821 after 12-years of work. With it the Indians were able to make a collection of legends, laws and customs. A silver medal was presented to Sequoyia for his services to the nation, and here he is wearing it.

Behind him are some of the characters in his alphabet, and on the right is a purse Indians used for pipes and tobacco. Color this picture with your crayons, and then paste it on cardboard. Cut out around the heavy outline and fold back the ends at the dotted line so it will stand, for your collection.

You can make a pouch of heavy cloth like the one shown by cutting out two parts like those in the small pattern. Draw designs on them with crayons. Sew the side and bottom seams with big stitches in heavy thread. Turn over the flap at the top, and hang the purse from your belt.

(The \$10 award goes to Sharon Anderson, Glendale, Calif., for suggesting this first. Send in your ideas care of this newspaper. Violet Moore Higgins; AP Newsfeatures).

Tomorrow: Sitting Bull

Crazy Mixed-Up Dog Just Victim of Over-Kissing

EDINBURGH (INS) — An Alsatian dog accused of biting a little girl won a reprieve after a court heard he was a "bewildered, mixed-up dog" who had been spoiled by a previous owner.

The present owner, Edward Harris-Gilbert, claimed the dog had received "too much fondling and kissing" from a woman owner and added: "it might have suited a miniature poodle but certainly not a virile, masculine Alsatian."

Driving Teachers Elect Lawton Smith President

EAST LANSING (U)—Lawton K. Smith of Portage, has been elected president of the Michigan Driver and Safety Education Assn.

The group is composed of high school driver education teachers.

Ferris Turns Away 200

BIG RAPIDS (U)—With a freshman class 42 per cent larger than last year, Ferris Institute denied admission to more than 200 applicants. Enrollments totaled 1,826 students for the fall term. Last year's enrollment was 1,431.

FEDERAL DEPT. STORES Saginaw at Warren, Pontiac

Asks Protection of Historic Sites

State Group Will Seek Money From Solons to Hire Archaeologist

LANSING (U) — The Michigan Historical Commission will ask the Legislature for money to hire an archaeologist to explore historic sites that might be destroyed by the stepped-up highway building program.

Dr. Lewis Beeson, commission executive secretary, said although many states have pushed ahead with such programs of archaeological salvage, Michigan is lagging behind.

"Some sites many thousands of years old will be bulldozed and their interpretation lost forever unless something is done in the near future," he said.

The commission voted to ask the 1957 Legislature for \$205,000. Of this, \$30,000 would be earmarked for the historic site-marking program.

The present budget is \$119,000, with \$25,000 for the site-marking program.

The commission also urged that the state take over the site of Michigan's only known Indian rock carvings in Greenleaf Township, Sanilac County.

Dr. Beeson said the Conservation Department would like to protect the site but cannot fit the project in its program at the present time.

"Relic hunters already have been busy up there," Dr. Beeson said.

Mother Pulls Baby From Rubbish Fire

DETROIT (INS)—A heroic Detroit mother pulled her 11-month-old son out of a fire yesterday and saved his life.

Richard Salzman crawled into an unattended rubbish fire. His screams brought his mother, Mrs. Helen Salzman, 34, rushing to the scene.

She found him sitting in the fire.

The baby is in Childrens Hospital with second and third-degree burns over 60 per cent of his body. Mrs. Salzman was hospitalized with hand burns.

Can Makers Sign 3-Year Contract

LOS ANGELES (U)—A new contract between American Can Co. and United Steelworkers of America will go into effect Monday, providing 21½ cents an hour in wage increases over a three-year period.

The agreement, covering 20,000 workers in 37 plants from coast to coast, was signed here yesterday.

Wages will be increased 7½ cents an hour Oct. 1, 7 cents Oct. 1, 1957, and 7 cents Oct. 1, 1958. The current basic starting wage is \$1.82 an hour.

HELD IN BRIDGES HEATING — Fred Reppine, 35, second from left, and Donald Ross Hansen, 28 (hands over face), are shown in custody of Deputy Sheriff Jack Bones at San Rafael, Calif., after their arrest for questioning in connection with the heating of Harry Bridges, president of the International Longshoremen's and Warehousemen's Union, in a Sausalito night club. Reppine and Hansen are members of the Sailors Union of the Pacific, a bitter rival of Bridges' ILWU.

Mental Tests Ordered for Sweepstakes Winner

SAN FRANCISCO (U)—Municipal Judge Alvin Weinberger ordered psychiatric examination for Joseph Francis O'Brien, 56, winner of \$140,000 in Irish Sweepstakes money two years ago.

O'Brien, a 65-a-week night hotel clerk when he won the sweepstakes prize, came before Judge Weinberger on a drunk charge. O'Brien said, "Don't let anybody ever tell you it's lucky to win money. I wish I had never seen the dough." Much of his money, he said, had gone in Nevada gambling.

Fire Slows River Work

BENTON HARBOR (U)—Deepening of the St. Joseph River Turning Basin has been delayed at least a month by fire that heavily damaged a sanducking dredge Tuesday. A crewman, Otis Edmonston, 43, of Euclid Center, was burned on the legs and jumped overboard to escape.

Bela Lugosi Leaves \$2,900 Estate to Son

LOS ANGELES (U)—Once wealthy actor Bela Lugosi, who died Aug. 16 at 74, left an estate worth \$2,900.

His will, filed in Superior Court for probate, left everything to a son, Bela Jr., 18. Under California community property law, the son must share the property with Lugosi's widow, Mrs. Hope Liniger Lugosi, to whom he was married Aug. 24, 1955. The will was dated Jan. 12, 1954.

DETROIT (U)—Montgomery Ward & Co. said it plans to open two new retail stores in the Detroit area. One will be in a shopping center at Plymouth and Middlebelt in Livonia. The other will be at an unspecified site on the East Side. Construction is to start in the spring.

Plan 2 Ward's Stores

at an unspecified site on the East Side. Construction is to start in the spring.

British farmers have lost 23,100 workers in a year to better-paying city jobs.

Enrollment Up 16 Pct.

MT. PLEASANT (U)—Central Michigan College reports a fall enrollment of 3,482, 16 per cent more than last year. Late enrollments are expected to bring the total to a record 3,500.

Esther Williams Wants Substitute for Wet Parts

By EARL WILSON

NEW YORK—Esther ("How Dry She Is") Williams tells me she's looking for a sopping-wet young doll to fill her swim suit.

"It's fun doing the dry department," said Esther, who recently made a movie, "Unholy Moment," which didn't even mention swimming, "and I don't want to go on being wet unless we can be more inventive."

But she'll be very wet Saturday when she waterkicks on an Aqua Spectacle from a Brooklyn TV studio . . . "live," too.

"After the Olympics, I'll start looking," she said.

"The girl must be very young. My life with my family is too important now. I put all my energies into having babies and home-making."

About that indoor water-skiing to be done on Saturday . . .

"My husband Ben invented a motor-driven ski-arm which replaces the boat. It pulls you 35 miles an hour in a pool 80 feet in diameter. You could get killed very easily."

"Why do you want to change and become dry?" I asked her. "You can't tread water," she said, "in show business."

Jackie Gleason hurls five "mystery guest stars" against Perry Como's Bill Holden-Jan Peerce-Jeanne Crain combo this week. Frank Costello is about reconciled to spending his last years in Italy which, ironically, he left before he was two. Friends say he really is ill in his West Side cell.

"Las Vegas has everything!" says sensational Comedian Joe E. Lewis. "My trunk, my money, my clothes. I went there with only a few thousand dollars and now I'm independently bankrupt."

Joe Pasternak, back from Italy, revealed he had an audience Sept. 15 with Pope Pius but couldn't go—it was Yom Kippur. Lowell Thomas'd like the Rev. Dr. Norman Vincent Peale to televise his sermons (Then we could all see 'em, from bed) . . . Lena Horne gave up a home on the French Riviera for an apartment on West End avenue . . . Porfirio Rubirosa and Skitch Henderson have similar Mercedes-Benzes; Rubi and the ex-Mrs. Messmore Kendall Jr., busted up; Skitch's companion is Irene Mayo.

THE MIDNIGHT EARL . . .

Errol Flynn is taking a prospective angle for his movie to his yacht off Mallorca; says "suckers succumb easier on a yacht" . . . Kleig lights for a filling station opening lit up Judy Hornady's wedding to Roger Coryell, Miami News retail ad manager, in Tarrytown Christ Dutch Reformed Church, like a Hollywood premiere.

Gen. Sarnoff will testify before the Congressional committee investigating TV monopolies . . . Jayne Meadows will m. c. the "Giant" preview here; Steve Allen may do it in H'wood . . . Reason for not showing Frank Sinatra's bedroom on "Person to Person": the furniture hadn't arrived yet . . . Sherree North (whose latest is "Best Things in Life Are Free") is teaching a H'wood dramatics class.

Jack Dempsey will be a grandpa for the third time in April . . . Joan Benny (Jack's daughter) and her husband arrive this week for a vacation. Busty singer Betty George was invited to Iran by the Shah's sister . . . Dancer Chita Rivera's ailing, and Joan Morton's subbing in "Mr. Wonderful" . . . Jack Benny's reason for buying eyeglasses: "It's cheaper than a dog."

Earl's Pearls . . .

Maybe money buys very little these days—but they still haven't come up with a substitute that'll buy more.

WISH I'D SAID THAT: "A diet," defines Herb Sherry, "is what you keep putting off while you keep putting on."

TODAY'S BEST LAUGH: Hal Jackson heard a bachelor boast, "No wife of mine is gonna work—unless, of course, she wants food, clothes and a place to sleep."

Jan Murray says there are two kinds of party-goers: one wants to leave early, one wants to stay late. Trouble is, they're usually married to each other. That's earl, brother. (Copyright 1956, The Hall Syndicate, Inc.)

Darymen Lose Money

AUCKLAND — New Zealand's profit of some \$138,000 during the dairy producers lost more than season, but more than \$3,700,000 on sales of butter and was lost in net cheese sales.

Loads of Loot Lands Liberace in London Niter

LONDON (U)—One of Princess Margaret's favorite night clubs, the swank Cafe de Paris, said today it has signed Liberace to appear there for a week "at the highest salary we ever paid anyone."

One of the club's managers, Maj. Neville Willing, said the night spot had only one regret:

"It's just too, too bad that Princess Margaret won't be in London. She's off in Africa, as you know, but I know that she's an admirer of Liberace and will miss missing him."

Asked for the amount the American pianist will receive for the six nights during the first week of October, Willing hedged but said: "It is really more than we should pay anyone, but if this man had religion, he'd be a messiah." Not everyone in London shared

Willing's enthusiasm for the entertainer.

While Liberace was testing the acoustics at the Royal Festival Hall—where he'll give a series of concerts beginning Monday night—a group of 30 young men paraded outside chanting:

"Hate, hate, hate—we hate Liberace."

Gabor Jewel Display Stolen From Window

NEW YORK (U)—The display window of the Madison Avenue jewelry store owned by Mrs. Jolie Gabor, mother of the beautiful Gabor sisters, was looted last night.

Mrs. Gabor estimated between \$4,000 and \$5,000 worth of cultured pearls, gold bracelets, charms and pins was taken by the thief, who used a brick to shatter the window.

Mrs. Gabor said the jewelry was not insured.

Digs Up 'Skeleton' Out of Cobo's Past

KALAMAZOO (U)—Secretary of State James M. Hare says Democrats have no monopoly on corruption in their administrations and points to a case 20 years ago involving Republican Albert E. Cobo.

In the so-called Tyler-O'Shea Case of 1936, Hare said, Wednesday night, \$50,000 in public funds turned up missing at a time when Cobo, now Detroit mayor and Republican nominee for governor, was city treasurer.

Hare was answering criticisms, particularly by his Republican opponent, regarding theft last spring

of \$74,000 in state funds by Mrs. Anne Thorpe, manager of the Department of State branch office at St. Clair Shores.

Mrs. Thorpe fled to Mexico. Hare said the state stands to recover most of the money she took with her, through insurance and directly.

Another Ex-Escort of Margaret's Engaged

LONDON (INS)—Another former escort of Princess Margaret announced his engagement today.

Peter Ward, 30, a son of Earl Dudley, announced he would wed hazel-eyed Claire Baring, one of London's loveliest debutantes.

The 19-year-old brunette is the niece of banker Edmond Barine.

Power and Water to Help the West's Wastelands Blossom

Builders Laying Groundwork in Arizona for 2nd-Highest Dam

By HOWARD S. BENEDICT
KANAB, Utah 9 — A big, sup-
blackened workman stopped his
bulldozer and, stepping into an
inch of dust, walked to a nearby
water bag. He filled a cup and
drank deeply.

"Man, that tastes good!" he ex-
claimed.
He wiped the sweat of the 100-
degree heat from his face.

A pickup truck bounced up with
two other workers aboard.
The truck traveled along a new-
ly graded road, throwing up a
screen of dust. Half an hour later,
it pulled into a trailer camp and
the tired men went to wash, eat
and rest.

Working men, bulldozers, desert
heat, trailer camps and dust —
these are the ingredients that are

going into making a dam in north-
central Arizona.
The dam is Glen Canyon, the
key unit of the 760-million-dollar
Upper Colorado River project —
the largest reclamation authoriza-
tion ever granted by Congress in
a single piece of legislation.
Most of the work today is on
construction of access roads to
the dam site in rugged Arizona
country five miles south of the

Utah border. It will be almost
three years before the first con-
crete is poured for the dam itself.
A year ago the Glen Canyon
Gorge of the Colorado River was
accessible only by horseback. The
nearest highways were at Kanab,
68 miles to the northwest, and at
Bitter Springs, Ariz., 40 miles to
the south.

Today, crude roads — forerun-
ners of a major highway — reach
from Kanab and Bitter Springs to
the opposite edges of the 800-foot
deep gorge.

Both Utah and Arizona have
thrown hundreds of men into the
work of road building in an effort
to complete by November a road
adequate to carry equipment and
material for a mammoth diversion
tunnel to be built near the dam
site.
The diversion tunnel will be 2-

600 feet long and 46 feet in diam-
eter cut out of solid rock at the
bottom of the gorge. It will take
more than a year to build. Then
huge coffer dams will be erected
above and below Glen Canyon be-
fore actual work can start on the
dam.

When concrete for the big dam
begins to pour, an estimated 4,000
will be employed at the site. Many
will bring their families and a
town of 8,000 or 9,000 persons will
sprout out of the desert near Glen
Canyon.

When completed in about 10
years, Glen Canyon dam will be
700 feet high and about 1,000 feet
across. It will be the second high-
est dam in the United States.
Hoover Dam is higher. The dam
will create a lake 186 miles long

and up to several miles wide.
most of it in Utah.
The dam's main purpose will be
to provide irrigation water and
power for the West. This unit of
the Colorado River project espe-
cially will benefit arid lands of
Utah and Arizona and will gen-
erate power for points as far away
as Los Angeles.

Glen Canyon is the biggest unit
of the Colorado River project. It
will cost an estimated 421 million
dollars.

The entire project will take
more than 50 years to complete.
Eventually it will supply badly
needed irrigation water for more
than 366,000 acres of land and
have an installed hydroelectric
power capacity of 1,100,000 kilo-
watts.

Polish Rioters' Trials Start

12 Defendants Face Possible Death After Poznan Testimony

BERLIN (AP)—Communist Poland today began the mass trials of more than 50 persons accused of taking part in the Poznan "bread and freedom" riots.

The 12 defendants face possible death sentences.

The East German news agency ADN said the first trials opened in Poznan courtrooms and involved three defendants in one case and nine in another.

The trio was accused of slaying a Polish police corporal during the June 28 uprising which won worldwide attention. They were identified as Jozef Foltyniewicz, Kazimierz Zurek and Jerzy Sroka.

The nine other defendants were charged with armed attacks on state buildings and Communist officials. They also were accused of shooting at policemen and soldiers sent in to quell the outbreak.

The trials are expected to last 10 days. After the major defendants have been tried, some 96 others will be haled into court on looting charges.

President Eisenhower made an appeal yesterday for a "fair and open trial" for the defendants. But he said the prospect was "in no way reassuring."

Although the Communists had insisted the trials would be open, Western attendance was drastically limited. Most Western newsmen who wanted to attend were unable to get visas for Poland.

At least 53 persons were killed and 300 others injured in the Poznan uprising, which began as a strike for better living conditions. Hundreds of rioters were arrested.

Stripping Was Legal

DALLAS (AP)—Some teenage boys stripped an automobile on a parking lot at night. But they were Sunday School members, not juvenile delinquents. They tore the car apart, down to the smallest nut, under the supervision of Willie Griffin, a mechanic. The worn-out 1948 model automobile was donated by W. H. Woodward, a used car dealer and a member of their congregation, the First Baptist Church. The youngsters simply wanted to know what made an automobile tick, down to last detail.

SHAKESPEARE BRINGS HOME THE BACON—Old-car collector John W. Shakespeare, of Centralia, Ill., poses with his latest acquisition, one of the rarest motor vehicles in the world. It's a Buggati La Royale, custom-built in Italy in 1933. One of six still in existence of the eight that were

made, the three-ton monster is 20 feet long, seven feet wide and 6½ feet high. Constructed at a cost equivalent of \$35,000, Shakespeare bought it from an English collector for \$10,000. The La Royale's said to do 90 m. p. h. in second gear and 120 m. p. h. in high.

Cobo Winds Up Tour, Cites Highway Needs

DETROIT (AP)—Back home again after a campaign tour, Mayor Albert Cobo predicted a statewide road-building program will reduce the "staggering" annual traffic death rate in Michigan.

Cobo, the Republican candidate for governor, told a meeting of the Polish Century Club in Detroit last night Gov. Williams, his Democratic opponent, twice blocked road proposals.

He added: "It's hard to believe that a governor could spend as much time touring his state as the present governor has and still be unaware that the greatest need for all the people is a network of four-lane highways."

"And it's especially strange that the governor would wait until shortly before the coming election before clamoring for a concentrated drive to construct these necessary roads."

Cobo said Williams vetoed a proposed gas tax hike in 1951 and also obstructed a revenue bond proposal for highway construction.

Property on Front Street in Hamilton, Bermuda is said to be priced higher per square foot than on Fifth Avenue in New York.

A Chaw in Cheek Makes Champs, Chap Chimes In

DETROIT (AP)—Chewing tobacco might improve the playing of England's cricket team.

At least that's the whimsical observation of Dickie Dodds, a star of the Essex County Cricket Club in England.

Dodds saw his first major league baseball game yesterday, watching the Detroit Tigers whip the Chicago White Sox 4-1.

Devouring two hamburgers and

a hotdog in typical fan fashion, Dodds said he was most impressed by the skill of the throwers and the batters and the wads of tobacco tucked in some of the players' cheeks.

"Maybe we would do better if we chewed tobacco," Dodds said.

Bushels of Fruit Stolen From Milford Market

Several bushels of apples, pears and peaches have been stolen from a Milford fruit market in recent weeks, the Sheriff's Department learned today.

The market, owned by Lansing Wilson, is located at 5470 Fish Lake Rd. The thefts have been at night.

Benton Harbor Crash Kills 5

Two Marines on Leave Die in Head-on Collision on U.S. 12

BENTON HARBOR (AP)—Five persons were killed and three injured in a head-on crash at the crest of a hill six miles east of Benton Harbor last night. The dead were an elderly couple and three teenagers, two of them on leave from the Marines.

Deputy Sheriff Art Johnson said the two cars met at the top of a hill on U.S. 12 where both drivers were required to make a curve and stay in their lanes.

Apparently, he said, the car driven by David Immoos, 19, of Coloma, failed to stay on its side of the road. It met a car driven by Bernard Willmings, 67, of Watervliet.

In addition to Immoos who was one of the Marines, and Willmings, the dead include Willmings' wife, Florence, 63; Walter Cox, 18, of Benton Harbor, and Richard Kin-

ler, 18, of Coloma, the other Marine.

Critically injured was Pat Huber, 19, who lived with the Willmings. Leroy Irwin, 19, and Virgil Taylor, both of Coloma, also were injured. Irwin was in serious condition. All were taken to St. Joseph Mercy Hospital.

Johnson said after striking the Willmings car, Immoos' vehicle bounced off and struck a tree farther down the road.

MSU Appoints Chief of Speakers

EAST LANSING (AP)—Prof. A. A. "Bert" Applegate, former head of the Department of Journalism, will head the newly formed Michigan State University Speakers Bureau, it was announced today.

Applegate will return to the campus after a year of retirement. MSU officials said he will direct an expanding educational and cultural service designed to provide organizations with campus personalities who can talk interestingly and authoritatively on a variety of subjects.

Applegate was termed an outstanding choice for the position because of his 20 years of experience on the MSU staff and his close association with Michigan newspaper men.

'Theater Clubs' Foil Censorship

Britons See Forbidden Dramas by Organizing Their Own Troupes

LONDON (AP)—Britons are, side-stepping their theatrical censor by joining "theater clubs" which put on shows that the government forbids the public to see in regular playhouses.

By paying a small fee, any person over 18 can become a member of a theater club. Once a member, he can buy tickets for plays his club decides to stage. So far the government has not made a test case out of the clubs' right to stage shows.

The New Watergate Theater Club, recently established, is putting on three plays banned from public performance in England: "A View From the Bridge," by Arthur Miller.

"Ten and Sympathy," by Robert Anderson.

"Cat on a Hot Tin Roof," by Tennessee Williams.

These plays all deal, in passing, with homosexuality, a subject barred from the regular licensed theaters of London's West End. The New Watergate Club claims 30,000 members.

The Arts Club last week staged "The Children's Hour" by Lillian Hellman, which the British censor has banned for 20 years. This club claims 15,000 members.

The Theaters Act of 1943 decrees

SUPPORT SINKING SCHOOL—Wooden supports had to be placed alongside the wall of the Elk Point, S. D., high school building as strange shifting underground caused wide breaks in the walls. Classes have been moved out of the building and many homes and other buildings are cracking because of the underground shifts.

that a play should receive a license unless it is a danger to "the preservation of good manners, decorum, of the public taste."

That gives the lord chamberlain the right of censorship. He is the Earl of Scarborough, a former governor of Bombay.

Several critics are demanding that the mighty machinery of eva-

tion be eliminated. They want the theater to censor itself.

About 67 per cent of the U. S. meat supply is dressed in federally-inspected packing plants; 15 per cent under city or state inspection; 1 per cent by local retailers; 11 per cent on farms.

Top Politicians Will Visit State

Truman Speaks Oct. 5 in Detroit; Eisenhower Due Later

DETROIT (AP)—The announcement that former President Harry Truman will speak in Detroit Oct. 5 brought new evidence today that both political parties consider Michigan a major battleground.

Candidates and spokesmen for candidates will criss-cross each other's trail throughout the state from now until the Nov. 6 general election, bringing concern in some quarters over possible conflicts in speaking dates.

Democratic leaders, for instance, said today they may be hard-pressed to provide adequate arrangements for both Truman and Mrs. Eleanor Roosevelt, who is to speak in Detroit Oct. 3 in behalf of the Stevenson-Kefauver ticket.

"We wanted Truman to come either Oct. 19 or Oct. 26," said Marion Macioce, vice president of the Detroit Building Trades Council. "The Oct. 5 date was suggested by Chairman Paul Butler of the Democratic National Committee but we told him that was too early."

"Besides," Macioce added, "Mrs. Roosevelt is going to speak in Detroit Oct. 3 and we wanted to spread out the big-name speakers."

President Eisenhower is expected to speak in Detroit next month but no date has been announced.

Both parties have top speakers touring the state Monday. Vice President Nixon will address a Grand Rapids gathering. Gov. Frank Clement of Tennessee, keynote speaker at the Democratic National Convention, will appear at Flint.

Also on Oct. 5, the same date Truman is to speak at Detroit, Sen. William Knowland (R-Calif.), Senate minority leader, will be the guest of honor at GOP meetings in Traverse City and Lansing.

Song of the Vulgar Note Man

'Fats' Eager to Rock Igor

WASHINGTON (INS)—The man whose rock 'n' roll tempo has been blamed for dancehall riots from New England to California has volunteered to visit Russia under the State Department's cultural exchange program.

The offer of a musical version of massive retaliation was made by "Fats" Domino, who has sold an estimated 10 million franc records in the past seven years.

Fats told a nightclub news conference: "If those Russian cats like to dance, they'll dig my beat."

But there was one qualification to his mission to Moscow: No vodka.

LIQUOR BRINGS TROUBLE

"Any place they sell liquor, there can be trouble," the 28-year-old pianist declared. He said quart bottles of beer—not his rock 'n' roll rhythm—set off the recent riots at a serviceman's dance in Rhode Island, and that alcohol has been responsible for other similar "situations."

He added, "They have so many people jammed into a place and someone steps on

someone's shoe and they forget to say 'excuse me' like they should and someone gets mad and the next thing you know those big beer bottles and pitchers are flying."

"Music doesn't make people fight," he explained, "music makes people happy."

"I don't know how long rock 'n' roll will last," Fats confessed. "I don't know how long I'll last. I just keep trying to stay up there."

Insurance Payments Up

DETROIT (AP)—Life insurance payments in Michigan totaled \$121,601,000 in 1955, the Institute of Life Insurance reports. This was in addition to \$84,965,000 in death benefits and compared to \$109,702,000 to living policyholders the year before.

Old Muzzle-Loader Just Stuns Buffalo

ANTIOCH, Cal. — Charles R. Gregory of Antioch, an ardent gun collector, wondered if a muzzle-loader could kill a buffalo. Recently he had a chance to find out. Armed with a muzzle-loader made in 1851 for the United States Government, Gregory took off on a buffalo hunt near Gillette, Wyo.

He chose a big bull, aimed

carefully at a vital spot below the back of the ear, and fired. When the smoke cleared, the buffalo was moving away slowly shaking his head.

Gregory dropped the animal with a rifle. Inspection showed that the muzzle-loader slug had not penetrated, but had only made a slight indentation on the thick hide and merely bruised the flesh.

Ontario contains one-third of Canada's total population.

How to Win Friends . . .

NILES (AP)—Southern blood may run slow but state troopers think 13 m.p.h. is too slow. They ticketed Boyd Ellis, a Kentuckian, for stacking up a two-mile line of angry motorists on busy U.S. 31. Ellis, fined \$15, said he was driving slowly so he could "look over the country."

About three billion tons of farm top soil are lost by erosion in the U.S. annually.

Carnation Becomes All-Occasion Flower

BOSTON—The carnation has risen tremendously in popularity since the turn of the century, when it was primarily a funeral flower because of its strong aroma. The odor was cut down and now the carnation is just as appropriate for a new baby or a bride as for a funeral. It is the symbol of Mother's Day, and dyed green, is fast catching on as a St. Patrick's Day flower.

The biggest sales of carnations are for Christmas and Mother's Day, followed by St. Patrick's Day.

Experts Outline Smog Dangers

Thousands Might Die Before Anyone Knew What Was Happening

LOS ANGELES (U.P.)—There's a serious shortage of fresh air in Los Angeles, experts told a legislative hearing.

If breezes should stop blowing for several days, they said, and if the Los Angeles population continues to climb, a serious smog might some day cause thousands of deaths before anyone realized what was happening. Panic might follow. A lot of people might go crazy.

Dr. Leslie A. Chambers, research director of the Los Angeles County air pollution control district, explained the problem. A layer of warm air often spreads over the cooler air in the Los Angeles basin. When the warm air reaches down below the height of the surrounding mountains it's like a lid.

Intermittent breezes break up the lid-like temperature inversion from time to time, letting in fresh air.

Dr. Chambers said the five million living in the basin already use more fresh air than it can hold when the lid is on. If the inversion should hold for several days, he said, there would be no fresh air to breathe. It has never happened, he said. But what might happen when the population of the basin goes up to 12 million, as predicted?

Dr. Dermot Taylor, UCLA pharmacology professor who was in London when fog smothered it in 1952 and 3,000 died, reported it was all over before people realized anything was wrong.

"There simply was an increase in the normal death rates," he said. "Coronary cases first. Then respiratory cases. The hospitals were the first to notice it."

Dr. H. R. Brickman, UCLA psychiatrist, said the irritations and anxieties caused by air pollution are bad for people on the borderline of insanity.

"Smog of dangerous proportions would push them over the brink," he said.

Old Fort Henry in Ontario was built in the 1880's to repel a possible U.S. invasion. Now it is a principal attraction for U. S. tourists.

ANOTHER FIRST—Archbishop Richard J. Cushing administers the Sacrament of Baptism to three-week-old Richard Cushing Morrissey in the Boston Archdiocese TV center. This was the first live television in the United States of a Catholic

baptism. Holding the baby are Dr. Charles A. Brusch and Mrs. Anne McEnaney, the child's godparents. At right are Mr. and Mrs. Francis X. Morrissey, parents of the infant.

New Peruvian Cotton Requires Less Space

LIMA—Successful development of a new variety of cotton that takes only one third as much room as present plants is announced by Peruvian botanist Bernard Beredson. It is known as Pima BB, a long-staple cotton.

Beredson found his original plant, probably a transmutation, growing in his fields in Piura Province, the cotton-growing center of northwestern Peru.

After much experimentation he stabilized a plant reportedly superior to the Pima and Tanguis

types Peru now exports and said to compare favorably with Egyptian cotton, considered the world's finest. Pima BB's bolls grow abundantly and close to the stalk, permitting close planting.

Mrs. Osborn to Iceland

NEW YORK (U.P.)—Mrs. Stellanora Osborn, widow of the late Gov. Chase S. Osborn of Michigan, is en route to Iceland for a three-week tour in behalf of the Atlantic Union Committee. Mrs. Osborn says she plans to organize citizens groups supporting the North Atlantic Treaty Organization.

Aspirin Baffles Medics

ST. LOUIS — Medical science does not understand why aspirin will lower body temperature to normal when a person has a fever, yet not affect normal temperature when taken for a headache or a case of sniffles.

Wives Earn Bacon

DES MOINES — Some 22 per cent of the nation's farm wives have jobs away from the farm, it is indicated by a survey covering farm families in 24 states. Five years ago only 17 per cent of the farm wives did outside work.

Avon Township Raises Water Plan to \$407,000

Expect Project Done in 45 Days

Okay George Tripp Bid on Water Taps, Meters at \$115 Per Home

AVON TOWNSHIP — With the Avon Township's \$390,000 water main and standpipe project reportedly progressing well, the Township Board last night accepted George Tripp's bid for the taps into homes and meters, expected to bring total cost to \$407,000.

The \$390,000 is being paid by bond money obtained in a recent sale.

Home owners in the three-section area at the south of Avon township will pay \$115 each for their installations. Each installation will include not only the three-quarter inch tap but the water meter, according to the bid.

It provides that installation be made during the construction of the water system, for those home owners already assessed for the water taps of the water taps. Afterward, there will be an additional cost of footage. Assessment payments are due Oct. 31.

No installations will be made during January, February and March, so if service is desired, arrangements must be made immediately, a communication from the new township water commission warned.

T. R. Baker, member of the commission, said that the water project contractor expects to complete the work in 45 days.

Supt. C. E. Miller told the board the entire project is progressing well.

Area to be serviced includes about one square mile, in sections 33, 34, and 35.

Township Clerk Frances O. Covert and Treasurer Helen Allen will attend the Township Conference at Port Huron today.

A joint Township and Village of Rochester meeting will be held on Oct. 2 at the Village Council rooms to discuss the proposed sanitary fill. Mrs. Lewis Arcott and Tilton Peabody will represent the township and Sidney Ennis and Frank Rewold will represent the village.

1912-'20 Classes Gather for Reunion

WIXOM — A recent reunion at Springbrook Park, Northville, brought together 45 students of Wixom Public School, classes of 1912 to 1920.

Graduates came from Detroit, Pontiac, Highland, Novi, Lincoln Park, Romulus, Boyne City, Milford, Farmington, Northville and Wixom.

The Avon Photographic Club will meet in the Rochester library at 7:30 tonight. Interested photographers are invited to attend this first session, bringing problems in pictures and equipment for assistance.

Your PTA Is Planning:

Russ to Talk in Wixom Tonight on Incorporation

WIXOM—John Russ, executive director of the Michigan Municipal League, will discuss pros and cons of village incorporation for the parents of the Wixom school area, which is almost the same area as the proposed Wixom Village, at the Wixom PTA meeting at 8 p.m. tonight at Wixom school.

A group of Wixom residents have petitioned the Board of Supervisors asking incorporation into a village of a nine-square-mile area around the settlement of Wixom.

Wixom school is a part of the Walled Lake School District.

The League's purpose in sponsoring such a talk is to present the principles of incorporation and point out its advantages and disadvantages to a community.

All parents have been invited to attend the program in the multi-purpose room, first event for the PTA, and to meet the school's new principal, Duane Fisher.

Avondale

First meeting of the year for Avondale High School's Parent-Teacher-Student Assn. will be at 8 p.m. tonight in the high school band room, with new president, Mrs. Thurel Riggie, conducting her first meeting.

Program will be introduction of staff by the principal Roscoe Crowell following the business session. Refreshments will be served.

The executive board will meet earlier, at 7:30 p.m.

Clarkston

A reception for teachers is planned for tonight's Clarkston PTA meeting at the high school gymnasium at 7:30 p.m. Parents are urged to attend.

Avon Township

Stiles School PTA will meet at 8 p.m. tonight in the school cafeteria to hear Ramsford Bromley, assistant director of Civil Defense. Refreshments will be served by sixth grade mothers.

Auburn Heights

Auburn Heights PTA executive board will meet at 8 p.m. tonight at the home of Mrs. Elmer Dancy, 3403 Nichols street.

County Deaths

Katherine Hoffman — HOLLY—Service for Mrs. Katherine Hoffman, 63, 5556 Ormond Rd., Davisburg, who died yesterday morning at Green Lake Rest Haven, West Bloomfield Township, will be Saturday at 10 a.m. at St. Rita Church, Holly, with burial in Lakeside Cemetery. Rosary service will be tonight at 8:45 at the Dryer Funeral Home.

Surviving are a daughter, Evelyn, at home; a sister, Mrs. Angelina Kerr, Detroit and a brother, Rudolph Vincent, Detroit.

Clarence S. Walton — IMLAY CITY — Service for Clarence S. Walton, 64, will be Friday, at 2 p.m. at Lester Smith and Son Funeral Home here. Burial will be in Imlay Township Cemetery. He died Tuesday.

Surviving are his wife, Emma; five daughters, Mrs. Lenore Strump, Pontiac, Mrs. Kathleen Hansen, Mrs. Elaine Anderson, Mrs. Lillian Lamphier, Attica, Mrs. Joyce Nichols, Lapeer; five sons, Melvin, Attica, Lawrence, Columbus, Norman, Imlay City, Lyle, Lapeer, Isaac, Imlay City; a brother, Clayton, Flint; three sisters, Mrs. Edith Sisson, Imlay City, Mrs. Joyce Mack, Birmingham, Mrs. Margaret Laidlaw, Bad Axe, and 23 grandchildren.

Baby Girl Umscheid — ROCHESTER — Graveside services were to be held this morning at Mt. Avon Cemetery, Rochester, for Infant Umscheid, daughter of Mr. and Mrs. Robert J. Umscheid of 2730 Hartline St.

The baby, dead at birth Tuesday at Pontiac General Hospital, is survived by her parents and two brothers and two sisters, Michael, Edward, Carol Ann and Katherine, all at home.

Home Delivery to Start Monday in Clarkston

CLARKSTON — Report that home mail delivery will begin in Clarkston Gardens Subdivision Monday was given when the CGS Improvement association's board met recently at the home of the president, G. A. Ellertorp.

Property owners in North Star subdivision were accepted as members in the association on suggestion of George Brinkman, membership chairman.

DeVere Games of the Public Works Commission of the subdivision reported contacting the Independence Township board and the Michigan State Police regarding subdivision street signs.

Membership meetings are held each three months, with next meeting on December 19. The next board meeting will be Oct. 9.

House to house mail delivery will also be started in the Village of Clarkston, Clarkston Park Subdivision and Clarkston Estates, No. 1 and 2, on Oct. 8.

Firm Has New Home

BERKLEY—Anchor Real Estate and Insurance, formerly located at 3996 West Twelve Mile Rd. here, two blocks East of Greenfield, has moved into new quarters next door, at 3954 West Twelve Mile Rd.

The new, contemporary design building has 2400 square feet of floor space, and is set up to accommodate the work of 30 persons.

PATRICIA PANKOTAI

Mr. and Mrs. Henry Helzer of 6480 Cloverton St., Waterford, are announcing the engagement of their daughter, Patricia Joyce Pankotai, to Gordon Rickard, son of Mrs. Velma Rickard, whose home is at 2856 Swain Dr., Drayton Plains. Both attended Waterford High School and have not announced their wedding date.

DELORES GIBSON

Announcing the engagement of their daughter, Delores Eve, to Duane D. Shurtz are Mr. and Mrs. Thomas M. Gibson of 1336 Otter Ave., Waterford Township. He is the son of Mr. and Mrs. Stephen McCarrick, 3097 Avalon St., Auburn Heights. No wedding date has been set.

Home Ec Unit Forms

Staffs Elected by Groups From Ona Lake to Dryden

Officers have been elected at several area organizations, including one, the Ona Lake Home Extension Group, which formed recently at the home of Mrs. Frank Ruggles, 5561 Cooley Lake Rd., White Lake Township.

The new group was formed with ten women present.

Its staff is Mrs. Elmore Ruggles, chairman; Mrs. Frank Ruggles, vice chairman; Mrs. Arthur Buell Sr., secretary-treasurer; Mrs. Loren Becker, leader.

Next meeting will be at the chairman's home.

Dryden and Attica Farm Bureau met recently and elected Stillman Elwell as director for the two groups.

Newly elected officers in the Dryden Bureau are: Joe Bretz, chairman; Harold Duckert, vice chairman; Fred Harmer, minute man; Mrs. Emma Porter, discussion leader; Mrs. Lois Harmer, Blue Cross chairman, and Mrs. Dorothy Parry, secretary and treasurer.

Mrs. Althea Duckert was named a member of the Woman's committee. Grant Purdy is new recreation leader, Stillman Elwell, song leader and Mrs. Carrie Trip, news reporter.

Leonard — Leonard Women's Club have elected Mrs. Shirley Patterson as its president. Mrs. Stella Church was hostess at her Baza road home for the election session.

Staff included Mrs. Iva Trank, vice president; Mrs. Pearl Lobzien, treasurer, and Mrs. Mabel Hoard, secretary.

Mrs. Paul Flintoff has been installed as guardian of Bethel St Council. Other officers are assistant guardian, Charles Yakey; secretary, Mrs. Charles Yakey; treasurer, Mrs. Andrew Anderson; hospitality chairman, Mrs. Edith Toussaint, and finance director, Frank Melosh.

Drayton Plains — WCTU officers were elected recently at the home of Mrs. Delbert Martin, 4770 Walton Blvd. They are: Mrs. J. R. Maybee, president; Mrs. Guy Selden, first vice president; Mrs. L. G. Rowley.

Paul H. Bruske Dies at Home in Romeo

ROMEO—Service will be held tomorrow for Paul H. Bruske, one-time sports editor of the Detroit Times who died yesterday in his home in Romeo after a short illness. He was 78.

A native of Charlotte, Bruske was the Times sports editor in the early 1930's in the days of Ty Cobb, Sam Crawford and George Mullin. When the auto industry began to blossom, he went to the old E-M-P, forerunner of Studebaker.

Bruske managed the old Maxwell racing team which included Eddie Rickenbacker and Barney Oldfield and later handled advertising accounts for Fisher Body and Oldfield Tires, a division of Firestone Tire and Rubber Co., after World War I.

Service will be Friday afternoon in Romeo. Burial will be in Newburg cemetery.

Joining Job's Unit

ROCHESTER — Job's Daughters will hold their first initiation of the season at 7:30 p.m. tonight at the Masonic Hall. Masons and members of OES are invited to attend. Refreshments will be served.

Named by Keego Harbor BPW Women

Myrl Windsor, Doris Jones Honored

By TRILBY PATTEN

Keego Correspondent

KEEGO HARBOR — The Business and Professional Women here joining with the National Federation of Business Women Clubs in the observance of "National Business Women's Week," have unanimously named Doris Jones and Myrl Windsor "Women of the Week."

These women were chosen for their outstanding achievements in the business field, as well as for their civic contributions to the community.

A charter member of the BPW Club of Keego Harbor, Doris Jones is one of its most active and loyal members, having helped in the promotion of many of the club's projects.

Doris is a native of this area and resides with her parents, Mr. and Mrs. Jesse Jones on Cass Lake road. Doris and her partner, Lyla Ross, operate the "Dor-L" shop.

Besides her club work, Doris has always been interested in girls activities, with a keen understanding of their problems and is never too busy to give them her time and

counsel, with no desire for praise or commendation for her many acts of kindness. She was affiliated with the Girl Scouts, acting as leader of the local group for many years. She is also a member of the Chamber of Commerce. Bowling is one of her main hobbies.

Mrs. Windsor is one of the most successful business women of the group and has lived in the area about thirty years.

Prior to opening the Green Thumb Florist in Keego a year ago, the Windsors operated a florist business at Green Lake. Myrl is a master floral designer and has gained state-wide recognition for her designing.

One of her outstanding contributions to the community is her artistic and beautiful window displays, especially at the holiday seasons.

Myrl is not only an active member of the local BPW, to which she devotes much of her time, but she is also a charter member of the Pontiac Toastmistress Club, the Chamber of Commerce — the OES of Commerce and has served on the board of directors of the Pontiac Humane Society.

Mr. and Mrs. Windsor reside at 3894 Green Lake Rd.

Slate Yearbook in Commerce

Church Unit Seeks Data for New Project; Set Sunday Deadline

COMMERCE TOWNSHIP — A yearbook for the combined groups of the Commerce Methodist Church WSCS is now being prepared by the Fannie Crosby Circle.

Necessary information includes the name, address, telephone number and birthdate of each member. Anyone wishing to submit data for the book is asked to contact Mrs. Donald Steinbrecher and Mrs. Robert Reichardt before Sept. 30.

Circle members are invited to attend the Flint District meeting to be held from 3 until 9 p.m. on Sunday, and the Detroit Conference meeting slated from 10 a.m. until 2:30 p.m. on Tuesday, Oct. 3. Both events will be held in Flint.

Reservations for luncheon at the Oct. 9 meeting must be made by October 5. A contribution of one dollar is asked for the Detroit meeting. Further information may be obtained from Mrs. Mike Kimpert at EM 3-3633.

The Susanna Wesley group will discuss plans for table decorations for a Homecoming Banquet at a desert luncheon slated for 12:30 p.m., Wednesday, Oct. 3, in the church basement. Mrs. Charles Long and Mrs. Lucy Skarritt will be co-hostesses at the luncheon. The Wesleyans request contributions of canned goods, fruit, jellies and jams in connection with the banquet. Mrs. Leslie Parrish and several companions will deliver the food to the Chelsea home for the aged.

Miscellaneous Sale Starts at White Lake

WHITE LAKE TOWNSHIP — Sacred Heart Guild of St. Patrick Altar Society is holding a sale of used clothing, dishes and other articles today, Friday and Saturday, in the church hall, Hutchins and Union Lake roads. The sale is being conducted from noon to 8 p.m., daily.

Card Party for Public

AUBURN HEIGHTS — A card party for the public will be held at 8 p.m. tonight at Auburn Heights Community House. Prizes and refreshments will be offered and Mrs. Ernest Howell and Mrs. Louis Tebeau are hostesses.

Oak Park Library-Center to Have 300-Foot Front

OAK PARK — City Commissioners have approved preliminary architectural plans for a \$422,000 community center and library.

Acting City Manager John Dinman said today complete working drawings are expected to be ready by January, 1957, when construction is to begin. Completion is set for September, 1957.

The one-story building to house the center and library, will be built with bond issue funds voted in April, 1955. Its modern design has a front elevation of over 300 feet.

The community center portion will have 14,880 square feet, at a cost of \$240,000, and the library at an allotment of \$182,500, will have 9,870 square feet.

It will stand on Oak Park boulevard.

MSU Offers Study for Reading Teachers

Dr. Harry T. Hahn, an experienced educator, will teach the Michigan State University course in "Methods of Teaching Reading in the Elementary School" this fall at Clarkston.

Interested area residents may enroll by attending class sessions, and will continue for the fall term on Monday evenings from 7 to 10 at the Clarkston High School.

The course will grant three term hours of graduate or undergraduate credit.

State OKs Bonding in Royal Oak, Heights

LANSING (AP) — The State Municipal Finance Commission yesterday approved a \$2,400,000 bond issue to help finance a school construction program at Royal Oak.

The issue was the third installment of a \$6,900,000 bond issue approved by voters in March, 1955, to finance a new high school, new elementary schools and the purchase of new school sites.

Also approved by the commission for Madison Heights, was \$250,000 in special assessment bonds for street and sewer improvements.

MR. AND MRS. ROBERT WATTS

At St. Mary in the Hills

Judith Ann Crawford Wed

LAKE ORION — Judith Ann Crawford, daughter of Mr. and Mrs. Carroll M. Crawford of Denison St. Oxford, became the bride of Robert W. Watts, son of Mr. and Mrs. J. B. Watts of Joslyn Rd. in an afternoon ceremony Saturday at St. Mary-in-the-Hills Church.

The bride wore a brocade, tulle, princess style dress of ballerina length. A small headpiece secured her fingertip veil and she carried Amazon lilies, centered by a cattleya orchid, surrounded by satin leaves.

Sue Wallworth, maid of honor, wore a blue ballerina dress with gold accents and carried an arrangement of yellow carnations surrounded by gold angel feathers.

Marvin Middleton was the best man, and Douglas Crawford, brother of the bride, and Donald Watts, brother of the groom served as ushers.

Says GOP Ruins the 'Small' Man

Kefauver Offers to Aid Farmers and Businesses in Illinois Speech

BELLEVILLE, Ill. (U. S. — Sen. Estes Kefauver said today the Democrats are pledged "to save the small farmer and the small businessman." He said the existence of both is threatened by the Eisenhower administration.

This was the message the Democratic vice-presidential candidate took with him as he set off for a 250-mile motorcade through 10 towns in southern Illinois, starting here.

Kefauver contended in his prepared speech for a rally in the courthouse square here that "the Eisenhower-Nixon administration has been indifferent to both the small farmer and the small businessman."

"The Republican party, the Eisenhower-Nixon administration," he said, "has taken its stand behind the forces of monopolies and the giant corporations."

"And if left alone to continue," he added, "they will ultimately achieve the destruction of small business and the small farm as independent economic entities in American life."

Kefauver also had this to say: "Today we may not be in a major depression, but the handwriting has begun to appear on the wall, and once again the security of these two groups is threatened. The largest merger movement in our history, soaring monopoly profits while wages lag and the cost of living rises, declining farm income while stockholder income rises, increased small business failures—these are symptoms we cannot ignore."

Beating Drums for Votes

ALBUQUERQUE, N.M. (U. S. — The All Pueblo Council is preparing for distribution among New Mexico's 50,000 Indians a voting guide to spur Indian registration and voting in November. The pamphlet contains both the Democratic and Republican platform statements on Indian affairs, tells how to register and gives tips on voting.

Time to Raise the Roof

ROCHESTER, N.Y. (U. S. — Dr. Henry O. Erbland noticed something missing from the roof of his home. The chimney was gone. His wife said a man had been walking on the roof all day and making a lot of noise. Under questioning by Dr. Erbland, the roof-walker—a mason—discovered he was supposed to be working across the street.

CANADA CRACKS DOWN ON REBDS — Genadi F. Popov, left, second secretary of the Russian embassy in Ottawa, Canada, has been ordered home by the Canadian government. Popov allegedly tried to bribe James Stanley Staples,

center, former Canadian Air Force official, to get information on a new jet fighter plane. Dimitri S. Chuvahin, right, Russian ambassador to Canada, may also be asked to leave the country.

Arctic, Sahara Temperatures Come to U. of M.

ANN ARBOR, Mich. (U. S. — Temperatures approximating those of the frigid Arctic and the blazing Sahara can be felt on the University of Michigan's north campus.

The manufactured extremes of temperature are part of a research project aimed at aiding the U. S. Air Force find a speedy method of refueling jet planes. Feeling the effects of the rapid temperature changes is a specially designed trailer which regulates the flow of jet fuel from an airbase pipeline into the empty tanks of aircraft.

To learn how the rig will perform in both hot and cold climates, a group of university mechanical engineers under the guidance of Prof. Glenn V. Edmonson has erected a series of small, insulated buildings surrounding the trailer.

Temperatures have been dropped to 58 degrees below zero (F) by placing a large supply of dry ice inside the building. And electric heating elements have shot the thermometer up to 160 degrees above while a battery of special lamps simulated the radiation of the desert sun.

The professor explained the trailer controls the fuel's flow and prevents parts of the aircraft from being subjected to destructive pressures. His students are testing the performance of the precision parts of the trailer over the wide temperature span.

An average tornado travels in a path 1,000 feet wide and 30 miles long. Its forward speed is 30 to 45 miles an hour but it whirled up to 400 miles per hour.

Cranbrook Evening Classes to Begin

The first season of night classes for adults will begin Oct. 2 at Kingswood School, Cranbrook.

The school will include 12 Tuesday evening sessions to be held from 7:30 to 9:30 through Jan. 15, according to Headmistress Marian Goodale.

Contemporary literature, French conversation, music appreciation, and Oriental culture will be among the courses to be offered men and women of the area. Students will have a choice of four two-hour courses.

Enrollment may be made in advance either by mail or in person

at the Kingswood office. Letters should be addressed to Kingswood Night School, Bloomfield Hills.

Shoppers Need 'Em

ZURICH, Switzerland (U. S. — Swiss packaging researchers have found that one out of three women grocery shoppers who do not wear glasses should. They discovered that many of these women get only a dim view of the label designs on packages and cans.

Understatement?

CINCINNATI (U. S. — John C. Austin 23, was fined \$1,439 for 51 traffic violations by Judge Clarence Denning. He also lost his driver's license for a year. Judge Denning said Austin's "contempt of the law is fantastic."

War Dog Heroes Resting in Quiet Guam Cemetery

ANDERSEN AIR FORCE BASE, Guam (INS) — Tucked away in one corner of Guam's jungle is a unique memorial to war heroism—the American War Dog Cemetery.

In a tiny plot surrounded by a whitewashed wooden fence away from human habitation is the resting place for 25 American war dogs who died during the recapture of Guam in July, 1944.

White wooden markers, with the silhouette of a dog's head embossed on them in black, mark the graves of the former members of the U. S. Army's World War II K-9 corps.

Under each silhouette is a small bronze plaque with the rank and name of the fallen dog.

3 MARKERS GONE

Three markers have disappeared with the passage of time, but the rest stand erect in dignified tribute to the dogs who gave their lives in service to their masters and country.

The dogs lost their lives during the grim battle for recovery of Guam and in the dangerous "flashing-out" of the numerous caves peck-marking the northern end of the tiny Pacific island.

The American War Dog Cemetery lies near the village of Dedeco, about eight miles from Andersen Air Force Base, the Strategic Air Command's mighty Pacific Base.

Few Americans on the island know of the history of this cemetery, however, and only a small number have visited the desolate site.

A large sign along a major

highway designates the location of the burial ground with an arrow and the unusual announcement: "American War Dog Cemetery."

A long, two-track, rutted road leads through heavy foliage to the small cleared area.

3 PLATOONS USED

In all, three platoons of war dogs were used during the Guam campaign. All war dogs were removed from the island soon after the war ended.

Most of the war dogs were Doberman Pinschers, the favorite breed used for Army work at that time. Most Army dogs now are German Shepherds.

The dogs on Guam, as they did later in Korea, distinguished themselves as alert sentries and aggressive patrol members.

Royal Lady Dies of Accidental Shot

PERTH, Scotland (U. S. — Lady Caroline Percy-Fitzmaurice, beautiful 17-year-old daughter of the Marquess of Lansdowne, died today from a shotgun blast police said was accidental.

The dark-haired beauty, at whose home Queen Elizabeth II and the Duke of Edinburgh spent a week last year, was wounded in the stomach when a gun went off while she was examining it yesterday. Her father found her crumpled on the floor of the big, old-fashioned gun room of the family home near here, Meikleour House.

Too Busy for Honors

BOSTON (U. S. — Dr. Henry W. Godfrey, 79, of Newton, was chosen as "Massachusetts General Practitioner of the Year." But he was too busy with his medical chores

to accept the honor in person. Dr. Godfrey explained: "It is my responsibility to see that some 17,000 children, mostly in public schools, get ample protection against polio. I'm right in the middle of the ground phase and I just can't take the time off."

New Detroit Auditorium Booked Through October

DETROIT (INS)—Weld S. Maybee, director of the Memorial Hall Commission, reports activities are booked in Detroit's Ford Auditorium every day through the end of October.

The auditorium, which opens Oct. 14, will be the scene of a political meeting, a fashion show, lectures and plays. Users will run from the Wayne County Republican Committee to Moral Re-Armament. Maybees said October rental fees will total \$10,800.

Got a Cold? Doctor Says This is the Season for It

DETROIT (INS)—Detroit Health Commissioner Dr. Joseph G. Molner says "This is one of three peak periods for colds."

He warns there is just one way to catch a cold—from someone else. Molner added the other two peak periods for colds are in January and late March.

Two Presidents suffered partial loss of sight. Theodore Roosevelt lost one eye in a boxing accident, and Woodrow Wilson became almost blind in his right eye from a hemorrhage.

Start Right With Good Breakfast

By JANET ODELL

Pontiac Press Home Editor
Nobility — but nobody should claim he doesn't know the value of a good breakfast. We are bombarded on all sides with educational material in advertisements and over the air waves. This is one campaign which we heartily favor.

We have said it before. We shall no doubt repeat it often in the future. Everyone needs breakfast every morning.

Why? It is simple common sense to divide the food requirements for the day into the three meals. No machine can run without fuel. No body can

operate efficiently without its fuel—food.

Students study better and get higher marks; factory workers produce more material and have fewer accidents; homemakers accomplish more with less fatigue; business men have more even dispositions. These conditions apply

only when the individuals eat a good first meal.

REDUCERS, TOO

People on a reducing diet need breakfast. The food eaten early in the day is used up almost immediately and is less apt to turn to unwanted fat. A good breakfast keeps the stomach happy until lunch. There's no temptation to

overeat at a mid-morning coffee time.

Children should never go to school without a good breakfast to prepare them for their energetic day. A basic breakfast like the one Mrs. Anthony Osler of Garland avenue serves her family is essential to the good health of youngsters.

"My boys all eat a good breakfast," Mrs. Osler says. (She has five boys, ranging in age from a first grader to a senior in high school.) "They have orange juice or fruit, cereal and milk, and toast or rolls. They can have eggs or bacon if they desire."

Mrs. Osler gives her family an excellent basic breakfast. Fruit and milk are fundamental for children. Whether the protein course is cereal and toast or eggs and bacon or eggs is not important. Let individual family members decide that.

We would make a fervent plea to teenagers, especially teenage girls. Don't skip breakfast. Don't consider a doughnut and a cup of coffee or bottle of coke a sufficient meal.

If you're not hungry, settle for orange juice, a glass of milk and rolls, toast or cereal. It doesn't take long to fix or eat. It will keep you going all morning. And it will pay off in years of added good health and higher grades.

Try this different breakfast dish this weekend. It combines a long-time favorite, shredded wheat with eggs. Add your favorite fruit, crisp bacon, and you're set.

Breakfast Wheel

4 eggs
2 cups milk
1 teaspoon salt
1/2 teaspoon pepper
4 tablespoons melted butter or margarine
4 shredded wheat biscuits
Crisp bacon slices

Grease a 9" cake pan or shallow casserole. Beat eggs slightly. Add milk, salt, pepper and butter to eggs. Beat until mixture is well blended. Arrange shredded wheat biscuits in prepared dish. Pour egg mixture over shredded wheat biscuits. Bake for 35 minutes, or until eggs are set, in a 375-degree oven. Serve with crisp bacon slices. Makes 4 servings.

Serve Seafood in Shells

Serve that seafood salad in shells. Spread mayonnaise over the top and sprinkle with hard-cooked egg yolks pressed through a fine strainer. Garnish with capers.

WE EAT A GOOD BREAKFAST — Kenneth (left) and Gregory (right), young sons of Mr. and Mrs. Anthony Osler of Garland avenue, show the kind of breakfast they put away every morning. They want to grow up to be husky athletes like their three older brothers.

September is Better Breakfast Month, but we hope it is only a spur to keep all our readers eating good breakfasts throughout the year.

Treesweet's exclusive INSTOVAC process seals in fresh flavor and Vitamin C.

Salad Dressings Fit to Please the Connoisseur

There are hundreds of salad dressings, but the best of them depend for their excellence on the fine, smooth olive oil from Spain, which combines with the other ingredients to blend and project their flavors.

To half a cup of good vinegar, add a quarter-teaspoon of freshly ground pepper and three-quarters of a teaspoon of salt, then beat into this a cup and a half of olive ingredients makes for a thicker oil until it thickens. Chilling the dressing, and you can use lemon juice instead of vinegar for extra freshness in taste.

For seafoods, add two teaspoons of chopped capers, a crushed garlic clove, a quarter-teaspoon of anchovy paste, a chopped hard-cooked egg yolk

and a dash of tabasco to one cup of the basic dressing.

For green salads, crumble two tablespoons of blue cheese into a cup of the basic dressing.

For a cold meat garnish, add three tablespoons of drained horseradish, two teaspoons of paprika and a dash of tabasco to a cup of the basic dressing. Your imagination can devise dozens of other variations.

Sardines Flavor Eggs

Sardines from Maine add an interesting flavor to deviled eggs. Hard-cook the eggs and cut in half lengthwise. Mash the yolks with a fork, then add a canful of Maine sardines, drained. Blend well, adding salt and pepper to taste and enough mayonnaise to moisten the mixture. Fill the whites with this tasty filling and garnish with paprika.

Strained Fruit Gives Flavor to Milkshake

Here's an interesting version of a milk shake. Strained baby fruit gives it flavor and color.

Golden Milkshake

1 envelope (1/2 ounce) vanilla-flavored milkshake powder
1 jar (8 ounces) strained baby-food apricot-applesauce
2 cups milk
1 to 2 tablespoons sugar

Put milkshake powder, apricot-applesauce, milk and sugar in a container. Cover tightly and shake until powder is dissolved.

Pour over ice cubes; stir until milk shake is chilled and thinned somewhat. Serve in small glasses. Makes 3 to 4 servings.

Make cornucopias of thinly sliced bologna, securing them with toothpicks. Fill the centers with cottage cheese mixed with minced parsley or chives. Garnish with parsley sprigs.

Press Home Editor Tells of Food-Writer Conference

By JANET ODELL
Home Editor

NEW YORK — Events took an international turn Tuesday when the 160 food editors in conference here toured the United Nations building. After seeing the building we were given a briefing by George Janeczek, director of public liaison of the U. N.'s Department of Information.

We also heard Dr. Ronald A. Silow, British atomic energy specialist, speak on the vitally important role atomic energy can play in the development of agriculture. For our final speaker we had Mrs. Oswald B. Lord, U. S. representative on the U. N. Human Rights Commission.

She emphasized the opportunities the U. N. gives our country and other countries to help people throughout the world abolish poverty, hunger, disease and illiteracy.

Our five-hour tour concluded with dinner in the delegates' dining room, overlooking the East River. The view from the windows was like fairyland.

HEAR EXPERT

Wednesday's program was more serious than usual. Heard a lot of experts give us all the latest information on foods and nutrition. We learn of all the new food products. But we mix fun in with the work.

Monday we had seven meetings. Our breakfast was large enough to satisfy a stevedore — if we had eaten it all. Then for the next three hours we heard various discussions on dieting. For all us food writers the entire week is a constant battle of the bulge.

Our first course Monday morning was a beautiful fruit cup. Fresh fruit was heaped high in tiny pineapple shells; each stem was tied with a gold ribbon. Tuesday morning we had fresh orange juice served in a scooped out orange rind.

Our dessert at luncheon on Tuesday was interesting. Vanilla ice cream balls were rolled in coconut and frozen hard. With them was passed a bowl of flaming

mincemeat sauce. In this case brandy had been used; lemon extract on sugar cubes could be set afire just before serving. The hot sauce was delicious on the ice cream.

We've seen two new items in the seafood family. One is a shrimp that's red before it is cooked. It stays red after cooking. The experts present said it has a delicate flavor that makes it better for cold dishes. It is found around Florida and the Gulf of Mexico, but is not yet in national production.

The other seafood was langostino. It, too, is not yet on the market. It is small, red and white striped, and is a cross in taste between shrimp and lobster. We'll have to watch for both of these foods.

Tuesday morning we were entertained at a World Series breakfast at Toots Shor Restaurant. This is an interesting eating place with Currier and Ives-type murals on the walls.

We had miniature hot dog and hamburger rolls filled with link sausage, sausage patties, bacon and Canadian bacon. In keeping with the theme, baseball doughnuts and baseball diamond coffee cake were served.

There's a brand new frozen soup on the market, and it's good. The vegetables are firm and good tasting, and there is plenty of beef in the soup.

Already my desk here in the hotel is piled high with new recipes. As soon as I get back to Pontiac I'll let you know more about all the new foods and new ideas the food companies have worked out for their customers. I could write for days on the subject.

Remind me, too, next week, to go on a reducing diet.

Lemon-Orange Tang Enhances Apples

Cook whole apples on top of the range and give them fine flavor with orange and lemon.

Coddled Orange Apples

1/2 cup sugar
1/4 cup water
4 medium-sized apples
2 teaspoons grated orange rind
1/4 cup orange juice
1 tablespoon lemon juice

Put sugar and water in a saucepan big enough for the four apples. Stir the sugar and water together over the low heat until sugar dissolves; remove from heat.

Core and peel each apple one-third of the way down; place in syrup. Simmer, covered, until tender—20 to 30 minutes. Watch carefully so apples won't get mushy.

Remove apples from saucepan. Add orange rind, orange juice and lemon juice to syrup in saucepan; boil gently until reduced to a good consistency. Pour syrup over apples, basting as fruit cools. Serve warm or chilled. Makes four servings.

A cherry sauce tastes delicious with cold smoked tongue.

Yogurt Dressing Low in Calories

If you've been of the mind that reducing is a tedious business, then take heart. It's all in knowing how to substitute nutritious low-calorie foods for those that pack a wallop.

We don't hold with all the fad diets that abound these days — often they lead the way to lots of trouble.

Most salads are low man on the teatime pole when it comes to calories. But the dressing we enjoy with that salad is another story — that's where the calories creep in.

So here is a suggestion for a Reducers' Salad Dressing — tangy and delicious, low in calories but high in flavor. Good with green salads and equally at home with cottage cheese and fruit.

One last hint — because this dressing contains a milk product, be sure to store in the refrigerator — it keeps for several days then.

Reducers' Salad Dressing

1 cup (1/2 pint container) yogurt
1/2 cup (1/4 can) frozen lemon juice (thawed)

1/4 cup tomato ketchup
1/4 cup garlic, crushed
2 teaspoons salt
Place yogurt in small mixing bowl. Add thawed lemon juice slowly, beating constantly with wire whisk or rotary beater. Blend in remaining ingredients. Makes approximately two cups salad dressing.

Serve Leftover Ham in Corn Bread Ring

Serve that leftover ham with cream sauce in a cornbread ring.

Cornbread Ring

1 cup sifted flour
1 cup sifted cornmeal
1/2 cup sugar (if desired)
1/2 teaspoon salt
4 teaspoons baking powder
1/2 teaspoon celery salt
1/2 teaspoon paprika
1 egg
1 cup milk
1/2 cup butter or margarine (soft)

Sift together the flour, cornmeal, sugar (if used), salt, baking powder, celery salt and paprika. Add egg, milk and soft butter. Beat with rotary beater (hand or electric) just until smooth — about 1 minute; do not overbeat.

Turn into well-greased 1 1/2-quart ring mold. Bake in hot (425 degrees) oven 20 to 25 minutes or until cake tester inserted in center comes out clean. Invert on platter and fill with creamed ham. Makes 6 servings.

QUICK SCALLOP CHOWDER — It's hard to imagine a New England seafood that can't be turned into a magnificent chowder, and the scallop is no exception. Here's a recipe for Scallop Chowder that's easy to prepare and easy on the palate.

Pear Blossom Is Party Fare

Going to have a party? Want something to look extra-pretty? And taste good? And be so easy to do? Then try a PEAR BLOSSOM.

That's a trick name, so don't let it mislead you. It's not the showy white blossom that appears on the pear trees in late spring; rather it's a concoction made from pears, arranged to look like blossoms.

The U.S. Department of Agriculture says pears, especially the Bartlett variety, are plentiful at this time of year. Most of them are grown in California, although quite a few are grown in the Midwest. Bartlett is the variety you're most likely to find at the store these days.

To make a Pear Blossom, start with a white cake, made from your favorite recipe or any white cake mix. While the cake is still hot, top it with a layer of whipped cream, or vanilla ice cream.

Cut a Bartlett pear into six or eight sections from stem to blossom end, removing the core in the process. There's a pear cutting and coring gadget that does this in one simple and easy operation, but a few deft cuts with an ordinary paring knife will do just as well.

Then on top of the cream, arrange the pear segments in a circular fashion, so they look like petals of a flower.

And for an extra-special touch, in the center of each pear "blossom" put a real blossom of some bright-colored fall flower, such as a marigold or aster.

Pair Seafood, Curry

Seafood and curry are a perfectly wonderful duo. Next time broiled lobster, shrimp or crab is on the menu, serve it with a curried butter sauce. Add curry powder to butter and heat for 2 to 3 minutes. It's just as easy as that and oh, so good!

Mix orange juice and honey together; serve over fresh grapefruit sections (membrane-free) and sliced bananas.

Scallops Make Good Chowder

When you're looking for new ways to prepare foods that are old favorites, don't overlook the possibilities offered by scallops. This delectable shellfish from the cold Atlantic ocean can be prepared in many delightful ways.

Restaurants, of course, have popularized the deep-fat fried variety, but frying isn't the only way of preparing this succulent mollusk.

Scallops lend themselves nicely to broiling, baking or pan-frying. They can be featured in a casserole or salad. They combine happily with other foods like mushrooms, rice, bacon, pineapple or other shellfish.

Scallop fishermen out of New Bedford, Mass., claim there's nothing that compares with the flavor of the raw scallop and they prove it by popping the tender scallop meats into their mouths as they open the shells at sea.

Quick Scallop Chowder

Use 1 can (13 oz.) ready-to-serve vichyssoise and 1/2 lb. (5 or 6) sea scallops for 2 servings. Cook sea scallops 5 minutes in boiling salted water to cover. Drain. Cut in halves or quarters.

Add to vichyssoise; heat to serving temperature but do not allow to boil. Serve at once, garnished with cut chives.

Shrimp Is Cooked With Garlic, Dill

Savor shrimp this way:

Skillet Shrimp With Dill
1 pound shrimp (about 34 count)
4 tablespoons butter or margarine
1 or 2 medium-sized cloves garlic
3 to 4 tablespoons minced fresh dill

Shell and devein shrimp. Melt butter in 10-inch skillet over low heat. Add garlic and shrimp.

Cook shrimp moderately fast, turning to cook evenly. When almost cooked through, (they should look opaque inside) stir in dill. Finish cooking; total cooking time probably won't take more than 5 minutes.

A few tablespoons of water or stock may be added to skillet to mix with butter. Serve at once. Makes 2 to 3 servings.

Delicious additions to tomato aspic: diced avocado, sliced hard-cooked eggs, flaked tuna or silvers of cooked shrimp.

Tempting Ways to Vary Flavor of Angelfood

There are so many good ways to vary angel food cake!

Here are ideas:

Spicy Addition
Add a teaspoon of ground nutmeg to the dry ingredients for the cake.

Gold and Silver
Fill angelfood cake layers with lemon-meringue filling and cover top with creamy vanilla frosting tinted a

pale yellow; make design over top of frosting with silver shot.

Mocha Treat

Cover angelfood cake with coffee-flavored frosting; garnish top with curls of shaved chocolate.

Orange Flavor

Add 1 to 2 tablespoons of grated orange rind to angelfood cake batter with the last addition of flour.

Chocolate Cream

Stir 1 cup of heavy cream with 1/2 cup sifted confectioners' sugar and 1/4 cup sifted cocoa; add a dash of salt. Beat until stiff. Use as topping for slices of angelfood cake.

Crunch Bonbons Hard to Resist

If you're a child from 6 to 60, then you'll want to dig in and make these easy-to-make chocolate bonbons. For the one that makes the candy gets to clean the bowl and take the last long licks of the spoon.

Melt the chocolate and stir in all the tasty ingredients such as pecans, toasty crumbs of en-

riched yeast-raised bread, sugar, gar. Chill. Makes 3 dozen small bonbons.

They'll be pretty arranged in a small silver or glass bowl.

Mocha Crunch Bonbons

4 ounces unsweetened chocolate
1 tablespoon margarine or butter
1 1/2 cups coarse bread crumbs, toasted
1/2 cup confectioners' sugar
1/2 cup chopped pecans
1/2 teaspoon instant coffee
2 tablespoons milk

Melt chocolate and butter or margarine in the top of a double boiler. Remove from heat and stir in remaining ingredients. Form into balls with a teaspoon. Roll in instant coffee, then confectioners' su-

Beef Candy Bar Is Real Sweetmeat

Sweetmeat or meat sweet — The beef industry still is undecided what to call it, but they think they have a new market for beef. A concoction of 25 per cent ground dried beef mixed with coconut and toasted can be used with marshmallow, chocolate fudge or pecanuche as a base to make — a beef candy bar.

DATE NUT TWISTS — They look elegant but are easy to make. If you're serving a late morning brunch you can make these little sweet rolls just before your guests come. A hot roll mix is used as the base.

Sunday Breakfast Special: Food Convenience Is Modern Trend

Easy-Do Date Nut Twists

Sunday breakfast calls for something kind of extra special in most homes. You're sure to make a big hit with the family when you serve them homemade Date Nut Twists.

These sweet rolls with a fancy look are really easy to make. Served with fruit and steaming hot coffee, they make a delicious satisfying breakfast.

Or serve them as a breakfast "dessert" following cereal or bacon and eggs. Either way they'll get Sunday off to a wonderful start.

With hot roll mix, you can "do it yourself" and get compliments galore. All the preliminary measuring has been done—just add water and mix up the dough. While it rises, prepare the date-nut filling. Then spread it over the rolled-out dough and follow the simple directions for folding and shaping.

Allow the rolls to double in size, and they're ready for the oven. Topped with vanilla glaze, Date Nut Twists will give your breakfast table an air of festivity.

Here's the recipe.

Date Twists
1 package Hot Roll Mix

Vanilla Glaze
Heat together 1½ tablespoons milk and 1 tablespoon butter over low heat until butter melts. Remove from heat. Blend in 1 cup sifted confectioners' sugar and ¼ teaspoon vanilla. Beat until smooth.

When the grocery bill at the checkout counter seems high, it might help to consider that about a third of the items in the basket scarcely existed two decades ago. Another third now comes in an entirely different form.

Instant pastry mixes and desserts; frozen juice concentrates, frozen fruits and vegetables; prepared meats and dinners are mostly things new and different. Fresh foods which used to be available only "in season" now are available the year 'round.

Convenience foods have risen remarkably. In pounds per person, baby foods have jumped 1,500 per cent since the 1935-39 period, frozen vegetables 1,275 per cent, frozen fruits and juices 850 per cent, canned fruits and juices 275 per cent, and canned meat 200 per cent.

Smooth Welsh Rabbit

A velvety smooth Welsh rabbit made with easy melting processed cheese, tastes just that much better when a fleck or two of powdered ginger is stirred into the saucy mixture.

Ideas to Make Meatless Meals More Exciting

Do you know that . . . Cheese supplies fine protein to meals and can be successfully used in place of meat. Try it in any course of the meal from soup to dessert. Its flavor will enhance foods with which it is served.

You can add taste appeal to creamed salmon or tuna with a sauce made by adding one-third cup mayonnaise to 2 cups medium cream sauce.

If you add a little blue cheese to American or cheddar cheese when making grilled cheese-sandwiches, you will have results to your liking.

Sour cream spread generously on top and sides of an angel food cake and then sprinkled generously with brown sugar, will make a new and exciting dessert. Refrigerate before serving.

For fast days, cottage cheese with its high quality protein will contribute much to meatless meals.

Glamorous Dessert

Want a glamorous and glorious dessert? Fold whipped cream into slightly whipped vanilla ice cream and use as a topping for sweetened strawberries.

Spark Up Menu With Mexican Stuffed Tomatoes

Getting stale on menu-making? Try this one!

Mexican Stuffed Tomatoes

¼ pound bacon (diced)
¼ cup brown sugar
¼ cup chopped onion
1 cup enriched cornmeal
2 teaspoons salt
1½ cups water
1 teaspoon chili powder
¼ teaspoon cumin seed

Cook diced bacon in a skillet until crisp; remove bacon bits. Pour off all but ¼ cup of the drippings. Add minced garlic and onion to bacon drippings and brown lightly. Cut off a thin slice from stem

end of tomatoes; remove core. Scoop out pulp and juice. Add tomato pulp and juice, cooked bacon and remaining ingredients to garlic-onion mixture; continue cooking 10 minutes, stirring occasionally.

Fill tomato shells with the cornmeal mixture. Place in shallow baking pan. Bake in moderate (375 degree) oven 10 to 15 minutes. Serve at once. Makes six servings.

Try Molasses Malt

Try this malted milk with a brand new flavor — a molasses malt! Blend together a tablespoon of molasses and three tablespoons of malted-milk powder. Gradually add a cup of cold milk and beat with a rotary beater until the mixture is full of froth.

History of Rice Traces Back 5,000 Years

The history of rice traces back more than 5,000 years. Rice has long been one of the world's staple foods. But the story of rice in the United States began in the 17th Century.

Legends attribute the source of our first rice seeds either to a pirate ship wrecked off the Carolina coast or to a sailing vessel blown off course near Charleston, S. C.

However it got its start, rice first was produced commercially in the South Carolina. From there, the growing area spread into today's major producing areas of

Texas, Louisiana, Arkansas, Mississippi, and California.

It has become a highly mechanized crop, with much of the seedling and spraying done by airplane. When World War II started, total U. S. rice production amounted to less than 25 million hundredweight. During the war years and immediately afterwards, sharp increases helped relieve world scarcity.

High production, stimulated by war demand, continued. In 1954, it reached a record of nearly 74 million hundredweight. But world acreage expanded after the fighting ended, and other countries have become better able to supply their own needs—some becoming active competitors.

Here in the United States, rice has reached the status of an important agricultural crop, valued

at about \$265 million annually—an important source of income in many areas.

Combine Applesauce, Jellied Cranberries

What goes with pork? Applesauce and cranberry sauce, of course. But for a doubly delicious accompaniment, combine the contents of a 1-lb. can of jellied cranberry sauce, crushed, with a ½-cup applesauce. Add ¼-cup of raisins and ¼-teaspoon cinnamon; chill. Relish the spicy, tart-sweet flavor that complements your favorite pork main dish!

Small fry like creamed spinach or crisply-cooked crumbled bacon.

22 Area Extension Clubs Represented at Rally Day

Mrs. Josephine H. Lawyer, consumer marketing agent (right), explains a marketing program chart to (left to right) Mrs. C. A. Pattison of West Farmington Group, Mrs. Robert Anderson of Cadillac street and Mrs. Clair Sherman of Voorheis road. The group were pictured at the Rally Day of Pontiac District Cooperative Extension Service Groups held Wednesday at the CAI Building.

Chairman of the Cooperative Extension Service Groups of Pontiac District were installed during the morning session of Rally Day held at the CAI Building Wednesday. Mrs. Mary Hixon (left) and Mrs. Freida Bennett (right) Oakland County Demonstration Agents install Mrs. Leon R. Grogg of Lake Oakland (second from the left) and Mrs. Orville Chambers of North Perry street.

150 Attend Program in Waterford

Install Officers, Hear Skit, Talks on Safety

By MARGARET COLE

One hundred fifty women representing 22 groups, of the Pontiac District of Michigan State University Cooperative Extension Service attended Rally Day Wednesday at the CAI building.

During the morning session members chuckled through the presentation of a comedy skit on parliamentary procedure entitled, "It Can't Happen Here, Or Can It?"

Participating were Mrs. Everett McDowell of Dublin Group, Mrs. Sig Danielson of Modern Homemakers, Mrs. George Keelena of Clarkston Group, Mrs. Joseph Todd, West Farmington; Mrs. A. A. Solomon, Drayton Plains; Mrs. H. D. Nichelle of the Interlakes group and Mrs. W. J. Stinson of Friendly Neighbors.

Mrs. Mary Hixon and Mrs. Freida Bennett, Oakland County home demonstration agents, conducted the candlelight service installing Mrs. Arthur O'Hara and Mrs. William Tiberg as council members of the Pontiac District.

Chairman of groups in the Pontiac District who were installed included Mrs. John Guenther, Mrs. Albert Tipton, Mrs. Glen Arthur, Mrs. Frank Williamson, Mrs. Maurice Young, Mrs. Cecil J. Abbott and Mrs. Lloyd Taylor.

OTHERS INSTALLED

Also installed were Mrs. Charles W. Heathman, Mrs. Orville Chambers, Mrs. Gerald Wright, Mrs. William Hurlburt, Mrs. John Martin, Mrs. Roger Gunn, Mrs. Leonard Gunn, Mrs. Leonard Schwab and Mrs. John Vandenberg.

Completing the list of chairmen installed were Mrs. Myles Werner, Mrs. Weldon L. Fitch, Mrs. Russell Beardsley, Mrs. Harold Palmittier, Mrs. Joseph Todd and Mrs. Leon Grogg.

Arriving at the CAI Building Wednesday for Michigan State University Cooperative Extension Service Rally Day, Mrs. Vera Shotwell (left) of Oxbow Lake was greeted by Mrs. Maurice Young of Drayton Plains, past county chairman of Cooperative Extension Service Groups.

Speaker for the afternoon session was Clyde Haskell, chairman of the Safety Committee for the Pontiac Chamber of Commerce. Choosing as his subject, "It Can Be Done," Mr. Haskell said:

"Accidents are something we have some control over if we're willing to participate in an active campaign to do something. Too many of us don't realize the dangers of driving; we feel accidents just can't happen to us."

"Safety is the individual responsibility of every motorist and pedestrian, and the communal responsibility of every state, county and municipality," he added.

Checking the scheduled program for Rally Day held at the CAI Building Wednesday by members of the Cooperative Extension Service Groups of Pontiac District are (left to right) Mrs. William Tiberg of Ogemaw road, council member and cochairman for the day's activities; Clyde Haskell, chairman of the safety committee for the Pontiac Chamber of Commerce and speaker for the day, and Mrs. Arthur O'Hara, also a council member and cochairman.

Fair Lady Theme of Style Show

Forest Lake Club Luncheon Features Fashion 'Firsts'

"My Fair Lady" was the theme of the luncheon and fashion show held Wednesday at Forest Lake Country Club. The show was sponsored by women of the Club.

The Fair Lady theme was carried out in the lady figurine heads, filled with white and pink carnations, that centered the tables.

Mrs. Eino Nurme and Mrs. Raymond E. Cahill, cochairmen, enlisted their husbands to serve as doormen in formal attire for an added touch of "twish."

Colors stealing the spotlight were red, blue and the ever popular black. Mrs. Donald P. Green modeled a royal blue cocktail dress with a full skirt, deep-cut neckline in front and back, and small cap sleeves.

DRAWN ATTENTION

One noteworthy black ensemble was a two-piece affair of basket-weave wool woven like ribbon mesh. The straight look of the sheath-skirted dress with its shallow neckline was softened by the short jacket fashioned with a shawl collar and three quarter length sleeves. The outfit was modeled by Mrs. Stewart W. Nunnally.

Mrs. John F. Kern showed a simple black chiton with a high-fronted neckline, fashioned with V-neck in back to the waistline, and a high fronted neckline. The gown was accented with a pastel mink shawl with roll collar.

A full-length oyster white beaver coat was worn by Mrs. John W. Gillespie. Features of the coat were its slimness, slit sides, and rolled cuff. It was collared with dark ranch mink.

Also shown in fur was an "autumn haze," a new shade in mink this season. The fur is of a beige tone and excellent for heightening rich autumn rusts and red-brown tones.

Hats worn with the fall and winter ensembles were the wide-brim style, first shown in New York's millinery forecast last spring.

Sharon Murphy Wed to Robert Keyes

St. Dunstan Chapel, Christ Church Cranbrook, was the setting for the Wednesday evening wedding of Sharon Ann Murphy and Robert Spencer Keyes. The Rev. Lester Dobyns read the service in the presence of 150 guests. Sharon is the daughter of Mrs. Ellis Murphy of Birmingham and the late Harold J. Murphy. Mr. and Mrs. Hugh T. Keyes of Birmingham are Robert's parents.

Married Wednesday evening were Sharon Ann Murphy and Robert Spencer Keyes. Sharon is the daughter of Mrs. Ellis Murphy and the late Harold J. Murphy of Birmingham and Robert is the son of Mr. and Mrs. Hugh T. Keyes of Birmingham.

MRS. ROBERT SPENCER KEYES

A waist-length gown of accord-toned-pleated organza was worn by the bride for her wedding. The bodice, of couched lace, was accented by an Italian neckline cut to a V in the back. Completing her bridal costume was an elbow-length veil of silk illusion. She carried a bouquet of white and pink chrysanthemums.

Mrs. John Babcock chose a gown of French blue peau de sole for her duties as matron of honor. A matching colored lace panel accented the back of the gown. Her velvet headpiece and gloves also were of matching color, and she carried a bouquet of yellow Fuji chrysanthemums.

Claudia Keyes, daughter of Mr. and Mrs. Richard I. Keyes, served as flower girl wearing a powder blue pleated waist-length frock. Her bouquet was also of yellow Fuji chrysanthemums.

BROTHER IS BEST MAN

Richard I. Keyes, served his brother as best man. Ushers were John Babcock of Cincinnati, James House and Charles D. McCall of Birmingham.

Mrs. Murphy greeted her guests at the reception, held in her Bonnie Briar drive home, wearing a champagne gown de sole gown with black velvet accessories and a purse covered of bronze cymbidium orchids.

Mrs. Keyes chose a raspberry colored crepe gown with mauve accessories for her son's wedding. Her corsage was of mauve cymbidium orchids.

For the wedding trip, the new Mrs. Keyes changed to a mallard green wool suit with an angora velvet hat of oyster white. After Oct. 7 the couple will be at home on Eton road in Birmingham.

Bride-elect Is Honored

Mrs. William Shelton and Margaret Robertson were cohostesses at a linen shower Tuesday evening honoring bride-elect Barbara Jones. The Robertson home on School street was the scene of the gathering.

Barbara, daughter of Mr. and Mrs. William Jones of Clarkston, will become the bride of Ronald Robertson on Oct. 13. He is the son of Mr. and Mrs. William Robertson of School street.

Attending the shower were Mrs. Jones, Rene Jones, Mrs. Robertson, Valeria Height, Theresa Landry, Mary Lee Bieri, Cathy Bieri, Barbara Lieninger, Elaine Monroe, Len Conway and Maureen Levine.

Others attending were Mrs. Lloyd Monroe, Mrs. Ray Robertson, Mrs. Ronald Stottmeyer, Mrs. Bob Miller, Mrs. Jim Nicholson, Mrs. Wayne Towers, Mrs. Jim Dillard, Mrs. Philip Biere and Mrs. Harvey Lieninger.

Completing the guest list were Mrs. James Robertson, Mrs. Bud LaFevre, Mrs. Henry Storrer, Mrs. Kenneth Clark, Mrs. Ludwig LaBarge and Mrs. Maurice Leveque.

GET SAFETY HABIT

As an immediate solution Mr. Haskell suggested that each individual make it a habit to drive and walk carefully, skillfully and courteously at all times, with every consideration for the rights of others. Learning and obeying the traffic laws and rules, and heeding all traffic signs and signals is another way in which the problem can be met immediately.

In concluding the speaker said that merely authorizing law enforcement officers to do something without the full support of the citizens is not going to achieve our goal. Each one must support wholeheartedly all worthy community safety activities.

As a result of the state meeting of Michigan Demonstration Groups, at which time Gov. Williams challenged women to do something about traffic problems, the Pontiac District is meeting this challenge and are making plans to show that "It Can Be Done," club officials said.

CHALLENGES PARENTS

Chief of Police of Waterford Township, Frank Van Atta, spoke briefly of the traffic situations that prevailed in the area. He challenged parents to set good examples and to put their wholehearted support behind the safety program in the schools.

Mrs. Josephine H. Lawyer, consumer marketing agent, outlined briefly what the marketing program is attempting to do for the consumer.

Concluding the day's program was the presentation of awards to groups having the best window displays appearing in merchant's store windows the week of Sept. 10-15. Mrs. Bennett presented "A" awards to Drayton Plains, Dublin, Bloomfield, West Farmington, Inter Lakes, Modern Homemakers and Promising Few.

Receiving "B" awards were the Waterford Group, Friendly Neighbors and Happy Wanderer Group.

PTA Activities

Bethune PTA will hold a get-acquainted meeting tonight at 7 in the kindergarten room. Mrs. Purvis Hunt is program chairman.

Bethune PTA will sponsor a tea in honor of the new principal, John F. Perdue, Friday from 4 to 5 p.m. The tea will introduce him to the city of Pontiac. The public is invited.

Coming Events

Mapleleaf Luncheon Club will meet at Hotel Walden Friday for 12:30 p.m. luncheon and business meeting.

The Altar Society of St. Vincent de Paul Church will sponsor a buffet supper Saturday at the church hall from 6 to 8 p.m.

Style Patterns Keep Pace

The shape of American women has changed considerably in the last 50 years—and at last home-sewing dress patterns have caught up with the change.

For many years the pet gripe of home seamstresses has been the peculiar measurements of patterns, requiring much time-consuming alteration and often resulting in uncertain fit.

Now, however, the measurement standard committee of the pattern industry has agreed on new standard sizing for all patterns, conforming more nearly to dress sizes in the ready-to-wear field.

Time was when the standard of womanly beauty was a "perfect 36", with other proportions in accordance, but today every woman works for the ideal 34 bust, 24 waist, 34 hip measurement.

The modern figure has changed since grandmother's day. Today the bustline is higher, the waist and hips smaller. And now all patterns sold in department stores and local sewing centers have been changed to fit the new national figure more accurately.

INSERT SHEETS

All new pattern catalogs have insert sheets showing the new measurements. However, the change-over is not yet complete on the pattern envelopes, though the pattern inside is cut to the new sizing. The trick is to select the pattern size from the chart in the catalog and ignore the measurements printed on the envelope. New pattern envelopes have the new measurements, but the older ones may not. The patterns themselves have all been changed and it is practically impossible now to find a pattern with the old measurements.

Here are some tips from local sewing center experts on picking the right size pattern according to the new measurements:

Today's size 12 misses' pattern is scaled to 32-25-34, as opposed to the old measurements of 30-25-33. All the pattern companies have adopted the new measurements, and the only difference between individual patterns now is the amount of ease allowed through the bustline. This varies from 4 to 6 inches. If your bust is 33 inches, you have a choice of the size 12 or the size 14 pattern, and in most cases the size 12 would be right. The exception to this rule would be in the case of a garment that requires considerable ease, such as a sports outfit.

Buy your patterns by your actual bust measurement, and don't worry about allowing ease. That's all taken care of. The patterns are still slightly different from ready-to-wear sizes, but the alterations required will be fewer and less complicated than before.

When buying a suit or coat pattern, buy the same size you require for a dress or blouse. The extra ease, again, has been provided for in the pattern, for slacks or skirts, buy your pattern by the waist measurement, unless your hip measurement is larger than that shown for the size. In that case, buy by hip measurement. Remember that it usually is easier to take a pattern in than to let it out.

ASK FOR HELP

If you are taller or shorter than average, you need not let that affect your pattern size. Both lengthening and shortening are easy adjustments to make. The change in sizing follows

through the entire range for women, misses, half-sizes, juniors and teens.

When you go to buy your new pattern, get the salesgirl to take your measurements if you are in doubt as to your correct pattern size, and let her advise you.

You'll find your fitting problems much easier if you get a complete measurement, including the width across the back of the shoulders, the distance from shoulder to neckline and other trouble spots. Use a tape measure to check the pattern size, and make alterations on the pattern before cutting into your fabric.

Jagels Addresses VFW Auxiliary

Leonard Jagels of the Central Volunteer Bureau spoke of the work of the bureau at the Monday evening meeting of VFW Auxiliary 1008. Mrs. Florence McCrea and Mrs. James Dando were cohostesses at the meeting held at American Legion Hall.

Feet Will Glitter

Your feet will glitter in shoes of leather overlaid with gold and silver leaf that are more comfortable than solid gold and good coin of the fashion realm. There'll be gold snakeskin and patent as well as gold kid—and sometimes it will be richly embossed. At other times it may be printed with lace-like designs in gold, silver or black, or in vari-colored floral patterns.

The latest colorful unmentionables, to be worn under sports skirts, are knee-length snugies made of spun nylon. The French call them "scooter pants."

In the October Journal

Do Americans commercialize SEX?

Are we distorting our normal sex and marriage attitudes by stressing the physical aspects of sex in music, movies, comics and advertisements?

Do we set up a false picture for our youth of what acceptable standards are? Are we giving them the impression that society no longer regards sexual irregularity as an offense?

In the October Ladies' Home Journal, five college students and two mothers discuss with Journal editors just how movies, TV, advertising, comics are influencing your own, your son's and daughter's behavior. Here are some important and surprising answers.

Two sides to today's teen-age sex conflicts!

A daughter reveals shocking facts about teen-age activities... tells the kind of parental authority needed in "I Wish My Parents Were More Strict."

A mother tells how, lulled into false security by her daughter's popularity, a tragedy made her realize her mistakes in "What's Mother to Do?"

ALSO

"I was a two-ton Annie...until I lost 115 pounds!"

When heartbreak or worry strikes, it's easy to bury yourself in piles of food. Now, Anne Bachner tells how she regained control of herself... went from a tubby 250 to a pretty 135 pounds in one year. Complete with 21 diet menus.

My husband makes me beg for money

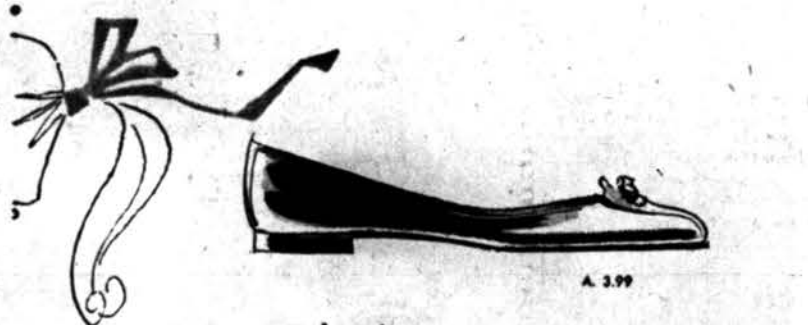

He gave her a swimming pool, a new car, expensive clothes, but every time she asked for spending money he opened a degrading debate. Though their marriage seemed doomed, read how the marriage counselor helped them in "Can This Marriage be Saved?"

IN ALL, 48 articles, stories and features.

Active Youth Participation Wanes

Report Decline in Sports Interest

By EUGENE GILBERT
President of the Gilbert Youth
Research Co.

Parents soon may be facing a new problem: why doesn't Johnny play baseball anymore? Baseball remains our national pastime and, with the World Series just around the corner, chances are Johnny's interest is at a fever pitch right now.

But chances are even better that Johnny will gratify that interest by gazing himself to the television set rather than grabbing a glove and heading out to the nearest sandlot.

A new survey shows that interest in active sports has been declining among young people since our last sports study in 1951.

Our organization interviewed 5,403 boys and girls in the 8-20 age group and found that baseball is still the favorite participating sport, with 32.2 per cent putting it first place. But in 1951, the figure was 37.7 per cent.

SWIMMING
Our poll showed that swimming has the number two spot on the list of favored sports and was the only one to show a gain the five-year period. Its popularity among girls accounted for the increase to an overall rating of 15.2 per cent.

Basketball, slumped into third place, skidded in popularity from 11.5 to 8.2 per cent. Football wound up in fourth place, dropping in popularity from 10.3 to 7.8 per cent. This was the only sport which evoked comment that parental authority was decidedly against their children's participation.

Baseball is most popular among 11 to 13 year old boys, swimming among girls 17 to 20. Basketball's chief zealous are 17 to 20 year old youths. Football has two popularity peaks — one among the 8 to 10 year olds, and the other among the 17 to 20 year old groups.

Many mothers and some fathers fear serious injuries may result from participation in this traditionally rugged game. As a 15-year-old Iowa boy told our interviewer, "Dad wouldn't mind, but Mom is scared stiff that I'll break a leg or something . . . so I had to back out of training this year even though I had just made first string."

These figures are indications of a serious problem. The country as a whole is just becoming aware of a condition which has been developing over the past few years and which is a definite menace to the health and social welfare of our young citizens.

President Eisenhower recently called a national conference on physical fitness after being shown some shocking figures on how American youth stack up against Europeans in muscular strength and flexibility.

The statistics were compiled by Dr. Hans Kraus, associate professor of physical medicine and rehabilitation at New York University, and Miss Ruth Prudden, director of the Institute for Physical Fitness, White Plains, N. Y.

59.9 PER CENT FAIL
Their study showed that 59.9 per cent of United States youngsters failed one or more of six physical fitness tests while only 8.7 per cent of European youngsters failed. The tests were simple exercises like touching toes without bending the knees, sit-ups, and lifting the legs

while lying flat on the back. The six tests are known as the Kraus-Weber tests for muscular fitness and have been administered to 4,364 boys and girls in the United States and to 2,570 in Austria, Italy and Switzerland.

A 1954 armed forces draft survey provided more evidence of lack of muscular coordination and muscular fitness among our young people. It showed that of 3.7 million men examined for military service, 1.7 million were rejected as physically unfit.

President Kenneth L. Wilson of

the U. S. Olympic Committee recently took cognizance of the problem. "I am concerned," he said, "over the trend of our times, when youngsters will stay away from the playgrounds and go out and get a job in order to buy a car."

Health is not the only concern raised by dwindling sports participation.

When young people do not expend their energy in athletics, some are bound to wind up in trouble . . . the age-old warning of idle hands and idle minds. Juvenile delinquency thrives in the vacuum of inactivity.

Sports also are an excellent way for youngsters to develop a sense of social responsibility and fair play among their contemporaries. The spoiled boy who takes his ball and bat and goes home soon learns that he can't play alone.

But the boy who is a sports spectator rather than a participant may have to wait a long time to learn this lesson. And, in later life, the learning process is always more painful.

Are we becoming a nation of softies? The next few years will tell.

POPULARITY OF TEEN SPORTS

Checkpoints to Prevent Accidents

Although more time will be spent outdoors, remember that vigilance inside is a year-around need.

Have a light at the porch steps, both ends of stairways, the hall, near the bed and between the bedrooms and bathrooms. Convert all throw rugs into anchored rugs—especially at stairways, bedroom and bathroom.

USE LADDER
And make sure you have a good sturdy stepladder available for out of reach tasks. Boxes, crates, tubs and tin cans are poor substitutes and pulling out a drawer to stand on can be suicide.

Along with falls, eliminate burns and poisoning dangers. You can do this by keeping matches and other items that can lead to fire out of reach of children. Be especially sure that medicines, plant sprays, insecticides, lye, ammonia and other cleaning and polishing materials are locked in a special place.

Apply knowledge and common sense when, despite all care, things do happen. For all injuries, it is best to summon a physician. However, it's well to know and practice basic first aid until the doctor arrives.

It's wise to know what to do in emergencies, but it is wiser to Chemical finishes are making news in autumn cottons. Resins make the new cottons crease and stain resistant without changing their texture or looks.

Then Try to Sleep Well

Move Baby Into Bedroom

NEW YORK (INS)—The nursery doesn't have to be a separate room if mother has a large enough bedroom.

You can use curtains to screen off about four feet at the end of the bedroom as a place for junior to sleep in privacy, but close enough so his cries can be heard.

This is what C. Eugene Stephenson, chairman of the National Board of Governors of the American Institute of Decorators, did in his nursery-area at the National Baby and Children's Show.

The decorator used sheer white curtains to separate the child's sleeping area, and mixed two tones of pink with soft green and white color scheme of the adult section to give the nursery an infant air. Another mark of the

"nursery" is the band of circus mural wall paper that rings the area at adult eye level.

Another cute touch are the lamps with white shades, pink bases and white, fuzzy monkeys clinging to the bases.

Stephenson, while allotting only four feet of a parent's room for sleeping purposes, decorated an entire room for the toy room where the youngster needs space to play. He's against expensive built-in storage units because he says youngster's tastes change too fast. He prefers a series of easily-shifted cabinets that can be arranged for a built-in look but remain mobile.

One leg is longer and stronger in the average human being.

The girl in the Lassie . . . looked high and low to find this triple threat fashion—combining a beautiful detailed cardigan neckline, bold side tabs, both beautifully enhanced by the texture and strength of the Rustic Tweed cloth. For city or country, home or away, here is an always perfect coat companion. Take your choice of black or brown in sizes 5 through 15. And remember . . . the lining of every Lassie is guaranteed for the life of the coat.

Coat Salon—Second Floor

Formal wear is an integral part of a complete wardrobe. Substitution of lightweight, crease-resistant tropical worsted fabrics for heavier weights used in the past heightens men's comfort. The popular shawl collar, with decoratively stitched notch effect, highlights this slim-styled tuxedo.

Colors that are made with much red or orange in them are usually warm looking, while those with much blue in the dye will look cool.

Yellowing of white nylon garments can be caused by extreme heat in the automatic drying process or in ironing. Dryer and iron should be set at lowest level.

Educational Secretaries Entertain Their Bosses

Mrs. Stuart Galbraith, principal at Willis and Walton schools, is shown with Frank J. DuFrain, former superintendent of schools, at the Pontiac Educational Secretaries Association dinner held Tuesday evening at Madison Junior High School. Mrs. Galbraith was honored with a "This Is Your Life" type program during the evening.

The child accountant department was represented at the Pontiac Educational Secretaries Association dinner at Madison Junior High. Pictured are Anastasia Savvas, child accountant and Paul C. Allison, director of child accounting and attendance department.

Dinner Held at Madison School

Mrs. Stuart Galbraith, principal at Willis and Walton schools, was honored at the Tuesday dinner of the Pontiac Educational Secretaries Association. The dinner held at Madison Junior High School is an annual affair. Secretaries in the Pontiac School System host their bosses at the dinner.

Mrs. Galbraith was the guest chosen for a "This Is Your Life" type of program. Mrs. Virginia Somerville, mistress of ceremonies, told of Mrs. Galbraith's first teaching assignment in a one room schoolhouse in Cedarville, Michigan, of her college years at Michigan State University, the University of Michigan, the receiving of her B. A. from Western Reserve Teacher's College and her M. A. from Wayne University.

During her years with the Pontiac School System, she has taught at Crofoot, McConnell and Webster schools. She also served as principal at Central School for three years.

Her extracurricular activities include her PTA work, her services on the Committee on Education for Educational Competence, consultant for the School Nursing Workshop and on the Committee on Education for Citizenship.

At the dinner preceding the program, FESA officers and their bosses sat at the speaker's table in full football costume, following the football theme used in decorations in the hall for the kick-off event of the year. Crepe paper entwined goal posts behind the speaker's table added to the color of the novel decorations.

The songfest, school songs and cheers, was led by Ruth Laiden-slager accompanied by Mildred Barnett.

Rebecca Unit Meets With Mrs. L. C. Ball

Mrs. Lewis C. Ball of Clarence street opened her home to the Rebecca Circle of Baldwin Avenue Evangelical Church Tuesday evening. Mrs. M. R. Everett gave devotion.

Mrs. Paul Jones was elected assistant circle leader and Mrs. Ray Ritter was elected secretary-treasurer. The group sewed cancer pads and made plans for the current season.

Seating Mildred Rich is George Yansen (standing) principal of Wever Junior High School. Melvyn Stae-bler, also of Wever, and Joyce Thoe are also shown. Secretaries entertained their bosses at the annual affair.

Antique Show Opens Sunday in Detroit

Antiques of every description will go on exhibit in the Fountain Room of Detroit Masonic Temple, when the half million dollar Great Lakes Antique Show opens Sunday.

The exhibits of furniture, glass, china, firearms, jewelry, dolls and dresses will run through Oct. 3 and will be open from noon until 10:30 p.m. daily.

Exhibitors from Washington, D. C., New York, Georgia, Kentucky, Ohio, Indiana, Illinois, Wisconsin and Michigan will participate in the semi-annual event which draws thousands of antique lovers and collectors to Masonic Temple.

Furniture or Fripperies — Look for Early American

NEW YORK (INS)—Shades of Martha Washington and other colonial forebears will dominate the home decorating scene this season for the trend is of, to and for Early American.

Furniture, draperies, glassware, cutlery, floor coverings and knick-knacks reflect the trend toward things comfortable and homespun. Even hurricane lamps are back—and quill pens!

Jewelry is being displayed in reproductions of the ancestral cameo brooch, gold bracelet and choker. The transition to Early American is even more apparent in household goods and accessories.

Great-great-grandpa would gasp if he could see the fancy diamond stickpins—the originals of which were his pride and joy—now being reproduced in semi-precious stones at half the price he paid.

But great-great-grandpa would be more interested to see the modern version of the ancient comforter of the type that used to warm the footsies of Thomas Jefferson.

SYMPATHETIC FABRICS

They are being shown in the latest of synthetic materials that last longer and look better and usually are twice as lightweight.

Many of the old colonial gad-

gets are showing up in strange guises. For instance, the quill pen has turned up with a ballpoint, the old wide gold bracelet is being shown as an anklet, and the pepper mill is now the cigarette lighter!

Hob-nailed milk glass is even more popular today than it was when Betsy Ross was a girl, and the lazy Susan, which never really lost its popularity, is back as a complement to liquor serving sets. Just twirl the tray and take your choice of bourbon, scotch, gin, or rye.

CRAZE SPREADS

The craze for coffee-table cigarette lighters has inspired the Early American manufacturers to reproduce the egg cup, wine cup, pin cushion and condiment pot as well as the pepper mill as gadgets to light up your after-dinner smoke.

Goatskin pitchers, which may have been used by the early pioneers are reproduced in beautiful, shiny lacquered containers that would be showpieces on any table or mantelpiece.

As though Early American isn't going far enough back, some manufacturers are authentically recreating ram's head urns, drinking cups and cookie jars just like those once used by the hot-pollot of Greece way back in 490 B.C.

Extension Club Elects Officers

Mrs. Myles Werner was selected chairman of the Modern Homemakers Extension Club Tuesday evening. She was hostess to the group at her home on Lexington place.

Others serving with Mrs. Werner will be Mrs. William Tipton, vice chairman and Mrs. James Alexander, secretary-treasurer.

Mrs. John W. Stoppert and Mrs. William Tipton were accepted as new members of the group. Mrs. Tipton instructed the club in basket weaving, assisted by Mrs. Kenneth Anderson and Mrs. Stig Danielson.

Hadassah Chapter Sees Humorous Skit

Mrs. Leon Sirin presided at the first meeting of the Pontiac Chapter of Hadassah held Tuesday evening at Temple Beth Jacob.

A humorous skit presented by Fred J. Niedelson, Ralph Merkovitz, Arthur Kollin and Dr. Hubert Curson provided the evening program. Mrs. James Rosenthal led the group in community singing.

Hostesses for the evening were Mrs. Kenneth Solomon, Mrs. Martin Kabeonell, Mrs. Jack Gilbert, Mrs. Merkovitz and Mrs. Harry Akerman.

Canada has about 24,500 miles of coastline.

IT'S CLOONAN'S . . . for the Finest in Cosmetics

MAX FACTOR'S new discovery, SECRET KEY throws open the barrier in your skin that's been holding back your creams and lotions!

"WHY is it that women with dry skin—women with oily skin—and women with the problems of blackheads and blemishes, never seem to get the help they long for—even when the strictest beauty routine is followed with expensive treatment preparations?"

For years, we at Max Factor searched for the answer to this puzzling question. And this search revealed the startling fact that there is a chemical barrier in the skin itself that keeps creams and lotions "on the outside looking in"—as though they were smoothed on glass!

This barrier develops when skin lacks correct pH balance. Meaning, it is either too acid or too alkaline. And very few women do have correct skin balance.

We set out to discover a way to break through the barrier—to enable creams and lotions to get through to bring needed help to parched or oil-clogged skin cells.

We found the way—discovered the SECRET KEY—a remarkable liquid formulation which returns the skin to correct acidity-alkalinity balance... and by so doing opens the way through for creams and lotions to do their beautifying work.

We followed with exactly the right corrective treatment groups for the dry, the oily, the disturbed and the normal skin... Each group formulated to follow right behind the Secret Key and help the skin to help itself.

With the Secret Key and your corrective treatment group—suddenly you will begin to notice a real improvement!

Today, I am happy to be able to turn over to you the Secret Key that can open the way to the skin beauty you have longed for.

Light Floors Give Feeling of Space

The light colors so important to a feeling of spaciousness in narrow rooms are entirely practical when rubber floor tiling is chosen

for the busy living room. All that's needed for day-to-day upkeep is a fast once-over with a damp cloth. Even char marks from cigarette butts which may occur can easily be eliminated by a light rub with steel wool.

HEARING GLASSES
Audiotone
SHE'S HEARING THROUGH HER EYEGLASSES!

Here is the newest wonder in hearing aids for men and women. Incredible as it may seem, the pair of eyeglasses pictured above is a complete, self-contained transistor hearing aid. And yet to the casual glance, this is a pair of conventional eyeglasses. The Audiotone "hearing glasses" needs no cords, wires exposed, nor any button in the ear.

The ladies' frames are fashioned styled, with many executive type styles for men. Now you may work and play normally with freedom of movement. You may dress as you wish. Your hearing aid is simply a pair of glasses. "Hearing glasses" provides better hearing and in the most attractive manner. Arrange for free demonstration TODAY!!

Give Your Nerves an Even Break

By JOSEPHINE LOWMAN

We are repeatedly awed by the wonder of today's mechanical devices while we take for granted much more complex and miraculous procedures which occur in our own bodies. I am thinking today of the nervous system.

The nervous system governs the body. It controls both the voluntary and involuntary muscles and guides many vital processes such as respiration, circulation, digestion, and others. It also is responsible for our thoughts.

The central nervous system consists of our brain and our spinal cord. The peripheral nervous system is made up of 12 pairs of nerves originating in the brain, 31 pairs of nerves coming from the spinal cord, plus the nerves which go to the internal organs and the blood vessels.

In a recent article in the magazine, "Today's Health," J. D. Ratcliff wrote: "But for our magnificent nervous system we would be a chaotic mass of individual cells, each cell going its own way independent of the others."

MILLIONS OF MESSAGES

When mentioning the fact that we take our nervous systems for granted he said, "Millions of messages pour through its billions of cells, telling the heart when to beat, glands when to secrete, lungs when to suck in air."

This gives us just a glimpse of how crucially important our nervous system is to us, of how it controls our actions, the working of our bodies, our health, and even our success and happiness.

Many diseases and disabilities arise from injuries to the nervous system. These usually are due to actual injury of the nerve or nerves, to infection, systemic diseases or deficiency states.

For instance, pernicious anemia may have resulting unhappy effects on the nerves. Deficiency states can come from tensions and strains, poor nutrition and infections. A chronic state of anxiety can have far reaching effects on health because it can change body chemistry and glandular performance.

Take care of your nervous system with a splendid health routine, mental discipline and a happy outlook.

Take care of your nervous system with a splendid health routine, with mental discipline and a happy outlook.

If you would like to have my leaflet "Pep" send a stamped, self-addressed envelope with your request for leaflet No. 56 to Josephine Lowman in care of this newspaper.

Girl Ignores Doorbell, Is Criticized

Told She Did Right Since She Was Clad in Nightclothes

By EMILY POST

"Dear Mrs. Post: The other evening at about 9 o'clock, I took a shower and got ready for bed. That is, I put on my pajamas and a housecoat over them and had intended to sit and watch television for a while and then go to bed. No sooner had I done this when the doorbell rang.

"As I was not dressed to receive callers I did not answer the doorbell. The visitor rang several times and after getting no response, finally went away. The visitor turned out to be my sister-in-law who called me the next day to tell me that she thought I was very rude not to answer the doorbell.

"She knew I was at home as she could see the light from the street. When I explained that I was not dressed to receive visitors, she said that I might have at least answered the doorbell and explained rather than pay no attention to her ring. Was I wrong not to have answered the door?"

Answer: As you were undressed and ready for bed and didn't know who was at the door, you were quite right in not answering the bell.

"Dear Mrs. Post: Does an engaged girl's fiancé, who is almost a stranger to us, have to be invited with her to our wedding reception? This will be limited just to relatives and a few intimate friends. If I include him it may cause hurt feelings among others who have to be left out. Yet somebody tells me it's a strict rule that he be invited everywhere with her.

Answer: Very definitely he should be invited just as though they were married.

"Dear Mrs. Post: A friend of mine is being married and has asked my small daughter to be a flower girl.

"I was under the impression that the bride paid for the child's dress but have been told by several people that I am supposed to pay for it. Will you please tell me what is correct?"

Answer: As a rule, the mother pays for her child's dress.

Full-sleeved sport shirt of absorbent wool jersey has cut-away button-down collar, decorative cuff stitching. Styled in California, it is light gray in color and ideal for cool wear.

6 Rules for Painting Wood

Here are six rules for applying are not made to go on hot surfaces. opaque house paints to wood:

1. Banish moisture troubles before you paint. Opaque paint won't stay on surfaces that remain moist.
2. Give the paint something to "bite" into. Paint can't stick to dirty, greasy, or slick surfaces. A wire brush is best for eliminating these.
3. Spread the paint so that it covers the square footage planned for it. Follow directions on the label; don't tamper with the mix.
4. Wait for good painting weather and for thorough drying between coats of paint.
5. Work in the shade. Paints them refreshed and on the job.
6. Don't expect the impossible. No paint lasts forever. The best quality gloss house paint must be renewed every 5 to 6 years if it is the self-cleaning white type or every 6 to 8 years for deep-tone colors.

Men Take Note

Men would do well to copy a few of the grooming health aids the so-called weaker sex has been employing for a long time. This is particularly true of eye care. Good grooming habits will help take care of the appearance angle and adequate rest and regular use of a little eye lotion will help to keep them refreshed and on the job.

Lonely Pair Found Cure for Problem

BY ANNE HEYWOOD

One of the biggest threats to old age is loneliness; seeing old friends pass on and having no new ones to take their place.

Over and above all other questions which oldsters ask—how to get a job, how to start a home business, how to find a hobby—loneliness, and how to alleviate it, is the one that bothers most.

That was the problem facing Mr. and Mrs. G.

"We have enough to live on," Mrs. G. wrote, "not lavishly, but decently. Our health is good and we have a lot to be thankful for. But somehow we just can't get rid of the feeling of being useless and alone."

"Our children are married and live not too far away. We see them on Sundays. But they have their own lives to live."

NEED FRIENDS

"Bob and I are very companionable, but we really need outside friends. Some of them should be younger than we are, too!"

"We've tried going to lectures and joining clubs," she went on, "but it's not very good. Just to go for the sake of meeting people is sort of pointless and we feel self-conscious about it. Somehow it's almost impossible to make friends when you're straining so hard."

That's been my experience, too. Friendliness has to be an accessory after the fact of a valid activity.

The problem, then, was to find an activity, a project, which really interested Mr. and Mrs. G., and in the process of which they would make friends as a matter of course.

I recommended a solution which has been found excellent in other cases I know. I suggested that Mr. and Mrs. G. set up a voluntary employment service through their church.

They talked it over with their minister, who liked the idea.

Then they prepared a form to be filled out by members of the congregation. They soon learned who wanted a job, what kind of job was needed and who had jobs to be filled.

Armed with this information, Mr. and Mrs. G. set up an office in a room provided by the church.

and they were soon pleased with the results.

They interviewed businessmen in the congregation who needed secretaries, as well as watchmen and clerks. They interviewed youngsters who wanted baby-sitting jobs and mothers who needed baby-sitters.

Word of the service got around

and they were soon pleased with the results.

Best of all, Mr. and Mrs. G. made all kinds of new friends, of all ages!

If you have a problem of loneliness, drop me a note and tell me a little about yourself and I'll make some suggestions on how to cure it.

5715

A 'star' is made in the form of this lovely pineapple dolly! This beauty measures 15 inches in diameter, and the eye-catching center is made in the popular puff-stitch. (As pretty as it is practical!)

Pattern No. 5715 contains crochet directions; material requirements; stitch illustrations.

Send 25c in coins, your name, address and the pattern number to Anne Cabot, The Pontiac Press, 372 W. Quincy Street, Chicago 6, Illinois.

Now available—the colorful 1956 Needlework Album containing dozens of lovely designs from which to choose more patterns in crochet, embroidery and knit—plus three gift patterns, directions printed in book. Only 25c a copy!

4-Point Program for Complexion

Here's a simple four point program for complexion beauty that is the essence of common sense:

1. First and foremost, don't be a "carbon copy." Get an individual analysis of your skin.
2. Keep your skin healthily clean and clear.
3. Keep your skin active through massage.
4. Keep your skin protected.

This basic program is an excellent way to begin a "beauty routine" for complete skin care. Cosmetics should be "custom-planned."

New Gravy Treat

A new treat for gravy-loving families: Four off all but 4 table-spoons fat from roasting pan. Add 1½ cups water and ½ cup pineapple juice to fat and drippings in pan. Mix 3 tablespoons flour with 6 tablespoons cream. Sprinkle over water in pan. Cook and stir until mixture boils and is thickened. Add salt and pepper to taste.

Booster Class Holds Meeting

Seventeen members of the Booster Class of the First Methodist Church met at the home of Mr. and Mrs. John Seator in Drayton Plains. Devotions were given by Mrs. Chester Caughill who used as her topic, "The Kindly Virtue, Patience."

Plans were made at the Saturday evening meeting for the Harvest Home Festival—being held at the church.

Following the business meeting Mr. Seator showed slides of their recent trip through Canada.

Hairdos Going Up

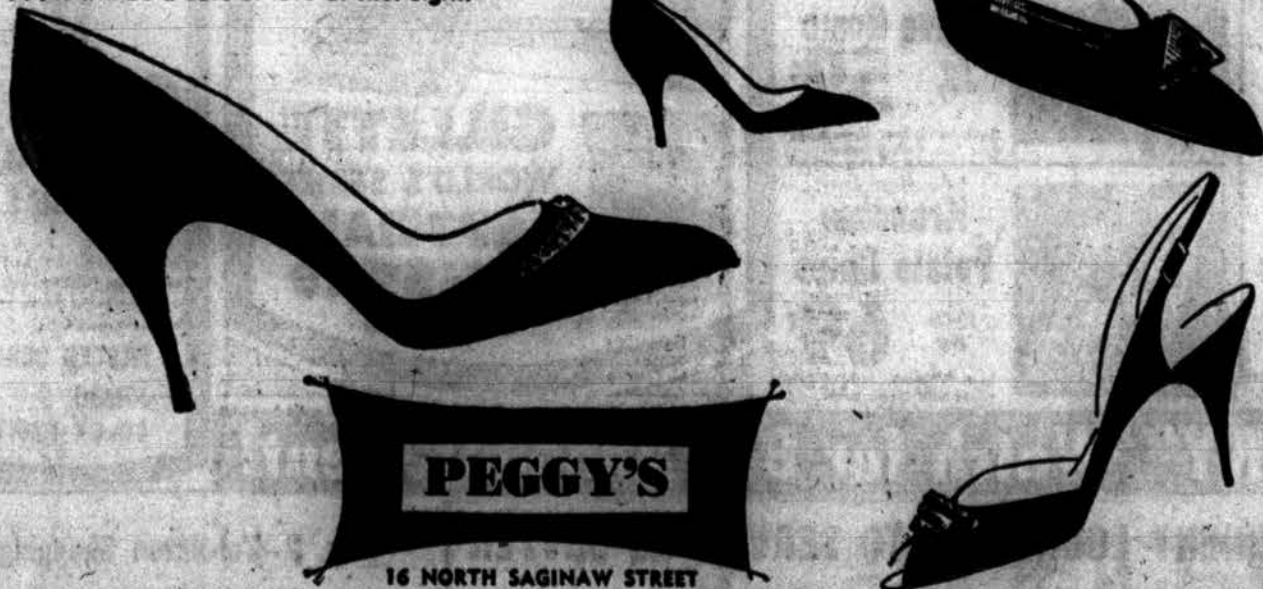

With skirts going down, hairdos are going up. The piled-on-top effect, especially for after dark, is recommended for women who favor the new 1956 look in clothes by Albert of Fifth Avenue, the styles director of the Hair Fashion Council of America. Albert suggests a pulled-back chignon effect for daytime.

We're in love with a wonderful shoe:

I. Miller

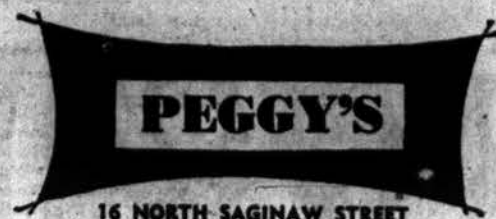

We're in love with the fashion-dominance, the quality and prestige of the name I. Miller, and we're proud of the fact that we were chosen to represent this significant name in the Pontiac area.

Let us show you our wonderful selection... it will be a case of love at first sight.

Chiefs Polish Defenses, Dales Do Same

By BRUNO L. KEARNS
Sports Editor, Pontiac Press
If coaches Ed Graybiel of Pontiac and Ted Melster of Ferndale accomplish what is foremost in their minds this week, the clash between the two teams at Ferndale Friday night could be another affair like the PHS-Lansing Sexton thriller last week.

Graybiel was very disappointed with the defensive play of the right side of the line last week. "If we don't polish up our defenses on the right side, Ferndale will eat up yardage at will," he said. "They are a same type of team as Sexton but even faster," he added.

Meanwhile Melster, who watched PHS against Lansing last week, is figuring on setting up his defenses to check some of the speedy Chief backs. "If we clog up those openings in a hurry, we can give Pontiac trouble," he said.

Ferndale won its opener by trouncing Berkley 29-0 and last week the Dales fell by the same score to Grosse Pointe.

Grosse Pointe however took advantage of a couple of early breaks, a fumble and an intercepted pass in first few minutes of the first quarter, to take a 13-0 lead.

After that Ferndale settled down but missed several opportunities to score via the fumble route deep in Pontiac territory.

Coach Melster has made several changes in his starting backfield in view of a leg injury suffered by his starting quarterback Ken Schultz who missed most of the Grosse Pointe game.

Fullback Dick Serfoso a senior letterman has been working the signals at quarterback this week with 185 pound Dick Sherwood, last year's starting fullback going back into that slot.

"I doubt whether Schultz will start although he may play," said Melster, "but Serfoso has worked at quarterback before and he is very deceptive and does a good job throwing."

Two speedy halfbacks Larry Wepling on the right side and Larry Brown will be at their regular posts.

Dick Wyatt, a 200 pound tackle, who has seen only limited action this year, is reported in top form and will be back in the starting lineup Friday.

The Chiefs came out of the Sexton game without serious injury, however several of backs have been limping with leg bruises including Jimmy Shorter, Charlie Spann and Freeman Watkins.

Offensive guard Dick Kors is being worked to go both ways this week. Kors was moved into the right linebacker slot late in the game last week and did good job stopping the Sexton outside running attack.

Otherwise no other changes are expected in the offensive lineup for the Chiefs, although Graybiel is still undecided about several defensive posts.

Game time on the Ferndale gridiron which is located on Republic Avenue and 9-Mile road about a mile and a half west of Woodward, is 8:00 p.m.

Off the Grapevine

Surprising Troy gave the Press grapevine most trouble in last week's selections by dumping Avondale, with Milford's upset of Clarencville also coming as an unexpected result.

Things will get a little tougher this week with most prep teams getting into league play.

Here's the top 12 selections off the grapevine for this week:

Game	KEARNS	MOATS	CORNWELL

Fox Hunters Hold Field Trial, Show

A four-day field trial and bench show will be held this weekend in County Center building and at the field near Lapeer. Events get under way today, with the bench show Friday night at 8 o'clock. They will run through Saturday, Sunday and conclude on Monday.

Trial and show are under auspices of the Michigan Fox Hunters association, a MUCC affiliate. Hunters are expected from a major portion of the state.

A big gallery is also anticipated as the public is invited to witness both features.

Suzie Barred by NCAA Rule
BOSTON (U.P.)—Suzie Sims won't be able to serve as coxswain of the Boston University freshman crew after all.

The 18-year-old girl from Forest Hills, N.Y., turned out for the job Tuesday.

But authorities spotted fine print in the NCAA rules which states: "Only undergraduate males shall be allowed to participate in intercollegiate athletics among member schools of the NCAA."

Full Slate in 4 Circuits

Prep League Play Gets Heavier

By BILL CORNWELL
Walled Lake and Southfield, the two top contenders for the Inter-Lakes football championship, and Waterford, the No. 1 "dark horse," open their 1935 league campaigns Friday.

The full-scale activity in the Inter-Lakes Conference spotlights this week's accelerated prep action in leagues throughout the Oakland County area.

Besides the three-game card in the Inter-Lakes, play is scheduled on three fronts in each of the Oakland B and Wayne-Oakland circuits to mark the greatest league activity thus far.

Action is still limited in the Eastern Michigan and South Central loops where defending champion Birmingham plays host to Mt. Clemens and Oxford visits Millington in the only encounters.

Waterford's Skippers, unbeaten in two starts, will be visited by defending titlist Van Dyke tomorrow night. The Abes, who appear weaker this season, handed Waterford its only 1-L setback a year ago and the Skippers haven't forgotten it.

Powerful Southfield and impressive Walled Lake, both undefeated

in two contests, tangle with less imposing foes as they tune up for their possible title showdown a week hence at Walled Lake.

Dave Smith's Vikings entertain Berkley, which hasn't tasted victory in its last 11 attempts, while the Jays go to Farmington for an afternoon game.

Avondale, unceremoniously dumped by resurgent Troy last week, must get by Madison on the Eagle gridiron to keep its Oakland B title hopes alive. Lake Orion's surprising Dragons face invading Fitzgerald and Clawson travels to Roseville in other league engagements.

Clarkston's undermanned Wolves, scoreless after two decisions, meet improving West Bloomfield at home in Friday night's feature Wayne-Oakland attraction. Also on the W-O agenda are Northville's trip to Milford and Holly's scrap with Brighton at Holly.

A three-game program is slated in the Southern Thumb League. Unbeaten Dryden greets winless Capac, Brown City journeys to Memphis and defending champion New Haven tackles visiting Armada.

The Barons of Bloomfield Hills

Horsman, Hagens Bag 2 Large Elk

Back from an elk hunting trip in the Jackson Hole country of the Rockies, Walled Lake's Walter Horsman and Russ Hagens will soon be displaying a pair of fine bulls. Horsman's trophy sported a fine rack, weighed 750 pounds. But Walter reported Hagens' animal was an 800-pounder "with one of the most beautiful racks I've ever seen."

Horsman, long-time Multi-Lakes official, caught cold on the trip and is now suffering from a touch of pneumonia.

IL-AA Series Opens

ROCHESTER, N.Y. (U.P.)—Right-hander Duke Markell, who broke even in 20 regular season decisions, was Rochester's pitching choice tonight as the Red Wings opened the best-of-seven Little World Series against Indianapolis, the club that never has lost one of these post-season meetings between the International League and American Assn. champions.

Hero to Goat

Fickle Fate for Amoros

BROOKLYN (U) — "A hero one year... a goat the next." That was manager Walter Alston's sympathetic reference to poor little Sandy Amoros, whose miff of an easy fly ball opened the gates for three Philadelphia runs and a subsequent 7-3 victory over Brooklyn yesterday which may cost the Dodgers the pennant.

Amoros, scared stiff by the realization of what his damaging second inning error could mean, played in a daze the rest of the way. He later bobbled a ball, misplayed another and twice threw to the wrong base which accounted for other Philadelphia runs.

The likeable Cuban's first misplay undoubtedly unnerved Don Newcombe because the big pitcher promptly hit the next batter with a pitched ball to fill the bases and followed it up by serving a well-tagged two-bagger to Roy Smalley.

"Newk was really boiling as he came into the dugout after the losing," teammate Carl Furillo related later. "He came over to Alston and growled, 'Get that guy out of there and put somebody in there who can catch the ball.'"

Alston, of course, paid no heed to his irate 26-game winner. Instead, he defended Amoros and pointed out that Sandy had saved the 1955 world championship for Brooklyn with his spectacular catch of Yogi Berra's curving fly that cut off two Yankee runs in the final game of the series.

"He just had a bad day, sure," said Alston, "but the little guy has helped us all year with his hitting. And how can I ever forget what he did for us in the World Series. A hero last year, a goat this year. That's the way it goes."

\$13,325 Collected in State Bounties

LANSING (U) — Hunters and trappers collected \$13,325 in bounty payments from the state during August, the State Conservation Department reported today.

A large share of the money, \$3,880, went for 776 foxes bountied during the month. Bounties also were paid for 496 coyotes, 133 bobcats and four wolves. All the bobcats and wolves were taken in the Upper Peninsula as were all but 10 of the coyotes. The foxes were taken throughout the state.

ANN ARBOR (U) — Michigan's post-war relationship with Pacific Coast Conference football clubs has been eminently successful.

A scan at the record book shows the Wolverines won seven games at the expense of western rivals while dropping only two, both to Stanford, in the last decade. This mark includes two visits to the Rose Bowl. But despite this enviable record—most other Big Ten teams haven't fared so well against their Pacific Coast cousins

the Bruins as definitely under-rated.

While his squad has performed well in practice, coach Bennie Oosterbaan indicated his high opinion of the first game opposition, even if it was somewhat disarmed by the summertime eligibility spanking of UCLA.

"A Redw Sanders-coached team always will be tough," he said. Oosterbaan discounts practice field puns about the Uclans running out of gas because they're driving with No-Knox. (In reference to Ronnie Knox 1955 Bruin halfback who left for the greener pastures of Canadian pro football when the PCC ruled him ineligible for half this season.)

more had they wanted to open up.

Another authority who can vouch for the toughness of PCC eleven is Don Dufek, assistant backfield coach who played three games against them during his career as a Wolverine fullback.

Against California in the 1951 Rose Bowl Dufek plowed over for both Michigan touchdowns in a 14-6 Wolverine victory. Yet he candidly admitted:

"We weren't any better than they were that day."

Weekend Grid Choices

Following are International News Service predictions for this weekend's college football games. INS experts weathered the upset-studded opening grid weekend with 21 right, 11 wrong for a .656 batting average.

EAST

Pittsburgh 20, Syracuse 13... Orange can't duplicate Maryland upset.

Penn 14, Penn State 7... Sebo's boys snap 13-game losing streak. Cornell 21, Colgate 20... very close; both strong. Army 34, VMI 6... Cadets should breeze in opener. Navy 20, William & Mary 0... safe shakedown cruise for Middies. Princeton 19, Rutgers 6... Tiger too tough in old grid rivalry. Holy Cross 20, Dayton 14... Crusaders expect good year.

MIDWEST

Iowa 27, Indiana 20... Hawkeyes passing attack will tell final story.

Illinois 21, California 7... Illini backs fastest in nation. Ohio State 34, Nebraska 14... just a warm up for the powerful Buckeyes. Wisconsin 35, Marquette 6... Badgers to romp in one of few games.

Iowa State 21, Northwestern 20... Cyclones have best team in six years. Michigan 28, UCLA 20... Wolverines run and pass UCLANS silly. Purdue 23, Missouri 0... Lennie Dawson has field day.

Miami (Ohio) 27, Xavier 14... Miami backs have field night. College of Pacific 14, Kansas 7... West Coasters have too good an attack.

Colorado 21, Kansas State 14... Buffs superior speed turns tide. Detroit 20, Villanova 14... Titans in for best season in many years.

Cincinnati 14, Tulsa 13... Bearcats bounce back for first win of season.

SOUTHWEST

Georgia Tech 14, SMU 14... Tech after Mustangs scalp.

Baylor 21, Texas Tech 7... Bears have too much experience. Oklahoma A & M 21, Arkansas 7... Porkers need more time to get ready.

Oklahoma 28, North Carolina 6... Sooners march on and on. Houston 21, Mississippi State 12... Cougars rated high on power.

FAR WEST

Michigan State 28, Stanford 20... Spartans too beefy.

Southern California 21, Oregon State... Trojans have runners. Washington 6, Minnesota 0... husky defense does it.

Oregon 33, Idaho 6... duck's soup.

SOUTH

Tennessee 21, Auburn 18... a rough one, back Johnny Majors the difference.

Georgia 21, Florida State 0... Bulldogs develop slowly.

Mississippi 28, Kentucky 7... too much Rebel backfield power.

Texas 21, Tulane 13... Greenies improved, but Texans come powerful.

Duke 14, Virginia 7... Iron Dukes must firm up now, or never.

Maryland 14, Wake Forest 6... Terrapins shocked back into action.

Connie in Bronze

PHILADELPHIA (U) — A bronze statue of Connie Mack will be dedicated on opening day of the baseball season next year.

The statue will be placed on a plot opposite Connie Mack Stadium here. The work was paid for by donations totaling \$20,400.

Special Deer Permits Zoom

Conservation Group Says License Demands Filled in 2 Areas

LANSING (U) — Applications for special deer season hunting permits already have exceeded quotas in two areas, the State Conservation Department reported today.

A total of more than 30,000 applications have been received two weeks before the Oct. 16 deadline and the flow of mail continues, the department said.

A total of 65,340 permits will be issued for does and fawns as well as bucks in 22 starvation and crop damage areas.

Requests for permits in the Lake-Newaygo County region already have exceeded the quota of 4,500 special permits for the area. The quota of 40 permits for Bois Blanc Island also has been topped.

Drawings will be held on special permits in both areas.

Meanwhile, applications are far below the number of permits to be allowed for several other areas, the department said.

Less than 1,000 applications have been received for the Hansen-Dead Stream area near Grayling where 12,000 permits will be issued. Only a few hundred applications have been received for the 5,000 permits for Alpena and Presque Isle counties.

Rate Texas Teams Tops

COMPTON, Calif. (U) — The Cameron Aggies of Lawton, Okla., and Tyler, Tex., have been voted the leading teams in the Eastern and Western Divisions of the National Junior College Athletic Assn. by the coaches.

California and Washington Junior Colleges are not included in the poll since their states will not permit them to play in a postseason East-West game slated to be played in Los Angeles Dec. 15.

Young, but Mature

Spartan 11 Flies to Coast

EAST LANSING (AP)—The Michigan State football squad, en route to California today to meet Stanford, is young in years but mature in game experience.

You might even call them "young pros" except that "pros" is a bad word in collegiate football circles.

There are 30 lettermen on the 35-man traveling squad winging westward to set up camp for Saturday's meeting with Stanford at Palo Alto.

All the lettermen were members of the MSU Rose Bowl squad that upheld the honor of the Big Ten by beating UCLA 17-14 on Jan. 2. Most got into the game.

This is despite the fact that there are only seven seniors on the roster compared to 15 juniors and 16 sophomores, the last getting their first collegiate experience.

Only six of the lettermen are seniors. Fullback Vic Zucco, a senior fullback, is a transfer from Wayne State University and will be playing his 1st game under green and white colors.

The chartered plane carrying players and coaches left the Lansing airport at 9 p.m. and was due in California in time for a workout at the Stanford stadium this afternoon. Stanford also has made the stadium available for a Friday warmup and as a further hospitality gesture the two teams will eat together the night before the game.

But on Saturday afternoon, the Stanford Indians will be as friendly as the bunch who ambushed Custer. Stanford is smarting from a 38-14 defeat last year and has hope of representing the Pacific Coast Conference in the Rose Bowl New Year's Day.

"D" Giant in Class C League

Size Is No Obstacle for Little Dryden

By BRUNO L. KEARNS
Sports Editor, Pontiac Press

Glance over the football schedule of little Dryden High School and one might be inclined to ask, "why doesn't Dryden pick on someone its own size?"

The truth remains, that Dryden can't find enough Class D schools available to play, and besides the Cardinals are content to be members of the Class C Southern Thumb League.

Dryden, under coach Fred Bernat for the 7th straight season, is proud of the fact that despite its size it has never been the doormat of the STL.

Bernat, in seven years at the helm, has guided the Cardinals to 43 victories against 19 defeats, including winning streaks of 13 and 10 games respectively, along with two unbeaten seasons.

One mark especially noticeable in the results is the school's defensive record. In the past 13 games since the mid-1954 season,

the Cardinals have won nine games by the shutout route.

Oddly enough, two of the three games lost by Dryden since 1954 have been 6-0 and 13-0 defeats.

Football has become king of this village of less than 500. Of the male enrollment in the high school, including freshmen, usually more than 80 per cent are on the team.

Two years ago, of the 45 boys in school, 43 were on the team and the other three served as managers.

This year, 35 turned out for football of which 15 were freshmen and again Dryden is off to a good start with wins over Flint Hoover and Brown City.

It's not uncommon to see any Cardinal player in the backfield on offense and in the line on defense. "The farm boys out this way are a pretty rugged caliber," said Bernat, "and what we may be lacking in quantity, we seem to get in quality."

"Most of our boys learn to

Redlegs Continue to Take Series Ticket Orders

CINCINNATI (AP)—The Cincinnati Redlegs still are receiving and processing applications for World Series tickets even though an Xavier University mathematics instructor has figured out they have only one chance in 64 to tie for the National League pennant.

"We will process World Series ticket applications until we are mathematically out," said General Manager Gabe Paul. "We have to be prepared and we aren't going to concede a thing."

That "mathematically out" situation could occur tomorrow night. It would come about if the Milwaukee Braves win their game against St. Louis. It only takes one Brave triumph or one Redleg defeat to wipe out the Cincinnati's chances to tie the Milwaukee.

If Brooklyn wins two of its remaining games, the Reds couldn't tie them either.

The Blue Hill Country Club at Canton, Mass., used a powerful commercial vacuum cleaner to remove sand, twigs and pebbles from its greens during the 1956 PGA championship.

Gridders Wanted at St. Fred

Badly-Crippled Rams Need More Help

St. Frederick coach Gene Wright is looking for football players.

It isn't that the Rams' head mentor doesn't have a few on hand or because he's dissatisfied with the ones he has. He just doesn't have enough to go around.

The foregoing is a little exaggerated, of course, but it does illustrate a bold fact: St. Fred is badly crippled for Sunday's hot battle with city rival St. Mike.

Wright and assistant coach Tom Kennedy have been hit hard this fall by an appalling number of injuries to key personnel. Wright's anticipated pre-season lineup has yet to be intact and won't be come Sunday.

The latest casualties are guard Marty Koenig and halfback Tom Nesbitt.

Koenig, veteran performer in St. Fred's forward wall, is sidelined for the rest of the season with a broken bone in his leg. He limped through the greater part of last Saturday's game with Orchard Lake St. Mary, unaware of the injury. Nesbitt is laid up with a hard cold.

John Bradley and Wally Quarles, Ram co-captains, are also on the shelf. Bradley is hobbling around with a torn cartilage in his knee while Quarles sustained a fractured vertebra during a scrimmage session and will be out for at least two more games.

Guard Frank Palopoli recovered from an injury in time to see action against the Eagles and star quarterback Tom Deroccher has managed to avoid physical damage for the only bright spots in the picture.

If the bad luck continues, the

southsiders may set up a hospital ward to handle all the patients. So Gene Wright is looking for football players. He's not recruiting you understand, but he probably wouldn't turn thumbs down to any husky, healthy gridders who suddenly decided to enroll at St. Fred.

Earns Title Test

'Hurricane' Blasts Baker

PITTSBURGH (AP) — Tommy Jackson's second straight victory over Bob Baker today moved the 25-year-old New Yorker into line for a crack at the heavyweight title. And the assurance comes from President Jim Norris of the International Boxing Club.

"Hurricane certainly deserves consideration," said Norris, after Jackson roared to his 28th victory in 34 fights last night in a grueling, 12-round nationally televised bout with Bob Baker at Forbes Field.

"He (Jackson) made a creditable showing," said Norris, "and I think he rates a shot at either Archie Moore or Floyd Patterson, but the Patterson-Moore fight comes first."

Both Moore and Patterson have agreed to a title fight but it is still unsigned.

Jackson, the No. 3 heavyweight, whipped Baker for the second time in seven months. Many ring ob-

servers felt it was a larger margin then the split decision of the officials. Jackson also won the Feb. 3 bout at New York City on a split decision.

Referee Ernie Sesto saw it 7-4-1 for Baker; Judge Al Grayber scored it 6-4-2 for Jackson and Judge George Lupinacci had it 8-4 for Jackson. The AP card showed it 6-5-1 for Jackson.

It was a slam-bang battle and a crowd of 12,261 that paid a gross of \$70,579 enjoyed every minute of it. Both fighters tossed leather from the start. There were few clinches and not a single knock-down. The crowd cheered at the decision.

The first time referee Sesto stepped between the two free-swinging heavyweights was in the 10th round to cut loose a piece of tape from one of Baker's gloves.

Jackson's record now is 28-5-1, including 12 knockouts. The loss was Baker's seventh in 53 fights. In his last outing he whipped John Holman.

GRIN AND GROAN—Hurricane Tommy Jackson (left) smiles in his dressing room after his 12-round fight in Pittsburgh last night while Bob

Baker (right) groans as he nurses a swollen eye. Jackson took a split decision after rallying in the last three rounds.

Boxing Body Clears Taylor of Charges

PHILADELPHIA (AP) — Charges against Promoter Herman Taylor of actions detrimental to boxing have been dismissed by the Pennsylvania State Athletic Commission. Taylor had been charged with

associating with criminals, book-makers and gamblers, conspiring to take over management of a boxer, managing without a license and being guilty of unprofessional and unethical conduct.

RISE—the inventor of aerated shaving introduces

3 NEW INSTANT LATHERS

for greater shaving comfort
no matter what kind of skin or beard you have

Choose the RISE that's Right for You

At last you can enjoy greater shaving comfort no matter what kind of skin or beard you have—thanks to RISE and its 3 different instant lathers. Each one is completely emulsified with a miracle liquid gas to give you smoother shaves with extra comfort! Because it's 100% emulsified, RISE gives you a richer, creamier, wetter lather that soaks and softens your whiskers right down to the base. Makes your whiskers stand up straight so your razor cuts them off at the skin line. Smoothly. Comfortably. Special bonus! All 3 RISE lathers give you refreshing after shave comfort. No sting. No burn. Try RISE today.

RISE—America's First and Best Instant Lather... 69¢ a can!

Carroll Voted Best Lineman

By THE ASSOCIATED PRESS
John Carroll, 192-pound center whose linebacking performance led the University of Detroit's defensive forces in a 20-7 victory over Marquette, is the Missouri Valley Conference lineman of the week.

Carroll edged out the University of Wichita's guard Jim Herlocker in an Associated Press poll of sportswriters and sportscasters.

The Titan center played 48 minutes and stood out both on offense and defense. Except for one scoring run of 54 yards, Marquette's rushing yardage for the game Saturday at Detroit was only 67 yards.

Chasing The Home Run Records
Cincinnati Redlegs—220 (major league team record is 221 set by New York Giants in 1947).

Flies Really Travel

DES MOINES—Studies of the movement of houseflies show that some of them wander 15 to 20 miles from their point of release, but most remain within one-half to two miles of their place of origin. In making the studies, radioactive food was fed to the flies to "mark" them for easier spotting.

14 Elevators in Chain

ST. PAUL. One grain company has a chain of 14 waterside grain elevators extending southward from Port Cargill on the Minnesota River to New Orleans, eastward to Albany, N.Y., and southward to the port of Guntersville, Ala., on the Tennessee River.

DIFFERENT KIND OF ROUNDUP—This Detroit paddy wagon is loaded with good intentions rather than candidates for night court. It's been pressed into use as a roving registration station for voters and is shown as police make an off-the-docket roundup of good citizenship at suburban Melvindale.

Williams Loudly Boasts:

State's Midget Turkeys Outshow Ohio's Finest

LANSING (AP)—Maybe it's because it's an election year. Anyway, the governors of Michigan and Ohio outdid themselves trying to outdo each other in bragging about the turkeys raised in their native states.

Gov. Lausche of Ohio set the tone in inviting Gov. Williams to enter a Michigan-raised turkey in the National Dressed Turkey show at Cincinnati Jan. 8-10.

"I should in all fairness warn you," the Ohio governor wrote Williams, "that Ohio has been preparing for this contest, and I believe Ohio grows the finest and largest turkeys in existence."

"However, should you doubt this, I want to give you ample notice not to send anything but your largest and finest. The officials of the Ohio Turkey Association tell me that their big worry now is to slow down our special entry in order to keep the contest from being a runaway for Ohio."

In accepting the challenge, Williams sent back as good as he got, complaining he understood the show would be limited to birds weighing "a trifling 69 pounds."

"I refer, of course," the governor

wrote, "to our turkey Michiganus Gigantus. This fine bird stands many hands high, in three whiplike trees across the breast and carries marine diver's weights on its feet as standard equipment to keep it from soaring to altitudes at which it might be mistaken for the flying boxcar type of aircraft."

"We shall immediately put one of our midget birds on a rigorous slenderizing diet," Williams wrote, "to reduce its weight to a point where it will be competitive with Ohio's biggest and best."

Combustion Causes \$60,000 Barn Blaze

Combustion was blamed today for a \$60,000 fire which destroyed a barn in Brandon Township Monday afternoon.

The announcement was made by a spokesman for the Oxford Fire Department which extinguished the blaze aided by the Brandon Township unit.

He said the fire apparently started somewhere in the hayloft.

The barn was on the G. A. Bass farm at 631 Hurd Rd. Lost in the blaze were a wheat combine, 3,000 bales of straw, and 30,000 bales of hay.

Race Track Tout Gives Policemen Double Lesson

LOS ANGELES (INS)—Two policemen got lessons in the finer points of the law and picking the ponies from Willie (Jockey) Herzog, 72-year-old Los Angeles newspaper vendor.

Pint-size Willie, 4 feet 9 inches, 115 pounds, was arrested for touting plainclothesmen Charles Bestwick and Harold de Maddalena while they stood on his corner, where horseplayers wait for express buses to Hollywood Park.

"If you're going to the track," Willie offered, "I'll give you three angels—Golden One, Cosmo Lea and How Now."

"That'll be two and one-half bucks and if they pay good, come back and see me." Bestwick shelled out, and then arrested Willie. But the district attorney's office refused to issue a complaint. Willie had not broken any law because he had not represented the race or a jockey as "fixed."

And that ain't all. Golden One bumped himself down the wire for a \$7 win payoff and How Now outscamped the rest of the field for a \$15.30 payoff.

Hollywood Headlines

Jayne Looks Glamorous Even With Multicolor Hair

By BOB THOMAS

HOLLYWOOD (AP)—Jayne Mansfield passed the acid test: she managed to look glamorous even while two hairdressers were applying bleach to the roots of her blonde hair.

That is how I found her in the makeup department at 20th Century-Fox, a studio that has been a haven for sensational blondes (Betty Grable, Marilyn Monroe, Sherree North, etc.). Covered with a smock and with her hair a foamy, multishaded mess, Jayne still looked great.

Maybe that's because happiness was written all over her face. When I saw her in New York a year ago, she was yearning to get back to her pink Jaguar and her movie career. I noticed the car

parked outside the makeup building. And there's no doubt that her career is in the pink as well.

"Oh, I couldn't be happier," she said. "The studio is so nice. Just to get me out of the play, they bought it, even though they didn't want it."

How's that again? She explained: "Buddy Adler (studio head) said he didn't want 'Will Success Spoil Rock Hunter.' He didn't think it would be good as a movie. But Frank Tashlin (writer-director-producer) saw my test for 'The Wayward Bus' and flipped."

"He said he had to have me for 'Do Re Mi' and he told Buddy he had a way to like the 'Rock Hunter' script. So they bought the play and got me out of it and here I am. Isn't it wonderful?"

"The clothes in this picture are fabulous," she enthused. "For the first time, people will be able to see that I do have a 40-inch bust and a 21 1/2-inch waist."

Lakeside Homes Community Fall Program Starts

The Lakeside Homes Community Center on Branch street will begin its 1956-57 recreation program Monday night, Leonard T. Buzz, Pontiac Parks and Recreation Dept. recreation supervisor announced yesterday.

The schedule for the program, which runs five nights a week, follows: Mondays 6 to 9—Boys and girls from eight years to 12; Tuesdays 6:30 to 8:30—Boys and girls from 13 to 15; Wednesdays 8 to 10—adults 21 years and over; Fridays 8 to 10—Boys and girls from 19 to 21.

The program, under the direction of Arthur Hooks, consists of dancing, television, table tennis and parties for all teenagers and adults. For those from 8 to 12, organized games will be set up.

Get Air Base Contracts

THULE, GREENLAND—Six Danish contractors and four American construction firms, low bidders in a joint venture, have been awarded a contract totaling \$18,176,000 for construction of air bases for the United States Air Force at Thule and Sondre Stromjord in Greenland.

Grant Two Certificates

Norbert J. Hofman and Herbert G. Parker, city water department workers, have been granted water treatment plant certificates by the State Health Dept. The state requires that all plants be under the supervision of certified operators.

Bing's Girl Hints Romance on Rocks

HOLLYWOOD (INS)—Kathy Grant, reportedly engaged to crooner Bing Crosby returned to Hollywood indicating she and Crosby had a tiff.

She said on her return from Pebble Beach where she was Crosby's house guest:

"I am going to stick to my career and make it the most important thing in my life." She immediately accepted a movie role and left for Oklahoma yesterday for the filming.

Bakery Owner Fined in Food Law Violation

A co-owner of a Pontiac bakery yesterday pleaded guilty to violation of state food laws and paid a \$25 fine imposed by Pontiac Municipal Judge Maurice E. Finnegan.

Alex Thomas, 40, 502 W. Ironquils Rd. pleaded guilty to offering bread for sale without the true weight printed on the package. The charge was brought by the Michigan State Food Inspector, James McCollum.

Research indicates that 75 per cent of chronic diseases of the aged are partially or completely controllable, but rehabilitation is seldom attempted.

Regular air service may soon link Stockholm and Warsaw, via Copenhagen.

Students Can't Read or Spell

Congressmen Ask Why Many in High School Got There

WASHINGTON (U) — Rep. John Bell Williams (D-Miss) indicated today he wants to determine why some Washington students are reaching high school without mastering reading and arithmetic.

Williams is a member of a House subcommittee investigating Washington's racially integrated schools.

Teachers and principals have testified that some students were promoted to junior and even senior high school although their mastery of basic subjects was as low as third or fourth grade level.

Badly unprepared students, witnesses said, came largely but not entirely from previously all-Negro schools.

Miss Lella Prince, 10th grade teacher at Eastern High School, showed the subcommittee some of her students' work yesterday. It included a spelling exercise in which were such examples as "beans" for "thief," "caence" for "receipt" and "pena" for "perceive."

Williams said in an interview "the people have a right to know" what produced such conditions.

Continuing its inquiry into the effects of integration on school academic and disciplinary standards in the last two years, the subcommittee heard from several teachers that they felt more advanced students in their classes were at a disadvantage because so much time had to be spent on the slower learners.

EISENHOWERS VISIT MAMIE'S FOLKS — President and Mrs. Eisenhower and Mr. and Mrs. Joel Carlson, Mrs. Eisenhower's aunt and uncle, stand on the steps of the four bedroom home in Boone, Iowa, where Mamie's mother was born.

Mamie was also born in Boone but in a different house. The Eisenhowers spent the night with the Carlsons.

Ziegler Gets Brunt of Williams Attack

JACKSON (U) — Gov. Williams got up early this morning for a breakfast time blast at his favorite political foe—State Highway Commissioner Charles M. Ziegler.

In a speech prepared for delivery at a Democratic breakfast in downtown Jackson, Williams said Ziegler's highway construction program is dictated "by political expediency, not by engineering experience."

Williams took off on Ziegler's

handling of the U. S. 113 bypass around Jackson, which he said was begun in 1948.

"In most of the work he has done, no provision was made for grade separations so traffic could cross this superhighway on four or five county roads which intersect it."

"Now it appears that traffic on these intersecting roads has grown so that the route will soon have to be torn up again to build overpasses or underpasses."

"Any kind of planning worthy of the name would have meant building the bypass property on the first attempt," he said.

Diaper Is Waterproof

BROOKLINE, Mass. — Diapers that are said to end the need for rubber pants are being prepared for marketing by a Brookline firm. They come in three pieces, with a plastic layer between the inner and outer layers. Reportedly the new diaper can be put on the baby as quickly as the conventional kind.

Average Prescription

NEW YORK — Some 529,000 medical prescriptions were filled last year in drugstores in this country. The average price was \$2.33. New prescriptions accounted for 311,900,000 of the total; there were 217,100,000 refills.

Small Heiress Misses Parents

Told for First Time Since Fatal Accident They Won't Return

CHICAGO (U) — A five-year-old heiress whose parents and her only sister were killed in an automobile accident last summer was told yesterday for the first time her parents have "gone away and won't be back."

Since the accident at Fairmont, Minn., Aug. 22, the youngster, Robin Sher, had not asked for her parents, Dr. L. J. Halpern said, although he said she apparently believed she was an orphan.

Yesterday she asked Dr. Halpern: "Where are my mommy and daddy?" "They've gone away," Dr. Halpern told the child. "They didn't want to go, but they won't be back."

Dr. Halpern said Robin has become a "normal, cheerful" child since entering Michael Reese Hospital Sept. 12. He said she is progressing satisfactorily from injuries suffered in the accident which killed her father, Harold J. 43; her mother, Fritz, 43; and her sister, Lynne, 13.

Robin is temporarily the ward of a court while relatives seek to gain her custody. Her grandparents and two sets of aunts and uncles have asked in Superior Court to be awarded her custody.

Her father retired three years ago as a partner in a wholesale hardware company and the family moved to Miami Beach, Fla. He left an estate estimated at perhaps a million dollars.

Army Reactivates
101st Airborne
for Atomic War

PT. CAMPBELL, Ky. (AP)—The Army shows off today its new atomic-age fighting outfit, the 101st Airborne Division, brought back into existence from its famous days of World War II.

It arranged elaborate ceremonies and demonstrations by its paratroopers and their missile and atomic era weapons to mark formal reactivation of the Screaming Eagle Division—the name coming from the shoulder patch worn by the 101st.

Not only are many of the weapons and techniques of battle new for the division, but its size and organization differ drastically from the outfit which drifted down into battle in Normandy, in Holland and at Bastogne.

Against the 17,500-man strength of standard infantry divisions, and the 13,000 or 14,000 men of other airborne divisions, the 101st has 11,500 men. Instead of the traditional three-regiment core of combat strength, the 101st is made up of five "combat groups"—smaller, more flexible, but with heavy firepower and high mobility in the air and on the ground.

Taken from the Pontiac Press Sept. 27, 1956

DIFFERENT KIND OF ROUNDUP—This Detroit paddy wagon is loaded with good intentions rather than candidates for night court. It's been pressed into use as a roving registration station for voters and is shown as police make an off-the-docket roundup of good citizenship at suburban Melvindale.

Williams Loudly Boasts:

State's Midget Turkeys
Outshow Ohio's Finest

LANSING (U)—Maybe it's because it's an election year. Anyway, the governors of Michigan and Ohio outdid themselves trying to outdo each other in bragging about the turkeys raised in their native states.

Gov. Lausche of Ohio set the tone in inviting Gov. Williams to enter a Michigan-raised turkey in the National Dressed Turkey show at Cincinnati Jan. 8-10.

"I should in all fairness warn you," the Ohio governor wrote Williams, "that Ohio has been preparing for this contest, and I believe Ohio grows the finest and largest turkeys in existence."

"However, should you doubt this, I want to give you ample notice not to send anything but your largest and finest. The officials of the Ohio Turkey Association tell me that their big worry now is to slow down our special entry in order to keep the contest from being a runaway for Ohio."

In accepting the challenge, Williams sent back as good as he got, complaining he understood the show would be limited to birds weighing "a trifling 69 pounds."

"I refer, of course," the governor

wrote, "to our turkey Michiganus Gigantus. This fine bird stands many hands high, is three whiplashes across the breast and carries marine diver's weights on its feet as standard equipment to keep it from soaring to altitudes at which it might be mistaken for the flying boxcar type of aircraft."

"We shall immediately put one of our midget birds on a rigorous slenderizing diet," Williams wrote, "to reduce its weight to a point where it will be competitive with Ohio's biggest and best."

Combustion Causes
\$60,000 Barn Blaze

Combustion was blamed today for a \$60,000 fire which destroyed a barn in Brandon Township Monday afternoon.

The announcement was made by a spokesman for the Oxford Fire Department which extinguished the blaze aided by the Brandon Township unit.

He said the fire apparently started somewhere in the hayloft.

The barn was on the G. A. Bass farm at 631 Hurd Rd. Lost in the blaze were a wheat combine, 3,000 bales of straw, and 30,000 bales of hay.

Race Track Tout
Gives Policemen
Double Lesson

LOS ANGELES (INS)—Two policemen got lessons in the finer points of the law and picking the ponies from Willie (Jockey) Herzog, 72-year-old Los Angeles newspaper vendor.

Pint-size Willie, 4 feet 9 inches, 115 pounds, was arrested for touting plainclothesmen Charles Bestwick and Harold de Maddalena while they stood on his corner, where horseplayers wait for express buses to Hollywood Park.

"If you're going to the track," Willie offered, "I'll give you three nags—Golden One, Cosmo Lea and How Now."

"That'll be two and one-half bucks and if they pay good, come back and see me." Bestwick shelled out, and then arrested Willie. But the district attorney's office refused to issue a complaint, Willie had not broken any law because he had not represented the race or a jockey as "fixed."

And that ain't all. Golden One bumped himself down the wire for a \$7 win payoff and How Now outscamped the rest of the field for a \$15.30 payoff.

Hollywood Headlines

Jayne Looks Glamorous
Even With Multicolor Hair

By BOB THOMAS

HOLLYWOOD (U)—Jayne Mansfield passed the acid test; she managed to look glamorous even while two hairdressers were applying bleach to the roots of her blonde hair.

That is how I found her in the makeup department at 20th Century-Fox, a studio that has been a haven for sensational blondes (Betty Grable, Marilyn Monroe, Sherree North, etc.). Covered with a smock and with her hair a foamy, multicolored mess, Jayne still looked great.

Maybe that's because happiness was written all over her face. When I saw her in New York a year ago, she was yearning to get back to her pink Jaguar and her movie career. I noticed the car

parked outside the makeup building. And there's no doubt that her career is in the pink as well.

"Oh, I couldn't be happier," she said. "The studio is so nice. Just to get me out of the play, they bought it, even though they didn't want it."

How's that again? She explained: "Buddy Adler (studio head) said he didn't want 'Will Success Spoil Rock Hunter.' He didn't think it would be good as a movie. But Frank Tashlin (writer-director-producer) saw my test for 'The Wayward Bus' and flipped."

"He said he had to have me for 'Do Re Mi' and he told Buddy he had a way to lick the 'Rock Hunter' script. So they bought the play and got me out of it and here I am. Isn't it wonderful?"

"The clothes in this picture are fabulous," she enthused. "For the first time, people will be able to see that I do have a 40-inch bust and a 21½-inch waist."

Lakeside Homes
Community Fall
Program Starts

The Lakeside Homes Community Center on Branch street will begin its 1956-57 recreation program Monday night, Leonard T. Buzz, Pontiac Parks and Recreation Dept. recreation supervisor announced yesterday.

The schedule for the program, which runs five nights a week, follows: Mondays 6 to 9—Boys and girls from eight years to 12; Tuesdays 6:30 to 8:30—Boys and girls from 13 to 15; Wednesdays 8 to 10—adults 21 years and over; Fridays 8 to 10—Boys and girls from 13 to 21.

The program, under the direction of Arthur Hooks, consists of dancing, television, table tennis and parties for all teenagers and adults. For those from 8 to 12, organized games will be set up.

Get Air Base Contracts

THULE, GREENLAND—Six Danish contractors and four American construction firms, low bidders in a joint venture, have been awarded a contract totaling \$18,176,000 for construction of air bases for the United States Air Force at Thule and Sondre Stromjord in Greenland.

Grant Two Certificates

Norbert J. Hoffman and Herbert G. Parker, city water department workers, have been granted water treatment plant certificates by the State Health Dept. The state requires that all plants be under the supervision of certified operators.

Bing's Girl Hints
Romance on Rocks

HOLLYWOOD (INS)—Kathy Grant, reportedly engaged to crooner Bing Crosby returned to Hollywood indicating she and Crosby had a tiff.

She said on her return from Pebble Beach where she was Crosby's house guest:

"I am going to stick to my career and make it the most important thing in my life." She immediately accepted a movie role and left for Oklahoma yesterday for the filming.

Bakery Owner Fined
in Food Law Violation

A co-owner of a Pontiac bakery yesterday pleaded guilty to violation of state food laws and paid a \$25 fine imposed by Pontiac Municipal Judge Maurice E. Finnegan.

Alex Thomas, 40, 502 W. Ironquios Rd. pleaded guilty to offering bread for sale without the true weight printed on the package. The charge was brought by the Michigan State Food Inspector, James McCollum.

Research indicates that 75 per cent of chronic diseases of the aged are partially or completely controllable, but rehabilitation is seldom attempted.

Regular air service may soon link Stockholm and Warsaw, via Copenhagen.

Students Can't Read or Spell

Congressmen Ask Why Many in High School Got There

WASHINGTON (U) — Rep. John Bell Williams (D-Miss.) indicated today he wants to determine why some Washington students are reaching high school without mastering reading and arithmetic.

Williams is a member of a House subcommittee investigating Washington's racially integrated schools.

Teachers and principals have testified that some students were promoted to junior and even senior high school although their mastery of basic subjects was as low as third or fourth grade level.

Badly unprepared students, witnesses said, came largely but not entirely from previously all-Negro schools.

Miss Lella Prince, 10th grade teacher at Eastern High School, showed the subcommittee some of her students' work yesterday. It included a spelling exercise in which were such examples as "beans" for "theft," "caence" for "receipt" and "pena" for "perceive."

Williams said in an interview "the people have a right to know" what produced such conditions.

Continuing its inquiry into the effects of integration on school academic and disciplinary standards in the last two years, the subcommittee heard from several teachers that they felt more advanced students in their classes were at a disadvantage because so much time had to be spent on the slower learners.

EISENHOWERS VISIT MAMIE'S FOLKS — President and Mrs. Eisenhower and Mr. and Mrs. Joel Carlson, Mrs. Eisenhower's aunt and uncle, stand on the steps of the four bedroom home in

Boone, Iowa, where Mamie's mother was born. Mamie was also born in Boone but in a different house. The Eisenhowers spent the night with the Carlsons.

Ziegler Gets Brunt of Williams Attack

JACKSON (U) — Gov. Williams got up early this morning for a breakfast time blast at his favorite political foe—State Highway Commissioner Charles M. Ziegler.

In a speech prepared for delivery at a Democratic breakfast in downtown Jackson, Williams said Ziegler's highway construction program is dictated "by political expediency, not by engineering experience."

Williams took off on Ziegler's

handling of the U. S. 113 bypass around Jackson, which he said was begun in 1948.

"In most of the work he has done, no provision was made for grade separations so traffic could cross this superhighway on four or five county roads which intersect it."

"Now it appears that traffic on these intersecting roads has grown so that the route will soon have to be torn up again to build overpasses or underpasses."

"Any kind of planning worthy of the name would have meant building the bypass properly on the first attempt," he said.

Diaper Is Waterproof

BROOKLINE, Mass. — Diapers that are said to end the need for rubber pants are being prepared for marketing by a Brookline firm. They come in three pieces, with a plastic layer between the inner and outer layers. Reportedly the new diaper can be put on the baby as quickly as the conventional kind.

Average Prescription

NEW YORK — Some 529,000,000 medical prescriptions were filled last year in drugstores in this country. The average price was \$2.33. New prescriptions accounted for 311,900,000 of the total; there were 217,100,000 refills.

Small Heiress Misses Parents

Told for First Time Since Fatal Accident They Won't Return

CHICAGO (U) — A five-year-old heiress whose parents and her only sister were killed in an automobile accident last summer was told yesterday for the first time her parents have "gone away and won't be back."

Since the accident at Fairmont, Minn., Aug. 22, the youngster, Robin Sher, had not asked for her parents, Dr. L. J. Halpern said, although he said she apparently believed she was an orphan.

Yesterday she asked Dr. Halpern: "Where are my mommy and daddy?" "They've gone away," Dr. Halpern told the child. "They didn't want to go, but they won't be back."

Dr. Halpern said Robin has become a "normal, cheerful" child since entering Michael Reese Hospital Sept. 12. He said she is progressing satisfactorily from injuries suffered in the accident which killed her father, Harold J. 43; her mother, Fritz, 43; and her sister, Lynne, 13.

Robin is temporarily the ward of a court while relatives seek to gain her custody. Her grandparents and two sets of aunts and uncles have asked in Superior Court to be awarded her custody.

Still Swearing in Solitary Bird Back Behind Bars

DETROIT (INS) — Blackie, onetime star performing Mynah bird of Detroit's Belle Isle Children's Zoo—has cursed his way into an extra stretch of solitary confinement.

A steady flow of profane jabbering from the bird's beak may spell disaster to Blackie's theatrical career at the zoo.

Frank G. McInnis, zoo director, moaned:

"We had hoped to start billing the talking bird again at the zoo before it closes Sunday. But that's out altogether now. And we aren't going to take any chances on putting him on display."

Blackie picked up his cusswords and phrases from zoo employees who did remodeling work around his cage during the summer.

YOU NEVER KNOW

"He's been improving—he doesn't cuss nearly as much anymore," said McInnis, "but you never know when he's liable to pop off with one of those swear words of his."

Red-faced zoo officials put Blackie in solitary confinement last summer when he began spouting the lusty language at wide-eyed children at the zoo.

"We've still got him there (a soundproof cage). We can't let him near any of our other birds or they might pick up the swear words," McInnis said.

Puzzled McInnis added, "Funny thing about this fellow is that he

Filipinos Match Aid

MANILA—Since July, 1950, the United States' nonmilitary aid to the Philippines has totaled more than \$137,000,000, which has been more than matched by Philippine funds. This program followed five years of U. S.-Philippine co-operation.

One Man's Opinion

LOS ANGELES (INS) — Police responded to a pre-dawn emergency call that a new building on Wilshire Blvd. was being destroyed by heavy winds.

They relaxed when they discovered their informant was a wayward drunk across the street who insisted: "I'm all right. The building must be swaying."
