

Fun in the Forel-tees

GOLFING WEATHER—This father and son took good advantage of Wednesday's balmy weather to put in their first round of golf this year. Steve Tappan, 5, makes a perfect caddy for his dad, Paul Tappan, of 983 E. Tennyson St., considering that February is usually a bad month for caddies. The two enjoyed their jaunt at Pontiac Municipal Golf Course until rain intervened late in the afternoon.

Illinois Competitor Buys the American Forging Co.

Rumors that the American Forging & Socket Co., 150 Branch St., is selling out to a leading competitor in Rockford, Ill., were confirmed today by James J. Rath, vice president of the firm in Pontiac.

In a joint press release, Rath and Seth G. Atwood, president of Atwood Vacuum Machine Co. of Rockford, announced this morning that "The American Forging & Socket Co. has entered into an agreement to sell the business presently on its books to the Atwood firm, effective March 1."

A spokesman for the automotive parts manufacturing firm in Pontiac stated, "the deal was closed yesterday."

Company officials refused to disclose any sale price at this time, stating simply that operations "will be discontinued commencing March 1, and will be completely eliminated in the very near future."

Affected will be an estimated 230 American Forging employees in Pontiac.

President of the firm, Robert B. Stewart, was unavailable for comment. His wife said he was in Dallas, Tex., on company business. They live at 2905 Warner Drive, Green Lake, in West Bloomfield Township.

Included in the sale are all of the firm's dies and patents, but not the physical properties of the plant, which has been located here since 1915.

Last May, American Forging & Socket listed total assets of \$2,422,547 with the Oakland County Clerk's Office, including capital assets, which would cover the cost of land, buildings and equipment, totaling \$1,067,885.

Current production at American Forging consists of brake adjusters, seat adjusters, seat backs, hood locks, hinges and other lesser automotive equipment.

A producer of automotive parts, Atwood Vacuum Machine Co. currently operates four plants, including that of an affiliate in Troy, Press Products Co., 1750 Stephen son Highway.

In addition to the home plant in Rockford, the firm also has operations in Stockton, Ill., and at Beaverton, Ore. It also manufactures trailer and bicycle hardware.

The firm employs between 1,000 and 1,200 persons.

Legislation for \$1 Billion

Jobless Plan Approved.

WASHINGTON (U.P.)—The House Ways and Means Committee today approved legislation for President Kennedy's billion-dollar program of temporary unemployment aids.

Aiming for quick action, Democratic Leader John W. McCormack of Massachusetts announced the House will debate it next Wednesday.

Democratic leaders said they expect passage in time to meet the administration's goal—payments to the long-time unemployed by April 1.

The committee version includes the financing plan favored by Republicans and most business spokesmen who appeared before the committee. The estimated \$900 million cost would be repaid during 1962 and 1963 by a temporary 4 1/8ths of 1 per cent increase in the payroll tax employers now pay.

The bill provides for continuing unemployment insurance payments to jobless persons who have exhausted their basic rights under the federal-state unemployment insurance program.

The payments would continue up to one half the time the various states originally provided. Since the longest state program is for 26 weeks, the maximum extension would be 13 weeks. Payment would be at the weekly rate provided by the various states.

States which, on their own, have put in emergency extension laws would receive refunds from the federal government.

Officials estimated the plan would take two weeks to go into effect after approval by Congress. This would mean Congress would have to send it to the White House by the middle of March to meet the effective date set by the President and his advisors, who gave unemployment benefit ex-

ension the No. 1 place in a list of 16 priority measures.

An overwhelming majority of the House apparently favors some extension although there are differing views as to details.

It appeared that the committee decision on the method of financing had ended most opposition to the bill.

Kennedy originally proposed financing the extra payments by a permanent increase from \$3,000 to \$4,800 per employee in the base in which the payroll tax is levied.

Business witnesses objected strongly. They argue that such an increase would discriminate among businesses and that it was legislation to make a permanent change in the tax as part of an emergency bill.

Airlines Extend Strike Deadline

Wildcatteer Says That Engineers Will Remain Out Till Order Revoked

WASHINGTON (UPI)—Five major airlines hit by the wildcat flight engineers strike agreed today to a two-hour extension of the deadline on their proposal to carry out no flight if the engineers returned to work.

The agreement to extend the deadline to 2 p.m. (Pontiac time) was announced by the White House minutes before the deadline was to expire.

But Alfred Kilbuis, spokesman for the wildcat strikers, said in New York that there was no chance of the flight engineers going back to work "until the order of the National Mediation Board of Feb. 8 to United Airlines is rescinded, nullified or circumvented."

The order requires the Engineers and the Airlines Pilots Association to elect a single bargaining agent.

The extension agreement was worked out by Secretary of Labor Arthur Goldberg who planned to confer with President Kennedy before the new deadline in an effort to end the worst tie-up of airlines in U.S. history.

The White House said shortly before noon that Goldberg was attempting to reach the president of Western Airlines, the sixth airline involved in the dispute.

Lion Rebels Seek Seven Board Spots

DETROIT (AP)—Rebel stockholders in the Detroit Lions front office football club today nominated seven men for directors of the company.

The annual meeting—the main order of business this time—a proxy fight—began shortly after 11 a.m. and recessed for 15 minutes at 12:40 p.m. The meeting was scheduled to go on into the afternoon.

The dissident stockholders nominated these men: D. Lyle Fife, George Cavanaugh Sr., C. Ray Davidson, C. D. Larsen, William Parker Jr., Luke Hoffman and Frank McCaffery.

There are 15 seats on the board of directors.

A last-minute bid for harmony failed.

President William Clay Ford, who yesterday asked the disgruntled shareholders to join members of the management committee in a show of friendship and harmony, threw up a prepared speech he planned to deliver to open the meeting.

Instead he spoke harshly to rebel stockholders and said the administration was not being fooled by friendly handshakes.

Ford, who assumed the presidency a month ago when Edwin J. Anderson gave it up to operate solely as the club's general manager, complained that he did not know any specific charges against management.

A management spokesman who was in the morning session said Ford decided at the last moment to throw away his prepared address, and said instead, "I'm going to speak my mind."

Head Coach George Wilson also was in the meeting and he and Anderson made brief reports.

Fife, first president of the Lions when current owners bought the club in 1958 and leader of the dissident faction, read a prepared statement.

Even after Fife's statement accusing the administration of poor management, Ford complained again that the rebels still had not issued any specific charges.

"Despite its tremendous population, there really is no place in the county to bring a first-class cultural event," Varner noted.

"This is a shame—for Oakland County is as culture-oriented as any county in Michigan."

"An auditorium at MSUO would provide a focus for the county and would insure continuing emphasis on them."

Varner said the proposed auditorium is contemplated near Meadow Brook Hall, which will some day become the university's art center.

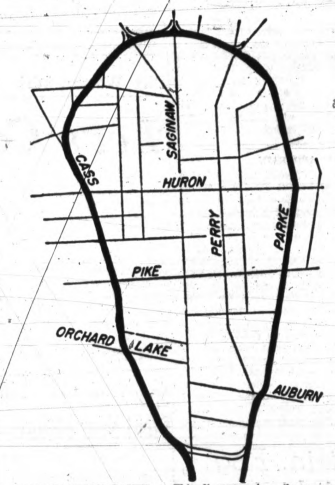

TREASURES TO START

"With an auditorium—and one of the great homes of America with its priceless art treasures, we will have the beginnings of a great cultural development," Varner said.

Meadow Brook Hall remains the property of MSUO's benefactors, Mr. and Mrs. Alfred G. Wilson, during their lifetimes.

It then will become the university's art center.

"It is my hope that the auditorium and Meadow Brook Hall be within walking distance of each other," Varner said.

LOOP HIGHWAY ROUTE—This diagram gives the general location of the downtown loop highway that surveyors for the State Highway Department will begin plotting tomorrow. The diagram was drawn up several years ago as part of the Barton Transportation Study, which recommended the loop highway as the key to the rejuvenation of downtown. The diagram indicates how the loop (in black) would skirt downtown in the vicinity of Park Street on the east and Cass Avenue on the west, with new construction in the vicinity of School Street in the north completing the arc. With the loop relieving through traffic from Saginaw Street and other downtown areas, the central business district could be redeveloped into a shoppers' paradise, according to planning consultants.

MSUO Starts Plans for Civic Auditorium

By MAX E. SIMON

Michigan State University Oakland has commissioned a Birmingham architectural firm to prepare drawings for a 3,000-seat auditorium, part of a plan for a proposed cultural center on the university's campus.

The Pontiac Press learned that the Michigan State University Board of Trustees recently authorized MSUO to engage the architect on condition that cost of the auditorium not exceed \$2 million.

No money for construction of the auditorium has been appropriated.

The drawings are being prepared by the firm of O'Dell, Hewitt and Lockwood, designers of Detroit's Ford Auditorium.

The firm also prepared plans for a major renovation of the University of Michigan's Hill Auditorium in Ann Arbor.

"It is our hope to provide Oakland and adjacent counties with a first-class cultural center," said MSUO Chancellor D. E. Varner.

Such an auditorium would be a home for the county for major opera and ballet companies, theater, exhibits and other affairs.

"It would be a facility of great usefulness not only to the university, but to the entire community as well," Varner said.

The clinic's board of directors said they will extend the proposed closing date and planned personnel reduction to April 7.

Although the county allocation for the entire year is approved in one lump sum, it goes to the clinic in quarterly payments.

The new payment is due April 1. Part or all of this payment will (Continued on Page 2, Col. 5)

COLOGNE, Germany (UPI)—The trial of Nazi Adolf Eichmann will begin April 10 in Jerusalem, defense attorney Robert Servatius said today.

MIAMI BEACH (UPI)—The A.L.C.O. Executive Council urged stronger antiracism measures today, contending that "President Kennedy's prescriptions are insufficient to cure the economic ills he has diagnosed so well."

LONDON (U.P.)—Queen Elizabeth and Prince Philip will visit Page John XXIII on May 8, Buckingham Palace announced today.

Eye 1963 Date for Completion of Highway

City and State Working on Agreement for Cost, Advance in Time

By PETE LOCHBILER

Pontiac's downtown loop highway—a key feature in the redevelopment of the central business district—could become a reality in 1963 under a new pact being readied between the city and the State Highway Department.

To speed the project, an agreement reapportioning costs and pushing up construction dates two years is being prepared by the highway department for submission to the Pontiac City Commission in about two months.

Main outlines of the agreement were originally proposed by the city and have been the subject of discussions by highway officials and Pontiac civic leaders for several weeks.

Said John C. Mackie, state highway commissioner:

"We have agreed to move this project no two years, from 1964 to the fall of 1961, providing certain agreements are reached with Pontiac."

He said these involved local willingness to finance part of the project, including the purchase of right-of-way and the development of plans.

PONTIAC'S PART

City Manager Walter K. Willman, informed of Mackie's disclosure, identified Pontiac's part of the project as the southwestern segment between West Huron and Saginaw Streets.

The City Commission, meeting informally in recent weeks, has expressed enthusiasm about speeding up construction of the loop through the expenditure of accumulated road funds.

"The commission has given me every indication that they will approve the plan," said Willman. "We do not want to talk about local costs yet, but figure we can handle our share through road funds especially accumulated for the loop from gas and weight tax disbursements."

Willman viewed the approaching agreement as an important victory, emphasizing that the city especially accumulated for the loop from gas and weight tax disbursements.

"This highway is a key step in our struggle to rehabilitate downtown for the benefit of shoppers, downtown business and the community as a whole," he said.

In anticipation that the pact will become official, the highway department tomorrow will put a six-man survey team on the job in Pontiac, beginning preliminary surveys of the loop route.

A highway department spokesman, describing the survey as "high priority," said within a few weeks more than ten dozen surveys (Continued on Page 2, Col. 5)

Bye, Spring! Rain, Snow on Friday

Temperatures soared to a high of 50 at noon yesterday, the highest of the season. The low will be a mild 38 tonight.

Cloudy, and colder with rain changing to snow flurries in Friday's forecast by the weatherman. The high will be near 40. Saturday is expected to be just as cloudy and cold.

Southerly morning winds at 8 miles per hour will become northerly at 20 to 30 m.p.h. Friday.

Thirty-eight was the lowest recording in downtown Pontiac preceding 8 a.m. The mercury reading at 2 p.m. was 46.

\$100,000 Damage at Holden Co.

Blaze Rips Area Plant

By JIM LONG

Twelve men escaped injury as fire swept through a furnace assembly plant near Milford yesterday, causing an estimated \$100,000 damage.

The men are employees of the A. F. Holden Co., an industrial furnace fabricating firm at 2135 S. Milford Road, a mile south of the Milford village limits.

It was the second major blaze at the factory in as many months. The fire yesterday broke out near the ceiling in a corner of the plant workshop, situated in the center of the one- and two-story factory.

BUILT OF WOOD

The workshop is constructed of wood and surrounded by additions made of galvanized steel and cinder block on either side.

The workshop was destroyed, and the two-story cinder-block office building and steel warehouse to the rear of the machine shop was gutted.

Holden, who said the factory was insured, estimated damage to the buildings and contents would be nearly \$100,000.

"But I expect to have most of the men back to work by Monday," the industrialist said. "We'll enclose the gutted assembly plant with plastic before the weekend and be producing by Monday."

Holden said he had been in the office with his foreman only 10 minutes before the fire was discovered.

"We heard a commotion in the plant and rushed down to see what was happening. The workshop already was engulfed in flames," said Holden.

"I ran around to the other side

of the plant and told several workers to get out, and then the entire building burst into flame.

SOMETHING SMOLDERED

He said he was told one of the workers spotted "something smoldering—it must have been just about 2 p.m.—and went to get a fire extinguisher."

When he got back a few seconds later the fire was out of control and there was nothing he could do," explained Holden.

Fire departments from Milford, Commerce, Highland and Lyon townships responded to the alarm. Southbound Milford Road (Continued on Page 2, Col. 3)

LEFT IN RUINS—A Milford fireman douses a corner where a fire started at the A. F. Holden Co. yesterday, gutting the plant and causing an estimated \$100,000 damage. The firm is at 2135 S. Milford Road and just south of the Milford village limits. Also called for the scene of the blaze were fire departments from Highland, Commerce and Lyon townships. Cause of the fire is undetermined.

DO YOU Like Kittens?

If you have kittens to sell or desire to obtain one, an interesting Want Ad will do the job for you.

The purchaser of this little ad will receive 40 kittens and could have given away 40 kittens.

FREE — A BEAUTIFUL KITTEN, very playful and friendly. Will make any child very happy. FE 4-1923. Can be seen at 1164 N. First St.

MRS. MILDRED BENNETT

Disabled Plane Takes Fast Dive

Undersecretary of Navy and Other 7 Aboard Quickly Rescued

ATLANTIC CITY, N.J. (AP)—A disabled plane carrying Paul B. Fay Jr. to Washington to be sworn in as undersecretary of the Navy ran off the end of the runway at the municipal airport early today and plunged into a deep-water ship channel.

None of the eight persons on board the U.S. Navy twin-engine Convair was seriously injured. The New York to Washington flight was carrying Fay, his wife, Anita, his 4-year-old daughter, Sally, an aide, and a crew of four.

Red Cross Head in County Dies

Suffers Heart Attack Driving on Woodward

Mrs. Mildred Bennett, executive director of the Oakland County chapter of the American Red Cross, was dead on arrival at St. Joseph Mercy Hospital shortly after 11 p.m. yesterday.

According to Bloomfield Hills police, Mrs. Bennett, who was traveling north on Woodward Avenue, apparently realized she was having a heart attack and pulled off the road just south of Long Lake Road.

Mrs. Bennett's body was discovered slumped over in the car by a waitress at the Kingsley Inn who was passing by.

Mrs. Bennett, of 111 Oneida Road, came to Pontiac as the chapter's chief executive in 1948 from Flint where she served with Genesee County Juvenile Court for 12 years as a county agent, juvenile home superintendent, child probation officer and director of children's services.

A graduate of Michigan State University, she went to Flint, first as executive secretary of the Flint Central Volunteer Bureau after receiving her master's degree from Wayne State University. She was instrumental in organizing the Flint Council of Social Agencies.

Mrs. Bennett was also instrumental in getting Oakland County into the combined civilian and military blood bank program.

Michigan State Federation of Women's Clubs named Mrs. Bennett as consulting director for its "Gristown" in Michigan in 1953.

A past president of Soroptimist Club, she was a member of the Zonta Club, St. Paul's Episcopal Church in Flint, and had served at one time as president of the Michigan Probation & Parole Association.

Mrs. Bennett, who was born on April 9, 1909, in Bad Axe, leaves a daughter, Mrs. Helmut C. Hester of Birmingham; son, J. Benjamin of Birmingham; her parents, Mr. and Mrs. G. E. Everingham of Flint; and two grandchildren.

A memorial service will be held at 11 a.m. Saturday at the Beth Chapel of the William R. Hamilton Co., 320 E. Maple Ave., Birmingham.

The family suggests memorial tributes be made to the American Red Cross.

Rain, Fog, Lightning Visit State

From Our News Wire

The rains came to Michigan today, bringing fog, flooding and unseasonably warm weather.

Heavy fog slowed traffic to a crawl in the Detroit area.

An electrical storm drove away much of the fog, lightning struck a home on Detroit's East side.

It also hit power lines on the city's Southwest side and knocked out electricity to three fire stations and a police station for 10 minutes.

Nearly a quarter of an inch of rain fell in several Detroit suburbs and police reported numerous highways were flooded.

Elsewhere, a blinding snowstorm barreled down east slopes of the Rockies into the upper Great Plains where it met rain over Canada.

In the South, the weather bureau at Montgomery, Ala., said floodwaters from swollen creeks and overtaxed sewers were approaching the "critical stage" and Louisiana's food threat turned to the north.

Platt National Park in Oklahoma is now home to a small group of buffalo in a natural setting.

Ban Urged on Nonresident Local Income Tax

Asks Amendment to Legalize Bingo

LANSING (U)—Legalized bingo, would allow local government to levy income taxes only on its own residents. Those working in the community but living elsewhere would be excluded.

Rep. Dominic Jacobetti, D-Ne-gauise, proposed a constitutional amendment that would permit charitable, nonprofit organizations to run bingo or keeno games.

The constitution prohibits all forms of lotteries.

The proposal requires two-thirds approval by both houses of the legislature to go on the ballot for a statewide vote.

Rep. John T. Bowman, R-Roseville, sponsored the measure which

tion, as well as Michigan Tech and Ferris Institute, to make the payments themselves, instead of relying on the general fund.

Schools under board of education supervision are Eastern, Western and Central Michigan universities and Northern Michigan College.

The same arrangement already is in force at the University of Michigan, Michigan State University and Wayne State University. They contribute an average 7 1/2 per cent of their payrolls to the fund.

UP Mine Value Down

LANSING (U)—Michigan's iron and copper mines, all in the Upper Peninsula, are valued at \$22,183,500 for 1961 for tax purposes, re-and one million people.

Sick, Sick, Sick

WOODSTOCK, Vt. (UPI)—Some one with a sense of humor assigned telephone number 696 to the Ottauquechee Health Center here.

Nature's Symphony Is This Opera Star's Guidepost

Laurie Melchor
Opera Star
From her living room, high on a mountain ridge that separates Beverly Hills from the San Fernando Valley, my wife and I have a sweeping view of Southern California — the Pacific Ocean miles to the south on one side, and on the other, across the valley floor to the north, a second range of mountains. In the springtime, the valley is literally draped in a mantle of gold. One day last spring, I pointed out this golden landscape to a friend who had come to us laden with problems, not the least of

which was that he "could not find God" as a reality. "That gold," I told him, "came here 200 years ago when Father Junipero Serra, who founded California's beautiful missions) first crossed the border from Mexico with a missionary expedition. USELESS MAPS "Their assignment was to rediscover Monterey and they, too, were laden with problems. Harassed by Indians, led astray by poor maps, bogged down by illness and lack of supplies, the Spanish soldiers worried most when they were lost because, if they failed to discover Monterey, they might never find their way home. "Their maps were useless," I told our friend. "There were few trees on which to blaze a trail. If

they used stone markers, the Indians scattered them. "But it was Father Serra, with a box and a packet of seeds, who solved the problem. Along their trail (later to be known as El Camino Real, the King's Highway) the monk sowed a trail of wild mustard seeds — and in the spring that path of gold led them back. "If you look at that mantle, even today, spread as it is over the whole state, it still blazes a trail — nature still shows us the King's Highway." HE COULDN'T SEE "A pretty story," muttered my friend politely, and turned his attention once more to himself and his problems. I was distressed because he could not see that before

him was the answer he sought, a golden path by which he could "find God as a reality" and make his way home. * * * The signs of God, His presence and reality, are all around us. When manmade landmarks fail (and they do), when we are lost, bewildered, or simply in need of refreshment and peace of mind, we can turn for our answer to the world of nature. Nature holds out to me several gifts, several magic senses which not only sharpen my awareness of God, but have the power to dissipate my troubles. SENSE OF VALUES Nature's first gift is a sense of proportion and values. I, like my friend, have had moments when my burdens seemed gigantic. At

such times, if I cannot go off into the desert or into the woods to receive the magic, I can look up at the heavens and realize what a little bit of a thing I am, a speck on a world that is itself a speck. And suddenly my problems don't seem very big. It is hard to take yourself too seriously when you are so very small. On the other hand nature will not give us an inferiority complex or a feeling of frustration, for as you study her second gift you gain a strong sense of individuality. You see how important and unique is each species: how no two birds are ever equally ugly, and no two roses have quite the same beauty. Then how reassuring is nature's third gift, the sense that everything in the universe is intelligently

dependent and interdependent. I watch the sun kiss the leaves by the tree by our house, and it grows; I see bees pollinating its fruit. Water is all about, running and burrowing and without it all things perish. Life appears to be one in its interaction. SENSE OF ORDER And last, nature has shown us the fourth gift, a sense of order and harmony that lifts the strain and pressure of modern living. When I listen to the sounds in nature, to the frogs and crickets, the birds, the wind in the trees, water in motion—the blend is harmony. And, so with all of these, I have found that when I let the Master Hand play over the strings of my daily human relationships,

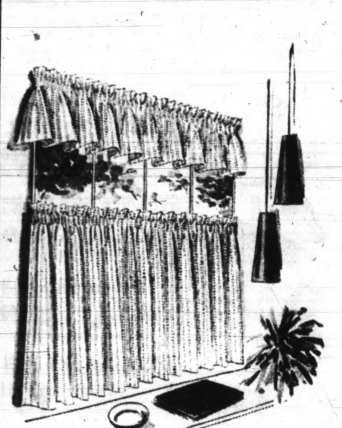

striking a different note in my wife, my friend, my neighbor — my family, each of the tones will blend into one great chord — and my life comes into harmony with life creation. FRIDAY — Josh M. Drake, former Army officer, now of Mangum, Okla., tells how the gratefulness of a simple woman and her family on his mail route changed his life. (Copyright 1961) Toy Sales Top Record From 1959 by 6 Pct. NEW YORK (UPI) — Toy sales in 1960 hit more than \$1.7 billion, topping the 1959 record by more than 6 per cent, according to the Toy Manufacturers of the U.S. The impact of the age of science is reflected in the fact that toy counters are stocked with twice as many scientific and technical kits and labs, and the sales rate is double that of a year ago.

One-Year-Old Just Keeps Rollin' Along VINELAND, N. J. (AP) — An attractive young mother with a yen to go roller skating needs no babysitter. She doesn't hire one. Instead, Mrs. George Phifer takes her year-old baby, Mark, along to the rink when she and her husband go. What's more, she lets the child skate. She's equipped him with special roller skates which enable him to glide around the floor, with a gentle assist from mother. Mrs. Phifer says Mark is the youngest boy ever to roll around the local rink. About 5,000 workers toiled for six years to build the Great Mosque in Delhi, India.

Man in Space

Wright Brothers to X15...Only 58 Years

By ROBERT J. SEILING
WASHINGTON (UPI)—Man took his first faltering steps toward the powered conquest of space on Dec. 17, 1903, when two brothers from Ohio wrought a miracle on a wind-swept collection of sand dunes known as Kitty Hawk, N.C.

Before man invades space, he must first have conquered the air of his own world. This is what two obscure bicycle repairmen named Orville and Wilbur Wright achieved that cold December day.

Their first flight covered only 120 feet—about 40 feet longer than the Atlas rocket which still carries America's astronauts into outer space; 60 feet shorter than the giant Saturn rocket which

will attempt America's first manned flight around the moon.

For the past half century, aviation has been an informal training ground for space conquest. As aviation solved the problems of high-speed and high-altitude flight, it was laying the groundwork for the day when the new pioneers would venture higher and faster than any conventional aircraft could achieve.

In a purely technical sense, balloon flights contributed more to space research than heavier-than-air craft. It was on Nov. 11, 1933, that two young Army Air Corps captains literally launched America's space program.

Their names were Orvil A. An-

der and Albert W. Stevens and they took off from a cup-shaped hill near Rapid City, S.D., in a balloon filled with 3.7 million cubic feet of helium.

They rode in a gondola made of magnesium alloy. They broke ground at dawn, reached a record altitude of 72,395 feet—nearly 14 miles—and returned to earth eight hours and 200 miles from the launching site.

Their flight accumulated the first real data on the stratosphere. It added vital knowledge of the little-understood cosmic rays, or radio transmission problems at high altitudes, of super-sonic winds and the light, elec-

trical and chemical conditions of the upper air.

The construction of the pressurized gondola and the design of the airman's electrically heated suits taught lessons now being applied directly in the astronaut program. Anderson is now a retired Air Force major general. Stevens died several years ago. Both may be called the true space pioneers who took a brief but important step upwards 26 years ago.

AIR DESIGN PLAYS ROLE: Aircraft design also has played a role in the space program. No one realized it at the time, but when Boeing designed the first pressurized commercial airliner

cabin in 1939, it was an achievement directly applicable to survival in space.

Pressurization is compressing the thin air of the upper atmosphere into heavier air that can be breathed. The astronauts must carry their own oxygen, of course, but pressurization made high-altitude research flights possible.

When aviation solved many metallurgical problems, it also was aiding in space research. Friction is a major obstacle in both space flight and the more mundane supersonic flight.

At a speed of only 2,000 miles an hour, the friction generates heat of more than 500 degrees.

Aviation has learned much in the development of metals that can withstand such heat.

This is one of the major goals of the X15 rocket plane program. The sleek black craft soon will be flying 100 miles high at speeds of 4,500 miles per hour—a dramatic test of how man and metal can survive unbelievable flight stresses.

After the X15, comes Project Mercury—only 58 years after the Wrights opened the kingdom of flight.

Michigan Chick Crop

10 Pct. Below Average
LANSING (AP)—Commercial hatcheries in Michigan produced 1.37 million chicks in January—a 17 per cent increase over the same month of 1960—according to the Federal-State Crop Reporting Service.

The 1961 figure was 10 per cent under the 1955-59 January average, however.

Any Corner OK for License Tab—Police Sorry

LANSING (AP)—It's okay to be a nonconformist with your 1961 Michigan license plate tabs—but you might lose time explaining your whims to police officers.

In answer to several queries received from motorists, Secretary of State James M. Harve said there is no law against mounting tabs on any corner of a license plate, just so they aren't upside down.

But, he said: "We hear that in many communities police stop motorists who have not mounted their tabs in the upper right-hand corner of the plate and urge them to do so."

Harve estimated that more than three out of every hundred motorists—about 120,000 in the state—of Supervisors.

have their tabs in the wrong corner.

He said: "Even if it's not illegal, it is confusing and careless and many law enforcement officers wish people would stop trying to be 'different' when it comes to license tabs."

Wins Backing on System for County Assessors

GRAND RAPIDS (AP)—City Commissioner Arlon G. Ley has won informal support from fellow commissioners on his proposal to seek legislation to establish a county assessor system in Michigan to insure equality of assessing at least on a countywide scale.

He also recommended that the plan from the County Board lists—about 120,000 in the state—of Supervisors.

Some Congo Conditions Favor U.N. Efforts

Affairs in the Congo continue to be grim and confused. Events have not changed the picture enough so that one might say things looked hopeful.

However, some things do stand out which tend to favor the United Nations efforts for Congolese peace and independence. First of all, the methods that Russia is accustomed to using apparently will not work in the Congo.

The African territory is vast and spread out unlike Hungary. To move Red troops in and supply them once they were there is a difficult undertaking. The sly Russian take over from within is not working as it had in the past.

The people they are dealing with are far different from anything they have experienced before. They cannot depend on a disciplined reliable group for assistance. The various Congolese elements seem to be at each other's throats.

Associated Press writer Lynn Heinzelinger points out that the Congo is not a nation in any traditional sense. The 14 million people that comprise the area have no common language and furthermore have no allegiance to any government. This in itself makes for confusion.

As far as any loyalty is concerned about all they recognize is that of tribal chiefs. A great many cannot read and write, let alone try and comprehend anything from pressure groups. This makes most Communist propaganda meaningless.

Another factor favoring the United Nations currently is the swing of a few of the left leaning neutralists away from Russia. Even Nasser's United Arab Republic joined in urging U.N. military intervention to prevent civil war.

We seriously doubt if any immediate peace is in sight yet the general picture seems to be changing from black to gray.

Time Is Running Short for Buying New Tabs

With only five days remaining only two out of every five car owners have their 1961 auto licenses. If you have a car the chances are you intend to get new tabs.

Avoid the crowds that will soon be forming at the Secretary of State's office. Time and again car owners wait until the last possible day and then curse and holler because of the long lines.

Assist the workers at the branch office and at the same time help yourself by not waiting for the deadline Feb. 28.

Rush out now and beat the last minute throngs.

Administration Moves to Stimulate Tourism

Results of last year's "Visit U.S.A." drive have been somewhat less than successful. Increase in the number of foreign visitors in 1960 was the lowest, with the exception of one year, for any of the last six years.

Sen. MAGNUSON, D-Wash., had complained that our Government actually discouraged travel from abroad; that it presents potential foreign visitors "only with the prospect of interminable visa delays, embarrassing security investigations, unpleasant customs inspections and until recently,

the requirement of fingerprinting."

Applying personally for a visa at a U.S. consulate, as required by law, sometimes entails quite a bit of travel and expense. There the would-be tourist undergoes questioning as to past moral turpitude, Communist associations or intentions, to overthrow the U.S. Government. Immigration officials on this side go over the same ground. Americans would not like this procedure either.

Added to the desire for more tourist trade is the current need to stop gold outflow from the United States. While some feel that foreign spending by U. S. travelers should be cut down, others think that the better way would be to make it easier for foreign tourists to visit this country.

The Administration hopes to do both.

The Man About Town

The Flower Race

Readers Produce Bigger Growths in Winter Blooms

Successful man: Behind most of whom is a proud wife and amazed mother-in-law.

An African violet plant 50 inches round is owned by Mrs. Lula Smith of 229 Whittemore St. It is about one and one-half years old, and has borne 50 white blossoms at one time.

A letter just received from Mrs. Ted Carlson of 89 Marshall St. reports that from one anemone bulb she has two stems, with six blossoms on one and four on the other, some of the blossoms being seven and one-half inches across.

After blooming profusely for three years, Mrs. Hilda Laney of Waterford reports that her anemone went into hibernation and played dead for a couple of years, but now comes forth with four blossoms on a stalk that sprang from a crack in the side of the apparently dead bulb.

African violets must be petted and hummed more than any other flower, according to

Mrs. Charlotte Hendon of Birmingham, who has them in bloom the year round. She says they'll pay off big for all correct care, such as proper watering.

Stalks of corn two feet high are reported by Paul Kaserman of Drayton Plains, growing from a hollow that he placed in his kitchen when he cut the tree down last autumn. They evidently grew from seed dropped there by birds.

There's the usual Pontiac area connection with the Detroit Flower Show which opens Saturday at Cobo Hall, as our

Werner M. Hoy of 11291 Bigelow Road, who for many years has been its manager, is putting on the big display this year in the same capacity.

Quite in agreement is this column with the numerous complaints to the effect that the dramatization of the assassination of

Abraham Lincoln the other evening topped the great array of fakery being perpetrated by TV.

The rawest sucker bait of the season is reported by

Mrs. Burrey Jonesboro of Birmingham. A mail order firm offers a 20 per cent discount on its goods, if they're paid for by registered letter. In currency having certain figures in its serial number, the figures listed being in most any piece of paper money. But this company can jack up the price of its goods 20 per cent or more — and escape the liability of rubber checks.

Mrs. and Mrs. James J. Tunny of 35 Oak Hill St., 58th wedding anniversary.

Mrs. and Mrs. Gordon Lennox of 3453 Sashabaw Road; 63rd wedding anniversary.

Mrs. and Mrs. Lorne B. Weaver of 1512 Hiller Road; 75th wedding anniversary.

Mrs. Nellie Stanley of Oxford; 85th birthday.

Soup De Jour

David Lawrence Says:

No Protection From Union Leaders

WASHINGTON — There are all sorts of "gaps" noted nowadays, but none so baffling as what might be called the "constitutional gap."

Demonstrations at lunch counters and elsewhere demanding "equal protection of the law" get considerable publicity. But the loss of constitutional rights by the public—at least large segments of it—seems to be taken as a matter of course.

A few businessmen who act in collusion to fix prices are rightly punished and jailed.

The damage in money terms is relatively negligible until the principle involved calls for redress.

Yet nobody goes to jail when a few union leaders, acting in collusion, tie up the major airlines of the country causing irreparable damage to transportation, disrupting the mails and innumerable business transactions, and resulting in unemployment for innocent employees of the airlines.

Actually, the flight engineers who are behind the "wildcat" strike have many points on their side.

They feel entitled to have a union of their own and to bargain collectively with the employers.

But a government agency—the National Mediation Board—acting under a little-used provision of the Railway Labor Act, suddenly undertakes to tell the flight engineers on an airline, in effect, that they cannot continue to bargain collectively through their own union but must become a part of a union they don't want to join.

This is a form of coercion which free citizens have never felt should be involved in a democratic society.

Many union men are themselves responsible for this loss of freedom. For they have waged and are still waging a battle to take away from the citizen his constitutional "right to work."

WANT TOTALITARIANISM? Instead, they insist upon a collective or totalitarian system whereby the individual's views are suppressed and he can be deprived of a job unless he does the bidding of the union in charge.

On the one airline on which the board acted, the flight engineers are outnumbered by about two to one, and the total number of flight engineers on all airlines is only about 3,500, while the air pilots' union has about 15,000 members.

The effect of the National Mediation Board's ruling extended to all airlines—is to order the flight engineers to become part of the pilots' union.

The objection of the flight engineers is not that they are outnumbered, they will lose seniority and other job rights if they join the larger union. They insist they have a right to bargain for the members of their own particular craft.

IS IT CONSTITUTIONAL? If it is constitutional, it may be asked, for a federal law to tell individual citizens what union they must join to keep their jobs or in order to bargain for their wages and working conditions? In effect, employers are being told that they must deal only with a particular union and that the minority has no right to bargain.

This principle has recently been imbedded in labor legislation, though it had been fought for generations as an infringement on personal liberty.

It is characteristic of the collectivist trend in modern society—a submerging of the rights of the individual to the will of the dominant groups in the economic system.

The flight engineers as a whole are the victims today of the "constitutional gap." They see a ruling affecting one company's employees that could be broadened eventually to include them.

Meanwhile, since the striking group is not a party to the dispute, they themselves cannot test the constitutionality of an order that has not yet been formally applied to them.

The Kennedy administration has promised to examine the whole subject, but it is doubtful whether repeal of the totalitarian power vested in the National Mediation Board to tell workers what union they must join will ever be advocated.

For the labor union monopolists today have the upper hand in the realm of legislation no matter what the Constitution may say to the contrary.

Voice of the People:

'Don't Sugar-Coat Truth—Give Americans Facts'

The Press is to be commended for the article on Jan. 26 concerning the status quo of our United Nations. They were certainly true facts that good American citizens should know.

We have too many sugar-coated, double-talking editors and writers trying to make the public think red is white. We need more public servants armed with the truth of God's word to give the public the hard, cold (or hot) facts of the national and international issues involved.

Only then, with God's blessing, can we build a sound government and economy.

Writer Against State Income Tax

Do we need more taxes in Michigan? We are against any form of state income tax. We are up to our necks in taxes.

The people voted for the 1 per cent sales tax at the last election with the idea that that would take care of our immediate needs.

We think Governor Swanson and the legislature should try some form of economy before they even think of another tax. Let your government know how you feel about this tax issue.

Taxpayers

'Why Should Aged Pay for Education'

Why should the aged pay taxes for transportation and free books to educate—grandchildren—and great-grandchildren?

I sewed, embroidered and crocheted for my four babies and was proud of my handiwork. Later I put my 5-year-old in boarding school, bought books and uniforms, and I'm proud that I had the backbone to do it.

I did not earn the money in those days that the poor young people do now a day's. No taxpayer's money was used to educate my children.

Perhaps if more loving care was given to the children there would be less delinquency.

If less money were spent on cigarettes and cocktails the poor young people could meet their obligations. Correct your problems at home. Why bother your Congressman?

Two More Views on Working Women

Unless a woman is a breadwinner, take her out of the factory and give a family man her job so he can feed his family. This would put more men to work and stem the overflow of delinquency by mothers staying home with their children where they belong.

This Worked in 1930

Women are citizens of the United States too. They were given the right to vote. Why are they being kept right to earning an honest living?

Death Notices

CHRISTINE CREAMER

One-year-old Christine Creamer, of 127 Coleman St., died yesterday at Pontiac General Hospital from virus pneumonia. She had been ill one day.

Survivors include her parents, Mr. and Mrs. Doyal Creamer; grandparents, Mr. and Mrs. William Werner of Hillman and Mr. and Mrs. Guy Creamer of Pontiac; and great-grandparents, Mrs. Elsie Draper of Pontiac and Mr. and Mrs. Bert Creamer of Hillman.

She also leaves a sister, Lorie and a brother, Alan, both at home. Service will be held Saturday at 1:30 p.m. from the Hunsom Funeral Home with burial in White Chapel Cemetery.

MRS. JOHN HUTCHCROFT

Mrs. John (Annie) Hutchcroft, 85 W. Beverly St., died yesterday at Pontiac General Hospital after a brief illness. She was 87. Her body is at the Pursey Funeral Home.

MRS. AMOS KELLY

The Rosary will be recited at 8:30 tonight at Donelson-Johns Funeral Home for Mrs. Amos (Mary) Kelly, 72, of Orlando, Fla. Service will be held at 11:30 a.m. Friday at St. Benedict's Catholic Church with burial in Perry Mount Park Cemetery.

Mrs. Kelly died of a heart ailment Tuesday at the Orange Memorial Hospital, Orlando, after a long illness.

ARCHIE A. McCALLUM

OXFORD — Service for Archie A. McCallum, 73, of 1 Park St., will be at 2 p.m. Saturday at the Bossard & Reid Funeral Home followed by burial in Oxford Cemetery.

Mr. McCallum died yesterday at his residence of a heart attack. Surviving besides his wife Flossie are a son, Clinton of Lapeer, and four grandchildren.

MRS. HENRY J. PROKOFF

WHITE LAKE TOWNSHIP — Service for Mrs. Henry J. (Arlene M.) Prokoff, 37, of 735 Bonita Drive, will be at 10 a.m. Saturday at St. Patrick Catholic Church followed by burial in Mount Hope Cemetery, Pontiac. The Rosary will be recited at 9:15 p.m. tomorrow at the Sparks-Griffin Funeral Home, Pontiac.

Mrs. Prokoff died yesterday at her residence after an illness of several weeks. She was a member of the Lakewood Village Women's Club, St. Mary's Guild and St. Patrick's Altar Society.

Surviving besides her husband are her mother Mrs. Anna C. Selk of Milford; a son, Michael H. at home; a daughter, Crisella A. at home; two sisters, Mrs. Mary Lamb of Rockwood and Mrs. La-tille Genet of Farmington; and four brothers.

Dial 'O' for Emergency

BY DICK HANSON

Dial O for emergency—but, don't forget to tell the telephone operator it is an emergency. This is the advice Michigan Bell Telephone Co. gives persons in distress, where a phone is the closest means of help.

On duty around the clock, Bell Telephone operators are constantly on the alert for the emergency call. In the office alone they answer an average of 10 emergency calls a day.

These calls will turn the gamut of life's trials—More commonly they will include pleas for police assistance, an ambulance or the fire department.

At the instant the call is identified as an emergency, the operator will be summoning the proper authorities on another line, and perhaps be trying to calm the distressed person.

As soon as the police or any other urgently needed party responds, they are connected with the caller through the telephone company switchboard.

Should the line go dead, the operator will immediately place it on hold so that it can be quickly traced to the corresponding address.

Telephone operators have been trained to remain calm in the face of crisis. Most of this training has been accomplished through simulated calls. The trainees in some cases would not know but that it is a real emergency. In addition, operators are finally picked for their cool heads.

Michigan Bell is anxious to help its users in any way possible. The fine operator trainees have completed the course they realize their action might save a life.

Chief operator in the Pontiac telephone office, Mary Mitchell, notes with pride that 84 per cent of the calls dialed simply "O" are answered within 10 seconds, and usually in less time.

When your closest means of call immediately that "this is an emergency for help is the telephone and agency." Help won't be long in coming if you dial O, remember to clarify coming.

Medical Director Dies

BROOKLINE, Mass. (AP)—Dr. Andrew W. Conratto, 34, associate director and chief of medicine of the Harvard University Health Service, died Tuesday night.

Ex-NATO Chief Is Dead

PARIS (AP)—Adm. Philippe Auboyneau, 61, former NATO chief for the eastern Mediterranean and a top wartime French naval commander, died Wednesday after a long illness.

Rejects Laos Proposal

PHNOM PENH, Cambodia (AP)—Cambodia today rejected Laos' proposal for a Cambodian-Burmese-Malayan commission to help end the civil war in Laos.

Sees Nonrefueling Subs.

NASHVILLE, Tenn. (AP)—Nuclear submarines which will never need refueling may be built soon, says Capt. William R. Anderson, former skipper of the nuclear submarine.

VIEW BLAST SITE—Plant officials look over the site of the flash explosion in a fractionating unit of the Phillips Petroleum Co. gas plant at Borger, Tex., Wednesday. Nine employees of the Bowman-Chase Construction Co. were killed and one injured.

3 State Air Bases Will Receive Cash

CINCINNATI (UPI)—The Ohio River regional engineering office of the Air Force has released \$2,386,000 in construction funds for aircraft maintenance dock relocation and fuel system maintenance buildings at three Michigan air bases.

The office released \$333,000 each for fuel system maintenance buildings at K. J. Sawyer, Kinchloe and Wurtsmith Air Force bases in Michigan. It also allowed \$425,000 for maintenance dock relocation at K. J. Sawyer, \$481,000 at Kinchloe and \$475,000 at Wurtsmith.

Bonding Ordinance OK'd for Grand Haven Water

GRAND HAVEN (UPI)—The City Council has approved an \$800,000 bonding ordinance for the Grand Haven water system expansion and authorized the city clerk to apply to the State Municipal Finance Commission for sale of the 30-year bonds. The expansion includes 24,000 feet of water mains and modernization of supply source facilities.

A Traitor in the Crowd

SAN ANTONIO, Tex. (UPI)—One of the contestants in the Miss Wool contest in Texas was Jerry Lynn Cotton.

Nick LaRocca, 71, Jazz Pioneer, Dies

NEW ORLEANS (AP)—Jazzman Dominick (Nick) LaRocca, whose blaring cornet helped spread a new kind of music through the world, died today at 71. LaRocca had been ill with heart trouble for three or four years.

He hadn't played professionally since 1937, but before he put

his horn away, he gave the world such jazz tunes as "Tiger Rag," "Fidgety Feet" and "Jazz Band Ball."

LaRocca claimed that the band he organized almost a half century ago first exported jazz when he traveled up the Mississippi River to Chicago in 1916.

LaRocca's survivors include his widow, four sons, three daughters, two brothers and two sisters.

The cigar originated in the Spanish West Indies.

WITNESS — August Sorrentino of Miami, Fla., is shown testifying Wednesday in Washington, D.C., before the Senate Investigations subcommittee in an inquiry into the repairing of government-owned boats. Sorrentino is president of the Oceanic Marine Industries of Florida, Inc., Tampa.

Snubbed, Kennedys Eat Crow

WASHINGTON (UPI) — The White House confirmed today that it tried — unsuccessfully — to lure a famous chef away from the French ambassador in London.

Anyway, Associate White House Press Secretary Andrew T. Hatcher said, President and Mrs. Kennedy are satisfied for the present with the White House kitchen staff.

Hatcher revealed that a person "close to the White House" — believed to be Mrs. Kennedy's social secretary Letitia Baldrige — last December asked Vuu Van Han, Vietnamese cook in London, if he would consider an offer to join the White House staff.

He made the disclosure after a UPI dispatch from London quoted French Ambassador Jean Chavvel's 30-year-old chef as saying he had turned down a bid to cook at the White House because he wants to stay at the French Embassy in London.

"It is true that a person close to the White House asked Mr. Vuu Van Han in December if he would consider an offer to supplement the White House staff," Hatcher told reporters. "Mr. Vuu Van Han is no longer under consideration and it is the feeling that the present staff is entirely adequate for the current limited social calendar of the White House."

The Dominican republic was founded in 1844.

March 13 Date Set for Hoffa

Attorney Wants His Indictment Dismissed in Florida Charge

ORLANDO, Fla. (AP)—Defense motions attacking a federal indictment against Teamster President James R. Hoffa and two associates will be argued in U.S. District Court at Orlando March 13.

Trial of the case had been originally set for March 6 and it will be held up pending a ruling by the court on the defense motions.

Attorneys for Hoffa, Robert E. McCarty Jr., former Detroit lawyer, and Henry Lever, former public relations man for a Detroit Teamster local, have asked the court to dismiss the indictment returned last December.

The three are accused of mail fraud and misuse of \$500,000 in union funds in connection with the Sun Valley Land Development near Cape Canaveral in adjoining Brevard County.

McCarty has also asked for transfer of the trial to Eastern Michigan, presumably Detroit. Hoffa's attorneys attacked the indictment, asked for more particulars and posed 27 questions they said should be answered by government attorneys.

Lower in motions filed by his attorneys asked a separate trial.

Nixon Displays a Poor Choice of 'Friends'

LANSING (U-P)—Sen. Charles S. Bonidy, a Democrat of long standing, thinks Richard M. Nixon, a Republican of long standing, made a mistake. Bonidy got a letter from the former vice president Wednesday. It expressed Nixon's appreciation "for your friendship and support in the campaign of 1960."

"We support Nixon!" said the senator. "Why I've been a Democrat all my life."

Bonidy gave the letter to Sen. John W. Fitzgerald of Grand Lodge, a Republican of long standing.

African Chiefs Back British Freedom Plan

LUSAKA, Northern Rhodesia (AP)—African tribal chiefs today backed a British plan to give the Negroes of Northern Rhodesia more political freedom as the white minority threatened to demand independence to preserve white supremacy in the royal protectorate.

Sir Roy Welensky, prime minister of the Central African Federation that links Northern and Southern Rhodesia and Nyasaland, was reported ready to call a general election asking for a mandate to break all ties with the crown.

Troops were held in readiness but fears of any immediate outbreak of racial strife in Northern Rhodesia subsided after 25 tribal chiefs approved the proposed British reforms and appealed to the Africans to remain calm. But the tribes—representing all the tribes in the territory—expressed grave concern at the troop mobilization ordered by Welensky after he rejected the proposed new constitution for Northern Rhodesia.

Oregon has 31 mountain peaks more than 6,000 feet in height. The highest of them is Mt. Hood which has an elevation of 12,466 feet.

HOLD THAT TIGER—Strolling into the Charlotte, N.C., Coliseum with a 2-year-old Siberian tiger on a leash is trainer Hans Neuberger. His two sons are having great fun helping their father get ready for his act. Teddy, 8, has no trouble at all holding this tiger by the tail and John, 10, feels right at home trotting beside the sneaky beast.

Old Trees Still Produce
MANGUM Okla. (U-P)—In 1895 William Mikan set out four pear trees in an orchard near here. The four still were producing in 1960.

Cleric Parades Miles in Detroit for Atom Peace

DETROIT (AP)—Ignoring rain and a drizzle, the Rev. Curtis Crawford hore a 10-pound flaming torch for miles in a walk along Detroit streets Wednesday night.

Rev. Crawford, disarmament crusader, indicated he felt he had made some impression in his demonstration in behalf of peace.

"I have a feeling that I am moving some audiences," he said. He walked for eight hours—from 8 p.m. to 4 a.m.

Crawford, a Unitarian minister and New York University student, says he is trying to awaken the world public against the danger of atomic war.

His Detroit walk, estimated at 19 miles, was half a circle 4½ miles from the downtown civic center. He walks the other half of the circle in neighboring Windsor tonight.

U. S. Foundry Society Due at Pontiac Motor

Members of the Detroit chapter of the American Foundry Society will gather at Pontiac Motors Division at 6:30 tonight for a dinner meeting.

The group will also inspect Pontiac's modern gray-iron foundry. Approximately 350 AFS members are expected to attend.

The Great lakes have an estimated 65,000 square miles of deep water.

U. S. of Europe Envisioned by Italian Envoy

ANN ARBOR (U-P)—Italy's ambassador to the United States, Manlio Brosio, says the nations of Europe are drawing ever closer to a "United States of Europe."

"A European federation is still in the distant future, but we are already achieving in peacetime a remarkable degree of common thinking and action," Brosio said. Brosio, 63, an attorney who has been in Italy's diplomatic corps since 1947, was the featured speaker Wednesday, at a University of Michigan program commemorating unification of Italian states into a single nation in 1861.

To Discuss Jobless

LANSING (UPI)—Max Horton, director of the Michigan Employment Security Commission, will go to Washington Tuesday for a meeting on President Kennedy's proposals on unemployment compensation. The meeting was called by Labor Secretary Arthur J. Goldberg.

Interchangeability Cuts Cost of Making Tempest

How can Pontiac, which has always split manufacturing costs with Oldsmobile and Buick, afford to produce the Tempest with so many unique features?

The question has been answered by Joseph M. Gallahan, engineering editor of Automotive News.

"Actually, this revolutionary car has a good deal of interchangeability, which is vitally necessary if it's going to compete with other compact cars," he explained.

Specifically, much of the sheet metal is interchangeable with the F85 and the Buick Special, and much of the transaxle and suspension is interchangeable with Corvair.

Most of the components of the

Tempest's four-cylinder engine are the same as those on the Pontiac V8.

Even though the Tempest has a unitized body, he said, its propshaft torque tube enables the Pontiac compact to be built on the regular Pontiac assembly line.

The four-cylinder engine is produced on the regular eight-cylinder line.

Tshombe 'Can't Get' Body of Lumumba

ELIZABETHTOWN, Katanga. — President Moise Tshombe had announced his refusal of a United Nations request for the return of the body of former Congo Premier Patrice Lumumba.

Tshombe said he told Rajeshwar Dayal, the United Nations chief in the Congo, he cannot get the body.

Tshombe also said he informed the U.N. that he cannot accept their request for an international commission to investigate the death of Lumumba.

Detroit Judge Rules Against Moore's Aides

DETROIT (AP) — Doc Kearns and Charley Johnston, managers of lightweight champ Archie Moore, lost a decision worth \$11,500 in Detroit Wednesday.

Wayne County Circuit Judge Theodore R. Bohn ruled that Kearns and Johnston couldn't pick up an \$11,500 check posted with the Michigan Boxing Commission as a guarantee by Chuck Spieser that he'd fight Moore.

Bohn ruled there never was a contract for the proposed lightweight championship fight between Moore and Chuck Spieser in January 1958.

"It was all," the judge said, "a part of the hollyhock of the fight-promotion game, similar to the advance notices that were formerly made by the great P. T. Barnum."

It took Abraham Lincoln only two minutes and 15 seconds to deliver the historic Gettysburg address.

WHERE IS LAOS? — This color map shows the location of the nation of Laos much in the news recently. Dissension between neutralist, pro-Western and pro-Communist forces has created a critical situation.

Should this keystone Southeast Asia nation be the target for all-out Red aggression, neighboring Cambodia, Thailand, South Viet Nam and Burma would be imperiled.

State Hospital Steps Ahead

By DICK SAUNDERS
Some \$40,000 worth of IBM equipment is currently being installed at Pontiac State Hospital.

There are five data processing machines, a copy-typist and an autotypist now being put to use to improve the efficiency of paper work and increase patient care.

It is the first time the hospital has utilized such machines.

The new data-processing equipment will handle 60 transactions per minute, or 3,000 units per hour.

"The service is equivalent to the uninterrupted efforts of 10 typists working steadily for one hour," said Gerald Bax, hospital business executive.

Staff members believe the new installations will improve inventory control, which will result in savings to the state.

"The machines will greatly increase our accuracy in purchasing supplies, reducing the chance of running out or ordering too much," Bax claims.

"They will handle routine matters, freeing personnel to spend more time supervising purchasing which should result in better supplies at lower costs."

TOO MUCH WORK
The hospital business office maintains a bank account for each patient, depositing and withdrawing their personal funds as the patients desire.

There are some 9,000 deposits and 42,400 withdrawals made each year and the number is increasing so rapidly that one person could not handle the entire load and another would have to be hired.

"The use of IBM equipment here will not only eliminate the need for additional personnel, but free the present personnel for service in the patient care area," said Ted A. Panaretos, community relations director.

The machines are capable of saving 15 work hours a day in clinical reports alone.

Staff personnel are currently being schooled in the operation of the new IBM equipment.

Elected Head of C. of C.

MOUNT PLEASANT (AP) — John V. Rodebeck, Michigan Consolidated Gas Co. district manager, was elected president of the Mount Pleasant Chamber of Commerce Wednesday.

FIRST TIME — Pontiac State Hospital is now using IBM data processing equipment for the first time. The installations, worth nearly \$40,000, are being used to process everything from patient bank accounts to medical reports. Doyle Wagner (left) operates a tabulating machine

while Mrs. Hendrik Schanstra works a key punch machine. John Robin, assistant business executive, looks over the results. The new installations are resulting in increased patient care at the hospital.

ELECTRICAL TYPISTS — New installations of specialized office equipment are adding to the efficiency of paper work in the business office at Pontiac State Hospital. The units save many hours of work, even if they are replacing the need for good looking stenographers. One of the good "old fashioned" type of typists, Mrs. Patricia De Longchamps of 6914 Tappan Court, Clark-

ston, operates all three machines at once. On her electric typewriter (right) she is typing a letter. The letter is being automatically duplicated on the copytypist (center) and autotypist (rear). She will get three letters for the price of one. The autotypist also can duplicate any number of letters from a prepared stencil.

Waterford Teacher's Idea

Teens Study Income Tax

By REBA HEINTZELMAN

Making out an annual income tax report should never in the future trouble Waterford Township 7th graders attending classes at Pierce Junior High School.

They're learning how to itemize personal deductions, to list exemptions and figure their tax by using the appropriate tax rate.

And besides that, the youngsters are learning much about mathematics, how to read difficult government forms, write more neatly and think concisely about what they're reading and writing, according to their math teacher, Norman L. Whitkop.

"Never before has a project in my classes created so much interest," he said. By bringing facts and figures practically from within their own homes, they get a real feeling of learning something that will be vitally important in their future lives.

IMAGINE JOBS

Here's how it works. Each pupil is given a United States individual income tax to fill out. The boys assume they are married, have two children and work in some position at one of the General Motors plants in Pontiac. They have a choice of positions

which are listed on the blackboard, with the average salary of each position received by employees at the plant.

The girls pretend they are widows and have two children to support. There is another list of jobs

for the girls to choose from as working mothers, and these, too, were selected, from General Motors positions.

Such terms as excludable sick pay, dividends received, tax table computation and itemized deductions which baffle most women and some men are "duck soup" for these youngsters.

The boys and girls make an imagined list of contributions, medical and dental expenses and other deductions. They know that upon request by the federal district director, they must be able to support all deductions claimed.

LEARN OF REFUND

However, they also have learned that if they believe there is an error in any bill, statement, or refund in connection with their tax, they are entitled to have the matter reconsidered by the director.

Depreciation, annuities, royalties and net corporation operating loss — these terms have become natural conversation to them.

Pierce's seventh graders have taken much of their new knowledge home to parents, who have cooperated tremendously in bringing the subject even "closer to home," Whitkop said.

CONCENTRATED LEARNING — These Pierce Junior High School 7th graders were completely oblivious to the photographer. They were too interested in making out their own income tax forms. The new venture in Norman Whitkop's arithmetic classes is a big hit with the teenagers. He is shown in the background.

Seek Fix Redress Asks End of Committee

WASHINGTON (UPI) — Attorneys for about 30 cities and municipal utilities meet here today to figure out how to recover millions of dollars in damages from electrical manufacturers who rigged bids and prices.

Such terms as excludable sick pay, dividends received, tax table computation and itemized deductions which baffle most women and some men are "duck soup" for these youngsters.

The boys and girls make an imagined list of contributions, medical and dental expenses and other deductions. They know that upon request by the federal district director, they must be able to support all deductions claimed.

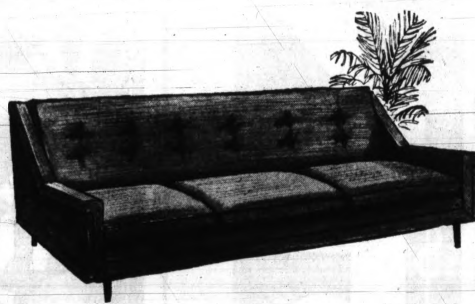

LEARN OF REFUND

However, they also have learned that if they believe there is an error in any bill, statement, or refund in connection with their tax, they are entitled to have the matter reconsidered by the director.

Depreciation, annuities, royalties and net corporation operating loss — these terms have become natural conversation to them.

Pierce's seventh graders have taken much of their new knowledge home to parents, who have cooperated tremendously in bringing the subject even "closer to home," Whitkop said.

Why is one of these whiskies insured for **One Million Dollars?**

Answer:
To insure that every bottle of Calvert Reserve is the most rewarding whiskey you ever tasted.

Calvert Reserve
American Blended Whiskey

\$436 1/2 qt.
\$275 Full

SOLID-GOLD BARS COURTESY OF HARRY & HARRIS, A U.S. TREASURY DEPARTMENT LICENSEE

Both the whiskies pictured above have exactly the same exceptional flavor, smoothness and aroma.

Why then is one—the whiskey on the right—insured for one million dollars? Because it is drawn from Calvert Reserve's "Standard of Excellence"—the whiskey that sets the standards for today's superb Calvert Reserve. This insures that the bottle on the left—and every bottle of Calvert Reserve you buy—is

the most rewarding whiskey you ever tasted. Uniform quality like this means skillfully blending at least 18 selected straight whiskies, uniting them perfectly, through use of rare grain neutral spirits. Reason: All straight whiskies vary with each new distillation.

But thanks to Calvert Reserve's "Standard of Excellence," the taste of Calvert Reserve never varies—always Good as Gold. Shouldn't you enjoy it tonight?

You deserve Calvert Reserve

WE Dalmatian Girls ARE SO PICKY!

Q. Can you give us any explanation why our 3-year-old female, spayed Dalmatian will cuddle up to strangers when they are petting her and suddenly squeal as if she had been attacked? Martha Goodman, Akron, O.

A. A spayed female will retain the characteristics of a puppy for a much longer time than the unsprayed. We know that the immature female will often squeal when touched, but we don't know whether it is from pleasure or pain. I suspect the former.

I guess its a sign of adolescence, like teenagers reacting to Fabian or Elvis. If your Dalmatian shows any sign of pain or discomfort when touched, of course you should have her examined at once.

But if she just squeals, don't worry. She will outgrow it. You can speed it up, however, with hormones prescribed by your veterinarian.

The border between the United States and Canada is known as the longest unfortified frontier in the world.

To Open Bids for Work on Kent County Airport

GRAND RAPIDS (UPI)—The Kent County Aeronautics Board announced today that the Michigan Department of Aeronautics will open bids March 30 for the first phase of work on the new multi-million dollar county airport in Cascade Township.

The board held a special meeting and also announced agreement to buy from Consumers Power Co. 67.7 acres of land at the new airport site for \$110,000. The land is part of the 1,800 acres the board figures it will need for the new airport.

Basic Disagreement

MOTTVILLE (UPI)—Stanley Antovskis will be the Democratic candidate for the Mottville Township Board of Review in the April 3 election while his wife Mae will be the Republican candidate for township treasurer.

ARRESTED — AP Photos
Chumley, 67, was arrested in Chicago Wednesday by FBI agents who said he has spent most of the last 45 years impersonating federal officers or serving prison terms. He is being held for impersonating a federal lawyer.

Truck Booklet a Money Saver

Publication Distributed by GMC Has Many Tips on Transportation

A booklet showing how proper truck selection, operation and maintenance can produce substantial savings in the face of mounting transportation costs is being distributed by GMC Truck & Coach Division's transportation productivity research staff.

Entitled "Basic Considerations in the Selection, Operation and Maintenance of Motor Vehicles," the study emphasizes the importance of getting the right truck for the job.

"Seek the least expensive, not the 'cheapest' equipment," the booklet suggests. First cost isn't always the lowest cost. True cost is arrived at by totaling the vehicle's original price, operating and maintenance costs, then subtracting its resale value and dividing the balance by the ton-miles it has traveled."

The booklet advises the truck operator to select modern styled vehicles that aren't excessively heavy yet are strong enough to haul his maximum loads. Then make sure the transmission has enough reduction for good gradeability, as insufficient gradeability seriously shortens drive-train life.

Many basic considerations for improving the truck operation lie in the maintenance field, the booklet continues. Selection of proper components can bring significant savings in labor costs which represent 50 to 60 per cent of the maintenance dollar.

Besides offering tips on sound operating practices, the booklet lists some "thought starters" to stimulate research into "seldom explored areas of the transportation problem." Such subjects as vehicle replacement, safety and driver training are explored in this section.

Jered Will Host 500 Executives at Open House

Jered Industries, Inc., and its subsidiaries, Jered Equipment Co. and Jered Products, will be hosts to over 500 business and government officials Friday at an open house in the company's newly expanded facilities, 1300 S. Coolidge Road, Birmingham.

As specialists in the transmission and application of power, Jered Industries provides product design, development and engineering services to the automotive, farm implement, aircraft and shipbuilding industries as well as to government agencies and the armed forces.

A typical project nearing completion is the Jered "Beetle," a giant mobile manipulator developed to permit servicing of nuclear-powered aircraft and other atomic equipment where radiating hazards present unusual maintenance problems.

The Jered Equipment Division designs and builds automation equipment — particularly of the type used for inspection, assembly and testing operations.

Jered Products produces vacuum-formed thermoplastic materials for decorative and functional applications as well as urethane foam products for refrigeration equipment.

According to E. R. Davies, president, all three of the company's divisions activities now are in operation in their new quarters on the 13-acre plant site.

Diver Couldn't Swim

SAN DIEGO, Calif. (AP)—In 25 years as a navy diver, Morris Hoffman, 71, recovered 450 bodies from ships and planes that went down at sea, most of them during World War II. But in all the 25 years, there was one thing that Hoffman didn't do: He never learned to swim. He observed in recalling his experiences.

Leukemia Claims Husband of Heiress

CANNES, France (UPI)—Marquis Georges de Cuevas, ballet impresario who married a Rockefeller heiress, died of leukemia Wednesday at 75.

Chilean born, De Cuevas was a Paris dress designer in 1937 when he married Margaret Strong, who had inherited millions of dollars from her grandfather, John D. Rockefeller. They had lived apart in recent years.

De Cuevas' lavish parties attracted wide attention, and one, in 1953, drew a Vatican rebuke. It was supposed to have cost \$85,000.

But the Marquis was best known for his choreography and ballet troupe, which had appeared in the United States.

Goodyear Was Sold on His Rubber Process

AKRON, Ohio (UPI)—Charles Goodyear, after whom the Goodyear Tire & Rubber Co. was named, was so sold on his vulcanizing invention, that he wanted to make everything—even bank notes—out of rubber.

He wore rubber hats, vests and ties, had his calling cards engraved in rubber and his autobiography printed and bound in rubber.

FAREWELL HANDSHAKE — President Kennedy shakes hands Wednesday with Llewellyn Thompson, U. S. ambassador to Russia, as they hold a final conference at the White House before Thompson's departure to resume his duties in Moscow. The ambassador returns to Russia today carrying a goodwill message from Kennedy to Soviet Premier Khrushchev expressing the hope for better understanding between Russia and the United States.

Her Birthday Wish
Is a Bicycle Ride

NEW YORK (UPI) — Miss Ella Lee Requa celebrated her birthday at a Bronx hospital and confessed she had one dream she wished she could have as a birthday present.

"I'd like to take a leisurely bicycle ride, the kind I was able to take when I was young," she said.

"In those days life moved slowly and a person had the time to really appreciate the natural beauty of tree-shaded walks and quiet picnic areas," Miss Requa is riding only a wheelchair these days. She's 104.

Dried Honey Product...
a Really Sweet Idea

COLLEGE STATION, Tex. (UPI) — Dried honey, a new product resulting from a drying process devised by the U. S. Department of Agriculture, gives bakers and candy makers more opportunity to use this wholesome sweetener than ever before, Texas A&M College reports.

When reconstituted with water, dried honey has substantially the flavor of fresh liquid honey, and in free-flowing granular form provides new convenience and economy in handling.

State Ambassadors Have New President

LANSING (AP) — Robble B. Martin, president of the Dundee Cement Co. of Dundee, has been named chairman of the executive committee of the Michigan Industrial Ambassadors.

He succeeds Merritt D. Hill of 984 Glenway Circle, Bloomfield Village, as head of about 230 businessmen who work to promote Michigan as a good place in which to locate industry.

Hill, a Ford Motor Co. vice president and manager of Ford's Tractor & Implement Division, is retiring after three years as chairman of the unofficial "ambassadors."

Children's shoes are so designed that when correctly fitted at the time of purchase they will allow unrestricted foot growth for four to six months.

JFK Gives Congress Vast Resources Bill

WASHINGTON (AP) — President Kennedy today sent Congress a program for vast development of America's natural resources and he asserted Eisenhower administration policy took a heavy toll of lives "by postponing essential flood control projects."

In a special message, the President set forth plans for both immediate and long-range dealing with a host of problems in the field of resources. He said: "If we fail to use these blessings prudently, we will be in trouble in a short time."

He called for facing up to the problems now, and added: "The task is large but it will be done."

Kennedy placed no price tag on his far-reaching program which, among other things, envisages development of economically competitive nuclear power within 10 years to replace or supplement power from conventional fuels in areas where such fuel is expensive.

Administration officials said they won't be able to estimate the added cost of the overall Kennedy program over present levels of resources spending until studies by the Budget Bureau and other federal agencies have been completed. These officials indicated they look for very little swift impact on the budget with several of Kennedy proposals geared to needs years from now.

Specific recommendations by the President include doubling spending on research aimed at making salty ocean water suitable for use in the home and by industry.

Urges Action on Tax Laws

Senate Group Backs Changes in Legislation on Property in State

LANSING (AP) — A special senate interim committee has recommended immediate action in changing laws regarding personal property taxes in Michigan.

The committee's report was released Wednesday following a series of hearings.

It said the study showed that Michigan's state and local tax structure, "particularly the local personal property tax," has had an adverse impact on employment.

"Taxation policies have driven job-producing industries out of the state," the report said. "Any place they can go in their search for relief as a means of survival is a keen, competitive situation."

"This situation has started a chain reaction of lower employment, higher welfare load, lower retail sales, devaluation of and abandonment of real property, and ultimate inability to pay any taxes no matter how well conceived, honestly assessed or efficiently collected."

Pontiac Widow Beaten, Robbed by Young Bandit

A Pontiac widow was beaten and robbed by a young bandit who entered her home yesterday afternoon while she was away shopping.

Mrs. Eula Hightower, 67, 82 Hess St., told Pontiac police the bandit, in his early 30s, grabbed her and began to choke her when she entered the house shortly after 3 p.m.

He then hit her several times with a wooden box, she said, demanding that she "give money."

He took her change purse containing \$6 in bills and some change.

As he left, he said he'd "call a doctor," Mrs. Hightower said.

Police took her to Pontiac General Hospital where she was treated for facial lacerations.

Trap for Thieves Nets 2 Suspects

Addison Man Leaves \$110 as Bait in Effort to Get Stolen \$3,000

A 32-year-old Addison Township man who had \$3,000 stolen from his house three months ago yesterday set a trap to catch the thieves.

He netted a pair of junk collectors from Detroit and summoned sheriff's deputies.

Deputies arrested Robert Williams, 24, and Lawrence Warren, 46, after finding \$110 allegedly belonging to William Wanke at 45 Brewer Road, Addison Township, in their possession.

Wanke told deputies he had copied down the serial numbers from a \$50 bill and three \$20 bills and then placed the bills in his coat pocket which was hanging on a hook in the kitchen.

When Williams and Warren arrived at the house to pick up some refuse Wanke was discarding, he left them alone in the kitchen for a few minutes.

Resigns to Join Reds

LONDON (AP) — Roland W. Caspola, a former member of the Labor party's national executive council, said Wednesday he has resigned as a Laborite and has joined the Communist party.

Caspola, who lives with his son, Bernard, 46, who lives with him, stopped the two junk dealers as they were preparing to leave in their truck and telephoned the sheriff's department.

Deputies John Davis and Roland Pless found the missing money stashed inside a barrel on the truck and arrested the pair from Detroit for investigation of larceny from a building.

Detectives were to question the suspects today regarding other recent thefts in the area before they are charged and arraigned in justice court.

TEMPORARY OBSTACLE — Patrolman Ray Tertocha surveys the situation created recently when about 70 bags of lime spilled from a truck on a downtown Decatur, Ill., street. The truck driver apparently didn't realize the bags had fallen from his truck and failed to stop. The debris was cleared away by the street department.

But 'Lacks Warmth'

Labels Dag Impartial

VATICAN CITY (UPI) — United Nations Secretary General Dag Hammarskjöld impartial and patient but "poor in ideas and human warmth," the Vatican magazine *Osservatore Della Domenica* said today.

The U.N. secretary is one of those patient, conscientious and impartial Scandinavian bureaucrats," the magazine said, "full of humanitarian formulas" although poor in ideas and human warmth.

In an article titled "Tragedy in Congo," the magazine said the late Patrice Lumumba's name was used to counter Hammarskjöld following a first offensive against United Nations personally directed by Soviet Premier Nikita Khrushchev during the last session of the general assembly.

"Lumumba is an opportunity for Communists to cry vendetta against colonialist capitalism — which includes all those who do

Dog Has Good Marks but Fails in Respect

DES MOINES, Iowa (AP) — When 11-year-old Arnold Engman of Des Moines and his 6-year-old brother Joseph are at school, their dog King thinks he should be there, too.

Fact is, the dog's attachment to the school and the boys is so well known by the school faculty that the last time report cards were distributed, King got one, too.

He got good marks for almost everything except respecting authority.

An average passenger automobile in the U.S. is 3.2 years old at the time it is traded in by its first owner.

Hot Worker Doesn't Notice the Real Fire

MEMPHIS, Tenn. (UPI) — A full of smoke from the fluorescent light, she hadn't noticed it. Mrs. Edna Holden turned off the switch to the light, behind the counter, that light and summoned firemen.

You're on fire here.

Sure enough, unknown to the busy Mrs. Holden, the ceiling was

Federal Spending Zooms \$33 Billion in 13 Years

NEW YORK (UPI) — Federal expenditures between 1946 and 1959 rose from \$61.7 billion to

\$94.9 billion, an increase of 54 per cent, government figures show. This compared with the rate of spending for all states, which jumped from \$6.4 billion in 1946 to \$31.1 billion in 1959, a total increase of 386 per cent.

MEN! Pre-Easter Special!

Spending money
and saving money
is a serious
business

"Robert Hall makes and sells for cash, more men's suits and coats than any other clothier in America."

Why?

Because... we save—you save.

- No credit charges
- No service charges
- No fancy fixtures
- No show windows
- Out of the high rent locations

In other words, it makes plain common-sense. Why pay for something you cannot wear?

Therefore, our reasons for saving you money are just as sound today, as when we first introduced these savings to the American public twenty years ago.

Just one more important fact... Our men's suits and coats are made in America by skillful tailors—your assurance of quality.

You will find this "MADE IN THE U.S.A." label only at Robert Hall on every man's suit and coat.

A special group of our

Tipacon Chapter Presents Show

450 Go to See Spring Fashions

Liking what they saw from the wings of Pontiac Central High School's auditorium Wednesday evening were these members of Tipacon Chapter of the American Business Women's Association. Charter member Mrs. Carroll

Welch of Oneida Road (at left), President Mrs. Charles Stark of Drayton Plains and show cochairman Martha Breckenridge handled much of the behind-the-scenes effort for the group's fashion show.

By MADEIRA DOREEN

Neither rain nor snow nor 'dark of night' can keep a woman from attending a fashion show.

The Tipacon Chapter of the American Business Women's Association presented a "Parade of Spring Fashions" by Arthur's before some 450 women Wednesday evening in Pontiac Central High School Auditorium.

Eleanor Larson and Martha J. Breckenridge were co-chairmen of the event.

Fashions were co-ordinated by Mrs. Charles Hewitt, bridal consultant and dress department manager for Arthur's and Mrs. James Wright, buyer and millinery department manager.

Mrs. Donald Williams commented on the styles featured by the models to background organ music by Mrs. Raymond Hart, on a Gallagher Music

Co. organ. Hair styles were created by Randall's Scope.

BUY A LOOK

"Fashion shopping no longer means buying a dress, suit, coat and hat at random," said Mrs. Williams. "You buy a look." Trained store personnel help the buyer achieve the look by co-ordinating accessories to the ensemble.

Modeling styles for casual wear, dressy occasions and the wedding were Mrs. Russell Boushell, Mrs. Robert Everett, Mrs. Donald Sanderson, Carol Sanderson, Mrs. Robert Schibowski, Karen Tuttle, Sharon Yassi and Mrs. J. William Waller and Mrs. David Sebring.

The new fabrics are comfortably wearable, most of them are washable and all of them are packable. They require a minimum of care whether at home, in business or on vacation.

Many of the two-piece casuals from the Town and Country collection come with matching slacks.

Oversize jet buttons on spring coats worn with patent pumps and shoes were striking. Large tufted buttons appeared on soft semidressy suits.

Shirtwaist dresses, some with matching jackets, for the mature figure were popular with the audience.

ITALIAN SILK TOPS

Hit of the show was a cante-loupe green three-piece suit of Italian silk worn with printed green blouse of mat satin.

Details like roll shawl collars, notched lapels, and the very new handkerchief for dresses, suits and coats were pointed out. Sleeves on almost all garments are cropped. Bib necklaces add the finishing touch.

The cloche hat and rolled cuffed Breton seem to dominate spring millinery. Chip straw and many checked

straws are featured, some with polka-dot maline over a semi-bullet crown.

Proceeds from the show will further the chapter's educational and charitable projects.

Mrs. Donald Sanderson of Walled Lake (at left) models a trim black and white checked Arnel jersey jacket dress by L'Aiglon. Mrs. Elsa H. Leese of

Clarkston, was publicity chairman; and Mrs. Donald F. Lunsford of Devondale Road, a committee member.

Can't Love 2, Says Abby

Some Day He'll Come Along

DEAR ABBY: I have two very fine, well-established gentlemen in love with me, but I cannot for the life of me make up my mind which one I want.

Each knows about the other and have patient with me I am even more than ever. If only one would give up so I wouldn't have this decision to make.

I feel like such a fool, Abby, telling them to give me more time. I am 29 years old and should know what I want.

When I think I want one, my heart hurts so for the other. I

have changed my mind a dozen times back and forth. Is it possible to be in love with two men? I think that's my trouble.

ALL MIXED UP I feel like such a fool, Abby, telling them to give me more time. I am 29 years old and should know what I want.

When I think I want one, my heart hurts so for the other. I

have changed my mind a dozen times back and forth. Is it possible to be in love with two men? I think that's my trouble.

ALL MIXED UP I feel like such a fool, Abby, telling them to give me more time. I am 29 years old and should know what I want.

When I think I want one, my heart hurts so for the other. I

school they pester me and try to pick a fight. Abby, I don't want to fight although I think I could knock their stupid blocks off. Don't tell me to ignore them. If you don't want to fight yourself if you ever have to.

HATES TO FIGHT DEAR HATES: Take a few boxing lessons. Even if you never raise your fists in anger it will be good for your self-confidence to know you can defend yourself if you ever have to.

DEAR ABBY: You said in your column that smokers were the most selfish people in the world. I think you're wrong. Dog-owners are.

"HIGH STEPPER" Yes, Abby will answer your letter personally if you write to ABBY, Box 3365, Beverly Hills, Calif., and enclose a stamped, self-addressed envelope.

Getting married? For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to ABBY, Box 3365, Beverly Hills, Calif.

Sunrise gold is spring's exciting color. Modeling a two-piece casual cotton knit with embroidered cardigan-top is Sharon Vassi of Littlelet Road.

New Citizens Salute Washington, Lincoln

The New Citizens' League of Pontiac and Janice Antona's citizenship class members sponsored their 23rd annual Washington-Lincoln program Wednesday evening at Pontiac Central High School.

The event was attended by some 200 members and guests, including Judge Frederick C. Ziem, who spoke briefly on George Washington and Abraham Lincoln. Mayor Philip E. Rowston extended greetings to the new citizens from the City of Pontiac. A telegram of congratulations from Congressman William S. Broomfield was read by Miss Antona.

Members who attended the first Washington-Lincoln program, Mrs. John Bank, Mrs. Theodora Giannopoulos and Peter Tysick, were honored by Mrs. Leon Edmunds, speaking for the current class.

Students of the present citizenship class presented a program on the Constitution. Participating were Dea Lambourn, Joande Wells, Nikola Ristich, Effie Petropoulos, Stephen Chameyck, Jean Didilas, Louis Gutierrez, Heinz Leibner, Ann Traylor and Effie Liebner. Others contributing to the program were Margaret Leners, Alex Bogart, Percy Briggs, Betty Pleasant, Frank Walker and Mrs. Edward Hudeh — gave their impressions of the Washington Monument and the Lincoln Memorial.

The American's creed and the pledge of allegiance to the flag were read by Marcello Tamayo and Tony Rubalcaba, respectively. Students participating in the evening's activities represented 12 countries.

Entertainment was offered by Jean Hattala with violin selections, accompanied by Gil Jackson. Vocal selections were by the boys' double quartet and the senior boys' ensemble from Pontiac Central High School.

After seeing the Pontiac Area Chamber of Commerce's film "The Pontiac Story of Progress and Promise," the group sang the "Star Spangled

Banner" and "God Bless America," accompanied by Mrs. Joseph Bennett.

OTHER GUESTS Additional honored guests were Mrs. Mary Todd, Americanism chairman of General Richardson Chapter, Daughters of the American Revolution; Mrs. Joseph Phillips, Americanism chairman of the American Legion Auxiliary, Chief Pontiac Post; and Mrs. Rowston, Mrs. Todd and Mrs. Phillips presented other members of their organizations who were present.

Refreshments were served under chairmanship of Mrs. Daisy Langton by a committee from the current class. Tables were arranged in a patriotic motif with a floral centerpiece centered by doll replicas of George and Martha Washington and Abraham and Mary Lincoln.

TELL OF TRIP Following the students' presentation, two members who made the class trip to Washington, D. C. — Mrs. Frank Walker and Mrs. Edward Hudeh — gave their impressions of the Washington Monument and the Lincoln Memorial.

The American's creed and the pledge of allegiance to the flag were read by Marcello Tamayo and Tony Rubalcaba, respectively. Students participating in the evening's activities represented 12 countries.

Entertainment was offered by Jean Hattala with violin selections, accompanied by Gil Jackson. Vocal selections were by the boys' double quartet and the senior boys' ensemble from Pontiac Central High School.

After seeing the Pontiac Area Chamber of Commerce's film "The Pontiac Story of Progress and Promise," the group sang the "Star Spangled

Ball to Aid Scholarships at MSUO

Plans for a gala ball at Meadow Brook Hall to raise \$25,000 for the MSUO Foundation scholarship committee were announced today.

The announcement was made at a luncheon at the Detroit Athletic Club today, with Mrs. William T. Gossett of Bloomfield Hills and Mrs. Jamison Williams of Birmingham as cohostesses.

Composing the May 6 ball will be Mr. and Mrs. Alfred G. Wilson, donors of the MSUO Foundation, and the executive trustees of the MSUO Foundation. The affair will be by invitation only, and limited to 250 couples, at \$100 per couple.

The executive trustees and the Wilsons are joining the efforts of the scholarship committee of the MSUO Foundation, headed by Mrs. Maxwell Matthews of Bloomfield Hills. Goal of the committee for the year is \$60,000. This sum would provide 160 scholarships.

Currently there are 130 students at MSUO on scholarships provided by \$40,000 raised by the committee last year.

The executive trustees are James Zeder, Alfred C. Girard, Donald Aherne, Mrs. William T. Gossett, Dana Whitmer, Paul K. Cousino, and Harold A. Fitzgerald.

Local Chairman

Gene Locke Beauchamp of Chippewa Road, former member of the WAVES has been named local chairman for the 19th National WAVES Reunion in Los Angeles July 27-30.

The national reunion is hosted each year in a different city on the anniversary date of the founding of the "Petty-coat Navy" in July 1942.

Mrs. Kennedy Just a New-Fashion Girl

LONDON (UPI) — Two impressive phenomena have been observed in Western Europe in recent days. There was an eclipse of the sun, and the appearance of young women — and what woman isn't? — changed abruptly.

Almost overnight the tousled hair, the casual sweater and the tight skirt no longer are fashionable. The reign of Miss Bardot has ended. Long live Mrs. John F. Kennedy!

You can see a reasonable facsimile of her any place and hour. Models wearing the small hat, the sleek hairdo and the wide-eyed look peer at you constantly from the newspapers and fashion magazines.

Women study the photographs of Mrs. Kennedy's inaugural costumes with thoughtful expressions on their faces, and it is obvious that family check books shortly will be asked to perform above and beyond the call of duty throughout the European Theater of Operations.

Mrs. Kennedy's husband has been heard to say the prestige of the United States is declining abroad. Advice is a commodity which is never in short supply around the White House, but the suggestion is hereby made that the President should never underestimate the power of a woman.

He has also a new-found asset in Oleg Cassini, the 47-year-old designer who makes Mrs. Kennedy's clothes and has the potential of becoming a one-man Marshall Plan. Until recently he was almost unknown over here, but now his face is familiar and the interest in him is intense. Nowhere is the curiosity greater than in

such fashion houses as Hartnell of London, Dior of Paris and the Fontana Sisters of Rome, is an American about to pre-empt the American fashion market?

The London Daily Mail, alerted to trends of all kinds, has sent Miss Irish Ashley to the United States to investigate the man of the hour.

Her first communique reveals: —That Cassini was one of several Americans asked to submit designs for Mrs. Kennedy's inaugural wardrobe.

—That other American designers are unhappy because he now apparently is going to make all of the First Lady's clothes.

—That department stores are clamoring for his dresses and that Cassini clothes will hit Europe like a tidal wave.

—That he predicts Mrs. Kennedy's favorite colors for spring and summer will include "chartruese and pure lemon yellow."

—That he scooped Paris by several weeks by "introducing the flared skirt in January."

—That when Cassini goes to the White House to consult he always is invited to enter through the front door.

—That "will elevate the whole status of the American dress business."

Keep Suede Fresh

The foot part of old nylon stockings, worn over suede shoes on rainy days, will prevent galoshes from marking the suede.

Skiers Off for Other Hills

By RUTH SAUNDERS

BLOOMFIELD HILLS — Ready and waiting Friday afternoon at the Bloomfield Hills Country Club will be several couples bound for the Otsego Ski Club.

They will be welcomed aboard a charter bus by a group from Detroit and Grosse Pointe, headed by the Ladyway Mitchell Jr.

Going up from here will be Mr. and Mrs. David W. Lee, Mr. and Mrs. Peter VanOdy, the E. G. Hamptons, Bill Buchanan and the Robert Squires.

It will be gay that evening when the Cotillion Club gathers for dancing and again Saturday evening when the Winter Club gives a cocktail party and dinner dance.

A little up in the air at this point are a group of skiers who plan to fly by Swissair Friday for winter sports in Austria and Switzerland.

The problem of getting to New York will be solved by the Ralph Getzingers who sid in Europe every winter. Joining them for this trip are Mr. and Mrs. Robert W. Muzzy, Mr. and Mrs. Robert Weir, Mr. and Mrs. Henry W. Wolfenden, the Don Cargills and the William R. Winklers.

Leaving Friday by train for Aspen's steep slopes are Mr. and Mrs. Russell Strickland and their good friends from Grosse Pointe, Mr. and Mrs. Paul Ackerman.

Recently returned from Florida are Mr. and Mrs. Joseph Flaherty and Mrs. John Wood.

Coming this weekend from Golden Beach and Miami will be Mr. and Mrs. Everett E. Fisher.

Mrs. Charles E. Reutter Jr. has returned to her home in Rye, N.Y., after a surprise visit to her mother, Mrs. George E. Baldwin.

Mr. and Mrs. Paul B. Hoffman of Northville, who formerly lived in Birmingham, are planning a trip to Europe in April.

JOAN GORMAN

Hosts Chapter at Her Home

Mrs. L. Z. Monroe of Hathon Street, Drayton Woods, was hostess to Alpha Chapter of Beta Theta Pi Sorority Tuesday evening.

Tables were arranged in a George Washington motif for the luncheon attended by 20 members and a guest, Mrs. R. J. Stanton of Drayton Plains.

Announcement was made of a meeting of the sorority's advisory board March 13 in the Neome Drive home of Mrs. Frank Cook. The local Alpha, Beta and Gamma chapters comprise the board.

Plans are under way for a rummage sale May 6.

Joan Gorman, AF Lieutenant to Be Married

At a family buffet dinner Sunday in their North Grosse Pointe home, the Paul Gormans announced the engagement of their daughter Joan to Lt. John L. Lapish, son of Mr. and Mrs. John C. Lapish of Grosse Pointe Woods.

The bride-elect is a graduate of Michigan State University where she affiliated with Kappa Delta Pi honorary sorority and Asher Student Foundation.

Her fiancé is an alumnus of Michigan College of Mining and Technology, at Houghton where his fraternity was Phi Kappa Tau. He is stationed at Wright-Patterson AFB.

A June 24 wedding is planned.

Class member Mrs. Leon Edmunds presents a corsage to Mrs. John Bank at the New Citizens' League of Pontiac and Janice Antona Citizenship Class 23rd annual Washington-Lincoln program Wednesday evening.

Mrs. Bank attended the groups' initial observance of the two presidents' birthdays. Mrs. Daisy Langton (left), refreshments chairman, and Miss Antona stand by to offer congratulations.

Hold Bridge Play
to Benefit Charity

The Southern Michigan Bridge Association sponsored a charity bridge Sunday afternoon at Edison Temple. Proceeds were given to Mrs. Douglas Campbell, Mr. and the National Association for Men-His Robert Larson, Mrs. Thomas Health, Sectional winners from Hollis and Mrs. Aug Haack and this area were Melvin Small and Janet Snader and Bruce Coryell.

Henry Georgia, Rudolph Thomas and Donald Brown, Dr. and Mrs. E. F. Collins, Dr. Carl Bolter and Dr. Charles Patrick, Mr. and Mrs. Earl Waterman, Donald Stephen Temple. Proceeds were given to Mrs. Douglas Campbell, Mr. and the National Association for Men-His Robert Larson, Mrs. Thomas Health, Sectional winners from Hollis and Mrs. Aug Haack and this area were Melvin Small and Janet Snader and Bruce Coryell.

Two Nights
Observed
in OneThe Areme Chapter
Marks Friendship
Officers' Evenings

Areme Chapter No. 503, Order of the Eastern Star, observed Friendship and Oakland County Officers' Night at Roosevelt Masonic Temple.

Mrs. G. Robert Scharf, senior worthy matron, introduced presiding worthy matrons Mrs. Thomas Schlenker of Southfield, Mrs. Henry Bowden of Birmingham and Mrs. Robert Gharriy of Milford.

Royal Clark, worthy patron, presented Charles H. Moore of Pontiac Chapter 228, Robert W. Martin of Holly and William C. Martin of Southfield who presided as worthy patrons for the evening.

Members initiated into the chapter were Mrs. Edwin C. Carlson and Mrs. Daniel T. Murphy.

Oakland County officers, honored were Mrs. T. J. Glascock, president; Mrs. Eugene Perko, first vice president; Thomas Rhodes, second vice president; Mrs. Percy G. Kidd, marshal; Mrs. Charles Martz, chaplain; and Margaret Samuel, organist.

Past matrons of Areme Chapter were Mrs. Karl Schultz, Mrs. Thud Beall, Mrs. Harry Vernon, Mrs. Theron Taylor, Mrs. Sidney Follows, Mrs. Perko, Mrs. William C. Plahlert, Mrs. Lester Oles and Mrs. Victor Bodamer. Past patrons were William C. Plahlert, William Cousins and Eugene Perko.

Mrs. Vernon was introduced as vice grand guardian, Jobs' Daughters of the Grand Council and Mrs. Oles as guardian of Jobs' Daughters, Bethel 40.

Assisting Mrs. William Cox as hostesses were Mrs. Oles, Mrs. Perko, Mrs. Beall, Mrs. Alfred Vaughn, Mrs. Marion Holmes and Mrs. Thomas Cox. Mrs. Plahlert and Mrs. Beall presided at the tea table.

Refreshment Chairman Mrs. Bernard Garner was assisted by Mrs. Albert Holton, Mrs. Russell Canterbury, Mrs. Loren Palen, Mrs. Lee Murphy, Mrs. John Fulton, Mrs. Donald Herbrington, Mrs. James Hampton and Mrs. Bernhardt Hansen.

Hosts Meeting
of Lakeshores

Mrs. Leon Struckman opened her home on Canterbury Drive Monday evening to members of the Lake shores Extension Club. Mrs. H. J. Seney was cohostess.

The lesson on scripture planning was presented by the project leader, Mrs. Harold Wert. Assisted by Mrs. Cressy Larson, she stressed the use of accessories.

Members attired in baste dresses and suits were shown transitional trends for the 'after-five' occasion.

Others were Mrs. Alfred Jackson, Wanda Flenor, Carole Lyons, Patricia Hilber, Mrs. Melrose Knapp, Mrs. Harold Dirker, Mrs. Evelyn Fitchett and Mrs. Ronald Randall.

Completing the list were Mrs. Herman Penley, Mrs. Raymond Grable Jr., Alice Jackson, Mrs. John Hritz and Mrs. Eva C. Leach.

JAKI BOWMAN

Ingenuies Meet
for Installation

Refreshment Chairman Mrs. Bernard Garner was assisted by Mrs. Albert Holton, Mrs. Russell Canterbury, Mrs. Loren Palen, Mrs. Lee Murphy, Mrs. John Fulton, Mrs. Donald Herbrington, Mrs. James Hampton and Mrs. Bernhardt Hansen.

Guests were present from Davisburg, Berkley, Commerce, Birmingham, Holly, South Lyon, Farmington, Ferndale, Clarkston, Oak Park, Lake Orion, Ortonville, Oxford, Rochester, Royal Oak, Southfield, Thomas Wallied Lake, in Lansdowner, Ann Arbor, Sue Milford, Fenton, Pontiac chapter Lee, Sue McDady and Shari Logan.

SAUNDRA LEE CARTER

Nurse Assn.
Will Convene

The Michigan State Association of Nurse Anesthetists will convene Saturday at the Kite and Fork Club in Detroit.

Dr. Paul R. Dunke, M.D., anesthesiologist and chairman of the department of anesthesiology at Detroit's Henry Ford

Hospital, will discuss "What's the Blood Pressure" at 7:30 p.m.

Dinner will be served at 5:30 p.m. No reservations are necessary.

Radium has been produced from pitchblende in Europe and also from autunite ores. In the United States it has also been found in carnotite.

Glamour Cashmere

Now the black cashmere sweater takes to iridescent sequins sprinkled all over the surface. This is a luxurious sweater with silk chiffon lining.

Sherry Wins '61 Contest With Her Plump Cherry Pie

By JAN MARTNETT
CHICAGO (U) — A winsome 17-year-old West Virginia girl—the last of 30 contestants to put her pie in the oven Wednesday—captured the 1961 national cherry pie championship.
Michigan's entry, Bonnie Bruns, 17, of Bear Lake won a reserve regional championship. She will receive a \$100 savings bond.
PLUMPS CHERRIES
The champion is hazel-eyed Sherry Anne Shirley of Bunker Hill, W. Va., a small community 12 miles from Washington. She is a high school senior and president of her class. Her dad is principal of a junior high school in Martins-

burg, W. Va. She has two older brothers and a younger sister.
Sherry spent a full hour draining frozen cherries, while her mother, Mrs. Granville Shirley, and a chaperon twisted handkerchiefs nervously. Sherry was the very last to put the finishing touches to her entry and close the oven door.

A champion in the 28th annual contest sponsored by the National Red Cherry Institute, the brown-haired lass won a \$300 college scholarship in home economics to the school of her choice, an electric range and a trip to Washington, D.C., and New York. While in Washington, the champion traditionally presents the prize-winning pie to the White House.

Miss Shirley is not only expert in home economics but maintains a high average in her school work. She enjoys swimming, reading, playing piano and singing in the church choir.

Of her baking achievement, Sherry said:

"I think that plump red cherries, flaky pastry, and lots of practice make a winning combination."

Winners from the 50 states competed in the national contest. Champions were judged on baking technique, quality of pie and personal character. Judges included home economists, newspaper and magazine food editors and youth organization leaders.

She can bake a cherry pie better than any other teen-ager in America! Receiving congratulations from her proud mother Mrs. Granville Shirley is 17-year old Sherry Shirley of Bunker Hill, Va. The Washington's birthday contest bake-off was in Chicago.

Try This Prize Recipe!

Here is Sherry Anne Shirley's of aluminum foil around edge of prize-winning recipe:

2 (10 oz.) cans frozen cherries (thawed and drained one hour 4 cups drained cherries)
1 cup sugar
1 tablespoon tapioca
1/2 teaspoon salt
1/4 teaspoon almond
1/4 teaspoon lemon juice
1 tablespoon margarine

Combine all ingredients except margarine. Allow to stand while preparing pastry. Pour cherry filling into pastry-lined pie pan and fill to top. Wet edge of bottom pastry. Place 1/2 cup of top pastry and trim overhanging edges. Flute edge with fingers.
Cut cherry design out of pastry and place on top of pie. Put strip

dish. Bake at 425 degrees for 30 minutes. Remove foil and bake 10 more minutes.

If water-packed cherries are used, increase sugar to 1 1/2 cups.

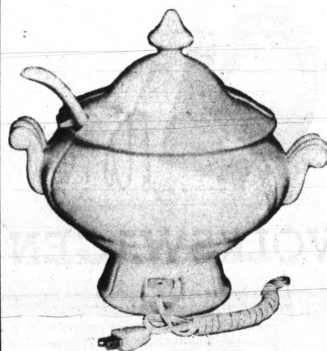

Crust:
2 cups sifted all-purpose flour
1/2 teaspoon salt
1 cup vegetable shortening
4-5 tablespoons cold water
Mix flour and salt. Cut in 1/2 cup of shortening until mixture has the consistency of cornmeal. Add remaining 1/2 cup of shortening and blend into size of large peas. Stir in water, two tablespoons at a time, until dough forms a ball. Divide in half. Roll one part and fit into 9-inch pie plate. Roll remaining dough making a design to allow for escape of steam.

Nature Trail Retains Its Popularity

'Soft' Teens Still Dig the Great Outdoors

By EUGENE GILBERT
President, Gilbert Youth
Research Co.

The great outdoors have changed considerably since a teen-ager named Daniel Boone "killed a bear" and used his carving knife to brag about it, but teen-agers still think the outdoors are great.

Sleeping in the open, hunting and fishing, following a rabbit trail, all of these have become a matter of sport rather than necessity.

But their popularity remains great with members of a generation that sometimes has been stigmatized as "soft."

We found this out by asking a thousand teen-agers across the country, many of them living in large cities, what they thought about outdoor sports and diversions.

A large number, 96 per cent of the boys and 77 per cent of the girls, say they have camped out;

86 per cent of the boys and 93 per cent of the girls have gone hiking. Fishing is popular with the youngsters, hunting moderately so. But bird watching they just don't dig.

It shows in their woodland lore: 64 per cent say they can identify a rabbit track, 42 per cent a carabass duck (a surprising 57 per cent of the girls) and only 27 per cent of the boys, 66 per cent a pheasant and 53 per cent a brook trout. But only 2 per cent would know a vireo if they saw one. It's a small, green bird.

Seventy-four per cent of the youngsters claim to know the difference between an oak tree and an elm.

Most assert they are safety conscious when out of doors. Some 86 per cent say they know the rules of boating safety, and 59 per cent claim to know how to hunt safely.

Dad is the fellow most often

credited with introducing teen-agers to the outdoors, with other relatives and friends also ranking high.

Some 86 per cent (93 per cent of the boys and 79 per cent of the girls) have gone fishing, and 70 per cent liked it.

LIKES EXCITEMENT

"I love the excitement of the tug on the line, the feeling of accomplishment," explains 16-year-old Julie Strathearn of Arlington Heights, Ill.

"I like being lazy," says Rick Simon, 14, of Cleveland.

But 17-year-old Nancy Buddick of Falls Church, Va., gave a typically feminine reason for disliking fishing: "I hate to bait the hook," she says.

Not as many teen-agers have tried hunting, only 48 per cent (67 per cent of the boys and 23 per cent of the girls).

Of those who have, 39 per cent say they enjoy it. And the girls supplied another surprise: only 1 per cent of those who have hunted disliked it.

"I love to hunt," says Kathryn Kinkade, 13, of Kearney, Neb. "I'm still a tomboy."

Tom Faranda, 14, of Beechwood, Ohio, likes to track game. Lanny Hendrickson, 15, of Kearney, Neb., likes to try out his marksmanship. Phil Kuhn, 14, of Cleveland, Ohio, enjoys the camping out part of hunting. Doug Dohner, 17, of Dayton, Ohio, says hunting gives him a chance to relax and enjoy nature.

A CRUEL SPORT

One of the big reasons given for not liking it was a love for animals. "It's a cruel sport and no fun at all," says Julie Gordon, 15, of Skokie, Ill.

Among the teen-agers who have hunted, 20 per cent say their fathers took them, while with 9 per cent it was a friend.

The 20 per cent who know the rules of hunting safety are divided among the 48 per cent who had the rules explained to them and 11 per cent who learned them on their own.

Among the teen-age anglers, half were taught how to bait a hook by their fathers while 18 per cent say it was a relative who introduced them to hook and line.

The principles of boating safety have been explained to two thirds

of the teen-agers, while 19 per cent have learned them themselves.

Only 15 per cent of the teen-agers we queried — 11 per cent of the boys and 18 per cent of the girls — have ever tried bird watching. And only 8 per cent say they enjoy it.

FOR THE BIRDS

Apparently it doesn't supply enough activity to burn up all that teen-age energy. "It's too dull," says Roy A. Schlosser, 17, of Robinson, Ill.

"Why watch birds?" says 18-year-old Barbey Sexton of Liberal, Kan. "They don't watch people."

And 15-year-old Barbara Holmes of High Point, N.C., says "I like to bird watch, but you have to be quiet and I can't stand it."

With bird watching, dad had nothing to do with it. Usually a relative, a teacher, or a camp counselor was instrumental.

More than half the teen-agers (57 per cent) have access to camping equipment within their families, while 27 per cent (42 per cent of the boys and 11 per cent of the girls) own their own.

Mothers Club Sets Cooperative Dinner

Another family night cooperative dinner is planned by the Mothers Club of the Pontiac Young Men's Christian Association.

Serving will be at 6:15 p.m. Saturday, Mrs. Elmer Jewell or Mrs. Paul Sturte, co-chairman, may be contacted for reservations.

There are about 1,000 different kinds of rats.

Heart Attack Isn't the End

Fifteen-year-old Marie Mingo can dance the ballet because she has had heart trouble. She is also a cheer leader for her school. The American Heart Association which caters to others enjoy a full life after a heart attack.

We have recently had some famous examples of men who carried on with no seeming lessening of vigor when following their physicians' directions for daily living.

The American Heart Association has 56 affiliates, and most cities in populous states have work evaluation units or clinics. The purpose of these is to discover how much and what kind of work those who have recovered from a heart attack can safely do.

Each of these units has a team consisting of one cardiologist, one social worker, one vocational counselor and some have a psychiatrist or a psychologist. These units help many people who come from charity clinics and industry refers their workers who have had heart attacks to them. They do a wonderful job.

One study of 611 people who had survived arteriosclerotic or rheumatic heart trouble was carried on for eight years. The results showed that longevity was greatest in the group who followed the clinician's directions for work. Patients with arteriosclerotic heart trouble lived a shorter time when they exceeded the recommended work activity and those with rheumatic heart disease shortened their lives when they did the same thing.

Meat Needn't Break the Budget

By JANET ODELL,
Pontiac Press Home Editor

In answer to a plea for help in buying inexpensive cuts of meat, we scrapped the idea we had for this week's lead story. Instead, we "boned" up on how to buy meat.

We served the family lamb shanks the other night. At 19 cents a pound, it cost under half a dollar to get enough for 4 servings. Like all cheaper cuts of meat, lamb shanks should be braised. Here is a recipe for you to use.

Braised Lamb Shanks, 4 servings
4 lamb shanks
2 tablespoons lard
1 cup carrots, cut fine
1 cup celery, cut fine
1 cup green beans, cut fine
Salt and pepper

Brown meat in hot lard. Season with salt and pepper. Place cut shanks in bottom of baking dish. Add small amount of water. Cover and cook at 300 degrees for 1½ to 2 hours, or until meat is tender.

This week we saw lamb breast

JAM CAKE — An easy version of "Washington Pie" or Jam Layer Cake, invented by imaginative housewives of the North and South during the Civil War, is this recipe for Old-Time Jam Cake. In commemoration of the Civil War Centennial now being celebrated throughout America, plan to serve this sweet treat often.

Try Centennial Jam Cake

Undoubtedly, you are familiar with Jam Layer Cake or "Washington Pie." But did you know that this cake dates back to the Civil War days? When the enterprising housewives of the North and the South could not get shortening for their pies, they made sponge cakes, split the layers and spread them with jam or preserves. Sugar was sprinkled over the top of the "pie."

In commemoration of the Civil War days, America will be observing the Civil War Centennial during the next four years. In the celebration by serving this easy version of old-time Jam Cake often to family and friends.

Such a Good Salad for Luncheon

Grated Parmesan is an extra ingredient that gives extra-good eating!

New Chef's Salad
4 cups torn pieces romaine or other salad greens
1 cup thinly sliced pared cucumber
1 large tomato - peeled and seeded and sliced
1 cup thin strips baked ham
1 cup thin slices cheddar cheese
1 cup minced parsley
1 tablespoon garlic-flavored wine vinegar
2 tablespoons salt and pepper
1 to 2 tablespoons grated Parmesan cheese

Just before serving toss all the ingredients together in a large salad bowl, adding seasoned salt and freshly-ground pepper to taste. (If chive salt is available, use it. If not, minced fresh chives or green onion may be added.) Makes 4 servings.

Wild rice is a tall aquatic perennial grass whose grain or seed is used as food. White rice is the seed of an annual grass.

Desbitt's
a soft drink made from real oranges

Mottling Under the Authority of Nesbitt's Fruit Products, Inc. of California, by Coca-Cola Bottling Company of Pontiac, Michigan

French fried liver, even if they turn their noses up at liver ordinarily.

Have livers sliced thin. Cut into lengths about 3/8 inch wide, using kitchen shears. Roll in flour seasoned with salt and pepper. Drop into a kettle of deep fat at 350 degrees. Cook until brown. Drain on paper towels. One pound will serve six.

Pork neckbones are also selling for 19 cents a pound this week. We got acquainted with them during World War II. You treat them just like spareribs.

Pork hocks are sliced. They're about 30 cents a pound. Buy one hock for each person. Remove skin. Brown, season with salt and pepper and add a small amount of water. Cover and cook slowly, about 2 hours. An hour before the end of the cooking time add medium onions and potatoes.

You know that pork sausage, bought in bulk, can be an inexpensive meat. Here's a casserole with recipe:

LIVER — Liver always gives you a lot for your money as there is no waste. It can be prepared in any number of ways, one of which is Braised Liver and Onions. One pound of liver will serve 4 or 5 people. Baked potatoes are a good choice with this dish.

Cheese Dumplings Are Delicious With Fowl

Serve fricassee or chicken pot pie topped with Gouda dumplings for a "something special" flavor. Make dumplings using prepared biscuit mixture according to package directions; add finely shredded Gouda Cheese and a bit of poultry seasoning to dry ingredients before mixing.

Drop spoonfuls of batter onto hot chicken mixture; bake in hot oven until dumplings are done and brown and serve with gravy.

Divide One Egg?

Note to Brides: If you are halving a recipe, and you want to divide an egg do it this way. Beat the egg until the yolk and white are combined and measure the whole thing; then use half the measure.

Chocolate Ice Cream Roll

Delightful dessert! Bake a sponge cake, roll up and cool. Drizzle and spread with chocolate ice cream; roll up again speedily. Wrap in foil and freeze. Serve, sliced, with chocolate sauce.

Sealing the edge of pie meringue to the pastry prevents shrinkage when the pie goes in the oven so the meringue will brown.

Practical folks buy Brand Name products

Why do you buy Brand Names? Because you trust them. You know that they are consistently good, that they always meet the high standards of quality you've set for yourself and your family. You'll find Brand Name products wherever you go. No guesswork shopping. Like good friends, they're always there.

The Brand Name manufacturer has built a reputation. He must maintain it, so he keeps his standards high, and strives constantly to make his product better. He's always first with new products and ideas. He employs lots of people. He helps balance the economy. You depend on him. He depends on you.

Know your brands, and buy the brands you *know*. You'll find some of them on the pages of this newspaper.

A Brand Name is a maker's reputation

THE PONTIAC PRESS

Brand Names Foundation, Inc., 437 Fifth Avenue, New York 16, N. Y.

Today we sail on a bilinary winter cruise—to the warm and languid shores of the Aegean Sea, or to the islands of the Pacific. To set the mood of a southern holiday for midwinter tables, we start with a green bowl of Greek lemon sauce sprouts, and we offer as accompaniments a choice of two raviolis.

One is Hawaiian Pineapple Sauce—a mélange of pineapple meat, cream cheese, rich cream and fresh pineapple chunks. The other is a sauce with scallop shells with a dusting of toasted coconut. The other is Greek Lemon Sauce—a very old Mediterranean recipe like that of the Greek lemons and eggs into a sauce that is the exact color of the lemon cups in which it is served.

Southern climates seem to work a little better for sprouts. The little sprouts, coming from long cultivation in the cold countries of Northern Europe, now flourish in the warm sun of California. Here they grow lux-

uriant and as beautiful as baby roses, and take naturally to exotic sauces from other tropical lands.

For party buffets, the Brussels sprouts—with one or both of the sauces—serve as an acceptable and salad. They combine well, in flavor and color, with baked ham, chicken or smoked turkey, and a yam or sweet potato.

Brussels Sprouts with Pineapple Sauce

*16 packages (18 ounces each) from the frozen food section of the supermarket
1 small pineapple, cut up in half
1 cup cream cheese
1/2 cup heavy cream
1/2 cup lemon juice
1 teaspoon dried lemon rind
1/2 cup brown sugar
1/2 cup flaked coconut (unsweetened)*

To prepare Brussels sprouts: Cook according to package directions. Drain, and toss with pineapple, hot or chilled with Hawaiian Pineapple sauce.

To prepare Hawaiian Pineapple Sauce: Chop pineapple, reserving 1/2-inch shells. Chop and drain

and 1/2 cup of the coconut in whipped cream and spoon on pineapple shells. Sprinkle with pineapple coconut mixture and Brussels sprouts. Serves 8.

Sprouts with Greek Sauce

*16 packages (18 ounces each) from the frozen food section of the supermarket
1/2 cup lemon juice
1/2 cup heavy cream
1/2 cup parsley or mint for garnish*

Cook Brussels sprouts according to package directions. Drain, serving any liquid. Add boiling water to reserved liquid, as necessary, to make 2 cups liquid.

Heat eggs until light; gradually add cream and lemon juice. Cook over hot water, stirring constantly, until thickened. Spoon sauce into lemon cups. Sprinkle with parsley or mint. Serve hot or chilled with Brussels sprouts.

*To make lemon cups: Cut 1/2-inch shells from frozen lemons (reserving for cooking). Notch scallop edges.

[illegible]

Onions are one of our plentiful foods this month. But don't get the idea that onion pie is a desert. Actually, it's something unusual and mighty tasty in the way of a baked vegetable creation nestled in a baked pie shell, to be served hot and cut into wedges.

* * *

To prepare Hot Onion Pie, bake one 9-inch pie shell to golden perfection. Then prepare filling by frying 3 cups of thinly-sliced onion in butter until soft and translucent. Stir about $\frac{1}{4}$ cup of evaporated milk or heavy cream into a pound of small curd cottage cheese, adding a bit of salt and pepper to taste.

WASHINGTON (UPI) — Vegetables do not go begging on the nation's tables.

The U.S. Department of Agriculture reports that, excluding potatoes, we have been eating vegetables at the rate of 12 pounds per capita during the post-war years.

USDA said five vegetables — corn, wheat, sweet corn, cucumbers and tomatoes — have increased in overall popularity. The big rise in consumption resulted from increased use of frozen vegetables the department said. Of vegetables sold in the country, corn and lettuce have shown a rise, and this rise is slight.

Three vegetables — asparagus, green peas and snap beans — have declined in popularity because of increased use of the processed product.

Use of canned asparagus has declined since World War II,

teams up with smoothable, blendable evaporated milk to make Cabbage with Bacon Sauce a delicious, easy dish that is well suited for a chilly day.

To prepare cook 1½ lb. bacon until crisp, drain, chop finely. Fry 1 cup onion in 1 tablespoon oil, combine 1 quart coarsely chopped cabbage and ¼ cup of the bacon fat. Cook 10 minutes, add 1½ cups of the evaporated milk, stir well coated. Cook over low heat 3 minutes, stirring frequently. Remove from heat.

For dressing, add 1 teaspoon salt and ½ teaspoon pepper. Gradually blend in 1 tall can evaporated milk. Cook over low heat until thickened about 8 minutes, stirring occasionally. Makes 4 to 6 servings.

Give carrots new interest! Cut them into long strips and cook them just until tender, then drain in a strainer and add butter and brown in butter.

Plentiful, economical cabbage
teams up with smoothie, blend-
able evaporated milk to make
Cabbage with Bacon Sauce. Dish well
suited for a chilly day.

To prepare cook $\frac{1}{2}$ lb. bacon
until crisp; drain, crumble and
set aside. Sauté onion in oil until
soft. Combine 1 quart chopped
cabbage and $\frac{1}{4}$ cup of the bacon
drippings. Stir until cabbage is
tender. Add milk and evaporated
milk. Simmer 3 minutes, stirring frequently.
Remove from heat.

Stir in $\frac{1}{4}$ cup flour, 1 teaspoon
salt, 1 teaspoon pepper. Gradually
blend in. Simmer in tall can over
evaporated milk and the bacon.
Cook over low heat until thickened
about 5 minutes, stirring occa-
sionally. Makes 4 to 6 servings.

School Board to Get Budget

Preliminary Requests Will Be Presented by Administrators Tonight

Pontiac school administrators will present their preliminary 1961-62 operating budget to the board of education at its regular meeting tonight.

Estimates from various administrators have been studied, compiled and prepared in a composite report for several months.

The initial budget target is approximately \$9,022,000.

Tonight's budget figure will not include salary and wage adjustment beyond those dictated by cost-of-living increases and additional recommended costs which cannot be included under the initial target.

Also at tonight's meeting the board will be asked to approve the use of Pontiac Northern High School and Madison Junior High, free of rental fees and charges, for a Michigan Education Association district meeting.

Some 4,000 teachers and administrators from MEA Region No. 7 will attend the meeting scheduled for April 21.

Guilty of Kidnaping Mother and Daughter

BALTIMORE, Md. (UPI) — A federal grand jury today found James Earl Ray guilty of the kidnap-slays of a Virginia housewife and her daughter, members of a massacred family of four.

The handsome, 32-year-old entertainer faces a maximum sentence of life imprisonment under the federal Latham kidnaping law.

The all-male jury did not specifically recommend the death sentence, thus sparing Ray execution in the gas chamber.

Wants 7,000—Few in Sight

Dag Seeks Troops for Force

UNITED NATIONS (UPI)—Secretary General Dag Hammarskjöld sought 7,000 soldiers today to boost up the United Nations force in the Congo to 20,000 men.

There was no immediate indication where he would find them.

Pontiac Included in Slashes

Big Production Cutbacks Drop Car Output Severely

Major cutbacks in production of medium-sized cars, including Pontiac, caused output of U.S. passenger cars to fall off sharply last week.

The Automobile Manufacturers Association (AMA) reported today that 76,542 cars were turned out last week, down from 88,375 for the week ending Feb. 11.

Brazil's New Head Considers Red Ties

BRASILIA (UPI) — President Janio Quadros has fired about 10,000 jobholders appointed by the previous administration as part of his campaign to slash public spending, it was reported today.

There were simultaneous reports that Quadros is considering the establishment of diplomatic relations with the Communist regimes of Hungary, Bulgaria and Romania as a preliminary to re-establishment of relations with Russia.

The government announced last night that Brazil will support proposals for debate on the seating of Red China in the United Nations at the General Assembly session scheduled to open in September. The announcement did not say Brazil would vote to admit Red China to the U.N.

So Young in Crime

CHIATTANOOGA (AP) — City detectives say two arrests solved 34 different burglaries over a period of several months. The pair admitted breaking into the stores and looting cash registers and vending machines. Those arrested were 10 and 12 years old.

and Japan is talking about sending "observers."

But the Congo operation has become such a touchy political matter that most African and Asian countries are trying to keep from getting involved.

In Elisabethville, U.N. officials warned Katanga President Moïse Tshombe that continued operations by his troops against rebellious Baluba tribesmen conflict with U.N. Security Council orders.

Nigerian Brig. Paul Ward, the local U.N. military commander, and U.N. civilian chief Ian Berendsen of New Zealand delivered the warning to Tshombe at a meeting this morning.

Katanga officials refused to say what Tshombe replied.

But a government spokesman said reports that U.N. and Katanga authorities had come to an agreement on halting all troops movements in Katanga to "prevent possible incidents."

In neighboring Kivu Province, a former aide of slain President Patrice Lumumba appeared to have been deposited in a power struggle.

A broadcast from the provincial capital of Bukavu Wednesday night announced that a new government, headed by Adrien Onani, has been approved by the provincial assembly.

Amice Kasanura, who took over control of the province two months ago with the help of Lumumba lieutenants in Stanleyville, announced he is going to "take a rest."

A United Nations spokesman in Leopoldville said the fate of 16 political prisoners reported shot in Stanleyville still is in doubt.

Flint License Office Has \$2,300 Shortage

FLINT (UPI) — Investigators from the secretary of state's office today were investigating a shortage of about \$2,300 in the accounts of the North-Flint license office where auto licenses are sold.

Secretary of State James M. Hare said the "irregularities" were discovered Wednesday.

"We closed this office at noon pending further investigation of shortages in the accounts of approximately \$2,300," Hare said.

"Our auditors are now conducting a thorough investigation which should be completed within a few days."

Had a Sideline

NEW HAVEN, Conn. (AP) — Police say a local cobbler's shop wasn't paying enough attention to sales and heels. The owner and his assistant were arrested for book-making.

K May Delay Trip to U.S. Until April

LONDON (UPI)—High Communist sources hinted today that Soviet Premier Nikita S. Khrushchev has decided to delay his trip to the United States until when the United Nations General Assembly is well under way.

The assembly is scheduled to resume its session March 7, it was reported Dec. 22.

Khrushchev had been reported planning to be on hand for the start of the resumed session but the sources said that by delaying his arrival there would be more time to try to arrange a meeting with President Kennedy.

New York City is 36 miles long and about 18 1/2 miles across at its point of maximum width.

Court Gives Colbert More Time in Suit

Attorneys for L.L. Colbert Chrysler Corp. president, were given an extension to March 13 to answer the lawsuit brought against him in Oakland County Circuit Court by William C. Newberg, former corporation official fired in the conflict-of-interests controversy.

Circuit Judge William J. Beer granted the extension today when a petition was filed by Colbert's attorneys, the Detroit firm of Dykema, Wheat, Spencer, Goodman & Tripp.

Under law they had until tomorrow to answer the suit.

Punctuation marks are not required in the Chinese language.

He Ducks, but They Press On

JFK Hounded by Newsmen

WASHINGTON (UPI) — The problem of personal privacy looms more important to President Kennedy and his family each passing day.

Getting away from the White House goldfish bowl and playing hide and seek with the press is a growing pattern for the first family.

Try as they may, it is difficult for them to pull a curtain down on the interest in their private lives that was whetted during the political campaign.

The President and Mrs. Kennedy have solved part of the problem by leaving Glen Ora, a 400-acre estate in the Middleburg, Va., horse country which they can reach by helicopter in 25 minutes.

Press Secretary Pierre J. Salinger has gone out of his way to discourage press coverage of the President while at the weekend hideaway.

But the Kennedy's desire for privacy is more than a weekend proposition. It would be easy if they chose to remain always indoors sealed off from the out-

side by the high White House iron fence.

But the President is a gregarious man and he does not plan to be hemmed in, even as the chief of state. He has set a new fashion in presidents by having old friends on the Washington scene and keeping them, despite his new official address.

He still likes to be on the go, and going to private dinners at the homes of substantial and newspaper friends is still a favorite pastime. Salinger has

stressed the President will not make such social calls without a tipoff to the press.

Washington is a small town at heart and the word gets around fast when the President is in the vicinity.

In one way or another reporters turn up hot on the trail.

Dowagiac Council to Use Prayer to Open Meetings

DOWAGIAC (UPI) — Starting next Monday night, the City Council will begin its weekly meetings with a prayer.

The council has adopted a proposal by the ministerial association to provide a different pastor each week to give the invocation alien scene.

Police Seek Owners of Stolen Bicycles

Ten bicycles on which no stolen reports were made are being held by Pontiac police.

Lt. Clayton Randolph, crime prevention bureau head, asks youngsters missing bikes to contact him from 10 a.m. to noon Saturday at the Public Safety Building.

The owners must be able to identify their bikes and, if possible, should produce bicycle licenses, he said.

Army scout dogs can detect stolen bikes at distances of 200 to 300 yards.

'Political' Vows Open Moscow's Wedding Palace

MOSCOW (UPI) — A state-operated wedding palace, set up by the government to discourage a recent rise in church marriages, began functioning here Wednesday.

The new institution, designed to glamorize the usual drab Communist wedding ceremony, began assembly-line operations with the marriage of two young factory workers.

They became man and wife in a storage space, plus new machine-10-minute ceremony that featured Communist-state political com- of the original plant. Tipton said Queen Elizabeth, the Virgin Queen of England.

In czarist days and more recently an apartment house, has paneled walls and glistening crystal chandeliers.

Gibson Modernization Is Well Under Way

GREENVILLE (AP) — The Gibson Refrigerator Division of Hupp Corp. is well into its million-dollar modernization program in plant and equipment at Greenville, according to Vice President C. M. Tipton.

A new building adding 12,000 square feet of manufacturing and storage space, plus new machine-10-minute ceremony that featured Communist-state political com- of the original plant. Tipton said Queen Elizabeth, the Virgin Queen of England.

Rep. Diggs to Speak to County NAACP

The monthly meeting of the Oakland County branch National Association for the Advancement of Colored People will be held in Fellowship Hall of Trinity Baptist Church Monday at 7:30.

Following the business period, State Rep. O. Roosevelt Diggs, will be guest speaker.

A social hour will conclude the meeting. All members and friends of the NAACP are invited.

Virginia was named by Sir Walter Raleigh in 1584 in honor of Queen Elizabeth, the Virgin Queen of England.

At Lake Orion High School

27 Specialists Will Brief Students on Job Fields

A total of 27 specialists from business, industry and the professional world will converge on Lake Orion Community High School Monday to explain the many careers available to high school graduates.

Sponsored by the Lake Orion High School Parent-Teacher-Student Association, the event, called Career Carnival, is patterned after a similar program held each year at Michigan State University.

"The purpose of the Career Carnival," according to a PTSA spokesman, "is to help students and parents realize the importance of early planning for future vocations."

The guest speakers will explain job opportunities in their fields and the courses that will best aid

high school students in the pursuit of their future careers.

Career Carnival Chairman John Lessner said the program will be open to all students in the area. Special invitations have been extended to students and parents in the Oxford Area Community School System.

Representing these fields will be Hal Newshouser, former pitcher, and now a talent scout for the Detroit Tigers, and C. L. Osmun and Horace W. Lodge Jr., vice president and assistant vice president, respectively of Community National Bank.

Others include R. W. Schleicher, assistant personnel supervisor of the Detroit Edison Co.; Mrs. Anne Singer, Pontiac Society of Medical Technologists; and Harry J. Reed, managing editor of The Pontiac Press.

MORE SPECIALISTS

Keith Clauser of the personnel department of Pontiac Motor Division; Byron Chapin, president of the Pontiac Business Institute; Mrs. Esther Sherrod, director of the McAuley School of Practical Nursing.

LI. Charles Mulick of the Detroit District headquarters of the Michigan State Police; C. F. McCaffery, public and labor relations department of the Kruger Co.; Francis Miller of the Parke Davis Co.

Benjamin A. Purcell of the J. L. Hudson Co.; Wesley Allen, district manager of the National Life Insurance Co.; Joan Jackson, chairman of the Detroit Dental Hygienists Society.

Harold K. Trutt of the Pontiac office of the Michigan Employment Security Commission; the Rev. Albert B. Johns, pastor of the Lake Orion First Methodist Church; Mrs. Harry Randall of the National Hairdressers and Cosmetology Association.

Lyle B. Abel, director of the Oakland County branch of the Michigan Cooperative Extension Service; Raymond Reese of Northwest College, Alma; Victor Lindquist, director of scholarships at Michigan State University; Oakland; Robert Hart, director of high school relations at Lawrence Institute of Technology.

Also represented at the Career Carnival will be recruiting officers from the Army, Navy, Air Force and Marine Corps and a guest from the Oakland County Chapter of the National Association of Social Workers.

Michigan Bell Telephone Co. will send three representatives, including Mrs. Betty Reynolds, service assistant; Mrs. Melba Terry, employment representative; and Ellisworth Sage, exchange repairman.

Pontiac Press Photo

REMODEL MODEL—Michael Madigan, 7, has his bow tie straightened by his mother Mrs. Vernon Madigan in a run-through for a fashion show to be presented Tuesday at Regisvelt Elementary School in Keego Harbor. Mrs. Madigan is co-chairman of the 7:30 program, Easter

styles for the entire family will be modeled by parents and children from each grade. Giving encouragement to Mike are Mrs. Richard Ecker, left, one of the parent models, and Mrs. Wilbert Bolva, publicity chairman for the school's Parent-Teacher Association sponsoring the event.

Student Exchange Will Be Explained

WEST BLOOMFIELD TOWNSHIP—The American Field Service student exchange program here will be explained Tuesday at an 8 p.m. public meeting at the West Bloomfield High School.

Mrs. Harry Bittner, AFS committee chairwoman, said the purpose of the program is to show contributors the results of their financial support.

Participating in the program will be this year's exchange students, Jack Newman, who traveled to Denmark last summer, and Ansgar Gross, of Germany, who is attending the local high school.

The AFS program will further be explained by a film from the New York office, and narrated by a former AFS ambulance driver.

Revival Crusade Slated at Ulica Baptist Church

UTICA—The Rev. Fred Hubbs of Detroit, executive secretary of the Baptist state convention, will conduct a week of revival services, starting Sunday at the Harvest Baptist Church.

The revival crusade will open with a Sunday School service at 10 a.m. Sunday followed by a sermon at 11 a.m. Services then will be conducted at 7 p.m. nightly until March 3 at the church on 25 Mile Road just west of Van Dyke.

Was Playing With Matches

Southfield Girl Burned

SOUTHFIELD—A 3-year-old girl who set fire to her clothing while playing with matches in her home early today was reported in satisfactory condition at Mount Carmel Mercy Hospital, Detroit.

Maureen Moore, daughter of Mr. and Mrs. Gerard Moore of 7701 Lahar Road, suffered first, second- and third-degree burns about the right side of her body.

Her father, who was awakened by the little girl's screams at about 3:15 a.m., received second- and third-degree burns on his right hand and arm in trying to beat out the flames.

Moore told Southfield police his

daughter had the habit of getting up in the middle of the night and wandering about the house.

Moore rushed the little girl to the Detroit hospital after he found her sitting in a chair in the front room with her pajamas in flames. He said he had left his wallet and matches on top of a television set in the front room before retiring for the night.

Maureen, who is one of nine children, was hospitalized but her father was treated and released.

Dryden Boom Day Will Be Expanded

DRYDEN—The annual Boom Day celebration, traditionally held here on the Fourth of July, will be expanded this year to two days, its sponsors announced today.

Members of the Dryden Area Development Association have decided that since July 4 falls on a Tuesday, they will hold the festival the following weekend, July 7 and 8.

"The entire program will be much bigger and better than either of the two previous years it has been held," said Jay Dittman, publicity chairman for the association.

An event leading up to the celebration will be the selection and crowning of Miss Boom Day at the association's annual Ladies Night, April 20 at Dryden High School.

This year the contest is open to any girl in Lapeer County who meets these qualifications:

She must be at least a senior in high school, be under 21 years of age and single. She need not be attending school.

To enter the competition, candi-

dates should apply in writing no later than April 1 to Miss Boom Day Contest, Box 156, Dryden.

The committee in charge of the contest asks that a recent photograph of the contestant be included with her application, but this is not mandatory.

In addition to the queen, two attendants will be chosen by the out-of-town panel of judges at the Ladies Night program.

Dinner will be served at 7 p.m. by members of the high school music department followed by entertainment which will feature the Lapeer Kiwanis Club Minstrel Show.

The climax of the evening program will be the Miss Boom Day contest and coronation of the queen.

The contest is open to any girl in Lapeer County who meets these qualifications:

She must be at least a senior in high school, be under 21 years of age and single. She need not be attending school.

To enter the competition, candi-

Student Pleased With Reception

U. of M. Bandsman Is Impressed by Soviet People, Country

ANN ARBOR—A student with the University of Michigan symphony band has described Russian audiences as being "very, very pleased with what we have done."

Donald J. Sinta, a senior from Roseville, gave his impressions of the Soviet Union during an interview broadcast by Radio Moscow.

Sinta was soloist for Creston's Concerto for Saxophone and Orchestra in Tuesday night's opening concert in Moscow. The interview, tape-recorded after the concert, was beamed beyond the Soviet borders last night and monitored by U. of M. radio station.

"I think my biggest impression came from the reception of the audience," Sinta said. "I think when they started applauding in rhythm there were tears in my eyes, as well as in those of many other people in the band."

"For the first time during the concert we realized that the Soviet people were very, very pleased with what we have done, and this in turn to a musician is the most important thing."

Sinta, in response to a question about how the orchestra feels about its 14-week tour, said the members are all looking forward to "the new experiences and the new people we will meet."

"We are going through countries that... that we've only seen pictures of," Sinta said. "We've seen pictures of the Soviet Union and it is not what we thought it was. We are much more impressed."

Sinta added, "We are much more impressed with the people and I think we have that to look forward to in all the countries we will visit."

The 35-member band left Ann Arbor Sunday, presented concerts in Moscow Tuesday and Wednesday nights, and moved on to Leningrad today.

DIANA F. SIDWICK

The engagement of Diana Fay Sidwick to Sherwin Roberts is announced by her mother Mrs. Betty Sidwick of 900 Barnsbury Drive, Union Lake. The prospective bridegroom is the son of Mr. and Mrs. D. L. Roberts of 7383 Barnsbury Drive, Union Lake. A summer wedding is being planned.

Dem Candidate Placed in Wrong Political Race

METAMORA—A mistake in the Democratic caucus results in Metamora Township was reported by Township Clerk Doris Hobbs.

Erwin Palmer, listed as the Democratic candidate for the board of review by the caucus secretary, actually will run as his party's justice of the peace nominee April 3. Leonard Dugay is the Democratic board of review candidate.

New '61 Chevy with Jet-smooth ride!

Impala L-Door Sedan—Jet-smooth transfer that rivals the luxury cars in everything but price

The '61 Chevy loves to go because it goes so well. Turns along pavements like a happy tabby. Takes rough roads in stride and all noise in style.

Just why does a Jet-smooth Chevy treat riders as royally as the high-priced luxury cars? It all came about through a delightful blend of Full Coil suspension, precision-balanced wheels, unique chassis cushioning, and a superb Body by Fisher insulated to hush away road sounds. All this adds

up to less sway, less bounce, less dip, less drive, less tilt, less noise, less... well you name it.

Now combine this Jet-smooth ride with convenience to pamper you and roominess to relax in. Add a full measure of quiet good looks. Voila, you've got Chevy's formula.

And the proof is in the riding. When you sample a Jet-smooth Chevy at your Chevrolet dealer's we think you'll find it just to your taste.

See the new Chevrolet cars, Chevy Corvairs and the new Corvair at your local authorized Chevrolet dealer's

STOLEN DOCUMENTS — Police Capt. Peter Conroy examines rare Lincoln documents stolen from the University of Chicago library. The priceless documents were turned over to San Francisco police by James Murray, 29-year-old

San Francisco poet. He said they were turned over to him for safekeeping by "a very confused kid" whom he knew only as "Martin." The documents include a letter by Lincoln and another by his wife.

Girls Rustle Beef From Reds' Farm Experiment

MOSCOW (U) — An agriculture

ministry experimental farm in downtown Moscow has been slaughtering and selling prize cattle on the black market for sale, said the newspaper of the Young Communist League.

The chief task of girl labor-

ers was to take slaughtered experimental cattle to the black market for sale, said the newspaper of the Young Communist League.

It did not say what has happened to the director and his staff.

Sports Booster Club Could Use a Boost

SOUTH KINGSTOWN, R.I. (UPI) — The first step apparently is to boost the booster club.

Club was formed to stimulate interest in athletics at the new Charlestown Regional High School. The club held its first meeting, but only two persons showed up.

Man is affected by 80 diseases also common to animals.

Convenient Credit — 10% Down — 3 Years to Pay

County Teen-Agers to Gather for Session on Traffic Safety

Teen-agers from throughout Oakland County will gather at Pontiac Northern High School Saturday morning to see what they can do about traffic safety.

They will be participating in the third annual Teen-Age Traffic Safety Conference sponsored by the safety committee of the Pontiac Area Chamber of Commerce.

Students will begin registering at 8 a.m.

The major reason for the program lies in traffic statistics.

Many young people up to age 25 die from traffic accidents than from any other cause each year.

The conference is one of many programs which began to take form in Michigan when in 1955 traffic fatalities reached an all-time high of 2,004, of which 614 were young people.

GAINS POPULARITY

Three years ago the first such conference was attempted here on a countywide basis, and it has grown steadily in popularity each year since.

Traffic safety authorities point out that for every fatal accident there is an average of 3 permanent injuries, 20 other injuries of varying degrees and 1,000 property damage accidents.

Chamber of Commerce officials also point to the fact that in this country more people have died in traffic than in all the wars since 1788.

"Young people are particularly qualified to do something about it," said Dr. Dana P. Whitmer, chamber president and superintendent of Pontiac schools.

"They are original and have ingenuity, energy and do exceptionally well in group activity. Adult organizations enjoy the cooperation of young people," he said.

SERVICE BY YOUTH

Whitmer also feels that youth does itself a great service by actively participating in such programs.

"These teen-agers counteract negative criticism of young drivers with positive, constructive actions."

Following introductory words by William Belaney, of the Chamber of Commerce speakers bureau, Whitmer will be one of the welcoming speakers at 8:30 a.m.

Others delivering welcoming addresses will be Pontiac Mayor Philip E. Rowston and Mai Osoval, president of the Pontiac Northern student council.

The morning's major address will be delivered by Howard K. Gandelot, of the General Motors Technical Center.

Gandelot will speak on "What Every Teen-Age Driver Should Know."

At about 9:15 state troopers from the Pontiac post will show a movie, "According to the Record."

QUESTION PERIOD

The remaining portion of the program, from 10 to 11:30 a.m. will consist of a symposium and a 30-minute question and answer period.

Discussions will center on three major areas of study.

George Stewart, representing the Michigan State Board of Alcoholism, will lead one titled, "I've Got Ethyl on My Mind."

The Role of Enforcement will be explained by trooper Harold D. Wade of the Pontiac State Police Post.

Rounding out the symposium

will be Royal Oak Municipal Court Judge Keith J. Leenhouts. He will discuss "The Moral Aspects of Traffic Violations."

Answer Prayer of Suburbanites

Road Commissioners Specify Wider, Thicker Paved Streets

County road commissioners believe they have a way to keep suburbanites happy over the condition of their subdivision roads.

They've adopted new specifications requiring wider and thicker paved streets. The aim is to keep maintenance costs—which must be borne by property owners—to a minimum.

"The savings on maintenance eventually will allow a higher standard of road maintenance throughout the county," said William M. Thatcher, chairman of the board of road commissioners.

The requirement for right-of-way will be 70 feet instead of 60 feet, Thatcher said. This will allow flatter slopes on ditches, improving appearance, decreasing maintenance and allowing more room for sidewalks and utilities.

"We hope to eliminate the frequent complaint of the new suburbanite who discovers that rural roads and maintenance are not as well financed as they were back in the city," Thatcher said.

New York Police Chief Quits Post

NEW YORK (AP)—Stephen P. Kennedy, police commissioner who never dodged getting into hot water, Wednesday night declined reappointment to the \$25,000-a-year post.

Mayor Robert F. Wagner promptly named as his successor Chief Inspector Michael J. Murphy, 47, who will be sworn in for a five-year term this morning.

Wagner announced last Monday he would reappoint the colorful Kennedy, 54, Kennedy said he would stay on as head of the 24,000-man force—with a big "if."

The commissioner said he would have to be assured that his men would get a \$600 annual pay increase to offset the ban on "moonlighting"—the holding of outside, part-time jobs. The Fire Department allows men making less than \$8,000 a year to take such jobs, provided they do not interfere with their fire-fighting duties.

3-HOUR SESSION

Wagner and Kennedy huddled for three hours Wednesday. After the session, neither man would comment. Wagner, reportedly disturbed at Kennedy's setting of conditions to reappointment, did say he would issue a statement today.

But shortly after midnight Kennedy called in newsmen and announced: "As of this date, the office of police commissioner is vacant." The term normally expires Feb. 21.

Agrees to Arab Office

CAIRO (AP) — Britain has agreed to let the Arab League open an office in London, the League said Wednesday.

There are 45 different kinds of steel used in the manufacture of one medium priced automobile in the American markets today.

NO PLACE TO GO — These four lovely graduates of American Airlines stewardess college were nursing dreams of jetting across the country after their recent graduation. Unfortunately, the girls, along with 39 classmates, were

forced to remain in Fort Worth, Tex., at the Airlines college instead of going to their new assignments because all of American's flights have been grounded by the flight engineers' strike.

Pick Local Girl for Youth Group

Karen Bronoel Named to Advisory Council for State Youth

A Pontiac girl, Karen Bronoel, 16, has been named to the Michigan Youth Advisory Council of the Michigan Youth Commission. The Pontiac Central High School junior is only the second council member from Pontiac.

The other is Marsha Deeg, a senior at Pontiac Northern.

The council is made up of representatives of 27 organizations having statewide youth programs.

Karen will represent the Michigan Congress of Parents and Teachers. She was selected because of her active interest in the Pontiac Youth Council.

Her appointment became official at the YAC Winter Conference, at Kellogg Center on the Michigan State University campus, Feb. 13-18.

She attended the conference with Marsha, who represents the Conference of Methodist Youth Fellowship.

The council discussed problems concerning teen-age traffic violators in Michigan.

Dann in Battle Over Stock List

Avers Chrysler Stalls on Producing Names; Nonsense, Says Firm

DETROIT (UPI) — Chrysler Corp., and attorney Sol A. Dann, who almost never agree with each other, were at odds on a new score today.

Dann claimed Chrysler is stalling on his request for a list of stockholders in the company.

Chrysler fired back that the list has been available to Dann for nearly two weeks.

Dann said he went to the Hanover Bank in New York this week to get a copy of the list and was told one could not be made up and delivered to him until March 15.

He said this would be too late to do him any good in the proxy fight he plans at Chrysler's April 18 stockholder meeting.

However, Dann finally did concede that he was told it would be all right for him to inspect the stockholder records at the bank.

Chrysler said that not only were the records at the bank open to Dann, but that the stockholder lists at the Corporation Trust Co., in Wilmington, Del., had been open to Dann and that Dann's attorneys had been making extracts from it since Feb. 14.

In addition, Chrysler said, the company had offered on Feb. 13 to supply Dann with a list of his own if he would pay for it.

Dann, the company said, has not replied to this offer.

GE Unfair to Labor, NLRB Will Be Told

NEW YORK (UPI) — General Electric Co., which recently was convicted of violating antitrust laws in a multimillion-dollar price-fixing case, will be hailed before a National Labor Relations Board hearing next month on charges of unfair labor practices.

Ivan C. McLeod, NLRB regional director, announced Wednesday the board has filed the charges in connection with the violence-marred strike of 70,000 workers called by the International Union of Electrical Workers in 35 GE plants across the country last fall.

The strike, touched off by contract negotiations, lasted 20 days and ended Oct. 22 when the IUE settled virtually on company terms, after several locals and individuals ignored the strike and went to work.

Says Nuisance Taxes Bring Bootleg Cigars

LANING (AP) — Cigars are being bootlegged into Michigan from Ohio and Indiana because of the 20 per cent tax on tobacco products, says a spokesman for the industry.

Albert A. Pisa of Detroit, president of the Michigan organization of Tobacco Retailers, said his group is planning an all-out drive to have the levy dropped.

It was part of the "nuisance" package adopted by the legislature in 1959 as a temporary tax stoppage and is due to expire June 30.

Eye Final Ax for Cuba

WASHINGTON (UPI) — Secretary of State Dean Rusk has told Sen. George Smathers, D-Fla., that the administration is studying a proposal to shut off the last Cuban exports into the United States.

License Tab Deadline Is Just Around Corner

Have your 1961 license plate tabs yet?

Tuesday is the last day you can drive with the old tabs. The secretary of state's office, 96 E. Huron St., will be open to-day until 5 p.m.; Friday from 9 a.m. to 5 p.m., and Saturday from 9 a.m. to 5 p.m.

Next Monday the office will service motorists until 5 p.m., and on the deadline day, Tuesday until everyone in line is taken care of, said Willis M. Brewer, office manager.

A branch in the Waterford Township Hall is open from 9 a.m. to 5 p.m. weekdays, and from 9 a.m. to 1 p.m. Saturday.

He's Polite but Sneaky

DUISBURG, Germany (UPI) — Last summer Duisburg citizens voted Hans Buemeller, 39, the city's "most polite official."

Today a court sentenced him to two years jail for illegally selling driving licenses to unqualified applicants.

New Orleans is normally the world's chief banana port.

Bears to Play Alouettes

CHICAGO (AP)—The Chicago Bears of the National Football League will meet the Montreal Alouettes of the Canadian Big Four in a night exhibition game in Montreal, Sat., Aug. 5.

Bear owner-coach George Halas said half the game would be played under NFL rules and the other half under Canadian rules.

Jones Runs for Pontiac Track Club in AAU

Standing, left to right, are Al Mann, Steve Daniels, Bob Bradshaw and Lee Smith. Seated, left to right, are Paul Marinen and Les Smith. Deadline for entering is Sunday.

Sunday Deadline to Enter Local AJBC Tournament

Two outstanding bowling tournament opportunities loom in the immediate future for area junior bowlers.

One is the nation's annually biggest — the American Junior Bowling Congress sponsored Mail-O-Graphic. Some 13,000 entries are expected from all 50 states and about ten foreign countries, with literally thousands of trophies up for various winning scores.

The other is a once-in-a-lifetime chance to compete on a specially designated squad at the World Series of Bowling—the American Bowling Congress tournament this year scheduled for Detroit's Cobo Hall.

Coaches of A.J.B.C. sanctioned leagues have received full tourney rules for the Mail-O-Graphic, and they can furnish all particulars to junior bowlers who wish to enter. All teams from the Pontiac area will compete at Sylvan Lakes, designated by the American Junior Bowling Congress as the local site of competition.

Entries must be submitted by February 26th to any local bowling house, or to Clark Balch, 331 Liberty, supervisor of the Pontiac tournament.

The Mail-O-Graphic is a handicap tournament, open to both boys and girls, competing in separate divisions, and in three

SVC Point Race Still the Same

It's the same old story in the Saginaw Valley Conference basketball scoring race with one league game remaining for each team.

The Saginaw "twins," Jerry Tillman and Ernie Thompson, are still far ahead of the pack.

Tillman holds a 26-point bulge over his sharp-eyed teammate and is a virtual clinch to win the SVC scoring title for the 2nd straight year. In nine games Tillman has amassed 202 points for a 22.4 average. Thompson is averaging 19.3.

The Saginaw tandem also ranks 1-2 in the all-games division where Thompson has managed to stay closer to his high-scoring partner. In that category Tillman is averaging 11.5 while Thompson stands 10.4.

Pontiac Central's Clarence Douglas and George Fed are 4th and 8th, respectively, in the Valley race with averages of 14.5 and 11.5. Both are one notch higher in the all-games bracket. Douglas, placing 3rd with a 15.2 average and Fed rating 7th among the top 10 at 12.1.

Newly-crowned champion Saginaw plays host to PCH, Arthur Hill visits Flint Central and Flint Northern invades Bay City Central Friday evening to conclude the loop schedule.

VALLEY SCORING LEADERS

Player	Team	Points	Avg
Tillman, Saginaw	Saginaw	202	22.4
Thompson, Saginaw	Saginaw	181	19.3
Douglas, PCH	PCH	134	14.5
Fed, PCH	PCH	107	11.5
Marinen, PCH	PCH	107	11.5
Schumacher, Arthur Hill	Arthur Hill	200	22.2
Barring, Flint Central	Flint Central	184	20.4
Chalmers, Flint Central	Flint Central	184	20.4
Tillman, Saginaw	Saginaw	169	18.8
Douglas, PCH	PCH	154	17.2
Marinen, Flint Central	Flint Central	152	16.9
Fed, PCH	PCH	145	16.1
Chalmers, Flint Central	Flint Central	137	15.2
Marinen, Flint Central	Flint Central	137	15.2
Marinen, Flint Central	Flint Central	137	15.2

Eastern Is Host to Renewal of Michigan Meet

State Open Saturday at Ann Arbor Also Draws PTC Entry

Pontiac's Hayes Jones will return to his Alma Mater to compete in track for his home town today.

Jones will run in the hurdles for the Pontiac Track Club which competes at Eastern Michigan University in the Michigan AAU championships.

The Pontiac Track Club will have five entries in the meet which expect 150 college athletes and an additional 60 from track clubs and independent groups.

Gerry Rush will take part in the shot put, Danny Sewell in the hurdles and broad jump. Bill Douglas and Jim Nelson in the half mile and Jones in both hurdles.

Saturday the Pontiac Track Club will go to Ann Arbor for the Michigan open games. Jones however will be taking part in the National AAU that day.

Teams entering the meet will include the University of Detroit, Wayne State University, Grand Rapids Junior College and Eastern Michigan University. Athletes will enter unattached from the University of Michigan and Michigan State University as well as several other colleges and universities in the state.

Preliminaries begin at 3:00 p.m. and will be held in the 60 yard dash, the high and low hurdles, the 400 yard dash and the 880 yard run. The preliminaries and finals will be held in the broad jump during the same period. Finals in the field events will be held at 6:00 p.m. with finals in the running events to be held beginning at 7:00 p.m.

George Marshall, Eastern Michigan track coach and director of the meet, stated that "We are attempting to start early in the Michigan AAU Championships which have not been held for a number of years. We will award an official team championship in contrast to the Michigan AAU Relays in which no team is officially recognized as the team champion."

A trophy will be awarded to the team placing first and medals will be awarded individuals placing first, second, or third in each event.

Veteran Coach Retires

BALTIMORE (AP) — Emil G. (Lefty) Reitz Jr. today announced his retirement as head basketball coach of Baltimore Loyola College, where he has directed Greyhound teams for 23 years. Reitz, 51, will continue as Loyola's athletic director and baseball coach. He graduated from Villanova in 1933.

By CHUCK ABRAHAM

Plans are nearing completion at the new Wonderland Lanes in Commerce Township for a big classic league which would have a payoff of over \$11,000.

House manager Paul Horie is hoping to put together a 24-team league for the 1961-62 season. Teams invited will be those with averages between 920 and 960 based on the mean mark for the current competition.

Horie, who should provide a good boost to the sport in this sector with past experience in Detroit, hopes to draw teams from this area and the Motor City.

His loop would join classic at Huron Bowl, West Side Recreation, Nor-West Recreation and others as top around this sector.

According to Horie's program, the title team at Wonderland would win \$2,000, the runnerup \$1,500 and No. 3 entry \$1,000 with the breakdown going to \$100 for last place. There will be team prizes ranging from \$75 to \$200 for high marks in game and series, individual awards from \$50 to \$100 for top individual efforts and \$50, \$40, \$30, \$20 and \$10 for the best averages. Other cash awards and trophies are planned.

Wonderland officials already have some teams lined up and feel they will have no trouble drawing a strong field of bowlers as big awards as incentive.

Proprietors at other leg houses have talked of starting their first classic but no definite action has been reported. It looks like the area's best pin topplers will sweep the night with a shut out of Hazelton Lettering and moved into first place when West Side Mobil lost two games to last place Pizzetti's Lounge.

High team game and series was rolled by Sparks-Griffin on games of 1059, 938, 1025 for a nice 3022 series. Others included Triple X Lanes 1025 in 2960, Coca Cola 1000 in 2889, Calbi Music 1015 in 2881, Oakland Coin 1024, Pasquale's Pizzeria 1003 and Judah Lake 2882.

Coca Cola registered the only sweep of the night with a shut out of Hazelton Lettering and moved into first place when West Side Mobil lost two games to last place Pizzetti's Lounge.

NEARING COMPLETION — Most of the work is centered inside Oakland County's new \$2.2 million courthouse in the County Service Center as workmen get closer by the month to putting the finishing touches on the building. Project Engineer George Kimmer figures it will be around June or July when county employees from the old downtown Courthouse and County Office Building, 1 Lafayette St., will be moving in.

Will Discuss Revision of State Teacher Code

A meeting to discuss proposed changes in the teacher certification code will be held in Highland Park Tuesday, Dr. Lynn M. Bartlett, state superintendent of public instruction, said today.

The meeting, which will be held in the Highland Park High School Auditorium from 7:30 to 9:30 p.m., is one of the second series of regional meetings being held throughout the state.

Dr. Bartlett emphasized that this meeting is for the purpose of discussion only and is not the final and official hearing on the proposed code. The meeting is open to the public.

The proposed code is the result of more than three years' work by the Advisory Commission on Teacher Education and the State Board of Education.

"We feel the new proposed requirements will aid greatly in a general up-grade of the quality of teacher personnel, but also of those who are engaged in school administration," he said.

Dr. Bartlett said the proposed changes will be in the long run, mean better prepared, better trained and better educated teaching talent for Michigan schools," Dr. Bartlett said.

Dr. Chester Cable, professor of English, Wayne State University, will serve as panel moderator for Tuesday's meeting.

Wilson Scorned Ether at Brazilian Festival

NEW YORK — "Did you get one of those ether-suffling jags you wrote about at the Carnival in Rio?" All three of my readers asked on my return.

No, I didn't. I was chicken. Many swaying celebrities including some foreign movie stars squirmed into handkerchiefs and inhaled deeply to get that gay "about-to-pass-out" giddiness. But I'm a coward, so I flew back on Varig, not on ether.

I inhaled something deadlier: feijoada complet. That's black beans with sausages and other stewed meats, burning hot pepper, and orange slices to cool the mouth. That will put you into a deeper sleep than ether.

Where would you study Ballet nowadays — Paris? Nope. Oklahoma? No. Norman is said to be "the only university in the country" with a major company ballerina on its permanent faculty. Ballerina Yvonne Chouteau and husband Miguel Terkehr, with the Ballet Russe de Monte Carlo for many years, have become artists in residence, commencing between Norman and Oklahoma City, to teach the outpouring of would-be ballerinas. (Now just watch all the other universities say I'm a liar and that they've got one, too).

"Grandma Merman" (Ethel, of course), told me before flying to Colorado to greet Little Ethel's daughter, Barbara Jean Litt, that she did "Oopsy" mechanically while waiting for the flash: "I didn't even know I was on stage—after all my child was in labor." The reason they didn't name this one Ethel: "We Ethels could wear our welcome out."

THE MIDNIGHT EARL...

Marilyn Monroe, due in Hollywood April 1 for a picture, hopes to get a postponement so she can do the "Rain" TV first.

Diszy Gillespie's Carnegie Hall concert will be titled, modestly, "Genius at Midnight."

Elizabeth Seal, star of "I'm a La Douce," couldn't get tickets over the weekend for her parents, visiting from England. (Her house seats had been given out). Kirk Douglas' son Peter, five, makes his film bow in his dad's "Tom With-out Pity."

EARL'S PEARLS: One reason so many men's suits seem to look about the same as last year's is that so many of us are wearing the same ones.

TODAY'S BEST LAUGH: A girl at the Palladium described her dancing partner: "He does a terrific cha-cha—no matter what the band's playing."

WISH I'D SAID THAT: This modern age has brought about a new ailment—costrophobia. That's the fear of high prices.

Medical Science has developed so amazingly within the past few years that it is now almost impossible for a doctor to find anything all right about a patient. ... That's earl, brother.

Byrd Sees School Plan as Wedge for Integration

WASHINGTON (AP)—Sen. Harry F. Byrd, D-Va., scorned President Kennedy's aid to education program with the assertion today that it will open a back door to school integration.

Byrd said he is convinced after an analysis of Kennedy's proposals for federal educational grants to states to spend as they see fit that the program will "pave the way for the most colossal sort of expenditures."

Byrd said he is convinced after an analysis of Kennedy's proposals for federal educational grants to states to spend as they see fit that the program will "pave the way for the most colossal sort of expenditures."

TV News and Reviews

Play Was Provocative, Uneven, Underdeveloped

By FRID BÄNZIG
NEW YORK (UPI)—For a provocative TV play, use the following ingredients:
Charlie Gordon, adult male orphan, mentally retarded, handsome, no apparent sex drive.

Jane Rawlins, lovely, single, dedicated teacher of mentally retarded adults who is attracted to Charlie Gordon.
These were the ingredients for "The Two Worlds of Charlie Gordon," last night's "Steel Hour" production on CBS-TV. It was provocative. It was also underdeveloped and uneven.

James Yaffee's script, based on a short story by Daniel Keyes, attempted to blend far-out science fiction with the Paddy Chayefsky slice-of-life approach to boy-girl stories and failed to satisfy either level.

The story involved a delicate brain operation which turned Charlie from a Cern Kiddie-hopper-type to a Mr. Wizard type, awakened his soul to the rewards of learning and love and brought into into a close, warm relationship with Miss Rawlins.

Unfortunately, the effect of the operation was temporary. Regression occurred and Charlie slipped back to his stumbling, Kiddie-hopper ways, but with one difference.

He had learned from Miss Rawlins that diligent application to learning would upgrade that plumbing I.Q. gain. And Miss Rawlins would be waiting for him at the research institute if he wanted her.

The play made some brief passes at digging into what Charlie was going through and did convey some of his torment. It also pulled in the usual quota of artificial speeches and situations and carefully gave us a commercially acceptable up-beat finish. The true denouement called for a down-beat ending.

I also recalled the aloof manner in which Miss Rawlins was treated. Here was a woman who

Approved were retired Army Lt. Gen. James M. Gavin as ambassador to France, David R. E. Bruce as ambassador to Great Britain, Mrs. Margaret P. Tree of New York as U.S. representative to the United Nations Human Rights Commission and Charles F. Baldwin as ambassador to the Federation of Malaysia.

Henry R. Labouisse of Connecticut won approval as director of the International Co-operation Administration.

UAW Schedules 3 Conferences on the Recess

DETROIT (AP)—The United Auto Workers' Union now has scheduled three "Get America Back to Work" conferences to which it is inviting industry and government representatives. The union said its purpose is to beat the recession.

The first conference, covering the automotive field, will be held in Detroit March 1. The second, for the agricultural implement industry, is slated for Chicago March 4. One for the aircraft industry is set for March 6 in Washington.

The UAW's official name is: International Union, United Automobile, Aircraft and Agricultural Implement Workers of America. It represents most of the hourly rated workers in all three industries.

The UAW says the three conferences will provide "a forum for a government-labor-management assault against layoffs."

About 21,000 Americans are killed by accidental falls each year. Half the victims are age 65 or older.

Government officials resurveyed Hong Kong recently and found 7 1/2 square miles more land than the original measurement of 391 square miles.

Seeks Inexpensive Parts to Produce Cheap Plane

TOKYO (UPI)—A top figure of the American aviation industry is combing the world to find suppliers who are not "beset by the disease of having done business with the defense industry."

Board Chairman William P. Lear of the giant Lear, Inc., instrument makers says he intends to produce a jet-powered "executive" aircraft to sell for about one-third the price quoted for competitive models.

Lear told reporters here that he came to Japan to hold talks with Mitsubishi representatives over making some components for his projected SAAC2, and to discuss the possibility of assembling the plane in Japan.

He said he may have to carry his search for low-cost components away from the aviation industry to concerns that don't know avia-

tion products always cost three times as much as they should."

He complained that military orders always "lie profit to price."

He said this has led the aviation industry to believe "There's no reason to get terribly efficient."

Tulsa's Mayor Gets Boost on Billboard

TULSA, Okla. (UPI)—Tulsa Mayor James Maxwell posed for a billboard advertisement which showed him donating blood to the needy according to longshore.

Red Cross. Printed across the top of the huge sign was the headline: "Maxwell—Good to the Last Drop." The world is divided in 24 time zones according to longitude.

She Gets a Lift

ARONTELE, Va. (UPI)—Montpelier High School officials arranged for Donna Barquin, 16, to be taken to school by taxi after she won the annual magazine subscription drive.

Daughter Finds Frost a Real Cool Cat

NORMAN, Okla. (UPI)—Dr. and Mrs. Oliver Benton were listening to a recording of Robert Frost reading some of his poetry when their 13-year-old daughter, Megan, walked in.

"What?" Megan demanded to know. "You listening to some of that beatnik stuff?" One of the first U.S. patents covered a process for making potato.

For Small-Fry Safety

STATESVILLE, N.C. (AP)—Statesville really watches over the safety of its children. A policeman calls on each prospective first grader at his home before school starts.

He and the youngster work out the best route for the child to follow to school and the policeman counsels the youngster on traffic safety.

They Needed One

FORT MONROE, Va. (AP)—Boy, what a break for GI's here—a miracle in the mess hall. He is M.Sgt. Elwood Miracle, assigned as a food technician.

Fire Rips Plant Near Milford

LEFT IN RUINS—A Milford fireman douses a corner where a fire started at the A. F. Holden Furnace Co. yesterday, gutting the plant and causing an estimated \$100,000 damage. The fire is at 2195 S. Milford road just south of the Milford village limits. Also called to the scene of the blaze were fire departments from Highland, Commerce and Union townships. Cause of the fire is undetermined.

Figure Damage of \$100,000 at Holden Co.

12 Men Escape Injury in Firm's Second Blaze Within Two Months

By JIM LONG

Twelve men escaped injury as fire swept through a furnace assembly plant near Milford yesterday, causing an estimated \$100,000 damage.

The men are employees of the A. F. Holden Co., an industrial furnace fabricating firm at 2195 S. Milford road, a mile south of the Milford village limits.

It was the second major blaze at the factory in as many months. The fire yesterday broke out near the ceiling in a corner of the plant workshop, situated in the center of the one- and two-story

BUILT OF WOOD
The workshop is constructed of wood and surrounded by additions made of galvanized steel and cinder block on either side.

The workshop was destroyed, and the two-story cinder-block office building and steel warehouse to the rear of the machine shop was gutted.

Holden, who said the factory was insured, estimated damage to the buildings and contents would be nearly \$100,000.

But I expect to have most of the men back to work by Monday," the industrialist said. "We'll enclose the gutted assembly plant with plastic before the weekend and be producing by Monday."

Holden said he had been in the workshop and went to his office with his foreman only 10 minutes before the fire was discovered.

"We heard a commotion in the plant and rushed down to see what was happening. The work-

Detroit Lions Proxy War Set to Roar

DETROIT (AP)—The War of the Proxies reaches a decision for Detroit Lions stockholders today.

Both sides in the management-control fight were brimming with confidence before the long-awaited stockholders' meeting although D. Lyle Fife, ex-president of the Detroit Football Co. and rebel leader, admitted complete victory wasn't likely.

The stockholders were to vote for 15 directors. Fife said his group expected to win seven seats on the board.

He rejected the latest peace offerings by President William Clay Ford and general manager Edwin J. Anderson, leaders of the management forces.

Ford in a statement Tuesday appealed to the rebels to join hands in a united effort, saying harmony was needed in the "Lion's" front office. The club president warned that continued opposition between two factions may "disrupt the morale of our entire organization."

Fife turned down the bid for a truce.

"With the stockholders we believe will go along with us, plus the proxies we have, I believe we still can take seven seats," Fife said.

Spokesmen for the Ford-Anderson group rejected this as optimistic. They said the rebels could win no more than four seats.

Fife said Wednesday night whatever representation his group gets on the board will be fine with him.

Move to Make 'The Victors' State's Song

LANSING (AP)—There's a move afoot in the legislature to make the University of Michigan fight song "The Victors" the official state song.

Senators and representatives who are U. of M. alumni hailed the proposal by Sen. Charles S. Blomdy, Detroit Democrat.

Michigan State University grads didn't like it a bit.

"It's a thrilling, inspiring song," said Blomdy, waving the bill and breaking into a chorus of "Hail, hail to Michigan; the champions of the West."

The senator acknowledged that his proposal probably will not be greeted warmly by alumni, students or faculty at any university besides Michigan. His district embraces Wayne State University and the University of Detroit.

Blomdy's formal education ended after two years at Cass Tech High School in Detroit.

News Flash

WASHINGTON (UPI)—Secretary of Defense Robert S. McNamara today issued a veiled warning to Russia that the United States will maintain a sufficient force to strike a "decisive counterblow" in case of all-out nuclear war.

Architects Busy on Drawings

MSUO Looks Ahead to Auditorium

By MAX E. SIMON

Michigan State University Oakland has commissioned a Birmingham architectural firm to prepare drawings for a 3,000-seat auditorium, part of a plan for a proposed cultural center on the university's campus.

"It would be a facility of great usefulness not only to the university, but to the entire community as well," Varner said.

"Despite its tremendous population, there really is no place in the county to bring a first-class cultural event," Varner noted.

"This is a shame for Oakland County is an culture-oriented as any county in Michigan."

"An auditorium at MSUO would provide a focus for cultural events and would insure continuing emphasis on them."

Varner said the proposed audi-

LOOP HIGHWAY ROUTE—This diagram gives the general location of the downtown loop highway that surveyors for the State Highway Department will begin plotting tomorrow. The diagram was drawn up several years ago as part of the Barton Transportation Study, which recommended the loop highway as the key to the rejuvenation of downtown. The diagram indicates how the loop (in black) would skirt downtown in the vicinity of Parkie Street on the east and Cass Avenue on the west, with new construction in the vicinity of School Street in the north completing the arc. With the loop relieving through traffic from Saginaw Street and other downtown areas, the central business district could be redeveloped into a shoppers' paradise, according to planning consultants.

JFK Gives Congress Vast Resources Bill

WASHINGTON (AP)—President Kennedy today sent Congress a program for vast development of America's natural resources and he asserted Eisenhower administration policy took a heavy toll of lives "by postponing essential flood control projects."

In a special message, the President set forth plans for both immediate and long-range dealing with a host of problems in the field of resources. He said: "If we fail to use these blessings prudently, we will be in trouble in a short time."

He called for facing up to the problems now, and added: "The task is large but not done."

Kennedy placed no price tag on his far-reaching program which, among other things, envisages development of economically competitive nuclear power within 10 years to replace or supplement power from conventional fuels in areas where such fuel is expensive.

Administration officials said they won't be able to estimate the added cost of the overall Kennedy program over present levels of resources spending until studies by the Budget Bureau and other federal agencies have been completed. These officials indicated they look for very little impact on the budget with several of Kennedy proposals geared to needs years from now.

Specific recommendations by the President include doubling spending on research aimed at making salty ocean water suitable for use in the home and by industry.

At a special meeting yesterday the Oakland County Board of Auditors agreed to advance enough funds to the clinic to keep it operating until the Ways and Means Committee of the County Board of Supervisors reviews its case late in March.

The clinic's board of directors said they will extend the proposed closing date and planned personnel reduction to April 7.

Although the county allocation for the entire year is approved on lump sum, it goes to the clinic in quarterly payments. The next payment is due April 1. Part or all of this payment will (Continued on Page 2, Col. 5)

1963 Date Eyed for Completion of Loop Road

New Pact to Push Up Building Dates, Have Pontiac Share Costs

By PETE LOCHBILER

Pontiac's downtown loop highway—a key feature in the redevelopment of the central business district—could become a reality in 1963 under a new pact being readied between the city and the State Highway Department.

To speed the project, an agreement reapportioning costs and pushing up construction dates two years is being prepared by the highway department for submission to the Pontiac City Commission in about two months.

Main outlines of the agreement have been the subject of discussions by highway officials and Pontiac civic leaders for several weeks.

Said John C. Mackie, state highway commissioner:

"We have agreed to move this project up two years, from 1964 to the fall of 1962, providing certain agreements are reached with Pontiac."

He said these involved local willingness to finance part of the project, including the purchase of right-of-way and the development of plans.

Information released by the highway department today did not spell out which segment of the loop the city would be responsible for financially. It is expected the segment will be that portion between Saginaw Street and West Huron Street.

The City Commission, meeting informally in recent weeks, has expressed enthusiasm about speeding up construction of the loop through the expenditure of accumulated road funds.

In anticipation that the part-way department tomorrow will put a six-man survey team on the job in Pontiac, beginning preliminary surveys of the loop route.

A highway department spokesman, describing the survey as "high priority," said within a few weeks more than two dozen surveyors would be at work on the loop for a period of about three months.

It is expected the route the state (Continued on Page 2, Col. 6)

Illinois Competitor Buys the American Forging Co.

Rumors that the American Forging & Socket Co., 150 Branch St., is selling out to a leading competitor in Rockford, Ill., were confirmed today by James J. Rath, vice president of the firm in Pontiac.

In a joint press release, Rath and Seth G. Atwood, president of Atwood Vacuum Machine Co. of Rockford, announced this morning that "The American Forging & Socket Co. has entered into an agreement to sell the business presently on its books to the Atwood firm, effective March 1."

A spokesman for the automotive parts manufacturing firm in Pontiac stated, "the deal was closed yesterday."

Company officials refused to disclose any sale price at this time, stating simply that operations "will be discontinued commencing March 1," and will be completely eliminated in the very near future.

Affected will be an estimated 250 American Forging employees in Pontiac.

President of the firm, Robert B. Stewart, was unavailable for comment. His wife said he was in Dallas, Tex., on company business. They live at 2905 Warner Drive, Green Lake, in West Bloomfield Township.

Included in the sale are all of the firm's dies and patterns, but not the physical properties of the plant, which has been located here since 1915.

Last May, American Forging & Socket listed total assets of \$2,423,137 with the Oakland County Clerk's Office, including capital assets, which would cover the value of land, buildings and equipment, totaling \$1,067,883.

Current production at American Forging consists of brake adjusters, seat adjusters, seat backs, hood locks, hinges and other lesser automotive equipment.

A producer of automotive parts, Atwood Vacuum and Machine Co. currently operates four plants, including that of an affiliate in Troy.

Bye, Spring! Rain, Snow on Friday

Temperatures soared to a high of 50 at noon yesterday, the highest of the season. The low will be a mild 38 tonight.

Cloudy, and colder with rain changing to snow flurries is Friday's forecast by the weatherman. The high will be near 40. Saturday is expected to be partly cloudy and cold.

Southerly morning winds at 8 miles per hour will become northerly westerly at 20 to 30 m.p.h. Friday.

Thirty-eight was the lowest recording in downtown Pontiac preceding 8 a.m. The mercury reading at 1 p.m. was 49.

From JFK to Nikita

NEW YORK (UPI)—Ambassador Llewellyn Thompson leaves for Moscow, today carrying from President Kennedy to Soviet Premier Nikita Khrushchev a message that expressed a hope for peace and the determination to avoid fanfare in favor of solid negotiating.

Airline Holds Key to Strike

See End to Walkout if Western Rehires 130 Dismissed Engineers

WASHINGTON (UPI)—Five major airlines hit by the widest strike of airline flight engineers could be solved today by a two-hour extension of the deadline on their proposal to carry out no reprisals if the engineers returned to work.

WASHINGTON (UPI)—White House sources reported today that President Kennedy has been told that the widest strike of airline flight engineers could be solved today by a two-hour extension of the deadline on their proposal to carry out no reprisals if the engineers returned to work.

Five affected airlines have agreed to resume operations without changing the job status of the engineers while a presidential commission undertakes a study of the dispute. This guarantee however, has a noon deadline.

A spokesman for the flight engineers confirmed that reinstatement of the Western engineers and assurances of no reprisals would clear the way for an end to the six-day-old strike.

Outside of the situation involving Western, only a few details remain to be worked out the spokesman said.

Western dismissed the engineers two days ago and said they would be replaced with pilots as soon as these men were trained in the engineers' duties.

White House sources went out of their way to point out that according to expert evaluation reaching the President, Western Airlines held the key to a settlement.

GOLFING WEATHER—This father and son took good advantage of Wednesday's balmy weather to put in their first round of golf this year. Steve Tappen, 63, makes a perfect caddy for his dad, Paul Tappen, 68. E. Tennyson St., considering that February is usually a bad month for caddies. The two enjoyed their jaunt at Pontiac Municipal Golf Course until rain intervened late in the afternoon.

Remodeling of Homes Is a Fertile Field

By SAM DAWSON
AP Business News Analyst
NEW YORK (AP)—If the demand for new homes has slackened, the year for fixing up and enlarging present houses hasn't. Some eager to cater to this trend optimistically estimate Americans will spend a record \$22 billion this year on improvements and repairs.

This would help the economy in general at a time when such aid is welcome.

It also would please makers of all kinds of building materials, home furnishings and appliances, as well as architects, decorators and builders. Sharing the boom would be dealers in lumber, plumbing fixtures, paint, and a fairly new newcomer to the scene, the operator of home modernization centers.

The trend also would please

various purveyors of credit to the masses—for improvement financing can run all the way from government-approved mortgage loans to advances by your friendly banker or finance company officer.

One of the services the home modernization center offers in a single package is that equally modern device, on-the-cuff financing.

The size of this market compares favorably with new housing put in place. Total spending on nonfarm residential construction in 1959 was put at \$22.5 billion.

by the Bureau of the Census. Farm dwellings added another \$319 million.

Those close to the modernization market think its growth has been one reason for the slowdown in building of new houses. "Many families that need large, modern and more modern quarters are considering major improvements to their present homes as a happy alternative to the risky and expensive undertaking of selling the old house to buy a new one."

That is the view of Charles R.

O'Donnell, vice president of Universal C. I. T. Credit Corp.

The do-it-yourself trend of recent years also has played a part in the growth in this field, in the opinion of E. Albert Eckart, president of Sapolin Paints. He predicts paint industry sales will cross the \$2-billion mark this year, with homeowners and other non-industry sales accounting for \$1.2 billion of it.

plans and even before-and-after pictures of alterations jobs.

The homeowner explains what he wants, gets a cost estimate, signs a contract—and can get credit arrangements, too. The center then does the rest, from drawing plans, ordering materials and hiring workers.

A traffic death occurs in the U.S. about every 16 minutes around the clock.

Hal March Scores in Debut

By JACK GAYER
UPI Drama Editor
NEW YORK—Any honest report on the presentation of "Come Blow Your Horn" at the Atkinson Theater Wednesday night has to make prominent mention of the fact that no premiere audience of the season has laughed more continuously or loudly.

The first-nighters, most of whom had experienced the basic stuff of Neil Simon's comedy many times, were laughing at a formula piece of father-son conflict within a Jewish family framework.

Simon and director Stanley Kramer have carefully carpentered the play to get all of the extra mileage possible out of the most likely lines and bits of business by using them over and over.

There is nothing particularly reprehensible about this in theory, since it is a legitimate dramatic trick, but it has been overdone in this case.

A little more inventiveness, a little more character instead of caricature, would be most welcome after the first of the three acts.

Hal March, in his Broadway debut after attaining prominence in television, smoothly interprets the role of a 33-year-old son employed by his manufacturer father.

He is constantly in the paternal doghouse because he is a playboy who doesn't pay much heed to business.

Lou Jacobi and Pert Kelton are

past masters at getting laughs, and they never fail to score as the father and mother.

Warren Berlinger's younger brother interpretation is full of humor, but he's been directed to play it that way. The young man is a fine actor.

Cuban Catholic May Lose Life

Reportedly Had Bomb; Death Penalty Asked by Prosecution

HAVANA (UPI)—The prosecution in one of Premier Fidel Castro's courts has demanded the death penalty for a 19-year-old Roman Catholic youth leader in East-Central Cuba, it was reported today.

Reports from Camaguey said a bomb was found in the possession of Antonio Valdesuso Rey, son of a prominent business family in the province, when he was arrested on suspicion of being a foe of the Castro regime.

Valdesuso was said to have been picked up in a movie theater on charges filed by another student leader, Eddy Morejon. Unconfirmed reports said the bomb was found when he was taken in for questioning.

In Havana, pro-Castro directors of private schools met Wednesday night to discuss a reported plan to penalize parochial and other anti-Castro private schools by forcing them to give their teachers leave with pay to aid the government's literacy program.

President Osvaldo Dorticos told UPI that Cuba "continues open to any move by President Kennedy toward conciliation . . . although recent symptoms are not favorable."

He Ducks, but They Press On

JFK Hounded by Newsmen

WASHINGTON (UPI) — The problem of personal privacy looms more important to President Kennedy and his family each passing day.

Getting away from the White House golfish bowl and playing hide and seek with the press is a growing pattern for the first family.

Try as they may, it is difficult for them to pull a curtain down on the latered in their private lives that was whetted during the political campaigns.

The President and Mrs. Kennedy have solved part of the problem by leasing Glen Ora, a 40-acre estate in the Middleburg, Va., horse country which they can reach by helicopter in 25 minutes.

Press Secretary Pierre J. Salinger has gone out of his way to discourage press coverage of the President while at the weekend hideaway.

But the Kennedys' desire for privacy is more than a weekend proposition. It would be easy if they chose to remain always indoors sealed off from the out-

side by the high White House iron fence.

But the President is a gregarious man and he does not plan to be hemmed in, even as the chief of state. He has set a new fashion in presidents by having old friends on the Washington scene and keeping them, despite his new official address.

He still likes to be on the go, and going to private dinners at the homes of senatorial and newspaper friends is still a favorite pastime. Salinger has

stressed the President will keep making such social calls without a tipoff to the press.

Washington is a small town at heart and the word gets around fast when the President is in the vicinity.

In one way or another reporters turn up hot on the trail.

Dowagiac Council to Use Prayer to Open Meetings

DOWAGIAC (UPI) — Starting next Monday night, the City Council will begin its weekly meetings with a prayer.

The council has adopted a proposal by the ministerial association to provide a different pastor each week to give the invocation for the council meeting.

Police Seek Owners of Stolen Bicycles

Ten bicycles on which no stolen reports were made are being held by Pontiac police.

Lt. Clayton Randolph, crime prevention bureau head, asks youngsters missing bikes to contact him from 10 a.m. to noon Saturday at the Public Safety Building.

The owners must be able to identify their bikes and, if possible, should produce bicycle licenses, he said.

Army scout dogs can detect alien scents at distances of 200 to 300 yards.

'Political' Vows Open Moscow's Wedding Palace

MOSCOW (UPI) — A state-operated wedding palace, set up by the government to discourage a recent rise in church marriages, began functioning here Wednesday.

The new institution, designed to glorify the usual drab Communist wedding ceremony, began assembly-line operations with the marriage of two young factory workers.

They became man and wife in a 10-minute ceremony that featured Communist-state political comments instead of religion. The wedding palace, a nobleman's mansion in czarist days and more recently an apartment house, has paneled walls and glistening crystal chandeliers.

Gibson Modernization Is Well Under Way

GREENVILLE (AP) — The Gibson Refrigerator Division of Hupp Corp. is well into its million-dollar modernization program in plant and equipment at Greenville, according to Vice President C. M. Tipton.

A new building adding 12,000 square feet of manufacturing and storage space, plus new machinery, are in place at the west end of the original plant. Tipton said 150 employees — two shifts — will work in the new section.

Rep. Diggs to Speak to County NAACP

The monthly meeting of the Oakland County branch National Association for the Advancement of Colored People will be held in Fellowship Hall of Trinity Baptist Church Monday at 7:30.

Following the business period, State Rep. O. Roosevelt Diggs, will be guest speaker.

A social hour will conclude the meeting. All members and friends of the NAACP are invited.

Virginia was named by Sir Walter Raleigh in 1584 in honor of Queen Elizabeth, the Virgin Queen of England.

STOLEN DOCUMENTS — Police Capt. Peter Conroy examines rare Lincoln documents stolen from the University of Chicago library. The priceless documents were turned over to San Francisco police by James Murray, 23-year-old

San Francisco poet. He said they were turned over to him for safekeeping by "a very confused kid" whom he knew only as "Martin." The documents include a letter by Lincoln and another by his wife.

Girls Rustle Beef From Reds' Farm Experiment

MOSCOW (U) — An agriculture

ministry experimental farm in Leningrad has been slaughtering and selling prize cattle on the black market, the newspaper Komsomolskaya Pravda charged Wednesday.

The chief task of girl labora-

tory technicians was to take slaughtered experimental cattle to the black market for sale, said the newspaper of the Young Communist League.

It did not say what has happened to the director and his staff.

Sports Booster Club Could Use a Boost

SOUTH KINGSTOWN, R.I. (UPI)

—The first step apparently is to boost the booster club. The Charho All-Sports Boosters

Club was formed to stimulate interest in athletics at the new Charho Regional High School. The club held its first meeting, but only two persons showed up.

Mar is affected by 30 diseases also common to animals.

County Teen-Agers to Gather for Session on Traffic Safety

Teen-agers from throughout Oakland County will gather at Pontiac Northern High School Saturday morning to see what they can do about traffic safety. They will be participating in the third annual Teen-Age Traffic Safety Conference sponsored by the safety committee of the Pontiac Area Chamber of Commerce.

Students will begin registering at 8 a.m.

The major reason for the program lies in traffic fatalities.

Many young people up to age 25 die from traffic accidents than from any other cause each year. The conference is one of many programs, which began to take form in Michigan, when in 1955 traffic fatalities reached an all-time high of 2,004, of which 614 were young people.

CHAMBER POPULARITY

Three years ago the first such session was attempted here on a countywide basis, and it had grown steadily in popularity each year since.

Traffic safety authorities point out that for every fatal accident there is an average of 3 permanent injuries, 20 other injuries of varying degrees and 1,000 property damage accidents.

Chamber of Commerce officials also point to the fact that in this country more people have died in traffic than in all the wars since 1755.

"Young people are particularly qualified to do something about this," said Dr. Dana P. Whitmer.

chamber president and superintendent of Pontiac schools.

"They are original and have ingenuity, energy and do exceptionally well in group activity. Adult organizations enjoy the co-operation of young people," he asserted.

SERVICE BY YOUTH

Whitmer also feels that youth does itself a great service by actively participating in such programs.

"These teen-agers counteract negative criticism of young drivers with positive, constructive actions."

Following introductory words by William Belaney, of the Chamber of Commerce speakers bureau, Whitmer will be one of the welcoming speakers at 8:30 a.m.

Others delivering welcoming addresses will be Pontiac Mayor Philip E. Rowston and Mal Oswald, president of the Pontiac Northern student council.

The morning's major address will be delivered by Howard K. Gandelot, of the General Motors Technical Center.

Gandelot will speak on "What Every Teen-Age Driver Should Know."

At about 9:15 state troopers from the Pontiac post will show a movie, "According to the Record."

This will be followed by a break for refreshments.

QUESTION PERIOD

The remaining portion of the program, from 10 to 11:30 a.m. will consist of a symposium and a 30-minute question and answer period.

Discussions will center on three major areas of study.

George Stewart, representing the Michigan State Board of Alcoholism, will lead one titled, "I've Got Eds on My Mind."

"The Role of Enforcement" will be explained by trooper Harold D. Wade of the Pontiac State Police Post.

Rounding out the symposium will be Royal Oak Municipal Court Judge Keith J. Leenhouts. He will discuss "The Moral Aspects of Traffic Violations."

VIPs Called In Over Defense

Ask McNamara to Talk 'Missile Gaps or Any Other Gaps'

WASHINGTON (AP) — The Pentagon's top officials were summoned today to paint for a House committee the nation's defense picture as the Kennedy administration views it.

Secretary of Defense Robert S. McNamara and Gen. Lyman L. Lemnitzer, chairman of the Joint Chiefs of Staff, were called for the closed session by Rep. Carl Vinson, D-Ga., veteran chairman of the House Armed Services Committee.

In issuing the invitation, Vinson pointedly suggested that McNamara talk about "missile gaps or any other gaps he has on his mind."

McNamara recently was quoted as saying there was no missile gap with this country trailing the Soviet Union.

That put President Kennedy on the spot, because he had made a major campaign issue out of the alleged missile gap. The President said when asked about McNamara's statement that no studies had been completed as yet on the problem, McNamara also said in later statements that the studies still were under way.

In the Senate Wednesday Sen. Stuart Symington, D-Mo., said there is no question the administration thinks the United States is behind the Soviet union in missile power and is doing something to close the gap.

Rep. Powell Gives His Wife a Raise

WASHINGTON (UPI) — Rep. Adam Clayton Powell, D-N.Y., has given his secretary a \$3,000-a-year raise since he married her, the house payroll for January reveals.

The January payroll which became available Wednesday, showed that Powell set the pay of his secretary-wife at the rate of \$12,974 a year.

Before their marriage, Mrs. Powell, the former Yvette Marjorie Flores, was paid \$3,974 annually.

Mrs. Powell, who married the congressman Dec. 15, still was listed on the payroll as Y. Marjorie Flores, the listing used before her marriage.

She is the highest paid of six assistants to Powell.

A house finance officer said there is no law against hiring relatives to work for congressmen. He said that there is nothing to stop members of Congress from hiring their whole families if they wish.

NO PLACE TO GO — These four lovely graduates of American Airlines stewardess college are nursing dreams of jettisoning across the country after their recent graduation. Unfortunately, the girls, along with 39 classmates, were forced to remain in Fort Worth, Tex., at the Airlines college instead of going to their new assignments because all of American's flights have been grounded by the flight engineers' strike.

Pick Local Girl for Youth Group

Karen Bronoel Named to Advisory Council for State Youth

A Pontiac girl, Karen Bronoel, 16, has been named to the Michigan Youth Advisory Council of the Michigan Youth Commission.

The Pontiac Central High School junior is only the second council member from Pontiac.

The other is Marsha Dreg, a senior at Pontiac Northern.

The council is made up of representatives of 27 organizations having statewide youth programs.

Karen will represent the Michigan Congress of Parents and Teachers. She was selected because of her active interest in the Pontiac Youth Council.

Her appointment became official at the YAC Winter Conference, at Kellogg Center on the Michigan State University campus, Feb. 19-20.

She attended the conference with Marsha, who represents the Conference of Methodist Youth Fellowship.

The council discussed problems concerning teen-age traffic violators in Michigan.

Dann in Battle Over Stock List

Avers Chrysler Stalls on Producing Names; Nonsense, Says Firm

DETROIT (UPI) — Chrysler Corp., and attorney Sol A. Dann, who almost never agree with each other, were at odds on a new score today.

Dann claimed Chrysler is stalling on his request for a list of stockholders in the company.

Chrysler fired back that the list has been available to Dann for nearly two weeks.

Dann said he went to the Hamm-Over Bank in New York this week to get a copy of the list and was told one could not be made up and delivered to him until March 15.

He said this would be too late to do him any good in the proxy fight he plans at Chrysler's April 18 stockholder meeting.

However, Dann finally did concede that he was told it would be all right for him to inspect the stockholder records at the bank.

Chrysler said that not only were the records at the bank open to Dann, but that the stockholder lists at the Corporation Trust Co., in Wilmington, Del., had been open to Dann and that Dann's attorneys had been making extracts from it since Feb. 14.

In addition, Chrysler said, the company had offered on Feb. 13 to supply Dann with a list of his own if he would pay for it.

Dann, the company said, has not replied to this offer.

GE Unfair to Labor, NLRB Will Be Told

NEW YORK (UPI) — General Electric Co., which recently was convicted of violating antitrust laws in a multimillion-dollar price-fixing case, will be hailed before a National Labor Relations Board hearing next month on charges of unfair labor practices.

Ivan C. McLeod, NLRB regional director, announced Wednesday the board has filed the charges in connection with the violence-marred strike of 70,000 workers called by the International Union of Electrical Workers in 55 GE plants across the country last fall.

The strike, touched off by contract negotiations, lasted 20 days and ended Oct. 22 when the I.U.E. settled virtually on company terms after several locals and individuals ignored the strike and went to work.

Says Nuisance Taxes Bring Bootleg Cigars

LANSING — Cigars are being bootlegged into Michigan from Ohio and Indiana because of the 20 per cent tax on tobacco products, says a spokesman for the industry.

Albert A. Pisa of Detroit, president of the Michigan organization of Tobacco Retailers, said his group is planning an all-out drive to have the levy dropped.

It was part of the "nuisance" package adopted by the legislature in 1959 — a temporary tax stopgap — to expire June 30.

Eye Finc for Cuba

WASHINGTON (UPI) — Secretary of State Dean Rusk has told Sen. George Smathers, D-Fla., that the administration is studying a proposal to shut off the last Cuban exports trickling into the United States.

New Orleans is normally the world's chief banana port.

Jones Runs for Pontiac Track Club in AAU

SIGN UP FOR TOURNEY—League sponsors Brooks Robertson and Bob Vackaro look on as Madison Junior High bowlers sign up for the local part of the 1961 AJBC Mail-O-Graphic tourney to be held at Sylvan Lanes March 23.

Standing, left to right, are Al Mann, Steve Dunicki, Bob Bradshaw and Lee Smith. Seated, left to right, are Paul Marlen and Les Smith. Deadline for entering is Sunday.

Sunday Deadline to Enter Local AJBC Tournament

Two outstanding bowling tournament opportunities loom in the immediate future for area junior bowlers.

One is the nation's annually biggest—the American Junior Bowling Congress sponsored Mail-O-Graphic. Some 13,000 entries are expected from all 50 states and about ten foreign countries, with literally thousands of trophies up for various winning scores.

The other is a once-in-a-lifetime chance to compete on a specially designated squad at the World Series of Bowling—the American Bowling Congress tournament, open to both boys and girls, competing in separate divisions, and in three

Classes, Bantam, Junior and Senior Divisions. Bantams cannot be older than twelve years on March 23rd. Juniors not over fifteen, and Seniors not over sixteen. Five members comprise a team, and three games will be bowled on Saturday, March 23rd.

Scores are submitted to A.J.B.C. national headquarters in Chicago and compared with other entries. Several local teams won honors last year and have already signed up for this year's event.

Two squads of junior bowlers will compete at the Detroit A.J.C. one on March 3 and the other March 14. Local leagues who are sanctioned through A.J.B.C. are eligible for selection if their league sponsors will contact Balch and register with him the number of Junior and Senior Division boys and girls under sanction. Those leagues who follow the above procedure will have a percentage of their bowlers chosen, based on the number of participants allowed to Pontiac area registrants.

Coaches of A.J.B.C. sanctioned leagues have received all tourney rules for the Mail-O-Graphic, and they can furnish all particulars to junior bowlers who wish to enter. All teams from the Pontiac area will compete at Sylvan Lanes, designated by the American Junior Bowling Congress as the local site of competition.

Entries must be submitted by February 26th to any local bowling house, or to Clark Balch, 331 Liberty, supervisor of the Pontiac tournament.

The Mail-O-Graphic is a national cup tournament, open to both boys and girls, competing in separate divisions, and in three

SVC Point Race Still the Same

It's the same old story in the Saginaw Valley Conference basketball scoring race with one league game remaining for each team. The Saginaw "twins," Jerry Tillman and Ernie Thompson, are still far ahead of the pack.

Tillman holds a 28-point lead over his sharp-eyed teammate and is a virtual clinch to win the SVC scoring title for the 2nd straight year. In nine games Tillman has amassed 222 points for a 22.2 average. Thompson is averaging 19.3.

The Saginaw tandem also ranks 1-2 in the all-league division where Thompson has managed to stay closer to his high-scoring partner. In that category Tillman is averaging 31.3 while Thompson stands 29.4.

Pontiac's Clarence Douglas and George Fed are 4th and 8th, respectively, in the Valley race with averages of 14.5 and 11.5. Both are one notch higher in the all-league bracket. Douglas is placing 3rd with a 15.2 average and Fed rating 7th among the top 10 at 12.1.

Newly-crowned champion Saginaw plays host to PCH. Arthur Hill visits Flint Central and Flint Northern invades Bay City Central Friday evening to conclude the local schedule.

VALLEY SCORING LEADERS

Player	Team	Points	Avg.
Tillman, Saginaw	Saginaw	222	22.2
Thompson, Saginaw	Saginaw	193	19.3

Eastern Is Host to Renewal of Michigan Meet

State Open Saturday at Ann Arbor, Also Draws PTC Entry

Pontiac's Hayes Jones will return to his Alma Mater to compete in track for his home town today.

Jones will run in the hurdles for the Pontiac Track Club which competes at Eastern Michigan University in the Michigan AAU championships.

The Pontiac Track Club will have five entries in the meet which expect 125 college athletes and an additional 60 from track clubs and independent groups.

Gerry Rush will take part in the shot put. Danny Sewell in the hurdles and broad jump. Bill Douglas and Jim Nelson in the half mile and Jones in both hurdles.

Saturday the Pontiac Track Club will go to Ann Arbor for the Michigan open. Jones however will be taking part in the National AAU that day.

Teams entering the meet will include the University of Detroit, Wayne State University, Grand Rapids Junior College and Eastern Michigan University. Athletics enter unattached from the University of Michigan and Michigan State University as well as several other colleges and universities in the state.

Preliminaries begin at 3:30 p.m. and will be held in the 50 yard dash, the high and low hurdles, the 400 yard dash and the 880 yard run. The preliminaries and finals will be held in the broad jump during the same period. Finals in the field events will be at 6:00 p.m. with finals in the running events to be held beginning at 7:00 p.m.

George Marshall, Eastern Michigan track coach and director of the meet, stated that "We are attempting to start anew the Michigan AAU Championships which have not been held for a number of years. We will award an official team championship in contrast to the Michigan AAU Relays in which no team is officially recognized as the team champion."

A trophy will be awarded to the team placing first and medals will be awarded individuals placing first, second, or third in each event.

Veteran Coach Retires

BALTIMORE (AP)—Emil G. (Lefty) Reitz Jr. today announced his retirement as head basketball coach of Baltimore Loyola College, where he has directed Greyhound teams for 23 years. Reitz, 51, will continue as Loyola's athletic director and baseball coach. He graduated from Villanova in 1933.

11th Frame

By CHUCK ABRAHE

Plans are nearing completion at the new Wonderland Lanes in Commerce Township for a big classic league which would have a payoff of over \$11,000.

House manager Paul Horie is hoping to put together a 24-team league for the 1961-62 season. Teams invited will be those with averages between 920 and 960 based on the mean mark for the current competition.

Horie, who should provide a good boost to the sport in this sector with past experience in Detroit, hopes to draw teams from this area and the Motor City.

His loop would join classics at Huron Bowl, West Side Recreation, Nor-West Recreation and others as spots around this sector.

According to Horie's program, the title team at Wonderland would win \$2,000, the runner-up \$1,500 and No. 3 entry \$1,000 with the break-down going to \$100 for last place. There will be team prizes ranging from \$75 to \$20 for high marks in games and series, individual events and scores.

Other high scores were rolled by Pete Peterson 220, 226, 225 in 671; George Chichovsky 200, 204, 188 in 671, and Ted Sutton 242 in 645. Don Stone hit 257 and Mike Andonian at 244.

High team game and series was rolled by Sparks-Griffin on game of 1059, 938, 1025 for a score 3022 series. Others included Triple X Lanes 1025 in 2900, Coca Cola 1000 in 2909, Cobi Music 1015 in 2881, Oakland Coin 1024, Pasquale's Pizzeria 1003 and Judah Lake 2892.

Coca Cola registered the only sweep of the night with a shut out in 2909. Hazelton Lettering and moved into first place when West Side Mobil lost two games to last place Pinault's Lounge.

SKIPPING AROUND

At Robinson, president of the corporation which will build Blue Sky Lanes, also owns Ark Lanes near Warren. Reservations for games at the Blue Sky may be made by calling FE 2-3300. Margaret Demberger and Arlene Newcombe of Pontiac Motor hold the top two offices in the GM Girl's Bowling Association. Betty King of Pontiac is secretary.

A cherry and split prevented Jay Koprince from rolling 700 at Motor Inn. He totaled 683 on 245-215-241 as captain. Ladies and Distributor in the "B" loop there, Brother Lou fired 633 topped by 266 eight before in Motor Inn House where Ed Sed had 234 game, Lloyd Graham 231, Norm Keeley 214 and Charley Palalan 213. Land-O-Lanes still head Eika Ladies League. E.T.T. had 154-117 to gain tie for 2nd sparked by E. Menzel.

Latest high games in Huron Classic include Bill Smith 245, Dick Carmichael 244, Floyd Johnston 224-243, Mayer 242, Stan Kurzman 237, Jim Cizmadija and George Landersperger 235, Jack Amis 234, Harlan Keith 233, Neil Richters 229-225, Carl Behrick 225, Fran Bertram 224, Bill Ball and John Lorang 222 and Doug Swords 200.

Boys in Farmington Classic recently had 2nd best night of any league in entire Detroit area with 204.31 per-game per man average topped by Bob Korn's 250-70s.

Special Communication Pontiac Lodge No. 21, F&M, Fri. Feb. 24, 8:45 p.m. Work in M.M. degree. F. E. Mapley, W.M.

News in Brief

Thomas F. Roe, 4880 Ross Drive, Waterford Township, was treated for severe facial burns at Pontiac General Hospital late yesterday when he removed the cap from the radiator of his overheated car. He was released after treatment.

The theft of a tape recorder from his car was reported to Pontiac police yesterday by Kenneth Burns, 640 North View Ct.

The theft of a billfold containing a credit card and miscellaneous papers was reported to Pontiac police yesterday by Cora Desautel, 667 Inglewood St.

Kenneth Farmer, 327 Sunwood St., Waterford Township, reported to Pontiac police yesterday that his \$30 raincoat had been stolen.

Fish Dinner, Baldwin E.U.B. Church, 210 Baldwin, 3-8, Friday, Feb. 24, 1961. Extra free, homemade style trout and pastry.

Churchill's Bakery, 3745, Cor. Wm. Lk. Rd. and M59 Waterford, announces their grand opening, Feb. 24, 1961. Extra free, homemade style trout and pastry.

Rummage Sale, Sat. Feb. 25, Veterans of Foreign Wars Auxiliary, 3066, 371 E. Pike St. from 9 to 4.

Business Notes

Two Pontiac auto salesmen are attending a retail salesmen's workshop in Detroit. They are Alfred Detrich and Lloyd L. Walker, both of Lloyd Motors, 232 South Saginaw St.

Answer Prayer of Suburbanites

Road Commissioners Specify Wider, Thicker Paved Streets

County road commissioners believe they have a way to keep suburbanites happy over the construction of their subdivisions roads.

They've adopted new specifications requiring wider and thicker paved streets. The aim is to keep maintenance costs—which must be borne by property owners—to a minimum.

"The savings on maintenance eventually will allow a higher standard of road maintenance throughout the county," said Lloyd M. Thatcher, chairman of the board of road commissioners.

The requirement for right-of-way will be 70 instead of 60 feet, Thatcher said. This will allow flatter slopes on ditches, improving appearance, decreasing maintenance and allowing more room for sidewalks and utilities.

"We hope to eliminate the frequent complaint of the new suburbanite who discovers that rural roads and maintenance are not as well financed as they were back in the city," Thatcher said.

State Ambassadors Have New President

LANSING (AP) — Robbie B. Martin, president of the Dundee Cement Co. of Dundee, has been named chairman of the executive committee of the Michigan Industrial Ambassadors.

He succeeds Merrill D. Hill of 963 Glenview Circle, Bloomfield Hills, as head of about 250 businessmen who work to promote Michigan as a good place in which to locate industry.

Hill, a Ford Motor Co. vice president and manager of Ford's Tractor & Implement Division, is retiring after three years as chairman of the unofficial "ambassadors."

Clothing Organization Announces Promotion

McGarrigan, a veteran of the 33rd-store clothing chain's "rapid" promotion of Michael McGarrigan, Robert Hall, Chicago, announced executive training program.

Tulsa's Mayor Gets Boost on Billboard

TULSA, Okla. (UPI)—Tulsa Mayor James Maxwell posed for a billboard advertisement which showed him donating blood to the Red Cross. Printed across the top of the huge signs was the headline: "Maxwell — Good to the Last Drop."

The world is divided in 24 time zones according to longitude.

She Gets a Lift

MONTPELIER, Vt. (UPI)—Montpelier High School officials arranged for Donna Barquin, 16, to be taken to school by taxi after she won the annual magazine subscription drive.

Daughter Finds Frost a Real Cool Cat

NORMAN, Okla. (UPI)—Dr. and Mrs. Oliver Benson were listening to a recording of Robert Frost reading some of his poetry when their 13-year-old daughter, Megan, walked in.

"What?" Megan demanded to know. "You listening to some of that beatnik stuff?"

One of the first U.S. patents covered a process for making potash.

For Small-Fry Safety

STATESVILLE, N.C. (AP)—Statesville really watches over the safety of its children. A policeman calls on each prospective first grader at his home before school starts.

He and the youngster work out the best route for the child to follow to school and the policeman counsels the youngster on traffic safety.

A new human finger nail will usually grow in about 100 days.

They Needed One

FORT MONROE, Va. (AP)—Boy, what a break for GI's here — a miracle in the mess hall. He is M.Sgt. Elwood Miracle, assigned as a food technician.
