

Fresh Air Dormitory

PRIVATE CAMPUS—Central Michigan College Senior Dave Whitlock of Rochester had his own private campus this summer, as he camped out while attending the school's summer session. He lived in a tent pitched six miles from the school, and said he never slept better in his life. Not during classes, either.

Rochester College Senior Has Own Private Campus

A college senior, majoring in economics, certainly knows a lot more about the value of money than about the rugged life of the outdoor campsite.

At least this was true for David Whitlock, 25, of Rochester when Central Michigan College in Mt. Pleasant closed its doors on the regular school year this June.

But Whitlock, a Korean War veteran attending classes on the GI Bill, decided to apply his college learning to his own pocketbook. He determined to save money from his government checks while going to school, and in the process took an accelerated course in outdoor living.

In order to save on meals and room rent, the 1950 Rochester High School graduate pitched a tent near the Chippewa River, six miles off campus. There he lived during the eight-week summer term, with a cot, an oil stove and an oil lamp for occasional peeks at his text books.

During the days Whitlock would be at college, going to classes, studying and editing the college newspaper.

At night, the Air Force veteran would return to his campsite where there were only birds and chipmunks to discuss economies with.

Couples driving cars in a nearby lovers' lane provided little company for serious discussion on monetary theories.

Whitlock found the best thing to do was go to bed, since the sun shining in his eyes usually woke him up around 5:30 a.m.

When the sun didn't wake him, the birds did. And they started their morning raucousness even earlier.

If the rain didn't bother him—Whitlock put up his tent in a 30-mile-an-hour, rainswept gale and after that all other storms were easy—neither did people.

"Evidently everyone thought I was a little odd or something," he says. "As if, like Greta Garbo, I wanted to be alone."

Summer school exams were over last week and Whitlock returned home to his parents', Mr. and Mrs. Carl H. Whitlock, 1265 Wash St.

To add to the money already saved, he's working as a machinist in the factory where his father is a business agent.

A nice normal existence now, Whitlock says. He even sleeps in a bedroom and takes his meals with the family, indoors.

Billy Resumes Crusade

NEW YORK (AP)—Evangelist Billy Graham resumes his New York crusade tonight with a meeting in Madison Square Garden. Graham took last night off for rest.

FHA Terms Are Liberalized

Management-Labor Tieups Probed Today

'Sweetheart' Contract Allegedly Was Made by Johnny Dio

WASHINGTON (AP)—A "sweetheart" contract allegedly engineered by New York racketeer Johnny Dio today comes under scrutiny of senators investigating improper labor-management practices.

"Sweetheart" is the term used for labor contracts in which union officials and employers allegedly reach terms to benefit themselves, but which provide few benefits for the workers bound by them.

Dio, also known as John Dioguardi, was convicted in a New York court last month of a union shakedown conspiracy involving two New York electroplating firms. He has not yet been sentenced on the charge.

Testimony at that trial indicated that the Equitable Research Associates, Inc., which he set up as a labor consultation service, actually was a shakedown racket to sell labor peace for a price.

Dio himself is expected to be summoned later as a witness.

Sleek, wavy-haired Milton Holt, secretary-treasurer of Teamsters Local 805, refused to tell more than his name and Flushing, N.Y., address. He declined to say whether Dio actually controls this local.

Holt even invoked the Fifth Amendment when Chairman McClellan (D-Ark.) asked, "Do you care what you are doing—and those like you—are trying to obstruct the work of your government in trying to provide better working conditions?"

Kennedy said Holt is under indictment on charges of lying under oath to a grand jury investigating Dio's activities.

Philip Kazansky of Monticello, N.Y., prosperous looking recording secretary of Teamster Local 269, also refused to answer questions about Dio or union affairs.

Both witnesses said their answers might tend to incriminate them.

Another witness, Sam Getlan, swore he never had heard of a Teamsters Union local in New York which had listed him as its president in 1956. Nor, he said, did he cast a vote recorded as having been cast by him in the election of New York Teamsters Joint Council 16.

By a unanimous vote of the department's special one-day meeting yesterday, the group asked in effect for a clarification of a letter sent by Meany to the department last July 1.

The letter suggested a formula for solving jurisdictional problems.

No resolution was proposed suggesting the department disapprove the AFL-CIO merger because of the old jurisdictional question, although the Teamsters Union said in Washington last week its delegation would support such a resolution today.

But Midwest Teamsters head James R. Hoffa, who hopes to succeed Dave Beck as president of the Teamsters, said the report presented by a jurisdiction study committee contains "the meat of the resolution."

Temperatures will average near or slightly below normal in the next five days, with the normal maximum 83, and the normal minimum 62. A slow warming trend will start later this week with a chance of light showers about Thursday.

In downtown Pontiac, the lowest temperature recorded preceding 8 a.m. was 55. At 1 p.m., the thermometer registered 74.

The Pontiac area can expect more sunny and pleasant weather, the U. S. Weather Bureau says. The temperature will dip to 54-58 tonight, but tomorrow it will rise to a high near 80.

The amendment, sponsored by O'Mahoney and others, would require such trials in all federal court cases involving criminal contempt. These cases arise where a judge desires to punish a defendant who fails to comply with the court's order or complies too late to make it effective.

Modern Bo-Peep Will Snip Lamb's Tail

4-H Queen to Be Crowned Tonight

How to remove a lamb's tail in three easy steps. This is one of the many things one can learn to do when browsing through the 17th Annual Oakland County 4-H Club Fair which opens tonight at 7.

Highlight of tonight's program will be the crowning of the 1957 Fair Queen. Eleven girls have been entered by their own 4-H clubs throughout the county.

Selection of the queen is expected to be made by 8 p.m. at the fairgrounds on N. Perry St. and Walton Blvd.

Chopping off the tail of the 1957 Little Bo Peep's pet won't allow sheep much of a wag, but according to the pretty 18-year-old brunette instructor of this operation, "It simply must be done."

She is Beverly Sanders, daughter of Mr. and Mrs. Howard Sanders of 1625 W. Hamlin Rd., Rochester.

THEY'LL DEMONSTRATE

"Learn by doing" is the 4-H slogan and Beverly is one of a group of 4-H members which will demonstrate some of the many things they have learned in club work tomorrow at 1 p.m. during a demonstration contest.

Beverly, who owns six sheep now and has aspirations of a flock of "about 50," claims there are several reasons why a lamb's tail must be snipped.

An important one is that "They take one dollar per 100-weight off for each sheep that has a tail when you try to sell it and that's a lot when you have a large flock," she emphasized.

Beverly has made a mock lamb for the demonstration. She'll use a jackknife as the weapon. "It only takes about three min-

utes, but if you want a winning demonstration, you have to use charts and explain the procedure," Beverly said.

SUN HELPS

Beverly added: "It should be a sunny warm day so the lamb won't mind the shock of not having his tail."

Beverly was graduated from Rochester High School in June. She was one of five teens who won 4-H scholarships granted by the National Farm and Garden Association.

Beverly said judges had only one criticism to make the last time she demonstrated the tail-cutting project.

"They didn't approve of the iodine being in a chow mein bottle," she said.

Farm Surplus Bill Goes to Ike

Slate Increase in Goods for U.S. Sale or Barter With Foreign Nations

WASHINGTON (AP) — The Senate has passed and sent to the White House a bill increasing to four billion dollars the amount of farm surpluses which the government can barter or sell to foreign nations.

The measure, extending the Agricultural Trade Development and Assistance Act to June 30, 1958, also authorizes bartering—but no sales—with Communist satellite countries of Europe.

Previously, the satellites were barred from participation in the program. Russia and Red China still are excluded.

The Senate passed the bill by voice vote yesterday, nearly a month after the House had passed it.

The increase of one billion dollars, from three to four billions, was made in a section of the bill under which surplus contracts can be sold to friendly foreign nations for their currency. The money from such sales is used for paying various U.S. obligations abroad, buying strategic goods and building military housing.

The measure increases by 300 million dollars the amount available for farm surplus disposals to help friendly foreign people in emergencies.

Red Party Boss Almost Cheered Out of Dinner

MOSCOW (AP) — The Kremlin's top brass turned out for a World Youth Festival party in the Kremlin last night and Soviet Communist party chief Nikita Khrushchev again grabbed most of the limelight.

Shouts of "Khrushchev, Khrushchev!" and "Friendship, friendship!" rose repeatedly from the crowd.

The party leader broke up his enthusiastic audience when he directed to Defense Minister Georgi Zhukov a stage whisper that he had over the public address system: "Friendship is friendship, but we got to eat."

Seated with Khrushchev and Zhukov at a long table set among the trees were Premier Bulganin and other members of the Communist party's new Presidium. The Soviet officials all pitched in at waving to the crowd, clapping their hands and exchanging toasts.

Most Western ambassadors did not attend the party.

By E. H. SIMS

What is the greatest danger from lightning to swimmers?

Since lightning does strike water, contrary to some people's belief, swimming is dangerous when lightning is observed, especially if it is seen to the west. But swimmers killed by lightning are usually not burned, they are paralyzed.

So, artificial respiration is as important for lightning-struck swimmers as it is for drowning victims.

Lightning strikes boats and automobiles, but all-metal cars (apart from convertibles) are safe havens. Boats near land are safer than boats far out to sea. Boats or ships with tall masts are most likely to be struck.

Swimming or bathing is never permissible during lightning storms.

The Weather

Full U.S. Weather Bureau Report

PONTIAC AND VICINITY — Sunny and pleasant today with slightly higher afternoon temperatures. High 84. Clear and cool again tonight, low 54 to 58. Tomorrow sunny and pleasant with warmer temperatures. High near 80. West to northwest winds at 4 to 15 miles an hour becoming westerly at 4 to 8 miles an hour tonight.

Lowest temperature preceding 8 a.m. 55.

Firemen Fight Blaze in Pontiac Home

The current drop in temperatures may be cooling to most Pontiac time for Pontiac firemen this morning.

For over an hour firemen battled a blaze at the home of Frank West, 232 S. Anderson St., which caused an estimated \$700 damage.

The fire started when an oil furnace in the rear of the one story frame house turned on as the temperature dropped to 55 degrees at 6 a.m.

West was not home at the time. The fire, which was confined to a

hallway, was reported by a neighbor.

Women Return to Work After Strike at Dehoco

DETROIT (AP) — Some 100 women prisoners walked off their jobs in the laundry of the Detroit House of Correction in suburban Plymouth yesterday.

They returned to work five hours later after a meeting with acting Supt. Leo Goss.

None of the other 300 women in the prison joined the demonstration.

Goss said the women left their jobs after learning that two prisoners had been placed in isolation.

Deaths in Pontiac and Nearby Areas

CHARLES FRESE

Charles Frese, 76, of 245 Voorheis Rd. died Saturday after an illness of three months.

He leaves two stepchildren, Joseph and Wally Spath of Birmingham.

Service will be at 10:30 a.m. Wednesday from the Huntoon Funeral Home with the Rev. James H. Luther of Silvercrest Baptist Church officiating.

MRS. CHARLES HOOD

Mrs. Charles (Annie S.) Hood, 69, of 43 Gillespie St. died Saturday in Bloomfield Hospital after a long illness.

She was a member of the Newman AME Church and the Queen of Sheba Chapter of No. 15 OES. Surviving are a son, Clarence, of Pontiac; and a brother and sister living in Louisiana.

Service will be at 1 p.m. Wednesday from the Newman AME Church with her pastor, the Rev. J. Allen Parker, officiating. Burial will be in Oak Hill Cemetery. Arrangements are by the Frank Carruthers Funeral Home.

FRANK H. BECHER

IMLAY CITY — Service for Frank H. Becher, 75, who died Sunday, was to be held at 2 p.m. today from Muir Brothers Funeral Home with burial in Imlay Township Cemetery.

Surviving are two sons, Franklin of Imlay City and Leon of Pontiac; three daughters, Olive and Mrs. Mable Muir of Imlay City and Mrs. Gladys Bush of Appleton.

MILLO FITCH

LAPEER — Service for Millo Fitch, 73, of 2464 W. Genesee St. who died Monday, will be held at

2 p.m. Thursday from Muir

Brothers Funeral Home with burial in Mt. Hope Cemetery. The Rev. Frank S. Hemmingsway will officiate.

Surviving are his wife Ina; two sons, Clarence of Birmingham and Ora of Dryden; one daughter, Mrs. Ruth Beltz of Marietta; two brothers, Paul and Howard of Royal Oak; one sister Mrs. Essie Shurrer of Ferndale; also seven other brothers and sisters.

VICTORIA M. GLYNN

CLARKSTON — Service for Victoria Maryanna Glynn, two day old daughter of Richard and Maxine Glynn, 9520 Big Lake Rd., who died yesterday, will be held at 1 p.m. Wednesday, Rev. Ralph Davidson will officiate with burial in Oakland Hills Memorial Garden, Novi.

Surviving besides her parents are grandparents Mr. and Mrs. Clyde Wheatley of Clarkston, Alan Glynn of Milford and Mrs. Myrtle Patterson of Keego Harbor.

MRS. JOHN C. OTT

Mrs. John C. (Caroline E.) Ott, 67, of 18 N. Roselawn Dr. died this morning at her home. She was ill several months.

She was a member of St. Trinity Lutheran Church, the Ladies' Guild of her church, the Ladies' Auxiliary of Metropolitan Club and the Greater Beneficial Union.

Besides her husband, she leaves a son, Harold P. Ott of Pontiac; and two brothers.

Mrs. Ott's body will be at the Donelson-Johns Funeral Home until Thursday noon when it will be taken to St. Trinity Lutheran Church, Auburn at Jessie street for service at 2 p.m. The Rev.

Ralph C. Claus, her pastor, will officiate with burial following in White Chapel Memorial Cemetery.

MRS. CLARA STERLING

Mrs. Clara Sterling, 89, of 40 1/2 Taylor St. died yesterday after a prolonged illness.

She was a member of the First Baptist Church.

Surviving are three sons, Leslie Aris of Rochester, George D. Aris of Sault Ste. Marie and Albert F. Sterling of Boca Raton, Fla.; and a sister.

Service will be at 11 a.m. Thursday from the Sparks-Griffin Chapel with burial following in Maple Grove Cemetery at North Branch.

CHARLES M. SCHULTZ

DRAYTON PLAINS — Service for Charles M. Schultz, 63, of 2640 Airport Rd., who died yesterday at Pontiac General Hospital Annex, will be at 2:30 p.m. Thursday from Sparks-Griffin Chapel. His body will be in Drayton Plains Cemetery.

A machinist, he is survived by his wife, Estelle; a daughter, Mrs. Elaine Schwanz of Bloomfield Hills and a sister.

JOHN WOOD

SOUTHFIELD TOWNSHIP — Service for John Wood, 60, of 30543 Everett, who died yesterday in Dearborn, will be at 3:30 p.m. Wednesday from the Sawyer Funeral Home with burial in Rose-lawn Park Cemetery. Rev. Merton Wilson will officiate.

Surviving are his wife Elsie, ten children Mrs. Jeanette Campbell, Mrs. Bernice Scheve both of Ohio, Mrs. Laura Chipman of St. Clair Shores, Mrs. Sarah Dennis and John of Berkley, Mrs. Anita Proctor of Pontiac, Mrs. Billie Ames of Ferndale, Charles, Betty, Helen, and Ethel all at home. Also surviving are five brothers, three sisters, and fourteen grandchildren.

Deaths Elsewhere

CINCINNATI (AP) — Dr. Israel Bettan, 68, president of the Central Conference of American Rabbis, a professor at the Hebrew Union College for 35 years and author of several books of Bible commentaries, died yesterday.

HIGHLAND, N.C.

—Junius D. Edwards, 67, former assistant director of research for the Aluminum Co. of America, died yesterday. He was born in Minneapolis, Minn.

OGDEN, Utah (AP) — Ralph Hardy, 41, a vice president of Columbia Broadcasting System who formerly had been connected with the United Nations Economic Security Commission, died yesterday. Hardy was a native of Salt Lake City.

The first time a man bets on the horses, he plays to win. The rest of the time he plays to get even. . . Children are natural mimics. They act like their parents — in spite of every effort to teach them good manners. — Earl Wilson.

3 common-sense reasons to use New Mobilgas SPECIAL

if yours is a high-compression car!

1 New Mobilgas Special has been boosted still higher in octane—today delivers all the anti-knock power your high-compression car can use...

That's why you get quick starts and warm-up, smooth idling, instant response... improved, year-round performance that adds up to more miles per gallon!

2 New Mobilgas Special is the only premium gasoline containing MC₄—a unique combination of additives that saves power and gasoline these 4 ways...

1) extends spark plug life... 2) controls harmful pre-ignition... 3) reduces stalling... 4) helps keep carburetors clean—check engine-formed gum.

3 With new Mobilgas Special you never pay extra for octanes your high-compression car can't use!

New Mobilgas Special contains all the octane your 1957 car requires. Any higher octane is a waste of your money.

Try New Mobilgas Special—super special for '57!

This Time for Peaceful Purposes: Nuclear Engine Experiment

Atoms to Explode in Japan Once More

TOKYO (INS) — Uranium atoms will soon explode in Japan for the first time since Hiroshima and Nagasaki were bombed 12 years ago.

This time the atom explosions will be slow and controlled and instead of a destructive blast they will produce heat to power an experimental nuclear engine.

When the engine or reactor goes into continuous operation — by the

fall — it will mark Japan's formal debut in the atomic energy age.

The atomic reactor — capable of generating 50 kilowatts of electricity — is located in Tokai Village approximately 70 miles north of Tokyo.

The fission of uranium atoms will produce heat which will be transferred to a water boiler. The boiler will power a generator to

produce current capable of lighting up 500 bulbs of 100 watts each.

TAKING BUGS OUT

Japanese and American scientists at Tokai Village, carved out of the wilderness, are taking the bugs out of the reactor to get it in continuous operation.

Tokai Village represents a victory for forward-looking elements in Japan who have won a victory over atomic-reluctant persons who still recall Hiroshima and Nagasaki with bitterness.

The experience Japanese scientists obtain from the reactor — powered by 22 pounds of uranium fuel from the United States — will be applied to Japan's first commercial power reactors.

Japanese leaders and the Atomic Energy Commission have virtually decided to buy a Calder Hall type reactor from England and an experimental model from the U. S.

Because power-short Japan needs atomic energy urgently, government leaders say Tokai Village is a much-needed proving ground for the great numbers of atomic scientists the Japanese will need to keep their atom industry "a-flazin'."

In addition to the reactor at Tokai Village, there is an atomic energy laboratory where basic research on isotopes and atomic structure is being carried on.

LANGUAGE PROBLEM

American scientists who helped assemble the reactor last spring were forced to labor doubly hard because of the fact that there is not a single reactor plan written in Japanese.

But it won't be this way for long at Tokai as the Japanese reactor and atomic savvy go into high gear.

Planning to Nationalize 'Few' Tea Plantations

COLOMBO (Ceylon) — Ceylon's Marxist agriculture minister, Philip Gunewardena, told the House of Representatives today he is going to nationalize "a few" efficient large tea plantations to help small farmers who are getting poor prices for their tea.

Gunewardena said the volume of production by the big plantations was too much competition for the smallholders.

FOOT SOLDIER — More than two feet of trouble for the Army is what the tape measure shows. Pfc. John Ano, 23, of Trenton, N. J., is having trouble being fitted by the Army. In fact, after a year of service he still hasn't been fitted with the 16 AAA brogans or the 17½ socks he wears. Ano is pictured at Letterman Army Hospital in San Francisco, where the Army is trying to solve his problems. Until they do, he'll be the envy of all GI's with his sandals and argyle socks.

500 Battle Flames in National Forest

Sawtooth Blaze in 5th Day

HAILEY, Idaho (U) — Sweating fight yesterday, but winds, which have carried the flames over several bulldozed firebreaks, swept it out of control again.

Horses and helicopters have been kept busy hustling water to the weary battlers.

Forest Service authorities planned to bring water trucks into the fight today as the fire burns down a mountainside to a more accessible altitude.

It will take a week to mop up small fires within the big burn area once the main blaze is under control, authorities said.

Discuss Parade, Demonstration

Chamber of Commerce Group Plans Display on Fire Prevention Week

A gala parade and demonstration program to mark Fire Prevention Week were discussed yesterday by the Fire Prevention Committee of the Pontiac Area Chamber of Commerce.

Tentative plans call for a giant parade up Saginaw street Wednesday evening featuring the latest in fire equipment, antique equipment (including a steam engine that actually fought the Chicago fire of 1871), bands, drill teams, pretty baton twirlers, military units and trick horseback riders.

After the parade there will be demonstrations of the latest fire-fighting techniques at the North Side Field and displays of equipment.

The evening will be culminated with a fire hose battle between the defending champions, Waterford, and the Brooklands Fire Dept. Arrangements for publicity, the parade and educational displays were discussed by the committee which will meet again in September.

FBI Adds Charges to Escaped Prisoners

PHILADELPHIA (U) — The FBI has added charges of theft of government property to other charges three Schuylkill County jail prisoners incurred by breaking jail Sunday.

The men happened to pick an official FBI car as their escape vehicle.

The fugitives were spotted walking along a South Philadelphia street and captured after a short chase yesterday.

They took an automobile that had been parked in a Pottsville, Pa., garage over the weekend by an agent assigned there, Agent Carl Hennrich said.

U.S. Sending More Jets for Philippine Defenses

MANILA (U) — The United States is sending more jets to bolster the Philippine republic's defenses. The U.S. Air Force announced a squadron of supersonic F100 fighter-bombers will move from Okinawa to Clark Field in mid-August. Last month the Air Force delivered a squadron of F86 Sabre jet fighters to the Philippine Air Force. Filipino pilots are training in them at Clark Field.

The human heart pumps five to six quarts of blood through almost 4,000 circuits in the human body.

Man Can Guard His Wife Against Widowed Misery

BY BEULAH STOWE

There is a woman in her 70s alone in her eight-room house in a city in Nebraska. Her husband died two years ago, she has no relatives and few friends, and she is afraid.

She nails the windows shut. She has five locks on the front door, three more locks on the inside of her bedroom door. She sometimes goes out on the front porch, puts a two-by-four across the door, and nails and hammers it tight with the strength born of desperation.

Then she goes around to the back door and scurries in and bolts herself into the house from the inside.

She needs help, but she won't let anyone help her.

Her husband could probably have prevented this situation, had he been able to foresee the misery he was bequeathing his wife as a result of their once-happy life for two.

He was a successful attorney. There were no children. They lived closely together. They talked over everything together. They were well-to-do, and they were self-sufficient.

His widow's legacy includes a house, an income, unreasonable fear, loneliness, and distrust.

FOUR THINGS

No man would intentionally leave his wife in such an unhappy situation. Here are four things every man past 50 should do to prevent misery for his wife in future years:

1. Allow her to develop her own personality. The shy woman who dedicates herself to her husband and nothing else is asking for a widowhood of being only half of a person.
2. Help her develop friends. Friends must be cultivated; they will not appear by magic when the husband dies.
3. Keep her informed on business and financial affairs and tell her whom to turn to — besides you.
4. Encourage her to make contacts outside the home where she can be useful. A job or a charity or something that has to be done will be an anchor when she is left alone.

Q — "I am 59 and plan to retire at 65. My wife tells me I should cultivate a hobby to keep me busy after retirement, but I am too tired at night to do anything but sit." — Percy H.

A — Full-time sitting after retirement is full-time dullness, so take your wife's advice. There are thousands of hobby clubs in the United States. There are shelves full of books in your public library listing hobbies and describing specific hobbies.

A hobby can make you eager to retire and have more time to spend on it, and can add to your income after retirement. Go hobby hunting this weekend.

RABBI NATHAN HERSHFIELD Party to Honor Rabbi and Wife

A reception to introduce Rabbi and Mrs. Nathan Hershfield is being given by Dr. and Mrs. Irving Gordon and Dr. and Mrs. Joseph Nosanchuk at the Gordon home on James K boulevard Wednesday evening.

Rabbi Hershfield succeeds Rabbi Sanford Saperstein in assuming spiritual leadership of Temple Beth Jacob.

For the past six years Rabbi Hershfield has served in Charlotte and Gastonia, N. C.

NANCY KAY MEAD
Mrs. Clarence Moshier of Lochaven road and David Mead of Front street announce the engagement of their daughter, Nancy Kay Mead, to Richard Charles McClellan. The prospective bridegroom's parents are Mr. and Mrs. Stanley McClellan of Lochaven road. No date has been set for the wedding.

Visiting Ruth Hedeman of Lake Angelus Shores are her brother and sister-in-law, Dr. and Mrs. John L. Hedeman, and their daughter, Leslie. Also visiting is William Hedeman, a nephew, of Baltimore. Pictured (left to right) are Mrs. John Hedeman, Leslie, William Hedeman, Ruth and Dr. Hedeman.

300,000 U.S. Babies Owe Life to Progress

Four words — "It might have been" — have been called the saddest words of tongue or pen. But in one respect at least, they are the happiest we can imagine.

According to Health Information, Foundation, at least 300,000 American infants are now alive who would have died before their first birthday if the mortality standards of 40 years ago had prevailed last year.

Instead, advances in medicine and increased public awareness of health information have cut the infant death rate by 75 per cent since 1915. Four decades ago, 1 in 10 children died in the first year of life. Now the death rate is 1 in 40.

Improved prenatal care, more births in the hospital rather than in the home, and regular visits to the doctor during infancy are some of the main factors in this dramatic improvement.

BUT MANY DIE

The story is a long way from ended, however. Although 300,000 infants were saved last year, 108,000 died — and many of these deaths could have been prevented by better health practices.

Health Information Foundation believes that the answer to this problem will come, not through any earth-shattering discovery, but through better understanding and a closer relationship between hospitals, physicians and the public.

Don't Scorn Husband's Brainstorm

He May Become A-Age Successor to Edison

If your husband starts drawing plans on the tablecloth some night and shows an unnatural interest in space ships, don't laugh. He may turn out to be the Edison of the atomic age.

This is advice from a woman who knows. She's a strawberry blonde from Canaan, Conn., who has a happy smile and can afford a mink coat just because she didn't telephone a psychiatrist when her husband developed symptoms of inventoritis.

Gloria Williams isn't the worrying kind. When she married a handsome young lieutenant commander in 1948, she didn't object when husband Ross started experimenting with plastics right in the middle of the honeymoon. Instead, she helped. She told him he was.

For several years the Williams apartment in New York was a part-time laboratory. Gloria had been a packaging expert for a cosmetics company and knew something about chemistry and such, so she became a valued assistant to her inventive husband.

The result of all this is a thriving factory in Canaan, turning out carloads of little paper towels, moistened with skin freshener lotion and packaged in moisture proof foil-and-plastic envelopes. Simple, but so was the safety pin.

These moist, compact disposable washcloths were first introduced on airlines, and now are considered everyday necessities in many homes. They are sold in drug and department stores all over the country, often pop up in such unlikely spots as Cairo or Pompeii.

Mothers take along a supply when they go traveling with the children. Seaford restaurants pass them out instead of finger bowls.

MAKE OVER PAGES No Swooning for Frank

By DOROTHY ROE
AP Women's Editor

It takes all kinds to make the world of Hollywood.

I didn't think it would ever happen, but I've just met a male Hollywood star who admits that women seldom swoon

when they meet him. Furthermore, he says he doesn't want them to swoon—embarrassing, he claims.

Lanky, quizzical Frank Lovejoy has been married for 17 years to the same woman, and says he knows nothing at all about women, never has understood what makes them tick and never expects to.

"I don't win all the fights I get into either," says Frank. "I don't always knock out the

villain. Sometimes he knocks me out. I don't always charge to the rescue of a maiden in distress—if it looks dangerous I may duck under the nearest table."

UNUSUAL ROLE

Such an atypical character naturally would gravitate to an untraditional role, and that's just what he has done in his new TV series Meet McGraw. As he appears on the TV screen, McGraw is a dead ringer for Lovejoy.

He's a private eye who doesn't wear a trench coat and doesn't carry a gun. He doesn't have a blonde, curvy assistant with a low neckline and he doesn't fall in love each week. He ambles in and out of the action with a bored expression.

"I kind of like this guy McGraw," says Lovejoy frankly. "He's not a superman. He's just a guy who tries to do the best he can, and is interested in saving his own neck quite frequently."

Despite his claim that he doesn't understand women, Lovejoy has some definite ideas about how they should be treated. Sort of gallant, old-world ideas.

REGULAR GUYS, TOO

"I don't treat all women as if they were just bodies," says Frank. "I prefer to view them as people. Some of them can even be good companions, with a sense of humor and an understanding of fair play. Lots of women are regular guys too."

Lovejoy is married to an actress, Joan Banks, with whom he used to work in radio. They have two children, Steve, 11 and Judy, 14.

Bride-Elect Entertained at Shower

Jacqueline Garbin was honored at a bridal shower given Saturday evening by her aunt, Mrs. Hancel Boatright, in her home on Oxbow Lake.

Jacqueline is the daughter of Mr. and Mrs. Jack Garbin of Keego Harbor. The prospective bridegroom, Richard Bennett, is the son of Mr. and Mrs. Francis Bennett of Stout street. The wedding will take place in the First Presbyterian Church Sept. 14.

Guests attending the shower from Keego Harbor were Mrs. Garbin, Mrs. John McFall, Jacqueline's grandmother; Mrs. R. G. Howser, Mrs. Chet Carey, Mrs. Thomas Curran and Mrs. Melvin McFall.

Others present included Mrs. Wendell Walker, Nancy Walker, Mrs. Ed Thompson, Mrs. George Boatright and Mrs. Joe Kyle, all of Pontiac.

Also attending were Mrs. Irwin Brunner from Walled Lake and Mrs. Virginia Oak, Mrs. George Seleske, Mrs. Robert Peters and Lynn Peters from Detroit.

LIONELL IMOGENE KILBY
Graduating cum laude Saturday from Mercy School of Nursing, Detroit, was Lionell Imogene Kilby. Miss Kilby, daughter of Mr. and Mrs. Samuel Austin Kilby of Hazel Bend avenue, attended St. Joseph Unit, Ann Arbor.

Personal News of Interest

Mrs. Edward Collins and son Jack, of Birmingham, together with Mrs. Lee Mayor and son, Kerr, of Birmingham, have returned from Ridgeway, Ont., where they visited with Mr. and Mrs. Wendell Snow.

The Collins' daughter, Cathy, has returned after spending two weeks as a guest of Mr. and Mrs. Tommy Shannon at Higgins Lake Golf Course.

Touring for two weeks in Florida are Wilma Pfahler of Sylvan Lake and Joann Healand of Calvert street.

Mrs. Virgil Covert and daughter, Linda, of South East boulevard have returned home with her father, W. L. Palmer, and Mrs. Palmer after visiting the Palmers and Mrs. Covert's sister, Mrs. Wayne Rust, and family in Cape Girardeau, Mo. Mrs. Covert's son, Marine Pfc. Robert Covert, is home from Camp Pendleton, Calif., on a 30-day leave.

"Having a wonderful time" at the Disneyland Hotel in Anaheim, Calif., are Mrs. Elsie Welch and daughter, Sue, of Cooley Lake road.

Guests of Mrs. Leona Widdis of Central avenue are her brother-in-law and his wife, Mr. and Mrs. Fred Widdis of Brantford, Ont., who will soon leave for California.

Among graduates from Mount Carmel Mercy Hospital Unit of the Mercy School of Nursing, Detroit, who received their diplomas on August 3 were Carol Flanders of Edison street, Suzanne Trembley of Cobalt street and Jane Webster of Rosedale place.

Graduating from the St. Joseph Mercy Hospital Unit in Ann Arbor was Lionell Kilby of Raeburn street.

Graduating from the St. Joseph Mercy Hospital Unit in Detroit was Mary Joan Hoffman of Sylvan Shores drive.

Receiving congratulations on the birth of a son, Robert Joseph, Aug. 3 at St. Joseph Mercy Hospital are Mr. and Mrs. D. J. Fons (nee Marietta Colfer) of Huntington Woods.

Robert Colfer of Wall street is the maternal grandfather. Paternal grandparents are Mr. and Mrs. Fons of Berkley.

CAROL SUE EMPSON
The engagement of Carol Sue Empson to Joseph J. Lamoureux is announced by her parents, Mrs. Darnell Empson of Michigan avenue and Glen Empson of Oxford. Joseph is the son of Mr. and Mrs. Joseph Lamoureux of Downingtown, Pa., and is a student at Drexel Institute of Technology, Philadelphia. Carol is attending Murray State College, Murray, Ky. No date has been set for the wedding.

Be Stylish 'in the Red' This Year

PARIS (INS) — It's fashionable to be "in the red" this year and here is how to do it "a la Française."

For sports wear combine red with navy blue, white or gray as accessories or complementary clothes.

TO LOOK DRESSY

If you want a red outfit to look dressy wear it with black accessories and diamond or rhinestone jewelry.

For a striking effect Paris fashion designers combine red with mauve or purple. Red, combined with green and gold looks Oriental.

The smartest red Paris styles are by Jean Patou and Madeleine de Rauch. Patou dresses a lady in red for around the clock. Made of red wool crepe the outfit is a town suit with a wrist-length jacket and an all-pleated skirt.

Under the pleated skirt a second, slim red skirt replaces the petticoat and combines with a decollete top to a cocktail or dinner dress.

ON BEACH, TOO

Madeleine de Rauch wants women to look like flames on the beach as well as in the city. She used bright red shantung for Indian-inspired "punjab pants" with their fullness caught in a band at mid-calf height. They are worn with a strapless sun top and a loose collarless jacket, both of shantung in matching red.

Another red-hot style is a chiffon shirtwaist dress, a matching red wool coat, red cloche hat and red kid pump shoes.

Paris fashion designer Pierre Balmain is introducing fur in sporting clothes in his collection this year. At left is modeled his Breischwanz suit with a white jersey blouse. From Parisian fashion designer

Jacqueline Goddard's new collection are the "Euridis," a cocktail dress made of satin in center, and "Thais," a cocktail dress made of silk and tuxer at right.

TOPS IN TOPS — Looking like a gargantuan flying saucer, this giant plastic roof, the largest ever built, sprawls across the landscape in Manchester, N.H. The huge translucent roof, equal in area to three football fields, will cover the United States pavilion at the 1958 World's Fair in Brussels, Belgium. Constructed of 2,100 plastic panels, manufactured by the Kalwall Corporation, it is more than 340 feet in diameter and will span a 72,000-square-foot roof area. The roof is actually a "sandwich" panel of plastic sheets over an interior aluminum grid and its rim will rest on two concentric rows of gold-colored steel columns.

Hopes to Help Negro Race

Harry Belafonte Unspoiled by Million-a-Year Income

By BOB THOMAS

HOLLYWOOD (AP)—How does a million dollars feel?

Harry Belafonte ought to know. The onetime janitor, now the hottest attraction in the show business, will earn more than that in 1957. I asked him how it felt.

"I can't feel it," he replied be-

fore going out before a packed house at the Greek Theater, "because I never see it. Most of it disappears to the government, expenses, etc. Out of the million, I maybe get only \$100,000." With a backward glance at his poor days, he had to laugh at himself: "Only \$100,000!"

Kitchen Timer Aids Salesmen

Called Part of Modern, Sincere Approach by Steel Firm's Agents

CHICAGO (INS) — A Chicago area steel corporation has found a new device in the field of selling—a kitchen timer.

Irwin D. Harris, board chairman of Rolled Steel Corporation in suburban Skokie, says the use of the timer is part of the modern approach in sales, which makes the high-pressure salesman as out-of-date as high button shoes.

Most of the firm's sales are handled by telephone. As the salesman talks with the prospective client, he can observe how much time he is taking by the timer which is on his desk.

The object, Harris says, is to keep to the point if a sale seems likely, and if not, to close the conversation quickly to avoid becoming obtrusive.

Like other firms Rolled Steel once leaned toward the extroverted selling approach. Now, Harris declares, effective selling can be done on the phone by persons who are inherently modest, provided they can develop honest enthusiasm.

"The startling fact of the matter," he adds, "is that introverts have become some of our most successful salesmen."

"Just put yourself in the place of the steel purchasing agent. You've been deluged by a series of fast-talking, high-pressure salesmen. Nobody likes to be bludgeoned into buying, and such a pressurized blowhard can easily outlive his welcome, and that of his company's wares."

"In contrast, a salesman who is less noxious, but obviously knows his business, can gain the confidence of purchasers. His very syntax may well convey the impression of sincerity."

India's Cotton Crop Off

BOMBAY—India's cotton textile industry has been hurt by a sharp deterioration in the domestic raw cotton-supply position. While consumption has risen to a new high, a trade estimate places the current Indian crop at only 4,800,000 bales against an earlier estimate of 5,500,000.

The dough is a comfort, he admitted, but it hasn't changed his life.

"I'm no happier than I was when I was earning \$350 a week," he commented. "That bought me all the things I needed."

"I don't throw my money around. I have only an apartment in New York. I still own just one car. Artistically, I'm still doing the kind of work I want to do, with no compromises. And my friends are the same ones I've had for years."

But the difference now is power. He has the power to reach the widest audience imaginable—the first of his race to do so. He feels deeply the responsibility that goes with such power.

For instance, tonight he is appearing on Nat King Cole's NBC television show. He will receive a couple of hundred dollars and donate that to charity. Belafonte is able to draw \$40,000 for a guest appearance.

He explained: "When I found out that Nat was trying to break down the resistance to sponsoring a TV show starring a Negro, I told him I'd be glad to go on with him. I said I'd do anything on the show he wanted me to."

Belafonte is making another gesture in playing New York's Waldorf Astoria Hotel for five weeks starting next month. He could earn much more elsewhere. But he is returning because the hotel booked him as the first Negro to play the Waldorf.

Belafonte admitted that the acceptance of himself as a performer gets him in places where other Negroes are barred. But he is willing to be the trailblazer in hopes that others may follow.

"For instance, when they tried to hang the 'matinee idol' tag on me, my reaction was that it meant the acceptance of me by a vast audience," he commented. "That is significant. That 4,407 people out there tonight will accept me as an individual and a performer."

He plans to reach an even wider audience in the future. He is now negotiating a three-picture deal with 20th Century-Fox. I asked if he were limited in what he could do on the screen because he is a Negro.

Would Abolish Nuclear Arms

Mayor Makes Plea on the 12th Anniversary of Hiroshima Bombing

HIROSHIMA (AP) — Hiroshima Mayor Tabao Watanabe called for abolition of nuclear weapons and an end of their testing today, the 12th anniversary of the atom-bombing of his city.

Some 20,000 persons assembled in Peace Memorial Park for the annual ceremony. Standing before the white stone cenotaph built on the spot where the bomb exploded, Watanabe said in a proclamation: "It is only a foolish illusion to try to maintain peace by the might of possessing atom and hydrogen bombs, and experimenting with them."

"Present tests of nuclear weapons are undermining the existence of mankind. Radioactive elements, once taken inside the body, not only corrode from within but continue wreaking genetic havoc with the offspring."

As he concluded at 8:15 a.m.—the time the American B29 dropped the bomb Aug. 6, 1945—sirens and temple bells signaled the start of a minute of silent prayer and the release of 700 pigeons.

The crowd included Prince and Princess Mikasa, the first representatives of Japan's royal family to attend the memorial ceremony. The prince laid a flowered wreath at the foot of the memorial arch.

Brazil is officially known as the Republic of the United States of Brazil, according to the law.

New York Mercury Falls Near Record

NEW YORK (AP)—The temperature fell to 57.8 degrees at 5:50 a.m. today — two-tenths of a degree above the record low for the date in New York City.

The record low for Aug. 6 was 57.6 in 1934.

The U. S. Weather Bureau forecast that the temperature would rise to a high near 75 today, and dip into the upper 50s tonight. The chilly weather was attributed to a cool mass of Canadian

air extending as far south as northern Florida. Temperatures in the 40s were reported during the early morning in upstate New York and in New England, and the mercury plunged into the 30s in some mountainous areas of central and western Pennsylvania, the weather bureau said.

Federal Taxes Soar

WASHINGTON—Statisticians calculate that since the end of World War II the Federal Government has levied taxes amounting to 494 billion dollars. From 1796 to 1945, federal taxes levied total 253 billion dollars.

Senate Action
Ups Soybeans

CHICAGO (U)—Senate approval of a bill authorizing shipment of surplus farm products abroad caused buying which boosted soybean and soybean oil futures today on the board of trade.

Beans advanced more than a cent in some cases early and then fell back somewhat. Chicago receipts were quite heavy for the second successive day at 104 cars. Corn also was higher, but wheat was slightly weak and oats showed little change.

Near the end of the first hour, new style wheat was 1/2 lower to 1/4 higher, Sept. \$2.16; corn was unchanged to 1/4 higher, Sept. \$1.31; soybeans were unchanged to 1/4 lower, Sept. 65; rye was 1/4 to 1 cent lower, Sept. \$1.34; soybeans were unchanged to 1/4 higher, Sept. \$2.47; and land was 2 to 8 cents a hundred pounds higher, Sept. \$13.32.

Borge Mixes
Chopin and Hens
for Wrigleys

Several hundred persons were guests of Wrigley Supermarkets last night at the firm's annual Corn Fest, held this year at Will-O-Way on West Long Lake Road. Barbecued dinner was served at tables set in the orchard behind the Will-O-Way Apartment Theater, with strings of Japanese lanterns adding color to the scene.

Later the guests were entertained by Victor Borge. His presence on the program was appropriate as Wrigley Supermarkets this week are adding Rock Cornish hens from Borge's Vi-Bo Farms in Connecticut to their line of poultry.

Borge is widely known as a comedy pianist. But another of his activities is operation of a 436 acre farm in Southbury, Conn., where about 250,000 Rock Cornish hens are raised each year.

Say Plant Stimulator
Can Also Aid Grass

EAST LANSING (U)—Gibberellin, the amazing stimulator of plant growth, works on grass, Michigan State University scientists reported today.

Results of application of Gibberellin on experimental plots were described at the 11th annual nursery and Landscape Management Conference on the MSU campus.

Researchers said soil fertility levels must be kept high to retain the bright green color of grasses. Described as "very responsive" to the growth stimulator were Kentucky bluegrass, rough stalked bluegrass, meritor bluegrass, delta blue and Bermuda grass. Other varieties were less responsive in varying degrees.

Paroled Michigan
Lifer Shot by Police

MIAMI, Fla. (U)—Police said yesterday that Bernie H. Lanway, 61, shot to death in a gun battle with a policeman Sunday night, was a paroled lifer from Michigan State Prison and had spent much of his adult life behind bars.

He was sentenced in 1937 as a fourth offender after being convicted of an attempt to rob a Saginaw home of \$18,000 in jewels. The burglary was foiled by the householder, who attacked Lanway with a gun and a fire shovel.

Sunday night a Miami woman reported a holdup attempt. Lanway was cornered in a vacant lot and after firing one shot, fell with three bullets in his head.

Radioactive Fallout Hits
New High in Lansing

LANSING (U)—Although still far from dangerous levels, radioactive fallout hit a new high in Lansing last Friday, the State Health Department reports.

The peak reading probably resulted from atomic tests blast in Nevada, the Department said. Fallout rose sharply on Thursday, zoomed to the new high Friday and subsided on Saturday.

Merger Is Brewing:
Crankshafts and Beer

JACKSON (U)—Muskegon Motor Specialties Co., manufacturer of crankshafts and spindles, is going into the brewing business. The company has arranged to acquire Red Top Brewing Co. of Cincinnati via an exchange of stock.

Shareholders of the two companies will be asked to approve the merger at special meetings this month.

Texas, Iowa, Minnesota and Wisconsin lead all of the states in the total numbers of their cattle.

Full Employment a Factor

Prosperity Behind Economic Ills

By SAM DAWSON

NEW YORK (U)—The pains of prosperity can be just as irksome as any other kind. Officials have been laying many of our ills today to the good times.

Top men in the U. S. Treasury tell us that prosperity is one of the reasons we have a steadily increasing cost of living, why we have tight credit and dear money and soaring interest rates, one of the reasons we have big government spending and a big federal debt that grows ever more costly to manage.

The thinking behind much of this is the goal of full employment.

Carefully Guarded in Past

Testimony May Disclose
Atomic Stockpile Areas

WASHINGTON (U)—The House Armed Services Committee has published testimony which may disclose for the first time the locations of six secret stockpiles of atomic weapons in the United States.

Such information has been closely guarded in the past.

Testimony released by the committee over the weekend showed the subject came up in a routine session when Brig. Gen. William R. Shuler was asked why more money was needed for entertainment at bases operated for the Armed Forces Special weapons Project.

Shuler, Army construction director, replied that the special weapons project was charged with providing "technical, logistical and training services" to the military.

And, he added, the project also was responsible for "all national stockpile sites" for atomic weapons and for some testing areas.

The men stationed at project bases, the general said, are on "24-hour mission" and are not allowed passes in general.

Then, without specifically saying the bases were atomic stockpile sites, the general named six bases scheduled to get snack bars and other off-duty entertainment facilities:

Clarksville in Montgomery County, Tenn., near Ft. Campbell, Ky.; Killen near Ft. Hood, Tex.; Bossier in Bossier Parish, La.; Medina near San Antonio, Tex.; Lake Mead near Las Vegas, Nev.; and Manzanito near Albuquerque, N. M.

Although it has been general knowledge that atomic-type weapons have been stored in areas convenient to training and operational bases, inquiries as to stockpile locations have been turned back on grounds the information was classified.

ment — or, more accurately, a minimum of unemployment. So many people are employed today that the total of personal income is at a record high. This means that consumer spending is at a record high too. And this has contributed to the business confidence in continuing good times that has sparked the big boom in industrial expansion.

Consumer goods are for the most part in ample supply. Not all capital goods are. The urge of so many corporations to build new plants and equip them with new machinery and tools—and to do all of this right now if not soon—

is what has led to the tight money situation, and the rising price level in the view of the Treasury officials.

Full employment, with a scarcity of labor in many of the skilled trades, has set the stage for the annual increase in the wage scales.

The business expansion boom to a tight labor market and you get the demand and supply situation that keeps prices rising. As long as employment is so high and the total of personal incomes so high there will be little real consumer resistance to high prices. And so the spiral goes merrily on.

These are the pains of prosperity. But just as the body in time can fight off many diseases, so can the economy. There are some built-in remedies.

The rush of business to expand

put such a pressure on the investment fund market that credit became tight and interest rates started to climb. As they rise they cut off the ability of first this and then that company or municipality to build a new plant or a new public facility. As the boom levels off some of the pains are alleviated.

Also as industries have expanded they have built up greater capacity to produce. A striking example is the aluminum industry, which in a very few years has gone from a state of acute shortage to one of abundance and at least temporary oversupply. Many other industries are now in position to produce more than they can market. The resulting competition for sales is the best bet the consumer has that prices won't be boosted out of sight.

Johns Manville was up a fraction after the Federal Housing Administration announced lower minimum down payments on homes insured by the agency.

Down fractions were Republic Steel, Lukens, Olin Mathieson, Westinghouse, Baltimore & Ohio and Lehigh.

Motors were unchanged to a shade higher. Steels, rails, chemicals and metals were lower.

Kennecott fell back more than a point and DuPont two points.

General Electric lost 1/2 at 67 after it disclosed its major appliance division at Louisville will extend its usual vacation shutdown an extra week due to need for "inventory adjustment."

Oils were mostly lower as companies awaited the outcome of adjustments linked to President Eisenhower's request for a slash in imports. Gulf was down a point. Sinclair and Royal Dutch were off 1/2.

Cabaret Tax Cut 10 Per Cent

House OKs Measure Which Goes to Senate; Treasury Opposed

WASHINGTON (INS) — The House voted yesterday to reduce the federal cabaret tax from 20 to 10 per cent.

The bill, approved on a voice vote, now goes to the Senate which refused to lower the tax in 1954 when Congress reduced all other excise taxes to the 10 per cent level.

Sponsors of the bill, led by Rep. Aime Forand (D-R.I.) said the "onerous" tax was responsible for throwing hundreds of musicians as well as hotel and restaurant employees out of work.

The Ways and Means Committee report on the bill said consumer spending in all eating and drinking establishments rose 102 per cent between 1943 and 1956 but dwindled 40 per cent in places subject to cabaret tax.

Rep. H. R. Gross (R-Iowa) who led the limited opposition to the bill, charged that the cabaret tax should be the last—rather than the first—tax to be reduced.

WHAT TAX COVERS

The tax actually covers any restaurant where entertainment is provided.

Rep. Marguerite Stitt Church (R-Ill.) called it "long-needed legislation."

The bill was opposed by the Treasury Department. Forand told the House: "On general principles, the department is opposed to the loss of a nickel regardless of the merits of the case."

The bill would cost the government a loss of revenue estimated at 21 million dollars annually. Forand argued that some of the loss probably would be made up through higher income tax receipts from persons who would be put to work by the bill.

Girl, 19, Indicted on Murder Charge

REDWOOD CITY, Calif. — Elaine Soule, a 19-year-old clerk-typist from Freeport, Long Island, N. Y., was indicted last night by the San Mateo County grand jury on a murder charge in the slaying of her roommate.

The victim, Catherine Marie Elvins, 20, daughter of a prominent Seattle physician, was struck 26 times with a flatiron and stabbed 20 times in the chest last July 24 in the apartment she shared with Miss Soule in nearby Burlingame.

"The motive was money," Dep. Dist. Atty. Howard Hartley quoted Miss Soule as saying—a \$160 check sent the victim by her mother, Mrs. Naomi Elvins, wife of Dr. Richard E. Elvins of Seattle.

Hartley later said "We're less and less interested in the check as a motive and more and more interested in the quarrels" which neighbors reported the young women had constantly.

West Germany Reduces National Debt Slightly

BONN, Germany — West Germany cut its national debt less than half of 1 per cent—to 20½ billion marks (\$4,900,000,000)—in the fiscal year ended last March 13.

The Finance Ministry reported today the reduction during the year was about 100 million marks (nearly 24 million dollars).

Outstanding indebtedness includes 4,200,000,000 marks (nearly a billion dollars) owed the United States and 1,400,000,000 marks (332 million dollars) owed Britain for economic aid after World War II.

TV Tough Boys Get Beaten Up by Two Youths

NEW YORK — Two teen-age brothers who have appeared in "tough guy" roles in television dramas were beaten up by two youths in a park in upper Manhattan yesterday.

Police gave this account: A half dozen youths confronted Dennis Mahoney, 16, and Patrick, 14, as they were walking in Highbridge Park.

One of the group stepped forward and said to the brothers: "You guys are supposed to be tough guys, aren't you? Well, let's see you prove it."

Two of the group then punched and kicked the brothers, who fled. The Mahoney boys' parents took them to Jewish Memorial Hospital.

Dennis was kept at the hospital for treatment of a brain concussion. His condition was reported satisfactory today. Patrick was treated for a bruise over his right eye and sent home.

The brothers identified their assailants. Detectives arrested two 16-year-old boys, John Matthews and Thomas P. Ryan, and charged them with assault.

High Guatemala Official Won't Seek Presidency

Advances for noon EST Ag. 6... GUATEMALA — Guatemala's defense minister, Col. Jan Oliva, announced today he will not run for president to succeed assassinated Carlos Castillo Armas.

Oliva said in a prepared statement that he had been offered support from "many sectors" but preferred to continue serving in the army he now commands.

"My main ambition," Oliva declared, "is not to be president of the republic but a soldier willing to sacrifice all, including life, in defense of the majesty of the law."

Convict Thumbs Ride With Police Sergeant

BRATTLEBORO, Vt. — Bradley Caldwell, 21, of Henniker, N.H., thumbed a ride from the wrong man yesterday when he escaped from a work detail at county jail.

He was picked up by Foster F. Corliss and given a ride—back to jail Corliss, a state police sergeant, drives an unmarked cruising car.

Find Woman Caught Between 2 Rocks

DEPAUL, Ind. — An 84-year-old woman has been found after spending more than two days wedged between two rocks in a wooded section.

Mrs. Ida Elliott was located yesterday by a Sea Scout troop from Jeffersonville, Ind.

More than 200 persons and a port.

pack of bloodhounds took part in the search. She was taken to a New Albany, Ind., hospital, where she was reported suffering from exposure.

Sheriff Orin Dideot said the woman had left home Friday after packing her belongings in a cardboard box. He said she had left similarly on previous occasions but had returned or was found easily.

Four Youths Arrested for Possessing Beer

Four youths were arrested Sunday afternoon in a car for possession of beer and three were arraigned yesterday in municipal court.

John Bisop Jr., 18, and Bruce J. Hawes, 19, both of Detroit, pleaded guilty and were sentenced either to pay \$25 fines and serve two days in jail, or serve seven days in jail.

18, of 1591 Collier Rd., was released on \$100 bond pending trial Aug. 15. The fourth youth, 16, was turned over to juvenile authorities.

Death Halts Playtime

SACRAMENTO, Calif. — Ten-year-old Michael Bunch, playing alone in a tree in his front yard, accidentally hanged himself. "Somehow the rope got tangled around his neck," the coroner's office said.

HOMART HEATS ALL HOMES

GAS OIL COAL ELECTRICITY

THERE'S A HOMART HEATING SYSTEM FOR EVERY TYPE OF HOME

SEARS ROEBUCK AND CO.

Complete with Plenum Chamber, Burner with Nozzle, Blower with Filters, Primary Control and Draft Regulator—Arrange for Installation!

Homart Oil Furnace

Regularly Sells \$349.00

\$329

✓ No Money Down Under F.H.A. Terms
✓ Monthly Payments Begin October 1st

Now is the time to prepare for those cold winter days. Buy and install this Homart heating system and save \$20 when you buy now! Comes complete with plenum chamber, burner with nozzle, blower with filters, primary control and draft regulator. 84,000 BTU's. Call for FREE estimate today!

Homart Serves You Better for Less!

Compact Homart Four-Section Gas Boiler

Regularly \$219

\$199

No Money Down

For gravity, forced hot water or steam systems. Wet base design for greater efficiency, installs over combustible floors. Specially designed cast iron burners give uniform flame for proper combustion.

NO PAYMENTS UNTIL OCT. 1st

SPECIAL PURCHASE!

8-in. Sink Faucet

Reg. 8.95

788

Copper-nickel chrome-plated brass faucet mounts on wall. 8-in. centers. Soap dish included. Modernize now!

Others at 9.95 to 24.95

Homart Glass Lined Water Heaters

Reg. 89.95

\$69

55 DOWN

Glass lined, 30-gallon tank guaranteed 10 years. 100% safety gas cut-off protects against flame failure. AGA approved.

5-Section Boiler Comes All Set Up Oil Fired

Reg. 439

\$439

NO MONEY DOWN

Includes oil burner, automatic controls, circulating pump, wiring harness. Easy to follow instructions. Do-it-yourself!

Save Time, Money! Convert to Oil with Homart Burners

- Regularly \$104
- Pedestal Base
- 110 Volts, AC

\$94

No Money Down on F. H. A.

Scientifically designed to squeeze all the heat from every drop of oil! Heavy duty transformer for constant or intermittent transmission. Quiet, vibrationless centrifugal blower. Rust resistant.

Exclusive Design HOMART Toilet Seat

Plastic

9.95

Special formula polystyrene and lucite for extended life. long wear. Stainless steel hinges. Wide color selection. Others as low as 7.95

Fluorescent Light Medicine Cabinet

You Can Start a Smart, New Kitchen for This Low Price

- Natural Finish Birch Front

\$296

No Money Down on F. H. A.

What an easy, inexpensive way to begin that wanted kitchen. 66-in. starter kitchen includes 2 matching wall cabinets. Easy-to-clean steel or cast iron sink with faucet, rinsing spray and 2 strainers.

Life on This Earth Is Not Too Long...

We should make good use of every minute of it. Here are some thoughts: Take Time to—

- PRAY... This is our greatest source of strength.
- WORK... For work is the price of success.
- PLAY... It is the secret of eternal youth.
- READ... It is the fountain of wisdom.
- THINK... It is our guide to the use of our strength.
