Goldwater, Johnson Select Top Teams on Foreign Policy

WASHINGTON (AP) — President Johnson and Sen. Barry Goldwater, seeming to hit on the same idea at the same time, have mustered some all-star reinforcements for the campaign battles ahead over foreign policy.

The President announced at his news conference yesterday "the formation of a panel of distinguished citizens who will consult with the President during the coming months on major international problems facing the United States."

Crisis Possible in Cuba--Barry

'Dems Use Problems
for Political Benefit'

SEATTLE, Wash. (AP)—Sen. Barry Goldwater said today that he wouldn't be surprised if there is a crisis in Cuba before the November election.

The Republican presidential candidate talked with reporters

PROVIDENCE, R.I. (AP)—GOP vice presidential candidate William E. Miller called on President Johnson today to divest his family of its television holdings. "Certainly no president of the U.S. ought to have a substantial part of his family fortune wholly and solely in a business regulated by the federal government," Miller said.

Goldwater said today that he wouldn't be surprised if there is a crisis in Cuba before the November election.

He was asked today where he thought this crisis might develop.

"It could develop anywhere," Goldwater said. "I wouldn't be surprised if it developed in Cuba."

When he was asked about support given him by Gov. Paul Johnson of Mississippi, Goldwater said he was glad for the endorsement.

ANY VOTE
"A politician is glad to get any vote except that of a Communist," he said.

Goldwater repeated that he expects to continue to hit at foreign affairs in this campaign and, in answer to a question, said he didn't see how any Republican could form a cabinet without considering Richard M. Nixon, the GOP presidential candidate in 1960.

But Goldwater said he hadn't done any serious thinking about a cabinet as yet.

Dora Heads Into Northern Florida

DR. L. A. FARNHAM

Pontiac Doctor Dies at Age 87

Was Noted Surgeon,
Former City Mayor

Dr. Lucius A. Farnham, for 50 years an outstanding physician and surgeon in the city, died last night after a long illness. He was 87.

Service will be at 2 p.m. Friday in Sparks-Griffin Chapel with burial in White Chapel Memorial Cemetery, Troy.

Dr. Farnham, of 230 W. Pike was born in St. Louis, Mich., June 25, 1877.

He was graduated from the University of Michigan Medical School in 1905.

He served the community of Trumantown, Mich., for six years before coming to Pontiac to practice medicine in November, 1911. His office was in the Riker Building.

During World War I, Dr. Farnham was a captain in the U.S. Army Medical Corps.

PONTIAC MAYOR

Dr. Farnham was chosen mayor of the City of Pontiac in April, 1930, after serving as a city commissioner for six years.

He was a member of the staff of Pontiac General and St. Joseph Mercy hospitals, and a life member of the American College of Surgeons.

He held memberships in the American, Michigan State and Oakland County medical associations and became a Fellow of Academy International Medicine.

Dr. Farnham, a member of All Saints Episcopal Church, (Continued on Page 2, Col. 5)

NFO Leader Asks Truce After Deaths

BONDUEL, Wis. (AP)—Death of two National Farmers Organization members under the wheels of a heavy truck and cries of other demonstrators that the driver be lynched brought a call for a truce in the Wisconsin part of a campaign to withhold livestock from market.

Two shooting incidents involving livestock truckers were reported during the night. There were no injuries.

Gov. John Reynolds said last night that Oren Lee Staley, national NFO president, had ordered cancellation of all previously planned Wisconsin demonstrations pending a meeting in the governor's office tomorrow.

Reynolds said Staley has agreed to attend the meeting which was called "to discuss the manner and method by which the NFO can properly conduct its holding action and demonstrations."

★ ★ ★

A Lafayette County livestock trucker told authorities in Janesville that he was followed by two cars across one county on the way to market in Milwaukee late last night and then was fired on five times from the shoulder of a road two miles west of Orlinville, in south-central Wisconsin.

TWO BULLETS

The Rock County sheriff's office said two rifle bullets penetrated the truck and a pig was hit.

The driver, who was not identified, was escorted by police to Milwaukee.

Early today several shots were fired from a passing car in the vicinity of a home of another livestock trucker in Rubicon Township, in east-central Wisconsin.

★ ★ ★

The Dodge County sheriff's office said the bullets apparently did not strike anything.

SENSELESS ACTS

In a statement announcing the conference, Reynolds referred to the deaths Wednesday as "the senseless shedding of blood."

He said "acts of violence (Continued on Page 2, Col. 2)

HURRICANE DORA — A huge piece of debris is blown high over Matanzas Bay at St. Augustine by Hurricane Dora. The walkway in the background leads to a restaurant.

County GOP to Hear Mrs. Romney

Parties Preparing for Contabs

GOP

Michigan's First Lady, Mrs. George Romney, will give the keynote address at Saturday's Republican County Convention at Southfield High School.

The convention is scheduled to begin at 10:45 a.m., according to

Elly Peterson, the first woman ever to be nominated by a major party for the Senate in Michigan, will assist county Republicans tonight in the kickoff of their "Neighbor to Neighbor" finance drive.

Over 300 volunteer workers will gather at Bloomfield Hills Junior High School, 4200 Quenton, at 8 p.m. for the kickoff.

Another order of business at the county convention may be to consider an attack on the very existence of such a convention.

★ ★ ★

Reno P. Varani, of Southfield has challenged the legality of having a county convention now that Oakland County is divided between two congressional districts.

★ ★ ★

Primary purpose of the convention, according to Lyle, is to elect delegates and alternates to the Sept. 19 state convention and to elect 19 members to the County Republican Executive Committee.

★ ★ ★

Frank J. Sierawski, Democratic nominee from the 18th District, will call the convention to order.

The agenda will include selection of 23 district executive board members and four officers to be members of the county executive committee.

★ ★ ★

The Democrats' 19th Congressional District Convention has been tentatively called for 8 p.m. Sept. 16 at the First Federal Savings of Oakland building, 761 W. Huron.

NOMINEE IN 1971

The 19th District nominee, Aud. Gen. Billie S. Farnum, will call the convention to order.

Included on the agenda will be selection of 15 district executive board members from Oakland County.

Four officers, who will be voting members of the county executive committee, will also be named.

★ ★ ★

Last year's goal was \$776,500. It has been increased five per cent this year to \$815,500 to meet expanded needs of the various agencies which receive UF contributions.

Approximately 100 advance gifts solicitors will make some 450 calls on non-industrial firms, individuals and organizations seeking minimum advance gifts of \$100.

★ ★ ★

It is estimated that more than 25,000 Pontiac area families will benefit from the 1964 UF Campaign.

This means that over three out of five families will receive services from agencies supported by the United Fund.

Storm Lashes Jacksonville, St. Augustine

Unofficial Estimates
Say Damages Are
in Tens of Millions

ST. AUGUSTINE, Fla.

(AP) — Hurricane Dora began a thunderous trek across northern Florida today after smashing at St. Augustine and Jacksonville with a giant sledgehammer of wind and tide.

The storm, somewhat diminished but still massive after its abrasive collision with the northeast Florida coast, sent its gales whistling westward toward Florida's panhandle and northward up the Atlantic coast to South Carolina.

Brunswick, Ga., a report city about 100 miles north of St. Augustine suffered its worst pounding in 20 years from a five-foot tide and gusts that shattered windows, ripped roofs and toppled trees at 85 miles an hour.

Unofficial estimates put damage so far in the tens of millions.

In the hurricane's path were southern Georgia, numerous cities along the northeast Gulf coast of Florida and all that lay between, including Florida's capital of Tallahassee.

Gov. Farris Bryant of Florida, given emergency powers by his cabinet, said he would ask the federal government to declare the Jacksonville-St. Augustine region a disaster area.

★ ★ ★

"I've lived in Jacksonville all my life, and my dad lived here all his life, and this is the worst storm either of us ever saw," said contractor Francis P. L'Engle.

Water flowed hip deep in the ancient slave market square in the heart of picturesque St. Augustine, the nation's oldest city and the home of 15,000 persons.

★ ★ ★

See Page B-1

★ ★ ★

GIANT OAKS

Giant oak trees that have weathered tempests through the centuries were uprooted. Most streets were inundated. Power was out.

In Jacksonville—a city of 250,000 with a modern, gleaming skyline—homes were unroofed, streets flooded, power lines, poles and trees tossed to the ground in a tangle.

Where tides did not reach to damage buildings, torrential rains lashed by the shrieking, moaning winds did. Hundreds of (Continued on Page 2, Col. 4)

MSU to Start Medical School

Kellogg Foundation
Grants \$1.25 Million

BATTLE CREEK (AP)—W. K. Kellogg Foundation has granted Michigan State University \$1.25 million to create the state's third medical school.

The grant, announced by the foundation today, is to develop a two-year College of Human Medicine at MSU over the next five years.

The foundation said \$925,000 of the grant will be used to put a program of preclinical medical education into effect at MSU by planning a curriculum, acquiring a faculty and designing a medical building.

The remaining \$625,000 is to be used for construction of a medical building.

Currently, the only medical schools in state-supported universities are at the University of Michigan and Wayne State University.

The foundation, in choosing MSU for the grant, cited a report by the Michigan Coordinating Council for Public Higher Education. The report, Kellogg said, "recommended that a center be established at a university in Michigan to coordinate the medical schools which should be provided" at MSU.

UF Committee Gets \$15,842

Two checks totaling \$15,842 United Fund Campaign, at the time presented this morning at the Advance Gifts Kickoff. Breakdown: John A. Riley, Advance Gifts last. The annual breakfast program

was held at Club Overdrift in the Community National Bank Building and was sponsored by CNB.

A check for \$12,542 in behalf of Community National Bank and its employees was presented by CNB Vice President Gordon McLeod.

Richard M. Fitzgerald, Pontiac Press controller, presented an advance gift check of \$3,300 from The Pontiac Press Company.

Riley told the group of about 40 advance gift solicitors that the goal is to at least meet last year's advance gifts total of \$102,581.

★ ★ ★

OTHER SPEAKER

Also addressing the advance gift workers was Bruce Annett, general chairman of the UF campaign, who reminded them of the higher goal set this year for the total drive.

★ ★ ★

It is estimated that more than 25,000 Pontiac area families will benefit from the 1964 UF Campaign.

This means that over three out of five families will receive services from agencies supported by the United Fund.

UP ADVANCE GIFTS — John A. Riley (left), Advance Gifts Chairman for the 1964 Pontiac Area United Fund, accepted a check this morning from Gordon McLeod, vice president of Community National Bank, as Bruce Annett, general chairman of the UF Campaign, is handed the advance gift check from the Pontiac Press by Richard M. Fitzgerald (right), Press controller. The two checks were presented at the Advance Gifts Kickoff Breakfast.

'Viet Anti-Reds Gain Strength'

WASHINGTON (AP) — Ambassador Maxwell D. Taylor has told Johnson administration leaders that anti-Communist military forces in South Viet Nam are growing in strength and efficiency at a faster rate than the Red Viet Cong guerrillas, it was reported today.

Taylor, however, has also told conferees here that he does not think the U.S.-supported Vietnamese are going to achieve victory over the Red guerrillas

by military means in the foreseeable future.

Officials said, therefore, that Taylor would not rule out negotiations aimed at ending the fighting in the South. He is represented as believing a situation may be brought about—apparently by increasing anti-Communist military pressures—in which Communist North Viet Nam will decide it has to negotiate a peace settlement in order to save itself.

Officials said Taylor's view is that no war ever stops without negotiations.

IN CONFERENCE
The U. S. envoy to Saigon returned here Monday and has been consulting with President Johnson and other officials.

He had closed session dates today with the Senate Foreign Relations and House Foreign Affairs committees and planned to start his flying journey back to Southeast Asia tonight.

The agreement among Johnson

administration policy chiefs as a result of the Taylor meetings, officials said, is that the first need in South Viet Nam is a strong government.

Contingency plans have been made for a variety of operations, including air strikes against the Communist jungle supply trails from the North.

MAJOR EFFORT

In South Viet Nam itself, the major concentration of effort, will begin a drive at Ford Motor Co. tomorrow for the equivalent or better.

Taylor reviewed with officials here the state of preparations for the Saigon drive, which is to be a combined military, political and police action to take and hold a large secure region around the capital.

Taylor gave the President a generally optimistic report, centered on his view and that of Gen. William C. Westmoreland, ranking U. S. military adviser in South Viet Nam, that the power and resources of the anti-Communist government forces are steadily increasing. Johnson said Wednesday night that Taylor had reported "continued progress."

Officials said, however, that Taylor also talked about an upward turn in the efficiency of the Viet Cong Communist guerrillas.

"The guerrillas' support comes from Communist North Viet Nam, however, and Taylor is said to believe the North Viet

Reuther Sights Aimed at Ford

UAW Expected to Push Chrysler Pact

DETROIT (AP) — United Auto Workers President Walter P. Reuther, with a Chrysler agreement which he estimated to be worth 54 cents an hour over the next three years, will begin a drive at Ford Motor Co. tomorrow for the equivalent or better.

From Ford, Reuther said he

See Stories, Page C-6

would proceed to General Motors Corp.

The union is expected to demand the same pattern in including a possible pension in 1965 of up to \$400 a month at age 60 — from American Motors Corp., scores of supplier plants and the agricultural implement industry.

The Big Three of General Motors, Ford and Chrysler employ more than a half million U. A.-represented workers. Their contracts often set national patterns.

Most significant gains at Chrysler were in areas of earlier retirement, where workers would get a bonus for quitting at 60 instead of 65, and in higher pensions generally.

The union, however, managed to hold on to annual wage boosts and a cost-of-living escalator and to gain company payment of full hospital-medical insurance premiums for retirees, as well as workers.

Noted City Doctor Dies After Illness

(Continued From Page One)

was one of 22 charter members of Pontiac Rotary Club and a past president of the club. He served as vice president of Pontiac Community Finance Co. and Community Loan Corp.

On Sept. 21, 1916, he married the former Edwina Daniell of Calumet. She survives as do a son, John of Kenosha, Wis.; a daughter, Mrs. Margaret Harbaugh of Orchard Lake; a sister, Miss Frances Farham of Ypsilanti; and six grandchildren.

Demands 'Extra Pay'
SAN JOSE, Calif. (UPI) — A kindly stranger came to the aid of busy service station attendant Abraham Vargas early yesterday and cleaned windshield shields until all the customers were gone.

Then the stranger pulled a gun and robbed Vargas of \$50.

Birmingham Area News

OU Offers Special Courses

BIRMINGHAM — Oakland University this fall is offering two courses at the Community House.

Problems of Literary Censorship will be taught by Dr. Richard E. Quaintance.

The 10-week course starting Oct. 1 will provide an opportunity for discussion of the controversial relationship of pornography, cultural awareness and public welfare.

Among the examples to be studied are "The Carpetbaggers," "Who's Afraid of Virginia Woolf?" and "Catcher in the Rye."

Quaintance will explore the belief that early exposure to good literature will outweigh interest in other types.

COURSE HOURS

The discussion course will meet from 7:30 to 9:30 p.m. Thursdays.

W. W. Kent Jr., who holds a master's degree in music, will teach music appreciation for 10 weeks.

Recordings of music representing various periods in history will be used.

Included will be a study of musical thought, style and structure, their sociological and philosophical implications and contemporary parallels.

The 1-3 p.m. course will begin Sept. 30.

Registrations now are being accepted for these and the 34 other courses at the Community House.

Theme of the Community

Will-O-Way estate on West Long Lake Road in Bloomfield Township has been sold and subdivided.

The 34-acre parcel will provide one-half acre homesites, according to G. Gordon Walker, executive vice president of the Howard T. Keating Co. of Birmingham, realtors for the development.

The residential community just east of Telegraph is to be known as Will-O-Way Estates, with houses priced from \$48,000.

An access route from Ranch Lane and Lone Pine Road to West Long Lake Road now is under construction.

In selling the property, the Merrill family retained adjacent and on which the family home and the Will-O-Way apprentice theater and school are located.

House this year is "Using Leisure Creatively."

BLOOMFIELD HILLS — Dr. Edgar T. Wherry, recognized world authority on phlox and ferns, today was awarded the Mary Soper Pope Medal by Cranbrook Institute of Science.

Dr. Robert T. Hatt, institute director, presented the medal to Dr. Wherry on the occasion of his 70th birthday.

Dr. Wherry is retired professor emeritus of the University of Pennsylvania.

DR. WHERRY

vanias department of botany. The botanist drew attention to problems of habitat, soil acidity and peck formation in relation to plant growth and distribution.

He published "Guide to Eastern Ferns" in 1942, "Wild Flower Guide" in 1948 and "The Fern Guide" in 1961. The series is to be completed soon with publication of "Southern Fern Guide."

The Mary Soper Pope Medal was established by the late Gustavus D. Pope, an institute trustee, in memory of his wife. First awarded in 1947, the medal was struck by sculptor Marshall Fredericks.

1965 BUICK WILDCAT — A longer hood, with lower, longer rooflines and short rear deck characterize the 1965 Buick line unveiled today. The Wildcat keeps the line and is powered by a 401-cu-inch, high-

compression V8 engine with four-barrel carburetor. A Super Turbine 400 torque converter transmission or four-mounted four-speed gear box are optional on the Wildcat.

Baker Case Revived by Payoff Charge

WASHINGTON (AP) — A Senate investigation of an alleged \$35,000 political payoff by Matthew H. McCloskey, former ambassador and Democratic fund raiser, was in the making today in a revival of the stormy Bobby Baker case.

But Democrats and Republicans were divided over whether the probe should be conducted by the Senate Rules Committee or the Government Operations Committee.

A Senate vote late in the day was in prospect.

RULES COMMITTEE

The Democratic leadership threw its weight behind a resolution to turn the job over to the Rules Committee, which Republicans have accused of whitewashing an investigation into Baker's money-making deals while he was secretary to the Senate's Democratic majority.

Sen. John F. Williams, R-Del., who leveled the payoff charge in a Senate speech last week, said he had "no confidence whatever" in the Rules Committee and offered a substitute resolution directing the Government Operations Committee to conduct the inquiry.

The Operations Committee is

headed by one of the Senate's best known investigators, Sen. John L. McClellan, D-Ark.

Williams said an investigation by the Rules Committee, unveiled by Sen. B. Everett Jordan, D-N.C., would result only in "another batch of whitewash."

Jordan has denied any whitewash of the Baker case and contended the Republicans wanted to prolong the investigation in hopes of making political capital for this year's election campaign.

NFO Leader

Calls for Truce
(Continued-From Page One)

will not be permitted within the state of Wisconsin."

Staley said at NFO headquarters in Corning, Iowa, that the deaths were tragic.

He added, "They should serve as a symbol for greater effort on the part of farmers in an orderly and determined manner to price their products at the market place."

Buicks Reveal Riviera Styling

The influence of Riviera styling, featuring sloping roof lines, longer, lower hoods, shortened rear decks and high-crown rear fenders, dominated the theme of the new line of 1965 Buicks unveiled today.

Edward D. Rollert, Buick's general manager, said the firm will market 39 models in its 1965 line, including six in the Special and Special Deluxe series; four in the Skylark; seven different LeSabres; ten Wildcats; seven Electras and one Riviera model.

The new Buicks will go on display Sept. 24 at Oliver Motor Sales, Inc., 210 Orchard Lake Ave.; Homer Hight Motors, Inc., 160 S. Washington, Oxford; Al Hanouti, Inc., 209 N. Park, Lake Orion; Shelton Buick Buick, Inc., 223 Main, Rochester; and Fischer Buick Inc., 515 S. Woodward, Birmingham.

All regular-sized models — Electra 23, Wildcat and LeSabre — have new, wider bodies with curved side glass.

By repositioning the rear wheels in these models, several inches of additional passenger room has been gained.

The Skylark and Electra series both have "wall to wall" tail lights, a wide horizontal strip running the width of the car.

The Riviera boasts headlamps which disappear behind the fender grilles when not in use.

A new "notch-back" seat, combining the appearance of bucket seats with the utility of bench seats, is available in Wildcat and Electra models.

In addition to standard size models, Buick will market two six-passenger versions of a new sportswagon, featuring the panoramic sky roof.

Retired VP of Ford Dies at Age 62

Dwillard J. Davis, 62, former Ford Motor Co. vice president, died yesterday after an illness of several months.

Mr. Davis, 398 S. Glenhurst, Birmingham, retired in 1960 after 10 years with Ford Motor Co. He had been chief engineer with the Avco Corp. and Chief tool engineer with Cadillac Motor Division, General Motors Corp.

He was a member of the Detroit Athletic Club, the Detroit Yacht Club, Clinton River Boat Club in Detroit, the Society of Automotive Engineers and the Automotive Society of Tool and Michigan Engineers.

Surviving are his wife Phyllis; two sons, Kenneth C. and Donald, both of Detroit; four grandchildren; and a brother.

Service will be 10:30 a.m. Saturday at Bell Chapel of the William R. Hamilton Co., Birmingham, with burial following in Acacia Park Cemetery, Southfield.

WASHINGTON (AP) — Former South Viet Ambassador Henry Cabot Lodge said today there is a possibility of bringing nine or 10 more nations into Viet Nam for assistance purposes of a nonmilitary nature.

Lodge, who was assured by Belgium, the Netherlands, West Germany, Spain, and the United Kingdom.

Nam leadership may be brought to a position where it recognizes it is paying a high price to keep the guerrilla operation going and is risking its own existence with a declining chance of success.

In that situation, officials said, Taylor believes it would be a mistake for the United States to stick to the notion that negotiations would mean only a U. S. withdrawal from South Viet Nam. He has spoken here of negotiation for the "end of the insurgency."

On the political side, Taylor is understood to have made clear that Buddhist political power in South Viet Nam has been given up. Officials said that from the U. S. point of view, most of the Buddhists look more like politicians in priestly robes than religious leaders preoccupied with spiritual concerns.

Premier Nguyen Khanh, who has strong U. S. support, is now trying to organize the machinery for creating a new representative and constitutional regime patterned on the presidential system, with separate legislative and judicial branches.

Taylor is skeptical that Khanh can achieve his first goal of setting up within two months a council of national security to organize the new government. Taylor believes, however, that Khanh will have the time he needs for that task, even if he is unable to meet his own deadlines.

Dora Moves to N. Florida

(Continued From Page One)

homes had wind-driven rain on their floors.

At 7 a.m. Pontiac time, Dora was centered about 20 miles southwest of downtown Jacksonville, moving erratically toward the west or west-northwest at 7 m.p.h.

The Weather Bureau advised that more battering was to come.

Rains of 10 to 35 inches were predicted for the rest of northern Florida and southeastern Georgia, producing flooding in rivers and streams, some severe.

Hurricane warnings flow as far as Charleston, S.C., with gale warnings up to Myrtle Beach, S.C., and along the Gulf Coast of Florida from Sarasota to Apalachicola.

"We think the storm will go up through the center of Georgia," said a forecaster at the National Hurricane Center in Miami. "That would take some of the steam out of it."

Prohibitionists Set Court Fight

KALAMAZOO (AP)—The Prohibition party said Wednesday it plans a court fight against state laws which make it impossible to vote for the party's presidential candidate in Michigan this fall—even by write-in.

The party failed both tests for getting its name on the 1964 Michigan ballot.

It didn't have a candidate in the last election who polled at least 1 per cent of the vote cast for the successful secretary of state candidate. And it didn't gather enough petition signatures.

Michigan election officials said party members could write in the name of their presidential candidate, Hillsdale College professor E. Harold Munn, under another party's name.

OTHER PARTY
But under the electoral college system, they said, the votes still would go for that other party's presidential electors. The Prohibition party seeks a way to write in its own slate of presidential electors—for which no space is provided on the ballot. The party's executive committee said a slate of electors will be named at the party's state convention Sept. 19, before legal action is taken. Dr. D.D. Gibbons of Kalamazoo, state party chairman, contends Michigan law "disfranchises thousands of Michigan's citizens who cannot conscientiously support the two major parties."

It's His New Hobby

Boyle's Willing to Take His Medicine

By HAL BOYLE

NEW YORK (AP) — Every body should have a hobby. I have what I consider the ideal hobby.

My hobby is taking medicine. It is the greatest sport of the 20th century.

To ski you have to have snow or water. To golf you need a golf course. To hunt you need a gun and something that will run from you. To fish—well, at least you need a hook and a lot of patience.

But to take medicine all you need is — medicine. There are thousands to choose from, and scores of new ones come on the market each year.

You can make the hobby as expensive or inexpensive as you choose.

SAMPLE MEDICINE

The fellow who wouldn't lend you a dime to keep you from starving is glad to let you sample his medicine.

As a beginning hobbyist, you may try to take any and all kinds of medicine. This is the mark of the overzealous amateur. To him there is no difference between a medicine to rid one of

tapeworms and a liniment to soothe a sprain.

A true connoisseur learns early to specialize. You can choose medicines designed to cure or alleviate specific ailments — such as colic, colitis, chromium deficiency, or the common cold.

Still Searching for Meteorite

SEQUOIA NATIONAL PARK, Calif. (AP) — A scientific team spent another fruitless day in their search for a meteorite which blazed across the sky Sept. 3, before crashing to earth in a remote region of Sequoia National Park.

The team of Griffith Park Observatory staff members, headed by Ronald Orti, is racing the clock, hoping to find some fragments of the celestial body before minerals and water contaminate them.

Scientists reported they doubt the meteorite, which looked like a brilliant magnesium flare, could have survived impact with the earth intact. Several campers in the park told of hearing explosions on the night the object was sighted.

You can confine yourself to liquid medicines, capsules, pills, pellets, or medicines which fix when you put them into water.

You can even specialize in medicines of a certain color, several colors, those which have either a picture on the bottle, or those restricted purely to printed matter.

SAVOR TASTE

There also are hobbyists who will only take medicines that taste either bitter, sweet, sour, or simply awful. Those whose only joy lies in savoring awful-tasting medicines are thought by other hobbyists as suffering from childhood guilt complexes, and are rather looked down on.

I decided to specialize in wonder drugs. The wonderful thing about many a wonder drug is its aura of romance and mystery.

"Wonder what I've got here," mused the chemist who first discovered it. By being among the first to taste it, you may be the pioneer to answer his question.

Even if it turns out only to be another cure for the hiccup, you've had the excitement of

daring the new, of being at least a footnote in the long story of medical progress.

Taking medicine as a hobby has a distinct social advantage. It makes you the life of any cocktail party.

People are bored with the conversation of skiers, golfers, sailing enthusiasts and African safari survivors. But they throng around me excitedly when they find out that my hobby is taking wonder drugs.

"What's the one that does you the most good?" they invariably ask.

"Aspirin," I have to admit.

Japan Prime Minister Treated at Hospital

TOKYO (AP) — Prime Minister Hayato Ikeda of Japan is in the National Cancer Center Hospital in Tokyo for treatment of what doctors call a non-cancerous throat ailment.

Ikeda's personal physician described Ikeda's condition as chronic laryngitis, probably resulting from fatigue. Ikeda is expected to remain in the hospital two weeks.

State Pickle Firm Head Says Full Pay for Pickers

BUFFALO, N.Y. (AP) — The president of an Edmore, Mich., pickling company said Wednesday that some 300 Puerto Rican and Mexican farm workers — to whom he said he owes \$21,367 in back wages — would receive "every cent coming to them."

Isaac Miller of Buffalo said he voluntarily went into bankruptcy to pay the 258 Puerto Ricans and 73 Mexicans who were left stranded Saturday when their normal pay day was missed and the company office was closed.

The Puerto Ricans were flown home at their government's expense Wednesday.

In Cleveland, the U.S. Department of Labor Office of Farm Labor Service said it had arranged to transport the Mexicans home. All will be paid for work done, said Ralph A. Strong, regional director.

NO FUGITIVE

"I am not a fugitive," Miller said. "I was working on the (bankruptcy) petition papers for 2½ days."

Miller last was seen in Edmore last Friday. He said he was in Grand Rapids Tuesday.

Once a U.S. District Court disposes of the bankruptcy action, Miller said, the migrant workers will receive their back pay on a piecemeal basis.

He said the Puerto Ricans were due \$30 to \$70 each and the Mexicans about \$95 each.

COURT PAPERS

Papers filed with U.S. District Court in Grand Rapids Tuesday showed the I. Miller Pickle Co. had liabilities of \$938,781 and assets of \$1,435,332, mostly in

real estate, stock and machinery.

Last February, the company petitioned in the same court for an arrangement under the federal bankruptcy act to pay creditors by stipulated amounts. Miller listed liabilities then of \$2.4 million and assets of \$1.4 million.

The company moved to Edmore in 1958 after operating six years in Brocton, N.Y., and previously in North Tonawanda, N.Y.

new cream moisturizes,
lubricates skin—even
fades weathered
brown spots

ESOTÉRICA

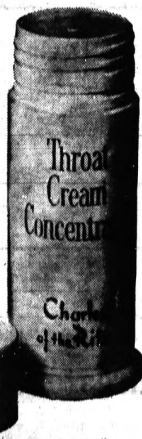

3 months' supply \$2⁹⁹
7 oz. economy size \$4⁹⁹
*plus tax

Weathered brown spots on the surface of your hands and face tell the world you're getting old—perhaps before you really are. A new cream called Esoterica fades them away, as it moisturizes, lubricates the skin. Masses of pigment break up, roughness disappears, your skin looks clearer, younger. Esoterica works equally well on hands, face, arms and neck. Makes a trustworthy 50-year-old laboratory, it is featured by leading department stores and drug stores. If you want your skin to be free of these blemishes, fairer, younger looking, begin using Esoterica today. \$2.00 for 90-day supply.

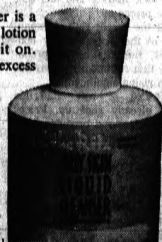

Charles of the Ritz introduces a facial for the throat:

Throat Cream Concentrate treats your entire throat as though it were your face... thoroughly and tenderly. It's a treatment and massage in one convenient swivel stick. It lubricates for a smoother look. It helps stimulate surface circulation for rosier color. Massage it up and down. Leave it on one half hour. When you feel it tingle, you'll know it's working. \$5.00 plus tax.

Charles of the Ritz introduces the new young way to remove make-up:

Oily Skin Liquid Cleanser is a creamy, lemon-scented lotion for oily skin. You put it on. It removes make-up, soil, excess oil. You wash it off with a wet cloth. Your face is thoroughly cleansed. Simple. Fast. It costs \$3.00 or \$5.00, depending on the size. Prices plus tax.

Urban Renewal Areas Need New Businesses

A paramount question that has nagged leaders and supporters of urban renewal projects the country over is whether in the final analysis private enterprise will pick up the available ball of opportunity and run with it.

Obviously, the Federal and municipal partnership in local redevelopment stops with the acquisition and clearance of substandard complexes of property and their proffer to entrepreneurs on an attractive basis.

Because the urban renewal concept is so comparatively new, no communities can give concrete evidence of the efficacy of it. Pontiac is as far advanced in the physical aspects as the majority of municipalities that have embraced the program, and in a very real sense can be considered one of the pioneers.

But citizens doubtful of the ultimate success of urban renewal will find reassurance in the experience of Chicago, one of the early subscribers to the plan.

That city, like many others, was faced with an exodus of dwellers and business establishments to suburban areas, with resultant drop in assessed tax valuations and tax revenue.

Beginning in 1947, with a private conservation project, more than \$36 million was spent in city, state and Federal funds during the next 10 years.

Now, 30 projects later, city officials estimate that the redevelopment, which extends into almost every part of the city, eventually will increase the valuation of the involved real estate by more than \$45 million.

An official estimates the increase in tax yield from the property involved at 115 per cent since urban renewal programs were initiated. The city should be able to pay off the millions invested by 1975, he says.

It is well to bear in mind that the countryside condition of decay of central business and residential areas that led to the creation of the urban renewal authority did not evaporate overnight. The downward trend could be measured in decades.

The timeless aphorism "that Rome was not built in a day" was never more applicable than to communities grown impatient over absence of discernible progress in rebuilding conceptions. But the local picture shows signs of progress. With the completion of the perimeter road, a key factor in our urban renewal project, the expansion of the civic center and growing interest on the part of investment capital in commercial development, the long-awaited modernization of downtown Pontiac should soon take the form of brick and mortar.

Some Facts Say Jobs Made by Automation

No angry crowds of dispossessed workers have yet broken into a factory and smashed a computer, as Englishmen did when the first spinning machines were introduced in the 18th century. Nor are they likely to.

Yet the prospect of automation taking over all unskilled or routine jobs is frightening to

many people. If they could postpone the day, they would.

A frequent reply to doubts about the benefits of mechanization is that the same thing will happen that has happened throughout the Industrial Revolution: the new machines will eventually create more jobs than they eliminate.

Whether this will prove true in the age of automation remains to be seen. There are some facts, however, that indicate it will.

One broadcasting network, for instance, has announced that it will put a new electronic computer into operation on election night this year. Including every- one assembling information to be programmed into the master brain, the efforts of no less than 600 people will be required for the care and feeding of this one electronic thinking machine.

One might wonder whether the next step in computerized election coverage will be a robot that will pick voters' brains in advance of voting, thus saving need for physical appearance at the polls.

Need Scorecard for '64 Campaign

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON — The presidential campaign is on its way — but you'll need a score-card to keep up with the two candidates: President Johnson and Sen. Barry Goldwater.

Before a Labor Day rally in Detroit Monday, Johnson called for unity, which is what the Democratic platform called for two weeks ago. But Johnson made headlines with a not-new attack on Goldwater.

He shouted "No president of the United States can give up responsibility for deciding when or if to use nuclear weapons." The Democratic platform already had said the President alone must control the use of nuclear weapons.

Last Aug. 25 in Cleveland, Goldwater made a suggestion to the Veterans of Foreign Wars which wasn't new with him, either, that the NATO allies should be given their own stock of "small, tactical, nuclear weapons, what truly may be called conventional weapons and the NATO commander should have more control over them." Goldwater had said that before.

But Johnson answered Monday: "Make no mistake, there is no such thing as a conventional nuclear weapon." His administration had answered Goldwater on that before.

Two days after Goldwater's August talk to the veterans, Cyrus R. Vance, deputy secretary of defense, told the same group that to call tactical nuclear weapons small and conventional is "dangerously misleading."

SEVERAL TIMES AS POWERFUL
He said the typical tactical nuclear weapons have several times the yield of the single bomb which destroyed Hiroshima and that "the largest blockbusters of World War II are like hand grenades" compared to the support weapons in the hands of a single infantry division today.

Following the two sides on the subject of the draft is dizzy business.

When Adlai E. Stevenson was the Democratic presidential candidate in 1956, he suggested the draft "be ended at the earliest possible moment."

President Dwight D. Eisenhower fired back: "I see no chance of ending the draft and carrying out the responsibilities for the security of this country that must be carried out."

In 1956 Goldwater challenged Stevenson to be specific on how he planned to cut taxes, reduce the national debt, and end the draft. He said Stevenson had called for an adequate defense but would end the draft.

Changing Of The Guard

David Lawrence Says:

Businessmen Action No Surprise

WASHINGTON — Why should it occasion so much surprise when a score or more prominent businessmen form a group to work for the election of President Johnson in November?

Is it assumed that businessmen always think alike on LAWRENCE matters of public policy and that in the past they have unanimously supported the Republican party?

Unquestionably the preponderant number heretofore have been on the Republican side and probably still are. It nevertheless seems to be news when anybody in big business says he prefers to see the present administration continued.

Hence much discussion has ensued among businessmen themselves as to why there not only are "defectors" but that they seem willing to draw attention publicly to their preference.

All sorts of reasons are advanced in explanation of the phenomenon.

For one thing, many businessmen who feel that the economic situation is rosy today don't want to see any change which they think could "rock the boat."

Others believe that if businessmen of prominence like themselves line up with the administration, a responsibility will be imposed upon the latter to exercise restraint on labor union policy.

WORTHWHILE CONTRACTS
It is being suggested, too, that with \$100 billion to spend every year, the present administration has many worthwhile contracts to hand out for defense and other public projects in which awards are not always made to the lowest bidder.

There are, of course, businessmen who are liberals at heart—more of them than there were 25 years ago. They grew up under the New Deal and have come to accept big government as essential to American economic expansion.

Then there are other businessmen who feel that the emergence of big government has made necessary the enlargement even of what is known as big business.

Unfortunately for some of these businessmen, the Department of Justice still thinks the antitrust laws can be construed arbitrarily to give the government the right to decide not just what is a monopoly but what is "big" or "too big."

ANTITRUST SUITS

There is hardly an industry that hasn't a few antitrust suits pending against its members in the courts or being prepared through the investigations of the Department of Justice.

Certainly under all such circumstances, it is consid-

ered wise by some businessmen to play ball as far as possible with the incumbent administration, especially if it seems likely to continue in office.

The regulatory authority of the federal government, moreover, is extensive today.

The Federal Communications Commission has the power of life or death over radio and television stations. Tariff rates and the regulation of imports are handled by federal commissions and departments. These matters can make quite a difference

on the profit-and-loss side of a business.

The penetration of government into business is growing, and many businessmen want a friend at court whenever they can get one.

All this can prove largely irrelevant in the matter of total votes. For the top business executives in America constitute a relatively small percentage of the vote in any state.

The important fact to be borne in mind, however, is that business conditions are today good for most businesses.

(Copyright, 1964, New York Herald Tribune Syndicate, Inc.)

Bob Considine Says:

Arlington Tourist Attire Arouses Reader's Wrath

NEW YORK — The reader's right to write about my father's burial service last month in Arlington National Cemetery, I own.

"The cemetery was crowded with thousands of tourists who had come to Arlington to visit the grave of our beloved President Kennedy and the Tomb of the Unknown Soldier."

CONSIDINE knows. The burial service in Section 35, Grave 1066, was simply an "added attraction."

"I did not object to the hundreds of persons who lined the road even though many of them were recording our personal grief with their cameras. I was not a movie camera. I was a tourist. I was a fan."

"Nevertheless, I was shocked to see the number of women in such unbecoming attire as shorts, tight Capri pants, slacks and even one with a halter and bare midriff before her short shorts."

"My father served our country during three wars, WW I, WW II and the Korean War. I think that he and the hundreds of other men and women buried in Arlington deserve more reverence and dignity."

"Arlington is a sacred place and why women are permitted half-dressed is beyond me."

Me, too, sis.

The service wives keep writing, in the wake of a long gripe from one of them printed in this space a few weeks ago. Most of the gals seem happy with their lib, most disagree with my gripe.

ways thought a person gets back just what he gives out.

"We are the intruders here and these island people were born here and are certainly entitled to any preference they may get. We are here for three years at the most, some tours only for two years, but I fail to see where halos are due for any special considerations."

"I was so tickled to get the chance to tour in Hawaii I never once thought about anything else except how nice it must be here and, frankly, I love it. I plan to retire here in Hawaii. I'll always be grateful to the Air Force for sending us here."

In Washington:

Inflation Threatens Year Ahead

By RAY CROMLEY
WASHINGTON (NEA) — A sharp step-up of U.S. military effort in Viet Nam would add to the inflation pressures now building up in the American economy.

Already, some economists are talking about the possibility of an "unhealthy inflationary spending boom" this fall and next year.

These men note: "The federal tax cut was so arranged that its major effects will come late this year and early next spring."

Take this delayed reaction to the 1964 tax reduction. Then add a general anticipation of next year's installment. Throw in a tendency by consumers to dip into their growing "liquid savings" when times look good for a long stretch ahead. This combination could result in a real spurt in consumer expenditures in the months just ahead.

"Growing 'boom feelings' among many businessmen have led to strong plans for industrial expansion during the next

Voice of the People:

'Let's Have New Flag at School for Election'

The American flag used at the Crofoot School was dirty, wrinkled and torn for the primary election. It was an absolute disgrace to our country as well as to the voters in the City of Pontiac.

Let's have a new one for our presidential election.

A VOTER

'Let's Speak Well of Our School District'

We are proud of the schools in our district and we feel hopeful that every taxpayer is, also. No community can endure without churches and schools. Let us not neglect either, for the better we make them, the more widespread is their interest and influence felt, and the better is the community in which they exist.

Speak a good word for our schools and teachers at every opportunity. Your cooperation will pay big dividends.

EDITH PATRICK

Suggestions Grow for New Road Name

Since Pontiac has not named anything after the late President John F. Kennedy, why not call the perimeter road "Kennedy Drive?"

The President was a great man and it wouldn't put the perimeter road down any by naming it that.

J. MILLS
66 E. CORNELL

Since this is a General Motors city and it also advertises the Pontiac car, why not call our perimeter road "Tempest Boulevard" to give the name Tempest a lot more popularity?

F. E. SHAY, JR.
4720 MAYCREST

To all who wish to commercialize our new road, how about all the other industries which make Pontiac a progressive city, such as G.M.C. Truck and Coach Division and numerous others? I think the Press should stage a write-in vote to submit to the City Commission and settle the issue.

Remember the Mohawk(s).

DONALD E. SMITH
91 OAKHILL

Let's stick to traditional names. "Wide Track Drive" doesn't sound right. How about "Joe Haas Drive," "Haas Road," or "Haas Drive?"

TRADITIONAL NAMES

Wants Address of Church World Service

I read that Church World Service needs good, used clothing for the needy in other countries. I have boxes of children's winter clothing in excellent condition and would like to donate these to this organization, but no address was given. Can anyone help me on this?

CAROLE STRACHAN
MILFORD

The Better Half

"Brilliant detective work, Inspector!... How did you ever uncover this heinous crime?"

edly at "rock bottom" levels. A concerted attempt to build them up in response to a further quickening of the business pace would add to the pressure of demand.

The seriousness of the situation in the 12 months ahead could be intensified by the extraordinary expansion of debt in the past several years, coupled with some decline in its quality.

Credit and debt expansion have been noticeable characteristics of the recent business advance. Total debt rose more than \$200 billion in 1961 through 1963. The gain in debt was less than \$400 billion through the entire 1960s. With one exception debt has increased more than gross national product every year since 1948.

West-ern Olympic Proposal

Gold Medals for Tossing of Toll Silver

By DICK WEST

WASHINGTON (UPI)—While driving to and from the beach over the Labor Day weekend, I couldn't help but marvel at the great progress that has been made in highway engineering in the past decade.

I don't mean progress in building roads. I mean progress in building toll booths.

The roads may start falling apart six months after they are opened, but the toll booths they are erecting nowadays look as if they will stand for centuries.

During my trip of less than 200 miles, I encountered five different toll facilities — a tunnel, three highways and a bridge. On the way back I took a somewhat different route, this time paying tolls at a tunnel, three highways and two bridges.

For reasons that I shall presently make clear, all of this started me to thinking about the forthcoming 1964 Olympic Games.

REGISTER COMPLAINT

During the Winter Olympics, you may recall, the U.S. team fared rather poorly. At the time I registered a complaint, that the competition was somewhat unfair.

There are large areas in this country that have no winter sports of the type featured in the Olympics. It was, therefore, my contention that the Olympics should be expanded to include one or two events in which Americans are likely to excel.

One event I suggested was a contest in throwing empty beer cans from a bobsled.

Judging from the debris I find on my front lawn every Sunday morning, thousands of our youths are extremely proficient at throwing beer cans from autos. I figured it would be an easy matter for them to adapt this skill to bobsleds.

NO RESULTS

Nothing came of that proposal, but with the Olympic Games

Pontiac Man Bound Over in Shooting of Wife

A Pontiac man was bound over to Circuit Court yesterday by Municipal Judge Cecil McCallum following a preliminary examination on a charge of assault with intent to commit murder.

Scheduled for arraignment in Circuit Court at 1:30 p.m. Sept. 14 is Frank Mayes, 58, of 83 Jackson. He is held on \$3,000 bond.

Mayes is accused of shooting his wife Aug. 14 in the bedroom of their house.

Mrs. Marie Mayes was hospitalized with bullet wounds in the stomach, neck and arm. She has since been released from the hospital.

The 22-caliber pistol police said was used in the shooting was found on a dresser in the bedroom.

Relatives Identify Body of Jackson Woman

PORT BURWELL, Ont. (AP) — The body of a woman found in Lake Erie Monday has been identified by relatives as Mrs. Marjorie Ziegenbein, 51, of Jackson, Mich.

Mrs. Ziegenbein was on a pleasure cruise between Detroit and Buffalo Aug. 21 when she fell overboard.

due to begin soon in Tokyo I would like to put forward another recommendation.

I think there should be an Olympic contest in driving through the "exact change" lane of a toll booth.

The object would be to see who could pass the booth at the fastest clip and still hit the basket with two dimes and a nickel.

By the time I got back from the beach last week end, I was able to clear an "exact change"

booth at 12 miles per hour, compared to only 6 m.p.h. when I started out. And I am badly out of training.

'EXACT CHANGE' TEAM

If the proliferation of toll booths continues, thus providing more opportunities for practice, the United States should be able to field an "exact change" team that would be unbeatable. But don't count on me.

I pulled a muscle in my coin pitching arm and will be out for the rest of the season.

Condemnation of Indonesia Sought

UNITED NATIONS, N.Y. (AP) — Malaysia is reported having difficulty trying to line up support for a U.N. condemnation of Indonesia charging President Sukarno's government with aggression.

U.N. diplomats expressed doubt that Malaysia could get the seven votes necessary in the 11-nation Security Council for any resolution of condemnation.

There was a possibility that a watered-down compromise would emerge, but Indonesian Deputy Foreign Minister Sudjarwo Tjondronegoro has indicated his government wants no resolution.

Another council meeting on the issue was scheduled this afternoon.

BITTER DISPUTE
The bitter dispute between the two Southeast Asian neighbors was aired before the council Wednesday in long speeches by Sudjarwo and Malaysia's minister of home affairs, Dato Ismail Bin Abdul Rahman.

The debate was enlivened by an attempt by Ismail to put before the council a blood-stained uniform, a mortar and automatic gun and a white parachute. He said they were captured from Indonesians who had invaded Malaysia.

Soviet Ambassador Platon D. Morozov, the council's president for September, ordered the exhibits removed from the chamber, saying he did not know if the arms were loaded. Ismail assured him they weren't but complied with Morozov's order.

Ismail based his complaint mainly on the landing last week of 40 Indonesian paratroops in the Malaysian state of Johore.

ADMITS FIGHTING
Sudjarwo acknowledged that Indonesian "volunteers" and "guerrillas" were fighting on

the Malaysian mainland as well as in Sarawak and Sabah, Malaysia's north Borneo states.

GOP Nominee in 1936 Marks 77th Birthday

TOPEKA, Kan. (AP) — Alf M. Landon, the Republican nominee for president in 1936, celebrated his 77th birthday yesterday.

He began the day, as usual, with a horseback ride at dawn and spent the day at his radio station in Topeka, Kan.

He said such action was necessary to wipe out colonialism and said Indonesia plans to continue its policy of confrontation until a political settlement is reached.

British Gurkha troops killed three more of the Indonesian paratroops in jungle clashes in central Johore State Wednesday, the Malaysian Defense Ministry announced. They said this made eight of the paratroops killed, while 11 others have been captured.

Britain completed transfer of 500 anti-aircraft troops from West Germany to Singapore.

Britain already has more than 10,000 troops in Malaysia.

In Singapore, the threat of racial rioting eased as police reported only a few minor incidents. An official said that all curfews, except in the trouble areas, probably would be lifted Friday. At least 14 persons have been killed in the clashes between Chinese and Malays that began last Friday.

In Jakarta, the Indonesian capital, U.S. sources said a mob of Indonesians tore down the American flag in front of the U.S. consulate at the East Java port of Surabaya. There have been a series of anti-American

incidents in Indonesia to protest U.S. support for Malaysia.

Romney in Minneapolis for Governors' Confab

LANSING (AP)—Gov. George Romney will be out of the state today and Friday, attending the Midwestern Governors' Conference at Minneapolis, Minn.

The conference, Romney said, is aimed at assuring the Midwest an equitable share of federal contracts, and is comparable to the organized efforts of other geographical sections of the country.

LIMBLESS BIRDMAN — Triple amputee Barry Klopfer, 26, grins from the cockpit of a light plane after his first solo flight, at Orinda, Calif. Klopfer has a special clamp to hold his artificial left arm to the plane's steering wheel. The college student hopes to earn a private pilot's license.

New Rugged Task for 'Seaway' Tony

SAULT STE. MARIE (AP)—A rugged new test, set in Michigan's dense north woods, looms ahead for a big strapping lumberjack who became something of a local legend this summer by rowing his boat 2,000 miles.

He will be given a light pack with hunting knife, ax, blankets and some canned food. And his task will be to elude some 500 men on a 6-by-22-mile island at the east end of Michigan's Upper Peninsula.

ACCEPTED PLAUDITS

If "Seaway" Tony Calery carries out his boast that "I'll get lost, period," he may gain the reputation as a latter-day Paul Bunyan.

Seaway Tony just finished accepting his plaudits for his 75-day, 2,000-mile row through the St. Lawrence Seaway from Sault Ste. Marie to the New York World's Fair.

He was honored at a banquet Wednesday night. And among the many plaques he received was a Michigan Week Recognition Award from Gov. George Romney.

Romney addressed the plaque to Seaway Tony "of rugged Michigan stock who rode 2,000 miles to the New York World's Fair in the summer of 1964, gave the nation an example of physical fitness and brought fame to his home state and to his home city of Sault Ste. Marie."

It was while Calery was rowing to New York that sponsors of the Hiawatha Festival at the

Soo began looking for an expert woodsman to be the quarry of a 48-hour manhunt, the highlight of the festival.

HE AGREED

Calery told the banquet Wednesday night he has agreed to be that man.

"They'll never find me on Sugar Island," said Calery. "I know where to go and where to hide. I know Sugar Island. Under rules of the manhunt, a hunter who gets close enough to touch Seaway Tony wins \$500. If Calery remains untagged, he wins the money."

The rules also provide that Calery, who will be given a five-hour head start, must not hide or seek shelter in any buildings.

NOTHING NEW

"I slept out plenty on the way to New York — on the beach, on the sand, on the rocks, in the boat, on the grass, on the decks of moored cruisers," said Calery. "Sleeping in the open is nothing new to me."

The 6-foot, 200-pound lumberjack repeated his claim to be "the world's best rower." He told the banquet guests he planned a bigger and better rowing trip next year, but he gave no details.

Potted plants that can take the heat and need less light than most are Aspidistra elatior or "cast iron," Aglaonema or "Chinese evergreen," and Sansevieria or "snake" (sometimes called mother-in-law's tongue).

Psychiatrist Observes Syndrome

'11 Schizophrenics Are Like Oswald'

SPRINGFIELD, Mo. (UPI)—A staff psychiatrist at the U.S. Medical Center said yesterday similarities exist between accused assassin Lee Harvey Oswald and 11 other potential presidential assassins.

Dr. David Rothstein made the observations in an article, "The Presidential Assassination Syndrome," written for the archives of General Psychiatry, a publication of the American Medical Association.

Rothstein, who interviewed the 11 during the last year, said the similarities included a disturbed family background, hostility toward authority, suicidal and self-destructive tendencies, difficulty with self-identity and a poor record of military service.

All of the men, Rothstein said, were schizophrenic.

"However, this may be incidental to the fact that they were here," he added.

Each, Rothstein said, has had tendencies to use an alias. He said they have a desire to belong to a group, but were unable to become good members.

OSWALD ATTEMPTS

Oswald, a professed Marxist tried to join various Cuban military and political groups and

professed to be the chairman of the Fair Play for Cuba Committee.

Oswald also used an alias to purchase the rifle allegedly used to assassinate President Kennedy.

"The majority of men I interviewed had been in military service, and several had less than optimal careers," Rothstein said. "Most received medical, undesirable or dishonorable discharges."

MOTHER INJURED

Oswald joined the Marines in October 1956, one week after he turned 17. He was court-martialed twice, once for carrying an unregistered pistol and again for using profane language to an officer.

He was discharged on Sept. 11, 1959, on the ground of hardship. His mother was injured and her hospitalization ran out.

After three weeks, Oswald left his mother and went to Moscow. It was there the Marine Corps changed his discharge from hardship to undesirable.

Rothstein said he believed that much of the basic trouble was an early parental hostility, particularly toward the mother

This hostility, he said, appeared in most of the cases to be subsequently transferred to authority in general and would account for difficulty in adjusting to military service.

He said the hostility was then channeled toward the government.

Like all of the men interviewed by Rothstein, Oswald attempted to commit suicide, while living in Moscow.

All of these men, he said, experienced periods of extreme depression.

Cook County Outlaws Bow, Arrow Hunting

CHICAGO (AP)—The latest advance of civilization in Cook County (Chicago) has local outdoorsmen quivering with indignation: the county board Wednesday outlawed hunting with bow and arrow.

Board President Seymour Simon, who proposed the ordinance, said: "Bow-and-arrow hunting within a county of more than five million residents would probably bag more people than deer."

The South Dakota lamb crop is a six per cent drop from the 1963 South Dakota Crop and Livestock year totaled 1,157,000 head, 1963 figures, according to the stock Reporting Service.

If you are a Michigan school teacher about to choose a health care protection plan, consider these facts and figures before you make your decision

Start with the bill reproduced on this page. It is an actual bill and one we paid recently for someone who could have been your friend or neighbor. (The name has been deleted to protect the patient's privacy.)

Notice the hospital charges. Notice the medical charges. Now notice how much of the total was paid by Blue Cross-Blue Shield. Do you know of any other plans that would have paid as much?

This is not an isolated case, either. Blue Cross-Blue Shield have paid even higher bills for subscribers, and they pay thousands every day where the percentage of the total is just as high.

There are other reasons (some are printed below) why you should choose Blue Cross-Blue Shield. Study them just as carefully as you study the bill and you'll know why most professional people in Michigan belong to Blue Cross-Blue Shield.

Says Social Drinking Is Here to Stay

FRANKFURT, Germany (AP) — A leading British fighter against alcoholism says it's practically impossible to eliminate social drinking.

"What we can do is to reduce the social pressure on people to drink," said Archer Tongue, director of the International Bureau Against Alcoholism. "For example, a host throwing a party could also offer non-alcoholic drinks."

Tongue, here for an international congress on alcohol and alcoholism, said that Western influence, particularly American, has made drinking a sign of prestige. Thus, he said, problems of alcoholism have developed in countries which by tradition did not have them, particularly in Asia and the Middle East.

INDEPENDENCE SYMBOL

In some African countries, the stronger spirits were barred to Negroes by their colonialist rulers. Drinking has now become a symbol of their new independence, Tongue reported. Alcoholism knows no Iron Curtain, Tongue continued.

"The Stalinist theory was that the problem would vanish with the abolition of private enterprise," he said. "But developments proved that nationalizing the alcohol industry is not at all a solution."

Alcoholism among women is a big problem but it is difficult to know how big — "because women can cover up much more easily; most of them don't have to go to work," Tongue said.

OTHER REPORTS

He also reported: Britain and Germany have registered a striking growth in female alcoholism. Women still drink less in southern countries. Excessive drinking among juveniles is especially noticeable in Britain and Sweden.

France continues to lead the world in per capita consumption of alcohol.

The United States, Chile, and Poland are other countries faced with most serious problems of alcoholism. One American expert says that the United States has about a fifth of the world's estimated 25 million alcoholics.

"Prohibition is not practicable," said Tongue. "What is needed is education and understanding."

Strike Sanction at UAW Local

Vote Near Unanimous at Rochester Firm

UAW Local 540 employees at Jim Robbins Sylvan Glen Seat Belt Co. in Rochester have voted 135 to 1 to strike. It was reported yesterday by Larry Hartman, UAW international representative in the Pontiac Regional Office.

No date has been set for a strike, but it will probably be in the "very near future," Hartman said. If no contract settlement is reached.

The UAW International Executive Board has been notified of the strike vote, Hartman said. A federal mediator is expected to enter the negotiations Monday.

Contract bargaining has been under way since the plant's 270 employees were organized March 31.

Hartman said a dispute over "general economics" has prevented a settlement.

SEAT BELT SUPPLIER

Robbins, supplier of about 75 per cent of the seat belts installed on General Motors cars, owns two other seat belt companies, in Milford and Ypsilanti.

Workers at the Milford plant have also voted to strike.

State law requires that all cars manufactured after Jan. 1 of this year be factory-equipped with seat belts.

'Can't Tell Boys, Girls in Britain'

LONDON (AP) — The voice of British tailoring complained today that it's getting harder and harder to distinguish between the British male and the British female.

What with long hair on the men and pants on the women, it said, a new sex seems to be emerging — "middlesex."

The complaint came from Tailor and Cutter, weekly organ of the British clothing industry. Its editorial said: "Where once the trade was clearly defined into men's and women's sections, the advent of this growing army of twilight boys and girls is inducing a kind of industrial schizophrenia."

COPY THE OTHER

"Designers of both types of clothing are positing unforgivably on the styles of each other."

"The main hope must be for the evolution of an entirely different style of ensemble for these new phenomena and a new branch of the industry to supply it."

"The gentlemen's tailor and the ladies' tailor could be supplemented by the don't know's tailor."

"Then these wierd unrecognizable lads and their equally formidable female equivalents could be usefully catered for in sympathetic surroundings."

GAUDIER GARB

Hardy Amies, one of the queen's dress designers, made a bid Wednesday to deck the male in gaudier plumage. At a showing of male fashions he displayed dinner jackets in royal blue or gold and skintight black pants tucked into knee-length boots.

For day wear, Amies went strong on buttons. Jackets had four and sometimes five; waistcoats at least five.

Elsewhere in London, 20 husky six-footers appeared in blazers, club ties and skirts. It was the Fiji Islands football team, arriving in national dress for their first British tour.

3 Proclamations Issued by Romney

LANSING (AP) — Three separate proclamations have been issued by Gov. George Romney.

The week of Sept. 20-26 has been proclaimed United States Marshall's Week in Michigan. The week of Oct. 4-10 has been proclaimed as Apprenticeship Week. Thursday, Oct. 15, has been proclaimed United States Day and the period from Oct. 11-17 has been proclaimed Credit Union Week.

Sales of the nation's toymakers totaled \$1.4 billion in 1963, the Toy Manufacturers of the U.S.A., Inc., trade association reports.

Massachusetts Primary Today Ends Bitter Dem Fight

BOSTON (AP) — Gov. Edward Peabody and Lt. Gov. Francis X. Bellotti conclude their bitter fight today for the Democratic nomination for governor.

Despite the heated contest, only a moderate turnout—some 700,000 Democrats and 300,000 Republicans—was expected in the state primary.

Peabody, seeking nomination for a second two-year term, ignored his primary opponents until the final week. The governor traveled back

and forth across the state discussing his first term record and jabbing at former Gov. John A. Volpe, who is unopposed for the Republican nomination.

Peabody emphasized that the legislature approved more than 90 per cent of his program in each of the past two years.

During the closing hours of the campaign, however, the governor switched tactics and attacked Bellotti—accusing him of "deceit and deception" by al-

legedly implying he had the current support of Sen. Edward M. Kennedy, brother of the late President John F. Kennedy.

In television advertising, Bellotti has used a film clip of a Sen. Kennedy endorsement given at a testimonial dinner for the lieutenant governor months before he challenged Peabody.

Kennedy issued a statement last week reiterating his support for Peabody. Kennedy's backing was rated one of Peabody's greatest assets.

Michigan Bell, Union Agree

Expect New Contract to Set Broad Pattern

DETROIT (AP) — Michigan Bell Telephone Co. and the Communications Workers of America reached agreement Wednesday night — 1½ hours before the union's deadline on wage increases ranging from \$2.50 to \$2.50 a week in some cities.

The union said it expected the agreement to set a pattern for some 750,000 telephone workers across the nation. Its national executive board, brought to Detroit Tuesday night, approved the wage package negotiated by the local bargaining committee.

The package includes a basic pay raise of from \$2.50 to \$5 a week.

NARROW GAP

In addition, switchmen, switchboard and telephone installers in Grand Rapids, Saginaw and 19 smaller cities in western Michigan would receive an extra \$3.50 a week to narrow the gap in wage zones, the union said. This would give them a total raise of \$8.50. Operators in the same 21 cities would receive an extra \$2 in addition to the basic pay raise. New operators in Detroit would get an extra \$3 and new operators in other towns would get an extra \$2.50.

Experienced operators throughout Michigan would receive an extra \$1 a week to compensate for higher skills required in working with automated equipment, the union said.

"We feel this settlement is equitable for both our employees and telephone customers," said Dan Smith, Michigan Bell vice-president — personnel.

ANNUAL COST

The company estimated the wage increases, negotiated under a reopener clause in the union's 38-month contract, would cost it about \$4,344,000 a year.

The CWA said typical wage levels before the new settlement ranged from \$141 for top craftsman down to \$75 for operators in such small communities as Iron Mountain.

Ratification votes on the new agreement will be held within a few days, it said.

Talks are continuing in several other states and the union said the entire round of negotiations with the Bell System will not end until April 1965.

2 Czechs Flee East in Stolen Aircraft

VIENNA (AP) — Two young Czechoslovaks escaped to Austria today in a single-engine plane they apparently stole from an airport in Tabor, central Czechoslovakia, police reported.

Police said the youngsters were Hroslav Nerad, 20, and Milan Olah, 14. They landed on a field 300 yards from the railway station of Maria Lanzendorf, east of Vienna.

Silver grey sharkskin new again for Fall 1964

The enthusiasm for silver grey sharkskin hasn't abated one whit. On the contrary, it's more popular than ever. Which is not surprising, when you consider how well it looks on most men, how beautifully it shapes, how it keeps its crisp appearance. That's why we've assembled for your observation one of the finest selections of silver grey you've ever laid eyes on. Look at the famous makers it encompasses: GGG, Hart Schaffner & Marx, Eagle, Ausin Leeds, Hammonton Park, Botany 500, Northbrooke, Custom Quality, Kingswood, Charter Club, and Wynham. Add the variety of styles: one-, two-, and three-button models in high-fashion, conventional, and traditional natural shoulder styles; with either trim pleatless or pleated trousers. And to round out the silver grey sharkskin story, we have them in a full selection of proportioned sizes, and in a price range from \$9.50 to \$135.

St. Augustine Is Battered

POWER IN THE REAR — A stranded car is pushed from a flooded street in downtown St. Augustine yesterday as heavy rains and high tides turned many of the town's streets into rivers.

Roofs, Walls Ripped

Beach Resorts Bear Brunt of Storm

JACKSONVILLE BEACH, Fla. (AP) — "I thought all hell had broken loose. It sounded like a car with four flat tires scrambling across the planks right over my head," said George Takach.

Hurricane Dora ripped the roof off his motel. * * * Takach, his 3-month-old granddaughter, her parents and three guests sat out the hur-

cane in his oceanfront Sea Ranch Motel.

"That little girl will never believe it when she grows up and we tell her what happened," he said. "One fellow from Tennessee checked in just 15 minutes before the roof blew off," he said. "But he didn't leave. There wasn't any place for him to go."

HOTEL BATTERED

At nearby Atlantic Beach, a hotel lost its fire escape. A few minutes later the west wall on the third floor collapsed. Gerry Adams, 61, owner and manager who has lived there since 1907, said the noise of the wind and rain was so great he didn't hear the collapse.

"We all knew the wall was weakening," he said, "but there was nothing we could do about it."

Police patrolled the flooded streets during the height of the storm, stopping all who tried to enter the area.

STAYED HOME

Harry Vincent, a retired metallurgist, stuck to his home with his wife and two teen-age daughters.

"We've ridden everything out that came our way during the past 16 years," he said. "I have to keep an eye on those girls. The younger one is liable to go out there and take a swim."

State Sen. Verle Pope remained in his home at St. Augustine Beach south of here. He wanted to protect his books.

G. J. Bray, night man at the Monson Motor Lodge in St. Augustine, said business was good despite flood waters outside.

REPAIRMEN GUESTS

One hundred power company linemen, rushed in to make repairs, were staying at the lodge — the rest of the rooms were full of evacuees.

The 500 evacuees in the National Guard Armory in St. Augustine didn't have much reaction when the eye of Dora passed over shortly after midnight.

Said the lieutenant in charge: "They're all asleep."

ST. AUGUSTINE, Fla. (AP) — Old St. Augustine, which took a double dose of Hurricane Dora's destructive force, held hope today that the storm would depart before the city's problems multiplied.

There was a basis for hope. A civil defense worker stuck his head in County Director Fred Willis' office about breakfast time and, grinning broadly, told him:

"The barometer is going up like a rocket."

But the city was hurt.

Its water supply was low, causing a critical problem at shelters housing evacuees of the storm.

St. Augustine withstood two assaults yesterday by high water and high wind, the first during high tide in the morning and the second when the tide receded again about 11 p.m.

EYE PASSES

The eye of Hurricane Dora apparently passed over St. Augustine early this morning. There was a period of calm, with little rain, shortly after midnight.

Charles Walker, Red Cross disaster chairman, said the city got more flood water at high tide last night than it had during the morning.

"I would say we got eight inches more water," said Walker.

Flood waters stood more than two feet deep in Cordova St., lapping at the doorway of Red Cross headquarters. They again rose into the old market place near the bayfront.

A second toll was taken among the city's huge old oak trees. One of these falling giants blocked King Street in front of

Trinity Parish Church, on the market place square.

DEAD PIGEON

A dead pigeon lay among debris on the post office steps. Officials said they knew of no human casualties.

Across the Bridge of Lions,

some two miles away, the exposed homes of St. Augustine Beach appeared to have weathered the storm surprisingly well.

There was a heavy toll of motel signs and television antennas. Several homes lost

roofing materials—shingles and tarpaper—but few lost the entire roof.

The beach boardwalk — actually a concrete walk — was damaged in the tide's first assault yesterday when waves undermined it. The end of the

public pier was carried away and two two-story buildings, old hotels owned by the county, lost most of their windows.

POWER SHUT OFF

Some sections of the beach area had power last night. St. Augustine did not.

Junior Editors Quiz on GLASS

QUESTION: How is glass made?

ANSWER: Glass has always fascinated people because it seems wonderful to be able to look through such a hard substance, also because, since light can come through glass, it brings such a bright sparkling beauty to this material.

For all this brilliance, glass is mostly made of plain drab-looking sand, to which certain other materials are added, such as soda ash, limestone and borax.

These raw materials are melted together at great heat; they fuse into a syrupy liquid which is amorphous—that is, without a definite internal structure.

This glass is then quickly cooled. It retains its transparent qualities. Colors in glass are the result of chemical impurities and are often deliberately added—as for example, a trace of cobalt oxide will produce an intense blue.

Many kinds of glass are made to produce many different objects. Liquid glass may be pressed in a mould, drawn out in sheets (window glass) or cast.

An ancient method of working glass liquid was to blow it out on the end of a long pipe, and then, rolling the pipe on side arms, to shape the hot glass with various tools—this process still being used for making art glass. We illustrate it in the picture.

FOR YOU TO DO: We all know the familiar glass window panes, eye glasses and drinking glasses, but would you think it possible to make flexible glass thread and cloth? It is. Look up "fiberglass" and find out about a remarkable new use for glass.

After 20 Years

Housewives Like School

LEBANON, Ore. (AP) — Two housewives, returning to school after more than 20 years, are enthusiastic about their first day of classes.

Mrs. Wade Price, 32, and Mrs. Lavern Reil, 37, enrolled as freshmen this week in this western Oregon town of 6,000.

Mrs. Price, who dropped out of the fifth grade in 1943, started it all when she decided her 8-year-old son would need her to answer his questions as he grows older.

Mrs. Reil, who said she was scared stiff the first day, read of Mrs. Price in a local newspaper and enrolled.

Lebanon school officials told Mrs. Price that 20 years of living entitled her to jump from the fifth to the ninth grade. Mrs. Reil decided to go back one grade. She dropped out in 1943 when she was a sophomore.

Governor to Get Charter for Orchard Lake

By PAT MCCARTY
ORCHARD LAKE—The proposed charter for the City of Orchard Lake Village will soon be on its way to the governor.

Residents last night met with the commission which had drafted it and suggested one change.

The number of signatures required to halt establishment of a special assessment district was reduced from 61 percent to a simple majority.

A show-of-hand vote indicated 20 of the 47 persons in the audience were in favor of the move.

Thirteen were satisfied with the provision as written.

Charter commissioners changed the section.

GOVERNOR'S DECISION

The document now will be sent to the governor, who must act on it 70 days prior to an election on its acceptance.

An early December balloting date is expected for the charter and for election of a six-member council and municipal judge.

The new officials would take office upon approval of the charter.

In the council race, the two highest vote-getters would serve for three years, the next two for two years and the next one for one year. Thereafter, all council terms would be for three years.

COUNCIL SELECTION

A mayor would be selected by the council from its membership.

The policy-making unit was set up in the charter to correspond to the present commission-village president arrangement.

The proposed charter limits

taxation to 20 mills. Orchard Lake residents now pay 15 mills in village taxes and 4.3 mills to West Bloomfield Township.

Commissioners last night emphasized that the new rate would be based on assessed valuation and would not be sub-

ject to an equalization factor, as is the township's.

VILLAGE CODES

Commission chairman S. F. Leahy noted that the village's building and zoning codes would remain in effect after transition to a city.

Other conditions also are expected to remain the same.

The village's accounting firm has indicated it can handle any extra work which might come up in the new unit, and no increase in office equipment is anticipated.

Leahy noted that village resi-

dents now are contributing about \$15,000 to the township.

FIRE PROTECTION

Fire protection, he said, can be rented for about \$8,000 or \$9,000, leaving more than a sufficient amount for other expenses.

However, Orchard Lake residents using the West Bloomfield Township Library will have to pay a \$5 nonresident fee.

"This probably isn't as much as you're paying for it now in taxes," Leahy said.

It was noted that the proposed charter wipes out the \$1 paid to

commissioners or councilmen each month.

NAME OF CITY

Another question during the one-hour session concerned the retention of the word "Village" in the name of the city.

"We felt that helps to maintain the general character and general atmosphere of the village," Leahy said.

That was the goal of the group backing cityhood—to keep the residential community's attributes intact while protecting it from annexation or incorporation within a larger unit.

Rochester Elks Drop Plans for New Lodge on Ludlow

ROCHESTER — The running battle between the Rochester Elks and 53 residents of Ludlow Avenue over a building site for a new Elks lodge is over.

The fight began in May and was fought at Village Council and Avon Township Board meet-

ings, and even in Lansing, with the Elks finally acknowledging defeat.

The Elks have officially given up plans to build a new lodge on a parcel of land next to 633 Ludlow.

Residents of the street used

two petitions, verbal argument and the threat of court action to prevent the Elks from putting their plans into effect.

It all began in May, when the Elks asked the Village Council to rezone the Ludlow parcel

from residential to commercial, in order that they might build a new lodge.

PRESENT LODGE

The present lodge on Walnut is within 500 feet of a church, precluding the issuance of a club liquor license to the Elks at that location.

The council, at a June public hearing, recommended that the Elks change their rezoning application to a request for rezoning to office, rather than commercial zoning.

Project architect Robert Smith agreed to alter the application as recommended. An estimated 68 per cent of the Ludlow residents expressed opposition to the Elks' plans at the hearing.

Opponents of the plans said that the building would alter the residential character of the street.

INCREASE TRAFFIC

They also claimed that the building would increase traffic on Ludlow to dangerous proportions with regard to the 45 children on the street and the children using the Avon Township Park across from the Ludlow site.

The residents had sent petitions to the Michigan Liquor Control Commission at Lansing, which resulted in a denial of a license for the proposed site.

The Avon Township Board, in a 6-1 straw vote, questioned that issuance of a liquor license to the Elks would be in the best interest of Rochester as a whole.

William H. Parker, Exalted Ruler of the lodge, said that the Elks decided to drop the building plans because they were controversial.

Heberg and Wake's alternate will be James Carlisle.

Miller did not appoint a member and alternate for the Tienken Manor Estates system.

There are presently three members on the subdivision's board, Bernard Ernst, Charles Vigor and William Thornburg, two of whom will be chosen for the advisory board.

COORDINATE SYSTEMS

The new board was created to coordinate future water system plans, in view of the probability that all systems will someday be interconnected.

A water agreement between the Stratford Knolls subdivision and the township was presented.

The agreement provides reimbursement to the developer from individuals or other developers who tap mains on the mile roads put in by the developer. The cost to individuals who tap into such mains is expected to be about \$3.50 per foot.

The cost to those who tap these mains is not to exceed half of the developer's investment, according to the agreement.

2 HEARINGS

Two public hearings are slated in the next two weeks. The first is a hearing Tuesday on the Southwest Avon Sewer Project, to which 900 property owners have been invited. The hearing starts at 7:30 p.m. at Avondale High School.

A hearing on the lighting for the Christian Hills subdivision will be held Sept. 23 at the Avon Park building, beginning at 8 p.m.

Plans for the \$415,000 sanitary sewer project are on display for inspection in the supervisor's office at the township hall.

Pontiac Press Photo

SCOUTS HONORED — Roger Nelson, 16, (left), and Ed Paulus, 14, received their Eagle Scout badges at a White Lake Boy Scout Troop No. 44 court of honor last night. They are the first members of the 3-year-old troop to attain the rank. Roger's parents are Mr. and Mrs. Calvin D. Nelson of 7273 Crosby Lake and Ed's are Mr. and Mrs. Thomas F. Paulus of 3700 Jackson.

Workshop on Duties Set by PTA Council

"Know Your PTA Job" is the theme of the workshops being planned for Tuesday by the Oakland County Council of Parent-Teacher Associations at Monteth School, Waterford Township.

Registration begins at 7:30 p.m. with workshops scheduled to begin at 8 p.m. All PTA officers and chairmen are urged to attend.

Those attending will go directly into workshops. The business meeting will be held after they are over.

Sessions are planned for the following areas of PTA interest: presidents, secretaries, treasurers, program, budget and finance, ways and means, hospitality, homeroom representatives, membership, PTA Magazine and publications.

An innovation will be a "miscellaneous" workshop dealing with PTA policies, practices and pitfalls.

Conducting some of the workshops will be Mrs. William U. Porter, director of district services; Mrs. Leonard Fry, director of District VII; Mrs. Charles W. Neldrett, past president of the Michigan Congress of Parents and Teachers; and Mrs. William Wright, vice president of Region.

Council leaders conducting workshops will be Mrs. J. E. Frankfield, Mrs. A. R. Dahl, Mrs. Paul Graves, Chester Murphy and Mrs. R. H. Stock.

Refreshments will be served by members of the Monteth School PTA at the close of the evening.

Oakland County Council of Parent-Teacher Associations includes all PTAs in the school districts of Waterford, Clarkston, West Bloomfield, Dublin, Brandon and Lyon.

Monteth School is at 2303 Crescent Lake.

Will Eye Future Systems

New Avon Twp. Water Board

AVON TOWNSHIP — An Advisory Water Board was created last night by the township board to coordinate and review future water system plans and development.

The board authorized Supervisor Cyril E. Miller to appoint members and alternates to the

advisory board from three water system boards now operating in the township.

Miller appointed Thomas Baker of water system No. 1 and Jack Wake of the University Hills system to the advisory board.

Baker's alternate will be Oiva

Heberg and Wake's alternate will be James Carlisle.

Miller did not appoint a member and alternate for the Tienken Manor Estates system. There are presently three members on the subdivision's board, Bernard Ernst, Charles Vigor and William Thornburg, two of whom will be chosen for the advisory board.

COORDINATE SYSTEMS

The new board was created to coordinate future water system plans, in view of the probability that all systems will someday be interconnected.

A water agreement between the Stratford Knolls subdivision and the township was presented.

The agreement provides reimbursement to the developer from individuals or other developers who tap mains on the mile roads put in by the developer. The cost to individuals who tap into such mains is expected to be about \$3.50 per foot.

The cost to those who tap these mains is not to exceed half of the developer's investment, according to the agreement.

2 HEARINGS

Two public hearings are slated in the next two weeks. The first is a hearing Tuesday on the Southwest Avon Sewer Project, to which 900 property owners have been invited. The hearing starts at 7:30 p.m. at Avondale High School.

A hearing on the lighting for the Christian Hills subdivision will be held Sept. 23 at the Avon Park building, beginning at 8 p.m.

Plans for the \$415,000 sanitary sewer project are on display for inspection in the supervisor's office at the township hall.

Radio Society Meeting to Launch New Season

AVON TOWNSHIP — The Hills Amateur Radio Society will kick off the new season with a Tuesday meeting at the Avon Township Library in Rochester.

The meeting will begin at 8

p.m. with the presentation of the affiliation charter signifying the group's affiliation with the American Radio Relay League (ARRL) by Harold Bird (WBPE) of Waterford Township.

The program will continue with a recapping of the highly successful June Field Day Exercise.

In this exercise, an annual event sponsored by the ARRL to demonstrate amateurs' capacity to act as an emergency communications system, about 400 radio contacts were made.

The program will wind up with the second annual auction of gear and components, which will see a wide variety of equipment and parts on the block.

AUCTIONEER DUTIES

Tom Beal of Avon Township (WBVU) will be the auctioneer again this year.

Persons interested in amateur radio can contact Secretary Larry Toney (WABRG), 1209 Catalpa, Rochester, or Treasurer Dick Brooks (WABEZ), 6187 Blue Beech, Avon Township.

School Signup at St. Philip's

ROCHESTER — Registration for the fall Sunday school session at St. Philip's Episcopal Church will be held Sunday, according to the rector, Rev. William R. Schuler.

Parents may register their children either at 9:15 or 11 a.m. The children will attend Sunday School throughout the year at the time chosen this week.

This will be the first year in which double sessions will be held.

Supt. Al Bird said that students who have been on the cross-and-crown system of attendance awards will continue on that system this year.

Starting Sunday, Sept. 20
Please

DIAL '1' FIRST

(INSTEAD OF '112')

to dial your own
Long Distance calls

Dialing your own Long Distance calls will be faster and easier for you, starting on Sunday, Sept. 20.

Then everybody will dial "1" first (instead of "112") to reach the Long Distance network. This will simplify Long Distance dialing and make it uniform for everybody here.

Handy reminder: Dialing "1" first always will mean Long Distance, starting Sunday, Sept. 20.

Dial the PHONE NUMBER ONLY to call anywhere within your own local calling area. Your North Area directory—page 3—lists those communities for handy reference.

Tshombe Won't Make His Deadline for Congo Unity, Prosperity

(EDITOR'S NOTE — Lynn Heinzerling, author of the following dispatch on Premier Moise Tshombe's problems, is chief of AP operations in Africa. He was awarded the Pulitzer Prize for international reporting in 1961 for his coverage of the Congo.)

By LYNN HEINZERLING
LONDON (AP) — Moise Tshombe is not going to make his deadline for showing the world a new Congo in three months.

The flamboyant, fast-talking secessionist leader from Katanga took office as premier in Leopoldville July 10 with the brush promise to reform Africa's problem child.

With one month to go, Tshombe and the world are still faced with the same old Congo — sullen, rebellious and dangerous.

Tshombe has added one new and refreshing ingredient to the Congolese stew, a political leader who is constantly on the move and who acts. His stated objectives for the Congo — national reconciliation, prosperity and peace — are beyond reproach.

ACTIVE LEADER

The Congolese central government has not seen a leader with his energy and dash since the unhappy days of the late Premier Patrice Lumumba.

But Tshombe, is being defeated by the same enemies that have frustrated the Congo's leaders from the beginning of independence four years ago — tribal hatreds, political immaturity, corruption and apathy.

With or without the assistance of the Organization of African Unity, these are formidable

foes. Most of Africa's leaders are fighting the same enemies at home with varying success.

The situation Tshombe faces is similar to that shortly after independence when rebellions, largely tribal in origin, broke out in Kasai, Katanga, Kivu and Oriental provinces. In Katanga and Kasai there was the added motive of great mineral riches.

OLD REBEL

At that time, Tshombe was one of the rebels. He wanted to

take Katanga Province out of the republic and set up a separate state. The United Nations' military force in the Congo finally ended Katanga's pretensions.

Tshombe, now dedicated to a unified Congo, is at present facing rebellions in Kivu, North Katanga, Kinn and Oriental provinces. Stanleyville, one of the country's most important cities, is in rebel hands.

Red Chinese diplomats and agents openly are supporting the

rebels with money and advice on guerrilla tactics. They have been operating through rebel headquarters established in Brazzaville and Bujumbura with the complacent assent of the Congo's neighbors, the Congo Republic and Burundi.

Reliable word received from Bujumbura is that the Red Chinese mission there has grown from seven members two months ago to 27 members. Red influence has grown to the point where at a recent diplomatic function the Burundian chief of protocol, gave the Red Chinese ambassador precedence over the Belgian ambassador, dean of the corps, and the U.S. ambassador.

CRITICIZE U.S.

African nationalist leaders have criticized the United States for supporting Tshombe's central government after opposing him when he was trying to take Katanga out of the Congo. A small number of U.S. transport planes and trucks have been placed at the disposal of the Congolese national army.

Washington says there has been no reversal of U.S. policy in the Congo. From the first day of independence, Washington has worked and spent its money for a united Congo, strong and prosperous enough to fill a strategic area in the heart of Africa.

Working alone and through

the United Nations, the United States sought to keep the Congo from becoming a pawn in the cold war.

As president of Katanga from 1960 to 1963, Tshombe was desperately trying to destroy Congolese unity by taking Katanga out of the republic. If he had succeeded, the Congo would have faced a bleak economic future.

SEEKS UNITY

Now, Tshombe, as premier of the central government, is trying to achieve what Washington wants — national unity, political reconciliation and peace. Tshombe has reversed himself.

U.S. military men in the Congo are well aware of the pitfalls which lurk in the primitive forests of the Congo. They do not want to see another Viet Nam develop in Africa.

What is going on in the Congolese provinces is not war in the accepted sense. It is a kind of intertribal mayhem which has been practiced in the Congo for centuries.

It has a particularly menacing significance now because it is being deliberately provoked by political dissidents supported

by Chinese Communists. It should be alarming enough to alert all the so-called non-aligned nations of Africa.

Instead, most of them have been extremely calm about it and some have even supported the dissidents. It has been estimated the rebels hold as much as a sixth of the Congo's 900,000 square miles.

The real losers are the patient and backward people of the Congo. They have been waiting four years for the bloodshed to cease and the independent Congo to produce the prosperity and peace promised by their leaders.

The white soldiers and fliers recruited by Tshombe offend African leaders, even though some of them have brought in white troops to put down mutinies. They will not offend the Congolese if tranquility can be restored. They are accustomed to foreign soldiers. They had the Belgians with them for more than half a century.

The Congo potentially is one of Africa's rich nations, but it has been chained down by the excesses of its political leaders. All the strength of the central government has been diverted

AP Photos

ARMCHAIR POLITICS — Fast-talking Congo Premier Moise Tshombe is carried through the streets of a Congo village during one of his missions to unify the country. The secessionist leader took over reins of the government July 10, at the same time promising to reform the African nation in three months.

Vermont Teen Shoot-Out Victim

BOSTON (UPI) — A 17-year-old girl, visiting a boy-friend in Boston, was shot to death accidentally early today during a blazing exchange of shots between a policeman and suspected narcotics violators.

Police said Betty Preston of Morrisville, Vt., was shot in the head as she stood on the corner of Massachusetts and Columbus avenues.

She died an hour later while undergoing emergency surgery at City Hospital.

An investigation was made to determine whether the shot that killed the girl was fired by police or by the alleged narcotics violators.

Although an estimated 15 per cent of the land in Saudi Arabia is arable, only about one per cent actually is under cultivation.

Tied With Health Care Fight

Social Security Hike in Danger

WASHINGTON (UPI)—A bitter fight over President Johnson's health care program appeared today to be endangering chances of Congress approving an increase in Social Security benefits.

There were increasing signs that the Health Care for the Aged plan was encountering stormy weather in the House.

And some of its backers were suggesting that if health care is sunk, the Social Security increase may go down with the ship.

Both the House and Senate are on record overwhelmingly in favor of an across-the-board increase in Social Security benefits.

The House voted a 5 per cent

hike in benefits while the Senate approved legislation to provide for a \$7 monthly increase — about a 9 per cent boost.

ON SAME BILL

But the Senate bill also included President Johnson's plan for health insurance for the aged under Social Security. The

House has never voted on the health care proposal.

Both the House and Senate measures would be financed by raising payroll taxes.

The two bills now go to a House-Senate conference committee which must work out a compromise acceptable to both legislative bodies.

Some health care supporters were fearful that if Congress approved a sizable increase in cash benefits, it would erode hopes for a health care plan in the future because of the cost.

OTHER FEELING

Sen. Clinton P. Anderson, D-N.M., cosponsor of the health care plan, said he didn't feel this was necessarily so.

However, Anderson made it clear that he and other health care backers might oppose a Social Security increase if the bill did not include a health insurance plan.

"There has been no demand for a \$5 or \$7 a month increase in benefits," he said in an interview. "There was a strong demand for health care."

Anderson noted that the health care plan was written into the Senate bill by a vote of 49 to 44. "I would think these same 49 people would not be happy without such a provision," he said.

MOTION LIKELY
House leaders announced last week they might try to pass a motion "instructing" the conferees to include a health care program in the final Social Security bill.

However, there were strong indications that health care backers might not have the votes to employ this rarely used parliamentary maneuver.

Instead, some leaders in the fight for a health insurance plan were suggesting it might be wiser to let the issue go to conference.

The next move then would depend on the type of bill agreed upon by the conferees.

Natural Childbirth Gains Adherents

By DR. WILLIAM BRADY

I have received numerous letters from young mothers who describe the joy they have experienced in natural childbirth. Please, smart Alice, no wise-cracks.

Of course I have never been through "the throes" myself, but then, a good many doctors are recognized experts or authorities on childbirth although they have never had babies.

A group of women discussing the subject included one who had recently borne her second baby at home. She had borne her first in a hospital, and she didn't want any more of the discomforts and indignities imposed on patients by hospital rules.

She said she had received much better care from the doctor and from her nurse in her home than when she was in the hospital.

Another in the group, only recently married, said that if or when she found herself pregnant she would arrange for Dr. — to attend her natural childbirth. From all she had read about natural childbirth, she was convinced.

ANOTHER WOMAN

Here, still another young woman said emphatically: "Well, if I ever have a baby, I'm going to the hospital, have an anesthetic, and not wake up until it's all over!"

This young woman is typical. I think of a large number of Americans, who have little knowledge, little or no desire to learn, little respect for their elders or superiors but unmitigated gall about asserting their views.

These persons of limited intelligence crowd the shops of the latter-day specialists and "clinic" racketeers.

They are overawed by the businesslike demeanor of employees of the phony "clinic." I say phony so anyone with the brains God gave a goose will know I'm not talking about real clinics, which are places connected with medical schools or hospitals where patients are ex-

amined and treated before classes of medical students, and for their consent to be so examined and treated by the best doctors in the community the patients are not required to pay fees.

MONEY IS KEY

There should be more real clinics and probably would be if the merchants of medicine were not making so much money from phony "clinics."

The mushroom development of phony "clinics" in the cities and villages throughout the country in the past 40 years marks the conversion of medicine from profession to business.

Two or three years ago a new statute went into effect in California—of all places!—prohibiting licensing of any more of these phony "clinics."

Signed letters, not more than one page or 10 words, long pertaining to personal health and hygiene, not disease, diagnosis, or treatment, will be signed by Dr. William Brady, if a stamped self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan.

Pope Marks Restoration of Order of Jesuits

VATICAN CITY (AP) — Pope Paul VI noted the 150th anniversary of the Restoration of the Society of Jesus (Jesuits) yesterday, saying the Roman Cath-

olic Church continues to need "courageous soldiers" to carry its message.

European kings forced Pope Clement XIV to suppress the order in 1773. They claimed the Jesuits disturbed public order. Pope Pius VII restored the order in 1801.

Car Hits, Kills Girl

ANN ARBOR (AP)—Marlene Dean, 7, of Wadham's died Wednesday of injuries suffered Monday when she was struck by an auto near her home. Sheriff's deputies said the child dashed into the path of the car.

Residency Problem Raised by '64 Races

WASHINGTON — Voters throughout the nation will have a special interest in the outcome of senatorial contests in New York and California this fall where "carpetbagging" is a major issue.

By chance, the principals in the test cases are national figures who played key roles in

the John F. Kennedy administration.

Both have been living in Virginia until recently but Robert F. Kennedy is a candidate for senate from New York and Pierre Salinger for senator from California.

Neither Bobby nor Pierre will be able to cast a vote for him self in November. The retiring attorney general votes in Massachusetts and the former press secretary in Virginia.

Kennedy is regarded as an easy bet to unseat Sen. Kenneth B. Keating, R-N.Y., while Salinger is an odds-on favorite to defeat his GOP opponent, former Hollywood star George Murphy.

NO REQUIREMENT
The Constitution requires that a Senate candidate be a resident of the state he seeks to represent, but does not require the office-seeker be a qualified voter in that state.

Both Kennedy and Salinger have satisfied the residence requirement since becoming a candidate.

The Kennedy and Salinger cases are not identical. Bobby was born in Boston and has been a Bay State resident practically all his life, although he did live in New York for a time as a child.

Salinger is not only a native Californian but a life-long resident there until government employment took him to Washing-

ton and a home in the Virginia suburbs.

NO ASPIRATIONS

Salinger could easily have retained his voting residence in California while living in Virginia; but at the time he made his decision he had no political aspirations.

Bobby would probably prefer to represent Massachusetts in the Senate — if his kid brother, Teddy, did not occupy the seat up for grabs in November.

Aside from the important question of the identity of the junior senators from New York and California in the 89th Congress convening next January, a more vital issue for the rest of the nation is whether prior residence should be a requirement for members of Congress.

If New York and California voters are content to be represented in the Senate by men who are legally nonresidents, or at least who held that status until an opportunity for office beckoned, then an important change in the American political system may lie ahead.

WORLD BENEFITED

Under the British system, a member of Parliament need not live in the constituency he represents. Winston Churchill, for example, never lived within 200 miles of the district he served for so long. Certainly his district, his nation, and indeed the whole world benefited from his arrangement.

Should America adopt the British system? Should a

national figure be able to offer himself for office from any area he chooses, so long as he establishes residence there by election day?

The New York and California Senate races may help decide the question.

America's unique system of representative government makes a member of Congress at the same time a spokesman for the area he calls home and also a draftsman of national legislation.

CONFLICTS OF INTERESTS

Often there is a conflict between the sectional and the national interest, as the civil rights issue has demonstrated.

Throughout our history there have been statesmen who migrated from one area to another, holding political office in more than one state.

New York's first U. S. senator, Rufus King, elected in 1789, had represented Massachusetts in the Continental Congress. Sam Houston and Daniel Webster are other examples from history.

Framers of our Constitution could not foresee the mobility of our modern day world.

FLEXIBLE CONDITIONS

With few exceptions, our pioneer statesmen remained where their roots were. Today's conditions, where one can breakfast on one coast and lunch on the other, could hardly have been predicted.

Perhaps the solution to the

problem of political opportunists is a constitutional amendment making residence of at least one year, and qualification to vote within the state,

a requirement to serve in Congress. This would not deprive the Congress of the services of able men who chose to seek to represent an area in which they

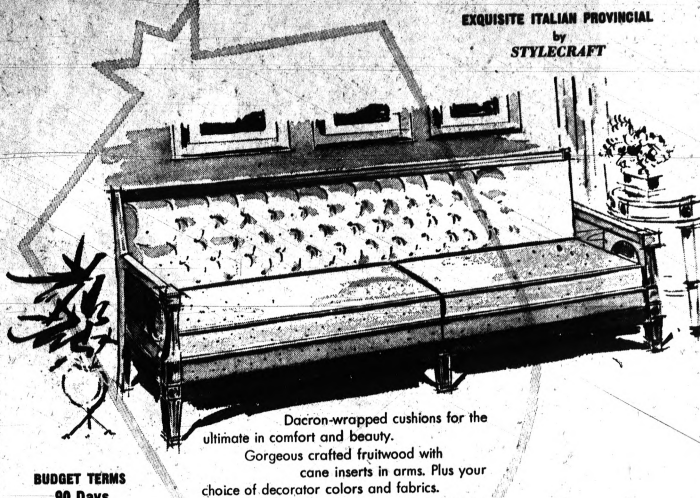

did not reside. But it would force such candidates to take up residence well in advance of becoming an office-seeker. It is a bit unseemly for a man to move into a state only

after becoming a congressional candidate in that state. A waiting period would be in the national interest.

Urban League Asks for Volunteer Help

Pontiac Area Urban League officials today said volunteers are needed to serve on the league's health, welfare and housing committees.

Mrs. Anne D. Russell, director of the three units, said the purpose of the committees will be to plan and assist in the execution of these urban league programs.

Members of the health and welfare committees should be persons employed in similar professions, such as doctors and nurses.

The same holds true for the housing committee. Persons engaged in construction, selling, financing, inspection and rehabilitation of homes could help in this area.

Interested parties may contact Mrs. Russell at the urban league office for full details.

Eye to eye with the past is Mark Thibodeau, son of Mr. and Mrs. Harvey J. Thibodeau Jr. of Huntington Woods. He and a friend of his traveled to Cranbrook yesterday to see the Detroit Lions practice football. Arriving too late, they

made the best of the situation by helping exhibitors set up displays for the Bloomfield Antique Fair in the Cranbrook School auditorium.

Pontiac Press Photo

Mrs. Arthur Warwick of South Josephine Avenue, a trustee of the Michigan Animal Rescue League, admires a 140-year-old handmade

bedspread. The spread is part of the exhibits at the annual fair which provides funds for the league's shelter on Featherstone Road.

Not a Stormy Issue

Tolerate 'Fraidy Cat' Husband

By ABIGAIL VAN BUREN
DEAR ABBY: My husband is a good man in every way, so please don't take this as a complaint against him.

Every time it starts to storm and thunder, Bob runs down to the cellar to hide, and he stays down there until the storm subsides, even if it takes all night.

It doesn't make any difference if we have guests or not, if a storm comes up and it starts to thunder, Bob runs off like a madman to hide in the cellar.

I have asked him to see a head doctor, but he says there's nothing wrong with him. What must I do? He is 53 and has been this way ever since we've been married.

FRAIDY CAT'S WIFE
DEAR WIFE: Your hus-

band's reaction to thunderstorms is not as unusual as you think. His behavior is undoubtedly a holdover from a childhood terror of storms which he never overcame.

If this is his only eccentricity, tolerate it good-naturedly. And don't worry about what your guests think.

DEAR ABBY: How do you tell your boyfriend's ex-girlfriend to lay off?

TIRED OF HER

DEAR TIRED: You don't. The boyfriend does. If he's "tired of her, too," that is,

The other half, including me, says that this is just as dishonest as taking money out of a purse that was carelessly left on a bus.

We've agreed to let you settle the argument, but I'll bet my next week's booby prize that you'll be on our side.

HONEST ABE

DEAR ABE: Pick up the booby prize. I know it's tiresome to continually tell one to hold her cards up, but it beats pecking, even though you do get an eye-full due to someone else's carelessness.

Children Use Names of Parents

By the Emily Post Institute

Q: My sister has two children, 5 and 7. They have taken to calling their mother and father by first names and my sister does absolutely nothing to correct them.

This not only sounds disrespectful but makes the children seem ill-bred. She sees nothing wrong in it and in her opinion it suggests a close relationship between parents and children.

A: I personally dislike this practice very much and in my opinion there is no higher privilege than to be called "mother" and "father."

However, if your sister and her husband have no objection to their children calling them by first names, that is entirely their concern.

Q: Some of my granddaughter's friends accept hope chests for birthday and Christmas presents from boys with whom they are merely "going steady." I say it is not proper until a man and girl are engaged.

A: A hope chest is properly given by the girl's parents and not by a boy whether she is engaged to him or not.

The Emily Post Institute cannot answer personal mail, but all questions of general interest are answered in this column.

Framed by an antique vise is Donald MacKinnon of Royal Oak. He and his wife are exhibitors at the antique fair which opened today and will run through Saturday.

Hours are 11 a.m. to 10 p.m. The MacKinnons believe the vise was made in the early 1800's, assessing its age from the fact that it's handmade and features square nails.

Why Don't They

Tips for Manufacturer

By GAY PAULEY
UPI Women's Editor

NEW YORK — At some time or another, almost everyone has muttered "Why don't they?" when struggling with a stubborn piece of equipment or wishing vainly for a needed convenience.

Hardly a day goes by that I don't add a "Why don't they?" to my collection. Apparently thousands of others do the same, for the National Family Opinion, (NFO), Inc., a Toledo-based consumer research firm, is in with another compilation from its 65,000

homemaker consultants' who write suggestions for manufacturers.

From NFO and my own notebook, here are some.

Why don't they?

—Quit pricing so many items "two for — cents," when a customer actually needs only one item.

—Make more half-sizes and large size housedresses with slight flare and in small prints or solid colors instead of featuring gathered skirts and big, bold prints which are not flattering to the fuller figure.

—Stop "improving" satisfac-

tory established products. One woman says, "I'm stuck with a supply of an old favorite so changed that I'll never buy it again."

—In supermarkets, enforce the rule of "five items or less" in the express checkout lanes. Debar the selfish shopper who empties eight and nine items from a cart and holds up others more conscientious.

—Stop putting white trim on necks, sleeves and fronts of children's sport jackets and sweaters. The white collar readily and poses a constant cleaning problem.

Happenings of Interest in Potpourri Form

FEDC

Mrs. Dale O. Miller Jr. will open her home on Snowflake Circle Monday morning for volunteers working with the Foundation for Emotionally Disturbed Children (FEDC).

At this time their current fund raising project for scholarships will be started.

Each year the group awards scholarships to Pontiac State Hospital staff members to further their education in the field of the emotionally disturbed and mentally ill.

The industrial arts program for teen-agers at the hospital, begun last year, has been financed and supported by the FEDC.

Golden Wedding

An open house from 2 to 5 p.m. Sunday in the Calvary Baptist Church on Pontiac Lake Road will honor Mr. and Mrs. Earl J. Smith on the occasion of their golden wedding anniversary.

The Smiths are former Pon-

tiac residents who spend their winters in St. Petersburg, Fla. During the summer months they reside with their son-in-law and daughter, Mr. and Mrs. Alfred Jackson of Ross Drive.

The couple, who were married 50 years ago in Flint, also have six grandchildren and seven great-grandchildren.

Improvement Group

Members of the Country-side Improvement Association heard Dr. Helen Kovack, Russian language instructor at Oakland University, speak on "Women in Russia" at a Wednesday meeting.

Mrs. Jack VanCoeveling opened her Wellington Court home to the group. Mrs. G. H. Gotshall, Mrs. Frank Haage, Mrs. John Haviland, Mrs. R. F. Schmutz and Mrs. Harry Wareham assisted the hostess.

Pontiac Press Photo

Mr. and Mrs. Fred Charter of Crescent Lake Road will celebrate their 50th wedding anniversary with an open house Sunday from 2 to 6 p.m. in the American Legion Hall on Lake Oakland. The couple has two sons, Marshall and Joe; two daughters, Mrs. Martin Jensen and Mrs. Al Winger; and 15 grandchildren, all of Crescent Lake. They were married Sept. 9, 1914.

Gayer than the original inhabitants of this Mennonite church bench is Mrs. Worthington Baker of Canfield, Ohio. She and her husband are among the many exhibitors from the midwest displaying antiques at the fair. During the three-day event food will be served between 11 a.m. and 7 p.m.

Why Grow Old?

JOSEPHINE LOWMAN

Teen-age is often a time of bewilderment. It's a time of self-consciousness and self-seeking. It is made hectic by the feeling that one must belong to the crowd. Its thrills and its heartaches are dramatized.

Those years may be perilous, but maturity also has its hazards. These are the years when young couples are working hard toward certain goals. They are making down payments on their first home and are introduced to the anxiety and loss of sleep which go along with their children's illnesses.

This is an exciting wonderful time, but the couple is under pressure because of the fight for success and never-ending demands of a growing family.

These are crucial years during which the pattern of their marriage and their future home is apt to be set. Will the wife be careful not to neglect her husband for her children? Many men feel completely left out after the arrival of their first child.

Will the husband continue to

be thoughtful and attentive in the many small ways which means so much to a woman? Will the pressure of his work and his responsibilities cause him to more or less take his wife for granted?

TIME TOGETHER

Will they spend their leisure time together? Some marriage counselors believe that spending leisure apart is one of the main factors which leads to divorce.

Will they continue to enjoy one another's company or will their companionship fall into the rut of discussing mutual problems?

At maturity men and women are having such a fight with the budget that they may lose some of the things they wanted most without realizing what is happening to them. The wife may stop sports, exercise and self-improvement. She may let her figure deteriorate and blame it on motherhood. She may stop reading as she once did.

ATMOSPHERE SET NOW

Your home atmosphere is being set during these years. Will it be one of understanding, gaiety, tenderness and courtesy, or will it be fraught with hecticness, rudeness, and criticism?

Mutual consideration and thoughtfulness are sometimes lost during these struggling but exciting years.

Young wives cannot afford to neglect their figures and good grooming. Nor can they afford to neglect their health.

Taking care of a house and a home and a family is a big job and it requires energy and stamina as well as devotion.

If you would like to have my leaflet "Keeping Romance Alive" send a stamped, self-addressed envelope with your request for leaflet number 83 to Josephine Lowman in care of The Pontiac Press.

Identity Must Be Preserved

DJAKARTA, Indonesia (UPI) — Culture Minister Prijono has banned the "Beate Hairstyle" and forbidden children from calling their parents "mommy and daddy."

Prijono's instruction called on children and parents to "preserve and promote the national identity."

The instruction, quoted by the official news agency Antara, also spoke against the use of nicknames.

The Indonesian language has no diminutive forms.

Dry Pen Is Used in Design Tracing

A ball point pen that has gone dry can be used for tracing embroidery designs.

It will not tear the paper like a pencil.

CHEYNE-ADAS

The Zion Lutheran Church in Ferndale was the setting for the recent evening wedding of Mary Louise Adas and Billy Leroy Cheyne. For the ceremony performed by Rev. L. H. Perrier, the bride wore a floor length gown of white peau de soie. Her colonial bouquet was composed of white orchids and chrysanthemums. Chariel Bosse of Lincoln, Neb. was maid of honor. Attendants were Madeline Demps and Susan Burden of Ferndale. James Suank was best man and William Robinson and Robert Adas were ushers. Parents of the couple are Mr. and Mrs. Robert P. Adas of Almont Street, Ferndale, and Mr. and Mrs. Dennis Cheyne of Coventry Court.

Opening Dinner of Fall Season

Twenty-five members and guests attended the opening fall dinner of the Newcomers Club at Sylvan Glen Inn Wednesday evening.

Guests present included Mrs. Elma Madsen, Mrs. W. D. Holb and Mrs. Philip G. Hilaire.

The group met twice during the summer, once for a breakfast for mothers and children, and once for a picnic.

Emotion's Analysis

Love Current Is Circular

By DR. GEORGE W. CRANE
CASE T-462: Joan J., aged 24, is a teacher.

"Dr. Crane," she began, "I met a school principal through the Scientific Marriage Foundation."

"He lives in a city about 100 miles away, and we have written to each other for several weeks."

"I'll admit his letters are very interesting and the snapshot he sent me reveals that he is nice looking."

"But I don't love him at all, for I haven't even met him in person."

"So how could I ever fall in love with him?"

"Isn't the old saying true which states that marriages are made in heaven?"

LOVE CHEMISTRY

If you go through the proper motions, you will soon begin to feel the corresponding emotions!

That's an axiom of psychology.

It works just as precisely as other laws of chemistry and physics.

For example, if you take a piece of wire; then bend it into a loop and twirl it in your hand, an electric current will instantly flow through that wire!

You will not get an electrical shock, for the current is so slight in a single loop of wire.

But a dynamo is simply composed of thousands of loops of wire, and from that

dynamo comes the current to run a factory or light an entire town.

In your high school physics laboratory you can prove the fact that even one loop of wire will create an electrical current.

Furthermore, the electrical current will flow, whether you are a Greek or Russian, an African, Chinese or Caucasian.

Electricity will be created as soon as the proper situation arises on which it depends.

For God Almighty thus surrounded our globe with invisible lines of force that run from the North Pole to the South Pole.

Cutting them with a loop of wire automatically and inexorably starts an electrical current.

Well, we have psychological laws which God Almighty also established.

And one of those psychological maxims states that if a boy and girl are thrown into personal contact and if they then go through the proper motions of romance, soon romance will develop.

Love is as elemental and inexorable as the electrical current that results from twirling a loop of wire.

Many of you teen-agers disbelieve this psychological law, but it ALWAYS works, if you follow the precise prescription.

I have won wagers with

many older students who also disbelieved, even when they were in graduate school at Northwestern University.

For love can be developed out of original, casual contacts. It can also turn to ashes, yet be revived anew if the parties involved will follow psychological rules.

Divorces develop because couples fail to distinguish between true love vs. sexual infatuation, and thus rush into selfish unions.

(Always write to Dr. Crane in care of The Pontiac Press, enclosing a long stamped, addressed envelope and 20 cents to cover typing and printing costs when you send for one of his booklets.)

WILLEN-RUNYAN

At Mammoth Cave National Park, Ky. for their honeymoon are Edward Earl Willen Jr. and his bride, the former Judith Ann Tugson who exchanged recent vows before Rev. Herbert Mansfield in St. Michael's Church. A French lace bodice and lace-bordered Watteau train accented her gown of white bombazine worn with illusion veil. Attending the couple, who are seniors at Murray (Ky.) State College, were Aloma Williams and Constance Givens; Donald Woodrum, Jerry and John Runyan. The couple joined their parents, the Clyde Runyans of First Avenue and the senior Willens of Louisville, Ky., at the reception in Bemis-Olsen Ampels Post.

WADE-NICKERSON

Venise lace banded a gown and train of white silk tines for Jean Elizabeth Nickerson who became Mrs. Patrick James Wade in St. Michael's Church. A white orchid and Stephanotis topped her mistle. Parents of the couple are the John Nickersons of Stanley Avenue and the Donald E. Wades of Summit Avenue. Attendants were Christine Rochon, Sandra Hall, Margaret Crawford, Beverly Lyon; Charles Carroll, Norman Goveis, Richard Hayden and Richard Nickerson. A reception in the Knights of Columbus Hall and a northern honeymoon followed the vows repeated before Rev. David Britz.

This kind of dining is the ethereal sort. One of the interior decorating exhibits at the World's Fair, it shows glass furniture set with glass dishes and sterling silver. It is one decorator's salute to the future and is called the "Moon Room."

Glass, Silver Used in Fair's Moon Room

Successful moon shots are bringing the day of space travel so rapidly nearer that when Ellen McCluskey, FAID, was asked by the International Silver Company to design the dining room of the future — a Moon Room — she found the shape of things present blended easily with the shape of things to come.

"It may be called the fantasy room of the future," Mrs. McCluskey says, "but it has many ingredients that are applicable to living right now. For instance, take the transparent table and chairs."

"Although they are legless in the Moon Room to give an illusion of floating in space, the use of see-through furniture in glass or moulded plastic is an effective way to make any small space seem larger. And anyway, most dining areas today are not much bigger than space capsules."

Because she believes that the material that looks best on glass is glass — whatever the era — Mrs. McCluskey used it for plates and goblets. The only other material in the ethereal setting is the gleaming silver.

In this way she created an interplay of reflections between glass and silver that is literally taking away the breath of visitors to the Moon Room, currently on display in the Pavilion of American Interiors at the New York World's Fair.

She did not have to look far, either, for the flatware of the future. It is already in production in the Vision pattern in International Sterling.

This is as advanced in design that it completely reverses the traditional shaping — Vision's handles have depth but not much width, so that they have an unbelievable slenderness as they lie on the table.

Now-Bunk Beds in New Styles

WEST END, N.C. — Though the notion of bunks for sleeping is thought to have originated at sea, a North Carolina bed manufacturer deserves credit for the bunk bed as it's known today.

Sandhill Furniture Corporation, reputedly the world's largest bed manufacturer, made its first bunk bed more than 30 years ago.

Recently the firm pioneered again — with Easy American bunk bed styles in numerous colors to enliven youngsters' bedrooms.

New trend is to mix colors within a room for colonial authenticity — a green bed, white night stands, and a maple finish dresser, for example.

By MARY FEELEY
Consultant in Money Management

Dear Mary Feeley: I have a nice husband in many ways, but when it comes to money his whole personality changes — he's a regular Dr. Jekyll and Mr. Hyde.

Our income is \$10,000. We have two children, 6 and 10 years old.

I have the winter coats (two) and lingerie from before we were married 12 years ago, so I don't consider myself extravagant. I shop carefully and try to buy all clothing items on sale.

One of these days I will need a new coat and I dread to think of it. Anything bought over \$10 causes quite a stir. My purchases always make me feel like a criminal.

My husband reads your column. I thought if perhaps you could suggest a clothes allowance, he would pay attention to your figures.

I have thought of getting a job, although I love my children and home and have no real desire to leave them just to have money to buy clothes.

Little do husbands know they are the ones who drive their wives to outside jobs (when income-wise it is not necessary)

and eventually to divorce courts.

A Reader, Portland, Ore. Dear Mary Feeley: I hope your husband reads that last paragraph. It ought to shake him up more than any figures I could present. But just for good measure, I'll go on record as saying a monthly clothes budget of \$70 for the family is entirely realistic on his income.

I assume you mean that \$10,000 income is gross pay. So with a normal tax deduction, his actual take home pay would be about \$700 a month.

But I do say this: the lion's share should go to the lioness this time. You don't need a new dress every day, but you do need to look well and as if you knew what year and what season it is.

Your children have a right to expect this, and your husband ought to insist on it — for perfectly sound business reasons. Every time you go anywhere or meet anybody, you create an impression that reflects on your family, for better or worse.

But even aside from those reasons, you need the moral-building benefits of an occasional new garment. If this creates a stir, as you say,

CARR-PRAKE

Susan Toni Prake, daughter of Mrs. Alice Prake of Union Lake, recently exchanged vows with Daniel Mark Carr, son of the Frederic Carrs of Union Lake. The ceremony took place in St. Patrick's Catholic Church, Union Lake.

Husband Tight-Fisted on Clothing Budget

Incidentally, how does your husband dress — like a \$10,000 a year man on his way up? If he doesn't, he ought to.

Dear Miss Feeley: Is the interest received on series "H" bonds in \$1,000 denominations tax-free or taxable? Are there any bonds that have tax-free interest?

M. M., Chicago

Dear M. M.: Interest on those H bonds is taxable. Municipal bond interest is not subject to federal tax.

(You can get Mary Feeley's booklet, Live Within Your Income, by writing to her in care of The Pontiac Press. Enclose a long, stamped, self-addressed envelope.)

SPADEA DESIGNER PATTERN

Bill Blass of

Maurice Rentner

902 JACKET \$1.00
906 SKIRT \$.50

When Bill Blass of Maurice Rentner designed this unusually versatile suit, he undoubtedly had in mind the woman who plans ahead.

Whether your particular plans include a day in the city or a long country weekend, you can meet any situation with a complete air of confidence.

Perfect for cooler days and evenings, this three-quarter coat has extremely smooth lines and slanted front pockets that accent the bodice.

The stand-away collar invites a change of mood simply by adding your favorite accessory. The molded fit of the front seam together with the double button effect gives a suit-like quality to the ensemble.

With tiny gathers around the waist and double back seams at the hip, the skirt aims to please and promises to flatter.

The 3-piece skirt with double front seams slims the figure and eliminates side-seam bulk.

A truly attractive skirt that matches perfectly with the jacket. To select your correct size, use Spadea's exclusive ready-to-wear size chart.

Size	Bust	Waist	Hips	Length
10	34	24	35	36 1/2
12	36	26	37	38 1/2
14	38 1/2	28 1/2	39 1/2	40 1/2
16	40 1/2	30 1/2	41 1/2	42 1/2

The jacket in Misses Size 12 requires 3 1/2 yds. of 42" fabric; the skirt in Misses Size 12 requires 1 yds. of 42" fabric. To order, state size and correct pattern numbers (No. 906 — skirt; No. 902 — jacket); Send \$1.00 for the jacket (No. 902) and 50 cents for the skirt (No. 906). Enclose 25 cents for first class mail and special handling.

Pattern books No. 22, 23, 24, 25, 26, 27 and revised Duchess of Windsor are available for 50 cents each. OR any 3 for \$1.25 OR all 7 for \$3.00. Add 10 cents postage for each book.

Address SPADEA, Pontiac Press Box 993, G.P.O., Dept. PX-6, New York, New York 10001.

Fringe Benefits

Amateur Stylists Have Assistance

By MIRIAM NEAL

Poets have extolled women's hair. Men have caressed it. But women have always had to take care of it.

For ages they have washed, oiled, burned, curled, twisted, stretched, squeezed, straightened, colored, bleached and gathered it for the sake of the beholders. (Some, despairing, have even pulled it out.)

The art of hairdressing began about 4,000 years ago. The first hairdresser lived in Athens and Cleopatra's 'beautician' enjoyed high favor and special privileges.

As history progressed, hair went up, as evidenced by the high, wide and powdered arrangements popular in European courts.

JUST 'FOOLISHNESS'

In America, the wives of settlers had no time for such 'foolishness'.

Even during the 1900s the average American woman had neither the time nor the money to spend in a beauty parlor. The parlors as such were few and far between. In 1922 there were only 6,000 in North America. By 1960, there were 140,000.

Turtleneck sweaters are shown with wide - vented jackets, short trousers and long socks.

for the most part she considers attractiveness as part of her job — whether in the home or at the office.

If she doesn't have time to

visit the beauty shop she has hundreds of beauty products to choose from to keep the bounce and sheen in her crowning glory.

The new home permanents can give hair curves, curls, body or all three. She can make it any color or style she pleases.

Two products just introduced show how manufacturers are making it as easy as possible to have beautiful hair.

An aerosol hair color preparation and conditioner sparkles a new hue into the tresses in only six minutes. Colored foam swooshes onto the hair at the push of a button.

NINE SHADES

It is neither a permanent dye nor a temporary rinse but lasts through several shampoos and is available in nine shades.

Another quick answer to a hair problem is a new 60-second conditioner.

The new preparation adds body, lustre, vitality, and manageability. This treatment requires no timing or waiting. It is applied from a plastic squeeze tube that contains just enough liquid for one treatment. After shampooing, just comb it through and set.

No Rub Marks

Line the backs of picture frames with strips of adhesive foam rubber to prevent rub marks on walls.

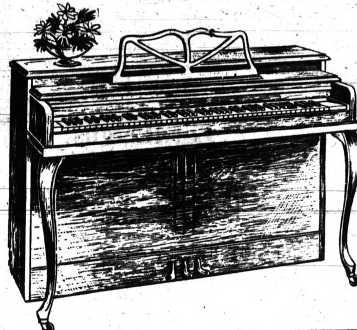

Scorch Marks

Take scorch marks out of clothes by rubbing the area with a piece of wet, stale bread.

Use Worn Skirts

The skirts of otherwise-worn silk, satin or woolen dresses may be used to make covers for bed and sofa pillows.

Enrich your child's life with Music!

GRINNELL PIANOS

are owned by more Michigan families than any other piano!

The 'Rhapsody' spinet shown, has acoustically designed open louvers. In five finishes: cherry, mahogany, walnut early American maple, French Provincial cherry. Priced from \$695, bench included.

RENT a piano

Grinnell's Rental-Purchase Plan allows you to rent a new piano. If you buy, all payments apply.

Who Decides Date Lasts Until 4 A.M.?

By MRS. MURIEL LAWRENCE
DEAR MRS. LAWRENCE: Our college student son has started dating a girl who keeps him out until 3 and 4 a.m. over weekends.

He is showing the strain of these late hours. What feeling for him can this girl have to be so inconsiderate? But he just gets wild if I say a word about her.

What am I supposed to do — just stand around and watch

him have a breakdown? I've thought of telephoning this girl and...

ANSWER: Why are you making her responsible for your son's late hours? He's a big boy now.

He doesn't have to stay out until 4 a.m. if he doesn't choose to.

If you cannot face your son's responsibility for his failure in self-consideration, you'd better ask his father to put limits on your youngster's night life which he can't put on it himself.

Women Are Good Agents

NEW YORK (UPI) — Insurance is a woman's business, as careers go too.

Some 5,000 women in the United States are life insurance agents.

The institute said that although they make up only two per cent of the agent total, they include some of the most successful in the country.

The fact that you've chosen to blame this girl for your son's late hours should interest you because it accounts for the intensity of his attachment to her.

BETRAY SELF
By blaming her for his decision to stay out, you have betrayed your own view of him as a choiceless puppet — a thing anyone can manipulate by picking up its strings.

No wonder he gets "wild" when you criticize his girl for "keeping" him out until 4 a.m.

Your criticism eliminates him as a person capable of any choice of his own.

It tells him that you regard him as susceptible to the influence of anyone who chooses to make his choices for him.

This suggestion is terrifying to all adolescent people, involved as they are in the struggle to develop confidence in their own choices and decisions.

COMPELLED HIM
You've compelled him to defend the girl, not because he feels any special loyalty or admiration of her, but because he feels obliged to tell you that you can't dictate his choices and decisions to him any more.

There comes a point in the development of some when resistance to the dictatorship of mothers becomes a matter of

masculine honor. That is the point which, I suspect, your son has reached.

It's time for you to retire from opposition to him. If he is to learn better responsibility to the job he has undertaken to do, it is his father, not you, who is qualified to put him straight.

Mr. and Mrs. James Carpenter of Tamm Street, Avon Township, announce the engagement of their daughter, Joan Marie, to Paul Eugene Shurtz, son of Mr. and Mrs. Vernon Shurtz of Hartline Street, Avon Township. A Nov. 28 wedding is planned.

Star Sought for Role in a Musical

Celia Merrill Turner, director of Will-O-Way Apprentice Theatre, is assisting in a nationwide search for a star. Object of the search is a boy in the 11- to 13-age bracket, who will star in a Broadway musical based on Marjorie Kinnan Rawlings' book, "The Yearling."

Mrs. Turner has been asked to audition local candidates by Woody King, a former Will-O-Way student who went on to New York theatre. King's latest assignment is an assistant to Lloyd Richards, who directed the stage version of "The Yearling."

The boy who will play Jody in "The Yearling" must be an accomplished singer as well as actor. Mrs. Turner explained. She added that other parts may be filled through the present talent search.

The musical goes into production in January. It is expected to open at the Fisher Theatre, Detroit, next spring.

Any interested 11- to 13-year-old who has vocal and dramatic training may call Mrs. Turner for an audition. Or, they may write to her at Will-O-Way Apprentice Theatre, 785 W. Long Lake Road, Bloomfield Hills.

Fall Planting Best for Spring Bulbs

To make sure the landscape will blossom with color when winter ends, plant spring flowering bulbs in October.

Experts say fall plantings will give bulbs time for good root growth before winter.

Special Scarf for the Victims of Hay Fever

United Press International
New for the hay fever season of the sneezin' season of winter is a scarf made of facial tissue.

It's the idea of a 17-year-old New York girl, Robin Swanee, who says all one has to do is pin one tissue to another — as many as 500 can go into a scarf.

Sneeze, rip off a tissue, and achoo without searching through pocket or purse for first aid.

Miss Swanee does the scarf magic with the tissues, pins and a band to which they're attached. You can pin anything from 100 to 500 scarves on the headband.

Robin adds an extra touch for foreign friends.

On all the tissues she attaches notes saying "God bless you" in their native tongue — German "Gedundheit," Irish, "Dian Linn," and so on.

Setting the stage for a new season at Will-O-Way Apprentice Theater are (from left) Jan Johnson, her husband, Rule, and Celia

Merrill Turner, who has just announced the Johnsons' appointment as managing directors.

Husband-Wife Occupy Post at Will-O-Way

A husband-wife team will occupy the managing director spot at Will-O-Way Apprentice Theatre, Bloomfield Hills, this fall.

Rule and Jan Johnson, of St. Clair Shores, who worked as associate directors of Will-O-Way's summer program, will assume their new duties in September, when Johnson, age 24, is discharged from the U.S. Army.

Their appointment was announced by Celia Merrill Turner, director of the state-authorized dramatic trade school.

"We intend to concentrate on the quality of the classroom work and add new courses," Johnson said. He counted expansion of the faculty among their aims.

The Johnsons, 3310 Jefferson, have collaborated in many theatrical programs during and before their two-year marriage. Rule, aided by his wife, served as consultant to the Mayor's Committee for Community Action for Detroit Youth in preparing a theatre-oriented cultural arts program designed to combat juvenile delinquency.

Jan, age 23, with Rule's help, organized the first competitive student drama festival at Lakeview High School, St. Clair Shores, where she teaches world literature and Spanish. She also directed the first Lakeview faculty play.

The Johnson team originat-

ed at Marshall University, Huntington, W. Va., where the pair acted in student plays and served in student government. Rule, also directed student plays.

He majored in psychology and theatre arts until 1961, when he entered the Army. He has been stationed with the U.S. Army Mobility Command at the Detroit Arsenal.

Jan received her B. A. in English and Spanish cum laude from Marshall University in 1963, and has attended Columbia University, New York City, and Wayne State University.

Wetting Agent Is Conditioner

Some automatic dishwashers have a dispenser which automatically ejects a liquid "wetting agent" during the final rinse.

A wetting agent, Michigan State University home economists explain, conditions the water so it will slide off the dishes quickly.

This helps prevent spotting or streaking, especially in hard water areas. Most rinse ejectors hold a large enough supply to last for several weeks.

Machine Stand

A lightweight typewriter stand makes a good table for the portable sewing machine.

Give What Is Required

NEW YORK (UPI) — So many customers in retail stores browse without buying that one organization is out to correct the situation.

The New York School of Interior Design, a non-profit school for training interior decorators and designers, is offering a training course for employees of home furnishings departments and stores.

The school figures 40 of every 100 customers walk out of stores without making purchase, many as a result of their failure to get the kind of home decorating service they require.

Vinegar Thins Glue

Pour a little vinegar into the glue bottle if the contents have become thick and hard.

Polly's Pointers

Hat From Stockings

By POLLY CRAMER

DEAR POLLY — A nice hat can be crocheted from old nylon stockings. For mine, I used all but the feet of 36 stockings.

Start at the top of a stocking and cut around and around in strips about one-inch wide. You get more stretch when they are cut this way.

My hat is a pillbox made with a single crochet stitch. I left the hose in its natural color.

Crochet around and around, dolly style, for the flat top. I made mine about 6 inches wide across the top of the crown, the sides drop 3 1/4 inches with a turn-up of 1 1/4 inches. This is very pretty with a veil.

— MRS. E. H.

DEAR POLLY — I thought some of your coupon clippers might enjoy using my "purse helper."

"I do not like having a purse

Slant Board for Exercise

NEW YORK (UPI) — The slant is upward on sales of the slant board for exercise and relaxation.

Slant boards are for lying on, with feet higher than head, and those who promote them say they're good for toning and shaping legs and hips.

Also for slimming flabby arms, flattening the abdomen, and helping the figure while on a diet.

They now come with built-in massagers. Most contain foam rubber padding for comfort.

full of clipped coupons to be redeemed at the grocery, so I use a hair clip to hold them neatly together. This makes a wonderful third hand at the checkout counter. — MRS. H. W.

DEAR POLLY — Wool material will often shrink a little when dry cleaned. Therefore, I send all of my wool materials to the cleaners before cutting and making.

This costs only a few cents a yard, so I feel the small expense is well worth it for a better fitting garment. — MRS. C. E. K.

DEAR POLLY — Another use for discarded nylons is to draw them over your fancy shoes while you drive to a party.

You leave them in the car and quickly pull them on again for the drive home. — J. H. W.

DEAR POLLY — Unless "defrosting" is in your regular cleaning schedule, it is so easy for the homemaker with an automatic defrosting refrigerator to let this job slide by.

To remind myself of this unpleasant task, I put a strip of adhesive tape where it is noticeable when I open the door.

On the tape, I mark the date it was cleaned last like they do on the car lubrication stickers. It certainly keeps me from forgetting. — MRS. F. G.

DEAR POLLY — After washing cotton knit "footies," stretch them over the bottom of your shoes to dry. They will fit more comfortably. — MRS. D. D. C.

Share your favorite home-making ideas . . . send them to Polly in care of The Pontiac Press. You'll receive a bright, new silver dollar if Polly uses your idea in Polly's Pointers.

Label All Caustics if Storing Them

Don't put poisonous substances in harmless-looking bottles.

For example, caustic in a soda pop bottle is an invitation to disaster.

Education Was Forced

NEW YORK (UPI) — The theory that the state has the right to compel parents to educate their children first was formulated during colonial times in Massachusetts.

That was in 1642. Then in 1647, the "old deluder Satan act" was passed. This required every town of 50 households to appoint and pay a teacher of reading and writing and every town of 100 householders to establish a Latin grammar school.

Unbelievably beautiful is this magnificently fluid dinner dress by Toni Lynn for expectant mothers. Fashioned in bonded lurex, it is stripped bare of unnecessary clutter and detail. In sizes 6 to 16, it retails for about \$25. Manufacturer has local outlets.

Pick Delegate for Convention
Named as a delegate to the national convention of the Blue Star Mothers was Mrs. Herman Dennis. The convention will take place in Cleveland Oct. 18-22.

The local Blue Star Mothers met Wednesday in the Princeton Street home of Mrs. James Dando.

They completed plans for a card party to be held Oct. 8 in the First Federal Savings and Loan building.

Keeps Small Rugs From Slipping
To keep small rugs from slipping is the purpose of a new product.

This coarse mesh, made of washable "rubbery" material that clings to the floor, is sold by the yard.

Petals Lavished on Winners at Ruidoso Downs

RUIDOSO DOWNS, N.M. (UPI)—Mrs. H. H. Shires lavishes flowers on the winning horses at Ruidoso Downs.

On occasion she has worked 36 hours, without even a coffee break, to supply the floral horsehoses and other beautiful buds that go to dot up the victors at this race course.

Mrs. Shires has flowers delivered to her shopping center headquarters from such points as Florida, Washington and Denver.

She estimates at \$200 the cost of a 36-inch floral horsehoe with 200 roses, six orchids and several hours work.

"I never made a bouquet in my life till we came to Ruidoso about 14 years ago," Mrs. Shires said. "The first couple of years I dealt merely in the sale of cut flowers, for high school dances and such occasions as Easter. Now we supply the race track, funerals and conventions as well."

Her husband runs a pharmacy next door and three teen-aged daughters help their parents tend to both pills and petals.

A pair of old socks worn over your shoes will protect your shoes from being splashed when you paint.

Selection of Tablecloth Styles

Tablecloths have come a long way from the old days of shiny, slick oilcloth.

Today, homemakers can choose from a broad selection of vinyl coverings, just as easy to maintain as that old-time product, yet so deftly styled and designed to simulate fabric that they must be touched to be believed.

The newest in these fabric-look tablecloths is being introduced by Hygiene Manufacturing Company, long a leader in the field of shower curtains. Made of Goodyear vinylfilm, the new group is either flannel or foam backed.

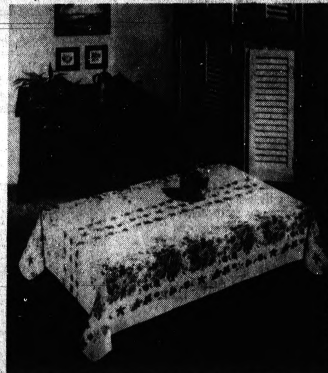

Enhancing the fabric look of the current crop are hem-

stitching, hanky edging and scalloped with fringes.

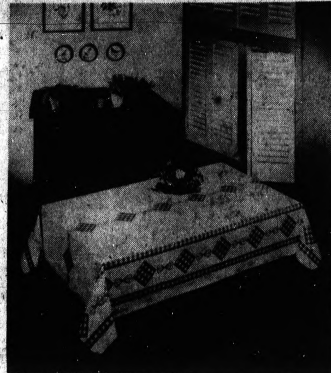

RESEMBLE CLOTH
Gingham, tweed, linen and pettipoint are a few of the "touch-me" looks that Hygiene is presenting. These are balanced by a baroque border pattern and a damask.

The modest retail price for the vinyl tablecloths ranges from \$1.99 to \$4.99, and sizes run from 32 inches square to 32-by-80 inches. A fringed, 60-inch round cloth sells at \$4.99.

All are polyethylene bagged and are sold in linen departments of department stores.

Fall flowers and berries are motifs used in Harvest, one pattern in the new line of vinyl tablecloths.

Gingham-like is this new vinyl table covering which is flannel or foam-backed.

***VSC-Variable Steam Control**—and ONLY Sears has it! Move the simple control and steam volume automatically adjusts for speedy, superior results *even in fabrics never before steam ironed!* See how a trace of steam, balanced with low fabric heats, gently and efficiently smooths out delicate nylon, silk, rayon, polyesters, acrylics and acetates. See how proportioned steam gives a professional finish to woolen pressing jobs, even undampened white-cotton shirt ironing! And what a relief to effortlessly wilt stubborn wrinkles in heavy linens with super-moist steam produced by the hottest fabric heat (500°)! Another fabulous feature: even when "dry" ironing, the push-button spray provides mist to remove ironed-in wrinkles. Compare with irons anywhere, at any price, and buy yours **TODAY** at Sears!

Today in Washington

Pentagon Paint Bill Irks U.S. Agency

WASHINGTON (AP) — Congressional watchdog agency is miffed at the Defense Department. It says the Pentagon failed to order paint in large economy sizes.

And this, the General Accounting Office reported to the House and Senate, resulted in "unnecessary costs of about \$30,000 annually."

The Defense Department grudgingly went along with the GAO, but grumbled that other factors had to be considered, saying: "It does not always follow the use of paint in large size containers will necessarily result in economies."

Government auditors noted the Defense Department annually uses about 15 million gallons of paint products.

LARGER CANS

They suggested more five-gallon cans instead of one-gallon containers and more one-gallon cans instead of quart sizes.

WASHINGTON (AP) — Sargent Shriver received approval Wednesday from the Senate Labor Committee as head of the antipoverty program after he indicated to members that he felt he could handle that job along with his other duties as director of the Peace Corps. Sen. Jacob K. Javits, R-N.Y., said "I am afraid it is almost impossible to do justice to both of these monumental efforts."

But Shriver said it would be up to President Johnson to decide if he should continue to hold both jobs.

Javits abstained on the committee's vote, which otherwise was unanimous for Shriver.

WASHINGTON (AP) — A veteran Defense Department

official has been fired after an investigation of possible irregularities in handling of certain administrative funds, the Pentagon announced Wednesday night.

It said two other officials have retired, and that the FBI is still investigating the case.

The announcement said William H. Godel was "removed from his position" as deputy director for management in the

advanced research projects agency on Aug. 24. He has appealed his dismissal from the \$30,000 a year job.

J. Robert Loftis, who had been administrative assistant to Secretary of Defense Robert S. McNamara with an annual salary of \$20,000; and John Wylie, head of the budget and finance branch in the Defense Department's administrative office at \$17,500, retired. Wylie was subordinate to Loftis.

Breakfast Is Best Way to Start

By JANET ODELL
Pontiac Press Food Editor

Anything for breakfast is better than nothing. It's only custom that dictates fruit, cereal, toast, bacon and eggs.

The only important thing is to relax your body after the all night fast. And a coffee break isn't the answer!

Most people who wait until that time will eat only some kind of sweet roll or doughnut instead of more nourishing food.

This is an old refrain we're singing, we know. But we expect to sing it forever. And yes, we all eat breakfast at our house.

With children now in school, a good breakfast is more important than ever. Insisting on it is just another part of being a conscientious parent.

BASIC

The basic breakfast consists of fruit, cereal with milk, toast and butter. Take it from there and vary as you like.

The weatherman has promised warm weather for some time to come. Surprise the youngsters by serving their cereal topped with a scoop of vanilla ice cream or iced milk—maybe even strawberry ice cream. This takes the place of milk.

1964 is the one-hundredth anniversary of the first waffle iron. On Sunday morning when time is not so pressing, give the family yeast waffles. This is a recipe that comes from New Orleans.

Waffles A La Crescent City
1½ cups milk
2 tablespoons sugar

1 teaspoon salt
¼ cup (½ stick) margarine
¾ cup warm water (105 degree - 115 degree F.)
1 package or cake yeast, active dry or compressed

Molasses Wafers Crisp 'n' Crunchy

Crisp molasses cookies go well with fruit desserts.

Molasses Wafers

¼ cup sifted flour
¼ teaspoon baking powder
Dash of salt
¼ cup sugar
¼ cup butter or margarine
3 tablespoons light molasses
2 tablespoons water
½ cup finely chopped walnuts or pecans

Sift together the flour, baking powder and salt. In a small saucepan stir together over low heat the sugar, butter, molasses and water; bring to boiling and remove from heat. Stir in the sifted dry ingredients; continue stirring, if necessary, until smooth; fold in nuts.

Drop by level tablespoons onto a lightly greased and floured cookie sheet; keep far enough apart so there are only 6 cookies to a large sheet. Batter should spread on sheet.

Bake in a slow (325 degrees) oven until set and browned—about 12 to 15 minutes. Cool a few minutes to allow cookies to stiffen before removing with wide spatula to wire racks.

2½ cups unsifted flour
2 eggs, separated
Scald milk; stir in sugar, salt and margarine; cool to lukewarm. Measure warm water into large warm bowl. Sprinkle or crumble in yeast; stir until dissolved.

Add lukewarm milk mixture. Stir in flour; beat until smooth. Beat in egg yolks. Let rise in warm place, free from draft, until doubled in bulk, about 1 hour.

Stir down; add a little more liquid if necessary to make soft batter. Beat egg whites until stiff but not dry; fold into batter. Bake as needed in hot waffle iron. Makes 6-8.

HERITAGE

Reminiscent of early pioneer days is a breakfast of bacon, cornbread and apple butter. In the recipe below you can combine all these in one easy recipe. Serve more slices of crisp bacon on the plate with the Bacon Cornbread.

Of cooking bacon, home economists from one meat packing company have this to say:

Cooking bacon by the panful may be done either in the skillet or in the oven. When skillet or griddle are used there's no need to separate the slices in advance. As the cluster of slices start to cook they may be separated easily.

When only two or three slices are to be cooked at one time, use the tip of a rubber scraper to peel off the desired number of slices before returning the

balance of the package to the refrigerator.

Oven baking bacon is a good choice when a large quantity is to be served. Slices are arranged on a rack set in a baking pan. Bake in a hot oven (400 degrees) about 10 to 12 minutes. No turning is needed.

Bacon Cornbread
1 pound sliced bacon
1 cup yellow cornmeal
1 cup sifted flour
¼ cup sugar
2 teaspoons baking powder
½ teaspoon salt
2 tablespoons grated Parmesan cheese
½ cup milk
3 tablespoons bacon drippings
2 eggs, beaten
Apple butter

Cut 4 slices of bacon into thirds. Partially cook bacon pieces. Remove partially cooked bacon pieces from skillet and drain off 3 tablespoons drippings.

Sift cornmeal, flour, sugar, baking powder, salt, and cheese together. Stir in milk, bacon drippings, and eggs. Mix well. Rub the bottom of a 9-by-9-by-2-inch baking pan with shortening.

Pour cornbread into baking pan and arrange partially cooked pieces of bacon on top of cornbread. Bake in a hot oven (400 degrees) about 20 minutes.

Top each serving of hot cornbread with apple butter. Pan-fry remaining bacon and serve with cornbread.

Add a Few Bay Leaves While Spicing Tongue

A 19th Century magazine cookery editor once rhymed this excellent seasoning hint: "To win a laurel wreath for your laurel, Put a laurel leaf in the stew pot now."

After all, the "laurel leaf" (bay leaf to all good cooks) is not only one of America's very favorite spices in meat and sauce cookery, but laurel is the ancient symbol of excellence, of artistic achievements.

The bay leaf is a potent spice, distinctly pungent. It is generally sold whole.

Five to ten minutes simmering should release the flavor and give just a hint of bay aroma to meats, fish, stews, soups, sauces.

Bay leaves are indispensable in pickling, and in the manufacture of vinegar. A cofactor of bay leaves will

include leaves of varying sizes. When a recipe calls for "1 bay leaf" select one about 2 inches long. This is about average size. Otherwise use 1/2 small ones or half of a really large leaf.

Spiced Tongue
 4 1/2 lb. smoked beef tongue
 Water to cover
 1 quart tongue stock
 1 large bay leaf
 1/2 teaspoon whole black pepper
 1/2 teaspoon whole allspice
 1/2 teaspoon whole cloves
 2 tablespoons onion flakes
 1/2 teaspoon instant minced garlic
 1/2 teaspoon salt
 1 medium carrot, peeled and diced
 2 tablespoons flour
 3 tablespoons butter or margarine, softened
 Wash tongue and simmer in

boiling water to cover 2 hours or until tongue is almost tender. Remove tongue from the cooking water. Slip off skin and trim off root.

Place tongue in a saucepan with next 8 ingredients. Cover and cook 1 hour or until tongue is tender, adding carrots 20 minutes before cooking time is up. Remove tongue.

Blend flour with butter or margarine and add to the stock. Stir and cook until sauce is of medium thickness. Slice tongue and serve with the sauce. Yield: 6 to 8 servings.

Switch Size of Pans?

Change Baking Time
 If the cake recipe calls for two 8- or 9-inch pans and you want to make a loaf-type cake, use a 13x9-inch pan. Increase the baking time 5 to 10 minutes. When using pans other than aluminum, it is a good idea to lower the oven temperature 25 degrees. Cakes baked in heat-resistant glass or darkened tin pans will have darker crust color than those baked in shiny aluminum pans.

SPICED TONGUE—If tongue has always been a sort of sometime thing in your house, do try smoked beef tongue in a sauce flavored with a bit of bay leaf and other spices. Delicious hot or cold.

Onion Soup Is a Sauce for Chops, Potatoes

Now that the school bells are ringing daily for the youngsters around your house, it's time for you to be a belle in your kitchen!

Next time you're having pork chops, that's a few liberties in their flock. Let canned onion dry soup mix (now in a new pictorial carton) help you be a skillet magician. Add some sweet potatoes, brown sugar, celery, and seasonings for a different and exciting dish. Complete your exciting dish. Complete your menu with cole slaw and frozen puff pastry apple dumplings.

Keep lots of canned onion dry soup mix on your shelf. Such a versatile product, each little

can is the biggest and best helper in meal preparation. It adds wonderful flavor to all meat and poultry dishes, as well as your favorite casseroles. And — it makes a great dip with sour cream!

Glazed Pork and Sweet Potatoes
 4 pork chops (about 1 pound)
 1 can (1 1/2 ounces) onion dry soup mix
 1 1/4 cups water
 1/2 cup sliced celery
 1/2 cup brown sugar
 3 tablespoons lemon juice
 1/2 teaspoon cinnamon
 4 cups sliced sweet potatoes (about 1 pound)

1 tablespoon cornstarch
 2 tablespoons water
 In skillet, brown meat; pour off fat. Add soup mix, water, celery, brown sugar, lemon juice, and cinnamon. Cover; cook over low heat 15 minutes. Add potatoes; cook 20 minutes or until tender, stirring now and then. Remove meat and potatoes to heated platter.

Combine cornstarch and water; blend into sauce, stirring until thickened. Pour over meat and potatoes. Makes 4 servings.

Use Whole Thing

When a recipe directs you to slice fresh mushrooms, cut through both the cap and stem. If the stems are not to be used, a recipe will usually say so.

Assembly Line Technique Lightens Lunch Making

Ever get tired of preparing lunches five days a week? Members of the family to carry to work or school?

If so, try the freeze-ahead plan. It's much simpler and less time-consuming to prepare basic ingredients for several days' lunchbox requirements at a time, then freeze them for use as needed. You'll find it more economical too, since this is a good

way to use and preserve perishable leftovers that make suitable sandwich fillings.

From the Frigidarium home economics department, come some hints to help make the task even easier: Prepare sandwiches on an assembly line basis — enough for a week or two at a time.

Lay bread slices out on a coun-

ter and spread each one from edge to edge with softened butter or margarine. Butter prevents fillings from soaking into the bread.

Add the fillings you have selected to half the slices, then top with a second slice of buttered bread. Working quickly, wrap in aluminum foil, plastic or other moisture- and vapor-proof packaging material, press out all air possible, and freeze at once.

Label individual sandwiches or place several sandwiches together in a labeled plastic bag.

What foods are suitable for lunchbox freezing?

Almost any food that tastes good cold, home economists say. To name a few, you can freeze bread, boiled or fried meats and poultry; meat loaf; meat, poultry and fish salads; fruit and cream cheese salads; buttered rolls and nut or fruit breads; individual portions of cake, cookies or cupcakes.

Some of the best fillings for frozen sandwiches are sliced cooked meat and poultry, sliced process cheese, chopped or ground meat spreads, cheese spreads, peanut butter, canned fish, and egg salad

made only from the yolk. (Egg whites toughen when frozen. If used, chop very fine.)

Moisten with salad dressing and season to taste with mustard, horseradish, catsup, chili

sauce or pickle relish. Here are some tasty tested sandwich fillings.

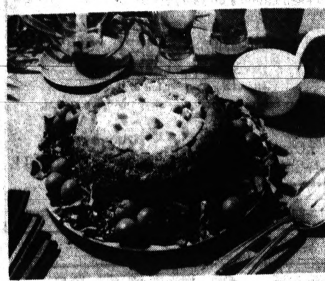

Chicken Almond Sandwich Filling
2 cups chopped cooked chicken

6 tablespoons chopped toasted almonds
¼ cup salad dressing
2 tablespoons lemon juice
Salt and pepper
Combine all ingredients.

Spread on slices of white or whole wheat bread. Makes eight sandwiches.

Peanut Butter Date Sandwich Filling
2 cups crunchy peanut butter

1 cup chopped pitted dates
2 tablespoons lemon juice
Honey to moisten
Combine all ingredients. Spread on slices of bread. Makes eight sandwiches.

WHEAT-MEAT LOAF—Here is a hot day favorite. Prepare this meat loaf in a ring mold early in the morning. Get the baking done before the day really gets hot. At dinner time fill the loaf with potato or cooked vegetable salad. Wheat germ makes the meat loaf more nutritious.

Chill Wheat-Meat Loaf and Fill With Cold Salad

After a sizzling summer day when you can almost see the heat shimmering up from the sidewalks, when leaves hang limp and lifeless in the blistering sun and even flowers droop their heads and wilt, who wants to cook a big meal for the family? But, though appetites lag, good food is a must, and there is a way to supply it without too much exertion.

Do whatever cooking must be done as early in the morning as you can — even before you wash the breakfast dishes. Choose foods that can be served cold,

or quickly warmed at dinner time.

Give the family time to shower and relax before they eat. Then, when the fierce sun has moved far into the west, serve dinner in the coolest spot you can find, outdoors or in, and be leisurely about the eating.

This savory meat loaf, baked in a ring, tastes better and slices better after chilling. Fill the center with potato or cooked vegetable salad and add some raw vegetable relishes. Roast slices of chilled watermelon make a perfect dessert. And, if you want something hot, make it the beverage or a clear soup served in cups, as a beverage, with the main course.

The meat loaf recipe is one you will treasure for flavor and for food value, too. Lean beef, egg and a cup of golden wheat germ sparkled with zestful condiments and baked more quickly in a ring mold than in a loaf pan. What more could you ask? The wheat germ adds incomparable values in vitamins and minerals, greatly improves texture and slice-ability and adds delicious flavor. You'll love it!

Savory Meat Ring
2 lbs. lean beef, ground
1 cup wheat germ
2 eggs
2 teaspoons salt
1 tablespoon prepared mustard
½ cup catsup
Few drops Tabasco
2 teaspoons Worcestershire sauce
1 large onion, minced
2 tablespoons prepared horseradish

Combine all ingredients; mix thoroughly. Pack into greased 8-inch ring mold. Bake at 350 degrees for 40 to 45 minutes. Let cool; unmold; chill. Fill center with potato salad. Garnish with water cress and cherry tomatoes, if desired. Makes 6 servings.

Butterscotch Sauce Rich and Creamy

A professional-type sauce with just the right texture.

Butterscotch Sauce
½ cup firmly packed light brown sugar
2 tablespoons light corn syrup
¼ cup heavy cream
1 tablespoon butter or margarine
½ teaspoon vanilla
In a small heavy saucepan over moderately low heat, stir together the brown sugar, corn syrup, cream and butter until just at the boiling point; simmer, stirring, for 5 minutes or until sauce is thick and smooth. Stir in vanilla. Serve hot. Makes ½ cup.

Toasted Cheese Bread

Toast bread lightly; spread with mayonnaise and sprinkle with grated cheese, toast again under the broiler to melt cheese. Serve with soup or salad.

Frozen Beans Are Pickled

When fruits and vegetables have fleeting seasons, a cook's fruit cellar sparkling with an enticing array of preserves was her pride. The freezer and rapid transportation have eliminated the kitchen urgency once imperative, but not our pleasure in savoring spicy condiments. The following recipe offers that savor and couldn't be easier to prepare.

ROANOKE PICKLE
Bring to a boil, stirring until sugar dissolves:
½ cup vinegar
½ cup sugar
¼ teaspoon salt
Dash cayenne
Dash monosodium glutamate
1 tablespoon instant minced onion
Thaw, drain, and add:
Two 9-ounce packs frozen green beans, cut French style
Cover and cook about 3 minutes, or until beans soften slightly. Refrigerate until cold (they keep at least a week). Just before serving, toss and correct seasoning. Make a bed of sliced tomatoes on a platter and spoon beans and their dressing over the tomatoes. Makes 6 servings.

Cheese Fine for Dips

An ounce of cream cheese blended with 6 slices of cooked bacon, crumbled, makes a delightful celery stuffing when it's made zippy with a teaspoon or less of horseradish.

Blend 1 can (4½ ounces) of deviled ham with 1 cup cottage cheese and season with ¼ teaspoon dill seed, ¼ teaspoon basil and ¼ teaspoon garlic salt. Use as a topping for crackers.

Broiled Doughnuts

Have plain doughnuts crosswise. Spread the cut surfaces with soft butter or margarine and toast lightly under the broiler. Serve hot.

This Pudding Has Glamour and Taste

Luxurious bread pudding.

ORANGE BREAD PUDDING
1 tablespoon cornstarch
½ cup sugar
¼ teaspoon salt
2 large egg yolks
¼ cup milk
2 tablespoons butter or margarine
1 teaspoon grated orange rind
1 teaspoon vanilla
1 cup diced membrane-free orange sections
1½ cups bread cubes
In a saucepan, stir together the cornstarch, sugar and salt; blend in egg yolks and ¼ cup of the milk, mix in remaining milk. Stir and cook over very low heat until mixture is slightly thickened and coats a metal spoon — about 10 minutes. Stir in butter, orange rind and vanilla.

Arrange oranges and bread cubes in a round 1-quart casserole (about 7 by 2½ inches). Pour sauce over oranges and bread cubes. Place casserole in a pan of hot water.

Bake in a slow (325 degrees) oven 1½ hours or until firm in center. Cover with meringue. Return pudding in water bath to a slow (300 degrees) oven.

Bake 20 minutes or until meringue is lightly browned. Serve warm. Makes 6 servings.

Meringue — Beat 2 large egg whites until they hold soft peaks. Gradually beat in 4 tablespoons sugar and ¼ teaspoon vanilla.

NEW SPICED PEAR GELATIN — This dramatic refrigerator cake receives its delicious fresh pear flavor from new Spiced Pear

Gelatin. The accompanying sauce is made easily by thickening thawed, frozen raspberries with a little cornstarch.

New Spiced Pear Gelatin Is Introduced in Dessert Recipe

The newest, easiest way to add the delectable flavor of plump fresh pears to a wide range of salads and desserts is with the aid of a new fruit-flavored gelatin—spiced pear. It is just beginning to appear at local food stores.

With its sunny golden color and distinctive, subtly-spiced fresh pear flavor, it is certain to add new interest and appeal to many gelatin salads and desserts. Excellent choices are recipes that feature the classic combination of pears and cheese.

For example, gelatin cheese pies and cakes made with either cottage or cream cheese. Salads ranging from clear gelatin molds containing camped pear halves and balls of cream cheese to misty, whipped mixtures made with a large amount of cottage or cream cheese.

In the recipe that follows, the new spiced pear gelatin is featured in an elegant refrigerator cake that is appropriate for summer meals. So that the cake will slice beautifully when ready to serve, chill it at least six hours or overnight.

Pear Refrigerator Cake

1 can (1-pound) pear halves
1 package (3-ounce) spiced pear gelatin
1 cup boiling water
1 cup heavy cream, whipped
24 ladyfingers, split
Drain pear halves, reserving

Coffee Dough Shaped Into Little Wands

The small coffee, a dainty cup of demitasse, lends itself as nicely to the afternoon as it does to the after-dinner coffee hour. This fragrant coffee is brewed half again as rich as usual.

For something dainty and delectable to serve with small coffee, try these Coffee - Walnut Wands, coffee - flavored cookies tipped with chocolate and chocolate nuts.

Coffee-Walnut Wands

½ cup butter or margarine
½ cup firmly-packed brown sugar
¼ cup whipping cream
2 cups sifted all-purpose flour
½ teaspoon baking powder
½ teaspoon salt
2 teaspoons instant coffee powder
½ cup semi-sweet chocolate pieces
2 tablespoons sugar
2 tablespoons water
½ teaspoon rum flavoring
½ cup chopped walnuts

Cream butter and brown sugar until fluffy. Blend in cream. Mix and sift flour, baking powder, salt and coffee powder; stir in. Chill several hours.

Shape into "wands" about 2" long, ½" in diameter. Bake on ungreased cookie sheets at 275 degrees, 10 to 15 minutes. Cool on racks.

Combine semi - sweet chocolate, sugar and water in top of double boiler. Stir over hot water until chocolate melts. Add flavoring. Dip one end of each "wand" in chocolate mixture, then in nuts. Makes 48.

Good trick: add chopped fresh tomatoes to pot roast gravy.

Vegetables Are Delicious When Cooked Well

If tomatoes are your choice, try combining them fresh, but cut up, with chilled cooked corn plus chopped celery and green pepper for a different, delicious salad. Serve with a sweet French dressing.

For fun, fix acorn squash as "boats." Halve squash lengthwise, leaving skin on, and remove seeds. Season with brown sugar, butter, salt, pepper, and ground cinnamon before baking.

Serve hot roasted ears of corn with an assortment of "salt" shakers — as well as butter. Offer celery, onion, garlic and other seasoned salts in addition to plain salt.

For in-the-oven cooking of purple-jacketed eggplant, cut into strips, leaving on the outer skin. Dip in egg and fine bread crumbs, then brown.

Take these ideas for "seeds" and develop original menu variations for all the colorful, plentiful late summer vegetables.

Nice for company: hollowed out tomatoes filled with fluffy mashed potatoes and baked.

Coat With Chips

Broil Popular Salmon Steak

Salmon has long been a favorite of good cooks — in fact, evidence indicates that its popularity dates back to prehistoric times. Cave drawings unearthed in southern France and Spain show that salmon was a specialty of Paleolithic cooks living 40,000 years ago.

Today, according to the National Fisheries Institute, salmon is more popular than ever. It is commonly marketed in the form of cross-section slices, called "steaks," which are ready to cook. And with modern fast-freezing techniques, salmon is available in all parts of the country throughout the year.

This recipe for Crispy Broiled Salmon Steaks has been adapted from a specialty of the Lord Jeffrey Inn, Amherst, Massachusetts.

Crispy Broiled Salmon Steaks

3 salmon steaks, fresh or frozen
¼ cup melted butter or margarine
½ teaspoon salt
Dash paprika
¼ cup crushed saltines
¼ cup crushed potato chips
Lemon wedges
Parsley

If frozen steaks are used, let thaw on refrigerator shelf or at room temperature. Dip each steak into melted butter, seasoned with salt and paprika. Roll in combined crushed saltines and potato chips. Dip lightly in the butter again and place in preheated broiler 4 inches from source of heat.

Broil until golden brown, about 5 minutes. Turn steaks carefully and broil 5 to 8 minutes more or until fish flakes easily when tested with a fork. Brush lightly with any remaining butter and garnish with

Avoid Newspapers

as Fuel in Grills

Outdoor chefs were warned by the Food and Drug Administration recently not to use newspapers as fuel in outdoor grills. Special grills which are fueled by newspapers instead of charcoal have recently been put on the market.

FDA said that substances in the ink and chemicals used in paper manufacture might be of questionable nature, and indicated that it is looking further into the situation.

Pork Tenderloin Is Sliced and Braised

Pork tenderloin usually is cut into slices and flattened. The slices should be braised, that is, browned in a small amount of hot fat, then covered and cooked

slowly with a little added liquid until tender, 30 to 40 minutes, advises the American Meat Institute.

The liquid may be water, bouillon, tomato juice, barbecue sauce or soup. Whole pork tenderloin may be oven roasted.

Make Your Own

Men usually like onion sandwiches and they don't mind making their own at a party. Provide an assortment of dark bread, thinly sliced sweet onion, butter and mayonnaise — all set out on a convenient tray.

UAW-Chrysler Plan Makes Early Retirement More Attractive

DETROIT (AP)—An auto worker may in the future get about \$30 of his weekly wage for not working at all.

The auto worker would be a man retiring at age 60 with 30 years service, earning the current average hourly wage of \$3.01.

Also, he would be retiring after Sept. 1, 1965, under the new Chrysler Corp. agreement which the United Auto Workers hope to equal or better at General Motors Corp. and Ford Motor Co.

Ironically, that worker's pension would drop when he reached age 65 and began drawing Social Security benefits, but it was planned that way — to make early retirement attractive.

TOP GOAL

Earlier retirement (under 65) was a top goal of the UAW in this year's bargaining, which resulted Wednesday in the industry's first new three-year pact at Chrysler.

UAW President Walter P. Reuther argued earlier retirement as a means of getting older workers out of the plants and younger would-be workers off the streets. He said an incentive was necessary, and said he got it.

The company agreed to raise the base pension payment from \$2.80 monthly for each year of service to \$4.25, effective next Jan. 1, and the boost applies to present and future retirees.

Then, beginning Sept. 1, 1965,

Worker Pay Not Forgotten

Smallest Wage Hike
Set at 2.5 Per Cent

DETROIT (AP)—United Auto Workers union employees at Chrysler Corp. will get little more in the way of straight pay under the contract signed Wednesday, but they'll pick up some in take-home pay and there's a lot brighter outlook for their old age.

Pensions, both for workers already retired and for those still active, show a major improvement.

Chrysler will assume the full cost of group insurance and health insurance, thus giving workers an increase in take-home pay.

Annual pay increases of 2.5 per cent or six cents an hour, whichever is greater, will be continued in the first two years of the contract with 2.5 per cent for the third year. These increases will come under the so-called annual improvement factor, an automatic wage increase designed to share with workers the benefits of cost-saving technological advances.

Other highlights of the agreement are:

- Chrysler will allow a full extra week of vacation pay for all eligible employees with more than one year of seniority.

Hospital—Medical—Surgical Benefits

- Chrysler will assume full payment of rate increases in hospital-medical-surgical premiums.

- Short-term therapy for psychiatric cases, increased hospital benefits for nervous and mental disorders and long-term illness and convalescent care are covered in new programs.

- Chrysler will pay the full cost of hospital-medical-surgical coverage for future eligible retirees and former employees already retired.

Holidays

- Good Friday and employees' birthdays will be added to the present six full- and two half-day paid holidays.

Additional Relief Time

- Employees who have no control over their work pace will be granted a total of 36 minutes in relief time each day, compared with the present 24 minutes.

Cost of Living Allowance

- Nine cents of the current 14 cents cost of living allowance will be incorporated into the base wage raises retroactively to Sept. 7. Thus, the cost of living allowance could not decline more than five cents from its present level.

Tuition Refund

- Chrysler employees who wish to continue their education through wage-time class studies will have their tuition reimbursed up to \$250 a year upon satisfactory completion of job-related courses.

the company agreed to pay from his pension fund for any one retiring at 60 an amount sufficient to bring benefits to 70 per cent of base pay, up to a maximum of \$400 a month.

LOSE PENSION

At age 65, however, when an employee would qualify for Social Security benefits, he would lose his pension supplement and revert to the straight \$4.25 for each year of service.

A 30-year man then would

draw a company pension of

\$127.50 a month, plus Social Security of \$127 for himself and \$63.50 for his wife. Totaled, he would get \$318 a month.

If he retired at 60 and had been earning the average of \$3.01 an hour, he would have been getting \$337.60 monthly in company pension alone. He may get an additional \$10 at 65 under Social Security if a pending boost finally passes Congress, but he still would have

been money ahead to have quit at 60.

Anyworker now would have the privilege of retiring at 60.

Heretofore the normal retirement age has been 65 under mutually agreeable circumstances. Compulsory retirement age was and still is 65, 10 YEARS

To retire, a worker must have at least 10 years seniority, and his combined age and years of service must total 65 before he

can take advantage of early retirement.

It even is possible for a worker to retire at 55, provided he has 30 years service—or a combined total of 65—but if he quits then he is penalized 5-8ths of one per cent for each month retirement precedes age 60, according to Reuther's explanation.

In other words, the UAW chief said a man retiring at 55 can draw in company-paid pensions over 10 years what a 60-year-old

retiree could collect in five.

The industry's Big Three—General Motors, Ford and Chrysler—contend their average pay exceeds the \$3.01 as figured for the automotive industry as a whole by the Bureau of Labor Statistics.

Reuther, who termed the yet-to-be-signed Chrysler agreement "the most historic in the American labor movement" with respect to pensions, estimated that the average 30-year Chrysler

worker would qualify at 60 for roughly \$381 a month.

He said the pension rate would go up to approximately \$391 a month for those retiring after Sept. 1, 1965, because wages will go up automatically under the new agreement by 2½ per cent annually, so 70 per cent of the base rate would be greater.

A 60-30 skilled tradesman in the \$4.50-an-hour pay range would qualify for an early retirement pension of approx-

imately \$604 a month — but he'd be cut off at \$400 by the maximum agreed upon.

Service During WW II Outlined

Military Records of Candidates Slip Into Election Campaign

WASHINGTON (AP) — The question of the candidates' military records has slipped into the election campaign. Republican vice presidential candidate William E. Miller told a Chicago audience Sunday that he thought discussion of this sort of thing was "nit-picking."

Then he said he hadn't intended to mention that Hubert H. Humphrey, his Democratic vice presidential opponent, had not served in World War II.

Here's a rundown on the candidates' records — as provided by the congressional offices of Sen. Barry Goldwater, Republican presidential candidate, Sen. Humphrey and Rep. Miller, and in the case of President Johnson, by the White House:

PRESIDENT JOHNSON
Joined the Navy Dec. 8, 1941, the day after Pearl Harbor, as a lieutenant commander, said to be the first congressman to enlist.

He took part in bombing missions in the South Pacific

and was awarded the Silver Star. He returned to Washington in July 1943 when President Roosevelt decreed that members of Congress could not serve in the armed forces.

SEN. GOLDWATER
He became a second lieutenant

in the Infantry Reserve in 1930, assigned to the 25th Infantry. He was ordered to active duty Aug. 1, 1941, and assigned to the Air Corps at Lake Field, Ariz.

In May 1942, he was rated as a service pilot and was director

of ground training and gunnery at the Air Force's advanced flying school. In May 1943, he transferred to the Second Flying Group, and was operations officer of the 27th Flying Squadron. Duties included ferrying

of aircraft in the United States and overseas.

He took part in the first and only flight of P-47s across the North Atlantic in August 1943. He served as chief pilot, Air Transport Command, in the Azores, Casablanca, and India.

In October 1944, he transferred to the 402nd SAF base unit at Glendale, Calif., and was assistant director of gunnery operations. He also was in charge of organization training in combat operations.

Goldwater was relieved from active duty Nov. 22, 1945. He currently is a major general in the Air Force Reserve. His decorations include China defense with battle star, and the Air Medal.

REP. MILLER
Miller was inducted into the Army as a private July 1, 1942. He took his basic training at Ft. Meade, and then was assigned to military intelligence. Details of this service were not available.

In January 1945, Miller was selected for officers candidate school of the Judge Advocate General's office at Ann Arbor, Mich.

He graduated in May 1945 and was commissioned a first lieutenant and assigned to the Army's war criminals branch in Washington.

In August 1945, he was named assistant prosecutor to the late Justice Robert A. Jackson. The biography says "in this post he played a major role in the prosecution of the Nazi war criminals during the trials at Nuremberg, Germany."

In March 1946 he resumed private law practice.

SEN. HUMPHREY
In 1941 he served with the War Production Administration, as supervisor of teaching for the organizations workers education service. In 1942 he became Minnesota state director of war production training, and in 1943 was assistant director of the War Relocation Commission.

In 1943 he went to Macalester College in St. Paul, Minn., as an instructor for the Air Force's Reserve Officers Training Corps. As such he was classified in the draft as 2A, which meant he was a civilian in an essential job.

During 1943-1944, his office said, Humphrey tried at least 20 times to enlist in the Navy, but was turned down because of color blindness and because he had a double hernia.

In July 1944, he was reclassified 1A and was called up the next month, but his induction was deferred because of a new regulation exempting men over 30 with children. He then was 33 and the father of three and still had the double hernia.

In December 1944, heavy draft calls were started again, and Humphrey reported for induction Feb. 12, 1945. He again was turned down for physical reasons.

Kennedy Felt Right at Home

KENNEDY, N. Y. (AP) — "They call me a carpenter, but I have a city named for me," said Robert F. Kennedy at a campaign rally in Buffalo, N. Y., last night.

But residents of Kennedy, N. Y., think otherwise. They say the last of 800 was named for a physician who was a founder of it.

Kennedy, running for the U.S. Senate from New York, has had residences until recently in Massachusetts and Virginia. His Republican opponent brought the carpenter charge.

Plane Is Damaged, but Occupants Safe

MANISTEE (AP) — A two-seat Piper airplane suffered a broken pontoon landing in rough Lake Superior waters outside Manistee's harbor Wednesday, but its two occupants escaped injury. The Coast Guard towed the plane to harbor. Aboard were the pilot, Don Eckman of Milwaukee, and Curtis Carlson of Oshkosh, Iowa, who had landed here for gas en route home from a Canadian fishing trip.

24 Injured at Indiana Crossing

Truck-Train Crash Kills Driver

ATTICA, Ind. (AP)—A truck driver died and 24 train crewmen and passengers were injured as the Wabash Railroad's Cannonball smashed into a truck Wednesday 15 miles southwest of Attica.

The driver, Harold E. Mauck, 51, Tillon, Ill., was thrown from the cab to the railroad right-of-way 85 yards from the gravel road crossing where the train hit the truck.

The twin diesel locomotives and all six cars of the train were derailed.

The truck was carrying blocks for a house being built nearby. Mauck had crossed the tracks once on the twisting road and was crossing it again when the train hit the truck.

The train, carrying only two passenger cars and about 50 passengers, was running from Detroit to St. Louis.

The Rev. William Cuppins of Detroit, a Roman Catholic

priest who was passenger, said, "I've been in a wreck and I

"This was the first time I have I hope it is the last time."

6 Michiganites Hospitalized

DANVILLE, Ill. (AP)—Six Michigan residents were hospitalized in Danville Wednesday after a train bound from Detroit to St. Louis rammed a truck at a rural crossing near Attica, Ind. The crash killed one person.

Among a total of 24 persons hospitalized were three Detroiters—train baggageman Louis Cloutier, 68; William Jerry, 36, and Prue Clemons, 51. The total also included Evelyn Robinson, 89, of Inkster; Joanna Malone, 77, of Ashton; and Vallie Forster, 71, of Highland Park.

Six years ago scarcely 2,000 Italians sailed on the seas around Italy in their own pleasure craft. Now more than 60,000 do.

TELLS OF ORDERS — President Johnson told a news conference at the White House yesterday he has ordered the FBI to compile reports on recent street rioting to see if a common pattern exists.

Talks in Pennsylvania Tonight

Johnson to Take Political Trip

WASHINGTON (AP) — President Johnson makes the first openly political trip of his campaign tonight, flying to Harrisburg, the Pennsylvania capital, to address Democrats at a \$100-a-plate dinner.

The President, who will leave the White House by helicopter at sundown, will fly direct to Harrisburg, where he will address Democrats at a \$100-a-plate dinner.

Then, after a few good night handshakes, he will return to Washington.

Party leaders in Harrisburg predicted 6,000 diners would attend the event in the Farm Show Arena building. Tickets have been on sale for days but the White House did not acknowledge until Wednesday that the President would attend.

Johnson made his first trip of the campaign Monday, addressing the annual AFL-CIO Labor Day rally in Detroit.

Although this affair had been, for 16 years, the traditional launching pad for Democratic campaigns, Johnson declined to regard it as the kickoff for his vote drive.

In fact, he wouldn't even agree that it was a political trip, though the Democrats paid his air fare.

Against this backdrop, one reporter asked Wednesday when and if he expected to begin his campaign. The President hesitated for a moment, then smiled and replied, "Well, when I do I'll tell you."

POLITICAL FORAY

Johnson went on to say that

WASHINGTON (AP) — President Johnson has directed the FBI to compile hundreds of reports on recent street violence so he can see if any common pattern exists and decide whether any new laws are needed.

The President told an impromptu news conference in his office Wednesday that he has already informed mayors and governors where such rioting has occurred that the federal government will "make available the full information we may have" and offer any extra help under present laws.

Johnson said such offers have been made to officials in New York, New Jersey, Maryland, Mississippi and Georgia.

About 50 reporters were present for the late-afternoon conference.

In his announcement, the President said the FBI is gathering reports on "riots and disturbances of the peace" at the rate of "about 40 a night."

He said the reports might reveal "some particular pattern that will need to be pointed up,

Minister Drowns Trying to Save Boy

ST. CLAIR (AP) — A minister drowned in the Bella River Wednesday while trying to rescue a floundering boy.

The Rev. Grover Jones, 55, of Marysville went down four miles southwest of here as a group of boys looked on.

A passing motorist helped rescue the boy who had cried for help.

and that will lead us to make further recommendations," including proposals for new federal laws.

He said he referred "specifically (but) not exclusively," to riots such as those in Philadelphia and New York's Harlem.

The FBI compilation, Johnson said, would include "the various problems that we have encountered in cities and in states that could involve a violation of

federal laws, and that do involve disturbances, such as riots and disturbances of peace."

Johnson said it was evident

Cassopolis Man Killed

CASSOPOLIS (AP) — Lloyd S. Rerick, 52, of Cassopolis was killed today when his car overturned on M62 about four miles northwest of this Cass County community.

from reading the newspapers that there had been "considerable agitation in these disturbances." He declined to say if the FBI had found that known Communists were helping to foment trouble in such areas as Harlem.

The U.S. Junior Chamber of Commerce Safe Driving Road-E-O this year attracted \$10,000 teen-age contestants in 2,140 communities.

Wert, Lolich Shine Spotlight as Tigers Humble Yankees

The sports world is expecting its greatest calendar of events in history, nationally and internationally, during the months of September and October, and the Associated Press wire services and writers throughout the world have geared themselves.

The barrage of sports activity starts this week and will intensify as the weeks go by in the same hectic manner of the political campaigns which reach a climax in November.

The National Tennis championships have started. The Curtis Cup matches, Final Olympic track trials, World Series of Golf, pro football season opens all get under way this week end.

The baseball races in the National and American leagues are still trying to reach respective show-downs, and next week the National Amateur golf tournament, American Cup, college football, high school football all get into the picture.

The last week of September and early October will include Davis Cup tennis matches, all levels of football, pro basketball, hockey, World Series, and the Olympic games from Tokyo.

SPORTS EXPOSURE

For the next 18 weeks, boys and girls of all ages as well as adults will be exposed to greatest era of sports and regardless of an individual's attitude toward athletics, today's modern way of life puts tremendous values on the athlete and athletics.

Some of the highest degrees of esteem among boys are reserved for those who excel in sports; and athletics, now a significant part of the American culture, should be fostered and encouraged as integral part of our society.

The start of school and the great amount of sports activities for the next two and half months, makes it advantageous to make athletics a conjunctive part in many classrooms.

Educators—Help our youngsters become sports minded and physically fit.

DITTO FROM THE PRESS BOX

Charlie Irish, Pontiac's No. 1 sports fan, wants an investigation of the yearly dominance of the Detroit Pepsi-Cola team in the Michigan Amateur state baseball playoffs.

The Detroit 9 won the title again this week and Irish isn't convinced that the word "amateur" champion belongs to the winners.

Many Detroit Lions' players have rejected commissioner Pete Rozelle's offer to let him act as negotiator for the entire league in regard to commercial endorsements.

Rozelle sent each player in the NFL a form to be signed thereby making him their bargaining agent to firms seeking player endorsements.

A large number of the forms from the Lions were returned unsigned.

Official Approval Given on Sale of Yankees

BOSTON (AP)—"I just hope I will never have to say 'damn it, I told you so'."

Arthur Allyn of the Chicago White Sox, a very fierce and frustrated club owner, voiced this fervent wish today after having led and lost a vigorous battle to stop the Columbia Broadcasting System from entering the inner sanctum of major league baseball.

By the same 8 to 2 club owner count that had been acquired in a telegram and telephone poll of a month ago, the American League, in a near day-long meeting Wednesday, officially approved the sale of 50 per cent of the New York Yankees for \$11.2 million to the national television and radio network.

FINLEY UNHAPPY

Dr. Frank Stanton, CBS president, expressed delight and gratification with the manner in which the club owners handled the controversial matter but Charles O. Finley of the Kansas City Athletics, angrily

called the American League action "a railroad job."

"I requested of Dr. Stanton that CBS withdraw its offer to purchase the Yankees for the good of baseball," said Finley, first of the owners to exit from the stormy 7½ hour session behind locked doors. "The gentlemen very graciously, however, stated he would not withdraw."

Finley reiterated his threat to sell his club to a Kansas City interest for \$8 million and again charged that the Yankee-CBS transaction would result in a thorough investigation by the Justice Department of baseball's immunity from antitrust laws.

NO GUARANTEE

"We realize, of course, that no one can give you a flat guarantee that the Department of Justice will not undertake an investigation of the ownership of the Yankees by the American League colleagues of hasty and unwise action."

Allyn, less vehement but equally as determined as his Kansas City counterpart, accused the ownership of the Yankees by CBS would or might result in prosecution of the league, or CBS for violating the antitrust laws.

The young-looking White Sox head coach vainly to delay the vote, proposing that the league engage outside counsel, distinguished in the field of antitrust law, to advise it from a wholly objective point of view, whether the ownership of the Yankees by CBS would or might result in prosecution of the league, or CBS for violating the antitrust laws.

Allyn's proposal was rejected by a 7-5 vote, Baltimore joining the White Sox and Athletics in voting in the affirmative.

Healthy Boog Sparks Oriole Pennant Drive

Powell Leads Attack in Twinbill Split; White Sox Lose

By THE ASSOCIATED PRESS

Happiness is a healthy Boog Powell.

To the Baltimore Orioles, that is. To the other American League pennant contenders, a healthy Boog is unhappier than a Shakespearean tragedy.

Powell, the Orioles' slugging left fielder, exploded for a pair of two-run homers in Baltimore's 6-3 first-game victory over Washington and belted three singles in a 4-3 losing cause in the second game of the Wednesday two-night double-header.

Despite the split, the Orioles increased their lead to one game over second-place Chicago and 1½ games over third-place New York. The White Sox lost to Minnesota 5-2 while Detroit dumped the Yankees 4-0.

OUT 14 DAYS

Powell returned to action only last Saturday after missing 14 games with a fractured wrist suffered against Boston Aug. 20. During his absence, Baltimore managed only an even split in 14 games.

Powell failed to hit in his first three times at bat after his return but now has seven hits in his last 11 trips to the plate, raising his average to .291.

He slammed his 33rd homer following Buster Narum's walk to Norm Siebern in the first inning of Wednesday opener and came back with his 34th after another walk to Siebern in the sixth.

The 23-year-old Powell figured in all of the Orioles' scoring in the nightcap. He ignited a two-run rally in the fourth inning with a one-out single and stroked a clutch single in the sixth when the Orioles tied the game 2-2.

In the only other AL game, Boston edged Cleveland 6-5 in 10 innings.

ORIOLES DIVIDE

A former Oriole, Willie Kirkland, prevented a doubleheader sweep of the Senators. Kirkland, whom Washington acquired from Baltimore last month, closed a two-out homer in the ninth inning of the second game, breaking the 3-3 deadlock.

Chicago remained only .004 ahead of the Yankees as the Twins battered 17-game winner Juan Pizarro in the second and third innings.

Minnesota tied the game 2-2 in the second as Jimmie Hall doubled in a run and scored on Earl Battey's single. Bob Allison snapped the stalemate with a two-run triple in the third, then scored as Hall fouled out.

HOME RUN

Carl Yastrzemski's two-run homer in the 10th inning carried the Red Sox past the Indians. Woody Fike countered with a bases-empty blast in Cleveland's 10th, but that wasn't enough.

Dick Radatz, the victim of Held's homer, tied a league mark with his 71st pitching appearance. Baltimore's Stu Miller set the record last season. The major league record is 74, held by Jim Konstanty of the 1960 Philadelphia Phillies.

Pro-Am Play Opens Today

GRAND RAPIDS (AP)—Cascadia Hills Country Club is host today to the annual Michigan Pro-Am Golf Championship with 100 teams entered for the opening round.

"Rod (her husband) and I had already made reservations to pick up the baby in St. Louis tomorrow and then go home," the blonde one-time protégé of Maureen (Little Mo) Connolly said after her victory.

"Now we'll have to stay around a while, but I don't think it will be very long. I don't think I have a chance to go through."

READY TO LEAVE

She became one of five American survivors in the quarterfinals, the best American showing in the last few years.

"I had (her husband) and I had already made reservations to pick up the baby in St. Louis tomorrow and then go home," the blonde one-time protégé of Maureen (Little Mo) Connolly said after her victory.

"Now we'll have to stay around a while, but I don't think it will be very long. I don't think I have a chance to go through."

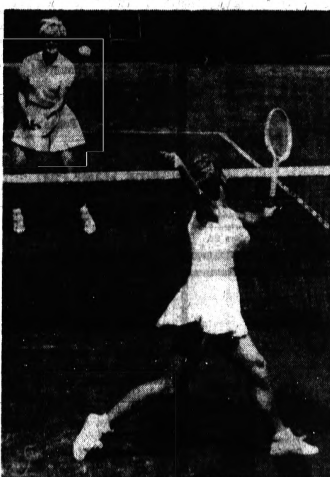

Most observers were inclined

SPORTS

DEAD AIM FOR '64 — There are four-captains on the Lions' squad this year, two offensively and two defensively and their aim is all the same for 1964 — the bulls-eye. Left to right, Dick Lane, Jim Gibbons, Terry Barr and Joe Schmidt,

show their target in the NFL this year. Lane, who recently went through surgery, is with the team on the West Coast but will not play for several weeks.

LEFTY DOES ALL RIGHT — Left-handed Ann Hayden of England (forecourt) slams a return to her opponent, Jilka Horcickova, of Czechoslovakia enroute to a 6-1, 6-1 triumph in the quarter finals of women's singles of national tennis championships at Forest Hills, N.Y., yesterday. The win moved Ann into the quarter-finals.

Lions Facing 2 Big Games

By BRUNO L. KEARNS

Sports Editor, Pontiac Press

PALO ALTO, Calif. — There was a day not too far back when National Football League teams thought winning two games on the West Coast, in Los Angeles and San Francisco, a gigantic accomplishment.

In recent years, however, the double victory on the coast trip has become a common requirement, especially for the teams considered leading title contenders.

The Chicago Bears, however, did not find this to be true last year as they lost their only game of the season in San Francisco.

Now the Detroit Lions are aware that if they are to be sold Western Division contenders they must return home Sept. 20 with a pair of wins.

Karen's two very important "games for us," said coach George Wilson, "and we want to take them one at a time."

At first it was feared that a Brodie may have suffered a broken finger in the 21-17 loss to the Rams last week, but a medical check indicated that it was a jammed finger and was not serious.

Christiansen, the former leader of what was once the most vaunted defensive backfield in the NFL (known as "Chris' Crew") and included Yale Larry, Jimmy David and Carl Kariavac, is probably going over the Lions exhibition season film thinking that the secondary must not be what it used to be.

Eleven touchdowns have gotten by the Lions' secondary in five games. However, last week, in a complete reversal, four New York passes were intercepted.

The game in San Francisco will start at 3:30 p.m. Pontiac time.

Upset Boosts U.S. Women's Tennis

FOREST HILLS, N.Y. (AP) — Women's tennis in the United States is on the ascendancy again after a brief lull.

and in the forefront is a demure California mother, Karen Hantze Suman.

Mrs. Suman, 21, of San Diego, Calif., fashioned the biggest upset of the National Championships Wednesday when she knocked out Margaret Smith of Australia, the 1962 champion and No. 2 seed, 4-6, 6-4, 6-4.

She became one of five American survivors in the quarterfinals, the best American showing in the last few years.

"Rod (her husband) and I had already made reservations to pick up the baby in St. Louis tomorrow and then go home," the blonde one-time protégé of Maureen (Little Mo) Connolly said after her victory.

"Now we'll have to stay around a while, but I don't think it will be very long. I don't think I have a chance to go through."

Most observers were inclined

to disagree. In beating the tall, powerful Miss Smith, Karen showed the best tennis flashed by an American woman since Darlene Hard won in 1961. She scrambled but she fought and she came through with the big shot in the clutch.

Karen foot-faulted 20 times and served 16 double faults in the first two sets but won when the Australian girl double-faulted at set point in the last two sets.

NEXT OPPONENT — Karen's quarter-final opponent is Santa Catalina Graebner of Canada, Ontario, Calif.

The winner plays the survivor of the match between third-seeded Billie Jean Moffitt of Long Beach, Calif., and Nancy McKinley, survived to the men's quarter-finals but they have a hard road ahead against invading rivals, including Australians Ray Emerson, Fred Stolle and Tony Roche, plus defending champion Raelael Osuna of Mexico.

College Student Cans Ace at Bald Mountain

Edmund Wask, 861 Spence in Pontiac, recorded the first hole-in-one of his young career last weekend at Bald Mountain Golf Course.

Using a six-iron, the 20-year-old student at Flint Junior College ace the blind, 173-yard 14th hole while playing a round with his father, Edmund, Sr.

Mickey Trims Bombers, 4-0, for 16th Win

Infielder Wallops Three-Run Circuit Belt Off Loser Ford

DETROIT (AP) — Don Wert doesn't play the hero's role for the Detroit Tigers very often but he remembers that many of his run-producing hits have helped beat the New York Yankees.

Wert's three-run homer in the seventh inning Wednesday night capped a four-run rally which carried the Tigers to a 4-0 victory over the Yankees.

The young Tiger third baseman had to share the spotlight with pitcher Mickey Lolich, who recorded his seventh victory in a row and third straight shutout on a fifty-five-hitter.

ANOTHER START

Manager Charlie Dressen announced that Lolich would pitch against Washington Saturday.

"He told me a week ago he wanted a lot of work," Dressen explained. "I'm glad to see that. We'll be going for the pennant next year and we can use a pitcher who can go with only two days rest."

"Sure, I know he's going after 20 victories, but there's not a thing wrong with thinking that way."

But Lolich, now 16-7, doesn't feel he has a chance at the magic 20 mark.

NEEDS FOUR

"Those two weeks I was in the service (with the Air National Guard) really hurt," he said. "I lost a couple of starts there. I'd have to win something like four out of four or five to do it."

Wert, who still remembers the homer he hit last season to give the Tigers a 1-0 win over Washington, admitted that beating the Yankees — and getting a homer off Whitey Ford — mean more to him.

"I've always had a little luck against Ford," Wert said. "I was looking for a curve ball and that's exactly what he threw."

Lolich and Ford battled through 6½ scoreless innings before the Tigers caught fire in the seventh.

With one out, Gates Brown, George Thomas and Dick McAuliffe singled to produce the first run.

JERRY CHASED

Ford chased Wert's homer to chase Ford. Ford said he felt he would rather pitch to Wert, who was a free swinger, than to Lumpe who has better bat control.

"I thought they'd try and make Wert swing at a bad pitch," Dressen said. "But sometimes you try something different and it backfires."

Wert said he wasn't surprised that Ford pitched to him. "He got me out the first three times, didn't he?"

Wert then recalled his double in the first game at home against the Yankees which triggered a three-run inning and sent the Tigers on to 7-2 triumph.

BAD PITCHES

Lolich, now 2-4 against the Yankees in his career, had nothing but praise for Ford.

"I thought he pitched a whole lot of a game. He had a few bad pitches, but who doesn't? He sure is a master out there. I watched him closely and I'm learning a lot," he added.

Hank Aguirre (5-8) and Al Downing (11-7) were the scheduled starters as Detroit and New York closed out their two-game series today.

Big 4 of Golf Prep for Meet

To Practice on Links
for 'World Series'

AKRON, Ohio (AP) — Gold-dom's Big Four tournament winners will play a practice round Friday in preparation for the \$75,000 World Series of Golf at the Firestone Country Club.

Top prize is \$50,000, with \$15,000 for second place and \$5,000 each for third and fourth.

The third World Series playoff features Masters champion Arnold Palmer, British Open king Tony Lema, PGA winner Bobby Nichols and U.S. Open champ Ken Venturi.

ON SIDELINE

The big name foursome will play 18 holes Saturday and Sunday, with the final six holes televised (NBC-TV) each day at 3:30 p.m. EST.

Jack Nicklaus won the World Series two years straight but failed to qualify by winning one of the Big Four titles this year. Palmer has the most experience on the 7,165-yard layout. He has earned \$50,028 playing at Firestone in 10 official tournaments and the previous two World Series events.

Venturi shot a record five-under par 275 at Firestone last month to win the American golf classic. Firestone golf pro Alex Redl said the course is in perfect condition and looks for the long-ball hitters to get extra distance "because of the thin air in September."

13,000 Bandmen Set for U. of M. Game

ANN ARBOR (AP) — More than 13,000 high school bandmen, including some 1,500 band twirlers, will take the field at Michigan Stadium at halftime in the Michigan-Air Force football game Sept. 26. The musicians will come from all over Michigan to participate in the 16th annual massed bands day.

SHUTOUT FORM — Detroit Tiger hurler Mickey Lolich baffled the New York Yankees with his left-handed slants in a 4-0 victory

last night at Tiger Stadium. The shutout was Mickey's third in a row and upped his season record to 16-7.

In Deal With Angels

Phillies Put 'Power' in Lineup

PHILADELPHIA (AP) —

"We'll get you shoes and a glove, just get yourself here."

This was General Manager John Quinn of the Philadelphia Phillies speaking Wednesday with a stunned Vic Power, Los Angeles Angels' first baseman.

"Quinn telephoned Power, who was visiting friends in Minneapolis, and told him he had been purchased by the Phillies to replace the injured Frank Thomas."

Thomas suffered a broken thumb Tuesday in a slide at Michigan Stadium at halftime in the Michigan-Air Force football game Sept. 26. The musicians will come from all over Michigan to participate in the 16th annual massed bands day.

will be sidelined the rest of the season.

QUICK LOOK

Quinn upon learning of Thomas' injury took a quick look at the waiver list and put in a call for Fred Haney, Angels' general manager. He wanted Power, who the Phillies tried for last July before Minnesota traded him to Los Angeles. Haney agreed to part with Power since Joe Adcock has been doing a fine job as the Angels' first baseman. He got what Quinn says was "in excess of \$20,000 and a player to be named by Oct. 15."

Power was in Minneapolis because the Angels had a three-day break in the schedule. He told Quinn he "had no gear with him," which prompted the Phil's G.M. to make the shoes and glove offer.

"I'll get the next plane to Philadelphia," Power said.

Power arrived about 1 a.m. and was due at the park in time for this afternoon's game with the St. Louis Cardinals.

Quinn said he and Manager Gene Mauch felt very fortunate in being able to come up with a player of Power's experience and know how at this stage of the pennant fight.

"He won't make many mistakes," Quinn said of the stylish infielder who got his start here in 1954 with the Philadelphia Athletics of the American League.

Mauch said Power, who hit .247 in 87 games with the Angels, would step right in at first base. A right-handed hitter, he has three home runs and 14 RBI this season.

GLOBE MAN

Power moved to Kansas City with the A's when the team left Philadelphia, then to Cleveland and Minnesota. He is known as an excellent glove man, receiving an award as the outstanding fielding first baseman in the American League six times.

Mauch was philosophical about Thomas' injury, a big blow to the National League-leading Phillies.

"There was nothing we could do about Thomas. There was nothing we could do about the situation. We got the best man available," the manager said.

Power arrived too late for Wednesday night's game, in which the Phils saw an early 4-1 lead go by the boards as the Cardinals took an 11-inning affair, 10-5.

The Cardinals took over sole possession of second place, moving to within five games of the Phils.

Foyt Starts Last, Comes Home First

INDIANAPOLIS (AP) — A. J. Foyt of Houston, Tex., won the Indiana State Fair Century race for late model stock cars Wednesday night after starting the 100-mile event in last place.

He took the lead at the 60th lap when Parnelli Jones of Torrance, Calif., the U.S. Auto Club leader in stock car standings, hit the wall coming out of the northwest turn of the one-mile dirt oval.

Jones' car was struck by the one driven by Lloyd Ruby of Wichita Falls, Tex., and both vehicles were out of the running.

Eight Record Holders in Final Olympic Trials

LOS ANGELES (AP)—Eight athletes with world records or marks either registered or pending will see action Saturday and Sunday in the final U.S. Olympic Games trials.

Two of them — pole vaulter Fred Hansen and sprinter Bob Hayes — will carry added pressure into the meet.

While the other record makers have, in effect, already clinched berths on the Tokyo — bound squad, Hayes and Hansen must place third or better to make the team.

READY TO RUN

Hayes missed the semi-finals in New York last month due to injuries and was given approval to try to qualify here.

Hansen, who set a pending world mark of 17 feet 4 inches in the United States-USSR dual meet here July 26, cleared only 16-2 and finished fourth in the New York try-outs.

John Pennel owns the official pole vault record at 16-10. He has since done 17-4 and was first in the New York meet.

The summer one finishers at New York automatically qualified for the team—with the proviso that they perform in top caliber fashion in the final trials.

PLANS MADE

Hayes is co-holder of the 100-yard mark. He appears to be in sound condition and already has made plans for post-Tokyo competition. He hopes to fly home immediately after the games and get into the six remaining

football games on the Florida A & M schedule.

The other record holders, either pending or registered,

are shot putter Dallas Long, hammer thrower Hal Connolly, broad jumper Ralph Boston, discus tosser Al Oerter and 200-meter dashman Henry Carr.

Carr, from the Phoenix, Ariz., Olympic Club, terms himself a "utility man" for the team. He won the 200 at New York, could run both dashes at Tokyo and

doubtless will have a place on the 400-meter relay team.

The relay teams, it has been announced, will not be designated until after the finals — possibly not until early next week when Head Coach Bob Giegang and his assistant coaches compare notes.

Nine kickoffs were returned National Football League for touchdowns during the 1963 season.

Cardinals' Brock Leading Charge

By The Associated Press
 Can the St. Louis Cardinals go for broke with Lou Brock?

That was the big question in the National League after Brock continued his heavy hitting for the Cardinals, slugging a homer and four singles as St. Louis whipped first place Philadelphia 10-5 in 11 innings Wednesday night in the opener of a two-game series.

The victory was the 13th in 16 games for the second-place Cardinals — the Phillies have an 8-9 record over the same period — and kept them steamrolling toward the top while whittling Philadelphia's league lead to five games.

And Brock, the key man in a six-player trade completed with the Chicago Cubs just before the June 15 trading deadline, has supplied a big stick in an out-

field depleted by Stan Musial's retirement.

BASE STEALER

Brock, a 25-year-old left-hander swinger, was hitting only .251 for the Cubs but has hit at a .351 clip for the Cardinals, scoring 64 runs, driving in 33 and stealing 30 bases in 79 games while moving into the top 10 among the hitters with an over-all .311 mark.

Batting .388 since the Cardinals started their streak, Brock singled in the first inning against the Phillies, fled out in the third, homered in the fifth, singled in the seventh, singled in the ninth as the Cardinals tied the score and singled as they won it in the 11th.

The Cardinals' victory left them one game up on Cincinnati and San Francisco, who remained six games off the pace.

The Reds lost to Pittsburgh 4-1 and the Giants were whacked by the Los Angeles Dodgers 8-1.

METS LOSE

Elsewhere, Milwaukee whipped the New York Mets 7-4.

Softball Nines in Invitational Triple-Header

A triple-header featuring teams from Port Huron, Flint and Midland as well as two local champions will open an Invitational Softball Tournament tomorrow night at the Drayton Plains diamond.

Promoter Carl Shell, has lined up seven teams and expects to add an eighth for the three day, double-elimination affair.

Pontiac's 300 Bowl will meet the Port Huron Drifters in the 6:30 p.m. contest Friday, followed by an 8 p.m. Midland Brown Derby - Spencer Floor Covering tilt, and a Flint Port Huron Midland Rokus 9:30 p.m. game.

Flint's Murphy Trucking entry will see action in the 1 p.m. Saturday opener against a still unnamed foe. There will be action almost continually Saturday afternoon and evening.

There will be a 25 cent admission to each daily tournament session.

The tournament entrants will be battling for the Richardson Dairy championship trophy.

BEATING THE BALL — New York Mets center fielder Jim Hickman dived back safely to first ahead of the ball on a pickup attempt last night by Milwaukee Braves pitcher Tony Cline to first baseman Gene Oliver. Braves won at Shea Stadium, 7-4.

Gals Try New Formula for Curtis Cup Defense

PORTHAWL, Wales (AP) — Maybe the way to win the Curtis Cup in golf is to wash your hair and think.

Anyway that's what Nancy Roth of Hollywood, Fla., suggested today.

"We decided to wash our hair and gripe," the 25-year-old American said after the U.S. and British golfing associations' practice round for the Curtis Cup championship in Britain which starts Friday.

"We have played a lot but we have learned that you must think your way around this golf course," Nancy commented.

ALL AGREE
 Would the Americans win for the ninth time in 12 two-yearly tries? Yes, said Nancy, who was immediately echoed by her teammates, including American amateur champion Barbara McIntyre, 29, and her rival, 26-year-old Joanne Gunderson of Seattle.

The seven American girls have toured the 6,149-yard par 72 Royal Porthcawl course a dozen times in the past several days and discovered that golf on the seaside entertains only the adventurous. They all agreed that the vagaries of the weather probably would decide who was smart enough to solve them.

Miss Roth's idea of thinking around the Porthcawl layout was shared by the British women who would like nothing better than to retrieve the trophy they have battled for since 1932.

The Curtis Cup, which is worth about \$50, is costing the U.S. and British golfing associations upwards of \$100,000 to compete for what actually is the world women's team golf championship.

In practice rounds here the Americans have tried the small ball on the theory that it can compete with Welsh winds. There has been no decision, however, as to which ball will be used. The choice is optional and the argument is vocal.

Prospective Buyers for KC 9 Reported
 KANSAS CITY (AP) — Kenneth Krakauer, president of the Chamber of Commerce, reported three prospects are interested in buying the Kansas City Athletics — not necessarily at Charles O. Finley's \$8-million asking price.

Krakauer said they are an individual, a corporation and a syndicate. He did not identify them.

Finley said Tuesday the A's would be for sale for \$8 million if the American League affirmed purchase of the New York Yankees by the Columbia Broadcasting System. The sale was affirmed Wednesday.

Krakauer said the prospective buyers don't take the \$8-million price tag too seriously.

Ernest Mehl, sports editor of the Kansas City Star, said two Kansas City men were willing to go as high as \$5 million last December. He did not identify them.

DEFENDING SKIPPER — Capt. Eric Ridder, skipper of America's Cup defender Constellation, takes a turn at the wheel of the yacht that will duel the British challenger Sovereign in a four-out-of-seven series race starting Tuesday.

Orchard Lake Sailor Retains Boat Crown

Despite some rough final day water, Orchard Lake's Ed Slack held on to win his second straight Cass Lake Catamaran Fleet Championship.

The three-heat competition saw Slack take wins two Sunday on the approximate five-mile course.

He could do no better than fourth Labor Day when a mid-morning squall roughed the course and caused it to be shortened to about three miles.

This finish left Slack tied with runner-up Chuck Cartwright of Orchard Lake — who was second in all three heats — on a point basis. But the former was ruled the winner since he had the two head-to-head victories over Cartwright Sunday.

Walter Johnson, Livonia, was the victor in Monday's rain-soaked heat. Third-place over-all went to Roland Redner, also of Orchard Lake.

In five seasons at Pontiac North, 1958-62 football coach Ed Heikkinen's teams compiled a 26-20-5 won-lost record.

Veteran Tutors Cup Defenders

American Eagle Pilot Aids in Practice

NEWPORT, R.I. (AP) — The crew of Constellation, which will defend the America's Cup in the yachting series starting Sept. 15, was given a rough lesson Wednesday by an old veteran of the 12-meter battles.

Emil (Bus) Mosbacher Jr., who piloted Weatherly to victory in the 1932 races, put in an appearance to help in the final practice sessions. He skippered Constellation last week, in a series of starts against Constellation and American Eagle won them all.

Mosbacher also was invited to Newport to help the Aurora Syndicate, which owns American Eagle, get an idea of how to improve the boat for future America's Cup trials.

The British challenger, Sovereign, spent five hours at sea, testing sails under the direction of sailmaker Bruce Banks. The British sail expert is busy recruiting sails for use in the Cup series.

Black Hawks Train

ST. CATHARINES, Ont. (AP) — The Chicago Black Hawks of the National Hockey League opened their fall training camp Wednesday with 22 players trying for the 18 positions.

Cash to Pay All Your Bills

Double Obstacle for Boaters

By WM. TAYLOR MCKEOWN
Newspaper Enterprise Assn.

If the flossman doesn't get your boat, the jetsam will.

That's the complaint of boatmen on some waterways where a cruise can be more like a run through an obstacle course.

It's also the opinion of the Coast Guard, which has to patrol federal waters; the Army Corps of Engineers, which has to clean them; and the surgeon general. His U. S. Public Health Service keeps an eye on pollution.

Back in the good old days, flossmen meant the broken-up parts of a shipwreck that drifted ashore. Jetsam was freight and ballast thrown overboard to lighten a ship in danger in a storm.

Boats don't break up so often today, but old wharves do, and a timber floating just below the surface can act like a battering ram when it punctures a fast boat.

Communities have the right to make a warehouse or even a summer cottage owner repair a dock that looks as though it's about to drift away.

As for jetsam, instead of ballast cast adrift at sea, it's now more likely to be bottles, boards, beer cans, spoiled bait and bags of garbage bundled overboard by boatmen right in the harbor. Factories that dump chemicals and freighters that pump out their oil tanks add to the junk that swimmers must fight along the beach.

All of which is illegal, and

this year ships and pleasure boats in New York harbor and along the New Jersey coast have found Coast Guard helicopters hanging around overhead.

World's Fair Marina Has Heavy Demand

NEW YORK — Continued and heavy demand for space by boatmen planning to visit the fair is reported by the World's Fair Marina, one of the largest on the eastern seaboard. The marina is within easy walking distance of the main entrance to the fairgrounds.

Since its opening in April, a variety of yachts and sailing vessels have tied up at the marina from places as far away as Houston, Montreal, Chicago and Florida.

The 116-foot "Chanticleer," belonging to the president of the Eyraud Co. p. n. y., Henry Ford's 108-foot yacht, and other similar sized boats have become familiar sights.

The marina is one of the few facilities scheduled to remain as a permanent part of the Flushing Meadows development after the fair closes late in 1965. Completely dredged and with new breakwaters, it can accommodate 800 boats.

Several craft have received summonses for dumping dead fish and cargo packing cases near shore.

Unless boatmen want big

brother whirlybirds as well as gulls looking over their shoulders offshore, they'd better learn to sink their garbage in deep water or carry it back safely ashore.

NY Frame Schoolhouse Soon Thing of Past

NEW YORK (AP)—The little old wooden schoolhouse still exists in this huge city, but its days are numbered.

The board of education announced it was closing PS 137 in Queens, leaving the city with only three frame schools.

\$1.50 Landing Fee**Tightens Purse Strings**

NEW YORK (AP)—Anthony Hanzlik, manager of the last private airfield within the met-

ropolitan area, Flushing Airport, says some pilots complain about his \$1.50 landing fee.

"Some of them spend money like water—drop by drop," Hanzlik added.

Confusing Gender

AMARILLO, Tex. (AP)—When the Amarillo Rose Society held its annual show, Robert Ricks' entry took top award as Queen of the Show. But it took a woman,

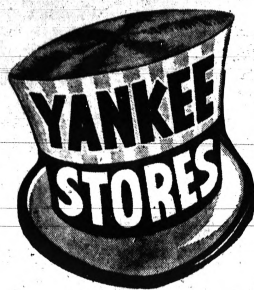

Mrs. B. C. Elliot, to capture the King of the Show award.

Output per worker in Western Europe is expected to increase by about 70 per cent in 1975 over the 1960 rate.

Back Window Ledge**Not Place for Objects**

Vacationers are warned by the American Automobile Association not to throw loose ob-

jects on the ledge behind the rear seat in an automobile. These items not only obstruct vision but can become dangerous missiles in the event of sudden stops.

399

Detachable hood, big zipper front, knit trim collar, assorted colors.

GIRLS' DOUBLE BREASTED
CHESTERFIELD STYLE
ALL WEATHER
COATS

788

Velvet collar trim, zip out liner and sleeve (quilted). Red plaid or blue plaid. Sizes 7 to 14.

Chile Peak Picked for Star-Research Center

TUCSON, Ariz. (AP) — Atop a lonely, windswept peak in northern Chile a group of American universities is building the nucleus of a star-research center that could become the greatest in the world.

The story comes from Dr. N. U. Mayall, director of Kitt Peak National Observatory near Tucson, where the administration wants to build a \$10-million, 150-inch telescope, second only to the 200-inch telescope on Palomar Mountain in California.

Kitt Peak is operated by the

BACKGROUND OF THE NEWS SPECIAL REPORT

Association of Universities for Research in Astronomy — AURA — under contract to the National Science Foundation.

AURA three years ago began a survey of possible observatory sites in South America and recently selected the 7,200-foot Chilean mountain called Cerro

Tololo, 300 miles north of Santiago.

CLOUDS OF MAGELLAN

Here will be built, with \$500,000 in Air Force funds, a 60-inch telescope to be trained on such little-studied targets as the Clouds of Magellan — the two galaxies nearest us — and the

Milky Way, which lies just below the horizon of Northern Hemisphere telescopes.

Germany, France, Belgium, Holland, and Sweden have decided to locate a major observatory in northern Chile with six instruments with a mirror up to 140 inches in diameter.

This group, called ESO — or European Southern Observatory — may select one or more of the six peaks in AURA's 180-square mile reservation or it may choose other land near them.

There are reports, so far unconfirmed, of a hush-hush project to build with private funds a giant telescope rivaling or exceeding in size the 200-inch one operated by California Institute of Technology and the Carnegie Institution of Washington.

LIGHT DISTORTION

Using 100-foot-tall towers with sensitive devices to detect small heat pockets in air currents flowing up and over 6,875-foot Kitt Peak, scientists have found that even these small thermals can distort the faint light coming from distant stars.

As a result, the dome housing the new 150-inch scope planned here may be mounted on stilts

100 to 300 feet high. This would place the scope's highly polished mirror in quiet air above the flow of thermals.

Another "first" in astronomy being pioneered in Tucson, which probably will have application at the new Chilean center, is automatic operation of a telescope by remote control.

Scheduled to go into operation late this year, this telescope at first will be controlled by telephone lines from headquarters in Tucson 30 miles away. Later it will be run by microwave radio.

TAPED FOR STUDY

The dome will open and close,

Des Moines Grandma Becomes 'Wild One'

DES MOINES, Iowa (U.S.—Mrs. Mary Rynning of Des Moines frequently rides to work with her son-in-law, Galen Kurth. The other day Kurth's car was on the fritz, so Mrs. Rynning rode downtown to her job behind her son-in-law on a motorcycle.

Mrs. Rynning, who has 11 grandchildren, said: "It was fun."

the telescope will train on distant stars, and what it sees will be taped and sent back to headquarters for study — all by remote control.

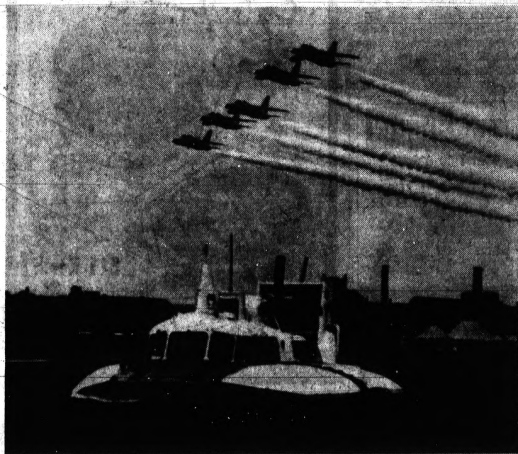

Perfection of this technique would mean that Orbiting Astronomical Observatories — OAO — to be launched in the next few years will not have to give up space for human occupants.

Astronomers who now often shiver through winter nights in open domes on mile-high mountains tending their huge mechanical "eyes" would be able to work in shirt-sleeve comfort in laboratories near their homes.

AURA astronomers have more money at their disposal than their colleagues ever have had in history but the memory of lean years keeps them frugal.

When Mayall and others were conducting site surveys in Chile they kept their mission secret. They found a suitable tract of land, which had been on the market, somewhat hopelessly, for a long time.

They bought it — 115,000 acres of useless crags — for about 10 cents an acre.

BY LAND, BY AIR — Leaving colored smoke trails, the Royal Air Force Fulford Gnat aerobatic team flies over a Saunders Roe SRN5 Hovercraft at the British Aerospace

Co.'s flying display and exhibition which opened yesterday at Farnborough, Hampshire, England.

Plane Crash Fatal to Three

SARINA, Ont. (AP) — A physician, his wife and their blind son were killed Wednesday night when their single-engine plane plunged into Lake Huron in heavy fog.

Dead are Dr. J. W. Jackson, a Sarnia pediatrician; his wife, Edith, and their 15-year-old son, Paul.

The Jacksons were to take Paul to Brantford, Ont. Wednesday night to register him at the Ontario School for the Blind.

The plane crashed about 400 feet offshore shortly after taking off from Sarnia airport. Lakeshore residents notified police when some children found the nosewheel of the plane.

Skindivers said three bodies were in the craft, which was submerged in about 30 feet of water.

New Movie 'Fail Safe' Is a Serious 'Strangelove'

By BOB THOMAS
AP Movie-Television Writer

HOLLYWOOD — It is difficult to take "Fail Safe" seriously during the early part of its running if you have seen "Dr. Strangelove." The plot is virtually the same: tension at the summit as American bombers mistakenly carry nuclear bombs toward the Soviet heartland.

Even the characters are strikingly similar: the earnest president, the indignant Soviet premier, the

refugee scientist, the psychotic Air Force officer. But while "Strangelove" was the wildest kind of farce, "Fail Safe" is dead serious.

Despite the sometimes devastating comparison, "Fail Safe" manages to generate a sizable degree of excitement. The stakes are the highest that any drama could provide: survival of the human race. It is difficult to remain a neutral observer.

This time it is a Russian jamming that destroys the fail safe system and sends the bombers on their terrible mission. Then come the agonizing hours of watching radar screens, talking over the hot line, meeting in the war room. The ending is only slightly less catastrophic than that of "Strangelove."

BOTH TO BLAME
The lesson, as spoken by President Henry Fonda to his Soviet counterpart: "We're to blame, both of us; we let our machines get out of hand."

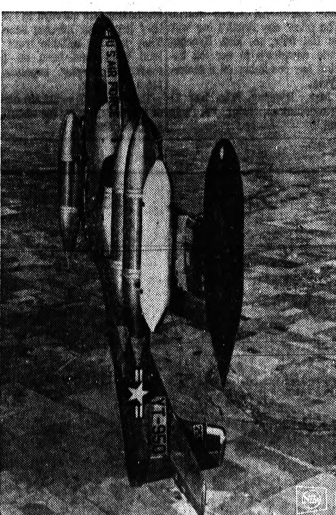

"The Visit" is an arresting failure. It fails on a number of counts, one of them basic.

As chillingly played on the stage by Alfred Lunt and Lynn Fontanne, "The Visit" was a horror study of human depravity. An immensely wealthy woman returns to her home town to pay back the man who was her first lover and ruined her life. She offers the towns-

people riches to kill the man, a respected citizen. Slowly overcome by greed, they set out to do so.

The shadowy witchcraft of the theater was able to create an aura of reality. But the monstrousness of her scheme is scarcely believable in literal treatment on the screen. Or perhaps it is difficult to imagine Ingrid Bergman, playing a woman of 37 and looking it at 46, capable of such a thing.

"The Visit" was a trination production directed by a German with a cast headed by a Swede and Mexican-Indian Anthony Quinn. The international stew lacks the consistent flavor necessary to give credibility to its heartless theme.

ON THE UP AND UP—Apparently standing on its tail, this U.S. Air Force twin-jet YAT-370 shoots up in vertical flight. Fitted with 3,000 pounds of disposable armament, including wing-mounted rocket pods, napalm tanks, bombs and machine gun ammunition, it can fly over 450 miles per hour and can operate at below 125.

Would Offset Voting Loss

LANSING (AP)—State Sen. Thomas Schweigert, R-Petoskey, says that election of a northern Michigan man as lieutenant governor could offset

some of the vote loss suffered by the northern Lower Peninsula and the Upper Peninsula under new legislative districting.

Therefore, Schweigert said Wednesday, he has urged county Republican chairmen and county convention delegates in 42 counties to back the bid of State Sen. William Milliken, R-Traverse City, to serve as Gov. George Romney's running mate.

The lieutenant governor candidate will be selected at the GOP State Convention Sept. 19. For the first time, the governor and lieutenant governor will run as a team.

The candidate previously was selected in the primary election and ran separately from the gubernatorial candidate.

Mrs. LBJ, Lynda

Pay New York Visit

NEW YORK (AP) — Mrs. Lyndon B. Johnson and her elder daughter, Lynda Bird, 20, went shopping in New York City and saw a Broadway musical yesterday.

They saw "What Makes Sammy Run?" and went backstage to congratulate the cast. The First Lady's social secretary said the one-day, unannounced trip was a "shopping and fun trip" before Lynda Bird went back to college in Washington D. C.

To Be Restaurant on the Thames

British Ship, Heroine of Dunkirk, Is Saved From Scrap Yard

LONDON (NEA) — A war-time heroine who saved the lives of 7,000 British troops in 1940 has just been given a last-minute reprieve from the death sentence.

She is the Medway Queen, a 316-ton side-wheel steamer, credited with rescuing under fire more British soldiers from the flaming beaches of Dunkirk than any other non-naval vessel.

Since the war the Medway Queen has been plying the Thames River as a pleasure boat, her glorious wartime record all but forgotten.

But when it was announced last October that the famous paddle steamer, now a dowager of 40, was to be broken up for scrap, a group of sentimental Britons decided to do something about it.

They formed the Medway Queen Trust with the goal of raising \$24,000 to buy the side-peddler by August this year. They were far short of their goal, however, when a catering firm stepped in with a sizable last-minute contribution.

RIVER RESTAURANT

Now it looks as though the Medway Queen will finish her days as a restaurant anchored along the Thames.

The catering firm has as-

ured the boat's original backers that it will do everything possible to preserve the Medway Queen's original character and dignity.

The Medway Queen's fame goes back to May 1940 when half a million British troops found themselves bottled up on a narrow strip of beach at Dunkirk by the advancing Nazi offensive.

Not even the most optimistic British general thought that more than 20 per cent of these troops could be evacuated. But a fleet of small craft, including the Medway Queen, set out from Britain to try to bring the boys safely home.

MOTLEY SHIPS

The "Mosquito Armada," as this motley assortment of vessels was called, included oyster dredgers, cockle boats, as well as coal-burning mine-sweepers and private yachts.

They had such fanciful names as the Royal Daffodil, the Brighton Belle, and York-shire Lass, and there was even a Dracula and a Frightened Lady among the craft.

What distinguished the Medway Queen from the others was that she was not only one of the first ships in at Dunkirk, but

one of the last ships out, making seven round trips.

Her crew was under almost continuous shellfire and aerial strafing, and managed with only a few hours' sleep and very little food for six days.

WEIRD SIGHT

Robert Brett, a crew member, describes the weird sight that greeted him when he took

ashore one of the big boats the Medway Queen had towed to Dunkirk.

"I sighted a causeway about eight feet wide heading out into the water," Brett relates. "To my surprise I found it to be a perfectly ordered straight column of men about six abreast, standing as if on parade."

"When I reached them a ser-

geant stepped up to me and said, 'Yes, sir. Sixty men, sir?' He then walked along the column, which remained in perfect formation, and detailed the required number to follow me."

On one of its trips home the Medway Queen was following in the wake of the Brighton Belle, another paddle steamer, when the latter hit the hulk of

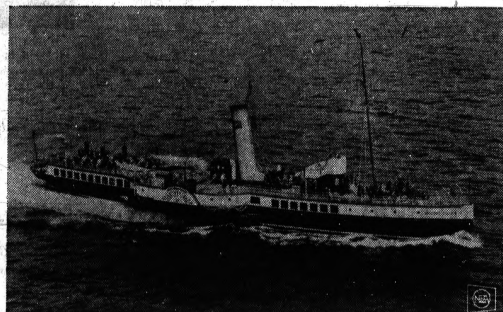

a wrecked ship and ripped off her bottom.

EVEN THE DOG

The Medway Queen closed on the Brighton Belle as she sank, picked off the 800 troops which the doomed ship was carrying, plus her crew, her captain, and even the captain's dog.

Some Britons are critical of the decision to turn the Medway Queen into a restaurant. It would have been better if she could have been preserved as a Dunkirk memorial, they argued,

tied up at a permanent mooring like the clipper ship Cutty Sark. Better than inglorious death in All, however, agree that the Medway Queen's new role is in the scrapyard.

Side-Wheeler Medway Queen Saved Many Lives

Secretary Freeman Will Visit MSU

LANSING (AP) — The schedule of a visit to Michigan State University Friday by U.S. Secretary of Agriculture Orville Freeman was announced Wednesday by the Democratic State Central Committee.

Freeman will arrive at Lansing by plane at 9:30 a.m. and will go directly to MSU for a meeting with Michigan farm leaders.

He will hold a press conference at 11 a.m. and will speak in the MSU auditorium at 1:30 p.m. following a noon luncheon.

Old Man and the Sea

Completes 10,000-Mile Trip on a Raft

BRISBANE, Australia (AP) — William Willis has proved once again that an old man can beat the sea.

The 71-year-old American adventurer completed a 10,000-mile two-stage solo trip across the Pacific on a raft Wednesday. He said the exploit nearly killed him.

"I was at the point of death many times," the bearded New Yorker reported after he beached his raft Age Unlimited at Tully, 1,150 miles north of Brisbane. He had set out from Peru on July 4, 1963.

"I came in on my last set of nerves," said Willis.

BAD WEATHER

"The weather was extremely bad and I had many catastrophes. I think a veretina in my back is broken," Willis, who sailed from Peru to Samoa on a balsa raft in 1954, started his second transpacific voyage last year "to show that a man past 65 is still in the running if he wants to be."

For his second trip he used a steel raft 33 by 18 feet, equipped with three self-sealing pontoons,

one fore and two aft. With a hand-cranked radio transmitter he occasionally was able to communicate with passing ships.

When his rudder was smashed off Samoa last November, he went home to New York while repairs were made. He flew back to Samoa in June and resumed his voyage.

INJURED BACK

He injured his back Aug. 6 off the New Hebrides. "I was taking in sail when the ropes on a block gave way," he reported. "The ropes were rotten. I crashed into an iron jib boom and hurt my back."

"I had two sails up and was unable to take them down. One, the mainsail, was ripped to pieces. I was able to crawl to my cabin to get food and water."

ing seas, he lashed himself to the deck.

TOOK PICTURES

In this condition he took pictures of himself by movie and still cameras, to show doctors and use on lecture tours.

Disaster nearly struck again as he neared the Great Barrier Reef off the northeast coast of Australia.

"The weather was bad and I had a terrible struggle. I had only charts for Brisbane and Sydney and had to rely on seamanship to get myself in where I am now."

"I came through the Great Barrier Reef two days ago through the Family Islands. I don't know what brought me through. There were rocks on each side and it was tough and go."

About 65 per cent of French families own one or more bicycles and there are upwards of 15 million bicycles now in use in France.

Opening lead—♠ 3			

By OSWALD JACOBY

Here is a hand from the Fort Worth, Tex., regionals that illustrates the folly of a play that is penny-wise, pound-foolish.

Practically every South player wound up at four spades after East's opening. From the club bid and everyone made JACOBY his contract.

The penny-wise players made no overtricks. They played the six of clubs from dummy at trick one and, after winning the trick with the king, would lead out ace-king and another trump. East would be on lead with the queen and would play the ace and another heart. Eventually, South would have to lose a diamond trick.

Top score went to Malcolm Brachman of Dallas, Tex., who

improvised a most interesting play: he played dummy's jack of clubs.

If it turned out that West had led from the queen of clubs, Malcolm's play would not have worked, but after East played the queen and Malcolm the king, there was no way for East to know about the location of the deuce.

Hence, when East got the lead with the queen of trumps he led back the ten of clubs. This gave Malcolm a chance to get rid of his losing king of hearts and then take the diamond finesse to wind up making 12 tricks and a top score.

Deaths in Pontiac Area

MRS. GEORGE DORONDAS Service for Mrs. George (Reina) Dorondas, 68, of 13 Moreland will be at 3 p.m. tomorrow in the St. George Greek Orthodox Church with burial in Oak Hill Cemetery.

A Triagon service will be at 8 p.m. today in the Voorhees-Siple Funeral Home.

Mrs. Dorondas died yesterday. She was a member of the St. George Church.

Surviving is a daughter, Mrs. James Derviss of Pontiac.

CALVIN G. HOLTON Service for Calvin G. Holton, 54, of 2010 Kenford, Waterford Township, will be at 2 p.m. Saturday in the Coats Funeral Home, Waterford Township.

Mr. Holton, a brick mason, died yesterday after a 17-day illness.

Surviving besides his wife, Beatrice, are a son, John of Lake Orion; two grandchildren; and two brothers, Albert E. of Pontiac and John L. of Waterford.

JAMES R. MCKINLEY Service for James R. McKinley, 80, of 118 S. Tilden, Water-

ford Township, will be at 2 p.m. Saturday in Phillips Funeral Home, South Lyon, with burial in the cemetery at New Hudson.

Mr. McKinley, a retired farmer, died yesterday after an illness of four months. He was a member of the Maccabee Lodge.

Surviving are a daughter, Mrs. Edward Baker of Waterford; a sister, Mrs. Edith Napier of New Hudson; and a brother, Elmo J. of New Hudson.

MRS. JOSEPH SALVADOR Requiem Mass for Mrs. Joseph (Fernande S.) Salvador, 75, of 457 Marion, Waterford Township, will be at 10 a.m. Saturday in St. Benedict Catholic Church with burial in Mount Hope Cemetery.

The Rosary will be recited at 8 p.m. tomorrow in the Coats Funeral Home, Waterford Township.

Mrs. Salvador died yesterday. She was a member of St. Benedict Church.

Surviving are stepsons, Alphonse Salvador of Waterford Township, Salvatore and Henry both of Pontiac; a stepdaughter, Mrs. Richard Livingston of Pontiac; 18 grandchildren; two great-grandchildren; and a brother.

MRS. FRANK SPANKE TROY — Requiem Mass for Mrs. Frank (Lucille) Spanke, 56, of 1125 Hartland will be 11 a.m. Saturday at Guardian Angels Church, Clawson. Burial will follow at St. Mary's Cemetery, Royal Oak.

Mrs. Spanke, an employee of Vern's Restaurant, Troy, died unexpectedly yesterday following a heart attack.

Her body is at the Price Funeral Home, where the Rosary will be recited at 8:30 p.m. tomorrow and prayers will be offered at 10:30 a.m. Saturday.

Surviving are three daughters, Mrs. Alvin Stumpf of Ulica, Mrs. Kern Brewer at home and Audrey of Dowell, Calif.; her mother, Mrs. Mary Kelly of Detroit; a sister, four brothers; and two grandchildren.

PETER SPEZIA AVON TOWNSHIP—Requiem Mass for Peter Spezia, 74, a former Rochester resident, will be 12 noon Saturday at St. Andrew's Catholic Church, Rochester. Burial will follow at Mount Avon Cemetery there.

Mr. Spezia, a retired employee of Budd Wheel Co., Detroit, died yesterday after an illness of several months.

The Rosary will be recited at 8:30 p.m. tomorrow at the William R. Potere Funeral Home.

Surviving are three brothers, Louis of Lake Orion, Frank of Pontiac and John of Danville, Ill.

MRS. CHARLES R. TALBOT FARMINGTON — Graveside service and burial for former resident Mrs. Charles R. (Eleanor S.) Talbot, 91, of Gulfport, Fla., was 1 p.m. today at the Evergreen Cemetery, Detroit.

Mrs. Talbot died Aug. 30. She was a member of the First Methodist Church, Farmington.

Surviving are two daughters, Mrs. Howard McCracken of Farmington and Mrs. F. A. Marshall of Florida; a brother; a sister; three grandchildren; and three great-grandchildren.

EDWARD J. TROMBLY ATTICA—Service for Edward J. Trombly, 76, of 690 Garner was 1 p.m. today at the Muir Brothers Funeral Home, Inlay Township Cemetery.

Mr. Trombly, a retired employee of the Chrysler Corp., died Tuesday after an extended illness.

He left no survivors.

Barry's Wife: He Had No Breakdowns

NEW YORK (UPI) — Mrs. Barry Goldwater said last night that when she wrote in a magazine article her husband had two nervous breakdowns: she really meant he had suffered complete exhaustion from overwork.

"It was not a breakdown," the wife of the GOP presidential candidate said last night on a telecast. "I think possibly my choice of words in that article was wrong."

The gracious, reticent candidate's wife was interviewed in her Phoenix home. She said she preferred housewife duties to public life and admired women such as Clara Boothe Luce, Mrs. Lyndon B. Johnson and Mrs. John F. Kennedy for their ability to enter the political world.

"I just am not able to do it," she said. "I don't enjoy it, really."

The interview touched on two controversial topics — birth control and Goldwater's health. Mrs. Goldwater said she favored family planning and said she had been active in the planned

parenthood movement. She said her husband's health is "perfect."

ONLY ONE

She said that although she mentioned two occasions when the Senator had a "breakdown" in her article, she remembers only one — 28 years ago when he worked for three nights in his store in Prescott, Ariz., without sleeping.

"When we finally came back to Phoenix it was just . . . he was just exhausted," Mrs. Goldwater said.

"It wasn't that . . . there wasn't that he was nervous about it; there was . . . it was not a breakdown. It was just complete exhaustion from overworking. And that was all there was to it. And there was certainly never any mental breakdown at all."

"This happened 28 years ago, and as you know he's done many things that would certainly cause a breakdown . . . such as flying the Hump or flying during the war."

2 Novi Youths Hurt in Auto Accident

Two Novi youths are in satisfactory condition in Pontiac Osteopathic Hospital following an early morning auto accident in Commerce Township.

Steward D. Robertson, 19, 6242 13 Mile, the driver, and Patrick H. O'Bryan, 17, 204 Endwell, suffered head injuries in the mishap.

Sheriff's deputies reported that the auto was headed west on Maple when it struck a mail box one-half mile west of Haggerty Road. The auto then careened into a ditch.

The accident occurred at 1:41 a.m. in dense fog.

Gets Sentence in Auto Death

Ralph W. Campion, 19, of Walled Lake was sentenced to two years probation, suspended driving privileges and \$200 court costs yesterday on a charge of negligent homicide.

The charge arose from a June 1963 traffic accident in Troy which caused the death of a 48-year-old Birmingham man. Campion pleaded guilty to the charge July 7 of this year.

A CAREFUL LOOK

At Ten Prominent, Investment-Grade Securities

The Watling, Larchen & Co. Research Department has just completed a comprehensive study of ten investment-grade securities, carefully selected from hundreds of listed stocks, representing a diversified cross-section of American business:

All ten are worthy of careful consideration by the growth-minded investor.

If you're interested in learning who the companies are, and especially in why we chose these particular securities for their capital growth potential, mail the attached coupon today. We'd like to send you a copy of this detailed report so you can apply your own unbiassed judgment to our analysis . . . and perhaps compare our selection and recommendations with your own personal investment goals.

Chevrolet Aide Dies at Age 49

Directed Division at Proving Ground

FARMINGTON TOWNSHIP—Nelson E. Farley, director of the Chevrolet Division, General Motors Proving Ground, Milford, died yesterday. He was 49.

Mr. Farley, who lived at 28652 Pond Ridge, was a member of the Society of Automotive Engineers and Michigan Society of Professional Engineers.

His death was attributed to a self-inflicted gunshot wound.

Service will be 3 p.m. tomorrow at the Bell Chapel of the William R. Hamilton Co., Birmingham. Graveside service and burial will follow at Bellfontaine Cemetery, Bellfontaine, Ohio Saturday.

Surviving are his wife, Elizabeth; a son, George N. at home; and his stepmother, Mrs. Nelson E. Farley Sr. of Toledo, Ohio.

Fire Damages Home in Area

Fire at 2:48 a.m. today caused an estimated \$150 damage to contents in the basement of the George C. Scott house, 3455 Curwood, Waterford Township.

Firemen said the blaze was caused when fumes from an out-board motor gasoline tank stored in the basement were ignited by the pilot light of a nearby dryer.

Plane Lands on Freeway

CHEBOYGAN (AP)—Started motorists shared expense way 175 with an airplane for a time yesterday, state police report.

David Sullivan, 28, of Detroit was forced to land his light plane on the southbound lane of the expressway when he found himself low on fuel. State police directed traffic around the plane for two hours until Sullivan refueled and took off.

THE AIRLINES: PROFITS ALOFT?

Our current Monthly Letter offers a clarification of the prospects for the air transport industry. Most of the industry's problems, which made for wide fluctuations in earnings, despite steady gains in revenues, have now been alleviated. We believe, therefore, that the current period of rising profits is likely to continue well into the future. Now well below the year's highs, several issues in this group afford, in our opinion, attractive buying opportunities. Five stocks are recommended. For your free copy, simply fill out and mail this advertisement.

City Planners Say to Deny 4 of 5 Rezoning Requests

Obtaining a favorable recommendation from the City Planning Commission last night proved difficult for a majority of requests on the seven-item agenda.

City planners recommended that four of the five requests for rezoning be denied.

All planning commission recommendations will now go to the City Commission for final action.

A proposal to rezone Malkin Farms subdivision on the south side of Walton from Joyita to Fuller was denied following a public hearing on the matter.

Commercial zoning of 14 lots was sought by a school bus dealership, Ward Body of Michigan. Planners felt the area was too large to rezone with a development proposal submitted for only one lot.

Also denied was a rezoning for property at 523 Orchard Lake for apartments.

A protest petition, signed by 58 neighboring residents, opposed the residential 1 zoning. The property now houses the Seminole Hills Nursing Home.

Although the residents objected to the apartments, they expressed approval for any expansion of the nursing home.

The Planning Commission recommended against rezoning to commercial property at 111 S. Telegraph. Pontiac architect William F. Dohany sought the change to permit an office in

place of the present three-family residence on the property.

SPOT ZONING

Planners termed the proposal spot zoning.

Operators of a car wash slated for the southeast corner of Pike and East Boulevard sought rezoning for a vacant adjoining parcel last night.

The Planning Commission however, saw no need to rezone the additional property and voted against the commercial rezoning.

Three items did receive a favorable vote from the city planners.

LOT DIVISION

Division of a lot on the south-west corner of East Boulevard and Victory was recommended by the commission.

The lot, divided into three parcels, will be used for a doctor's office.

Vacation of an alley at the rear of McAuliffe Ford's paint and bump shop on Corwin south of Montclair also received a favorable recommendation.

Planners recommended vacating of York, north of South Boulevard. The area is to be used for parking by General Motors Corp.

Road Survey to Start

LANSING (AP) — Surveys have been started for an interchange at U.S. 27 and Snow Bowl Road, near Houghton Lake in Roscommon County, reports the State Highway Department.

Charges American Manipulation of Government

# Viet Paper Claims U.S. Set Off Catholic-Buddhist Clashes

SAIGON, Viet Nam (AP) — South Viet Nam's leading Buddhist publication accused Americans today of triggering the recent bloody clashes between Buddhists and Catholics.

The publication, Hai Trieu Am, also indirectly accused the United States of manipulating the Saigon government to extend American influence in South Viet Nam.

Charges of American manipulation have been voiced privately by some government officials. Premier Nguyen Khanh was asked at a news conference yesterday whether the U.S. Embassy had exerted any diplomatic pressure on his government during the recent crisis.

"Why don't you ask the embassy about that?" Khanh replied.

Hai Trieu Am particularly

criticized American press coverage of recent developments in Viet Nam.

## INVENT FIGHTS

"Up to now," it said, "the U.S. press in particular has been talking about clashes between Catholics and Buddhists in Viet Nam. With the invention of such an idea, the plotters sit back and watch the two religions fight, waiting for an opportunity to act as self-serving arbitrators."

It cited a press photograph showing damage and burning in the city of Da Nang, scene of Buddhist-Catholic clashes two weeks ago, which carried

the caption "Buddhists flee after razing Catholic sector of Da Nang."

"Since the distant past until the arrival of Americans here,

Buddhists have never destroyed or burned any houses," the paper said.

\*\*\*

"If one wishes to learn the deep reasons for the anger of the people of Da Nang, one must find them in the Aug. 16th constitution which certainly was not drafted by Maj. Gen. Nguyen Khanh."

RESCINDED  
The constitution which gave Khanh sweeping powers was rescinded in response to violent

rioting and Buddhist demonstrations.

"The immediate reason (for anger in Da Nang) was the shots fire in the air by Americans," Hai Trieu Am said.

American soldiers fired warning shots in the air to disperse Buddhist demonstrators who tried to break into the U.S. Army compound there. The mob fled toward a Catholic sector; a grenade was thrown, appar-

ently from the Catholic area, and later the Buddhist mob burned out the Catholic area.

\*\*\*

"In Saigon, too, all the bloody incidents of Aug. 27 and 28 were also created by those who want to strengthen their positions as judges," the editorial said.

Ball bearing imports from Japan last year were valued at more than \$8.4 million compared with \$6.4 million a year previous.

## Oregon Newspaper Comes Out for Johnson

PORTLAND, Ore. (AP) — The Portland Reporter, Oregon's third largest newspaper, announced Wednesday its support of President Johnson in the November election.

The Reporter, "an independent home-owned newspaper," began publishing daily in February 1961. It was started by striking employees from Portland's other two newspapers, the Oregonian and the Journal.

Junior Editors Quiz on GLASS

QUESTION: How is glass made?

\*\*\*

ANSWER: Glass has always fascinated people because it seems wonderful to be able to look through such a hard substance, also because, since light can come through glass, it brings such a bright sparkling beauty to this material.

For all this brilliance, glass is mostly made of plain sand-looking sand, to which certain other materials are added, such as soda ash, limestone and borax.

These raw materials are melted together at great heat; they fuse into a syrupy liquid which is amorphous—that is, without a definite internal structure.

\*\*\*

This glass is then quickly cooled. It retains its transparent qualities. Colors in glass are the result of chemical impurities and are often deliberately added—as for example, a trace of cobalt oxide will produce an intense blue.

Many kinds of glass are made to produce many different objects. Liquid glass may be pressed in a mould, drawn out in sheets (window glass) or cast.

An ancient method of working glass liquid was to blow it out on the end of a long pipe, and then, rolling the pipe on side arms, to shape the hot glass with various tools—this process still being used for making art glass. We illustrate it in the picture.

\*\*\*

FOR YOU TO DO: We all know the familiar glass window panes, eye glasses and drinking glasses, but would you think it possible to make flexible glass thread and cloth? It is. Look up "fiberglass" and find out about a remarkable new use for glass.

After 20 Years

Housewives Like School

LEBANON, Ore. (AP) — Two housewives, returning to school after more than 20 years, are enthusiastic about their first day of classes.

\*\*\*

Mrs. Wade Price, 32, and Mrs. Lavern Reil, 37, enrolled as freshmen this week in this western Oregon town of 6,000.

Mrs. Price, who dropped out of the fifth grade in 1943, started it all when she decided her 8-year-old son would need her to answer his questions as he grows older.

Mrs. Reil, who said she was scared stiff the first day, read of Mrs. Price in a local newspaper and enrolled.

\*\*\*

Lebanon school officials told Mrs. Price that 20 years of living entitled her to jump from the fifth to the ninth grade. Mrs. Reil decided to go back one grade. She dropped out in 1943 when she was a sophomore.

School's On!

Yes, School's in and, as always, there are still some school supplies required. And Gregory, Mayer & Thom has just what is needed, and at money-saving prices. Here are just two outstanding examples:

## Why Grow Old?

By JOSEPHINE LOWMAN

Teen-age is often a time of bewilderment. It's a time of self-consciousness and self-seeking. It is made hectic by the feeling that one must belong to the crowd. Its thrills and its heartaches are dramatized.

Those years may be perilous, but maturity also has its hazards. These are the years when young couples are working hard toward certain goals. They are making down payments on their first home and are introduced to the anxiety and loss of sleep which go along with their children's illnesses.

This is an exciting wonderful time, but the couple is under pressure because of the fight for success and never-ending demands of a growing family.

These are crucial years during which the pattern of their marriage and their future home is set. Will the wife be careful not to neglect her husband for her children? Many men feel completely left out after the arrival of their first child.

Will the husband continue to

be thoughtful and attentive in the many small ways which mean so much to a woman? Will the pressure of his work and his responsibilities cause him to more or less take his wife for granted?

### TIME TOGETHER

Will they spend their leisure time together? Some marriage counselors believe that spending leisure apart is one of the main factors which leads to divorce.

Will they continue to enjoy one another's company or will their companionship fall into the rut of discussing mutual problems?

At maturity men and women are having such a fight with the budget that they may lose some of the things they wanted most without realizing what is happening to them. The wife may drop sports, exercise and self-improvement. She may let her figure deteriorate and blame it on motherhood. She may stop reading as she once did.

### ATMOSPHERE SET NOW

Your home atmosphere is being set during these years. Will it be one of understanding, gaiety, tenderness and courtesy, or will it be fraught with hecticness, rudeness, and criticism?

Mutual consideration and thoughtfulness are sometimes lost during these struggling but exciting years.

Young wives cannot afford to neglect their figures and good grooming. Nor can they afford to neglect their health.

"Taking care of a house and a home and a family is a big job and it requires energy and stamina as well as devotion.

If you would like to have my leaflet "Keeping Romance Alive" send a stamped, self-addressed envelope with your request for leaflet number 63 to Josephine Lowman in care of The Pontiac Press.

### Identity Must Be Preserved

DJAKARTA, Indonesia (UPI) — Culture Minister Priyono has banned the "Beatle Hairstyle" and forbidden children from calling their parents "mommy and daddy."

Priyono's instruction called on children and parents to "preserve and promote the national identity."

The instruction, quoted by the official news agency Antara, also spoke against the use of nicknames. The Indonesian language has no diminutive forms.

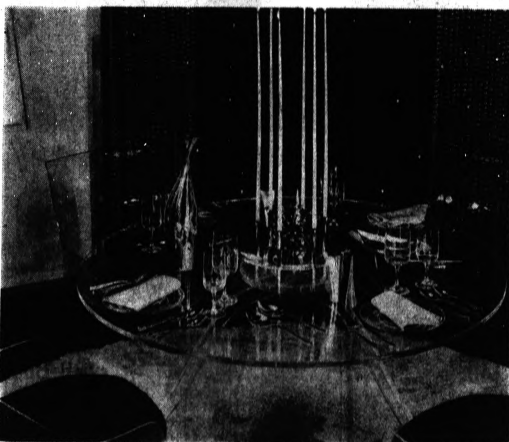

WILLEN-RUNYAN

At Mammoth Cave National Park, Ky. for their honeymoon are Edward Earl Willen Jr. and his bride, the former Judith Ann Runyan who exchanged recent vows before Rev. Herbert Mansfield in St. Michael's Church. A French lace bodice and lace-bordered Watteau train accented her gown of white bombazine worn with illusion veil. Attending the couple, who are seniors at Murray (Ky.) State College, were Aloma Williams and Constance Givens; Donald Woodrum, Jerry and John Runyan. The couple joined their parents, the Clyde Runyans of First Avenue and the senior Willens of Louisville, Ky., at the reception in Bemis-Olsen Amvets Post.

WADE-NICKERSON

Venise lace banded a gown and train of white silk linen for Jean Elizabeth Nickerson who became Mrs. Patrick James Wade in St. Michael's Church. A white orchid and Stephanotis topped her mistle. Parents of the couple are the John Nickersons of Stanley Avenue and the Donald E. Wades of Summit Avenue. Attendants were Christine Rochon, Sandra Hall, Margaret Crawford, Beverly Lyon, Charles Carroll, Norman Gouville, Richard Hayden and Richard Nickerson. A reception in the Knights of Columbus Hall and a northern honeymoon followed the vows repeated before Rev. David Britz.

This kind of dining is the etheral sort. One of the interior decorating exhibits at the World's Fair, it shows glass furniture set with

glass dishes and sterling silver. It is one decorator's salute to the future and is called the "Moon Room."

## Glass, Silver Used in Fair's Moon Room

Successful moon shots are bringing the day of space travel so rapidly nearer that when Ellen McCuskey, FAID, was asked by the International Silver Company to design the dining room of the future — a Moon Room — she found the shape of things present blended easily with the shape of things to come.

"It may be called the fantasy room of the future," Mrs. McCuskey says, "but it has many ingredients that are applicable to living right now. For instance, take the transparent table and chairs.

"Although they are legless in the Moon Room to give an illusion of floating in space, the use of see-through furniture in glass or moulded plastic is an effective way to make any small space seem larger. And anyway, most dining areas today are not much bigger than space capsules."

Because she believes that the material that looks best on glass is glass — whatever the era — Mrs. McCuskey used only for plates and goblets. The only other material in the etheral setting is the gleaming silver.

In this way she created an interplay of reflections between glass and silver that is literally taking away the breath of visitors to the Moon Room, currently on display in the Pavilion of American Interiors at the New York World's Fair.

She did not have to look far, either, for the flatware of the future. It is already in production in the Vision pattern in International Sterling.

This is so advanced in design that it completely reverses the traditional shaping — Vision's handles have depth but not much width, so that they have an unbelievable slimmness as they lie on the table.

For Freedom related in their money of style.

CHEYNE-ADAS

The Zion Lutheran Church in Ferndale was the setting for the recent evening wedding of Mary Louise Adas and Billy Leroy Cheyne. For the ceremony performed by Rev. L. H. Perrier, the bride wore a floor length gown of white peau de soie. Her colonial bouquet was composed of white orchids and chrysanthemums. Chaele Bosse of Lincoln, Neb. was maid of honor. Attendants were Madeline Dempe and Susan Burden of Ferndale. James Susank was best man and William Robinson and Robert Adas were ushers. Parents of the couple are Mr. and Mrs. Robert P. Adas of Almont Street, Ferndale, and Mr. and Mrs. Dennis Cheyne of Coventry Court.

## Opening Dinner of Fall Season

Twenty-five members and guests attended the opening fall dinner of the Newcomers Club at Sylvan Glen Inn Wednesday evening.

Guests present included Mrs. Elma Madsen, Mrs. W. D. Holb and Mrs. Philip G. Hilaire.

The group met twice during the summer, once for a breakfast for mothers and children, and once for a picnic.

## Emotion's Analysis

# Love Current Is Circular

By DR. GEORGE W. CRANE CASE T-462: Joan J. aged 24, is a teacher.

"Dr. Crane," she began, "I met a school principal through the Scientific Marriage Foundation.

"He lives in a city about 100 miles away, and we have written to each other DR. CRANE for several weeks.

"I'll admit my letters are very interesting and the snapshot he sent me reveals that he is nice looking.

"But I don't love him at all, for I haven't even met him in person.

"So how could I ever fall in love with him? "Isn't the old saying true which states that marriages are made in heaven?"

### LOVE CHEMISTRY

If you go through the proper motions, you will soon begin to feel the corresponding emotions!

That's an axiom of psychology. It works just as precisely as other laws of chemistry and physics.

For example, if you take a piece of wire; then bend it into a loop and twirl it in your hand, an electric current will instantly flow through that wire!

You will not get an electrical shock, for the current is so slight in a single loop of wire.

But a dynamo is simply composed of thousands of loops of wire, and from that

dynamo comes the current to run a factory or light an entire town.

In your high school physics laboratory you can prove the fact that even one loop of wire will create an electrical current.

Furthermore, the electrical current will flow, whether you are a Greek or Russian, an African, Chinese or Caucasian. Electricity will be created as soon as the proper situation arises on which it depends.

For God Almighty thus surrounded our globe with invisible lines of force that run from the North Pole to the South Pole.

Cutting them with a loop of wire automatically and inexorably starts an electrical current.

Well, we have psychological laws which God Almighty also established.

And one of those psychological maxims states that if a boy and girl are thrown into personal contact and if they then go through the proper motions of romance, soon romance will develop.

Love is as elemental and inexorable as the electrical current that results from twirling a loop of wire.

Many of you teen-agers disbelieve this psychological law, but it ALWAYS works, if you follow the precise prescription.

I have won wagers with

many older students who also disbelieved, even when they were in graduate school at Northwestern University.

For love can be developed out of original casual contacts. It can also turn to ashes, yet be revived anew if the parties involved will follow psychological rules.

Divorces develop because couples fail to distinguish between true love vs. sexual infatuation, and thus rush into selfish unions.

(Always write to Dr. Crane in care of The Pontiac Press, enclosing a long stamped, addressed, and self-addressed envelope when you send for one of his booklets.)

# Chile Peak Picked for Star-Research Center

**TUCSON, Ariz.**—A lonely, windswept peak in northern Chile a group of American universities is building the nucleus of a star research center that could become the greatest in the world.

The story comes from Dr. N. U. Mayall, director of Kitt Peak National Observatory near Tucson, where the administration wants to build a 100-inch telescope, second only to the 200-inch telescope on Palomar Mountain in California.

Kitt Peak is operated by the

## BACKGROUND OF THE NEWS

## SPECIAL REPORT

Association of Universities for Research in Astronomy — AURA — under contract to the National Science Foundation.

AURA three years ago began a survey of possible observatory sites in South America and recently selected the 7,200-foot Chilean mountain called Cerro

Paranal, 300 miles north of Santiago.

### CLOUDS OF MAGELLAN

Here will be built, with \$500,000 in Air Force funds, a 60-inch telescope to be trained on such little-studied targets as the Clouds of Magellan — the two galaxies nearest us — and the

Milky Way, which lies just below the horizon of Northern Hemisphere telescopes.

Germany, France, Belgium, Holland, and Sweden have decided to locate a major observatory in northern Chile with six instruments with a mirror up to 140 inches in diameter.

This group, called ESO — or European Southern Observatory — may select one or more of the six peaks in AURA's 180-square mile reservation or it may choose other land near them.

There are reports, so far unconfirmed, of a high-tech project to build with private funds a giant telescope rivaling or exceeding in size the 200-inch one operated by California Institute of Technology and the Carnegie Institution of Washington.

### LIGHT DISTORTION

Using 100-foot-tall towers with sensitive devices to detect small heat pockets in air currents flowing up and over 6,875-foot Kitt Peak, scientists have found that even these small thermals can distort the faint light coming from distant stars.

As a result, the dome housing the new 150-inch scope planned here may be mounted on stilts

100 to 300 feet high. This would place the scope's highly polished mirror in quiet air above the flow of thermals.

Another "first" in astronomy being pioneered in Tucson, which probably will have application at the new Chilean center, is automatic operation of a telescope by remote control.

Scheduled to go into operation late this year, this telescope at first will be controlled via telephone lines from headquarters in Tucson 30 miles away. Later it will be run by microwave radio.

### TAPED FOR STUDY

The dome will open and close,

### Des Moines Grandma Becomes 'Wild One'

DES MOINES, Iowa (AP)—Mrs. Mary Rynning of Des Moines frequently rides to work with her son-in-law, Galen Kurth. The other day Kurth's car was on the Fritz, so Mrs. Rynning rode downtown to her job behind her son-in-law on a motorcycle.

Mrs. Rynning, who has 11 grandchildren, said: "It was fun."

the telescope will train on distant stars, and what it sees will be taped and sent back to headquarters for study — all by remote control.

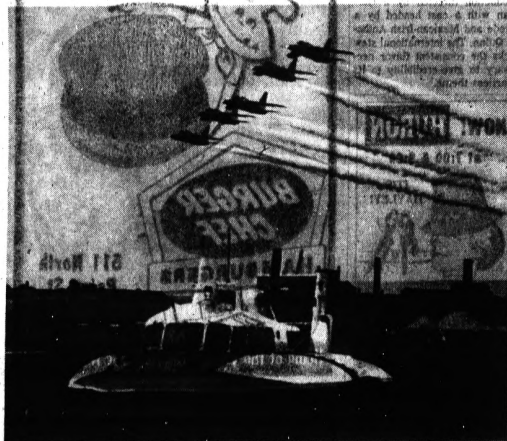

Perfection of this technique would mean that Orbiting Astronomical Observatories — OAO — to be launched in the next few years will not have to give up space for human occupants.

Astronomers who now often shiver through winter nights in open domes on mile-high mountains tending their huge mechanical "eyes" would be able to work in shirt-sleeve comfort in laboratories near their homes.

AURA astronomers have more money at their disposal than their colleagues ever have had in history but the memory of lean years keeps them frugal.

When Mayall and others were conducting site surveys in Chile they kept their mission secret. They found a suitable tract of land which had been on the market, somewhat hopelessly, for a long time.

They bought it — 115,000 acres of useless crags — for about 10 cents an acre.

BY LAND, BY AIR — Leaving colored smoke trails, the Royal Air Force Phantom II display and exhibition which took part in the 1964-65 season, opened yesterday at Farnborough, Hampshire, England.

Deaths in Pontiac Area

MRS. GEORGE DORONDAS Service for Mrs. George (Rena) Dorondas, 69, of 13 Moreland will be at 3 p.m. tomorrow in the St. George Greek Orthodox Church with burial in Oak Hill Cemetery.

A Triangulation service will be at 8 p.m. today in the Voorhees-Slip Funeral Home.

Mrs. Dorondas died yesterday. She was a member of the St. George Church.

Surviving is a daughter, Mrs. James Dorondas of Pontiac.

CALVIN G. HOLTMAN Service for Calvin G. Holman, 56, of 2010 Kenford, Waterford Township, will be at 2 p.m. Saturday in the Coats Funeral Home, Waterford Township.

Mr. Holman, a brick mason, died yesterday after a 17-day illness.

Surviving besides his wife, Beatrice, are a son, John of Lake Orion; two grandchildren; and two brothers, Albert E. of Pontiac and John L. of Waterford.

JAMES R. MCKINLEY Service for James R. McKinley, 80, of 118 S. Tilden, Water-

ford Township, will be at 2 p.m. Saturday in Phillips Funeral Home, South Lyon, with burial in the cemetery at New Hudson.

Mr. McKinley, a retired farmer, died yesterday after an illness of four months. He was a member of the Macabees Lodge.

Surviving are a daughter, Mrs. Edward Baker of Waterford; a sister, Mrs. Edith Napier of New Hudson; and a brother, Elmo J. of New Hudson.

MRS. JOSEPH SALVADOR Requiem Mass for Mrs. Joseph (Fernande S.) Salvador, 75, of 457 Marion, Waterford Township, will be at 10 a.m. Saturday in St. Benedict Catholic Church with burial in Mount

The Rosary will be recited at 8 p.m. tomorrow in the Coats Funeral Home, Waterford Township.

Mrs. Salvador died yesterday. She was a member of St. Benedict Church.

Surviving are stepsons, Alphonse Salvador of Waterford Township, Salvatore and Henry, both of Pontiac; a stepdaughter, Mrs. Richard Livingston of Pontiac; 18 grandchildren; two great-grandchildren; and a brother.

MRS. FRANK SPANKE TROY — Requiem Mass for Mrs. Frank (Lucille) Spanke, 56, of 1125 Harland will be 11 a.m. Saturday at Guardian Angels Church, Clawson. Burial will follow at St. Mary's Cemetery, Royal Oak.

Mrs. Spanke, an employee of Vern's Restaurant, Troy, died unexpectedly yesterday following a heart attack.

Her body is at the Price Funeral Home, where the Rosary will be recited at 8:30 p.m. tomorrow and prayers will be offered at 10:30 a.m. Saturday.

Surviving are three daughters, Mrs. Alvin Stumpf of Ulica, Mrs. Kern Brewer at home and Audrey of Downey, Calif.; her mother, Mrs. Mary Kelly of Madison Heights; a sister; four brothers; and two grandchildren.

PETER SPEZIA AVON TOWNSHIP—Requiem Mass for Peter Spezia, 72, a former Rochester resident, will be 12 noon Saturday at St. Andrew's Catholic Church, Rochester. Burial will follow at Mount Avon Cemetery there.

Mr. Spezia, a retired employee of Budd Wheel Co., Detroit, died yesterday after an illness of several months.

The Rosary will be recited at 8:30 p.m. tomorrow at the William R. Poters Funeral Home.

Surviving are three brothers, Louis of Lake Orion, Frank of Pontiac and John of Danville, Ill.

MRS. CHARLES R. TALBOT FARMINGTON — Graveside service and burial for former resident Mrs. Charles R. (Elsa) Talbot, 81, of Gulfport, Fla., was 1 p.m. today at the Evergreen Cemetery, Detroit.

Mrs. Talbot died Aug. 30. She was a member of the First Methodist Church, Farmington.

Surviving are two daughters, Mrs. Howard McCracken of Farmington and Mrs. F. A. Marshall of Florida; a brother; a sister; three grandchildren; and three great-grandchildren.

EDWARD J. TROMBLY ATTICA—Service for Edward J. Trombly, 76, of 680 Garner was 1 p.m. today at the Mulr Brothers Funeral Home, Imlay City. Burial followed at Imlay Township Cemetery.

Mr. Trombly, a retired employee of the Chrysler Corp., died Tuesday after an extended illness.

He left no survivors.

Chevrolet Aide Dies at Age 49

Directed Division at Proving Ground

FARMINGTON TOWNSHIP—Nelson E. Farley, director of the Chevrolet Division, General Motors Proving Ground, Milford, died yesterday. He was 49.

Mr. Farley, who lived at 2852 Pond Ridge, was a member of the Society of Automotive Engineers and Michigan Society of Professional Engineers.

His death was attributed to a self-inflicted gunshot wound.

Service will be 3 p.m. tomorrow at the Bell Chapel of the William R. Hamilton Co., Birmingham. Graveside service and burial will follow at Bellfontaine Cemetery, Bellfontaine, Ohio Saturday.

Surviving are his wife, Elizabeth; a son, George N., at home; and his stepmother, Mrs. Nelson E. Farley Sr. of Toledo, Ohio.

Fire Damages Home in Area

Fire at 2:48 a.m. today caused an estimated \$150 damage to contents in the basement of the George C. Scott house, 3435 Curwood, Waterford Township.

Firemen said the blaze was caused when fumes from an outboard motor gasoline tank stored in the basement were ignited by the pilot light of a nearby dryer.

Plane Lands on Freeway

CHEBOYGAN (AP)—Startled motorists shared expressway I-75 with an airplane for a time yesterday, state police report.

David Sullivan, 28, of Detroit was forced to land his light plane on the southbound lane of the expressway when he found himself low on fuel. State police directed traffic around the plane for two hours until Sullivan refueled and took off.

THE AIRLINES: PROFITS ALOFT?

Our current Monthly Letter offers a clarification of the prospects for the air transport industry. Most of the industry's problems, which made for wide fluctuations in earnings, despite steady gains in revenues, have now been alleviated. We believe, therefore, that the current period of rising profits is likely to continue well into the future. Now well below the year's highs, several issues in this group afford, in our opinion, attractive buying opportunities. Five stocks are recommended. For your free copy, simply fill out and mail this advertisement.

Barry's Wife: He Had No Breakdowns

NEW YORK (UPI) — Mrs. Barry Goldwater said last night that when she wrote in a magazine article her husband had two nervous breakdowns she really meant he had suffered complete exhaustion from overwork.

"It was not a breakdown," the wife of the GOP presidential candidate said last night on a telecast. "I think possibly my choice of words in that article was wrong."

The gracious, reticent candidate's wife was interviewed in her Phoenix home. She said she preferred housewifely duties to public life and admired women such as Clara Boothe Luce, Mrs. Lyndon B. Johnson and Mrs. John F. Kennedy for their ability to enter the political world.

"I just am not able to do it," she said. "I don't enjoy it, really."

The interview touched on only two controversial topics — birth control and Goldwater's health. Mrs. Goldwater said she favored family planning and said she had been active in the planned parenthood movement. She said her husband's health is "perfect."

ONLY ONE She said that although she mentioned two occasions when the Senator had a "breakdown" in her article, she remembers only one — 28 years ago when he worked for three nights in his store in Prescott, Ariz., without sleeping.

"When we finally came back to Phoenix it was just . . . he was just exhausted," Mrs. Goldwater said.

"It wasn't that . . . there wasn't that he was nervous about it; there was . . . it was not a breakdown. It was just complete exhaustion from overworking. And that was all there was to it. And there was certainly never any mental breakdown at all."

"This happened 28 years ago, and as you know he's done many things" that would certainly cause a breakdown . . . such as flying the Hump or flying during the war."

2 Novi Youths Hurt in Auto Accident

Two Novi youths are in satisfactory condition in Pontiac Osteopathic Hospital following an early morning auto accident in Commerce Township.

Steward D. Robertson, 19, 4242 13 Mile, the driver, and Patrick H. O'Bryan, 17, 204 Endwell, suffered head injuries in the mishap.

Sheriff's deputies reported that the auto was headed west on Maple when it struck a mail box one-half mile west of Haggerty Road. The auto then careened into a ditch.

The accident occurred at 1:41 a.m. in dense fog.

Gets Sentence in Auto Death

Ralph W. Campton, 19, of Walled Lake was sentenced to two years probation, suspended driving privileges and \$200 court costs yesterday on a charge of negligent homicide.

The charge arose from a June 1963 traffic accident in Troy which caused the death of a 68-year-old Birmingham man. Campton pleaded guilty to the charge July 7 of this year.

A CAREFUL LOOK

At Ten Prominent, Investment-Grade Securities

The Watling, Larchen & Co. Research Department has just completed a comprehensive study of ten investment-grade securities, carefully selected from hundreds of listed stocks, representing a diversified cross-section of American business:

All ten are worthy of careful consideration by the growth-minded investor.

If you're interested in learning who the companies are, and especially in why we chose these particular securities for their capital growth potential, mail the attached coupon today. We'd like to send you a copy of this detailed report so you can apply your own unbiassed judgment to our analysis . . . and perhaps compare our selection and recommendations with your own personal investment goals.

SERVING MICHIGAN INVESTORS SINCE 1916

City Planners Say to Deny 4 of 5 Rezoning Requests

Obtaining a favorable recommendation from the City Planning Commission last night proved difficult for a majority of requests on the seven-item agenda.

City planners recommended that four of the five requests for rezoning be denied.

All planning commission recommendations will now go to the City Commission for final action.

A proposal to rezone Malden Farms subdivision on the south side of Walton from Joslyn to Fuller was denied following a public hearing on the matter.

Commercial zoning of 14 lots was sought by a school bus dealership, Ward Body of Michigan. Planners felt the area was too large to rezone with a development proposal submitted for only one lot.

Also denied was a rezoning for property at 523 Orchard Lake for apartments.

A protest petition, signed by 50 neighboring residents, opposed the residential 3 rezoning. The property now houses the Seminole Hills Nursing Home.

Although the residents objected to the apartments, they expressed approval for any expansion of the nursing home.

The Planning Commission recommended against rezoning to commercial, property at 111 S. Telegraph. Pontiac attorney William F. Dohany sought the change to permit an office in

place of the present three-family residence on the property.

SPOT ZONING. Planners termed the proposal spot zoning.

Operators of a car wash stated for the southeast corner of Pike and East Boulevard sought rezoning for a vacant abandoned parcel last night.

The Planning Commission however, saw no need to rezone the additional property and voted against the commercial rezoning.

Three items did receive a favorable vote from the city planners.

LOT DIVISION. Division of a lot on the southwest corner of East Boulevard and Victory was recommended by the commission.

The lot, divided into three parcels, will be used for a doctor's office.

Vacation of an alley at the rear of McAuliffe Ford's paint and bump shop on Corwin south of Montclair also received a favorable recommendation.

Planners recommended vacating of York, north of South Boulevard. The area is to be used for parking by General Motors Corp.

Road Survey to Start LANSING (AP) — Surveys have been started for an interchange at U.S. 27 and Snow Bowl Road, near Houghton Lake in Roscommon County, reports the State Highway Department.

46 GOOD TIMES TO DIAL 760

Miss you in our program schedule? Not a chance. Take these 46 weekday time slots for example. WJR filled them with you in mind. So that all day long, Monday through Friday, you'll find good listening by dialing 760. Try it today. Use this handy guide. Then clip it and save it for tomorrow, too.
