Deputies Disarm Gunman After Bullet Barrage

Eden to Take Over Government Reins on Return?

Speculation Rife Prime Minister May Resign

Chief Deputy Butler Tells Sir Anthony's Wish 'To Face Music'

LONDON (AP)—Prime Minister Eden's chief deputy, R. A. Butler, told the House of Commons today the reins of the British government will be "handed back" to Eden immediately on his return from his Jamaican rest cure.

Butler's statement, however, did nothing to lessen speculation that Eden soon may be forced to resign.

Butler said Eden "would wish to face the music"—a reference to the controversy raging in Britain over his Suez invasion policies.

The House votes tonight on a confidence motion which, if not carried, could force Eden's Cabinet to quit.

The government is expected to win on the confidence motion, but Britain's big newspapers split about evenly on Eden's chances of continuing to hold his job.

Three nationally distributed dailies said Eden is finished and will have to make way for another Conservative prime minister to give the party a new lease on political life.

Three other papers thought Eden would hold on. One said maybe he could, and another — the Times of London — voiced no opinion.

As Commons went into the closing round of debate on the

SIR ANTHONY EDEN

Suez invasion, the Conservatives closed ranks in preparation for the vote of confidence on the wisdom of the military venture and the current withdrawal from the Suez Canal Zone.

A dozen or so Conservatives were expected to abstain in the voting, in silent disapproval of the withdrawal without insuring international control of the canal. With the government's over-all

Terrorized by Fusillade of Bullets

BELEAGUERED BY GUNMAN—Herbert and Margaret Brewer with Teresa, 3, after their Avon Township neighbor laid seige to their home with a .22 caliber rifle last night. Miraculously, no one was shot.

Capture Ends Rampage

Officers Hold Their Fire

Daring police work ended a drink - fuddled Avon Township man's spree of bullets last night, without a single answering shot from 50 police officers ringing his small home.

"I could have shot him easily," Sheriff's Deputy Fred Pender said, "but I was waiting for help to pull him in."

Pender and Sgt. Alphouse Anderson answered a neighbor's complaint that Alvin Heath was shooting up the neighborhood. They walked up to Heath's door, and called for his surrender.

"He cursed at me and started shooting," Pender said. "How many shots? I wasn't counting. I was digging."

But for Heath's wife, it was just like any other evening.

"We didn't mind him shooting the gun—all of us liked to shoot the gun—so, it was just like any other evening," Mrs. Jean Heath, 37, told reporters.

Questioned, Mrs. Heath and her children, Richard Bannister, 13, Roger, 9 and Judy, 6 were calm.

According to Mrs. Heath, who is expecting another child in a few days, she and the children were unaware that her husband was firing at police officers outside.

"I thought he was shooting up in the air," she said. "I told him when he first went out, 'Honey, remember if you shoot the gun off, shoot in the air so no one gets hurt.'"

She was preparing the next day's school clothing for the children, as her husband re-entered the house to re-load.

Neighbor Herbert Brewer, 28, of 2625 Dearborn St., behind Heath's home, is still confused about being a target.

"There's no reason at all behind it," he said. "Heath is just plain crazy—he had a grudge against me for no reason.

"About two months ago, he threatened he was going 'to fix me good' for no reason at all.

"I told him then, and several times afterwards, that I'd fight him if he wanted to fight. But he refused."

Brewer is self-employed as a house wrecker in the Pontiac area. He lives in the little cement block home with his wife, Margaret, 21, and their daughter, Teresa, 3.

Budapest Sees Clash Between Enemy Factions

2 Killed as Nationalists and Pro-Reds Battle in the Streets

BUDAPEST (AP)—Progovernment and nationalist demonstrators clashed in Budapest today and eyewitnesses said at least two men were killed and several were wounded.

The clash started when a group of about 100 demonstrators siding with Premier Janos Kadar and carrying Red Flags met another group of about the same size bearing nationalist flags on Budapest's great boulevard shortly after noon.

The nationalists tried to wrest the Red flag from the hands of the Communists and a general fist fight got under way.

The Communists were escorted protectively by Russian armored cars. Some unidentified person fired a pistol and the Russians fired a volley above the heads of the demonstrators.

The whole boulevard was emptied in a minute. Russian tanks and armored cars rumbled up and down the street, apparently to frighten residents of the city.

Members of the Hungarian officer corps stood at the corners with tommyguns ready for action.

Workers struck spontaneously in several large Budapest factories today in protest against the rough handling of Hungarian demonstrators by Russian troops and Hungarian police yesterday.

The Budapest Workers Council had advised against a general strike.

The atmosphere remained tense in the capital as Soviet tanks roared up and down the main boulevards of the capital.

Some Budapest demonstrators again demanded a "national uprising," but more conservative quarters there thought a resumption of the all-out revolt, crushed by Soviet arms early last month, was unlikely.

U.N. delegates at the United Nations in New York voiced shocked surprise today over Hungary's refusal to admit Secretary General Dag Hammarskjold Dec. 16. Some claimed it justified growing demands to throw out the Budapest delegation if it continues to flout U.N. authority.

Spree Ends in Arrest

Pontiac Press Photos

DISARMED BY DEPUTIES — Still in a drunken haze, Alvin Heath at the county jail was unmoved by the memory of last night's bullet-filled rampage. "Why don't you give back my gun?" he asked.

Area Terrified by Wild Shots of Avon Man

Officers Grab Laborer After Ducking Gunfire for Over One Hour

By LAWRENCE S. MARTZ Jr. and PETE LOCHBILER

While 30 police cars carrying machine guns and tear gas bombs converged on his home, a berserk Avon Township laborer last night held four Oakland County officers at bay with an hour-long barrage of 34 rifle shots.

Alvin Heath, 33, of 2658 Hartline St., was subdued by three Sheriff's deputies and a Rochester officer who advanced on the house while his wife, Jean, 37 was reloading his gun with his last 12 bullets.

The fusillade last night followed a six-hour shooting spree in which Heath terrorized his neighbors, where residents said he has been shooting wildly for three weeks.

Herbert Brewer, 28, of 2625 Dearborn St., said the gunman "emptied his gun at me" yesterday afternoon. Officers said Heath had drunk a pint of whisky and part of a bottle of wine before last night's battle.

Despite the fact a crazed gunman, holed up in his farm house near Flint, killed two state troopers Nov. 19, the besieging deputies didn't fire a shot at Heath.

• • •

Harry A. Richards, 63, the Flint slayer, shot troopers George E. Lappi and Bert A. Pozza with short-range shotgun blasts while barricaded in his house.

Mumbling that he was being "kidnaped," Heath was booked overnight in Oakland County Jail for investigation of assault with a dangerous weapon.

Oakland County Prosecutor Frederick C. Ziem, who took a statement from Heath this morning, said he will take further statements today and tomorrow to fill in details of the battle and tomorrow will probably issue a warrant against Heath for assault with intent to murder.

Heath claimed Brewer had been picking on him since last summer, Ziem said. "Brewer had attacked me and threatened to kill my wife and the whole family . . . I've really been scared. I believe he

Keep 'Dreaming' of White Christmas

See Continued Drizzle, Unseasonable Degrees

A thick fog settled over the Pontiac area today bringing traffic to a crawl and promises from the Weather Bureau that temperatures will remain around the unseasonable 40 degree mark.

Yesterday witnessed a balmy high of 53 degrees at 4 p.m. in downtown Pontiac. This was seven degrees off the record for the date of 60 set in 1884.

Motorists can continue to look forward to running their windshield wipers as the forecast is for a light drizzle with cloudy skies. Tonight's low is expected to hover around the 40 mark.

More rain is likely for tomorrow with the mercury to reach a high around 42 degrees.

The heavy fog canleled flights in and out of Detroit airports and tied up a dozen freighters in the Detroit River last night.

Local police and sheriff departments reported only the normal amount of accidents even with the fog.

The Weather Bureau predicted that the fog should lift by noon or early afternoon.

The lowest temperature preceding 8 a.m. in Pontiac was 45 degrees. The mercury was at 54 at 2 p.m.

Commander of Fleet Denies All Reports

ROME (INS) — The commander of the U.S. sixth fleet denied emphatically today published reports that his warships "deliberately maneuvered in any fashion to embarrass" Anglo-French units in the invasion of Egypt.

Adm. Charles Brown said his fleet's deployment was designed to evacuate U.S. citizens from Middle East areas in the potential combat zone.

He said that both he and Adm. Sir Guy Grantham, the Anglo-French fleet commander, realized that some embarrassment might result from the presence of U.S. and Anglo-French warships in the same spots.

Brown said that, in his view, no such embarrassment ever resulted.

Restrict Traffic Out of W. Berlin

Jitters Believed Cause of Russian Crackdown on Allied Travel

BERLIN (AP) — Western officials today viewed Russia's clampdown on Allied road and rail traffic in and out of West Berlin as part of a general security alert throughout the Soviet satellite empire.

The Kremlin's nervousness over possible spread of independence fever from Hungary and Poland appeared behind demands for the right to search Allied trucks and trains for hidden persons.

Soviet army guards forced a U. S. Army truck convoy outward bound from Communist-encircled West Berlin yesterday to abandon its weekly run to West Germany.

The Russians insisted on searching the trucks and seeing identity documents.

The U.S. Army command in West Berlin ordered the convoy to turn back "rather than submit to investigations beyond those which have been in effect for many years."

Last week the Russians slapped restrictions on Allied rail traffic in and out of West Berlin, forcing a British outbound train to turn back and delaying U.S. military trains. American, British and French officials are negotiating with the Russians on the rail dispute.

West Berlin lies 110 miles inside Communist East Germany and its lifelines to West Germany consist of the highway, one railroad and three air corridors.

The Russians exercise no control over air traffic.

Hungarian Kids at Camp Happy With Santa's Gifts

CAMP KILMER, N. J. (AP)—Dozens of Hungarian children, uprooted in bewilderment from their homes only a few days ago, awoke today to find that the spirit of St. Nicholas lives around the world.

When they looked at their shoes polished so brightly in hope, they found a wonder of wonders—St. Nicholas had paid them a visit.

Even though they were thousands of miles from their homeland and living in an Army barracks, the old gent had found them.

He left them the traditional gifts: dolls, games, candy—and switches.

They were small gifts, in their tradition that says the big gifts come on Christmas Day, the small ones on Dec. 6 from St. Nicholas, whom Hungarian youngsters consider their special protector.

While the children were nestled all snug in their beds, volunteer workers from the Red Cross quietly delivered the packages last night to Hungarian refugee parents billeted here.

The gifts, all new, were donated by various organizations through the Red Cross.

The symbolic switches — another part of the tradition that calls for the youngsters to shine their shoes and set them out for gifts — were "pulled off some trees around here," a Red Cross spokesman said.

Sends Key to Santa

LARAMIE, Wyo. (AP) — A local youngster isn't taking any chance that Santa Claus will get stuck in the chimney. Among the letters in a special box for Santa's mail at the Laramie post office was one which contained the usual request for toys — and the key to the front door of his parents' house.

Refugee Pair Weds in Detroit Ceremony

Less than one month ago, Laszo, 26 and his fiancee, Gertrude, 24, were fighting side by side in the streets of Budapest, then on October 24th they fled fifty miles to the Austrian border—and freedom.

Yesterday at 4 p.m. they were married by Judge Eugene Sharpe in the Detroit County Building after arriving with 43 other Hungarian refugees by plane, Sunday. They had visited the Pontiac area Monday.

Both asked to have their names withheld to avoid reprisals on relatives who had to remain in Budapest.

To Laszo and Gertrude, their marriage in America seems like a "wonderful dream."

Wallet Returned to Pontiac Man After 10 Years

A wallet lost 10 years ago and long forgotten was returned to a Pontiac man by a Cheyenne, Wyoming hotel yesterday with personal papers and money—all $3 of it—still intact.

• • •

The amazed and happy recipient was Steve Couretas, of 281 Raeburn St., who lost the wallet in 1946 while a member of the U.S. Navy.

"I had forgotten all about the wallet. I don't even remember staying in Cheyenne. It must have been sometime when I was passing through," the Pontiac native told the Press today.

He said a letter from the hotel asking if he wanted the wallet back had preceded its arrival. "They apparently came across it while looking through their files. It still had my papers and $3 in Chinese and American money in it," commented Couretas.

Bloomfield Fashion Shop
Will be open every night 'till 9 incl. Sats., beautiful Christmas gifts.

Reveals $700 Million Capital Investment

GM Head Sees '57 as Second Best Year

NEW YORK — Harlow H. Curtice, GM president, forecast today that 1957 would be the automotive industry's second best sales year in history and revealed GM anticipated spending $700 million for capital investment during the year.

He spoke before 400 newsmen at a luncheon preceding the opening Saturday of the National Automobile Show.

The GM president emphasized that his predictions were based on the assertion that "the delicate balance of peace will be maintained."

He said that in 1957, the industry should produce and the United States market absorb approximately 6,500,000 new passenger cars and 900,000 trucks. Including Canadian and export sales production should approximate 8,300,000 passenger cars and trucks.

"To bring the 1957 General Motors models to market," Curtice disclosed, "required an outlay of approximately $630,000,000. This is more than we have ever spent in any one year for styling, engineering and mechanical advances."

HARLOW H. CURTICE

Curtice said 1957 would be another good year for GM, exceeded only by 1955.

In making his annual economic forecast, Curtice said he viewed 1957 "as another record year for business generally," presuming the maintenance of peace.

"It has been demonstrated conclusively," he said, "that the prosperity and progress of our nation are not dependent on war or a peak level of defense expenditures."

However, he said he believed defense expenditures would be higher next year—possibly $42,000,000,000.

Of other 1957 economic prospects, Mr. Curtice said:

Gross national product as high as $435,000,000,000;

The year one of substantially full employment;

Consumer disposable income up, possibly to $300 billion;

Personal consumption expenditures should continue to increase.

Government expenditures at all levels should rise somewhat.

The upward trend of the construction industry should continue.

Highway expenditures should rise $750,000,000 to $8,500,000,000.

Expenditures for capital equipment are expected to increase even from the tremendous current demand.

Curtice noted that 1956 was the first peacetime year of record economic activity not spearheaded by the automotive industry.

According to the best estimates on December results, Curtice said the industry's 1956 sales record will be about equal to his revised estimate last May of 5,800,000 passenger cars.

This is a drop of 20 per cent from 1955, but still is the industry's third best year for retail passenger car sales domestically, he emphasized. United States and Canadian sales of GM cars and trucks in 1956 should reach a total of 3,725,000, Mr. Curtice reported.

For General Motors, 1956 will be its second best year of passenger car sales.

"Dealers handling General Motors products have experienced a similar contraction in their new car and truck sales this year, but nevertheless they have operated successfully and profitably in the main," he said. "It can be considered a good year, too, for our 26,000 suppliers of goods and services."

Ring Up One for Police

ALBUQUERQUE, N.M. (AP) — The police radio dispatcher gave this bit of excellent advice to all cars last night: "If you see a man carrying a cash register, arrest him."

No Cops on Thieves Lane

HERTFORD, England (AP) — The Hertfordshire County Council last night turned down an offer of six lots on Thieves Lane for a projected police housing development.

Plans to Attend Removal Trial

Set Dec. 12 Hearing for Justice Williams of Madison Heights

Madison Heights associate Justice Charles O. Williams said today he does not plan to resign before a hearing in removal proceedings against him, scheduled for Dec. 12 at 9:30 a.m. in Lansing.

Oakland County Prosecutor Frederick C. Ziem said yesterday Lt. Gov. Philip A. Hart will preside over the hearing in the absence of Gov. G. Mennen Williams, now vacationing in South America.

Williams said today his present plans are to attend the hearing, but he said he might change his mind if his attorney, Andrew J. Hollis of Ferndale, advises him to resign.

The removal proceedings were asked by Madison Heights' City Council, which charged Williams abused the authority of his office in advertising his services, charging $10 for $2 weddings, and engaging in other conduct prejudicial to the dignity of his office.

ACCUSED BY GIRL

The justice's ouster has been sought since an 18-year-old Ferndale girl last month accused Williams of offering her money to pay her boy friend's fine if she would accompany Williams to a motel.

Williams pleaded guilty to registering at the motel under a false name, and was fined $90 with $10 costs. While he was registering, the girl fled.

Retired Pontiac Executive Dies

Charles F. Gordon With Motor Company for Twenty Years

Charles F. Gordon, 60, superintendent of purchasing at Pontiac Motor Division from 1941 to 1946, died yesterday at his residence, 13 Mohawk Rd. He had been in ill health 11 months.

* * *

Coming here from Boston in 1936, Mr. Gordon had been purchasing agent for the Detroit Brass & Malleable Co.

Born in Charlestown, Mass. on Oct. 27, 1896, he was a member of St. Michael's Church and the Knights of Columbus. He was a veteran of World War I.

* * *

Besides his wife, the former Grace Kelly, he leaves three children, Mrs. Don F. Anderson of Roswell, N. Mex., Mrs. Richard Edens of Pontiac and Capt. Charles Gordon stationed with the U. S. Army in Germany; nine grandchildren and a sister, Mrs. George Cummings of West Roxbury, Mass.

Arrangements will be announced later by the Donelson-Johns Funeral Home.

Purse Containing $60 Stolen From Shopper

A purse and $60 were stolen from a shopper in a store at 154 N. Saginaw St., yesterday afternoon, Pontiac police said.

The victim, Mrs. Emma Post, 103 Fairgrove Ave. said she had placed the purse on a counter while examining merchandise.

Purse Snatcher Robs Pontiac Woman of $15

A purse-snatcher robbed Mrs. Earl Perkins, 19 Hartung Ct. of her bag and $15 last night a few doors from her home, Pontiac police said.

She said the culprit, a teenager, grabbed the purse and ran as she returned from shopping.

JET RAMS HOUSES — This was the scene after an Air Force jet trainer crash-landed and burned two homes in a Los Angeles residential area last night. Approaching the International Airport, the plane hit a power pole, another home and a garage before coming to rest. The pilot, Capt. James Glessner of Julesburg, Colo., was helped from the burning craft only slightly hurt. Occupants of the houses were unhurt.

New Mexico Ski Club Sets Opening Date

TAOS, N. M. (INS)—Ski enthusiasts will have another recreation area to add to their list of plush winter sport spots beginning Dec. 15.

The formal opening of Taos Ski Valley takes place on that date, offering not only scenic beauty but an easy ski run for beginners and youngsters, plus a few tough runs for experienced slat artists.

* * *

A spacious rustic lodge is nearing completion not far from the slopes of Mt. Wheeler, New Mexico's highest summit.

Three ski lifts are projected and a so-called snow cat also will be in operation. The ski area is organized under the name of El Rancho Honro, Inc.

Bugs Battling Human Race for Supremacy

ST. PETERSBURG, Fla. (AP) — Insects are keeping pace with man in the battle for survival.

That is the opinion of scientists who attended a southern regional work conference on nuclear energy here. They said the insect population is at its peak and the weight of insects now in the world equals the weight of man.

Dr. Frank Soday of Decatur, Ala., said insects in many instances adjust themselves to local conditions and develop immunity to poisons, so that man must constantly devise new methods of eradicating them.

Dr. Erle Rodgers of the University of Alabama reported that insects are far more numerous now than when he was a boy. He said there are even reports of the boll weevil now attacking corn instead of cotton.

Dr. Ralph W. Singleton, professor of biology at the University of Virginia, pointed out that such modern means of transportation as autos and planes have spread insects far and wide, giving them a chance to establish new beachheads.

Success in solving pest control problems will depend largely on a vigorous program of research, say the scientists, who warn that man must wage a continuing fight if he is to keep ahead of the insect.

Mindszenty Tells for First Time of Red Abuses

NEW YORK (AP)—Hungary's Cardinal Mindszenty says he was abused for 29 days and nights by Red secret police prior to his trial on treason charges in 1949.

The prelate said he was stripped beaten for days with a rubber hose, kept in a cold, damp cell to irritate his weak lung, forced to watch obscene orgies, and questioned without sleep throughout the entire period.

When he collapsed, the prelate was quoted as saying, he was revived immediately to deprive him of rest.

His interviewer, Leslie Balogh Bain, said, however, that the cardinal told him no drugs were used to make him confess to trumped-up treason charges.

Cardinal Mindszenty, freed during the Hungarian uprising, said he would fight on against the Communist regime. He also said his memoirs will aid in raising funds for the destitute Roman Catholic Church in Hungary.

Delivers Dogs' Dinner

RICHMOND, Va. (AP)—Christmas dinner for the dogs at the city pound has arrived from an anonymous donor — just as it has for the past four years. Accompanying the 48 cans of dog food and four boxes of biscuits was a card identical to one received each year and signed, "In memory of Chubby and Beauty."

May Outlast Eden's Tenure

Mollet Postwar Rarity

PARIS (AP)—The Suez fiasco and the unending Algerian war have brought French Premier Guy Mollet under increasing political attack, but most political observers agree the government is not in danger—yet.

The trouble might come when the bills roll in and the budget must be voted in January.

By then, if he makes it, Mollet will have been 12 months in office, a postwar rarity in France. Until now he has weathered the Suez crisis with far less difficulty than British Prime Minister Sir Anthony Eden.

The jab which has hurt Mollet worst came from 17 deputies in his own Socialist party. Declaring themselves in line with Britain's Labor party in condemning the Suez affair, the 17 protested that the government's "pacification" policy in Algeria had also failed and should be scrapped. They demanded the immediate calling of a special party congress to discuss the next moves.

There has been sniping too from the far left, right and center of the National Assembly.

Perhaps because of these indications of dirty parliamentary weather ahead, the Premier today sought and obtained from the Cabinet permission to stake his future on a confidence vote when the Assembly debates the treaty returning the Saar to Western Germany next week.

Eden's Leadership Remains in Doubt

(Continued From Page One)*

majority at 59 votes, a minor rebellion would not force it to resign.

But criticism was rising in the Conservative ranks against Eden, resting in Jamaica from "severe overstrain" and due back in about 10 days. Some influential Conservatives were saying the Prime Minister would be under heavy pressure to resign soon after he gets back, making way for another Conservative to take over without a general election the party this time might lose.

Eden's continuing in office was opposed for a variety of reasons by varying groups in his own party. Some thought he should not have ordered the invasion of Egypt, or should not have kept the United States in the dark about his plans.

One faction of diehards was bitter at the pullout leaving President Nasser in control of both Egypt and the canal. Many were concerned over the rift with the United States and the economic crisis ahead.

* * *

Acting Prime Minister R. A. Butler was the likeliest man to become prime minister should Eden step out, but there was some feeling he was too closely identified with the decision to move against Egypt. Two dark-horses mentioned were Colonial Secretary Alan Lennox-Boyd and Sir Winston Churchill's son-in-law, Housing Minister Duncan Sandys. Both have remained outside the Suez controversy.

Diphtheria Toll at 138

DETROIT (AP) — Two new cases of diphtheria were reported in Detroit yesterday, bringing the year's total to 138.

Accuse Man as Agent in Prisoners' Escape

JACKSON (AP) — While authorities questioned a man today in what they said was the operation of an "underground railroad" escape route, southern Michigan prison officials sought two newly escaped convicts.

Louis Ross, 53, was accused of being "the depot agent" of the so-called "underground railroad" that allegedly gave prison escapees civilian clothes and transportation to Detroit.

Detroit Police Detective Maurice Coble said John Byrd, 31, who escaped Friday and was captured Monday, told him Ross, caretaker of a church camp 12 miles east of Jackson, furnished him street clothes and a ride to Detroit in return for a promised fee of $150.

In addition, Coble said Byrd told him that Ross offered to lend him a gun for a holdup to get the money.

Ross was arrested yesterday. Less than 12 hours later two convicts escaped by walking away from a prison farm to which they had been assigned as trusties only last Nov. 15.

Buys Self Yule Gifts

BALTIMORE (AP)—Elisha Sampson told police he was receiving numerous Christmas gifts which he hadn't ordered and didn't want. A local store revealed that a man purchased the gifts after cashing a commercial money order, identified himself as Elisha Sampson, and pocketed the change. The money order forms had been stolen. So had Sampson's wallet and identification papers.

16 Face Charges in Race Strife

Accused of Contempt in School Violence at Clinton, Tenn.

CLINTON, Tenn. (AP) — Ten more of the 16 persons accused in racial violence which closed integrated Clinton High School Tuesday faced a federal judge today as officials made plans to reopen the school.

U. S. Dist. Judge Robert L. Taylor of nearby Knoxville issued criminal contempt warrants for the 16 yesterday, charging them with violation of a court order forbidding interference with integration of the school.

* * *

Fifteen of them — 16 men and one woman — were in jail at Knoxville within a few hours. A 16th, reportedly a woman, was still being sought by federal marshals.

* * *

Six of the prisoners, including W. H. Till, chairman of the pro-segregation white Citizens Council here, were arraigned before Judge Taylor last night. All denied the charges. Other arraignments were postponed until today.

There also was a report that steps have been taken to see if bail can be revoked for John Kasper, 26, who has appealed Taylor's one-year sentence on a similar charge in previous disorders at school opening last August.

* * *

The Anderson County School Board, which had ordered the school closed Tuesday "until further notice," decided after the 15 arrests last night to reopen the school next Monday if possible.

The closing followed a series of increasingly numerous racial incidents climaxed Tuesday by the beating of a Baptist minister, the Rev. Paul Purner, after he had escorted six Negro pupils to school past jeering bystanders.

The letter "e" is most frequently used in the alphabet, but more words start with "s" than any other letter.

The Day in Birmingham

Stage Experience Wins as Two Stars Perform

BIRMINGHAM — No theatrical trappings but experience galore on stage and television is being brought today and tomorrow to the Birmingham Theater stage with the "Two's A Company" program.

Albert Dekker's performance at Town Hall today recalled for many his performance of skill as Willie Loman, the lead in "Death of A Salesman," as well as his roles in the movies, "Cass Timberlane," "Gentlemen's Agreement," "Wake Island," and "Strange Cargo."

Total range of mastery of six dialects for one of his movies might go unused in today's talk, but not his understanding of the characters portrayed.

Edith Atwater's share in the program, which included characters from Shakespeare, Sandberg, the Brownings, Chekhov, and Robert Frost, is backed as well by onstage successes.

Laughs from "Time Out for Ginger," and steely cruelty in "King Lear," are part of her range of mood rendition.

* * *

Santa or Mrs. Santa Claus can be called in Birmingham on a direct phone line to his workshop.

Starting Monday, calls may be placed from 5 to 8 p.m. to MIdwest 6-7222. The two weeks of calls will feature children's chats with the North Pole couple on what is wanted for Christmas.

Helping with phone bills for Santa is the city's recreation department.

* * *

Eton Park rink has attracted 2,383 skaters thus far, and one class has reached capacity, according to Vivian Heard, programmer at the artificial rink.

With the Saturday children's class from 1 to 2 p.m. Saturday filled completely, adult classes on Thursday are filling rapidly, and other sections for all ages are being arranged.

Over 150 boys have tried out for eight teams of hockey, with eight coaches starting the practicing. Boys will be notified of their team membership this weekend.

There will be no adult recreation sessions tonight or next Tuesday because of the gym's unavailability. Adult night will resume its Tuesday and Thursday units starting Dec. 13.

* * *

New officers of the Y's Men, who start their tree sale at the YMCA Saturday, are Al Madsen, president, Bob Curtis, vice president, Don Gibbings, secretary and Bob Schaffer, treasurer.

Supper Club of the First Congregational Church will meet at the church at 6:45 p.m. tomorrow for a travelogue program following their meal.

* * *

Mrs. Sally M. Powell

Mrs. Sally M. Powell, 2379 Yorkshire Rd., died last night at St. Joseph Mercy Hospital after a brief illness. A Birmingham resident for the past ten years, she was associated with Johnstone and Johnstone Real Estate firm, and belonged to St. James Episcopal Church.

She leaves her daughter, Mrs. K. N. Ryden, a son, William Fogle; six grandchildren, three sisters and four brothers.

Her body will lie at Bell Chapel of the William R. Hamilton Co. until service at St. James Church at 2 p.m. Friday. Burial will be in White Chapel Memorial Cemetery.

* * *

A campaign organization is working towards winning the Republican nomination for University of Michigan Regent for Mrs. Robert F. Watt, 1215 Yorkshire St.

Mrs. Watt, whose committees have met twice and will meet again next week, has the support of Mrs. Stuart G. Baits of Detroit, whose place on the U. of M. governing board she would take if she wins the nomination and the succeeding spring election.

"If elected she would become first regent from Oakland County," says one supporter.

The national capital site was removed from New York to Washington D. C. during the period of the administration of President John Adams.

Demand for Pontiacs High in November

Pontiac dealers delivered 27,957 new Pontiacs in November, S. E. Knudsen, GM vice president and general manager announced today. He said it was the highest sales month reported by dealers since August.

Ending the first calendar month since the 1957 Pontiacs were introduced on November 9, Pontiac dealers also reported a total of 21,784 unfilled customer orders for 1957 models.

It is the highest number of unfilled customer orders on hand at Pontiac since November of last year, Knudsen said.

Question Metal Worker in Schoolboys' Slaying

SAN DIEGO, Calif. (AP) — Police said tonight they are holding a 30-year-old former metal worker and gardener for questioning in the slaying of three Chicago schoolboys Oct. 16, 1955.

The man, identified as Richard Ebert of Aurora, Ill., was arrested on a charge of suspicion of vagrancy. Aurora is 40 miles southwest of Chicago.

The combined area of the U.S. national forests is now computed to be one and one-third times that of Texas.

For Special Individuals

Imaginative Gifts Needed for Some

The most challenging items on a family's Christmas gift list are the special gifts. These are the ones for invalids, for a woman who's going to be having a baby over the holidays, for neighbors who've done the family favors but who aren't planning a return gift.

The special gift category also includes elderly relatives whose tastes and habits are unknown, gifts for sons' fiancees, for daughters' college roommates.

Most of these take thought. But even when the gift seems off-beat it is often the most satisfactory to achieve.

Home-town newspapar subscriptions, memberships in book or record clubs, offers of services such as baby-sitting or reading out loud often fill these assorted bills.

Laundry cases packed full of durable foods and candy often suit college roommates better than jewels. A fiancee is often more touched by a baby picture of her intended than she is by some less personal gift.

A bed jacket is a natural for an invalid but there are other less-often-thought-of gifts.

Fancy rosebud printed sheets are cheerful. A vacuum bottle and glass are often welcome. A second-hand radio or record player may be worth more than a bushel of hankerchiefs. A breakfast set in cheerful pottery can give an invalid a feeling she's still a homemaker.

New for the invalid or the mother-to-be is the "Essentially Yours" kit by Jean Nate. It's a bath kit that is just as useful for a sponge bath as for a tub bath. It includes after-bath friction, talc and soap in a waterproof kit of chartreuse. This is handy after the hospital stay as a weekend kit.

Unusual for the relative whose dimensions are unknown is a dye-match combination of fabric and yarn.

This way, the young lady can make her own outfit to perfect size with materials she might not otherwise be able to afford.

A tiny Christmas tree, completely decorated, is a delightful gift to take a shut-in. If it's small enough to go on a bedside table, the receiver can place her gifts under the tree and give them out in style.

Picking for a sick child means utmost consideration for his limitations. Active toys may be out. Sometimes a gift several months late will ease boring hours whereas the gift on time is merely surfeit.

Massachusetts ranks as first in production of emery and emery products.

Christmas Rites Adopted Slowly

Tough Sledding Faced Celebration in Early Colonial Times

When you trim the tree on Christmas Eve and hang up your stocking for Santa to fill with perhaps a new convertible, you likely as not think you're observing customs brought over on the Mayflower.

You glow with nostalgic pride in imagining the homey Yuletides celebrated by the Pilgrims—they did so well by Thanksgiving. And you can just see Ben Franklin, that jolly old elf of the 18th Century, cramming himself into a Santa Claus suit to delight the youngsters of Philadelphia.

Pleasant little fantasies—but so untrue. As a celebration, Christmas had tough sledding in colonial days, and Santa Clause as we know him didn't materialize until mid-19th Century.

The truth is, the Puritans who came to New England bore a marked resemblance to the rock-bound coast they stepped forth upon. No frivolity. And no religious feasts because they were not specifically prescribed by the Bible.

CHRISTMAS OUTLAWED

The Pilgrims brought their hostility to Christmas with them from England, where they had been outraged by the reveling and debauchery the holy day occasioned in some quarters.

But there are always gay souls in any crowd and by 1659 it was necessary to enact a law in General Court of Massachusetts to fine anybody observing Christmas. This followed an act of Parliament 12 years earlier by the English Puritans abolishing the festival.

With the Puritans, Quakers, Baptists and Presbyterians opposed to it, Christmas might have died out in this country. But immigrants of the Roman Catholic, Church of England, Dutch Reformed and Lutheran churches kept up their Old World celebrations of Christmas both as a religious and a national folk day.

EVOLUTION OF SANTA CLAUS

Dutch settlers in New York were especially merry. The genial burghers started the season early in December and closed public offices for the entire period.

Christmas as a folk festival was made up of customs from Germany, Holland and England. Among the Dutch contributions was the visit of St. Nicholas, who brought presents to good children and switches to the bad. In the United States, St. Nicholas was destined to undergo a complete refurbishing and emerge thoroughly American.

Clement Clark Moore probably started it in 1822 when he wrote "A Visit from St. Nicholas." The gift bringer was a composite of St. Nicholas and various folk figures like elves. The reindeer-drawn sleigh seems to have been pure literary invention, but it caught popular fancy.

Santa's appearance varied with the artist until Thomas Nast, the famous cartoonist, in 1863 started an annual series of Christmas drawings for Harper's Weekly.

Then Santa took substance as the jolly, whitebearded figure is for we know today.

Because he is a Christmas symbol more secular than religious, Santa was seized upon by advertisers. Department Stores, banks, investment companies—just about anybody with something to sell—began to use Santa as a symbol to promote business.

About 20 years before Nast drew his first sketch of Santa, Charles Dickens wrote a story in England that was to have sweeping effect on American Christmases. It was "A Christmas Carol," setting forth the virtues of kindness, generosity and brotherhood.

'GOD BLESS US EVERY ONE'

Few and far between are the Americans since that time who have not heard and reheard the story of flinty-hearted Scrooge, his overworked clerk Bob Cratchit and Tiny ("God bless us every one") Tim.

Although our Christmas is made up of customs and traditions from various countries, it is uniquely American. It has its commercial aspects—billion dollar gift-giving business, Main Street decorations, home lighting contests, Christmas Club saving accounts.

It's a folk festival too—Christmas trees, traditional folk beliefs, parties, holiday dinner, caroling, numerous family activities. It's also a religious observance for Christians—with church services, charity and an awareness of the spiritual significance of the occasion.

Farm Surplus Pacts Net $316,000,000

WASHINGTON — The United States Department of Agriculture in fiscal 1956 entered into barter contracts for the sale of surplus farm commodities valued at $316,000,000.

Commodities placed under contract in fiscal 1955 were valued at $282,000,000.

Strategic materials acquired under the barter program in fiscal 1956 were valued at $177,000,000 compared with $83,000,000 the previous year.

The great levee system along the banks of the Mississippi river is almost 500 miles longer than the Great Wall of China.

Toys to Stress Future Careers

Do-and-Learn Is Given Top Attention to Aid Children at Play

Whatever career junior may yearn for, Santa will have available this year a toy kit to provide useful training-in-play. The trend towards career preparation and creative play activity is growing, reports Melvin Freud, president of the Toy Guidance Council.

Manufacturers seem to have put their heads together with the economic planners in an effort to solve future personnel shortages by putting special emphasis on toys that stimulate interest in engineering and science.

* * *

Electronics have inspired a fascinating selection, from rocket launchers to a "brainy bug" for toddlers, which turns when its antennae touch an object in its path. Others for the scientist-in-the-making are a radio set with a transistor, a radar station, guided missile equipment, and an instrument board for an atomic-powered submarine.

INTER-COMS AND WIRING

The dial telephone, long a playroom favorite, comes now with a four line switchboard, complete with hold buttons and signals. For those with a bent toward communications there are also a variety of intercom systems and miniature broadcasting units, and a velocipede with a linesman's tool kit for the young telephone repair man.

Newest thrill for junior contractors is an authentic model of a ready-mix concrete truck. The mixer, geared to the axle, rotates with a realistic mixing noise, and the body rises to unload cement.

Nearly every boy goes through a time when he wants to be a fireman. Just for that stage there is a new suburban water pumper which shoots a continuous stream of water supplied by a hydrant which can be connected to any garden hose.

Does he plan to build sky-scrapers? There's an architectural kit of plastic inter-locking blocks then, with full instruction on how to reproduce Manhattan's famous skyline.

* * *

Potential musicians should be well-satisfied—even if the neighbors are not—with any of the new plastic toy instruments which have correct tonal range.

How-to kits concentrate on giving boys, as well as girls, basic training in home maintenance and in cooking projects ranging from barbecue techniques to western style chow wagons complete with brand soups, spaghetti, pork and beans.

RANGE RIDERS SERVED

Even with so many modern toys around, range riders will be served. New in this department is a western style gun that can be converted to a detective's type when junior wants to switch the locale of his drama.

Designers have come up with some quick - change ideas that should suit larger families and simplify storage in space-hungry homes. For instance a new doll carriage converts into a doll swing and a car seat. Folding and expandable play tables and chairs are much in evidence, and a new bike is simply converted from boy's style to a girl's model.

Pulp and Wallboard Industries to Grow

GOTHENBURG, Sweden — Production capacity of the Swedish pulp and wallboard industries will be increased substantially during the next five to 10 years, according to a report by a committee surverying forest resources in southern and central Sweden. Its most conservative estimates indicate an expansion in wood-pulp production of nearly 50 per cent, or about 1,700,000 tons, by 1965. The capacity of the wallboard industry will be increased by 300,000 tons, or 80 per cent.

Curtains and Garbage Both at City Dump

OKLAHOMA CITY (AP) — Mrs. Beatrice McDonald went before the Oklahoma City Council to explain how she left two pairs of curtains in a basket near her garbage can and the garbage collectors removed them.

She made a trip to the city dump but failed to turn up the curtains. Councilmen sympathized and decided to give her $9.18.

Idea Was Too Corny

ROANOKE, Va. (AP)—Leave it to the youngsters for originality. A carload of them at a drive-in theater here wanted popcorn to eat during a movie. To be different, they brought their own corn—unpopped—and asked the concession stand to pop it for them. The concession people declined.

Nabs 'Frozen Assets'

SAN DIEGO, Calif. (AP) — Who would think of looking in the freezing compartment of a refrigerator for money. A burglar did, police said, and found $3,500. It had been left in a food market freezer over the weekend, supposedly for safekeeping.

for yourself!
for gifts!

a gift she'll love!

JUDY BOND BLOUSES *starting at* **3.98**

Current Stories Tell of Commies' Brutality

Once a Communist, always a Communist.

Apparently, you can't arise.

Current dispatches tell of Red soldiers firing on defenseless women who were placing flowers on the tomb of Hungary's Unknown Soldier.

Only Commies sink this low.

They've cornered brutality.

★ ★ ★

You see, the women had forced themselves past the Russian soldiers to place this bit of humble homage on the mute and silent grave of a nameless countryman who gave his life for them and for freedom for his homeland.

This was too much.

You don't push past Red soldiers.

★ ★ ★

How anyone in this country could subscribe to the beliefs and practices of the Communist rulers is one of the things we shall reach our grave never comprehending or understanding. What is there about this type of procedure that suggests anyone—we repeat, *anyone*—would WANT IT OVER HERE?

Who seeks to live under those stipulations? Who wishes to spend the rest of his existence under "rules and regulations" that establish things like this as acceptable procedure?

★ ★ ★

This Nation has been too lenient with Communist sympathizers in this country. Perhaps the finest and most fitting punishment lies in deportation to Russia.

We favor that.

We'd contribute financially.

Nation's Vacation Habit Changing Considerably

Vacation habits change.

This refers to the whole Nation.

Florida, Southern California and Arizona have been verifying this happy condition to their great delight. As a matter of fact, they have encouraged it and helped bring about the transition.

Originally, it was probably an attempt to equalize the traffic. Florida once staggered under a peak load in January and February.

Gradually, March was included.

Then April followed.

★ ★ ★

Encouraged by these signs, the southern watering spots began offering bargain rates and big inducements for travel in May, June, October, November and December. And now they "point with pride" to the two months in the middle of the summer. Hotels, motels and apartment houses that used to close down nine months of the year are now open eight and ten months and some never close.

★ ★ ★

Probably northern businesses have been aided, also. Vacation schedules used to be condensed into two or three well packed months. Today they are strung out over the year to some extent and a fairer situation results for all concerned.

★ ★ ★

Michigan's hunting seasons—both birds and deer—have crept upward in attendance and out-state activity, also. The idea that vacations just automatically occur in June, July and August has been banished.

We all gain.

It's a healthy situation.

Postal Officials Ask Your Help

With Christmas but a short time off now is the time to make preparations to see that your mailing is done early. To assure delivery, Christmas mail must be spread over the holiday season.

Last minute mailing not only overburdens the post office but will cause delay in the arrival of presents to distant points.

★ ★ ★

Post office authorities need the cooperation of the Pontiac citizens now. This year they expect to handle over the record volume of 5 million letters, cards and packages that were sent through the local office in 1955.

★ ★ ★

According to the Michigan railroad association they expect to carry a load of about 200 million pieces daily for about a week at the height of the yuletide season. This would be the equivalent of 9 pounds of mail for every man, woman and child in the country.

These figures should point out the enormous task facing the post office department. Every facility of the department will be used so that again this year as in the past your mail will arrive on time.

★ ★ ★

In order that this can be accomplished please do your Christmas mailing early.

The Internal Revenue Service will put some commercials on television soon. One wonders if they won't be rhymed singing commercials, somewhat along this line: "If you cheat the Government, to the rockpile you'll be sent."

The Man About Town

Did You See Her?

Date Wanted of Hatchet Wielder's Visit Here

European nations: A bunch that's always rattling a saber—or a spoon.

Our younger generation seems to have the idea that Carrie Nation was a mythical character, as was Paul Bunyan and other personages of history. But the writer saw her and talked with her in his early newspaper days about a half century ago when she visited Oakland County. She had some definite ideas about the liquor traffic, and a penchant for breaking up saloons with her hatchet.

Another local resident who remembers her visit here is

Mrs. Phoebe VanDusen

of Arcadia Court, but we cannot agree on the exact date of same. Can you help us? When Carrie toured Oakland County, she did no hatchet work, although she carried her weapon, and did a lot of threatening. She died in 1911.

Celebrating his eighty-seventh birthday ne week is

Frightening Similarity

David Lawrence Says:

High Court Can't Force Integration

WASHINGTON — Contrary to a widespread impression, the federal government has no legal power to require or enforce "integration" in the public schools of the nation. Any disorder outside the schoolrooms is solely a matter for the police power of the state and for state courts.

The petition of the school board of Clinton, Tenn., to Attorney General Brownell here to help enforce "integration" would, if heeded, violate the Constitution itself.

For the only thing the Supreme Court of the United States has decided is that no state may have on its statute books any law that compels segregation.

Voluntary segregation in itself is still legal. This has been affirmed by a special court of three—two judges from the U.S. Circuit Court of Appeals and one district judge—in South Carolina. This is "the law of the land" today. It has not been reversed in any way by the Supreme Court of the United States. The ruling which was handed down by the three-judge court on July 15, 1955 said:

NOT FEDERAL CONTROL

"It (the Supreme Court) has not decided that the federal courts are to take over or regulate the public schools of the states.

"It has not decided that the states must mix persons of different races in the schools or must require them to attend schools or must deprive them of the right of choosing the schools they attend.

"What it has decided, and all that it has decided, is that a state may not deny to any person on account of race the right to attend any school that it maintains.

"This, under the decision of the Supreme Court, the state may not do directly or indirectly; but if the schools which it maintains are open to children of all races, no violation of the Constitution is involved even though the children of different races voluntarily attend different schools, as they attend different churches.

* * *

"Nothing in the Constitution or in the decision of the Supreme Court takes away from the people freedom to choose the schools they attend. The Constitution, in other words, does not require integration. It merely forbids discrimination. It does not forbid such segregation as occurs as the result of voluntary action. It merely forbids the use of governmental power to enforce segregation."

The only issue in Clinton, Tenn., relates to the behavior of individual citizens in the community. They have as much right to stand outside the school grounds and do a job of "peaceful picketing" as do the members of a labor union who try to persuade workers not to go inside the factory or to influence the public to boycott the goods produced in the factory.

If the pickets are disorderly, they can be arrested under state laws and prosecuted in the state courts. Congress has passed no new "civil rights" legislation empowering the FBI or anyone else to police local disorders.

* * *

There are some old laws of doubtful constitutionality passed in the reconstruction period nearly a century ago which might be stretched to cover interference with the exercise of any constitutional right. But under such a doctrine, all such cases involving picketing in labor disputes would probably have to be prosecuted hereafter by the federal government.

The federal judge dealing with the case at Clinton, Tenn., may issue injunctions and order arrests, but to be lawful it would have to be proved that the disorder was for the avowed purpose of preventing the school board from eliminating discrimination in the school. A boycott against attendance, for instance, where school attendance is compulsory under state laws, would be a state and not a federal question.

* * *

If it were found that threats or even assaults were being made against citizens who wanted to have their children attend the mixed school at Clinton, this would be primarily an offense under the laws of the state of Tennessee.

The Constitution says that the federal government may enforce law and order within a state only when the state legislature or the governor—if the legislature cannot be convened—asks for protection "against domestic violence."

So it's up to the state of Tennessee to preserve order. Maybe the school board at Clinton, in its bewilderment, thought the Supreme Court had written a new Constitution putting the operation of the school systems of America into the hands of the federal government instead of the states. But that's a mistaken assumption. Policing disorder in and around the schools is still a state problem.

COUNTY TRAFFIC deaths pass 1935 total.

Dr. William Brady Says:

Five Rules to Help Fight Chronic Winter Cough

It is high time for a lot of poor souls with winter cough (chronic bronchitis, bronchial catarrh, bronchiectasis, or what have you) to dispose of cough killers, sedatives and narcotics such as heroin, codeine, the barbiturates, and medicines which can only mask the symptoms for an hour or two, and have a go at home remedies which can do no harm even if they do no good.

One with chronic cough who has a severe coughing spell every morning should:

(1) Throw out all medicines not prescribed by his or her attending physician.

(2) Whip up a batch of the home-made foolproof cough medicine after the recipe and directions given in Volumette 5 of the Pocket Cyclopedia of Health—Call it CRI (35 cents and stamped, self-addressed envelope) and take a tablespoonful if it with half a glass of water every two hours or so for two or three days.

(3) Practice upside-down posture for from one to five minutes, according to one's physical capability, three times a day.

(4) First thing every morning lie prone across the bed and slide off the bed so elbows and forearms rest on the floor. Remain there for five minutes if you can.

(5) Do a dozen forward rolls every day—"somersaults," as I have heretofore called 'em. But, after all, this is foolish, for if you are capable of rolling somersaults, as you would be if you had been doing them as part of your daily keep-fit routine these past thirty or forty years, you probably wouldn't be bothered with winter cough.

ONLY AN AID

The home-made foolproof cough medicine doesn't cure anything; but nevertheless, it is good for the cough of CRI in infants, children and adults, and in any case it can do no harm.

Its main purpose is to liquefy, soften, and loosen secretions in the breathing passages and make cough and expectoration easier.

Generally it accomplishes this purpose in two or three days, and seldom is a second batch needed; although in chronic bronchitis or bronchiectasis it may be helpful to prepare and use a batch at, say, monthly intervals.

Signed letters, not more than one page or 100 words long pertaining to personal health and hygiene, not to disease, diagnosis, or treatment, will be answered by Dr. William Brady, if a stamped self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan.

Voice of the People

Praises Aid to Hungarians, Says They'll Appreciate It

Letters will be condensed when necessary because of lack of space. Full name, address and telephone number of the writer must accompany letters but these will not be published if the writer so requests unless the letter is critical in its nature.

Personally, I think it is wonderful that the American people are opening their hearts to the Hungarian refugees, and I think it is one way we can lick communism. We saw the refugees alight from the plane Sunday; they were in tattered clothing, carried a few belongings in knap sacks and had tears in their eyes. I am sure these men will work without striking every six months. They will appreciate America.

M. S.

Urge Protection of Local Foxes

In Monday's paper the picture serial, "The Animals' Christmas—the animals were getting ready for Christmas, for animals DO have Christmas." Well, there's one that won't have Christmas—in the same paper you have a picture of a fox clubbed to death by two boys. Recently you also reported a couple who have killed 20 foxes in this area.

These people should read "Red Foxes of Michigan," free from the Conservation Department. Did you know that foxes are as little as a house cat or a fox terrier? Did you know that they eat hundreds of different foods, very few of which are game? Mice make up a large percentage of a fox's food. They are protected in 22 states, and nine others pay no bounty on them.

The Conservation Department has been energetically trying to remove bounties for a great many years and have had bills introduced in the legislature to do just that, but have been unsuccessful except with bobcats which now are recognized as protected fur-bearing animals.

We wouldn't harm a fox for a hundred dollars. We've had one for a pet, and know how beautiful and intelligent and sensitive they are. May they never vanish from our scene.

Friends of the Small Ones

Girl With Beautiful Legs Wears the Pants at Met

By HAL BOYLE

NEW YORK (AP)—The girl who wears the pants at the Metropolitan Opera is Mildred Miller, a young singer with a double attraction.

* * *

She not only is gifted with a fine mezzo-soprano voice. Nature also endowed her with a pair of trim limbs as graceful as those on most Hollywood cheesecake stars.

YOUNG BOY ROLES

Because she has "the most beautiful legs at the Met," pretty Miss Miller—who happens to be married to an Air Force major and is the mother of two children—gets most of the young boy roles in opera here.

* * *

"I enjoy singing them," she said. "But at least once a year I like to sing a woman's part, and I tell the management, 'Please, let me show my versatility.'"

It is supposed to be a matter of complete indifference to opera fans whether singers move on feet or wheels. They are supposed to be above any lowbrow interest in leg art.

* * *

But the truth is that "cheesecake"—the display of a well-turned feminine leg—has had a prominent place in opera for more than two centuries.

NUMEROUS PARTS

There are numerous boys' roles in opera—such as Cherubino in "Marriage of Figaro," Octavian in "Der Rosenkavalier," the page in "Salome" and Orlofsky in "Fledermaus."

* * *

As the voices of boys usually are changing at the age at which they would play these roles, they are usually sung by young women.

It was a real thrill for gaffers of the 18th and 19th Century to go to the opera and see a girl wearing knee-breeches and long silken hose. Those happened to be good centuries for bosom watchers, but poor ones for leg men. All their lives, the only way some men ever could view feminine underpinning was to attend an opera.

That old sense of daring, of course, is long gone, but because of the voice demands girls still often must be boys in opera.

TIRED OF TROUSERS

"When it comes to trousers, by the end of the season I've had it," said Miss Miller, who is dark-haired and has green eyes. "I throw every pair of slacks, shorts, pedal pushers and lounging pajamas out of my wardrobe."

* * *

Miss Miller first met her husband, Maj. Wesley Posvar, while attending a Cleveland high school. He courted her in Europe while he was a Rhodes scholar and she was studying music. They live now in Arlington, Va., with their children, Wesley, 6, and Mariana, 2½.

Eight years after she left high school Miss Miller was singing at the Met. In addition to 15 to 25 opera appearances, she gives 30 to 40 concerts and sings half a dozen or more times a year on radio and TV programs.

That schedule makes it unnecessary for her to exercise or diet to keep shapely.

LOTS OF LEAPING

"As a matter of fact, good living and good food make for better singing," she said. "And I have to leap around the stage so much—boys are so bouncy—I lose a couple of pounds at every performance."

Portraits

Case Records of a Psychologist:

Romance Returns as Weight Drops

Bert was a husband who fled from his secret sexual problem by a frenzied interest in men's clubs, church work, etc. Certainly that is superior to the drunkard's aitempt to escape via whisky. But you wives should analyze your mates and learn to banish the "Ponce de Leon" panic of middle-aged husbands.

BY DR. GEORGE W. CRANE

Case T-340: Bernice G., aged 39, is the wife of Bert, whom I described yesterday.

"Dr. Crane, I owe you a vote of thanks," she began, "even though you don't know how much you have helped me.

"Although Bert and I were very much in love in our early marriage, we had drifted into an almost platonic existence.

"It worried me. For Bert drove himself unmercifully into all sorts of outside activities, partly to keep away from home.

"Oh, he didn't drink and carouse around. But he was excessively active in the YMCA and church and men's service clubs and the Community Chest Drive and things like that.

"About six months ago, moreover, I found out that he was becoming infatuated with a secretary in his office.

"So I was desperate. I knew we were heading for a divorce. And I didn't know what to do. In my misery, I prayed to God for help.

HOW GOD REPLIES

"That very next day Bert came home with a copy of your diet chart and said he was going to lose 10 lbs. in the first 10 days.

"Well, I was much too heavy, myself. On my wedding day, I had weighed 118, but that had increased till I now registered 164 on my bathroom scales.

"So Bert suggested I join him in a dieting program. I agreed. And I was down to 153 at the end of the 10 days, Bert lost 14 lbs. And we both felt so elated, we shifted to your second diet plan.

"Well, God must have answered

my prayer by way of your diet chart. For within two months, I had reduced to 140.

"Bert began to show more interest in me, too. Instead of dropping into an easy chair as soon as he got home from work, he'd come out to the kitchen and actually kiss me.

"It had been years since he last did that. I could hardly believe my eyes. But the thinner I became, the more ardent Bert grew.

"And he no longer seemed so eager to get away from home, either. When he did go out, he'd invite me to go along.

"My weight is now down to 132, and Bert says that's low enough for me. He wants me to stay just where I am.

"We are now happier than we have ever been, and he has no more interest in this girl at the office. Oh, I'm so happy I could cry for joy."

DAILY MIRACLES

The age of miracles is never past. In the 1,600 letters that come to me daily via this column, I see many problems of every conceivable sort.

Some folks are at the end of their rope. They are even considering suicide.

That's why I maintain this mail service, for it supplements the daily printed column. In this newspaper feature I try to offer tangible, concrete methods by which you can solve your problems.

But the mail serves as a "booster" shot to help vaccinate you and your families against unhappiness, divorce, delinquency, wallflowerism, etc.

And if your wives wish to perk up your husband's ardor, send for that "Diet Chart", enclosing a stamped return envelope, plus 20 cents.

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long 3c stamped, self-addressed envelope and 20c to cover typing and printing costs when you send for his psychological charts and pamphlets.

Was LaMarca Insane or Not?

Trial Statements Differ as to Mental Condition of Kidnaper

MINEOLA, N.Y. (AP)—Conflicting testimony on Angelo John LaMarca's mental condition at the time he snatched 32-day-old Peter Weinberger continues to highlight his trial on kidnap and murder charges.

Dist. Atty. Frank A. Gulotta called a loan company employe yesterday as a rebuttal witness to challenge the defense contention that LaMarca was temporarily insane from debts and other worries at the time of the kidnap-slaying.

• • •

Previously there had been conflicting diagnoses by prosecution and defense psychiatrists.

The prosecution's rebuttal witness was Henry C. Noll, a clerk for a loan company in Queens, New York City. He testified that LaMarca visited the office on July 5—the day after the baby was kidnaped and abandoned to die of suffocation in a honeysuckle thicket — and visited on later dates also.

• • •

The kidnaper, who demanded $2,000 ransom, pledged in the ranson note that he would return the baby to his parents, Mr. and Mrs. Morris Weinberger, of Westbury, N.Y., July 5.

LaMarca, who admits kidnaping the baby, has testified he was scared away from the vicinity of the Weinberger home on the morning of July 5 when he saw an assemblage there.

• • •

Noll testified that at that same time LaMarca appeared at the loan company office seeking $500. The witness said LaMarca returned twice more July 6 and again July 9, and was turned down.

Noll said that on each occasion LaMarca "appeared rational — no different from any other customer."

LaMarca, a 31-year-old Long Island mechanic, has pleaded innocent by reason of insanity.

Rutgers University in New Jersey uses a crop-dusting plane to fertilize forest trees on its research farm.

Code 672-D

SCHENLEY DISTILLERS CO., N.Y.C., BLENDED WHISKEY, 86 PROOF, 65% GRAIN NEUTRAL SPIRITS.

Smoke Without Fire

CHICAGO—A Chicago company has managed to produce smokehouse smoke without using fire. A rotating bladed disk abrades a log so fast it fills the smokehouse in 4 minutes. Operators can enter the room with little eye smarting, and there are no accumulations of resins and tars to remove.

In a human body the diaphragm is one of the most active muscles. It completes one-half billion movements within an ordinary lifetime.

Guzzler's Travels

CHARLESTON, W. Va. (AP) — A local man arrested on a drunk charge, told Judge James McWhorter: "Give me a break, judge, and I'll walk out of town." The man was brought before the same judge on the same charge five days later. With downcast eyes, he said: "They picked me up, judge, as I walked out of town."

Three dozen dried eggs weigh only about one pound.

Law Whittles Whittling

JACKSON, Ky. (AP)—The old art of whittling will be a thing of the past here if a new law is enforced. The county sanitarian warned citizens against littering, and said it includes "the results of sharp knives between the bus station and Jett's Grocery, also near the River Side Restaurant and the courthouse."

The first entire edition of the Bible was printed in Hebrew in 1488.

Oil From Grape Seed

LOS ANGELES—One of the by-products of grapes is cream of tartar. It is obtained from the stems and is used in baking and in making dyes. Oil and oil cakes are made from grape seeds. The oil is mixed with linseed oil and used in paints. After refining, grape-seed oil becomes edible.

Six of the seven basic food groups require refrigeration to preserve them in a healthful and edible condition.

Give Mt. Clemens Man Macomb County Post

Lansing (AP) — Lt. Gov. Philip A. Hart has appointed Louis Zeve of Mt. Clemens as county agent for Macomb county.

Zeve succeeds Larry McDevitt, who resigned. Senate confirmation is not required.

Hart made the appointment for Gov. Williams, who is on a tour of South America.

Hoover dam and its power plant in Nevada cost about $114 million.

Name New Director

GRAND RAPIDS (AP) — Sumner J. Robinson of New York City has been named managing director of the Grand Rapids Furniture Maker Guild, succeeding guild organizer Edward G. Wier, who died in September 1955. Robinson will make his headquarters in Grand Rapids.

Staples used to fasten book matches together require an estimated 500 tons of steel in a normal year.

Takes On New Post

MUSKEGON (AP) — Ray E. Aley has resigned his post as superintendent of Nile school district to become executive assistant to Rep.-elect Robert P. Griffin of Traverse City. Aley will take up his new duties Jan. 1 when Griffin succeeds Rep. Ruth Thompson as ninth district representative.

The dehydration process will reduce 80 pounds of peas to only about 15 pounds during a 10-hour period.

Aluminum Alloy Strong

SAN FRANCISCO—In its pure state aluminum has a tensile strength of about 12,000 pounds per square inch. Heat - treated alloys have been developed with tensile strengths of as much as 80,000 pounds per square inch—above that of some types of steel.

It is estimated that between 450,000 and 500,000 persons in the United States are under medical treatment for some forms of cancer.

Year for the Irish

SANTA FE, N. M. (AP)—1957 will be the year for the Irish in New Mexico. The state's new license plates will be white with a glowing shamrock-Kelly green trim. Motor Vehicle Commissioner John Wilkinson says there's talk of following the trend in modern cars toward new, different colors.

The first state to regulate security sales was Rhode Island which passed such a statute in about 1910.

It Went That-a-way!

SHELBYVILLE, Ky. (AP)—Things were bad enough when a motorist was thrown from his car in a wreck near here. After he picked himself off the ground, however, he couldn't find his car. After a brief search, he called police, who finally found it behind a distant clump of bushes.

Railway passenger cars have an average length of from 75 to 85 feet.

Real Door Prize

DETROIT (AP)—Jim Lowery, a truck driver, won a $7,000 truck trailer as a door prize at a trucker's convention. That was three days after he had sold his home "because it was too much to handle." So he took the equivalent of the prize in cash and bought a new home.

About 84 per cent of the farming land in the U.S. has now been included within soil conservation districts.

Withheld Final Sting

ST. PETERSBURG, Fla. (AP)—Highway Patrolman Anthony Graham stopped a motorist for speeding and took out his book to write a ticket. Then he looked into the car and saw the driver, his wife and two children were all but covered up with mosquitoes. Lacking the heart to add to their troubles, he put his book away and waved them on.

Standard time zones were adopted in the U. S. in 1833.

Hospitalized Children to Receive Presents

ANN ARBOR (AP)—Sick and disabled youngsters at University of Michigan Hospital will tug a little harder at the heartstrings of Ann Arborites today and Friday.

For the 30th consecutive year, members of the Galens, an honorary medical students society, will solicit Christmas contributions to provide a happier holiday for the kids inside the hospital wards.

The money collected in the two-day campaign—a goal of $7,000 has been set—will help maintain and supply the Galens' workshop at the hospital.

More than two million Americans live on wheels, many in 9,000 trailer parks.

Never Lost License, Kept His 23 Years

DES MOINES (AP) — Police Lt. Arvene Nelson, on routine patrol duty, asked to see a man's drivers license.

The man produced a license for the years 1932-33 and when Nelson queried him about it he replied; "Oh, I'm not like some of you fellows. When they give me something I don't lose it. I never lost my license so I never had to get another one."

In Iowa, drivers licenses are supposed to be renewed every two years.

Yellowstone is the largest national park in the United States. It covers more than two million acres in Montana, Idaho and Wyoming.

Mantle for President, Kim Novak for Veep

ROCKFORD, Ill. (AP) — Voters are funny people.

* * *

Baseball's Mickey Mantle and actress Kim Novak each received a vote for president and vice president, respectively, on a write-in ballot during the presidential election in the 13th precinct in the Ninth Ward.

Joe Smith of Republican National Convention fame received a presidential vote in the eighth precinct of the Tenth Ward.

There are 50 per cent more hospitals in the U. S. than in 1920 and the bed capacity has been more than tripled, U. S. medical surveys show.

Giant Power Station Dug Under Mountain

WASHINGTON — To build the world's largest underground power station, miners burrowed a quarter of a mile inside Mount DuBose in British Columbia, Canada, says the National Geographic Society. Within the mountain, generators churn out electrical energy in an atom-bomb-proof excavation that will one day be big enough to drydock the developed to provide power for a giant new aluminum smelter at Kitimat, on the coast 50 miles away.

The Amazon is the world's only major river which flows east and west. It is about 3,300 miles long, the distance from Los Angeles to New York.

Crack-Down on Traffic Law Violations Key to Reduction of Traffic Deaths

CHICAGO (AP)—Crack down on traffic law violations and you cut down on traffic deaths.

That may sound like a slogan. But it's not. It's a formula distilled from reports from cities and states that have had remarkable reductions in fatalities.

The National Safety Council (NSC) says motor vehicle deaths had dropped 12 per cent in October. NSC termed the slump "amazing" because it bucked the normal seasonal trend and broke a rise that had carried through 19 months in a row.

The sharp reversal raised a question: How was it achieved?

The Associated Press sought the answer in a survey.

NSC statistics showed that for the first 10 months of this year the traffic death total was 5 per cent higher than in the corresponding period of 1955.

They also showed that many cities and states had scored marked reductions in the same 10-month period. Among larger cities and states with big increases, and their percentage reductions, were Tennessee -15, Michigan and Kentucky -9, Rochester, N. Y. -55, Jacksonville, Fla. -42, Cincinnati, Ohio -40.

Officials were asked how they did it.

Their replies varied. But they had one common element—firm enforcement of traffic laws.

Lt. Arthur H. Mehring of the Cincinnati Police Department's traffic bureau stated:

"Reducing automobile speed through strict enforcement of the law and enforcing our pedestrian protection program has done much to reduce the number of fatal accidents.

"We cite pedestrians as quickly as drivers for failure to observe traffic signs. It really has brought results."

Cincinnati permits 35 and 40 m.p.h. driving on many streets and parkways but faster travel invites trouble.

Judges have been sending speeders to jail as well as fining them. And, under state law, a drunken driving conviction carries a mandatory three-day sentence.

Rochester's police chief, William A. Winfield, attributes his city's impressive record to:

1. Stepped up enforcement of all traffic regulations.

2. An intensive education program by the police bureau's safety education division.

3. A 50 per cent reduction in jaywalking—pegged to an ordinance under which violators are "tagged" and obliged to attend lectures on safety and the dangers of jaywalking.

G. Hilton Butler, Tennessee's safety commissioner, ascribed the drop-off in deaths there to concentration of troopers on highways and "spectacular" safety measures.

His strategy is to keep maximum strength on the highways, especially on weekends and holidays.

The "spectacular" action takes the form of variations of the road block. Trooper units turn up unannounced on a busy road and check drivers, registration and safety equipment. They set up "drunk nets" in early morning hours near roadside taverns. And they establish "speed blocks" with radar-equipped cars to check speeds.

Michigan appears well on its way to a goal of reducing its annual traffic death toll by 200—i. e., 200 fewer lives lost this year than last.

James M. Hare, chairman of the state safety commission, and Joseph A. Childs, state police commissioner, agreed that steady improvement in traffic law enforcement was a factor.

In the last two years about 250 new officers have been added to the state police force and about 150 more will be in uniform by the middle of 1957.

Traffic arrests have increased almost 50 per cent so far this year.

And a law enacted in 1954 is being used to force "bad drivers" off the road. That legislation virtually doubled the staff which handles traffic violation reports.

"For the first time," Hare reported, "we are able to handle all these reports on a current basis, which meant we could cite offenders and take the most serious safety risks off the road."

The result: So far this year almost 10,000 drivers licenses have been revoked or suspended. In all of last year the number was only 4,300.

Hebrew Prayer Book Published in Braille

NEW YORK (INS)—After three years of work, the world's first Hebrew Prayer Book in Braille has been completed.

The work includes all Sabbath prayers and services for the Jewish High Holy Days in nine large volumes. It was issued in a limited edition of 250 copies which are now being used by Jewish blind in the United States, England, France, Canada, Israel and other countries.

Financing of the long-term project was handled by the National Women's League of the United Synagogue of America. The league is composed of 654 sisterhoods affiliated with Conservative synagogues throughout the U.S. and Canada.

Spain Launches Plan to Electrify Railroads

MADRID—Under a $270,000,000 modernization program announced in Madrid, 25 per cent of Spain's 7,886 miles of broadgauge railway track will be electrified by 1962.

Of the remaining 75 per cent, 18 per cent will be given over to diesels, 19 per cent to oil burners, 38 per cent to steam.

The program's aim is to recapture some of the traffic lost to air and motor carriers.

Sale of Patterns Indicates Boom

NEW YORK—More women are threading needles at home today than ever before, if the sale of sewing patterns is a reliable indicator. Fifteen years ago the combined sale of patterns through stores was 45,000,000.

Today more than 90,000,000 are bought in stores and another 10 to 15 million are purchased through newspapers and other publications.

Fifteen years ago patterns were bought by about 23,000,000 women, or 47 per cent of the female population of sewing age. Now they are bought by about 38,000,000 women, or 63 per cent of the females of sewing age.

Sweden Increasing Her Liquid Fuels

STOCKHOLM — Sweden is taking steps to increase her stores of liquid fuels.

Under current regulations, importers of petroleum products must store 25 per cent of the previous year's imports, and this figure may be raised to 45 per cent; a committee is studying such a proposal.

The necessity of increased storage was demonstrated last winter when, with harbors blocked by ice, oil companies had to cut down deliveries.

Most easterly point in the U. S. is West Quoddy Head, Maine, longitude 66 degrees and 57 minutes.

Final Resolution

DES MOINES (AP)—A majority of the Des Moines City Council apparently was miffed at the refusal of two men in the city legal department to approve the legality of 11 amendments designed to curtail the appointive powers of the city manager.

The council instructed the two men to draw up a resolution for

Not Scared of H-Bomb

VANCOUVER (AP) — M. W. Bluck, former RAF air gunner, says his attempt to promote an H-bomb hideout in a nearby goat pasture has failed because of public apathy. When he started the non-profit venture he expected up to 200 families would be interested, but so far only eight have signed.

Refuge for Wild Life

SAN BERNARDINO, Calif. (AP)—Things were getting a little too wild in the Warm Creek Wildlife Refuge. Obed E. Smeiser was leading a group of wildlife enthusiasts through the refuge and noticed a thriving green leafed bush about 12 feet high. Sheriff's narcotics officers were called and they confirmed Smeiser's suspicions. It was a big marijuana plant.

Music instrument sales in 1955 reached $350 million.

With Retirement Plan

VICTORIA, B.C. (AP) — Dr. Ian Macdonald, chief physician at Toronto's Sunnybrook Hospital, told a medical meeting here that compulsory retirement at age 65 is not biologically sound.

"I'd like to see a system where a man can keep working as long as he is fit, to the limits of his capacity," said the doctor.

More than 200 rivers and streams empty their waters into Lake Superior.

Reimburses Paperboy

TUCSON, Ariz. (AP) — Some big boys roughed up 6-year-old Charles Johnson and took $2.50 he had collected while selling newspapers. Milton Burach of Phoenix heard about the robbery and sent police a $2.50 check to give to the lad so he'll know "it's a good world after all."

About six billion checks are printed annually in the U.S. to supply the need for this kind of exchange medium.

Markers to Tell Story of State

Choose Parks as Sites to Commemorate Events of Early History

LANSING (AP) — Five state park locations have been approved for historic site markers, the state historical commission has announced.

Texts currently are being written for the signs, which will be erected in nthe spring.

A marker in Traverse City State Park will commemorate early historical events connected with the Indian, fur trader and missionary days and will detail the change from the lumbering era to the modern cherry-growing and industrial era.

The state park five miles north of Bay City on M47 also will have a marker commemorating the lumbering era which reached its peak there in the 1880s.

Bloomer State Park No. 2, a mile east of Rochester, will have a marker telling of the ill-fated Clinton - Kalamazoo canal enterprise of 1836.

A marker in East Tawas State Park on US-23 and one in the Ludington State Park on M116 both will tell tourists of the events of early lumbering days.

South Africa Leads in Gold Production

CAPE TOWN—South Africa is the biggest gold-producing country in the world.

Producing gold is like recovering sugar from a mixture of sugar and sand. Gold-bearing ore and waste rock are washed and sorted.

* * *

The ore is crushed and ground into slime, then thickened, the water removed, and the gold dissolved in a cyanid solution.

Zinc dust is added to precipitate the gold, which settles as a black slime. This is collected and melted at a temperature of 1,175 degrees centigrade and poured in bars.

State Figures Show GOP Margin 9,355

LANSING (AP) — The Republican vote for Congress topped the Democratic vote for Congress in Michigan on Nov. 6 by 9,355, figures compiled by the State Elections Bureau established today.

Democratic candidates in the state's 18 congressional districts received an aggregate vote of 1,490(817. Their Republican opponents drew a total vote of 1,500,172.

* * *

The compilation prepared by Robert M. Montgomery, State Elections Director, gathered together for the first time official returns from all districts of the state.

It showed that more than three times as many votes were cast for Congress in the 16th district of Wayne County than in the sprawling 12th district of the Upper Peninsula.

The 16th district vote came to 274,835, whereas only 81,155 ballots were cast in the 12th district contest.

ENVOY TO BRITAIN? — John Hay "Jock") Whitney, of Manhasset, L. I., is reported slated to replace Winthrop Aldrich, U. S. ambassador to Great Britain, early next year. Whitney, a noted financier and sportsman, is a personal friend of President Eisenhower and is said to represent the "President's ."new .Republicanism." In World War II, he served as a colonel in the U. S. Air Force.

AFL-CIO Merger Ends First Year

Union Going Concern but Finds Many Tasks Still Unfinished

By NORMAN WALKER

WASHINGTON (AP) — The big AFL-CIO merger is winding up its initial year a going concern, but with a lot of work still to be done to make the amalgamation complete.

The merger of the rival AFL and CIO into a 15-million-member labor union organization was a year old yesterday.

It gives every promise of holding together but like other marriages, the second year is likely to be more strained than the first.

Many old feuds still remain, new ones have developed, and the giant labor organization still has not coordinated smoothly on basic economic and political policies.

One reason for uncertainty is that the state AFL and CIO organizations have proved more reluctant than the parent AFL and CIO to blend forces. Primarily, rivals for top jobs at the state level have been unable to resolve personality conflicts.

* * *

This leaves AFL-CIO President George Meany unworried. He maintains the national merger has been a success and state labor leaders holding up their own mergers will either have to get together or be forced to do so.

Meany minces no words on this and it may cause some fireworks in the labor movement in 1957.

"If we have to step in we won't go into a state to negotiate," Meany told reporters. "We'll just lift the old AFL and CIO charters, write a new constitution for a merged setup, rent a hall and let everybody come in and ratify it."

Meany points out a two-year period was left for voluntary mergers of state and local AFL and CIO outfits. After that, he said, "if the boys are still stalling and maneuvering around," the parent organization will step in and dictate the mergers.

"Two years is enough time, I think," said Meany, "for them to get the idea there has been a merger at the national level and they are supposed to follow through."

* * *

Only 19 of the states with relatively few AFL and CIO members have merged so far. These states have, together, less than one-half million of the AFL-CIO's 15 million members. None of the larger industrial states have completed mergers.

Meany said he could understand that some states' leaders have developed "vested interests" in their jobs and "antagonisms" to rival labor leaders. But he indicated impatience with their delays.

The states having completed mergers are Missouri, Oregon, Minnesota, Iowa, Arkansas, Tennessee, Louisiana, Arizona, Montana, Vermont, Colorado, Virginia, Wyoming, South Dakota, Utah, Nebraska, New Mexico, Alabama and Maine.

In its first year the AFL-CIO had made less than terrific progress:

* * *

It has dabbled cautiously in organizing in the textile, tobacco and chemical industries. But none of the primest organizing "crusades" has developed.

It has made steady wage and other labor contract gains. But these were more a product of prosperous times than anything stemming from the merger.

Lightning Fried

OWINGSVILLE, Ky. (AP) — Sweet potatoes were cooked in a hurry on the electric range in the Robert Toy home.

Lightning struck the pan of potatoes and cooked them to a crisp.

The bolt also burned a hole in the pan and damaged the heating element.

Jam Will Keep Pace With Construction Boom

Nationwide Traffic Snarl Predicted in Next Ten Years

NEW YORK — Although the United States may well have its biggest construction boom over the next ten years, it will possibly also have the worst traffic snarl in history, a national magazine says.

Not only highways, but industrial, commercial and residential facilities must be re-built on a large scale or cities will strangle. Already, U. S. cities are spending several hundreds of millions of dollars per year on traffic congestion, but their efforts only leave them farther and farther behind in the race against traffic problems.

Various partial solutions have been offered, such as spreading the use of vehicle traffic more evenly over the day, and further dispersing it around metropolitan areas instead of letting it converge on a few points in the city. Also, reduction in toll charges has been suggested to encourage use of less congested expressways in non-rush hours.

But more important than any of these solutions is the need to redevelop cities in a plan that would permit traffic to circulate. Such a plan would call for dispersal of commercial and industrial districts, creation of more space in central areas, not only for traffic, but for more pleasant living.

REASONS VANISHED

The reasons for a central business district have vanished. With improvements in building design, truck terminals, factories and office buildings no longer need to be unsightly; they could be located closer to residential districts. More and more frequently, pleasant residential districts are now being built around a modern plant or office building; such a plan would eliminate the need for extensive commuting.

* * *

Also, breaking up of the commercial and industrial core of a city into a number of "living-working" districts would keep the traffic from winding, as it now must, around city streets, the magazine says. More commercial buildings of smaller size, located in residential districts, would in every way be better suited to an age in which people insist on traveling by automobile.

In answer to the charge that such large-scale construction is visionary, there is the fact, the magazine says, that the U. S. is rebuilding its cities anyway — rapidly, but in planless fashion. Every year, houses, schools, streets and utilities equal to the needs of four million people are being built in urban areas. At this rate, enough new city structures will be built in 25 years, to rehouse all the people, stores, offices, factories and schools in urban areas.

If future development could be directed into new towns and fringe areas, rather than into already over-crowded cities, it will be possible to build not only better communities in every way, but at the same time to reduce the vulnerable urban concentration.

If not, traffic facilities will have to be enlarged, but any effective-ness would be cancelled by the new centers of congestion.

* * *

There is no question of what will happen if more and more people continue crowding into downtown areas by day and dispersing to suburbs each night. The increase in automobiles would soon present a paralyzing crisis. Population predictions for 1975 put 146 to 158 million people living in city areas, the latter figure representing more than the entire U. S. population in 1952. With rising incomes and increased desire for suburban living, expectations are that 1975 will find 88 million cars and over 100 million vehicles, including trucks, on the road.

Even if there were enough land available to provide expressways for this many vehicles converging on cities at rush hours, it would cost too much to acquire and develop it. The Cross-Bronx Expressway in New York City, for example, cost $22 million per mile. The Boston Central Artery is costing about $42 million per mile. At this rate, even the massive federal-aid program, which will make $32.5 billion available for highway construction, would be used up in short order, the magazine states.

Boom in Office Buildings Continues at a Rapid Pace

By SAM DAWSON

NEW YORK (AP)— The office building boom—brushing aside the question "How can they ever fill all that space?" — is taking a fresh spurt.

In New York chiefly — but also in many other cities across the land—new skyscrapers are rising today and plans for still bigger ones are being announced.

And they are being filled as fast as built. The older buildings — some of them being modernized and air conditioned — are mostly filled too. Vacancy rates in New York are put at 1.25 per cent.

The nation's chair-borne population grows steadily. And there is a continuous trek to New York by giant and medium-sized corporations, setting up either headquarters or branch offices on Manhattan to be near their suppliers or customers or bankers.

* * *

Counting in buildings being finished this year, the National Assn. of Building Owners and Managers estimated the nation's total office space at 440 million square feet. And 60 million square feet of that has gone up since the end of World War II.

New York's building spree has added 36 million square feet of office space in the 11 years since the war, the Real Estate Board of New York estimates. Some 110 new structures have room for 290,000 workers. Announced plans for still more tall buildings will bring the total to about 40 million square feet.

This outpaces the other big office building boom, in the 23 years between the two world wars, when 32 million square feet — including the huge Rockefeller Center development — were added to the city's office working space.

Latest skyscraper projects to be announced here include a 60-story building with 1,700,000 square feet of office space, adjoining Rockefeller Center. Two other huge structures in the same neighborhood are in the talking stage. A 46-story building with one million square feet of office room, to be known as Astor Plaza, will occupy a square block between Park Avenue and Lexington.

Mexico Now Able to Fill Basic Needs

MEXICO CITY — Mexico has been able in the last year or so to raise enough beans, corn, and wheat to meet its basic needs.

* * *

In the 1955-56 crop year, wheat reached the record level of 1,200,000 tons 400,000 tons greater than in 1954-55.

This will not only meet domestic needs, but leave an important reserve.

* * *

The corn crop amounted to 4,400,000 tons, slightly under the previous year; the bean crop totaled 450,000 tons — 50 per cent more than in 1954-55.

Plenty to Learn to Be Good Santa Claus

By JOY MILLER

NEW YORK (AP) — There is more to being a street corner Santa Claus than wearing a red suit and beard and patting tots on the head.

It takes brotherly love, human charity and more Christian forbearance than you'd imagine. Then there's that business of cutting out garlic and onions so that the little lad who had tenderly confided his longing for a bicycle won't be overcome when Santa advises him of the prospects.

• • •

The Volunteers of America, a national religious and social welfare organization which posts a hundred Santas in New York and a thousand across the country, has made a science out of playing Santa. But it's a science with a heart.

As Col. John F. McMahon, national executive secretary, explains their training program, the men meet a couple of hours a day for 14 days to discuss the do's and don'ts, and to see them demonstrated.

The do's include attracting attention by waving to passersby and wishing them Merry Christmas, ringing their handbells loudly enough to be clearly heard, standing close to the chimney — into which the contributions are dropped — but not in front of it, keeping moustache and whiskers straight, being patient with little children.

• • •

The don'ts deal with not leaning on the chimney, visiting with friends while on duty, arguing, becoming over-familiar, obstructing traffic, smoking or eating or drinking while on duty. And no garlic or onions.

Col. McMahon — the Volunteers' officers have military titles—says the most important rule, probably, is not promising children that they'll get the gifts they ask for, but sending them away hopeful and happy.

"Many of the children who talk to the street corner Santas are poorer kids whose parents maybe can't afford what the children ask. If the Santas say 'sure, you'll get it, sonny,' there may be many disappointed youngsters on Christmas morning. I tell them to say something like, 'Santa has lots of boys and girls to take care of, but he'll remember what you asked and if he can'...the indirect approach."

• • •

Many of the Santas are old age pensioners.

Other Santas are Bowery men who have made a pretty good rehabilitation in the Volunteers' shelter workshop program.

"Some have been on it for 10 years or more," says Col. McMahon. "Between Christmas and the next Thanksgiving, they may be anywhere in the world — Alaska, Japan — but they'll show up for the last week of Santa school. It gives these men, usually without any family, a greater feeling of participating in Christmas. You can just see this feeling of wanting to do something for someone else."

Col. McMahon says the New York City contributions run about $30,000 each Yule season. The money goes for the Volunteers' various Christmas assistance projects, including family food orders. 3,000 Thanksgiving and Christmas dinners served in the Bowery and boxes of clothing to families of men in prison.

Use New Drug to Relieve High Blood Pressure

ANN ARBOR (AP) — Reserpine, one of the tranquilizing drugs, is effective in eliminating certain characteristics of high blood pressure, a group of Michigan physicians was told here.

Dr. John M. Weller of the University of Michigan explained the effects of the tranquilizer at a meeting of the Michigan section of the American College of Physicians at the university.

He said persons with high blood pressure have an abnormally high dosage of salt in their blood streams and reserpine reduces their salt excretion.

Evidence has been shown, he said, that the pattern of salt excretion is not altered either by a low salt diet or blocking nerve clusters, but use of the drug effectively alters this pattern.

In another talk, Dr. Henry K. Schoch, an internal medicine professor, described the effectiveness of nitrogeon mustard in the treatment of bronchial cancer.

He said nitrogeon mustard treatment has several advantages over high voltage X-ray therapy in bronchial cancer cases as well as other types of the disease.

Israel Pulls More Men From Sinai Peninsula

TEL AVIV, Israel (AP)—The Israeli army withdrew an additional artillery battalion from the Sinai Peninsula today.

The Israeli previously had announced the withdrawal of three brigades totaling between 10,000 and 12,000 men. The Israelis have not divulged how many troops are still in the Sinai Peninsula.

Antarctic Paintings on Display in Detroit

DETROIT (INS) — The first collection of paintings ever made in the Antarctic is currently on display at the Detroit Athletic Club.

The 18 paintings were created by Commander Standish Backus Jr., USNR, while he was in the Antarctic during "Operation Deepfreeze 1."

The paintings are of naval vessels and personnel, the Antarctic's Mt. Erebus, ice pack scenes, penguins, seals and killer whales.

Auto Club of Michigan Re-elects C. L. Wilson

DETROIT (INS) — Charles L. Wilson has been re-elected president of the Automobile Club of Michigan.

Wilson, president of Ira Wilson and Sons Dairy of Detroit, said over 475,000 Michigan motorists are now club members. He said:

"This maintains our position as the largest motor club in the world."

He predicted a half-million members by late 1957.

Dry Trees Dangerous

Don't be sentimental about keeping your tree around when Christmas day is over. When a tree dries out it is like a pitch-filled tinder box ready to ignite at the first spark.

The Battle for Freedom in Budapest

Soviet Tanks Massacre Children in Grim Reprisal

In the Battle of Budapest, there was no blacker, more despairing and brutal day than Nov. 4, when the Soviets struck back at the freedom fighters with hundreds of tanks and tens of thousands of mercilessly shooting troops. In this article, fourth of a series, Katherine Clark continues her story of what happened when the people of Budapest — in one of history's greatest fights for freedom — tried to throw off their Russian masters.

By KATHERINE CLARK
INS Staff Writer

One of the blackest chapters in the bloody history of Communist repression opened with a thunderous, cannonading Russian attack that jolted the weary people of Budapest from their beds at 5 a.m. on Sunday, Nov. 4.

Any doubt about the source of the thunder was dispelled when Premier Imre Nagy announced the treacherous move over Budapest radio, and the radio uttered a futile apeal:

"Attention! Attention! Attention! Listen everybody . . .help the Hungarian revolution . . .hundreds of Soviet tanks attacking the Hungarian capital . . .we ask the help of the whole free world . . ."

The attack was not a complete surprise. Although the Russians had withdrawn some forces after the first revolution was proclaimed victorious on Oct. 31, and were negotiating for a complete withdrawal, strong Russian reinforcements were reported on Saturday to be moving toward Budapest.

* * *

Late Saturday Nagy had ordered Hungarian tanks to take up positions in front of Parliament. During the night the Russians with whom he had been negotiating seized Maj. Gen. Pal Maleter, the hero of the Killian Barracks resistance who had been raised from the rank of colonel and named defense minister.

A Russian attack was not unexpected, but the horrifying force that loomed out of the early morning Danube mist was overwhelming. This was to be a war of annihilation.

Russian tanks encircled every airport in the Budapest area. They drove on Budapest from three directions. Armored columns under jet air cover moved in and Soviet troops, killing relentlessly and recklessly, occupied public buildings and stationed themselves on the bridges over the Danube that link Buda and Pest.

The freedom fighters of Budapest, with rifles, tommy guns and "Molotov Cocktails," were battling some 1,000 to 1,500 tanks and troops that numbered more than 100,000, perhaps as many as 150,000.

The Soviet tanks rumbled through the streets spraying death as they went. When a single sniper bullet bounced off a tank, the tank would wheel and the guns would pour round after round into the building from which the sniper had fired.

RAZE CHILDREN'S HOSPITAL

The Russians blasted through a children's hospital — setting it afire and burning to death an untold number of the 300 tots inside — in order to get to Killian Barracks.

* * *

The old stone-walled barracks, manned by about 1,000 soldiers, civilian men, women and children armed with only rifles, pistols, machine guns and gasoline incendiaries, had held out against the tanks in the first phase of the revolution. Now the Russians were determined to wipe them out.

The fire from a ring of Soviet T-34 and 5-54 tanks around the barracks was massive and concentrated. The Russians were to keep that up for more than three days and three nights.

Emil Nyalka, 17, crouched with 150 other boys in the cellar of a school in Budapest where they had taken refuge from the approaching Russians. They felt the building tremble from the cannonading. They were terrified. They felt helpless.

But when there was a brief lull, when their terror left them, the boys sneaked out into the street by street, using gutted of freedom fighters, battling street by ..treet, using gutted buildings as cover.

And they kept up their courage and morale by chanting hymns of hate at the Russians even as they died.

One group of about 150 or 160 young patriots who had come together in the downtown section of Pest at the beginning of the revolution had suffered about 50 casualties in the first phase of the revolution. When the Russians returned for all-out slaughter on Nov. 4 this group still had guns and ammunition and gasoline for the "Molotov Cocktails," but they were weak, hungry and ragged, carrying crusts of dried bread in their pockets.

"THE RUSSIANS ARE COMING"

Many of them, including 10 and 11-year-old boys, were asleep early Sunday when a young girl who had been listening to the radio ran through the war debris yelling:

"The Russians are coming back! We have been betrayed!"

At about 8:30 a.m. that day, they waited off Karoly Street, behind barricades made up of burned out cars and stones, and in the windows of apartment buildings alongside. As the heavily-armored tanks lumbered up, these children fired pistols and machine guns, defiantly hurled bottles of gasoline.

The tanks moved up and fired at point blank range, swivelled, fired again, swivelled and fired again, at the barricades, into windows. It was all so mechanical. And mixed in with the rear of the guns were the screams of the children.

Then the tanks simply rolled over the barricades, and over the children behind them.

The revolution was now one that could not possibly end in victory for the people.

Premier Nagy was replaced by a Soviet choice, Janos Kadar, and managed to make his way to the Yugoslav embassy for asylum. Josef Cardinal Mindszenty took refuge in the American Legation.

The Budapest freedom fighters, their own ranks decimated after only a dozen hours of the Soviet massacre, began to hear similar tales of horror from around the country, from couriers seeking their aid.

One of the most horrible stories came from Magyarovar, a small town near the Austrian border.

The patriots there had been successful in the first revolution, and everyone in Budapest talked about their resistance against the Soviets and Hungarian secret police.

Now they heard that tanks had encircled the town and were bringing it to its knees.

They heard that hundreds were dying. They were told of an 8-year-old girl whose legs were blown off, but who survived, when hand grenades were thrown into unarmed crowds.

The patriots of Budapest, and elsewhere in Hungary, couldn't win, but they were to fight on, street by street, and house by house, for many days.

Next: Murder on a rampage.

Sheriff Wants Jail; Even Goes to Court

CAMDEN, N.J. (AP) — Camden County Sheriff Martin Segal has gone to court in an effort to acquire jurisdiction over his jail.

Segal asked the state Superior Court to remove control of the jail from the all-Democratic County Board of Freeholders, which removed it from the sheriff's office just before Segal was sworn in Nov. 13.

Segal, a Republican, says the transfer was a "political grab." He succeeded Democrat J. James Hainesworth, who recommended the change to the board.

Cops Just Can't Win

OKLAHOMA CITY (AP) — For weeks local police have warred on bootleggers, and now they have testimonials the crackdown is taking its toll. Two bootleggers arrested on burglary charges complained their whisky business had become so unprofitable they had to take up burglary. Oklahoma is constitutionally dry.

Austria Is Focal Point, Says Leader Reuther

VIENNA (AP) — Victor Reuther, brother of United Auto Workers President Walter Reuther, says Russia may try to step into Austria because of the presence of Hungarian refugees there.

Reuther, foreign affairs director of the UAW said Tuesday in an interview that the refugees would make Russia a "convenient excuse" for intervention in neutral Austria.

After spending two days looking at Austrian refugee camps, Reuther said the Soviet Russian Press has been violently attacking Austria, saying the country conspired with United States in aiding anti-Communist rebels, and was now harboring "Fascist refugees."

Only about 3.5 per cent of Egypt's 386,000 square miles are cultivated.

Congressman Names Administrative Aid

LANSING (AP) — Douglas Kelley of Lansing, who has been an assistant to congressman Don Haworth, has been named administrative assistant to Lt. Gov. Philip A. Hart.

Hart announced the appointment Tuesday. Haworth, a Democrat from East Lansing, was defeated for re-election Nov. 6. Kelley currently is working on a master's degree in Journalism at Michigan State University.

Spinach is said to be rich in vitamin A.

State Police Post Head Sgt. Carlson to Retire

EAST LANSING (AP)— Sgt. Gerhard E. Carlson, commander of the New Buffalo post, will retire Dec. 10 after more than 27 years of state police service, East Lansing headquarters announced today.

Carlson, a native of Iron Mountain, joined State Police in 1929 and served at the East Lansing, White Pigeon, Manistee, Jonesville, Jackson, Battle Creek, Detroit and Wakefield posts before he assumed command of the New Buffalo post in 1952.

Official Names Friday as Pearl Harbor Day

LANSING (AP) — Lt. Gov. Philip A. Hart has proclaimed Friday as Pearl Harbor Day in Michigan, calling on citizens to observe the 15th anniversary of the Japanese surprise attack on Pearl Harbor.

Schools Face Deficit in Funds

Public School Head Asks State Legislature to Assure Aid

LANSING (AP)—Michigan schools will face a financial crisis unless the 1957 legislature takes speedy action, Dr. Clair L. Taylor, state superintendent of public schools, declared.

"Financial uncertainty faces school administrators and school board members throughout the state because of a slight and unanticipated decline in sales tax receipts," Taylor said in a message to legislators and the governor.

School revenues are partially derived from the sales tax so a drop in sales tax receipts means less money is available for school purposes.

The 1956 legislature pegged aid to schools at the rate of $190 a child.

Spokesmen for the department of public instruction said the state sales tax decline, if it followed the trend of the first five months of the fiscal year, would result in a shortage of about 20 million dollars in the school funds for the year.

This would cut the money available per child to about $175 instead of the $190 set by the legislature, they said.

A drop in auto sales mostly accounted for the sales tax decline. Auto sales are expected to pick up with new models coming on the market. If this occurs, the shortage will be less than the 20 million dollars estimated at this time.

Taylor still said there is still need for action by the legislature.

"In order to guarantee the efficient operation of the public education program in Michigan's 3,200 school districts during the current fiscal year, it is essential that the $190 per child be paid out in full," Taylor said.

Many school districts, he said, currently are operating on a basis of deficit financing and have received advances of next year's state aid. School budgets and contracts were prepared last spring and school boards and districts need their full amount of state aid to meet these obligations, Taylor said.

"The quality of the Michigan educational program is in jeopardy," Taylor said, "unless the legislature assumes this responsibility since it is the only body with the power and authority to meet such an emergency condition."

Corregidor, World War II Battleground, Being Developed as Tourist Attraction

MANILA (AP)—Corregidor Island, famed World War II battleground of American and Filipino troops against the Japanese, is being developed into a major Philippine tourist attraction.

Defense Secretary Eulogio Balao, chairman of the National Shrines Commission, said $57,500 will be spent to build a rest house and reception center on the historic "rock." Congress already has appropriated money for the project.

* * *

The rest house will be a modern, circular-shaped three story structure. Glass walls will provide a panoramic view of the island.

The commission also is considering construction of an airfield for small planes on the island, repair of roads and installation of light and water facilities. Steps also are being taken to erect markers at historical points involved in the battle to defend Corregidor and Bataan peninsula at the outbreak of World War II.

Corregidor and Bataan stand as famous names in World War II history and are places tourists to the Philippines ask most often to see. The tadpole-shaped, two square mile island lies at the entrance to Manila Bay. It is about two miles off the southern tip of Bataan.

After the Japanese attack on Dec. 8, 1941, Gen. Douglas MacArthur ordered the remnants of 15,000 U. S. troops, 40,000 Filipino soldiers and 100,000 Filipino reservists to Bataan for a last ditch stand.

A powerful Japanese assault force of 200,000 men opened the battle of Bataan on Jan. 9, 1942, against the ragged, ill-equipped American and Filipino defenders under Gen. Jonathan M. Wainwright.

DEATH MARCH

Gen. MacArthur made his headquarters on Corregidor. He stayed there until ordered to leave by torpedo boat and plane for Australia, reaching there on March 7. Wainwright defended Bataan until April 8. He escaped to Corregidor with 3,510 of his men. The Japanese took 35,000 Americans and Filipinos prisoner on Bataan. They walked them to prison in the now famous "death march."

Then the Japanese opened a day and night bombardment on Corregidor from the air and with artillery placed on Bataan and in Cavite Province to the south. One by one the large naval guns and mortars on Corregidor were knocked out of action. The valiant defenders sought refuge in Malinta Tunnel on the island.

By May half the 11,574 were on stretchers in the tunnel. Medicines were almost gone. Water rations were reduced to a cup a day. The island's defenses were a shambles. Men fought on nerve alone. The Japanese finally established a beachhead. Wainwright surrendered Corregidor on May 6, 1942.

Since the war, Corregidor has been a Philippine military reservation. Malinta Tunnel was used to store ammunition and visitors to the island were restricted. The ammunition now is being removed to another storage area on Luzon.

The jungle quickly began to reclaim the island. It spread through the ruins of the military headquarters on the highest point of the island, the wrecked officers' homes and famous "mile long" barracks and gun emplacements.

The small narrow-gauge railroad is covered. Roads to only a few of the guns are passable. The parade grounds are covered under a lush growth of vegetation. Mines and dud ammunition still are scattered all over the island.

But the National Shrines Commission hopes to clear away the jungle and debris and make the battle-scarred island a tourist "must."

British Shipbuilders Establish New Record

LONDON—Great Britain's shipyards broke a 33-year-old record in the second quarter of 1956 by completing 516,763 gross tons — the highest quarterly total since 1921.

In the first six months the industry completed ships faster than it took new orders.

Orders were for 142 ships, totaling 752,000 gross tons, while completions totaled 154 ships, amounting to 834,000 gross tons.

Cite Bad Restrooms as Main Annoyance

WASHINGTON—A nationwide survey of American Automobile Association members showed that unclean restrooms at service stations annoy the average motorist more than any other single irritant.

Asked, "What annoys you most when traveling by automobile?" this is the way they answered the question: 64 per cent said unclean rest rooms annoyed them most.

Next were inadequate route markings, with 62.8 per cent complaining; trucks and buses, 45.6 per cent; and house trailers, 23.1 per cent. Billboards were lowest on the beef list, with 20.9 per cent.

Men of Stature

TORONTO (AP)—The Toronto Scottish Regiment Band, led for years by six-foot-two-inch drum Major Len Davidson, has gone one inch better. The 64-year-old bandmaster recently handed over his baton to a younger player, George Steven, who is six-foot-three.

MIGHTY HUNTER — Twelve-year-old Ronald Newman of Lawrence, Kan., who recently acquired a bow and arrow, poses warily with a clothes pin on his nose beside the first "big game" he ever shot. Standing on his front porch, he saw the skunk lurking in the shadows. He fired two arrows, hitting the animal both times. Neighborhood relations were strained after the skunk crawled under the house next door and died.

Cost of Wholesale Food Has Declined

NEW YORK (AP) — Wholesale food costs as measured by Dun & Bradstreet declined this week for the first time since early November, it was disclosed yesterday.

* * *

At $6.14 the Dun & Bradstreet wholesale food price index on Dec. 4 compared with $6.16 a week ago and $5.99 a year ago. It was 2½ per cent higher than in the same week of 1955.

The decline was the first in four weeks.

Lower in price were flour, wheat, corn, beef, lard, butter, cocoa, eggs, steers and lambs. Higher were rye, bellies, coffee, tea, potatoes and hogs.

* * *

The index represents the total cost at wholesale of one pound each of 31 basic food items.

Wayne U. Wants to Help U. of M.

DETROIT (AP) — The Wayne State University daily newspaper, The Wayne Collegian, has opened a campaign to send CARE food packages to University of Michigan students.

The Collegian, commenting editorially on Sunday's demonstration by U. of M. students against food served in dormitory dining halls said:

"It gives us an extraordinary amount of pleasure to announce that The Collegian will start sending CARE packages to Ann Arbor to provide the bare essentials which have been withheld from the unfortunates.

"In addition to our acts of charity, we offer asylum to all refugees from Ann Arbor whose existence is threatened by the yoke of dietary oppression (providing they find (Wayne) Student Center food palatable.)"

CAPITAL YULE TREE — Two-year-old Ona Caine, of Washington, D. C., points with excitement at Washington's Christmas tree, a 65-foot spruce from New Mexico, after it was hoisted into place recently. The Washington Monument is in the left background.

Help Nation's No. 1 Cause of Death

New Synthetic Compound May Prove to Be Fruitful

WASHINGTON (INS)—Two government researchers today reported development of a synthetic compound which may eventually lead to control coronary artery disease—the nation's No. 1 cause of death.

The drug, still in the experimental stage and still too dangerous for human use, blocked natural production of cholesterol in laboratory animals.

Cholesterol is a fatty substance which accumulates in human arteries and gradually narrows them. This clogging is known as atherosclerosis. When it occurs in the arteries leading to the heart, a blood clot can seal off the artery completely, causing a coronary thrombosis or heart attack.

Heart attacks kill an estimated 370,000 persons a year in the U.S.

The experimental compound, known as delta - four - cholesterone, cut the blood cholesterol levels of laboratory rats by as much as 44 per cent, when added to their diets in minute amounts.

The compound resembles natural cholesterol chemically and apparently interferes with the normal cholesterol "manufacturing process" in the body.

The scientists, Dr. Daniel Steinberg and Dr. Donald S. Fredericksson of the U.S. Public Health Service's National Heart Institute at Bethesda, Md., warned the compound was not as yet a practical drug for humans.

But they added their studies "point the way to an approach which, with this or similar compounds, may eventually prove fruitful."

Cholesterol has been frequently implicated in the development of heart disease and the scientific attack on it has taken two directions. One has been to emphasize the need for fat-free diets, holding down the intake of rich sauces, gravies, cream and other high-fat foods.

But scientists have acknowledged that the final solution to atherosclerosis would have to wait upon control of the body's own cholesterol-producing mechanism.

Record Income to Males; Women's Average: Same

WASHINGTON (INS)—The government reports that the average income of American men rose to a record $3,400 in 1955 while the average income of women has remained about the same for the past three years at $1,100.

The census bureau, which provided the figures, pointed out that prices also had increased and said the higher income for men "does not necessarily represent a similar change in economic well-being."

The bureau said that the income of farm residents showed no change from 1954 to 1955 and was still 16 per cent below the 1951 post-war peak.

Some 50 million men with cash income showed a gain of $160 or five per cent over 1954 for an all-time high. It was attributed to higher wage rates as well as to more regular employment.

During the business down-turn of 1954, men's income failed to grow for the only interruption in a steady climb since World War II.

In the past decade, the average annual income of men has increased by $1,500 or 85 per cent and the average income of women has increased by $200 or 24 per cent.

The proportion of men whose incomes were $5,000 and over has risen from five per cent in 1945 to 20 per cent in 1953 and 24 per cent in 1955.

During 1955, the average income of men ranged from $700 for those who worked only at part-time jobs to $900 for the disabled and retired to $4,200 for those who worked all year at full-time jobs.

A similar range among 30 million women with income was from $500 for part-time workers to $2,700 for full-time job holders.

The census bureau said the only women who showed an increase during the year were semi-skilled workers in factories with a 10 per cent boost in salaries.

Among men, the largest relative increases went to business owners and sales workers whose incomes rose about 16 per cent.

Federal Tax Series to Hold 9th Meeting

Federal tax problems affecting business and individuals will be aired in Detroit tomorrow when three state organizations will join to present the ninth annual Federal Tax Lecture Series.

* * *

The meeting will be conducted by the Michigan Assn. of Certified Public Accountants in cooperation with the University of Michigan and the Michigan Law Institute of the Michigan Bar.

The all-day session will take place in the Horace H. Rackham Educational Memorial Auditorium.

Modern Flippancy Leads to Hardened Emotions

Why Not Really Suffer With Broken Heart?

By PHYLLIS BATTELLE

NEW YORK (INS) — Broken hearts are just about as outmoded as cigar store Indians these days. And, like the aforementioned Injun, the girl or boy who admits his heart has taken a beating is forced to stand red-faced before the world.

* * *

Used to be, a lady could have a case of romantic heartbreak and suffer openly and noisily. She could swoon if she pleased, lose a little weight, and retire to the nearest mineral springs to recuperate. She would be pampered, petted and admired for her display of tragic lovelornery.

But times have changed, and now, when a lady is left bleeding inwardly by a lost lover (or vice versa), the order of the day is a show of bravado—or, what is even more effective, the cynical retort.

Instead of fainting, the broken-hearted now overeat, overdrink and oversmoke. Instead of taking mineral baths, they take "mood pills" that enable them to face the world with a smirk.

* * *

It is not at all fashionable to be weak these days, so if cupid stabs you, you jab back in the best brittle manner you can muster.

SUSPICIOUS OF LOVE

The result of this all-new method for treating broken hearts is a crop of boys and girls who are suspicious of love and marriage before they've reached the age of 21.

* * *

Ah, they are strong of will and hard of heart, and no one will ever know they are suffering—except maybe a psychiatrist somewhere, sometime, later in life.

I would like to go on record as disapproving of the whole hypocritical business. A little sad, philosophic suffering never hurt anyone (matter of fact, it's done wonders for many folks, particularly poets), whereas disguising one's pain leads to repressions, antagonisms and a certain amount of indigestion. It doesn't make sense.

Where, for example, did emotional fortitude get Pagliacci?

* * *

In a national magazine this week, a woman named Sylvia Wright points out that it's silly to try to mend a broken heart by drinking and eating too much and leading the gay, forget-it-all life.

FAT AND HUNG OVER

First, you get fat—which could be a sadder situation than the heartbreak itself. Then, you get two hangovers. First the physical one. And then the hangover from the hangover—when you discover that you feel bad in vain, because your troubles didn't go away after all.

Miss Wright suggests that a better course is to hold stimulating conversations with a vindictive friend—one of those people who disliked the man or woman who done you wrong, and will not hesitate to say so.

Such a friend will quickly clear up all those illusions and delusions you had about the greatness of the late lover and, indeed, may leave you feeling quite relieved to have got rid of him, or her. Or "it," if you really get mad.

Then go out and fall in love with someone else. This is perhaps the best therapy of all, as it is very tough to suffer from a broken heart about the next-to-last person you were in love with.

All this makes a certain amount of sense, but still it's handling an unhappy situation in the fast, flippant manner of the day, which ultimately leads to hardening of the heart and weakening of the chances for finding a romance one can believe in.

Seems to me the old-fashioned way is best — a slow, delicate suffering period, with maybe an occasional spot of sulphur and molasses.

It is better to be blue than bitter—and the effects don't take so lasting a toll.

UP Wirephoto

TUNNEL OF FUN — Making like an overpass, this youngster gets a giant's-eye view of an elaborate toy train exhibit in New York City. The display was set up in the giant showrooms of the Lionel Corp.

Train Had a Hot Date—With Fire Department

JOHNSTOWN, Pa. (AP)—The engineer of the Pennsylvania Railroad's slick new Aero-train really highballed — he had a date with a fire department.

The rear car of the 10-car diesel powered passenger train caught fire near here. Crewmen hastily moved passengers to forward cars and sounded alarm by radio telephone. At Portage, four miles away, firemen extinguished the blaze, no one was hurt and the train continued to New York with the damaged car attached.

Trucks take 99 per cent of the U.S. tobacco crop to market.

War Ups Israeli Taxes

JERUSALEM, Israeli Section (AP)—Taxi, bus and railway fares, postage, phone fees and electric rates have gone up 10 to 20 per cent. A special tax to help cover the cost of the Sinai campaign and other defense expenses is responsible.

Urges Vaccine Use to Avoid Spoilage

LANSING (AP)—State health officials are asking Michigan residents to obtain Salk polio shots soon to prevent large quantities of the vaccine from spoiling.

Dr. Albert E. Heustis, state health commissioner, said commercial suppliers alone have 17 million units of the vaccine on hand.

* * *

"The big danger is that much of this vaccine—with a life of only six months—will become outdated before it's used," Dr. Heustis said.

When the polio season starts in June, he said, doctors and public health authorities can expect their offices to be crowded with people who want to be immunized.

"Right now, everyone is apathetic toward immunization. This is the time they should be interested. There's plenty of the vaccine available and I hate to think of it going down the drain," he said.

The human heart pumps enough blood in a single hour to equal about three times the body's weight, according to medical calculations.

Bus Companies May Obtain Aid

Necessary Tax Relief Proposed in New Bill for Poor Situation

LANSING (AP)—Michigan bus companies will get some tax relief next year if the legislature goes along with a bill proposed by the chairman of one of its interim study committees.

Rep. James Goulette (R-Iron Mountain) said he will introduce a measure in the coming session to exempt bus lines from all or part of certain state taxes.

"What form the bill will take I can't say yet, but we will have to do something to keep these buses running," said Goulette.

The committee heard testimony yesterday from members of the State Public Service Commission, which has jurisdiction over 26 Michigan bus lines.

Commissioner Maurice E. Hunt said tax relief would not go very far in solving the problems of bus lines, hard hit by high operating costs and the booming number of cars.

"The situation is not going to get better—it's going to get worse," Hunt said.

Greyhound Bus Co. would not have shown any profit at all last year if it had not made money on its package carrying service, Hunt said.

Now, tough competition from a parcel trucking company threatens to cut profits to the vanishing point, he said, adding:

"Somebody is going to have to subsidize buses directly to keep them from going under."

Sign of the Times?

PHILADELPHIA (AP) — "How do you spell bourbon?" the man on the telephone asked.

"B-o-u-r-b-o-n," answered the man at the whisky firm.

"Well," said the caller, "you better tell that painter doing the new sign on your roof. He's spelling it burbon."

The city of Chicago is contained within 212 square miles.

Here's a Tip for Men

No Sin to Shop for Fragrance at Christmas

The carols carry merrily on the air. The Santas ring their brass bells with zeal. Each and every department store is bedecked in holiday gaiety.

But who is that fellow skulking from garland to garland, taking cover behind Santa's coin box?

He is a husband about to buy his wife some perfume for Christmas, Virginia.

Perhaps it's because fragrance is such a feminine thing that the men creep out when they're going to purchase a dram of the best. Well, there's no need to go forth like an international spy. A man's best friend is a perfume salesperson and she treats the purchase in the same calm and friendly manner she would if she were selling shoes.

She does not have a cave wherein she hides men who make the near-fatal error of mistaking the essence for the cologne.

Perfume is a gift rivaled in femininity only by flowers-for-no-anniversary-at-all. Fragrance pays even the blue-jeaned spouse a compliment she can't otherwise get. She laps up the compliment and uses the perfume, smiling Mona Lisa-like about her clever husband.

So sally forth, husband. Here is what you will find at the fragrance counter:

Various other husbands you know, all embarked on the same errand.

Bottles of perfume, cologne and what not in wide variety. All sizes, all prices.

The conservative husband may sneak a look at what his wife is currently wearing and order another of the same.

This is all right, but somewhat like leaving a note for the milkman. A wife is utterly routed by a choice her husband makes "just for her."

The salesperson will probably ask what type your wife is. She'll want to know about personality, interests and environment. Does she work out or work at home?

Does she entertain a lot, give formal dinner parties or prefer to go out regularly? Does she prefer the out-of-doors? Does she like bright colors, or pastels?

For some reason, many fragrance salespersons have a knack of knowing when the wife who is described as wearing bluejeans, mostly, has a yen to be a clinging vine.

After this friendly third-degree, the salesperson will squirt some fragrance into the air for you to sniff. Knowing the propensity of most men to like the first thing that offers a solution, she'll have you sample a few more.

Then pick from the variety of aromas hovering on the air. The young woman has helpfully screened out the illogical choices, but the real choice is yours.

The size bottle you pick depends on the wallet. The big bottle or the stocking-stuffer, it's still the fragrance you selected.

Many fragrances come in special wrappings at this season, so when the saleswoman gives you a glittering goody in place of the demonstration bottle she's been squirting around, don't be afraid she's slipped you a lemon in place of "Belle Bell."

Your wrapping's all done for you.

Retire in triumph. Your reputation is made.

Bible Is the Best Seller Every Christmas Season

By W. G. ROGERS
Associated Press Arts Editor

Christmas after Christmas, the big, steady, sure best seller is the Bible.

Other books catch on for a year or so. Anne Morrow Lindbergh's "Gift from the Sea" is due for another good season, and so is Elizabeth Orton Jones' "How Far Is It To Bethlehem?" Roger Duvoisin's "The Night Before Christmas" finds its dependable annual customers.

The piece of fiction that has lastest the longest and is still the leader year in year out is Dickens' "Christmas Carol." There are editions from a dozen different houses; one of them reports, "we sell 500 copies every Christmas as regular as clockwork. Some of the houses have different editions, too, specially illustrated, cheap and expensive, aimed at the juvenile and at the adult. There are probably sales of 3,000 to 5,000 and more every December.

SOME LIGHTER RUNNERS-UP

One other juvenile with a continuing appeal is Rachel Field's "Prayer for a Child," on the market for a decade. For grownups there is Henry Van Dyke's "The Other Wise Man" and Kate Douglas Wiggin's "The Birds' Christmas Carol." In a lot lighter vein but in the Christmas spirit, there is also a recurring demand for Milt Gross' "Hiawatha" and "De Night in de Front from Chreesmas."

But the Bible offers the greatest appeal to the greatest number of bookstore visitors. One publisher has heard estimates of annual sales ranging from 8,000,000 to 25,000,000. One thing they don't give away at Christmas or any other time is the real sales figures, but the fact seems to be that 6,000,000 is nearer the likely annual sales. Even that is a highly satisfactory total to the big houses which publish the Good Book in at least several hundred styles, perhaps as many as 600, and at a lot of different prices.

THEY'RE PRICED TO SUIT

From World Publishing, Oxford University Press, Thomas Nelson, Harper and other houses, you can get the Bible, or the New or Old Testaments, at several levels below $1. World's 150 editions sell from $1 to $250 for the Bruce Rogers lectern Bible. Oxford prices begin at $165 and rise to $300, and Nelson's range is from $2 to $100 for a pulpit Bible.

They come in all shapes and sizes, illustrated and plain, with and without concordance, with zippers, specially boxed, perhaps thumb-indexed, and in leather bindings of different colors.

Screams Bring Aid as Assailant Flees

GRAND RAPIDS (AP) — A housewife's screams yesterday attracted a neighbor and frightened away an assailant who had entered the woman's kitchen, police said.

Mrs. Howard Howk told officers a man entered her kitchen through a screen on the rear porch. He placed his hand over her mouth and told her she would not be hurt, the woman said.

She screamed, however, and her cries attracted a neighbor as the intruder fled. The woman told police the man was young, with brush-cut blond hair.

Her report followed a complaint from another woman in the same neighborhood, who told police she saw a young man looking in her kitchen window about 3:30 a.m.

GIs Taking Christmas Around the World

The traditional tree, gaily wrapped presents, familiar carols, the old fashioned Yule dinner. These are what servicemen stationed thousands of miles from home miss at Christmas time.

And that's why, as in past years, the armed forces and the U.S.O. will be doing their utmost to provide some of all this for the boys in uniform overseas.

There is no conformity, however, in the programs planned by the various branches of the service. The local military theater commander has the last word as to the activities of his command.

TALENT NEEDS SURVEYED

The Army's Special Services section surveys the overseas commands to determine what is needed in the various areas as far as enteertainment troupes are concerned. After the survey the U.S.O. and special Hollywood groups which supply the talent are notified so they can fill the bill.

* * *

"It is expected that a minimum of 100 entertainers will travel to all parts of the world during this holiday season to entertain members of the armed forces overseas," said E. J. Cottrell, news branch chief of the Public Information Division in Washington, D. C.

* * *

If the Army travels on its stomach, as the old adage says, this year's GIs will travel fast. The Army Quartermaster Corps purchased millions of pounds of turkey for shipment to overseas military installations. Also shipped were loads of mincemeat, pumpkin, fruit cakes, nuts, candies and other holiday food items.

* * *

In some locations the custom of the troops is to entertain the local children or townspeople. In many cases religious services culminate the day's activities.

On the French Riviera, for example, the Sixth Fleet gives a series of parties for the small school children and orphans of the area.

In Korea the spirit of giving will no doubt fill the Christmas air as it did last year. The U.S.O. invited servicemen stationed at this outpost of democracy to be "Dads for a Day."

Korean orphans, some crippled and some blind, get new fathers for Christmas day.

Another outpost far from the bright Christmas lights of the hometown and the warmth of the family fireplace is the Northeast Air Command at Labrador, Greenland, Baffinland and Newfoundland.

U.S.O. entertainment units usually arrive Christmas eve. Some of these troupes do as many as six shows a day.

Last Christmas one of these entertainment units was "snowed in" at Narsarssuak Air Base on Greenland and unable to leave for the other bases in the area. Fortunately the Air Force boys were equal to the occasion and set up a short wave radio transmitter to send the entertainment to the other outfits.

NATIVE STYLE HOLIDAY

In the warmer climes of the Philippines, Christmas is celebrated native style. On Christmas day the U.S.O. junior hostesses, lovely Filipino girls, sail across Manila Bay to the Navy Hospital at Sangley. The girls wear native attire and leis of sampaguitas, Philippine flower of friendship. Refreshments are served and carols are sung far into the tropical night.

Many men in uniform are invited to Filipino homes for Christmas dinner and go with their hosts to church.

In cold Kodiak, Alaska, however, there is a postcard setting for Christmas—deep snow and star-filled skies. Church groups in the area sponsor special Christmas parties. Fruit cakes, spiced punch and hot coffee are the order of the evening.

FUN AT NAPLES

In Naples gigantic Christmas parties are held for all branches of the service. American food is the order of the day—traditional Christmas food, that is.

In preparation for Christmas last year, two aircraft carriers donated 360 pounds of coffee, 120 pounds of sugar, plus milk and cookies. The Enlisted Wives Club of Naples and the program committee of the Naples U.S.O. solicited donations from the American community in that city. All the food was consumed at the Christmas buffet where 1,500 men were guests of the U.S.O.

IN HOLY LAND — Franciscan monk looks out over Bethlehem under the shadow of Christmas bells. In the background is the Field of the Shepherd, where an angel appeared to announce the birth of Jesus.

Start at Door

Since guests come to the front door, this is where decorating should begin. A swag is the easiest door piece to make. Bind together a handful of Christmas greenery with wire. Add a cluster of cones over the wire, a red ribbon and attach it to the door.

Eyes Injured, Girl Waits to See Photo in Paper

HUNTINGTON, W. Va. (AP)—Edith Christine Maynard's picture was in the paper today as she asked. But it will be some time before it is learned if the 8-year-old girl can see it.

Last Saturday, Edith's 9-year-old sister, Linda Lou, was playing with a .22 rifle in their home. The gun went off. The bullet went through both of Edith's eyes.

"I want my picture in the newspaper because I'll be able to see it," Edith told nurses at the hospital.

The Huntington Herald-Dispatch took one and published it. But Edith has bandages over both eyes. An operation is to be performed before it is known if Edith can see.

Doctors have expressed doubt.

Use Orange Crates

An inexpensive and attractive bin for storing children's Christmas toys can be made from an orange crate. Stain the cleaned crate a bright color. When it dries, apply one or two coats of white shellac. Hinged cover completes it.

The addition of 10 to 15 per cent of chrominum to ordinary steel produces a variety of stainless steel.

Eligible Women to Start Getting Old Age Checks

WASHINGTON (AP) — About 300,000 women under 65 years of age will begin receiving federal old age and survivors insurance checks this week, the Social Security Administration said today.

Commissioner Charles I. Schottland said that more than a third of the women who could get benefits for November under amendments passed by Congress this year will get checks.

The amendments permit payments at age 62, at reduced rates, to eligible wives and retired women workers and at full rates to widows and mothers of deceased insured workers.

Modern optical instruments can bring the moon within a seeing distance of 25 miles from the earth, according to present calculations.

An estimated 88 per cent of all the motor trucks in the U.S. today are less than 2-tons in load capacity.

Ever Wonder What It's Like to Live 100 Years?

Memories of 'Heap of Living' Recalled by Centenarians

By WILLIAM R. HARWOOD

Editor's Note — Listed on Social Security rolls are some 61 people 100 years old or more. If you go behind the rolls to the people you find some fascinating and colorful recollections — plus some easy-to-take advice. Here are some samples).

BALTIMORE (AP)—Have you ever wondered what it would be like to live 100 years?

Recently, the Social Security Administration, which has its headquarters and central records in Baltimore, looked up the 61 centenarians on its benefits list. Interviews with most of them turn up memories of a "heap of livin'" by ex-slaves, full-blooded Indians, at least one Indian fighter, a banker, a doctor and many others from different walks life life.

Back when they were born—1856 and before—the chances of seeing a century of life weren't too high. The 1950 census showed there were 4,475 persons in the United States 100 or older.

Actuaries say the number of persons attaining 100 each year is pretty closely balanced out by the number of centenarians passing away each year. So, the 1950 count holds fairly constant today. That means roughly one out of every 37,000 persons in the country today is 100 or better.

• • •

Although medical science today has improved your chances of living 100 years, the opportunity to see the life these centenarians saw vanished long ago.

From the youngest—William O. Eaton of Des Moines, Iowa, who started on his second century Nov. 15, to the man who claims to be the oldest at 118, William E. Davis of Charleston, W. Va.—they've all seen a large chunk of life.

Some can't remember too much of it. Some recall only a few outstanding events. Others have pretty sharp memories and will spiel it out faster than you can say Tatzumbie Dupea.

In fact, Tatzumbie, a Piute Indian now living in Los Angeles, is one of the oldest and one of the most colorful of the centenarians. Now 107, Tatzumbie recalls she had no contact with white men until she was 25. But when she was a baby, her mother was killed in a massacre by white settlers in Owen Valley. She and her grandmother fled to live in Death Valley where she grew up.

"I had no one to play with, only the birds, the doves and the horny toads," she said. After her grandmother died, Tatzumbie was found and "civilized," she says, by a white family. She took care of their children and later learned practical nursing and worked as a nurse for 36 years.

About 30 years ago, Tatzumbie was signed for her first movie, "Cimmarron," and has since played in dozens of movies, most recently in "Across the Wide Missouri" with Clark Gable.

A contrasting life was led by George Motz of Kamiah, Idaho, who still remembers vividly fighting the "Injuns" and punching cows along the Chisholm Trail from Texas to Montana.

"I never had much schoolin'," the 100-year-old Motz confided; "Went to work when I was just a younker. First job I ever had was with a pack outfit, packin' for the Army. I was never in the Army but I worked for the Army as a packer for a lot of years."

One time, Motz recalled, the Army troop he was packing for "ran into a passell of Injuns and the general got himself wounded . . . there we were surrounded and they decided someone had to go for help . . . I was a slick one in them days—slicker'n a beaver slide: I told 'em I'd put on an Indian war bonnet and ride out through the squaw camp. Well sir, I did just that and got help."

Another time, Motz said, he was with a cavalry outfit trying to warn the settlers at Ft. Sully that the Indians were on the warpath. "Well sir, the rivers was at spring flood and was roarin' along in good shape . . . this cavalry captain said, 'I'd give $100 to the man who can get across this river and deliver a message to Ft. Sully.'

"Well, I told that captain that I could swim the river all right, but it was so muddy that I'd have to take all my clothes off so that the mud wouldn't drag me down.

"I got to the other side with a message tied in a sweat band and it was about two miles to Ft. Sully and I walked it as naked as a jaybird. I knocked on the first door I come to at the fort and some woman opened the door. I never seen such a surprised woman in my life. She called her husband and I gave him the message and he got me some clothes and I went on about my business, but I was $100 richer than when I started.

"I knew Bill Hickock very well and I've seen the James boys and the Youngers and a lot of the old-timers," Motz added. "Tell you, if I die tomorrow I sure haven't missed very much.

THE BERRYS

By Carl Grubert

Pick Chief Sanitarian in Grand Rapids Area

GRAND RAPIDS (AP) — Edward Stockton, Calhoun County Chief Sanitarian, is scheduled to become Chief Sanitarian for the Grand Rapids-Kent County Health Program Jan. 2.

Dr. W. B. Prothro, City-County Health Director, today said Stockton will begin his new duties at a salary of $9,000. He replaces W. W Joy, who resigned the post Sept. 1.

Top Film Executive Promoted at M-G-M

HOLLYWOOD (AP) — Benjamin Thau — a top film executive little known to the public — has been appointed administrative head of Metro-Goldwyn-Mayer studio, succeeding Dore Schary.

Schary resigned last week after stockholders' complaints over lack of profits. Thau previously was vice president.

Boy, 15, Faces Possible Death With Maturity

LOUISVILLE, Ky. (AP) — Albert Klein, a 15-year-old who likes music and model airplanes, may not live to celebrate another Christmas.

• • •

The boy is suffering from a swiftly progressing type of bone cancer that, to his doctors' knowledge, has never been cured.

Last August, Albert's leg was amputated after the boy agreed it was worth the risk to save his life.

But the disease spread and now has affected both lungs and his right side.

• • •

He has been told he may die, and his mother Mrs. Wilhelm Klein, said he told her that if something had to happen to him, he is glad it happened before he was older, when it might be more of a burden on the family.

Albert's father is a boring-machine operator. They have three other children, Elizabeth, 13, Henry, 11, and Mary Louise, 3.

Fewer Laborers Idled in October

WASHINGTON (AP) — The Labor Department said today fewer workers were idled by work stoppages beginning in October than in any corresponding month since 1948.

The department's statistics bureau also said that preliminary estimates showed a marked improvement in the situation over October a year ago.

The bureau said 325 stoppages beginning this October idled 130,000 workers compared with 431 new stoppages in October 1955 directly affecting 214,000 workers.

Including stoppages that began earlier, there were 525 in effect in October, idling 190,000 workers for an estimated one million man-days. In October 1955, the department said, there were 654 stoppages in effect, idling 292,000 workers for 2,470,000 man-days.

Traffic Jam May Cost 10 Cents for 2 Minutes

LOS ANGELES (AP) — If you go Christmas shopping here in a taxicab and run into a traffic jam, you may have to pay for the delay.

The Yellow Cab Co. Tuesday asked the City Board of Public Utilities and Transportation for permission to charge passengers 10 cents for every two minutes' delay in traffic. Passengers now pay 10 cents for every 2½ minutes of standing or waiting time, but there is no additional cost for traffic delays.

Security for You

Changes in Law Available in Booklets

All Social Security offices now have available a new series of booklets explaining the major changes made in the Social Security law this year. Also available is a revised booklet entitled "Your Social Security" which explains the whole Social Security program, including the recent changes.

You may get single copies of the booklets free by writing or dropping by the nearest Social Security office. You can find the address of this office in your phone book or through your post office.

* * *

If you want copies for distribution to employes or members of organizations, you can buy them in quantities from the Government Printing Office, Washington 25, D. C. for a nominal charge.

The key booklet available to the public is "Your Social Security." It's a pocket-sized, 48-page booklet which includes explanations of how you become insured under Social Security, the size of the payments you can draw and all other major phases of the program.

* * *

Here's a run-down of the titles of the new series describing this year's Social Security changes:

A Brief Report of the 1956 Amendments to the Social Security Law (OASI-1956-1) Benefits for Women Under the 1956 amendments to the Social Security Law (OASI-1956-2) The Rights of Servicemen and Veterans under the Social Security law as amended in 1956 OASI-1956-3)

The Rights of Disabled People Under the Social Security Law as Amended in 1956 (OASI-1956-4)

The Rights of Lawyers, Dentists, Osteopaths, Veterinarians, Chiropractors, Naturopaths and Optometrists Under the 1956 Amendments to the Social Security Law (OASI-1956-5)

The Rights of Farm People under the 1956 Amendments to the Social Security Law (OASI-1956-6)

The subjects of the new booklets, of course, are obvious from their titles. In general, the booklets include a more detailed explanation of the subject discussed than the explanation of the same topic in "Your Social Security."

But, no booklet in the new series is or is meant to be a complete explanation of what there is to know about the new Social Security amendments. They're only designed to hit the high spots.

* * *

Thus, if after you get your copy of a booklet and you can't find an answer to your question, don't be surprised. Questions not answered in the booklets can be answered by the nearest Social Security office.

Anything you find in the booklets which isn't clear to you should also be checked with your Social Security office. It's a lot better to check than to assume the meaning. A mistake could affect all the days of your retirement.

Further, the booklets are not the final word about your eligibility to retirement, death or disability benefits. The Social Security law and the official interpretations of the law are always the final word. If there's any disagreement between the two, the law's language prevails.

(You may write Ray Henry in care of this newspaper about your own Social Security or retirement problem. Please enclose a stamped, self-addressed envelope and 25 cents in coin.)

Detroit Death Toll Reaches Low Total

DETROIT (INS)—Statistics show Detroit's traffic accident death toll last month was the lowest November total since 1924, when police first began keeping fatality records.

Ten persons died on city streets last month as compared to 24 in November, 1955. The record of 46 was set in 1926.

Traffic Judge John D. Watts, Police Commissioner Edward S. Piggins and other police officials joined in stating the drop was encouraging.

Injury and non-injury accidents also dropped in the Motor City last month.

Deer Shiners Fined

WHITE CLOUD (AP) — Justice Wells Branch ordered a Muskegon father and son Tuesday to pay fines and costs of more than $87 each or serve 30 days in jail after a six-member justice court jury found Maynard Gould, 41, and his son, Allen, 19, guilty of shining deer. The two were freed on $100 bond and given five days to comply with the sentence or make an appeal. They were arrested by conservation officers Nov. 10 in Newaygo County.

Apples give off an ethylene gas strong enough to wilt cut flowers.

Tomorrow's Engineer Must Be Ingenious

EAST LANSING (AP) — The engineer of tomorrow must be prepared for the age of atomic energy, rockets, jets and space exploration.

Dr. John D. Ryder, dean of engineering at Michigan State University, made this prediction Tuesday before the Second Midwest Symposium on Circuit Theory meeting at MSU.

"Tomorrw's engineer," said Dr. Ryder, "must be creative, curious, ingenious, inventive and a man with vision and intiative. He must believe that if a device works it is already obsolete."

NOTICE of TAXES CITY of PONTIAC

The 1956 County Taxes in the City of Pontiac will be due and payable at the office of the Pontiac City Treasurer December 10, 1956 through January 21, 1957 without fees.

On January 22, 1957 a collection fee of 4% will be added to all County taxes paid through February 28, 1957.

On March 1, 1957 all unpaid County and 1956 City and School taxes will be returned to the Oakland County Treasurer's office and must be paid there with additional fees.

Payments made by mail must be postmarked not later than January 21, 1957 to avoid penalties.

Pontiac, Michigan

Double Population Ratio

Fourth of Federal Posts Are Being Held by Negroes

WASHINGTON (AP)—A presidential committee reported today that Negroes comprise 23.4 per cent of the federal employes in five major cities, including this one.

* * *

Chairman Maxwell Abbell of President Eisenhower's Committee on Government Employment Policy, which compiled the figures said the survey turned up two findings which he termed of particular significance.

"The first is that Negroes are employed by the federal government well above their ratio to the total population," Abbell said. "The second is that Negroes are by no means confined either to the menial jobs of the government or to the lower grades in the (civil service) Classification Act."

The ratio of Negroes to the total U.S. population is about 11 per cent.

* * *

Besides the capital, cities covered by the survey were Chicago, St. Louis, Los Angeles and Mobile, Ala.

The committee found that 43 per cent of the Negroes employed in the five cities held "Classification Act" or "white collar" jobs and 31 per cent held "wage board" or "blue collar" jobs paid on a per-day basis. The 26 per cent listed in "other" jobs included postal employes.

* * *

The survey showed that of all Negro federal workers in the five cities, 5 per cent were in supervisory jobs and had administrative direction over other employes.

The "white collar" civil service jobs are graded by number from 1 through 15, with 15 carrying the highest salary. Fifteen per cent of the Negroes employed in the five cities were found to be distributed from grades 5 through 15, as compared with 67 per cent of the whites in the same cities. Eighty-five per cent of the Negroes and 33 per cent of the white in the same cities were in grades 1 through 4.

State Safety Drive Cuts Traffic Death

LANSING (AP)—The state's drive to reduce highway traffic fatalities continues to show highly encouraging results.

A state police report presented at a meeting of the state safety commission Tuesday showed that figures through Dec. 2, including provisional data for November, indicated a decrease in deaths compared with last year of 247.

* * *

Known deaths as of midnight Sunday totaled 1,580 as against 1,827 a year ago.

Excluding the "provisional" data, subject to future revision that undoubtedly will reduce the apparent gain so far, traffic deaths were down 10.7 per cent for the first 10 months of the year.

Secretary of State James M. Hare was re-elected commission chairman at the meeting, which was mainly a review of progress to date.

THE OLYMPIC GAMES - 4

An Olympic Boy Gets Ready

Girls took a deep interest in the Olympic Games, although they weren't allowed to take part.

In any Greek home, in fact, where there was a contestant, everybody was eager to help him.

There was much to be done, too.

Here is a little Greek girl and her younger brother. Their big brother has been chosen as a contestant in the Olympics. The little boy is holding up the big shield, decorated with a design of Pegasus, the winged horse.

His sister is going to polish the shield. She has a brass, three-legged container of warm water beside her, and has used a small brush and fine sand to scour out the deep engraving on the shield. The last step is to polish it wtih a clean, soft cloth.

Paste this picture on cardboard and color wtih crayons. Both children are dressed in loose garments of delicate colors. Cut out the parts. Cut a slit in the girl's sleeve. Slip the arm into the opening and fasten with brass fastener through the opening. Now the girl can polish her big brother's shield.

Fold the picture forward through the middle and the picture will stand up.

(John Wherry, Elyria, Ohio, won $10 for this idea. If you have any suggestions send them in care of this newspaper. Violet Moore Higgins; AP Newsfeatures.)

Tomorrow: The Broad Jump

Clean-Shaven Santas Finally Buy Beards

PHILADELPHIA (AP) — Some of Santa's street-corner helpers are going back to beards after trying clean shaves. The kids griped.

The Volunteers of America, which employ the helpers, said it abandoned its beards because they were wearing out. It went for the clean shave after trying masks, which frightened small children.

But the clean shave brought an uproar' from older children. The volunteers decided to buy better beards.

Nickel, chromium, molybdenum and vanadium are used in a number of alloy steels for the purpose of making them stronger as well as tougher.

Pulls Wrong Switch

SAGINAW (AP) — Workman Sam Williams, 74, hired to turn off lights on outdoor Christmas decorations in a business district, spotted a red box and pulled a switch. Minutes later he was surrounded by firemen piling off fire trucks. They pointed out the light switch and advised Williams to keep away from the fire alarm box.

An average watch contains upwards of 150 separate parts.

Arthur Godfrey hasn't fired anybody in so long that some of his people threaten to quit, claimin' there's no longer any chance for advancement....In a small town nobody ever does anything he shouldn't because everybody's too wholesome and, besides, there's no place to.—Earl Wilson.

In Colorado, Aloha Means 'Goodby'

Fast Hawaiian Courtship

COLORADO SPRINGS, Colo. (AP) — A dapper Hawaiian whose whirlwind courtship of a Denver society woman started with an "aloha" went from honeymoon suite to jail Tuesday. His mink-coated bride departed in tears.

Police held the balding playboy, who claims royal blood, without charge along with three members of his official party.

* * *

His bride of five days, the former Mrs. Jane Tomberlin, flew to Denver, where she conferred with her lawyers. Greeted at the airport by reporters, she said only: "No comment."

Police Chief I. B. Bruce said the 44-year-old bride told him she would seek an annulment of her marriage to the Hawaiian, Prince Keawe, who was booked as Samuel Crowningburg-Amalu.

* * *

The former Mrs. Tomberlin wired a stop-payment notice to a Honolulu bank on which she had written a $2,800 check payable to the prince, Bruce said.

* * *

Their marriage here last Thursday climaxed a weeklong courtship that began in a Denver hotel elevator. They met when Mrs. Tomberlin smiled and bade the prince "aloha." The prince, 37, took it from there.

The police chief said detectives arrested the four men after checking reports from a confidential informant on the West Coast.

* * *

Also held without charge were Walter Parman, 24, and Fredrick W. Aykens, 44, both of San Francisco, and a 17-year-old who acted as the prince's driver.

The four men and the former Mrs. Tomberlin were leaving their hotel when arrested. She had paid their bill.

Clouds Gather Around Kremlin

Signs of Unrest Behind Iron Curtain Watched by U.S. Observers

By RUTH MONTGOMERY

WASHINGTON (INS)—Administration leaders are watching with fascination a series of shadows—each no bigger than a man's hand—which indicate a gathering storm for Soviet Russia.

A top source told this correspondent that three recent developments behind the Iron Curtain have given rise to new optimism in official quarters in Washington.

• • •

Chief of these is the growing sign of unrest among students in Moscow itself, seat of international communism. Diplomatic sources have tipped off news of carefully nipped demonstrations. In one case, a group of students angrily walked out on a university professor who was seeking to defend the ruthless Soviet quashing of the Hungarian revolt.

Workmen in Georgia, homeland of the late premier Joseph Stalin, and in the great granary of the Ukraine where Communist Boss Nikita Khrushchev waxed supreme during World War II, have caused disturbances which are considered "most encouraging" here.

The source said that this government has also learned of "definite ferment" within the top ranks of the Kremlin. As evidence of the trouble in which Premier Nikolai Bulganin finds himself, because of his "softer" policy which backfired with the Polish and Hungarian explosions, he pointed to the latest decoration of General Georgi Zhukov.

"Zhukov is the first Russian in history to receive the fifth star as 'Hero of the Soviet Union'," he declared. "The precedent-shattering decoration was awarded for his butchery in Budapest, and is meant as a slap at the policies of Bulganin and Khrushchev which led to the satellite revolts."

Secret intelligence reaching top diplomats here reveals considerable ferment in both Romania and Bulgaria, where the people are "terribly poor and badly downtrodden by their Soviet masters."

The reports indicate that only their complete occupation by Russian troops has prevented uprisings in Bulgaria and Romania similar to those in Hungary and Poland.

Among the most encouraging reports reaching our top officials are tip-offs of disturbances in Lithuania and Estonia. In one of the Baltic nations recently, statues not only of Stalin, but also of Lenin—father of Russian communism—were knocked to the ground.

A high official told this correspondent: "Hungary and Poland have set off forces in the other satellite nations which will eventually spell doom for the present Soviet regime. These forces cannot be lived down. It is only a question of time until the rising ferment will compel the Russians to pull their forces out.

Federal Prison Site Sought in Midwest

WASHINGTON (INS)—The Government has asked for suggestions on where to build a new Alcatraz-type maximum security federal penitentiary for the middle west.

Attorney General Herbert Brownell Jr. said invitations are being sent to chambers of commerce and interested persons in an area composed of the southwest quarter of Illinois, the nine westernmost counties of Kentucky, Northwest Tennessee and Eastern Missouri.

The Government requires a tract of some 1,600 to 1,800 acres served by adequate transportation, water, electricity and other facilities.

Proposals, which must be submitted by Dec. 20, will be reviewed by a committee headed by the federal prisons director James V. Bennett. The findings will be submitted to Congress.

Expect to Shiver Here in December

WASHINGTON (INS) — The Weather Bureau has reported that residents of the eastern third of the U.S. can expect to shiver in below-normal temperatures for at least another month.

The only area that can look forward to hotter-than-average weather is the far Southwest.

The dry California coast can expect increased rainfall during December, but the rest of the country except the Northeast will have below-normal precipitation.

Temperatures in the Great Plains region will be about normal but will fluctuate widely.

Women don't get any smarter by changing their hair — because there's nothing new under the bun. . . . Hal March told me about a wife who accused her husband of being lazy, and he snorted, "I like that—after me earning my unemployment insurance for you!"—Earl Wilson.

CASHING IN — This bride in Messina, Sicily, gets a quick nest-egg through the custom of pinning money on her bridal gown as a "fee" for dancing with her. Chap in photo gave the most, so he got first dance.

State's Farmers Use More Credit

MSU Survey Reveals Loans Are Generally on Sound Basis

EAST LANSING (INS) — Michigan State University's Agricultural Economics reports farmers this year are using more credit to meet both real estate and production costs than in 1955.

However, John Doneth says this is not alarming and believes almost every dollar loaned to the farmer is going into needed farm enlargements and improvements. He said such credit is generally very sound.

A recent banking report showed that on Jan. 1, 1956, Michigan farmers were using 7 per cent more non-real estate credit and 11 per cent more real estate mortgage credit than a year earlier.

Ninety-two million dollars was ear-marked for non-real estate loans, of which banks contributed more than three-fourths.

About one-half of the 120 million dollars in real estate credit for the state's farmers was loaned by private individuals.

Banks and federal land banks each accounted for approximately one-fifth of the real estate credit. Insurance companies and the farmers home administration were other sources.

Jamming Air Waves Costly for Russians

LOUISVILLE, Ky. (INS) — A U.S. official claims the Russians are spending about four times as much money trying to jam foreign broadcasts as the Voice of America spends for all its activities.

Abbott Washburn, deputy director of the U.S. Information Agency, said radio engineers estimate jamming costs the Soviets more than 68 million dollars a year.

In a speech before the Sigma Delta Chi national convention in Louisville, Washburn added:

"This is almost exactly four times the total cost of the Voice of America for the present fiscal year."

He said Communist Poland recently decided to discontinue its jamming activities and that this will save Warsaw more than 17 million dollars a year.

Better Bomb Defense for American Cities

WASHINGTON (INS)—The Army has promised improved anti-bomber defenses for American cities in an announcement that manufacture of new "ground guidance equipment" has been completed at Burlington, N.C.

The equipment, involving twin radar beams to guide the 22-foot-long "Nike Hercules" rocket, was made by the Western Electric Co. and has now been released to the Army Ordnance Division.

The Army said the equipment "is intended for later installation at Nike sites already existing around many American cities."

The statement added: "It will provide increased performance and greater defense capabilities."

University Students Play at Battle Creek

ANN ARBOR (AP)—Three University of Michigan music students will appear with the Battle Creek Symphony Orchestra at a February concert.

They are Rudolph Stakeman, pianist, of Brooklyn, N. Y., Camilla Doppman, cellist, of Ann Arbor; and Bette Clare Grotegut, vocalist, of Ann Arbor. They were among the winners in the Battle Creek Symphony's annual contest last Sunday.

The evening and part-time schools in the U.S. have an enrollment in normal years of about 1,850,000.

Pity Salesgirls at Yule Season

Christmas Is Hectic Time for Those Who Serve Public

Who has her Christmas shopping completed by Thanksgiving? Answer: the salesgirl.

For her, that Christmas feeling comes both early and late—before Thanksgiving when, often by ruling in the larger department stores, she does her own gift buying; and on Christmas Eve staggers out into the street.

In between comes the big rush that works up to a back-breaking, feet-and-head-aching crescendo the last week before the holiday. So when you groan at the prospect of your Christmas shopping just think of her—the girl who has to deal with the rush eight hours a day, every working day.

Trying to bring a happy Christmas to the salesgirl should be the good resolution of every shopper.

And it wouldn't be a purely altruistic one either, for the person who does will automatically lighten his own burden.

Here are some suggestions from Lyn Phillips, head of a Christmas Club for men shoppers. She says: "The basic rules for a considerate Christmas shopper are simple: shop early, and bring a list."

So take pencil, paper and a little time off from your daily round to list each person from your nearest and dearest to the must be remembered.

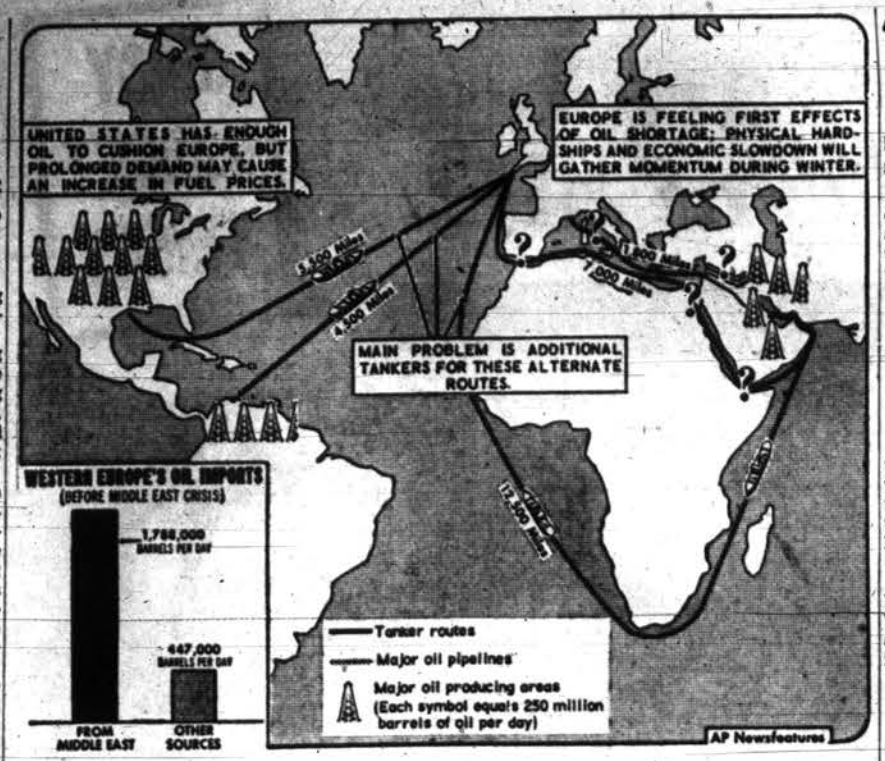
Then mark off, as nearly as possible, the type and price of the gifts for each. If they are in the clothing line check on color and size, and if you want the store to mail them get the full correct address.

Shopping around the Christmas displays, without bothering the salesgirls, may help you finalize your ideas. Then you are ready for the great assault.

When you have a large order for one department it may simplify the whole matter if you hand in the details—make sure the are absolutely accurate—so the gifts can be wrapped at a less hectic time.

ACCURACY IS VITAL

If you cannot conform to the idealistic policy of knowing precisely what you want, without having the salesgirl show you alternatives, the earlier you shop the better.



Cold, Stay-at-Home Winter for Gas, Oil-Rationed Europe

By THE ASSOCIATED PRESS

Across Western Europe this week, the signs of a tough winter ahead were multiplying.

In Britain, motorists began receiving gas ration books, without which purchase of gasoline would be impossible after Dec. 17. The coupons in the book entitle them to only enough fuel for 200 miles of driving a month.

Fuel for Britain's industry also went under government control, with supplies to every type of enterprise except railroads and coal producing companies cut from 10 to 33 1-3 per cent. For many firms, production cutbacks are inevitable.

* * *

In France, where most trains are pulled by oil-burning diesel engines, rail service has been curtailed. This week some voices stridently complained of a lack of government planning to cope with an oil shortage which no longer was a hazard of the future but a current liability of European economic life.

The accompanying map shows the pre-crisis oil shipment routes and the probable alternates. Fifty-odd obstructions sunk in the Suez Canal by the Egyptians have knocked out the sea route which normally supplies Europe with most of her oil.

The dynamiting of three oil pipelines in Syria has broken the land section of the second most important route. (The Arabian American "Tapline" from Saudi Arabia still is operating.)

Prior to the Middle East crisis Europe got 80 per cent of her oil through the canal and the now-ruptured pipelines. No one knows when either will return to even partial service. Under the most optimistic conditions, Europe cannot expect oil delivery in anything approaching the normal pattern until well after mid-winter.

To keep its economy going, Western Europe is now preparing to rearrange her oil supply lines. Seventeen nations have joined in a European oil pool, which will handle negotiations for meeting the oil demands of all Western Europe.

EXPECT U. S. HELP

The United States is generally expected to supply most of the oil needed to replace the flow from the Middle East. In fact, Washington oil experts reportedly have the answers to most problems already worked out. When Nasser's nationalization of the canal threw the first shadow over the Mideast last summer, an emergency oil committee was set up to lay out procedures for meeting a possible oil famine.

* * *

The supply problem is twofold: First, finding available oil and, secondly, transporting it. There is a sufficient oil production capacity in the United States and South America to fill the European deficit, but the job of finding enough tankers to carry the fuel across the Atlantic is more difficult.

* * *

By pooling the fleets of the major oil companies for top efficiency—a plan which has been "reluctantly" promised immunity from anti-trust action by Atty. Gen. Herbert Brownell — and adding some tankers now in the mothball fleet, Europe's essential needs can be met.

'Men Only' to See Gay Paree

WASHINGTON (INS) — Ladies, here's just the Christmas gift to make your hubby happy —

New Year's Eve in gay Paree on a "men only" junket. The price and the sponsors guarantee that those who go will "See Paris the way a man should."

Ted Stevenson, 35-year-old Washington printer, gave birth to the great idea, put an ad in a newspaper — Presto! — eager applicants began signing up "Like," says Ted, "A bull moose stampede."

Stevenson has arranged to charter a Slick Airways DC-4, which will leave Washington Dec. 29, arrive in Paris the next day, and return to the nation's capital with its load of stags early on Jan. 2.

Here's the way Ted tells it:

"My partner, Don Beaupre, and I got to thinking what a dull place Washington is on New Year's eve and how we'd like to spend it in Paris.

"We couldn't swing the trip ourselves, so we decided we'd get some help and do it on a group basis.

"A lot of guys got interested in a hurry. Auto mechanics, store clerks, government workers fed up with that old Federal red tape.

"One of the first fellows to sign up said, 'I've got to keep this quiet because my old lady thinks I'm going duck hunting.' We guaranteed that the passenger list would be top secret."

Stevenson was asked: "What about that line in your ad — 'See Paris the way a man should' — what does that mean?"

"Well," he hemmed. "Haw, That means, of course, that we're arranging tickets for the Folies Bergere and all those girlie shows, and — er — and so forth."

Stevenson said the "men only" flight will be the first visit to Paris for most of the adventurers, including himself.

"I was in the Air Force during the war," he said, "and flew over Paris, but that's as close as I ever got. gmost of the fellows who are going haven't even been that close. But, boy, they've heard plenty."

A capacity load of 66 stags is anticipated. The "men only" proviso applies even to a ban on Stewardesses. "No Women Al," "You wouldn't take sandwiches to a banquet, owuld you?"

The price of the all-expenses-paid round trip is $349.50, with $50 down and the balance payable at $18 a month.

Paris Hotel and other arrangements are being made by an International Travel Agency.

"Of course," Stevenson said, "we'll be on our own in some of the activities. But this shapes up as a pretty imaginative bunch of boys, and IK FIGURE WE'LL D ALL RIGHT."

Vet Who Spotted Japanese Planes Issues Warning

WILLIAMSPORT, Pa. (AP)—The Army private who detected and vainly parned of the aproach of Japanese planes at Pearl Harbor on Dec. 7. 1941, said today that the nation "should remember what happened 15 years ago in view of what might happen today."

Joseph L. Leckard, now 35, working as a draftsman, talked reluctantly about his experience that day at Pearly Harbor.

"My Pearl Harbor memories are not particularly happy," he told a reporter. "I wish only that it had happened to somebody else. All that fuss got to be a bit wearing and I prefer to be known as just another veteran of the second world war."

"I'm no hero," he went on. "Something I've never been able to make clear to reporters and the public is that I just happened to be stationed at an Army radar screen when these Japanese Planes passed within its range. I spotted them and did my duty reporting their presence.

Destroy Documents in Salt Lake City

SALE LAKE CITY — The first large disposal of old public documents ever permitted in the State of Utah has begun in Salt Lake City.

Six tons of worthless records, dating back to territorial days, are being destroyed.

They include purchase orders, requisitions and invoices covering about $250,000,000 spent from 1890 to 1945 to operate the city government.

The documents are being sold to a waste-paper firm.

Mid-Year Exercises First in 11 Years at U of M

ANN ARBOR (AP)—The University of Michigan will hold mid-year graduation exercises Jan. 26 for the first time since the end of World War II when an accelerated program was offered.

The ceremony will be for students completing their degree requirements at the end of the present semester. University President Harlan Hatcher will deliver the main address at the exercises to be held in Hill Auditorium on the campus. Students finishing their studies at mid-year previously waited until the regular June commencement to receive their degrees.

Problem Faced by Agriculturists

California Asks Japan to Send More Workers South of Rio Gra

SACRAMENTO, Calif. (AP)—California agriculturists faced with the possibility their Mexican labor pool south of the Rio Grande may dry up, have reached across the Pacific for help from Japan.

State officials said today more than 500 Japanese men are working in California's vegetable fields and orchards, with the possibility they can stay as long as three years and go home with a million yen each. That's about $2,000.

Mexico informed the United States last winter its own agricultural and public works development would cut down the number of farm laborers who could come north.

Arrangements were made to bring in not more than 1,000 Japanese workers. The first plane load of 62 landed here in September.

By January, said Edward F. Hayes, chief of the farm placement for the State Employment Department, there will be about 800.

A college graduate and aspiring poet from Hokkaido in the first contingent went to work in an Oxnard celery field.

"So far it is much like home," Isao Yasuda, 26, was quoted by an interpreter.

But with this principal difference:

"At home men work in the field from dawn to dark. Here they keep track of hours worked."

* * *

Hayes said the Japanese are "very hard and conscientious workers."

California had an autumn peak of about 105,000 Mexicans working on the land. It wasn't much of a fall-off from last year.

Just how many Mexicans return next year, Hayes said, will help determine how many Japanese will be sought. He doesn't expect the Japanese ever to come in the same numbers as the Mexicans.

The Japanese, like the Mexicans, are guaranteed the same pay given Americans for doing the same work. They get at least 82½ cents an hour for cultivating in Monterey County, for example, and $1.25 an hour for knocking down and picking up Sacramento Valley almonds. All are prohibited from working in packing houses or processing plants.

THE BLONDE DIED DANCING

by KELLEY ROOS

Chapter 36

"Don't be so proud of yourself, Steve," I said. "Tell me what it was in the recording that tipped you off that Leone murdered Anita."

"It was all in the Stubby tape," said Steve. "Do you remember what a struggle Anita had to keep Stubby from passing out?"

"Yes."

"At one point, before she'd got him to admit he had killed his partner, she said she had some lovely Scotch in the kitchen. She suggested a drink; she thought that might keep Stubby awake and talking."

"I remember that, yes."

"Did she go and make the drinks?"

"No . . . she couldn't have. She never left the room."

* * *

"That's right. The conversation between Anita and Stubby was continuous; she didn't leave him for a second. Yet a few minutes later they each had a drink of that Scotch that was in the kitchen."

"Yes," I said. "Someone else got it for them."

"Stubby was too drunk to realize it, but he and Anita weren't alone in the apartment. Leone was there, listening from a bedroom. And when Anita needed help to keep Stubby talking, she co-operated. She got the Scotch, slipped it to Anita.

Then there was something else that indicated a third person . . . the phone call at the end of the tape. It came after Stubby had conked out. Anita answered the phone and said, 'Who is it? Oh, just a minute . . .' The caller wanted to speak to someone else . . . Leone Webb."

"But how could you be sure it was Leone?"

"That was on the Stubby tape, too. When was that recording made, Connie? What date?"

"No date was mentioned," I said.

"Not directly," Steve said.

"You're being proud of yourself again."

"Barton," Bolling said, "it's all right. You can be proud of yourself again."

* * *

"Thanks. Well, Leone lived with Anita for a while, so she was obvious vote for the accomplice. But specifically, Connie, remember what Stubby kept muttering about? Tonight's the night to get drunk, everybody ought to get drunk, their duty. And he said he had reservations some place, hardest place in town to get reservations that night . . . but he got them. Well, what night's that?"

"New Year's Eve, of course! What else?"

"Sure, and what else do we know happened on New Year's Eve?"

"Of course! Oliver Bell proposed to Leone!"

"Over the telephone, remember . . . shortly after midnight."

"And that's when that recording was made! Anita told Stubby what time it was . . . not quite twelve-thirty.

"Sure. That was Oliver Bell who telephoned. He wished Anita a happy New Year and asked to speak to Leone."

"I understand. If he ever heard that recording he'd know that his lovely bride-to-be was an active accomplice in a blackmailing racket."

"That's right," Steve said. "And when Anita tried to use that to blackmail her old partner, Leone killed her. She wasn't going to lose Oliver Bell . . . not only because she was fond of him, Mr. Bell owns a million dollar business."

"Barton," Bolling said, "you make a very quickly disappearing Martini."

"The kitchen is right . . ."

"I know," Bolling said. "Excuse me."

"Leone and Anita," I said. "A charming pair."

"They started their blackmail racket together," Steve said. "As receptionist at the school, Leone was in a position to steer all the vulnerable-looking, wealthier type students to Anita, who took it from there. When Leone had firmly hooked Oliver Bell, she dissolved the partnership. It was all very amicable. In fact, Leone and Anita remained friends until just a few days ago . . . when Anita must have suddenly realized she had an unexpected gold mine on those tapes.

"She thought she could bleed Leone dry, but she thought wrong. Leone knew too much about blackmail to let herself become a victim. She devised a quick plan for killing Anita in which she thought she'd never be suspected . . . shooting her from the ceiling."

"And blaming it on you, Steve."

* * *

"No, that just happened. The first time she had a legitimate excuse to leave the reception room between classes, she took it. She escorted a new student to Bell for an interview . . . that took only a moment . . . then she beat it up to the catwalk. No one questioned her absence from the desk. It was all over, the murderer was obviously Anita's last student, and Leone was safe. Nobody was ever going to blackmail her."

"But could Anita really have blackmailed her? If she'd played that Stubby recording for Mr. Bell, he'd know that she was in the racket, too," I said.

"Yeah," Bolling said. He put the pitcher down on the coffee table and stirred its contents. "I talked to Miss Webb about that. Anita pointed out to her that Bell would fire her, that's all. He would never have let it be known that his school had been a recruiting place for blackmail victims. That's bad for business and that guy Bell likes business. Another Martini, Mrs. Barton?"

"At least," I said.

"These will last longer. There's more of them."

"So that's how it was," I said. "Was Leone's story to me about a recording of Oliver Bell and Anita true?"

* * *

"And when you informed the lady that you had that tape," Bolling said, "you almost cooked your own goose."

"Oh," I said, "yes. She knew I had the means to figure out she was the killer."

"Exactly, Mrs. Barton. She had to get rid of you."

"But she didn't," I said gratefully, "thanks to you two boys. Please pass the Martinis. I'm going to drink a dozen to each of you."

"I doubt it," Steve said.

"I'm going to do my best. You deserve it, you two."

I did pretty well. The next time things really got back into focus, I was in the Rosewood Room. I was having a wonderful time celebrating my fifth wedding anniversary. I was even celebrating it with, of all people, my husband.

And we were dancing. That was hard for me to realize . . . that Steve was dancing, Steve and I, we were dancing. I snuggled closer to him and closed my eyes. We were dancing.

Then, suddenly, my blood ran cold. Steve was waltzing! People would see him, they would know who he was. I listened for the cry of recognition . . . "The Waltzer!" I tried to disengage myself from him, but he held me tighter.

I opened my eyes. The floor was crowded with couples. The music was a waltz, everyone was waltzing.

Revolt Against Moscow Still Smoulders in Hungary

VIENNA (AP) — The revolt against Moscow's dictation which blazed so brightly under the Russian guns just a month ago today still smoulders in neighboring Hungary.

The spectacular bid for freedom took unknown thousands of lives and may have showered its sparks into nieghboring dictatorships, including that of the Soviet Union itself.

Using all the modern paraphernalia of Communist persuasion — tanks, guns, prisons and sealed deportation trains — the Russians have been unable to stifle the spirit which toppled Stalin's statue the night of Oct. 23 and sent boys and girls with rifles against T34 tanks on Nov. 4.

The Russians have all but broken the armed resistance by sheer weight of their numbers and arms. They have deported uncounted hundreds of Hungarians and sent more than 110,000 seeking asylum in the West.

But they have won very few converts for the government of Premier Janos Kadar, a supposedly "liberal" Communist thrust in as front man for the Russian dictatorship on that bloody Sunday a month ago.

Fighting is still reported between rebel guerilla groups and Russian troops in the Hungarian countryside. Many of these reports apparently grow out of poor or nonexistent communications with Budapest. There are no reliable indications of any military action comparable with the fighting of late October and early November.

The new strength of the freedom fighters lies chiefly in the hands of the workers and students, who spearheaded the rebellion. The workers, through the formation of councils on the Titoist pattern, have been demanding a greater voice in policy making than is accorded in any "people's democracy."

They have insisted and still insist on the withdrawal of Russian troops and the restoration of former Premier Imre Nagy, who promised them free elections and the Soviet withdraw. The Kadar government rejected these demands, although the puppet premier agreed to negotiate for Russian withdrawal after order has been restored.

It was announced offiially that Nagy and about 50 persons in his party had asked to go to Romania and had been sent there. This has never been confirmed.

Kadar has said that Nagy "committed an unpardonable crime against the Hungarian nation" by failing to take action against the "counterrevolution."

Kadar heads a renovated version of the Communist party known as the Socialist Workers' party. Ostensibly it has been cleansed of all Stalinist elements but it has attacked very few members. Reliable observers in the Hungarian capital say the Kadar government has roots in nothing but the Red army.

The actual strong man in the government, in the opinion of these observers, is not Kadar but his deputy Ferenc Muennich. Muennich is an old-line Communist who commanded a volunteer brigade in the Spanish Civil War.

Kadar's negotiations with the Budapest Workers' Council have been almost completely inconclusive. The council agreed to call off its general strike Nov. 24, but this was done mainly so the workers could eat.

"The workers have to live and make money," a spokesman explained. Even then sullen, disappointed workers turned up at their benches only for payroll purposes. Many are still absent and production is sporadic.

The industrial situation is most critical in the coal mines. The coal shortage has kept many industries idle. In many places the miners have said that until their demands are met, they will mine just enough for their localities and their own needs.

The struggle between the workers and the Kadar government undoubtedly has created chaotic condition in Hungary's Communist economy. The Premier has recognized this to the extent of approving the council system, patterned after that of Communist Yugoslavia. Through their councils, the workers practically manage their own factories, setting production goals, wages and working conditions.

But Kadar has not budged on the major political demands of the councils: the return of Nagy, the withdrawal of Russian troops, Hungarian neutrality and free elections.

Hungary seems destined for a long, tight Russian dictatorship with Kadar or some other Russian-supported figurehead in front trying to save the nation for the Kremlin's empire. But refugees streaming into Austria by the thousands testify that Hungary will never again be a reliable member of the Communist family.

SANTA SPECIAL — Mailing their Christmas lists in plenty of time, two Teaneck, N. J. youngsters make use of a special Santa Claus mailbox in the city. Each grammar school has one of the boxes nearby. UP Wirephoto

Believe Soviets Have New Tanks

British Assume Basic Weapon Is a Lighter, Hard-Hitting Unit

PORT SAID, Egypt (INS) — The Soviet Army has converted to a new tank believed far ahead of anything Britian and the U. S. have in the field.

This is the conclusion of qualified military men based on evidence found during the Egyptian fighting.

In Egypt, the British found the Russians had given Gamal Abdel Nasser a large number of tanks as good as anything the western powers have ready for action.

To military intelligence this means only one thing:

If Russia is able to give away such tanks, the Red Army must have a large quantity of better ones.

The tank the Russians gave Egypt is the Josef Stalin III. The British knew Nasser had a few of these a year ago but they didn't know he had two full regiments of them. That's roughly 120 tanks.

The new tank, which the British believe now is basic in the Red Army is the T-54, a lighter and probably harder hitting version of the JS-III.

Some experts believe the T-54 may be as much as five years ahead of anything Britain and America have in quanity.

(The T-54 was seen in action in Hungary during the anti-Soviet revolt.)

* * *

The T-54 has retained the best features of the JS-III: A round turret designed to bounce off shells, a minimum of flat surface and therefore difficult to strike with a penetrating hit.

Western intelligence has had no chance to examine the T-54 any closer than through photographs. It is believed the tank is heavily armored and mounts a 100 mm. gun.

This 100 mm. weapon fires with greater velocity and penetrating power than the 122 mm. monster that the JS-III carries.

Western intelligence knows the T-54 went into production more than two years ago. The Russians are still withholding these new tanks from the satellite armies, however. The satellite armored units are made up chiefly of the JS-III model.

Endorse Increase of 50 Cents for UAW

DETROIT (AP) — The United Auto Workers Union states its international executive board has unanimously endorsed a proposed 50 cent increase in dues for 1,200,000 UAW members.

The basic dues are now $2.50 a month but some locals have higher levels.

The board will recommend that the dues be increased at the union's convention in Atlantic City next April.

The UAW in a statement said the board last Friday endorsed the dues increase after it was recommended by a special rank and file advisory committee.

The UAW said formal announcement of the decision was delayed until all UAW local unions could be informed of the action through an administrative letter from Secretary-Treasurer Emil Mazey.

Mazey said the increase is to be divided equally between the local union and the international union.

Swiss Raise Price of Gasoline 10 Per Cent

ZURICH, Switzerland (AP) — The price of gasoline was raised more than 10 per cent in Switzerland today, the third increase within a month. The price went up to 51 cents per gallon. A month ago it was 43 cents.

There is no gasoline rationing in Switzerland, but Sunday driving is banned for everyone, including foreign visitors.

Baby Production Hits Record High

LANSING (AP)—Michigan appears certain to hit a record high in baby production this year, the state health department states.

The department said 166,652 infants were born in Michigan during the first 10 months of the year. This represents an increase of 8,003 over the 158,559 born during the same period in 1955, when a high of 195,022 births was reached.

October births totaled 19,095, highest for any October on record and the second highest figure for a single month. The record number of births in a single month was set in September of this year when 19,425 babies were born.

Erwin Morrison Named Adviser to Major General

MT. CLEMENS (INS) — Colonel Erwin G. Morrison, author and former newspaperman, has been named a special adviser to Maj. Gen. Robert E. Eaton, commander of Thirteenth Air Force at Selfridge Air Force Base.

Col. Morrison has been a public information officer with NATO and the Sixth Allied Tactical Air Force in Turkey the past two years.

He was once a sports writer for the San Francisco Chronicle and has written books on golf and fishing.

Driver Becomes Dad, Treats Bus Passengers

DETROIT (AP) — Detroit Bus driver Leon Mills passed out candy to the women passengers on his bus run. His explanation: The birth of a son.

"I passed out two boxes of cigars to the men passengers," Mills said. "So now it's the ladies' turn."

It was Mills' third son.

The U.S. Census Bureau was made a permanent part of the government in 1902. It outdates the Departments of Labor and Commerce both of which were established about 1903.

Bob Considine Says:

Annette Kellerman Livens Up the Olympics

MELBOURNE (INS) — Granpaw's favorite pin-up girl, Annette Kellerman, now giving 70 a very hard push, but as saucy and controversial as she was before World War I, was an unscheduled performer at the Olympic swimming stadium the other afternoon.

* * *

Miss Kellerman, who shocked portions of the then civilized world (and probably entranced others) by scandalously showing herself in public in swimming's first one-piece bathing suit, unceremoniously took the microphone during an intermission in the water-polo bloodletting.

"I hope my presence here won't cause Avery Brundage to declare everybody in sound of my voice is a professional," Annette sang out gaily.

Brundage, the last living amateur, was either not present or fainted, for no sound came from him.

The trim Australian lady, who wowed U. S. yokels in 1909 with a form-fitting suit which in this day of the bikini would resemble canvas overalls, asked another generation of swimmers and swimming bugs, "Would you like to see a trick an old lady can do?"

They would indeed. So she stiffened beneath her flowered print dress, touched her hands to the ground without bending them, then kicked one leg in the direction of the late Florenz Ziegfeld.

'THE LIVING VENUS'

In her heyday, Annette was called the "million dollar mermaid," "the living Venus," "Neptune's daughter," and "the perfect woman."

* * *

Her silent movies, once threatened with wrathful censure, are not on TV at the children's hour in the States today because they are considered too tame.

Annette is married to John Sullivan — not the fighter. She posed in her hotel room today doing a highkick a good foot over her white-bonneted head, and told of her plans to take her one-woman show through the Australian Hinterlands.

In it she'll do "comical physical jerks," sing, dance and play the accordion.

* * *

"We're going to live here for half the year and in America the other half," she warned.

SOUVENIR WEAPON

Anybody who comes to Australia and does not buy a boomerang to take home to the kids ought to be encouraged. We succumbed to the temptation today, along with probably every other visitor who has reached these parts for the Olympics.

* * *

After reading the instructions that came with our lethal weapons, the thought occurs that we should cable our stock adviser, Walter Winchell, and get him to recommend investing in all companies making window glass.

The instructions, on sleazy pink tissue, are entitled "How to Throw a Boomerang," by Bill Onus. If the following excerpts sound odd, the onus is on Bill:

"You know, of course, that the boomerang is one of the world's revolutionary inventions — that it is the forerunner of the propeller."

* * *

We always thought the most important "don't" about a boofnerang is "don't throw the dadblamed thing." Not so, Bill says.

The big "don't" is don't try fancy flicks of the wrist in throwing it. Just throw it, but in windy weather "you must throw not directly into the wind but a little to the right of it."

TARGET ADVISED

Bill concludes, "It is also desirable to have a target in mind at which to throw. It can be an imaginary target, but its location is important (you're telling me). It should be 50 feet high and a hundred yards away. You do not throw at it, but 20-odd degrees to the right of it."

For reasons never quite explained, the Olympics always crowds the track and field, boxing, basketball, sculling and other top events into the first two weeks, leaving a full final week to the remainder of the swimming, soccer, field hockey, cycling and even lesser sports.

They'll have to rewrite the third act before bringing this one to Broadway.

Pick Grandmother as 'Farmer of Year'

PAW PAW (AP) — Mrs. Goldia L. Tapper, a 68-year-old grandmother, has been named the Paw Paw Kiwanis Club's annual "Farmer of the Year."

Mrs. Tapper, mother of two children and grandmother of 14, has been manager of the Paw Paw Cooperative for the past 14 years. She reportedly is one of two women in the United States who manage farm cooperatives.

Kiwanis club President Wendell Riedl said at the presentation Monday night that the award symbolically honors all area farmers, but "in 1956, Goldia Tapper was an easy choice — she is our genuine sweetheart."

Bedridden Widow Shoots Self to Death

DETROIT (INS) — The 65-year-old widow of a former vice president of Ex-Cell-O Corp., was found dead of a gunshot wound Tuesday night in the home of a friend where she had been staying.

Detroit police said Mrs. Julia W. Smith died of a self-inflicted gunshot wound in the left chest. She had been in ill health for several years and was confined to bed under the care of a nurse.

* * *

The victim had been staying with Mr. and Mrs. Ralph Ainsworth of Detroit. Ainsworth operates a wholesale shoe firm.

Police said Mrs. Smith had attempted suicide twice before following the death of her husband — once by drowning and another time by carbon monoxide poisoning.

State's School Heads to Discuss Civil Defense

BATTLE CREEK (INS) — Some 50 state and local school administrators are meeting at Battle Creek this week to discuss the importance of civil defense in the schools.

The session is being sponsored by the Federal Civil Defense Administration in cooperation with the Department of Health, Education and Welfare.

Thee meeting is one of the first of its kind to be held at FCDA headquarters.

The Salvation Army established in the United States in 1880 has about 1,380 corps and outposts and more than 5,000 officers on its staff.

Honey, which is mentioned in both the Old and New Testaments, is the only natural sugar food which needs no refining.

The largest passenger carrier in the world is the school bus which transports 6,400,000 to and from school buildings each school day.

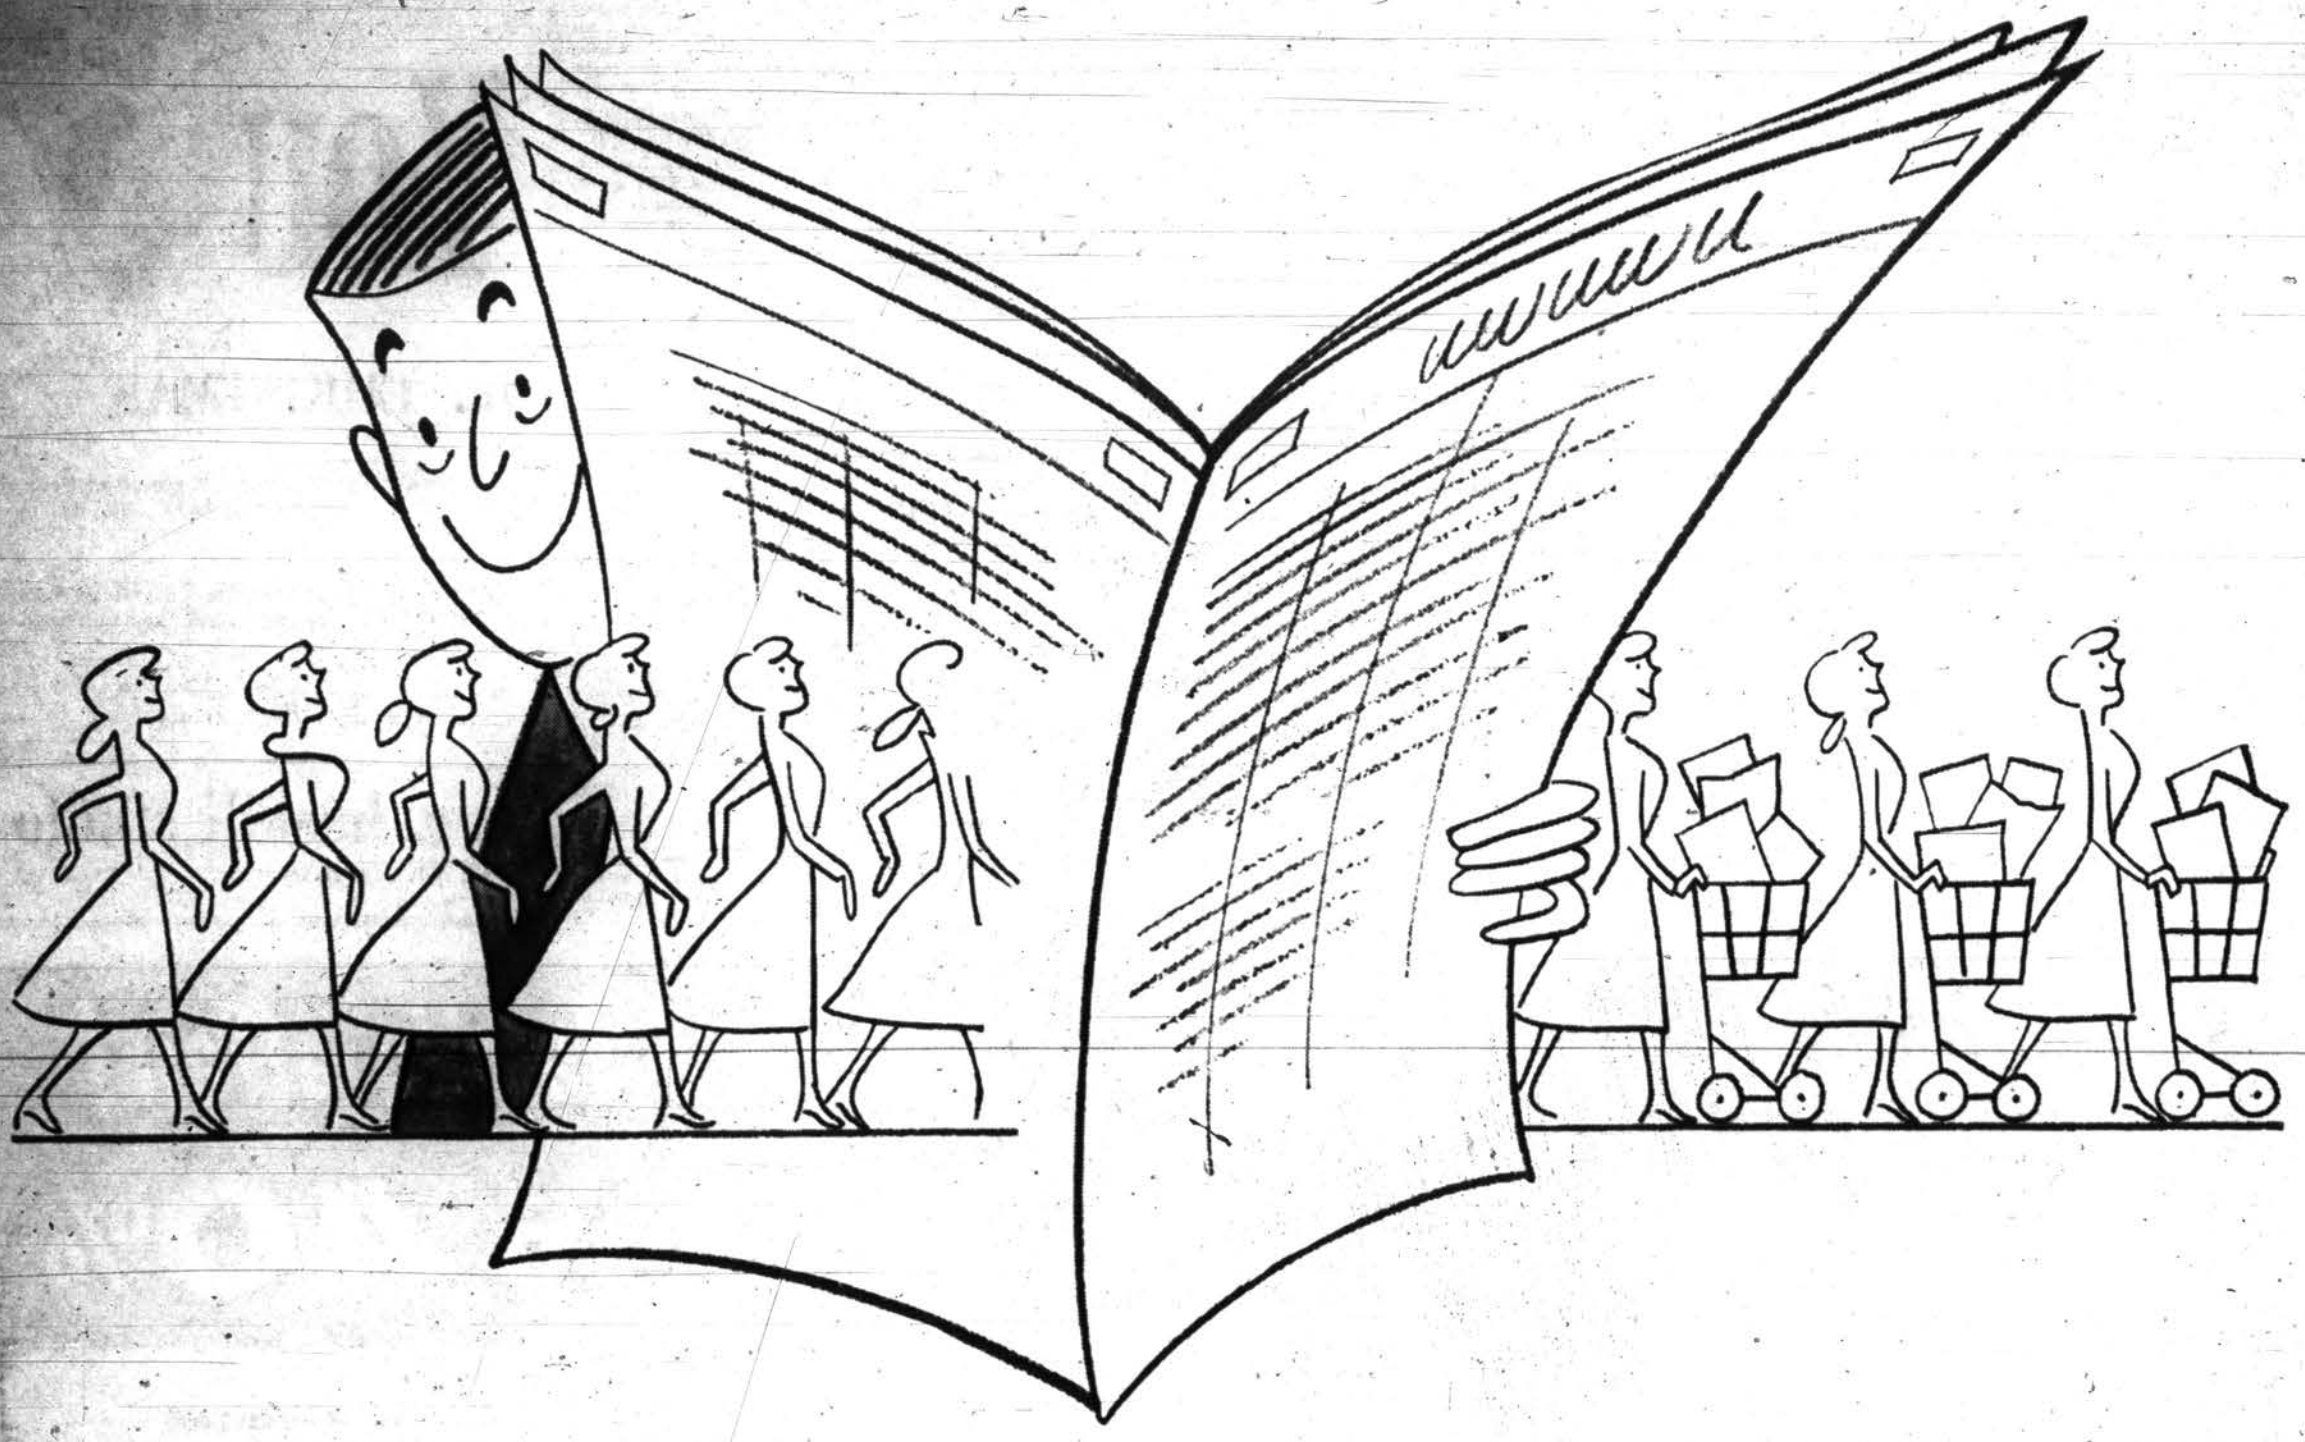
AMERICA'S LARGEST FAMILY CLOTHING CHAIN ®

200 N. Saginaw FREE PARKING



It takes a GIANT to build a business...

a $575,000,000 business!

"Newspaper advertising has built our business." So spoke H. V. McNamara, president of the National Tea Company, America's fifth largest food chain. In a recent address to the members of the Illinois Daily Newspaper Markets, Mr. McNamara made it clear that, "newspaper advertising has been the greatest contributing factor in our sales increase... from $99,000,000 in 1944 to $575,000,000 in 1955."

Newspapers Get Results

"Newspaper advertising, both national and local, brings results, the kind of results you can measure on the cash register, or in stock movement, actual sales results, not next week, not next year, but as soon as the newspaper hits the streets. That's real ACTION ADVERTISING. That's the kind of impact that gets results – and that's the kind of advertising in which we like to invest our money."

Two-Thirds Or More For "Action" Advertising

Since 1944 the National Tea Company has spent over $30,000,000 for advertising and sales promotion...and at least 66⅔ per cent of these advertising dollars has been invested in newspaper space. In Mr. McNamara's own words:

"Until someone invents another medium that will do a better job of delivery of our advertising wrapped up in a fast reading package of news, pictures, and interesting, educational features, that will get deeper and more dominant home penetration than the daily newspaper, I will continue to recommend... that we earmark at least two-thirds of all our advertising dollars for newspapers. Newspaper advertising is ACTION ADVERTISING that drives home the impact to get immediate results."

Nothing Sells Like Newspapers

Advertisers in every field share Mr. McNamara's views. They know that building sales in today's competitive market is a job for a giant... a job for newspapers. Only newspapers are big enough to reach into the smallest hamlet or to blanket the biggest city. That's why advertisers – big and small, national and local – are investing in newspapers at a record pace – $3,087,800,000 last year, more than was spent in radio, TV, magazines and outdoor *combined.* Put the giant to work building sales for you.

All business is local...and so are all newspapers.

THE PONTIAC PRESS

THE ANIMALS' CHRISTMAS By Walt Scott

Death Ends Woes Over Yule Expense

SAN GABRIEL, Calif. (AP) — Death ended Mrs. Ramona Hughes' worries over financing Christmas for her four children. She killed them — and herself.

• • •

Her husband William, 47, came home from work Tuesday to find the bodies of Mrs. Hughes, 27, Marguerite, 7, Juanito, 3, Augustina, 2, and Carlotta, 9 months, in the family car. A hose lead from the exhaust pipe.

When police arrived Hughes was hysterical and had to be placed in a doctor's care.

Only God Makes a Tree, but It's Devil to Move

ROCHESTER, N.Y. (AP) — Tree movers got a police escort and a big surprise when they rolled into this city with a 50-foot oak tree after a difficult, 75-mile trip from Cato, N.Y.

The police escort Tuesday was to make things easier as the huge tractor-trailer with its massive cargo moved through the crowded streets to the new War Memorial Building grounds.

The surprise?

No one at the memorial wanted the tree.

"What's this?" asked Harold S. Rand, an official of the memorial, although he could see it was a tree.

"It was ordered," replied J. D. Butts, owner of the Butts tree movers of Cato.

Yes, agreed Rand, but not for delivery until February.

Plans called for six of the trees, pin oaks, to be planted then between the memorial and the Genesee River. Rand said February is the best month for transplanting such trees.

'Tough' Man Provides Perfect Excuse for Gun

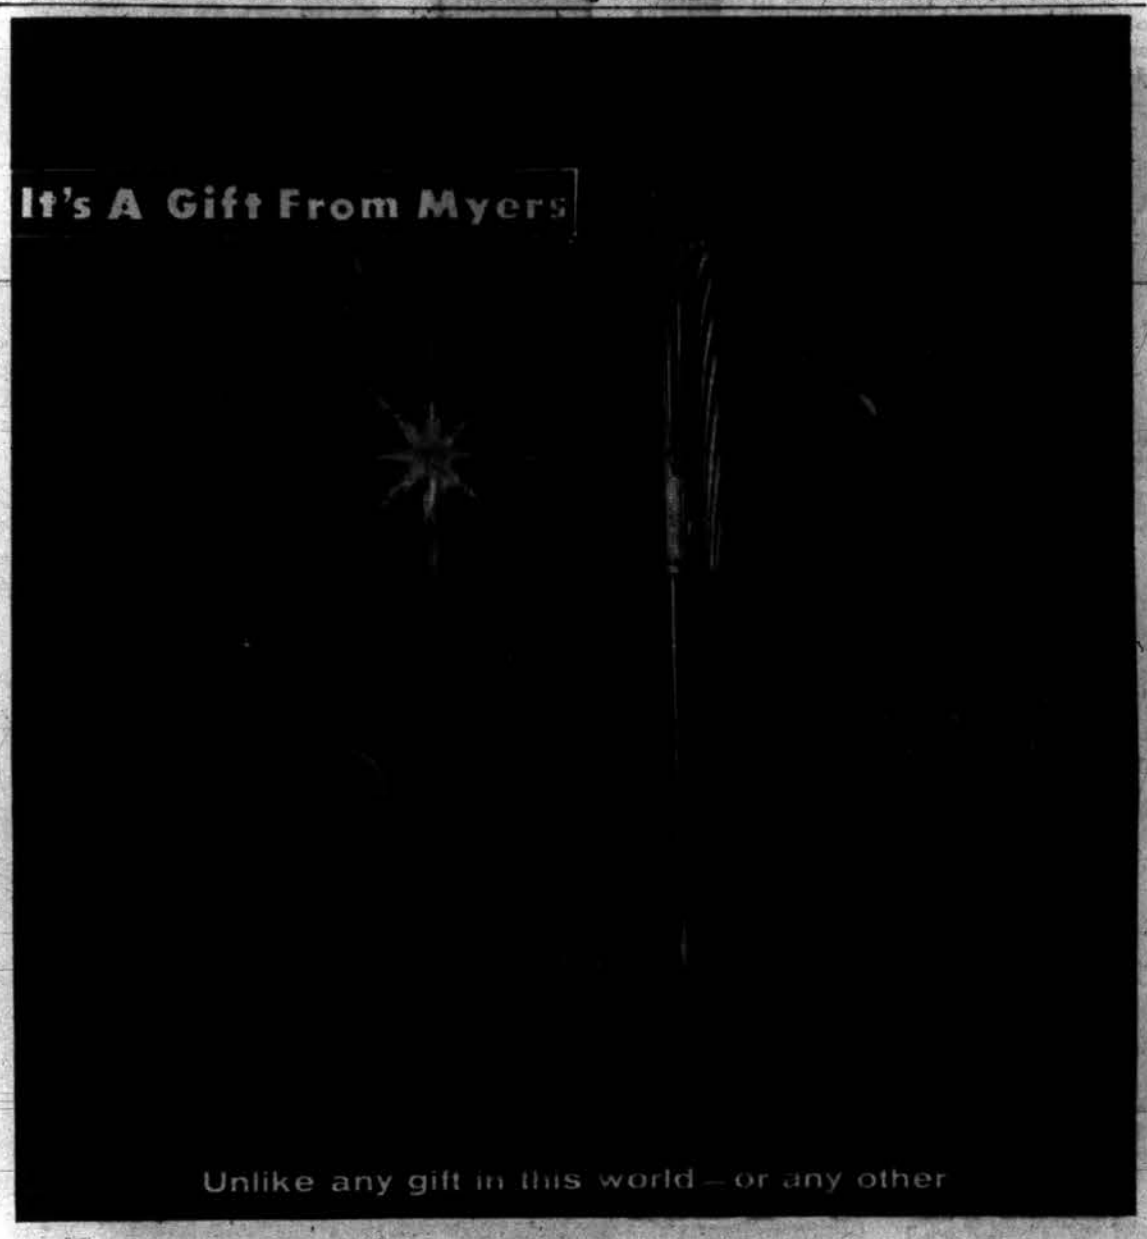
SAN FRANCISCO (AP)—A woman passenger aboard United Air Lines Flight 658 from Los Angeles Tuesday excitedly told a stewardess "that big, tough - looking man" asleep across the aisle was carrying a .45-caliber pistol in a shoulder holster.

The stewardess told the captain. The captain radioed to the San Francisco International Airport. Half a dozen policemen met the plane and asked to see the man's credentials.

They identified him as Joseph Job, U.S. marshal for New Jersey.

Utah, Colorado, New Mexico and Arizona meet at a common corner, the site of a geological museum.

It's A Gift From Myers



Unlike any gift in this world—or any other

Parker 61

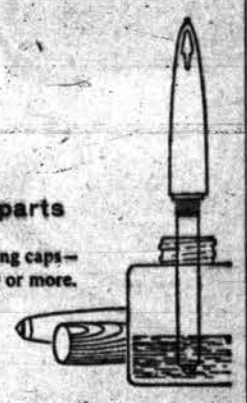
The only fountain pen that fills itself by itself—it has no moving parts

In its first Christmas Season, the Parker 61 is the distinguished gift for those friends who appreciate the new, the unusual—quite flattering to them and to you.

The Parker 61, with its frankly revolutionary capillary ink system, fills itself, writes effortlessly, dependably—even on a high-flying plane.

You have a choice of rich colors and gleaming caps—all strikingly beautiful. The Parker 61 is $20 or more.

The Parker 61, alone among fountain pens, fills itself by itself. It fills itself cleanly—through the end opposite the point. It's done by capillary action in just 10 seconds—the shining point need never be dipped in ink.



Other wonderful Parker gifts from $2.95

Parker "51" Coronet Set, the world renowned Parker "51" men's fountain pen with matching pencil, packaged in a handsome gift box $18.50

"MICHIGAN'S LARGEST JEWELERS"

OPEN EVERY NIGHT 'til 9 P.M.

24 N. SAGINAW ST.

The Franklin Village Players are all set for the first production of "The Night of January 16" at the Franklin Community Hall tonight. In the cast are (left to right) Mrs. Raymond Adams, Mrs. Philp Van Dyke, Philp Van Dyke, Kenneth B. Nichols and Mrs. Nichols. Curtain time for the three performances tonight, Friday and Saturday is 8:30.

Musicale Will Mark Yule

Members of Pontiac Tuesday Musicale will meet with their guests at Grace Lutheran Church for their annual Christmas program Tuesday at 2 o'clock.

The chorus, under the direction of Mrs. George Putnam, will present the program. The Rev. Richard Stuckmeyer will give the Christmas message.

Members of the chorus are Mrs. Russell Austin, Mrs. Fred Bohlman, Mrs. J. C. Clarke, Mrs. LaVerne Cox, Mrs. J. B. Forman, Mrs. W. A. Gordon, Mrs. E. A. Grodenberg, Mrs. Paul Hart, Mrs. C. W. Houghton, Mrs. B. B. Kimball and Mrs. J. R. Ladd.

Others are Mrs. Clyde Marshbanks, Mrs. J. O. Radenbaugh, Mrs. Collis Scott, Mrs. Geraldine Snapp, Mrs. Fred Stimpert, Mrs. E. J. Sweazey, Mrs. E. L. Windeler and Mrs. Robert Greenhalgh.

* * *

Accompanying the group will be Mrs. Martin Wager.

Mrs. Putnam was graduated from Mansfield State Teachers College, receiving a B.S. degree in music education. She received her master's degree in music education from Teacher's College, Columbia University, majoring in voice.

Before coming to Pontiac, she taught public school music in Pennsylvania. Since January 1946 she has directed the First Methodist Choir for two seasons and the Tuesday Musicale Workshop Ensemble.

* * *

Included in the list of songs she will direct are:

Chorus

The committee in charge of the Christmas miniatures includes Mrs. Jack Strait, Mrs. James Forman and Mrs. Charles W. Buck.

Society Lists Nominating Committee

A nominating committee was selected at the Tuesday evening meeting of the Altar Society of St. Michael Church. On the committee are Mrs. Roy Tatham, Mrs. John S. Keesling and Mrs. Lewis Swartz.

The Tuesday meeting, presided over by Mrs. Gayle Coulson was the last meeting of the fiscal season for the group.

Reports were heard from chairmen of standing committees and the chairman of the cancer committee announced that over 3,000 items had been made and given to the American Cancer Society by the group.

Mrs. Vincent Vaverek, NCCW chairman, reported the next meeting will be held at St. Dennis Hall in Royal Oak, Dec. 13 at 1 p.m. She also told of the need for donations to the Catholic Family Blood Bank.

Mrs. William Linseman told of plans to entertain patients at the Oakland County Convalescent Hospital with a Christmas party.

Future plans of the Altar Society include a Christmas party, Dec. 11 at 6:30 p.m. in the church hall when gifts will be exchanged. Plans are also being discussed for a pre-lenten card party and a money-making project.

ROSE MARIE BREWER

The engagement of their daughter Rose Marie, Brewer, to Pvt. Richard W. Schmiel is announced by Mr. and Mrs. Russell Boushell of Lancaster road. He is the son of Mr. and Mrs. William Schmiel of Marlborough drive.

Job Ends Loneliness Permanently

By ANNE HEYWOOD

The holidays can be a difficult time for the girl who is not popular—who has no beau, no dates, no party invitations.

If, on top of that, she has a job in a city far from home, it can be perfectly miserable because there isn't even the family to keep her company.

Moreover, this kind of girl, whose trouble in the first place usually stems from shyness, hasn't what it takes to go to church meetings or any strange group.

Girls like this usually just stay in their rooms weeping, or take long, wistful walks, watching the happy ones shopping, or even peer into cheerful windows where happy, lucky people live.

But once in a while, I meet a girl who handles it differently and much better, too. Betty was like that.

SHE HAD COURAGE

Betty was one of those shy girls who are much more attractive, really, than they think they are. But when you don't feel attractive, you aren't.

Betty, however, did not have the look of self-pity about her. Instead, she had courage and determination.

"I'm a secretary," she told me. "I don't know a soul in this city and I can't get home for the holidays. So I've decided to get some kind of part-time job for evenings, and maybe even Christmas Day, to keep my mind off my troubles. I want your help."

We dismissed the idea of getting something secretarial, because that wouldn't be any change at all.

Betty said she adored children. "But," she added sadly, "I'll probably never have any of my own."

So we decided on babysitting jobs, which are plentiful at Christmastime and which pay well. She could work Christmas Eve, Christmas Day, every evening that week, New Year's Eve and New Year's Day.

We put an ad in the paper and she got plenty of takers. Most of them were young couples with children, who wanted to be free to go to an occasional party.

Betty was soon "booked up" for every free minute, with a wide variety of people.

Frankly, all I expected was that poor kid would keep her mind off her troubles and pick up some extra money, but I forgot that God helps those who help themselves.

On New Year's Eve, Betty was babysitting when the doorbell rang. In came the brother of the children's mother, back unexpectedly on Army leave.

They liked each other a lot and saw the New Year in. And now Betty is married—and has a baby of her own!

(Copyright 1956)

Personal News of Interest

Mr. and Mrs. H. E. McCulloch of Silverhill road have as their houseguests, Mr. McCulloch's sisters, Minnie McCulloch of Grand Forks, N. D. and Mrs. J. C. Sanders of Exeter, Ont.

* * *

Rosemary Bentham, daughter of Mr. and Mrs. Arnold Bentham of Nelson street and Nancy Phillips, daughter of Mr. and Mrs. John Phillips of Argyle avenue will appear in the Nazareth Christmas cantata to be presented on campus Sunday.

Rosemary will portray St. Joseph and Nancy will play the part of a Magi. Miss Bentham is a senior and Miss Phillips a sophomore at the college.

* * *

Warren Hagyard, son of Mr. and Mrs. Charles Hagyard of North Hospital road received a degree in mechanical engineering at graduation exercises held in the college auditorium at Michigan State University Tuesday evening.

Attending graduation ceremonies along with the Charles Hagyards were Mr. and Mrs. Glenn Hagyard, Peggy Eagle, and Mr. and Mrs. Carl Schultz.

* * *

Glenn Brancheau, son of Mr. and Mrs. D. V. Brancheau of Lilac street was graduated from Michigan State University Tuesday evening with a degree in mechanical engineering.

* * *

Mr. and Mrs. Duane Fisher (nee Madelon Cough) of Walled Lake announce the birth of a daughter, Barbara Lynn, Dec. 2 at St. Joseph Mercy Hospital.

Grandparents of the infant are Mr. and Mrs. D. D. Fisher of South Marshall street and Mr. and Mrs. C. L. Clough of Glenwood boulevard.

Talk Given on Future of Pontiac

John Hirlinger, manager of the Pontiac Chamber of Commerce, was the speaker at the Wednesday evening dinner meeting of Tipacon Chapter of the American Business Women's Association held at Devon Gables.

Speaking of the "Future of Pontiac," Mr. Hirlinger said, "It is easy to find things wrong with a city as none of them is perfect. Only as we realize our needs can we progress."

He spoke of the need of a civic auditorium and told of the progress being made to make this possible in Pontiac.

Mrs. Clare Franklin, Mrs. Edward Wynne and Marjorie Bartles were appointed to serve on the nominating committee for the election of officers at the January meeting.

USO Schedules Military Dance on December 12

The Greater Pontiac USO met at the YWCA Monday.

Mrs. Theodore Dovre, entertainment chairman, reported on the Christmas Military Ball that will be held at Westacres Country Club Dec. 12.

Mrs. Clarke Kimball, refreshment chairman, is arranging a buffet to be served at the dance.

Announcement of a supper party to be held on Sunday at 5 o'clock for USO volunteer hostesses was made by Mrs. Reba Netzler. Service pins will be awarded at this time.

U. of M. Sorority May Be Banned

ANN ARBOR (AP)—Sigma Kappa sorority may be barred from the University of Michigan because its national organization recently suspended chapters at other colleges which pledged Negro girls.

The U-M Student Council will meet tonight to decide whether Sigma Kappa can remain on the campus.

A 1949 ruling by the student group forbids the establishment or reactivation of any group on the campus "which prohibits membership in the organization because of race, religion or color."

The Sigma Kappa chapter at the University was allowed to reactivate in 1955.

Chapters of the sorority at Cornell and Tufts were suspended after members there pledged Negro girls last spring.

Gloria Tennant, a Detroit senior who withdrew from the sorority this fall, said the University of Michigan chapter was advised by a national officer in 1955 that it could not pledge a Chinese girl.

Hospital Guild Appoints Heads of Committees

Pontiac Osteopathic Hospital Guild met at the hospital recently, with Mrs. L. E. Bilodeau of Rochester and Mrs. W. E. Crommett of Drayton Plains serving as hostesses for the evening.

Mrs. Crommett was appointed treasurer and Mrs. I. B. Posner was appointed chairman of the ways and means committee.

Several fund raising projects were discussed and at the close of the business meeting members made favors to be placed on the patients' trays at Christmastime.

Harry Whitlow, administrator of the hospital, announced that the Red Cross would be at the hospital Feb. 11 to accept blood, and asked that Guild members secure donors.

The next meeting of the Guild will be held at the hospital on Jan. 15. Mrs. D. G. Strauss and Mrs. B. F. Bragg will be the hostesses.

Metropolitan Club Auxiliary Elects Officers

Officers were elected at the Tuesday evening meeting of the Ladies Auxiliary to the Metropolitan Club Spirit Six held in the American Legion Home.

Mrs. Merrell Petrie will serve as president. Others serving with her are Mrs. John DePauw, vice president; Mrs. Victor Bodamer, secretary; Mrs. Park Nique, financial secretary, and Mrs. John F. Schroeder, treasurer.

Mrs. Ralph Dean will serve as parliamentarian; Mrs. W. A. Green trustee and Mrs. Harold Wright, sergeant-at-arms.

League of Blind Names Officers

Ray Wadley was elected president of the Pontiac League of the Blind when the group met Wednesday evening at the headquarters of Oakland County Society for Crippled Children on West Lawrence street.

Serving with Mr. Wadley are Walter Sugg, vice president; Ray MacDonald, secretary; Janet Archer, treasurer, and James McClain, executive board member.

The next meeting of the organization will be held on Jan. 24.

Bride-to-Be Is Honored at Shower

Mary Ellen Wyngarden, bride-elect of Neil Wasserberger, was entertained at a kitchen shower Wednesday evening.

Hostess for the affair was Mrs. William G. Wright at her home on Chippewa road.

Mary Ellen is the daughter of Dr. and Mrs. H. J. Wyngarden of East Lansing, and Neil's parents are Mr. and Mrs. George Wasserberger of Illinois avenue. They will speak their vows Dec. 28 in East Lansing.

Attending the shower were Mrs. Wasserberger, Mrs. William Graves, Mrs. Guy Vosburg, Mrs. George Wyman, Mrs. Leland Clemence and Mrs. George Carpenter.

Women of Moose Chapter Holds Initiation Night

Mrs. Harold Finn was chairman of the social service chapter night initiation of the Women of the Moose, Chapter 360, held Monday evening at Moose Hall.

Initiated into the defending circle were Mrs. Robert Moore, Mrs. Ward Roberts, Mrs. Charles Sharp, Mrs. Betty Miller and Mrs. Jeanne Thor. This class was initiated in honor of Nioma Lynch, junior regent.

Mrs. Henry Pressnell gave a reading, "Social Service to Humanity and Hope to Christmas."

Mrs. Finn is serving as general chairman of a Christmas dance to be held Dec. 14. Members and their guests are welcome to attend the semi-formal affair. Tickets may be purchased from committee members.

BARBARA JEAN WENDT

Mr. and Mrs. Howard Wendt of Highland road announce the engagement of their daughter, Barbara Jean, to William White, son of Mr. and Mrs. John White of Lehigh avenue. No date has been set for the wedding.

Committees Are Named by Auxiliary

Committee members of the Junior Auxiliary were announced at the luncheon meeting of the Birmingham Village Woman's Club Wednesday at Oakland Hills Country Club.

* * *

The first auxiliary meeting was held recently at the home of Phoebe Otter, with Mrs. Robert H. Taylor, senior adviser to the auxiliary presiding.

* * *

New members elected include Mrs. Walter H. Teninga, Miss Otter, Mrs. William F. Gray, Mrs. Thomas R. Bramson, Mrs. Gordon Getsinger, Mrs. Harry A. McDonald Jr. and Mrs. Loren C. Spademan Jr.

Sisters Observe Founding

The Provincial House for the Religious Sisters of Mercy of Michigan, Indiana and Iowa, located on the Mercy College campus, Detroit, will observe the 125th anniversity of the order's founding Dec. 12 with a solemn High Mass in McAuley Auditorium.

In this country over 12,000 Sisters of Mercy operate institutions in thirty-nine of the forty-eight states. Approximately 6000 have amalgamated and are known as the Sisters of Mercy of the Union in the United States of America. The Detroit Province is one of the nine divisions of this Union.

On the world scene, the Sisters of Mercy have convents in Ireland, England, Scotland, Newfoundland, Central America, West Indies, South America, Australia, New Zealand and South Africa.

The Mass at the Provincial House in Detroit, honoring Mother Mary Catherine McAuley, the educator, will be offered by the Reverend Thomas Bresnahan, Mercy College chaplain. His Eminence Edward Cardinal Mooney will be present.

Representatives from all schools taught by the Sisters of Mercy in the Archdiocese of Detroit will attend the Mass. They are: Mercy College; Our Lady of Mercy High School; Mercy School of Nursing; McAuley School of Practical Nurses, Pontiac; Immaculate Heart of Mary School; St. Monica School; Our Lady of LaSalette School, Berkley; St. Mary Magdalene School, Hazel Park; and St. Anselm School, Dearborn.

Small furs for northern or southern holidays include a waist-length jacket of luxurious Emba Azurine pale gray mink. It has a sweeping collar and a smooth dropped shoulder line that focuses on the significant full-blown sleeves.

Plump Women Lose Out on Jobs

By JOSEPHINE LOWMAN

I would like to quote from a letter which is before me. This reader says, "In one of your articles a month or so ago you told older women who were job hunting that they should reduce any excess weight before they began their search for employment. I have been in personnel work for 10 years. You were not rough enough on them!

* * *

"Because we are all more likely to be ill as we grow older, under the very best circumstances, the employer is taking a chance on the older applicant. If she is overweight, we positively will not hire her.

"I have turned down dozens of fat women, although we have some heavy women in our organization. These had already proved themselves before they became overweight.

"There are other reasons. Pensions and life insurance rates increase tremendously as we grow older. A heavy woman might even be ineligible. The heavy person is inclined to be slow, to tire out more quickly, to be more accident-prone.

* * *

"Of course there are exceptions to these points but the employer dare not take a chance on a heavy person in addition to the normal hazards of employing an older woman."

There you are! You have it right from one "in the know." You see, there are reasons for my suggestions about losing that weight before going job hunting, reasons other than an attractive appearance.

* * *

Here is some more help which comes from employers and personnel workers: Tell the truth about your age. Do not be apologetic about it. Do not think of it yourself as a handicap.

Of course good grooming and appropriate dress are essential. You do not have to look like a work horse, with nary a feminine touch, but simple or tailored clothes are best.

Do not talk about your personal problems.

Do not overstay your time.

* * *

Outline your qualifications, why you feel you could do the job well. Be sincere and show your interest if it does intrigue you, but do not act frantic in your wish to land the position.

REFRESHER COURSE

If you have been out of the business world for many years, take a refresher course before you look for a job. This makes a big difference.

* * *

If you would like my General Reducing Routine, send a stamped, self-addressed envelope with your request for leaflet No. 1 to Josephine Lowman in care of The Pontiac Press.

Tomorrow: Attractive Girl Must Be Attentive to Girls, too.

Employers are reluctant to hire overweight women —so shed those extra pounds before you begin looking for a job.

Yule Gift Suggestion

Chic Leather Handbags High in Style

There is an old superstition that says if you give your wife or girl friend a new handbag for Christmas and eat black-eyed peas on New Year's Day you'll grow rich during the year that follows.

Be that as it may, any woman will be delighted to find a new leather handbag with her name on the gift tag.

* * *

For late-day occasions there are sleek black suede leather bags with frames of gold or silver filigree, or self-covered frames with jeweled clips. For the resort-bound, there are extra-soft, extra-supple bags in glove or kid leather in light, muted tones such as amethyst, wisteria or mauve pink.

Daytime styles are just as elegant and offer an even wider choice. Among the rich leather textures available are broadtail kid—especially new in the blond and grey tones—a soft grainy calf, a fine-fibered, petal-smooth calf with a high sheen and, for casual wear, a plushy reverse calf.

Ostrich and the new soft alligator in natural and beige tones will provide a luxury no woman will forget. The beloved black suede leather bag looks brand new this year combined with textured leathers.

The new off-beat colors such as curry, saffron, mustard or ocher are more fashionable than the vivid hues and go with more costumes. If you want to give her a bag for the next season, grey will be a leading accessory color this spring and is particularly lovely with silver trim. The beiges will also be popular.

Whatever bag size or shape you choose, make it simple, slim and geometric. Fancy curlicues, and trim that detracts from the bag itself are out. A plain square or rectangle of rich-looking leather with an accent of gold or contrasting leather will confirm her opinion of your good taste.

No matter how flat a woman's budget after the big Christmas splurge, the elegance of a new leather bag will make her feel rich . . . and perhaps that's the source of the superstition.

Housewife! Wash Hints Are Valuable

NEW YORK (INS) — If you're a housewife who does the laundry at home, chances are you make five big mistakes that make you a very poor laundress.

Washing machine expert Margery Link says no washing machine will perform miracles.

"You've got to cooperate with your washer to pull the miracle off," she declared.

"The gentlest of women," Miss Link said, "have been caught beating their clothes to shreds. Know the right washing time for the various categories of clothes—10 minutes for heavy duty clothes and 3 to 5 minutes for fine fabrics."

The expert advises sorting clothes according to color fastness.

"Many women," she added, "are inclined to overload a machine. But this only results in a poor wash job and excessive wear on the clothes.

"Then there's the question of too little cleaning powder. Some women add powder in pinches as though it were salt.

"Water temperature too, is very important," she continued. "Some clothes take it hot and some take it cold. In general, water temperature should be 140-degrees and hotter for white and fast colored clothes."

Toronto Elects First Woman

TORONTO (INS) — Texas-born Mrs. Jean Newman, a grandmother although she doesn't look it, today became the first woman ever elected to Toronto's Board of Control.

She headed a field of seven candidates and is likely to be named President of the 1957 Toronto City Council. She will sit in for Mayor Nathan Phillips if he is absent from the city and might be in line to succeed him in the event of his retirement or death during his two-year term.

Born near Houston, Mrs. Newman moved to Canada with her parents in her childhood. She was graduated from the University of Toronto, became a talented artist in oils, and married Toronto lawyer T. Campbell Newman. She keeps her age secret, but has a son 23.

Mrs. Newman served four years on the Toronto Board of Education, two years as an alderwoman, and this year ran for the first time for Board of Control, the executive committee of city council. She now is entitled to a $9,000 annual sal-

Department Store Provides Pushcarts

SAN FRANCISCO (INS)—Shopping carts have made a big jump in San Francisco from supermarkets to substitutes for Santa's sled.

One department store has provided pushcarts gaily beribboned and belled which shoppers can use to wheel through the aisles. Christmas packages remain uncrushed and the shopper no longer has to balance a bunch of unwieldy parcels.

When shopping is completed, clerks package the gifts in an oversized heavy duty red shopping bag at no extra charge.

Delmonico duo, combining silken elegance with practicality, insures a happy Yuletide for the discerning male on every Christmas list. Each handsome silk-and-cotton shirt is paired with a color-coordinated sweater in soft and durable orlon.

Takes Courage to Wear Some of Them

Paris Creates Eccentric Fur Pieces

PARIS (INS) — Paris fashion designers have dreamed up something new in the way of eccentric fur pieces for the winter season that will delight women everywhere.

For instance, there's a short coat in beige Brazilian otter that makes a wonderful sports costume when worn with matching fur skirt with two large patch pockets.

An there's a 10-gallon fur hat that finishes off the outfit — if you've nerve enough to wear it!

* * *

Another special looking daytime fur costume is made of marine-blue broadtail. The news in this outfit it its workmanship and "luxuriously casual" look. Treated exactly like fabric, the broadtail pelts are made into a short, tailored suit jacket and a fully pleated skirt.

For a woman with the looks of Marlene Dietrich, Revillon has a special offer. It's a coat of black monkey fur, eccentric, luscious and vampy looking as all get out.

"Two-in-one" fur coats are also popular. One Paris creation, for example, combines the elegance of black with the splendor of white pelts. It is a black Alaska otter coat entirely lined with white fox fur.

Another Parisian double garment comes in the latest cape styles. It is a slim-styled fur cape of beige broadtail on the outside and beige dyed ermine inside. It is pencil slim and clutch-style so you need a valet to carry your purse and parcels.

ELEGANCE

The most stylish cape is a really Parisian and dressy affair. Combining a sleek black broadtail cape with a costly luxurious chinchilla collar it might be called a style of understanding elegance.

Among the numerous fur capes there is even a "Mephisto cape" for the day you want to be your most dramatic looking. Designed by Fath it is a full, theatrical cape of black Persian lamb lined in scarlet red satin.

* * *

And since South-West African astrakhan pelts now come in extraordinary fur shades as burgundy red, bottle green or royal blue you can match your fur coat to your car or your mood.

For substantial elegance there is a Paris styled fur coat with real oomph. It is wild Labrador mink as soft to the touch as it is to the eye. Its 1957 look is due to an attached hood which can be turned down to become a large, draped collar.

Jewels adorn this rounded toque of beige velvet. An intricate pattern is traced on its sides with beige silk and tiny bronze beads. Greet the winter season with a jeweled hat!

'Fair Lady' Roses Invite Romance

NEW YORK — Wear roses and you court romance!

The rose motif, symbol of the "Fair Lady" look, will predominate in winter fashions this year, reports the December issue of a national magazine, which features a collection of date and dance dresses appliqued, printed and decked with roses.

Femininity is further emphasized by lustrous fabrics, gentled silhouettes, and heightened waistlines.

Cane supplies about two-thirds of the world's sugar.

Gold Star Plans Christmas Party

American Gold Star Mothers Chapter Nine met Tuesday evening at the American Legion Home on Auburn avenue and completed plans for the Christmas party to be held at the home on Dec. 12 at 6:30 p.m. Gifts will be exchanged during the evening.

Mrs. Edna Olmsted, president, announced that a group will attend a department board meeting in Lansing today.

Members are preparing gifts for hospitalized veterans and will also provide a basket for a needy family at Christmastime.

Mrs. Fred Jackson of Rochester showed pictures of members taken at a recent social gathering held in her home.

Food served to children should be colorful with lots of eye appeal.

A real "charmer" is this young Empire bonnet of blue beaver felt, from the John Frederics line.

Maling Shoes

You'd like to be extravagant . . .

But . . .

even if you can't (and who, after all, can?) you can make it look like you were! Just give her a lovely, luxurious Maling handbag. They look like dozens of dollars —but cost only $2.99!

Keep Dresser Clean

A perfect dressing table needs good light, a good mirror and a washable top. Choose a washable surface of plastic, mirror, or glass so that drifted powder, lipstick streaks, and other cosmetic smudges will disappear like magic with hot soap or detergent suds. It's a good idea to whisk that sudsy cloth over the mirror at the same time.

Mend Ripped Girdle

You just can't be self-contained in a girdle that is snagged or ripped. Even the smallest break in such stretchables used to signal the death of the garment. But now you can buy strong pink or white elastic patches, "engineered" to maintain stretchability through repeated machine washings in soap or detergent suds.

Right Off the Riviera
. . . the Mellow Mediterranean
Charm of

SIROCCO

by Drexel®

Let us deliver this lovely dining suite to your home. The perfect gift for her.

Stop In Today and Look Over Our Open Stock of Fine Furnishings

You'll treasure the proud distinction of this cosmopolitan collection! Designed by Henry Warren, Sirocco lends your home—modern or traditional—such sophistication. Elegance and perfect taste glow from every line . . . in mellow, sun-kissed walnut as warm as Mediterranean breezes, with leathers and fabrics color-keyed to a Neapolitan landscape. Louvered doors subtly disguise so much built-in storage space! Silvery highlights shimmer on brushed copper drawer-pulls! But the proudest difference in Sirocco is its trademark, "by Drexel". This is your assurance of careful construction, honest value, character through and through. Come in today to see for yourself how Sirocco by Drexel makes the difference!

CHARLENE POBE

The engagement of Charlene Pobe and Leonard Lada is announced by her parents, Mr. and Mrs. Felix Pobe of Ferndale. He is the son of Mr. and Mrs. Frank Lada of Montana avenue. A fall wedding is planned.

WCTU Members Hold Annual Dinner

Mary Morton Chapter of WCTU held its forth annual dinner at Trinity Baptist Church recently. Mrs. Anna Thompson served as program chairman for the day.

A solo, "Bless This House," was sung by Mrs. Edna Horace. Mrs. Hazel Green, president of the 18th district of the WCTU told how the organization had influenced her life, and Mrs. Frank Deaver explained what WCTU stood for.

Guests attending were the Rev. Richard Dixon, Elder M. J. Watkins and members of Emor L. Caulkins, Anna Gordon and the Royal Oak Chapters of WCTU.

Full Skirt, High Sweater Cause Men to Respond

Job of Hollywood Expert Is to Give More Sex Appeal to Lovely Actresses

PARIS (INS) — "Men respond to high turtle-necked sweaters, small waistlines and full skirts that swish around the legs."

This is the authoritative opinion of a top Hollywood fashion expert.

She is Edith Head of Paramount, whose job is to make the loveliest movie stars look even more sex-appealing.

For a quarter of a century petite, brunette Miss Head has been designing the modern, the period and the character costumes worn in films by such personalities as Grace Kelly, Elizabeth Taylor, Audrey Hepburn, Bette Davis, Marlene Dietrich and many others.

Excepting the doctor, nobody else sees them like I do, off guard and as they really are," the designer said. "And they are all difficult to dress," she added.

Edith confessed she prefers by far to work with men, since she also designs the costumes—including suits of armor and velvet tights—for male stars.

NICE TO WORK WITH

"Men," she stressed, "are so much nicer to work with. And it is easily explained and natural. No woman actually trusts another woman. Women have a spirit of contradiction and their ideas are often preconceived.

"Men are stubborn, they accept suggestions and advice. And they are more trusting," she explained, speaking of her experiences with Danny Kaye, Cary Grant, Bing Crosby, Bob Hope and other male stars.

Miss Head, who was in Europe on a vacation, finds Paris most inspiring and gives much importance to the illustrious French fashion creators.

FRENCH INFLUENCE

"French styles," she noted, "have the greatest influence in the world on fashions and anybody who doesn't admit it, plays ostrich.

"Our American styles are not as provocative as the French," she continued. "And to glamorize the figure for films we start out by 'constructing the chassis' underneath."

Miss Head is opposed to the common ambition of girls to copy the styles and looks of their screen idols.

* * *

"It is an escapism for girls who haven't yet found themselves," she said. "Particularly when we do the so-called 'glamor pictures' the results on girls copying those startling styles can be grotesque and embarrassing.

"You want to know what styles the average male responds to?" Miss Head asked. "Well, the very smart 'no-hips look' doesn't appeal to the average man. Neither do the so-called 'smart colors.'

"Men hate the chic 'dirty' shades—elephant grey or mud-brown, for instance. And contrary to popular belief, men are not bulls who go for red. They also revolt against the 'boyish look.'" she insisted.

* * *

"For the movies we design two kinds of dresses. One type we call the 'whistle dresses'—we try them out on the studio crew—and the others are the 'nice' dresses, admired by women."

In her experience men whistle as much at a provocative looking turtle-necked sweater as they do to a low decollette. And they turn more frequently to look at a girl with a slim waist wearing a full swishing skirt than a straight tube dress.

* * *

"One thing I want to know," she asked. "Who started the fashion for 'toreador pants'? Gals are not built like Spanish bullfighters, you know.

"I wish women would listen more to fashion experts," Miss Head concluded. "If they want to bake a cake they take a cookbook. For their health they see a doctor. But for their looks they try to make it all up themselves."

Highlight of This Year's Christmas Wrappings

Gift Ribbons Become Countless Bows

KANSAS CITY, Mo. (INS) — Gift papers are brightly colored as kaleidoscope chips and matching ribbons that can be turned into countless bows are the stars of this year's Christmas gift wrappings.

Because of the public's dedication to the creation of handsome gift packages, designers have taken special interests and personality of the recipient into consideration to a greater extent than in the past, according to Kaye King, a gift wrapping stylist.

New this season are a series of gift papers with religious motifs, Miss King said. These include a panoramic view of the Three Wise Men bearing the original gifts, a stained glass pattern and a design in which angels are portrayed in striking array.

In addition to the numerous gift wraps suitable for anyone's present, many papers have been created with special recipients in mind.

The ladies on your Christmas list will be delighted with a design of modernistic ornaments in delicate shades of pink and blue, or a wrap that features silver and gold pine cones against a black background.

For the men, designs of antique trains and automobiles—one is whimsically entitled, "Granddad's Hot Rod"—will be favorites. The handyman will enjoy a gift wrap that features the tools and implements of his hobby. Other gift papers have hunting, fishing and similar masculine themes.

Santa Claus runs rampant on children's gift wraps this year. He is shown distributing gifts to sleeper-clad youngsters; loading his sleigh for the Christmas Eve trek and emblazoning "Merry Christmas" on a billboard.

New this season, too, is a "two-tone" gift paper, Miss King reported. Half is a solid color, half in harmonizing hues.

Trimming a Yuletide gift package will be no task with an entirely new ribbon that is available in many colors and widths, Miss King said. The ribbon's unique feature is that it sticks to itself—making possible the tying of numerous bows with greater ease.

For an added touch, adorn your Christmas package with a gift trim—a three-dimensional decoration that can be assembled and attached in a matter of moments. Many Christmas symbols — ornaments, Santa, candles, snowflakes and the like—are available as gift trims.

Apply Mascara With Finger

Some women swear by their little fingers when it comes to applying or smoothing lipstick. The finger technique can also be used, quite effectively, in applying mascara.

Use the cream mascara; smooth it on with a finger and blink the eyelid so the lashes sweep over it. The result is inclined to be lighter and more natural than that of brush application.

This is especially useful for blondes who want lashes which are emphasized but not heavy or overdark for their coloring.

First efforts to censor motion picture films were started in 1909.

Guild Holds Yule Party

Clarabelle Amidon was hostess to members of Guild Seven of All Saints Episcopal Church in her home on Sanderson avenue Tuesday evening. Thirty-one members and guests enjoyed the buffet dinner and Christmas party.

Guests attending were Mrs. E. A. Amidon, Cora Burke and Mrs. Amy Harper. Devotions were given by Mrs. Bert F. A. Ede.

* * *

During the business meeting, conducted by club president Miss Amidon, officers for the coming year were elected.

Mrs. Harold Steinbaugh will serve as president. Others serving with her are Mrs. Kenneth Long, vice president; Mrs. Astolf Levine, secretary; and Mrs. William Wolfram of Birmingham, treasurer.

Members of Guild Seven were awarded a Volunteer Service Award at the recent tea at Pontiac State Hospital honoring volunteer workers.

* * *

Concluding the evening meeting, Santa Claus presented gifts during the Christmas gift exchange.

Drama for Evening

NEW YORK — Wear black and white for after-dark dramma!

Billowing white skirts and their little black tops will stage an evening debut this winter, according to the December issue of a national magazine.

When you shop, plan to wear a coat three seasons and a dress two, if you want the most from your fashion money. Some things in your wardrobe you will wear far longer, of course.

Mr. and Mrs. Clyde C. Johnson of West Ypsilanti street announce the engagement of their daughter, Sharon Jeanette, to Richard E. Nichols. He is the son of the late Mr. and Mrs. Harley C. Nichols of Pontiac. A June wedding is planned.

SHARON JEANETTE JOHNSON

British monarchs have the power of absolute veto of legislation but none has exercised that right since 1708.

Happiness Depends on Early Life

Childhood Affects Marital Chances

(This is the fourth of seven articles presenting case histories of "Marriage on the Rocks"—from the files of the Family Service Association of America—together with advice and opinion of experts on what can be done to prevent a marriage from breaking up. All names used in these real case histories are fictitious.)

By EDWIN DIAMOND
INS Science Writer

Long-range preparation for a happy marriage begins very early—we learn our first lessons about married life, husband-and-wife relationships and living in harmony with others when we are children.

These conclusions were indicated in an extremely important research project directed by Dr. Ernest W. Burgess, one of America's foremost authorities on marriage and divorce.

Burgess and his associates at the University of Chicago have been studying some 1,000 couples for the last 20 years. These couples have been traced through courtship, engagement and marriage in an effort to learn what factors make for marital success and happiness.

Burgess reports the degree of happiness achieved in marriage appears to be directly related to each partner's recollection of his or her own family life—the happier the marriage of their parents, the greater the chance for their own happiness.

BEGINS IN CHILDHOOD

This means preparation for happy marriage actually begins when we are very young children. Take the folder on Mrs. Frank Brown from the case worker's file cabinet and read how these general observations are demonstrated in detail.

Mrs. Brown was a business machine operator in a large insurance office in the midwest. The personnel officer knew she had a king-sized absentee record and the office supervisor frequently spotted Mrs. Brown staring blankly into space.

The personnel officer talked to Mrs. Brown and learned she was quite anxious about her seven-year-old son, Johnny. The boy's second grade teacher had talked to the mother about his reluctance to play with other children or participate in any classroom activities.

* * *

Johnny lost interest quickly in his school lessons, the teacher had reported, and he was beginning to lag behind his classmates.

Mrs. Brown, who had high hopes for her boy, was growing equally apprehensive about her daughter Mary, five. Mary was showing similar traits in kindergarten.

FELT INFERIOR

As Mrs. Brown talked about the children, she mentioned that she herself had never felt comfortable with people because of a strong inferiority feeling.

Mrs. Brown wondered aloud if she was doing something that made the children behave as they did. She asked where she could get some professional help. The personnel officer referred her to the Family Service Association.

Here she talked about Johnny and Mary and about her hopes for them and her fears they might not measure up. Did this mean she had failed "as a mother, the way I failed as a wife," she asked.

* * *

The case worker listened sympathetically, gave assurance the children were bright, that their behavior was not too serious. They can be helped relatively easily now, Mrs. Brown was told, things will get serious only if they are allowed to go on.

Mrs. Brown then began to talk about her own childhood. Her father, she recounted, was a heavy, steady drinker. She recalled her deep shame at the childhood thought that everybody in the block "knew" about her father and looked down upon her because of him.

Then switching to her own marriage, she told the case worker she felt her machinist husband wasn't "as good" as the largely professional husbands who lived in the neighborhood.

* * *

She described arguments and said she cringed at the knowledge their neighbors had overheard the shouting.

The case worker helped Mrs. Brown probe behind the arguments to their basis in money and Mrs. Brown's desire to keep up with the Joneses through a house, car, appliances and clothes the Browns could hardly afford.

Gradually, Mrs. Brown recognized her drive for perfection, in her children, in her husband and in herself. She saw how this drive was related to her sense of inferiority. And she saw how she was trying to protect her children from other children by not letting them play outside.

* * *

Painfully, Mrs. Brown realized free play and the frequent hard knocks in the school yard are necessary if children are to learn to get along with others.

The case worker would say Mrs. Brown was "over-compensating," trying to make up for her childhood by being too perfect. As Mrs. Brown realized her actions stemmed in part from her early feeling of shame about her father, she became better able to control them.

She put less financial pressure for new possessions on her husband. He grew less tense as the debt load lightened. Mrs. Brown made plans to quit her job. The case worker's notes on the last page of the file read:

* * *

"Case nearly worked out now—John and Mary playing with other children, have better school adjustment; Mrs. B. associating freely with women in office, happier and more content with her home."

Equally important, a two generation chain of unhappy home life was broken. John and Mary have an opportunity to grow up in an atmosphere that will make their own eventual marriages happier.

Husband Objects to His Wife's Refusal to Join Party

BY EMILY POST

A wife writes: "The other evening my husband and I went to visit friends. When we arrived at the house the hostess answered the door and we could see that a party was in progress. The hostess asked us to come in but I refused and said we would come back another time.

"My husband thinks that since the hostess asked us to come in I was very rude in refusing to do so. I felt we would be intruding and that if she wanted us to be there we would have been invited in the first place. What is your opinion?"

Answer: Your not being asked did not necessarily mean that you were not welcome. One cannot invite one's entire list of friends to every party.

If there was a warm welcome in the hostess's voice and manner, it would have been proper for you and your husband to go in for a short while, but if you felt she was merely being courteous, it was much better to have gone and said that you would come some other time.

"Dear Mrs Post: Last year I received a very nice Christmas present from my employer after having been here only six months. I would like to know if it would be proper for me to give him a Christmas present in return this year, and if so, what do you suggest?"

Answer: His giving you a Christmas present is quite different from your giving him one. But if you have been working very closely together and there is some gadget for his desk that you know he would like, it would be quite proper to give it to him—but certainly not a present of importance.

"Dear Mrs. Post: When an attendant in a dressing room of a theater or restaurant has rendered no special service, is it necessary to leave something in the box which she has provided for tips?"

Answer: If the attendant has done nothing for you, it is unnecessary to leave a tip.

First Methodist Women's Units Hold Meetings

Mrs. John Beaudin of Avon road entertained members of the Anna Circle of First Methodist Church at her home recently.

* * *

Other circles which met recently include; Joanne Circle, at the Claude Johnson home on Cooley Lake road; Elizabeth Circle, at the home of Mrs. Chester Arnold of Riviera terrace, and Leah Circle, with Mrs. Albert Weber of East Iroquois road.

Mrs. F. L. Ward of West Huron street was hostess to Lois Circle. Mrs. Talmadge Shelton of Summit avenue to Mary Circle; Mrs. Perry Ruffing of Voorheis road, Rhoda Circle, and Mrs. Lewis Butler, Sarah Circle.

Many designs of Persian rugs are imitations of formal gardens in ancient Iran.

Fashion Hints for Shorter Girls

NEW YORK (NEA) — A short girl can wear very nearly any fashion IF it's proportioned for her.

* * *

It's the if that's most often the stumbling block. In order to get what she wants, the small woman often resorts to having a dress cut down in all of the wrong places: shoulders, waistline, sleeves. The result is usually awful.

What she needs are clothes designed for her, proportioned through waistline and shoulders and sleeves, yet following out the season's top fashion trends.

We show here two short waisted fashions designed for the small figure, with shorter waistline and with lines that create a flattering illusion of height and slenderness.

THE 'NEAT' LOOK

Red-and-black wool jersey (left) has slim, sleek lines, a minimum of trim and just a touch of velvet at neck and sleeves. It's the ultimate in the neat look.

* * *

Town dress in sheer wool (right) has mock bolero outlined in black braid. Slim skirt is eased by a single pleat at the back. Both are Miss Theresa designs for Nat Tuman.

Full-Time Homemakers Shouldn't Be Haphazard

But Some Copy Housekeeping Pattern Set by Their Working Mothers

By RUTH MILLETT

Are today's working mothers bringing up daughters who are poorly prepared to take on homemaking as a full-time job?

That question is prompted by a letter from a young husband who writes:

"My wife got her ideas of how a house should be run and what a wife's responsibilities are from her mother who has worked for years.

"Because she had a full-time job my wife's mother had to keep house in a somewhat haphazard fashion. Meals were cooked in a hurry. Cleaning was done at night. Her husband and the children were supposed to pitch in and help.

* * *

"It probably had to be that way in her household. But my wife doesn't work. Yet she keeps house the same way.

"Meals are hurriedly prepared from frozen foods and ready-mixes. Anything that takes over 20 minutes to prepare is too much trouble.

"The housework isn't done when I get home at night. The heavy jobs have been saved until I am at home to help. If there is an easy way to do something and a more economical way involving some effort, she always takes the easy way, which is more than a little hard on our budget.

"It seems to me that working mothers ought to explain to their daughters that there are two kinds of homemaking—the kind women get by with if they work all day and the full-time homemaker way.

"I also think they ought to tell their daughters that if the husband is earning the living for both, the wife ought to be able to run the house without much help from him."

* * *

How about it, working mothers? Does the young man have a point?

I think he does. If daughter is going to be a working wife, then her working mother's housekeeping routines may be adequate.

But if she is going to be a full-time wife, then she ought to set higher standards.

Party Petticoats Softer, Very Full

Little girls' petticoats for winter parties are softer than the crisp bouffants of yesteryear — but still use miles and miles of fabric.

They're easy on mother, though, because net, lace, and sheer nylon present no laundering problems — and no ironing, either. Even hot soap or detergent suds are safe for these fabrics — unless colors require a lower temperature.

Get Unusual Effects

Decor of Sugar Plums; a Versatile Suggestion

SAN FRANCISCO (INS) — Do visions of sugar plums still dance through your head at the thought of Christmas?

Then nothing could be simpler for your holiday enjoyment—make sugar plums an integral part of your Christmas mantel decorations.

This is the yuletide fantasy of versatile San Francisco interior decorator and designer A. Dudley Kelly, as famed for his creation of home interiors as for designing a $4,000,000 Chicago office building.

Simply because the suggestions come from a decorator does not mean they are impossible for you to achieve with ease in your home.

Kelly recommends that you take white pine garlands and cover them with white flitter (flitter is the term used for sparkling theatrical glitter) and then drape them on the mantel in Regency swags.

Each garland should end with a piece of fruit, dipped in sugar syrup to give a frosted coating, and tied to the garland with ribbons of pink and green.

Since the decoration is literally good enough to eat, it might be a good idea to keep the fire screen in front if there are small fry in the house!

Your Christmas tree also might be pure and simple fantasy. Kelly suggests using graduated sizes of white paper bells to make a simulated Yuletide Christmas tree.

Start at the top with the smallest bell and suspend the bells downward and outward on wire rings, graduating the bells with the largest sizes forming the base of the Christmas tree.

The tree can be of any height or size and may be as elaborate as the number of bells desired.

Each bell should be tied with soft pale pink ribbon and the rings rigged with twinkle lights to flash on and off.

The effect is quite unusual and beautiful since the bell-tree has the tendency to move with air currents.

Fragrance Key to Perfect Gift

Here are a few ideas on how fragrance can fill the bill for you this Christmas. For mother, wife, sweetheart, what more welcome present than perfume, for it is not only a gift, but also a compliment. Perfume tells the lovely lady that you think she is feminine . . . nice to be near.

Perhaps you would like to treat her to a luxurious bottle of one of her favorite perfumes or if she's the kind of person who likes surprises you might buy her a completely different scent than she ever has worn.

If so, the fragrance salesgirl will be happy to assist you in your selection. In addition to the "dressing-table-size," why not add a tiny purse flacon of perfume so that she will have fragrance with her always, even when away from home.

2556
TO CROCHET

Two "Cozy Caps" for the younger set that will stay put! Both are crocheted—one trimmed with fluffy pompons and the other woven through with colorful strands of soft yarn.

Pioneering Plane Trip Is Recalled

New Book Tells of Writer's Journey Back in 1927

By JANE EADS

WASHINGTON — They called me a "trail blazer" and a "Lady Lindbergh" and said I was "plucky" back in June 1927. Now — in this jet age when women piloting their own planes are setting world speed records and breaking the sound barrier—I blush to think of it.

* * *

All I did to deserve any attention was to climb into a plane, make myself comfortable and start writing about my experiences as the first passenger on the combined passenger and air mail plane flying from Chicago to San Francisco.

That, 1,950-mile flight of mine 29 years ago (it took 24 hours and 20 minutes) is briefly mentioned in "Vision," a new book on American aviation written by Harold Mansfield.

The book is concerned mostly with the imaginative and courageous men who have built warplanes, from the early crates to the latest intercontinental jet bombers.

* * *

The book reveals that scientists, engineers and aircraft designers are now thinking of building planes that will be able to penetrate thermal barriers; of air travel in outer space which will make it possible to get to any place on earth in one hour.

The flight on which I was privileged to ride as a young reporter eager to get a real scoop was far different from what we have today.

The limousine compartment in which I sat was up in front of the cockpit where the pilot sat. It was designed for two passengers, but I never was able to really stretch out and consequently arrived in San Francisco stiff in the joints.

* * *

When we started the descent for our first landing, I was scared. I thought we were about to crash!

This trip was not accomplished in the same plane.

It was made in three different planes, with three different pilots, the first of whom was Ira O. Buffie, who gave Lindbergh his first seven-hour "joy ride" in the air at Lincoln Neb. in 1922.

"Twenty-three flying hours after leaving Chicago, Jane Eads put her foot down on California soil, like an explorer who had discovered a new world, air transportation," says the book.

WHERE CHRISTMAS HINTS BECOME REALITIES

If he's young in years or young in ideas...give him

An Ivy Christmas

The man who dresses in Ivy fashion follows a strict code of correct grooming. Ordinary clothes are not for him. His world is encompassed by a straight narrow line and the things he wears reflects that way of life.

We at Osmun's are specialists in Ivy fashions. And we can supply you with everything your Ivy-League man need, wants and, most important, will wear . . . because it is correct and enduring fashion. Included in our vast stocks are authentic button-down shirts with pleated back and button at the back . . . crew neck shetland sweaters . . . regimental ties and belts to match in the approved multi-colored stripings. Sportswear with the lean look so dear to the Ivy man . . . sport jackets with unpadded shoulders and slim-line tailoring. For the flower of Ivy League fashions, see Osmun's and you won't choose wrong.

Authentic Ivy-inspired regimental stripe and tartan plaid sportshirts by McGregor. . . . A really wide selection. **5.95**

McGregor Crew Neck Sweater of lambswool and orlon that's so dear to the heart of all true Ivy-Ites. Completely washable in fabulous range of newest colors.

P.S. — Girls Wear 'em Too!

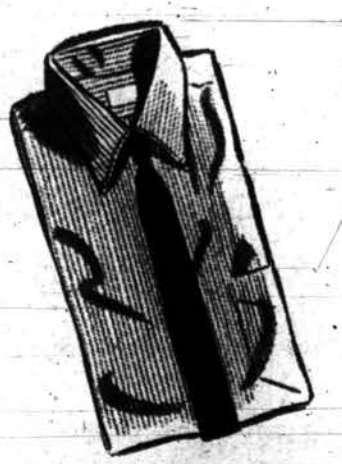
$7.95

Give Him IVY LEAGUE

. . . and you will be giving him the very gift he would choose for himself! Here are just a few sure-to-please Ivy League gift suggestions . . . but only a few, so come in see our entire selection.

Ivy League flannel slax with true slim line tailoring and adjustable back straps, choice of charcoal grey, medium grey, charcoal brown in solid or subtle stripes.

$14.95



White or colored button-down dress shirts by Arrow and Manhattan. No true Ivy-Leaguer ever has enough button-downs.

$5.00

Imported All Wool Argyle Hose that are guaranteed shrink proof. Sizes 10½ to 13 in colors designed to be worn with Ivy League clothing.

At Congregation B'Nai Israel

Chanukah Candlelighting Service Held

Rabbi Israel Goodman conducted a Chanukah candlelighting service at the Tuesday meeting of Sisterhood of Congregation B'nai Israel held at the temple. The opening prayer was given by Mrs. Israel Goodman.

Mrs. Jack Gamburd, accompanied at the piano by Mrs. Lee Goldberg, led the group in singing Chanukah songs. Several games were played by the group with prizes awarded to Mrs. Alvin Jacobson, Mrs. Daniel Foxman and Mrs. George Surowitz.

Mrs. Joseph Kornov, Mrs. Ben Smith and Mrs. Morris Bletstein won prizes in the clay modeling contest. Gifts were exchanged during the social hour.

A report on the Chanukah Brunch held Sunday was given by Mrs. Abraham Avadenka during the business meeting conducted by Mrs. David Utley. Mrs. George Surowitz reported that plans are being made for the New Year's Eve party and Mrs. Donald Levin announced that six members of the Youth Group will attend the National Conference of United Synagogue Youth to be held in Washington, D. C., Dec. 23-26.

Mrs. Avadenka, Mrs. Julius Cohen and Mrs. Maurice Schlussel served refreshments at the close of the meeting at tables decorated in the Chanukah motif. Mrs. Daniel Foxman gave the closing prayer.

This sweater enlivens Christmas gift-giving, bringing the crisp air of Scandinavian ski slopes into the American home. Designed for leisure lounging as well as active sports, the sweater has an authentic Norse snowflake motif and comes from the drawing board of Knutun of Norway. Contrasting collar is equally effective rolled up for warmth or turned down for a look of nonchalance.

Old-time telephones are coming back into their own in these modern up-to-the-minute times. Latest gimmick is to use them as wall-planters, with the bright green foliage sticking right up out of the base of the phone. The phones can also be bought complete with radio!

Wield Brush at Limp Hair

When you find your hair going limp and your nails developing ridges, there are several things you can do.

Undoubtedly, you need more milk in your diet. An adult should have two glasses a day, like it or not.

Then, start wielding the hairbrush for a total of 100 strokes a day, either morning or night. You'll find that your scalp will tingle and come alive. You may not see results the first few weeks but after some time, your hair will become glossy.

Twins to Make Debut on Dec. 21

BLOOMFIELD HILLS—Mr. and Mrs. Charles D. Pierce of Tiverton road will give a supper dance Dec. 21 at the Detroit Athletic Club to introduce their twin granddaughters, Annette and Susette Gagnier.

The girls are attending Marjorie Webster Junior College in Washington, D. C., and will not be home until Dec. 20. They are daughters of Mrs. Jane Gagnier of Detroit and Tryon, N. C.

News From Bloomfield Hills

Town Hall Speakers Visit G. O. Cutter Home

By RUTH SAUNDERS

BLOOMFITLD HILLS—Mr. and Mrs. George O. Cutter of Overhill drive have been hosts this week to Albert Dekker and Edith Atwater who are appearing at Birmingham Town Hall. Dr. and Mrs. J. Clark Moloney entertained at dinner for the stars Wednesday evening in their Arlington drive home.

Mr. Dekker and Mr. Cutter were classmates at Bowdoin College and Dr. Moloney served in the same battalion with Mr. Dekker during World War II.

The Cutters will give a cocktail party for their guests this evening.

On Wednesday Mrs. George H. Cary was hostess at luncheon in the Detroit Athletic Club for Miss Atwater, Mr. Dekker, Mrs. T. Norville Hubbard, the Rev. Harold E. Towne and Mrs. James S. Moon.

At today's luncheon following the performance of "Two's Company," Mrs. Moon, the Rev. Mr. Towne, Dr. John B. Hassberger, Mr. and Mrs. George O. Cutter and Dr. and Mrs. Moloney were at the speakers' table.

On Friday, Mr. and Mrs. William Way Merrill, Mrs. Treesa Way Merrill and Mrs. Kenneth E. Turner Jr. will be at the luncheon at Birmingham Country Club.

CHRISTMAS PARTY

The Junior League of Birmingham and Bloomfield Hills will hold its annual Christmas party for the handicapped Saturday afternoon from 2 until 4 o'clock at Cranbrook Institute of Science.

Mrs. Harry Swan is in charge of arrangements. Over 100 invitations have been sent out.

Guests will be greeted at the door by men of the YMCA and escorted to meet their hostesses. After a tour of the museum, the group will be entertained by Kirk in the Hills Children's Bell Group, which will give a program of Christmas music.

Candid pictures will be taken during the afternoon by Mrs. James Champan and Harry Swan. These will be given to the guests along with a Christmas plant for each.

Assisting Mrs. Swan will be Mrs. Peter G. Finn, Mrs. Paul McKenney, Mrs. William B. Bachman Jr., Mrs. Robert H. Taylor, Mrs. Leslie P. Durgin, Mrs. Dorr F. Lovett, Mrs. Richard Hintermeister, Mrs. William E. Douglas, Mrs. Forest Shea, Mrs. A. Joseph Mastier and Mrs. Norman Christie.

DINNER PLANNED

Mr. and Mrs. R. William Saunders will be hosts at a cocktail and dinner party Dec. 15 at the Orchard Ridge road home of Mr. Saunders' parents, Mr. and Mrs. S. Gordon Saunders.

Guests will include Mr. and Mrs. John Steele, Mr. and Mrs. Robert Green, Mr. and Mrs. Donald Martin, Mr. and Mrs. John Quirk, Mr. and Mrs. Robert Field, Mr. and Mrs. Dietrich Kohlsaat, Mr. and Mrs. Robert Golfert, Mr. and Mrs. George Ferber, Mr. and Mrs. Lawrence McIntosh, Mr. and Mrs. Guy S. Warren, Mr. and Mrs. Ronald W. Ballantyne, Mr. and Mrs. Thomas E. McDonnell, Mr. and Mrs. David Manley and Fred Wheeler.

* * *

Mrs. Carleton M. Higbie will be hostess at a supper party at Bloomfield Hills Country Club Dec. 16.

* * *

Mr. and Mrs. Theodore Yntema of Franklin road have sent out invitations for two cocktail and supper parties. The first will be Dec. 21 and the second one Dec. 29.

* * *

Mrs. Henry Patten of Brussels, Belgium, is the houseguest of her son and daughter-in-law, Mr. and Mrs. Marc T. Patten of Long Lake road. She will be here until after the holidays.

Mr. and Mrs. William J. Scripps will be host at a cocktail and supper party Saturday evening in their home on Bennington drive.

On Dec. 16 Mr. and Mrs. Scripps will entertain at a Sunday brunch.

Beta Sigma Phi Unit Plans Annual Party

Mrs. Wendell Doolin opened her home on State avenue for the Monday meeting of Zeta Lambda Chapter of Beta Sigma Phi sorority.

A report on the recent city council meetings of Beta Sigma Phi was given by Mrs. Dallas Nelson. Plans were discussed for the annual Christmas party to be held at the home of Christine Zaffina. The group also voted to donate items of food, clothing and toys to a worthy family at Christmastime.

Italian Takes Plunge

NEW YORK (INS) — In case you think plunging necklines are a thing of the past — take another look.

The most adventuresome plunge seen in a collection in many a day was that shown recently by Italian designer Carlo Gugenheim of Rome who presented a daring number called "Martine."

"Martine," a silk faille cocktail dress in flaming pink called "Roman Sunset," has a daring décollete that plunges 15½ inches from shoulder to midriff.

Gugenheim also goes in for natural curves.

"I like a woman to look like a woman," he declared, "and I feel that clothes should follow the natural lines of the body instead of going East when the woman really goes West, and vice versa."

The Gugenheim collection, which was shown for the first time in the United States, featured unique drapes, gay colors such as Titian, Geranium and Ruby Red, hand embroidery and fabulous evening coats of tulle and lace over crepe.

The entire group of creations was molded to enhance the natural beauty of the body and much emphasis is given to the curves of the bosom and hips.

A regal effect was achieved in one instance by the unique drape of a scarlet stole worn around the throat and draped to the back over an espresso brown chiffon cocktail gown.

8456 10-20

WITH THE NEW 8457 PATT-O-RAMA 3-8 yrs.

Picture - pretty, back - buttoning frocks in big and little sizes.

No. 8456 with Patt-O-Rama included is in sizes 10, 12, 14, 16, 18, 20. Size 12, 4¾ yards of 35-inch; 4 yards eyelet.

No. 8457 with Patt-O-Rama included is in sizes 3, 4, 5, 6, 7, 8 years. Size 4, 1½ yards of 35-inch; 3 yards eyelet. Two patterns.

For these patterns, send 35c for each, in coins, your name, address, sizes desired, and the pattern number to Sue Burnett, The Pontiac Press, 372 W. Quincy Street, Chicago 6, Illinois.

Send an extra 25 cents now for your copy of the Fall & Winter '56 issue of our complete pattern book, Basic Fashion—a complete sewing guide for every woman who sews for herself and her family.

Charcoal, which has been tops in popularity for men's suits for several seasons past, will drop in favor. Medium and light shades will be extremely popular. Dark shades are expected to decline in sections of the country, particularly on the West coast.

Refugees Given Training by U.N.

Vocational School Near Jerusalem Turns Out Technicians

JERUSALEM, Arab Sector (INS) —A United Nations program to make a half-million Palestinian Arab refugees self-supporting is having the surprising effect of aiding the resettlement problem.

* * *

Most of the refugees who fled to Jordan during the 1948 war have been grimly opposed to any scheme under which they would settle anywhere outside of Palestine.

But now, the U.N. Relief and Works Agency Vocational School in Kalandia, near Jerusalem, is turning out nearly 200 trained technicians each year.

Technicians are in great demand throughout the Middle East, particularly in such oil-rich spots as Bahrein and Kuwait. Many of the Arab refugees have settled in those two Persian Gulf areas.

The UNRWA School is a collection of modern, up-to-date and fully equipped workshops, dormitories, classrooms and administrative buildings where refugee boys aged 13 to 20 learn 12 different trades.

* * *

According to their aptitude and educational standards (they are given a secondary education in UNRWA schools in the refugee camps) they can learn to be builders, carpenters, radio or auto mechanics, blacksmiths, plumbers, fitters, welders or draftsmen.

The school principal is a white-haired sun-bronzed veteran Palestine government administrator named Henry R. Knesevich.

* * *

Knesevich's grandfather was a ship's doctor from Dubrovnik, Yugoslavia, who stayed ashore in Tripoli (Lebanon) to help out during a cholera epidemic, liked the place and stayed on.

Knesevich runs this $294,000 UNRWA project with a rod of iron.

* * *

The two-year training costs UNRWA anything between $730 an $840 a boy but Knesevich thinks it is worth every cent of the money.

"When we started this project in January, 1953, it was only part of a rehabilitation program to provide self-support for the refugees," he said.

"There was tremendous opposition from refugees themselves at first. They thought it was part of a diabolic plan to get them to settle somewhere and many were afraid they would never get jobs anyway after they had graduated.

"Then they thought they might as well learn a trade they could use if they ever got back to Palestine and then the first bunch who graduated found they were very much in demand in Iraq and the Persian Gulf.

* * *

"Now we have a long waiting list of boys trying to get into the school and we are thinking of building two more, one in Irbed and another in Amman."

Knesevich is helped by three British assistants—specialists sent out by the international labor office, and the school's 12 instructors are themselves refugees, carefully selected for the job.

Oakland County Insurance Agents Attend Conclave

D. M. Watters, director of the Agency License Division of the Insurance Commissioners Office in Lansing, spoke to leading insurance men of Oakland County yesterday at a luncheon in the Elks Temple.

* * *

Subject of the talk was the insurance examination law that went into effect October 1. The law provides that every future life insurance agent must pass a license examination to sell insurance in the state of Michigan.

Watters reported that 50% of 400 people who have applied for a license since the law went into effect failed the examination.

"The purpose of the law is to give the insuring public a better explanation of the benefits of insurance," said Watters. "Not only will the public benefit, but the insurance companies will profit in the long run.

* * *

"The applicants who have taken the examination so far now realize that it is necessary to take this new licensing law seriously."

Watters explained that the law is not retroactive. But insurance companies must train new men to take the examinations before they can put them to work. A total of 33 managers and supervisors doing business in Oakland County attended the luncheon.

Local Electrical Storm Results in Two Fires

The electrical storm that darkened the Pontiac area Wednesday morning caused two fires.

Damage was estimated at $8,000 at Verkler's Electrical Appliance and Furniture store, 8238 Cooley Lake Rd., Commerce Township, after a lightning bolt started a blaze.

One corner of a house at 2315 Hillier Rd., West Bloomfield Township, was damaged when at was struck. No one was injured in either fire.

AEC May Lift Part of Secrecy

Navy Scientists to Present Report on Experiments With Hydrogen Bomb

WASHINGTON (INS) — Navy scientists will report soon on actual U. S. experiments aimed at harnessing the awesomely destructive power of the hydrogen bomb for peaceful uses.

The report, to be made public shortly, will tell of experimental efforts to achive safely — within a laboratory — the tremendous heat necessary to produce the key fusion reaction of the H-bomb.

This fusion — the joining together of nature's light elements such as hydrogen — is essentially what happens on the surface of the sun and in a thermonuclear bomb explosion. When light elements fuse, huge amounts of energy are released. Such energy is far greater than that achieved by the fission process of the heavy element, uranium, in the atomic bomb.

Scientists must overcome two obstacles before the unlimited energy source of fusion can be used to make steam and drive turbines. They are:

1. To duplicate the explosive process characteristic of the sun and the H-bomb safely on a laboratory scale — without losing the heat.

2. How to hold the estimated 100 million degree temperatures in some kind of container.

The Navy report will describe the use of shock waves to produce the high temperatures necessary for a fusion reaction.

* * *

Dr. Allan C. Kolb of the Navy Research Laboratory's Radiation Division will make the report during a special panel on "Controlled Thermonuclear Power Research" at the first winter meeting of the American Nuclear Society. The meeting is scheduled Dec. 10 to 12 in Washington.

Dr. Kolb's paper is being hailed by scientists as indicating that the atomic energy commission plans to lift, at least in part, the secrecy curtain that has veiled "Project Sherwood." Sherwood is the name given the program to harness the H-bomb.

Scientists at Princeton University the Los Alamos, N. M., scientific laboratory and the University of California's Livermore Laboratory are known to have been working on the twin problems: "Duplicating" the sun's fusion process, and then containing the heat.

* * *

Last June, Dr. Edward Teller of the University of California, known as the "father of the H-bomb," gave an unclassified report on the containment aspects of harnessing thermonuclear reactions.

He pointed out that all materials known to man would be vaporized by the terrific heat of the fusion reaction. Dr. Teller then suggested that problem could be solved by developing a "magnetic bottle," a container with a magnetic field that would "pinch" the hot gases and keep them from touching the "bottle's" sides.

Poles Boost Export of Hams to America

CHICAGO — During the first eight months of 1956 Communist Poland increased its exports of canned pork—mostly ham—by more than 3,000,000 pounds over the like period of last year. Sales to the United States totaled 18,210,000 pounds compared with 15,037,000 in the like period of 1955.

Plan Some Gifts for Foot Comfort

Everyone Has Use for Leisure-Time Shoes and Slippers

While visions of sugar plums dance through other heads, there's probably only one thing on Santa's mind on Christmas Eve and that's how good it will be to get home and get his tired feet into a pair of easy-fitting shoes.

In fact, leisure-time shoes are something almost everyone can use. It's a gift that spells thoughtfulness yet doesn't require a lot of shopping. And there are so many leather styles suitable for different occasions that no one ever has too many.

Leisure-time slippers for men come in four main categories: shearling-lined, self-soled in buckskin or glove leather, hard-soled in leather, and pullman slippers for travel. If he has one or more pairs you can give him real luxury in one of the others.

The smartest ones in all four categories will have longer, leaner lines and be of extra-soft leather this Christmas.

* * *

For the women in your life the choice runs from leather-soled moccasins just like their husband's to frivolous mules on stiletto heels.

Hand stitching, squared toes, leather buckles across the vamp and peaked throatlines are some of the variations to be found in loafers.

One black smooth leather moccasin has a slim suede center panel in the toe. Another of gold kid has diamond appliques in silver and gold leather on the toe.

* * *

Quite new are the oriental-inspired shoes. One, which copies the Chinese laborer's, is of shag (rough sueded) leather. It is seamed down the center of the toe and cut high around the ankle with a duffle coat button closing.

But to wear with her hostess gown or tapered lounging pants every woman should have mules in clear leather colors as beautiful as jewels and they should be elaborately decorated.

A pink calf embroidered with a black design borrowed from lace is one idea; another is a white calf embroidered with gold.

Early Temples Being Unearthed in Germany

TRIER, Germany — Interesting remnants of two ancient temples have just been excavated at Trier, whose Roman past has made the city a center for archaeologists and historians.

One temple is Roman, dedicated to Mars; the other was dedicated to the sun god, Lenus, of the Germanic Treveri tribe. Both date from the middle of the Second Century A.D.

Trier's other Roman treasures include baths showing excellent steam-heating systems, an amphitheater complete with lions' dens, a memorial column to a wealthy merchant's family, and a temple area in which many religious denominations were represented.

Perfect Tax Collection

PATCHOGUE, N. Y.—The village of Patchogue has scored a record of perfect property-tax collection for the third consecutive year — $283,115.33 due and $283,115.33 collected. The village also took in an extra $1,482.29, representing interest and penalties from late tax payments.

Recreation Gift All Will Enjoy

Consider TV, Hi-Fi, Portable Radio for Entire Family

Mother can enjoy a new refrigerator Christmas gift, but the whole family enjoys a recreational gift. High on many families' wanted lists is a new TV set, hi-fi components, a portable radio or TV for later patio use or for a bedroom.

These delights are in the line of gifts-we-need-badly-but-have-been-putting-off. For this reason, the whole family may share in the selection without diminishing the enjoyment.

Perhaps the choice has been made for months, but no one's done the buying. Christmas is the time.

Suggestions for the family that's in a quandary about a recreational gift include the following:

A portable TV set comes from General Electric. Kids love these, but so do husbands who crave watching the ball game in the quiet of their studies. The receiver is 8¼ inch high, 9½ inches wide and 13¾ inches deep, convenient for any location. It comes in two color combinations—brown and ivory and blue and ivory.

* * *

Hi-fi components are for the audiophiles. A wife wanting to give a stocking gift to a sound-happy husband could select a pressure testing gauge, a record compensator or a noise suppressor.

A splendid selection for those who roll their own hi-fi would be a speaker enclosure. One, from the Cabinart Division of G & H Wood Products, is an exact equivalent, in design and acoustics, of the factory-finished Klipsch Rebel enclosure. The kit can be put together with a screw driver and a small hammer.

Some husbands could imagine nothing more delightful than having a Christmas day project of putting the enclosures together. For others, the wives will assemble in advance.

Finishing such an enclosure can be done as a labor of love or left for the woodwork lover. Cabinart says that it can be oiled, sealed, shellacked, varnished and waxed according to the taste, energy and time the owner has. For those who care naught for effort and much for results, the speaker enclosure can be bought all made up and finished.

* * *

A small apartment dweller would welcome a portable hi-fi phonograph or radio. The personal portable may be about 9 inches wide, 6 inches high and 2½ inches deep and retails under $20.

The portable phonograph comes in a four-speed automatic record player with three speakers, tone controls and a cabinet designed to look like luggage. This is under $100.

Almost any appliance store displays a variety of such goods, designed for the mode of living and pocketbooks of most families.

Irish Hogs Show Dip of 7 Pct. in a Year

DUBLIN — Ireland's hog population decreased 7 per cent from June, 1955, to June, 1956, but the number of bred sows increased by 2 per cent, an indication that the downward trend in hog numbers may be at an end. The total number of hogs on farms June 1, 1956, was 741,900 head, including 81,477 sows for breeding.

Yule Ornaments More Colorful

Trend in Tree Lights Is to Pastel Shades This Season

More colorful ornaments and distinctive lighting fixtures will be available for the Christmas tree this year than ever before.

This is the word from Bernard Deutsch, general manager of Frankel Associates, one of the world's largest Christmas tree ornament concerns.

"Even the trees themselves will be more colorful," says Deutsch. "Permanent type trees made of flame proof visca are available in white, pink and light blue as well as the conventional green.

Last year white was the most popular of these visca trees. The sizes range form 18 inches to 84.

"In previous years the predominant colors of the decorations were red and green. Now the trend is to pastels such as pink, magenta and turquoise. And, instead of the former silver tinsel and round glass ball ornaments, the tinsel is all colors and the glass balls vary from pain round to orienta tapered designs.

CONTESTS FIGURE IN

"This change in design and emphasis has come about only in the past 10 to 15 years and I believe there's a definite reason for it. Many people are moving out of apartment type dwellings into their own homes in residential areas.

"Some of these towns have spirited Christmas tree contests with prizes for the best decorated tree inside a home. Other prizes are awarded for trees and decorations on lawns.

"So the trend has been to highly stylized and decorated trees and ornaments."

European countries such as Germany, France, Belgium and Italy produce most of the better quality products. Japan specializes in cheaper and less decorative ornaments.

The United States, once an also ran in the field, is doing a greater volume of business than it did prior to World War II. Many new factories emerged here when the German and Japanese sources closed. But the foreign specialists are back in business as masters of the art.

YEAR-ROUND TASK

Joseph Erankel, one of the top designers in this field, believes that in the not too distant future the United States can increase production and skills. It's just a matter of time before the American workers attain the experience and know-how necessary for such work.

Sales of the decorative materials have shot up in recent years. Most of the leading manufacturers work all year round on Christmas ornaments because of the increased demand.

Time was when people, rich and poor, bought most of their Christmas decorations in the 10-cent or stationery stores. Now the department stores, gift shops and florists have special sections for the sale of Christmas items.

You can still buy 10-cent tinsel but you can also pay $30 a box for half dozen tree balls in some of the swank establishments.

One 4-foot high Santa Claus, primarily a store decoration, caught the fancy of some wealthy patrons. They bought it for $19. The same store ordered a dozen more of the same size Santas and sold them all—for $190 each.

For a Memory That Will Last Forever Select a Gift of Sterling Silver

Sterling silver lasts forever. For this, among many, reason, there is scarcely a woman in America who doesn't own or want to own some sterling.

Some women who have ambitions for sterling rely on the wedding to bring forth a wardrobe of the sterling items they desire. When the wedding doesn't do the whole job, they anticipate anniversaries.

Sometimes one sneaks downtown to complete the candlestick pair, all by herself. Seldom does a woman have exactly the pitchers, candlesticks, flatware and serving pieces she wants.

Because sterling is so precious, it takes a long time to accumulate all that's desired.

For this reason, gals from the age of about 14 up usually beam with delight when they get sterling for Christmas. It gives solidity to their playinghouse dreams.

Starting a custom of giving a daughter, niece or granddaughter silver for Christmas is also pleasant in another way—saves thinking each year. You know just what's needed at this step.

New in the sterling line is a pitcher in a contemporary pattern. It can be used for water or milk or juice. If the young lady who receives it is still unmarried, she can put it right to use in her bed-sitting room, to hold flowers.

A salt and pepper combination in sterling and Padouk wood is also new. This kind of reasonably-priced item gets lots of use in a home.

Sugar and cream pitchers, hurricane lamps, bowls and candlesticks are also available in both modern and traditional patterns.

Godparents often adopt the custom of giving a piece of sterling flatware at Christmas, birthdays or graduations. If they start early enough, a girl can get a full service by the time someone has proposed.

STERLING SILVER CHRISTMAS — Such gifts will make any girl happy. Jewelers this year offer many new items in silver. Newest of all (left) are candlestick-compote-candelabra sets.

Rats are known to carry 12 human diseases as well as some others that infect livestock and poultry.

Israel Is Small but Important

Holy Land — Center of World Conflict

WASHINGTON — Medieval maps show the Holy Land as the center of the world. Since the dawn of civilization, it has been an arena and springboard of world conflict.

* * *

In the embattled Holy Land of today, eight-year-old Israel occupies only 8,000 square miles—an area smaller than Massachusetts, the National Geographic Society says. With Egypt it shares a common 135-mile border in the harsh, history - rich Sinai, the classic bridge between Asia and Africa.

* * *

Israel's western border follows the gentle curve of the Mediterranean. Its northernmost reaches are crowned by the mountains of Lebanon and the Syrian desert. The state's long eastern frontier with Jordan extends like a scythe from the Sea of Galilee to the Gulf of 'Aqaba.

* * *

How did Israel—the former kingdom of David and Solomon—come into being? Under 20th - century British rule, Jewish immigration to Palestine extended over a period of years. Six months before the British mandate was to expire in May, 1948, the United Nations General Assembly approved partition of Palestine into Jewish and Arab states.

* * *

Amid bitter strife, as the mandate ended, Palestinian Jews proclaimed the independent State of Israel. Later, armistice pacts with neighboring states gave Israel possession of a long and irregularly shaped region including mountainous Galilee, the vast plain of Esdraelon, a narrow strip beside the Mediterranean, part of the Judea highlands, and the Negev.

* * *

Israel holds the modern section of Jerusalem, while Jordan has the old walled city of Bible times. In the division Jordan got a large chunk of Arab Palestine, including the southern Jordan Valley, nearly all of Samaria, and most of Judaea. Here a softly tinted wasteland stretches eastward across the Dead Sea to the mountains of Moab where Moses gazed upon the Promised Land.

* * *

Young and small as it is, the State of Israel has grown phenomenally in population, agriculture, and industry.

* * *

The Jewish population, having been doubled by immigration and natural increase between 1948 and 1955, now stands at more than 1,526,000. Moslem residents of Israel number 131,500; Christians, 42,800.

* * *

Continuing influx of immigrants has greatly stimulated the growth of Israel's major cities—new Jerusalem, the state capital, and the booming seaports of Haifa and Jaffa-Tel Aviv.

Many newcomers, however, have been settled on the land. The Philistine plain has grown green with scores of kubbutzim or collective farms. Galilee's slopes, reclaimed from sun-baked barrenness, bloom once more as they did in Christ's time.

* * *

Fast-growing Beersheba, whose wells watered the flocks of Hebrew patriarchs Abraham, Isaac, and Jacob, serves as an outpost for the southern agricultural frontier. Here, Israeli pioneers have pressed into the former stronghold of Bedouin shepherds to plant colonies and reclaim from desert the V-shaped Negev covering 5,000 square miles.

Israel, as a nation, has poured its collective energy into the struggle to wrest new prosperity from a long-dry land which the Children of Israel found flowing with milk and honey.

* * *

But if land remains the soul of timeless Israel, lack of water is the modern state's most serious economic problem. As most of its fresh water comes from neighboring lands, the matter of supply and use has long been a source of conflict. No solution has been found for rights to the life-giving Jordan River, which flows into the Kingdom of Jordan.

In recent years, Israel has pushed a program of pipeline construction, damming, and well-digging to extend tillable land.

New industries such as metal products, textiles, and plastics have been sprouting like mushrooms in Israel. While its main mineral resource remains potash and other salt deposits from the Dead Sea, the most stirring event in the state's economic history occurred in September, 1955, when the first oil gushed from a newly drilled Israeli well.

Prior to the outburst of violence, Israel's foreign trade had shown a steady upward trend. Traditionally, the chief export is citrus fruit, notably the luscious oranges called "Jaffas."

Trade has always flowed through the Holy Land, the National Geographic Society says. The ancient Nabataean trade route extended across southern Israel to Gaza and Ascalon. From these points, the treasures of Arabia were shipped to Egypt, Rhodes, and elsewhere. Still a rich and raucous city in Christ's time, Ascalon gave its name to the lowly scallion.

Since earliest days, however, the soil of present-day Israel and Sinai has not only been a trade route but a battleground. Egyptians, Hittites, Assyrians, Babylonians, Phoenicians, Philistines, Greeks, Romans, Frankish knights, and Saracens, all fought and died there.

* * *

Modern Israel's agriculture center—Jezreel of the Plain of Esdraelon—has been the scene of so many violent conflicts that it carries the symbolic and prophetic name Armageddon.

UP TO WIN — The news-camera catches some dramatic moments in Mexico City's bull ring when Chano Ramos, a promising novice matador, had a close brush with death. In top photo, the bull charges just as Ramos attempts a "farol," a difficult cape movement while on his knees. Ramos was tossed and in center photo he crouches underneath the maddened animal as an attendant rushes to the rescue. In bottom photo, Ramos lies motionless in center of the ring. He rose and killed the bull. Judges awarded him one of the bull's ears — token of an exceptionally fine performance.

Getting to Be Sad Day for Happy Clowns

HILLSDALE, Mich. (AP) — Sad-eyed circus clown Hal (Happy) Kellems wishes his audience would quit throwing things at him.

"I can't understand," said Happy. "It's getting so we hate to go on."

Kellems said children used to laugh and applaud when the clowns put on their acts. "But now," he said, "kids, and some grownups, think it's funny to throw peanut shells or shoot iron staples at us."

Bridge Art Gallery

A 14th-century covered bridge in Lucerne, Switzerland, is an art gallery. It shelters 112 triangular panels painted about 1600 by Hans Wagmann and his son. Many of their works record the lives of saints and heroes, says the National Geographic Society.

Vladimir Petrov Now Aussie Citizen

SYDNEY, Australia (AP)—Vladimir Petrov, former third secretary at the Russian Embassy who exposed a widespread Soviet spy ring, and his wife are now naturalized Australian citizens.

The official Commonwealth Gazette listed their names today among those granted naturalization certificates.

Petrov fled from his post in the embassy at Canberra in April 1954 and exposed the spy network. When Russian officials tried to take his wife Evdokia back to Russia under armed guard, Australian authorities disarmed the guards. Mrs. Petrov decided to join her husband in political asylum.

U. S. Department of Agriculture researchers have developed what may be a non-swelling wood which may eliminate the nuisance of tight-fitting windows and drawers.

Insurance Agents to Aid in Program

Three Pontiac men have been chosen to assist university professors in a three-day educational insurance program which goes into effect today at Michigan State University.

• • •

Under the auspices of the university and the Michigan Department of Insurance, the program is organized as the Life Insurance Institute.

Louis Pohl, of 284 Tilden Ave.; Frank Antrobus, 164 Erie Rd.; and Alois Vincler, are the three area insurance executives aiding in the program.

According to Pohl: "The purpose of the educational service is to give the agents of Michigan an opportunity to have the latest methods of doing business with the public."

Puerto Rico is one of the most densely populated farming areas in the world.

Put Off Examination of Man in Wife's Death

Examination of Herbert B. Montgomery, 52, of 475 Arthur St., on a charge of manslaughter involving the death of his wife was put off one week yesterday in Pontiac Municipal Court.

Montgomery is charged with accidentally shooting Elizabeth Montgomery, 37, in the chest during a tussle for a .32 caliber revolver in their home last Oct. 29.

He is being held under $500 bond set by Municipal Judge Maurice E. Finnegan.

Vets' Benefits Eligibility to Be Topic of Talk

Frederik A. Wetzel, Field Service Officer for the Marine Corps League, will give advice to veterans on eligibility for benefits when he comes to Pontiac Friday at the Marine's Club Room, 86½ N. Saginaw St.

There will be no charge for the service which will be open from 12 noon to 4 p.m.

Ike's Only Bluffing, Says Sister-in-Law

SEATTLE (AP)—One of President Eisenhower's close relatives says he is "all bluff." About cooking, that is.

The relative is Mrs. Edgar Eisenhower of Tacoma, Wash., the President's sister-in-law at whose home the President stayed while campaigning this fall.

"Being married to an Eisenhower," the sister-in-law told the Women's University Club yesterday, "I know the President's cooking is all bluff. He turns the knob on high, burns it to a crisp and that's all."

Forget About Appeal

ST. LOUIS (AP)—Monroe Mitchell, 39-year-old laborer, appealed a 60-day sentence imposed by a judge on a charge of leaving the scene of an accident. A jury in the Court of Criminal Correction heard the case on appeal and sentenced Mitchell to a year in the city workhouse.

U. S. Should Fill Vacuum

Need Clear Mideast Policy

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP)—If the Eisenhower administration has any plan or policy for filling the vacuum left in the Middle East by the pathetic performance of the British and French, it hasn't been seen or stated yet.

Yet a clearly stated policy, which can be a rallying point for the chaotic Arab world and at the same time is understood unmistakably by American allies and Russia, is needed unless the Middle East is to be left to drift.

The Russians would like to fill the vacuum. Fortunately the Russians have given this country time to formulate a policy. Their barbarisms in Hungary were a warning to the Arabs what to expect if they became Soviet satellites.

Both the Truman and Eisenhower administrations had an opportunity in the postwar decade to make this country a rallying point for the people struggling out of colonialism by speaking out repeatedly against colonialism.

Neither administration did much of that although both opposed colonialism. In other circumstances both no doubt would would have done more talking against it.

But this country needed its two principal allies, Britain and France, which, with the exception of Russia, are the biggest colonial powers. Apparently both administrations feared too much anti-colonial talk might wreck the alliance.

There is no clearer example of the lack of a thought-out policy in dealing with the Middle East than Secretary of State Dulles' handling of Egyptian President Nasser. First he hemmed and hawed on letting Nasser have arms.

When Nasser then turned to the Communists for them, Dulles got busy on arranging a loan to Egypt to build a dam. In the end he refused the loan in such a way that he infuriated Nasser, who a few days later seized the Suez Canal.

The hope of the Truman and Eisenhower administrations seemed to be that colonialism was withering away and that meanwhile American economic help to newly freed peoples would show them where the American heart was.

Things didn't work out that smoothly.

Those old imperialistic powers, the British and French, when frustrated by Nasser's seizure of the canal, acted like old imperialistic powers. They were bigger than Egypt so they attacked it.

But they forgot something: They were able to get away with the rough stuff only in other years when they were truly No. 1 powers but now, as they proved by what followed, they were second raters.

They agreed to withdraw when the truly No. 1 powers now — the United States and Russia, plus the United Nations — put the heat on them to back up.

The attack on Egypt was enough to embitter all Arabs. Then the reversal of the British and French showing them to be second raters, was catastrophic on their influence in the Arab world. Thus a vacuum was created.

The United States gained stature by lining up with the Arabs and demanding Britain and France end the fighting and get out of Egypt. This should increase confidence in this country by smaller nations everywhere.

But still this was only a specific policy to meet a specific situation. The French and British quit fighting and now promise to get out of Egypt. What does the United States do now.

12 City Men to Be Inducted Into Military

Twelve Pontiac residents were among a group of 36 from this area who left this morning for Detroit and induction into the Armed Forces.

* * *

Earl H. Rompf, of 14 Matthews St., was the leader of the 15 men departing from Local Board 65. The others inducted through Board 67 were led by Gerald L. Laidlaw of Oxford.

Others leaving from Pontiac were: Nelson Sardelli, of 26 Stout Place, Dale Fredeericks, 30 E. Beverly Ave., Robert Neldrett, of 62 Mariva St., Charles L. Fenton, of 3 Hazel Bend St., and William D. Flanery, 660 EmersonSt.

Also, Charles W. Furlong, of 2655 Walton Blvd., Edolphus Lister, 12 Maple Rd., Elijah Burrow, 49 Garner St., Ernest H. Robinson of 155 Branch St., Marcos y. flores, 476 Wyoming St., and Eddie Taylor Jr.

* * *

Those men entering the service from surrounding communities included the following: James L. Kennedy, Auburn Heights, Herman L. Perry, of Keego Harbor, Jerry B. Fisher, Claude Chapman, Gerald L. Miley, and Rufus B. Keith, all of Rochester, Robert Folin and Roy E. Cinader, of Royal Oak, and John Rackov, Novi.

Others were: William D. Rowe, Orion Township, Valentino H. Fucco and Chrestion B. Brakke, both of Farmington, Lawrence J. Gouin and Robert J. Maltip, So. Lyon, Harold C. Moore, of Avon Township, Franklin D. Landmesser and Richard A. Abell, Birmingham, Gery D. Taylor of Waterford Township, Dennis L. Rapson, Holly and Roscoe H. Wright, Waterford Township, and Gale E. Morse of Orion Township.

Police Receive Cards From Thankful Hobo

REDDING, Calif. (AP)—Since 1933 Redding police have received an annual Christmas card from Phil Goldfaden, Long Branch, N.J.

"Back in 1933 as a hobo I'll never forget the kindness of your police and people and so I wish to send my thanks," this year's card said.

Chief Scott Lincecum said no one remembered Goldfaden.

"But," Lincecum commented, "in 1933 we put a lot of itinerants in the lockup so they wouldn't starve."

One of the greatest hazards to the safety of infants under the age of one year is smothering in their beds.

The rural mail carriers of the U.S. travel about one and one-half million miles each working day.

The human eye weighs about 2½ grams at birth and grows to an average of 7 grams at maturity.

Taxicab in Asia Ousts Rickshaw

Colorful Haulers Fast Are Disappearing From Cities of Orient

HONG KONG — Life has been bittersweet to the vanishing man of Asia, the cocky rickshaw puller. The taxicab is nudging him into oblivion.

* * *

The once familiar sight of a barefoot rickshaw man, his bamboo hat flopping jauntily as he darts through jammed streets, is only a memory in most parts of Communist China.

He's fast disappearing from this teeming British colony, where once thousands of rickshaw haulers skillfully fought for space and passengers amid the bustle of the buses, trams, autos and foot traffic.

Today, there are perhaps 600 or so rickshaws left and not many more customers.

Ngan Chung-tung has pulled the same bright red cab for 10 of his 27 years and he doesn't want to see them go.

"No rickshaw, no money, it's very simple," he laughs.

Ngan can't read or write. He's never stepped inside a school.

Yet Ngan considers himself luckier in some ways than other pullers. Young and alert, he dashes along crowded streets faster than most and can spot potential customers quicker.

He makes only the equivalent of about 80 cents to one dollar U. S. during his 6 a.m. to 6 p.m. shift.

His take-home pay averages about $15 U.S. a month, or 50 cents a day, the price of a quart of milk here. His two daughters, chubby from their rice diet, have never tasted fresh cow's milk.

* * *

Sure, I'd like something better for them," he says. "Maybe they'll be able to go to school, I'd like that." He adds plaintively: "But I doubt if they will. Not so many people take rickshaws nowadays."

Two Teenagers Hurt When Car Hits Tree

Two teenage girls were seriously injured yesterday afternoon when their car failed to pull out of a left turn and rammed a tree off Owego drive, Pontiac police said.

The driver, Barbara Jean Cooper, 19, of 167 S. Marshall Ave. suffered fractured ribs, possible internal injuries, a broken nose and facial cuts, authorities at Pontiac General Hospital said.

* * *

Her passenger, Martha P. Starns, 17, of 105 Mohawk Rd. suffered a concussion and skull injuries. Both are listed in fair condition.

Miss Cooper said she lost control after turning from N. Genesee Ave. but could not explain why, police said.

Pontiac Vicinity Helps Hungary

Show Big Generosity in Aiding Refugees in This Country

The Pontiac area has responded generously to help Hungarian refugees beginning new lives in this country.

* * *

Rev. Gordon C. Lindsay, pastor of Five Points Community Church, said he has been "flooded" with telephone calls offering aid.

Ten refugees were guests Monday at the church, 3411 E. Walton Blvd. The program was planned by Rev. Lindsay to call attention to refugees' need.

There have been nine requests for applications to sponsor refugees in this country, he said.

A half- dozen callers offered clothing, he said, and there were a score of inquiries how to help.

He explained that sponsors guarantee food, clothing, shelter and financial backing of refugees until they become financially independent.

* * *

The sponsor undertakes to help the refugee find employment.

Lindsay said his church would act as a clearing house. Telephone calls can be directed to his home number, FEderal 5-7224.

Wayne Youth Killed, Car Skids Off Road

DETROIT (AP)—Billy G. Carter, 21, of suburban Wayne, was killed last night when his car left the road and overturned on U. S. 112, two miles west of his home.

Sheriff's deputies said Carter was driving at a high rate of speed when his car left the road and skidded 120 feet along the shoulder. It plowed into a drainage ditch, hit a concrete abutment and tipped over, rolling 40 feet.

Carter was thrown from the vehicle. An unidentified male passenger with him was injured critically.

A famous chorus girl broke a date the other night — she went out with him . . . A Californian claims he's giving two prizes in a contest: "First prize, a week in Florida. Second prize, a month in Florida."—Earl Wilson.

Still Seek Brooklyn Blast Answer; Investigate Seven Tons of Fuses

NEW YORK (AP)—A Connecticut firm says almost seven tons of detonating fuses — which some officials contend may have caused the terrific blast during a Brooklyn pier fire — were shipped "in strict conformity with all regulatory requirements."

The blaze and explosion last Monday killed 10 persons, injured 246 and caused damage estimated by city officials at 15 million dollars. A probe of the disaster continues — including the cause of the fire.

* * *

The Ensign Bickford Co. of Simsbury, Conn., said last night it shipped 1,950 cases of "Primacord" fuses to its West Coast distributor.

* * *

Stoughton S. Ellsworth, a company vice president, said "Primacord" is designated by the Interstate Commerce Commission as a Class C or minimum-hazard explosive. He said the fuse also has been approved by the Federal Bureau of Aeronautics for shipment via air freight.

City Fire Commissioner Edward F. Cavanagh Jr., however, said yesterday that shipment of such a quantity of this material was of a "hazardous character."

Cavanagh also said the bill of loading was not marked "explosive" and carried only the warning sign, "Store away from heat." He added that no more than 1,000 pounds of explosive material may be stored here without notification to the Fire Department.

Robert W. Withers, a top Fire Department official, says such fuses constitute a high explosive of a type banned from shipment here eight years ago.

* * *

Cavanagh declined to say definitely that the fuses caused the blast on the Luckenbach Steamship Line pier. But he said experts had told him the amount on the pier could have caused it.

* * *

Ellsworth said the fuses would be explosive only when set off by an "outside force," adding: "If acetylene gas blew, it could be set off."

Seven drums of carbide were found in the middle of the 1,700-foot pier, biggest in New York Harbor, the night of the fire. Carbide mixed with water creates acetylene gas which explodes under contained conditions.

Tolerance of the "Primacord" fuse, used in commercial demolition work, was said to be 260 degrees centigrade (500 degrees Fahrenheit).

The fuses had been consigned to the Coast Manufacturing Co. of Traverno, Calif.

The bill of lading on the shipment was found yesterday among blackened debris on the wrecked pier.

Hazel Park Officials to Meet Prosecutor

Oakland County Prosecutor Frederick C. Ziem said yesterday he plans to launch an investigation today of published charges of improper condemnation procedures in Hazel Park.

Officials there allegedly have bought houses after they were condemned by the city.

Ziem said he has invited officials and others named in the published account to make statements in his office this afternoon. He said Hazel Park city attorney Jack Moskowitz will sit in on the statements to determine if any city ordinances have been violated.

* * *

"It would seem doubtful that there has been any criminal violation," Ziem said. "However, we want to get all the facts."

Today's love tip is a little poem: "A little flattery now and then . . . Makes husbands out of single men" . . . There's nothing a baldheaded man would rather listen to than a hair-raising story. — Earl Wilson.

ALBERT C. KUGLER

Royal Arch Masons Elect 1957 Officers

Albert C. Kugler was elected Excellent High Priest for the coming year at a recent meeting of the Oakland Chapter No. 5 of the R.A.M.

Other officers include Neil B. McCellan, King; Robert B. Byrnes, Scribe; George C. Thompson, secretary and Erwin A. Hall will be treasurer. Chaplain for the organization will be Clarence Curry.

Loring Downs will be Captain of the Host and Marvin L. Roberts will serve as Principal Sojourner. Captain is Calvin Carpenter with Elden Sweazey, Raymond Ruggles and Borton F. McNally, Masters of the Veils.

Jean Walter was elected Sentinel with Stewards Floyd Brunson, Duane Boughton, Charles Kugler, and Grant Galbraith assisting.

A semi-public installation will be held Dec. 12 at 8 p.m. in the Masonic Temple at 18½ E. Lawrence St.

Wants Back Alimony

LOS ANGELES (AP) — Back alimony and child support payments of $4,050 are demanded from night club comedian Walter O'Keefe by Mrs. Roberta Robinson O'Keefe. She stated in a suit that her husband promised to pay her 40 per cent of his gross income for her support and their two children when they signed a settlement in 1950. She said his present income is $300 a week.

UF Donates to Detroit

DETROIT (AP) — The United Foundation gave the Detroit Red Cross $100,000 toward the national five million dollar goal for Hungarian relief last night. The contribution eliminated the need for a special Red Cross campaign in the area.

CORNED BEEF PUFF — Canned corned beef is the star in this dish. Add to it mixed canned or frozen vegetables, and you have an excellent one-dish meal. Sharp cheese provides an added goodness. Be sure to bake it in a dish that can go from oven to table for fewer dish-washing chores.

Frothy Dessert for Heavy Meal

To top off heavy holiday meals, try this recipe for Cranberry Fluff. You will like this dessert as a finish to an elegant meal.

Light and frothy, Cranberry Fluff features whipped instant nonfat dry milk. This brings the calories down but keeps the nourishment up, for this nonfat dry milk is known as the "heart of milk." It is rich in the important milk nutrients—protein, calcium and riboflavin.

Cranberry Fluff

2 cups (1 pt. bottle) cranberry juice cocktail
½ cup light corn syrup
½ cup water
½ cup instant nonfat dry milk powder

Combine cranberry juice cocktail and corn syrup. Pour into 1-quart refrigerator tray; cover with waxed paper. Place in freezing compartment of refrigerator or in freezer until crystals form around edges of tray.

Pour water into deep 1-quart bowl. Sprinkle instant nonfat dry milk powder over surface. Beat with rotary beater or electric mixer until stiff, about 8 to 10 minutes. Scrape cranberry mixture into large bowl. Beat until smooth.

Fold whipped dry milk into mixture. Place in two refrigerator trays. Freeze until firm, about two hours.

Breaded Pork Chops

Ever serve breaded pork chops? They're unusually delicious. To prepare, dip the chops in seasoned flour, then in egg beaten with a little water, and finally in fine dry bread crumbs. Brown quickly in a little fat, then cover skillet and cook over low heat until meat near bone shows white. Remove cover toward end of cooking to recrisp.

Fine Finish to Meal

What's a dinner without dessert? Dull, that's what! When the main dish has been especially hearty, tart-sweet Cranberry Baked Pears make a light meal-ender.

Cook 1 cup sugar, 1½ cups water, 2 cups fresh cranberries until berries pop. Put 6 small, firm fresh pears, halved and cored, in baking dish, scatter with thin slices of half a lemon and cover with juice drained from fresh cranberry sauce. Cover; bake in moderate oven for 30-35 minutes. Chill; garnish with whole berries reserved from sauce.

Spruce Up Lima Beans

Frozen green lima beans benefit from butter, plenty of freshly-ground pepper and a sprinkling of crispy cooked bacon bits. Cook the beans according to package directions and drain before adding these seasonings.

Dish to Please Maggie or Jiggs

In the comic strips, Maggie is constantly berating her poor, henpecked spouse, Jiggs, because of his love for corned beef.

But if someone would only introduce Maggie to the delicious one-dish meal,—Corned Beef Puff with Vegetables, I'm sure she'd join Jiggs in singing its praises, and things would be much more tranquil around the Jiggs household.

If you want to garner compliments for a wonderful meal, that satisfies even the heartiest appetites, this is the recipe:

Corned Beef Puff With Vegetables

1 can (1½ cups) corned beef shredded
2 cups mashed potatoes
4 tablespoons powdered cream
2 cups cooked mixed vegetables
½ teaspoon salt
½ cup grated sharp cheese

Add mashed potatoes and 2 tablespoons instant cream to corned beef. Beat until light. Place mixture around edge of greased shallow baking dish.

Drain cooked, mixed vegetables. Sprinkle with remaining 2 tablespoons of powdered cream and salt. Stir to blend. Place vegetables in center of baking dish with corned beef and sprinkle grated cheese over corned beef.

Bake 15 to 20 minutes or until mixture is heated through and cheese is melted.

Zesty Appetizers Appeal to Menfolk

The men at your party will agree that zesty appetizers have the most appeal. They like their snacks on the heartier side, such as those made with meat.

Try these for your next party: pieces of liver wrapped with strips of bacon served hot with a peppy cocktail dip; meaty cornucopias, made by spreading a slice of salami with chutney, rolling it into a cone, and skewering with a cocktail pick.

The canned cocktail franks are handy for the party tray. Make individual sandwiches or cut the little franks in half, skewer with a pick an deserve them with a spicy tomato sauce, kept hot in a chafing dish.

Miniature hamburgers make a hit with men, too. Bu yor make tiny hamburger buns and fill them with pan-fried hamburger patties, seasoned with chopped onion and parsley.

Chock Full of Goodness: Homemade Mincemeat!

Mincemeat pie, with rich homemade filling, has always been a preferred dessert this time of year.

Grandmother used leftover pieces of beef from the family butchering for the mincemeat, but we can use meats from our market. Apples, cider, and all the old-fashioned spices can be combined in the modern recipe, too.

Few mincemeat recipes have gained such compliments as this one borrwed from an early American cook. Ground cooked beef, chopped apples and ground spices blend together for superb flavor.

Dried currants and raisins simmer until plump and juicy in the rich cider and molasses base. Double this recipe, if you like, and keep part of it in the refrigerator until ready for use.

Homemade Mincemeat

1 pound lean beef stew meat
4 cups water
½ pound suet
6 medium cooking apples
1½ pounds seedless raisins
1½ cups dried currants
½ cup diced candied orange peel
2 teaspoons each, salt, cinnamon
½ teaspoon allspice
½ teaspoon cloves
1 cup granulated sugar
1 cup brown sugar
½ cup molasses
4 teaspoons lemon juice
1 cup cider

Add beef to water, heat to boiling, cover and simmer 2 hours. Remove meat and reserve stock. (Approximately 2 cups.)

Put meat, suet and pared and cored apples through food chopper and place in a large pan. Add remaining ingredients except lemon juice and cider.

Add reserved stock and simmer 1 hour, stirring occasionally. Add lemon juice and cider during last 5 minutes of cooking time. Yields 10 cups.

Cover closely, and keep in a cool place. Use about 3 cups for a 9-inch pie crust.

Crab Tempting, Goes Long Way

Nothing can top the flavor of crab. Lucky for us landlubbers that we can buy crab in such easy-to-prepare forms as frozen and canned, as well as in one-pound cans that must be kept refrigerated.

This last form, which is the lump crabmeat, is hard to find, as most of it is bought by resraurants and clubs. But 5-ounce and 6½-ounce cans are on every grocer's shelf, and frozen crab is now plentiful, according to the National Fisheries Institute.

You'll find that a little crab goes a long way if mashed with the yolks of hard-cooked eggs and used to fill the whites for a main-dish salad to be served at a luncheon or supper buffet.

Crab-Stuffed Egg Salad

1 can crab
12 hard-cooked eggs
1 teaspoon prepared mustard
Salt and pepper to taste
Paprika
Salad greens

Flake crab, removing any membrane, and mince finely. Cut eggs in half, lengthwise. Remove yolks and mash with mustard. Stir in crab meat and season to taste. Pile back in whites, mounding mixture over the tops. Sprinkle with paprika. Serve three halves on a bed of salad greens to each person. Makes 8 servings.

Molasses Adds Zest to French Toast Treat

French toast addicts should love this new recipe with a delightfully different flavor. Molasses does the trick—it turns an old favorite into an irresistible treat.

Beat 1 egg; add 1 cup milk, a few grains salt and 2 tablespoons molasses. Mix well. Dip 8 bread slices in the egg mixture. Brown the slices in butter, turning once. Serve hot with butter and additional warm molasses, if desired.

Pick Variety of Onion to Suit the Dish at Hand

Selection of onions is easy, says the Consumer Marketing Information Agent, Mrs. Josephine Lawyer. Look for onions that are dry skinned, bright, clean, hard, well-shaped and free from damage. Onions that meet these specifications are usually of good quality.

Choose onions that are suited for the task. For seasoning, choose yellow or brown onions or the rather strong flavored varieties.

For salads, choose Bermudas or sweet Spanish onions. These varieties are mild and adapted to serving in side dishes.

Garnish Adds Color

Sprigs of watercress and carrot curls make a pretty and colorful garnish for a baked stuffed fish. Tastes good with the fish, too!

She Bakes, but Can't Eat Cakes

Some people paint pictures and present them to their friends for Christmas. Others sew lovely gift items for the same purpose. But Mrs. Joseph Rayner Sr. of Zelma drive has a different talent. Her hobby, her way of making others happy, is making delicious fruit cakes and presenting them to her friends at the Yuletide season.

Martha Lewis, Pontiac Press correspondent for the Ortonville area, discovered Mrs. Rayner and her fruit cakes. In late September, Mrs. Rayner starts shopping for the large quantity of fruits and nuts she needs; she insists on quality products.

After the cakes are baked they must be stored for three weeks in a covered container and "treated." Shortly before Christmas they are decorated and gift wrapped. Then they are sent to many parts of the United States and to some overseas destinations.

Last year one went to Turkey, several to Korea. This year Mrs. Rayner is sending a cake to a teacher assigned to a GI school in Tokyo.

Up to the present time Mrs. Rayner has fifty-eight pounds of fruit cake already baked. The cakes range in size from one and one-and one-half to five and one-half pounds.

While making fruit cake is not an unusual thing to do, it is unusual for someone like Mrs. Rayner. She has been a diabetic for seven years. It was only after she was placed on a restricted diet that she began baking fruit cakes, using a recipe she worked out. "I get great pleasure out of giving the cakes to my friends, even though I can't eat them," she says.

Fine china is another of Mrs. Rayner's hobbies. Many beautiful cups and saucers have been given to her, like the one that came from Turkey. She has a plate reported to be at least 125 years old.

This year the Rayners will spend Christmas in San Diego, Calif. with their son, Joseph Jr. and his family.

Mrs. Rayner shares her original fruit cake recipe with Pontiac Press readers, hoping many will enjoy making and eating the cakes.

FRUIT CAKE

By Mrs. Joseph Rayner Sr.

1 scant cup shortening
1 cup sugar
1 egg
1 can tomato soup
½ teaspoon each salt, cinnamon and cloves
1 pound thinly sliced dates
2 cups diced candied fruit
3 cups coarsely broken walnut meats
2 cups sifted flour

Using all the flour, dredge the fruit and nuts. Let stand overnight. In the morning add the rest of the ingredients. Be sure fruit and nuts are completely covered with batter.

Grease pans and line with waxed paper. Steam-bake the cakes at 275 degrees for three or four hours, depending on the size of the cake. Let stand for fifteen minutes after removing from oven.

Twenty-four hours after baking pour ½ cup brandy over cakes, wrap and store in air-tight containers. Repeat this treatment three more times, being sure to re-wrap carefully each time.

This recipe makes approximately 6 pounds of fruit cake.

FRUIT CAKE LADY—Mrs. Joseph Rayner Sr. of Zelma drive bakes pounds and pounds of fruit cake each year for Christmas presents. Some of the cakes she has ready for this year's giving are shown in this picture. Mrs. Rayner shares her recipe with Pontiac Press readers.

LOOK FOR THIS LABEL AT YOUR GROCERS

4 Regal Sauces to Top Dessert

The sauce is the thing to make a dessert fit for a king! And here are four new dessert sauces to enhance classic holiday desserts. We think you'll also add them to your year-round active recipe files.

Going clockwise from the top, you see Almond Cream, wonderful for pumpkin pie; Rum or Lemon Sauce for date-and-nut pudding; Cherry Hard Sauce for plum pudding, and Chocolate Fluff, heavenly on angel food cake.

Almond Cream

Blanch ¾ cup shelled almonds; cut lengthwise in slivers with sharp knife; toast in 350 degrees oven until golden brown. Cool. Beat 1 cup heavy cream slightly, add 1 tablespoon sugar and beat until stiff enough to hold shape. Fold in ½ teaspoon each of pure vanilla extract and pure almond extract. Serve in sauce bowl; sprinkle with almonds. Serves eight.

Rum or Lemon Sauce

Beat 2 egg yolks until thick and lemon-colored. Gradually add ¾ cup sugar, beating well after each addition. Fold in 1 cup heavy whipped cream and 1 teaspoon rum or lemon extract. Add sprinkle of nutmeg if desired. Serves 8.

Cherry Hard Sauce

Let 2-3 cup butter stand at room temperature until softened. Cream thoroughly; add 1¾ cups superfine sugar gradually, blending in well. Add 1 teaspoon pure vanilla extract and ¼ cup drained, chopped maraschino cherries, in several additions to keep sauce from separating. Cut whole cherries in eights from bottom almost through to stem end; open out to form poinsettia flowers for garnish. Serves 10-12.

Chocolate Fluff

Beat 2 egg whites until stiff but not dry. Gradually add 1-3 cup superfine sugar, beating well after each addition. Fold in 1 square melted and cooled baking chocolate, ½ teaspoon pure vanilla extract and a pinch of salt. Prepare just before serving. Serves 6 - 8.

Hot Canape for Party

Holiday parties coming up? Here's a hot canape which will rate applause. Make a rich pie crust according to your favorite recipe—or use your pet mix. Cut into rounds with a cookie cutter. Place a meaty sardine in the center of each round. Sprinkle with lemon juice. Cover with an additional round. Seal and bake in a hot oven for 15 minutes. Serve hot—and often!

Parsley may be chopped very fine, placed in a freezer container or bag, and frozen for later use in cooked foods.

Native Jamaican Dishes Have Intriguing Names

KINGSTON, Jamaica — Some of the native Jamaican dishes have odd names.

Among them are Solomon Gundy, a peppery spread made from pickled shad, vinegar, and seasoning; Stamp and Go, a sort of breakfast fritter made from flour and fish; and Run Down, a custardlike dish made with cornmeal, molasses, currants, cinnamon, and coconut milk.

Delicious Fishsticks

Fishsticks have joined turkeys and cranberries on the plentiful foods list for the holiday season.

The U.S. Department of Agriculture says there will be plenty of fishsticks available at good prices, along with cod, haddock and ocean perch fillets.

Tomato Clam Soup a Sure-Fire Winner

Easy and good!

Tomato Clam Soup

1 can condensed (10½ ounces) condensed tomato soup
1 bottle (8 ounces) pure clam juice
½ to ¾ cup unsalted liquid left from cooking potatoes, green beans or a similar vegetable
Celery salt
¼ teaspoon onion powder

Mix together the tomato soup, clam juice and vegetable cooking liquid in a saucepan. Add a pinch of celery salt and the onion powder.

Bring to serving temperature slowly, stirring a few times.

Cut leftover pastry in small shapes, sprinkle with cheese, carroway seed, chopped chives, or parsley, and bake as usual. These make a delicious accompaniment for salad, soup or snacks.

Clabber Girl's FESTIVE Christmas Card Cookies

CHRISTMAS CARD COOKIES

Yield: 3 dozen cookies

1½ cups sifted all-purpose flour
1½ teaspoons Clabber Girl Baking Powder
½ teaspoon salt
1½ teaspoons ground ginger
¼ cup sugar
¼ cup shortening
¼ cup molasses
1 egg, beaten

Sift together flour, Baking Powder, salt, ginger, and sugar into a mixing bowl. Cut in shortening until mixture is fine. Add molasses and egg; mix until well blended. Roll out to ⅛-inch-thickness on lightly floured board. Cut into squares or rectangles. Place on ungreased cooky sheet. Bake in a 350° F (moderate) oven about 8 to 10 minutes. Cool. Decorate to simulate Christmas cards.

Do-It-Yourself...

Remember it's the fresh ingredients in your home-baked recipe that make things taste better, stay fresh longer

Let the Children Share Fun of Holiday Foods

By JANET ODELL
Pontiac Press Home Editor

You're going to let the children help make Christmas goodies this year, I hope. Sure, they're messy when they cook; they won't clean up unless you stand over them while they wash the dishes. But cooking is a treat they shouldn't miss.

As I write this, I have Swedish Pepperkakor dough chilling in the refrigerator, waiting for the Eight-Year-Old to come home from school. For days he's been asking when he can make cookies. We'll get out all the fancy holiday cutters and get to work as soon as he washes his hands. Of course I could do it twice as fast. However, it's Christmas time.

You can do some of the work ahead of time as I have done with these cookies. Or you can let the children start with the raw materials. I have found several recipes that are simple and that even fairly young children can make with a minimum of help.

These brownie-type cookies made in a saucepan aren't difficult. You will have to supervise the melting of the chocolate.

Saucepan Indians

½ pound margarine
2 squares unsweetened chocolate
1 cup sugar
1 cup broken pecans
½ cup flour
1 teaspoon baking powder
1 teaspoon vanilla
2 eggs

Melt margarine and chocolate in a saucepan. Remove from heat. Add all ingredients except eggs. Mix to blend with a plate scraper or spoon.

Add eggs, and beat well. Pour into 9x9 greased pan. Bake at 350 degrees for 30 minutes. Cool. Cut into 16 squares.

Candies that need no cooking are easy for children to make. This fondant may be flavored and colored any way you desire. It has a smooth creamy texture to it.

"No-Cook" Fondant

⅓ cup soft butter or margarine
⅓ cup light corn syrup
½ teaspoon salt
1 teaspoon vanilla
3½ cups (1 pound) sifted confectioners' sugar

Blend butter, corn syrup, salt and vanilla in large mixing bowl. Add sifted confectioners' sugar all at once. Mix all together—first, with a spoon; then with hands, knead in dry ingredients.

Turn onto board and continue kneading until mixture is well blended and smooth. Makes about 1 1/3 pounds. Store in a cool place.

The next two recipes are for confections containing dried fruits. In contrast to the many really sweet things children eat at holiday time these are not so sweet.

Vanilla Peanut Butter Balls

Blend ½ cup peanut butter with 3 tablespoons honey, 1½ teaspoons pure vanilla extract and a dash of salt. Add ½ cup chopped nuts ½ cup chopped raisins, ½ cup finely chopped shredded moist coconut and 2 tablespoons confectioners' sugar. Mix well. Shape into 1-inch balls. Roll in 1 cup chopped shredded moist coconut. Yield: 1 pound or 24 balls.

• • •

Chocolate Fruit Balls

Place ½ pound semi-sweet chocolate and ¼ cup white corn syrup in the top part of a double boiler. Cook over hot water until chocolate is melted. Add 1½ teaspoons pure vanilla extract, ¼ cup finely chopped dried dates, ¼ cup finely chopped dried figs and ¼ cup finely chopped raisins. Mix well.

Let stand ½ hour or until firm enough to shape into balls. Shape into 1-inch balls and roll in 1 cup nuts chopped medium fine. Store in a tightly closed candy jar or box. Yield: Approximately 1 pound.

Don't forget good old popcorn balls. If you will press the syrup-coated corn into pointed paper cups and stick a skewer into the corn, you'll have a miniature Christmas tree. Let the children mold the candied corn into wreaths; or press it into star-shaped gelatin molds.

One thing or a variety—do include some time for the children to participate in the making of holiday food. You may be surprised at how much fun you'll have too.

Chili Fills Bill for Party Fare

Tabasco Chili, served with crisp crackers and tall glasses of milk, is a wonderful supper dish for a crowd.

Made with good nutritious ground beef, Tabasco Chili fills the bill for young people's parties. It's easy to serve, amply satisfies vigorous young appetites, and they love the zippy flavor that Tabasco gives.

• • •

Keep the bottle handy because some palates like chili even spicier than this recipe and it is so easy to pour in more Tabasco to taste. Since it's liquid pepper seasoning, Tabasco blends right in with other flavors.

• • •

Keep this recipe handy as you'll want to make it often during the coming winter. After basketball games and skating parties there will be calls for this hearty treat.

Tabasco Chili

6 tablespoons butter, margarine or salad oil
4 medium onions, sliced
2 medium green peppers, cut in strips
1 cup coarsely cut celery
3 pounds ground beef
3 cans (20 ounces each) tomatoes
2 cans (6 ounces each) tomato paste
1 tablespoon salt
2 teaspoons MSG (monosodium glutamate)
1 teaspoon Tabasco
2 tablespoons chili powder
2 cans (20 ounces each) kidney beans

Melt butter; add onion, green pepper and celery and cook until onion is tender, but not brown. Add ground beef; cook until meat loses its red color, breaking up with a fork. Add tomatoes, tomato paste, salt, MSG, Tabasco and chili powder. Cover; simmer 45 minutes. Add kidney beans; simmer 20 minutes longer. Serve with crisp salted crackers. 12 servings.

Both Styles Corn Equally Popular

Whole kernel and cream style canned corn share equal honors for popularity on American tables; each accounts for about half the consumption of canned corn. And that's a lot of corn.

This year, about 1¾ million tons of sweet corn have been processed, representing over ¾ of the total crop. And roughly two-thirds of all the corn has been canned.

Most of the cream style corn is packed in 1-pound cans. But 48 per cent of the whole kernel corn goes into the 12-ounce can while the 1-pound size gets 36 per cent of this corn style.

• • •

Whichever style of corn you like best, you can find lots of uses for it: chowders, casseroles, salads, puddings and many another dish can accommodate corn and benefit by its presence.

In fact, the best solution is to keep both styles of canned corn on your shelf. Each has its special merits and functions.

Serve Cranberries in Toast Cups

This year's cranberries are served in style in individual cups of enriched bread. For each cup, cut 3 slices of bread in rounds with a large glass or cookie cutter. Cut slightly smaller circles in 2 of the rounds so you have "doughnut" shaped rings.

Stack these rings on the bread round. Brush with honey. Toast at 325 degrees until brown. Spoon cranberry relish or whole cranberries into toast cups.

Nippy Cheese Puffs Delicious With Ham

Nippy Cheese Puffs are a fine accompaniment to a holiday ham:

Cheese Puffs

2 packages yeast, compressed or dry
1 tablespoon sugar
½ cup water (lukewarm for compressed yeast, warm for dry)
¼ cup shortening
2 eggs
1 cup shredded sharp cheese (4 ounces)
¾ teaspoon salt
1½ cups sifted enriched flour
1½ teaspoons dry mustard
1 tablespoon milk (if desired)
Shredded cheese for topping (if desired)

Combine yeast, sugar and water. Cream shortening. Add eggs, one at a time, beating after each addition. Add cheese and salt. Mix well. Add yeast mixture, beating thoroughly.

Sift together flour and mustard. Add gradually, beating well. Drop batter by teaspoonfuls on greased baking sheets. Let rise until doubled (about 1 hour).

Bake in moderate oven (375 degrees) 10 minutes. If desired, brush hot puffs with milk and dip into cheese. Makes about 8 dozen 1-inch puffs.

Note: Batter may be dropped by tablespoonfuls into greased 2-inch muffin pans.

Color Your Own Sugar

oT color your own sugar, measure one-half cup into a small bowl and blend in food coloring with a fork. For a dark color, use 24 drops; for medium color, 12 drops, and for a light color, 6 drops. Allow the sugar to dry on waxed paper at room temperature.

When you are cutting out pastry strips for a lattice-topped pie, it's a good idea to use a ruler as a guide.

Better Breakfast Ready to Serve in 5 Minutes

Here's a "better breakfast" that's ready to serve in 5 minutes and no one needs to be an expert cook to turn out this excellent fare.

The coffee is started first and if you choose instant coffee you can shave off another minute from the schedule.

The orange juice is the frozen or canned variety. Of course, the waffles were wrapped and frozen, or purchased frozen in freezer packages, ready to heat in a toaster at the table.

The good news is the fully cooked sausage that needs but 3 minutes' skillet heating to be at its sizzling best. An electric skillet makes this table-fixing, too.

If you wish eggs, cook these with the Brown 'N' Serve Sausage, although you may have to start the eggs before the sausage.

For a real wake-up, stay-awake breakfast, begin the day with a "better breakfast" that gives all the family a chance to share in the cooking while the fruit juice whets the appetite for the satisfying meal in the making.

Toast Sponge Shells

One good cook likes to spread sponge-cake shells with a mixture of honey and butter or margarine; then the shells are toasted in a hot oven. The shells are filled with sliced fruit, given a dollop of whipped cream and served at once.

Brown sugar ranges in color from yellow to dark brown — the darkest color has the most pronounced flavor.

Meat, Milk Prevent Protein Malnutrition

NEW YORK — Protein malnutrition is extensive, and where it is most serious—as in tropical and subtropical parts of Africa — a livestock industry is almost nonexistent and shortages of meat, milk, eggs, and other livestock products are acute.

The average person in these areas usually has less meat in a year than most Americans eat in a week. Milk is not tasted after infancy.

Super Waffles for Teen Party

These Graham Desert Waffles are not on the ballot for a dinner dessert. But they're the best candidate on the ticket for late evening refreshments, for teen gatherings, or to wind up a light lunch or supper.

The hot 'n' cold combination is a wonderful surprise!

Graham Dessert Waffles

20 graham crackers, finely rolled (about 1 2/3 cups crumbs)
1 cup chopped pecans
1 tablespoon baking powder
¼ teaspoon salt
2 tablespoons sugar
2 eggs, separated
¾ cup milk
¼ cup salad oil
1 pint vanilla ice cream
Chocolate syrup

Combine graham cracker crumbs, chopped pecans, baking powder, salt and sugar. Slightly beat egg yolks, blend in milk and salad oil. Pour into crumb mixture and stir only enough to moisten dry ingredients.

Beat egg whites stiff but not dry; fold into mixture. Pour into heated waffle iron. Bake until steam stops. Serve waffles piping hot topped with scoops of ice cream and chocolate syrup. Makes 3 four-sectioned waffles.

Win Applause With Veal Chops Parmesan Style

Ever bread veal chops this way?

Parmesan Breaded Veal Chops

2 loin veal chops (about ¾ inch thick)
1 large egg
1 tablespoon milk
½ teaspoon salt
Pepper
2 tablespoons (about) flour
½ cup fine dry bread crumbs
2 tablespoons grated Parmesan cheese
2 tablespoons butter or margarine

Roll end of each chop together pinwheel fashion and skewer together with a toothpick. Beat egg, milk, salt and pepper together just enough to combine.

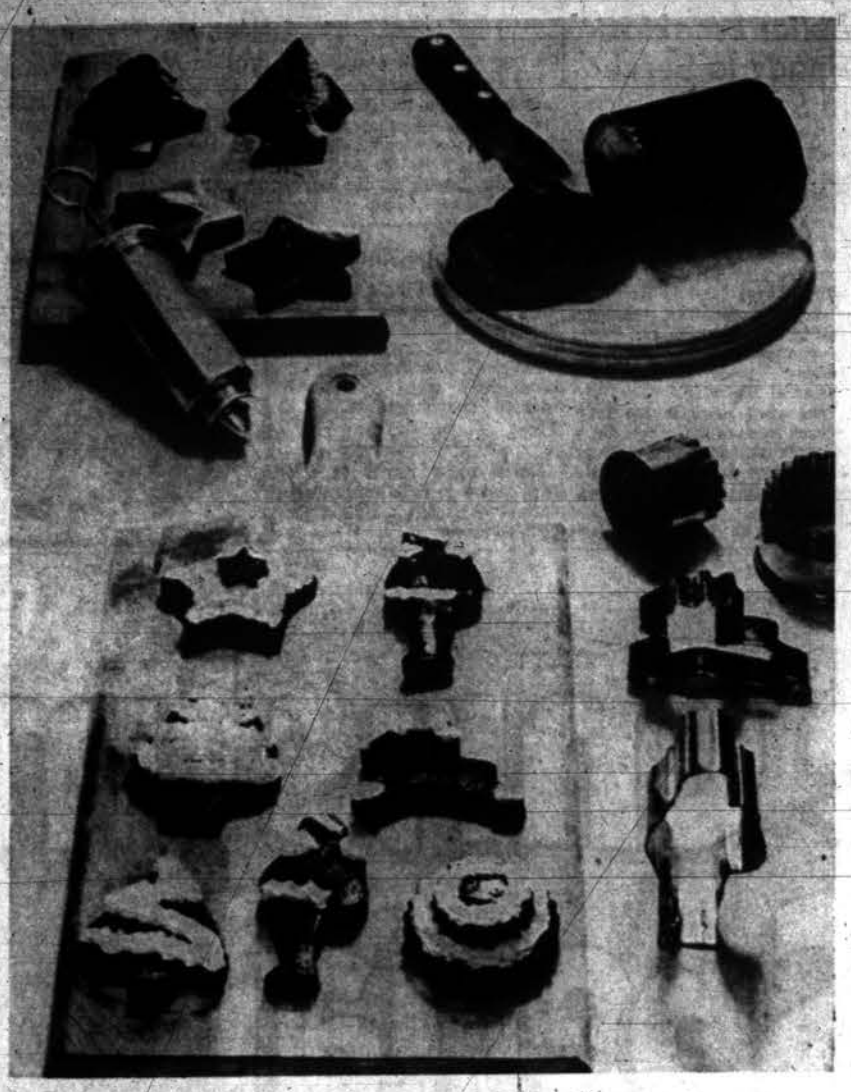
Dip chops, one at a time, first in flour, then in egg mixture, and last in bread crumbs mixed with cheese.

Melt butter in skillet (about 10 inches) until very hot; add chops. Cook slowly until golden brown on both sides — about 15 minutes. Cover skillet loosely and cook until chops are tender, turning as necessary; this will take about 30 minutes.

About 10 minutes before chops are tender, remove cover. Remove toothpicks before serving. Makes 4 servings.

Beat Cream 'Just So'

Do not over-beat cream when you are going to add it to a pie filling or perhaps a gelatin dessert. If it is very stiff, it will be hard to fold it into the mixture evenly.



UNUSUAL HOLIDAY GARNISH — Christmas cooky cutters do double duty this year as they shape slices of canned cranberry sauce into gay and festive garnishes for the traditional holiday dinner. Even the youngsters can help make these Cranberry Cut-Outs for it's just a matter of opening the can at both ends, sliding out the sauce and slicing onto a board. With a variety of cooky cutters or paper patterns, you can fashion Christmas trees, reindeer, Santas and stars and decorate them with a frill of softened cream cheese. For extra-large patterns, cut the jellied cranberry sauce into lengthwise slices. The cut-outs may be prepared hours in advance and refrigerated until serving time.

Golden Squash Brings Harvest Drama to Meal

Golden foods are forever associated with the promise and the glory of the harvest. Talk as you will of the russets and bronzes of fall, it is the pumpkins and squash that dramatize this fruitful season.

* * *

Suitable for older children, and adults is Squash Cream Mold. "Very very good," was the rating of all testers, who yearned for "seconds."

* * *

You'll like the delicate, spicy flavor and smooth, creamy texture all through the winter.

Squash Cream Mold

1 tablespoon (1 envelope) unflavored gelatine
¼ cup cold water
½ cup sugar
¼ teaspoon salt
¼ teaspoon cinnamon
⅛ teaspoon nutmeg
¼ teaspoon ginger
¾ cup milk
2 egg yolks
1 cup strained squash
½ cup heavy cream

* * *

Soften gelatin in cold water. Combine all remaining ingredients except cream in top of double boiler. Cook over boiling water until slightly thickened. Add softened gelatine and stir until dissolved.

* * *

Remove from heat, chill until mixture begins to set. Beat cream until thick and fold into chilled squash mixture. Turn into lightly oiled mold and chill until set. Serves six.

Tasty Clam Spread

Popular spread for crackers: a three - ounce package of cream cheese mixed with the minced clams (drained of liquid) from a seven-ounce can. Seasonings may be added to taste.

Golden Treasure Bread Smuggled From Denmark

East side, west side, all about the town. No doubt, you are hunting for novel recipes to prepare for the holidays.

Well, we have been too, and have just smuggled this one from a Danish treasury of recipes. Now we want you to share in our good fortune, hoping that it will help you solve some of your holiday cooking problems.

The Danish Kringle is like a golden treasure chest with a sparkling apricot filling. But, don't put this find under lock and key, for it is just the thing to serve with a friendly cup of hot coffee when folks drop in.

Danish Kringle

¼ cup milk
¼ cup sugar
½ teaspoon salt
2¼ cups sifted enriched all purpose flour
¼ cup shortening
¼ cup warm, not hot, water (lukewarm for compressed yeast)
1 package or cake yeast, active dry or compressed
1 egg, beaten
½ teaspoon grated lemon peel

Scald milk. Cool to lukewarm. Mix together sugar, salt, flour. Cut in shortening. Measure water into large mixing bowl (warm, not hot, water for active dry yeast; lukewarm for compressed yeast.) Sprinkle or crumble in yeast. Stir until dissolved. Stir in lukewarm milk.

Add egg, lemon peel, flour mixture. Stir until well blended, about 2 minutes. Place in greased bowl, brush top with shortening.

Cover; let rise in a warm place, free from draft, until doubled in bulk, about 1½ hours. Punch down. Turn out on lightly floured board. Roll out into an oblong, about 15" x6". Place on a greased baking sheet.

Cover; let rise in a warm place, free from draft, about 1 hour. Make a slight depression in center of oblong to within 1 inch of the edge. Fill with Apricot Filling. Bake at 350 degrees (moderate oven) about 25 minutes. When cool, decorate as desired.

Apricot Filling

Combine 1½ cups chopped, stewed apricots with 4 tablespoons of honey and a dash of cinnamon.

Crushed Herbs, Eggs Enhance Surprise Loaf

Our favorite meat loaf with something added!

Surprise Meat Loaf

4 eggs
⅓ cup milk
2 slices bread
1 small onion
1 teaspoon salt
¼ teaspoon pepper
½ teaspoon paprika
½ to ¾ teaspoon dried crushed herbs
1 small clove garlic (crushed)
1 pound ground beef chuck

Hard-cook 3 of the eggs; shell and reserve. In medium-sized mixing bowl, beat remaining egg just enough to combine yolk and white. Add milk. Cut bread into tiny cubes or crumb and add.

Peel and grate onion fine; add onion pulp and juice with salt, pepper, paprika, dried herbs and crushed garlic. Mix well until bread disintegrates. Mix in ground beef thoroughly.

Pack about half of mixture into small loaf pan (about 7½ by 4 by 2 inches) that has been rinsed with cold water. Arrange hard-cooked eggs (the long way) over center of meat; pack remaining meat mixture over eggs. Turn out on oven platter or small shallow pan.

Bake in moderate (350 degrees) oven 50 minutes. Turn out and serve. Makes 6 servings.

Did you know that three glasses of milk each day can provide more than one-third of the protein you need to maintain good health and vigor.

Romaine lettuce is sometimes called Cos. By any name, it's a green that has crisp attractive green leaves with more flavor than ubiquitous iceberg lettuce.

Take your choice of accompaniments for smoked tongue: Serve a raisin, cherry, mustard, horseradish or tomato sauce with the meat.

If you serve every member of your family a glass of milk at each meal you'll be sure both youngsters and older folks are getting vitamins and minerals they need.

Remember Berries

According to custom, when there's mistletoe hanging in the doorway, each lad may claim a kiss from the lass who chances beneath it. But he should also remove a berry each time. When the

Want to keep the legs of your turkey from drying out? Wrap strips of clean cloth around end of each leg bone and tie with string.

One-third of the 1,872,000 residents of Washington, D.C. work for the Federal Government.

DANISH KRINGLE—This delicious sweet bread is easy to make, delicious to see, and yummy to eat. Make it up now, then make it again later for holiday eating.

New Repellents Will Protect Cattle Longer

CHAMPAIGN, Ill. — Recent field studies by University of Illinois researchers indicate that by next spring dairymen and other livestock producers may have at least three new fly repellents to help solve the present fly dilemma.

Encouraging results indicate that the three repellents—R-11, R-362, and tabutrex—will successfuly replace the contact poisons like DDT which are not approved for application on milk-producing dairy animals.

The new repellents are said to give 24-hour protection, stretching the fly-free comfort from the half hour to 2 hours now given by conventional repellents to round-the-clock protection.

More than two-thirds of all U.S. households now have telephone service.

YULETIDE BUNS — Gaily-frosted buns are a Yuletide gift project. They're a nice kitchen treat for the whole family to cooperate in making for relatives and friends.

Yuletide Buns Fine Food Gift

Many families are getting together this season to make food gifts for their relatives and friends. It's always a heart-warming group project, and gives Christmas a richer meaning.

The making of yuletide yeast-raised buns, frosted and decorated, and twisted into many shapes, offers a delicious family gift project.

Yuletide Buns

½ cup milk
½ cup sugar
1½ teaspoons salt
¼ cup shortening
½ cup warm, not hot, water (lukewarm for compressed yeast)
2 packages or cakes yeast, active dry or compressed
2 eggs, beaten
5 cups flour

Scald milk. Stir in sugar, salt and shortening. Cool to lukewarm. Measure water into a large mixing bowl (warm, not hot, water for active dry yeast; lukewarm water for compressed yeast.)

Sprinkle or crumble in yeast. Stir until dissolved. Stir in lukewarm milk mixture. Add beaten eggs and about half the flour.

Beat until smooth. Stir in remaining flour. Turn dough out on lightly floured board. Knead until smooth and elastic; place in greased bowl; brush top with shortening.

Cover; let rise in warm place, free from draft, until doubled in bulk, about 1 hour. Punch down and turn on lightly floured board. Shape as desired and place on a greased cookie sheet.

* * *

Cover, let rise in a warm place, free from draft, until doubled in bulk. Bake at 350 degrees F. (moderate oven) about 25 minutes.

Frost and decorate as desired.

Gift From Your Kitchen Is Always Appreciated

By JANET ODELL
Pontiac Press Home Editor

Have you decided which people will be on your list for receiving Christmas goodies from your kitchen? If you're like us, you try to include those who are troubled; those who do no baking of their own; and finally those whom you wish to remember in some little way.

What do you make to give away? We know women who give cookies, candy, fruit cake or holiday breads. If none of those items appeal to you, think about some special food like spiced peaches, Christmas jam or jelly or tempting cheese spreads. If you have an unusual recipe for any of these, share it with a friend.

Be imaginative when you wrap your gift of food. Often you can find an inexpensive container for candy or cookies or jam. Dress up glass jars with tinsel and ribbon and holly. Use aluminum foil, both the little plates and the foil by the yard. Use saran wrap because it lets you see the food.

Here is a recipe for a different kind of confection. It is full of oatmeal so should be good even for the younger set.

Christmas Caramel Cubes

1½ cups butter or margarine
2 cups brown sugar
1 cup corn syrup
½ teaspoon salt
1 cup uncooked oatmeal
½ cup chopped nutmeats
1 teaspoon vanilla

Melt butter in large saucepan; add brown sugar, syrup and salt. Cook over high heat until syrup forms a soft ball when dropped into very cold water. Remove from heat; stir in oats, nutmeats and vanilla.

Pour into greased 8-inch-square pan. Chill; cut into one-inch squares. Wrap each piece in waxed paper; store in refrigerator. Makes 64 pieces.

Your next-door neighbor will appreciate a jar of pickled spiced cherries to serve with her holiday ham. Just remind her to refrigerate this gift until she is ready to use it.

Pickled Spiced Cherries

1 jar (1 pound and 1 ounce) sweet cherries
½ cup white vinegar
2-3 cup cherry syrup
¼ teaspoon salt
1 teaspoon sugar
4 whole cloves
½ teaspoon mixed pickling spices

Remove lid from jar and save. Drain cherries; save syrup. Mix vinegar, cherry syrup, salt and sugar together in a saucepan. Place cloves and pickling spices in a small bag and add to other ingredients. Bring mixture to full boil.

Reduce heat and cook gently for 5 minutes. Remove spice bag. Cool slightly and pour spiced liquid over cherries in the jar. Recap jar tightly. Cool. Store in refrigerator until ready to use.

Do you have a friend who is a diabetic or on a reducing diet? If so, he or she would appreciate a loaf of low-calorie Applesauce Nut Bread made with sucaryl.

APPLESAUCE NUT BREAD
(Low-Calorie)

2 cups sifted flour
1½ teaspoons baking powder
½ teaspoon cinnamon
½ teaspoon salt
½ teaspoon baking soda
¼ cup chopped walnuts
1 egg, well beaten
1 cup unsweetened applesauce
1 tablespoon Sucaryl solution (or 24 tablets, crushed)
2 tablespoons melted butter

Combine flour, baking powder, cinnamon, salt, soda and chopped nuts. In a large bowl combine the remaining ingredients and mix well. Add the flour mixture all at once, stirring only until all the flour is dampened. Spoon into 2 greased tea loaf pans (5x3x2-inches). Bake in a moderate oven (350 degrees) for 1 hour and 15 minutes.

Makes 24 servings. Each serving contains 57 calories; 1.4 grams protein; 2.1 grams fat; 8.3 grams carbohydrate. If made with sugar, each serving would contain 81 calories.

Potatoes Fit in Diets

Potatoes need not be fattening. It's the gravy, butter and other "additions" that pile up the calories. There are no more calories in a medium sized potato than in an apple or banana. Remember—it's the total of all the food we eat that adds pounds.

New Idea for Snacks

The next time you want to whip up "munchings" to go with afternoon tea or coffee, mix a dash of poultry seasoning into a sharp cheese spread for salty crackers or toast squares. Brown in the oven. Delicious, different—and so easy to make!

The world record for the most rainfall in a single day is believed to belong to Baguio in the Philippines. The day's total was 45.99 inches.

If you make fruit cake well ahead of the holidays, be sure that you wrap it tightly and store it in a cool place.

Spice Pot Roast Gravy

Serve a spiced gravy with slices of pot roast. Bay leaf, whole cloves and thin lemon slices are all good to add to the gravy. Fish out the bay leaf and whole cloves before serving.

Make 'Coffee Cake'

Strong black brewed coffee may be used in a simple sponge cake instead of the water called for. Do not use any other flavoring if the coffee is added.

Flak[illegible] gives you so mu[illegible] more

oodles of golden corn cakes

... the tastiest pancakes that ever graced a griddle. Tender, tempting, brimming with natural corn flavor ... with plenty for seconds *all around* in just one easy mixing!

But remember, ONLY Flakorn makes so much, so easy! Because ONLY Flakorn's exclusive 12 oz. pack gives you the extra ingredients it takes to make the generous *family-size* servings you need.

For muffins, corn breads, main-dish casseroles too—you can always make *more*, make *sure* with Flakorn Corn Muffin Mix!

GOLDEN FLAKORN CORN CAKES AND WAFFLES, TOO!
Combine 1 egg, 1¼ cups milk, 2 tbls. melted shortening with one package Flakorn Corn Muffin Mix. Mix until smooth. Let stand 5-10 min. Bake on hot griddle or waffle iron until golden brown. Makes 16 pancakes or 6 waffles.

CARELESS DRIVING IS KID STUFF

Savory Snapper Delicious Stuffed

Glamorous fish, both in the water and on the table, are the red snappers caught in Gulf waters. So colorful are these fish that some one has called them the "tanagers and grosbeaks of the coral reefs." Too, the meat of the fish is so delicious that there is a demand for steaks and fillets as far inland as Chicago and Indianapolis.

You may prepare snapper fillets and steaks as you would any lean fish. If you are fortunate enough to find a whole red snapper at your fish dealer's, ask him to dress it for you, and prepare it this way:

Baked Red Snapper With Shrimp Stuffing

Select a fish weighing from 3 to 4 pounds. Have fish dressed. Clean, rub salt inside and out and stuff with shrimp stuffing (recipe below).

Fasten together with skewers or lace with string to hold in place. Brush with melted fat and place in baking pan. Bake for about 40 minutes in a 350 degree oven, or until fish flakes easily when tested with a fork.

Shrimp Stuffing

1 package stuffing mix (3 cups)
½ cup chopped cooked or canned shrimp
½ cup melted butter

Combine stuffing mix with shrimp and butter.

Piquant Flavor in Tuna Curry

Curry, often referred to as "the salt of the Orient," is a condiment composed of about sixteen spicy ingredients. Its piquant flavor adds a tantalizing Eastern touch to many chicken, veal and seafood dishes.

Today's recipe calls for either tuna or chicken. Quick Apple Chutney makes a tangy, tasty accompaniment for this as well as other favorite curry dishes.

Tuna Rice Curry

2 cans (7 oz. each) tuna in oil, or 2 cans (5 to 6 oz. each) boned chicken
1 medium size onion
½ bud garlic
1 can condensed cream of chicken soup
¼ teaspoon ginger
2 teaspoons curry powder
3 cups hot cooked rice

Drain oil from tuna. Cook chopped onion and minced garlic in oil until brown. (If using chicken, cook in 2 tablespoons fat.) Add soup and seasonings; mix well. Add tuna, broken into chunks, and heat. Serve curry over rice. Four to six servings.

Quick Apple Chutney

1 cup brown sugar, firmly packed
½ cup vinegar
¼ teaspoon salt
1 can (1 lb. 4 oz.) apples
½ cup raisins
2 tablespoons finely chopped crystallized ginger

Combine brown sugar, vinegar, salt and syrup drained from apples. Bring to boil, stirring; boil 5 minutes. Add apples and cook slowly 20 minutes, stirring occasionally. Add raisins and ginger; continue cooking about 15 minutes until thickened. Chill. Use as a curry accompaniment or sweet-sour relish. Makes about 2½ cups.

Mash Butternut Squash

Have you tried butternut squash? It's delicious mashed with butter or margarine, salt and pepper. Serve it with a pretty sprinkling of minced parsley.

When you add ginger ale to a fruit drink, do so just before serving and stir lightly so as not to dissipate the carbonation.

Let Family Catch a Whiff of Cinnamon Nut Bread

CINNAMON NUT LOAF — Catch a whiff of that bread baking! There's nothing like it to bring them running from every direction. And when you serve Cinnamon Nut Loaf that combines the goodness of an oatmeal bread with nuts and cinnamon-sugar, you have something to brag about. It's easy to make too.

"No matter where I serve my guests, it seems they like my kitchen best." Isn't that the truth at your house, too? Kitchens are such warm friendly places, especially when the wholesome aroma of baking bread wafts from the oven.

When there's a loaf or two of Cinnamon Nut bread cooling on the window ledge, your kitchen is sure to be headquarters for the neighborhood coffee break.

Cinnamon Nut Loaf is really an easy bread to make. It's the old-fashioned variety with plenty of nut-toasty rolled oats inside for extra flavor and nourishment. Then too, it's chock full of nuts for more crunchy goodness.

The unique swirl effect is simple to do. Just roll out the dough on a floured board and sprinkle with cinnamon and sugar. Roll it up like you do your favorite jelly roll and presto — the cinnamon swirl appears in every delicious slice.

* * *

Here are tasty suggestions you won't want to miss! Toast this Cinnamon Nut Loaf to a tempting golden brown at breakfast time, or let this same nut-sweet bread add a lift to lunchtime sandwiches.

Use it for teatime, snacktime, dinnertime and at every breadtime.

CINNAMON NUT LOAF
Dough

2 packages or 2 cakes compressed or dry yeast
½ cup lukewarm water
1½ cups scalded milk
¼ cup sugar
2 teaspoons salt
½ cup shortening
5 ½ to 6 cups sifted enriched flour
2 eggs, beaten
1 cup chopped nutmeats
1½ cups rolled oats (quick or old fashioned, uncooked)

Filling

1 tablespoon melted butter
2 tablespoons cinnamon
¼ cup brown sugar

Soften yeast in lukewarm water. (Use warm water for dry yeast.) Pour scalded milk over sugar, salt and shortening; stir occasionally until shortening melts. Cool to lukewarm.

Stir in 2 cups of flour and beaten eggs. Add softened yeast, nutmeats and oats. Stir in enough flour to make a soft dough.

Turn out on lightly floured board or canvas and knead until satiny, about 10 minutes. Round dough into ball; place in greased bowl and brush lightly with melted shortening. Cover and let rise in a warm place until almost double in size, about 1 hour.

Punch dough down; turn out on lightly floured board or canvas. Cover and let rest 10 minutes. Divide dough into 2 parts; round each part into a ball. Roll each part to form a rectangle about 8x15 inches.

Brush lightly with melted butter. Sprinkle with cinnamon-sugar mixture. Roll each rectangle to form a loaf; place with seam underneath in lightly greased loaf pan (1 pound size). Brush lightly with melted shortening; cover and let rise until almost double in size, about 45 minutes.

Bake in a hot oven (400 degrees F.) for 10 minutes. Reduce heat to 375 degrees and continue baking 35 to 45 minutes, until bread is brown and begins to leave sides of pan.

Remove from pans and brush lightly with melted shortening. Cool on wire racks.

When a cake has a sticky top crust, the defect may be due to too much sugar or insufficient baking.

Macaroni Pie Is Supper Treat

Bake a Macaroni Crumb Pie for Sunday night supper. It's a crumb-crusted version of macaroni and cheese.

Plan to serve it with a big tossed green salad, herb-buttered French bread, milk and baked apples:

MACARONI CRUMB PIE
Crumb shell

1 cup enriched bread crumbs
3 tablespoons melted butter or margarine
⅛ teaspoon salt
1 tablespoon sugar

Mix together bread crumbs, butter or margarine, salt and sugar. Press firmly over bottom and sides of 9-inch pie pan.

Macaroni Filling

4 ounces elbow macaroni
3 tablespoons butter or margarine
3 tablespoons enriched flour
¾ teaspoon salt
1¼ cups milk
1 cup cubed American cheese
2 tablespoons slivered toasted almonds

Add 2 teaspoons salt and macaroni to 3 cups boiling water. Boil rapidly, stirring constantly, for 2 minutes. Cover, remove from heat and let stand 10 minutes.

Meanwhile, melt butter or margarine in saucepan. Stir in flour and salt. Gradually add milk and cheese and cook until thickened, stirring constantly.

Rinse macaroni with hot water and drain well. Fold macaroni into cheese mixture and pour into crumb pie shell. Sprinkle top with almonds. Bake in moderate oven (350 degrees) 25 minutes.

Cut into pie-shaped pieces to serve. Makes four servings.

Pack Soup With Lunch

Urban workers, rural school children and others who must leave the house before eating the most important meal of the day (breakfast, that is) can carry an answer to this problem in a vacuum bottle filled with hot nourishing soup. Soups that ring the breakfast gong include tomato, onion, a variety of cream soups, and chicken with rice or noodles. Before pouring thick or hearty soups from the container, shake it to even the consistency.

New Relish for Meat

Pork on the menu? Or perhaps it's roast duck. Both need a tangy accent to point up flavor and brighten the palate. And here's a suggestion. Sounds startling, but it tastes wonderful—Cranberry-Kraut relish. Put 4 cups fresh cranberries and 2 cups well-drained sauerkraut through food chopper. Add ½ cup sugar and mix well. Cover and chill several hours before serving.

Easy-to-Make Holiday Desserts —and Fun, Too!

Here are some ideas for easy-to-make festive holiday food suggestions from the December issue of a home magazine.

SANTA CLAUS DESSERT for the kiddies is simple. Just top a peach half (round side up) with a hatshaped cookie or ice cream cone covered with red frosting. Make the fur band on the hat, and the beard, of whipped cream. Nose and eyes are raisins.

FAVORITE FAMILY COOKIES — such as brownies, peanut-butter cookies, and sugar cookies—can be Christmas cookies, too. Bake them in miniature sizes and Christmas-cookie shapes. Bake them at the same temperature as usual but for a shorter time.

TINY FRUIT CAKES add an imaginative touch to a gift box of homemade Christmas goodies. Bake the batter in very small paper baking cups on a cookie sheet. Then glaze and decorate as you would larger cakes. Add one or two cakes to each gift box.

TREAT YOUR HOLIDAY GUESTS to special cups of coffee. Spiced with cinnamon or anisette, coffee's an especially good drink. Served with heavy cream, it's one of the best.

Colorful Dessert

Make up a package of angel food mix. Serve slices of the cake with scoops of vanilla ice cream and a sauce made by thickening canned cherries.

Tag End of Ham in Super Form

Tag end of Sunday's ham got you stumped? Wondering just how you should make good use of it? Here's a spaghetti recipe that will transform it into something special.

The Spaghetti-Ham Loaf has a delicious flavor. It may be garnished with cling peach halves filled with a zippy horse-radish and cottage cheese mixture.

Spaghetti-Ham Loaf

1 tablespoon salt
3 quarts boiling water
8 ounces spaghetti
3 eggs, beaten
1 14½-ounce can evaporated milk
2 cups ground cooked ham (about ½ pound)
2 cups grated processed American cheese (about ½ pound)
½ cup chopped pecans
1 teaspoon Worcestershire sauce

Add 1 tablespoon salt to rapidly boiling water. Gradually add spaghetti so that water continues to boil. Cook, uncovered, stirring occasionally, until tender. Drain in colander.

Combine remaining ingredients; mix thoroughly. Add spaghetti and mix lightly. Turn into greased 9x53-inch loaf pan. Place in a pan of hot water. Bake in moderate oven (350 degrees) 1 hour, or until firm. Unmold and slice. Serves 6-8.

Have Tot Drink Water

Water has no calories or vitamins, but it is vitally important in the make-up and working of the body. A child should have a chance to drink water once or twice in each between-meal period.

SKILLET CLUB FOR MEN

By Frank Kohler

With Christmas around the corner, we thought you'd like to have the comments of Leo B Wolfe, Chicago Daily News Chapter, on gravy. We concur, and we quote.

"In some recipes in the papers (not yours!) whenever I see 'take 2 tablespoons flour in a glass, add water to make a paste, then add to juice in pan to make gravy'—brother, I hit the ceiling.

That is just the way to make wallpaper paste. Sometimes I think the indigestion pill manufacturers must sponsor this type of gravy.

"I like to make a "roux," so . . . 2 or 3 tablespoons of butter. Melt slowly over a low heat. When melted add the same amount of flour, blend smooth, and cook it. Flour needs cooking, right?" Right!

When mixture bubbles, slowly stir in 2 or 3 cups of pan juices, and cook slowly until smooth. Milk may be added if desired. "Gravy aids" may be used to darken, if you like.

USE PAN DRIPPINGS

If pan drippings contain fat, we sometimes make our roux using that instead of butter. Strain off the desired amount, then strain off the juices and essences, blend them well together and go on from there.

Watch the drippings during the roasting, and if they tend to burn, pour in a little water from time to time—especially early in the game. The water will cook away, leaving juices which give the delicious flavor of the meat.

For seasoning, we always like to add a little monosodium glutamate and, of course, salt and pepper to taste. Also, depending on the type of gravy, a little Worcestershire or Maggi sauce and a few drops of Tabasco.

A bit of garlic is liked by some, and some like to add a little beer or, in some cases, a little sherry, Madeira or Marsala wine. For turkey, we use a little dry white wine, or dry vermouth, adding it, slowly to taste.

Building on a sound basis and seasoning with care, you should achieve highly satisfactory results.

Just avoid making all your gravies taste alike. Be sure you can taste the poultry flavor in a poultry gravy, and the meat flavor in a meat gravy.

He has another good suggestion, too. Wash pots and pans immediately after use. They are much easier to clean and, as he says, "that way the kitchen doesn't look like it was hit by a tornado!"

Here is a **QUICK DELICIOUS FRUITCAKE** from Mrs. Zora B. Stegenga, also of Chicago. She simply opens a package of any plain cake mix available, mixes it with the contents of a jar of prepared mincemeat, and bakes as instructed on the mix package, cake pan, or even a glass baking dish.

CODDLED APPLES are an old favorite of our family, and they do make a good dessert. Peel only the top half of a dozen large apples, then core them.

Mix two tablespoons of soft butter with ½ pound powdered sugar and the juice of 2 lemons, and spread the mixture over the apples in a buttered baking dish. Bake at low temperature until the apples are tender and cooked through, basting frequently.

Remove apples to a heated serving platter or individual bowls, then add to the liquid in the pan ¼ cup red current jelly and heat and stir until the jelly is dissolved. Then stir in 1-3 cup or more to taste of Madeira wine, and pour over the apples.

CHOCOLATE MILK SHERRY NOG makes about 1½ quarts of a mild, pleasing holiday beverage. Just combine 1 quart of bottled chocolate milk with 1 cup sherry, 2 eggs slightly beaten, 1 tablespoon sugar and shake well in cracked ice. Strain and serve with a dusting of nutmeg.

Use Skill in Cooking Hashed Brown Potatoes

To make hashed brown potatoes, mix two cups cooked and chopped Michigan potatoes with 1 tablespoon flour and ½ teaspoon salt. Heat two tablespoons butter in a fry pan and pour in the potato mixture. Spread it out evenly and cook slowly until brown underneath.

• • •

Invert on a plate, add another tablespoon butter to the pan and gently slide the potatoes back, cooked side up. Brown, and serve in four portions.

Cut bologna into cubes and skewer; broil, basting with a barbecue sauce.

Slice those leftover cooked potatoes, spread out in a pan, brush with melted butter or margarine, dust with paprika and broil. Nice to do this in a baking dish that can be brought to the table.

Simmer a Stew of Rare Bouquet

Here is a recipe to clip and file for those who like a really flavorful stew. It has just the proper amount of seasonings to make it tasty but not overspicy.

And you need never pamper a stew. Fit it into your schedule . . . cook it in the morning, the day before, or freeze it. When needed, simply heat and serve.

Neapolitan Stew

2 lbs. boneless stewing beef
2 teaspoons kitchen bouquet
2½ teaspoons salt
⅛ teaspoon pepper
⅛ teaspoon ginger
2 tablespoons fat
¼ cup finely diced onion
1 clove garlic, minced
6-oz. can tomato sauce
1 teaspoon brown sugar
2 cups water
2 tablespoons cornstarch
¼ cup cold water
½ cup sliced stuffed olives

Cut meat into 1½ inch cubes. Place meat in mixing bowl. Sprinkle with a mixture of kitchen bouquet, salt, pepper and ginger. Toss meat lightly with fork to coat thoroughly on all sides.

Melt fat over moderate heat in Dutch oven or large saucepan. Add meat and brown on all sides. Add onion and garlic and cook, stirring frequently, for about 5 minutes. Add tomato sauce, sugar and water. Cover tightly and bring to boil.

Cook over low heat until meat is tender, about 1½ hours. Blend together cornstarch and cold water. Add to meat and cook, stirring constantly, until the sauce thickens and boils. Add olives. Serve over hot corn meal mush or leftover corn bread. Makes 4 to 6 servings.

Be sure to let air get at a gelatin mold before turning out; do this by running the tip of a knife around the edge of the mold.

Buy Pork for Freezer, Fruit for Salads

Table talk about what to have for next week's meals should include the seasonal foods in the market. Now is the best time to enjoy pork for supplies are good and prices reasonable. Larger supplies of citrus fruits and nuts are ready for holiday eating.

If price and good health matter, select potatoes, onions, carrots and cabbage from the vegetable counters. Shoppers will find more large eggs in the market, and these have caused a slight decrease in egg prices.

MEATS — Meat dollars go far when pork cuts are chosen. Smoked picnics, loin roasts, sausage rolls, and Boston butts are among the thrifty values at present, says the Consumer Marketing Information Agent, Mrs. Josephine Lawyer.

Pork supplies are expected to decrease gradually until the fall crop of pigs starts to market next spring. This means prices will begin a gradual increase. For those who have freezer space and use pork, now is a wise time to freeze some.

Take special care when storing pork. Moisture proof, vapor proof freezer wrap and a quick freeze at zero degrees or lower assure the best results. Fresh pork can be satisfactorily stored at zero degrees F. for three to six months.

Other meats are available at reasonable cost to vary the family's meat dishes. Blade chuck roast, ground meat, round steak, and liver are the economical beef choices. Mild flavored veal rates a second look. Veal leg, runup, and sirloin roasts are attractively priced. Some retailers are offering lamb leg, shoulder, and liver for slightly lower cost than last week.

FRUITS & NUTS — Sunny atmosphere is added with the increasing citrus supplies. Medium-sized Florida Hamlin oranges are sweet and juicy. The "zipper-skinned" tangerines are much sweeter than when they started to market a few weeks ago. Grapefruit at about 8 cents a pound is rich in Vitamin C and low in calories.

Increasing amounts of bananas are about 20 cents a pound in most stores. Combine them with apples and citrus fruits for colorful vitamin packed salads.

Large displays of nuts are ready for holiday use. Whether to buy nuts in the shell or shelled nutmeats is sometimes a question. The difference in price and the time available help decide this question.

Filberts, pecans, and English walnuts are much alike since it takes about 2½ pounds in the shell to make 1 pound of nutmeats. Three and one-half pounds of almonds in the shell yield a pound of nutmeats.

VEGETABLES — The large 1956 crops of cabbage, potatoes, carrots, and spinach tend to hold these vegetable prices at a fairly steady cost. Michigan potatoes are a best buy at about 2½ to 3½ cents a pound, and a pound gives 4 to 5 one-half cup servings. Dry onions are a family favorite in stews, with roasts, creamed, or used in soups and salads.

• • •

Recent severe frost damage in Florida is expected to affect the prices of fresh vegetables such as green beans, cucumbers, corn, and peppers.

EGGS & DAIRY — Egg prices show a slight decrease due to larger supplies of large sizes arriving in the market. Many stores are featuring the large sizes. Ounce for ounce, the medium size is still the best value when the difference between the two sizes is more than seven cents a dozen.

• • •

Peppermint ice cream, displays of assorted cheese boxes, and creamy eggnog are seasonal delights at the dairy case.

Hungarian Sausage Loaf

2 pounds bulk pork sausage
4 cups bread crumbs
1 egg
1 cup sour cream
Paprika

• • •

Combine sausage, bread crumbs, slightly beaten egg, and sour cream. Season with paprika. Pack firmly into a loaf pan. Bake in a moderate oven (350 degrees) until done, about one and a half hours.

7 Goodfellow Sales This Weekend

'Old Newsboys' Out Dec. 7-8

Addison, Avon Twps., West Bloomfield and White Lake Sell

Goodfellow sales slated for Friday and Saturday in the Oakland County area include Addison Township, Highland, Rochester, Brooklands and Avondale, West Bloomfield, White Lake, Romeo and Troy. Sales the following week include those at Pontiac Township and Farmington.

Avon

Rochester, combining forces with Brooklands and Avondale, will conduct its sale on Saturday.

The Metropolitan Club will carry on the custom, begun 30 years ago by Ben Jones, the first 'old newsboy.' Goal this year is $2,500, which will provide the Yule party for 300 youngsters and replenish the fund for the needy, to be used throughout the year in the area. George Ross is in charge of paper sales.

Addison

This township will conduct sales Friday evening and all day Saturday at Campbells Corners, Lakeville and Leonard.

Proceeds will provide a party for children on Dec. 22, plus filled baskets for the needy of the area. Dave Ferguson is in charge of the Pontiac Press sale.

White Lake Township

For the Saturday sale, Goodfellows of White Lake Township are wishing their area had at least one traffic light, but they expect their 18 sellers of papers to stop enough drivers and pedestrians to meet last year's total of $800.

The sale will start at 9 a.m., and last throughout the day, with all main corners staffed with Metropolitan Club or Fire Department members.

According to Chief Andrew Piano, police chief and vice president of the Metro Club, proceeds will go to helping people whose homes burn, who become destitute, or those whose earning power ends but have to wait before getting on welfare.

It will also provide baskets containing the makings for a complete Christmas chicken dinner for needy families, and items of clothing.

Aiding in plans is Joe Hynds, club president and former fire chief who is now with the Embree and Gregg real estate office, 1565 Union Lake Rd. That office will be headquarters for the Goodfellows on Saturday.

Romeo

Goodfellow Newsboys from the local Lions and Rotary Clubs will be on downtown streets tomorrow and Saturday, selling papers in their annual drive for funds there. Proceeds from the two-day sale will be used to fill baskets with food and toys for needy families in the area at Christmastime.

Rotary chairman is Eli Levin, whose store on South Main will be headquarters. Heading the Lions' salesmen is Dr. Sherman Harding.

County Deaths

Mrs. Theresa Ludwig

OXFORD — Service for Mrs. Theresa Ludwig, 80, of 106 Pontiac St., will be at 2 p.m. Saturday from the Bossardet-Mabley Funeral Home, with burial in Mt. Pleasant Cemetery. Mrs. Ludwig, resident of Oakland County for 69 years, died Wednesday evening at her home.

Surviving are her seven sons, Edward of Ohio, Henry of Detroit, Richard of Pontiac, William of Oxford, Fred of Africa, Albert of Haiti and John of South Carolina; 22 grandchildren, 12 great-grandchildren and a brother, Ben Schenkle of Detroit.

Mrs. Blanch Compliment

UTICA—Service for Mrs. Blanch Compliment, 80, of 11009 23 Mile Rd. was to be held today in Portsmouth, Ohio, with burial there. Mrs. Compliment died here Monday.

Surviving are her daughter, Mrs. Catherine Media, with whom she has made her home for the past ten years; a brother, Jack Crom of Dayton, Ohio; a sister, Mrs. Rose Kale of Portsmouth, Ohio; nine grandchildren and three great-grandchildren.

Mrs. Emilia Ciborowski

UTICA—Services for Mrs. Emilia Ciborowski, 83, of 5350 Auburn Rd. will be at 8:30 a.m. Friday at Milliken Funeral Home here, and at 9 a.m. at St. Lawrence Catholic Church. Burial will be in St. Lawrence cemetery and Rosary will be recited at the Milliken's tonight at 8:30. Mrs. Ciborowski died Monday.

For the past five years she has made her home with her daughter, Mrs. Sarah Prawdzik, here. Surviving besides Mrs. Prawdzik are two other daughters, Mrs. Stella Kuzuwa of Springfield, Mass., and Mrs. Mary Kalinowska, Poland; ten grandchildren; ten great-grandchildren and three great-great-grandchildren.

LILLIAN CLEVELAND

Mr. and Mrs. Theodore R. Cleveland, 7192 Pine Knob Rd., Clarkston, announce the engagement of their daughter, Lillian Marie, to Larry Glen Johnson. He is the son of Mr. and Mrs. Glen W. Johnson, 2400 Mann Rd., Independence Township. Their wedding date has not been set.

COLEEN E. COLLIER

The engagement of their daughter, Coleen Esther, to James E. Raab is being announced by Mr. and Mrs. Wesley Collier of Oxford. James is the son of Mr. and Mrs. Raymond Raab of Lake Orion.

At Farmington, Southfield

Mains to Cost $1,783,000

FARMINGTON TOWNSHIP — Mains for a water system under consideration for the city and township here and five sections of Southfield will cost an estimated $1,783,000 Lawrence Pate of Payne and Hirn, engineering firm, has told Farmington Township representatives. This figure does not include cost of lateral.

Pate quoted his cost estimate at a conference with Township supervisor Albert Gain, Township Clerk Floyd A. Cairns and Judge Arthur E. Moore, who has been acting as the township's legal advisor on the proposed system. None of the board trustees were present.

Gain said he met with the others to discuss possibilities to consider the obligations of the different units and to see how the program can best be handled.

He explained that the next step will be a meeting with the Farmington City Manager and the Southfield supervisor.

He added, "It begins to look favorable, if we can get the backing of the people."

Orion to Try Again to Sell School Bonds

LAKE ORION—Unsuccessful in selling its current series of bonds at four and a half per cent interest, the Board of Education is asking again for bids.

First unit of the High School is being heated by a temporary plant installed yesterday.

First completed unit of the new school, for which furnishings are now being selected, will be the shop and home economic areas. Second semester use is expected.

Four new rooms were opened at the Carpenter School on Joslyn Rd. with students moving from Proper and Blanche Sims on Tuesday.

Utica Choral Cabaret to Be Friday Event

UTICA — A dancing and choral program has been planned by the High School Chorus. It will take place on Friday, at the Utica High School and will be called "Choral Cabaret" in-as-much that the gymnasium will be decorated to represent a cabaret.

The program will be from 8 p.m. to 11 p.m. There will be dancing to the high school swing band with a choral program planned from 9 p.m. to 10 p.m. Refreshments will be available all evening.

The high school chorus is under the direction of Stanley J. Salter. "Choral Cabaret" is open to the public.

To Plan Yule Rehearsals

WATERFORD TOWNSHIP — Rehearsals for their Christmas program will occupy members of the Luther League when they meet at 6:30 p.m. Sunday at Christ Lutheran Church. The program will be presented Dec. 23. Mrs. Leo Puglise is the director.

Set VFW Open House

KEEGO HARBOR—Veterans and their families are invited to the Heart of the Lakes Post 2706 VFW open house tonight at 8 p.m. at Memorial Hall at Orchard Lake and Summers roads. A film of the Veterans National Home at Eton Rapids and of Korea will be screened.

Square Dance Tonight

GINGELLVILLE — The Dandy Dancers, a group where couples may receive instructions in square dancing under Bill Morris's calls and instruction, will meet from 8 to 10 tonight, Mrs. Harold Van Camp, 3414 Gregory Rd., is taking reservations.

27 Pass Course for Bus Drivers

Southfield Staff Meets All MSU Requirements for Safe Driving

EAST LANSING — Twenty-seven area school bus drivers were awarded certificates for completing the recent Michigan School Bus Driver Education Program at MSU.

The drivers successfully met all the requirements of the 12-hour course, which included instruction in first aid, safe driving practices, the Michigan Vehicle Code, emergency procedures and the role of the school bus driver in the total educational program.

Those receiving certificates were: George A. Bingham, Raymond A. Durdin, Eileen H. Douglas, Marion A. Fowler, Virginia M. Gridley, Frances M. Hammar, Mildred J. Holtsberry, Clifford Hughes, Gladys J. Hydorn, Esther C. Joupperi, Jennie F. Kirkland, Lillian R. LaForge, Fannie Latvala, Milton McQuater, Clement M. Moore, Elenthea I. Nichols, Ila G. Ocheltree, Mabel G. Richards, Royal J. Riegle, Martha Mae Space, Lula M. Teufel, Dorothy A. Thompson, Goldie P. Waite, Isma Warren, Lydia I. Wiberg, Genevieve Williams and Llewellyn L. Wright, all of Southfield Public Schools.

The county superintendent's office cooperated with Michigan State in this program sponsored by the Department of Public Instruction, Lansing, and Michigan colleges and universities.

St. Paul Families to Join for Dinner

ROCHESTER — As December meeting of the WSCS of St. Paul's Methodist Church, a family night co-operative smorgasbord dinner is set for 7 p.m. tonight at the church.

Speaker will be Dr. Donald Schroeder of the Detroit Council of Churches, and cartoon movies will be shown the children.

Addison Aids CD

LEONARD — The Addison Township Board here this week appropriated $500 for Civil Defense use, for emergencies only.

Dec. 7 Deadline for Letter Return

Fluoridation Workers at Waterford Expect Favorable Response

WATERFORD TOWNSHIP — Some 1,500 letters from the Topical Fluoridation Committee have been sent home this week with pupils from three elementary schools — Jayno Adams, Waterford Village and Williams Lake.

This is the first time topical fluoridation has been offered in this area and the committee is hoping for 100 per cent participation of all eligible children.

This kind of response would greatly enhance the future growth and expansion of the treatment program. However, officials emphasized the present trial program is limited to the three schools.

The committee expressed their desire that parents read the letters carefully and indicate their interest in fluoride treatments for their children by signing the letter and returning it to school by Friday, Dec. 7.

Success of the topical fluoridation program will depend on the response to these letters, according to Mrs. Robert Brown, of Williams Lake School, who has charge of their distribution. She pointed out that after the letters are returned and counted, the committee can make arrangements with the state health department for the loan of equipment.

Other chairmen on the committee, Mrs. Clare Novess of Jayno Adams School, and Mrs. John Hoke of Waterford Village School, anticipate a huge return of these letters.

Charity Ball Saturday at Oxford

OXFORD—The Junior Women's Club's annual Charity Ball will be held Saturday evening, at the High School auditorium.

Dancing will be from 9 to 1 o'clock.

This group has rendered a great service for needy persons in the community; dental bills have been paid; shoes given for needy children; Kleenex and rubbing alcohol has been furnished to the convalescent homes, plus numerous other services.

Accuse Almont Justice of Deposit Shortages

LANSING (AP) — Discrepancies totaling $1,787.40 have been found in the accounts of J. David Sullivan, Almont justice of the peace, Auditor General Frank S. Szymanski has announced.

In a letter to Kenneth Plaxton, Gratiot County prosecuting attorney, Szymanski said Sullivan had failed to deposit $1,591.30 in fines and bonds and $196.10 in costs with the county treasurer as required by law.

He said the justice's accounts were checked with criminal cases records and files of the sheriff, State Police, State Highway Department and other state agencies.

The leter asked Plaxton to require the deposit of the fines and costs and to "take other action against Justice Sullivan as may be legally required."

Slate OES Potluck

OXFORD — Chapter 266, OES here, will have a potluck dinner and officers' practice at 6 tonight at the Masonic Temple, with a regular meeting to follow.

Crushed by Tractor

MAYVILLE (INS)—A 14-year-old Mayville youth died Tuesday of injuries shortly after a tractor he was operating on his family's farm overturned and crushed him. The victim was Maurice Terbush.

Addison Drops Caucus to Try Primary Voting

LEONARD — Addison Township is switching over from the old-style caucus system to the primary system of election. Addison is one of the last townships of the area to make the change.

Township Clerk Robert McCallum said today that he has nominating petitions for anyone who wants to file for the coming spring primaries. They can be obtained at his Elmwood avenue home in Leonard.

Deadline time for filing the petitions is 5 p.m. Dec. 31, he cautioned.

McCallum added that nominees must have one per cent of registered voters of the township sign the petition, and not over four per cent.

There are 832 registered voters in Addison Township.

Expect 200 at Dinner, Tour at Rochester

ROCHESTER—A dinner for 200 persons including the Board of Education, their wives and the faculty is being served this evening at 6:30 in the new High School Cafeteria.

Following the dinner a tour of the new school will be made with the teachers acting as hosts and hostesses.

D. C. Baldwin said today that as soon as the science room equipment is installed, a date will be set for the open house for the community.

Special Session to Mull Water System Question

FARMINGTON TOWNSHIP — A special meeting of the township board will be held Thursday at 8 p.m. at Town Hall to discuss the advantages and possibilities of the township taking over operation of the water system of section 26, now in receivership. Archie Leonard, township attorney, and Joseph Lynch, receiver for the system, are to be present.

New Hudson WSCS Slates Sale and Meal

NEW HUDSON—The WSCS of the New Hudson Methodist Church will feature booths of fancy work, aprons, and baked goods as well as a 1 p.m. luncheon at its annual bazaar tomorrow at the church. The public is invited to attend.

Jaycees Seek Man of Year

Outstanding Males to Be Considered for Title; Dec. 24 Deadline

WATERFORD TOWNSHIP — Who is Waterford Township's outstanding young man of the year is the question to be asked of groups and individuals this month by Junior Chamber of Commerce members.

• • •

Letters suggesting candidates, with mention of the person's accomplishments in his work, home-life, church and community, will be received by C. W. Goulet or Delwin Richardson, co-chairmen of the annual Jaycee contest.

Nominees must be between the ages of 21 and 35. Deadline for the entry letters is Dec. 24.

Announcement of the winner will be told at the Jan. 14 Jaycee dinner meeting.

Wilson Gardner Joins Slate at Waterford

WATERFORD TOWNSHIP — Wilson Gardner joined candidates for township clerk here as a complete slate was formulated by Republicans meeting Tuesday night at the township hall.

Joining in seeking the vacated clerk's post, Gardner is an employe in the township assessor's office. It will be his first time to seek elective office. He lives at 3700 West Walton Blvd.

MR. AND MRS. RICHARD GRAY

Richard Grays Residing in Oxford After Wedding

LAKE ORION — Suzanne Elizabeth Elliott of Lake Orion became the bride of Richard Gordon Gray last weekend, and the newlyweds are making their home at 18 Mechanic St., Oxford.

• • •

Their parents are the Wayne E. Elliotts of 165 Schorn Drive in this community, and the Victor Grays of 516 Ludlow, Rochester.

For the evening wedding rites in St. Paul's Methodist church, the bride chose a bouffant, floor-length dress with lace top, long sleeves and net skirt. She carried a white orchid surrounded by white chrysanthemums.

Aiding her were Mary E. Hunt as maid of honor, Mary E. Landon and Karen L. Page, all of whom wore grape-colored, velvet and lace gowns and carried pink flowers.

Best man was William Gray of Rochester, while ushers were Frank Schlereth and Marvin Middleton.

After the ceremony viewed by 325 guests, the couple received at the Avon Park Pavilion in Rochester.

Pilgrim Church Plans 2 Events at Metamora

METAMORA — Dr. Edward Willcox, minister for the Congregational Assn. of Detroit, will talk at a special board meeting at the Pilgrim Congregational Church at 7:30 tonight at the church.

The church's fellowship supper is set for Saturday at 5 p.m.

Masons Set Election

METAMORA — The Metamora F&AM will hold its annual meeting tonight at 8, with election of officers in the business session following an oyster supper.

Veteran Trouble Shooter

Hungarian Relief Aide No Stranger to Problems

By C. YATES McDANIEL

WASHINGTON (AP) — Tracy S. Voorhees, the veteran trouble shooter named by President Eisenhower to get the Hungarian refugee program on the track, sees himself as a host to friends in need and not a bureaucrat out to build another government agency.

Voorhees, a 66-year old New York lawyer, well knows the difference between the two roles. He's been handling tough government situations ever since World War I.

He got his first experience and abiding interest in helping large numbers of troubled people from former President Herbert Hoover who achieved worldwide acclaim for his work in helping war-distressed people.

Voorhees served in 1939-40 as assistant director of organization for the Finnish Relief Fund during Finland's bitter winter stand against the Russian invaders.

When Eisenhower chose Voorhees to pull together the Hungarian refugee program, the chief executive picked a man who has spent most of the last 16 years straightening out complicated projects at home and abroad.

Voorhees holds academic degrees from Rutgers and Columbia Universities. He handled his first government red tape as a lawyer with the bureau of imports in the war trade board in World War I.

When Voorhees got word of his new assignment, he was working at the Pentagon as a consultant in the touchy business of military research and development now being done for the western allies by non-American scientists.

Within hours after his new appointment, however, refugee coordinator Voorhees was in his new White House office conferring with people already involved in the problem.

He lost no time in dispelling any idea that he meant to ride roughshod over government and private agencies trying to help the Hungarians. To all who conferred with him, the president's coordinator gave assurances that he will not displace anybody and would "not cast reflections on the way the program has been run so far."

Voorhees was equally positive in saying he intends to give "meaning to the president's call for leadership in making a real thing of the deep American spirit of welcome for people in their deplorable situation."

Jerry Galvin, approaching his 100th birthday in Estherville, Iowa in August 1956, boasted that "I'm growing a whole new head of hair."

Dumb Thiefs

FORT WORTH, Tex. (AP)—Railroad special agent L. R. Troxell had no trouble tracking down four men who broke into a box car and stole a number of straw hats. The floor of the box car was covered with white lime. Troxell just followed the white footprints in a nearby hobo jungle and arrested four men wearing new straw hats.

Special delivery of mail in the United States has been in effect since 1855. The postal money order system dates back to about 1864.

Wow! That's Service

INDIANAPOLIS (AP) — Mrs. Robert Hodge Sr. got unexpectedly good service the other day when her house started to burn. As she hung up the telephone receiver, fire trucks pulled up in front of the house. Lt. John F. Hildwein had seen the smoke coming from the roof from his fire station only a half block away.

It is estimated that 3,500,000 persons left American farms to dwell in cities in the period 1940 to 1950.

A Fishy Story

POTTSTOWN, Pa. (AP) — George Keller thought there was something fishy about his water supply and he was right. Experiencing low pressure, Keller removed the kitchen spigot and out rushed the water and a small fish. "It must have come in through the water system," Keller commented.

Wheat covers more of the world's farm lands than any other crop and is grown in all 48 American states.

Quick Credit Service

CHICAGO — Gasoline - station credit service that takes only about 30 seconds is being tried by at least one large refining company. The system uses a featherweight plastic credit plate and mounted mechanical imprinters. Dealers pay an annual rental for the machines, which are installed and maintained by the company.

Canada's total area is about three per cent larger than all of the United States including the Territory of Alaska.

Continue Reduction in Height

Future Autos to Be Low

NEW YORK (AP) — The 1957 model cars are lower than any the auto industry yet has built but they are going lower.

How the car makers achieved the sharply reduced height of the cars will be demonstrated in cutaway models at the national automobile show opening here on Saturday. Generally the car makers have dropped the floor down between the frame siderails and cut down somewhat on road clearance. They say despite these changes headroom has been increased.

The new 14-inch diameter wheels with smaller tires had only a small part in the reduced height. The 14-inch diameter tires are standard on many of the new models. They put more rubber on the road and contribute less than half an inch to the lower silhoutte.

Suspension systems figure in the over-all height of the car. So, too, does the much flatter roof.

Right now suspension systems are getting increasing attention from the car designers. Some makes for 1957 have replaced front-end coil springs with torsion bars, coupling them with devices designed to eliminate front-end dip when brakes are applied.

* * *

A future major change in car suspension systems undoubtedly will be application of so-called rubber-air springs. This type of springing has been used in some trucks and coaches for several years. Cadillac has announced it as a feature of its new Eldorado Brougham, a prestige model that will go into limited output in January.

AIR SUSPENSION

Firestone Tire & Rubber Co. has announced plans for a new plant to permit increased production of air springs. Rubber company engineers say use of the air bellows suspension system will permit future cars to be constructed lower than any automobiles mass-produced so far.

In the Firestone system a variable volume of air is encased, like in an auto tire, in rubber and nylon to cushion the shocks of the road.

Beyond the suspension system of course, the vehicle designers and engineers are working on fuel systems, power plants, automatic transmissions, more powerful brakes and other means of improving deceleration along with means of reducing fuel waste and making cars safer to drive.

Obviously, all this research promises some far reaching changes in the cars that will be mass-produced five years from now. As far as passenger cars are concerned fuel injection probably is the first major engineering innovation since the introduction of automatic transmissions shortly before World War II.

* * *

First to announce fuel injection for passenger cars was GM's Chevrolet division. More recently Pontiac division disclosed that it, too, has developed and will start limited production of a V-8 engine with a fuel injection system. The system will be adapted first to Pontiac's Bonneville model, a sports convertible car which will be shown for the first time at the auto show here.

Pontiac plans to put the Bonneville model in production early next year, but has announced it will be sold initially for dealer use only. The purpose of this, Pontiac announced, is to "gain production experience with the new injection system before it is made available to the public."

A so-called "hill-retarder" has been built into one of the newer automatic transmissions for 1957. There is a position on the transmission selector plate that creates a turbulence in the oil in the converter. The turbulence sets up a drag on the rear wheels to help slow down the vehicle.

* * *

The engineers long have sought a method of getting the engine to help slow itself down without damaging the entire power train.

City Teacher Joins Advisers' Meeting

Robert Beauchamp, Pontiac High School English instructor and adviser of the school's paper, the Tomahawk, will participate in a 24-hour conference for southern Michigan school publication advisers this weekend.

Scheduled at Haven Hill Lodge and sponsored by the Michigan Interscholastic Press Assn., the conference will feature three University of Michigan Journalism professors as speakers.

* * *

Beauchamp will head a panel "Ideal Journalism Facilities for the Secondary Schools" and will participate in another "The Secondary Schools Journalism Program."

A big advance registration is reported for the conference, Beauchamp said.

The U. of M. instructors attending the meeting include Professor Kenneth N. Stewart, James C. MacDonald, assistant professor of journalism; and John V. Field, also an assistant professor.

Teenage Players Display Talent on School Stage

By JANICE HAYHOW

Pontiac High School Playcrafters took the story of a reform school boy's re-initiation into public society, whizzed through it like veteran performers and enjoyed the whole thing thoroughly.

"Dino" was presented last night in the high school auditorium and was directed by Mary Parrish.

Constantine Sousanis portraying the title role made the highly rebellious and sullen Dino come alive.

His introduction to a settlement house and psychotherapist were made easier by the friendliness of the shy office worker, Shirley Wallace, played by Donna Chilvers.

In tough roles well handled were Judy Levine, Robert Thompson and Thomas Holler as Dino's mother, brother and father, respectively.

"Dino" will again be presented Friday night at 8:15 in the school auditorium. Playing the leading roles as alternates will be Don North as Dino and Rosalie Lake as Shirley the office worker.

Check Cholera in India

NEW DELHI (AP) — The Indian government announced today that 246 persons by official count died in a cholera outbreak during the last week of November in the south Indian state of Andhra Pradesh. The government said the epidemic appeared to be under control.

Fire Chief Bans Trees

NORTH ADAMS, Mass. (AP) — There will be no Christmas trees in the public and parochial schools of North Adams this year. Fire Chief Arthur A. Giard said he banned them as a fire hazard under power granted him by law to regulate the fire safety of buildings used by the public.

Stores Are Laden With Handsome Selections in Line of Men's Clothing

Many fortunate men will receive just the clothes they wanted this Christmas. Others, not so fortunate, will receive a raft of unusable clothes bought in stores in cities so far away they couldn't be exchanged with a 110-foot pole.

The key to the situation is a wife or mother.

Women who wash and mend a man's clothes generally know exactly what he needs. If shirts are giving out at the collar or if a favorite sports shirt wore out, she knows.

Casual clothes are almost always welcome. A man may have a uniform or near-uniform to wear while working, but he has more latitude in choice of leisure clothes.

A sleeveless sweater of orlon (Lord Jeff makes one) can be worn for warmth on cold days but also can be worn with slacks or wash pants during off-work time. To go with this tubbable item, a dacron shirt, by Ramey, and a dacron tie, by Superba, are good choices. All wash, a benefit in casual clothes.

A colorful wool vest is another good choice in casual clothes. It can be worn around the house or makes a splendid garment for a host.

One, by Currick & Leiken, is in lightweight wool worsted plaid, black, red and pale yellow. Brass buttons with a Scotch thistle emblem finish it off.

Holiday sparkle for the man of the house comes with a sports shirt made with shiny Lurex threads. The shirt is washable, being made of rayon, and comes in tan with copper, gray with gold or light blue with silver.

An "olympic" coat is a good solution to the problem of trying to make a topcoat or overcoat look correct over casual or outdoor work clothes. These coats, known by a variety of names, have big patch pockets, frog closings and a hood. They are sturdy, warm casual wear.

* * *

Corduroy is a prime fabric, both in popularity with men and in use by designers of clothes that make good gifts. Caps, in stripes and plaids, are done in corduroy to make ideal gifts from short-budgeted younger members of the family.

Gifts that mom and the kids can co-ordinate come in corduroy, too. One designer has made a cap and slacks set in two-tone combinations.

A sport jacket of printed striped corduroy is done by the Zeeman clothing company. It has brass buttons on sleeves and front.

OLYMPIC COAT — Is a gift that will be worn right away. Coat and hood are alpaca lined for warmth.

Corduroy slippers (again, a good choice for a child's gift) to go with robes, generally please the kind of man who likes Sunday breakfast late and relaxed.

Driving gloves in good quality won't be cheap, but most men need and use them. The fingers should articulate with ease and the fit should be perfect. These, incidentally, should not be dried after a session of snow shoveling, on top of the furnace.

* * *

The tie, ever present, is something one should buy only if one is perfectly sure of a man's taste. The tie is the place where even the most conservative man shows his flair and he's fussy about it. Now on the tie racks is a button-down tie that won't flap in the wind. One, by Smoothie Button Down, is of washable dacron.

STAND-BY GIFT—The tie moves to light colors for wintertime. This one is Dacron. Can be washed.

8-Man U.N. Team Begins Planning in Suez Canal

AMSTERDAM (AP) — Eighteen salvage experts of the United Nations, the Netherlands and Denmark left for Athens to begin planning the clearance of the Suez Canal.

The eight-man U.N. group is headed by retired U.S. Gen. Raymond A. Wheeler, appointed by the United Nations to supervise canal clearance. The 10 Dutch and Danish salvage experts include four divers.

A contract between the U.N. and the Dutch and Danish general contractors for clearing the canal was signed yesterday.

'From Your Home Town'

Gifts to Men in Service 12-Months Job for Village

MILAN (AP) — A Christmas-time assembly line of good cheer is rolling again to assure Milan's servicemen that their hometown hasn't forgotten them.

In a program believed to be unique, this southeastern Michigan village of 3,000 is packing up the gifts that for seven straight years have gone to its men in service at home and abroad.

Contents of the gaily wrapped boxes are simple — homemade candy, stationery, books and toilet articles. But those who make them up know their real value is in the tag reading, "From your home town."

The project, started in the Korean War, has been kept alive by Mrs. Melvin Flower and her fellow members of the Milan Servicemen's Committee.

Mrs. Flower, corresponding secretary, reports: "We get dozens of letters after the holidays, thanking us. Nearly every man tells how much he appreciated the package because nobody else in the barracks got a present like it."

"We know it must make them feel good to have tangible proof that a whole community remembers and appreciates them."

The program was started in 1950 when Ted Woodruff, recalling his own lonely days as a soldier, thought of sending gifts from the community to hearten Milan's men in Korea.

He didn't have any cash on hand but he got a group together to borrow enough money to send $5 to each of the village's servicemen. Then the loan was repaid by raffling off a pig, holding a fish fry and by donations.

The next year townsfolk pitched in to wrap packages in boxes supplied by a local store. The banker, the baker and other merchants joined individuals in contributing gifts.

Then Milan's Community Council voted to turn over $300 a year from the annual Red Feather drive to pay for sending the local newspaper to each serviceman. That service goes on the year around.

* * *

This year there are 85 men on the servicemen committee's constantly changing address list. Packages are packed and wrapped on an assembly line basis and sent off to arrive as near Christmas Day as possible.

Mrs. Flower has the chore of keeping a record of addresses, birthdays, inductions and discharges. She lets servicemen know when a fellow resident of Milan is stationed within visiting distance of his base.

"I write and receive hundreds of letters a year," said Mrs. Flowers, who had four sons in service herself. "I know what a comfort those letters are—and what our gifts mean to the boys away from home."

A Very Bear Burn

JACKSON (AP) — Susie the bear did a slow—and painful—burn when somebody tossed a lighted cigarette in her cage. The cigarette landed on Susie's head, setting her fur afire. Susie, a 25-year-old Kodiak bear who's not as spry as she used to be, managed to put the fire out by rubbing against the cage bars.

Games Give Family Fun Year-Around

Many games on sale this Christmas will be more realistic and will lay more emphasis on all-family participation.

One of these, "Scoop," offers the fun of editing a newspaper. Players get to use a dial telephone for calling the editor Each player receives a blank newspaper page and scoop cards. The object is to go to press before your opponents

Increased interest in religion makes "Going to Jerusalem" topical at Christmas time The players become familiar with wellknown Scriptural verses The theme is a journey through the Holy Land with the Twelve Apostles

Equipment for "Going to Jerusalem" includes Gospel cards, New Testament cards, a complete edition of the Four Gospels, 12 playing pieces and identification rings The playing board is a colorful map showing the ancient route to Jerusalem The player who gets all his playing pieces to Jerusalem first wins the game

A game designed specifically for youngsters is "Little Noddy's Taxi Game"

Four little taxicabs around Noddyland picking up friendly passengers and driving them to their destinations Each player has a taxi The object is to collect as many fares as possible Players lose some of their money by paying at toll bridges and for repairs All the moves are controlled by a specially designed taxi meter

Games for dad and lad are popular this Christmas, too. "Baseball and Football" supplies competition for all members of the family

The players throw feathered suction darts at a three dimensional target that whirls when struck After each play is registered on the scoring board beneath, the teams on the board are shifted to new positions One side of the board is the baseball diamond and the other is the gridiron

A prize fighting game, "Knockout," permits players to move their boxers in every direction with fistic rights and lefts under full control There's a bell for timekeeping; a light and buzzer mark knockouts

An Indian marble game, "Kippy Koo," is strictly for the little ones Different colored marbles represent racers as four friendly tribes vie to win the race. The tribes challenge each other to races and the first player to bring marbles around the track wins

About five per cent of the U.S. electric energy is generated by municipal plants.

Dulles Has Recovered; Fit for Normal Duties

WASHINGTON (AP) — A medical report said today Secretary of States Dulles "has made a complete and full recovery" from his cancer operation and "is now fit for full resumption of his normal duties."

This assessment of the secretary's condition was made by Maj. Gen. Leonard D. Heaton, commanding officer at Walter Reed Hospital, who operated on Dulles; and Dr. A. D. Baughten, who assisted in the operation.

A section of intestine was removed in the Nov. 3 operation.

More than half of the 26,000 retail lumber dealers in the United States are located in towns of under 5,000 population.

Blind Get Leader Dogs Donated by Area Residents

Two more area residents have donated their personal pets to the Leader Dog school at Rochester in an effort to aid the blind.

Miss Alice Parker, 2678 Walnut St. and John Kremkon, 5365 Tubbs Rd. Waterford Township each gave their German Shepherd dogs for training which began in early July.

The new owners took over training with the dogs November 1st.

From the time "Girl" and "Shadow" entered the school, they were put through a rigorous training program. They have learned about hazardous conditions such curbs, low hanging branches, awnings, puddles and everything else that might be dangerous to their sightless masters.

Students discover that using a Leader Dog requires only the ordinary application of common sense. A dog does not read traffic lights, but crosses the street upon command from the master, who has studied the pattern of traffic.

More than four hours of street training daily, plus navigating through Christmas crowds in downtown Pontiac, got to make up part of the schedule for the trainee.

When the new dog owners left Rochester for their home in Indiana, recently, each man had been trained to work as a coordinated team with their individual animals.

Many months of additional "seasoning" will still be needed to eliminate minor problems and distractions that may occur in their new surroundings, according to training school officials.

Cooler Residents

ST. PETERSBURG, Fla. (AP) — St. Petersburg calls itself the Sunshine City — but its special telephone directory which lists the phone numbers in numerical order has these names following each other in succession:

Lloyd S. Ice, Miss Ruth C. Snow and Mrs. Harry M. Frost.

The listing was purely coincidental.

From the Press Box

By BRUNO L. KEARNS
Sports Editor, Pontiac Press

Way down in the blue-grass state of Kentucky, in the land of the thoroughbred and the Kentucky Colonel, basketball frenzy takes over every winter.

Anyone following the sport knows how the University of Kentucky had dominated the cage picture year after year. In fact the year of Groza, Jones and Beard, three All-Americans on one team, was considered the greatest basketball team ever assembled.

★ ★ ★

In recent years Western and Eastern Kentucky have moved into the national limelight, but the latest scourge out of the blue-grass state has been Louisville.

"PECK" HICKMAN

Under coach Bernard "Peck" Hickman for the past 12 years, the Cardinals have won 256 and lost only 78.

Last year Louisville zoomed to its greatest glory, finishing as the second best team in the country and walking off with the N.I.T.

The city of Louisville went wild over its basketball team. When the Cardinals returned from New York last March a crowd of 20,000 gave the team a reception at the airport.

Louisville newspapers claimed in print "the reception was far greater than the one Ike got during his visit in 1952."

★ ★ ★

This year before the season even got under way all of the sports publications were practically conceding the national championship to the Cardinals who have all but one regular from 1955-56 powerhouse returning.

TYRA IS A GREAT PLAYER

We had the opportunity to see Louisville in action on three occasions last year, and there is no doubt in this corner why everyone is so high on coach Hickman's squad.

Just look at this roster. The starting forward is 6-10, the starting center Charley Tyra is 6-8, and the reserve center is 6-9.

There are two players 6-6, three players 6-5, one is 6-4, two are 6-3, three at 6-2, two at 6-1 and one "shortie" 5-11.

The 5-11 player is a sophomore so by next year he should be one of the boys.

★ ★ ★

Tyra, who is on everybody's All-America team this year, is one of the best "big" men we've ever seen. Tyra isn't just a good shot. He dribbles like a guard, is a tremendous rebounder, has a hook and a jump shot and has terrific speed.

Coach Hickman modestly says, "Tyra makes anyone a great coach." Hickman, whose team visits U. of D. tonight, has been a guest of sportwriters in Detroit this week.

The writers got the biggest chuckle when Hickman, like a typical "optimistic" coach, commented, "we should have a fair season."

How the Titans plan to stop Louisville remains to be seen. Sharpshooting Bill Ebben might match Tyra in points, but as one of the writers asked, "who's got the stilts."

Former Lion Players Meet for Reunion

DETROIT (INS)—More than 50 former Detroit Lions players are expected to attend the 6th annual Lions alumni reunion this weekend.

The former players and their wives will convene at the hotel Statler Saturday and after a short meeting will be guests of the Detroit Football Co. for dinner and dancing.

The group will attend Sunday's Pittsburgh game in one party.

Big 10 Crowds Set 10 Marks

Several New Records Included at Michigan Grid Games

CHICAGO (AP) — Ten attendance records were set by big ten football teams during the 1956 season.

An all-time high of 3,314,239 fans and an average of 58,144 for 57 games highlighted the records, which were made possible by enlarged stadiums at five schools.

* * *

The new overall records represented an attendance increase of 6.1 per cent over last year. The records included new all-time highs at five conference stadiums whose seating capacity was increased.

The records:

TOTAL ATTENDANCE (57 games) — 3,314,239 (old record 3,121,649, 57 games, 1955).
AVERAGE ATTENDANCE, all games (57) — 58,144 (old record 55,099, 55 games, 1949)
TOTAL ATTENDANCE, CONFERENCE games only (33) — 1,927,312 (old record 1,876,943, 33 games, 1955)
ONE GAME — 101,001, Michigan State at Michigan (old record 97,369, Ohio State at Michigan, 1955)
ONE TEAM, home season — 568,093, Michigan, 7 games (old record 563,362, Michigan, 6 games, 1949)
IOWA STADIUM — 57,732, vs. Ohio State (old record 53,358, vs. Minnesota, 1953)
MICHIGAN STADIUM — 101,001, vs. Michigan State (old record 97,369, vs. Ohio Stte, 1955)
MICHIGAN STATE Stadium — 58,856, vs. Indiana (old record 52,619, vs. Purdue, 1954)
OHIO STATE stadium — 82,861, vs. Stanford (old record 82,848, vs. Michigan, 1948)
WISCONSIN stadium — 56,045, vs. Northwestern (old record 53,529, three games in 1955)

Redleg Rookie Is Cuban Card

CINCINNATI (NEA) — Ulfus (Chico) Alvarez, Cincinnati's recruit Cuban outfielder, may prove a stern test for Manager Birdie Tebbetts' linguistic ability.

Playing in a Colombia winter league in 1955, Alvarez missed a pitch, but continued to swing until his bat hit the catcher. He trotted to first base, claiming interference by the catcher.

On another occasion, he came to bat with his cap pulled down over his eyes.

"Me fool pitcher," he said. "He not think I'm looking."

Lions Fear Letdown Against Steelers

DETROIT (INS) — The Detroit Lions will be fighting against the danger of a let-down Sunday when they close out their home season against the Pittsburgh Steelers.

The Lions rose to enormous heights last week in humiliating the powerful Chicago Bears, 42 to 10, to retake first place in the Western Division of the National Football League.

Detroit coach Buddy Parker called the Bear contest the best game the Lions had played in his six seasons with the club.

However, the same Mr. Parker commented this week:

"I'm really worried about the Pittsburgh game. We know they have a fine club and we must be ready if we hope to win."

* * *

Coach Walter Kiesling's Steelers drubbed the Los Angeles Rams 30 to 13 last week and should be more than ready for Detroit.

* * *

Pittsburgh's gridders probably still remember how they tangled with Detroit last season and were edged 31 to 28 when a Steeler pass play was halted on the one-foot line as the game ended.

Missing from the Lion squad Sunday will be halfback Jug Girard, who suffered a rib injury against the Bears.

It was Girard who threw a pass instead of kicking when he was back to punt on fourth down at one point in last week's massacre of the Bears.

* * *

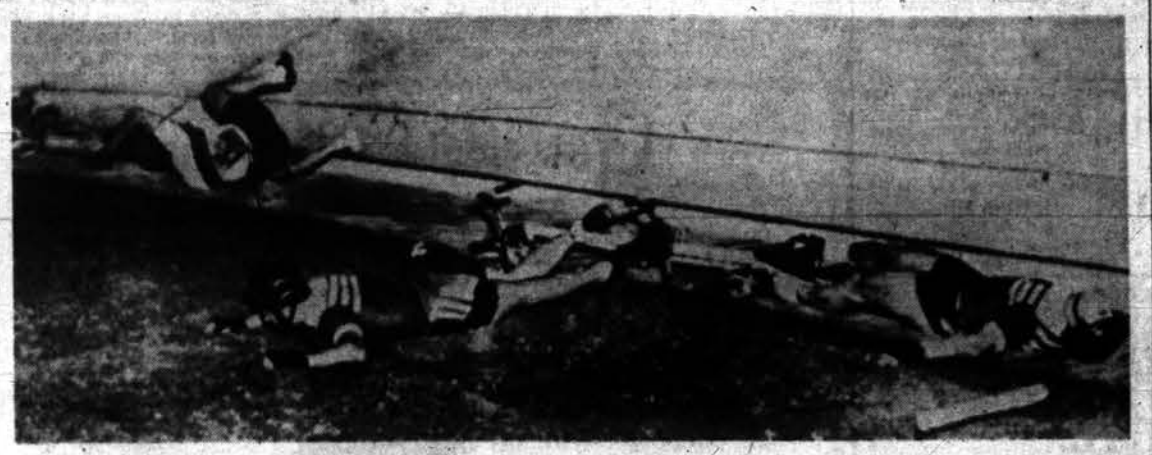
Guard Jim Salisbury, who missed the Bear game with a shoulder injury, will return Sunday. Also due back is tackle Gil Mains, who has recovered from an ankle fracture.

The Steelers have three men who played their college ball in Michigan. They are quarterback Ted Marchibroda, the former University of Detroit passing ace; halfback Lou Baldacci of Michigan, and guard Marv McFadden of Michigan State.

While Detroit tussles with Pittsburgh, the Bears—only a half game behind the Lions—take on their intra-city rivals, the Chicago Cardinals.

* * *

If both the Lions and the Bears win Sunday, their return match in the windy city Dec. 16 will be the big showdown battle.



AP Wirephoto

CRASH LANDING AT OLYMPICS — The Russian tandem pair, foreground, and German cyclists, background, are sprawled out on the saucer track after colliding during a heat of the Olympic 2,000-meter tandem race at Melbourne this week. The three riders were taken to the hospital with bad bruises. Accident occurred when one of the cyclists hit the cement curb of the saucer-like stadium.

Russians Take Games' Lead

MELBOURNE (AP) — Russia forged ahead of the United States in the unofficial Olympic point table today by scoring in the men's gymnastics, Greco-Roman wrestling, fencing and swimming while Uncle Sam's swimmers failed to win gold medals in three swimming finals.

* * *

The United States women's 400-meter relay team swam second to the speedy Australian quartet which set a new world's record of four minutes 17.1 seconds in the event.

* * *

Japan's Masaru Furukawa broke his own Olympic mark with a 2:36.1 winning performance in the men's 200-meter breaststroke final in which America had no finalist.

The United States could do no better than third in the men's 100-meter backstroke final, won by America in every Olympics except once since 1912. Australia's Dave Thiele beat his favored teammate John Monckton and broke Monckton's Olympic record in 1:02.2. Frank McKinney Jr., of Indianapolis was third. Al Wiggins of Pittsburgh was seventh and Yoshinobu Oyakawa, of Honolulu, the defending champion, was eighth and last.

* * *

With gold medals in one wrestling final and one men's gymnastic event and a tie for first in another gym class, point plus third in fencing and a third and fifth in the men's breaststroke, Russia had approximately 550 points to America's 543½ with many events to go on the night's program.

George Breen, Buffalo, N.Y. swimmer who lowered the world record in the 1,500-meter trials; will carry America's hopes all by himself against Australia's Murray Rose and Japan's Takeshi Yamanaka in tomorrow's eight-man 500-meter freestyle final.

Breen broke Rose's record with a 17:52.9 performance in a heat after the young Australian had cracked the Olympic record by just beating the Japanese swimmer in another heat.

* * *

Two U.S. girls—Marley Shriver of Glendale, Calif., and Sylvia Ruuska of Berkeley, Calif. — will try to pick up points in the 400-meter freestyle final.

The Olympics end Saturday with the championship soccer game between Russia and Yugoslavia and the closing ceremonies. Tomorrow actually will be the last day of full competition.

* * *

Mrs. Pat McCormick, the Lakewood, Calif. housewife who is trying to repeat her 1952 success as a double diving champion, ranked fourth after the preliminary qualifying competition in platform diving. Mrs. McCormick already had won the springboard title.

* * *

Two Russian girls showed surprising ability in the platform event and ranked second and third behind Paula Jean Myers of Glendora, Calif. in the qualifying round of four dives. Mrs. Juno Irwin of Glendale, Calif. was fifth.

The women will conclude their competition for the gold medal tonight, Mrs. McCormick invariably shows her greatest strength in the final dives.

Raissa Gorokhovskaia and Tatania Karakachiants were the shapely Russian girls whose unexpected performance was likely to pick up a few points where they never had scored before.

* * *

Russia started to pile up its expected bundle of points in the men's gymnastic field where Albert Azarian won the rings competition with a spectacular voluntary exercise. Russia's Valentine Mouratov was second.

Another Russian point harvest began in the Greco-Roman wrestling events where Valentine Nikelaev won the gold medal in the light heavyweight class.

* * *

Olympic Games Results

SWIMMING

Men's 100-Meter Backstroke (Final)
1—David Thiele, Australia, 1:02.2 (Olympic record; old record 1:03.4, by John Monckton, Australia, in preliminary heat); 2—John Monckton, Australia, 1:03.2; 3—Frank McKinney Jr., Indianapolis, 1:04.5.

Men's 200-Meter Breaststroke (Final)
1—Masura Furukawa, Japan, 2:34.7 (Olympic record; old record of 2:36.1 set by Furukawa in preliminary heat); 2—Masahiro Yoshimura, Japan, 2:38.1; 3—Kharis Iounitchev, Russia, 2:38.8.

Men's High Diving (Final)
1—Joaquin Capilla, Mexico, 152.44; 2—Gary Tobian, Los Angeles, 152.41; 3—Richard Connor, Pasadena, Calif., 149.79.

Women's 400-Meter Relay (Final)
1—Australia (Dawn Fraser, Faith Leech, Sandra Morgan, Lorraine Crapp), 4:17.1 (world and Olympic record, former world record 4:19.7 by Australia, Oct. 1956; former Olympic record 4:24.2 by Hungary, 1952); 2—United States (Sylvia Ruuska, Berkeley, Calif.; Shelley Mann, Arlington, Va.; Nancy Simons, Belvedere, Calif.; Joan Rosazza, Torrington, Conn.), 4:19.2; 3—South Africa, 4:23.7.

FENCING

Men's Individual Sabre (Final)
1—Rudolf Karpati, Hungary, 6-1; 2—Jerzy Pawlowski, Poland, 5-2; 3—Lev Kouznetsov, Russia, 4-3.

WRESTLING (GRECO-ROMAN)

Bantamweight
Edvin Vesterby, Sweden, defeated Francisco Hivart, Romania.

Heavyweight
Adelmo Bulgarelli, Italy, defeated Hans Antonsson, Sweden; Wilfried Dietrich defeated Hamid Kaplan, Turkey; Anatoliy Parfenov, Russia, defeated Adelmo Bulgarelli, Italy (Parfenov wins gold medal).

Change Made in Deal Between Detroit-A's

JACKSONVILLE, Fla. (AP) — The Detroit Tigers thought they were getting pitcher Ed Blake in their eight-man deal with Kansas City. They're going to get Jack Crimian instead.

Commissioner Ford Frick turned thumbs down on the swap of Blake because the Athletics had just drafted him from Toronto of the International League.

Frick said the draft rules state that a drafted player must remain with the Major League team until at least March 25.

So Kansas City substituted Crimian, a righthander who had a 4-8 record in the American League last season.

Manager Jack Tighe of the Tigers said he's just as happy Frick made the A's change the pitcher.

"We tried to get Crimian in the trade when we first started talking," Tighe said. "We'll use him in relief."

* * *

The big man in the swap from the Tigers' viewpoint was infielder Jim Finigan. Detroit also got first baseman Eddie Robinson and pitcher Bill Harrington who was assigned to Charleston, plus $2,000 in cash.

The Tigers gave up pitchers Virgil Trucks, Ned Garver and Bob Host plus first baseman Wayne Belardi.

The deal is the first one completed by the Tigers under their new ownership. But reports persisted at the Minor League meetings here that the club is still in a wheeling and dealing mood.

* * *

The Tigers want additional pitching strength and at least one more outfielder before the season opens. And they have expressed a willingness to part with catcher J. W. Porter, first baseman Earl Torgeson and possibly outfielder Bill Tuttle if the deal were big enough.

Ray Moore of Baltimore and Dean Stone, the Washington lefthander, are among the trade possibilities, according to sources close to the club.

It now appears doubtful, though, that the Tigers will swing anything more until at least next week, when the Major Leagues meet in Chicago. So far, no other Major deals have been completed at the Minor League sessions.

AP Wirephoto

SUBSTITUTED — Kansas City Athletic pitcher Jack Crimian was sent to Detroit in place of Ed Blake by order of baseball commissioner Ford Frick yesterday. Blake was one of the players involved in Monday's 8-player deal, but he must remain with the A's through March 25th before being traded.

Five Sooners Agree to Play in Shrine Game

MIAMI (INS) — Five players from Oklahoma, mythical national collegiate football champion, now are signed for the North squad in the Shrine All-Star game Dec. 26 in Miami's Orange Bowl.

Quarterback Jim Harris, tackle Ed Gray and end John Bell signed yesterday. All-America halfback Tommy MacDonald and center Jerry Tubbs agreed Tuesday to play.

13 Cage Game... Get TV Dates

CHICAGO (AP) — Thirteen basketball games involving big ten teams will be televised from Dec. 15 through March 9.

* * *

The series will be carried by Sports Network, Inc., and produced by Sports Programs, Inc. Stations carrying the games will be announced locally.

The schedule:

Dec. 15—Washington U. at Wisconsin; Dec. 22—Tulane at Ohio State; Dec. 29—UCLA at Indiana; Jan. 5—Michigan at Indiana; Jan. 12—Illinois at Wisconsin; Jan. 19—Minnesota at Northwestern; Jan. 26—Northwestern at Ohio State; Feb. 2—Indiana at Iowa; Feb. 9—Illinois at Michigan State; Feb. 16—Indiana at Northwestern; Feb. 23—Purdue at Illinois; Mar. 2—Minnesota at Illinois; Mar. 9—Wisconsin at Iowa.

Title Stepping Stone

Machen Can Fight Jackson

SYRACUSE, N.Y. (AP)—Undefeated heavyweight Eddie Machen today was offered a bout with Tommy (Hurricane) Jackson as a stepping stone to a title match with new heavy king Floyd Patterson.

* * *

Billy Brown, matchmaker for the International Boxing Club, said, following Machen's unanimous decision over sixth-ranked Johnny Summerlin last night:

* * *

"We have offered Machen a bout with Jackson and we would like to put the winner of that fight in with Patterson."

Brown said, however, Sid Flaherty, Machen's manager, "wants to wait a couple of days before he gives us an answer."

There were no indications Flaherty would refuse the offer for his charge.

* * *

Machen's ability as a counter-puncher as displayed in last night's triumph, might make him a capable foe for the flurrying champion.

Although Machen failed to record his 15th knockout in winning 19 bouts, it wasn't because the steely-eyed Californian was head-hunting.

Summerlin withstood the heavy pounding much to the amazement of his shorter opponent and the 1,915 spectators who paid a gross gate of $4,951 to see the televised and broadcast ABC, battle.

Machen was in command throughout the match as Judges Richie Fazio and Dick Albino scored it 7-3 for the winner and Referee Joe Palmer called it 6-4.

Fourth-ranked in the National Boxing Assn. listings, Machen said the victory was a birthday present to his wife Charlotte who celebrated her 25th birthday yesterday.

* * *

The Machen's live in Redding, Calif.

He said Summerlin "caught me" with some good punches. He was the best fighter I've ever met.

"What I do next is up to my manager," Machen added.

Flaherty said "in some ways" his fighter had come along "too quick.

"We'll keep him working and be ready for the next step," Flaherty said, but would not discuss any future opponents.

AP Wirephoto

MAYHEM BY MACHEN — A left hook is thrown by Eddie Machen to stagger Johnny Summerlin of Detroit in the 9th round of their 10-round heavyweight fight in Syracuse last night. Machen won a unanimous decision to run his professional string of victories to 19 without a loss. He hails from Redding, California.

SVC Race Opens Friday

Chiefs Get First Test at Arthur Hill

By H. GUY MOATS

There will be little change Friday night, in Pontiac High's basketball starters for its opening test in Saginaw Valley Conference. While the Chiefs were shaken by "first game jitters" in the season's tipoff against Catholic Central, Coach Art Van Ryzin today felt that much of the rawness had rubbed off and a smoother performance could be expected at Arthur Hill.

The Chiefs-Lumberjack contest is one of three that set off what could be one of the tightest title races in years. Other games Friday send Flint Central to Bay City Central and Saginaw High to Flint Northern.

Van Ryzin was satisfied with his club's work, for the most part, against the Shamrocks, and he did not contemplate any radical changes. "We'll start Hudson Ray, Larry Peet and Dave Diehm for sure. There may be a change in the forwards possibly with Larry Zellhart going in one spot and either Roosevelt Alexander, Dave Simmons or Dick Whitmer at the other place," he said.

"I think we got some very much needed experience, and we'll definitely be much better. Some of our ball handling was not the best and we lost our poise a few times. But I believe we have the ingredients for a good club."

At Saginaw, 'Jacks' coach, Chuck Fowler, reported he would have two of last year's starters in his lineup. They are Ray Graham, a guard and big Jerry Rifenberg, forward who played against the Chiefs last winter. Fowler also said he would use Jimmy Ray guard who hit 15 points in the Ann Arbor game, 6-4 Paul Doerson, center and Ted Griggs, forward.

"We will be in there all the way, fighting for the win. It looks like a close, tough scrap," Fowler commented.

Game time is 8 p.m. with junior varsity clubs meeting in a preliminary at 6:30 o'clock.

Valley Unveiling

PHS Tankers Test Hillites

Just what may be expected from the defending Saginaw Valley Conference swimming champion Arthur Hill team this winter will be revealed Friday afternoon in the Chief's pool.

Coach Robert (Des) Boyce still had not settled on his probable starters, outside of team captain, Dennis Simonson and Jim Cornforth. Same situation applied to Dave Gainey's club, except that Gainey hadn't got around to picking his experienced swimmers for their events. Meet time is 4 o'clock.

Lumberjacks are rated strong favorites. They have many of last year's fine individuals back in the swim, plus a lot of good material up from the reserves, including four top lettermen, Ernie Dewell, freestyler; captain Tom Bear, freestyler; fine freestyler Ron Myers and freestyler Chauncey Johnson. Gainey lost Art Manwell Hills' finest breaststroke swimmer, now at MSU, and top diver Dick Korkein, now at Central Michigan.

Other Valley meets Friday include Flint Northern's debut as a league contender, against Saginaw High, and Flint Central vs Bay City Central.

In last year's SVC campaign Hills finished on top, Chiefs and Bay City Central tied for the runnerup spot and Saginaw and Central were on the last two rungs.

Donkey Cage Game Set

Donkey basketball will be featured Friday night at Waterford High School with members of the faculty competing against the Waterford Police Department. Game time is 8:00 p.m. and it is sponsored by the Varsity Club.

State Deer Kill Shows Sharp Drop

LANSING (AP)—A sharp drop was noted in the buck kill during the regular deer season, the state conservation department has reported.

* * *

The special season kill also was lower than anticipated.

Statistical estimates from the department's game division were that about 70,000 deer were taken in the Upper Peninsula and northern Lower Peninsula during the regular and special deer seasons.

Estimates were not yet in for the southern Lower Peninsula but the kill there generally runs at only about 2,500.

The game experts said that about 58,000 bucks were taken during the regular season. This was a drop of about 18 per cent from the 71,000 bucks taken last year.

About 12,000 deer were taken during the special season. The department said about 10,000 of these were harvested during the Dec. 1-2 special season and the remainder of 2,000 on other dates when any deer shooting was allowed.

It was estimated that Upper Peninsula hunters took about 21,200 bucks during the regular season, a sharp drop from the 29,000 bucks harvested above the Straits last year.

Very poor hunting conditions with heavy snows the first few days were mainly blamed for the decline.

* * *

In the northern Lower Peninsula, it was estimated that 37,100 bucks were shot during the regular season, 11 per cent down from the kill of 42,000 there last year.

Hannett Hits for 26

ALMA (AP)— John Hannett, who led the MIAA in scoring last season, is off to a fast start again. He scored 26 points as his Albion Britons won a 77-66 basketball victory over Alma last night. It was the MIAA opener for both teams.

By Dick Dunkel

For the second successive year Oklahoma has run away with top honors in the college football Power Index, with a final rating of 119.3.

The Sooners outstripped their winning 115.5 of last year, which means that the current edition has been 3.8 points stronger, per game, than its predecessor.

Oklahoma's final 1956 rating is composed of 41.9 average scoring margin added to 77.4 opposition index.

Absence of Oklahoma, and other ineligibles, from the upcoming bowl games will rob the New Year's classics of the championship flavor that garnished them last year when the nation's top five teams participated.

Before the bowl business begins, one final game remaining on the regular schedule for this Saturday will send No. 1 Miami, Fla., against No. 13 Pittsburgh in the Orange Bowl. The Hurricanes rate 4 points higher than the Panthers, who will be featured in the Gator Bowl on Dec. 29.

Taking the bowls in chronological order, here's how they will line up from the Power Index standpoint:

Aluminum Bowl, Little Rock, Ark., Dec. 22—This, the first annual NAA Classic features St. Joseph's, of Indiana, rating 9 points over Montana State. The latter boasts a perfect 9-0 record compared to St. Joe's 7-1.

Gator Bowl, Jacksonville, Fla., Dec. 29—No. 2 Georgia Tech (9-1) rating 13 points over No. 13 Pittsburg (8-2-1).

Rose Bowl, Pasadena, Calif., Jan. 1—No. 8 Iowa (8-1) rating 5 points over No. 17 Oregon State (7-2-1).

Sugar Bowl, New Orleans, La., Jan. 1—No. 2 Tennessee (10-0) rating 9 points over No. 10 Baylor (8-2).

Orange Bowl, Miami, Fla., Jan. 1—No. 34 Colorado (7-2-1) rating 3 points over (?) No. 41 Clemson (7-1-2).

Cotton Bowl, Dallas, Tex., Jan. 1—No. 9 Syracuse (7-1) rating 8 points over No. 24 Texas Christian (7-3).

Sun Bowl, El Paso, Tex., Jan. 1—No. 27 Texas Western (8-1-1) rating 16 points over No. 72 George Washington (7-1-1).

Tangerine Bowl, Orlando, Fla., Jan. 1—No. 47 Miss. Southern (7-1-1) rating 8 points over No. 87 West Texas State.

Title of "most improved" team during the season just closed belongs to little Northern Michigan State which increased its rating by 40.3 over last year's final. Other top increases were, in order, by Flagstaff State, Bates, Culver-Stockton, St. Joseph's, Texas Lutheran, Montana State, Colorado State, Kansas Wesleyan, and Ripon.

In the reverse, or tailspin, department, Coe had the largest decrease, of 27.7. Others, in order, were by Fort Hays State, Marylaid, Rhode Island, Ottawa, Marquette, Whitworth, Concordia, Neb., Southeast Missouri, and Colorado A & M.

As a forecast, the Power Index named correct winners in 77.6 per cent of 1,060 games, omitting unpredicted ties, the same accuracy as last year.

And now, dear reader, as we lay another football season to rest, let me borrow a bit of text from Coach Jim Tatum, of North Carolina. "Football," says Jim, "is like sex. It gets a lot of criticism, but it's here to stay."

Hometown Honors Star

ALBUQUERQUE, N.M. (AP) — Tommy McDonald, who went from a small New Mexico plains community to gain national football fame, was honored by his home town yesterday.

* * *

It was "Tommy McDonald Day" in Albuquerque, by formal proclamation of the mayor. The 1955 All-America halfback at Oklahoma was given a golden key to the city and feted by civic clubs and his high school.

Tommy was born in Roy, a town of about 1,100 in northeastern New Mexico. He moved to Albuquerque with his parents, Mr. and Mrs. Clyde McDonald, in 1951.

Speakers at yesterday's ceremonies called Tommy an all-American boy the ideal of American youth. They recalled his early football days. One said:

"I don't think Hugh Hackett had any idea he had a future all-America when a spindly-legged, 130-pound kid came out on the practice field then."

Hackett was Tommy's coach at Highland High School in Albuquerque.

Soviet Gives Party, Gifts to Games Brass

MELBOURNE (AP) — The Russians still miss few propaganda tricks. They gave a mammoth reception last night for Olympic organizing officials and other Olympic brass. Each guest was given an enamelled brooch in the shape of a Russian flag, and a booklet on Russian sport. Each member of the organizing committee was given a beautiful silver cup in a glass case with blue stones and an enamelled scene of three Russian athletes marching with Soviet flag.

All-Star Bowling Continues

Weber Leads Kegs

CHICAGO (AP)—A match between Dick Weber, the qualifying leader, and Don Carter, the two-time former champion and second in the qualifying trials, tops today's first match games in the 16th annual national all-star bowling tournament.

Weber and Carter, teammates on the National team champions Budweiser five of St. Louis, meet in a four game match. Weber rolled 7,518 in 36 games to pace the 14 men who made the semi-finals while Carter was second with 7,388.

The 14 men qualifiers, plus defending champion Bill Lillard of Chicago and 1954-55 titleholder Steve Nagy of Detroit, will roll four four-game matches each of the four days (today through Sunday) with each man bowling 64 games in the finals.

In the women's division, qualifying leader Marge Merrick of Detroit goes into the finals along with the other 13 gals who made the grade after 24 gruelling qualifying games. Joining the 14 women in the finals will be defending champion Anita Cantaline of Detroit and 1954-55 winner Sylvia Wene of Philadelphia.

* * *

The women will bowl four two game matches from today through Sunday and will roll a total of 32 games in the finals.

In a special 36-game match during the preliminary rounds, Lillard defeated Nagy, 7,454 to 7,246. Miss Wene beat Miss Cantaline, 4,599 to 4,299 in their special 24-game match.

MICHIGAN MEN'S STANDINGS (36 GAMES):

William Golembiewski, Grand Rapids, Mich.	1,214	1,214	7,159

WOMEN'S STANDINGS (24 GAMES):

	2-Wed.	1-Wed.	Total
Marge Merrick, Detroit	844	793	4,737
Marion Ladewig, Grand Rapids, Mich.	706	808	4,542
Charlotte Kardas, Grand Rapids, Mich.	820	724	4,490

U.S. Wrestlers Take a Licking

MELBOURNE (AP) — American wrestlers took a licking in their first venture into Olympic competition in the Greco-Roman style, but in the process, they managed to get a few laughs along with some valuable experience.

"We are doing fine," said light heavyweight Dale Thomas of Cedar Rapids, Iowa. "Only one teammate is in the hospital and he gets out tomorrow. Jay Evans bruised his ribs badly when that Hungarian lightweight pinned him, but Jay is all right now."

Middleweight Jim Peckham of Braintree, Mass., who lost to Karl Janssen of Sweden, said:

"We are the first Greco-Roman wrestling team the United States has entered in Olympic competition. We don't wrestle much Greco-Roman style at home but this slam-bang type of wrestling is old stuff to the foreign boys."

In Greco-Roman wrestling, leg holds are forbidden and as a result the body slam is a favored way of gaining falls.

Big 10 Drafts Program

CHICAGO (AP)— The Big Ten's school presidents have drafted an evaluation of the new financial aids program in the form of a memorandum which today will be presented at the conference's annual meeting.

It goes before the joint group of athletic directors and faculty representatives along with a legislative draft of the plan. After thorough discussions, the plan will be sent to the facultymen tomorrow for vote.

A unanimous vote is needed but it is not expected. If not forthcoming, the plan reverts to institutional vote within a 60-day period with only a majority required for acceptance.

The plan's feature is the awarding to financial aid to athletes on the basis of established need.

* * *

Action on a modified round robin football schedule also is expected today. The schedule provides for 10 games instead of 9 and aims to bring about, by gradual stages, a program in which each conference school plays every other member each season.

Football coaches yesterday recommended liberalization of the present substitution rule to provide that any player be permitted to appear twice within the same quarter of a game.

The current rule allows only the player who starts a quarter to return within the same period.

The recommendation is to be put before the national rules group of which coach Ray Eliot of Illinois is a member.

Hockey Player Signed

SAULT STE. MARIE, Ont. (AP) — Jim Leclair, 21-year-old forward from Sault Ste. Marie, signed with the Troy, Ohio, Bruins of the International Hockey League yesterday.

Dublinski Case Again in Court

TORONTO (AP) — The Ontario Court of Appeal was told yesterday that the Detroit Lions of the National Football League did not validly exercise an option clause they held with quarterback Tom Dublinski, now with the Toronto Argonauts of the Big Four union.

Counsel for Dublinski, C. L. Dubin, is asking the court to uphold the decision of Chief Justice McRuer, who earlier this year ruled that the option clause had not been properly exercised.

Mr. Dubin said that even if the option had been properly executed, the clause in the previous contract which prohobited Dublinski from playing for any other organization applied only to the team of the previous contract, which ended May 1, 1955.

Francis Gerity, appearing for the Lions, said Detroit is entitled to relief for breach of contract by Dublinski, who signed with Toronto in January, 1955.

Mr. Gerity said his clients would be satisfied to receive either substantial damages or a declaratory order noting that they would have been entitled to an injunction against Dublinski had the case been heard during the football season covered by the Detroit contract.

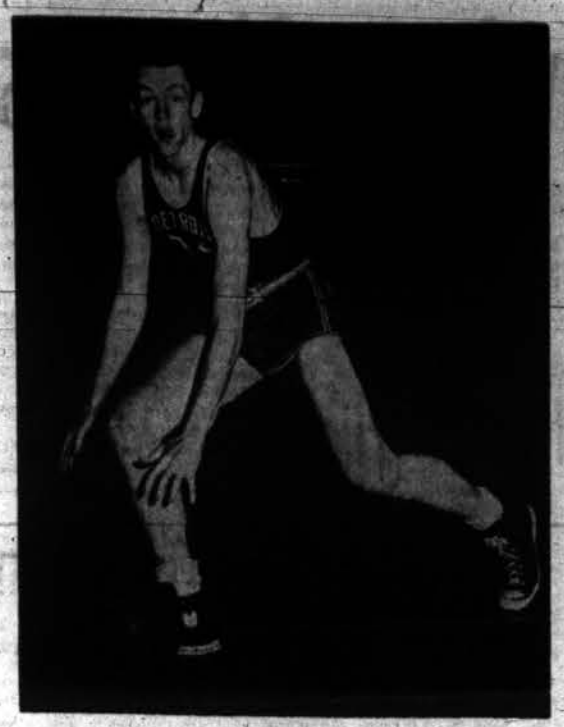
THE STYLE CORNER OF PONTIAC



TITAN HOPE — Any hopes the University of Detroit may have in upsetting Louisville, the nation's top ranked basketball team tonight, could come from the sharpshooting of one of the country's top scorers Bill Ebben. Ebben averaged 23.6 per game last year, and he hit 27 in the opener last week.

Powerful Louisville Five Favored to Whip Detroit

DETROIT (INS) — The University of Detroit Titans clash with the University of Louisville's defending N.I.T. champions tonight in the Motor City in one of the top basketball games of the young season.

Led by all-American Charles Tyra, the Cardinals possess great depth and are solid favorites to beat Detroit.

Tyra, a six-foot, eight-inch 230-pounder, is one of the finest basketball players in the nation. Last year Louisville won 26 games and lost only three.

The game is expected to develop into a scoring duel between Tyra and the Titans' all-American candidate, Bill Ebben.

Last season, the huge Kentucky star led the nation in rebounds and scored an average of 23.8 points per game to finish as the nation's 18th leading scorer.

* * *

Ebben was right behind Tyra with an average of 23.6 points, good for 20th place in the national ratings.

Louisville has won its first two starts of the season, while the Titans claim one victory in as many games.

Ebben had a "cold" night getting 27 points against Assumption College last Saturday.

The game will be played at U. of D.'s Memorial Building. Game time will be 8:15 p.m.

Majors Would Carry 28 Players

Vote Is Set for Roster Cuts

JACKSONVILLE, Fla. (AP) — A player cut-down proposal, a kind of share-the-talent plan for grassroots baseball, appeared to have a good chance of passing today as minor leagues prepared to vote on 29 amendments to the major-minor agreement.

Recommended by Baseball Commissioner Ford Frick and minor league boss George Trautman, the proposal would require major league clubs to cut their rosters to 28 players by opening day. The majors in the past have kept from 30 to 32 players until the mid-May cut-down time.

* * *

Adoption of the proposal by both the minors, currently in session here, and the majors, which meet in Chicago next week, would free at least 32 players—two from each of the 16 big league clubs—for immediate service in the higher minors.

The Pacific Coast League and triple-A clubs then could lop off some of their players, setting off a chain reaction which would reach all the way down to the class D circuits.

Trautman has complained that under the present plan, the minors are unable to get their lineups "set" for the first month or two of the season.

* * *

The cut-down plan would be another step in the majors' program to aid the minors, this time with earlier player help. The majors already have set up a $500,000 fund to assist financially troubled minor league clubs.

Since Frick has given the cut-down amendment his okay, the proposal is considered almost a sure thing to win adoption.

In addition to the legislative session on amendments, class B and C leagues were set to hold their draft. Minors from class A up drafted 36 players yesterday at a total cost of $156,750.

* * *

Four of the proposed amendments would make changes in the player bonus rule—but they are given scant chance of passage. They range from a proposal to eliminate the bonus rule entirely to a suggestion by farm clubs of Cincinnati and Detroit to create a first year draft.

The latter would permit drafting of a high-priced bonus player after one year—which would be too great a gamble for a major club to take. Currently, players who receive at least $4,000 for signing must remain with the major league club which signed them for two years, and are not subject to draft for four years.

* * *

Another proposal, made by Montreal, would set up exclusive negotiation rights. A club could notify the commissioner's office it wanted to negotiate with a certain prospect, and no other club could approach the prospect for six months. But this proposal, too, seemed headed for defeat.

Many of the major league representatives attending the minors' convention still were dickering in the trade market but no definite deals appeared in the immediate offing.

They seemed to be using this meeting for preliminary negotiations which could culminate in deals next week in Chicago.

Miami-Pitt Tangle in TV Encounter

MIAMI (INS)—Unbeaten Miami, unable to accept a bowl invitation, gets a chance to knock off a third bowl-bound team Saturday in a nationally-televised clash with Pittsburgh.

Coach Andy Gustafson's Hurricanes, the nation's No. 1 team in final rankings, have won eight games while breaking even once. In the process, they have thrashed Texas Christian, bound for the Cotton Bowl, and Clemson, headed for the Orange Bowl.

Only a 7-7 tie with the Georgia Bulldogs earlier this season mars Miami's record.

Pitt meets Georgia Tech Dec. 29 in the Gator bowl at Jacksonville, Fla.

Best series at home for the Milwaukee Braves in 1956 was with Cincinnati. Ten playing dates attracted 349,896 fans to County Stadium.

Hope Trims Ypsi Five

YPSILANTI (AP) — Hope, with 6-foot-10 Paul Bemes scoring 21 points and controlling the backboards, whipped Eastern Michigan, 54-34, last night in the latter's 1956 basketball opener.

CHICAGO — The two major baseball leagues in 1956 smacked 2,294 home runs, breaking the previous all-time circuit mark of 2,224 set in the 1955 season.

CHICAGO—The White Sox have a working agreement with the Indianapolis Indians of the American Association, formerly with Cleveland.

Hungarians-Soviets Brawl at Olympics

MELBOURNE (INS) — Russian and Hungarian water polo teams engaged in a bloody brawl today, reddening the waters of Melbourne's hitherto spotless new olympic pool in the first incident of violence between competitors in the 16th Olympiad.

The Hungarians won the water polo match, 4-0, but the Russians had the edge in the concurrent fight during which players of both teams used fists, elbows, knees and feet, hammering away while the crowd booed the Soviet players and the referee frantically and futilely waved his black and white penalty flag.

All types of foul tactics were used in the fight between the athletes of the two countries which had recently engaged in armed conflict during the Hungarian uprising.

The game ended in chaos as the players shouted at each other and several Hungarian officials rushed to the side of the pool, and looked, for a moment, like they planned to dive in after the Russians.

Police and Olympic games officials swarmed over the agitated spectators and restored order.

* * *

A deafening roar of approval went up from the near-capacity crowd of 5,000 persons when an official announced over the public address system that Hungary had won.

Among the most excited spectators were the so-called "new Australians"—immigrants apparently of Hungarian or at least anti-Russian sympathies. They hissed and booed at the Soviet swimmers throughout the match.

The referee came in for his share of booing as the spectators tried to call his attention to the numerous underwater kicking and punching duels going on.

* * *

The Hungarians scored three of their four goals while Russian players were in the penalty box for dirty tactics. Russia was penalized four times during the match and Hungary only once.

The brawling began in the first half of the contest by a tussle between Nodar Gvakharia of Russia and Hungary's Antal Bolvari. The bout went on for a full minute—as the crowd howled—before the referee spotted the Russian belting the Hungarian in the teeth with an elbow, Gvakharia was thereupon sidelined for four minutes.

Another high point in the extra-curricular activity came toward the end of the game when Ervin Zador of Hungary and Valentine Prokopov of Russia started threshing about like a pair of maddened sharks near the Russian goal.

* * *

Zador suddenly broke away and threw back his head, showing a face covered with blood.

He climbed out of the pool and sat on the edge of it as the crowd shook the steel rafters with its howling.

The battered Hungary team is undefeated in Olympic play and is favored to win the Gold Medal. Hungary has won the Olympic championship in the past three out of four Olympiads—in 1932, 1936 and 1952.

Heavy Schedule Friday

Prep 5's Shift Into High

Oakland County high school basketball shifts into high gear Friday night with virtually all prep teams in the area scheduled for action.

Only four schools — Avondale, Fitzgerald, Oxford and Royal Oak —wait until next week to start their 1956-57 schedules.

Seventeen area squads swing into action for the 1st time tomorrow night, joining a host of schools that have already tasted hardwood competition.

Lake Orion, Roseville, Madison and Troy are among those just beginning and they do it the hard way by squaring off against each other in Oakland B League play. Lake Orion invades Roseville and Madison visits Troy.

Milford and West Bloomfield also lift the lid with Wayne-Oakland Conference foes furnishing the initiation. Milford visits Clarkston while the Lakers entertain Brighton. Northville travels to Holly for another W-O encounter.

Rochester inaugurates a new year against arch-rival Romeo on the Bulldog court in tomorrow night's top attraction among the independents.

Twice-beaten Cranbrook provides the opposition for Birmingham's curtain-raiser on the Maple floor.

Southfield and Ferndale both get rolling in the Railsplitter gymnasium while East Detroit, a strong Eastern Michigan League club, starts a fresh season against invading Van Dyke.

Berkley goes to Dearborn Fordson for its opening contest and Clawson gets under way with visiting Oak Park.

Other area teams starting out Friday are Royal Oak St. Mary, Center Line St. Clement, Millington and Port Huron.

THURSDAY'S NBA STANDINGS

EASTERN DIVISION	Won	Lost	Pct.
Boston	13	3	.813
Philadelphia	8	10	.444

Syracuse at Fort Wayne
Minneapolis vs. St. Louis at Philadelphia.
Boston at Philadelphia
WEDNESDAY'S SCORES
No games scheduled.
FRIDAY'S GAMES
Fort Wayne vs. Syracuse at St. Louis.
New York at St. Louis
Minneapolis at Boston

Athletes Head for Home

MELBOURNE (AP) — One thousand athletes will have left the Olympic village by tomorrow night

Jamaica, Uganda, and Iceland teams, and parts of other teams already have departed.

As the teams leave, a bagpiper plays the Scottish lament "Will Ye No Come Back Again." The procedure also includes taking down the flag in front of team headquarters in the village and an address of farewell by the camp commandant.

Rules stipulate that one member of each official delegation must be present on the field of main stadium during the closing ceremony.

Louie's, Davis Win in Waterford League

Louie's Tavern and Davis Machinery were winners in opening games of the men's Waterford Township Recreation Basketball League, which got under way last night at the Isaac Crary Junior High gymnasium.

Louie's defeated Johnson & Anderson, 54-39, in the 1st game. R. Collins with 15 points and T. Kluesner with 13 were tops for the winners. Stu Hutchinson and Bob Newcomb led J & A with 12 and 11 points respectively.

The Davis quintet nosed out Boyle-Stone Front of Milford, 47-45, in a nip-and-tuck nightcap. S. Beckett scored 16 points for the Ortonville club while Harold Render paced the losers with 12.

Shelley Tapes Own Interviews

MELBOURNE (AP)—Shelley Mann of Arlington, Va. and Washington, D. C., gold medalist in the 100-meter butterfly, is one swimmer who doesn't dodge interviews. In fact, Shelley brought along her own tape recorder to get not only her own interviews but those of other Olympic champions.

"I'm taking back the recorder for American University where I am a student," Shelley said. "I'm interested in radio and television and I'm getting practice here."

Ehmann Sets Record as Navy Five Loses

KALAMAZOO (AP) — A former Northwestern University star, Frank Ehmann, set a Western Michigan fieldhouse scoring record with 36 points last night, but his Great Lakes Navy team lost 75-73 to Western.

Two fouls by Ehmann were converted by Western in the last 40 seconds to nail down the non-conference victory.

Sophomore Ed Blair topped Western shotmakers with 23 points. Jack Smith was close behind with 22.

Swaps Beats Nashua to Stake Horse Title

MIAMI BEACH (INS) — Swaps, which set five world records this year, was any easy winner over arch-rival Nashua for honors as stakes horse of the year.

The great California four-year-old colt was selected yesterday by the nation's top racing secretaries. Swaps received 25 votes to 10 for Nashua. The only others to get votes were Summer Tan, two, and Bardstown, one.

Swaps currently is recovering from a near fatal leg injury suffered Oct. 9 at Garden State Park.

Red Wings Recall Arbour

EDMONTON (AP) — Defenseman Al Arbour of the Edmonton Flyers of the Western Hockey League has been recalled by the parent Detroit Red Wings of the National Hockey League. An announcement yesterday said Detroit would send defenseman Larry Hillman down to the Flyers.

Mikes Begin SCL Defense

Shamrocks Face Ritas Tonight at St. Mike in 1st League Test

St. Michael's basketball team will open defense of its Suburban Catholic League co-championship tonight on the St. Mike floor against Hazel Park St. Rita.

The Shamrocks shared the title with St. Benedict of Highland Park last season, then lost to the Ravens in a playoff to determine the SCL representative in the Catholic tournament at Detroit.

Three members of that squad —scoring ace John Keller, bill Hall and Duane Priebe — are missing by graduation. The kingpins of the 1956-57 edition are holdovers Dan Dropps and Chuck Brown.

Joining Dropps and Brown in the starting lineup for last Sunday's opening 58-27 win over Detroit St. Agatha were Bob Mineweaser, Ken Rogers and Jim Fox. The Mikes have an appalling shortage of height this season, but size was no barrier in their 1st game.

Although St. Mike's strength is still an unknown quantity, the northsiders will be favored to dispose of St. Rita. The Vkings' 64-31 loss to St. Frederick last Friday revealed too many weaknesses.

Tonight's game time is 7 o'clock.

Breen Sets Record in Olympic Prelim

MELBOURNE (AP) — Powerful George Breen of Buffalo, N.Y., who set a world record last night in preliminaries of the 1500-meter swimming race, believes he may be able to beat his time of 17 minutes 52.9 seconds in Friday's finals.

"I didn't go all out in the trials," he said. "I believe I had something left."

* * *

Breen swims with a forceful splashing style, as if chopping the water, in contrast to Australia's famed Murray Rose, who hardly breaks the water with his long smooth stroke.

"There is no difference in the final effect," says Breen.

"I have a faster revolution than Murray and I bring my hands over and into the water, whereas he brings his almost straight out."

WEDNESDAY'S FIGHTS

SYRACUSE, N.Y. — Eddie Machen, 190½, Redding, Calif., outpointed Johnny Summerlin, 186, Detroit, 10.

LAKE CHARLES, La.—Alexa Vargas, 136, Galveston, Tex., stopped Dennis Woodbury, 144, San Antonio, 7.

AP Wirephoto

GLAMOROUS MARK — Adding the finishing touch to her makeup, Bobbie Shaler of Culver City, Calif., moved in the semi-final round of the annual All-Star Bowling Tournament in Chicago after she rolled a single game record of 289 for the tourney in the women's division.

March 12 - 16 Dates

List 21 Regional Sites

LANSING (AP)—The State High School Athletic Association today listed 21 locations for regionals of the State High School Basketball Tournament March 12-16.

In addition, there were 74 locations named for district Tournaments March 5-9.

The Regional locations with classes participating:

Class D, Benton Harbor High; B, Holland Christian High; C, Western Michigan College, Kalamazoo; A, Portage High; B-D, Albion College; A-C-D, Eastern Michigan College, Ypsilanti; A, Livonia-Bentley High; B, Southfield High; A, Ferndale-Lincoln High; B, Center Line High; A, Birmingham High.

Class B-C, Pontiac High; A-B-D, Flint Northern and Central Highs; C, Ionia High; A-D, Grand Rapids-Burton Junior High; C, Saginaw Arthur Hill High; A, Midland High; C-D, Central Michigan College, Mt. Pleasant; B, Cadillac High; D, Traverse City Central High; C, Petoskey High.

Britons in Olympics Say They're Slighted

MELBOURNE (AP) — The Britons feel they have been given the deep freeze by their little brothers of the Commonwealth, the Australians.

"No Olympics has ever been so fiercely parochial," wrote Desmond Hackett of the London Daily Express. The Russians have been fawned and feted. The Hungarians, Czechs and the rest have been highly commended. But there have been no bravos for Britain."

The Australian newspapers reply: "Rubbish."

Wrestling Getting Popular Among Preps

By CHUCK ABAIR

The rapidly growing local prep sport of wrestling comes into the spotlight right on the heels of basketball this week when two of Oakland County's five schools taking part in the mat game open their season.

Pontiac High, which along with Southfield will be competing in wrestling for the first time, and Cranbrook Institute both swing into action Friday night away from home.

The Chiefs travel to Bay City to meet Central in the first of 13 scheduled matches, while Cranbrook, coached by Bill Stapp, is at Ypsilanti attempting to upend the defending champion Ypsi High team.

Berkley begins an ambitious schedule of 13 regular matches and five tournaments Dec. 14 here at Pontiac. Hazel Park will host Melvindale in its first test Dec. 20. Southfield does not have any matches scheduled until late in the month.

PHS skipper Bill Willson has been working with 19 candidates in hopes of developing a team which can get the sport off on the right foot. "It will all depend on their willingness to work," he points out.

He considers 120-pound Dave Payne; Charles Radcliff, a 145-pounder, and Al Nosenchuck, 133, as most promising members thus far. Others are heavyweights Duane Thomas and gridder Willie Duncan. Smallest of the group is 87-pound Jack Keller.

Conditioning, work on fundamental holds, and trial matches have featured the workouts at Wisner Stadium.

It is a rebuilding year at Cranbrook with only four lettermen back led by Capt. Duncan Black. The others are Pete Turner, 138; 128-pound Lou O'Conner, and big boy Gary Grikscheit. Lost via graduation were all-league stars Ron Hummell and Al Sanborn.

The Cranes expect to find rough going in their attempt to climb out of the Inter-State loop cellar. Fifty aspirants are currently vying for positions on the varsity and junior varsity teams.

* * *

It is a case of plenty of interest but no experience at Southfield where Ken Thompson is drilling 35 hopefuls. The Blue Jay schedule will include Pontiac.

Berkley could come up with the county's top unit with eight lettermen back from last year's regional championship team which ranked No. 7 in the state. Regional winners Larry Wright, Bob Downie and Jack Santa are being counted on as the sparkplugs.

* * *

Hazel Park should have one of Michigan's top grapplers in 154-pound Jim Thompson, who was 4th last year in state ranking. Otherwise, Coach Chuck Skinner has only three veterans among 33 candidates. Captain-elect Art Steele will miss the entire season due to a football injury.

Old Champions Endorse Patterson

WASHINGTON (AP) — Floyd Patterson received a thumping endorsement as world's heavyweight champion today from the most savvy fight judges around — seven boxers who once wore crowns themselves.

* * *

From the fattened former heavyweight cinderella, James J. Braddock, to gray-haired Barney Ross, who'd never make his old welterweight limit, they agreed Patterson, 21, is worthy of the title.

* * *

But almost in the same breath a few added: Watch this Eddie Machen, the West Coast heavyweight who outpointed Johnny Summerlin last night for his 19th straight victory.

The old pros sized up Patterson in interviews while here to add luster to a testimonial dinner for Goldie Ahearn, Washington fight promoter, which earned some $3,000 for the Damon Runyon Cancer Fund.

* * *

Patterson belted out ancient Archie Moore in the fifth round last Friday night to become the youngest heavyweight king in history. Here's what the graduates of the hard-punches school had to say about him:

Braddock, ex-heavyweight champ: "He will be around a long time. Wait till he puts on another 10 pounds. Patterson punches faster than Joe Louis but not as hard. But I would be afraid of this Machen."

* * *

Maxie Rosenbloom, ex-light heavyweight champ: "He still has a lot to learn, and I don't know what happened to Moore. But if Marciano made a comeback, and I think he may, he could hit on the arm and finish him. Nobody else could."

Bob Olin, Slapsie Maxie's successor: "He looked great beating Moore. He is the best there is today."

* * *

Gus Lesnevich, also an ex-light heavy champ: "A coming really great fighter. He can take a punch, he is fast and he can hit. What more?"

* * *

Billy Conn, another ex-light heavy titlist: "He's good. Machen is the only one around who has a chance. The others can't fight."

Ross, ex-light and welterweight boss: "He will rule the roost a long time. It looked like you or I could have beaten Moore the other night, but Patterson did it right."

Tony Canzoneri, ex-feather and lightweight champ: "Really good. In a few years he will be very hard to beat. A heavyweight doesn't mature until he is 24 or 25. But Machen may be the best."

Lew Tendler, the great lightweight: "He reminds me of the old school. He is a knockout fighter now. Could anyone else beat him today? No."

Science in Fishing

Expert Uses a Mirror to Find Best Places

DETROIT (AP) — Going ice fishing? Don't just chop that big hole anywhere. First get a hand mirror and find the fish.

This, says Percy Haver, an angler who has spent many a frigid hour gazing into an ice fishing hole, is the scientific thing to do and, after all, a fisherman might just as well go skiing nowadays if he's not scientific.

A hand mirror, says Haver, helps you locate the proper type of fishing spot.

And when you're fishing from a shanty on ice that's exceptionally thick and snow-covered, chop a second hole five to six feet from the outside of the shanty. This, says Haver, acts as a source of light under ice.

Nate Clark on AP Little All-America 11

NEW YORK (AP)—Four holdovers and a kid so popular with the home folks he recently drew 15 write-in votes for sheriff are among eleven seniors named to the Associated Press' little All-America football team for 1956.

The lineup also includes the top passer among small college players, a fullback who averaged nearly nine yards a carry during a matchless four-year career, and an accompanying group of linemen averaging 6-3 and 215 pounds.

The repeaters from last year's little All-America are end charles Schultz of unbeaten, untied Alfred; guard Steve Myhra of North Dakota, tackle Vince Vidas of Drexel Tech, and Nate Clark, an all-purpose halfback for Hillsdale (Mich.).

With Clark in the backfield are Jimmy Stehlin of Brandeis, who led the little schools in passing with 116 completions in 206 attempts for 1,155 yards; Bill Rhoades of Western (Colo.) State, who gained 327 yards in one game this fall, totalled 4,294 yards in his varsity career and averaged 8.49 yards per carry since his first game as a freshman four years ago; and Larry Houdek, Kansas Wesleyan's tailback who ran for 1,432 yards, led the nation in scoring with 114 points and pleased the folks around Salina so much 15 of them made him their write-in candidate for sheriff last month.

The remainder of the choice team includes end Milton Robichaux of Trinity (Tex.), 6-6 tackle Don Owens of Mississippi Southern, guard Bob Mitchell of the College of Puget Sound, and Center Bill Earp of Emory & Henry.

Named to the second team were ends Steve Junker, Xavier (Ohio); and James Cox, California Poly; tackles George Kurker, Tufts, and Ron Warzeka, Montana State; guards Arden Ray, Lenoir Rhyne, and Charles Froehle, St. Johns (Minn.), center Hall Whitney, Texas A & I, and backs Bill Englehardt of Omaha, Jim Podoley, Central Michigan, Al Frazier, Florida A & M, and William (Whizzer) White, Westminster (Pa.).

'Millions of Gymnasts'

Power Wins for Soviet

MELBOURNE (AP)—Why do the Russians take gold medals and Americans fall on their collective faces in Olympic gymnastics?

* * *

"That's easy to understand," says Eugene Wettstone of Penn State, manager and coach of the U.S. team. "I understand Russia has 8 million gymnasts. When we had our Olympic trials at Penn State 23 men showed up."

* * *

Tom Maloney of West Point, one of the international judges, says "it's a matter of style. We never send a team to the international competitions. As a result we don't know what style impresses the judges."

Adds Sanora Ruddick of Indianapolis, one of America's top women gymnasts: "The Europeans concentrate on a ballet style which apparently is preferred. We Americans go more for tricks."

Wettstone says only 30 colleges in the United States have gymnastics on their athletic programs. Ten years ago there were a mere four.

Montreal Move Upward Starts

Canadiens Beat Toronto to Gain on Red Wings and Boston

By THE ASSOCIATED PRESS

After a slow start, the Montreal Canadiens have started making their move in the National Hockey League.

The defending champions whipped the Toronto Maple Leafs 3-1 last night to move within four points of the league-leading Boston Bruins and two of the second-place Detroit Red Wings. Detroit and Boston were idle.

The fourth-place New York Rangers gained ground on Toronto by tying the Chicago Black Hawks 2-2 on Parker MacDonald's third period goal.

Dickie Moore and Jean Beliveau put together second period goals to give the Canadiens their victory. Boom Boom Geoffrion picked up Montreal's first marker in the opening session and Ron Stewart came back to deadlock the score before the end of the session.

MacDonald's tally for New York came at 14:36 of the final period after Ed Litzenberger and Jack McIntyre had put the last-place Black Hawks in front.

The result gave New York 20 points. Toronto has 18 and Chicago 12.

Reds Tell Workers They're Well Off

MOSCOW (AP)—This was the 20th anniversary of the proclamation of the Soviet Union's Stalin constitution, and Soviet workers enjoyed one of their four national holidays of the year. Soviet newspapers told them they were much better off than they would be if they lived under the United States Constitution.

"Unlike the false and restricted democracy of the capitalist countries, which is democracy for the rich, Soviet Socialist democracy is democracy for the workers and people at large," said Pravda.

The newspaper Soviet Russia made the claim that the U.S. Congress does not include a "single industrial worker or farmer."

Duke Pays Visit to Sick Oarsman

MELBOURNE (AP)—When the Duke of Edinburgh visited Olympic village the athletes lined up in front of their quarters to greet him as he cruised by in his black open limousine.

Later a group from the American rowing squad visited their influenza ridden teammate, John Oke of Yale's victorious eight, in the hospital to tell him of the experience and how sorry they were he had to miss the fun.

* * *

"Oh, that's okay," said John. "The duke came by the hospital and we had about a 10-minute chat. I shook hands with him and look, he gave me his autograph."

Final Call Issued for 'D' Managers

The final managers' meeting for Class D City League basketball teams is scheduled next Monday, Dec. 10, at 7:30 p.m. The meeting will be held in the Parks and Recreation Department office at City Hall, 35 S. Parke St.

There are 15 'D' teams now registered from which two leagues will be organized. Important items to be discussed include team classification, league play and schedule, rules, contracts and playoff procedures.

Teams that are not represented at this meeting will be omitted from the league.

St. Benedict SCL Favorite; Eaglets Threat

Full-scale basketball action begins this week in the Suburban Catholic League with Highland Park St. Benedict on the "target for tonight" list of seven other league members.

The Ravens, defending co-champions with St. Michael, are nearly everyone's pre-season choice for the crown. St. Mike's chances of repeating appear slim.

St. Ben's role of title favorite is backed by three solid reasons — Larry Gacki, Martin Massucci and Art Clark, three starters from last year's team. Gacki, a jump-shot artist and still only a junior, was one of the SCL's top scorers last season.

St. Frederick takes the first shot at the Ravens when the two schools clash Friday night on the St. Fred court.

Gene Wright's southsiders may not be title contenders this season, but their runaway decision over Hazel Park St. Rita indicates that they will be "spoilers" if nothing else.

Although scoring star Dick Doyen has departed via graduation, the Rams should be a stronger club this season due to better balance. Sophomore Tom Derocher and 6-2 center Bill Mountain promise needed scoring punch.

The return of lettermen John Bradley, Wally Quarles, Mike Malloy and Marty Koenig provides some experience for the Rams while Ed and Richard Kast give added support.

St. Mike, which starts its league campaign tonight at home with St. Rita, is not afforded too much chance of grabbing laurels again. The Shamrocks have only two holdovers, Dan Dropps and Chuck Brown, and their lack of height is a big handicap.

St. Benedict's stiffest opposition for league honors may come from Orchard Lake St. Mary.

The Eaglets have only one returning starter, versatile forward Pete Madelans, but they have enough returning letter winners to make a fight of it.

Forward Stan Moniusczko, center Art Goisdzinski, and guards Larry Charkowski and Paul Francowiak, the other four starters, all saw a lot of action last season for the Eaglets.

St. Mary opens its loop activity Friday night at Orchard Lake against St. Clement of Center Line.

The return of five regulars, headed by 6-1 center Ray Rieti, could produce a "dark horse" at Ferndale St. James. Jerry Hall, John Nutt and Paul Smuts are the only holdovers for Royal Oak St. Mary. The Irish meet St. James Friday at Ferndale.

St. Rita and St. Clement loom as the unfortunate "doormats" in the league this season.

Field Hockey Title Won by Indian Team

MELBOURNE (AP)—India won its sixth consecutive Olympic field hockey championship today with a 1-0 victory over Pakistan. The gold medal winners did not allow a goal in the tournament. Germany, which originally wasn't scheduled even to make the trip, won the bronze third place medal by defeating Britain 3-1.

The German team wasn't included on the original travel roster because officials didn't think their squad could survive the first round.

Australia finished fifth and New Zealand sixth. The United States had an early departure in the tournament.

Whistles Remind Athletes of Home

MELBOURNE (AP) — U. S. gymnasts Sanera Ruddick, Muriel Davis, Doris Fuchs, Judy Howe, Joyce Racek and Jackie Klein were practicing team exercises with hoops in front of their village quarters, and in a most abbreviated attire, when the routine suddenly was interrupted by a round of wolf whistles.

The girls looked up to see a busload of American sailors going by.

"Gosh," said Judy of Rochester, Pa., "for a moment I thought I was home."

Charlie Hodge, goaltender for the Rochester Americans, was only 21 when he played in the 1955 Stanley Cup playoffs for the Montreal Canadiens.

Yes, Smooth-as-Silk!

Smoothness delights the eye. Smoothness delights the taste—especially in a whiskey. And you haven't experienced how smooth a whiskey can be until you've tasted Kessler. It's the smoothest of today's smoother whiskies. And priced right, too.

Kessler's low price makes it America's greatest whiskey value

Children to Get Camp at Lapeer

Ben Lemberg to Donate 80-Acre Site to Aid Retarded Group

DETROIT (AP) — Seventy thousand mentally retarded children in Michigan will get a Christmas present about two weeks early this year.

The present is an 80-acre private camp which will be donated to the Lemberg Foundation.

Ben Lemberg, 54 - year - old wealthy Detroit and Florida builder and philanthropist, made a special trip from St. Augustine, Fla., last weekend for the ceremony.

The trustees of the Lemberg Foundation, once they recieve the deed, will meet again within 15 days to turn the property over to the Michigan Assn. for Retarded Children.

The land, which includes two small lakes, is located 12 miles northeast of Lapeer. Lemberg, originally intended to build 100 homes on the site in a million dollar housing project, but set aside the plan, saying:

"I suddenly realized you only get out of this life what you put into it."

But Lemburg found giving the land away was no pushover. It took nearly a year before he was able to find "a worthwhile recipient."

Finally a plan was worked out to make the site a camp which will be available to all retarded children, regardless of race, creed or color.

What's the Fan-fare?

INDIANAPOLIS, Ind. (INS) — Federal Judge William E. Steckler has a contempt citation out for an impertinent action in his courtroom. He'll serve it too, if the culprit ever comes down out of the rafters.

The culprit is a bat who dive-bombed the judge while he sat on the bench.

MELODIC BROTHERS — The late Tommy Dorsey (left) and his brother Jimmy has given America a great deal of unforgettable music. Despite their feuds, they made melodic history together, as well as displaying their talents with separate bands.

Misses James Farley During Recuperation

By EARL WILSON

I miss James A. Farley at Our Town's banquets, weddings and funerals. Nobody ever went to more. Still confined to his suite by that second detached retina operation, he'll soon be out remembering faces again . . . Jack Durant mentions a Texan who said: "I'm going to buy a nice little country somewhere and settle down."

★ ★ ★

Perry Como's on the ball. He grabbed Gina Lollobrigida for his big Dec. 15 show from Miami Beach . . . Marilyn Monroe let us West Siders down. Her new apt.'s on the East Side . . . Tommy Dorsey's widow, Janie, will move from the country. That was one of their problems. In fairness to Janie, a man who saw the controversial note from Tommy says it positively did not denounce Janie.

English actresses Julie Andrews and Clare Bloom met for the first time in the former men's room—now ladies' room of the Lambs Club, which until a few days ago was an all-stag hangout.

Happened at Old Vic Night. Marty Martin, Bill Gaxton, Bill Johnson, Wilbur Evans, Jerry Bergen, Mickey Alpert, Sean Dillon and others welcomed the Britishers. Harry Hershfield told them: "We used to say, 'He who laughs last is an Englishman,' but that's not fair to their sense of humor—remember, there's a five-hour difference in time."

★ ★ ★

Arlene Dahl, the doll, is going to decorate Fernando Lamas' "Happy Hunting" dressing room, as a wifely tribute . . . Cleo Moore gave back Charles Simonelli's ring.

★ ★ ★

Hal March's bride Candy allowed him to have a date with Nancy Berg. (They were King and Queen of the Artists and Models Ball, chaperoned by a few hundred guests) . . . Hal, by the way, is one whom Success hasn't spoiled . . . Lynn Dollar of the 64G Question is excited because oil's been found all over North Dakota where her kinfolk live. "I hope," she says, "to strike a rich uncle."

THE MIDNIGHT EARL . . .

Jerry Lewis, opening at the Sands in Las Vegas, asked ringsider Harry Cohn (of Columbia Pix) to sing. After two bars he grabbed the mike back and sneered, "And YOU made 'The Eddie Duchin Story'?"

Rita Hayworth sails for the U. S. Sunday . . . Jimmy Durante's partner, Eddie Jackson, undergoes surgery after his Copa stint . . . Joni James and Tony Acquiviva switched their honeymoon from Italy to Jamaica (the war scare) . . . Jerry Lewis, a smash hit in Las Vegas Friday, was signed for five more years.

Debbie Reynolds couldn't attend the Grossinger premiere of "Bundle of Joy," so Eddie took his ma . . . Bing Crosby hopes to sell his Holmby Hills estate, but can't find anyone who can afford it . . . Tommy Dorsey's mother sat in the control booth during Jackie Gleason's TV tribute . . . Archie Moore told Steve Allen he'll front a jazz band.

Jayne Mansfield's dating Robert Wagner . . . Mrs. Edward G. Robinson hung the walls of her rented Beverly Hills apartment with $2,500,000 worth of art masterpieces . . . Dean Martin's reading scripts for a B'way musical.

Bob Hope's new gag about Mike Todd: "I wish I had his Taylor" (Liz, that is) . . . Popular Mexico City Daily News columnist Pepe Romero, an expressionist painter who started by caricaturing actors for Sardi's, gets a fabulous one-man show at the Hammer Galleries in February . . . Perry Como'll co-chairman the New Year's Masked Ball for Boys' Town of Italy.

Earl's Pearls . . .

You just can't fill a head with wisdom when it keeps leaking out at the mouth.

WISH I'D SAID THAT: No one should try to do two things at once—and this includes women who put on weight and slacks at the same time.—Quote.

TODAY'S BEST LAUGH: "Most of us are able to make both ends meet; what we'd really like to do is make 'em overlap a little."—H. C. Diefenbach.

Lew Parker went to see "Ten Commandments" and sighed, "I won't say it's long, but by the time it was over Moses wasn't the only one who needed a shave!" . . . That's earl, brother.

(Copyright 1956, The Hall Syndicate, Inc.)

Scholarships Granted Student Bell Ringers

SPARTANBURG, S.C. (AP)—Wofford College has a 102-year-old bell which plays an unusual role.

The bell not only tolls the beginning and end of classes, but it is the instrument of a scholarship for a student each school year.

The student bell-ringer earns his scholarship by making 13 trips to the bell each day. On each trip he tugs the big rope 10 times for a daily total of 130 lusty tugs.

During each 102-day semester, the student bell-ringer pulls the rope more than 13,000 times.

About one-third of the sky visable from the United States has been photographed and recorded out to a distance of approximately 350 million light years, it is now estimated.

"I'm Always Sure of Giving Exact Dosage"

Hollywood Headlines

Feud of Dorsey Brothers Resulted in Great Music

By BOB THOMAS

HOLLYWOOD (AP)—The passing last week of Tommy Dorsey was deeply felt by many of the millions who fell under the spell of his golden trombone and his great band of the '30s and '40s.

* * *

Many of us thought TD was the greatest. Maybe Benny Goodman was swingier. Maybe Glenn Miller had more commercial success. But for all-around excellence, you couldn't top Tommy. You could listen to him all night, as we often did, and not hear a dull number.

His band always was interesting. Perhaps that was due to the personality of the leader himself. Most of the swing band leaders were rather dull fellows with little animation.

* * *

Not Tommy. He was a fun-loving Irishman who obviously got a kick out of making music. Watching him cut up on the bandstand was a show in itself.

The difference between Tommy and Jimmy Dorsey was shown in their bands. Tommy was an extrovert, with great energy and enthusiasm. He would drive himself on five hours of sleep a night and drive his band to play beyond its capabilities. He constantly sought innovations in music.

* * *

Jimmy was the introvert. He found a smooth, easy style and stuck to it. While Tommy was having a ball playing one-nighters on the road, Jimmy preferred the security of backing Bing Crosby on his radio show. Jimmy's great hits were smooth, easy arrangements like "Green Eyes" and "Marie Elena."

It was inevitable that the two brothers couldn't get along as partners in their younger days. The split came on May 30, 1935, when their band was playing the Glen Island Casino in New York. They exchanged hot words and Tommy stalked off the stand.

* * *

"I'm going to start my own band," he vowed. "I won't give up until its twice as good as his."

And what a band it was! All of the sidemen were great musicians, including such stars as Buddy Rich and Ziggy Elman. The vocalists were the greatest assembled for a band—Frank Sinatra, Jo Stafford, Connie Haines and the Pied Pipers.

* * *

Having realized his ambition—and mellowed quite a bit—Tommy joined forces with Jimmy in 1953. They had tired of feuding. The band business had faded to a shadow of its onetime prosperity, and they figured they could do better together than apart. They did, but it was nothing compared to the success they had known before.

Atomic Products Are Stored in 'Hottest' Safe

RICHLAND, Wash. — Probably the world's "hottest" safe has been devised by atomic experts at the Hanford plant of the Atomic Energy Commission for storing and studying radioactively "hot" materials.

The safe is a 15-ton cylindrical installation that operates very much like a soft-drink-dispensing machine. It suspends up to 780 hot samples on large horizontal disks mounted one above the other inside a 6-foot vertical cylinder.

The floor vault can store materials with as much radioactivity as exists in 8 pounds of radium—more than the total amount produced in America in all the years before World War II.

German Industry Gains New Labor

BONN — West German industry has been favored by an influx of new labor. From 1950 to 1955 employment rose by nearly 4,000,000.

If the relation between total production and volume of employment is taken as a measure of productivity, between 1953 and 1955 industrial output per employed worker increased by 17 per cent in West Germany compared with only 10 per cent in Great Britain.

Pools Store Gas

DALLAS — Underground storage of natural gas by American utilities to take care of winter peak demand has passed the two- trillion - cubic - foot mark for the first time in history. There are now 214 below-ground pools in 20 states, three times as many as 10 years ago.

Insects, who are very noisy, have no real voices. They rub their legs together to produce varied sounds.

Polio Case in Holly Brings '56 Total to 36

One polio case was reported in the county this week, Dr. John D. Monroe, health director revealed. The case in Holly brings the year's total to 36 cases.

Total cases in 1955 to this date were 107.

Pontiac marked 21 cases of chicken pox this week, Monroe reported.

* * *

A complete breakdown on reports from the health departments on communicable diseases follows:

Weather Bureau Cautious on Steering Hurricanes

WEST PALM BEACH, Fla. (AP) —The Weather Bureau has decided on a cautious approach to the problem of trying to control hurricanes by seeding them, P. H. Kutschenreuter, assistant chief, states.

"We have no definite plans at this time to seed them. And if we make plans, the seeding wouldn't happen before late next hurricane season and would be based on research from storms earlier in the fall," he said.

"Any such action would be the decision of many men."

Seeding the giant storms with dry ice or some other subetance to produce rain has been advanced as the most likely method of steering them. But weathermen disagree among themselves on the probable effects.

The matter of swinging a hurricane from its path, even only a few miles, is one of the important problems now facing meteorologists. Swerving a threatening storm around a city and letting it hit a less populous spot easily could mean the difference between minor damage and major disaster.

* * *

Kutschenreuter attended a three-day meeting of meteorologists, most of whom are conducting hurricane research. The hurricane research symposium was sponsored by the National Hurricane Research Project, a cooperative effort of the U.S. Weather Bureau, many American universities and the armed services.

* * *

John H. Simpson, head of the research project, has been more optimistic than most weathermen in the matter of turning a hurricane by some manmade effort.

When the Weather Bureau ventures into steering attempts, Simpson probably will be the man who directs it.

* * *

A research scientist at the University of Chicago, Dr. Roscoe R. Braham, said his work with rainfall seems to indicate little reason for hope of any steering effects by seeding.

Debate Car Insurance

DETROIT (AP) — A debate on whether Michigan should have compulsory auto insurance will be held before the Detroit Economic Club Dec. 10. Speaking for it will be Judge Robert S. Marx of Cincinnati, a member of the national committee to study automobile accident compensaion. Against will be Vetal Lemmon of Chicago, manager of the National Assn. of Independent Insurers.

"Oh, don't forget, you promised to go Christmas shopping with me tomorrow."

HALF ACRE CASTLE — John Morris

THE GROWTH OF A CITY IS UPON HIM — The rapid growth of Houston, Tex., largest city in the South, is engulfing land which Arnold Hillendahl and his forebears have tilled for 102 years. Above, still using mulepower, he plows in the shadow of a bustling shopping center. Tagging along is his grandson, David. Nearby red brick walls of another multi-million-dollar construction project reach skyward. On the other side of the plowed field, modern ranch-style homes cluster under shade trees. In the center of it all is the neat, white frame Hillendahl house, home of pioneer Texans who drove ox teams and fought for the Confederacy.

Proof of Brotherhood

People of Many Lands Offer Aid to Refugees

VIENNA, Austria (NEA) — The proof of man's brotherhood is here today, brought in by the hundreds of people who have come from all parts of Europe to offer heldp to the Hungarian refugees.

Included are Americans from many different walks of life.

They write and come daily to American Red Cross delegates who with representatives of 16 other national Red Cross societies have been directing the world's material aid to the Hungarian people.

John Whittum of Wayne, Pa., a discharged GI who stayed in Europe to study, has offered to drive a truck "or do anything."

His skills are needed to transport the millions of dollars worth of supplies flowing into Vienna from some 40 different Red cross societies.

Marie Caruso, a nurse at New York City Hospital and another nurse, June Neden, from Port Credit, Ontario, were vacationing in Europe when the Hungarian revolution started. They offered to spend their vacation time working in any of the dozens of refugee camps set up in Austria or to go to Hungary itself if needed.

WORKED DOUBLE SHIFTS

Marie, who lives at the International House in New York, worked double nursing shifts for months to finance her European vacation.

James Ferguson of Ann Arbor, Mich., is a medical student at Glasgow Scotland, University. He and two other students drove truckloads of supplies from London here for the British Red Cross.

They are spending their time transporting and sorting supplies at the warehouse. They want to go to Hungary to help the stricken in that country.

The volunteers are willing to do any type of service. Joan L. Carter, a Fullbright student studying in Copenhagen, Denmark, writes she and four other American female students and a Danish girl want to work during their four-week Christmas vacation.

ALL HALE AND HEARTY

"We don't care how hard the work is. We are all hale and hearty and we want so much to help," she writes.

One of the busiest Americans here is Mrs. Mariella Wolf, a European-born U. S. citizen, who works as administrative assistant and general girl Friday in the International Red Cross office. Mrs. Wolf is fluent in English, German and French.

"I am so grateful to be able to help these poor people through the Red Cross," Mrs. Wolf says.

These volunteers work without pay, six or seven days a week, 12 to 18 hours a day.

They are a small part of the world's heart that has gone out to the freedom-seeking Hungarian people.

SPACE-SAVERS — Toys that have many uses will be used for many more hours of play time. This one is essentially a doll carriage (right) that becomes a doll-swing (center) or a car seat. A good idea for space-hungry homes.

Some Days You Just Can't Make a Nickel

OCEAN TOWNSHIP, N. J. (AP)—Ray Worrell finally bagged a deer but he won't get any venison out of it.

Worrell, who has been traveling up to New Hampshire hunting deer without success for the past three weeks, hit a buck with his car a few hundred yards from his home.

Under New Jersey law, however, he must turn the carcass over to the game warden.

Grand Trunk Official Exchange Club Speaker

Victor Schultz, chief clerk of the Grand Trunk Western Railroad, will be the guest speaker at a regular meeting of the Pontiac Exchange Club to be held Friday no at the Hotel Waldron.

President Leslie R. Ware will preside at the event. Club elections and the annual War Cry Sale are being planned for Dec. 14.

Gets Taken for Ride

SANTA FE, N.M. (AP)—An attorney general's opinion holds that Jose Vigil, a former guard at State Prison, is not entitled to expenses he incurred when two inmates recently escaped and took him with them. The inmates took Vigil prisoner and used his car in their escape. Vigil said his trip cost him $94.27 and asked the prison to reimburse him.

15 Years After Pearl Harbor

Japan, U.S. Stand Together to Hold Back Communism

(Fifteen years ago tomorrow, Japanese militarists attacked Pearl Harbor and launched their country into war that brought destruction and defeat. Today Japan has earned itself a firm position as a member of the free world community. In the following article, a man who played a key role in events immediately preceding Pearl Harbor gives his views on Japan today. He is Adm. Kichisaburo Nomura, Japanese Ambassador to Washington in 1941 and now a member of the upper house of the Diet (Parliament). His views are the more significant because he vainly opposed Japan's entry into World War II—one of the few Japanese leaders with the foresight to see the tragic consequences of such a move.)

By ADM. KICHISABURO NOMURA

TOKYO (INS) — Fifteen years ago tomorrow the Japanese Navy launched an attack on Pearl Harbor to ignite the Pacific War. Today Japan and America are staunch allies bound by a mutual security pact.

This turnabout is no quirk of history. It is the logical outcome of a gross mistake made when Japan decided to go to war and of subsequent efforts to put Japan back on the road towards a free and peaceful nation.

The news of the Pearl Harbor attack came as a surprise to me in Washington, where I was at the time serving as my country's ambassador.

* * *

It is known that a powerful Japanese fleet had been assembled at Etorofu in the Southern Kuriles poised to strike out to the Pacific. This information was available only after the Pearl Harbor attack.

I found out later that this fleet was already on the high seas during the final days of negotiation in Washington. I presume military authorities in Tokyo would have ordered this fleet to turn back to port had it been possible to reach a last-minute modus vivendi in the Washington talks.

Quite apart from whether such was feasible, it is known that both the British and Chinese were at the time urging the U.S. against accepting Japanese conditions.

I myself was firmly opposed to Japan's entry into World War II. Aggression as a means of expansion was at the time a concept already out-of-date in international conduct.

Fifteen years have passed since Pearl Harbor, and about six years of this period Japan spent under occupation.

There is little question that that occupation policy was in great measure responsible in enabling Japan to build herself up industrially and economically to a better position than before the war.

But it seems also that up to the outbreak of the Korean War, occupation policy was aimed at making Japan a permanently weak nation by remodeling her economic and industrial structure so as to make her incapable of presenting a threat to other nations.

* * *

Since the Korean War began, however, this policy changed, and Japan today is a full member of a collective security system in the free world orbit. This is seen in the U.S.-Japan mutual security agreement—an agreement that is beneficial to both Japan and the United States.

It may be essential to Japan's security that the U.S. maintain token military forces in Japan under this agreement for probably the next ten years. This applies especially to air and naval forces in which Japan is particularly weak.

DEFENSE BILL SMALL

Japan spends one one-hundredth of the amount the U.S. does on defense. This fact itself should make it obvious that Japan is incapable of defending herself against big-scale aggression.

There are some in this country who demand the complete withdrawal of U.S. forces on the naive and misguided notion that a complete lack of defensive capabilities is in itself a guarantee against attack. That is not so.

It can be expected that after Japan and the Soviet Union resume normal relations there will be an increase in Communist activity in Japan.

What the Kremlin would like to see perhaps is a government in Tokyo sympathetic with the Communist viewpoint, and Japan will need good security measures to prevent any indirect Communist attempts in this direction.

* * *

In domestic politics, we have a long way to go towards maturity despite the formation, in outward form, of a two-party system. Japanese politics must reach the stage where concern for the national welfare is put above factional interests.

Japan has often been called the "Workshop of Asia." Her industrial capacity has made her so. She must use this advantage to improve her economy through trade as a peaceful member of the free world community.

The mistake of Pearl Harbor must not be repeated.

WILLIAM S. BROOMFIELD

City Pastors' Group to Hear Broomfield

Congressman-elect William S. Broomfield of Royal Oak will address the Pontiac Pastors' Ass'n. at 10:30 a.m. Friday in the First Presbyterian Church.

Broomfield will briefly outline some of his aspirations as he enters the Congress. A period for questions and discussion will follow.

The Rev. Kenneth Hutchinson of the First Church of the Nazarene is president of the association and the Rev. Edward D. Auchard, associate pastor of First Presbyterian, is program chairman.

Shanghai Faces Grave Problem

Businessmen Shortage Poses Serious Danger in Principal City

HONG KONG (INS) — Shanghai, the former principal business hub of China, faces today a serious shortage of trained business men.

Communist China's emphasis on industrialization and agricultural cooperative programs have been draining the city of its potential force of young traders.

The seriousness of the situation has been recogniged by the Peiping newspaper, People's Daily, which reported that "the business personnel in Shanghai, who are known for their rich experience and fine service, are getting older and older every year in average age, but there are no successors to draw upon from the younger generation."

The newspaper cited the big department store Wing On Company as an example. This company has been operating for the past 38 years.

When the enterprise was placed under joint State-private ownership, 928 employees were retained of whom only 36 were below 28 years of age.

Similar situations exist in other enterprises in Shanghai. The People's Daily said that "the tendency for the employees to grow old without successors to take over their work also proves to be without exception in the hairdressing, restaurant, western medicine, Chinese medicine, confectionery, and grocery trades which are of close concern to the livelihood of the residents."

NATO Supercouncil Plan Temporarily Shelved

WASHINGTON (AP) — Diplomats disclosed today a U.S. plan to strengthen Atlantic Alliance unity by creating an NATO supercouncil has been brushed aside by America's European allies.

As a consequence, they said, the idea — first proposed by Secretary of State Dulles at Paris last May — is being abandoned by the United States, at least for the time being.

KEEP CHILDREN BUSY — Soapsuds find a new use by small fry. Mix the kids with soap, water, and egg beater, lots of newspaper and let them go to it. A youngster can mimic a real sign painter with dark oilcloth. Everything comes off with the wipe of a damp cloth.

Grain Prices Drift Downward

CHICAGO, Dec. 6 (AP) — Grains went into a downward drift on the board of trade today after getting off to an irregular start. Trading slackened from the very fast pace of the past few days.

The market showed a little follow through buying after yesterday's rally, but at the same time there was no heavy outpouring of liquidation comparable with that of Monday and Tuesday.

Brokers said it was normal for the market to retreat after staging a rally following a severe break. They claimed such a retreat usually tested the lows on the break to see if they would hold.

Wheat near the end of the first hour was ⅝ lower to ⅜ higher, December $2.37⅞, corn unchanged to ⅜ lower, December $1.34¾, oats ⅛ to ½ lower, December 76½, rye unchanged to ¼ lower, December $1.43, soybeans ¼ to ⅞ lower, January $2.50, and lard 2 to 12 cents a hundred pounds lower, December $15.45.

A forecast for light rain or snow in part of Nebraska, Kansas and Oklahoma caused a little selling of new crop wheat futures. The old crop month ran into hedging pressure. There have been some redemptions of wheat from the government loan at Chicago.

Traders were waiting to see if the price drop over the past week would cause a drying up in the offerings of cash wheat by the country. These offerings had expanded prior to the price drop and may have been one factor in the decline, grain men said.

Trade circles said Spain was expected to buy soybean oil tomorrow. It was rumored that country would take 4,000 tons every two weeks through February. While this news got soybean oil and soybeans off to a firm start, the advances were not held.

Grain Prices

Hare Back in Hospital

ROYAL OAK (AP) — Secretary of State James M. Hare was back in William Beaumont Hospital today for treatment of complications that have developed in wake of injuries he suffered Oct. 20 in an automobile accident.

MARKETS

Produce

CHICAGO POTATOES

CHICAGO, Dec. 5 (AP)—Potatoes: Arrivals 71; track 389; total U. S. shipments 487; Canada 2; supplies moderate; demand slow; market dull to slightly weaker; Idaho-Oregon Russets 3.65-3.90; Minnesota-North Dakota Red River Valley Pontiacs 2.40-2.60.

CHICAGO BUTTER AND EGGS

CHICAGO, Dec. 5 (AP) — Butter weak; receipts 810,000; wholesale buying prices 1 cent lower; 92 score AA 59¾; 92 A 59¾; 90 B 59; 89 C 58¾; cars 90 B 59½; 89 C 58½.

Eggs steadier; receipts 11,109; wholesale buying prices unchanged to 1½ higher; 65 per cent or better A white 39; mixed 34½; mediums 30; standards 30½; dirties 25; checks 24½; current receipts 28½.

DETROIT EGGS

DETROIT, Dec. 5 (AP)—Eggs, f. o. b. Detroit, cases included, federal state grades:

Whites: Grade A jumbo 47-57 weighted average 50; extra large 45; large 40-41 wtd. avg. 40½; medium 32-33 wtd. avg. 32½; small 25-28 wtd. avg. 28. Grade B large 36-39 wtd. avg. 37½.

Browns: Grade A large 40; medium 33. Checks 23½-30 wtd. avg. 24½.

Commercially graded:

Whites: Grade A extra large 40; large 38-39; medium 28-29.

Brown: Grade A extra large 39; large 37; medium 29.

Comment: Market steady to firm. Supplies of large are heavy and demand good. Receipts of medium and small continue to decline with mediums in good demand and readily cleared but smalls irregular in movement.

Poultry

DETROIT POULTRY

DETROIT, Dec. 5 (AP)—Prices paid per pound for No. 1 top quality live poultry f. o. b. Detroit up to 10 a.m.

Heavy type hens 17-18, light type hens 12; heavy type broilers or fryers 2½-3½ lb. Grey Crosses 23; Barred Rocks 24; caponettes 5-6 lb. 22-24; turkeys heavy type hens 28-30, heavy type toms 25.

Comment: Market barely steady. Supplies ample on all offerings to just a fair demand. Receipts of fryers and caponettes were rather light due to the slow trade and heavy carryover.

Turkeys: Market steady. Offerings fully ample with bulk of receipts being processed and stored. Live trade is very light.

CHICAGO POULTRY

CHICAGO, Dec. 5 (AP)—Live poultry steady; receipts 1,040 coops; (yesterday 925 coops; 135,000 lb.) f. o. b. paying prices unchanged; heavy hens 14-15; light hens 12½-13½; old roosters 12½-13; Barred Rocks 18-20; caponettes under 4½ lb. 21-22 over 4½ lb. 24-25; hen turkeys 31½; ducklings 25-28; farmer ducklings 18-20; geese 28-30.

City Elks Sponsor Contest to Find Youth Leader

The Pontiac Elks Club will start a contest within the next few days to find the outstanding youth leader in this area, Exalted Ruler Jack Bender announced today.

* * *

All local high school students will be eligible to participate. Each school will be asked to select two girls and two boys and have them fill out forms required to enter the contest.

Two boys and two girls will be selected from the entire area to represent the Pontiac sector in state competition. State winners will later compete in a national contest which will present $8,500 in prizes.

Stock Market Nudges Ahead

NEW YORK (AP)—The stock market nudged ahead today in moderately active early trading.

Key issues were up fractions to around a point. There were a few losers.

Brokers said that the continued rise yesterday was a further demonstration that last week's test of the market's lows had been successful. Wall Street observers felt that neither the Suez Canal situation nor the Hungarian struggle would lead to a major world crisis. Meanwhile, the general run of business and economic news was good.

Bethlehem, Republic Steel and Youngstown were ahead fractions and U. S. Steel firmed after a small loss at the opening.

Union Carbide was up close to a point. Du Pont, American Cyanamid and Allied Chemical made smaller advances.

* * *

Kennecott was ahead around a point, Anaconda a fraction. International Nickel eased slightly after yesterday's run-up of 7¼.

Santa Fe, Illinois Central, Chesapeake & Ohio and Southern Pacific moved upward slightly.

Some profits were taken in oils following yesterday's substantial advances. Royal Dutch and Gulf Oil were off fractions.

* * *

Boeing was up around a point and International Paper a point-plus.

Opening blocks included Bethlehem Steel up ½ at 183⅛ on 3,500 shares, Westinghouse up ¼ at 52⅝ on 3,000 and Royal Dutch oil ½ at 100¾ on 2,500.

Livestock

DETROIT LIVESTOCK

DETROIT, Dec. 6 (AP) — Hogs — Salable 100 not enough hogs early to make a market. Undertone steady.

Cattle — Salable 250 receipts include around 175 stockers and feeders; remainder mostly slaughter cows; today's market generally steady.

Compared last week's close slaughter steers and heifers uneven but average 1.00 lower; cows more active, steady to 50 cents higher considering quality and sorts; bulls steady; stockers and feeders about steady; 11 head mostly prime 1127 lb steers 25.00; load 1044 lb steers 24.75-25.00; load 24.65 all prime; about two loads choice and prime 1045-1125 lb steers 24.50; bulk choice steers 23.00-24.00; good and choice steers mixed 22.00-23.50; mostly good steers 19.00-21.00; load high choice 897 lb. heifers 22.25; bulk good and choice heifers 19.00-21.50; utility and standard steers and heifers unevenly 11.00-16.00; cutter grade down to 7.50 to clear; bulk utility cows 10.00-11.00, latter price mainly readily; few better utility cows 11.50 and few standard cows to 13.00 or above; canners down to 7.00; bulk utility and commercial bulls 12.00-14.50; most cutter and low utility bulls 9.00-12.00; load good and choice 495 lb stock steer calves 20.00; load good and choice 560 lb. feeder heifers 15.00.

Calves — Salable 50 todays market mostly steady compared last Thursday improved demand trading fairly active market steady to 1.00 higher some prime vealers up more limited supply individual high choice and prime vealers 26.00-34.00; few head 35.00 Monday and Tuesday; bulk good and low choice vealers and lightweight slaughter calves 18.00-25.00; utility and standard grades 12.00-18.00 cull and low utility 8.00-13.00.

Sheep — Salable 25 todays market nominally unchanged compared last Thursday trading more active under broader demand slaughter lambs 90-105 high; sheep and feeding lambs steady; late bulk good and choice wooled slaughter lambs 18.50-20.00; few choice and prime 20.50; about 50 head mostly prime 21.00; utility and low good lambs 15.00-18.00; cull to choice slaughter ewes 3.50-6.00.

CHICAGO LIVESTOCK

CHICAGO, Dec. 5(AP)—Salable hogs 12,000; fairly active and uneven; butchers generally steady than Tuesday's average; sows mostly steady; No. 2-3 mixed grade lots 190-240 lb. butchers 15.75-16.35; little below 15.85; several lots 1-2 mostly 2 190-225 lb. 16.50; 36 head lot 215 lb. 16.60; No. 2-3 250-280 lb. 15.40-16.00; few lots 300-320 lb. 15.00-15.25; larger lots mixed grade 350-550 lb. sows 13.00-14.25 and above with few small lots around 325 lb. and lighter 14.50.

Salable cattle 15,000; calves 400; uneven; steers grading average choice and below under 1050 lb. and prime steers 1150 lb. and heavier and most heifers steady to 50 lower; other steers 50 to 1.00 lower; cows fully steady; bulls and vealers steady; stockers weak to 50 lower; load of high prime 1315 lb. steers 28.25; several loads average to high prime 1150-1560 lb 27.25-28.00; bulk high choice and prime 22.50-26.75; good to average choice steers 17.50-23.00; load of prime 1046 lb. heifers 23.00; most choice heifers 20.50-22.25; good grades 17.50-20.00; utility and commercial cows 9.50-11.50; canners and cutters 7.75-9.50; utility and commercial bulls 13.00-14.00; few big heavy fat bulls 10.00-10.50; good and choice vealers 18.00-22.00; light culls down to 7.00; good and choice 350-600 lb. stockers and stock steer calves 17.75-21.00.

Salable sheep 3,000; steady on all classes; good to prime wooled lambs 95-105 lb. 18.00-20.00; few small lots around 95 lb. 21.00; cull to low good wooled lambs 10.00-17.50; good to prime shorn lambs, 94-106 lb. with No. 1 pelt 18.00-18.75; cull to low good kinds 8.00-17.00; cull to choice slaughter sheep 4.00-6.00.

Youth Dance Friday

ROCHESTER — The Youth Canteen will have a square dance in the high school gym here Friday night from 7:30 to 9:30 p.m. There is no admission charge and the event will be for the members of the Youth Canteen only. Mike Stieb is chairman of the dance and Hank Way has charge of refreshments.

Stop Avon Gunman After Wild Spree

(Continued From Page One)

could break me in half if he ever got hold of me," Heath stated.

Giving his statement, Ziem said, Heath was "extremely nervous." He said he did not remember shooting at the officers, but does remember their grabbing and struggling with him.

Ziem said after the warrant has been issued, a petition to commit Heath to an insane asylum probably will be filed through Probate or Circuit Court, where a hearing will be held within a week.

"I thought they were a gang of hoods," he told Ziem. "I called to my wife, 'They're kidnaping me. Call the sheriff.' I didn't know the sheriff's men were there."

FIRED IN AIR

Brewer, who said he has "no idea" why Heath nursed a grudge against him, said Heath emptied his gun, firing over the head of his wife, Margaret, 21, "about a week ago."

* * *

Heath is a World War II Navy veteran of the Pacific theater. Floyd E. Cremer, county deputy director of veteran affairs, said last night Heath had previously been under psychiatric treatment.

Cremer said Health's wife refused two years ago to begin commitment proceedings against him.

Now unemployed, Heath has worked for a construction company in Flint as a laborer. He lost his left eye two years ago in an Algonac construction accident.

While Heath blazed at the officers, his wife and three children, Richard, 13, Roger, 9, and Judy, 6, unconcernedly listened inside his house and helped him reload his gun.

Neighbors told of a nerve-wracking six hours yesterday, when Heath drove up and down Hartline and Dearborn streets firing shots into houses and parked cars.

Brewer, whose car was riddled with more than 15 shots from Heath's .22 calibre automatic rifle, said bullets whistled over his head and into his house when Heath shot at him yesterday afternoon.

Deputies told this story:

Heath began his spree by shooting at Brewer and a friend about 3 p.m. He continued shooting at intervals during the afternoon, firing most shots into the air.

At 8 p.m., having finished a pint of whiskey and part of a bottle of wine, Heath drove through the neighborhood in his panel truck firing random shots. After riddling Brewer's car, he drove along Dearborn Street shooting into houses.

When Heath had driven away, Brewer walked into his yard to inspect the riddled car. Heath arrived at his home, diagonally to the rear of Brewer's, in time to fire at Brewer as he crossed the yard.

Brewer called deputies.

Deputy Fred Pender and Sgt. Alphonse Anderson answered the call. Pender and Brewer walked from Brewer's house toward Heath's, calling to him to surrender. He responded with a fusillade of shots, at a range of 50 feet, that sent both men diving to shelter behind a pile of lumber.

Pender and Anderson called for reinforcements.

* * *

Sheriff's Detective Steve Hawlik and Rochester officer Vivian Moore first arrived at the scene. Alerted by radio and teletype, cars from State Police posts and local departments within 50 miles began converging on Avon Township.

Heath, who had gone back into his house to reload his rifle's 17 shot magazine, came out and emptied it at the four officers and Brewer again. They took cover behind a parked car, 30 feet from Heath's door.

When he went inside to reload again, the four man crept to the door and stationed themselves two on each side. Pender, looking through a crack in the drawn shade, saw Heath's wife loading his gun.

* * *

When Heath came out again, Anderson grabbed the gun and Pender, Hawlik and Moore grabbed Heath.

Subdued after a rough struggle, he was handcuffed and taken to Oakland County Jail.

Terrified neighbors were still barricaded inside their houses long after Heath was subdued. One girl reportedly was narrowly missed by one of his wild shots as he drove down Dearborn Street.

Troublesome Award Makes Police Blush

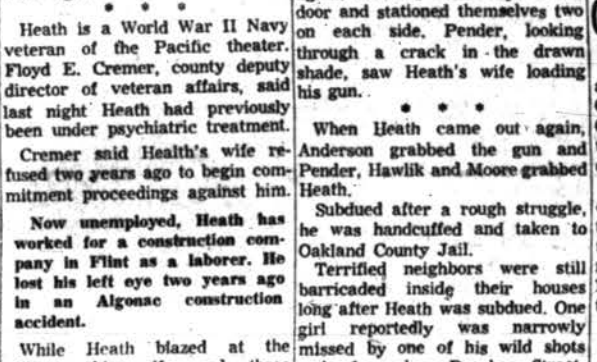
AUGUSTA, Ga. (AP) — Clarence Osborne was judged "Safe Driver of the Week" by the Augusta Lions Club and was awarded six months of free parking.

He pasted the sticker — countersigned by the police chief — on the rear window of his car as instructed — and within 48 hours had received three tickets for overparking.

"I can't afford all this free parking," he complained. And red-faced police excused the tickets.

Police Get Their Goat

BALTIMORE (AP) — Police today were anxious to find someone who can relieve them of two unwanted and very smelly — jail inmates. Patrolmen Edward Esteridge and George Cook said they were "just doing their duty" when they picked up two "vagrant" goats and brought them to the station.



YEAR-END'S WEATHER — Maps above give you the U. S. Weather Bureau's long-range forecast from now until January. It is an estimate of average temperatures and precipitation for the period.

St. Andrew Brotherhood Event Friday

DRAYTON PLAINS — In celebration of the first complete year of the Senior Chapter of the Brotherhood of St. Andrew, at St. Andrew's Episcopal Church here, the chapter is holding an evening of entertainment and fellowship for all men and young men of the chapel on Friday, beginning at 7 p.m.

The evening will begin with a dessert of homemade pies, (contributed by wives of the respective members) ice cream and coffee. The evening will be concluded by a service of devotion led by the Brotherhood members.

Local camera expert, Bob Houseman, will present a series of 3-D slides, showing views taken in travels through the Western part of the United States.

County 4-H Group Takes 2nd Place at Detroit Show

Oakland County 4-H members placed second in showing the county herd at the Detroit Junior Livestock Show yesterday.

The three steers shown from the county belonged to Howard Storm of Lake Orion, Fritz Lutz of Rochester and Jim Williams of Rochester.

Individual placements in the all-state 4-H livestock show for county entries follows:

Carol Newbegin of Novi, fourth in the lightweight Hereford; Philip Smith Jr., of South Lyon, tenth in the light weight Angus division; Steven Smith, South Lyon, ninth in the light weight Angus division; and Howard Storm, third in the light weight Hereford.

Other county placements include Fritz Lutz fourth in the medium weight Angus; Edward Braid of Lake Orion, tenth and 15th in the light weight Shorthorn; Jim Williams fourth in the heavy weight Angus and Paris Copeman of Northville, 13th in the medium weight Angus.

Sue Sturgis, county 4-H agent said the county group did "exceedingly well" in their showings.

Show animals were auctioned off at the show today at the coliseum of the state fairgrounds.

Offer Orion Center Civil Defense Aid

LAKE ORION—Aid in financing a portion of the Orion Community Center may be obtained from the Civil Defense, according to a plan under study by the center's board of directors.

The CD offer, to build 25 per cent of the center's basement if the governmental unit's specifications are met, will be accepted or rejected at the next meeting, Dec. 13, of the Orion Community Center, Inc.

The organization has determined that donations of private individuals are tax exempt.

Joining in support are the Bunny Run Extension unit, taking the center as its year's project, Charles Mann, donating $100 of bulldozing and trenching, and Louis Gudemoos, giving $50.

Chevrolet Declares Rise in List Prices

DETROIT (INS) — The Chevrolet Division of General Motors has announced that suggested list prices on the 1957 models have been increased across the board by $26.

A company spokesman said the price hike was due to a change in the GM advertising program. Dealers are no longer required to contribute to a factory-dealer cooperative advertising program.

Under the new arrangement, the company is adding the cost of the program to the list price of the cars. The price increase over the 1956 models is now $76 to $192 instead of $50 to $166 when the cars were first announced Oct. 19.

The other GM divisions—Pontiac, Oldsmobile, Buick and Cadillac—have not announced any price revisions.

County Deaths

Mrs. Rolfh Wischman

MARLETTE—Service for Mrs. Rolfh (Lucille J.) Wischman, 54, of Elmer Township, will be at 2 p.m. Saturday, from Zion Lutheran Evangelical Church of Germania, with burial in Germania Cemetery. The body of Mrs. Wischman, who died Wednesday, will be at Marsh Funeral Home here.

Surviving are her husband, one son, Eric R. Wischman at home; Two sisters, Mrs. Henry Ruger, North Port, L. I., and Mrs. Rudolph Pultz, of Stanford, Conn.

Warren A. Parks

ROMEO — Service for Warren A. "Pug" Parks, 60, of 70330 Van Dyke will be held at 2 p.m. Friday at Wilburs Funeral Home, with burial in Romeo Cemetery. He died early Wednesday morning.

A Romeo resident for 12 years, he was office manager of the Romeo Building Materials Co. Surviving are his wife Merle, instructor at Romeo High; a daughter, Mrs. Thomas J. Arbron Jr.; a son, Robert A. and five grandchildren, all of Romeo.

New Closing Hours for Detroit Edison

New evening hours have been announced by the Detroit Edison customer office, 58 W. Huron St. Beginning Friday, the office will not be open until six Monday evenings, but will remain open until 8 p.m. Friday.

According to company officials, these new evening hours are arranged for those who are unable to visit one of the offices during the day. Regular working days, the company will close at 5 p.m., and will be closed all day Saturday.

Sashabaw Women Set Saturday Supper

SASHABAW PLAINS — Women of the Sashabaw Presbyterian Church are preparing another of their Smorgasbord suppers, to be served in the church here, beginning at 5:30 p.m. Saturday.

Free-will offering proceeds will go into the church building and expansion fund.

W. BLOOMFIELD TOWNSHIP

Bids will be accepted by West Bloomfield Township for a police car. Must be Ford or Chevrolet. Specifications can be acquired at the clerk's office, 4460 Orchard Lake Rd. The Board reserves the right to reject any or all bids. All bids must be in by December 7, 1956 at 8 p.m.

FRANK HALLETT,
Clerk
Dec. 5, 6.

STATE OF MICHIGAN—In the Probate Court for the County of Oakland, Juvenile Division.

In the matter of the petition concerning James Paul Guenther, minor. Cause No. 14161.

To Helen Guenther, mother of said child.

Petition having been filed in this Court alleging that the present whereabouts of the mother of said child are unknown, and said child has violated a law of the State, and that said child should be placed under the jurisdiction of this Court.

In the name of the people of the State of Michigan, you are hereby notified that the hearing on said petition will be held at the Oakland County Service Center, Court House Annex, 1200-B West Blvd., in the City of Pontiac in said County, on the 18th day of December, A. D. 1956, at Nine o'clock in the forenoon, and you are hereby commanded to appear personally at said hearing.

It being impractical to make personal service hereof, this summons and notice shall be served by publication of a copy one week previous to said hearing in the Pontiac Press, a newspaper printed and circulated in said County.

Witness, the Honorable Arthur E. Moore, Judge of said Court, in the City of Pontiac in said County, this 3rd day of December, A. D. 1956.

(Seal) ARTHUR E. MOORE,
Judge of Probate
(A true copy)
ELSIE J. VASCASENNO,
Deputy Probate Register,
Juvenile Division.
Dec. 6. '56.

A PUBLIC HEARING WILL BE HELD Dec. 18, 1956 at 8:30 p.m. in the Springfield Township Hall, Davisburg, Michigan by the Springfield Township Zoning Board to consider changes in and to the Springfield Township Rural Zoning Ordinance and Map. Tentative text and maps may be examined Monday through Friday of any week between the hours of 9 a.m. and 5 p.m. at the clerk's office, 783 Broadway Street, Davisburg, Michigan.

K. L. VanNATTA,
Chairman
Dec. 6. '56.

Card of Thanks 1

WE WISH TO THANK OUR friends, neighbors and relatives for their acts of kindness and floral offerings during our recent bereavement in the loss of our beloved husband and father, William Douglas. Special thanks to Rev. Robert VonOeyon of White Lake Church, the Farmer-Snover Funeral Home, American Forge and Socket Co. His wife Adeline and daughter Marilyn Douglas.

In Memoriam 2

BEANE — In loving memory of Elizabeth Beane who passed away 3 yrs. ago, Nov 28th, 1953.
You are not forgotten Mother dear,
Nor ever shall you be.
As long as life and memory lasts,
We shall remember thee.
Sadly missed by Husband, Children & Grandchildren.

IN MEMORY OF CLARA JEAN Bass who passed away Dec. 3, 1954.
One year has gone but still we miss you
Never shall your memory fade
Loving thoughts will always linger
Till in Heaven we meet again.
Sadly missed by uncles and aunts; Mr. & Mrs. David Beaver and Mr. & Mrs. George Van Kuren and Cousin David.

IN LOVING MEMORY OF ANNA Harbin who passed away Dec. 7, 1953
You're not forgotten, mother, dear,
Nor ever shall you be;
As long as life and memory last
I shall remember thee.
Daughter Florence, Son, daughter & family

THE
Night was dark and dreary,
Not a car was in site.
Homer was stalled in the wilds,
And in a horrible plight.
Came the dawn and rescue, too,
Homer knew just what to do.
Went to SCHUTZ MOTORS for a dependable, safe buy.
Now Homer is happy, no reason to cry.

Storage Shed Blows to Bits

Discover Two Bodies, Presume Third Dead at Chemical Corp.

EAST ALTON, Ill. (AP)—All three men working in a storage shed for nitroglycerin solvent apparently were blown to bits at the Olin Mathieson Chemical Corp. yesterday.

Parts of two bodies were found. A third man was listed as missing and presumed dead.

* * *

A few hours later one employe was killed and four others were injured in an explosion at the firm's chemical plant in Niagara Falls, N.Y.

* * *

The East Alton blast demolished three buildings and damaged three others. It erupted a ball of fire which set several buildings ablaze.

Twenty-seven persons were hurt four seriously.

The dead here were listed as William Schoenbaum, 61, Floyd F. Wisnasky, 36, and Gerald Dilliard, 54.

The victim at Niagara Falls was Russell Thrasher, 26.

Murray Van Wagoner Seeks Highway Post

DETROIT (AP) — Murray D. Van Wagoner, former Democratic governor, is seeking the post of Wayne County Highway Engineer.

Civil service officials said he took out application forms yesterday.

Applicants must take competitive examinations. Twelve are expected to try for the job which become vacant when the current engineer, Leroy Smith, retires Jan. 1.

Van Wagoner was State Highway Commissioner before becoming Governor in 1941.

The nickel mines in north Ontario are said to be the richest in the world.

Ask for Grand Jury in Sterling Township

MT. CLEMENS (AP) — A Sterling Township civic group has asked the Macomb County Grand Jury to extend its investigation to the township.

Thomas Turner and William Valusek, president and trustee respectively of the Sterling Township Home Owners Assn., accused township officials yesterday of negotiating what they said were "illegal contracts in which they had a financial interest."

* * *

Eugene Krasicky, an assistant attorney general assigned to the Grand Jury, said he would study documents Turner and Valusek gave him in support of their accusations.

Sterling Township is in an area near Utica where there has been particularly heavy building.

The Grand Jury has been specifically authorized to investigate St. Clair Shores and Warren Township.

Eagle Lives on Wolf

MCALESTER, Okla. (AP)—A golden eagle which was lassoed and captured by the wife of a trapper several years ago, is faring well on a strange diet — wolfmeat. Dub Fite says the big bird eats a wolf every day. He traps the animals. Mrs. Fite roped the eagle after it made a threatening pass at her young son.

Directed Training Center

New Head of WACs Left School Career for Corps

By FRANCES LEWINE

WASHINGTON (AP) — The 8,250 members of the Women's Army Corps might like to know that their new director, Lt. Col. Mary L. Milligan, has trouble keeping step in parades.

Her problem is matching stride with tall male officers when she is called on to review troops.

"I know music well enough to be aware when I'm out of step—but my legs won't stretch that far," explains the five-foot, two-inch tall lady colonel.

At 45, suntanned, blue-eyed, gray-haired personable Mary Milligan of Edgewood, Pa., a former school administrator, has been named for a four-year stint in the top WAC post, with an automatic jump to the rank of full colonel.

She got the job over some 50 other regular army lieutenant colonels of the corps who were qualified for consideration as replacement for outgoing director, Irene Galloway, who leaves Jan. 3 after completing the regular four-year term of duty.

* * *

Col. Milligan, the fifth WAC director, has been with the corps since its start. She won the Legion of Merit for her work as director of the first WAC training center at Ft. Des Moines, Iowa, where 65,000 WACs were trained under her command.

She planned a school career, but wartime patriotism changed the course of things.

She was 31 then, working as assistant supervising principal of the Forest Hills School District in Pittsburgh.

"I went in the first chance I could, when the WAC was organized in 1942 and went through the first WAC officer candidate course," she said.

Later, when the women's corps was being made part of the regular Army, Col. Milligan was called to Washington to help with the planning.

* * *

When it came time to decide whether to become part of the regular Army herself, Col. Milligan said she felt those who had grown up with the WAC and had the experience should help develop it into a worthwhile standby corps of defense . . . "I felt I couldn't leave."

Col. Milligan has two brothers who also did wartime military duty. One, Malcolm Milligan, is now a major with the Air Force doing research and development work at Wright Patterson Air Force Base. But there have been no military ancestors, she says.

The shift from teaching career to the WAC isn't such a strange circumstance to Col. Milligan, who holds a master's degree in education.

The WAC has many former teachers in its peacetime ranks and she thinks "there's a service element" about both fields that lures the same kind of people. And in the Army, "you're not only learning yourself, but teaching, too, most of the time."

* * *

Col. Milligan has no immediate plans for the WAC. She herself is just "getting up to date" and wants "to do the job as well" as Col. Galloway whose new post has not yet been announced.

But there's one thing, she says, overseeing the WAC "can't be done sitting behind a desk."

Answer to Previous Puzzle

Sorority in Violation, Says U. of M. Group

ANN ARBOR (AP) — Sigma Kappa sorority today was ruled in violation of University of Michigan membership regulations by the university's student government council.

After five hours of heated debate, the council said it found that the national sorority "prohibits membership in the organization because of race, religion or color." A University of Michigan's anti-bias regulation adopted in 1949 prohibits discrimination in sororities because of race, color or religion.

* * *

A decision as to how the local chapter of Sigma Kappa will be affected was tabled for a future council meeting. The decision is expected at next week's council meeting.

The national sorority, it was ruled, violated U. of M. regulations when it suspended chapters at Cornell and Tufts Universities for pledging Negro girls earlier this year.

Miss Barbara Busch of Berkley, president of the local chapter, spoke before the council. She said there was no bias clause in the national constitution when the sorority was activated in March, 1955.

Car Overturned in Lake Just a Practical Joke

BRADLEY BEACH, N.J. (AP)—Someone reported an overturned car stuck in Sylvan Lake in this seashore town.

The first aid squad and hook and ladder truck rushed to the scene to find four tires stuck in the mud, properly spaced to look like an overturned car.

The practical joke was staged in front of the home of Commissioner Albert Kirns, who directs the town's police and firemen.

More than 6,000 hymns were composed by John Wesley.

Children Like Clothes as Gifts

Contrary to the popular belief, kids love to get clothes for Christmas. Not underwear, to be sure, but outer clothes, all wrapped up and brand new, suit them just fine.

And they delight mother.

Many children get a new pair of mittens or mitten and muffler sets each Christmas and still greet the new set with joy. Clothes that kids like make gifts that keep the budget fluid without disappointing the children on Christmas morning.

* * *

What kinds of clothes do kids like to get?

Clothes like the kids' next door. This may mean that a gift of a pair of trousers will be a gift of cowboy pants rather than something more ordinary, but they cover the legs just as well.

Clothes that are colorful or have eye-appealing patterns.

This cuts out plain underwear or plain socks. It includes plaid sports shirts like Kaynee's that both wear well and look grown-up.

Knitted shirts made of fabrics such as orlon come in appealing colors and are easy to wash. Full fashioned makes some.

Clothes to go with Mommy's or Daddy's are big fun for the kids. Apron sets for a little girl and her mother please both.

Some department stores have mother-and-daughter departments. Wool sweaters for daughter-mother or daddy-son combinations are also available, since many sweater size ranges go up and down with equal ease. Robert Bruce makes a pair; dad's is gray with red, black and white designs; son's is gray with rust, beige and white.

Jackets suit little boys, since they aren't as formal as overcoats and they're "what everyone's wearing."

One, in red nylon taffeta with white nylon rib knitting at cuffs, has a quilted lining and an emblem to match. It's by Golden Fleece.

Little kids enjoy any kind of gift, so long as it's wrapped. Suitable choices for such children can be made by consulting mother. A typically handsome pair for this age group, by Minnikin Togs, is in corduroy—striped. The little girl gets a top with a drawstring and tapered black corduroy trousers. The little boy gets an Italian shirt with horizontal stripes, and slacks. Mittens, caps, scarves, belts and suspenders are small clothing gifts that most children can use and enjoy.

COMFORT — A he-man plaid sport shirt of durable cotton is comfortable to wear and mighty easy to launder.

Clipped for Clip Job

KALAMAZOO (AP)—A man came into Eugene Scott's barber shop and announced "Give me a good haircut or I'll hit you." After getting the clipping, the unidentified customer clipped Scott on the nose, saying "I've paid a lot of barbers in the same way for giving me a bum haircut." With that, he stalked out leaving Scott clutching his nose —and the bag.

Congressmen were paid $6 per day in the period from 1789 to 1815.

Traffic Hazard

PEORIA, Ill. (AP) — Police Patrolman William Helm is minus one front tooth because he blew his whistle at a lady driver. Trouble was, the lady driver was about to hit him. Getting out of the way, he bit his whistle too hard and broke a right front tooth in two places.

A dwelling fire occurs about once every 90 seconds someplace in the U.S.

More Records Now Available in City Library

Under the Pontiac City Library's new record rental program, the following albums are now available at the library, 47 Williams St.

Movements Perpetuels, Nocturne in D Major, Suite Francais & Satie Piano Music, by Poulenc; Concertos Nos. 1-4 for Piano, Rachmaninoff; Scheherazade, Op. 35, Rimsky-Karsakkoff; Songs, Schubert; Symphony No. 7 in C Major & Mozart, Symphony No. 38, Sibelious; The Bartered Bride, Smetana.

Others are: Tales from Vienna Woods, Op. 325 & Blue Danube, Strauss; The Nutcracker Suite, Tchaikovsky; Symphony No. 6 in B Minor, Op. 74 ("Pathetique"), Tchaikovsky; La Traviata (excerpts) & Villa-Labos Bachianas Brazileiras, No. 5, Verdi; and Tristan and Isolde (Prelude & Liebested) — gdie Gotterdam, by Wagner.

Between 1913 and 1945 about 500,000 patents were granted in the U.S.
