

Jaycees Launch Drive to Push Amendment

The Pontiac Area Junior Chamber of Commerce today launched a campaign to "support and explain" a proposed charter amendment to be voted on in Pontiac at a special election Jan. 13.

Richard Fitzpatrick, Jaycee president, and Louis Schimmel Jr., charter amendment committee chairman, announced campaign plans as billboards urging adoption of

the amendment started going up throughout the city.

"We plan to reach the public through newspaper, radio and billboard advertisements," said Fitzpatrick.

"We also are distributing 5,000 bumper stickers for cars and plan to telephone some 4,000 people urging them to vote for this important proposal."

Schimmel added that Jaycees

also plan to speak before several service clubs.

"We have no intention to deal in personalities," he noted. "The most important thing is that people understand what

this amendment means and what it will do in regard to the city as a whole."

The amendment proposes that electors be allowed to vote for seven commissioners, one candidate from each district, in-

stead of only one from their own district in the April election.

Commission candidates would still be nominated by district vote alone at the March primary.

MISTER SNOW — The snowman built yesterday by these two Avon Township teen-agers is a big one — over six feet tall. Barbara Wiseheart, 13 (left), and her friend, Pat Hammond, 14, had to climb up on lawn chairs to finish the head and put on his scarf and cap. The snow sculpture, which took about three hours to create, is at the side of the Wiseheart home, at 2930 Crooks.

Goldwater Tosses Hat in the Ring

625,268 Cars
Produced by
Pontiac in '64

GM Divisions Push
Totals for Industry
to Second Best Year

Pontiac Motor Division produced 625,268 cars during 1963, the best year in its history.

While the auto industry as a whole did not reach the 1955 magic record of 7,942,125, Pontiac and other General Motors divisions helped set the pace to a second-best mark — an estimated 7,636,993.

Pontiac left its 1955 output of 581,860 far behind, along with 1962's total of 547,350.

Out of the 1963 production, Tempest models accounted for 143,616 units. This was slightly below the 145,676 output in calendar 1962.

The year past was also a good one for GMC Truck & Coach, which turned out 101,234 units, topping its 1962 production level of 89,789.

General Motors, paced by Chevrolet Division, set many production records as the corporation built 4,077,246 passenger cars in 1963 in the United States plus 264,340 in Canada.

CHEVY PRODUCTION
Chevrolet's 1963 production of 2,303,343 included 1,602,289 standard-size cars, 312,118 Chevy II's, 251,525 Corvairs, 113,780 Chevelles, 23,631 Corvettes and 483,119 trucks.

But GM's good showing in the market was not confined to its lower-priced line. Cadillac, its most expensive car, built 164,735 last year, topping a previous mark set in 1960.

Totals for other divisions show Oldsmobile production at 504,556, up from 458,359 in 1962 and an output of 479,399 at Buick, up from 415,892 in 1962.

For Ford Motor Co., 1963 car-truck production hit 2,388,597, up (Continued on Page 2, Col. 1)

SIGN HERE — Sen. Barry Goldwater, R-Ariz., had new Phoenix Mayor Milton Graham autograph a card on his foot following inauguration ceremonies for Graham and a new Phoenix City Council yesterday. To Gra-

ham's right is outgoing Mayor Sam Mardian Jr. Goldwater acquired the cast following an operation for removal of a calcium deposit from his heel.

Seeks to Lead on GOP Ticket

PHOENIX, Ariz. (AP)—Sen. Barry Goldwater today declared himself a candidate for the Republican presidential nomination.

The Arizona conservative, ending months of speculation, made his declaration at his hilltop home overlooking Phoenix.

Goldwater, who turned 55 on New Year's Day and who long has been a spokesman for the conservative cause, broke the official news first to a group of Arizona Republican leaders gathered at his home.

A Goldwater associate also said the senator plans to file for his third Senate term but that he will withdraw from that race if he wins the GOP presidential nomination.

Goldwater's declaration today put him into the race with New York Gov. Nelson Rockefeller.

Conservative Tells Views

PHOENIX, Ariz. (AP)—"Let's grow up, conservatives. We want to take this party back, and I think some day we can." For the past 3½ years, Sen. Barry Goldwater, R-Arizona, has been in the forefront of what he calls a rising tide of conservatism in America.

"My basic conservative philosophy remains the same," he tells critics who say he has shifted his stand toward the middle of the road.

Here, in the words of Goldwater's speeches, interviews and news conferences, are some of the points in that conservative stance:

COLD WAR: "It hasn't come to my attention that the Russians have made any overtures for peaceful coexistence."

"It seems to me that we have done most of the talking in this area in a dangerous way, because in the remarks I have heard there is an indication of a lack of understanding as to what Russia considers are the purposes of 'peaceful coexistence.'"

"We have peace in this world tonight only because Gen. Eisenhower and John Foster Dulles had the guts to proclaim brinkmanship."

FOREIGN POLICY: "People have accused me of advocating a foreign policy that will bring war. I deny this emphatically. If we maintain strength we need never go to war because we're the most powerful nation on earth."

UNITED NATIONS: "I believe that the United Nations' value is to be found as of today in the form of a debating society, for no one can prove that it is a peace-making or peace-keeping organization."

"I would make of the UN, then, the best debating society in the world, and I would require each of its members to pay its dues or be dropped from (Continued on Page 2, Col. 3)

Pontiac Income Tax Suggested by Carter

City Manager Robert A. Carter yesterday said that "it's time people started thinking about 'a local income tax in Pontiac as a supplement to property taxes."

"At a time when Pontiac needs, to expand services, it is cutting them," he noted, "because property taxes alone can no longer bear the whole burden of operating a city this size."

Nearing the end of two months as Pontiac's administrative chief, Carter, 47, touched on the city's shrinking tax base and police problems in a noon speech before the Pontiac Optimist Club.

"I think we ought to start talking about the guy who spends his daylight hours in Pontiac, using our streets and other city services, and then goes home at night to pay his taxes somewhere else," Carter said.

As far as the police department is concerned, Carter said he thought "the biggest problem is a lack of manpower."

Carter emphasized that

"these are my own views, not necessarily those of the City Commission. In fact, I haven't even discussed my opinions on an income tax with commissioners yet."

ANSWERING QUESTIONS

Most of his statements came in answering questions from the floor.

"We need more police, better wages, more street maintenance, street lighting, juvenile programs, library services and parks and recreation programs," he said.

"Instead, we are cutting most of these services because there isn't the income needed to even keep them operating at their present level."

He said that Pontiac "has reached a point where people must decide whether they want to pay for more services, or cut them."

SOME THOUGHT

"It may never come to an income tax, but there's no harm in getting some thought going in this direction," he said.

Carter added that Flint had the lowest tax rate of major cities in Michigan and Pontiac was second lowest.

"Now with the recently approved income tax in Flint, Pontiac will be on the bottom of the list."

Carter, former city manager of Flint, had proposed an income tax there several years ago to provide better wages for city employees.

STEPS TAKEN

Regarding police problems, Carter said that steps had been taken to improve efficiency and morale, "but morale isn't the big problem."

"Our biggest problem is, in my opinion, trying to give Pontiac the type of enforcement it wants with a force that's a third below the minimum needed to do the job."

"What the police department (Continued on Page 2, Col. 2)

Deficit Cut Hoped in \$100-Billion Budget

JOHNSON CITY, Tex. (AP)—President Johnson's new budget will be in the neighborhood of a record \$100 billion, but he hopes to cut red ink spending below the current level.

The budget estimate for fiscal 1965, disclosed last night by a White House source, is less than anticipated. Still, it will be a new peak for government spending.

Soon after taking office Johnson suggested he would have difficulty keeping the spending total below \$102.5 billion or \$103 billion. He blamed unavoidable increases already authorized by Congress.

The reduced figure is in keeping with the economy drive he has called for since then.

HIGH REVENUES

Balanced against the \$100-billion spending total for the government year that begins July 1 will be forecast revenues of more than \$90 billion. However, Johnson will tell Congress that revenues on this scale are dependent on early enactment of

an \$11-billion tax cut retroactive to Jan. 1.

The combination of Johnson's spending and revenue predictions would yield an indicated deficit of less than \$10 billion.

A year ago, the late President John F. Kennedy recommended fiscal 1964 spending of \$98.8 billion, a new high. Kennedy forecast revenues of \$96.9 billion and a deficit of \$11.9 billion.

Johnson kept his economy campaign rolling yesterday. Postmaster General John A. Gronouski conferred with the President and then told a news conference the postal payroll will be trimmed by 5,000 workers in the next six months, and fund requests for expansion and modernization of facilities will be reduced from \$43 million to \$10 million.

HOUSING BILL

The President also conferred with Robert C. Weaver, administrator of the Housing and Home Finance Agency. Weaver told newsmen the administra-

tion will send Congress a comprehensive housing bill calling for a significant stepup in the public housing program and expansion of Federal Housing Administration activities.

There also will be some brand new proposals, such as easy credit to help big subdivision developers put in water and sewer lines, and aid for low income families ousted by slum clearance activities.

Draft Lodge Movement Under Way in Boston

BOSTON (AP)—A Draft-Lodge-for-President drive opens in Massachusetts today by a group of admirers of Ambassador Henry Cabot Lodge who hope he will become the Republican Convention nominee.

The group lacks Lodge's consent to use his name as an actual candidate. The committee, in filing papers with the Massachusetts secretary of state, therefore labeled itself "The Committee to Secure Delegates for Lodge."

Coronary Heart Disease a Menace

Junior Execs Face Threat to Health

(EDITOR'S NOTE—This is the second article in a six-part series on dieting, written by nutrition expert Gaynor Maddox.)

By GAYNOR MADDOX
Newspaper Enterprise Assn.
Junior executives face particular health threats. They tend to eat too much and exercise too little, according to Dr. George J. Christakis of the New York City Department of Health. He adds:

"Many of them overlook the warning that the incidence of coronary heart disease has been increasing in age groups under 50."

Christakis is director of the department's bureau of nutrition and its widely discussed "anti-coronary club."

"During the six years the club has been in existence," he reports, "most of the dropouts have been between 25 and 30."

"Although they know they are overweight and realize that overweight is a health and appearance hazard, they seem to lack motivation to stick to reducing and dietary goals."

"They say, 'Oh, well, I have lots of time to get my weight down. So I'll be back later when I am 40 or more. That's the danger period.'"

These men ignore the fact that it is far more difficult to lose weight at 40 than it is to prevent putting it on at 25.

The pattern of many sedentary young executives results in more calories than energy expenditure.

BELTLINE BOOM

The result is gradual extension of their once slender beltline.

"We find they usually eat a skimpy breakfast, no more

than a roll with jam and coffee."

"Then at the office the coffee cart with Danish pastry comes around," the doctor observes. "That means about 200 extra calories added to the day's total."

Lunch more often than not is a full-course meal rather than soup and sandwich. More extra calories.

STOP FOR DRINK

On the way home, many stop for a drink and a few salted nuts or pretzels—at least another 100 calories.

Dinner is usually topped off with a rich dessert.

After dinner, they relax before a television set and enjoy a late snack before going to bed.

Dr. Christakis believes such a pattern may well set the stage for future troubles. Certainly (Continued on Page 2, Col. 3)

Warm Forecast for Weekend

Pontiac area residents welcome the warming trend forecast for the weekend. The weatherman said temperatures will drop to 34 tonight and rise to 42 tomorrow.

The outlook for Sunday is partly cloudy and mild. Morning southwesterly winds at 5 miles per hour will shift to west to northwest late today. The low recording in downtown Pontiac preceding 8 a.m. was 33. By 2 p.m., the reading was 43.

Solve Disputes Peacefully—K

MOSCOW (AP) — The Soviet government has proposed an international agreement renouncing the use of force in settling territorial and frontier issues.

A digest of the message by the Soviet news agency Tass said Premier Khrushchev had urged world leaders in messages yesterday to:

First, a solemn undertaking by the parties not to resort to force to alter existing state frontiers.

Second, acknowledgment that the territories of states should not, even temporarily, be the object of any invasion, attack, military occupation or any other forcible measure directly or indirectly undertaken by other states for whatever political, economic, strategic, frontier, or any other considerations.

FIRM STATEMENT

Third, a firm statement to the effect that neither differences in social and state systems, nor refusal to grant recognition or absence of diplomatic relations or any other pretexts may serve as a basis for the violation by one state of the territorial integrity of another.

And fourth, a commitment to solve all territorial disputes solely by peaceful means such as negotiations, mediation, conciliatory procedures, and also other peaceful means chosen by the parties concerned, in conformity with the United Nations charter.

Pontiac Total Is 625,268

(Continued From Page One) 3.3 per cent from 1962, and comparing with 2,614,588 made in 1955.

FORD FIGURES

Ford auto divisions turned out 911,496 Fords, 318,018 Fairlanes, 341,870 Falcons, 66,881 Thunderbirds, 118,815 Mercurys, 150,694 Comets and 33,717 Lincoln Continentals. The company built 46,728 trucks.

Chrysler Corp. reached a year-end output of 1,047,722, about 300,000 above 1962 and the best year since 1957 when the company made 1,222,338 units.

Dodge truck made 110,987, best year since 1962.

Chrysler made 496,412 Plymouths, 421,301 Dodges, 111,958 Chryslers and 18,051 Imperials. American Motors produced 480,365, compared with 454,784 the previous year.

Pontiac Press Photo

OPENING DAY — Crews of workmen yesterday set up special displays and drove 40 new cars into the Pontiac Mall to set the stage for this morning's opening of the second annual show sponsored by the Pontiac Automotive Trade Association. The Mall concourse has been transformed into a huge indoor display area for the show, which continues 9 to 9 daily, except Sunday, until Jan. 11.

Income Tax for Pontiac Suggested

(Continued From Page One)

needs is about 50 more men," he said. "There are 107 on the force and we should have 152 to meet the minimum requirements of this city."

He urged more meetings between police, administrators and municipal judges.

"We've had only one such meeting. It was held to try and solve a growing traffic problem."

CLAMPING DOWN

"The result is that police are now writing twice as many violation tickets and the judges are clamping down on fines and jail sentences."

Carter said that he hoped to propose ways to "give policemen more job protection and job training" in the near future.

Pope's Plane Named for Italian Navigator

ROME (AP) — The jet airliner that will carry Pope Paul VI to the Holy Land tomorrow is named Leone Pancaldo, after an Italian navigator who sailed around the world in the 16th Century with the Portuguese explorer Ferdinand Magellan.

Like most modern airliners, the Italian plane carries the flag name in small black letters on the nose near the pilot's windshield. Pancaldo was from Savona, Italy, and sailed on Magellan's 1519-1522 circumnavigation of the globe.

Goldwater Ideas Outlined

(Continued From Page One) membership or, an alternative, not be allowed to vote . . .

FOREIGN AID: "If we have to live with foreign aid—and I don't think we have to live with foreign economic aid—I think it should be used as a rifle aimed at specific areas where we can gain an advantage over the Russians."

"I would rather see foreign economic aid money channeled into technical assistance and the Peace Corps concept."

CUBA: "I disagree with these cry babies . . . who say anything we do against Cuba will result in a nuclear holocaust . . . Russia is not going to risk losing her world empire over a tiny island in the Caribbean."

RUSSIA: "I have always favored withdrawing recognition from Russia . . . I think we lent dignity to a movement that doesn't deserve the respect that goes with formal recognition."

STATES RIGHTS: " . . . The ground has shifted seriously and significantly beneath the structure of state powers. These powers . . . have been siphoned off into the national government, the central government . . ."

CIVIL RIGHTS: "My firm conviction in this matter is that desegregation should be conducted at the state level without federal intervention . . ."

"My basic feeling is that leg-

islation will not solve the so-called civil rights problem."

JOHN BIRCH SOCIETY: " . . . I have no intention of denouncing members of the society as long as their remarks are temperate and in keeping with the decency called for in American politics."

GOVERNMENT SPENDING: "This whole idea of trying to ease unemployment and growth problems through the use of printing press money will get us into more trouble than we are in already."

"The federal budget can and should be balanced during every fiscal year, except during periods of war or other extreme national emergencies."

LABOR: "I would oppose a federal right-to-work law written in the manner that the state right-to-work laws are written."

" . . . I have introduced legislation that would call for an open shop in all states but at the same time this legislation would give the states the right to declare for a union shop."

"Collective bargaining has given way to a kind of de facto compulsory arbitration . . ."

FARM POLICY: "The 30 per cent of our agriculture now under the . . . support program should be slowly withdrawn from it, so that at the end of a reasonable period of time the law of supply and demand will determine the prices farmers receive."

TENNESSEE VALLEY AUTHORITY: "I am quite serious in my opinion that TVA should be sold . . ."

"But this hardly means that I propose to abolish all TVA services or to stick up a sign outside the TVA offices and wait for a rich buyer to stroll along and snap it up."

Threat Faced by Executives

(Continued From Page One) overweight. Possible diabetes. And most likely a high serum cholesterol count.

He says: "We know from clinical experience that by a prudent diet and weight reduction in the overweight, we can lower the serum cholesterol count significantly."

POLYUNSATURATES "It can also be lowered by diet relatively high in polyunsaturated fat in young men who are of normal weight."

"The rate of increase in serum cholesterol is highest around the age of 25."

"The exact relationship between high cholesterol and heart disease has not yet been definitely established but there is circumstantial evidence a relationship exists."

"It would seem wise to keep the level low."

ECONOMIC ASSET

"Modern industrialists realize that an executive staff of lithe young men is an economic asset. Many provide gymnasiums and encourage active recreation."

"Employee cafeterias and dining rooms usually offer well-balanced luncheons."

"Their menus often print the calorie count of each dish."

"Some restaurants do the same thing."

"Such calorie-alerting menus can help a young man calculate whether his meal is within the range of his energy expenditure."

Dr. Christakis adds, "The sooner the junior executive establishes the habit of prudent diet and regular exercise, the more youthful and fit he will be for his business and social life. And the years ahead will hold less threat of coronary heart disease for him."

Adult Classes to Teach Variety of Skills

BIRMINGHAM—Foreign languages and photography, water colors and woodworking are among the 63 courses which the Birmingham School District will offer to adults this winter.

Under the school system's continuing education program, men and women can learn or improve their French, German, Spanish or Italian.

They can develop skills in such classes as oil painting, drawing, knitting, sewing, upholstery, furniture refinishing, general woodworking, pattern drafting, band and piano.

Recreational activities include square dancing, ballroom dancing and bridge. Among the skills for use in home or office are shorthand, typing, office machines, executive secretarial and business English.

SELF-IMPROVEMENT

Classes directed toward self-improvement are speech, investments, interior decorating, psychiatry, creative writing, creative problem solving and charm and poise.

Registration begins Monday with classes starting Jan. 20. Both residents and nonresidents can enroll at the Board of Education office, Chester and Martin.

William B. Bachman Jr. and Edmund Steeves have been elected to the board of directors of the Community House.

Both men are Bloomfield Hills residents and have backgrounds in the advertising and public relations fields.

Bachman, 715 Oakleigh, is senior vice president and general manager of McManus, John and Adams Inc. advertising agency and has been with the company since 1947.

He served as 1963 fund drive chairman for the Community House.

FIELD DIRECTOR

Steeves, 3660 Forest Hill, is field operations director on the public relations staff of General Motors Corp.

Before joining GMC in 1954, he was a correspondent for United Press International.

For the past several months, Steeves has been on the president's advisory council of the Community House.

The two new directors replace William H. McGaughey, who has moved to New York, and John Stevenson, who has resigned from the board but will continue to work for the Community House on the president's advisory council.

Arthur C. Hindle Service for Arthur C. Hindle,

50, of 2883 Colonial, Bloomfield Township, will be 1 p.m. tomorrow at the Vasu-Lynch Funeral Home, Royal Oak. Burial will follow in Elmwood Cemetery, Detroit.

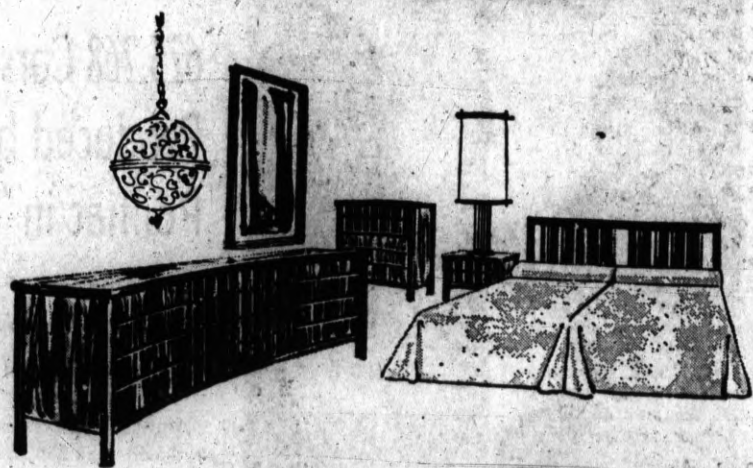

Mr. Hindle, production control manager for Detroit Engineering Co., Detroit, died yesterday of a heart attack. He was a member of the Michigan Bar Association.

Surviving are his wife, Esther; his mother, Mrs. Edgar King of Detroit; two daughters, Mrs. James Parker of Kansas City, Mo., and Cheryl J., at home; and a granddaughter.

It will be warmer over the eastern coast states, the southeast Gulf area and the central Plateau while colder weather prevails over the central U.S. from the Rockies to the Mississippi Valley. It will be fair to partly cloudy with little temperature change elsewhere.

GIs in Viet Nam Used in All Aspects of War

By PETER ARNETT
Associated Press Writer
SAIGON, Viet Nam (AP) — The United States is entering its third year of heavy military commitment to South Viet Nam. It has 15,500 men engaged in virtually every aspect of war.

What do these men do? How are they broken down by category?

Since the military buildup began in December 1961, some American units appear to have become much more deeply involved in fighting the Communist Viet Cong than was perhaps intended.

American aviators, flying armed helicopters and fighter bombers, come into direct contact with Communist guerrillas every day. They have made big kills.

U.S. Special Forces operatives in the central mountains of Viet Nam have a much greater influence over the primitive mountaineers than their role of "advisers" suggests.

This deep involvement, however, affects comparatively few American servicemen here. The majority never hear a shot fired in anger.

Roughly two-thirds of the Americans are based in the Saigon area, according to a military spokesman.

The largest group of Americans is with the U.S. Army Support Group. They total more than 6,000, fly and maintain the more than 300 helicopters and Army aircraft, and handle countrywide communications.

NEXT LARGEST

The U.S. Air Force makes up the next largest group with more than 5,000 men attached to the 2nd Air Division in Saigon and nearby Bien Hoa. They help fly the F4 fighters and the B26 bombers in missions all over the country.

The task of advising Vietnamese Army, Navy and Marine units is handled by the U.S. Military Assistance Group which has 2,750 military advisers outside Saigon and a headquarters unit of about 300 in Saigon.

Six hundred more Americans belong to the headquarters support activity in Saigon, performing such services as supervising messes, officers' quarters and commissaries.

The coordinating body for the

whole U.S. effort is the Military Assistance Command, Viet Nam, headed by Gen. Paul D. Harkins. He has a staff of 300. This headquarters group has operational control over all U.S. units.

SECRETIVE GROUP

The U.S. Special Forces, a secretive group operating quietly in outlying regions of Viet Nam, number about 1,000 men, American sources report. They officially come under the control of the U.S. Army Support Group,

but in fact operate fairly independently.

About one-third of the Americans in Viet Nam come under enemy fire at one time or another, American sources report.

Helicopter pilots and gunners in particular find themselves in an increasingly dangerous job. Guerrilla groundfire is improving.

American advisers with Vietnamese field units see plenty of action. American special forces

teams are subject to sudden attack. Air Force planes are often hit by ground fire. Several have been shot down.

MOSTLY NONESSENTIAL

The United States has pulled out 1,000 men, but they were mostly nonessential personnel.

Some American observers think more could be removed without hurting the war effort very much.

One American pointed out: "You must remember that a lot of the 15,500 Americans over here are going about the job of

taking care of other Americans. This is necessary work, but it doesn't put them in the front line. The large number here is to a certain degree misleading."

STEFANSKI ELECTRONICS

1157 W. Huron FE 2-6967

By WALTER R. MEARS

PHOENIX, Ariz. (AP)— Sen. Barry Goldwater flipped the matchbook in his hand. On one side, it bore a color photograph of Goldwater; on the other, a picture of the White House.

The senator smiled wryly, shook his head, then took out a ball point pen and sketched a lofty radio antenna atop the executive mansion.

The scene was an airport restaurant, and amateur radio operator Barry Goldwater was kidding traveling politician Barry Goldwater.

Today the politician has center stage.

Sen. Goldwater is scheduled to make his announcement on whether he will seek the GOP presidential nomination at a news conference at his Phoenix suburban home at 1:30 p.m. Eastern Standard Time.

Goldwater, who was 55 New Year's Day, is at once outspoken and introspective, doctrinaire and doubting.

OTHERS DON'T SAY

The one-time Phoenix merchant says things politicians usually don't say—this, for example:

"I've never done anything to get the nomination, and yet all of a sudden everyone wants to thrust it on me. And, doggone it, I'm not even sure that I've got the brains to be the president of the United States."

Or Goldwater on the sale of U.S. wheat to the Soviet Union. Demand cold war concessions from the Soviets, said the senator. "If they won't do it, we can tell them to go to hell, we won't sell them the wheat."

Barry Goldwater is a man who doesn't like to put any prefix on his conservatism. "I have been much concerned that so many people today with conservative instincts feel compelled to apologize for them," he began the book that is his declaration of political faith—"The Conscience of a Conservative."

READS SPEECHES

He's not much of an orator; he tends to read speeches and when he goes off-the-cuff, he sometimes gets ideas tangled.

But that doesn't bother the crowds that turn out to listen. They come for message, not oratorical style. And the Goldwater message is a call for an end to big, centralized government, for a tough stand in the cold war.

It leaves few people neutral about Barry Goldwater.

Liberal Republican Sen. Jacob Javits of New York once said Goldwater's philosophy "kind of satisfies a hankering for the five cent beer and the five cent cigar; it's good old-fashioned conservatism but it doesn't belong today."

Walter Reuther, president of the United Auto Workers, once called the senator "the country's No. 1 political fanatic, la-

bor baiter and peddler of class hatred."

A 6-foot, 185-pounder with cur-

ly gray hair and an outdoorsman's tan, Goldwater is a man constantly in motion.

He figures he has traveled a million miles for the Republican cause in the past decade. He has served three terms as chairman of the Republican Senatorial Campaign committee, and he ranks as one of the party's top fund-raisers.

His hobbies range from flying to photography, radio to Arizona Indian lore. He drives a gadget-loaded sports car and is at home in a sprawling hill-top mansion loaded with electronic gear.

In uniform, he wears the two stars of a major general in the Air Force Reserve, and the silver wings of a pilot. On the heel of his left hand are four tattooed dots, the insignia of a group of Arizonans called "The Smoki," who stage Indian ceremonial dances at Prescott.

BORN IN PHOENIX

Goldwater was born in Phoenix, the son of department store owner Baron Goldwater. His mother, a Nebraska nurse named Josephine Williams, went to Arizona with a supposedly incurable case of tuberculosis. Doctors gave her six months to live. Now in her late 80s, she still resides there.

The senator traces his ancestry to the Goldwassers of Poland, a Jewish family of Russian background.

Goldwater's father was Jewish. The senator, his brother Robert and his sister Carolyn were raised in their mother's Episcopalian faith.

In Phoenix school, Goldwater was an athlete, a class president and no scholar. His parents sent him to Staunton Mil-

tary Academy at Lexington, Va. and he was graduated in 1928.

He spent a year at the University of Arizona, quit shortly after his father died, and went to work at the family department store as a junior clerk.

In 1936, Goldwater became general manager of the store. He was president from 1937 until 1953, now is chairman.

Goldwater, who got an Army Reserve commission and a yen to fly in 1930, had to pull some strings to get into active service during World War II. He was 32, a family man, and troubled by knee injuries he suffered as a youth.

But he talked his way into the Army, then got himself a flying assignment, and served as a

supply pilot on a run to Allied bases in India.

FIRST PLUNGE

Goldwater's first political plunge came in 1949, when he ran for a Phoenix City Council seat on a reform ticket.

"Don't cuss me too much," he wrote brother Robert when he decided to run. "It ain't for life and it may be fun."

A year later, he managed the campaign that made Republican Howard Pyle governor of Arizona. And in 1952, Goldwater took on Democratic Sen. Ernest W. McFarland—rated the state's best vote-getter.

Goldwater won by less than 7,000 votes, and topped McFarland in a 1958 rematch.

Goldwater and his wife, Peggy, will celebrate their 30th wedding anniversary next Sept. 22.

They have four children: Joanne Ross, 27, of Torrance, Calif.; Barry Jr., 25, a Los Angeles stock broker; Michael, 23, who works for a Phoenix bank; and Peggy, 19, a student at Mt. Vernon Seminary and Junior College in Washington.

Warn Merchants on Holdup Heroics

In the face of a recent outbreak of holdups in the city Pontiac merchants and businessmen were warned today by police not to "play hero" if they are ever the victims of a gunman.

"Take no chances," said Detective Sgt. John A. DePauw. "A person confronted by a gun is a sitting duck."

DePauw's advice follows a series of at least 12 armed robberies in the city since Dec. 21. Before that, there were six other armed robberies since Dec. 1 in the city.

Since Dec. 22, a bandit with a small firearm has held up four markets and escaped with about \$1,900. He has been described as being in his late 20's or early 30's, having a "thin, sharp face" and talks with a southern accent.

SKIING HOODS

Two Negroes wearing skiing hoods over their heads and armed with a sawed-off shotgun have been busier, according to DePauw, but the robberies have not been as lucrative.

"We have had no real luck on their descriptions," said DePauw, "particularly on their ages."

Anyone having the misfortune of meeting the pair should be sure to notice any peculiarities in their behavior and the kind of clothing they are wearing, according to DePauw.

"Let the police do the rest," said DePauw.

He advised store owners not keep more money on hand than is necessary.

AFTER CLOSING

"And by all means do not reopen the store for strangers after closing for the night," DePauw added.

"This is the most vulnerable time," said DePauw. "The day's receipts are being counted and in full view and usually there are few witnesses."

3 Charged in Sinatra Kidnaping

LOS ANGELES (AP)—A federal grand jury—after hearing testimony which reportedly included that of Frank Sinatra Jr. — dealt swiftly with three men accused of kidnaping him.

All three were charged with six counts of kidnaping, conspiracy, placing ransom calls, and possession of ransom money.

No quarter was shown John William Irwin, 42, first of the trio arrested, who was reported to have helped the FBI after having his own brother turn him in.

In fact, it was disclosed, the FBI didn't need Irwin's help to crack the case.

HEARING OVER

The grand jury concluded its hearing on the case Thursday with the presentation of a true bill against the three men—Irwin, Barry Worthington Keenan and Clyde Joseph Amsler, each 23.

Newsman were told by employees in the Los Angeles federal building that young Sinatra was taken to the jury's hearing room on the sixth floor in a freight elevator, in order to avoid newsmen.

The three defendants will be arraigned Monday.

Malayan gibbon apes have been known to travel a distance of 40 feet while swinging through trees. They are well coordinated and good judges of distance.

Opportunities Limited in U.S. Agriculture

With most U. S. economic indicators pointing buoyantly upward for the next decade, those plotting agriculture unfortunately do not.

During the next 10 years, a Michigan State University economist sees one less farmer needed in every six today, even though the population of the Country is expected to increase by 25 million.

"Only one in ten youths growing up on a farm is going to find a farm to provide himself an adequate income," says the authority.

He points out that currently the top 40 per cent of all farmers are producing 87 per cent of all products sold, and that if the other 60 per cent were gone, they would not really be missed from the production standpoint. The number of farms could be cut to 1.5 million from the present 3.7 million and more crops could still be produced.

Advanced agricultural techniques, reflecting specialization and large-scale efficiency, are credited by the agronomist for the transition of the rural economy that once encompassed the largest population division of the Nation and was its leading industry.

It is tragically ironic that with two-thirds of the world's three billion inhabitants either hungry enough to be seriously underweight or suffering from malnutrition our own land of plenty is burdened with mounting surpluses and a shrinking outlook for the tillers of its soil.

Profit Sharers Find Gold Doesn't Glitter

There are few who would dispute the Biblical tenet "that the labourer is worthy of his hire."

But at no time since man first sold his toll has there been an incontestable yardstick governing its worth.

In early times, labor was pretty much at the mercy of proprietorship for payment for service. Then as craft unions (of which Samuel Gompers became the symbol) were formed and flourished, skilled labor was successful in establishing higher rates of pay than those of so-called common labor.

But beginning with the second decade of the century an industrial revolution set in that saw the introduction and growth of production-line techniques—the manpower for which found scant refuge in craft unions.

With the shift of union emphasis from craft to industrial organization that followed, union membership skyrocketed, with comparable increase in power. Today, many are convinced the unions hold too much power.

Throughout the evolutionary organization of the Country's work force, labor has striven progressively for a larger share of business profits as well as for other related benefits—in short, to establish a built-in stake in the expanding economy.

To meet the trend, and to achieve stable and contented work forces, some firms have instituted profit sharing programs for their workers. Some of them have been successful, others have not.

The most recent such step on a large scale was the plan set up two years ago by American Motors Corp.—the first of the auto companies to do so. It was heralded by the UAW-CIO officialdom as a milestone in industrial relations, and President WALTER REUTHER saw it as a blueprint for future contracts between management and labor.

So what's happened? After two

years under the plan whereby union leaders estimate that AMC workers directly and indirectly are getting 12.5 cents more per hour than their Big Three counterparts, a recent survey indicated that the rank-and-file don't like it — by a stunning 8-to-1 margin.

The focus of dissatisfaction is the deferred gain represented by accrual of stock ownership in the company as compared to comparable amount in immediate and jingling cash.

It would take greater clairvoyant powers than we possess to predict the industrywide effects of the disaffected American Motors workers. But one could well be that they have thrown a monkey wrench into the well-oiled mechanism of WALTER REUTHER's future bargaining plans.

Spectacular Year Is Likely in 1964

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON — This should be a year of spectaculars, certainly at home, maybe abroad.

At home — the presidential race, with all that means; abroad—the possibility of a summit conference and a grinding Russian-Chinese break.

President Johnson has to achieve in one year what the late President John F. Kennedy had three years to work at: public approval through public performance.

Johnson, in the time left before the campaign, can't match the amount of public exposure Kennedy got in speeches, trips, banquets and appearances before news and television cameras practically every day.

But he's working at it, and working overtime, to create a favorable image of himself as a busy-busy president: at the White House, on trips, walks, tours of his ranch and picture posing.

SUMMIT CONFERENCE

Since he is so obviously seeking to stay in the public eye, coming as he does from the relative obscurity of the vice presidency, a summit conference with Soviet Premier Khrushchev would snatch the world's attention like nothing else.

And, if it turned out half-well, it would snatch the world's approval. That's why such a meeting seems a strong possibility.

Meanwhile, talk without performance at home will be an empty achievement, and probably a self-defeating one. Johnson will have to try, and try harder than Kennedy ever did, to get some major legislation through Congress.

He's not as mild as Kennedy and for that reason is apt to get into some harrowing disputes with congressional leaders, an embroilment Kennedy always avoided.

NOT VERY PRODUCTIVE

Kennedy's technique, however was not very productive in getting Congress to do what he wanted. A different, harsher technique might be more effective.

Kennedy made an effort to appear both calm and in full control, even when Congress frustrated and ignored him. But the Kennedy technique of no fights with Congress was simply a repetition of President Eisenhower's technique.

The result was 10 years of placidity in relations between the White House and Congress. There hasn't been a good brawl since the days of President Truman.

But all this is only half the picture of 1964.

The Republicans' presidential hopefuls will have a double chore, too: knocking one another out of the race while trying to scuttle Johnson.

COULD BE ROUGH

This could well be the roughest and most unpleasant presidential race since Truman beat New York's Gov. Thomas E. Dewey in 1948.

But Johnson has one enormous advantage over the Republicans: As President, he can stay in focus every day.

David Lawrence Says:

D. C. Gets 'Police State' Order

WASHINGTON — Maybe the news ought to be hushed up, though Moscow would soon learn the truth anyhow — namely, that within the last three days a form of police state has been established in the District of Columbia.

The Capital of the United States is supposed to be governed by laws passed by Congress. The three commissioners are appointed by the President, but they have LAWRENCE no authority to write laws.

They nevertheless have just promulgated a "law" which imposes fines and jail sentences on any citizen — whether he be a property-owner or a real-estate salesman or in the real-estate business — who refuses or fails to sell or rent "housing accommodations" to "any person because of the race, color, religion or national origin of such person."

The text of the order issued by the commissioners, to become effective Jan. 20, says that "The police regulations of the District of Columbia" are to be considered as amended and that the action has been rendered necessary because, among other things, there is a "clear relationship between poor housing conditions and the health and comfort of the occupants, and the effects of such conditions also constitute a danger to the property of both whites and Negroes."

Congress 72 years ago gave the commissioners here the right to make "police regulations," primarily to preserve order, but nothing was said about the right of individuals under the Constitution to dispose of their property in any way they wish.

The Washington Post in an editorial says:

"No one can expect this new law to have a sudden and radical effect upon Washington's overpriced housing market for Negroes. The uniformly white neighborhoods in the city are usually the expensive ones, and the ordinance cannot reach economic segregation."

NOW DOUBTFUL

But such a prediction now is surrounded by doubt.

For if the district commissioners can pass a "law" as an amendment to "police regulations" demanding that citizens dispose of their property in accordance with the dictates of the commissioners, then there is no reason why economic help cannot be demanded by citizens who cannot afford "adequate" housing and who would be assisted through taxpayers' money made available for that purpose.

The district commissioners cannot, of course, disburse public funds on their own initiative.

They must have a law of Congress behind them, and it seems unlikely that Congress would appropriate money to subsidize residents of the district so that individuals with low incomes

may enjoy more adequate housing in the better sections of the city, where most of the government officials reside.

A majority of the residents in the city of Washington now are Negroes, and there are demands for "home rule."

If this comes, the district off-

icials would then have control of the disbursement of all tax receipts and would be in a position to bring about "economic integration" — which, theoretically at least, it might be argued, would be just another form of "equal rights."

Bob Considine Says:

Nixon-Goldwater Ticket to Be GOP '64 Choice

NEW YORK — People in my business who don't have enough vision to know where they are

going to be 15 minutes hence like to sit down at this time of year and try to convince their readers they know precisely what will happen during 1964.

So here goes: President Johnson will be

unopposed at the Democratic convention and win comfortably in the November election. His popularity will decline from its present swollen state — typical of all new incumbents — but not nearly enough to defeat him.

He'll take the South like a benevolent Sherman. Mississippi conceivably might bolt, but that will not mean anything. Big labor will swing his way, not with the enthusiasm it gave JFK but with enough to insure good majorities in the major cities. He will be an active and good campaigner.

LBJ's running mate, Sen. Eugene McCarthy of Minnesota, will be of great help to him through the Middle West and among Catholics. The Kennedy brothers will campaign vigorously for the ticket.

Robert Kennedy will resign as attorney general after the election and take charge of the vast Kennedy real estate and other holdings. In time, he will oppose Leverett Saltonstall for a seat in the U. S. Senate.

The Republican convention will explode in chaos. On the first ballot, candidates Rockefeller, Goldwater, Lodge, Scranton and Romney will each get about an equal shake, far below the number of ballots needed to take the nomination.

The deadlock will stubbornly persist and, in the end, the kingmakers will turn to Richard Nixon. After many misgivings, Sen. Goldwater will accept second place on the ticket.

Nixon's loss to Pat Brown in the California gubernatorial race will be dismissed as a fluke, whelped by Brown's "false promises" and the state's "crazy rightists."

The GOP will accent the positive: Nixon's historic near-miss in 1960 against a more personable and attractive opponent, John Fitzgerald Kennedy. Goldwater's name on the ticket will have special appeal to Conser-

vative business interests but not enough to put the ticket across.

President Eisenhower will not campaign vigorously against his old friend LBJ.

Once elected, President Johnson will put his brand on the White House by accepting, with expressions of regret, resignations of what by that time will be left of JFK's "Irish Mafia."

There will be changes made in the Cabinet, beginning with Secretary of Commerce Luther Hodges, who has wanted to resign almost since accepting the post.

Voice of the People:

City's Ex-Manager Bids Farewell to Pontiac Area

As 1964 begins and I leave Pontiac to take up responsibilities as city manager of Troy, N.Y., my family and I would like to extend our best wishes and appreciation to the people of Pontiac.

We leave this community with feelings both of sadness and anticipation. We regret leaving our many friends here, but we look forward to the challenges of a new council-manager city.

Pontiac is on the move, and I trust that this momentum for progress will continue.

Robert A. Stierer

'Conservatives Not to Blame for Death'

The absurd attempt of Socialist-Liberals to saddle blame upon Conservatives for President Kennedy's assassination is open admission that they consider the Internationalist Establishment in serious trouble because of genuine American thought and action. These elements will strive mightily in 1964 to prevent American voters from choosing between Liberalism and Conservatism. It is now the colossal job of Conservatives to forestall this deadly campaign.

Conservatives believe in ballots not bullets. Assassination is the Communist way through the world. Conservatives realize they are now up against a Liberal-Socialist-Communist "system" with its physique in America and its heart in Moscow. Conservatives do truly "hate" communism. The attempt to perpetuate, glorify and extend President Kennedy's unfortunate policies merely because he was assassinated is a crudely fraudulent pretense. Conservatives must be warned to hit this head-on.

The Better Half

"There, but for a brief departure from sane reasoning, go I."

Reviewing Other Editorial Pages

Free Enterprise

The Pittsburgh Courier

One of the appropriate features of the New York World's Fair will be the Hall of Free Enterprise. The acknowledged economic supremacy of the United States is due to free enterprise; and it is timely because a century of Marxist propaganda has convinced so many people that slave enterprise (socialism, communism, Nazism and fascism) is a superior form of making a living.

Despite the universal failure of slave enterprise to feed, clothe, house and educate its people, and the refusal of those countries which have it to let their slaves escape, the slogan of the exhibit will be "The Greatest Good for the Greatest Number," because, historically, free enterprise, the system of competitive capitalism, has brought prosperity wherever it has been introduced and permitted to survive.

Once the collectivist politicians take over and start regulating, it means farewell to free elections, free labor unions, intellectual freedom, religious freedom, and freedom of movement. Whether in Soviet Russia, Red China, or any satellites where the slave economy prevails, the people are under-fed, under-housed, under-clothed, under-privileged, unrepresented because of the one-party system, and sharply restricted as to movement and employment.

A disproportionate number of supposedly educated people take every opportunity to call for more and more controls over men's activities and move-

ments, on the ground that in this way the nation's economic problems will be solved.

It will be the purpose of this Hall of Free Enterprise to set the record straight with the Ten Pillars of economic wisdom:

- (1) You can't get something for nothing;
- (2) Government produces nothing, and everything it gives must be first taken from the people producing it;
- (3) Government can only expend money it takes from the people, and when it prints paper with nothing behind it, the value of all real money, savings and insurance is reduced;
- (4) The only worthwhile job security is customer security;
- (5) Job security is a partnership problem;
- (6) Wage increases without increases in production inevitably increase the cost of living;
- (7) Materially, the greatest good for the greatest number depends on the greatest individual production;
- (8) Productivity is dependent upon natural resources, human energy and tools;
- (9) The only thing man can increase is the tools, and they must be paid for;
- (10) Productivity is greatest in a competitive society.

Time for Change

The Saturday Evening Post

A friend who had voted in every election since he became of age moved from Ohio to New York in the fall of 1960. He discovered that he couldn't vote for President of the United States because he hadn't lived in New York for a year. He

was outraged. He saw no reason why an American citizen should be deprived of his vote for President by moving from one state to another. Neither do we.

Thirty-five million Americans moved that year. The American Heritage Foundation made a study of this problem and estimated that eight million Americans were disqualified from voting for President in 1960 because they could not satisfy residence requirements in various states. It seems elementary that qualified citizens living anywhere in the United States should be permitted to vote in federal elections. In some states, county residence requirements can temporarily disfranchise them. In New York, for example, a citizen who moves from White Plains to Manhattan has to live in Manhattan four months before he may vote for President.

This is absurd! State legislatures can remedy this by shortening the residence requirements—they range up to two years in some states — and by permitting citizens who have recently moved to vote by absentee ballot in the states they have left. Fifteen states have taken steps to correct this injustice. The rest should follow suit.

Women Are Minor Problem

Tourists Harass Mount Athos Monks

WASHINGTON—Women have been trying to sneak onto Greece's Mount Athos for a thousand years. Monks of the all-male holy realm now have a worse headache: too many tourists and too few novices.

Soon after the first of 20 major monasteries was founded there in A.D. 963, women, children and eunuchs were barred from the narrow, hilly peninsula jutting some 35 miles from Macedonia into the Aegean, the National Geographic Society says.

The ban even applied to female animals.

Visitors have mostly been pilgrims or specialists interested in Athosite treasures of Byzantine religious art. The monks have provided food, wine and shelter for a traveler as long as he cared to stay.

INVASION BY HIKERS

In recent years, the hospitality has been abused. Hikers on budget holidays from Western Europe have been swarming onto the peninsula, a wildly beautiful paradise without Eve, for they like the views and the price is right.

Too often, visitors of the new breed regard the monasteries as free hotels and intrude upon the monks' spiritual activities.

And the caiques from Salonika are bringing fewer young

novices each year. The population of the peninsula of Mount Athos, a self-governing little theocracy under Greek suzerainty, has dropped from a high of 20,000 in the Middle Ages to 5,000 at the turn of the 20th Century and less than 3,000 today.

Not so pleasant is the financial plight of many of these monasteries of the Eastern Orthodox Church. Once they were showered with gifts from emperors and kings.

The cloisters accumulated what is probably the world's foremost collection of Byzantine icons, murals, manuscripts and bejeweled objects such as censers and chalices.

LANDHOLDINGS LOST

Many art works have been stolen, illuminations even cut from priceless manuscripts. Wars and political upsets have stripped the monasteries of their vast landholdings in eastern Europe.

The monks now get most of their income from sales of timberwood, wine, olives and nuts.

Women have not really been much of a trial. In 1962, an Englishwoman was arrested and held briefly for trespassing by mistake. Romania's Queen Marie tried numerous times, without success, to pay a call.

The daughter of a British diplomat evaded the ban in the dress of a midshipman. A French woman author, disguised as a sailor, roamed about for two weeks before her success de scandale was exposed.

HARD TO STOP

Though there is no place in Athos' sun for female animals, theoretically, not much can be done about the domestic felicity of birds, bees, mice and the like.

A recent visitor saw chickens. Occasionally, a presumably male cat grows up and commits the uneclesiastical error of producing kittens.

Convicts Get Trial by Fire: Little League

VACAVILLE, Calif. (AP) — If a convict can survive as a little league umpire, he has a good chance of readjusting to society.

That's the thinking behind a program at the California Department of Corrections facility here, which is experimenting with a one-year program to prepare convicted violent criminals for parole by testing them in a variety of demanding and stressful jobs.

Umpiring Little League games is part of the stress.

"There's nothing tougher," says program director Werner J. Einstadter. "A Little League umpire hasn't got a friend, no matter what decision he makes. If he calls a pitch a strike, the batter's competitive mother is leaping at him; if he calls a ball, the pitcher's father screams. He can't win either way."

Unless he holds his temper and wins parole.

The second busiest port of entry in the country is Honolulu where more than 300,000 persons are checked annually by the Immigration Service.

Friendship Gap Closed

Staebler Now Johnson Backer

By JAMES S. BROOKS
LANSING (UPI) — Congressman - at - Large Neil Staebler, who is due to announce his candidacy for the Democratic nomination for governor tomorrow, has become an ardent supporter of President Johnson.

Staebler, back in Michigan during the intermission between congressional meetings, said of the new President yesterday, "I think he is taking a magnificent position and doing everything I had hoped for and going beyond it."

"I haven't disagreed with anything President Johnson has said. Largely he has been continuing on the Kennedy programs, which have been well discussed. He is now about to unveil some new programs and there will be his ideas, which we'll see in his State of the Union message," Staebler said.

The wealthy Ann Arbor businessman, who leaped from the role of political kingmaker to that of practicing politician in 1962 when he trounced former Congressman Alvin Bentley in

the race for the at-large House seat, hasn't forgotten how he opposed Johnson in 1960.

READY EXPLANATION

But Staebler has a ready explanation for the antipathy he and then Gov. G. Mennen Williams and other Michigan Democrats showed to the Texan after he had been picked for the vice presidential nomination.

"I was very distressed on my two hours warning that he was going to get it. After the Michigan delegation had a couple of days to digest the situation the Michigan delegation realized it was wrong and that it was a whale of a shot. Since that time we've come to admire him as vice president and as President."

"Any gap that existed has long since been closed. We are his enthusiastic supporters in Michigan," Staebler said.

The congressman said, "the main reason we opposed Johnson was that he had been a competitor of Kennedy. We were such devoted Kennedy people and we thought of him as being opposed to the Kennedy policy. We did not realize how much he shared it."

ELEMENT OF SHOCK

"The 1960 position was taken on two hours' notice and the element of shock was pretty great," Staebler said.

The statements clearly indicated Staebler, if he gains the gubernatorial nomination, has hopes of working closely with Johnson in Michigan — unlike 1960, when the reaction here was such that the national Democratic committee kept the vice presidential candidate out of the state throughout the campaign.

Staebler, who is 58, has shown his desire to become the party's gubernatorial candidate since last summer and last week the possibility of his getting the nomination without even a primary fight opened when former Gov. John B. Swainson took himself out of the race.

Staebler would not speculate yesterday on the possibility of there still being a primary.

SEEKS SUPPORT

He said he had been in con-

tact "with all discernible groups in the party," implying he was hoping to secure strong support from all elements.

There remains a possibility, however, the labor wing of the party may try to show its strength by putting up a candidate it would find more acceptable than Staebler. According to most reports current in Detroit the alternate candidate the AFL-CIO and UAW element now find most appealing is Detroit Mayor Jerome Cavanagh. And since

Cavanagh has a term of office carrying into 1966 he could afford to run for governor without fear of winding up out of a job.

Such a battle would almost certainly cause a split in the party based along Detroit-outstate sympathies.

Staebler, during the 10 years he was party chairman while G. Mennen Williams was governor, built up a powerful and loyal group of outstate admirers. He has not been on the best of terms with the labor element

since last February when Swainson pulled a coup at the party's spring convention in Grand Rapids by getting Zolton Perency elected as party chairman. Staebler and other party leaders had wanted to see John J. (Joe) Collins kept in the job.

Ohio Newspaperman Dies After Illness.

ZANESVILLE, Ohio (AP) — Alan Gonder, 58, associate editor of the Zanesville Times-Recorder since 1959, died Thursday after a long illness. Gonder was a newspaperman in Zanesville for 40 years.

He was a former sports editor of the Zanesville Signal and was news editor when the Signal was incorporated by the Times-Recorder in 1959.

Everything Is Rosie's

FREMONT, Ohio (AP) — Tommy Sachs, 13, had planned to spend New Year's Eve watching television at home. But because of a Poland-Yorkshire sow named Rosie, Tommy played midwife instead.

Rosie, Tommy's 4-H Club project, chose that time to produce a litter.

Tommy, left alone while his parents visited friends, started his nursing chores a little before midnight. Shortly before 3 a.m., Rosie had added 14 healthy pigs to her family.

MERCHANDISING CORPORATION

From Younger Supervisors

County Unit May Face Revolt

By DICK HANSON

The all-powerful ways and means committee of the Oakland County Board of Supervisors may face a revolt in 1964 from younger supervisors who want a voice in county leadership and policy.

David Levinson, a Birmingham supervisor who marked his 68th birthday Wednesday, heads the committee. Other members are:

John Carey, 75; R. Clare Cummings, 79; Harry Horton, 55; Frank J. Voll, 65; Frank

Webber, 64; and Thomas H. O'Donoghue, 74.

Levinson has run the purse-strings committee for the past four years, exercising much policy control by opening or closing the cashbox.

But two incidents have warned him that some supervisors want a change.

CLOSE VOTE

At a December meeting, a relatively unimportant measure

News Analysis

was almost defeated, despite its support from supervisors who are the nominal leaders.

Narrow approval, 33-38, was taken by some as indication of the strength of the unrest.

A similar situation developed in October, when the board considered the appointment of former Clerk-Register Daniel T. Murphy to the post of chairman of the board of auditors.

Although Murphy was personally popular with many supervisors, a large number felt they had been ignored in planning the change.

SITUATION EASES

A hastily called informative session eased the situation before the motion was resubmitted and approved.

With two such clear warnings already on the record, it remains to be seen now whether some new members will be placed on ways and means, or whether the present committee will stand fast and try to retain its position.

The female hawk is usually larger than the male.

Forget the Alcohol; Make Mine Milk

By DR. WILLIAM BRADY

The energy, strength or refreshment from pop (colored, flavored, carbonated sugar water) lasts less than half an hour.

The energy, strength or refreshment from milk lasts all day; for besides the sugar (milk sugar, lactose) in a glass of milk, more sugar than the teaspoonful of cane sugar in a glass of pop, milk supplies protein (nitrogenous material for building and repair), vitamins and minerals that are essential for good nutrition.

The energy, strength or refreshment from alcohol (in beer, wine, cocktail or highball) is illusive. Although one who takes beer, wine or liquor for refreshment may imagine it gives him new strength or energy, actually, being a narcotic, alcohol makes him less efficient, less alert.

In a well-fed regiment on the march, companies that received no alcohol were able to march farther and were in better condition at the end of the day than companies that received alcohol.

MORE CALORIES

Alcohol yields more calories (7) than either protein (4) or sugar or starch (4) per gram (about 1/4th of a teaspoonful) though less in oil or fat (9.4) when ingested. But in any circumstance the body can oxidize or burn, to produce warmth (heat) or muscular energy (work or play), only a limited quantity of alcohol.

If the dose exceeds this combustible limit the alcohol acts as an intoxicant, a narcotic, which depresses, weakens, or impairs every mental and physical function.

As Winfield S. Hall, Ph. D., M.D., Professor of physiology at Northwestern University Medical School, expressed it ("Nutrition and Dietetics"):

"When we find that no function of the body is made more efficient or in any way improved by alcohol, but that all functions which are modified at all are distinctively decreased in efficiency by the ingestion or appreciable doses of alcohol, it must be evident that the old theory that this substance possesses a food value will have to give way to the more rational theory, based on recent researches, that this substance is a pseudo-food as it has proved to be a pseudo-stimulant."

HAVOC WITH TISSUES

The habitual consumption of alcohol in quantities which, though insufficient to produce any of the outward and visible signs of intoxication (said Hutchison and Mottram in their book, "Food and Dietetics"),

are yet beyond the immediate oxidizing power of the cells, may end by playing havoc with the tissues... As the result of chronic alcoholism the brain becomes the seat of various degenerative changes... in the habitual alcoholic a certain degree of paralysis of the moral perceptions, and in special a loss of the sense of truth."

So make mine milk, if you please, and serve it without insulting comment.

Please state what you think of a man of 50 who drinks at least six glasses of beer every day and much more over the weekend, when he takes a few drinks of whisky besides. He claims it can't do him any harm but is really good for him... (R. B.)

Ans. — The usual attitude of the alcoholic. Such indulgence in beer, wine or liquor temporarily benumbs consciousness of inferiority, but has less "tonic" effect than an equal quantity of milk would have.

It is only the delinquent and the defective (moral or physical) who needs the narcotic effect of the alcohol in beer, wine or liquor to make him "feel good" — or rather to make him temporarily unaware of his weakness, functional deficiency, social unacceptability, or whatever his inferiority may be.

A person in fairly good health enjoys life naturally, without any such make-believe good cheer.

Signed letters, not more than one page or 150 words long pertaining to personal health and hygiene, not disease, diagnosis, or treatment, will be answered by Dr. William Brady, if a stamped self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan. (Copyright, 1963)

1963 MSU Grad Dies in Car-Train Collision

BATTLE CREEK (AP) — Arlene Bridges, a 1963 Michigan State University graduate who only four months ago became a staff member of the Calhoun County Bureau of Social Aids, was killed Thursday when her car and a New York Central passenger train collided at a rural crossing midway between Marshall and Albion.

Miss Bridges, 21, was the daughter of Police Lt. Alvin Bridges of Bay City. She was alone at the time of the collision.

A chess set exhibited in East Germany in 1960 portrayed the king as a worker reading an economic plan and the queen as a woman scientist. Pawns carry hammers or sickles.

Clove buds are picked when the calyxes turn pink. Then crete platforms to seal in the they are separated from the fragrant oil.

Dr. Wayne G. Brandstadt Says:

U.S. Guards Against Impurities in Food

Fire and police protection we pretty much take for granted.

There is another kind of protection few of us ever think about. This is the service rendered by the Food and Drug Administration (FDA). Most of us don't realize how badly we need it. Here are some of the facts:

In recent months, over 55

tons of wheat was seized and destroyed because it contained a poisonous mercury compound added as a seed treatment.

Some additives are permitted within certain limits but there is no permissible amount of mercury.

A shipment of caviar was seized because it contained boron for which there is also no allowable limit.

SOYBEANS POISONED

Six car loads of soybeans were destroyed because they contained crotalaria, a poisonous weed.

A ton of caraway seeds was found to be contaminated with small aluminum shavings sharp enough to cut the gums or tongue if they had found their way into your loaf of rye bread.

Seven packages of boneless turkey roll were found to be infected with paratyphoid germs. This lot had already caused an outbreak of food poisoning that involved 129 persons.

RAT INFESTED

Twelve shipments of wheat totaling over 1 million pounds were found to be contaminated by rats.

And 100,000 pounds of flour was found to be infested with insects. A shipment of doughnuts had to be condemned because it was contaminated with rat poison.

Two shipments of ocean perch were seized because they contained parasites, and two shipments of shrimp because they showed contamination with sewage.

Other shipments of food were condemned because spoilage had occurred.

PROTECTS POCKETBOOK

The FDA not only protects your health, it also protects your pocketbook by requiring correct labeling of ingredients and measure.

Many seizures are made because of short weight.

Others are made because of substitution of a cheaper product for the one stated on the label; for failing to state that artificial color, flavor or preservatives have been added; for failure to remove scales from canned or packaged fish; or for adding water or foreign matter to increase the weight.

One of the most outlandish infractions of the law was perpetrated by the owner of a mink ranch.

INFESTED BEEF

He purchased over 5,000 cans of insect-infested Argentine beef to feed his mink. It was really quite a bargain but then he got the 'bright idea' that he could make more money by reselling the meat for human consumption.

He didn't get away with it! (Written for Newspaper Enterprise Assn.)

Electrical Forecaster

Mixes Up Its Signals

KANSAS CITY, Mo. (AP)—If you believed the weather beacon atop an office building Thursday night, the forecast was for clear, stormy, snowy, clear, stormy, snowy.

The beacon, which indicates those conditions with green, red, white lights—in that order—was flashing them in sequence. It was an electrical mixup—but not as bad as the one a few years ago when on a hot summer night the light indicated snow.

Two Tots Die in House Fire

SEAT PLEASANT, Md. (AP)—Two young children died Thursday night when fire swept their frame home. Their mother was across the street seeking clothing to keep them warm.

Eight brothers and sisters of the victims—Mabel A. Payne, 2, and Agnes Payne, 15 months—were rescued or escaped from the one-story house in this suburban Prince Georges County community.

The children had been left unattended, officials said. A defective wood burning stove caused the blaze, they said. Only hours earlier, the mother, Williebee Payne, 34, and neighbors had managed to repair the stove and provide the first heat in the house since October, when the stove became unusable.

Mrs. Payne was treated at the County Hospital for burns sustained when she rescued several of the youngsters. Three children were admitted for treatment of frostbite.

Mrs. Payne's husband died last February.

Chimp Trainer Saved by Mate of Crazy Ape

DENVER, Colo. (AP)—An angry 87-pound male chimpanzee broke open the gate of his cage at the Denver Zoo Thursday and headed for a group of spectators including women and children.

Trainer Clyde L. Smith, 51, wrestled with the ape and was bitten severely on the arm.

Then Christie, 5-year-old female cage-mate of the male chimp, rushed out the gate and leaped onto the other ape.

STARTED CHEWING

"She started chewing on his back end, and he had to turn away from me to get at her," said Smith.

Confused, the male chimp fled to a storage shed. An attendant killed him with a shotgun blast. Smith said Christie probably wouldn't have helped anybody else.

He and his wife raised her in their home for three years before giving her to the zoo.

FBI Tells of Red Scheme to Exploit 'Leftward Drift'

WASHINGTON (UPI) — An American Communist party plot to exploit what is described as a "drift toward the left" among the nation's youth was uncovered by the FBI in 1963.

FBI Director J. Edgar Hoover told of the Red youth scheme in his year-end report to Atty. Gen. Robert F. Kennedy, released yesterday. He also noted the FBI's investigation of the assassination of President Kennedy and of the murder of civil rights leader Medgar Evers in Mississippi.

Hoover said that last October delegates of the Communist party U.S.A. met in Chicago "to lay the groundwork for a new national youth organization aimed at exploitation of what the party describes as a drift toward the left among young people."

He said the party's general secretary, Gus Hall, stipulated that the youth movement "should avoid the appearance of a Soviet-style organization. However, it should not tolerate anti-Soviet or anti-Communist party thinking."

FULL RESOURCES

Hoover said that following the assassination of President Kennedy at Dallas Nov. 22 "the full resources of the FBI were marshalled, and an intensive investigation was launched concerning all phases of the assassination itself and the subsequent shooting of Lee Harvey Oswald."

"A detailed special report on these matters was prepared and furnished to the attorney general for trans-

mittal to the President's Commission investigating the assassination," he said.

He singled out for special mention the arrest of Byron De La Beckwith on civil rights charges arising from the ambush slaying of Evers, the Mississippi field secretary for the National Association for the Advancement of Colored People (NAACP).

Beckwith, who was turned over to Mississippi authorities, is awaiting trial for murder.

CONTINUED DANGER

While stressing the continued danger from domestic Communists, Hoover also detailed FBI action in breaking up foreign-directed spy rings.

He listed the arrest of a New Jersey engineer accused of passing defense contract information to Soviet members of the United Nations mission. Four persons were arrested in New York and Washington on Russian spy charges and a Soviet Embassy official was charged with attempting to recruit a Russian defector for spy work.

While the FBI arrested 12,000 persons — 310 more than in 1962 — Hoover was disturbed over a 20 per cent annual increase in bank thefts.

FBI officials attributed the increase and difficulties in apprehensions to the growth of suburban bank branches and the lack of a criminal record for "one shot" offenders.

NO MONEY PROBLEM

As far as money is concerned, the FBI hasn't had any difficulty. "Fines, savings and recoveries increased to more

than \$210 million," Hoover said, "a figure far exceeding the amount of funds spent to operate the FBI during 1963."

Part of the money recovered included more than \$237,000 allegedly used by Frank Sinatra to pay the ransom demanded for his 19-year-old son. Three men accused in the kidnaping were also caught by the FBI and indicted yesterday by a grand jury in Los Angeles.

Hoover praised the unsung FBI disaster squad charged with the grim duty of identifying bodies. It was on the job when planes crashed in Maryland, Florida and Missouri; when a hotel burned in Atlantic City, N.J., when a train hit a bus in Chualar, Calif., and when a mine explosion caused disaster in Moab, Utah.

But, the FBI director said that the year's war against crime is not a one-agency job. "Never in the history of the nation has the need for cooperation among law enforcement agencies been greater than now," Hoover said.

Old Railroad Clock Given to Kansas Town

ARKANSAS CITY, Kan. (AP) — The Chamber of Commerce was presented a wall clock Thursday.

C. R. Rose, superintendent of the Santa Fe Railroad's Oklahoma Division, said "we'll replace it if it doesn't run another 75 years or so."

The clock, built in 1884, has been an official Santa Fe-timepiece since 1888.

At Escanaba

Air Route Halting Okayed

WASHINGTON (AP) — The Civil Aeronautics board authorized North Central Airlines Thursday to suspend service temporarily at Escanaba, Mich., on its Route 14 from Traverse City.

The board also made clear the airline's right to suspend direct service between Port Huron and Saginaw, Mich., by ruling that North Central did not require authority from the CAB.

The airline "will continue to provide service between Port Huron and Saginaw-Bay City-Midland via connections at Detroit," the CAB said.

DISMISSED PART

Accordingly, the board dismissed that part of North Central's application seeking authority to suspend service between Port Huron and Saginaw.

With regard to Escanaba, the CAB noted that the city has failed to meet CAB minimum

standards for generating traffic on Route 14. North Central serves Escanaba on two other routes, both of which extend north and south rather than east and west.

The CAB said suspension of service on Route 14 at Escanaba would cut North Central's annual subsidy need by about \$49,000.

North Central said that with the new suspension authority it would:

1. Eliminate flights 394 and 395 which now operate between Escanaba and Detroit by way of Traverse City, Saginaw and Port Huron.

EXTENDED FLIGHTS

2. Extend flights 933 and 934, which now operate between Detroit and Saginaw by way of Flint, to Traverse City.
3. Operate an additional flight in each direction between Detroit and Port Huron.

clean as electric light!

Electric heat is the cleanest kind of heating you can have—there's no soot to circulate through the air; dust-laden outside air is not drawn into the house. Walls and furnishings stay cleaner longer—so you save on painting and redecorating.

with all these **ADVANTAGES** you'd expect **ELECTRIC HEAT** to cost a lot more than it does!

Only electric heat lets you dial the exact warmth you want in the room you want. Keep it 72° in the baby's room, cooler in yours. There's no need to overheat the whole house to get extra warmth in one room. In rooms not in use, you can turn the heat down and thus lower heating costs.

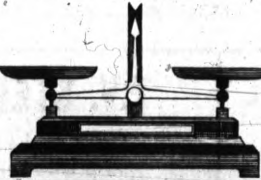

MODERATE INSTALLATION COST

In general, the original cost of an electric heating system is no more than—may even be less than—that of any other type of quality equipment. Actual installed cost will vary according to type of heating unit, home size, construction and location.

SAVES SPACE!

With electric heat you get full use of all floor space—there's none taken up for fuel storage, chimney.

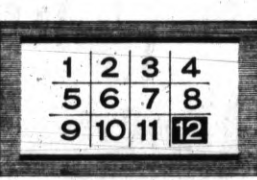

even heat!

With electric heat, there are no cold spots or drafts; no blasts of hot air. Room temperatures need never vary more than a degree or so. Electric heat doesn't rob inside air of moisture, either.

100% EFFICIENT!

WITH ELECTRIC HEAT, ALL THE HEAT GENERATED IS USABLE HEAT WHEN AND WHERE YOU WANT IT—NONE GOES UP A FLUE.

EASY ON THE BUDGET

With the Edison Equalized Billing Plan, your cost of operation can be spread over eleven months with an adjustment period in the twelfth month.

Set the thermostats, then forget them. Most electric heating systems have no moving parts. Little to wear out, nothing to rust out, no burners to replace.

Quick!

Turn a dial and the heat's on when you want it, where you want it. No waiting for the heat to build up somewhere else in your home before you feel its welcome warmth. No heat (or money) is wasted in other rooms.

lowest upkeep!

CHOOSE FROM FIVE KINDS OF ELECTRIC HEATING UNITS:

Your choice will depend on whether you're building, remodeling or simply adding on or finishing off an extra room. Built-in electric heating systems may be baseboard units; forced air or radiant units set in walls; radiant cable embedded in floors or ceilings; electric furnaces that heat by forced air or hot water; an electric heat pump for one room or the entire home. A heat pump heats in winter and cools in summer.

how much will it cost to heat your home electrically?

An Edison Heating Specialist or your Electric Heating Contractor will gladly come out and estimate the cost to install and operate electric heat in your new home, your present home, an add-on or hard-to-heat room. It may surprise you how easily you can enjoy all the comfort and convenience of electric heat.

Fragile Looking Furniture Has Tough Coat

There are few brand name finishes identifiable to the consumer. But there are numerous unseen qualities of the finish your furniture salesman should tell you about.

As you touch the surface of a table top, for instance, the

coating seems so thin you can almost feel the grain of the wood. If you look across the top, into the light, you can often see the wood texture.

The finish is indeed several layers of fine film sprayed on

in mist form and created to penetrate the wood.

This is quite different from previous types of furniture finishes which gave the impression of seeing the wood through a layer of glass. Former finishes had thickness above the wood.

For all their inconspicuous quality, furniture finishes today offer many kinds of protection never before available. And besides they ask only to be washed clean with

a mild soapy, damp cloth to keep them looking new.

Chemists and researchers have developed furniture finishes derived from vinyls, polyesters, epoxies and polyurethanes, called synthetic resins.

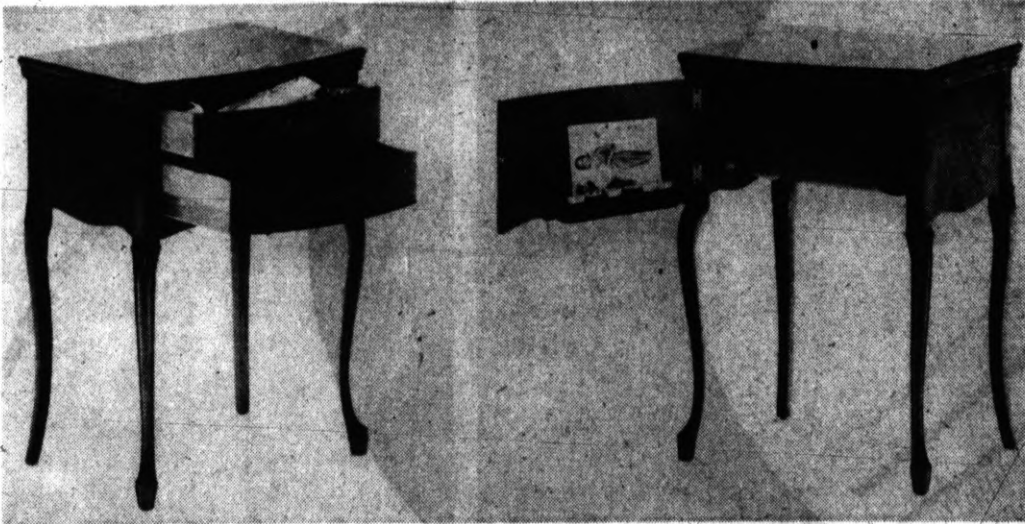

These are like sentries guarding the surfaces of furniture in comparison to the original natural resin varnishes and shellacs.

A panel of walnut veneer sprayed with a vinyl base coating, prepared by the Sherwin-Williams Company, showed resistance to sixteen common household substances.

Cold water, alcohol, caustic soda solution, orange juice, tomato juice, naphtha, trisodium, Pine-sol disinfectant and detergent were each "globbed" on a section and allowed to stand for 18 hours.

Nail polish, mustard, ink, butter, lipstick, crayon and merthiolate were allowed to stand for two hours on other sections of the panel.

When the test period was complete, the panel was washed clean with a neutral soap and a little water. All sections came clean with no defects, except the nail polish which was cleaned off with an ordinary remover.

A brand new concept in dual purpose furniture is this set of twin end tables. At the left is a standard commode with two spacious drawers; at the right a sewing machine cabinet with a

matching drawer front, swing-out door. Comes in French walnut or antiqued white. Cottonsmith Furniture Mfg. Company.

For one end of the living room or in a hallway, this arrangement adds distinction to a small wall area. The dry sink adapted from an Early American utility piece by Sprague & Carleton, faithfully reproduces the design details of the period in maple. The large key is a reproduction from a tradesman's old shop sign.

Farm Delegate to Venezuela to Give Talk

David Jonckheere of Fowlerville, an International Farm Youth Exchange delegate to Venezuela, will be the keynote speaker at the Lake Angelus Garden Club meeting.

The Woman's National Farm and Garden Club Association sponsors the IFYE program and the national 4-H Foundation coordinates the scholarship program through its office at Michigan State University.

Mrs. Ray Hayes will open her Lake Angelus Shores Road home for the Tuesday 10 a.m. coffee hour.

Abby Switches Stand

Clergy Can Use Money

DEAR ABBY: I read a letter in your column from a married couple who had been counseled during some marital difficulties by their clergyman.

They said there was no mention of a fee, so they didn't know whether to wait for a bill or to send him a check to show their appreciation for his help.

ABBY

You replied, "Since no fee was mentioned there probably was none. Send a check to the church for their building fund or missionary work. Churches can always use money."

Well, what about clergymen? They can use money, too, and most of them need it desperately.

It was like telling people if they want to show their appreciation for the fine service they had at a hotel to send a "tip" to Conrad Hilton. Please reverse yourself.

A CLERGYMAN'S WIFE
DEAR WIFE: Now that you

put it that way, I think you're right. I am hereby reversing myself.

DEAR ABBY: When I was 17 I married a man 37. We had a son, and stayed married for six years.

After we were divorced I met a man my age and we were married. My ex-husband and I remained friendly because of our son. My ex-husband got sick and asked if he could come to live with us until he got better.

My husband said yes. I took care of him. Well, it has been eight years and he's still here. He is now 77 and drinks seven nights a week. He gets a pension and also some income from property.

My husband drinks with him and won't work any more. Now I have two drinking men in the house, nobody works, and we all live off my ex-husband. Can this problem be solved?

WEST VIRGINIAN

DEAR WEST VIRGINIAN: Yes. And it's your move. Move your ex-husband out, and give your husband a chance to be a man.

And if they're both too blind to find ALCOHOLICS ANONYMOUS in the telephone book, it's the first listing under "AA."

Sorority Meets

Mrs. Eugene Carey of Navajo Drive opened her home for the Thursday meeting of Zeta chapter of Alpha Delta Kappa sorority.

Mrs. Mary Wagner served as cohostess to the group which will hold a pledging ceremony in February.

Town Hall to Present Critic's 'Play by Play'

Joe Callaway, drama critic, actor and director of stage, screen and TV, will present "Broadway Play by Play" at the Jan. 9 and 10 performance of Birmingham Town Hall.

For 15 years Mr. Callaway has been one of the nation's most popular interpreters of the American and European theater scene. He will bring an actor's perception to his reviews of current Broadway plays.

Mr. Callaway will be introduced on Thursday by Dean Coffin of St. Dunstan's Guild. Jervis McMechan, also an ac-

tive member of St. Dunstan's, will make the introduction at the Friday performance.

Following the lecture on both days will be a celebrity luncheon at the Birmingham Country Club.

GUESTS

Guests at the speaker's table Thursday will be Mrs. O. F. Pearson, president of Town Hall, Mrs. Sidney Huff, hostess for the day, Mr. and Mrs. Coffin, and Mr. and Mrs. George Fox.

Friday the guests will include Mr. and Mrs. McMechan, and Lee Tuttle. Miss Tuttle is a former student of Mr. Callaway.

MIRACLE MILE SHOPPING CENTER
TELEGRAPH AT SQUARE LAKE RD.

The Samuel A. Kilbys of Hazel Bend Avenue announce the engagement of their daughter Bobbie Marie to Robert Lee Koop, son of Mr. and Mrs. Winfield Koop of Van Campen Street. An April 11 wedding date is set.

Navy Mothers Erect Tower in New England

A donation was voted for the erection of the first memorial for women at the Thursday evening meeting of the Pontiac Navy Mothers club.

To be known as the Bell Tower, it is located at the Cathedral of the Pines in Rindge, N.H. and is scheduled for completion in May.

Mrs. Ike Thurman reported on the project for veterans at a local hospital while welfare chairman Mrs. Vinton Ball reported on gifts to servicemen for Christmas.

The Marshall Navy Mothers will entertain all clubs in Michigan at a spring meeting in May.

Mrs. Ball will have the social meeting at her Virginia Avenue home Jan. 22.

Plan Smorgasbord

A smorgasbord dinner will be held by the Reorganized Church of Jesus Christ of Latter Day Saints next Friday in the CAI Building.

Dinner will be served from 5 to 7 p.m. Tickets will be available at the door.

Why Grow Old?
By JOSEPHINE LOWMAN

Q. "I am 12 years old and have very dark, long, thick hair, on my legs. The hair is almost black. I am not allowed to shave the hair on my legs or buy something to take the hair off my legs.

"Josephine, the girls make fun of me and I have told my mother and she said, 'Forget it' I can't forget it. It looks terrible whenever I wear nylons.

"I was going to shave it off without my mother or dad knowing it, but, of course, I couldn't. I have talked it over with her many times and she says it will just grow back faster and longer and darker. Please help me because the girls make fun of me."

A. I hope your mother will read this and may perhaps be influenced by what I say. The idea that shaving the legs will make the hair grow in faster, darker and thicker is as old-fashioned as a mustache cup. It won't.

Even if it did that would be preferable to the possible damage done to your personality and self-confidence. Few grown-ups can "forget it" if they are made to feel different from those in their group.

ADULTS SELF-CONSCIOUS

To the contrary, many grown-ups are extremely self-conscious about any defect in their appearance.

It is very rude of your friends to make fun of you but I think it is asking a lot of you to expect you not to mind it.

Note to mothers: Young girls of this age are so very conscious of the way they look and they suffer when they must be different. It is important for them "to belong." They are terribly sensitive so far as criticism by their associates.

It is certainly vital for them to learn to stick by their own standards and not follow the gang when it is wrong. However, it seems a pity to cause a young girl unhappiness, to undermine her confidence in her attractiveness rather than build it when what she wants to do is absolutely harmless.

As you can tell from there I

feel very strongly about this. I receive so many letters like the one quoted above. I am sure that mothers who act in this manner do so because they are not informed about superfluous hair.

Surprise Package

Mr. and Mrs. Floyd Q. Hicks of Lakewood Drive (Carol Opland) are receiving congratulations on the birth of twin sons Dec. 26.

The boys are Daniel Alan and David Arthur. They were born at Pontiac General Hospital.

To Discuss Book

St. Augustine's "Confessions" will be discussed by the Waterford Great Books club at 8 p.m. Friday in the CAI building.

Kay Rector will lead the program, assisted by K. B. Valentine and Mrs. Hazel Moore.

An August wedding is planned by Sheran Lou Tioran, daughter of the Louis Tiorans of Coughlan Drive and Paul A. Nye, son of Mrs. Genevieve Nye of Rochester and Harry E. Nye of Oakdale Avenue.

Cut glass and bottle washing time in half by using a nylon sponge attached to a wooden handle.

Six Rhodes Scholarships have been awarded to graduates of Air Force Academy.

Reminiscent of old French lace cabinets, this beautiful white and gold narrow chest could be used beside a bed. It provides ample storage for a variety of your personal things. The piece is enhanced by delicate, decorative hardware. Edinburg Industries, Inc.

Fragile Looking Furniture Has Tough Coat

There are few brand name finishes identifiable to the consumer. But there are numerous unseen qualities of the finish your furniture salesman should tell you about.

As you touch the surface of a table top, for instance, the

coating seems so thin you can almost feel the grain of the wood. If you look across the top, into the light, you can often see the wood texture.

The finish is indeed several layers of fine film sprayed on

in mist form and created to penetrate the wood.

This is quite different from previous types of furniture finishes which gave the impression of seeing the wood through a layer of glass. Former finishes had thickness above the wood.

For all their inconspicuous quality, furniture finishes today offer many kinds of protection never before available. And besides they ask only to be washed clean with

a mild soapy, damp cloth to keep them looking new.

Chemists and researchers have developed furniture finishes derived from vinyls, polyesters, epoxies and polyurethanes, called synthetic resins.

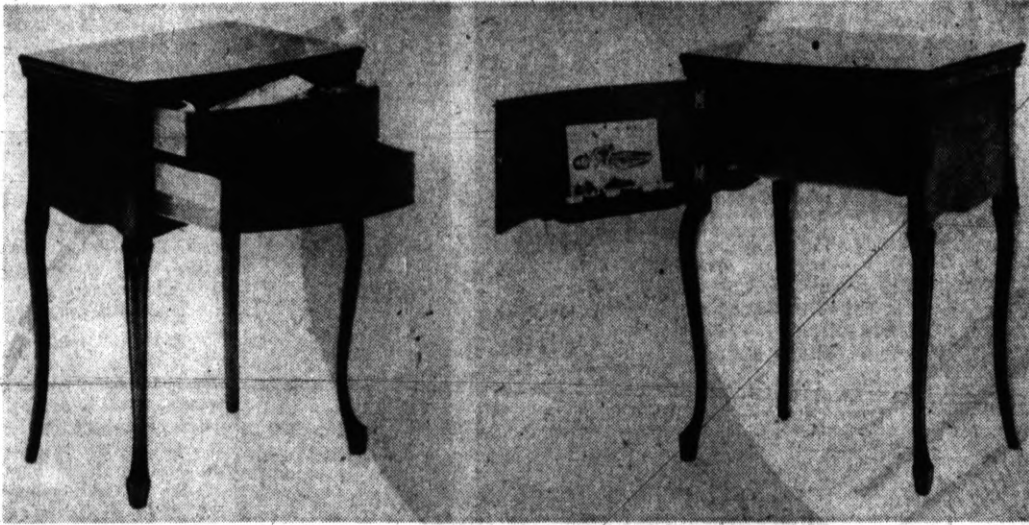

These are like sentinels guarding the surfaces of furniture in comparison to the original natural resin varnishes and shellacs.

A panel of walnut veneer sprayed with a vinyl base coating, prepared by the Sherwin-Williams Company, showed resistance to sixteen common household substances.

Cold water, alcohol, caustic soda solution, orange juice, tomato juice, napha, trisodium, Pine-sol disinfectant and detergent were each "globbed" on a section and allowed to stand for 18 hours.

Nail polish, mustard, ink, butter, lipstick, crayon and merthiolate were allowed to stand for two hours on other sections of the panel.

When the test period was complete, the panel was washed clean with a neutral soap and a little water. All sections came clean with no defects, except the nail polish which was cleaned off with an ordinary remover.

A brand new concept in dual purpose furniture is this set of twin end tables. At the left is a standard commode with two spacious drawers; at the right a sewing machine cabinet with a

Hamburger Casserole
Welcome Plain Fare

By JANET ODELL

Pontiac Press Food Editor
After all the rich food of the holiday season, most of us welcome plain fare for a change. The ever popular and versatile ground beef can be a life-saver.

Mrs. Hollis Stephenson makes a hamburger casserole that's popular with her family. She loves to cook and bake at any time.

HAMBURGER
CASSEROLE

By Mrs. Hollis Stephenson
1 pound ground beef
Sliced potatoes

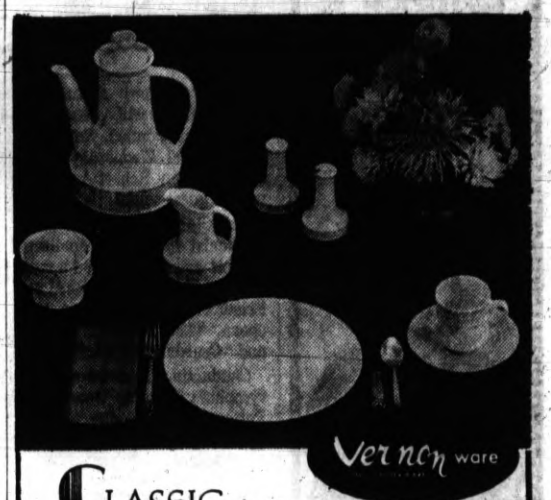

Sliced carrots
Sliced onions
Pastry for one crust

Break meat into chunks and place in casserole with sliced vegetables. Dot with butter or margarine (Mrs. Stephenson sometimes saves drippings from steak to use in this casserole).

Pour ¼ cup water into casserole. Top with pie crust. Make slits in top of pastry.

Bake 15 minutes at 400 degrees. Reduce heat to 350 degrees and bake an additional 30 minutes. Makes 4-6 servings.

Six Rhodes Scholarships have been awarded to graduates of Air Force Academy.

Waterford Civic Band to Present Concert

The Waterford Symphony (Civic) Band will present a concert at Pontiac Northern High School Wednesday evening at 8 p.m. Robert A. Clark will be guest soloist.

Mr. Clark, well known percussionist in the metropolitan Detroit area, will perform "Dance of the Comedians," by Friedrich Smetana, from the opera, "The Bartered Bride" and "Czardas," by Monti.

Conducting the band will be symphony director George S. Fetter, who is director of bands at Waterford Kettering High School.

The Waterford Symphony Band (originally named the Waterford Civic Band) is a

nonprofit organization sponsored by the Waterford Township Recreation Department.

The band members consist of business men, housewives, teachers and students from the Waterford Township and Pontiac areas.

THREE YEARS OLD

The band was organized in 1960. Gene Preston and Earl Somerville have served as past directors.

Featured soloist Mr. Clark received his master's degree in music from Wayne State University.

Mr. Clark has appeared with the Belle Isle Concert Band for 15 years and has appeared as soloist with the Phi Mu Alpha Fraternity Band. He has also performed with the Michigan Opera Company, the Toledo Symphony, and the Bolshio Ballet.

Mr. Clark is currently the director of bands at Bentley High School in Livonia.

PROGRAM

The program will include "Marcho Poco Concert March," by Donald I. Moore; "Two Chorale Preludes," by William P. Latham; "Symphony for Band," by Vincent Persichetti; and "Beguine for Band" by Glenn Osser.

Following the intermission the band will perform "Marchmanship," by Howard Cable; "Cumberland Gap," by Joseph Wilcox Jenkins and "West Side Story" by Leonard Bernstein.

Textured Threads

Textured nylon sewing thread is especially helpful for home seamstresses who are using fabrics of man-made fiber. The thread is resistant to abrasion and it's easier to handle than some of the first nylon thread.

August vows are planned by Olga Susan Salas, daughter of Mr. and Mrs. Arturo Salas of Third Avenue and Thomas James Mortimer, son of the Keith Mortimers of Melrose Street.

SPADEA DESIGNER PATTERN

Michael Paul

Did a loving and lovable Santa Claus put a sparkler on your finger and a sparkle in your eye a few days ago? If he did, undoubtedly you've already started dreaming about what will be the most beautiful day in your life.

Well, stop dreaming and start sewing, for Michael Paul has designed the gown to make dreams come true. The three separate patterns are planned so that your whole wedding party can be formal and traditional in the grand style, or informal and modern.

Whichever way you choose to take the vows, you can be sure the event will be memorable in every way. For grand entrances you'll want the full treatment: Bell shaped skirt, with pleated panel, double tiered collar that's attached to a sweeping train; for a more tailored personality, consider the simpler version, with the contrast of the collar for your attendants.

However, whatever the setting, you'll need the very important foundation undershirt for each and every one of you to do complete justice to the

picture. Your fabric selection will depend entirely on what date you and Mr. Right have set but whether it's organdy time or satin time, this is the dress. To select your correct size use Spadea's exclusive ready-to-wear size chart.

Sizes	Bust	Waist	Hips	Length
4	32	22	33	16 1/2"
6	34	23	34	16 1/2"
8	36	24	35	16 1/2"
10	38	25	36	16 1/2"
12	40	26	37	16 1/2"
14	42	28	39	17 1/2"
16	44	30	41	17 1/2"
18	46	32	43	17 1/2"

Size 12 requires 5 1/4 yards of 42" fabric for the full length gown (No. NS-304); 4 yards of 42" fabric for the collared train (No. NS-305); 4 1/4 yards of 35" non-woven interfacing for the skirt foundation (No. NS-306).

Patterns can be purchased separately — No. NS-304 for \$2.00, No. NS-305 for \$1.00, No. NS-306 for \$1.00 — or as a unit in the special combination offer of all 3 patterns for \$3.00. State size for each pattern ordered. Add 25c for first class mail and special handling. Address SPADEA, Box 535, G.P.O., Dept. P-6, New York 1, N.Y.

Now You Can Rent Party Equipment

By MARY FEELEY
Consultant in
Money Management

Every time I hear somebody say that all it takes to give a good party is "good food and congenial people," I wonder if that blithe soul ever actually gave one.

How about plates and cups, knives and forks, tablecloths and napkins, cocktail glasses, chairs, oversize coffee urn — not to mention coat hangers and ash trays?

Most of us can manage the MARY food and the FEELEY guests without any help. It's the props that pose the problem.

all those things we don't need the day before the party and can't use the day after.

However, if it's your turn to give a real bang-up party, take heart. Remember that we have entered the era of the Instant Hostess. She doesn't have to accumulate party equipment over the years — or even chase around trying to borrow it.

She just rents it. And thanks her lucky stars that all those nice things are here today and gone tomorrow — because she couldn't possibly find room to house them permanently even if they were really hers.

While I think that the philosophy of why-buy-it-when-you-can-rent-it should be approached with caution, surely there are times when renting household accessories makes good sound sense.

Party time is one of them. No matter how congenial the guests or how good the food, as hostess you're responsible for providing the atmosphere.

Like everything else, prices for "renting a party" can vary from what you'd like to have to what you can afford. Maybe a pair of silver candelabra at a \$4 rental or a portable bar for about \$8 would be enough to establish the mood.

Or maybe, like a hostess we know, you want to shoot the works and have a sit-down champagne supper for twelve. She reported that she rented all the props for less than \$25 — bridge tables, gold metal chairs, pink damask cloths and napkins, candle holders, wine cooler, champagne glasses, 30-cup coffee urn, flat silver, china, even a coat rack.

She was tempted, she said, to rent a dance floor, too, to cover the wall-to-wall carpet-

ing, but decided not to strain the budget.

Since her dining table seated only six in comfort, she set up three bridge tables in the living room and everything looked very gay.

She figured that this arrangement cost little more than if she had given a dinner for six on two separate occasions. Anyway, the spurge in hospitality set her up for quite a while.

If you plan your party with care, and are willing to forego such show pieces as, say, an electric punch fountain or an 8-foot bambo bar, you can stay within a reasonable rental. And what you do spend on this one big evening can be balanced with economies in the future.

Dear Miss Feeley: We are in the process of accumulating a savings account of \$1500, the equal of three months income. When we have accomplished this, we are wondering if it would be better to put our savings into a good common stock which we can do by having the money withheld from my husband's salary since he is a company employee.

Or if it would be better to make extra payments on our mortgage. We have a balance due on the mortgage of \$12,633.92. This is a 30-year loan at 5 1/2 per cent interest. We have made payments for four years.

My feeling was that it would be better to get the mortgage balance down, but a friend thought this would have an adverse effect on our income tax picture. We have no children and I am also employed. Could you advise us? We read your column faithfully. M. S., Cincinnati, Ohio.

Dear M. S.: I suggest that you take advantage of the stock opportunity. The extra payments wouldn't have a substantial affect on your mortgage

picture, nor on your income tax either, for that matter.

(You can write Mary Feeley in care of The Pontiac Press. She answers questions of widest interest in her column.)

Frail Female Fierce in Shopping Frenzy

By JEANMARIE ELKINS
Today the last of the Christmas gift exchanges must be made. Tomorrow Pontiac area merchants will begin the enormous task of cleaning up the shambles left in their stores in the wake of women Christmas shoppers.

Viewed individually, women are fairly nice people. They are charming, courteous, generous and lovable.

But viewed in droves during December, they can be pretty dreadful.

Christmas shopping seems to turn them into pushing, shoving, destructive animals. And it is

the poor, unfortunate salesgirl who suffers the brunt of the attack.

Next time you are shopping, look for this list of characters.

They are in evidence throughout the year, but at Christmas time they seem to multiply rapidly, giving merchants ever-growing headaches.

FRANTIC FREIDA—who is in

a rush, has only a few minutes, and doesn't care how many people have to wait as long as she is taken care of first.

CARELESS CONNIE—who completely mutilates those neat piles of sweaters or slips and, nine times out of ten, doesn't buy a thing.

SMOKING SALLY—who wanders aimlessly through blouses, expensive gowns and sweaters, leaving a trail of worthless merchandise, scarred with cigarette burns.

BEJEWELED BETTY—who with her rings and dangling bracelets, who runs or snags everything she can lay her hands on.

HAUGHTY HARRIET—who says in, what she hopes is a cultured voice, "But my dear, I ALWAYS take a size 16 in BETTER clothes." You, yourself take that size and know she can no more get into it than she can a 12.

DAWDLING DAISY—who takes up half an hour of the clerk's time when she has no intention of buying. Such women use 'shopping' as a means of killing time.

WANDERING WANDA—who simply CAN'T make up her mind, and wanders in and out of the fitting rooms with a variety of articles, making it almost impossible for the saleslady to keep track of what she has with her.

INCONSIDERATE INEZ—who complains about the prices, lack of choice and a dozen other things over which the salesgirl has no control.

At home or among friends, most of these women characters probably have pleasant personalities. But when they are unknown members of a crowd, something happens to them. An whatever it is, it isn't pretty. Have YOU ever been guilty of any of these offensive acts?

Five memories will hold this picture representing as many generations. It will mean more to Mrs. Annie Dair, 75, of Norwich, Ont., seated at the far right. She is mother of three children, grandmother to one, and boaster of eight great-grandchildren, and three great-great-grandchildren. With her in the chair are her daughter Mrs. Richard Rohrer of Rosewood Place and Stevens Michael Hortick. Standing behind them are (left) Mrs. Richard Saddler of South Anderson Street, and Stevens' mother, Mrs. Gerald Hortick of Maines Avenue.

Kindness for Others Must Reign

By The Emily Post Institute

Q: I live in an apartment and entertain quite frequently in the evening. The walls between each apartment are very thin, and the sound of talking and laughing carries, especially when the hour is late and everything quiet.

Before my neighbors start to complain, will you please tell me if it would be proper to ask my guests to please be more quiet, or might this be considered rude on my part?

A: Out of consideration for your neighbors, you not only may, but should, ask your guests to please try to be a little more quiet, explaining that the walls are very thin and transmit every sound.

Q: Will you please tell me if it is proper for a friend to give another friend a gift certificate for a birthday present, or should one buy a specific item?

I think a gift certificate is much more practical as it enables the receiver to buy whatever she likes with it and makes more sense than giving something that will perhaps be useless to her.

My girl friend says that while a gift certificate may be practical it denotes an "I didn't want to be bothered to shop for a present" attitude and is therefore improper. What is your opinion on this?

A: A gift especially chosen is far more thoughtful and in much better taste than an impersonal gift certificate.

The Emily Post Institute cannot answer personal mail, but all questions of general interest are answered in this column.

Polly's Pointers

Take a Bow, Genius

By POLLY CRAMER

DEAR POLLY—I use so many pointers from the column that my husband is beginning to think he married a genius.

I forgot to buy a new supply of disposable vacuum cleaner bags sometime ago. I slit the end of a bag, emptied it, folded the end over twice and resealed the bag with transparent tape.

This way the same bag can be used over and over until it falls apart from old age.—MRS. M. S.

FAST CREASE

DEAR POLLY—My 8-year-old Cub Scout presses his own uniform. He runs an ice cube down the crease and there is a slick and almost permanent crease when the iron is applied. No fuss and no mess.—MRS. W. R. G.

DEAR POLLY—A friend of mine who quilts quite a bit could never remember the birthdays of her many grandchildren so she made a square with each one's name and birthday embroidered on it.

After 19 grandchildren, she completed her quilt and is now starting on one with her great-grandchildren's names and birth

dates—A CONSTANT READER

DEAR POLLY—Sew a small plastic curtain ring to the top of your mixer cover. Screw a cup hook to the underside of a wall cabinet and hang the cover on this hook while using the mixer. This keeps it clean and out of the way, too.

Also keep a whisk broom on a hook under your ironing board to have handy when ironing flimsy clothes.—MRS. W. B. P.

DEAR POLLY—Coffee cans with plastic tops are nice for storing cookies and other foods but I have a better use for them. Remove the plastic top, wrap colored foil around the can and fasten with transparent tape.

Bend the foil under the bottom of the can and inside the top. Then secure with the top. You have an ideal hat rack as the plastic cover keeps the hat in shape. Veils do not get crushed like they do in a hat box.

I like to cover the can with florist foil as it molds around the can so easily.—MRS. D. A.

HURON at TELEGRAPH

Shriver Strength Surprising in Dem Vice Presidential Poll

JOHNSON CITY, Tex. (AP)—Sen. Hubert H. Humphrey topped the balloting, but results of a national poll of Democratic county chairmen heightened speculation that President Johnson's running mate may be someone closely identified with the late John F. Kennedy.

More specifically, several Johnson aides suggested today that the results added up to a plus for the potential candidacy of Sargent Shriver, Peace Corps director and brother-in-law of the assassinated President.

The poll, conducted by The Associated Press, turned up notable support for both Shriver and Atty. Gen. Robert F. Kennedy as among the party's best choices for the November vice presidential nomination.

Humphrey, a Minnesotan who is assistant Senate Democratic leader, paced the balloting with 185 votes.

GRATIFYING

He said "I am honored and flattered by the national poll. It is always gratifying to have friendly consideration by your fellow Americans. The decision for vice president, however, will be made by the Democratic convention, which I am confident will respect the wishes in this matter of President Johnson."

Robert Kennedy, a close sec-

ond with 166 votes, declined comment on the poll.

Shriver ranked fifth with 43 votes, trailing Ambassador Adlai E. Stevenson and Mayor Robert F. Wagner of New York—both regarded as dark horse possibilities.

Some politically oriented Johnson associates said they were struck by the combined strength of Robert Kennedy and Shriver, as well as the scattering of votes for Sen. Edward M. Kennedy of Massachusetts, youngest brother of the late President, and for Mrs. John F. Kennedy.

KENNEDY IMAGE

They suggested the attachment of party leaders to the Kennedy image was most likely to benefit Shriver, who is on much closer personal terms with Johnson than the attorney general.

Some of those close to Johnson report that Shriver already is regarded by the President as the running mate he would find most acceptable under present circumstances.

Robert Kennedy's strength in the poll was viewed by one presidential aide as readily transferable to Shriver.

The attorney general's No. 2 ranking in the poll also was interpreted by some as tending to

dispel any idea that Robert Kennedy is unpopular with local party leaders.

HALF DECLINED

About half the county chairmen and other Democratic leaders who were questioned by Associated Press correspondents declined to list a vice presidential preference.

The poll was conducted during the last three weeks of December.

The 10 potential candidates receiving the most votes were: Humphrey, 185; Kennedy, 166; Stevenson, 75; Wagner, 47; Shriver, 43; Gov. Edmund G. Brown of California, 37; Sen. Eugene J. McCarthy of Minnesota, 28; Sen. Abraham A. Ribicoff of Connecticut, 24; Undersecretary of Commerce Franklin D. Roosevelt Jr., 21; and Sen. Stuart Symington of Missouri, 14.

Others who received some support included Secretary of State Dean Rusk, Sen. Frank L. Lausche of Ohio, Sen. Henry M. Jackson of Washington and Undersecretary of State W. Averell Harriman.

Controversy Leaves Mackinac Island Almost Isolated

MACKINAC ISLAND (AP) — This summer tourist community — noted for its ban on motor vehicles — now doesn't have any lake or air transportation, and is beginning to feel the pinch.

Air service to and from the island's lone airstrip to the mainland was curtailed Dec. 10 by the Michigan Park Commission. The last regularly scheduled boat left the island early Tuesday morning. The island is ice-bound all winter.

Except for telephone and telegraph service, Mackinac Island's 640 residents virtually have been isolated ever since.

The island is located in the Mackinac Straits at the head of Lake Huron between the state's upper and lower peninsulas. Permanent residents live in the

City of Mackinac Island. The rest of the land is a state park. The closest mainland city is St. Ignace, an Upper Peninsula community about five miles due west.

HAVING TROUBLE

"We are having our troubles," said Mackinaw Mayor Ray W. Smith. "But we're not in dire straits yet."

Smith said the island's U.S. Coast Guard station, helicopters from nearby Kincheloe Air Force Base at Sault Ste. Marie, and Moral Re-Armament—which owns an island-based barge—have agreed to provide emergency transportation.

"But mail delivery or food isn't classed as an emergency," Smith said.

Francis Doud, who operates the island's only grocery store, says he has enough staples to last out the winter, but added "bread, milk and fresh vegetables will be gone in seven days."

CAN'T GET BACK

Smith said some teachers have been unable to get back to the island's school system after mainland holidays. The school lunch program for 136 children is in doubt, Smith said, because federal surplus food cannot be shipped in.

The island faced the first problem Thursday when Mrs. Ellen Dufina, 88, the mother of island Postmaster Emerson Dufina, died. The Coast Guard was not empowered to transport the body, Smith said, so MRA vol-

Area-State News

unteered its barge to bring a casket and mortician from St. Ignace. The island has a doctor and medical center, Smith said, but "we sometimes need a hospital."

Meanwhile, state officials are involved in a controversy over the airstrip, built 30 years ago as a Works Progress Administration (WPA) project.

Last fall, during hearings for an expansion program, the Michigan Aeronautical Commis-

sion (MAC) announced the airstrip was considered unsafe.

LICENSED SERVICE

Each winter, the State Park Commission has licensed the Al Phillips Flying Service to operate commercial aircraft service to and from the island. Chairman Walter Murray said the MAC waived restrictions in previous years.

To clarify the park commission's authority, Murray asked Atty. Gen. Frank Kelley for a ruling. Last Dec. 10, Kelley said the airstrip could continue oper-

ating as it had. But he ruled against expanding the airstrip into a commercial airport which would use state land.

To Murray, an attorney, this meant "we could operate the airstrip, but couldn't own, maintain or acquire it." Murray said the park commission felt the ruling was "inconsistent" and asked for another.

Then the park commission ordered the airport closed. "We can't operate a death trap," Murray explained. "No one's ever been killed on flights up there, but it could happen tomorrow."

NEW RULING

A spokesman for Kelley said in Lansing Thursday a new ruling is coming "very shortly"

but it will not affect the position stated by Kelley Dec. 10. The original opinion neither suggested nor intimated closing the airstrip, he said.

Murray said the awaited ruling concerns the park commission's authority to operate an air shuttle service, to maintain the airstrip, and commission liability if it goes on without authority.

He said funds for the airstrip expansion are available, including a \$38,000 bond issue approved by island voters, and matching state and federal funds.

State Sen. Tom Schweigert, R-Petoskey, reportedly has asked

Gov. George Romney what he would do about the dilemma.

ROMNEY REPLIED

Romney was said to have replied Thursday that his hands were tied by the law but he had asked the Coast Guard to handle any emergencies.

Schweigert—who thinks the affair is an "intra-park commission squabble"—has offered Murray help to put a bill before the legislature to authorize airport expansion. The legislature reconvenes Jan. 7.

"It looks like we're getting the run around," says Mayor Smith. "I've talked to the attorney general, the park commission and the governor. Maybe there's a good reason for this thing. But it doesn't help us."

In Rochester District

Group to Analyze Schools

ROCHESTER — Under guidance of their new officers, all three subgroups of the Citizens Advisory School Study Committee will meet Tuesday and begin their analysis of the Rochester school system.

Included in the subcommittees is one which will study buildings and sites, headed by

Mrs. D. G. Kemler, 5900 Cobb Creek, Oakland Township.

A. E. Gurley, 2549 Stoddleigh, Avon Township, will lead the curriculum study group. The third committee, which will concentrate on vocational education, will be supervised by chairman Bernard Hill, 575 Sarsfield, Avon Township.

New general chairman of the citizens advisory committee is Frank R. Wolff, 241 Reitman, Avon Township.

AT 7:30 All three subcommittees will meet at 7:30 p.m. The building and site committee will meet in Woodward Elementary School, and the other two groups will

convene at the board of education offices adjacent to Central Junior High School.

Wolff said although the reactivated citizens committee is already fairly organized, any residents desiring to join one of the subcommittees should attend Tuesday's meeting.

Throughout the remainder of the academic year, the building and site group will concentrate on examination of the recent additions, the preferable style of school architecture, population growth and immediate and long-range school needs.

Analyzing the students' courses, the curriculum committee members will aim toward easing the transition from junior to senior high school. As the year progresses, other topics will be studied.

VOCATIONAL TRAINING

The possibility of establishing a vocational training school in the area will be one of the items investigated by the vocational education committee.

Also on their agenda, for this year are study of the various types of vocational training and analysis of the effect of vocational training on dropouts.

In addition to being open to all residents of the school district, the committee welcomes representatives of local civic groups.

Keego Harbor PTA Sets Play Session

KEEGO HARBOR — "The Family That Plays Together Stays Together" is the theme of Tuesday night's meeting of the Roosevelt School PTA.

The recreation session will be held in the school gymnasium from 7 to 8:30 p.m.

All members of school families are invited to attend the program, under the direction of Donald Grothe, father vice president.

Among the activities scheduled are volleyball, checkers, ping pong and shuffleboard.

Pontiac Press Photo

NEW BRIDGE COMING — Work has started on the new \$7,184 bridge on Avon Road near Livernois, Avon Township, which will replace an old facility where the two roads meet. Being built by the A. J. Williams

Construction Co., Southfield, the new Clinton River crossover will be two lanes wide. It is one of nine currently under construction by the Oakland County Road Commission and paid for, in part, by a federal grant.

Five Agricultural Specialists to Head Imlay City Program

IMLAY CITY — Five agriculture specialists will be featured speakers on the annual Muck Day program in the American Legion Building here Jan. 14.

Final arrangements for the all-day event, which begins at 10 a.m., were announced today by R. S. Lincoln, Lapeer County extension director.

One of the speakers will be Willard A. Cutler, extension specialist in agricultural engineering at Michigan State University. He will discuss irrigation and water level control.

Potato varieties for muck soils will be the subject presented by Richard W. Chase, MSU extension specialist in farm crops.

WEED CONTROL

Clark Nicklow, MSU extension specialist in Horticulture, will talk on new varieties and chemical weed control.

Management of muck soils will be the topic discussed by Robert Lucas, MSU extension specialist in soil. He also will

show colored slides of his recent trip to Russia.

Albert Festerling, farm labor supervisor for the Michigan Employment Security Commission at Bay City, will report on the labor situation for 1964.

Although the event is designated as Muck Day, much of

the information presented also will be of interest and value to vegetable growers on mineral soils, Lincoln said.

All growers in the area are invited to attend.

A complimentary noon luncheon will be served by the Imlay City Chamber of Commerce.

State Rights Unit Plans to Meet After Swearing-In

LANSING (AP) — The eight members of the state's new Civil Rights Commission planned to hold their first meeting today immediately after being sworn by Gov. George Romney.

First on the agenda of the nation's first constitutionally-created civil rights agency were organizational matters.

Cochairmen John Feikens and Damon Keith and commission members intended to consider applications for a commission director.

The commission members have backgrounds as attorneys, clergymen and business and labor executives.

Feikens, an attorney, once was president of Detroit's Housing Commission.

Keith and another Detroit, Sidney Shevitz, also are attorneys. Shevitz is president of the Jewish Community Council of Metropolitan Detroit.

Clergy members are the Rev. A. A. Banks of Detroit and the

Rev. Theodore La Marre, of Saginaw.

OTHER MEMBERS

Other members are former Ford Motor Co. Vice President William Gossett, American Motors Corp. Board Chairman Richard Cross and Grand Rapids Regional United Auto Workers director Kenneth Robinson.

ANNETTE K. MINCHELLA

Mr. and Mrs. Raymond Minchella, 47891 Dequindre, Avon Township, announce the engagement of their daughter Annette Kathleen to Wayne L. Mickelson. The prospective bridegroom is the son of Mr. and Mrs. Wayne L. Mickelson Sr., 430 E. Avon, Avon Township. A late summer wedding is planned.

Appeals Court Worries Judge

Claims Costs Could Break Wayne County

DETROIT (AP) — Recorder's Judge W. McKay Skillman says provisions of the new State Constitution setting up a nine-member court of appeals "may well bust Wayne County financially."

The jurist, who began his 40th year on the bench with advent of the New Year, said he had no quarrel with the provisions guaranteeing the right of appeal in every case, but added: "If we (Recorder's Court) are going to have to provide the funds, maybe we will have to do it with a federal grant."

The new constitution, effective last Wednesday, gives all citizens the right of appeal and says that in the case of indigent persons the cost will be borne "by the court of record" (origin).

NOT GUARANTEED

Since 1877 the right of appeal from Recorder's Court was not guaranteed as a right, "but for a good cause shown."

Costs of an indigent's appeal not only includes his attorney's fees, but the cost of printing a transcript of the trial, Skillman said, adding that his court reporter estimates the cost of printing a transcript runs between \$150 and \$200 for each full day of trial.

"This (constitutional change) may or may not be a good thing for Recorder's Court," Skillman said. "When a man is tried and he realizes he can appeal without cost to himself, the new court will be swamped with appeals."

In 1960 Recorder's Court paid out \$232,060 in fees to attorneys in 2,456 cases where defendants could not afford to hire an attorney.

Conditions Good at Kensington

Snow now blankets Kensington Metropolitan Park near Midford providing good conditions for winter sports enthusiasts.

Two to three inches of snow cover the sledding and tobogganing hills which are popular with area residents this time of year. [The site includes convenient parking and a shelter with a fireplace.]

The skating rink on Kent Lake in front of the boat rental building is now in operation. This building is open daily from 10 a.m. to 10 p.m. through Sunday, a special schedule in effect during the school and college vacation period.

Effective Monday, weekday hours of operation will be 2:30 p.m. to 10 p.m. Weekends the building will be open 10 a.m. to 10 p.m.

ICE IS THICK

Ice is now 6 to 8 inches thick at Kent Lake in Kensington Metropolitan Park, where fishermen report good catches of crappies and bluegills. There are 25 fishing shanties on the lake.

For winter sports conditions persons may call the park office.

Chamber Chief Takes Office

New Men Serving Rochester Area Unit

ROCHESTER — William W. Toussaint, a senior customer business representative for Detroit Edison Co., is the newly elected president of the Rochester area Chamber of Commerce.

Toussaint, three other officers and six new board members officially took over their chamber positions Jan. 1.

Walter Rewold, owner of Village Cleaners, is new vice president and Donald Foss, owner of Milco Specialties, will serve as treasurer of the organization this year.

Reelected to the secretary's post was Mrs. Betty Levick, owner of Rochester Secretarial and Answering Service.

ADDITIONAL JOB

In addition to his new job as treasurer, Foss is also on the board of directors this year.

Others elected to the board include local realtor Neil Hartwig; Harold Milton, owner of Milton's Fuel Oil; and Matthew Patterson, owner of Patterson Motor Sales.

Rounding out the list of new directors are Robert Schueller, manager of the Rochester Branch, Community National Bank; and Wilson Severance, local attorney.

Study Groups to Gather at Oxford Tea

OXFORD — Members of extension study groups throughout the Oxford district will gather at a 1 p.m. tea Tuesday at the Methodist Church education building.

Entertainment, education and fellowship will be included on the program, with a preview showing of new horticulture slides.

A new representative and alternate will be elected at this meeting, to which those interested in joining or organizing a study group are invited.

The education building is on East Burdick just east of M24.

Fire in House Kills

Widower in Lansing

LANSING (AP) — A 58-year-old widower who lived alone burned to death New Year's Day, apparently after his clothing ignited from a stove burner.

Police said a neighbor girl who often does housework for Donald Bowerman found his body Thursday.

Home of Publisher Damaged by Blaze

LAPEER TOWNSHIP — Flames which caused more than \$10,000 damage yesterday to the home of Robert M. Myers, Lapeer County Press publisher, broke out again today in the walls of the one-story house.

Lapeer Fire Chief Matthew Dougherty said most of the damage to the home, located at 1602 Morris, was caused by heat and smoke.

About noon yesterday Myers was awakened by smoke in his home, where he was recovering from the flu. He found the phone was dead when he tried to call for aid.

Myers then ran, in his stocking feet, to a nearby radio sta-

tion and summoned the fire department.

\$70,000 HOME

The fire, of undetermined origin started between the concrete brick house and the garage. The home is valued at more than \$70,000.

Before firemen could bring the blaze under control flames gutted a vestibule and closet off the kitchen.

Heat and smoke spread throughout the house, according to Dougherty, and ruined all the carpeting as well as large plate-glass windows which ran the length of the home.

The house was fully insured, Dougherty said.

AGAIN CALLED

At approximately 8 a.m. today Lapeer firemen were again called to the home. They found rugs smoldering and the fire going into the wall partitions and the attic, Dougherty said.

Within an hour the fire was again extinguished.

Dougherty said firemen were able to control the blaze without too much water, by using a high pressure fog.

Traffic Deaths Double

EAST LANSING (AP) — Traffic accidents have killed 12 persons in Michigan so far this year, provisional figures compiled by state police showed today. There were six traffic deaths at this date last year.

Milford OKs Thoroughfares

MILFORD — The planning commission last night approved a thoroughfare plan which will serve future development here.

Concerned mainly with right-of-ways, the plan designates major and local streets.

It is "now very innocent and will have very little immediate effect," according to Manager Donald G. Weidner. "But it will notify future developers that there's 10 feet there the village might use."

Major thoroughfares will have 86-foot right-of-ways and "collector" streets will be assigned 66 feet.

In the former group are Milford, Commerce, General Motors, West Huron and North Milford roads. The latter group consists of First north of Summit, Main south of Huron, Martindale, Oakland to Old Plank, Old Plank, Peters and Summit.

The plan was accepted last night after being reviewed at a public hearing.

Fire Damage Up in 1963

LANSING (AP) — Fires burned over 8,415 acres of forest and grasslands in Michigan in 1963, up from the 6,267 acres devastated the previous year, the Conservation Department says.

Most of the damage was done in the spring, particularly in April.

Nearly 3,550 acres burned in April, compared with 1,855 acres during the critical fall period.

AP Photofax

SEEK OFFICIAL HELP — Wives of two U.S. Army officers jailed in North Korea were in Washington today to confer with officials on efforts being made to get their husbands released. From left are Sen. Philip Hart, D-Mich.; Mrs. Charleton Voltz of

Frankfort, Mich.; Mrs. Ben Stutts of Florence, Ala.; and Roger Hilsman, assistant secretary of state for Far Eastern affairs. The captains were aboard a helicopter shot down in May. The United States said the craft crossed the boundary accidentally.

On Cloud 9 Over Merman Borgnine's Navy Pals to Give Him Away

By BOB THOMAS
AP Movie-Television Writer
HOLLYWOOD—Ernest Borgnine reports that his "McHale's Navy" buddies have his

wedding to Ethel Merman all planned.
Borgnine returned to the television series this week after his surprise announcement in New York that he and Miss Merman will marry in July. He reported the cast's plans for the event:
"Joe Flynn will give the bride away, Billy Sands and Fuji (Yoshi Yoda) will be bridesmaids, Gavin McLeod will be the ring-bearer and Gary Vinson will stand outside the church and cry."
Ernie is naturally ebullient, and since the engagement his spirits have soared.
SO MARVELOUS
"She's so vivacious, so marvelous, so—well, I just get carried away when I think about her," he said.
His divorce from Mexican actress Katy Jurado isn't final until June, and there have been

reports that he might seek quicker freedom.
"I don't think so," he said. "Although Miss Katy Jurado has been very nice to offer to get a Mexican divorce to speed things up. Ethel and I are not in that much of a hurry."
"Both of us realize it's a wait, and we're prepared for it. She has commitments, such as a singing engagement at the Talk of the Town in London starting Feb. 18. I won't be finished with the TV series season until the end of March."

BELONG TOGETHER
"We know we belong together and we're willing to make the best of it."
The romance was a cyclonic affair, befitting both their personalities. Ernie took another date to a Hollywood party a month ago and heard Miss Merman sing. His reaction: "Holy cow, she's fabulous!" He met her and told her so, also how much his daughter had liked her in "It's A Mad (4) World."
A few days later the hosts of the party, Mr. and Mrs. Joe

Shribman, asked Ernie if he would like to bring Miss Merman along on a dinner date. Would he?
They had four dates, then Ernie flew to New York the day after Christmas and popped the question at her apartment. Her reply: "I thought you'd never ask."

FURTHER PLANS
She is coming here this weekend, and they will make further plans. One matter seems settled: They will make their home here.
"Ethel says she wants only to be a good housewife, although she might do an occasional stint on TV or something like that," said the actor. "She won't do another Broadway show; she made up her mind about that a couple of years ago."
"I don't want her to quit the business entirely. This great talent should never be hidden. She has too much to offer the world."
He added that they have plans to honeymoon in Japan, where neither has been.

Berlin Visits Due to End

Negotiations Unlikely to Halt Wall Closure

BERLIN (AP)—East German officials accepted applications from West Berliners to cross the Berlin wall for the last time today. It appeared unlikely that an agreement to extend the visits to East Berlin relatives could be negotiated before the Christmas-New Year holiday arrangement ends at midnight Sunday.
West Berlin Mayor Willy Brandt conferred Thursday with officials of his government and West German Vice Chancellor Erich Mende in preparation for negotiations with the East Germans to keep the wall open. But there was no indication when the negotiations would begin or what demands the Communists would make.

An unofficial West Berlin intelligence service, Information Bureau West, reported the newspaper of East Germany's state-owned "Seventh of October" machine plant in East Berlin had published a workers' complaint calling on Communist officials to pull down the Berlin wall.

"The wall," said the complaint, "was built by our government in August 1961. It is therefore up to our government to pull down the wall and all discussions and negotiations over visitors' permits and permit offices, regardless of where, are superfluous."

WESTERN POLICY
The paper's editors gave this answer to the complaint: "These colleagues have apparently forgotten that the splitting of Berlin and Germany was deepened by the policy of the Western world."

Such plant newspapers have only limited circulation.
The official East German news agency, ADN, said that up to this morning 1,282,000 permits had been issued for the one-day visits by West Berliners that began Dec. 19.

East German officials prepared for a big last-minute rush today. About 44,000 West Berliners went through the wall Thursday.

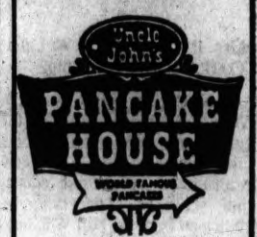

U.S. Secretary of State Dean Rusk told a news conference in Washington that discussions are in progress seeking an arrangement allowing East Berliners to visit West Berlin in addition to continuing the visits of West Berliners to the eastern sector.

Printing Week Decried by Governor Romney

LANSING (AP)—Gov. George Romney has proclaimed Jan. 12-19 as International Printing Week in Michigan.
Michigan has made great strides in printing, Romney said, since Father Gabriel Richard brought the first printing press to Detroit in 1809 and published the first book in the Northwest Territory.

But Not as Candidate Romney in National Political Picture

By GENE SCHROEDER
LANSING, Mich. (AP)—Michigan Gov. George Romney, whose national image has had the ups and downs of a political roller-coaster, doesn't count himself out of the national picture.

But Romney is not referring to speculation that he might be the 1964 Republican presidential nominee. The governor has steadfastly maintained that he is not a candidate and will not become one.

"I'm concerned about the national picture," Romney said in an interview. "And properly so, because after all, what happens nationally has an important bearing on what happens to Michigan."

"And I certainly hope to pursue a course of activity that would permit me to have some influence on what might happen nationally in 1964. I think it

would not be proper for me to fail to take an interest in what might happen.
"But that will not take the form of seeking to become a candidate for office — national office — in 1964."

NO DECISION
Romney, Michigan's first Re-

publican governor in 14 years, has not yet announced whether he will run for reelection.
The best guess among most Lansing observers is that he will try for at least one more two-year term, despite his occasional expressions of distaste for politics.

Romney's political stock

soared last spring with adoption of the new State Constitution, which he helped to write as a delegate to the constitutional convention.
Romney had fought hard for approval and he lists its adoption as the No. 1 achievement of his one-year-old administration.

But his leadership image suffered a severe blow this fall when the Republican-dominated legislature failed to adopt the fiscal reform program for the state, frequently beset by financial troubles although now enjoying a booming economy.

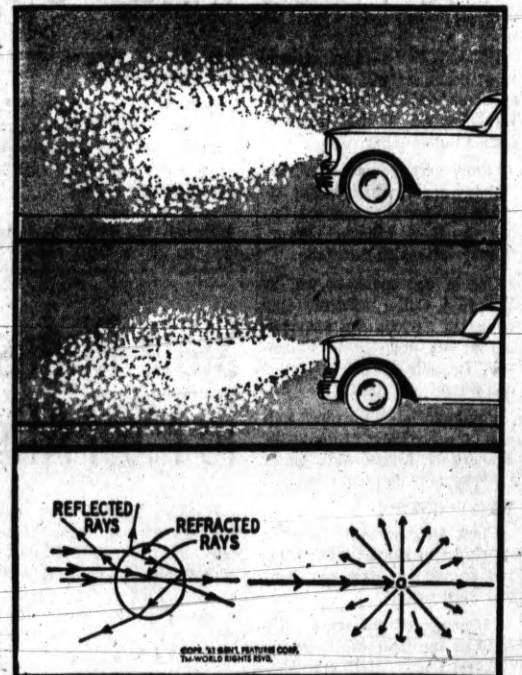

Summing up the first year in office, Romney said rejection of the tax program was his biggest disappointment.

But he pointed an accusing finger at Democratic legislators who failed to support the proposal despite the fact that it closely resembled similar plans they had backed in the past under Democratic governors, John Swainson and G. Mennen Williams.

Overall, Romney viewed the year with satisfaction.

DESPITE FAILURE
The governor said that despite the failure of the reform, legislative achievement under his regime has been high.
One of these, he said, is the reapportionment of Michigan's congressional seats. The state acquired a 19th congressman last year, but the seat has been filled on an at-large basis.

Other accomplishments claimed by Romney included adoption of improved construction safety laws, youth progress, job retraining and unemployment compensation statutes.
Romney, onetime president of American Motors, said Michigan's economic improvement is broader than just the automobile boom. He cited an upsurge in the tourist industry as one example.

Science Quiz

By BOB BROWN
PROBLEM: Driving in the fog.
OBSERVATION: When headlights are turned to the bright or "up" position, it is more difficult to see the road through the fog.

WHY? When a light ray hits a fog droplet, the light is reflected and refracted in all directions, so that the droplet would have the appearance as shown in drawing at bottom right.

The drawing of an enlarged fog droplet, at bottom left, shows some of the ways in which the light rays can re-

fect and refract when they hit the droplet.
The same ray is reflected and refracted many times, as it hits many droplets, giving an overall dispersion or scattering of the light.

LESS BRIGHT
When the automobile beams are turned down, the light hits fewer droplets, so that the fog is less bright and the road is seen more clearly.

A collection of these scientific puzzles is in book form under the name "Science Circus." It is in book stores and libraries.

Unless New Agreement Made

Berlin Wall to Be Closed Again Sunday

By PHIL NEWSOM
UPI Foreign News Analyst
In the freezing cold of the New Year, West Berliners with East German passes in their hands have passed by the hundreds of thousands into East Berlin to visit relatives cut off from them since Aug. 13, 1961.

NEWSOM

Unless new agreement is reached, the gap in the Berlin wall opened for the Christmas and New Year season will be closed Sunday and families once again divided as if they lived on different planets.

The wall is a hateful thing, symbolic of Communist repression and an affront to human dignity.

And, even in the midst of emotional reunions of long-separated mothers, fathers, sons and daughters, it must be recalled that the Communists built the wall to suit their own purposes and opened it for this brief season for reasons of their own.

Thus, the United States and even West Berlin newspapers have felt it necessary to warn West Berlin Mayor Willy Brandt of the risks he runs in any new negotiations to hold open even this small gap in the wall.

To issue the passes, East Berlin representatives have been permitted to enter West Berlin and perform official functions there.

The passes are issued in the name of the "Capital of the German Democratic Republic." The passes meant no new

freedoms for the imprisoned people of East Berlin.

But under the guise of the Christmas spirit, they could mean that the Communist East German regime had gained more than previously had been possible either through military pressures or the threats of Nikita Khrushchev.

They implied that East Berlin officials had the right to function in West Berlin.

That the East Germans could negotiate with West Berlin as a separate entity apart from West Germany was a whole.

RIGHT IMPLIED

And it even implied the Communist right to build and maintain the wall and to open or close it as they pleased.

Mayor Brandt, proven staunchly anti-Communist, took poohs the risk.

Brandt long has advocated stepped-up initiative by the Germans themselves to solve the problem of their divided country.

A politician, he believes in the art of the possible.

NOTHING BUT SPEECHES

"I do not believe in the policy of all or nothing," he says, "because then we will not have anything for a long time but speeches each Sunday."

For the United States, this example of German initiative poses a problem.

Former West German Chancellor Konrad Adenauer frequently irritated his Western allies with his adamant stand of all-or-nothing on German reunification and his frequently voiced suspicion that any Western agreement with Moscow would be at German expense.

In their weekend meeting at the LBJ ranch, President Johnson and West Germany's new chancellor, Ludwig Erhard, agreed that they would be "courageous enough to think, to discuss, and to study together what opportunities exist" to ease Cold War tensions.

BEYOND BERLIN

For Mayor Brandt, the question goes beyond Berlin. He is acting chairman of the West German Socialist party and wants to be the next chancellor. He says:

"We must remain vigilant. But a situation that has begun to move requires more than sticking to old positions."

Junior Editors Quiz on SCIENCE

QUESTION: Is it true that amber is found in water?
ANSWER: Perhaps our questioner is referring to ambergris, which is a valuable substance formed in the intestines of sperm whales, and which is sometimes found floating on the surface of the sea. It is used in the making of perfume.

Amber, however, is something entirely different. Between 60 and 70 million years ago, there were heavy pine forests in Northern Europe.

Upheavals of land, especially in the area around the Baltic sea, led to the burial of many such forests, under water or land or both.

The pine trees had a resinous sap which, under pressure of land or water and over the long periods of years, hardened into lumps which are almost like stone.

These lumps are amber. Some amber is light colored and this is known as "bone amber." But the most beautiful pieces are clear, like crystal, and are in many shades of yellow and gold; they have been used from 9000 B.C. as ornaments.

A remarkable thing about amber is that insects of historic days were often trapped in the sticky resin and were thus preserved when the resin hardened.

It is one of these that big John is showing to his little brother. As the picture to lower right shows, every detail of such an insect may be visible.

Amber is sometimes mined from the ground, sometimes fished up from the Baltic Sea.

FOR YOU TO DO: An insect in amber is a great prize for your rock or fossil collection. Try to get one, by buying from a rock dealer or swapping.

New Post: Adviser on Consumer

JOHNSON CITY, Tex. (AP)—President Johnson plans to name Asst. Secretary of Labor Esther Peterson to a newly created post as presidential assistant on consumer matters.

Mrs. Peterson, the highest ranking woman in government, and Secretary of Labor W. Willard Wirtz have an appointment to see the President on department budget matters at the LBJ Ranch today.

It is understood President Johnson feels it is important to have someone in the White House paying individual attention to consumer problems and representing consumer interests with the ability to get the President's ear on these matters.

Mrs. Peterson, 56, a native of Provo, Utah, was named an assistant secretary of labor by the late President John F. Kennedy on Aug. 17, 1961. She also is vice chairman of the President's Commission on the Status of Women, which Kennedy set up in an effort to end discrimination against women.

It is understood that Mrs. Peterson will continue in her Labor Department post but would be on tap at the White House for policy and consulting roles where consumer interests are involved.

Scoring Records May Fall in Tonight's City Cage Contest

Rozelle Silent on Pros Return

DETROIT (UPI) — Any ideas that suspended football star Alex Karras might have had about a post-Christmas present from National Football League commissioner Pete Rozelle evaporated in the sunshine of Miami today.

Rozelle is down among the oranges and lemons attending the NFL runner-up bowl and it was from there that he said the case of Karras, and Paul Hornung who was also suspended in the gambling scandal, could not be reviewed until February.

That would make it a year that the two men have sat on the sidelines under the terms of the indefinite suspension.

Rozelle's statement was in reply to a recommendation made by the NFL players' association that Hornung and Karras be reinstated.

Pete Retzlaff of the Philadelphia Eagles, president of the association, said the petition for reinstatement was forwarded to Rozelle.

"We think that they have served their punishment, recognized they made a mistake and are in a position to be a credit to themselves, their teams and the league," Retzlaff said.

"We feel that if they are not reinstated, another year out of action might preclude their ever getting back into competitive shape and kill their careers."

LIONS UNSIGNED
Ironically enough, the petition was not signed by the representative of the Detroit Lions, the team that Karras did battle with in the line. Retzlaff explained that the Lions representative did not arrive due to travel conditions.

Karras is negotiating the sale of his Detroit bar, which reportedly was a thorn in any ideas about his quick reinstatement.

He also tried a brief fling at wrestling soon after he was suspended, but after getting pinned in his first match, he quickly discarded the idea.

There have been recurrent rumors around the league that both Hornung and Karras would return to play pro football, both not with the teams they last played for.

Hornung, the golden boy of Green Bay, was mentioned in a complicated deal that would have sent him to the Pittsburgh Steelers.

Karras has unleashed several angry attacks directed toward

the management of the Lions and his "treatment" received at their hands. Another rumor which has cropped up from time to time that he would be traded by the Lions once he returned to active status.

ALEX KARRAS

Koufax Hauls in AP Award

Sandy Named Top Athlete of 1963

LOS ANGELES (AP)—Sandy Koufax reacted to his selection as 1963 Associated Press Male Athlete of the Year with one of the words most frequently used to describe his pitching.

"Wonderful," said the Dodger left-hander. "Thank you."

It was not the first time Koufax had expressed gratitude for a major award since he beat the New York Yankees twice in the Dodgers' four-game sweep of the World Series last fall.

Sandy's memory modestly failed him when he was asked to tick off some of the other recent tributes. He did remember the sports car he received from a magazine that named him outstanding player of the World Series. But he required coaching to recall the Cy Young Award, presented annually to the outstanding major league pitcher, and the National League's Most Valuable Player Award.

INVITATIONS
Asked what the next addition to his trophy collection would be, Sandy said: "Well, I've got a lot of dinners to attend. There've been a couple here already, but most of them are in January. About 15, I think."

A conversation with Koufax yields no evidence that his arrival as a first-rate celebrity has swelled his head. And he says his waistline—something else a baseball star should keep from expanding in the off season—also has been held in check.

Packers Drill to Cope With Jimmy Brown

NFL's Playoff Bowl to Feature Two Top Fullbacks in League

MIAMI, Fla. (AP)—The hard-running Green Bay Packers are drilling to cope with a budding doctor of philosophy's passes and the Cleveland Browns' offense.

The future PH. D. (in mathematics) is Frank Ryan, who hopes to complete work for the doctorate at Rice next summer. Ryan completed 135 forwards for 2,026 yards and threw 25 touchdown passes in the regular National Football League season.

The teams will meet Sunday in the Playoff Bowl playoff, traditional for the runners-up in each of the league's two divisions.

The Packers, who have beaten the Browns once and lost to them three times in previous bowl games, were hard at work even on the holiday sharpening their pass patterns and figuring ways to upset those of Cleveland.

BACK TO WORK
They renewed the grind Friday and Coach Vince Lombardi said "we're coming along very well under the circumstances." Lombardi added it is not easy to get players up to snuff after the championship season.

"We have been preparing for this game just like any other," said Lombardi. "I think we are picking up the impetus we need."

Fans look to see a battle of great fullbacks between Green Bay's aggressive Jim Taylor and Cleveland's elusive Jim Brown.

About 100 persons watched the Packers work out on University of Miami's athletic field Thursday.

Cleveland worked out at Miami Stadium. Ryan's top pass receivers are Gary Collins, former Maryland star; Rich Kreitling from Illinois and John Brewer, a former Mississippi player.

Proceeds of the game, which will be played in the Orange Bowl, will benefit the NFL players' pension fund. Players on the winning team receive \$600 each and the losers \$400 each.

Kickoff time is 2 p.m. EST and the telecast of the game will be blacked out locally. Promoters are hoping for a 50,000 crowd.

Howe, Barkley on Third Unit

Black Hawks Dominate All-Stars

NEW YORK (AP) — Bobby Hull, the goal-scoring leader, and three other members of the first place Chicago Black Hawks have been named to The Associated Press' National Hockey League All-Star team for the opening half of the 1963-64 campaign.

Center Jean Beliveau of Montreal was selected as the most valuable player and Jacques Laperriere, the Canadiens' young defenseman, was picked the outstanding rookie.

Goalie Glenn Hall, defenseman Pierre Pilote and right

winger Ken Wharram were the other Chicago players chosen for the All-Stars Thursday. Tim Horton, Toronto defenseman, and the veteran Beliveau rounded out the six-man team selected on performances through games of Jan. 1.

SECOND TEAM
The Black Hawks also placed three men on the second team. They were center Stan Mikita and defensemen Elmer (Moose) Vasko and Al MacNeil.

Right winger Andy Bathgate of the New York Rangers and goalie Charlie Hodge and left winger Dave Balon were the others picked as runners-up.

Runners-up in MVP consideration were Chicago's Hall and Detroit's Gordie Howe, who has won the league's award six times. Defensemen Terry Harper of Montreal and Bob McCord, Boston plus forwards John Ferguson of Montreal and Pit Martin of Detroit trailed Laperriere for first year honors.

Named to the AP's third team

were goalie Ed Johnston of Boston, right winger Howe and defenseman Doug Barkley of Detroit, left winger Camille Henry of the Rangers center Red Hay of Chicago and Laperriere.

The official ballots for the season's first half will be compiled in the NHL's Montreal office next week. The voting by hockey writers and broadcasters in each of the league's six cities is also based on games through Jan. 1. Leaders in the balloting will each receive \$1,000 and runners-up get \$500 each.

MONTREAL (AP) — New York Rangers Coach Red Sullivan, whose "blank check" endorsement of a penalty-box brawl involving one of his players bounced into the office of National Hockey League President Clarence Campbell, had a red-ink entry in his handbook to day to show for it.

The NHL boss fined Sullivan \$200 Thursday for touching off a slugfest between the Rangers' Vic Hadfield and Montreal's Henry Richard in a game here three weeks ago. Campbell's action marked the fifth time this season that an NHL coach or manager has been slapped with a sizeable levy for wrongdoing.

Leaping Larry Chene in Leap Year Scrap

The latest fine followed an investigation of reports in New York newspapers that Sullivan offered to pay Hadfield's automatic misconduct assessment if the Rangers' "bad man" felt inclined to tangle with Richard in the penalty box. The ensuing donnybrook triggered a New York-Montreal vendetta that produced 106 minutes in penalties — the majority for fighting — in the Canadiens' visit to New York last Sunday.

Total Score Mark Is 140; PCH to Host

Huskies Average 83, Central 78; PNH Unbeaten So Far

If the potent offenses of Central and Northern stay in high gear tonight, a new city basketball series scoring record could very well be set.

The record combined score in 140 points. This was posted in the second game of the 1960-61 season when PCH posted a 76-64 victory. The winning total is also a high mark for the series dominated by the Chiefs, 11-2.

Central has run up 90 points on the scoreboard in its only two home starts and the Chiefs will have the advantage of familiar surroundings when the teams lineup for the tipoff at about 8 p.m.

PNH's two victories were posted last season, one in tournament play, and both came on the Huskies' floor.

The Huskies like to run and shoot.

Guards Jerry Reese and Mike Burklow are adept ball handlers, dribblers and shooters and usually lead the fast break.

Coach Dick Hall has good size in Roger Hayward (6-3½), Dick De Weese (6-3) and Dean Souden (6-2) to follow up on the boards. Hayward is also a very dangerous shot from anywhere on the floor.

Central's offense isn't quite as fast-breaking, but the Chiefs waste no time crossing the center line.

GOOD SHOOTERS
Four of the five starters are exceptional shots. Mel DeWalt is deadly from the corners and on drive-ins. Bill Morgan and Al Keel can hit from the outside while Gerry Henry picks up most of his points with drives and tips.

Center Jim Johnson, who at 6-3 and 200 pounds, compares favorably in size with Hayward, is a solid rebounder and has shown an unusual ability to get his share of the tips.

Northern has averaged 83 points a game while downing Flint Southwestern, Livonia Franklin, Berkley and Walled Lake. The Chiefs topped the 90 mark against Bay City Central and Midland.

They have taken the measure of Saginaw Arthur Hill and Grosse Pointe while losing only at Flint Central, 65-64.

Central's average is 78 points a game.

Neither team is blessed with many experienced players on the bench.

But coaches Fred Zittel of Central and Northern's Dick Hall have been able to substitute frequently an most of the games, thus giving the newcomers important game experience.

This will be the first time Zittel has directed the Chiefs against Northern. He has been on the bench in all the other city series games as assistant to Art Van Ryzin who stepped down after last season.

Detroit-Denver Pair Grab Skating Lead

DETROIT (AP) — A Detroit girl and a Denver boy forged narrow leads over Chicago opponents in school figures Thursday in the opening day of the 1964 Midwestern Sectional Figure Skating Championships.

Yvonne Drummond, 17, moved ahead early and held off a strong finish by runner-up Chickie Berlin in the senior ladies' singles, and Greg Hoyt, 18, of Denver, came from behind to edge Jeffrey Hall in the Junior Men's singles.

Hoyt had eight ordinals and 64.34 points and Hall had 11 and 63.32.

In junior boys, Torrey Sun, 12, of Iowa, was in the lead followed by Tim Flynn, 10, of Denver.

Senior men's competition started today with Tim Woods, 15, of Bloomfield Hills, out to defend his title.

City Cagers Near Opener of Loop Play

Ten city cage quintets wrapped up their pre-season practice action Thursday evening. The teams open league play next Tuesday.

In games played at Pontiac Central High School, Southwest Community Club downed the Bachelor's Club, 64-52. Wilson's All-Stars nudged Becker's, 32-26, and 300 Bowl squeezed by Messiah Baptist, 43-40.

In action at Madison Junior High School, West Bloomfield Heating routed Town and Country, 61-30, and White Lake Pharmacy knocked off a Pontiac Police squad in the nightcap, 72-44.

Wilson's All-Stars overcame a 17-13 halftime deficit in edging Becker's. The winners trailed by a point at the end of three quarters but put the game away by outscoring the losers 9-2 in the final frame.

Messiah Baptist held a one-point lead, 38-37, with two minutes remaining, but Jim McDonald pumped in two free throws to put the 300 Bowl into the lead it never lost. McDonald and Sam Sheehy led the winners with 12 markers each.

The Southwest Community five broke a first period deadlock and gradually widened the gap in the win over the Bachelors. The winners held a 23-20 halftime margin and upped the lead to 40-32 at the three-quarter mark.

Furman Whips West Virginia

Mountaineer Celebration Fizzles

By The Associated Press
It never should have happened to West Virginia, especially with the Mountaineer basketball team helping the state celebrate its 100th birthday.

But it did, and West Virginia distinctly shows the effects. The effects, that is, of playing without a Rod Hundley, a Jerry West or a Rod Thorn.

This is the first season in 10 that the Mountaineers don't have one of those stars or one of similar ability. The results so far: a 6-6 record following the latest loss, a 65-57 upset at home by weak Furman Thursday night.

The start is West Virginia's worst since the 1953-54 season. Not too coincidentally, that was the season before Hundley started playing varsity basketball. West followed Hundley and him-

self was followed by Thorn, who graduated last year.

ARRIVED LATE

Actually, West Virginia nearly escaped the defeat, only its second, to a Furman team. The Southern Conference foe missed train connections in Washington and arrived in Morgantown, W.Va., 1½ hours late for the game.

Once the game started, it was the Mountaineers who were late — late in trying to catch up. Furman grabbed an early lead and wasn't in trouble until a West Virginia rally early in the second period closed the gap to four points. The Paladins held on, though, and maintained the lead the rest of the way.

Don Frye tallied 20 points for Furman while John Lesher paced West Virginia with 18. None of the nation's top 10

teams were scheduled on the light basketball night.

In other major games, Pitt trampled winless Dartmouth 107-78, Virginia Tech squeezed by Virginia 62-60. Richmond whipped Florida State 69-65 and Houston edged Air Force 64-63.

Pitt picked on Dartmouth for its first triple figure game of the season. The Panthers led by 12 at halftime, then poured it on in the second half, outscoring the Indians 60-28. Bob Lovett of Pitt and the losers' Davis Blaine each had 26 points.

A second-half scoring spree led by Rich Naes and Gary Garrison gave St. Louis its sixth straight victory. Naes and Garrison scored eight consecutive points as St. Louis pulled away to a 63-51 lead over Tulsa in the Missouri Valley Conference contest.

THURSDAY'S FIGHT

By The Associated Press
MIAMI, Fla. — Joe Hurchison, 144, Jacksonville, Fla., stopped Rocky Bethel, 143, Nassau, Bahamas, 5.

A's to Continue Fashion Parade

KANSAS CITY (AP)—Owner Charles O. Finley indicates his Kansas City Athletics again will be the fashion plate of the American League.

Finley told Ernie Meh, sports editor of the Kansas City Star, the A's wardrobe will include three sets of uniforms: wedding gown white, Ft. Knox gold, Kelly green and seafoam.

It has yet to be determined where the A's will display their sartorial splendor as Finley and the city council have not resolved their dispute over a new lease for the A's use of Municipal Stadium. Finley has threatened to build a temporary stadium in a cow pasture.

Two of the uniforms, according to Finley, will be worn primarily at home. "One will be white trimmed in Ft. Knox gold and Kelly green."

BRIDAL GOWN

Meh then quoted the following conversation with Finley. It refers to the second home uniform:

"... This will be wedding gown white ... Naturally the white in a wedding gown is the most attractive of all. Wedding gown white trimmed in Ft. Knox gold and Kelly Green."

Finley then directed the discussion to the material to be etched into the flannel.

"The uniforms, all three of them, will be made out of flannel, not just ordinary flannel. Baby flannel ..."

What's for the road? "For the road we'll have seafoam green trimmed in Ft. Knox gold. No the other way around, Ft. Knox trimmed in seafoam."

"Now you got all those colors," asked Meh. "And don't forget the flannel. Only team in the majors outfitted in baby flannel."

Champ Says Clay Will Go Home Early

LAS VEGAS, Nev. (AP)—Heavyweight champion Sonny Liston says he's training harder for Cassius Clay than he did for Floyd Patterson.

"I don't want him to catch me short," Liston told newsmen Thursday at his resort hotel training camp. "I want to catch him short."

Nevertheless, the confident champ predicted he'd flatten Cassius in two rounds Feb. 25 at Miami.

"I don't think it'll go past two," said Liston. "It better not go past three. I'm in good shape for this one."

When a newsmen noted that Clay has a reputation for being fast, Liston countered:

"That's what they say about all of them. It looks like I'm just a little bit faster."

Liston said bad weather kept him from training in his hometown of Denver. He chose Las Vegas over Miami for his camp because:

"I don't like to hear that loudmouth. If I was in Florida, I'd hear it."

Santa Anita Jockey Keeps Record Intact

ARCADIA, Calif. (AP)—Manuel Ycaza stayed on top as the winningest jockey at Santa Anita Park this season by driving Batture to an eight-length victory in the featured \$10,000 Honolulu Purse Thursday.

Batture, 4-year-old daughter of Bold Ruler, ran the 1 1/8 miles in 1:42 3/5.

Ycaza has seven wins in the meet which opened Dec. 26.

Repeat Aerial Duel Seen for Senior Bowl

MOBILE, Ala. (AP)—A possible repeat of the George Mira-Jack Concannon duel of Miami's North-South game was put in the hopper today. The two ace passers were named for the starting duties in the 15th annual Senior Bowl football game Saturday.

Concannon, of Boston College, passed and ran the North team to a 14-0 lead at Miami. But Mira took charge and passed the South to a 23-14 comeback victory.

Mira, the University of Miami whiz the past three years, completed 27 of 42 passes for 336 yards, all records for the game. His passes were good for two

touchdowns and he set up a third.

Concannon finished the game with 12 completions out of 25, good for 366 yards.

OTHER ACES

Backing up Concannon for North Coach George Wilson of the Detroit Lions in Saturday's game will be Dick Shiner of Maryland and Bill Munson of Utah State, both top-notch passers themselves.

South Coach Tom Landry of the Dallas Cowboys tabbed Larry Rakestraw of Georgia, star of the Blue-Gray game at Montgomery, and All America Billy Lott of Georgia Tech for quarterback duty in relief of Mira.

Lott also has been picked as a safety man on the defensive unit.

The South has won nine of the 14 Senior Bowl games and the North has taken five.

One player was added to the 25-man north squad Thursday as a result of a knee injury suffered by Jim Worden, a 240-pounder from Wittenberg.

Trainers said he may be able to play, but Senior Bowl officials added end Jimmy Dill of Ala-

bama, who played in the Sugar Bowl in 'Bama's 12-7 victory over Mississippi New Year's Day, as insurance.

"This may seem a bit unusual, but our only interest is to have another crackjack football game Saturday," said Rea Schuessler, the Senior Bowl general manager.

WAS READY

It was explained that it would take an additional day to bring in another high-caliber North player, and Dill, a Mobile youth, was available.

The 'Bama end caught 19 passes for 316 yards and three touchdowns during the regular season, and also was a highly capable defensive performer.

The players turn pro in the game. Members of the winning squad receive \$900 and expenses and each of the losers gets \$700.

The game will be nationally televised with an area within 100 miles of Mobile blacked out. A near sellout is expected in 40,605 capacity Ladd Stadium. Kickoff is at 1 p.m., CST.

MSU Swim Team to Host Relays

EAST LANSING (UPI)—Michigan State's sophomore-laden swimming team will host Minnesota, Western Michigan and Southern Illinois in the first Michigan State Invitational relays at East Lansing Saturday.

Minnesota has been tabbed favorite for the meet, which has 11 events of the two, three and four-man variety. The Gophers, coached by former MSU assistant Bob Mowerson, feature NCAA record-holder Wally Richardson in the butterfly, and 200-yard collegiate champ Virgil Lukken in the breaststroke.

Western Michigan is the defending Mid-America conference champion.

The meet will be held at the men's intramural building pool on the Spartan campus.

Snead Replaces Tittle

LOS ANGELES (AP)—Quarterback Norman Snead of the Washington Redskins will replace Y.A. Tittle of the New York Giants in the National Football League's Pro Bowl game. Tittle withdrew because of a knee injury.

AP Photofax

MAY RETURN—Ray Willsey, defensive backfield coach of the Washington Redskins, is a leading contender for the head football coaching job at the University of California Willsey graduated from California in 1953.

Four Prep Mat Teams to Compete at Kettering

Wrestlers from four high schools will be vying for team and individual honors when the Waterford Invitational Wrestling Tournament gets under way Saturday morning at Kettering.

Kettering will be playing its first role as host to a grappling tourney, and coach James Tolfa said plans are to make it an annual tournament. Other teams

entered are Waterford, Southfield and L'Anse Creuse.

Preliminary bouts are scheduled for 10 a.m. The second round will start at 1:30 with the finals set for 3 p.m.

The Captains have the best record (2-1-1) among the four teams and will enter the scrap a slight favorite although Tolfa was quick to point out that dual records are of little meaning in tournament tests.

The Captains two victories came against Southfield (23-22) and L'Anse Creuse (58-0).

Boasting the Kettering squad are Joe Allen (95), Bob McGregor (165) and Don Gray (127). All are undefeated.

Waterford's Skippers sport a 1-1 record, losing to Wayne (9-35) and trimming Lake Orion (25-21).

Skipper coach John Makowski has a veteran team headed by Randy Rhodes (112), Ron Potter (120), Dale Jones (180) and Ron Carpenter (127).

PCH Matmen Score

1st Win of Season

Pontiac Central picked up its first wrestling victory of the season Thursday, pinning a 25-21 defeat on the Big Reds of Port Huron.

The Chiefs trailed 18-14 going into the final three matches, but Nathaniel Carr and Larry Ragsdale picked up decisions and Neal Peterson pinned his opponent to wrap up the victory.

The win gave the Chiefs a 1-3-1 season mark.

95 pounds — Rabin (PH) pinned Bryant; 100 pounds — Kania (PH) pinned Thompson; 112 pounds — Roach (PCH) dec Ford; 120 pounds — McMillan (PH) dec Gordon; 127 pounds — Swanson (PH) pinned Rice; 133 pounds — Cato (PCH) pinned Balmori; 138 pounds — Whiting (PCH) dec Stanley; 145 pounds — Elam (PCH) dec Pagen; 154 pounds — Drescher (PH) dec Anderson; 165 pounds — Carr (PCH) dec Schlee; 180 pounds — Ragsdale (PCH) dec Towma; heavyweight — Peterson (PCH) pinned Hering.

Table Tennis Leaders Win

Anita Lettering's sharp table tennis crew started the New Year off on the right foot Thursday evening with a 4-2 win over Pine Knob.

The win enabled the Anita unit to maintain its six-point lead in the Pontiac Table Tennis League.

Dorris & Son Realty, holding second place in the chase, downed Country Kitchen, 4-2, and Kennerly's Service turned in a similar decision over Frostop Drive-In.

Three squads turned in 6-0 victories. A & W Root Beer turned the trick against Club 99, Francis Fuel over Buettner's Cleaners and Crocker Candy over Pepsi Cola.

Clark's Drive-In and Harvey's Colonial tied 3-3.

Question Police Chief in Death of Gridder

CHICAGO (UP) — Inquiries into the New Year's Eve shooting of football star Tony Parrilli appeared certain today to center on why police chief Robert Winthers pulled his gun from his holster.

Parrilli, 24, was shot fatally

in a suburban Willowbrook bowling alley partially owned by Chicago Bears end Mike Ditka in a tragic windup to a gay \$25 per couple holiday celebration.

The gun was discharged, police said, when Winthers struck Bears' fullback Joe Marconi on the head with the weapon. The bullet hit Parrilli near the left eye and he died shortly afterward.

URNS SELF IN

A key participant in the men's room scuffle, Raymond Messmaker, turned himself in to Du Page County state's attorney William J. Bauer yesterday and was released without charge after questioning.

He told Bauer and sheriff's police that Parrilli had begun hitting him without warning while they were in the men's room, but admitted that he "had too much to drink." Bauer said his story was "relatively vague."

Messmaker said he was "sick" when Parrilli complained about the condition of the men's room, "slammed me up against the wall and started belting me. I turned my back to avoid the blows and didn't throw a punch at all."

"Then I heard somebody come into the washroom and I heard a noise which I now know was a shot, but it didn't sound like a shot. I saw Parrilli on the floor with somebody bending over him, and I got scared and left. I walked into the hall and found my wife and we left."

Bears end Ed O'Bradovich, who was at the party with Ditka, Parrilli and Marconi and their wives, said Winthers "had no business being there at all."

OFF DUTY

"He was off duty," he said. "The crowd was wonderful and there was a minimum of drinking. That cop had no business pulling the gun."

Every time that police chief tells another story, there's one contradiction after another.

Royals Still Win

Piston Ace Scores 33

DAYTON, Ohio (UPI) — That old vaudeville act of "Howell, Howell and Howell" played another one-nighter here last night but, as usual, there wasn't enough supporting cast.

So, the Detroit Pistons suffered their 24th loss in 32 games this season as the Cincinnati Royals edged them in the last nine seconds, 112-111, in a National Basketball Association contest.

Ball-hawking Tom Hawkins, who had 11 rebounds and numerous steals, stole the show when he pilfered Don Ohl's inbound pass and set up Wayne Embry with the game-winning basket.

Bailey Howell paced Detroit with 33 points, 24 in the first half, and 17 rebounds, while Oscar Robertson topped Cincinnati with 32.

Embry had 21 points and he and the Royals' Jerry Lucas

grabbed 17 rebounds in a bruising game which saw 30 personal calls on each team.

The Royals extended their lead to 107-102, but four straight Pistons baskets, one a three-point effort by Ray Scott, seemingly had clinched the game for Detroit, 111-106, with 20 seconds left.

But Robertson drove for a Cincinnati basket and Hawkins later picked off Ohl's errant inbound pass to turn the tide for the Royals.

DETROIT		CINCINNATI	
Butcher	7-9 14	Arnette	5-12 12
Ferry	2-4 10 8	Bochorn	4-13 9

NCAA Begins 58th Convention

NEW YORK (AP)—The National Collegiate Athletic Association heads into its 58th annual convention facing its biggest challenge ever and shackled by an agreed-to dictum that says "thou shalt not."

Affiliates of the mammoth, complex organization started their meetings today with the parent organization very much in evidence—unofficially—but standing by until the group starts its official convention next Monday.

The challenge and the dictum both involve the temporary truce with the Amateur Athletic Union over their struggle concerning the sanctioning and accreditation of amateur meets and athletes throughout the country.

CEASE FIRE

The squabble threatened to wreck the United States' team for the 1964 Olympics in Tokyo until Gen. Douglas MacArthur, at the request of former President Kennedy, stepped in and forged an agreement between the warring parties to cease fire until after the Olympics.

Both groups agreed to abide by the agreement and the NCAA through Executive Director Walters Byers, says it will observe the truce in its convention.

"A number of organizations plan reports and we may have some action," Byers said, "but nothing to disturb the truce."

There is every indication, however, that there may be a little rocking of the boat by affiliate groups, committees and organizations.

"Oh, sure," an NCAA spokesman candidly admitted. "There'll be some darts thrown. But I don't think there'll be any big enough to puncture any big balloons."

The baseball coaches opened the week-long affair with their meeting today with most of the NCAA's top administrators standing on the sidelines.

Aside from the in-fighting involving the AAU, the major developments were expected to concern reports and recommendations by the NCAA Council and the Football Rules Committee.

The Council, executive ruling body of the organization, is expected to consider and rule on a number of alleged violations of the recruiting code. It has the power, among other things, to suspend from membership a school found to be violating the code.

The Football Rules Committee

has circulated a questionnaire concerning the controversial substitution rule used this year for the first time. Results of the questionnaire may be made public, but the Committee recommendation may be withheld for some time.

AUBURN HEIGHTS

Pontiac on Carter's Schedule

Bowling King Set for '64 Tour

Akron, Ohio—Tuesday is sort of a D-Day for Don Carter on the Professional Bowlers' Association tour.

That is the day Carter sets out on a new year of bowling competition, still ahead of the field after four years of intense competition; but with the knowledge that the gap narrowed perceptibly in 1963.

During these intense years, Carter has won six PBA titles and \$77,632 from PBA tournaments alone. In that same period of time, another St. Louisan, Dick Weber, has won \$73,323 and Harry Smith, now of Baltimore, \$72,395.

Carter was not able to compete in the first two Florida

tournaments, and as a result, he spotted his two erstwhile opponents something of an early lead for '64. Weber has won \$1,380, and Smith \$1,170 already.

D-Day for Carter is actually the beginning of the \$25,000 St. Louis PBA Open.

There, he will not only be facing his hometown strong line St. Louis professionals; but also a number of the tough youngsters spawned by the quest for a portion of the million dollars now distributed annually on the PBA tournament trail.

LOCAL ENTRIES

Among the latter group are Pontiac's Mike Samardzija Jr., and Monroe Moore. Both will compete in the St. Louis tournament.

Carter appeared in the Pontiac PBA open last season and is expected to return in March for the North American Open at 300 Bowl.

Carter a year ago suffered a fracture of his right big toe while vacationing in Florida.

Although he bowled fairly well in the winter of 1963, he never fully recovered his timing, and a long layoff in early summer added to his inability to get back on the track.

In fact, for the first time in bowling history Carter failed to win at least one major bowling title in a one year period.

The year was not by any means a washout for the soft-spoken St. Louisan, however. He won nearly \$16,000 from PBA tournaments, finished third in both the National All-Star and the ABC Masters, picked up \$5,000 for beating Weber in a CBS television bowling spectacular, and added winnings from Make That Spare, all of which added up to nearly \$35,000 from competition alone, very good in anybody's book.

Following the St. Louis PBA pinfest, Carter receives an acid test in the National All-Star in Dallas, where he finished a close third behind Weber and Welu last year.

This will be his first lengthy test since the PBA National Championship event in New York in Mid-November and the World's Invitational a week later.

Carter feels now that he is in the right frame of mind to make good showings in both the St. Louis, and the All-Star tournaments.

Veteran observers of bowling tournaments know that Carter is still the man to be feared in long-haul competition, because he conditions himself into the right frame of mind and body.

If the first signs of those conditions show up at either of those first two tournaments, the 1964 tournament trail promises to be an interesting one, possibly the best yet.

By JERE CRAIG

The improvements bowling is bringing in the area of youth participation in the sport are creating another responsibility for parents of today's younger set.

More and more bowling proprietors and officials are becoming aware of the potential income represented by the teen-age and even

younger members of society.

The American Bowling Congress has had its junior organization for some time and this year the Bowling Proprietors Association of America has begun actively to support the Youth Bowling Association programs.

There are strict limits in which junior bowlers must remain to retain their eligibility for youth or junior bowling sponsored events.

These limits do not include bowling in adult leagues which many of the better young bowlers are anxious to do.

Only last week in a local keg tournament for children, a teenage boy rolled a winning 644 series but was disqualified when it was discovered he participates weekly in an adult league.

Pontiac's leading professional bowlers, Monroe Moore and Mike Samardzija Jr., are on opposite sides of the debate over the advisability of faster competition for a teen-ager.

Moore definitely feels youngsters should stay in the junior program until they've completed high school.

It is his opinion that the jump is bigger than many juniors realize and many good bowlers can be hurt not only on their technical approach to the game, but also their confidence may suffer.

Samardzija began bowling in the Huron Bowl Classic when he was 17 and feels it helped rather than hindered him. He is a believer in the adage that stronger competition makes a better athlete.

And the older team members usually will work with the younger ones, he notes.

Perhaps the key to the problem is the extent to which the young bowler plans to pursue bowling. Some may want to make it a career and certainly could profit from the exposure at an earlier age.

But young minds can be easily influenced and swayed, and the advice and guidance of a parent on whether to retain one's junior rating or not can be very welcomed and beneficial.

NO ROADBLOCK

Word from Airway Lanes reveals that the M59 establishment will not be shut off from traffic during the construction work on the highway the next six-eight months.

Some rumors had the merchants from Elizabeth Lake Road to Airport Road being blocked off during the period but are not true.

Some detouring will be neces-

sary and maps are being prepared for customers' convenience. An M59 merchants association is being incorporated with Airway proprietor Frank Benning as president.

The group will work together not only during the road widening but also on other projects to improve the situation of M59 merchants in Waterford Township.

Oilers 'Defeat' Lions

HOUSTON (AP)—The Detroit Lions lost another draft choice to the American Football League Thursday. Alabama halfback Benny Nelson, No. 5 choice of the National Football League team, signed a contract with the Houston Oilers.

BOWLING

The holiday period saw youth tournament bowling jump into high gear locally with three houses having junior keg competition.

Airway Lanes and North Hill Lanes both participated in the Youth Bowling Association Mail-ographic Doubles Tournament, while 300 Bowl had a Junior Holiday Singles Tournament.

Airway also staged its third annual Junior Christmas Tournament.

In the North Hills YBA Mailographic Doubles meet, there were six divisions: girls' prep, junior and senior divisions, and boys' prep, junior and major classes.

The leading scores: Connie McCotter-Clarke Anderson with 1222 for senior girls, Sandy Armstrong - Karen Kubik with 1100 for junior girls, Gena Case-Ann Bailey with 1024 for prep girls; Dave Wilson-Jerry Luth with 1210 for major boys, Randy Radaugh-Bill Love with 1221 for junior boys, and Bud and Mike Bellairs with 1148 for prep boys.

Airway's top scores were posted by Mark Ferguson and Raymond Steele at 1069 in the prep division, by Pat McBride and Peggy Gardner at 1120 in the junior division, and by Ralph Wyckoff and Bill Johnson at 1209 in the majors class.

The leaders will receive trophies and their scores will be mailed to the state YBA headquarters for consideration in the national standings.

In Airway's annual Christmas competition, the winners were Debby Quackenbush for a 171 game and Janet Lamberson for a 450 series among the girls, and in the boys class Richard Goldworthy had a 197 game and Tim Allen a 537 series.

The 300 Bowl tournament was led by Larry Walter's 650 total in the boys senior division. He was followed by Bill Horsey's 637.

Both are varsity football veterans at St. Frederick.

The senior girls leader was Barbara Saldan with 609. Elizabeth Boone was the top prep division girl with 502. No girls competed in the junior class.

Tom McKelvey topped the prep boys with 482, three pins better than Dave Poffenberger. Ross Flores' 592 in the junior

boys class was only six pins more than Dennis Grawley's total.

HEAD SHOTS

Colonial Lounge trimmed four games off the 300 Bowl team league lead Monday night to highlight action in the West Side Lanes Classic.

The top series of the night was Art Hebd's 681 on games of 235-235-211. Dwight Pugh had 673 (257-214) and Monroe Moore 672 (247-234).

There were 14 series in the 600 class and 65 games of 200 or better.

Fred Collier had a 254 and 676 combination in the Collier Lanes House League Monday. He combined with Ed Martin's 224-642 scoring to keep Roark Mobil atop the standings.

Westide Mobil dissolved its tie for second place by taking six points from Maguire's Auto. Another good showing was by Lee Brown with 246-649.

In the Columbia Avenue Baptist Mixed League at Airway Lanes last Saturday Harold Polsgrove qualified for an American Bowling Congress Century Club award and the house's 245 club with a 254 game.

He carries a 115 average. George Ratledge converted a 3-4-7 split.

The Airway Ladies Major Classic last week recorded a 232-2113624 series by Shirley Pointer. Peg Carter had a 545 and Marvel Scot hit 203-541.

Travelling Classic to Stop at Sylvan

The Pontiac Travelling Classic League will test the conditions at Sylvan Lanes beginning 1 p.m. Sunday as action resumes.

The competition in the league's last outing (at Primrose Lanes) featured the efforts of 300 Bowl to catch

Expect Air Battle in Hula Bowl Tilt

HONOLULU (AP)—A passing battle is anticipated at Honolulu Stadium Sunday when the North All-Stars meet the South in the Hula Bowl.

About 20,000 fans are expected to pack the arena at 7:45 p.m. HST (12:15 a.m. Sunday EST) to see the colorful football classic.

Both squads sharpened their passing attacks in drills Thursday. Southern California's Pete Beathard and Baylor's Don Trull did the firing for the South, and Ron DiGravio of Purdue and Pete Liske of Penn State threw for the North.

After the afternoon workouts, Roger Lopes of Michigan State and Milt Kanehe, Oregon, were named co-captains of the North and Jay Wilkinson of Duke and Jim Ingram of Baylor were nominated co-captains for the South.

league leading Airway Lanes and a one-man effort by Jerry Perna of West Side Lanes.

The 300 Bowl team moved within one point of the defending champion Airway squad with two victories, 17-3 over Cooley Lanes and 13-7 over Primrose in a make-up match.

Joe Foster led both victories with 234-218-six points and 247 for five points.

Perna led the West Side team to a 14-8 verdict over Howe's Lanes by bowling 221-268 for 10 of his team's total.

UPSET

Montcalm Bowling Center upset Wonderland Lanes, 11-7, as Pat Tinson hit 234 and Bill Smith 212 to offset Paul Horie's 223.

Huron Bowl topped Primrose, 18-14, as Tom Angello and Mike Samardzija, Jr. accounted for six points apiece with 259 and 256, respectively.

In the other match at Primrose, Sylvan Lanes edged Fairgrounds Bowling, 9-8, despite a 246 by Harold Pennell for the losers.

Brazil Netters Ousted in Bid for Tennis Cup

MIAMI BEACH, Fla. (AP)—The two top-seeded tennis teams are still in the running for the Sunshine Cup but both ran into trouble Thursday and Brazil, seeded third, was knocked out.

South Africa, seeded first, defeated Switzerland 2-1 by taking the doubles match as Robert Maud and Graydon Garner trimmed Fred Berli and Marcel Kunzler 6-2, 6-4. In singles, Maud defeated Berli 9-7, 6-0 but Kenzler won over Garner 3-6, 6-4, 6-4.

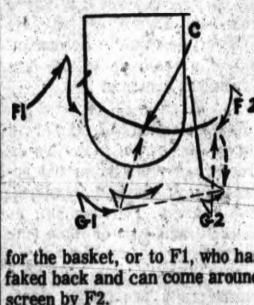

Second seeded U.S. players Mike Belkin of Miami Beach, and Bill Harris of West Palm Beach won by 3-0. Belkin defeated Caetano Dimaso, Italy, 6-2, 3-6, 6-4, and Harris won from Sergio Palmieri, Italy, 13-11, 3-6, 6-0. The U.S. won the doubles 6-6, 6-2.

West Germany toppled Brazil 2-1. Brazil's Tomaz Koch defeated Frank Arendt, West Germany, 6-1, 6-1. But Karl Fichtel, West Germany, trimmed Roberto Marcher, Brazil, 6-0, 7-5. Arendt-Fichtel defeated Koch-Marcher, 6-4, 6-4.

In other results, Mexico defeated Yugoslavia, 3-0; Sweden won over Argentina, 3-0, Spain defeated Israel, 3-0, Greece won over Japan, 3-0, and Australia down Belgium, 2-1.

ceive a pass from G1 directly behind F2 as he crosses the key area.

C then passes to G2 on a cut

for the basket, or to F1, who has faked back and can come around screen by F2.

This play succeeds for an easy basket whenever the guard on G2 turns his head toward the ball as G1 passes to C.

Stewards Unseat Rider

ARCADIA, Calif. (AP)—Jockey Ismael Valenzuela has been suspended for five days at Santa Anita Park. Stewards said he failed to maintain a straight course in Wednesday's fourth race.

Skiing: Good-Excellent

By The Associated Press Good to excellent skiing was reported at most Michigan winter resorts Thursday. Many slopes had fresh snowfall to improve conditions.

The report by areas: SOUTHEAST MICHIGAN

Good to excellent—Grampian Mountain; Summit.

Very good — Dryden, Irish Hills, Mt. Holly, Pine Knob. Good — Alpine Valley, Mt. Brighton, Mt. Christie.

EAST MICHIGAN

Excellent — Sheridan Valley, Lewiston; Bantz Apple Mountain, Freeland.

Good to excellent—Mt. Frederick, Frederick; Snow Valley, Gaylord; Au Sable Lodge, Gaylord.

Good — Silver Valley, Tawas; Ogemaw Hills, West Branch; Black Mountain, Onaway; Graying Winter Sports Park, Grayling; Major Mountain, Clare; Ski Line Roscommon; Otsego, Gaylord.

Fair to good — Fonoroe, Cummings; Timberline, Hubbard Lake.

Fair — Mio Mountain, Mio; Snow Bowl, Houghton Lake; Sylvan Knob, Gaylord; Mt. Mott, Farwell; Snowsake Mountain, Clare County.

WEST MICHIGAN

Excellent — Avalanche, Boyne City; Boyne Highlands, Harbor Springs; Boyne Mountain, Boyne Falls; Nub's Nob, Harbor Springs; Walloon Hills, Walloon Lake; Ward's Hills, Branch.

Good to excellent — Binder Park, Battle Creek; Briar Hill, Mesick; Caberfae, Cadillac; Crystal Mountain, Thompsonville; Eskar Ski Slopes, Middleville; Holiday, Traverse City; Missaukee Mountains, Lake City; Shanty Creek, Bellaire; Thunder Mountain, Boyne Falls; Winter Park, Newaygo.

Fair to good — Carousel Mountain, Holland; Pando, Rockford.

Valuable Tool for Students

Good Handwriting Means Better Grades

By LESLIE J. NASON, ED. D.

Dear Dr. Nason: You state that handwriting is a "neglected tool of the student." You also say it is through handwriting that the student translates his thoughts from his mind to paper—that his grades depend directly on this ability.

Then why is penmanship no longer taught in schools?

G. J. S., Falls Church, Va.
Answer: Under the Progressive concept it was erroneously thought that handwriting ability would be acquired by a student

when he needed it for writing reports and themes.

Drill, the Progressives said was meaningless, because there was no carryover from this type of activity to actual use.

Consequently, handwriting practice was discontinued by many schools. I contend handwriting is a muscular skill that can be acquired through practice.

Schools should take heed that improvement in handwriting

and better grades go hand in hand.

Dear Dr. Nason: With much help from me, my fifth-grade son is making passing grades. His grade in reading, however, remains the lowest. He doesn't seem to want to concentrate on what he reads.

Perhaps he doesn't know how to concentrate. He seems to "fight" himself. I know that until he really wants to learn, my talking and explaining is to no avail.

How does one instill the desire to study and learn in an active 10-year-old boy?

Mrs. G. B. C., Annandale, Va.
Answer: So long as your son sees himself as needing help to understand what he reads, your talking will be of no avail. Improved reading ability is his first need.

Someone skilled in remedial reading techniques should work with him. When he gains confidence in his ability to read and to understand what he reads he will begin to show interest in learning to study and assume responsibility toward it.

DR. NASON

He allows himself no time for recreation. What can I do to help him?

Mrs. C. P. G., Red Bank, N.J.
Answer: Suggest to your son that he discuss his study schedule with a college counselor. He should also have a conference with the professor of the subject he is failing.

The professor can give him valuable suggestions on the way in which this particular subject should be studied. Colleges provide these services but they are of no avail unless students make use of them.

(You can write Prof. Nason in care of The Pontiac Press. He will answer in his column questions of widest interest.)

By OSWALD JACOBY

On looking back at my bad hands of 1963, some seem so bad that I just can't believe anyone could have actually played them. I also find quite a few in which the results were bad, but I can blame bad luck and not myself.

With 18 high-card points and a fine fit for clubs I decided on a two diamond response to my partner's opening club bid.

His two-spade rebid did not discourage me in any way, shape or form, but I marked time with a three-club call.

Then he went to three spades and I knew that he was showing a five-card spade suit besides at least five clubs. With five spades and only four clubs he would have opened with a spade.

I was tempted to try either a Blackwood four-no-trump or a jump right to six clubs, but I was looking right at two potential heart losers and my partner had certainly not shown any evidence that he held either a singleton heart or the ace or king.

Astrological Forecast

By SYDNEY OMARR

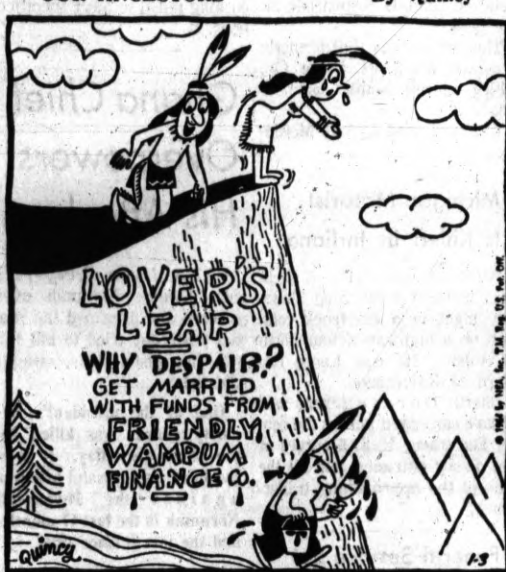

"The wise man controls his destiny." Astrology points the way. Check with business associates. Fine time for getting to know competition. Means turn on ARIES charm. Open doors to greater success through your personality. TAURUS (Apr. 20 to May 20): Even more influence, gain knowledge. Emotional "fireworks" result if you repress feelings. Key is greater self-expression. Applies especially with member of opposite sex. GEMINI (May 21 to June 21): You are now able to strike responsive chord where public is concerned. Your personal magnetism rating high. Get out and around tonight. Impress one who influences you. Take the initiative. CANCER (June 22 to July 22): Key is being reasonable. Means analyze thoughts, motives, and emotions. Find out the REASON for things. Don't act in haste. Take time to be CONVINCED. FINE evening indicated. LEO (July 23 to Aug. 23): Avoid scattering forces. Moving in all directions at once is foolish. Make plans. Carry them through. Check budget. Be sure you know how time and money are spent. VIRGO (Aug. 24 to Sept. 23): Court blessings. Be appreciative of recent "victory." Cycle remains high. Show willingness to take chance on personal abilities. If necessary, tear down in order to rebuild. LIBRA (Sept. 24 to Oct. 23): Not so good for trying to keep secrets. Best to be open, frank, forthright. Most reliable guide is Golden Rule. Cycle high. Have confidence. Change advocated. Relax from time to time. SCORPIO (Oct. 24 to Nov. 21): Strive for OBJECTIVITY. Face facts as they exist. Trying to gloss over situation not advised. Suggestion from friend may not "hold water." Far better to be SELF-RELIANT. SAGITTARIUS (Nov. 22 to Dec. 21): Day keyed by attitude of ACCEPTANCE. If you have to accept decision of one in authority, it will work out favorably. COOPERATION. CAPRICORN (Dec. 22 to Jan. 20): Read ARIES message. Take initiative. Community projects. Say YES to added responsibility. Your prestige due to rise. Diplomatic approach best. Close friend can prove valuable ally. AQUARIUS (Jan. 21 to Feb. 19): Changes due where income is concerned. Favorable if you are FLEXIBLE. Means be willing to make adjustments. Be determined, but not stubborn. Be firm, but not fanatical. PISCES (Feb. 20 to Mar. 20): Cycle starts climbing. Emotional burdens begin to lift. You now see your way clear. Read GEMINI message. Express cheer, good will, but be sure to obtain sufficient rest.

IF SATURDAY IS YOUR BIRTHDAY... you are capable of bearing up under tension. You were born when deadline is approaching. You are happy when there is "pressure."

GENERAL TENDENCIES: Rose-colored glasses removed. Facts revealed which contradict earlier optimistic reports. (Copyright 1964, General Features Corp.)

Deaths in Pontiac Area

MRS. THOMAS EDWARDS

Mrs. Thomas (Lucy) Edwards, 64, of 1126 Lakeview died this morning of a stroke. She had been ill five years.

Mrs. Edwards was a member of Central Methodist Church. Surviving are a son, Earl of Walhalla; four daughters, Mrs. Mary Craighead of Flint, Mrs. Gertrude Wright of Pontiac, Mrs. Gladys Smith of Tawas and Mrs. Margaret Parke of Alpena; 10 grandchildren; and 11 great-grandchildren.

Her body is at the Hutton Funeral Home.

EDWARD L. PACE

Service for Edward L. Pace, 50, of 389 1/2 Orchard Lake will be at 1 p.m. Monday in New Bethel Baptist Church with burial in Oak Hill Cemetery. His body will be at the Frank Curruthers Funeral Home after 3 p.m. Sunday.

Mr. Pace, an employee of Pontiac Motor Division, died Wednesday after a three-week illness. He was a member of the New Bethel Church.

Surviving are his wife Leatha, and a sister, Agnes of Pontiac.

JOHN RANKIN

Service for John Rankin, 66, of 122 N. Johnson will be at 2 p.m. tomorrow in Sparks - Griffin Chapel with burial in White Chapel Memorial Cemetery.

Mr. Rankin died yesterday after an illness of several months. He was an employee at GMC Truck & Coach Division and a member of the Reorganized Church of Jesus Christ of Latter Day Saints.

Surviving are three daughters, Mrs. Rosemarie Verville in California, Mrs. Edith Howard and Mrs. Marjorie Dillon, both of Pontiac; four sons, Russell of Pontiac, John in Germany, Paul at home and Richard E. stationed at Fort Gordon, Ga.

Also surviving are 11 grandchildren and a sister.

ELMER B. SAVAGE

Service for Elmer B. Savage, 60, of 181 Beach will be 1 p.m. tomorrow in the Melvin A. Schutt Funeral Home with burial in Perry Mount Park Cemetery.

Mr. Savage, a machinist at Pontiac Motor Division, died yesterday after an illness of three months.

He is survived by a brother, Stanley of Pontiac.

LAWRENCE E. LIGHT

HIGHLAND TOWNSHIP — Masonic memorial service for Lawrence E. Light, 79, of 3357 Mapleridge, will be 2 p.m. tomorrow at the Voorhees-Siple Funeral Home, Pontiac, under auspices of Austin Lodge No. 48, F&AM. Burial will follow in Perry Mount Park Cemetery, Pontiac.

Mr. Light, a retired employee of Chrysler Corp., Detroit, died Wednesday after a prolonged illness.

Two sisters survive.

MILLARD H. PRINCE

OXFORD — Service for Millard H. Prince, 74, of 56 W. Burdick will be 2 p.m. Sunday at Bossardet Funeral Home. Burial will be in Ridgeland Cemetery.

Mr. Prince died early today of a heart attack.

He was a member of the old Arnold School Board before the district consolidated with Oxford.

Surviving are his wife, Ethel; a son, Dean of Oxford, and two grandchildren.

Woman Is Injured in Hit-Run Mishap

Dorothy Brooks, 47, of 41 Putnam is in satisfactory condition at Pontiac General Hospital after being struck by a hit-run car yesterday in front of her house.

Mrs. Brooks told police she had just stepped out of her car at 7:40 a.m. when a black 1962 or 1963 Ford, heading north on Putnam, skidded into her.

The car continued on, according to Mrs. Brooks, who suffered an injured right hip.

Antitax Unit Eyes Plea on State Ruling

BERKLEY (AP) — Mayor George Kuhn announced today he is summoning his Vigilance Tax Committee, made up of suburban mayors, to an emergency meeting tomorrow.

Kuhn said the committee will consider, among other things, a possible appeal to the Michigan Supreme Court of a State Board of Canvassers ruling which threw but some 53,000 names on petitions through which the committee sought to force legislative action to control city income taxes.

The committee is demanding a vote of the people be a prerequisite to any city's levying an income tax. It also would outlaw a city's taxing wages of non-residents earned within that city.

Kuhn said the members also would consider a legislative program for submission to the 1964 legislature, which convenes next week.

The Berkley mayor said he also had written Gov. Romney asking that he include income tax restrictions in proposals he will submit in his State of the State message next Thursday.

State Slates Branch Tests

Manager Exams Set in Pontiac Feb. 22

A competitive examination for positions as branch managers of secretary of state offices will be held in Pontiac Feb. 22. The test will be given simultaneously in eight other cities.

The time and place of the test in Pontiac will be announced to applicants when they are informed if they have qualified for the job.

Applications can be obtained from the State Employment Security Commission, 242 Oakland.

Beginning in July, the State Civil Service Commission will switch the branch offices from the present fee system to control by salaried civil service personnel.

Willis M. Brewer, manager of the Pontiac branch since 1955, said he did not know if he would take the test.

Brewer, a Pontiac realtor and personnel director of the Oakland County Road Commission, said he probably would not make a decision until the attorney general rules on the legality of the move.

Secretary of State James Hare has asked for the opinion on the change in management.

Benton Harbor Woman Faces Murder Charge

BENTON HARBOR (AP) — Mrs. Odell Bonds, 32, will be examined Jan. 13 in the fatal shooting of Cleveland Moore, 34.

The Benton Harbor woman demanded examination Thursday on her arraignment in Municipal Court.

Police said Moore was shot at her home on New Year's Day. They said the woman admitted scuffling with Moore in an argument over money.

In Waterford Township

Bids Opened on High School Addition

Bids on the construction of an addition to Waterford Township High School were opened by the school board last night and referred to the architect for a recommendation next Thursday.

The combined low bids amounted to less than 2 percent above the estimated cost of the project.

Low among six bidders seeking the architectural trades contract was the Schurrer Construction Co. with a base proposal of \$316,000.

Sylvan Plumbing and Heating with a base proposal of \$81,670 was the lowest of five bidders for the mechanical trades contract.

ELECTRICAL TRADES — The low base proposal of \$36,306 for electrical trades was submitted by Kasler Electric Co. Three other firms bid.

Great Lakes Hotel Supply Co., with a proposal of \$18,000, was the lower of two bidders.

College Grant Is \$1 Million for Hillsdale

HILLSDALE (AP) — A \$1,060,000 grant to Hillsdale College by the Charles J. Strosacker Foundation of Midland was announced today by Dr. J. Donald Phillips, college president, and James B. Arnold, foundation president.

The grant is payable over a 10-year period and will finance the construction and equipping of a natural science building as a memorial to the late Dr. Strosacker, who was associated with the Dow Chemical Co. for many years.

Some \$50,000 of the grant was announced in October to cover the costs of preliminary plans and surveys.

The grant, payable over a 10-year period, will raise to more than \$3 million the value of capital improvements now under way or assured for the college. A student center-leadership development center complex to cost about \$2.1 million is under construction.

Dr. Phillips said it is hoped to break ground for the science building in 1964. The building will house biology, chemistry and physics departments.

State Library Unit to Meet in Pontiac

The Michigan Library Association will hold a meeting Tuesday at Pontiac's Adah Shelley Branch Library to explain the proposed new state aid formula for libraries to representatives of several area libraries.

A secondary purpose of the meeting is to welcome Waterford Township into the North Oakland Library Cooperative.

State Sen. Farrell Roberts and representatives Lloyd Anderson and Henry Hogan have been invited to attend the 10 a.m. meeting.

Library people from Waterford, Holly, Highland, Milford, Orionville, Clarkston and Oxford also have been invited.

Death Takes Wife of Lawmaker's Aide

WASHINGTON (AP) — Mrs. Jane Thompson Nordberg, 28, wife of Carl Nordberg Jr., of Mackinac Island, Mich., died Wednesday at George Washington University Hospital of leukemia.

Nordberg is an aide to Rep. Victor A. Knox, R-Mich.

A son, Carl, was born to the Nordbergs on Dec. 26. They have three other children, Karen, 4; Thomas, 3; and Catherine, 1.

Mrs. Nordberg's parents are Mr. and Mrs. Joseph Thompson, of Grosse Pointe, Mich.

NEW PHILADELPHIA, Ohio (AP) — Raymond M. Muehlhoff, 60, international president of the Metal Polishers Union since 1948, died Thursday after a long illness.

Empty Factory Burns Down

DETROIT (AP) — An abandoned Detroit factory where valves for fire hydrants once were made was destroyed by a spectacular, five-alarm fire Thursday night. One fireman was hurt when he fell 30 feet down a flight of stairs.

The blaze, third in three years there, was fought by 110 firemen using 22 pieces of equipment. The other two fires were relatively minor ones. Fire Marshal Bernard DeCoster said he believed vandals responsible for the fires.

The factory was that formerly occupied by Scott Valve Co., which moved south some 10 years ago.

It was located at 3910 McKinley.

Michigan Motorist Is Killed in Indiana

AUBURN, Ind. (AP) — A Michigan motorist was killed Thursday night in a car-truck collision on a highway detour north of Auburn. He was Lance Lee Horn, 24, Kalamazoo.

Sheriff Dorsie Likens said Horn's car edged across the center line where U.S. 6 curves at the detour entrance and hit the side of the approaching trailer-truck.

Funeral Service Set for Car Mishap Victim

LUDINGTON (AP) — Funeral services will be held Saturday for auto accident victim John Bimba, 77, of nearby Branch Township who died at Paulina Stearns Hospital here Wednesday. His wife, Mary, 73, died in the accident Dec. 13 on U.S. 10 some eight miles east of here. Mason County sheriff's men said the Bimba car collided head-on in a snowstorm with one driven by Elmer Flowers, 73, of Ludington, who remains in fair condition at the hospital.

One of the president's security guards was killed by the shots yesterday. It was the third unsuccessful attempt against the 54-year-old Nkrumah in the last 17 months and the fourth since 1956.

Officials said Nkrumah took the pistol away from the unidentified man, who was wearing a police uniform, and knocked him down before soldiers and police closed in outside Flagstaff House, the presidential residence.

"Don't hurt him. Don't kill him. Put your guns down," the president was quoted as saying.

Despite the fact the assailant was a police uniform, informed sources said it still was not clear whether he actually was a member of the force.

CONG SPRINGS TRAP ON VIET RANGER UNIT

BEN SUC, South Viet Nam (AP) — A battalion of South Vietnamese rangers waded through brush and grass for a surprise assault on a heavy concentration of Communist guerrillas.

As the rangers crossed the Saigon River, 30 miles north-west of the capital, they encountered only small "arms" fire. It looked like a sure government victory over the Viet Cong.

Instead, the Communists sprung a trap, and for six hours threatened the rangers with annihilation. Four rangers were killed, 17 were wounded, including a U.S. sergeant, and 30 still have not made it back to camp.

Only the rangers' superb fighting ability and training in the same tactics used by the Viet Cong averted a disaster, U.S. military advisers said after the action on New Year's Eve.

Target of the surprise attack was a Viet Cong battalion in Binh Duong Province.

The rangers crossed the Saigon River without incident. When the Communists put up heavier resistance, the rangers counterattacked, forcing the guerrillas back and swarming over their foxholes and entrenchments.

But the retreat obviously was meant to draw in the advancing rangers. From dug-in positions, the guerrillas opened a barrage of fire on the rangers, who were outnumbered 2-1.

"EYEBALL AWAY" — "We were looking at them across the trench lines just an eyeball away," a U.S. adviser said.

In a classic maneuver, the

award bids for construction of two new elementary schools and an addition to Cray Junior High School pending completion of a cost-trimming report.

OVER FIGURE — Opened three weeks ago, contractors' bids on the three projects were nearly 15 percent over the budgeted figure of \$990,000.

Smith & Smith Associates since has been negotiating with the contractors to reduce the cost by substituting materials and equipment and deleting where possible.

Board members hope to award bids next Thursday.

Also last night, the board was assured by the contractor that the Kettering High School running track would be completed this spring, and that the project would meet specifications.

TRACK PROBLEMS — Ed Hills, the school system's building and maintenance superintendent, reported that presently stones are prevalent in the track's cinder-clay mixture, that the track grade is inadequate and that a portion of concrete curbing failed to meet specifications.

City of Pontiac" be amended by adding to said ordinance Section 42B, said added and amended Section 42B to read as follows:

The parking of automobiles on property owned by the City of Pontiac which has been posted against such parking is prohibited and where notices have been posted, no person, firm or corporation shall park a motor vehicle, or any other vehicle, on such property. Enforcement of this provision shall be by police officers, or by removal of said vehicle to the motor vehicle pound. The Chief of Police is authorized to cause "No Parking" signs to be placed on any City owned lands where such restrictions are necessary.

Section 3 — All ordinances or parts of ordinances heretofore in force and effect which are inconsistent herewith are hereby repealed.

Section 4 — This ordinance shall take effect 30 days from and after final passage.

Made and passed this 20th day of December A.D. 1963 by the City Commission of the City of Pontiac.

ROBERT J. LANDRY, Mayor

Arbitrators Eye Argentine Duel

Three-Man Board to Decide on Grounds

BUENOS AIRES (UPI)—The pending duel between Defense Minister Leopoldo Suarez and former Air Secretary Martin R. Cairo was submitted to arbitration today.

A three-man board including two unpredictable elderly members was designated to determine whether there are grounds for a "gentlemanly encounter" between the two men.

The arbiters are Alfredo Palacios, an 83-year-old Socialist congressman; Benjamin Menendez, a 75-year-old retired general who led three unsuccessful revolts during his active career; and Congressman Carlos Rosillo.

The duel went to arbitration because seconds for the two men were unable to agree on arrangements for the encounter, which was to be fought with pistols.

CHALLENGED SUAREZ

Cairo challenged Suarez Wednesday, shortly after resigning from the cabinet as a consequence of one of Argentina's recurrent military crises.

He accused the defense minister, his nominal superior in the cabinet, of going over his head in military matters and of unduly delaying hearings on bad-check charges against a firm in which Cairo has a controlling interest.

Suarez offered his resignation yesterday as a technical gesture, but President Arturo Illia refused to accept it.

De Gaulle Plans Visit to Mexico; LBJ Talks?

PARIS (AP)—President Charles de Gaulle will make an official visit to Mexico next March, and he may meet with President Johnson before he returns home.

The French president told newsmen he probably will stop in Martinique and Guadeloupe, French islands in the West Indies, en route to Mexico. Asked if Johnson would take advantage of the trip to meet him on one of the islands, de Gaulle replied: "I cannot answer you on that."

Diamond and other minerals are present in the high mountains of Bastotland, but they have yet to be profitably mined.

Today in Washington

Red China Arms Cong

WASHINGTON (AP) — In the news from Washington:

RED ARMS: Seven tons of arms and ammunition captured by South Vietnamese army units in two actions against Communist guerrillas shortly before Christmas were of Red Chinese origin, U.S. officials said today.

This is not the first time Communist bloc arms have turned up in the fighting in South Vietnam, but it is the first sizable cache to be taken by the government.

KENNEDY COIN: Production of the new Kennedy half dollar probably will begin late this month and public distribution may start on May 29, the late president's birthday anniversary.

This is just an educated guess at this point, however, for no decision has been made yet.

There is a shortage of coins of all denominations, and once the Kennedy half dollars start rolling there probably will be no stopping them until hundreds of millions are produced over the next few years.

SMOKING STUDY: A report men's jobs on diesel freight and

on smoking and health by a special advisory committee will be presented to Surgeon General Luther L. Terry and to the public sometime this month.

The 10-member group has been at work for more than a year, and the report was first expected last summer.

RAILS: U.S. Dist. Judge Alexander Hotzoff will announce within 10 days his decision on a rail union challenge to an arbitration panel's finding in the work rules dispute.

JOB ELIMINATED

The board said 90 per cent — or about 40,000 — of the fire yard service could be eliminated and that the jobs of some 19,000 other train crew members could be reviewed.

The independent Brotherhood of Locomotive Engineers and three AFL-CIO unions, the Brotherhood of Railway Trainmen, the Switchmen's Union of North America and the Brotherhood of Locomotive Firemen and Enginemen, argued Thursday that the board exceeded the authority given it by Congress.

The panel's award is scheduled to take effect Jan. 25.

ROYALTY RETURNS — Princess Margaret and her husband, Lord Snowdon, arrive in London yesterday from Sandringham, England. The family spent the holidays with other members of the British royal family.

Fearless Forecast for '64 LBJ to Win by Landslide

By EARL WILSON

NEW YORK—What will happen in 1964? ... I'm so glad you asked.

I just happen to know, so here I go with my Fearless Forecasts.

Lyndon Johnson, of course, will be elected President in a landslide, with a more pronounced victory than in the last election, carrying California, New York, New Jersey, Ohio, Massachusetts, Illinois, Texas, Connecticut and Florida among other states. He will become known as "Lucky Lyndon."

Fidel Castro will be out on his whiskers in Cuba by Dec. 25, 1964. ... Cassius Clay will get slaughtered and settle down to writing poetry that doesn't rhyme. However he will like this kind of poetry. ... Billy Rose will marry Doris Vidor (who's now with him in Jamaica) and the gag will be that they're refurbishing Billy's town house here with "wall-to-wall money."

Claudia Cardinale will become the most-gaped-at-girl in the world, and rightly so.

Five top show business names will leave us during the year. ... Judy Garland will end her TV series after 26 weeks. ... Japanese food will start getting a big play in NY, thanks to the Saito and new Nippon. ... The New York World's Fair will eventually become a big hit but the critics in the beginning will blast it for its "lack of a Midway," etc.

To everybody's surprise, Elizabeth Taylor and Richard Burton will still be together at the end of 1964 although, as one commentator said, "they will have taken the first step toward separation ... getting married."

NBC by getting Jack Benny, Danny Thomas, the football games — and possibly Lucille Ball — will be hoping to overtake CBS. ... There will be several columnist changes in the NY press. ... The amusement business will bounce back because of the expected modification of the expense account regulations.

Just to make sure we're right on some of these fearless forecasts, we'd like to say that, by our careful prognostications, it appears fairly certain that Christmas, 1964, will fall on ... just a second now ... that's right ... Dec. 25.

THE MIDNIGHT EARL ...

Mary Martin and husband Richard Halliday are off to S. America to "count their chickens"—thousands and thousands that have hatched on their property in Brazil since their last visit. ... Barbra Streisand has started a new movement that bothers plastic surgeons: she refuses to get a nose job, preferring to stick with her old nose. ... Her campaign is for women to get and stay older than the husband is.

Cary Grant's friends here say that despite all the other rumored romances, his real feminine interest is Gerri Tully, the marketing consultant on E. 57th St. He invited her to Hollywood for the holidays. ... Just as June Taylor, the top choreographer was to leave for Palm Beach with her husband to be Jackie Gleason's guest for two weeks, she was taken to N.Y. Hospital instead for an emergency minor operation.

The late "Gorgeous George" was a seemingly vicious and almost cruel opponent in the wrestling ring—but he could be kind also. A few nights before his death, while in Jilly's bar, he learned that a veteran clean-up man in a nearby theater had died without relatives or money. A policeman had just remarked, "It looks like P.F.55—Potter's Field. "Gorgeous George," who had never known the man handed over a \$100 bill saying: "Maybe this will help a little."

WISH I'D SAID THAT: "My brother's really a worrier. Now he's worrying what'll come along one of these days and replace automation."

EARL'S PEARLS: Ronnie Martin had a wonderful time skiing. He and his gal never went outdoors once.

REMEMBERED QUOTES: "What is home without a mother? ... 'Dirty.' " "What happens to little girls who don't eat their meals properly? ... They probably grow up to be rich high-fashion models." ... That's earl, brother.

Utah Prisoners in 2nd Day of Strike for Better Meals

POINT OF THE MOUNTAIN, Utah (AP) — A sitdown strike at the Utah State Prison entered its second day today with about 450 inmates going without food to enforce demands for better meals and more leisure.

"We're going to let them sit," said Assistant Warden G. M. Fitzgerald. He said members of the Inmate Council told him the men would remain on strike until their demands were met.

Fitzgerald said the inmates want more and better prepared food and longer hours in the combined gymnasium-arts and crafts room.

"They eat better than I do," scoffed Warden John M. Turner, who was recovering from an illness.

As the strike began at 9 a.m., after breakfast, prison authorities locked the men in their cells and cut off electricity. Heating facilities remained operating.

UNTIL MONDAY

Fitzgerald said if the inmates did not return to their regular prison tasks today, they might go without food until Monday. He said the men do not work as a rule on weekends.

"And we wouldn't want to give them any freedoms or liberties over the weekend, only to have them sit down again on Monday," he declared.

The protest is the second act of prisoner dissatisfaction in a week. Guards used police dogs and fired shotguns over inmates' heads, when about 50 men attempted to riot over an early call to cells last Friday.

The prison's inmate population is 694. About 150 men at a farm dormitory outside the prison are not involved in the strike.

Pedestrian Is Killed

DETROIT (AP) — A man carrying papers with the name of Raymond W. Harris, 49, but showing no address, was killed Thursday night when struck by a car while walking in a road in suburban Van Buren Township.

Air Force Base, Scene of Sabotage, Now Is Closely Guarded

WILLIAMS AIR FORCE BASE, Ariz. (P)—Flood lights shine on the flight line at Williams Air Force Base as sentries guard the post's 215 aircraft.

This is a vastly different scene from that of a month ago when a lone patrol car roamed a relatively darkened area.

Then, in the predawn hours of Dec. 9 a person—or persons—slipped down the flight line, clipping wires on the landing gear of 61 two-seat T38 supersonic jet trainers.

The incident touched off an intensive investigation, and brought tighter security to the base, located 20 miles southeast of Phoenix.

WHO DID IT?

Was the damage caused by someone hoping to impede the nation's military power, by a person with a grudge, or by vandals?

"Frankly, I have no idea," says Col. William C. Lindley,

commander of the training wing.

"No comment," replies the FBI in Phoenix. "We're giving the investigation the full treatment."

Indications are investigators have made little progress.

Previously, four guards kept watch on the flight line during a 24-hour period. Now 80 guards are assigned in each 24 hours and flood lights have been installed.

The incident was bizarre

because of the nature of the damage. It consisted of cutting one or both wires which run along the landing gear on each of the planes.

One wire operates an emergency mechanism to prevent inadvertent collapse of the gear while the aircraft is on the ground.

The mechanism also allows the pilot to collapse the gear on the ground in case of extreme emergency.

The other was a cable operating blowers to cool electronic equipment.

Both circuits are inoperative when the aircraft is airborne and Lindley says loss of the systems would cause no danger.

"These wires are so obvious that it could not have gone undiscovered in routine preflight checks," Lindley says.

That's exactly how the damage was discovered.

Lindley ordered all aircraft grounded and splicing of wires began immediately after investigators finished their checks. Repairs were complete before the end of the regular working day.

Immediate cost of the damage was the loss of one training day and the wages to civilian and military repairmen who did the splicing.

While it may have cost less than several hundred dollars

for the initial repairs, Lindley says the long-range cost will be higher.

The spliced wires will have to be replaced.

And, the colonel adds, the biggest expense is the added guard now necessary.

TRAINED THOUSANDS

Williams Air Force Base has turned out thousands of combat pilots since it was established in 1941. It was the first jet training base and at present it

graduates some 300 U.S. and foreign jet pilots a year.

"This is not a Strategic Air Command base," one non-commissioned officer said. "We haven't had the security here that is necessary at SAC bases."

The 3,700-acre post, which has about 2,000 military personnel and 600 civilian employees, is surrounded by a fence. But this is designed only to keep cattle and other animals from wandering onto the air strips.

Gates to the post have been open with both military and civilians allowed to come and go pretty well as they please.

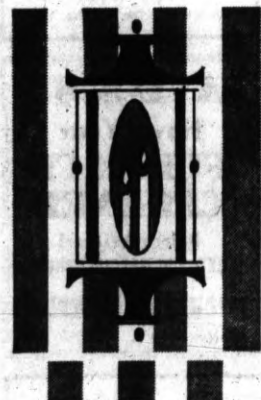

LITTLE REASON

The base, which over the years has had little reason to worry about security, suddenly finds itself with a problem.

"This is the first time anything like this ever happened here," Col. Lindley says. "We have taken steps to see it doesn't happen again."

USE A LION CHARGE WITH OPTION TERMS

Jaycees Launch Drive to Push Amendment

The Pontiac Area Junior Chamber of Commerce today launched a campaign to "support and explain" a proposed charter amendment to be voted on in Pontiac at a special election Jan. 13.

Richard Fitzpatrick, Jaycee president, and Louis Schimmel Jr., charter amendment committee chairman, announced campaign plans as

billboards urging adoption of the amendment started going up throughout the city.

"We plan to reach the public through newspaper, radio and

billboard advertisements," said Fitzpatrick.

"We also are distributing 5,000 bumper stickers for cars and plan to telephone some 4,

000 people urging them to vote for this important proposal."

PLAN TO SPEAK

Schimmel added that Jaycees also plan to speak before several service clubs.

"We have no intention to deal in personalities," he noted. "The most important thing is that people understand what this amendment means and

what it will do in regard to the city as a whole."

The amendment proposes that electors be allowed to vote for seven commissioners, one candidate from each district, in-

stead of only one from their own district in the April election.

Commission candidates would still be nominated by district vote alone at the March primary.

Pontiac Press Photo

MISTER SNOW — The snowman built yesterday by these two Avon Township teen-agers is a big one — over six feet tall. Barbara Wiseheart, 13 (left), and her friend, Pat Hammond, 14, had to climb up on lawn-chairs to finish the head and put on his scarf and cap. The snow sculpture, which took about three hours to create, is at the side of the Wiseheart home, at 2930 Crooks.

Pontiac Income Tax Suggested by Carter

City Manager Robert A. Carter yesterday said that "it's time people started thinking about a local income tax in Pontiac as a supplement to property taxes."

"At a time when Pontiac needs to expand services, it is cutting them," he noted, "because property taxes alone can no longer bear the whole burden of operating a city this size."

Warming Trend in Nation, City

The nation's weather pattern showed a welcome warming trend across most areas today bringing relief to wide sections of the South and East hit by severe snow and ice storms earlier this week.

The U.S. Weather Bureau forecasts mild through tomorrow for the Pontiac area with a low of 34 tonight and a high of 42 tomorrow. The outlook for Sunday is partly cloudy and mild.

The low temperature preceding 8 a.m. was 33. By 1 p.m. the recording was 46.

Pontiac Total: 625,268 Cars

Pontiac Motor Division produced 625,268 cars during 1963, the best year in its history.

While the auto industry as a whole did not reach the 1955 magic record of 7,942,125, Pontiac and other General Motors divisions helped set the pace to a second-best mark—an estimated 7,636,993.

Pontiac left its 1955 output of 581,860 far behind, along with 1962's total of 547,350.

Out of the 1963 production, Tempest models accounted for 143,616 units. This was slightly below the 145,676 output in calendar 1962.

The year past was also a good one for GMC Truck & Coach, which turned out 101,234 units, topping its 1962 production level of 89,789.

General Motors, paced by Chevrolet Division, set many production records as the corporation built 4,077,246 passenger cars in 1963 in the United States plus 264,340 in Canada.

CHEVY PRODUCTION

Chevrolet's 1963 production of 2,303,343 included 1,602,289 standard-size cars, 312,118 Chevy II's, 251,525 Corvairs, 113,780 Chevelles, 23,631 Corvettes and 483,119 trucks.

But GM's good showing in the market was not confined to its lower-priced line. Cadillac, its most expensive car, built 164,735 last year, topping a previous mark set in 1960.

Totals for other divisions show Oldsmobile production at 504,556, up from 458,359 in 1962 and an output of 479,399 at Buick, up from 415,892 in 1962.

For Ford Motor Co., 1963 car-truck production hit 2,388,597, up 3.3 per cent from 1962, and comparing with 2,614,588 made in 1955.

FORD FIGURES

Ford auto divisions turned out 911,496 Fords, 318,018 Fairlanes, 341,870 Falcons, 66,681 Thunderbirds, 118,815 Mercurys, 150,694 Comets and 33,717 Lincoln Continentals. The company built 424,729 trucks.

Chrysler Corp. reached a year-end output of 1,947,722. (Continued on Page 2, Col. 1)

Solve Disputes Peacefully—K

MOSCOW (AP) — The Soviet government has proposed an international agreement renouncing the use of force in settling territorial and frontier issues.

A digest of the message by the Soviet news agency Tass said Premier Khrushchev had told world leaders in messages delivered yesterday:

"At the present time such a situation has arisen when it is possible to practically pose and solve the problem of excluding from international life the use of force in territorial disputes between states."

The message says the international agreement should contain four main provisions:

First, a solemn undertaking by the parties not to resort to force to alter existing state frontiers.

Second, acknowledgment that the territories of states should not, even temporarily, be the object of any invasion, attack, military occupation or any other forcible measure directly or indirectly undertaken by other states for whatever political, economic, strategic, frontier, or any other considerations.

Third, a firm statement to the effect that neither differences in social and state systems, nor refusal to grant recognition or absence of diplomatic relations or any other pretexts may serve as a basis for the violation by one state of the territorial integrity of another.

And fourth, a commitment to solve all territorial disputes solely by peaceful means such as negotiations, mediation, conciliatory procedures, and also other peaceful means chosen by the parties concerned, in conformity with the United Nations charter.

AP Photofax

SIGN HERE — Sen. Barry Goldwater, R-Ariz., had new Phoenix Mayor Milton Graham autograph a cast on his foot following inauguration ceremonies for Graham and a new Phoenix City Council yesterday. To Gra-

ham's right is outgoing Mayor Sam Mardian Jr. Goldwater acquired the cast following an operation for removal of a calcium deposit from his heel.

Deficit Spending Cut Hoped

Budget Is Near \$100 Billion

JOHNSON CITY, Tex. (AP) — President Johnson's new budget will be in the neighborhood of a record \$100 billion, but he hopes to cut red ink spending below the current level.

The budget estimate for fiscal 1965, disclosed last night by a White House source, is less than anticipated. Still, it will be a new peak for government spending.

Soon after taking office Johnson suggested he would have difficulty keeping the spending total below \$102.5 billion or \$103 billion. He blamed unavoidable increases already authorized by Congress.

The reduced figure is in keeping with the economy drive he has called for since then.

HIGH REVENUES

Balanced against the \$100-billion spending total for the government year that begins July 1 will be forecast revenues of more than \$90 billion. However, Johnson will tell Congress that revenues on this scale are de-

pendent on early enactment of an \$11-billion tax cut retroactive to Jan. 1.

The combination of Johnson's spending and revenue predictions would yield an indicated deficit of less than \$10 billion.

A year ago, the late President John F. Kennedy recommended fiscal 1964 spending of \$98.8 billion, a new high. Kennedy forecast revenues of \$86.9 billion and a deficit of \$11.9 billion.

Johnson kept his economy campaign rolling Thursday. Postmaster General John A. Gronouski conferred with the President and then told a news conference the postal payroll will be trimmed by 5,000 workers in the next six months, and fund requests for expansion and modernization of facilities will be reduced from \$43 million to \$10 million.

HOUSING BILL

The President also conferred with Robert C. Weaver, administrator of the Housing and

Home Finance Agency. Weaver told newsmen the administration will send Congress a comprehensive housing bill calling for a significant stepup in the public housing program and expansion of Federal Housing Administration activities.

There also will be some brand new proposals, such as easy credit to help big subdivision developers put in water and sewer lines, and aid for low income families ousted by slum clearance activities.

Scranton Man of Year for Yale Law School

NEW HAVEN, Conn. (AP) — Yale Law School's Man of the Year is Gov. William W. Scranton of Pennsylvania, class of '46.

Scranton, often mentioned as a candidate for the Republican presidential nomination, was selected by the executive committee of the alumni association.

Friend Reveals Plan to Enter '64 Campaign

Arizona Conservative Will Try to Get GOP President Nomination

PHOENIX, Ariz. (AP) — Sen. Barry Goldwater, whose name means conservatism across America, will declare himself a candidate for the Republican presidential nomination today, a source close to the Arizona lawmaker said.

At the same time, the Goldwater associate said, the senator will announce plans to file for his third Senate term.

Goldwater will make his twin declarations at a private meeting with Arizona Republican leaders and a patio news conference at his sprawling, hillside home overlooking Phoenix.

The senator was said to feel he must formally enter the presidential race because of the groundswell of support and the hundreds of thousands of campaign dollars raised by his conservative followers across the nation.

Goldwater called 27 top Arizona Republicans to his Phoenix home to tell them of his plans. After he talks to them in his spacious study, he'll hobble to the patio to tell the nation his decision. The private gathering was scheduled for 1 p.m. Eastern Standard Times, the outdoor news conference a half hour later.

Goldwater's right foot is still in a cast after surgery to remove a calcium deposit from his heel.

WOULD WITHDRAW

Should Goldwater capture the presidential nomination, the source said, he would withdraw from the senatorial field.

Arizona Atty. Gen. Robert Pickrell has ruled Goldwater could run for both offices.

Reveal Views of Goldwater

PHOENIX, Ariz. (AP) — "Let's grow up, conservatives. We want to take this party back, and I think some day we can."

For the past 3½ years, Sen. Barry Goldwater, R-Arizona, has been in the forefront of what he calls a rising tide of conservatism in America.

"My basic conservative philosophy remains the same," he tells critics who say he has shifted his stand toward the middle of the road.

Here, in the words of Goldwater's speeches, interviews and news conferences, are some of the points in that conservative stance:

COLD WAR: "It hasn't come to my attention that the Russians have made any overtures for peaceful coexistence."

"It seems to me that we have done most of the talking in this area in a dangerous way, because in the remarks I have heard there is an indication of a lack of understanding of the situation." (Continued on Page 2, Col. 3)

From Coronary Heart Disease

Junior Executives Face Health Threat

(EDITOR'S NOTE—This is the second article in a six-part series on dieting, written by nutrition expert Gaynor Maddox.)

By GAYNOR MADDOX
Newspaper Enterprise Assn.
Junior executives face particular health threats. They tend to eat too much and exercise too little, according to Dr. George J. Christakis of the New York City Department of Health. He adds:

"Many of them overlook the warning that the incidence of coronary heart disease has been increasing in age groups under 50."

Christakis is director of the department's bureau of nutrition and its widely discussed "anti-coronary club."

"During the six years the club has been in existence," he reports, "most of the dropouts have been between 25 and 30."

"Although they know they are overweight and realize that overweight is a health and appearance hazard, they seem to lack motivation to stick to reducing and dietary goals."

"They say, 'Oh, well, I have lots of time to get my weight down. So I'll be back later when I am 40 or more. That's the danger period.'"

These men ignore the fact that it is far more difficult to lose weight at 40 than it is to prevent putting it on at 25.

The pattern of many sedentary young executives results in more calories than energy expenditure.

BELTLINE BOOM

The result is gradual extension of their once slender beltline.

"We find they usually eat a skimpy breakfast, no more

than a roll with jam and coffee."

"Then at the office the coffee cart with Danish pastry comes around," the doctor observes. "That means about 200 extra calories added to the day's total."

Lunch more often than not is a full-course meal rather than soup and sandwich. More extra calories.

STOP FOR DRINK

On the way home, many stop for a drink and a few salted nuts or pretzels—at least another 100 calories.

Dinner is usually topped off with a rich dessert.

After dinner, they relax before a television set and enjoy a late snack before going to bed.

Dr. Christakis believes such a pattern may well set the stage for future troubles. Certainly (Continued on Page 2, Col. 3)

LBJ, DeGaulle Meeting Seen

French Officials Hint at Confab in March

PARIS (UPI) — French officials are hinting that a meeting between President Johnson and President Charles de Gaulle may be planned, possibly in the French West Indian islands of Martinique or Guadeloupe.

De Gaulle will stop off in both islands on the way home from a visit to President Adolfo Lopez Mateos of Mexico in mid-March. French officials suggest this might furnish a convenient place for a Johnson-de Gaulle get-together.

From de Gaulle's viewpoint, it would have the further attraction that the meeting would be on French soil—something that de Gaulle, one of the world's greatest sticklers for protocol, would appreciate.

De Gaulle yesterday dropped what is interpreted here as a broad hint that something of the sort is under discussion behind the scenes between Washington and Paris.

WAS ASKED

At a new year reception for newsmen at the Elysee Palace last night, he was asked about the possibility of his meeting with President Johnson in Martinique or Guadeloupe.

He replied "I will answer you some day."

Officials interpreted this as a typical de Gaulle way of saying that something, in fact, is or soon will be in the works.

A meeting in Martinique or Guadeloupe, it is pointed out here, would give de Gaulle the protocol satisfaction of playing host to a man he regards as junior to himself in tenure of office.

Pontiac Total Is 625,268

(Continued From Page One) about 300,000 above 1962 and the best year since 1957 when the company made 1,222,338 units.

Dodge truck made 110,987, best year since 1962. Chrysler made 496,412 Plymouths, 421,301 Dodges, 111,958 Chryslers and 18,051 Imperials. American Motors produced 480,365, compared with 454,784 the previous year.

Retired General Dead

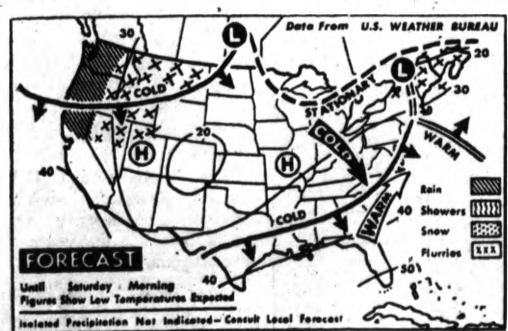

SAN FRANCISCO (AP)—Robert H. Wylie, 64, retired Army brigadier general and director of the Port of San Francisco from 1947 to 1964, died Thursday, apparently from injuries suffered in a fall Wednesday.

NATIONAL WEATHER — Snow is expected tonight over northeastern New England, the northern Plateau and parts of the central Plateau with rain and showers over the Northwest Pacific coast. It will be warmer over the eastern coast states, the southeast Gulf area and the central Plateau while colder weather prevails over the central U.S. from the Rockies to the Mississippi Valley. It will be fair to partly cloudy with little temperature change elsewhere.

Goldwater Ideas Outlined

(Continued From Page One) standing as to what Russia considers are the purposes of 'peaceful coexistence.'

"We have peace in this world tonight only because Gen. Eisenhower and John Foster Dulles had the guts to proclaim brinkmanship."

FOREIGN POLICY: "People have accused me of advocating a foreign policy that will bring war. I deny this emphatically. If we maintain strength we need never go to war because we're the most powerful nation on earth."

UNITED NATIONS: "I believe that the United Nations' value is to be found as of today in the form of a debating society, for no one can prove that it is a peace-making or peace-keeping organization."

"I would make of the UN, then, the best debating society in the world, and I would require each of its members to pay its dues or be dropped from membership or, an alternative, not be allowed to vote."

FOREIGN AID: "If we have to live with foreign aid—and I don't think we have to live with foreign economic aid—I think it should be used as a rifle aimed at specific areas where we can gain an advantage over the Russians."

"I would rather see foreign

economic aid money channeled into technical assistance and the Peace Corps concept."

CUBA: "I disagree with these cry babies... who say anything we do against Cuba will result in a nuclear holocaust... Russia is not going to risk losing her world empire over a tiny island in the Caribbean."

RUSSIA: "I have always favored withdrawing recognition from Russia... I think we lent dignity to a movement that doesn't deserve the respect that goes with formal recognition."

STATES RIGHTS: "...The ground has shifted seriously and significantly beneath the structure of state powers. These powers... have been siphoned off into the national government, the central government..."

CIVIL RIGHTS: "My firm conviction in this matter is that desegregation should be conducted at the state level without federal intervention..."

JOHN BIRCH SOCIETY: "...I have no intention of denouncing members of the society as long as their remarks are temperate and in keeping with the decency called for in American politics..."

GOVERNMENT SPENDING: "This whole idea of trying to ease unemployment and growth problems through the use of printing press money will get us into more trouble than we are in already..."

Threat Faced by Executives

(Continued From Page One) overweight. Possible diabetes. And most likely a high serum cholesterol count.

He says: "We know from clinical experience that by a prudent diet and weight reduction in the overweight, we can lower the serum cholesterol count significantly."

POLYUNSATURATES

"It can also be lowered by diet relatively high in polyunsaturated fat in young men who are of normal weight."

"The rate of increase in serum cholesterol is highest around the age of 25."

"The exact relationship between high cholesterol and heart disease has not yet been definitely established but there is circumstantial evidence a relationship exists."

"It would seem wise to keep the level low."

ECONOMIC ASSET

"Modern industrialists realize that an executive staff of lithe young men is an economic asset."

"Many provide gymnasiums and encourage active recreation."

"Employe cafeterias and dining rooms usually offer well-balanced luncheons."

"Their menus often print the calorie count of each dish."

"Some restaurants do the same thing."

"Such calorie-alerting menus can help a young man calculate whether his meal is within the range of his energy expenditure."

Dr. Christakis adds, "The sooner the junior executive establishes the habit of prudent diet and regular exercise, the more youthful and fit he will be for his business and social life. And the years ahead will hold less threat of coronary heart disease for him."

Birmingham Area News

Adult Classes to Teach Variety of Skills

BIRMINGHAM—Foreign languages and photography, water colors and woodworking are among the 63 courses which the Birmingham School District will offer to adults this winter.

Under the school system's continuing education program, men and women can learn or improve their French, German, Spanish or Italian.

They can develop skills in such classes as oil painting, drawing, knitting, sewing, upholstery, furniture refinishing, general woodworking, pattern drafting, band and piano.

Recreational activities include square dancing, ballroom dancing and bridge. Among the skills for use in home or office are shorthand, typing, office machines, executive secretarial and business English.

SELF-IMPROVEMENT

Classes directed toward self-improvement are speech, investments, interior decorating, psychiatry, creative writing, creative problem solving and charm and poise.

Registration begins Monday with classes starting Jan. 20. Both residents and nonresidents can enroll at the Board of Education office, Chester and Martin.

William B. Bachman Jr. and Edmund Steeves have been elected to the board of directors of the Community House.

Both men are Bloomfield Hills residents and have backgrounds in the advertising and public relations field.

Bachman, 715 Oakleigh, is senior vice president and general manager of McManus, John and Adams Inc. advertising agency and has been with the company since 1947.

He served as 1963 fund drive chairman for the Community House.

FIELD DIRECTOR

Steeves, 3660 Forest Hill, is field operations director on the public relations staff of General Motors Corp.

Before joining GMC in 1954, he was a correspondent for United Press International.

For the past several months, Steeves has been on the president's advisory council of the Community House.

The two new directors replace William H. McLaughy, who has moved to New York, and John Stevenson, who has resigned from the board but will continue to work for the Community House on the president's advisory council.

Arthur C. Hindle
Service for Arthur C. Hindle.

50, of 2883 Colonial, Bloomfield Township, will be 1 p.m. tomorrow at the Vasu-Lynch Funeral Home, Royal Oak. Burial will follow in Elmwood Cemetery, Detroit.

Mr. Hindle, production control manager for Detroit Engineering Co., Detroit, died yesterday of a heart attack. He was a member of the Michigan Bar Association.

Surviving are his wife, Esther; his mother, Mrs. Edgar King of Detroit; two daughters, Mrs. James Parker of Kansas City, Mo., and Cheryl J., at home; and a granddaughter.

3 Charged in Sinatra Kidnaping

LOS ANGELES (AP)—A federal grand jury—after hearing testimony which reportedly included that of Frank Sinatra Jr. — dealt swiftly with three men accused of kidnaping him. All three were charged with six counts of kidnaping, conspiracy, placing ransom calls, and possession of ransom money.

No quarter was shown John William Irwin, 42, first of the trio arrested, who was reported to have helped the FBI after having his own brother turn him in.

In fact, it was disclosed, the FBI didn't need Irwin's help to crack the case.

HEARING OVER

The grand jury concluded its hearing on the case Thursday with the presentation of a true bill against the three men—Irwin, Barry Worthington Keenan and Clyde Joseph Amsler, each 23.

News men were told by employees in the Los Angeles federal building that young Sinatra was taken to the jury's hearing room on the sixth floor in a freight elevator, in order to avoid news men.

The three defendants will be arraigned Monday.

Malayan gibbon apes have been known to travel a distance of 40 feet while swinging through trees. They are well coordinated and good judges of distance.

Controversy Leaves Mackinac Island Almost Isolated

MACKINAC ISLAND (AP) — This summer tourist community — noted for its ban on motor vehicles — now doesn't have any lake or air transportation, and is beginning to feel the pinch.

Air service to and from the island's lone airstrip to the mainland was curtailed Dec. 10 by the Michigan Park Commission. The last regularly scheduled boat left the island early Tuesday morning. The island is ice-bound all winter.

Except for telephone and telegraph service, Mackinac Island 640 residents virtually have been isolated ever since.

The island is located in the Mackinac Straits at the head of Lake Huron between the state's upper and lower peninsulas. Permanent residents live in the

City of Mackinac Island. The rest of the land is a state park. The closest mainland city is St. Ignace, an Upper Peninsula community about five miles due west.

HAVING TROUBLE

"We are having our troubles," said Mackinac Mayor Ray W. Smith. "But we're not in dire straits yet."

Smith said the island's U.S. Coast Guard station, helicopters from nearby Kincheloe Air Force Base at Sault Ste. Marie, and Moral Re-Armament — which owns an island-based barge — have agreed to provide emergency transportation.

"But mail delivery or food isn't classed as an emergency," Smith said.

Francis Doud, who operates the island's only grocery store, says he has enough staples to last out the winter, but added "bread, milk and fresh vegetables will be gone in seven days."

CAN'T GET BACK

Smith said some teachers have been unable to get back to the island's school system after mainland holidays. The school lunch program for 136 children is in doubt, Smith said, because federal surplus food cannot be shipped in.

The island faced the first problem Thursday when Mrs. Ellen Dufina, 88, the mother of island Postmaster Emerson Dufina, died. The Coast Guard was not empowered to transport the body, Smith said, so MRA vol-

Area-State News

united its barge to bring a casket and mortician from St. Ignace. The island has a doctor and medical center, Smith said, but "we sometimes need a hospital."

Meanwhile, state officials are involved in a controversy over the airstrip, built 30 years ago as a Works Progress Administration (WPA) project.

Last fall, during hearings for an expansion program, the Michigan Aeronautical Commis-

sion (MAC) announced the airstrip was considered unsafe.

LICENSED SERVICE

Each winter, the State Park Commission has licensed the Al Phillips Flying Service to operate commercial aircraft service to and from the island. Chairman Walter Murray said the MAC waived restrictions in previous years.

To clarify the park commission's authority, Murray asked Atty. Gen. Frank Kelley for a ruling. Last Dec. 10, Kelley said the airstrip could continue oper-

ating as it had. But he ruled against expanding the airstrip into a commercial airport which would use state land.

To Murray, an attorney, this meant "we could operate the airstrip, but couldn't own, maintain or acquire it." Murray said the park commission felt the ruling was "inconsistent" and asked for another.

Then the park commission ordered the airport closed. "We can't operate a death trap," Murray explained. "No one's ever been killed on flights up there, but it could happen tomorrow."

NEW RULING

A spokesman for Kelley said in Lansing Thursday a new ruling is coming "very shortly"

but it will not affect the position stated by Kelley Dec. 10. The original opinion neither suggested nor intimated closing the airstrip, he said.

Murray said the awaited ruling concerns the park commission's authority to operate an air shuttle service, to maintain the airstrip, and commission liability if it goes on without authority.

He said funds for the airstrip expansion are available, including a \$38,000 bond issue approved by island voters, and matching state and federal funds.

State Sen. Tom Schweigert, R-Petoskey, reportedly has asked

Gov. George Romney what he would do about the dilemma.

ROMNEY REPLIED

Romney was said to have replied Thursday that his hands were tied by the law but he had asked the Coast Guard to handle any emergencies.

Schweigert—who thinks the affair is an "intra-park commission squabble" — has offered Murray help to put a bill before the legislature to authorize airport expansion. The legislature reconvenes Jan. 7.

"It looks like we're getting the run around," says Mayor Smith. "I've talked to the attorney general, the park commission and the governor. Maybe there's a good reason for this thing. But it doesn't help us."

In Rochester District

Group to Analyze Schools

ROCHESTER — Under guidance of their new officers, all three subgroups of the Citizens Advisory School Study Committee will meet Tuesday and begin their analysis of the Rochester school system.

Included in the subcommittees is one which will study buildings and sites, headed by

Mrs. D. G. Kemler, 5900 Cobb Creek, Oakland Township.

A. E. Gurley, 2549 Stoddleigh, Avon Township, will lead the curriculum study group. The third committee, which will concentrate on vocational education, will be supervised by chairman Bernard Hill, 575 Sarsfield, Avon Township.

New general chairman of the citizens advisory committee is Frank R. Wolff, 241 Reitman, Avon Township.

AT 7:30

All three subcommittees will meet at 7:30 p.m. The building and site committee will meet in Woodward Elementary School, and the other two groups will

convene at the board of education offices adjacent to Central Junior High School.

Wolff said although the reactivated citizens committee is already fairly organized, any residents desiring to join one of the subcommittees should attend Tuesday's meeting.

Throughout the remainder of the academic year, the building and site group will concentrate on examination of the recent additions, the preferable style of school architecture, population growth and immediate and long-range school needs.

Analyzing the students' courses, the curriculum committee members, will aim toward easing the transition from junior to senior high school. As the year progresses, other topics will be studied.

VOCATIONAL TRAINING

The possibility of establishing a vocational training school in the area will be one of the items investigated by the vocational education committee.

Also on their agenda for this year are study of the various types of vocational training and analysis of the effect of vocational training on dropouts.

In addition to being open to all residents of the school district, the committee welcomes representatives of local civic groups.

Keego Harbor PTA Sets Play Session

KEEGO HARBOR — "The Family That Plays Together Stays Together" is the theme of Tuesday night's meeting of the Roosevelt School PTA.

The recreation session will be held in the school gymnasium from 7 to 8:30 p.m.

All members of school families are invited to attend the program, under the direction of Donald Grothe, father vice president.

Among the activities scheduled are volleyball, checkers, ping pong and shuffleboard.

Traffic Deaths Double

EAST LANSING (AP) — Traffic accidents have killed 12 persons in Michigan so far this year, provisional figures compiled by state police showed today. There were six traffic deaths at this date last year.

SEEK OFFICIAL HELP — Wives of two U.S. Army officers jailed in North Korea were in Washington today to confer with officials on efforts being made to get their husbands released. From left are Sen. Philip Hart, D-Mich.; Mrs. Charleton Voltz of

Frankfort, Mich.; Mrs. Ben Stutts of Florence, Ala.; and Roger Hilsman, assistant secretary of state for Far Eastern affairs. The captains were aboard a helicopter shot down in May. The United States said the craft crossed the boundary accidentally.

Chamber Chief Takes Office

New Men Serving Rochester Area Unit

ROCHESTER — William W. Toussaint, a senior customer business representative for Detroit Edison Co., is the newly elected president of the Rochester area Chamber of Commerce.

Toussaint, three other officers and six new board members officially took over their chamber positions Jan. 1.

Walter Rewold, owner of Village Cleaners, is new vice president and Donald Foss, owner of Milco Specialties, will serve as treasurer of the organization this year.

Re-elected to the secretary's post was Mrs. Betty Levick, owner of Rochester Secretarial and Answering Service.

ADDITIONAL JOB

In addition to his new job as treasurer, Foss is also on the board of directors this year.

Others elected to the board include local realtor Neil Hartwig; Harold Milton, owner of Milton's Fuel Oil; and Matthew Patterson owner of Patterson Motor Sales.

Rounding out the list of new directors are Robert Schueller, manager of the Rochester Branch, Community National Bank; and Wilson Severance, local attorney.

Study Groups to Gather at Oxford Tea

OXFORD — Members of extension study groups throughout the Oxford district will gather at a 1 p.m. tea Tuesday at the Methodist Church education building.

Entertainment, education and fellowship will be included on the program, with a preview showing of new horticulture slides.

A new representative and alternate will be elected at this meeting, to which those interested in joining or organizing a study group are invited.

The education building is on East Burdick just east of M24.

Fire in House Kills

Widower in Lansing

LANSING (AP) — A 58-year-old widower who lived alone burned to death New Year's Day, apparently after his clothing ignited from a stove burner.

Police said a neighbor girl who often does housework for Donald Bowerman found his body Thursday.

Home of Publisher Damaged by Blaze

Lapeer Township —

Flames which caused more than \$10,000 damage yesterday to the home of Robert M. Myers, Lapeer County Press publisher, broke out again today in the walls of the one-story house.

Lapeer Fire Chief Matthew Dougherty said most of the damage to the home, located at 1062 Morris, was caused by heat and smoke.

About noon yesterday Myers was awakened by smoke in his home, where he was recovering from the flu. He found the phone was dead when he tried to call for aid.

Myers then ran, in his stocking feet, to a nearby radio sta-

\$70,000 HOME

The fire, of undetermined origin started between the concrete brick house and the garage. The home is valued at more than \$70,000.

Before firemen could bring the blaze under control flames gutted a vestibule and closet off the kitchen.

Heat and smoke spread throughout the house, according to Dougherty, and ruined all the carpeting as well as large plate-glass windows which ran the length of the home.

The house was fully insured, Dougherty said.

AGAIN CALLED

At approximately 8 a.m. today Lapeer firemen were again called to the home. They found rugs smoldering and the fire going into the wall partitions and the attic, Dougherty said.

Within an hour the fire was again extinguished.

Dougherty said firemen were able to control the blaze without too much water, by using a high pressure fog.

Milford OKs Thoroughfares

MILFORD — The planning commission last night approved a thoroughfare plan which will serve future development here.

Concerned mainly with right-of-ways, the plan designates major and local streets. It is "now very innocent and will have very little immediate effect," according to Manager Donald G. Weidner. "But it will notify future developers that there's 10 feet there the village might use."

Major thoroughfares will have 86-foot right-of-ways and "collector" streets will be assigned 66 feet.

In the former group are Milford, Commerce, General Motors, West Huron and North Milford roads. The latter group consists of First north of Summit, Main south of Huron, Martindale, Oakland to Old Plank, Old Plank, Peters and Summit. The plan was accepted last night after being reviewed at a public hearing.

Fire Damage Up in 1963

LANSING (AP) — Fires burned over 8,415 acres of forest and grasslands in Michigan in 1963, up from the 6,267 acres devastated the previous year, the Conservation Department says.

Most of the damage was done in the spring, particularly in April.

Nearly 3,550 acres burned in April, compared with 1,855 acres during the critical fall period,

NEW BRIDGE COMING — Work has started on the new \$57,184 bridge on Avon Road near Livernois, Avon Township, which will replace an old facility where the two roads meet. Being built by the A. J. Williams

Construction Co., Southfield, the new Clinton River crossover will be two lanes wide. It is one of nine currently under construction by the Oakland County Road Commission and paid for, in part, by a federal grant.

Five Agricultural Specialists to Head Imlay City Program

IMLAY CITY — Five agriculture specialists will be featured speakers on the annual Muck Day program in the American Legion Building here Jan. 14.

Final arrangements for the all-day event, which begins at 10 a.m., were announced today by R. S. Lincoln, Lapeer County extension director.

One of the speakers will be Willard A. Cutler, extension specialist in agricultural engineering at Michigan State University. He will discuss irrigation and water level control.

Potato varieties for muck soils will be the subject presented by Richard W. Chase, MSU extension specialist in farm crops.

WEED CONTROL

Clark Nicklow, MSU extension specialist in Horticulture, will talk on new varieties and chemical weed control.

Management of muck soils will be the topic discussed by Robert Lucas, MSU extension specialist in soil. He also will

show colored slides of his recent trip to Russia.

Albert Festerling, farm labor supervisor for the Michigan Employment Security Commission at Bay City, will report on the labor situation for 1964.

Although the event is designated as Muck Day, much of

the information presented also will be of interest and value to vegetable growers on mineral soils, Lincoln said.

All growers in the area are invited to attend.

A complimentary noon luncheon will be served by the Imlay City Chamber of Commerce.

State Rights Unit Plans to Meet After Swearing-In

LANSING (AP) — The eight members of the state's new Civil Rights Commission planned to hold their first meeting today immediately after being sworn by Gov. George Romney.

First on the agenda of the nation's first constitutionally-created civil rights agency were organizational matters.

Cochairmen John Feikens and Damon Keith and commission members intended to consider applications for a commission director.

DIFFERING BACKGROUNDS

The commission members have backgrounds as attorneys, clergymen and business and labor executives.

Feikens, an attorney, once was president of Detroit's Housing Commission.

Keith and another Detroit, Sidney Shevitz, also are attorneys. Shevitz is president of the Jewish Community Council of Metropolitan Detroit.

Clergy members are the Rev. A. A. Banks of Detroit and the

Rev. Theodore La Marre, of Saginaw.

OTHER MEMBERS

Other members are former Ford Motor Co. Vice President William Gossett, American Motors Corp. Board Chairman Richard Cross and Grand Rapids Regional United Auto Workers director Kenneth Robinson.

ANNETTE K. MINCHELLA

Mr. and Mrs. Raymond Minchella, 47691 Deguire, Avon Township, announce the engagement of their daughter Annette Kathleen to Wayne L. Mickelson. The prospective bridegroom is the son of Mr. and Mrs. Wayne L. Mickelson Sr., 430 E. Avon, Avon Township. A late summer wedding is planned.

Appeals Court Worries Judge

Claims Costs Could Break Wayne County

DETROIT (AP) — Recorder's Judge W. McKay Skillman says provisions of the new State Constitution setting up a nine-member court of appeals "may well bust Wayne County financially."

The jurist, who began his 40th year on the bench with advent of the New Year, said he had no quarrel with the provisions guaranteeing the right of appeal in every case, but added: "If we (Recorder's Court) are going to have to provide the funds, maybe we will have to do it with a federal grant."

The new constitution, effective last Wednesday, gives all citizens the right of appeal and says that in the case of indigent persons the cost will be borne "by the court of record" (origin).

NOT GUARANTEED

Since 1927 the right of appeal from Recorder's Court was not guaranteed as a right, "but for a good cause shown."

Costs of an indigent's appeal not only includes his attorney's fees, but the cost of printing a transcript of the trial, Skillman said, adding that his court reporter estimates the cost of printing a transcript runs between \$150 and \$200 for each full day of trial.

"This (constitutional change) may or may not be a good thing for Recorder's Court," Skillman said. "When a man is tried and he realizes he can appeal without cost to himself, the new court will be swamped with appeals."

In 1960 Recorder's Court paid out \$232,060 in fees to attorneys in 2,456 cases where defendants could not afford to hire an attorney.

Conditions Good at Kensington

Snow now blankets Kensington Metropolitan Park near Milford providing good conditions for winter sports enthusiasts.

Two to three inches of snow cover the sledding and tobogganing hills which are popular with area residents this time of year. The site includes convenient parking and a shelter with a fireplace.

The skating rink on Kent Lake in front of the boat rental building is now in operation. This building is open daily from 10 a.m. to 10 p.m. through Sunday, a special schedule in effect during the school and college vacation period.

Effective Monday, weekday hours of operation will be 2:30 p.m. to 10 p.m. Weekends the building will be open 10 a.m. to 10 p.m.

ICE IS THICK

Ice is now 6 to 8 inches thick at Kent Lake in Kensington Metropolitan Park, where fishermen report good catches of crappies and bluegills. There are 25 fishing shanties on the lake.

For winter sports conditions, persons may call the park office.

SKYLINE SKI LINE — Ski enthusiasts receive instructions high above Brussels on the roof of a department store. About the only way this site resembles a proper ski setting is that it is high. The store has its own plastic ski slope.

Pontiac on Carter's Schedule

Bowling King Set for '64 Tour

Akron, Ohio—Tuesday is sort of a D-Day for Don Carter on the Professional Bowlers' Association tour.

That is the day Carter sets out on a new year of bowling competition, still ahead of the field after four years of intense competition; but with the knowledge that the gap narrowed perceptibly in 1963.

During these intense years, Carter has won six PBA titles and \$77,632 from PBA tournaments alone. In that same period of time, another St. Louisan, Dick Weber, has won \$73,323 and Harry Smith, now of Baltimore, \$72,395.

Carter was not able to compete in the first two Florida

tournaments, and as a result, he spotted his two erstwhile opponents something of an early lead for '64. Weber has won \$1,360, and Smith \$1,170 already.

D-Day for Carter is actually the beginning of the \$25,000 St. Louis PBA Open.

There, he will not only be facing his hometown strong line St. Louis professionals; but also a number of the tough youngsters spawned by the quest for a portion of the million dollars now distributed annually on the PBA tournament trail.

LOCAL ENTRIES

Among the latter group are Pontiac's Mike Samardzija Jr., and Monroe Moore. Both will compete in the St. Louis tournament.

Carter appeared in the Pontiac PBA open last season and is expected to return in March for the North American Open at 300 Bowl.

Carter a year ago suffered a fracture of his right big toe while vacationing in Florida.

Although he bowled fairly well in the winter of 1963, he never fully recovered his timing, and a long layoff in early summer added to his inability to get back on the track.

In fact, for the first time in bowling history Carter failed to win at least one major bowling title in a one year period.

The year was not by any means a washout for the soft-spoken St. Louisan, however. He won nearly \$16,000 from PBA tournaments, finished third in both the National All-Star and the ABC Masters, picked up \$5,000 for beating Weber in a CBS television bowling spectacular, and added winnings from Make That Spare, all of which added up to nearly \$35,000 from competition alone, very good in anybody's book.

Following the St. Louis PBA pinfest, Carter receives an acid test in the National All-Star in Dallas, where he finished a close third behind Weber and Welt last year.

This will be his first lengthy test since the PBA National Championship event in New York in mid-November and the World's Invitational a week later.

Carter feels now that he is in the right frame of mind to make good showings in both the St. Louis, and the All-Star tournaments.

Veteran observers of bowling tournaments know that Carter is still the man to be feared in long-haul competition, because he conditions himself into the right frame of mind and body.

It is his opinion that the jump is bigger than many juniors realize and many good bowlers can be hurt not only on their technical approach to the game, but also their confidence may suffer.

Samardzija began bowling in the Huron Bowl Classic when he was 17 and feels it helped rather than hindered him. He is a believer in the adage that stronger competition makes a better athlete.

And the older team members usually will work with the younger ones, he notes.

Perhaps the key to the problem is the extent to which the young bowler plans to pursue bowling. Some may want to make it a career and certainly could profit from the exposure at an earlier age.

But young minds can be easily influenced and swayed, and the advice and guidance of a parent on whether to retain one's junior rating or not can be very welcomed and beneficial.

NO ROADBLOCK

Word from Airway Lanes reveals that the M59 establishment will not be shut off from traffic during the construction work on the highway the next six-eight months.

Some rumors had the merchants from Elizabeth Lake Road to Airport Road being blocked off during the period, but are not true.

Some detouring will be necessary and maps are being prepared for customers' convenience. An M59 merchants association is being incorporated with Airway proprietor Frank Benning as president.

The group will work together not only during the road widening but also on other projects to improve the situation of M59 merchants in Waterford Township.

Oilers 'Defeat' Lions

HOUSTON (AP)—The Detroit Lions lost another draft choice to the American Football League Thursday. Alabama halfback Benny Nelson, No. 5 choice of the National Football League team, signed a contract with the Houston Oilers.

By JERE CRAIG

The improvements bowling is bringing in the area of youth participation in the sport are creating another responsibility for parents of today's younger set.

More and more bowling proprietors and officials are becoming aware of the potential income represented by the teen-age and even younger members of society.

The American Bowling Congress has had its junior organization for some time and this year the Bowling Proprietors Association of America has begun actively to support the Youth Bowling Association programs.

There are strict limits in which junior bowlers must remain to retain their eligibility for youth or junior bowling sponsored events.

These limits do not include bowling in adult leagues which many of the better young bowlers are anxious to do.

Only last week in a local keg tournament for children, a teenage boy rolled a winning 644 series but was disqualified when it was discovered he participated weekly in an adult league.

Pontiac's leading professional bowlers, Monroe Moore and Mike Samardzija Jr., are on opposite sides of the debate over the advisability of faster competition for a teen-ager.

Moore definitely feels youngsters should stay in the junior program until they've completed high school.

It is his opinion that the jump is bigger than many juniors realize and many good bowlers can be hurt not only on their technical approach to the game, but also their confidence may suffer.

Samardzija began bowling in the Huron Bowl Classic when he was 17 and feels it helped rather than hindered him. He is a believer in the adage that stronger competition makes a better athlete.

And the older team members usually will work with the younger ones, he notes.

Perhaps the key to the problem is the extent to which the young bowler plans to pursue bowling. Some may want to make it a career and certainly could profit from the exposure at an earlier age.

But young minds can be easily influenced and swayed, and the advice and guidance of a parent on whether to retain one's junior rating or not can be very welcomed and beneficial.

BOWLING

The holiday period saw youth tournament bowling jump into high gear locally with three houses having junior keg competition.

Airway Lanes and North Hill Lanes both participated in the Youth Bowling Association Mailographic Doubles Tournament, while 300 Bowl had a Junior Holiday Singles Tournament.

Airway also staged its third annual Junior Christmas Tournament.

In the North Hills YBA Mailographic Doubles meet, there were six divisions: girls' prep, junior and senior divisions, and boys' prep, junior and major classes.

The leading scores: Connie McCotter-Clarise Anderson with 1222 for senior girls, Sandy Armstrong - Karen Kubik with 1100 for junior girls, Glenna Case-Ann Bailey with 1024 for prep girls; Dave Wilson-Jerry Luth with 1210 for major boys, Randy Radebaugh-Bill Love with 1221 for junior boys, and Bud and Mike Bellairs with 1148 for prep boys.

Airway's top scores were posted by Mark Ferguson and Raymond Steele at 1069 in the prep division, by Pat McBride and Peggy Gardner at 1120 in the junior division, and by Ralph Wyckoff and Bill Johnson at 1209 in the majors class.

The leaders will receive trophies and their scores will be mailed to the state YBA headquarters for consideration in the national standings.

In Airway's annual Christmas competition, the winners were Debby Quackenbush for a 171 game and Janet Lamberson for a 450 series among the girls, and in the boys class Richard Goldworthy had a 197 game and Tim Allen a 537 series.

The 300 Bowl tournament was led by Larry Walter's 690 total in the boys senior division. He was followed by Bill Horsey's 637.

Both are varsity football veterans at St. Frederick.

The senior girls leader was Barbara Soldan with 609. Elizabeth Boone was the top prep division girl with 502. No girls competed in the junior class.

Tom McKelvey topped the prep boys with 482, three pins better than Dave Poffenberger. Ross Flores' 502 in the junior

boys class was only six pins more than Dennis Crawley's total.

HEAD SHOTS

Colonial Lounge trimmed four games off the 300 Bowl team league lead Monday night to highlight action in the West Side Lanes Classic.

The top series of the night was Art Hebdad's 681 on games of 235-235-211. Dwight Pugh had 673 (257-214) and Monroe Moore 672 (247-234).

There were 14 series in the 600 class and 65 games of 200 or better.

Fred Collier had a 254 and 670 combination in the Collier Lanes House League Monday. He combined with Ed Martin's 224-642 scoring to keep Roark Mobil atop the standings.

Westide Mobil dissolved its tie for second place by taking six points from Maguire's Auto. Another good showing was by Lee Brown with 246-649.

In the Columbia Avenue Baptist Mixed League at Airway Lanes last Saturday Harold Polsgrove qualified for an American Bowling Congress Century Club award and the house's 245 club with a 254 game.

He carries a 115 average. George Ratledge converted a 3-6-7 split.

The Airway Ladies Major Classic last week recorded a 232-2113624 series by Shirley Pointer. Peg Carter had a 545 and Marvel Sot hit 203-641.

Travelling Classic to Stop at Sylvan

The Pontiac Travelling Classic League will test the conditions at Sylvan Lanes beginning 1 p.m. Sunday as action resumes.

Expect Air Battle in Hula Bowl Tilt

HONOLULU (AP)—A passing battle is anticipated at Honolulu Stadium Sunday when the North All-Stars meet the South in the Hula Bowl.

About 20,000 fans are expected to pack the arena at 7:45 p.m. HST (12:15 a.m. Sunday EST) to see the colorful football classic.

Both squads sharpened their passing attacks in drills Thursday. Southern California's Pete Beathard and Baylor's Don Trull did the firing for the South, and Ron DiGravio of Purdue and Pete Liske of Penn State threw for the North.

After the afternoon workouts, Roger Lopes of Michigan State and Milt Kanehe, Oregon, were named co-captains of the North and Jay Wilkinson of Duke and Jim Ingram of Baylor were nominated co-captains for the South.

league leading Airway Lanes and a one-man effort by Jerry Perna of West Side Lanes.

The 300 Bowl team moved within one point of the defending champion Airway squad with two victories, 17-3 over Cooley Lanes, and 13-7 over Primrose in a make-up match.

Joe Foster led both victories with 234-210—six points and 247 for five points.

Perna led the West Side team to a 14-3 verdict over Howe's Lanes by bowling 221-268 for 10 of his team's total.

UPSET

Montcalm Bowling Center upset Wonderland Lanes, 11-7, as Pat Tinson hit 234 and Bill Smith 212 to offset Paul Horie's 223.

Huron Bowl topped Primrose, 18-14, as Tom Augello and Mike Samardzija, Jr. accounted for six points apiece with 250 and 256, respectively.

In the other match at Primrose, Sylvan Lanes edged Fairgrounds Bowling, 9-8, despite a 246 by Harold Pennell for the losers.

MIAMI BEACH, Fla. (AP)—The two top-seeded tennis teams are still in the running for the Sunshine Cup but both ran into trouble Thursday and Brazil, seeded third, was knocked out.

South Africa, seeded first, defeated Switzerland 2-1 by taking the doubles match as Robert Maud and Graydon Garner trimmed Fred Berli and Marcel Kunzler 6-2, 6-4. In singles, Maud defeated Berli 9-7, 6-0 but Kenzler won over Garner 3-6, 6-4, 6-4.

Second seeded U.S. players Mike Belkin of Miami Beach, and Bill Harris of West Palm Beach won by 3-0. Belkin defeated Caetano Dimaso, Italy, 6-2, 3-6, 6-4, and Harris won from Sergio Palmieri, Italy, 13-11, 3-6, 6-0. The U.S. won the doubles 8-6, 6-2.

West Germany toppled Brazil 2-1. Brazil's Tomaz Koch defeated Frank Arendt, West Germany, 6-1, 6-1. But Karl Fichtel, West Germany, trimmed Roberto Marcher, Brazil, 6-0, 7-5. Arendt-Fichtel defeated Koch-Marcher, 6-4, 6-4.

In other results, Mexico defeated Yugoslavia, 3-0; Sweden won over Argentina, 3-0, Spain defeated Israel, 3-0, Greece won over Japan, 3-0, and Australia down Belgium, 2-1.

Stewards Unseat Rider

DON CARTER

After 2-Year Lapse

NBA Returns to Video

BALTIMORE (AP)—The National Basketball Association, guarding against over-exposure with a once-a-week schedule, has returned to television after a two-year lapse with its own coast-to-coast network.

"The NBA is the first sports organization in history to create its own coast-to-coast network," League President Walter Kennedy said Thursday night as he watched the Baltimore Bullets and New York Knickerbockers launch the 11-week series.

"Some sports, including basketball, have had area or regional networks," Kennedy said. "But we're packaging our own presentations nationwide."

"We sell game rights to individual stations, who in turn sell to sponsors. But the league selects the announcers, pays the costs of production and operation, and has the right to approve sponsors."

"We feel we are pioneering something which may well be the pattern of professional sports presentations of the future. We believe the time has come for pro sports to be on prime television time and we'd like to be part of it."

PAY PLAYS

By JOHN WOODEN

UCLA Coach

UCLA's favorite play is the Back Door Variation.

G2 passes to F2, fakes a cut, steps back and receives a return from F2. Then G2 passes quickly to G1 and takes one step toward him. F2 cuts across the top of the key area, calling for the ball as G2

passes to G1. C comes up to receive a pass from G1 directly behind F2 as he crosses the key area.

C then passes to G2 on a cut

for the basket, or to F1, who has faked back and can come around screen by F2.

This play succeeds for an easy basket whenever the guard on G2 turns his head toward the ball as G1 passes to C.

Controversy Leaves Mackinac Island Almost Isolated

MACKINAC ISLAND (AP) — This summer tourist community — noted for its ban on motor vehicles — now doesn't have any lake or air transportation, and is beginning to feel the pinch.

Air service to and from the island's lone airstrip to the mainland was curtailed Dec. 10 by the Michigan Park Commission. The last regularly scheduled boat left the island early Tuesday morning. The island is ice-bound all winter.

Except for telephone and telegraph service, Mackinac Island 640 residents virtually have been isolated ever since.

The island is located in the Mackinac Straits at the head of Lake Huron between the state's upper and lower peninsulas. Permanent residents live in the

City of Mackinac Island. The rest of the land is a state park. The closest mainland city is St. Ignace, an Upper Peninsula community about five miles due west.

HAVING TROUBLE

"We are having our troubles," said Mackinac Mayor Ray W. Smith. "But we're not in dire straits yet."

Smith said the island's U.S. Coast Guard station, helicopters from nearby Kincheloe Air Force Base at Sault Ste. Marie, and Moral Re-Armament—which owns an island-based barge—have agreed to provide emergency transportation.

"But mail delivery or food isn't classed as an emergency," Smith said.

Francis Doud, who operates the island's only grocery store, says he has enough staples to last out the winter, but added "bread, milk and fresh vegetables will be gone in seven days."

CAN'T GET BACK

Smith said some teachers have been unable to get back to the island's school system after mainland holidays. The school lunch program for 136 children is in doubt, Smith said, because federal surplus food cannot be shipped in.

The island faced the first problem Thursday when Mrs. Ellen Dufina, 88, the mother of island Postmaster Emerson Dufina, died. The Coast Guard was not empowered to transport the body, Smith said, so MRA vol-

Area-State News

unteered its barge to bring a casket and mortician from St. Ignace. The island has a doctor and medical center, Smith said, but "we sometimes need a hospital."

Meanwhile, state officials are involved in a controversy over the airstrip, built 30 years ago as a Works Progress Administration (WPA) project.

Last fall, during hearings for an expansion program, the Michigan Aeronautical Commis-

sion (MAC) announced the airstrip was considered unsafe.

LICENSED SERVICE

Each winter, the State Park Commission has licensed the Al Phillips Flying Service to operate commercial aircraft service to and from the island. Chairman Walter Murray said the MAC waived restrictions in previous years.

To clarify the park commission's authority, Murray asked Atty. Gen. Frank Kelley for a ruling. Last Dec. 10, Kelley said the airstrip could continue oper-

ating as it had. But he ruled against expanding the airstrip into a commercial airport which would use state land.

To Murray, an attorney, this meant "we could operate the airstrip, but couldn't own, maintain or acquire it." Murray said the park commission felt the ruling was "inconsistent" and asked for another.

Then the park commission ordered the airport closed. "We can't operate a death trap," Murray explained. "No one's ever been killed on flights up there, but it could happen tomorrow."

NEW RULING

A spokesman for Kelley said in Lansing Thursday a new ruling is coming "very shortly"

but it will not affect the position stated by Kelley Dec. 10. The original opinion neither suggested nor intimated closing the airstrip, he said.

Murray said the awaited ruling concerns the park commission's authority to operate an air shuttle service, to maintain the airstrip, and commission liability if it goes on without authority.

He said funds for the airstrip expansion are available, including a \$38,000 bond issue approved by island voters, and matching state and federal funds.

State Sen. Tom Schweigert, R-Petoskey, reportedly has asked

Gov. George Romney what he would do about the dilemma.

ROMNEY REPLIED

Romney was said to have replied Thursday that his hands were tied by the law but he had asked the Coast Guard to handle any emergencies.

Schweigert—who thinks the affair is an "intra-park commission squabble"—has offered Murray help to put a bill before the legislature to authorize airport expansion. The legislature reconvenes Jan. 7.

"It looks like we're getting the run around," says Mayor Smith. "I've talked to the attorney general, the park commission and the governor. Maybe there's a good reason for this thing. But it doesn't help us."

In Rochester District

Group to Analyze Schools

ROCHESTER — Under guidance of their new officers, all three subgroups of the Citizens Advisory School Study Committee will meet Tuesday and begin their analysis of the Rochester school system.

Included in the subcommittees is one which will study buildings and sites, headed by

Mrs. D. G. Kemler, 5900 Cobb Creek, Oakland Township.

A. E. Gurley, 2549 Stoddleigh, Avon Township, will lead the curriculum study group. The third committee, which will concentrate on vocational education, will be supervised by chairman Bernard Hill, 575 Sarsfield, Avon Township.

New general chairman of the citizens advisory committee is Frank R. Wolff, 241 Reitman, Avon Township.

AT 7:30

All three subcommittees will meet at 7:30 p.m. The building and site committee will meet in Woodward Elementary School, and the other two groups will

convene at the board of education offices adjacent to Central Junior High School.

Wolff said although the re-activated citizens committee is already fairly organized, any residents desiring to join one of the subcommittees should attend Tuesday's meeting.

Throughout the remainder of the academic year, the building and site group will concentrate on examination of the recent additions, the preferable style of school architecture, population growth and immediate and long-range school needs.

Analyzing the students' courses, the curriculum committee members will aim toward easing the transition from junior to senior high school. As the year progresses, other topics will be studied.

VOCATIONAL TRAINING

The possibility of establishing a vocational training school in the area will be one of the items investigated by the vocational education committee.

Also on their agenda for this year are study of the various types of vocational training and analysis of the effect of vocational training on dropouts.

In addition to being open to all residents of the school district, the committee welcomes representatives of local civic groups.

Keego Harbor PTA Sets Play Session

KEEGO HARBOR — "The Family That Plays Together Stays Together" is the theme of Tuesday night's meeting of the Roosevelt School PTA.

The recreation session will be held in the school gymnasium from 7 to 8:30 p.m. All members of school families are invited to attend the program, under the direction of Donald Grothe, father vice president.

Among the activities scheduled are volleyball, checkers, ping pong and shuffleboard.

Traffic Deaths Double

EAST LANSING (AP)—Traffic accidents have killed 12 persons in Michigan so far this year, provisional figures compiled by state police showed today. There were six traffic deaths at this date last year.

SEEK OFFICIAL HELP — Wives of two U.S. Army officers jailed in North Korea were in Washington today to confer with officials on efforts being made to get their husbands released. From left are Sen. Philip Hart, D-Mich.; Mrs. Charleton Voltz of

Frankfort, Mich.; Mrs. Ben Stutts of Florence, Ala.; and Roger Hilsman, assistant secretary of state for Far Eastern affairs. The captains were aboard a helicopter shot down in May. The United States said the craft crossed the boundary accidentally.

Chamber Chief Takes Office

New Men Serving Rochester Area Unit

ROCHESTER — William W. Toussaint, a senior customer business representative for Detroit Edison Co., is the newly elected president of the Rochester area Chamber of Commerce.

Toussaint, three other officers and six new board members officially took over their chamber positions Jan. 1.

Walter Rewold, owner of Village Cleaners, is new vice president and Donald Foss, owner of Milco Specialties, will serve as treasurer of the organization this year.

Relected to the secretary's post was Mrs. Betty Levick, owner of Rochester Secretarial and Answering Service.

ADDITIONAL JOB

In addition to his new job as treasurer, Foss is also on the board of directors this year.

Others elected to the board include local realtor Neil Hartwig; Harold Milton, owner of Milton's Fuel Oil; and Matthew Patterson owner of Patterson Motor Sales.

Rounding out the list of new directors are Robert Schueller, manager of the Rochester Branch, Community National Bank; and Wilson Severance, local attorney.

Study Groups to Gather at Oxford Tea

OXFORD—Members of extension study groups throughout the Oxford district will gather at a 1 p.m. tea Tuesday at the Methodist Church education building.

Entertainment, education and fellowship will be included on the program, with a preview showing of new horticulture slides.

A new representative and alternate will be elected at this meeting, to which those interested in joining or organizing a study group are invited.

The education building is on East Burdick just east of M24.

Fire in House Kills

Widower in Lansing

LANSING (AP) — A 58-year-old widower who lived alone burned to death New Year's Day, apparently after his clothing ignited from a stove burner. Police said a neighbor girl who often does housework for Donald Bowerman found his body Thursday.

Home of Publisher Damaged by Blaze

LAPEER TOWNSHIP — Flames which caused more than \$10,000 damage yesterday to the home of Robert M. Myers, Lapeer County Press publisher, broke out again today in the walls of the one-story house.

Lapeer Fire Chief Matthew Dougherty said most of the damage to the home, located at 1062 Morris, was caused by heat and smoke.

About noon yesterday Myers was awakened by smoke in his home, where he was recovering from the flu. He found the phone was dead when he tried to call for aid.

Myers then ran, in his stocking feet, to a nearby radio sta-

tion and summoned the fire department.

\$70,000 HOME

The fire, of undetermined origin started between the concrete brick house and the garage. The home is valued at more than \$70,000.

Before firemen could bring the blaze under control flames gutted a vestibule and closet off the kitchen.

Heat and smoke spread throughout the house, according to Dougherty, and ruined all the carpeting as well as large plate-glass windows which ran the length of the home.

The house was fully insured, Dougherty said.

AGAIN CALLED

At approximately 8 a.m. today Lapeer firemen were again called to the home. They found rugs smoldering and the fire going into the wall partitions and the attic, Dougherty said.

Within an hour the fire was again extinguished.

Dougherty said firemen were able to control the blaze without too much water, by using a high pressure fog.

Milford OKs Thoroughfares

MILFORD — The planning commission last night approved a thoroughfare plan which will serve future development here.

Concerned mainly with right-of-ways, the plan designates major and local streets.

It is "now very innocent and will have very little immediate effect," according to Manager Donald G. Weidner. "But it will notify future developers that there's 10 feet there the village might use."

Major thoroughfares will have 86-foot right-of-ways and "collector" streets will be assigned 66 feet.

In the former group are Milford, Commerce, General Motors, West Huron and North Milford roads. The latter group consists of First north of Summit, Main south of Huron, Martindale, Oakland to Old Plank, Old Plank, Peters and Summit.

The plan was accepted last night after being reviewed at a public hearing.

Fire Damage Up in 1963

LANSING (AP)—Fires burned over 8,415 acres of forest and grasslands in Michigan in 1963, up from the 6,267 acres devastated the previous year, the Conservation Department says.

Most of the damage was done in the spring, particularly in April.

Nearly 3,550 acres burned in April, compared with 1,855 acres during the critical fall period

NEW BRIDGE COMING — Work has started on the new \$57,184 bridge on Avon Road near Livernois, Avon Township, which will replace an old facility where the two roads meet. Being built by the A. J. Williams

Construction Co., Southfield, the new Clinton River crossover will be two lanes wide. It is one of nine currently under construction by the Oakland County Road Commission and paid for, in part, by a federal grant.

Five Agricultural Specialists to Head Imlay City Program

IMLAY CITY — Five agriculture specialists will be featured speakers on the annual Muck Day program in the American Legion Building here Jan. 14.

Final arrangements for the all-day event, which begins at 10 a.m., were announced today by R. S. Lincoln, Lapeer County extension director.

One of the speakers will be Willard A. Cutler, extension specialist in agricultural engineering at Michigan State University. He will discuss irrigation and water level control.

Potato varieties for muck soils will be the subject presented by Richard W. Chase, MSU extension specialist in farm crops.

WEED CONTROL

Clark Nicklow, MSU extension specialist in Horticulture, will talk on new varieties and chemical weed control.

Management of muck soils will be the topic discussed by Robert Lucas, MSU extension specialist in soil. He also will

show colored slides of his recent trip to Russia.

Albert Festerling, farm labor supervisor for the Michigan Employment Security Commission at Bay City, will report on the labor situation for 1964.

Although the event is designated as Muck Day, much of

the information presented also will be of interest and value to vegetable growers on mineral soils, Lincoln said.

All growers in the area are invited to attend.

A complimentary noon luncheon will be served by the Imlay City Chamber of Commerce.

State Rights Unit Plans to Meet After Swearing-In

LANSING (AP) — The eight members of the state's new Civil Rights Commission planned to hold their first meeting today immediately after being sworn by Gov. George Romney.

First on the agenda of the nation's first constitutionally-created civil rights agency were organizational matters. Cochairmen John Feikens and Damon Keith and commission members intended to consider applications for a commission director.

DIFFERING BACKGROUNDS

The commission members have backgrounds as attorneys, clergymen and business and labor executives.

Feikens, an attorney, once was president of Detroit's Housing Commission.

Keith and another Detroit, Sidney Shevitz, also are attorneys. Shevitz is president of the Jewish Community Council of Metropolitan Detroit.

Clergy members are the Rev. A. A. Banks, of Detroit and the

Rev. Theodore La Marre, of Saginaw.

OTHER MEMBERS

Other members are former Ford Motor Co. Vice President William Gossett, American Motors Corp. Board Chairman Richard Cross and Grand Rapids Regional United Auto Workers director Kenneth Robinson.

ANNETTE K. MINCHELLA

Mr. and Mrs. Raymond Minchella, 47691 Dequindre, Avon Township, announce the engagement of their daughter Annette Kathleen to Wayne L. Mickelson. The prospective bridegroom is the son of Mr. and Mrs. Wayne L. Mickelson Sr., 430 E. Avon, Avon Township. A late summer wedding is planned.

Appeals Court Worries Judge

Claims Costs Could Break Wayne County

DETROIT (AP) — Recorder's Judge W. McKay Skillman says provisions of the new State Constitution setting up a nine-member court of appeals "may well bust Wayne County financially."

The jurist, who began his 40th year on the bench with advent of the New Year, said he had no quarrel with the provisions guaranteeing the right of appeal in every case, but added: "If we (Recorder's Court) are going to have to provide the funds, maybe we will have to do it with a federal grant."

The new constitution, effective last Wednesday, gives all citizens the right of appeal and says that in the case of indigent persons the cost will be borne "by the court of record" (origin).

NOT GUARANTEED

Since 1927 the right of appeal from Recorder's Court was not guaranteed as a right, "but for a good cause shown."

Costs of an indigent's appeal not only includes his attorney's fees, but the cost of printing a transcript of the trial, Skillman said, adding that his court reporter estimates the cost of printing a transcript runs between \$150 and \$200 for each full day of trial.

"This (constitutional change) may or may not be a good thing for Recorder's Court," Skillman said. "When a man is tried and he realizes he can appeal without cost to himself, the new court will be swamped with appeals."

In 1960 Recorder's Court paid out \$232,060 in fees to attorneys in 2,456 cases where defendants could not afford to hire an attorney.

Conditions Good at Kensington

Snow now blankets Kensington Metropolitan Park near Milford providing good conditions for winter sports enthusiasts.

Two to three inches of snow cover the sledding and tobogganing hills which are popular with area residents this time of year. The site includes convenient parking and a shelter with a fireplace.

The skating rink on Kent Lake in front of the boat rental building is now in operation. This building is open daily from 10 a.m. to 10 p.m. through Sunday, a special schedule in effect during the school and college vacation period.

Effective Monday, weekday hours of operation will be 2:30 p.m. to 10 p.m. Weekends the building will be open 10 a.m. to 10 p.m.

ICE IS THICK

Ice is now 6 to 8 inches thick at Kent Lake in Kensington Metropolitan Park, where fishermen report good catches of crappies and bluegills. There are 25 fishing shanties on the lake.

For winter sports conditions persons may call the park office.

Military Budget Cut to Crimp Business

By SAM DAWSON
AP Business News Writer

NEW YORK—President Johnson's announced peace drive and his ambition to clip a billion dollars from the next military budget could crimp some business plans as well as those of the Pentagon.

If the sum for military spending is trimmed in the fiscal year starting July 1, it would mark the first drop from a preceding year since 1955—although 1960 outlays held about level with 1959.

Individual companies looking for military hardware orders thus could be more competitive than ever.

Some businesses and some communities are bound to feel the effects. But at the same time there is evidence that savings in military outlays will furnish funds for more government spending in other lines, perhaps furnishing orders and employment for some civilian product makers or services.

MANY EXAMPLES

"Defense spending has undoubtedly provided substantial support for many communities and business firms," the First National City Bank, New York, notes in its January economic

letter. But it cites still another threat.

"Business will be affected not only by the projected decline in expenditures but also by their changing composition."

There are many examples of that already. New Pentagon thinking has led to order cancellations to the dismay of companies and communities. It has led to new orders to the joy of rival companies and other communities.

The already risky business of defense production may get tougher with economy drives and any easing of world tensions.

\$68 Million for Expansion Planned by Consumers

Consumers Power Co. today announced plans to invest \$68 million in expansion and improvement of its facilities this year.

The company currently supplies electric power in 61 counties of the Lower Peninsula, natural gas heat in 33 counties and steam heat in four outstate Michigan cities.

NEW PROJECTS

New natural gas projects this year will cost \$35 million and electric projects \$27 million, company officials said.

About \$6 million will be spent for additional office and warehouse facilities, land and rights of way, steam-heating improvements and miscellaneous purposes, they added.

Natural gas service is to be extended to 37 additional communities, more than ever before connected in a single year, officials noted.

Electrical distribution system additions and improvements in the Lower Peninsula are expected to cost \$18 million. Transmission system projects to fortify power supply in several areas are estimated at \$5.3 million.

Aymond and Campbell said the company's electric generating capacity of 2.8 million kilowatts is about double what it was in 1953.

Hope Raised for Crew in Plane Crash

HONOLULU (AP)—A "Gibson Girl" transmitter raised the hopes of searchers today as they hunted for the crew of a downed cargo plane in the Pacific.

Nine men aboard the missing C-124 aircraft—eight Air Force men and a sailor—were believed adrift hundreds of miles from the nearest island.

A portable radio transmitter, named "Gibson Girl" because of its shape, sent distress signals which narrowed down the search area to an expanse of the Pacific roughly 750 nautical miles west of Hawaii.

The signals—strong on one occasion Thursday night when they were picked up by an inbound Military Air Transport Service plane—led searchers to believe that at least some of the plane's occupants were alive.

BOUND FOR HAWAII

The plane was bound from Tokyo to Honolulu and then to the mainland with 22,000 pounds of cargo. Based at Hill Air Force Base in Utah, it refueled Wednesday at Wake, then departed on the 2,300-mile leg to Hawaii.

The passenger on board was Francis Edward Elliott of Chula Vista, Calif. He was headed to San Francisco and separation from the Navy, and was serving as volunteer escort to the body of another sailor, Gary Gene Galing of Tacoma, Wash.

The tops of six evergreens around its building at 34 W. Sheffield were broken off, the Transign Co. reported yesterday to police. Damage is estimated at \$150.

News in Brief

Glady's Rowley, 414 Alice, Rochester, told police yesterday that two cameras and camera equipment valued at \$205 were stolen from her car parked at 369 E. Pike.

The tops of six evergreens around its building at 34 W. Sheffield were broken off, the Transign Co. reported yesterday to police. Damage is estimated at \$150.

Conference Set on Cyprus Rift

Feuding Factions Will Join in London Talks

NICOSIA, Cyprus (AP)—Feuding Greek and Turkish Cypriots will join in a conference with Britain, Greece and Turkey in London late this month in an effort to end the bloodshed on Cyprus and preserve the island republic.

Archbishop Makarios, Greek Cypriot president of Cyprus, and Dr. Fazil Kutchuk, Turkish Cypriot vice president, agreed Thursday night to send representatives. Their decisions came after a day of intensive diplomatic activity by Britain's Commonwealth Secretary Duncan Sandys.

Sandys flew back to London for a personal report to Prime Minister Sir Alec Douglas-Home and the British Cabinet.

'UNDER CONTROL'

"There will be problems and things may go wrong," Sandys told newsmen in London, "but I think the situation is under control."

Exact date of the conference has not been announced. After the opening session, a committee of Greek and Turkish Cypriot representatives will be formed to work with a British chairman on proposals for revising the Cypriot constitution and the treaties linking Britain, Greece and Turkey to the Mediterranean island.

Greece and Turkey agreed informally to the London conference several days ago. Both are bound with Britain in treaty pledges to protect the independence of Cyprus.

The vanguard of a British paratroop battalion arrived in Cyprus today to strengthen Britain's garrison of more than 10,000. British troops have been patrolling Nicosia, the capital, and the countryside since an uneasy truce was arranged by Sandys five days ago.

HAD REPERCUSSIONS

The dispute had repercussions in Ankara, where the Turkish government of Premier Ismet Inonu sought to muster strength for a vote of confidence on Cyprus Saturday.

Three opposition parties with 185 seats in the 450-seat National Assembly said they would vote against Inonu, charging his actions on Cyprus had been "too vague, late and insufficient."

Inonu's Republican People's party holds only 178 seats. It is counting on votes from independents and another opposition group.

Firm Finishes

World's Deepest Steam Well

CHICAGO (AP)—The world's deepest and hottest steam well has been completed near Brawley, Calif., it was announced Thursday by Earth-Energy, Inc., a newly-formed subsidiary of Pure Oil Co.

The well about 100 miles east of San Diego, is 8,100 feet deep and has estimated bottom-hole temperatures more than 800 degrees Fahrenheit.

The steam well, known as River Ranch No. 1, also appears to produce large amounts of valuable minerals and chemicals, the company said.

Plans are under way to sell the steam power from the well to private utility companies in California. Robert L. Milligan, president of Pure Oil said: "We are pioneering what may prove to be one of the most promising new fields to increase reserves of energy needed in the United States in years to come."

Treasury Position

WASHINGTON (AP)—The cash position of the Treasury compared with corresponding date a year ago was \$1,100,000,000 in excess of requirements.

Dec. 31, 1963: \$1,100,000,000
