U.S. Accused of 'War Plot'

SEOUL, South Korea (AP)—Communist North Korea accused the United States today of "war provocation plots" in this divided peninsula. It ignored the Red suicide squad that slipped into South Korea this week and killed three U.S. soldiers.

The North Korean foreign ministry accused the State Department of trying to "cover up the criminal nature of U.S. imperialism in South Korea and to justify the long-term occupation of South Korea by the U.S. Army."

"By playing up the non-existent threat from the North," said a Communist broadcast, "the U.S. imperialists are foolishly trying to camouflage the war provocation plots they are hatching in the South."

North Korea said the Americans are trying to justify "aggressive acts of their own." It said the United States has heightened tension by introducing "atomic weapons and guided missiles and turning South Korea into an atom bomb base, scrapping and violating the Korea armistice agreement."

American commanders in Korea admit they possess weapons capable of firing nuclear warheads and that atomic tactics are practiced. They normally decline comment on whether nuclear warheads are stored in Korea.

American troops "whose hands are dyed in the blood of the Korean people" must get out of South Korea, the Communist broadcast asserted.

The broadcast made no mention of the ambush killing of two U.S. soldiers just south of the demilitarized zone Monday or the skirmish six miles farther south Tuesday in which another American, a South Korean policeman and four North Koreans died.

The U.N. Command said the North Koreans were carrying weapons used in the ambush Monday.

The United States denounced the ambush as a "vicious, unprovoked attack."

U.S. Army patrols aided by spotlights searched the banks of the Imjin River along the demilitarized zone for more Communist infiltrators.

Twister Damage — This State Highway Department truck and the roof of the department's sign shop at Cadillac were damaged when a tornado hit the area last night. Witnesses said the truck was thrown as high as telephone lines.

K Will Attend N-Pact Signing To Take Command of High-Level Talks

MOSCOW (UPI)—Soviet Premier Nikita Khrushchev will attend Monday's signing of the partial nuclear test-ban treaty and take personal command of high-level talks with the United States and Britain, it was learned today.

Informed sources said Khrushchev changed his vacation plans in order to take a personal hand in the treaty signing ceremony and the discussions that will follow with Secretary of State Dean Rusk and British Foreign Secretary Lord Home.

Khrushchev had been scheduled to leave for his Black Sea retreat today and relax for at least two weeks before making a journey to Yugoslavia on Aug. 20.

It was officially announced, meanwhile, that Rusk has accepted Soviet Foreign Minister Andrei Gromyko's invitation to remain here for three or four days after the ceremonial treaty signing Monday. Lord Home similarly is expected to stay for the three-way talks.

The foreign ministers will continue the private discussions initiated by Khrushchev, Gromyko, Undersecretary of State W. Averell Harriman and Britain's Science Minister Lord Hallam last month during the nuclear-treaty negotiations.

To Reign at Fair 4-H Royal Couple Selected

The best of this year's crop of 4-H'ers were chosen yesterday to reign as king and queen of the 4-H fair next week.

Eighteen-year-old Tom Middleton and Carmen Sue Miller, 17, were selected to rule over the 500 youngsters participating in the annual event.

Carmen, who works on her 4-H projects along with other members of the Seymour Lake Club, could hardly wait to call her parents, Mr. and Mrs. Miller, at home, 3419 Dartmouth, Brandon Township.

Although surprised yesterday, her mother is accustomed to Carmen's winning 4-H honors. When she was 15, the pretty redhead with the glowing smile was chosen best of the 4-H'ers entering dressmaking competition.

But Carmen doesn't limit her interests to 4-H work. She is also a member of the student council of Brandon High School, where she will be a senior next year.

After high school, Carmen will be off to Eastern Michigan University for studies in special education.

Carmen's king is following in the footsteps of an older brother, Larry, who ruled over the fair in 1959. Tom also is no newcomer to the winner's circle.

He is a junior 4-H leader and was chosen by Lake Orion High School to attend Wolverine Boys State in Lansing this year.

Tom lives with his parents, Mr. and Mrs. Keith Middleton, on their farm at 2610 Stoney Creek, Oakland Township.

In addition to reigning as king of the fair, he will be exhibiting two calves and three stalks of his prize corn.

The two outstanding youngsters were chosen by judges Mrs. Elizabeth Kittle, 4-H agent for Genesee County, and Howard Heldenbrand of the Pontiac Press-editorial staff.

Also included on the judging panel were this year's king and queen, Lyle McLachlan and Ricki Ann Hoxie.

This year's honored couple will be featured in a parade through Pontiac Monday and will be crowned in a public ceremony at the 4-H fairgrounds, Perry just south of Walton, Tuesday night.

A medical bulletin in the afternoon said:

"Dr. Ward's condition has deteriorated and he has had to be returned to mechanically controlled breathing."

The apparatus employed was known as a Barnett ventilator, an iron lung type of machine.

Ward has not recovered consciousness since swallowing a heavy drug overdose yesterday morning before he was due to attend the last day of his Old Bailey trial. And so he does not know he was convicted.

The pneumonia struck in the afternoon.

One medical source said pneumonia was a common complication in barbiturate poisoning. Normally, patients recover from their coma more quickly than Ward and are treated with drugs.

But with Ward still unconscious nearly 36 hours after the dose, such treatment would obviously be difficult, the source said.

Asked by newsmen what Ward's chances were, Mayne Butcher, a hospital official, replied:

"I can only allow you to draw your own conclusions."

House Group Agrees on Cut in Foreign-Aid

From Our News Wires

WASHINGTON (U)—The House Foreign Affairs Committee agreed today on a foreign-aid bill totaling slightly more than \$4 billion, or about \$437 million less than President Kennedy sought.

Rep. Thomas E. Morgan, D-Pa., chairman of the committee, announced after a closed-door session that the total approved was \$4,007,975,000. The President originally asked Congress for \$4,535,325,000. Administration sources subsequently indicated however that he could get along with less.

Only a routine vote on a "clean" copy of the bill next Tuesday remains before the committee clears it for House action.

Final cuts of \$438 million were made today, the largest being \$100 million from the President's contingency fund and \$180 million from the military assistance program.

The Alliance for Progress aid program for Latin America suffered a modest cut of \$50 million, reducing the administration's request to \$600 million.

The authorization bill merely sets a ceiling on the program's expenditures for the year. Still to come is an appropriations bill which provides that actual money.

That is where the big fight on the always controversial program will come.

Unless this is done, said Brown, Mackie could continue to exercise his authority until he goes out of office on June 30, 1965.

"I have fully intended to finish out my term, but if Mr. Brown and the other in their crude political opinion decide I should be thrown out of the job, then I will have to change my plans," Mackie said.

"This means I would consider running for another political office — governor or Congress."

Mackie's name is usually included on the list of potential Democratic candidates for governor and he has been regarded as one who might make a challenge in 1966.

He has not been discussed widely as a 1964 candidate because the new constitution, against which he spearheaded the Democratic party's opposition, provides that any elected official whose job is abolished can serve out his term.

At Cadillac Outskirts Tornado Strikes North

CADILLAC (U)—A roaring tornado mauled several buildings, tossed a panel truck to telephone-height and threatened at least four counties in Northern Michigan — but injured no one — last night.

The tornado missed a residential area in Cadillac, where it concentrated its punch. It also bypassed the Northern District Fair nearby and the Clare County Fair in Harrison before dying in the cool night air.

Residents watched the funnel form out of swirling clouds and roar eastward across the north side of Cadillac, where it tore the roof off a Highway Department sign shop and flattened a scrap material warehouse.

The twister also damaged a glass shop and a service station and folded up a 100-foot-tall Westford County Highway Department radio tower.

"It was whirling around so much you couldn't tell which way it was going," one Cadillac woman said.

The funnel passed over a residential area and then veered south, with two state police cars racing it to warn farmers in the area.

One car had to stop momentarily to let the twister pass. Troopers said it sounded like a freight train.

Police followed the tornado about 20 miles to the Clare-Oscoda County border. Funnel sightings also were reported in Midland County and the weather bureau issued warnings to Gladwin, Arenac, Saginaw and Bay counties to the east.

There were no further serious damage reports, however.

Westford County Sheriff Paul Lance was on the scene when the twister cut a swath 50 yards wide and about one-quarter mile long in the north business section of Cadillac.

"I was driving northward at the time, when I saw the twister come booming out of a dark cloud," he said. "It hit so suddenly that I had to gun my car backwards to get out of its path."

"I saw a State Highway Department sign truck picked up like a toy, lifted as high as the telephone wires and thrown back down on its roof," he said.

Traffic Toll Hits 937

EAST LANSING (U)—Traffic accidents have killed 937 persons in Michigan so far this year, provisional figures compiled by state police showed today. The toll at this date last year was 825.

For Industry Drive Tops \$108,600

Pontiac's Greater Industrial Development Corp. gathered added momentum with 23 more individuals or firms pledging support. This is in addition to the 99 firms or individuals reported previously.

Returns as of this morning total \$108,600, up more than \$7,000 since yesterday, according to the Chamber of Commerce.

The development corporation has options on land for an industrial park; to draw more companies and jobs to the city.

Oakland County Congressman William S. Broomfield wired congratulations today on the successful drive.

"Pontiac is to be congratulated on this energetic, imaginative approach. I am sure that this program will provide new jobs and new opportunities for Pontiac."

"Max Adams, The Chamber of Commerce and The Pontiac Press have done an excellent job in pointing out the need for this program," he concluded.

Free Parking Ends in City

City officials again warned downtown shoppers today that there is no more free parking on municipal off-street parking lots.

The meters began operating again this morning and cars parked by expired meters will be ticketed by police.

An agreement between the city and Downtown Pontiac Business Association, which provided free parking on metered lots for six months, expired today.

CITED FOR RESCUE — Oakland County Sheriff Frank Irons (right) yesterday presented his department's first certificates of merit to two men who aided in the rescue of six persons whose boat sank June 16 in Clark Lake. The award recipients are Jack Houser (left) of 6127 Borowy, Commerce Township, and Roger Bryant of 4188 Borowy, William McKee of Northville, who also assisted in the rescue, will receive a similar certificate.

JFK to Renew Support Plea

WASHINGTON (UPI) — President Kennedy is expected to emphasize anew today his hope for overwhelming congressional and public support of the nuclear test ban to be signed in Moscow next week.

The President scheduled a

news conference for 3 p.m. (Pontiac time), which would serve as a forum for his new appeal. The conference was being televised and broadcast live to the nation.

Kennedy was believed ready to give some indication of U.S. reaction to the attitude of French President Charles de Gaulle, who has declined to sign the pact and plans to continue his test program.

It was considered unlikely, however, that the President would clarify in any great detail the question of whether the United States was prepared to assist France with information and weapons if the French keep their experiments underground.

Undersecretary of State W. Averell Harriman said yesterday the President could be expected to give some observations on the French attitude toward nuclear testing. The President was understood to be wary of taking too definite a position pending further study.

Harriman pumped more steam into the administration drive for test ban approval by asserting that the United States would "lose our leadership of the world" if the Senate failed to ratify the ban on air, space and underwater tests.

He spoke at a National Press Club lunch not long after the White House announced that a 11-man delegation, including four Democratic and two Republican senators, would accompany Rusk to Moscow Friday.

Arms Confab Recedes

GENEVA (U) — The 17-nation disarmament conference went into an 11-day recess today to make way for the signing of the American-British-Soviet nuclear test ban treaty in Moscow next week.

New Quakes Hit Devastated City

SKOPJE, Yugoslavia (UPI) — Three new earthquakes struck devastated Skopje today, sending its battered residents fleeing into the street in panic once again but causing no further damage or injuries.

However, Yugoslav Rescue Center officials who announced no new casualties said they would speed up the evacuation of the city, wrecked by a catastrophic earthquake last Friday.

They said there have been about 200 tremors since Friday, but that most of them have been minor.

Officials also said workers dug out the bodies of three more victims last night, raising to 857 the total number of dead recovered.

LAWRENCE E. MILLER

Officer Gets State Award for Service

Trooper Lawrence E. Miller of the Pontiac post has been named Michigan State Police "Trooper of the Year" for 1962.

Miller, 29, was named yesterday by a four-man jury committee in East Lansing because of the diversified nature of his public service activities.

These included first aid classes for school bus drivers in Oakland County, many instructional appearances on rescue breathing and traffic safety matters and work with juvenile groups.

Last year, Miller trained over 150,000 persons in mouth-to-mouth resuscitation and taught traffic safety to 73 elementary schools in the Pontiac area.

Stationed at the Pontiac post since June 1966, Miller is married and lives with his family at 4915 Walnut Lake, West Bloomfield Township.

In February, Miller was recognized for his service to the community by the Pontiac Area Junior Chamber of Commerce, who named him the Pontiac area's outstanding young man of the year.

The Trooper of the Year award carries with it a \$500 donation which can be used by Miller in three ways: furthering education, donations to charitable causes or worthy projects or for the welfare of department workers.

Two Competitors Agree on Qualifications

County Needs Super Salesman to Lure New Industry

Wanted — a super salesman of high integrity, having sound judgment, an ability to write well and possibly an engineering background.

A man of these qualifications should be found to promote new industrial development in Oakland County, according to two competing power salesmen who should know.

They are Horace L. Brewer, director of area development for

Consumers Power Co., and Robert S. Howard, industrial development engineer for Detroit Edison Co.

Their advice was sought by

AREA NEWS

the county's newly operative Economic Development Committee.

"Furthermore, the county

should be prepared to pay such an individual \$12,000 a year," said Brewer.

The committee, an offshoot of the County Planning Commission, is asking the county to hire a director of an economic development program, yet to be developed.

The announced goal of both the program and its director would be to sell Oakland County as the

best location for new and expanding businesses and industries.

Both Brewer and Howard are familiar with such a goal, only for different reasons.

They compete in vying to steer new industries into their own areas where their respective firms have the franchise to provide gas and electrical power.

The prize in each instance is another large customer for either Consumers Power Co. or Detroit Edison.

NATURE OF JOB

They agreed that if the county is going to enter this promotional field in the general interest of the over-all community, then a super salesman is needed because of the very nature of the job.

They described the field of luring industries as highly competitive among communities even as it is between their respective companies.

They further noted that several counties already have the jump on Oakland County in this respect.

Not only counties, but states, cities and smaller communities are actively engaged in this competition today, Brewer pointed out.

He estimated there are 35 communities in Oakland County alone competing for new industries.

In trying to coordinate these efforts for the general good of the whole county, the director of a county program would have to protect the interests of each community so long as it still has a chance of landing the company.

"In the event it is lost to the first bidder, the director should be well enough informed to be able to immediately offer other, more particularly suited locations in the county for consideration.

"This means all of the communities will have to be sure they can trust the director.

"They must understand that, if they can't win, it is better to shift the land elsewhere in the county rather than lose the benefits altogether.

"The director should be able to write well enough at least his first contact with a prospect will often be by letter, possibly followed by county brochures he has helped prepare.

"He should also be able to

grasp readily what an individual business or industry will require in any new location. In this respect, an engineering background can be most helpful," said Howard.

The planners agreed that a research center would provide a brain-power pool on which area industry could draw.

They noted that many new industries have a tendency to locate around such a center where spirit of public cooperation research people are available to them on a consulting basis.

"A county economic director also would have to work up a

re-ate around such a center where spirit of public cooperation research people are available to them on a consulting basis.

YOUNG COOK — Naomi Jean Reed, 14, prepares salads with her mother, Mrs. William L. Reed, in the kitchen of their home at 6290 White Lake, White Lake Township. The vic-

tim of a brutal beating in March, Naomi will return to the hospital Aug. 12 to undergo extensive facial surgery.

Teen-Ager Will Get Surgery to Remove Scars of Beating

By JIM LONG

WHITE LAKE TOWNSHIP — A teen-age girl will enter Pontiac General Hospital soon to undergo operations to erase the physical scars of a nightmare four months ago.

Indelible, however, are the emotional scars suffered by Naomi Jean Reed the evening of March 26 when she was critically beaten and her brother Leonard, 16, killed by a long-time friend, Carl Case.

The attack occurred a quarter-mile away from the Reed home at 6290 White Lake.

How long 14-year-old Naomi will remain in the hospital after she is admitted Aug. 12 is uncertain.

PLASTIC SURGERY

Plastic surgery is required for her forehead and the left side of her face, hit a number of times by a tire iron. A small metal plate will replace shattered bone near the left temple.

It will be necessary to reconstruct a bridge for her smashed nose. Roots of teeth knocked out in the attack will have to be removed so that, eventually, she can be fitted with a plate.

No amount of medical knowledge will restore vision to her left eye.

"We have had an offer of a

cornea transplant but doctors tell us that the eye is too badly damaged to do any good," said Naomi's mother, Mrs. William L. Reed.

For a while it was believed that Naomi might lose the sight of her right eye, "but it is getting stronger," said Mrs. Reed. "She may not even have to wear glasses."

And how is Naomi taking the prospect of another stay in the hospital?

LOOKING FORWARD

"Actually, Jean (the name she's called by her parents) is looking forward to it," Mrs. Reed said. "She wants to get it over. The sooner the better, so she can get back to school."

When Naomi does return to classes at Holly Senior High School, she will be in the ninth grade.

Since being discharged from the hospital April 13, the day before Easter, Naomi has adjusted remarkably well, even resuming her activities in the White Lake 4-H Club.

During the Oakland County Fair, which begins Tuesday, Naomi will enter the cooking competition.

It was while returning home from a friend's, where she was working on a 4-H sewing project, that she and her brother were attacked on a country road by Case.

Until the day before she was released from the hospital she was listed in critical condition.

SHE LOOKED WORSE

Police who saw the brother and sister after the beating said it appeared that Naomi was in the worse condition of the two. Leonard died at 1:12 a.m., nearly four hours after the assault.

Their assailant is now serving a life sentence in Jackson Prison. He has never explained the reason for the attack.

As with most young ladies, appearance is important to Naomi. Her biggest regret about returning to the hospital is the fact that it will be necessary to cut off her hair to operate.

A wig, given to Naomi by a Holly beautician when she first returned home from the hospital, will hide her shaven skull until her hair grows back.

"The thoughtfulness of friends and strangers alike, both in moral support and contributions, has been appreci-

ed during Naomi's recovery," said Mrs. Reed.

"Especially all the prayers that were said."

To date, it has not been necessary to make a withdrawal from the Naomi-Jean Medical Fund, set up in early May by White Lake Township officials. Hospital insurance has covered \$1,900 in medical expenses so far.

Canister and mail contributions to the fund have reached nearly \$1,900, and officials say that about \$400 more is expected from canisters not yet returned.

Ground Breaking Sunday for Church Chapel in Avon

AVON TOWNSHIP — Climaxing a five-year building drive, ground will be broken for the new chapel of University Presbyterian Church following Sunday's 10 a.m. service.

To be modified contemporary in design, the chapel, already under construction, will be a one-story brick building, with the added feature of a brick interior.

It is being built on Adams, just south of Crooks, on Lawndridge Estates which the church purchased from the Charles Burgess family 5½ years ago.

The congregation has been

meeting in Lawndridge Hall since February, 1958. In fall of that year the church was organized, and the building campaign launched.

INTEGRAL PART

Lawndridge Hall will continue to be an integral part of the entire church complex.

Architects Linn Smith Associates, Birmingham, have designed the chapel as a church in the round.

Extending into the middle of the sanctuary, the chancel will be centered around a communion table. Directly overhead a Celtic cross will be suspended from the highest point in the roof.

The chapel will cost about \$126,000 including furnishings and fees. Builder is Sand Construction Co., Oak Park.

Mr. Alfred G. Wilson and Rev. Robert F. Hermanson, minister of the church, will participate in the ground breaking ceremonies along with Wendell Mason, the church's clerk of session, who will preside.

Mrs. Wilson is donating an organ to the chapel in memory of her late husband. They formerly owned the property which later became Lawndridge Estates.

The congregation is hoping the chapel will be ready for the first service Christmas Sunday. Herbert Stutenberg is chairman of the building committee.

Rev. Hermanson said early construction of the church was made possible through the aid of Pontiac's First Presbyterian Church, which contributed approximately \$10,000 toward the project.

Pick Manager of Detroit DSR

DETROIT (UPI) — Mayor Jerome P. Cavanagh revealed yesterday his choice as the new general manager of the Department of Street Railways is Lucas S. Miel, 55, a semiretired businessman with no transportation experience.

Miel will succeed James E. Boslick, who retired in May, to \$24,500-a-year post.

Cavanagh was to make his recommendation to the DSR Commission today.

Until July 1, Miel was president and general manager of the Commercial Steel Heat Treating Corp., Detroit.

Yesterday, the DSR Commission appointed Manuel Zechman, 53, a Detroit attorney, to succeed Leo J. Sullivan to the \$17,544-a-year job as DSR general counsel. Sullivan had been acting general manager until his death May 23.

TO NAVY — Glenn R. Underwood, who was graduated from Western Michigan University Friday, now plans to enter Navy Officer Candidate School. He is the son of Mr. and Mrs. Glenn Underwood, 5880 Hillsboro, Davisburg, Industrial supervision was his major at WMU.

Dummy Aids Police With Patrol Duties

BOISE, Idaho (AP)—Sgt. Dean Bennett of the state police is doing double duty as a law-enforcement officer these days. Not only does he patrol himself, but his likeness sits by the side of the road in a simulated police car set up on highway 30.

Trooper Bennett was the model for the officer in the mockup, which is the exact size of a state police car. The idea of the "silent patrol," according to State Police Supt. Col. A. E. Perkins, is to shock the unwary-driver to alertness as he drives by it.

The realistic patrol car was designed, executed and donated to the state by an advertising sign company.

N.Y. Police Curb Painter

NEW YORK (AP)—Thomas De Grezia drives around New York with a bucket of red paint. He paints curbs 15 feet on each side of fire hydrants so motorists

can judge the minimum distance. It's helped everybody but De Grezia. He's received two tickets for parking too close to hydrants while painting the curbs. De Grezia's employer, who has a city contract to paint the curbs, said Wednesday the company would pay the tickets.

An average steam locomotive has about one mile of boiler tubing.

Show Bus Carries Welding Exhibition

CHICAGO (UPI)—A big yellow bus rolling from town to town throughout the United States collects no fares and carries no passengers.

It's a "welding road show." The 30-foot vehicle is crammed with

equipment for demonstrating a variety of Chemtron Corp.'s NCG gas-shielded arc welding processes and related equipment to welders, educators and others in the industry.

The large amount of power required by the welding units is supplied by a generator carried aboard and a striped awning can be unfurled from the side of the bus to cover an outside demonstration area.

Students Turn Prison Profs

COATESVILLE, Pa. (AP)—All Bujlock, Fred Herrick and Bob Bendlowicz are students at West Chester State college, but twice each week they become teachers in a unique school for prisoners.

at Chester County Farms Prison was started in 1961, more than 100 men have taken advantage of the opportunity to learn. The three college juniors are the second set of students from the state school to serve as volunteer instructors.

St. Joseph, Mo., was the starting point for the famous Pony Express which ran between St. Joseph and Sacramento, Calif., since the educational program beginning in 1860.

American Hemlines Perplex Indian Cleric

Well Here's something that calls for more than passing glance.

The Rev. N. J. EZZERIE, here from India on a visit and puzzled by one aspect of American life, makes this eye-opening observation:

"With so much wealth in your country, with so much money to buy beautiful cloth, I'm surprised American girls and women wear their skirts so short."

We're afraid that the good cleric in his preoccupation with the spiritual values of life has lost sight of some of the more material things—more's the pity.

He should know that there is no known connection between plenitude of skirt material and certitude that it will be used proportionately.

The rise and fall of the length of milady's skirts are beyond the ken of man—as inexorable as that of the tides.

But something seems to tell us that before the end of his tour, the puzzlement and surprise of our visitor will have gone the way of all flesh, and he will be viewing America's hemlines with as much interest as his skylines.

Public Often Ignores Crime Rate Reports

We have become nearly as hardened to periodic reports of accelerating rate of crime increase as are the miscreants on whom the disquieting statistics are based.

But a mild surprise—albeit a welcome one—is occasioned by an FBI report that murders in 1962 showed a 2 per cent decline in number from the previous year. And the Nation's police cleared up 93 per cent of those.

Unhappily, however, that does not indicate a 93 per cent rate of conviction. Of those cases disposed of by the courts last year, about half resulted in dismissal, acquittal or reduction of the charge.

The FBI analysis gives no consideration to the oft-heard complaint that the courts, through action of either bench or jury, are prone to softness toward the perpetrators of crime.

As a matter of fact, intelligent studies of court performance are sadly lacking. Judge and jury act from a wide variety of motives, only one of which may be an inclination to "take it easy" on the defendant.

So it is not a simple matter of the police doing a great job in some fields and the courts not keeping pace.

The figures also refute belief in some quarters that the courts are agencies of stern retribution—eager to speed defendants toward death or life imprisonment.

Obviously, much technical murder and mayhem is never penalized at all.

Automation Providing 'Shipshape' Voyages

Automation, which turns up in the most unexpected places, has gone to sea.

To a landlubber, it would seem that ships in their silent and majestic plying of ocean lanes would offer little fodder to the man-eating technology.

But reports indicate that in the years ahead there will be far fewer men going down to the sea in ships.

A Japanese shipbuilder has launched a 29,000-ton ocean tanker, the sixth in a series of increasingly automated vessels.

The crew of this one numbers 31,

or half the normal complement for a ship of comparable size.

With the bridge of the revolutionary craft its nerve center, an officer sitting at a desk can control the helm and watch engine operations by means of mechanical indicators.

A closed-circuit television screen in front of him shows the bow and stern during docking or departure, the maneuvering controlled by data-recording technique.

The half dozen "dream boats" are the result of several years' joint research by Japanese shipbuilders and a government committee "for test designing of highly economical ships."

Long known as a race of imitators, the Nipponese, in this enterprise, have reversed their role to one of innovators. The results will be watched with more than casual interest in marine circles.

Southern Solons Jab at Rights Bill

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON—Southern politicians have attacked President Kennedy's civil rights bill, now in Congress, from seven main directions.

But Mississippians particularly have personally attacked the President and his brother, Atty. Gen. Robert F. Kennedy.

Although the announced purpose of the bill is to guarantee Negroes equal treatment, the Southerners, all Democrats, have spent little time on Negroes' rights.

Here are the seven directions they've taken so far in statements at congressional committee hearings:

The Kennedys are trying to grab more power and have encouraged the "N-bro" activities, and the bill is unconstitutional, is a shortcut to tyranny, is an invitation to violence, and would deprive all Americans of personal and property rights.

The most controversial part of the bill—the one which has brought the most strenuous Southern objections—involves public accommodations.

It would ban discrimination against Negroes in business places catering to the public, such as stores, restaurants, motels.

PERSONAL ATTACKS

The personal attacks on the President and his brother came from three Mississippians—Gov. Ross Barnett, Atty. Gen. John F. Stennis, and Sen. John F. Stennis—and from Alabama's Gov. George C. Wallace.

Barnett accused the President of "sowing seeds of hate and violence," said his brother is personally responsible for "putting mobs in the street," and blamed both Kennedys for encouraging demonstrations, sit-ins, and local law violations.

Patterson said Robert Kennedy has "demonstrated his immaturity, irresponsibility, and fiendish delight" in wielding power and that the two Kennedys are "far more responsible for racial violence than the 'ruthless leaders who are promoting racial unrest.'"

Stennis called the civil rights bill a "colossal grab for power by the attorney general."

Wallace accused the President of bringing the nation "to the brink of civil war" by what he termed an attempt to appease the leaders of the Negro civil rights demonstrations.

South Carolina Gov. Donald Russell denounced the bill as "coercive legislation" which will "breed resistance and perhaps violence."

Louisiana Rep. Joe D. Waggoner Jr. said the President has issued an "open invitation to mass violence" by warning that if Congress fails to enact his bill Negroes will seek a "remedy" in the streets.

RED INFLUENCE?

Wallace, South Carolina Sen. Strom Thurmond and Arkansas Atty. Gen. Bruce Bennett thought they saw Communist influence behind Negro demands for equal rights.

None proved anything of the kind. Sens. Sam J. Ervin Jr. of North Carolina and James O. Eastland of Mississippi, members of the Senate Judiciary Committee, hit the bill from another direction.

David Lawrence Says:

Pact Signing Benefits E. Reich

WASHINGTON—Sooner or later, the trickery in the treaty banning certain nuclear tests was bound to emerge, but it was hardly expected to become evident so quickly.

For the stratagem by which the United States and the other Western powers are to be involved into a recog-

LAWRENCE nition of the puppet government of the East Germany has just been revealed.

Walter Ulbricht, head of the East German Communist regime, announces that East Germany will sign the treaty after it has been formally signed by the United States, Great Britain and the Soviet Union.

It advertises dramatically to the world the acceptance of East Germany as a partner in international agreements with the West. Sen. Everett M. Dirksen, Republican leader in the Senate, anticipated this very step when on Tuesday of this week he issued a statement which said:

"Any nation can become a party to the treaty automatically simply by notifying the United States, the United Kingdom and the Soviet Union that it accedes to or has ratified the treaty."

"Since the Soviet Union in 1949 imposed on East Germany its puppet government known as the 'German Democratic Republic,' the United States and the United Kingdom have refused, despite repeated Soviet urging, to acknowledge East Germany as a state because its boundary claims violate the Potsdam agreement."

"Under the treaty draft for a partial test ban, East Germany, by the simple and, at present, meaningless act of depositing with the United States and the United Kingdom instruments of accession to the treaty would compel them under Section 5 to notify all other signatories that this 'state,' which neither the United States nor the United Kingdom recognizes as a 'state,' had become a party to the treaty."

There would be no recourse under the treaty's language.

CUBA, TOO

Communist-Cuba, by complying with procedures under article III, could, of course, qualify automatically as a party to the treaty.

The treaty would prohibit Cuba from nuclear testing underwater, in the atmosphere and in outer space, but would permit—with the United States a party to the permission—underground testing in the caves of Cuba.

The United States, which only nine months ago was on the brink of war because of the presence of Soviet nuclear warheads in Cuba, would now find itself in the role of a partner extending sanction by treaty to the underground development of nuclear warheads by Cuba.

Did the Soviets put over a fast one on the Western envoys who negotiated the treaty banning certain nuclear tests? Was Premier Khrushchev mostly interested in getting a signature

quickly to a treaty whose provisions might be meaningless in themselves but which enabled him to attain a position of parity in the diplomatic world, not only for the Communist-bloc countries in Eastern Europe but for East Germany itself?

It now becomes apparent what the tactics of the Soviets really were. It is inexplicable why the Western representatives were so ready to accept as signatories all countries irrespective of whether they had any real relationship to nuclear testing.

Bob Considine Says:

Most Exciting Travel Joy Was Aboard Sidewheeler

HONOLULU—This was the day for exciting travel in the life of the Considines of Swampoodle, Washington, D.C. This was the day of the St. Aloysius Parish picnic to Marshall Hall, Md.

The method of conveyance was a sidewheeler named the Charles McAllister, long since consigned to a museum or the deep, one must assume.

Looking back from the view CONSIDINE point of a subsequent lifetime of footage living, this annual excursion down the muddy Potomac and the delights that awaited, about 15-miles from home, still stands out as the most exciting travel experience of my life.

A feverish period of saving nickels preceded each annual expedition to the far-off amusement park named for John Marshall.

The younger members of the family would add to their meager treasure by going through the old neighborhood around the railroad terminal collecting outdated newspapers, bottles, rags and scraps of metal to sell for a few pennies to the junk man on Northeast H Street.

Every "ride" at Marshall Hall, including the terrifying roller coaster, cost a nickel.

On the great day, my mother would see that we were "dressed." That meant mainly white, braced with starch.

The picnic basket was filled with great gobs: fried chicken wrapped in oiled paper, hard-boiled eggs, whole tomatoes, potato salad, potato chips, pickles and the like.

We'd squeeze a dozen lemons, sugar the juice, and later cut it with "pump" water at the picnic grounds of the amusement park.

The street car ride to 7th Street wharf where lay the queen of the Potomac was, in itself, more exciting in retrospect than today's limousine ride to Idlewild to catch a jet for Moscow or Makapuu Point.

But the ultimate in sensation, comparable perhaps to the emotion of an astronaut on lift-off, was when a shudder swept through the Charles McAllister and the pride of the Potomac began her twin-waked voyage.

We made the excitement last

through the day. And then the joy of getting back to the Charles McAllister for the long voyage home. The horn of the great ship would sob alarmingly now and then, warning one and all that he would be left to the terrors of a blacked-out amusement park if he missed the boat.

Once aboard, our Mother used to cover us with newspapers, fending off certain undefined dangers she assured us were lurking in the night air.

In Washington:

GOP May Have Dark Horse Race

By PETER EDSON
WASHINGTON (NEA)—A year before the Republican National Convention nominates its 1964 presidential candidate in San Francisco, the job seems up for grabs.

Sixteen possibilities are already being mentioned. More may be expected. The fact that so many nominees are being put in the running indicates nobody has the nomination sewed up.

The current theory of some observers that New York Gov. Nelson Rockefeller and Arizona Sen. Barry Goldwater have knocked each other out on the civil rights and far right issues is probably premature. There is still plenty of steam behind both drives, though neither man has formally announced.

The factor which brings out all the other presidential possibilities seems to be a fear that Rockefeller and Goldwater will have about equal die-hard strength at San Francisco, with neither being able to get a majority for the nomination.

Since both Rockefeller and Goldwater have their enemies as well as their friends, the hunt is on for a compromise candidate nobody is mad at and who would satisfy a majority in the badly split GOP.

This is what brings out the favorite son suggestions. They would control state delegations for the opening battle to establish bargaining positions. There are eight so far.

In preferred positions are Gov. George Romney of Michigan, who is not far behind the two leaders, and Gov. William W. Scrantom of

Voice of the People:

'Boats on County Lakes as Hazardous as Autos'

I believe that our county water patrol should try to make our boating enthusiasts realize that boats on the water present the same hazard that automobiles do on streets. There must be a sense of responsibility instilled in the operator, so that he will respect both the high powered vehicle which he is operating and also his neighbor, who prefers the 12 or 14 foot rowboat.

I tremble to think what will happen some night, if we permit these power boats to run around the lakes, towing skiers and without lights.

'Company's Claims Misrepresentations'

Thoresen, Inc. claimed a device it calls "Pix-Fix" gave "movie-clear television pictures in four minutes." Now it has agreed to cease and desist from misrepresentation in its advertising. The company agreed to discontinuance of the misrepresentations.

It advertised that its device checked all signals and was the result of a famous electronic engineer's discovery, that 100,000 people were using it and that "movie-clear pictures" would result. All of these claims are misrepresentations.

The Almanac

By United Press International
Today is Thursday, Aug. 1, the 213th day of 1963 with 152 to follow.

The moon is approaching full phase.

The morning stars are Jupiter and Saturn.

The evening stars are Mars and Saturn.

Those born today include American author Herman Melville, in 1819.

On this day in history:

In 1790, the first U.S. census was taken. [The population was 3,929,214.]

The most intriguing dark horse who has just come out of the shadows is Dr. Milton S. Eisenhower, however, Ike's brother, who is now president of Johns Hopkins University. All Republicans agree that the Eisenhower name is still magic with voters.

Dr. Eisenhower recently took over chairmanship of a Critical Issues Council for the Republican Citizens Committee. This is the group organized at the Eisenhower farm a year ago to muster support from independent and Democratic voters.

The Citizens Committee has insisted all along that it is not an imitator of the Democratic Advisory Committee which operated under the late National Committee Chairman Paul Butler during the Eisenhower administration. But many responsible Republican leaders now admit that the policy papers prepared by DAC are responsible for John F. Kennedy being in the White House today.

If Dr. Milton Eisenhower could perform a similar miracle for the Republicans within the next year, it is conceded he might be the dark horse of destiny they are looking for.

Council Session to Eye Airport

Waterford Group Also
to View Government

Functions of township government and the Pontiac Municipal Airport will be discussion topics at next Tuesday's 8 p.m. meeting of the Greater Waterford Community Council.

All meetings of the council are held at Pierce Junior High School and are open to the public.

Robert Richmond, recently appointed assistant to the township supervisor, will discuss the township budget, taxes and the airport.

Police Chief Millard Pender will explain the operation of his department and Fire Chief Lewis Goff will speak on the fire department function.

A progress report on the township's water and sewer programs will be presented by Melvin Straiter of Johnson and Anderson, Inc., the township's consulting engineers.

The council, which opposes expansion of the airport to support jet aircraft, presently is forming an airport study committee to further investigate probable effects of expansion on the community.

Norway Woman First Gal to Fly Over North Pole

BODØ, Norway (AP). — A blonde Norwegian housewife today became the first woman to complete a flight over the North Pole from Alaska to Norway in a single-engine plane.

Ingrid Pedersen, 30, landed her Cessna at this north Norwegian city, completing a flight from Fairbanks, Alaska, with a short stop at Nord, Greenland.

The flight was a busman's holiday for her husband, Einar, chief navigator of the Scandinavian Airlines system. He navigated the plane across the ice cap around the pole—as he has done more than 150 times with airliners.

He also made a great number of photographs of the ice from the height at which the couple flew.

The couple landed 49 hours and 46 minutes after taking off from Fairbanks. A large crowd was at the airport in the light summer night.

Freeman Visits Polish Farms; Grain Plea Made?

WARSAW, Poland (AP). — U.S. Secretary of Agriculture Orville L. Freeman visited Polish farms today after reportedly hearing a plea from Communist leaders for grain to feed this drought-stricken nation.

Freeman was to inspect private and state farms and one of Poland's 20,000 "farmers' circles."

Poland's predominantly private farmers are asked to join the circles to cooperate in the use of tools and fertilizer.

Freeman was received yesterday by Foreign Minister Adam Rapacki and two members of the politbureau, Vice President Edward Ochab and Planning Commission Chief Stefan Jedrychowski.

The talks reportedly covered shipments of U.S. surplus grain to Poland and U.S.-Polish trade.

Committee Okays Rules Providing Inflation Hedge

WASHINGTON (UPI) — Congressional tax writers have unanimously approved legislation designed to make home ownership one of the best hedges that an American can take against inflation.

NOTICE OF INTENTION TO CONSTRUCT CURB, GUTTER, GRADE AND GRAVEL
You are hereby notified that at a regular meeting of the Commission of the City of Pontiac, Michigan held July 30, 1963, at 9 o'clock a.m., it was decided to be the intention of the City Commission to construct curb, gutter, grade and gravel related work on Tullalasse Avenue from Barabara Avenue to Independence Avenue at an estimated cost of \$3,027.81, and that the plan, profile and estimate of said improvement is on file for public inspection.

It is further intended to construct said improvement in accordance with the plan, profile and estimate, and that the cost thereof shall be defrayed by special assessment according to frontage, and that all of the lots and parcels of land fronting upon either side of Barabara Avenue from Barabara Avenue to Independence Avenue shall constitute the special assessment district to defray \$2,182.70 of the estimated cost and expenses thereof and that \$1,845.11 of the estimated cost and expenses thereof shall be paid from the Capital Improvement Fund and that \$155.00 of the estimated cost for sewer stubs shall be defrayed by special assessment against Lots 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, E. ALWES SR.
CLERK

FINE IS "PAID" — Louisville, Ky., Police Court clerk Harold Alwes holds a Japanese 500-yen bill sent to the court to pay for a parking meter violation. The yen, worth \$1.35, arrived in an envelope postmarked from the

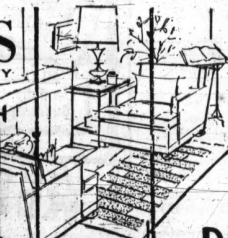

Army and Air Force postal service along with a duplicate of the parking ticket. The defendant, actually owed \$5 but the city is going to settle for \$1.35 "because a yen is better than nothing."

Premier Announces Swedish Spy Quiz

STOCKHOLM, Sweden (U)—Facing mounting criticism, Premier Tage Erlander told the nation last night an exhaustive probe would be launched into the government's alleged delay in arresting Air Force Col. Stig Wennerstrom as a Soviet spy. Erlander said the "extent of Wennerstrom's criminal activity" was learned only after he confessed that he had spied for the Soviet Union for 15 years. A special government investigation commission has disclosed

Iowa Convict Remains on Top of Water Tower

FORT MADISON, Iowa (UPI)—Convict William T. Bradley remained atop the 125-foot water tower at the Iowa State Penitentiary today for the fifth consecutive day. Bradley, 46, apparently was protesting his 25-year sentence for assault and being an habitual criminal.

New U.S. Bomber Faster Than Sound

EDWARDS AIR FORCE BASE, Calif. (AP)—A new fighter-bomber, with speed listed at about 1,000 miles an hour, has been tested at this desert test center. Northrop Corp. said its F5A designed to carry guns, bombs, missiles and napalm, is the only faster-than-sound U. S. aircraft capable of landing on sod fields close to combat areas.

Some of the planes are destined for use in military assistance program countries.

Set Military Honors for Deceased General

SANTA FE, N.M. (AP)—Major Gen. Patrick Jay Hurley will be buried Friday with military honors after services in St. Francis Cathedral.

The 89-year-old soldier diplomat died in his sleep Tuesday night at his home.

Pair Killed in Car Crash

DEARBORN (U)—Elmer D. Upton, 45, of Garden City, and Mrs. Caroline Kukurka, 41, of Dearborn Heights, were killed yesterday in a two-car head-on crash on Hines Drive, just north of Dearborn Heights.

Junior Editors Quiz on PARACHUTES

QUESTION: How can a parachute prevent a person from falling too fast?

ANSWER: The principle of the parachute has been known for a long time; Leonardo da Vinci drew a sketch of a man using one in 1495. But it was a long time before people got up enough nerve to try them, for the first successful jump using a parachute was not made until 1783.

When a man jumps from a plane, the force of gravity starts to pull him down, and he begins to move so fast that he would almost certainly be killed if he hit the ground. But if he has a parachute strapped to his back and pulls the ring attached to the "rip-cord," the rolled up parachute will pop out and begin to open.

Then, as in the big picture, he will drift slowly down and can land on the ground without injury. What has happened is that the very large, wide surface of the open parachute has offered resistance to the air.

This resistance is not enough to prevent the airman from moving down, but it slows his fall just enough so he can land safely.

FOR YOU TO DO: You can see these principles, gravity and the resistance of the air, really at work if you make a parachute of your own as shown. If you haven't a silk handkerchief, a handkerchief-sized square of some other very light material will do.

After making it, roll it up carefully and wrap the threads neatly around it. Then toss it as high as you can into the air. The wind will carry it a good long way when opened.

"An Equal Opportunity Employer"

Vatican Weekly Says K's Stand Aids Red Cause

VATICAN CITY (AP)—The Vatican weekly magazine L'Osservatore Della Domenica said Wednesday Premier Khrushchev regards peaceful coexistence as a quick and easy way to assure ultimate victory of the Communist cause.

Columnist Federico Alessandrini, commenting on the Moscow nuclear test ban treaty in an editorial, wrote:

"It is evident that there has been a change on the part of the Moscow government. Must we assume, then, that communism also has changed?"

"We must not forget that, for Khrushchev and the present leaders of the Soviet Communist party and of all other parties, coexistence is at the present time the easiest and quickest way for ultimate victory of the (Communist) cause."

As Senate Considers Signing

Ike Is Noncommittal on N-Ban Pact

By JACK BELL
Associated Press Political Writer
WASHINGTON — Former President Dwight D. Eisenhower has flipped on a caution light for Republicans maneuvering gingerly into position for Senate consideration of the limited nuclear test ban treaty.

Eisenhower's statement in New York Wednesday that the agreement between the United States, the Soviet Union and Britain to halt all but underground tests has "some advantages and some disadvantages" just about sums up the majority opinion among Senate Republicans.

So, too, did his refusal to take a stand on the pact until military men and scientists have testified fully about all aspects of it.

In language similar to the call by Senate Republican Leader Everett M. Dirksen of Illinois for a "minute examination" of the treaty's implications, Eisenhower added:

"We must listen very closely." Eisenhower's noncommittal position obviously was disappointing to President Kennedy and

in withholding commitments from the treaty.

Dirksen thanked Mansfield for "generous statements." He added that he would "lean over backward" not to injure the President on a foreign policy matter. But it stuck in many Republican minds that if the Senate ratifies the treaty, Kennedy would be the political beneficiary in

next year's campaign of any easing of world tensions that might accompany the action.

WANT FULL STORY

Partly because of this and partly because they want to satisfy as well as they can constituents who are suspicious of possible Soviet trickery, Republicans generally want to get a full accounting of the views of the military men and

those of Kennedy's diplomatic representatives.

If in the end they come to the conclusion that Aiken already has reached—that the advantages outweigh the disadvantages—the treaty probably would be assured of approval by a margin much larger than the required two-thirds of those voting.

Undersecretary of State W. Averell Harriman, who headed the scientists to weigh along with American team at the treaty ne-

gotiations, said Wednesday of the pact: "There's no secret agreement in this thing, no gimmick in it, no secret understanding." He said the people of the world want to see an end to radioactive pollution of the atmosphere from above-ground nuclear testing.

The Federation of American Scientists, meanwhile, entered a plug for Senate ratification, calling the agreement a first step toward control of the arms race.

Reds Discover Escape Tunnel

BERLIN (UPI) — Communist police today discovered a 50-yard-long tunnel under the Berlin Wall and blocked the escape plot of "a large group" of refugees. The communists detected the tunnel before it was completed and apparently none of the refugees who planned to use it was arrested.

Eastern police discovered the tunnel at a point 30 yards behind the wall on the border of the French sector.

Informed sources said the tunnel was unfinished and still had many more yards to go to its goal in an East Berlin cellar. It began under an unused brick newsstand 20 yards inside West Berlin.

The exact number of East Berliners who planned to use the tunnel when it broke through was unknown, but informed sources said it was "large," at least 12.

Eastern police began to search the border for a tunnel last night and stationed a border guard and a police dog at a street corner.

A working party of 12 policemen began to dig at the corner today and discovered the tunnel. Western police who observed the action did not see any arrests.

Zionist Unit Called Israel Fund Agent

WASHINGTON (UPI) — The Senate Foreign Relations Committee today made public testimony depicting the American Zionist Council (AZC) as a "conduit" through which funds supplied by a registered foreign agent have been distributed to organizations and individuals seeking to influence U.S. public opinion in favor of Israel.

The sworn testimony showed that the AZC received slightly more than \$5 million from the Jewish Agency for Israel during the eight years which ended Dec. 31, 1962.

Isadore Hamlin, executive director of the Jewish agency's "American section" office in New York, said his organization, which is registered with the Justice Department under the foreign agents' registration act, underwrote more than 80 per cent of the Zionist council's budget until January of this year.

The foreign relations group scheduled a public meeting today to follow up on the testimony, which was received at a private hearing on May 23. The senators are investigating lobbying activities by Americans in behalf of foreign governments.

The AZC, with headquarters in New York, is a top-level coordinating body in which nine major U.S. Zionist groups, including Hadassah and the Zionist Organization of America, are represented.

In the published testimony, Hamlin agreed with a statement by Committee Chairman J. William Fulbright, D-Ark., that the Zionist council was "merely acting as a conduit" for large sums of money supplied by the Jewish agency to help create a "favorable image" of Israel among molders of public opinion in the United States.

News Analysis

Democratic congressional leaders. They would have liked an endorsement which might nudge GOP senators along toward a favorable vote.

TWO AGREE

For a time it looked as though the President would have difficulty in getting GOP representation at the Moscow signing ceremonies. But he was able to persuade Sens. Leverett Saltonstall, R-Mass., and George D. Aiken, R-Vt., to join the delegation which leaves Friday.

Everybody concerned has said that partisanship ought to have no part in the Senate's debate on the treaty.

In the Senate Wednesday, Democratic Leader Mike Mansfield of Montana told his colleagues that Dirksen and Sen. Bourke B. Hick-enlooper, R-Iowa, chairman of the Senate Republican Policy Committee, were not being partisan

JFK Takes Resignation

of Aide to New Zealand
WASHINGTON (UPI) — President Kennedy has accepted the resignation of Anthony B. Akers as U.S. ambassador to New Zealand.

Press Secretary Pierre Salinger said yesterday that Akers, a former New York attorney, would be given another government assignment to be announced later.

Such as Writing to Congressman

By HAL BOYLE

NEW YORK (AP) — What you haven't done—tells what kind of person you are almost as clearly

as what you have done.
Write down a list of things you never did, or never tried to do, and it makes an oddly reverse biography of your life—revealing to yourself as well as to strangers.

Just to get the game started, here's a partial list of things not done by one man who, now past the half-century mark, never has—

Owned a square inch of soil.
Piloted an airplane.
Tipped a head waiter to get a table.

Bawled out the same boss twice.
Kept a songbird—or a parrot—in a cage.

Slept in a house in which George Washington had insomnia.
Used a vacuum cleaner.
Bought or carried a briefcase.
Borrowed money from a millionaire.

Seen a one-armed paperhanger with the hives.

Played any musical instrument except a pocket comb covered with a piece of tissue paper.
Watched an eclipse.

Spent a night in a haunted house.
Won a first prize in any kind of lottery.

Learned any new dance since the fox trot.
Hunted any animal larger than a rabbit.

Cashed a check at an out-of-town bank.
Stayed awake clear through a Wagnerian opera.
Spoken a foreign language.
Inhaled a cigarette.

Cooked any dish more complicated than bacon and scrambled eggs.
Learned how to tune a television set in—and wife out—at the same time.

Failed to give a quarter to a panhandler without feeling guilty.
Believed in any superstition except that knocking on wood helps bring good luck.

Written a letter to his congressman.
Shaken hands with a king or queen.

Had a manicure in a barber shop.
Met a payroll—or missed a paycheck.

Looked up the stars on a summer night without wondering where he'd come from—and where he'd go.

So what's on your list of things you undone that helped make you who and what you are?

New Postal Service Is Proven Speedy!!

A test of Pontiac's new Accelerated Business Collection and Delivery (ABCD) postal service proved that the fast mail-delivery system works.

The Press tested the four-hour delivery promises of the post office Tuesday with a special first class letter.

Addressed to Max Adams, manager of the Pontiac Area Chamber of Commerce, the letter was mailed at 10:46 a.m. in an ABCD, designated mailbox in front of the Huron Building.

The mailbox stands about 200 feet from the Chamber of Commerce offices in the Riker Building at Huron and Wayne.

The letter arrived at the chamber offices at 1:55 p.m.—more than an hour inside the four-hour time period.

The post office inaugurated its ABCD service in downtown Pontiac last week. Under the system, a letter mailed in designated mailboxes by 11 a.m. will be delivered by 3 p.m. the same day.

The service is in operation Monday through Friday. Twenty-eight collection points have been designated in the downtown area.

These Youngsters Are Learning Fundamentals Of Swimming From Waterford Township Recreation Department Instructors At Elizabeth Lake, One Of Five Lakes Used For The Summer Program

Waterford Rec Program Popular

Waterford Township's comprehensive summer recreation program has attracted more participation this season than ever before.

Most of the attendance increase has been recorded in the swimming program and day camp. Playground participation is about at last year's level.

Recreation department director Robert Lawyer attributes the climb from 782 swim pro-

gram participants last year, to 1,010 this season to both the warmer weather and the addition of a swimming pool facility.

"Besides the five lakes used last summer, we now also utilize the Alpine Motel swimming pool," Lawyer said.

Carolyn Klender directs the lake swim program with a staff of five assistants while Marcelene Dennis supervises sessions at the

pool, assisted by Marilyn Nichols. Registration in the day camp conducted at the Highland Recreation Area by Mrs. Warren Allen has reached 440 compared to 333 youngsters last summer.

Paul Atkins and his staff of nine playground directors and nine assistants conduct both indoor and outside activities at 13 elementary school sites.

The largest single phase of the summer recreation program, the playgrounds had a registration of 2,254 last year and are expected to record about the same total when the season ends Aug. 9.

Playground activities include such events as softball and track while the indoor activities include leathercraft, copper tooling, rice painting and plaque painting.

Participation dropped slightly in three activities.

Registration for softball fell

from 165 last year, to 160 this summer. Drops of 130 to 122 and 120 to 100 were recorded in bloop-erball and tennis, respectively. A midsummer highlight of the recreation program was the junior Olympic trials held earlier this month. Youngsters from all area playgrounds competed for

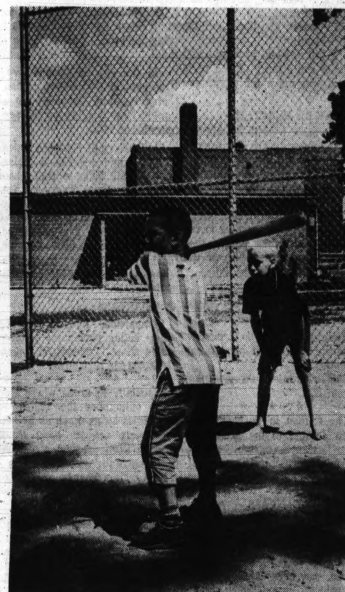

the right to represent the town-will end Aug. 9. Swimming at the ship in the finals last week in outdoor pool, however, will continue until Aug. 16 and the day Most of the summer activities camp will extend through Aug. 23.

WATCH THAT GRIP — Tennis instructor Sue Wisenbegg emphasizes the importance of the grip as he coaches Paul Atkins on the Waterford Township High School courts.

THEY ROUGH IT TOO — Not only day campers, but counselors and even the camp program director all rough it at the Highland Recreation Area. Counselor Mary Phyllis Grile, (left) is shown here pouring water for camp director Mrs. Warren Allen.

AIMING FOR FENCE—Paul Rummell, 9, digs in for a hefty cut at the ball during a game at the Waterford Center School playground. Craig Gibson, 10, is the catcher.

Her Husband Deserted Just Once Too Often

STANTON, England (UPI) — Josephine (Candy) Hollingsworth said today she reported her estranged husband Leslie as a 10-year deserter from the British army because it was "the only way" to save their marriage. "Like any man on the run he had itchy feet," she said. "He was restless. I was never sure where he was."

IT'S A COOL POOL — Instructor Marcelene Dennis (right) gives auto-diving pointers to Diane Cubalik at the Alpine Motel pool, where swimming instructions are offered for both Waterford and White Lake township youngsters. Looking on (from left) are Connie Bailey, lifeguard Marilyn Nichols and Robert Lawyer, director of the Waterford Township Recreation Department.

The Deepening Crisis

Political Leverage of Negro Increasing

(Editor's Note — In a potentially powerful weapon in his fight against segregation, the Negro is enthusiastically taking part today in a massive vote registration campaign. As the number grows, the political leverage of the Negro increases. Fourth in a specialized series of articles by The Associated Press on the racial crisis.)

By RHELAN MORIN
TUSKEGEE, Ala. (AP) — The Negro woman says she is 50 years old and wants to register to vote. She doesn't know the procedure, never having done it.

In the offices of the Tuskegee Civic Association, a Negro organization, they give her a sample copy of the Alabama registration form.

Slowly, studying it line by line, she fills in the form. A TCA official finds some minor errors but otherwise, he says, the papers are in order.

He tells her where, and on which days, she can file a real application.

If it is accepted, she will be a registered voter.

A reporter questions her. She says, simply:

"I just want to become a citizen of our country. Being registered will make me a full citizen."

SCENE RE-ENACTED

This scene — with its immense potentialities for the Negro movement — is being re-enacted in hundreds of cities in the South today. It is the result of the voter-registration drive.

Throughout the South, Negro organizations are working to register more of their people, thousands of men and women who never voted before.

As the number grows, the political leverage of the Negro increases.

Here, potentially, is a powerful weapon in his fight against segregation.

The drive moves through many channels.

The woman in Tuskegee may have decided to try to register after hearing a constantly-repeated radio appeal, attending a meeting, or simply receiving a handbill.

CONDUCT CANVASS

Elsewhere, Negro workers canvass a residential district on registration days, ringing doorbells.

If the housewife isn't registered, they urge her to go to the courthouse immediately. If she has no transportation, they provide it.

If she says she can't leave her children, they offer to baby-sit.

Or they station themselves in municipal buildings.

A Negro comes in for, say, a driver's license.

They ask whether he is registered. If not, they try to persuade him to do so, there and then.

Another device is the "voter clinic." This is a meeting in which Negro instructors show would-be applicants the technicalities of registering, how to correctly fill out the forms.

In Tuskegee alone, during the month of June, there were 19 such "clinics."

ALABAMA MULE

And there is the famous Alabama mule. He walks through the streets of Huntsville, carrying a sandwich billboard.

The sign reads, "I'm not registered because I'm a mule. What's your excuse?"

Speaking of the voter registration drives, Bishop George W. Barber of the African Methodist Episcopal Church said:

"The objectives of the campaign would be accomplished substantially by registering and voting every single, eligible voter within sight or hearing of our membership."

"Our goal is a minimum of two million new Negro voters, North and South."

The movement is steady and seems to be gaining momentum. What are the results?

Exact figures for the South as a whole are not complete. However, the Department of Justice and the Southern Regional Council's "voter education project" pinpoint the changes in some specific areas.

In Tennessee's Haywood and Fayette counties, a Justice Department official said, Negro registration has jumped from 190 to about 5,000 in five years.

Bullock County, Alabama, had four Negro voters on the rolls in 1961, he said. Now the figure is 1,341.

In the city of Montgomery, the rate of registration of Negroes used to be about 200 a year. Now it is about 200 per month, he said.

Statistics on 11 Southern states, compiled by the Southern Regional Council, indicate that about one-fourth of the Negroes of voting age are registered. The figures show a total of 5,045,000, of whom 1,344,000 are registered. Wiley Branton, an SRC executive, said the figures are incomplete, some counties being as yet untabulated.

COMPARISON

Comparable figures for the white voting population in these states show 17,539,000, of whom 10,566,000 are registered.

Especially in areas where Negroes outnumber the whites — sometimes by as much as five to one — many devices have been used to keep political power in the hands of the whites. Registration boards met irregularly and at widely spaced intervals.

They worked slowly, and then quit for the day, while Negroes were still waiting in line to file applications. Or they rejected applications on technical grounds.

For example, on March 17, 1961, after a long legal battle, a federal court in Alabama ruled on a lawsuit involving Macon County. The judge wrote in his memorandum that:

"18 affiliates, more than half of whom had college or advanced degrees, were rejected for such inconsequential, formal, technical mistakes."

He ordered the board to register 64 Negroes and to give priority attention to 400 applicants on the waiting list.

Similarly, in testimony before the House Judiciary Committee, Atty. Gen. Robert F. Kennedy said:

"In one county, Negroes have been required to copy and interpret long, archaic sections of the state constitution, and then have been rejected for omissions of punctuation. Whites, meanwhile have been asked to copy such simple provisions as, 'There shall be no imprisonment for debt.'"

BARNETT'S EXPLANATION

Mississippi's Gov. Ross Barnett, ascribed the small number of registered Negroes in his state to other causes.

In a copyrighted interview with U. S. News and World Report, he said:

"The primary reasons for the fewer Negro voters include illiteracy, apathy, and the law requiring payment of a poll tax. So many Negroes are not qualified to vote."

As to literacy qualifications for registering, he said:

"They have to be able to read and understand and interpret a section of the constitution of the state of Mississippi. We don't believe in having ignorant people elect our officials."

As Negro voting strength increases, what are the political implications for a candidate for public office in the South?

There have been indications already — although it is difficult to say with certainty — that the Negro vote tipped the balance in certain elections.

Some residents of Birmingham, Ala., for example, say Negro ballots ousted T. Eugene (Bull) Connor from the city government. Others are not so sure.

In any case, the thousands of new Negro votes can be expected today to go to the man with "moderate" views on segregation and against the candidate running on a program of strict "white supremacy." In a close election, this could spell the difference.

In Tuskegee, Ala., Negro leaders say they already outnumber the whites in registered voters.

Thus, theoretically, they could elect a mayor and an entire city government.

But William P. Mitchell, executive secretary of the Tuskegee Civic Association, says:

"We would discourage an all-Negro slate. We don't want Negro domination and we have preached that for years."

"We just want to vote for the best qualified man."

Next: The economic effects.

PARNELLI JONES TEST-DRIVES
WARDS RIVERSIDE ST-107 TIRE
AT SPEEDS UP TO 138.46 MPH!

RIVERSIDE TEST CAR
The Mercury Marauder Parnelli Jones used to set a new Pikes Peak Hill-Climb record.

PARNELLI JONES TESTED RIVERSIDE TIRES ON THE INDIANAPOLIS 500 SPEEDWAY TRACK. THEY DELIVERED OUTSTANDING PERFORMANCE FOR HIM AT STRAIGHT-AWAY SPEEDS UP TO 138.46 MPH!

Parnelli Jones, record-breaking winner of the '63 Indianapolis 500-mile race, proves Riverside tires are built to last!

For the second time this year, Parnelli Jones drove the searing 2 1/2 miles of Indianapolis track. This time to prove the strength and endurance of Riverside ST-107's tires. Jones was merciless. He ground into turns

and rocketed down at straightaway speeds up to 138.46 mph! The ST-107's were pounded and baked in the Indiana sun. They suffered more abuse than tires ever receive; and they held! This was no stunt.

Riverside engineers knew the strength and quality built into every Riverside tire would take it. Though you will never drive 138 mph, it's comforting to ride on tires that can deliver high-speed proven Riverside tires!

BUY THE PARNELLI JONES TEST-PROVEN TIRE AT LOW, LOW PRICES

MOSCOW (UPI) — The Bolshoi Ballet will open a 10-week tour of the United States and Canada on Oct. 1, it was announced today.

Study Ionosphere Space Data

CAPE CANAVERAL, Fla. (AP) — Scientists are studying data radioed from a payload which raced 8,000 miles into space to study the ionosphere.

The probe, hurled upward Tuesday by a Blue Scout rocket, relayed nearly four hours of excellent signals before burning up as planned during atmospheric re-entry above the Indian Ocean.

The Air Force experiment was one of several being conducted to chart the ionosphere, layers of globe-circling electrical particles which affect communications on earth.

The studies could lead to better communications between points on earth and between ground stations and orbiting spacecraft, especially in determining the most effective radio frequencies.

28 Bodies Wash Ashore
in Arabian Plane Crash
BOMBAY, India (AP) — A total of 28 bodies were reported today to have washed ashore since the crash Sunday of a United Arab Airlines jet into the Arabian Sea.

Thousands of fishermen are helping police in the quest for the remains of the 63 passengers and crew of the Comet jetliner which crashed in a heavy rain while en route from Tokyo to Cairo.

Heavy Milk Drinker Discusses Calcium

By DR. WILLIAM BRADY
Mr. E. T. W. writes:

"Probably you are familiar with 'The Wisdom of the Body' by Walter B. Cannon, professor of physiology at Harvard. The chapter on calcium should interest you.

"You are right about calcium. I think I have always been a heavy milk drinker, having been raised on a farm. At 88 I am quite supple and read without glasses.

"I have seen no reference in your column to the value of milk as a source of vitamin A, sometimes called the eye-protecting vitamin.

"I believe you are right about calcium raising the pain threshold. I have often noticed that I seem less sensitive to aches and pains than most.

"But I think you are wrong when you lay so much emphasis on teeth. My mouth is a dentist's nightmare — only three lower teeth and a broken upper plate left. The plate was made when I had more teeth than I have now."

Let's say I got a base on ball once, struck out and hit a three-bagger once. That would make my batting average .500, anyway. I talked about milk as a source of vitamin A, although I have said repeatedly that whole fresh milk, cream and butter are the best sources of vitamin A in the everyday diet.

I struck out on teeth. That is to say I lay as much emphasis as possible on the importance of keeping teeth functionally efficient — one's own or the dentist's — yet evidently many readers of higher-than-average intelligence, such as yourself, Mr. W., still think I am wrong about it.

For all I know, maybe the dentists themselves think so — only rarely do I hear from a dentist, unless it is to reproach me for my teaching (1) that brushing the teeth doesn't prevent decay and (2) that so-called pyorrhea is degeneration of jaw tissues due to malnutrition (nutritional deficiency)

from childhood up to the present.

I hit a three-bagger by teaching that persons whose intake of calcium and vitamin D is adequate, have fewer aches and pains and hence are not aspirin eaters, as so many uninformed or misinformed Americans are. This is simply applied physiology.

One of the five functions of calcium — enumerated in Samson Wright's 'Applied Physiology,' 5th ed., Oxford Press, is that it 'regulates excitability of nerve fibres and nerve centres.'

I lay a good deal of emphasis on the importance of a good daily ration of milk in the everyday diet. This means that everyone should consume not less than 1½ pints (three glasses) of milk daily, or, if one wishes to enjoy better-than-average nutritional condition the daily ration of milk should be a quart.

Primarily this is advisable because milk is the best food source of calcium. But it is difficult to teach simpletons these things.

Of course I don't know, but I am more and more impressed with the idea that an adequate daily ration of calcium and vitamin D (the vitamin essential for utilization of calcium) is good prophylaxis against not only tetany (painful nocturnal leg cramps in persons who have passed middle age, or so-called growing pains in young children) but also against angina pectoris and coronary thrombosis.

Mrs. William Fox, Edgefield Drive (left), and Mrs. Eugene C. Carey Jr., Mark Avenue, are cochairmen for this year's "Hi Fever Follies." Titled "Shouttime 63," the annual production

of the Women's Auxiliary to Pontiac General Hospital will feature Broadway shows of the past 15 years: Oct. 18-19 are the dates at Pontiac Northern High School.

Father of Two Encounters Temptation at His Work

By ABIGAIL VAN BUREN

DEAR ABBY: Lloyd and I have been married five years. We have two children. I thought we were very happy until last week.

A strange man telephoned me and told me that if my husband didn't stay away from his wife there would be trouble. When my husband came home I asked him point blank.

He admitted that he and this married woman loved each other and had been seeing one another for a year. He said they were planning to get divorced and marry each other.

Abby, Lloyd is 25 and she is 38! She has four children. Can this be love?

Last night she and Lloyd sat and talked with me. They

said they had decided to call it quits because of the children.

Abby, they work together in the same plant, and I know they won't stop "loving" each other no matter

Marries Girl From Germany

Mr. and Mrs. Heinz Zahn of Lauf - Pegnitz Rudolfsch, Germany, announce the recent marriage of their daughter Helga to Robert A. Frey, son of the Virgil Freys of Adamson Road.

Joanne Bennett and Thomas Peter attended the couple at the ceremony, performed by Rev. Paul A. Johns in the Calvary Lutheran Church, Clarkston.

The bride is a graduate of the College of Pharmacy, Nurnberg University, Germany.

Friendships Depend on Writing Ability

UP — Friendships have flowered and been broken by letters, but a great omission is the letter that is never sent.

Even the good friend who insists "It was silly of you to write that thank-you note," is secretly pleased that you did. "The thank-you letter should have a spirit of friendliness, love, fondness, affection," advises Susan Nichols, Publisher of Brunswick, Maine.

She first introduced at Bryn Mawr College the idea of teaching composition through the personal letter. And in her book, "Creative Writing Through Letters," she illustrates that even high school students can become good in the art of writing a letter.

Many letters used in the book were written by students of Oak Grove School in Maine, and the book has been the subject of college discussion panels.

"The high school age is the most social, when young people want to make friends and get in touch with friends. It is important to know how to write a letter," she says, pointing out that as one of her students said, "When one writes a letter he writes for a distinct person . . . we forget ourselves and the beautiful and hesitant ways we have while speaking."

COMES WITH PRACTICE—But some young people feel they do not know how to write a letter, so they don't try. Boys treat it as a chore.

"It isn't their fault. Boys ignore the gracious act because they live in an age when there is little time for such things, and the subjects of their school compositions are likely to be far removed from their lives and experiences," she explains.

They could master thank-you notes with a little prac-

tice, she says, and "it is too bad their compositions aren't personally related to their lives, instead of being stereotyped."

Young people often are motivated to write letters when they are hopelessly in love, sick or discouraged, she says. But that is the time to write but file your letter in Time, a safe place in a desk or other hiding place, "exhuming it in a week, month, a year," she says.

Elizabeth touches on this little-girl dress are seen in the high waist. The skirt is covered with tiny blossoms, and three tiny pearl buttons decorate the plain, collarless bodice, with its precise puff sleeves. It's made of East-tate fabric woven of East-tate polyester. About \$5.95 in mint, blue or maize with pastel flowers.

what they say. Neither will give up his job. What should I do?

BROKEN-HEARTED at 23

DEAR BROKEN-HEARTED: Assuming Lloyd and this woman WERE sincere in their promises to "call it quits," if they continue to work together, their good intentions won't last long.

Tell Lloyd that you will believe that he means to "call it quits" when either HE or she quits the plant. Offer to move anywhere, but don't buy their story unless they are out of temptation's way.

DEAR ABBY: I am a woman who once weighed 220 pounds. I finally got down to 120. It took me almost a year, but I did it.

I love myself this way, and I'll NEVER be fat again. What bothers me is people who say, "Oh, I liked you better fat!" Or, "Somehow you don't seem the same."

"You seem to have lost something in your personality!" Abby, how can you get along with people like that?

THINNER AND MADDER

DEAR THINNER: You don't "get along" with people like that. You try to get along without them. They'd miss a wart on the end of your nose if they had become accustomed to seeing it there. But would YOU?

DEAR ABBY: There is an elderly woman in our neighborhood who is driving every-one crazy. She is a dog-feder.

She makes her poor 72-year-old husband climb fences to feed other people's dogs that are cooped up in their own yards. We have two dogs that we feed ourselves and we don't want anyone else feeding them.

We are not alone in our complaints. The whole neighborhood is having trouble with these two nuts because of this.

Isn't this a job for the police?

DOG OWNER

DEAR DOG OWNER: "Neighbor - trouble" IS indeed a job for the police. But only after a warning visit has been made, without results.

DEAR ABBY: I read the letter from "Disgusted Husband" who complained because his wife had only an eighth grade education and all she'd read in the newspaper was the funnies. He's lucky. My wife graduated from high school and she asks me to EXPLAIN the funnies to her.

Tell your troubles to Abby. For a personal, unpublished reply, please send a stamped, self-addressed envelope in care of The Pontiac Press.

Hate to write letters? Send one dollar to ABBY, Box 3363, Beverly Hills, Calif., for Abby's new booklet, "HOW TO WRITE LETTERS FOR ALL OCCASIONS".

Author Parallels Modern Writers

Book Offers Advice--In 1820 Style

By JANET ODELL

Pontiac Press Women's Editor Readers of The Pontiac Press women's pages can follow the advice columns written by Abby Van Buren, Dr. Crane, Josephine Lowman, Mary Feeley and Muriel Lawrence.

Women who lived in 1820 had no such opportunity. But they did have a little book called "Practical Hints to Young Females, on the Duties of a Wife, a Mother and a Mistress of a Family." The author is listed only as Mrs. Taylor.

Where I got this book I do not know. It could have come from my grandmother, or I might have picked it up in a second-hand book store. I have been browsing through old dusty book shelves.

As the Mary Feeley of 1820, Mrs. Taylor gives this advice:

"... you have united your fortunes; how absurd then would it be to urge your husband to expenses beyond his income . . . There are many . . . who have adopted the ruinous system of getting all they can; not considering that they are but taking out of one pocket to put into another, or foreseeing the consequence in having both pockets empty."

"But young women, who have been profusely supplied with money by their parents, are often not sufficiently aware of its value . . . hence appears the utility of parents allowing their daughters a stipulated but moderate sum, for their dress and other expenses at an early age; this will inure them to habits of economy, and restrain them from being lavish in domestic expenditure."

single state . . . it merits unqualified censure and should call a blush into the cheek of every female who has ever been guilty of it."

Mrs. Taylor had a word of two for husbands; in fact, she devoted a full chapter to their obligations.

"Whatever place you hold in the estimation of society, it depends greatly upon your wife, whether your children attain the same eminence."

"Suffer not her who has the first claim upon you, to know of your amiable qualities only by report. A saint abroad and his opposite at home, is an offensive compound."

"It is allowed, that every man should be master of his own house, a prerogative which he may preserve inviolate, without in the least interfering with that of his wife."

Or, . . . children must be kept in subordination at home, or they will rarely produce to their parents either credit or comfort abroad."

The following sounds a bit like Abby, only the language is stilted.

"There is one object upon which ridicule seems likely to expand itself: and it is lamentable, that even women of feeling do not always scruple to indulge themselves this way; while many . . . supposed themselves at liberty to treat with contempt and ridicule females, as much their superiors in character as in years, merely because they remain in a

5-Year Reunion Slated

The Waterford Township High School graduating class of 1958 will hold its five-year reunion Saturday at the CAF building on Williams Lake Road.

A buffet dinner will be served at 6:30 with a short

program to follow. The Paul Dunlap orchestra will furnish music for an evening of dancing.

Information may be obtained by calling Mrs. Harold Callahan.

ANN LEE LOWRIE.

The Keith Lowries of Andersonville Road announce the engagement of their daughter, Ann Lee, to Robert Lewis Gillis, son of Mr. and Mrs. Louis Gillis of Clarkston. She is an alumna of Central Michigan University, where her fiancé attends University of Michigan.

Easy to Make at Home

Cotton Can Weave Table-Setting Magic

Diamonds may be a girl's best friend, but modern cotton materials can contribute a lot to her happiness. Easy-to-care-for cotton fabrics cut hours of ironing time from a woman's day.

If you are handy with the needle, you can whip up custom-made summer outfits or gay and colorful table settings with little effort. The expense is minimal.

There are still plenty of summer days left to enjoy a new outfit or to plan a party around an attractive table setting.

Here, from the National Cotton Council, are ideas for

unusual and attractive table settings.

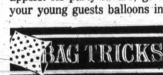

For children's parties, bold colors and whimsical designs are in order, and a gaily appliqued table cloth will delight the youngsters. Fashion your appliques from leftover sewing scraps or remnants from the fabrics counter.

To be sure your appliques come through the wash intact, sew them on by machine rather than by hand using a sturdy satin stitch.

Choose a bright colored solid cotton for the cloth and applique on animals, clowns, space ships, or cowboy motifs. If you plan a circus theme, for example, use cher-

ry red cloth and applique sprightly monkeys hanging from a gaily-decorated, stylized tree. Add accents of color by trimming the tree with bright green leaves and orange, purple, and yellow balloons.

Then create an amusing centerpiece for your refreshment table by perching bamboo monkeys atop fresh pineapples. As party favors, give your young guests balloons in

Use a narrow satin stitch for applying the leaves to the mats and then cut away fabric at line of stitching to create a lace effect around the edge of each leaf. The leafy border will form a graceful outline for a floral centerpiece on the luncheon table.

Also ideal for square or oblong tables, place mats give a fresh, new look to your

table settings with just a change color, shape, or design.

For a small snack table at a bridge party or informal gathering, simplicity is the keynote. A solid color cotton in a bright shade makes the table appear larger and forms a perfect background for prettily appliqued napkins. Use a contrasting solid for the napkins and add floral appliques.

Your table-setting wardrobe can be as elegant or simple as you like, depending upon the type of entertaining you do. With the wide range of cotton prints and solid colors available in both home decorating and fashion fabrics, there's no limit to color schemes and design motifs that make a pretty party table for any occasion.

Bride Due Wishes of Her In-Laws

By The Emily Post Institute

Q: I have just received a letter from my son who is in the Army and stationed in the Midwest, informing me that he was married several days ago. This came as a complete surprise to my husband and me.

We had no idea he was even interested in a girl. We are not very happy about this as he is quite young and we don't feel he is ready to accept the responsibilities of marriage.

However, what I would like to know what our obligations are toward his wife who is a total stranger.

A: The only thing to do now is to accept the marriage and write at once to your son's bride, saying that you are sure you will love the girl John has chosen as his wife and that you are waiting impatiently to meet her and welcome her into the family.

Q: I have received an invitation on a folded card with Mr. and Mrs. . . . and the address engraved on the front. Inside it states "Cocktails" and the time and date and R.s.v.p.

I have no visiting cards or informals with my name on them and wondered how this invitation should be answered.

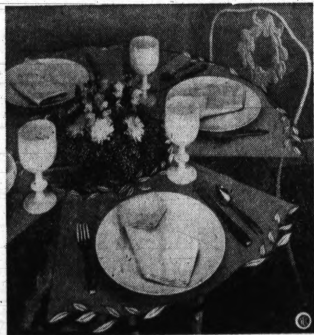

I don't know the hosts, but their daughter was in my class at college, and I believe they are announcing her engagement.

A: Having no visiting cards, you write on a sheet of note paper: "Miss Jane Smith, accepts with pleasure, for the 25th."

Q: What is the proper way to remove an olive or cherry from a cocktail if no toothpick is served?

I have seen people removing them with spoons and I have also seen people removing them with their fingers which I am sure is not correct.

A: Drink the liquid and, when the glass is drained, tip the glass and drop the cherry or small olive into your mouth. If the olive is a large one, lift it out with the fingers and eat it in two or three bites.

Contour place mats of pale blue cotton are appliqued with graceful white leaves, forming an outline for the floral centerpiece. To create a lace effect around the edge of each leaf, Singer sewing experts suggest applying the leaves with a narrow satin stitch and then cut away fabric at line of stitching.

On the beach or at the pool, every lass needs a gay topper like this starfish-appliqued poncho: Use a cotton osanburg feed bag and trim with right's bias tape and rickrack. Instructions from National Cotton Council, Bag Dept., Box 9905, Memphis 12, Tenn.

Create a one-of-a-kind overblouse by adding your own original designs to a basic pattern. At left, brightly colored fish appliques cut from bias skirt-facing dangle from a silver line over turquoise giant rickrack. Metallic trim makes glittering scales for the fish, which are appliqued to aquamarine Indian Head cotton. At right, a saucy daisy adds sparkle to a lime-colored Indian Head cotton blouse. Petals and leaves are shaped from bias skirt facing, which also bands the blouse bottom.

Give Shower for Bride-Elect

Mrs. Harold E. Hughes of Argyle Avenue was hostess at a buffet supper and bridal shower Wednesday evening, honoring her niece, Theresa Anne DeLano of St. Clair, formerly of Pontiac.

Cohostesses were the bride-elect's grandmother, Mrs. Frank V. Regner, and aunt, Mrs. Earl J. Barber, Davisburg.

The honoree will wed William James Prosic of Toronto, Ont. Aug. 17 in Marysville. Guests were present from Marysville, Algonac, St. Clair, Detroit, Davisburg and Pontiac.

'Skag'; 'Finky'; 'Tough Darts, Agnes'

What Are Those Teen-Agers Talking About?

By EUGENE GILBERT
President, Gilbert Youth
Research, Inc.

If you're a "skag," whether in Richmond, Va., Orange, Tex., or Bluefield, W. Va., you're a teenager who just hasn't made the grade. Definitions of this term vary slightly from a drab person who is worse than a square to one who isn't suitable to associate with, is ill tempered or one who constantly flirts or shows off. But, in general, if you're a "skag," you're told to flake off (leave, get lost.)

That's just one definition of teen-age lingo that emerges from our latest nationwide survey.

The same unapproachable "skag" is a "scab" or "finky" in Honolulu; a "waste" in Cincinnati, or a "PTA" (partly trained ape) in Ridge, Md.

However, if you hear yourself called "studley" in Cincinnati, "foxy" in Teaneck, N.J., or "tweedy" in Chester, Pa., don't get clutched (excited, upset).

They mean, respectively, you're sharp looking, a cute girl and smartly dressed. But in New York City, nice clothes are "vines."

MEAN SAME

Only a few words, like a "spastic," way out or crazy, and "hairy," wild, mean about the same across the country.

"Nut up" and "dippy" have taken the places of shut up and stupid which few "mellow" teenagers would be caught dead saying now.

If you want to describe something you like in Lisbon Falls, Maine, it's "scrumplicious." But you'd say "yippy sippy" or "cherry" in Portland, Ore.; "toms neat" in Richmond, Va.; "whippy" in Chicago, and "tougher than nails" in Indianapolis.

To indicate something you dislike, the cool ones say "poobah" in Pocatello, Idaho, and "gross" in Miami.

Sympathetic young friends may say "tough darts, Agnes" in Pleasant Gap, Pa., or "tough bounce, daddy-bird" in Pocatello when they mean "that's too bad, kid."

But, watch out in Ramsey, N.J. if you hear something is "enough to rot your socks." The speaker is furious.

SICK JOKES

As for humor sick jokes (e.g., "Aside from that, Mrs. Lincoln, how did you like the play?") still lead in popularity.

And knock-knock jokes (Knock, knock. Who's there? Richard Nixon. Richard Nixon who? See, you forgot already.)

The space age has penetrated teen-age humor, too. (If an athlete gets athlete's foot and

a writer gets writer's cramp, what does an astronaut get? Missile toe.)

Around Alexandria and Arlington, Va., the jokes get literary. (Have you heard of the new South American drink? No, what is it? Tequila Mockingbird.)

Television commercials come in for a big dose of mockery.

Favorites for satire "Please, Mother, I'd rather do it myself," "Welcome, pilgrim, your search has ended," and "Are you still using that greasy kid stuff?"

In a few areas, "whoa doggies" has been adopted from a popular television western comedy to serve as an all-purpose remark.

And schoolwork is still a good

topic to poke fun at. For instance:

Joe: I read a mystery book last night.

Tom: What was the name of it?

Joe: Plane geometry.

EVER CHANGING FADS

Making chains out of gum wrappers that are as tall as their boy-friends is high on the list of fads among teen-age girls.

And a new high school status symbol seems to be for junior girls to date sophomore boys, or for the boys to be "adopted" by upper-class girls.

The "mellow" teen girls are now wearing wrap-around skirts or short skirts, with suspenders; teased hair; culottes; shirts featuring sleeve patches; wigs; and "barnyard" outfits (denim skirts or pants with colorful, checked blouses.)

Tight pants are still the mark of the teen-age boy. But he's keen on madras shirts, sweat-shirts, pin-striped shirts, and wild ties.

Longhair haircuts on boys seem to be losing out to the Kennedy, Princeton and Peter Gunn style haircuts.

And springing up instead is a rash of tipping hair a different color, getting permanent waves, wearing goatees and beards, and carrying squirt guns.

For a couple going steady, the uniform of the day is a matching outfit. And true love is signified when the couple exchange matching pajama sets.

Other signs of steady dating are sharing lockers, wearing cat and mouse or head-shaped pins, and giving each other rings.

Chill Molded Dessert in Angel Food Pan

By JANET ODELL
Pontiac Press Food Editor

All the family's coming to dinner Sunday and you want to get your dessert made the day before. Or, you're entertaining a large group in the evening and want to serve something delicious, but easy to make.

Mrs. Willis Schnekenburger's Strawberry Angel Food Cake will take care of either occasion.

One of Mrs. Schnekenburger's three daughters is married and has a child. Her other two are still in school. Both they and their mother are active in Camp Fire Girls. Mrs. Schnekenburger is also in PTA work.

STRAWBERRY ANGEL FOOD CAKE

By Mrs. Willis Schnekenburger
3 packages strawberry gelatin

3 cups hot water
3 packages (10 oz.) frozen strawberries
1 large angel food cake
1 pint whipping cream

Dissolve gelatin in hot water and chill until syrupy. In the meantime defrost strawberries.

Tear cake into small pieces. Beat cooled gelatin very light and foamy. Pour into your largest bowl and add cake and strawberries.

Fill a 10-inch angel food cake pan and put any leftover gelatin into a loaf pan. Chill overnight.

Just before serving whip cream and frost cake. Makes 12 - 16 servings.

Childhood Experience Leaves Impression

By MRS. MURIEL LAWRENCE
One day when Cora was 7 she
displeased her mother. She hit
her little brother for pouring wa-
ter into her doll carriage. As a
result, she was sent to bed.
Her mother, making her un-
dress and get into bed said an-
grily, "No, you can't get up for
supper. I don't know when you
can get up. You can just stay
there until I'm ready to let you
up."
At first Cora just felt hate for
her mother. But as the day
lengthened, the threat of perma-

nent confinement to space the
size of her bed became real and
frightening.
She thought, "If you displease
someone, it is clear that you
lose room to move around in.
You get squeezed back into a
space no bigger than this room,
this bed."
But when her punishment was
ended the next morning she for-
got this conclusion engraved into
her mind by overpowering fear.
Twenty years later, it still con-
trols her responses to displeased
people.

This afternoon when her own
little girl came in to complain
that a neighbor's child had just
called her a nasty name, she
cried, "Why do you stay out in
the yard when Janey comes into
it?"
How many times have I told
you to run into the house when
you see her coming? You know
what nasty tongue she has...
But Cora's habit of surrender-
ing space to displeased people
isn't limited to her front yard.
She surrenders room for her opin-

ions, too, as soon as they are
challenged.
If a neighbor objects to her
opinion of their PTA president,
she feels so uncomfortable that
she at once tries to withdraw it.
If a tradesman is displeased by
the suggestion that he has
shortchanged her, she laughs
uneasily and says, "Oh well, let
it go."
On these occasions she feels
a strange impatience with her-
self. But she doesn't connect
these humiliating experiences
with the old 7-year-old conclusion
that equaled displeasing people
with retreat from space.

CAROL ELAINE MOSS

September vows are
planned by Carol Elaine
Moss, daughter of Mr. and
Mrs. Carl L. Moss, West
Highland Drive, and Ma-
rine Cpl. Bonnie Clyde
Milton, son of the Bonnie
Miltons of Orton Avenue.

Bride-Elect Is Honored

Mrs. Harold Sonntag and
Nancy Pritow honored Au-
gust bride-elect Virginia Bar-
ron at a shower Wednesday
evening in the Pritow home
on North Telegraph Road.

The honoree is the daugh-
ter of Mrs. Philip Schwartz
of Michigan Avenue and Flor-
entino Barron of Waco, Tex.
Arriving from Lake Lure,
N. C. for the party was Mrs.
Joseph Y. Bell, mother of the
future bridegroom, Michael
Vincent Bell. Gloria Buck
came from Lansing.

Ease Tired Feet

A topical foot powder to
prevent, relieve and arrest
athlete's foot and other super-
ficial fungus infections of the
skin has just been introduced
in aerosol form. The powder
spray is also ideal for eas-
ing hot, tired and aching feet.

Labor Statistics

Over half the women in the
labor force are married and
over half of these have chil-
dren under 18, reports the
Population Reference Bureau.

Birch Is Announced

Mr. and Mrs. Andrew Van-
der Venen of Grand Rapids
(Del. Slosson, formerly of
Pontiac) announce the birth
of their second child and first
daughter, Kristeen Dawn,
July 20.

Evening Fashions

Long beaded crepes and
fur-trimmed brocade suits
will be "in" for fall cocktail
and theater events.

Shampoo and Set \$1.00
Permanents \$5.00 and up

Why Grow Old?

BY JOSEPHINE LOWMAN

Boredom is perhaps the most vicious enemy of a vibrant personality. Any woman or man who desires to possess that elusive and magic quality—charm—can not afford to be bored, or to bore.

The old saying that "An interested person is an interesting one" is so very true, trite though it may sound. If you observe, you'll find that the person who charms you seems to hang on your every word.

If you are a fastidious person, one with good taste and a degree

of discrimination, you will, of necessity, have a wide-awake, questioning mind. However, being critical is a habit. It may flatter your ego, but it is a deathblow to charm.

The habit of criticizing comes easily, and creates a temporary feeling of superiority. It may become a chronic habit before you realize it.

We all know the person who isn't satisfied with anything. The dinner was awful, the play was awful, and if the reviews read otherwise, the reviewers don't know their business. Everyone they meet is stupid.

An acquaintance of mine once said, "Individualism, unless it can become socialized, is truly a pain in the neck to society," and no truer words were ever spoken. Individuality as such, can be a charming trait.

But it can also be overemphasized to the point that the individualist becomes the eccentric. Boredom blankets life with a fog of drabness, and can even cause physical illness. It certainly takes the spark out of personality.

If you wish my free leaflet, "Grace and Charm," send a stamped, self-addressed envelope with your request for leaflet No. 57 to Josephine Lowman in care of The Pontiac Press.

(Released by The Register and Tribune Syndicate, 1963)

Polly's Pointers

Wear Golfing Shoes

By POLLY CRAMER

DEAR POLLY — My husband said, "Send these to Polly." While cutting grass on a terrace or slope, wear golf shoes. This makes for sure-footed cutting and has not hurt our lawn. In cold weather, wear cotton gloves under your rubber gloves when you wash windows or hang out clothes.

Polish golf irons with silver polish to make them look like new.

— L. A. S.

DEAR POLLY — Here is a sewing tip: When making darts in the waist of a dress, I pin a piece of lightweight cardboard or a long envelope from the top dots to the dot at the end of the dart and machine stitch along the edge of the cardboard. The cardboard out of a hose-box is excellent. This is a fast method and the lines will be straight and will come to a nice point.

— Mrs. H. L.

DEAR POLLY — Whenever our family makes telephone calls, we put the 10 or 25 cents in a little "kitty" bank that stays near the telephone. Then when the telephone bill comes, we have the money ready.

— Miss D. H.

DEAR POLLY — I find ironing board clamps useful in reupholstering piano stools, chairs, etc. First clamp the material in place with the spring-type clamps and hammer in the upholstery tacks. Remove clamps. No more slipping and sliding, no more baggy upholstery.

You get a tight, professional look.

— A. McG.

DEAR POLLY — My daughter in Denver sends me your column, which I enjoy so much. Here is a vacation hint: When a family is going on a vacation trip by car, pack suitcases for the children in layers, a complete change in each layer.

Allow two days' wear for a pair of blue jeans. The clean clothes are never messed over; everything for one change is together. Put all soiled clothes in another suitcase or a laundry bag.

— Mrs. M.M.

DEAR POLLY — I have learned so many practical household hints from the column that it is a pleasure to pass on one of my own.

When I polish the arms, sides and legs of chairs that have cloth seats and backs, I always hold a large square of brown paper over the upholstered part while I polish the wood, to protect the upholstery. I keep this paper over the seat or back even while I am rubbing off the excess polish.

— Mrs. L. W.

Share your favorite homemaking ideas . . . send them to Polly in care of The Pontiac Press. You'll receive a bright, new silver dollar if Polly uses your ideas in Polly's Pointers.

Golf League Holds Picnic

The Ladies Tuesday Tee Golf League held its annual picnic following a round of golf Tuesday.

Mrs. Robert L. Taft opened her Shoreview Drive home for the occasion. Refreshments were served after a brief business meeting.

Mrs. William Sparks and Mrs. Thomas Zielinski headed the committee work for the day.

Plans were completed for the husband's day picnic Aug. 18 at the Deer Run Drive home of Mr. and Mrs. Albert H. Anselmi.

Mrs. Raymond Kiesel, Mrs. Calvin C. Warner and

Mrs. George W. Parsons will work on the committees for this event.

Winners for the team play for the day included Mrs. J. L. Root and Mrs. D. E. Vantine, first-place winners; Mrs. Kiesel and Mrs. Taft, second-place winners and Mrs. Eitelj Smith and Mrs. Warner, third-place winners.

Mrs. Addy Wiczczak and Mrs. Taft were prize winners for low gross and low net, respectively.

Dry cleaning originated in France about the middle of the 19th century.

Garden Group Names Officers for Coming Year

Mrs. Warren C. Clevin of Tillmore Drive was hostess Tuesday evening to the Lorraine Manor Garden Club, a branch of Woman's National Farm and Garden Association.

The president, Mrs. Ray Allen, appointed committee chairmen for the coming club year.

Mrs. James Mood will serve on the civic improvement committee; Mrs. Fred B. R. father, conservation; Mrs. Glen R. Hickson, conservation; Mrs. Robert Humphreys and Mrs. Robert Smith, marketing; Mrs. Clevin, program; Mrs. Robert Smith, publicity and library; Mrs. Joseph Carpenter, telephone; and Mrs. Elvin McCarty, hospitality.

Party Honors Naturalized Citizen Group

A graduation party Monday evening in the classroom at Pontiac Central High School honored members of Janice Antonia's group who became naturalized in court last week.

Mrs. Lee Hill and Americanism chairman, Mrs. Mary Todd, General Richardson chapter, D.A.R., and Mrs. Joseph Phillips of the American Legion Auxiliary, Chief Pontiac Post, spoke briefly.

New American citizens honored were Verna Paine, Mr. and Mrs. Elmer Krampetz, Mary Tsompanas, Mr. and Mrs. Gerrit Hoogenstruyd, Bernice Wheeler and Mr. and Mrs. Fred Madarasz.

Slide Into Bags

Slide sandwiches into bags with a pancake turner to keep them from being crushed or forced apart.

For Easy Ironing

Your ironing chore will be easier if you use long, slow even strokes and lift the iron as little as possible.

Build Moon Shot Site

Swamp Yielding to Spaceport

By HOWARD BENEDICT

CAPE CANAVERAL, Fla. (U—

Builders, piledrivers, dredges and other machines are wrestling control of great areas of swamp-land from snake and alligator as the United States builds the huge spaceport from which astronauts will rocket toward the moon and planets.

Most of the work is concentrated on Merritt Island adjacent to Cape Canaveral, where the National Aeronautics and Space Administration is acquiring 77,000 acres on which to erect facilities of almost incredible dimension.

There also is furious construction activity on Cape Canaveral's original 15,000-acre plot as launching equipment and pads are readied for the two-man Project Gemini space flights slated to start next year and for early tests of the Apollo moonship and other space vehicles.

5,000 ON JOB

More than 5,000 construction workers are on the job. In 12 months there will be about 9,000. In the next three years, \$1.7 billion will be spent on building work.

The space agency is paying an estimated \$25 million for the Merritt Island and on a thin strip of offshore territory north of the present Cape boundaries Merritt Island lies west and northwest of the Cape.

Some 400 homeowners are being displaced by the acquisition, most of which is swamp, woodland and orange groves.

The dominating feature on the island will be Launch Complex No. 39. Construction will start soon on this massive undertaking, which will include three launching pads for the giant Saturn 5 rocket which will ferry Apollo astronauts to the moon, hopefully in 1968.

The Saturn 5 will be as tall as a 36-story skyscraper, weigh 3,000 tons fully fueled and generate 7.5 million pounds of thrust. At a cost of about \$100 million for each launching, the rocket will be able to orbit a 120-ton space laboratory or send the three-man Apollo ship to the moon. The first test flight is set for 1965.

BUFFER ZONE

Thousands of acres will serve as a buffer zone to protect the ears and property of citizens from noise and shock waves.

To make Merritt Island more accessible, NASA is building rail lines and a four-lane causeway to bridge two rivers which separate Cape Canaveral from the Florida Mainland.

The Air Force is creating islands in the Banana River on which to construct assembly and

Hails Senate Red Aid Action

WASHINGTON (U—Sen. Philip A. Hart, D-Mich., commended the Senate Foreign Relations Committee today for recommending that the President again be given power to grant Poland and Yugoslavia special trade concessions.

The most-favored nation treatment would be restored to the two countries if a bill that would give the President such authority is approved by Congress.

In a speech for the Senate, Hart said:

"Oversimplified, the problem is this: Is it ever prudent to assist a country whose allegiance, direct or otherwise, is to the Soviet Union?"

"Based on my observations during a recent study trip to Poland, I say yes."

"Certainly I do not pretend to be an expert on foreign affairs after a seven-day trip abroad. But a man doesn't have to spend many days in Poland to discover that this is a nation of people intensely fond of America."

East German Soldiers Cross Border to West

BERLIN (U—Three East German soldiers, including two border guards, fled to West Berlin during the night, West Berlin police said.

A 21-year-old and a 26-year-old who were on patrol together wore their uniforms, but abandoned their weapons. The third man wore civilian clothes.

BACKGROUND OF THE NEWS SPECIAL REPORT

control apparatus for its Titan 3 space booster.

Most of the work is concentrated on Merritt Island adjacent to Cape Canaveral, where the National Aeronautics and Space Administration is acquiring 77,000 acres on which to erect facilities of almost incredible dimension.

PROGRESS ON PROJECT

In the original Cape Canaveral area, construction is progressing on these projects:

— Complex No. 37, which will have two launch pads for Saturn 1 and Saturn 1B, each with 1.5 million pounds thrust in the first stage. Four Saturn 1 first stage tests from Complex 34 were successful, and the initial two-stage shot — with an 18,000-pound satellite — is set for Oct. 31 for next October.

— Complexes 19 and 20, formerly used in the Titan military missile test program, are being redesigned to handle the Titan 2, which will boost Gemini, and an early model of Titan 3. First orbital launching of an unmanned Gemini model from 19 is set next December. Initial orbital launching of the two-man Gemini crew is scheduled for the fall of 1964.

— Complex 14, from which four Mercury astronauts vaulted into orbit, is being remodeled for the Atlas-Agena rockets which will

launch the target satellites for later Gemini rendezvous maneuvers.

— Pad 13, one-time Atlas military missile test stand, is being redone so the Atlas-Agena pad. The Cape then will have three Atlas-Agena facilities for a number of space explorations.

— Mercury Control Center, where America's six manned space shots were directed, has been renamed Mission Control Center and is being enlarged and refitted for Gemini.

**UNUSUAL - NO ...
WE DO IT EVERYDAY!!**

It is not unusual for a customer to come in and tell us they have a price on a certain model appliance, TV or stereo and think we can not do better. In most all cases they find we will do better in price and also give service second to none.

FRANKLIN STOVES

ORIGINATED IN COLONIAL AMERICA
By BENJAMIN FRANKLIN

Wonderful for amusement and family rooms, lake homes and maintenance of early Colonial decorating decor. Fireplace benefits, appeal and comfort at a fraction of fireplace costs.

Benjamin Franklin himself is credited with originating the Franklin stove far back in 1745. Ever since, and continuing to today, its unique performance properties are being recognized and put to use. Far more efficient than a fireplace, but imparts true fireplace coziness and appearance with its wide open front. Holds fire for long periods. The flat top area provides for the coffee pot and cooking utensils; the open fireplace area for barbecuing and open fire broiling.

Retiring Air Hero Saluted by Troops

HONOLULU (AP) — Gen. Emmett (Rosie) O'Donnell, an air hero of two wars who was trained to be an army combat officer at West Point, retired yesterday from active service.

O'Donnell, 56, took the salute of hundreds of marching military personnel — and the plaudits of assembled GI families — at Hickam Air Force Base where he retired as commander of United States Pacific Air Forces.

Overhead 56 planes, bombers, fighters, huge transports, crowded over his retiring stand. O'Donnell, a boy from Brooklyn, who led the first B29 bomber raid on Tokyo during World War II, took the massed salute gravely.

Epic Films Can Win or Lose—Real Big

By BOB THOMAS.
HOLLYWOOD (AP)—There is an old Hollywood saying that everyone has two businesses: their own and the movie business.

That still seems to hold true. People everywhere are aware of MGM's problems with "Mutiny on the Bounty" and 20th Century-Fox's "Cleopatra."

There was a time when the costs and returns of movies were known only to high studio officials. Lately the companies have been talking openly about their finances, possibly because of the prodding of irate stockholders.

"Take 'Cleopatra,' for example. Its cost generally is reckoned at \$40 million.

The rule of thumb is that a movie's gross return must double its cost before turning a profit. This is because distribution, advertising, the theaters' share, interest, etc., keeps adding up.

DOESN'T APPLY
This double-the-cost rule does not apply to spectacles with huge budgets, however. Fox president Darryl F. Zanuck has figured \$20 million will put "Cleopatra" in the black. Advance payments have reached \$20 million.

"Mutiny on the Bounty" is another story. Although it will be one of the biggest grossers in film history, its cost will prevent a profit—at least until it is re-released years hence.

The Marlon Brando film cost \$12 million and needed a \$31 million return to break even. MGM has written off an \$8 million loss on the venture.

There is a bright side to the MGM picture "How the West Was Won," a Cinemascope western. As of July 20, it had brought in a gross of \$9,102,911 in this country, playing in 44 theaters. An equal amount has come in from overseas engagements, and the company figures the monthly gross at a million dollars.

COST \$12 MILLION
"How the West Was Won" cost \$12 million, a tidy amount for epics nowadays. Its break-even point is \$20 million, which may not be far away.

The advantages of playing for high stakes is demonstrated by two other MGM winners of the past.

"The granddaddy of them all, 'Gone with the Wind,' cost \$4,300,000 in 1939. In five releases it has racked up rentals of \$67 million, making it the biggest money-maker of all time. Its achievement is even more remarkable when you recall that theater admissions were much less during its early release than they are now.

"Gone with the Wind" cost \$4,300,000 in 1939. In five releases it has racked up rentals of \$67 million, making it the biggest money-maker of all time. Its achievement is even more remarkable when you recall that theater admissions were much less during its early release than they are now.

Yet, he accepts this temporary unemployment philosophically. He is prepared to report Wednesday to resume his engine duties, he chuckled about being fired and rehired so quickly, and said:

"That's railroadin', I guess."

But That's Railroadin'

He Don't Do Nothin'

(The Southern Railway recently hired a locomotive fireman 100 elderly unemployed Negroes who never before worked on a railroad. They are manning the 8,000-mile line's freight and yard diesel locomotives. The Southern, which is not involved in the railroad dispute over alleged featherbedding, contends its only obligation to the Brotherhood of Locomotive Firemen and Engineers is to retain firemen on its passenger trains and to continue to list firemen on seniority rolls. To learn what the newly hired firemen do and what they earn, Chicago's American telephoned one of them in Atlanta. Following are excerpts of the Newspaper's story written by Bob Smith.)

problems," Willie says. "Everybody has been nice to me. Occasionally Willie leaves his seat, but it's only to stretch his legs. He still watches switching and shunting operations with some interest, but it's getting to be old stuff to him now, especially since he really isn't an integral part of any of it.

Railroad officials contend that his presence in the cab isn't a safety factor either,

since freight and yard engines generally contain two other men anyway, the engineer and the head-end brakeman.

Despite the inactivity, Willie likes the job "real good."

Willie was laid off last Sunday because "they said they were laying off one of the trains."

Yet, he accepts this temporary unemployment philosophically. He is prepared to report Wednesday to resume his engine duties, he chuckled about being fired and rehired so quickly, and said:

"That's railroadin', I guess."

World Scouts Start Jamboree

Torchlight Rite Begins Gathering in Greece

MARATHON, Greece (AP)—A traditional Scout torchlight ritual, magnified to a mammoth scale, inaugurates the 11th World Scout Jamboree tonight on the historic Plains of Marathon.

More than 6,000 visitors were expected to join 14,000 scouts from 76 nations to see Crown Prince Constantine of Greece open the 11-day jamboree of games, displays, competitions and tests of scouting skill.

After the opening address by the prince, who is Greece's chief scout, a scout chosen at random lights a torch from a special fire and hands it down a line to his comrades.

IGNITES GOBLET
At the end of the relay the torch ignites the Olympia goblet, and the vast gathering sends the strains of jamboree songs echoing across the 2,000-acre encampment area on the plains where outnumbered Greeks routed Persian invaders in 490 B.C.

Fireworks explode a festive pattern across the night sky as a scout from each of the jamboree's 11 subcamps accepts from Constantine a flame to set blazing within the 11 great rings of tents.

The tents themselves indicate the far-flung origins of the participants.

West German scouts brought some of the most distinctive tents. They are black, with a hole at the top to let out smoke.

One of the most modern tents belongs to a Canadian contingent. They are box-like and big enough to stand up in. They have screens and flap windows that roll up and down.

NOSTALGIC JOURNEY — Former President Dwight D. Eisenhower and his wife Mamie stand aboard the Queen Elizabeth before sailing to Europe for what he termed "an adventure in nostalgia." The Eisenhowers will tour England and the beaches of Normandy, France, where Ike directed the World War II allied invasion of Europe.

Famous Italian 'Cowboy' Expires at Rome Clinic

ROME (U) — Luigi Costarelli, He would dismount, give his belt a hitch, tilt back his broad-brimmed hat, stalk up to the side walk tables and whip out both toy pistols.

"Tutti morti," (all dead) he would cry. Waiters and patrons often gave him a bit of small change. Even if they didn't, he would remount and ride off quietly, well content with his fun.

Costarelli had become a familiar figure to tourists and Romans as he rode up to restaurants on his bicycle, decked out with a Western saddle like a horse.

Radio Denies Report of Cuban Actor's Death

MIAMI (UPI) — Fidel Castro's official radio last night denied refugee reports that Luis Carbonell, a leading light of the Cuban theater, had been shot while trying to escape from his Communist-dominated homeland.

Ex-Opera Singer Dies

SALERNO, Italy (AP)—Giuseppina Bonetti, 70, world-famous opera singer in the first decades of the century, died Wednesday.

Ohio production of farm products has increased about 35 or 40 per cent in the last 20 years.

Sea birds sometimes cruise on the backs of big pelicans and turtles.

Japanese Rightists Maintain Influence by Burning, Killing

By CONRAD FINK
AP News Special

TOKYO 48 — The two young men walked boldly into the luxurious house, carrying tools of their trade: pistol, can of gaso-line, handwritten manifesto.

Handing the paper to a servant they fired two shots into the floor, sprinkled gasoline around and threw down a lighted match.

As flames surged through the house, the men strolled away. The house was destroyed.

It was owned by Construction Minister Ichiro Kono, a member of Japan's ruling Liberal-Democratic party and Prime Minister Hayato Ikeda's conservative, pro-American government.

The act was political terrorism as practiced by Japan's small but dangerous rightist movement.

National police estimate rightist groups number 400 and their firm membership 70,000. They sometimes quarrel with each other, splinter in all directions and are believed to be politically insignificant.

The rightists wield influence all out of proportion to their numbers for two primary reasons:

1. They represent a dreaded history of arson and murder before World War II, contributing to the death of parliamentary democracy.

2. Because some rightists have a murderous disregard for lives — including their own — none of their opponents every feels safe.

Many government officials never are without bodyguards. Leftist leaders, the rightists' avowed targets, sleep uneasily.

SMEAR CAMPAIGN

Rightists had been conducting a smear campaign for months against Kono, charging in pamphlets that he is soft on communism. This apparently arises from Kono's desire — widely held

in Japan — to improve trade relations with the Soviet Union.

The manifesto left behind when Kono's house was burned July 15 declared: "This is just the beginning. If the Liberal-Democratic party doesn't repent, there will be more fires."

The note was signed: "Patriotic Comrades' Society, All-Japan Patriotic Organizations Congress. Responsible person — Shusuke Nomura."

A friend, Takuo Matsuno, soon was arrested and police had practically the entire membership of the "Patriotic Comrades' Society" behind bars.

In December 1961, police uncovered a plot to murder Ikeda last fall, try to marry them selves. The boy cut off a finger protesting "weak-kneed government policy" that he said was turning Japan into a nation of leftists.

Others, like 17-year-old Oyo Yamaguchi, take up the knife or gun. Yamaguchi drove a short sword into the abdomen of the Socialist party chairman, Inejiro Asanuma, in 1960, killing him.

Some, such as a 17-year-old boy arrested near Ikeda's house, try to martyr themselves.

But the immediate danger is terrorists who seek out one victim or, at the most, a few.

5 Killed in NY Crash

Death Hearing Nears End

NEW YORK (UPI) — A Bronx County grand jury may complete hearings today on an automobile accident in which five persons died. The son of a Criminal Court Judge could be indicted by the panel on charges of vehicular homicide.

The youth, 23-year-old Gareth Martinis, operated one of three cars involved in the May 18 collision. Yesterday, the grand jury heard 26 witnesses, including Eugene Kramon, a survivor of the crash, who testified in a wheelchair.

Twenty-one additional witnesses have been subpoenaed to appear before the 33-member panel. Martinis, who could be sentenced to five years in prison and fined \$1,000 if convicted of vehicular homicide, has indicated that he will not testify.

On July 1, a three-judge panel which had heard the case acquitted Martinis of reckless and drunken driving and of leaving the scene of an accident, all misdemeanors. Vehicular homicide is a felony.

That decision sparked a public outcry, apparently because the three justices took only five minutes to return their verdict and because all three were "sociates" of Martinis' father, Bronx Criminal Court Justice Joseph A. Martinis.

Remarkable on the speedy verdict, a relative of victims of the accident said bitterly: "That was only one minute a life."

However, the Bronx Criminal Courts Bar Association, which investigated the case, said that "no other judges could have conducted this trial except those who could be labeled colleagues of Judge Martinis."

The panel noted "glaring contradictions" in the testimony. Several witnesses, including the police officer who arrested the

WASHINGTON (UPI) — A Republican senator yesterday described the first session of the 88th Congress as the "biggest and longest running slow motion show to hit Washington in years."

A Democratic spokesman took vigorous exception. Sen. Jacob K. Javits, N.Y., said President Kennedy and the Democratic-dominated House and Senate "cannot shun the responsibility for this standstill legislative logjam."

He said if the Democratic party is "so much in conflict with itself that it cannot lead effectively, then the country should know that."

Majority leader Mike Mansfield, D-Mont., said, however, he failed to see any "enthusiastic support" by Republicans for such administration programs as aid to education, medicare, mass transit, foreign aid or youth employment, all listed by Javits as stalled in committee.

Mansfield prodded committees, however, to "please get busy on the legislation on which you are holding hearings. Time is getting short."

U.S. Rear Admiral Dies; Was White House Aide

WASHINGTON (UPI) — Rear Adm. Pauls P. Powell, USN, Retired, a former White House aide, died yesterday of cancer. He was 70.

Powell had served as chief naval aide at the White House to Presidents Herbert Hoover and Franklin D. Roosevelt. A Naval Academy graduate, he had served in both world wars and retired in 1947.

Blueburgers Are Snap to Prepare

Here's an easy way to add a gourmet flair to the burgers you prepare this summer on the outdoor grill.

Simply crumble some mellow American-blue cheese on the regular beef patties just before they

are done. The result — delicious blueburgers!

The combination of beef and blue cheese always has been popular, and a blueburger is an easy way to combine the two flavor-mates.

American blue cheese is budget-priced at supermarkets and other stores that sell cheese.

You can add milk, water or no liquid at all when you are getting eggs ready for scrambling.

Conned Whole Onions Excellent for Kabobs

Although raw onion wedges are usually used to thread between pieces of lamb or beef for skewered broiling, drained canned whole small onions may be substituted. This is a good idea for those eaters who want their onions really tender — a stage not achieved during skewer cooking with the raw vegetable.

Sandwiches Have Many Styles

By JANET ODELL
Pontiac Press Food Editor

August is Sandwich month and on this first day we offer you some of the most tempting recipes in our files. These are all special sandwiches, not the kind you put in Dad's or Junior's lunchbox.

They're sandwiches you'll serve after a spirited game of cards in the evening.

They're sandwiches you'll be proud to offer your club when it meets for luncheon.

They're sandwiches fancy enough to serve at a shower.

The only thing they have in common is bread.

Every year The Wheat Flour Institute sponsors a contest for the best sandwiches invented by individuals in professional food jobs. Our first recipe today is one of the top three sandwiches.

The creator, Mrs. Lorine Goynes, pantry girl at the Sky Lanes and Cinnamon Room, Omaha, Neb. received \$500 for her entry at a special luncheon in New York this week.

This is the sandwich you can serve for the main course of a luncheon.

Shrimp & La Goynes

1 cup chopped celery
1/4 cup chopped green pepper
1/4 cup chopped onion
3 tablespoons butter or margarine

2 pounds cooked shrimp, cleaned and diced

1 cup chili sauce

1 tablespoon Worcestershire sauce

1 teaspoon lemon juice

1/2 teaspoon salt

1/2 teaspoon pepper

1/2 teaspoon Tabasco

12 slices Russian rye bread, toasted

Cheese Sauce

Paprika

1 1/2 cups cole slaw

6 spiced crab apples

Parsley

Cook celery, green pepper and onion in butter or margarine about five minutes, or until tender. Stir in shrimp, chili sauce, Worcestershire sauce, 1/2 m o n juice, salt, pepper and Tabasco.

Place six toast slices on baking sheet or heat resistant serving plates. Cut remaining toast slices in half and place on opposite ends of whole slices.

Spread shrimp mixture over toast. Cover with Cheese Sauce and sprinkle with paprika. Broil until lightly browned.

Garnish each with 1/4 cup cole slaw, one spiced crab apple, and parsley. Serve open-faced.

Note: For milder version, decrease pepper to 1/4 teaspoon and Tabasco to dash.

Cheese Sauce

3 tablespoons butter or margarine

3 tablespoons enriched flour

1 1/2 cups milk

1/2 teaspoon salt

1/2 teaspoon white pepper

1 cup pasteurized process cheese spread

Melt butter or margarine in saucepan. Stir in flour to make smooth paste. Gradually add milk, stirring constantly. Cook over moderate heat until thickened, stirring frequently. Blend in salt and pepper. Stir in cheese spread over low heat, blending until smooth. Makes 4 sandwiches.

A sandwich loaf is such an easy food to serve at a shower. All the work is done ahead of time.

The different thing about this recipe is that the bread layers are stacked vertically. This prevents the bottom layer from becoming soggy.

To serve, cut into 1 1/2-inch

coming weighted down and soggy.

Gala Sandwich Loaf

Avocado Spread

Crab Spread

Egg-Curry Spread

1 1/2 - pound loaf, unaltered enriched sandwich bread

Mayonnaise or salad dressing

Cream Cheese Spread

Egg slices

Avocado slices

Prepare Avocado Spread, Crab Spread and Egg-Curry Spread and chill. Trim bread. Slice lengthwise into four equal slices. Spread 3 bread slices with mayonnaise or salad dressing. Spread 1 slice with Avocado Spread, 1 slice with Crab Spread and 1 slice with Egg-Curry Spread.

Stack spread slices in order and close with remaining bread slices. Press together gently. Push 4 or 5 skewers through loaf from top to bottom. Turn loaf on side so the three fillings show on top of loaf.

Frost top and sides of loaf with Cream Cheese Spread. Remove skewers. Refrigerate loaf until firm, at least 1 hour, or until serving time. Decorate top of loaf with egg slices and avocado slices.

To serve, cut into 1 1/2-inch

slices. Loaf will be easy to slice and will not slide apart if cut with point of knife perpendicular to the serving plate.

Avocado Spread

1 ripe avocado, peeled and diced

1/4 cup mayonnaise or salad dressing

1 teaspoon lemon juice

1/4 teaspoon Tabasco

Combine ingredients and chill.

Crab Spread

1 cup cooked flaked crab meat (7 1/2-ounce can)

1/4 cup mayonnaise or salad dressing

1 1/2 teaspoons grated lemon rind

1 teaspoon Worcestershire sauce

1/2 teaspoon salt

Combine ingredients and chill.

Egg-Curry Spread

4 hard-cooked eggs, diced

1/4 cup finely chopped radish

1/4 cup mayonnaise or salad dressing

1/2 teaspoon salt

1/4 teaspoon curry powder

Combine ingredients and chill. Makes 12 servings.

Cream Cheese Spread

2 cups softened cream cheese (two 8-ounce packages)

3 tablespoons corn syrup

Whip together until mixture is of spreading consistency.

Now for the he-man sandwich that will satisfy either a hungry

teen-ager or your husband's friends after a poker game.

Super Sandwich

Large loaf Italian bread (about 15 inches long)

1/4 cup prepared mustard

15 slices salami

3 tablespoons well-drained sweet pickle relish

16 slices sweet fresh cucumber pickles

8 slices process American cheese, halved diagonally

Parsley

Cut bread into 8 equal pieces. Slice each piece in half taking care not to cut all the way through; spread with mustard. Place 2 salami slices (folded in half and filled with pickle relish), 2 pickle slices and a cheese triangle in each piece to form sandwich.

Arrange sandwiches to form loaf. If desired, wrap in aluminum foil; bake in 400 degree (hot) oven 10 minutes. Garnish with parsley.

Frozen Suckers

Freeze pineapple juice in ice cube tray until almost firm. Insert small wooden skewers for sticks and freeze solid. Tint various colors, if you like. Children find these a cooling treat on hot afternoons.

Foul Line Hit Decides Game in Class A

Cranbrook 'Inches' Toward Top Position in City Playoffs

Cranbrook today holds first place in the city men's baseball league by a matter of inches. The Bloomfield Hills nine rallied for an exciting 3-0 victory over the Clippers last night that just about clinched first place during the regular season for the winners.

Cranbrook took the decision on a solid two-out, two-strike double on the left field foul line by pinch-hitter Larry Demrick in the bottom of the sixth inning that drove in two runs and reminded that baseball is, indeed, a game of inches.

The Clippers had led from the first inning when Stephen Haynes rapped a bases-loaded single for two runs with two out in the top of the inning.

Dick Mosher's triple leading off and a one-out safety by Tom Demrick—whose second single ignited the winning rally—cut the visitors' margin in half in the bottom of the initial stanza.

Bob Readler and John Billesdon kept the score that way for the next four and a half innings until the older Demrick came out of the coach's box for his bat heretics.

The Clippers put the tying run on base leading off the last frame, but ran themselves out of the ball game when the runner was caught stealing after Billesdon's 10th strikeout victim.

The big right-hander added a little spice by getting the Joop's leading hitter, Felix Brooks, to fan for the final out and strikeout No. 11.

Tonight there will be a must game between Huron-Airway and Talbott Lumber at 8 p. m. under the Jaycee No. 2 diamond lights. Defending champion H-A must win to retain any hope of catching Cranbrook and to hold second place.

Talbott must triumph or see its chances for the fourth and final playoff spot almost completely disappear.

The recreation department announced yesterday there will be a doubleheader Friday with Local 994 playing Oxford at 6 p. m. and the Barbers meeting M. G. Collision at 8:30 p. m.

Softball Victories Easy for Some City Loop 9s

Some nights the game seems so much easier. Berry Door clinched first place in the city Class C softball race just by showing up last night.

It gained a 7-0 forfeit victory from Local 653 that enabled it to finish one full game ahead of Monday night upset Victor Bud & Lou's Bar.

Nor was it a hard time for the other two victors last night. Pontiac Millwork prevented Buettner's Cleaners from claiming third place outright in the "C" circuit with a 12-2 pounding of the cleaning team.

In Class B, G&M Construction

had an easy time disposing of Motorcar Transport, 13-5, and maintaining a slim hope for a share of a fourth place in that league.

Dan Smith's three singles, plus three doubles and two triples by his teammates made the Millwork team's task much easier against Buettner's.

G&M's Dale Badder had a double and triple to lead a 10-hit attack against MTC. He also combined with Dwight Butler to pitch a five-hitter.

Scott Harrity National Boys Speed Champion

Special to The Pontiac Press PORTLAND, Ore. — Scott Harrity, 19, of Pontiac won his second consecutive National Juvenile "C" Boys speed championship here yesterday in the North American Roller Skating meet.

Scott, son of Mr. and Mrs. Homer Harrity, 1213 Bielly, won the same title last year and captured the Juvenile "B" crown in 1959.

A member of the Rolladium Skating Club, he competes Friday in the Juvenile Boys free skating division.

Sue Welch Wahlberg and Dave Shafer, also of the Rolladium club, qualified for Saturday's senior pair free skating competition.

Three Turnesa brothers lost in 1942 and Mike to Ben Hogan in the finals of the PGA Champion-1948. Jim broke the losing tradition. Joe bowed to Walter Hagen in 1910 by beating Chick Harbert in 1927, Jim to Sam Snead 191962.

Coach Seeks Commander for Massive Air Attack

CHICAGO (AP)—A massive air attack appears to be the College All-Stars' best weapon against the National Football League champion Green Bay Packers Friday night—but even Head Coach Otto Graham doesn't know who will lead it.

After a dress rehearsal under the lights of Soldier Field Wednesday night, Graham still was speculating about his starting quarterback.

The four at his command are

Pro Linksman Insists

St. Paul Field Tough

ST. PAUL (AP)—Many of the big names are missing for the St. Paul Open Golf Tournament, but one of the favorites, Dow Finsterwald, insists it will be a hard one to win.

Some 140 pros and amateurs teed off today for the opening round of the 72-hole, \$35,000 tourney which carries first place money of \$5,300.

Foytack (Brush) Backs Way Into Record Book

CLEVELAND (AP)—Los Angeles pitcher Paul Foytack, who became the first American League pitcher to give up four

'Capture Guns' Aid in Study of Elk Herd

Elk are being hunted—but not for keeps—by a pair of Conservation Department field men in the Pigeon River area of the northern Lower Peninsula as part of a research program launched early this year to guide the future management of these animals.

Instead of using high-powered rifles, the men are stalking elk with a so-called "capture gun" which fires sedative-loaded darts at their targets.

After being brought under control by an immobilizing drug, the animals are tagged so that Department workers later this year can trace their movements from summer to winter range, and learn more about elk concentrations from season to season.

To date, field men have marked five elk.

successive homers in one inning, said the fourth gopher ball he served up Wednesday night was supposed to be a brush back pitch.

But the pitch came right over the plate, according to rookie Larry Brown, Woodie Held, Pedro Ramos and Tito Francona had stepped up to the plate ahead of Brown and laid the ball out of the park. It was in the sixth inning of the second game of a doubleheader, which the Indians swept 1-0 and 5-3.

Altogether, when Larry Brown came to bat the Indians had racked up six homers in two games, including two each by Ramos and Fred Whitfield, and one of Whitfield's was a grand slam home run.

The rookie said he expected to be knocked down on the first two pitches and didn't know what to

expect on the pitch he hit just over the fence.

BRUSHBACK

"I was trying to brush him back," said Foytack, the third Angel pitcher. "The count was 2 and 0. It shows you I didn't know where my pitches were going."

In addition to setting an American League record, the four successive home runs tied the major league mark set by Milwaukee in 1961.

Los Angeles Manager Bill Rigney came out shaking his head when he went to the mound to call in a relief pitcher. Foytack laughed about the four homers in the dressing room.

"What else is there to do but

laugh?" he said. "I was glad to get out of there alive. At least I've got to go into the record books."

Also in the AL—Tom Tresh's homer with two out in the bottom of the ninth gave New York's first-place Yankees a 3-2 decision over Kansas City: the Chicago White Sox beat Washington 5-2; Baltimore beat Detroit, 2-1; and Minnesota tripped Boston 9-5.

Ralph Terry held the Athletics to five hits, but they bunched two of them and two sacrifice flies went for a 2-2 tie in the seventh inning. Tresh pulled it out for the Yanks, however, with his clutch homer off reliever Ted Bowfield in the ninth.

Plane Crashes in State;

3 Escape Uninjured

HUDGONS TOWNSHIP (AP) — A light plane crashed near this Lenawee County Community last night. The pilot and two passengers escaped without injuries.

Arthur Stein, 49, of Hillsdale landed his plane in a plowed

field, thinking it was a landing strip, police said, and the plane nosed over.

Dies in Three-Car Crash

DETROIT (AP) — Lina Bruss, 7, of Detroit, was killed yesterday when the car in which she was riding was struck by two other cars at an intersection.

2 Flee With \$27,980

at Savings-Loan Office

DETROIT (AP) — Two gunmen fled with \$27,980 in cash from a Detroit savings and loan office yesterday in what police called "a very professional job."

One man accompanied manager Richard Karsten, 62, of

Berkley, to the vault while the other held nine employees and five customers at bay at an American Savings and Loan Association branch.

An estimated 100,000 to 150,000 children under the age of 14 accompany migratory farm workers on their travels, it was disclosed in a recent Senate report.

Detroit Judge Frees

a Memorable Drunk

DETROIT (UPI) — Recorder's Court Judge Frank G. Schemanski offered John Abraham, 58, a sporting chance yesterday, telling him he could go free if he could recall how many times he

had been brought in on a charge of drunkenness.

"Sure, 240 times, your honor," Abraham answered promptly. The judge consulted the record and said, "You may go."

More people are pushing pedals these days. Sales of bicycles in 1961 totaled 2.6 million compared with 1.8 million in 1955.

Seventy Poles Stricken

in Smallpox Outbreak

WARSAW, Poland (AP) — Poland's smallpox outbreak has stricken 70 persons, killing 6 of them, the health ministry said Wednesday night.

The latest total showed an increase of 20 cases and 2 deaths since the weekend.

Ex-Vermont Jurist Dead

SOUTH NEWFARE, VT. (AP) —

Paul A. Chase, 67, an associate justice of the Vermont Supreme Court from 1953-56, died Wednesday.

'China Won't Be N-Power Soon'

HONG KONG (UPI) — Communist affairs experts here today expressed reservations about the speed with which Communist China is racing to become a nuclear power, following a Peking statement which made it look as if a Chinese strike force is only months away.

There is no firm indication available here that Communist China's nuclear research recently has been accelerated.

It has been expected for the last few years that Peking will

set off a nuclear bomb, perhaps in 1961, probably in 1962, and almost certainly by 1965.

Speaking of China's nuclear progress at a Peking rally last Friday, Kuo Mo-Jo, president of the Chinese Academy of Sciences, said:

"The present attempt of a small number of countries to control the destiny of the peoples of the world by means of monopolies in nuclear weapons will also certainly be smashed in the not-too-distant future."

Observers here are of the opinion that, with the present outlook for Communist China's industrialization and for Sino-Soviet cooperation, it may be 10-20, or even 30, years after Peking has succeeded in setting off a nuclear explosion before the Chinese are able to "control the destiny of the people of the world" by means of their own nuclear weapons.

INSUFFICIENT

Within the limitations of present-day perspectives, China's industrial capacity is insufficient

for producing the highly complex structures of aircraft or missiles needed to establish a nuclear deterrent.

The Chinese have not yet started production of their own model of a jet plane.

The application of alloys of titanium and other heat-resistant metals towards the mass production of turbojet engines is said to be one of the many areas of industrial technique where the Chinese are lagging.

The lag in its aircraft production recently compelled China to

purchase six Viscount turboprop aircraft from Britain and contract for spare parts and fuel. This type of aircraft met the needs of commercial air transport in Western countries in the middle-1950's.

The Soviet Union gave Communist China four nuclear reactors in 1955. For at least three years after that, the Russians supplied Peking with small quantities of natural uranium, tritium and other nuclear elements.

It is calculated here that by

using these reactors full force the Chinese should have amassed enough plutonium-239 by late this year to set off a big bang somewhere in western Sinkiang.

Recent information is difficult to get, but intelligence here is that Peking was in possession of 20 kilograms of plutonium-239 at the end of 1961.

NOT MASTERED

Kuo Mo-Jo said that China had not yet "mastered" the technique of producing nuclear weapons.

But, he said, "We are of the firm conviction that we revolutionary people will surely be able to master the new tech-

niques which the Imperialists have been able to master."

"Imperialists" is the Chinese Communist designation for the Western countries, where many of Peking's present nuclear scientists were originally trained.

Some others received training in the Soviet Union, although Soviet aid of this type is now reported to have ended.

John Quincy Adams, then an ex-President, was a passenger on the train involved in the first railroad accident in the United States in 1833. The train was passing through New Jersey when its axle broke. Cause undetermined.

Highway travel for the average American is increasing at the rate of 100 miles a year.

East German and Family Dash in Boat to Freedom

WITTENBERG, Germany (UPI) — An East German family of five dashed to freedom in a motor boat, West German border police said today.

A 59-year-old employee of the East German navigation office at Wittenberg placed his family in one of the boats he used on his job, gunned the engine and reached the West German bank of the Elbe River without being spotted by Communist guards yesterday afternoon, police said.

Highway travel for the average American is increasing at the rate of 100 miles a year.

Fruit With Pork

Keep a jar of spiced crab apples on hand to serve with ham, steaks or pork chops that are to be cooked on the outdoor grill. (Remember to cook those pork chops until the meat is white through; make a small slit to test.)

BARBECUED FISH—This succulent herb-seasoned stuffed fish is perfect for your summer-time barbecue. It is easy to prepare, fun to cook, and delicious to eat.

Two Convenience Foods Better Barbecue

The outdoor barbecue has become as American as the morning coffee break. Now, with the barbecue season in full swing, families from Maine to California are enjoying outdoor entertain-

ing. This is the time of the year when the men don the chef's apron, take skewer in hand, and show off their culinary talents. The mouth-watering aroma of herb-seasoned stuffed fish roasting over the charcoal fire will excite the appetites of guests, and neighbors as well. This savory stuffing has a unique and luscious taste which enhances the flavor of any fish.

Large fish, such as red snapper, sea bass, cod, blue, and striped bass are best for this summer-time feast.

To round out your barbecue nothing compares with the wonderful flavor of patty shells filled with ice cream and topped with peach slices.

Barbecued Stuffed Fish
4 to 5 pound fish
Salt and pepper
2 cups packaged herb-seasoned stuffing
1/2 cup snipped parsley
2/3 cup water
1/2 cup melted butter
Melted butter for basting

Wash and clean fish. Thoroughly dry inside of fish and lightly season with salt and pepper.

Combine herb-seasoned stuffing, parsley, water, and 1/2 cup melted butter; toss lightly. Use this mixture to stuff fish. Secure opening with skewers or heavy thread and place fish in folding wire grill.

When fire is ready, barbecue fish about 15 to 20 minutes on each side, basting occasionally with melted butter. The time may vary, depending on the

weight of the fish and the heat of the fire. Serves 6 to 8.

Peach Puff

1 package frozen patty shells
1 quart ice cream
Sliced peaches
Prepare patty shells according to package directions. Place scoop of ice cream in each patty shell and garnish with 3 or 4 peach slices. Serves 6.

Virtually all nectarines grown in California today are new varieties developed since World War II.

Canned Foods Lower in Price Over Years

When foods were first commercially canned, cost to the consumer was high. Canned peas, for instance, sold for \$8 a can. Today, in an economy of sharply rising costs, the price of canned foods has remained remarkably stable, according to the National Canners Association.

Because food remains appetizing and nutritious in sealed containers, a whole year's harvest may be packed at one time and distributed throughout the year. Thus the consumer simultaneously gets the economy and fine flavor of foods packed at the peak of their natural season.

Like the flavor of caraway? A little celery salt added to Add some of the seeds to a cheddar cheese spread.

Serve Fruit From a 'Tree'

A charming, cool and pretty way to serve summer fruits is to arrange them on a topiary tree. This is a tiny "tree" of foil-covered styrofoam or oasis into which fresh cut fruits and maraschino cherries are placed in alternating rows, divided by sprigs of mint or ivy.

This is a simple arrangement that may be made up in advance and kept chilled until serving time. Your family and guests help themselves to their favorite fruits and to a choice of delicate dips made with instant nonfat dry milk crystals.

This refreshing new idea combines the season's fine fruits with wholesome and delicious dips. The dips are Anise and Guacamole.

One is sweet . . . with the surprising flavor of crushed anise seed; the other is a savory . . . of avocado, lime juice and anchovy paste. The instant crystals give these dips their velvet-textured flavor and all the proteins, B vitamins,

phosphorus and calcium of whole milk.

Guacamole Dip

1 medium avocado
1/2 cup ice water
1/2 cup instant nonfat dry milk crystals
3 tablespoons lime juice
2 teaspoons onion juice
1/2 teaspoon Tabasco
1/2 teaspoon anchovy paste
Mash avocado with fork or blend in electric blender.

Mix water and instant crystals in bowl; whip until soft peaks form (3-4 minutes). Add lime juice; continue whipping until stiff peaks form (3-4 minutes longer). Gradually add avocado pulp, onion juice, tabasco and anchovy paste, beating constantly until well blended. Makes 2 1/2 cups dip.

Anise Dip
1/2 cup ice water
1/2 cup instant nonfat dry milk crystals
2 tablespoons lemon juice
1/2 teaspoon crushed anise seed

1/2 cup sugar
1/2 cup marshmallow cream
Mix ice water and instant crystals in bowl; whip until soft peaks form (3-4 minutes). Add lemon juice and anise; continue whipping until stiff peaks form (3-4 minutes longer). Gradually add sugar and marshmallow cream; beat until blended: Makes 2 1/2 cups dip.

Topiary Fruit Tree

1 piece styrofoam or oasis, pyramid-shaped, 12 inches high and 5 inches wide at base
Silver or colored aluminum foil
Small-leaved ivy, or fresh mint
1/2 cup red maraschino cherries (about 14 cherries)
3 orange slices, cut in quarters
12 white grapes
12 small cantaloupe balls
12 California strawberries, with hulls
12 small honeydew melon balls
1/4 cup light corn syrup
2 tablespoons maraschino cherry juice

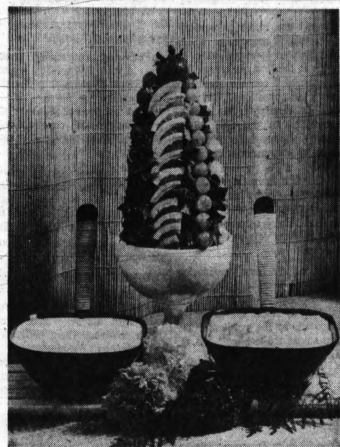

Firmly seal styrofoam or oasis pyramid in serving dish. Cover entire pyramid with foil. Using wooden toothpicks broken in half, attach alternating rows of ivy or mint and fruit, using fruits in order given. (Arrange orange pieces in over-lapping pattern.)

In small saucepan, bring corn syrup and cherry juice to a boil. Lightly brush all fruit with the hot glaze. Chill until serving time. Serve with Anise and Guacamole Dips.

Seafood Salad Tastes Better With Cheese

For that special warm-weather luncheon, here's how to give a seafood salad intriguing color and delectable flavor.

Simply add a blend of 1 cup mayonnaise with 1/4 cup (about 1 1/2 ounces) crumbled American blue cheese, 2 tablespoons lemon juice, and 2 tablespoons each finely-chopped parsley, chives, and watercress to the basic seafood mixture.

FRUIT TOPIARY—The colors and flavors are captured in a tiny "tree" of cut fruits . . . served with Anise and Guacamole Dips made with instant nonfat dry milk crystals.

Pineapple-Peppers

Parboil hollowed out green peppers until slightly soft, but still brilliant green. Fill generously with canned pineapple tidbits and kidney beans which

have been drained, then marinated in French dressing in refrigerator several hours.

Both bay leaf and basil benefit tomato dishes.

Quick Fancy Dessert

Dissolve sugar in hot orange juice and pour over a white cake as soon as it comes from the oven. Delicious dessert!

Toast Croutons

To make croutons for Caesar Salad and other dishes, cut slices of white bread in one-half inch cubes. Toast the bread cubes in garlic-flavored olive oil until

golden brown and crisp—keep heat low and allow plenty of time for this.

Ever add chopped water cress to creamy potato soup?

Airlines, Rubbers Lead Advance

Mart Prices Show Slight Rise

NEW YORK (AP)—Airlines—would hold to its timetable for stripping Northeast Airlines of its Florida routes. American Airlines gained about a point on a block of 8,000 shares and Pan American was up about a half.

Most groups were mixed. Wall Street was seeking the answer to the halt yesterday of a three-day advance which some traditional summer rally.

About the only discouraging developments were a drop in manufacturers orders and higher inventories in June.

The market apparently already had digested reports of record corporate earnings for the second quarter and was turning its attention to third quarter profits. The averages were helped by gains of 1 1/2 by Union Carbide and 1 1/2 by du Pont.

Outside of the airlines, rubbers were the only group solidly in the column. Goodrich gained about a point on a block of 8,000 shares and Goodyear was up about a half.

Aircrafts were mixed with about a half point.

Prices were mixed on the American Stock Exchange in quiet trading.

Corporate bonds were mixed and Governments were mostly unchanged.

Pontiac Exec Gets New Job

M. R. SPEARS

M. R. Spears, former director of Pontiac Motor Division's field training, has been named head of the new relations department.

Frank Bridge, Pontiac general sales manager, said the new department's primary objective is to record the views of Pontiac owners coast-to-coast.

Car owners will be questioned about styling, mechanical features and dealer service.

"In addition," Bridge said, "we will encourage them to write us directly to spell out new ways the factory can improve the product and service."

A native Texan, Spears joined General Motors in 1924. He came to Pontiac Division in 1944 as a service advisor.

He went on to become assistant to the sales manager before his most recent post. Spears resides at 1099 N. Woodward, Birmingham.

Grain Slow, Mixed With Little Change

CHICAGO (AP)—Grain futures prices showed little general change today in rather slow and somewhat more mixed early trading on the board of trade.

August soybeans backed down a cent or so a bushel during the first several minutes, but all other contracts shifted only small fractions either way from previous closes.

After a circuitous little support after four previous declines. Dealers said that grain may have been a bit oversold in the view of speculators.

Loss had amounted to about 10 cents a bushel since the season's peak of around \$1.31, a little over two weeks ago.

Grain Prices

WASHINGTON (AP)—The cash price of grain today was about 1/2 cent higher than a year ago.

CHICAGO, Aug. 1 (AP)—Opening futures on grain today were about 1/2 cent higher than a year ago.

CHICAGO, Aug. 1 (AP)—Opening futures on grain today were about 1/2 cent higher than a year ago.

CHICAGO, Aug. 1 (AP)—Opening futures on grain today were about 1/2 cent higher than a year ago.

Deaths in Pontiac, Neighboring Areas

LOIS A. ANDERSON
Lois A. Anderson of 414 Lowell
died yesterday. Her body is at
the Sparks-Griffin Funeral Home.

MRS. ELMER GILSON
Service for Mrs. Elmer (Dottie
E.) Gilson, 73, of 535 Emerson
will be 11 a.m. Saturday at
Voorhees-Siple Park Cemetery.
Mrs. Gilson, a member of the
First Christian Church, Wash-
ington, Ind., died yesterday after
a three-month illness.

Surviving besides her husband
are two sons, Charles Coleman
and Floyd Gilson, both of Pon-
tiac; and five daughters, Mrs.
Clyde Dugger of Valparaiso, Ind.,
Mrs. William Dean of Pontiac,
Mrs. Peter Luchasz of Alpena
and Mrs. William Fisher and
Mrs. Carol Biggs, both of Evans-
ville, Ind.

KEITH A. HARRIS
Keith A. Harris, two-year-old
son of Mr. and Mrs. Albert J.
Harris of 61 E. Rutgers died yester-
day of a virus infection. His
body is at the Donelson-Johns
Funeral Home.

Surviving besides the parents
are grandparents, Albert Harris,
Mr. and Mrs. Gene Buckner, and
great-grandmother Mrs. Edna
Boyle.

MRS. RHODE WILLIAMSON
Mrs. Rhode (Ellen E.) William-
son, 55, of 3831 Lotus Drive, Wa-
terford Township died yesterday
after a brief illness. Her body
is at the Moore Chapel of Sparks-
Griffin Funeral Home in Auburn
Heights.

Mrs. Williamson, a practical
nurse at Pontiac General Hospi-
tal, leaves her husband; her
mother Mrs. Amanda Williams
of Auburn Heights; seven sons,
James of Seattle, Wash., Eugene
of North Platte, Neb., Gary
of Detroit, Rodney of Gagetown,
Mike of Rochester Township,
Donny of Ann Arbor and Rick
at home.

Also surviving are nine grand-
children; two sisters, Mrs. Evelyn
Breckenridge and Mrs. Anna Snyder,
both of Auburn Heights; and
three brothers, George Walker
of Rochester, Fred Everett of Pon-
tiac and Robert Everett of Water-
ford.

MRS. WILLIAM CORNELL
HOLLY - Service for Mrs. Wil-
liam (Mary Jane) Cornell, 62,
of 203 Jones, will be 2 p.m. Sat-
urday at the Dryer Funeral Home.
Burial will be in Rose Center
Cemetery.

Mrs. Cornell died unexpectedly
early today.

She was a member of the auxil-
iary of an American Legion, and
the Blue Star Mothers.

Surviving besides her husband
are three children, Donald and
Olen, both of Holly, and Mrs.
Dale McNamara of Royal Oak;
two brothers, Lee Caswell of
Rose Center and Jacob Caswell
of Pontiac.

**Pontiac Soldier Dies
in Alaska Accident**

A Pontiac soldier serving in
Alaska was killed in an auto ac-
cident Tuesday night near An-
chorage. Dead is Spec. 4 C. Clif-
ford A. Johnson, 35, son of Mr.
and Mrs. Byron Johnson, 33 W.
Fairmount.

The dead man's father said an
announcement from the Army did
not give details of the accident,
other than that Johnson was a
passenger in a private auto. The
body is being returned to Pontiac
for burial.

A veteran of nine years service,
Johnson was divorced and had
no children.

children.

NORA C. FOLEY
MILFORD - Requiem High Mass
for former resident of
C. Foley, 70, of Detroit, will be
9:30 a.m. Saturday at Our Lady
of Loretto Catholic Church in
Detroit. Burial will follow in Mount
Olivet Cemetery, Detroit.

Miss Foley died yesterday af-
ter a lengthy illness.

The Rosary will be recited at
8 p.m. tomorrow at the Ham-
mond and Haas Funeral Home.

Former owner of the Milford
Style Shop, Miss Foley will be in
Orionville Cemetery.

Surviving are two brothers,
Rev. Dominic I. Foley, former
pastor of St. Mary's Catholic
Church here, and John J. Foley
of Jenomine.

Contributions can be made to
the Little Sisters of the Poor,
Detroit.

PETER KRUEGER
HIGHLAND TOWNSHIP - Ser-
vice for Peter Krueger, 65, of 1831
Lakewood, will be 1 p.m. tomorrow
at Richardson - Bird Funeral
Home, Walled Lake.

Mr. Krueger died Monday after
a three-month illness.

Surviving are two brothers,
Frank of Walled Lake and Jacob
of Germany, and two sisters.

ALLEN B. ORR
WHITE LAKE TOWNSHIP - Ser-
vice for Allen B. Orr, 61, of
9093 Pontiac Lake, will be 2 p.m.
Saturday at the Lewis E. Wint
Funeral Home, Clarkston. Burial
will be in Lakeview Cemetery,
Clarkston.

Mr. Orr died Tuesday af-
ter a short illness.

He was a member of the Oak-
land County Sportsmen's Club
and the National Archers Associa-
tion.

Surviving are his wife Helen;
two daughters, Mrs. Evelyn
Breckenridge and Mrs. Anna Snyder,
both of Auburn Heights; and
three brothers, George Walker
of Rochester, Fred Everett of Pon-
tiac and Robert Everett of Water-
ford.

MRS. WILLIAM CORNELL
HOLLY - Service for Mrs. Wil-
liam (Mary Jane) Cornell, 62,
of 203 Jones, will be 2 p.m. Sat-
urday at the Dryer Funeral Home.
Burial will be in Rose Center
Cemetery.

Mrs. Cornell died unexpectedly
early today.

She was a member of the auxil-
iary of an American Legion, and
the Blue Star Mothers.

Surviving besides her husband
are three children, Donald and
Olen, both of Holly, and Mrs.
Dale McNamara of Royal Oak;
two brothers, Lee Caswell of
Rose Center and Jacob Caswell
of Pontiac.

**Hospital Plans
Get Judge's OK**

Southfield Zoning Vote
Is Ruled Invalid

SOUTHFIELD-Oakland County
Circuit Judge Arthur E. Moore
yesterday ordered the city to
permit construction of a \$3-million
osteopathic hospital at 12 Mile
and Evergreen roads.

Judge Moore ruled in favor
of Detroit Osteopathic Hospital,
which twice had been denied a
building permit by City Council
in a zoning controversy.

The judge said the council's de-
nial of the permit by a 4-3 vote
was insufficient to overrule the
city planning commission's ap-
proval. He said the law requires
a two-thirds vote.

The two-thirds rule applied, he
said, because the council could
act only as a board of appeals
from the planning commission's
decision, not as an adminis-
trative body passing on requests
under its own ordinances with the
planning commission's vote
merely as a recommendation.

"The planning commission vote
was the controlling vote," he
said.

The zoning ordinance permits
a hospital on residentially
zoned land "upon a finding that
the use will not be injurious to
the surrounding neighborhood."

The council's 4-3 vote came af-
ter Judge Moore sent the case
back to the city, saying the pre-
vious 5-2 vote against the build-
ing permit was improper because
such extraneous matters as citi-
zen protests had been considered
in addition to the question of
injury to surrounding property.

**Police Chief
Fired From
Post In Troy**

TROY - City Manager David
E. Firestone fired Police Chief
Fred E. Gralop yesterday, say-
ing Gralop had a "lack of ability
to manage a department of
that type."

Firestone said today he has
been giving Gralop both writ-
ten and verbal warnings for more
than a year.

The chief had been head of the
police department for the past 11
years, both before and after Troy
became a city.

"His operation of the depart-
ment has not been satisfactory,"
Firestone said. The city man-
ager pointed out that Gralop
had not turned in the re-
quired monthly reports since
January.

Presently a 17-man force, the
unit is presently headed by acting
chief William Schwardt, also an
11-year veteran.

Firestone said he requested
Gralop to resign Monday, and
was waiting with the confirmation
of the City Commission.

Gralop refused to resign, Fire-
stone said, and was fired early
yesterday.

It is expected that a new police
chief will be appointed within two
weeks, Firestone said.

**Trio Bound Over
to Circuit Court
for Break-In**

**At Movie Office,
Take \$100 in Cash**

A safe cracking at the Blue
Sky Drive-In Theater in Pontiac
yesterday by detectives from the
Oakland County Sheriff's Depart-
ment.

Manager Harry Thompson dis-
covered the break-in and theft
of the safe when he arrived at
the theater, 2150 N. Odyke,
yesterday afternoon.

Police found the 100 pound safe
some 700 feet from the office. It
had been hidden behind a fence.

The door had been ripped open
and \$100 in cash was missing.

**They are Roger Miracle, 17,
Robert Van Kleeck, 17, and his
brother, Fred, 17. The trio lived
at 4555 Reister, Independence
Township.**

All are being held in the county
jail after failing to meet bond
set by Waterford Township Jus-
tice John McGrath.

They are accused of the break-in
of the Clintonville Super Mar-
ket, 4944 Clintonville.

TWISTER DAMAGE — This State Highway Department truck and the roof of the department's sign shop at Cadillac were damaged when a tornado hit the area last night. Witnesses said the truck was thrown as high as telephone lines.

At Cadillac Outskirts

Tornado Strikes North

CADILLAC (AP) — A roaring tornado mauled several buildings, tossed a panel truck to telephone-wire height and threatened at least four counties in Northern Michigan — but injured no one — last night.

The tornado missed a residential area in Cadillac, where it concentrated its punch. It also bypassed the Northern District Fair nearby and the Clare County Fair in Harrison before dying in the cool night air.

Residents watched the funnel form out of swirling clouds and roar eastward across the north side of Cadillac, where it tore the roof off a Highway Department sign shop and flattened a scrap material warehouse.

The twister also damaged a glass shop and a service station and folded up a 100-foot-tall Westford County Highway Department radio tower.

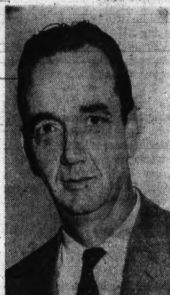

"It was whirling around so much you couldn't tell which way it was going," one Cadillac woman said.

The funnel passed over a residential area and then veered south, with two state police cars racing it to warn farmers in the area.

One car had to stop momentarily to get the twister past. Troopers said it sounded like a freight train.

Police followed the tornado about 20 miles to the Clare-Oscoda County border. Funnel sightings also were reported in Midland County and the weather bureau issued warnings to Gladwin, Arenac, Saginaw and Bay counties to the east.

There were no further serious damage reports, however.

JOHN MACKIE

Technical Hitch Forces Delay in 'Peaceful' N-Test

WASHINGTON (AP) — The government announced today that "technical difficulties" necessitate postponement of plans to detonate a special nuclear device underground at Carlsbad, N.M., this year as part of its program to develop peaceful uses of nuclear explosives.

The project, known as "Project Conquest" — aimed at studying the possibility of producing new chemical elements by means of atomic blasts — was originally scheduled to be held some time during 1963.

But the Atomic Energy Commission reported today that a postponement was needed because of technical difficulties related to the development of the special nuclear explosive device required for this experiment.

The original plans called for detonation of a device packing somewhat less than 10 kilotons of energy — the equivalent of 10,000 tons of TNT.

Mackie Eying Governorship

Also Views Congress if Road Post Abolished

LANSING (AP) — Highway Commissioner John Mackie says he would consider running for governor or for Congress in 1964 if the legislature, in implementing the new constitution, decides to abolish his job at the end of this year.

Any proposal to wipe out his job or limit his powers until his term of office expires in mid-1965 would be "a 100 per cent blatant political move," Mackie said.

The highway commissioner reacted defiantly yesterday to the suggestion by Sen. Garret Brown, R-Schoolcraft, that the legislature may either abolish the job or strip him of his authority.

Brown is chairman of an agency subcommittee of a larger legislative committee studying implementation of the constitution in the special fall session.

He said the legislature could enact a law abolishing Mackie's \$17,500-a-year job, or limiting his powers and duties, when the new way commission is created under the constitution.

Unless this is done, said Brown, Mackie could continue to exercise his authority until he goes out of office on June 30, 1965.

"I have fully intended to finish out my term, but if Mr. Brown and the others, in their erudite political opinion, decide I should be thrown out of the job, then I will have to change my plans," Mackie said.

"This means I would consider running for another political office — governor or Congress."

Mackie's name is usually included on the list of potential Democratic candidates for governor and he has been regarded as one who might make a challenge in 1966.

He has not been discussed widely as a 1964 candidate because the new constitution, against which he spearheaded the Democratic party's opposition, provides that any elected official whose job is abolished can serve out his term.

Mackie charged that the Republican-controlled legislature, by abolishing his job or limiting his powers, would be "using the constitution as an excuse" to get him out of office early.

News Flash

WASHINGTON (UPI) — The House Foreign Affairs Committee reached agreement today on a foreign aid bill totaling slightly less than \$1.1 billion. This was \$438 million below what President Kennedy wanted.

Says North Korea

'U.S. Provoking War'

Goldwater Hits Pentagon Order on Segregation

Arizona Senator Says Robert Kennedy Using 'Police State' Tactics

WASHINGTON (AP) — Sen. Barry Goldwater has opened fire on a Pentagon directive that could put segregated communities off limits for servicemen.

The Arizona Republican, regarded as a leading contender for his party's 1964 presidential nomination, rocketed a "police state" charge Wednesday at Atty. Gen. Robert F. Kennedy.

There was no immediate comment from Kennedy, who has been a favorite target for Southern critics who oppose the administration's civil rights program.

Goldwater told the Senate that a directive authorizing commanders to bar servicemen's visits to segregated areas near military bases "started in the attorney general's office."

He said teams headed by Alfred B. Pitt, assistant secretary of defense for civil rights, had visited base areas "completely armed with dossiers on the businessmen in the community, complete with every figure the committee can get out of income tax returns."

PROMPTLY DENIED

A Defense Department spokesman promptly denied that Pitt or any members of his group have had information on businessmen taken from income tax records or the files of any government agency.

Goldwater proposed an investigation into "the directive and those people who have pushed it and the full use of the power of the police state by the attorney general."

Sen. Richard B. Russell, D-Ga., Services Committee, said in an interview that President Kennedy "supremely" set up the civil rights committee composed of "three Negroes and four white members who are associated with the extreme left wing of the Democratic party" without informing Congress of the action.

To Reign at Fair

4-H Royal Couple Selected

The best of this year's crop of county 4-H'ers were chosen yesterday to reign as king and queen of the 4-H fair next week.

Eighteen-year-old Tom Middleton and Carmen Sue Miller, 17, were selected to rule over the 1,500 youngsters participating in the annual event.

"Carmen, who works on her 4-H projects along with other

members of the Seymour Lake Club, could hardly wait to call her parents, Mr. and Mrs. Milton Miller, at home, 3410 Barnmouth, Brandon Township.

Although surprised yesterday, her mother is accustomed to Carmen's winning 4-H honors. When she was 15, the pretty redhead was chosen 4-H queen.

On best of the 4-H'ers entering dressmaking competition.

But Carmen doesn't limit her interests to 4-H work. She is also a member of the student council of Brandon High School, where she will be a senior next year.

After high school, Carmen will be off to Eastern Michigan University for studies in special education.

Carmen's king is following in the footsteps of an older brother, Larry, who ruled over the fair in 1959. Tom also is no newcomer to the winner's circle.

He is a junior 4-H leader and was chosen by Lake Orion High School to attend Wolverine Boys State in Lansing this year.

Tom lives with his parents, Mr. and Mrs. Keith Middleton, on their farm at 2610 Stoney Creek, Oakland Township.

In addition to reigning as king of the fair, he will be exhibiting two calves and three stalks of his prize corn.

The two outstanding youngsters were chosen by judges Mrs. Elizabeth Kittle, 4-H agent for Genesee County, and Howard Heldenbrand of the Pontiac Press editorial staff.

Also included on the judging panel were last year's king and queen, Lyle McLachlan and Rickie Ann Hoxie.

This year's honored couple will be featured in a parade through Pontiac Monday and will be crowned in a public ceremony at the 4-H fairgrounds, Perry just south of Walton, Tuesday night.

Pontiac Press Photo

FAIR ROYALTY — Carmen Sue Miller and Tom Middleton, beamed yesterday after they were chosen to reign as king and queen of next week's 4-H fair. Both are veterans in 4-H work.

Ward Lingers Near Death in Artificial Lung

LONDON (AP) — Dr. Stephen Ward was placed in an iron lung with bronchial pneumonia and was reported near death tonight.

Convicted on two vice charges growing out of Britain's sex and security scandal, the society osteopath was in a deep coma from an overdose of drugs taken yesterday on the last day of his trial.

The pneumonia developed after throat surgery this morning to ease his breathing.

Ward was unaware that a jury in the Old Bailey Court (Continued on Page 2, Col. 4)

Teamster Exec. Gets Probation

Pontiac Local Official Fined \$1,500 in Case

Floyd B. Harmon, 49, secretary-treasurer of Pontiac Teamsters Local 614, yesterday was fined \$1,500 and placed on probation on 24 counts of embezzlement and falsifying union records.

Federal Judge Talbot Smith imposed the fine and put Harmon on two years probation on the first count and two years probation on the remaining 23 counts.

The probationary periods will run concurrently.

Chief Assistant U.S. Attorney William Merrill said the sentence meant that Harmon wouldn't be able to hold a union office again under the Landrum-Griffin Labor Act.

Harmon of 2990 Barnes, Waterford Township, was convicted on 32 counts of embezzlement and 12 counts of falsifying union records in Detroit Federal Court May 8.

His attorney, George Woods, former U.S. attorney, said after hearing the sentence that he didn't know whether an appeal would be filed.

Merrill said Woods had 10 days in which to file an appeal with the 10th District Court of Appeals in Cincinnati.

Harmon had faced a possible maximum sentence of 72 years in jail and a fine of \$240,000.

The teamster official had been charged with embezzling \$2,085 from the union treasury by using gasoline credit cards to purchase supplies for his private, 32-foot cabin cruiser.

Smith, in passing sentence, said "union funds are not at the personal disposal of union officials no matter who they are."

Harmon had been free under a \$100,000 bond.

Each of the 24 counts carried a maximum fine of \$10,000. The embezzlement counts each carried a maximum jail sentence of five years and the falsification counts, one year each.

Clouds to Roll By as Temperature Sails Up to 87

The weatherman said tonight will be fair and mild with a low of 62, but clouds will dot the skies tomorrow, and temperatures will rise to 87.

Scattered thunderstorms and warm is the prediction for Saturday.

Morning westerly winds at 5 miles per hour will shift to west to northwest at 10 to 15 m.p.h. late today diminishing to night and becoming southerly at 8 to 15 m.p.h. tomorrow.

A light sprinkling of rain fell in the downtown area last night. The lowest temperature was 62 a.m. — was 62. At 1 p.m. the recording was 68.

For Industry

Drive Tops \$108,600

Pontiac's Greater Industrial Development Corp. gathered added momentum with 23 more individuals or firms pledging support.

This is in addition to the 99 firms or individuals reported previously.

Returns as of this morning total \$108,600, up more than \$7,000 since yesterday, according to the Chamber of Commerce.

The development corporation has options on land for an industrial park, to draw more companies and jobs to the city.

Oakland County Congressman William S. Broomfield wired congratulations today on the successful drive.

"Pontiac is to be congratulated on this energetic, imaginative approach. I am sure that this program will provide new and new opportunities for Pontiac."

Max Adams, The Chamber of Commerce and The Pontiac Press have done an excellent job in pointing out the need for this program," he concluded.

CITED FOR RESCUE — Oakland County Sheriff Frank Irons (right) yesterday presented his department's first certificates of merit to two men who aided in the rescue of six persons whose boat sank June 16 in Clark Lake. The

award recipients are Jack Houser (left) of 6137 Bervey, Conjuncture Township, and Roger Bryant of 6183 Bowers, William McKeever of Northville, who also assisted in the rescue, will receive a similar certificate.

THE OVER PAGES JFK to Renew Support Plea

WASHINGTON (UPI) — President Kennedy is expected to emphasize anew today his hope for public support of the nuclear test ban to be signed in Moscow next week.

The President scheduled a

LAWRENCE E. MILLER

Officer Gets State Award for Service

Trooper Lawrence E. Miller of the Pontiac post has been named Michigan State Police "Trooper of the Year" for 1962.

Miller, 25, was named yesterday by a four-man civilian committee in East Lansing because of the diversified nature of his public service activities.

These included first aid classes for school bus drivers in Oakland County, many instructional appearances on rescue breathing and traffic safety matters and work with juvenile groups.

Last year, Miller trained over 150,000 persons in month-long rescue training and taught traffic safety to 73 elementary schools in the Pontiac area.

Stationed at the Pontiac post since June 1960, Miller is married and lives with his family at 4915 Walnut Lake, West Bloomfield Township.

In February, Miller was recognized for his service to the community by the Pontiac Area Junior Chamber of Commerce, which named him the Pontiac area's outstanding young man of the year.

The Trooper of the Year award carries with it a \$500 donation which can be used by Miller in three ways: furthering education, donations to charitable causes or worthy projects or for the welfare of department workers.

news conference for 3 p.m. (Pontiac time), which could serve as a forum for his new appeal. The conference was being televised and broadcast live to the nation.

Kennedy was believed ready to give some indication of U.S. reaction to the attitude of French President Charles de Gaulle, who has declined to sign the pact and plans to continue his test program.

It was considered unlikely, however, that the President would clarify in any great detail the question of whether the United States was prepared to assist France with information and weapons if the French kept their experiments underground.

Undersecretary of State W. Averell Harriman said yesterday the President could be expected to give some observation on the French attitude toward nuclear testing. The President was understood to be wary of taking too definite a position pending further study.

Harriman pumped more steam into the administration drive for test ban approval by asserting that the United States would "lose our leadership of the world" if the Senate failed to ratify the ban on air, space and underwater tests.

He spoke at a National Press Club lunch not long after the White House announced that a 11-man delegation, including four Democratic and two Republican senators, would accompany Rusk to Moscow Friday.

Conference on Arms Pauses for Signing

GENEVA (U) — The 17-nation disarmament conference went into a 11-day recess today to make way for the signing of the American-British-Soviet nuclear test ban treaty in Moscow next week.

The conference chairmen — Charles G. Steele of the United States and Semyon K. Tsarapkin of the Soviet Union — are going to Moscow for the new discussions scheduled by the Big Three foreign ministers.

The conferees adjourned only two days after they resumed work following a six-week recess. Gen. E.L.M. Burns of Canada suggested Steele and Tsarapkin get together in Moscow with Secretary of State Dean Rusk and Soviet Foreign Minister Andrei A. Gromyko to try to work out an agenda for the Geneva negotiations.

Traffic Toll Hits 937

EAST LANSING (U) — Traffic accidents have killed 937 persons in Michigan so far this year, provisional figures compiled by state police showed today. The toll at this date last year was 825.

COURTESY CALL — U.S. Defense Secretary Robert S. McNamara (right) meets with West German Chancellor Konrad Adenauer in Bonn, Germany, today, while conferring with German defense officials on weapons research within the NATO alliance.

Defense Chief of U.S. to See German Army

BONN, Germany (AP) — Robert S. McNamara, U.S. secretary of defense, left today for a look at West Germany's forward defenses along the Iron Curtain.

He had spent a day and a half talking to top West German officials, including Chancellor Konrad Adenauer.

McNamara and West German Defense Minister Kai-Uwe von Hassel said their talks had been fruitful and helpful.

They have been talking about a new agreement on West German military spending in the United States, designed to offset American spending on U.S. troops in Germany.

West Germany now is spending \$600 million to \$700 million a year in the United States, and McNamara would like to raise the figure.

They also discussed new weapons, including a missile-firing tank that West German experts have designed for the 1970s.

West German military men have been pushing hard for a forward strategy that in a war would protect as much of West German territory as possible. This implies an early decision on the use of nuclear weapons.

McNamara's inauguration will continue

Orchard-take Ave. Will Close Street

Motorists who normally use Orchard Lake Avenue should find a new route next week.

Orchard Lake, which will be closed to through traffic at Cass and Telegraph beginning Monday for construction of a sewer and repair of a railroad crossing.

City officials said the sewer trench will be cut across Orchard Lake at Thomas.

CREWS WORKING
Grand Trunk Western Railroad crews will be working on the crossing near Beaudette Park.

Weather permitting, the work should be completed by next Friday.

The detours will affect all streets which empty into Orchard Lake, particularly Ottawa, Voorhees, Johnson, Bagley and Franklin Boulevard.

The eastbound lane on Orchard Lake will be open to vehicles coming from Bagley, Johnson and Franklin Boulevard, but westbound traffic will be routed to West Huron.

At the Orchard Lake-Voorhees intersection, westbound traffic on Ottawa will detour onto Voorhees and eastbound vehicles will be detoured onto Ottawa.

The sewer and rail crossing work is preparatory to black topping Orchard Lake later this month.

N. Korea Charges U.S. Warmongering

(Continued From Page One)
spotlights searched the banks of the Imjin River along the demilitarized zone for more Communist infiltrators.

Brig. Gen. Charles Pershing Brown of McAlester, Okla., acting commander of the 1st Cavalry Division, ordered searchlights to brighten the 19 1/2-mile front patrolled by his outfit.

House to End Rights Hearings

Rioters Put Chicago on Racial Scene

From Our News Wire
WASHINGTON — Slow-paced House hearings on civil rights wind toward an end today while in the Senate the stages are set for another round in the debate between Atty. Gen. Robert F. Kennedy and Sen. Sam Ervin D-N.C.

The House Civil Rights subcommittee, which began taking public testimony on May 8, hears from South Carolina Atty. Gen. Daniel R. McLeod. Friday, the group starts its crucial, closed sessions to work out a bill.

Meanwhile, in Chicago, hundreds of whites milled around the apartments of two Negro families in an all-white neighborhood for the third straight night and bearded police units moved to restore order early today.

Bricks and rocks were hurled while police, who sealed off the area and closed taverns, struggled to disperse the surly crowd.

Four policemen were injured and at least 47 persons, including six Negroes, were arrested. Two Negro boys were knocked off their bicycles and beaten.

Police from every district in Chicago were summoned to quell the demonstration in the white working class neighborhood about one block from Chicago's South Side where most of the city's 800,000 Negroes live.

Civil rights pickets turned out again today at the New York City construction site where a battle erupted yesterday when police tried to move the demonstrators behind barricades.

In Birmingham, Ala., downtown stores which had quietly desegregated their lunch counters have been picketed by a group of white men.

In Baton Rouge, La., three Negroes have been hit as city policemen — the first of their race on the police force. Chief Wingate White said three white men and the three Negroes were among 14 persons who passed a civil service test Tuesday.

In Hollywood several top entertainers personalities said they will march on the nation's capitol next month in support of civil rights legislation.

The delegation includes actors Charlton Heston, Marlon Brando, Tony Curtis, Mel Ferrer, Tony Franciosa, Peter Brown and Burl Lancaster and director Billy Wilder.

Walter A. Lewis, Service for Walter A. Lewis, 60, of 16233 Kirkshire, Birmingham, will be 10 a.m. Saturday at the Manley Bailey Funeral

Service for Robert Buchanan, 50, of 1280 Suffield, Birmingham, will be 2:30 p.m. Friday at First Presbyterian Church. Burial will follow in Acacia Park Cemetery, Southfield.

Robert Buchanan died yesterday after a brief illness. His body will be at Bell Chapel of the William R. Hamilton Co. until noon Friday.

An engineer for Pontiac Motor Division, Mr. Buchanan was a member of the Society of Automotive Engineers, Engineering Society of Detroit and the American Society of Body Engineers.

Surviving are his wife Grace, two children, Linda and Ronald, both at home; and a sister.

Kingswood Campers Plan Journey to 'Oz'

BLOOMFIELD HILLS — Kingswood summer day campers will visit the "Land of Oz" Friday afternoon before taking leave of the Bloomfield Hills camp site.

They will conclude their camp activities with an adaptation of L. Frank Baum's "The Wizard of Oz."

The 2 p.m. presentation is under the direction of Robin Ruhl.

A cast of 40 children from 5 to 12 years old is now in rehearsal for the play. Campers are making their own costumes of cardboard, paint and other materials.

When the characters enter the Emerald City, the parents and friends in the audience will don special glasses which will make the scene, cast and costumes appear green.

A group of dance sketches involving the poetry of Carl Sandburg will precede the play at 1:30 p.m. About 15 campers will participate in this presentation.

Service for Leroy W. Melms, 56, of 32351 Verona, Birmingham, will be at 11 a.m. Saturday at Bell Chapel of the William R. Hamilton Co. Burial will be in Chicago.

Mr. Melms died yesterday after a brief illness.

A brokerage manager at Traveler's Insurance Co., of Detroit, Mr. Melms was a member of the First Methodist Church.

Surviving are his wife Genevieve R., three children, William R., of Peoria, Ill., Robert P., of Glendale, Calif., and Mrs. Melms, of Wichita of Cincinnati, Ohio, and five grandchildren.

Service for Robert Buchanan, 50, of 1280 Suffield, Birmingham, will be 2:30 p.m. Friday at First Presbyterian Church. Burial will follow in Acacia Park Cemetery, Southfield.

Council Session to Eye Airport

Waterford Group Also to View Government

Functions of township government and the Pontiac Municipal Airport will be discussion topics at next Tuesday's 8 p.m. meeting of the Greater Waterford Community Council.

All meetings of the council are held at Pierce Junior High School and are open to the public.

Robert Richmond, recently appointed assistant to the township supervisor, will discuss the township budget, taxes and the airport.

Police Chief Millard Pender will explain the operation of his department and Fire Chief Lewis Goff will speak on the fire department function.

A progress report on the township's water and sewer programs will be presented by Melvin Straiter of Johnson and Anderson, Inc., the township's consulting engineers.

The council, which opposes expansion of the airport to support jet aircraft, presently is forming an airport study committee to further investigate probable effects of expansion on the community.

Norway Woman First Gal to Fly Over North Pole

BODOE, Norway (AP) — A blonde Norwegian housewife today became the first woman to complete a flight over the North Pole from Alaska to Norway in a single-engine plane.

Ingrid Pedersen, 30, landed her Cessna at this north Norwegian city, completing a flight from Fairbanks, Alaska, with a short stop at Nord, Greenland.

The flight was a busman's holiday for her husband, Einar, chief navigator of the Scandinavian Airlines system. He navigated the plane across the ice cap around the pole—as he has done more than 150 times with airliners.

He also made a great number of photographs of the ice from the low height at which the couple flew.

The couple landed 49 hours and 46 minutes after taking off from Fairbanks. A large crowd was at the airport in the light summer night.

Freeman Visits Polish Farms; Grain Plea Made?

WARSAW, Poland (AP) — U.S. Secretary of Agriculture Orville L. Freeman visited Polish farms today after reportedly hearing a plea from Communist leaders for grain to feed this drought-stricken nation.

Freeman was to inspect private and state farms and one of Poland's 28,000 "farmers' circles."

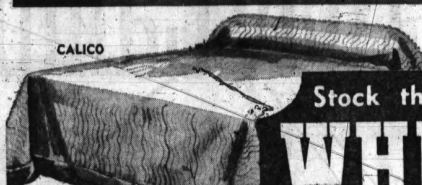

Poland's predominantly private farmers are asked to join the circles to cooperate in the use of tools and fertilizer.

Freeman was received yesterday by Foreign Minister Adam Rapacki and two members of the politbureau, Vice President Edward Ochab and Planning Commission Chief Stefan Jedrychowski.

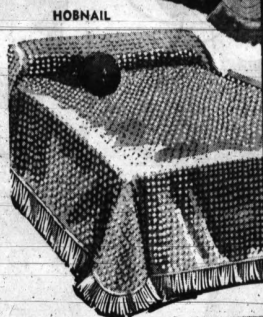

The talks reportedly covered shipments of U.S. surplus grain to Poland and U.S.-Polish trade.

Look for the Sign With the I.D.L. Triangle

STOCKHOLM, Sweden (AP)—Facing mounting criticism, Premier Tage Erlander told the nation last night an exhaustive probe would be launched into the government's alleged delay in arresting a Soviet spy.

Erlander said the "extent of Wennerstrom's criminal activity" was learned only after he confessed that he had spied for the Soviet Union for 15 years.

A special government-investigation commission has disclosed

that Wennerstrom was tagged as a spy risk four years ago. But Erlander claimed the security service lacked evidence until May, when Wennerstrom was arrested.

Iowa Convict Remains on Top of Water Tower

FORT MADISON, Iowa (UPI)—Convict William T. Bradley remained atop the 125-foot water tower at the Iowa State Penitentiary today for the fifth consecutive day.

Bradley, 46, apparently was protesting his 25-year sentence for assault and being an habitual criminal.

New U.S. Bomber Faster Than Sound

EDWARDS AIR FORCE BASE, Calif. (AP)—A new fighter-bomber, with speed listed at about 1,000 miles an hour, has been tested at this desert test center.

Northrop Corp. said its F5A, designed to carry guns, bombs, missiles and napalm, is the only faster-than-sound U.S. aircraft capable of landing on sod fields close to combat areas.

Some of the planes are destined for use in military assistance program countries.

Polly's Pointers

Wear Golfing Shoes

By POLLY CRAMER

DEAR POLLY.—My husband said, "Send these to Polly." While cutting grass on a terrace or slope, wear golf shoes. This makes for sure-footed cutting and has not hurt our lawn. In cold weather, wear cotton gloves under your rubber gloves when you wash windows or hang out clothes. Polish golf irons with silver polish to make them look like new.

—L. A. S.

DEAR POLLY.—Here is a sewing tip: When making darts in the waist of a dress, I pin a piece of lightweight cardboard or a long envelope from the top dots to the dot at the end of the dart and machine stitch along the edge of the cardboard. The cardboard out of a hose box is excellent. This is a fast method and the lines will be straight and will come to a nice point.

—Mrs. H. L.

DEAR POLLY.—Whenever our family makes telephone calls, we put the 10 or 25 cents in a little "kitty" bank that stays near the telephone. Then when the telephone bill comes, we have the money ready.

—Miss D. H.

DEAR POLLY.—I find ironing board clamps useful in reupholstering piano stools, chairs, etc. First clamp the material in place with the spring-type clamps and hammer in the upholstery tacks. Remove clamps. No more slipping and sliding, no more baggy upholstery. You get a tight, professional look.

—A. McG.

DEAR POLLY.—My daughter in Denver sends me your column, which I enjoy so much. Here is a vacation hint: When a family is going on a vacation trip by car, pack suitcases for the children in layers, a complete change in each layer. Allow two days' wear for a pair of blue jeans. The clean clothes are never messed over; everything for one change is together. Put all soiled clothes in another suitcase or a laundry bag.

—Mrs. M.M.

DEAR POLLY.—I have learned so many practical household hints from the column that it is a pleasure to pass on one of my own.

When I polish the arms, sides and legs of chairs that have cloth seats and backs, I always hold a large square of brown paper over the upholstered part while I polish the wood, to protect the upholstery. I keep this paper over the seat or back even while I am rubbing off the excess polish.

—Mrs. L. W.

Share your favorite homemaking ideas . . . send them to Polly in care of The Pontiac Press. You'll receive a bright, new silver dollar if Polly uses your ideas in Polly's Pointers.

Golf League Holds Picnic

The Ladies Tuesday Tee Golf League held its annual picnic following a round of golf Tuesday.

Mrs. Robert L. Taft opened her Shoreview Drive home for the occasion. Refreshments were served after a brief business meeting.

Mrs. William Sparks and Mrs. Thomas Zielinski headed the committee work for the day.

Plans were completed for the husband's day picnic Aug. 18 at the Deer Run Drive home of Mr. and Mrs. Albert H. Anselmi.

Mrs. Raymond Kniel, Mrs. Calvin C. Warner and

Mrs. George W. Parsons will work on the committees for this event.

Winners for the team play for the day included Mrs. J. L. Root and Mrs. D. E. Van-tine, first-place winners; Mrs. Kniel and Mrs. Taft, second-place winners and Mrs. Euell Smith and Mrs. Warner, third-place winners.

Mrs. Addy Wiececrak and Mrs. Taft were prize winners for low gross and low net, respectively.

Dry cleaning originated in France about the middle of the 19th century.

Garden Group Names Officers for Coming Year

Mrs. Warren C. Clevon of Timore Drive was hostess Tuesday evening to the Lorraine Manor Garden Club, a branch of Woman's National Farm and Garden Association.

The president, Mrs. Ray Allen, appointed committee chairmen for the coming club year.

Mrs. James M. Mood will serve on the civic improvement committee; Mrs. Fred B. A. n father, conservation; Mrs. Glen R. Hickson, conservation; Mrs. Robert Humphreys and Mrs. Robert Smith, marketing; Mrs. Clevon, program; Mrs. Robert Smith, publicity and library; Mrs. Joseph Carpenter, telephone; and Mrs. Elvin McCarty, hospitality.

Party Honors Naturalized Citizen Group

A graduation party Monday evening in the classroom at Pontiac Central High School honored members of Janice Anton's group who became naturalized in court last week.

Mrs. Lee Hill and Americanism chairmen, Mrs. Mary Todd, General Richardson chapter, D.A.R., and Mrs. Joseph Phillips of the American Legion Auxiliary, Chief Pontiac Post, spoke briefly.

New American citizens honored were Verna Paine, Mr. and Mrs. Elmer Krampetz, Mary Tompanas, Mr. and Mrs. Gerrit Hoogenstryd, Bernice Wheeler and Mr. and Mrs. Fred Madaras.

Slide Into Bags

Slide sandwiches into bags. Turn over the top of the bag, crumple it and slide the sandwich in. (The bag is crumpled in the middle of the bag.)

For Easy Ironing

Your ironing chore will be easier if you use even strokes and lift the iron as little as possible.

Why Grow Old?

By JOSEPHINE LOWMAN

Boredom is perhaps the most vicious enemy of a vibrant personality. Any woman or man who desires to possess that elusive and magic quality—charm—can not afford to be bored, or to bore.

The old saying that "An interested one" is a very true, trite though it may sound. If you observe, you'll find that the person who charms you seems to hang on your every word.

If you are a fastidious person, one with good taste and a degree

The habit of criticizing comes easily, and creates a temporary feeling of superiority. It may become a chronic habit before you realize it.

We all know the person who isn't satisfied with anything. The dinner was awful, the play was awful, and if the reviews read otherwise, the reviewers don't know their business. Everyone they meet is stupid.

An acquaintance of mine once said, "Individualism, unless it can become socialized, is truly a pain in the neck to society," and no truer words were ever spoken. Individualism as such, can be a charming trait.

But it can also be overemphasized to the point that the individualist becomes the eccentric.

Boredom blankets life with a fog of drabness, and can even cause physical illness. It certainly takes the spark out of personality.

If you wish my free leaflet, "Grace and Charm," send a stamped, self-addressed envelope with your request for leaflet No. 57 to Josephine Lowman in care of The Pontiac Press.

Prof. States Science Needs More Girls

MADISON, N. J. (UPI)—The number of women training for careers in science is increasing, but not rapidly enough.

So says Dr. William G. Torpey, manpower specialist, Office of Emergency Planning, the federal government.

Torpey, writing in the current issue of "University Woman," said additional numbers of women should be enrolled in collegiate programs to "meet even current demands" for scientists.

He predicted there would be "opportunities for considerable additional numbers of women" in the field. He added that "a fundamental reason for the very small number . . . is a traditional (although seemingly irrational) attitude that science is a man's field."

The "University Woman" is a quarterly magazine published on the campus here of Fairleigh Dickinson University.

From Chemical Concern

Noted General Retires

By ROGER LANE
AP Business News Writer

NEW YORK — Gen. Anthony C. McAuliffe, famed for his "crazy" reply to a surrender demand, said today he feels almost the same way about retiring as a business executive.

"I'm already unhappy at the prospect of not coming to work tomorrow," McAuliffe said in his last hours as a vice president and director of American Cyanamid Co.

"I'm not going to like it unless I find something interesting to do."

McAuliffe is leaving Ameri-

can Cyanamid under its compulsory retirement at 65 policy.

Almost 19 years have passed since he wrote an imperishable page in American military annals during the Battle of the Bulge, then raging around Bastogne, Belgium.

Although his paratroops of the 101st Airborne Division were survivors and outnumbered 4-1, McAuliffe spurred surrender to the Germans.

The tide of battle turned in succeeding days, hastening a victorious end to World War II.

Looking back, McAuliffe, still a wiry 5-foot-8 and 135 pounds,

agreed the incident capped his colorful and varied career.

SATISFACTION
"Nothing else gave me the same satisfaction and thrill," he said.

Such as he would like to keep busy, McAuliffe made it clear he is not interested in sitting on advisory boards at the Pentagon.

"They've asked me three or four times, and I always said no," he said. "I don't believe in honors and commissions. All they do is sit around and palaver, and never get anywhere."

"They file a report and that's the end of it usually—I still feel the same way."

McAuliffe said post-World War II assignments, including a stint as commander-in-chief of the U.S. Army in Europe, paved the way for later success in business.

"A commander who spends a lot of time overseas already is in big business," he said.

Following retirement from the Army, McAuliffe joined American Cyanamid, a chemical concern, at the age of 37 in 1944 as general manager of engineering and construction, rising to a vice presidency later.

When company headquarters moved to Wayne, N.J., near Rockefeller Center in uptown Manhattan, McAuliffe used to walk to and from work, a distance of about 35 blocks, from his 88th St. apartment.

TWO-MONTH TRIP
His immediate plans are for a two-month-trip to the Mediterranean with his wife and three grown children. Then, he'll take up residence in Washington.

McAuliffe said he felt the same principles contributed to his success both in the military and business. One of the foremost:

"Never go to your superior until you're sent for."

Of the outlook for war or peace today, McAuliffe said he felt the nuclear test ban treaty initiated last week by Russia, the United States and Great Britain "very encouraging."

"But I always liked Theodore Roosevelt's crack about speaking softly and carrying a big stick," he said. "I hope we keep doing it."

News in Brief
A lady's coat with a \$169-trimmed collar valued at \$169 was reported stolen yesterday from Ziebach's Suburban Shop in the Pontiac Mall.

Seven tires and wheels valued at \$210 were reported stolen yesterday from four different cars at the Dixie Highway, Waterford Township.

Armand Stefani, 7110 Hatchery, Waterford Township, told police yesterday that a 14-foot boat, 25-horsepower motor and boat accessories valued at \$1,000 were stolen yesterday from in front of his house.

M. R. SPEARS

Pontiac Exec Gets New Job

M. R. Spears, former director of Pontiac Motor Division's field training, has been named head of the new owner relations department.

Frank Bridge, Pontiac general manager, said the new department's primary objective is to record the views of Pontiac owners coast-to-coast.

Car owners will be questioned about styling, mechanical features and dealer service.

"In addition," Bridge said, "we will encourage them to write us directly to help us improve the product and service."

A native Texan, Spears joined General Motors in 1934 as a service advisor.

He went on to become assistant to the sales manager before moving to Pontiac Division in 1954 as a service advisor.

Successful Investing

By ROGER E. SPEAR

Q "I am 13 years old and a paperboy. I have \$200 to invest and have been thinking of buying stock in Studebaker. Your advice would be sincerely appreciated."

N. Y.

A) You're not only a thrifty and far-sighted paperboy, but a very courteous one as well.

I urge you with the utmost sincerity to give up at this early stage in your career—the temptation but generally fallacious idea that you can "make easy money" in low-priced speculative stocks.

Sludebaker operated at a deficit in the first quarter of 1963 and earned 2 cents a share last year from operations. The company is diversifying, but it is still essentially an automobile producer that has been losing its share of the market in recent years.

If I were in your position, I would buy a very strong, high-quality stock for growth. Borden, the great dairy company, is just such a situation, and I recommend it to you.

Q "I have been considering American Telephone 4½% due 1999 now selling under 100. This offering is below the price set originally by the syndicate. Do you advise me to buy?" R. G.

A) I'm sorry, but I do not. Bond prices fluctuate strictly in accordance with money rates. When money rates are up, bond prices go down, so bond yield rises.

The yield on Treasury bills has been rising steadily, and this is a key indicator of the trend in the price of money. One-year Treasury bills are now selling to yield close to 4½ per cent, and the Federal Reserve has just recently lifted its own discount rates.

to the fee which it charges on loans to member banks.

To rise in the discount rate to 3½ per cent—which took place two weeks ago—may ultimately lift the rate in higher long-term interest rates and lower bond prices, although this is not certain.

I would postpone bond purchases until the money situation stabilizes.

(Copyright, 1963)

Architect Firm Announces Revamping

Swanson Associates, Inc., Bloomfield Hills architects and engineers, today announced the firm's first reorganization since its founding in 1947.

Robert S. Swanson, AIA, 74 W. Long Lake, succeeds founder J. Robert F. Swanson as president. The latter becomes chairman of the board.

He also sits on the board of directors, to which were elected Floyd H. Heineman, Jack K. Montel, Mrs. Pippas S. Swanson, John K. Grylls and John P. Pains.

Heineman was named business administrator. Montel will serve as vice-president, secretary and Grylls as vice-president-treasurer. Richard R. Brown, chief mechanical engineer, was appointed an associate.

Grain Prices:
Chicago, Ill. (AP)—Grain futures prices showed little general change today in rather slow and somewhat more mixed early dealings on the board of trade.

August soybeans backed down a cent or so a bushel during the first several minutes, but all other contracts shifted only small fractions either way from previous closes.

Corn attracted little support after four previous declines. Dealers said that grain may have become a bit oversold in the view of speculators.

Loss had amounted to about 100 cents a bushel since the season's peak of around \$1.31 a little over two weeks ago.

Treasury Position
WASHINGTON (AP)—The cash position of the Treasury today was \$7,600,143,111.81.

Deposits: fiscal year July 1 to June 30, 1963, \$1,812,948,787.91.

Withdrawals: fiscal year July 1 to June 30, 1963, \$1,812,948,787.91.

Total debt: \$1,812,948,787.91.

Deposits: fiscal year July 1 to June 30, 1963, \$1,812,948,787.91.

Withdrawals: fiscal year July 1 to June 30, 1963, \$1,812,948,787.91.
