GM Truck and Coach Ends ONE COLOR Record Production Year

GMC Truck and Coach Division ended its 1969 production run last night with a record-breaking output of 181,056 units, Martin J. Caserio, a vice president of General Motors and divisional general manager, reported today.

Caserio said combined GMC and Chevrolet truck production at the division's Pontiac plant surpassed the former record of 176,413 set in 1968.

All GMC medium and heavy-duty trucks, a portion of its light-duty models and some Chevrolet trucks are built by GMC in Pontiac.

An all-time record of 160,245 GMC trucks produced in Pontiac and seven General Motors assembly plants elsewhere was also established in 1969, Caserio said. The former annual GMC truck production record of 150,936 was set last year.

With GMC truck sales at record levels this year, substantial production gains were posted throughout the entire line with light-duty models up 5.4 per cent from 1968; mediums up 3.4 per cent and heavy-duty models up 15 per cent.

GMC rose to third place in sales this year from fifth in 1968 to attain its highest ranking in 43 years.

THE PONTIAC PRESS

PONTIAC, MICHIGAN, WEDNESDAY, DECEMBER 31, 1969

VOL. 127 — NO. 280 ★★★★ ASSOCIATED PRESS UNITED PRESS INTERNATIONAL —32 PAGES 10¢

GM Will Close 2 City Plants Jan. 12 and 13

DETROIT (AP) — General Motors announced yesterday that six of its assembly plants, including Pontiac Motor Division and Fisher Body Plant in Pontiac, will be shut down Jan. 12-13.

Six other GM plants will not operate Jan. 30 and Feb. 2 because of lessened passenger car production for next month.

★ ★ ★

When the local plants resume production at a reduced rate of assembly, 740 short service employes will not be recalled.

GM acted a day after Chrysler Corp. said it would close all of its eight assembly plants for one week in January.

13,600 AFFECTED

In Pontiac, the shutdowns will affect some 13,600 of GM's 36,000 employes here. GMC Truck and Coach Division will operate on normal schedules.

In a prepared statement, GM said its closings for two-day periods would be made "to reflect market requirements and shifting customer preferences for different models."

★ ★ ★

The giant auto maker also closed 11 plants during two working days last month and 15 plants for two days this week.

In the new plan, six GM assembly plants will be closed Jan. 12-13. Six others are to be shutdown — Jan. 30 and Feb. 2.

★ ★ ★

Regular schedules will continue at GM's 11 other assembly plants.

5 PCT. DECREASE

GM also said that through January present plans "indicate 1970 model production of 2,100,589 passenger cars as compared with actual 1969 model production of 2,210,190 units." This represents a five per cent decrease, GM said.

The plants GM will close Jan. 12-13 include two Chevrolet Fisher body facilities in Lordstown, Ohio, and St. Louis, Mo., and GM assembly division plants at Janesville, Wis., Tarrytown, N.Y., and Linden, N.J.

★ ★ ★

A total of 3,800 short service employes would be laid off indefinitely, the company said.

AP Wirephoto

NOTHING LIKE THIS AT HOME — Three teen-age boys who live in a subarctic Canadian region beyond any roads get a taste of something that doesn't grow in their area — an orange. With the three — (from left) Garry Quequish, 14, David Ogemawene, 14, and Saul Williams, 15 — is Amy Rothwell, daughter of their host, Mr. and Mrs. H. E. Rothwell of Los Altos, Calif. The trio was brought to California by Ontario anthropologist Mary Black.

Hanoi Seen Near OK of Bimonthly Parcels to POWs

WASHINGTON (AP) — North Vietnam apparently is planning to allow for the first time a regular mailing of packages to U.S. prisoners of war from their families, at a rate of one package to each POW every two months.

In reporting this, government officials said U.S. postal arrangements have been made to receive the packages from next of kin for shipment to Hanoi. They assume the first month for the mailings will be February.

★ ★ ★

Speculation here is that Hanoi is making this move as part of an effort to allay international criticism. It recently provided some families with information on whether men believed held are dead or alive.

★ ★ ★

U.S. officials are calling for the North Vietnamese to do much more to meet Geneva Convention terms for prisoner of war treatment.

LIST REQUESTED

U.S. envoy Philip D. Habib handed enemy negotiators in Paris yesterday a list of 1,406 American servicemen missing in action in Southeast Asia and called on the North Vietnamese to "indicate which men are prisoners and those whom you know to be dead."

Washington information indicates more than 400 are held captive. Most are fliers downed during U.S. bombing of North Vietnam.

Despite the Geneva Convention stipulation that a prisoner list should be supplied, Hanoi has not done so. Nor has it allowed outside inspection of prisoner camps or regular mail.

U.S. officials said two American antiwar activists who recently returned from Hanoi reported that families of prisoners could send a letter a month and a package of less than six pounds every other month.

★ ★ ★

Letters from some of the prisoners indicates they have been given similar information, the officials said.

Hanoi had allowed packages for the prisoners only three times, they said: Christmas 1968, July 1969 and Christmas 1969.

2 Held in Bomb Plant

BRISTOL, England (AP) — Police arrested two men today after a smoke bomb was found in a hotel where the touring South African Springboks rugby team is staying.

The bomb was discovered behind a vending machine on the third floor of the Unicorn Hotel after an anonymous telephone call tipped off the hotel manager.

To a Record 8.5 Per Cent

Home-Loan Rate Ceiling Up

WASHINGTON (AP)—Maximum interest rates allowed on government-insured FHA and VA home loans will be boosted for the second time within a year to a record 8½ per cent as of next Monday.

Secretary of Housing George Romney said yesterday he was reluctantly approving the increase from the current 7½ per cent maximum which has been in effect only since last Jan. 24.

★ ★ ★

The announcement was bad news for prospective home buyers who had hoped to see a stabilizing or reduction of interest rates which have been spiraling since early in 1966 when the limit was 5¼ per cent for the loans backed by the Federal Housing Administration and Veterans Administration.

Romney said he had delayed as long as possible but he was forced to take the action to "help hold the line against a further drying up of mortgage funds from regular sources . . ."

DEMANDING MORE

He noted that market yields on most types of investments have gone up more than one percentage point in the past year and that lenders are demanding higher and higher discount points to make FHA-VA loans.

Lenders have been charging 7 to 9 per cent — or points — to make loans. Most of this usually is paid by the seller, but in effect may be passed on to the buyer in the form of a higher house price.

★ ★ ★

The one per cent boost in the interest ceiling — the largest increase ever — was applauded by the Mortgage Bankers Association of America and was condemned by the National Association of Home Builders.

★ ★ ★

Robert H. Pease, president of the mortgage bankers, agreed with Romney that the new rate should significantly reduce the number of discount points now required to secure housing loans.

★ ★ ★

Louis R. Barba, acting president of the home builders group, issued a statement declaring the time has come for the administration to put into effect standby credit controls recently authorized by Congress.

Army Will Try My Lai Suspect

WASHINGTON (AP) — The Army has decided to court-martial S. Sgt. David Mitchell on charges of assault with intent to commit murder in the alleged My Lai massacre in Vietnam, it was learned today.

The decision was made by Maj. Gen. John Boles, commanding general of the 1st Armored Division at Ft. Hood, Tex., after an investigation of charges against Mitchell involving 30 South Vietnamese civilians.

★ ★ ★

Assault with intent to commit murder carries a maximum penalty of life imprisonment, Army sources said.

Mitchell would be the second soldier to go before a court-martial in connection with the My Lai incident.

★ ★ ★

He was a squad leader in the platoon of 1st Lt. William L. Calley Jr., in the action at My Lai, a village near the northern coast of South Vietnam on March 16, 1968.

Calley will be tried by a court-martial at Ft. Benning, Ga., on charges of premeditated murder in connection with the deaths of up to 109 Vietnamese men, women and children at My Lai. If convicted, Calley could draw the death penalty.

POWs' Benefactor Hits New Tangle

COPENHAGEN (AP) — Texas billionaire H. Ross Perot ran into another snag today in his attempt to fly his "Peace on Earth" jetliner to Moscow with 9,000 gift parcels for U.S. prisoners of war in North Vietnam.

With the North Vietnamese deadline of midnight tonight drawing steadily closer, the Soviet Embassy told Perot he would have to prove the U.S. government has no objection to his private mercy mission.

★ ★ ★

The 39-year-old computer magnate from Dallas immediately telephoned the U.S. embassy in Moscow and asked it to intercede with the Soviet government.

Perot arrived in Copenhagen last night after a trip half way around the globe from Laos.

Local Youth Slain, Man, 25, Wounded

By JIM LONG
and
TIM McNULTY

A Pontiac youth was killed and a man seriously wounded in separate shooting incidents early today.

Dead from a blast from a double-barreled shotgun is James Nicholson, 17, of 203 Seward.

NICHOLSON

At Pontiac General Hospital with an abdomen wound is Walter Frazier Jr., 25, of 108 Victory.

★ ★ ★

Nicholson was shot after he and three friends drove into Harrold's Gulf Station, Featherstone and Opdyke, Pontiac Township, and allegedly sped off without paying for the gas, police said.

The owner's son, Lawrence Harrold Jr., 17, of 146 Moor, and two friends helping him at the gas station got into a car and chased the four a half-mile, caught them and, with the shotgun, led them back to the station, according to Oakland County sheriff's deputies.

'GUN DISCHARGES'

During an argument on whether the teen-agers would pay for the gas, Harrold told police both barrels of the shotgun discharged into Nicholson's chest. He said he didn't know the shotgun was loaded, police said.

★ ★ ★

Nicholson was pronounced dead at the scene.

★ ★ ★

Harrold is being held at Oakland County Jail on an open charge of murder pending investigation by the prosecutor's office.

The three boys with Nicholson — Roger Smith, 17, of 168 S. Edith; Brian Sirbaugh, 17, of 57 S. Francis and John Moore, 17, of 160 S. Edith — were not held by police.

AT PONTIAC HOME

In the other shooting incident, Frazier told Pontiac police he was shot by Charles Abcumby when he went to Abcumby's home at 493 Moore.

He said he had gone to the address to get his car back from his wife who was with Abcumby.

The shooting occurred between 4:14 a.m. when Frazier called police for assistance in getting his car and 4:30 a.m. when he showed up at Pontiac General. Police said he had driven himself to the hospital.

At midmorning police had been unable to locate either Abcumby, 24, or Frazier's wife.

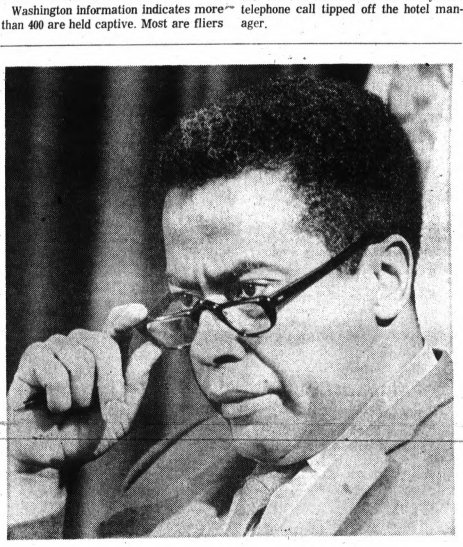

At the hospital where Frazier met two patrolman who were just leaving from another investigation, he told them the shooting took place outside the home where his wife was sitting in Abcumby's car.

Special Section Today

Section B of today's paper includes eight memorable front pages of The Pontiac Press. Our editors selected the eight pages on the basis of the top news days during 1969.

Editions Cut for Holiday

Only one edition of The Press will be published today and tomorrow due to the New Year's holiday. Resumption of the normal two-edition schedule begins with Friday's paper.

Samuel J. Simmons, Assistant HUD Secretary

Open Housing Becomes Fully Effective Tomorrow

WASHINGTON (AP)—The 1968 open housing law becomes fully effective tomorrow, buttressed by a pledge of vigorous enforcement from the Department of Housing and Urban Development.

On New Year's Day, approximately 34 million single-family homes will be added to the 20 million apartments, multifamily houses, and new subdivision homes already covered by the first two stages of the fair housing statute.

★ ★ ★

"We intend to demonstrate to the people that we really intend to enforce the statute," said Samuel J. Simmons, assistant HUD secretary for equal opportunity.

Simmons pledged HUD in 1970 would at least double the 16 "pattern or practice" housing discrimination cases referred to the Justice Department for prosecution in 1969. Eight suits were subsequently filed.

EDUCATION CAMPAIGN

"Pattern or practice" cases can involve such things as a real estate brokers' association that deliberately steers Negro homeowners away from certain neighborhoods or an apartment house owner who shuns black applicants.

Simmons also plans a stepped-up education campaign that he expects will lead to a substantial increase over the 927 individual complaints processed by HUD this year.

★ ★ ★

Of these, there have been 94 successful conciliations where many minority persons got the identical or similar house or apartment they were at first denied, he said. Damages also were paid in some of the cases.

'70 Welcome Cold 'n' Cloudy

Oakland County hailed the end of a decade with grains of salt as municipal public works trucks treated snow-slicked thoroughfares to speed early morning traffic.

Snow accumulation differed throughout the county with as much as three inches chalked up in southern portions and as little as one inch in the immediate Pontiac area.

★ ★ ★

Additional flurries are expected to drop between one and two inches during the day as temperatures climb into the low 30s to insure good snow balling for the younger set.

★ ★ ★

Tomorrow, the weatherman lists cold weather, cloudy skies and snow flurries as his welcome to 1970.

★ ★ ★

Possibilities of precipitation in per cent are today 80, tonight 40 and tomorrow 30.

HIGH-LEVEL RESCUE — One of two window cleaners who were trapped for two hours Monday at the top of 473-foot Simpson's Tower in Toronto grabs for a ledge after being hauled to safety (left). At right, rescuer Harry Harrison climbs back to the top of the tower after helping the two trapped men to safety. The window cleaners were trapped when their cradle jammed under an overhang.

Price Rise Fuels Debate on Nixon Inflation Curbs

WASHINGTON (AP) — Government statistics show wholesale prices climbed 4.7 per cent in 1969 for the steepest rise in 20 years, adding more fuel to the argument over whether President Nixon's policies can slow inflation.

"It all adds up to the probability that the cost of living is going to continue rising at a fast clip," said Nathaniel Goldfinger, chief economist for the 13.6 million member AFL-CIO.

But Secretary of Labor George P. Shultz, in a separate interview, said White House policies of federal budget cuts, high interest and tight money are beginning to work.

And Nixon, in signing the tax reform bill yesterday, indicated even tougher federal budget restrictions to offset tax losses.

With one month's figures to go, the Labor Department's Consumer Price Index measuring typical American living costs is up 5.5 per cent for 1969, steepest rise since the 5.9 per cent for all of 1951, a year in which Korean War wage-price controls were imposed.

Another rise in living costs in December equal to the 11-month average so far in 1969 would push the rise in living costs to the highest since 1947's 9.1 per cent after World War II wage-price controls were lifted.

★ ★ ★

"At this point, we have the beginnings of the worst of all possibilities — the danger of recession without any slowdown in prices," said Goldfinger.

"The danger of recession is growing greater day by day," Goldfinger said. "Industrial production has been sliding down now for months, residential construction is declining, retail sales have leveled off now for about a year," he added.

'BRINGING DOWN THE HOUSE'

"The danger in their operations is that you can bring down the whole house," he said.

The preliminary report of the Bureau of Labor Statistics said wholesale prices rose three-tenths of 1 per cent in December, to round out the year's increase at 4.7 per cent.

★ ★ ★

The bureau said that was the largest annual increase since 1950.

Contractors Add Millions

'Cost Overruns Peril Navy'

WASHINGTON (AP) — A new trend in contractor claims that add millions of dollars to ship-building costs has been characterized by Chief of Naval Operations Thomas H. Moorer as a threat to the Navy's very existence.

Gordon W. Rule, director of Navy procurement control, told the House-Senate subcommittee on economy yesterday that ship-builders have filed more than $1 billion in claims against the Navy — some of them "with no merit at all" — in hopes that they can win at least part of the money through negotiations.

★ ★ ★

Rule said Moorer wrote the Naval Materiel Command last March that basing contractor claims on Navy actions such as last-minute contract changes must be corrected.

Moorer added: "We must take action now or ultimately lose our entire Navy."

CITED BY OFFICIALS

Moorer's letter did not elaborate and neither did Rule.

The contractor claims have been cited by other Navy officials as a sizable part of the shipbuilding program's estimated $850 million to $1.2 billion cost overruns.

But Rule refused to tell the subcommittee how much of the overrun is in contractor claims or give any other breakdown.

"I don't want to give the contractors any ideas," he said.

Rule said the more than $1-billion in claims will not be settled for that amount and vowed that future claims will be scrutinized for language that could lead to a claim.

'WON'T OKAY CONTRACTS'

"I am not going to approve another contract — and I'll take it all the way to the secretary of the Navy — if I spot the seed of a claim in it," Rule said.

He said any Navy systems expenditure of more than $5 million must be cleared by him.

★ ★ ★

Rule, a civilian, also said all military procurement should be turned over to a central civilian agency because military officers are generally not suited to it — and some have vested interests against antagonizing contractors.

Israel Gunboats 'for Civilian Use'

HAIFA, Israel (AP)—The five mystery gunboats from France near Israel's shores today, and an oil company spokesman indicated their mission would be to supply and defend an Israeli-American oil drilling operation off the Israeli coast.

A spokesman for the Metivei Mext Co. said the speedy, 147-foot craft would arrive late in the afternoon (10 a.m. EST) and a news conference would be held.

★ ★ ★

The gunboats had been slowed by gale winds in the eastern Mediterranean, but the winds calmed at dawn.

The boats slipped out of Cherbourg harbor at 3 a.m. Christmas morning, evading the French government's embargo on arms to Israel. They were part of a flotilla of 12 built for Israel, but the other seven were delivered before the embargo was clamped on last January.

★ ★ ★

The French government said the boats had been sold to a Norwegian company for off-shore oil drilling operations. It asserted the departure of the boats, manned by Israeli crews, was a complete surprise. But newsmen found strong indications that a number of high French officials knew in advance that the boats would be leaving and did nothing to stop them.

Authoritative political sources in Jerusalem said Foreign Minister Abba Eban told French Ambassador Francois Hure at a meeting Monday that the boats would be used for civilian purposes.

Yemen Battle Reported

ADEN, South Yemen (AP) — Radio San'a claimed today that a new Republican offensive against Yemini Royalists forced them to quit positions northwest of Sad'a, a town on the border with Saudi Arabia.

★ ★ ★

The broadcast said tribal and regular Republican forces carried out the operation yesterday and inflicted heavy casualties. The broadcast said at least three Royalists were arrested.

Flu Spreads to Turkey

ANKARA (AP) — The flu epidemic has spread from Western Europe and Yugoslavia to Turkey, Health Minister Vedat Ali Ozkan said today. Local newspapers reported six dead in an Eastern province, and many schools were closed. Ozkan said the epidemic has not reached dangerous proportions yet.

Broad Cuts Likely in Space Program

WASHINGTON (AP) — A decision to shut down — and possibly auction off — a major new research center even before it gets into full operation points to possible broad cutbacks in the nation's space program.

"We are not going to have a larger budget, congressional action on taxes has caused us to be cut back, and as a result, we have to find ways of economizing," said administrator Thomas O. Paine of the National Aeronautics and Space Administration.

★ ★ ★

First victim of the economy axe was NASA's ultramodern Electronics Research Center at Cambridge, Mass., a 29-acre complex of six buildings now nearing completion at a cost of $36 million.

Some 100 specialists in advanced electronics research already have been installed in the new facilities. An additional 750 are housed in temporary rented quarters. NASA had planned to invest about $60 million and employ several thousand persons to make this the heart of government study programs in the electronics field.

2 SCIENTIFIC DEVELOPMENTS

In its annual report earlier this year NASA credited the Cambridge center with two important scientific developments.

Paine flew to Boston Monday to make the closure announcement.

★ ★ ★

Julian Scheer, NASA assistant administrator for public affairs, said the decision to shut down the center was reached only last saturday.

"We decided to move quickly, and let the employes know of the decision, before they heard rumors about it," Scheer explained.

CHANGES PLANNED

Scheer said it was certain additional changes would be made in NASA programs, but they are not to be announced until President Nixon has sent his budget to the Congress late in January.

★ ★ ★

Francis W. Sargent, Republican governor of Massachusetts, has called the decision to close the center a major mistake.

★ ★ ★

Sen. Edward M. Kennedy and Rep. Thomas P. O'Neill Massachusetts Democrats, said they would meet with Paine to oppose the NASA action.

Pact Near, Gives Firemen $11,000

City firemen will receive $11,000 per year base salary effective tomorrow, according to a new contract on which tentative agreement was reached yesterday by the Pontiac Fire Fighters Association (PFFA) and city bargainers.

★ ★ ★

PFFA Secretary Bobby Cone, said a vote on the tentative contract by the membership had indicated approval of the terms, which boost the basic pay grade $850 yearly, from $10,150.

The tentative pact is expected to be placed before the City Commission for approval at next Tuesday's meeting.

The PFFA is the first of the city employe unions to reach tentative agreement for 1970.

★ ★ ★

The 1969 negotiations were marred by a walkout, picketing and a tear-gassing incident in front of City Hall. An agreement was not reached until the middle of May.

Mao Painting Down

VATICAN CITY (AP) — The painting of Mao Tse-tung that hung incognito in the Vatican press office for more than a month has come down. Informed sources said the Vatican got tired of the flood of requests to photograph it, all of which was refused.

★ ★ ★

An 86-year-old Roman artist, Luigi Carnevali, said he copied the painting from an official portrait of Mao as a youth. But he didn't reveal when he gave it to the Vatican, and church press officials thought the subject was a cassocked priest.

Firms, Offices to Close for Holiday

Most Pontiac area stores will close between 5:30 and 6 p.m. today and remain closed until Friday because of the New Year's Holiday.

Financial institutions will follow regular Wednesday schedules, closing at noon. Those offices with longer Wednesday hours will remain open until 4 p.m.

★ ★ ★

City offices and many county offices will be closed from noon tomorrow until Friday.

Pontiac's main post office lobby will be open Thursday for mail deposits, access to locked boxes and purchase of stamps from machines.

Mail will be picked up from deposit points on normal holiday schedules and processed for outgoing dispatch. There will be no regular window or delivery services.

Garbage Collection Changed for Holiday

Waste collection in Pontiac will be set back one day after the New Year's Day holiday, the department of public works reminded residents.

This means those areas where collections would be Thursday will be Friday and Friday's pickup will be Saturday.

The Collier Road sanitary landfill will be closed New Year's Day also, the DPW announced.

County Pushing Sale of Municipal Bonds

By JEAN SAILE

State legislative action to hike interest limits 2 per cent on municipal bonds to a high of 8 per cent has caused a flurry of activity in Oakland County.

Many projects — including drain and sewer construction, school expansion, and even the county's proposed new $9-million jail complex — were delayed and, in some cases, stymied by an inability to sell the bonds which would finance construction.

★ ★ ★

The county's board of public works moved ahead yesterday — pressured by advancing expiration dates on contract bids — to resubmit bond sale applications on two major sewer and water projects at the new interest level.

Bonds on both projects — the $8.5-million Walled Lake arm of the Huron-Rouge sanitary sewer district and the $3.4-million Bloomfield Hills water supply system — had previously been offered for sale and failed to attract bidders.

JAN. 28 EXPIRATION

Now, faced with contract bids due to expire Jan. 28, the board yesterday moved to proceed on several levels at once in order to obtain necessary local, county and state approval for bond sales at an eight per cent limit.

"We don't expect we'll have to sell the bonds at eight per cent," said R. J. Alexander, director of the county department of public works. What this does is to give bidders a chance to play around, bidding some bonds low and some high and averaging, we think, in the neighborhood of a seven per cent rate."

★ ★ ★

The Drain Commission has been stymied in two projects amounting to about $2 million. Four bond sale attempts failed to attract buyers for the Horton Drain in Southfield, estimated to cost about $200,000, and two attempts to sell bonds for the $1.5-million Mullen Drain in West Bloomfield Township also failed.

News Analysis

Application is now being made to sell the bonds with an eight per cent ceiling on interest.

PONTIAC DRAIN PROJECT

Commissioners also are looking down the road to a bond sale for the $14.5-million Augusta Drain in northwest and central Pontiac which is expected to alleviate flooding conditions. Contract bids on the project are due Jan. 20.

"We expect it will be much easier to sell bonds on this project at an eight per cent limit," said Drain Commissioner Daniel Barry.

★ ★ ★

Getting most of the blame for the tight money market in municipal financing during the latter half of 1969 was the federal government.

National lawmakers had considered removing municipal bonds from their current tax-free status in the tax-reform package.

INVESTORS LEERY

While no action was taken and most observers feel none will be, it nevertheless made investors leery.

Under tax-free status, an investor could hope to reap as much as 10 per cent return on municipal bonds when he added the tax saving to the six per cent interest rate.

★ ★ ★

Money men were reluctant to chance a cut, especially when other types of bonds became available at higher interest rates.

★ ★ ★

"A government bond is only as good as the government's economy," said Alexander. "Corporate bonds can be paid for through foreclosure, if necessary, but what are you going to foreclose on in government?" he asked.

Farmington's Plan

Petition Action Not Near

FARMINGTON — Action on a petition filed by Farmington city calling for annexation of the southern half of Farmington Township is not expected before Jan. 22 at the earliest.

The petition, filed last October, will be referred to the Oakland County Board of Supervisors for its Jan. 8 meeting.

The petition was held inactive, pending results of papers proposing incorporation of Farmington Township and the Village of Wood Creek Farms and Quakertown.

Last week the State Boundary Commission rejected those papers, claiming that they asked for a joining together of governmental units through incorporation that can only be accomplished legally by consolidation.

WILL BE CHECKED

On Jan. 8 the annexation petition will be turned over to the board of supervisor's local affairs committee. The papers will be examined and the number of signatures will be checked.

If the petitions are in order, the committee must recommend a date for an election. Only residents in the city and the affected township area up for annexation may vote.

The earliest possible date the committee can offer its recommendation to the board is Jan. 22.

The boundary commission meets Jan. 21 to rule on a substitute petition offered last week in place of the one just rejected. If the substitute is accepted, it would take place of the original petition immediately.

Consequently, the annexation petition would probably be held in committee or tabled by the board of supervisors until after a consolidation vote.

Thais Say China Arming Guerrillas

BANGKOK (AP) — The Thai government has evidence for the first time that Communist China is supplying arms and supplies to guerrilla tribesmen in the hills of northern Thailand, Deputy Prime Minister Praphas Charusathien said Tuesday.

★ ★ ★

Gen. Praphas charged also that Red China and North Vietnam are supplying military advisers to the tribesmen. As a result, he said, the guerrillas are "most actively" attacking outposts and ambushing government patrols in Nan and Chiang Mai provinces.

★ ★ ★

Praphas told newsmen at Lampang, in northern Thailand, that previously the tribesmen had to rely on an assortment of weapons—including some of American make—which they obtained from Laos, South Vietnam or local sources.

For Six-County Area

Bus Network Eyed

By JEAN SAILE

Assimilation of four Oakland County bus lines into a six-county regional bus network has been proposed in a $160,000 report to the Southeastern Michigan Transportation Authority (SEMTA).

The four — Pontiac Transit Corp., the Bee Line of Keego Harbor, the Great Lakes Transit Corp. of Birmingham and Martin Lines of Royal Oak — would become part of a system including the Detroit Street Railways (DSR) and three other suburban systems in southeast Michigan.

★ ★ ★

The report proposes expenditure of $25 million, two-thirds of it to be obtained from the federal government, for getting the proposed new system under way and for modernizing and replacing equipment to be acquired from the bus companies.

The $25-million cost outlined in the report, which was prepared by the New York engineering firm of Coverdale & Colpitts, does not include the purchase of existing bus companies. That figure would not be known until negotiations for their acquisition were held.

BUS PURCHASES

It does however, include $15 million to be spent on 400 new air-conditioned buses in 1970-71 and $2 million for a South Oakland County garage replacing two smaller facilities now operated by Great Lakes Transit Corp. and Martin Bus Lines.

It also sets aside $1.3 million to air-condition some 300 newer buses now in use and $375,000 for 250 heated bus-stop shelters. Another $2 million is earmarked for two-way radios and headway recorders, recommended as a safety precaution for all buses.

★ ★ ★

Early action is recommended to create a system of uniform fares, to prevent duplicate service, and to extend service to areas not now served.

The report indicates fare-box revenues would never be sufficient to cover bus line purchases as well as operating expenses.

FARE HIKE NEED

"To cover these costs wholly from fare-box revenue would require a rise in fares over 10 years from the present average of 30.5 cents a ride to 47.64 cents in 1980," the report states.

Such a fare increase would produce a costly drop in usage, the report warns.

★ ★ ★

The need to raise a third of the first two-year cost locally plus purchase prices for the eight bus lines and the need to subsidize maintenance costs is currently being considered by the state Legislature.

A proposal to levy a one per cent sales tax on the six-county area for the purpose of providing transportation has been made and will be considered during 1970 by the lawmakers.

★ ★ ★

Additional legislation is also being considered, officials report.

Detroit Subway Setup Proposed

A subway system to "revitalize Detroit" was proposed yesterday in a news conference held by the outgoing Jerome P. Cavanagh administration.

The proposed 4½-mile subway would cost an estimated $102.4 million to link the New Center area (Fisher and General Motors buildings section) with downtown Detroit.

★ ★ ★

Robert E. Tuohey, general manager of Detroit Street Railways (DSR), outlined the subway proposal. He said federal funds are available to finance two-thirds of the cost, while the city could finance its $34-million share with general obligation bonds.

Tuohey said the proposal suggests a route generally following the city's main thoroughfare, Woodward Avenue.

★ ★ ★

Detroit Transportation and Land Use Study (TALUS) officials had suggested earlier this year the same subway proposal for Detroit, with the possibility of later extension to Pontiac via Woodward and to the Downriver suburbs in southwest Wayne County.

Child-Size Dishes

Attractive, colorful, child-size dishes help to make meals a happy time. Silver also should be child-size and easy to manipulate. Dishes that do not upset or break spare the child and family frustration. They are not difficult for a small child to handle. Serve the sherbet type foods in a sauce dish.

Mailboxes Are Hit by Vandals in Waterford

During the busy Christmas week, a number of mailboxes in the Elizabeth Lake Road and Crescent Boulevard area of Waterford Township were vandalized.

Residents said as many as 20 mailboxes were damaged, but township police have received only nine complaints of mailbox damage for the month of December.

★ ★ ★

Most people do not bother to report this type of vandalism, a police spokesman said.

"We generally notify postal inspectors and give them a copy of our report," said Lt. David Putnam of the Waterford Township Police.

★ ★ ★

Putnam said that tampering with mailboxes is a federal offense.

Local laws make the vandalism a misdemeanor punishable by a fine of no more than $100 and/or no more than 100 days in jail.

James C. Clarke Sr.

Many friends and acquaintances mourn the unexpected death of JAMES C. CLARKE SR. at 67, active in the conduct of his business until the end.

CLARKE

Born in Holly, Mr. CLARKE was identified with the petroleum industry in Pontiac for more than four decades, establishing his own oil company in 1931.

He was active in civic, industry and fraternal circles and was a past president of the Michigan Petroleum Association.

★ ★ ★

A genial and outgoing personality with an engaging sense of humor Made Mr. Clark a sought-after companion and a welcome addition to any assemblage. He was an enthusiastic outdoorsman and gardener who also found time for fishing, hunting and golfing.

★ ★ ★

Mr. CLARKE will be profoundly missed by a community of which he was so much a part.

"Let's See You Top That"

Voice of the People:

'Service to Our Country Is Obligation of Youth'

I am currently serving in the U.S. Marine Corps and write in regards to all the protesting about the draft and the conflict in Vietnam. I am 18 years old and believe that every young man who is physically fit and enjoys the good fortune of being raised in the United States faces an obligation, if not a duty, to serve the United States in one way or another, just as young men throughout the history of our nation have done.

★ ★ ★

I believe that I, as a young man and a citizen of the United States have an unshirkable obligation to serve, fight, and, if need be, die for the principles on which this country is based, just as many men have done before me.

★ ★ ★

When I hear of such as flying Vietcong flags, burning of the American colors and flying them upside down, I cannot help but wonder what these young protesters would protest about if it was their hometown or state which the Communists were invading.

PVT. S. J. WINSTANLEY JR.

Questions Ticket When Meter's Unexpired

What's going on downtown? How dare a metermaid put a ticket on my car for expired meter when I still had seven minutes left and the meter did not register "expired." Now I'll be afraid to go downtown and shop. It isn't the money involved, it's the principle.

ELEANOR PHILLIPS
49 PUTNAM

Questions Conduct During Driver Testing

Since when does the Oakland County Sheriff's deputy who gives new drivers their road test have to hold the hand of the lady drivers? Seems kind of strange. I wonder if this has happened to any other young ladies.

D. WALL

(Editor's Note: All letters to the Voice of the People must be signed and an address given. In some instances a pen name may be used in the paper.)

Skyjackers Face United Front

MARIA GRAZIA, a 23-year-old Milanese model, is head-over-heels in love with RAFFAELE MINICHELLO. Miss GRAZIA wants to marry the 20-year-old American Marine corporal. Director CARLO PONTI was so impressed with MINICHELLO's hijacking of a Trans World Airlines jet from California to Italy in November that he plans a movie on the exploit.

Meanwhile, back in the real world, National Airlines pilot JAMES G. BROWN told a congressional committee earlier this year: "If anyone has any solution to the problem of hijacking, please do something about it expeditiously—because it's a tragedy waiting for a place to happen."

★ ★ ★

Brown made the statement a few days after he had flown to Havana on the demand of a hijacker armed with a pistol and four sticks of dynamite. (Recently, two unsuccessful hijackers were slain by three security guards on an Ethiopian Airlines flight from Madrid to Addis Ababa.) There have been at least 66 hijackings this year—including 50 planes commandeered to Cuba, 30 of them American airliners.

The search for a solution continues. The United Nations voted 67 to 1 on Dec. 5 to urge all governments to insure that hijackers will be prosecuted. Seventeen nations abstained and the one dissenting vote was cast by Cuba. In Washington, the State Department announced that the 13 countries which provide the bulk of the world's civil airline service, held a three-day meeting to discuss aircraft hijacking.

★ ★ ★

Eastern Airlines, a prime target for Cuba-bound hijackers, put a still-secret weapon detection device into operation Oct. 15. Federal Aviation Administration head JOHN H. SHAFFER said the device detects weapons but "relies principally on psychology-based behavior profiles."

Weapons detection and an international system for prosecution are closing in on the air pirate. Only husband-hunting models and hero-hunting movie directors will be sorry.

Ralph de Toledano

Senator Uses Power Arrogantly

WASHINGTON—Sen. J. William Fulbright once wrote a book called "The Arrogance of Power." The reviewers of the Eastern establishment press fell all over each other praising it to the skies. Why not? It was a nasty attack on the United States' foreign policy. Sen. Fulbright deplored practically everything this country has done beyond the 12-mile limit.

De TOLEDANO

Now the estimable Democrat from Arkansas is demonstrating that power is arrogant only when it is exercised by those whose politics he does not approve.

★ ★ ★

When it comes to his own actions, that's something else again. For Fulbright has set himself up as prosecutor, judge, and jury over Nixon administration appointments. Never mind what the rest of the Senate wants — or what President Nixon has proposed.

Using his prerogatives as chairman of the Senate Foreign Relations Committee, the honorable solon has taken it upon himself to make unilateral decisions on matters which were formerly considered out of his reach.

REPUTED EXPERT

Some months ago, the President nominated Robert Strausz-Hupe to be ambassador to Morocco.

Prof. Strausz-Hupe, director of the Foreign Policy Research Institute of the University of Pennsylvania, is an internationally known expert on East-West problems. His books have been carefully read by scholars and by diplomats. But his ideas do not match those of Sen. Fulbright.

★ ★ ★

In a free country — or a free Senate — no one can object to this. No one can object to Fulbright's statement last September when the nomination was sent up to the Hill. Said he: "I am very much opposed to him (Strausz-Hupe) and he will not be confirmed if I have anything to do with it."

As a member of the Senate, Fulbright can cast his vote in any way he wants, or his conscience dictates.

NO CHANCE TO VOTE

But the arrogance of power is such that the honorable senator made sure that neither the foreign relations committee nor the Senate as a whole would have a chance to vote on the Strausz-Hupe nomination. He simply refused to hold hearings on the appointment. Without hearings there can be no committee action, and without committee action there can be no Senate vote.

Once upon a time, it was considered a President's right to name anyone he pleased to ambassadorial posts — barring charges of moral turpitude or proof of financial peculation. Ambassadors, after all, are the President's personal representatives to the government of the world. Sen. Fulbright has changed this.

Daily Almanac

By United Press International

Today is Wednesday, Dec. 31, the 365th day of 1969 and there are none to follow this year. It is New Year's Eve.

The moon is in its last quarter.

The morning stars are Venus and Jupiter.

The evening stars are Mercury, Mars and Saturn.

★ ★ ★

On this day in history:

In 1878 Thomas Edison gave the first public demonstration of the incandescent lamp in Menlo Park, N.J.

In 1890, Ellis Island in New York harbor became the receiving station for immigrants from Europe.

★ ★ ★

In 1940, Adolf Hitler sent a message to his Nazi forces predicting "The year 1941 will bring consummation of the greatest victory in our history."

In 1943, Frank Sinatra opened an engagement at New York City's Paramount Theatre and promptly became the idol of the nation's bobby soxers.

In 1946, President Harry Truman proclaimed the official end of World War II.

Man's Magic Enables Killing of God's Children

Scene: The Heavenly Real Estate Office. The Landlord, thoughtfully stroking his long white beard, is listening to the annual year-end report from his collection agent, Mr. Gabriel.

HOPPE

Gabriel: Sir, I still have the special report on that tiny planet you love so.

The Landlord (pleased): Ah, yes, earth, my little blue-green jewel. (frowning) Are the tenants still gouging up my mountain meadows, burning holes in my forested carpets and befouling my blue seas and crystalline air?

Gabriel: Yes, sir. And they're still brawling, fighting and killing each other off. (hopefully raising his trumpet) Shall I sound the eviction notice now, sir?

The Landlord: Wait, Gabriel There is one thing I don't understand. Don't they know they are all children of God?

Gabriel: Yes, sir, they all know that.

The Landlord: Then how can a child of God bring himself to maim or kill another child of God?

Gabriel: Oh, he doesn't, sir. First he performs a magic rite changing his enemy into something less than human. Then, when his enemy is no longer a child of God, he maims or kills him in good conscience.

★ ★ ★

The Landlord: What an awesome power! How do they manage this incredibly complex transformation?

Gabriel: Very simply. Look down there, sir. Can you see through that blanket of smog? Now take those two fine men in blue . . .

The landlord: Ah, yes, two stalwart officers of the law sworn to protect their fellow man. But who are those crowding around them?

★ ★ ★

Gabriel: Young idealists, sir, dedicated to social justice. Now, listen. Hear what they're shouting? "Pigs! Pigs! Pigs!"

The Landlord (aghast): And they're throwing bricks at those two policemen — trying to maim those two children of God!

Gabriel: Oh, no, sir. Not children of God. Pigs. The demonstrators have transformed them into pigs and can now maim them in good conscience.

The Landlord: I see. And that big soldier over there in Vietnam shooting at a fleeing old woman? Has he changed her into a pig, too?

Gabriel: No sir. He changed her into a gook, a dink or a slope. It was easy. She didn't speak his language.

The Landlord (sadly): Transforming the children of God into pigs and gooks. How tragic!

★ ★ ★

Gabriel: Oh, not only pigs and gooks, sir, but nips and wops and krauts and chinks. For example, they never lynch a fellow man until they have turned him into a nigger or a coon.

The Landlord (shaking his head): It's blasphemous.

Gabriel (gleefully raising his trumpet): Shall I blow, sir, and wipe these scum from the face of your earth?

The Landlord (his brow darkening): These what, Gabriel?

Gabriel (ranting): Those rats! That trash! These sc . . . (suddenly lowering his trumpet, crestfallen) Oh, forgive me, sir. I'm no better than they.

The Landlord (in a voice of thunder): Never forget, Gabriel, that he who would transform a child of God into something less than human is an accessory to murder!

U.S. Can Do No Right in Middle East

UPI Foreign News Analyst

When the Arab unity conference against Israel broke up in disunity in Rabat, Morocco, last week, the losers were apparent, the winners less so. The United States got it in the eye from both.

NEWSOM

At first glance, the bitterness of inter-Arab strife which surfaced at Rabat would seem to make Israel the winner.

★ ★ ★

But it is an element which always has been to Israel's advantage over the Arabs and was more than offset by Israel's sudden fear that the United States is selling her down the river.

★ ★ ★

Among Arabs, new United States attempts to demonstrate an even-handed approach in its search for Mideast peace on the eve of the Rabat conference led to charges that the U.S. simply was trying to divide Arab-against-Arab.

UNPALATABLE

It made a prophet out of U.S. Secretary of State William P. Rogers who had forecast that some portions of the American proposals might be unpalatable to both sides.

When the United States moved into the role of honest broker in the dispute, it meant trouble in several directions.

★ ★ ★

It had attempted to meet one primary Israeli condition for peace by setting up positions which would bring both sides to the conference table.

But in Israeli eyes, it puts them back to where they were three wars ago insofar as their border security was concerned and weakened their bargaining position.

U.S. POLICY CHANGE

In the U.S. call for "insubstantial" border changes, they also saw a distinct U.S. policy change, moving closer to the Arab side and away from a position of friendship toward Israel upon which they had counted heavily among the big powers.

Inside the United States, other problems arose.

★ ★ ★

Business interests, including oil, warned against waning influence among the Arabs.

★ ★ ★

Politically, there were powerful interests, both Jew and non-Jew, supporting Israel.

ROCKY VOCAL

Among the latter were New York's Gov. Nelson Rockefeller who declared his "earnest trust" that U.S. dilpomatic initiative would in no way endanger a free and sovereign Israel.

Among the Arab nations, after the failure at Rabat, there was a lively search for a scapegoat.

★ ★ ★

Among Arab leftists the blame was placed upon Saudi Arabia's King Faisal for his refusal to contribute any more than his share of the $250 million annually already going to Jordan and Egypt.

Others blamed President Gamal Abdel Nasser of the United Arab Republic, the meeting's chief organizer.

★ ★ ★

Nasser would be hurt but he has made a success of failure.

Q&A?Q&A?Q&A?Q&A?

(Q) When will more of the expressway 75 be opened up from Alger to Roscommon?

TRAVELER

(A) Mr. Boucher at the Lansing office of the Highway Department tells us final contracts for that stretch of highway won't be let until some time in 1971, and it usually takes 18 months to two years after that to complete the job.

(Q) Not too long ago your paper ran an article about the number of young kids that die from an overdose of drugs just in New York alone. It was a lot, but I can't remember the exact number. Can you tell me? I'm trying to make a point with a very hard-headed young man.

WORRIED MOTHER

(A) Count made with several weeks to go in the year stood at 210 teen-agers already dead in New York from heroin use. The ages were 15 to 19, plus one boy 12. Another 250 between 20 and 24 died, and the city's medical examiner estimated that by Dec. 31 more than 900 persons would have died during 1969 from drug overdose.

(Q) What percentage of students in the Pontiac senior high schools own their own automobiles?

T. R. A.

(A) No actual survey has been made that would give an accurate count, but a school official tells us that in a high school of 2,200 to 2,300 students, probably 300-400 of them own their own cars.

Saigon News Cutoff Called for Agnew's Visit

SAIGON (AP) — Saigon prepared today to receive vice President Spiro T. Agnew as it did President Nixon five months ago, but this time Saigon Radio isn't expected to break the communications blackout imposed for security reasons during the visit.

Informants said the vice president, who is making a 10-nation tour of Asia, would arrive from the Philippines either late tonight or early Thurday, New Year's Day.

There were indications he would remain about 10 hours, meeting U.S. and South Vietnamese leaders and making at least one visit to U.S. troops outside Saigon.

The Radio Corporation of America said in New York Tuesday night that its transmissions from Saigon would be shut down for about 10 hours beginning at 5 a.m. EST. But a few hours later it said it had information Agnew's departure from Manila had been delayed until Thursday morning and the blackout had been postponed.

CORRESPONDENTS THREATENED

When Nixon came to Saigon last July 30, most communication circuits used by newsmen were cut off during his five-hour stay. American correspondents were threatened with revocation of their credentials if they evaded the blackout to report the visit while it was on.

In the midst of the blackout, however, the South Vietnamese government's Saigon radio announced Nixon's arrival and reported what he did, including his lengthy meeting with President Nguyen Van Thieu.

★ ★ ★

Embarrassed U.S. officials later apologized to American newsmen and said the broadcast resulted from a "misunderstanding." Howeven, a South Vietnamese official indicated his government decided to make the broadcast for "political reasons"—to give maximum publicity to Nixon's complimentary remarks about Thieu.

U.S. officials have assured newsmen there will be no such broadcasts if a news blackout is imposed during Agnew's visit. There has been no comment from South Vietnamese officials.

REACHES ENEMY

A news cutoff is supposed to help protect the life of the vice president. U.S. officials claim that within an hour after news is filed from Saigon, the enemy Command is aware of it through its own monitoring system. The American officials do not explain how such information an hour late is of more value to the Viet Cong than what its extensive network in the capital sees on the spot.

Blackouts were in effect for both of former President Lyndon B. Johnson's visits to the war zone, but in the last previous visit of a U.S. vice president, Hubert H. Humphrey on Nov. 1, 1967, no communications shutdown was imposed.

★ ★ ★

Humphrey was attending an inaugural reception for President Thieu at the presidential Palace when four mortar rounds landed in the grounds, but nobody was hurt.

Winding up his visit to the Philippines, the vice president discussed U.S. — Philippine economic and military relations with President Ferdinand E. Marcos. He also presented him slivers from the moon's surface and pictures of the Philippines that the Apollo 11 astronauts took last July.

As the two men posed for pictures, Agnew praised Marcos' inaugural address Tuesday, and Marcos replied: "I gather you have been delivering very good speeches yourself."

★ ★ ★

Some would agree with you and some would disagree, said Agnew.

★ ★ ★

Agnew's next scheduled stop is Formosa, where he is due Friday afternoon.

★ ★ ★

Today the Nationalist Chinese Foreign Ministry severely criticized the Nixon Administration's plans to relax trade restrictions with Communist China.

AP Wirephoto

HEADED HOME — Robert Boone Minton, 8, of Lancaster, Calif., is headed home today. Robert showed up at a bus station in Amarillo, Tex., about midnight Sunday. He had traveled from Los Angeles to Amarillo on the bus, without either tickets or money. Amarillo police spent two days locating the youngster's parents, Mr. and Mrs. Harvey Minton of Lancaster.

Aretha's Husband Sought

DETROIT (UPI)—Ted White, 38, the estranged husband of soul singer Aretha Franklin, was sought by police today after a shooting in Miss Franklin's home in northwest Detroit.

White was wanted for questioning in the shooting of Charles Cook, 42, who is vice president of Miss Franklin's Alf Productions. Cook was to undergo surgery today for a bullet wound in the groin.

According to police, White entered Miss Franklin's home early yesterday and became involved in an argument with Miss Franklin and Cook, who said he was at the house to pay some money he owed the singer and work on a show tentatively scheduled for March at Cobo Hall.

Cook told police later yesterday White pulled a gun and ordered everyone out of the house and Cook was allegedly shot when he refused to leave.

Library of Congress Findings

Federal Commissions Abound

WASHINGTON (AP) — The federal government has commissions on dirty books, old people, sports, motors, fires, Indians, veterans and—of course—the Golden Spike Centennial.

There are at least four federal study groups on libraries, two on postal problems, three on student loans, six on rivers and lakes and two on federal salaries.

★ ★ ★

Only one is concerned with the Father Marquette Tercentenary, but it apparently needs no help in coping with its responsibilities. The 12 commissioners don't have to report to Congress until 1974.

These were among 132 listings in a Library of Congress study of the boards, task forces, councils, commissions and committees created to advise the Congress and the executive branch since 1965.

NO OFFICES, STAFF

The study, mentioned recently in a congressman's speech, found that 59 of the commissions had no offices, no staffs and had not or did not plan to issue any reports.

One committee which did make a report was the one named to Review Relationships between the Central Intelligence Agency and Private American Voluntary Organizations.

★ ★ ★

It recommended that a second committee be established to study the problem.

Another panel, the National Medical Review Committee, was authorized in 1965 with membership to be appointed by the secretary of health, education and welfare. But the committee was never constituted and no reports were ever issued.

NEW COMMISSIONS

When President Nixon took office, he created 10 new commissions to go along with the 169 which aides said already existed to advise the chief executive.

★ ★ ★

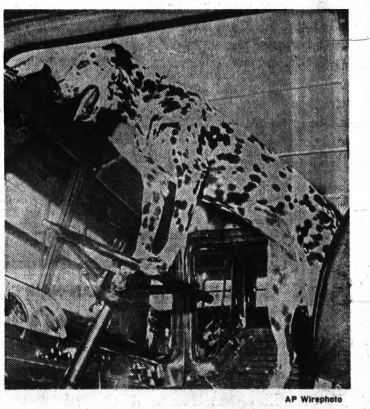

One panel named by former President Lyndon B. Johnson, the National Commission on the Causes and Prevention of Violence, received widespread publicity when it issued its final report this month. With it came a little-noticed suggestion from one member, U.S. Dist. Judge A. Leon Higginbotham.

He called for a national moratorium on commissions to probe the causes of racism, or poverty, or crime, or the urban crisis. There already has been too much study and too little action, said the judge.

A scanning of lists of commission members supports the view, held by some pundits, that there are but 27 real persons in all the world.

The same names appear persistently. AFL-CIO President George Meany, for example, was on six commissions, former Secretary of Commerce C. R. Smith on 12, and former Secretary of Agriculture Orville Freeman on 11.

Eighty per cent of U. S. merchant vessels are more than 25 years old.

Take your choice of free place settings when you make your choice of savings accounts.

You get a choice of ways to save:
- Open a 4% Savings Account for $50 or more.
- Open a 5% Golden Passbook Account.
- Buy a 5% Golden Growth Bond.
- Buy a 5% Savings Certificate.
- Add $50 or more to an existing 4% Savings Account or 5% Golden Passbook.

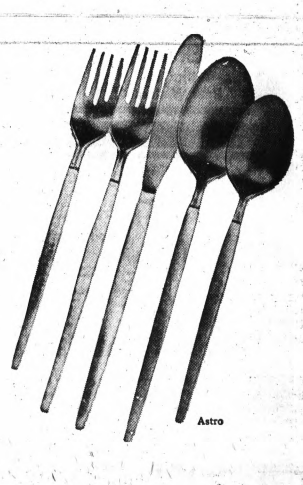

Then choose your free 5-piece place setting:
- Briarwood, a traditionally designed stainless.
- Astro, a contemporary design in stainless.

Then you can buy additional place settings for just $3 per setting each time you add $25 or more to a savings account or $50 or more to a Golden Passbook, or purchase another Savings Certificate or Golden Growth Bond. Also, a complete set of matching serving accessories will be available for purchase soon. (Limit, one free place setting per family.)

That's how much we'd like to make a customer of you. So come in soon to any branch of Bank of the Commonwealth. There's one near you.

Mom and Dad Lead Dogs' Lives for Their Son

By ABIGAIL VAN BUREN

DEAR ABBY: I am so disgusted I don't know which way to turn. Our son lives in another town. He has a degree from a leading university and is presently working on his Masters; however, from the judgment he uses, one would never know he finished college.

Our son has always loved pets, and at present I am keeping and caring for about a dozen dogs, just because he likes them. He has these dogs at school, but when he comes home for weekends, he brings the dogs with him.

I have recently installed wall to wall carpet, and not all his dogs are housebroken. My carpet is taking a beating, and the place smells like a kennel.

No one can say a word against his dogs or he flies off the handle. If I complain, he won't come home at all, which would bother his father and me more than it would bother him. So what can I do?

DISGUSTED

DEAR DISGUSTED: You're doing it. Complaining to me.

★ ★ ★

DEAR ABBY: Margie's husband thinks HE has a problem because Margie has to call her bachelor boss at 7 a.m. every morning to wake him up. MY wife's boss calls HER every morning at 7 a.m. to tell her what he wants her to do that day when she gets to the office. He also calls her as soon as she gets home in the evening and DICTATES letters to her on the phone so she can have them ready the first thing the next morning.

So tell Margie's husband that I know how he feels. I also wish I had my wife all to myself at home.

SIGN ME "TEX"

DEAR TEX: Stop wishing. Tell your wife to quit her job and stay home. (Or do you like the income, Tex? Forgive me.)

★ ★ ★

DEAR ABBY: I am 37 years old, stand 4'11" and have been married for 20 years. I have four children, ages 19, 18, seven and two. I still weigh the same as I did when I was married—102!

To give you an idea of the way I live, I rise early, clean my house, and then get busy on my meals. I am told I am an excellent housekeeper, cook, and mother. I paint, sew, lay tile, garden. You name it, I've done it. I have never neglected my husband sexually either. In other words, he spends his evenings at home with me.

★ ★ ★

I am sick to death of hearing my friends and neighbors exclaim in amazement, "I don't know how you do so much!" Well, I can tell them how. I get up and begin, that's how. Sick or well, I begin.

Recently I met a 22-year-old mother of two. She weighed in the neighborhood of 170 pounds. After looking at me, she said, "You look so young and trim. I'll bet you never worked a day in your life." I laughed. (I had just spent the entire summer painting the interior of our house.)

I would like to tell all those hefty dames who envy the slim ones, "you can be slim, too, if you will get off your fat fannies and do something." Don't "dust" your kitchen floors, get down, and SCRUB them! Don't wait for your husband to find time to wash the windows, wash them yourself. I've washed windows for 20 years and it hasn't killed me yet.

It's a known fact that women outlive their husbands. And I know why! The husbands do their own jobs, come home, and do their wives', too. Sign me

YOUNG AT 37

★ ★ ★

DEAR ABBY: I am 21 and my problem is my brother who is 30. He is married and has a wife and child. About a year ago he made some indecent advances to me, but I straightened him out fast and told him if he ever pulled anything like that again, I'd tell our mother and and HIS wife.

Recently I heard that my brother and his wife took a 15-year-old foster girl into their home. Shortly after, the girl told my sister-in-law that my brother got fresh with her. My sister-in-law called her a liar, phoned the social worker and told her to come and get the girl and place her in another home.

Abby, I feel terrible because I am sure the girl was telling the truth. If I tell, it might break up my brother's marriage. If I don't, my brother might hurt some innocent girl and get into trouble. Please tell me what to do.

MIXED UP IN MISSOURI

DEAR MIXED UP: For goodness' sake, TELL what you know! Your brother is sick and needs treatment. It would be a kindness to reveal his tendencies before he "hurts" someone and gets himself into serious trouble. If you remain silent, knowing what you do, you will have to share his guilt should something happen.

★ ★ ★

DEAR ABBY: I am writing about the women who wanted to breastfeed an adopted baby. I belong to the La Leche league and know of many cases where women have successfully nursed an adopted baby.

No hormone shots are needed. If the mother will just put the baby to her breast repeatedly the hungry baby will instinctively such and thereby stimulate the milk flow.

My grandmother at 68 became so concerned over my daughter who had been in an auto accident, that SHE began to produce milk and had to have her milk pumped out. This shows how strong "motherly feelings" can cause women to produce milk whether they are pregnant or not.

Sincerely,
MRS. R.D.S.
CHULA VISTA, CAL.

DEAR MRS. K.: I DID consult four top ranking medical authorities who agreed unanimously that the woman who wanted hormone shots in order to breastfeed her adopted child should be advised to abandon the idea or she'd wind up with no milk and a mustache.

I also heard from hundreds of La Leche league members who could have not been more enthusiastic about the wonderful work of this fine organization. I must publicly confess my ignorance.

I would not have believed that a woman who had never been pregnant could successfully nurse a baby, and I certainly would have bet against a MALE'S ability to do so. (See my column tomorrow for more letters on this subject.)

Arts Institute Offerings for Children, Adults

The Detroit Institute of Arts is offering several new exhibits that are open to the public.

Art work of Robert Morris will be on display Jan. 9—Feb. 8. Photography as printmaking will also be open beginning Jan. 18.

★ ★ ★

For youth, the classic film, 'Hans Brinker,' will be shown Saturday at 11 a.m. and 2 p.m. in the museum theatre. Jan. 10 the Hal McKinney Quintet will stage a special show for ages 6 and up. Performances are at 11 a.m. and 2 p.m. in the theater with tickets available at J. L. Hudson stores and the Art Institute.

Age Difference Is Very Little in This Case

By ELIZABETH L. POST
Of the Emily Post Institute

Dear Mrs. Post: How would a woman in her thirties address a neighbor of her parents slightly older than she is, perhaps in her forties or fifties? I say it is always proper to address any older person as Mr. or Mrs. My husband thinks a first-name basis is proper. With whom do you agree? — Sheila

Dear Sheila: The answer really depends on whether or not the people involved are of the same generation. I firmly believe that a young couple should address people of their parents' generation as Mr. and Mrs. unless asked to do otherwise. But members of the same generation, even though there may be 10 or 15 years' difference in age, may, after the first meeting or two, call each other by their first names.

When the generations overlap, it must be decided whether you feel that the neighbors, because of their interests, or possibly the ages of their children, are closer to you or to your parents.

FLOWERS SENT DIRECTLY

Dear Mrs. Post: When my mother died, my in-laws sent flowers to the home of my sister who had made a home for my mother. They said the flowers were for me. My in-laws pride themselves on their knowledge of etiquette, but I feel they were wrong in doing this.

If the flowers were for me, should not they have been sent to my home? — Ellen

Dear Ellen: Yes, the flowers should have been addressed to you at your own home.

Mrs. Jack Bechtel of Milford is a finalist in the Pillsbury Bake-Off.

Wedding Information

Planning your wedding? We want to help you.

We must have information about your wedding in our office five days in advance. Information blanks are available in the women's department, or the material may be clearly printed on any large sheet of paper.

Pictures will still be accepted up to three days after the ceremony, but the information must be in our hands ahead of time.

An engagement party hosted by the bride-elect's parents, Mr. and Mrs. Keith D. Ford of Oak Bay Drive, White Lake Township, marked the betrothal of Nancy Louise Ford to Alan John LaForest. He is the son of Mr. and Mrs. E. J. LaForest of Highland. August wedding vows are planned.

Mr. and Mrs. Felix J. Lachowicz of Tan Bay Street, Commerce Township, announce the engagement of their daughter, Marcia Lee, to Jeffrey Lee Howe. He is the son of Mr. and Mrs. Burton L. Howe of Garden Terrace, also Commerce Township. Marcia attends Michigan State University. Her fiance is a student at Ferris State College.

Furniture Buying Has Its Frustrations

By ANNE TAYLOR
AP News Feature

I think we can agree that buying furniture is a lot easier than getting it delivered. The misfortunes that your order can suffer between the two dates is discouraging, to say the least.

First, there's the time lag. The average delivery period in recent weeks has been between six and seven weeks. But people I have checked with complain that some items take as much as three months to deliver.

★ ★ ★

When the furniture finally does come, it sometimes is accompanied by even more problems. Damage in delivery is common. And if the goods come with the incorrect fabrics you can be confronted with another long wait.

The furniture manufacturers concede that they have their share of problems. But they also speak confidently of solving them. They are sensitive to complaints and have several programs under way to correct shortcomings.

The National Association of Furniture Manufacturers believes the industry will be able to make speedier deliveries in the future. In fact, they say, the delivery lag has been shortened this fall, but that is because orders are off. Speedier deliveries in the future will result from more automation of factories.

Damage at the factory is being fought through the use of Zero Defects programs in which workers are rewarded for careful work. If such programs are used successfully in the space effort, manufacturers reason, they can work in the furniture factories also.

Perhaps more of the damage is done in delivery, however. Considering the amount of handling that a piece of furniture undergoes between factory and home, this is understandable. Nevertheless, the NAFM feels that better packaging and better care in delivery could reduce damage markedly in the future.

It is unfortunate, however, that the industry's Seal of Integrity tag isn't used more widely. This is an NAFM-backed warranty, but judging from what I am told, the tag is used less now than it used to be.

CARE OF FABRICS

In recent years, many purchasers have complained that while the fabrics used in their furniture were beautiful they didn't always remain so. Some of the newer fabrics had an affinity for stains. And some couldn't even be cleaned.

That problem may seem to be a thing of the past. The use of stain-repellent chemicals makes many fabrics all but stainproof. These chemicals wear off after two cleanings, but stainproofing can be sprayed on thereafter, usually after each cleaning.

The NAFM also tells me that after the New Year they will be issuing tags to be applied to furniture, telling the consumer exactly how to clean the fabric. And it is unlikely that in the future any uncleanable fabrics will be used.

★ ★ ★

The big furniture associations also have available booklets describing the care of woods and fabrics. The booklets, available through retailers, could help you save money on cleaning bills — and prevent you from ruining the woods or fabrics.

Stock Pantry With Cans of Convenience

UNIVERSITY PARK, Pa. (UPI) — Elderly homemakers, and others too, may find a real convenience in a shelf well-stocked with canned foods.

Mrs. Ruth J. Buck, extension foods and nutrition specialist at the Pennsylvania State University, notes that canned vegetables, meats and soups are convenience foods htat save time in labor and preparation.

★ ★ ★

When selecting, Mrs. Buck advises, buy the can size that fits your needs. While larger cans are often more economical, they can be costlier if not all the food is eaten.

Cans should be stored in a cool, dry place. After they have been opened, they should be refrigerated with a tight-fitting cover.

★ ★ ★

To prepare a canned vegetable, pour off liquid into a saucepan and boil down the liquid until about half of it is left. Add the vegetable and heat quickly. Save the liquid if you do not serve it with the vegetables.

Here's a great "security blanket" for your boys and girls as they grow a little older. It goes with any type decor of their rooms and makes a wonderful Christmas gift idea.

There's nothing quite like the feel of fur to stir warmth in even the toughest little guys. Cover pillows in fake fur and you'll have a friend for life.

You may buy inexpensive pillows or use ones that have outlived their covers. Either make a slip-cover type cover with a zipper on one end, or if you can't sew or don't want to spend that much time, simply hand whip the fur cloth to the pillow.

★ ★ ★

Even an amateur can look professional because the fur hides a multitude of errors. After the seams have been stitched, pull out the fur fibers from the seams on the right side and the seam will be completely disguised. (This would also make a college boy or girl very happy!)

Dear Mrs. Farmer,

I have learned to cut corduroy the way you have suggested, but in the attractive ready-to-wear, the nap seems to be running every which way. Many times the pants will be cut with the cross grain. Can the home sewer do the same thing? Judy R.

★ ★ ★

Dear Judy R.:

The important rule on corduroy is to remember to cut all the pieces of your pattern in one direction unless you are trying to achieve an unusual effect. Some of the most attractive sportswear this fall were made with the corduroy cut in many different directions. Cutting part of the garment on the bias can also give an interesting effect.

One of the most attractive I have seen was a tunic and pants. The tunic was worked in large patches from side to side and up and down to form the new patchwork look. The pants in this case were cut with the lengthwise grain of the corduroy. Today, it seems that anything goes, so get your imagination to work and have the courage of your creativity.

TAILOR TRIX WINNER

Mrs. M. R. Beard, Cedar Falls, Iowa, is this week's Tailor Trix pressing board winner for her sewing suggestion.

"My trick should interest anyone who wants to make a seamless shower curtain. I have used the never-need-ironing 50 per cent polyester-cotton sheets. This could be made in either a solid color or patterned design. Bind the edges and make the hem from a contrast color if desired. Make the eyelet buttonholes on your sewing machine for the hooks. This new shower curtain needs no liner, dries quickly, is opaque and has proven satisfactory in every respect."

Dear Eunice Farmer,

Up until now, I have always been a mere "hem-shortener sewer" but your column has inspired me so much that now I have the confidence to do anything. Sure, I have a few failures, but it's surprising how well my sewing does turn out since I have lost my fear of it.

Lately, I have seen a type of velvet I was never aware of. It is much like velveteen only much thicker and is called velour. Does this type of velvet have to be lined and what is the purpose of having a heavier fabric that costs so much more? Mrs. V.J.

★ ★ ★

Dear Mrs. V.J.:

Velour has a much deeper pile than velveteen, because of this it is not only heavier but much more beautiful. It is usually not underlined. If you prefer a lining for a dress, make it separate.

This velour is also waterproof and makes lovely dressy coats that can be worn for afternoon or evenings. Even though this velour has a pile instead of the smoother nap, all pieces of your pattern must be cut in the same direction. I think you will find that outside of children's clothes, his velour is worth the extra money you spend for it. It is a favorite with the costume room designers.

★ ★ ★

If you would like a free Fabric Conversion Chart to carry in your purse when shopping for fabric, send a stamped, self-addressed envelope with your request for it to Eunice Farmer in care of The Pontiac Press, Dept. E-600, P.O. Box 9, Pontiac, Mich. 48056.

First Aid Techniques Change and Improve

NEW YORK — Although many first aid procedures have been changed and improved, most people cling to outmoded traditional methods, usually out of ignorance.

Red Cross officials point out that research and rethinking have developed new, more effective techniques for coping with emergencies such as:

• Cuts — A careful washing with gauze dipped in soap and water is recommended. Iodine or other germ-killers should not be applied because they can kill tissue and retard healing.

★ ★ ★

• Food or an object stuck in someone's throat and choking him — Immediate, repeated slaps on the back are dangerous because they may force the victim to suddenly suck in his breath or cough. Recommended: do nothing for a while to allow the victim to relax and cough up the object by himself.

If nothing happens, you should reach inside his throat to try to remove the object with your fingers or lean him forward gently and then slap him. If a child is involved, turn him upside down to dislodge the obstruction.

★ ★ ★

• Burns — Never apply butter or other household grease. For a minor burn, apply cold running water or a cloth dipped in cold water until the pain stops. For a serious burn, when the skin is broken, apply a dry sterile dressing, held in place by a bandage.

★ ★ ★

• A nosebleed — Tilt the person's head all the way back and pinch his nostrils. If the bleeding is severe, put a piece of gauze inside his nostril — long enough to be easily removed. Do not use an ice pack.

Why Grow Old?

By Josephine Lowman

"Women most usually are mentalis cases while men are more likely to have trouble with their buccinators," said John Canell, a recognized face contour specialist, at his New York City salon which improves slipped profiles without surgery.

Mr. Canell was not remarking about a woman's state of mind but rather on the state of her face. The mentalis area is on the side of the lower lip descending into the covering of the chin. It's a hot bed for habit lines to form. The penalties for unbecoming expressions are lines and wrinkles.

The buccinator is the muscle that retracts the corners of the mouth and men who habitually talk out of the corner of their mouths will have drooping buccinators.

★ ★ ★

There are three reasons for aging of the face. The underlying muscles become smaller and lax, the fatty support under the tissues melts away, and the skin itself becomes less resilient. Experts in facial contouring manipulate the muscles in a far different manner than that used in the ordinary facial.

Once the underlying muscle structure is toned the skin covering it will lose some of its wrinkles and flabbiness, but it takes well trained knowledgeable fingers to perform this restructuring. The do-it-yourselfer may do much more harm than good.

★ ★ ★

Canell's theory is that we should increase the tone of the facial muscles to compensate for the decrease in deposits of fat beneath the skin as we grow older. This is also important when one is losing weight. John Canell said, "A dieter swims and exercises to tighten up body muscles as the pounds drop off. The same adjustment has to be made with the face to keep a youthful appearance."

★ ★ ★

He also advises that an ounce of prevention works very well in retarding aging of the face and says that prevention can be accomplished by every woman, everywhere. Tomorrow I will tell you what he believes to be the greatest secret for success.

Males Invade Women's Field

MANHATTAN, Kan. (AP) — Men have invaded what used to be a woman's world at Kansas State University here. Of the 30 graduate students in the department of family and child development, seven are male.

★ ★ ★

"Strangely, we do not feel that it's a predominantly female field," said Charles Barrett, Baltimore, Md., speaking for the men. The department is part of the College of Home Economics and most of the graduate students have degrees in psychology and are interested in counseling and research.

Mr. and Mrs. Thomas M. Scott of Troy announce the engagement of their daughter, Pamela, to William Alward. He is the son of Mr. and Mrs. Marvin Alward of Osceola Drive. The bride-elect attends Central Michigan University. Her fiance is a student at Michigan Technological University.

Never Too Flowery

All of us have at one time or another found that words were inadequate to express our feelings. Young and old alike find themselves in this dilemma on various occasions.

★ ★ ★

That very first teen-age crush can turn the most ardent youngster mute for the first time. And it will not be the last. How to express one's affection without saying too much has confronted every man since Adam.

★ ★ ★

The astute male has solved this problem by sending flowers and letting them speak for him. Indeed, there is a special language of flowers with each variety having its own meaning. For instance, ivy means intention of marriage while the yellow rose maans jealousy. But flowers can convey any meaning you intend, and they are probably the most welcome gift a person can receive.

They say a thoughtful thank you to a hostess — and wish success to a business man. Flowers on an anniversary evoke memories of the wedding. On the other hand, they can be the most secret sort of Valentine.

SYMPATHY

And certainly they are the most beautiful and beloved way of expressing sympathy at the time of someone's loss. All over the world flowers have, through the centuries, expressed love, sympathy and warmth at this most difficult time. Flowers reach out a hand of help. They are probably the most easily understood messenger in any language. And you can depend on flowers to hurdle every language barrier.

Swingy Feelings in Davidow Styles

Young, swingy feelings abound in the winter Davidow collection. Consider: gray, white, black, cocoa double-buttoned jacket combined with a hip-stitched, pleated black skirt.

★ ★ ★

Or Scottish plaid in blue, mauve, moss, the jacket black-belted and the skirt with soft roll pleats.

Bridge Tricks From Jacobys

By OSWALD & JAMES JACOBY

At this point, we cannot say just how many Master Points Paul Soloway won in 1969 but we do know he won enough to give him the McKenney Trophy and a new record.

The Vanderbilt win by Dick Walsh, John Swanson, Jerry Hallee and Paul was worth 125 Master Points and got them into the match with the Dallas Aces to determine the 1970 International team.

Today's hand might have resulted in a 13-IMP pickup for the Dallas Aces in the match but Paul came through with a bid that gave his team the 13 IMPs.

The way Bob Hamman and Mike Lawrence of the Aces bid to the spade slam is worthy of study. Bob's hand was just below a two-bid in strength. Mike's two-heart response was made in preference to a spade raise because he was just too strong for a single spade raise.

Bob's two no-trump was an absolute force and desi Ned to elicit more information from Mike. Of course, Bob was on his way to a slam after that response and his use of Blackwood was to keep out of seven when he found that an ace was missing.

★ ★ ★

When the six-spade bid came around to Paul, he doubled. This was a perfect example of the lead-directing double but also a courageous one. If West held two hearts instead of one, Paul would look mighty silly but Paul felt that the North-South bidding had shown seven hearts in the combined hands and was willing to back his judgment.

The heart lead and ruff beat the slam. Against any other lead, it would have been a cinch.

What do you do now?

A—Bid seven spades. You can't count to 13 tricks at no-trump.

TODAY'S QUESTION

Instead of bidding six spades to show three kings, your partner has bid six hearts to show two kings. What do you do?

Answer Tomorrow

Junior Editors Quiz on CHRISTMAS TREE

QUESTION: Who first introduced the Christmas tree?

★ ★ ★

ANSWER: It is usually thought that the first use of a Christmas tree dates from the 8th century, when Winfred, an English missionary to Germany, also called Boniface, replaced human sacrifices before the god Odin's sacred oak with a fir tree set up in honor of the Christ child.

There is a legend that St. Boniface found a young prince about to be sacrificed and when he cut down the "blood oak," a young fir tree miraculously appeared in its place.

Prior to this, the Romans had considered evergreens to be good luck and had exchanged evergreen branches for New Years, a custom English people took over for Christmas.

The Germans were probably the first to decorate Christmas trees, using stars, and angels, with candles wrapped in colored paper. It is said that Martin Luther was the first to put lights on Christmas trees—saying they represented the beauty of the stars as they shone down on the newly born Christ child. German immigrants brought the idea of the Christmas tree to America.

(You can win $10 cash plus AP's handsome World yearbook if your question, mailed on a postcard to Junior Editors in care of this newspaper, is selected for a prize.)

Astrological Forecast

By SYDNEY OMARR

For Thursday

FIRST DAY OF YEAR finds Moon in LIBRA and complete emphasis on work from tradition. WHAT WAS THE THING TO DO today is considered outmoded. Important CAPRICORN puts prestige on the line.

★ ★ ★

ARIES (March 21-April 19): Accent on how you relate to mate, partner. Cycle is not high. You need rest. Be receptive. Leave initiative to others, and don't take yourself too seriously.

TAURUS (April 20-May 20) Obtain hint from ARIES message. Leave details to others. Limit conversation to pleasant memories, if possible. Plainly, this should be a day to relax, recuperate.

GEMINI (May 21-June 20): Good lunar aspect today coincides with chance to make fine impression on loved one. You are attractive, capable of doing much that discourages average individual. You shine.

CANCER (June 21-July 22): Check safety measures at home. Take it easy with home remedies. The cure could be worse than the malady; get expert advice. GEMINI individual could aid you through minor crisis.

LEO (July 23-Aug. 23): Spotlight...on possible necessity for short trip. A relative may make special request. Key is to reinstate family harmony. Words spoken during celebration may have to be retracted.

VIRGO (Aug. 23-Sept. 22): You may find that something of value is temporarily out of sight. This does not mean it is necessarily lost. After some rest — and reflection — you could locate what is being sought.

LIBRA (Sept. 23-Oct. 22): Lunar cycle is high; you are able to do right thing at right time. A new contact could blossom. But make it a point to fulfill recent commitment.

SCORPIO (Oct. 23-Nov. 21): Best to obtain and protect privacy. Finish what you promised yourself to complete. Start New Year by correspondence, calls — but give self time for quiet reflection.

SAGITTARIUS (Nov. 22-Dec. 21): Friends provide what might be needed, solace, if fatigued. You should blame no individual — except yourself. You get nothing for nothing. If you overindulged, you pay price today.

CAPRICORN (Dec. 22-Jan. 19): You accomplish today. This is done especially if receptive, open-minded. Continue program which has made family member glow with pride.

AQUARIUS (Jan. 20 - Feb. 18): Good moon aspect today coincides with journeys, philosophical thoughts, long-range decisions. Be versatile. Do not feel burdened with past obligations. Start fresh.

PISCES (Feb. 19-March 20): Delve into what appears to be mystery. Refuse to accept superficial answers. Dig deep for required information. Permit mate, partner to take initiative.

IF THURSDAY IS YOUR BIRTHDAY you are an original thinker. Your goals are serious. This year you will find that your efforts gain momentum, with July an outstanding month.

(Copyright 1970, Gen. Fea. Corp.)

Concession Bids

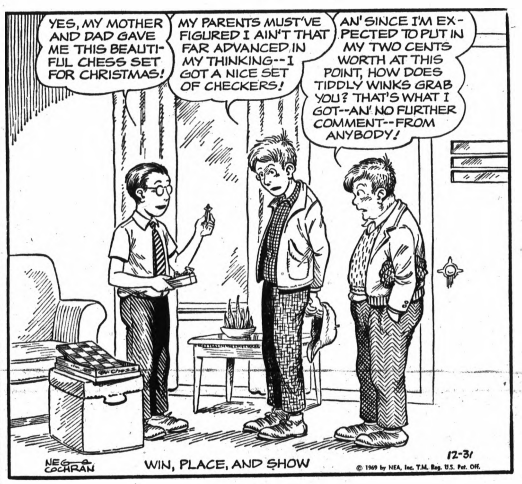

LANSING (AP) — The State Natural Resources Department is taking bids on operation of the bathhouse and parks store concession at Interlochen State Park. The concession, which grossed $25,260 in 1969 and $25,732 in 1968, is the only facility of its kind in the park which drew more than 270,000 visitors this year, the department said. The sealed bids, accepted for three and five-year operations, will be ordered Jan. 12.

Waterford Mobile Home Park Blocked

By MARY SUNDSTROM

Two rezoning requests for mobile-home parks in Waterford Township were denied following public hearings last night by the township Planning Commission.

Final action will be taken later by the township board.

One request was made by American Mobile Home Corp. (AMHC) of California to rezone about 100 acres of agriculturally zoned land, fronting on Nelsey Road and Lotus Lake, to accommodate 535 mobile home units.

★ ★ ★

The other request was made by Walter Jackson of 927 Madison, Birmingham, who earlier had led opposition against the (AMHC) request.

The AMHC request called for paved streets, landscaped lots, all underground utilities, a community television antenna system, development of a beach area, a community room and a virtually self-contained village, including its own snow removal and trash collection.

BEST USE FOR LAND

Tom Egan of Ann Arbor, regional manager of AMHC, said his company felt the land was impractical for single-family dwellings and that its most usable state would be in mobile-home development.

"Our proposal also meets the needs for new forms of housing," he added.

Out of 100 persons gathered at the school administration building, one spoke in favor of the proposed rezoning — Mrs. Cynthia Nelsey, owner of the property.

★ ★ ★

She said the land had been determined by developers and investors to be not economically sound for single dwelling development.

DENSITY RULE

Jackson, who owns a great deal of property across Nelsey road from the land on Lotus Lake and is developing some of it into single-family homesites, said the AMHC plan violated the township's rule of density (a maximum of 2½ houses per acre) by planning seven mobile homes per acre.

Jackson also said he felt that mobile homes should not be located in the middle of a residential area on "one of Waterford's most beautiful lakes."

★ ★ ★

Jerome Mulligan, an attorney who said he represented many township residents, also asked the commissioners to deny AMHC's rezoning request and to leave the area in a land bank for residential development at a later date.

He suggested that a mobile home park would downgrade the area, and that it would be a tax burden on the township.

★ ★ ★

He also said the park would be a burden on Clarkston Schools, which would service the area.

★ ★ ★

Citizens said they also felt the park could add to pollution of the lakes.

★ ★ ★

Petitions bearing names of several hundred township homeowners urging denial of AMHC's rezoning request were presented to the planning commission.

Voting to recommend denial of the request to the township board were Commissioners Mitchell Sioma, Jim Clarkson, Charles Richards and Joseph Filka.

★ ★ ★

Those commissioners voting for the rezoning were Carlos Richards, Donald Ringler and Bob Lawyer. Absent were Commission Chairman Paul VanRoekel and Commissioner Dr. John Naz.

★ ★ ★

In Jackson's rezoning request from residential to trailer court zoning, he proposed a smaller park than AMHC with only 95 lots on 13 acres some 600 feet from where the previous rezoning request had been proposed.

Tops '69 by $2.5 Million

PGH Budget Approved

City Affairs

The City Commission approved Pontiac General Hospital's $14,925,279 budget for 1970 last night following a public hearing.

The budget is up approximately $2.5 million from last year and calls for increases in room rates averaging $5 per day.

★ ★ ★

Hospital administrator, Dr. Roger B. Nelson, said the budget was based on a 92½ per cent average occupancy. The increase in costs was due to a general increase of more than 7 per cent in operation expenses and to addition of 37 employes to the staff, Dr. Nelson explained.

The budget was approved unanimously by the commission. The budget does not call for expenditure of any city funds but is paid out of hospital revenues.

In other business the commission:

- Unanimously denied a dance permit for the Timberlane Lounge at 20 E. Pike.
- Deferred for one week consideration of rezoning the northeast corner of Ypsilanti and Karen from single to multiple family use. The request from developer Herbert Chernick was not favored by the City Planning Commission which oppostd it 4-2.
- Agreed to hire the Jacobs Co. of Chicago to evaluate the salary structure of the city's administrative personel. The study is to cost $7,500. Opposing the study was Commissioner Robert C. Irwin, district 2. He pointed out a similar study was made in 1968.
- Received a report from Parks and Recreation that in expenditures of $267,000 for recreation, 43 per cent had gone into various programs in district one and seven, most of Pontiac's South Side. Commissioner T. Warren Fowler Sr., district 1, said the figures disproved accusations that his area was "being cut short" in providing recreation for children.

Pontiac Press Photo

Naval Armory On East Boulevard To Close

Navy Abandoning City Center

The U. S. Navy is abandoning its training center in Pontiac, and the city will end up acquiring the large building which housed its operations.

The center, at 469 S. East Blvd., was built in 1948 at a cost of $161,000. It is of factory-quonset type construction with three large, basketball court-sized huts joined by corridors.

★ ★ ★

The City Commission was informed last night that as of Jan. 1, the building will be empty after 22 years. The Naval Reserve training functions will be transfered to 26400 W. 11 Mile in Southfield. The Pontiac unit has about 160 trainees and eight regular Navy personnel.

According to a Navy spokesman, the Pontiac center is being closed along with centers in Kalamazoo and Jackson as a result of a Department of Defense budget cut.

RECIPIENT OF AWARDS

The Pontiac unit was the recipient of several citations and awards during its tenure.

The City Commission is contemplating several possible uses for the structure. It could readily be converted to an east side fire station or community center or both.

The building is located on city land formerly in adjacent Murphy Park. The U.S. government leased the land on a $1-per-year basis throughout the time of the Navy occupancy.

Before deciding to abandon the building, a survey was made of other federal agencies which might wish to use the structure, but none were found, the Navy spokesman said.

★ ★ ★

Last night the commissioners approved taking the procedures to acquire the building. However it was not determined if any exchange of money will have to take place. The property is 300 by 200 feet and is to be appraised to determine value in conjunction with proceedings for acquisition.

African Nation Dons Red Look

KINSHASA, The Congo (AP) — The neighboring Congo Republic put on Communist trappings today. It proclaimed itself the Popular Republic of the Congo, adopted a Red Flag with hammer and sickle in the center and made the Internationale the national anthem.

The flag also displays two green palms surmounted by a yellow star in the upper left hand corner.

The former French colony whose capital is Brazzaville has been moving toward the left ever since 1963, when Alphonse Massemba-Debat overthrew the country's first president, Abbe Fulbert Youlou.

The Soviet Union and Communist China began competing for influence and stepped up their efforts in August 1965 when the United States broke diplomatic relations over the arrest of a U.S. aid officer. This made the Congo the only black African nation not having ties with Washington.

Maj. Marion Ngoubai, the present head of state, overthrew Massemba-Debat in August 1968, and neutral diplomats said that since then the Soviets seem to have gained ground over the Chinese.

Ngoubai, who put down an attempt to overthrow his regime in November, put out feelers recently to see how much aid he might get if he re-established relations with the United States. Informed sources said the U.S. response was a "relations if you like but no aid."

State Will Save in Phone Switch

LANSING (AP) — The state may save upwards of $100,000 a year with transfer of a small area of the Michigan Telephone Co. Dimondale exchange to the Lansing exchange, says the Michigan Commerce Department.

★ ★ ★

The transfer, approved by the State Public Service Commission, is expected to enable a new complex of state-owned buildings to be in the Lansing exchange.

Area Deaths

Sarah Brondige

Service for Sarah Brondige, 88, formerly of 723 Third, will be 1:30 p.m. Friday at Huntoon Funeral Home, with burial in Oak Hill Cemetery.

Miss Brondige died Dec. 23. She was a member of the First Philathia Class, Wayside Gleaners and the First Baptist Church of Pontiac.

Mrs. William D. Barry

ORION TOWNSHIP — Service for Mrs. William D. (Elizabeth) Barry, 68, of 927 Orion will be 10 a.m. Friday at St. Joseph Catholic Church, Lake Orion, with burial in White Chapel Memorial Cemetery, Troy. Rosary will be 8 tonight at Flumerfelt Funeral Home, Oxford.

Mrs. Barry died yesterday. She belonged to the American Legion Auxiliary 840 of Detroit and the Maccabees and the Ladies of Detroit Elks Lodge Auxiliary.

Surviving besides her husband are three sons, Leonard Wilkins of Lake Orion, Jerry Wilkins of Rochester and Gordon Wilkins of Los Angeles, Calif.; a brother; six grandchildren; and two great-grandchildren.

Mrs. James Burnett

MILFORD — Service for Mrs. James M. (Sharon A.) Burnett Jr., 25, of 212 St. John will be 3 p.m. Friday at Our Saviour Lutheran Church, with burial in Highland Cemetery by the Richardson-Bird Funeral Home.

Mrs. Burnett died yesterday after a four-month illness. She was a laboratory technician in research at D & H Farms, Howell.

Surviving are her husband; parents Mr. and Mrs. Russell VanBuren of Milford; four brothers, including Arno, Calvin and Paul VanBuren, all of Milford; one sister; and grandmothers Mrs. Edna VanBuren of Highland Township and Mrs. Gladys Whipple of Lake City.

Mrs. Joseph Frankowski

AVON TOWNSHIP — Requiem Mass for Mrs. Joseph (Genevieve) Frankowski, 52, of 3745 Donley will be 11 a.m. Friday at Sacred Heart Catholic Church, Pontiac Township, with burial in White Chapel Memorial Cemetery, Troy.

Rosary will be said at 7:30 p.m. tomorrow at Harold R. Davis Funeral Home, Pontiac Township.

Mrs. Frankowski died Monday.

Mrs. Harold McVeigh

OXFORD — Service for former resident Mrs. Harold (Lillian) McVeigh, 73, of Sterling Heights will be 2 p.m. Friday at Tiffany-Young Funeral Home, Armada, with burial in Will Grove Cemetery, Armada.

Mrs. McVeigh died yesterday.

Surviving are her husband; four daughters, Mrs. Fred Fernsemer of Lake Orion, Mrs. Harold Russ of Madison Heights, Mrs. Charles Teets of Lexington and Mrs. Henry Sarauer of Sterling Heights; two sons, Cleon J. of Rochester and George A. of Madison Heights; one sister; 21 grandchildren; and 21 great-grandchildren.

The body may be viewed after 7 p.m. tomorrow.

Beverage Talks

LANSING (AP) — Proposed changes in the standards for nonalcoholic beverages in Michigan will be the topic of a public hearing set for Jan. 9 in Lansing. A new regulation, proposed by the State Agriculture Department, sets standards for nutritive, carbonated and noncarbonated beverages manufactured or sold in the state. The new regulation would, in effect, adopt federal standards for nonalcoholic beverages, the department said.

The western part of today's California may have been a deep oceanic trench over 100 million years ago, geologists believe.

Commissioners Shun Eviction-Case Stand

The City Commission was asked to intervene in an eviction case at last night's meeting but declined to do so in a 4-3 vote.

The case concerns the eviction of Mrs. Conova Sharpton who resides in the Crystal Beach housing project. The eviction notice issued by Pontiac District Court is for Friday.

★ ★ ★

Robert Kocsis, an attorney, spoke for Mrs. Sharpton. He said she was the mother of three children living on Aid to Dependent Children payments. He said on his advice she had refused to pay rent for the last five months, $350.

The money has been placed in escrow. Kocsis explained the withholding of rent was to protest the condition of the unit which he said has a six-foot hole in the roof.

RELOCATING RESIDENTS

The city purchased the wartime housing project and for the last two years has been in the process of relocating the residents and tearing the structures down. So far 70 per cent of the families have left.

Mrs. Sharpton, with three children, has had difficulty locating new housing, Kocsis explained. He cited recently approved state tenants' rights laws which he claimed gave his client the right not to pay rent for a substandard dwelling.

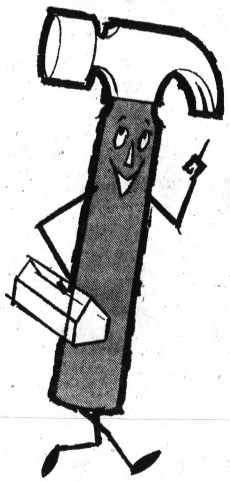

★ ★ ★

Kocsis was advised to seek a stay of execution on the eviction from the District Court and indicated he would do so.

However, his request that the commission go on record as opposing the eviction was turned down. Commissioner Robert T. Jackson, district 5, offered a resolution to that effect and had the support of Commissioners T. Warren Fowler, District 1, and F. Jack Douglas, District 4. The other four commissioners dissented.

All the commissioners indicated that though they were not in favor of evicting the woman immediately, they did not want the city's ultimate plans for erasing the old housing project delayed.

Bo, McKay Use Buckeyes as Yardstick

PASADENA, Calif. — When the Parade of Roses started off the New Year of 1902, the first year of the Rose Bowl, the Michigan team and hundreds of its rooters sat somewhat quietly on their tallyhos as the parade proceeded down Pasadena's Colorado Ave.

A tallyho is what the participants rode back when real horse power was used.

★ ★ ★

Early in the parade a young woman rushed up to the Michigan team's tallyho, wearing her streamers of Cardinal red, the color of the Stanford Indians and she shouted, "Wait until we get you on the field, we'll show you something about football."

Her threat took the edgy atmosphere away from the Michigan float and then all of the players and fans broke out with the Victors and a series of rah-rah-rahs.

A newspaper account of the parade noted that the cheers of the Michigan tallyhos were so loud "such as never heard by the nonagerian Indians in another part of the parade."

RESULT MADE HEADLINES

What happened on the field that afternoon produced such headlines in Los Angeles papers:

"Enormous Crowd Sees the Michigan Backbreakers Make Monkeys Out of Stanford Footballists."

"Stanford Players Unable to Score Against the Bully Buckers From Michigan."

★ ★ ★

In the game, Stanford's first string quarterback, who was on the sidelines with two sprained ankles, was so incensed about the thrashing the Indians were getting he threw down his crutches and hobbled onto the field, only to be picked up and put back on the sidelines where he belonged, with tears streaming down his face.

"This is the spirit that makes good college football," wrote the LA Times.

That "enormous crowd" mentioned was 8,000 in 1902 and the Pacific Coast was so humiliated by the 49-0 defeat another Rose Bowl game never came about until 1916 when Washington State won over Brown 14-0.

Anyway, from this first Rose Bowl game, the Michigan Wolverines have always been called the invincible participants, having won four times in the classic without a loss.

Ohio State last year made its Rose Bowl record read 5-1 by whipping Southern Cal, a team which has been in the New Year's Day contest 16 times and has posted an 11-5 mark.

SAME SCORE POSTED

Michigan didn't come back to the Rose Bowl until 1948 and the Wolverines repeated the 49-0 score over the Trojans as they posted over the Indians.

A Los Angeles writer wrote, "Well, it wasn't as bad as we expected; it was worse."

"Michigan's mad magicians pulled every modern football trick out of the book before 93,000 stunned fans . . . and it was the worst massacre since 1902," the paper claimed.

★ ★ ★

Another writer claimed that the Wolverines were deliberately shooting for the 49 point total achieved by the point-a-minute Wolverines of 1901 in the 1902 Rose Bowl, and he wrote, "The academic bigwigs of the Pacific Coast who perpetrated the unholy union with the Big Nine should be made to line up on the Rose Bowl turf and pay for their perfidy. . ."

ANOTHER TRIUMPH

In 1951 Michigan came back to the Rose Bowl in the first five-year pact between the Pacific Coast and Big 10, and the Wolverines defeated California, 14-6.

In the 1902 classic, fullback Neil Snow was picked as the top player in the game. In 1948 halfback Bob Chappius won the honor and the 1951 clash, fullback Don Dufek was chosen.

The 1965 game between Michigan and Oregon State brought angry overtones from the California schools.

★ ★ ★

Southern Cal defeated No. 1 rated Notre Dame in the final game of the season to finish with a 7-3 record but Oregon State was picked as the most representative team.

The result of the game gave USC fans and press corps added reason to criticize the selection.

"It wasn't a defeat, it was a disaster," claimed the LA Times after Michigan's 34-7 rout of the Beavers. Mel Anthony was picked as the outstanding player of the game.

Coach John McKay of USC was in San Francisco coaching the Shrine game and had only a smile and no comment for the questions directed at him when the score was announced.

RECORD APPEARANCE

For McKay this is a record fourth straight appearance in the Rose Bowl and fifth in his 10 years at USC. He has a 2-2 Rose record.

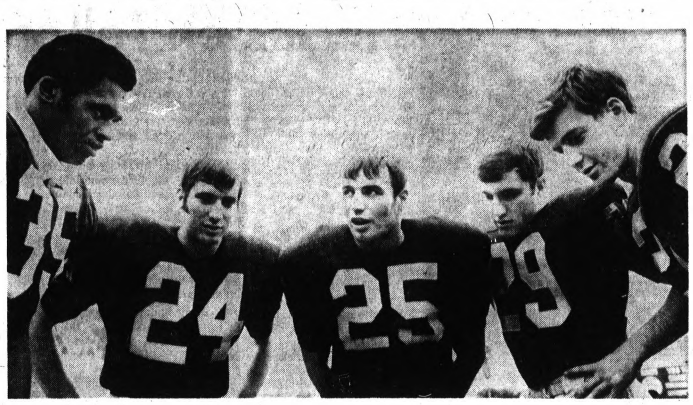

For Michigan coach Bob Schembechler this is the first bowl appearance ever and it follows his honor of having been picked the Coach of the Year in the country.

"I'm very emotional, and I expect my team to be emotional. Winning in football means more to me than any ratings or honors," said Schembechler as he prepared to take the Wolverines into the seclusion of a monastery.

★ ★ ★

"I expect we will bring these emotions to a peak in this hideaway.

"At any rate, regardless of what happens on the field Thursday, happy New Year to everyone," added the Michigan coach who is faced with protecting Michigan's "invincibility in the Rose Bowl."

AP Wirephoto

MICHIGAN DEFENSIVE HUDDLE — University of Michigan defensive backs put their heads together to plan ways and means of stopping Southern California during tomorrow's Rose Bowl game in Pasadena, Calif. The men (left to right) are: Tom Darden, roving back; Brian Healy, defensive back; Tom Curtis, safety; Barry Pierson, defensive back; and Bruce Elliott, defensive back.

Keeping Plans Secret While Heaping Praise

By BRUNO L. KEARNS
Sports Editor, Pontiac Press

PASADENA, Calif. — The Ohio State Buckeyes are no longer No. 1.

They are not the sole champions of the Big Ten.

Then are not in the Rose Bowl.

Nor are they any longer considered the most invincible football team in college football history.

Yet, coaches Bo Schembechler of Michigan and John McKay of Southern Cal, rivals in the 56th Rose Bowl Thursday (4:45 p.m. Pontiac time), continue to heap praises on each other by using the Buckeyes of 1969 for comparative strengths.

★ ★ ★

"Offensively Michigan's main strength is its ability to move the ball with a multiple-pronged attack, "McKay said, "they are identical on offense to the Ohio State powerhouse they defeated."

Schembechler likewise uses OSU as a basic for comparing USC, but from a defensive standpoint.

"USC's defense is closer to Ohio State than any team I've seen. They will be the finest defense we will face. They have the quickness of Ohio State, but they have more size," said the Wolverines' freshman coach who makes the first bowl appearance of his coaching career.

HEAPING PRAISE

So it goes for Michigan and Southern Cal coaches who are spending a lot of words praising each other while keeping their own game strategies to themselves.

While many critics needled the USC Trojans for being "lucky" in posting a 9-0-1 record and gaining their fourth straight Rose Bowl bid, and calling Michigan's triumph over Ohio State a "fluke" the two coaches proceeded to defend the other's right to playing in this colorful classic.

★ ★ ★

"Missouri beat Michigan but Missouri recovered several fumbles near the 20 yard line. It was a poor game played by Michigan more than a great game played by Missouri.

"The team that ran most on Michigan was Michigan State and of course that game is the same kind of rivalry as USC and UCLA so you can forget records," said McKay.

★ ★ ★

McKay also pointed out, "Michigan lost five fumbles in their two losses and only seven for the whole season.

It was pointed out to Schembechler that the Wolverines were now rated No. 7 in the AP poll and USC in No. 4, yet the oddsmakers are listing the Wolverines as favorites.

Bowl Parade Starts Tonight

Bluebonnet May Be 10-TD Tilt

By The Associated Press

What are you doing New Year's Eve?

Two sophomore quarterbacks who didn't figure on starting this season plan to light up the Astrodome's $2-million scoreboard when Auburn meets Houston tonight in the 11th Astro-Bluebonnet bowl.

It figures to be a 10-touchdown game with Pat Sullivan of Auburn and Gary "Moon" Mullins of the host Cougars leading the way.

★ ★ ★

Both teams are high-scoring college football powers with 8-2 records and can explode on the ground and through the air. Houston, ranked No. 19, has rolled up an average of 38.6 points a game this season; 12th-ranked Auburn 36.3.

Touching off this long week of football activity Tuesday night was the second Peach Bowl in Atlanta where another sophomore, Eddie Williams, pounded out the yardage to lead West Virginia to a 14-3 victory over South Carolina.

MIGHT LEAVE

But the Mountaineers' 10th victory in 11 starts may have been a going away present for coach Jim Carlen. He said after the game that he will decide within a week whether to leave West Virginia and accept the head coaching job at Texas Tech.

Bob Gresham scored for the Mountaineers on a 10-yard run in the first period and Jim Braxton got the clincher on a one-yard run with only 23 seconds remaining in the rainsoaked contest played before 48,542. Billy DuPre's 37-yard field goal put the Gamecocks on the scoreboard in the second period.

But it was Williams who was named the game's most valuable offensive player. He carried 35 times for 208 yards.

The first major contest to get under way on New Year's Day is the Sugar Bowl (ABC, 1:45 p.m. EST) between third-ranked Arkansas and 13th-rated Mississippi. The favored Razorbacks present a 9-1 record, losing only to Texas in the regular season finale, a balanced offense and the nation's stingiest defense against scoring.

The Ole Miss offense revolves around Archie Manning, a spectacular junior quarterback who engineered big victories over LSU, Tennessee and Georgia this season. Mississippi finished with a 7-3 mark.

COTTON BOWL

NBC comes on with the Texas-Notre Dame showdown at 2 p.m. (EST). Making their first bowl appearance in 45 years the Fighting Irish will have to stop the Longhorns' powerful ground game, led by quarterback James Street.

Texas, winner of all ten starts, faces Irish front lines that outweigh the Longhorns' almost 20 pounds a man. Notre Dame Coach Ara Parseghian, whose team compiled an 8-1-1 mark, promised that it will be "a hittin' football game."

After that, don't turn your TV dial—NBC comes on with the Rose Bowl at 5 p.m. (EST) and the Orange Bowl at 8:15 p.m.

★ ★ ★

If Notre Dame knocks off Texas, emotion will be running high at the Orange Bowl where second-ranked Penn State tackles sixth-ranked Missouri. The Nittany Lions have enough going as is—being the underdog and striving to extend their 29-game unbeaten string.

★ ★ ★

Penn State coach Joe Paterno was none too pleased when President Nixon acclaimed Texas the No. 1 team in the land following the L'nghorns' 15-14 triumph over Arkansas. Hoping to land in the top spot in the final Associated Press poll, to be conducted after Thursday's games, Penn State will have to stop a strong Missouri offense, led by Terry McMillan and Joe Moore, which can strike in the air and on the ground. Missouri finished with a 9-1 record.

St. Louis Rips Canadiens, 5-0

By the Associated Press

The St. Louis Blues have shattered their Montreal complex convincingly and that could make things a bit more interesting when the National Hockey League moves into its Stanley Cup playoffs next spring.

The Blues walloped the Canadiens 5-0 Tuesday night—the first time St. Louis has beaten Montreal in 22 meetings, including eight straight final round playoff defeats—four straight in both 1968 and 1969.

★ ★ ★

In the only other NHL game played Tuesday, Minnesota and Los Angeles battled to a 0-0 deadlock.

The Blues made fast work of Rogatien Vachon, Montreal's starting goalie. St. Louis rushed four goals past Vachon in the first 15 minutes, driving him to cover. Rookie Phil Myre took over after that, allowing the Blues' last goal.

Gary Sabourin led the rout with two goals, his 12th and 13th of the season. Larry Keenan, Jimmy Roberts and Phil Goyette had the other St. Louis goals.

SPARKLING RETURN

The shutout went to Glenn Hall, who was making his fourth appearance for St. Louis after ending his retirement.

The Canadiens had won 16 and tied five games against the Blues since St. Louis was added to the NHL in the six-team expansion which took place in 1967.

Goalies Gerry Desjardins and Fern Rivard performed spectacularly in the nets as Minnesota and Los Angeles battled to a scoreless tie.

AP Wirephoto

ONE'S FOR REAL — That 10-month-old, 150-pound lion attached to a chain is for real as he and Penn State mascot Dave Lacey (the fake lion) get the message across to cheerleaders — "Maul Missouri." Penn State's unbeaten Nittany Lions will tangle with Missouri in the Orange Bowl in Miami Beach tomorrow night. Penn State ended the year ranked second in the Associated Press poll behind Texas, but another vote is scheduled to be taken after tomorrow's heavy bowl slate.

OU Rally Falters as Alma Captures Jaycee Tourney

ALMA (UPI) — Host Alma College thwarted a second half surge and defeated Oakland University, 91-71, Tuesday night to capture the Alma Jayee Holiday Tournament Championship for the second year in a row.

Oakland, down by nine points at the half, got as close as 60-55 with 12:11 remaining in the game before Alma, led by Most Valuable Player Charley Hudson, pulled away to victory.

★ ★ ★

Hudson, a 6-foot-2 junior guard, scored 21 points and teammate Jerry Hills added 18 to match Oakland's highest point-getter, Joe Coney. Both teams now have 4-5 records for the season.

★ ★ ★

In a consolation game, Florida Presbyterian edged Aurora, of Aurora, Ill., 72-65.

Former Western AD Gary Succumbs at 69

KALAMAZOO (AP) — Mike Gary, 69, retired athletic director at Western Michigan University and onetime football star for the University of Minnesota in the 1920s, died of a heart attack Tuesday in Kalamazoo.

Truesdale Downtown Chapel in Kalamazoo is in charge of funeral arrangements, which were incomplete Tuesday.

He is survived by the widow, Helen, of Kalamazoo; a son, Dr. John Gary of Boulder, Colo.; two daughters, Mrs. Shirley Morse of Kalamazoo and Miss Patricia Gary of Seattle, Wash.; and a sister, Mrs. M. G. Major of Arlington, Va.

FOUR HORSEMEN MINUS ONE — The three surviving members of Notre Dame's famed Four Horsemen talk with newsmen in Dallas Tuesday where they gathered to watch the Irish take on top-rated University of Texas in the Cotton Bowl tomorrow afternoon. The surviving members are (left to right): Jim Crowley, Elmer Layden and Don Miller. The other member of the feared quartet, Harry Stuhldreher, is deceased.

Last Irish Bowl

Horsemen Tell of 1925

DALLAS, Tex. (AP) — The last Notre Dame football team to play in a bowl game spent two weeks getting from South Bend to Pasadena, Calif., and Knute Rockne blew his top because the players gorged themselves out of condition.

"Rock got very irritable," Jim Crowley, one of the fabled Four Horsemen who helped crush Stanford 27-10 in the Rose Bowl 45 years ago, recalled Tuesday. "He was mad because we were dined but not wined.

"We went by bus by way of New Orleans, Houston and Tucson and everywhere we stopped were feted by civic clubs. I remember at New Orleans we stuffed ourselves so much on oysters we couldn't move.

"Finally, we got to Tucson, which was a cow town then. The Rock made us stay there a week. But he told us to be careful about reaching for a handkerchief or a billfold in our hip pockets. Somebody might interpret it as a draw and we might get shot."

Crowley and two other members of the backfield immortalized by sportswriter Grantland Rice—Don Miller and Elmer Layden—flew into Dallas for Notre Dame's Cotton Bowl battle Thursday against No. 1 ranked Texas. The fourth member, Harry Stuhldreher, died in February, 1965.

The men whom Rice likened to the Four Horsemen of the Apocalypse—War, Famine, Death and Pestilence—are now gray and plumpish, but still sharp and puckish in their remembrances.

Layden, 66, the fullback, is the grayest and slimmest, a transportation salesman now retired. "I've got so much nothing to do I can't get it all in," he says.

* * *

Crowley, 67, jowly, bespectacled and with a spreading paunch, is an industrial commissioner at Scranton, Pa. The other halfback, Miller, 67 and 188 pounds, is a U.S. district attorney in Cleveland.

Frequently thrown together for occasions such as this, they are like a vaudeville team, swapping quips and insults with each other, telling vivid stories and demonstrating a rare and warm camaraderie.

"Our backfield averaged only 156 pounds," Miller recalled, "and the line averaged 172 pounds."

EX-SPARTAN COACH

Crowley, who later coached at Michigan State and Fordham, remembered that one night on the trip he and end Ed Huntsinger were caught by Rockne at 9:55 p.m., five minutes before curfew, buying Christmas cards in a store.

"Rock told us to go to our rooms and the next day to get our tickets home," he said. But Adam Walsh pleaded their case and they were allowed to remain on the team.

* * *

"At the start of the game, Huntsinger recovered a Stanford fumble and ran for a touchdown," Crowley reminisced. "I told Huntsinger: 'Isn't it a good thing Rock didn't send us home?' "

"It was Rockne's way of disciplining us—and scaring us," Layden said.

NO SPEECH

Crowley said he didn't remember Rockne making a pregame speech before the Fose Bowl game.

"Naw, because you were asleep," chided Miller.

The Three Horsemen all paid high tribute to Ernie Nevers, the great Stanford fullback.

"He would move the ball two or three yards every time he carried the ball," Miller recalled. "Then we'd stop him. Then Nevers threw one pass and Layden intercepted it and ran 70 yards for a touchdown. Layden intercepted a second one and ran 80 yards. Layden scored another touchdown from the four."

"Yeah," said Crowley, "sports writers wrote that the greatest pass combination in the Rose Bowl was Nevers to Layden."

* * *

Miller said Rockne was ten years ahead of his time in coaching genius, and his two ex-teammates readily agreed.

Rock was using the T formation in 1917," Miller said. "Bud Wilkinson and Don Faurot only spread it more in later years.

"Football hasn't changed too much. The big change is in defense. Now teams have as many defensive as offensive plays."

Layden was asked did he ever think he would live to see Notre Dame play in another bowl game.

"I'm surprised I can even walk," he said.

Bo, McKay Using OSU to Compare

(Continued from Page C-1)

"It's ridiculous," said Schembechler," just because we beat Ohio State we're supposed to be a super team, yet it is evident we haven't convinced the polls of this.

"There isn't a team in the country with better personnel than Southern Cal. I would defy anyone to show me who it is and that includes Ohio State."

McKay did agree with Schembechler on the Michigan coach's evaluation of the Trojan defense, known in this part of the country as the "Wild Bunch," and listed in NCAA statistics as the No. 10 team in over-all defense.

* * *

"With our defense I was never worried before a game, because I felt that with it we could always keep the game close," said McKay.

His assistant coach Marv Goux who coaches the front five, was similarly complimentary. "They (the Wild Bunch) are the hardest working group I've ever coached. They have ability and a great deal of courage their ability speaks for itself." One name who is a key figure in the Wild Bunch and familiar to fans in the state of Michigan is Toddy Smith a 270-pound giant from Texas prep ranks who followed his brother Bubba Smith to Michigan State.

* * *

Tody was the top heralded freshman lineman for the Spartans in 1967, but he left the MSU campus, went to Southern Cal where he sat out a year and is now listed as a junior on the team. His brother Big Bubba was an All-America at MSU and is now defensive end with the Baltimore Colts.

Tuesday's Fights

By The Associated Press

SAN ANTONIO, Tex.—Jesus Pimentel, 115, Jalisco, Mexico, knocked out Cerverio Dentiez, 115, of Reynosa, Mexico, 2, to retain his bantamweight title.

MIAMI BEACH—Manny Gonzalez, 150, Houston, stopped Roscoe Bell, 154, Miami, in the eighth round of their scheduled 10-round welterweight fight at Miami Beach Auditorium.

I BET YOU DIDN'T KNOW

By John Carter

What was the worst weather a major post-season football game was ever played in? . . . How about this one . . . For the National Football League title game between Green Bay and Dallas at Green Bay in 1967, the temperature was 17 below and the "chill factor" figured by the U.S. weather bureau — the temperature compounded by the wind — that day was equal to 49 below!

* * *

Did you know that Harvard was once chosen to play in the Rose Bowl? . . . That's right — Harvard played in the 1920 Rose Bowl, and won, too, beating Oregon 7-6.

* * *

It's rather surprising to find that although there are many, many post-season football bowl games these days, it took football promoters so long to catch on to the idea . . . The first Rose Bowl game was played in 1902 and, oddly enough, it was then more than 30 years later until such bowls as the Orange, Sugar and Cotton were started.

* * *

I bet you didn't know . . . that as the old year ends our wishes to you for health and prosperity in the New Year ride the winds of time. See you in '70.

WET GAMECOCK SLITHERS — University of South Carolina tailback Rudy Holloman makes four yards around right end in the first quarter of the Peach Bowl in Atlanta Tuesday. Making the stop on Holloman is linebacker Terry Snively of victorious West Virginia, while his teammate Danny Smith (55) watches the action. West Virginia won a 14-3 verdict in the game, played during a downpour.

Yanks Encounter Singles Snags in 3rd-Round Play

PORT ELIZABETH, South Africa (AP) — Visiting American players hit trouble in the third round singles matches on the second day of the Eastern Province Tennis Championships Tuesday.

Of the three Kreiss brothers of Beverly Hills, Calif., only Robert won through to the fourth round after beating F. McDonald 6-2, 8-6. Tom Kreiss suffered a 6-3, 6-3 defeat by Bob Hewitt and Mike Kreiss lost 2-6, 8-6, 6-1 to Britain's Graham Stilwell.

* * *

In the third round of the women's singles, Val Ziegenfuss of San Diego was beaten 8-6 6-0 by Brenda Kirk. Corinne Molesworth of Britain upset third-seeded Jane "Peaches" Bartkowicz of Hamtramck, Mich., 6-4, 4-6, 8-6 and Kristy Pigeon of Danville, Calif., beat Wendy Tomlinson 6-4, 6-2.

NHL Vetoes Bid to Require Helmet

BOSTON (AP)— The National Hockey League Rules Committee rejected Tuesday a move to make the wearing of helmets mandatory in preseason, regular and playoff games.

Weston W. Adams, chairman of the board of the Boston Bruins, filed the motion. The Bruins were the only club in the 12-team NHL to vote in favor of it.

Nixon Nixes Bowl Bet

WASHINGTON (AP) — Rep. Marvin L. Esch, R-Mich., says President Nixon rejected his proposal for a wager on the outcome of the New Year's Day Rose Bowl game between Michigan and Southern California.

Flood Studies Next Step in Reserve-Clause Case

NEW YORK (AP) — The next move is up to Curt Flood in the developing showdown between the veteran major league outfielder and baseball's controversial reserve clause.

Flood was expected to confer with his attorney, former Supreme Court Justice Arthur Goldberg, on his next step after an exchange of letters with Commissioner Bowie Kuhn in which he asked to be declared a free agent and Kuhn rejected his request.

* * *

Flood said he talked to the commissioner Tuesday night after Kuhn released the letters to news media.

"I thanked him very much for his rapid reply and his courtesy in extending it," said Flood. "I told him we'd decide some time within the next day or two what our next step would be."

In his letter to Kuhn, Flood said he objected to being treated as a property "bought and sold irrespective of my wishes." Flood was traded last October by St. Louis to Philadelphia in the deal that sent Rich Allen to the Cardinals.

* * *

Flood's letter asked Kuhn to inform all major league clubs that he desires to play baseball in 1970 and, in effect, is open to any offers.

RESERVE CLAUSE

That, of course, strikes at the heart of the reserve clause which binds a player to his club. Kuhn's reply pointed out that Flood's contract with St. Louis had been assigned to Philadelphia in accordance with terms of the general agreement negotiated between baseball and the Players Association two years ago. That agreement expires at midnight tonight.

Wayne Finishes 3rd in Tourney

MILWAUKEE, Wis. (AP) — Wayne State, led by Reggie Piggee with 19 points and 14 rebounds, took third place in the University of Wisconsin-Milwaukee Tournament Tuesday night, by downing North Central Illinois, 73-56.

* * *

Wayne had a 35-32 halftime edge as it won its fifth game against one loss.

Temple Crushes Spartans to Win Eighth in Classic

PORTLAND, Ore. (AP) — Temple's Owls found their shooting eyes and breezed to a 90-51 win over Michigan State to win seventh place in the Far West Basketball Classic here Tuesday afternoon.

Temple breezed to a 44-22 halftime lead after scoring the first two baskets of the game, and continued to widen the margin in the second half.

The Owls' zone defense held MSU sophomore Ralph Simpson to his lowest total of the year, 14 points. He is sixth in the nation in scoring. He hadn't been held under 20 in the Spartans' previous eight games and had scored 72 in the first two games of this tournament.

Characteristics of Splake Differ

Pontiac Press Photo by Ron Unternahrer

FAST ACTION—John Meyland of Clarkston shows the 17-inch splake he caught shortly after spudding his first hole in the ice at Maceday Lake last week. Splake are a cross between brook and lake trout and have been caught in Maceday for the last three years.

By DON VOGEL

How do you tell a splake from a lake trout?

"That's a good question," answered Cliff Fuller, Department of Natural Resources fisheries worker. "I'll have to check Ron Spitler on that one."

★ ★ ★

The query was prompted by a number of splake being taken from Maceday Lake in recent days. A couple appeared to be lake trout rather than the hybrid splake which is a cross between a laker and brookie.

Spitler, district fish biologist at the DNR's Pontiac Lake office, admitted making a distinction could be difficult.

"The individual splake usually take on a dominant characteristic of either the brookie or laker," Spitler pointed out.

FORKED-TAIL

"The tail is one indicator. It is usually forked like a laker, but the degree of forking may vary. Brook trout have square tails. The fins usually show a white marking which is found in brook trout."

The splake being caught vary in size from 10 to 17 inches, depending on how long they have been in the lake. Initial plantings were made four years ago. The hybrids also show girth differences. Some are slim like young lakers and others are chunky like brookies.

★ ★ ★

The fish are being caught in 20 to 40 feet of water off the Williams Lake Road public access sight. Bluegill type spoons baited with grubs have proved most effective.

Maceday has contained lake trout for years and occasionally one will turn up.

Ice fishing action continues to pickup in the area as the ice becomes thicker.

BIG BLUEGILLS

Large bluegills have been hitting at the north end of Oxbow Lake and panfishing has been good on Pontiac, although the fish are running on the small side.

★ ★ ★

Some rainbows are being taken at Cooley and perch from neighboring Long Lake. Action on crappies has been good at Kent. Pike haven't shown too well, but more should be taken with the opening of the spearing season on inland lakes tomorrow.

Perch fishing at Saginaw Bay has been poor. However, what perch that are being taken have been near jumbos. Pike are hitting in four feet of water off Pinconning and some are being taken off the mouth of Mudd Creek near Sebewaing.

Lake St. Clair fishing has been spotty because of unstable ice conditions.

Pontiac Press Photo

LAST SPLASH—A 14-inch splake comes out of Maceday Lake. Jim Williams of Royal Oak is handling the line. The minimum size on trout and splake on inland waters is 10 inches and the creel limit is five, singly or in combination.

Jeeps in High Demand

Firemen Receive Surplus Help

The firefighting capability of 86 local departments in Michigan improved this year because of a co-operative venture between the federal government and Natural Resources Department.

The state agency issued $375,000 worth of surplus equipment free to the departments, most of which are in Southern Michigan.

★ ★ ★

The equipment, ranging from portable generators to big truck tankers, was requisitioned from the federal General Services Administration and turned over to local departments which pledged their support with the DNR in the cooperative rural fire control program.

Of excess property made available, the most sought-after pieces of equipment were utility jeeps, 57 of which were issued for customizing to meet firefighting needs.

Each of these units had an estimated value of about $2,600.

In addition to equipment received this year, the DNR is awaiting action on its requests for about 200 other similar pieces of excess federal property which are scheduled to go to local fire departments in Michigan.

The DNR is also busy processing another 600 requests from fire departments for such equipment.

★ ★ ★

Milton M. Bergman, chief of the DNR's forest fire division, reports his Lansing office is receiving a steady stream of these requests.

★ ★ ★

Of equipment issued in 1969, most of the units went to fire departments in southern Michigan where there is the greatest need to bolster grass fire defenses.

★ ★ ★

Bergman explains:

"Our department's own fire control forces are weakest in Southern Michigan and we have to rely heavily upon the cooperation of local departments to effectively knock out many fires.

★ ★ ★

"The support of these departments has been tremendous and we're extremely happy to play this role in beefing up their fire-fighting weaponry."

The Original Knight
SOLUNAR TABLES
When To Fish Or Hunt

The schedule of Solunar Periods, as printed below, has been taken from John Alden Knight's SOLUNAR TABLES. Plan your days so that you will be fishing in good territory or hunting in good cover during these times, if you wish to find the best sport that each day has to offer.

Eastern Standard Time

Day	A. M. Min.	A. M. Maj.	P. M. Min.	P. M. Maj.
Today	11:05	5:15	11:30	5:15
Thursday	11:55	5:45		5:50
Friday	12:05	6:20	12:25	6:35
Saturday	12:50	6:55	1:05	7:20
Sunday	1:35	7:45	1:55	8:15
Monday	2:20	8:40	2:50	9:15
Tuesday	3:30	9:50	4:00	10:15
Wednesday	4:30	10:45	4:55	11:20

Dog Training Class for Adult Handlers

The emphasis will shift from youth to adults during the next session of the Oakland County K-9 Training 4-H Club.

A 12-week course in dog obedience training starts next Tuesday with a demonstration in the block building on the 4-H Fairgrounds at 8:30 p.m.

These classes will be for adults only and those attending the demonstration and registration program are urged to leave their dogs home. A veterinarian's certificate of shots will be required for each dog.

Additional information can be obtained by phoning 628-4956.

Along the Outdoor Trail

with DON VOGEL—Outdoor Editor, Pontiac Press

Winter Survey of Ducks Set

Weather conditions permitting, the Department of Natural Resources will pool forces with the U.S. Bureau of Sport Fisheries and Wildlife next week to count the number of waterfowl wintering in Michigan.

As in the past, the winter waterfowl census in this state will be timed with similar surveys across North America which will provide the first preview of next spring's production possibilities for ducks and geese.

★ ★ ★

During the same survey, game biologists will also scan the state for bald eagles in an effort to maintain a running record on the population of these endangered birds.

★ ★ ★

The waterfowl inventory will target in on Great Lakes coastal areas along the Lower Peninsula. Aerial estimates will also be made over the major wintering waterfowl areas of the Lake St. Clair-Lake Erie-Detroit River complex, the upper Huron River Valley, and the Kalamazoo and St. Joseph River systems.

Pontiac Press Photo

BAITING UP—Allen Denham of Pontiac rebaits his hook after catching the splake in the foreground at Maceday Lake. Grubs on teardrop type bluegill spoons were the favored bait. Some small bluegills, sunfish and rockbass also were caught by the anglers.

Two Hunting Seasons End

The curtain closes today on two hunting seasons.

Gunning for grouse and archery deer hunting end at 6 p.m. Rabbits will remain legal targets in the Lower Peninsula through February and until March 31 in the U.P.

★ ★ ★

Interest in grouse hunting was light during the last month, mainly because of a scarcity of targets. This wasn't a bumper year for "pats" in the state.

★ ★ ★

Bow hunters had things a little better mainly because they saw plenty of potential targets. Unfortunately, most of the whitetails were out of range.

★ ★ ★

Success on rabbits is holding up well in many areas. Hunters report seeing more bunnies than a year ago. Fox hunters and trappers also are enjoying a banner winter.

★ ★ ★

Reynard no longer carries a state bounty on his head, but his fur more than makes up for this. Latest price ranges are $8 to $10 for top pelts with shot up fur bringing about half as much.

Lamphrey May Benefit Medicine

HAMMOND BAY (AP) — If you can overlook the parasitic way Nature has provided him to survive, there is no more interesting species in the Great Lakes than the vicious sea lamprey.

Because of his ability to decimate populations of lake trout, burbot, whitefish and steelheads, the sea lamprey has no rival in the Great Lakes—as a species to be eliminated at all costs.

But while fish biologists decry the sea lamprey and conservation agencies fight to keep lampricide treatment funds to destroy him, medical researchers can't get enough of this most primitive vertebrate.

Here at the Hammond Bay Biological Station, sea lampreys are the most important species for Luis King, acting director, and his staff. They have sea lampreys in various stages of development growing everywhere.

SCARRED SALMON

And they also have Chinook salmon which returned to near-by Ocqueoc River this fall 80 per cent scarred and trailing one or more adult lampreys.

Lampreys, which lack air bladders and paired fins most higher fish have, are poor swimmers and fall to the bottom if they don't swim constantly, King explains.

★ ★ ★

So they hitchhiked into the Great Lakes through the Welland Canal on the sides of fish and bottom of boats after the canal was opened in 1811. And it took over 100 years before they became really evident, he notes.

★ ★ ★

Sea lampreys spawn in the gravel riffles of streams during spring and early summer—in depressions made by moving stones into a horseshoe barrier.

★ ★ ★

When they hatch, the larvae burrow into the bottom and spend three to nine years as sedentary ammocetes—sightless but light sensitive when removed from the safety of burrows to a laboratory tray when only a few weeks old.

★ ★ ★

They have eye spots but do not develop eyes or their sucker-like mouth and teeth until they reach a length of about seven inches and metamorphose from a filter—feeder living on small organisms pumped into their burrows for respiration to a fully-developed parasite.

SLOW CHANGE

The metamorphosos takes place without a noticeable change in size — the eye develops and teeth develop on the mouth and tongue making it capable of rasping its way through the scales of a fish.

Medical researchers are interested in the sea lamprey because of its aneural heart — there are no nerve connections in its cardiac system, explains King.

"The lamprey has a pacemaking chemical in its system which makes its heart beat," he points out. "It has been extracted, isolated and identified.

"And when it was injected into the heart of a laboratory animal with an interrupted heart the heart of the animal was rejuvenated."

Thus the sea lamprey, a known curse on fish, could be a blessing to mankind if this chemical could be adapted or perhaps synthethized and used for human heart arrest victims.

Show Deadline

Deadline for entering the all-breed Macomb County Kennel Club Show will be noon, Jan. 27 unless the 700 limit is reached before then. Entries can be made with Bow Dog Show Organization of Detroit for the unbenched event Feb. 8 at Warren Woods High School.

Flooding Claims 3 Lives in 4 of Appalachian States

STORM AFTERMATH — As ocean surf sweeps the beach, the remains of two houses lie folded up on the coast at Point o' Woods on Fire Island, N.Y. Houses were wrecked in a Christmas Day storm with its snow and accompanying high winds and high tides.

AP Wirephoto

By The Associated Press

Torrents of rain dissolving tons of snow have sent normally placid streams and rivers surging fro their banks, forcing hundreds of mountain residents to flee their homes in Virginia, West Virginia, Tennessee and Kentucky.

Tennessee authorities reported three dead as a result of flooding Tuesday.

★ ★ ★

The rains, pounding some areas for three days, pushed creeks out of their banks and into the streets of a number of small towns in Virginia, and water was creeping into several others in West Virginia.

Hardest hit by the flooding appeared to be Lee and Wise counties in Virginia and areas along the Cumberland River in Kentucky, where 200 persons were evacuated from their homes by National Guardsmen.

NEARLY ISOLATED

Virginia State Police said Lee County was nearly isolated with all transportation arteries severed by flooding and landslides. In Pennington Gap, rescuers braved driving rain and darkness during the night to steer refugees from flooded areas.

A number of persons were rescued from atop their cars, stranded in the middle of flooded highways.

In Roanoke, Va., a family of five, including three small children, crawled along a fire truck ladder to escape from their car, stranded on a bridge over the Roanoke River. Police said the car was washed away shortly after the last person was rescued.

Small mountain hamlets in all four states were evacuated. Shortly after residents left the Virginia hamlet of Fort Blackmore, water swirled through the downtown section five feet deep.

CASCADING RIVERS

Hundreds of West Virginians fled their homes early today and late Tuesday as cascading rivers in the north and south — fed by melting snow and a two-day downpour — flooded dozens of lowland communities.

Scores of upriver homes were reported flooded to window level by late Tuesday, and many large communities downstream in the path of rising waters were put on evacuation alert for this afternoon.

★ ★ ★

These included the cities of Clarksburg with a population of some 28,000; Weston, with about 8,500 residents; and Philippi, with about 2,200 residents.

National Guardsmen, Civil Defense officials and others were sent scurrying to build dikes and sandbag barricades to help fend off the oncoming high water.

NEARLY COVERED

Some 25 to 30 homes were nearly covered by water at Oceania Tuesday night, where some 300 to 400 persons spent the night in schools, churches and icty hall.

★ ★ ★

Coal mines in the Virginia mountains were closed down Tuesday when water cascaded down from the mountains as rain ate away at snow that had been piled as deep as 18 inches.

In the St. Charles area in Lee County an entire train was stranded by floodwaters.

★ ★ ★

The Clinch River Tuesday night approached record levels and in the town of Clinchport, Va., water rushed through the streets at a depth of more than six fet. The river was reported to be rising at a rate of seven inches per hour with rains still falling.

State, Cleveland Firms in Merger

CLEVELAND, Ohio (AP) — Reliance Electric Co. of Cleveland and Applied Dynamics Inc. of Ann Arbor, Mich., announced Tuesday the merger of Applied Dynamics into Reliance, effective Tuesday.

The terms of the agreement call for the issuance of two-thirds of a shares of Reliance common stock for each share of Applied common.

Forty-four million homes now have sewing machines and 80 per cent of teen-age and 90 per cent of adult women can sew.

Nixon Helping Dems---Harris

WASHINGTON (AP) — Democratic National Chairman Fred R. Harris says his party is picking up strength and unity from the performance of President Nixon.

"I think he has helped bring us together," the Oklahoma senator told newsmen Tuesday as he sharply criticized the Republican record in nearly every field.

However, he said the President's Vietnam policy is an administration strong point now. He added: "The people are sort of cautiously satisfied."

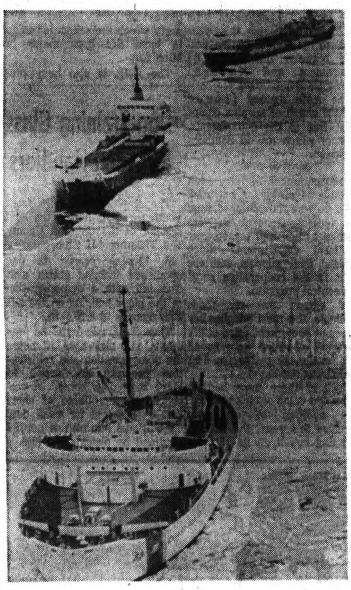

Harris said Nixon "has an 'I' on Vietnam—an incomplete. We don't know yet."

'WISE TO SEND HIM'

As for Vice President Spiro T. Agnew, now on tour of Asia, Harris remarked: "I think the President was wise to send him somewhere else for a while."

Harris said Agnew has contributed nothing substantial to the discussion of issues facing the nation. "I think the kind of rather strident words he has used are demeaning to that office," Harris added.

Questioned about House Republican Leader Gerald R. Ford's do-nothing Congress complaint aimed at the Democrats, Harris responded by recalling a childhood taunt: "I'm rubber and you're glue. Everything you say bounces off me and sticks to you."

WINTER'S GRIP — The Coast Guard icebreaker Mackinaw (foreground) yesterday works to break a path for two ships trapped in an ice jam in the St. Clair River off Algonac. Later the two ships were trapped again, farther north, near Marine City.

Near Marine City

River Ice Traps Two Ships

DETROIT (AP) — Two ships trapped in ice near Marine City on the St. Clair River should be pulled loose today, a Coast Guard spokesman said Tuesday night.

The northbound Canadian freighter Yankanuck which just delivered steel to Windsor, and the American tanker Venus are in no danger and procedures to get them underway are routine, the spokesman said.

He said that a 120-foot barge that appeared to have run aground near the Detroit River Light south of Detroit, was pulled loose by a commercial tugboat earlier Tuesday. The three persons aboard were not injured, he said.

Another ship, the coal-carrier Peter Reiss bound from Toledo to Detroit with a Coast Guard cutter escort, was sitting in ice for the night near the Detroit River Light and was to have moved north Wednesday morning.

50 PCT. OF SURFACE

Port Huron at the northern end of St. Clair River, reports ice covering 50 per cent of the water surface. Cake ice is reported three feet thick south of the Detroit River but the river itself is clear, according to the Coast Guard.

The Port Huron-based cutter Acacia and the Cleveland-based cutter Kaw were still in ice near Marine City awaiting operations to dislodge the two commercial vessels this morning, the Coast Guard reported. The huge Coast Guard icebreaker Mackinaw was brought down from Cheboygan to Marine City Tuesday to smash the St. Clair River ice jam and open a channel for shipping.

The jam, at Willow Point near Algonac, dropped the water level at Detroit and threatened Walaceburg, Ont., with flooding.

The Coast Guard reported that shipping is closed for the season in Lakes Ontario and Huron. Lake Erie is open only between Toledo and Detroit, and Lakes Superior and Michigan are open, the Coast Guard said.

The lakes normally are closed from January through March, according to the Coast Guard,

U.S. Marine Charged With Slaying POW

DA NANG, Vietnam (AP) — A Marine captain with 10 combat medals has been charged with murdering a North Vietnamese prisoner of war during a combat operation last Aug. 11, military spokesmen said today.

The officer, Robert W. Poolaw, 31, of Anadarko, Okla., is to be tried by general court-martial in mid-January. He is not confined, authorities said.

★ ★ ★

A Marine spokesman said Poolaw, who holds the Bronze Star, Purple Heart and Vietnamese Cross of Galantry among other decorations, was commanding H Company of the 2nd Battalion, 5th aMrine Regiment at the time of the alleged incident south of Da Nang. Further details were not disclosed.

A member of Poolaw's company went to the Marine judge advocate's office a month and a half later and claimed he saw Poolaw shoot the prisoner with a pistol.

★ ★ ★

A preliminary investigation produced insufficient evidence until another witness was located in late November. He supported the first witnesses's claim, the spokesman said. Another investigation, which ended last week, recommended that Poolaw be tried.

Poolaw now is with the 5th Marines' regimental operations office at An Hoa. He was an enlisted man in the Marine Corps from 1956 to 1960. Then he went to college and was commissioned a Marine officer upon graduation in 1964. He is married and has three children.

Gross National Product Up 8 Per Cent

WASHINGTON (AP) — Secretary of Commerce Maurice H. Stans reports the nation's Gross National Product—the total of all goods and services—will be about $932 billion this year, nearly an 8 per cent increase over 1968.

Most of the boost can be attributed to inflation, he added in a year-end economic review released Tuesday while he was on safari in Africa.

★ ★ ★

The most vigorous sector of the economy this year was private domestic investment, up about 11 per cent despite a drop in residential construction, stans reported. Home building was down this year and "credit conditions do not foreshadow any swift reversal," he said.

There was no substantial improvement "in an already unsatisfactory balance of payments position" during the year, Stans said.

A SURPLUS

However, he said a surplus in transactions with other nations' governments and central banks was not an accurate or significant measure of the fundamental balance of payments situation.

Discounting price increases, he said economic growth for 1970 should be less than 1969 but perhaps more rapid in the second half of the upcoming year than in the first half.

He said President Nixon's plan for "winding down the Vietnam conflict should make it possible to reduce defense spending, although the amount and timing of such reduction is uncertain."

Stans said the major economic development of the year now ending was the "successful application of persistent but moderate policies of fiscal and monetary restraint to slow the growth rate of an overheated economy."

Exercises which improve a person's oxygen capacity, coupled with dietary control and abstinence from tobacco can cut the risk of heart disease by as much as two-thirds, it is believed.

Employes Retire

LANSING (AP) — The State Commerce Department reports the retirement this week of two employes who have accumulated more than 35 years in state service. John H. Marsland, 70, of East Lansing plans to step down after nearly 24 years as an electric engineer with the department's Public Service Commission. Also retiring is Earl T. Maillatt, 55, who has been employed by the State Liquor Control Commission since 1957. Maillatt, who lives in Alpena, receives a disability retirement, the department said.

Phone Rates Set

LANSING (AP)—The Michigan Public Service Commission has approved new one-party service rates for two exchanges of the Shiawassee Telephone Co. The new rates for the Perry and new Shaftsburg exchanges, which take affect Jan. 1, provide for one-party residential service for $7 per month and business one-party service for $10.50 per month.

MAY THE BLESSINGS OF THE NEW YEAR BE YOURS IN OVERFLOWING MEASURE

How can we phrase our honest wish for you for the New Year without sounding trite? All the words worn smooth by time, have been used in the centuries that have gone by, and it is difficult to find new combinations to express the good will of the heart. We wish you well; we wish you very well. We wish that the hand of trouble be stayed and that you be surrounded by the evidences of living love. We wish the wanderers return and the quarrel's ending and the mending of rents in the fabric of life. We wish you the warm fire and the familiar faces, the being together with those dear to you, and the sound of music. We wish you one exquisite moment of pure happiness and the ability to recognize it as it hastens past. We wish you the laughter of children, starshine, and peaceful sleep.

Nixon Is Asked to Free Hoffa

ST. LOUIS (AP) — An attorney for imprisoned Teamsters Union Leader James R. Hoffa said early Wednesday he has filed a petition with the Justice Department asking that Hoffa's sentence be commuted by President Nixon.

★ ★ ★

But the attorney, Morris Shenker of St. Louis, disclaimed any knowledge of reported offers that if Hoffa is released he would be a witness regarding labor pension fund operations and labor-related activities in organized crime.

★ ★ ★

NBC News and the Des Moines Register reported yesterday some Teamster members had indicated to White House officials that Hoffa might be willing to make such information known if he is released.

★ ★ ★

Shenker said he filed the petition "within the last three or four weeks." He said he knew of no action on the petition by the Nixon administration or discussion of it with Teamster members.

★ ★ ★

Asked, however, about the reports that Hoffa would be willing to testify if he was released, Shenker said Hoffa always had been willing to testify.

★ ★ ★

"No one has asked him to testify, and he has never refused to testify," Shenker said.

★ ★ ★

In a copyright story, the Register said telephone calls and other contacts have been made with White House officials to the effect that if Hoffa were released he would "sing" on a labor pension fund operations and labor-related activities in organized crime.

★ ★ ★

And in a report from Washington, NBC correspondent Carl Stern said Teamster members met informally Monday with presidential aide Clark Mollenhoff and said that if Hoffa were released he would be willing to testify about the union's pension fund. They also promised Hoffa would "purge the union of hoodlums," Stern said.

Shenker said he had no knowledge of such a meeting.

Mollenhoff and Teamsters officials were not available for comment.

★ ★ ★

Hoffa is now serving an eight-year sentence at a Lewisberg, Pa., prison for jury tampering. He also faces a five year term on a Chicago conviction for Teamsters Union pension fraud, but that case is on appeal and has yet to be decided by the Supreme Court. An application for parole on the eight-year sentence was rejected in October.

News in Brief

A radio, tape player and 15 tapes with a total value of $175 were taken from the car of Steven B. Mosure of 5481 Pontiac Lake, Waterford Township, sometime Monday night, Waterford Township police report. The car was parked on Clinton at Cruse in Waterford Township.

THERE'S A GIRL IN MY SOUP—Carole Morford of Creighton, Pa., is dwarfed by both "bowl" and giant spoon. This bowl, however, is not for soup. It is a 700-pound glass hemisphere produced by PPG Industries for the Navy. Two such hemispheres will be joined to form a 56-inch-diameter glass bubble hull of a manned underwater research vehicle to explore ocean depths never before reached by man. Engineers said glass was chosen for its strength at great depths.

Pontiac Div. Promotes 4 Men in Area

Four promotions in Pontiac Motor Division's assembly plant were announced today by Donald G. Upton, manager of car assembly operations.

Oliver G. Filer has been promoted to master mechanic and Donald E. Denhoff and Alan R. Way have been named supervisors in the process department. Also, William L. Harris has been promoted to assistant superintendent-manufacturing on the afternoon shift.

Filer joined the division in 1928 as an hourly-rate employe. A graduate of the Pontiac Trades School, he has served as a process engineer, senior process engineer and superintendent of process before being named assistant master mechanic with responsibilities in plating and plastics plants of process engineering in 1967.

Filer, of 2158 Locklin, White Lake Township, is married and the father of two children.

Denhoff came to Pontiac in 1937 as a toolmaker apprentice. He moved into the process department in 1951 as a process engineer and was named a senior process engineer in 1955. He and his wife live at 5561 Hummingbird, Independence Township.

Way joined Pontiac as a General Motors Institute student in 1955. Following graduation in 1959, he became a junior tool engineer. He also served as a senior plant layout engineer until his recent promotion. Way, a graduate of University of Michigan, is working on a master's degree in business administration at Wayne State University.

He lives at 556 Sharon, Waterford Township, with his wife and two children.

Harris started with Pontiac in 1948 as an hourly-rate employe. Prior to his present assignment, he was a general foreman in the reliability department. He resides at 5025 Hickory Ridge, Highland Township, with his wife and five children.

Ex-County Aide Is Found Dead

Edwin C. Sage Jr., 68, of 4717 Motorway, Waterford Township, retired director of Oakland County's equalization department, was found dead in his home around 3.45 p.m. yesterday, Waterford Township police reported.

Police said Sage died of self-inflicted gunshot wounds. His body is at Donelson-Johns Funeral Home, Pontiac.

4 Youths Hurt in Auto Mishaps

Four youths were injured last night in two separate accidents on county roads.

Kenneth Marks, 18, of Southfield was injured at 8:30 p.m. when his car skidded off the road at a curve on Sleeth, just north of Bass Lake Road in Commerce Township.

★ ★ ★

Marks is listed in fair condition at Pontiac General Hospital with undisclosed injuries. A passenger in the car, Michael Forbes, 18, of 2443 Terry, Walled Lake, was not injured.

Another accident at 2 a.m. involved three youths, whose car skidded off the road and hit a tree at Wardlow and Milford roads in Highland Township.

Jeffrey Thurston, 18, of 10510 Pontiac Lake, White Lake Township, is in the intensive care unit at Pontiac General Hospital, while Elmer Forester, 20, of 2033 Pontiac Lake, White Lake Township, is being held for observation. The driver of the car, Jerry Pease, 19, of 8899 Tackles, White Lake Township was treated and released.

Witnesses told police the youths' car had attempted to pass another car when the driver lost control and left the road.

747 Superjet Is Approved for Use in '70

SEATTLE (UPI) — The Federal Aviation Administration (FAA) has approved the huge Boeing 747 superjet for full passenger service, clearing the way for commercial flights early next year.

Pan American World Airways plans to use the 362-passenger airliner on flights from New York to London early in 1970.

★ ★ ★

Certification of the world's largest jetliner yesterday followed 11 months of testing in which a fleet of five 747s flew 1,449 hours, three times more than needed for FAA demonstration tests.

Pan American already has accepted delivery of two of the giant $20-million planes and was using them for ground and flight crew training, pending certification.

★ ★ ★

The airline plans about 160 flights a week to 15 cities within six months after the start of service.

Cause No. 25547
STATE OF MICHIGAN—In the Probate Court for the County of Oakland. Juvenile Division.
In the matter of the petition concerning John Dallas Haggadone, minor.
TO: Elmer Haggadone, father of said minor child.
Petition having been filed in this Court alleging that said child comes within the provisions of Chapter 712A of the Compiled Laws of 1948 as amended, in that the present whereabouts of the father of said minor child is unknown and said child has violated a law of the State, and that said child should be placed under the jurisdiction of this Court.
In the Name of the People of the State of Michigan you are hereby notified that the hearing on said petition will be held at the Court House, Oakland County Service Center, in the City of Pontiac in said County on the 9th day of January A.D. 1970, at nine o'clock in the forenoon, and you are hereby commanded to appear personally at said hearing.
If being impractical to make personal service hereof, this summons and notice shall be served by publication of a copy one week previous to said hearing in The Pontiac Press, a newspaper printed and circulated in said County.
Witness, the Honorable Norman R. Barnard, Judge of said Court, in the City of Pontiac in said County, this 29th day of December A.D. 1969.
NORMAN R. BARNARD,
(Seal) a true copy Judge of Probate
HELEN L. HAMILTON,
Deputy Probate Register,
Juvenile Division
December 31, 1969

ADVERTISEMENT FOR BIDS
AUGUSTA DRAIN
OAKLAND COUNTY, MICHIGAN
Sealed proposals for construction of Augusta Drain and appurtenant work in the City of Pontiac, Oakland County, Michigan, will be received by the Drainage Board for the Augusta Drain at the office of Daniel W. Barry, Drain Commissioner, Oakland County, Michigan, 550 S. Telegraph Road, Pontiac, Michigan, until 11:00 A.M. on the 20th day of January, 1970, and immediately thereafter publicly opened and read aloud.
The work consists of the construction of closed conduit, concrete channel, earth channel, storm and sanitary sewers, and other appurtenant work, all in the City of Pontiac.
Copies of the plans, specifications and other contract documents under which the work will be done may be examined without charge at the office of Daniel W. Barry, 550 South Telegraph Road, Pontiac, Michigan or at the Detroit offices of Builders and Traders and Dodge Reports. Copies may be obtained from the office of Jones & Henry Engineers Ltd., 7900 West Central Avenue, Toledo, Ohio 43606, upon deposit of forty-five dollars ($45.00), check only, for each set of plans and contract documents. The full amount of the deposit will be refunded to the bidder for one set of plans and contract documents upon which a bona fide proposal is submitted. For other sets twenty-five dollars ($25.00) will be refunded for each set returned in good condition within ten (10) days after opening of bids.
Proposals must be submitted on the form furnished by the Owner, and attached hereto, must contain the name of every person interested therein and shall be accompanied by either a proposal bond, with satisfactory surety, or by a certified check on a solvent bank, in the amount of not less than five per cent (5%) of the amount of the proposal, subject to conditions provided in the Notice to Bidders.
All bidders shall have prequalification ratings by the Michigan State Highway Department for a dollar volume and classification of work bid, or other similar and approved evidence of ability, and each bidder shall submit such evidence with his proposal.
Any bid may be withdrawn prior to the scheduled closing time for receipt of bids, but no bidder shall withdraw his bid within one hundred fifty (150) days after the actual opening thereof.
The right is reserved by the Owner to accept any proposal, to reject any or all proposals and to waive irregularities in proposals.
Dated: December 6, 1969
Drainage Board for the Augusta Drain
DANIEL W. BARRY,
Chairman
December 24, 31, 1969

(Suggested visiting hours 3 to 5 and 7 to 9.) Memorials may be made to the Michigan Cancer Foundation. Envelopes are available at the funeral home.

by Laura Wheeler

Play it safe — make plumply padded gingham holders.

Quick cross-stitch adds romance and flowers to holders, mitts of 7-to-inch gingham check. Great gift, bazaar items. Pattern 867: charts, directions 4 holders, 2 mitts.

Fifty cents in coins for each pattern — add 15 cents for each pattern for 1st-class mailing and special handling. Send to Laura Wheeler, care of The Pontiac Press, 124 Needlecraft Dept. Box 161, Old Chelsea Station, New York, N.Y. 10011. Print Pattern Number, Name, Address, Zip.

by Anne Adams

Body-conscious skim with a newsmoking cardigan neckline that zooms off one side! Casually relaxed in knits, glamorous in satin.

Printed Pattern 4549: New Misses' Sizes 8, 10, 12, 14, 16, 18. Size 12 (bust 34) takes 2¾ yards 45-inch fabric.

Sixty-five cents in coins for each pattern — add 15 cents for each pattern for first-class mailing and special handling. Send to Anne Adams, care of The Pontiac Press 137 Pattern Dept. 243 West 17th St., New York, N.Y., 10011. Print Name, Address with Zip, Size and Style Number.

Interrupting the Senator right in the middle of his end-of-the-year reports to his constituents with a phone call? Absolutely! The Senator left orders to receive all calls in response to his Pontiac Press Want Ad currently running in the newspaper.

People from all walks of life, from every income level, and at every age group can and do benefit from Press Want Ads.

You can know the satisfaction of having a Want Ad work for you . . . to buy, sell, rent, inform or hire . . . simply by dialing 334-4981.

Wilson Learns That Hippies Smoke Up Their Yule Gifts

By EARL WILSON

NEW YORK—A young friend of mine mushed in with the news that many of the hippies have been smoking their Christmas presents of marijuana . . . grass . . . pot. That was a popular gift in their world.

WILSON

And a girl in her 20s complained to me that every young people's holiday party she went to reeked of pot and that she was considered abnormal because she didn't indulge.

This shook me up considerably. I'd just noticed that nobody gave me any cigars for Christmas—no grass, either—and had gone over to Dunhill's humidor on 5th Av. to take a look at Gov. Nelson Rockefeller's cigars. Oh, there are still a lot of people smoking cigars, Man.

(You have to say "Man" or you're not young.)

★ ★ ★

The Guv's got about 1,000 stashed there but Darryl F. Zanuck's got 5,000 (at 70 cents each, that's $3,500). Richard Shields of Wall St. has 16,000, or enough to start his own cigar store.

"When the Governor's baby was born, he gave out cigars like any happy father," said Wally Harris, president of Dunhill's.

Showing me through the 65-degree (very chilly) downstairs humidor, well-locked and guarded against cigarnapers, Harris said he had about 1,000,000 cigars there, many of them Cuban (back before the '62 embargo) and that Milton Berle has cigars in humidors here, Beverly Hills and San Francisco.

"Lots of customers say 'Let me take you to Dunhill's and show you my cigars.' They don't know whether to smoke them —or not smoke them and show them off."

★ ★ ★

Alan King, Robert Goulet, Sid Caesar, Gregory Peck, Alfred Hitchcock, Perry Como and Yul Brynner, of the Show Biz World, find their cigars just as well treated as those of the Duke of Windsor, C. B. Wrightsman, David Sarnoff, Robert Sarnoff, John Hay Whitney and William Paley.

Democracy at work.

THE MIDNIGHT EARL . . .

Joe Namath's pals say he wants more money than the increase he's offered, or he'll not renew his TV show . . . We should have listed **Richard Burton** as a hot Oscar contender for "Anne of the Thousand Days."

Bob Hope phoned **Toots Shor** from Bangkok and enlisted his help in promoting the $1,000-a-plate dinner for the **Eisenhower** clinic . . . **Roberto Rossellini & Anna Magnini** are dating again.

WISH I'D SAID THAT: People blow horns and make noise New Year's Eve, a wit said at Roseland, so they won't have to listen to everyone's resolutions.

REMEMBERED QUOTE: The best thing about the future is that it comes only one day at a time.—Dean Acheson.

EARL'S PEARLS: Obie Bart of Bill's Gay 90's calls Joe E. Lewis the quart jester.

Barber shop sign in Greenwich Village: "One Barber—No Waiting." . . . **Thats' earl, brother.**

Pontiac Press Want Ads
FOR FAST ACTION NOTICE TO ADVERTISERS
ADS RECEIVED BY 1 P.M. WILL BE PUBLISHED THE FOLLOWING DAY
All errors should be reported immediately, or no later than the day following publication. If no notification of such error is made by that time, it will be assumed the ad is correct. The Press assumes no responsibility for errors other than to cancel the charges for that portion of the first insertion of the advertisement which has been rendered valueless through the error.
The deadline for cancellation of Transient Want Ads is 9 a.m. the day of publication after the first insertion. When cancellations are made be sure to get your "CANCELLATION NUMBER." No adjustments will be given without it.
Closing time for advertisements containing type sizes larger than regular newspaper type is 12 o'clock noon the day previous to publication.
An additional charge of 60 cents will be made for use of Pontiac Press Box numbers.

PLEASE NOTE
Effective Saturday, November 1st, 1969, the cash rates for Classified Transient Ads will be discontinued. The regular Transient charge rates will prevail from that date on.

Top Money for Top Van Drivers at North American

No Experience Necessary — Complete Training
Openings in both Household and New Products Divisions.

North American offers a hauling program designed to provide you with big earnings, that is only possible by being in business for yourself with one of the world's fastest growing moving van companies.

You will pull a North American trailer with your tractor, or we can supply a tractor with very low down payment.

Your benefits include:
1. One of the highest compensation schedules in the industry.
2. Prompt payments.
3. Life and hospitalization insurance at a group rate.
4. Bonus awards for quality performance.
5. 40 foot trailer, permits, complete trailer maintenance, and tires furnished.
6. Wives welcome to travel with you.
7. Full training program with living expenses paid.

WRITE NORTH AMERICAN VAN LINES, DEPARTMENT 167, FORT WAYNE, INDIANA, OR PHONE 219-422-7415 FOR APPLICATION AND FURTHER DETAILS.

A Look at TV

Moon Show Tops 1969

By CYNTHIA LOWRY
AP Television-Radio Writer

NEW YORK — What kind of a television year his it been? A year when the greatest program, perhaps the greatest TV show of all time, came on a midsummer night with 125-million Americans and more millions around the world watching as the first human took his first, bounding footsteps on the surface of the moon.

MISS LOWRY

It was a time when, with few exceptions, the entertainment series—the doctors, the lawyers, the cops, the situation comedy families—looked pretty much like the series of other seasons. And few of the highly touted "specials" were really all that special. But people still liked TV's movie broadcasts.

Viewers did have some unusual treats. There was a British-made documentary that showed the royal family in informal moments away from public gaze. There was live coverage of a splendid medieval ceremony in which the heir apparent to the throne became Prince of Wales.

BRIEF APPEARANCES

Glen Campbell won popular approval as a midseason replacement, but a lot of entries appeared briefly and were mercifully forgotten—who remembers much about "My Friend Tony" and "The Queen and I"?

★ ★ ★

Bill Cosby with a new NBC comedy series finally proved that Ed Sullivan on CBS was not unbeatable. The Smothers Brothers defied the network establishment and were summarily canceled by CBS.

★ ★ ★

"Laugh-In," although beginning to show signs of fatigue, continued on strong. Joey Bishop, after a brave fight against tough late-night odds, retired from the arena. A new contender, Dick Cavett, a two-time loser, entered the competition against Johnny Carson, the champ and Merv Griffin, himself a newcomer to the late night sweepstakes. David Frost after a late season start became a force to contend with.

★ ★ ★

"The Survivors" didn't survive in spite of a soap opera story and Lana Turner, but the day-time soap operas spun on and proliferated as the vogue for games and panel shows diminished.

VICTORIAN SOAP OPERA

Adult viewers of educational—now called "public"—television became hooked on a BBC adaptation of Galsworthy's "Forsyte Saga," and were chagrined to find out they had been watching soap opera in victorian dress. A children's series called "Sesame Street" won such acclaim when it appeared on the educational stations that some of the commercial stations started showing it.

★ ★ ★

An old-fashioned doctor series, "Marcus Welby, M.D." broke into the elite group of hit shows, and a 16-year-old western, "Gunsmoke" which had once been canceled and reprieved, became one of the most popular programs along with Bob Hope and "Bonanza." Jim Nabors quit "Gomer Pyle" but kept his high Nielsen ratings in a variety show.

★ ★ ★

A comedy-variety hour, "Turn-On" had the shortest run in the history of TV series: one broadcast followed by abrupt cancellation.

★ ★ ★

Network censors continued to ban mild expletives from early evening shows but there was evidence of increasing permissiveness in language and, particularly, subject matter in the later-evening programs. The news and actuality programs were preoccupied with environmental and urban blight, drugs, youth, racial problems and politics.

★ ★ ★

And then, of course, on the weekends there was football, golf, basketball, football, hockey, baseball, football . . .

★ ★ ★

A year, just about like 1968, except for that moon walk.

Time Incorrect on Rally Photo

Pentagon in Error on Moratorium Picture

WASHINGTON (AP) — The Pentagon concedes it was off somewhat on its announced timing of a widely distributed aerial snapshot of the crowd near the Washington Monument for the Nov. 15 antiwar Moratorium rally.

A Pentagon spokesman now says the Air Force photograph of the scene was snapped between 3:05 p.m. and 4 p.m.—not 2:30 p.m. as originally announced when the photo was made public on Dec. 19. The photo left the impression that the peak crowd was far below original estimates.

★ ★ ★

The picture showed no more than 136,850 were on hand for the demonstration, the Pentagon had said in releasing the photo shot from 20,000 feet. Crowd estimates by officials on the day of the rally placed peak attendance at around 250,000—while sponsors claimed an even larger turnout.

★ ★ ★

The Pentagon said Tuesday the photo was snapped during "a late pass" among the eight passes the Air Force RF101 jet made between 3:05 p.m. and 4 p.m. By 4 p.m., many of the demonstrators had left the monument grounds.

★ ★ ★

A Pentagon spokesman said Tuesday it is "anybody's guess" what a photo taken within this time span could show about the actual attendance earlier in the afternoon.

The spokesman said 2:30 p.m. was the time the plane left Shaw Air Force Base, S.C., for the flight over Washington.

★ ★ ★

He added that he has "no idea" how such a time error could have been made, but it was not meant to deliberately mislead anyone.

People in the News

BY THE ASSOCIATE PRESS

The city tax assessor says actress Sophia Loren and her producer husband, Carlo Ponti, have combined taxable wealth of $1,010,000 and must pay $147,000 in city taxes for 1969.

MISS LOREN

The tax bill issued yesterday was separate from the income tax on annual earnings imposed by the central Italian government. It was identical with the couple's bill for 1968 which, like many Romans, they contested. What they actually paid in 1968 was not made public.

The assessor estimated the 1969 taxable wealth of actress Gina Lollobrigida at $94,000 and her tax at $34,000.

SF Mayor a Grandfather 2nd Time in 2 Weeks

San Francisco Mayor Joseph L. Alioto became a grandfather yesterday for the second time in two weeks.

His daughter, Mrs. Adolfo Veronese, wife of a restaurant owner, gave birth to a 7-pound girl at St. Mary's Hospital. The parents named the baby Angela.

Two weeks ago the mayor's son, Joseph M. Alioto, became a father when his wife gave birth to Angela Regina.

ALIOTO

Actor's Son to Be Arraigned on Dope Charge

Actor Louis Jourdan's son is scheduled for arraignment in Los Angeles Municipal Court Jan. 7 on a charge of marijuana possession.

★ ★ ★

Louis Henry Jourdan, 18, was freed on bond of $1,250 yesterday.

★ ★ ★

He was arrested Monday night by sheriff's officers who reported that when they stopped his car for a routine check they saw him drop out a plastic bag. Inside, they said, was marijuana.

OU Offering Adult Chorus in 2 Classes

Those wishing to start the year with a song may register for a mixed chorus program of Oakland University's Division of Continuing Education.

One choral section will meet on campus from noon to 1 p.m. Mondays through Wednesdays starting Jan. 7.

★ ★

The other section will meet Tuesdays from 7:30 to 9:30 p.m. at the Church of the Beautiful, 5631 Adams, Bloomfield Township, beginning Jan. 13.

★ ★ ★

The principal efforts of the more than 150-member University chorus comprising persons in the mixed choral program, are directed toward singing the larger choral works with a symphony orchestra, said John Dovaras, director of choral activities at Oakland University.

★ ★ ★

A spring series of works is planned, highlighted by the Haydn "Lord Nelson Mass."

Interested adults may contact Dovaras at Oakland University.

State Electric Bills Among U.S. Lowest

LANSING (AP)— The average Michigan homeowner's $7.59 monthly electricity bill is lower than any in the country except in the states of Washington and Oregon, according to the Michigan Public Service Commission.

★ ★ ★

The commission, which recently authorized a $16.5-million rate increase for Detroit Edison and Consumers Power Co., said the national average is $10.37 for 500 kilowatt-hours a month.

Atty. Gen. Frank Kelley has filed four separate suits in Ingham County Circuit Court charging Consumers Power received an increase that was "unreasonable, erroneous, arbitrary, capricious and an abuse of discretion."

The rate increases averaged 6 per cent.

The commission says lower rates in Washington and Oregon reflect the fact that public electricity utilities there do not pay most state taxes.

★ ★ ★

It gave these figures for the cost of a month's residential electricity use elsewhere in the country: New York $15.76; Boston $12.81; Chicago $12.80; Florida $13.74.

TV Stare Scene for British Buffs

LONDON (UPI) — A nude woman will be televised Friday night walking up and down a flight of stairs in a scene which lasts three minutes, London weekend television said today.

The station said the scene is an excerpt from a film made by French director Jean-Luc Goddard.

Head-On Crash Kills GI, Woman

SPRINGWATER, N.Y. (AP)— A Michigan soldier and a yonug woman died Tuesday when their automobiles collided head-on along route 15, two miles south of this western New York community.

State Police said Spec. 4 Russell E. White Jr., 20, of Dimondale, and Barbara E. Breuilly, 21, of Corning, N.Y., were pronounced dead at the scene. Another girl with Miss Breuilly was injured.

Experts say between 100,000 and 30,000 lives could be saved annually with artificial hearts.

181 of Enemy Killed as Vietcong Opens Cease-Fire

SAIGON (AP) — American and South Vietnamese forces began a 24-hour New Year's truce Wednesday night after reporting 181 enemy killed during the first 24 hours of the Vietcong's unilateral cease-fire.

The 72-hour Vietcong cease-fire began at 1 a.m. Tuesday and the allied truce at 6 p.m. Wednesday. The South Vietnamese government refused to join in the longer standstill, and the allied commands said there were at least a dozen separate actions Tuesday.

* * *

"In terms of the number of enemy killed, it was one of the highest tolls in over a month," said a U.S. spokesman. "The big kills were in air-to-ground engagements"—meaning U.S. planes and helicopters hit the Vietcong and North Vietnamese while American ground forces held back.

The U.S. Command said two Americans were killed and three wounded. All the casualties but one wounded were helicopter crewmen. One helicopter was shot down and destroyed and two others were damaged.

S. VIETS SENT IN

South Vietnamese paratroopers, sent in to do the ground fighting in jungles and rubber plantations near the Cambodian border 85 miles north of Saigon, reported 11 of their men killed and 28 wounded.

* * *

It was in this region and 20 miles farther east that most of the fighting occurred Tuesday. The South Vietnamese paratroopers said they killed 33 North Vietnamese soldiers, while American bombers, helicopter gun-ships and artillery accounted for another 53.

* * *

South Vietnamese headquarters acused the Vietcong of nearly a score of violations of their own cease-fire, most of them rocket and mortar attacks. Sources said that at least three South Vietnamese soldiers were killed and 20 wounded.

A spokesman for the U.S. Command said although the allies were suspending combat operations for 24 hours, "all U.S. forces will maintain an alert posture and will take necessary security precautions to protect friendly forces or installations."

Sources said this meant that the Americans would maintain local patrols and reconnaissance flights during the cease-fire and would fire back if fired on. The sources also said that American troops would fire first if it appeared that enemy troops on the move were threatening them.

Driver Is Shot During Chase

Seriously Wounded by Ann Arbor Police

ANN ARBOR (AP) — An Ann Arbor man was shot in the head and seriously wounded Tuesday after a high-speed chase with police through the city, according to Ann Arbor Deputy Police Chief Harold E. Olsen.

Olson identified him as Marshall Edward Amerman, 44, a graduate student and part-time janitor at the University of Michigan.

Olson said that at least six police cars were involved in the pursuit that reached speeds between 80 and 100 miles per hour.

* * *

Olson said the chase began about 11 a.m. when a car failed to stop for police after making an improper left turn.

JUMPED A CURB

The chase lasted about 20 minutes and wound through eight miles of city streets, according to Olson. He said at one point, the fleeing car jumped a curb and nearly struck a group of pedestrians.

An Ann Arbor police patrolman fired four shots from a .38-caliber revolver at the rear windshield of the car at North University Avenue and Fletcher street at the University of Michigan campus, Olson said.

* * *

He said one bullet and possibly bits of chrome struck Amerman in the back of the head. The car went out of control after the shooting and struck two parked cars before coming to rest, Olson said.

He added that there were a minimum number of students on the campus because of the holidays.

Amerman underwent surgery in the University of Michigan Hospital and was reported in serious condition.

Olson said the Ann Arbor city attorney's office and the Washtenaw county prosecutor are investigating the case.

General Has Pneumonia

SAIGON (AP) — Gen. Creighton W. Abrams, the commander of U.S. forces in Vietnam, is suffering from pneumonia but is "making quite progressive improvement," Army medical authorities said today.

Abrams, who is 55, was taken to the Army's 3rd Field Hospital outside Saigon Sunday, and the doctors diagnosed his ailment as pleurisy.

* * *

Today his doctors said chest pains he initially experienced have disappeared. They said he is not confined to bed but will have to stay in the hospital a few more days.

To Get Phones

LANSING (AP)—Residents of a sparsely settled area in Presque Isle County may look forward to telephone service under provisions of Public Service Commission action. The commission approved an application by the Drummond Island Telephone Co. to provide the service in a 40-square mile area of Bearinger Township, north of Rogers City. There are 105 potential subscribers in the area, the commission said.

GM Truck and Coach Ends Record Production Year

GMC Truck and Coach Division ended its 1969 production run last night with a record-breaking output of 181,056 units, Martin J. Caserio, a vice president of General Motors and divisional general manager, reported today.

Caserio said combined GMC and Chevrolet truck production at the division's Pontiac plant surpassed the former record of 176,413 set in 1968.

All GMC medium and heavy-duty trucks, a portion of its light-duty models and some Chevrolet trucks are built by GMC in Pontiac.

An all-time record of 160,245 GMC trucks produced in Pontiac and seven General Motors assembly plants elsewhere was also established in 1969, Caserio said. The former annual GMC truck production record of 150,936 was set last year.

With GMC truck sales at record levels this year, substantial production gains were posted throughout the entire line with light-duty models up 5.4 per cent from 1968; mediums up 3.4 per cent and heavy-duty models up 15 per cent.

GMC rose to third place in sales this year from fifth in 1968 to attain its highest ranking in 43 years.

THE PONTIAC PRESS

PONTIAC, MICHIGAN, WEDNESDAY, DECEMBER 31, 1969

VOL. 127 — NO. 280 ★★★★ ASSOCIATED PRESS UNITED PRESS INTERNATIONAL —32 PAGES 10¢

GM Will Close 2 City Plants Jan. 12 and 13

DETROIT (AP) — General Motors announced yesterday that six of its assembly plants, including Pontiac Motor Division and Fisher Body Plant in Pontiac, will be shut down Jan. 12-13.

Six other GM plants will not operate Jan. 30 and Feb. 2 because of lessened passenger car production for next month.

★ ★ ★

When the local plants resume production at a reduced rate of assembly, 740 short service employes will not be recalled.

GM acted a day after Chrysler Corp. said it would close all of its eight assembly plants for one week in January.

13,600 AFFECTED

In Pontiac, the shutdowns will affect some 13,600 of GM's 36,000 employes here. GMC Truck and Coach Division will operate on normal schedules.

In a prepared statement, GM said its closings for two-day periods would be made "to reflect market requirements and shifting customer preferences for different models."

★ ★ ★

The giant auto maker also closed 11 plants during two working days last month and 15 plants for two days this week.

In the new plan, six GM assembly plants will be closed Jan. 12-13. Six others are to be shutdown — Jan. 30 and Feb. 2.

★ ★ ★

Regular schedules will continue at GM's 11 other assembly plants.

5 PCT. DECREASE

GM also said that through January present plans "indicate 1970 model production of 2,100,589 passenger cars as compared with actual 1969 model production of 2,210,190 units." This represents a five per cent decrease, GM said.

The plants GM will close Jan. 12-13 include two Chevrolet Fisher body facilities in Lordstown, Ohio, and St. Louis, Mo., and GM assembly division plants at Janesville, Wis., Tarrytown, N.Y., and Linden, N.J.

★ ★ ★

A total of 3,800 short service employes would be laid off indefinitely, the company said.

AP Wirephoto

NOTHING LIKE THIS AT HOME — Three teen-age boys who live in a subarctic Canadian region beyond any roads get a taste of something that doesn't grow in their area — an orange. With the three — (from left) Garry Quequish, 14, David Ogemawene, 14, and Saul Williams, 15 — is Amy Rothwell, daughter of their host, Mr. and Mrs. H. E. Rothwell of Los Altos, Calif. The trio was brought to California by Ontario anthropologist Mary Black.

Hanoi Seen Near OK of Bimonthly Parcels to POWs

WASHINGTON (AP) — North Vietnam apparently is planning to allow for the first time a regular mailing of packages to U.S. prisoners of war from their families, at a rate of one package to each POW every two months.

In reporting this, government officials said U.S. postal arrangements have been made to receive the packages from next of kin for shipment to Hanoi. They assume the first month for the mailings will be February.

★ ★ ★

Speculation here is that Hanoi is making this move as part of an effort to allay international criticism. It recently provided some families with information on whether men believed held are dead or alive.

★ ★ ★

U.S. officials are calling for the North Vietnamese to do much more to meet Geneva Convention terms for prisoner of war treatment.

LIST REQUESTED

U.S. envoy Philip D. Habib handed enemy negotiators in Paris yesterday a list of 1,406 American servicemen missing in action in Southeast Asia and called on the North Vietnamese to "indicate which men are prisoners and those whom you know to be dead."

Washington information indicates more than 400 are held captive. Most are fliers downed during U.S. bombing of North Vietnam.

Despite the Geneva Convention stipulation that a prisoner list should be supplied, Hanoi has not done so. Nor has it allowed outside inspection of prisoner camps or regular mail.

U.S. officials said two American antiwar activists who recently returned from Hanoi reported that families of prisoners could send a letter a month and a package of less than six pounds every other month.

★ ★ ★

Letters from some of the prisoners indicates they have been given similar information, the officials said.

Hanoi had allowed packages for the prisoners only three times, they said: Christmas 1968, July 1969 and Christmas 1969.

2 Held in Bomb Plant

BRISTOL, England (AP) — Police arrested two men today after a smoke bomb was found in a hotel where the touring South African Springboks rugby team is staying.

The bomb was discovered behind a vending machine on the third floor of the Unicorn Hotel after an anonymous telephone call tipped off the hotel manager.

To a Record 8.5 Per Cent

Home-Loan Rate Ceiling Up

WASHINGTON (AP)—Maximum interest rates allowed on government-insured FHA and VA home loans will be boosted for the second time within a year to a record 8½ per cent as of next Monday.

Secretary of Housing George Romney said yesterday he was reluctantly approving the increase from the current 7½ per cent maximum which has been in effect only since last Jan. 24.

★ ★ ★

The announcement was bad news for prospective home buyers who had hoped to see a stabilizing or reduction of interest rates which have been spiraling since early in 1966 when the limit was 5¼ per cent for the loans backed by the Federal Housing Administration and Veterans Administration.

Romney said he had delayed as long as possible but he was forced to take the action to "help hold the line against a further drying up of mortgage funds from regular sources . . ."

DEMANDING MORE

He noted that market yields on most types of investments have gone up more than one percentage point in the past year and that lenders are demanding higher and higher discount points to make FHA-VA loans.

Lenders have been charging 7 to 9 per cent — or points — to make loans. Most of this usually is paid by the seller, but in effect may be passed on to the buyer in the form of a higher house price.

★ ★ ★

The one per cent boost in the interest ceiling — the largest increase ever — was applauded by the Mortgage Bankers Association of America and was condemned by the National Association of Home Builders.

★ ★ ★

Robert H. Pease, president of the mortgage bankers, agreed with Romney that the new rate should significantly reduce the number of discount points now required to secure housing loans.

★ ★ ★

Louis R. Barba, acting president of the home builders group, issued a statement declaring the time has come for the administration to put into effect standby credit controls recently authorized by Congress.

Army Will Try My Lai Suspect

WASHINGTON (AP) — The Army has decided to court-martial S. Sgt. David Mitchell on charges of assault with intent to commit murder in the alleged My Lai massacre in Vietnam, it was learned today.

The decision was made by Maj. Gen. John Boles, commanding general of the 1st Armored Division at Ft. Hood, Tex., after an investigation of charges against Mitchell involving 30 South Vietnamese civilians.

★ ★ ★

Assault with intent to commit murder carries a maximum penalty of life imprisonment, Army sources said.

Mitchell would be the second soldier to go before a court-martial in connection with the My Lai incident.

★ ★ ★

He was a squad leader in the platoon of 1st Lt. William L. Calley Jr., in the action at My Lai, a village near the northern coast of South Vietnam on March 16, 1968.

Calley will be tried by a court-martial at Ft. Benning, Ga., on charges of premeditated murder in connection with the deaths of up to 109 Vietnamese men, women and children at My Lai. If convicted, Calley could draw the death penalty.

POWs' Benefactor Hits New Tangle

COPENHAGEN (AP) — Texas billionaire H. Ross Perot ran into another snag today in his attempt to fly his "Peace on Earth" jetliner to Moscow with 9,000 gift parcels for U.S. prisoners of war in North Vietnam.

With the North Vietnamese deadline of midnight tonight drawing steadily closer, the Soviet Embassy told Perot he would have to prove the U.S. government has no objection to his private mercy mission.

★ ★ ★

The 39-year-old computer magnate from Dallas immediately telephoned the U.S. embassy in Moscow and asked it to intercede with the Soviet government.

Perot arrived in Copenhagen last night after a trip half way around the globe from Laos.

Local Youth Slain, Man, 25, Wounded

By JIM LONG
and
TIM McNULTY

A Pontiac youth was killed and a man seriously wounded in separate shooting incidents early today.

NICHOLSON

Dead from a blast from a double-barreled shotgun is James Nicholson, 17, of 203 Seward.

At Pontiac General Hospital with an abdomen wound is Walter Frazier Jr., 25, of 108 Victory.

★ ★ ★

Nicholson was shot after he and three friends drove into Harrold's Gulf Station, Featherstone and Opdyke, Pontiac Township, and allegedly sped off without paying for the gas, police said.

The owner's son, Lawrence Harrold Jr., 17, of 146 Moor, and two friends helping him at the gas station got into a car and chased the four a half-mile, *caught them and, with the shotgun,* led them back to the station, according to Oakland County sheriff's deputies.

'GUN DISCHARGES'

During an argument on whether the teen-agers would pay for the gas, Harrold told police both barrels of the shotgun discharged into Nicholson's chest. He said he didn't know the shotgun was loaded, police said.

★ ★ ★

Nicholson was pronounced dead at the scene.

★ ★ ★

Harrold is being held at Oakland County Jail on an open charge of murder pending investigation by the prosecutor's office.

The three boys with Nicholson — Roger Smith, 17, of 168 S. Edith; Brian Sirbaugh, 17, of 57 S. Francis and John Moore, 17, of 160 S. Edith — were not held by police.

AT PONTIAC HOME

In the other shooting incident, Frazier told Pontiac police he was shot by Charles Abcumby when he went to Abcumby's home at 493 Moore.

He said he had gone to the address to get his car back from his wife who was with Abcumby.

The shooting occurred between 4:14 a.m. when Frazier called police for assistance in getting his car and 4:30 a.m. when he showed up at Pontiac General. Police said he had driven himself to the hospital.

At midmorning police had been unable to locate either Abcumby, 24, or Frazier's wife.

At the hospital where Frazier met two patrolman who were just leaving from another investigation, he told them the shooting took place outside the home where his wife was sitting in Abcumby's car.

Special Section Today

Section B of today's paper includes eight memorable front pages of The Pontiac Press. Our editors selected the eight pages on the basis of the top news days during 1969.

Editions Cut for Holiday

Only one edition of The Press will be published today and tomorrow due to the New Year's holiday. Resumption of the normal two-edition schedule begins with Friday's paper.

Samuel J. Simmons, Assistant HUD Secretary

Open Housing Becomes Fully Effective Tomorrow

WASHINGTON (AP)—The 1968 open housing law becomes fully effective tomorrow, buttressed by a pledge of vigorous enforcement from the Department of Housing and Urban Development.

On New Year's Day, approximately 34 million single-family homes will be added to the 20 million apartments, multifamily houses, and new subdivision homes already covered by the first two stages of the fair housing statute.

★ ★ ★

"We intend to demonstrate to the people that we really intend to enforce the statute," said Samuel J. Simmons, assistant HUD secretary for equal opportunity.

Simmons pledged HUD in 1970 would at least double the 16 "pattern or practice" housing discrimination cases referred to the Justice Department for prosecution in 1969. Eight suits were subsequently filed.

EDUCATION CAMPAIGN

"Pattern or practice" cases can involve such things as a real estate brokers' association that deliberately steers Negro homeowners away from certain neighborhoods or an apartment house owner who shuns black applicants.

Simmons also plans a stepped-up education campaign that he expects will lead to a substantial increase over the 927 individual complaints processed by HUD this year.

★ ★ ★

Of these, there have been 94 successful conciliations where many minority persons got the identical or similar house or apartment they were at first denied, he said. Damages also were paid in some of the cases.

'70 Welcome Cold 'n' Cloudy

Oakland County hailed the end of a decade with grains of salt as municipal public works trucks treated snow-slicked thoroughfares to speed early morning traffic.

Snow accumulation differed throughout the county with as much as three inches chalked up in southern portions and as little as one inch in the immediate Pontiac area.

★ ★ ★

Additional flurries are expected to drop between one and two inches during the day as temperatures climb into the low 30s to insure good snow balling for the younger set.

★ ★ ★

Tomorrow, the weatherman lists cold weather, cloudy skies and snow flurries as his welcome to 1970.

★ ★ ★

Possibilities of precipitation in per cent are today 80, tonight 40 and tomorrow 30.

An engagement party hosted by the bride-elect's parents, Mr. and Mrs. Keith D. Ford of Oak Bay Drive, White Lake Township, marked the betrothal of Nancy Louise Ford to Alan John LaForest. He is the son of Mr. and Mrs. E. J. LaForest of Highland. August wedding vows are planned.

Mr. and Mrs. Felix J. Lachowicz of Tan Bay Street, Commerce Township, announce the engagement of their daughter, Marcia Lee, to Jeffrey Lee Howe. He is the son of Mr. and Mrs. Burton L. Howe of Garden Terrace, also Commerce Township. Marcia attends Michigan State University. Her fiance is a student at Ferris State College.

Furniture Buying Has Its Frustrations

By ANNE TAYLOR
AP News Feature

I think we can agree that buying furniture is a lot easier than getting it delivered. The misfortunes that your order can suffer between the two dates is discouraging, to say the least.

First, there's the time lag. The average delivery period in recent weeks has been between six and seven weeks. But people I have checked with complain that some items take as much as three months to deliver.

* * *

When the furniture finally does come, it sometimes is accompanied by even more problems. Damage in delivery is common. And if the goods come with the incorrect fabrics you can be confronted with another long wait.

The furniture manufacturers concede that they have their share of problems. But they also speak confidently of solving them. They are sensitive to complaints and have several programs under way to correct shortcomings.

The National Association of Furniture Manufacturers believes the industry will be able to make speedier deliveries in the future. In fact, they say, the delivery lag has been shortened this fall, but that is because orders are off. Speedier deliveries in the future will result from more automation of factories.

Damage at the factory is being fought through the use of Zero Defects programs in which workers are rewarded for careful work. If such programs are used successfully in the space effort, manufacturers reason, they can work in the furniture factories also.

Perhaps more of the damage is done in delivery, however. Considering the amount of handling that a piece of furniture undergoes between factory and home, this is understandable. Nevertheless, the NAFM feels that better packaging and better care in delivery could reduce damage markedly in the future.

It is unfortunate, however, that the industry's Seal of Integrity tag isn't used more widely. This is an NAFM-backed warranty, but judging from what I am told, the tag is used less now than it used to be.

CARE OF FABRICS

In recent years, many purchasers have complained that while the fabrics used in their furniture were beautiful they didn't always remain so. Some of the newer fabrics had an affinity for stains. And some couldn't even be cleaned.

That problem may seem to be a thing of the past. The use of stain-repellent chemicals makes many fabrics all but stainproof. These chemicals wear off after two cleanings, but stainproofing can be sprayed on thereafter, usually after each cleaning.

The NAFM also tells me that after the New Year they will be issuing tags to be applied to furniture, telling the consumer exactly how to clean the fabric. And it is unlikely that in the future any uncleanable fabrics will be used.

* * *

The big furniture associations also have available booklets describing the care of woods and fabrics. The booklets, available through retailers, could help you save money on cleaning bills — and prevent you from ruining the woods or fabrics.

Stock Pantry With Cans of Convenience

UNIVERSITY PARK, Pa. (UPI) — Elderly homemakers, and others too, may find a real convenience in a shelf well-stocked with canned foods.

Mrs. Ruth J. Buck, extension foods and nutrition specialist at the Pennsylvania State University, notes that canned vegetables, meats and soups are convenience foods htat save time in labor and preparation.

* * *

When selecting, Mrs. Buck advises, buy the can size that fits your needs. While larger cans are often more economical, they can be costlier if not all the food is eaten.

Cans should be stored in a cool, dry place. After they have been opened, they should be refrigerated with a tight-fitting cover.

* * *

To prepare a canned vegetable, pour off liquid into a saucepan and boil down the liquid until about half of it is left. Add the vegetable and heat quickly. Save the liquid if you do not serve it with the vegetables.

Mr. and Mrs. Thomas M. Scott of Troy announce the engagement of their daughter, Pamela, to William Alward. He is the son of Mr. and Mrs. Marvin Alward of Osceola Drive. The bride-elect attends Central Michigan University. Her fiance is a student at Michigan Technological University.

Never Too Flowery

All of us have at one time or another found that words were inadequate to express our feelings. Young and old alike find themselves in this dilemma on various occasions.

* * *

That very first teen-age crush can turn the most ardent youngster mute for the first time. And it will not be the last. How to express one's affection without saying too much has confronted every man since Adam.

* * *

The astute male has solved this problem by sending flowers and letting them speak for him. Indeed, there is a special language of flowers with each variety having its own meaning. For instance, ivy means intention of marriage while the yellow rose maans jealousy. But flowers can convey any meaning you intend, and they are probably the most welcome gift a person can receive.

They say a thoughtful thank you to a hostess — and wish success to a business man. Flowers on an anniversary evoke memories of the wedding. On the other hand, they can be the most secret sort of Valentine.

SYMPATHY

And certainly they are the most beautiful and beloved way of expressing sympathy at the time of someone's loss. All over the world flowers have, through the centuries, expressed love, sympathy and warmth at this most difficult time. Flowers reach out a hand of help. They are probably the most easily understood messenger in any language. And you can depend on flowers to hurdle every language barrier.

Swingy Feelings in Davidow Styles

Young, swingy feelings abound in the winter Davidow collection. Consider: gray, white, black, cocoa double-buttoned jacket combined with a hip-stitched, pleated black skirt.

* * *

Or Scottish plaid in blue, mauve, moss, the jacket black-belted and the skirt with soft roll pleats.

SEW SIMPLE

By Eunice Farmer

Here's a great "security blanket" for your boys and girls as they grow a little older. It goes with any type decor of their rooms and makes a wonderful Christmas gift idea.

There's nothing quite like the feel of fur to stir warmth in even the toughest little guys. Cover pillows in fake fur and you'll have a friend for life.

You may buy inexpensive pillows or use ones that have outlived their covers. Either make a slip-cover type cover with a zipper on one end, or if you can't sew or don't want to spend that much time, simply hand whip the fur cloth to the pillow.

* * *

Even an amateur can look professional because the fur hides a multitude of errors. After the seams have ben stitched, pull out the fur fibers from the seams on the right side and the seam will be completely disguised. (This would also make a college boy or girl very happy!)

Dear Mrs. Farmer,

I have learned to cut corduroy the way you have suggested, but in the attractive ready-to-wear, the nap seems to be running every which way. Many times the pants will be cut with the cross grain. Can the home sewer do the same thing? Judy R.

* * *

Dear Judy R.:

The important rule on corduroy is to remember to cut all the pieces of your pattern in one direction unless you are trying to achieve an unusual effect. Some of the most attractive sportswear this fall were made with the corduroy cut in many different directions. Cutting part of the garment on the bias can also give an interesting effect.

One of the most attractive I have seen was a tunic and pants. The tunic was worked in large patches from side to side and up and down to form the new patchwork look. The pants in this case were cut with the lengthwise grain of the corduroy. Today, it seems that anything goes, so get your imagination to work and have the courage of your creativity.

TAILOR TRIX WINNER

Mrs. M. R. Beard, Cedar Falls, Iowa, is this week's Tailor Trix pressing board winner for her sewing suggestion.

"My trick should interest anyone who wants to make a seamless shower curtain. I have used the never-need-ironing 50 per cent polyester-cotton sheets. This could be made in either a solid color or patterned design. Bind the edges and make the hem from a contrast color if desired. Make the eyelet buttonholes on your sewing machine for the hooks. This new shower curtain needs no liner, dries quickly, is opaque and has proven satisfactory in every respect."

Dear Eunice Farmer,

Up until now, I have always been a mere "hem-shortener sewer" but your column has inspired me so much that now I have the confidence to do anything. Sure, I have a few failures, but it's surprising how well my sewing does turn out since I have lost my fear of it.

Lately, I have seen a type of velvet I was never aware of. It is much like velveteen only much thicker and is called velour. Does this type of velvet have to be lined and what is the purpose of having a heavier fabric that costs so much more? Mrs. V.J.

* * *

Dear Mrs. V.J.;

Velour has a much deeper pile than velveteen, because of this it is not only heavier but much more beautiful. It is usually not underlined. If you prefer a lining for a dress, make it separate.

This velour is also waterproof and makes lovely dressy coats that can be worn for afternoon or evenings. Even though this velour has a pile instead of the smoother nap, all pieces of your pattern must be cut in the same direction. I think you will find that outside of children's clothes, his velour is worth the extra money you spend for it. It is a favorite with the costume room designers.

* * *

If you would like a free Fabric Conversion Chart to carry in your purse when shopping for fabric, send a stamped, self-addressed envelope with your request for it to Eunice Farmer in care of The Pontiac Press, Dept. E-600, P.O. Box 9, Pontiac, Mich. 48056.

First Aid Techniques Change and Improve

NEW YORK — Although many first aid procedures have been changed and improved, most people cling to outmoded traditional methods, usually out of ignorance.

Red Cross officials point out that research and rethinking have developed new, more effective techniques for coping with emergencies such as:

• Cuts — A careful washing with gauze dipped in soap and water is recommended. Iodine or other germ-killers should not be applied because they can kill tissue and retard healing.

* * *

• Food or an object stuck in someone's throat and choking him — Immediate, repeated slaps on the back are dangerous because they may force the victim to suddenly suck in his breath or cough. Recommended: do nothing for a while to allow the victim to relax and cough up the object by himself.

If nothing happens, you should reach inside his throat to try to remove the object with your fingers or lean him forward gently and then slap him. If a child is involved, turn him upside down to dislodge the obstruction.

* * *

• Burns — Never apply butter or other household grease. For a minor burn, apply cold running water or a cloth dipped in cold water until the pain stops. For a serious burn, when the skin is broken, apply a dry sterile dressing, held in place by a bandage.

* * *

• A nosebleed — Tilt the person's head all the way back and pinch his nostrils. If the bleeding is severe, put a piece of gauze inside his nostril — long enough to be easily removed. Do not use an ice pack.

Why Grow Old?

By Josephine Lowman

"Women most usually are mentalis cases while men are more likely to have trouble with their buccinators," said John Canell, a recognized face contour specialist, at his New York City salon which improves slipped profiles without surgery.

Mr. Canell was not remarking about a woman's state of mind but rather on the state of her face. The mentalis area is on the side of the lower lip descending into the covering of the chin. It's a hot bed for habit lines to form. The penalties for unbecoming expressions are lines and wrinkles.

The buccinator is the muscle that retracts the corners of the mouth and men who habitually talk out of the corner of their mouths will have drooping buccinators.

* * *

There are three reasons for aging of the face. The underlying muscles become smaller and lax, the fatty support under the tissues melts away, and the skin itself becomes less resilient. Experts in facial contouring manipulate the muscles in a far different manner than that used in the ordinary facial.

Once the underlying muscle structure is toned the skin covering it will lose some of its wrinkles and flabbiness, but it takes well trained knowledgeable fingers to perform this restructuring. The do-it-yourselfer may do much more harm than good.

* * *

Canell's theory is that we should increase the tone of the facial muscles to compensate for the decrease in deposits of fat beneath the skin as we grow older. This is also important when one is losing weight. John Canell said, "A dieter swims and exercises to tighten up body muscles as the pounds drop off. The same adjustment has to be made with the face to keep a youthful appearance."

* * *

He also advises that an ounce of prevention works very well in retarding aging of the face and says that prevention can be accomplished by every woman, everywhere. Tomorrow I will tell you what he believes to be the greatest secret for success.

Males Invade Women's Field

MANHATTAN, Kan. (AP) — Men have invaded what used to be a woman's world at Kansas State University here. Of the 30 graduate students in the department of family and child development, seven are male.

* * *

"Strangely, we do not feel that it's a predominantly female field," said Charles Barrett, Baltimore, Md., speaking for the men. The department is part of the College of Home Economics and most of the graduate students have degrees in psychology and are interested in counseling and research.

Waterford Mobile Home Park Blocked

By MARY SUNDSTROM

Rival requests for rezoning of the same parcel of land for a mobile-home park were recommended for denial by the Waterford Township Planning Commission last night following public hearings.

Final action will be taken later by the township board.

One request was made by American Mobile Home Corp. (AMHC) of California to rezone about 100 acres of agriculturally zoned land, fronting on Nelsey Road and Lotus Lake, to accommodate 535 mobile home units.

The other request was made by Walter Jackson of 927 Madison, Birmingham, who earlier had led opposition against the (AMHC) request.

The AMHC request called for paved streets, landscaped lots, all underground utilities, a community television antenna system, development of a beach area, a community room and a virtually self-contained village, including its own snow removal and trash collection.

BEST USE FOR LAND

Tom Egan of Ann Arbor, regional manager of AMHC, said his company felt the land was impractical for single-family dwellings and that its most usable state would be in mobile-home development.

"Our proposal also meets the needs for new forms of housing," he added.

Out of 100 persons gathered at the school administration building, one spoke in favor of the proposed rezoning — Mrs. Cynthia Nelsey, owner of the property.

★ ★ ★

She said the land had been determined by developers and investors to be not economically sound for single dwelling development.

DENSITY RULE

Jackson, who owns a great deal of property across Nelsey road from the land on Lotus Lake and is developing some of it into single-family homesites, said the AMHC plan violated the township's rule of density (a maximum of 2½ houses per acre) by planning seven mobile homes per acre.

Jackson also said he felt that mobile homes should not be located in the middle of a residential area on "one of Waterford's most beautiful lakes."

★ ★ ★

Jerome Mulligan, an attorney who said he represented many township residents, also asked the commissioners to deny AMHC's rezoning request and to leave the area in a land bank for residential development at a later date.

He suggested that a mobile home park would downgrade the area, and that it would be a tax burden on the township.

He also said the park would be a burden on Clarkston Schools, which would service the area.

★ ★ ★

Nearly everyone in the audience applauded Mulligan's comments, and several other persons spoke against the rezoning, mentioning traffic hazards the park could bring to Nelsey Road and to boating on Lotus and adjacent Maceday Lakes.

★ ★ ★

Citizens said they also felt the park could add to pollution of the lakes.

Petitions bearing names of several hundred township homeowners urging denial of AMHC's rezoning request were presented to the planning commission.

★ ★ ★

Voting to recommend denial of the request to the township board were Commissioners Mitchell Sioma, Jim Clarkson, Charles Richards and Joseph Filka.

★ ★ ★

Those commissioners voting for the rezoning were Carlos Richards, Donald Ringler and Bob Lawyer. Absent were Commission Chairman Paul VanRoekel and Commissioner Dr. John Naz.

Tops '69 by $2.5 Million

PGH Budget Approved

City Affairs

The City Commission approved Pontiac General Hospital's $14,925,279 budget for 1970 last night following a public hearing.

The budget is up approximately $2.5 million from last year and calls for increases in room rates averaging $5 per day.

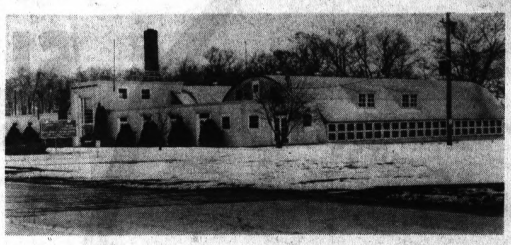

★ ★ ★

Hospital administrator, Dr. Roger B. Nelson, said the budget was based on a 92½ per cent average occupancy. The increase in costs was due to a general increase of more than 7 per cent in operation expenses and to addition of 37 employes to the staff, Dr. Nelson explained.

The budget was approved unanimously by the commission. The budget does not call for expenditure of any city funds but is paid out of hospital revenues.

In other business the commission:

- Unanimously denied a dance permit for the Timberlane Lounge at 20 E. Pike.
- Deferred for one week consideration of rezoning the northeast corner of Ypsilanti and Karen from single to multiple family use. The request from developer Herbert Chernick was not favored by the City Planning Commission which oppostd it 4-2.
- Agreed to hire the Jacobs Co. of Chicago to evaluate the salary structure of the city's administrative personel. The study is to cost $7,500. Opposing the study was Commissioner Robert C. Irwin, district 2. He pointed out a similar study was made in 1968.
- Received a report from Parks and Recreation that in expenditures of $267,000 for recreation, 43 per cent had gone into various programs in district one and seven, most of Pontiac's South Side. Commissioner T. Warren Fowler Sr., district 1, said the figures disproved accusations that his area was "being cut short" in providing recreation for children.

Naval Armory On East Boulevard To Close

Navy Abandoning City Center

The U. S. Navy is abandoning its training center in Pontiac, and the city will end up acquiring the large building which housed its operations.

The center, at 469 S. East Blvd., was built in 1948 at a cost of $161,000. It is of factory-quonset type construction with three large, basketball court-sized huts joined by corridors.

★ ★ ★

The City Commission was informed last night that as of Jan. 1, the building will be empty after 22 years. The Naval Reserve training functions will be transfered to 26400 W. 11 Mile in Southfield. The Pontiac unit has about 160 trainees and eight regular Navy personnel.

According to a Navy spokesman, the Pontiac center is being closed along with centers in Kalamazoo and Jackson as a result of a Department of Defense budget cut.

RECIPIENT OF AWARDS

The Pontiac unit was the recipient of several citations and awards during its tenure.

The City Commission is contemplating several possible uses for the structure. It could readily be converted to an east side fire station or community center or both.

The building is located on city land formerly in adjacent Murphy Park. The U.S. government leased the land on a $1-per-year basis throughout the time of the Navy occupancy.

Before deciding to abandon the building, a survey was made of other federal agencies which might wish to use the structure, but none were found, the Navy spokesman said.

★ ★ ★

Last night the commissioners approved taking the procedures to acquire the building. However it was not determined if any exchange of money will have to take place. The property is 300 by 200 feet and is to be appraised to determine value in conjunction with proceedings for acquisition.

Area Deaths

Sarah Brondige

Service for Sarah Brondige, 88, formerly of 723 Third, will be 1:30 p.m. Friday at Huntoon Funeral Home, with burial in Oak Hill Cemetery.

Miss Brondige died Dec. 23. She was a member of the First Philathia Class, Wayside Gleaners and the First Baptist Church of Pontiac.

Mrs. William D. Barry

ORION TOWNSHIP — Service for Mrs. William D. (Elizabeth) Barry, 68, of 927 Orion will be 10 a.m. Friday at St. Joseph Catholic Church, Lake Orion, with burial in White Chapel Memorial Cemetery, Troy. Rosary will be 8 tonight at Flumerfelt Funeral Home, Oxford.

Mrs. Barry died yesterday. She belonged to the American Legion Auxiliary 840 of Detroit and the Maccabees and the Ladies of Detroit Elks Lodge Auxiliary.

Surviving besides her husband are three sons, Leonard Wilkins of Lake Orion, Jerry Wilkins of Rochester and Gordon Wilkins of Los Angeles, Calif.; a brother; six grandchildren; and two great-grandchildren.

Mrs. James Burnett

MILFORD — Service for Mrs. James M. (Sharon A.) Burnett Jr., 25, of 212 St. John will be 3 p.m. Friday at Our Saviour Lutheran Church, with burial in Highland Cemetery by the Richardson-Bird Funeral Home.

Mrs. Burnett died yesterday after a four-month illness. She was a laboratory technician in research at D & H Farms, Howell.

Surviving are her husband; parents Mr. and Mrs. Russell VanBuren of Milford; four brothers, including Arno, Calvin and Paul VanBuren, all of Milford; one sister; and grandmothers Mrs. Edna VanBuren of Highland Township and Mrs. Gladys Whipple of Lake City.

Mrs. Joseph Frankowski

AVON TOWNSHIP — Requiem Mass for Mrs. Joseph (Genevieve) Frankowski, 52, of 3745 Donley will be 11 a.m. Friday at Sacred Heart Catholic Church, Pontiac Township, with burial in White Chapel Memorial Cemetery, Troy.

Rosary will be said at 7:30 p.m. tomorrow at Harold R. Davis Funeral Home, Pontiac Township.

Mrs. Frankowski died Monday.

Mrs. Harold McVeigh

OXFORD — Service for former resident Mrs. Harold (Lillian) McVeigh, 73, of Sterling Heights will be 2 p.m. Friday at Tiffany-Young Funeral Home, Armada, with burial in Will Grove Cemetery, Armada.

Mrs. McVeigh died yesterday.

Surviving are her husband; four daughters, Mrs. Fred Fernsemer of Lake Orion, Mrs. Harold Russ of Madison Heights, Mrs. Charles Teets of Lexington and Mrs. Henry Sarauer of Sterling Heights; two sons, Cleon J. of Rochester and George A. of Madison Heights; one sister; 21 grandchildren; and 21 great-grandchildren.

The body may be viewed after 7 p.m. tomorrow.

Beverage Talks

LANSING (AP) — Proposed changes in the standards for nonalcoholic beverages in Michigan will be the topic of a public hearing set for Jan. 9 in Lansing. A new regulation, proposed by the State Agriculture Department, sets standards for nutritive, carbonated and noncarbonated beverages manufactured or sold in the state. The new regulation would, in effect, adopt federal standards for nonalcoholic beverages, the department said.

The western part of today's California may have been a deep oceanic trench over 100 million years ago, geologists believe.

Commissioners Shun Eviction-Case Stand

The City Commission was asked to intervene in an eviction case at last night's meeting but declined to do so in a 4-3 vote.

The case concerns the eviction of Mrs. Conova Sharpton who resides in the Crystal Beach housing project. The eviction notice issued by Pontiac District Court is for Friday.

★ ★ ★

Robert Kocsis, an attorney, spoke for Mrs. Sharpton. He said she was the mother of three children living on Aid to Dependent Children payments. He said on his advice she had refused to pay rent for the last five months, $350.

The money has been placed in escrow. Kocsis explained the withholding of rent was to protest the condition of the unit which he said has a six-foot hole in the roof.

RELOCATING RESIDENTS

The city purchased the wartime housing project and for the last two years has been in the process of relocating the residents and tearing the structures down. So far 70 per cent of the families have left.

Mrs. Sharpton, with three children, has had difficulty locating new housing, Kocsis explained. He cited recently approved state tenants' rights laws which he claimed gave his client the right not to pay rent for a substandard dwelling.

★

Kocsis was advised to seek a stay of execution on the eviction from the District Court and indicated he would do so.

However, his request that the commission go on record as opposing the eviction was turned down. Commissioner Robert T. Jackson, district 5, offered a resolution to that effect and had the support of Commissioners T. Warren Fowler, District 1, and F. Jack Douglas, District 4. The other four commissioners dissented.

All the commissioners indicated that though they were not in favor of evicting the woman immediately, they did not want the city's ultimate plans for erasing the old housing project delayed.

African Nation Dons Red Look

KINSHASA, The Congo (AP) — The neighboring Congo Republic put on Communist trappings today. It proclaimed itself the Popular Republic of the Congo, adopted a Red Flag with hammer and sickle in the center and made the Internationale the national anthem.

The flag also displays two green palms surmounted by a yellow star in the upper left hand corner.

The former French colony whose capital is Brazzaville has been moving toward the left ever since 1963, when Alphonse Massemba-Debat overthrew the country's first president, Abbe Fulbert Youlou.

The Soviet Union and Communist China began competing for influence and stepped up their efforts in August 1965 when the United States broke diplomatic relations over the arrest of a U.S. aid officer. This made the Congo the only black African nation not having ties with Washington.

Maj. Marion Ngoubai, the present head of state, overthrew Massemba-Debat in August 1968, and neutral diplomats said that since then the Soviets seem to have gained ground over the Chinese.

Ngoubai, who put down an attempt to overthrow his regime in November, put out feelers recently to see how much aid he might get if he re-established relations with the United States. Informed sources said the U.S. response was a "relations if you like but no aid."

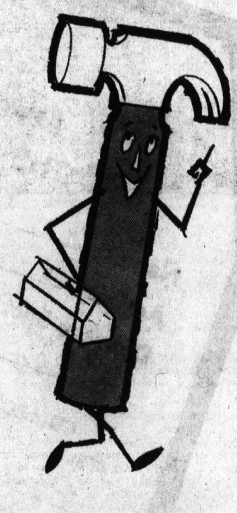

State Will Save in Phone Switch

LANSING (AP) — The state may save upwards of $100,000 a year with transfer of a small area of the Michigan Telephone Co. Dimondale exchange to the Lansing exchange, says the Michigan Commerce Department.

★ ★ ★

The transfer, approved by the State Public Service Commission, is expected to enable a new complex of state-owned buildings to be in the Lansing exchange.
