

Cooper Gets Go Sign for 22 Orbits

MRS. WILLIAM E. BRACE

Woman Gets Top UF Post

Mrs. William Brace
Named Chairman

Mrs. William E. Brace, of 290 W. Iroquois, has been named chairman of the women's campaign committee of the 1963 Pontiac Area United Fund campaign. The appointment was announced today by E. M. Estes, general chairman of this year's drive, which is scheduled to start October 15.

In the months preceding the actual solicitation Mrs. Brace will be in charge of selecting chairmen from Pontiac, Waterford Township and Lake Annapolis who will assist her in recruiting and training more than 1,300 women volunteers for the 10-day residential campaign.

Last year the women's campaign committee raised \$28,657, or 116 per cent of its goal. No goal has been set for this year's drive at this date.

A native of Pontiac, Mrs. Brace graduated from Kingswood School of Bloomfield Hills and attended the University of Michigan where she joined the Gamma Phi Beta sorority.

She is vice president of the Needlework Guild of America in Pontiac, member of all Pontiac Episcopal Church, and a member of the Tuesday Musicals, the Pontiac Panhellenic Association, Beta Theta Phi and Town Hall. An active United Fund worker in the past, she has served as a UF solicitor on numerous occasions.

County Townships Seek Increase in Tax Dollars

More tax dollars as an antidote for growing pains were sought yesterday by most of the townships in Oakland County.

The plea was repeated by the supervisors of most of the 24 townships when they appeared before the County Tax Allocation Board.

Dems Pull a Coup on Ford-Canton Bill

FROM OUR NEWS WIRES

LANSING — Minority Democrats pulled a coup today as Republicans sat at home by showing up at near full strength and passing a resolution that may block Gov. George Romney's Ford-Canton strike benefits bill from going into effect.

The Democrats, catching their Republican colleagues by surprise, passed a resolution calling for a bipartisan committee to investigate how George Romney and American Motors Corp. may benefit from signing of the controversial unemployment compensation bill.

Although called into session only as a token move to permit the senate to confirm an appointment, the Democrats mustered 44 of their 52 House members.

Combined with the 14 Republicans present, this constituted a quorum of 58 and the Democrats — over the objections of the started opposition — passed the resolution.

Republicans, including House Speaker Allison Green, R-Kingsford, contended the resolution was illegal because at the time the vote on its passage was taken, only 48 House members were present.

"This is just an underhanded trick to embarrass the governor and rather unethical," said Green. "In my opinion it is not legal."

BACKS LEGALITY

But Rep. Joseph Kowalski, D-Detroit, the House minority leader, claimed it was legal because a call of the House was put on to return those Republican members who had walked off the floor and were in rooms nearby.

"They were all in the area which the constitution describes as the House," said Kowalski. "It doesn't matter that they didn't all vote."

The Democratic resolution calls for creating a six-member committee of three members from each party, but includes the provision that three shall constitute a quorum of the committee.

Kowalski immediately named three Democrats to the committee, but Green said he would make no move to appoint Republicans.

Photo Objects in Sub Area

Debris May Be Part of Missing Thresher

PORTSMOUTH, N.H. (AP)—An oceanographic scientist said today photographs have been obtained of what appears to be debris on the ocean bottom where the nuclear submarine Thresher is believed lost with 129 men.

The announcement was made at Woods Hole, Mass., by Dr. Paul H. Fye, director of the Woods Hole Oceanographic Institute, who said "it has not been confirmed that these small objects are from the submarine Thresher."

He also said that "no readily identifiable objects are shown, but the pictures are being analyzed and studied by scientists and Navy experts."

Dr. Fye said the photographs were dispatched immediately to the Navy court of inquiry at Portsmouth Naval Shipyard. The court is trying to determine what caused loss of the Thresher during a deep-sea test dive 220 miles east of Boston April 10.

SPECIAL CAMERAS

Dr. Fye said the photographs were taken by special cameras lowered to within 30 feet of the ocean bottom where the water is more than 8,000 feet deep.

The photographs were delivered to Woods Hole yesterday by the research vessel Atlantis II.

Dr. Fye said the cameras were lowered by special cable. The cameras are equipped with lights that flash when the lenses open.

Within a day after Thresher's loss, some debris was recovered from the surface of the water. That debris was identified by chemists and Navy experts before the court of inquiry as made of the same material that went into construction of the \$45-million Thresher.

Search for Thresher is concentrated in a 10-mile-square area. The Navy says that if she is in that area there is a 50-50 chance of finding the submarine.

ALL'S UNDER CONTROL — Walter Williams, Mercury project launch director, leans back with hands behind his head in Mercury Control Center at Cape Canaveral as the center keeps a check on the progress of astronaut L. Gordon Cooper in his multiorbit space flight.

Sharpshooter Act in Ocean

Tension Mounts on Kearsarge

From Our News Wires

ABOARD THE USS KEARSARGE — The aircraft carrier USS Kearsarge cruised slowly in mid-Pacific today, awaiting mounting tension its critical role

in the greatest sharp-shooting act since William Tell.

Its fleet of helicopters were ready, crewmen repeating the drills they have gone through

more times than they can count, mechanics checking and rechecking the equipment.

Shortly before curtain time on Broadway, man will attempt to hit a small target of blue Pacific water with a 17,500-mile-an-hour projectile fired from twice the distance to the moon.

The bulseye is the Pacific within helicopter range of the carrier Kearsarge, now about 100 miles southeast of Midway Island. The projectile is the Faith 7 capsule, carrying astronaut L. Gordon Cooper, who is attempting to merge 22 days and 22 nights in 34 hours.

If the show goes well, and the capsule lands on target, the Kearsarge's helicopters will go after it. They will pick up Cooper and his capsule and bring them both back to the carrier's five-acre flight deck.

An all-male selected audience of 2,156 — the crew of the Kearsarge — will attend the performance.

Should astronaut Cooper score a near miss, hitting the water just outside the range of the Kearsarge, his audience will be even more select, totaling less than 250 — the complements of the destroyers Fletcher and Bole, which range 80 miles on either side of the carrier.

In the choice front row center seats — grouped about the carrier bridge — will be the critics whose reviews will be translated into every civilized language and whose comments will be read, seen and heard wherever communications penetrate.

Most important to the success of the show are the sets. The best attainable both on and above the sea have been assured, with warm blue waters below and semi-clear skies above.

There will be some imperfections, like brisk winds and 5-foot waves, but not enough to mar the act.

A special flag made by crewmen of the Kearsarge will be hoisted when Cooper comes aboard.

It is red, white and blue and has a yellow outline of his capsule in the center, with "Faith 7" in yellow lettering below the capsule's outline.

There's a chance of a few showers late tonight or Friday according to the U.S. Weather Bureau report.

Temperatures will continue mild, the low falling to 50 tonight and the high registering near 72 tomorrow. Saturday's outlook is fair and a little cooler. Morning winds light and variable will become southeast to east at 10 to 12 miles per hour tonight and tomorrow.

The low recording in downtown Pontiac preceding 8 a.m. was 48. The mercury had climbed to 69 at 2 p.m.

Fear Trouble at Trip's End

FROM OUR NEWS WIRES

CAPE CANAVERAL — Official sources said today L. Gordon Cooper may have to resort to hand-operated emergency controls to bring his spacecraft out of orbit. This possibility arose when a light flashed on a gravity force sensing device aboard Cooper's Faith 7 cabin.

The device is tied in with the spacecraft's gyroscope system which tells the automatic stabilization control system what the cabin's orientation is in space.

This is information the automatic system must have to keep the craft's blunt end facing forward at the time the braking rockets are fired at the end of a flight.

The trouble occurred during Cooper's 19th orbit around earth. Cooper reported the .05 G-light, as it is called, in a talk with the Hawaii tracking station.

Since he was in presumably stable orbit at the time, he and his spacecraft were weightless and should have felt no tug of gravity.

This suggested the possibility that the gyro system was at fault and had, perhaps, triggered a false gravity indication.

Cooper should feel no gravity forces until firing his retro-rockets, scheduled for around 6:02 p.m. (Pontiac Time), and the beginning of his craft's descent from space.

In that event, the automatic system geared to the gyro could not be depended to fire the braking rockets automatically, and Cooper would have to perform this function himself.

If no hitch developed, capsule reverse rockets were to fire at 6:02 p.m. (Pontiac time) east of Shanghai and the craft was to descend to a parachute landing 80 miles southeast of Midway Island at 6:30 p.m. — (Pontiac time) — 12:30 p.m. Midway time.

That would be 34 hours and 16 minutes after the Air Force major's Atlas booster rocket blazed away from Cape Canaveral to start him toward a record U.S. man-in-space flight.

As the dramatic journey neared an end, it was obvious Cooper was in high spirits. Voice reports from the capsule were crisp and clear.

Weather in the planned 22nd orbit landing area was reported as clear.

Family Plans to Meet Cooper

Book Passage on Jet for Trip to Honolulu

From Our News Wires

TAYLOR LAKE VILLAGE, Tex. — Mrs. L. Gordon Cooper and her daughters broke out their luggage today and booked passage on a jet plane to Hawaii.

They plan to join astronaut Cooper at Honolulu after he comes down. Mrs. Cooper awoke at 5:45 a.m. (Pontiac time), about the time her husband awoke himself from a sound sleep in his Faith 7 spacecraft.

An hour later, Mrs. Cooper awoke her daughters, Camala, 14, and Janita, 13. Jan prepared a breakfast of scrambled eggs and toast.

They plan to leave Houston tomorrow on a flight which will take them to Los Angeles. They will leave Los Angeles for Honolulu later in the day.

Although they took their luggage out of storage, they did not start packing immediately. Hawaiian leis were expected to be delivered to the Cooper home later today.

Mrs. Cooper and the girls tried to listen to Cooper's voice on a special radio receiver as he made his way to Los Angeles.

(Continued on Page 2, Col. 6)

Flashes

WASHINGTON (AP)—Mrs. Edward M. Kennedy, wife of the Massachusetts senator, has had a miscarriage, the senator's office said today.

DETROIT (UPI)—A wildcat strike at Ford Motor Co.'s Chicago stamping plant may halt nearly all of Ford's vehicle assembly lines by next week, the company announced today.

Ground Breaking Set May 22 for Pontiac's Perimeter Road

City officials and the State Highway Department today announced that ground-breaking ceremonies for Pontiac's \$3.5-million perimeter road will be held May 22 at 11 a.m. in front of City Hall.

City Manager Robert A. Stierer said that State Highway Commissioner John C. Mackie along with highway department officials and city commissioners would participate in the long awaited event.

The object of the perimeter road is to provide a one-way, five-lane highway circulating traffic around the central downtown business area rather than through it.

It is expected to greatly decrease traffic congestion which

has plagued travel on Saginaw as well as major east-west thoroughfares downtown in recent years.

Highway department officials signed the general construction contract for the first two portions of the highway Tuesday in Lansing.

The second section loops around the north portion of the central business district in the vicinity of School, connecting with Cass near Lafayette and West Huron.

The third and a final portion, scheduled to go under contract next year, follows Cass, extended from West Huron to South Saginaw.

The firm submitted a bid of \$94,703. The bid was about \$1,811 below the original estimated cost of construction for the first two sections of the highway.

It was one of four bids opened in Lansing April 3.

Mild Temperatures; Showers Possible

There's a chance of a few showers late tonight or Friday according to the U.S. Weather Bureau report.

Temperatures will continue mild, the low falling to 50 tonight and the high registering near 72 tomorrow. Saturday's outlook is fair and a little cooler. Morning winds light and variable will become southeast to east at 10 to 12 miles per hour tonight and tomorrow.

The low recording in downtown Pontiac preceding 8 a.m. was 48. The mercury had climbed to 69 at 2 p.m.

COFFEE BREAK — Mrs. Hattie Cooper, mother of astronaut L. Gordon Cooper, takes time out for a cup of coffee during her son's history-making orbital flight. She is celebrating her 63rd birthday today.

Facilities Lacking for County Oldsters

A blind 96-year-old woman trying to take care of her invalid 76-year-old daughter without outside help was just one of the sobering incidents reported yesterday at a "Life After 60" Institute at Oakland University.

Mrs. Ralph Guiney, consultant on aging for the United Community Services, said this hopeless mother-daughter situation was uncovered in Oakland County.

Townships Ask Tax Share Hike

(Continued From Page One)

verbal requests for millage within the next two days.

The board comprises Chairman William H. Taylor Jr., past chairman James L. Gardner, members Charles A. Sparks, John C. Austin, William J. Emerson and James Ludwick.

Taylor is a Pontiac city commissioner; Gardner is a former Commerce Township supervisor.

Best estimates are that they will have \$33 million in county taxes—under the 1.8 mills rate—allocate to the four units of education and local government.

The \$33 million is what the 15-mill tax is expected to raise on the tax base of \$2.2 billion equalized property values approved by the County Board of Supervisors and the State Tax Commission.

The tax base has yet to be affirmed by the State Board of Equalization in Lansing.

Its decision is due May 27, after which the local allocation board can set the final rates for so many mills to each of the four units.

The county government will ask for \$5.96 million toward financing a \$17 million budget next year when it makes its request to the board.

Millage requests for education were to be heard today and again Friday.

Last year the allocation board, comprising the same members, allocated 5.25 mills to county government and an average of 8.5 mills to schools and 1.25 to townships.

Leading the field in requests for more millage among the townships are Bloomfield, seeking an increase from 1.3 mills to 1.8; Brandon, from 1.25 to 1.52; Farmington, from 1 to 1.72; Oxford, from 1 to 1.65; Pontiac, from 1.35 to 2; Royal Oak, from 1 to 2.76; Waterford, from 1 to 1.95; West Bloomfield, from 1.4 to 2 and White Lake from 1.06 to 1.36.

The county asked the Advisory Committee on Services to the Aging to establish a countywide committee to study the problems of the county's aging citizens.

She pointed out that there are no housing facilities in the county for independent oldsters who do not need institutional care.

Mrs. Guiney was one of seven featured speakers at the day-long institute on problems of the aged in Oakland County.

The institute, which was co-sponsored by the Advisory Committee on the Aging of the Family Service Agency for Oakland County, the university, and the United Community Services of Metropolitan Detroit, Oakland Planning Division, focused attention on the problem of growing old.

County CHALLENGED Theodore Isenstadt, director of the project on aging of the Family Service Association of America, challenged the county to show concern for older people as real people.

"Being old," he said, "is a stage of living. Show that the role of the older person in society is as a real person not as an appendage."

Isenstadt also reported on the recommendations of the White House Conference on Aging, which carried the theme—respect for older people as people.

Charles Odell, director of the Retired & Older Workers Department of the UAW-CIO, said Oakland County has the lowest percentage (5.5 per cent) of older people in its population of all Michigan's counties.

He said the county is relatively young and affluent, but he pointed out that there has been a 74.6 per cent growth in population since 1950.

"Older people deserve a better break than they are getting, even in affluent Oakland County," Odell added.

Alex Seskin, executive director of the Abbey Convent Home, Warren, explained the purpose of nursing homes and outlined their functions.

Mrs. Guiney said elderly citizens could be divided into three groups. The first would be the young-old, the middle-age-old, and the old-old.

She said there is no pat answer to the problems of housing. The needs are as different as the individuals, according to Mrs. Guiney.

The institute was attended by 92 persons, including numerous representatives from welfare and social aid agencies and various county organizations.

The committee asked the Advisory Committee on Services to the Aging to establish a countywide committee to study the problems of the county's aging citizens.

It is a point to point in space, which has no relation to the earth beneath it.

"NASA begins each orbit count on Faith 7 at the same point in space directly overhead the geographical spot in which the spacecraft was injected into orbit."

ASTRONAUTS LISTEN IN—Five of the nine astronauts (middle row) listen in at the Cape Canaveral Mercury Control Center to the conversation between the ground station and L. Gordon Cooper as he continues to orbit the earth in his Faith 7 space capsule.

Cooper Is 'Go' for 22

(Continued From Page One)

ported "most acceptable" by Mercury Control. Cloud cover was reported at 50 per cent, winds at 15 knots and visibility 10 miles.

A large Pacific recovery force, headed by the carrier Kearsarge, waited in the area.

The Kearsarge hoped to improve on its record of last Oct. 3, when it had astronaut Walter Schirra on board just 42 minutes from the craft.

Cooper was waved on for the full flight not long after he awakened after a good night's sleep of about 7 1/4 hours.

Then he went into action as a camera bug.

Over the Indian Ocean he pulled out a 35mm robot still camera with a fast lens to photograph the zodiacal light, a world glow visible on the horizon in the east before sunrise and after sunset.

Scientists believe the color picture will prove a theory that the phenomena is caused by the sun's rays reflecting off dust clouds.

"Hello down here! Did I take pictures, pictures, pictures?" Cooper exclaimed to communicator Virgil Grissom on the ground at Guaymas, Mexico.

Then he reported he was turning the capsule 300 degrees in its yaw axis to take the "MIT jobs."

He referred to a series of eight horizon pictures made especially for Massachusetts Institute of Technology, which is studying the possibility of using the horizon as a navigation reference point for spacecrafts returning from the moon.

"You have my sympathy," Grissom commented.

"I'm not complaining," Cooper replied.

Grissom then passed on some camera lens setting and filter suggestions from Mercury Control. Cooper went about his picture-taking business and sped across the Southern United States to the start of his 17th orbit.

FUEL CONSERVATION Cape Canaveral contacted Faith 7 at 8:09 a.m. and Shepard commented on how well Cooper was conserving his fuel and oxygen.

"You sure are a miser on consumables," Shepard said. "You're saving things very well."

During the 16th orbit, Mercury Control evaluated the condition of the astronaut and spacecraft systems and then waved Cooper's Faith 7 past a go-no-go decision point over Australia.

"Roger, very good," was Cooper's reaction when the tracking station at Mueha, Australia, relayed the good word.

"If anything had been amiss, Cooper would have been ordered to fire his spacecraft reverse rockets over the eastern Pacific for a landing in the Atlantic Ocean."

"EXCELLENT CONDITION" Control center officials reported the pilot was "in excellent condition. He is strong; his attitude is good and he is managing his systems excellently."

"Did you have any dreams?" Cooper was asked as he passed near Cape Canaveral not long after he awoke.

"Negative," he replied. "I slept too soundly."

Cooper wasn't saying much. "I think he must be saving words for posterity or something," said Lt. Col. John A. Powers, the voice of Mercury Control.

But as a pilot, Cooper's performance topped anything by a U.S. astronaut so far.

His use of the fuel and oxygen supplies of his Faith 7 spacecraft were excellent.

system, 90 per cent in the manual system.

In his first 24 hours aloft, he consumed only 25 per cent of his primary oxygen supply and none of his emergency supply.

However, Powers said absolutely no consideration was being given to a possible extension of the flight past 22 orbits.

Astronaut Walter M. Schirra Jr., said he had spoken to Cooper's wife, Trudy, in Houston, Tex., this morning and that she told him she had awakened about the same time her husband apparently awoke.

She wished to know when she could listen in again on the special radio installed in the Cooper home for the conversations between her husband and Cape Canaveral, Schirra said.

He added, "She's in good spirits."

With her and her mother were a neighbor, Mrs. Mattie Hartono and Mrs. Herd's pastor, the Rev. Roma Stewart, plus a half-dozen newsmen.

The gathering fell silent for 15 minutes—just before and immediately after the huge rocket struggled skyward. Mrs. Cooper broke the silence when her son successfully executed the turn-around to get his Faith 7 capsule into orbit altitude.

She exclaimed: "Don't you know Gordon is thrilled?"

Mrs. Herd sat in her rocking chair before the television set. She sobbed softly, her hands clasped beneath her chin.

As the flight continued, members of the local American Legion port brought lunch for the two women and their guests.

Mrs. Cooper, becoming more and more relaxed, laughed heartily when an announcement was made of her son's unscheduled nap. She said he had never had trouble falling asleep.

Wife, Children to Join Hero

(Continued From Page One)

his 16th orbit but failed to hear anything intelligible.

At Tucumseh, Okla., Mrs. Hattie Cooper is celebrating her 63rd birthday, and as a present she could ask for nothing more than the safe return of her son from his journey through space.

PICKS UP KNITTING Mrs. Cooper picked up her knitting again last night "to keep me from pining the floor."

She planned to work on an Afghan from time to time during the remainder of the historic space flight of her only son, Gordon Cooper.

After the excitement of the launch began to subside yesterday, Mrs. Cooper sent her mother, Mrs. Orena Herd, to bed. Later Mrs. Cooper napped while her mother kept up with Cooper's progress.

Mrs. Cooper, who lives in Cardonville, Colo., spent part of the prelaunch time yesterday knitting a green Afghan. As the countdown progressed, she set it aside to concentrate on television accounts of the preparations.

With her and her mother were a neighbor, Mrs. Mattie Hartono and Mrs. Herd's pastor, the Rev. Roma Stewart, plus a half-dozen newsmen.

The gathering fell silent for 15 minutes—just before and immediately after the huge rocket struggled skyward. Mrs. Cooper broke the silence when her son successfully executed the turn-around to get his Faith 7 capsule into orbit altitude.

Birmingham Area News To Present Program in Dance Composition

BIRMINGHAM—A studio program in dance composition will be presented tomorrow night by the Birmingham Area Center of the Bloomfield Art Association.

The first 1963 summer recital on the world's largest carillon will be given at Kirk in the Hills Sunday afternoon.

Daniel Robins, carillonneur at the University of Chicago, will be guest carillonneur.

Now presiding over the 72-bell Laura Spelman Rockefeller Memorial carillon, Robins was the first American graduate of the national carillon school of the Netherlands.

He was also the first student in the history of the school to complete the regular four-year course in one year.

Robins plans to return to Europe this summer to appear in 30 recitals in six countries.

The public is invited to attend the carillon recital which can best be heard from the Kirk grounds, 1340 W. Long Lake Road, Bloomfield Hills. The recital will begin at 4 p.m.

"Post Sputnik Educational Launchings and Forced Landings" will be analyzed by Dr. Robert Hoopes at the annual spring meeting of the Greater Indianapolis School Association of Detroit and Vicinity at 7 p.m. tomorrow in Brookside School Cranbrook.

De Gaulles Visit Greece ATHENS, Greece (AP)—French President Charles de Gaulle and his wife arrived in Athens today for an official four-day visit.

There will be a nominal admission charge for the 8:30 p.m. program.

Union Members March at Michigan Bell Office

Telephone Workers Picket Michigan Bell

Local 4012 of the Communications Workers of America (CWA) began informational picketing at two Michigan Bell sites yesterday.

Some 10 union members marched in front of the Michigan Bell business office at 54 E. Huron at 7 a.m. yesterday with the number swelling to 25 later in the day.

At the company's Lake Street garage, about 35 Local 4012 members marched and carried signs.

"This is not a strike; this is a protest," Local 4012 president Robert J. Parker asserted yesterday. "Anyone can feel free to pass through our lines for now."

CWA is asking for increased

wages and improved company benefits, including company paid health and life insurance, improved vacation schedules, and a hike in the minimum rate of pensions.

Parker named town reclassification as the primary local objective in negotiations with the telephone company. Other demands include a correction in job structure inequities and a version of the company's attendance control program.

Michigan Bell declined to comment on the marching.

Contract negotiations are taking place in Detroit on a statewide basis. The three Michigan Bell contracts with CWA are due to expire at midnight June 11.

Raise Funds for Jailed Negroes

DETROIT (UPI) — The 1.5-million member American Baptist Convention Wednesday started a drive to raise funds to aid Negroes jailed in the racial demonstrations in Birmingham, Ala., and to rebuild the bombed-out home of a brother of Negro leader Martin Luther King.

The start of the fund drive was announced by the Rev. Dr. Benjamin P. Browne of Chicago, convention president, at the opening of the convention's 56th annual meeting in Detroit's Cobo Hall.

To start the fund, the convention's world relief committee pledged \$1,000.

Dr. Browne, who is also president of the Northern Baptist Theological Seminary in Chicago, said the initial offering at the meeting will go the Rev. D. A. King, whose house was bombed to set off a day of rioting in the Southern city.

Dr. Browne told the 7,000 delegates and visitors to the annual meeting that "the dissolving of

the fearful racial hatreds of our nation will only be achieved by the cross of Christ and the love shown there.

ONE OF US

"To show that we mean what we say, I want to say that we as American Baptists stand square-

Romney Names 3 to Board at Ferris

LANSING (U) — A pharmacist, an attorney and a trucking executive have been appointed to the Northern Baptist Ferris Institute Board of Control by Gov. George Romney.

Names to serve on the eight-member board were Charles Fairman, a Big Rapids pharmacist; attorney James Wood of Bay City; and Carl Davis of Alma, owner of the St. Louis Freight Lines.

All three nominations require meeting that "the dissolving of

behind the Rev. Martin Luther King, the Rev. A. D. King and the Rev. Mr. Abernathy," Dr. Browne said. "They are one of us. They are American Baptists."

His words brought thunderous applause from the delegates.

Earlier Wednesday, the executive director of the Missouri Council of Churches said he could not see any possibility of an organic union with the Roman Catholic Church.

Dr. Stanley J. Stuber, an American Baptist minister and a personal observer of Cardinal Bea's at the Vatican Council II, said that although the union was discussed at the Vatican Council, it did not come up for any action. He said it may come up in the next session, but there are several theological barriers in its path.

"I think the barrier of infallibility is one, even with the Eastern Orthodox Church," Dr. Stuber said. "I don't believe the Eastern Orthodox Church can ac-

cept the infallibility of the Pope, or the infallibility of the church, or the infallibility of the dogma."

He added he believes the Roman Catholic dogma as the "bodily assumption of Mary into heaven" cannot be accepted by Protestants, and he added, "one could go right down the line on other dogma."

Dr. Stuber said, however, that although he could not see an organic union, he does believe in working toward more Christian cooperation.

Coop Not as Talkative as Fellow Astronauts

CAPE CANAVERAL (UPI) — Astronaut L. Gordon Cooper isn't talking as much as some of his fellow astronauts.

One space agency official explained it this way: "We don't want to come back with a hoarse astronaut."

Present Limit Fast Approaching

Senate Leaders Push Debt Ceiling Vote

WASHINGTON (AP) — Senate leaders plan to bring a debt limit-raising bill to a vote before the debt bumps against the present \$305 billion lid. The Treasury ex-

pects this to happen before the end of the month.

The bill squeaked through the House 213 to 204 Wednesday as opposing Republicans and conservative Southern Democrats put on their most impressive show of strength in the present Congress. Democrats predict another close success in the Senate.

During Wednesday's debate fiscal conservatives insisted the Kennedy administration could be forced to trim its spending if the bill were defeated—or a Republican substitute continuing the present ceiling indefinitely were adopted.

Without any congressional action, the debt limit would drop automatically to \$285 billion July 1.

The House-passed bill would raise it immediately to \$307 billion, then on July 1 to \$309 billion, effective through Aug. 31. Before then, it is generally expected, the ceiling will have to be raised again, especially if Congress passes President Kennedy's tax cut legislation.

Chairman Harry F. Byrd of the Senate Finance Committee tentatively scheduled a session for next Wednesday on the debt ceiling. Although the Virginia Democrat personally opposes increasing the limit, he is understood to have promised prompt handling of the bill, following a personal appeal by Secretary of the Treasury Douglas Dillon.

The nine-vote margin by which the House passed the bill matched the closest previous administration victory in the present Congress, on a feed-grain program.

In Wednesday's roll call, Republicans held almost completely firm. Only former Speaker Joseph W. Martin Jr. of Massachusetts joined the Democrats in voting for the bill while the Democrats lost 32 votes, mostly from the South.

A machine for changing the human voice into digital language of electronic computers has been patented and a model is being tested.

Senators Switch Strategy

WASHINGTON (UPI) — The Senate yesterday abandoned one effort to curb lobbying fees on Philippine war damage claims and promptly turned to a different attack.

The new drive began when the Senate Foreign Relations Committee added a \$73 million lump sum government-to-government payment for Philippine war claims to a House-passed bill authorizing \$49.8 million for construction and improvement of foreign service buildings overseas.

The present law provides for payment of the \$73 million to individual claimants.

Shortly afterward, the Senate passed and sent to the White House a \$1.5 billion catch-all supplemental money bill stripped of a rider that would have barred fees to any lobbyists or other agents from Philippine claims payments.

The House refused three times earlier this week to accept any restriction—or change—in the claims bill.

This would leave the way still open for American lobbyists to get fat fees from Philippine clients through direct payment to individual claimants.

Vandalia Voters Reject Mill Hike for Schools

VANDALIA (AP) — Vandalia School District voters rejected a 10-mill tax increase yesterday by a 117-78 vote.

The proposed increase would

have provided funds for operating expenses and for addition of a 12th grade to the local high school.

Shrimp plant's reddish flower parts in a curving spike account for its name. Plant grows up to two feet tall.

Fidel Back in Moscow

MOSCOW (UPI) — Cuban Premier Fidel Castro was due for further meetings with Soviet leader Nikita S. Khrushchev in Moscow today after winding up a tour of the Soviet provinces.

Low Car Inventories Tell Delightful Story

Indicative of the banner year the automotive industry is enjoying is the fact that car inventories are the lowest since 1955.

Ward's Automotive Reports, the statistical Bible for the auto companies, reports that recent sales records by almost all auto firms are pressuring factory output to keep pace.

This is especially good news for our Pontiac area. Admittedly, our general business activity is customarily tied to the auto industry. The impetus from this tremendous car sales spurge is showing up in the whole market.

According to Ward's figures, Pontiac Motor came into May with the lowest inventory of any car in the industry.

As of April 30, the regular-size Pontiac had a 21-day supply, and stocks for the Grand Prix were only 18 days.

Other cars with short inventory stocks were regular Chevrolet with only 24 days. Ward's further reports that ten makes were below the industry's 36-day average inventory.

With spring bursting out all over and car sales smashing record after record, the over-all business climate should be an obvious delight to everyone.

Failure to Yell 'Fore' Puts Purse in Rough

Disquieting news awaits golfers as they swing into the 1963 season. To the gamut of run-of-course hazards—rough, trees, water, bunkers, traps—a new one has been added. It is a hazard with risk of pocketbook penalty.

This new pitfall was written into the rule book by a U. S. District Court judge who penalized a defendant in a damage suit of \$1,750 for failure to yell "Fore!" loudly enough before driving a ball which hit the plaintiff.

Well! This really opens the door to some high jinks on the links.

Not only will your golfer have to struggle keeping his performance with woods, irons and putter at top form but he'll have to concentrate on keeping his oral delivery at top pitch.

Moreover, this added facet might well affect handicaps.

Strokes would, of course, still serve to equalize the diverse skill of golfers. But if handicaps were to be weighted with the carrying power of players' voices, decibels would enter into the scoring.

Golfers accustomed to arguing long over stroke differential as a round was begun would be stymied in establishing decibel parity unless their "Fore!" reflected continual forethought, with rhythmic followthrough.

Presidential Aspirant Has 'Hope Eternal'

Politicians invariably come up with some pretty odd announcements. That's the category of the following.

Harold Stassen, former Governor of Minnesota, says he may enter the presidential primaries in New Hampshire next year. We can't help but ask, why?

Some years ago STASSEN was a promising Republican prospect.

Old news clippings disclose that he actually started his political descent in 1948 when he overreached

himself in bidding for the GOP presidential nomination.

A few years later, in 1952 in a repeat performance, he made a pitifully weak second try. We recall that no one really felt he had a chance except STASSEN himself.

Following this, he decided to give the Pennsylvania governorship a try. Failing at this he launched into a campaign for mayor of Philadelphia and flopped there, too.

We can't see that his political future is any brighter today than it was 15 years ago. It is hard for us to believe that this once "boy wonder" politician is actually serious in his presidential hopes.

JFK's Troop Use Legally Debatable

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON — President Kennedy's action in Birmingham's racial trouble, whether or not it boils again, has given lawyers something to argue about.

He has sent 3,000 troops into Alabama military bases near — but not in Birmingham — for possible use in Birmingham if there's a repetition in that city of last Saturday night's violence against Negroes and the Negro riot which followed.

The question is: Does he have a right to use troops in such a situation when, no federal law, court order or function is specifically involved? The governor of Alabama, George C. Wallace, says no.

He cites the Constitution—Article 4, Section 4—which says federal government shall protect a state against "domestic violence" if the legislature or governor asks such protection.

Under such constitutional authority, the President could use troops. But Wallace says Kennedy hasn't asked to intervene with troops or otherwise.

The Justice Department says that up to this point the President needed no special authority — either constitutional or by specific statute — for moving troops into Alabama. They haven't intervened in anything.

NEW DISORDERS

But, it was explained, if new disorders break out the President could then decide to put the troops in Birmingham under authority of a specific law — Article 10, Section 33 of the U. S. Code — which goes back in history.

It says: The President can use troops or "any other means" to suppress domestic violence in a state if it—

"Hinders the execution of the laws of that state, and of the United States within that state, and any part or class of its people is deprived of a right, privilege, immunity or protection named in the Constitution and the constituted authorities of that state are unable, fail, or refuse to protect that right, privilege, or immunity, or give that protection."

Under the 14th Amendment to the Constitution all citizens are guaranteed the right of equal protection of the laws.

But, despite the explanation at the Justice Department that the President could decide whether to send troops into Birmingham if new rioting began, one thing seems obvious:

Kennedy must have already decided, to send in the troops if rioting occurs, again because he would lose face if he didn't after making the gesture of putting the troops into Alabama.

It can be argued the President hasn't necessarily made such a decision, that he could wait until after rioting started to determine whether it was so out of hand that local police couldn't—or wouldn't—cope with it.

Yet, if he held back the troops to see how bad the rioting was, a number of people could be killed before he made up his mind. That, too, would be an embarrassment to him.

Therefore, it seems plain troops would be used immediately — under Article 10, Section 33 — if rioting was renewed.

For this reason the very presence of the troops near Birmingham—although not in it—can be interpreted as a warning to Birmingham extremists not to start anything unless they want the troops in.

Military Dictatorship in the U.S.?

WASHINGTON — Have the American people just been given an example of how each of the 50 states of the union can be deprived of their sovereignty despite the explicit guarantees written into the Constitution?

Has a precedent been established whereby the chief executive of the federal government may at any time in his discretion hereafter use military force or threaten to do so in order to coerce any state, county or city government to obey his decrees?

The governor of Alabama and the two United States senators from that state said in messages to the President that there was no need for federal troops, as the local authorities were capable of handling the situation.

The President in his reply to the governor said:

"In response to the question raised in your telegram of last night, federal troops would be sent into Birmingham, if necessary, under the authority of Title 10, Section 332, Paragraph 1 of the United States Code relating to the suppression of domestic violence."

"Under this section, which has been invoked by my immediate predecessor and other presidents as well as myself on previous occasions, the Congress entrusts to the President all determinations as to (1) the necessity for action; (2) the means to be employed; and (3) the adequacy or inadequacy of the protection afforded by state authorities to the citizens of that state."

This is a historic statement. If accepted as valid, it permits a military dictatorship in the United States at any time any president chooses to invoke this same concept of executive power.

NO SUCH POWER

The statute quoted by the President, however, gives no such power. It reads as follows: "Section 332. Interference with state and federal law."

"The President, by using the militia or the armed forces, or both, or by any other means, shall take such measures as he considers necessary to suppress, in a state, any insurrection, domestic violence, unlawful combination or conspiracy, if it—

"(1) So hinders the execution of the laws of that state, and of the United States within that state, that any part or class of its people is deprived of a right, privilege, immunity, or protection named in the Constitution and secured by law, and the constituted authorities of that state are unable, fail, or refuse to protect that right, privilege, or immunity, or to give that protection."

"(2) Opposes or obstructs the execution of the laws of the United States or impedes the course of justice under those laws."

Since the President in this case did not invoke paragraph number 2 and conceded instead that no court orders were involved—

as they were in Little Rock, Ark., and Oxford, Miss. — the question is what federal statutes were broken.

There were none! The states alone have the power to deal with local disorders.

The Constitution says in Section 4 of Article IV:

"The United States shall guarantee to every state in this union a republican form of government, and shall protect each

of them against invasion; and on application of the legislature, or of the executive—when the legislature cannot be convened—against domestic violence."

The words "The United States shall guarantee" mean that the federal government guarantees and the president is charged with the duty of carrying out the provisions of the Constitution.

Bob Considine Says:

Books Are Being Closed on U.S. Project Mercury

CAPE CANAVERAL — The Russians do not tell us how much it cost them to complete their equivalent

of Project Mercury, which they concluded with the flight of Gherman Titov in the summer of 1961.

But the books are now closing on our Project Mercury and are open to examination

by the world. We spent the \$600 million appropriated and maybe a bit more that doesn't show in the ledgers.

But it could have been a lot costlier, this continuing pursuit of the front-running Soviets in manned space flight, if certain men and machines had not been available at the time we were jolted into the competition two and more years ago by the historic single orbit flight of Yuri Gagarin.

The long voyage of Gordon Cooper climaxes one of the great "crash" programs in American history. There seems to be no place for Mercury to go with its surplus hardware after this.

The project proved we had the men and gear to mount two sub-orbital flights, two 3-orbit flights, one 6-orbit job and now Cooper's marathon.

NEXT STEP

The next step, which the Russians took last summer, involves the launching of more than one man at a time in space. Cosmonauts Popovich and Nikolayev, in their separate 20-foot long, 10,000 pounds (plus) Vostok (Mercury capsules weigh a third that), came within a few miles of rendezvous in space during a special soar, which in the case of Popovich covered more than twice the space of Cooper's flight and in the case of Nikolayev nearly three times.

We'll send up tandem astronauts in the same capsule, the Gemini, similar to and made by McDonnell, makers of the Mercury capsule in record time. But the dependable Atlas booster that lifted Glenn, Carpenter, Schirra and Cooper in orbit can't lift the Gemini capsule.

The job will have to be done by Martin's more powerful, and less proven, Titan K. A year, maybe two, might pass before Gemini picks up where Mercury left off today.

If, or probably one should say "when," the Russians do something dramatic in the way of multiple flight, and rendezvous, we'll enter upon a Gemini "crash" plan.

And please pay no attention to reports from Washington that we wouldn't "crash" the next step, Apollo, if the Reds peremptorily arrived on the moon. We're already spending \$10 million a day—that's right, a day—on that one.

CONSIDINE

In Washington:

Goldwater Dinner 'Political Dud'

By PETER EDSON

WASHINGTON—(NEA) — The \$1,000-a-plate Republican dinner honoring Arizona Sen. Barry Goldwater for his past services as GOP Senate Campaign Committee Chairman did just that.

They gave him a silver coffee urn—but otherwise the affair was a political dud.

Nobody's presidential candidacy balloons rocketed off the launching pad even an inch. There was so much party unity and peaceful coexistence displayed that the proceedings were a bit dull.

Nobody could have cared less that the honeymooning Gov. Nelson Rockefeller of New York and his bride weren't there.

Gov. George Romney of Michigan confessed that the "unexpected developments he ran into" after his Chamber of Commerce speech in Washington the week before—the launching of a presidential boom for him, which he re-buffed—had almost caused him to cancel plans to attend the dinner.

Goldwater didn't even mention the 1964 presidential race. So the party was an exclusive social affair, a financial success—and that's all.

Wit and humor from the big list of speakers who paid their tributes to Goldwater evoked polite laughter and applause but did not rock the rafters or send the Republicans out into the night looking for Democrats to draw and quarter. Maybe that's

Voice of the People:

Traveler Compares Press With Other Newspapers

This is to second letters praising The Press. I never realized what a good paper we have until my job required several days a week in another city. Its population is about half a million and there are three newspapers, but not one can touch The Pontiac Press.

The next time I hear someone criticize The Press, I'll suggest he read a few papers from other cities. Not many papers in the country can beat this one, regardless of size.

Traveler

'U. S. Cuban Policy Invitation to Reds'

By refusing to tolerate attacks on Cuban territory — originating from territory outside the United States — the U. S. has given the Communists a potent lever in Latin America. The Reds will allow to the fence-sitters that now is the time to join the Russian and Chinese band wagons. They can point to the American refusal to allow men to fight for the freedom of their country and their enslaved people.

It is a powerful argument. There will be those who shall become convinced that it is useless to struggle against the Communist colossus, since the Giant of the North will do nothing to aid them. Very little argument to the contrary can be presented.

If Latin America thought reaches the point where it becomes convinced that the United States will not only condone communism within the Hemisphere, but viciously stamp out those who struggle against it, then the Russians are wasting a lot of money on propaganda and infiltration. All they have to do is walk into Latin America.

Would be virtually sublime . . . If I would have it all the time . . . Now, I really could be happy . . . If, my heart, at last I knew . . . That your sweet in all the future . . . Would consistently be true . . . All the earth would be ecstatic . . . And the heaven always clear . . . If I found you would be faithful . . . To the very end, my dear . . . But, of course, I guess, my angel . . . You would also like to know . . . If my heart would be as steady . . . Or just teeter to and fro.

Citizens Censure Street Sign Error

Putting that "e" on "Mohawk" is simply silly and utterly ridiculous. Those signs should be repainted immediately so we don't advertise our civic stupidity to guests, visitors and even our own people.

Old-Time Resident

Let's put an "e" on "Pontiac" and spell it "Pontiac."

G. J.

Why don't they call it the "Citye Halle?"

Louise

The neighborhood should rip down those ludicrous "Mohawk" signs if the city doesn't correct the error immediately.

Harlan Walterby

Pontiac should know the full name of the individual that is responsible for that dumb "Mohawk" mistake.

Mrs. M.

'Writer Wrong in Criticism'

If anything belonged on the comic page it was William Sherwood's remarks in the Voice of the People. Dick Buck did a fine job of reporting and as constructive criticism, the articles should have appeared on page one.

The public would have been interested in articles on Pontiac Airport in its infancy when there were only two hangars and "Barber's Flying Service" and "Land O' Lakes."

The field did not extend as far west as the present tower and administration building. There was a grandstand at the far east hangar and the annual airshows attracted thousands. Pontiac Airport was then a "baby" and is now only in its "teens."

Pontiac is indeed indebted to Homer Haskins and many others for its tremendous growth.

Mr. Sherwood would have found amusement in the Wright Brothers and if everyone felt as he does we would have no aviation.

Jack D. Moden
Pilot Certificate 553385

why the GOP doesn't win more elections.

Sen. Thruston Morton of Kentucky was toastmaster in his role as chairman of the Senate Campaign Committee. He got off a few good cracks in introducing about half-it seemed-of the 500 guests present.

Like: "Uncle Billy Young (Sen. Milton B. Young of North Dakota hasn't been up this late in years." And—

"I regret that I have to present a flaming liberal to this audience—the ranking Republican of the House Rules Committee—Clarence Brown of Ohio." Or—

"I've been trying to keep these speeches short, but I don't know what we can do to cut down on the next speaker, because he's my leader—Sen. Everett Dirksen of Illinois."

Dirksen related that in August 1952 he was told of an Arizona businessman who ought to be in politics. He went out to Phoenix, visited the Goldwaters and "that night, under a starry sky, I persuaded Barry Goldwater to run for the Senate. I take some credit for helping the middle-class brought him into political life."

Responding to that toast later, Goldwater observed that, "B. B. Wilson is a living example of what good Arizona water will do for you. I was 21 years old before I knew you could put it in whiskey."

Responding later, Goldwater observed, "I guess I didn't realize what happened on that penthouse roof. I guess I'd better get a hot line to Margaret Sanger."

Expressing regret that President Eisenhower could not attend the memorable dinner, Goldwater confessed, "I rode into office on Ike's coattails."

The senator also read a telegram from his daughter Peggy, "Sorry I can't be there, but my allowance won't stretch."

Senators in Vermont Kill Death-End Bill

MONTPELIER, Vt. (AP) — The death penalty for persons convicted of a first offense of murder but not for persons convicted of killing a police officer, the Vermont Senate has defeated a bill to abolish capital punishment for first-offense murder convictions.

The Senate defeated the measure 15-14 Wednesday after the Judiciary committee added the police officer exception to the measure passed by the House.

Eight presidents were born in Virginia. They were Washington, Jefferson, Monroe, Madison, Tyler, William H. Harrison, Taylor and Wilson.

INSTANT REPAIR — Mrs. Jerry Krandall of Detroit applies pressurized can of freon gas and liquid latex to tire valve for a 60-second

repair job. Road friction and heat build the tire pressure up to 30 pounds after the car starts out on the repaired flat.

Uncle Reflects
on Quiet Boy
Now in Orbit

WEST LOS ANGELES (UPI) — An uncle who said he remembers his nephew, astronaut L. Gordon Cooper, as a "studious, quiet boy" deeply interested in

flying, said yesterday "we have to give God credit in the last analysis for the protection and smooth running of the flight."

George B. Herd, a realtor, who said he had a strong belief in the power of prayer, added "a lot of people have

been praying for him all the way."

Herd said he had not seen Cooper for two years, but talked by telephone the night before the flight to the astronaut's mother.

He said he felt "a little apprehensive before liftoff, but I was thankful things went as they did."

Meet on Satellite Work

LONDON (UPI) — European communications authorities will meet in Paris next Monday and in London in mid-July to discuss the United States' and international development of satellite communications, it was announced yesterday.

Flames Hit Homes
of 1,000 Filipinos

MANILA, Philippines (UPI) — An early morning fire that swept through the town of Bogo in Cebu Province destroyed the homes of nearly 1,000 persons, according to the Philippines News Service.

The news agency said the fire was detected yesterday morning and burned for more than four hours before it was extinguished. Bogo is about 300 miles southeast of Manila.

The highest temperature ever recorded anywhere in the world was at Azizia, Libya, on Sept. 13, 1922. The mercury zoomed to 136 degrees Fahrenheit.

Church Cites Its Failings in Assembly

DES MOINES, Iowa (AP) — Presbyterians, seldom shy of citing their own shortcomings, gathered today to hear a chronicle of self-criticism — about money, weapons and race — and to seek better ways of serving their Lord.

The occasion was the opening of the 175th General Assembly of the Presbyterian Church in the U.S.A., the denomination's chief governing body.

"In our timidity, we are fearful that if we hold too closely to the demands of the biblical faith some folks will be driven away," declared the Rev. Dr. Carshal L. Scott of Chicago, the retiring moderator.

"It is ironic that our timidity probably keeps more people from the church than are driven out by a firm stand."

The keynote sermon, prepared for an opening worship service, carried the ring of classic Presbyterianism, which stresses man's deep failings under the merciful sovereignty of God.

Here for the assembly in veterans memorial auditorium were 840 "commissioners," an equal number of clergymen and laymen representing 3 1/2 million church members across the country.

Germans OK French Treaty

BONN, Germany (AP) — The Lower House of the West German Parliament overwhelmingly approved today the French-German friendship treaty providing for cooperation between the longtime enemies.

The treaty now goes to the Upper House—the Bundestag—where approval is certain.

A few members of the Bundestag voted against the treaty or abstained.

Chancellor Konrad Adenauer, in a brief speech before the vote, hailed the treaty as a great work of reconciliation for all future time.

He said it has the support of the vast majority of the German people.

Adenauer concluded the treaty with President Charles de Gaulle and considers it the crowning achievement of his long career as postwar Germany's leader. He retires this fall.

Socialist opposition to the treaty ended after inclusion of a preamble specifying that the treaty does not conflict with West Germany's other alliances, specifically the European Common Market and the North Atlantic Treaty Organization.

American Conductor Hit on Soviet Concert Stage

MOSCOW (AP)—Lorin Maazel, 33-year-old American conductor, won stormy applause from a Leningrad concert audience for his rendition of Beethoven's Fifth Symphony, sources in Moscow reported.

Maazel was the first American conductor to work with Soviet orchestras under the U.S.-Soviet cultural exchange program. He reportedly took 12 curtain calls during a 15-minute standing ovation.

104 Pigs Get Away

JIM THORPE, Pa. (U)—A truck's brakes failed and it ran out of control down steep Broad Mountain hill near here yesterday and overturned. Police and residents of the area, then started chasing the cargo.

The truck driven by Leroy A. Alderfer of Lansdale was carrying 149 pigs to market in Philadelphia. The police said 45 pigs were recovered but the rest scrambled away.

Neither the driver nor a passenger were seriously hurt.

Italy Assembly Leaning to Left

Government Forming; Fanfani on Way Out?

ROME (AP)—Italy's new Parliament convened today amid another left-leaning Christian Democratic government was in prospect.

But Amintore Fanfani's chances of continuing as premier didn't look so good.

Fanfani and his cabinet were to turn in their resignations to President Antonio Segni later today. Segni will sound out party leaders on whether to ask Fanfani to form a new government or turn to someone else.

When the new cabinet is formed, Parliament will decide whether to give it a vote of confidence.

Observers seemed to agree that a new center-left government similar to Fanfani's old one would emerge and would remain in office until Pietro Nenni's Socialists hold their party congress in July.

The Socialists will decide then whether to go on with their alliance with the Christian Democrats, ask for cabinet posts or pull out and return to their old alliance with the Communists.

Fanfani's government was made up of Christian Democratic Republicans and Democratic Socialists.

The support of Nenni's Socialists gave a majority in the chamber of deputies, although the Socialists were not in the cabinet. Continuance of this lineup was assured because it is the only one that can muster a workable majority in the new chamber.

But Fanfani is under fire from the right-wing of his own party because the Christian Democrats in the April elections suffered their worst losses in their history.

State Camp Escapee

Picked Up in Canada

PETOSKEY (U)—Keith Burd, 30, who escaped April 25 from the Michigan Department of Corrections Correctional Camp near Pellston, has been captured in Canada, state police reported yesterday.

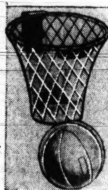

Police said he will be returned to Cheboygan, where a warrant has been issued, charging him with breaking and entering and larceny of an auto.

Boeing Pact Ends Bickering

Machinists Agree With Aerospace Firm

SEATTLE, Wash. (AP) — The AFL-CIO Machinists' Union's acceptance of a new contract with the Boeing Co. spells the end of 10 months of bickering and three threatened strikes at the big aerospace firm.

For the 41,000 hourly workers to whom it applies, the pact spells financial reward and an end to uncertainty.

Best estimates Wednesday after word the contract was approved 14,395 to 4,588 in last Friday's balloting, was almost \$30-million in salary increases during the three-year life of the agreement, with an average retroactive pay of about \$200.

SPECIAL TODAY
In the Seattle-Renton area, where the firm is headquartered, and where about 31,000 of the expected employees work, it means that about \$5-million will be pumped into the local economy in a special payday June 21.

Both sides hailed the agreement after votes were tallied in Washington, D.C.

Boeing President William M. Allen said he was "pleased."
"I am hopeful the entire Boeing team will now work together," he said.

Harold J. Gibson, Machinists' vice president, said the union "views approval of the Boeing agreement as a major step toward industrial harmony in the aerospace industry."

BROUGHT PRAISE
The acceptance brought praise from union leaders in Wichita, Kan., where workers last month helped shape an 877 vote defeat of a proposal much like the one finally approved.

The contract provides boosts of 22 to 32 cents hourly improvement in employee rating, union security and other benefits. Present scales range from \$1.98 to \$3.27 an hour.

Gov. Romney, 35,000 Liven Up Tulip Time Festival

HOLLAND (UPI) — Gov. George Romney and a crowd of 35,000 persons gave the 34th Tulip Time Festival its most auspicious lift-off in years yesterday but the weatherman threatened to toss a damper on the whole affair today.

The U.S. Weather Bureau forecast rain and thundershowers by early afternoon with no let-up in sight until Saturday, "maybe." That's when the four-day flower frolic winds up for another year.

It's stretching the gun a little bit but Saturday might be a better day," was the gloomy forecast by the U.S. meteorologist for western Michigan.

Temperatures were expected to reach the mid-60s, however, and festival officials held out hope that the millions of tulips would

BROOM-PUSHING TIME — Gov. George Romney, already an old hand at street scrubbing since he appeared in Holland last year during his campaign, was on hand yesterday to officially mark the opening of the Tulip Time Festival.

continue to pack in the tourists. A half-million persons were expected to wander down Tulip Lane this week.

35,000 AT PARADE
William Vande Water of the chamber of commerce estimated that 35,000 persons took in the traditional opening day folks (folk) parade and street-sweeping ceremonies.

"That's double what we had last year for opening day," he said, and forecast the biggest attendance for the festival in years. He cast wary eyes at the skies today but repeated his pre-festival statement that, "We've been rained on before, but never rained out."

Romney went through the indignity of taking orders from Mayor Nelson Bosman by joining local burghers as common street-sweepers.

But he took it in good humor, also a tradition of this nationally famous event, and the throngs of people in this predominantly-Republican community ate it up.

HAVE GOOD TIME
Dutch translation: "Make them good and clean." It's questionable whether the pavement shone any brighter after the hour-long affair. But everyone had a good time and the riotous water fight that broke out last year failed to materialize yesterday.

The governor, known for his fetish for hiking, kept in the parade over the whole route, while

autograph hunters and weary newsmen struggled to keep pace.

The colorful festivities, which feature everything from a wooden shoe factory to the Netherlands Museum and eight miles of tulip lanes, attract visitors annually from all 50 states and Canada.

It's the only time of the year when the Dutch settlers of this city of 25,000 are outnumbered by other nationalities. Perfect weather greeted the tourists who flocked here yesterday. Temperatures hit 60, the sun broke through in the afternoon and the tulips were at the peak of their blossom.

Former Miss U.S.A. Loses Paternity Suit

LOS ANGELES (UPI) — Former Miss U.S.A., Terry Lynn Hupling, yesterday lost her paternity suit against Hollywood attorney Arthur Crowley in a split verdict.

The shapely beauty's attorney immediately moved for a new

trial as Miss Huntingdop left the courtroom in tears. Hearing on the motion was set for June 6.

A friend of the 23-year-old 1959 Miss Universe contestant, Mrs. Muriel Ganzer, burst out shouting "It's unjust . . . the verdict is unjust."

She was escorted from the courtroom by a bailiff when she refused Superior Judge Lloyd S. Nix' orders to end the outburst.

Killer Receives Life Sentence

JACKSON (U) — Larry Lee Hanley was sentenced to life in prison yesterday for the murder of Mrs. Joan Watkins, 28, of Wampler's Lake, last Feb. 17.

"I guess I deserve it," said Hanley, 23, of Napoleon. Showing his first sign of remorse during the trial, the former construction worker said "I realize I've done wrong."

Hanley was convicted Tuesday at first-degree murder by Circuit Judge John Simpson.

Delivering the mandatory sentence, Simpson said Hanley had violated "two basic rules we try to live by: Thou shalt not kill, and thou shalt not commit adultery."

"You went out with a bad purpose in mind, with a gun you should not have had," the judge told Hanley. The judge said he believed Hanley shot the housewife as she tried to escape.

Funeral Service Is Set for Ex-State Official

LANING (U) — Funeral service has been set for tomorrow for Horace B. Corell, 86, who died here yesterday.

He was deputy state insurance commissioner for 30 years and served as acting commissioner in 1943.

Colburn Viewed Victor as Insurance Controversy Cools

DETROIT (AP) — State Insurance Commissioner Sherwood Colburn and Michigan Medical Service (Blue Shield) ended their 16-day court battle yesterday, agreeing to let Wayne County Circuit Judge Theodore R. Bohn set a premium increase in Blue Shield rates.

The agreement, which must be approved by the Blue Shield board of directors, was viewed as a victory for Colburn.

Blue Shield officials recognized the authority of the insurance commissioner to set future rates, agreed to make several changes in its operations — which had been sought by Colburn — and agreed to meet with Colburn at least once a month to discuss other possible changes.

The agreement ended a Circuit Court lawsuit filed by Colburn April 30 in an attempt to prevent Blue Shield from raising its rates 19.3 per cent on June 1.

The dispute began last month when, after failing twice to win Colburn's approval of rate in-

creases, Blue Shield announced it would raise rates 19.3 per cent on June 1 without the commissioner's approval.

It contended Colburn's approval was not needed under Michigan law.

Colburn's lawsuit will be withdrawn if the directors approve yesterday's agreement.

Judge Bohn said he will determine the amount of the increase after hearing testimony next week about the financial condition of Blue Shield.

AGREEMENT PROVISIONS

The agreement provides that the increase will not be less than 12 per cent or more than the 22.9 per cent originally sought by Blue Shield.

Judge Bohn's decision is binding on both Blue Shield and the insurance department, under the terms of the agreement.

Judge Bohn will decide what will be done with any money already paid by subscribers if the increase is less than the 19.3 per cent that Blue Shield has billed its customers.

The following points—some of which had been accepted in principle by Blue Shield — were agreed upon:

- Osteopaths and podiatrists (foot ailment practitioners) will be taken into the Blue Shield program as participating physicians.
- Senior citizens and non-group enrollment will be permitted when Blue Cross (Blue Shield's companion hospital insurance program) again opens these enrollments. Blue Shield had refused to enroll any new members in these categories the controversy began.
- Blue Shield will maintain the present makeup of its 35-member board of directors at 60 per cent doctors and 40 per cent public representatives, including hospital administrators.

Blue Shield will revise its contracts in regard to fees paid to "participating" and "nonparticipating" doctors.

Nonparticipating doctors will agree to accept Blue Shield payments as full fee for work done for subscribers in lower income groups, or else the Blue Shield payment will go to the patient.

Colburn said he will recommend to Gov. George Romney that a law be passed giving the public a majority on the Blue Shield board.

The commissioner said he was completely satisfied and very much pleased with the agreement.

Frank O. Starr, deputy director of Blue Shield, also expressed satisfaction with the agreement.

The board is slated to meet next Wednesday night.

Wrangle Over Home

FORT WORTH, Tex. (AP) — Lawyers are wrangling in U.S. Tax Court over a \$500,000 luxury home in Dallas which has door chimes playing "When the Saints Go Marching In."

Builder-owner Martin Mayrath erected the dwelling in the middle 1950s. It also boasts glass-walled bathrooms and a six-car garage.

Judge Howard A. Dawson Jr. of Washington is hearing a request by Mayrath that the Internal Revenue Service review claims that he and his former wife owe \$81,406.50 in income taxes for 1955 through 1957.

The IRS disputes a Mayrath claim that he's entitled to \$147,797 tax credit on the total cost of the house. Mayrath testified he's

X15 Test Has 1-Degree Error in Flight Angle

EDWARDS AIR FORCE BASE, Calif. (AP) — There was a slight error—one degree in the flight angle—as the X-15 research plane rocketed through the sky on a friction-heat test.

The plane hit an estimated 3,886 miles per hour and reached an altitude of 123,000 feet—186 m.p.h. faster and 25,000 feet higher than planned. The one-degree error was blamed.

But it didn't affect the experiments performed by the ship, which was equipped Wednesday with a small probe which pops from the fuselage to measure the air stream flow past the speeding plane. The readings obtained are to be used in determining the rate at which stainless steel plane skins can be expected to heat from air friction.

Plotting the X-15 on the 11-minute flight was John McKay of the national space agency.

Coop's Pay for Mission Totals \$1.32 Per Hour

WASHINGTON (UPI) — Maj. L. Gordon Cooper will get \$44.38 from the Air Force for a 34-hour orbital flight — including space pay.

The Air Force said that the astronaut's monthly pay is \$982.93, consisting of \$570 base pay, \$145.05 quarters allowance, \$47.88 for subsistence and \$25.00 for flight pay, which works out to \$31.70 a day or \$1.32 an hour.

BASHFUL BEARCAT

To tall glass, add ice cubes or cracked ice. Add 2 oz. frozen orange juice, and 5 oz. Cask Sauterne Wine. Sweeten to taste. Stir. Garnish with maraschino cherry and orange slice. Serve with straw.

2 U.S. Air Bases to Close in Canada

OTTAWA (AP) — Two of the four U.S. air tanker bases in Canada used for refueling flight bombers will be closed by July 1, External Affairs Minister Paul Martin announced.

The bases at Frobisher on Baffin Island and Fort Churchill, Man., will be turned back to the Canadian government for civilian airports. Martin said they are no longer needed because of new longer-range tanker planes.

The U.S. bases at Cold Lake and Nampaw in Alberta will be kept in operation.

Roseville Defeats Plan for Nonpartisan Voting

ROSEVILLE (AP) — The Roseville City Council defeated a proposal by Mayor Richard E. Dra-

per to switch to nonpartisan balloting in city elections. The vote was 4-2, with Councilman Harold Brockmann siding with Drager. Roseville has had partisan elections since becoming a city in 1915.

Goldwater Returning Checks Pegged for His Presidency

WASHINGTON (AP)—Sen. Barry Goldwater, R-Ariz., says he has asked three California GOP groups to stop raising presidential campaign funds for him.

Goldwater said Wednesday he had written two organizations of volunteers, notifying them he isn't a candidate for the 1964 nomination and that he wants them to halt any fund collection for that purpose.

To avoid embarrassment of individuals involved, he didn't name the groups. He said he had reports a third organization was collecting funds but didn't know its name so had written a GOP county chairman asking him to act.

The action by Goldwater was somewhat similar to that taken by Gov. Nelson A. Rockefeller in calling off the efforts of former Gov. Goodwin J. Knight to organize a nomination drive for the New Yorker in California.

RIGHT IN LINE
Goldwater insisted he was acting only in line with his repeated announcements that he is only running for re-election to the Senate next year.

"We are still sending back 'Goldwater for President' checks that come in," he said. "Of course, we're glad to keep contributions made for the senatorial campaign."

Behind that, Goldwater said he has continued to refuse any help from groups who are trying to "draft" him for the national nominations.

The Arizona senator professed ignorance of internal moves to realign the Republican party organization in California since former Vice President Richard M. Nixon

decided to move to New York. Speculating on this situation, Sen. Clair Engle, D-Calif., predicted in a statement Wednesday that GOP former Sen. William F. Knowland might head an upstart slate of delegate candidates in the next June's primary. Sen. Thomas H. Kuchel, R-Calif., maintained silence about the party realignment in his state. But it was obvious that he expects to be a convention delegate.

County GOP Group to Hear Talk on U.N.

Robert W. Peden, president of the Michigan Division of the American Association for the United Nations (AAUN), will be guest speaker at next Tuesday's 8 p. m. meeting of the Young Republicans of Oakland County. Peden said he will speak on

"Reassessing the United Nations," according to Chairman William A. Miller.

Miller said the meeting at the Birmingham YMCA will be open to the public.

The AAUN promotes support for the United Nations through educational and informational programs.

STUDIES COUNTY — James A. Lane (left) reviews material on proposals for home rule for Oakland County with County Probate Judge Norman R. Barnard. Barnard is a member of

study committee on county home rule for the Oakland Citizens League, which sponsored a seven-week visit here by Lane, in a unique political educational program.

Student of Oakland County Compiles Home Rule Data

By JIM DYGERT
If hard work is the best teacher, James A. Lane will be well educated when he returns to California June 7.

Lane came to study Oakland County politics and government for seven weeks, but found more work than study on his schedule when he arrived April 15.

But, he pitched right in. When he came up for air long enough to talk about his visit, he said, "Actually, this is the best way to learn. It's valuable experience."

The work was supplied by the nonpartisan Oakland Citizens League, which paid the expenses of Lane's trip from the West Coast.

The 26-year-old Californian is

one of 22 "interns in public affairs" in a unique education program operated by California's Coro Foundation.

A nine-month practical course for future political and governmental leaders, the program takes outstanding college graduates on field assignments to get a first-hand look at the real thing in politics and government.

"We go into a governmental office, business or labor union and stay right with them for a few weeks," Lane explains.

"It's a journalistic rather than an academic approach," he adds.

"It supplements college courses in political science or public administration, which just can't give you what you can learn from being right there where things are happening."

OTHER ASSIGNMENTS

Since his selection for the Coro Foundation program last fall, Lane had field assignments with the Los Angeles Fire Department, the California State Board of Equalization and other California groups including an oil firm and an engineers' union.

Lane's visit to Oakland County — the first Coro Foundation field assignment outside of California — was arranged at the suggestion of Oakland Citizens League President William H. McLaughlin when McLaughlin was asked for a contribution to the foundation.

Lane had no objections to the many tasks assigned him by the league. They fitted well with his reason for coming.

Among the tasks were helping a league committee compile and consolidate material on proposed county home rule, assist in the league's membership drive, and promote the league and its objectives among public officials.

"The idea was to talk with legislators, county officials and party leaders, anyway," Lane says.

Working out of headquarters on the estate of Citizens League founder Henry S. Booth at 191 Brady Lane, Bloomfield Hills, Lane has visited Gov. George Romney and the county's legislators in Lansing, besides looking in on county officials, meeting with leaders of both political parties and attending political and governmental meetings.

CHAOTIC GOVERNMENT

Organizing material on county home rule tied in well with his plan to study the county's governmental structure, which he terms "chaotic" compared to Los Angeles County government under home rule.

The league is urging adoption of legislation enabling Oakland County to streamline its government to meet modern conditions under the new state constitution's home rule provisions.

Present county governmental structure was set by the 1908 constitution.

Lane will give a complete report on what he has learned and concluded, when he returns to California next month.

He also plans to submit recommendations to the league on its operation before he leaves.

His "internship in public affairs" will not be wasted if he

sticks to his current plans, both political and romantic.

A Democrat, he hopes to run for legislative office some day. "It would be nice," he says, "to be financially independent before running."

Lane's immediate plans are not to accept offered jobs as assistant to Democratic California State Assemblyman Tom Bane or as assistant city manager of West Covina, Calif.

Instead, Lane, a native of Colorado, and a 1958 graduate of Colorado State University in history and political science who spent four years as a U.S. Navy intelligence officer after graduation, plans to go into journalism, perhaps with The Denver Post.

First, he plans to marry Beverly Woolley, a University of Kansas graduate he met in the Coro Foundation program.

Gloomy Summer Picture Painted for Teen Workers

By BILL SCHMIDT

Pontiac high school youths and those planning to enter college in the fall are going to find the door to summer employment repeatedly slammed in their face as they make the rounds seeking summer work.

This will be one of the "toughest" years to find summer work since 1958, according to Harold Truitt, chief of placement at the local Michigan Employment Security Commission (MESC) office.

"The volume of seasonal jobs is not as good as it should be, nor as strong as it used to be," Truitt said.

Truitt gives several reasons for the gloomy forecast on the summer job picture.

• There has been a sharp rise in the annual number of youths turning 16, the age when they begin summer job seeking in earnest.

• Because of the high rate of high school dropouts in the Pontiac area, the employment market is already crowded with job seekers in the teen-age bracket.

• Most employers are increasingly expressing the preference for applicants with previous work experience, academic training or on-the-job training.

Supporting his pessimistic prediction are figures released by the Pontiac Board of Education. They show that the number of work permits issued to youths with actual job orders has fallen from 1,317 in 1956 to 1962.

Truitt termed this "a dramatic drop."

1,500 YOUTHS

Don McMillan, director of guidance counseling at Pontiac Central, estimated that some 1,500 Pontiac youths will be out beating the bushes for jobs this summer.

According to best estimates,

only about 400 of these will be successful.

Girls are given a better chance for success than boys. They have many more opportunities for seasonal work in department stores and other retail outlets, McMillan said.

And as a last resort, they can always fall back on baby-sitting to earn money.

For boys, the key word is "leg-work."

Truitt and McMillan agreed that the best chances for summer work are in the boy's own neighborhood.

These are the "occasional jobs" not listed in any MESC employment catalogue — such as cutting grass, raking leaves, trimming hedges and cleaning out garages.

UNIQUE SUGGESTION

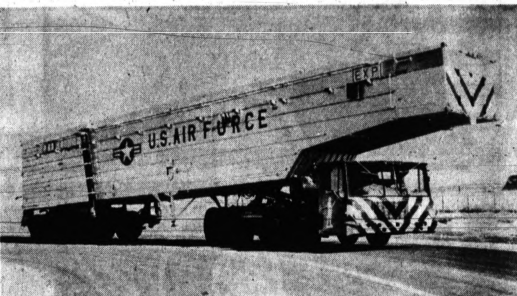

Ross Rotel, coordinator of vocational education for the Pontiac Board of Education, had a more unique suggestion.

Rotel suggested that boys jot down places of employment which hold some attraction for them, then make an appointment to talk with each employer listed.

"You have to keep things hot," he said. "If you are not accepted right away, keep checking back, let them know you're interested. Sooner or later a job will pop up."

For those who do find work this summer, the result is jingling pockets, a background of work experience and little idle time.

For the majority of Pontiac's teen-agers — those unsuccessful in their job seeking attempts — the answer could be a summer school. Approximately 400 students are returning to school to complete work.

GIANT MISSILE CARRIER—Produced by GMC Truck & Coach Division, the Minuteman ICBM transporter-erector (shown above) is the largest vehicle ever produced for use on

modern highways. Sixty feet long, with a weight of 100,000 pounds when fully loaded, the carrier was designed to transport the giant missiles to and from their underground silos.

Largest Highway Vehicle

GMC Produces Missile Carrier

GMC Truck & Coach Division is the producer of the largest vehicle ever made for regular highway use.

It's the huge Minuteman ICBM transporter-erector, designed to haul the big, ballistic missiles to and from their underground launch sites.

The massive 60-foot tractor-trailer rig is so big, in fact, that it juts out some dozen feet past the cab, keeping the driver in its shadow about 70 per cent of the time.

Its overall length compares to four average size travel-type vacation trailers placed one behind the other.

Length, however, is not the only unique aspect about the Minuteman transporter-erector.

When fully loaded, the vehicle weighs over 100,000 pounds. Because of the weight factor, it is equipped with 14 specially designed brake drums to bring it from normal highway speed to a dead stop.

The vehicle is powered by a 275-horsepower, 12-cylinder engine. So far the Truck & Coach Division has produced 30 of these units for the Air Force. The project is under the direction of the Boeing Co., weapons system integrator for the government's ICBM program.

Hospital Meeting Set

The Pontiac General Hospital Board of Trustees will hold its May meeting at 5:30 tonight at Devon Gables in Bloomfield Township.

The meeting is being held at an earlier hour than usual because of the hospital's annual awards banquet slated for 7 p.m. at Devon Gables.

business items involved," said Harold B. Euler, administrator.

Some 38 service pins will be awarded to employees with more than 10 years of service to the hospital at the banquet.

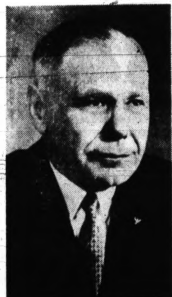

Counting employees who have received service awards at past banquets, the hospital currently had 104 fulltime employees with 10 years or more service time. Pontiac General has a total of 750 fulltime employees.

'Fiscal Reform to Hit Trouble'

ST. JOHNS — A Republican leader in the State Senate foresees trouble ahead for fiscal reform plans that may be submitted to the legislature in a special session this fall.

Sen. John W. Fitzgerald of Grand Ledge, chairman of the Senate State Affairs Committee, said there appears to be "little motivation for change" with the state experiencing an upturn in business.

He said there seems to be a 50-50 chance of accomplishing fiscal reform, but warned "fiscal reform is an agonizing thing. I expect it will be as bloody as last year's session."

LEE A. DONALDSON

Elks Arriving for Convention

1,500 Expected Here for Annual Sessions

Elks members from throughout Michigan began arriving in Pontiac today for the annual state convention of the organization.

The three-day session, with Pontiac Lodge No. 819 as host, is expected to be attended by 1,500 persons before it ends Sunday.

Heading the delegates to the convention will be Donald Frisinger, president of the Michigan Elks Association, and Lee A. Donaldson, grand exalted ruler from Pennsylvania.

Frisinger, a member of Kalamazoo Lodge No. 56, will give his "President's Report" at a 9 a.m. business meeting Saturday at the Elks Temple, 114 Orchard Lake.

Donaldson, a native of Etta, Pa., and active in the Elks since 1921, will be guest speaker at the President's Banquet, 7 p.m. Saturday.

This is the third time that the state convention of the Elks has been held in Pontiac.

Two programs have been scheduled for wives of delegates. At 12:30 p.m. tomorrow there will be a tour of Cranbrook. Saturday at 11 a.m., a brunch will be served at the lodge in conjunction with a style show.

Poverty, Floods Roam Through Hills of Eastern Kentucky

FRANKFORT, Ky. (AP)—Why come and they go through the same miserable cycle. Floods in March chased more from their homes and caused mil-

BACKGROUND
The typical answer of the natives comes from a gaunt, unemployed miner near Harlan, bailing water out of his shack after recent devastating floods: "Buddy, this is home. There's nowhere else I wanna go."

The census-takers report differently. In 1950 there were 900,000 people in a 32-county area comprising a more populous slice of picturesque Appalachia. Today there may be 650,000.

Says John Whisman, head of Kentucky's area program office: "Eastern Kentucky has the largest out-migration rate of any comparable area in the nation. The closer you get to the deep southeast, where the floods always are worst, the heavier the out-migration becomes."

SEVERE HARDSHIPS

Still, there are the 650,000, many living under severe hardships. In one county the unemployment rate is 22 per cent; in another, 81 per cent of families earn less than \$3,000 a year.

Although no politician dares say so publicly, the area is a drain on Kentucky's financial resources. The brutal reality is that too much of the Appalachian region is engulfed in economic misery and inertia.

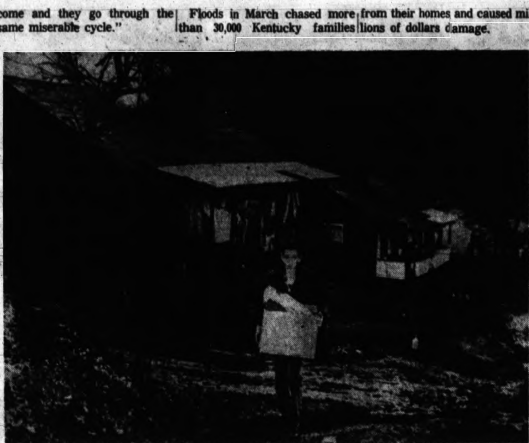

Bert Combs, who rose from humble rargins in the area to become Kentucky's present governor, says candidly there are some residents "who just don't have enough initiative to do anything else."

But he says another stay-at-home group "has some sort feeling it's the land of their birth and they ought not leave as long as there is any hope."

Jimmie Thompson, who left the tiny hamlet of Wayland for government work, gives this explanation:

"The mountains are like a drug. It's a beautiful place to live in the summertime and for generations and generations these people have lived there."

"Poverty and misery is a part of life to them. They expect it. As sure as winter ends, the floods

AP Photos

DESTITUTE AREA—These wooden homes are typical of the living accommodations in the poverty-stricken, flood-racked mountains of eastern Kentucky. This scene is at Hazard.

The head of Kentucky's area program office says "Eastern Kentucky has the largest out-migration rate of any comparable area in the nation . . ."

"My 90-year-old grandmother has five children living elsewhere, all wanting to take care of her in comfortable homes," Thompson said. "But do you know what she says. 'When they carry me from here it'll be to my grave.'"

Whisman, who comes from Clay City, another tiny Appalachian town, says: "These are the kind of people who fight for a homeland. They consider natural disasters just another enemy and they won't be pushed around."

The official hope is that eastern Kentucky, if it gets adequate federal flood protection and state attention, eventually will lift itself into a prosperous tourist area.

At least one acute observer thinks not. "I doubt if it would do any good for the area if the entire budget of Kentucky was poured into eastern Kentucky in the next five years," says Harry M. Caudill, a Whitesburg lawyer and conservation champion.

County GOP Starts Drive

Oakland County Republicans will begin their 1963 Retail, Industrial and Professional Finance Campaign Monday.

Chairman for the 12-day drive is Frederick Colombo, 1115 Country Club Drive, Bloomfield Hills. Colombo said the campaign is one of two major fund raising efforts conducted every year by the GOP to "make available the opportunity for all good citizens to become participating members of the party."

The other major drive, he said, will be the Neighbor-to-Neighbor campaign in September.

Casts Lot With Negroes

What Makes Powell Run—and Why?

(EDITOR'S NOTE — The following dispatch, second in a series, tells how New York Rep. Adam Clayton Powell became a Negro leader, and how it has affected his life.)

By LOU CASSELS and ARNOLD SAWISLAK
WASHINGTON (UPI) — When Adam Clayton Powell was 12 years old, his family moved to Harlem, where his father was to

serve for many years as a Baptist minister.

"The first night we were there," Powell recalled recently, "my mother sent me to the drug store. A gang of white boys waylaid me on the street, and beat me up."

"The next night, I was sent on another errand, and I took a different route. This time a gang of Negro boys beat me up."

"The third night the white boys grabbed me again, and asked me, 'Boy, what color are you?'"

"I was scared and didn't know what to say so I just told them the truth. 'I don't know what I am,' I said. 'I'm mixed.' So they beat me up again for being mixed."

Powell laughed uproariously as he told this anecdote to UPI reporters in his congressional office. But there was a look in his eyes which suggested the 12-year-old boy had not found the incident so amusing.

UNCERTAIN ANCESTRY

Although Powell has become the American Negro's best-known and most controversial spokesman in Congress, he is not at all sure how much Negro blood is actually in his veins, and any uneducated visitor would almost certainly take him for a white man.

At 54 he is a tall, slim-waisted, strikingly handsome man

with long wavy hair, a neatly trimmed moustache, and a complexion which ranges from the shade of coffee with double cream to that of weathered brass, depending upon how much time he has been spending in the sun outside his beach home in Puerto Rico.

On his desk is a gold-framed family photograph showing his father, mother and sister. All of them look white.

"I couldn't prove that I have any Negro blood," Powell said in reply to a direct question about his ancestry.

Then he added: "I am a Negro by choice."

In that sentence lies part of the explanation of Powell's strong hold on the affections of the Harlem constituents who have elected him to Congress 10 times despite a succession of scandals and accusations involving income tax returns, trips at government expense, relatives on the federal payroll and other matters.

Powell is a man who could pass for white—who, in fact, was taken for white in college—but who has deliberately chosen to cast his lot with the Negro race.

POLITICALLY REWARDING

The decision may have cost him something in terms of private snubs or embarrassments. But it

has been professionally and politically rewarding.

Powell was born in New Haven Conn., Nov. 29, 1908. But he has spent most of his life in New York City, where his father, the Rev. Adam Clayton Powell Sr., built the Abyssinian Baptist Church into one of the largest Protestant congregations in America (about 10,000 members).

First located in downtown Manhattan, the church was transplanted to Harlem when Adam Jr. was 12.

Young Powell grew up in comfortable circumstances, attended good schools, was graduated from Colgate University with an A. B. degree and went on to get his master's from Columbia.

At 22, he became assistant minister of his father's church. Seven years later, he succeeded his father as pastor of the Abyssinian Baptist Church—a post he still holds despite a series of marital troubles that have shocked some of the church elders.

Powell has had three wives. The first, whom he wed in 1933, was Negro actress Isabel Washington. They were divorced in 1945, and Powell married pianist Hazel Scott.

They had a son, Adam Clayton Powell III, nicknamed "Skipper," who has gladdened his father's heart by compiling a brilliant record in prep school and winning admission to MIT this fall.

He was divorced in 1960, and Powell married one of his congressional secretaries, a pretty Puerto Rican girl named Yvette Diago.

SAN JUAN HOME

Although both of Powell's jobs—as minister and congressman— theoretically require him to maintain his residence in Harlem, his real home these days is a \$70,000 beach house near San Juan, Puerto Rico, where he spends as much time as possible with Yvette and their infant son, born last year.

His frequent trips to Puerto Rico, some at government expense, and his very high absenteeism record (he missed nearly half of the roll call votes taken by the House during the past two sessions) have been remarked upon unfavorably by his numerous critics, in and out of Congress.

But evidently they have not distressed either his constituents or his congregation in Harlem.

Actually, Powell's House seat is as "safe" as that of any of the Southern congressmen with whom he battles over segregation—and for the same reason.

He has the race issue solidly on his side in his district.

(Tomorrow: Powell in a free-wheeling, question-answer interview replies to critics of his flamboyant ways, and challenges his fellow congressmen to quit being "hypocrites.")

The wife, undisputed head of the household in Ladhak, Kashmir, can take two of her first husband's younger brothers as junior husbands.

Nonchalant in Space

Hard to Tell When Cooper's Asleep

By JOHN BARBOUR
CAPE CANAVERAL, Fla. (U)—Call it nonchalance, or just easy going, but sometimes—within the privacy of his space cabin—it's hard to tell whether astronaut Gordon Cooper is awake or asleep. Even in the last tense minutes, waiting to blast off, Cooper may have dozed off.

Again—in some quiet moments as he approached the California coast on his second orbit—Cooper dropped off to sleep again.

Finally after 12 hours and 40 minutes in space, Cooper reached the 10-hour period circumscribed as a "don't call me, I'll call you" time in which he could rest undisturbed by calls from the ground.

It took him barely five minutes to relax to the point where his doctors could say it appeared he was asleep.

The doctors say Cooper was very near sleep, if not actually dozing at a time during the last 60 minutes of his countdown.

They watched on the instruments as his breathing rate fell to a sleeping pattern of about 12 breaths a minute, and became very regular, and his heart indicated sleep.

They got the same report from the astronaut's body Wednesday night as he passed over Ascension Island, about five minutes after his rest period began.

DOCTORS CONSIDERATE

Being considerate fellows, they didn't ring him up and ask if he was asleep.

Unlike most bosses, space officials don't look down on this kind of catnap on the job. Also, unlike most bosses they can tell whether an astronaut is doing because the space pilot's body is

Actually his doctors were happy

CONCENTRATION — Donald K. Slayton, coordinator of astronaut affairs (right), and astronaut Walter Shirra watch reports on Cooper's progress as he circles the earth in his Faith 7 capsule.

to see him napping earlier in the night because it indicated he would have little trouble sleeping during the rest period.

Asked if it was all right for Cooper to drop off that way, Operations Director Walt Williams said, "Why not?"

Astronaut coordinator Donald K. Slayton was asked whether Cooper likes to sleep on the boat when he and his fellow astronauts go fishing.

"WE ALL DO"

"We all do," Slayton said, protecting astronaut anonymity.

"when we're not catching any fish."

Slayton doesn't think it strange that a man can sleep a hundred or so miles above the earth. Cooper has done little talking during the flight—but then he's sparing of words anyway.

Williams said Wednesday night: Did he sound sleepy? "I don't think he's sleepy at all. As far as slowness of talk, this boy was born in Oklahoma. He talks with a drawl. No question about that. And he doesn't do a lot of talking. I don't doubt he's tired; he's been awake 18 hours."

Soviet Trawler Spotted Near U.S. Orbit Tracker

YOKOSUKA, Japan (U)—A Soviet trawler of the type the Soviets use for electronic snooping was sighted today near a U. S. ship monitoring astronaut Gordon Cooper's space flight, an informed source said.

A U. S. destroyer sighted the trawler in international waters in the general vicinity of the American ship Coastal Sentry, which is monitoring Cooper's flight and may control his re-entry at the end of the 22-orbit flight.

The trawler's mission has not been determined, the source said.

A U. S. Navy spokesman said he had no information on the report.

Astronaut John H. Glenn Jr. is aboard the Coastal Sentry and talked with Cooper when he passed over the ship earlier today on his eighth orbit.

Cooper transmitted pictures through the television camera in his capsule, but Glenn told him the pictures were too dark.

Glenn is to fire the retro rockets on the Faith 7 if Cooper becomes incapacitated and cannot bring the space craft down himself.

Soviet trawlers equipped with elaborate electronic gear have been sighted during past U. S. rocket experiments in the Pacific and Atlantic.

Four destroyers also were deployed in the area south and southeast of Japan to rescue Cooper should he come down short of his planned recovery area off Midway Island.

Blanket of Air Big Danger to Spaceman

CAPE CANAVERAL (UPI)—The great blanket of life-giving air that encircles earth paradoxically presented the major danger to astronaut L. Gordon Cooper on his planned return from space today.

The tricky problem of nosing a space capsule back into the atmosphere at a speed of 17,500 miles an hour is one of the most difficult an astronaut faces.

At that speed tremendous heat is generated from the friction of air around the capsule. The temperature can build up to as much as 3,000 degrees Fahrenheit — far above the melting point of iron.

The task facing the astronaut on re-entry is to maneuver his capsule so it comes in at the proper angle and in the proper position. An error one way or another could spell a flaming death.

Cooper was scheduled to begin slowing up Faith 7 by firing three solid-fueled "retro" rockets over Shanghai, China, about 34 hours after the start of his spectacular flight from Cape Canaveral.

Excitement of Launching Possible Cause of Death

GEORGETOWN, Ohio (UPI)—The excitement of watching the launch of Maj. L. Gordon Cooper's Faith 7 space capsule on television yesterday may have caused the death of a retired farmer.

Samuel B. Andrews, 82, suffered a heart attack and died just as the spacecraft roared off its launching pad, the coroner's office said.

Astronaut Wins World's Acclaim

LONDON (U)—Astronaut L. Gordon Cooper, the newest and most nonchalant man in space, won a hero's acclaim today from around the world.

Millions hailed Cooper's epic flight and waited for the tense moment when he would come down.

The Soviet Union gave the flight restrained, noncommittal coverage.

Cooper's valor and calm approach to the adventure won admiring headlines in newspapers throughout Western Europe.

Gordon's so gay on the big ride-around," said the London tabloid Daily Mirror over a picture of the spaceman blanketing the front page.

On Astronaut Tracking

Official Bans TV Show

COLORADO SPRINGS, Colo. (U)—Arthur Sylvester, assistant secretary of defense, halted plans for network television coverage of North American Air Defense Command's tracking of astronaut Gordon Cooper, a NORAD spokesman said yesterday.

The National Broadcasting Co. had planned to televise information assembled by NORAD's Space Detection and Tracking System Center, which tracks and catalogues all man-made objects in space.

Sylvester's order, setting conditions which NBC considered too restrictive, was received here at 2 a.m. Tuesday, the NORAD spokesman said. NBC said it had received prior approval from the Defense Department.

A department spokesman in Washington said permission originally had been granted for NBC

"The unimpressed space traveler," one Danish newspaper called him.

Rome's Il Messaggero said in a front-page editorial: "With Cooper's feat the United States reached the technical level from which leads the path to lunar adventure."

The flight won priority over national elections in Dutch evening papers and the Paris press gave the story top play.

Radio stations across the continent broke into programs to give reports on Cooper's flight. Newspapers, news agencies and radio stations were flooded with telephone calls asking how the astronaut was doing.

A multimillion candle power light was switched on at the air station in Bloemfontein, South

Africa, last night as Cooper passed over on his sixth orbit.

The astronaut had been alerted to look for the intense blue glow, and Cooper reported he saw it. The Soviet press, radio and television covered Cooper's flight briefly and without comment. It was in marked contrast to the all-out coverage they give Soviet space feats.

The Communist party newspaper Pravda ran 200 words on its back page with a picture of Cooper in his space helmet. The military organ Krasnaya Zvezda (Red Star) also put the story in back but with no picture.

Pravda, Red Star and Trud, the labor paper, carried identical headlines: "Cosmic Flight of Gordon Cooper."

Moscow radio reported that Soviet cosmonaut Gherman Titov wished Cooper success.

The attempt to beam live television to Europe of Cooper's blast-off was a flop, however, because of a mix-up which sent meaningless pictures along with the description of the blast-off across the Atlantic via the Relay 1 communications satellite.

"We were getting pictures from Cape Canaveral and sound from New York," a BBC spokesman said. "The pictures came clear enough but they showed nothing of the drama of the launch."

A spokesman for the American

Mercury Unit Modified for Longest Orbit Shot

CAPE CANAVERAL (UPI)—L. Gordon Cooper's space mission was planned for approximately 22 orbits because this was the figure best suited to the limitations of his Mercury capsule and requirements for bringing him down in the best recovery area.

The spacecraft was modified for this longest of America's manned space flights by making room on board for more oxygen than was carried on previous flights.

WHERE ORBITS SHOULD END — This map shows where astronaut L. Gordon Cooper's 21st orbit around the earth should end and where the last, the 22nd, should begin, if all goes well.

The point on the map east of Midway Island is where the great space flight should end at approximately 6:30 p.m. (Pontiac time) today.

MSU Students Take Brief Respite in Vernal Variety

Gilchrist Dormitory coeds put the finishing touches on their float for the Water Carnival to be held Saturday. Diane Adams, Silver Shore (left rear), and Lorry Gorman, Chata, supervise as (front from

left) Mary Aughenbaugh, Lakewood, DeeDee Kaiser, North Lake Shore, and Barbara Herrmann, Woodbine, wield hammers.

"Look, but don't touch!" cautions John Kimball, Ogemau, as Sue Johnson, St. Joseph Street, considers picking a tulip. A fifty dollar line is levied on anyone who picks or mutilates the flowers in the horticultural gardens.

Beaumont Tower clock bongs out the hours, reminding students of class time. Trying to keep punctual, Marcie Agree (left) and Kay Jerome, both of West Iroquois, check their watches as they hurry to class.

Sue Sommerville of Sylvan Lake (left) hurries to catch up with Sue Steinbaugh and her umbrella as spring raindrops fall. The girls live at the Alpha Xi Delta house.

The ducks who swim along the Michigan State reserve quack their thanks for food given them by John Rogge, Vinewood, and Ruth Hoffman, Miller. The ducks are part of the tradition of MSU.

Spring means the time for long awaited term parties. In Abbott Dorm, Judy Graham, Sylvan Lake (seated), awaits her tardy date. Chris Olson of

Shoals and Patricia Burns, Ogemau, can't resist teasing her for her lack of patience.

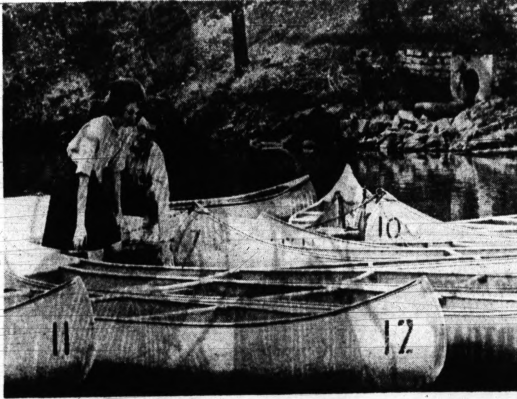

Judy Whitmer, Genesee, abandons her bicycle and settles down under a tree for a study session in Landon Field.

Positron Press Photos by Phil Webb

The library is the nucleus of the campus. Ronald Stanke, East Hammond Lake Drive (left), and Ron Newman, Lakewood, meet on the library steps.

Canoeing on the Red Cedar, anyone? Ed Bradley, Spokane Drive, obviously is eager to yell, "Ship ahoy!" to Mary Jo

Whitfield, Sylvan Lake, as she carefully steps into a canoe.

Bicycles are a handy mode of transportation for busy Michigan State students. Pedaling to class on the bike path are Marilyn Jack, Marie Circle, and Heidi Griffith, Dakota Drive.

It's Proper to Stand in Office

By The Emily Post Institute

Q: I have recently been promoted to buyer for a large manufacturing company. I am the only woman ever to hold this position in the company.

During the course of the day, quite a few men from different companies come in to the office to see me on business. I would like to know if I should rise to greet them.

It seems rude not to get up, but on the other hand, neither does it seem proper for a woman to rise for a man. What is correct in this situation?

A: In the situation you describe, you are in the position of hostess and as such it is both proper and polite to get up to greet these men as if they were guests coming into your house.

Q: I am having a very small wedding with just the immediate families attending. I plan to send wedding announcements to out-of-town relatives and friends.

I had not intended to send them to relatives and friends living here as they all know of my forthcoming marriage. My mother thinks announcements should be sent to everyone regardless of whether they know of my marriage or not.

It seems silly to me. What is your opinion?

A: Announcements are properly sent to all those not invited to the wedding. The Emily Post Institute cannot answer personal mail, but all questions of general interest are answered in this column.

Meeting Is Held

The annual alumnae meeting of the Bloomfield Hills Convent of the Sacred Heart will be held May 25, the feast day of the foundress of the religious order of the Sacred Heart.

Following an 11:30 a.m. Mass will be a luncheon at which anniversary classes will be recognized and some 24 graduates of the class of 1963 will be taken into the alumnae association.

Mrs. Robert G. Fisher will report on her attendance at the biennial meeting of the Associated Alumnae of the Sacred Heart in Washington, D. C.

Society Planning Fund Drive Sale

The Woman's Missionary Society of the First Church of God will hold their annual fund-raising benefit sale Friday and Saturday in the church basement, 9 a.m. to 4 p.m.

The church is located on East Boulevard South. Mrs. Frank Antrobus of Colby was hostess to the society's Monday evening meeting in her home.

Prevent Sticking

A little paste wax on the top of a nail polish bottle will make the cap easy to remove.

Club Plans Opera Night

The Village Woman's Club has announced two events which close the year's educational and cultural program.

Tuesday is opera night; July 17 is the date of the annual trip to Stratford. Both events will be preceded by informative lectures. Non-members are invited to participate.

Chairman of opera night, Mrs. Charles Himelhoch, has arranged for a special bus to transport opera fans as they attend "Il Barbiere di Siviglia" Tuesday.

The group will travel by bus

to see "The Comedy of Errors" July 17. Although this has been planned as a mother-daughter event, all are welcome. A box lunch and dinner will be provided.

Preceding the trip, Dr. Maurice Brown, professor of English at Oakland University, will review the three plays in the current Shakespearean repertoire of the Stratford players. "The Comedy of Errors" will be reviewed May 21. "Troilus and Cressida," May 28 and "Timon of Athens," June 4.

Information may be obtained by calling the Village Woman's Club.

Hear Report at Meeting

Pontiac Shrine No. 22, Order of the White Shrine of Jerusalem, heard a report of the supreme session during Wednesday evening's meeting at the Roosevelt Temple.

Worthy High Priestess Mrs. Harold Radcliffe gave her report on the New Orleans, La. meeting.

Mrs. Marquis Sartell was introduced as supreme district deputy for the Flint and Pontiac areas. Mrs. Joanne Anderson and her committee served refreshments.

Relief Society Elects Officers for Next Year

Ani chapter of the Armenian Relief Society has elected officers for next year.

Mrs. William Enfield is president. Mrs. George Arakelian, secretary, and Mrs. Barkave Torosian, treasurer, will assist her.

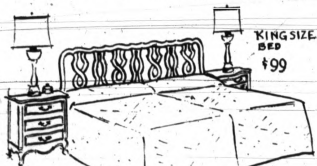

Select Two for Meeting

Members of the Transatlantic Brides and Parents Association were guests of Mrs. Steven M. Strzelecki Tuesday in her Timore Drive home.

Mrs. Milton Ott and Mrs. Gordon Grey were elected delegates to the June 8 conference in Columbus, Ohio.

Participates in Inspection

Mrs. T. R. Arnold of Iraq No. 70, Daughters of Mohama, was among presiding officers at a joint ceremonial and inspection in Ann Arbor Monday evening.

A banquet followed the ceremony, held at the Zai-Gaz No. 7 Grotto Hall, in the Ann Arbor Elks Temple.

Churchwomen Honor Their Past Presidents

Past presidents of the Episcopal Churchwomen (ECW) of All Saints Church were honored Tuesday at a luncheon.

Past presidents attending the affair were Mrs. James Hampton, Mrs. Bruce Hub-

bard, Mrs. Helen Fay Peeples, Mrs. Arthur Barnes, and Mrs. Thomas Atkinson.

Other former executives were Mrs. Frederick Cockle, Mrs. Gilbert Lee, Mrs. Willis Lefurgy, Mrs. Robert Nienstedt and Mrs. Standish Sibley.

Concluding the list were Mrs. Clarence Smith, Mrs. Robert Tricker, Mrs. William Wolfram, Mrs. Whitney Prall and Mrs. Franklin Read.

Mrs. J. P. Carrille of Pleasant Ridge spoke on "Gifts of the Bible."

Newly elected officers of ECW of All Saints Church are Mrs. John Hubbard, president; Mrs. Gerald Frericks, first vice president; Mrs. L. Jerome Fink, second vice president; Mrs. Jack Brannack, recording secretary; and treasurer, Mrs. Quine.

New Officers Are Elected by Alumnae Unit

New officers were elected at the quarterly meeting of the Kelso Alumnae at their Tuesday meeting at the Oze-maw home of Lama Hook.

Assisting Mrs. Marian Hodges Benter as president will be Mrs. Robert Isgrig, vice president; Mrs. Eugene Carey Jr., secretary; Lynne Benter, treasurer; Paul A. Lynn, historian; and Mrs. Wayne deBeauclair, publicity.

The board of directors gained new members Mrs. Carl Beach, Mrs. Bruce Hubbard, Mrs. Robert Nelson, Mrs. Donald Newman and Mrs. Arnold Thingstad. Lama Hook was made a lifetime member of the board.

Pontiac Press Photo

Mrs. Robert D. Terry, East Pike (at left), retiring president of Alpha Omega chapter, Beta Sigma Phi sorority, presented "The Order of the Rose" award to incoming president Mrs. Russell Per-

kins, of Sharon Drive, Wednesday at a dinner meeting in K-Falls Restaurant. Mrs. Michael Gollogly, Milford (at right), was first to receive the award in Pontiac.

Receives Sorority's Highest Honor

The highest honor of the Beta Sigma Phi sorority was conferred on Mrs. Russell Perkins in a surprise ceremony following a dinner Wednesday in K-Falls Restaurant.

A candidate for "The Order of the Rose" award, is notable for her ideals, industry and dedication to the group throughout the whole period of her membership. She must also have the unanimous vote of her chapter to receive this honor.

Mrs. Perkins pledged Beta Sigma Phi in November 1945, and received her ritual of jewels degree in May, 1946. She served two terms as

chapter president and corresponding secretary, respectively, and was Pontiac city council president in 1951. In 1961, she transferred to Alpha Omega chapter and served as vice president last year.

She is an active member of the Soroptimist Club of Pontiac, and past secretary of

the Viernes Dancing Club and of the American Business Women's Association. She was also member adviser to Nu Phi Mu chapter of her sorority.

Judy Perkins was a surprise guest at the candlelight ritual honoring her mother, Mrs. Robert D. Terry was the second recipient of the "Rose" award in Pontiac.

So many women remain just five to 10 pounds away from a truly lovely figure. This viewpoint is understandable since five to 10 pounds is not enough overweight to be extremely distressing.

However, even this much can make a woman feel uncomfortable in her clothes and deny her the pleasure of a sleek slim feeling. Also she should lose any overweight for best health and top energy.

As most of you know, I am bringing you my nine-day reduc-

ing diet this week. If you wish to use one of the low-calorie salad dressings instead of lemon juice on your salads, go ahead.

This will add little to your daily calorie count.

You might recall the value of herbs in seasoning when you are counting calories.

Because many of you will want to do your shopping now, I will give you the menus for Friday and Saturday.

Here are the menus for Friday:

BREAKFAST

One egg
One thin dry slice of whole wheat toast
Black coffee

LUNCHEON

Fresh fruit salad
Two tablespoons cottage cheese
One glass skimmed milk
One thin dry slice of whole wheat toast

DINNER

Baked fish, medium portion
One-half cup cabbage, lightly cooked
One-half cup spinach or greens
One glass skimmed milk
One orange

Here are the menus for Saturday:

BREAKFAST

One-half grapefruit
Two slices crisp bacon
One thin dry slice of whole wheat toast
Black coffee

LUNCHEON

1 medium hamburger
Sliced tomatoes
One glass skimmed milk

DINNER

Good helping liver
Stewed tomatoes
Ten stalks of asparagus
One glass skimmed milk
One slice of pineapple or one-half grapefruit or apple

If you would like to have my nine-day reducing diet which gives you a loss of from five to 10 pounds in nine days, send 10 cents and a stamped, self-addressed envelope with your request for it to Josephine Lowman in care of The Pontiac Press.

Elections Are Held by Auxiliary

Elections were held at the Monday evening meeting of the Auxiliary Italian-American club at the club hall.

Re-elected were Mrs. Paul Spadafora, president; Mrs. Carl Grassi, secretary; and Mrs. Giulio Bernero, corresponding secretary. Newly appointed officers were Mrs. Joseph Pollina, vice president and Mrs. Sam Calabrese, treasurer.

Last-minute plans were discussed for the annual spring dance May 25 at the hall on North Tilden. The dance is open to the public and music will be furnished by "The Key Notes."

Hostesses for the evening were Mrs. Joe Spadafora and Mrs. Roger Davis.

Sounds Like Fellow Angler Is Trolling a Tricky Line

By ABIGAIL VAN BUREN

DEAR ABBY: Another man and I went on a weekend fishing trip. When we came into my home he met my wife for the first time.

When he looked at her, his eyes grew wider, then he turned to me and said, "You must be nuts to leave a beautiful thing like that alone for the weekend."

Do you think I was?

DEAR LIKES: I don't know about THAT weekend, but the next time you go fishing be sure to take the same man with you.

DEAR ABBY: Do you think that diabetes runs in a family? Our son is getting married to a girl who has diabetes.

There are three in her family who have it. There are two in our own family who have it, although my son doesn't.

They would like to have four children. The girl says there is a good chance the children would be born with diabetes, but that is the chance my son must take as he has been told of her condition.

What is your advice? **YOUNG MAN'S MOTHER.**

DEAR MOTHER: Your son and his future wife should sit down with a physician and discuss the matter thoroughly with him. Diabetes most certainly does "run" in the family. And when it exists in BOTH families, it is doubly dangerous.

DEAR ABBY: My husband and I just had a heated argument. He came home one evening last week and told me a large company (one he does business with) was having a "dinner."

When the night of the "dinner" came, I found out that just a salesman and an assistant buyer were taking him

out for dinner and he didn't know where.

I say a "company dinner" consists of quite a few men. He says it can be for two or three or more.

Please put your answer in the paper as he wants everything in writing, and it may lead to a divorce.

DEAR "P": Your problem is plainly NOT how many guests make a "company dinner." Your husband may not have described his dinner engagement accurately, but

what's the difference? It WAS a business dinner, wasn't it?

CONFIDENTIAL TO "NO FOOL": Be a little more patient. You never know what kind of battle the next person may be fighting.

Yes, Abby will send you a personal reply if you send her a stamped, self-addressed envelope with your problem.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to ABBY, in care of The Pontiac Press.

Attention, all summer brides! If you are planning to have your wedding story in The Pontiac Press, it is time to come in for a wedding questionnaire.

This should be returned to the Women's Department at least one week BEFORE the wedding. Pre-bridal pictures may be brought in with the wedding form. Deadline for pictures taken at weekend weddings is 8 a.m. the following Monday.

Pictures brought in after Monday deadline will appear with the story on Tuesday, if space permits. Out-of-state weddings and pictures will be accepted within a week after the ceremony.

We will be unable to give detailed descriptions if the story arrives more than three days after a local wedding. Please call The Pontiac Press Women's Department if you have any questions.

Name Officers of Bethel 40 at Meeting

Officers were elected and activities planned at the Monday evening meeting of Pontiac Bethel No. 40 of the International Order of Job's Daughters at the Roosevelt Temple.

In the semi-annual election of officers Helen Boatright was chosen as honored queen. Assisting her will be Barbara Flore, senior princess; Nichol Peterson, junior princess; Betty Rodgers, guide and Judy Williams, marshal.

Installation of officers will be held at the Roosevelt Temple June 7. The group also elected a new council for the coming year.

Bethel members will journey to Alma May 26 to visit the Michigan Masonic Home. Final plans were made for the slumber party Saturday and for the father-daughter banquet May 27 at the Roosevelt. Master Masons will be honored at this meeting.

Hospital Film Has Premiere in Pontiac

The crowd roared when Dr. Shelby M. Baylis, of Schoenhut climbed out of a garbage truck at the Huron Theater. Dr. Baylis is the star of the movie, "Homer's Odyssey", produced at Pontiac General Hospital and premiered Wednesday evening in a Hollywood style setting.

Other dignitaries arrived in more style at the Pontiac General Hospital Auxiliary benefit. Harold B. Euler (left), Ottawa, escorts Mrs. John J. Marra, Lake Orion. Second from the right is Dr. Dale Liechty, University of Iowa professor, who was a speaker. Dr. James Read, Bloomfield Hills, is at the right.

Full House Views 'Homer's Odyssey'

Pontiac had a world movie premier Wednesday night at the Huron Theater.

"Homer's Odyssey," the film produced by Pontiac General Hospital staff members to depict the varied careers in hospital work, was shown for the first time to a capacity audience.

A Hollywood style setting at the theater greeted PGH Auxiliary members, civic dignitaries and doctors as they arrived. Twelve cars carried them from the hospital to the theater in a police-escorted parade.

MISTRESS OF CEREMONIES

Mrs. W. F. Fuller, national Hospital Week chairman, was mistress of ceremonies for the occasion.

Mrs. W. H. Bedard, chairman of the Auxiliary scholarship committee, presented the local scholarship recipients: Manuella Medina; Nadine Morris; Pamela Pullis and Diana Black.

Special guests, Dr. James A. Read and Dr. Dale Liechty spoke briefly. Dr. Read is a past president of the Oakland County Medical Society and Dr. Liechty came from the University of Iowa for the event.

PGH Auxiliary sponsored "Homer's Odyssey" to show young people what careers may be followed in hospitals and to raise money for their scholarship fund.

Dr. Shelby Baylis and Dr. Jack Kevorian are the stars of the movie with over 50 members of the hospital staff appearing in the film.

Anniversary Is Discussed by Sorority

Sixtieth anniversary plans were discussed at the Tuesday evening meeting of Omega Mu Sigma sorority. The organization was founded in 1903.

Co-chairmen for anniversary plans are Mrs. Ray Peterson and Mrs. Leo Halfpenny. Assisting them will be committee chairmen Mrs. Patrick Cullen, Mrs. Guenther, Mrs. Elmer Lea, Mrs. Alex Gashany, Lola Strom, Mrs. A. D. Ecker, Mrs. Merrill Petrie and Mrs. Irene Snyder.

Final plans were completed for the annual breakfast May 26 at Edgewood Country Club. Reservations are being taken by Miss Strom, Mrs. Snyder and Mrs. Russell Gustavson.

The group also voted to send a child to Camp Oakland for a two week period. This is an annual sorority project.

The sorority tea will be held in October.

Use for Sandwiches

The underpart and back end of a smoked tongue are called the tongue's "trimmings." Don't throw these parts away! Put them through the meat chopper, mix with mayonnaise and pickle relish and use as a spread for sandwiches or crackers.

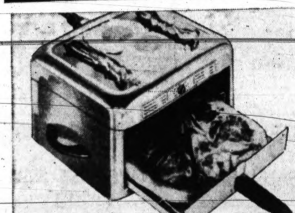

If you store candles in a refrigerator for 24 hours before using, they will burn evenly without dripping.

Man Most Would Like to Meet

Teens Rate Nikita Second Only to Kennedy

By EUGENE GILBERT
President,
Gilbert Youth Research, Inc.

Of all the world's leaders, excluding those of our own country, America's teen-agers feel Nikita Khrushchev is the most important and the man they would most like to meet.

"I'd just like to see what kind of a human being he is," said

Virginia Supinski, 16, of Stratford, Conn.

That seemed to be the feeling of most of 900 students in our latest survey on world personalities and public affairs.

As Sharen Killian, 17, of Harrisburg, Pa., put it: "I'd like to ask him 'Why?'"

The majority of the teen-agers, 64 per cent, said the man they

had the most respect for was humanitarian Albert Schweitzer.

Next, chosen by 33 per cent, was Harold Macmillan, and third was Germany's Konrad Adenauer, the choice of 28 per cent.

There was little doubt why the students considered Khrushchev most important.

"He controls 15 million miles of world," said Jane Seymour, 17, of Brunswick, Ga.

Seventy-five per cent of the boys and 66 per cent of the girls agreed.

Khrushchev also came out on top as the man most teen-agers (48 per cent) would like to meet and to find out, as 15-year-old Barbara Tobin of Jersey City, N. J., phrased it, "what he is REALLY like."

Next to Khrushchev, said Barbara, she would like to meet Prince Philip and "discuss teen-age problems."

Susan Noel, 16, of Jackman, Maine, said she also would like to meet Prince Philip.

"He's cute and has brains," she said. But Susan's first choice was Fidel Castro. "I'd like to give him a piece of my mind."

As to American leaders, 39 per cent of the boys and 40 per cent of the girls said President Kennedy was the man who best expressed their point of view.

A week second, the choice of only 9 per cent, was Richard Nixon — followed by Nelson Rockefeller, Adlai Stevenson, Barry Goldwater and Lyndon Johnson, in that order.

We gave the students a list of descriptive nouns, such as "liberal," "conservative," "crusader" and the like, and asked them to apply them to a list of public figures.

DIDN'T KNOW

In general the teen-agers agreed with popular descriptions of the figures, but most significant was that with only two exceptions — President Kennedy and Sen. Goldwater — most respondents replied they didn't know how to describe them.

One out of four students said Kennedy was a liberal and 31 per cent called Goldwater a "rockbound conservative."

Adlai Stevenson was regarded (by 14 per cent) as a crusader; William Buckley a reactionary (8 per cent); Lyndon Johnson a middle-of-the-roader (20 per cent).

We also asked the teen-agers to rank the country's most pressing problems — the space race, integration, nuclear testing and so forth. In the list of problems we included, without further explanation, "disunity of the U.S."

From their responses, we conclude that the students weren't particularly aware of any disunity, but if it does exist it is a problem second in importance only to Soviet communism.

"The country should be unified if we expect to be strong," said Nanci Lampe, 16, of Grand Haven, Mich.

Lynne Ushio, 15, of Oakland, Calif., said, "This is our number one problem because it affects everyone."

Dennis Marshall, 14, of Louisville, Ky., said, "If the U.S. was to separate it wouldn't be very hard for the communists to take over;" and Henry Moss, 16, of Camden, N.J., asked "What could space race (6 per cent) be more important than trouble at home?"

For the record, here is how America's teen-agers rank the country's troubles. The percentages indicate the number who considered the problem as most important:

Soviet communism (31 per cent); disunity of the U.S. (24 per cent); integration (11 per cent); Castro (10 per cent); nuclear testing (9 per cent); Chinese communism (9 per cent); clear testing (9 per cent); over; and Henry Moss, 16, of Camden, N.J., asked "What could space race (6 per cent) be more important than trouble at home?"

Find Lighthouse Fragments; One of 7 Ancient Wonders

WASHINGTON — Divers have carved his name on it. He then discovered fragments of the plaster on which he engraved Pharos, the great lighthouse of the ancient world.

In the harbor of Alexandria, Egypt, the underwater explorers found a decorated stone facade, a broken column and statuary that may have ornamented the monumental structure.

The remains of the Pharos lie about 24 feet beneath the Mediterranean Sea, the National Geographic Society says. An earthquake toppled the lighthouse in 1375, destroying a seamount that had stood for 1,600 years.

The Pharos was completed about 280 B. C. in the reign of Ptolemy II, or Philadelphus. This enlightened ruler of Egypt made Alexandria into a center of science and scholarship.

The city also was a major port, and a beacon was needed to guide ships to Egypt's low-lying coast and past the shoals outside Alexandria's harbor.

The lighthouse was built on the island of Pharos, a natural breakwater. The island was connected to the mainland by a causeway, which has silted over and become an isthmus.

The Greek architect Sostratus, who designed the tower, was so proud of his work that he boldly

mistook it for a strange new star. Modern authorities calculate that the beacon probably was visible only 30 miles.

The light may have been reflected by a polished stone or metal disk.

Top sections of the Pharos collapsed around A.C. 700. Men seeking Alexander the Great's treasure rumored to be hidden there may have undermined the

FACT AND FANCY

Ancient and medieval writers often described the Pharos, but they mingled fact and fancy so capriciously that an uncertain picture of the tower survives.

Archeologists believe it stood about 500 feet tall in several tapering sections.

It reputedly contained 300 rooms and may have served as a fort.

Above the base rose octagonal and circular stages. A cupola protected the signal fire. Surmounting all was a giant statue of Poseidon, god of the sea.

Smaller statues in the Pharos supposedly included a rotating figure that followed the sun's course with a pointing finger and another that musically sounded the hours.

The flare was kept burning constantly — a pillar of fire at night, a column of smoke by day.

Ancient writers said the Pharos beacon was visible 60 miles at sea, and that sailors sometimes

top. An earthquake in 1200 and the severe tremor in 1375 completed the destruction.

Today, all that remains above ground of the wonder of the world are a few stones incorporated into a 15th Century fort on the site.

He'll Never Wear Out His Pipe Collection

SUNBURY, Ohio (AP) — Kenneth Shipman, 51, has a collection of 150 pipes, including an opium pipe he took from a Japanese soldier in Okinawa during World War II.

But Shipman himself doesn't smoke.

Winnie Back in Parliament

LONDON (AP) — Sir Winston Churchill confounded those who suggested his appearance in the House of Commons might be his last. He turned up there again yesterday.

There were cheers again as he entered the chamber, leaning heavily on his cane and walking slowly to his seat. The 88-year-old statesman has announced he will not seek re-election to Parliament.

Romney Names Barber to Examining Position

LANSING (AP) — Floyd R. Lake, a Gaylord barber, yesterday was appointed by Gov. George Romney to the State Board of Examiners of Barbers.

The appointment requires Senate confirmation. Lake was appointed for a five-year term, replacing Carl Bonnel of Saginaw, whose term has expired.

Before the war, French production of canned peas totaled 60 million cans a year. Last year, the total exceeded 100 million.

The urban 70 per cent of the only 1 per cent of the nation's United States population occupies land area.

Junior Editors Quiz on CLAMS

QUESTION: How and why does the razor clam move under the sand?

ANSWER: Some people say that the shell of this clam, which we show empty at upper left, looks like the handle of a razor; others claim it resembles a jackknife—so it's called jackknife, as well as razor clam.

The razor lies upright in the sand as at (A). It has light-sensitive spots at the upper end of its body which tell it when something is approaching.

It also has a remarkable strong foot which it can project down from the lower end. When alarmed, the clam slices down with this foot.

The end of the foot then suddenly swells to a bulbous shape which acts as a tiny anchor; the clam contracts the foot and pulls the whole shell down against the anchor.

Then it quickly digs its foot down again and get another grip and down it goes again. Razor clams do this so rapidly that before you can grab them they're often too far below to find.

Why do they hustle through the sand this way? Well, they're extremely good to eat, but they have a strong dislike for being eaten. Wouldn't you, if you were a jackknife clam?

FOR YOU TO DO: If you go to the seashore, look for a razor's hole and try to catch him. If you hold him upright, he'll probably stick out his foot and you can see how it works.

ANN ARBOR (UPI) — The regular monthly meeting of the regents of the University of Michigan will be held tomorrow afternoon in the regents room of the administration building.

Aussie Police Listings
Fix on Drunken Drivers

CHICAGO (UPI) — According to an item in Automotive News, the police in the Australian hinterland have a unique method of dealing with drinking drivers. They pass the culprits' name along to the local newspaper, which runs a list under the heading, "He's Drunk and in Jail."

WEST
WASHINGTON (UPI) — The U.S. government has a staff of experts whose job is to study developments in other countries and try to figure out what they mean. I think it is safe to assume that other countries have similar experts whose duty is to provide interpretations of events in the United States.

Soviet Probers Ponder Paddling Rule

By DICK WEST

WASHINGTON (UPI) — The U.S. government has a staff of experts whose job is to study developments in other countries and try to figure out what they mean. I think it is safe to assume that other countries have similar experts whose duty is to provide interpretations of events in the United States.

WEST
WASHINGTON (UPI) — The U.S. government has a staff of experts whose job is to study developments in other countries and try to figure out what they mean. I think it is safe to assume that other countries have similar experts whose duty is to provide interpretations of events in the United States.

This is a bill to permit school teachers in the District of Columbia to paddle their students. Just for the heck of it, let us suppose that the commissar in charge of interpreting events in the United States is a Comrade Samovar, and that his assistant is a Comrade Babuska.

If we could penetrate their office deep inside the Kremlin, I fancy we would come upon a scene something like this:

"Comrade Babuska, there appears to be something wrong with this report. It says the U.S. House of Representatives has passed legislation to permit teachers to paddle their pupils."

NO MISTAKE

"I have already checked that with the embassy in Washington, Comrade Samovar. There is no mistake. That is the way the message was transmitted."

"Then it must be some sort

of code. Take it to the code room and see if they can decipher it."

"I have already done so, Comrade. It was not coded. The report was meant to be read as sent."

"Hmnnnnnn. What is your thinking on it, comrade?"

"Perhaps there has been a big power shift. The President and the Supreme Court have ganged up on Congress and reduced it to the level of a school board."

"Good thinking, comrade. On the other hand, this may be the beginning of a new 'get tough' policy. Some of the congressmen who voted to paddle students are the same ones who have been demanding action on Cuba."

"That sounds plausible. However, we must not overlook the possibility that this is a plot

against the President. His children will soon be of school age and his enemies may be seeking to strike at him through them."

"Yes, comrade, but such a plan could backfire. If the President vetoed the bill, children now in school would be certain to show their gratitude by voting for his kids when they grow up."

"Very well, comrade. Destroy the report and we will pretend we didn't receive it. Khrushchev would never believe it, anyhow."

About 70 per cent of the milk produced is used for the manufacture of various dairy products.

Only Survivor of Great Lakes Fleet

Cruise Ship Leaves Chicago for Last Time

CHICAGO (AP)—It's the last for the traditional tulip festival in Holland, Mich. After this trip the survivor of the once flourishing Great Lakes vacation fleet.

BACKGROUND
No one feels very elated about that," comments E. J. Goebel, president of the Georgian Bay Lines.

OF THE NEWS
The firm's good ship S.S. South American leaves Chicago Friday

for the traditional tulip festival in Holland, Mich. After this trip the survivor of the once flourishing Great Lakes vacation fleet.

There is a nostalgic sadness about the departure of the 331-foot, 450-passenger vessel.

The North American was sold to a group of Erie, Pa., men who plan to operate her as a ferry between Fort Burwell, Ont., and Erie. Built in 1914, a year after the South American, the lake craft has logged about a half-century of pleasure cruising on the world's largest inland body of water.

CELEBRATION

The 100-mile Lake Erie trips between Canada and the United

States are part of the sequentennial celebration of the battle of Lake Erie in the War of 1812.

The North American will serve as a hotel and showboat at Erie when not ferrying passengers.

Chicago once was the capital port for Great Lakes cruises. Five steamer lines operated as many as 18 cruise craft a week.

In the late 1930s and early 1940s, eight lines operated as

many as 12 vessels on weekly cruises out of Cleveland.

The cruise business fell off sharply after World War II. Facing stricter government standards and safety requirements, the lines found it unprofitable to replace obsolete ships.

The automobile, super highways and luxurious roadside motels helped doom slow-boat lake cruises.

Goebel says his dream is to operate a salt-water ship on the lakes. It would make the short lake season economically feasible with a year-round operation. Atlantic cruising would be coupled with three months of Great Lakes journeying.

"But it's only a dream," Goebel said wistfully.

GOOD OLD DAYS — When the auto first made its appearance, some said that it would never replace the horse. This Copenhagen, Denmark, horse and wagon, carrying an old car made its appearance, creates a strange sight which seems to bear the old-timers out.

Mosel Valley a Scenic Wonder

KOBLENZ, Germany (UPI) — off southwestward flows the Rhine and Mosel rivers most American tourists fail to take a profitable turn off the well-trodden paths followed by their countrymen.

The turn leads into the mountain-lined, meandering Mosel Valley, a scenic wonderland of gingerbread villages, ruined and not-so-ruined castles and vineyard-blanketed hillsides, where the sun is almost worshipped for what it does to the grape, and thus to the wine.

Long neglected by travelers in favor of the more famous Rhine, the Mosel still is an unspoiled countryside of natural beauty and friendly people.

Any tour up the Mosel should start with Koblenz, one of Germany's oldest cities, tracing its beginning back to the Roman legions in 9 B.C. On one side flows the wide, traffic-heavy Rhine. Sweeping

at least a day should be given Koblenz before heading into the Mosel Valley, which truly deserves at least two days for the nearly 85 miles between Koblenz and Trier via the river level highway, which switches back and forth with the snake-like twists of the calm river.

Before the highway has left Koblenz itself, vineyards sweeping up steep mountain slopes greet the eyes and stay with you for the entire trip.

It looks like a day's work for the grape growers just to climb up to the highest, and more sun-blessed, vines, let alone cultivate the soil and tend the vines once at the top.

SUCCESSION OF CASTLES

Looking down on this wine valley from lofty, rocky stands is a succession of castles, some mere reminders of their time of fortified greatness and others restored and being used as restaurants and other such attractions.

A few miles in the forest stands one of the unusual restaurants of the area surrounded by hatchery and growing ponds for trout, and where a fish dinner is as fresh as the guest's arrival.

'Employed as Psychological Devices'

Use of Police Dogs Fans Controversy

WASHINGTON (AP) — Police dogs have sprung into the news and into controversy.

Last week, Birmingham, Ala. police used them against Negro demonstrators. A blood-chilling picture of a snarling German shepherd leaping a demonstrator was seen all over the country. There were protests in Congress and from civil rights groups.

Providence, R.I., authorities used dogs last weekend to block an invasion of the downtown area by several hundred youths, many of them college students, on a spring fever lory.

London police used dogs, too, over the weekend against ban-the-bomb demonstrators.

The thinking behind use of dogs in crowd control is humans' innate fear of them, according to a spokesman for the International Association of Chiefs of Police, Inc. The dogs are intended primarily as psychological devices rather than for attacking, he said.

RELATIVELY NEW

Their use is relatively new in this country. Some police officials contend dogs are a bonafide technique. Others feel they are of dubious value.

Nonetheless, in 10 years K9 corps have become a part of many big city police departments.

London has been using police

Housing Conference Set
ANN ARBOR (UP) — About 30 representatives of colleges and universities from throughout the Midwest are scheduled to attend the sixth annual off-campus housing conference at the University of Michigan tomorrow.

dogs for about 20 years and is its own use. They are used for patrolling, scenting out hiding criminals, guarding prisoners and dispersing crowds.

Boston imported nine shepherd dogs from Germany earlier this year for the specific job of tracking down the man or men responsible for the unsolved slayings of nine women in Greater Boston since last June.

St. Louis has one dog, Duke I, trained as a narcotics sniffer to locate packets of narcotics on a person.

ADAPT DOGS

Each city adapts the dogs for

Police dogs usually are German shepherds, sometimes Doberman Pinschers, two breeds that can be highly trained for the work. Usually one dog becomes the partner of a specific officer and lives at his home.

The dog is drilled to react immediately to a command. Basic obedience includes sit, down, stay, bark on command, retrieve on command and jump on command.

Sometimes he is taught to stop a fleeing man by barking until his

handler can arrive at the scene. This sometimes requires gripping the man's sleeve.

The police chiefs association has no official policy on use of the dogs and keeps no list of cities which have them.

An incomplete list includes Birmingham, Chicago, Miami, Houston, New Orleans, Atlanta, St. Louis, Baltimore, the District of Columbia, Salt Lake City, Richmond, Va., St. Paul, Cincinnati and the Virginia and Delaware state police.

Film Idol Switched to TV Loses Public Awe

By PHYLLIS BATTELLE
NEW YORK — Many movie idols who've lately turned into TV stars regret they had to make the move.

Financially, they're well ahead, but psychologically they've fallen off a pedestal onto a kitchen stool.

That is quite a drop. To an egg-stuffed movie queen of the '30s and early '40s, it must seem roughly equivalent to pulling down the shades of the jungle and putting him into Vince Edwards' spot as Ben Casey.

Such a once-revered lady must consider it just as demeaning to be addressed "hi honey" by the man on the street as for the great Schweitzer to be hailed "hey Al."

Most movie stars, currently TV serialists, disclaim this notion for public consumption of course.

It is not nice to say to a fan, who considers you one of the family because you come into his life when he is in pajamas or less, that you do not like him for his bearing—rather than his former more respectful attitude.

But of the record, many will admit they long for those forgotten days when they were "somebodies" rather than just another casual visitor to

the average house during the shoes-off hours.

"We've got to face the fact," one once-awesome, now everyday celebrity told me, "that it is human nature to take for granted something that comes free."

"The public that sees you in a movie has to dress up to see you, has to make an effort to see you, has to pay money to

see you, has to be on his better social behavior to see you."

"When you are on TV, he doesn't have to do anything but sit there with his feet on the table and challenge you to be good or he'll take his index finger and wipe you off the face of the screen."

"You are like the usual week-end, home-cooked meal. Palatable or terrible depending on his mood."

"Whereas in a movie, you're like a restaurant meal, generally fine, because you were specially ordered in a restaurant of his choice and you cost enough."

The attitude of the public meeting a screen star or a TV star, off the screen reflects this feeling

at the Gregory Pecks, the Marlon Brandos, the Olivia De Havillands.

These are not their "equals"; these still are their "ids."

A famed funnyman once described to me the average daily life of the TV comedian who lives in New York.

CAN'T MISS

"He gets on a commuter train from Hastings-on-Hudson to NBC, New York City, and the man next to him says: 'Say, it's none of my business, but I heard a joke last night that can't miss on your show. Want to hear it? I give it to you free.'"

"In the cab from Grand Central the driver stares belligerently through the rear view mirror and remarks, 'Say, it's none of my business, but aren't you —?' Saw you last week. Are you supposed to be funny? Maybe it's me, but — you could use dancing girls or something."

"In the restaurant there's a guy at the bar, salesman for a screwdriver company: 'Say, it's none of my business, but how much do you make on a show? I'm an amateur-comedian myself, got a few gigs you might be interested in.'"

"In the commuter train going home, your next-door neighbor says: 'Say, it's none of my

business, but aren't you getting fleshy? Watch that heart. No good for your ratings either.'"

"And so," concluded the comedian, "goes the 18-hour lecture every day. As you lie in bed, you can't help wondering — should I go to sleep or lie here awhile and let HIM give me some advice, too?"

Too bad, only a couple of handfuls of movie stars these days can afford to resist television, thus maintaining their old glamour and their own counsel.

LANSING (AP) — Gov. George Romney issued his first veto yesterday, returning to the legislature a bill aimed at clarifying the law on burglaries—but which he described as sloppily drafted.

"Any legislation dealing with the criminal laws of this state should be clearly stated and free of any ambiguities," Romney said in his veto message.

The governor said the proposed measure — which was intended to remove the distinction between breaking and entering in the nighttime and the daytime — raised further questions "which would give doubtful value to the proposed legislation."

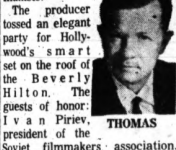

Romney said he was not returning the bill because of any objection to its purpose.

Romney's legal aides and the attorney general's office said the measure would fail to make it a crime to burglarize an occupied building.

Ironically, an amendment attached to the bill correcting a legal flaw in the state's obscene literature law also was killed by the veto.

Capitalist Affair for Communists Swings

By BOB THOMAS
AP Movie-Television Writer
HOLLYWOOD — Leave it to Otto Preminger to enliven the social scene with a swinging capitalist affair for a couple of Communists.

The producer tossed an elegant party for Hollywood's smart set on the roof of the Beverly Hilton. The guests of honor: Ivan Piriev, president of the Soviet filmmakers' association, and Lev Judajinov, a prominent Russian director.

As an incidental matter, the party also saluted the end of filming on Preminger's latest movie, "The Cardinal," which was spelled out in carved ice that by

adorned the hors d'oeuvre table.

The Russians should have much to tell their fellow workers when they get back to Moscow. The meal was elegant, from the Trader Vic's Polynesian appetizers with cocktails to the desert of giant strawberries, served with side dishes of sour cream and brown sugar.

During the cocktail hour, host Preminger spied Michael Romanoff, retired restaurateur and reported (by himself) Russian nobleman.

"This is the moment of truth!" exclaimed Preminger, and he rushed Romanoff to meet the guests of honor.

Romanoff merely greeted them in English, and Preminger retired sulkily.

"I know enough Russian to get by with," Romanoff confided at

ward. "I did quite well when I was in Russia two years ago. I was interviewed by Pravda and Izvestia."

"They treated me excellently; much better than Time magazine does here."

The bona fide Russians seemed intrigued by the tribal customs of the Hollywood natives. They had been invited here as part of a Premier people-to-people program; he had responded after having been the guest of Soviet film makers in Moscow.

Piriev, who occupies the curious position as producer and worker in the Soviet industry, commented through an interpreter that he found Hollywood film making much like that in his

country — a bit bigger crews, perhaps.

He added that he and his comrades had seen and been impressed by "Judgment at Nuremberg," "Lawrence of Arabia," and "How the West Was Won" during their visit here.

He liked the cinerama technique in the latter and added predictably that the Soviet Union has its own Cinerama process.

American hits in the Soviet Union? He mentioned "Roman Holiday," "Lili," "Marty" and to a lesser extent, "War and Peace," an American-Italian production.

He said that the Russians are going ahead with their own, delirious "War and Peace," which making much like that in his

Men Put on Church Smorgasbord

By JANET ODELL

Pontiac Press Food Editor

Men usually boast that all the great chefs of the world have been male. But not often do just ordinary men take on the job of preparing a meal for a large group.

This Saturday the men of Four Towns Methodist Church on Cooley Lake Road are serving a smorgasbord-type dinner with an international flavor.

They're doing all the work, even the cleaning up. But, listen to this, all you feminine cooks. They're letting their wives make molded salads and contribute a few other items.

Earl Hoppenrath is kitchen chairman. In the dining room Ed Siess will direct his committee. Ticket and reservations chairman is Steve Zarko.

Mr. Hoppenrath called us for suggestions on his menu. We asked him for some of his recipes, but evidently he's a cook who doesn't use recipes.

Below are a couple of recipes that might be used for a church dinner.

Pan of Pork Cutlets
8-12 large pork cutlets
½ cup flour

1 teaspoon salt
¼ teaspoon black pepper
¾ pound butter or margarine
6-8 large potatoes
½ cups chopped onion
¼ teaspoon rosemary
milk
parsley
Rub cutlets with flour mixed

with salt and pepper. Brown them on one side only in sizzling fat.

Peel potatoes and cut them in ½-inch slices, covering bottom of buttered roasting pan evenly with them. Sprinkle well with salt, pepper and a little rosemary.

Lay cutlets over potatoes withered, wrapped and frozen. Re-

the brown side down. Fill pans with enough milk to come just to the top. Bake 45 minutes at 375 degrees. Garnish with parsley and serve with applesauce.

CAN FREEZE

This dish can be served immediately or it can be cooled, covered and frozen. Re-

MAN-SIZE—Putting on a smorgasbord is the job to be tackled by the men of Four Towns Methodist Church Saturday night. Putting their hearts into their work are Steve Zarko,

Whittier: Earl Hoppenrath, Elizabeth Lake Road; and Ed Siess, Pinto. The dinner from 5-7 p.m. is open to the public.

Dark Cherries Fill Gelatin for Salad

You can prepare these fruit-flavored gelatin molds the day before you wish to serve them.

Molded Cherry Salad
1 can (1 pound) dark sweet cherries
1 package (6 ounces) raspberry-flavored gelatin
1 cup orange juice
Salad greens
Cream-style cottage cheese
French dressing

Turn the cherries into a strainer to drain thoroughly. Pit cherries and drain well again; add this syrup to rest of cherry juice.

Add enough water to the cherry syrup to make two cups; bring to a boil; skim off any foam. Pour hot cherry juice over gelatin; stir to dissolve. Stir in 1 cup cold water and the orange juice. Chill until slightly thickened; fold in drained cherries.

Turn into eight ½-cup molds. Chill until set; cover. Unmold at serving time. Serve with salad greens, cottage cheese and French dressing. Makes 8 servings.

Parmesan Cheese New for Beans

If you want this green-bean dish to taste its best, choose a fine-flavored Parmesan cheese for it.

Parmesan Beans
1 pound snap beans
1 cup boiling water
¼ teaspoon salt
2 tablespoons butter
2 tablespoons finely grated Parmesan cheese

Cut tips off snap beans; scrub in cold water; drain. Cook rapidly, covered, in the boiling water and salt just until tender-crisp about 10 minutes; lift cover a few times to help keep beans green. Drain.

Add butter and Parmesan and toss with beans to distribute evenly. Serve at once. Makes 6 servings.

Add Curry Last

It's not a good idea to add curry powder to eggs that are to be scrambled because the combination usually turns out to have an unappetizing color. If you must have curry flavor with your eggs, add a little of the powder to the filling for stuffed eggs.

Sweetening Is Good Idea

A good vegetable accompaniment to a hearty morning meal.

Stewed Tomatoes
4 medium tomatoes, peeled, cored and quartered
1 tablespoon light corn syrup
1 tablespoon finely chopped onion
1 tablespoon butter or margarine
1 teaspoon salt
½ teaspoon pepper
1 bay leaf

In a saucepan mix together the tomatoes, corn syrup, onion, butter, salt, pepper and bay leaf. Simmer, stirring occasionally, for about 30 minutes. Remove bay leaf. Makes 4 to 5 servings.

SARDINE PATE — For that very special party begin with a very special new appetizer. A pate is a pleasing way to spark appetites and for a variation serve Sardine pate. It's made conveniently ahead with canned sardines and cream cheese with perky seasonings. You'll be extra pleased with the fine flavor.

Pate Is a Fine Beginning to Delightful Dinner

The hostess with new and different recipe ideas is the one who has the reputation for giving wonderful dinners and parties. And, there are many such new recipes with which to delight your guests each time you entertain. For the appetizer to begin your next dinner party choose Sardine Pate. Serve it with crackers and lemon wedges—it's just the taste to spark appetites. The recipe has another plus, too—it's an easy to prepare do-ahead dish.

Sardine Pate

2 cans (3½ to 4 oz. each) sardines
1 pkg. (8 oz.) cream cheese
1 tablespoon lemon juice
½ cup minced parsley
1 small onion
Dash hot pepper sauce
Assorted crisp crackers, snack

Add Strawberry Mix for Pink Pancakes

Space-minded youngsters will flip over Flying Saucers for breakfast — easy to make pink pancakes. To recipe on box of your favorite pancake mix, add ¼ cup quick strawberry-flavored mix and 1 teaspoon lemon juice for each cup pancake mix. Cook as directed, serve with butter and syrup. Accompany with a glass of milk flavored with the same delicious quick strawberry-flavored mix.

Into ½ cup cottage cheese, gradually stir ½ cup corn oil French dressing. Serve on fruit salad.

rye bread, melba toast or sal-tines
Lemon wedges
Mash drained sardines. Mix with softened cream cheese, lemon juice, paprika, parsley, grated or finely chopped onion and hot pepper sauce. Mix thoroughly. Chill several hours or overnight to blend flavors.

Serve with lemon wedges and assorted crackers, snack rye bread, melba toast and sal-tines. About 2 cups spread.

Seed Crackers Coat Chicken Before Baking

Baked chicken is a favorite buffet dish. Here the delicious flavor comes from coating it with crushed sesame crackers.
2 broiler chickens, cut up
2 to 2½ cups sesame crackers, crumbs, finely rolled
3 eggs, beaten
3 tablespoons water

Roll chicken pieces in half of the cracker crumbs. Combine eggs and water. Dip crumb-coated chicken pieces quickly, then roll in remaining crumbs.
Place pieces in a baking dish or pan lined with aluminum foil. Cover pan tightly with aluminum foil. Freeze.

When ready to use remove cover. Bake in a moderate oven (350 degrees) about 1½ hours. Makes 6 to 8 servings.

Beans Are Best if Slow Baked

This recipe comes from "Easy-on-the-Cook Book" (Iowa State University Press) compiled by Chicago home economists. If you enjoy Western-style sweet baked beans, this rule is for you!

Best Ever Baked Beans

2 pounds navy beans
1 teaspoon baking soda
1 large onion, quartered
½ pound salt pork, sliced or cut in chunks
½ cup molasses
½ cup firmly packed brown sugar
1 tablespoon salt
2 teaspoons dry mustard
1 bottle (11 or 12 ounces) chili sauce
1 tablespoon mild vinegar

Cover beans with warm water; soak several hours or overnight. Drain; add fresh water to cover and baking soda. Bring to boiling; cook for 10 minutes; drain. Add fresh boiling water to cover and cook gently until skins on beans will crack when blown upon. Drain liquor and save.

Four beans into bean pot; bury onion in beans. Parboil salt pork about 5 minutes; drain and brown slightly. Bury some of pork in beans and arrange some on top.

Blend remaining ingredients; pour half over beans; add enough of saved liquor to cover beans. Bake in 250 degree oven 3 to 4 hours, adding remaining sauce mixture at intervals and more of the liquor, or water as needed, 10 to 12 servings.

Man Crashes Gate in Front of White House

WASHINGTON (AP) — In the news from Washington:

INTRUDER: A man raced past uniformed guards at the front gate of the White House Wednesday and ran 15 to 20 yards inside the grounds before he was overtaken.

He was grabbed in an arm lock, deposited in a patrol wagon and whisked away before newsmen reached the scene—and ran into a stone wall of silence set up by White House officials.

The account of the intrusion was supplied by a number of bystanders. According to one report

he carried a pair of scissors. Asked about this, a White House police officer said: "Whatever he had was taken away."

GATE WAS OPEN

The northwest gate to the White House grounds on Pennsylvania avenue was open because a group of congressional wives was leaving the executive mansion after a luncheon.

Washington police identified the intruder as Edgar L. Clayborn, 34, of no fixed address. He was taken to District General Hospital for mental observation.

GUARD: The Army has identi-

fied four National Guard infantry divisions and two armored guard divisions in the East and South as ones that would be called up early in the event of emergency.

The identification Wednesday was a change in long standing policy. The Army had refused to identify the six, saying their disposition is a security matter under war plans.

The six priority divisions are the 42nd Infantry of New York, the 26th Infantry of Massachusetts, the 30th Infantry of North Carolina, the 50th Armored of New

Jersey and the 30th Armored of Tennessee.

At the same time, the Army said the 38th Infantry of Indiana and the 47th Infantry of Minnesota have been assigned special missions. The announcement did not say so, but it is known

City Manager to Retire

BOYNE CITY — Patrick Welch, 70, announced yesterday he would retire as city manager because of poor health. Welch, who had held the post for two years, said his retirement would be effective tomorrow.

The two divisions would be sent to reinforce Alaska and the Panama Canal Zone in an emergency.

VA HOUSING: The Veterans Administration reports veterans housing activities increased in three of four categories during April.

VA housing starts climbed from 4,924 in March to 7,241 in April. Appraisal requests for existing units rose from 14,784 in March to 16,693, and applications for home loan guaranty climbed from 15,869 in March to 16,896. Appraisal of new units declined

from 13,254 in March to 12,161 in April.

Gets Life Sentence

in Killing of Airman

DETROIT — Amos Evans, 35, of Detroit, yesterday was sentenced to life in prison after he pleaded guilty to second-degree murder in the fatal shooting of an Air Force man last Nov. 22. Evans said he had been drinking before the shooting of Airman 2C Tom Carlisle, 24, of Detroit, who was stationed at Selfridge Air Force Base near Mount Clem-

State Firm Gets Pact for Airport Renovation

CHICAGO (AP)—Miller-Davis Co. of Kalamazoo, Mich., was awarded a \$602,000 contract yesterday for renovation of the old O'Hare O'Hare airport.

International Airport terminal as part of a projected international concourse.

The contract is part of a \$3-million building program to provide housing for foreign-based airlines and government agencies at the renovation of the old O'Hare O'Hare airport.

Iceberg Lettuce Salad Varied With Unusual Dressings

Down in Imperial Valley, California, hundreds and hundreds of refrigerator cars have been leaving for the nation's market since late fall carrying fiberboard cartons of Iceberg lettuce. In the early 1900's this area was desert country. Today, approximately 20,000 carloads of lettuce are shipped within five months at a

value of sixteen million dollars. To focus the attention on this important harvest, a Lettuce Saladero Contest is held annually at the California Mid-Winter Fair. This champion lettuce tossing contest requires the contestants to use Iceberg lettuce and other suitable greens to toss with their favorite dressing. This year, twenty-six contestants, men and

women, participated with nine finalists competing for four prizes. The contest winners know that it's the salad dressing that makes the difference in the art of salad making, after, fresh crisp western greens have been thoroughly washed and dried. Serve this creamy subtle pi-

mento flavored dressing on wedges of Iceberg lettuce. Garnish with pimiento, and finely grated cheddar cheese.

Combination Cheese Dressing
1 cup sour cream
½ cup mild cheddar cheese, grated

¼ cup blue cheese, crumbled finely
¼ cup onion, minced
¼ cup oil
¼ cup pimiento, chopped finely
2 tablespoons vinegar

¼ teaspoon salt
¼ teaspoon pepper
¼ teaspoon garlic salt
Blend ingredients together. Makes about 2 cups.

For those who like a sweet but pungent vinegar flavor on their greens, try:

Highland Kilt Dressing
2 eggs beaten until light
1 teaspoon salt
1 teaspoon mustard
1 15 oz. can sweetened condensed milk

¼-1 cup vinegar
Combine all the ingredients and beat vigorously for 7 minutes with electric beater. Dressing thickens when chilled for several hours. Makes 3 cups.

Moisture Proof

When you prepare meat for freezing, remove the meat market wrapping, and wrap meat closely in moisture-vapor-proof material. The store wrap is not intended for freezing and probably is not moisture-vapor proof.

A smooth blue cheese dressing:
Imperial Valley Saladero Dressing
1 8 oz. package blue cheese
¼ cup buttermilk
¼ cup sour cream
1 clove garlic, minced
2 tablespoons garlic wine vinegar

¼ teaspoon white pepper
¼ teaspoon salt
¼ cup oil
Mash blue cheese well with fork. Add buttermilk and cream alternately with vinegar. Add salt, pepper and oil. Beat vigorously until well blended. Makes 3 cups.

Garnish tossed greens with tomato wedges, bacon curls and onion circles.

New Combination

A few left-over peas or green beans? Add them to 2 cups canned apple sauce, heat and serve with meat as your vegetable. And for an extra flash of flavor, during the heating mix in a sprinkle of dried mint leaves—or fresh if you have them.

Broil Topping of Rich Dessert

There is probably no simpler custard the French call *crème brûlée*. The rich custard in its more modern cooks care to give. So short cuts to the same impressive dish is made by way of packaged vanilla pudding mix, made extra rich with-part cream. Easy does it . . . and the modern cook does!

Mock Creme Brulee
2 packages (3 1/4 to 4 oz.) vanilla pudding and pie filling mix
2 cups milk
2 cups half and half (milk and cream)
1/2 cup chopped pecans
1/2 cup (firmly packed) brown sugar

Cook pudding or pie filling mix as directed on package using milk and half and half called for in above recipe. Cool slightly. Pour into 1 1/2 quart baking dish. Sprinkle pecans and brown sugar evenly over top. Chill thoroughly.

Just before serving place on broiler rack 5 inches from heat source and allow sugar to melt and become bubbly, 4 to 5 minutes. Makes 8 servings.

QUICK AND EASY—Crème Brulee is a glamorous dessert. Convenience foods make it simple to fix. The contrast of the ice-cold pudding and the hot topping is one you'll like.

Bake Whole Bananas to Eat With Ham

A ham loaf is to go along with this meat. Roll the bananas in sugar, melted butter and then dust with nutmeg; place in a pie plate and let them bake the last 10 or 15 minutes that the ham loaf is in the oven.

Golden Dessert

Ever serve lemon sherbet with canned drained apricot halves? If you like you can add a little brandy to the apricot syrup and dribble it over the sherbet.

Bake Rhubarb to Keep Shape

Only the leafstalk of rhubarb is suitable for human consumption. Baked rhubarb is especially fruity, refreshing.

Mix 1 quart rhubarb chunks with 1 cup sugar, a tablespoon or two of butter and possibly a sprinkling of ground cinnamon. Cover baking dish and bake until tender.

Oven temperature isn't very important, so it can be baked along with other dishes. Cool and serve with whipped cream or vanilla ice cream.

WET AND WARM—Pontiac area weather for the next 30 days will be near normal in temperatures accompanied by above normal precipitation, according to weather maps released by the U. S. Weather Bureau yesterday.

'Space Smog' New Danger?

LOS ANGELES (UPI) — America's astronauts could die of "space smog," according to one of the nation's leading bio-astronaut scientists.

This chilling possibility was advanced by Dr. Thomas B. Weber, who said:

"A tightly-sealed capsule in outer space might be turned into a death chamber by a smog of contaminants emitted from the astronaut's own body."

He said these contaminants might become lethal during an extended period of time in the closed "trap-like" atmosphere of manned interplanetary probes and long-duration space stations. The more men in the spaceship, the more deadly it could become.

"This looms as possibly the most pressing problem we face in preparing for future deep space travel," Weber said.

"Space smog would be 100 times worse than the smog plaguing Los Angeles."

Weber said that whereas smog in the earth's atmosphere is continually circulated, a confined spaceship would surround man with "a hostile environment of a vacuum" that would breed a lethal concentration of "space smog."

THE POSSIBILITIES

On a long space trip, Weber said, a number of chemicals from the body such as methane, acetone and ammonia "could tear up the liver or debilitate the lungs."

A lethal dosage of "space smog" could come from the astronaut's breath, saliva, sweat and other functions.

"As man enters space, his bacteria will accompany him," the scientist said.

"For example, the skin bacteria could decompose many of the materials exuded through the skin and produce sizable amounts of such contaminants as organic acids."

Newly suspected toxicants of high concentration probably would enter the spacecraft's atmosphere.

Hunt Burglar in Theft of Furs, Jewels

State police today were hunting for a burglar who broke into the Royal Oak Township apartment of a Pontiac merchant and stole \$35,915 worth of furs and jewels.

Victims of the theft were Mr. and Mrs. Robert Berman, 2503 Rue Versailles, Mr. Berman operates the B and G Tile Outlet, 1075 W. Huron.

The theft was discovered Tuesday night by a neighbor while the Bermans were attending a "bon voyage" party on the eve of their departure for a European vacation.

Mrs. Berman had taken her jewels and furs from storage a week ago for the trip. All were insured, Berman told police.

NAACP Unit to Start Drive

The annual membership drive of the Pontiac chapter of the National Association for the Advancement of Colored People (NAACP) gets under way this Sunday with a membership rally at 3 p.m. at Trinity Baptist Church, 123 West.

Guest speaker for the meeting will be Rev. Albert Cleage, of the Central Congregational Church of Detroit.

Pastor Cleage, a member of the executive board of the NAACP's Detroit chapter, will speak on the individual's need for the NAACP and the association's need for increased membership.

The organization has some 6,000 members in the Pontiac area. Chairman of the year-long drive is Simon R. Brown, of 283 Crystal Lake Drive.

One hour before the rally, a public prayer meeting, called by City Commissioner Milton R. Henry, will be held on the City Hall steps.

Henry said he called for the meeting because of the "deplorable conditions" in Birmingham, Ala.

2 Detroit Patrolmen Convicted in Bribe

DETROIT (AP)—Two Detroit patrolmen each faced up to one year in prison and a \$1,000 fine after being convicted yesterday of accepting a \$45 bribe from a motorist who was driving without a license.

Patrolmen Artie Johnson, 34, and Gerald Steward, 35, were convicted by Recorder's Judge Joseph A. Gillis. They will be sentenced May 24.

Isiah Craig, 27, of Detroit, testified the officers demanded money from him each time they saw him driving a car. He said the officers knew his license had been revoked.

Craig said he paid the pair \$200 over a period of several months.

1 Mortgage Now Passe?

WASHINGTON (AP)—The old concept of one mortgage per family may be outmoded, according to Marion K. Matthews, deputy director of the U. S. Department of Agriculture's Farm Credit Association's Land Bank Service.

Matthews says advances in agricultural technology have accelerated farmers' borrowing to the point that agricultural debt has increased more than three times since World War II.

It now amounts to over \$25 billion.

Quiet Work Saves Boy

New York (AP)—Policemen whispered orders for silence to a crowd of hundreds outside a Harlem tenement. A fire truck arrived — bell and siren still — and two firemen quietly scampered up an extension ladder.

Just as the climbers reached an 8-inch-wide, fourth-floor window ledge, sleeping 6-year-old Frederick McGee rolled into their arms.

The boy had dozed off in a chair by a window in the locked apartment yesterday while his parents were away and his precarious position was spotted in the nick of time.

Apartment buildings were introduced in New York City in 1870. Before that time multi-family dwellings were known as tenement houses.

Age No Matter

Marry Younger Man

By DR. GEORGE W. CRANE, CASE P-437: Dorothy B., aged 31, presents a common problem.

"Dr. Crane," she began, "I have been dating a school teacher for several months. He is gallant and seems devoted to me. In fact, I feel sure he is going to propose marriage before long."

"And I like him very much. But what holds me back is the fact that I am four years older than he is."

"Do you think we could ever be happy with that great age-difference between us?"

DR. CRANE

"And wouldn't he grow tired of me when I passed the age of 40 but he is still in the late thirties?"

AGE ASSETS

Actually, it has been urged that girls marry younger men!

For the male sex is more delicate than the female, so it dies several years earlier.

If Dorothy wants to avoid being a widow for many long years, it would thus be an advantage for her to marry this younger teacher.

Besides, women don't age as rapidly nowadays as they did in the time of George Washington.

"But am I too old to think about having babies?" Dorothy asks.

No, indeed! In fact, many wives who now marry late in the thirties may have their first baby after the age of 40.

For modern medicine has removed most of the hazards that used to pertain to late pregnancies.

YEARS DON'T MATTER

So a mere matter of a few years, plus or minus, is of little significance as regards happy marriage.

The main thing to consider is mutual interests and ideals, plus basic habit patterns.

Sometimes an "older" child is far more mature than others of his own age, so he seeks an older wife.

Again, some younger men have such a mother-fixation

that they need an older girl to combine "sweetheart" with "maternal" affection.

In ancient times when men bought wives, the younger fel-

lows didn't have enough wealth to compete, so the older males bought the beauty queens.

That's what started the

idea that men should be older than their wives. Nowadays, that's malarky!

Send for my "Tests for Husbands and Wives," enclosing a long stamped, return envelope, plus 20 cents. (Copyright, The Hopkins Syndicate, Inc.)

Phineas T. Barnum had his own circus from 1869 to 1881 before joining forces with his chief competitor, Bailey, to form "The Greatest Show on Earth."

Mother and Quads Reported Doing Fine

ABERDEEN, Scotland (UPI)—Mrs. Barbara Cummings and the quadruplets she gave birth to last Tuesday are progressing satisfactorily in Aberdeen Maternity Hospital, a hospital bulletin said yesterday.

The quads, three girls and a boy, were born five weeks prematurely. The Cummings family already has two sets of girl twins.

Wirtz Claims Rails Will Avert Walkout

NEW YORK (AP)—Secretary of Labor W. Willard Wirtz predicts that a nationwide railroad strike threatened for June will be averted by the carriers and railroad unions.

The railroads and the operating brotherhoods are at odds over the carriers' intention to overhaul work rules to eliminate what the lines say are unnecessary jobs.

Wirtz spoke Wednesday at a conference on automation sponsored by the American Foundation on Automation and the New York City Central Labor Council.

Mackinac Bridge Cut Set for Big Spenders

ST. IGNACE (UP)—The Mackinac Bridge Authority, starting July 1, will offer a 50 per cent discount to companies spending more than \$6,000 a month in tolls.

"The primary purpose of the discount is to encourage present bridge users to increase their volume," the authority said.

JFK, First Lady Grow Fond of Camp David Retreat

WASHINGTON (AP)—President and Mrs. Kennedy have "discovered" and grown to love what may be the only place in the world where the nation's first family can enjoy complete privacy.

This unusual retreat is Camp David, Md., a Navy-operated reservation atop one of the Catoctin Mountains some 65 miles north of Washington.

Although three earlier presidents used the camp, Kennedy and his family only began making regular visits this spring—more or less as a matter of necessity. But now they can hardly tear themselves away, even to go to the usual Kennedy summering spot at Hyannis Port, Mass.

REASON FOR DELAY

The first family's newly found love of Camp David was understood to be an important factor in Mrs. Kennedy's decision, announced Wednesday, to delay her summer trip to Hyannis Port from May until late June or July.

Here is perhaps the principal reason why the Kennedys have come to look forward to their weekends at Camp David: The heavily wooded reservation encompasses 129 acres surrounded by high-fence closely patrolled by armed Marine guards. This means that, within the vast compound, Kennedy and members of his family can roam freely without Secret Service agents at their elbows—or even within sight.

That's why Camp David may be the only place in the world where an American president can walk for miles and never see another human being. MANY FACILITIES In addition to this rare privacy, the camp affords a wide variety of recreational facilities for the President and his family. There is an athletic field, a swimming pool, two tennis courts, a bowling alley, a multitee, one-hole golf course and a skeet shooting range.

And there is Aspen Lodge, a large rustic home with a glassed-in porch, outdoor terrace and eye-catching view of mountains and valleys. The Kennedys began going regularly to Camp David because they lost their lease on their Glen Ora weekend estate near Middleburg, Va., before construction of their own new home a few miles away, near Aloka, Va., was completed.

Honolulu Officer Gets Award

MIAMI BEACH, Fla. (AP)—A biennial convention Wednesday Honolulu police sergeant whose specialty is life-saving will receive the National Police Officers Association medal for valor.

Sgt. Edwin I. Adolphson, 46, father of three children, was named to the award and the association's hall of fame at its 10th annual convention Wednesday.

AP Photos

ART REJECT DISPLAYED — "Ex-Beauty—Dead Horse," a life-sized welded-steel construction of a woman standing on a dead horse, is on display on a lawn in Lawrence, Kan. The creation by James Sterritt, a sculptor in Lawrence, Kan., was not accepted at an exhibition, so a friend installed it in his front yard.

Ferency Announces

Dems \$260,000 in Debt

LANSING (UP)—Michigan Democratic State Chairman Zolton is \$75,000 in printing expenses, Ferency revealed yesterday that including campaign signs, bumper stickers, placards, etc.

"We're asking our regular suppliers to hold off, with a promise we will not run up any additional debt and we'll start paying cash June 1," Ferency said.

Since Ferency started an economy drive, the monthly telephone bill has been cut in half and the staff has been reduced by one-third, he said.

He said he ordered the audit. "I'm going to make it very clear to party obligations after he 'had blunt and ask Democrats to ball heard figures of \$100,000 and their party out of hock before \$200,000" and wanted to know just the 1964 election campaign where he stood."

Romney Signs 31 New Laws

One Measure, Provides
County Circuit Judges

LANSING (AP)—Thirty-one more bills were signed into law yesterday by Gov. George Romney, covering subjects ranging from unemployment compensation to the damming of rivers and streams.

One of the measures provides for eliminating the possibility of collecting both workman's compensation and unemployment compensation benefits.

Another pertains to the damming of rivers and streams and requires that any structure which would impound more than five acres must be approved by the Conservation Department.

Other measures will:

- Deny unemployment benefits for a worker who engages in a wildcat strike.
- Provide two more circuit judges for Oakland County.
- Regulate monies for public improvements.

- Remove the requirement that all trucks display the width, tire, and their width, length and weight and carrying capacity.
- Allow for the deputy drain commissioner to act whenever the commission shall be unable to act.
- Disqualify an individual for unemployment benefits if he is sentenced to jail or prison, except for traffic offenses which result in a sentence of less than 10 days.
- Make it illegal to stop, park or leave standing any vehicle upon the paved or unpaved part of a limited access freeway, inside or outside the limits of any city or village, except in emergencies.

Power Engineers to Arrive in City

Seventy-five power engineers from throughout Michigan will converge on Pontiac this Saturday for the annual state convention of the National Association of Power Engineers.

William Garfield, chief power engineer at GMC Truck & Coach Division, will be featured speaker at a dinner meeting to be held 6:30 p.m. at the Roosevelt Hotel. The purpose of the association is public safety in the operation of steam boiler equipment. Its goal is uniform laws for licensing power engineers.

Monroe Gets Grant

WASHINGTON (AP)—The Urban Renewal Administration announced yesterday a grant of \$6,000 to Monroe, Mich., to finance 30 per cent of the cost of acquiring a 10-acre site on the Raisin River for a proposed 60-acre Veterans Memorial Park.

State Solons Back to OK Appointment

LANSING (AP)—The legislature returns today for a session expected to last just long enough for the Senate to confirm the nomination of a Republican member to the Board of State Canvassers.

Gov. George Romney asked GOP leaders to recall the legislature to give official approval to the appointment of Alma attorney Alfred Fortino, 46, to the board.

Fortino, who lives in St. Louis, was named by Romney to succeed Carl Lindquist of Iron River as a GOP member of the bipartisan board. Lindquist resigned for what he said were business reasons.

Fortino was Republican chairman of Gratiot County from 1956 to 1960. His term on the board will expire Feb. 1, 1967.

In asking the legislature to return, Romney said the canvassers were about to tackle one of the most important assignments in many years—a partial recount of the April 1 votes on the new constitution.

New Dutch Leaders Favor NATO Pact

THE HAGUE, Netherlands (AP)—The Dutch elected a new Parliament Wednesday that assured continued support for the North Atlantic alliance.

There were no major issues raised during the campaign.

Premier Jan Eduard de Quay's Catholic People's party emerged the strongest. It gained one seat to total 50 on the new 150-man vote of confidence in the coalition Enterprise Liberals and two right-wing Protestant parties.

The opposition Labor party Enterprise liberals and two right-wing Protestant parties.

The opposition Labor party which held 48 seats in the old Parliament, dropped 5 in the only substantial loss by a major faction.

Detroit Bar Association Names Officers for Year

DETROIT (AP)—The Detroit Bar Association elected Dennis Boyle president to succeed G. Cameron Buchanan yesterday.

Other officers named were: George E. Bushnell Jr., first vice president; Harold E. Mountain Jr., second vice president; Thomas L. Munson, secretary; and Edward Frohlich, treasurer.

Board to Hear Clay

NEW YORK (UPI)—Gen. Lucius D. Clay will address the National Industrial Conference Board tonight in a dinner ceremony at the Waldorf-Astoria Hotel.

TO NEW POSTS—Maj. Gen. James B. Lampert (left) is new superintendent of the U.S. military academy at West Point. Lt. Gen. Hamilton H. Howze was chosen to be U.N. commander in chief in Korea.

73 Nations Try to Lower Trade Barriers

GENEVA (AP)—Delegates from 73 nations today opened a conference that could become history's most ambitious attempt to lower the barriers to world trade.

The six-day ministerial meeting of the General Agreement on Tariffs and Trade (GATT) unanimously elected Economics Minister Hans Schaffner of Switzerland as chairman.

Apparently referring to the United States, Britain and the Common Market nations, Schaffner declared in an opening speech:

"Whether our efforts will be every day," McNally said.

rewarded will ultimately depend on the attitude and the policies adopted by two or three large participants."

Schaffner said success will depend on whether they stick to their promises of following a liberal policy in world trade, and whether they can bridge the gap between their differing views.

Cost of Living Is Up in Mobile, Ala., Jail

MOBILE, Ala. (AP)—The cost of living has risen at the Mobile City Jail.

City Commissioner George H. McNally said Wednesday it cost an average of two cents more per meal to feed each prisoner last month than the preceding month.

"But, at \$2 cents a day, you can still see we don't serve steak every day," McNally said.

'Big Daddy' Saga Has Showy Ending

DETROIT (AP) — Gene (Big Daddy) Lipscomb, a 290-pound golliath of the National Football League gridiron who amused crowds with his antics for a decade, was buried Wednesday in a ceremony almost as colorful as his career.

The coffin of the 6-foot-6 defensive tackle of the Pittsburgh Steelers was borne down an aisle made of 20 women holding floral tributes by fellow Negro professional football players. Only hours before in Baltimore, a medical examiner officially ruled his death the result of an overdose of heroin.

Lipscomb, who played for years with the Baltimore Colts, died early last Friday. His unconscious form was found slumped over a table in the apartment of a friend, who told police the two capped a night of wining and dining by "shooting," heroin.

Friends and teammates of Big Daddy were shocked when heroin was mentioned as the probable cause of death. Dr. Russell Fisher, Maryland's chief medical examiner, laid any doubt to rest Wednesday when he said that "... death was due to an overdose of heroin."

3 EX-WIVES

Five big Cadillacs bearing Lipscomb's three ex-wives, his fiancée and his grandfather, who had reared him after he was orphaned at 11, escorted Big Daddy to his grave.

It was while he was stationed at Camp Pendleton, Calif., that Lipscomb was discovered by the Los Angeles Rams and put under contract. That was in 1953. Two years later he was picked up for the \$100 waiver price by the Colts. In 1961 he was traded to Pittsburgh.

Palbearers included Jim Parker and Lenny Moore of the Colts, Jim Plunkett of the San Diego Chargers, John Henry Johnson of the Steelers, Richard (Night Train) Lane of the Detroit Lions, John Sample of the Washington Redskins and Luke Owens of the St. Louis Cardinals.

Among the dignitaries on hand were Rep. Charles C. Diggs Jr., D-Mich., and Bud Erickson, assistant general manager of the Lions.

An employee of the funeral home estimated that 1,000 persons viewed Big Daddy's body Tuesday after it arrived in Baltimore, where thousands of his fans had paid their last respects Monday.

2-Ace Show Gives Coo No Woce, Time to Crow

ROCHESTER, N.Y. (AP) — Edward S. Coo Jr. had a golfing feat to talk about today — two holes-in-one in the same round. The ace came on a six-iron shot at the 144-yard eighth hole of the Monroe Country Club and a three-iron smash at the 12th. Coo finished 18 holes with an 87, without his 11 handicap.

Future Hopes Dim for Tigers

FAREWELL TO DADDY — The body of Big Daddy Lipscomb, Pittsburgh Steeler all-pro tackle, is carried from the chapel by palbearers made up of NFL players. At left is Jim Parker, Baltimore lineman. Lipscomb died last Friday in Baltimore.

Fire, Stuart Blitz Team

By BOB GREEN
By The Associated Press

It was a tough day for the Los Angeles Angels. First they were routed out of their hotel by a fire, then routed out of Fenway Park by a fiery first baseman.

Dick Stuart, who says he's worried about his hitting, drove in seven runs on two homers—one a grand slam—and led Boston to a doubleheader sweep of the Angels from their rooms in the early morning hours and the slugging Stuart finished the rout at Fenway Park.

His grand slam in the third inning of the first game put it out of reach. He had a three-run homer in the eighth, and scored the winning run in the eighth inning on Russ Nixon's double.

Stuart, an off-season trade acquisition by the Red Sox who was looking for some right-handed power, lifted his runs batted in total to 24 and increased his home run production to 7, both marks high among the league leaders. But Stuart, hitting only 250, says he isn't satisfied.

"Even if I drive in 100 runs and hit 30 homers, I wouldn't be happy if I hit for the batting average I have right now," he said.

Bill Monbouquette went the distance for the first game victory, beating Bo Belushi, Dick Dade and the second in relief.

Grant allowed only a double by Wayne Causey and a single by Chuck Essegian and retired 13 in a row over one stretch in his outstanding effort against Kansas City. Tito Francona drove in both Indian runs with a first inning single.

Angels Routed Twice

White Sox who scored a 7-4 victory over Detroit.

Midget Grant blanked Kansas City 1-0 on a two-hitter for Cleveland and Baltimore whipped Washington 7-1 on Milt Pappas' three-hitter in other night games.

The New York Yankees edged Minnesota 4-3 in the only day game.

EARLY TO RISE

A three-alarm fire in the Hotel Somerset in Boston chased the Angels from their rooms in the early morning hours and the slugging Stuart finished the rout at Fenway Park.

His grand slam in the third inning of the first game put it out of reach. He had a three-run homer in the eighth, and scored the winning run in the eighth inning on Russ Nixon's double.

Stuart, an off-season trade acquisition by the Red Sox who was looking for some right-handed power, lifted his runs batted in total to 24 and increased his home run production to 7, both marks high among the league leaders. But Stuart, hitting only 250, says he isn't satisfied.

"Even if I drive in 100 runs and hit 30 homers, I wouldn't be happy if I hit for the batting average I have right now," he said.

Bill Monbouquette went the distance for the first game victory, beating Bo Belushi, Dick Dade and the second in relief.

Grant allowed only a double by Wayne Causey and a single by Chuck Essegian and retired 13 in a row over one stretch in his outstanding effort against Kansas City. Tito Francona drove in both Indian runs with a first inning single.

Chicago Beats Weak Detroit by 7-4 Count

Bengals Mired Deep in 8th Place; Head for Washington

CHICAGO — The Detroit Tigers, floundering in eighth place with little hope of moving up in the immediate future, were idle today after suffering their fourth straight defeat — a 7-4 pasting by the Chicago White Sox — last night.

As the Tigers journeyed to Washington, where they'll open with a two-night doubleheader tomorrow night, they had these points to consider:

— They are seven and one-half games behind the front-running White Sox.

— They are seven games below the .500 mark.

— They are five and one-half games out of the first division. Baltimore and Kansas City, tied for fourth, are each two games out of first.

— Their four losses came after two victories over the New York Yankees and a 14-0 decision over Cleveland. They haven't been able to knock in very many runs since.

The Tigers have lost both games played with Washington so far this season, so they'll have to hustle to snap out of their slump in the four game set there.

GOOD START

Detroit started out on the right foot last night as it pushed across two runs in the third on a double by Rocky Colavito, a single by Phil Regan, a sacrifice and Don Donnelly's single. They played third base.

Regan kept the White Sox in check until the fifth when Chicago scored five times. Ron Hanson's bases-loaded single was the big blow of the inning.

Stuart, who had clubbed his eighth home run of the season with a man on, He hit it off reliever Dick Egan in the seventh to account for Chicago's final two runs. The homer gave Nicholson 28 runs batted in this season.

The Tigers added two unearned runs in the eighth to close out the scoring. The only hit in the inning was a double by Bill Freehan.

Juan Pizarro, with help from Ron Beamon in the eighth, picked up his third victory without a loss. Regan suffered his fourth setback against two victories.

Hank Aguirre and Don Mossi are slated to pitch against the Senators tomorrow night.

'Big Three' Dominate Early Preakness List

BALTIMORE (AP)—The "Big Three" from the Kentucky Derby are on everybody's list before Saturday's Preakness at Pimlico. What about the fourth finisher at Louisville?

On My Honor is mentioned, if at all, only as an afterthought. He was the one behind Chateaugay, Never Bend and Candy Spots.

Which is not a knock, exactly, but the attitude would lead you to believe On My Honor hasn't a ghost of a chance to win the \$150,000-added race.

It may well be that he is over his head, but Chateaugay was only fifth choice in a field of nine when he won the Derby May 4. On My Honor swept past No Robbery, the second betting choice, and Bonjour, fourth in the odds, on his way to a share of the purse.

After the invincibility of Candy Spots and No Robbery was shattered in the Derby, interest in the 3-year-old racing class turned to whether Chateaugay can be tripped in either the Preakness or the Belmont Stakes next month. On My Honor might not turn the trick in the Preakness, but a small claim already is looking ahead for him in the Belmont.

TOO SHORT

The 11-16-mile Preakness could be too short for On My Honor's late rally as was the 1-1/4-mile Derby. However, the 1-1/4-mile Belmont might be right down his alley.

On My Honor was last and more than 15 lengths behind the front running Never Bend after the first three quarters of a mile in the Derby. He trailed by only six lengths at the finish.

It was typical of the style of the hardest worked and only gelding among the Preakness entries. He earned his way to the Triple Crown classic by winning the California Derby in which he came from 25 lengths off the pace.

In the last half of the one mile Kentucky Derby Trial, he made up 11 lengths to be third.

On My Honor is owned by a father-son team, Mike and Jack Stein of Los Angeles. They claimed his mother, Honor II, six years ago for \$2,500.

On My Honor was born at the Chino, Calif., ranch of Rex Ellsworth and was named for his cat. He was trained by John P. Galbreath.

The Steins sent On My Honor to the races the first month he was eligible, in January a year ago. He had raced 23 times since then and as recently as last January could have been claimed for \$12,500.

While he has won only five races, On My Honor has picked up a piece of the purse 17 times, amounting to \$48,520 this year alone.

As a gelding, On My Honor will be bucking awesome odds in the Preakness. The last gelding to triumph was Holiday in 1914.

BALTIMORE — The probable field for Saturday's Preakness is as follows:

Never Bend	1-1/2 mile Preakness	1-1/2 mile Preakness
Candy Spots	1-1/2 mile Preakness	1-1/2 mile Preakness
Chateaugay	1-1/2 mile Preakness	1-1/2 mile Preakness
On My Honor	1-1/2 mile Preakness	1-1/2 mile Preakness
Never Bend	1-1/2 mile Preakness	1-1/2 mile Preakness
Chateaugay	1-1/2 mile Preakness	1-1/2 mile Preakness
On My Honor	1-1/2 mile Preakness	1-1/2 mile Preakness
Never Bend	1-1/2 mile Preakness	1-1/2 mile Preakness
Chateaugay	1-1/2 mile Preakness	1-1/2 mile Preakness
On My Honor	1-1/2 mile Preakness	1-1/2 mile Preakness

Drum: \$125,000 to winner, \$50,000 to second, \$10,000 to third, \$5,000 to fourth. Approximate pool time: 5 p.m. EST. Telephone: (CS) 4-30-00 p.m. EST.

TUNE UP — Exercise boy Bob Menell gave Candy Spot, third place finisher in the Kentucky Derby, work out in preparation for the Preakness which will be the second leg of the triple crown Saturday.

AHL Goalie Voted Loop's MVP Award

NEW YORK (AP)—Denis DeJordy, 24-year-old goalie who backstopped Buffalo's drive to the Calder Cup, is the American Hockey League's Most Valuable Player for 1962-63.

The young goalie, only the second man at his position ever to be named to the honor, was called by Buffalo Coach Billy Rennie "the key man" in the Bisons' acquisition of both the regular season and playoff titles.

DeJordy gained 31 of a possible 45 points in the voting from the minor league cities.

Los Angeles Track Club has pulled its eight runners out of Friday night's Coliseum Relays.

Jim Beatty, distance runner and president of LATC, said the withdrawal is being made because the Coliseum manager, Bill Nicholas, reneged on a June 15 date. LATC planned to use the Coliseum for a track meet to raise funds so it could pay the salary of its coach, Mihaly Igloi.

Among the LATC runners injured are Beatty and Jim Grell. Beatty was to have run the 5,000 meters against New Zealand's Murray Halberg, and Grell was to have competed against the world record holder in the mile, Peter Shell, also of New Zealand.

Club Filing Protest

Track Rebellion in LA

Beatty said LATC had received sanction for its June 15 meet, which was to have been held in conjunction with an amateur soccer match.

"This is the last straw in a parade of pressure tactics, accusations, rumors and other developments over the past few weeks," said Beatty. "I am recommending to the National AAU that an investigation be made of particular members of the Southern Pacific AAU Track and Field Committee because their actions are not in the best interests of the operation and development of amateur sports."

Beatty declined to name names in connection with the proposed investigation.

Kettering, ROSM Nines Lift Gloom With Wins

Suddenly, the baseball season looks brighter for Kettering's Captains and Royal Oak St. Mary's Irish.

The two posted victories yesterday that did much to erase some gloom. Kettering topped Oxford, 6-5, and ROSM bested St. Fred's, 5-2.

For the Skippers it was the third straight win and fourth in five games after losing their first five starts this year. A three-run spurge in the first inning and a five spot in the fourth did all the damage for the winners.

Andy Miceli's first of two singles drove in two runs in the first frame to back the four-hit hurling of Dale Manning who had late help from Bob Dustman.

Royal Oak St. Mary's shortstop Flack blasted a three-run home run to deep right field in the six inning to snap a tight pitching duel between winner Don Wells and St. Fred's Larry Waller.

Two walks and an error had permitted the Rams to knot the score in the fifth, 2-2, before the winners' rally. It was the losers' fifth loss in six starts.

ROSM, a pre-season favorite to retain its Northwest Catholic League crown, has been hampered by frequent postponements and an upset loss to St. Mike's.

The Irish now stand 3-1 in the loop and must catch unbeaten Orchard Lake St. Mary (5-0) to repeat as titlists. A season-closing double header with the Eagles will probably decide the championship.

TODAY'S SLATE

Highlighting today's schedule will be the appearance of Flint Southwestern at Wisner Field 10

Hope for HTA Pace to Be Rescheduled

Hazel Park officials said today that they would make every effort to present an HTA Invitational Pace on either Friday, May 31 or Saturday, June 1.

The event would replace the HTA Pace, originally scheduled for this Friday but cancelled because of a virus infection of epidemic proportions among the nation's race horses.

President Donald D. MacFarlane re-emphasized that Hazel Park has not been affected by the epidemic and that the HTA Pace was cancelled to prevent the epidemic from hitting Hazel Park. "Apparently there has been some confusion on the part of many of our fans. We have not been hit by the virus and our quarantine is designed to keep the virus away from Michigan," he said.

**DIDN'T LOSE
A POUND IN
125,000 MILES**

"We had a '55 Dodge truck that went 125,000 miles without a wrench touching it. At 125,000 miles we tuned the engine and found every one of the eight cylinders registering 125 pounds compression or better. When that truck was wrecked in a smashup we replaced it with a 1962 Dodge D500 with a 361 cubic inch V8 engine. That Dodge outperforms any other truck I've ever driven or used. Since then we have added two more D500s, making three Dodges in our grain- and limestone-hauling business." Ivan Rummelhart, Hills, Iowa. Dodge trucks now being sold have a new no-extra-cost feature. And that's the only warranty of its kind on any American truck. A revolutionary five-year or 50,000-mile power train warranty by Chrysler Motors Corporation to its authorized Dodge Truck dealers. See your Dodge Truck dealer* about this newest feature of Dodge—America's only Job-Rated trucks.

*Your authorized Dodge Truck Dealer's warranty against defects in material and workmanship on 1963 trucks has been expanded to include parts replacement or repair, without charge for required parts or labor, for 3 years or 50,000 miles, whichever comes first on the engine block, head and internal parts; transmission case and internal parts (excluding manual clutch, torque converter, drive shaft, universal joints, rear axle and differential, and rear wheel bearings, provided the vehicle has been operated at reasonable intervals according to the Chrysler Motors Corporation Certified Truck Care schedule. Trucks are subject to additional limitations of 1500 hours operation if mileage does not accurately reflect the extent of actual use and operation of parts covered by the warranty. Coverage will not apply to trucks subjected to prolonged over-hauling or off-highway use.

Skating Champ Set for Rolladium Show

By JERE CRAIG

Area roller skating fans will have several chances to see a world champion in action during the next three months.

The performer will not be imported, either. Sue Welch Wahlig, formerly of Union Lake but now married and living in Warren, is resuming her competitive career.

As Sue Welch, the attractive 19-year-old roller skate artist captured the world's figure skating title last October in Australia. She also teamed with Pontiac Rolladium partner David Schaffer and a Texas couple to win the world four crown.

Schaffer and the now Mrs. Charles Wahlig were second in the pairs competition. Her husband, also, is a world roller skating champion, having won the senior dance championship in 1960.

They were married after her return from Australia last year. Mrs. Wahlig will again compete hoping to add more honors to her large collection. But prior to that the Oakland University junior has two special projects to which she is devoting her efforts.

ANNUAL SHOW

The Pontiac Rolladium will present its annual roller skating show May 28-30 and she will par-

ticipate in it. The Spinning Wheels of 1963 will be quite similar to the nationally known ice skating extravaganzas.

A similar show is also planned for Detroit. Mrs. Wahlig is assisting her husband with the organization and directing that performance.

Tickets for the Pontiac Rolladium's three 8 p.m. shows are now on sale at the M 59 skating arena and from city Kiwanis Club members. The Spinning Wheels of 1963 will be staged by the Rolladium's organized skating club.

Mrs. Wahlig credits three of the arena's teaching staff with much of the credit for her development. They are Bert and Marilyn Anselmi, and Laurene Patton.

The trio also play an important part in the coaching and directing of the more than 100 skating club members, most of whom will be participating in this year's show.

The club will compete in the state meet June 21-24 at Mt. Morris and is expected to qualify many entrants for the regional meet in early July at the Pontiac Rolladium. The regional competition includes Ohio, Illinois, Indiana, Wisconsin and Michigan titles.

The Rolladium anticipates qualifying enough entries for the national meet July 28-Aug. 3 in Portland, Ore. to make a stiff try at retaining the Haney High Point Trophy.

The prized plum is emblematic of North American supremacy on the hardwood rink floor and has been a possession of the Pontiac Rolladium for the past nine years—earning it recognition as the Yankees of amateur roller skating.

Mets' M-Boys Jes' Fine

BUFFALO, N.Y. (AP)—How? Marvelous Marv doing at Buffalo?

In five games since he was farmed by the New York Mets to Buffalo of the International League, Marv Throneberry has been at bat 18 times, rapped three singles, one double and one homer for a .278 average, has driven in three runs and scored five.

RIDING HIGH

Sue Welch was at the peak of her roller skating career last fall when she won the world's figure skating championship. Now Mrs. Charles Wahlig, the Oakland University junior (shown with pairs partner David Schaffer) will resume her competitive skating after appearing in the Pontiac Rolladium's Spinning Wheels of 1963 show later this month.

Milford Golf Squad Heads Regional List

Milford's leading golf team in the Wayne Oakland conference will be a strong contender for Class A regional honors tomorrow when the majority of county area schools gather at Burroughs course in Brighton.

The Redskins, which have been firing at a team average of 308 strokes this season, made their record read 14-2 after defeating West Bloomfield 151-162 at Highland Hills yesterday.

Freshman Pete Castle fired a par 36 and was followed by John Scheate with 38, Bill McCormick 38 and Larry Hoy 39.

Bob Augmager had a 40 for the Lakers, followed by Dave Harris and Dan Armistead with 41's and Rod Thompson 43.

In another match yesterday, Kettering's Jim Howe fired a 38 at Pontiac Country Club to lead the Captains to a 161-172 win over St. Fred. Mike Kimmmerer added a 39, Larry Wilmont 41 and Bob Vickory 43. Chuck Bradley had a 40 for St. Fred and Chuck Dean a 43. It was Kettering's 8th dual win in 11 matches.

Kettering, Waterford, Bloomfield Hills, Groves, Seaham, Pontiac Central, Pontiac Northern, Doro, Kimball, Utica, Troy, Walled Lake, Berkley, Ann Arbor, Brother Rice, Ypsilanti and Plymouth will join Milford in Class A regional at Brighton.

In class B on the same course are Ol. St. Mary, West Bloomfield, South Lyon among county schools. St. Fred will be at Warwick Hills in the regionals. Jackson will be the site of the A-B finals next weekend.

Freese Sent To Minors

CINCINNATI (AP)—Gene Freese, veteran Cincinnati Reds' third baseman, agreed Wednesday to report to San Diego of the Pacific Coast League and try to turn himself back into major league playing condition.

That was the word from Bill DeWitt, president and general manager of the Reds, after he and Freese conferred here.

The Reds announced Tuesday that Freese was being sent to San Diego on a 24-hour recall basis. Freese was quoted as saying he might or might not go along with the demotion and he came in here from Chicago to talk with DeWitt.

Jones Goes 153.139 at Indy

INDIANAPOLIS (AP)—A short period of perfect weather just before a rain brought a burst of fantastic speed at the Indianapolis Motor Speedway Wednesday, including an unofficial record 153.139 miles per hour by Parnelli Jones. The Torrance, Calif., driver, who set the official record of 150.729 in qualifications for last

year's 500-mile race, used the same Agajanian Special in Wednesday's practice run.

He had a new Offenhauser engine, however, and the Watson chassis has had about \$11,000 worth of improvements since last year.

The air was cool and damp, with no wind, when Jones screamed around the relatively flat, 2½-mile course in 58.77 seconds. He turned 11 laps at more than 150 m.p.h.—a speed never reached at the 53-year-old track until last year.

Central Michigan Sweeps Hillsdale

MOUNT PLEASANT (AP)—Central Michigan clobbered Hillsdale 19-3, then came from behind for a 5-4 victory in a baseball doubleheader here yesterday.

The triumph gave CMU a 25-6 record so far this year. The 25 victories tied a school record. The Chippewas have seven games to play.

Shorstop Carmen Fanzo paced the opening triumph with four hits—including two home runs—and seven runs batted in. Don Knigghart of CMU and Hillsdale's John Lucadami each collected three hits.

Dick Fogle picked up his sixth victory without a loss, while Dick Bryner was charged with the defeat. Hillsdale's Record is 11-6.

(First Game)
Hillsdale..... 001 001 100—3 4 2
Central Michigan..... 002 002 100—19 3 3
Bryner, McCarthy (3) and Stokes; Fogle and Knigghart.

(Second Game)
Hillsdale..... 000 000 3-4 4 3
Central Michigan..... 001 001 2-3 5 1
Bishop and Padella; Granda and Kortkowiak.

Tropicana Special. The Novis, reputed to have more than 700 horsepower, never have won the race due to mechanical breakdowns.

Jim Clark of Scotland started the hot practice session for Saturday's opening time trials by running four laps at more than 150 in a Lotus-Ford. His best was 1:50.88. Dan Gurney of Costa Mesa, Calif., another Grand Prix racer, took out his identical Lotus-Ford and did 1:49.2.

The fastest car Saturday will earn the No. 1, or pole, position for the 47th Memorial Day race, regardless of later speeds. Indianapolis traffic police expect the record-cracking prospects to draw a crowd of more than 150,000.

No-Hitter Missed In Ninth

By the Associated Press

Milwaukee's Bob Hendley made like Sandy Koufax of the Los Angeles Dodgers. Koufax didn't.

While Koufax was making his first appearance since pitching a no-hitter against San Francisco, Hendley stole the spotlight by hurling the Braves to a 9-3 triumph over St. Louis Wednesday night and coming within two outs of matching the Dodger Dandy's 4-day-old masterpiece.

Hendley got Julian Javier on a grounder to open the ninth, but pinch hitter George Altman reached first when Frank Bolling

booted his grounder. That seemed to unsettle Hendley, who was then tagged for a triple to right center by Curt Flood for the first St. Louis hit.

Before Hendley regained his composure, the Cardinals had two more hits and three runs. But nothing could dim the performance of the 24-year-old left-hander, who pitched probably the finest game in his three seasons in the majors.

PITCHES 12-HITTER

Koufax, meanwhile, was touched for 11 hits, but struck out 12 and won his fourth in a row when Ron

Fairly drove in the decisive run, with a two-out single in the 12th inning and gave the Dodgers a 3-2 triumph over Philadelphia.

In other National League action, first-place San Francisco scored four runs on one hit in the fifth inning and edged Pittsburgh 4-3, Cincinnati belted Chicago's Cubs 10-3 and the New York Mets downed Houston 7-4, ending the Colts' winning streak at six.

After Flood's triple got things started for the Cards, Dick Groat followed with a single, Charley James was safe on an error by Denny Menke and Groat scored the third run on Ken Boyer's single before Hendley worked out of the jam. Menke homered for the first Braves' run in the third inning and Milwaukee continued to pound Curt Simmons, who lost his first after five victories.

Fairly's run-producing single gave him a league-leading 29 runs batted in and gave Koufax his fifth victory in six decisions. The Dodger southpaw had been lifted for a pinch hitter at the start of the inning after striking out 10 or more in a game for the 43rd time. Jim Gilliam scored the winning run after singling and moving to second on a passed ball. The loss went to Johnny Klippstein, 1-2.

The Giants broke a scoreless tie against loser Don Cardwell in the fifth after Orlando Cepeda led off with the inning's only hit, a pop fly that dropped in short center.

Cardwell, now 1-5, walked winning pitcher Juan Marichal to force in one run and hit Felipe Alou to force in another before Bob Bailey bobbled Willie Mays' grounder and let in two more runs. Marichal brought his record to 5-3 with Bob Bolin's relief help.

Frank Robinson led the Reds, collecting a single, double and triple, driving in three runs and stealing a base. Rookie Pete Rose also stroked three hits as Cincinnati put together a 15-hit attack and ran up the most runs scored against Chicago pitching this season. Jim Maloney, 5-1, was the winner, Glen Hobbie, 1-4, the loser.

Al Jackson sparked two rallies with singles and drove in a run with a sacrifice fly as he won his fourth against three losses for the Mets.

Haskins Rally Beats Dinky's at Waterford

John Stephens doubled home the winning run as Haskins Chevrolet rallied for two runs in the fifth inning last night to defeat Dinky's Hideaway 2-1 in Waterford Class C softball.

Winning pitcher Max Jarrett and loser Ed Rondo each posted five hitters. In the Class C nightcap, Dixie Bar whipped Huron Bowl 11-1 in five innings as Ray White turned in a three-hitter.

Class B games tonight will have Spencer Flours playing Westside Lanes at 7 and Lakeland Pharmacy meeting Midget Bar at 8:30.

Ex-Fight Trainer Dies

NEW YORK (AP) — Tex O'Rourke, well known in boxing circles, died Tuesday at 76. He trained Jess Ward in 1915 when Ward won the heavyweight championship from Jack Johnson in Havana.

Oak Park Coach Quits

Norm Krawczak, resigned as head football coach at Oak Park High School, a position

he has held for the past seven years. Lyle Albrant, present junior varsity coach will fill the vacancy.

Water Safety Clinic Friday At Oakland U.

Water safety will be one of the major topics of discussion during the Michigan Outdoor Education Conference and Clinic Friday and Saturday at Oakland University.

The water safety clinic will be from 1:30 to 4 p.m. Friday. Aim of this program is to increase water safety education in school systems in the Oakland County area. Representatives from the various school districts will hear top experts in this field.

Lt. Don Kratt of the sheriff's department and Corp. Bill Carter of the state police will go over the history and types of water accidents. Kratt will also discuss and demonstrate the uses of Resuscitation Aids.

Corey Van Fleet, swimming coach at Birmingham Seaholm High School, will go over the available water safety education materials and suggest ways to make the material more effective.

Qualifications for swimming safety supervisors will be listed by George Wibby of the American Red Cross and John Hussy, Wayne State tank coach, will demonstrate elementary rescues. John Gilster, swimming coach

at Birmingham Groves, will handle swimming proficiency and exhaustion while Joe Gimbas of Wayne State will delve into water safety in camping.

BOATING SAFETY

Boating and canoeing safety will be handled by Mark Smith of the Red Cross and Conservation Officer Charles Gruenther of Howell will discuss water safety for hunters and fishermen. Brian Schull, instruction chairman of the Michigan Skin Diving Council, will have charge of skin and scuba diving.

O.U. physical education director Hollie Lepley, chairman of the water safety program, will report on a national conference in aquatics.

NBA Nationals Ready to Move

Philadelphia Group
Spends Half-Million

SYRACUSE, N.Y. (AP)—Subject to league approval, the Syracuse Nationals of the National Basketball Association have been sold to a group of Philadelphia businessmen who plan to move the club to Philadelphia.

Sale of the club for \$500,000 was announced late Wednesday night by owner Dan Bissone, who said "it simply got to be impossible to operate." The Nats had been fixtures in Syracuse for 17 years but despite their 48-32 record and second place finish in the Eastern Division last season, the club lost \$39,000.

In Philadelphia, Isaac Richman of the firm said the new owners are a group of businessmen not connected before with sports. He said Eddie Gottlieb, former owner of the Philadelphia Warriors, is not a member of the group. He refused to identify the businessmen and when asked if he thought the league would approve of them, said, "These men are reputable."

Philadelphia has been without an NBA franchise since the Warriors were sold and moved to San Francisco before last season.

A sailor aloft who doesn't have at least a smattering of sea-going language sounds as out of place as a Harvard professor lecturing in Brooklyne.

That doesn't mean you have to sound like a character out of Robert Louis Stevenson and run around shouting things like, "Ahoy, matey, avast."

A knowledge of basic salty lingo can keep you from sounding like a complete landlubber and make you feel more at home with the members of your big fraternity.

It is just as easy to properly refer to the port and starboard as it is to say left or right. The forward part of the craft is the bow, not the front, and an outboard motor is at the stern, not the rear. Toward the bow is forward, not up, not back, and toward the rear is all not back there.

Whether it be a canned heat burner, a barbecue grill set up in the cockpit, or an elaborate set-up with an electric stove, a place to cook aloft is a galley, not a kitchen.

A floor ashore becomes a deck on a boat, and a wall turns into a bulkhead on the water. Any stairway is a ladder, a closet is a locker, and anything above deck or overhead is aloft, not up there.

Freeboard is the portion above the water on a craft aloft. A transom may be something a house detective peeks through in a hotel, but on a boat it is the freeboard at the stern.

There is a lot more seagoing language, of course, but with this simple vocabulary you can converse with any salt—even an admiral—without making him wince.

At Orchard Lake

To Dedicate Marian Shrine

ORCHARD LAKE — One of the state's most unique church buildings, a Marian shrine and chapel for American Catholics of Polish descent, will be dedicated here Monday.

The Shrine - Chapel to Our Lady of Orchard Lake will be dedicated by Most Rev. Alexander Zaleski, auxiliary bishop of Detroit.

Most Rev. John Krol, archbishop of Philadelphia, will deliver the sermon at the 11 a.m. ceremony.

The roof of the \$750,000 structure is designed to represent folded praying hands.

A 25-foot copper statue of Our Lady of Orchard Lake is suspended on the glass facade of the building.

AREA NEWS

Weighing one ton, the statue is believed to be one of the largest hand-executed copper works in the United States.

The roof is formed by gigantic wood beams resting on 22 buttresses of colonial Pennsylvania field stone.

Sweeping up from a line 10 feet above the sidewalk, they form a peak some 50 feet above the ground.

IMPORTED MARBLE

The floor in the main sanctuary and the aisles in the rest of the church are of imported Italian marble. The main altar, the two side altars in the sanctuary and the six altars behind the main altar are in Botticino classico-marble.

More than 10,000 pieces of copper were welded and brazed to create the statue on the facade, which was more than a year in the making.

The Madonna was designed by Joseph Jankowski, a faculty member at the Cleveland Institute of Art.

Carl Van Duzer, another faculty member, executed the work.

Van Duzer has also been commissioned to create copper figures of the Immaculate Conception, patroness of the United States, and of Our Lady of Czestochowa for the two side altars in the sanctuary, as well as a life-size reproduction of Christ and the Apostles at the Last Supper.

Jankowski is presently working on oil paintings of the stations of the cross. He and Van Duzer expect to complete their projects within two years.

SS. Cyril and Methodius Seminary is now in its 76th year of educating priests to serve the American Polonia.

The seminary is one part of a complex at Commerce and Orchard Lake roads known as the Orchard Lake Schools. The other two departments are St. Marys College and St. Marys Preparatory School.

Rector and president of the schools is Rt. Rev. Msgr. Wallace J. Filipowicz.

above the sidewalk, they form a peak some 50 feet above the ground.

Rector and president of the schools is Rt. Rev. Msgr. Wallace J. Filipowicz.

Jankowski is presently working on oil paintings of the stations of the cross. He and Van Duzer expect to complete their projects within two years.

SS. Cyril and Methodius Seminary is now in its 76th year of educating priests to serve the American Polonia.

The seminary is one part of a complex at Commerce and Orchard Lake roads known as the Orchard Lake Schools. The other two departments are St. Marys College and St. Marys Preparatory School.

Rector and president of the schools is Rt. Rev. Msgr. Wallace J. Filipowicz.

Racket Squad Head Named

Jackson Commander Gets State Police Job

From Our News Wires

EAST LANSING — Sgt. Raymond McConnell, 46, a veteran of 22 years with the state police, has been named commander of the Racket Squad by Commissioner Joseph Childs, effective Sunday.

McConnell, currently commander of the Jackson Post, succeeded Detective Lt. Carl Robinson, of Berkeley, who was suspended on charges of embezzling money confiscated in gambling raids.

McConnell was promoted to the rank of detective lieutenant. He will operate out of East Lansing headquarters.

The newly-appointed racket squad commander has built an impressive record since joining the force in September, 1940.

He has received 11 citations for meritorious service. He served at Bay City, Marquette, Wakefield and Ypsilanti before promotion to detective in September, 1960, when he was assigned to Romeo.

McConnell was upgraded to Detective Sgt. in 1957 and transferred to the special investigation squad in East Lansing. He was returned to the uniform division with the rank of Sgt. 3-A and assigned to New Buffalo in 1959. A year later he became Jackson commander.

A graduate of Tecumseh High School, McConnell is married and has one child.

Named to succeed McConnell at Jackson was Sgt. Matt R. Hrebek, 36, of the safety and traffic bureau, Paw Paw fifth district headquarters.

On the basis of the report County Drain Commissioner Daniel Barry has said he will recommend to the board of supervisors' drain committee that the project not be tackled.

Snell last night said the project would probably be done for \$500,000.

INCREASE DEPTH

He suggested that an average of six feet of muck be dredged from the lake bottom to increase the average water depth to 10 or 11 feet.

The original consulting engineers used the removal of 2.2 feet of muck as the basis for their calculations.

Snell's estimate, which he "surrounded with a lot of ifs," would cut the suggested assessment per lake front foot roughly in half.

If Snell is correct, the project would require a year of about \$15 per lineal foot.

Before the dredging of Long Lake, this type of project had not been undertaken in Michigan.

"We know the cost—we're not guessing," Snell commented. "This is feasible, but we would have to prove it beyond a shadow of a doubt at some sort of hearing."

Because of the controversy surrounding the first report, Snell said another one would have to be fully documented.

MORE INFORMATION

To compile another report, Snell said he would need more information about the bottom along the shore of the lake, the area where spoilage could be dumped and the fertility of the water.

"A grave question which must be answered is: would the lake refill itself?" Snell said. The initial report indicated the first quarter of the project would dry up the 772-acre lake.

Snell said a new report would cost the lake residents an additional \$2,500. They paid \$1,800 for the first one.

With the field work done in about a week, the citizens' committee would have a basis for their arguments at the drain committee meeting which is expected to be scheduled in two weeks.

The citizens' committee plans to retain an attorney to talk to Barry and determine whether a contradictory report would, or could, be accepted.

Its next step will be to hold a public information meeting to bring other residents up to date.

The entire report, Snell said, could be ready within four weeks.

STUDY PROBLEM — Mrs. A. Dallas Baize, chairman, and Richard V. Frato, member of the Wolverine Lake citizens' committee, study a map of the lake they are working to renovate. Dissatisfied with the first preliminary engineering report, the committee may seek another one.

Engineer Challenges Lake Project Report

WOLVERINE LAKE — The engineer for the Long Lake rehabilitation project last night challenged as "over conservative" a preliminary report for a similar undertaking at Wolverine Lake.

Dr. John R. Snell, president of a Lansing engineering firm, talked to a citizens' committee which has indicated its dissatisfaction with the report submitted by Hubbell, Roth & Clark, Inc. of Birmingham.

Cost of the proposed lake renovation was estimated at \$995,000 by the consulting engineers hired by the county.

On the basis of the report County Drain Commissioner Daniel Barry has said he will recommend to the board of supervisors' drain committee that the project not be tackled.

Snell last night said the project would probably be done for \$500,000.

INCREASE DEPTH

He suggested that an average of six feet of muck be dredged from the lake bottom to increase the average water depth to 10 or 11 feet.

Nigerian Chief Flown Home to Be Tried for Treason

LONDON (AP)—Nigerian chief Anthony Enahoro was flown home under guard early today to stand trial for treason after losing his long legal battle for political asylum in Britain.

Nigerian authorities hustled the fugitive aboard a chartered airliner three hours after the House of Commons voted 247-190 to uphold the government's decision to deport him.

The Labor opposition charged that his deportation would violate Britain's tradition of asylum for political refugees. The government replied that criminal, not political, charges had been raised against Enahoro, 40, and he was assured a fair trial in Nigeria, a member of the British Commonwealth.

The chief fled to Britain after the Nigerian government accused him of plotting to overthrow it. He had been under arrest since November.

MOSCOW (AP)—Mikhail A. Suslov, the Soviet Communist party's top theoretician, will head his head of the department for liaison with Communist and workers parties of Socialist countries; Leonid E. Ilyichev, in charge of ideological affairs for the central committee, and Boris N. Ponomarev who looks after relations with foreign Communist parties.

VIENTIANE, Laos (AP)—Premier Prince Souvanna Phouma's office today reported a new Pathet Lao attack on a neutralist position in the Plain de Jarres.

A communiqué said the Communist forces lobbed 'some stink shells' Wednesday onto the Hoang Phai air strip, the chief supply channel for neutralist Gen. Kong Le's besieged forces.

The communiqué said the neutralists did not return the fire, or casualties.

Nothing was said about damage to the Plain de Jarres.

SEoul, South Korea (AP)—South Korea's military regime released 2,270 persons from prison today in an amnesty marking the second anniversary of the military coup. They included 51 political prisoners.

POSTHUMOUS AWARD — Actress Elsa Lanchester holds up the Grammy award won by her husband, the late Charles Laughton, for the best documentary or spoken-word recording other than comedy in the 1962 recording industry competition.

School Unit Accepts Waterford Pay Setup

Proposed pay schedules through the 1965-66 school year for nonteaching personnel were accepted last night by the Waterford Township Board of Education.

Radicalizing a moderate upward trend, the new schedules for secretarial and custodial personnel are contingent on the passage of the millage proposal in the June 10 election.

Both adjusted schedules could be financed by the millage boost already proposed, according to Dr. Don O. Tatro, superintendent of schools.

Maximum pay for a custodian-engineer would be \$453 monthly and \$453 would be the top rate for a custodian under the new schedule.

The present minimum monthly rate of \$215 for secretaries would be boosted to \$225 beginning in September.

Automatic step increases of \$15 per year for all secretarial personnel are provided in the new schedule, however the maximum rates are unchanged from those now in effect.

OTHER BUSINESS
In other business the board received reports from two committees outlining concepts of an "ideal school."

Both the elementary school planning committee and the junior high school planning committee, comprised mainly of teachers, visited several other school districts in their efforts to pinpoint what the perfect school should incorporate.

The reports will be utilized for future school planning. Henry Karwas, Grayson School principal and David Freeman, setting principal at Cray Junior High School, headed the committees.

Board members accepted the resignation of Mrs. Carrie Hubbell effective June 21. Elementary coordinator for the past six years and a veteran of 27 years in the school system, Mrs. Hubbell will retire at the expiration of her contract.

In other business the board approved contracts for 23 new teachers for the 1963-64 school year and granted leaves of absence to three other teachers.

A report on the successful introduction of conversation Spanish lessons in the Houghton Elementary School by principal Mrs. Bea Arnold was presented to board members.

In New York City there are 13,289 places to post a letter, includes mail boxes, mail drops, and branch post offices in the metropolitan area.

Report Agreement to Free Mindszenty

BUDAPEST, Hungary (AP)—The Vatican, the United States and Hungary's Communist government reportedly have reached an agreement that will allow Joseph Cardinal Mindszenty to leave for Rome.

High Vatican sources said they expected the 71-year-old Roman Catholic primate of Hungary in Rome in a few days to assume a high Vatican post.

Informants in Budapest reported Wednesday night that long negotiations proved fruitful.

Freeing of the cardinal would remove one barrier to resumption of normal diplomatic relations between the United States and Hungary and would improve relations between the Vatican and the Hungarian government.

No information was available on details of the agreement, but it's believed to include other concessions to the Vatican.

The Hungarian Communist sentence the prelate to life imprisonment in 1949 for alleged high treason. Liberated in the 1956 uprising, he took refuge in the U.S. Legation in Budapest when the Soviets crushed the revolt and he has been there ever since.

The cardinal for years refused any suggestion of safe conduct out of the country. Instead, he demanded to be exonerated of the charges against him and to be allowed to resume his normal activities as primate of Hungary.

Under canon law, Pope John XXIII could not order the cardinal to leave Hungary.

Deaths in Pontiac, Neighboring Areas

MRS. MARVIN ARBERY
Service for Mrs. Marvin (Myrtle) Arbery, 41, of 595 Montana, will be at 1:30 p.m. tomorrow in New Hope Baptist Church with burial in Oak Hill Cemetery.

Mrs. Arbery died Monday after a brief illness. She was a member of Zion Baptist Church in Camden, Ark.

Surviving are her husband; a son, Joseph Simpson of Pontiac; and a sister, Amenta Williams, and a brother, John H. Williams, both of Pontiac.

Arrangements are by the William F. Davis Funeral Home.

MRS. RICHARD E. BROWNELL
Service for Mrs. Richard E. (Cleo F.) Brownell, 65, of 451 S. Telegraph will be 1 p.m. Saturday in Sparks-Griffin Chapel with burial in Avon Cemetery, Rochester.

Mrs. Brownell died yesterday after a brief illness. She was a member of Welcome Rebekah Lodge No. 246, Order of Eastern Star Chapter 228, and the 500 Club.

Surviving besides her husband are a son, Ralph of Pontiac; two daughters, Mrs. Gervase Klein and Mrs. Andrew Hoehn, both of Pontiac; 10 grandchildren; seven great-grandchildren; three great-granddaughters; and a great-grandson, all of Pontiac.

JESSIE W. LANCASTER
Service for Jessie W. Lancaster, 56, of 166 S. Sanford, will be 3 p.m. Saturday in the Erwin Funeral Home, Somerville, Ga.

Arrangements are by the D. E. Pursey Funeral Home.

Mrs. Lancaster, an employee of Chevrolet Gear & Axle Co., Detroit, died yesterday after a five-week illness.

Survivors include his wife, Helene.

Delegates Talk on U.N. Budget

UNITED NATIONS, N. Y. (UPI) — United Nations delegates today turned to private talks behind the scenes to seek a compromise solution for the organization's multimillion dollar financial troubles.

Secretary General Thant warned the assembly's Budgetary Committee yesterday that the financial problem is perhaps the most serious one facing the United Nations.

"Despite the various measures that have been taken, the unhappy fact remains that the organization continues in a state of serious financial difficulty," he said.

The Budgetary Committee, instructed to find a better way to pay for the U.N. peace-keeping missions in the Congo and Middle East, recessed until Monday after its opening session yesterday.

The recess will give delegates time for private consultations.

The deficit now totals nearly \$100 million. It is caused by the failure of the Soviet Bloc, France, South Africa, Portugal and some other countries to pay their share of the peace-keeping costs.

The consultations are aimed at reconciling the positions of the developed countries and the underdeveloped countries.

The latter, a majority of the 111 U.N. members, wanted the big powers to contribute more, but have run into opposition.

Gas Station Hit for \$60, Bandit Armed

A gas station attendant was a robbed \$60 early this morning by a bandit carrying a nickel-plated rifle.

Jeffrey Morgan, 23, employed at the Clark Oil station at 429 S. Saginaw, told police that the man did not enter the station but came up to the window and motioned to him with the gun to come out.

Morgan, of 247 W. Fairmount, said he was then taken to the rear of the building and told to hand over the money.

Morgan was then ordered to go inside and pull the receiver cord from the telephone. The thief fled south on Saginaw after the 3:15 a.m. robbery.

three sons, Herbert L. of Tri-County, Ga., and Allen and William, both of Rome, Ga.; three daughters, Mrs. Sybil Williams, Mrs. Jean Witt and Mrs. Yvonne Scott, all of Tri-County; nine grandchildren; three brothers and two sisters.

MILROD LEWIS
Service for Mildred Lewis, 31, of 461 Going, will be 1 p.m. Saturday in New Bethel Baptist Church with burial in Oak Hill Cemetery.

Arrangements are by the Frank Carruthers Funeral Home.

Mrs. Lewis died Monday after an illness of two years. She was a member of St. James Missionary Baptist Church and an employee of Tam O'Shanter Country Club.

Surviving are her parents, Rev. and Mrs. V. L. Lewis of Pontiac, who are in charge of the St. James mission; three brothers, V. L. Lewis Jr., Ronald and Joe, all at home; and five sisters.

FRED J. WILLARD
Service for Fred J. Willard, 77, of 137 S. Francis, will be 9 a.m. Saturday in St. Michael's Catholic church with burial in Mt. Hope Cemetery.

Mr. Willard, a retired employee of the City of Detroit Department of Public Works, died Tuesday after a long illness.

MRS. AUGUST BLUMBERGER
AVON TOWNSHIP — Requiem Mass for Mrs. August (Marie) Blumberger, 73, of 3857 Orchard View, will be 11 a.m. tomorrow at St. Andrew's Catholic Church, Rochester. Burial will be in White Chapel Memorial Cemetery, Troy.

Mrs. Blumberger died yesterday after a brief illness.

The Rosary will be recited at 8:30 p.m. today at the Pixley Funeral Home, Rochester.

Surviving besides her husband are a son, Edward of Royal Oak; three daughters, Mrs. Augusta Melrose of Clawson, Mrs. Edna Jordan of Royal Oak and Mrs. Victoria Carberry of Texas; and six grandchildren.

VIRGIL HICKS
TROY — Service for former resident, Virgil Hicks, 52, of Fennel will be 2 p.m. Saturday at Price Funeral Home. Burial will follow in White Chapel Memorial Cemetery.

Mrs. Hicks died yesterday after a two-year illness. He was the retired owner of a Fennel dairy shop.

Surviving are his wife Hattie, his father, Rubin of Highland Park; two sons, Harvey of Troy and Ronald of Fennel; four sisters.

Manager Retires at Jackson Paper; Pick Successor

JACKSON (P) — George M. Cowden, manager of the Jackson Citizen Patriot since 1946, yesterday announced his retirement effective June 30.

Cowden, a Citizen Patriot employee since 1915, began his career in the newspaper's circulation department. Prior to his appointment as manager, Cowden served as cashier from 1920 to 1931 and as circulation manager from 1931 until 1960.

George E. McCallum Jr., executive vice president of Booth Newspapers, Inc., publisher of Citizen Patriot, announced the appointment of L. William Shurtliff, advertising director of the Ypsilanti Press, as Cowden's successor.

Low License Numbers Protocol for Dogs?

WASHINGTON (P) — Prestige is going to the dogs in the nation's capital.

John Nelson, assistant chief of the District of Columbia Licensing Bureau, said Wednesday that President Kennedy's three dogs will be given the low-number prestige of 1, 2 and 3 on their licenses this year.

Charles, a Welsh terrier belonging to the Kennedy family has been the No. 1 dog in town for more than a year.

But Pushinka, a gift from Soviet Premier Khrushchev, and Clipper, the family's German shepherd, had been relegated to the fairly low status of Nos. 9 and 10.

The new lineup means downgrading for the canine licenses of two other well known families. Vice President Lyndon B. Johnson's Beagle will drop from No. 2 to No. 4. And FBI Director J. Edgar Hoover's Cairn terriers will fall from Nos. 3 and 4 to 5 and 6.

three brothers; and two grandchildren.

MRS. JAMES T. MAIN
WHITE LAKE TOWNSHIP — Mrs. James T. (Thelma) Main, 37, of 8230 Highland, died early yesterday.

Her body was to be taken today to the Lewis E. Wint Funeral Home, Clarkston, to the Eggleston-Meintner Funeral Home, Toledo, Ohio, for service and burial.

Surviving besides her husband are her mother and a sister, both of Bluefield, W. Va.

'INTOLERABLE' — Laurence Vass, U.S. consul in Nairobi, Kenya, told Africans that a "barbaric and intolerable racial situation exists in the Southern United States."

Mr. Vass, a retired employee of the City of Detroit Department of Public Works, died Tuesday after a long illness.

Unit to View Way to Halt Water Tank

Lake Oakland Heights Association members will gather tonight to outline a course of action in their bid to deter construction of a water tank at their area.

Paul G. Valentine, an attorney retained by the area's nearly 300 homeowners, will detail the group's legal position at the 7:30 meeting at the subdivision association beach on Lake Oakland.

Waterford Township Board members Monday reaffirmed plans to locate the tank at Walton and Main.

Valentine, who was present at the board meeting, indicated that the association would take legal action against the township.

He referred to the proposed 750,000 gallon tank as a nuisance, which would cause property values to depreciate in Lake Oakland Heights.

Gordo's Drink: 'Black Tea'

PERTH, Australia (P) — Crossing the West Australian coast between Onslow and Roebourne on his 14th orbit, astronaut L. Gordon Cooper woke up of his own accord tonight.

Cooper called Muecha and capsule communicator Charles Lewis, and asked him how he had slept.

Cooper replied: "Very good."

Lewis asked him jokingly if he liked his coffee white or black and the astronaut replied, "I'll take black tea, thank you."

Sleeping Pill Overdose Cause Woman's Death

An autopsy performed on the body of a woman found dead in her motel room yesterday revealed that she died of an overdose of sleeping pills, according to the sheriff's department.

Mrs. Thelma R. Main, 37, was found in bed by her husband James in their apartment at the Pontiac Lake Motel, 8240 Highland road, White Lake Township, about 10 a.m.

Pleads Guilty to Plane Theft

Belleville Man Faces Up to 5 Years in Jail

A 22-year-old Belleville man who stole a plane to whiz away his estranged bride of three months pleaded guilty today to unlawfully taking possession of an aircraft.

LaVern A. Anderson entered the plea as his trial was about to begin before Oakland County Circuit Judge Arthur E. Moore.

Anderson faces a maximum penalty of five years in prison. Judge Moore scheduled sentencing for June 11.

Anderson was accused of taking a \$65,000 twin-engine private plane from Pontiac Municipal Airport March 7. He was arrested when he returned to the airport after several action-packed hours in the air.

BUZZED OFFICE
During his flight over the county, Anderson buzzed the Birmingham insurance office where his wife worked, nearly killed two men while taking off from Troy's Berz Airport outside Birmingham and landed briefly on Northwestern Highway.

He said he planned to force his wife into the plane at Berz Airport with a rifle he was carrying, but "couldn't go through with it."

Anderson said he wanted to "improve her with the seriousness of marriage." He said he and his wife, Geraldine, 25, of Livonia, had not lived together since their November marriage.

Mrs. Anderson filed suit for annulment in the county Feb. 27. Anderson's attorney last month asked for a sanity commission of psychiatrists to determine if Anderson was mentally fit to stand trial. The request was denied.

Anderson was placed on probation less than a year ago for taking a plane from an airport in Plymouth, where he formerly lived.

Birmingham Man Eyes Draft Move

A Birmingham conservative leader today disclosed plans for a "draft Goldwater" demonstration at the Conservative Federation of Michigan convention Saturday at Holt.

Arthur J. Brandt Jr., 812 Kensington, chairman of the Oakland Conservative Club and of the convention committee for the state group, revealed the plans to boost Sen. Barry Goldwater, R-Ariz., for the 1964 Republican presidential nomination.

"We do not intend to preempt the leadership of the Goldwater for president movement in Michigan," Brandt said.

"But our people are insisting that organizational work be started immediately, and they are going to demonstrate to that purpose at our convention," he said.

"When the structure of the Michigan committee is announced from national headquarters in Washington, we will be very happy to join the official organization under that leadership."

The Federation is scheduled to elect officers and directors at a closed-door session in the morning.

U.S. Rep. August E. Johansen, R-Battle Creek, will be the principal speaker at a public session later in the day.

Sleeping Pill Overdose Cause Woman's Death

An autopsy performed on the body of a woman found dead in her motel room yesterday revealed that she died of an overdose of sleeping pills, according to the sheriff's department.

Mrs. Thelma R. Main, 37, was found in bed by her husband James in their apartment at the Pontiac Lake Motel, 8240 Highland road, White Lake Township, about 10 a.m.

Flight Schedule at a Glance

CAPE CANAVERAL, Fla.—(UPI) — L. Gordon Cooper's space flight at a glance:
Blas-off: At 8:05 a.m. (Pontiac time), yesterday from Cape Canaveral.

Goal: 22 orbits of the earth over a span of slightly more than 34 hours; longest U.S. space flight yet, about 575,000 miles.

Splashdown: Approximately 8:23 p.m. (Pontiac time) today in Pacific near Midway Island if flight goes planned 22 orbits.

Purpose: Essentially to find out effects of weightlessness on humans over prolonged period, opening the way for more advanced U.S. space projects — the two-man Gemini flight and the Apollo program to land the first Americans on the moon.

PERFORMANCE
Performance: Both Cooper and his capsule were operating with "textbook perfection."

Comparison: Cooper, whizzing through space at a velocity close to 18,000 miles per hour, has rendered almost insignificant the speeds at which man, until the space age, has traveled.

Some comparative speeds are:
On Earth
Columbus crossing Atlantic Ocean—45 days.
Nelly Bly's 1889 trip around the world — 72 days.
Train from New York to Chicago—2 hours.
Jet plane from East to West Coast, 4 hours, 30 minutes.
Cooper In Space
11 minutes.
88 minutes.
Under 3 minutes.
10 minutes.

Birmingham Mayor Blasts Integration

From Our News Wires
BIRMINGHAM, Ala. — Mayor Art Hanes called upon citizens of this racially torn city last night to repudiate an agreement between a group of businessmen and Negro leaders to desegregate downtown stores.

"It is time to stand firm and back your city government, which has pledged to resist forced integration," Hanes told a crowd of about 600 persons at the city auditorium.

He said the "Senior Citizens" group which negotiated the agreement was "a group of fuzzy-minded liberals, pinkos and Reds mixing in there with the blacks and whites."

The group of about 60 of Alabama and Birmingham's top business and industrial leaders yesterday had urged citizens to accept the agreement which "violates no law (and) binds no one."

State Board Plans Probe at Eastern

LANSING (P) — The State Board of Education announced today it will begin a thorough investigation of administrative organization and policies at Eastern Michigan University in Ypsilanti.

Chris Magnusson, president of the board, said the inquiry will be based on a report by a team of outside consultants which found extensive "internal problems" at the school.

A study of Eastern Michigan's performance as a state university was launched last January by four representatives of the North Central Association of Colleges and Secondary schools.

Michigan colleges and high schools are accredited by the North Central Association, and Magnusson's statement hinted that EMU might be in danger of losing its accreditation.

"Conditions at Eastern have been of concern to the board of education for some time," Magnusson said.

He explained that the North Central Association consultants were asked to "assess the current status of Eastern, with particular reference to certain allegations which had been made concerning student and faculty morale and the management of the university."

The full report of the consultants will not be made public, Magnusson said.

The board's investigation of Eastern Michigan will involve three steps, Magnusson said, the first of which will be to discuss the consultant report with Dr. Eugene Elliott, president of the university.

This will be followed by a detailed, careful and thorough study of the administrative organization, procedures, university policies and their enforcement.

"Thirdly," said Magnusson, "the board will implement the recommendation of the panel that a complete study be made beginning with a self-examination by the university next fall."

"This will be followed a year later (1965) with examination by a team of consultants from the North Central Association to determine the accreditation status of the institution."

Cooper is operating with "textbook perfection."

Cooper Gets Go Sign for 22 Orbits

MRS. WILLIAM E. BRACE

Woman Gets Top UF Post

Mrs. William Brace Named Chairman

Mrs. William E. Brace, of 290 W. Iroquois, has been named chairman of the women's campaign committee of the 1963 Pontiac Area United Fund campaign. The appointment was announced today by E. M. Estes, general chairman of this year's drive, which is scheduled to start October 15.

In the months preceding the actual solicitation Mrs. Brace will be in charge of selecting chairmen from Pontiac, Waterford Township and Lake Angelus who will assist her in recruiting and training more than 1,200 women volunteers for the 10-day residential campaign.

Last year the women's campaign committee raised \$25,837, or 105 per cent of its goal. No goal has been set for this year's drive at this date.

A native of Pontiac, Mrs. Brace graduated from Kingswood School of Bloomfield Hills and attended the University of Michigan where she joined the Gamma Phi Beta sorority.

She is vice president of the Needlework Guild of America in Pontiac, member of All Saints Episcopal Church, and a member of the Tuesday Musicale, the Pontiac Pannellian Association, Beta Theta Phi and Town Hall.

An active United Fund worker in the past, she has served as a UF solicitor on numerous occasions.

Astronaut Circles Globe Once in 88.45 Minutes

CAPE CANAVERAL (UPI) — Statistics on L. Gordon Cooper's space flight:

- Orbital speed: 17,546 miles per hour.
- Time of orbit: 88.45 minutes.
- High point: 165.8 miles.
- Low point: 100.2 miles.

Birmingham Mayor Blasts Desegregation

Seeks Repudiation of Agreement by Merchants, Negroes

From Our News Wires
BIRMINGHAM, Ala. — Mayor Art Hanes called upon citizens of this racially torn city last night to repudiate an agreement between a group of businessmen and Negro leaders to desegregate downtown stores.

"It is time to stand firm and back your city government, which has pledged to resist forced integration," Hanes told a crowd of about 600 persons at the city auditorium.

He said the "Senior Citizens" group which negotiated the agreement was "a group of fuzzy minded liberals, pinkies and Reds mixing in there with the blacks and whites."

The group of about 60 of Alabama and Birmingham's top business and industrial leaders yesterday had urged citizens to accept the agreement which "violates no law (and) binds no one in the white community except the businesses involved."

The group advised citizens "to appraise the cost to him or her of more thoughtless acceptance of violence or hate."

Names of the group were disclosed last night amid roars of a boisterous boycott of stores by white persons opposing the bi-racial agreement.

"WILL STICK" Both white and Negro leaders say they will stick to the agreement despite efforts to influence white shoppers to boycott downtown merchants.

In Montgomery, Gov. George C. Wallace, an avid segregationist, accused President Kennedy of setting up a military dictatorship by sending special troops into Alabama for possible use in Birmingham.

The governor promised to file a suit in federal court to test the legality of the President's order.

Elsewhere, Negroes staged another big demonstration in North Carolina last night in a protest against segregation at restaurants and theaters.

Biracial committees at Nashville, Tenn., and Raleigh, N. C., continued, working toward a solution of racial problems in those capital cities.

STUDENTS MARCH

An estimated 1,500 Negro college students marched at Greensboro, N. C., in attempts to integrate restaurants and theaters in that textile city which gave birth to the sit-in movement against lunch counter segregation.

There was no violence. Police arrested 200 demonstrators on trespass charges. Some of the Negroes were carried bodily to paddy wagons from the establishments after they refused requests to leave.

Ground Breaking Set on Pontiac's Perimeter Road

City officials and the State Highway Department today announced that ground breaking ceremonies for Pontiac's \$3.5-million perimeter road will be held May 22 at 11 a. m. in front of City Hall.

City Manager Robert A. Stierer said that State Highway Commissioner John C. Mackie along with highway department officials and city commissioners would participate in the long awaited event.

ALL'S UNDER CONTROL — Walter Williams, Mercury project launch director, leans back with hands behind his head in Mercury Control Center at Cape Canaveral as the center keeps a check on the progress of astronaut L. Gordon Cooper in his multiorbit space flight.

Capsule, Carrier on Target?

Sharpshooter Act Set in Ocean

From Our News Wires
ABOARD THE USS KEARSARGE—The greatest sharpshooting act since William Tell premiered today in the mid-Pacific.

Shortly before curtain time on Broadway, man will attempt to hit a slow moving ship with a 17,500-mile-an-hour projectile fired from twice the distance to the moon.

'Increase Funds for Townships'

Supervisors Ask Hike in County Tax Share

More tax dollars as an antidote for growing pains were sought yesterday by most of the townships in Oakland County.

The plea was repeated by the supervisors of most of the 24 townships when they appeared before the County Tax Allocation Board.

More tax dollars must be applied locally, they said, to provide adequate police and fire protection, safe sewage systems and sufficient water in growing communities.

The strongest plea came from townships that are rapidly becoming more urbanized with the springing up of new subdivisions and shopping centers.

VOLUNTAROUS BUDGETS

The supervisors came equipped with voluminous budgets which they presented to the tax allocation board to verify their requests.

The board began hearings yesterday prior to splitting the 15-mil county tax levy four ways — for township governments, school districts, county government and the County Board of Education.

Yet to be heard from are school and county officials who will present their budgets and make verbal requests for millage with in the next two days.

The board comprises Chairman William H. Taylor Jr., past chairman James L. Gardner, members Charles A. Sparks, John C. Austin, William J. Emerson and James Ludwick.

Taylor is a Pontiac city commissioner; Gardner is a former Commerce Township Supervisor; Sparks is county treasurer; Austin is chairman of the County Board of Auditors; and Emerson is director of the County Board of Education.

Ludwick of 2241 S. Christian Hill, Avon Township, is a citizen-member appointed by Probate Court, as are Taylor and Gardner.

Best estimates are that they will have \$33 million in county taxes—under the 15-mil limit—(Continued on Page 2, Col. 5)

The projectile is the Faith 7 carrying astronaut L. Gordon Cooper, who is attempting to merge 22 days into 22 nights in 34 hours.

An all-male selected audience of 2,156 — the crew of the Kearsarge — will attend the premier.

Should astronaut Cooper score a near miss, his audience will be even more select, totaling less than 250 — the complements of the destroyers Fletcher and Bole, which range 80 miles on either side of target Kearsarge.

Clarkston Pilot Awaits Coop Aboard Ship

A young Navy pilot from Clarkston may be the first to congratulate astronaut L. Gordon Cooper on his return to earth.

The job of plucking Cooper safely from the sea could possibly go to Lt. Clyde R. Kizer, aboard the U.S. carrier Kearsarge in the Pacific Ocean recovery area.

Kizer, son of Mr. and Mrs. Maynard J. Kizer, 80 N. Main, was one of several pilots selected last week to take part in the recovery from the Kearsarge.

A graduate of Clarkston High School and Eastern Michigan University, Kizer, 25, received his wings at Pensacola Naval Air Station, Fla. He has been in service 2½ years.

Now living in Imperial Beach, Calif., Kizer is married and has a one-year-old daughter.

He stationed at Ream Field with the Sixth Helicopter Squadron.

Kizer's father, a Royal Canadian Air Force pilot during World War II, is with the standards division of Pontiac Motor.

Mild Temperatures; Showers Possible

There's a chance of a few showers late tonight or Friday according to the U.S. Weather Bureau report.

Temperatures will continue mild, the low falling to 50 tonight and the high registering near 72 tomorrow. Saturday's outlook is fair and a little cooler.

Morning winds light and variable will become southeast to east at 10 to 12 miles per hour tonight and tomorrow.

The low recording in downtown Pontiac preceding 5 a. m. was 48. The mercury had climbed to 69 at 1 p. m.

News Flash

PORTSMOUTH, N. H. (P) — An oceanographic scientist said today photographs have been obtained of what appears to be debris on the ocean bottom where the nuclear submarine Thresher is believed lost with 129 men.

To Touch Down Near Midway This Evening

Given Green Light Shortly After Ending Nap Aboard Craft

More Stories, Pictures, Page B-8

By BEM PRICE
CAPE CANAVERAL, Fla. (P)—Astronaut Gordon Cooper, a superbly performing space pilot, sped on toward completion of his marathon 22-orbit flight today, heading for an afternoon splashdown in the Pacific Ocean.

With astronaut and spacecraft in excellent working order, Mercury control center flashed the good word to Cooper during orbit No. 16 that he had the green light to go all the way.

If there is no emergency hitch, the reverse rockets on Cooper's

CAPE CANAVERAL, Fla. (P) — Astronaut L. Gordon Cooper's Faith 7 spacecraft ended its 17th earth orbit over the Atlantic Ocean east of Georgia at 10:54 a. m. (Pontiac time) today and sped into No. 18.

Faith 7 capsule are to be fired east of Shanghai, China, about 6:03 p. m. (Pontiac time) and be to begin a gradual descent to a parachute landing in the Pacific 80 miles southeast of Midway Island.

Touchdown time was scheduled about 6:23 p. m. (Pontiac time)—12:23 p. m. Midway time.

A large Pacific recovery force, headed by the carrier Kearsarge, waited in the area.

The Kearsarge hoped to improve on its record of last Oct. 3, when it had astronaut Walter Schirra on board just 42 minutes after he landed some 9,000 yards from the craft.

Cooper was waved on for the full flight not long after he awoke after a good night's sleep. Then he went into action as a camera bug.

ROBOT CAMERA

Over the Indian Ocean he pulled out a 35mm robot still camera with a fast lens to photograph the zodiacal light, a weird glow visible on the horizon in the east before sunrise and after sunset.

Scientists believe the color picture will prove a theory that the phenomena is caused by the sun's rays reflecting off dust clouds.

"Hello down here! Did I wake (Continued on Page 2, Col. 3)

COFFEE BREAK — Mrs. Hattie Cooper, mother of astronaut L. Gordon Cooper, takes time out for a cup of coffee during her son's history-making orbital flight. She's celebrating her 63rd birthday today.

Wife, Girls Prepare for Meeting With Hero

FROM OUR NEWS WIRES
TAYLOR LAKE VILLAGE, Tex.—Mrs. L. Gordon Cooper and her daughters broke out their luggage today and booked passage on a jet plane to Hawaii.

They plan to join astronaut Cooper at Honolulu after he comes down. Mrs. Cooper awoke at 5:45 a. m. (Pontiac time) about the time her husband awoke him, self from a sound sleep in his Faith 7 spacecraft.

An hour later, Mrs. Cooper awoke her daughters, Camala, 14, and Janita, 13. Jan prepared a breakfast of scrambled eggs and toast.

They plan to leave Houston tomorrow on a flight which will take them to Los Angeles. They will leave Los Angeles for Honolulu later in the day.

Although they took their luggage out of storage, they did not start packing immediately. Hawaiian leis were expected to be delivered to the Cooper home later today.

Mrs. Cooper and the girls tried to listen to Cooper's voice on a special radio receiver as he made his 16th orbit but failed to hear anything intelligible.

At Tecumseh, Okla., Mrs. Hattie Cooper is celebrating her 63rd birthday, and as a present she could ask for nothing more than the safe return of her son from his journey through space.

PICKS UP KNITTING

Mrs. Cooper picked up her knitting again last night "to keep me from pacing the floor."

She planned to work on an afghan from time to time during the remainder of the historic space flight of her only son, Gordon Cooper.

After the excitement of the launch began to subside yesterday (Continued on Page 2, Col. 6)

OU Given \$120,000 for Lab

A \$120,000 grant from the Charles F. Kettering Foundation for the construction and operation of a magnetism laboratory at Oakland University was approved today by the Board of Trustees.

The grant will make possible a cooperative venture in magnetism research with General Motors Corporation's Research Laboratories.

The board, which governs Michigan State University and Oakland University, formally accepted the grant at its monthly meeting on the MSU campus this morning.

One half of the grant will be used to construct a Kettering Magnetism Laboratory on the Oakland campus, which will mean the relocation of the equipment at the Dayton, Ohio, magnetism laboratory.

The other half of the money will be paid over a five-year period. This money will enable the university to add a member to its physics faculty qualified to work in the magnetic area.

General Motors is currently conducting experimental work in the present Kettering laboratory. Gifford C. Scott, GM researcher, will work with the university on new projects.

The laboratory will be designed to permit precise and delicate measurements of the motion produced in suspended pieces of metal when put in a magnetic field.

The tiny motion, when measured, gives clues to the properties and possible uses of the metals.

Since the earth's magnetic field must be cancelled out, the new building will be constructed without nails of steel or other ferromagnetic materials.

The building will be constructed in the shape of an elongated T to minimize interference from any other equipment.

A magnetic vacuum will be produced in the building. The vacuum will be so perfect that a zipper in the researcher's clothing will be an interference. Automobiles will be parked 300 feet away from the building.

Flight Schedule at a Glance

were operating with "textbook perfection."	
Comparison: Cooper, whizzing through space at a velocity close to 18,000 miles per hour, has rendered almost insignificant the speeds at which man, until the space age, has traveled.	
Some comparative speeds are:	
On Earth	Cooper In Space
Columbus crossing Atlantic Ocean—46 days.	11 minutes.
Nelly Bly's 1889 trip around the world — 72 days.	88 minutes.
Train from New York to Chicago—2 hours.	Under 3 minutes
Jet plane from East to West Coast, 4 hours, 30 minutes.	10 minutes
Performance: Both Cooper and his capsule	

Killer Receives Life Sentence

JACKSON (AP) — Larry Lee Hanley was sentenced to life in prison yesterday for the murder of Mrs. Joan Watkins, 28, of Wampler's Lake, last Feb. 17.

"I guess I deserve it," said Hanley, 23, of Napoleon. Showing his first sign of remorse during the trial, the former construction worker said "I realize I've done wrong."

Hanley was convicted Tuesday of first-degree murder by Circuit Judge John Simpson.

Delivering the mandatory sentence, Simpson said Hanley had violated "two basic rules we try to live by: Thou shalt not kill, and thou shalt not commit adultery."

"You went out with a bad purpose in mind, with a gun you should not have had," the judge told Hanley. The judge said he believed Hanley shot the housewife as she tried to escape.

Funeral Service Is Set for Ex-State Official

LANSING (AP) — Funeral service has been set for tomorrow for Horace B. Corell, 86, who died here yesterday.

He was deputy state insurance commissioner for 30 years and served as acting commissioner in 1943.

Colburn Viewed Victor as Insurance Controversy Cools

DETROIT — State Insurance Commissioner Sherwood Colburn and Michigan Medical Service (Blue Shield) ended their 16-day court battle yesterday, agreeing to let Wayne County Circuit Judge Theodore R. Bohn set a premium increase in Blue Shield rates.

The agreement, which must be approved by the Blue Shield board of directors, was viewed as a victory for Colburn.

Blue Shield officials recognized the authority of the insurance commissioner to set future rates, agreed to make several changes in its operations — which had been sought by Colburn — and agreed to meet with Colburn at least once a month to discuss other possible changes.

The agreement ended a Circuit Court lawsuit filed by Colburn April 30 in an attempt to prevent Blue Shield from raising its rates 19.3 per cent on June 1.

The dispute began last month when, after failing twice to win Colburn's approval of rate in-

creases, Blue Shield announced it would raise rates 19.3 per cent on June 1 without the commissioner's approval.

It contended Colburn's approval was not needed under Michigan law.

Colburn's lawsuit will be withdrawn if the directors approve yesterday's agreement.

Judge Bohn said he will determine the amount of the increase after hearing testimony next week about the financial condition of Blue Shield.

AGREEMENT PROVISIONS
The agreement provides that the increase will not be less than 12 per cent or more than the 22.9 per cent originally sought by Blue Shield.

Judge Bohn's decision is binding on both Blue Shield and the insurance department, under the terms of the agreement.

Judge Bohn will decide what will be done with any money already paid by subscribers if the increase is less than the 19.3 per

cent that Blue Shield has billed its customers.

The following points—some of which had been accepted in principle by Blue Shield — were agreed upon:

• Osteopaths and podiatrists (foot ailment practition-

ers) will be taken into the Blue Shield program as participating physicians.

• Senior citizens and non-group enrollment will be permitted when Blue Cross (Blue Shield's companion hospital insurance program) again opens these enrollments. Blue Shield

had refused to enroll any new members in these categories the controversy began.

• Blue Shield will maintain the present makeup of its 35-member board of directors, at 60 per cent doctors and 40 per cent public representatives, including hospital administrators.

Blue Shield will revise its contracts in regard to fees paid to "participating" and "nonparticipating" doctors.

Nonparticipating doctors will agree to accept Blue Shield payments as full fee for work done for subscribers in lower income

groups, or else the Blue Shield payment will go to the patient.

Colburn said he will recommend to Gov. George Romney that a law be passed giving the public a majority on the Blue Shield board.

The commissioner said he

was completely satisfied and very much pleased with the agreement.

Frank O. Starr, deputy director of Blue Shield, also expressed satisfaction with the agreement.

The board is slated to meet next Wednesday night.

Wrangle Over Home

FORT WORTH, Tex. (AP) — Lawyers are wrangling in U.S. Tax Court over a \$500,000 luxury home in Dallas which has door chiming playing "When the Saints Go Marching In."

Builder-owner Martin Mayrath erected the dwelling in the middle 1950s. It also boasts glass-walled bathrooms and a six-car garage. Judge Howard A. Dawson Jr. of Washington is hearing a request by Mayrath that the Internal Revenue Service review claims that he and his former wife owe \$81,406.50 in income taxes for 1955 through 1957.

The IRS disputes a Mayrath claim that he's entitled to \$147,797 tax credit on the total cost of the house. Mayrath testified he's

due this credit for research demonstrating his ideas about the use of concrete, glass and plastics in home construction.

X15 Test Has 1-Degree Error in Flight Angle

EDWARDS AIR FORCE BASE, Calif. (AP) — There was a slight error—one degree in the flight angle—as the X15 research plane rocketed through the sky on a friction-heat test.

The plane hit an estimated 3,886 miles per hour and reached an altitude of 123,000 feet—186 m.p.h. faster and 25,000 feet higher than planned. The one-degree error was blamed.

But it didn't affect the experiments performed by the ship, which was equipped Wednesday with a small probe which pops from the fuselage to measure the airstream flow past the speeding plane. The readings obtained are to be used in determining the rate at which stainless steel plane skins can be expected to heat from air friction.

Piloting the X15 on the 11-minute flight was John McKay of the national space agency.

Coop's Pay for Mission

Totals \$1.32 Per Hour

WASHINGTON (UPI) — Maj. L. Gordon Cooper will get \$44.88 from the Air Force for a 34-hour orbital flight — including space pay.

The Air Force said that the astronaut's monthly pay is \$282.93, consisting of \$570 base pay, \$145.65 quarters allowance, \$47.88 for subsistence and \$250 for flight pay, which works out to \$31.70 a day or \$1.32 an hour.

BASHFUL BEARCAT

To tall glass, add ice cubes or cracked ice. Add 2 ozs. frozen orange juice and 5 ozs. Cash Sau-terne Wine. Swirl to taste. Stir. Garnish with maraschino cherry and orange slice. Serve with straw.

SARDINE PATE — For that very special party begin with a very special new appetizer. A pate is a pleasing way to spark appetites and for a variation serve Sardine pate. It's made conveniently ahead with canned sardines and cream cheese with perky seasonings. You'll be extra pleased with the fine flavor.

Pate Is a Fine Beginning to Delightful Dinner

The hostess with new and different recipe ideas is the one who has the reputation for giving wonderful dinners and parties. And there are many such new recipes with which to delight your guests each time you entertain.

For the appetizer to begin your next dinner party choose Sardine Pate. Serve it with crackers and lemon wedges—it's just the taste to spark appetites. The recipe has another plus, too—it's an easy to prepare do-ahead dish.

Sardine Pate
2 cans (3 1/4 to 4 oz. each) sardines
1 pkg. (8 oz.) cream cheese
1 tablespoon lemon juice
1/2 cup minced parsley
1 small onion
Dash hot pepper sauce
Assorted crisp crackers, snack

Add Strawberry Mix for Pink Pancakes

Space-minded youngsters will flip over Flying Saucers for breakfast — easy to make pink pancakes. To recipe on box of your favorite pancake mix, add 1/4 cup quick strawberry-flavored mix and 1 teaspoon lemon juice for each cup pancake mix.

Cook as directed, serve with butter and syrup. Accompany with a glass of milk flavored with the same delicious quick strawberry-flavored mix.

Into 1/2 cup cottage cheese, gradually stir 1/2 cup corn oil French dressing. Serve on fruit salad.

rye bread, melba toast or salines

Lemon wedges
Mash drained sardines. Mix with softened cream cheese, lemon juice, paprika, parsley, grated or finely chopped onion and hot pepper sauce. Mix thoroughly. Chill several hours or overnight to blend flavors.

Serve with lemon wedges and assorted crackers, snack rye bread, melba toast and salines. About 2 cups spread.

Seed Crackers Coat Chicken Before Baking

Baked chicken is a favorite buffet dish. Here the delicious flavor comes from coating it with crushed sesame crackers.

2 broiler chickens, cut up
2 to 2 1/2 cups sesame crackers, crumbs, finely rolled
3 eggs, beaten
3 tablespoons water

Roll chicken pieces in half of the cracker crumbs. Combine eggs and water. Dip crumb-coated chicken pieces quickly, then roll in remaining crumbs.

Place pieces in a baking dish or pan lined with aluminum foil. Cover pan tightly with aluminum foil. Freeze.

When ready to use remove cover. Bake in a moderate oven (350 degrees) about 1 1/2 hours. Makes 6 to 8 servings.

Beans Are Best if Slow Baked

This recipe comes from "Easy-on-the-Cook Book" (Iowa State University Press) compiled by Chicago home economists. If you enjoy Western-style sweet baked beans, this rule is for you!

Best Ever Baked Beans
2 pounds navy beans
1 teaspoon baking soda
1 large onion, quartered
1/2 pound salt pork, sliced or cut in chunks
1/2 cup molasses
1/2 cup firmly packed brown sugar
1 tablespoon salt
2 teaspoons dry mustard
1 bottle (11 or 12 ounces) chili sauce
1 tablespoon mild vinegar

Cover beans with warm water; soak several hours or overnight. Drain; add fresh water to cover and baking soda. Bring to boiling; cook for 10 minutes; drain.

Add fresh boiling water to cover and cook gently until skins on beans will crack when blown upon. Drain liquor and save.

Pour beans into bean pot; bury onion in beans. Parboil salt pork about 5 minutes; drain and brown slightly. Bury some of pork in beans and arrange some on top.

Blend remaining ingredients; pour half over beans; add enough of saved liquor to cover beans. Bake in 250 degree oven 3 to 4 hours, adding remaining sauce mixture at intervals and more of the liquor, or water as needed. 10 to 12 servings.

Wirtz Claims Rails Will Avert Walkout

NEW YORK (AP)—Secretary of Labor W. Willard Wirtz predicts that a nationwide railroad strike threatened for June will be averted by the carriers and railroad unions.

The railroads and the operating brotherhoods are at odds over the carriers' intention to overhaul work rules to eliminate what the lines say are unnecessary jobs.

Wirtz spoke Wednesday at a conference on automation sponsored by the American Foundation on Automation and the New York City Central Labor Council.

Mackinac Bridge Cut Set for Big Spenders

ST. IGNACE (UPI)—The Mackinac Bridge Authority, starting July 1, will offer a 50 per cent discount to companies spending more than \$5,000 a month in tolls.

"The primary purpose of the discount is to encourage present bridge users to increase their volume," the authority said.

JFK, First Lady Grow Fond of Camp David Retreat

WASHINGTON (AP)—President and Mrs. Kennedy have "discovered" and grown to love what may be the only place in the world where the nation's first family can enjoy complete privacy.

This unusual retreat is Camp David, Md., a Navy-operated reservation site one of the Catskill Mountains some 60 miles north of Washington.

Although three earlier presi-

dents used the camp, Kennedy and his family only began making regular visits this spring—more or less as a matter of necessity. But now they can hardly tear themselves away, even to go to the usual Kennedy summering spot at Hyannis Port, Mass.

REASON FOR DELAY

The first family's newly found love of Camp David was understood to be an important factor

in Mrs. Kennedy's decision, announced Wednesday, to delay her summer trip to Hyannis Port from May until late June or July.

Here is perhaps the principal reason why the Kennedys have come to look forward to their weekends at Camp David:

The heavily wooded reservation encompasses 129 acres surrounded by high-wire fences closely patrolled by armed Marine guards. This means that, within the vast compound, Kennedy and members of his family can roam freely without Secret Service agents at their elbows—or even within sight.

That's why Camp David may be the only place in the world where an American president can walk for miles and never see another human being.

MANY FACILITIES

In addition to this rare privacy, the camp affords a wide variety of recreational facilities for the President and his family. There is an athletic field, a swimming pool,

two tennis courts, a bowling alley, a multiuse, one-hole golf course and a speed shooting range.

And there is Aspen Lodge, a large rustic home with a glassed-in porch, outdoor terrace and eye-catching view of mountains and valleys.

The Kennedys began going regularly to Camp David because they lost their lease on their Glen Ora weekend estate near Middleburg, Va., before construction of their own new home a few miles

away, near Atoke, Va., was completed.

Pierre Salinger, White House press secretary, said President and Mrs. Kennedy do plan to spend some time soon in their new home on Rattlesnake Mountain before leasing it out for the summer to Mr. and Mrs. A. Dana Hodgdon of Washington.

But it was apparent that on most weekends until July 1 the Kennedys will be enjoying the unusual privacy of Camp David.

Honolulu Officer Gets Award

MIAMI BEACH, Fla. (AP)—A Honolulu police sergeant whose specialty is life-saving will receive the National Police Officers Association medal for valor.

Sgt. Edwin I. Adolphson, 46, father of three children, was named to the award and the association's hall of fame at its biennial convention Wednesday night.

Association officials said Adolphson was credited with rescuing more than 100 persons, most of them from drowning, in seven years. He has put \$10,000 of his own funds into rescue equipment and has not taken a day of leave in the seven-year period, his citation said.

ART REJECT DISPLAYED — "Ex-Beauty-Dead Horse", a life-sized welded-steel construction of a woman standing on a dead horse, is on display on a lawn in Kansas City. The creation by James Sterritt, a sculptor in Lawrence, Kan., was not accepted at an exhibition, so a friend installed it in his front yard.

Ferency Announces

State Dems Owe \$260,000

LANSING (AP)—Michigan Democratic State Chairman Zolton is \$260,000 in printing expenses, Ferency revealed yesterday that the state party was \$260,000 in debt.

"We're asking our regular suppliers to hold off, with a promise we will not run up any additional debt and we'll start paying cash June 1," Ferency said.

Since Ferency started an economy drive, the monthly telephone bill has been cut in half and the staff has been reduced by one-third, he said.

"I'm going to make it very blunt and ask Democrats to bail heard figures of \$100,000 and their party out of hock before the 1964 election campaign starts," he said.

He said he ordered the audit of party obligations after he "had heard figures of \$100,000 and their party out of hock before the 1964 election campaign starts," he said.

Reveal Plans for Goldwater

Birmingham Man Eyes Draft Move

A Birmingham conservative leader today disclosed plans for a "draft Goldwater" demonstration at the Conservative Federation of Michigan convention Saturday at UH.

Arthur J. Brandt Jr., 812 Kensington, chairman of the Oakland Conservative Club and of the convention committee for the state group, revealed the plans to boost Sen. Barry Goldwater, R-Ariz., for the 1964 Republican presidential nomination.

"We do not intend to present the leadership of the Goldwater" for a president movement in Michigan," Brandt said.

"But our people are insistent that organizational work be started immediately, and they are going to demonstrate to that purpose at our convention," he said.

"When the structure of the Michigan committee is announced from national headquarters in Washington, we will be very happy to join the official organization under that leadership."

The Federation is scheduled to elect officers and directors at a closed-door session in the morning.

U.S. Rep. August E. Johansen, R-Battle Creek, will be the principal speaker at a public session later in the day.

Unit to View Way to Halt Water Tank

Lake Oakland Heights Association members will gather tonight to outline a course of action in their bid to deter construction of a water tank in their area.

Paul G. Valentino, an attorney retained by the area's residents, will lead the group's legal position at the 7:30 meeting at the subdivision association beach on Lake Oakland.

Waterford Township Board members Monday reaffirmed plans to locate the tank at Walton and Main.

Valentino, who was present at the board meeting, indicated that the association would take legal action against the township.

He referred to the proposed 750,000 gallon tank as a nuisance which would cause property values to depreciate in Lake Oakland Heights.

Gordo's Drink: 'Black Tea'

PERTH, Australia (AP) — Crossing the West Australian coast between Onslow and Roebourne on his 14th orbit, astronaut L. Gordon Cooper woke up at his own accord tonight.

Cooper called Muecha and capsule communicator Charles Lewis is asked him how he had slept. Cooper replied:

"Very good."

Lewis asked him jokingly if he liked his coffee white or black and the astronaut replied, "I'll take black tea, thank you."

Enigma to Scientists

Gulf Stream Keeps Secrets

WASHINGTON — The Gulf Stream has given up very few secrets since it was discovered by Ponce de Leon 450 years ago.

The romantic conception of the Stream pictures a warm, blue, swirling ocean river that saves Iceland, the British Isles, and northern Europe from turning into a setting for polar bears.

To oceanographers, it is an enigma, the National Geographic Society says. Serious study of the Gulf Stream began recently as 1944, and intensive research with modern scientific tools suggests that it contains deeper mysteries than were suspected.

One recent expedition discovered, for instance, that off Florida, the Stream seems to have a pulse which makes the water flow in repeated thrusts like blood in an artery.

DYNAMIC BARRIER

Some oceanographers no longer think of the Gulf Stream as a great river snaking across the North Atlantic. They regard it, rather, as a barrier separating cold arctic waters from the warm Sargasso Sea.

"The intensity of flow of the Stream, the Stream's direction, and its temperature are not primary climatic factors in determining the climate of Europe," writes Henry Stommel, of Woods Hole Oceanographic Institution, in his comprehensive book "The

Paradoxically, Europe would become colder — not hotter — if the Stream stopped flowing to flow faster. The effect would not be to carry more warmth but to tighten the barrier about the Sargasso.

It takes a surprisingly narrow course up the Atlantic coast past Newfoundland, then breaks into a series of branches known as the North Atlantic Current.

One branch curves back under the icebergs from Davis Strait. Some branches shoot off past Scandinavia, others turn south to Spain and Africa.

The fastest current ever found in open sea — almost 11 miles an hour — was measured off Florida in the Gulf Stream.

In contrast, a normal current lazes along at a pace of 1/2 mile to a mile, and as a rule the Gulf Stream seldom exceeds four to five miles an hour.

Paradoxically, Europe would become colder — not hotter — if the Stream stopped flowing to flow faster. The effect would not be to carry more warmth but to tighten the barrier about the Sargasso.

It takes a surprisingly narrow course up the Atlantic coast past Newfoundland, then breaks into a series of branches known as the North Atlantic Current.

One branch curves back under the icebergs from Davis Strait. Some branches shoot off past Scandinavia, others turn south to Spain and Africa.

The fastest current ever found in open sea — almost 11 miles an hour — was measured off Florida in the Gulf Stream.

In contrast, a normal current lazes along at a pace of 1/2 mile to a mile, and as a rule the Gulf Stream seldom exceeds four to five miles an hour.

Deaths in Pontiac, Neighboring Areas

MRS. MARVIN ARBERY
Service for Mrs. Marvin (Myrtle) Arbery, 41, of 595 Montana, will be at 1:30 p.m. tomorrow in New Hope Baptist Church with burial in Oak Hill Cemetery.

Mrs. Arbery died Monday after a brief illness. She was a member of Zion Baptist Church in Camden, Ark.

Surviving are her husband; a son Joseph Simpson of Pontiac; and a sister, Amenta Williams, and a brother John H. Williams, both of Pontiac.

Arrangements are by the William F. Davis Funeral Home.

MRS. RICHARD E. BROWNELL
Service for Mrs. Richard E. (Cleo F.) Brownell, 65, of 451 S.

UNITED NATIONS, N. Y. (UPI) — United Nations delegates today turned to private talks behind the scenes to seek a compromise solution for the organization's multimillion dollar financial troubles.

Secretary General Thant warned the assembly's Budgetary Committee yesterday that the financial problem is perhaps the most serious one facing the United Nations.

"Despite the various measures that have been taken, the unhappy fact remains that the organization continues in a state of serious financial difficulty," he said.

The Budgetary Committee, instructed to find a better way to pay for the U.N. peace-keeping missions in the Congo and Middle East, recessed until Monday after its opening session yesterday.

The recess will give delegates time for private consultations.

The deficit now totals nearly \$100 million. It is caused by the failure of the Soviet Bloc, France, South Africa, Portugal and some other countries to pay their share of the peace-keeping costs.

The consultations are aimed at reconciling the positions of the developed countries and the underdeveloped countries.

The latter, a majority of the 111 U.N. member nations, wanted the big powers to contribute more, but have run into opposition.

Manager Retires at Jackson Paper; Pick Successor

JACKSON (AP) — George M. Cowden, manager of the Jackson Citizen Patriot since 1946, yesterday announced his retirement effective June 30.

Cowden, a Citizen Patriot employee since 1915, began his career in the newspaper's circulation department. Prior to his appointment as manager, Cowden served as cashier from 1920 to 1931 and as circulation manager from 1931 until 1946.

George E. McCullum Jr., executive vice president of both newspapers, Inc., publisher of Citizen Patriot, announced the appointment of L. William Shurtliff, advertising director of the Ypsilanti Press, as Cowden's successor.

The seal herd in the Pribilof Islands in the Bering Sea, the last great one known to exist, has increased to a population of one and a half million.

Telegraph will be 1 p.m. Saturday in Sparks-Griffin Chapel with burial in Avon Cemetery, Rochester.

Mrs. Brownell died yesterday after a brief illness. She was a member of Welcome Rebekah Lodge No. 246, Order of Eastern Star, Chapter 228, and the 500 Club.

Surviving besides her husband are a son Ralph of Pontiac; two daughters, Mrs. Gervase Klein and Mrs. Andrew Hoehn, both of Pontiac; 10 grandchildren; seven great-grandchildren; three brothers, Guy Wilson of Flint, Norman of Lake City and Lloyd of Auburn Heights; and two sisters, Mrs. Asenath Stevens and Mrs. Leila Weisenberger, both of Pontiac.

Arrangements are by the William F. Davis Funeral Home.

JESSIE W. LANCASTER
Service for Jessie W. Lancaster, 56, of 166 S. Sanford, will be 3 p.m. Saturday in the Erwin Funeral Home, Somerville, Ga.

Arrangements are by the D. E. Pursey Funeral Home.

Mr. Lancaster, an employee of Chevrolet Gear & Axle Co., Detroit, died yesterday after a five-week illness.

Survivors include his wife, Hettie; three sons, Herbert L. of Tri-County, Ga., and Allen and William, both of Rome, Ga.; two daughters, Mrs. Revil Williams, Mrs. Jean Witt and Mrs. Yvonne Scott, all of Tri-County; nine grandchildren; three brothers and two sisters.

MILDRED LEWIS
Service for Mildred Lewis, 31, of 461 Going, will be 1 p.m. Saturday in New Bethel Baptist Church with burial in Oak Hill Cemetery. Arrangements are by the Frank Carruther Funeral Home.

Miss Lewis died Monday after an illness of two years. She was a member of St. James Missionary Baptist Church and an employee of Tam O'Shanter Country Club.

Surviving are her parents, Rev. and Mrs. V. L. Lewis of Pontiac, who are in charge of the St. James pastorate; three brothers, V. L. Lewis Jr., Ronald and Joe, all at home; and five sisters.

FRED J. WILLARD
Service for Fred J. Willard, 77, of 157 S. Francis will be 9 a.m. Saturday in St. Michael's Catholic Church with burial in Mt. Hope Cemetery.

Mr. Willard, a retired employee of the City of Detroit Department of Public Works, died Tuesday after a long illness.

MRS. AUGUST BLUMBERGER
AVON TOWNSHIP — Requiem Mass for Mrs. August (Marie) Blumberger, 73, of 3837 Orchard View, will be 11 a.m. tomorrow at St. Anne's Catholic Church in Rochester. Burial will be in White Chapel Memorial Cemetery, Troy.

Mrs. Blumberger died yesterday after a brief illness.

The Rosary will be recited at 8:30 p.m. today at the Pilex Funeral Home, Rochester.

Surviving besides her husband are a son, Edward of Royal Oak; three daughters, Mrs. Augusta Melise of Clawson, Mrs. Edna Jordan of Royal Oak and Mrs. Victoria Carby of Texas; and six grandchildren.

VIRGIL HICKS
TROY — Service for former resident, Virgil Hicks, 52, of Ferndale will be 2 p.m. Saturday at St. Anne's Catholic Church in Troy. Burial will be in White Chapel Memorial Cemetery.

Mr. Hicks died yesterday after a two-year illness. He was the retired owner of a Ferndale dairy shop.

Surviving are his wife Hattie; his father, Rubin of Highland Park; two sons, Harold of Troy and Ronald of Ferndale; four sis-

ters; three brothers; and two grandchildren.

MRS. JAMES T. MAIN
WHITE LAKE TOWNSHIP — Mrs. James T. (Thelma) Main, 37, of 8230 Highland, died early yesterday.

Her body was to be taken today from the Lewis E. Wint Funeral Home, Clarkston, to the Eggleston-Meintner Funeral Home, Toledo, Ohio, for service and burial.

Surviving besides her husband are her mother and a sister, both of Bluefield, W. Va.

Gas Station Hit for \$60; Bandit Armed

A gas station attendant was robbed of \$60 early this morning by a bandit carrying a nickel-plated rifle.

Jeffrey Morgan, 23, employed at the Clark Oil station at 420 S. Saginaw, told police that the man did not enter the station but came up to the window and motioned to him with the gun to come out.

Morgan, of 247 W. Fairmount, said he was then taken to the rear of the building and told to hand over the money.

Morgan was then ordered to go inside and pull the receiver cord from the telephone. The thief fled from Saginaw after the 3:15 a.m. robbery.

'INTERLOABLE' — Laurence Vass, U.S. consul in Nairobi, Kenya, told Africans that a "barbaric and interloable" racial situation exists in the Southern United States.

At the time, San Jose was enjoying its best weather. The dry season lasts from December to April and is called "summer."

Actually, San Jose's 3,870-foot elevation and average 75-degree temperature give it a constant springlike climate.

San Jose, with more than 102,000 population, stands in the volcanic, central highlands 40 miles inland from the Pacific Ocean and 50 miles from the Caribbean.

Characteristic of the Costa Rican scene are the "singing" ox-carts, gaily painted with intricate designs. The two wheels are made of loose-fitting, carefully seasoned hardwood wedges, bound by iron tires.

As the carts move, the wedges jingle. Costa Ricans say they can recognize a neighbor's cart by its sound.

Another prominent part of the landscape is the profusion of garden and wild flowers, especially orchids. About 1,000 species of orchids have been identified. The national flower, guaria morada, is a purple wild orchid.

People from neighboring countries sometimes jokingly call Costa Rica's 1,237,000 inhabitants Ticos because of their indiscriminate use of the Spanish diminutive suffixes to -ito and -ico. A span of several hours can still be called a "little moment" or "momentito."

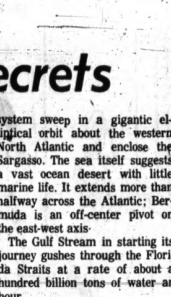

Costa Rican women have the reputation of being among the comeliest in Latin America. They are also among the most emancipated.

Coffee and bananas lead Costa Rica's exports. It was in Costa Rica that coffee was first planted in Central America. Some his-

torians say coffee was brought into the country in 1808 by the Spanish provincial governor Tomas de Acosta.

De Acosta said "there is not in the entire monarchy a province so indigent as this." Costa Rica prospered from export trade, however, in later years.

Today, the low price of coffee is one of the gravest problems facing Costa Rica's economic planners.

NEW PRESIDENT — Bert S. Cross was elevated to presidency of Minnesota Mining & Manufacturing Co. (3M) yesterday, succeeding retiring Herbert P. Buechel.

There are no social security checks in Sonenberg's mail and he has no family which feathers his nest for him.

Rather, Sonenberg and his wife live in their comfortable Mount Airy section home on his railroad pension and from investments in the stock market.

NOT ALWAYS SECURE

But the couple's future wasn't always so secure. The octogenarian can recall his first job when he made between \$40 and \$50 a month.

"I didn't have any definite goal in mind when I left high school. I just started out with the idea of getting ahead and securing my future," he said.

He not only planned his security, but was able to save enough to enable his wife and himself to see most of the country.

They traveled on his vacations to Florida, Maine and California. Sonenberg thinks his investments helped him most of all. "I made them to insure a future income," he said.

Sonenberg, who usually sports a bright pink rose in his lapel, believes the secret of investing money is to choose the right companies.

WESTON TURVILLE, Bucks, England — An amphibious cat has been bred here by two British spinsters who have spent six years developing one of the most unusual felines in the world and hope soon to fulfill pedigree requirements in England.

The cats, known as "Van cats," are natives of Turkey, but so rare that the Misses Laura Lushington and Sonia Halliday, both described as being "of independent means," traveled 1,000 miles by car seeking them.

The pair combed the Mount Ararat area of Turkey looking for a pair to supplement the 11 animals bred from a pair they acquired six years ago.

The Van cat is long-haired, white, and has distinctive oval V-shaped head markings around the ears, with auburn-ringed tails and matching auburn eyes.

It is described as being affectionate and intelligent — and can swim.

Sleeping Pill Overdose

An autopsy performed on the body of a woman found dead in her motel room yesterday revealed that she died of an overdose of sleeping pills, according to the sheriff's department.

Mrs. Thelma R. Main, 37, was found in bed by her husband in their apartment at the Pontiac Lake Motel, 8240 Highland Road, White Lake Township, about 10 a.m.

Investor for 50 Years
Hasn't Dropped Cent

PHILADELPHIA (UPI) — Walter Sonenberg has owned stocks for more than 50 years — through one depression and many "recessions" — and has never lost a cent.

It is this same care which enabled the 85-year-old economics expert to retire more than 20 years ago after working in the Pennsylvania Railroad's accounting department for 39 years.

There are no social security checks in Sonenberg's mail and he has no family which feathers his nest for him.

Rather, Sonenberg and his wife live in their comfortable Mount Airy section home on his railroad pension and from investments in the stock market.

NOT ALWAYS SECURE
