### **Health Communication Study**

The GSC wants to pass along information about a health information study being conducted on safe sex practices:

You are invited to participate in a study exploring how condom use self-efficacy is related to sexual communication and information-seeking behaviors online. You are eligible to take part in the study if you are (a) at least 18 years old and (b) currently involved in an intimate relationship. That relationship may range from friends with benefits (friends who engage in sexual activity without defining the relationship as romantic) to marriage. Please consider one person and one relationship as you complete the survey. The participation time will be approximately 15 minutes.

Questions? Contact Dr. Nick Tatum at [nick.t.tatum@gmail.com](mailto:nick.t.tatum@gmail.com).
