

# Twisters Devastate Two Towns in Wheat Belt

## Tourney Opens Today

Pontiac Press Photo

**START LONG GOLF TREK**—Some of the early starters in the Wolverine Ladies Open golf tournament were snapped today as they left the 1st tee at Forest Lake Country Club. From the left they are Mrs. W. H. Falco (Idylwyld), Mrs. H. G. (Rylma Strevel) Marquardt (Gowans CC), and Susan Gawne (Bloomfield Hills CC). The amateurs, including some of the state's best (Mrs. Marquardt has been a top contender for years) got away first today. Von Colby, former Michigan girl, Mickey Wright of LaJolla, Calif., and Faye Crocker of Uruguay, were the 1st of the Ladies Professional Golf Association contingent of 18 proettes to begin the 4-day, 72-hole trek.

## See Eden's Conservatives Winning British Election

FROM OUR WIRE SERVICES

**LONDON**—Britain went to the polls today and some 28 million voters were expected to keep Sir Anthony Eden's Conservatives in power for another five years. The polls opened at 7 a.m. (2 a.m., EDT) under gray but brightening skies. There was a prospect of thunder-showers, however, over widespread areas later in the day.

Homeward-bound night workers and early-bird day workers in England, Scotland, Wales and Northern Ireland were the first to record their votes in the fourth national election since the closing days of World War II.

By 9 p.m., the voters in the world's oldest democracy will have chosen between the Conservative Party's "property-owning democracy" and the Labor Party's "fair shares for all."

The final results were expected to show Sir Anthony Eden's governing Conservatives continued in power with a majority of the 630 seats in the new House of Commons.

The first results were expected to be available between 10 and 11 o'clock tonight, with the decisive figures known by early Friday afternoon.

The Conservatives under Sir Winston Churchill and Prime Minister Eden have been in power since 1951. The Laborites under Clement Attlee ruled from 1945 to 1951.

## 14 Feared Dead in Crash of B36

**Big Air Force Bomber Plunges, Burns Near San Angelo, Tex.**

**SAN ANGELO, Tex.**—Flames still flickered around the burned out bulk of a B36 bomber at dawn today as a surface convoy from Goodfellow Air Force Base reached the rugged ranch country site where 14 may have died.

The giant, six-engine plane crashed and burned about 11 p.m. last night during a thunderstorm.

At 6:45 a.m., Goodfellow AFB said a truck convoy had reached the crash scene, but that no information had been received about the 14 men who were aboard the plane.

It said the plane, believed from Walker Air Force Base at Roswell, N. M., was still burning.

## County Board Sets Preliminary 1955 Tax Rate

**Property Owners' Bills Will Increase Slightly Over Last Year**

**Oakland County Tax Allocation Board** yesterday set a preliminary county tax rate for 1955 of 4.37 mills (\$4.37 per \$1,000 of valuation).

The rate is .77 mills lower than last year's figure, but the county still will raise more money from taxes this year than in 1954, said County Treasurer Charles A. Sparks, chairman of the allocation board.

A State Supreme Court decision forces the board this year to figure the rate on higher state equalized valuation.

This will open more money to taxation and the rate can be set lower and still bring in enough more to cover the \$1,120,143 boost in the county budget for 1956 over this year.

Thus, although the rate will be down, county property owners still will generally receive slightly increased tax bills.

The 4.37 rate is designed to bring in the \$6,088,512 slated to be raised from taxation in the 1956 budget, said Sparks.

**PLAN ADDITIONAL LEVY**

Pontiac School District was allotted 5.59 mills within the 15 mill limit regularly allowed by state law. The district, however, will levy an additional 8.75 mills approved for school expansion by a public vote. County, school and township taxes all must be included in the 15-mill limitation, Sparks explained, except where public votes have allowed a special added tax. This year, 5 mills will be spread above the limit on a countywide basis to support the new special education program.

Some 15 townships were allowed tentative levies within the 15-mill limit.

Addition will tentatively spread .25 of a mill; Avon, .72; Bloomfield, .57; Commerce, 1.59; Holly, .59; Independence, 1; Milford, 1.50; Novi, .39; Oakland, 1.10; Oxford, .49; Pontiac, 1; Southfield, .76; Troy, 1; Waterford, 1.38; and West Bloomfield, 1.59.

**ALLOWED FIRST RATES**

Commerce, Novi and Waterford Twp. were allowed rates for the first time.

"If many of the townships, such as Waterford, had an up-to-date census they would get a greater sales tax return on the basis of higher population and wouldn't have to ask for township taxes," said Sparks.

"But there will be no census until 1960, unless the Board of Supervisors adopts a special census," he added.

The allocation board will hold a hearing on the tentative rates June 2, after which they will be made final, the treasurer stated.

## Nothing to Sneeze At Scientists Chase Pollen

**ANN ARBOR (AP)**—Scientists at the University of Michigan are setting up a sort of mathematical radar to locate the pesky summer plant that plagues seven million Americans.

They are using a complex equation that looks like a fugitive from a nuclear laboratory. Their objective: Ragweed and hay fever.

As complex as it is (it requires an electronic calculator to work it out), it could provide part of the answer to sweeping city air clean of ragweed pollen.

Professors E. Wendell Hewson of meteorology and John M. Sheldon of internal medicine say more people come down with hay fever every year.

**GATHERING DATA**

Sheldon and Hewson are working on a project in the university's Engineering Research Institute to gather basic information on the circulation of pollens and other air contaminants.

In a small laboratory on the roof of one of the engineering buildings, Hewson measures how wind direction and velocity and turbulence affect the scattering of ragweed pollen.

He has worked out equations that can help locate where the weed is growing, so that it can be destroyed. The equation, he says, would also tell whether the ragweed field was a major or minor one.

**TO PINPOINT GROWTHS**

By measuring the pollen count in the air at many locations, and then entering this information in the equation, coupled with local meteorological data on winds, Hewson believes it is possible to pinpoint the offending growths of ragweed.

By measuring points several miles apart, it could locate growths up to 30 or 40 miles away, he says.

## Roaring Storm Creates Havoc in Kansas Town

AP Wirephoto

**TORNADO LEVELS TOWN**—This scene of devastation was typical of the havoc caused by a roaring tornado which struck the southern Kansas town of Udall shortly before midnight last night. At least 48 persons were killed here and many more injured.

## Hope Dwindles for Missing Girl

**Kalamazoo Girl Feared Dead After Kerchief Turns Up in Woods**

**KALAMAZOO (AP)**—Hope dwindled today that Jeannie Singleton, 8, would be found alive. The youngster disappeared Monday as she limped home on her crippled leg from school.

Yesterday a pink kerchief, identified by her family as one she wore on her head, was found hanging from a tree in a wildlife preserve. It is the only tangible clue in the search so far.

Jeannie was stricken by rheumatic fever four years ago. The attack left her right leg lame and shorter than the left.

Yesterday, one of nearly 1,500 persons in a vast search party found a kerchief like it in the Kleinsteck Reserve, about three miles from where she last was seen.

The kerchief was identified both by Jeannie's mother, Mrs. Steve Singleton, and her sister Patsy, 13, as the one Jeannie wore.

Police have received nearly 500 worthless tips on Jeannie's disappearance. Hopes fell that she would be found alive. Police fear a sex deviate.

Kalamazoo police last night questioned a middle-aged man who was taken off a freight train at Battle Creek. Police said his actions had aroused suspicion.

## Women Golfers Begin Tourney

**Good Weather Helps Sharpen Forest Lake for Wolverine Test**

With perfect weather, contestants in the Wolverine Ladies Open golf tournament at Forest Lake today were expected to post some interesting cards in this medal play event. Warm sunshine was drying the greens and this factor was important as the "carpets" were wet and slow early today, following yesterday's rain. The field of 18 proettes and 28 amateurs are shooting for cash awards (pros) and merchandise rewards (amateurs).

First finishers of the 9-hole round were Mrs. Don Watkins (R'hm) 37; Mrs. Norma Lablisky (Col. O) 38; Mrs. Louis Columbus (DCG) 42; Mary Lovell (R'hm) 44; Mrs. J. G. Israel (Knollwood) 34. Miss Lovell hit 8 on the 1st hole, a par 5, but came back to recoup much of the loss.

All morning starters were amateurs. First professionals to get under way in the 18-hole daily, 72-hole event left No. 1 tee at 12:40 this afternoon.

## Gentle Weather Returns After 4 Stormy Days

Gentle weather has returned to Pontiac after the turbulence and threatening conditions of the last four days.

The weatherman predicts mostly cloudy skies and warmer temperatures tonight and tomorrow, with occasional showers. Tonight's low is expected to be around 50-54 degrees, tomorrow's high, 73-77.

Yesterday's high was 53, low 30. At 5 a.m. today, the mercury in downtown Pontiac stood at 32 degrees, rising to 69 by 2 p.m.

## Dem Road Plan Goes to House

**Senate Shouts Okay on Gore Bill, Downs Ike Proposal**

**WASHINGTON (AP)**—The battle over a massive road-building program shifted to the House today after the Senate handed President Eisenhower a sharp setback by passing a Democratic rival to his highway plan.

Sen. Gore (D-Tenn), chief sponsor of the Democratic bill, arranged to appear before a House Public Works subcommittee to explain and argue for the measure.

Republicans contended the President's plan had much better prospects in the House, although Democratic leaders there have let it be known they favor the Gore bill.

The Eisenhower plan was beaten 60-31 in the Senate before that body went on to shoot its approval of the Democratic measure without a rollcall.

On the decisive test, 13 Republicans deserted the administration while only one Democrat—Kennedy of Massachusetts—supported the President's proposal as a substitute.

After this vote, Republican leaders made a bid to shelve the Gore bill by sending it back to the Public Works Committee. They were beaten this time 50-39.

The Democratic measure would set in motion, subject to actual appropriations, a five-year, \$19-billion highway spending program—one of the biggest non-defense projects ever sparked by federal funds.

Michigan Senators Potter and McNamara stuck with party lines during voting on the federal highway bills yesterday.

Potter, a Republican, voted for President Eisenhower's bill and in favor of sending a Democratic bill back to committee. Both moves were defeated.

McNamara, a Democrat, voted against both proposals.

## Adm. Burke Stunned by News of Promotion

**NORFOLK, Va.**—The Navy's old hands received a whopping surprise with the nomination of Rear Adm. Arleigh A. Burke to be chief of naval operations—but nobody was more stunned than Burke himself.

"I am still in a state of shock," he told a news conference after the announcement yesterday that President Eisenhower had passed over 92 higher-ranking officers to pick the 53-year-old Coloradoan.

## Will Up Gas Tax 1.5 Cents

## Bill to Modernize Roads Goes to Williams for OK

**LANSING (AP)**—A multi-million dollar plan to modernize Michigan highways arrived at the end of a long and bumpy road today after passing the House by a four-vote margin.

The Senate-approved Coleman Bill, which will hike the gasoline tax by 1½ cents per gallon, was sent to Gov. Williams for signature.

Williams hailed the measure as the "start of a modern highway program."

"At last it appears the people are going to get some four-lane divided highways that go from one place to another for their tax money," Williams said.

As it now stands, the bill would not become effective until mid-October. Supporters were expected to fight for a July 1 effective date, however.

Sen. Creighton R. Coleman (R-Battle Creek), sponsor of the measure, said failure to make the bill effective in July would cost the state some \$13,000,000 in gas tax revenue.

A coalition of Republicans and Democrats were victorious in a two-day battle to preserve the bill in the form in which it left the Senate.

Its opponents tried desperately yesterday to tack on a half-dozen crippling amendments, but failed to make any changes to the measure.

The gas tax increase would go into a special fund, three-quarters of which would go to the state for construction of trunkline highways and the balance to cities and counties.

Under the plan, cities would get (Continued on Page 2, Col. 3)

## Inspection Planned of 'Death' Trailer

Inspection of a semi-truck trailer which yesterday collided with a glass truck causing the death of three Detroit men was scheduled for today, according to Waterford Township Police Chief Frank Van Atta.

The driver, Charles H. Jordan, 29, of Toledo, Ohio, in a statement at the prosecutor's office yesterday, was unable to explain how the 35-foot trailer uncoupled from the cab. Jordan was released.

Van Atta said the trailer broke loose, careened across Dixie Highway and struck the victims' truck about five miles north of here. The men burned to death when they were covered by flaming gasoline from their truck's ruptured seat tank.

**Reds Agree to Meet**

**MOSCOW (INS)**—Soviet Russia formally agreed today to a Big Four chiefs of state meeting.

## Jaycees' Road-E-O Champ

Pontiac Press Photo

**SKILL WINS AWARD**—First place winner of the annual Jaycees Teenage Road-E-O, James Barnowsky, 16, of 132 E. Russell St., was presented with the top trophy this morning by Cyle R. Haskill, (left) chairman, during a special assembly at St. Michael's School where James is an eleventh grader. James, a model student with a high scholastic average, made 333 points out of a possible 400. He attributed his winning to "safety principles which I had been practicing since I've been driving a car." See story on page 25.

## 74 Known Dead, Over 600 Hurt in Lashing Gale

**Kansas, Oklahoma Hit by Series of Tornadoes in Year's Worst Storm**

**UDALL, Kan.** (AP)—A series of tornadoes whirled across Kansas and Oklahoma last night hammering 13 towns and killing at least 74 persons.

Approximately 600 persons were injured.

The twister dealt the most punishing blows to Udall, a south-central Kansas community of 750; and Blackwell, a northern Oklahoma town of 10,000. The towns are 80 miles apart in the wheat belt.

At least 5 persons died at Udall and 17 at Blackwell. A twister killed two others at Sweetwater in western Oklahoma. Lightning claimed two additional lives in Oklahoma.

The twisters, the year's most devastating, also roared into Texas but apparently caused no deaths in that state.

Udall was virtually destroyed, more than 100 persons were injured. In Blackwell where the tornado leveled homes and factories in an east side area of about 35 square blocks some 500 were injured.

**POWER FAILS**

Other towns hit included Genda Springs in south-central Kansas and Erick, Durant, Shattuck, Mayfield, Camargo, Leedy, Taloga, Cheyenne, Deer and Strong City in Oklahoma.

Both Udall and Blackwell lost their electric power. Communications were hard hit.

Debris and mud covering the streets hampered rescue crews.

At Blackwell, the Hazel Atlas Glass Co. plant, a two-block factory in the center of the storm's path, caught fire after being flattened. Thirty-five workers on the night shift escaped before the structure collapsed.

Bread trucks and other commercial vehicles were pressed into service to speed the injured to hospitals.

The twister hit with unexpected suddenness in Udall.

Johnny Walker, 37, and his wife were in their frame home just north of the main street when the winds whistled hit.

**LIGHTS GO OUT**

"The lights went out," he said. "I was lying on the bed. I wasn't undressed, just lying there. My wife called to me. I jumped up and the door blew open. I forced it shut and then my wife put her arms around my waist and we crawled on the floor to the stairway."

"Then it sounded like a freight train coming through the house."

"There was an explosion, it seemed like, and all the windows shattered."

Approximately 90 per cent of the community was demolished. Fragments of buildings were left standing here and there.

Debris from brick walls smashed (Continued on Page 2, Col. 2)

## Aurora Borealis Puts on Show in Pontiac Skies

If you were up and stirring about in the wee hours this morning, you would have seen a display put on by the aurora borealis which put to shame any man-made show for size and grandeur.

First noticed here last night at 10 p.m., it appeared as a rainbow-shaped haze over the northern horizon.

This arc of diffused light kept moving southward overhead. It seemed to come nearer and about midnight the bright haze appeared concentrated in a flat band across the sky. It pulsed, sweeping upward in undulating waves.

When it came so far south that it seemed to start from overhead, the flat band was broken into patches and streaks.

The pulsating streamers seemed to emit from earth to the farthest reaches of the atmosphere. Sometimes the patches of white had quality of fast-rising smoke.

"This is the greatest display of the aurora borealis I personally have witnessed since the one 10 years ago when so many people were frightened," observed Mrs. Fanny Lowery, member of the Charlotte Post of the Oakland County Ground Observers Corps.

**PLAN SYLVAN PARADE**—Anthony B. Osler, Sheriff's Mounted Posse, a band and Boy and Girl Scout groups are among the 16 parade units. The Rev. Edward D. Auchard, of Pontiac's First Presbyterian Church, will deliver the rededication message and prayer.

## Orchard Lake Resident Dies

**George E. Baldwin, 65, Detroit Businessman, Succumbs Wednesday**

George E. Baldwin, 65, former Michigan manager of the Sinclair Refining Co. died Wednesday at William Beaumont Hospital.

He was born in Chicago and came to Birmingham in 1922. For the last 15 years he had lived at 4831 Old Orchard Trail, Orchard Lake.

Mr. Baldwin had been vice president of the Fuel Oil Corp. of Detroit before he became state manager of the Refining Co. Later he owned the Baldwin Gas and Oil Co.

A member of the St. Hugo of the Hills Catholic Church, he also belonged to the Detroit Athletic Club, the Orchard Lake Country Club and was a former member of the Birmingham Rotary Club.

Besides his wife, Hilda, he is survived by three daughters, Mrs. P. J. Carey, Mrs. R. S. Wilson and Joan M. Baldwin; two sons, Donald F. and George E. Baldwin Jr.; five stepchildren, Mrs. C. E. Reutter, Heidi, Sheila, Richard and Michael R. Flannery; two brothers, a sister and 14 grandchildren.

The Rosary will be recited at 8 p.m. Thursday in the Bell Chapel of the William R. Hamilton Co., 820 E. Maple, Birmingham.

The funeral will be held at 10 a.m. Friday in the St. Hugo of the Hills Church with burial in Lincoln, Ill.

## Pontiac Deaths

**Pamela Marie Wise**

Prayer services will be held Friday at 2 p.m. in the Farmer-Snow Funeral Home for Pamela Marie Wise, infant daughter of Ernest L. and Laura Cascardian Wise of 9530 Portage Trail. The Rev. Malcolm K. Burton of the First Congregational Church will officiate. Burial will follow in Otis Park Cemetery.

Pamela was born at 8:30 a.m. Tuesday at Pontiac General Hospital and died seven hours later. Surviving are her parents, a sister, Diana Lee, and a brother, William E. Wise, all at home.

## The Weather

**PONTIAC AND VICINITY**—Mostly cloudy and warmer tonight with occasional showers, low 50 to 54. Friday, mostly cloudy and mild with showers. High, 55-57. East to south-east winds, 5-10 miles tonight.

**Today in Pontiac**—Lowest temperature preceding 8 a.m. at 8 a.m.; Wind velocity 10 m.p.h. Sun sets today at 7:37 p.m. Moon rises Friday at 3:51 a.m. Moon sets Friday at 12:15 a.m.

**Downs Temperature**  
8 a.m. 50 11 a.m. 52 2 p.m. 54 5 p.m. 52 8 p.m. 50 10 p.m. 48 12 a.m. 46

**Wednesday in Pontiac** (As recorded downtown)  
Highest temperature 52  
Lowest temperature 46  
Mean temperature 49  
Weather—Fair, cool.

**One Year Ago in Pontiac**  
Highest temperature 71  
Lowest temperature 48  
Mean temperature 59  
Weather—Fair.

## Campfire Girls, Elks Observe Flag Day Here

The local Campfire Girls Organization will join with Pontiac Elks Lodge 810 in a program designed to bring about a widespread observance of Flag Day June 14 in the city.

Adult leaders in the Campfire group are being asked to launch programs in their individual groups to stimulate neighborhood awareness of proper handling of the flag and the true meaning of Flag Day, said County Clerk Lynn D. Allen, Elks Americanism chairman.

The Elks plan a citywide contest which will see a savings bond awarded to the family or individual flying the best-displayed flag.

The annual Flag Day services are slated for June 15 at 8:30 p.m. in the Elks Temple with citizens naturalized in Oakland County during the past year attending as honored guests. Tickets are now available at the temple, said Allen.

## 74 Known Dead Left in Twisters' Wake

(Continued From Page One)

cars parked in the streets. The wind stripped trees of limbs and leaves. Telephone poles, broken at ground level, lay across the streets.

**NEWSMAN REPORTS**  
Charles Rollins, a photographer for the Wichita Eagle, gave this picture of the wrecked community:

"The downtown section was virtually wiped out. There wasn't a structure that hadn't collapsed, been blown away or severely damaged."

"Many persons were walking around in a dazed condition. Others were moaning as they awaited removal to hospitals. Countless automobiles were smashed and tossed on their sides."

"At one house I saw three persons removed as rescue crews held up the shattered roof of their home."

Rollins said he saw at least 20 or 25 injured persons placed in ambulances and other vehicles for movement to hospitals.

The town does not have a hospital of its own.

## Sign-Posters Herald Circus' Arrival Here

If you didn't know the circus was coming to town, you will after today.

A crew of sign-posters for the King Brothers and Cole Brothers Circus moved into Pontiac last night and today began plastering their gaudy, glittering, glamorous sheets all over the place.

The circus' one-day stand on Wallon boulevard near Baldwin June 4 is sponsored by the Junior Chamber of Commerce. It boasts a personnel of 700 people, according to Charles Underwood, advance publicity man.

Billed as the second largest circus in the country since combining with Cole Brothers, the circus will come here in three long car-

## Highway Measure Goes to Governor

(Continued From Page One)

one-third of the 25 per cent and counties would receive two-thirds. Forty per cent of the state's share would be used for construction of superhighways through and around cities.

The state's share would also be used to develop a network of superhighways on specified state trunklines and interstate highways.

In addition, truck license fees would be hiked some 10 per cent. Arch foe of the plan, Rep. Emil Peltz (R-Rogers City), said supporters of the bill will be "embarrassed" to face the folks back home.

**FOR PRESENT PLAN**  
Peltz, chairman of the House Roads and Bridges Committee, had led a group which insisted the present distribution formula should be retained.

This gives 44 per cent of highway funds to the state, 37 per cent to the counties and 19 per cent to the cities.

That formula will still be used in distributing the bulk of the gasoline tax, the 4½ cents per gallon motorists now pay.

The efforts to pass a road program provided the bitterest running battle of this year's session, with a series of plans going down in defeat before the success of the one sponsored by Coleman.

Two weeks ago, many supporters of the Coleman Bill predicted it too would die, bottled up in the unfriendly House Roads and Bridges Committee.

**DYING BILL SAVED**  
Then, in a move that wrote legislative history, a small group of Republican "Young Turks," headed by Rep. Thomas M. Burns (R-Saginaw), pushed through a motion that yanked the dying bill from the hands of the committee.

It was this move that turned the tide for the Coleman Bill.

## The Day in Birmingham

### City, Homeowners Move to Halt Shopping Center

**BIRMINGHAM**—Residents and city officials were on record today as opposed to the planned construction of a shopping center on property adjacent to the Derby Junior High School now being built.

Some property and home owners in Birmingham and Troy Township, meanwhile, circulated petitions requesting a change in the zoning law.

The dispute centers on a 10-acre area bounded by Adams Road, Derby and the Grand Trunk Western Railroad. The property is owned by developer Arthur Nechman and H. F. Meyer, of Birmingham. They said the center would be "very high class."

Earlier this month the Troy Township Board approved a board of appeals recommendation that the property be rezoned from multiple dwelling to commercial.

A 20-store shopping center is slated to be built on the property which borders Birmingham and lies near the junior high. Construction of the \$2,200,000 school got under way this week, and is scheduled for completion for the 1936 fall term.

#### RESOLUTION SENT

The Birmingham Planning Board, at the request of the City Commission, drew up and forwarded to the Oakland County Zoning Coordinating Committee a resolution yesterday outlining the city's stand on the matter.

The resolution said the proposed shopping center was not needed since it would be located "within three-quarters of a mile of the central business district," since Adams is so narrow that access to such a center would be "very hazardous," and the increased traffic volume and congestion "will greatly endanger the lives of pupils" who will attend classes at the school.

Three residents in the area—W. H. Stephens, 692 N. Adams; M. G. Hamman, 740 N. Adams; and Don Forrester, 626 N. Adams—have appealed directly to the Troy Township Appeal Board for a rehearing on the case.

The City Planning Board will ask the City Commission for permission to take over property south of Shain Park for construction.

tion of a 100-car parking lot. It was learned today.

The property, the north half of the two blocks between Chester and Henrietta on Merrill, would provide off-street parking for persons visiting the Community House, library, post office and stores, according to planning director Robert Boatman.

Persons living in the southern half of the two blocks would not be affected. In addition to back yards, a 40-foot buffer strip would be provided between the yards and the parking area, Boatman said.

George E. Baldwin

Rosary will be said at 8 p.m. tonight at Bell Chapel of the William R. Hamilton Co. for George E. Baldwin, 66, of 4831 Old Orchard Trail, Orchard Lake, who died yesterday at the William Beaumont Hospital following a prolonged illness. Requiem Mass will be read at 10 a.m. tomorrow at St. Hugo-of-the-Hills Catholic Church. Burial will be in Lincoln, Ill.

Mr. Baldwin, an Orchard Lake and Birmingham resident for the past 35 years, was former vice president of the Fuel Oil Corp., owner of the Baldwin Gas and Oil Co., Detroit, and was Michigan manager of the Sinclair Refining Co. until his retirement in 1933. He was a member of St. Hugo church, the Detroit Athletic Club and the Orchard Lake Country Club.

Surviving are his wife, Hilda F.; three daughters, Mrs. P. J. Carey of Coldwater, Mrs. R. S. Wilson of Pontiac, Joan at home; two sons, George of Tawas City, Don at home; three stepdaughters, Mrs. C. E. Reutter of Rye, N.Y., Miss Heidi Flannery of Detroit, Miss Sheila Flannery at home; two stepsons, Richard and Michael Flannery, both of Birmingham; 14 grandchildren, two brothers and one sister.

**John Robertson**

Service will be held at 10 a.m. Saturday for John Robertson, Pontiac, at the Manley Bailey Funeral Home, with burial in White Chapel Memorial Gardens Cemetery. He died yesterday.

A retired carpenter and former Birmingham resident, Mr. Robert-

son was 96. Survivors are three sons, David of Hemet, Calif., Gilbert of Pasadena, Calif., John of Joliet, Ill.; one daughter, Mrs. Calista Lindsay of Ontario, Canada; two grandchildren and four great grandchildren.

### Prof Finds Farm Folks Are Like City Slickers

**GRAND RAPIDS**—Prof. Arthur Mauch of Michigan State College says scientific research in agriculture has changed farming from a "way of life to a way of making a living."

The city limits sign today is merely a tax boundary, the pro-

fessor says. "It is no longer a cultural boundary, a recreational, educational, social or economic boundary. The same kind of people live on one side as on the other."

"The country 'hick' of a generation or two ago has almost disappeared from the American scene."

### Pupils Are Paired

**KEARNY, N.J.**—They come to classes in pairs at the Roosevelt School—11 sets of twins. The 508-pupil school has five sets of double-trouble boys, one girl duet, and five brother-sister teams.

### Rotarians Give \$1,300 to City Parks-Recreation

The Pontiac Rotary Club today presented a \$1,300 check for playground equipment to the Pontiac Parks and Recreation Dept.

Following a tour of the new City Hall, club members gathered in the City Commission chamber and presented the check to Mayor William W. Donaldson.

The donation will go toward equipping a new city park at Wessan and Walnut Sts.

German trains have telephones which can be connected with the German telephone system.

## New Child Welfare Worker Appointed

Suzanne Jarvis has been named to replace Mrs. John Kabana, as a child welfare worker in the Oakland County Juvenile Department, according to Director of Juvenile Services James W. Hunt.

Miss Jarvis, of Lathrup Village, will work mainly with parents wishing to adopt children. She has been employed by the Oakland County Bureau of Social Aid.

Mrs. Kabana is retiring from

county work after four years service, said Hunt.

## Spanish War Veterans Plan Memorial Service

Members of Capt. David L. Kinkead Camp No. 51, United Spanish War Veterans, will assemble at the Veterans Plot in Perry Mt. Park Cemetery at 10 a.m. May 30, to pay homage to veterans of all wars.

Announcement of the meeting was made today by Cmdr. Charles Austin.

## Threat of Straits Strike Worries Holiday Drivers

LANSING—As Michigan prepared for the Memorial Day weekend, motorists were turning anxious eyes toward the Straits of Mackinac.

The State Civil Service Commission has decided to wait until June 17 before making any decision on wage demands by the

men who sail the state ferries at the Straits.

The ferry employees set a Friday deadline for an answer to their demands and there was some talk of a strike over the busy weekend.

Control cattle grubs by rubbing 3 1/2 per cent rotenone dust well into the backs of the cattle once a month from now through May.

## Paralytic Wins College Degree

Man Who Lost Use of Legs Graduating From University

LOUISVILLE, Ky. (U)—Nobody told Charlie it was time to quit. They could have seven years ago. What chance have you when you become paralyzed from the chest down? How can you go to school when you can't walk?

Charles L. Whitmarsh Jr., now 25, answered these problems and many others.

On June 5, he will be graduated with second honors from Speed Scientific School at the University of Louisville and one month later will start work on a master's degree.

Obviously, Charlie has come a long way since that day in August 1948 when he and a friend were sleeping in a truck near Ocala, Fla.

A passing auto smashed into the truck, knocking it 183 feet and breaking Charlie's back.

Told he would never walk again, Charlie learned to swing himself along on crutches and to operate an auto with hand controls.

In 1951, he re-entered Speed, where he had completed one year of chemical engineering.

His long, hard road is almost finished. Waiting for him at the other end on Nov. 23 will be a bride—Miss Shirley Eddleman.

## Bentley Gives Michigan Beans to Colleagues

WASHINGTON (U)—Beans from Bentley went to members of Congress yesterday. Rep. Bentley (R-Mich) gave 868 pounds of No. 1 white Michigan beans to fellow representatives.

With each 2-pound package went a copy of the House restaurant recipe for bean soup, which has been served every day since 1904. The recipe:

Cover two pounds of No. 1 white Michigan beans with cold water and soak overnight; drain and again cover with water. Add a smoked ham hock and simmer four hours until beans are tender; add pepper and salt.

Just before serving mash up beans enough to cloud.

## Say Truman Refuses Invitation to U. N.

UNITED NATIONS, N.Y. (U)—Informed sources said last night that former President Truman has declined a State Department invitation to speak at next month's 10th anniversary session of the United Nations in San Francisco.

Truman, who is at his home in Independence, Mo., was not immediately available for comment. He had been invited to the June 20-25 meeting along with a number of other persons who played important roles at the 1945 San Francisco conference which adopted the U.N. Charter.

The sources said Truman gave no reason for his refusal.

## Loretta Recovering

OXNARD, Calif. (U)—Loretta Young is winning her six-week bout with peritonitis, an inflammation of an abdominal membrane, her friends report. She is still in St. John's Hospital here, but a close friend said she gained six pounds in the last week and "would have been out of the hospital now if she hadn't been so tired."

## Michigan Needs Fine Mansion for Governor

Currently we hear two proposals for a Governor's mansion in Lansing. One suggests popular subscription. The other contemplates a home out of tax money.

The Pontiac Press strongly urges a beautiful building for the Executive of this State. Michigan is one of the largest states in the Union and one of the most prosperous. We have failed miserably in not providing our titular head a home that is commensurate with the dignity of his position.

It's time to act. This is an era of building. Michigan should lay plans immediately for a handsome Lansing domicile of sufficient size, importance and furnishings. To us, the financing is cut and dried. It should be tax money.

The Press is absolutely opposed to "passing the hat" to build an adequate residence for G. Mennen Williams and his successors. This smacks of timidity on the part of the lawmakers and even bad manners. Why should individuals be approached to "donate" for a Governor's mansion? We weren't asked to dig into our personal pockets for the White House. It's a matter for ALL the people and not just those who are approached and solicited. Governor Williams and those that follow shouldn't be subjected to the indignity of living in a house that was erected by tin cup methods.

This residence should have been built years and years ago. Perhaps the fact we failed can now be a blessing in disguise. Michigan is more prosperous than she was a quarter or half century ago and she can "do better" by the elected head of this great Commonwealth.

## 425 Highway Fatalities Forecast Next Weekend

Are you planning a motor trip for the Memorial Day weekend? If you are, take note of the ways you can avoid being one of the 425 traffic fatalities predicted for the three day period.

According to the Association of Casualty & Surety Companies, you can avoid death by observing a few common sense safety rules and practicing courtesy behind the wheel.

Association records show that of the predicted 425 deaths, 170 will be directly due to excessive speed. Driving on the wrong side of the road will kill 85 others. Another 64 will pay with their lives for the mistake of reckless driving.

There will be 43 persons killed because of failure to yield the right of way. Sleeping at the wheel will end the careers of 25 motorists, and 38 will be killed because of miscellaneous bad judgment.

About one-fourth of drivers who are involved in fatal accidents, or pedestrians who are killed, will have been drinking. Equally startling, most smashups will take place on straight, dry roads and almost half of all fatalities will occur in broad daylight.

Whatever your plans for the weekend, be sure to drive at a reasonable speed. Remember the purpose of this holiday is to honor our heroic dead, not to join them.

A letter to a newspaper began, "Under them new fangled methods of teaching my kids ain't learning hardly nothing about spelling, punctuation and grammar."

## Faith and Achievement

There is an inspiring lesson on the relation of faith and achievement in the life of MARY McLEOD BETHUNE.

This amazing Negro leader was the 15th in a family of 17 South Carolina, children of slave parents. Start of her formal education was delayed until her 11th year. Fierce determination to learn and strong religious convictions enabled her to work her way through the Moody Bible Institute.

From then on Mrs. BETHUNE played an important part in the great progress made by her people. While serving the National Youth Administration in 1935 as director of Negro affairs, she organized the National Council of Negro Women.

In her efforts to secure equality of opportunity for Negroes through this organization she won the love and devotion of its 800,000 members. She also had served as vice-president of the National Urban League.

Undoubtedly Mrs. Bethune was most widely known as the founder of Bethune-Cookman College, Daytona, Fla. Started on her faith and cash capital of \$1.50, this one time training school for girls has become a well known and respected educational institution.

Though death at 79 ended her long and unselfish career, the faith and achievements of MARY McLEOD BETHUNE indeed are an enduring memorial.

TODAY's informative item: No matter how fast a bird flies, he doesn't sweat.

## The Man About Town Friendly Rivalry Between Oakland County Townships Now Booming

Pontiac: A name that gives its residents a big start when away from home, for everybody knows of the chief and the car.

Every Oakland County booster likes the rivalry between its so-called "rural" townships, Waterford and Southfield. Without incorporated cities or villages of any proportion within their borders, their combined population is approaching the 75,000 mark. With three million dollars in home building permits issued in Waterford during the past three months.

Supervisor Lloyd Anderson wonders if any other similar area in the entire nation can beat that. And Supervisor William Roeser of Southfield is willing to agree with him if he'll just admit that Southfield is a heavy contender for like honors.

The local council of the Boy Scouts still has five vacancies on its quota for the Philmont Camp in Arizona in July. According to Mason Case, chairman of the committee, the boys leave July 2 by special train, spending two weeks at this world famous camp. The total cost is \$148, and only Explorer Scouts are eligible. Phone PE 4-2509.

The actual statistics show that the safest place in an electrical storm is in your automobile. The most hazardous place is under a tree.

Two Oakland County residents, Mrs. John H. Hunt of Birmingham, and Rene Cook of Berkley, have prominent parts in connecting the history of Michigan's leading producer of maple syrup, Vermontville, with the State of Vermont, from which it derives its name.

"Mickey," the family cat in the home of Mrs. Audrey Mashburn of Clarkston, is particular about his drinks. He takes them only from the tap at the bathroom wash bowl, climbing on a stool to lick at the running water.

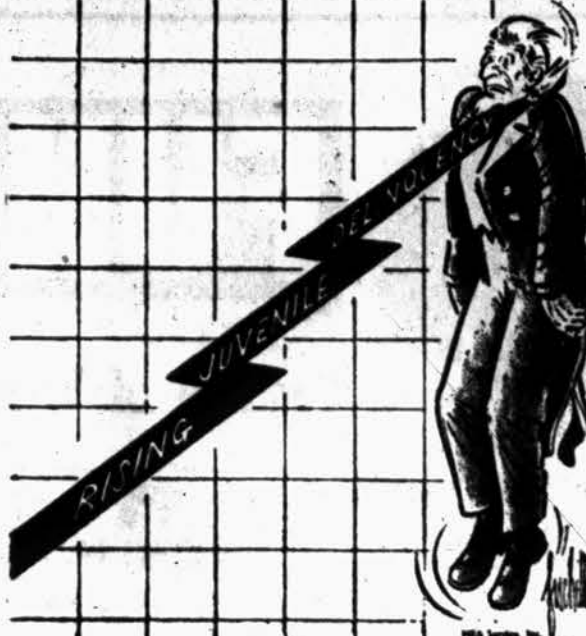

My North Oakland scout sends word that Stan Mastick of Pontiac has bought the White Oaks Tavern just north of Oxford.

Gas stations are the sources of all kinds of information, and receive some peculiar requests. This was learned by Harvey Griswold of 12 Gingell Court, who fixed up a toy station to amuse the youngsters of the neighborhood. One "customer,"

Jimmy Kinney, the four year old son of Mr. and Mrs. Wallace M. Kinney of 39 Gingell Court, rode up on his tricycle and ordered "two thousand pieces of gas."

Verbal Orchids to—

Charles Hendricks of 99 South Jessie St.; eighty-sixth birthday.  
 Mrs. Lela Miller of Lake Orion; ninetieth birthday.  
 Mrs. Ransom Armstrong of Milford; eightieth birthday.  
 William Barber of Durdan; eighty-first birthday.

## Where Do We Go From Here?

David Lawrence Says:

## Peace Talk Dulls People to Reality of Red Threat

LONDON—Now that the British election campaign is over, this part of the world and maybe America, too, can turn from illusions and wishful thinking to realities.

For there is no question but that the build-up of the last several months toward the contest for control of Parliament has colored the pronouncements of policy with an eagerness to convey the impression that peace was just around the corner.

So much has been written in the editorials of the newspapers here about a possible "relaxation of tension" that it has become a daily bromide designed to make the people believe that by more talk and by four-power conferences something tangible is being accomplished.

The other day in Paris, when this correspondent asked Charles E. Bohlen, American ambassador to Soviet Russia, whether he noticed any relaxation of tension, he smiled and countered with a question of his own: "What do you mean by 'tension'?"

FACT VS. FANCY  
 This query seems to me to be quite penetrating. For afterward, as I began to wonder how one does measure the increase or decrease of tension in the world, it seemed to me that it all depends on whether unpleasant truths are faced or the facts are glossed over, as, for instance, in a political campaign like this one or in the preliminary stages of our own campaign of 1956.

The world-wide situation has in it just as many factors of danger as it had in June 1950, when the aggressors broke loose in Korea. By the use of the phrases "cold war" and "hot war," many people are given the impression that as long as the "cold war" stays cold there cannot be any "hot war" and that hence peace is here and likely to stay.

But a careful look around the world reveals that the "cold war" contains all the potential ingredients of a "hot war."

Thus, as one surveys what is happening inside the Western countries, the picture of a relentless enemy penetrating country after country with his agents comes into focus. Across the northern tier of Africa in Algeria, in Morocco, and in Tunisia which must provide us with military bases, there is internal trouble under the phony banner of "nationalism."

"ANTI-COLONIALISM"  
 Aided and abetted by glib talk of "anti-colonialism" in America, the agents of the Communist military apparatus stir up rebellion and bloodshed.

It's the same story in Asia, where riots in Singapore recently revealed how insidiously the People's government is using overseas Chinese now to foment dissension. It is an open secret that the Communists can take Malaya from the British any time they want to do so. It is well known that Red China is making a close alliance with Indonesia, where a Communist sympathizer rules as a dictator.

India has been afflicted with "neutrality" and her Krishna Menon plays a crafty game for the Communists on the diplomatic front. It's all part of the so-called "cold war."

In Europe the military situation is worrisome. Austria has been detached from the West as a military base and Yugoslavia wants the same status. Italy is weak from Communist activity inside her political structure, and France is torn with political warfare fomented in large part by the Communists. The whole panorama is one that may well fill realists with concern.

LATEST MISCHIEF  
 On top of all this is the latest example of the mischief provoked by the presidential press conference idea. Eisenhower answered offhand last week a simple question about a belt of neutral states being developed in Europe.

He didn't say he favored it, and it was obvious he was descri-

## Voice of the People

## Pontiac High Coaches Thank Residents for Support of Championship Track Team

Letters will be condensed when necessary because of lack of space. Full name, address and telephone number of the writer must accompany letters but these will not be published if the writer requests unless the letter is critical in its nature.

As coaches of the Pontiac High School Track Team, we would like to voice our collective thanks to all the people and organizations that have contributed their time and effort to help produce the 1953 State Championship team.

Our hats off to the Pontiac Press with their never failing interest and coverage, to the Junior high school coaches who help mold character and ability, to everyone connected with the Kiwanis-sponsored Junior Olympics held on alternate years, and to the Board of Education, suppliers of our equipment need.

"The whole equals the sum of its parts." Again our humble thanks for your assistance.

Wallace Schloerke  
 Dean Wilson  
 Ray Lowry  
 Ed Graybill.

## Mrs. Patterson Regrets Long Lake Road Project

A drive today along West Long Lake Road from Telegraph Road to the shores of Orchard Lake is a heart-breaking experience.

The Oakland County Road Commission is resurfacing the road and widening it a few feet, in a distance of about six miles, over 600 trees either have been or are being destroyed.

Many of these trees were part of the forest that once covered the area, left by early settlers to border and shade the road when they cleared their land. These trees were not sick. They were, until destroyed, beautiful and made this road one of the most pleasant to drive in our county.

## Portraits

By JAMES J. METCALFE  
 Why do you hunger for revenge . . . When someone hurts your heart? . . . Why do you keep on hating him . . . Who played the traitor's part? . . . Where is your sense of kindness and . . . Forgiveness of attitude? . . . Or do you lock an iron gate? . . . To guard your selfish mood? . . . Perhaps you tell yourself that you . . . Can even up the score . . . And maybe you believe that you . . . Deserve a little more . . . But why get even with your foe? . . . What does it mean to you? . . . When probably the thing he did . . . He never meant to do? . . . Why not forgive him and forget . . . And turn the other cheek . . . As all the earth is promised you . . . If only you are meek? (Copyright 1955, New York Herald Tribune Inc.)

## Case Records of a Psychologist

## Success in Marriage Is No Accident; Depends Upon Following Right Rules

Any normal girl can soon become an excellent cook simply by following the recipes in a good cook book. You can also become a successful wife or husband simply by following the psychological rules offered in connection with this scientific column.

By DR. GEORGE W. CRANE  
 Case O-340: Hilda M., aged 39, is the mother of Norma who was described yesterday as fearing her parents would get a divorce.

"Dr. Crane, we were supremely happy the first 10 years of our marriage," she admitted. But during these past 10 years things have drifted along until our marriage is one of convenience only.

"My husband and I are almost total strangers now, but stay together for the sake of Norma."

"Just what caused this state of affairs, I don't know. Whether my husband has been unfaithful to me, I do not know, nor care."

"Four years ago in my desperation I took a lover who was several years my junior. But he insisted that I divorce my husband and marry him."

"I refused, for Norma's sake, so our affair broke off. I am emotionally starved and have ever since then, for my husband leaves me to my own social devices for weeks and months on end."

HE ACTS INDIFFERENT  
 "He seems to have no apparent interest in my love life and acts indifferent. He neither kisses me nor indulges in those little gallantries that warm a woman's heart, such as bringing me flowers and candy, or surprising me with a gift or a theater engagement."

"Dr. Crane, I have read your column and know that you urge wives to throw off their normal feminine passivity, and become more seductive."

"But I want my husband to take the lead in showing me love. I find that my husband is either ignorant or indifferent."

"Even during our earlier years

of marriage, he failed to try to satisfy me in the same measure as he wished to be satisfied."

Isn't it tragic that Hilda and her husband have wasted 10 years of happiness that they might have had? And they meanwhile have upset their daughter's emotions by failing to give her a home where her Daddy and Mother show her they love one another.

"But how could we have avoided our trouble?" Hilda challenged.

HOW TO AVOID TROUBLE  
 By ordering the "Test for Husbands" and "Test for Wives" via this newspaper and then resolutely patterning their daily behavior accordingly.

By sending for the frank medico-psychological bulletin "Sex Problems in Marriage" and applying the information contained therein.

By becoming active together in some live wire church of their preference.

By joining the "Compliment Club" and being very liberal each day with praise for each other.

By going through the physical motions of love, such as kissing each other as if they meant it, for "if you go through the proper motions, you will soon begin to experience the corresponding emotions."

Success in business or in marriage is not an accident. It follows the correct application of the proper formulas.

For centuries we did not have all of the essential formulas for happy marriage, or at least we didn't have them reduced to written form.

FOLLOW THE BLUEPRINTS  
 But now we can give you written blueprints, tested and proved, by which to rear your children so they will be good marriage prospects, considerate of their mates and accustomed to verbalizing their love by frequent compliments.

The pavement on this road has worn out through years of service. In fact, it was one of the first, if not the first, paved roads in Oakland County. To old settlers, the road was known as the "Auto-mobile Road," because it was over this road that early automobile owners made their runs out into the country from Detroit.

The surface has been worn out for several years, and yet many people have been glad for the pleasure of driving this scenic, tree-lined road, putting up with its rough pavement and pit holes rather than drive the broad, straight concrete stretches available.

Hal Boyle Says:

## Expectant Author Better Than Unsuccessful One

NEW YORK—Anybody can be an unsuccessful author.

All you have to do is sit down and write a book.

If nobody publishes it, you are automatically unsuccessful. And if somebody does publish it, the odds are at least 99-1 you still will be an unsuccessful author.

Successful authors are as rare as successful inventors. Whether successful or not, actual authors tend to be melancholy, dyspeptic individuals ridden with a feeling of persecution. They are sure their publishers are scoundrels, and that the entire world is linked in a gigantic conspiracy to drop their latest book down a deep dark well of silence.

The real way to win happiness in the literary field is to become an expectant author—and remain one. An expectant author is one who has a book in mind, or partly under way, but never quite gets around to finishing it. He has all the pleasures of authorship, but suffers none of its pangs or penalties.

I have been an expectant author for 20 years now, and can't think of a more satisfying hobby. It brings you much more prestige and personal satisfaction than if you actually did bring out a book.

The most wounding question an actual author hears—and he hears it all the time—is the blunt demand: "How is your book doing—how many copies has it sold?" This is like asking a proud young mother how many teeth her baby has when it still has none at all.

An expectant author writes under no such torture. His brainchild never has to suffer the insulting verdict of the market place. The most direct question anyone can ask him is, "when is

your book actually coming out?" And you can easily parry this by frowning and replying, "not until I polish up that last chapter, I'm afraid."

But, by and large, people are amazingly solicitous toward an expectant author, just as they are toward expectant mothers. He usually gets nothing but sympathy.

Since you have got around that he "has a book under his skin," he is invited to the literary teas and cocktail parties and meets real authors and publishers on equal terms. They may be morose and worried over book sales, but such affairs are a real delight to him. Writing a book is hard work, but talking about writing a book can be quite relaxing.

As a matter of fact, over the years people get mixed up about your actual status. You have been an expectant author for so long they forget this and come to believe you have written a number of books and are a successful author. They even become a little jealous of you. I never try to correct this impression.

The safest subject to talk about when you are merely a potential author is book titles. Every author has trouble with titles.

"Don't know quite what to call my little opus," you say, offhand. "I rather lean to 'The Hill of Ecstasy,' but I suppose it will probably end up 'Joy Swamp.'"

But conversation at a literary tea can sometimes get you in dutch. During one such gathering someone asked me what I was working on, and on the spur of the moment I answered airily:

"Oh, I'm toying around with a little volume on self-improvement. I think I'll call it 'How to Be a Man in a Woman's World.'"

"Sounds good," said a publisher. "Let me have first look at it, will you?"

Well, believe it or not, I had the very devil of a time getting rid of that publisher. He kept hounding me for months to deliver the book.

That's the biggest danger an expectant author meets—a publisher who actually wants him to sit down and really write a book. This is a temptation it is necessary to fight down manfully, or your whole way of life will be ruined.

If you want to stay a happy, cheerful, well-balanced expectant author, you have to make up your mind firmly to take the credit—let the cash go. Publish a book and you merely become another one of the herd.

I doubt it.

The third argument of a throat specialist in defense of tonsillectomy (his own words) we printed the first, second, and fifth here the other day, is this:

THIRD ARGUMENT  
 3. Partial removal of surface tonsil tissue is frequently followed by the inclusion of the remaining tonsil tissue in a bed of scar tissue, which, preventing surface drainage, may cause more local infection and systemic absorption than if no operation had been performed.

This is a fine hypothetical objection to tonsillectomy, but in actual practice physicians have found virtually no evidence to sustain the idea.

FOURTH ARGUMENT  
 4. Your assumption that the tragic complication of cardiac arrest is attributed to tonsillectomy seems to me unjustified. Cardiac arrest is known to follow a wide range of other surgical operations . . . It has followed administration of an anesthetic alone, before any surgical procedure had been undertaken.

That is true. However, when the heart stops beating (cardiac arrest) in the course of or immediately after tonsillectomy the doctor who advised or performed the operation, it seems to me, will ask himself ten thousand times:

Was the major operation really necessary?

Second letters, not more than six pages or 10 words long, pertaining to personal health and hygiene, sent to Science, Dieting, Dr. William Brady, P.O. Box 100, Pontiac Press, Pontiac, Mich., will be answered.

Was that major operation really necessary?

(Copyright 1955)

Today I received another newspaper item such as readers send me from here, there, and everywhere—an item headed "3-Year-Old Is Dead After Tonsillectomy."

The child died suddenly in . . . hospital, after a tonsil and adenoid operation.

Although I haven't encountered them, I do not doubt that fatalities have occurred from extraction of a tooth and from tonsillectomy. If so, they must be extremely rare.

## World's Fastest Six Men Predict Speeds Up to 9,000 M.P.H. in 1965 Model Planes

WASHINGTON (NEA) — Ten years from now man probably will be flying 9,000 miles per hour—and undoubtedly will be flying more than 9,000 miles per hour.

Predictions like this are easy to make, and in these days of great scientific advances you hear them all the time.

But what's unique about this set is that they are made by six men who are as qualified as anyone in the world to predict on this subject.

### FASTEST HUMANS

They are the considered opinions of the six fastest humans alive, the top test pilots of the U.S. and Canada who were assembled for the Annual Aero Medical Association meeting to report on the human problems of extreme speed and altitude flying.

The speed in 1965 of 9,000 mph is estimated by Major Arthur Murray of the Air Force. He holds the world's altitude record, which is unofficial because it is classified as a military secret. But it's reliably reported that he has flown beyond 90,000 feet up in a test aircraft.

He thinks that within 10 years the "thermal barrier" will be conquered and that engines will be powerful enough to make planes fly that fast. The thermal barrier is the extreme heat caused by the friction of plane against atmosphere.

These six pilots are more than daredevil sky jockeys who love to go fast. They're also top scientists who not only have to fly experimental planes with extreme skill, but have a complete understanding of the scientific problems they encounter in extreme flight conditions.

### HAVE EXPERIENCE

That's why they speak with both knowledge and experience on future aircraft speeds.

Maj. Murray's prediction is backed by Bob DeHaven, top test pilot for Hughes Aircraft Co. He says that research planes are almost reaching 5,000 mph now in terms of having licked the big problems of such speeds. More powerful engines, now being developed, are all that are needed, he says.

Scotty Crossfield, test pilot for the National Advisory Committee for Aeronautics, is the first man to have flown faster than twice the speed of sound. (Mach 1 is the speed of sound, which is about 725 mph at sea level.)

He is more conservative than Murray and predicts that by 1965 planes will be flying in the region of Mach 7, or more than 5,000 mph. And this opinion is shared by Lt. Col. Frank Everest of the

**SKY JOCKEY'S HORSE** — Jet planes like this one make American fliers the fastest men in the world today. And future developments promise even greater speeds.

Air Force and Robert Rahn, test pilot for Douglas Aircraft Co.

### SEES 9,000 MPH

The sixth man of the group, Don Rogers, chief test pilot for A. V. Roe of Canada, believes that Canadian and U.S. fighter planes will be flying regular missions faster than 2,500 mph and that test planes will be pushing the 5,000 mph area 10 years from now.

The only major gripe which the six pilots registered about their unique jobs was the uncomfortable gear which they had to wear when flying at excessive speeds and altitudes.

"During World War II it was fun flying because you just had shorts under your flight suits," says Rahn. "Then they made you wear pants, then oxygen masks, then G-suits and now pressure suits until your efficiency in the cockpit is almost cut in half," he complains.

Despite the increased gear test pilots must wear and the increased strain of flying higher and faster, the six men agreed that the human body is capable of withstanding flights up to 9,000 mph.

### BODY DURABLE

"If all of your special equipment is working and you don't make radical maneuvers the human can stand any speeds that they can build into machines," says Rahn.

And Crossfield adds: "They can put a mechanical brain in a guided missile and have the missile perform one mission, but they can't put a mechanical brain in an airplane which will anticipate problems. Nor can they get a machine to discriminate between several choices of actions when discrimination is needed."

## Agricultural Grads Face Rosy Future

URBANA, Ill. (UP)—In the next five years there will be two jobs for every agricultural graduate, according to experts at the University of Illinois.

Openings will exist for extension specialists, salesmen, sales managers, agricultural engineers and especially vocational agriculture teachers, according to H. W. Hannah, associate dean of the university's agricultural school.

Hannah said the university has the equipment and facilities for training 50 per cent more agriculture students than are now enrolled.

Average yearly salaries for agricultural graduates engaged in educational work range from \$3,700 to \$9,000, he said. Annual salaries for agricultural grads in business and industry have been averaging \$8,500 and those in farming and farm management between \$5,500 and \$8,500.

## U.S., Canada Plan to Teach Border Laws

BUFFALO, N. Y. (UP) — A joint education program aimed at curbing smuggling and illegal alien traffic along the Niagara frontier is planned by Canadian and American authorities.

Target of the project will be owners of pleasure boats that ply between the United States and Canada across Lakes Erie and Ontario and the Niagara River. Under present plans, representatives of both countries will speak at yachting and boat clubs to explain laws governing such craft.

Customs Collector Harold R. Becker pointed out that all vessels under five net tons carrying baggage and merchandise and arriving from Canada through inland waters are required to report to Customs under penalty of a \$300 fine.

Commercial craft of five net tons or more must report to the collector within 24 hours of their arrival and make formal entry within 48 hours, Becker said.

The program was mapped after a survey of potentially dangerous loopholes in border enforcement made last fall by the U. S. Bureau of Customs and other federal agencies.

## Names Pups in Divorce

CAMBRIDGE, Mass. (U) — Mrs. Myrtle McCormack got a divorce after she testified her husband insisted that a litter of eight puppies sleep at the foot of their bed.

## Everyone to Own Likas

INDIANAPOLIS, Ind. (U) — The telephone directory has Grandma's Kitchen listed right over Grandpa's Liquor Store. They are not located near each other, however.

## Fun in the Sun

## Dining Room Unused, Folks Eat Outdoors

**COLD LUNCH** — For hot days include shrimp salad with sour cream, avocado pear, sliced tomatoes, cucumbers, radishes, carrot sticks and a cold drink. For all of these, matching paper cups and plates in Floral Dot pattern.

During spring and summer, the dining room in most American homes becomes a haunted, gloomy place. The table gathers dust, the rug doesn't get swept, the tea service tarnishes on the sideboard.

Where is everyone? Eating outdoors, of course. While telephones ring their little receivers off, the family downs three meals a day on the porch, the patio, the front stoop, the backyard or the roof.

And because of the tremendous trend toward eating in the open air, many families now have whole batches of accessories that they use only when they transport the meal center out of the dining room.

Many families have wisely discovered the advantages of plastic dinnerware. Because of the longer trek from the kitchen and the eagerness of kids to help when there's outdoor eating in the offing, there's a lot of breakage of conventional china or pottery.

**PLASTICS HANDSOME**

Dinnerware such as Melamac, made by American Cyanamid, comes in complete settings, plates to coffee cups. This is ware that's designed as handsomely as china, yet is sturdy. For serious sit-down eating, with the accompanying chatting over coffee, it has the advantages of both china and paperware.

**CASUAL WAY** — Easy eating and easy living, too, if paper cups and containers are used for the patio picnic. Grilled olive hamburgers, potato chips, ice cream and frosted cupcakes are on the menu. Ice cream stays hard in a paper bucketful of ice.

makes a collection of fancy buckets and pails that could hold salads or pickles for self-service. A large paper pail will hold ice to keep the ice cream cold.

Cold and hot cups now come to match the plates for a unified-looking place setting.

**DINE BUFFET-STYLE**

In addition to individual settings on tiny tables and the sagging board of the mass picnic, the most natural kind of eating outdoors is buffet style.

Depending on the outdoor cooking equipment you have, you can either wheel the prepared food out on a cart or wheel out the makings and a rotisserie or barbecue cart.

Don't forget a good big stack of paper napkins or bibs. If the eating's messy, in addition to the salt and pepper you always overlook.

Keep a large wastebasket outside, it's as important as the food. This way, the paper plates, cups and napkins can slide right in without littering the lawn or neighborhood.

**SAVE THAT SILVER**

The Paper Plate Association further suggests that you snag the silver off the empty plates, wrap it in a large paper napkin and store it unobtrusively away before the discarded plates slide into wastepaper.

To go with this, metal or plastic drinking cups that can defy dropping with as much ease as the plates.

Paper plates, of course, are naturals for outdoor eating. These days they're so indestructible that any kind of meal — breakfast, lunch or dinner — can be eaten off them without eating up bites of the plate, too.

For a luncheon for the girls, with bridge afterwards, eating under the trees is suggested. Use the nesting tables with pretty mats on them. Then serve up the meal at the last minute on the most ladylike of paper plates. No dishes this way, of course.

**FORMAL PATTERNS**

Paper plates and cups have progressed from the days that they were associated only with picnics. They come in pretty pastel shades, formal china-like patterns, Pennsylvania Dutch patterns, polka dots, plaids and wood grain, for those who like things natural looking.

But the progress is not only in looks. They now come in a 3-inch plate for entrees, 6-inch for bread and butter, 7-inch for salad or dessert and 8-inch for snacks. Plus a wonderful variety of cups, cartons and buckets.

Serving plates can be eliminated from the wash-up schedule with some new paper products.

Lily Tulip Cup, for instance,

**IN THE MOOD** — Perfectly appropriate for back porch dining are plastic plates and metal cups. There's little possibility of breakage in the trip from kitchen to porch. The shapes and patterns of modern plasticware make beautiful table setting.

**DINE IN YARD** — Stable table set on the lawn is of redwood and lightweight aluminum. The aluminum has a gold anodized finish that's colorful as well as rustproof. The contoured redwood is thin, yet almost indestructible.

**Hastings OK's Zoning**

**HASTINGS** — The city's first zoning ordinance, adopted Monday night by the city council, becomes effective on publication. Council Chairman Thomas Stebbins said the ordinance provides a master

plan for the orderly development of the municipality.

The adaptability of the common mallard has made it the chief wild duck of the world, for it will breed almost anywhere if unmolested and readily adapts itself to civilization.

## Clubwomen Reject 18-Year-Old Vote

**By RUTH COWAN**  
**PHILADELPHIA** — After lengthy discussion the General Federation of Women's Clubs has rejected a resolution calling for giving 18-year-olds the right to vote in elections.

It was the first time the resolution had come before the huge women's organization. It had strong backing but was beaten yesterday by a close voice vote.

The federation passed another major resolution—approving sex education in schools for youngsters and potential teachers.

The resolution recommending lowering the voting age from 21 to 18 was described by its backers as a move to encourage youth participation in community and civic affairs.

**Fifth District Group Named by Congressman**

**GRAND RAPIDS** (M)—Rep. Gerald R. Ford Jr. (R-Mich.) has appointed a nine-man group as the Fifth Congressional District advisory committee to the National Rivers and Harbors Congress.

The congress begins its 42nd annual convention May 31 in Washington.

The group is appointed to advise Ford on matters concerning the development and conservation of water resources in the Fifth District.

OUT OF THE MUD — View from the stern of the CSS Pee Dee shows dual fire boxes of the boiler and the network of beams in the hull.

### Sunk 90 Years Ago

## Civil War Cruiser Raised From Muddy River Berth

MARION, S.C. (AP) — The Confederate cruiser Pee Dee, which took three years to build and then made only one sortie of 100 miles, has been raised after lying in the mud of the Pee Dee River for 90 years.

The 170-foot steamship, hand made by slave and volunteer labor, was scuttled in April of 1865 to keep her from falling into Union hands at the end of the Civil War.

Today her hull lies on the banks of the Pee Dee River at Mars Bluff.

Some of her hand-hewn curved timbers are 14 by 16 inches. Think of a 2 by 4 and multiply it 7 times on one side and 4 times on the other. That will give you an idea of what a stout ship she was.

#### GAVE GEMS FOR SHIP

Women contributed their jewels to help build the ill-fated Pee Dee. She made only one voyage, from Mars Bluff to Cheraw about 50 miles upstream, to protect Hardee Crossing from Sherman's army while the Confederates were retreating.

Then Capt. Oscar F. Johnson of Virginia and his 50-man crew sailed the Pee Dee back to her birthplace. By this time the war was ending and the cruiser was sunk to keep her from falling to the enemy.

The salvaging job took seven weeks for 375 laborers and two

foremen. Three South Carolinians formed the Driftwood Corp. to do the job.

They estimate it cost them \$12,000 to \$13,000. It took Caterpillar tractors, recoil skidders, timber blocks, three miles of three-quarter inch cable and a lot of other equipment to raise the Pee Dee from eight feet of mud. The ship's boiler, hand made in Great Britain, weighed 45 tons. The ship was one of the first to use the Erickson-type screw propellers.

### Shows Relationship of Crimes, Alcohol

CHICAGO (UP) — Stabbings, assaults and the carrying of concealed weapons are "definitely crimes of alcoholic influence," a study sponsored by the American Business Men's Research Foundation shows.

The study was reported by Lloyd M. Shupe, police chemist at Columbus, Ohio, who tested 882 arrested persons for intoxication.

Persons arrested for stabbings were 11 to 1 under the influence of alcohol; for assaults, 10 to 1 under the influence, and for carrying concealed weapons, 8 to 1.

"Of those who were caught in the city of Columbus, during the past two years, during or immediately after the commission of a crime, 64 per cent were under the influence of alcohol to such an extent that their inhibitions were reduced," Shupe said.

#### Everything but the Sink

FORT WORTH, Tex. (AP) — Police think maybe this thief will sink back for the sink. First, the furniture disappeared from a north side rental house. Then the television antenna turned up missing. The sink's about the only thing left.

#### Permanent Volunteer

VERDIGRE, Neb. (AP) — Louis J. Bertak's job as treasurer of the Verdigre Volunteer Fire Department is a permanent assignment. Elected to the post for the 43rd year, he has held it since the department was founded in 1912. L. O. Marshall was re-elected chief for the 14th year.

### Men Can Annoy Wives — but Not Ex-Spouses

PITTSBURGH, Pa. (AP) — Married men may annoy their wives, according to a ruling by Judge Anne X. Alpern. Judge Alpern ordered John Chara, 44, to keep away from his divorced wife, Mrs. Chara com-

plained her former spouse kept calling her on the telephone and she objected to some of his remarks.

Judge Alpern, who is married, told Chara:

"You can annoy your wife if you're married to her but not if you're divorced!"

### Blames 'Coon in Crash

AUSTIN, Tex. (UP) — Jay Caldwell had a ready explanation when police asked him why his automobile left the road, smashed into a brick wall and overturned. He said that a pet raccoon, riding on his shoulder, gave him a friendly poke in the eye.

### Mayor Insults Guest With Welcoming Words

RICHMOND, Va. (AP) — The English visitor has departed and Mayor Thomas B. Bryan has resolved to keep his oratorical foot out of his mouth. His honor, introducing Michael Alcock of

Richmond, Surrey, England, to a Council meeting: "Mr. Alcock has no business here."

Then, trying to be helpful when the surprised visitor arose to say a few words, the mayor interposed: "No one has asked you to talk."

Bryan explained he just meant (1) Alcock wasn't on hand to ask

for anything, and (2) Alcock wasn't obligated to make a speech unless he wanted to.

It takes 400 electric motors, generators and other rotating electrical machines to operate the various power systems on one heavy bomber in the U.S. Air Force.

## Broad Hint:

The Party Breaks Up  
When Gleason Sleeps

By EARL WILSON

NEW YORK — Hoosier Herb Shriner's been plugging his harmonicas on TV, hoping to sell some. He confesses that so far 30 viewers have written in asking for "free samples."

Jackie Gleason gave an afternoon party at his 5th Av. penthouse and after an enormous dinner, both he and his mgr., Bullets Durgom, went to sleep. "I think we may take this as a hint," said one guest, "that the party is over."

I saw it chalk-scratched on a building in the 30's: "Boys Stink!" Can't you just see the little girl who wrote it — and picture her changing her mind in a few years? ... Democracy at Work: President Eisenhower's asked Manny Goldman, the "3 Gs" clothier of 14th St., to send him a new photo. He wants to paint a new portrait of him, being dissatisfied with his first.

City Manager Tommy Maxwell of Columbia, S.C.—here for the mayors' sessions — was astonished by Our Town. Phenomenon: a major razor company, he asked which of its offices was nearest his hotel. "Where are you staying?" he was asked. "At the Waldorf-Astoria," he said. ... And the man at the razor company inquired, "Where is that?"

Joey Adams tells about a rich B'wayite who was asked to give to a "good cause." "Good cause!" he shouted. "I got a bedridden mother 90 years old. Would you say that's a good cause?" "Sure," said the fund-raiser.

"I got an invalid brother unable to work 40 years. Is that a good cause? My sister's six children are starving. Are they a 'good cause'?" The fund raiser agreed. "So what're you bothering me for?" sneered the B'wayite. "I don't even help them."

"A fellow's a boy scout till he's 17. After that he's a girl scout!" — Bill Hensley, Wake Forest, N. C. ... Comedian Mac Robbins was heckled by a woman who yelled, "Why don't you talk slower?" He retorted: "Why don't you listen faster?"

Harry Hershfield's cutie about the girl who didn't know why she was so popular: "Is it my complexion?" she asked a guy. "No." "My figure?" "No." "My personality?" "No." "I give up." "That's it!"

When composer Vernon Duke asked his publishers (Little, Brown) why they had cut 200 pages from his racy autobiography, "Passport to Paris," they informed him "We've been in Boston over 100 years and we expect to stay here."

## THE MIDNIGHT EARL ...

Peter Lawford admits a secret ambition — to get a crew cut. ... CBS is having hush-hush meetings about a radical change in the Morning Show. ... Morton Downey, just elected a director in Gulf Coast Leashold, is reportedly good for \$1,500 a day.

Eva Marie Saint surprisingly won Motion Picture's No. 1 actress poll after only one film: Grace Kelly 24. ... Gretchen Wyler of "Silk Stockings" took off 10 pounds and looks dreamy. Marguerite Piazza'll do 15 weeks a year at the Las Vegas Sands for \$300,000.

Georgiana ("Life Begins at 80" Carhart's apartment was looted of the gifts she received on her 90th birthday. ... Father Divine's banned the mambo from his "heavens."

Danny Davis, of Eddie Fisher's publicity staff, quit to become captain of busboys at a summer resort. ... The networks are coaxing Kate Smith, who drew a mountain of mail on Jackie Gleason's replacement show recently. That's earl, brother. (Copyright 1955, Post-Hall Syndicate, Inc.)

Rare Disease Kills  
Second in Family

LOUISVILLE, Ky. — An unusual, incurable disease killed little Susan Hoeck last night, a month after taking her sister's life.

Both were victims of pancreatic cystic fibrosis, the disease which

causes the pancreas to function improperly. This failure, in turn, leads to malnutrition and lower resistance, and the victims succumb to some infection which is the immediate cause of death.

Susan, 23 months old, and Mary Ann, 3, had infections of the lungs. Dr. Carroll Witten said the disease is unusual in one member of a family but "extremely rare" in two members.

Ride Concrete Slab  
Safely to Ground

LOUISVILLE, Ky. — Seven workers rode a 45-ton concrete slab to a "forced landing" yesterday and escaped with minor injuries.

The huge section of a stadium floor at the new Kentucky State Fairgrounds cracked and crashed 15 feet to the earth. Two workmen on the ground ran to safety when the cracking began. One of the seven atop the slab

suffered a broken finger and bruises. The others were less painfully injured. Project engineers could offer no explanation. The principle of the abacus has been known for more than 2,000 years.

Two Detroit Brothers Give Masons \$100,000  
DETROIT (U. — The Michigan Masons have announced a \$100,000 gift from two Detroit industrialist brothers for the Masonic Home for the Aged at Alma. Daniel and Saul Levine owners

of the Federal Engineering Co. are the donors. The money will come from a foundation established by the brothers in memory of their late parents. The father, David Levine, founded the company in 1905. The \$100,000 is to be placed in a fund raised by the Michigan

Masonic Grand Lodge for construction of a half million dollar, 84-bed addition to the Alma institution.

The Army Dog Training Center at Fort Carson, Colo., is the only military training installation of its type in the United States.

# Convict Seven of Red Activity

Denver Jury Returns Guilty Verdict After Twelve Hours

DENVER (AP)—Seven persons named in federal indictments as Communist party leaders were convicted last night on charges of conspiring to teach violent overthrow of the government.

A jury of seven men and five women deliberated 12 hours and 13 minutes in the 29th actual trial day of the case. It began March 21.

Defense lawyers immediately asked time to file motions for dismissal and retrial. U. S. Dist. Judge Jean S. Breitenstein granted them until June 9 to prepare motions and set June 15 as a date for their hearing.

Breitenstein also granted a defense request that the defendants, four men and three women, remain free on bonds totaling \$100,000.

They face possible maximum sentences of five years' imprisonment and \$10,000 fines each under terms of the Smith Act, under which all were charged in federal indictments returned Aug. 9, 1954.

The accused are Arthur Bary, 43, and his wife Anna, 39, and Harold Zepelin, 35, all of Denver; Joseph Scherrer, 29, and his wife Mala, 36, of Pueblo, Colo.; Mrs. Patricia Blau, 43, of Los Angeles, and Lewis M. Johnson, 34, of Salt Lake City.

All but Mrs. Blau, who was apprehended at her Los Angeles home, were arrested in Colorado last August by the FBI.

Bary, spokesman for the group, expressed appreciation to the 11 court-appointed defense attorneys and told reporters:

"Also on trial here was the freedom of beliefs of all Americans. We never advocated the use of force or violence. Our advocacy was that of peace."

"This verdict was a product of prejudice. We are innocent. We intend to appeal. We are confident the American people will recognize in time this is a verdict against their rights."

The defendants were described by the FBI as active in Red organization and recruiting work in the Rocky Mountain area.

RABBI HENRY ROSCHANDER

## Students Participate in Prayer Service

As part of the traditional observance of the holiday of Shavuot commemorating Divine Revelation and the giving of the Torah at Mt. Sinai, Congregation B'nai Israel, 143 Oneida Rd. will hold its annual Fruit Offering and commencement exercises of its Hebrew and Sunday School system.

Following a decorative procession the students will participate in a prayer service to be followed by a charge by Rabbi Henry Roschander. The exercises are scheduled for Friday at 10:30 a.m.

**Shavuot Schedule**  
Thursday—7:30 p.m. Mincha; 8:20 p.m. Maariv.  
Friday—7:30 a.m. Schacharis; 8:30 a.m. Mussaf; 7:30 p.m. Mincha; 8:20 p.m. Maariv.  
Saturday—7:30 a.m. Schacharis; 8:30 a.m. Tzitzit (Memorial Services); 8:40 a.m. Mussaf; 7:30 p.m. Mincha and 8:35 p.m. Maariv.

## Horrified Father Sees Child Killed by Train

CHARLESTON, W. Va. (AP)—Horrified, Oliver Newman looked from the front porch of his home beside the New York Central Railroad and saw his 3-year-old daughter Margaret, who had been playing in the yard, sitting in the center of the tracks. A freight train was roaring toward her.

Newman ran toward the tracks—but too late. The train struck his daughter when he was only a few feet away. She was dead on arrival at a hospital.

# Witness' Attack May Stall Quiz

Garment Maker Ailing After Giving Testimony at Senate Graft Probe

WASHINGTON (AP)—Sen. McClellan (D-Ark.) said today a heart attack suffered by a key witness may force a postponement after today of an inquiry into alleged graft in buying of uniforms for the armed forces.

McClellan heads the Senate investigations subcommittee, which has heard New York manufacturer Leon M. Levy give sworn testimony that he furnished nearly \$7,000 which he understood an associate would use to pay off government employees having supervision over clothing contracts.

Levy suffered a heart attack at his hotel last night, shortly after conceding that Sen. Bender (R-Ohio) may have been right in calling him "a crook." Subcommittee aides quoted Levy's physician Dr. Emmett Markwood as saying the attack was serious.

Levy was admitted to the George Washington University Hospital, which declined to comment on his condition.

McClellan, calling more witnesses to a hearing today, said it may be necessary then to postpone further sessions. He described additional testimony by Levy as essential to the hearings.

He also backed two subcommittee aides against a shapely brunette's charge that "they browbeat me" nearly to hysteria.

Mrs. Mella Hort, a former government contract administrator, yesterday flung the accusation at Robert F. Kennedy, the subcommittee's chief counsel and brother of Sen. John F. Kennedy (D-Mass.) and at Carmine Bellino, a staff accountant. She said they tried to get her to give false testimony.

She acknowledged she had flung a few "G. D.'s" at Kennedy and Bellino when they questioned her behind closed doors last Thursday. And she conceded she feared disclosure of what McClellan mentioned to her as "some things we haven't revealed."

"Many insects have five separate eyes, two of them divided into hundreds of segments."

# Amended FEPC Bill Gets Fast OK, Goes to Williams

LANSING (AP)—The Legislature today handed Gov. Williams a Fair Employment Practices (FEPC) bill ending one of the bitterest struggles over a single issue in legislative history.

The bill would prohibit employers from discriminating against employees because of their race, creed or color. It sets up a six-man commission to act as a watchdog on employment practices.

In a rare mood of unanimity, the House adopted a bevy of Senate amendments without a dissenting vote.

Then it passed a motion naming the measure the "Cramton Bill," after Rep. Louis C. Crampton.

Lapeer Republican who feathered the plan.

## PROBE POWERS

The commission is empowered to conduct hearings, take testimony under oath, investigate and pass on charges of unfair employment practices.

The bill would prohibit employment agencies from classifying applicants according to race or creed.

It would prevent unions or employers from keeping records of their employee's national origins, race or religion.

Employers would be prohibited from imposing less desirable working conditions because of an employee's race or creed.

The bi-partisan commission,

appointed by the governor for three-year terms, could not subpoena witnesses itself.

But it could ask the courts to subpoena witnesses and violators. In addition, it could issue "cease and desist" orders to employers engaged in unfair employment practices.

If violators ignored the orders, the commission could ask the court to force compliance.

Gov. Williams made FEPC a campaign issue since he took office in 1948.

Cramton, pleased at the wholehearted support the House gave his bill yesterday, credited Democratic Floor Leader Ed Carey of Detroit with much of the bill's success.

But Carey asked the House not to go along with a motion to name the measure the "Cramton-Carey" bill.

## Open Circulation War

NEW HAVEN, Conn. (AP)—Editors of the Harvard Crimson, student newspaper, took advantage of the Yale Daily News' announcement that it would no longer publish on Saturdays. They left 2,000 copies of a "New Haven edition" of their paper at Yale dormitory doors.

# Tito Not Eager for Full Russian Allegiance

By WILLIAM L. RYAN  
Foreign News Analyst

President Tito, looking like an American banker in his trim, dark suit, was bristling with annoyance when I saw him last.

His anger seemed added evidence that, if the matter was one for Tito alone to decide, there would be no full family reconciliation with the Cominform. The big question remained, however, whether it would be a matter for Tito alone to decide.

The target of Tito's anger was Soviet Foreign Minister Molotov. At the time Georgi Malenkov was deposed as Soviet premier, Molotov made a speech. Touching on Yugoslavia, Molotov hinted—just hinted—that Yugoslav Communists were sorry for their past deviations.

Speaking to his Parliament, Tito, grown gray, portly and florid, lit into Molotov for such innuendo. Molotov, he indicated, was trying to push the notion that Yugoslavia's moves toward normal relations with Moscow betrayed a willingness to "correct" past errors of dogma. This sort of thing, said Tito, was "nonsense," throwing doubt on the sincerity of other statements by Eastern leaders.

There was an implication in this that during the Malenkov regime, Tito won his battle with Moscow, that his price for full normalization was an open Moscow admission that Stalin had been wrong from the start in his feud with Belgrade. Molotov's speech thus seemed to indicate that, with Malenkov gone, Moscow was reneging on the deal.

Thus it is a matter of note that Moscow's delegation to Belgrade,

ostensibly asking that bygone be bygone, does not include Molotov. He is a reminder of the Stalin era, when Yugoslav was outlawed.

Evidence at hand indicates Tito will not "redeem" completely to the East. He was educated by Moscow. He would know the risks involved.

But Western observers detect some danger. They suspect a division in the Yugoslav Communist party and that a large number of Yugoslav Communists would be happy to collaborate closely with Moscow again.

What about the ties with the West, the arms and the economic aid which came from the West?

Tito has expressed gratitude to the United States for food sent when Yugoslavia faced hunger, and for other aid. But he added:

"We do not consider it as some sort of bribe; we consider it as a thing involving humane feelings on the one hand, and on the other, something which our people have deserved for all their sacrifices."

Belgrade's Communists will tell you Yugoslavia is Communist and will remain that way. As for arms aid, the reaction one gets is that the Yugoslavs did not ask collaboration with the West: if the West wants it, the West must accept the regime and what goes with it.

It is against such a background that the Soviet Union carries its peace offensive to Belgrade with an unprecedented and humbling visit by three of the most important Moscow rulers—Premier Nikolai Bulganin, Nikita Khrushchev and A. I. Mikoyan.

Tito announced the Soviet leaders could not expect him to jeopardize his good relations with Western countries. The Soviet said of course they wanted no such thing. They wanted only to help Yugoslavia improve her relations with all countries, including those of the East.

So long as Tito remains in power, it seems likely he will also seek to retain his ties with the West. He has no future with Moscow. But there are members of his party—some of them in high places—who are suspected of seeing a future for themselves to the East. If Tito were removed from the scene by death, accident or coup, there is no guarantee what his successors might do.

There are some things Yugoslavia can gain through full normalization of relations with the Cominform, including repayment of heavy debts owed Belgrade by those states at the break in 1948, and a resumption of full economic relations which might help Yugoslavia internally.

The stakes are higher for the Russians. Apparently the least they hope for is a Yugoslavia neutrality to rip apart the recently formed Balkan Pact of Yugoslavia, Greece and Turkey.

Soviet acceptance of an Austrian independence treaty created a neutral island in the heart of Europe. With Yugoslavia ripped from the anti-Moscow framework,

that neutrality would be pushed to the shores of the Adriatic, and Moscow could conceivably establish communications with the outer rim of the satellite empire in Albania.

There would be dividends in the propaganda effect on West Germany and France, promoting the idea of neutralism in Western Europe. A neutral belt through the middle of Europe would give the

Soviet Union the time it sought to mend its internal economic and political crises and prepare to resume Communist expansion a few years hence.

Tomorrow: Moscow and Tito both taking risks.

## Vaccination Prevents Overeating by Lambs

BOZEMAN, Mont. (AP)—Now there's a vaccination to save lambs and their mothers from over-eating, a problem that has long worried stockmen.

Dr. E. A. Tunnick, head of the Montana Veterinary Research Laboratory, explains it this way: When lambs eat too much of lush growth in spring pastures, or get too much milk, a form of enterotoxemia develops. This is called over-eating disease, or a

pulpy kidney disease, or milk colic. Tunnick says ewes may be vaccinated several weeks before lambing, or the lambs can be given an antitoxin or serum. He says that this preventive vaccination along with good management will eliminate the hazard of over-eating, or getting too much milk.

The average pearl diver is lucky to break even after the shipowner and crew take their share of the profits. Some divers may make 50 descents a day, risking jellyfish stings and the hazards of encountering sharks.

## Dirty Government

HAGERSTOWN, Md. (UP)—Exactly 10 bushels of dirt, a ton of old papers, catalogues, bills, records and just plain junk were removed recently when the Washington County clerk's office and the courthouse vaults were closed. Court Clerk G. Merlin Snyder, employed in the office 25 years, said he could not recall when it was cleaned last.

West German bakeries now enrich their flour with Norwegian seaweed meal.

# Puerto Ricans Now Eat Higher Off the Hog

By PHYLIS BATTLE  
SAN JUAN, P. R. (INS)—San Juan, Puerto Rico, is the oldest city flying the U. S. flag, having been founded in 1508 by Ponce de Leon, the 16th Century Gaylord Hauser. But despite its decrepit status, here is a joint that is only now beginning to jump.

Just like old Ponce would have wanted it, San Juan is maturing backwards. It was lame and halt after the war, its hillside hovels bulging with near-naked children, its spirit and incomes low (the average wage about \$300 a year), and its apparent inclination to lie placidly in America's front yard and laze in the tropic sun.

Suddenly, along came a super-charged personality named Luis Munoz Marin, who thought people should work, eat and live well, even if they weren't used to it.

The Puerto Ricans elected him governor and today they find themselves in the middle of a self-improvement plan called "Operation Bootstrap" which has most of the people eagerly plunging into just about everything short of the shark-laden waters beyond breaker walls.

## ASSISTED BY U. S.

Assisted by the U. S. government which decreed in 1948 that Puerto Rico is entirely free of all federal taxes, the government of this crowded island has welcomed 300 new U. S. factories, watched its unemployment problem cut in half, and seen its per capita income climb more rapidly over the past five years than in any other community in the world.

The per capita income is still far too low—little more than \$400 a year, as compared with about \$700 for the poorest U. S. state. And there are still nearly 100,000 unemployed out of the 2½-million population on the island.

But at the rate new businesses are moving in, to take advantage of the tax exemption and the inexpensive labor, Gov. Marin and his "Economic Development Administration" expect the average income to be \$2,000 by 1960.

Meantime, living standards and morale are—even at this moment—higher than ever in the history of Puerto Rico.

As a local hotel keeper put it: "Everything's up. Even the rum-drinkers are getting higher these days."

## THERE'S A CATCH

The people are so busy being busy, however, that they don't see a sharp catch in this bootstrap operation. It takes a lady tourist and sophomore student of human nature, like myself, to observe that these folks are going to suffer some fat domestic headaches in the course of becoming economically healthy.

It seems that the industries which are invading the commonwealth are of the type which require laborers with the delicate

womanly touch. Such outfits as the Univis Optical Corp., Remington Rand's Precision Tool Corp., Rico Electronics, Inc., and Beatrice Needlecraft are hiring and training women.

The Puerto Rican women are taking 70 per cent of the good jobs, leaving many of the men

to sit at home and brood over their broods. This being a Spanish colony, brought up in the old-world tradition that women and children come last, there may be the devil to pay when the enormity of this outrage hits home.

So far the gentlemen around San

Juan seem blissfully unaware—in spite of the fact a lady mayor was somehow or other elected last voting day — that "Operation Bootstrap" may be changed to "Operation Saddle Shoe" at any moment.

## HIGHER OFF THE HOG

Regardless of how that situation

turns out, it's clear that everyone is living happier and higher off the hog this year. And that includes one Conrad Hilton, whose snitzy "Caribe Hilton" affords the tourist a view of many a beautiful whitecap, in return for many a sordid greenback.

## Stove Heated by Sun Boon to Arab Lands

BEIRUT, Lebanon (AP)—Poverly-stricken people in the Arab world soon will be able to take advantage of their most abundant natural resource—sunshine. Dr. Adnan Tarcid, has invented a cooking stove which uses the sun's

rays. An Egyptian firm has contracted to turn out 18,000 such stoves yearly.

"One third of a worker's salary often is spent for fuel," Dr. Tarcid says. "While from eight to nine months a year the sun shines all day."

Forests on any extensive scale disappeared from the Arab world before the dawn of history. Deposits of coal are rare. Peasants have had to pay dearly for kero-

sen, charcoal, or plain wood for cooking. Dried animal manure is the chief cooking fuel. Use of manure for cooking in turn deprives the land of natural fertilizer.

Experts have estimated that the United States could increase its agricultural output sufficiently in a decade to provide food, at present standards, for 380 million people, notes a Twentieth Century Fund report.

## Cops, Firemen Benefit From Safety Program

CHICAGO (UP) — More policemen are hurt in routine accidents such as slipping off a curb than are shot in gun battles with bandits, a study shows.

The Civil Service Assembly urged that policemen and firemen be included in safety programs for city employees.

"Although the nature of their work may prevent a low record of accidents, there is no doubt that most police and fire departments have a needlessly high frequency," the assembly said.

It said the city of Detroit reported a 50 per cent reduction in lost-time accidents after installing a year-round safety program.

In Cincinnati, the cost for industrial compensation used to be \$1 for every \$100 of payroll money.

But last year's rate was reduced to 60 cents, for a saving of about \$86,000, through the installation of an accident prevention program, the assembly said.

**Installment Plan Used for Conscience Money**

LINCOLN, Neb. (AP)—An unidentified thief has been repaying Jewel Chastain, manager of a service station here, on the installment plan. Chastain has received three

"payments" from the conscience-stricken individual who claims to have taken \$85 from the station's cash register in February 1949.

All three letters, unsigned, have carried Omaha postmarks. The latest remittance was for \$55

and apparently cleaned up the debt.

"I really appreciate his sending it back, and I want him to know it," said Chastain.

Thailand is approximately four-fifths the size of Texas.

**WCTU Holding Contest for Study of Alcoholism**

CHICAGO (UP)—An inter-collegiate oratorical contest, with state and national awards, will be sponsored by the National Women's Christian Temperance Union

to encourage young people to study alcoholism.

Mrs. Glenn C. Hays, president, said state contests will be sponsored by state branches of the WCTU in interested colleges and universities. State winners, she said, will be eligible to enter the

national competition.

The contests are to promote research among young people on the harmful effects of drink in all spheres of life, she said.

The national winner will be awarded \$150, with \$100 and \$50 going to second and third place winners.

**He Shows 'Em How**

CONCORD, N. H. (AP)—Prof. Edmund Cortez of the University of New Hampshire was invited to address the State House of Representatives. The professor stepped up to the House microphone, and gave the lawmakers a five-minute

dissertation on the proper use of a microphone.

Some octopuses will lay 45,000 eggs at a time, each about half as big as a grain of rice.

Sound waves move 1,100 feet per second in the air.

**Sea Gulls Short Out Lights With Wings**

MOREHEAD CITY, N. C. (AP)—For three weeks lights here flickered momentarily twice a day. George Stovall, a power company manager, figured it out. He learned that sea gulls were

being electrocuted at the city dump. Bad weather had killed fishing boats and there were no scraps for the gulls, so they flocked to the city dump. There were so many birds the overlapping wings short-circuited the 33,000-volt lines serving Morehead City. The lights flickered twice daily because

trucks dumped their garbage twice daily. So the power company spread its lines farther apart, and now everything is all right. Tobacco manufacturers use 80,000,000 pounds of aromatic leaf per year in cigarettes and smoking tobacco.

**Stole Bull, Not Cow, Culprits Tell Judge**

JACKSONVILLE, Fla. (AP)—James Bentley and Mathew Rivers were called into criminal court to face a charge of stealing a cow. The defendants admitted taking

a bull and Judge William T. Harvey dismissed the case on the ground that the charge of cow stealing can not be sustained except by proof the animal was a cow.

Coffee comprises the chief export of Costa Rica.

**Joint Was Jumping**

BEDFORD, Iowa (AP)—Bedford High School officials knew something was amiss when the school's baby grand piano started giving off a "blasting noise" every time it was played. They found that a Mexican jumping bean that some-

how had gotten into the piano and bounced around on the sounding board whenever the keys were struck.

Northern Canada gets little more precipitation than the Sahara desert, says the National Geographic Society.

**You Never Can Tell**

HOUSTON, Tex. (AP)—Classified ad in the Male Help Wanted column of a recent Houston Post: "Chief stenographer for Dallas law firm, age 30-35. Must be neat, attractive, unmarried, preferably without children."

## Crime Deserts Paris Sewers

Bodies No Longer Clog Drains of City's Fabled Underground System

PARIS — Miles of dark and twisting underground passageways that make up the sewers of Paris provide an unequalled setting for black and antisocial crimes. But headless corpses no longer clog the drains and any "phantoms" down there must be leading drab and quiet lives.

Tourists armed with copies of Victor Hugo will perhaps be a bit put out to learn there hasn't been a body found there in years.

The only known inhabitants today are a hardy breed of rats and the workers who clean the tunnels. (Hollywood once made a hero of a sewer cleaner in Seventh Heaven with Janet Gaynor. The movie smoothed his rough edges a good bit.)

Sometimes medical students dump in a few human bones but they are always traced back to hospitals or medical schools.

Today the twisting passageways house fresh water mains, pneumatic tubes, telephone and telegraph cables and other oddments in addition to the sewer lines.

As recently as World War II resistance members used them to make headaches for the Germans. Since the liberation, 10 sewer cleaners have been killed when they stumbled over caches of explosives. However, Matayer reassures the tourists that no more old bombs are lying around.

Occasionally, Matayer admits, the cleaning crews turn up a knife or some similar instrument that a Montmartre citizen has discarded for his own reasons. In such cases, the weapon is quickly turned over to the police. The sewers are a poor place to throw anything you would prefer the police not to have. A screening system turns up almost all such solid objects.

About the liveliest happenings in the sewers nowadays are the tourist trips allowed through part of the downtown system. The guides stretch a few historical facts for the benefit of the visitors but Matayer insists in a low voice that echoes down the damp passageways — "No gangsters down here, please. Don't write anything like that."

ALL QUIET—A workman cranks up a machine for cleaning Paris sewers. He doesn't expect to find any dead bodies and World War II bombs have all been removed.

## Scientists Plan Trek to Alaska

Next Geophysical Year Studies Are Slated for 1957-1958

FAIRBANKS (UP)—All of Alaska will be the scene of increased scientific activity during the next "geophysical year," 1957-58, according to Dr. C. T. Elvey, director of the University of Alaska Geophysical Institute.

Back in 1923-24, scientists started the first "polar year." As part of the program an expedition was sent to Point Barrow. It was decided to have a polar year every 50 years.

The second such study was in 1923-24 at which time Fairbanks became a major center for the work. Due to rapid advances made in science, it was decided to step up the interval 25 years, widen the studies to embrace many fields of science and rename the period "geophysical year."

Dr. Sydney Chapman, visiting professor of geophysics at the University of Alaska, advisory sci-

tific director for the institute, is president of the special committee for the next geophysical year. The committee is composed of the representatives of 35 nations, including the U.S.S.R.

The plan is to coordinate all programs and areas. There will be more than a dozen stations in Alaska, including the university and two nearby stations: Big Delta, McKinley Park, Barrow, off the Arctic coast near the Canadian border; Fort Yukon, Northway, Sheep Mountain, Anchorage, Bristol Bay, Kodiak, Adak, Nome, Sitka and possibly Mt. Wrangell. In each case use will be made of the existing facilities.

The world-wide project will cost around \$100,000,000 with the United States being asked to put up \$52,000,000.

Some of the topics for study will include the use of radar for the aurora, magnetic storms, a meteorological study of the general circulation of the atmosphere which will involve a station near the North Pole, radio wave propagation, cosmic rays and the relation of solar activity to the earth's phenomena among others.

What was probably the first formal plan initiated by an employer in the United States for pensioning employees after the age of 60, was launched in 1875.

## Maintenance of White House Costly; Even Light Bill Runs to \$2,500 a Month

WASHINGTON (UP)—The electricity bill at the White House runs about \$2,500 a month. There were 826,543 visitors to the executive mansion in 1954, not including President Eisenhower's daily callers. And the head plumber makes more money than the housekeeper.

These and other minutiae concerning the presidential household were disclosed today with publication of records of the closed hearings held by a House Appropriations subcommittee on the 1955

budget for care, maintenance and operation on the White House and its 18 acres of surrounding grounds.

The White House budget request for fiscal 1956 was \$366,200, exactly what it was for the current fiscal year. This includes no money for office staff and expenses or the large protective force around the chief executive.

The \$366,200 covers the salaries of 38 mechanical and maintenance

employees and 34 men and women on the domestic staff, plus such expense items as \$30,890 for the annual electricity bill and \$9,000 for palms, ferns and cut flowers used to decorate the White House.

### LISTS BREAKDOWN

Frank T. Gartside, assistant superintendent of the National Capital Parks, of which the White House is a division, explained to the subcommittee that more than half the annual electric bill is chargeable to air conditioning.

The remainder is for lighting, cooling, broadcasting and television facilities. The monthly bill has run as high as \$3,500 on some occasion in the past.

Salaries and overtime for the 72 mechanical and domestic employees total \$251,655 and the balance of the \$366,200 total is for operating expenses such as \$4,428 for maintenance of the seven elevators and two dumb-waiters in the White House. The annual laundry and dry cleaning bill is estimated at \$4,500.

The two top salaries in the domestic force are paid to the maitre d'hotel, Charles Ficklen, who supervises the execution of

menus, and Mrs. Mabel Walker, the housekeeper. Each makes \$4,745 a year. But on the maintenance staff, the head plumber, Earl Trainor, makes \$4,870 and the chief gardener, Robert Redmond, is paid \$5,245 annually.

### Eye Tells the Tale

BOSTON (UP)—A police trial board imposed 210 hours of punishment duty on two officers charged with brawling. The board members were not entirely satisfied with the explanation of the patrolmen that they had only been "jostling." One of them showed up at the hearing with a black eye.

**\$400 Tank Winds Up as Pile of Scrap Metal**

PERRY, Okla. (UP) — Tom Evans found out his deal with the city of Perry ended as a "tank-less" task.

Evans bought an old 48-foot-tall

metal water tank for \$400 from city officials, who specified the huge structure had to be moved quickly.

The buyer, planning to cut the tank in half and convert it into two arch-type buildings, employed a truck firm to move the big "tip can."

As moving operations started, it

collapsed under its own weight. Now all Evans has is a pile of scrap.

What was probably the first formal plan initiated by an employer in the United States for pensioning employees after the age of 60, was launched in 1875.

**Enough Toothpaste for 4 Trips to Moon**

NEW YORK (UP)—Americans will use enough toothpaste this year to make a dentifrice ribbon that would stretch to the moon four times.

According to estimates of the Collapsible Tube Manufacturers Council, about half of the billion collapsible metal tubes which will be used this year in the United States will go for toothpastes.

The council figures some 918,000 miles of dentifrices will be squeezed out of these tubes. The

rest of the industry's output will be used for a wide variety of products ranging from adhesives to wood fillers.

The distance driven by cars scraped in 1925 averaged less than 22,000 miles; in 1945 the average was 31,000 miles.

**Legal Chicks in a Fix**

ALBUQUERQUE, N. M. (UP) — Zoning laws forbid keeping of chickens on residential city property and zoning inspector, Rudy Willig, had a report there were chickens on the lawn of Charley Morris, city refrigeration inspector.

But he found everything in order when he rushed out to investigate. The chickens were decorations — made of concrete.

One of three U.S. school children rides to and from public schools each school day in a public or private bus.

## Burke Named Naval Chief

WASHINGTON (AP)—President Eisenhower yesterday nominated Rear Adm. Arleigh A. Burke to be chief of naval operations succeeding Adm. Robert B. Carney. Carney was the center of a recent controversy over the likelihood of a Communist attack in the Formosa area.

The President also nominated:

1. Adm. Arthur W. Radford for a new two-year term as chairman of the Joint Chiefs of Staff.
2. Gen. Nathan F. Twining for a new two-year term as Air Force Chief of Staff.

Earlier this month Eisenhower nominated Gen. Maxwell D. Taylor to succeed Gen. Matthew Ridgway as Army Chief of Staff.

Ridgway, who has been critical of administration plans to cut Army manpower, is to be replaced by Taylor July 1.

Burke's nomination to succeed Carney will be effective Aug. 16, when Carney's two-year term expires.

### ASKS BOOST

In nominating Burke to replace Carney, the President asked the Senate to promote Burke two grades to the rank of full general.

Burke now is commanding an Atlantic fleet destroyer force.

Burke came to public attention during the Air Force-Navy controversy over B36 bombers and super-carriers several years ago. At that time, he headed a group of Navy officers, designated as "Operation 23." The function of operation 23 was to mastermind the Navy's fight against the intercontinental bombers.

Burke's name did not appear on the list of Navy captains who, because of service and age, automatically came up for promotion to rear admiral shortly after the controversy. The late Adm. Forrest Sherman, then chief of naval operations, succeeded in getting Burke's

name reconsidered on a later list. He eventually was promoted May 12, 1952.

There was surprise in the Pentagon when the White House announcement came. This indicated that Burke had been plucked from far down in a list of junior admirals to become the No. 1 uniformed commander of the Navy.

Burke has the nickname "31 Knot," earned by the top speed he preferred for destroyers of his World War II combat command, in the Pacific. Burke's number in the Navy list of line officers is 93.

In the lineal list Burke is outranked by five full admirals, not including Carney and Radford; 21 vice admirals, and 64 rear admirals.

### NOT AVIATOR

Burke is not a naval aviator. Navy emphasis now is on the carrier force and submarines.

Burke was born in Boulder, Colo., Oct. 19, 1901. He is a naval academy graduate of the class of 1923.

During World War II he commanded destroyer divisions 43 and 44, among other assignments. From September 1946 to March 1947 he was chief of staff and aide, U. S. Atlantic Fleet.

Among other awards Burke holds the Navy Cross, the Distinguished Service Medal, the Legion of Merit and the Purple Heart.

Radford, picked for a new two-year term as chairman of the Joint Chiefs of Staff, now is 59. Hagerty said he did not know whether special authorization would be required to permit Radford to serve out the new term in view of the fact that he will be past the Navy's retirement age of 60 when the term ends. His present term expires Aug. 16.

Twining, 57, will end his first two-year term as Air Force Chief of Staff at the end of next month.

## Baruch Warns of Danger in Atom Controls

NEW YORK (INS)—Bernard M. Baruch declared today the U. S. must be uncompromising in its demand for veto-proof, effective international atomic disarmament controls as a "guarantee for peace."

Any disarmament agreement without authority to mete out "swift, sure and codign" punishment against violators, Baruch warned, would be "incalculably dangerous" to America's safety.

He cautioned that America, in its desire to lift the threat of war and atomic devastation, should not be "beguiled by wishful thinking" into possibly signing its own death warrant.

In an obvious reference to Russia's campaign to neutralize Western Germany and other countries, Baruch told a meeting of the Woodrow Wilson Citizens' Anniversary Committee:

"It is a tribute to many of them that they are alive to the danger and that they are not deceived by the empty promise of neutralism."

Discussing the recent Soviet proposals on peace and disarmament, the 84-year-old elder statesman

urged in the strongest possible terms that this country stand pat on clauses which are the "heart of effective disarmament."

He said: "Every plan for disarmament deserves careful consideration but none can be adopted which fails to provide direct, effective and certain guarantees for enforcement of its terms."

"International disarmament of both conventional and atomic weapons requires an international authority with power to inspect, control and impose punishment, swift, sure and codign, against any transgressor."

CITES DANGER "Any agreement which does not establish the authority to enforce it would be incalculably dangerous. To permit any nation the right to veto the decisions of the control agency, or actions taken against violators would be to make the plan meaningless."

"As Woodrow Wilson refused to compromise on the heart of the league, we must refuse to compromise on the heart of effective disarmament."

(The latest Soviet proposal would permit the Russians to keep their veto power. Russian insistence on this point has been one of the big stumbling blocks to agreement since Baruch outlined the key U. N. atomic control principles in 1946.)

Baruch said Wilson started out to make the world "safe for mankind" but failed through no fault of his own because his voice "was drowned in the discordant chorus of vengeance, ignorance and selfishness."

He insisted the League of Nations failed not because Wilson was uncompromising on the key clause of the treaty of peace, saying: "He spoke a new principle for a new age. In the league he offered men an instrument of good will. The failure of the league lay in that he could not provide the good will. As Wilson stood fast in his determination to provide a guarantee for peace, so must we now."

Expect Hearing in Davis Case

Ex-UM Math Professor Charged in Contempt of Congress

GRAND RAPIDS (U. S. District Attorney Wendell A. Miles said he expects a hearing will be held in a few weeks in federal court on a defense motion for dismissal of an indictment charging Horace Chandler Davis, 28, with contempt of Congress.

Miles filed an answer yesterday to the motion.

Davis, former mathematics professor at the University of Michigan, invoked the first amendment and refused to answer questions at a House Un-American Activities Committee hearing in Lansing a year ago. He later was fired by the university.

In seeking dismissal of a federal grand jury indictment, Davis contended it was invalid because questions put to him at the hearing were not germane. He also said he was not made aware of the serious consequences of refusal to answer them.

The district attorney in his pleading declared Davis repeatedly demonstrated to the Congressional committee he did not intend to answer any questions.

At one extreme are the pro-Communists, 100 per cent behind

the Moscow line and growing in numbers as schools and universities turn out youngsters cast in the same political mold.

At the other extreme, as the regime's own denunciations prove, are the anti-Communists, underground but active.

In between are the vast mass of the people. Some are undoubtedly better off than in prewar Poland, which knew both poverty and wealth. All are at least thankful to have survived the war that killed three million of their 30 million population.

Few have any real knowledge of conditions in the West. Few know of the vast economic expansion achieved by West Germany and other European countries in conditions of freedom.

One thing they do know—their lives have eased since Stalin died. The loud-speakers at every street corner no longer blare out incessant slogans. People can get passports to visit relatives in Polish territories ceded to Russia. Some of the tension has gone.

WILLING HANDS — Red Cross Motor Service Volunteers being directed by Mrs. John Logan (left) of Royal Oak, chairman of service groups, are (left to right) Mrs. Joseph Youngs of 819 Pensacola and Mrs. J. V. Green of 4020 Arcadia Park. Motor service drivers, needed urgently now by the Oakland County Chapter of the American Red Cross, obtain the blood

## Stalin's Death Eases Conditions Poland Makes Spectacular Progress but Life Seems Bleak Under Red Rule

WARSAW, Poland (U. S. Life in Warsaw is bleak by any but the lowest Western standards.

A poor quality overcoat or man's suit costs around 1,000 zlotys—a month's wage for the average worker in a construction gang and a half month's wage for a coal-miner, the best paid of Poland's manual workers.

Bread and potatoes cost up to twice the Western equivalent and meat and butter four times as much, even at reduced prices announced May 1.

A vacuum cleaner, one of the few household appliances in the shops, costs an average worker a month's pay.

Yet the people in Warsaw streets look adequately clothed and fed. Several factors make the reach of their pockets seem at first. Rents, for instance, are extremely low. A family with a two-room apartment pays only 30 zlotys a month—not much more than a couple might spend on a visit to the movies.

Most wives work. Both men and women get bonuses, usually 50 per cent of a month's pay, if their organization achieves its monthly production quota.

Poland is in the midst of a reconstruction and industrial development. Western diplomats say its progress has been spectacular.

The rebuilding of Warsaw is well advanced. A great many new buildings carry the red signs of "central organizations"—nerve centers of state-run industries. One huge stone-faced block is the headquarters of the Polish United Workers party, the country's Communist rulers.

At one extreme are the pro-Communists, 100 per cent behind

the Moscow line and growing in numbers as schools and universities turn out youngsters cast in the same political mold.

At the other extreme, as the regime's own denunciations prove, are the anti-Communists, underground but active.

In between are the vast mass of the people. Some are undoubtedly better off than in prewar Poland, which knew both poverty and wealth. All are at least thankful to have survived the war that killed three million of their 30 million population.

## New Red Cross Head Is Named

Rev. William C. Hamm Elected Chairman of Oakland Chapter

The Rev. William C. Hamm was elected chairman of Oakland County Chapter of American Red Cross at the chapter's annual meeting at Devon Gables last night.

Rev. Hamm replaces Harold B. Euler, who has served as chairman for the past two years.

Other officers elected were Leonard Lewis, first vice chairman; Carlsten C. Patterson Jr., second vice chairman; Mrs. Alfred T. Barnes of Royal Oak, secretary and Adolph Klein of Royal Oak, treasurer.

The nominating committee's slate of board members was also approved by chapter members.

### BY-LAWS MODERNIZED

Modernization of the by-laws was prompted by lack of efficiency resulting from too many board members. A new set-up provides for a board of directors consisting of not less than 35 and not more than 45 members of the chapter.

This plan coincides more closely with the desires of American National Red Cross and follows the workings of surrounding communities.

The new laws also state that the board of directors may appoint, from the membership, such honorary officers as it may determine from time to time.

Mrs. Barnes was chairman of the revisions committee. She was assisted by Mrs. John Blanchard of Bloomfield Hills, Mrs. B. B. Roush, Mary Rendell and Rev. Hamm.

Sgt. Clayton Randolph of the Pontiac Police Dept. presented "Prescription for Life," a Red Cross movie on the blood program.

\$150,000 SAVED

It was pointed out that Oakland County residents have saved \$150,000 in the past year because of the blood program.

Some 8,000 pints of blood were collected from residents and 6,000 pints were poured back into the county bloodstream.

## Keego Harbor Veteran Returning to France

By AL LOWMAN

A vow made almost 36 years ago on a bullet-swept French battlefield is being fulfilled today by Albert Barnett, 56, of 2322 Pine Lake Ave., Keego Harbor.

Barnett will leave Friday to begin a pilgrimage back to the scenes of suffering and death he knew so well . . . back more than three decades and World War I.

It was the vow of a 17-year-old boy—a boy doing a man's job as a rifleman with the 1st Canadian Division. But the determination of the boy never dimmed in the man.

Recalling the events leading up to his pledge, Barnett said:

STRUCK BY SHRAPNEL "My unit had just gone over the top. We were attacking German positions across an open field . . . machinegun fire was heavy . . . shells were exploding everywhere. I was struck by shrapnel in the leg and face.

"Somehow I managed to drag myself to a shell hole. A man I knew from another company was taking shelter there, too. He was reading the Bible.

"In order to calm me he read verses 12-19 in the 17th Chapter of Luke. It was then that I vowed to serve my God and fellow veterans with all my heart if I returned alive from the War."

When his shell-hole companion was killed trying to get medical aid, Barnett also vowed to return to France one day to pay homage to his fallen comrade.

The vow has been kept.

### ACTIVE IN CHURCH WORK

Active in church work in his community, Barnett also has devoted most of his spare time to veterans and their organizations.

For 12 years he gave up his vacations from his job at Pontiac Motor Division to devote his efforts to aiding veterans' groups here and in other parts of the country.

Following World War II, he served as president of the Oakland County Veterans Counseling Center here. He is past commander of the Oakland County Council of Veterans, and of Pontiac Post 23, Canadian Legion.

He also served as vice president and vice commander of the Great Lakes Command of the Canadian Legion and spent six years on the Canadian Legion Executive Council at Ottawa.

Barnett, who has two sons, Gene, a Naval lieutenant, 28, and the other, Dwight, 15, a student; and a daughter, Joyce, 23, said he has been practicing speaking

French for the past two months.

"I'm not much better at it now than when I was over there in the war," he said.

One of the highlights of his trip will be a visit with former Pontiac resident Claude Osborne, now living in a small town near Paris. Osborne, who remained in France after the First World War following his marriage to a girl there, spent the early World War II years here. He and his family were driven from their home by invading German forces.

RENEWED FRIENDSHIP Barnett and Osborne were friends before their enlistments and renewed that friendship during Osborne's stay here during the war. Both are looking forward to renewing acquaintances in France.

### TIME DIMS NAMES

Although the names of many of these spots have been dimmed by time, they will live again for this man whose pilgrimage fulfills a vow made so long ago during a forgotten battle on a forgotten battlefield.

READY FOR PILGRIMAGE—Albert Barnett, 56, of Keego Harbor, poses at the door of his home at 2322 Pine Lake Ave., as he prepares for a return to France to revisit remembered battlegrounds of World War I. Barnett, whose trip fulfills a vow made almost 36 years ago, will leave tomorrow for Canada. He will fly from there to England where he will embark on a trip through France, visiting spots made famous in both World Wars.

Statue Grows Beard

ISTANBUL (U. S. Experts at the Istanbul Archeological Museum have been cracking jokes about the new beard on their sandstone statue which dates from the 7th century B.C. Oscar Sumer, a museum official, said that asphalt contained in the sandstone had seeped downward to the surface, causing the 5 o'clock shadow look.

# 121-Year-Old Naval Factory in Boston Now Hanging Near the End of Its Rope

BOSTON (AP)—Time is running out at the Boston Naval Shipyard ropewalk.

It has made enough rope to bind the earth at the equator 100 times since it was established by Congress in 1834.

It's the only rope-producing plant ever operated by the Navy, and its entire output has gone exclusively to the Navy.

The ropewalk's death warrant has been signed in Washington, execution date Aug. 1.

The administration has decreed, over loud protests of congressmen, that the Navy obtain its cordage from private industry.

The decision is tragic for families of 71 employees, who know no other trade. Most are war veterans, with long service in the ropewalk. Ten per cent are war-disabled.

## FAMILY OCCUPATION

Supervisor William J. Kaes has worked there 27 years, preceded by his father and grandfather. Louis Porter, 55, with 35 years service, ruefully considers himself "too young for a pension; too old for a new job."

Despite his 19 years service, David Timmerlath, the Navy's last master ropemaker and boss of the Navy's last ropewalk, is chiefly concerned for his fellow employees and for welfare of the Navy.

"We turn out less than 3 per cent of the country's rope," he says, "so I can't see how it can have much impact on private industry. On the other hand, it's too late for most of these people to pick up other trades."

"And if the Navy needs them again, where will you find them? You can't mothball manpower and skills."

In Timmerlath's opinion, one of the ropewalk's greatest values has been the testing, experimentation and research, including adaptation of synthetics.

He did not mention it, but fellow workers said Timmerlath developed a preservative which adds 25 per cent to life of rope.

## NAME IS HISTORICAL

Ropewalks were so named in the days when length of cordage was limited to length of a building, because it was necessary for a man to walk away, backward, with a piece of rope as it was fabricated.

The shipyard's ropewalk is a quarter of a mile long, but machinery long ago outmoded the ancient method and theoretically

END OF ROPE — Two employees inspect some of the rope made in the Boston Navy plant which will close August 1.

there now is no length limitation.

Raw material enters one end of the long building as bales of hemp. Most of it comes from the Philippines; some from Central America.

Immediately begins sorting and combing, then fine spinning or twisting of the long, gleaming fibers into yarn and strands. From these, cordage up to the size of great towing and mooring hawsers are fashioned.

Much of more than 2½ million miles of cordage produced by the ropewalk — the figures are Him-

melfarb's — actually has gone around the world, not to bundle up the old earth, but as equipment on the nation's warships.

## USED ON CARRIERS

Although cordage has been popularly associated with sailing vessels, in World War II a 27,000-ton aircraft carrier required 290,000 feet—approximately 50 miles.

That compares with the 123-ton frigate Constitution, better known as Old Ironsides which required 186,500 feet in fitting out, although she is only 204 feet long compared with a modern carrier's length of approximately 1,000.

## But What Do You Call Six-Year-Old?

HONOLULU, T.H. (UP)—Noting that man's life span is constantly increasing and may reach 100 years, Albert Grain, a federal court reporter here, has come up with a system for classifying various ages.

Grain, in letters to Honolulu newspapers, said he got his idea while reading about a musical note called a "semi-hemi-demi-quaver." Here's what Grain proposed: "A centenarian naturally would

be one who is 100 years old, a semi-centenarian would be 50, a semi-hemi-centenarian would be 75, a hemi-semi-centenarian would be 37½, a semi-hemi-demi-centenarian would be 25, and a semi-demi-hemi-centenarian would be 12½."

## City Hall Smoked Out

PORTLAND, Me. (UP)—This city's advisory board on smoke control publicly praised the management of two buildings which finally got off the "worst smoke offenders" list where they had been fixtures. One building is a cannery. The other, city hall.

# Truck Drivers Give 5 Safety Pointers

DETROIT (UP)—Here are five basic rules for good driving compiled by professional truck drivers which will help a motorist avoid accidents:

1. Whatever the driving conditions, ease off the gas sooner. Try for that easy "pro" touch with a minimum use of your brakes.

2. Approach intersections, traffic lights and dangerous stops, with your foot off the throttle and on the

brake. Be ready to hit the brake at once if necessary.

3. Increase the distance in which you follow cars.

5. Plan your passing. Stay far enough behind to see approaching traffic, without nosing into the oncoming line. Pick up speed before passing.

## Just Fated to Fall

CHARLESTON, W. Va. (UP)—Mrs. Vella Holbert, 60, decided to put on her galoshes before going out in slippery weather so she would not fall. She fell and broke her wrist as she went to a closet to get the footwear.

# Airport Plans Are Announced by Hong Kong

HONG KONG (UP)—Hong Kong authorities have decided to give the British Crown Colony a brand new airport featuring a reinforced runway that juts out into the sea.

According to an official announcement, the construction of the new airport, which in reality is an expansion of the colony's present Kai Tak Airport, will represent the largest single civil engineering contract ever to be undertaken in the colony's history of more than 100 years.

While announcing the large-scale undertaking, the government advertised in the colony's newspapers for contractors to handle the huge project.

The advertisement stated that the project is merely the first stage of the development of the present Kai Tak Airport.

The main task in stage one will be to reclaim a strip of land adjacent to the present airport on which the new runway will be built.

This, according to the govern-

ment, will entail construction of about 3¼ miles of seawall. The reclamation project alone will cover some 12,000,000 cubic yards of area. Preliminary plans call for completion of stage one sometime in 1958.

## Chews Up Insurance

SAN DIEGO, Calif. (AP)—Patricia Forsyth, the owner of a big Afghan dog, took out personal liability insurance in case the dog bit anyone. The insurance agent, got a call from her a short time later asking for a new policy. The dog had chewed up the original.

# There's no mistaking *this* beauty!

OUT OF THE MEDLEY of modern motor cars, *one* car stands out.

Whether you see it a quarter of a mile down the highway—or watch it flashing past in the line of traffic—there is absolutely no mistaking the beautiful new Pontiac.

Coming, passing or going, it's the one car that carries the great stamp of individuality.

And this wonderful difference in favor of Pontiac goes far beyond appearance.

There's the same superiority in performance.

The first time you put the great Strato-Streak V-8 through its getaway paces you'll know this is a completely new kind of driving thrill! Here's spirit to lift *anybody's* spirits!

Out on the road, there's solid horsepower always in reserve for the needed flash or the quick pass.

Steering is so easy and steady that you almost drive with your mind. The ride is as level as a level itself.

The whole *movement* of the car is so smooth and easy that people taking the wheel for the first time have difficulty believing the speedometer.

This is a great car. It's new, as you know, from the ground up—the only wholly new car in America. And, naturally, this gives it a big advantage over all other cars from every conceivable standpoint.

Why don't *you* get a Pontiac? You might as well have the newest and the finest—because there's a model to fit every need and every budget. Some are priced right down with the lowest.

Come in today. You'll find it hard to get away—for once you take the wheel—and get our deal—it's an irresistible combination!

**FAMILY ALIKES**—Airman Third Class Harry S. Kirby proudly helps sister, Annie R. Kirby, an Airman Second Class, with her epaulets. The Kirbys, from Ft. Walton, Fla., hold duplicate jobs as tactical instructors of new airmen at Lackland Air Force Base, San Antonio, Texas.

### Michigan Pilot Lost Aboard Marine Jet

EL TORO, Calif. (AP)—A Marine Corps jet fighter plane with two men aboard was declared lost yesterday and a search was begun. Officials at this Marine air base said the craft was last heard from at 3:10 p.m. Tuesday while on a local training flight. Those aboard were identified as:

1st Lt. Richard E. Wilcox, 22, the pilot, whose wife, Shirley Ann, lives at nearby Santa Ana and whose parents, Mr. and Mrs. Al-

#### Limit Reparations

TOKYO (AP)—Kyodo news service said today Japan is holding to a 400-million-dollar ceiling on its World War II reparations offer to the Philippines. Kyodo said Philippine Reparations Ambassador Felipe Neri would meet Japan's Tatsuoka Takasaki in a day or two for a "make or break" session in the prolonged negotiations.

### Trailer Sales Soar to Record: Fruehauf

SAN FRANCISCO (AP)—Sales of truck trailers in the first half of this year will exceed 100 million dollars for a new record high, president Roy Fruehauf of the Fruehauf Trailer Co. said this week. He told a press conference this may be the best year in the company's 42-year history. The executive said the company plans to build a new factory on the coast and is searching for a suitable site. He said the new plant would be in the Seattle or San Francisco areas.

#### Blaze at Waterworks

HAMPTON, N.C. (AP)—Volunteer firemen put out a blaze in an automatic pump here yesterday. The pump was on a main town well controlled by the waterworks department.

### Graduating Coed Can't Handle All 3 Scholarships

PAWTUCKET, R.I. (AP)—Jane L. Baltzell has been offered so many scholarships she can't handle them all. Jane is 20 and a Phi Beta Kappa. She graduates from Pembroke College next month. She held scholarships throughout her four years there. Yesterday she was named winner of a Fulbright scholarship for a year of advance study overseas. Three months ago she was notified she won a Rotary Foundation fellowship for a year of study in England. She turned down both because she had accepted a Marshall fellowship for two years of study at Cambridge (England) University. Miss Baltzell's father is an official of the Blackstone Valley Gas & Electric Co. She was born in El Paso, Tex.

### Food Prices Lowest Since April of 1953

NEW YORK (AP)—A new low since April 1953 was registered by the Dun & Bradstreet index of wholesale food prices this week. The index stood at \$6.34 compared with \$6.57 a week ago and \$7.46 a week ago. The previous low was \$6.32 on April 7, 1953. The index represents the total cost at wholesale of one pound each of 31 foods in general use. Foods declining at wholesale during the week included wheat, barley, lard, cheese, coffee, cocoa, eggs and steers. Higher were flour, rye, oats, sugar, cottonseed oil and hogs.

#### Good Neighbors Indeed

OLIVER SPRINGS, Tenn. (UP)—When fire destroyed the home of Mrs. Linda Brandenburg, charitable neighbors rented and completely furnished a new home for her within 24 hours.

### Williams Okays Bill to Cut Bridge Tolls

LANSING (AP)—Gov. Williams put his signature on a bill yesterday which will allow reduction of tolls on the Blue Water Bridge at Port Huron. Sponsors said the reduction may be possible by June 1, 1956, although the bonds probably will not be retired until two or three years after that date. The bill would permit the State Bridge Authority to charge only

those tolls sufficient to cover costs of operating and maintaining the bridge. It is proposed to reduce the automobile fee from 50 to 15 cents.

#### Bank Gives Samples

PRATT, Kas. (AP)—The First National Bank sent out 7,000 invitations to its open house—many to banking firms across the nation. Affixed to each was a bright new penny with this stopper to an ancient joke: "Here's one bank that gives samples."

## St. Mike Pupil Wins Road-E-O

James Barnowsky Is Top Driver in Jaycees' Contest Here

James Barnowsky, 16, of 132 E. Rundell St., a St. Michael High School student, today received the high esteem of his fellow students during a special assembly at which he was awarded the first place trophy in the annual Jaycee Teen-age Road-E-O.

Receiving the high award from Clyde R. Haskill, Road-E-O chairman, James said, "safe driving practice was mainly my help in winning the award."

John LeMieux, 17, of 2266 Negberry Rd., placed second, and Roger Maisson, 17, of 26 Illinois St., won a third place trophy. Maisson is a Pontiac High School senior.

### ELIGIBLE FOR CONTESTS

Haskill said James would be eligible for the forthcoming statewide and national Jaycee contests, in which winners from all over the country will compete for a \$3,000 scholarship and other prizes.

Some 70 participants were on hand last night to take part in the Road-E-O and at least 300 spectators turned out after the affair had been postponed twice because of rain.

Last year's winner, Avery Flay, 20, of 15 Porter St., contributed to the Jaycee program's success, said Haskill.

The panel of judge judges included Loren D. Anderson, Trooper Gerald Taffell, Leonard Buzz, Mel Eller, Fred Peters, James Hursey, Donald Weddie, Donald Bronson and Al Hanson.

## Charge Politics in PTA Platform

Indiana Group Wires Protest at Federal Aid Endorsement

CHICAGO (UP)—A charge of engaging in politics confronted the National Congress of Parents and Teachers yesterday.

Five members of the Indianapolis, Ind., PTA telegraphed protests to the congress, requesting the elimination from the legislative platform of any endorsement of federal aid for education.

The Indiana members said many local PTA units and members were becoming increasingly dissatisfied with the national PTA support of federal aid. Indiana in the last few years had rejected federal aid, they said.

The 1,000 delegates elected a new president, Mrs. Rollin Brown, Los Angeles, Calif. She defeated Harry Reynolds, Winona, Minn., for the post by a vote of 1,102 to 188. Reynolds, the first male candidate for the office in the PTA's 50-year history was nominated from the floor.

Officers for other posts, elected without opposition, were Mrs. James Parker, Grand Rapids, first vice president; Mrs. L. W. Alston, Hattiesburg, Miss., secretary; and James H. Snowden, Wilmington, Del., treasurer.

Mrs. Brown succeeds Mrs. Newton P. Leonard, Providence, R. I.

## Road Resurfacing Contract Is Let

A contract was let to the Ann Arbor Construction Co. yesterday in Lansing for the widening to 22 feet and blacktop resurfacing of West Maple road from Walled Lake easterly to Orchard Lake road, according to Lee O. Brooks, chairman of the Oakland County Road Commission.

The Ann Arbor firm was low bidder at \$141,502. Completion date for the project is Oct. 1 this year.

"The bid was considerably lower than the original cost estimate of \$170,000," said Brooks.

The project is on a federal-aid basis, with the county and Uncle Sam splitting the cost.

SELECTING THE STUDY—Meeting to plan the fall curriculum for the Pontiac School of Religion to be held for six consecutive weeks starting Oct. 3 are: Mrs. George Gaches, chairman of the committee with the Rev. John Mulder, associate pastor of the Central Methodist

Church and dean of the School at her right and the Rev. Edward D. Auchard, associate pastor of the First Presbyterian Church, committee member and a teacher.

## Ike Asks Funds for Atomic Ship

Requests \$12 Million to Begin Construction of Nuclear Vessel

WASHINGTON (U)—President Eisenhower today asked Congress for \$12,650,000 to start construction of the world's first atomic powered merchant ship.

Eisenhower first disclosed plans for building such a ship in a New York speech on April 25. At that time he told the annual luncheon of The Associated Press that the vessel would be sent on a dramatic around the world cruise to demonstrate America's determination to harness atomic power for peaceful purposes.

Since then, the proposal has run into criticism from some Congress members.

Chairman Bonner (D-N.C.) of the House Merchant Marine Committee said the vessel projected by Eisenhower would be some sort of "carnival or Mississippi River showboat." Both he and others suggested building a "practical" atomic powered ship that would carry freight.

Eisenhower's request today for funds to start construction was included in an overall request for \$139,334,014 for additional appropriations for the next fiscal year.

## Queen to Keep Tabs on Voting Late Tonight

LONDON (U)—The lights will burn later than usual tonight in the royal suites on the second floor of Buckingham Palace.

Queen Elizabeth II will sit before a television set to find out how the general election is going. She can't vote, but she has taken a keen personal interest in this first general election of her reign.

It would be the Queen's task—although a formal one—to call on Labor Party leader Clement Attlee to form a government if the Socialists win control of the House of Commons. If the Conservatives maintain their control, Prime Minister Eden simply stays in office without formalities.

If neither Labor nor the Conservative party get a majority sufficient to run the government, Eden would call on the Queen and present his advice. She could call in her privy council—a body of top-flight advisers. Her decision would then be her own. She would try to pick a prime minister who could attract enough votes from both major parties to form a government.

Cotton frequently is called a contraband of war because it is the principal ingredient of smokeless powder and, when combined with nitric acid, produces a powerful explosive.

## House Lines Up 61-44 to Pass Highway Bill

LANSING (U)—The following is the vote by which the House passed 61-44 yesterday, the Senate-approved Coleman highway bill:

Ayes—Bassett, Bolt, Borgman, Bowerman, Boyer, Burns, Folks, Goulette, Hode, Hughes, Litowich, McCune, Sallade, Smith, Van Dusen, Waldron, Warner, Whinery, Wood and Zinn—Republicans 20.

Baird, Bowman, Bradley, Carey Collins, Currie, Dingman, Dzundzel, Edwards, Erlandsen, Edwin A. Fitzpatrick, Hathaway, Horrigan, Hudson, Hunsinger, Jackson, Jacobetter, Jeffries, Kelly, Kowalski, Lindsay, Frank A. Mahoney, Robert D. Mahoney, McCullough, McGee, McNeeley, Mezzano, Nill, Frank J. O'Brien, Penczak, Raap, Romano, Sobieski, Stanislaw, Steeh, Townsend, Wales, White, Williams and Yates—Democrats—40.

Nays—Copeland, Diggs, John J. Fitzpatrick, Golden, McMahon, Michael J. O'Brien, O'Connor, Sumcrack and Wozniak—Democrats 9.

Beardsley, Brigham, Cavanagh, Clements, Cobb, Conlin, Cooper, Crampton, DeBoon, Dunn, Emmons, Engstrom, Fletcher, Gibbs, Gillespie, Green, Horn, Hubbell, Hungerford, Hunsberger, Kolborn, Lohman, Marshall, Massoglia, Meggison, Mielock, Morrison, Nakula, Newton, Olsen, Pears, Peltz, Cyril H. Root, Edison V. Root, Trucks, Van Peursen and Van Valkenburg—Republicans—37.

Present but not voting—Lesinski and Novak—2.

## Man and Wife Treated After Car Is Struck

A Pontiac man and wife were treated for neck and shoulder injuries at Pontiac General Hospital last night after their auto was struck in the rear at Telegraph Rd. and Dixie Hwy.

Treated were Howard J. Wooley, 55, of 110 Pingree Ave., and his wife, Mona. State Police of the Pontiac Post said the Wooley auto was struck by one driven by William Risse, 39, of Niles, Ohio.

## Senate OKs Bill on Jobless Pay

Democrats Offer Little Opposition to Measure Boosting Benefits

LANSING (U)—A Republican-sponsored bill to liberalize unemployment compensation passed the Senate by a 28-0 vote today.

The bill now goes back to the House for approval of Senate amendments.

There was surprisingly little Democratic opposition in the Senate.

House Democrats had attacked the measure as providing too little but except for a token attempt to boost benefits by Sen. Philip Rahol (D-Iron Mountain) the Senate Democrats let the bill go by without much argument.

The measure increases the maximum idleness pay for men with dependents from \$42 a week to \$54, but makes no change in the \$39 minimum for single workers.

The most important change made by the Senate Labor Committee was repeal of the so-called "death penalty" provision which long has been attacked by labor.

NO "DEATH PENALTY" This provision wipes out the work credits of workers who quit a job, take another and then are laid off by the second employer. The committee said this penalized an employee for seeking to better his position.

The Senate corrected what it said was an error written into the law last year.

The error hit mostly small seasonal employers who came under the law voluntarily to benefit their employees.

The employers have been forced to pay up the difference between what they have contributed to the fund and what the state paid in benefits to their idle workers.

Correcting this, the Senate voted

to limit the contributions by any employer to the fund to the present maximum rate—4 per cent of his payroll.

Hawaii produced 1,077,347 tons of sugar in 1954, a slight decrease from the record crop in 1953.

## One Youth Injured in Auto Accident

Four persons were thrown through the fabric top of a convertible yesterday when a rear wheel came off the car, causing the vehicle to roll over into a ditch on Union Lake road.

Only one of the four, Earl J. Lowen, 17, of 1836 Parkdale Ave., was injured. He is reported in good condition at Pontiac General Hospital with neck and back injuries.

The driver, Carl Wreladt, 18, of 5001 Greer Rd., told State Police of the Pontiac Post the left rear wheel came off as he was making a right turn from Union Lake road onto Woodland road.

## Three Avon Children Eat Insect Poison

Three Avon Township children were reported in fair condition at Pontiac General Hospital today after they apparently consumed a quantity of insect poison.

The youngsters, Pamela Jean, 23 months, Cora Lee, 5, and Gordon McKinney, 3, were rushed to the hospital by their parents Mr. and Mrs. Gordon R. McKinney, of 3286 Lockhaven.

They were unable to tell Oakland County Deputy Sheriff Herbert Cross where the children obtained the poison.

## Four Will Celebrate on Saturday

## Quints to Split \$1,000,000 on 21st Birthday

CALLANDER, Ont. (NEA) — Slightly more than two decades ago, five babies were born in dire poverty in this north woods community. On May 23, their birthday, four of these babies who now survive as young women of 21 will come into equal shares of a fortune of approximately \$1,000,000. They are the surviving "Dionne Quintuplets."

Brought up from babyhood as strict Catholics, they have been carefully schooled. Their tastes are simple; none has shown a desire to enter into exciting secular life. Nuns have been their teachers and advisers. Emilie died in a hospital convent last August, stricken with epilepsy. Marie entered a convent with the intention of taking the veil, but poor health forced her to return to her home.

Thus, the miracle of the Canadian forest reaches its climax as Yvonne, Marie, Cecile and Annette Dionne split the fortune which was built up for them when they were the wonder babies of the world.

Mostly in bonds, it will be divided into five equal parts. The share of the late Emilie will then be split up into 14 equal parts, one for each of the Dionne family, including the parents. But perhaps more important to the Dionnes than the money will be the special devotions which they will undoubtedly attend to give thanks for the four lives that have been spared.

## BORN IN POVERTY

The Quintuplets never knew the poverty into which they were born. The ramshackle old house with its uncarpeted floors and outdoor plumbing which stood on what was then an unpaved and alternately muddy or dusty road, was long ago abandoned.

By the time the babies were a year old, money for their support and upkeep in a trim little hospital nursery was coming in from NEA Service for picture rights and

**FIVE OF A KIND** — This picture of the Quints was taken when they were 16 on a visit to New York. Left to right are Marie, Emilie and Annette (front) and Yvonne and Cecile (rear).

from advertisers and merchandisers. The late Dr. Allan Roy Dufour devoted his full time and attention to the babies and two nurses were in constant attendance while a cook and housekeeper supplied the meals.

This may sound like an ideal arrangement, but Mr. and Mrs. Dionne were not happy with it. They still lived in the old family house, with the older children. Mrs. Dionne could not understand why she could not take care of her five new babies, instead of nurses. Dionne did not like any part of the arrangement.

He had no idea, of course, what the cost of caring for the babies amounted to. There was friction, protests, rumors of kidnapping

**BIRTHPLACE** — Ramshackle farmhouse at Callander, Ont., where Quints were born has been fixed up a bit. Here is how it looks today.

ciple of this contract was the foundation stone of the million-dollar Quintuplet fortune.

No special family celebration is planned for the 21st birthday. Cecile and Yvonne are studying at Hospital Notre Dame-de-Exeperance at Ville Saint-Laurent, near Montreal. Annette is attending a convent college in Montreal, specializing in music.

So far none of the sisters has any romantic attachments or plans for spending their money. The family attorney is drawing up a plan for their approval by which they would set up their own trust fund. They will make out wills after their birthday. Under Canadian law they are not permitted to draw a will until they are of age.

**STUDY NURSING**  
Perhaps the most outstanding reflections on the Quints' early lives can be found in the careers of Cecile and Yvonne. They are training to be nurses. This is appropriate since nurses cared for them throughout their youth.

For Yvonne it is especially fitting, since she was named for the

nurse, now Mrs. Fred Davis, lives in suburban Toronto.

The hurry call to head down the wagon tracks to the Dionne home was only the second paid nursing job she'd gotten since she graduated a few weeks before from a North Bay hospital.

## NURSE FAMOUS

Staying with the Quints two and a half years, watching over their frail health, Nurse Leroux became famous. She was a radio headliner and made appearances from coast to coast. To her, the past now has a dreamy quality. She has four children, one only a few weeks old. Her home stands on a 52-acre farm.

Yvonne Leroux was the central figure in the great romance of the Dionne story. World-wide publicity shone down on another individual who was a familiar figure in the Quints' hospital.

He was Fred Davis, the official photographer, the only one allowed to take their pictures. The slim, pretty nurse and the handsome photographer slipped away to Ohio in 1938 and were married after they got acquainted at the hospital. Davis is head of Canadian Pictures, Ltd. in Toronto, a thriving commercial photographic enterprise which covers the dominion.

New York, Ohio, Tennessee and Pennsylvania each have at least four places called Summit.

# U. S. 165 Million Strong Friday

Nation's Census Clock to Tick Off New Figure Shortly Before 9 A. M.

WASHINGTON, May 25 (AP)—This country's population is due to reach 165 million Friday morning. That figure will be ticked off just before 9 a. m. (EDT) by the "census clock" at the Commerce Department building, the Census Bureau said.

The census clock, a large board with a map of the United States and a clock hand indicating total population, ticks off a net increase of one person each 12 seconds. This is done by combining esti-

mates, based on vital statistics from throughout the nation, that there is a birth each 8 seconds, a death each 21 seconds, an immigrant arrives each 2 minutes and an emigrant departs each 24 minutes.

The bureau said early this month that its reports indicated the nation's population stood at 164,595,000 on April 1. That was an increase of 2,833,000, or 1.8 per cent, over the preceding 12 months.

The population reached the 160 million mark midway through August, 1953. The last formal census, in April 1950 put the population at 151,132,000, including members of the armed forces.

Paperhangers once signed their names on the walls they covered to date their handiwork. There are many instances where owners have discovered on removing wallpaper that it had been on the walls 100 years or more.

## Three Killed by Blast in Grain Elevator

WAYNESBORO, Ga. (AP)—Three men were killed and 1 injured yesterday in an explosion in a grain elevator of the Georgia Cotton Producers Assn.

The dead were identified as Joe Jackson, Willis Holmes and the Rev. Reuben Flournoy, who supplemented his ministerial work with employment at the elevator. All the dead and injured were employees of the elevator.

Officials estimated the damage at \$500,000. Cause of the blast was not determined immediately.

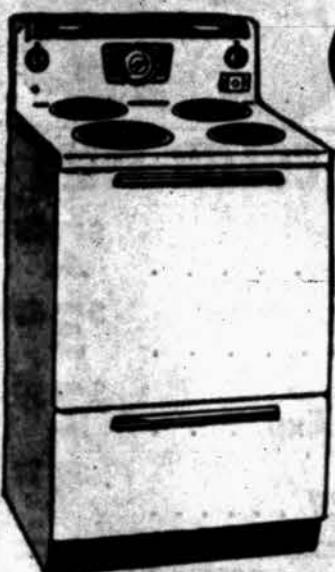

## Auriol in Chicago

COLLECTING STAMPS—4

The Pony Express

In 1849 gold was discovered in California. Almost at once thousands of people streamed across the country in search of the precious metal.

Added to the dangers of crossing the mountains, plains and rivers was the possibility of attack by Indians or highwaymen.

There was no railroad then west of St. Louis. So mail was carried by stagecoach at a cost of \$5 an ounce.

To send mail from one coast to the other more quickly, the government established the Pony Express service in 1860.

The riders traveled on horseback 2,000 miles. The complete trip took 10 days, as compared with 24 days by stagecoach. They changed horses every 25 miles. The service lasted only 18 months until telegraph lines to the coast were completed.

To honor the 95th birthday of the Pony Express service, the United States issued a special stamp in 1940.

The stamps were first sold at St. Joseph, Mo. and Sacramento, Calif., the eastern and western ends of the famed express route.

Color the picture carefully, and add it to your hobby collection.

## East-West Influence Game Seen Shifting to Italy Next

By CHARLES M. McCANN  
United Press Staff Correspondent

Italy is likely to be in the headlines frequently during the next few weeks.

Its political leaders have got to decide whether to continue their loyal cooperation with the Western Allies or to swing toward "co-existence" with the Communists.

There is very little reason to doubt that the decision will be to work with the Allies.

In fact, it is likely that the United States occupation troops now in Austria, numbering about 10,000 may be transferred to northern Italy.

But there are some complications to be ironed out.

Giovanni Gronchi, the new Italian president, would like to

see Italy pursue a policy of "distensione"—easing of tensions.

That, to Gronchi, means a policy of co-existence with the Communists. He favors including the left wing Socialists in the government coalition. The leftist Socialists are fellow travelers with the Communists.

**SCELBA ATTACKED**  
Mario Scelba, the pro-American, bitterly anti-Communist premier, is under heavy attack by enemies in his own Christian Democratic party. These enemies include Gronchi.

A threat of a no-confidence vote hangs over Scelba. Some experts believe he may fall after the Sicilian elections on June 5, if not before.

The United States government

has been worried over the Italian situation for some time. Its anxiety increased after Gronchi's election as president April 29.

It was even reported that American aid to Italy might be cut off. Instead, the United States took another tack.

**SIGN FACT**  
Scelba and Clare Boothe Luce, President Eisenhower's beautiful, brilliant ambassador, signed an agreement Monday by which Italy is to get a long-term loan of \$50,000,000. The loan will be used largely to aid southern Italy, whose poverty makes it a breeding ground for communism.

Russia stepped into the situation yesterday. Pravda, the newspaper organ of the Russian Communist party, said that Italian-

Soviet relations had long been unsatisfactory.

If American troops now in Austria are sent to Italy, Pravda said, "this will further increase the danger of Italy's involvement in military adventures the consequences of which would be serious for her."

Scelba dismissed this as offensive propaganda.

Ambassador Luce leaves for the United States Friday to report to President Eisenhower and Secretary of State John Foster Dulles on what may soon become an Italian crisis.

If the situation gets hot, she will be ready to fly back to Rome on short notice.

Scientists know nearly 13,000 different kinds of atoms.

## Roosevelt University Gives Three Honors

CHICAGO (U)—Roosevelt University, Chicago's 10-year-old school in the downtown district, awarded its first honorary degrees last night during convocation ceremonies in the International Amphitheater.

The degrees were conferred on Earl Warren, chief justice of the United States, Mrs. Eleanor Roosevelt and Dr. Jonas Salk, discoverer of the Salk polio vaccine. They were honored "for their profound contribution to the welfare of youth and to all mankind."

The university, which has an enrollment of 3,000 students, is located in the old Auditorium Hotel building at Michigan Avenue and Congress Street.

Three of the hostesses for the cocktail party and buffet dinner held at Forest Lake Country Club Wednesday evening were (left to right) Mrs. Blaine E. Eynon of Bloomfield Village (wife of the president of the club) Mrs. Stewart W. Nunneley of Bloomfield Village and Mrs. Leland B. Church of Birmingham. The affair honored professional and amateur golfers who are participating in the Forest Lake Wolverine Ladies' Open today through Sunday.

## Sounded Out for Tooting Auto Horn

Father Tells Son He's Being Flirt, Embarrassing Gal

By EMILY POST  
A young man writes me as follows: "Will you please settle this question, Mrs. Post?"

"Today I was bawled out by my father because I tooted the horn of my car to attract the attention of a girl I know very well who was walking on the sidewalk."

"It was not a flirtation with a stranger, but just a 'toot' to say 'hello!' I can't see anything wrong with this, but my father made quite an issue of it, saying that it was not only embarrassing to the girl, but also not the behavior of a properly brought up young man."

"The girl in question didn't seem at all put out—in fact, she waved to me. I was in heavy traffic and had to drive on because of the change in traffic lights."

"I would very much like to know what you think about this."

An ordinary short tooting of a horn that sounds like that of anyone signaling to pass and attracting her attention only because she recognized your car, does not sound bad mannered as you describe it.

I would not, however, make it a habit.

Dear Mrs. Post: My fiancé's relatives are calling on me soon for the first time.

What shall I do and say when they come, and after visits what are my duties to them?

Answer: Behave as you would to any other friendly neighbors when they come to see you. Above all, be simple and natural and friendly. Try not to think about yourself.

A few days after their visit, you go to see them.

Dear Mrs. Post: At a christening, who is responsible for the customary donation to the officiating clergyman—the child's parents or the godfather?

Answer: The donation to the clergyman is an obligation of the child's father. (Sometimes, it is true, a grandparent or aunt or uncle is eager to pay this fee and it is quite proper for the parents to accept.)

**Couple Married in California Rite**

Mr. and Mrs. Lloyd Thompson of Shirley avenue have announced the marriage of their daughter, Joyce, to Mitchell Rook, son of Mr. and Mrs. Allen Rook of Peoria, Ill., on April 20 at Oceanside, Calif.

For the double-ring ceremony, the bride wore a white silk and linen dress with a nylon lace jacket and white accessories. She wore the bridegroom's gift of a strand of pearls and carried a white Bible covered with blue forget-me-nots.

She was given in marriage by Joe Dragovich.

Connie Niccolola of Pittsburgh, Pa., her only attendant, wore a pink linen dress with navy accessories and carried white carnations. Jack Pagal of Chicago was best man.

The couple is serving in the U.S. Navy, stationed at Camp Pendleton, Calif., and will be on leave in Pontiac in September.

The Bauer sisters are professional golfers who have been on golf courses since they were five years old. Mrs. Alice Bauer Hagge (center) is photographed with her sister, Marlene Bauer and her husband, Bob Hagge. They are here from Sarasota, Fla., to take part in the Forest Lake Wolverine Ladies' Open.

## Pontiac Symphony Directors Named

Seventeen names were placed on the board of directors list when election was held at the annual meeting of Pontiac Symphony Orchestra, Inc., Tuesday at Casa del Rey.

Serving through the 1956 season will be Mrs. George Wyman, Kenneth Turner, Mrs. Donald Hogue,

Mrs. L. Raymond Sampson, George Wyman, Mrs. Maxwell L. Shadley, Arnold Hillerman and Mrs. S. B. Sekles.

Other board members elected were Robinson Broncoel, Edward Barrett, Mayor William Donaldson, Clyde Troxel, Mrs. B. B. Housh, Charles Uligian, Mrs. J.

C. Walker and Judge H. Russell Holland.

Mr. Lawrence was elected chairman of the board.

Officers were elected at a board meeting which followed, with Mr. Uligian named president; Richard Poole, vice president; Mrs. Wyman, secretary, and Mrs. Walker, treasurer.

In the president's annual report, Mr. Uligian told of a successful musical season with four concerts, and announced that the 1955-56 season would see one more added. Francesco DiBiasi was commended for his excellent leadership for the orchestra.

Mayor Donaldson thanked the group for its contribution to the Pontiac Foundation.

## Mothers, Girls Gather at School

A special Mother and Daughter Night was enjoyed Wednesday evening by 240 mothers and daughters who gathered at Longfellow School.

Mrs. John Leonard served as mistress of ceremonies and Mrs. Theodore Wiersma was the speaker. Community singing was enjoyed by the group, with Lynn Thompson presiding at the piano.

The invocation was given by Mrs. Robert Dobner. Toast to mothers was given by Cathy Stickney and the toast to daughters was given by Mrs. Gretchen Stickney.

Cochairmen of the event were Mrs. Arthur Oxley and Mrs. James Thompson.

Professional golfers participating in the Wolverine Ladies' Open Golf Tournament Thursday through Sunday at Forest Lake Country Club include (left to right) Beverly Hanson, Marilyn Smith and Mickey Wright. They were photographed at the party held Wednesday evening at Forest Lake Country Club.

## Forest Lake Country Club Hosts Golfers

By JUDITH L. CLEMENCE

Forest Lake Country Club threw out the welcome mat Wednesday evening when members entertained professional and amateur golfers taking part in the Wolverine Ladies' Open Golf Tournament today through Sunday.

Familiar faces of professional golfers seen at the club included the Bauer sisters, Alice and Marlene of Sarasota, Fla.; Mickey

Faye Crocker of Club de Golf, El Uruguay told us that she was particularly impressed by the friendliness of the people in Michigan and those at the club.

Some of the state's best amateurs whom we met during the evening included Mrs. H. G. Marquardt, Mrs. Stewart Nunneley of Forest Lake Country Club, Mrs. Don Weiss of Flint, Sally Sharp of Pine Lake Country Club and Mary Lovell of Birmingham Country Club.

### PINT SIZED GOLFERS

Size doesn't seem to mean anything when it comes to playing this game of golf. Tiny Judy Reynolds of Kalamazoo shoots between a 72 and 86 and tells us, "I'd like to become a professional golfer—but I can't say—I'll just dream."

And speaking of size, the attractive Bauer sisters appeared in lovely cocktail dresses that couldn't have been more than a size 12.

We asked Bob Hagge, a golf pro himself, what it was like to be the husband of a professional golfer, and his answer was, "Just keep a step ahead of them."

Some of the golfers make their homes in trailers, ever ready to be on the go when tournaments are scheduled, and others we found call motels their home.

## Mothersingers Plan June Event

June 14 is the date members of Pontiac Mothersingers have reserved for their end-of-season banquet at Highland Manor.

Plans for the event were started when the group met at the Silver Lake home of Mrs. Charles Chapman on Tuesday evening for the annual meeting. President Mrs. Milton Reddeman appointed committees to work on the affair.

Committee heads and their duties are Mrs. Stoddard Hamilton, arrangements; Mrs. Cecil Diehl, decorations, and Mrs. Sidney Fellows, gifts.

Election of officers followed, with Mrs. Fellows named president; Mrs. Phoebe Van Deusen, vice president; Mrs. Hamilton, recording secretary; Mrs. Reddeman, financial secretary; Mrs. Diehl, treasurer, and Mrs. Roy Beattie, historian.

Mrs. Hamilton will entertain the group with a picnic in July. Rehearsals will resume Sept. 13.

## Club Hears Talk by James Hunt

A program on "Our Philanthropies" was presented by James Hunt, director of juvenile services for Oakland County, when women of the Countryside Club gathered Wednesday afternoon at the Bloomfield Township home of Mrs. J. P. Charles.

Cohostesses for the day were Mrs. Emerson Bowers, Augusta Melser, Mrs. Ray Ridge and Mrs. H. C. Pietscher.

Members recently held a luncheon for 45 guests and members at the Lochlin lane home of Mrs. Paul Terry. Mrs. Clara Diabrow gave a program on "Living With Flowers."

Cohostesses were Mrs. Gene Mitchell, Mrs. Gordon Van Camp and Mrs. Ernest Fuller.

## Berean Class Story Is Read at Meeting

A history of the class, written during the years between 1932 and 1938, was read when the Berean Class of Oakland Avenue Presbyterian Church met at the Alice street residence of Mr. and Mrs. Floyd Levely.

The report had been written by Gordon Sweet, now of Denver, Colo. Conducting the meeting was Q. R. Mahan, president, with Mrs. Donald Wilson giving devotion.

Mr. and Mrs. William Coffing furnished entertainment for the recent gathering and refreshments were served by Mrs. Leroy Koch, Mrs. Marion Brown and Mrs. Wilson. Lilac bouquets were used in decoration.

These women need a great deal of rest—some of them told us they require as much as 10 hours sleep each night. And they constantly remind each other how important this rest is.

Committee chairmen for the tournament include William F. Newberry, general chairman; Russell M. Downey, vice chairman; Blaine E. Eynon, executive committee and Dr. Edwin J. Dobski, first aid.

The club which has not been opened yet a year is done in exquisite paneling, and geraniums were brought in to decorate each of the dining tables.

Much of the credit for the growth of the club, members say, goes to its president, Blaine E. Eynon of Bloomfield Village.

Our hosts for the evening were the Melville Werners of Birmingham.

## Two Study Methods of Volunteer Bureau

Mrs. C. M. Shelton Jr. and Mrs. Calvin Dennison were sent as delegates from the Central Volunteer Bureau to Detroit on Wednesday, to study that city's Volunteer Bureau methods and results as reported at the annual meeting.

The two will present their findings to local members who are laying plans for an area-wide recruitment month in September.

Both bureaus act as clearing houses for persons desiring to donate their services to health, social and civic agencies of their areas.

CARROLL BERQUIST

Carroll Berquist, the daughter of Mr. and Mrs. H. J. Berquist of Jonquil street, will graduate Saturday from Mercy School of Nursing in Detroit. Commencement exercises will be held at the Detroit Institute of Arts Auditorium.

## THE PONTIAC PRESS

# Women's Section

THURSDAY, MAY 26, 1955

PAGES 32-37

Mrs. Grant McDonald (left) of Clintonville road accepts the gavel from Mrs. Gordon Bennett of Saginaw trail, Drayton Plains, at the Wednesday meeting of the Newcomers Club of Pontiac. Mrs. McDonald will head the group as president for the coming year.

ELAINE ELBLING

The Alex J. Elblings of Pontiac and Detroit announce the engagement of their daughter, Elaine, to Kenneth Murray Schott, son of the Alex Schotts of Windsor, Ont. Elaine is a graduate of the University of Michigan and Wayne University. Kenneth is serving with the U. S. Air Force. An Aug. 7 wedding is planned.

Hotel Pontiac is the scene of the first state Navy Mothers Convention which began Wednesday morning. Pictured looking over a list of activities for the affair which will conclude this evening are (left to right) Mrs. Frank Riley of Drayton Plains, commander elect; Mary Penn Jones of Dearborn, national state set-up chairman; Mrs. Joseph W. Kelly of Milwaukee, national commander; and Mrs. Vinton Ball of Virginia avenue.

## Personal News of Interest in Pontiac

Mr. and Mrs. George S. Ryan of East Moline, Ill., will arrive Saturday to spend Memorial Day weekend with their daughter, Mrs. Charles Fishwild of Fullerton street.

A family reunion will be enjoyed by the Ryans during their visit. Mr. Ryan is 81 years of age and Mrs. Ryan is 80. They will be honored by their two sons, two daughters and five great-grandchildren.

Mr. and Mrs. Herbert Spurr and son, Charles, of Yuma, Ariz., will be the houseguests for several days of her mother, Mrs. Trean H. Bond of South Tasmania avenue.

Mrs. F. Theodore Beckley, daughter of Dr. and Mrs. Aben Hoekman of Hamilton drive, is a candidate for a bachelor of arts degree from Wittenberg College, Springfield, Ohio. The 110th annual commencement exercises will be held June 6.

Mrs. Beckley has been treasurer of her sophomore class, vice president of the junior class and is a member of Shifters, Boosters Club and Kappa Delta sorority.

Larry C. Cates of Barkman road has been elected vice president of Sigma Alpha Delta fraternity at Ferris Institute.

Eugene H. Pattison, son of Mr. and Mrs. Harry H. Pattison of Pontiac trail, was recently elected to Phi Sigma Pi, national scholastic honor society, at Alma College. He has just completed a year's term as editor of the college paper, The Almanac. He is also a member of Lambda Iota Tau, national literature honorary, and is president-elect of Parnassians, college literary society.

Eugene was one of two juniors chosen this year for listing in the publication "Who's Who Among Students in American Colleges and Universities."

Out-of-town guests who attended the weekend marriage of Jeanette Larvick of Elm street to Eugene Spring of St. Ignace were Mrs. Esther J. Gustafson

DORIS PULIS

Mrs. Elizabeth Powell of Center street is announcing the approaching marriage of her daughter, Doris Pulis, to George Cook. He is the son of Harry J. Cook of Rochester. The wedding ceremony will be performed Saturday.

of Minneapolis and Vera and Charles Gilbert of Tecumseh.

John Chalmers Whaley, son of Mr. and Mrs. Harvey Whaley of Winslow avenue, will deliver the salutatory address at the Saturday graduation exercises at Bob Jones Academy, Greenville, S. C. In addition to his diploma, John will be presented with the Bausch and Lomb Honorary Science Award Medal for achieving the highest scholastic record in science during his high school career. He has been named to the honor roll every semester while enrolled at Bob Jones Academy and has been active in the band. He served as associate editor of The Triangle, student newspaper; as chairman of the senior class and of the Mohawk Literary Society.

Jan Fairbanks, daughter of Mrs. O. G. Fairbanks of Niagara avenue, was recently initiated into Gamma Psi Chapter of Delta Zeta sorority at Central Michigan College.

Mr. and Mrs. Donald Bryson of Drayton Plains announce the birth of a daughter, Deborah Ann, May 20 at St. Joseph Mercy Hospital. Grandparents are Mr. and Mrs. Donald Conklin of Greenbush and Mr. and Mrs. Charles Bryson of Marshall street.

Mr. and Mrs. Leon J. Cobb of Fairgrove avenue are the proud parents of a son, David Jerome, born May 18 at Pontiac General Hospital.

Mr. and Mrs. Frank M. Covert of Clarkson and Dr. and Mrs. Leon F. Cobb of Frall street are the infant's grandparents.

Mr. and Mrs. Joseph M. Newlon (nee Lois Blackwell) of Emerson avenue wish to announce the birth of a son, Robin Lance, May 10 at St. Joseph Mercy Hospital.

The infant's grandparents are Mr. and Mrs. John C. Blackwell of South Marshall street and Earl S. Newlon of West End avenue.

### Metropolitan Units Conduct Memorial

Metropolitan Club Spirit Six and the Ladies Auxiliary held a joint memorial service recently at VFW Hall 1370.

The Rev. Carl Nelson of St. John Evangelical Lutheran Church gave the memorial message. Jesse Quick, president of the Spirit, conducted the meeting and service.

Serving on the memorial committee were Mrs. John Morse and Mrs. Ralph Dean. Taking part in the service were William Nesbitt, William Brown and Mr. Morse.

## Wayne Professor Speaks After Music Guild Dinner

In a program which followed the annual May banquet of the Pontiac Music Guild, held Tuesday evening at First Congregational Church, Dr. Henry Hermann addressed the group on the relationship of the private music teacher and the allied arts.

He is a member of the Wayne University School of Education.

Francis Capucille, soprano, sang two selections accompanied by Charles Wilson.

The program concluded with the showing of colored slides taken in Europe last summer by Allan Copley, Pontiac visiting teacher.

Guests joining the 35 members present were Mrs. Elmer Hudson, Mrs. William Hall, Mrs. Roy Wright, Mr. and Mrs. Harold Rees, Mrs. Don Derragon Jr., Joseph

Sutherland and Mr. and Mrs. Harry Kroher.

Completing the list were Mr. and Mrs. Blenford Shaver, Mrs. Virginia Hogle, Mrs. Constance Walker, Walter Schmitt and E. C. Russell.

A picnic at the Keego Harbor home of Mr. and Mrs. Claude Kimler is planned for June 28.

### Dinner-Dance Set

A formal dinner-dance Saturday will be part of the weekend festivities at Bloomfield Hills Country Club. Dinner will begin at 8 p.m. and dancing will be enjoyed from 9 p.m. until 1 a.m.

Golfing will take place at the club Saturday, Sunday and Memorial Day.

# Kingswood Girls in Midst of Pre-Vacation Party Whirl

By RUTH SAUNDERS  
BLOOMFIELD HILLS — The graduating class of Kingswood School Cranbrook and some of the undergraduates are busy with a round of parties before separating for the summer.

Melinda Booth gave a dance for the seniors Saturday evening, and Sunday afternoon Judy Earl entertained the day student seniors at a party in her home on 14-Mile road.

Barbara Smith of Algonac and her parents entertained a group at the Grosse Pointe Yacht Club, and this Saturday "Jolly" Kellogg, Patricia McKenna and Barbara Buhs will be hostesses at a garden party at the Kellogg home.

Gail Smith is planning to entertain at her home on Martell drive Sunday after the baccalaureate service, and Ellen Flint will give a party right after the graduation ceremony next Friday afternoon.

Judy Frost, not yet a senior, will give her annual swimming party at Orchard Lake Country Club the week of June 6.

Mr. and Mrs. Otto Kern will entertain at a family supper party June 5 for their nephew, Victor H. Taylor, and his fiancée, Mary Boyer. The affair will be given in the Kern home, "Westview," on East Long Lake road. "Bud" and Mary will be married June 11.

Parties are continuing for bride-elect Nancy Burgess who will be married June 25 to Dr. Thomas S. Torgerson.

On Monday Nancy's god-mother, Mrs. Charles E. Davy, and Mrs. Walker T. Wright gave a tea in the Davy home in Detroit, and on Wednesday Mrs. Daniel Hulgrave and Mrs. Ramond A. Vogel gave a luncheon and shower at the Detroit Athletic Club.

Dr. and Mrs. John M. Wakevainen will give a "His" and "Hers" supper party Sunday with Mrs. Wakevainen's mother, Mrs. Carl F. Unruh, and next Wednesday Mrs. Stuart A. Cogsdill is giving a luncheon for Nancy at Bloomfield Hills Country Club.

John J. O'Gorman Jr. will be host to Miss Burgess and Dr. Torgerson at the dinner-dance Saturday at Bloomfield Hills Club.

Mr. and Mrs. Ernst F. Kern will give a cocktail party Saturday before attending the opening dinner-dance at Bloomfield Hills Country Club.

Bloomfield Open Hunt will also be very gay Saturday evening when the pool, new last year, is opened preceding dinner.

A group of juniors has scheduled a program of events and there will also be senior competition and a professional diving champion to give an exhibition.

## Gelatin Pie Is Flavored With Banana Mrs. W. H. Lakkari Tops Pastry Treat With Marshmallow

By JANET ODELL  
Pontiac Press Food Editor

You've heard of Banana Cream Pie, we're sure. But have you ever heard of Banana Chiffon Pie? This recipe is new to us. Banana lovers should "go for" it.

Mrs. W. H. Lakkari, today's contributor, is an extremely talented person. We visited her in her home recently and enjoyed seeing her pictures and her pieces of sculpture. She is currently exhibiting at the local art show in the Pontiac Public Library.

### BANANA CHIFFON PIE

By Mrs. W. H. Lakkari  
1 tablespoon gelatin  
1/2 cup orange or pineapple juice  
3 ripe bananas  
2 tablespoons lemon juice  
1/2 teaspoon salt  
2 eggs  
2 tablespoons sugar  
1/2 cup heavy cream  
1/2 cup marshmallow fluff  
Maraschino cherries  
1/2 cup chopped nuts

Soften gelatin in fruit juice. Mash bananas and add lemon juice, salt, slightly beaten egg yolks and 2 tablespoons sugar. Cook in a double boiler until thickened, stirring constantly.

Remove from the heat, stir in the gelatin and cool. Beat egg whites, gradually adding 1-3 cup sugar. Continue beating until stiff and fold in banana mixture. Pour into a pie shell and chill until firm.

Before serving top with cream slightly beaten and then beaten with the marshmallow fluff. Garnish with sliced bananas dipped in lemon juice and maraschino cherries. Sprinkle with chopped nuts.

### Blue Star to Hold Memorial Service

A memorial service will be conducted by Blue Star Mothers, Chapter Four at Perry Mount Park Cemetery at 11 a.m. Monday. A wreath will be placed at a soldier's grave.

The group took part in the Armed Forces Day parade and has been invited to serve at the DSO at Ft. Wayne.

A group of young women under the guidance of Mrs. Maynard Andrus have been working on decorations and costumes for waitresses. A real plantation atmosphere will be created with balls of cotton decorating trees and shrubbery.

### HOME FROM SOUTH

Mrs. Charlton G. Eden and her daughter, Patty, have come up this week from the house in Palm Beach, Fla., where they have spent the last six months.

Mr. and Mrs. A. S. McEvoy have gone to White Fish Bay, Wis., to spend the holiday week-end with their son-in-law and daughter, Mr. and Mrs. P. C. Anderson.

Mrs. Frank Tyson has returned to her home in Princeton, N. J., after a visit with Mr. and Mrs. John B. Poole.

Mrs. William Boyce Picketts of Cranbrook School has entertained at a series of teas in honor of her mother, Mrs. George P. Meyers. Mrs. Meyers is here with Mr. Meyers from their home in Fresno, Calif.

### GOING TO EUROPE

Mr. and Mrs. Hubert V. Davis of Cranbrook are planning another trip to Europe. They sail June 14 accompanied by LuAnne Aulepp, Carolyn Bay and Sandra Frost, their son, Dwight Davis, John Plexico and Rudrick Bouchier.

Many affairs are planned for the weekend of June 10 when Mr. and Mrs. George Ruppe come from their home in the Upper Peninsula for a visit with their sister, Mrs. Ralph L. Polk of Lone Pine road.

Mrs. Polk will give a dinner, Mrs. James Q. Goudie will entertain at luncheon for them and Mr. and Mrs. Graham J. Graham will give a dinner.

BETTY MAE JOHNSON

Mr. and Mrs. Axel Johnson of Voorheis road announce the engagement of their daughter, Betty Mae, to Willard Glenn Lotan. He is the son of Mr. and Mrs. William Lotan of Lonsbury street. No wedding date has been set.

Cranbrook Music Guild will hold its annual meeting June 13 at Cranbrook House. After the meeting, Robert D. Kerns will give a song program and Mrs. Martin, L. Archangeli and her hospitality committee will serve coffee.

Assisting Mrs. Archangeli will be Mrs. Edward A. Proctor, Mary Buick, Mrs. Robert P. Nevin, Mrs.

William Bird and Mrs. Walter T. Bromley.

TRAVELING TO PARIS  
Joan Bookmeyer sailed Wednesday to meet her parents, Dr. and Mrs. R. M. Bookmeyer, in Paris. After a fortnight the family will return home together. Dr. and Mrs. Bookmeyer have been traveling in Europe for a month.

## Girls Look Forward to Day-Camp

Surrounded by nature's beauty, with well-trained adult guidance and carefully planned activities, 200 girls in the Camp Fire program throughout Pontiac can count on a wonderful two weeks at day-camp this summer.

For the first time in the history of the Pontiac Council of Camp Fire Girls, there will be two day-camp sessions. This was necessitated by increased enrollment, interest, and understanding of day-camping, and the integral part it plays in the Camp Fire program.

Each session will run Monday, Tuesday, Wednesday and Thursday for two consecutive weeks: The first session, the weeks of June 20 and 27, and the second, the weeks of July 11 and 18.

The children will be taken to their campsite on Gulick Lake near Clarkston by buses, leaving from the corner of Saginaw and Mount Clemens Sts. at 8:30 a.m. and returning there at 4 p.m.

### LIVING OUTDOORS

Each day will offer new experiences for the girls. Learning to live comfortably in the outdoors is the key to the day-camp program. The girls are divided into small units of 9 to 12 girls, each unit having a trained volunteer leader and assistant.

There are periods of planned activities and free time for each unit, during which time the girls will play a variety of games from "make-believe" to "hide and seek"—from nature games to story-telling games.

Singing, dancing, hiking, sports, nature study and crafts will be thoroughly "investigated" by each girl during her two weeks at day-camp.

The hit of the summer is always the lunch period when all units have a cook-out. After a morning of energizing over the 120-acre site,

appetites are hardy, and nothing seems to taste as good as your own cooking over an open fire.

Some of the hit menus of the season might be gingerbread upside-down cake made on a reflector oven, chicken baked in aluminum foil, flapjacks on a tin-can stove,

or chop suey, spaghetti, goulash and other one-pot meals.

After lunch and rest period, the girls continue with their program for the day. Before the closing of camp, however, each unit has a planning period.

### WORK TOGETHER

At this time the girls decide

what they wish to do the next day, and divide the responsibilities. It is at this time especially that the girl benefits from the group experience of living, working, planning and playing together in cooperation with good leadership.

Through this experience the child develops a respect for other's opinions, responsibility, cooperativeness, self-control, a sense of fairness, and a greater understanding of the democratic way of life.

The leaders at Camp Fire Girls' day-camp are volunteers who lead and assist groups in Pontiac during the year, mothers, and interested women who have offered their help. Teenage girls from Horizon Club, Camp Fire's senior division, will also be at day-camp to serve as camp-aides.

All Blue Birds, Camp Fire Girls and Horizon Club Girls are eligible to attend either session of day-camp. The registration deadline, originally set as May 31, has been extended to June 11, due to numerous requests.

JOAN and ROBERT WYZGOSKI

Joan Agnes Wyzgoski, daughter of Mr. and Mrs. John Wyzgoski of Middlebelt road, will graduate Saturday from Mercy School of Nursing. The ceremony will be held at the Detroit Institute of Arts Auditorium. Robert Wyzgoski will graduate June 5 from St. Mary College at Orchard Lake.

## Conversational Problem Plagues Girl Who Is Shy

Miss Woodward Offers Her Consolation Along With Several Helpful Solutions

By ELIZABETH WOODWARD

"Dear Miss Woodward: I'm on the shy side, but I know that if I could think of something to say at the time I should, instead of afterwards, I'd gain a little more self-confidence.

"Whenever I'm out on a date I want so much to make a hit and I always seem to say something that gains no response or is just something to say.

"It would be so nice to be a good conversationalist—it would relieve me of the necessity to neck which I don't want to make a habit of.

"I'm known as a quiet girl, and when a boy tells me that it makes me all the more tongue-tied. Can you help me out?"

Some girls are conversational whizz-bangs. They can talk and talk without stopping—and without saying much of any account either.

They make a lot of noise—and shy boys in particular adore them. They (the boys) don't have to say a word.

A quiet girl can make her own mark without making constant noise. It's knowing when to talk and why—and when to listen.

### CONVERSATION IS KEY

Conversation is our human means of communication. Its main purpose is to help us know each other better. It's really just a means to an end.

A quiet girl can show a terrific interest in what's being said and done around her. And that interest can show. It's giving your full attention to your date.

It's acting as though what he says is hilariously funny, an intriguing thought, a particularly sound argument. It's keeping your eyes on him when he talks.

It's smiling comfortably in the little silences that are bound to come.

A quiet girl needn't be dumb. She can be up on the news of the day. She can read and listen and absorb so that she's always aware of what's going on in the world.

Then she'll know what's meant when somebody brings up a topic—and can add an impression or idea of her own.

### ARGUE QUIETLY

A quiet girl can argue. Quietly and reasonably. It makes good conversation. Boys don't like to be argued with constantly. They like to strike sparks of differing opinions.

Of course, a girl has to think a bit, no matter how quiet she is, in order to produce arguments that will keep the ball rolling.

A quiet girl can talk to boys about the things they like to talk about so that they do most of the

talking. She doesn't have to know everything about their hobbies, but she can ask leading questions.

She can think what they like and do is fun. Such approval will keep them talking.

A quiet girl can produce a sense of humor so that she'll see a joke, and be able to make one. She can be appreciative when a conversationalist is tossed her way.

And she can be a very good listener, indeed. Though far from noisy, she can prove that she's alive, aware and very much present.

Boys like that kind of girl.

### Class of '05 to Meet

Pontiac High School's class of 1905 will hold its 50th anniversary reunion Friday evening at the West Huron street residence of Mr. and Mrs. Frederic L. Ward.

## Oakland Hills Club to Feature Dance

Members of Oakland Hills Country Club will gather Saturday evening for a dinner-dance at the club.

Sunday and Memorial Day members and their guests will take part in swimming, tennis and golf.

Buffet dinners will be served Sunday and Monday evenings.

## Print Leather Shoes

Something new has been added to the 1955 shoe wardrobe—print leathers in smartly styled footwear designed for street wear as well as after-5 occasions.

## Look Before You Leap Into Venture

By ANNE HEYWOOD

Remember the old story of the child who had a sweet tooth? He could not resist candy.

His family let him work just one week in a candy shop, after which he could never look at the stuff again.

GAYLE BROWN

Mr. and Mrs. Leo Brown have announced the engagement of their daughter, Gayle, to Gerald Reynolds. He is the son of Mrs. Sidney Reynolds of LaSalle avenue and the late Mr. Reynolds. No date has been set for the wedding.

There's a lot to be learned from that, in the vocational field.

Many of us get excited over some product or service and are convinced that we'd love to work in the field; but once we get into the production end, the magic soon vanishes.

## OTHER ASPECTS

People who have stayed at hotels, for example, think the hotel field must be perfectly fascinating.

They see only the glamour and none of the plumbing.

When they get into the actual day-to-day routine of the hotel business, they find it less fascinating.

Here is a letter from a woman in her early forties, which illustrates what I mean.

"My husband and I have always wanted to go into business for ourselves. We have some capital and want to open a really nice trailer camp.

We have stayed at many, because we take motor trips every year during our two weeks vacation.

Please tell us how to go about it, how much capital is needed, which locations are the most promising, etc."

## NOT LONG ENOUGH

Because they have spent a few weeks in trailer camps, from time to time, they think it would be just dandy to run one.

In the first place, they have never actually stayed in any given one longer than a few days, so

they don't know, even at second-hand, much about the day-in-day-out operation.

Being on the run all the time is one thing; staying in the same spot week after week—let alone year after year—is another matter.

My suggestion to this couple is

JEAN ELIZABETH DEMO

Mr. and Mrs. Clifford Demo of Cass City wish to announce the engagement of their daughter, Jean Elizabeth of Feneley court, to Jake Ramig Jr. He is the son of Mr. and Mrs. Jacob Ramig of Melrose avenue. No date has been set for the wedding.

that they really examine their idea very carefully.

First of all, start staying two weeks at the very same trailer camp.

See if you can stand the people and the way of life, when it is not broken up by motoring to new places.

In the next year or two, try to get a leave of absence; say a month, or better still, two months, and work at a busy trailer camp.

Take any kind of job and see if you really enjoy the work and the people.

If, after that, the idea still appeals to them, I'll be happy to advise them on the specific problems of setting up such a venture.

## Former City Girl to Reign at Picnic

Prerequisites for being named to represent Michigan as Michigan Princess at the All-States Picnic in Ontario, Calif., call for the young woman to be between the ages of 16 and 21, a native of Detroit and a California resident.

And 16-year-old Marie Faith Ferrell has met those qualifications to reign supreme in this capacity on July 4. A junior at Monrovia Duart High School, she is the daughter of Mr. and Mrs. James D. Ferrell of Monrovia, former Pontiac residents.

A mile-long picnic table and a parade are features of the picnic where friends gather periodically to renew acquaintances.

## Coming Events

Child Culture Club will meet at the home of Mrs. Gilbert Hoffman, 343 E. 10th St., Thursday at 8 p.m.

Ladies Auxiliary, FCM 1235, will meet this evening at 8 for initiation and memorial service in the hall, 289 W. Monrovia St.

VFW Auxiliary 1276 will meet in VFW Clubrooms at South Saginaw and Grand St., May 27 and 28, for Poppy Day sale.

Benefit card party will be held by VFW Auxiliary 1276 at the VFW Clubrooms on June 1. Next meeting will be June 14 at 8 p.m.

Rather Court 12, Order of Amaranth, will meet Friday at 8 p.m., 23 State St.

Greenwich observatory was founded in 1875.

U. S. Relents

U. N. Birthday Delegates Will See Original Charter

UNITED NATIONS, N. Y. (AP) — With some legal trepidation, the United States has agreed to let the United Nations borrow the U. N. Charter.

The charter, basic document of the U. N., was signed at San Francisco June 26, 1945. The U. N. will mark the 10th anniversary there next month, and wanted to exhibit the original document.

A problem then arose: how to get it. The United States has it in Washington under an arrangement the charter itself spells out. Article III provides for deposit "in the archives of the government of the United States of America."

The U. N. had no home of its own when that was written; it was natural that the charter be turned

over for safekeeping to the government that was host at the organizing conference.

Recently the U. N. asked the United States to lend the charter for exhibition at San Francisco.

One inside source says: "The main reaction from the legal fraternity was, 'You simply can't do that, you know.'"

State Department lawyers held

that the U. S. government would be violating Article III.

Negotiations followed. Finally it was decided the U. N. might have the charter if it would pick it up in Washington, take it to San Francisco and return it.

Arrangements to do that are being made. The charter will be on display in the Veterans' Memorial Hall, where it was signed, next

door to the opera house, where it was drafted.

The document is in English, French, Chinese, Russian and Spanish. Pages 10 by 13 inches are bound in blue morocco.

All told, 1,008 copies were printed on various stocks and in various bindings. Nearly all were distributed to member countries.

The U. N. itself has none of these copies. Its own archives have a facsimile sent from Washington to a cheap paper binding. In its library is another published by the University of California Press in blue cloth.

Ambitious Collegian Earns Tidy Income

ROCHESTER, N. Y. (UP)—Robert R. (Robin) Barrett, a senior at the University of Rochester, is to put it mildly—a busy man.

When he isn't studying or attending classes he's apt to be found digging graves, selling vacuum cleaners or writing about college sports for the Rochester Times-Union.

Barrett is working his way

through college and doing so well at it that he made \$3,000 last year.

Barrett, who lives at nearby Pittsford, begins a typical day at 6:30 a. m., driving after breakfast to the newspaper to drop off his sports copy.

Then he goes to classes "until 1:30 p. m., on to Pittsford Cemetery to dig a grave or two, more vacuum cleaner selling until 10 p. m.

He maintains an average of C plus.

To Blanket Blazes

CHICAGO (AP) — How to use a blanket in hospital fires is explained in a new manual distributed to the Chicago Civil Defense Corps. Written by fireman Robert McGrath, it says a blanket can be used to smother fire, drag patients from rooms or as a stretcher to carry patients down stairways.

It has been estimated that New Yorkers lose \$28,000,000 annually to swindlers operating fake charities.

# Michigan Cherries Fill Nation's Pies

**By JANET ODELL**  
**Pontiac Press Food Editor**  
 (Editor's note: This is the second in a series of articles devoted to food produced in Michigan. Our state's part in the Life Line of America is a large one. From grower to consumer makes a fascinating story. In this one we present tart red cherries.)  
 What does it take to make a cherry pie? It takes more than a cook who can make good pastry.  
**THE RIGHT LOCATION**  
 It takes just the right geographical and climatic location for grow-

ing the trees. In Michigan that is the Grand Traverse area where most of the state's tart red cherry trees flourish. Here, in the first decade of the twentieth century extensive planting of these trees were made on Old Mission peninsula.  
 With the decline of lumbering it was necessary to find some product that would utilize both the land and the available manpower. Cherries had always been a popular fruit to grow. Prior

even to 1835, pioneer settlers had planted cherry trees.  
 The Grand Traverse area, influenced by the large bodies of water nearly surrounding it, has lower spring temperatures than the rest of the state. This retards the trees until danger of frost is past. By the same token, the long cool falls without early frosts permit the wood to mature and a good growth of cover crop to develop. The moist atmosphere and freedom from extreme winter weather

tend to prevent serious winter injury. It is an ideal situation for growing cherry trees.  
**IT TAKES TIME**  
 It takes time. Cherry trees are grafted onto seedling stock, then transplanted from the nursery when they are one or two years old. It takes another two or three years of fertilizing, pruning, spraying and general care before they are ready to bear for market.  
 In 1917 an improved pitting machine provided great stimulus to

the industry. Combined with better transportation facilities, this determined the place of the cherry canning industry in the state.  
**IT TAKES SKILL**  
 It takes skill. The fruit grower who gets the most out of his crop must use the latest scientific methods or lose out. Standards at the canneries are high, and only superior cherries are accepted for processing.  
 It takes a skilled man to pick cherries. Not that any great scientific know-how is needed, but one cannot make a decent day's wages if he is not able to pick rapidly and carefully.

Lower grade fruit is used for jam. In the case of the tart red cherries only water is added before processing. As the plants are equipped to handle 200 cans a minute, it is only a matter of hours from the tree to the processed cherry.  
**CHERRIES SOLD FRESH AND FROZEN**  
 In recent years many of the cherries are frozen. One local freezer plant here in Pontiac used to offer large cans of frozen sour cherries for the consumer to repack in smaller containers. There is an increasing demand for the fresh product also. Roadside stands do a landlubber business during the harvest, and truckloads of fresh cherries go to Chicago daily.

**SPRING FLOWER POTS** — Ice cream is so versatile. There are countless ways to dress it up before you freeze it or when you're ready to serve it. One of the gayest ways is to make flower pots out of ice cream cones and flowers from gumdrops. The "good earth" is ice cream.

## Fancy Ice Cream Treats Bring Joy to Teen Hearts

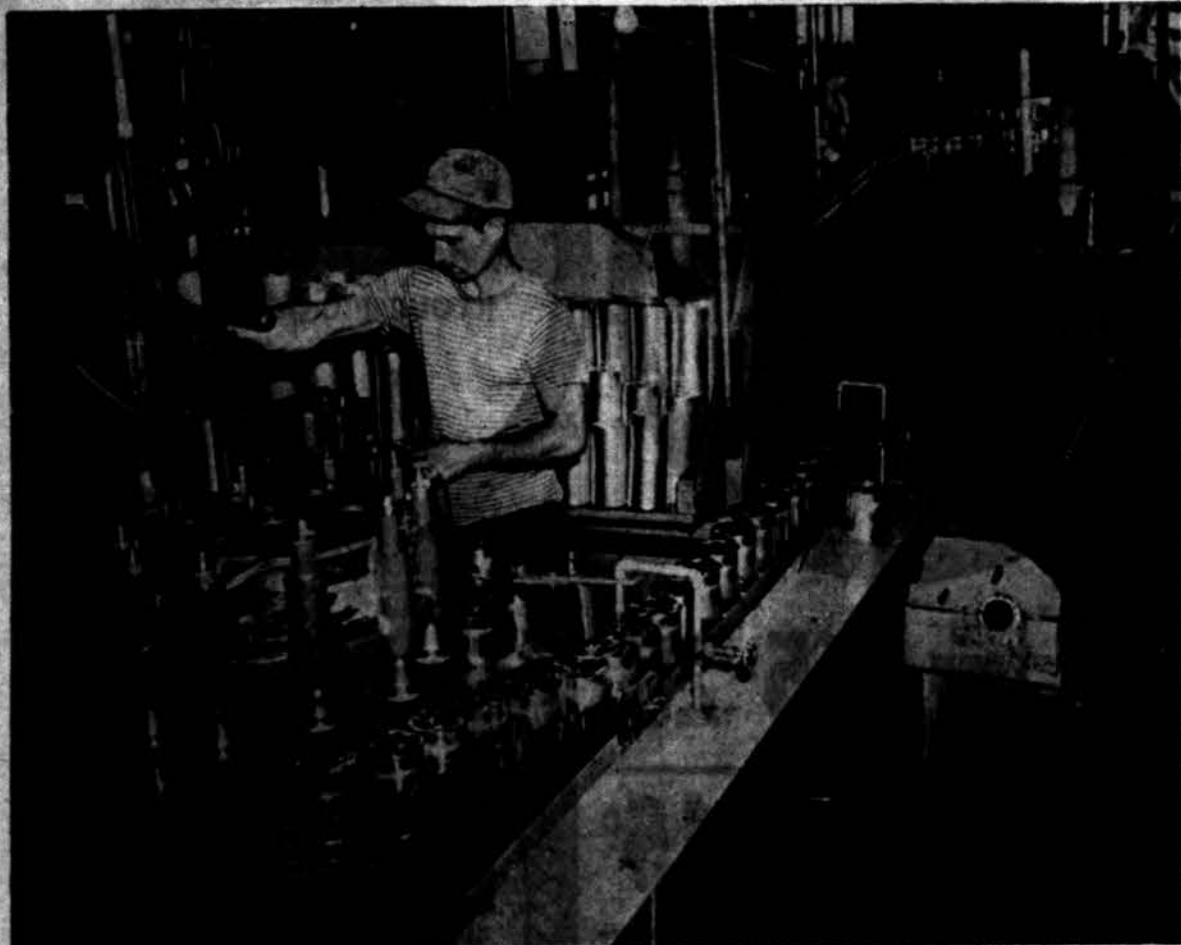

If your teenage daughter entertains her crowd often you need a good reserve of party refreshment ideas for her. These young cooks enjoy easy-to-prepare recipes with just enough "fuss" to make them fun. That's why prepared mixes are so wonderful for them to use.  
 Flavored freezing mix, for instance, is perfect for year-round party refreshments. It takes just minutes to whip up a batch of smooth ice cream. But, best of all, it needs no second beating — it's ready to freeze in fancy molds or refrigerator tray.

**Spring Flower Pots**  
 1 cup heavy cream  
 1 cup milk  
 1 package vanilla freezing mix  
 10 waffle cups  
 1/2 cup crushed chocolate wafers  
 Colored toothpicks  
 Multicolored gumdrops  
 Gumdrops leaves  
 Combine milk and cream in a deep bowl. Whip until a deep layer of foam forms — takes one to two minutes. Add contents of package of freezing mix. Whip one more minute to dissolve. Pour into refrigerator tray and freeze until firm, but not too hard.  
 Cut ice cream in slices 1 to 1 1/2 inches wide. Roll in shredded coconut. Return to freezing compartment until ready to serve. For each serving, garnish two coconut sticks with a generous helping of strawberries.

## Combine Berries and Citrus Fruits

Here's a delightful way to serve strawberries.  
**Strawberry Citrus Bowl**  
 1 large grapefruit  
 1 large orange  
 1 pint basket strawberries  
 1/2 cup sugar  
 Cut rind from grapefruit and orange so no white membrane remains. Cut sections away from dividing membranes. Do this over a bowl so as to save juices.  
 Hull strawberries and wash with cold water; if berries are small, leave whole; if they are large cut in half.  
 Mix berries with sugar; more or less sugar may be added according to taste.  
 At serving time, put orange and grapefruit sections with juice in a glass serving bowl; carefully spoon sweetened strawberries over the top.  
 Makes four to six servings.

**Chocolate Macaroni Pie**  
 1 cup heavy cream  
 1 cup milk  
 1 pkg. chocolate freezing mix  
 1/2 cup shredded coconut, cut fine  
 1 package frozen strawberries, thawed  
 Combine milk and cream in a deep bowl. Whip until a deep layer of foam forms — takes one to two minutes. Add contents of package of freezing mix. Whip one more minute to dissolve. Pour into refrigerator tray and freeze until firm, but not too hard.  
 While ice cream freezes, make coconut crust. Mix crumbled coconut, sugar and butter thoroughly. Press into 9-inch pie pan. Chill.  
 When ice cream is frozen, pile in to coconut crust, decorate with puffs of whipped cream and toasted coconut.

**TWO HUNDRED CANS A MINUTE!**—A worker in one of Traverse City's cherry canning plants supervises the cans of cherries as they are filled and go down the line for processing. A major portion of

the Nation's cherry pies are made from fruit canned in the Grand Traverse area.

## Two-Way Chocolate Cake Furnishes Double Treats

No need to ask. Chances are chocolate is a favorite flavor in your family. So what do we offer? This two-way chocolate cake to add to your easy dessert ideas.  
 The base is a new devil's food mix that comes in a 20-ounce package.  
 This mix has just one preparation step. You dump it into a bowl along with egg and water and beat for three minutes. If you want to add milk instead of water, go ahead; but your cake will be a little drier than it is when water is the liquid.  
 To make a two-way dessert, bake the cake in a large pan and then cut it in half crosswise. Turn one half into a luscious banana cream combination to serve at once.  
 Store the other half in a covered container; the next day join it with vanilla pudding, embellish it with almonds, and you have another and different dessert.  
 Here are exact directions:  
**Double Chocolate Cake Dessert**  
 1 package (20 ounces) instant devil's food mix  
 1 cup plus 2 tablespoons water  
 2 eggs  
 Line an oblong pan (13 by 9 by 2 inches) on the bottom with brown or waxed paper. Using the water and eggs, prepare cake batter according to package directions.  
 Pour into prepared pan. Bake in moderate (350 degrees) oven 30 to 35 minutes. Turn cake out on cooling rack.  
 When cold, cut in half crosswise and use in following ways.  
**Banana Cream Chocolate Cake**  
 Split one-half of cake in half horizontally. Beat 1 cup whipped cream with 2 tablespoons confectioners' sugar and one-half teaspoon vanilla until cream holds its shape.  
 Spread half of the cream on one layer; cover with one sliced banana. Top with second layer, then with remaining cream and another sliced banana. Makes nine servings.  
**Chocolate Cake Pudding**  
 Split second half of cake in half horizontally. Cut each piece into 12 pieces. Arrange half the pieces in the bottom of a glass baking dish.  
 Prepare a package of vanilla pudding and pie filling mix according to package directions, using 2 1/2 cups milk. When pudding is done, stir in one-half cup slivered toasted almonds.  
 Pour half the hot pudding over the cake pieces in the baking dish. Place the remaining cake

**END OF THE LINE**—Years after the cherry tree has been planted, these perfect cherries end up in the perfect pie. In between there is the whole Life Line of America story—from grower to consumer. All along the way hundreds of individuals play a part in providing the best food at the lowest possible cost to the most people.

## Rhubarb Treat Brightens Menu

Spring opens new food horizons to the alert homemaker. Fresh fruits and vegetables are beginning to appear on the market—just what's needed to brighten between-season menus.  
 So when the family demands "something new," you have the perfect opportunity to introduce recipes a little out of the ordinary.  
 Fresh rhubarb plays a starring role on springtime menus. Make a tartly good Rhubarb Crumble Pudding for luncheon or dinner dessert.  
**Rhubarb Crumble Pudding**  
 1 1/2 cups sliced fresh rhubarb  
 1/2 cup sugar  
 1/2 cup butter or margarine  
 1/2 cup flour  
 1/2 cup brown sugar  
 1/2 cup cinnamon  
 1/2 cup nutmeg  
 Sift together flour, salt, cinnamon and sugar. Cut or rub in butter or margarine until mixture is crumbly. Sprinkle half the flour mixture evenly over bottom of 8-inch square cake pan. Press down firmly.  
 To rhubarb, add lemon juice, sugar and salt. Mix well. Spread evenly over flour mixture in pan. Sprinkle remaining flour mixture over rhubarb and press down.  
 Bake in moderate oven (375 degrees) 45 to 50 minutes. Serve warm with cream. Makes six servings.

## Cottage Cheese Used to Make Party Cookies

The uses of cottage cheese are many and varied, but few homemakers are aware that cottage cheese can be used to make delicious cookies.  
**Cottage Cheese Cookies**  
 1/2 cup margarine  
 1/2 cup cottage cheese  
 1/2 teaspoon vanilla extract  
 1/2 teaspoon lemon extract  
 1 cup sugar  
 2 eggs  
 1/2 cup sifted flour  
 1/2 teaspoon salt  
 1/2 cup chopped candied pineapple  
 Cream margarine until fluffy. Blend in cottage cheese. Add sugar gradually, beating well. Beat in the egg and flavoring extracts.  
 Sift together flour, salt, and salt. Add to creamed mixture, about one-fourth at a time, mixing until smooth. Stir in candied pineapple.  
 Drop by teaspoonfuls, 2 inches apart, on greased baking sheet. Bake in moderate oven (375 degrees) 10 to 12 minutes.  
 If desired, frost the cooled cookies with confectioners' sugar icing and garnish with bits of candied pineapple and sliced candied cherries.

## Here's How to Make Bread Crumb Topping

When you want to sprinkle the top of a casserole with buttered bread crumbs, prepare the topping this way:

**THE BUBBLING BEAN POT** — High on the list of the good, basic proteins are beans, equally delicious whether you cook them yourself or use the many canned varieties. Native Michigan beans yield honors to none in the country.

## Hearty, Healthful Beans Are Tops in Any Season

It's always bean season. Beans are a popular food at any season of the year. With such a variety of both dried and canned beans in the stores, you need never have monotony in your bean dishes. If you've plenty of time, you may "start from scratch"; if you are in a hurry, there are always beans in a can ready to be fixed up.

Try these new recipes that come from the Michigan Bean Shippers Association.

### The Bubbling Pot

1 pound navy beans  
1 medium-large onion  
1 pound chunk salt pork  
1 teaspoon salt  
2 tablespoons brown sugar  
2 tablespoons granulated sugar

Clean beans well. Cover with water and soak overnight. In the morning, add whole onion, salt pork, salt and brown sugar. Simmer over very low heat until beans are tender. Add more water occasionally, if necessary.

Pour beans into baking pan. Remove the onion, if desired. Score the rind side of the salt pork, cutting about 1 inch deep. Bury all but the rind into the beans. The liquid should come just to the top of the beans.

Sprinkle with the granulated sugar. Bake at 350 degrees until golden brown and some of the liquid is absorbed.

### The Appetizing Casserole

1 1-pound can baked beans  
2 tablespoons prepared mustard  
2 medium tomatoes, sliced  
1 medium onion, sliced thin  
2 tablespoons ketchup

Mix beans and mustard in a shallow 8-inch round casserole. Top with alternate slices of tomatoes and onion; sprinkle with sugar. Bake in a moderate oven, 350 degrees, for 30 minutes, until beans are hot. Makes four to six servings.

### The Hearty Soup

1/2 cup dry beans  
1 1/2 quarts cold water  
Ham bone  
1 small onion, chopped  
Yew stalks celery and leaves  
1 tablespoon flour  
Salt and pepper to taste

Cover beans with half the water. Soak overnight in a cool place; or boil gently for two minutes and let

stand one hour. Add rest of water, ham bone, onion and celery. Simmer until beans are tender. Remove bone. Put soup through a sieve or food press. Cut any meat from bone into small pieces. Add to soup.

### Cheese Dressing Peps Up Lettuce

Salads are the passion of a few, the delight of many and enjoyed by all. But whatever classification fits you, these salads will be a pleasure, especially when you make them with delicious Western-grown vegetables.

### Lettuce With Bleu Cheese Dressing

To make the dressing, blend one-half cup mayonnaise, 1 1/2 tablespoons milk, 2 tablespoons crumbled Bleu or Roquefort cheese and a few drops of tabasco sauce. Makes one-half cup of dressing.

Serve over iceberg lettuce either cut in wedges or torn leaves.

### Sunset Salad

1 package lemon-flavored gelatin  
1 cup hot water  
1 cup cold water  
2 tablespoons fresh lemon juice  
1 teaspoon salt  
1 cup grated raw carrots  
1 cup finely sliced celery  
1 1/2 cups drained crushed pineapple

Dissolve gelatin in hot water. Add cold water, lemon juice and salt. Chill. When partially set, add carrots, celery and pineapple. Pour into 1 1/2 cup ring mold or individual molds.

Chill until firm. Unmold on shredded iceberg lettuce, serve with mayonnaise. Garnish with thin rings of green pepper, carrot curls and ripe olives. Serves six.

### Quick Frozen Waffles Simplify Special Treat

One of the many wonderful special dishes that the new frozen one-minute waffles have really simplified is Boston Cream Waffles. In this adaptation of a famous dish, golden brown waffles are combined with creamy vanilla pudding and a run-maple sauce. Thanks to frozen waffles the whole dessert is ready in minutes.

## Try Pickle Beefers for Porch Dinner

Here's a recipe for extra fancy hamburgers, called Pickle Beefers, that can be a treat to back porch diners.

To make four servings, melt 2 tablespoons butter or margarine and add 1 cup chopped celery. Sauté until tender.

Add one clove garlic, finely chopped, and 1 pound ground beef chuck. Cook over medium heat until beef is browned.

Add one-fourth cup chili sauce, one-half cup chopped dill pickles and salt and pepper to taste. Heat to serving temperature. Serve on buns.

### Let Pineapple Ripen

Always store fresh pineapple at room temperature until it is ripe. But don't keep it on a sunny window ledge to ripen it! After the pineapple is ripe, use it as soon as possible. Once peeled, cut and sugared (if desired) the fruit should of course be refrigerated.

**OPENING THE PICNIC SEASON**—This week-end will see the formal beginning of the picnic season. Treat your family to an outdoor meal, even if you have to eat in the backyard. In this picture of a typical picnic menu the sandwiches, the beans and even the cookies are made more delicious by the judicious addition of dry mustard.

## Mustard Lends Spice to Picnic Menu

It's picnic time again. Time to bring hampers down off the high shelves where they have been stored all winter. Time to scald and air thermos bottles and lay in a supply of paper cups and plates.

There is no time of year when families have more fun together. Eating out-of-doors adds an edge to appetites and warmth to family relationships. Working together, the group is drawn close by wholesome activity and a common interest in the delectable food about to be spread before them.

A whole tradition of delicious foods has grown around the picnic. Hot dogs, potato salad, cole slaw, baked beans, cold macaroni, cold cuts are all mighty tempting. But, it never hurts for Mom to slip in a new treat or two each season.

A dash of spice or a pinch of herbs can put new in this season's picnic food, the same as they do in meals served at home. Mustard, for instance, the "old reliable" of the picnic basket, is more than a friend of hot dogs and ham.

### MUSTARD FITS IN

In its various forms (prepared, powdered dry and seed) mustard fits into almost any course of a picnic meal, even dessert! New England cooks found out long ago

that a molasses cookie, one of the most delightful and flavorful of all members of the cookie jar, took on added goodness when a teaspoon of dry mustard was added to the other spices.

The mustard flavor itself is lost in such a recipe but the tangy goodness remains. The same cooks used mustard in gingerbread and baked beans and various other dishes using molasses. The rip of the mustard is a great addition to these old-time recipes.

The American Spice Trade Association offers these suggestions for this year's picnic season.

#### Old-Time Mustard Molasses Cookies

- 1 cup shortening
- 1/2 teaspoon salt
- 1/2 teaspoon soda
- 2 teaspoons ground ginger
- 2 teaspoons ground cinnamon
- 1/2 teaspoon ground cloves
- 1/2 teaspoon dry mustard
- 1/2 teaspoon instant coffee\*
- 1 cup sugar
- 1 cup mild light molasses
- 2 eggs
- 2 1/2 cups sifted all-purpose flour
- 1/2 cup water\*
- 3 dozen seeded raisins (optional)

Mix first eight ingredients together, until fluffy. Gradually mix in sugar and molasses. Beat in eggs. Add flour alternately with water. Mix well.

Drop from teaspoon onto lightly greased cookie sheets, 2 inches apart. Top each with a big raisin. Bake 12 to 15 minutes in a moderate oven (375). Makes 5 dozen cookies.

\*If desired, replace instant coffee and water with three-fourths cup double strength coffee.

#### Mustard Deviled Eggs

- 8 hard-cooked eggs
- 1/2 cup mayonnaise
- 1/2 teaspoon minced celery
- 1/2 teaspoon minced green pepper
- 1/2 teaspoon minced dill pickle
- 1/2 teaspoon garlic salt
- 1/2 teaspoon onion powder
- 1/2 teaspoon dry mustard
- 1/2 teaspoon salt or salt to taste
- 1-1/2 teaspoon ground black pepper
- Paprika for garnish

Peel shells from eggs, cut in half lengthwise. Remove egg yolks and mash. Add all remaining ingredients, except paprika. Mix well. Pile into egg white halves. Garnish with paprika. Yield: 12 halves.

#### Mustard Bologna Sandwich Spread

- 1/2 pound bologna, chopped
- 1/2 cup dill pickle, chopped
- 1/2-3/4 teaspoon dry mustard
- 1/2 cup bottled salad dressing

Put bologna and pickle through

a food chopper, using the medium blade. Add remaining ingredients. Mix well.

Spread between two slices of bread for sandwiches or spread on rounds or rectangles of bread for open-faced cocktail or party sandwiches. Yield: 1 1/2 cups.

#### Mustard Baked Lima Beans

- 2 cups dried lima beans
- 2 cups cold water
- 2 teaspoons salt
- 2 tablespoons brown sugar
- 1/4 cup chopped onion
- 1/4 teaspoon ground black pepper
- 1 cup drained tomatoes
- 4 strips bacon

Wash beans. Add cold water. Soak overnight or 12 hours. Add salt. Cover. Cook slowly (in same water in which beans were soaked) until tender, about one hour. Drain.

Save 2 cups bean liquid (if necessary, add additional water to make 2 cups) and mix with brown sugar, onion, mustard, black pepper, and tomatoes.

Pour beans into a 2-quart bean pot. Add liquid mixture. Cover. Bake two hours in a slow oven (325). Remove cover. Place bacon strips over the top.

Bake, uncovered, 30 minutes or until bacon is crisp and brown. Yield: 8 to 10 servings.

## Asparagus Takes Tasty Variations

Top asparagus with tiny cubes of bread that have been toasted in lots of butter until they're golden-brown and crunchy.

Brown sliced pecans in butter and serve over asparagus.

Marinate asparagus in a tangy French dressing and serve with salad greens and deviled eggs. Make this salad combination bright with strips of canned pineapple.

Make a fresh asparagus soup using chicken stock for your thin white sauce base and adding a little cream at the end. Serve the soup with croutons that have been toasted in curry butter. This is company fare de luxe!

Cream-style cottage cheese mixed with finely chopped green onion makes a topping for baked potatoes that many folks like.

## Follow This Method to Stew Whole Chicken

Here's how to stew a whole chicken: Place the bird on a rack in a

kettle and add enough water to half cover the chicken. Add a little salt to the water. Simmer the chicken in the covered kettle until it is tender, turning the bird occasionally. Cooking time will be three or

four hours, probably, if a stewing chicken is used.

If you want a fine-flavored pot of tea, use water that is boiling furiously. Water that's "very hot" won't do!

## Serve Biscuits Hot

Like hot biscuits hot? Bake them in a pie plate and bring them right to the table in the plate. If you use two small pie plates for the baking, you can bring one to the

table and leave the other in the turned-off oven to keep hot.

Want to vary good old mashed potatoes? Add grated Parmesan or cheddar cheese and a bit of finely grated onion.

## Let Kids Enjoy Healthful Snack

Every mother eventually becomes worn out with saying "Don't," and it seems the most frequent reprimand is, "Don't eat that! You'll spoil your appetite!"

Particularly in this so when the children come ravenously home from school. It's a wise mother that keeps a good supply of really nourishing snacks on hand and can divert the small fry from the filling foods that offer little nourishment.

Here's a good recipe for icebox cookies, easy to make, high in taste appeal, and guaranteed to give your children that extra iron that is so essential in every diet. (Did you know, by the way, that real New Orleans molasses has an iron content second only to beef liver?)

- Molasses Icebox Cookies**
- 1/2 cup real New Orleans molasses
  - 1/2 cup shortening
  - 1/2 cup sugar
  - 2 eggs
  - 2 1/2 cups sifted all-purpose flour
  - 1/2 teaspoon salt
  - 1/2 teaspoon baking soda
  - 1/2 teaspoon ginger
  - 1/2 teaspoon cinnamon

Place molasses and shortening in saucepan; cook over low heat until shortening is melted. Remove from heat; add sugar. Cool. Add eggs; beat well.

Sift together flour, salt and baking soda; cloves, ginger and cinnamon. Add molasses mixture. Mix well.

Form dough in rolls 2 inches in diameter. Wrap in waxed paper; chill three to four hours. Slice thin; place on greased baking sheets. Bake in moderately hot oven, 375, 10 to 15 minutes. Makes about 5 dozen.

You'll find that you can give after-school milk a new appeal if you add a tablespoonful of molasses to each glass.

## Tomato Red Dip Adds Excitement to Tidbits

By International News Service Here's a dip sauce that will make crackers or cauliflowerets seem like exciting tidbits.

This Tomato Red Dip recipe will make about one cup:

- 1/2 cup crumbled American blue cheese (about 3 ounces)
- 1/2 cup chili sauce

ROMAN

no matter where you drink it

It's always satisfying. Nothing can match the full, rich flavor and aroma of real coffee — Hills Bros. Coffee — fresh-brewed!

It's always delicious — the matchless flavor and aroma of Hills Bros. Coffee...a skillful blend of the world's choicest coffees.

It's always the same. "Controlled Roasting"—a few perfect pounds at a time — roasts each bean to the same rich brown color, gives you the same mellow flavor every time!

It's always fresh — vacuum-packed minutes after grinding to bring all the fresh-roasted strength and freshness to your cup.

It's always right for your family — whether you're a large group or a cozy twosome — half-pound, full-pound, and the big two-pound "coffee-lovers" size.

## Cook Scallions for New Treat

Ever try cooking scallions? To do so trim off the roots and enough of the green tops so there's about 4 inches left.

Do this before you wash the onions thoroughly, making sure there's no dirt lurking in the green tops.

Put the clean scallions in a deep skillet and cook them in salted boiling water very quickly just until you can pierce the white parts easily with a fork. This probably won't take more than five minutes.

Use your slotted pancake turner to lift the scallions from the skillet and drain them well. Serve them fancied up in one of the following ways:

Top with melted butter and grated Parmesan cheese and arrange on toast. Add strips of crisply cooked bacon, if you like.

Marinate them in French dressing and offer with salad greens.

Serve them with mushroom sauce when you are having broiled lamb chops and parried new potatoes. Add strawberry shortcake for a scrumptious spring dinner. Here's the recipe for the sauce:

### Mushroom Sauce For Scallions

1/2 cup milk  
1 tablespoon flour  
1/2 teaspoon salt  
1/2 teaspoon celery salt  
1 can (3 ounces) sliced broiled mushrooms

Pour milk in small saucepan and bring to simmering over moderate heat. Stir flour, salt and celery salt with liquid drained from mushrooms, until there are no lumps.

Add to milk and cook over low heat, stirring constantly, until thick and smooth. Stir in drained mushrooms and heat thoroughly.

Pour over freshly cooked hot scallions; count on about eight scallions for each serving. Makes about two-thirds cup sauce.

### Accent Meat Flavor

Wondering how to give that economical cut of meat savory flavor? Here's a list of seasonings, all good with meat, to choose from: Catchup, chili sauce, bay leaf, all spice berries, garlic, onion, paprika, soy sauce, Tabasco sauce, Worcestershire sauce, oregano, basil.

**SPRINGTIME SHORTCAKE** — Shortcake made with vegetables, ham and eggs is a perfect one-dish meal. It's economical, easy to make, and a perfect combination of flavors. It's well-balanced, too, to make it as nutritious as it is delicious.

## Bring Spring to the Table With Vegetable Shortcake

When spring arrives shortcakes are in season. Not that they are ever out of season now with all the frozen foods and prepared mixes on the market, but we still think of shortcakes... strawberry or chicken... as a springtime treat.

Here's a new springtime shortcake with all the appeal of the first breath of spring. Margarine is the base of the smooth cheese

## Curry Puts Zest in Seafood Sauce

Something different! Curry added to a seafood sauce.

### Alice's Seafood Sauce

1/2 cup mayonnaise  
1/2 cup chili sauce  
2 tablespoons lemon juice  
1/2 teaspoon curry powder  
Freshly-ground pepper

Beat together well with a fork the mayonnaise, chili sauce, lemon juice, curry powder and pepper to taste. Makes about one cup.

Sprinkle liver lightly with crushed marjoram for new and different taste.

sauce to which asparagus and green peas are added.

Served on piping hot baking powder biscuits, garnished with strips of ham and quartered hard-cooked eggs, it's a perfect one-dish-meal for spring or any other time of the year.

### Springtime Shortcakes

1 package frozen asparagus  
1 package frozen peas  
1/2 bar 1/4 cup margarine  
1 tablespoon chopped onion  
4 tablespoons flour  
1/2 teaspoon salt  
1/2 teaspoon pepper  
1/2 teaspoon paprika  
2 cups liquid (vegetable liquid and milk)

1 cup grated American cheese  
Cook asparagus and peas together according to package directions until tender. Drain, saving liquid. Melt margarine in saucepan, add onion, and cook until tender. Stir in next four ingredients and blend.

Stir in liquid gradually and cook until thickened. Add cheese and stir until melted. Add cooked vegetables and heat thoroughly.

Serve between and over split hot baking powder biscuits or on toast. Garnish with quartered hard-cooked eggs and strips of cooked ham and parsley. Makes six servings.

## Blend Cheese, Wheat Germ

Wheat germ and cottage cheese are successfully combined in this hearty, satisfying casserole. These two ingredients supply the protein elements often lacking in meatless dishes.

Wheat germ also provides generous quantities of essential B-vitamins and minerals.

### Noodle-Cottage Cheese Casserole

8 oz. package noodles  
1 cup cottage cheese  
1 cup sour cream  
1/2 cup chopped onion  
2 teaspoons Worcestershire sauce  
1/2 teaspoon salt  
1/2 teaspoon pepper  
1/2 cup milk  
1/2 cup sharp cheese, grated  
1 tablespoon wheat germ

Cook noodles according to directions; drain. Mix together the cottage cheese, sour cream, onion, Worcestershire sauce, salt and pepper. Stir in milk, then one-half cup wheat germ.

In greased, 1 1/2-quart casserole, arrange cheese mixture and noodles in alternate layers. Sprinkle top with grated cheese and tablespoon of wheat germ. Bake in moderate oven (350) for 45 minutes. Serves four.

**MYSTERY MOCHA RING** — The only thing that isn't mysterious about a Mystery Mocha Ring is the fun you'll have making it and the enjoyment your family will get out of eating it. Plentiful helpings of fragrant coffee will, as usual, add to the enjoyment.

## Touch of 'Abracadabra' Creates Mystery Cake

Do you find, somehow, that an air of mystery is just about the hardest thing in the world to impart to your baking activities? Cookery, these days, is a brisk and businesslike affair.

But sometimes it's fun to baffle the family with a muttered "abracadabra" and a mysterious culinary effect. When this Houdini-like mood steals over you, that's the time to set the stage for a Mystery Mocha Cake.

Begin your act by inviting everybody into the kitchen and showing them that you have nothing up your sleeve. Then let them observe you pouring a perfectly plain cake batter into an everyday, unassuming ring mold.

Sprinkle sugar and cocoa on top before their very eyes, then boldly pour a cup of coffee over all before you pop the cake into the oven.

When the baking is finished, just turn the cake out with a dramatic flourish. There's the cake, and lavishly and deliciously distributed over it is a thick, rich mocha sauce.

Who made it? You didn't, and they didn't! It made itself! In addition to being lots of fun, this is really the most labor-saving way to make a sauce we have ever heard about.

Coffee ice cream piled high in the hollow center of the cake after it is turned out onto the serving platter makes this the most a la mode mystery around. And we can assure you that it's truly luscious. You'll need a generous pot full of hot, fragrant coffee to "go with" of course.

### Mystery Mocha Ring

1 package spice cake mix  
1/2 cup brown sugar  
1/2 cup sugar  
3 tablespoons cocoa  
1 1/2 cups strong cold coffee  
1 quart coffee ice cream

Prepare cake mix as directed on package. Spoon evenly into well-greased 10-inch ring mold. Combine brown sugar, sugar and cocoa and sprinkle over cake batter. Pour coffee over all.

Bake in moderate oven, 350 degrees, 50 to 60 minutes. Invert at once on large plate, preferably with a "well" to receive sauce that forms during baking. Fill center with coffee ice cream. Serve at once. Makes 8 to 10 servings.

## Mandarin-Style Chicken Boasts Piquant Flavor

Like chicken with a piquant flavor? Here's your dish!

### Mandarin Chicken

1 3-pound chicken (ready-to-cook weight)  
1/2 cup flour  
1/2 teaspoon celery salt  
1/2 teaspoon nutmeg  
1/2 teaspoon garlic powder  
4 tablespoons butter or margarine  
1 can (1 pound and 4 ounces) pineapple tidbits  
2 tablespoons American-type soy sauce  
1 tablespoon sugar

Have chicken cut in serving-size pieces; wash and dry. Mix together flour, celery salt, nutmeg and garlic powder. Coat chicken pieces well with flour mixture, rubbing it in.

Brown chicken in large skillet, on both sides, in butter. Arrange browned chicken in a baking dish (about 8x12 inches is a good size); add drippings from skillet.

Drain pineapple. Mix pineapple syrup with soy sauce and sugar; pour over chicken.

Bake in moderate (350 degrees) oven about one hour or until tender, basting about four times.

About 20 minutes before chicken is done, spoon drained reserved pineapple tidbits around chicken pieces. Baste pineapple once while it is heating. Makes four servings.

## Interesting Appetizer Complements Juice

Want an interesting appetizer to serve with a first course of tomato or mixed vegetable juice?

Soften cream cheese with a little cream or milk and add a dash of grated onion; make sandwiches of the cream cheese and slices of bologna; refrigerate. Before serving, cut each "sandwich" into four small wedges. Chopped chives may be substituted for the grated onion.

## Cream Meats, Serve in Shells

When your luncheon or supper problem starts with "just a little leftover roast or chicken," you can turn the problem into a menu this way.

Give a small amount of leftover meat or chicken "the stretch" by serving it creamed in these crisp Celery Seed Patty Shells.

A pastry-type patty shell, with farina and celery seed added for taste and texture, serves as the base for the creamed mixture.

Use the backs of muffin tins, or use tart shells, for shaping the patty shells.

For a quick cream sauce, dilute a can of condensed chicken or mushroom soup with half the usual amount of liquid.

**Celery Seed Patty Shells**

1/2 cup sifted all-purpose flour  
1/2 cup farina, uncooked  
1/2 teaspoon salt  
1/2 teaspoon celery seed  
1/2 cup cold water

Combine flour, farina, salt, and celery seed. Cut fat into dry ingredients until a coarse texture is obtained. Add enough water to

make the dough a consistency which can be rolled.

Roll to one-fourth-inch thickness. Shape over back of muffin tin. Bake in moderately hot oven (400 degrees) about 10 minutes. Fill with creamed meat or fish. Yield: Six shells.

## Berries Glamorized by Coconut Cream

This recipe makes a light, quick and delectable dessert.

**Strawberry Coconut Cream**

1 pint strawberries  
2 tablespoons sugar  
1 package (7 1/2 ounces) instant coconut cream pudding  
2 cups milk

Wash strawberries with cold water; drain. Set six choice unhulled berries aside for garnish. Hull remaining berries; cut small or medium size berries in half; quarter large berries. Mix berries with sugar.

Make up coconut cream pudding according to package directions using two cups milk. Spoon sugared berries into six sherbet glasses; top with pudding. Allow to set about five minutes.

Garnish with whole unhulled berries. Chill. Makes six servings. Dessert may be made several hours ahead of serving, but berries become soft and unattractive if refrigerated overnight.

**LAMB CHOP GRILL**—A lamb chop grill is the piece de resistance in many restaurants. It is an extremely easy dinner to prepare at home. To give both color and flavor to the chops brush them with kitchen bouquet before broiling. Serve with buttered onions and mushroom crowns.

## Serve Family Grilled Chops

Why not regale your family with a really pretty grill at dinner? They'll be terribly impressed... you can take several bows... and, all the while, you can be gay and rested, for this grill is simple and easy... requires little effort and there will be very few pots and pans to wash.

**Lamb Chop Grill**

4 rib lamb chops, about 1/4 to 1 inch thick  
1 teaspoon kitchen bouquet  
1 can small whole potatoes, 1 pound  
2 tablespoons butter, melted  
4 ounces can broiled mushroom crowns  
2 can small whole onions, 1 1/2 ounces  
Preheat broiling platter and compartment according to directions given for your stove. Brush chops on all sides with kitchen bouquet. Drain potatoes and brush lightly with melted butter.

Place chops and potatoes on broiling platter and place in compartment about 2 inches from source of moderate heat. Broil for eight minutes. Turn chops and potatoes and broil for about eight minutes longer.

In the meantime, heat mushrooms and onions together in their own broth. When chops are done, drain mushrooms and onions, brush lightly with butter and add to platter.

Serve immediately. Makes four servings.

## Pickled Beans Add New Note to Relish Tray

Need a relish? Try this home-maker-originated one.

**Pickled Snap Beans**

1 pound snap beans  
1/2 cup boiling water  
1/2 teaspoon salt  
1/2 cup cider vinegar  
1/2 cup firmly-packed light brown sugar  
1/2 teaspoon salt  
1/2 teaspoon turmeric  
1/2 teaspoon curry powder  
Pepper

Cut tips from beans; scrub in cold water; drain. Cut each bean in half crosswise and lengthwise. Put beans, boiling water and one-fourth teaspoon salt in 2-quart saucepan; bring to a boil. Cover and boil gently until tender but still crisp—about eight minutes; lift cover several times to retain as much green color as possible.

Drain beans and place in a flat container that has a cover. Pour one-fourth cup of the bean cooking liquid back into saucepan; add vinegar, brown sugar, three-fourths teaspoon salt, turmeric, curry powder and pepper to taste.

Stir over low heat until sugar dissolves; bring to a boil. Pour over drained beans; cover and refrigerate overnight.

Beans will take on a yellow-green shade; drain well and serve as a relish. The marinating liquid may be refrigerated in a covered container and put to some other use.

Change your serving routines and surprise your family! Offer browned corn beef hash with creamed eggs instead of the usual poached eggs.

## Jon's Hamburgs Hold Surprise of Zippy Onion

Here's a brand-new and interesting way to fix hamburgers.

**Jon's Hamburgers**

1 medium-sized Bermuda onion  
1/2 cup olive oil  
1/2 cup cider or white wine vinegar  
1/2 teaspoon salt  
Ground chopped beef  
Salt and pepper

Peel onion and slice into very thin rounds; do not separate into rings.

Beat oil, vinegar and salt together in a flat container; place onion rounds in mixture and allow to marinate, turning a few times.

At serving time, make thin hamburger patties a little larger than the onion rounds.

Place an onion round on a patty and spoon a teaspoon of the marinating liquid over the onion; top with another patty, pinching edges together well.

Broil hamburgers to desired doneness; sprinkle with salt and pepper; serve on toasted buttered buns. Use one-fourth pound beef for each filled hamburger.

Any leftover onion slices may be separated into rings and stored in marinating liquid in tightly covered container in refrigerator; use as a relish another time.

## Family Will Relish Strawberry Muffins

Serve Rich Berry Muffins for a tempting breakfast treat one of these spring mornings. Your family will relish these tender muffins with their bright strawberry flavor.

**Rich Berry Muffins**

1/2 cup sifted enriched flour  
1/2 teaspoon baking powder  
1/2 teaspoon salt  
1/2 cup shortening  
1/2 cup sugar  
1 egg  
1/2 cup milk  
1/2 cup fresh strawberries

Sift together flour, baking powder and salt. Cream together shortening and sugar. Add eggs, one at a time, beating thoroughly after each addition.

Add flour mixture and milk alternately, stirring only until flour is moistened. Fold in fruit.

Fill greased muffin pans two-thirds full and bake in moderately hot oven (400 degrees) about 25 minutes. Makes 1 dozen 2-inch muffins.

## Pound of Asparagus Contains 16-20 Stalks

Count on getting 16 to 20 stalks of asparagus in a pound. This amount will serve three to four persons—depending on what the vegetable is served with.

For a springtime lunch, offer the drained cooked stalks on hot buttered toast and top with a cheese sauce and sliced hard-cooked eggs. Sprinkle the egg slices with paprika or minced parsley.

## Choice of Seasonings

Braising meat? Take your choice of seasonings. Here are seasonings you can choose among: Catchup, chili sauce, bay leaves, curry powder, garlic, Tabasco sauce, soy sauce.

# Open Letter to 1955 Picnic Planners

Dear Picnic Fans:

This coming weekend the parks and beaches of Oakland County will be filled with gay picnic parties. We hope you have the happiest picnics you've ever had. To that end, we want to remind of one or two important details regarding picnic food.

We know, of course, that the children love picnic goodies like cookies, cake, candy, ice cream, pop, lemonade and cracker jack. Do try, if possible to get a little substantial food into their tummies before they indulge too heavily in the extras. Regardless of the occasion, they still need meat, vegetables and fresh fruit, to say nothing of milk.

If you provide as much "hand" food as you can, they will probably eat more of it. Make a salad a nibble one, with carrot and celery sticks, radishes and cucumber slices. If your family likes cream cheese, roll it up in lettuce leaves for a salad.

If you make your own cookies for the lunch, you can control what goes in them and perhaps introduce an important ingredient like cereal. Try, for instance the following recipe.

**Coconut Chews**  
3/4 cup sifted flour  
1 1/2 teaspoons baking soda  
1 teaspoon salt  
1 cup granulated sugar  
1 cup brown sugar  
1 cup melted butter or margarine  
2 teaspoons vanilla  
2 eggs  
1 cup corn syrup  
1/2 cup shredded coconut

Sift together flour, soda and salt. Blend sugars, melted butter and vanilla. Add eggs, one at a time, beating well after each addition. Stir in corn syrup and coconut. Add sifted dry ingredients and mix well. Drop by teaspoonfuls on greased baking sheets. Bake in moderate oven (375 degrees) about 10 minutes or until lightly browned. Yield: 5 dozen cookies, about 3 inches in diameter.

\*Shortening may be substituted for up to half the amount of butter, if desired.

Toasted marshmallows are not so sweet as a candy bar. What child doesn't like to toast marshmallows? In our opinion, fresh fruit drinks are superior to those made from a powdered mix which contain only sugar, flavoring and water.

One more reminder — but this is a very important one! Be careful of your picnic food. Remember that certain germs just love the combination of warm weather and milk and eggs.

If you prefer mayonnaise potato salad, add the mayonnaise at the last minute just before you eat. If you insist on mixing it at home, chill it thoroughly before leaving. Then, however, you must carry it in a refrigerator. Don't let it sit out

on the picnic table between meal times, either.

Have just as much respect for custards and custard fillings. They have no place in picnic baskets.

## Sunday Dinner Baked in Casserole Eliminates Worry and Adds Flavor

Why not bake your Sunday main dish in a casserole. You'll save kitchen worry and get extra flavor.

Here are two new recipes from the brand new "Cook It in a Casserole" by Florence Brobeck.

### Savory Braised Steak

3 pounds chuck steak  
1/2 cup flour  
1 1/2 teaspoons salt  
1/2 teaspoon pepper  
1/2 teaspoon paprika  
1 large onion  
1 large onion, peeled and sliced  
3 tablespoons shortening or beef suet  
1/2 cup boiling water  
1/2 cup tomato juice  
1/2 cup beef broth  
1/2 teaspoon oregano  
1/2 cup port or claret, if desired

Dredge steak with flour mixed with the salt, pepper and paprika. Pound well.

Cook onion in shortening or suet in (metal base) flame-proof baking dish five minutes; add steak and brown lightly on both sides.

Add water, tomato juice and beef broth. Cover; bake in moderate oven (350 degrees) one hour.

Baste several times during the hour, adding more hot water and

### Cookies Have Spring Flavor

One symbol of a happy home is the filled cookie jar. Lemon Coconut Cookies have the kind of fresh flavor that goes with spring.

Cookies are always welcome in the school lunchbox, but keep plenty of these good cookies on hand for after-school "snackers."

Fresh strawberry sherbet and Lemon Coconut Cookies add a refreshing final touch to springtime luncheons and dinners.

**Lemon Coconut Cookies**  
1 cup butter or margarine  
1/2 cup sugar  
1 egg  
1/2 teaspoon grated lemon rind  
2 cups sifted enriched flour  
1/2 teaspoon salt  
1 cup shredded coconut, finely chopped

Cream butter or margarine. Add sugar and continue creaming until light and fluffy. Add egg and lemon rind. Beat well.

Sift together flour and salt. Stir flour mixture into creamed mixture. Blend in coconut. Drop by teaspoonfuls on ungreased baking sheet.

Bake in slow oven (325 degrees) until lightly browned around the edges, about 15 to 20 minutes. Makes about 6 dozen 2-inch cookies.

Any other filling, any other kind of pie or dessert is preferable.

As the picnic season wears on, we hope to bring you lots of good food ideas. In the meantime, have

the nicest Memorial Day weekend imaginable. Include Safety First in your picnic basket.

Best wishes from,

JANET ODELL

## Pecans Cover Dessert Balls

Do you need a real easy, inexpensive dessert... fancy enough for guests? These chilly vanilla dessert balls are just the ticket! They're rolled in chopped, toasted pecans and served with hot chocolate sauce.

Vanilla dessert balls are very inexpensive because they're made of low cost rice cooked in nutritious milk.

### Nut-Covered Vanilla Dessert Balls

2 1/2 cups milk  
1/2 cup uncooked white rice  
1/2 cup beef or cane sugar  
1 1/2 teaspoons vanilla  
1/2 cup chopped, toasted pecans  
Chocolate sauce

Put the milk and rice in a 2-quart saucepan. Stir well. Put over a medium heat. When bubbles appear around the edge of the saucepan, turn the heat as low as possible. Stir well.

Cover and leave over this low

heat 45 minutes, or until the milk cooks into the rice and the mixture is quite firm. Stir several times during the cooking. Remove from heat.

Stir the sugar and vanilla into the cooked rice. Divide into six equal portions using a one-third cup measure. Wet inside of cup before measuring each portion.

Place on a greased or waxpaper-covered plate or pan. When cool enough to handle, roll into balls. Dip hands in water before rolling balls. Roll each ball in the chopped pecans. Cover well and store in the refrigerator until time to serve.

To serve, heat the chocolate sauce until very hot. Pour sauce over and around the dessert balls.

If desired, top each ball with sweetened whipped cream. This dessert should be served the same day made. This recipe makes six servings.

Planning to serve creamed shrimp and green peas for lunch or supper? Add a dash of garlic and onion powder to the cream sauce.

### Mustard Lends 'Bite'

Stuffed celery is always good on the hors d'oeuvre tray, but it's even better than usual when dry

mustard is blended into the cream cheese mixture. Use lots of it. The "bite" is delicious and flavorful.

## Veal Madeleine Is Savory, Easy

The French do wonderful things with veal. They enhance the meat's own bland flavor with harmonious tastes subtly blended in during the cooking process.

They dress it up with luscious sauces and serve it forth looking almost too good to eat. Not quite, though, for nobody could resist the combined aromas of Veal Madeleine and steaming coffee inviting them to the dinner table.

Good as it is, Veal Madeleine is not difficult to prepare. You just take a thick veal steak, pan-brown it, another it with golden-brown soft-fried onions, simmer it in a little water until it's tender.

Then you set it in a bed of noodles that have been buttered, paprika'd and sprinkled with almonds and poppy seeds.

The steaming platter is served with a separate sauce made from the pan juices, thickened and spiced with sour cream, herbs and wine.

To round out a wonderful meal, serve little hot biscuits, a tossed salad and brimming cups of fragrant coffee. If you wish, a very simple dessert may accompany the "coffee after" that follows the "coffee with."

We think you'll agree with us that Veal Madeleine, a French contribution to veal cookery, deserves a place alongside the classic Italian Veal Scallopini, the Austrian Wiener Schnitzel and the Hungarian Veal Paprika.

### Veal Madeleine

1/4 cup flour  
1 tablespoon paprika  
1 teaspoon salt  
1 veal steak, 1 1/2 inches thick  
2 medium onions, sliced thin  
3 tablespoons fat  
1 cup water  
1 cup sour cream  
2 tablespoons dry sherry  
1/2 teaspoon oregano

Combine flour, paprika and salt. Dredge veal thoroughly in this mixture. Cook onions in fat over low heat until soft and golden brown. Remove from pan.

Brown veal well on both sides in pan in which onions were cooked. Place onions on veal. Add any remaining flour mixture to pan, with water. Cover and simmer until veal is tender, about 1 hour.

Remove veal and onions to platter and surround with Almond Noodles. Garnish with sliced stuffed olives if desired. Keep warm.

Add cream, sherry and oregano to pan and stir to blend. Heat to serving temperature. Serve separately.

A bottle of capers on the refrigerator shelf? Add them to a sandwich spread of tuna, salmon, crabmeat or hard-cooked eggs. Gives piquant flavor!

**SALAD COMBINATION** — Stuffed eggs and Sour Cream Salad are extra good when seasoned with new salad dressing mixes. There's tuna fish in the stuffed eggs and croutons on the salad. Spring is salad season; let's serve it often.

## Soup Thickened by Rice Cereal

Here is a recipe for a wonderful luncheon soup... quick and easy to prepare and so good to eat. It is thickened with quick-cooking rice cereal, that very versatile ingredient on the pantry shelf... so very welcome to those who may be allergic to wheat.

Try this easy soup and then you may find yourself making up your own soup recipes.

### Chicken Rice Soup

2 tablespoons oil or butter  
1/4 cup finely diced onion  
1 quart seasoned chicken broth or bouillon  
1/2 cup tomato sauce  
1/4 cup quick-cooking rice cereal  
1/2 teaspoon sugar  
1 cup shelled peas  
Salt  
Pepper

Melt butter in saucepan. Add onion and let cook about five minutes, stirring occasionally. Add chicken broth and tomato sauce. Bring to boil.

Sprinkle in rice cereal so boiling does not stop. Cook, stirring constantly, for about one minute. Add peas and sugar and bring to boil again.

Continue cooking until peas are barely tender, about eight minutes. Season to taste with salt and pepper.

If desired, a few shreds of cooked chicken can be added with the peas. Yield: Four generous servings.

## Dressing Mixes Arrive in Time for Salad Season

There's a new dry salad dressing mix on the market. It comes in envelopes and you turn the contents into a half pint jar sold with the mixes.

Add vinegar, a little water and oil, then shake and pour over your greens. (The half pint bottle is marked so you will know just how much of each to use.)

There are several different flavors of this mix. It's in the markets now, and you'll enjoy trying the various kinds.

### Good Seasons Stuffed Eggs

6 hard-cooked eggs  
1/2 cup canned tuna fish, drained and flaked  
1/4 cup finely chopped celery  
1 tablespoon chopped green pepper  
1 1/2 teaspoons French salad dressing mix  
2 tablespoons mayonnaise  
Watercress

Slice eggs in halves lengthwise; remove yolks and chop fine. Mix chopped yolks with tuna fish, celery, and green pepper.

Combine the dry dressing mix with mayonnaise and add to egg yolk mixture, mixing well. Pile into the egg white halves. Chill. Garnish with sprigs of watercress. Makes six servings.

### Sour Cream Salad With Croutons

1 package garlic salad dressing mix  
Vinegar  
Water  
Oil  
6 cups finely cut mixed greens  
1/2 cup sour cream  
1/2 cup garlic croutons  
Combine salad dressing mix.

## Use These Tips on Preparation of Asparagus

Fresh asparagus — spring's the time to serve it in many delicious ways.

Be cautious when you cook asparagus. Lift the cover of the pan several times to keep the at-

tractive green color and leave it on the range only until it is tender-crisp.

If you like to peel the asparagus before cooking, use a swivel-blade vegetable peeler that is razor sharp and pare almost up to the tips. Peeling has its advantages because it enables eaters to enjoy the whole spear.

Try cooked asparagus some of these ways: Cut stalks in 1-inch

lengths and fold them into a cheese sauce to be served over scrambled eggs.

Or fill a puffy omelet with the asparagus spears and spoon the cheese sauce over; dust with paprika.

Arrange asparagus on cooked ham and add Hollandaise Sauce. If you don't feel up to making real

Hollandaise, use a recipe for a mock version.

Well-buttered toasted English muffins make a wonderful go-along; so do small hot biscuits.

Dress up that plain Apple Betty! Serve it with a honey hard sauce made by creaming butter or margarine with strained honey and a little lemon or lime juice.

## Delight Party-going Kids With Chocolate Milk Cake

Whether it's in the lunchbox or served party-style in a punch bowl, there's nothing to beat nutritious chocolate milk for growing children.

A quart of milk each day is the recommended allowance for school-age youngsters, and when it's sweet and chocolate-flavored they'll need no encouragement to down the last drop.

As digestible and wholesome as plain milk, milk with chocolate flavor is transported out of the "good-for-you" class to being something really special.

It's a perfect all-occasion drink with real appeal for children, so smart mothers, knowing that it's every bit as good for them as it tastes, let them have it often.

Chocolate milk is a baking time-saver, too... use it in cakes, puddings and desserts. It's milk, flavoring and a sweetening agent all rolled into one.

So, when a birthday party is being planned, make it a menu "must"... as a festive beverage and an indispensable ingredient in party-fare goodies of every kind.

Here's a delicious recipe for Chocolate Milk Cake you'll want to make often.

### Chocolate Milk Cake

1/4 cup butter  
1 cup sugar  
2 eggs  
1 teaspoon vanilla  
2 cups sifted cake flour  
1 teaspoon baking soda  
1/2 teaspoon salt  
1 cup chocolate milk  
1/4 cup vinegar

Cream butter and gradually add sugar, beating constantly, until light and fluffy. Add eggs, one at a time, beating well after each. Add vanilla.

Sift flour, baking soda and salt together. Combine chocolate milk and vinegar. Add alternately to creamed mixture with sifted in-

### Sour Cream Topping

If commercially prepared sour cream is available in your neighborhood, you'll find it makes a delicious topping for a quick fruit dessert. Serve it over sliced bananas and oranges and pass a nutmeg grater, so family and guests can wait their own spice!

### Treat for Small Fry

Here's a treat small fry like—and it's good for them, too. Put some spoonfuls of diced fruit in a tall glass; add a scoop of vanilla ice cream and a generous amount of orange juice. Add a little sparkling water for a fizz! Serve with an ice cream spoon and straw to your delighted youngster.

## Tutti Frutti Flavor Created in Michigan

Many of even the most civic-minded citizens of Michigan are unaware of the fact that Eaton Rapids is the home of Tutti Frutti ice cream.

It seems that an ice cream manufacturer at Eaton Rapids was taking inventory and decided to clear all the odd-and-end flavors off his shelves at once. He dumped them together into a batch of vanilla ice cream and accidentally found a new taste delight that swept the nation.

That Tutti Frutti sold better than any ice cream Eaton Rapids manufacturer had ever made. But he had a terrible time duplicating it. He never did remember what went into that first batch.

**NEW** Two BIG Features Added to **Sani-Flush** THE TOILET BOWL CLEANER

### Easy-to-open Top

Snaps right off under your thumb. Snaps back on. Makes opening and pouring so simple. Containers will not break if dropped.

### Fast-acting Formula

Cleans toilet bowls faster. Works on stubborn stains like magic. Scientific tests prove new Sani-Flush formula more effective than ever before. Kills many toilet bowl germs faster. Leaves bathroom freshly fragrant.

NEW Sani-Flush can be used safely with every type of toilet tank system in any part of the country without harm to the system or bacterial action.

For real driving pleasure hear the new MOTOROLA push-button car radio with Volumatic Control. It won't fade out between toll buildings or even under viaducts. It's fade proof.

## Eggs Cradled in Cereal Will Tempt Sleepyheads

Although it's been said many times, it bears repeating—breakfast is the most important meal of the day. Make it something special by serving Baked Eggs in Cereal Nests, a novel way to bring cereal and eggs to the table in the same dish.

Does it sound too complicated for hurried, early morning meals? It's not at all. Just measure bite-

size shredded wheat biscuits into small greased baking dishes—one for each member of the family.

Dot with butter or margarine, break an egg on top of cereal and dust with salt and pepper. While the eggs bake, you can finish preparing breakfast.

Baked Eggs in Cereal Nests are the solution to many breakfast problems. They're fine for folks who eat on the run, they satisfy those who like variety, and they provide a goodly share of the day's nutritive requirements.

Flavorful and satisfying, this combination of well-seasoned eggs and buttery, toasted bite-size shredded wheat biscuits must be tasted to be appreciated.

One bite and even the most reluctant sleepyhead at the table will declare Baked Eggs in Cereal Nests "worth getting up for."

**Baked Eggs in Cereal Nests**

For each serving:  
1/2 cup bite-size shredded wheat biscuits  
1 teaspoon butter or margarine  
1 egg  
Salt  
Pepper  
Heat oven to moderate (350). Generously grease individual casserole or small baking dish. Line dish with bite-size biscuits. Dot with butter.

Break egg on top of cereal. Sprinkle with salt and pepper. Bake on center rack 15-20 minutes.

**BAKED EGGS IN CEREAL NESTS**—Watch your family sit up and take notice when you bring Baked Eggs in Cereal Nests to the table tomorrow morning. Bite-size shredded wheat biscuits make the crisp coating for these individual servings of egg. Here's a dish that is quick to fix, easy to eat.

## Cream Glamorizes French Dressing

A platter of fresh fruits (more slimming than those canned in syrup) garnished with cottage cheese and served with French dressing is a suggestion for the calorie-counters.

A plate of fresh fruit (you're safe on almost every one but avocado which, delicious though it is, is fattening) can be made a supreme luncheon treat when served with Creamy French Dressing.

Although the cream counts up, the fruit gives you plenty of leeway.

**Creamy French Dressing**  
1/2 cup light cream  
1/2 cup basic French dressing  
While beating constantly with rotary beater, gradually add cream to French dressing. Serve with fruit or green vegetable salads. Makes almost one cup.

Spread Melba toast rounds with peanut butter. Spread jelly on top of peanut butter and top with chopped orange peel.

## Plan to Raze School

CHARLEVOIX — Plans to raze the 53-year-old St. Mary's Catholic School have been announced by the Rev. E. Francis Denny, pastor, who says a new \$20,000 building will replace it.

## Construction on the new school is expected to begin in mid-June.

The average size of farms in Kentucky increased from 74.4 acres in 1935 to 89 acres in 1950. The total number of farms decreased from 278,298 to 215,476.

## Warrant Issued Against Singer

Jeanette MacDonald Is Ordered Arrested for Rooming House Neglect

HOLLYWOOD — Singer Jeanette MacDonald has been ordered arrested on a charge that a rooming house she owns in New York has not been kept in proper repair. She issued a statement last night denying responsibility for the condition of the property.

In New York yesterday Magistrate Robert F. Mahoney signed a warrant for her arrest after she had failed for the third time to appear in court and answer a complaint regarding the rooming house on West 97th street.

"I feel sorry that I have to issue a warrant for her arrest for, after all, she is a great actress, but everyone is treated alike in this court," Mahoney said.

In Hollywood Miss MacDonald said: "I only know what I understand is in the papers. The property referred to came under my ownership as part of a trust fund investment for my mother. The real estate department of the Hanover Bank managed the property for many years. About a year ago the bank turned its management over to the firm of Rulind, Benjamin, Earl and Calhoun — they are property managers. Any problems connected with it would be their responsibilities as my representatives."

## Catholics Increase

NEW YORK — There were 32,575,702 Catholics in the United States, Alaska and Hawaii on Jan. 1, the official Catholic directory reports. This was an increase of 927,278 in one year.

SOUNDS FINE — Rep. Noah Mason of the House Ways and Means Committee has promised taxes will be cut "at least \$5,000,000 next year. The Illinois Republican made the forecast in a weekly newsletter to his constituents, predicting a 10 per cent reduction in individual income taxes, beside corporate income and excise taxes.

## Seeking Vain Thief

CHARLOTTE, N.C. — Police are seeking a youthful thief here and their lone clue is his apparent vanity. He took some combs but abandoned his stolen mirror.

## Except for Only One Thing, Auto Runs Just Fine

MUSKEGON — Patrolman Donald Robbins said a "nagging feeling" gnawed at him after he checked a car in the Muskegon Heights crusade for safety auto inspection.

Harry Bacon's car apparently had passed the safety crew's inspection of lights, brakes "and everything."

"I was going to wave him through when I decided to take a last look inside," Robbins said, "and there it was."

The auto had no steering wheel. In its place was a horn ring, Robbins said.

Bacon explained the wheel had come off "so I use this."

"It works okay," he told officers.

Police took Bacon to his home and ordered him not to drive until the wheel is replaced.

## Bicycles Built to Steal

COLUMBIA, S.C. — Police have arrested two boys for the second time within two weeks for the theft of the same two bicycles. The youths, both 16, have been turned over to juvenile authorities.

## Catholics, Police Clash

BUENOS AIRES — Press reports said Roman Catholics and police clashed in several provincial cities last night after evening Masses commemorating Argentina's national holiday. Many persons were reported injured and at least 58 arrested.

## Menon Back in India

NEW DELHI — V. K. Krishna Menon, Prime Minister Nehru's top political adviser, returned today from Peking to report on his 11-day talks with Red Chinese leaders.

## Menon Back in India

## See Red China Freeing Yanks

U. S. Diplomats Think Chou Will Try to Make Impression on U. N.

WASHINGTON (AP) — American diplomats now believe Red China may take steps within the next month to release many of the Americans held behind the Bamboo Curtain.

These include 41 civilians and 15 airmen captured during the Korean War. The belief is based on what appears to be a general easing of belligerent behavior by Peiping and, more importantly, on a belief that the Chinese Reds will want to make a favorable impression on the world prior to the United Nations 10th anniversary meeting at San Francisco June 20. So far as officials here know, Chinese Communist Premier Chou En-lai in long months of negotiation has not made any definite promise to free the Americans but neither has he slammed the door on that possibility.

A recent visitor to Peiping, India's V. K. Krishna Menon, reportedly got about the same inconclusive results on this score as did U.N. Secretary General Dag Hammarskjöld early this year. Hammarskjöld said then he was sure the airmen would be freed eventually, but that he got no promise.

Diplomats believe the Red Chinese did not want to let the men go too quickly or without some hope of gain. The belief now is that they might see the prospect of such gain by trying to build goodwill with the U.N. nations in advance of the San Francisco session. It is assumed in the State Department that the Chinese Reds strongly desire international acceptance and U.N. membership.

More broadly, authorities believe the general improvement in the international atmosphere due to developing plans for a Big Four meeting "at the summit" must have some effect on Red China's behavior even though China would not be a party to the conference.

Evidence of some slight improvement in Red China's general attitude came two weeks ago when Chou said that his government would prefer to try to settle the problem of the "liberation" of Formosa by peaceful means rather than war.

## Postshot Polio Victim Better

Doctor Says Boy, 7, Had Lighter Case Due to Getting Vaccine

LANSING (AP) — Michigan's first reported polio victim to contract the disease after receiving Salk vaccine shots probably had a lighter case because of the vaccinations, a Lansing physician said today.

The victim was seven-year-old Jeffrey Farnsworth of suburban Millett, who was admitted to a Lansing hospital over the weekend, nine days after receiving his second anti-polio shot.

His condition had improved from "fair" to "good" Wednesday, and his physician, Dr. S. P. Fortino, said the boy apparently is recovering rapidly from his brief affliction with the often paralyzing disease.

Dr. Fortino said the Farnsworth boy, who received two shots of the Parke-Davis vaccine in the Eaton County free vaccination program, was "up and walking around" today and that the rigidity in his back had "practically disappeared."

The physician said the two anti-polio shots the boy received "probably minimized the effects of polio which he had contracted earlier."

If such is the case, local medical authorities pointed out, it would serve to over-rule rumors that the Salk serum has caused polio in vaccinated children.

The Farnsworth boy was the first Michigan resident to contract polio after receiving vaccinations of the Salk serum.

## Trolleys Slam Doors on Non-Paying Riders

PITTSBURGH (AP) — The Pittsburgh Railways Co. said it was shocked to learn many commuters who ride trolleys only a few blocks in the business district were under the impression the ride was free.

A checkup showed many persons entered and left by the side doors. Now the company keeps the side doors closed in the business district. Passengers pay as they enter.

## Fund-Raisers Decide Woman Too Charitable

MIAMI, Fla. (AP) — During the campaign to raise funds to fight cerebral palsy, a woman suffering from stomach cancer pledged \$2,500 and explained it was money she'd saved to retire the mortgage on her home.

"We didn't accept it," said Leo Rowitch, campaign chairman. He added, "We turned down a number of other pledges, too, because we felt the people couldn't really spare the money."

Bob Considine Says:

## U. S. Orchestra Promotes Relations in Japan

NEW YORK (INS) — Marvin Stone, our service's crack Far East correspondent, writes from Tokyo:

A working stiff spends so much of his time in Asia filling stories of wars and near wars, international tensions and diplomats glowering at each other that he begins to feel like a prophet of doom and deepest despair.

Then a different kind of story comes along, and even a cynic gets a lift. That's the way it is with the tour in the Far East of New York's Symphony of the Air.

This is the former NBC-Toscanini Orchestra which was ordered disbanded a year or so ago. Its members vowed to keep the orchestra intact. "The orchestra that refused to die" was their slogan, and a lot of people should be glad that so far they've succeeded.

It has now completed two tours of Japan. At the Tokyo Press Club tonight, Abe Savage, publicity director for Local 802 (musicians union, NYC) and press rep for the orchestra's tour, showed me a fistful of mail the men have been getting from the Japanese people.

MUTUAL RESPECT The letters confirm my feeling that the heart of this story is not the mere fact of good music but the tremendous contribution toward bringing much closer together, in terms of mutual understanding and respect, two important countries which have tended of late to be critical of each other.

Japan had never been visited by a Western symphony orchestra, and how the people responded!

## U. S. Changes Salk Standards

Creates Clearing Panel to Advise on Making of Polio Vaccine

WASHINGTON (AP) — The government yesterday revised its standards for making Salk vaccine and created a clearance panel to advise on all production—moves pointing toward early resumption of the nationwide anti-polio inoculation program.

The government's proposed distribution of \$28,000,000 in federal funds for free polio vaccine for children who can't afford to pay for it includes an allocation of \$941,038 for Michigan.

The Michigan grant would provide free polio vaccine for 17.1 per cent of Michigan's estimated 2,217,889 children between the ages of 6 to 15 years who have not received the Salk vaccine.

The government and drug manufacturers sought today to work out differences over what constitutes a safe but workable program for Salk polio vaccine.

### NEW STANDARDS

Their disagreement yesterday—another in a series of developments which have delayed the nationwide inoculation program—came after Surgeon General Leonard Scheele reported "we are now ready to move ahead."

Scheele announced that a new set of manufacturing and testing standards had been prepared and a working committee of scientists appointed to supervise their operation. He expressed hope that we can clear new batches of vaccine at the earliest possible date.

But when the new standards were outlined to representatives of the drug manufacturers, they raised objections which necessitated further conferences today.

### She Sets Example

ALBUQUERQUE, N. M. (AP) — An embarrassed tourist explained to firemen she was just showing her children what not to touch on an alarm box, opened the small glass door, and the alarm went off. Firemen of three trucks concluded the explanation.

CONTRACT TROUBLE—Harold M. Reitan, 31-year-old Chicago, Ill., polio victim paralyzed in both arms, shows how he held a pen in his mouth last summer to sign a contract he's now trying to break. The contract is between Reitan and a former employer, an employment agency. It prevents him from opening a rival firm for one year after leaving the agency. Reitan claims his paralysis makes it difficult to find employment in other fields.

Every seat was sold within two hours of the announcement of the playing dates. For student concerts kids stood in line for as long as 30 hours. Public and critics alike made with the banquets.

The men of the orchestra have created such a flood of good will and understanding of what America stands for that we have emerged in a wholly new light to tens of thousands of Japanese who considered our culture questionable. In every city where the orchestra has played the men have been literally mobbed by autograph seekers and well-wishers.

Mind you, this is not a propaganda deal as such. The orchestra doesn't know from propaganda, caps or lower case. The men regard themselves merely as American musicians, playing good music as well as they can. If they have overwhelmed Japan, they are just as overwhelmed themselves by what they have accomplished. And, in all humility, quite proud of it.

### FEATHER IN CAP

You can tell Al Manuti, president of 802, that his boys have extended the boundaries of his local by 12,000 miles. Also, Bob Schnitzer, manager of the ANTA-interna-

tional exchange program, sponsoring the tour, can have a feather in his bonnet any time he wants.

The cost to our government of this tour is a tiny fraction of what it pays for a single fighting plane. We buy the plane in the hope that we'll never have to use it in anger. How about buying a little more of the first, and using it more and more all over the world?

The orchestra left Tokyo this week and is now playing in Korea. After that it's Okinawa, Hong Kong and Manila. You can expect the same kind of reception in those places as the Japa-

nese preferred.

Some of the letters Savage showed me are poignant. Utter sincerity glows through the inadequacies of language, as in this one from a Tokyo high school girl:

"I confess to you faithfully that I was beside myself to lose my sense during the concert. I felt enough that such an excellent performance is the only desirable thing in this world. I desire that such a concert will grow our friendships between America and Japan. And I hope we have a good exchange like this again and again in Japan in the futures."

## School Revision Back in Senate

House Oks New Code After Adding Number of Amendments

LANSING (AP) — A recodification of the state's school code was back in the Senate today after the House passed it by a 102-1 vote.

The House asked the upper chamber to accept a raft of amendments which it said would strengthen and improve the bill.

The biggest impact of the bill would be to require "closed" school districts to join with

neighboring districts or reopen their schools within the next two years.

More than 800 of the 4,000 school districts in Michigan are closed. This means they operate no schools, but send their students to schools in nearby districts.

In addition, the House version of the bill would allow school districts to claim special state aid for mentally handicapped students on the same basis as they now collect aid for physically handicapped.

On the speedway

# Pacemaker on any road!

On the highway

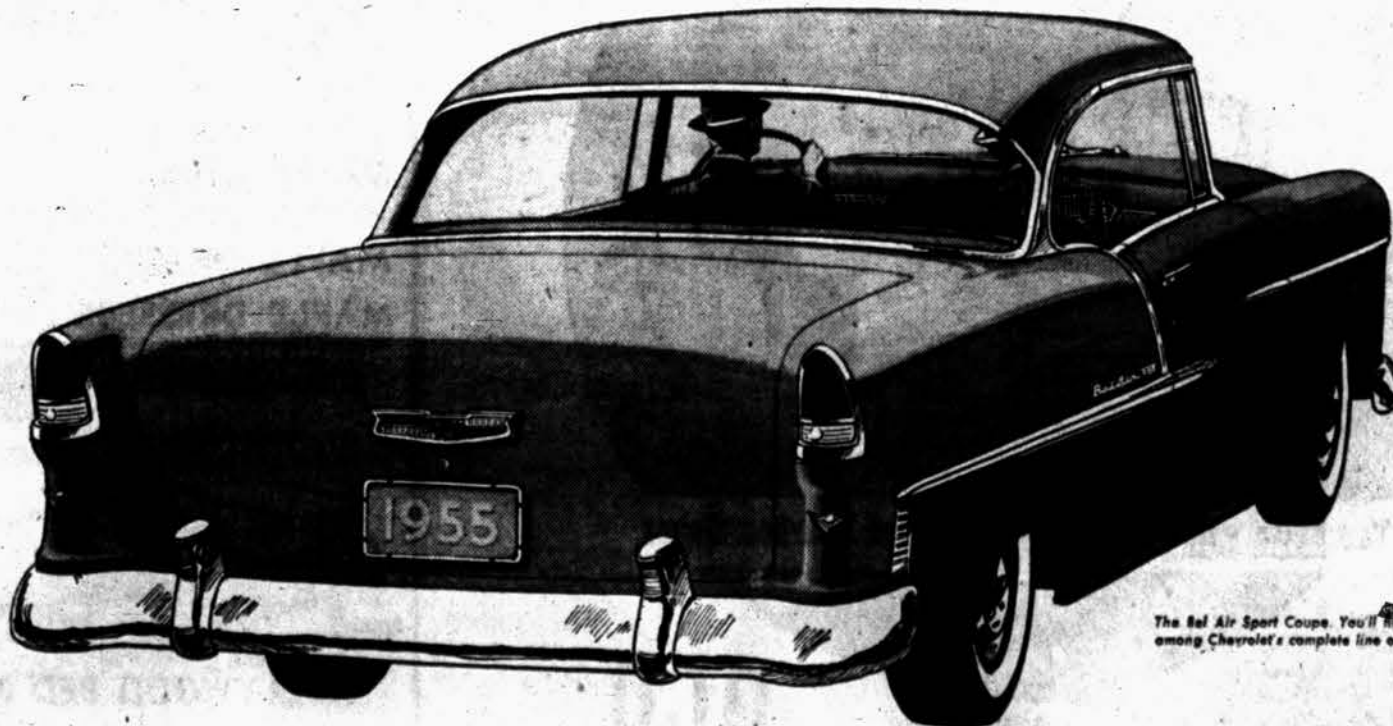

This year, a clean-lined convertible wearing Chevrolet colors is setting the pace at the world-famous Indianapolis "500." A breathtaking new Bel Air convertible with plenty of what it takes to justify a pace-setting role anywhere: Crisp, uncluttered styling (styling that's stealing the thunder from the high-priced cars!) and a way of whisk-

ing off NOW with the smooth, split-second surge of a new 180-h.p. "Super Turbo-Fire V8" (an extra-cost option anyone can enjoy). Just watching, you get the feeling it must be as much fun to drive the Motorama Chevrolet as it is to see it sweeping through the turns at the speedway or knifing down the open highway. And you're right!

Chevrolet's sizzling highway performance is being proved again and again on stock car tracks everywhere. In the recent NASCAR\* stock car competition at Daytona Beach, Chevrolet literally ran away from the other low-priced cars. In the one-mile straightaway run, the first two cars

—and six of the first ten—were Chevrolets. And in acceleration runs from a standing start against all comers, Chevrolet beat all other low-priced cars—and every high-priced car except one! Come in soon and drive Chevrolet's record-shattering "Turbo-Fire V8!"

\*National Association for Stock Car Auto Racing.

The Bel Air Sport Coupe. You'll find your favorite model among Chevrolet's complete line of Fisher Body beauties.

Stealing the thunder from the high-priced cars!

## Underseas Explorer Looks Harmless Enough on Land

By W. G. ROGERS

NEW YORK (AP)—A kind of hypnotizing science-fiction figure—a figure with web feet, mittened hands, three lung tubes wrapped around where head and neck should be, an oval mask like the maw of a monster, belting and webbing here and there, a humped back made of a long fat tube—That's the fellow I thought I was going to have lunch with.

But I wouldn't have recognized him. He wasn't like his photographs. He was just another regular-looking fellow in soft hat, glasses, with a wide bald spot, a healthy tan, and a command of several languages—French, his native tongue; English; and the lulling, soothing language of the underwater world.

He didn't have that third lung with him, or the other paraphernalia, but he is Philippe Diolé, the aquanaut.

You might think all you need to be, to explore underseas, is an athlete. Diolé's books, looks and talk prove the contrary. To be sure, he's a swimmer, diver and fisherman. But he's also linguist, archeologist, almost a lawyer, and also an ex-newspaperman.

### STUDIED AT LOUVRE

Archeology won his allegiance when he was at the Louvre, at a time when the great museum was the big place for scholars in that field.

Then—"I wanted to live," he said, meaning he wasn't getting rich. "I like to live," he emphasized, and became newspaperman and editor of two big Paris dailies. He worked on Combat, with Albert Camus, on Match, on Beaux Arts, and on Paris-Soir. There was a day when he got out 22 editions, from dawn to nightfall, to keep up with fast-breaking war news. He was a roving correspondent, traveling widely in Africa.

"I loved to swim, and my friend, Philippe Tailliez, captain in the French navy, introduced me to the aquanaut. I dived with it first at Toulon—and for Paris-Soir I wrote the very first place ever written about it. I did underwater hunting. With my special underwater gun I shot an arrow right through a finger—my own finger."

"Now I hunt for other things." He has found ancient Greek wine jars, statuary, coins, remnants of huge pillars, sites of the docks of antiquity, skeletons of old boats. He has traced Roman roads. He has found underwater

PHILIPPE DIOLÉ

proof, particularly in the size of the craft, that the Romans sailed regularly to far-off India.

### LIKES SAHARA

When he's not under water, he likes the driest of dry land, the Sahara. His book, "The Most Beautiful Desert in the World," out already in Paris, is due here later this year from his publisher Julian Messner. He goes back to the Sahara in July.

### Turkey Feathers Don't Go to Waste

GIBBON, Neb. (UP)—Charles Wilcox, whose turkey farm near here processes 4,500 birds a day at the height of the season, says the feathers are not wasted.

Some of the feathers are valuable. He said the best, or "pointer" feathers, from the wingtips, go into arrows. These are too valuable for machines to pluck, so they are hand-picked.

Feathers from the thighs, tail and back are shipped by the bagful to various firms for such uses as stuffing pillows.

Even the "scrap feathers" aren't wasted. They're sold for fertilizer, they contain 18 per cent sulphur, and the rest is protein.

### News Reporter Lends Hand to Get Bill Passed

RALEIGH, N.C. (AP)—A House committee reported favorably on a local bill after some unsolicited and unofficial help from a newspaper reporter.

Reported Lynn Nisbet moved for a favorable report on a bill providing for open meetings of all municipal council meetings at Statesville.

Before anybody realized the motion came from a nonmember it had been seconded and the favorable report recorded by unanimous vote.

## Lawyers Cram Nation's Capital

Washington Can Count One Private Attorney for Every 121 People

WASHINGTON (UP)—Washington has more lawyers per capita than any other city in the United States, not counting the government's hordes of legal eagles.

A survey by Dean John T. Fey of George Washington University College of Law indicates there is one practicing private lawyer for every 121 people in the capital. This figure does not include a large number of government lawyers who handle cases on a part-time basis.

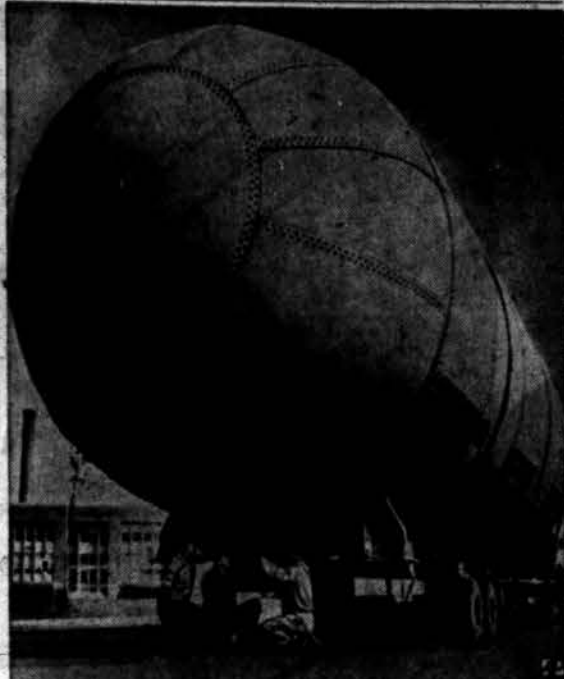

The per capita figure for the whole United States is one lawyer for every 551 people. New York is second to Washington with one lawyer for every 447 people.

Dean Fey attributes the large number of Washington lawyers to the five law schools in operation here and to the fact that the capital has always been a mecca for lawyers.

He says the capital is so heavily supplied with legal talent that it is "difficult for a young lawyer to get started."

A common practice for young lawyers starting out here is to become associated with a firm where they either rent desk space for \$30 to \$50 a month, or pay the firm 15 per cent of their gross income.

The District Municipal Court

**NO LOW FLYER**—Despite appearances, this is no low-flying blimp, but a 30-ton, 57-foot-long, 17-foot-high gas storage tank being moved through Philadelphia.

has lists of persons needing legal aid but unable to pay for it. The beginning lawyer often signs up to donate his time to these non-paying cases.

After he has completed a number of free cases, the court sometimes assigns him a case for which he receives a fee.

Since it is unethical for a lawyer to solicit business, the newcomer must depend on his friends and associates or on established lawyers

who give him cases on a percentage basis.

"The average earnings of a Washington lawyer during the first five years is \$3,354," according to Dean Fey.

### Parse That Sentence.

HASTINGS, Neb. (UP)—A Hastings school teacher almost gave up when a pupil asked, "What did you give this book to me to be read out of?"

## Son's Questions Assist Father

Query on War Started Legion Chief Thinking About Preparedness

BATTLE CREEK (NEA) — One night after six-year-old "Add" Wagner, III, had finished his evening prayer he looked up and asked:

"Daddy, am I going to have to go to war and fight?"

His father, J. Addington Wagner, a prominent 41-year-old attorney here, mumbled a reply designed to pacify the youngster. But the lad's query started him thinking and he wound up arriving at two conclusions.

He decided that his son might have to go to war, just as he had done, as a Navy officer in the Pacific during World War II.

### LOOKS OUT FOR SON

He also decided if his son did have to fight for his country he wanted the country to be a prepared as possible, to make sure that the boy would not be a victim of "too little, too late."

From this thinking he also made up his mind to pursue his work in the American Legion even more ambitiously than he had been doing, and if possible, become national commander some day. He had already held several national committee jobs in the Legion.

Well, barring an act of God between now and next fall, Add Wagner will be the next commander of the Legion. By some

J. ADDINGTON WAGNER

mysterious process known as "king making," the Legion selects its new commander about half-way between national conventions.

There will be a formal election at the next fall convention, with campaigns and roll calls, but this contest is more of a test of strength to see who is leading for the job for the following year. This may sound a little strange but that's the way Legion politics works.

Wagner insists he can't assume he will be the next commander until after the convention. But if he is, he says, he will not forget his son's query. He will devote his administration to encouraging maximum preparedness of the country against enemy attack.

The U.S. total of land in farms available for crops has been about 512 million acres for the past 50 years.

# Wide Open Battle Looms for LPGA Golf Test

Favorites were almost as plentiful as 200-yard drives as the Wolverson Ladies Invitational Open golf tournament got underway this morning over the well-manicured Forest Lake Country Club course.

The absence of such players as Babe Zaharias, Patty Berg and Louise Suggs has thrown the battle for the top prize of \$1,000 in the \$5,000 event wide open.

Anyone of several of the favorites could win and there are one or two darkhorses among the amateurs.

Pretty Mariene Bauer, one of the famed sisters from Sarasota, Fla., served notice that she can handle the course Wednesday with a brilliant 1-under par 71 her first time on the layout.

with monotonous regularity (17 of them) and collected her lone birdie on the tough 485-yard par 5 12th hole.

Following a shot-making clinic, "enclosed" by the ever-present Bauer sisters, a driving contest was held. Prizes of \$100 were offered the victors and \$70 of this was picked up by Mickey Wright

and Beverly Hanson, who travel together on the summer tour in a trailer.

Miss Wright, a newcomer to the lady pro swing from LaJolla, Calif., was the test with a 237-yard poke and pocketed \$60. Veteran Betty Jameson of San Antonio was 2nd with a 235-yard drive and won \$30. The slender

Miss Hanson, of Indio, Calif., won \$30 for her 3rd place drive of 234 yards.

After her course record 71 Wednesday, Mariene Bauer picked up many boosters as the pre-tourney favorite, but sister Alice Bauer Hagg had a 77 (which equaled the just recently established course record) and Betty

Bush of Lakepointe had a 76 in practice.

The veteran Betty Jameson and sweet-swinging Betty Hicks are definite title threats and many feel that Mary Lena Faulk of Thomasville, Ga., has the game suited to the Forest Lake course.

Long-hitting Wiffie Smith, 19-year-old amateur playing out of St. Clair River Country Club, is a distinct challenger to the seasoned professionals. It was her 77 that was set up as a women's course record and went by the boards Wednesday.

Teeling off began at 11:30 this morning, but the first three-some of procties didn't leave the tee until 12:45 p.m. The tournament continues with 16-hole rounds Friday and Saturday and winding up on Sunday.

List of 28 amateurs includes many from Pontiac and Oakland County-area clubs. Among them are Mrs. Don Watkins of Birmingham CC, Mrs. J. G. Israel of Knollwood, Mrs. Susan Gawne of Bloomfield Hills CC, Mrs. Joseph Staphelinkas of Oakland Hills, Mrs. Robert Erdelen of Indianwood, Mrs. S. W. Nunneley of the host club and teen-agers Sally Sharp of Pine Lake and Mary Lovell of Birmingham.

## Takes No Chances

### Track Boss 'Too Big' So Rocky Wears Tie

INGLEWOOD, Calif. (AP)—Rocky Marciano spent a rare day at the race track and this is to report that Marciano, the heavyweight champion of the world, lost a decision right off the bat.

He not only lost, he quit cold. Rocky was the guest of honor at

the exclusive and private turf club at Hollywood Park. The club has a rule that no one can enter or enjoy its luxuries without a necktie. The chief enforcer of the regulation is a large man named William A. (Bill) Romano, the manager. He is reported to weigh 250 pounds and is agile.

The champion has an elaborate wardrobe. But he is allergic to neckties. He seldom wears one. He likes open necked sports shirts. So what happens at Hollywood Park? Marciano shows up impeccably groomed, including around the neck.

A brand new soft white silk tie he has on. True, it is casually, even loosely tied, but it is there on the Marciano neck. "I heard about this manager. He's got too much weight," said Marciano.

Marciano, with tie, and his chief social seconds, Mr. Jack West of New York and Dayton, Ohio and Mr. Irving Berman, Rocky's host in Beverly Hills, appeared in the winner's circle to crown the winner of the big race.

The circle is much larger than the 16-foot ring Marciano had at San Francisco. Don Cockell would have loved it.

## Kramer Makes Tennis 'Brass' Very Unhappy

### Jack 'Blows Whistle' on Paying of Money to Amateur Netters

NEW YORK (AP)—Jack Kramer, once tennis' All-American Boy, is in the official doghouse because of his recent "I was a paid amateur" confession.

Writing in a newspaper magazine supplement (This Week), the former world champion admitted he accepted money over and above expenses in violation of the amateur code.

He said he was a "pro" while an amateur and added that other topflight performers were guilty of the same practices. He called for the U. S. Lawn Tennis Association to wake up to realities.

A check with some of the sport's highest brass today disclosed that publicly they're holding their tongues on the matter. Privately, they're hotter than a tin roof in July.

"Jack has done tennis a distinct disservice and I am greatly surprised," commented one official who declined use of his name. "He is now a professional and does not fall under our jurisdiction but there may be ways to show him our displeasure."

This is how the USLTA can—and may—hit back at Kramer for tooting the whistle:

1. He may be stripped of his role in the Davis Cup development program popularly known as "the Kramer Kids" program.

2. He may be denied any job with the Davis Cup team. He served as a coaching assistant last year to Captain Bill Talbert in Australia.

3. He may be black-listed from any office in the USLTA. Jack, one of the game's most popular figures and finest ambassadors, had been marked for future administrative posts in the association.

The tennis association itself is in an uncomfortable position over the so-called expose.

Since conditions which Kramer describes are known to exist, some officials feel the wisest course would be to sit tight and take no official notice whatever. Any action might take on the aspect of censoring Kramer for revealing the truth.

Others heatedly are clamoring for a forthright denial on the part of the tennis fathers and disciplinary action against the former Davis Cup star.

There Are 5 Sports Pages in Today's Pontiac Press

## Orioles Plan Tryout Camp at Wisner Field

City Parks, Recreation Co-Sponsoring Pontiac Trials July 6-7

The Pontiac Parks and Recreation Department announces that in cooperation with the Baltimore Baseball Club, an official big league tryout camp will take place in Pontiac, July 6-7 from 9 a.m. to 2 p.m. daily at Wisner Field.

The Baltimore Orioles will send four of their seasoned scouts to let boys of the Pontiac area have an opportunity to show their skills at a professional school.

Tony Stiel of Birmingham, formerly a St. Louis Browns scout in this area, will be one of the scouts working at the school. There will be no charge for any of these activities and prospective ball players are asked to bring their own equipment. Balls and bats will be furnished.

This is the first baseball school for the Baltimore club in this area, and is the first tryout camp in Pontiac since 1951.

The New York Yankees at one time held an annual tryout camp at Wisner and signed many players. One of the boys signed following a Pontiac clinic was Hal Smith, a Detroit boy who currently is catching for the Orioles.

N. C. Hosts Netters

University of North Carolina will be host to the U.S. Intercollegiate tennis championships June 20-25.

## 29 Americans to Compete in Wimbledon Test

Davis Cup Stars Are Headliners in Tennis Classic, June 20

WIMBLEDON, England (AP)—The United States and Australia, ranking powers in the world of tennis, will have 53 players in the field of 128 men and women who will open competition June 20 in the All-England championships at Wimbledon.

Twenty-nine Americans will be on the scene, headed by Davis Cup ace Tony Trabert and Vic Seixas, and Ham Richardson, Budge Patty and Art Larsen.

Australia's Davis Cup stars, Ken Rosewall, Lewis Hoad and Rex Hartwig lead the Aussies' 24-player entry. Rosewall was beaten in the finals of the men's singles last year by Jaroslav Drobny, the self-exiled Czech.

Other American entries are: Hugh Stewart, Gil Shea, Herbie Flam, Beverly Baker Flit, John Flit, Robert Kelleher, Mrs. Kelleher, Louise Brough, all from the Los Angeles area; Wayne Van Voorhees, West Palm Beach, Fla.; John Ager, Atlanta, Ga.; Gardner Mulloy, Doris Hart, from the Miami, Fla. area; Malcolm Fox, Baltimore; Pablo Eisenberg, Maplewood, N. J.; Tony Vincent, Sidney Schwartz and Hugh Sweeney, from the New York area; Andy Payton, Ann Arbor, Mich.; Barbara Davidson, Milwaukee; and Katherine Hubbell, Boston.

2 Won 20 Games

In 1943 only two American league pitchers reached the 20-game circle. They were Spud Chandler of the Yankees and Paul Trout of the Tigers.

Are 'Perri', Moran Same?

Mystery Man 'Peter Perri' in Case as Johnson-Mederos Probe Continues

PHILADELPHIA (AP)—The investigation of boxing in Pennsylvania centered today on a mystery man identified as "Peter Perri."

That name appeared on a document introduced yesterday at the Pennsylvania Athletic Commission's hearings on the May 6th

fight between Philadelphia boxer Harold Johnson and Cuban Julio Mederos.

The commission has charged that Johnson was drugged prior to the fight, which he lost on a TKO when he was unable to answer the bell for the third round.

and had to be carried from the ring on a stretcher.

The document introduced in yesterday's heated session bore the signatures of Perri, Tommy Loughrey, Johnson's manager of record, and Johnson. The commission said the contract, dated December, 1948, showed that Johnson had two managers, a charge denied vehemently by Loughrey.

Loughrey was on the stand when Herbert S. Levin, deputy state attorney general who is acting as counsel for the three-member commission, put the contract before him.

Loughrey jumped to his feet and shouted: "I don't understand. I never saw it before. It's ridiculous. Tear it up and put it in the wastebasket. You're wasting your time. Where was it filed?"

His attorney, Thomas J. Burke, queried Loughrey and then, at Levin's request, conceded the document was "official." Loughrey identified his signature on the document and so did Johnson, who was called back to the stand to examine the paper.

The hearing was once more thrown into turmoil when state-maker Pete Moran, whom the commission alleges also managed Johnson, was brought to the stand. Levin asked him to sign his name on a piece of paper, Moran's attorney, Garfield W. Levy, then accused the commission of attempting to prove Moran and Perri are one and the same person.

Commissioner Chas. E. A. Jones Crowley overruled the objection, but upheld Levy when Levy asked Moran to sign the name "Peter Perri" on a piece of paper.

All three principals denied any knowledge of Perri.

## Fitzgerald Is Track Champ

Fitzgerald High School dethroned Troy as Oakland-B Conference track champions Wednesday evening on the Fitzgerald track.

The Spartans won the closely-contested event with 43 6-7 points. Clawson was 2nd with 36 followed by the defending champion Troy team with 31. Roseville was 4th with 28 5-14. Avondale, 24 3-7, Lake Orion, 22 3-7, and Madison, 9 13-14.

Fitzgerald took 4 1sts as the 7 schools divided the places to quite a great extent.

Lake Orion, competing in its 1st meet as a member of the Oakland-B, accounted for the only 2 league records that were surpassed. Lynn Hazlett, the Dragon's fine all-around athlete, set a new mark in the 440-yard run in 52.9 seconds. It bested the 54 seconds set up by Troy's Jim Pouget last year.

Hazlett trailed Fitzgerald's Mieschewski until they kicked to the front in the final 30 yards to win by a stride and a half. Troy's Floyd Bailey was 3rd. Dave Wilson of Orion set a new high jump record of 5 feet, 7 1/2 inches, bettering the old mark by 1 1/2 inches.

## Doubles Tests Open in French Tourney

PARIS (AP)—With most of the opening matches in the men's and women's singles out of the way, the doubles combinations took over the spotlight in the French international tennis tournament today with a list of full or part time players.

Defending champion Tony Trabert of Cincinnati and his Davis Cup partner Vic Seixas team up against Jacques Weiss of France and George Sturza of Norway in the feature match at the Roland Garros courts. Before his doubles match, Seixas will meet Roger Beck of England in a third-round singles match.

## Track Champions Guests of Press at Dinner Party

All members of the great Pontiac High School Michigan schoolboy state championship track team will be honored tonight at Stevens Hall by the Pontiac Press.

The Press has arranged for a dinner party at which time the man who heads the Michigan High School Athletic Association, which conducts the big title chase, will be the speaker. He is Charles Forsythe, director of athletics for the MHSAA.

Mr. Forsythe saw the brilliant efforts the Pontiac contingent of 19 qualifiers put out on Ralph Young field, East Lansing, last Saturday. He witnessed the record-setting high hurdles victory (14.5 seconds) that Hayes Jones made for the one mark out of three set in the meet, for which a Pontiac athlete was responsible.

All four coaches of the squad, head mentor Wally Schloerke, Dean Wilson, Ed Grebel and Ray Lowery will also be guests on this occasion.

Chief thincads went through the entire season without a team defeat in dual, invitational, regional and state meets. It hung up new records by the dozen and will be equally strong, if not stronger, next spring, in the opinion of the coaching staff. Only five members of the squad will be lost by graduation and a number of "hot" newcomers are in line to bolster the 1956 aggregation.

## Pontiac Netters Fall to Cranes; End With Lapeer

Cranbrook's experienced tennis team chalked up a 6-1 victory over Vic Lindquist's Pontiac squad Wednesday afternoon at Murphy Park courts. Only Ted Wiersema's triumph kept the Chiefs from being whitewashed.

Loss to the Cranes, Class B regional champs, in a return meet, was PH's 10th of the season and 2nd reversal this week. Monday the Chiefs dropped a 7-0 SVC decision to Bay City on the latter's courts.

Pontiac's netters wind up their 1955 spring schedule today at Murphy Park with Lapeer, the only school in the win column for PH's this season.

Results of Wednesday's matches: Eddie Macdonald lost to Klein, 6-3, 6-2; Kent Mills lost to Rockwell, 6-3, 6-2; Gary Thomas lost to Jacobson, 6-4, 6-4; Ted Wiersema defeated Duncan, 6-3, 6-1, 6-2.

Carl Lindquist-Gary Wyle lost to Duckworth-Smith, 6-0, 6-0; Bob Fry-Bill Bonner lost to MacLehner, 6-4, 6-4; Paul Kamper-Rigdon lost to Buiset-Buller, 6-0, 6-2.

## Cubs Sweep Pair to Take 2nd Place in National League; Yankees Widen AL Lead With 6-2 Victory

By THE ASSOCIATED PRESS  
The Chicago Cubs remind you of the folks who were too poor to paint and too proud to whitewash. They've simply been getting the job done with what little they have.

Manager Stan Hack, making infielders into outfielders, gets hits when he needs them from a bunch of guys hitting only .237 as a team. And without hauling in a load of newcomers, he's been getting great pitching from a staff that was barely adequate in the recent past.

That's the way it was again yesterday as the Cubs swept a doubleheader from the St. Louis Cardinals in the National League, six games back of Brooklyn.

since May 6 and hadn't won since April 22, came up with a four-hitter and rookie Bob Speake, an infielder now roaming the outfield, chipped in his sixth home run to win the opener 1-0.

It was the fifth shutout of the season for the Cub staff—tops in the NL.

Veteran Bob Rush, with just one winning season in the majors, took charge in the nightcap, keeping the Cards limp with a two-hitter, to win 3-1. He had a 2-0 lead in the first inning on a home run by Eddie Miksis (another outfield convert from the infield), a triple by Gene Baker and Speake's double.

pair at Philadelphia 8-3 and 5-2. The Giants now have lost three in a row after winning six straight.

Rain stopped Brooklyn at Philadelphia while Cincinnati made things tougher for fourth-place Milwaukee by beating the Braves 13-2.

In the American, New York's Yankees beat Washington 6-3 on Yogi Berra's three-run homer and a three-hitter by Bob Turley, who won his eighth decision in nine starts. The victory widened the Yanks' lead to 1 1/2 games as rain postponed Chicago at Cleveland.

DOUBLE TAKE — These two bass, hooked on one cast of a lure, made an otherwise slow fishing day a whopping success for 12-year-old Roland Leeds of Ann Arbor, Michigan. The fish at left is a small-mouth and the one at the right a large-mouth.

## Scots, Broncos Open NCAA District Test

KALAMAZOO (UP)—Alma College's MIAA baseball champions tangle with Western Michigan in a doubleheader here today to open the NCAA 4th District playoffs.

Alma was selected as an "at large" entry on the strength of its 13.5 season record while Western entered the playoffs automatically by virtue of its Mid-American Conference championship. The Kalamazoo school has an overall record of 17-3.

## 2 Won 20 Games

In 1943 only two American league pitchers reached the 20-game circle. They were Spud Chandler of the Yankees and Paul Trout of the Tigers.

## Are 'Perri', Moran Same?

Mystery Man 'Peter Perri' in Case as Johnson-Mederos Probe Continues

PHILADELPHIA (AP)—The investigation of boxing in Pennsylvania centered today on a mystery man identified as "Peter Perri."

That name appeared on a document introduced yesterday at the Pennsylvania Athletic Commission's hearings on the May 6th

fight between Philadelphia boxer Harold Johnson and Cuban Julio Mederos.

The commission has charged that Johnson was drugged prior to the fight, which he lost on a TKO when he was unable to answer the bell for the third round.

and had to be carried from the ring on a stretcher.

The document introduced in yesterday's heated session bore the signatures of Perri, Tommy Loughrey, Johnson's manager of record, and Johnson. The commission said the contract, dated December, 1948, showed that Johnson had two managers, a charge denied vehemently by Loughrey.

Loughrey was on the stand when Herbert S. Levin, deputy state attorney general who is acting as counsel for the three-member commission, put the contract before him.

Loughrey jumped to his feet and shouted: "I don't understand. I never saw it before. It's ridiculous. Tear it up and put it in the wastebasket. You're wasting your time. Where was it filed?"

His attorney, Thomas J. Burke, queried Loughrey and then, at Levin's request, conceded the document was "official." Loughrey identified his signature on the document and so did Johnson, who was called back to the stand to examine the paper.

The hearing was once more thrown into turmoil when state-maker Pete Moran, whom the commission alleges also managed Johnson, was brought to the stand. Levin asked him to sign his name on a piece of paper, Moran's attorney, Garfield W. Levy, then accused the commission of attempting to prove Moran and Perri are one and the same person.

Commissioner Chas. E. A. Jones Crowley overruled the objection, but upheld Levy when Levy asked Moran to sign the name "Peter Perri" on a piece of paper.

All three principals denied any knowledge of Perri.

House Kills Renewal Bill

LANSING (AP)—The House has killed a last-minute attempt to renew the conservation commission's authority to set special "any deer" seasons.

## House Kills Renewal Bill

LANSING (AP)—The House has killed a last-minute attempt to renew the conservation commission's authority to set special "any deer" seasons.

By an 83-2 vote, the lower chamber rejected a Senate bill which would have extended the power for two years.

Granted by the legislature three years ago, the so-called "discretionary authority" over the deer herd gave the commission power to set one-day seasons during which hunters could kill bucks, does or fawns.

Some sportsmen objected that the seasons resulted in a wholesale slaughter of deer.

Earlier in the session, the House conservation committee killed a senate-approved bill to extend the power.

The latest attempt to renew the authority came as an amendment to a bill changing the opening dates for small game in some parts of the state.

Rep. Walter Nakuta (R-Gladwin) asked the house to reject the Senate amendments. The vote followed without discussion.

# Detroit All Out for Olympics

DETROIT (AP)—Detroit's super salesmen, the type that make automobiles a necessity almost everywhere and could convince eskimos they need refrigerators, are ready with an all-out effort to bring the 1960 Olympic Games to the United States.

"And I think we have at least a 50-50 chance," declared Jack Tompkins, one of four members of the Detroit Olympic Committee. This group will appear before the International Olympic Committee in Paris June 14 in an effort to land the games for Detroit. They will be competing against the charms of six other cities—Rome, Lausanne, Budapest, Brussels, Mexico City and Tokyo.

"It looks like Rome or us," Tompkins said as the Detroit group took the wraps off its exhibit and brochures yesterday.

Fred Mattheis, chairman of the Detroit committee, ran down the list of possible sites:

Tokyo—"Not a chance. The Games are in Melbourne next year and European countries won't

be willing to go that far again so soon."

Mexico City—"Not until they lower the altitude and cure the dysentery."

Budapest—"Out of the question now."

Brussels, Lausanne, Rome—"A real battle for us. Rome probably has an edge on the other two."

Detroit has sought the Games actively at meetings of the IOC in 1939, 1946, 1947 and 1949. And the committee thought it had the 1956 competition sewed up. Then along came six other U. S. cities, spearheaded by Los Angeles and Minneapolis, and all made pitches. While the Americans squabbled, Melbourne picked up the prize.

This time it will be Detroit alone from the United States. The IOC insisted that no country present more than one site.

A main point in Detroit's favor is that the Olympics have been staged in the United States only twice since they were revived in

1896—in St. Louis in 1904 and Los Angeles in 1932. Europe has had all the rest to date with Melbourne taking over next year.

Against the U. S. chances is

the fact that the European countries, not overloaded with money, will have to undergo considerable financial strain to send teams as far as Australia in 1956.

## Seeks Title Test for Holly Mims

Manager Clamors for Quick Rise After Win Over Charley Green

ST. LOUIS, May 26 (AP)—Nick Trotta, manager of fourth-ranking middleweight Holly Mims, clamored today for a quick jump up the fistie ladder for Mims with the idea of a shot at Bobo Olson's 160-pound crown.

The counter-punching Mims of Washington floored Charley Green

of Los Angeles in the first round last night and then withstood a ninth-round knockdown to win a unanimous decision in their 10-round televised bout at the St. Louis Arena. Mims weighed 154½, Green 160.

## Athlete of Year

RICHMOND, Va. (AP)—Darrell Floyd of Furman University, the nation's most prolific basketball scorer the past season, piled up a substantial margin of votes to win the Southern Conference Athlete of the Year award.

The 6-1 All-America from Thomasville, N.C., led Virginia Tech's Dickie Beard, the league's top football ground gainer in 1954, in balloting by the Southern Conference Sportswriters Assn.

## Littler Rated Top Challenger

Gene Big Threat to Doug Ford in Rich Ft. Wayne Tourney

FORT WAYNE, Ind. (AP)—Doug Ford of Kiamasha Lake, N.Y., opened defense of his title in the \$15,000 Fort Wayne Open golf tournament today against a classy field of nearly 100 contenders.

Gene Littler, top money winner this year with more than \$21,000, headed the list of challengers in the sixth annual tourney on the Elks Country Club's gullied 6,355-yard course. The 72-hole competition will continue through Sunday.

Ford won the \$2,400 top money last year by clipping 18 strokes from par for a 270 total.

Art Wall Jr., of Pocono Manor, Pa., who won the 1953 tourney in a playoff with Cary Middlecoff, also was back from another try.

# '500' Drivers Make Final Race Tests Today

INDIANAPOLIS (U)—Drivers "buttoned up" their cars today in final test runs before the 39th 500-mile race Monday.

The Indianapolis Motor Speedway had been closed since the last qualifying session Sunday but was re-opened for last checks on carburetors and other adjustments. It was a cruising speed session, with nobody having any ideas about matching the record qualification run of Jack McGrath of Inglewood, Calif., who became the first driver to be clocked officially at 143 miles an hour over the old bricks and asphalt.

McGrath also was the first to drive 141 in last year's time trials and he actually had a lap at 140 1/2 early in the race. He has started in the front

three-car row of the lineup, reserved for the fastest early qualifiers, six of the last seven years but he never has won the race.

Jack is getting a little weary of being compared to the late Rex Mays, another fast starter who earned the No. 1 or pole position three times in the Memorial Day race but never won it.

McGrath is quite confident this year. As his own mechanic on the Hinkle Special, a 1934 model Kurtis-Kraft built especially for the speedway, Jack knows his equipment.

"If everything holds together, I don't know of any reason why we can't win this one," he said.

McGrath has started on the outside of the front row, the "groove" spot generally considered best for taking the lead at the start, in five of the last six "500s." He had the inside, pole position, last

year but zipped across the track to the groove, jumping in front of Jimmy Daywalt and Jimmy Bryan before the first turn.

McGrath led 53 laps, each worth \$150 from a special prize fund, but his magneto went bad and

he finished third behind winner Bill Vukovich and Bryan.

The Inglewood charger has driven in seven straight Indianapolis races and has yet to finish higher than he started.

But the driver of the yellow car with black and red trim, carrying No. 3 for McGrath's third place in American Automobile Assn. national racing standings last year, figures he is due for a trouble-free ride Monday.

## Nashua Has Earned Over \$500,000 in Short Career

BALTIMORE (U)—If the winnings of all those entered today against Nashua for the \$100,000 Preakness on Saturday could be rolled into one colt the combination couldn't come close to the dollars he's taken in little more than a year in business.

Nashua, off-accused of being un-

ruly, goes into the Preakness with \$502,440 piled up in 13 races, 10 of them victories and the other three seconds.

The Preakness first prize of approximately \$65,000, depending on the number of entries, would make the Belair Stud's colt the 10th highest money earner of all time at the tender age of 3 years.

## MSC's Smith Tops Big Ten Hitters

CHICAGO (U)—George Smith, Michigan State 2nd baseman, was certified today as the 1935 Big Ten batting champion with a .485 average in 10 games.

Based on a minimum of 28 times at bat, other leading hitters included Joe Fitzgerald, Illinois, .448; Bob Powell, Michigan State, .439; Don Kelley, Ohio State, .422; Chuck Ellis, Ohio State, .395; Ron Jela, Purdue, .372; Don Eaddy, Michigan, .353; Joe Sexson, Purdue, .353; Carlyle Wagner, Wisconsin, .352 and Dick Anderson and Ken Yackel, both of Minnesota, .351.

**BIG 10 MAN**—Prof. Marcus L. Plant of the University of Michigan Law School last night was named the University's faculty representative to the Big Ten Conference succeeding Prof. Ralph Aigler who retired recently after serving since 1917.

## Maple Thincads End Dual Meets Unbeaten

A 75-34 victory over Port Huron Wednesday concluded the dual meet track season for Birmingham High School's fine team and left the Maple Thincads undefeated in dual competition for the past 2 years.

Kerrit Ambrose's athletes won 7 straight to take the Eastern Michigan League dual meet trophy. The league meet is next Thursday at Hazel Park. Maple hurdler Gordon Pade set a new Pierce field record of 15 seconds flat in the 120-yard high while Port Huron's Lyle McAuley tied the mark for the 115-yard lows in 13 seconds.

## State Game 'Bag' Staggers Imagination for Its Size

By MORT NEFF

Despite the fact that most of us in Michigan recognize the fact that we do a lot of hunting and

fishing as proven by license sales topping the million mark, we pause for more than a slight gasp when confronted with figures on the annual "kill," particularly in the game department. The number of fish taken from Michigan waters each year is just about impossible to calculate—but we know it runs into astronomical figures.

Hunting, however, can be pretty well tabulated with the help of report cards, road checks, and field reports from officers, so that we can come up with figures sure to be fairly accurate. And those figures border on the unbelievable!

Hunting squirrels in Michigan is a sport which seemingly is of minor interest. Yet the fact remains that there are almost as many sportsmen hunting squirrels as there are fishing for trout! The statistics on the number of squirrels killed annually—more than 600,000—is still further proof of nature's own enormous restocking capacity.

Few sportsmen realize that our pheasant population yields more than a million birds per year to hunters' guns—and some might say it spells doom to our pheasants!

future—yet the new crop far more than replaces the bag of the previous fall. Better than 400,000 hunters pursue the wily ringnecks every year.

The cottontail is a hotly pursued target, too—with 352,000 hunters on the trail every year. They yield the biggest bag of all when the count is in—with more than one and a half million bunnies winding up in a frying pan or rabbit stew annually!

Duck hunters have the least competition, turning out a squad of around 100,000 each fall, to wind up their season with something a bit less than a half million ducks to show for this rugged brand of gunning.

## Test Case Upcoming on Fishing Rule

LANSING (U)—A test is scheduled in Baldwin justice court this week of the conservation department's "flies only" fishing regulation on the Little South Branch of the Pere Marquette river.

Tom Carnahan of Baldwin, former president of the Isaac Walton league of Grand Rapids, instituted the test case. Carnahan was arrested after he told officers where and when he planned to fish with worms on the stretch of restricted water.

Betsy Rawls, one of the nation's top women golfers, graduated from the University of Texas and is a member of Phi Beta Kappa.

## Orioles May Have New 'Dizzy' Dean in Swango

BALTIMORE (U)—John Bruce Swango, a broad-shouldered farm boy pitching discovery, joined the Baltimore Orioles yesterday full of confidence and apparently unafraid of his big jump from high school into the major leagues.

The 18-year-old righthander flew in from his native Welch, Okla., and immediately established himself as a cross between the fictional Frank Merriwell and a star pitcher of yesteryear, Dizzy Dean.

Swango's High School record sounds like something an author might dream up for a novel. And the way he talks about it smacks of the great Dizzy. At least he's not overly modest.

When he was signed to a bonus contract last Sunday, it was reported Swango was to receive \$30,000 in inducements and salary over a three-year period.

But Bruce—as he prefers to be called—straightened those preliminary estimates out in short order, explaining that his pay for those three years will amount to \$36,000.

The plain-spoken kid also hastened to correct a slight exaggeration of himself. He said he was not as fast as Bob Turley, the New York Yankees fireballer, that's how Swango was described by center fielder Mickey Mantle of the Yankees when the New Yorkers were dickering for his services.

# Balanced

Everything it takes to be "TOPS"

## STANDARD GASOLINES

...balanced for top power, economy, and all 'round performance ... and raised to the Highest Octane levels in our history

With the highest octane ratings in our sixty-six year history—both STANDARD WHITE CROWN and RED CROWN Gasolines will give your car superior performance... regardless of its type or age. They're stepped-up and pepped-up to give you smooth, efficient, anti-knock power. But in addition, they're balanced too, for all 'round performance—to give you controlled volatility—the right gasoline for the right season; prevent vapor lock in hot summer weather; and they're clean-burning, too!

For the happiest driving you've ever had, stop at Standard today for a tankful of gasoline that has everything it takes to be tops!

You expect more from **STANDARD** and get it!

Are all gasolines pretty much the same?

NO, THEY'RE NOT. Standard's research helps you the best to gasoline. And we guard their quality from refinery to your car through exclusive terminals, like stations, your service stations, both cars and boats. We guarantee every drop of our gasoline to be Standard Gasoline. That's why they are distinctly different!

# Griff Wants Shortstop, Fielder in Deal

NEW YORK, May 26 (AP)—Calvin Griffith, vice president of the Washington Senators, said today he was quite willing to let the New York Yankees have either left-handed Maury McDermott or right-handed Bob Porterfield but he insisted the Nats must have an outfielder and a shortstop in return.

The son of Clark Griffith, octogenarian owner of the Senators, said he had suggested to George

Weiss the names of the players he would like in exchange for one of his pitchers. But so far the general manager of the Yankees had turned a deaf ear.

"In my talks with Weiss," the younger Griffith said, "he expressed an interest in both McDermott and Porterfield. I told him either was available but we'd have to get an outfielder and a shortstop in return. I cannot tell you

who they are but George knows which players we'd take in exchange. So far he hasn't said yes and he hasn't said no. For that matter, Weiss hasn't made a concrete offer for any of our pitchers."

Griff is convinced his club has the best young pitching staff in the league. Like Manager Charlie Dressen, he is high on youngsters Camilo Pascual, Raul Ramos and Ted Abernathy. He predicted all three will reach major league stardom in a year or two.

"With veterans like Porterfield, McDermott, Johnny Schmitz, Chuck Stobbs and Dean Stone and youngsters like Abernathy, Pascual and Ramos, we feel we are well situated in pitching and can afford to give up hurler to get more punch," Griffith said. "Our biggest need is a shortstop who can hit."

"We don't think we are in a desperate position. Once the boys start hitting like we know they

can, we ought to do a lot better. In other words, we can afford to sit back and wait for the other clubs to come to us. I don't believe the Yankees can afford to wait long. They've got to have another starting pitcher. It is quite evident that when those double-headers start piling up on his shal-low pitching staff, Casey Stengel will be in serious trouble unless he can make a deal.

"The next move is up to the Yankees."

## Alston Surprised by Cubs, Still Sees Close Race

PITTSBURGH (AP)—Manager Walt Alston of the Brooklyn Dodgers says nothing since the start of the season—even the rather amazing performance of the Chicago Cubs—has changed his mind about the outcome of the National League race.

"You can say I'm a little surprised about the Cubs—rather with their pitching," said Alston today. "But as far as the final standings are concerned, I'm still convinced it will be a rough race all the way."

"At the start of the season I

looked for the Dodgers, New York Giants and the Milwaukee Braves to be right up there, and not necessarily in that order. I'm certainly not predicting a pennant for the Dodgers but I can assure you we'll give everyone a tough battle."

"That (Bob) Rush is a rough pitcher and the Cubs surely have been getting fine relief pitching, too," Alston commented. "And, I've always said the Cubs have a fine infield."

The Brooklyn manager, whose team won 23 of its first 27 games and holds a 6½ game bulge over the second place Cubs, added:

"I said at the start of the season that we have a well balanced league. Almost any of the clubs—including Chicago, Cincinnati, Philadelphia and St. Louis—can get a hot streak."

As for the Dodgers, who have lost five of their last seven, Alston said he isn't too worried.

"We had a little rough streak but it's just one of those things."

## Ezzard Must Win to Escape 'Palooka League'

CINCINNATI (AP)—Ezzard Charles punched one training boxing glove against the other and said: "I got to beat Johnny Holman June 8 or I will be in the Palooka League, and there is no money there."

The former heavyweight boxing champion was referring to his coming bout with the Chicago fighter who scored a TKO over him last month.

"Going to weigh about 190 pounds for the guy this time," Ezzard said. "He caught me when I was a bit careless."

WEDNESDAY'S HOME RUNS  
Berra, Yankees; Fitzgerald, Senators; Holman, Nats; Glavin, Reds; Phillips, Reds; Red Sox; Speake, Mets; Clete, Mets; Fagan, Athletics; Jablonski, Red Sox.

## Pro Puck Loops Vote to Reduce Game Telecasts

Take Action to Give Minors Relief From NHL TV Offerings

TORONTO (AP)—Professional hockey will try a television ban in an effort to perk up attendance next season, barring telecasts of any regularly scheduled league game into a 50-mile area around any city where a pro game is being played.

Owners of the National, American, Quebec and Western leagues and NHL President Clarence Campbell agreed to the TV restraint during a four-hour meeting yesterday.

"The agreement applies only to regular league contests," Campbell said. "It simply means that the minor pro leagues will not be faced with the competition of NHL telecasts."

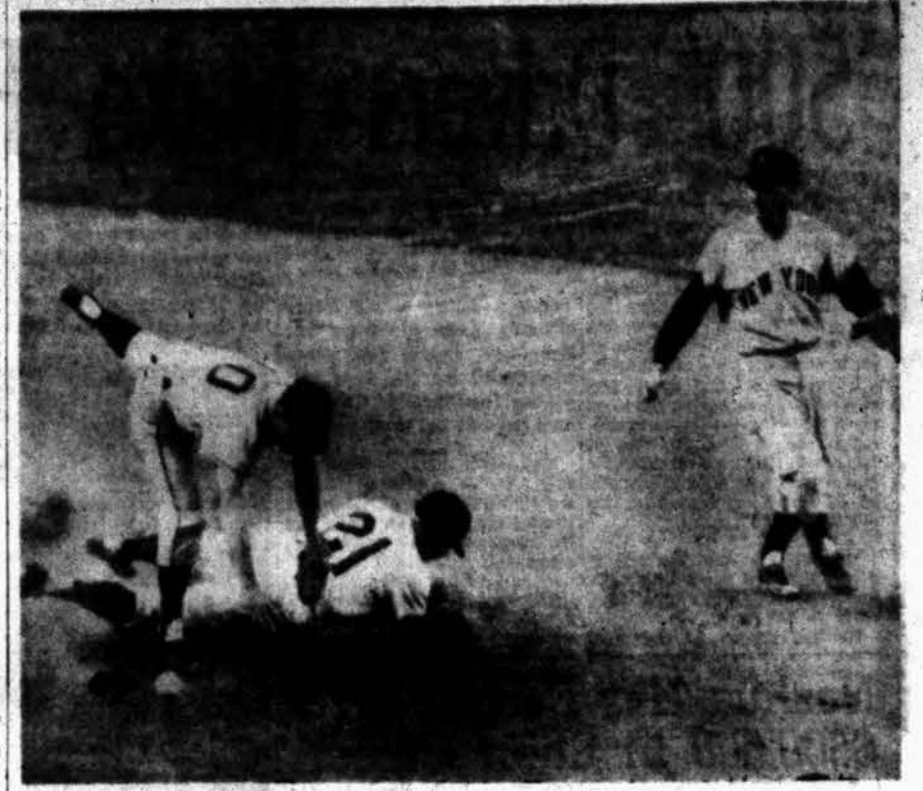

The NHL owners also adopted a rule making a contest a complete game after 30 minutes of play. If play is halted before 30 minutes, the contest will be ruled a suspended game.

The new rule wipes out forfeitures such as the one that resulted last March 17 at Montreal during the torrid NHL windup when a mob broke up a game between Detroit and the Canadiens.

## Fish Experts Seek to Trace Walleyes

LANSING (AP)—Fish specialists will tag walleyes in Lake St. Clair this summer to check their belief that the lake is the spawning ground for some walleyes found in Lake Erie.

The state conservation department said it will cooperate in the project with Ontario and Ohio departments.

FAILS TO STOP TWIN KILLING—Andy Seminick, Phillies' catcher, fails to break up the double play action as he slides into 2nd base in the 2nd inning of the 1st game of last night's two-night doubleheader against the New York Giants in Philadelphia. Action

starts when Bobby Morgan grounded to shortstop Alvin Dark, at bat. Dark threw to second baseman Davey Williams who relayed to Whitey Lockman at 1st. Phils won both games, 9-3 and 5-2.

## Sam Snead's Golf School

Yesterday we stressed the value of the straight left arm. An important reason for keeping your left arm straight is that a bend at the left elbow just adds another angle to the swing—and that angle must be straightened out before impact. In straightening out your arm you are very likely to throw

muscles. Then, early in the downswing, when your raised left heel touches ground, you sort of unwind this stored up power in a smooth rhythmic swing.

(Copyright 1955)

## Softball Loop Play Resumes After Delay

All city league softball games scheduled Wednesday night were postponed because of wet grounds.

This was the 2nd straight day of interruption due to weather conditions. Games will be played at a later date by mutual agreement of team managers.

Softballers swing back into action tonight. At Beaudette, Bicmar meets Riteway, at 7 p.m., and GMC plays Stadium Inn, at 8:30 p.m. The twin bill at Northside sends Northside Service against Mike's Used Cars, 7 p.m., and Louie's Tavern against Drive-In Cleaners in the nightcap.

The Grand Circuit, sometimes called the major league of harness racing, was founded in 1873. It was then known as "The Quadrilateral Trotting Combination."

# S.C. Rogers

# Bengals Flatten A's, Press AL's Leaders

KANSAS CITY (AP)—Detroit's eager young Tigers, more and more a dark horse threat in the American League pennant race,

try to close in on the league leaders today with a sweep of their three-game series with the Kansas City A's.

Performing without the services of Harvey Kuenn, the AL's No. 1 hitter, Detroit made its two in a row over the A's last

night with a 5-2 victory. In six meetings with the A's, the Tigers have dropped only one. That was the game opening the 1953 season for both teams.

Detroit unleashed a 14-hit attack against the Athletics last night to support Frank Lary's six-hit pitching which gave him his 4th win against an equal number of losses. A weak defensive showing by the A's helped him along.

Fred Hatfield and Bill Tuttle both drilled home runs to lead the Tiger conquest.

A home run by Jim Finigan was the only hitting the A's could muster off Lary during the first five innings. The young right-hander weakened a bit in the closing frames but by that time his teammates had built up a substantial working margin.

Hatfield and Bubba Phillips collected three hits apiece to pace Tiger hitting. Hatfield had two singles besides his homer and Phillips connected for a double and two singles.

Ray Herbert, former Tiger hurler, started for the Athletics and was charged with the loss, his 2nd of the season in two appearances. He gave up 11 hits in six innings. A poor defensive show added to his woes.

Tigers sewed up the game in the 3rd inning, scoring four runs on three hits and an error.

Al Kaline, Tiger rightfielder, overtook Kansas City's Vic Power in the batting race, collecting two hits in four at bats while Power was going hitless. Kaline showed his average up to .363 and Power dropped to .353.

Alling Harvey Kuenn, who was

returned to Detroit for treatment of a pulled muscle injured in Tuesday night's opener, still heads the list with a .377 average.

Second place Cleveland and the Chicago White Sox, who held down the 3rd spot, meet today in Cleveland. Detroit can move up on one of these two clubs with a victory in the "rubber" game with Kansas City.

Front-running New York meets Washington in a doubleheader.

| DETROIT             | KANSAS CITY         |

Marimont in 1st Place

Marimont Baptist won its 2nd straight game this week to take the early lead in the Church Softball League with a 2-0 record. Marimont edged Oakland Avenue U.P. by the football score of 21-20. First Baptist is scheduled to play Central Christian at 6 p.m. today at Emerson Field.

## Sidelined Tigers May Be Back Within a Week

DETROIT (UP)—Detroit Tiger shortstop Harvey Kuenn and pitcher Steve Gromek may rejoin the club within a week, doctors at Detroit Osteopathic Hospital said today.

They said Kuenn, league-leading hitter who pulled a thigh muscle while beating out a hit in the 1st inning of a game against Kansas City Tuesday night, probably would

be released from the hospital today.

Gromek's ailment, which forced him to leave the mound in the 5th inning of the same game, was diagnosed as a "sacroiliac condition."

WEDNESDAY'S STARS  
PITCHING—Paul Minner, Bob Rush, Cuba-Blanchard St. Louis 1-0 on two hits in the first game and set down the Cardinals 3-1 on two hits in the nightcap.  
BATTING—Del Ennis, Phillips, 1st in three-run homer in the second game as the Phillies dropped the New York Giants 5-3 and 5-2.

## Boys' Club Athlete Wins Midwest Contest

Sinking 20 out of a possible 30 free throws, Robert Dewey, 18 years old, of Pontiac, defeated all other rivals in the Midwest region's free throw contest sponsored by Boys' Clubs of America. He finished 2nd nationally behind Bobby Shivers, of Lakeland, Fla., who scored 100 per cent.  
Pontiac Boys' Club team, consisting of 20 members, ranked 7th among the 400 clubs entered.

## Program for Golfers

### Five Features Arranged for Summer's Activities Over Municipal Golf Links

Five outstanding events are scheduled for the Pontiac Parks and Recreation Department's summer golf program at the Municipal links, the department has announced.

Three events are for men, one is mixed, and the other is for women. Men will compete in best ball and medal play. Remaining affairs are mixed 2-ball four-somes and women's medal play.

Women's medal play will be held Saturday, July 30. Starting time is 12 noon. Deadline for registration is 6 p.m., Thursday, July 28. Mixed 2-ball foursome is set for Saturday, July 18. Starting hour is 12 noon, and deadline for entries is 6 p.m. Thursday, July 14.

Men's best ball tournament is scheduled Saturday, June 28, which will initiate the summer

activity. Registrations must be in by 6 p.m. Thursday, June 18.

Men's medal play qualification rounds will be held Saturday, Aug. 13. Champions of previous medal play finals and the five low scorers of the 1954 finals are exempt from qualifying. If necessary, qualifying rounds may be played between 9 a.m.-5 p.m. Sunday, Aug. 14. Low qualifier will receive a trophy.

Men's medal play finals are scheduled Saturday and Sunday, Aug. 20-21. Golfers eligible are previous champions, the top five in 1954, and low 20 scorers of this summer's qualifying rounds. Top shooter will receive the Pontiac Press traveling trophy, plus a trophy from the recreation department. A trophy will also be given to the runnerup.

All tournaments will be played at Pontiac's Municipal Golf Course, with winners determined by 18-hole rounds. With the exception of women's medal and men's qualifying events, trophies will be awarded for 1st and 2nd places, while merchandise will go to lower finishers.

## Check Thefts Spoil Hopes of Diamond Career

DETROIT (AP)—His dream of becoming a big league ball player ended abruptly yesterday as Robert W. MacLennan, 24, came up against a charge of obtaining money under false pretenses.

Police said MacLennan admitted stealing 21 checks and cashing two of them for \$1,445 to finance a trip to the Florida spring training camps.

But during his 16-day stay, he told officers, "I didn't even get to swing a bat or throw a ball."

MacLennan, employed by the Wayne Cut Stone Co., said he took the checks from an open office safe. The youth, who played baseball on service teams during four years in the Army, said he wanted to become a big league outfielder.

## JH Meet Set Back

The City Junior High School track meet has been postponed from this afternoon until Wednesday. The meet will be held at Wm. Field with field events starting at 2:30 p.m. and the running finals at 3:30.

Second Baseman Curt Roberts of the Pirates started the 1955 season in the same manner as last year. He got the Pirates' 1st hit.

## Road Head Outlines New Bridge Routes

LANSING (AP) — State Highway Commissioner Charles M. Ziegler has outlined plans for the relocation of U. S. 31 in connection with the Straits of Mackinac Bridge. Ziegler, who met with Mackinac City officials, said the relocated route would leave the bridge as a four-lane divided highway, pass over the New York Central and Pennsylvania Railroad tracks west on M108 and continue easterly to U. S. 23 and U. S. 27.

Connection ramps will allow both north and south traffic on U. S. 23 and U. S. 27 to enter U. S. 31 and proceed north to the bridge, he said.

Final surveys will be made in a few weeks to work out details for the proposed relocation, Ziegler added.

## The Grocery Bag

# Hams and Turkeys Reign Over Specials for Holiday

By THE ASSOCIATED PRESS

Smoked hams and turkeys will dominate the list of specials, in the nation's foodstores for the approaching Memorial Day weekend.

These holiday favorites will be priced below a year ago, meat men report. In general, turkeys will be down a couple of cents a pound. Smoked hams will be available at levels 10 cents a pound or more below those of last Memorial Day. Canned hams also will be lower.

### FEATURE FRYERS

Many stores will feature frying chickens, too. Prices will show little change from a week ago. Here and there you'll find duck-

lings available at reasonable prices.

A number of markets will offer prime ribs at moderately lower prices for those who want to stick with the old standby. Chuck roast and legs of lamb will be special attractions in some areas.

Sirloin steak prices will be higher in many places, but by and large popular cuts of meat will sell for around the same prices as a week ago. There won't be much change, either, in butter and egg prices.

The American Meat Institute comments that contrary to the usual pattern, pork continues in relatively good supply for this time of year, with retail prices

ranging 13 to 31 per cent below those of a year ago.

It says the average retail price of all meats—beef, pork, veal, lamb and products such as frankfurters—is down around 13 per cent from May 1954.

You may have noticed the abundant supplies of lettuce currently available. Produce specialists say iceberg, Big Boston and Romaine all are outstanding buys. Quality is high and prices reasonable.

### SQUASH GOOD BUY

Both the green and yellow types of squash offer good value, too. Peppers are cheap, and nearby vegetables such as radishes, green onions, rhubarb, spinach and other greens look attractive.

Asparagus, carrots, beans, celery, escarole, endive, corn and

new crop onions also are recommended by the produce specialists. Old crop potatoes are good buys. New crop spuds from California and Florida sell at a higher price but are good bets.

Strawberries are coming down in price as supplies increase. Oranges and grapefruit continue to rate as good buys in fruit.

Produce men describe cantaloupes and honeydew melons as moderately priced. Pears are higher.

Cherries from the West are reaching Eastern markets. Watermelons are still in light supply and prices are on the high side.

It takes 40,000,000 wooden cross-ties a year to keep the railroads of the United States operating.

## Graham Will Preach to Service Families

KAISERSLAUTERN, Germany (AP) — American Evangelist Billy Graham will preach to members of the largest U. S. community in Europe here next June 22. Army authorities have announced. Graham accepted an invitation to appear at Vogelweh, an all-American suburb of this city west of the Rhine, which houses thousands of families.

Maj. Gen. Miles Reber, commanding general of the U. S. Western Area Command, said Graham's visit "will aid materially the active religious program of the command."

It will be one of Graham's few appearances before military audiences on his forthcoming tour of Western Germany.

## Colling for Crusoe!

LUMBERTON, N.C. (AP) — Police here could use Robinson Crusoe. A thief who broke into five establishments in the past few days has left only one clue—a perfect bare-foot print.

## Radar Acquitted in Bulb Mystery

RICHMOND, Va. (AP)—Police radar, which has been tossing some costly winks at speeders, briefly, became a suspect itself.

A high school student reported a batch of flash bulbs mysteriously went off all at once when a radar-equipped patrol car passed by just as he prepared to take photographs of some classmates. Was radar to blame?

It was the first complaint about the new police radar from anyone but a speeder. So traffic Maj. John G. Hanna, ordered an immediate trial. His men tempted the radar beam with flash bulbs from a distance and then in close. Finally the machine was festooned with flashbulbs. Nothing happened.

Still no solution, though, to the mystery of the students' flash bulbs.

## 'Celery Row' Residents Change Name of Street

AKRON, Ohio (UP)—Residents on one street in this city apparently have settled the confusion about their address.

First the street was Denby avenue. Then it became Paskal avenue and then Denby again.

The controversial street came up again for another name change, back to Paskal avenue, Jerry Paskal, a local real estate operator, built homes on the block-long street and changed the name from Denby to Paskal.

A resident of the street told the Akron city council that residents there were referred to as living on "Celery Row" because the name sounds like that of a type of celery.

The council decided in favor of the majority of the street's residents. The name stays Denby avenue.

"It was something sentimental with me," Paskal said.

# Proposed Municipal Building Gets Go-Ahead at Rochester

## Authorize Work on First Plans

Structure to Be Erected on Rolling 12-Acre Site at Sixth, Oak Streets

ROCHESTER—Village Manager Robert Stone has been authorized by the village council to proceed with preliminary plans for a new village municipal building.

He was told to contact engineers for the project. The building is scheduled to be built on a 12-acre site donated by the Higbie Manufacturing Co. The land borders on Sixth, Seventh, Pine and Oak streets and the New York Central Railroad tracks.

Plans reported on the progress of grading and filling the site, and also the landscaping work there.

A plan is under way for a municipal building having several levels which will be particularly designed for the rolling site, which overlooks Paint Creek.

The council also voted to purchase a new police car with two-way radio, and bids will be sought at the next meeting.

Homer Wing Post 172, American Legion, was allowed \$150 towards defraying the expenses of Memorial Day services.

The village council approved securing engineering studies for curb and gutter improvements on Helen, Terry and Alice streets.

June 13 was set as the date for a public hearing on the proposed installation of water and sewer taps in the Oak Bluff subdivision off Romeo Street.

REGENIA HAWK

Mrs. John Fowler of Williamson, Pa., has announced the engagement of her daughter Regenia Hawk of Highland Park to Carl Kenneth Hall of Waterford Township. He is the son of Mr. and Mrs. Daniel Hall of Grand Blanc. A July 23 wedding is planned.

## India Film to Be Shown

IMLAY CITY—A colored film, "India Today," will be the feature at a family night, to be held at 8 p.m. tomorrow at St. Paul Lutheran Church. The Rev. Arnold M. Maas of Tilleda, Wis., will show the film and give a talk.

## Plan 366 Acre Romeo Project

300 Homes Scheduled Along With Possible Shopping Center

ROMEO—The development of 366 acres in Romeo Orchard and Indian Hills subdivisions for contemporary ranch home sites is being planned, it was announced today. The announcement, made by Edward Nordman, was concurrent with one that a new building firm has been formed to develop the sites.

The new development will boast 300 homes when completed, is planned to meet the needs of the expanding area, Nordman said.

Romeo Homes Inc. is also negotiating with interested investors for the construction of a modern 20 acre shopping center at the corner of the Romeo Orchard subdivision, at Gates Street and M53.

According to present plans, the shopping center will include a large department store, modern supermarket, chain variety and drug stores, and a number of specialty shops.

The new corporation also holds an option on additional land immediately adjacent to Romeo, for future expansion. Officers of the new organization are Nordman, president, P. G. Horler, vice president, and Bernard Desmond, treasurer.

## Water System Costs Reduced in Avon Area

AVON TOWNSHIP—Residents of sections 24 and 35 of the township heard good news last night about a proposed cut in the price of the water system for their area.

It has been decided to bring water only to those in dire need of it. By reducing the original area to be served, the \$300,000 cost has been reduced by \$100,000.

Township Clerk Frances O. Covert reported that James R. Pollock has been retained by the township to make descriptions of properties of residents of the two sections, and set up assessments.

Pig iron production in the United States uses about 57 tons of water for every ton of iron.

## 1,000 Attend Dedication of Crary School

WATERFORD TOWNSHIP—Approximately 1,000 parents, friends and students turned out to dedicate the new addition to the Waterford Township School system last night when the Isaac E. Crary Junior High School was officially opened for public inspection.

Board of Education President Edmund L. Windeler congratulated the public for its continued support and achievement of expanded school facilities, of which this building is a fine example.

In reviewing the growth of the school district since 1912, when the area consolidated with less than 1,300 students, he traced its growth to the present system which includes some 8,300 students and numerous buildings.

Since the consolidation the township population has risen from 12,000 to near 40,000, bringing attendant problems of overcrowding in existing school facilities.

"There is satisfaction in providing an adequate education despite the cost—high taxes," Windeler stated. He declared that the education being offered the students is adequate.

The \$1,250,000 building was completed late last fall, and students began classes immediately. Designed for 1,000 students, it housed 1,300 when it opened, and faces a 2,000-student population when the doors re-open next fall.

It is situated on a 40-acre site near M58, on Cass Lake Road.

Delving in the history which gave the school its name, student Tim Patterson revealed that Isaac E. Crary was an early congressional leader from Michigan who fostered the state's education system.

Under his direction, the office of state superintendent of public instruction was established, and Crary's friend, John Pierce, was named to office.

Superintendent of Schools William Shuck presented an oak gavel from the Marshall, Mich. School system, where Crary and Pierce paused beneath an oak tree to plan the state's educational future.

It was accepted by Principal James Fry.

## Herrington Park Recreation Area Committee Set

FOUR TOWNS—A committee has been named to begin work on the Herrington Memorial Recreation area.

The 35 acres of land off Lochaven Road is destined to become a community park and wild life sanctuary, and the Waterford Township board has voted \$2,000 for its development. Area residents previously had pledged to do the labor on the project.

The committee is composed of Doyle Hempton, chairman; Kurt Kuhn, secretary; and Cecil Ries, treasurer. A planning committee has been detailed to gather data for the job, and report back.

## Orchard Lake Co-ed Gets College Award

ORCHARD LAKE — Frances Booth has received the "Smead Award for Outstanding Achievement in Business Education" at Alma College.

A senior, Miss Booth is the first Business Education major graduating from Alma College to enter the field of commercial teaching since the inauguration of the business teacher education program.

Upon her June graduation, she will take a position in the Commercial Department of the Walled Lake High School.

The Smead award is made to the outstanding graduate of the business education program at each of the teacher-education institutions which are members of the National Association of Business-Teacher Training Institutions.

## Honor Teacher at Troy School With Surprise

TROY TOWNSHIP — The PTA meeting of Troy Union School held recently was attended by 125 persons, who surprised Edwina Titus with a "This Is Your Night" party.

Miss Titus has for 12 years been teacher and principal at the school. She was presented with a corsage by Mrs. Victor Millman and was given a certificate and pin for her 30 years' teaching service from State Teachers Assn., presented by Mrs. Harry Hearst, mistress of ceremonies.

The school orchestra, under the baton of Don Lauder, dedicated several musical numbers to Miss Titus. David Thomas performed a trumpet solo, and a musical duet was played by Janet Postma and Karen Prouse.

## Three-Day Poppy Sale Starts at Auburn Heights

AUBURN HEIGHTS—Poppy Day is at hand today through Saturday, with members of the American Legion Hill Gazette Post Auxiliary asking everyone in the area to wear a memorial poppy in honor of the nation's war dead.

Mrs. Orvin Weaver is chairman of the drive. Contributions will be used for the auxiliary's activities for disabled war veterans and needy children of veterans.

County Calendar

There will be a Fellowship supper and program at the Pigeon Congregational Church Friday, beginning with a 7 p.m. session.

WATERFORD TOWNSHIP—The township board has renewed its request for a stop signal at Scott Lake Rd. and Dixie Hwy., in the light of the recent fatal accidents there.

Two children died in an auto crash Saturday night at the location.

Township Clerk Louis Barry was instructed to write State Highway Commissioner Charles M. Ziegler making the request.

The board has set June 20 as the final date for applications for fireworks licenses for July 4.

The plat of Indianwoods Subdivision on Loon Lake was approved subject to the approval of the Oakland County Road Commission, and a preliminary plat of White

Birch Subdivision off Elizabeth Lake road near Lochaven was received.

Robert Pennell was appointed township assessor effective June 1.

## 2 Ousted Patrolmen to Demand Hearing

ROYAL OAK TOWNSHIP—Patrolmen Dolphus Christenberry and Paul H. Myatt announced today they intend to seek a public hearing on their dismissal from the township police force Monday.

Both men said they want Police Captain Robert Richardson and Fire Captain Joseph Sloan present to submit proof of the charges of dereliction of duty levied against the pair after their handling of the emergency call Friday.

Both police officers were dismissed by the township board when they allegedly sought to have the fire department ambulance or a private ambulance service transport a burned woman to the hospital, instead of taking her there in their scout car.

## Chairs Purchased

WEST BLOOMFIELD TOWNSHIP—The West Bloomfield Board of Education has purchased 200 folding chairs, to be delivered before the commencement service.

## Schedule Hours for Home Show

3-Day Rochester Event to Open at 10 A. M. on June 3, 4, Noon June 5

ROCHESTER — Hours for the Rochester Home Show were announced today by Rochester Lions Club officials, as plans continued for the June 3-5 event.

The show will be open from noon until 10 p.m. June 3; from 10 a.m. to 10 p.m. June 4, and from noon until 10 p.m. June 5.

To be held in a large tent on Halbach Field, the show is expected to have exhibits from almost every phase of the home furnishing and home building field in the area.

Parking will be free, and children under 12 will be admitted free if accompanied by an adult.

Supplementing the inside exhibits, local auto dealers have reserved space outside the tent to display the latest models.

## 3 Area Youths Made Members of Honoraries

Three area college youths have been selected for membership in senior honorary societies at the University of Michigan.

Football captain-elect G. Edgar Meads of Oxford, and Robert L. McMasters of Royal Oak were summoned to Michigan, with traditional Indian war-whoops and buckets of water.

The all-campus organization recognizes men students who have taken a leading part in campus activities.

Covered from head to foot with lamp black, Edward L. Velden of Holly was initiated in Vulcan, a senior honorary society of the Engineering College.

He was chosen for his outstanding scholastic record at the University.

## Drayton Church Stages Vacation Bible School

DRAYTON PLAINS—Dates for the vacation Bible school of the Community United Presbyterian Church have been set. Daily sessions will be held from 9 a.m. to 11:30 a.m., June 20 through July 1.

Department superintendents will be Mrs. Vern Green, nursery; Mrs. Roy Lindahl Sr., beginners; Mrs. H. Trexler, primary; and Mr. Harvey Beach, junior department.

## Rochester School Site Grading Bid Accepted

ROCHESTER — The board of education has accepted the low bid of \$44,690.61 for grading of the new high school site.

The bid, from the H. and H. Construction Co., of Dearborn, was one of 14 received, ranging up to \$123,000.

SHARON SULLIVAN

Mr. and Mrs. Delmar Sullivan of Keego Harbor have announced the engagement and approaching marriage of their daughter Sharon, to Roger L. Hewett. He is the son of Mrs. Arvilla Todd of Auburn Heights and William L. Hewett of Grand Blanc. A June 11 wedding is planned.

MAXINE WHEATLEY

Mr. and Mrs. Clyde Wheatley of Clarkston have announced the engagement of their daughter Maxine to Richard Glynn. He is the son of Mrs. Mural Patterson of Keego Harbor, and Alan Glynn, of Elizabeth Lake road. A fall wedding is planned.

END OF LANDMARK—Under destruction which will remove it as a landmark in Waterford is the spire of the Waterford Community Church. It has towered above the village since 1889, and it is being felled mainly by old age and the high cost of maintaining steeples. Workers of the E. H. Jones Steeplejacks, Inc. of Royal Oak, are dismantling the lofty peak, which will be replaced with a cupola that church members can maintain themselves.

## Civil Defense Auxiliary Helping to Police Milford

MILFORD—A 15-man auxiliary police force will now be working in Milford, due to the training course taken by men working in the Civil Defense classes.

At a recent council meeting, members approved the plan whereby the men will rotate throughout the month, working one evening a week. They will receive \$5 pay.

"This job is more or less an honorary position similar to the volunteer fireman's organization, president Bartlett Smith explained. "They will be under

direct supervision of the chief of police."

Stu Brophy is the acting chief in Milford, due to indisposition of Police Chief Floyd Harger who is now on leave of absence.

The village budget was approved by the council. Total amount is \$133,999.69.

All extension of water mains in Milford will be done only on a special assessment basis, according to Smith.

Due to the debris on the south side of Milford, the council is contemplating fencing in the entire Milford dump area and keeping the dump open only on specified days. Every year debris is scattered farther away from the designated area, Smith said.

Frank Fox, street commissioner, was authorized to make a survey of streets and report which ones require resurfacing or additional work on.

## Milford Asks Court to Remove Building

MILFORD — Attorney Harry S. Mead was authorized by the village council to file suit within the week in the Oakland County Circuit court, for a mandatory injunction compelling the Kearney-Knapp Construction Co. to remove a portion of their building, which extends over into Summit St.

The building, which is a 33 by 20 foot cement block structure has been a controversial issue between the village council and owner William Knapp for several months.

The village contends that the section line was laid out more than 100 years ago and that the road is, and has always been 66 feet in width, with 33 feet extending from the center each way.

Two separate surveys were made by engineer H. D. Keeri of Pontiac. In presenting both blueprints to the council, Keeri showed the exact boundary lines of the road and the Knapp property, with a result that part of the building projects 4 feet and 4 inches onto Summit Street.

## Clarenceville Pupils Slated to Receive Fluoridation Treatments This Summer

Two schools in the Clarenceville district will be the only places in Oakland County this summer where fluoridation treatment for tooth decay will be given to children.

About 100 children from the second, fifth and eighth grades, in the Clarenceville area have been scheduled for the program in June and July, according to Martha Johnson, special services director for the Oakland County Health Department.

Two schools in the district, Edgewood and Central, fall under Oakland County health supervision. The fluoridation work will be done by dental students from the University of Michigan and University of Detroit.

During the regular school year, fluoridation service is given by dental hygienists throughout various school areas, under the supervision of county health departments, dental societies and civic groups.

Children serviced in Oakland County during the school year in

1954 totaled 2,516. "This figure accounts for not having many summer programs," Miss Johnson said.

In the Pontiac area this year, 1,317 received topical application treatments or about 80 per cent participation.

The ideal times for the four

treatment series are the 3, 7, 10 and 13-year-old age ranges, Miss Johnson said.

"It has been established that the treatments prevent about 40 per cent of tooth decay," she said. Summer fluoridation programs will be given in 42 Michigan counties in 170 localities.

## Walled Lake Board Kills Music Order

WALLED LAKE — The Walled Lake Board of Education has rescinded a previous decision to have one music consultant for the district, and have each teacher handle the subject.

Under the new plan, a music supervisor will teach two half-hour classes each week in grades, 4, 5 and 6. Teachers in the lower elementary grades will handle their own music instruction.

Contracts for five new teachers and an additional five members

of the present staff were approved. In other business the board interviewed representatives of six architectural firms for consideration in future building plans.

## Rochester High Students Prepare for 5-Day Trip

ROCHESTER — Seventy-four Rochester High School seniors will leave Monday evening for a five-day trip.

Arriving in Chicago by train, they will take a boat trip to Mackinaw and return Friday. Faculty members Mr. and Mrs. Marvin Mack, Mr. and Mrs. LeRoy Felton and Mrs. Marjorie Adams will accompany them.

## Milk Butterfat Boost Approved by House

LANSING (AP)—The House yesterday passed a senate-approved bill boosting the minimum legal butterfat content of pasteurized milk from 3 per cent to 3½ per cent.

Rep. George A. Gillespie (R-Gaines), chairman of the House Agriculture Committee, said the bill would not have much effect on the milk received by most consumers. Most Michigan cities now have ordinances that require 3½ per cent butterfat content, Gillespie said.

## Hollywood Headlines

## Jody Lawrence Receives Second Break in Filmdom

By BOB THOMAS

HOLLYWOOD — "I see now that I was temperamental. I didn't cooperate with publicity. I didn't want to do cheesecake. If I had to do it over again, I would do it differently."

That was what Jody Lawrence said a few months ago. She was the 24-year-old beauty who had slipped from film stardom to being a waitress in an ice cream shop.

Now she has that Hollywood rarity—the second break. She has signed at Paramount for a leading role in "Too Late, My Love." Instead of the \$5 a day (including tips) she earned as a waitress, she'll be getting \$300 a week under a term contract.

True to her word, she is doing things differently this time. She was happily posing for cheesecake this week. And the results proved that she had nothing to hide. Far from it.

At 19, Jody was starring with Burt Lancaster in "10 Tall Men." She was considered one of the most promising players on the Columbia lot. But then she was cast opposite Mickey Rooney in a lightweight musical.

"I was bewildered and hurt,"

she said. "I had been costarred in six important pictures. Now they wanted to put me in a little musical, and I couldn't even sing or dance."

Jody balked. The impatient studio released her. After a fruitless contract with Charles Feldman and a few TV parts, she found her temperamental reputation kept her from acting jobs. She became a waitress.

Jody's story was told in this space last January. Good things started to happen to her. She had several offers for TV shows, which she was unable to make because she worked nights at the malt parlor.

Then Michael Curtiz happened to see her on a Fireside Theater film she made many months ago. After inquiring about her, he was told about the article which reported she was working as a waitress. He dropped into the Westwood shop to see her.

"He ordered a dish of vanilla ice cream," she recalled. "What about the tip?" "He left the best tip he could have"—that the studio would be calling her.

Sure enough, she got a call the

next morning. She read for the part in the Curtiz film three times and won the role.

"I had to go back to work that night," she said. "Needless to say, I was on cloud 9. I spilled a parfait right in a man's lap. Oh, it was terrible. I could see it leaning, but there was nothing I could do to stop it."

"The man was very nice about it, but his wife, who got only a few specks on her, was very indignant. So much so that a man next to them stepped in and said it wasn't my fault. I started to cry and he felt so sorry for me that he left a dollar tip."

She added this observation from her days as a waitress: "Men are far easier to wait on. They're not as picky and small about things as women are. Even waiters will tell you that."

## City 'Y' Toastmasters Talk on 'Peace' Theme

"Peace" was the theme of the meeting held by the Pontiac YMCA Toastmasters Club 643 Tuesday evening. The toastmaster was Charles Gersten and the speakers were Norman O'Brien, Sidney Siegel, and Harvey Pety. The table topic, in which everyone participated, was: "Will Military Power Bring Peace?" The "Oscar" for the best one-minute speech was awarded to Arnold Whittaker.

## Religious Household

HOUSTON, Tex. (AP) — Martha Pray in Christian education director for the Episcopal Diocese of Texas. She recently rented an apartment from the B. F. Christian family. The nameplate on the mailbox now reads, "Pray-Christian."

## No Compensation

HARTFORD, Conn. (UP) — A 27-year-old unmarried woman was ruled eligible for unemployment compensation even though she declined a night job. Her refusal was because once, while returning from a late movie, she was "chased by a man."

Chicago Police Cruisers  
Lose Sirens for Safety

CHICAGO (AP) — Police Commissioner Tim O'Connor ordered sirens disconnected on 80 motor vehicle enforcement cars after the traffic accident division reported the cars averaged 12 accidents a month. Policemen now will be expected to drive more cautiously and not run through as many red lights.

O'Connor said the sirens do

more harm than good because it warns criminals that police are coming.

## Wrong Spot for Tack

RICHMOND, Va. (AP) — The burglar alarm brought three police cruisers to the Police Academy. Major J. Spencer Howerton, head of the academy, discovered that a workman, hanging sheets to catch dripping paint, had driven a tack into a wire, setting off the alarm.

## Possible Future Horror

## Cites Danger of Explosion in Peacetime Atomic Plant

NEW YORK (UP) — A horror possibility for some future time when atomic energy has been turned to peaceful uses has been suggested by Dr. George L. Weil, atomic scientist, consultant of the U. S. Atomic Energy Commission and leading authority on the nuclear reactor.

Suppose, said Dr. Weil, that a nuclear plant generating electric power has been "operating for a relatively long time without change of fuel; this means that a substantial amount of long-lived fission products has been produced and is contained in the core."

Suppose further that the plant has been shut down and is being started up again. In this case the nuclear reaction could get out of control.

"Then the power output would increase at a rate that doubles its level every thousandth of a second, and the fuel temperature would rise accordingly," he said.

"In a fraction of a second the fuel is melted and vaporized, chemical reactions take place between materials in the reactor core, and the rapid formation of gaseous products creates an explosion that damages the reactor structure and releases the radioactive fission products to the environment."

The reactor has been destroyed. The whole building and its equipment have been made radioactive beyond salvage.

The human beings in the building either have been killed outright or exposed to lethal doses of radioactivity. Even worse, about half the fission products have entered the atmosphere "in the form of a cloud."

This cloud "remains close to the ground as it drifts slowly away from the plant with a prevailing wind of three to four miles an hour."

He went on to assume that the cloud "passes over populated areas and that an hour after the accident a rainstorm arises while the cloud is passing over farm land, over drainage areas that provide the local water supply, and over residential and industrial areas."

The results of this combination of circumstances following a nuclear power plant accident would be:

(1) People in the path of the cloud within a distance of several miles from the plant could receive lethal doses of radiation . . .

(2) If the cloud actually touched the ground . . . the distance within which people would receive lethal exposures would extend out substantially farther . . .

(3) People exposed to the cloud beyond the lethal distances would receive varying degrees of temporary and permanent injury;

(4) In the areas of rain-out there would be widespread serious contamination — sources of food and water would be lost; population would have to be evacuated for an extended period from in-

dustrial, business, and residential areas;

Dr. Weil said he was outlining

the worst possible peacetime accident stemming from peaceful atomic uses. He was urging a full "understanding of possible abnormal as well as normal behavior of the equipment and an appreciation of the consequences in the event of malfunctioning."

On the other hand, the Atomic Energy Commission has been operating many types of reactors for 12 years with complete safety which, he said, is "convincing testimony to our understanding of the technology and encourages us to believe that the problems of the future can be met with equal success."

"Surprise! All your ties are now hand painted!"

### Columnist Well Read, Police Gladly Agree

ORLANDO, Fla. (AP)—Telephone officials readily agree Jean Yuthers daily column in the Orlando Sentinel has many readers but they hope she doesn't use a phone

gimmick again to demonstrate this.

She printed an offer of a month's free pass to the first 25 readers to call a movie theater.

The phone company reported the exchange serving the theater was so jammed by calls that important calls to police, fire, hospital and

business numbers couldn't get through.

Back in 1900, coal was the source of about 90 per cent of all the energy in the U. S. Now the energy generated by coal is only about 30 per cent.

### Ratio of Autos to People Reaches 1 to 3.5 in U. S.

CHICAGO (UP)—There is one passenger car for every 3.5 persons in the United States, according to the magazine Science Digest. This adds up to more than 50,

000,000 motor vehicles, of which more than 9,000,000 are trucks and buses.

Annually, the magazine said, these vehicles travel 340,000,000,000 passenger-miles and carry 130,000,000,000 ton-miles of long-range freight.

There are only 3,000,000,000 miles of rural roads and 319,000 miles of city streets to accommodate this huge movement of motor vehicles.

In the U. S. since 1900 the number of persons 65 and over has quadrupled while the total population has only doubled.

### Judge Backs Husband in Anti-Red Decision

PITTSBURGH, Pa. (AP)—Paul G. Mikich, 57-year-old steelworker, was brought into court to explain why he had not complied with a 1953 court order to pay his

wife \$80 a month. Mikich said his wife had returned to her native Yugoslavia. "I don't feel our good old American dollars should be going to anyone living voluntarily behind the Iron Curtain," Mikich said. Judge Francis O'Connor agreed and canceled the order.
