Nehru Orders Army to Drive Chinese Out

BETTER THAN RAMBLER?—Democratic Lt. Gov. T. John Lesinski (right), looking over a model of the 1963 Pontiac, asks how the Pontiac compares with the Rambler associated with Republican gubernatorial candidate George W. Romney. Many Being Killed at Himalayan Line

FROM OUR NEWS WIRES

NEW DELHI, India — Prime Minister Nehru said today that the Indian army has been ordered to drive Chinese Communist troops from Indian territory on the northeast frontier.

Nehru said his government had ordered the army "to free our territory in the northeast frontier."

Fighting erupted on the Himalayan frontier in the northeast on Wednesday.

In the fighting since Wednesday, Nehru estimated the Chinese Communists suffered nearly 100 casualties. This was nearly three times the figure reported by Peiping Thursday and indicated that the battle is continuing.

Red China lodged a "strongest and most serious protest" with the Indian Embassy in Peiping, accusing India of invading Chinese territory and spreading the flames of war.

Nehru spoke to newsmen before taking a plane for a three-day trip to Ceylon.

He had consulted with Defense Minister V. K. Krishna Menon and Foreign Ministry officials on the border crisis Thursday.

HEADS CORPS

Lt. Gen. B. M. Kaul, one of India's leading officers, was sent to head a newly organized army corps on the northeast frontier last week.

★ ★ ★

An Indian government spokesman said the fighting broke out Wednesday after a Chinese Communist soldier hurled a grenade at an Indian outpost.

'THEY FLED'

The Indians reported their casualties at 17 killed or wounded. Peiping said 33 Chinese troops were killed or wounded.

★ ★ ★

Radio Peiping claimed the Indian troops "fled in confusion, leaving six corpses and arms and ammunition behind."

The radio said the Foreign Ministry in Peiping lodged a strong protest with the Indian Embassy.

There was no word whether the fighting was continuing. But each government accused the other of rushing up reinforcements.

★ ★ ★

The area has been the scene of increasingly serious clashes since Chinese troops moved south of the McMahon line several weeks ago.

The Indians consider the line the legitimate border with Tibet.

The Chinese Communists, who took over Tibet in 1953, have never recognized the McMahon line.

Peiping Radio said yesterday the Chinese Communist foregin ministry sent a note to India warning Nehru to "rein in" on the "reckless attacks" by Indians before a full-scale war erupts.

HELPING GRANDPA CAMPAIGN—Four-year-old Jody Keenan and her brother, Brett, 2, join their grandfather, George W. Romney, as he speaks from the back of truck to a rally of some 500 supporters at Birmingham's Shain Park yesterday. Parents are Mr. and Mrs. Loren G. Keenan of 2694 Brady Drive, Bloomfield Township.

Adjournment Still Stalled

Congress Makes Bid for Wrap Up Today

WASHINGTON (AP)—The 87th Congress—its ranks dwindling almost by the hour—sends its rear guard in a weary, all-out charge toward final adjournment today.

Only three bills of any importance were still to be cleared out of the way, and Senate and House leaders were hopeful — but not burning with confidence — that they would be wrapped up by late afternoon or tonight.

★ ★ ★

Senate Democratic Leader Mike Mansfield of Montana summed it up by saying adjournment should be possible today, but "I would not bet on it."

Both houses were skating on thin ice as far as a quorum was concerned. The House produced more than half of its membership Thursday, but the Senate has not risked a roll call this week. It always presumes a quorum to be present unless questioned.

GONE CAMPAIGNING

The reason for the low attendance is that many members have hustled home to campaign for the Nov. 6 congressional elections.

★ ★ ★

There was a brief flicker of hope that shop would close up Thursday night after the prolonged and bitter row over the agriculture money bill was settled.

This hope was crushed by a stubborn controversy over the bill authorizing future rivers and harbors and flood control projects, the water-projects measure.

House and Senate conferees will try again to iron out their differences over the bill, after two previous fruitless sessions.

★ ★ ★

The Senate version of the measure authorizes more than $4 billion worth of projects, the House bill $2.2 billion.

Lesinski Attacks Romney as 'Trader'

Lt. Gov. T. John Lesinski's attack on what he called the "trade and sell out" tactics of George W. Romney yesterday in Pontiac was followed last night by Gov. John B. Swainson's blast at his opponent's demand for new leadership in Michigan.

Campaigning in Pontiac for re-election, Lesinski told an audience of senior citizens at UAW-CIO Local 594 that their choice was between the "moral courage" of Swainson and the "political trading" of Romney.

He charged that Romney used the constitutional convention "to advance his political fortunes" even though he had "stated it should never be used for political purposes."

"Again and again he has been willing to trade and sell out, and he would undoubtedly trade in the best interests of the state if he thought it would help him become president," Lesinski said.

TALKS OF COURAGE

He said Swainson had demonstrated "the courage to do right" by vetoing legislation against the wishes of pressure groups.

He referred to the milk marketing act and the Bowman bill to prohibit municipal income taxes on nonresidents.

Swainson spoke to some 400 well-wishers who took part in a 10 p.m. torchlight reception for him in Milford.

"No one person has all the answers to the challenge in Michigan," Swainson declared. "Responsible government is not a one man show.

"That is why I am running not as an individual but as a Democrat on the Democratic record, with a Democratic team that has a proven record of public service."

County Democrats termed the Milford crowd an "amazing turnout" for the size of the village. They said they were "very pleased with the rousing reception" given the governor.

Lesinski greeted employes at City Hall and the city library before his speech at Local 594. He then attended a luncheon for Democratic candidate for Congress from Oakland County George J. Fulkerson at Kingsley Inn in Bloomfield Hills.

Romney Says Governor Changing His Position

Republican candidate for governor George W. Romney yesterday charged Gov. John B. Swainson with shifting his position on Michigan's economy because "he is politically desperate."

"Swainson's interpretation of statistics is dangerously misleading," Romney said at two Pontiac luncheon meetings and a Birmingham outdoor rally.

The governor has suddenly stopped blaming Republicans for the state's economic ills and is now saying the state has no economic ills, Romney said.

But Swainson's claims that Michigan's economic rate of growth is the second fastest among the states and that its future is "more rosy than ever" are wrong, he continued.

ADDRESSES LAWYERS

"The fact is that Michigan is worse off than when Swainson took office," Romney said.

The GOP gubernatorial candidate spoke at a meeting of some 150 members of the Oakland County Lawyers for Romney at the Elks Temple at noon, then rushed to the Waldron to address about 100 Pontiac Rotary Club members.

He then hurried to Birmingham where some 500 supporters greeted him at a rally in Shain Park.

Referring to his Tuesday night television debate with Swainson when the controversy over unemployment figures began, Romney said he did not question the figures, just the interpretation.

★ ★ ★

The 4.9 unemployment percentage with which the governor backed his claim of economic improvement failed to take into account some 126,000 workers who dropped out of the labor force because of the state's poor economic situation, Romney said.

Many of these were people who moved out of the state because they couldn't find jobs, he added.

Cloudy Skies, Maybe Rain on Saturday

The temperature was still at 68 early this morning after climbing yesterday to a high of 83 at 3 p.m.

The U. S. Weather Bureau said tonight will be fair and cooler, the low about 50.

Saturday will be partly cloudy and not much change in temperature with a chance of scattered showers, the high near 68.

Morning southwesterly winds at 8 miles per hour will become north to northeasterly at 15 to 20 m.p.h. late today, diminishing tonight and shifting to easterly and southeasterly Saturday.

Sixty-eight was the lowest recording in downtown Pontiac preceding 8 a.m. The mercury had climbed to 69 at 2 p.m.

Pontiac Sales Break Record

Tempests Also Run High Past 10 Days

Pontiac Motor Division's Pontiac sales zone has set an all-time 10-day sales record, Harold E. Milliken, zone manager, announced today.

MILLIKEN

He said 2,606 Pontiacs and Tempests were retailed by dealers in his zone in the October 1-10 sales period.

This, Milliken pointed out, surpassed the previous record of 2,192 units sold the last 10 days of April this year.

"The unprecedented demand for Pontiacs in this area has exceeded even our most optimistic expectations," Milliken said. "So far this year sales are 71 per cent ahead of our year-ago pace."

The 2,606 cars retailed in the past 10-day period, Milliken said, also set a record for a new model announcement period.

By comparison, 1,979 Pontiacs and Tempests were sold by dealers in the Pontiac zone in the new model announcement period last year.

Plan N-Rocket in 1967 to Power Booster

HOUSTON, Tex. (AP)—This country will be able to start flight tests by 1967 of a nuclear rocket to power a second-stage booster required for interplanetary travel, Chairman Glenn T. Seaborg of the Atomic Energy Commission predicted yesterday.

Seaborg talked to reporters before speaking at a dinner at Rice University. He said the nuclear rocket probably can be used for manned space flights within the next two decades.

Yanks, Giants Rained Out on Coast Today

SAN FRANCISCO (AP) — Baseball Commissioner Ford Frick today postponed the sixth game of the World Series between the San Francisco Giants and the New York Yankees until tomorrow because of rain and wet grounds.

Frick made his decision at 10:41 a.m. (Pontiac time) after a brief tour of the soggy turf of Candlestick Park, home field of the Giants.

It was raining when Frick made his inspection tour, and winds of 40 to 60 miles an hour were ragng through the area, a point of land in San Francisco Bay.

Soviets Charge Yank Is Spy

2nd Diplomat in Week Expelled From Russia

MOSCOW (AP)—The Soviet Union today charged the U.S. Embassy's first secretary Kermit S. Midthun with spying and ordered him out of the country.

Midthun, a University of Michigan graduate, is the second U.S. diplomat expelled within a week in apparent retaliation for the United States' expulsion on espionage charges last week of two Soviet diplomats at the United Nations.

★ ★ ★

U.S. Counsellor-Minister John M. McSweeney said Deputy Foreign Minister N. Smirnovsky ordered the American Embassy to send Midthun home at a meeting at the Foreign Ministry today.

READ CHARGES

In a statement read to McSweeney, the Russians charged that the 41-year-old diplomat "attempted to induce a Soviet citizen, an employe of the government institutions, to transmit to him information of a secret character."

★ ★ ★

It said this was inconsistent with Midthun's status as a diplomat and ordered his immediate departure from the Soviet Union.

McSweeney said Smirnovsky would not give further details of the alleged incident. He said Midthun denied the charge and could think of no basis for it.

★ ★ ★

The Soviets last Friday ordered Asst. U.S. Naval Attache Raymond D. Smith out of the country on charges that he spied on military installations during a trip to the Baltic seaport of Leningrad. Smith and his family left Moscow Monday.

DIDN'T PROTEST

McSweeney said he had not protested the Soviet action against Midthun as he had in Smith's case because the embassy knew nothing of the alleged attempt to obtain Soviet secrets.

France Plans Customs Curb on Monaco

PARIS (AP) — France announced today she will throw up a customs barrier around Monaco at midnight because negotiations on the tax-free status of Monaco have broken down.

★ ★ ★

The announcement from the Ministry of Finance and Economic Affairs said customs regulations will go into effect around the seaside principality when an economic agreement between France and Monaco expires at midnight.

In Nice, half an hour's drive from Monaco, specially designed trucks have been assembled and will presumably move into place as mobile customs stations around the 368-acre principality which lies entirely inside France, except for the Mediterranean shore.

★ ★ ★

France, irritated by the tax-free status of French residents and corporations in Monaco, gave notice April 11 that it was renouncing the main agreement governing relations between the two states.

U.S. Cautions K on Berlin

West Warns New Crisis Would Be Fault of Reds

By JOHN M. HIGHTOWER

WASHINGTON (AP) — A U. S. spokesman said today that any new Berlin crisis will be one "deliberately created" by Soviet Premier Khrushchev, and he will bear "full responsibility" for it.

★ ★ ★

The statement was the latest in a deliberate campaign by the Kennedy administration aimed at warning Khrushchev of the grave danger of a nuclear war if he pushes his Berlin demands into a military showdown.

News Analysis

Press officer Lincoln White was asked at a news conference to discuss Washington reports of concern among government leaders about a new East-West crisis over Berlin.

He said there should be nothing mysterious about that, because various public statements have been made by high government officials in recent weeks.

★ ★ ★

Secretary of Defense Robert S. McNamara especially has talked of the possibility of nuclear war if the Russians push too far.

"I would only add," White said, "that any potential crisis in Berlin now, or at any time, would be one deliberately created by Mr. Khrushchev, himself, and for which he would bear full responsibility."

Further opportunity for cautionary statements will be offered the administration next week when West German Foreign Minister Gerhard Schroeder holds policy talks here with President Kennedy, Secretary of State Dean Rusk and McNamara.

SEE NEW CRISIS

The reasoning behind the drive, high officials said, covers these points:

★ ★ ★

1. The best informed authorities in Washington believe that Khrushchev is planning a new Berlin crisis beginning about a month from now.

2. The gravest danger in such a crisis, if it develops, is that the Soviet leader may not believe even after the repeated statements of Western determination to stand firm in Berlin, that the Western powers actually will fight when the chips are down. He may therefore overplay his hand.

UNDECIDED

3. The probability is that final decisions on Soviet actions with respect to Berlin are still to be made. Khrushchev has recently been away from Moscow. Foreign Minister Andrei Gromyko has been in New York but is expected to return to the Soviet capital next week.

In these circumstances, U.S. policy makers believe that now is the time to try to avoid an overassessment by Khrushchev of how far he can go in seeking to force a Berlin settlement on his terms.

★ ★ ★

According to reports known to the White House and State Department, Khrushchev has told a number of Western visitors in recent weeks that he intends to have a Berlin settlement along the lines of a Soviet-East German peace treaty. In his view this would end the occupation rights of the United States, Britain and France in West Berlin.

★ ★ ★

He has also been reported to have said on various occasions that he did not think the United States would go to war over West Berlin. He has remarked that perhaps the problem is one which President Kennedy and he should discuss personally.

Plane Carrying 19 Crashes in Spain

MADRID, Spain (AP) — A Spanish airlines plane with 14 passengers and five crewmen aboard crashed in flames today near Carmona. Reports from the scene said it appeared there were no survivors.

★ ★ ★

The plane, a twin-engine Convair, left Madrid early today for Barcelona, Valencia and Sevilla with 23 passengers.

★ ★ ★

But police at Valencia said there were only 14 passengers aboard when it left Valencia.

The pilot radioed when about 40 miles from his destination that he had a fire aboard and would attempt an emergency landing.

There were no further reports from the plane until a U.S. Air Force helicopter from Moron Air Base, near Sevilla, sighted burning wreckage on a farm between Carmona and El Viso.

The helicopter, carrying doctors, said it could spot no survivors.

MAO WAVES — Mao Tse-tung, Red China's Communist party chief, waves to people taking part in National Day parade held recently in Peiping. Behind him walks his top party lieutenant, Liu Shao-chi. Occasion of the celebration was the 13th anniversary of the Communist takeover in China.

World Leaders 'Must Account'

VATICAN CITY (AP) — Pope John XXIII warned the world's leaders today that they "will one day have to account for their actions to God." He appealed to them to "give ear to the anguished cry of 'peace, peace' which rises up to heaven from every part of the world."

"May this thought of the reckoning that they are to face spur them to omit no effort to achieve this blessing, which for the human family is a blessing greater than any other," the pontiff said.

The 80-year-old ruler of the Roman Catholic Church spoke at a special audience for the envoys sent to the Vatican by 85 governments for the opening of the Roman Catholic Church's 21st Ecumenical Council.

With Michelangelo's awesome "Last Judgment" as a backdrop, the pontiff told the envoys assembled in the Sistine Chapel that war today would "mean the destruction of humanity." He called attention to the vast fresco, "the seriousness of which gives one much food for thought" and warned, "We must indeed render an account to God."

Let the leaders of the world, the pontiff said, "continue to meet each other in discussions and reach just and generous agreements that they faithfully observe."

Romney Sees Shift in Swainson Stand

(Continued From Page One)

ing people," he said, asserting that Michigan's work force was declining faster than those of surrounding states.

QUOTES NEW FIGURES

Romney said new figures show that 1961 was the first year since 1933 that Michigan's per capita income failed to top the national average and that the state's increase in per capita income from 1950 to 1961 was lower than those of Ohio, Indiana, Illinois, Pennsylvania, New Jersey and New York.

"If Michigan had kept pace with the national average during these years," he said, "our income would have been $750 more per year for each family.

"As serious as it is now, it will be much more serious in the immediate years to come.

"We face an explosive increase in need for jobs and public services and we are not prepared," Romney said, referring to the expected joining in the work force of those born in the wartime baby boom.

★ ★ ★

"We've got to have a million more jobs by 1970."

"If we don't stimulate our economy, we will either have to cut public services or pay more taxes."

Romney said the people of Michigan know well enough that things are not more rosy than ever.

★ ★ ★

One of Romney's running mates, L. William Seidman, candidate for state auditor, also visited Pontiac yesterday. Seidman met employes at the County Courthouse before greeting shoppers at Pontiac Mall, Tel-Huron and Miracle Mile shopping centers.

to "broom out Broomfield" (William S. Broomfield, the Republican incumbent).

Lesinski attacked Broomfield as "the resolution kid," when he was a state representative.

"Whenever it was someone's birthday or there was a need for a congratulatory resolution, they called on Broomfield," Lesinski said. "But he never did anything to help the people back home."

Lesinski also supported Fulkerson's stand in favor of President Kennedy's medicare plan.

Fulkerson said the medicare program "offers a man the opportunity to pay for retirement years health protection when he can best afford it — during his working year."

★ ★ ★

He said the present Kerr-Mills program with its rigid means tests and private health insurance plans were inadequate.

The luncheon was sponsored by former Democratic candidates for Congress from Oakland County.

Swainson began a day of campaigning in the southern part of the county today by greeting workers at the Lincoln-Mercury plant in Wixom at 5:45 a.m., then breakfasting with some 30 executives at the plant.

★ ★ ★

He is scheduled to make appearances in Southfield, Oak Park, Madison Heights, Ferndale and Royal Oak.

Can't Prevent Ship Raids by Exiles, U.S. Tells British

WASHINGTON (AP)—The United States has told Britain that this country cannot prevent anti-Castro shipping raids which might jeopardize British ships in the Cuban trade.

A British statement of concern has brought an American response which seemed, in some respects, to say that the British ships could only proceed in the Cuban trade at their own risk.

State Department press officer Lincoln White said the matter had been raised with the department by the British embassy here in conection with the attack some weeks ago by a Cuban exile group on several ships, including the British vessel Newlane.

A Cuban exile group calling itself Alpha 66 claimed it carried out the attacks, and said it has headquarters in Puerto Rico.

Yesterday Alpha 66 said it will hit at any shipping headed for Cuba.

Press reports from London earlier today said the British government was disturbed about the threatened campaign against vessels delivering cargoes to the regime of Fidel Castro.

"The British were assured," White said, "that these attacks (specifically the raid on shipping when the Newlane was hit) do not have the sanction of the United States government."

White said, however, that "Cubans reside at many places all around the Caribbean, and the United States cannot assume responsibility for acts initiated by Cuban exiles who have left from points not under United States jurisdiction."

He said the Coast Guard and the U. S. Immigration Service have had programs "designed to prevent incidents based on U. S. territory," but he added:

"In this connection, however, you must bear in mind that there are literaly thousands of miles of coastline to patrol, and, in the Florida area alone, there are several thousand pleasure boats.

"There is no absolute guarantee against any incident taking place."

Gale Pounds Coast Towns

By United Press International

Gale force winds pounded seaboard towns on the West Coast today.

The storm spread heavy rain or blinding snow from California's coastline to the Rockies. The sixth game of the World Series at San Francisco was called off because of the heavy rains.

Two deaths were blamed on the blast — a man washed overboard from a fishing boat and another man killed when a cottonwood tree was blown onto his pickup truck. Winds and waves battered a two-block section of Gold Beach, Ore., causing damage estimated at $1 million, and 60-mile-an-hour winds crippled the Humboldt Bay fishing fleet in northern California.

It said there were 116,062 births in the first eight months of 1962, some 7,229 less than during a comparable period last year. Michigan's birth rate has declined yearly since a record high in 1957.

Football Fever Leads to Rallies

By United Press International

Football fever, with an assist from the weatherman, boiled over at three of Michigan's largest colleges last night and ended in impromptu pep rallies and panty raids.

★ ★ ★

Boisterous demonstrations occurred at Michigan State University and the University of Detroit and a virtually trophyless panty raid was the order of the day at the University of Michigan.

Football was the big stimulus of the Detroit and Michigan State affairs and the University of Michigan's seemed to stem from a combination of weather, football and the knowledge that a similar happening had taken place in Spartanland in East Lansing.

A balmy night followed an unseasonably hot day at all three campuses and it might as well have been spring.

★ ★ ★

At the University of Detroit, about 1,500 students staged an unscheduled bonfire to highlight their rally. Firemen were called to the campus to put out the fire and the students scuffled with them and tried to take away their hoses.

FIREMEN WIN

The firemen won the field, turning the hoses on both the bonfire and the students, scattering both.

A University of Detroit spokesman, noting the Titans lost their first three football games, said the students needed the rally though the picture was dark for tonight's game with the University of Kentucky Wildcats.

★ ★ ★

The rumpus broke out at East Lansing at about 9 p.m. when about 10 students walked through the student union chorusing cheers. Students came from every corner of the campus and the gathering mob began to march.

The entire force of campus police was called out to keep students out of the streets.

Squad cars, their blinkers flashing and loud speakers blaring, parked on U.S. 16, which runs through the campus, to keep students from leaving the grounds and blocking the highway.

Campus police said there was no destruction except for the overturning of a few trash cans.

★ ★ ★

"You should have seen the house mothers trying to push the fellows out of the girls' dorms," one student said. "The freshman girls have to stay in after 10:30 p.m. and they wanted to get out and join the fun but the mothers wouldn't let them."

ENDS IN CHEERS

The MSU demonstration broke up when police herded the crowd into the field house and athletic director Biggie Munn led them in cheers.

Some 600 male students started the panty raid at Michigan's Ann Arbor campus shortly after midnight with the traditional chant, "to The Hill," the area where the women's dorms are located.

★ ★ ★

Their first stop was Stockwell Hall, where they were deterred, apparently by a lack of response from the distaff students.

An equally cool facade was presented at Mosher - Jordan Hall but things picked up at the third stop, Mary Markley Hall, where the first trophies of the night were garnered.

Observers said the students did not enter the dorms but some coeds tossed panties out the windows to the crowd.

The tempo of the raid slackened but two more stops were made before male students called it a night after about 45 minutes of demonstration.

The custom, one student said, was to stand outside womens' quarters and yell, whistle and shine flashlights in the windows. The rest is up to the girls.

★ ★ ★

At Michigan State a guard was mounted around "Sparty," a statue honored by the student body.

"This is traditional," one student said. "We don't want Michigan students to come and paint Sparty with Michigan colors. They try it every year before the game."

★ ★ ★

He said the "brigade" guarding the statue would be on duty around-the-clock.

Birmingham Area News

Conference on College Set for Girls, Parents

BIRMINGHAM — The top administrators of four Midwestern colleges will explain the need for college-educated women at a special conference to be held in Birmingham Oct. 23.

The conference is open to all area high school girls and their parents.

It will be held at 7:30 p.m. at Seaholm High School, 2436 W. Lincoln Ave.

Speakers, all college presidents and cofounders of the new Council of Midwestern Colleges, include Dr. Kenneth Freeman of Christian College, Columbia, Mo.; Dr. Duncan Wimpress of Monticello College, Alton, Ill.; Dr. Seymour A. Smith, Stephens College, Columbia, Mo.; and Dr. Randall B. Cutlip of William Woods College, Fulton, Mo.

★ ★ ★

The officials will explain what a young woman should look for in a college and what a college seeks in a prospective student.

The presidents and admissions personnel from each college will be available for personal interviews with high school girls and parents following the Oct. 23 meeting.

No tickets or reservations are necessary.

On Oct. 22, the Midwestern college representatives will speak with high school principals and guidance counselors at 7 p.m. in Detroit's Sheraton-Cadillac Hotel.

A special program designed to introduce science to younger elementary school children will begin tomorrow at the Cranbrook Institute of Science.

Saturday morning sessions are slated for 9 and 10:30 a.m. for children from the first through the third grades. They will be held each Saturday for three weeks.

Classes for fourth graders and up begin at 10:30 a.m. Nov. 3 and continue for four weeks.

Mrs. Alex McVean of 1212 Webster St. will be installed as worthy matron of Birmingham Chapter 220, Order of the Eastern Star, next Wednesday at the Birmingham Masonic Temple.

Others to be installed in the 8 p.m. ceremonies include Alex Busby of 327 S. Woodward Ave., worthy patron; Mr. and Mrs. Edward Stutz of 771 Wallace St., associate patron and associate matron; and Mrs. Clifford Ross of 1299 Northover Drive, conductress.

Associate conductress will be Mrs. Paul Wogan of 28024 Middlebelt Road, Farmington.

"Past Chiefs Night" will be observed Wednesday at 8 p.m. by Birmingham Temple No. 94 of the Pythian Sisters at the Birmingham Community House.

A "white elephant" sale is scheduled as part of the evening's activities.

Richard J. Roach

A Requiem High Mass will be sung for Richard J. Roach, 55, of 1472 N. Cranbrook Road, at 9:30 a.m. Monday at Our Lady Queen of Martyrs Catholic Church, Beverly Hills. Burial will be in Holy Sepulchre Cemetery, Southfield.

Mr. Roach died yesterday after a brief illness at William Beaumont Hospital, Royal Oak.

The Rosary will be recited Sunday at 8 p.m. Sunday at the Bell Chapel of the William R. Hamilton Funeral Co.

He was a member of the Grosse Pointe Crisis Club and owner of the Roach Insurance Co. of Detroit.

Surviving besides his wife Beatrice are three daughters, Mrs. Richard B. Sempson of Subic Bay, Jane T. Roach of Dallas, Tex., and Mrs. Michael Lynch of Kearny, N. J.; and two sons, Michael R. and Timothy P., both of Birmingham.

Man Waives Exam in Burglary Case

LeRoy B. Perkins, 20, of 389 Ditmar St., waived examination yesterday before Municipal Court Judge Cecil B. McCallum and was bound over to Circuit Court on a charge of breaking and entering.

Perkins was arrested earlier yesterday by Pontiac police. He is one of four men charged with the burglary of Hampton Electric Co. last March 20.

The other three have already been arraigned. Perkins was slated to be arraigned Oct. 15.

Lansing Man Finds 'Twin'

LANSING (AP) — Modesto Cruz Diaz of Lansing, a bridge design engineer, for the State Highway Department, thought he had a rather distinctive name.

He's since found out there is another Modesto Cruz Diaz of Brooklyn, N. Y. The other Diaz was born on the same day and their mothers have the same first name.

The coincidence turned up when the Brooklyn Diaz lost his Social Security card and applied for a duplicate. It was discovered the two men had been assigned the same Social Security number.

The highway department Diaz was born in the Phillipines and the Brooklyn Diaz is a native of Puerto Rico. They've now been assigned separate numbers.

The director of the Greek Antiquities Department will visit Mytilene on the island of Lesbos to study the possibility of restoring the town's ancient theater, reputed to be one of the biggest in Greece.

DISASTER SITE—This map locates Natchez, Miss., where Army engineers are trying to raise four tanks of liquid chlorine from a barge that sank in March 1961. It has been declared a major disaster area.

Vandal Hits Art in Louvre

PARIS (AP)—The Louvre Museum disclosed Thursday that nine paintings, including three by Camille Corot, had been badly damaged by a vandal, apparently on Sunday night.

It said the paintings had been scratched, either by fingernails or by a nail file. The act had been kept secret in an effort to aid French police.

"All nine paintings can be restored in a very satisfactory manner," one museum official said.

A $12 million entertainment center, a home for musical comedy, revue operas, symphony, ballet and the drama, is nearing completion in Toronto.

Korean Candidate

SEOUL, Korea (UPI) — Chairman Park Chung Hee of the ruling military junta will be a candidate for civilian president next year, the Korean Daily News reported yesterday. The News quoted Col. Kim Chong Pil, No. 2 man in the junta.

Only about 10 per cent of all the land in Switzerland is said to be suitable for agricultural purposes.

East, West Friendly in Art

MOSCOW (UPI) — A Moscow audience rose for the playing of "The Star-Spangled Banner." A Russian - born composer from California chatted with Nikita Khrushchev. An American basso sang in the Soviet provinces.

★ ★ ★

East-West relations are tense over Cuba and Berlin today. But cultural coexistence is riding high.

Since Russian - American cultural exchanges began, artists have succeeded in building a bridge between the two nations. But an American embassy official said the exchanges appear to have done little to promote political friendship.

★ ★ ★

"It's ironic," he said, "that when the international political climate is most tense, cultural relations should continue so strong. There is no relation between the two."

U.S. FLAGS DISPLAYED

America's latest cultural export — the New York City Ballet — appeared at Moscow's Bolshoi Ballet this week. Two pairs of Soviet and American flags decorated the walls and the Russian orchestra played the national anthems of both nations.

Igor Stravinsky, the Russian-born composer who now lives in California, left Moscow last night after a month-long stay, his first visit here in 40 years.

Stravinsky ended his four weeks of making musical friends for America with a visit to Premier Khrushchev in the Kremlin.

★ ★ ★

Metropolitan Opera basso Jerome Hines was singing his way across Russia on another U.S. culture tour. Earlier Hines sang the role of Moussorgsky's hero, Boris Goudonov, in Russian at the Bolshoi.

The exchange program is a two-way street. Soviet artists have been busy in America.

The famed Bolshoi Ballet is currently on a U.S. tour. Soviet pianists entered the Van Cliburn piano contest in Fort Worth, Texas, and won second and thrid places behind an American.

At the New York Ballet's opening night, the audience was liberally sprinkled with Americans. New U.S. Ambassador Foy Kohler and Soviet Culture Minister Ekaterina Furtseva sat sided by side.

★ ★ ★

Afterwards Mrs. Furtseva said "I liked it," and Soviet composer Aram Khrachaturian added:

"It's a good thing because we can learn from each other's ballet styles and it increases understanding."

Fire Hits N-Plant at McMurdo Sound

WASHINGTON (AP) — A nuclear electric power plant at McMurdo Sound in the Antarctic was damaged by fire last Sunday, the Atomic Energy Commission announced yesterday.

No one was injured, and no radiation was released, it said.

Damage was minor and the plant is expected to go back into operation in about a week, the AEC said. The cause of the blaze still is under investigation.

The plant had been operating since last July, but was shut down briefly because of a faulty electronic power level indicator. Fire broke out as the plant was being started up.

Rocky's Kin Beat JFK's in Who's Who

CHICAGO (AP)—The Kennedys, the nation's first family, are outranked numerically in the new edition of Who's Who in America by the Roosevelts, the Rockefellers and the Gambrells.

Four Kennedys, the President, his father, Joseph, his wife Jacqueline and his brother, Atty. Gen. Robert, are listed in the new 23rd edition.

★ ★ ★

Five Rockefellers, John D. III, David, Laurance, Nelson and Winthrop, are listed. Five Gambrells also are listed: Charles G. and William H., New York bankers; E. Smythe and Barmore P., Atlanta lawyer, and Mary Latimer, head of the history department at Hunter College.

The publishers said a fifth Kennedy, Edward, will be included in the publication if he is elected to the U.S. Senate from Massachusetts in November.

Scientist Teller Speaks on Nuclear Weapons

A recent talk by Dr. EDWARD TELLER, nuclear scientist of the University of California, at the United Press International Editors' Conference in San Francisco probably was overlooked because of so much other news breaking at the time.

It is too bad that events happen this way, but this particular talk should be of interest to everyone. To our way of thinking it was the most lucid appraisal of the current situation as regards nuclear weapons that we have ever heard.

Unlike so much talk in circulation on the subject, these views came from a man in a position to know what he is talking about. The subject just happens to be his occupation.

★ ★ ★

The first point Dr. TELLER made was that we definitely suffered a setback as a result of our three-year moratorium on nuclear testing. This question has been bandied about before, but he stressed the point.

He went on to explain that this test ban was undertaken to appease the Soviet Union and, like all such appeasements, it failed. It is now quite clear that the U.S.S.R. pursued a crash program during this period.

Unquestionably, while we halted testing, according to Dr. Teller, the Commies had an energetic all-out research program in progress and then followed up with a large series of tests involving big bombs. It seems reasonable to believe that they learned a lot from this experiment.

With the ban in effect we lagged in our studies and preparations for our most recent series of tests. The net result for the United States was that the Pacific firings produced less knowledge than they might have.

★ ★ ★

Analyzing where we stand today, Dr. TELLER believes that the Soviet Union may be ahead of us for the moment, but not necessarily to the point where we have lost all chance of catching up. In other words, our position would not be considered fatal.

However, he went on to point out that another lag or setback could well put us at the mercy of the U.S.S.R. This was an unhappy revelation, but coming from Dr. Teller in his orderly fashion, it did make sense.

★ ★ ★

Dr. TELLER explained it this way: "It is proposed to us seriously to stop our nuclear testing, to agree to another moratorium, a moratorium which the Russians may or may not violate in secrecy, a moratorium which has not prevented them in the past to prepare in secret for a very effective test series which they have then executed with all the appearance of success.

"Let them steal another march, let them prepare in secrecy for another few years, and then spring on us another test series for which we are not prepared, and they may have the edge, they may have sufficient lead to be able to tell us, 'We can hit you and you cannot hit us back.'"

★ ★ ★

The common cry in this country by the foes of nuclear testing is that we already have enough nuclear weapons to kill the whole population of Russia, if not of the world. Dr. Teller had a strong answer for all that feel this way.

The objective of the current testing is largely defensive, he said. The reason why the world is relatively safe from nuclear war is the Russian knowledge that no matter how disastrous any attack they might make on us, we still could destroy the Soviet Union.

This all boils down to the fact that once the Russians develop antimissile missiles or another means so that they might be sure to cope with our retaliation, we might well be up the creek without a paddle.

In other words, we might well be in the same position that we'd be in if they had nuclear weapons and we had none.

Opportunity Unlimited

Girls, here's your chance. There is a lot of discussion nowadays about the role of womanpower in the Country's future.

Recently, girls increasingly have been encouraged to study science and engineering. But what do they do about it?

★ ★ ★

There is no great flood of the fair sex into these fields, judging by one school. The 513-member freshmen class at Cass Institute of Technology in Cleveland, one of the Nation's leading engineering schools, includes only two girls.

★ ★ ★

If the lure of science is not enough, perhaps the news of this male-female ratio of 511 to 2 will start some feminine minds thinking along certain lines.

Rebellious Ole Miss Musters Armed Might

BY HOWARD HELDENBRAND

A good friend, Community National Bank's —four per cent interest on savings accounts (paid adv.)—

"Colonel" Willard V. (Bill) Johnson of 474 Shoreview Drive, back on the job to everyone's joy, after a little misunderstanding with his heart, recently received a call to military duty in the Mississippi theater of operations.

★ ★ ★

The notification telegram signed

W. H. Pritchard
Confederate Air Force

read: REPORT FOR DUTY PRONTO OXFORD, MISS., AND TO HECK WITH CORONARY.

The colonel's service record dates back many years when in Florida he was with due and impressive ceremony appointed to such rank in the Confederate Army—with covering certification thereof.

★ ★ ★

But the officer, as he was patriotically preparing to heed the call to the colors — donning gray uniform, tugging on field boots, buckling sword and scabbard belt, creasing campaign hat and looking to epaulets—suddenly had an arresting and illuminating thought . . .

Shucks! It's just a gag—otherwise the wire would have been in military code.

While attending the Associated Press Managing Editors meeting in Minneapolis recently, Press ME Harry Reed met former resident

Richard E. Jeffers.

He is a resident school instructor at General Motors Training Center there, teaching auto service personnel the latest wrinkles in new Pontiac models.

Jeffers, the son of

'Is It Art? Who Said Anything About Art?'

David Lawrence Says:

Angry Electorate Will Cast Vote

WASHINGTON — The current political campaign, with its contests for seats in Congress and state offices, has a familiar look. The word "apathy" is being used by many observers to describe the presumed indifference of the voters. President Kennedy himself is getting crowds of fluctuating size. What is the real mood of the electorate?

LAWRENCE

Past experience shows that, when the people are mad about something, they don't go to the political meetings of the party or of the candidate that has been making them mad.

★ ★ ★

Also, when there's discontent within a party, the citizens who have voted for its candidates in previous elections just don't show up at all — either at political meetings or at the polls. Elections are then won only by those members of the opposite party who do mobilize their strength or get at least enough support to swing an election. Stay-at-home voters, in a sense, count, too.

Money talks, of course, and, however it may be camouflaged, "organization" means money. The funds to hire "precinct workers" who dragoon indifferent voters to the polls are just as useful in mid-term as in presidential elections.

Certain spectacular contests, to be sure, will arouse voter interest —as, for instance, the senatorial race in Massachusetts and the gubernatorial contest in California.

DOOR CLOSED

But no matter who wins in the Golden State — former Vice President Richard Nixon or Gov. Pat Brown — the outcome will hardly be significant of any national trend.

Mr. Nixon is on his own. He said flatly on NBC's "Meet the Press" last Sunday that he will not seek the presidential nomination in 1964 and emphatically declared he will stop any "draft" movement that might emerge. He has seemed to close the door, but the truth is he realizes the door had already been closed against him for 1964.

For Mr. Nixon knows he would not be nominated for the presidency two years hence if he should lose the governorship race this year. He would be considered to have inadequate political strength to carry his own state as a presidential candidate.

So Mr. Nixon must pledge unequivocally that, if elected, he will serve a four-year term as governor and not run for President in 1964. He now has done so. As for a "draft," this is not in the cards anyway. The Republican party is split into factions and is looking for new faces for the two places at the top of the ticket.

Mr. Nixon also has said that, if elected governor, he will support for the 1964 presidential nomination the Republican who wins the presidential primary in California. That lets him out of any involvement among the would-be candidates for 1964.

Also, it still leaves him free to run in 1968, though he wisely says for the record now that he will not be a candidate in 1968 because that's the year in which he expects to support the Republican presidential nominee — who, he predicts, will be elected in 1964 and naturally would be renominated to succeed himself in 1968.

★ ★ ★

But Mr. Nixon didn't say what he would do if Mr. Kennedy is reelected in 1964, and Robert Kennedy becomes the Democratic presidential nominee in 1968. That would leave Mr. Nixon an opportunity to run and still be consistent with his statement last Sunday.

The Country Parson

"Many folks, when they see a need to be filled, try to find somebody who'll do it."

Dr. Wayne Brandstadt Asks:

Wonder Why Doctors Sometimes Disagree?

Ever since the world began, people have disagreed about the causes of natural events.

Even though we recognize this fact, it has always puzzled the lay person why doctors should disagree on so fundamental a matter as the preservation of health.

BRANDSTADT

I will try to explain why this is so, and why even on television commercials you will hear such expressions as "nine out of 10 doctors agree" or "four out of five physicians recommend."

All scientific medical opinion is based on the observation and interpretation of findings. Old wives' tales are also based on observation and interpretation, but there is an important difference.

When one day a person ate pickles and drank milk in the same meal and within a few minutes, a few hours or a few days had a violent digestive upset with vomiting or diarrhea or both, a superstition was born.

The old wives shook their heads and said never eat pickles and drink milk in the same meal.

★ ★ ★

A few observations of supposed cause and effect accidentally hit upon in this manner have turned out to have some merit, but most of them — like the one cited — were in error.

NO CONTROL

This is because they were based on too small a number of observations and because no controls were observed.

However, let us say that a group of persons all seem to have the same disease, although they are not reacting to it the same way.

We now introduce a new drug. All members of the group will not react to it the same way.

In a few, the drug itself will act as a poison and the remedy will become worse than the disease it is supposed to cure.

A few others will tolerate the drug, but will receive little or no benefit. The remaining 80 to 90 per cent will make a dramatic recovery.

For these variations there is always a reason. Discovering the reason is one of the most fascinating aspects of medical research. Meanwhile, if the new drug effects a cure in 80 per cent of those to whom it is given, its discovery is hailed as a triumph of modern medicine.

But, what of the doctor who hears about it and tries it on the three patients in his private practice who have the disease in question, only to find that it has little if any beneficial effect in all three?

Reviewing Other Editorial Pages

Drug Addicts

The National Observer

Narcotics addiction is a prime illustration of the limited powers of laws. Strict government controls on narcotics are a half-century old and yet the problem of addiction is still with us. At the same time, an increasing number of crimes are attributed to addicts.

★ ★ ★

The rising rate of narcotics crime, ironically, is due partly to the stringency of Federal regulation. For this regulation has made it possible for those who illegally traffic in narcotics to demand ever higher prices. So the addict is driven increasingly to crimes to obtain money. New York's Mayor Wagner said such crimes total $500 million a year in his city alone.

★ ★ ★

Moreover, present regulatory methods have helped to cast an aura of evil over all use of narcotics. The addict thus is discouraged from seeking help, no matter how or why he may have begun using drugs.

Many addicts have a history of social maladjustment caused by parental neglect or broken homes. Some have basic mental or physical disorders and seek relief through use of drugs. Some have developed the habit directly as a result of medical treatment.

★ ★ ★

No matter how complete or how careful the treatment, some addicts do not respond or else later slip back. In Britain, unlike the United States, clinics reduce drug use as far as possible but permit a sustained level of dosage where the addict is held to be incurable. Some people in this country are advocating a similar approach.

That's a debatable proposal, and it horrifies some Americans. But it should be clear the present control system has been a pretty sorry failure.

★ ★ ★

A government role is essential in dealing with the drugs. But these compounds possess great capacities for good as well as evil. Without them, plagues would still be prevalent, a great deal of human pain would go unrelieved, insects would periodically ravage the land. Excessive regulations, or an excessive reliance on laws, could be more dangerous than any dangers in drugs.

Child Discipline

The St. Paul Post Dispatch

It is heartening to see the "permissive" school of child raising losing ground.

★ ★ ★

A Mayo Clinic psychiatrist recently cut some more ground out from under the foundations of the permissive school when he told the Minnesota Academy of Practice that "psychiatrists and parents have erred in the past by assuming that prohibitions in all forms lead to guilt, inhibition and neurosis in a child. Prohibitions, he added, do not lead to unhealthy guilt; rather they are a most important aspect of the child's security in the developing years."

★ ★ ★

Certain acts of a child, he said, should be "prohibited in a very positive and definite way without any vacillation or doubt. . ."

That may not be a call back to the woodshed but it certainly is an appeal for parental discipline applied at the right time and in the right place. It is encouraging to see that it has growing scientific support.

'Spoiling a Child'

The Anglican Digest

An English priest comments that people spoil children because it takes less effort to spoil than to train them. Last spring, TAD offered $10 for the best short definition of "spoiling a child." Alice Watson of Mount Vernon, Ill., said that "spoiling a child" meant doing too much for him, hardly enough to him, and not nearly enough with him.

Voice of the People:

'Ponder These Findings on Foreign Aid Program'

The Citizens Foreign Aid Committee respectfully requests you to ponder the findings of Rep. Otto E. Passman:

★ ★ ★

The appropriations for foreign aid, including interest on the public debt for fiscal 1963 on the money that we have borrowed to give away, and backdoor financing will exceed $13 billion this year. It is a major factor contributing to the continuing annual increase in our public debt and is primarily responsible for our annual budget deficits.

★ ★ ★

Foreign aid is responsible to a very large extent for our disappearing gold reserves to nations all over the world and is rapidly depleting our wealth.

The claims to the effect that 80 per cent of our foreign aid money is spent in America and thereby creates prosperity is a calculated misrepresentation to keep the American people supporting the program.

★ ★ ★

Many of the nations which are recipients are losing faith in America's ability to manage its monetary systems.

Agriculture Machine Outdoes President

By DICK WEST

WASHINGTON (UPI) — I have often heard it said that it doesn't pay to do things better than your boss.

If this old axiom is still valid then I give Agriculture Secretary Orville L. Freeman credit for being either very courageous or very foolish.

His department has just acquired a machine that can read 400 words a minute faster than President Kennedy.

FOR RECORDS

The instrument, called the Farrington Page Reader, will be installed in the department's computer center in New Orleans where cotton loan records are maintained.

Officials said it will be able to read white pages of records compiled under the price support program and store the information for later use.

Much has been written about President Kennedy's ability to read at the rate of 1,200 words a minute. Well, sir, this machine reads at the rate of 1,600 words a minute.

Freeman, whose own reading rate has never caused much comment one way or the other, took part in a demonstration of the machine yesterday. If he had any qualms about electronically outdoing his leader, he didn't show it.

SAVING MONEY

He indicated he was not so much impressed by the rate that the machine could read as by the rate that it could save money. He put the latter figure at $2 million a year.

There is a funny thing about this. During my time in Washington I must have heard at least 50 similar statements as some new money-saving instrument or plan was adopted by a federal agency.

But during this same period I have never heard of a federal agency trimming its budget accordingly. It would be interesting to know what happens to all of the money that gets saved every year.

Perhaps the new machine will be able to clear this up for us.

As a reader, the machine, despite its speed, is rather limited in one respect. It can read only one kind of type face, or font. The font, appropriately enough, is called "financial gothic."

★ ★ ★

President Kennedy can, of course, read all kinds of type and between the lines as well. Leaving his boss a superior rating in that regard may save Freeman's job.

★ ★ ★

It also seems appropriate that the machine is going to be used in connection with the cotton loan program. They need a fast reader there in case another Billie Sol Estes comes along.

But Oct. 28 Ballot Not So Certain

De Gaulle Trusts His Voters to Tag Along

By PHIL NEWSOM
UPI Foreign News Analyst

As President Charles de Gaulle has reshaped France to his own grand pattern, his chief weapon has been the overwhelming confidence in him shown by the French people.

On the other hand, French deputies who in a panicky moment in 1958 abrogated their powers to de Gaulle to save France from civil war, have grown increasingly restless under de Gaulle's open contempt both for parliament and what he considers the petty games of party politics.

The result has been a series of referendums which permitted de Gaulle to bypass parliament and take his policies directly to the people.

In this way came the new constitution establishing the French Fifth Republic and others by which the French people approved independence for Algeria.

TO VOTE AGAIN

On Oct. 28, French voters again will be called upon to ballot in a referendum. But this time with a difference. Even de Gaulle's staunchest supporters concede the outcome is by no means certain.

The issue will be de Gaulle's determination to take the election of a French president from the hands of some 50,000 privileged politicians and place it in the direct hands of the voters.

De Gaulle has made a personal issue of it, threatening to quit if the vote goes against him.

And for the first time, his combined opposition sees a chance to bring him down.

They started it with a vote of censure which brought down the government of the de Gaulle-appointed government of Premier Georges Pompidou.

BREACH OPENED

The motion accused de Gaulle of violating the constitution and "opening a breach through which an adventurer might pass some day to overthrow the republic and suppress its liberties."

Speaker after speaker reminded the French people that Louis Napoleon, nephew of Bonaparte, made himself emperor of France only two years after dissolving parliament and obtaining approval for direct presidential elections.

For his part, de Gaulle made it clear he believed that only through a strong president backed by a direct mandate from the people could France continue to enjoy the stability it has had since 1958.

* * *

He reminded the voters that until his own return and assumption of wide powers France had been known as the "sick man of Europe."

* * *

There was a great deal to what he said, for France is in the midst of unprecedented prosperity for which de Gaulle could take a lion's share of the credit.

Under de Gaulle and his new constitution only two premiers have served — Pompidou and Michel Debre. The old Fourth Republic had 26 between 1944 and 1958.

Worrying de Gaulle supporters, however, is the knowledge that great national leaders not always are honored at the polls once an emergency has passed.

Past months have indicated a growing restlessness among French voters and opposition leaders now ganging up on de Gaulle are hoping to profit by it.

Auto Sales Departments Expecting Great Year in '63

By BEN PHLEGAR
AP Automotive Writer

DETROIT — Sales departments of the auto manufacturers have whipped themselves into their usual lather of enthusiasm over their new models.

They would appear convinced the 1963s are the greatest things ever to wear wheels. But then, the sales departments told the world 1958 was going to be a great year.

Working on the premise that nobody wants a gloomy salesman, these vast departments annually churn out reams attesting to the spectacular reception given the new cars by the eager public.

The public, as a rule, is eager to see the new cars. What makes the year, however, is how eager the public is to buy after seeing.

★ ★ ★

If you could draw accurate conclusions from first day sales, the year ahead would shape up as a great one.

But because of the concentrated hoopla surrounding the introductions, first days provide little clue as to the future.

TESTS COME LATER

One company this year had its dealers concentrate on mass driveaways of cars on the first or second day of the new model year. All of these cars were sold ahead of time, mainly to customers who buy on a schedule, such as every year or every third year.

The real tests come later and are decided on the ability of dealers to persuade possible buyers to become active buyers. In the 1962 model year, dealers were quite successful. Sales ran strong, second only to record 1955.

★ ★ ★

But it also is true that the industry rarely is able to put excellent years back to back. Only once — in 1959 and 1960 — have the manufacturers been able to sell six million cars in consecutive years.

Sales for 1962 shape up at between 6.7 and 6.8 million cars, including 300,000 plus imports.

Any industry executive who has been willing to forecast the future has put 1963's total in excess of six million, including about the same number of imports.

The forecasts run from 6.2 million to 6.4 million by Ford to seven million by General Motors.

A certain sales momentum seems to exist now. The trade publication Automotive News said this week the general optimism of dealers varies only in degree. "It is based on early orders, preorders, reasonable solid grosses and good showroom traffic," the magazine said.

WIDE IMPROVEMENT

Almost every division reported higher first-day deliveries than last year. Dealer stocks were much better this year in many lines, making more cars available for first-day delivery.

Last year General Motors' dealers were short because of strikes and Ford ran short immediately after introduction.

The national auto show is expected to carry forward some of the opening enthusiasm.

Publicity attendant to the show includes an hour-long national telecast (NBC, Oct. 21, 6 p. m., Pontiac time). One television critic called a similar show in 1960 an hour-long commercial.

Sales normally slow down around Christmas. If they slow down much before then, it may mean trouble. If they fail to pick up in January it will mean crossed fingers and hopeful glances toward spring.

★ ★ ★

The state of the general economy could prove a deciding factor. Auto sales have outpaced the economy generally through much of 1962.

If they keep it up the enthusiastic predictions can be justified. If every thing slows down, auto sales too, will suffer.

Two Cars Kill Man in Boston

BOSTON (UPI) — A hit-run driver got out of his car and looked at his victim yesterday, then drove off leaving the elderly pedestrian lying face down on the street. Minutes later a second car ran over him, and the pedestrian died in a hospital.

★ ★ ★

The second driver called police while a wheel of his car was still on the victim, Edward Haskam, 60. Firemen jacked up the car and brought Haskam to city hospital, where he died 90 minutes later.

Police arrested a 28-year-old suspect whose car was found abandoned a few blocks from the scene. He was held on suspicion of manslaughter.

★ ★ ★

According to police, a witness described the hit-run incident. No charges were filed against the second motorist.

Columbus Would Be Surprised Today

By BOB CONSIDINE

NEW YORK — The 470th anniversary of Christopher Columbus's discovery of a portion of the globe that had been found and populated centuries earlier by nomadic Asians finds man embarked on voyages the admiral's mind could never grasp.

The land that was to be given another and lesser Italian's name was destined to produce men who in the past few years have sent out ships to circle the sun for all eternity and strike the moon.

Somewhere, millions of miles out in space, Mariner II races toward its destination with a much shiftier target than was Watling Island.

Within the next few days we'll try again to televise the moon at close range and drop on its surface an instrument built to collect and send back to earth such intelligence as the number and severity of moonquakes, cosmic ray bombardment and other details of keen interest to already-chosen moon voyagers.

* * *

But we're still in the Dark Ages of exploration, David Sarnoff, chairman of the board of RCA, observed recently at the inauguration of his company's magnificent program of assigning top RCA engineers and scientists to conduct classes in New York high schools.

WORLDS TO CONQUER

"As you approach your opening classes," Gen. Sarnoff told students, "let me remind you that the most famous miscalculation in history was made 2,200 years ago by Alexander the Great, when he said there were no new worlds to conquer.

We know that even today we have barely begun the greatest of man's conquests—of space, time, matter, energy, of the origins of life and of our universe.

"The sun, moon and stars; the earth and everything that grows upon or lies within it; the atom and the electron; these have been with us since immemorial time.

Yet we have known so very little about them. Now, one by one, we are crossing the frontiers, breaking through the barriers of mystery and ignorance. No generation of young people has ever faced more new worlds to conquer than yours."

* * *

Chris would have trouble with a lot of other things happening in the land today, including the influence on the hemisphere of the placid little island of Cuba which he discovered on his first voyage and claimed in the name of King Ferdinand and Queen Isabella.

It since has been reclaimed in the name of Czar Nikita I.

STAMP OF SUCCESS

The Age of the Trading Stamp reaches a new milestone in New York next month when members of the Ninety-Nines, the international organization of licensed women airplane pilots, present a stamp-purchased Piper Colt to Capt. Kyung O. Kim, South Korea's leading and loveliest pilot.

Miss Kim was recently awarded the first John Glenn Gold Medal by Mrs. Doris Renninger, vice governor of the Ninety-Nines, after a solo flight from Seoul to Tokyo in a light plane.

Capt. Kim, a dazzler, was decorated six times during the Korean War for flying hazardous missions under enemy fire. She'll take her plane back to Seoul and teach Korean dolls how to fly.

The theater end of the Liston-Patterson gate came to just over $3-million Roy Cohn told us yesterday—another figure Columbus might have found difficult to digest.

He made $200 a year, and was thrown in the clink for a performance immeasurably better than Patterson's.

"Forget those stories that Patterson won't fight Liston again," the lawyer-enterpreneur assured us. "He's eager, now that he remembers that he came back to knock out Johansson twice after the fellow flattened him."

Junior Editors Quiz on Little Old New York

QUESTION: How did the neckname "Gotham" originate for New York City?

ANSWER: This nickname was bestowed on New York by the first world famous American author, Washington Irving. Irving loved the city and the Hudson River and wrote many stories about this area which are half fact and half legend, but which are so gay and witty that we still read them today. In "History of New York" he told the story of early days as if written by an old Dutchman, Diedrich Knickerbocker.

"Father Knickerbocker" soon became famous to New Yorkers as a symbol of their city. "Gotham" was another such symbol. Irving took the name from a legend about the ancient English village of Gotham. An English king planned to build a hunting lodge there.

But the villagers did not want royalty nearby, so they agreed among themselves to act as if they were all fools or half wits.

The king built his lodge somewhere else. After this, people used the word "Gotham" as if it really meant a place where fools lived.

When Irving wanted to poke fun at New York because it had so many people who were more foolish than wise, he called it "Gotham" and the name stuck.

FOR YOU TO DO: There are two stories by Washington Irving you will greatly enjoy: "Rip Van Winkle" and "The Legend of Sleepy Hollow." If you've read these, try some other stories by this author.

Mail your question on a postcard to Junior Editors in care of The Pontiac Press.

Newest 1962 Christmas Toy Costs Only $3,500

By PHYLLIS BATTELLE

NEW YORK — I have just seen the most remarkable new toy of the 1962 preholiday season. It is an electrically-operated magician which stands about 2 feet tall and holds a wand. With a slightly jerky flourish of said wand, he makes a beautiful toy girl disappear from one box and reappear in another.

"But that's fantastic!" I cried to the man who owns one. I looked at the boxes, up close. Couldn't see any escape hatches. "How is it done?"

* * *

"Well, if you want to buy it, you can take it apart and find out," said the man accommodatingly.

"How much?"

"Thirty-five hundred dollars. Shipped."

"Thirty-five — but you can't expect to sell that. You're kidding!"

"Oh, of course, we will. I only hope we don't have to disappoint people because it's one-of-a-kind. Last year we had a little electric marionette theater, one-of-a-kind like this, for $2,000, and four customers pleaded for it." He sighed sympathetically. "We had to sell it first come, first served."

* * *

The gentle gentleman with the supreme confidence in American adulthood's desire to please American kidhood at any price is Charles W. Veysey, president of the world's largest and oldest toy store, F. A. O. Schwarz.

FROM SCHWARZ

The store, which has 14 branches around the country, is 100 years old this year and is as much a part of the wealthy New Yorker's concept of gracious growing-up as teatime at the Plaza Hotel, which is just across Fifth Avenue from Schwarz.

* * *

Generations of children, rich and poor (but usually rich) have been teethed, teddy-beared, toidy-trained and tutored on toys from Schwarz, which keeps 12,000 different products on hand, some of them (like the magician) so exclusive that they belong in museums, rather than nurseries.

"Exclusivity is what we have made our name on," said Veysey, who this Christmas has more than 100 toys available in no other store in the world, "and people will buy it, at almost any price."

But, of course, he conceded, children do not always know the difference between silver and aluminum foil — so Schwarz offers everything, at all prices, for all types of tykes.

"Before I show you the new things, I'll say that the most wonderful toy for the last 60 years has been the teddy bear. Whenever I have a birth announcement, calling for a gift, I always send a teddy bear.

* * *

"The other all-time classics, which every child should have at one time or another, are the Raggedy Andy or Ann dolls, lead soldiers, trains and small autos. Nothing, however new and fancy, will replace them."

NEW PRODUCTS

About the new products: The "hottest" item this year will be, the store predicts, a $3.95 kit called "Wonder Art." It is a vinyl envelope of liquid, framed against a colored masonite backboard.

A child (or adult) uses a wooden sphere, shaped rather like a mallet, to draw sweeping lines across the vinyl and — magically, with no one touching paint or dirt — lovely pictures emerge. It's clean culture.

Attractive plush animals ($75 to $150) can be wound for two minutes and stay animatedly bobbing their heads for five hours.

A Jackie doll in a trunk with an assortment of White House clothes sells for $75. (The Caroline doll is a cheapie at $6.95). Special order items for Jackie, a Somali leopard or mink coat, $400 each.

* * *

Kids used to put away their toys at age 12 or 13, but the new electronic "toys" say clearly on the package, "For age 12 up."

* * *

The new electronic trains are monorails, and the anatomy toys (dogs, horses, men, to be dis- and re-assembled from the arteries out) are being used by medical students.

* * *

Toys are sophisticated now, and they have sophisticated prices. It's a good thing adults have money, and kids have savvy. . .

Airline Shows Patron Drop

Losses Also Occur in Air Mail, Freight

North Central Airlines patronage dropped from 43 outbound passengers in August to 37 on outbound flights from Pontiac Municipal Airport last month.

NCA figures for September also showed a decline in air mail and freight on outbound flights, although the amount of air express carried was up, according to J. O. Edwards, station manager.

Patronage showed a sharp decline from last year. Outbound flights in September 1961 carried 66 passengers.

Inbound flights last month carried 26 passengers compared to 31 inbound passengers in August.

Other figures show outbound flights in September carried 834 pounds of air mail, 248 pounds air express and 701 pounds of air freight.

For comparison, August outbound flights carried 1,504 pounds of air mail, 197 pounds air express and 1,350 pounds air freight.

Inbound flights last month carried 622 pounds air mail compared to 478 pounds in August, and 5,395 pounds of air freight compared to 4,454 pounds air freight in August.

There were 49 pounds of air express on inbound flights in September. No air express was recorded in August.

Actress Found Dead in NY, Likely Suicide

NEW YORK (AP) — Actress Joan Morgan McKay, 43, was found dead Thursday in her Manhattan apartment.

* * *

Medical examiner Joseph Dubinsky termed the death "apparent suicide from a possible overdose of an unknown drug, possibly sleeping pills."

FOUND BY FRIEND

Mrs. McKay's pajama-clad body was found on a bed in her apartment by a longtime friend, James Lee, another tenant in the building.

* * *

Mrs. McKay, from Memphis, Tenn., played Billie Dawn in "Born Yesterday," a Broadway play which Judy Holliday used to reach stardom.

Hospital Fetes Ill Mrs. FDR

NEW YORK (AP)—A nurse singing "happy birthday to you" carried a cake with lighted candles into Mrs. Franklin D. Roosevelt's room as she celebrated her 78th birthday Thursday in Columbia Presbyterian Medical Center.

The hospital pastry shop staff baked the cake.

* * *

Hospital personnel gave the former First Lady several bouquets. Many birthday telegrams and cards were received. There was a personal note from President Kennedy, who was in the city on a campaign tour.

Mrs. Roosevelt, reported recovering from a lung infection, may leave the hospital next week.

Girls Kept in House Won't Charge Dad

VAN NUYS, Calif. (UP) — Child-endangering charges have been dropped in the case of a father accused of keeping his two teen-aged daughters locked up after school each day for more than seven months.

The girls went to police last month to complain about the way they were treated. But yesterday Bonnie Austin, 16, and her sister Karen, 15, failed to press charges against the father, Eugene, 39, a consulting engineer. Austin said he was strict with them because they ran around with boys.

Municipal Judge Donald Redwine, ordering the dismissal, noted that the girls were well cared for, but he added: "You just can't treat girls that way."

Austin is divorced from the girls' mother.

Boy Loses Legs on Track

DETROIT (UP) — Pat Kroll, 10, of Detroit fell beneath the wheels of a slow-moving freight train Thursday and lost both legs. Doctors said he was in serious condition. The boy said he was trying to climb onto the train when he slipped.

Several Striking Changes in the New Jewish Bible

PHILADELPHIA (AP) —"When God began to create the heaven and earth," begins the new Jewish Bible in one of several striking changes of the book, the first ever translated into modern English directly.

The new Bible, known as "the Torah, the five books of Moses," which will be published Jan. 28, says Moses didn't really cross the Red Sea.

It revises the Third Commandment to condemn perjury, not profanity of God's name.

The word "soul" is virtually eliminated and the expression "with all my heart" is given a new interpretation—that of agreement rather than implying loyalty or devotion.

3RD COMMANDMENT

Dr. Harry M. Orlinsky, editor-in-chief of a committee of Bible scholars who worked eight years on the $250,000 project, said Thursday in announcing the new book that the most striking change is in the revision of the Third Commandment.

Formerly, "Thou shall not take the name of the Lord thy God in vain," it now reads, "You shall not swear falsely by the name of the Lord your God for the Lord will not clear one who swears falsely by His name."

The old interpretation improperly implied an injunction against profanity, said the editors, whereas the Hebrew reveals the commandment as concerned with perjury.

Dr. Orlinsky said the reason for the first words of the new Bible—"When God began to create the heaven and earth"—being phrased in such a way that that it eliminates the inaccurate implication that eternity began when God made the earth. The old version, published in 1917, started "in the beginning God created the heavy and the earth."

LED THROUGH MARSH

As for Moses, the new book says he led the children of Israel out of Egypt through the parted waters of the Sea of Reeds a marshy area near the Red Sea and not far from the present Suez Canal.

Dr. Orlinsky, professor of Bible at the Hebrew Union College-Jewish Institute of Religion in New York, also explained why the new Torah eliminates the aged concept of "soul.".

"The Hebrew word in question there is 'nefesh,' " he said. "Other translators have interpreted it to mean 'soul' which is completely inaccurate. The Bible does not say we have a soul. 'Nefesh' is the person himself, his need for food—the very blood in his veins."

The Torah, containing Genesis, Exodus, Leviticus, Numbers and Deuteronomy, will be published by the Jewish Publication Society of America, a non-profit education Institution. It is the first of three scheduled volumes of the Holy Scriptures, commonly known together as the Old Testament. The others—prophets and writings — are to be completed by 1975.

White House Gives 87th Congress 70 Per Cent Rating

By JOE HALL

WASHINGTON (AP) — The feuding and fighting 87th Congress has handed President Kennedy a mixed bag of victories and defeats in his first two years in office.

Administration leaders, claiming a 70 per cent record on adoption of the Kennedy program, declared that the trade expansion bill was enough itself to assure the 87th high marks in history.

They pointed also to the drug regulation bill and the manpower retraining act of this session and the Social Security, housing, minimum wage and depressed areas bills passed last year.

But despite these successes and the passage of many other important measures on his list, the President was forced to accept the rejection of several of his key proposals by the heavily Democratic Congress. His health care plan for the aged under Social Security was killed and his entire education program, with a broad range of measures, went down the drain.

★ ★ ★

Congress refused to create an urban affairs department. Other measures designed to benefit the rapidly growing cities, such as the $500 million mass transit bill, were shunted aside.

Even while Congress was struggling to close out its marathon 1962 session — one of the longest ever held in an election of more Democrats.

Republicans twitted him about this, insisting it was Democratic feuds which kept Congress here for many frustrating extra days. It was Democrats who conducted filibusters against the administration's civil right and communications satellites bills.

And the 1961 session ended in a bitter Senate-House row in which Democrats played the key roles.

WHAT WAS LOST

In the 87th, as in other congresses, Republicans joined Southern Democrats to oppose and often defeat spending and welfare proposals.

★ ★ ★

But GOP leaders asserted they kept a pledge to cooperate with Kennedy on foreign affairs.

Congress voted to back up Kennedy on any action he might deem necessary on Cuba and Berlin, and in both sessions it gave him authority to call up large numbers of military reservists.

But he did not fare so well on his foreign aid requests. Congress voted just under $4 billion each year; this was $850 million less than he asked in 1961 and more than $1 billion below his request this session.

On civil rights, the President lost on his key proposal aimed at abuses in state literacy requirements on voting. But Congress did submit to the states a constitutional amendment to ban the poll tax in federal elections.

★ ★ ★

Kennedy was forced to accept a watering down of many of his recommendations to save parts of them.

He struggled long and hard in his attempt to win strict controls over production of feed grains and wheat. But in the end he had to take a temporary voluntary program on feed grains and a delay to 1964 for new curbs on wheat.

RECORD OF 87TH

These were the major bills passed in the 1962 session:

Trade expansion with far-ranging presidential powers to cut tariffs and to work out new economic arrangements with the European common market.

Tax revision with a $1 billion business modernization incentive feature and several loophole-closing provisions.

Drug regulation containing new controls on sale and manufacture of prescription drugs.

A $435 million manpower retraining program to try to teach new skills to 1 million jobless workers.

★ ★ ★

Postal rate increases of $600 million, including a penny rise on letters and airmail coupled with a $1 billion pay boost for 1.6 million federal workers.

These were important measures enacted in 1961:

An increase in the minimum wage from $1 to $1.25 an hour, plus coverage for 3.5 million more workers.

A $394 million depressed-areas bill to try to create new jobs in communities with high, persistent unemployment.

A Social Security measure lowering the retirement age for men to 62, boosting the minimum monthly check from $33 to $40, and raising widow's benefits 10 per cent.

A $5.6 billion housing bill setting up a new program for middle-income families, authorizing 100,000 additional low-rent public housing units, and carrying $2 billion for urban renewal grants, and $1.2 billion for college dormitory loans.

★ ★ ★

A highway bill authorizing an additional $11.5 billion to complete the 41,000-mile interstate system by 1972 and levying the needed taxes.

DIDN'T MAKE IT

These were the top casualties in the Kennedy program.

The health care program for 16 million persons over 65, to be handled largely under Social Security.

The $2.5 billion aid bill for public grade and high schools. A religious controversy over aid for church schools was a major factor.

The $2,674,000,000 college aid bill.

The $925 million medical education bill.

Three other major education bills — a broadening of the 1958 National Defense Education Act, a $748 million proposal to improve quality of teaching, and an adult education bill aimed at illiteracy. The literacy test bill.

Standby powers to cut taxes to fight economic recessions.

Continuation of temporary extended unemployment compensation benefits. However, Congress voted a $1-billion one-year program in 1961.

Creation of an urban affairs department.

The $500 million mass transit bill.

OTHER LEGISLATION

Other legislation passed this year included:

The $100 million United Nations loan.

Creation of a commercial corporation for development of a communications satellite system under private enterprise.

Authority for a $900 million emergency public works program to create jobs in distressed communities.

A $308 billion temporary public debt limit, an all-time high.

An overhaul of public welfare laws increasing federal grants to the states.

A requirement that all television sets must be able to receive UHF as well as VHF channels.

Strong enforcement powers for the law regulating employe pension and welfare funds.

A 94 per cent increase in disability compensation for 1.9 million veterans.

★ ★ ★

A $50 million aid program for educational television stations.

Measures passed in 1961 included:

Creation of the Peace Corps.

Establishment of a disarmament agency.

A $225 million extension of federal aid to airports.

A $600 million Latin American aid program.

Fixing of airplane hijacking as a federal crime with punishment up to the death penalty.

Creation of a new office of international travel to try to increase the flow of foreign tourists into the United States.

A $240 million program of federal aid to help build community health facilities for the aged and chronically ill.

★ ★ ★

Creation of 73 new federal judgeships.

Expansion of the water pollution control program.

Ted and George Campaigning

JFK's Eye to Be on Ike in Boston

BOSTON (UPI) — Former President Eisenhower comes here next Monday to give a hand in friend George Cabot Lodge's Senate campaign against President Kennedy's youngest brother Ted.

The success of Eisenhower's visit and what he says in a major address could well determine whether the President will change his plans and come here to stump for Edward M. (Ted) Kennedy.

Lodge at this point is seen as a decided underdog and anything Eisenhower says in his behalf will be appreciated. He has demonstrated immense popularity in this state.

He carried Massachusetts by 445,007 votes in 1956 and by 208,800 in 1962, the same year that then Congressman John F. Kennedy was taking a U.S. Senate seat from Lodge's father, former United Nations Ambassador Henry Cabot Lodge.

TO WELCOME IKE

State GOP leaders are excited about Eisenhower's visit and they're planning to make the most of it. The general's visit is going to get the full treatment.

He will be paraded through downtown Boston in a motorcade at the height of the evening rush hour. Then at a rally outside a Back Bay hotel, he will introduce the state ticket.

Later that evening he will speak to an expected 4,000 at huge Commonwealth Armory where he will be guest of honor at a "birthday dinner." The speech will be carried live on television during prime evening time which the GOP bought. Eisenhower will be 72 next Sunday.

GEORGE AND TED

George Lodge, 35, will share the head table with Eisenhower and the rest of the Republican state ticket. Thirty-year-old Ted Kennedy has other plans for that night — two rallies in nearby cities — but he'll have one eye on the GOP gathering.

Republicans are stirring the political pot for this big show. In letters to contributors, dinner chairman William D. Weeks is lumping all other Democrats with Ted.

"We ask you to consider carefully what happened in the Sept. 18 primary," the letter said. "The Democrats nominated, among others, the following:

DEM CANDIDATES

"Ted Kennedy — without experience of any kind but victorious by a margin of 2-1 over his opponent.

"Francis E. Kelly — one of the worst attorney generals in the history of the state; and a man whose principal crusade is the encouragement of gambling.

★ ★ ★

"Charles Iannello — who campaigned for the legislature from jail where he is serving a year's sentence for larceny.

"John F. Thompson — whose personal conduct as the speaker of the House of Representatives has brought the dignity and repute of that branch of the legislature to an all-time low.

"Cong. Thomas J. Lane — who recently completed a jail sentence for tax evasion."

★ ★ ★

Kelly is the candidate for attorney general, a post he held in the early 1950s and he is advocating a state sweepstakes. Iannello is a former state representative who resigned his seat before going to jail but won nomination to the same seat in last month's primary.

President Kennedy in Washington two weeks ago also pledged support for the entire ticket. He held a warm meeting with Endicott Peabody, the Democratic candidate for governor, and Francis X. Bellotti, the nominee for lieutenant governor.

Although Lodge is the underdog, nobody is ready to count him out. Like Ted, he has a campaign schedule so geared that he will have visited every one of the state's 351 cities and towns before the Nov. 6 election.

Ted is made the current favorite on the basis of his tremendous primary showing in which he defeated Massachusetts Atty. Gen. Edward J. McCormack Jr., nephew of House Speaker John W. McCormack, by better than 2-1.

There is a third candidate, of unknown strength, in this Senate fight — Harvard University Professor H. (for Henry) Stuart Hughes, grandson of the late Charles Evans Hughes.

Hughes, an advocate of unilateral disarmament by the United States, collected 117,000 voter signatures to get on the ballot as an independent candidate and, in theory, each signature represents a vote.

LINE-CROSSING

The gubernatorial race seems certain to cause some party line-crossing in the voting booths.

Peabody, a one-time all American at Harvard, is the first Protestant in decades to be nominated for governor here.

Republican Gov. A. Volpe, seeking his second term, is the first Catholic ever selected by the GOP to run for governor.

He is the son of Italian immigrants and there are about 450,000 Italian-American voters, most Democrats.

★ ★ ★

The state next January sends 12 instead of 14 congressmen to Washington. The redistricting pitted two incumbents, Democrat Lane and Republican F. Bradford Morse in a single district.

The only thing wrong with prosperity is that it's so darn hard to afford . . . More than one pessimist got that way by financing an optimist . . . The man with a lot of irons in the fire isn't necessarily successful — he may just be busted with his golf game — Earl Wilson.

Edward R. Murrow Is Home

By the Associated Press

Edward R. Murrow, director of the U.S. Information Agency, said he felt shaky but otherwise all right as he returned from Tehran where he was stricken with pneumonia. At Idlewild Airport in New York, Murrow said he planned to spend a week at his home near Pawling, N.Y., before returning to Washington.

Gen. Pedro E. Aramburu, the Argentine provisional president, says the Monroe Doctrine is dead. Addressing a news conference at the Overseas Press Club in New York, he warned against unilateral action against Cuba by the United States.

"It would magnify the fears of other American countries of possible intervention in their own affairs by your country," he asserted.

Algerian Prime Minister Ahmed Ben Bella plans to visit Soviet Premier Khrushchev in Moscow, but the date has been left open. Informed United Nations sources say Soviet Foreign Minister Andrei A. Gromyko extended the invitation during a conference in New York.

Ben Bella also has accepted an invitation from British Ambassador Sir Patrick Dean to visit British Prime Minister Harold Macmillan. No date has been set.

Alfred John Gaul, 50-year-old British millionaire, has been fined $70,000 for living off the earnings of prostitutes. He pleaded guilty of renting property to prostitutes at higher rents than paid by other tenants in the bohemian Soho quarter of London.

Pope Greets the Chinese

VATICAN CITY (AP) — Pope John XXIII took a moment at the opening ceremony of the Roman Catholic Ecumenical Council to express greetings for the Chinese people.

When Thomas Cardinal Tien, the church's only Chinese cardinal, went to the Pope's throne in St. Peter's to render homage, the pontiff said: "We are happy to meet you here and we give you our greetings for the Chinese people."

SPUNKY NEW WAGONS THAT LEAD LONGER, HAPPIER LIVES

What a new kick you'll get out of going places in this one! And what a solvent feeling you'll get as the savings on upkeep mount! There's a full line of models, including three wagons. Basically, we've kept Chevy II's liveliness and roominess and *easy loading* ways. Kept its crisp looks, too (with a bit of freshening here and there). The changes we've made weren't for change's sake, you see—but for yours. Just for a sample: the brakes are self-adjusting. The new Delcotron generator gives you more electrical reserve power and helps your battery reach a vigorous old age. The *Body by Fisher* beauty lasts longer, too; air pushes rain and wash water down through the rocker panels (where most rust begins!) in a clever new flush-and-dry ventilating system. The muffler and exhaust system are longer lived. The *ride is smoother* and quieter because of a large number of small improvements we've made. And things are a lot plushier inside. Now you've read this far, haven't you? Isn't that pretty good evidence that Chevy II is made for *you*? The clincher will come when you take the wheel at your Chevrolet dealer's. Drop in sometime soon and see if we haven't called the shot.

Pontiac Area United Fund Women's Campaign Chairman Mrs. Joseph V. Fox of Starr Avenue (driving) wheeled up to the Community Services Building Thursday for the second in a two-day training session for area United Fund solicitors. Mrs. Stephen Stiles of Dufrain Street (left) and Mrs. Sam Harrison of Linden Road helped unload the training kits from the car.

Complete Training for UF Campaign

Women in the Pontiac area completed training sessions during the past three days in preparation for their 10-day Pontiac Area United Fund Drive.

The training sessions prepared them for the job ahead of raising over $28,000 in a house-to-house canvass of Pontiac and Waterford residents and neighborhood businesses.

★ ★ ★

Mrs. Joseph Fox, women's campaign chairman and Mrs. Frank S. Rulkowski, Waterford chairman, directed the program for Waterford solicitors at the Community Activities Building, Tuesday and Wednesday.

Pontiac solicitors received similar instruction at the Community Services Building, under the leadership of Mrs. Fox and Mrs. Earl White, Pontiac chairman at one of two sessions held Wednesday and Thursday.

SHOW SLIDES

"The Town and the Story" a slide film presentation, gave workers a look at agency services supported by the drive. Karl Bradley, executive director of the Pontiac Area United Fund, expressed his appreciation of the women's campaign effort.

★ ★ ★

Some 1,300 women annually support these agencies by working on the drive.

Special training of the Pontiac Women's business section covering small business in the downtown Pontiac, Miracle Mile and Tel-Huron was completed Wednesday. Mrs. Williams and Mrs. Patricia Underwood are business cochairmen.

Two-year-old Mathew Daubner was only attending the training session for Waterford United Fund solicitors with his mom, Mrs. Richard W. Daubner of Grace K, when he suddenly found himself recruited into the rank and file, leading the trainees out of the Waterford Community Center. Waterford chairman Mrs. Frank S. Rulkowski directed the group for the Wednesday program.

U. of M. Awaits Big Game

By BARBARA GRIFFIN

Still excited by the surprising victory over Army last Saturday, University of Michigan students are allowing cheerful optimism to creep into their conversation this week as they plan the mass migration to East Lansing Saturday for the annual clash between the Wolverines and the Michigan State Spartans.

* * *

The game with Army last weekend held a special attraction for U. of M. coeds. The cadets from West Point stole the show as they outyelled the Michigan fans during the game and toured the campus afterward, meeting many Michigan students and faculty. Lucky enough to have a date with one of the cadets was Sally Hamilton of Sylvan Lake, a freshman in dental hygiene.

DAD'S DAY, TOO

In addition to West Point cadets there were also many dads on campus Saturday. It was Dad's Day in Kleinsteuck House of Alice Lloyd Hall. The girls enjoyed watching the football game with their fathers and then escorted them to a banquet in their honor that evening.

* * *

Since many of the fathers are alumni of the university, it gave them a chance to be a student again, just for one day. Among the father-daughter couples at the banquet Saturday night were Wellington Relyea and his daughter Deanna, of Rosedale Avenue. Deanna is a sophomore in music school, majoring in piano.

Among the open-houses after the Army game was a party at Chi Omega Sorority. The affair honored the alumnae and featured a dance band and refreshments.

AT OPEN HOUSE

Enjoying themselves at their open-house were Chi Omegas Judy Ward of Starr Avenue and Elaine Garrett of Mark Street. This is Elaine's first year at Michigan, having transferred this fall from Hillsdale College. Both girls are juniors.

Located right next door to Chi Omega on Washtenaw but unable to give an open-house this fall is Collegiate Sorosis. Sorosis, a local sorority, is in the process of joining the present house with the annex next door. Barbara Shadley of Ottawa Drive, a junior in special education, reports that the new house should be completed before Christmas.

* * *

As the fourth week of classes ends, freshmen are becoming increasingly nervous about five-week grades which will come out next Friday.

All freshmen are required to live in the residence halls, and to acquaint them with the university and their fellow students, an extensive social program is planned between the women's dormitories and the men's quadrangles. This provides a welcome break in routine during the week and a chance to meet many new people.

PLAN HAY RIDE

Mary Lou McLaughlin of Mohawk Road, a freshman in nursing, lives in Bush House of Mary Markley Hall. Bush is one of the most active housing units and this week they will have an exchange dinner with Cooley House of East Quad Thursday night and a hayride Saturday night with the boys of Greene House in East Quad.

* * *

Micki King of Norton Avenue will also be in East Lansing Saturday for the battle with Michigan State, but this one will be in the swimming pool rather than on the gridiron. Micki, a freshman majoring in physical education, is a member of the Michigan Women's Swim Team.

Undefeated last year, the girls will try to keep their string of victories going Saturday morning. Micki is well-known for her many diving championships.

A majority of Michigan's 26,000 students is enrolled in the college of literature, science and the arts. Within this huge college, an honors program is maintained for the 700 students who have the ability to do advanced work.

* * *

Sue Koprince of West Iroquois Road, has been elected chairman of the steering committee of the Honors Council, a student body composed of ten students representing each class.

This Honors Council acts as a liason between the honors students and the faculty members who co-ordinate the honors program. Sue has been in the honors curriculum since her freshman year. She is now a junior majoring in political science.

* * *

Mrs. Brad Hilkey was received into active membership.

Group Hears Reviewer

Mrs. Robert Anderson reviewed the book "Mrs. 'Arris Goes to New York" before members of Omega Alpha Sorority Wednesday evening in the Lenox Street home of Mrs. Elliott Plante. Eulalia Valentine was cohostess.

Guest for the evening was Mrs. H. Gordon Frain, and Mrs. Lloyd Stalcup presided at the tea table.

Delegate to The Pontiac Press publicity tea Oct. 18 at Devon Gables will be Mrs. Joseph Fox.

Colored slides of Lebanon will be shown by Lillian Jacobs, counselor at Pontiac Northern High School, at the Nov. 14 meeting in the home of Mrs. Ariel Davis on South Roslyn Avenue. Mrs. Douglas Green will assist the hostess.

Mrs. Plante was appointed chairman of the November benefit sale. A contribution to the United Fund was approved.

About Wigs!

The Birmingham alumnae of Alpha Xi Delta Sorority will gather for dessert Monday evening in the home of Mrs. G. F. Leydorf. Sharing hostess honors will be Mrs. Donald Sharer, Mrs. Richard England and Mrs. John Diefenbaker.

* * *

An area hair tylist will speak concerning "The Hows and Whys of Wigs."

Club Has Dessert Bridge

Mrs. B. S. Sneed Jr. of Mohawk Road was hostess to the Pontiac Newcomers Club at a dessert bridge Wednesday afternoon.

Members were urged to collect odds and ends of sewing materials, plastic squeeze bottles and plastic gallon jugs with handles. These will be turned over to Pontiac State Hospital for the occupational therapy department.

The club's next meeting, Oct. 24, will be at the home of Mrs. Robert Larson of Clintonville Road. Ted Panaretos, community relations director for Pontiac State Hospital, will be the speaker.

Double Bill for Pontiac Fans

PCH Prepares for Its Annual Anteneeban

By JANE BIGLER

Anteenban has arrived at Pontiac Central High School. This Indian word means Harvest Festival and is used traditionally to denote Central's annual homecoming.

Plans have been in the making for several weeks to make this year's homecoming a memorable one. Donald McMillan, assistant principal, is in charge of all homecoming plans.

The election of a chief and princess to represent the school has been a tradition among central students for many years.

A boy and girl from each senior homeroom are nominated for this honor and each homeroom in the school then votes for one chief and one princess. Candidates must have at least a "C" average.

★ ★ ★

The five boys and five girls receiving the most votes are then interviewed by a stundent council delegation. Through this interview the court of three boys and three girls is chosen.

To make the final decision as to the election of the chief and princess, the court is again interviewed by the same student council delegation and a group of teachers.

TO PERFORM DANCE

Reigning as chief this year will be Dave Colando.

He will perform the war dance at home football and basketball games and is the symbol of Pontiac Central's fighting spirit.

Aiding the chief will be princess Cindi Hiltz.

Their court is composed of Julia Graham, Susan Pill, Ken Goff, and Doug Sheffield.

Five committees have been set up to carry out homecoming plans.

The parade committee has the responsibility of arranging the cars, making signs for them, and planning the route of the parade.

Cars from various clubs, organizations, and homerooms will be in the parade. The school band and a float carrying the homecoming court will be important factors in the parade.

History teacher John Burton heads this committee with Marilyn Morris acting as student chairman.

A committee has also been set up for the construction and decoration of the float, headed by art instructor Jean Smith and vocational teacher Ray Lowry with Judy Hillman and Mike White as student chairmen.

TO RIDE IN CANOE

The princess will ride in a canoe and the chief will stand in front of a large arrowhead. A bonfire will be between them, and their court will surround them.

Heading the halftime festivities will be counselor Arlene Nichols with Bob Crane as student chairman.

At this time the chief will receive his spear and the princess will receive a necklace.

The Homecoming dance, "Autumn Whirl," will be held after the game until 12:30 in the boys' gymnasium. Jerry Libby's band will play and tickest are $1 per couple. No tickets will be sold at the door.

SPIRIT OF PCH — The great spirit of Pontiac Central High School has been entrusted to Dave Colando, of 172 Mohawke Road, and Cindi Hiltz, of 244 Ottawa Drive. Dave is the newly elected Pontiac Central chief and Cindi, his princess. The seniors will begin their reign at tonight's homecoming festivities.

Parade, Dance to Mark PNH Homecoming

By SUSAN KILLEN

Everything is being readied for Pontiac Northern High School's 1962 Homecoming tomorrow night.

Floats are being prepared, cars are being decorated, the dance is planned, and everyone is ready for an evening of excitement.

Northern's football team is all primed and ready to take on the Walled Lake Vikings for an Interlakes tussle. At halftime, there will be festivities such as have never been seen before at a school affair.

There will be floats galore! On the student council float, the king and queen of the festivities will ride. Our king is Skip McIlroy and our queen is Barbara VanHorn.

Members of the court also to ride on the float, are Dianne Hunter, Sue Sparks, Betty Strevel, Gary Hayward, Neil Williams, and Garry Barrie.

★ ★ ★

There will also be a colorful array of floats designed and built by other groups.

The Pep Club float will carry a 6-foot Huskie, our school mascot. The cheerleaders float will carry Frosty, the school's live mascot.

TO ENTER FLOAT

The Catalina's Synchronized Swimming Team will enter a float with the slogan "Snow 'em" and it will have the decor of a modern northern igloo.

The sophomores, who are making their first attempt at adding to the school spirit, will sail a Viking ship across the field, to the cheers of the Walled Lake Vikings.

Other groups entering something in the parade are the Varsity Club, the Future Teachers, and the junior class. This parade will be one of Northern's biggest ever.

Also, the students are encouraged to decorate their own cars and travel in the caravan going to Wisner Stadium from Northern.

After the game, at 10 p.m., the cheerleaders are sponsoring the Homecoming Dance. It will be held in the school cafeteria, and the dress will be Sunday best.

★ ★ ★

The band will be poised and ready to play for the first couples who arrive. All alumni may purchase their tickets at the door.

SPECIAL PICTORIAL

Pontiac Northern is also putting out a special "Homecoming Pictorial" to be used as a game program.

The pictorial will include pictures of the homecoming court, the football team and coaches, the cheerleaders, and the roster for the game that night.

The cost of this pictorial is 25 cents, and it can be purchased from any Polaris member, Pep Club member, or at the game on Saturday.

Construction on the new addition is progressing rapidly.

CLARKSTON ROYALTY — Reigning at Clarkston High School's homecoming game tonight will be (from left) Joan Mansfield, homecoming queen; Linda Brodkorb, sophomore maid; Cathy DeLorge, junior maid; Leslie Hursfall, senior maid; and Virginia Thrift, freshman maid. They'll hold the spotlight at the homecoming dance, "Above the Stars," to be held Saturday from 9-11:30 p.m. in the school's cafeteria.

Kettering Teachers at Institute

By BARB SECAN

A three-day school week at Waterford-Kettering was the result of the Teachers' Institute yesterday and today. "The New Image of the Teacher in the Changing World" was the theme of the program, sponsored by the Michigan Education Association.

★ ★ ★

To provide inservice education for all educators in Michigan was the purpose of the two-day holiday for students.

Teachers from all over Oakland County participated in the events held at Cobo Hall in Detroit. Thursday's meeting was merely a general session, with today consisting of workshops, films, lectures and panels.

Almost any junior could be found flashing a shiny new class ring in the eyes of the underclassmen throughout the week. Mr. Burgess, of the ring company, remained in the lobby all day Tuesday to distribute the rings.

They remain the standard class ring that Kettering students chose in the past; the white gold shaft with the dark green stone.

On the left shank is the school's crest and the lettering "The Captains," and on the right is a picture of the canopy over the main entrance to the building and the inscription "Mighty Oak."

Cochairmen of the publicity committee, Pam Foote and Connie Everett recently began formally announcing Kettering's first annual homecoming activities.

The "Diamond Ball" is to be held in the gymnasium from 8-11 p.m. on Oct. 20. Tickets for the dance will be sold at the door and at school prior to the dance, at $2 per couple.

Our Lady of the Lakes Elects Council Officers

By DENISE SPRINGER

The campaign is over, votes are counted and the student council officers of Our Lady of the Lakes High School have been elected.

The new officers are Mike Summerville, president; Richard Drake, vice president; and Dianne Guibord, treasurer.

The Student Council, working closely with the faculty, plans to undertake special projects this year.

One important project is the improvement of the school grounds.

In addition, class officers have also been elected.

Senior class officers include Don Beauregard, president; Grace Imbrunone, vice president; Lynne McCarius, secretary; and Karen Day, treasurer.

Junior class officers are Marcia Wolosiewicz, president; Bob Shaffer, vice president; Wes Borys, secretary; and Joe Petrucci, treasurer.

Sophomore class "A" officers are Mike Anderson, president; Pat Eibergen, vice president; Mary Ellen Baxter, secretary; and Bob Eibergen, treasurer. Sophomore Class "B" officers include Ann Sharpe, president; Linda Rollison, vice president; John Saggie, secretary; and Jerry Ogg, treasurer.

Freshmen Class 1 officers are Gerald Roberts, president; Dennis Gardner, vice president; Suzanne Livingston, secretary-treasurer.

Coyotes, Jazz Bands on the Prowl

WATERFORD TOWNSHIP HIGH SCHOOL

By LIZ VENIE

Campaigning for sales of the 1963 Waterlog at Waterford Township High School begins on Monday, Oct. 15, with the big race between The Roadrunner and Wil E. Coyote.

★ ★ ★

Seniors and juniors, in the form of The Roadrunner, compete with sophomores and freshmen, who take the form of the crafty coyote in his effort to catch his speedy foe.

Each Waterlog order counts in favor of the particular racer. Total orders, on a percentage basis, determine the winner.

Campaign chairmen Diane Smith and Tom Rousku hope to see orders reach the 1400 mark. Supervising the sales handled by journalism students is Waterlog business manager Marlene Kibbie.

Each student who has an Activity Card receives a discount on the yearbook, which will cost $4.

Newly elected French Club officers are: Sherry Zannoth, president; Dennis Ahnen, vice-president; Sue Bills, secretary; and Jeon Ott, treasurer.

ROCHESTER HIGH SCHOOL

By Barbara Dunford

The Rochester High School Falcons learned the importance of spirit in their triumph over Lapeer last Friday night.

The spirit came in the form of a seven piece band lead by Mr. Richard Goldsworthy, Rochester's new band director.

The pep band put in its surprise appearance during the game's second quarter, sparking both the crowd and the players. Mr. Goldworthy's band was a complete surprise to parents and students alike.

★ ★ ★

Playing dixieland and jazz versions of "When the Saints Go Marching In" and other favorites, the band attracted many complimentary comments.

Mr. Goldworthy won everyone's appreciation and their sincere hopes that he retain his inspiring band at all away games.

Lake Orion Aroused Over Homecoming

By JANIE BANKERT

All is flutter and flurry at Lake Orion High School tonight as it is annual homecoming time again.

★ ★ ★

There was no school yesterday or today, due to the Teachers' Institute, which gave clubs and classes extra time to work on their floats. But there are still many last-minute details to attend to.

The homecoming parade, pep rally, halftime ceremonies, float competition, and the selection of a queen are sponsored by the student council. Chairman this year is Ardis Storm.

Homecoming officially opens with a parade at 7 p.m.

★ ★ ★

The procession, consisting of class and club floats, class officers, student council officers, cheerleaders, and court and queen candidates, will proceed down the main street of Lake Orion, where the floats will be judged.

3 JUDGES

The judges this year are Al Hanoute of Lake Orion, Mrs. Lillian Crawford, and Mrs. Phyllis VanVleet, both of Oxford.

★ ★ ★

The parade will halt at the intersection of Flint and Broadway streets for a 15-minute pep rally.

Halftime ceremonies will begin with a parade around the football field, at which time the winners in the float competition will be announced.

The climax of the halftime events will be the crowning of the 1962-63 homecoming queen by last year's queen, Connie Omilian, and Lake Orion High School Principal James Hoag.

The game will be followed by a "victory" dance at the high school, sponsored by the "O" Club.

Daytime Event for St. Fred's

By SHEILA LANE

The festive air of homecoming has come to St. Frederick's High School and all is being readied to make this year's homecoming an event to be remembered.

The busy weekend will begin with a semi-formal dance tonight in the parish hall, sponsored by Pep Club.

The theme set for the affair is "Evening in Blue" and general chairman for the dance is Bridget Scully, with Karen Pape in charge of publicity; Chris Rochon, refreshments; and Judy Fitzpatrick, decorations.

The homecoming queen will be announced at the dance amid a setting of royal blue and gold and the girl chosen from the four senior candidates—Diane Harris, Kathy Maddock, Jan Shell, and Joy Capogna—will be seated on her light blue throne. She will be surrounded by her court, composed of the three senior girls and two junior candidates to the court, Janie Larson and Zora Zudnic.

Homecoming festivities will be at their height Sunday afternoon. The parade, to assemble at the school parking lot at 1:45 p.m., will be composed of five convertibles carrying the queen, her court, and the cheerleaders.

Following will be student cars decorated to fit the occasion. The parade will travel down Saginaw Street and Oakland Avenue to Wisner Stadium.

Halftime ceremonies will be enhanced this year by a color guard, an honor guard and by the performance of Jackie Rae's all-girl baton team. Following the performances, fathers of the football players and the cheerleaders will be announced and accompanied to the field by their children.

Climaxing the halftime ceremonies will be the recrowning of the homecoming queen. She and her court will be accompanied to the field by their fathers.

Finale at St. Mike's

By BILL O'NEILL

St. Michael's High School will provide the finale Sunday night for the biggest homecoming weekend in the history of the City of Pontiac and Wisner Stadium.

★ ★ ★

There will be four homecoming football games played on the Wisner turf between tonight and Sunday night.

★ ★ ★

Pontiac Central High observes its homecoming tonight, Pontiac Northern tomorrow night and St. Frederick's High School plays its homecoming game Sunday afternoon.

★ ★ ★

The students of St. Mike's will put finishing touches on the big weekend when our team takes the field for the annual homecoming game under the lights at 8 p.m. Sunday.

St. Mike's homecoming ceremonies, however, will actually get under way tonight at the annual homecoming dance.

The freshman representative to the Queen's Court will be Sue Wilson, the sophomore representative will be Carol Stokes, and the junior representative will be Nancy Rindfusz.

★ ★ ★

The three senior candidates for Queen are Pat Hogan, Peggy Livingston and Gloria Johnston.

Results of the voting will be announced at tonight's dance.

★ ★ ★

This year's physics class is deeply indebted to Mr. Gordon Lowe for his valuable donation of an oscillator and an oscilloscope.

★ ★ ★

The Future Nurses Club under the direction of Sister Etheldred was organized during the past week.

The president of this group is Peggy Livingston; vice president Gloria Johnston; secretary, Janice Clinton; and treasurer, Diane Schneider.

Knock Rock, Teachers Told

From Our News Wires

DETROIT—Humorist Sam Levenson, a veteran teacher, yesterday urged educators to "try being unpopular . . . call rock and roll junk."

★ ★ ★

Levenson highlighted the opening session of a regional meeting of the Michigan Education Association at which some 8,000 teachers from Wayne, Oakland, Macomb and St. Clair counties attended.

Levenson blistered parents who "sit in front of the television set" instead of concentrating on their children's education.

The former New York teacher also contended many of today's youths have too much. "Not every kid has to have a car. If he's 16, maybe he can walk," he said.

Max Lerner, journalist and political scientist, also addressed the gathering and told the teachers they should help lead the United States from a "fun — money — success culture."

VALUES STRESSED

Teachers, Lerner said, must give youth a new set of values so "the long drawn out political war, a war more decisive than any nuclear war" can be won.

He said teachers should have their students press for excellence rather than success in terms of values.

Association president Ray MacLoughlin took the opportunity to attack efforts toward unionizing the teachers.

"The major reason for the interest of the AFL-CIO in organizing teachers is membership," he said. He accused the labor organization of being more concerned with "membership and dues than education."

"If you choose to ally yourself with one segment of society because you believe political and economic power lies within it, you will not be free to be an independent educator," he told the meeting of regions 2, 6 and 7 of the MEA.

He said the AFL-CIO seeks to use teachers as "a wedge in organizing the so-called white collar group."

The American Federation of Teachers currently is trying to organize classroom teachers.

'Top Pumpkin' to Win Bond

Walled Lake Jaycees to Give $25 in Drive

WALLED LAKE — A $25 savings bond will be awarded for the best Halloween display here as part of the Walled Lake Junior Chamber of Commerce's annual pumpkin drive.

Sales of Jaycee pumpkins will begin Oct. 26 in front of the Community National Bank, 246 Barnston St.

The sales drive will continue the next day at the Maple Plaza Shopping Center and on Oct. 28 it will be conducted as a door-to-door campaign in this area.

The Walled Lake resident with the best pumpkin display on Halloween will be awarded the bond by a committee of judges which includes Mayor Louis E. James, Police Chief James A. Decker and Jaycee President Wendell G. Kellogg Jr.

★ ★ ★

To qualify for the contest, residents must obtain entry blanks from Jaycee members during the sales drive, according to project chairman Sam Gardiner.

Proceeds will be used to support Jaycee-sponsored community projects, Gardiner said.

Contest Queen to Be Picked at Luncheon

FARMINGTON TOWNSHIP — A "Queen for a Day" will be chosen Oct. 25 at a luncheon and fashion show sponsored by the Altar Society of St. Colman's Catholic Church.

★ ★ ★

Winner of the "Queen" title will be named at the society's 12:15 p.m. fashion show that day at the Meadowbrook Country Club, 40941 W. 8 Mile Road, Novi.

She will be presented with free clothing, a dinner for two, champagne, jewelry and other prizes donated by merchants from the Birmingham and Farmington areas.

The "Queen for a Day" contest is open to anyone who attends the event.

Reservations are available by contacting Mrs. Paul Livingston, 7232 S. Tratham Court, West Bloomfield Township.

Widow Files Suit in Traffic Death

GRAND RAPIDS (AP) — Suit for $135,000 was filed yesterday at U.S. District Court by the widow of a Mishawaka, Ind., man fatally injured March 25, 1961, in a Cass County traffic crash.

Mrs. Ellen Jacobs, administrator of the estate of her husband Harry, named as defendants Walter M. Marty and George Chamberlain, both of Vandalia, and Otto L. Buck of Jones.

She claims her husband suffered fatal injuries as a passenger in a car which collided with a pickup truck left unattended in the center of a Cass County road.

Ex-Area Teacher Joins State Unit

WHITE LAKE TOWNSHIP — A former Bloomfield Hills School District teacher, George E. Cavin, has joined the Michigan Education Association as a field service staff representative.

Cavin, who lives here at 9431 Cedar Island Road, will work in the metropolitan area to improve education and professional organization, according to MEA executive secretary Dr. E. Dale Kennedy.

Cavin has had six years experience as a classroom teacher and three years as a junior high school principal. He was a social studies and English teacher in the Bloomfield Hills system before joining the MEA.

Burglaries Hit Troy

TROY — City police are investigating two burglaries discovered yesterday in the Baker Junior High School and the Troy Medical Clinic.

★ ★ ★

Thieves broke into the school through a window, ransacked the offices and stole $168 from a school safe, according to Sgt. Robert H. Mortensen.

He said the safe was in a storage room off the principal's office. A hole had been chisled through the top of it when a school custodian found it at 7 a.m.

The Troy Medical Clinic, 3065 Rochester Road, was entered through a skylight, according to Mortensen.

★ ★ ★

Thieves dropped into the office of Dr. Donald Reed and took an undetermined amount of money from his filing cabinet, he said.

★ ★ ★

They apparently left through a back door and took a high fidelity record player and surgical instruments in addition to the money.

★ ★ ★

The Troy Medical Center robbery was also reported by a custodian, when he arrived at the building yesterday.

Car Hits Teen in Southfield

SOUTHFIELD — A 16-year-old Detroit youth is in critical condition in William Beaumont Hospital, Royal Oak, with injuries received when he was struck by a car yesterday afternoon on Lahser Road in front of Plum Hollow Golf Club.

Police here said that Eric Kinniman, 19379 Burt Road, was standing on the east shoulder of the road talking to two other youths when another friend across the street called to him that he had a ride.

Young Kinniman dashed across the road in front of a car driven by Dennis A. Lis, 18, of Detroit. Lis told police that it was impossible for him to avoid hitting Kinniman. He was not held.

The impact threw the youth clear of the car onto the pavement. He has severe head injuries, hospital authorities said.

Bike Accident Kills Woman

Almont Resident, 83, Dies After Being Hit

ALMONT—An 83-year-old woman died yesterday of injuries sustained when she was struck by a bicycle in front of her home.

Mrs. Julius M. Tabor, 83, was hit by the handlebars of a bike driven by a 10-year-old girl when she walked onto the public sidewalk in front of her home at 518 E. St. Clair St., according to Almont police chief Edward J. D'arcy. Police withheld the girl's name.

Mrs. Tabor suffered a skull fracture and died after 2½ hours in Community Hospital, police said.

She is survived by a son, Joseph Farber of New Mexico, a brother and three sisters. She was a member of the First Congregational Church.

Her body is at Muir Brothers Funeral Home in Lapeer.

Two Receive Prison Terms

FARMINGTON TOWNSHIP—A 24-year-old Farmington Township man was sentenced to three years in prison yesterday after pleading guilty to counterfeiting in Federal Court, Detroit.

Sentenced by Federal Judge Ralph M. Freeman was Thomas T. Tripp of 28374 Thorny Brae Road.

A man identified as Tripp's accomplice, Donald Krutschewski, 33, of Detroit, received an 18-month prison sentence.

Both pleaded guilty after being arrested Aug. 18 in Detroit while a printing press was in operation. Federal Secret Service agents said Tripp had passed 18 bogus $5 bills.

PTA Plans Open House at Johnson Niles School

TROY—The Johnson Niles Parent-Teacher Association's first meeting of the school year Wednesday will take the form of an open house.

Beginning at 8 p.m., parents will visit classrooms and talk to the teachers.

Refreshments will be served at 8:30 p.m. in the multipurpose room after which Mrs. Earl Roth, PTA president, will conduct a short business meeting.

Dairy Farmers Seek Output Legislation

CHICAGO (AP) — Representatives of dairy farmer cooperatives in 17 states have agreed to seek legislation to fit production to market requirements.

The announcement came today from the Pure Milk Association, cooperative organizatin which represents 12,000 dairy farmers in Michigan.

The association said the conferees met yesterday at the association's invitation and agreed that a voluntary "dairymen's Class 1 base plan" for federal order milk markets would be the best solution for the milk surplus.

Participants decided to make an aggressive campaign to get such a plan approved by the next Congress.

★ ★ ★

They also favored maintaining the current dairy products support price at not less than 75 per cent of parity. Parity is a standard calculated to give the farmer a fair price in relation to his costs.

The announcement elaborated:

"The dairymen's Class 1 base plan is designed to fit production to market requirements. It would become effective in a federally regulated milk market if approved by two thirds of the producers voting in a referendum.

"Under this voluntary program a producer who chose to do so would be allocated a base which would be his historical percentage or share of the Class 1 (bottled) milk produced for the market. (A producer's base is his average daily production of milk over a designated period.

"The producer would be paid the Class 1 price for his base milk. All additional milk shipped to market by this producer would be paid for at the manufacturing price level."

Ask Methodists to Sessions of 'Mission' in Area

ROCHESTER — All Methodist churches in the area have been invited to participate in a series of meetings on an evangelistic "Mission to America" beginning Sunday at St. Paul's Methodist Church here.

Rev. Victor Brattstrom, pastor of St. James Methodist Church, Goteborg, Sweden, will lead the sessions to be held nightly through Oct. 19.

Each meeting will begin at 7:30 p.m.

Also a church history teacher, Rev. Brattstrom is on his first visit to the United States. Last year he was a delegate to the World Methodist Conference in Oslo, Norway.

The mission is being sponsored by the Methodist General Boards of Missions and Evangelism.

Plant Spring Flowers Now

A few of the loveliest of annaul flowers like best the cool weather of early spring and will not thrive when temperature rises.

These include larkspur and sweet peas, two annuals that many gardeners have found disappointing because they have not considered the requirement given above.

★ ★ ★

As you know, it isn't always easy to work the soil in very early spring, so preparing it in fall and sowing the seeds of these two annuals then will not only suit the flowers but also the gardener.

Larkspurs need only a shallow drill prepared for their seeds. But sweet peas like their roots deep in the cool soil: for them dig a trench a foot deep and, if you can acquire manure, mix it with the soil at the bottom of the trench.

Then cover this mixture with two inches of soil and on top of this sow the seeds, spacing them an inch apart.

Cover with soil three inches deep, then fill in the trench with any rough material like straw or hay.

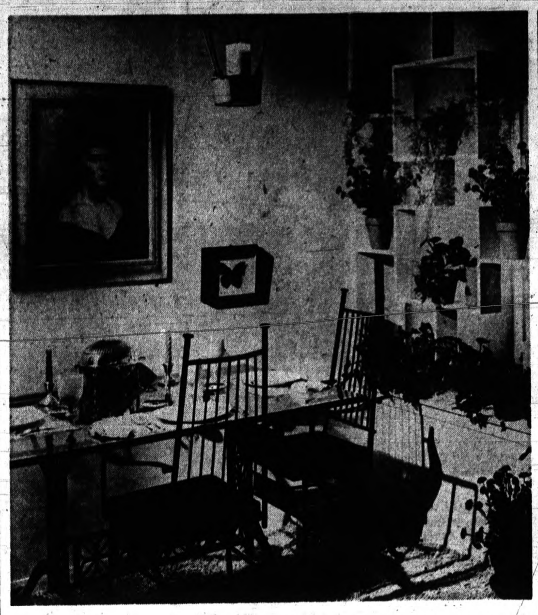
Leave the extra soil alongside the trench for use in spring.

As the young plants grow, thin them to stand six inches apart.

Provide a support of wire or brush for them to climb on. Draw in the stored soil a little at a time until the trench is almost filled. This will insure coolness for the roots.

It may be necessary to guide the vines to their support, but usually their tendrils assist them to climb without any outside help.

And, when you pick masses of the deliciously fragrant blooms, this extra preparation will seem well worth while.



PLANT ROOM DIVIDER — These symmetrically arranged groups of foliage plants in their natural-looking clay pots provides a flexible center of interest on the shelves of a modern room divider adjoining the dining space. The almost limitless variety of professional grown plants available makes it easy and interesting for homemakers to alter their divider shelf decor throughout the year.

Preserve Cut Flowers

NEW YORK (UPI)—To prolong the life of autumn's chrysanthemums, place the stems of the cut flowers in a container of warm water. Remove all foliage below the water line and add a commercial flower preservative, suggests the Society of American Florists.

Smart-Weed Traps Japanese Beetles

From Altavista, Va., comes a beetle control plan involving spray and psychology. Albert Glass, a nurseryman, says his meanderings have helped him determine that the Japanese beetle dotes on smart-weed, which he says grows almost everywhere.

★ ★ ★

He said he found that the beetle preferred smart - weed to other weeds, fruits, flowers and vegetables. When there is no smart-weed patch, the beetle settles for something else.

Glass proposes that everyone plant a patch of smart-weed. It doesn't have to be big but it requires rich soil and sun.

Then spray your smart - weed and you'll be eradicating the beetle before it gets your posies, says Glass. His slogan:

"It's smart to grow smart-weed."

An average housewife spends one-third of her day in planning, buying and preparing the family's meals.

Keep Plants Healthy

NEW YORK (UPI) — Here's a tip on how to keep house plants in good condition while you're on a quickie vacation.

★ ★ ★

The Society of American Florists said plants will remain healthy for four or five days if they're placed on thoroughly soaked bath towels in the bath, kitchen sink or laundry tub exposed to some light but not to direct sunlight. Then, set the water faucet so that one drop of water will fall every few seconds on the towels. The towels will carry the moisture to the soil.

Shade Best for Bulbs

The best place for your amaryllis bulbs is in a shaded garden area with their clay pots buried up to the top rim in earth. Water them regularly through the summer and apply soluble plant food every two weeks, then you can bring the plants into the house before frost so they will flower again next fall and winter.

Consider Lightning Rods to Protect Tall Trees

That tall, old specimen tree — perhaps your favorite arboreal pet — may be just the one that lightning will strike

★ ★ ★

For height, above all else, tags trees as lightning bait, advises Homer L. Jacobs, research director of the Davey Tree Expert Co. But despite such folklore as "oaks draw bolts," there is no scientific evidence that one kind of tree is more likely to be struck than another. Experience indicates no trees are immune from Nature's pyrotechnics.

★ ★ ★

Unfortunately, many homeowners still regard lightning protection for their woody pets as something akin to circus showmanship. But with Summer lightning storms at hand, Mr. Jacobs warns that disregard of such protection annually results in the loss of thousands of valuable shade and ornamental trees.

In practice the same procedure is used in protecting trees as is employed in protecting homes, buildings and other structures.

In fact, a properly rodded tree in the right place can protect your home, too.

Records show that most homeowners fail to give lightning protection to their trees until they have suffered a valuable loss. This follows the old adage of locking the barn door after the horse is stolen. Lightning damage is caused by the searing heat which literally cooks the living cells and ruptures tissues as the trees' moisture suddenly turns to steam.

★ ★ ★

But often the only visible damage may be a bark furrow on the outside. Yet death may follow. Favorite victim is a tree with its branches high in the air and its roots spread deeply in moist soil.

If you do have an unprotected tree hit, give first aid by removing all damaged portions and dangerous splinters. But withhold further immediate remedial treatment. Wait until the next growing season — this because there is no accurate method of determining the extent of root damage following a lightning stroke.

Gardening Is Taught at Indiana U's Hilltop

By EARL ARONSON
AP Newsfeatures

HILLTOP is not just a garden. It is Indiana University's garden-teaching laboratory where youngsters from Bloomington may cultivate not only plants but the science of working together.

★ ★ ★

It is not just a place to learn to grow a head of cabbage, says Dr. Barbara Shalucha, I. U. professor of horticulture who directs Hilltop.

This nature workshop was fashioned 15 years ago from a one-acre field of alfalfa. The first class had 17 youngsters. This summer 200 children of school age raised vegetables, fruits and flowers.

"Hilltop is a way of living in our town," Dr. Shalucha explains. "Ninety per cent of the children never have been in a garden. But by the time they have finished a season, they know you just don't throw seeds any old way. You have to learn to plant."

START EARLY

Planning begins in February, when I. U. horticulture students start laying out garden plots and crops. Hilltop provides the laboratory for I. U. education majors, youth counselors and even medical students.

"They feel there is more to medicine than the pill or operation," said Dr. Shalucha.

She related that more than 500 university students have graduated thus far from Hilltop and many have set up similar projects around the country.

★ ★ ★

Plants are started in the Hilltop greenhouse in March. Later, Bloomington youngsters aged 9 to 12 are invited to register.

They have their own plots, work Saturdays before school is out for the summer, then three days a week.

There is an honor day after the harvest.

"We play down competition," Dr. Shalucha says.

"Our honors are extremely simple. What we really want is respect of a good idea. Genuine respect, especially of others, is part of one's character development."

Fish Net Is Used to Protect Berries

Did birds eat more of your cultivated blueberries than you did? J. Milton Burdick of East Otto, N.Y., prevented this by covering bushes with nylon fish net.

★ ★ ★

As an experiment, Burdick covered 1½ acres and estimated his loss would be 20 per cent less this season. He used nylon strips 20 feet wide against robins, cedar waxwings and golden orioles.

"We would rather discourage the birds than kill them," Mrs. Burdick said.

Forget Records, It's Time for M-MSU Battle

Sellout Again Saturday for 15th Straight

55th Neighborhood Game Starts Big Ten Play for Both Teams

By BRUNO L. KEARNS
Sports Editor, Pontiac Press

Throw the records out of the window, it's time for the 55th annual edition of the Michigan-Michigan State football game.

★ ★ ★

No other football series, except possibly the Army-Navy game, has attracted the crowds through the years that this neighborhood brawl can boast.

With 78,000 in attendance at Spartan Stadium in East Lansing, this will mark the 15th straight sellout since 1948, meaning that 1,250,000 have seen the game in the past 14 years, including 100,000 for each battle in Ann Arbor.

Both teams will be looking for their starting victory in the Big Ten race after suffering a win and a loss in the first two. Michigan State, chosen by many as possible Big Ten champion, lost its opener 16-13 to Stanford while Michigan was beaten by Nebraska, 25-13.

Last week, both teams came back. Michigan whipped Army, 17-7 and MSU rolled over North Carolina, 38-6.

3 PLATOONS

Michigan, with 13 sophomores in its first three units, will attempt to carry its platooning set-up against the bigger Spartan line and faster backs.

Coach Bump Elliott is expected to use the same first team that opened against Army with Dave Glinka handling the quarterback chores, and sophomore Bob Timberlake as the No. 1 caller for "The Raiders."

Glinka will have Jack Strobel, Dave Raimey at the halves and Wayne Sparkman at fullback.

Michigan State will start junior halfback Ron Rubick, who just last Saturday set a new all-time single game rushing record for MSU with 207 yards in 14 carries. In his first two games he has 265 yards and a 9.4 average with three touchdowns.

★ ★ ★

Coach Duffy Daugherty will be seeking his 6th win over Michigan in nine years, having won five, lost two and tied one.

Celebrations Expected Tonight

Both Campuses Put on Alert

Michigan and Michigan State football teams have gone into hiding and the respective campuses will be under guard tonight to watch for wild pre-game celebrators.

★ ★ ★

Coach Duffy Daugherty has locked the gates of the practice field in preparation for the rivalry which dates back to 1898. Only team members and coaches have been allowed admittance.

The Wolverines will limber up for the last time this afternoon in Ann Arbor and at 4:00 p.m. take a bus to East Lansing to a hideaway at a motel there.

3 STRAIGHT

Daugherty has won the last three games by convincing scores, 34-8, 24-17 and 28-0 last year. A 12-all tie marred his record of wins in 1958. He also won in 1956 and 1957, 9-0 and 35-6.

Duffy's last loss was 14-7 in 1955. His only real humiliation at the hands of Michigan was by a 33-7 score in 1954, his first year as head coach.

It wasn't always that way, however. Michigan still has a 5-15-4 edge in the series. Biggest margins were 119-0 and 6-0 in 1922.

★

From 1938 on, Michigan won 10 in a row until then coach Biggie Mun broke the ice with a 14-7 victory in 1950 on his fourth try.

The campus went wild that night. Students rioted onto Grand River Ave., tipped over cars, fought police and were arrested in wholesale lots.

The "cow college" —favorite Michigan nickname for MSU — finally managed to upset proud Michigan.

Michigan State students have become a little more blase now that Spartans are in the habit of winning. They'll be whooping it up again this week, though.

RALLY TONIGHT

A pep rally tonight with the footballers, coaches, band and cheer leaders in attendance will help whip up the frenzy.

A volunteer student guard of 50 men from Bryan Hall will keep watch over Spartan Statue —Michigan pranksters have a habit of sneaking in to daub the Spartan Maize and Blue

Already the Delta Upsilon Fraternity bell — rung after every MSU score — has been painted Blue and had to be repainted.

★ ★ ★

They are proud here on the campus of the Paul Bunyan trophy, donated in 195 to the winner of the game by then Gov. G. Mennen Williams. This is a carved wooden figure of the legendary woodsman.

★ ★ ★

The legislature has tried to get into the act. At one time, there was an attempt to force television of every game but the Big Ten ruled this illegal.

The lawmakers will be the guests of the two universities before the game. Most of them show up and pick up their complimentary tickets, one of the side benefits of election.

★ ★ ★

The governor always makes a point to attend and traditionally must change sides at the half to show non-partisanship.

Despite television, the favorite question locally is "any tickets?"

Red Wings Rally for Opening Win

Top Rangers 2-1 on Goals in 3rd Period

MacDonald, Young Score; New York Hits in 2nd

NEW YORK (AP)—The Detroit Red Wings, shut out for two periods, swept from behind in the third period Thursday night and defeated the New York Rangers 2-1 in the National Hockey League season's opener for both teams.

★ ★ ★

Defenseman Howie Young and Parker MacDonald got the Red Wing goals, wiping out the 1-0 advantage the Rangers built on Dave Balon's second period score.

★ ★ ★

Detroit, expected to battle it out with New York for the last play-off position this year, had a wide edge in play most of the way.

Only some excellent goal tending by the Rangers' Gump Worsley held them in check. He turned back two solo rushes by Bruce MacGregor and made another fine save off Norm Ullman.

SCREEN SHOT

The Red Wings wouldn't be denied, however, and tied it in the second minute of the third period when Young rifled in a 25-foot screened slap-shot. MacDonald was credited with the winning goal when he steered in Doug Barkley's slap shot from the point at 11:09.

★ ★ ★

The Red Wings' Terry Sawchuck, wearing a mask for the first time, would have had a shut-out but for Balon's second period goal. Each team was a man short when Balon and Rod Gilbert broke through the Detroit defense and rushed in together. Gilbert's quick pass to Balon caught Sawchuck out of position and Balon flipped it in from point blank range.

May 'Foul' Series

SAN FRANCISCO (AP) — Neither rain, nor hail nor wind, all of which were predicted for today's scheduled sixth World Series game between New York and San Francisco, could prevent manager Ralph Houk from forecasting a world championship for his Yankees in six games.

★ ★ ★

Undaunted by manager Alvin Dark's choice of Billy Pierce as the Giant pitcher and cognizant of the veteran left-hander's 12-0 record at Candlestick Park, Houk confidently expected the Yankees to wrap it up today — weather permitting — behind the lefthanded slants of Whitey Ford. The Yankees lead the series, three games to two.

"I expect Ford to beat "Pierce," Houk said yesterday picking Whitey over Bill Stafford, although it was the young right-hander's turn in the pitching rotation.

"I'm going with my best and let the chips fall where they may," added Houk. "I'm not underestimating Pierce. It will be a tough battle but Whitey should win. He's fit and ready. I know Pierce hasn't lost here yet. But neither has Whitey. Remember he beat the Giants in his only appearance here."

Houk was referring to the opening game in which Ford scattered 10 hits and won 6-2 with left-hander Billy O'Dell the loser.

The odds-makers supported Houk's victory claim. They have established the Yankees a 13-to-10 choice to win today and a 7-to-2 favorite to win the series.

FAVOR RAIN

The odds were even greater against the game being played today. According to the weather bureau, there was a 90 per cent chance of rain. Warnings of 30 to 45 miles an hour wind have been posted.

DEFENSE CLICKS — Pat Stapleton, Boston defenseman (center), tangles with Gordon Berenson as the Montreal wingman tries to score in the first period last night. Warren Godfrey, Boston defenseman, and goalie Bob Perreault watch the outcome. The Bruins won, 5-0.

Montreal Stopped by Perrault

Boston Blanks Canadiens

BOSTON (AP)—Balding, barrel-shaped Bobby Perreault is a comic in the grim business of hockey goaltending.

But perennial champion Montreal is not laughing after Perreault blanked the Canadiens 5-0 Thursday night, launching a new season for Boston which finished a distant last in the National Hockey League a year ago.

★

The little, round, 5-foot-7, 184-pound Perreault turned aside everything Montreal firepower could muster, making 27 saves.

One stop particularly on which Perreault made a frantic headlong dive and speared a wicked slap shot by Canadiens' rookie Red Berenson had the 13,736 fans in an uproar.

At 31, Perreault is the youngest regular goaltender in the NHL along with Chicago's Glenn Hall. Yet in 12 years of professional hockey he's appeared in just 10 major league games—and turned in three shutouts.

Despite his stubby build, Perreault moves quickly, guarding the goal in a swarming fashion like Toronto's Johnny Bower.

Boston got two goals apiece from Johnny Bucyk and Doug Mohns and the other from Irv Spencer, acquired from New York.

U.S. Golfers Regain World Amateur Lead

KAWANA, Japan (AP) — The United States regained the lead from Canada after the third round of the World Amateur Golf Team Championship today as good weather and good scoring returned to the picturesque Fuji course.

★ ★ ★

The Americans, defending the title they won in a runaway two years ago, put together a three-man team score of 211 for the day and a three-round total of 649 to lead the surprising Canadians by two strokes.

Great Britain, paced by Mike Bonallack, took over third place from New Zealand by a 658-660 margin. Scoring is strictly on a scores each day counting towards the team's total.

SUB-PAR GOLF

Dick Sikes, the lanky University of Arkansas senior who has won the U.S. Public Links title twice, posted his second sub-par 69 in three days over the 6,587 - yard par 70 Fuji course to pace the American team.

Former U.S. Amateur Champion Deane Beman of Bethesda, Md. bounced back from a wretched 80 on Thursday's rain and shot a par 70. Billy Joe Patton of Morganton, N.C., and Labron Harris Jr., the U.S. Amateur Champion from Stillwater, Okla., both had 72s.

★ ★ ★

Canada's Gary Cown still held the unofficial individual lead with rounds of 68-71-72—211 to Sikes' 69-76-69—214. Sikes held a one stroke edge over Britain's Ronnie Shade, who fired a course record 66 in Thursday's rain and cold in between rounds of 75 and 74.

Bill Wakeham and Cowan shot 72s to lead the Canadian team today while Mick Weslock had a 75 after going four over par on the first three holes. Bob Wylie skied to an 80 that didn't count in his team's scoring. Canada's total that counted for today was 219, wiping out the six-stroke edge the Canadians held after the second day.

OTHER SCORES

Bonallack matched Sikes' 69 for the combined Great Britain-Ireland team while Alex Saddler contributed a 72 and Martin Christmas a 73 for the team's 214 total. New Zealand needed 218 strokes on a 72 by Ross Newdick and 73s by Stuart Jones and Walter Godfrey.

One other 69 was posted today as scores in general showed distinct improvement. That was a 34-35 by Mexico's Juan Antonio Estrada, who had a 75 and 79 on the first two rounds.

★ ★ ★

Estrada helped boost the Mexican team into fifth place with a 54-hole score of 672. Formosa and Australia were tied with 674, Japan and South Africa had 678 each and Argentina 680.

★ ★ ★

The Canadian team's troubles started early when Wakeham missed his but from the hotel and arrived just in time to avoid being disqualified for being late. Cowan booked his drive from the first tee and lost his ball and Weslock drove out of bounds on the second hole.

TIPS FROM CHAMPS by RAY BLUTH

"Warm the holes with a match."

DRY GRIP

Bowlers, like baseball pitchers, often prespire as much from nervousness as from exertion.

This can prevent getting a good grip on the ball. Good bowlers use the hand dryer on the ball return or a towel before getting set to roll.

The great Ned Day was such a bug about dry hands that he washed them in alcohol before a match. Then he wrapped his hands in a towel and refused to shake hands with his right hand until he had finished rolling. I find it helps my grip if I wet my fingers and wipe them on my trousers before inserting them in the ball.

★ ★ ★

I get a better finger grip if I warm the holes with a lighted match.

Industrial Golf Meet on Sunday

Five teams, led by defending champions Pontiac Motor, will compete Sunday in the annual Pontiac Industrial Golf tournament at Pontiac Country Club.

★ ★ ★

The Pontiac Motor team, winners three straight years, will be made up of Ed Wasik, Bud Green, Norm Thompson and Dan Bruske. Last year's team was comprised of Jim Hanes, Bruske, Thompson, and Red Fender with Thompson taking tournament medal honors.

The winning team will gain the Knudsen trophy.

★ ★ ★

These are the other teams: Bell Telephone — Jerry Hamm, Doug Smith, Sam Gerlak and Ken Crowley.

FISHER BODY — Jack Ross, Bill Pittman, Joe Petroff and Jerry White.

GM TRUCK — Bill Abair, Bill Condon, Ron Rothbarth and Charles Barker.

BALDWIN RUBER — Joe Burdorf, Jerry Lampson, Pat Halverson and Bil Carrie.

The pairings:

9:00 a.m.—J. Ross, R. Rothbarth, J. Lampson, B. Green.
9:07 a.m.—C. Barker, K. Crowly, B. Carie, J. White.
9:14 a.m.—R. Hamm, J. Petroff, D. Bruske, B. Abair.
9:21 a.m.—J. Burdorf, B. Condon, D. Smith, N. Thompson.
9:28 a.m.—E. Wasik, S. Gerlak, B. Pittman, P. Halverson.

BATTERING RAM — The Los Angeles Rams, always one of the most explosive offensive teams in pro football, have another powerful runner in Dick Bass among the leaders in NFL statistics. Bass will lead the Rams against the Detroit Lions Sunday at Tiger Stadium. Except for bleacher seats which will go on sale at 11:00 a.m., the game will be a sell-out.

Not So Anxious U-D Faces Kentucky

DETROIT (AP)—No longer is the University of Detroit so anxious to climb into football's big time. All the Titans want to do is win a game, beat anybody.

* * *

Kentucky, a rival scheduled when Detroit was a bit more ambitious—and successful — invades Titan Stadium tonight. Licked by Army, Navy, Michigan State, Tulane as well as Kentucky in respectable records, the Titans now realize they perhaps overextended themselves.

So far this season, the Titans have been beaten by Boston College, Xavier (Ohio) and New Mexico State. Their losing streak continued from last year, is at five.

HEAVY FAVORITE

Kentucky, like Detroit, goes into the game without a victory. But the game appears to be a mismatch anyway. The Wildcats have tied Florida State and lost close games to two powers in its Southeastern Conference, Auburn and fifth-ranked Mississippi.

This could be considered the battle between the thin blue line and the thin red line. Kentucky is known in the southeast as the thin blue line because it has only 31 players on its roster. Another 30 or so quit last spring when Charlie Bradshaw took over as head coach and tried to toughen up the Wildcats.

Detroit has had a thin red line all season with 10 touchdowns scored against it.

The second meeting between Detroit and Kentucky shapes up as an aerial show between two sharpshooters named Jerry. Jerry Gross, the Titans' quarterback, has Detroit third in the nation in total passing offense. But Gross' receivers have trouble holding onto the ball.

Jerry Woolum, Kentucky's ace passer, aims for one of the best ends in the nation, Tom Hutchinson.

OTHER GAME

The Kentucky-Detroit clash is one of three major games on the Friday night college football schedule. In the others, Mississippi State is at Tulane and UCLA bidding for a place in the top ten rankings, entertains Colorado State University.

The Uclans made an impressive season's debut last week when they spilled Ohio State, then the nation's top ranked team, 9-7 after three times stopping the Buckeye attack on the one. The upset, enough to topple Ohio State from first to tenth, still wasn't enough to get UCLA into the AP's top ten.

Eight of the top ten will be in action on Saturday, with only fourth-ranked Southern California and Mississippi idle.

Alabama, the defending national champion and No. 1 again after the Buckeye bounce, should win as it pleases against Houston at home. Texas, No. 2, plays its annual southwest war with Bud Wilkinson's Oklahoma Sooners at Dallas, and third-ranked Penn State seeks its fourth straight victory against once-beaten Army at West Point.

Louisiana State, ranked sixth, has a night game with unbeaten Miami, and seventh-ranked Washington plays Oregon State at Portland. Baylor goes against eight-ranked Arkansas, ninth-pegged Purdue faces Miami of Ohio, and Ohio State takes out its UCLA disappointment against hapless Illinois, which hasn't won a game since 1960.

Some of the other key Saturday pairings include:

Cornell at Navy, Princeton at Penn, West Virginia at Pitt and Boston College at Syracuse in the east; California at Duke, Texas A&M at Florida, Tennessee at Georgia Tech and Maryland at North Carolina in the south; Missouri at Kansas State, Michigan at Michigan State, Northwestern at Minnesota, North Carolina State at Nebraska, and Notre Dame at Wisconsin in the midwest; Oregon at Rice, Texas Tech at TCU and Air Force at Arizona in the southwest; Utah at Brigham Young, Utah State at New Mexico and Stanford vs. Washington State at Spokane in the far west.

Scalpers Asking, Getting Top Prices

Series Malady Hits Bay Area

SAN FRANCISCO (UPI) — San Francisco suffered from an acute case of World Series fever today, despite rain, wind, scalper's-price tickets and the fact that the Giants are trailing the New York Yankees in victories, 3-2.

* * *

The city, deluged yesterday by a day-long rain that continued through the night, bulged without-of-town visitors who overflowed hotels, motels and rooming houses.

Many suburban residents who commute to San Francisco have reserved rooms and are spending the weekend in the city.

Scalpers were reported asking — and getting — $50 for a single reserved seat and $150 for a pair of box seats for today's scheduled game.

Most television shops reported that all their rental sets have been gobbled up. Schoolteachers complained that transistor-bearing students hurry through their classes to get to the corridor and their radios.

* * *

Amid the baseball frenzy, few sports fans realized that the Western Hockey League season opened in San Francisco Wednesday night, the college and professional football teams were both in action this weekend, and a middleweight title fight is scheduled in town next Tuesday — featuring Dick Tiger and Gene Fullmer.

CAN'T LISTEN

A former football coach said he has quit listening to the games. "I quit coaching because I got ulcers," he said. "Now I find that I get so nervous listening on the radio that I've just had to quit that too. It's a terrible thing."

One grandmother reported an unsettling dream: "It was the seventh game of the series. The Giants were leading, 7-6, with Yogi Berra at bat as a pinch-hitter . . . I woke up screaming. I don't know how the game came out."

And at Reno's, a bar where sports celebrities gather, the mood was solemn.

"There's nothing funny about this series at all," said the bartender, "everybody in town is taking it as seriously as a civil war."

Dales Face Stiff Test

By The Associated Press

Not all the weekend's football interest will be captured by the Michigan-Michigan State game.

* * *

There are 11 other contests starting with tonight's Kentucky-University of Detroit game in Detroit.

For the small colleges, the big game is unbeaten Hillsdale's invasion Saturday of Southern Illinois.

The Dales, looking for victory No. 5, moan about Southern Illinois' great size — a school of 825 students playing a school with an enrollment of 16,500. But out of its 825 students, Hillsdale has managed to find about 80 football players, 11 of them quarterbacks.

Albion steps out of the MIAA in quest of its 15th straight victory in a Saturday visit to Anderson (Ind).

* * *

There are two MIAA games Saturday — Alma at Adrian and Olivet at Hope. The other MIAA member, Kalamazoo, plays at Ferris.

In other games, Michigan Tech is at Moorhead (Minn) State, John Carroll at Wayne State, Illinois State at Central Michigan, Eastern Michigan at Baldwin-Wallace (Ohio) and St. Norbert (Wis) at Northern Michigan.

Never Bend Top Colt

NEW YORK (AP) — The Cain Hoy Stable's Never Bend took the lead in the latest poll of Thoroughbred Racing Association (TRA) handicappers today as the leading 2-year-old colt of the season. Never Bend received 248 points, compared with 244 for Rex C. Ellsworth's Candy Spots in the weekly poll.

Forget Records, It's Time for M-MSU Battle

Sellout Again Saturday for 15th Straight

55th Neighborhood Game Starts Big Ten Play for Both Teams

By BRUNO L. KEARNS
Sports Editor, Pontiac Press

Throw the records out of the window, it's time for the 55th annual edition of the Michigan-Michigan State football game.

★ ★ ★

No other football series, except possibly the Army-Navy game, has attracted the crowds through the years that this neighborhood brawl can boast.

With 76,000 in attendance at Spartan Stadium in East Lansing, this will mark the 15th straight sellout since 1948, meaning that 1,250,000 have seen the game in the past 14 years, including 100,000 for each battle in Ann Arbor.

Both teams will be looking for their starting victory in the Big Ten race after suffering a win and a loss in the first two. Michigan State, chosen by many as possible Big Ten champion, lost its opener 16-13 to Stanford while Michigan was beaten by Nebraska, 25-13.

Last week, both teams came back. Michigan whipped Army, 17-7 and MSU rolled over North Carolina, 38-6.

3 PLATOONS

Michigan, with 13 sophomores in its first three units, will attempt to carry its platooning setup against the bigger Spartan line and faster backs.

Coach Bump Elliott is expected to use the same first team that opened against Army with Dave Glinka handling the quarterback chores, and sophomore Bob Timberlake as the No. 1 caller for "The Raiders."

Glinka will have Jack Strobel, Dave Raimey at the halves and Wayne Sparkman at fullback.

Michigan State will start junior halfback Ron Rubick, who just last Saturday set a new all-time single game rushing record for MSU with 207 yards in 14 carries. In his first two games he has 265 yards and a 9.4 average with three touchdowns.

★ ★ ★

Coach Duffy Daugherty will be seeking his 6th win over Michigan in nine years, having won five, lost two and tied one.

Celebrations Expected Tonight

Both Campuses Put on Alert

Michigan and Michigan State football teams have gone into hiding and the respective campuses will be under guard tonight to watch for wild pre-game celebrators.

★ ★ ★

Coach Duffy Daugherty has locked the gates of the practice field in preparation for the rivalry which dates back to 1898. Only team members and coaches have been allowed admittance.

The Wolverines will limber up for the last time this afternoon in Ann Arbor and at 4:00 p.m. take a bus to East Lansing to a hideaway at a motel there.

3 STRAIGHT

Daugherty has won the last three games by convincing scores, 34-8, 24-17 and 28-0 last year. A 12-all tie marred his record of wins in 1958. He also won in 1956 and 1957, 9-0 and 35-6.

Duffy's last loss was 14-7 in 1955. His only real humiliation at the hands of Michigan was by a 33-7 score in 1954, his first year as head coach.

It wasn't always that way, however. Michigan still has a 5-15-4 edge in the series. Biggest margins were 119-0 and 6-0 in 1922.

★ ★ ★

From 1938 on, Michigan won 10 in a row until then coach Biggie Mun broke the ice with a 14-7 victory in 1950 on his fourth try.

The campus went wild that night. Students rioted onto Grand River Ave., tipped over cars, fought police and were arrested in wholesale lots.

The "cow college" —favorite Michigan nickname for MSU — finally managed to upset proud Michigan.

Michigan State students have become a little more blase now that Spartans are in the habit of winning. They'll be whooping it up again this week, though.

RALLY TONIGHT

A pep rally tonight with the footballers, coaches, band and cheer leaders in attendance will help whip up the frenzy.

A volunteer student guard of 50 men from Bryan Hall will keep watch over Spartan Statue —Michigan pranksters have a habit of sneaking in to daub the Spartan Maize and Blue

LOOKS EASY — Gus, a poodle owned by San Francisco pinch hitter Bob Nieman, catches a ball tossed by his master in Candlestick Stadium. It was too wet for the World Series foes to practice, but Gus had no trouble.

Already the Delta Upsilon Fraternity bell — rung after every MSU score — has been painted Blue and had to be repainted.

★ ★ ★

They are proud here on the campus of the Paul Bunyan trophy, donated in 195 to the winner of the game by then Gov. G. Mennen Williams. This is a carved wooden figure of the legendary woodsman.

★ ★ ★

The legislature has tried to get into the act. At one time, there was an attempt to force television of every game but the Big Ten ruled this illegal.

The lawmakers will be the guests of the two universities before the game. Most of them show up and pick up their complimentary tickets, one of the side benefits of election.

★ ★ ★

The governor always makes a point to attend and traditionally must change sides at the half to show non-partisanship.

Despite television, the favorite question locally is "any tickets?"

MAIL CALL — Billy Pierce (left) of the Giants, who is scheduled to start today's sixth game of the World Series, and Mrs. Pierce check their mail along with rookie pitcher Tom Bolin and his wife at Candlestick Park.

From The PRESS BOX

Alejandro Lavorante's condition remained unchanged today and doctors still listed his as serious and in a light coma.

★ ★ ★

The Chicago Zephyrs of the National Basketball Association, trimming their roster to 12 men, asked waivers Thursday on Charlie Tyre, Andy Johnson and rookie Ralph Wells.

Terry Nassiver, a 16-year-old high school football player died in a hospital in Albany, N. Y., Thursday of massive brain damage suffered while making a tackle in a game last Saturday.

★ ★ ★

Emmet Red Ormsby, an American League umpire for 21 years, died at 67.

★ ★ ★

The Quebec Aces of the American Hockey League announced Thursday night that Dollard St. Laurent has signed his contract for this season.

★ ★ ★

Hayward A. York of Birmingham recently posted a hole in one on the No. 5 hole of Pontiac Municipal's north course. He used a three wood on the 190-yard hole and had a 4 for the round.

Weather Forecast May 'Foul' Series

SAN FRANCISCO (AP) — Neither rain, nor hail nor wind, all of which were predicted for today's scheduled sixth World Series game between New York and San Francisco, could prevent manager Ralph Houk from forecasting a world championship for his Yankees in six games.

★ ★ ★

Undaunted by manager Alvin Dark's choice of Billy Pierce as the Giant pitcher and cognizant of the veteran left-hander's 12-0 record at Candlestick Park, Houk confidently expected the Yankees to wrap it up today — weather permitting — behind the lefthanded slants of Whitey Ford. The Yankees lead the series, three games to two.

"I expect Ford to beat "Pierce," Houk said yesterday picking Whitey over Bill Stafford, although it was the young right-hander's turn in the pitching rotation.

"I'm going with my best and let the chips fall where they may," added Houk. "I'm not underestimating Pierce. It will be a tough battle but Whitey should win. He's fit and ready. I know Pierce hasn't lost here yet. But neither has Whitey. Remember he beat the Giants in his only appearance here."

Houk was referring to the opening game in which Ford scattered 10 hits and won 6-2 with left-hander Billy O'Dell the loser.

The odds-makers supported Houk's victory claim. They have established the Yankees a 13-to-10 choice to win today and a 7-to-2 favorite to win the series.

FAVOR RAIN

The odds were even greater against the game being played today. According to the weather bureau, there was a 90 per cent chance of rain. Warnings of 30 to 45 miles an hour wind have been posted.

U.S. Golfers Regain World Amateur Lead

KAWANA, Japan (AP) — The United States regained the lead from Canada after the third round of the World Amateur Golf Team Championship today as good weather and good scoring returned to the picturesque Fuji course.

★ ★ ★

The Americans, defending the title they won in a runaway two years ago, put together a three-man team score of 211 for the day and a three-round total of 649 to lead the surprising Canadians by two strokes.

Great Britain, paced by Mike Bonallack, took over third place from New Zealand by a 658-660 margin. Scoring is strictly on a scores each day counting towards the team's total.

SUB-PAR GOLF

Dick Sikes, the lanky University of Arkansas senior who has won the U.S. Public Links title twice, posted his second sub-par 69 in three days over the 6,587 - yard par 70 Fuji course to pace the American team.

Former U.S. Amateur Champion Deane Beman of Bethesda, Md. bounced back from a wretched 80 in Thursday's rain and shot a par 70. Billy Joe Patton of Morganton, N.C., and Labron Harris Jr., the U.S. Amateur Champion from Stillwater, Okla., both had 72s.

★ ★ ★

Canada's Gary Cown still held the unofficial individual lead with rounds of 68-71-72—211 to Sikes' 69-76-69—214. Sikes held a one stroke edge over Britain's Ronnie Shade, who fired a course record 66 in Thursday's rain and cold in between rounds of 75 and 74.

Bill Wakeham and Cowan shot 72s to lead the Canadian team today while Mick Weslock had a 75 after going four over par on the first three holes. Bob Wylie skied to an 80 that didn't count in his team's scoring. Canada's total that counted for today was 219, wiping out the six-stroke edge the Canadians held after the second day.

OTHER SCORES

Bonallack matched Sikes' 69 for the combined Great Britain-Ireland team while Alex Saddler contributed a 72 and Martin Christmas a 73 for the team's 214 total. New Zealand needed 218 strokes on a 72 by Ross Newdick and 73s by Stuart Jones and Walter Godfrey.

One other 69 was posted today as scores in general showed distinct improvement. That was a 34-35 by Mexico's Juan Antonio Estrada, who had a 75 and 79 on the first two rounds.

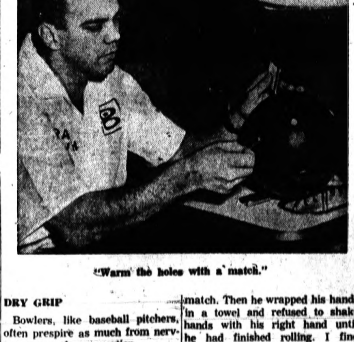
★ ★ ★

Estrada helped boost the Mexican team into fifth place with a 54-hole score of 672. Formosa and Australia were tied with 674, Japan and South Africa had 678 each and Argentina 680.

★ ★ ★

The Canadian team's troubles started early when Wakeham missed his bus from the hotel and arrived just in time to avoid being disqualified for being late. Cowan hooked his drive from the first tee and lost his ball and Weslock drove out of bounds on the second hole.

TIPS FROM CHAMPS by RAY BLUTH



"Warm the holes with a match."

DRY GRIP

Bowlers, like baseball pitchers, often prespire as much from nervousness as from exertion.

This can prevent getting a good grip on the ball. Good bowlers use the hand dryer on the ball return or a towel before getting set to roll.

The great Ned Day was such a bug about dry hands that he washed them in alcohol before a match. Then he wrapped his hands in a towel and refused to shake hands with his right hand until he had finished rolling. I find it helps my grip if I wet my fingers and wipe them on my trousers before inserting them in the ball.

★ ★ ★

I get a better finger grip if I warm the holes with a lighted match.

DEFENSE CLICKS — Pat Stapleton, Boston defenseman (center), tangles with Gordon Berenson as the Montreal winger tries to score in the first period last night. Warren Godfrey, Boston defenseman, and goalie Bob Perreault watch the outcome. The Bruins won, 5-0.

Montreal Stopped by Perrault

Boston Blanks Canadiens

BOSTON (AP)—Balding, barrel-shaped Bobby Perreault is a comic in the grim business of hockey goaltending.

But perennial champion Montreal is not laughing after Perreault blanked the Canadiens 5-0 Thursday night, launching a new season for Boston which finished a distant last in the National Hockey League a year ago.

★ ★ ★

The little, round, 5-foot-7, 184-pound Perreault turned aside everything Montreal firepower could muster, making 27 saves.

One stop particularly on which Perreault made a frantic headlong dive and speared a wicked slap shot by Canadiens' rookie Red Berenson had the 13,736 fans in an uproar.

At 31, Perreault is the youngest regular goaltender in the NHL along with Chicago's Glenn Hall. Yet in 12 years of professional hockey he's appeared in just 10 major league games—and turned in three shutouts.

Despite his stubby build, Perreault moves quickly, guarding the goal in a swarming fashion like Toronto's Johnny Bower.

Boston got two goals apiece from Johnny Bucyk and Doug Mohns and the other from Irv Spencer, acquired from New York.

Montreal: Goal-Plante. Defense-Johnson, Talbot, J. C. Tremblay. Gauthier Fontaine. Forwards-Beliveau, Geoffrion G. Tremblay, Provost, Goyette, Berenson Hicke, Richard, Moore Rousseau, Backstrom, Marshall.

Boston: Goal-Perreault. Defense-Green Mohns, Godfrey, Stapleton. Forwards-Oliver, Connelly, Bucyk, McKenzey, Williams, Pronovost, Pennington, Hicks Spencer, Burns, Typpassini.

Referee-Udvari. Linesmen-Wiebe, Pave Hugh.

First Period-1, Boston, Bucyk 1 (Oliver Connelly) 4:28. 2, Boston, Mohns (Bucyk, Oliver) 9:31. Penalties-Geoffrion (2), Bucyk 1:31, Godfrey 9:31, Provost 13:15, Oliver 14:33, Goyette 16:14.

Top Rangers 2-1 on Goals in 3rd Period

MacDonald, Young Score; New York Hits in 2nd

NEW YORK (AP)—The Detroit Red Wings, shut out for two periods, swept from behind in the third period Thursday night and defeated the New York Rangers 2-1 in the National Hockey League season's opener for both teams.

★ ★ ★

Defenseman Howie Young and Parker MacDonald got the Red Wing goals, wiping out the 1-0 advantage the Rangers built on Dave Balon's second period score.

★ ★ ★

Detroit, expected to battle it out with New York for the last playoff position this year, had a wide edge in play most of the way.

Only some excellent goal tending by the Rangers' Gump Worsley held them in check. He turned back two solo rushes by Bruce MacGregor and made another fine save off Norm Ullman.

SCREEN SHOT

The Red Wings wouldn't be denied, however, and tied it in the second minute of the third period when Young rifled in a 25-foot screened slap-shot. MacDonald was credited with the winning goal when he steered in Doug Barkley's slap shot from the point at 11:09.

★ ★ ★

The Red Wings' Terry Sawchuck, wearing a mask for the first time, would have had a shutout but for Balon's second period goal. Each team was a man short when Balon and Rod Gilbert broke through the Detroit defense and rushed in together. Gilbert's quick pass to Balon caught Sawchuck out of position and Balon flipped it in from point blank range.

Detroit: Goal—Sawchuk. Defense-Pronovost, Young, Gadsby, Barkley, Gesgan. Forwards-Delvecchio, McDonald, Howe, Ullman, Smith Bisaiuk Faulkner, Johnson, MacGregor, Poulenze, Jeffrey.

New York: Goal-Worsley. Defense-Harvey, Lesuyes, Howell, Cahan, Neilson. Forwards - Ingarfield, Balhatte, Prentice, Gorych, Gilbert, Balon, Hextiell, Hebenton, Ratelle, Schinkel, Henry, Hampson.

Referee — Buffey. Linesmen — Armstrong, Hayes.

First Period—None. Penalties—Hebenton, 2:32; Balhatte, 7:37; Howell 8:00; Jeffrey 8:00; Howell 11:17; Faulkner 15:49.

Second Period—1, New York, Balon 15 (Gilbert) 2:30. Penalties—Pronovost, 5:18; Ullman 6:12; Balhatte 6:36; Young 11:22.

Third Period—2, Detroit, Young 1 (Delvecchio) 1:40. 3, Detroit, MacDonald 1 (Barkley, Delvecchio) 11:09. Penalties—None.

Saves:

Sawchuck	4	10	7—21
Worsley	15	9	3—27

Attendance—14,815.

Industrial Golf Meet on Sunday

Five teams, led by defending champions Pontiac Motor, will compete Sunday in the annual Pontiac Industrial Golf tournament at Pontiac Country Club.

★ ★ ★

The Pontiac Motor team, winners three straight years, will be made up of Ed Wasik, Bud Green, Norm Thompson and Dan Bruske. Last year's team was comprised of Jim Hanes, Bruske, Thompson, and Red Fender with Thompson taking tournament medal honors.

The winning team will gain the Knudsen trophy.

BATTERING RAM — The Los Angeles Rams, always one of the most explosive offensive teams in pro football, have another powerful runner in Dick Bass among the leaders in NFL statistics. Bass will lead the Rams against the Detroit Lions Sunday at Tiger Stadium. Except for bleacher seats which will go on sale at 11:00 a.m., the game will be a sell-out.

Not So Anxious U-D Faces Kentucky

DETROIT (AP)—No longer is the University of Detroit so anxious to climb into football's big time. All the Titans want to do is win a game, beat anybody.

★ ★ ★

Kentucky, a rival scheduled when Detroit was a bit more ambitious—and successful — invades Titan Stadium tonight. Licked by Army, Navy, Michigan State, Tulane as well as Kentucky in respectable records, the Titans now realize they perhaps overextended themselves.

So far this season, the Titans have been beaten by Boston College, Xavier (Ohio) and New Mexico State. Their losing streak continued from last year, is at five.

HEAVY FAVORITE

Kentucky, like Detroit, goes into the game without a victory. But the game appears to be a mismatch anyway. The Wildcats have tied Florida State and lost close games to two powers in its Southeastern Conference, Auburn and fifth-ranked Mississippi.

This could be considered the battle between the thin blue line and the thin red line. Kentucky is known in the southeast as the thin blue line because it has only 31 players on its roster. Another 30 or so quit last spring when Charlie Bradshaw took over as head coach and tried to toughen up the Wildcats.

Detroit has had a thin red line all season with 10 touchdowns scored against it.

The second meeting between Detroit and Kentucky shapes up as an aerial show between two sharpshooters named Jerry. Jerry Gross, the Titans' quarterback, has Detroit third in the nation in total passing offense. But Gross' receivers have trouble holding onto the ball.

Jerry Woolum, Kentucky's ace passer, aims for one of the best ends in the nation, Tom Hutchinson.

OTHER GAME

The Kentucky-Detroit clash is one of three major games on the Friday night college football schedule. In the others, Mississippi State is at Tulane and UCLA bidding for a place in the top ten rankings, entertains Colorado State University.

The Uclans made an impressive season's debut last week when they spilled Ohio State, then the nation's top-ranked team, 9-7 after three times stopping the Buckeye attack on the one. The upset, enough to topple Ohio State from first to tenth, still wasn't enough to get UCLA into the AP's top ten.

Eight of the top ten will be in action on Saturday, with only fourth-ranked Southern California and Mississippi idle.

Alabama, the defending national champion and No. 1 again after the Buckeye bounce, should win as it pleases against Houston at home. Texas, No. 2, plays its annual southwest war with Bud Wilkinson's Oklahoma Sooners at Dallas, and third-ranked Penn State seeks its fourth straight victory against once-beaten Army at West Point.

Louisiana State, ranked sixth, has a night game with unbeaten Miami, and seventh-ranked Washington plays Oregon State at Portland. Baylor goes against eight-ranked Arkansas, ninth-pegged Purdue faces Miami of Ohio, and Ohio State takes out its UCLA disappointment against hapless Illinois, which hasn't won a game since 1960.

Some of the other key Saturday pairings include:

Cornell at Navy, Princeton at Penn, West Virginia at Pitt and Boston College at Syracuse in the east; California at Duke, Texas A&M at Florida, Tennessee at Georgia Tech and Maryland at North Carolina in the south; Missouri at Kansas State, Michigan at Michigan State, Northwestern at Minnesota, North Carolina State at Nebraska, and Notre Dame at Wisconsin in the midwest; Oregon at Rice, Texas Tech at TCU and Air Force at Arizona in the southwest; Utah at Brigham Young, Utah State at New Mexico and Stanford vs. Washington State at Spokane in the far west.

Scalpers Asking, Getting Top Prices

Series Malady Hits Bay Area

SAN FRANCISCO (UPI) — San Francisco suffered from an acute case of World Series fever today, despite rain, wind, scalper's-price tickets and the fact that the Giants are trailing the New York Yankees in victories, 3-2.

★ ★ ★

The city, deluged yesterday by a day-long rain that continued through the night, bulged without-of-town visitors who overflowed hotels, motels and rooming houses.

Many suburban residents who commute to San Francisco have reserved rooms and are spending the weekend in the city.

Scalpers were reported asking — and getting — $50 for a single reserved seat and $150 for a pair of box seats for today's scheduled game.

Most television shops reported that all their rental sets have been gobbled up. Schoolteachers complained that transistor-bearing students hurry through their classes to get to the corridor and their radios.

★ ★ ★

Amid the baseball frenzy, few sports fans realized that the Western Hockey League season opened in San Francisco Wednesday night, the college and professional football teams were both in action this weekend, and a middleweight title fight is scheduled in town next Tuesday — featuring Dick Tiger and Gene Fullmer.

CAN'T LISTEN

A former football coach said he has quit listening to the games. "I quit coaching because I got ulcers," he said. "Now I find that I get so nervous listening on the radio that I've just had to quit that too. It's a terrible thing."

One grandmother reported an unsettling dream: "It was the seventh game of the series. The Giants were leading, 7-6, with Yogi Berra at bat as a pinch-hitter . . . I woke up screaming. I don't know how the game came out."

And at Reno's, a bar where sports celebrities gather, the mood was solemn.

"There's nothing funny about this series at all," said the bartender, "everybody in town is taking it as seriously as a civil war."

Dales Face Stiff Test

By The Associated Press

Not all th e weekend's football interest will be captured by the Michigan-Michigan State game.

★ ★

There are 11 other contests starting with tonight's Kentucky-University of Detroit game in Detroit.

For the small colleges, the big game is unbeaten Hillsdale's invasion Saturday of Southern Illinois.

The Dales, looking for victory No. 5, moan about Southern Illinois' great size — a school of 825 students playing a school with an enrollment of 16,500. But out of its 825 students, Hillsdale has managed to find about 80 football players, 11 of them quarterbacks.

Albion steps out of the MIAA in quest of its 15th straight victory in a Saturday visit to Anderson (Ind).

★ ★ ★

There are two MIAA games Saturday — Alma at Adrian and Olivet at Hope. The other MIAA member, Kalamazoo, plays at Ferris.

In other games, Michigan Tech is at Moorhead (Minn) State, John Carroll at Wayne State, Illinois State at Central Michigan, Eastern Michigan at Baldwin-Wallace (Ohio) and St. Norbert (Wis) at Northern Michigan.

Never Bend Top Colt

NEW YORK (AP) — The Cain Hoy Stable's Never Bend took the lead in the latest poll of Thoroughbred Racing Association (TRA) handicappers today as the leading 2-year-old colt of the season. Never Bend received 248 points, compared with 244 for Rex C. Ellsworth's Candy Spots in the weekly poll.

Harrier Teams Prepare for Inter-Lakes Meet

With the advent of warm, sunny weather yesterday, six county cross country teams prepped for the upcoming Inter-Lakes Conference meet next Thursday with dual league meets.

★ ★ ★

Walled Lake, Waterford and Pontiac Northern posted victories over Berkley, Southfield and Farmington respectively. In other area meets, Orchard Lake St. Mary and Kettering thinclads produced wins over Detroit Servite and Clarkston, respectively.

Three of the teams used the same pattern in winning.

Pontiac Northern saw Farmington's Dennis Hunt take first place with a record breaking time of 11:24. The Huskies, however, took the next five slots led by Gary Cobb to win 20-36 and even their season's log at 3-3. Farmington won the reserve meet 25-36.

Walled Lake also took the second through sixth spots in its 20-40 win over Berkley. Ron Pulford of Berkley ran the two-mile course in 11:00 to finish first. Don Balkwell was 24 seconds behind Pulford for second place. Walled Lake is now 6-2 for the season in dual meets.

The day's best time was recorded by Detroit Servite's Leon Jasionowski who covered two miles in 9:53. Again, the winning team captured the next five positions with St. Mary's Bill Donahoe the second finisher. St. Mary's won 25-30, and now has a 2-4 mark for the season.

SKIPPERS WIN

The other Inter-Lakes dual meet saw Waterford nip Southfield 25-31. The winners' Jim Mercer took first place with an 11:01 clocking followed by teammate George Ballingall. Southfield's Doug Craig was third. The win enabled Waterford to square its log at 3-3-1 for the season.

★ ★ ★

Kettering's Captains raced around their slow course to capture five of the first seven spots and a 19-40 victory from Clarkston. John Popovich took first place for the winners with 11:20. The Captains are now 4-1.

Major Tests Slated for Big Ten Elevens

By The Associated Press

At least four Big Ten football teams should find out just how good they are in rugged conference tests tomorrow.

The two games which should reveal this are Northwestern at Minnesota and Michigan at Michigan State.

Iowa could run into trouble at Indiana, especially if injured quarterback Matt Szykowny is unable to play. His replacement is an 18-year-old rookie, Bob Wallace.

Wisconsin could be surprised by Notre Dame's visit. At least the Badgers figure to have their toughest game thus far after romping over New Mexico State and Indiana.

Ohio State should find little trouble in spoiling Illinois homecoming, and ninth ranked Purdue could have fun entertaining Miami although the Ohio school is unbeaten in four starts against teams on its own level.

Boiling the schedule down, the real revealing games should be those at Minnesota and Michigan State.

Minnesota is unscored on, holding Missouri to 94 yards on the ground in a 0-0 deadlock and Navy to a minus 31 in a 21-0 triumph.

Northwestern is the nation's major collegiate yard - gaining leader. The Wildcats have piled up 493 yards in the air and 501 on the ground in crushing South Carolina and Illinois.

Sophomore quarterback Tom Myers has hit on 27 of 35 tosses for 383 yards and three TD's, and halfback Paul Flatley has caught 13 aerials.

The oddsmakers favor Northwestern by three points.

Illinois, after being clubbed by Washington and Northwestern, now has a 12-game losing streak. This week it lost its sophomore prize, center-linebacker Dick Butkus, with a torn knee ligament.

Ohio State was dropped from No. 1 to No. 10 in the Associated Press poll after losing to UCLA and will be eager to move up the national ladder.

Illinois is listed as a 33-point underdog, one of the biggest betting spreads ever given in a game between Big Ten teams.

Wisconsin is a seven point choice over the Irish, who were spilled 24-6 by Purdue last week. Iowa, knocked off 7-0 by Southern California, is 13 over Indiana. They give Purdue 27 over Miami of Ohio.

Teachers Are Students in Proud Lake Program

Over 100 teachers from Southeastern Michigan are learning about conservation education today at Proud Lake recreation area.

The session is part of teacher conferences scheduled the last two days. Included in the program will be shooting, casting, stream improvement, conservation of natural resources and lectures.

Table Tennis Results

Capitol Barber took the lead in the Pontiac Table Tennis League Thursday night by defeating Kennerly's Service, 5-1.

Leon Hibbs, current city tennis champion, was defeated two games to one by Sid Britton, city table tennis king, 21-19, 18-21, 23-21.

The standings:

TEAM	W	L	TEAM	W	L
Cap. Barber	11	1	Pepsi Cola	6	6
Prostop	10	2	Midtown	5	7
Dorris Rlty.	8	4	Nutrilite	5	7
Francis Fuel	8	4	Buettner's	4	8
Kennerly's	7	5	Club 99	4	8
Seaman's	7	5	City Kitch.	3	9
Crocker's	6	6	A & W	1	11

Pistons Are Sacked

GREENSBURG, Ind., (UPI) — Jack Twyman scored 24 points and Oscar Robertson 25 as the Cincinnati Royals whipped the Detroit Pistons 136-122 in a National Basketball Association exhibition last night. Willie Jones topped the Pistons with 19.

Fullmer's Challenger Fights 4 Fast Rounds

SAN FRANCISCO (AP) — Dick Tiger went four rounds with speedy Willie Turner in a fast workout Thursday as the Nigerian challenger worked out for his middleweight championship fight with titlist Gene Fullmer next Tuesday.

Tiger belted Turner frequently and shook him with a hook to the head and a right to the body.

Fullmer, meanwhile, went two rounds each with Kelly Burden and Juan Sanehez. The Champion seemed stronger than at any of his previous workouts as he connected repeatedly with powerful body punches.

Dodgers' GM Defends Field Manager

SAN FRANCISCO (AP)—Buzzy Bavasi, general manager of the Los Angeles Dodgers, staunchly defended Manager Walter Alston today despite the Dodgers' costly defeat in the playoff for the National League pennant.

★ ★ ★

At the same time, Bavasi called upon coach Leo Durocher to explain remarks attributed to him in which he criticized Alston's handling of the team in the final playoff game with the San Francisco Giants at a dinner party of Dodger brass after the game. Neither Bavasi, Alston nor owner Walter O'Malley was present.

Durocher was quoted as saying he would have won the pennant if he had been manager, a statement he later denied.

WILL LISTEN

"He's got to prove to me he didn't say it," said Bavasi, here for the World Series. "I'm willing to listen. I'm not saying he said it, but he'll have to make liars out of those who said they heard him.

"A loyal coach never would have made remarks like that but would have defended his manager against those who attacked him."

Bavasi said he had not been in touch with Durocher since the close of the season but intended to talk with him after the World Series.

★ ★ ★

The big showdown on the Dodgers managerial situation will come next week when O'Malley returns from a hunting trip in Wyoming. Then he will sit down with Bavasi and vice president Fresco Thompson to discuss Alston's status for 1963. Alston already is home at Darrtown, Ohio.

"Alston has been the fall guy for the team's collapse, in some quarters," said Bavasi. "I think he did a good job. So maybe he did make a mistake in the last inning of the last game. Are you going to crucify a man for one mistake?

WASN'T PLAYING

"Was it Alston who was picked off first base? Was it Alston who was thrown out at the plate three times in the last week? Was it Alston who was shut out three times in the closing week? Could Alston be blamed because we had five .300 hitters going into the last week and wound up with only two?

"After all, this is O'Malley's ball club. The decision is his to make. If O'Malley thinks a change is necessary for public relations, it is up to him. This is his club. I can only make my recommendation."

Bavasi denied reports of a rift with O'Malley and laughed off reports he would go to another team.

Boys to Show Talents in Punting, Passing

Pontiac area grade school boys from seven through 11 can pit their football skills against thousands of other boys throughout the nation in the second annual Punt, Pass and Kick competition Saturday, November 3, at Wisner Stadium.

The competition will culminate with a White House reception and an appearance at the National Football League Championship game for the ten top winners.

Sponsored nationally by the Ford Motor Company and the National Football League, the Punt, Pass and Kick Program (P P & K) is sponsored locally by John McAuliffe.

Boys throughout the nation will compete on the same day for warm-up jackets, football helmets and autographed footballs to be given as first, second and third prizes for each age group or five top winners.

★ ★ ★

Scores will then be compared throughout the state to determine the top five Michigan winners. These scores will determine the most skillful seven, eight, nine, ten, and eleven year old football star in each of the areas covered by the telecasts of the 14 National Football League Teams.

★ ★ ★

Area winners and their fathers will receive all-expense paid trips to a National Football League game in their area, and will compete during half-time to determine the five top Eastern Division winners and the five top Western Division winners.

These ten boys will visit Washington and the White House, accompanied by their parents, and then will go to the site of the NFL Championship game, for half-time competition to determine the five National winners.

Any ties will be played off on the day of competition and ties for top spot in the state and area standing will be played off at special contests. State winners will receive trophies, and area winners will receive complete junior-type football uniforms of the NFL team in their region.

Mobil All-Star Classic in Swing

Not Auto Parts—Bowlers

You can't tell an automobile part from a team in the Westside Mobil All-Star Classic at 300 Bowl.

Auto Service station dealer Ralph Mazza has undertaken complete sponsorship of the 16-team league, which started with a draft of 120 players whose averages were 185 or better.

There are 35 on the 16 teams which are named after auto parts and accessories.

The Tailpipes, team No. 11, made up of Earl Castle, Bill Johns, Don Pennell and Bud Mills are the current leaders with 12 points, followed by the Mufflers (No. 10) with the team of Stan Kurzman, Bob Richards and Paul Karas.

A 4th man on the team is a substitute.

★ ★ ★

Team No. 6, Mobil Tires, made up of George Chicovsky, Don Myers and Bill Smith are in third place with 10 points. The league bowls each Thursday night.

These are the teams, current standings and high league averages thus far:

Pontiac Travel Classic in Second Week

Three winning teams will take on three losing sides Sunday as the new Pontiac Traveling Classic League moves into its second week of competition.

Two of the winners, Airway and Wonderland, will play host to Cooley and Westside, respectively, at 3 p. m. while the other triumphant team 300 Bowl will visit Huron at the same hour.

The league was formed following a successful summer tryout. It has a 30-week schedule. Each team has a seven-man roster and five active competitors. Each man rolls two games against his opponent.

JOHNS

Scoring is based on the National Bowling Association system of points. One point for each game won and a bonus point for each 10 pins over 200. All league bowlers must be patrons of Pontiac Proprietors Association bowling houses.

The first Sunday's action saw Bill Johns total 10 points to lead 300 Bowl past Westside 17-11. Johns rolled 275 and 215 while teammate George Chicovsky added four points with games of 234 and 205.

Westside had a 245 effort from Stan Kurzman and a 228 from John Casper.

The closest match of the day ended 11-9, Airway nipping Huron Bowl. Airway received games of 246 and 227 from Jerry St. Souver and Carl Van De Moortell, respectively. Huron's Arley Shefler rolled a 246.

Wonderland swamped Cooley Lanes, 9-2. Bud Mahrone had a 224 and Wayne Tosh a 204 for the winners while Cooley's best effort was 202 by Larry Angott.

OXBOW TEAM

In other league action in the area, the Oxbow Pavilion team is leading the 300 Bowl Nite House League with a 21-3 mark. A 2673 team high series helped the Oxbow cause. The high team singles score went to No. 18 with 956.

Edward Hummel had the high individual series at 583 and R. Underwood's 232 was the high single game.

PONTIAC MOTOR

Also at the same alleys, the Pontiac Motor Inter-office League had 18 bowlers go over the 200-pin mark. T. Lawrence at 247, C. McIlhargie at 230 and B. Schoolmaster at 227 topped the list.

WESTSIDE

In the Westside Classic competition, Dale Cook Construction is riding a seven-game cushion over its nearest opposition, Airway Lanes. The leaders have taken 34 of 40 games. Prescription Department, Inc., and Colonial Lounge at 25-15 are in third place.

Top individual efforts last Monday night were Don Martell's 265 game and 611 series, Dick Carmichael's 663 series, John Casper's 646 series, and Jerry Perna's 636. In all, there were 62 games of 200 or better and 13 series that averaged at least 200.

Airway bowling news includes the Four Towns Methodist Church League where Bill Thompson picked up the difficult 7-10 split while rolling a 203 actual. Other big news in the same league was a 268 actual for Carl Hoppenrath Jr., the highest single game this year. Hoppenrath finished with a 614 series.

LUTHERAN LEAGUE

In the Lutheran Mixed League, Fred Troeger rolled a 246 actual. Lilah Liskey fell only three pins under him with a 243 effort in the Airway Jets League.

★ ★

In Airway's Pontiac Motor Tempest loop, W. Schrieber produced a 246 with his nine-pin handicap and H. Rynerson's 16-pin handicap boosted him to a 254 total. W. Edwards rolled a 534 actual series, but he finished with a 666 with handicap. A Hudson's 548 series jumped to 620 with handicap.

The Pontiac City Employes League saw Ralph Irish rolling a 221 actual. Jim Berg hit a 228 in the Pinbusters Mixed League.

Install Signals at RR Crossing

Connected to Flasher at Franklin Road

While most attention has been focused on the Oakland Avenue Grand Trunk Western Railroad crossing near Sanderson Street in recent weeks, the city electrical department has been quietly completing a major project at the Franklin Road crossing.

* * *

Roy Hetherington, electrical department superintendent, has announced that installation of traffic signals interconnected with railroad flasher lights has been completed.

In addition, high intensity street lights have been installed to fully illuminate the crossing area.

* * *

"The net result should be greatly increased safety for persons using this crossing," Hetherington said in his report to City Manager Robert A. Stierer.

The improvement was hailed by commissioners and Mayor Robert Landry as a "fine job and great safety factor for our citizens" at this week's commission meeting.

Improved safety factors were recommended at the crossing, just west of South Saginaw Street, after a fatal accident occurred there earlier this year.

* * *

The Oakland crossing, which created a need to detour traffic and thus received more publicity, has been completed and is now open to traffic.

Work there involved reconstruction of the road bed.

Lawyers Fight Curb of Papers

Indiscriminate Use of Libel Laws Hit

NEW YORK (UPI) — A new organization of Washington and New York attorneys has attacked what it called "indiscriminate use of the libel laws of Southern states to stifle reporting and discussion of civil rights and integration issues."

* * *

The committee, headed by Theodore W. Kheel of New York, called itself the "Lawyers' Committee on the Alabama Libel Suits."

The committee cited pending $3.1 million in libel actions against the New York Times based on articles about Birmingham and Bessemer; suits totaling $3 million against the Times and five Negro ministers based on a fund raising advertisement in the Times, and a $1.5-million action against the Columbia Broadcasting System based on a 1961 report of voter registration in Montgomery.

Plaintiffs in all the actions are public officials, according to the lawyers' committee.

Juries in Alabama have returned verdicts of $500,000 in two of the actions against the Times and against four ministers who knew nothing about publication of the advertisement, the committee said. One of the cases reached the Supreme Court of Alabama, and the $500,000 verdict was sustained.

As many as one million earthquakes may take place in a single year. Most are harmless, although some cause great damage and loss of life.

Auto Club to Study Single-Car Accidents

DETROIT (UPI) — Frederick N. Rehm, general manager of the Automobile Club of Michigan, says, "single car and ran-off-the roadway accidents accounted for about 30 per cent of all Michigan traffic fatalities in 1961.

"We have to do something positive to lower this figure," Rehm declared yesterday in announcing a regional conference in Flint Oct. 18 to study the problem.

Urge Mental Patient to Give Herself Up

PHOENIX, Ariz. (UPI) Police scoured likely hiding places today and friends appealed to Winnie Ruth Judd to give herself up on the condition she could tell her story to the public.

Detectives conceded they had no concrete leads to the whereabouts of the 57-year-old mental patient who fled from the Arizona State Hospital Monday.

It was the seventh escape for Mrs. Judd, who was committed to the institution in 1932 following her conviction of murdering her two roommates, dismembering one of the bodies, and shipping both to Los Angeles in a trunk.

A Los Angeles law firm which represented her in the 1931 extradition proceedings following her original arrest appealed to her to surrender.

Waco, Tex., is named for the Huaco Indians, the original inhabitants of the area.

Board to Get New Budget

Waterford Township Supervisor Elmer Johnson said today he expects to have a proposed 1963 budget prepared for presentation to the Township Board Monday.

This will allow board members two weeks to study the budget prior to the Oct. 29 public hearing.

Regardless of what changes may be incorporated into the proposed budget between Monday and its adoption by the Township Board, taxpayers will pay the same total tax rate as a year ago, $73.59 per $1,000 assessed valuation.

The 1962 township millage rate was established as 1.42 last month by the Township Board which amounts to $3.17 per $1,000 as assessed.

This represents an increase of .32 mills over the 1961 rate of $2.85 per $1,000 as assessed.

This local millage increase balances out a decrease of .32 mills in the county and school tax rates.

Await Clarification by High Court on School Prayer Ban

BACKGROUND OF THE NEWS

WASHINGTON (AP) — The Supreme Court may clear up by next July some of the confusion over what prayers, if any, may be said in public schools or whether Bible verses may be read in the classrooms.

Those questions were not answered in last June's historic decision declaring unconstitutional a prayer supplied by state officials for use in New York State public schools.

Many people interpreted this as an outright ban on prayer in the schools and it brought one of the angriest public outcries the court has faced in recent years.

A few weeks ago Justice Tom C. Clark departed from the custom of justices not commenting on the court's rulings and expressed dismay at what he called misunderstanding. All the court decided, he said, was that government cannot take part in the establishment of religion. It was a 6-1 decision and Clark joined in the majority view.

TRY AGAIN

The high tribunal agreed this week to tackle once more this emotion-laden issue of separation of church and state. Specifically, the court will hear sometime in the months ahead appeals from two lower court decisions.

★ ★ ★

One appeal is by Pennsylvania officials from a decision by a three-judge federal court that the state law requiring Bible reading in public schools violates the U.S. Constitution.

MOTHER-PROTESTS

The other appeal is by an atheist mother of an atheist son who contends that a Baltimore, Md., school board regulation calling for opening of school each day with Bible reading and recitation of the Lord's Prayer is unconstitutional.

★ ★ ★

Both the Philadelphia and the Baltimore practices have been attacked despite the fact the children are not required to participate. They may be excused with written permission from a parent or guardian.

'LOSS OF CASTE'

Mrs. Madalyn E. Murray, whose son William J. Murray III is now in the 11th grade in Baltimore, told the court in her appeal that her son's nonparticipation in the exercises caused him "loss of caste with his fellows, he was regarded with aversion, and subjected to reproach and insult."

★ ★ ★

The board's rule says "each school, either collectively or in classes, shall be opened by a reading, without comment, of a chapter in the Holy Bible and/or the use of the Lord's Prayer. The Douay Catholic version may be used by those children who prefer it . . ."

LIKE PENNSYLVANIA

This is somewhat similar to the Pennsylvania law, which reads:

"At least 10 verses from the Holy Bible shall be read without comment at the opening of each public school on each school day. Any child shall be excused from such Bible reading or attending such Bible reading upon the written request of his parent or guardian."

★ ★ ★

It is the custom in many Pennsylvania schools to follow the Bible reading with the recitation of the Lord's Prayer. The special three-judge court did not rule on the validity of this prayer recitation, commenting that this was not covered by the state law under attack.

Edward L. Schempp, a Unitarian living in a Philadelphia suburb, brought the suit on behalf of his children, who attended Abington Township High School.

Pennsylvania and Abington officials, in appealing, said:

"It is of paramount importance to the parents and teachers of this nation to have the Supreme Court determine whether the Constitution requires that none of the students shall be allowed to listen to the Bible being read without comment simply because one family, whose children need not attend the reading, do not want others to listen."

GREATER IMPACT

The answers to these appeals could have a greater impact across the nation that even last June's decision which focused on the New York prayer.

★ ★ ★

The high tribunal threw more confusion into the issue of separation of church and state this week in refusing to review a decision that Oregon may not provide free text books to church schools.

This didn't mean, however, that the court necessarily agreed with the Oregon Supreme Court in its reasoning or conclusions.

But, without comment, the justices let stand a decision that contrasts sharply with a 1930 Supreme Court decree upholding a Louisiana law which provides for nonreligious textbooks free to children in church-run schools as well as public schools.

The Oregon ruling also contrasts sharply with a 1947 Supreme Court decision upholding legislation in New Jersey providing bus transportation for parochial school pupils.

There have been two other major Supreme Court rulings dealing with the question of schools in recent years. One was that religious instruction on public school property during released time violated the Constitution. The other was that it is not unconstitutional when students are released for religious instruction off school property during school hours.

Will Bar Kisser of President

BUFFALO, N. Y. (AP) — A woman who raced up and kissed President Kennedy during his 1960 campaign has been barred from the Niagara Falls airport where Kennedy will land Sunday en route to Buffalo on a political visit.

★ ★ ★

The Secret Service in Buffalo made the ruling after Mrs. John S. Kruk, 32, wife of an army lieutenant colonel, asked its permission to have the President autograph a picture taken of her kissing him on Sept. 23, 1960. The picture received national attention.

Mrs. Kruk and her husband had been invited by Mayor Chester A. Kowal of Buffalo to sit with him during Kennedy's reception at Niagara Falls Municipal Airport.

The Secret Service gave no explanation of its decision.

Five Children Burn to Death in Ozarks

HARTVILLE, Mo. (UPI) — Five children burned to death early today in a fire at their home in the tiny Ozarks Mountain community of Norwood, the Wright County sheriff's office reported.

The victims were identified as children of Noble Smith.

Initial reports indicated Smith and his wife had left the children alone while they rushed another child, suddenly stricken ill, to a hospital. The blaze broke out while they were away.

Congo Asks Tshombe to Government Session

LEOPOLDVILLE, the Congo (AP) — The Congo radio announced Thursday interior Minister Cleophas Kamitu has sent a written invitation to President Tshombe of Katanga asking him to a government meeting in Leopoldville net week.

It said the meeting will be Oct. 16-21 and at it the Congolese premier, Cyrille Adoula, will present a new federal constitution for the Congo.

Students Should Divide Thoughts

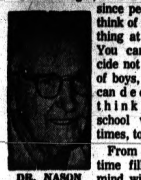
Romance Can Intrude on School Work

By LESLIE J. NASON, ED. D., Professor of Education, University of Southern California

Dear Dr. Nason: I am 13 years old and have what to me is a serious problem. How can you think of boys and think about your school work too?

Nancy, Waterloo, Iowa

You are right, it is a problem since people can think of only one thing at a time. You cannot decide not to think of boys, but you can decide to think about school work at times, too.



DR. NASON

From time to time fill your mind with plans on how you are going to study some subject — say with ideas like reading the book, reciting back what you have learned to yourself, drawing maps and writing reports, the thoughts of boys will be driven into the background long enough to get some schoolwork done.

★ ★ ★

Dear Dr. Nason: I am thinking of studying business law under the university extension plan. How do you feel a woman of 43, with high school and business school education, with children in late teens and college would fare? I would like to work in a law office. G. H., Jonesboro, Ind.

I know many women of your approximate age who are successful in returning to school. The country needs the help of stable individuals with well trained minds. I suggest, however, that you make inquiries and lay out a careful program of training for the type of position you hope to obtain. You will lose too much valuable time if you start without a plan.

★ ★ ★

Dear Dr. Nason: Can you possibly add to your discussion on "underachievers?" Have you some practical suggestions for using methods which have proven successful for you? Everything you stated holds true for our son. We have tried a psychologist, a tutor and personal instruction on outlining and organizing material — all to no avail. H. S., Ballston Spa, N. Y.

Perhaps your approaches have been to give him help with his immediate problems. What he needs is a better understanding of all of the skills of learning.

I suggest that you get a copy of "You Can Get Better Grades." Not only have him read the booklet but find a teacher or some good student to study the material with him and help him develop a plan of action for more successful schoolwork.

★ ★ ★

Dear Dr. Nason: Our 16-year-old son entered the 10th grade this September but he still does not know how to study. It's pathetic how he flounders about. He's so busy with daily assignments that the evening is given over to frantically "getting through" before bedtime.

He is sincere and earnest. Can you give him some idea as to HOW to go about studying? M.M., Salt Lake.

Encourage your son to make plans in advance on the over-all way that he will study each course.

Five minutes spent before the evening meal planning the evening's work will help avoid much of the confusion when study time comes.

Red Troops Parade

BERLIN (UPI) — Soviet, East German and Polish army units ended their joint Battle coast maneuvers with a parade in Szczecin (Stettin) Tuesday, the East German news service ADN reported today.

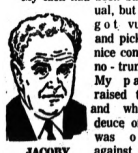
The Bantu languages, of which Swahili is one, blanket most of the southern half of Africa.

JACOBY ON BRIDGE

By OSWALD JACOBY

The unlucky expert was holding forth on the bad luck that seems to haunt him Here is his sad story:

"My luck had been bad as usual, but I finally got vulnerable and picked up a nice comfortable no-trump hand. My partner raised to game and when the deuce of spades was opened against my only four-card suit everything looked rosy. But look what happened to me!



JACOBY

"I played the three from dummy and East went into conference with himself. Eventually he played the eight and from then on my cause was hopeless. I won with the ten and led a club. East got in with the ace, laid down the king of spades and continued with the four whereupon I lost three spades and two clubs. To add to my troubles the opponents picked up a lay down slam on the very next hand."

East's crucial play proved most effective and is an unusual case where an intermediate card by third hand gains a trick for his side. It could have cost the defense a trick had West opened from certain combinations, but there were more chances that it would gain, as it actually did.

Astrological Forecast

By SIDNEY OMARR
For Saturday

"The wise man controls his destiny — Astrology points the way" —

ARIES (Mar. 21 to Apr. 19): Full Moon stresses need to make adjustments at home and at work. Cycle up. But you need cooperation of one else in situation. Take initiative. Display personal magnetism. Lead the way.

TAURUS (Apr. 20 to May 20): Lunar emphasis on dealing with SECRET DESIRES. Means now you can analyze needs, ambitions. Delve into how far the two are separated. Then close the gap.

GEMINI (May 21 to June 21): Fine for being with harmonious individuals. You learn much. You should relax instead of "pressing." Tonight good for social affair. Avoid tendency to get off in corner by yourself.

CANCER (June 22 to July 21): Review "campaign" — either one which outlines personal goals, or advertising public relations accounts. Day to apply lessons learned from recent experiences. Check facts, figures.

LEO (July 22 to Aug. 21): Being timid about your own capabilities is mistake. Today you must be independent, original, daring. See situation as a whole, not in bits and pieces. Utilize intuition. Your extrasensory perception leads the way.

VIRGO (Aug. 22 to Sept. 22): Be sure your sense of humor is understood. Others may appear "offended," or try to make you appear dense. Best to socialize later. When you can be with one who DOES appreciate Mercurial wit.

LIBRA (Sept. 23 to Oct. 23): Full Moon highlights your need to be diplomatic, get ready to see the best side of persons, events. The more pleasant your own reaction, the more others think of you. Combine TACT and WIT.

SCORPIO (Oct. 23 to Nov. 21): Avoid extremes. Excellent for meeting with those who can improve appearance of your home. Could be "bargain day." Good for shopping, asking questions. Be enthusiastic about efforts of others.

SAGITTARIUS (Nov. 22 to Dec. 21): Romance, travel and variety are emphasized. Also, creative pursuits, including reading. Improving or adding to vocabulary. This happens, perhaps, through family or party games tonight.

CAPRICORN (Dec. 22 to Jan. 20): Good time for remaining close to home, for experimenting with the culinary arts, for entertaining in general. Best to avoid places where one who hears a stroke might make things unpleasant.

AQUARIUS (Jan. 21 to Feb. 19): Full Moon favorably aspects your sign. Means today your mind "wanders." Make it do so along creative channels. Think of places you want to go. Then begin mapping out program which gets you there.

PISCES (Feb. 20 to Mar. 20): Like Gemini, spread your influence. Exchange thoughts, ideas. Don't be afraid of self-expression. What you believe holds great interest for numerous persons.

Over Columbus Day

Stocks Soften, Trading Slow

NEW YORK (AP)—Stock market prices began to soften early this afternoon in slow Columbus Day trading.

Fractional losses predominated over gains among key stocks.

Many stocks were unchanged and there was no particular selling pressure.

★ ★ ★

Trading was at the slowest pace of the week. Banks and insurance companies were closed. Many Wall Streeters were off on a three-day weekend.

★ ★ ★

Some volatile "growth" issues took sharp losses.

DOWN 4 POINTS

IBM, despite introduction of a new, low-cost computer, was down 4 points in a continued slide. Brokers said, however, that other office equipment makers were adversely affected by the news, citing losses of around a point each by Burroughs and National Cash Register.

★ ★ ★

Elsewhere in the growth category, Polaroid slipped 3 points and Texas Instruments about 2.

Korvette lost 1¼ at 28 on a block of 5,100 shares and widened the loss later.

Automotive stocks were about unchanged except for Ford which dropped a fraction. Wheeling Steel continued on the upside, adding nearly a point.

★ ★ ★

Prices on the American Stock Exchange were mixed with many issues unchanged. Trading was slow. Losses of about a point were taken by Draper and Helena Rubenstein. Fractional gains were made by Scurry - Rainbow Oils Occidental Petroleum and Devon-Palmer Oils. Down were Ambassador Oil and Berkley Photos.

Motorists Warned About Orchard Lake Ave. Work

Pontiac motorists were warned today by Assistant City Manager David S. Teel that traffic may be slowed to one-lane at several places on Orchard Lake Avenue during the next four to six weeks because of water main construction.

"It might be well to avoid Orchard Lake Avenue between Walnut Street and Voorheis Road during rush hours," he noted.

The construction, by Chris Nelson & Son of Royal Oak, under contract to the city, is part of Pontiac's $3.9-million water system improvement project to make way for the use of Detroit water next July.

Workmen today completed laying 16-inch water lines on Mount Clemens Street and Featherstone Road between Paddock and East Boulevard. That project started three weeks ago.

★ ★ ★

"Today the contractors should begin laying 20-inch mains in Orchard Lake and the work is expected to take four to six weeks," Teel said.

"We plan no major detouring of traffic but expect bottlenecks to exist at some places where barricades may limit traffic to one lane."

City officials said the water line work had brought calls from city residents mistaking the line for sewer pipes they were to be assessed for.

★ ★ ★

"This is all part of the water program and has nothing to do with special assessments," Teel noted. "Mains will be laid at various locations in the coming months and we will keep citizens notified of the construction locations as they occur."

Salary Boost Recommended

Drain Agent Raise Urged by Committee

The drain committee of the Oakland County Board of Supervisors yesterday agreed to recommend raising Drain Commissioner Daniel Barry's salary as agent for the Southeastern Sewage Disposal System.

★ ★ ★

If the the board of supervisors agrees, the salary as agent will be increased from $1,200 annually to $4,000 in 1963.

This would be in addition to Barry's salary as drain commissioner, which is paid by the county.

The commissioner's annual salary this year is $12,500. There is a provision in next year's budget to raise it to $13,500.

★ ★ ★

The system agent's salary is paid from public utilities revenues in 14 municipalities in the southeastern section of the county.

The participating communities are Birmingham, Troy, Clawson, Royal Oak, Madison Heights, Berkley, Southfield, Huntington Woods, Oak Park, Pleasant Ridge, Hazel Park, Ferndale and Royal Oak Township.

SEEK HIKE FOR AIDE

The county drain committee also is recommending that Barry's deputy, Robert J. Evans receive $3,000 from the revenues, besides his current county salary of $10,800 a year.

The committee felt that they should receive the salary increases for the amount of work being performed for the 14 municipalities, chairman David R. Calhoun said.

He also is mayor of Huntington Woods, one of the participating communities.

★ ★ ★

"We will explain the committee's stand to the officials of each municipality, and if any municipality has any objections they can be heard through their representatives at the board of supervisors meeting," Calhoun said.

Acid Taste of Whisky Real Thing

Ernest McDaniel, 39, of 23 S. Parke St., got a real belt out of his shot of whisky yesterday.

★ ★ ★

The whisky had sulphuric acid in it.

Pontiac police were at Pontiac Osteopathic Hospital on another case when they ran into McDaniel, who was being treated for a very sick stomach.

McDaniel told them about the drink with an unexpected kick.

★ ★ ★

"Someone tried to poison me," he began, "by putting acid in my whisky." McDaniel explained he was visiting a friend's house where he had left a pint of whisky on an earlier visit.

'BEGAN TO GET SICK'

He opened the bottle and "took a large drink," he said.

Something was wrong. He "immediately began to get sick."

A preliminary hospital analysis of the whisky showed it contained "a large amount" of what laboratory technicians called "a commercial acid, probably sulphuric."

Police sent the whisky to Lansing for a complete analysis and today are looking for suspects.

They sent McDaniel home, after he responded satisfactorily to treatment.

Two Demand Examination in Burglary

Two Pontiac men demanded examination yesterday before Municipal Court Judge Maurice E. Finnegan on charges of breaking and entering in the nighttime.

★ ★ ★

Finnegan scheduled examination on Oct. 17 for Jesse V. Jones, 18, of 478 Wyoming St., and Paul A. Gonzales, 17, of 299 W. Princeton Ave.

★ ★ ★

The two were arrested by Pontiac police early yesterday at Jones' home.

★ ★ ★

They are charged with a burglary last Monday of the South Side Pool Room, 161 W. South Blvd., police said.

Bond was set at $100 each.

Racial Strife Quiets Down

County Police Assist in Mt. Morris Twp.

Oakland County sheriff's deputies and state police from Pontiac last night reinforced local police forces in Mount Morris Township near Flint but there was no further racial violence.

★ ★ ★

Approximately 100 law enforcement officers were on duty in the predominatly white neighborhood, Genesee County Sheriff Thomas Bell reported.

Included were 25 deputies from Oakland County and two officers from the Pontiac state police post.

Lapeer County also sent deputies to the scene to assist local troopers and the Genessee County sheriff's department.

★ ★ ★

Wednesday night more than 200 people congregated around the home where a negro school teacher and two companions have moved it.

INSULTS, BRICKS FLY

Insults and bricks were hurled at the house, according to the teacher, Jerry M. Beatty, 27.

★ ★ ★

Last night, less than 50 persons gathered in front of the home, State police Cpl. Joseph Colnar said.

★ ★ ★

Capt. Leo Hazen of the Oakland County sheriff's department said he expected to lead reinforcements from her to Mount Morris Township again tonight.

Ted Cobb, executive director of the Urban League of Flint, was inside Beattys' home last night and said the atmosphere around the house was farther from violence than earlier this week.

He said the bystanders were clustered in little knots at greater distances from the house.

★ ★ ★

Cobb said police protection had "increased and improved," and that this, plus a "mobilization of community leadership," had helped ease tension.

★ ★ ★

Cobb said representatives of business and labor had spoken out against harassment of the house, and said clergymen had asked members of their congregation not to contribute to the unrest surrounding the house.

Toledo Police Seek 4 Prison Escapees

TOLEDO, Ohio (AP) — A full-scale police hunt was under way today after Toledo authorities found a stolen car they said was used by four fugitives who held up the parents of one of the escaped prisoners yesterday near Adrian, Mich.

★ ★ ★

Detective Capt. Marion Davey said the stolen car was found late yesterday behind a downtown motel and at least one motel guest saw the four men.

He said they apparently split up, with one pair headed downtown and the other toward Union Station. A station wagon was reported stolen from the station a short time later.

Deputies said Neil Hannewald, 21, and three companions, all escapees from Kansas State Prison, held up his parents, Mr. and Mrs. Otto Hannewald, at their home near here yesterday.

★ ★ ★

Officers said the men fled in an auto with $111 taken from the elder Hannewald.

Medics Stress Use of Auto Seat Belts

Vaccinations against smallpox and influenza and the use of auto seat belts were urged today by the Oakland County Medical Society's public health committee.

★ ★ ★

A statement' issued by the society says the committee has been studying the problem of auto safety for the past year.

"It feels that the greatest contribution to the reduction of injury and deaths due to auto collisions can be accomplished through the use of seat belts," it added.

The committee urged physicians of the society to install the belts. It also urged police departments and taxi cab firms to do so.

"Seat belts installed and used in all vehicles on our highways today would conserve some 5,000 lives per year," the statement added.

★ ★ ★

Revaccination every five to seven years against smallpox also was suggested by the group.

"With the recent epidemic scare experienced by New York City, and with the existence of one case of small pox in that city, this committee can envision a similar occurence in the Detroit Metropolitan Area," a spokesman said.

One reason for this contingency, he added, is the fact that "at Detroit's airports there are many jet aircraft landing whose point of origin is outside the continental United States."

Vaccinations may be obtained from local physicians, the committee advised.

Along with the Oakland County Health Department, the committee also urged influenza vaccinations because of a major outbreak expected this winter.

Among especially susceptible individuals, the committee listed doctors, nurses, teachers, pregnant women, elderly individuals, persons with heart and respiratory disease, and others exposed to the general public.

STATE OF MICHIGAN—In the Probate Court for the County of Oakland Juvenile Division.

In the matter of the petition concerning Timothy H. Shaw, Minor. Cause No. 10001.

To Herbert Shaw, father of said minor child.

Petition having been filed in this Court alleging that the present whereabouts of the father of said minor child are unknown and said child has violated a law of the State and that said child should be placed under the jurisdiction of this Court.

In the name of the people of the State of Michigan, you are hereby notified that the hearing on said petition will be held at the Oakland County Service Center, Court House, in the City of Pontiac in said County, on the 30th day of October A.D. 1962, at nine o'clock in the forenoon, and you are hereby commanded to appear personally at said hearing.

If being impractical to make personal service hereof, this summons and notice shall be served by publication of a copy of the same once previous to said hearing in The Pontiac Press, a newspaper printed and circulated in said County.

Witness, the Honorable Donald R. Adams, Judge of said Court, in the City of Pontiac in said County, this 4th day of October A.D. 1962.

TV's Frantic Pace Horrifies Veteran Paul Muni

By BOB THOMAS
AP Movie-Television Writer

HOLLYWOOD — After 53 years as an actor, Paul Muni is trying a new field — filmed television. He doesn't like it.

In a "Saints and Sinners" segment for producer Marc Daniels, with whom he once worked in a revival of "Counselor - at - Law."

Muni, noted for outspokeness, commented: "It is madness. Do you know how many setups (camera angles) we did in one day?

THOMAS

Forty-two! Why, when I was doing 'The Good Earth,' the director, Sidney Franklin, often would get no more than one setup in one day.

★ ★ ★

"Now television is trying to make an hour film in six days. That's not much less than a feature movie. When I made 'I Am a Fugitive' in the early days of sound, it took five weeks. 'Zola' took six weeks. And 'Good Earth' —it took months!

"This pace in filmed television is ridiculous, and I let them know about it. Only Marc would put up with me. Any other producer would say, 'How much can we pay to get rid of him?'"

You get the impression, however, that Muni's bark is worse than his bite. He has the reputation as an interview-hater; yet as he talked in his Beverly-Wilshire Hotel suite he was completely charming.

★ ★ ★

He claims to be in the twilight of his career and "99.9 per cent retired," and his steel-gray hair, mustache and beard give him the real-life aspect of his Louis Pasteur makeup. Yet he has the step and outlook of a young man.

★ ★ ★

Muni and his wife settled last June in a seaside house which he hopes will be his last. He reeled off the number of homes they have occupied in their 42 years of marriage — "Each one we thought would be permanent. This one is it, or so he says.

"You can't tell what will happen," he admitted, "I would like never to work again."

But can he do nothing?

"I am a great nothing-doer," he said. "I am marvelous at it. For the past 15 years I have tried to become more or less retired. But sometimes it is difficult.

★ ★ ★

"For instance, I had no intention of doing another play when Herman Shumlin asked me to read 'Inherit the Wind.' I said I would read it, and it was at my hotel in seven minutes.

"Mrs. Muni and I went to a play the next night and Shumlin came by to talk to me at midnight. I said I thought the play was good and that it had something to say that was important this was at a time when witch-hunting was going on.

★ ★ ★

"But I still wasn't interested We talked some more and about 1 o'clock I suddenly said, 'How much will you pay me?' That was my mistake. He said, 'How much do you want?' And I was stuck."

Muni had two successful seasons in the play, then resumed his so-called retirement. He said he was similarly talked into his 1959 film, "The Last Angry Man."

It could happen again, he admitted with a sigh, but he intends to guard against it.

Peace Corps Offers Assist

SAN JUAN, Puerto Rico (AP) — Peace Corps Director Sargent Shriver said last night the United States is ready to assist other nations planning to set up their own Peace Corps.

★ ★ ★

Such nations can immediately get Peace Corps personnel as advisers, he told delegates to the International Conference on Middle Level Manpower.

Chile and Belgium were the first to announce plans for an International Peace Corps. Honduras, Bolivia, Colombia and El Salvador announced they are prepared to follow suit.

"In giving us a chance to work with you," Shriver told delegates from 43 nations, "you are helping us to preserve the finest qualities of our own tradition."

Shriver said that by December nearly 5,000 Peace Corps volunteers will be working in 40 nations and that in another year there will be 10,000 in 53 countries.

Walker Waits Date of Sanity Tests

DALLAS (AP) — Edwin A. Walker, former major general accused of participating in the University of Mississippi integration rioting, waited today for psychiatrists to say when he will undergo court-ordered sanity tests.

As directed by a federal judge, Walker reported last night to Dr. R. L. Stubblefield at Southwestern Medical School here. They talked about 20 minutes. Then Walker and his lawyers left with instructions for him to return whenever Dr. Stubblefield directs.

Stubblefield, a defense choice for the mental examination, said he awaits formal notice that the government has named a Washington, D. C., psychiatrist, Dr. Winfred Overholser, to help conduct the tests. The selection of Dr. Overholser was announced yesterday.

"We will decide what is a reasonable psychiatric examination and Walker then will be given 24 hours' notice to appear," Stubblefield said.

Walker had nothing to say as photographers took pictures in a corridor just before he left the medical school.

TALKS TO REPORTERS

Looking alert and fit, he smilingly talked with reporters several hours earlier at a news conference in his home here. Walker piloted a private plane back from a Lake Texoma resort where he had rested for several days.

The mental tests are intended to determine whether Walker, who commanded troops enforcing integration of Little Rock's Central High in 1957, is fit for trial on charges of insurrection and seditious conspiracy.

Federal authorities arrested Walker during a racial strife at Oxford, Miss. after agreeing to undergo psychiatric examination, he was released on $50,000 bond from the government medical center at Springfield, Mo., last Saturday.

DENIES CHARGE

Newsmen said Walker led a charge by rioters on U.S. marshals at Ole Miss. He has denied it.

At his news conference yesterday, Walker was asked if he felt his rights had been violated. He replied: "It is very unusual. We'll leave that up to the courts."

Someone inquired whether he held any feelings about James H. Meredith, the Negro student whose enrollment caused the Mississippi strife.

"Oh, no!" said Walker. "the question is deeper than that."

He was an unsuccessful candidate for the Democratic nomination for governor in Texas last spring. Since the Kennedy administration ordered his arrest, a newsman asked if he would vote for the Democratic party.

★ ★ ★

"The question is: Do I still have a right to vote?" he answered.

Both Sides Claim Victories

Loyal Tribes Battling Yemen Rebels

By GEORGE MCARTHUR

CAIRO (AP)—Forces of Yemen's rebel regime today were reported battling tribes loyal to the toppled monarchy on the northern, southern and eastern frontiers. Both sides claimed victories.

★ ★ ★

Informed, non-Egyptian sources in Cairo reported President Gamal Abdel Nasser's United Arab Republic had sent enough planes, troops and tanks into Yemen to insure the victory of the revolution.

Rebel Premier Abdullah-As-Sallah said Royalist forces attaching from Saudi Arabia in the north were driven back with heavy losses when Yemein planes went into action, bombing and strafing. Informants said U.A.R. pilots and planes are now based at all main Yemen air fields and are guarded by U.A.R. troops and tanks. They estimated the U.A.R. has 1,500 men in armored troops and airport security forces in Yemen.

Saudi Arabia, arch rival of Nasser's U.A.R., claimed forces loyal to the Yemeni throne were marching on Sana, the capital, from the north, northwest and south. Saudi Arabia backs Prince Saif al Islam al Hassan in his effort to restore the monarchy.

Saudi Arabia's Mecca radio accused Nasser of provoking the revolutionaries "into murdering Yemen's tribal chieftains to turn Yemen Communist."

★ ★ ★

Broadcasts from Jordan, whose King Hussien also backs Prince Hassan, claimed royalist forces were moving against Hodeida and had reached the outskirts of that Soviet-built port on the Red Sea 90 miles southwest of Sana. Broadcasts from Sana made no mention of fighting around the port.

Sana radio said troops had been sent to battle royalist tribes in eastern Yemen, where the frontier town of Marib was said to have been seized from the revolutionary regime. Marib is on the Saudi Arabian border 80 miles east of Sana.

REPORT 60 DEAD

A report from Aden, the British protectorate south of Yemen, said 40 revolutionary troops and 20 monarchists were killed in the fighting at Marib, site of an irrigation works said to have been built by the Queen of Sheba.

One of three Yemeni royalists wounded in the fighting and hospitalized in Aden claimed three Russians were captured in Marib.

★ ★ ★

As the fighting continued, tension increased between the U.A.R. and Saudi Arabia. Saudi Arabia canceled all Saudi commercial flights to the U.A.R. and barred all U.A.R. planes from Saudi Arabia.

★ ★ ★

Despite the reports of scattered fighting, diplomats in Aden said central Yemen is quiet and U.S. aid officials in Taiz, the diplomatic center, have resumed construction of a $17-million road over the mountains to Sana.

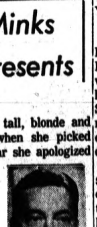
Gal With Twelve Minks Just Can't Reject Presents

By EARL WILSON

NEW YORK—She owns 12 mink coats, she's tall, blonde and beautiful, she has wall-to-wall diamonds, and when she picked me up on Broadway in her white Lotus racing car she apologized for the old heap she was driving.

"The Rolls," she murmured sultrily, "is in the country . . ."

This was Suzanne Leroy, 5-feet-9, very high in the hairdo but low in the neckline, a California girl who contends that it's quite, quite all right to accept gifts from "fabulously rich" gentlemen if they insist on forcing present on you "without strings . . ."



WILSON

"I brought along a Caddy," she was saying to me, "with a phone, in case you have to make some business calls on the way to my penthouse."

"I'd rather ride with you," I said, squeezing in beside her. She waved to the chauffeur to go on ahead.

"I want to bring back Ziegfeld Girl glamour," she said. "That's why I took this job as a Latin Quarter showgirl.

★ ★ ★

She'd been married to a California millionaire ("We had a nice little place—8 rooms and a pool")—but she though he was spoiled, "so I'm very happy now with my little penthouse."

Girls, said Suzanne, are always asking her silly questions such as "How do you get presents?"

"As though I asked for presents," she said furiously. "Oh, I might drop a hint to a fellow, like saying 'I don't have a mink coat like that one.' You have to do it in good taste. It would be very bad taste, "I'm sure, to say, even kiddingly, 'Get me that mink or we're through!"

Suzanne added, "So that sort of hinting I'd never do—I wouldn't want to be accused of lousy taste."

THE MIDNIGHT EARL . . .

Linda Darnell's coming here to make TV commercials . . . The Americana's dickering with Eva Arden for a future show . . . Mamie Van Doren's guest when she opens in a Chicago cafe next month reportedly'll be Bo Belinsky.

Farouk was ordered to appear in Miami in a libel suit he's instituting, but there's betting he doesn't show.

★ ★ ★

EARL'S PEARLS: A bachelor is someone who can wake up in the morning with all of the blanket.

TODAY'S BEST LAUGH: Comic Guy Marks, now in the big money brackets, complains about high taxes: "I never knew what it meant to be poor till I got rich."

WISH I'D SAID THAT: Politics is like kissing. You don't have to be good at it to enjoy it. **That's earl, brother.**

Two Trustys Recaptured

WHITE PINE (AP)—Two men who walked away from the Porcupine Mountains Trusty Prison Camp were captured Thursday night, seven hours after they left a work detail. Security officers of the White Pine Mining Co. picked up Vern Haywood, 30 sentenced for burglary from St. Joseph County, and Charles Scott, 25, sentenced for forgery from Berrien County.

Telecast Rome Via Telstar

NEW YORK (AP) — The television networks utilized the communications satellite Telstar yesterday to provide viewers in the United States with swift picture coverage of the Ecumenical Council opening in Rome.

The program was presented on a special newscast from 8-8:30 a.m. (Pontiac time) by the National Broadcasting Co. The Columbia Broadcasting System program was offered at 9 a.m. and the American Broadcasting Co., shortly after 11 a.m.

The event was taped by the Italian Television Network and then transmitted via Telstar to New York.

'Monster Mash' Is Big Hit

Bobby Pickett's "Monster Mash" is the big hit of the week, moving from 10 to 2 on the Gilbert Youth Research Record Chart.

Pickett, a 25-year-old actor, has been singing since he was 5. He's been in Broadway shows, off-Broadway shows, and has appeared on TV shows.

He wrote the song with Leonard Capizzi, a friend who is a musician. Pickett says he has been getting fan mail from all over the country.

Pickett is married and has a 2-year-old son.

Nehru Tells Army to Push Reds Out

BETTER THAN RAMBLER?—Democratic Lt. Gov. T. John Lesinski (right), looking over a model of the 1963 Pontiac, asks how the Pontiac compares with the Rambler associated with Republican gubernatorial candidate George W. Romney. Many Being Killed at Himalayan Line

FROM OUR NEWS WIRES

NEW DELHI, India — Prime Minister Nehru said today that the Indian army has been ordered to drive Chinese Communist troops from Indian territory on the northeast frontier.

Nehru said his government had ordered the army "to free our territory in the northeast frontier."

Fighting erupted on the Himalayan frontier in the northeast on Wednesday.

In the fighting since Wednesday, Nehru estimated the Chinese Communists suffered nearly 100 casualties. This was nearly three times the figure reported by Peiping Thursday and indicated that the battle is continuing.

Red China lodged a "strongest and most serious protest" with the Indian Embassy in Peiping, accusing India of invading Chinese territory and spreading the flames of war.

Nehru spoke to newsmen before taking a plane for a three-day trip to Ceylon.

He had consulted with Defense Minister V. K. Krishna Menon and Foreign Ministry officials on the border crisis Thursday.

HEADS CORPS

Lt. Gen. B. M. Kaul, one of India's leading officers, was sent to head a newly organized army corps on the northeast frontier last week.

★ ★ ★

An Indian government spokesman said the fighting broke out Wednesday after a Chinese Communist soldier hurled a grenade at an Indian outpost.

'THEY FLED'

The Indians reported their casualties at 17 killed or wounded. Peiping said 33 Chinese troops were killed or wounded.

★ ★ ★

Radio Peiping claimed the Indian troops "fled in confusion, leaving six corpses and arms and ammunition behind."

The radio said the Foreign Ministry in Peiping lodged a strong protest with the Indian Embassy.

There was no word whether the fighting was continuing. But each government accused the other of rushing up reinforcements.

★ ★ ★

The area has been the scene of increasingly serious clashes since Chinese troops moved south of the McMahon line several weeks ago.

The Indians consider the line the legitimate border with Tibet.

The Chinese Communists, who took over Tibet in 1953, have never recognized the McMahon line.

Peiping Radio said yesterday the Chinese Communist foreign ministry sent a note to India warning Nehru to "rein in" on the "reckless attacks" by Indians before a full-scale war erupts.

HELPING GRANDPA CAMPAIGN—Four-year-old Jody Keenan and her brother, Brett, 2, join their grandfather, George W. Romney, as he speaks from the back of truck to a rally of some 500 supporters at Birmingham's Shain Park yesterday. Parents are Mr. and Mrs. Loren G. Keenan of 2694 Brady Drive, Bloomfield Township.

Adjournment Still Stalled

Congress Makes Bid for Wrap Up Today

WASHINGTON (AP)—The 87th Congress—its ranks dwindling almost by the hour—sends its rear guard in a weary, all-out charge toward final adjournment today.

Only three bills of any importance were still to be cleared out of the way, and Senate and House leaders were hopeful — but not burning with confidence — that they would be wrapped up by late afternoon or tonight.

★ ★ ★

Senate Democratic Leader Mike Mansfield of Montana summed it up by saying adjournment should be possible today, but "I would not bet on it."

Both houses were skating on thin ice as far as a quorum was concerned. The House produced more than half of its membership Thursday, but the Senate has not risked a roll call this week. It always presumes a quorum to be present unless questioned.

GONE CAMPAIGNING

The reason for the low attendance is that many members have hustled home to campaign for the Nov. 6 congressional elections.

★ ★ ★

There was a brief flicker of hope that shop would close up Thursday night after the prolonged and bitter row over the agriculture money bill was settled.

This hope was crushed by a stubborn controversy over the bill authorizing future rivers and harbors and flood control projects, the water-projects measure.

House and Senate conferees will try again to iron out their differences over the bill, after two previous fruitless sessions.

★ ★ ★

The Senate version of the measure authorizes more than $4 billion worth of projects, the House bill $2.2 billion.

Romney Says Governor Is Changing His Position

Republican candidate for governor George W. Romney yesterday charged Gov. John B. Swainson with shifting his position on Michigan's economy because "he is politically desperate."

"Swainson's interpretation of statistics is dangerously misleading," Romney said at two Pontiac luncheon meetings and a Birmingham outdoor rally.

The governor has suddenly stopped blaming Republicans for the state's economic ills and is now saying the state has no economic ills, Romney said.

But Swainson's claims that Michigan's economic rate of growth is the second fastest among the states and that its future is more rosy than ever" are wrong, he continued.

ADDRESSES LAWYERS

"The fact is that Michigan is worse off than when Swainson took office," Romney said.

The GOP gubernatorial candidate spoke at a meeting of some 150 members of the Oakland County Lawyers for Romney at the Elks Temple at noon, then rushed to the Waldron to address about 100 Pontiac Rotary Club members.

He then hurried to Birmingham where some 500 supporters greeted him at a rally in Shain Park.

Referring to his Tuesday night television debate with Swainson when the controversy over unemployment figures began, Romney said he did not question the figures, just the interpretation.

The 4.9 unemployment percentage with which the governor backed his claim of economic improvement failed to take into account some 126,000 workers who dropped out of the labor force because of the state's poor economic situation, Romney said.

Many of these were people who moved out of the state because they couldn't find jobs, he added.

"We are losing industry and los-

Lesinski Attacks Romney as 'Trader'

Lt. Gov. T. John Lesinski's attack on what he called the "trade and sell out" tactics of George W. Romney yesterday in Pontiac was followed last night by Gov. John B. Swainson's blast at his opponent's demand for new leadership in Michigan.

Campaigning in Pontiac for re-election, Lesinski told an audience of senior citizens at UAW-CIO Local 594 that their choice was between the "moral courage" of Swainson and the "political trading" of Romney.

He charged that Romney used the constitutional convention "to advance his political fortunes" even though he had "stated it should never be used for political purposes."

"Again and again he has been willing to trade and sell out, and he would undoubtedly trade in the best interests of the state if he thought it would help him become president," Lesinski said.

'TALKS OF COURAGE'

He said Swainson had demonstrated "the courage to do right" by vetoing legislation against the wishes of pressure groups.

He referred to the milk marketing act and the Bowman bill to prohibit municipal income taxes on nonresidents.

Swainson spoke to some 400 well-wishers who took part in a 10 p.m. torchlight reception for him in Milford.

"No one person has all the answers to the challenge in Michigan," Swainson declared. "Responsible government is not a one man show.

"That is why I am running not as an individual but as a Democrat on the Democratic record, with a Democratic team that has a proven record of public service."

County Democrats termed the Milford crowd an "amazing turnout" for the size of the village. They said they were "very pleased with the rousing reception" given the governor.

Lesinski greeted employes at City Hall and the city library before his speech at Local 594. He then attended a luncheon for Democratic candidate for Congress from Oakland County George J. Fulkerson at Kingsley Inn in Bloomfield Hills.

'SWEEP HIM OUT'

He exhorted the luncheon group

Cloudy Skies, Maybe Rain on Saturday

The temperature was still at 68 early this morning after climbing yesterday to a high of 83 at 3 p.m.

The U. S. Weather Bureau said tonight will be fair and cooler, the low about 50.

Saturday will be partly cloudy and not much change in temperature with a chance of scattered showers, the high near 68.

Morning southwesterly winds at 8 miles per hour will become north to northeasterly at 15 to 20 m.p.h. late today, diminishing tonight and shifting to easterly and southeasterly Saturday.

Sixty-eight was the lowest recording in downtown Pontiac preceding 8 a.m. The mercury had climbed to 71 at 1 p.m.

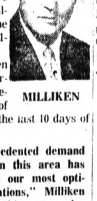
Pontiac Sales Break Record

Tempests Also Run High Past 10 Days

Pontiac Motor Division's Pontiac sales zone has set an all-time 10-day sales record, Harold E. Milliken, zone manager, announced today.

He said 2,606 Pontiacs and Tempests were retailed by dealers in his zone in the October 1-10 sales period.

This Milliken pointed out, surpassed the previous record of 2,192 units sold the last 10 days of April this year.



MILLIKEN

"The unprecedented demand for Pontiacs in this area has exceeded even our most optimistic expectations," Milliken said. "So far this year sales are 71 per cent ahead of our year-ago pace."

The 2,606 cars retailed in the past 10-day period, Milliken said, also set a record for a new model announcement period.

★ ★ ★

By comparison, 1,979 Pontiacs and Tempests were sold by dealers in the Pontiac zone in the new model announcement period last year.

Yanks, Giants Rained Out on Coast Today

SAN FRANCISCO (AP) — Baseball Commissioner Ford Frick today postponed the sixth game of the World Series between the San Francisco Giants and the New York Yankees until tomorrow because of rain and wet grounds.

Frick made his decision at 10:41 a.m. (Pontiac time) after a brief tour of the soggy turf of Candlestick Park, home field of the Giants.

It was raining when Frick made his inspection tour, and winds of 40 to 60 miles an hour were raging through the area, a point of land in San Francisco Bay.

ALBANY, N.Y. (AP) — At least four persons perished in a destructive electrical storm which swept a broad section of New York state overnight. A fifth body was sought today in a creek near Binghamton.

World Leaders 'Must Account'

Pope Says God Judge of Attempts at 'Peace'

VATICAN CITY (AP) — Pope John XXIII warned the world's leaders today that they "will one day have to account for their actions to God." He appealed to them to "give ear to the anguished cry of 'peace, peace' which rises up to heaven from every part of the world."

"May this thought of the reckoning that they are to face spur them to omit no effort to achieve this blessing, which for the human family is a blessing greater than any other," the pontiff said.

The 80-year-old ruler of the Roman Catholic Church spoke at a special audience for the envoys sent to the Vatican by 85 governments for the opening of the Roman Catholic Church's 21st Ecumenical Council.

WAR TO DESTROY

With Michelangelo's awesome "Last Judgment" as a backdrop, the pontiff told the envoys assembled in the Sistine Chapel that war today would "mean the destruction of humanity." He called attention to the vast fresco, "the seriousness of which gives one much food for thought" and warned, "We must indeed render an account to God."

Let the leaders of the world, the pontiff said, "continue to meet each other in discussions and reach just and generous agreements that they faithfully observe."

"Let them be ready to make sacrifices that are necessary to save the world's peace," he said.

★ ★ ★

"The nations will then be able to work in an atmosphere of serenity. All the discoveries of science will assist progress and help to make life on this earth, which is already marked by so many other inevitable sufferings, ever more delightful."

Short Subject's Kneedled Star Dons Bloomers

AKRON, Ohio (AP) — The battle of the shorts ended unexpectedly today when both sides reached a compromise. Sixteen-year-old Judy Rae Bushbing showed up for school and said she would wear oversized bloomer-type shorts in gym class at Springfield Township High School.

★ ★ ★

Judy, a modest daughter of a minister, made it clear that her outfit would cover her knees, in her first appearance at school in 14 days. It was not known immediately when she decided to change her mind.

She had steadfastly maintained in the past that it was sinful to wear shorts publicly and refused to bare her knees in gym class.

U.S. Seeks to Caution Reds

West Fears K Unaware of Danger in Berlin

By JOHN M. HIGHTOWER

WASHINGTON (AP)—Kennedy administration officials are carrying on a calculated campaign to try to persuade Soviet Premier Khrushchev that he is risking grave danger of nuclear war if he forces the Berlin crisis to the brink of military action.

★ ★ ★

Secretary of Defense Robert S. McNamara has taken the lead in issuing nuclear war warnings in recent public statements.

Further opportunity for cautionary statements will be offered the administration next week when West German Foreign Minister Gerhard Schroeder holds policy

News Analysis

talks here with President Kennedy, Secretary of State Dean Rusk and McNamara.

SEE NEW CRISIS

The reasoning behind the drive, high officials said, covers these points:

1. The best informed authorities in Washington believe that Khrushchev is planning a new Berlin crisis beginning about a month from now.

2. The gravest danger in such a crisis, if it develops, is that the Soviet leader may not believe even after the repeated statements of Western determination to stand firm in Berlin, that the Western powers actually will fight when the chips are down. He may therefore overplay his hand.

UNDECIDED

3. The probability is that final decisions on Soviet actions with respect to Berlin are still to be made. Khrushchev has recently been away from Moscow. Foreign Minister Andrei Gromyko has been in New York but is expected to return to the Soviet capital next week.

In these circumstances, U.S. policy makers believe that now is the time to try to avoid an over-assessment by Khrushchev of how far he can go in seeking to force a Berlin settlement on his terms.

★ ★ ★

According to reports known to the White House and State Department, Khrushchev has told a number of Western visitors in recent weeks that he intends to have a Berlin settlement along the lines K of a Soviet-East German peace treaty, In his view this would end the occupation rights of the United States, Britain and France in West Berlin.

He has also been reported to have said on various occasions that he did not think the United States would go to war over West Berlin. He has remarked that perhaps the problem is one which President Kennedy and he should discuss personally.

★ ★ ★

The judgment in official Washington is that the Soviet leader may very well seek such a personal talk with Kennedy by coming to the United States late next month to attend sessions of he U.N. General Assembly. In that case Kennedy would almost certainly have at least one meeting with him.

He could use the occasion either for denunciations and threats or for building a case for his side of the Berlin dispute.

The Western powers see Khrushchev's arguments as designed simply to justify a slow motion Communist takeover of West Berlin beginning with the removal of protective presence of U.S., British and French troops.

What the Kennedy administration is once more trying to get across is that Western powers have no intention of removing their troops nor will they admit Soviet troops or U.N. forces as partners or replacements in West Berlin.

U. S., Exiles Given Warning by British

LONDON (AP)—Britain warned today she would take a serious view of any attacks on her Cuba-bound shipping by the Cuban exile organization known as Alpha 66.

The Foreign Office also disclosed that the U.S. State Department has been approached—presumably to help explain last month's attack by Alpha 66 on a British vessel in a Cuban port.

'OPERATE FROM U.S."

The British have not said so officially but privately assert that Alpha 66 operates from U.S. territory using largely U.S. equipment.

In that sense London takes the view that the American administration could be held at least partly responsible for any illegal activities by the exile group.

UNLOADS IN AIR — Using an arresting gear principle similar to that used on aircraft carriers, a three-quarter ton truck is pulled from the cargo hatch of a low-flying plane at Wilmington, Del., as the plane continues onward without landing. The technique, aimed at delivery of cargo in peace and wartime where parachutes may send it off its course, is being developed for the Air Force by the All American Engineering Company, which said it would stage a full scale demonstration later this month for Air Force officials.

Awaits Word From Castro on Cuban Prisoners' Release

MIAMI, Fla. (AP) — American negotiator James B. Donovan waited hopefully today for a summons back to Cuba and a decision by Fidel Castro on the release of 1,113 invasion prisoners.

Donovan termed his latest offer the maximum that could be made. He said it consisted entirely of medicines, drugs, medical supplies and baby foods—the latter considered by him in the medical category.

★ ★ ★

The New York lawyer said he is optimistic that the Cuban prime minister would accept. He acknowledged their talks left certain points unresolved.

He declined to give details, or to put a price tag on the medical supply offer. He said this could not be done because much of the material would be donated and some purchased at cost.

Castro originally demanded $62 million in cash for freedom of the prisoners, seized in the ill-fated invasion of April 17, 1961.

Donovan flew in Thursday from Havana—where Castro had kept him cooling his heels much of the time since last Sunday.

At a news conference he said he thought he might be called back for Castro's decision or further parleys in a day or two.

He took pains to emphasize several points, obviously to knock down rumors and speculation creating excitement and controversy in this country.

1. There has been no breakdown in negotiations. He and Castro are "still getting along."

2. Despite his optimism, he cannot guarantee that the prisoners eventually will be released. "It totally depends on Castro and his government," he said.

3. No cash will be sent to Cuba as part of the deal.

4. His only conferences with federal officials have been for the purpose of making certain no laws are violated.

The Cuban families committee has spent months collecting money for the ransom. It can accept cash and other gifts under federal tax deduction provisions. Many large corporations and wealthy Cuban exiles have contributed.

Donovan says he has no plans to confer with President Kennedy or other high officials.

The negotiator seemed a bit worn during his news conference. Asked if he were optimistic, he responded: "I'm always optimistic about anything I engage in until I abandon it, and I am not abandoning this."

Bus-Truck Collision Kills One, Hurts 20

CASTAIC, Calif. (AP) — Authorities said a passenger bus collided with a grain truck early today on a mountain highway north of Los Angeles, killing one person and injuring 20.

The accident occurred before dawn on the Ridge Route, U.S. 99, 40 miles north of Los Angeles. It is the main north-south artery in California.

It wasn't learned immediately whether the bus was bound north or south.

The crash occurred three miles north of Castaic Junction. A half-dozen ambulances were dispatched to bring the injured to Newhall, 10 miles to the south. Ten of the injured were said to have suffered major injuries.

Romney Sees Shift in Swainson Stand

ing people," he said, asserting that Michigan's work force was declining faster than those of surrounding states.

QUOTES NEW FIGURES

Romney said new figures show that 1961 was the first year since 1933 that Michigan's per capita income failed to top the national average and that the state's increase in per capita income from 1950 to 1961 was lower than those of Ohio, Indiana, Illinois, Pennsylvania, New Jersey and New York.

"If Michigan had kept pace with the national average during these years," he said, "our income would have been $750 more per year for each family.

"As serious as it is now, it will be much more serious in the immediate years to come.

"We face an explosive increase in need for jobs and public services and we are not prepared," Romney said, referring to the expected joining in the work force of those born in the wartime baby boom.

★ ★ ★

"We've got to have a million more jobs by 1970."

"If we don't stimulate our economy, we will either have to cut public services or pay more taxes."

Romney said the people of Michigan know well enough that things are not more rosy than ever.

★ ★ ★

One of Romney's running mates, L. William Seidman, candidate for state auditor, also visited Pontiac yesterday. Seidman met employes at the County Courthouse before greeting shoppers at Pontiac Mall, Tel-Huron and Miracle Mile shopping centers.

to "broom out Broomfield" (William S. Broomfield, the Republican incumbent).

Lesinski attacked Broomfield as "the resolution kid," when he was a state representative.

"Whenever it was someone's birthday or there was a need for a congratulatory resolution, they called on Broomfield," Lesinski said. "But he never did anything to help the people back home."

Lesinski also supported Fulkerson's stand in favor of President Kennedy's medicare plan.

Fulkerson said the medicare program "offers a man the opportunity to pay for retirement years health protection when he can best afford it — during his working year."

★ ★ ★

He said the present Kerr-Mills program with its rigid means tests and private health insurance plans were inadequate.

The luncheon was sponsored by former Democratic candidates for Congress from Oakland County.

Swainson began a day of campaigning in the southern part of the county today by greeting workers at the Lincoln-Mercury plant in Wixom at 5:45 a.m., then breakfasting with some 30 executives at the plant.

He is scheduled to make appearances in Southfield, Oak Park, Madison Heights, Ferndale and Royal Oak.

Conference on College Set for Girls, Parents

BIRMINGHAM — The top administrators of four Midwestern colleges will explain the need for college-educated women at a special conference to be held in Birmingham Oct. 23.

★ ★ ★

The conference is open to all area high school girls and their parents.

It will be held at 7:30 p.m. at Seaholm High School, 2436 W. Lincoln Ave.

Speakers, all college presidents and cofounders of the new Council of Midwestern Colleges, include Dr. Kenneth Freeman of Christian College, Columbia, Mo.; Dr. Duncan Wimpress of Monticello College, Alton, Ill.; Dr. Seymour A. Smith, Stephens College, Columbia, Mo.; and Dr. Randall B. Cutlip of William Woods College, Fulton, Mo.

★ ★ ★

The officials will explain what a young woman should look for in a college and what a college seeks in a prospective student.

The presidents and admissions personnel from each college will be available for personal interviews with high school girls and parents following the Oct. 23 meetng.

No tickets or reservations are necessary.

On Oct. 22, the Midwestern college representatives will speak with high school principals and guidance counselors at 7 p.m. in Detroit's Sheraton-Cadillac Hotel.

A special program designed to introduce science to younger elementary school children will begin tomorrow at the Cranbrook Institute of Science.

Saturday morning sessions are slated for 9 and 10:30 a.m. for children from the first through the third grades. They will be held each Saturday for three weeks.

Classes for fourth graders and up begin at 10:30 a.m. Nov. 3 and continue for four weeks.

Richard J. Roach

A Requiem High Mass will be sung for Richard J. Roach, 55, of 1472 N. Cranbrook Road, at 9:30 a.m. Monday at Our Lady Queen of Martyrs Catholic Church, Beverly Hills. Burial will be in Holy Sepulchre Cemetery, Southfield.

Mr. Roach died yesterday after a brief illness at William Beaumont Hospital, Royal Oak.

The Rosary will be recited Sunday at 8 p.m. at the Bell Chapel of the William R. Hamilton Funeral Co.

He was a member of the Grosse Pointe Crisis Club and owner of the Roach Insurance Co. of Detroit.

Surviving besides his wife Beatrice are three daughters, Mrs. Richard B. Sempson of Subic Bay, Jane T. Roach of Dallas, Tex., and Mrs. Michael Lynch of Kearny, N. J.; and two sons, Michael R. and Timothy P., both of Birmingham.

Man Waives Exam in Burglary Case

LeRoy B. Perkins, 20, of 389 Ditmar St., waived examination yesterday before Municipal Court Judge Cecil B. McCallum and was bound over to Circuit Court on a charge of breaking and entering.

Perkins was arrested earlier yesterday by Pontiac police. He is one of four men charged with the burglary of Hampton Electric Co. last March 20.

The other three have already been arraigned. Perkins was slated to be arraigned Oct. 15.

NATIONAL WEATHER — Rain heavy at times will cover the Pacific Northwest, northern Plains and Plateau regions tonight with scattered showers over the Mississippi Valley and north Atlantic Coast. It will be cooler over the Pacific Northwest and the northern and central Plateau regions as well as the Lakes region. The warm trend will continue over the southern half of the nation east of the Rockies with some warming over the northern Plains.

Football Fever Leads to Rallies

By United Press International

Football fever, with an assist from the weatherman, boiled over at three of Michigan's largest colleges last night and ended in impromptu pep rallies and panty raids.

★ ★ ★

Boisterous demonstrations occurred at Michigan State University and the University of Detroit and a virtually trophyless panty raid was the order of the day at the University of Michigan.

Football was the big stimulus of the Detroit and Michigan State affairs and the University of Michigan's seemed to stem from a combination of weather, football and the knowledge that a similar happening had taken place in Spartanland in East Lansing.

A balmy night followed an unseasonably hot day at all three campuses and it might as well have been spring.

★ ★ ★

At the University of Detroit, about 1,500 students staged an unscheduled bonfire to highlight their rally. Firemen were called to the campus to put out the fire and the students scuffled with them and tried to take away their hoses.

FIREMEN WIN

The firemen won the field, turning the hoses on both the bonfire and the students, scattering both.

A University of Detroit spokesman, noting the Titans lost their first three football games, said the students needed the rally though the picture was dark for tonight's game with the University of Kentucky Wildcats.

★ ★ ★

The rumpus broke out at East Lansing at about 9 p.m. when about 10 students walked through the student union chorusing cheers. Students came from every corner of the campus and the gathering mob began to march.

The entire force of campus police was called out to keep students out of the streets.

Squad cars, their blinkers flashing and loud speakers blaring, parked on U.S. 16, which runs through the campus, to keep students from leaving the grounds and blocking the highway.

Campus police said there was no destruction except for the overturning of a few trash cans.

★ ★ ★

"You should have seen the house mothers trying to push the fellows out of the girls' dorms," one student said. "The freshman girls have to stay in after 10:30 p.m. and they wanted to get out and join the fun but the mothers wouldn't let them."

ENDS IN CHEERS

The MSU demonstration broke up when police herded the crowd into the field house and athletic director Biggie Munn led them in cheers.

Some 600 male students started the panty raid at Michigan's Ann Arbor campus shortly after midnight with the traditional chant, "to The Hill," the area where the women's dorms are located.

★ ★ ★

Their first stop was Stockwell Hall, where they were deterred, apparently by a lack of response from the distaff students.

An equally cool facade was presented at Mosher - Jordan Hall but things picked up at the third stop, Mary Markley Hall, where the first trophies of the night were garnered.

Observers said the students did not enter the dorms but some coeds tossed panties out the windows to the crowd.

The tempo of the raid slackened but two more stops were made before male students called it a night after about 45 minutes of demonstration.

The custom, one student said, was to stand outside womens' quarters and yell, whistle and shine flashlights in the windows. The rest is up to the girls.

★ ★ ★

At Michigan State a guard was mounted around "Sparty," a statue honored by the student body.

"This is traditional," one student said. "We don't want Michigan students to come and paint Sparty with Michigan colors. They try it every year before the game."

★ ★ ★

He said the "brigade" guarding the stature would be on duty around-the-clock.

But Oct. 28 Ballot Not So Certain

De Gaulle Trusts His Voters to Tag Along

By PHIL NEWSOM
UPI Foreign News Analyst

As President Charles de Gaulle has reshaped France to his own grand pattern, his chief weapon has been the overwhelming confidence in him shown by the French people.

On the other hand, French deputies who in a panicky moment in 1958 abrogated their powers to de Gaulle to save France from civil war, have grown increasingly restless under de Gaulle's open contempt both for parliament and what he considers the petty games of party politics.

The result has been a series of referendums which permitted de Gaulle to bypass parliament and take his policies directly to the people.

In this way came the new constitution establishing the French Fifth Republic and others by which the French people approved independence for Algeria.

TO VOTE AGAIN

On Oct. 28, French voters again will be called upon to ballot in a referendum. But this time with a difference. Even de Gaulle's staunchest supporters concede the outcome is by no means certain.

The issue will be de Gaulle's determination to take the election of a French president from the hands of some 50,000 privileged politicians and place it in the direct hands of the voters.

De Gaulle has made a personal issue of it, threatening to quit if the vote goes against him.

And for the first time, his combined opposition sees a chance to bring him down.

They started it with a vote of censure which brought down the government of the de Gaulle-appointed government of Premier Georges Pompidou.

BREACH OPENED

The motion accused de Gaulle of violating the constitution and "opening a breach through which an adventurer might pass some day to overthrow the republic and suppress its liberties."

Speaker after speaker reminded the French people that Louis Napoleon, nephew of Bonaparte, made himself emperor of France only two years after dissolving parliament and obtaining approval for direct presidential elections.

For his part, de Gaulle made it clear he believed that only through a strong president backed by a direct mandate from the people could France continue to enjoy the stability it has had since 1958.

* * *

He reminded the voters that until his own return and assumption of wide powers France had been known as the "sick man of Europe."

* * *

There was a great deal to what he said, for France is in the midst of unprecedented prosperity for which de Gaulle could take a lion's share of the credit.

Under de Gaulle and his new constitution only two premiers have served — Pompidou and Michel Debre. The old Fourth Republic had 26 between 1944 and 1958.

Worrying de Gaulle supporters, however, is the knowledge that great national leaders not always are honored at the polls once an emergency has passed.

Past months have indicated a growing restlessness among French voters and opposition leaders now ganging up on de Gaulle are hoping to profit by it.

BATTERING RAM — The Los Angeles Rams, always one of the most explosive offensive teams in pro football, have another powerful runner in Dick Bass among the leaders in NFL statistics. Bass will lead the Rams against the Detroit Lions Sunday at Tiger Stadium. Except for bleacher seats which will go on sale at 11:00 a.m., the game will be a sell-out.

Not So Anxious U-D Faces Kentucky

DETROIT (AP)—No longer is the University of Detroit so anxious to climb into football's big time. All the Titans want to do is win a game, beat anybody.

* * *

Kentucky, a rival scheduled when Detroit was a bit more ambitious—and successful — invades Titan Stadium tonight. Licked by Army, Navy, Michigan State, Tulane as well as Kentucky in respectable records, the Titans now realize they perhaps overextended themselves.

So far this season, the Titans have been beaten by Boston College, Xavier (Ohio) and New Mexico State. Their losing streak continued from last year, is at five.

HEAVY FAVORITE

Kentucky, like Detroit, goes into the game without a victory. But the game appears to be a mismatch anyway. The Wildcats have tied Florida State and lost close games to two powers in its Southeastern Conference, Auburn and fifth-ranked Mississippi.

This could be considered the battle between the thin blue line and the thin red line. Kentucky is known in the southeast as the thin blue line because it has only 31 players on its roster. Another 30 or so quit last spring when Charlie Bradshaw took over as head coach and tried to toughen up the Wildcats.

Detroit has had a thin red line all season with 10 touchdowns scored against it.

The second meeting between Detroit and Kentucky shapes up as an aerial show between two sharpshooters named Jerry. Jerry Gross, the Titans' quarterback, has Detroit third in the nation in total passing offense. But Gross' receivers have trouble holding onto the ball.

Jerry Woolum, Kentucky's ace passer, aims for one of the best ends in the nation, Tom Hutchinson.

OTHER GAME

The Kentucky-Detroit clash is one of three major games on the Friday night college football schedule. In the others, Mississippi State is at Tulane and UCLA bidding for a place in the top ten rankings, entertains Colorado State University.

The Uclans made an impressive season's debut last week when they spilled Ohio State, then the nation's top ranked team, 9-7 after three times stopping the Buckeye attack on the one. The upset, enough to topple Ohio State from first to tenth, still wasn't enough to get UCLA into the AP's top ten.

Eight of the top ten will be in action on Saturday, with only fourth-ranked Southern California and Mississippi idle.

Alabama, the defending national champion and No. 1 again after the Buckeye bounce, should win as it pleases against Houston at home. Texas, No. 2, plays its annual southwest war with Bud Wilkinson's Oklahoma Sooners at Dallas, and third-ranked Penn State seeks its fourth straight victory against once-beaten Army at West Point.

Louisiana State, ranked sixth, has a night game with unbeaten Miami, and seventh-ranked Washington plays Oregon State at Portland. Baylor goes against eight-ranked Arkansas, ninth-pegged Purdue faces Miami of Ohio, and Ohio State takes out its UCLA disappointment against hapless Illinois, which hasn't won a game since 1960.

Some of the other key Saturday pairings include:

Cornell at Navy, Princeton at Penn, West Virginia at Pitt and Boston College at Syracuse in the east; California at Duke, Texas A&M at Florida, Tennessee at Georgia Tech and Maryland at North Carolina in the south; Missouri at Kansas State, Michigan at Michigan State, Northwestern at Minnesota, North Carolina State at Nebraska, and Notre Dame at Wisconsin in the midwest; Oregon at Rice, Texas Tech at TCU and Air Force at Arizona in the southwest; Utah at Brigham Young, Utah State at New Mexico and Stanford vs. Washington State at Spokane in the far west.

Scalpers Asking, Getting Top Prices

Series Malady Hits Bay Area

SAN FRANCISCO (UPI) — San Francisco suffered from an acute case of World Series fever today, despite rain, wind, scalper's-price tickets and the fact that the Giants are trailing the New York Yankees in victories, 3-2.

* * *

The city, deluged yesterday by a day-long rain that continued through the night, bulged without-of-town visitors who overflowed hotels, motels and rooming houses.

Many suburban residents who commute to San Francisco have reserved rooms and are spending the weekend in the city.

Scalpers were reported asking — and getting — $50 for a single reserved seat and $150 for a pair of box seats for today's scheduled game.

Most television shops reported that all their rental sets have been gobbled up. Schoolteachers complained that transistor-bearing students hurry through their classes to get to the corridor and their radios.

* * *

Amid the baseball frenzy, few sports fans realized that the Western Hockey League season opened in San Francisco Wednesday night, the college and professional football teams were both in action this weekend, and a middleweight title fight is scheduled in town next Tuesday — featuring Dick Tiger and Gene Fullmer.

CAN'T LISTEN

A former football coach said he has quit listening to the games. "I quit coaching because I got ulcers," he said. "Now I find that I get so nervous listening on the radio that I've just had to quit that too. It's a terrible thing."

One grandmother reported an unsettling dream: "It was the seventh game of the series. The Giants were leading, 7-6, with Yogi Berra at bat as a pinch-hitter . . . I woke up screaming. I don't know how the game came out."

And at Reno's, a bar where sports celebrities gather, the mood was solemn.

"There's nothing funny about this series at all," said the bartender, "everybody in town is taking it as seriously as a civil war."

Dales Face Stiff Test

By The Associated Press

Not all the weekend's football interest will be captured by the Michigan-Michigan State game.

* * *

There are 11 other contests starting with tonight's Kentucky-University of Detroit game in Detroit.

For the small colleges, the big game is unbeaten Hillsdale's invasion Saturday of Southern Illinois.

The Dales, looking for victory No. 5, moan about Southern Illinois' great size — a school of 825 students playing a school with an enrollment of 16,500. But out of its 825 students, Hillsdale has managed to find about 80 football players, 11 of them quarterbacks.

Albion steps out of the MIAA in quest of its 15th straight victory in a Saturday visit to Anderson (Ind).

* * *

There are two MIAA games Saturday — Alma at Adrian and Olivet at Hope. The other MIAA member, Kalamazoo, plays at Ferris.

In other games, Michigan Tech is at Moorhead (Minn) State, John Carroll at Wayne State, Illinois State at Central Michigan, Eastern Michigan at Baldwin-Wallace (Ohio) and St. Norbert (Wis) at Northern Michigan.

Never Bend Top Colt

NEW YORK (AP) — The Cain Hoy Stable's Never Bend took the lead in the latest poll of Thoroughbred Racing Association (TRA) handicappers today as the leading 2-year-old colt of the season. Never Bend received 248 points, compared with 244 for Rex C. Ellsworth's Candy Spots in the weekly poll.

Mobil All-Star Classic in Swing

Not Auto Parts---Bowlers

You can't tell an automobile part from a team in the Westside Mobil All-Star Classic at 300 Bowl.

Auto Service station dealer Ralph Mazza has undertaken complete sponsorship of the 16-team league, which started with a draft of 120 players whose averages were 185 or better.

There are 35 on the 16 teams which are named after auto parts and accessories.

The Tailpipes, team No. 11, made up of Earl Castle, Bill Johns, Don Pennell and Bud Mills are the current leaders with 12 points, followed by the Mufflers (No. 10) with the team of Stan Kurzman, Bob Richards and Paul Karas.

A 4th man on the team is a substitute.

Pontiac Travel Classic in Second Week

Three winning teams will take on three losing sides Sunday as the new Pontiac Traveling Classic League moves into its second week of competition.

Two of the winners, Airway and Wonderland, will play host to Cooley and Westside, respectively, at 3 p. m. while the other triumphant team 300 Bowl will visit Huron at the same hour.

The league was formed following a successful summer tryout. It has a 30-week schedule. Each team has a seven-man roster and five active competitors. Each man rolls two games against his opponent.

Scoring is based on the National Bowling Association system of points. One point for each game won and a bonus point for each 10 pins over 200. All league bowlers must be patrons of Pontiac Proprietors Association bowling houses.

JOHNS

The first Sunday's action saw Bill Johns total 10 points to lead 300 Bowl past Westside 17-11. Johns rolled 275 and 215 while teammate George Chicovsky added four points with games of 234 and 205.

Westside had a 245 effort from Stan Kurzman and a 228 from John Casper.

The closest match of the day ended 11-9, Airway nipping Huron Bowl. Airway received games of 246 and 227 from Jerry St. Souver and Carl Van De Moortell, respectively. Huron's Arley Sheffler rolled a 246.

Wonderland swamped Cooley Lanes, 9-2. Bud Mahrone had a 224 and Wayne Tosh a 204 for the winners while Cooley's best effort was 202 by Larry Angott.

OXBOW TEAM

In other league action in the area, the Oxbow Pavilion team is leading the 300 Bowl Nite House League with a 21-3 mark. A 2673 team high series helped the Oxbow cause. The high team singles score went to No. 18 with 956.

Edward Hummel had the high individual series at 583 and R. Underwood's 232 was the high single game.

PONTIAC MOTOR

Also at the same alleys, the Pontiac Motor Inter-office League had 18 bowlers go over the 200-pin mark. T. Lawrence at 247, C. McIlhargie at 230 and B. Schoolmaster at 227 topped the list.

WESTSIDE

In the Westside Classic competition, Dale Cook Construction is riding a seven-game cushion over its nearest opposition, Airway Lanes. The leaders have taken 34 of 40 games. Prescription Department, Inc., and Colonial Lounge at 25-15 are in third place.

Top individual efforts last Monday night were Don Martell's 265 game and 611 series, Dick Carmichael's 663 series, John Casper's 646 series, and Jerry Perna's 636. In all, there were 62 games of 200 or better and 13 series that averaged at least 200.

Airway bowling news includes the Four Towns Methodist Church League where Bill Thompson picked up the difficult 7-10 split while rolling a 203 actual. Other big news in the same league was a 268 actual for Carl Hoppenrath Jr., the highest single game this year. Hoppenrath finished with a 614 series.

LUTHERAN LEAGUE

In the Lutheran Mixed League, Fred Troeger rolled a 246 actual. Lilah Liskey fell only three pins under him with a 243 effort in the Airway Jets League.

* * *

In Airway's Pontiac Motor Tempest loop, W. Schrieber produced a 246 with his nine-pin handicap and H. Rynerson's 16-pin handicap boosted him to a 254 total. W. Edwards rolled a 534 actual series, but he finished with a 666 with handicap. A Hudson's 548 series jumped to 620 with handicap.

The Pontiac City Employes League saw Ralph Irish rolling a 221 actual. Jim Berg hit a 228 in the Pinbusters Mixed League.

Await Clarification by High Court on School Prayer Ban

WASHINGTON (AP) — The Supreme Court may clear up by next July some of the confusion over what prayers, if any, may be said in public schools or whether Bible verses may be read in the classrooms.

Those questions were not answered in last June's historic decision declaring unconstitutional a prayer supplied by state officials for use in New York State public schools.

BACKGROUND — AP SPECIAL REPORT — OF THE NEWS

Many people interpreted this as an outright ban on prayer in the schools and it brought one of the angriest public outcries the court has faced in recent years.

A few weeks ago Justice Tom C. Clark departed from the custom of justices not commenting on the court's rulings and expressed dismay at what he called misunderstanding. All the court decided, he said, was that government cannot take part in the establishment of religion. It was a 6-1 decision and Clark joined in the majority view.

TRY AGAIN

The high tribunal agreed this week to tackle once more this emotion-laden issue of separation of church and state. Specifically, the court will hear sometime in the months ahead appeals from two lower court decisions.

★ ★ ★

One appeal is by Pennsylvania officials from a decision by a three-judge federal court that the state law requiring Bible reading in public schools violates the U.S. Constitution.

MOTHER PROTESTS

The other appeal is by an atheist mother of an atheist son who contends that a Baltimore, Md., school board regulation calling for opening of school each day with Bible reading and recitation of the Lord's Prayer is unconstitutional.

★ ★ ★

Both the Philadelphia and the Baltimore practices have been attacked despite the fact the children are not required to participate. They may be excused with written permission from a parent or guardian.

'LOSS OF CASTE'

Mrs. Madalyn E. Murray, whose son William J. Murray III is now in the 11th grade in Baltimore, told the court in her appeal that her son's nonparticipation in the exercises caused him "loss of caste with his fellows, he was regarded with aversion, and subjected to reproach and insult."

★ ★ ★

The board's rule says "each school, either collectively or in classes, shall be opened by a reading, without comment, of a chapter in the Holy Bible and/or the use of the Lord's Prayer. The Douay Catholic version may be used by those children who prefer it . . ."

LIKE PENNSYLVANIA

This is somewhat similar to the Pennsylvania law, which reads: "At least 10 verses from the Holy Bible shall be read without comment at the opening of each public school on each school day. Any child shall be excused from such Bible reading or attending such Bible reading upon the written request of his parent or guardian."

★ ★ ★

It is the custom in many Pennsylvania schools to follow the Bible reading with the recitation of the Lord's Prayer. The special three-judge court did not rule on the validity of this prayer recitation, commenting that this was not covered by the state law under attack.

Edward L. Schempp, a Unitarian living in a Philadelphia suburb, brought the suit on behalf of his children, who attended Abington Township High School.

Pennsylvania and Abington officials, in appealing, said:

"It is of paramount importance to the parents and teachers of this nation to have the Supreme Court determine whether the Constitution requires that none of the students shall be allowed to listen to the Bible being read without comment simply because one family, whose children need not attend the reading, do not want others to listen."

GREATER IMPACT

The answers to these appeals could have a greater impact across the nation that even last June's decision which focused on the New York prayer.

★ ★ ★

The high tribunal threw more confusion into the issue of separation of church and state this week in refusing to review a decision that Oregon may not provide free text books to church schools.

This didn't mean, however, that the court necessarily agreed with the Oregon Supreme Court in its reasoning or conclusions.

But, without comment, the justices let stand a decision that contrasts sharply with a 1930 Supreme Court decree upholding a Louisiana law which provides for nonreligious textbooks free to children in church-run schools as well as public schools.

The Oregon ruling also contrasts sharply with a 1947 Supreme Court decision upholding legislation in New Jersey providing bus transportation for parochial school pupils.

There have been two other major Supreme Court rulings dealing with the question of schools in recent years. One was that religious instruction on public school property during released time violated the Constitution. The other was that it is not unconstitutional when students are released for religious instruction off school property during school hours.

Pair Weds After Spat of 42 Years

BUFFALO, N. Y. (AP) — A woman who raced up and kissed President Kennedy during his 1960 campaign has been barred from the Niagara Falls airport where Kennedy will land Sunday en route to Buffalo on a political visit.

★ ★ ★

The Secret Service in Buffalo made the ruling after Mrs. John S. Kruk, 32, wife of an army lieutenant colonel, asked its permission to have the President autograph a picture taken of her kissing him on Sept. 28, 1960. The picture received national attention.

★ ★ ★

Mrs. Kruk and her husband had been invited by Mayor Chester A. Kowal of Buffalo to sit with him during Kennedy's reception at Niagara Falls Municipal Airport.

★ ★ ★

The Secret Service gave no explanation of its decision.

Five Children Burn to Death in Ozarks

HARTVILLE, Mo. (UPI) — Five children burned to death early today in a fire at their home in the tiny Ozarks Mountain community of Norwood, the Wright County sheriff's office reported.

The victims were identified as children of Noble Smith.

Initial reports indicated Smith and his wife had left the children alone while they rushed another child, suddenly stricken ill, to a hospital. The blaze broke out while they were away.

Congo Asks Tshombe to Government Session

LEOPOLDVILLE, the Congo (AP) — The Congo radio announced Thursday interior Minister Cleophas Kamitu has sent a written invitation to President Tshombe of Katanga asking him to a government meeting in Leopoldville net week.

It said the meeting will be Oct. 16-21 and at it the Congolese premier, Cyrille Adoula, will present a new federal constitution for the Congo.

Stocks Mixed in Slow Trading

NEW YORK (AP) — The stock market moved unevenly in slow, Columbus Day trading early today.

Changes of most key stocks were fractional.

* * *

Semiholiday conditions prevailed in Wall Street as banks and insurance companies were closed. Many in the financial community were off for a three-day weekend.

Columbus Day is usually about the lightest trading day of the year. Today seemed no exception as sluggish dealings were accompanied by routine price changes.

Wheeling Steel was up nearly a point as it continued its latest advance against the general trend.

The advance was accompanied by news that Hunt Foods has acquired an investment position in Wheeling as one of the many investments in its portfolio.

The top steel makers showed little, if any, change. Jones & Laughlin was off a fraction.

In a barely changed automotive section, Chrysler was up a fraction and Ford down a fraction.

Await Clarification by High Court on School Prayer Ban

WASHINGTON (AP) — The Supreme Court may clear up by next July some of the confusion over what prayers, if any, may be said in public schools or whether Bible verses may be read in the classrooms.

Those questions were not answered in last June's historic decision declaring unconstitutional a prayer supplied by state officials for use in New York State public schools.

BACKGROUND — 4p SPECIAL REPORT — OF THE NEWS

Many people interpreted this as an outright ban on prayer in the schools and it brought one of the angriest public outcries the court has faced in recent years.

A few weeks ago Justice Tom C. Clark departed from the custom of justices not commenting on the court's rulings and expressed dismay at what he called misunderstanding. All the court decided, he said, was that government cannot take part in the establishment of religion. It was a 6-1 decision and Clark joined in the majority view.

TRY AGAIN

The high tribunal agreed this week to tackle once more this emotion-laden issue of separation of church and state. Specifically, the court will hear sometime in the months ahead appeals from two lower court decisions.

★ ★ ★

One appeal is by Pennsylvania officials from a decision by a three-judge federal court that the state law requiring Bible reading in public schools violates the U.S. Constitution.

MOTHER PROTESTS

The other appeal is by an atheist mother of an atheist son who contends that a Baltimore, Md., school board regulation calling for opening of school each day with Bible reading and recitation of the Lord's Prayer is unconstitutional.

★ ★ ★

Both the Philadelphia and the Baltimore practices have been attacked despite the fact the children are not required to participate. They may be excused with written permission from a parent or guardian.

'LOSS OF CASTE'

Mrs. Madalyn E. Murray, whose son William J. Murray III is now in the 11th grade in Baltimore, told the court in her appeal that her son's nonparticipation in the exercises caused him "loss of caste with his fellows, he was regarded with aversion, and subjected to reproach and insult."

★ ★ ★

The board's rule says "each school, either collectively or in classes, shall be opened by a reading, without comment, of a chapter in the Holy Bible and/or the use of the Lord's Prayer. The Douay Catholic version may be used by those children who prefer it . . ."

LIKE PENNSYLVANIA

This is somewhat similar to the Pennsylvania law, which reads: "At least 10 verses from the Holy Bible shall be read without comment at the opening of each public school on each school day. Any child shall be excused from such Bible reading or attending such Bible reading upon the written request of his parent or guardian."

★ ★ ★

It is the custom in many Pennsylvania schools to follow the Bible reading with the recitation of the Lord's Prayer. The special three-judge court did not rule on the validity of this prayer recitation, commenting that this was not covered by the state law under attack.

Edward L. Schempp, a Unitarian living in a Philadelphia suburb, brought the suit on behalf of his children, who attended Abington Township High School.

Pennsylvania and Abington officials, in appealing, said:

"It is of paramount importance to the parents and teachers of this nation to have the Supreme Court determine whether the Constitution requires that none of the students shall be allowed to listen to the Bible being read without comment simply because one family, whose children need not attend the reading, do not want others to listen."

GREATER IMPACT

The answers to these appeals could have a greater impact across the nation that even last June's decision which focused on the New York prayer.

★ ★ ★

The high tribunal threw more confusion into the issue of separation of church and state this week in refusing to review a decision that Oregon may not provide free text books to church schools.

This didn't mean, however, that the court necessarily agreed with the Oregon Supreme Court in its reasoning or conclusions.

But, without comment, the justices let stand a decision that contrasts sharply with a 1930 Supreme Court decree upholding a Louisiana law which provides for nonreligious textbooks free to children in church-run schools as well as public schools.

The Oregon ruling also contrasts sharply with a 1947 Supreme Court decision upholding legislation in New Jersey providing bus transportation for parochial school pupils.

There have been two other major Supreme Court rulings dealing with the question of schools in recent years. One was that religious instruction on public school property during released time violated the Constitution. The other was that it is not unconstitutional when students are released for religious instruction off school property during school hours.

Pair Weds After Spat of 42 Years

BUFFALO, N. Y. (AP) — A woman who raced up and kissed President Kennedy during his 1960 campaign has been barred from the Niagara Falls airport where Kennedy will land Sunday en route to Buffalo on a political visit.

★ ★ ★

The Secret Service in Buffalo made the ruling after Mrs. John S. Kruk, 32, wife of an army lieutenant colonel, asked its permission to have the President autograph a picture taken of her kissing him on Sept. 28, 1960. The picture received national attention.

★ ★ ★

Mrs. Kruk and her husband had been invited by Mayor Chester A. Kowal of Buffalo to sit with him during Kennedy's reception at Niagara Falls Municipal Airport.

★ ★ ★

The Secret Service gave no explanation of its decision.

Five Children Burn to Death in Ozarks

HARTVILLE, Mo. (UPI) — Five children burned to death early today in a fire at their home in the tiny Ozarks Mountain community of Norwood, the Wright County sheriff's office reported.

The victims were identified as children of Noble Smith.

Initial reports indicated Smith and his wife had left the children alone while they rushed another child, suddenly stricken ill, to a hospital. The blaze broke out while they were away.

Most Changes Fractional

Stocks Mixed in Slow Trading

NEW YORK (AP) — The stock market moved unevenly in slow, Columbus Day trading early today.

Changes of most key stocks were fractional.

* * *

Semiholiday conditions prevailed in Wall Street as banks and insurance companies were closed. Many in the financial community were off for a three-day weekend.

Columbus Day is usually the lightest trading day of the year. Today seemed no exception as sluggish dealings were accompanied by routine price changes.

Wheeling Steel was up nearly a point as it continued its latest advance against the general trend.

The advance was accompanied by news that Hunt Foods has acquired an investment position in Wheeling as one of the many investments in its portfolio.

The top steel makers showed little, if any, change. Jones & Laughlin was off ⅛ fraction.

In a barely changed automotive section, Chrysler was up a fraction and Ford down a fraction.

The "growth" stocks also put on a restrained performance. IBM dipped fractionally. Polaroid lost about a point. Korvette also slipped fractionally.

Montgomery Ward was steady as a sizable percentage increase in sales was reported.

* * *

Prices on the American Stock Exchange were mixed. Fractional losses were taken by Talon "B," O'Kiep Copper, Cinerama, and Webb & Knapp. Among small gainers were Louisiana Land, Exquisite Form, BVD, and Mead Johnson.

Willys Offers Wagon Series

Denies Bid to Enter Passenger Car Field

TOLEDO, Ohio (UPI) — Willys Motors will bring out a line of six station wagon models for 1963 but denied the move means a return to the passenger car field.

* * *

Willys said the "Wagoneer" series, developed over three years at a cost of $20 millions, will supplement the present line of "Jeep" utility vehicles.

Willys has concentrated on Jeeps since 1955 when it dropped the Aero and Kaiser cars.

The "Wagoneer" was developed exclusively as a station wagon rather than being adapted to an existing passenger car on truck chassis," the company said.

SHOWING SET

The model, larger than a regular station wagon, will be shown for the first time at the national automobile show in Detroit Oct. 20. It will go on sale Nov. 14. Prices were not announced.

* * *

Willys describes the vehicle as "an all purpose station wagon with passenger car styling and comfort."

It is 183 inches long, 75 inches wide and 64 inches high. It comes in two and four door models with two and four wheel drive.

The model is available with an automatic transmission, power brakes, power steering and deluxe interiors. Standard is a six-cylinder overhead cam 140-horsepower engine developed for the Jeep last spring.

* * *

The car also has a long-life lubrication and oil system and a wide variety of colors. About 7,500 models will be ready by introduction time.

* * *

Willys said it is not entering the passenger car field, but the new wagon will help the firm aim for a wider and larger segment of the second car market "as well as the so-called first car market."

Motorists Warned About Orchard Lake Ave. Work

Pontiac motorists were warned today by Assistant City Manager David S. Teel that traffic may be slowed to one-lane at several places on Orchard Lake Avenue during the next four to six weeks because of water main construction.

"It might be well to avoid Orchard Lake Avenue between Walnut Street and Voorheis Road during rush hours," he noted.

The construction, by Chris Nelson & Son of Royal Oak, under contract to the city, is part of Pontiac's $3.9-million water system improvement project to make way for the use of Detroit water next July.

Workmen today completed laying 16-inch water lines on Mount Clemens Street and Featherstone Road between Paddock and East Boulevard. That project started three weeks ago.

★ ★ ★

"Today the contractors should begin laying 20-inch mains in Orchard Lake and the work is expected to take four to six weeks," Teel said.

"We plan no major detouring of traffic but expect bottlenecks to exist at some places where barricades may limit traffic to one lane."

City officials said the water line work had brought calls from city residents mistaking the line for sewer pipes they were to be assessed for.

★ ★ ★

"This is all part of the water program and has nothing to do with special assessments," Teel noted. "Mains will be laid at various locations in the coming months and we will keep citizens notified of the construction locations as they occur."

Salary Boost Recommended

Drain Agent Raise Urged by Committee

The drain committee of the Oakland County Board of Supervisors yesterday agreed to recommend raising Drain Commissioner Daniel Barry's salary as agent for the Southeastern Sewage Disposal System.

★ ★ ★

If the the board of supervisors agrees, the salary as agent will be increased from $1,200 annually to $4,000 in 1963.

This would be in addition to Barry's salary as drain commissioner, which is paid by the county.

The commissioner's annual salary this year is $12,500. There is a provision in next year's budget to raise it to $13,500.

★ ★ ★

The system agent's salary is paid from public utilities revenues in 14 municipalities in the southeastern section of the county.

The participating communities are Birmingham, Troy, Clawson, Royal Oak, Madison Heights, Berkley, Southfield, Huntington Woods, Oak Park, Pleasant Ridge, Hazel Park, Ferndale and Royal Oak Township.

SEEK HIKE FOR AIDE

The county drain committee also is recommending that Barry's deputy, Robert J. Evans receive $3,000 from the revenues, besides his current county salary of $10,800 a year.

The committee felt that they should receive the salary increases for the amount of work being performed for the 14 municipalities, chairman David R. Calhoun said.

He also is mayor of Huntington Woods, one of the participating communities.

★ ★ ★

"We will explain the committee's stand to the officials of each municipality, and if any municipality has any objections they can be heard through their representatives at the board of supervisors meeting," Calhoun said.

Acid Taste of Whisky Real Thing

Ernest McDaniel, 39, of 23 S. Parke St., got a real belt out of his shot of whisky yesterday.

★ ★ ★

The whisky had sulphuric acid in it.

Pontiac police were at Pontiac Osteopathic Hospital on another case when they ran into McDaniel, who was being treated for a very sick stomach.

McDaniel told them about the drink with an unexpected kick.

★ ★ ★

"Someone tried to poison me," he began, "by putting acid in my whisky." McDaniel explained he was visiting a friend's house where he had left a pint of whisky on an earlier visit.

'BEGAN TO GET SICK'

He opened the bottle and "took a large drink," he said.

Something was wrong. He "immediately began to get sick."

A preliminary hospital analysis of the whisky showed it contained "a large amount" of what laboratory technicians called "a commercial acid, probably sulphuric."

Police sent the whisky to Lansing for a complete analysis and today are looking for suspects.

They sent McDaniel home, after he responded satisfactorily to treatment.

Two Demand Examination in Burglary

Two Pontiac men demanded examination yesterday before Municipal Court Judge Maurice E. Finnegan on charges of breaking and entering in the nighttime.

★ ★ ★

Finnegan scheduled examination on Oct. 17 for Jesse V. Jones, 18, of 478 Wyoming St., and Paul A. Gonzales, 17, of 299 W. Princeton Ave.

★ ★ ★

The two were arrested by Pontiac police early yesterday at Jones' home.

★ ★ ★

They are charged with a burglary last Monday of the South Side Pool Room, 161 W. South Blvd., police said.

Bond was set at $100 each.

Racial Strife Quiets Down

County Police Assist in Mt. Morris Twp.

Oakland County sheriff's deputies and state police from Pontiac last night reinforced local police forces in Mount Morris Township near Flint but there was no further racial violence.

★ ★ ★

Approximately 100 law enforcement officers were on duty in the predominatly white neighborhood, Genesee County Sheriff Thomas Bell reported.

Included were 25 deputies from Oakland County and two officers from the Pontiac state police post.

Lapeer County also sent deputies to the scene to assist local troopers and the Genessee County sheriff's department.

★ ★ ★

Wednesday night more than 200 people congregated around the home where a negro school teacher and two companions have moved it.

INSULTS, BRICKS FLY

Insults and bricks were hurled at the house, according to the teacher, Jerry M. Beatty, 27.

★ ★ ★

Last night, less than 50 persons gathered in front of the home, State police Cpl. Joseph Colnar said.

★ ★ ★

Capt. Leo Hazen of the Oakland County sheriff's department said he expected to lead reinforcements from her to Mount Morris Township again tonight.

Ted Cobb, executive director of the Urban League of Flint, was inside Beattys' home last night and said the atmosphere around the house was farther from violence than earlier this week.

He said the bystanders were clustered in little knots at greater distances from the house.

★ ★ ★

Cobb said police protection had "increased and improved," and that this, plus a "mobilization of community leadership," had helped ease tension.

★ ★ ★

Cobb said representatives of business and labor had spoken out against harassment of the house, and said clergymen had asked members of their congregation not to contribute to the unrest surrounding the house.

Toledo Police Seek 4 Prison Escapees

TOLEDO, Ohio (AP) — A full-scale police hunt was under way today after Toledo authorities found a stolen car they said was used by four fugitives who held up the parents of one of the escaped prisoners yesterday near Adrian, Mich.

★ ★ ★

Detective Capt. Marion Davey said the stolen car was found late yesterday behind a downtown motel and at least one motel guest saw the four men.

He said they apparently split up, with one pair headed downtown and the other toward Union Station. A station wagon was reported stolen from the station a short time later.

Deputies said Neil Hannewald, 21, and three companions, all escapees from Kansas State Prison, held up his parents, Mr. and Mrs. Otto Hannewald, at their home near here yesterday.

★ ★ ★

Officers said the men fled in an auto with $111 taken from the elder Hannewald.

Medics Stress Use of Auto Seat Belts

Vaccinations against smallpox and influenza and the use of auto-seat belts were urged today by the Oakland County Medical Society's public health committee.

★ ★ ★

A statement issued by the society says the committee has been studying the problem of auto safety for the past year.

"It feels that the greatest contribution to the reduction of injury and deaths due to auto collisions can be accomplished through the use of seat belts," it added.

The committee urged physicians of the society to install the belts. It also urged police departments and taxi cab firms to do so.

"Seat belts installed and used in all vehicles on our highways today would conserve some 5,000 lives per year," the statement added.

★ ★ ★

Revaccination every five to seven years against smallpox also was suggested by the group.

"With the recent epidemic scare experienced by New York City, and with the existence of one case of small pox in that city, this committee can envision a similar occurence in the Detroit Metropolitan Area," a spokesman said.

One reason for this contingency, he added, is the fact that "at Detroit's airports there are many jet aircraft landing whose point of origin is outside the continental United States."

Vaccinations may be obtained from local physicians, the committee advised.

Along with the Oakland County Health Department, the committee also urged influenza vaccinations because of a major outbreak expected this winter.

Among especially susceptible individuals, the committee listed doctors, nurses, teachers, pregnant women, elderly individuals, persons with heart and respiratory disease, and others exposed to the general public.
