

Anger of the Winds

HAVOC OF NATURE — Broken trees and scattered tree limbs almost obscure two automobiles piled together by the winds in last night's tornado at Miami, Fla.

Vicious Tornado Batters Miami Injuring Over 100

Senators Want Planes Ready to Fire Back

Demand Military Take Steps to See Craft Can Fend Off Reds

WASHINGTON (AP)—Senators set out today to make it as certain as possible that American patrol planes fly with guns loaded and in working order in the future.

Sen. Styles Bridges (R-NH) joined Sen. Lyndon B. Johnson (R-Tex.) in a demand that steps be taken to see to it that no American plane again is as defenseless as the converted Navy antisubmarine plane strafed by Communist MIG fighters over the Sea of Japan.

"Our planes should be fully armed and have their guns ready to fire if they are attacked," Bridges said.

"We are going to investigate this situation and see what can be done about making certain that our men can fight back immediately if they are fired on."

Bridges, chairman of the Senate Republican Policy Committee, and Johnson, the Senate Democratic leader, are top members of the Senate Preparedness subcommittee.

Johnson said this group, which he heads, will decide on the basis of a Navy Department report what course it will take in the inquiry.

Navy airmen said Wednesday that a communications mishap and two useless gun mounts in their patrol plane had left them at the mercy of the Communist fighters when their one operative gun in the tail assembly was knocked out.

The tail gunner was wounded before he could fire a shot.

Adm. Wallace M. Beakley told a Senate hearing Wednesday that all naval planes are under orders to return any attack.

Beakley, deputy chief of naval operations, said the attacked plane did not return the fire because its tail guns were shot out.

There was temporary disagreement over why other guns in the fore part of the plane and atop its fuselage were not working.

The plane's pilot told newsmen in Japan that needed spare parts for these two turrets hadn't arrived in time.

A photograph taken during the Communist jet attack on the plane may hold the answer to the nationality of the attackers.

Cloudy Skies Won't Change Temperatures

This morning's fair skies will become partly cloudy tonight and tomorrow with little temperature change, the U. S. Weather Bureau forecasts.

Low tonight will be near 60 degrees. Friday's high will rise to around 75, the weatherman said.

Today's calm to three mile an hour winds will become 5 to 10 miles tonight.

Partly cloudy is the forecast for the Pontiac area.

Lowest temperature in downtown Pontiac preceding 8 a. m. was 51 degrees. The thermometer read 71 at 1 p. m.

Gov. Long Back in Louisiana

Officials Apparently to Let Him Run State From Hospital Bed

NEW ORLEANS (UPI)—Gov. Earl Long was back in Louisiana today after 18 stormy days in a Texas mental ward.

State officials appeared ready to let him run the state from his hospital bed.

Long was settled in the fifth-floor room at Ochsner Foundation Hospital overlooking a bridge his brother Huey built.

He returned to Louisiana last night in an Air National Guard plane from John Sealy Hospital in Galveston.

Long was wan and halting when he stepped off the plane. All he said before an elevator whisked him and his entourage up to his hospital room was: "I'm glad to be back."

He apparently has taken over again as governor.

Long had to sign an agreement to enter Ochsner, before his wife would agree to his release from the mental ward at Galveston to which he was taken under protest May 20.

Late yesterday the governor balked for a time at signing that agreement and delayed his flight to New Orleans five hours.

Long also signed a paper releasing his family and "anyone" else from legal responsibility for bringing him to Texas. He had charged that he was drugged, tied to a stretcher and flown to Galveston against his will.

Cash Crisis of Own Is Solved by House

LANSING (UPI)—The House settled a little cash crisis of its own yesterday by tapping pocketbooks of its members.

The flower fund, used for buying flowers for sick members of the lower chamber was down to a low point, said House Speaker Don R. Pears (R-Buchanan).

Pears simply asked members to kick in a dollar each to replenish the sagging fund.

"I wish we could solve the state's problems that easy," he said.

Loan to Beck Proper, Roy Fruehauf Replies

Roy A. Fruehauf, West Bloomfield Township industrialist, today denied he did anything wrong in lending money to former Teamsters President Dave Beck.

In a statement to The Pontiac Press, the trailer manufacturer said of the five-year-old money arrangement:

"This matter was brought out in detail before the McClellan Committee."

"The honesty of the whole thing was developed right then. I answered all the questions and there was nothing out of order in any way."

Fruehauf, Beck and another trailer manufacturer were indicted yesterday by a New York federal grand jury on charges of violating a provision of the Taft-Hartley Act that prohibits union officials from accepting payments from management officials and vice versa.

The indictment charged Beck with accepting a \$200,000 loan in 1954 from Fruehauf and Burge Seymour, president of Associated Transport, Inc. of New York.

In another statement released through his office at the Fruehauf Trailer Co. in Detroit, Fruehauf said:

"I have earned and enjoyed an unblemished business and personal reputation for more than 30 years. I am positive my involvement in a matter affecting Dave Beck will be found to be entirely innocent."

Fruehauf's Washington attorney, Clark M. Clifford, called the indictment "fantastic" and said he was "convinced there is no merit in it."

"I know Mr. Fruehauf will plead not guilty," he said.

Clifford was mystified as to the nature of the charge and continued about lack of details in the indictment.

"It is difficult to reply to the charge since practically no facts or information were given in the indictment," he said. "But if we are provided some more information, we will be able to make a full and complete reply."

Fruehauf, 4330 Middle Belt Rd., has been president of the grand jury.

Twister Rips Homes, Autos; None Are Killed

Damage Is Estimated Over Million Dollars in Unusual Storm

MIAMI, Fla. (AP)—The Greater Miami area's first tornado in 10 years struck near bedtime Wednesday night, leaving at least 100 persons injured, some of them seriously.

"You just don't get that kind of damage from a straight wind," said forecaster Paul Moore in identifying the vicious storm.

It was the first twister to hit the southeast Florida coast since the late 1940s when a tornado ripped up property during a hurricane, Moore said.

Scores of haystacks were left in wreckage amid tangles of tree trunks, signs and overturned automobiles as the storm leapt-frogged over a 12-mile path. Hundreds of persons were driven from their homes.

An 11-year-old boy, Frank Vasclotti, was reported in critical condition with head injuries.

Nearly 60 persons, some seriously hurt, were treated by hospitals, police and civil defense units mustered on a disaster footing. In all, about 100 were hurt, the Florida Highway Patrol said.

No one was reported killed.

Hardest hit was a four-block residential and business area around the 79th street causeway where Police Sgt. Stewart Cooley estimated the damage would run to a million dollars.

But the storm also belted a Bucyrus boulevard area 24 blocks south of 79th street and toppled trees and power poles on Coconut Grove, 10 blocks south of the causeway. It missed downtown Miami en route.

L. S. Pope, picked up bleeding on the causeway, said he was on the second floor of a five-family dwelling when its roof blew off. His bed was flung into the air.

Don Shoemaker, who lives in the area, said: "I've been through two tornadoes and have never seen anything like this. It looked like a bomb had hit."

Mrs. Nola Cone, 40, scrambled out of wreckage of her bar with six patrons, shaken but unhurt.

"I've seen Oklahoma tornadoes but none like this," she said. "I (Continued on Page 2, Col. 2)

Gromyko Granted Time Out to Study Last-Chance Plan

GENEVA (AP)—The Big Four foreign ministers today postponed their talks for 24 hours at the request of Soviet Foreign Minister Andrei Gromyko.

The postponement was announced shortly before the ministers were scheduled to meet at Gromyko's villa.

The Soviet foreign minister requested the delay during a private luncheon with British Foreign Secretary Selwyn Lloyd. Lloyd quickly obtained agreement from U. S. Secretary of State Christian A. Herter and French Foreign Minister Maurice Couve de Murville.

The postponement will allow Gromyko another day to consult Moscow and study the new Western compromise formula for a stopgap Berlin settlement. It was assumed the Soviet government still had not reached a definite decision on the "last chance" proposal.

Moscow radio reported that Soviet and East German leaders met in the Kremlin today to discuss the Big Four problem in an atmosphere of "complete mutual understanding and friendship."

Western diplomats had expected to hear this afternoon whether the Russians were willing at least to negotiate on the basis of the new plan. Gromyko was critical of the plan yesterday, but asked for 24 hours to study it before giving a definite reply.

Western spokesmen had made it clear that a rejection of the new formula by Gromyko would mean the end of the 6-week-old foreign ministers conference.

Christian A. Herter hopes to visit West Berlin before leaving Europe. It was learned today, but his plans are still uncertain.

The idea of such a visit was discussed with West Berlin Mayor Willy Brandt when he was here last week.

Herter's plane arrived today from the United States to take the secretary of state home—possibly by way of Berlin—when the Big Four conference ends. He ordered the plane a week ago to be on hand because he expected the conclusion of the meeting by this weekend.

PLANS NOT DRAWN
"No plans for the proposed junior college have been drawn," the Rev. Mr. Daniel said.

Just where the junior college should be established is one of the major convention issues, said the Rev. Gilbert Otte, pastor of Detroit's Trinity Lutheran Church and public relations director of the Michigan District of the Missouri Synod.

A bid for the junior college has also been entered by the California District.

"Since 75 per cent of the people belonging to the Missouri Synod live in the Midwest, the recruitment potential for ministers is greater here than on the West Coast," the Rev. Mr. Otte said.

He said California's bid for the college is centered about the increasing population of that state.

Supervisors' Study Committee Decides

Want Hospital for County

It will be recommended to the Oakland County Board of Supervisors Monday that the former officials of Pontiac Osteopathic Hospital be retained by the county as temporary offices during construction of a new county house.

This decision was made yesterday despite a flood of requests that the Telegraph road edifice be used for the temporary housing of the county's mentally ill.

A special committee of supervisors and county officials, which for a year has been looking for a use for the 33-year-old building, opposed these requests as "pressure tactics."

FOR THE BIRDS
David Levinson, Birmingham supervisor and head of new county house planning, said of this provision: "That's for the birds."

Such a use was the most often considered as Smith's committee received many suggestions. It was the mental health chapter which prompted 43 municipalities, townships, civic organizations and PTAs to submit resolutions to the Board of Supervisors urging the hospital be used for the short-term diagnostic care of the mentally ill.

Urging that these suggestions be approved, Mrs. Lawrence Hark, deputy probate register in charge of mental patients, appeared before Smith's committee, but to no avail.

She said Oakland County presently has 51 patients awaiting admission to mental institutions, most of whom are at home for lack of temporary facilities.

Mrs. Hark, appearing in the absence of Probate Judge Arthur F. Moore, the leading advocate of a mentally ill hospital, said restrictions prevent many of these patients from being committed to Detroit's St. Clair Hospital, where most of the county patients are being sent.

Smith's committee decided most of the offers made for the Contagious Hospital, vacant since last August, had to be turned down because under them the county would have had to shoulder too much of the operating costs.

Costs to the county for the mentally ill ranged all the way from \$250,000 to \$438,000, Smith said.

Although yesterday's committee (Continued on Page 4, Col. 5)

Goodrich Plant Hit by Fire in Detroit

DETROIT (AP)—A \$100,000 fire hit a B. F. Goodrich Co. plant near the Detroit waterfront today.

Firemen answered the three-alarm blaze at 7:20 a.m. They had the fire under control 30 minutes later.

A dozen workers were in the building when the blaze broke out. All ran to safety.

Fire Marshal Glenn E. Thom, who estimated the damage, said the fire began in the recapping plant apparently in a shorted-out piece of machinery.

Dense smoke drifting across the nearby Ambassador Bridge, linking Detroit and Windsor, Ont., slowed early morning traffic.

Tojo's Daughter Arrives to Begin Studies at U. of M.

DETROIT (AP)—Kimie Tojo, youngest daughter of Japan's World War II premier, was greeted with a kiss when she stepped from a plane yesterday to begin studies at the University of Michigan.

"We're pleased to have you, dear," said Mrs. Roscoe Bonsteel, wife of a university regent, as she hugged the 27-year-old Miss Tojo on the check.

She spoke briefly to newsmen before being whisked away to the university at nearby Ann Arbor in the Bonsteel Cadillac.

Miss Tojo's father, Hideki, was executed as a war criminal. He was premier of Japan when the United States and his country were plunged into war in 1941 by the attack on Pearl Harbor.

"I am very excited and nervous," she said as she faced reporters. When asked about her father, she quickly veered from the subject.

She plans to study political science at the University of Michigan on a scholarship donated anonymously. First, however, she will attend the university's English Language Institute to improve her English.

Miss Tojo will be among 140 students, 23 of them from Japan, at the institute. They will tour the university Saturday.

The new arrival has a master's degree in international politics from Japan's Hosei University.

STORM UPSETS AUTO — This car was caught up by tornado winds that slammed Miami last night, and was turned upside down against a house. Injured persons, tipped over autos and damaged homes were left in the twister's wake.

MAKE OVER PAGES

Three Lifers Up for Parole

County Men Jailed Years Ago Considered for Release

Three men sentenced by Oakland County Circuit Court judges more than 10 years ago are among 12 Jackson Prison inmates whom the State Parole Board is considering for commutation of sentence or release under the life law.

Being considered are Eddie Collins, sentenced by Judge Frank L. Doty to life for rape Dec. 8, 1941; Aubrey L. Moore, sentenced to life for second-degree murder April 8, 1946; and Edward J. McFadden, sentenced July 22, 1932 to life for first-degree murder.

Public hearings for the three and the other inmates will be held at Lansing June 19, 23, and 25, the State Corrections Department announced yesterday.

The group also includes two women, Anna N. Hampton of Kent County, and Julia Kulnich of Lapeer County.

Prosecutor Frederick C. Ziem emphasized the Oakland County men are only being considered for possible parole, or, in the case of first-degree lifer McFadden, commutation of sentence. Should the Parole Board favorably consider McFadden for commutation of sentence, this then would have to go to Gov. Williams for his approval, Ziem said.

Ziem said he would have to study each individual case before he could decide on such protests.

Fruehauf Defends His Loan to Beck

(Continued From Page One)

of the company's board of directors.

In 1954, Beck, according to testi-mony before the Senate Rackets Committee, got \$200,000 from Fruehauf and Seymour. The trader-makers said it was a loan and Seymour said yesterday it had been repaid with interest.

Last March, both Fruehauf and Seymour testified about the loan before the committee.

Both denied any union pressure to advance the money.

Beck's attorney, Charles S. Burdell, said that "naturally we'll fight this indictment."

Burdell said the indictment "in-volves a legal interpretation of the Taft-Hartley Act I've never heard of before." He did not elaborate.

Burdell indicated he would seek a postponement of the June 24 date on which Beck and the two trailer manufacturers are expected to enter pleas.

Conviction of violating the Taft-Hartley provision carries a maximum penalty of a year in prison and a \$1,000 fine for each principle involved.

No White House Tours

WASHINGTON (UPI) — The White House will be closed to sightseers July 3 through July 6, Press Secretary James C. Hager-ty said the public tours, usually conducted Tuesday through Sat-urday of each week, would not be held over the Fourth of July holiday weekend.

Useless but Enjoyable

17 Years, No Blast

CARDIFF, Wales (UPI) — Kenneth Westall finally found the Regency bomb he was sure had been dropped on his house by the Germans in 1942. A bomb crew defused it yesterday, in his attic.

as Cargo Not Israeli

PORT SAID, Egypt (AP) — The 4,500-ton Liberian-registered freighter Nord, detained for 24 hours on suspicion of carrying an Israeli cargo, was cleared today to pass through the Suez Canal.

United Arab Republic officials confirmed that the Nord's cargo of scrap iron had been loaded at Antwerp and was bound for Japan.

NO CANDY CASE — That's no candy cane Ralston W. Calvert (left) is receiving from Seymour V. Devereaux. In lieu of a plaque, which was presented last night, Calvert was given the barber's token after being selected the "Barber of the Year" at the 27th Annual Michigan Con-

vention of the State Barbers Association held at the Pontiac Elks Temple. Calvert, of 3780 Watuga St., Walled Lake, was presented the award for performing the most service to organization during the past year. Devereaux, 1225 Mohawk St., Royal Oak, is president of the association.

The Day in Birmingham

New High Schools Named for Former Board Heads

BIRMINGHAM — During its Tuesday night meeting the Birmingham Board of Education approved names for the city's two high schools.

The school now under construction at 13 Mile and Evergreen roads was named in honor of the late Wylie E. Groves, a former board president. The new school will be ready for limited occupancy in the fall.

The present high school located at Cranbrook road and Lincoln avenue was named for Ernest W. Seaholm, also a former Board of Education president.

Mr. Groves, who died last month, served on the Board of Education continuously from 1940 until his retirement in 1958. He was treasurer of the board for 13 years, and president from 1957 until his retirement.

Mr. Seaholm was a member of the board from 1939 until his retirement in 1956, serving as president for the nine years previous to his retirement. He lives at 1387 Fairway Rd. in Birmingham.

Richard Eastham, 19, of 471 Oakland Ave., Pontiac, charged with armed robbery in yesterday's Bloomfield Township hold-up of John R. McAlevy, 29, of the Roosevelt Hotel in Pontiac, was to be arraigned this morning before West Bloomfield Justice of the Peace Elmer Dieterle.

Eastham was captured following the holdup early yesterday morning when he returned to his automobile at the scene of the robbery.

Meanwhile, Bloomfield Township police are seeking Eastham's brother, David, 24, of the same address, believed to be an accomplice in the robbery.

"A Unique Magic Carpet" summer reading program has been set up by Mrs. Dorothy Burns, Children's Librarian at the Baldwin Public Library.

The "Magic Carpet" theme introduces young readers to a variety of books, carrying them from place to place through literature.

Boys and girls from the second grade upward are invited to select books beginning tomorrow for participation in the program.

The summer reading program is a tradition of more than 10 years' standing at the Baldwin Public Library.

Miss Jeanne Lloyd, librarian of the Baldwin Public Library, and Miss Lee Tuttle, the library's adult group services librarian, are in New York City for a conference at Columbia University dealing with metropolitan library problems.

Following the conference at Co-

lumbia, Miss Lloyd and Miss Tuttle will attend the annual conference of the American Library Assn. in Washington, D. C.

Beginning this Sunday, the Congregational Church of Birmingham, 388 N. Woodward Ave., will implement its summer schedule. Worship service and church school will be at 9:30 a.m.

Automation has come to Bloomfield Hills mailboxes.

No longer must Hills' citizens walk to the corner to mail that letter. Now they simply leap from their automobiles and drop the letter into a waiting snorkel-type mail chute.

The snorkel-type boxes went into service in Bloomfield Hills yesterday. Snorkels have an extra-wide opening on the street side, and drivers can drop letters without moving from behind the wheel.

Three of the effort-saving snorkels are now in operation — at the City Hall on East Long Lake Road, on Lone Pine Road at Academics, and on West Long Lake Road at Telegraph.

Three more snorkels are planned for the near future, according to Postmaster Herbert J. Dyble.

Patrick R. Benolken, BLOOMFIELD HILLS — Service for Patrick R. Benolken, six-year-

New Hoffa Probe to Start Next Week

WASHINGTON (AP) — Senate rackets probes said today they now expect to start next Thursday new hearings on the affairs of James R. Hoffa and scandals in the Teamsters Union which he heads.

The new date follows a series of postponements. The hearings are scheduled to wind up more than 2½ years of investigation by a Senate committee into alleged misdeeds by Hoffa and the Teamsters. It has accused him of an alliance with racketeers and gangsters.

Although the highlands of Scotland are more famed in song and story, it is the central lowlands, which have the rich agricultural farms and the profitable coal mines.

Tornado Batters Miami, Injures 100

(Continued From Page One)

heard this roaring sound and yelled. Everybody hit the floor and got under something.

"Then it struck. Bottles flew through the air. The cash register—it takes two men to lift it—fell off the counter. Parts of the ceiling fell down.

"The tornado must have lasted two minutes. As soon as it let up, I shouted 'Count off. I want to hear seven voices.' And thank God, they all spoke up. We got out of there."

John Brandt, 41, said he and his wife were in their small apartment when something wrenched their front window out of its frame.

"We ran into the bathroom," Brandt said. "I braced my back against the door and my feet against the bathtub. If I hadn't, the tornado would have been in there with us."

City police, sheriff's deputies, a Florida Highway Patrol detachment, and Civil Defense auxiliaries shunted curiosity seekers away from the area and guarded against looting from stores and homes where building fronts stood wrenched open.

Firemen and power company crews coped with spluttering wires that sparked in ransacked streets.

Flames were under way to feed people chased from their homes by the storm. Emergency kitchens were to begin operating today in some areas.

Everything we had is gone—loved," said Dr. George Ferris. My \$10,000 house is destroyed. There's a grapefruit tree where our living room was, our pool's been ripped out of the ground."

The pressbox at Miami Stadium, 100 feet high, provided a frightening look at the storm.

Luther Evans, sports writer of the Miami Herald, said for five minutes he had watched "the awesome black funnel, as lightning and seeming explosions frequently brightened the stormy sky."

In a single block of north Bay shore Drive, in the area of great destruction, more than a dozen automobiles lay overturned or crumpled. Some had been slammed against buildings.

A first boat lay upside down in the middle of the street. Rough boys said it was blown off a trailer, a block and a half away.

The winds were freakish. They pounded the front of a north Bay shore Drive veterinary clinic to wreckage but only raised dust in caretaker Billy Hardin's home just behind the clinic.

The need for a community center in southwest Pontiac is great, members of the City Commission were told last night.

Recreational facilities, guidance for teenagers and young adults, a focal point for cultural activities are all sorely needed, it was declared.

Three city commissioners attended a meeting called by a group headed by Commissioner Milton R. Henry to air prospects of building a community center.

Attending were Mayor Philip E. Rowston, commissioners Robert A. Landry and Wesley J. Wood and City Manager Walter K. Willman.

A tentative plan for a \$40,000 community center was described and tentative arrangements outlined for land, funds and design for a one-story, glass and brick building housing bowling alleys, a roller skating rink, conference rooms and a combination gymnasium auditorium dance floor.

The city was asked to consider taking over such a community center on a lease-back basis and running it if private interests were to finance and build it.

IDEA ATTRACTIVE

Rowston and Willman asked the group to submit a definite proposal covering costs and building design. The idea has many attractive features," said Willman.

Speaking besides Henry in behalf of a community center were Clarence Simmel, an Oakland County probation officer, and James E. Roberts, an assistant Oakland County prosecutor.

Both law officials believed that recreational facilities would help cut down on the juvenile delinquency and crime rates.

A community center, they said, would cost far less in dollars and cents than the prior taxpayers pay to prosecute and imprison law breakers.

And to deter youth from crime is an invaluable saving," Roberts said.

A fourth speaker, William Goodman, said a group of private investors were interested in financing a community center here if the investment were profitable.

They would want a return on

their money, of course, but no more than is experienced on the average land contract," said Goodman, who is the owner of Goodman's Department Store, 520 S. Saginaw St.

FEES WOULD PAY

He believed that fees charged for use of the center's facilities would be sufficient, on a long-term basis, to pay off the original investment plus interest.

Goodman, who owns a large tract of land in the southwest area, said he would be willing to sell a parcel for a community center site "at a nominal cost."

He proposed a five-acre site on Gillespie street, next to the Lake-side Housing Project.

A Pontiac contractor, Joseph Durand, offered to submit designs for a community center to the City Commission for study.

Owner of the Specialty Builders Co., 443 Orchard Lake Ave., Durand said his firm had already voluntarily prepared several designs.

Following the conference at Co-

Laws on Sex Offenses
Must Be More Stringent

The PRESS has advocated in the past that some change in law enforcement agencies and the judiciary in regards to KNOWN SEX OFFENDERS is absolutely necessary.

These beastly attacks such as the recent one in Detroit are a disgrace to our communities. Is it expecting too much to think that our wives and small children can walk the streets without being molested by known sex deviates? We repeat—we mean KNOWN DEVIATES that already have police records.

The number of serious crimes that are committed by second, third and fourth time offenders is astounding. These men, or boys as the case may be, are definitely sick. They need help.

But first and foremost our children and women deserve protection from these unjustifiable immoral acts. It does not seem practical to continue to release these unfortunate deviates.

Under our present setup, whether it is the law or the courts, we are harboring criminals that are jeopardizing our own families. The problem is a large one and we do not know the remedy. But it is perfectly obvious that some immediate steps should be taken.

Until such time as proper legislation and laws can be enacted, it would seem reasonable to believe that all known sex deviates should be locked up. They should be in some institution under proper surveillance rather than roaming our streets.

Pleading temporary insanity is plain hogwash. Far too many guilty parties are escaping their just punishment or treatment by claiming to be temporarily mentally upset.

Immoral and ravishing sex acts are costing the lives of far too many children and women. It is up to the courts or the law enforcement agencies to institute an immediate investigation to curb these unnecessary crimes.

Keralans Awakening
to Communist Danger

A heartening change is taking place within the Communist controlled Indian State of Kerala.

Hostile demonstrations show the strength and extent of the movement to oust the Communist government. This may not happen until the next election because it could undermine constitutional procedures and thereby help Communist propaganda in India and elsewhere.

In addition to opposing the recently passed Education Act which gives Communists control of appointment of teachers to several thousand government aided schools in the state, the Congress party accuses the administration of corruption and of conversion of public funds to party purposes.

By a very small majority the Communists took over Kerala in April 1957. Strangely enough it has the highest literacy rate and the worst economic conditions, fertile grounds for Communism. By August of that year reports

indicated there was a complete breakdown of law and order.

However, opposition to the government is so divided that Prime Minister NEHRU, who has been harsh in his denunciation of domestic Communism, may have to use his constitutional power to restrain the government if "its acts are not in the best interests of India."

In the past Mr. Nehru seems to have preferred letting the Keralans make their own mistakes and work out their own salvation. It is encouraging to note that the people themselves are now taking action.

According to an article in the current number of a national magazine, the most practical way to get rid of cockroaches is to trap them, cook and eat them. They're loaded with protein and vitamins. (You're welcome.)

It is wondered if there's anything that will settle a person's stomach that has been rolled by hearing that oily-tongued spieler croon over the air. "W-e-l-l, you're a man who thinks for himself!"

The Man About Town
Freckles Favored

Prize Again Offered for Best Display at 4-H Fair

Summer: What officially arrives Sunday evening—after some strong rehearsals.

A \$50 U.S. Savings Bond will again be given by The Pontiac Press for the freckle champion at the annual Oakland County 4-H Club Fair.

to be held Aug. 11 to 14 I have the assurance of County Extension Director Lyle Abel

that it will be accorded a top place on the program.

Last year, when first inaugurated, the freckle event drew 34 contestants, the winner being 11 year old

Judy Fay Blaylock of Lake Orion, who surely glorified freckles.

Judges will be named by the fair management. There is no entrance fee, and both boys and girls are eligible. Plenty of advance notice is given to nurture, coax, pet, foster, breed, train, fertilize, sustain, fondle, urge, humor, coddle, embrace, flatter, beguile and charm your freckles before the contest takes place.

That national magazine of the jewelry business,

Jewelers' Circular-Keystone, in its current issue, under the heading of "Ride and Shop," says: "Merchants in downtown Pontiac, Mich., were concerned, too, when the city's bus lines were threatened with failure. No public transportation for suburban shoppers would be tough for everyone.

"It was a jeweler who thought up the scheme for reviving bus traffic. Why not hand out a bus token with each \$2 purchase?" he suggested to the Pontiac Area Chamber of Commerce.

"And that's what's happening right now—with 34 merchants cooperating. First returns indicate that the bus company's financial woes are on the wane—and that downtown trade is getting the shot-in-the-arm it has needed."

Double orchids go today to—

George J. Scott

our oldest administrative office holder on a county basis, celebrating his 91st birthday. For many years he has been a member of the Board of Trustees of the Oakland County Tuberculosis Sanatorium.

Verbal Orchids to—

Clinton Hall

of 160 Auburn Ave., 86th birthday.

Mr. and Mrs. Wellington Clements of 197 East Huron St., 53rd wedding anniversary.

Roscoe Maitland

of Lake Orion, 85th birthday

Mr. and Mrs. Frederick Rosenau of Orchard Lake, golden wedding.

Mrs. Rachel Opperman of Birmingham, 83rd birthday.

of Drayton Plains, 85th birthday.

William Martin

of Farmington, 82nd birthday.

Joe Haas

of Holly, 82nd birthday.

David Lawrence Says:
Congress Jumps on Navy, Not Reds

WASHINGTON—So the American plane was unable to return the fire of the enemy planes! What a strange impact this has had on Congress. One would have thought there would be a great deal of indignation expressed against the enemy's wanton act. Instead, an avalanche of criticism was directed against the Navy for allowing a plane assigned to a reconnaissance mission to be without adequate armament. But wasn't the American plane's peaceful errand thereby emphasized?

One might infer that Congress is ready to say that unidentified planes in the Far East should be destroyed when they open fire. Yet if anyone were to suggest that such an enemy plane be pursued to its base and punishment inflicted on the base from which the plane came, this would be denounced as an action likely to bring on a full-fledged war.

The attack on the American plane occurred on the high seas far from any territorial waters. Under international law any plane of any country has a right to travel. The bombardment of the American plane was a hostile act. It was an act of war. It was an attack on the American flag.

What will Congress do about it? Will those same members who are so ready to criticize the Navy because its plane had its armament removed to make way for reconnaissance equipment now stand ready to demand redress from the Communist country which started the shooting?

Will there be any group of congressmen who will advocate that diplomatic relations with the Kremlin be severed, since that government is primarily responsible for what its Allies—Red China and North Korea—do?

It was Russian MIG fighter planes which attacked the U.S. Navy plane. The survivors of the attack say they saw a red star on one of the enemy planes.

SEND NOTE:

Will the Department of State send a note to the Soviet government holding it to a strict accountability for its act in the Far East?

There was a time when America resented attacks on its citizens traveling the high seas. It was this very issue which caused the United States to enter World War I.

There has been some suggestion that the incident was provoked so as to have some bearing on the course of the Geneva conference by creating new tensions. If the objective was to bring about a situation that would make it necessary to

"I'd rather see a fellow find God at work in the world today than in something written thousands of years ago."

hold a "summit" meeting in order to deal with newly arisen problems of importance to world peace, whoever thought up the plan could not have known American psychology.

For this kind of occurrence can only lessen the chances of a "summit" meeting. The Western Allies certainly will not be bludgeoned into the holding of conferences under any form of duress.

In any event the decision now will be to escort all such patrol planes. But will this lessen the chance of conflict? Who is to say which side fired first? Sometimes it isn't wise to wait for the other fellow to swoop down on your plane and open fire. It's better to intercept or ward off the attacker.

In a sense the whole incident reflects what can happen on a

Dr. William Brady Says:
Vitamins Are Important
to Prevent, Cure Colitis

"Dear Dr. Brady: On your suggestion, I began supplementing my very restricted diet with calcium, phosphorus, iodine, vitamin B1 (thiamine), vitamin B2 (riboflavin) and vitamin D (sunshine vitamin). At the time I was having quite a siege of colitis and the doctor had me on an inadequate diet of baby food.

"I have always felt that this supplement was responsible for overcoming the colitis. From time to time I have had slight attacks but am not troubled at all in recent years.

"At the same time, on your advice, I stopped all laxatives and other 'aids' and, sure enough, found that I no longer needed them.

"Now I wonder whether, getting along in years, I get enough calcium and D from tablets to prevent my bones from becoming brittle and breaking from slight injury, as happens to so many elderly people. Sincerely, Mrs. S. W."

If you eat 6 calcium and vitamin D tablets daily you get all the calcium anyone needs, and all the vitamin D anyone needs to insure utilization of calcium. Even if your diet is as calcium-deficient as is the everyday diet of most Americans.

If your diet supplies, say, half as much calcium as is necessary for good nutrition, 3 calcium capsules a day will bring your calcium intake up to approximate the minimum daily requirement.

If you consume less than 1 1/2 pints (three glasses) of milk daily you probably suffer from calcium deficiency. I describe the most frequent manifestations of calcium deficiency in the booklet, "The Calcium Shortage." For a copy send 35 cents and stamped, self-addressed envelope.

Most physicians today are cognizant of the importance of vitamin B complex in the prevention and

Smiles

There are two times when people worry — when they're single and when they're married.

For every inhabitant in an Indiana town there are five chickens. The place is hen-pecked!

Voice of the People
'You Have Wayne Morse Pegged Exactly as He Is'

Congratulations on your editorial in regard to Wayne Morse. Your comments defy repudiation. In my opinion your article has him pegged for what he really is, an accident going someplace to happen.

Tells Emily, Rosie to Hide Their Faces
Reader Praises Downtown Flowers

In regards to Emily and Rosie's letter in Saturday's paper, I'd like you to go visit the Little White House in Warm Springs, Ga. And the next time you see a polio patient in a wheel chair or with braces on his arms and legs, think of Mr. and Mrs. Franklin D. Roosevelt and how much they did for folks that had that awful disease. So before you criticize someone else, go look in the mirror and then go hide your face in shame. Phooey on you, too.

Today I noticed that many geraniums have been pulled off and even some dirt scattered around. Why can't some people leave things alone? What is it that makes them want to tear everything up? If that happened to me, I'd be most discouraged.

Readers Differ on Rape Case

The judge in that Florida case should be a bit lenient. If you're going to introduce new customs, everyone ought to get a little warning and those four boys didn't know they were changing the rules.

About 50 people ought to send a copy of the editorial on the Florida rape case to the presiding judge. I think it expresses what is in the minds of most of us.

This Young One Has The Answer

More men don't wear crew cuts because they look terrible. My father is 40 and he got one. He looks like a gorilla. My brother is five. He has a crew cut but on him it's okay.

Another Favors 'Cats Over Dogs'

Birdlover, you're wasting your time, as cats have been around as long as birds and it looks as if, each is here to stay. Cats are a natural enemy of birds, which have a sporting chance to escape.

Let's talk about unnatural enemies such as little boys with b.b. guns and "innocent" dogs that are known to destroy more quail than cats. And how about grown men with guns? What sporting chance do birds have to escape their bullets?

The newest enemy, insect spray, will end when it's almost too late, but we'll wake up eventually.

Area Golf Coach Likes Tournament

On behalf of the boys on our golf squad and myself, I want to thank you for the opportunity to play in the Pontiac Press Golf tournament.

It's a better deal for the kids than the state tournament and also a better-run tournament. Congratulations on a job well done and thanks again.

Case Records of a Psychologist:
Gives Advice on Choosing Career

Don is like the typical high school graduate, for he has no specific career ahead. So he wonders about the wisdom of going to college. And should he take up his Dad's profession? It is often smart to do so, though many boys like to branch out on their own to avoid being accused of riding papa's coattails.

Those other food preferences were learned. You were in a cheery, jolly family group at the table when mother slipped you the first taste of potatoes or spinach.

After several repetitions on other days, you finally transferred your generalized emotional mood to the new food. It now tastes good whereas it was a neutral flavor at the outset.

Most of our college students don't know what career they will enter, even when they have spent two years in college.

Then study for that career. As you become acquainted with its vocabulary and techniques, and as you make good grades therein, you will begin to like it.

Your fondness for a trade or profession will follow the very same pattern as your original development of an appetite for spinach or steak.

So try to take at least one year of college, as the minimum, for Dr. Paul C. Glick, of our Census Bureau, showed that one year of college will add \$25,000 to your lifetime earnings.

If you can devote only one or two years to college, then a business college will normally

Send for my "Vocational Guidance Kit," enclosing a stamped return envelope, plus 20 cents (non-profit).

It will add many other ideas and give you familiarity with objective tests and college exams.

Latin America in Grip of Violence, Unrest

By CHARLES STAFFORD
AP, Feature Writer

Trouble has settled like a fog over the pocket-sized nations of Latin America.

Countries surrounding and dotting the tropical Caribbean, and extending into South America, are almost unanimously in the grip of political unrest, economic woes or questions involving the future course of government.

The recent fighting in Nicaragua is only the most spectacular manifestation of this trouble. Honduras, British Honduras, Guatemala, Colombia, Venezuela, Panama, the Dominican Republic, Haiti, Cuba, Ecuador, Puerto Rico—all these have problems.

Nicaragua's president, Luis Somoza, who inherited the dictatorship from his assassinated father in 1956, has warned: "I am no Batista (Cuba's ex-dictator) who can be forced to leave the country in a plane. I am going to die in my post right here, and here my body will remain."

Somoza's country is surrounded by unfriendliness. Costa Rica is a haven for anti-Somoza exiles and the national assembly has voted its support of the revolutionary movement in Nicaragua. Somoza's government expects trouble from El Salvador. And relations with Honduras have been poor.

Honduras, however, has its own troubles. Violent incidents have occurred periodically since the government of President Ramon Villeda Morales squashed an uprising early this year.

In neighboring British Honduras, a crown colony, there is agitation for independence. Talks in London between native leaders and the government about the colony's future broke down when the British charged that a conspiracy was afoot to unite British Honduras with Guatemala.

Roots in Cuba

Much of the current unrest in Latin America has roots in Fidel Castro's successful revolution in Cuba.

In Haiti, where President Jean Etienne Duvalier has lost dictatorial power since last July 28, the political situation is complicated by famine and unemployment. Little

The Dominican Republic, which President Romulo Betancourt, shares the island of Hispaniola who was elected following overthrow of hardfisted dictator Marcos Perez years by hardfisted dictator Ra-Jimenez.

Bandit bands, blamed by the government on extremist elements and Communist agitators, have earned the hostility of Cuba by granting asylum to ex-Cuban die-hard left a trail of blood in Colombia. Riots, touched off by a personal grudge between an army general and his captain, have caused more than two score deaths in Ecuador.

In Cuba, Castro has internal problems which he must solve. Unemployment is high, the construction industry is almost paralyzed, and the lucrative tourist trade is almost stagnant.

Luis Munoz Marin wishes to continue the island's commonwealth.

Three countries along the northern fringe of South America are agitating for statehood. A once troubled Venezuela on question might be held in the fall is danger of a tornado.

4 Michigan Residents Are Advisers on Aging

ANN ARBOR (UPI) — Four Michigan residents have been appointed to the national Advisory Committee for the 1961 White House Conference on Aging.

The state members include William Donahue, chairman of the University of Michigan Division of Gerontology; John B. Martin of Grand Rapids, chairman of the Michigan State Legislative Advisory Committee on Problems of the Aging; Charles E. Odell of Ann Arbor, director of the OVLDER and Retired Workers Department of the United Auto Workers union; and Dr. Frederick C. Swartz of East Lansing, chairman of the Committee on Aging of the American Medical Assn.

Ready for Hurricanes

ERICK, Okla. (U-P) — High school students here have been assigned to help in the event of a hurricane. Several persons have been assigned to help in the event of a hurricane. Several persons have been assigned to help in the event of a hurricane.

MAKING OVER BILLS
Parents Will Receive Notices

Tells of Fluoride Clinic

Details of the Waterford Township summer fluoride treatment program have been announced by Mrs. John Hoke, co-ordinator. Parents have been asked to wait until they receive a notification card from the health chairman of the Parent-Teacher Assn. of the school their child is enrolled in before going for the fluoride treatment. A different school is scheduled every six days from 9 a.m. until 4 p.m. The project is being conducted at the Schoolcraft School, Maceday drive, at Williams Lake road. Many parents have been bringing their children to the school for the fluoride treatments thinking it is operated like the polio clinic, Mrs. Hoke said. "The fluoride program is much more involved than the polio clinics," she said. "Students from the University of Michigan and University of Detroit, about to graduate in dentistry, along with more than 60 volunteers from area PTAs, administer the treatments." More than 1,400 children in the 4, 7, 10 and 13-year age groups have been registered for the four \$3 treatments. The program will continue through Aug. 4.

Williams Hit on Gunaca Case

GOP Solon Asks Law to Stop Long Delays on Extraditions

LANSING UP—Miffed by Gov. Williams' role in the John Gunaca extradition case, a Republican legislator says he will draft legislation to prevent long delays in acting on extradition requests. "In my opinion, events show that the governor did not display a responsible exercise of his power of extradition in this case," said Rep. Robert E. Walker (R-Grosse Pointe). "This power should be used to protect, not impede, the public welfare and the security of society."

ADVERTISEMENTS
Notice to Contractors
Sealed proposals will be received at the office of the City Clerk, City Hall, Pontiac, Michigan, until 2 o'clock p.m. Eastern Standard Time, of Tuesday, July 7, 1959, at which time the bids will be publicly opened and read by the Clerk. The rates of bids for the different items noted for the construction of: Reinforced Concrete Base Widening, Plain Concrete Pavement, Bituminous Concrete Recap, Asphaltic Concrete Surface Course, Standard Curb and Gutter, Drainage and Related Work on Cass Ave. from the Southern line of Lot 10, P. No. 4 to Oakland Ave. and Joslyn Ave. from Walton Boulevard to Collier Road. The quantities involved in this work consist principally of the following: Excavation, 12820 C.Y.; Bituminous Concrete Base Widening, 5803 S.Y.; 9" Plain Concrete Pavement, 6800 S.Y.; Std. Curb and Gutter, Type B, Tied, 4810 L.F.; Bituminous Concrete Surface Course, 1135 Tons; 2" Asphaltic Concrete Surface Course, 1142 S.Y.; Sand-Gravel Borrow, 2981 C.Y.; Road Gravel, 960 C.Y.; 12" 42" Storm Drain and Inlet Connection, 4872 L.F.; Standard Manholes, 24 EA; Standard Inlets, 37 EA; 12" C.M.P. Culverts, 304 L.F. The Plans and Specifications for the work may be examined at the office of the City Engineer, Pontiac, Michigan, or copies may be obtained by making a deposit of \$10.00 per set, which deposit will be refunded upon return of the Plans and Specifications in good condition within 5 days after the date for opening bids. A certified check or a satisfactory surety bid bond for a sum not less than 5% of the amount of the proposal will be required with each proposal as a guarantee of good faith and same to be subject to the conditions stipulated in the Instructions to Bidders. No proposal once submitted may be withdrawn for at least 45 days after the actual opening of the bids. The right to accept any proposal, to reject any or all proposals and to waive defects in proposals is reserved by the City.

Says U.S. Was Ready to Carry War to China

SALT LAKE CITY, Utah (AP)—Republican National Chairman Thruston B. Morton says the Eisenhower administration was prepared to carry the Korean War into Red China if the Communists hadn't agreed to a truce in 1953. "We weren't going to pay any attention to that Yalu River line," Morton told a Utah Republican gathering here Wednesday night. It was United Nations policy to keep its fighting units south of the Yalu River, the border between Korea and Red China. Some military critics claimed this gave the Communists a sanctuary. Morton, Republican senator from Kentucky, said he was in the State Department at the time and knew the facts.

Aerial Police Urged

Argentina Army Gains Support

Force Replacement of Official by Anti-Peronist in 3rd Day of Crisis

BUENOS AIRES, Argentina (AP)—Support grew today for dissident army groups that already have forced the replacement of Argentina's undersecretary of war by a fervid anti-Peronist.

As President Arturo Frondizi's government entered its third day of crisis, heavily armed units manned all military establishments and fortified the War Ministry in Buenos Aires with machinegun posts.

At least two powerful army groups—in Campo de Mayo, near Buenos Aires, and at Salta, in northern Argentina—were reported supporting the stand of the Cardoba Army Command, which forced Col. Manuel R. Ramirez to resign as undersecretary of war.

Ramirez, felt by his fellow officers to be an ultranationalist, was replaced by Gen. Ricardo Franco, described as closely linked with the Cardoba group led by Gen. Roberto Galtieri.

Galtieri demanded a thorough investigation of a rumored plot by Peronists to overthrow Frondizi and resume Peronism. The Cardoba group also is demanding an end to the government's use of troops and military powers to block strikes on the railroads and other key enterprises.

Frondizi has denied any plot with Peron, though the ex-dictator and his supporters came one was signed. The plot was announced Wednesday night by Interior Minister Alfredo Videla in a rough debate in the House of Deputies.

Frondizi remained in almost continuous conference with his military and political advisers.

Cost Prohibitive Now

Official Foresees Plastic Cars

By BEN PHLEGAR
AP Automotive Writer

DETROIT (AP)—Fenders that won't crumple or dent, comfortable seats without springs, a floorboard that looks like luxury carpet. These and more are ideas which a Detroit industrial designer says can be incorporated in the cars of the near future by using plastics.

Montgomery Fierar does not design automobiles but his firm does dabble in designs for almost everything else from the giant Univac computers, through Whirlpool appliances to toilet seats.

And Fierar is a great advocate of plastics. Strength, durability, time appearance—these are no problem, he says. Cost? So far that's the stopper.

"The plastic business has been mainly in the hands of the chemists," Fierar said in a recent interview. "So far no one has really explored the field of developing the plastic machinery necessary to produce plastics suitable for the major body parts of automobiles. And until they do, the cost will be too high to make it practical."

"The plastic car will come gradually," Fierar said. "Undoubtedly plastic fenders are being tested now. An entire fender could be molded as a single unit filled with plastic foam that would deaden the noise and act as wonderful insulation."

SINGLE-PIECE SEATS

Seats could be molded in a single piece without springs. The other day I saw samples of a vinyl cloth seat. It looks like the finest grades of wood. But it could be developed in molded form to fit the car's interior contours of an automobile floor and used as the floor and other key enterprises.

Fierar sees all of these items as cutting the cost of assembling cars. "You only have to look at an assembly line in an appliance factory where plastics are used extensively and compare it with

an auto assembly line to see the great difference in the amount of labor required," he said.

He also believes the use of such easily replaceable parts as plastic fenders would help cut the rising insurance rates on cars.

"Lighter weight is another advantage," he said, "especially with the coming of the new small cars. Weight will continue to be an important problem."

Fierar ventured into automotive styling just once, for the old Packard corporation just after World War II. His firm designed a full line of cars but it was never put into production because of a lack of capital.

Policeman Has Doggondest Job at Grass Fire

LOS ANGELES (AP)—Police man Kenneth Shupp had the doggondest time fighting a grass fire Wednesday.

He hastily reported the blaze after spotting it heading for a large wooden house. In the backyard, he found about 20 dogs in kennels. He freed them and heaved each one over the fence to safety.

Then Shupp broke down the front door—and found the house full of dogs. He estimated it took him 15 minutes to empty the building. After the fire was out, Shupp rounded up all the dogs. He never did learn the name of the kennel owner. Didn't have time.

Sister Beats Him Out

HERMON, N. Y. (UPI)—Wendell Holland's high school average was "C" 10, which would have been high in the class except that his sister Lynette had a "B" 4.

PUBLIC NOTICE

THE 1959 HOUSE PAINTING SEASON IS OFFICIALLY OPEN

The weather is warm. The sun is shining. NOW is the time of year to protect and beautify your most valuable possession... your home, along with its fences, garage and all those other outdoor jobs you've been meaning to get to "when the weather was right." Remember, after you've talked it over with the Victor Paint Expert in the center nearest your home, you still have time to get all the paint you want at the full price for the first gallon (say, \$6.95)... and just 1c more for the second.

VICTOR PAINT & WALLPAPER CO.
158 N. SAGINAW ST.
Next to Sears—Free Parking
FE 8-6544
OPEN EVERY EVENING TIL 9 P.M.

He feels the stylists let themselves be carried away when they designed the 1959 model cars.

TOO MUCH GLASS

"They are things of beauty," he said, "but the stylists have forgotten the passengers' comfort. All that glass under a hot sun on a long trip can be terrible."

"Styling in the industrial field is so much a matter of timing—whether you can come up with a good product at a time the public is willing to accept it."

"For example, I think the ideal 1959 car would have been the

1953 Plymouth jazzed up a little on the outside. The public would have eaten it up."

The 1953 Plymouth was billed as "smaller on the outside, bigger on the inside." It had a short wheelbase, two-piece fenders, a comfortable ride. But it was a sales flop.

The public hadn't yet learned to value those features," Fierar said. "Now it's a different matter. I think the small cars for 1960 are a step in the right direction if the manufacturers will just remember that an automobile must offer utility and comfort as well as beauty."

Notre Dame Men Jest at Judge Nomination

WASHINGTON (AP)—A Senate Judiciary subcommittee hearing testimony on the nomination of Leonard P. Walsh as a federal district judge, asked if there were any objections to him.

Two lawyers, both graduates of Notre-Dame, came up with one. Walsh had caught a touchdown pass for Minnesota in 1927 that blocked a victory for Notre-Dame, said the smiling lawyers, Joseph P. O'Hara and James F. Kelly. The football game ended in a 7-7 tie.

The island of Mona, off the west coast of Puerto Rico, is rich in deposits of guano, a nitrogenous fertilizer.

Red Sox Flew First

CHICAGO (UPI)—The Boston Red Sox, who flew from St. Louis

to Chicago on July 30, 1936, were the first major league baseball team ever to be transported by plane.

Dear Abby . . .

Hubby No Sitter for 18-Year-Old

By ABIGAIL VAN BUREN

DEAR ABBY: On Oct. 10, 1958 I sent a wedding gift to the daughter of a friend. I know this girl got the gift because her mother said she did. But as yet I haven't received a thank-you note from the girl.

Her mother said a bride has a year in which to acknowledge her wedding gifts. Is that a fact? This girl had plenty of time before the wedding to sit down and send out over 300 wedding invitations to people all over the country (she didn't know half of them) but she can't find time

to thank them for the gifts. What is my next move?

MRS. L.

DEAR MRS. L: The next move is hers, not yours. The well-bred bride acknowledges her wedding gifts within 3 days after she returns from her honeymoon trip.

DEAR ABBY: I wanted to send for your pamphlet on "How to Get Boys to Notice Me," but my father says too many boys notice me as it is. I am 10 years old but sometimes I pass for 12. Dear Abby, can you help me with my problem? I would like to have boys notice me.

NOT NOTICED

DEAR NOT: Girls your age have a lot of time in which to be noticed. Be your sweet 10-year-old self, and let Nature take its course.

DEAR ABBY: If those im-

mature parents who squabble over who should meet their son when he comes back from overseas had a real worry, they wouldn't have time to think about such a trivial thing. The important thing is that the boy is coming home. I met my sons at the train—two of them.

But they were in boxes, draped in flags.

Sincerely yours,
HATTIE HAMILTON

DEAR ABBY: My husband and I have lived in this apartment for seven years and we have watched a little golden-haired girl grow up. She is now 18 but is childish in many ways although she is as developed physically as I am.

I work odd hours at the hospital around the corner. Many times I will come home and find this neighbor girl sleeping on our day-bed. She says she is afraid to sleep alone.

My husband is young, good-looking and only human. While I trust him and realize this girl is sweet but simple-minded, how long should I put up with this? I tell my husband it doesn't look right but he kids me out of it. Please advise me.

UPSET

DEAR UPSET: Doesn't his "sweet but simple-minded 18-year-old child" have parents? Tell her in words of one syllable that your husband is not a baby-sitter for 18-year-olds and be sure your husband understands that YOU are NOT kidding!

"Why don't my parents trust me?" For What Every Teenager Wants to Know, send 25c and a large, stamped, self-addressed envelope to ABBY, care of this paper.

For a personal reply, write to ABBY in care of this paper. Enclose a self-addressed stamped envelope.

Officers Elected by Legion Unit

Cook-Nelson Post Auxiliary Headed by Mrs. McKee

Mrs. James McKee was elected president of the Woman's Auxiliary to American Legion, Cook Nelson Post 20, Monday evening at the post home.

Serving with her will be Mrs. David Warrillow, first vice president; Mrs. Milton Yerkes, second vice president; Mrs. Roger Dean, secretary; Mrs. Ray Jewell, treasurer; Mrs. Donald Wilcox, sergeant at arms; Mrs. Homer Sisney, chaplain; Mrs. Russell Thompson, historian; and Mrs. Arno Hulet, executive board.

Delegates to the convention, to be held in Grand Rapids in July, are Mrs. McKee and Mrs. Dean. Alternates are Mrs. Eldon Shown and Mrs. Jewell.

Past president Mrs. Robert Conant and the new president will be delegates to the annual district meeting and election to be held Saturday at the post home.

Soap Saves the Day on Sahara

Here's another unusual use of our old friend, soap! A British doctor recently found himself in the middle of the Sahara a thousand miles of dry desert ahead, his car's radiator burst. He filled the radiator gaps with yellow soap and drove hopefully on.

According to the London Daily Mail, quoting the doctor, "At first the radiator bubbled over with soap suds but it settled down and carried me safely for another five thousand miles."

State Senate Committee Studies Driver Fee Hike

LANSING (UPI)—The possibility of a 50-cent hike in the cost of drivers' licenses was under study today by the Senate Appropriations Committee.

Committee Chairman Elmer R. Porter (R-Blissfield) said it might be necessary to boost the fee in order to continue the driver training programs.

"The \$600,000 has got to come from somewhere," Porter said. "This may be the answer."

Mess Contract Given

DETROIT (AP)—Army engineers have awarded a \$408,304 contract to the Forrester Construction Co. of Flint to build an officers' mess at Wurtsmith Air Force Base, Oscoda. The project is to be completed in July of next year.

Health Program Starts 12th Year

Still Has Critics, but 2 British Parties Now Say They Invented It

LONDON (UPI)—Britain's "cradle to the grave" health program marks its 11th anniversary in July and, although it still has its critics, its political success can be measured by the fact that both parties claim they thought of it first.

Because the scheme was introduced in 1948 during a Labor government, it is generally referred to outside Britain, and sometimes inside too, as socialized medicine.

In any event, it works this way: Adults pay 9 shillings, 11 pence weekly (about \$1.40) as their contributions to old age and unemployment insurance as well as complete health coverage for themselves and their dependents.

This entitles them to medical, dental, surgical and optical care, hospital or sanatorium treatment, and so on. In fact, anything that might happen to a person's health from birth to death is provided for almost completely without cost.

At first, everything was free. But because some patients tended to abuse the right to demand medical attention, small charges were levied on certain services—for example, one shilling or 14 cents on each prescription and various small sums for full sets of false teeth, spectacles, wigs and other apparatus.

The cost of the nation's health service in 1958 is estimated at 695,000,000 sterling (\$1,916,000,000).

This is considerably more than original estimates and committees are constantly considering how the cost can be controlled.

Where drugs are of equal efficacy doctors are encouraged to prescribe the cheaper and patent medicines sometimes have to prove they can do what their advertisements say before they are eligible to be prescribed.

Britons are the second longest-lived people on earth—next to the Dutch—and have never been healthier, according to recent vital statistics. This is cited as a reply to the many who criticize the way the health program is being run.

The major opposition to the health scheme is centered in a group of 2,000 doctors banded into the Fellowship for Freedom in Medicine which describes itself as a "large minority" of the 20,000 practicing doctors in Britain.

Detroit-Based Pilot Escapes as Jet Crashes

NASHVILLE, Tenn. (AP)—An Air National Guard RF-8F Thunderflash jet crashed and burned at Berry Field yesterday but the pilot escaped, apparently unhurt.

Lt. William Jennings was returning from Mobile, Ala., to his home base at Detroit when the accident occurred, officials of the Tennessee Air National Guard said.

Jennings was taken to nearby Stewart Air Force Base for a medical flight check.

Trenton Firm Expands

DETROIT (AP)—McLouth Steel Corp. said Wednesday construction will begin at once on new facilities at its suburban Trenton plant. The expansion program is expected to cost 11 million dollars. It is to be completed in June 1960.

Bombs Explode as Castro Talks

Blasts Not Near TV Studio; Prime Minister Raps Press

HAVANA (AP)—Three bombs exploded in Havana Wednesday night during a television appearance by Prime Minister Fidel Castro.

Castro during his telecast made no mention of the bombings, which occurred in areas of the city away from the TV studio.

There were no reports of injuries or damages from the bombings, which were reminiscent of tactics used by Castro's underground during the terrorist campaign in Havana against President Fulgencio Batista.

Castro told his TV audience he would unmask elements of the press he accused of campaigning against his government.

Obviously nettled by editorial and other criticism of his land redistribution program, he said the newspapers would prefer to forget the "corrupt past and all the immoralities of past governments."

He did not explain what action he plans against the press. But he said a million rural residents would be brought to Havana soon for a rally in support of agrarian reform.

Referring to a local newspaper report that he had hired a New York publicity agent at \$72,000 a year to "make Castro known to Americans," the Prime Minister said the company was hired to combat foreign press "intrigue."

Castro also said foreign properties would not be touched this year in the implementation of his land reform program. Americans have large land holdings in Cuba.

London Critics Hail Efforts of Maria Callas

LONDON (AP)—Maria Callas' blazing characterization of a woman scorned won her the unanimous admiration of London's opera critics today. But it was her dramatic skill rather than her singing that impressed them in Chruabin's "Medea."

The Dallas Opera Co. production won 12 curtain calls from a glittering London audience Wednesday night. Miss Callas took five bows alone.

The opera was produced at London's Covent Garden as part of a British-American exchange with the Texas city. Dallas will see the Royal Opera production of Donizetti's "Lucia di Lammermoor."

The international set turned out in full to hear the New York-born soprano. In the audience were the Duchess of Kent, Lady Churchill, the Begum Aga Khan, ballerina Margot Fonteyn, Princess Alexandra, ambassadors, members of the government and stars of the stage and screen.

Tickets also were found for a group of Texans who flew here for the performance thinking they had places reserved. U.S. Ambassador John Hay Whitney helped straighten out the mixup by supplying four tickets. Others bought seats for later performances. The rest had to pay scalpers as much as \$70 for orchestra stalls listed \$11.75.

79 Africans Arrested

SALISBURY, Southern Rhodesia (AP)—Seventy-nine members of the African National Congress have been arrested in the past few days, bringing the total now held to nearly 4,000, police said today.

Restraint of Trade Charged in VW Sales

NEW YORK (AP)—The National Imported Car Dealers' Assn. and 10 members have filed a five-million-dollar antitrust suit against Volkswagen of America, Inc., and 14 distributors and agents.

One of the defendants is Import Motors Ltd. of Grand Rapids, Mich. The dealers accuse the defendants with conspiring since 1953 to restrain trade in Volkswagen automobiles and parts. Each claims \$500,000 damage.

The defendants are accused of having a continuing agreement among themselves to sell Volkswagens and parts at wholesale prices fixed by Volkswagen of America, and with refusing to sell Volkswagens to dealers unless they agree to handle the German cars exclusively.

The dealers also charge that the defendants refused to renew contracts or franchises appointing them authorized dealers. Nine of the companies suing are from New York State and one is from New Jersey.

Truck Mishap Fatal

MONROE (AP)—Karl M. Helwig, 30, of Dearborn, died Wednesday night of injuries suffered Tuesday when his car rammed the rear of a truck on U.S. 24A, a mile south of here.

School Used Clothing Drive Called Success

The Pontiac School Used Clothing Drive has netted a total of 11,539 pounds of clothes, announces chairman P. C. Allison.

The program was made possible through three local agencies, the St. Vincent De Paul Society, Salvation Army and Seventh-Day Adventist Dorcas Society.

"Students and PTAs have contributed greatly to the success of the program by providing 14 tons of clothing," said Allison.

"More than 500 families have been able to benefit from these clothing drives. Through the three agencies these families have been able to obtain good clothing both spring and fall so that their children might remain in school."

The drive's goal is one pound per child. Pontiac Central High School brought in the highest total of 4,234 pounds, or 24 pounds per student.

Car Passenger Dies in Crash With Horse

BATTLE CREEK (AP)—A runaway horse collided with a car near here last night, killing a woman passenger in the auto.

Mrs. Virginia L. Kline, 38, of Kalamazoo died of a crushed skull after a car driven by Michael W. Lindstrom, 38, also of Kalamazoo, struck the horse as it dashed onto M96, 10 miles west of here.

State police said the animal, which was killed, was owned by Jacob Tomb of rural Augusta. The horse landed on Lindstrom's car after it was hit.

TV Stations to Carry 1st Transatlantic Film

DETROIT (UPI)—Two Detroit area-television stations will carry programs today including the first television film transmitted across the Atlantic Ocean. CKLW-TV and WWJ-TV will carry special programs which will include films of Queen Elizabeth's departure from London for her tour of Canada.

Studio Sets Ambitious Film Making Program

HOLLYWOOD (AP)—The president of Warner Bros. says the big movie studio is embarking on the most ambitious film making project in its history.

Jack L. Warner told a Warner Bros. sales convention Wednesday that the studio plans to produce 34 movies through 1960. He said the total cost will be about \$5 million dollars.

He said the studio will stress story values and the development of new stars to supplement the appeal of established film personalities.

Dodgers Win Two-Night Doubleheader

Milwaukee Losing NL Hold

By The Associated Press
What's with the Milwaukee Braves? They've lost 10 of their last 13 games and have been shut out three times in the last five games. Is this the beginning of the end to their hold on the National League pennant — or is this just another pennant — or is this just another of those slumps, such as they had and shrugged off while winning the flag the past two years?

Either way, they have only a half-game edge left from what was a bulging 4½-game lead a month ago after dropping a two-night doubleheader at Los Angeles last night. They were checked on five hits by left hander Sandy Koufax while losing the opener 10-2, then were blanked on two hits by Danny McDevitt, another lefty, as the Dodgers took the second game 1-0.

That put second place San Francisco, a 7½ winner over Cincinnati, just one game behind in the "lost" column and within 600 percentage points of the champs. The sweep hoisted the Dodgers into fourth place, one percentage point behind Pittsburgh following the Pirates' 5-2 loss to the Chicago Cubs. Both the Dodgers and Braves are only 2½ games from the top.

St. Louis whipped Philadelphia 10-4 in the other NL game.

The Braves lost behind their best pitchers in this present skid with Lew Burdette dropping two, Bob Rush three and Bob Buhl one. And in last night's opener, south paw ace Warren Spahn failed to finish a five-run first inning for his third defeat in his last four decisions.

Spahn (18-8) retired just one man. He left after giving up Junior Gilliam's leadoff homer and a three-run triple by rookie Frank Howard. Spahn, 35, is 0-3 against Los Angeles this season and has lost four of five decisions in three years under a flax that has produced only a 14-28 lifetime mark against the Dodgers.

The Braves, getting a first game home run from Johnny Logan against Koufax (11) who gained his first complete game while beating Milwaukee a second time

this year, had only a pair of 10th but needed help in the eighth. The Cards made it nine out of 11 with Ray Jablonski and Bill nightcap. McDevitt (6-6), walked. Cal Neenan, who singled and White each driving in three runs, scored the tying run in the seventh. A five-run 11th put it away.

The Giants broke a 2-2 tie with the Cubs, hit a three-run, in against reliever Humberto Robins, who pitched the eighth and ninth. Lefty Marshall, who pitched the eighth and ninth, hit the Phils to five hits, including a two-run smash by Willie Hatcher (4-5), who has lost four and one run for a winning, 5-1-3. Kirkland, three walks and an to Chicago, Bill Henry (5-2) won in relief job in his major league debut.

HAPPY BIRDS — Milt Pappas (left), Chico Carrasquel and Gus Triandos are a trio of happy birds. They stopped the high flying Detroit Tigers last night, 4-0. Pappas pitched a "chatter" while Carrasquel and Triandos added homers, hit off Jim Bunning. It was the first Major League shut out for Pappas.

Former Detroit Cooley Hurler Allows Two Hits

Bunning Again Rapped With Pair of Oriole Home Runs

BALTIMORE (AP) — Just when the Detroit Tigers got their sights trained on second place, along came a skinny 20-year-old who learned his baseball in their backyard.

Milt Pappas stunned the hopeful Tigers with a sparkling two-hitter and the Baltimore Orioles walked off with a 4-0 win last night.

The Tigers' front office won't admit that its scouts missed on Pappas, but there's no denying the Tigers' hitters missed him in Memorial Stadium. The bubble-gum chewing right-hander struck out six batters and did not permit a runner to get as far as second base.

Pappas' hiking his record to 6-3 and separating his lifetime mark against his hometown team at 2-2, started in perfect game style. He retired the first 14 batters before Lou Berberet scratched a fifth inning single off the glove of shortstop Chico Carrasquel.

The kid from Detroit's Cooley High School also gave up a seventh inning single to Jim Bunning. No other Tiger batter reached base. Pappas finished as strongly as he began, settling down in order the last 11 men.

Detroit's defeat, although only the third in the club's last 13 games, came at an inopportune time. The Tigers knew when they took the field they could tie for second place by winning, since Chicago had lost to New York in an afternoon game.

As it now stands, the first five teams are crammed side-by-side in the American League standings.

Bunning, lifted after seven innings pitched creditably. But the softer ball trouble that plagues the lean right-hander every time he walks to the mound got him in hot water again.

Losing for the sixth time against the same number of victories, Bunning retired the first 13 men before catcher Gus Triandos slammed a tremendous home run well over 400 feet. Later in the fifth inning, the light-hitting Carrasquel cracked a home run over the left field fence.

FIVE'S THE NUMBER — Having won the Colonial National Invitation for the fifth time, Ben Hogan has the same goal in the United States Open at Winged Foot, June 11-13.

Ramblers, All-Stars Play Benefit Match

The Michigan Epileptic Society will be the beneficiary of funds from an interesting polo match Saturday at 2 p.m. at Walnut Ridge Polo club's field at Boy's Ranch, 7571 Walnut Lake Rd. just east of Hazel Rd.

Big Fleet Coming Two-Way Tie for Legion Lead

Pontiac Yacht club will be host Saturday and Sunday for the two-day second annual invitational regatta, at City Lake. Between 35 and 50 speedboats are expected. It was expected that some 40 or so sailboats. An 18-hour regatta would be on hand.

Render's Home Run Triggers 6-1 Win

A four-run first inning, high pitched by Harry Render's home run over the fence with a team mate aboard, sent the Red Sox to a 6-1 victory over Lakeland in the first game of the Double-A Eastern League playoffs at Lakeland Stadium.

Denver Seeking Basilio-Fullmer

DENVER (AP) — Joe Dupler, Salt Lake City mink rancher and fight promoter, said Wednesday he has offered a \$225,000 guarantee for a fight in Denver between Carmen Basilio and Gene Fullmer for the middleweight title.

Title Bout Official

LOS ANGELES (AP) — World bantamweight champion Alphonse Halimi of France and Jose Becerra of Mexico formally signed contracts Wednesday for their 15-round title fight July 8 at Los Angeles, near Sports Arena.

AAU Track Meet May See Numerous Marks

BOULDER, Colo. (AP) — World Olympic champion Parry O'Brien defends his AAU title against five of the six men who have tossed the shotput more than 60 feet.

5 Horses Die in Stable Fire

TORONTO (AP) — At least five racehorses were burned to death Wednesday night and dozens of others stampeded to safety when flames swept the stables at old Woodbine Race Track.

City Boys Given Chance to Enter Softball League

The Pontiac Parks and Recreation Department will conduct a new softball program this summer for boys 15 years of age and under and 13 years old and under. Competition will be held in classes E and F.

Doctoring Your Golf

PATIENT'S COMPLAINT: Trouble on those delicate pitches.
DIAGNOSIS: Incomplete picture.
TREATMENT: An exact and resolute approach to the problem is the ticket on those short pitches from just off the green, the ones that differ from a normal chip shot in that you must get the ball up quickly to clear the bank of the green.

The thing to do is to fix in your mind the picture of how the shot will look if played successfully. Pick out the spot on the green where the ball will land. Make it a spot at least eight or ten feet past the edge of the green so as to give yourself ample safety margin. Then picture the bounces and roll that will take the ball up near the cup.

With the picture in mind, approach the shot resolutely. Fix your eyes on the back of the ball and keep them there till the shot is on its way. Hit down and through—crisply.

A general tendency here is to fidget and stay over the ball too long. This sets up tension. Avoid it!

WHERE'D IT GO? — This looks like the case of the missing baseball. Chicago White Sox catcher Sherm Lollar is wondering where the ball went after flipping his mask following a pop foul by Yankee pitcher Ryne Duren. Little does Lollar know that the ball is right under his arm. The Yanks won a 7-3 game.

From the Press Box

BY BRUNO L. KEARNS
Sports Editor, Pontiac Press

Wiffi Smith, the freckled red-head who still likes to call St. Clair Shores her home, was taking a "vacation" from the LPGA circuit during the USGA Open at Mamaroneck last weekend.

"Decided to take a week off and maybe get a pointer or two here at Winged Foot," she said in a visit to the Press tent.

"I think I have over-played a little and figure I should relax a little before our own Open at Churchill Valley in Pittsburgh," she added.

"And how's everything in Michigan?" she asked local writers staffing the Open. "Sure would like to play a tournament back there as least once during the tour, but I understand we can't get a site for the Wolverine Open."

Wiffi is no longer the pudgy little teenager who was queen of Michigan golf for a few years.

She is a well trimmed young lady, gleaming with personality from behind a well tanned face.

"Maybe something could be arranged for a \$25,000 or \$30,000 tournament in Michigan for the lady pros," jested one of the writers.

"Of course we would need time to consider it," she said, "at least ten seconds."

"I see the men will be out your way in the National Open in a couple years," she continued, "and if you guys in Pontiac are going to have a city celebration, there's a good chance to set up a tourney for the lady pros."

Of course what Wiffi was hinting at was something for the women similar to the Warwick Hills Buick tournament in a couple weeks.

DITTO FROM THE PRESS BOX

A persistent writer wants to know why The Press sports pages use the runs-batted-in column, designated as "BI" in Major League box scores. He is opposed to it and says he would rather use only the three columns for AB, R and H.

The Press box scores are Associated Press style. Papers which do not carry the BI column are not conforming to AP style.

A PERSONAL COMMENT

The Bloomfield Hills Hunt Club Horse Show, which takes place next week, is one of the largest events of its kind in the country from the standpoint of name riders and prizes, yet it falls far short of its potential in publicity and spectator interest.

The competitive angle closer to the realm of athletics need be stressed more, and the first step in all events where animals are involved would be to eliminate the word "show," which has become strictly a social and not sports term.

Marine Al Cantello who set a world javelin record of 282 feet 3 1/2 inches in the Compton, Calif., Relays June 6 will try to de-throne Bud Held, the current AAU champion from the San Francisco Olympic Club. Held's AAU mark is 260-3 but he has recorded a 270-foot throw.

Defending champion Harold Connolly of the Boston Athletic Assn. is rated first in the hammer and he may top the world record of 225 feet 4 inches, which is also the AAU mark he set last year. Connolly has thrown the hammer 226-1 1/2 this season.

Fortune Gordien's discus world record of 194 feet 6 inches looks like one weight mark that will withstand this year's assault. The chief competitors are Rink Babka, former Southern California performer, who has a 190-2 throw this season, and Olympic champion Al Oerter of the New York Athletic Club whose best this year is 184 1/2.

Hooray for Harvard

CRANSTON, R. I. (AP) — Harvard led Boston University by four points Wednesday at the end of 12 races in the 23rd annual National Intercollegiate Dinghy Championships.

15 Winners in Buick Open

Diamond Dust

By CHUCK ABRAH

Several of the 900 boys taking part in the Parks & Recreation junior baseball program are mighty happy this week's games are only for practice purposes.

The wins and losses don't start counting in the standing until next week with Monday the official opening day.

Many of the youngsters, ranging in age from about 10 to 18, are hoping they are getting the errors of both omission and commission out of their systems now.

A good example was yesterday's Lake Orion-Braves Class E contest. When that wild one was over scorekeeper Tom Nichols had totaled 39 miscues for 6½ innings of play. Orion "only" made 16 to win 10-7 featuring homers by Mike Snarey and Jeff Kenyon. There were 22 hits and 20 walks besides the boots.

One member of the Braves was charged with 12 errors. The same club had made 14 the day before as part of a total of 22.

Fred Staley fired a one-hitter as Pontiac Boys Club walloped West Bloomfield 14-1 in "D". B & B Sewer Cleaners, West Side Kiwanis, Dixie Dairy and the

Little Eagles were Class F victors.

B & B took only three innings to belt Pontiac Yankees 20-0. The Kiwanians came from behind to outscore the combined Northside All-Stars and Keigley's Wildcats 17-10 in four frames. Mike Bradley, who homered earlier, stole home in the final inning of Dixie's 16-15 win over the Eagles. The Little Eagles romped 22-0 with 16 hits against Don Nichol.

Ron Coleman's three-run homer sparked the Moose to a 7-2 Widget triumph over J & A Engineers. The Eastside Rockets piled up 31 runs on 24 hits while Bob Church got all 15 outs on strikeouts in blanking Weaver in the same loop. He walked four missing a perfect job. Ted Joyce belted three homers and two singles. Auburn Boys Club downed the Senators, 14-9.

Lake Orion tallied three times in the 1st and held on to defeat Union Lake 5-2 and the Atlas Midgets edged Hudson's Dunder 3-1 in other games.

EXTRA INNINGS

Tom Bardsley got hits in his first six times at bat in Junior Legion ball playing for Birmingham.

City officials say the addition of Sno-Bol of Waterford men's softball play has been a big boost. Farmington baseball star Chuck Thompson will move to Minneapolis.

PGA Circuit's Leading Money Pros Entered

Second Annual Tourney July 2-5 at Warwick Hills G&CC

Fifteen tournament winners on the current PGA circuit already have entered the \$52,000 Buick Open, it was announced today by Waldo E. McNaught, general tournament chairman.

The second annual Buick Open will be played July 2-5 at Warwick Hills Golf and Country Club in Grand Blanc.

The 15 top golfers have accounted for 21 tournament victories during the 1959 season and include Bill Casper Jr., the new National Open titlist who in addition will defend his Buick Open championship.

Battling to dethrone Casper will be Art Wall Jr., the leading money winner of the year and victor in the Masters, Crosby National and Azalea Open; Gene Littler, also a triple winner with triumphs in the Phoenix, Tucson and Arlington Opens; and double winners Arnie Palmer at the Thunderbird Invitational and Oklahoma City Open, and Don Whitt in the Memphis and Kentucky Derby Opens.

Other champions in the Buick Open field include Sam Snead, in the Snead Festival; Dave Ragan, Eastern Open; Mike Souchak, Tournament of Champions; Paul Harney, Pensacola Open; Bill Collins, New Orleans Open; Howie Johnson, Baton Rouge Open; Wes Ellis Jr., Texas Open; Marty Finkel, San Diego Open; Ernie Vossler, Tijuana Open; and Ken Venturi, Los Angeles Open.

The early entry list of 70 also includes such big name pros as Doug Ford, Bob Rosburg, Doug Sanders, Bo Wininger, Ted Kroll, Don January, Julius Boros, George Bayer and Lionel Hober.

Dodger pitchers threw a record 70 wild pitches last year. The Montreal Canadiens, hit a record 250 goals in 1957-58. The 1959 Yankee payroll may reach a \$700,000 peak. The 1958 world series broke or tied 60 records.

Retiring GM Executive Critical

Auto Paints Fail to Do Full Job

By JACK VANDERBERG

DETROIT (UPI) — Today's modern new automotive finishes still are not doing fully the job paint was intended to do for a car, a retiring General Motors Corp. executive said today.

In an exclusive interview Ralph J. Warshing said the acrylic lacquers used today on GM cars and the enamels used on competitors' cars are a big improvement over the varnishes used when cars first appeared on the roads about a half century ago.

But he said chemical engineers still have to solve the problem of protecting the metal from which a car is built—the original purpose of painting a car.

Warshing acknowledged that paint also was intended to beautify a car but he said the prevention of rust was the major reason for putting a finish on a car.

Although he was hesitant about making any definite predictions about the future, Warshing said he was sure there would be improvements in automotive paints which would go a long way toward preventing body rusting.

With developments coming at an increasing rate it would be an "educated guess" he has seen possible to predict how soon these

improvements will come. However, he said.

The trouble with all paints today is that the thin film which covers the metal body of a car can be broken, he said. This allows moisture to get at the body and rusting takes place.

The ideal paint, if it is ever developed, will withstand the abrasion a car finish gets from stones thrown up from the road and won't chip off when one surface comes into contact with another, he said. As long as moisture can't get at a metal surface it won't rust—and that's the ideal of those working on new finishes for cars.

Warshing, however, did not mean to be critical of the progress that has been made in developing new automobile finishes in the last half century.

Far from it. He was part of the progress that was made during that period and is proud of the part he played in it. When he retires June 30, Warshing will have completed almost 11 years of technological revolution in automotive finishes.

Since he joined General Motors in 1918 as a member of the "Boss" increasing rate it would be an "educated guess" he has seen possible to predict how soon these

hand varnishing, through introducing noteworthy contributions. He was one of the first to introduce Duco quick drying lacquers established the first "outdoor" laboratory for testing paints on a finishes of acrylic lacquer and roof-top in Miami, Fla., a laboratory, both of which are much today which has grown until it now more resistant to cracking and covers 10 acres. He also established a group which goes around to parking lots inspecting finishes on cars to see what is happening to them.

But Warshing has the mind of a true scientist. He is never satisfied with what has been done but wants to continue pushing ahead toward an ideal—in this case, a paint which will prevent all rusting on the body of a car.

In his efforts to improve paints Warshing has made two outdoor laboratories.

Hasn't Met Mao, Nikita

India's Red Embarrassed

By PHIL NEWSOM
UPI Foreign Editor

The leader of India's Communist Party has one great embarrassment.

He has never met such party dignitaries as Nikita Khrushchev, Mao Tse-tung or Chou En-lai, whom Prime Minister Jawaharlal Nehru counts among his friends.

"Of course," he says, "I have seen them."

He was especially irked by an article in the official Soviet magazine New Times which said that India now is "taking the path of socialism by peaceful methods — that path has been advocated for many years by Jawaharlal Nehru."

to Ajay Ghosh it seemed a final slur.

As leader of Indian Communism, Ghosh has had to undergo more than one embarrassment. He made no attempt to defend Soviet brutality in crushing the Hungarian revolt. Instead, he deplored it in terms stronger than Nehru's.

Especially embarrassing and almost reducing him to silence was Red China's crushing of the revolt in Tibet.

Now his party is under serious fire in Kerala, the southern state where it has had its greatest success in India.

Socialist and Congress Party leaders have seized upon Communist attempts to gain control of private schools to launch a passive resistance campaign whose ultimate goal is to force the Communist government's resignation. It has Nehru's sympathy if not approval.

Communist Party figures for India never have been published but are believed to run anywhere from 60,000 to 100,000.

But with this small core they were able to capture 27 seats in the parliamentary elections of 1957 and to become the largest and most vocal opposition group.

Nor have the aims of Indian Communism ever been very clearly defined beyond the general terms of land for the landless, nationalization of large industries, confiscation of foreign business interests and sovereignty of ties with the British Commonwealth.

In recent years it has modified its policy of violence and subterfuge which prior to 1949 bordered on open revolt.

Two White Men Held in Negro Woman's Rape

BENTON, Ark. (UPI) — Presenting Attorney Lawson F. Glover said two white men had been charged Wednesday with raping a 21-year-old Negro.

He identified the two as Ben Sanders, 26, of Ferriday, and Bob Burnett, 21, of Little Rock, and said both had admitted the attack.

The two picked up the young woman Saturday at her home in Little Rock on the pretense of having her baby sit, then drove in Burnett's car to a nearby side road, where the alleged rape took place, Glover said.

The young woman said she had caught a ride to Little Rock later and notified the sheriff's office.

Ike Playing Nikita's Game, Masks His Thoughts in Double Takes

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON (AP)—Bouncy Soviet Premier Nikita Khrushchev may have had President Eisenhower guessing what's on his mind. Now Eisenhower probably has Khrushchev a little puzzled, too.

That's because Eisenhower seemed to be agreeing with the Russian on one point, but not quite, and softening Wednesday what he said two weeks ago but, as it turned out, not quite.

It all started months ago when Khrushchev made a threat: Either the Allies get their troops out of Berlin or he would turn over to the East German Communists control of the ground, air, and rail routes leading to Berlin. This would put the Allies in a pickle. They refuse to recognize the German Reds as the lawful government of East Germany. But if the Communists shut off their supplies to East Berlin, they'd have to deal with them or fight.

And dealing with them would be a form of recognition. At the same time Khrushchev called on Eisenhower to meet him at a summit conference where all kinds of things could be discussed. That would include Berlin.

Eisenhower said nothing doing unless, first, the Soviet and Western foreign ministers met and, second, they showed some progress.

Khrushchev reluctantly agreed to the foreign ministers' meeting but low-rated its importance. He argued only the top men make decisions. Therefore, the ministers are errand boys. So, he claimed, a foreign ministers' meeting just wastes time.

The ministers met and made no progress. At his June 3 news conference, Eisenhower seemed to agree with Khrushchev that the ministers are only transmission belts for the top men.

"These foreign ministers are, after all, acting for someone else . . . and these matters (such as Berlin) have to be brought back and studied carefully," Eisenhower said.

But he seemed to attach much more importance to the ministers at his news conference Wednesday. He said they are "people who go to conferences clothed with a great deal of authority."

Next he appeared to be leaning a bit toward Khrushchev's view. He pointed out the ministers, every night after their day's session at Geneva, have to communicate with their governments back home.

He said they provide "the mechanism . . . through which (agreements) are supposed to be obtained."

But then he parted company with Khrushchev, if he ever was in his company, by refusing to agree to any assumption the ministers' meetings are useless. He implied that unless they prepared the ground for a summit meeting, there was no sense in holding one.

But it was on another point — Berlin itself — that Eisenhower may have left Khrushchev scratching his head.

At his June 3 news conference, Eisenhower emphasized that the Russians had created the Berlin crisis and then called for a summit meeting to settle it.

Before there is a summit meeting, Eisenhower continued, the Russians should agree the Allies can stay in Berlin until the whole problem of German unification is settled. In effect, since it won't be settled for a long time, this meant indefinitely.

He didn't flinch say this had to be done before he'd go to a summit meeting.

Asked if this is what he meant, he said: "I don't see how the head of any self-respecting government can go to an international conference in response to any kind of thing that can be called a threat."

He meant the Soviet threat to the West. Get out of Berlin, or we let the East Germans take over.

At his news conference, Eisenhower was reminded of that June 3 statement. He was asked if Soviet failure to withdraw its threat

about Berlin meant he could not go to a summit meeting on other things. Eisenhower's reply seemed to imply he was softening his position about agreement on Berlin being a precondition to a summit meeting. He said he had just tied

in his June 3 statement about Berlin as an example of progress.

of reasonable progress that justifies a summit meeting, why of course I would never decline the opportunity to go."

But after the news conference, Eisenhower's press secretary, James C. Hagerty, talked with reporters. "Even though the President didn't specifically repeat that (June 3) statement, that is still just where he stands," Hagerty said. "He won't go to any summit conference under any threat regarding Berlin."
