

Russian Welcome at Gemini 6 Launch—LBJ

4 Feared Dead in Explosions at Rubber Firm

At Least 18 Others
Injured in Louisville;
Noise Heard 10 Miles

LOUISVILLE, Ky. (AP)—A series of explosions, followed by huge, searing flames, rumbled through the Du Pont synthetic rubber plant today. Four persons were believed dead.

At least 18 others were injured as 23 blasts tore through the giant installation on the southwestern edge of the city. The noise was heard 10 miles away and some windows were shattered across the Ohio River in Indiana.

Nearly four hours after the first blast, police ordered the evacuation of families living within a three mile area. They were told that a large acetylene tank at the Du Pont plant site might explode.

The report of four dead came from Capt. Dudley Brown of the city Civil Defense Office.

All available emergency vehicles and police and firemen were at the scene with state police requested by the city.

INTO BOMB SHELTER

A nearby plant ordered its employees into what was described as "a bomb shelter."

"I thought it was hell breaking loose," said Bill Dawes, a Du Pont employee. "The whole ground rocked. I ran as fast as I could. Behind me came people with blood on their legs. I don't know how many got out."

Plant officials said almost all of the 2,000 employees were on duty when the first blast occurred in a building where acetylene gas is used.

At the explosions stepped up in intensity, all roads leading to the scene were blocked.

The Coast Guard blocked river traffic near Du Pont property on the banks of the Ohio River.

WARNED AWAY

Small airplanes also were warned away from the region. The heat of the flames prevented rescue efforts, said Assistant Deputy Coroner Lloyd Roemele. He said he understood some workers were trapped in the fire area.

Du Pont Plant Manager H. P. Eaton was unable to say how many were working in the building where the blasts occurred but he said the number is kept low because the materials used are dangerous.

SPACE LABORATORY PLANS—This is an artist's conception of the Manned Orbiting Laboratory (MOL) mentioned by President Johnson at his news conference in Washington today. Under present planning, MOL will consist of a pressurized cylinder, about

25-30 feet long and 10 feet in diameter, attached to a modified Gemini space capsule. The President said the initial unmanned launch of a fully equipped lab is scheduled for 1968, followed later that year by the first of five flights with two-man crews.

GOP 'White Paper' Retort: Viet Is Dems' Responsibility

WASHINGTON (AP)—A House Republican "white paper" made public 18 hours early to try to steal a march on President Johnson — contends that Democratic administrations, not Republican, bear responsibility for the U.S. position in South Vietnam.

Further, the 37-page report

argues that some of President Johnson's campaign talk was aimed at making Barry Goldwater appear trigger-happy but may have caused Communists to miscalculate and accelerate the Vietnamese war.

As rebuttal to Johnson's statement that he is carrying out a commitment former President Dwight D. Eisenhower made to Viet Nam in 1954, the white paper said the original U.S. involvement had come under the Truman administration in 1950.

Fearing they might be upstaged by Johnson again, the House Republican leaders yesterday threw away their script for issuing the white paper and sprinted to beat him into the limelight.

It was serious business for the House GOP leaders, who contend Johnson is trying to push them into the background and silence their attempts to criticize some of his policies and present their own.

For a week, they let it be known they were going to issue their paper today. They set the unveiling for a news conference at 11 a.m.

Then, with reason for frustration, the House GOP chiefs saw the White House beating them to the punch. On Monday, the administration issued its own pamphlet called "Why Viet Nam."

Then the White House, breaking the usual afternoon pattern for news conferences, scheduled one for Johnson at 10 a.m. today—one hour before the Republican's.

With barely time to make the evening newscasts and the early morning editions, the Republicans hurriedly changed plans and made public their white paper immediately. They rescheduled their news conference (Continued on Page 2, Col. 6)

Independence Girl on Collision Course

At 10:50 a.m. yesterday 9-year-old Shellie Hillman of 6380 Eastlawn, Independence Township, collided with a car while riding her bike near her home.

On the way to the Pontiac General Hospital the ambulance in which Shellie was riding collided with a car at West Huron and Telegraph.

The resilient little girl, however, came through both mishaps with only minor injuries and was treated at the hospital and released.

Space Chief Is Directed to Invite Scientist President Soft-Pedals Republican Criticism at News Conference

WASHINGTON (AP)—President Johnson said today a Russian watcher would be welcome at the Gemini 6 space capsule launching scheduled in October. And he said that on Viet Nam, "generally speaking, the country is united."

On the latter point, Johnson had a rather soft answer to Republican criticism of his policies.

"I think," he said, "the issues of war and peace are far greater than the personalities involved, or the parties."

Johnson spoke up at a news conference carried to the country by television and radio.

He made a number of points on his own, to start, then swung into a series of questions and answers — at one point moving like a boxer by demonstrating a one-two punch.

MAKING POINT

This was to illustrate that Arthur J. Goldberg, U.S. ambassador to the United Nations, is "our left hand" and in searching for a peaceful settlement in Viet Nam while Secretary of Defense Robert S. McNamara wields "our right hand" in the war in that Far East land.

The President told reporters clustered in the White House East Room that he had directed administrator James E. Webb of the National Aeronautics and Space Administration to invite the Soviet Academy of Science to send a high-level representative to the scheduled Oct. 25 launching of a Gemini space vehicle that is designed to lock onto an orbiting satellite.

He said he hoped the invitation would be accepted (Continued on Page 2, Col. 3)

Johnson Drops 3 U. N. Aides

UNITED NATIONS, N.Y. (AP)—Three top-ranking members of the U.S. delegation at the United Nations were dropped by President Johnson today in a reshuffle of the U.S. delegation.

Johnson swept out all delegation members of ambassadorial rank except for Charles W. Yost, a career diplomat who becomes No. 2 under Ambassador Arthur J. Goldberg.

Those dropped were ambassadors Francis T. Plimpton, Marietta Tree and Franklin H. Williams.

Reached at the U.S. delegation, Plimpton said he had been trying to leave his job as No. 2 man for some time but that the late U.N. Ambassador Adlai E. Stevenson had insisted that he remain. He said he was delighted at the chance to get out.

Mrs. Tree, a close friend of Stevenson, was with him in London last month when he collapsed on a street and died of a heart attack. Her future plans were not learned.

Williams had been an ambassador only a year and was the U.S. representative on the Economic and Social Council, the job assigned to James Roosevelt in today's appointments.

A Negro, Williams formerly was director of the African regional office of the Peace Corps. An associate said he probably would return to the Peace Corps.

U. S. Record Is Set by Gemini 5 Flight

SPACE CENTER, HOUSTON, Tex. (AP)—The Gemini 5 astronauts set a new U.S. space endurance record today and got a go-ahead to smash the Soviet-held world record tomorrow.

For the second time they spotted a powerful military rocket streaking toward space. The astronauts sped past the 97 hours, 59 minutes record of Gemini 4 at 10:59 a.m. They are due to eclipse the world record at 8:06 a.m. tomorrow.

Gemini control communicator James A. McDivitt congratulated the crew on passing the record that he and astronaut Edward White II set in June.

He got a modest "thank you" from command pilot L. Gordon Cooper in reply.

Their beards itchy, and their small space cabin showing some of the clutter of four days of occupancy, the astronauts discussed with doctors on the ground ways of lightening the work load to provide more sleeping time.

SAW MISSILE

In their 62nd orbit as they sped over the Pacific coast of the United States, the astronauts observed a Minuteman missile blast off from Vandenberg Air Force Base, Calif. They also successfully spotted one yesterday.

Meanwhile, the Gemini 5 astronauts did some light housekeeping in their cabin and kept a sharp eye on the earth for details of human activity.

Pilot Charles Conrad Jr., a

Navy lieutenant commander spotted the wake of the aircraft carrier USS Lake Champlain which is scheduled to recover the astronauts from the sea Sunday.

EXCITED VOICE

Conrad's excited voice announced: "He's at 12 o'clock. I can see him turning. Bigger than heck. We got him in sight this time."

"Roger, I knew an old carrier pilot could find the carrier," said capsule communicator James A. McDivitt. "Very good."

Conrad made his first carrier landing in June, 1955, on the deck of the Lake Champlain. He'll be aiming for it again when the eight-day flight ends. The space traffic picked up a little today with the launching from Cape Kennedy of an orbiting solar observatory just after

Showers to Leave by Thursday Morn

Occasional showers predicted for today and tonight are expected to be headed eastward by tomorrow morning, leaving skies partly cloudy.

High temperatures will continue in the mid 70s through Friday. The low will be near 50 to 63 tonight.

Fifty-eight was the low reading in downtown Pontiac prior to 8 a.m. The mercury had edged up to 64 by 2 p.m.

ter the Gemini 5 astronauts passed over the mid-Atlantic on their 62nd orbit.

SOVIET SHOT

The Soviet Union also fired off another unmanned research satellite.

Command pilot L. Gordon Cooper Jr. lost a little sleep last night dealing with housekeeping chores—and had to pass up a star check to catch up on nap time.

Conrad, talking to capsule communicator James A. McDivitt and describing the cramped quarters of the spacecraft said: "I have every piece of gear in the spacecraft out in my lap."

"Very, very good," said McDivitt who compiled four days in space. "Sounds like old home week."

The record for a single flight is held by Soviet cosmonaut Valeri Bykovsky who orbited the earth for 119 hours and six minutes beginning June 14, 1963.

The Gemini 5 astronauts plan to pass that mark tomorrow morning.

McDivitt asked Cooper at one point today: "Is your beard getting itchy yet?"

"Yeah," Cooper replied in a drawl. The medical sensors for taking heart rate and other measurements "are itching worse than the beard."

Lapeer County Boasts Gigantic Oak

Proclaiming anything, anywhere "the greatest" or "the biggest" or "the smallest" is fraught with peril.

Someone, somewhere is bound to challenge.

However, residents just across the Oakland County border in Lapeer will place their strong left hands on the Good Book and swear that

they have the largest oak of its kind in our whole general area and very probably in the entire State of Michigan—or the Middle West.

The magnificent specimen is the pride of the entire area; and Mr. and Mrs. Sterling Dockson, whose summer home it protects, are rightly proud of the stately landmark.

No Rift Over LB as Veep—Kennedy

(EDITOR'S NOTE—Varying versions have appeared on how Lyndon B. Johnson was selected as John F. Kennedy's running mate and the role Robert F. Kennedy played. In this interview, Kennedy answers questions about Johnson's selection and gives his views on Viet Nam and the civil rights movement.)

ROBERT F. KENNEDY

WASHINGTON (AP) — Sen. Robert F. Kennedy says there was never any disagreement between him and President John F. Kennedy over the desirability of having Lyndon B. Johnson on the 1960 Democratic ticket.

Kennedy said in an Associated Press interview that at the direction of his brother he informed Johnson at the Los Angeles Democratic National Convention that opposition to the latter's nomination had arisen in liberal and labor ranks.

In response to a question, however, the New York Democrat disputed the contention of a memorandum of Philip Graham, late publisher of the Washington Post and chairman of Newsweek magazine. The Graham memorandum said Robert Kennedy told Johnson he should withdraw but John Kennedy said that was a mistake because "Bobby's been out of touch."

"Didn't the Philip Graham memo imply that you went to Johnson on your own?" he was asked.

LITTLE SENSE

"Anyone who knows the relationship between President Kennedy and myself would know that doesn't make a great deal of sense," he replied. "The idea that I would go behind my brother's back doesn't make sense."

On other subjects, Kennedy said President Kennedy had great confidence in Secretary of State Dean Rusk. But the senator declined to comment on published reports that the president intended to replace Rusk after the 1964 elections.

"Said the war in Viet Nam is not going to be won by military action but by political action, that there may be more violence before it is solved."

"Called the civil rights problem in the North more complex than in the South. And said there may be more violence before it is solved."

QUESTIONS, ANSWERS

Here are some questions and answers:

Q. You have said that President Kennedy wanted President Johnson as his running mate in 1960 because he was "the best man to carry on." Did you agree at the time with that assessment?

Land Trade May End City-Scrap Yard Fight

An out-of-court settlement could end the lengthy controversy between the city and a local scrap yard.

This was the possibility contained in a letter submitted to the City Commission last night.

The city and 15 of its residents are currently in Circuit Court charging that certain operations of Sam Allen & Sons, Inc., 22 Congress, are a nuisance.

The nonjury trial has been adjourned until Tuesday.

Meanwhile, attorney L. Harvey Lodge, representing the Allen firm, has suggested that the scrap yard might be relocated on land the city recently purchased and annexed for a sanitary land-fill site.

GOT 212 ACRES

The city acquired 212 acres along Collier Road for the land-fill site.

Lodge, in a letter to the commission, said that the Allen firm has an option to purchase 2.7 acres adjacent to the city's projected fill site.

He said this land is not suitable for the scrap yard operation because it does not adjoin the railroad.

However, Lodge said that a portion (over 30 acres) of the city's land-fill site might be traded for the 2.7 acres with the difference being paid. Lodge's site for the scrap yard is south of Collier and north of the old north city boundary.

REACT FAVORABLY

City Commissioners generally reacted favorably to this possibility of solving the Allen controversy, directing City Manager Joseph A. Warren to proceed with negotiations.

Mayor Pro Tem Leslie H. Hudson, presiding in the absence of Mayor William H. Taylor Jr., said that the Lodge proposal should be studied.

Lodge indicated that any trade would have to consider the paying of Collier and also the "tremendous" cost of moving the scrap yard from its present location.

City Manager Warren said that the Lodge proposal was reason-

able, attorneys for both sides would probably postpone continuation of the court action.

In other business, approval was granted the sale of two narrow lots at the southwest corner

City Affairs

of Auburn and Center for a projected one-story union office building.

Sale price of the urban renewal land was \$4,531.

The two lots are to be combined with an adjacent lot to form the site for the office building, proposed as a regional office for the United Automobile Workers.

City Commissioners also awarded a contract to Stanley B. Jones Inc., of Pontiac for \$40,488 worth of site improvements on R20 and R44 urban renewal properties.

Much of the site improvement work consists of a general cleanup and grading of renewal land. Only one bid was submitted on the project but federal officials have okayed the bid.

A City Planning Commission recommendation to rezone to residential-3 several parcels of land on the north side of Mount Clemens at Stirling for an apartment project was introduced last night.

A public hearing was ordered for Sept. 14.

(Advertisement)

A Million Dollars to Relieve Itch of Piles

It is estimated that over a million dollars a year is spent on varied remedies to relieve itch of piles. Yet druggists tell you that cooling, astringent PETERSON'S OINTMENT soothes pile torture in minutes. The box or 85c tube applicator. PETERSON'S OINTMENT gives fast, joyful relief from itching. Be delighted or money back.

Final action was taken on an amendment to the city's zoning ordinance. The amendment prohibits residential construction in commercial and manufacturing districts.

The change in the zoning law removes the lesser use policy in building construction. For example, it was possible before to construct a house in a commercially zoned area without obtaining a land rezoning.

This was permitted under the thesis that the land was being put to a higher use.

The ordinance amendment now prohibits such building. A public hearing was set for

Sept. 7 on a special assessment roll for curb, gutter, grade and gravel on Kettering from Madison to the end of the street.

A public hearing was held on similar street work on Astor, Pike to Michigan. Another hearing was held on a sanitary sewer on a portion of Bloomfield.

Two items were referred to the City Planning Commission. The first item was a request for the vacating of an alley back of Oakland near the United Presbyterian Church, 444 Oakland, and offering land to replace the alley.

The second item was a rezoning request for the corner of

Miami and Huron. This request came from Pontiac Business Machines Co., 1346 W. Wide Track.

Action on two related items—vacating an alley and rezoning of a parcel on the west side of East Boulevard, north of Auburn—was postponed two weeks because of the illness of petitioner.

SIMILAR DELAY

A similar delay was given to an agenda item proposing a three-stage addition to Hangar No. 3 at Pontiac Municipal Airport. The matter is slated for study

at an informal meeting of the commission.

A report by Assistant City Manager John F. Reineck was presented regarding his trip to Washington, D.C. last week to participate in a training session sponsored by the U.S. Conference of Mayors.

Romney Will Return to Lansing for Tax Talks

LANSING (AP)—Gov. George Romney returns from Mackinac Island Thursday to try anew to hammer out a bipartisan tax program with legislators.

The Republican governor will meet with the same group of legislators with whom he reportedly has been moving steadily toward some tax agreement.

The group of House and Sen-

ate Democrats and Republicans earlier this month narrowed his major thinking to a pair of alternative plans that would each impose a state income tax and relieve certain other taxes.

Romney's aim now is to produce a single plan with a bipartisan stamp of approval.

CLOSE SCRUTINY
Majority Democrats have let

it be known that any plan which comes out of the Romney talks will be subject to close scrutiny by Democratic cau-

Demonstrators Insult Taylor

SAN FRANCISCO (UPI)—One hundred demonstrators protesting American policy in Viet Nam swarmed around Gen. Maxwell Taylor's limousine here last night, blocking the street and shouting insults at the former U.S. ambassador.

"Maxwell Taylor—Guilty of Murder," one of their signs said.

One of those protesting threw himself across the hood of the car.

The demonstrators vowed to "haunt" Taylor later today when he is scheduled to speak before the Commonwealth Club of California.

Five persons were arrested last night after about 50 chanting demonstrators followed Taylor into the lobby of the Fairmont Hotel, blocking the general's passage on several occasions.

NOT DISTURBED

Trapped for more than an hour in the hotel's executive offices, Taylor seemed unperturbed.

Taunted to defend U.S. policy in Southeast Asia, the former ambassador to South Viet Nam replied: "Our policy needs no defense."

Good Drinking Excuse

EYAM, England (UPI)—Best beer will be sold at less than one cent per quart tomorrow when North Derbyshire villagers celebrate the tercentenary (300th anniversary) of a plague which killed most of their ancestors.

uses before any legislative action is considered.

The legislature returns Sept. 14. Romney and the tax negotiators agree that some tax action should be taken this autumn, but legislative sentiment indicates any program would have rough sailing.

The governor has said all along that it will take "a political miracle" to bring tax reform in 1966.

Plans under consideration by the two dozen or so legislators and the governor each include a personal income tax with a maximum 4 per cent levy and a

corporate income tax that could reach 5 per cent.

FOOD, DRUGS

The sales tax on food and drugs would be eliminated and some form of property tax rebate or relief included.

The net package would include about \$500 million in new or additional taxes over the next two years and about \$300 million in relief—thus a net gain to the state of \$200 million.

Romney says tax action is needed because rising costs will do away with an estimated \$128 million treasury surplus within two years. Opponents of immediate tax changes say the booming economy will enable the

state to avoid a deficit for longer than two years.

Some also propose a bonding program for state construction which they claim would free money for operating expenses.

After the Thursday morning meeting and a brief stop in Detroit, Romney will return to his summer residence at Mackinac.

You are included

Wednesday Is Best Day of Week—Boyle

By HAL BOYLE

NEW YORK (AP) — Friends, let us consider the days of the week. Which is the best?

The earnest thinker long has considered Friday as a better boon to man than the dog.

No survivor of the workweek can successfully challenge this conclusion.

But I would like to put in a word for Wednesday. It is the true day, BOYLE when mankind stands upon the summit of himself. It is the day of absolute human integrity.

All days have their reasons for being. Let us consider their values.

EAGER BEAVER'S PAL

Monday is the pal of the eager beaver and the foe of the tired beaver money.

Monday is liked by people who study yoga, who enjoy beating their freedom against a discipline, who swim in the surf off Coney Island in the winter and get their pictures in the papers for doing so.

For the rest of humanity Monday is a long ugh-h-h. It is a day when childhood goes back to school, man to his duty, and woman considers what to do with last week's laundry.

Those who consider the virtues of Tuesday, I am afraid, must face the fact that it is really at most an escapist's advance beyond Monday. Its only other use is that it is the prime time of the week on which to borrow money.

NEED UNIMPORTANT

It isn't important whether a man really needs the money. Nobody who is asked to lend money on Tuesday asks what it's for. He may demand a reason any other day—but never on Tuesday. He will simply fork out.

We now skip to Thursday, and will come back to Wednesday later. Thursday is the day before Friday. Thursday is the day you promise to pay money back but don't. Thursday is the soft suffocation of all endeavor. Thursday is the day when you begin to explain to yourself why you haven't done so far this week what you don't intend to do on Friday.

Everybody knows what Fri-

day is for. It is the day of the long lunch, the glad leap from the responsibility, the plunge into the liberty of the weekend. It is the day to hide from the guy you borrowed money from on Tuesday and promised to pay back on Thursday.

Saturday is for going to football games, admiring the way your wife cuts the grass, or artfully raking fallen leaves so that the wind will blow them into your neighbor's yard. It is also a great night to watch late

shows on television while you wonder what part of the town your children are painting crimson.

SUNDAY FOR JOURNEYS

Sunday is for considering heaven and endeavor and brooding about the inconsideration of a divine injustice that has ordained Monday as the next day. It also is the best day to jump in the family buggy and make impossible journeys to far away friends who didn't expect

you at the table and from whose bone it takes you until midnight to return.

This, friends, leaves us the wealth of Wednesday. Wednesday is the peak of the week. It is the necessary bridge between the ordeal of Monday and the freedom of Friday.

Anybody who can't get something done on Wednesday doesn't really know how to waste the rest of the week constructively. He is only kidding himself.

Meadow Brook Show Shows Musical Swing

In an effort to extend the summer concert period of the superb Meadow Brook music facility and broaden its entertainment appeal, an interested group of scholarship committee members, civic organizations and OU staff figures combined to present a program of rock 'n' roll and folk singing.

Running the scale from the six-week concert series presented by the Detroit Symphony Orchestra to The Supremes, night club and airwave standouts, was indeed an entertainment innovation — but one that met an enthusiastic reception by a sizable turnout of rock 'n' roll and folk song devotees.

The rock 'n' rolling Supremes headed the Saturday evening program that included a highly-regarded area combo and a trio whose folk songs and antics more than sent the audience.

Although there are no present plans for regular supplementary programs to those of the Detroit Symphony, The Press warmly commends the community elements that joined in sponsoring this entertainment experiment at Meadow Brook.

Highway Use Imposes Due Alertness for All

Regard for the safety of a bicycling youth resulted, in a strange turn of fate, in death for the three-year-old son of a woman driver of an automobile and minor injury for the mother.

The recent tragedy occurred when the motorist swerved suddenly to avoid hitting the pedaling boy and crashed her car into a fence.

Although this type of highway casualty is uncommon, it nevertheless emphasizes that bicyclists have an obligation to ward the traffic of which they are a part.

Frequently we have observed a manner of unconcern on the part of bike riders toward other vehicles that crowd the roads. It seems to imply that it is exclusively the duty of motorists to safeguard the two-wheelers — with no reciprocal concern on their part.

This is a very erroneous assumption. Because of the quick maneuverability of bicycles and impetuosity of many young riders in changing course, bikes in traffic can become a deadly hazard not only to their riders but to auto operators—as the case in point so well demonstrated.

Owners of bicycles should never lose sight of the fact that in availing themselves of highway privilege there is a related factor of highway responsibility.

Versatility the Key to Steady Employment

Fortunate are those who, unlike most of us, have a second vocation to fall back upon should unforeseen circumstances add them to the unemployed rolls. That ace in the hole, that umbrella for a rainy day are reassuring.

One of our more distinguished citizens has a huge stock of those "rainy day umbrellas." Employed now and with the prospect that his contract could be renewed for another four years in 1968, he could, if need be, possibly turn a former vocation or any one of his present avocations into the ammunition to keep the wolf away.

Described by one writer re-

cently as "a teacher on leave from a Houston classroom," this chap could elect to return to the profession, probably as a teacher of contemporary history.

Then, too, he might try his hand at raising beef cattle and, as a sideline, he might moonlight as a barbecue chef.

Though a bit old for the racket, he might try over-the-road racing. He has been known, in the past, to have gotten a car over the highway at speeds that confounded drivers following him.

Should none of these appeal, he'd still have a card up his sleeve. He is understood to have close connections and considerable influence with an entrepreneur in the television business and could just possibly wangle a job of some sort or other.

Few paper-backed books live down to the illustrations on their covers.

Ford Leads Way on Unclear Path

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON — Rep. Gerald R. Ford has a job on his hand, but he asked for it. What he wants to do is clear enough, but not how he's going to do it.

The 52-year-old Ford of Michigan asked his fellow House Republicans last January to make him their leader. They did, and, in the process, threw out their old leader, Indiana's Charles A. Halleck, who still has a lot of friends in the House.

Ford said there were "very minor differences philosophically" between him and Halleck. Both are conservatives, but there is hardly total unity behind Ford. There are various shades of "minor differences" among the Republicans.

Yet Ford's job as leader is to make Republicans look good — at the Democrats' expense, when they can — in the hope they will capture in the 1968 congressional elections some of the seats they lost in the 1964 disaster.

Meanwhile, his Republicans are vastly outnumbered by the Democrats who, with this strength, can ram through Johnson's programs. Ford said, nevertheless, the Democrats' voting advantage would "plague" them.

But all in one day he was to say "victory in the 1968 elections is in the air" and also that he feared the two-party system was in danger. But his performance in relation to President Johnson is puzzling.

CONFUSING POLICY
On April 9 he said he was "confused" and "perplexed" over Johnson's Viet Nam policy.

On May 27 he was critical of what he called irresponsible criticism of Johnson's foreign policies, saying "Republicans will support the President as long as we think he is right, and at the moment we think he is precisely right."

In June and July he was calling for a naval blockade of North Viet Nam and a "mighty U.S. military air offensive" against Communists in North and South Viet Nam. He wanted Soviet missile bases bombed, although that could mean war with the Soviet Union.

But on July 19 he said "the American people grow more concerned, more confused by the hour, as the war situation becomes a nightmare of speculation."

WONT MEAN MUCH
Ford yesterday produced a "white paper" aimed at rebutting Johnson's statements that he is carrying out promises made by President Eisenhower from 1954 to 1960. In view of Eisenhower's wholehearted support of Johnson now, Ford's paper didn't mean much.

Meanwhile, beating Ford to the punch, the White House Monday put out a booklet stating what Eisenhower said and giving its view on why the war is necessary.

Another Lone Man At Sea!

David Lawrence Says:

Court Decisions Hamper Police

WASHINGTON — This seems to be an age of hypocrisy with respect to the enforcement of law and order in America.

When street demonstrations and riots occurred in the South and disturbers of the peace were arrested, it was charged that Southern law officers and LAWRENCE courts were prejudiced.

Now, when the same thing is happening in Los Angeles, Chicago, Philadelphia, Cleveland, Springfield, Mass., and other cities outside the South, the local police are being made the scapegoat.

They are being charged with "brutality" as they attempt to enforce the laws against trespass and incitement to violence.

There is a lot of discussion just now as to the reasons for the lawlessness that is sweeping the country, not merely in connection with race riots but with crime generally.

More and more, the finger of blame is being pointed at those Supreme Court justices who have been swayed by ideological considerations and have thus weakened the whole law-enforcement machinery by making it more and more difficult for police officers to maintain order, particularly in the big cities.

DISSENTING OPINION

Not all the members of the Supreme Court are blind to the illegalities involved in street demonstrations or to the ways that encouragement has been given to street demonstrators through court decisions invalidating convictions for trespassing on private property.

Justices Black, Harlan and White, in a dissenting opinion rendered on June 22, 1964, dealt specifically with the tendency of the majority in the Supreme Court to ignore constitutional principles.

What the dissenting judges were criticizing was the order overturning the convictions of certain demonstrators who had invaded private property in Maryland where racial discrimination had been alleged.

This is but one of many instances in which similar transgressions have occurred.

TURNED LOOSE

The fact that the Supreme Court of the United States, in effect, turned loose demonstrators who had been arrested and convicted in state courts was taken by various organizations throughout the country as a signal that they could trespass at will on private property and that, as long as they were arguing for a just cause, they could not really be punished for trespassing or for violating local ordinances.

Today, in view of the court's decisions, the local police are confused as to what they can or cannot do.

At the same time, the whole

tenor of recent decisions of the highest court in the land has shown a decided leaning toward the demonstrators, and this has given the entire concept of "lie-ins" and "sit-ins" and other forms of demonstrations a stimulus greater than has ever been known before in American history.

The extreme interpretations of the law have been widely publicized throughout the country and have been giving encouragement to the demonstrators.

Capital Letter:

Job-Training Programs Are Blazing New Trails

By RUTH MONTGOMERY

WASHINGTON — One of the least publicized and most fascinating government projects existing is being conducted by the Labor Department's Office of Manpower Automation and Training (OMAT).

Through various pilot programs, youth-ful convicts in New York City's Rikers Island are being trained for careers as IBM equipment operators instead of pickpockets. MONTGOMERY

Middle-aged women whose families are reared will be counseled on how to reenter the labor force, and military retirees in their midforties will be retrained for civilian careers.

At surprisingly little federal expense, these programs are blazing a trail that may be adopted by state governments and private enterprise to help solve some of our complex sociological problems.

According to Dr. Howard Rosen, assistant research director for OMAT, 75 per cent of all youthful convicts are back in jail within a year after release.

The question therefore arises: If while imprisoned these 18-to-21-year-olds are taught a skill which is in short supply would they find it easier to "go straight" and live productive lives?

To date the results have been both bitter and sweet.

Persuading private employers to hire former dope addicts or safe crackers has not been easy.

MAKING GOOD

Some of the ex-convicts are making good, however, and the saving to society will be enormous if the rehabilitation idea spreads throughout the nation to other penal institutions.

Dr. Eleanor F. Dolan, reserve director for the American Association of University Women (AAUW) heads a pilot program financed with \$37,000 from OMAT, to train counselors for mature women who want to return to work.

This is one of the reasons why the street riots are growing in their intensity, as the local police are unable to handle them. The result is that several governors have had to order thousands of members of National Guard units to act as policemen — a strange development in free America.

A Problem The Il Tempo, Rome

Many ask why the Americans, so fully committed around Saigon and the naval and military base of Da Nang, have not yet destroyed the Hanoi-Haiphong zone with all the industrial belt around the capital. There is, probably, an unwritten agreement between Washington and Moscow, such as we saw in 1962 for Cuba.

But this is not the problem to which we wish to draw the attention of public opinion. It is not our job, and we cannot take it on, to tell the White House and the Pentagon how to conduct the war, with what methods and what forces, or even how to find ways to negotiate an armistice.

It seems to us that the European nations which in 1944-45 waited for the American forces for their salvation, which in 1947 used the Marshall plan to restore their economies, and in 1949 forged the Atlantic pact to avoid the fate of Czechoslovakia, have not so much a right to give advice and suggestions to Washington as to mobilize the opinion of the United Nations to back the military effort of the United States which is fighting for the independence of nations and the freedom of peoples.

Washington's plan to announce a more flexible position

Voice of the People:

Suggests Local Handling for Dutch Elm Disease

The Dutch elm disease is a national problem but could be handled locally without running to Washington. Detroit's request for a mere \$250,000 would be just a drop in the bucket—and for only one year.

Local units of government could use their experienced men to fell the trees and hire the unskilled, unemployed and welfare recipients to break up and burn the refuse.

Perhaps this would be a good Youth Corps program to give them some good, healthful work. They could burn up some of their energy in this way and less rubber on their hot rods.

BILL DONALDSON

'Self-Employed Men Must Meet Expenses'

Some people do not understand that self-employed men in the sanitation business own their own trucks and work for themselves. They also have to raise prices when living expenses, gas and other prices are raised.

GARBEGEMAN'S WIFE

Tells Experience at County Animal Shelter

I recently left a kitten at the Oakland County Animal Shelter on a Saturday just before closing. They have only a few cages and these were crowded to overflowing. I later regretted having taken the kitten to the shelter and when I returned to get it Monday, I was shocked to find only a few small kittens in the cages.

The attendant informed me they had adopted out most of the cats that morning. However, I find it difficult to believe they could adopt out forty or fifty cats in a three-hour period, and believe they may have done away with these poor kittens in a wholesale manner.

I think the public should be informed that their pets may be done away with before they even have a reasonable chance of finding a new home. Also, it deprives some child of a very fine pet that it might have enjoyed a great deal.

'America Should Clean Its Own Doorstep'

If you really listen to the words of the song "Eve of Destruction," and know anything about world affairs today, you'd think The Press for its recent articles touching upon his case as it appears now that only an informed, aroused electorate can guarantee Oleksa a free and unbiased hearing by governmental appointees in Washington.

The name United States doesn't mean much anymore to most people instead of helping one another, we Americans are too busy fighting for ourselves as individuals.

We ought to clean our own doorsteps before we fight over another country so it won't fall into the hands of Communists. We ought to clean up our own country so that we may someday again be proud to say that we're Americans.

A WORLD-WEARY W. K. H. S. SENIOR

'Interested in Testimony of Security Chief'

Our very future could well hinge on the outcome of the behind-the-scenes battle between our State Department and their former Security Chief, Mr. Otto Otepka. For this reason we want to thank The Press for its recent articles touching upon his case as it appears now that only an informed, aroused electorate can guarantee Oleksa a free and unbiased hearing by governmental appointees in Washington.

We urge you to write to the Senate Internal Security Subcommittee in Washington for copies of testimony pertinent to Otepka. By doing so you will be better able to see through the "whitewash" being applied by the releases sent out for our consumption.

Washington's plan to announce a more flexible position

on peacekeeping assessments may prove a lifesaver for the United Nations.

Ambassador Arthur J. Goldberg in his maiden speech Monday to the 33-nation committee on the U. N. financial crisis will apparently be in a position to help put the General Assembly back into business despite the controversy over Moscow's arrears.

The American effort to make the Soviet Union pay its share of the U. N.'s Congo and Middle East operations—or lose its General Assembly vote under Article 19 — has paralyzed the Assembly but failed to make the Russians pay up.

A majority of the member nations is determined to sidestep the question. It has become clear that a major part at this time cannot be compelled to pay for peacekeeping activities of which it has disapproved; any effort to force the issue could only destroy the United Nations.

The problem of the U. N.'s \$108 million deficit is serious. But it can be resolved through

The Associated Press is entitled exclusively to the use for republication of all local news printed in this newspaper as well as all AP news dispatches.

The Pontiac Press is delivered by carrier to 50 cities in Michigan and Washington, D.C. It is \$10.00 a year in advance. In other places in the United States it is \$12.00 a year. Subscriptions payable in full should be sent to The Pontiac Press, 48 West Huron Street, Pontiac, Michigan.

voluntary contributions. Britain, Canada and the Scandinavian countries have shown the way with donations of almost \$18 million.

The Soviet Union has indicated that it will make a "substantial" contribution if it is not required to prejudice its legal position that it was illegally annexed and owes no peacekeeping arrears.

It should not be necessary, in resolving the assessment conflict, to abandon Article 19. The constitutional power of the General Assembly to apportion the expenses of the world organization should be maintained. The precise legal device that makes this possible is of secondary importance.

Many methods have been suggested at the United Nations. The task now is to select one of them, liquidate this sterile controversy, and put the General Assembly back to work when it meets next month.

Many peacekeeping operations, including the Korean war and the current Cyprus program, have been conducted with financial backing. The U. N.'s biggest challenges still lie ahead — in Viet Nam, for example. It would be tragic to wreck the world organization in an argument over past liabilities. The need is to preserve it for what it can do — and that is a great deal.

Old-Fashioned!

The Quote

Today, an old-fashioned couple is one who uses separate deodorants.

Doctor Killed Fighting Wife

Gun Fires in Struggle;
Other Man Wounded

DEARBORN HEIGHTS (AP) — A physician was shot to death Tuesday while struggling with his estranged wife over a rifle with which police said the doctor shot and injured another man minutes earlier.

Dearborn Heights police said they have been unable to find out who pressed the trigger in the shooting that killed Dr. Jagdish (Jack) Kumar, 34, of Garden City.

Kumar, a native of India, had been living in the Detroit area for about 10 years.

The shooting was witnessed by one of the couple's four children, 8-year-old Ileana.

TWO INJURED

Injured were Mrs. Angela Kumar, 26, of Livonia and Keith Jacobs, 36, a Detroit auto salesman. Both were inside a one-time tourist court cabin here when the shooting occurred.

Mrs. Kumar suffered a wound on her left temple which police said could have been caused either by a grazing bullet or the rifle itself. Jacobs was hit above his buttocks, police said.

Both were reported in good condition after treatment at a hospital.

POLICE ACCOUNT

Police gave this account: Dr. Kumar drove to the Dearborn Heights cabin after picking up his daughter. After attempting to break down the cabin door, he smashed in the door's glass pane. He then apparently fired into the cabin, injuring Jacobs.

Mrs. Kumar rushed up and struggled over the 22 automatic weapon. The gun then went off, killing the physician.

No charges have been filed. An autopsy was scheduled for Wednesday.

Hairy Beast Turns Up in Other States

MONROE (AP) — Monroe County's so-called "hairy monster" may have decided things were getting too hot in Michigan.

Rutherford County in Tennessee reported the sighting of a tall, hairy monster Tuesday at about the same time that police in Gary, Ind., were winding up a two-day hunt for a hairy creature described as resembling a gorilla.

Michigan state police virtually have written off reports of the beast as a hoax.

In Tennessee, Sheriff Bill Wilson said the descriptions received at his office fit that of an ape and are almost identical to the Michigan beast sightings. But two patrol cars sent to investigate the Rutherford County reports found nothing—not even a hair.

DEAD DOG

Gary police received a rash of calls beginning Sunday with a report that a gorilla was lying dead along some railroad tracks. A dog warden found a large, shaggy black dog which apparently had been struck by a train.

4 Highway Projects off State Bid List

LANSING (AP) — The State Highway Department said Tuesday it has been forced to scratch four major road projects costing a total of \$5 million from a Sept. 1 bid-letting because federal financing authorization is not available.

Highway Director Howard Hill said the projects have been approved by the U. S. Bureau of Public Roads. But he said funds cannot yet be released because President Johnson has not yet signed necessary appropriations bills.

Car Kills Girl Near Flint

FLINT (AP) — Carol Fonger, 16, of Lennon, died Tuesday when she was struck by a car on M-21 near Flint.

Defiant Nun Says Shelter Order 'Bluff'

VICTORIA, B.C. (AP) — Mother Cecilia Mary has defied a second order from the Roman Catholic Church to abandon her animal shelter. Her bishop said this leaves the next move up to the Vatican.

"The Church has no authority to close the shelter," said Mother Cecilia, 76, who runs the shelter on a farm on the outskirts of Victoria. "They don't own the land and I will not give up unless I die."

Mother Cecilia, superior of a nursing home, set up the shelter in 1964 with money inherited from her father.

"It's just a bit of a bluff," she said of the order. "The bishop doesn't like the sisters doing the work and he wants to close it, but we will carry on because there isn't anybody else to do it." She was speaking of the Most Rev. Remi De Roo, bishop of Victoria.

GET WARNING

Monday two church officials delivered an order to Mother Cecilia and the five elderly nuns who help her. It was from the apostolic delegate in Ottawa, the Most Rev. Sergio Pignedoli.

The order said of the six: "If any one of them refuses to obey in this matter, then ecclesiastical authority will reconsider their official status in the church as sisters."

This would not mean excommunication, Bishop De Roo said, but the six could continue operating the shelter only if they gave up their religious vows.

Mother Cecilia said: "I have been a sister for 56 years and will stay a sister till I die. Giving up my vows would require personal consent and I wouldn't give it."

UP TO ROME

Bishop De Roo said refusal to abandon the shelter and the more than 100 animals leaves the next move up to Rome.

The two priests who brought the Ottawa order spent more than two hours Monday at the shelter discussing the matter. They told the nuns they had vowed to obey and were breaking that vow by keeping the shelter.

"Charity is higher than any obedience," one of the nuns replied.

Mother Cecilia said the shelter had been growing "like a house on fire" since the church first ordered its closure in May. She said donations had been coming in from all over the United States and Canada.

"People have been marvelous," especially in the United States," she said, "I will be forever grateful for what these people have done."

The nun said she had decided to take in horses and would begin building stables next week. She said the shelter would hire full-time veterinarian soon and would build a residence for employees.

Ex-Astronaut's Divorce Is Off

SAN ANTONIO, Tex. (AP) — Mrs. Duane Edgar Graveline dropped divorce proceedings Tuesday against her husband, who resigned last week as one of the nation's six astronaut-scientists.

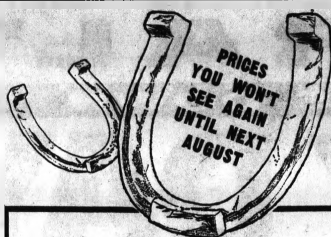

Judge Peter M. Curry signed the order dismissing her suit, filed Tuesday. Counsel reported July 30 that the couple had agreed on child support terms. They have four daughters 7 to 13 years old.

Dr. Graveline said personal reasons prompted his resignation from the astronaut team. He is remaining at the Manned Spacecraft Center outside Houston as a flight surgeon.

Mrs. Graveline asked a court order to keep him away from their San Antonio residence when she filed the suit, saying she feared bodily harm. She later withdrew the request.

To Resume Pact Talks

DETROIT (AP)—Negotiations are scheduled to resume Thursday between Wyandotte Chemicals Corp. and the striking Oil, Chemical and Atomic Workers Union. Members of the union have been on strike for 114 days in support of new contract demands. Bargaining was suspended Aug. 3.

Poverty Battle 'Not Only War'

Stennis Hints Viet
May Force Cutbacks

WASHINGTON (UPI) — Sen. John C. Stennis hinted today that the Johnson administration may be forced to cut down its "War on Poverty" to help finance the steadily rising U.S. combat effort in the Viet Nam war.

The Mississippi Democrat introduced the administration's \$46.8-billion defense money bill today in a speech prepared for Senate delivery.

He warned that the measure would not see the military through the current fiscal year and that more money would have to be appropriated later.

Previously, Stennis has forecast that before long the Viet Nam war might cost the United States as much as \$14 billion a year.

"In this light," Stennis said, "the Congress and the executive branch must realize that the War on Poverty is not the only war which we are engaged at this time."

IMPORTANT TO US

"American boys are dying every day in Viet Nam for American ideals that are as important to us as raising the standard of living in local communities."

Stennis, chairman of the Senate Preparedness subcommittee, used the jibe at the President's War on Poverty, with its guns versus butter overtones, to predict that "next January will find us faced with a substantially larger request for supplemental funding."

He told his colleagues that the big bill will be adequate to maintain a "superior defense posture" and meet the needs of the armed services "only with the addition of substantial amounts early next year."

WW II Army Canteen Is Still Mystery

CHU LAI, South Viet Nam (UPI) — A battered old Army canteen, World War II vintage, is the centerpiece of a mystery turned up here by U.S. Marines.

The dirt-encrusted water container was found last month by men of the 2nd Battalion, 4th Marine Regiment, while they were stretching barbed wire around the Chu Lai command post.

1st Lt. Isaac Ayala of San Antonio, Tex., cleaned up the canteen and found its owner's name scratched on the metal.

The name was John Kenneth George, sergeant, U.S. Army.

Other markings gave George's organization and indicated he had become a prisoner of the Japanese when the Corregidor fell in 1942.

RECEIVES INFORMATION

Ayala wrote to the Department of the Army in Washington for information on George.

Last week, the Texas Lieutenant received a photostatic copy of a letter sent by the department in June 1945, to George's father in San Dimas, Calif.

The letter said that Sgt. George was presumed to have been killed with 1,786 captured Americans when a Japanese ship was sunk by a submarine in October, 1944. All but nine of the prisoners were reported dead by the Japanese.

The Japanese ship, according to the letter, was sunk in the South China Sea 200 miles off the Chinese mainland and that five American prisoners presumably reached land in a small boat. Four others were recaptured later. The names of the other escaped prisoners were not given.

PICKED UP

One theory is that the canteen may have floated ashore in Viet Nam when the ship went down and was picked up by a fisherman and later discarded inland at Chu Lai.

Another possibility is that one of the five escaped prisoners may have retrieved the canteen from the water and carried it to Viet Nam.

Ayala is trying to locate Sgt. George's father at the California address.

TEST SITE SURVEYED — U.S. Fish and Wildlife Service crewmen scan Cyril Cove on Amchitka Island in the western Aleutians for sea otter which inhabit the barren 30-mile-long island slated to be the test site for an

underground nuclear explosion this fall. Conservationists are concerned for the safety of the animals, once hunted to near-extinction for their pelts.

AP Photos

Biggest Problem at Aleutian N-Test Site? Sea Otters

AMCHITKA Island, Alaska. (AP) — Seismic experts and engineers are getting this windswept Aleutian island ready for an underground nuclear explosion — and their biggest problem at the moment is how to scare the sea otters away.

Once nearly extinct from pelt hunting, sea otters have been making a comeback in the island's rocky coves. Nearly 3,000 of them, which wildlife experts estimate is one-tenth of the world population, live here.

Marine biologists don't know what effect the 80-kiloton blast, scheduled tentatively for late October or early November, will have on the otters. They don't want them to leave the island for good. They do want them out of the way during the tests.

So Uncle Sam has a new kind of operation on his hands here: sea otter hazing.

SOME SUCCESS

How do you haze a sea otter? Well, for one thing, you fire a

carbide cannon over his cove. This has had some success, but the otters don't seem to stay away quite long enough. So a U.S. Fish and Wildlife Service task force tried firing giant firecrackers at the otters with shotguns. It also is experimenting with skyrockets and thinking of hovering helicopters.

The blast, to be set off 2,300 feet down, is expected to melt a cave 400 to 600 feet in diameter in the bed rock.

Engineers say the ground will heave momentarily about six

feet upward. The nearest technicians will be five miles away. An instrument trailer atop a pile of old rubber truck tires will record the shock from a mile and a half away.

The main recording will be done at a 10,000-square-mile seismic research station near Miles City, Mont. The purpose of the blast is to enable scientists to pinpoint nuclear explosions and tell them from earthquakes through seismic readings.

officer who is acting test manager, said the nuclear device will be delivered to the island just before the blast.

Cargo Tonnage Hike

SAULT STE. MARIE (AP)—More than 5.2-million tons of cargo have moved through the Sault Ste. Marie locks since the opening of the shipping season April 4. The figure is the highest since 1957 and compares with 4.9 million tons for the similar period in 1964.

Neighbors Mrs. Kenneth Crowder And Daughter Julie Ayn Also Pictured

On the Water

'Reflections'

(Editor's Note: Pinder, ancient Greece's greatest lyric poet, wrote, "The noblest of the elements is water." Lord Byron, reflecting on the waves, penned, "...our thoughts its boundless and our souls as free, far as the breeze can bear..." Blessed with an abundance of the "noblest element," Oakland County boasts over 100 lovely lakes, and area folk are experiencing Byron's "freedom of soul" as they pause by the water. Photographs on today's page were taken at six area lakes: Watkins, Otter, Pine, Cass, Silver and Sylvan.)

By MARY ANGLEMIER
The dwindling days of August find families splashing in sparkling waters of Oakland County lakes and dawdling in the summer sun.

FIND RELAXATION
Some find relaxation and

contentment just sitting or stretched out on docks, watching the bobber ride the waves, and waiting for a blue-gill or bass to pull it under.

Others find fun on water skis, swimming and sailing while many skim the surface in motorboats. Children love to play in and out of the water as they build tall, fairy castles in the sand.

EVENING HOUR

And then there are those who enjoy the evening hour as they stroll along the shore musing over events of the day.

They view the brilliant sunset and dream of a part in making this a better world for the future of mankind.

As evening shadows steal across the sky mothers and fathers gather their children in for the night offering a silent thank you to God for His care and many blessings.

Welcome 3rd Son

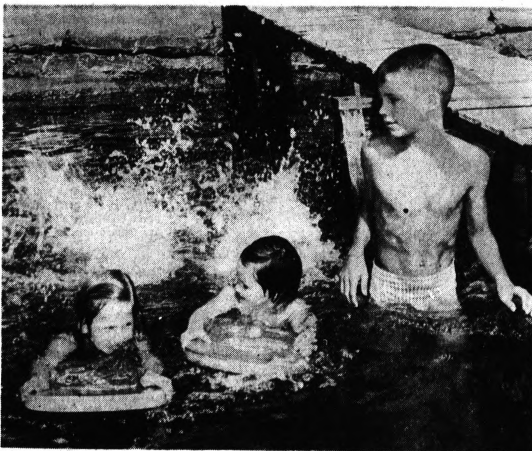

The Paul Spadafore's of Voorheis Road entertained at dinner recently following the christening of their fifth child and third son, Michael Robert, born July 14 in St. Joseph Mercy Hospital.

Jaycettes Helping to Plan Picnic

The Waterford Jaycee Auxiliary held its August meeting in the Waterloo Drive home of Mrs. Richard Schwab. Hostesses for the evening were Mrs. James Curd and Mrs. Raymond Freebury.

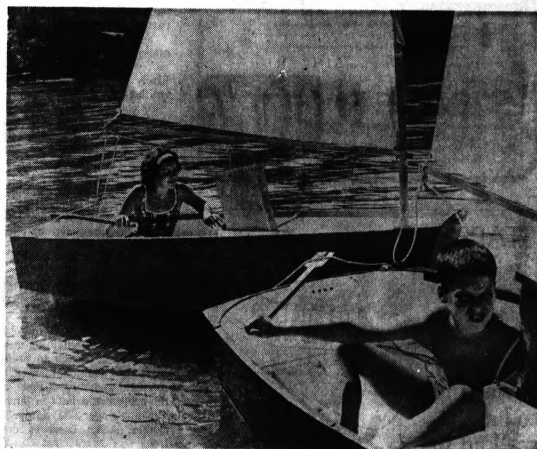

Mrs. Michael Patterson reported on the progress of the

Children's Story Hour which has been held in the Waterford Township Library every Wednesday morning from 10 to 11 a.m. during the summer months.

The auxiliary will assist the Jaycees with food, games and prizes for the annual family

picnic which will take place at the Pontiac Jaycee Park. Tickets for a benefit performance for M.A.E.D.C. (Michigan Association for Emotionally Disturbed Children) are being sold by the Jaycettes. The performance is set for September 29 at 8:30 p.m.

Dinner Followed the Five o'Clock Marriage Rites

The First Presbyterian Church, Royal Oak, was the setting for the recent marriage of Suzanne Marie La Bodie to Richard Charles Baal, son of the Alvin Baals of Sylva Lake.

Daughter of Mr. and Mrs. Stephen La Bodie, Madison Heights, the bride appeared in ivory satin with Alencon lace and baroque pearls accenting the bodice and train. Satin roses held her illusion veil.

A dinner in Kingsley Inn followed the five o'clock ceremony. The newlyweds, presently motoring in Iowa, also visited Niagara Falls on their honeymoon.

Should She Ask Date Inside?

By The Emily Post Institute
A question frequently asked is whether or not it is proper when returning home from a party or the movies, etc., for a girl to ask her date into the house.

In answer: If her family is not at home, she must not invite or allow a boy to come in for a while. If he persists, she should answer casually but firmly, "Sorry, another time," and bid him good night.

However, if her parents are home and have been notified, it is perfectly all right to invite him in for a snack.

DOCTOR HUSBAND

Q: My husband is a doctor and I always introduce him as Dr. Jones. I have been criticized for this and was told that it is in very bad taste for a wife to introduce her husband with title.

If this is true and I introduce him simply as "my husband," people do not know that he is a doctor who will call him Mr., will they not?

A: You should introduce him as "my husband" and then add as an afterthought so that they will know what to call him, "Dr. Jones."

ABOUT SHOWERS

Q: Is it permissible for the mother of the bridegroom to give a shower for her prospective daughter-in-law? I'd love to give one for my son's fiancée, but I don't want to do anything that will be in bad taste.

A: I'm sorry, but it will not be proper for you to give a shower for your son's fiancée, because he will indirectly benefit from the gifts all those who accept your invitation will be obliged to bring his bride-to-be.

You may, however, give any other type of party for her that you please, such as a tea, a luncheon, a cocktail party, etc.

Details concerning the remarriage of a widow and divorcee are described in the Emily Post Institute booklet entitled "Second Marriage."

To obtain a copy, send 10 cents in coin and a stamped, self-addressed envelope to Emily Post Institute, at The Pontiac Press.

The Emily Post Institute cannot answer personal mail, but all questions of general interest are answered in later columns.

WSCS's 25th Anniversary

Pontiac Press Photo

Telephone committee members have busy lines these days in preparation for the 25th anniversary observance of Central Methodist Church's Women's Society of Christian Service on Sept. 2. Mrs. J. Harry Baker of Dwight Avenue, WSCS president,

pauses before dialing to chat with Mrs. John H. Garrison, Cherokee Road, who holds her charter membership card. Treva Overholt Circle members will host the celebration. A noon luncheon will be served by Pearl Baxter Circle.

Son Has Small Stature

He Must Accept Fate

By ABIGAIL VAN BUREN
DEAR ABBY: Our son is 19 and he has always been very small for his age. He wears a size 10 in boy's under-

wear, pajamas, shirts, socks and shoes, but he insists on buying his clothes in the men's departments.

I am driven to distraction because I have to cut everything down to fit him. I offered to do all his shopping to relieve him of the embarrassment of going into the boys' departments, but he refuses to wear anything I have bought from there.

I am sure his size is responsible for his erratic be-

havior. He's cost his father a fortune because of the scrapes we've had to buy him out of. What can be done?

DISTRACTED MOTHER

DEAR MOTHER: Your problem began when you and your husband failed to teach your son how to live with the misfortune of being undersized. You should have sought professional help as soon as this problem became apparent. Children who must go through life with a physical handicap need to develop early the attitude of acceptance.

They should be given every opportunity to develop a skill in something within the realm of their capabilities in order to feel "big" in achievement. Parents must work hard to instill in those children a sense of security and worthiness. Perhaps it is not too late to get professional help for your son. It's worth a try.

I hope your letter will inspire other parents faced with a similar problem to act more promptly.

DEAR ABBY: A well-known man in our town has broken every one of the Ten Commandments with the possible exception of "thou shalt not kill."

And it wouldn't surprise me one bit if he's broken that one, too.

He has born false witness, stolen, used the name of the Lord in vain, coveted his neighbor's wife, and has failed to keep the Sabbath Day holy. Yet he is right up there in the front row, plus as you please every Sunday morning. Do you think a hypocrite like that belongs in church?

October Vows Are Planned

Early October vows are planned by Darylene Alice Gould, daughter of the Richard B. Goulds of Lake Argus, and Herbert Allan Swartwood, son of the Willard Swartwoods of Berkeley.

The bride-elect is a graduate of Western Michigan University and a member of Alpha Gamma Delta sorority. Her fiancé is an alumnus of Ferris State College. His fraternity is Phi Sigma Chi.

A Girl for Barkers

Former Pontiac residents Mr. and Mrs. Earl Barker of Maumee, Ohio, announce the arrival of a daughter Sandra Lynne, Aug. 18.

The child's grandparents are the Donald A. Barkers, Menominee Road, and Arthur Amstern, Clarkson.

Language Reveals Unhappy Secret

By MURIEL LAWRENCE
DEAR MRS. LAWRENCE: I am sure you'll understand why I am not signing this letter. It is about our 21-year-old daughter who was recently home from college.

During the weekend my husband received a long-distance call. When she discovered why I am not signing this letter, it was a four-letter word that has shocked us deeply.

We're not prudish but this was a word that has never passed the lips of her father or me. Her manner was changed, too.

ANSWER: Is she having a bad love affair?

It has been my observation that young people who are involved in humiliating sexual attachments do tend to use hitting language.

If their training has associated four-letter words with nastiness, they will use such a one as your daughter used to express their sense of their own nastiness.

Their furious protest against the painful self-contempt they feel can't be hidden—and bursts out of them in words they connect with loveless and unmeaning sexuality.

Does your daughter's college provide psychological counsel to its students? If so, are you in a position to suggest that she apply for it?

I ask this because it has also been my observation that when a young person is entangled in a repeated sexual attachment receives the guidance that makes his resentment available to him, his use of sex-contemptuous words is left behind with his feeling of self-contempt.

It may be helpful to you and your husband if you could realize that you were shocked, not so much by your daughter's use of this word but by the intensity of the feeling behind it.

I say this because we parents often make the mistake of hearing the offending word while we remain deaf to the offended feelings behind it.

By this I do not mean that we have to applaud the word. I mean that by closing our ears to the despair it expresses, we

get trapped into superficial response to the child, into indignant reproaches which drive him deeper into his loneliness. Thus, the outraged cry, "How dare you use such language?" can be destructive just as quiet, self-possessed, "You must be quite unhappy to talk like that" can be productive.

SEW SIMPLE By Eunice Farmer

Dear Eunice Farmer:

I recently bought some lovely imported cotton and have decided to make a quilted robe from it. I'd like to quilt it with dacton and would like to know if the quilting should be done before or after cutting the pattern.

Mrs. J. I.

Dear Mrs. J. I.:

I would definitely do the quilting before cutting the garment. After the quilting has been completed, you will find the fabric has become smaller, this would affect the size of your garment.

If you are machine quilting, I might also suggest you regulate the pressure on the presser foot so that it won't pull the fabric out of shape and work out to the outer edges instead of beginning at the selvage. This will prevent a bias pull on your fabric. If you intend to launder the robe, be sure to use only washable fabrics and filler.

CONVERT TO JAC SHIRTS

Here's a timely hint for mothers who are getting their children's school clothes ready! Most young boys grow in height before width, consequently we all have many sports shirts that have become too short to tuck into their trousers but fit elsewhere.

Convert them to the new and popular JAC shirts! Make a wide hem and add buttons and a buttonhole on the sides, forming a fold like you find on the ready-made jac shirts. This little tip will add another season's wear and give you a few extra dollars.

Mrs. Mary K. Williamson, Granbury, Texas is this week's Tailor Tris pressing board winner for this suggestion.

DEERSKIN

Several of you have asked for information or suggestions on sewing on "deerskin." Since I have never lived out west I am not familiar with this type of leather. If anyone has any suggestions for working with deerskin, will you please write me immediately and I will also add sewing tips for suedes and leather. From the Fall collections I have seen in previous showings, leather is going to be more popular than ever, so you'll want this information as soon as possible. Please send any of your hints on leather to Eunice Farmer, in care of this paper and we'll see that you get all the "right" answers.

Dear Mrs. B. A.:

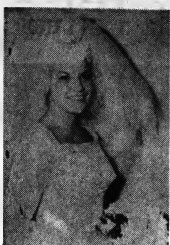

I'm afraid I'll have to let our readers enter into this. I usually try to test all the new sewing notions that are available. However, I have become so accustomed to my large tailor shears, that I haven't tried the electric ones. If you have used them, perhaps you can give us your opinions and we'll send them to Mrs. B. A.—and also pass them on to you. If they work great, they would be a wonderful gift item to the gal in your family that sews!

Occasionally I do stir up a great deal of "dust" when I ask your opinions. A recent topic was your opinion on "shifts." Very few of you seem to be "middle of the road" on this. You either think they are great, or as the majority wrote me, you think they are atrocious. If you are thin, especially in the hips, they appeal to you. The women who have added a few inches to the waist and hips, prefer the shifts with a little fitting.

Fortunately, we are all individuals and can wear what we choose. Summing it all up, I would suggest you carefully analyze your own figure and wear the kind of clothes that do the most for you. Many women look ridiculous because they insist on wearing the most extreme styles just because they are new—without any consideration as to how they will look on them. Let's consider our figure and our age, then select a becoming style and color and you should come up with a real winner.

YOUR SEWING GLOSSARY

Coup de velours: A cut velvet usually on silk or satin.

Debra Lee Swain chose a gown of imported Italian lace and a hand-beaded French illusion veil for recent vows to Michael Myron Okolovitch. Rev. Ralph C. Claus performed the ceremony in St. Trinity Lutheran Church. The newlyweds' parents are Mrs. James Messico of Lanark Street, Donald Swain of Wauqua Street and Mr. and Mrs. Michael Okolovitch of Lake Orion. The couple will honeymoon in Canada.

Reception in the Italian-American Club followed the recent vows of Brenda Kathleen Smith and Roger Dale Grace before Rev. William Brady in the Central Methodist Church. Their parents are the Arnold R. Smiths, East Beverly Avenue, and Mr. and Mrs. Harold D. Grace of Garden Court. White and mint green carnations complemented the bride's gown of white Chantilly lace over taffeta. A northern honeymoon is planned.

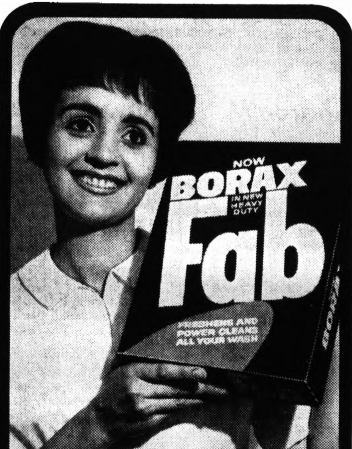

It's More Than Hobby

If you like hobbies that give a return for your time, try knitting. Handknitting is more than a hobby—it's an invitation to fashion's one-of-a-kind, custom look. Knitting is a compact craft, just right for summer leisure. You can knit as you travel or soak up sun at the beach or on your patio.

Handknits were once the exclusive right of royalty. Three

centuries ago, the King of Denmark introduced knitting to his country by offering Danish citizenship to Dutch knitters.

At first, only the royal court was allowed to wear the hand-knit lace hose made by the new settlers—until a rebellion was staged for the privilege of wearing the stylish handknits.

MRS. JEFFREY R. PRIES

Empire Gown Worn by Mrs. Jeffrey Pries

Rose point lace and white
silk organza fashioned an Em-
pire gown for Sara Frances
Rachiele who recently became
Mrs. Jeffrey Richard Pries,
in the Orchard Lake Commu-
nity Church, Presbyterian.

HELD ROSES

She held white roses, Ste-
phanotis and ivy while repeat-
ing vows to Rev. Edward D.
Auchard.

The newlyweds' parents are

Pesky Poodle on Probation

SAN RAFAEL, Calif. (UP)—
Municipal Judge David Baly
has expunged the record and
removed the shadow of the
Bastille from a French poodle
named Mr. Benchley.

The dog had been on proba-
tion for three months for chas-
ing deer in a state game pre-
serve. The judge heard testi-
mony that Mr. Benchley is
now a law-abiding canine. He
returned him to the status of
a free poodle.

Sara Frances
Rachiele,
daughter of the
Benjamin S.
Rachieles of
Keego Harbor,
and Jeffrey
Richard Pries,
son of Mr. and
Mrs. Richard
Pries, Los
Altos, Calif.,
were wed
recently in the
Orchard Lake
Community
Church,
Presbyterian.

Indian River Trip Follows Recent Vows

The Barry Allen Hensons
(Barbara Ann Munley) are in
the Indian River area for a
honeymoon following recent
vows and reception in the
First Presbyterian Church,
Birmingham.

Their parents are the Marv-
in E. Munleys, West Highland
Drive, and the Dale Hensons
of Flint.

CANDLELIGHT RITE

For the double-ring candle-
light rite performed by Dr.
W. Glen Harris, the bride
chose an Empire gown of
white silk organza applique
with imported Irish lace. Her
bouffant veil was silk illusion.

TWINS ATTEND

Karyl Wilson was honor
maid and her twin sister Di-
ana Wilson attended as brides-
maid with Kathleen J. Peters.

With George Miller, best
man, were the ushers Robert
L. Harbruger, Paul G. Hen-
son, Kenneth L. Raymonds,
Windcroft Drive and the Milton
H. Smiths, Grosse Pointe Woods.

Shigleys Entertain

The Edward Shigleys of Ar-
gyle Avenue recently enter-
tained his nephew and wife,
Mr. and Mrs. Ernest Thouns
and their children, of Port
Austin, Tex. at the Shigleys
summer place at Jose Lake
near Hale.

For a Sick Child

Use a dish-drying rack as a
handy, neat filing case for a
sick child's paraphernalia
such as books, crayons,
pencils, scissors and games.

Mamie D. Noell Is Wed

A reception in the Oakland
County Sportsmen's Club fol-
lowed the recent vows of Mamie
Diane Noell to Edward John
Szoj in St. Michael Catholic
Church.

The Andrew J. Noells of Al-
berta Street, Pontiac Township,
and Mr. and Mrs. Edward J.
Szoj of Westbrook Street are
parents of the couple presently
on a northern honeymoon.

With her colonial gown of

white silk organza styled with
court train of Chantilly lace,
the bride wore an illusion veil
and carried red and white roses.

Linda Noell attended her sister
at the nuptial Mass offered
by Rev. Charles F. Rooney.
Carl Sturgis was best man,
Andrew Noell Jr. and Leroy
Roberts ushers.

The wedding breakfast was
served at Fortino's Steak House.

United in Recent Rites

MRS. D. H. SMITH

MRS. E. C. HOUSTON JR.

MRS. B. R. WIGENT

Smith-Raymond

Reception in Devon Gables
followed the recent marriage of
Susan Elizabeth Raymond to
Donald Hugh Smith at Kirk-
in-the-Hills Presbyterian.

Parents of the couple wed
before Dr. Harold DeWindt, are
the Kenneth L. Raymonds,
Windcroft Drive and the Milton
H. Smiths, Grosse Pointe Woods.

TIERED TRAIN

The bride wore white organza
accented with lace motifs. Ruff-
led tiers formed the chapel
train. Chantilly lace edged her
mantilla of silk illusion. She
held white roses, daisies and
pompoms.

With Nancy Raymond, her
sister's honor maid, were
bridesmaids Linda Smith and
Cymbrie Pratt.

Wayne VanHouse was best
man. Jon Jacobson, Larry Van-
House and James Gaeremink
were ushers.

A southern Michigan honey-
moon is planned.

Houston-Sanderlin

Swiss lace highlighted a gown
of white silk organza with court
train for Janice Joy Sanderlin
who recently became Mrs. El-
ton Caulwell Houston Jr.

SHASTA DAISIES

She held Shasta daisies and
greens during the evening rite,
followed by reception in the
Atherton Methodist Church,
Flint.

Parents of the couple who left
for an eastern trip are the Don-
ald B. Sanderlins of Flint and
the senior Houstons of Meigs
Street.

Deborah Sanderlin attended
her sister along with Kathleen
Perry. Deanna Price was hon-
or maid.

With Charles Houston, his
brother's best man, were the
ushers Danny Moore, Bruce
Rule and Robert Walker.

Wigent-Hawkins

The Bruce R. Wignets
(Christine Hawkins) left for
a trip to Mackinac Island after
their recent marriage and re-
ception in St. Paul Lutheran
Church.

Parents of the couple wed
by Rev. Maurice Shackelford, are
Mr. and Mrs. Ben R. Hawkins
and Dr. and Mrs. Ralph Wigen-
t, all of Mohawk Road.

Virginia Hawkins attended
her sister who wore an Em-
pire gown and panel train of
white bridal satin, applique
with beaded and sequined
lace.

Her veil was nylon tulle.
Pink Sweetheart roses cen-
tered her bouquet of white
roses.

On the esquire side were
Andrew Wigent, best man for
his brother, with ushers James
Hiscock and W. T. Connelly.

The couple will reside in
Bloomfield Terrace.

Her Memory, His Undoing

HUTCHINSON, Kan. (UP)—
The long memory of Alice
Bragg, deputy sheriff in
charge of records here,
caused the arrest of Ray Mey-
ers, of Phoenix, Ariz.

FATEFUL VISIT

Meyers had gone to the
county jail to visit his brother-
in-law, Howard Foss, an in-
mate on a bad check charge.
Meyers soon found himself
also in jail as the deputy sher-
iff recalled a warrant issued
in 1961 for Meyers on a \$10
bad check charge.

After being jailed for a time,
Meyers made restitution and
was released. His brother-in-
law stayed in jail.

No Need to Grope

There's no need to grope for
the dust pan if it is one de-
signed to fit on the broom han-
dle for storage.

Sharon M. Blacklaw Marries

Wearing a French import of
white silk faille with cathedral
train, Sharon Marie Blacklaw
became the bride of Michael
Lynn Duff recently in the Beth-
any Baptist Church.

SWEDISH TIARA

Her illusion veil fell from a

double Swedish tiara and ivy
cascaded from her bouquet of
white daisy pompons and Steph-
anotis.

The newlyweds' parents are
the George E. Blacklaws, West
Huron Street, Mrs. A. H. Duff
of Michigan Avenue and the late
Mr. Duff.

Mrs. Edward B. Weick was
honor matron with bridesmaids
Mrs. Wendell White, Mrs. J. B.
Springer, and Mrs. Howard
Crampton.

Robert Duff assisted his broth-
er as best man. Larry Matting-
ly, Stanley Hertel, Lee Barrie,
Gary Metz and Richard
Blacklaw ushered.

CHICAGO HONEYMOON

After the ceremony performed
by Rev. Robert Adams followed
by a church reception, the cou-
ple left for a Chicago honey-
moon.

Candlelight Ceremony Performed

Cascading white carnations
and pink roses were carried
by Sally Ann Stead for her re-
cent marriage to Harold
George Wyrick in the Elm-
wood Methodist Church.

SWEEP OF LACE

The bride wore a gown of
white nylon tulle with a sweep
of lace and tiers cascading to
the floor for the candlelight
ceremony. A double crown
held her net veil.

Honor maid was Sandy
Stead with Linda McArthur as
bridesmaid. Earl Wyrick was
best man. Jerry Wright, Dean
Korthals and Robert Darling
performed the ushering duties.

The newlyweds left for a
honeymoon in Niagara Falls
following their reception in the
Avondale Fire Hall.

The Lloyd Steads of Avon
Township and Mr. and Mrs.
Milo E. Wyrick of North Grant
Street are parents of the cou-
ple.

Paperbacks Need Colorful New Cover

If some of your favorite paperback books look ragged and worn, here's a way to give them colorful new covers.

To "slipcover" paperbacks or treasured children's books that have worn covers, choose a plastic-coated adhesive covering in a color or pattern that accents or complements room decor.

First, measure the book from top to bottom. Then measure the width — front cover, back cover and the binding between.

Draw this pattern on the reverse side of Marvalon adhesive covering.

On paperbacks, add a quarter inch all around as a safety margin; add a half-inch on children's books.

Next, peel back one corner of the paper coating. Carefully press the adhesive portion of the corner of the book cover.

Slowly peel away the rest of the coating as you press the new cover into place.

Trimming away the edges of the covering is the final step on paperbacks. For children's books, press the one-half inch margin in place inside the covers.

So Sorry, Sammy
GREENVILLE, Tex. (AP) — Texas state law will not allow women to serve on juries. Mrs. S. M. Ballard of Greenville appeared for jury duty holding a summons she had received. Judge Arthur B. Clark Jr., took one look at "Sammy" and dismissed her from jury duty.

'Giddy' Brides Have Practical Approach

By MARY FEELEY
Consultant in
Money Management

Who says the pioneer woman is a lost breed in our affluent society? In most places around the world, the young American woman is typed as a spoiled darling who has too much of everything — including the luxury of being kowtowed to by her husband.

It is believed she dashes around in sports cars and spends the rest of her time in discotheques.

Well, maybe somebody had better take another look. Our girls may be getting married pretty early in life, but a lot of them are taking this business of homemaking very seriously.

They may not have to help saw the logs for the rustic cabin, but they accept the fact that it's a do-it-yourself era for women as well as men. And they're prepared to paint, plaster, carpenter, and mop up in their new home.

I was fascinated the other day to have a look at what's going into the "hope chest" of a young friend of mine about to be married. They won't have any money to speak of, she says, so she's being very basic about her "dowry."

She figures the embroidered linens and china can come later, but right now she intends to concentrate on the basics. Her hope chest includes the following:

Hammer, pliers, and wire-cutter, \$3.50; wet mop, \$1.25; scissors (3 pairs), \$1.45 per; wall can opener, \$3.95; ironing board, \$19.95; iron, \$14.95; vacuum cleaner, \$79; skillet, \$1.35; light sockets, 59 cents; extra electric cords, 49 cents.

She also has tucked away three new paint brushes of different sizes, some garden hose and a spade.

I suggested that maybe her bridegroom-to-be might be planning to supply some of these basic household needs, but she said it wasn't fair for a girl to expect a man to think of everything. And maybe she's right. He may have to keep his mind on getting out of school and into a job.

Dear Miss Feeley: In a recent article you said that a person can gain some tax savings through ways of handling interest from insurance policies.

I know that dividends from insurance policies are not taxable. But it is my impression that interest on these dividends must be reported as income, and is taxable.

I would appreciate your suggesting how I might gain a tax saving. Mrs. R. O. Brooklyn, N.Y.

Dear Mrs. O.: If you use the dividends from your policies to pay future premiums, then no tax liability is involved. Or you can use these profits to buy additional paid-up insurance. Again, no tax to pay.

Dear Miss Feeley: We read in your column that a college student can have the standard

\$600 deduction, and the new \$300 deduction under the new tax laws — therefore raising his tax-free limit to \$900.

Our son is a college student (full time) and we've only claimed the standard \$600 deduction. Can you straighten us out on this? Mrs. O. O., New York City

Dear Mrs. O.: There seems to have been a considerable amount of confusion about this new rule. Actually, the new minimum standard deduction was designed to remove many low-income taxpayers from the tax rolls by permitting them to receive a greater amount of income tax-free.

The \$600 you claim for your

son is an exemption, rather than a deduction. If he is earning any money himself, he is entitled to a \$300 deduction, in addition to his \$600 exemption.

This is not just because he is a college student. It's because he falls into the low-income earning group since he could only work part time.

So you, as his parents, are not entitled to deduct \$900 for him. You can only claim a \$600 exemption for him. But if he were earning, and made \$600 or less himself, his earnings would be tax-free.

As Guest, That Is

You on 'Wanted' List?

Living the role of a weekend guest is a favorite retreat from the work-a-day world. Over two-thirds of this country's population live in urban areas, and this is the season to see how the other third lives.

GUESTMANSHIP
When a good time is had by all, both hostess and guest can take a bow. Here are a few tips on the art of good guestmanship that will help win a return invitation.

Always reply promptly to a weekend invitation. Your hostess needs time to plan menus and entertainment, and she may wish to invite other guests if you are unable to keep the date. Also, be sure to set a definite time for your arrival for the weekend.

THOUGHTFUL GIFT
The thoughtful guest will say thanks to the hostess with a gift for the home, and fresh flowers are sure to please weekend entertainers. Florists Telegraph Delivery florists suggest a centerpiece arrangement for the dinner table.

Or, if your hostess has a green thumb, you might choose a plant which she can enjoy indoors now and later transplant in her garden. The ideal guest is never a

borrower. When packing for your visit be sure to consider all possible activities and include swimsuit or tennis garb if sports are on the weekend agenda.

BE FLEXIBLE
Let your hostess set the pace for the weekend and be a willing participant in games, picnics or other planned amusements. Punctuality at meals is a "must" for good guestmanship. If a continental breakfast is served, you may rise according to your regular timetable. Otherwise, start the day on time with a breakfast hour which may be earlier than your own.

PEARCE FLORAL COMPANY
559 ORCHARD LAKE FE 2-0122
TWO DAILY DELIVERIES TO DETROIT AND INTERMEDIATE POINTS

Area Camp 'Fosters' Its 1st College Grad

If an atmosphere of pride hovers over Camp Oakland, there is justifiable reason.

The camp near Oxford, which accommodates children who would otherwise have no permanent home, has produced its first college graduate.

He is Larry Bailey, 21, who

lived at the camp's boys' ranch from the time he was 11 until he started classes at Oakland University.

Bailey maintained a 2.41 average at OU and received a degree in Engineering Science last Sunday.

Acquiring a college education

fulfilled a long-time ambition of the youth, but it was not an easy task.

NECESSARY TO WORK

Despite the aid of a National Defense Education Act loan and some assistance from Camp Oakland, Bailey found it necessary to work at various jobs to finance his education.

He worked as a lab assistant in the OU electrical shop, was employed as a custodian in the university's student center and washed dishes in the cafeteria.

Bailey was married last December and he and his wife, Kitty, now live at 32 Augusta.

The newly graduated engineer is eyeing a career in the electronics industry and already has supplied several prospective employers with resumes.

Camp Oakland's boys' ranch where Bailey was raised was opened in 1953 and the camp's girls' ranch opened six years later.

Operated in cooperation with the Oakland County Juvenile Court, the camp serves as a foster home for wards of the court.

Nonpublic School Act Provisions to Be Explained

The provisions of Public Act 343, which extends certain auxiliary services to children enrolled in nonpublic schools for the first time, will be explained to administrative heads of these schools Tuesday.

Oakland Schools Supt. Dr. William Emerson has invited top administrators of the county's 80 nonpublic schools to attend a 2 p.m. meeting in the board of education building.

Included among the new services to be offered nonpublic school children are numerous clinical services, teacher consultant courses for handicapped children and National Defense Education Act benefits.

These services will be administered by Oakland Schools.

Woman Dies in Crash

MASON (AP) — Edith Minery, 53, of Ludington was killed Tuesday in a two-car collision near Mason.

FIRST GRADUATE — William J. Matus (right), director of Camp Oakland, congratulates Larry Bailey on being the camp's

first alumnus to earn a college degree, as Bailey's wife, Kitty, looks on.

Lack of a Quorum Delays Orion Forum

LAKE ORION — Imagine the Detroit Symphony not showing up for a performance at the Meadow Brook Music Festival and you get an idea of what happened here last night.

A special meeting of the Village Council had to be postponed because of lack of a quorum.

About 200 persons turned out for the meeting, scheduled for 7:30 at the Youth Center.

The council was scheduled to meet at the village hall at 7 to discuss plans for a new subdivision.

An hour later Village President Clarence Rossman, three

councilmen and Attorney Robert Parenti arrived at the Youth Center. Rossman announced that the meeting would have to

AREA NEWS

be postponed until next Monday, the regular meeting night.

MILD REACTION

The reaction of the crowd was mild, considering that many had come to the meeting expecting a monumental dymnbrook.

The council had called the meeting to discuss the status of Police Sgt. Leslie Perkins, who was fired for insubordination last Saturday by Rossman.

Perkins is still on duty, however, by order of Chief Neal Leonard, whom Rossman has threatened with disciplinary action because of his refusal to leave the sergeant of his badge.

Many citizens have been angered by Rossman's action. Five Lake Orion police officers and three sheriff's deputies were on hand at Rossman's request last night, but their services weren't needed.

WERE PRESENT

Councilmen who came out for the meeting were William O'Brien, Ted Cole and Robert Stokes.

O'Brien said Councilman Stewart Drahn was working over time and Councilman Robert Hauxwell was confined to bed under doctor's orders.

Councilman Lewis Rossman was attending a banquet.

Lake Orion Teacher Gets MEA Position

LAKE ORION — William Beer, a speech and social studies teacher at the junior high school and former Detroit radio newsmen, has been appointed metropolitan news director of the Michigan Education Association.

Beer is a graduate of the University of Michigan, has done work at Wayne State University and Harvard University, and is currently in graduate studies at Wayne.

ROBERT J. SWEM

Schoolchildren's Starting Times Set in Clarkston

CLARKSTON — First through 10th graders will be the first to return to school here, according to the Clarkston Community Schools administration.

These students will start school Sept. 8. A faculty meeting will be held the previous day.

First through eighth graders and juniors and seniors will attend school for a half-day session Sept. 9, while all students except kindergartners will have full-day sessions Sept. 10.

Kindergarten pupils will start school Sept. 13. They can enroll any weekday from 9 a.m. to 4 p.m.

Classes will begin at 9:15 a.m. and dismiss at 3:45 p.m. in Clarkston's five elementary schools in the 1965-66 school year.

Clarkston High School classes will run from 8:10 a.m. to 2:45 p.m., while junior high classes will be conducted from 8:15 a.m. to 2:30 p.m.

He later asked Rossman to withdraw the resignation, but on May 24 the council accepted it despite his objections.

In his complaint Swem alleges that the council has "arbitrarily, unreasonably and capriciously deprived plaintiff of his legally elected office . . . and unlawfully extended the term of office of plaintiff's predecessor."

He asks the court to order the council to turn the "books and

2nd Suit Filed to Regain Lake Orion Assessor Post

LAKE ORION — A second suit to regain his status as village assessor was filed in Oakland County Circuit yesterday by Robert J. Swem.

Judge James S. Thorburn authorized show cause orders to be served on the members of the Village Council and set next Monday as the date for a hearing.

Swem filed suit against the village council June 10 asking for a writ of mandamus declaring him to be the legal village assessor.

After three postponements the action was dismissed Aug. 9 by Judge Thorburn because of what the judge termed "inadequate defendants."

Michigan statute prohibits court action against a group, the judge explained, and defendants must be named as either corporate bodies or individuals.

NEW COMPLAINT

Swem entered a new complaint yesterday, naming the Village of Lake Orion as defendant.

Swem filed his first complaint himself but later obtained the services of Pontiac Attorney David C. Hertler on the advice of Judge Thorburn.

He also entered his own complaint yesterday and said he plans to defend it without benefit of counsel.

The Village Council will be represented by Attorney Robert V. Parenti, whose contract as village attorney has been terminated by Village President Clarence Rossman.

WAS ELECTED

Swem was elected to the office of assessor last March but submitted a letter of resignation to the council in May because the assessor's records had not been turned over to him.

He later asked Rossman to withdraw the resignation, but on May 24 the council accepted it despite his objections.

In his complaint Swem alleges that the council has "arbitrarily, unreasonably and capriciously deprived plaintiff of his legally elected office . . . and unlawfully extended the term of office of plaintiff's predecessor."

He asks the court to order the council to turn the "books and

County, 20 Others to Get Aid; Named Drought Disaster Areas

Federal approval for emergency relief in Oakland and 20 other drought-stricken Michigan counties was announced yesterday by Gov. George Romney.

Emergency action was requested by the governor early this month because of hay and pasture shortages brought on by lack of rain.

Designation of the counties as drought disaster areas clears the way for release of land retired under Department of Agriculture programs.

A telegram to Romney from U.S. Department of Agriculture Secretary Orville Freeman said:

"In response to your request we have authorized county ASCS (Agriculture Stabilization and Conservation Service) committees to permit grazing and harvesting of hay on soil bank, feed grain and wheat diversion areas in the following counties:

"Alcona, Alpena, Arenac, Bay, Clinton, Genesee, Gratiot, Ingham, Ionia, Isosco, Isabella, Livingston, Mecosta, Midland, Montcalm, Montmorency, Oakland, Ogemaw, Saginaw, Clare and Shiawassee."

"This permission shall be granted only to farmers who agree to relinquish or refund payments otherwise earned for them by retiring land under USDA programs in amounts equal to the fair value of the vegetation to be grazed or hayed."

Marshall Mohney, director of the county ASCS, emphasized that application for permission to reopen diverted lands to grazing will have to be submitted to the ASCS office at 63 Oakland in Pontiac.

The Oakland County ASCS committee was to meet this morning to determine the rate per acre of refund farmers will have to submit to open their diverted acreage to grazing.

TO OPEN LATE — Construction setbacks have delayed the completion of Muir Junior High School in Milford, which was scheduled to be finished in time for the opening of classes this fall. The unit, with a 600-student capacity, may be completed in November, according to architects for the

project. Meanwhile, Huron Valley School administrators are planning to juggle classes of elementary youngsters to avoid half-day sessions. The new school is being built on George Street northeast of Baker Elementary School.

Pontiac Press Photo

Board Grants Salary Increase

OXFORD — The board of education last night granted teachers a \$200 across-the-board increase in salary.

Schools Supt. Roger Oberg said the raise was granted because Oxford's salary schedule was lower than that of surrounding districts.

He said this made it difficult to obtain teachers.

The new schedule ranges from \$5,300 to \$7,300 for a bachelor's degree and from \$5,600 to \$7,600 for a master's.

This is the second \$200 raise since March. At that time, the board approved a salary schedule ranging from \$5,100 to \$7,100 for a bachelor's degree and \$300 above that on each step for a master's degree.

Last night's increase will cost the district about \$16,000.

Kathy Leach Fund Benefit Dance Set

St. Frederick's Sodality will sponsor a dance Friday at the parish hall, 150 E. Wide Track, from 8 to 11 p.m.

All proceeds will be given to the Kathy Leach Fund which was set up to pay medical expenses of the 2-year-old Lake Orion girl who recently underwent a liver transplant at the University of Minnesota Hospital.

The daughter of Mr. and Mrs. James Leach, 12 Indianapolis. Kathy is still listed in serious condition.

\$70,000 Debt Carried Over

School Budget OK'd in Troy

TROY — The board of education last night approved a \$2,285,629 budget for the 1965-66 school year.

While expenses are expected to amount to \$2,285,629, revenues are estimated at \$2,265,581, leaving a balance on paper of \$592.

As of June 30, however, there was a \$70,000 deficit, the result of failure to get voter approval of extra millage in time for last year's tax levy.

Four consecutive attempts to get extra millage were turned down before the fifth one, a 5 mill increase, was approved in October 1964.

He suggests a large enough issue to buy all the sites the district will need in the future. He said this could be done with no increase in the tax rate above the 1965 rate of seven mills for school debt retirement.

Expenditures in the new budget are up \$344,998 over last year, most of the increase showing up in instruction and plant operation.

Raises and new teachers account for the \$250,278 rise in instruction costs.

Instruction this year will cost \$1,668,545. Monies allocated for other departments are administration, \$36,068; health services, \$1,990; transportation, \$116,081; plant operation, \$278,896; maintenance, \$60,740.

He said expenditures exceeded revenues after the teachers were given raises.

"But, if we're going to stay competitive, we have to keep our salaries in line with other areas," he said.

The new budget is based on an operating tax base of 22.70 mills, 9.70 allocated and 13 mills voted.

In spite of the deficit, Smith says the financial picture is "brighter" than it has been in some time.

GOOD SUPPORT

He said local support is at a new high and the state aid law

provided enough revenue to help support salary increases.

He said the \$4-million bond issue approved in June will help improve present facilities and build new schools.

One item "clo. as the horizon" according to Smith. This is a combination of rapidly rising land costs and imminent development of housing projects where future school sites should be located.

In a communication to the board he said that "some time soon consideration should be given to a bond issue for future school sites."

He suggests a large enough issue to buy all the sites the district will need in the future. He said this could be done with no increase in the tax rate above the 1965 rate of seven mills for school debt retirement.

Expenditures in the new budget are up \$344,998 over last year, most of the increase showing up in instruction and plant operation.

Seek Water From Waterford

CLARKSTON — Independence Township officials will negotiate with their counterparts from Waterford Township in an effort to secure water for residents of Independence Square Apartments on Dixie Highway.

Owners of the apartment buildings made a request that the township arrange for a hook-up with the Waterford Township water system last night.

The owners would pay all installation and other expenses. Estimated cost would be about \$12,000, according to Duane Hursfall, Independence Township supervisor.

There would be no expense to

the township, emphasized Hursfall.

The apartment buildings are located on the south edge of Independence Township. Upon completion, there will be approximately 150 units.

The system would be controlled by Independence Township, which would charge a fair rate to customers, noted Hursfall.

According to Hursfall, too many wells would have to be drilled to provide sufficient water to occupants of the apartment dwellings.

The interest-free planning loan would be repaid when the township actually began construction of the system.

FILE APPLICATION

The step in the water and sewer program to be considered next week is the filing of an application for federal funds to finance the planning of the system.

The interest-free planning loan would be repaid when the township actually began construction of the system.

'Think Water' in White Lake

Officials Set Hearing
on Plans for Future

WHITE LAKE TOWNSHIP — It's time to start thinking about township water and sewer systems, officials here have decided.

They have scheduled for Sept. 1 a hearing on a proposed water and sewer master plan.

Aim of the meeting is to provide information to residents and to determine how they feel about the facilities.

The hearing will be held at 8 p.m. at the township hall.

"This is without a doubt a major step towards the future development of White Lake Township," Supervisor Edward Cheyz said.

COST ESTIMATE

The scope of the work being considered is reflected in the preliminary cost estimates presented by township engineers at Johnson and Anderson, Inc., of Waterford Township.

Their tentative figures indicate it would cost about \$4.3 million to extend sewer lines throughout the township and about \$3.4 million to establish a water system.

The latter would be an independent township operation.

The sanitary sewer lines would tie into the Detroit system through the Dequindre Interceptor.

TOWNSHIP SECTION

Initially the projects probably would affect only a portion of the homes in the township—generally those in the southeast section.

Some 16,000 persons currently live in about 4,000 homes in the township.

The maximum population is expected to be about 25,000, with 10,000 homes. This figure is projected for 1980 or later.

"The population never will be too dense because about 25 percent of the township is taken up by conservation land," Cheyz said.

FILE APPLICATION

The step in the water and sewer program to be considered next week is the filing of an application for federal funds to finance the planning of the system.

The interest-free planning loan would be repaid when the township actually began construction of the system.

People in the News

By The Associated Press

Mme. Chiang Kai-shek, wife of the president of Nationalist China, said in San Francisco, yesterday, the Chinese on Formosa are not tiring of their non-combatant role because "they have a purpose."

"They are waiting to liberate the mainland of China," said Mme. Chiang, making her first visit to the United States mainland in six years. In Honolulu, she had said she hoped to see President Johnson, but said on arrival here she has not been invited to the White House.

Jackie Gleason Grooms Church Youth

GLEASON

Entertainer Jackie Gleason told 5,000 youths at a Lutheran youth conference in Miami Beach to "be friends with God. That's the most important thing in anyone's life."

Gleason welcomed the youths at the opening day of the six-day conference yesterday over the protest of two churches.

The two churches withdrew their 24 members from the meeting because they objected to Gleason's weekly television show.

Senators Cry 'Wait Till Next Year' on Foreign Aid Program

WASHINGTON (AP) — Congressional passage of President Johnson's \$3.36-billion foreign aid authorization bill has left Senate advocates of a drastic overhaul of the program

licking their wounds in defeat. The Senate's battle with the House for a two-year authorization and a revamping of the overseas-aid format is certain to be renewed in the next session.

The final amount that actually will be made available to finance the program will be

fought out in a subsequent appropriations bill providing the money.

Here's what the Senate wanted, and for which its conferees argued unsuccessfully in 14 meetings with House negotiators extending over two months:

1. A two-year authorization to avoid the yearly struggle over foreign aid legislation and to give aid officials more time for planning their overseas military and economic assistance programs.

2. Termination of the program in its present form at the end of two years and the creation of a congressional committee to investigate its administration and recommend changes to reduce spending and concentrate future aid in countries where it will be most effective.

It got neither. Instead it got promises from the House conferees to consider a multiyear authorization next year and from the administration to recommend a longer program then. It got promises from both the administration and the House conferees to restudy the program.

The Senate caved in Tuesday when it voted 67-27 passage of a bill tailored to House demands, and previously approved by that body. All it needs is Johnson's signature.

The amount of authorizations didn't even figure in the major dispute this year, and the long-agreed upon totals came within \$97,470,000 of what Johnson asked.

Humphrey, editor of the editorial page of the Battle Creek Enquirer and News, will assume his new position about Sept. 20, said GOP State Chairman Elly Peterson.

Sen. J.W. Fulbright, D-Ark., said "depressing as I personally find it to ask for approval," these promises "may have laid

the groundwork for more thorough reforms next year." Sen. Wayne Morse, D-Ore., refused to sign the conference report and spoke for nearly three hours Tuesday in an unsuccessful attempt to get the Senate to reject it.

Morse, the author of the investigative amendment that fell by the wayside, argued that nothing less than a congressional mandate would force any change in the program.

Morse's amendment contemplated a revamped program aimed at limiting future aid to 50 countries and tightening criteria on which any aid would be provided. The bill, as passed, carries \$1.17 billion in military aid, the remainder in economic assistance — including loans and grants.

Beats Twins for 16th Win, 2-1

Pitcher Stottlemire 'Keeps' Yankees in Sixth Place

By the Associated Press

There have been thousands, perhaps millions, of words written and spoken explaining why the New York Yankees are in sixth place this season. The extensive injury list has been mentioned, and generally poor hitting, and spotty pitching, even old age.

But no one points to Mel Stottlemire, even though he is probably more than anyone — is responsible for the Yanks being in sixth.

Instead of eighth or ninth. The slim, young right-hander, perhaps the only bright spot in the Yankees' dismal season, hurled a five-hitter at the American League-leading Minnesota Twins Tuesday night, beating them 2-1 and posting his 16th victory of the season.

The triumph tied him with the Twins' Jim (Mudcat) Grant for the most victories in the league and stamped him a distinct possibility as a 20-game winner despite the Yanks' poor showing.

The Chicago White Sox edged Baltimore 6-5, climbing to within 6½ games of the top, Detroit clubbed Kansas City 8-2 and Los Angeles whipped Cleveland 7-1. Boston and Washington split a two-night doubleheader, the Red Sox taking the first 9-4 and the Senators the nightcap 6-5.

The Yankee troubles are legion. Without Stottlemire they'd be positively frightening. The 23-year-old, who reached the majors only a year ago, owns exactly one-quarter of their 64 victories, has 14 complete games and is the workhorse of the staff with 232 innings pitched.

"He never beats himself," manager Johnny Keane said. "He's only had one or two bad games, and they weren't very bad."

ONE SHUTOUT

He's won seven of his last nine starts, had six complete games in the string, one shutout and two one-run games.

He had some troubles against the Twins, however, trailing 1-0 until Tommy Tresh unloaded his 20th homer of the season in the eighth. Mickey Mantle, who had singled, scored ahead of him.

Chicago pitcher Bruce Howard singled touching off a four-run third inning rally that carried the streaking White Sox past Baltimore for their 11th victory in 13 games. Howard then checked the Orioles on one run and five hits until the ninth, when he needed relief help. Moose Skowron's two-run single was the big hit in the third.

George Brunet pitched a five-hitter and got all the hitting support he needed from Jose Cardenal and Willie Smith in Los Angeles' victory over Cleveland. Cardenal drove in two runs with a triple and Smith two more with a homer.

Tony Conigliaro drove in five runs with a grand slam homer and a single in Boston's first game victory over Washington, while Frank Howard had four RBIs with two doubles and two infield singles in the Senator comeback in the second game. Boston's Rico Petrocelli hit three homers in the twinning, two in the second game.

Chiefs to Get Gear

Pontiac Central football prospects may pick up their equipment tomorrow at Wiser Stadium from noon to 1 p.m. and from 7 p.m. to 8 p.m. (for those boys working).

Lumpe Shows Dash at Plate, on Bases in Tigers' Victory

Second Sacker Paces Offense; A's Lose, 8-2

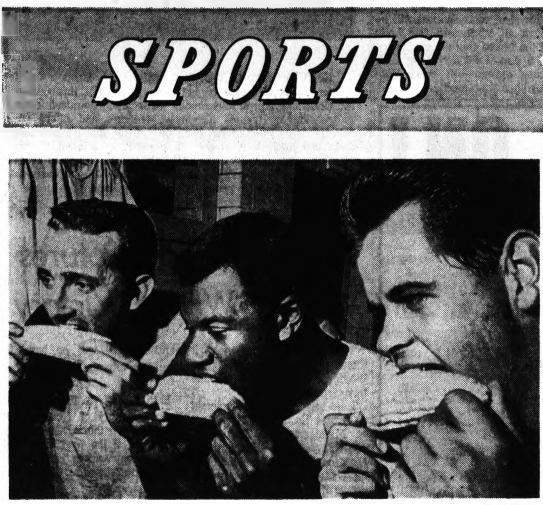

Denny McLain Gains 12th Win; Home Run, 3 RBIs for Cash

KANSAS CITY (AP) — The way Jerry Lumpe was charging around the diamond you might have thought he was trying out for the Olympic track team.

Lumpe got three singles, stole two bases and scored three times as the Detroit Tigers bombed the Kansas City Athletics, 8-2, Tuesday night.

Lumpe stole second base in the third and fifth stanzas but the effort apparently so tired him that he was pulled out and replaced by George Smith.

The victory ended the four-game series at the halfway point, after the lowly A's defeated the Tigers 4-3 Monday. It boosted the Tiger's margin to 13-3 over the A's.

DRESSING ROOM CORN—Cincinnati Reds Jim Maloney (left), Tom Harper (center) and Billy McCool enjoy some corn on the cob after the Reds 3-2 win over Milwaukee in the eighth inning.

Jim Maloney's Luck Continues

By the Associated Press

If you don't think Jim Maloney's luck has changed, just ask Bobby Bragan.

Bragan's Milwaukee Braves were one out away from a victory over the Cincinnati fireballer and first place in the National League Tuesday night. Then the Reds' Tommy Harper, Maloney's second four-leaf clover in as many starts, ripped a two-run homer to beat the Braves 3-2.

Last Thursday Leo Cardenas' 10th inning homer nailed Maloney's first no-hit victory — a 1-0 decision over the Chicago Cubs — after four frustrating near misses.

Tuesday night it appeared Dennis Menke's run-scoring grounder in the seventh inning, which snapped a 1-1 tie, would lift the Braves past Maloney and into the league lead. Los Angeles had blown a 4-3 verdict to the last-place Mets and a Milwaukee victory would put the Braves one-half game ahead of the Dodgers in the pennant scramble.

15TH HOMER

With one out in the ninth, reserve catcher Jim Coker beat out a bounce to short, Chico Ruiz, hitting for Maloney, grounded to first for the second out but Harper laced a Billy O'Dell fast ball over the leftfield fence for his 15th homer and the ball game.

The Reds' victory, after a 70-minute pre-game meeting called by Manager Dick Sisler, carried them within 2½ games of first place. They trail Milwaukee by two games and are one behind third-place San Francisco.

Pittsburgh's Don Cardwell stopped the Giants 5-2 on five hits. Houston edged Philadelphia 4-3 and St. Louis nipped the Cubs 7-6 in 10 innings over NL games.

Maloney's 15th victory matched his total for 1964, when he came on to win nine of 11 decisions after July 1. He is 8-4 this year since that date.

Pontiac Team Wins Twice

300 Bowl Advances, but Merchants Lose

Pontiac had a winner and a loser in state softball regional tournament action last night in Flint.

In Class B, 300 Bowl won a double header, 5-2 over Port Huron in the opener and 3-0 over Flint Sport Shop in the nightcap.

In Class D play, Pontiac's Merchants dropped a 3-2 decision to Owosso and needs a victory tonight to remain in the tourney.

The double victory moved 300 Bowl into the finals which are scheduled for Thursday night. Playing 300 will be tonight's winner of the Flint Sport Shop Port Huron game.

Harland Keith tossed an eight-hitter as 300 dumped Port Huron in the first game. Gene Shell and Tom Studt collected two hits apiece.

PITCHER STARS

In the second game, Doug Hilt pitched a four-hitter and knocked in two runs with his second of two singles in the fifth. 300 scored the winning run in the seventh when Jack Avery reached first on an error, moved to third on another error and scored.

"I would characterize the NCAA boycott as a situation in which never have so many nice guys (in NCAA) been so wrongfully led by a few," Hull told the committee.

SEEKS PEACE

The committee is investigating the latest flareup in the off-and-on NCAA-AAU feud. It seeks a permanent peace plan to save the careers of young athletes and bring a new togetherness in efforts to field the strongest possible team for international competition, including the 1968 Olympic Games.

Earl H. (Red) Blaik, the late Gen. Douglas MacArthur's No. 2 man in negotiating the 1963-64 truce which smoothed the way for U.S. participation in the 1964 Olympics, Tuesday gave the committee a plan for compulsory arbitration. The senators present said the plan looked good. Blaik is the former head football coach at the U.S. Military Academy at West Point.

But no one claimed that either side would accept it, or that Congress could avoid enacting some law to compel a settlement which neither side might like.

College Clique Cited as Track Row Cause

WASHINGTON (AP) — The Amateur Athletic Union blamed a college clique today for the jurisdictional feud which threatens young track and field athletes' careers and U.S. Olympic hopes.

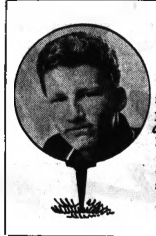

AAU Executive Director Don Hult told the Senate Commerce Committee in prepared testimony that a "very small minority" in the top leadership of the rival National Collegiate Athletic Association was responsible for that organization's boycott of AAU meets.

A temporary truce engineered by the committee on Aug. 16 is all that stands between the two organizations and the athletes both groups have threatened with expulsion from competition for breaking their rival boycotts.

The committee is investigating the latest flareup in the off-and-on NCAA-AAU feud. It seeks a permanent peace plan to save the careers of young athletes and bring a new togetherness in efforts to field the strongest possible team for international competition, including the 1968 Olympic Games.

Earl H. (Red) Blaik, the late Gen. Douglas MacArthur's No. 2 man in negotiating the 1963-64 truce which smoothed the way for U.S. participation in the 1964 Olympics, Tuesday gave the committee a plan for compulsory arbitration. The senators present said the plan looked good. Blaik is the former head football coach at the U.S. Military Academy at West Point.

But no one claimed that either side would accept it, or that Congress could avoid enacting some law to compel a settlement which neither side might like.

Pontiac Press Hole-in-One Club

Bill Barnett

is hereby admitted to The Pontiac Press Hole-in-One Club on this day August 25, 1965, for having scored his first hole-in-one on the 18th hole on the day August 24. His score was attested as 7.0 for the 18th hole.

FAST START

After a fast start in the first inning, when Gates Brown's double scored Lumpe, the Tigers all but sewed up the evening with four runs in the third.

Willie Horton's single to left sent Lumpe home and brought Brown to third. Tom Reynolds then threw the ball into the dugout, allowing Brown to score and Horton moved to third.

Don Demeter doubled off the left field fence, scoring Horton, and Norm Cash's single to center brought home Demeter.

Cash walloped his 18th homer over the right field fence in the fifth sending Demeter home ahead of him after Demeter's single scored Lumpe.

Miss U. S. V Leads Hydros

DETROIT (UPI) — Miss U.S. V driven by Roy Duby led qualifiers Tuesday in the second day of time trials for Sunday's 1965 Spirit of Detroit Unlimited Hydroplane Regatta.

The race was stopped briefly while the crew of a U.S. Coast Guard Cutter fished a spectator out of the Detroit River along the racecourse. He apparently fell in while watching the race from the Belle Isle Bridge.

Duby was clocked at 113.024 miles per hour. The second fastest of the day was Gale's Roostertail driven by Jerry Schoenheit at 109.700 miles per hour. Savari's Mist driven by Walt Kade was third at 106.930 miles per hour.

Steelers Cut Ex-Lion LaRose

By the Associated Press

Cosmo Iacavazzi, All-America pride of the Ivy League, and Lee Grosscup, well-traveled quarterback with the literary bent, were among the casualties of the latest American Football League roster cuts.

The eight AFL clubs were required to cut down to 46 players by midnight Tuesday. Rookies who were in the All-Star game at Chicago earlier this month do not count in the 46.

Among NFL cuts Tuesday were rookie quarterback John Turk from Arizona State, by the New York Giants; and defensive back Dick Haley and defensive end Dan LaRose, a former Lion, by the Pittsburgh Steelers.

Iacavazzi was one of 11 trimmed by the New York Jets. The star fullback from Prince-

ton was deemed too small, at 5-foot-11 and 206 pounds, to make it as a pro running back. In three exhibition games, he picked up 66 yards on 22 carries.

TOP CHOICE

Grosscup, top draft choice of the New York Giants of the National Football League in 1959 following his scintillating passing career at Utah, was cut loose by the Oakland Raiders. He made stops with Minnesota and San Francisco in the NFL and the Jets before becoming a member of the Raiders' reserve squad last year.

Grosscup has written a book on football, plus several magazine articles.

End Dobie Craig, training for his fourth AFL season, also was trimmed by the Raiders. And

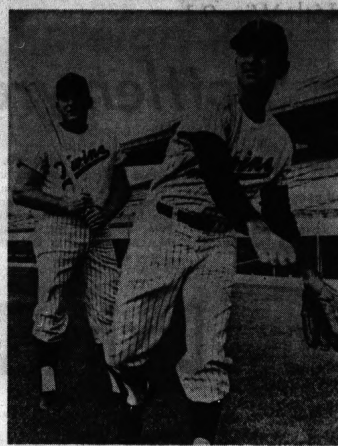

Preacher Pilot, onetime New Mexico State running flash, was dropped by the Kansas City Chiefs.

Several of those taken off rosters were put on injury reserve list. In this category was Dick Westmoreland of the San Diego Chargers, a standout defensive back who suffered a broken arm two weeks ago.

The Chargers also cut Don Rogers, who had been the team's regular center since the AFL started in 1960, and Henry Schmidt, veteran defensive tackle.

Physical Exams Slated

Physical examinations will be given all Waterford Our Lady of the Lakes football candidates at 6 p.m. today in the high school gymnasium, coach Mike Boyd has announced.

AP Photos

RECOVERING TWINS — Minnesota Twins right hander Camilo Pascual (right) does some light throwing at the club's stadium in Minneapolis while another injured teammate, slugger Harmon Killebrew, watches and offers encouragement. Pascual has been out of the lineup since late June and underwent surgery to correct an ailment on his pitching arm two weeks ago. Killebrew is recovering from a dislocated elbow suffered in a base path collision early in August. Both hope to return to the lineup soon.

Detroit Squad Wins Regional Baseball Title

Pepsi Nine to Join City's Huron-Airway in State Finals

Detroit's Pepsi-Cola baseball team won the state Class A Pontiac regional last night under the Jaycee Park lights with a 7-3 conquest of Bishop Construction from Flint.

Detroit thus joins Pontiac in the state finals as the two entries from the local regional. Pepsi finished with a 2-1 mark; Huron-Airway of Pontiac was 1-1; and Flint had a 1-2 mark.

As in the opening night 7-3 loss to Detroit, the Bishop builders were plagued by errors. Six misplays Tuesday led to four unearned runs for Pepsi-Cola.

Detroit never trailed last night. After a four-run top of the fifth inning, its lead was 7-0. Bob Janisse, meanwhile, had held Flint to one hit.

But Barry Hershon tripled in a run and scored on a Detroit error to put Flint on the scoreboard in the bottom of the fifth. Three more hits in the eighth added the last marker for the losers.

Janisse walked only two in going the route. Flint's like Evans (the loser) and Bill Halje issued 10 free passes and five of them resulted runs.

Pontiac's Huron - Airway, which beat Pepsi-Cola 3-2 Monday, now will play Battle Creek there Sept. 2nd while Detroit will resume its state play at Battle Creek Sept. 4th.

Along the Outdoor Trail

with DON VOGEL—Outdoor Editor, Pontiac Press

Techniques Discussed

Deer Primer

By DON VOGEL

The deer season is three months away, give or take a few days, but more than a few of this state's 500,000 November redcoats are either slipping out to the local range to shoot their centerfiers or fondly dreaming of that "big rack" they missed last year.

Francis E. Sell, who spends most of his time test firing guns and then writing about the results, is always thinking about deer.

★ ★ ★

Most of his writing is done while at a cabin in Oregon's prime whitetail and blacktail deer country. The terrain is similar to that found in the eastern Upper Peninsula and certain areas of the L.P. In addition, Sell has hunted in Michigan, Maine, Pennsylvania and other top deer states.

Last year the Stackpole Company published a book by Sell titled, "The Deer Hunter's Guide." This \$5 hardcover book has only 188 pages, but they are loaded with information that will help any hunter who is serious about getting a buck.

Using language that should be even clear to the novice, Sell delves into the selection of the proper rifle, the best bullets, how to snap-shoot, watch a runway, still hunt and drive.

His discussions on the importance of wind and security cover are enlightening. He expertly ties in personal experiences as examples.

He advocates three things in the book: proper rifle fit, the right bullet and DON'T HURRY. All movements, whether watching a runway or moving after deer, should be slow and cautious.

SHORT RANGE

Sell conducted a series of tests on bullet deflection in typical deer habitat. He used standard NRA 100-yard targets in his test, set at 45 yards because he feels most whitetails are downed within this range.

"Between the firing point and target I had typical screening of brush, the type through which a deer hunter is often under the compelling necessity of angling a bullet for a clean kill," he reports in the book.

The results of these tests, showed:

"First, a velocity level between 2,200 and 2,500 feet a second gave the least deflection and no blowup (before the bullet reached the target). Second, a bullet weight in the neighborhood of 150-grain or heavier, is indicated. Third, all these requirements can be met with the most commonly used deer rifle calibers, either by using handloads or factory loaded cartridges.

"These calibers may be any one of the following: 30/06, 280 Remington, 270 Winchester, 30/30 Winchester, 35 Remington, 348 Winchester, 358 Winchester, 5.5x55mm."

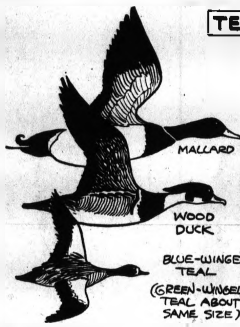

Although Sell didn't mention them, any comparable calibers such as the 308, 7 mm and 284 will do very nicely. And there are others.

He has written a book that should be on every deer hunter's bookshelf.

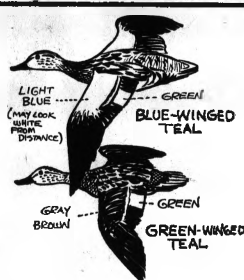

TEAL IDENTIFICATION

① SIZE

- TEAL ARE ONE OF MICHIGAN'S SMALLEST DUCKS.
- OTHER SEPTEMBER DUCKS THAT MAY BE SEEN WITH TEAL ARE THE LARGER 14" MALLARD, BLACK DUCK, WOOD DUCK.

(CONSULT BIRD BOOKS FOR MORE DETAILS)

② FLIGHT HABITS

EARLY SEASON -- Duck hunters receiving permits to take part in the early teal hunting season, Sept. 16-24, will find the above drawings helpful in making proper

③ COLOR PATTERN

flight identification. The hunting will be in 10 designated areas, including Saginaw Bay, St. Clair Flats and Monroe Marshes.

Mallard Shooting Curtailed This Fall

Michigan's regular duck hunting season will get under way Oct. 11 with one significant change in the bag restrictions. Only one mallard and one pintail can be included in the daily bag limit of four. The 40-day season will end Nov. 19.

Goose shooting will be legal in the Upper Peninsula and northern Lower Peninsula Oct. 1-Nov. 30 and from Oct. 11-Nov. 30 in Southern Michigan.

The U.S. Bureau of Sports Fisheries and Wildlife cut the mallard limit from two in 1964 to one this season because the spring count of greenheads returning to the northern breeding grounds was the lowest in history.

With one standard exception, daily waterfowl shooting hours will be the same as last year -- from sunrise to sunset.

Throughout Lower Michigan, no hunting will be allowed before 10 a.m. on Oct. 20, the starting date for the small game season in the southern half of the state.

The opening hour for the special Sept. 16-24 season on teal will be noon. Teal also will be legal targets during the regular season.

The limits on coots will be 10 daily and 20 in possession.

ONE HOODED

The limits on American Red-

Breasted and Hooded Mergansers are five daily and 10 in possession, of which not more than one daily and two in possession may be Hooded Mergansers.

Other specific regulations follow:

The daily bag limit of ducks, other than Mergansers, may not include more than: (A) two wood ducks; (B) two canvasbacks; (C) one mallard and (D) one pintail.

The possession limit may not include more than: (A) two wood ducks; (B) two canvasbacks; (C) two mallards; and (D) two pintails.

From Nov. 1 through the remainder of the respective open seasons for ducks in that portion of the Michigan waters of Lake Erie and the Detroit River described and delineated as a bonus scarp area under Michigan hunting regulations, a daily bag limit of two and a possession limit of four scarp ducks is permitted in addition to the basic limits on other ducks.

Drift Fishing Gets Bluegills

Bass Hitting on Area Lakes at Night

Drift fishing over deep water is producing fair to good catches of bluegills on area lakes.

Crickets or spinner-worm combinations fished in 20-30 feet of water have been yielding results on Lakeville, Big Bridge, Pine, Oxbow and Tipisico lakes.

Bass fishing is pretty much a night operation. The large-mouths move into shallow water after the sun sets and the powerboat traffic leaves. Cass, Oxbow, Union, Pine, Orchard, Lakeville and Pontiac have been good locations.

A few smallmouths are being caught in the Detroit River off Grosse Ile and in Lake St. Clair off 11 Mile and Huron Points.

The middle channel and lower St. Clair River are best for walleyes with a few being taken on the Flats. Roger Shepler, 1417 Glenwood, Pontiac Central's cross-country coach, took a six-pound, 14-ounce largemouth bass from Horseshoe Lake near Grayling last Friday.

"Everytime it broke water I just about had a heart attack," related Shepler. He finally beached the big bass which fell for a live frog.

State Fights Federal Opinion

Two Sets of Licenses May Be Needed

LANSING (AP) — You can imagine the confusion that might be caused by the requirement for two sets of fishing and hunting licenses in Michigan — one each on state-owned and federal lands.

The federal government is attempting to move in on the historic right of the states to regulate game and fish, reports Atty. Gen. Frank Kelley. This threat has Nicholas Olds, assistant attorney general, the state's expert on fish and game laws and legal adviser to the State Conservation Department, working overtime studying all the laws and opinions on the subject.

One main concern is a recent opinion by the solicitor of the U.S. Department of the Interior that the federal government, and not the state, may regulate hunting and fishing on federally owned lands.

PER CENT

The federal government owns more than 3.25 million acres in Michigan, or nearly nine per cent of the total area.

Another threat, Olds reported, is a bill before Congress that would allow the Department of the Interior to regulate rare native species of game and fish in danger of extinction. "That sounds innocent enough on the surface," said Olds. "But just think of the impact it might have on Michigan. You could make a good argument for calling our elk herd, wild turkeys, timber wolves and the moose on Isle Royale all rare species."

Olds already has drawn up a suggested amendment to the latter bill. It is hoped this will be tacked on the measure by some Michigan Congressman.

The amendment would provide that it shall be the intent of Congress that this act "shall at no time and in no manner displace, preempt or deprive the several states of their primary and historically recognized authority to control, regulate and manage fish and wildlife within their territorial boundaries."

The amendment calls for consent of the state legislature or conservation department before such a takeover of their powers would be allowed.

Olds also has prepared a brief to answer the Interior Department's solicitor general. The brief was prepared for the International Association of Fish and Game Commissioners, united for a fight on the threat to state's rights.

"The historical doctrine of ownership of game and fish by

the several states is still basically the law of the land," Olds contends in his answer.

He quotes the U.S. Supreme Court as finding that the states "inherited from the crown and parliament of England all the rights, both of property and sovereignty, which were exercised in England over game and fish."

Olds cited a case in which landowners tried to get damages from the federal government for crop losses caused by migratory wildfowl.

The premise that the U.S. government had sovereign powers over migratory birds was rejected by the Courts—dealing a blow to federal hopes of moving in on the states, according to Olds.

All 50 states are expected to bond together against the threatened federal take-over of their authority, Olds said.

Otherwise, he said, the federal government might start asking for fishing and hunting licenses on federal lands within the states, similar to its system of charging admission fees to national parks.

Rochester Man No. 1 Wayfarer on Water or Off

Don Healy of Rochester made a sweep of the laurels over the weekend as the United States Wayfarer Association held its national sailing championships at Stony Creek Metropolitan Park.

Healy repeated as the national champion by taking three firsts and a second in five races Saturday and Sunday.

He also was elected to lead the association as its 1965-66 commodore. Rochester residents Mary Ann Ayres and Jim Peacock were chosen secretary and fleet measurer.

The USWA officers also included three from Royal Oak: Bill Glaspie, vice commodore; Nancy Glaspie, treasurer; and Dick Johnson, racing captain.

Lake Orion's Fred Lewis was a distant second to Healy in the sailing competition, taking two seconds and a fourth. Jack Pierce of Royal Oak finished third, Nelson Richards of Cleveland was fourth and Johnson took fifth. A lack of good sailing breezes — particularly Sunday — affected the standings since numerous protests were filed and upheld.

Irish Setter Group Schedules AKC Match

The annual AKC sanctioned puppy and all-age match of the Irish Setter Club of Michigan will be Sunday at the home of Ed McIvor, 41067 Ford, P.I. mouth.

Registration will start at 9 a.m. and Mrs. Rosemary Valiquette of Flat Rock will begin judging at 11 a.m. There will be classes for puppies 24, 4-6, and 9-12 in addition to all-age for novice and open dogs.

U. of M. Extension Service Offers Variety of Courses

A diversified autumn class schedule is being offered Pontiac area residents by the University of Michigan Extension Service through its Flint center. All courses are taught by the university faculty. Classes will begin the week of Sept. 5 and continue for 15 weeks.

Courses carry two credit hours unless identified as an adult education (AE) class. Registrations will be accepted at the first and second meetings of the class.

Textbooks can be purchased in the classroom.

Classes to be held at Derby Junior High School, Birmingham, include Art Education Workshop and Elementary School Curriculum.

READING COURSE

Others are Psychology and Teaching of Reading, Writing and Spelling. The Camp as an Educational Agency, Major American Authors to 1870, American Music and Psychology and Contemporary Problems.

Seaholm High School, Birmingham will be the site of Real Estate Business II, Meet the Artist (AE) and Recorder Workshop for Beginners (AE). Emerging Metropolitan Issues (AE) will be held at Baldwin Public Library, Birmingham.

Taught at Cranbrook Institute of Science, Bloomfield Hills, will be Teaching of Science in the Elementary School, Cultural Anthropology (AE) and Identification of Michigan Mushrooms (AE).

MENTAL HEALTH

Courses on Mental Health and The Deviant Individual will meet at Cranbrook School for Boys, Bloomfield Hills.

The Family, a sociology course, will be held at Bloomfield Hills High School.

Pontiac Northern High School will be the location of two credit courses, Problems in Art Education and psychology and Teaching of Arithmetic, plus one certificate course, Real Estate Sales Techniques.

Legal Aspects of Social Work

will be held at the Oakland County Department of Social Welfare, 1200 N. Telegraph.

IN SOUTHFIELD

Taught at Southfield High School will be Psychology and Teaching of Reading, Writing and Spelling.

Set for Walled Lake High School will be the university course, Mental Health.

Descriptions of these courses, together with other pertinent information, may be obtained from the Flint Extension Center, 1321 E. Court, Flint, 48503.

For persons unable to attend the extension courses, U. of M. offers an expanded program in correspondence study.

Contact Robert R. Wilson, supervisor of Correspondence Study and Programmed Instruction, 412 Maynard, Ann Arbor, 48104, for further information.

Tax Fraud Charged to Partners, Accountant

DETROIT (AP) — A federal grand jury indicted two partners in a tool firm Tuesday for allegedly filing false income tax returns for three years, and their accountant was charged with aiding and assisting them.

Named in the indictment were Steven Gennich, 47; Robert Bennett, 50; and accountant Reginald Finkbeiner, 52, of Clawson. Gennich and Bennett were identified as the owners of Genco Tool and Gage Co. of Warren.

Yugoslavia's Federal Assembly contains five chambers with each having 120 delegates.

Chicken-in-the-Basket Main Course Delights Your Guests and Is Easy to Prepare

By CECILY BROWNSTONE
Associated Press Food Editor

When we're in a hurry, and guests are coming for supper, we sometimes offer a chicken-in-the-basket main course. This is one of the easiest ways of serving that we know.

The chicken is fried ahead and about half an hour before the meal, it goes into the oven to get piping hot and crisp.

We have shallow rectangular baskets ready, lined with paper napkins filled with potato sticks, finger salad (cherry tomatoes and celery — plain or stuffed)

and tiny paper cups filled with watermelon pickle.

The chicken is quickly added to the baskets and then the guests "come and get it."

The baskets are inexpensive ones that we picked up in a basket shop here in New York. They're the kind into which a glass baking dish (11 1/4 by 7 1/4 by 1 1/4 inches) fits, so a few of them do double duty.

We have some smaller round baskets in which we offer dessert — usually fresh fruit and bar or crisp cookies. The col-

fee goes into paper cups; if it is hot, we use the cups in plastic holders.

If we serve iced coffee, we use tall paper cups or glasses.

One of the good things about this plan, as you'll find if you try it, is that there's little clean-up for the cook to do.

Make-Ahead Fried Chicken
2 broiler-fryers (about 2 pounds each)

1 1/2 cups flour
2 1/2 teaspoons salt
2 teaspoons paprika
1 egg

1/2 cup milk
2 tablespoons lemon juice
3/4 cup (about) vegetable shortening

Have each chicken cut into 10 pieces: use necks, giblets and wing tips in some other dish. Wash and drain chicken, but do not dry.

In a shallow dish (a pie plate is fine) stir together the flour, salt and paprika. In another shallow dish beat the egg enough to blend yolk and white; stir in milk and lemon juice; mixture will look curdly.

Roll chicken pieces in the seasoned flour, dip in egg mixture, and then roll again in the seasoned flour. Let chicken stand about 20 to 30 minutes for the coating to dry.

If necessary, sprinkle flour over moist spots.

Heat the shortening in a large skillet (10 or 11 inches); add as many chicken pieces, skin side down, as will go in without crowding.

Use moderate heat and fry golden brown on one side — about 15 minutes. Turn and brown other side — 10 to 15 minutes or until cooked through. Continue frying this way until all chicken is cooked, adding more shortening if necessary.

Drain on absorbent paper and cool. Cover and refrigerate. Before serving line a

shallow pan with foil and place chicken on it.

Heat in a moderate (350 de-

grees) oven for 20 to 30 min-utes or until chicken is thor-

oughly hot and coating is crisp. Serve at once. Makes 6 to 8 servings.

Sauce Secret in Sauerbraten

Sauerbraten, a favored German entree, is actually nothing more than pot roast with a tangy sauce. But oh, what a difference the sauce makes!

To start your sauerbraten, marinate in a sweet and sour sauce of vinegar, sugar, bay leaves and cloves. Lemon peel and onion add extra zest.

The roast should be marinated for at least 36 hours so the marinade flavor will penetrate the meat and make it more tender. (The vinegar is what makes the meat tender).

Sauerbraten is traditionally served with hot potato pancakes and gravy made by thickening the marinade.

Simple Sauerbraten
2 medium onions, sliced
Rind of 1 lemon or 1/2 lemon, sliced
1 1/2 cups vinegar
2 1/2 cups water
5 bay leaves
5 whole cloves
1 tablespoon salt
1/4 teaspoon whole peppercorns
1/4 cup sugar
4-5 pound pot roast (round bone or blade)

Mix all ingredients, except meat, in sauce pan. Simmer until flavors blend. Correct seasonings. Cool. Pour over meat. Cover. Marinate in refrigerator 36 hours. Turn often.

Remove meat and dry it. Brown meat on both sides in Fiesta Dutch oven. Pour marinade over and cover. Simmer over low heat about 3 hours, or in 350-degree oven for 3 hours, or until meat is tender.

Sour Cream Fond of Cukes

A good cucumber accompaniment for salmon!

Creamy Cucumbers
1 container (8 ounces) commercial sour cream
1 teaspoon salt
1/2 teaspoon paprika
1 tablespoon cider vinegar
1 drained canned pimiento, diced
2 cups thinly sliced pared cucumber

Turn the sour cream, salt, paprika, vinegar and pimiento into an electric blender. Blend until pimiento is almost combined. Mix with cucumbers and chill. Makes 6 servings.

Did You Get Share?

How much cheese do you eat? According to the U. S. Department of Agriculture, Americans ate more cheese last year than in 1963—over 9 pounds per person.

Hot Muffins Are Always Real Treat

Here's a new version of a favorite hot bread.

Blueberry Rice Muffins
1/4 cup regular unbleached flour
1 1/2 teaspoons baking powder
1/4 teaspoon salt
2 tablespoons plus extra sugar

3 tablespoons butter or margarine

1 large egg
1/2 cup milk
1/2 cup cold cooked converted-type rice
1/2 cup large blueberries, washed and dried on paper toweling

In a medium mixing bowl, thoroughly stir together the flour, baking powder, salt and sugar. With a pastry blender, cut in the butter until particles are fine.

In a small deep bowl, rapidly beat the egg until thick and ivory color; add milk and beat to combine. Pour egg mixture into flour mixture; add rice; stir until dry ingredients are moist and rice is evenly distributed. Fold in blueberries.

Fill buttered muffin pan wells 3/4 full. Sprinkle about 1/4 teaspoon sugar over the top of each muffin. Bake in a hot (400 degrees) oven for 25 minutes; loosen sides of muffins with a small spatula and remove.

Serve piping-hot with lots of butter. If muffin pan wells each hold 1/4 cup, recipe will make 18 muffins.

High Praise

When asked to name the most admired persons of his time, the late Bernard Baruch once said: "The housewife is the most important person; she holds the world together."

Bake Bread in 6-oz. Juice Cans

The early Colonists brought with them the knowledge of cheese making as it was done in their various countries of origin. From England they brought cheddar cheese which was later imitated in America and called American Cheddar or just American Cheese.

Cheddar cheese is an important ingredient in American cooking, its nippy flavor making an intriguing complement for a variety of foods. In yeast breads, it adds distinctive flavor and attractive golden color.

These cute little Cheddar Canape Leaves are baked in frozen juice cans for a new shape. They slice into rounds which make unusual additions to the hors d'oeuvre tray, or may be toasted for use as canape bases.

Cheddar Canape Leaves
1/4 cup warm water (105-115 degrees)
1 package or cake yeast, active dry or compressed
1 1/2 teaspoons sugar
1/4 teaspoon salt
3 1/4 cups unbleached flour (about)

1/4 cup grated Cheddar cheese
Measure warm water into large warm bowl. Sprinkle or crumble in yeast. Stir until dissolved. Add sugar, salt and 1 cup flour; beat until smooth. Stir in grated Cheddar cheese and enough additional flour to form a soft dough.

Turn out onto lightly floured board and knead until smooth and elastic, about 8-10 minutes. Place in greased bowl, turning to grease top. Cover; let rise in warm place, free from draft, until doubled in bulk, about 30 minutes.

Punch dough down. On lightly floured board divide into 6 equal pieces. Shape into balls and place in six greased 6-ounce frozen juice cans. Cover; let rise in warm place, free from draft, until doubled in bulk, about 30 minutes.

Bake in moderate oven (350 degrees) about 20 minutes, or until golden brown. Remove from cans. Cool. Cut in slices about 1/4-inch thick. Serve with canape spreads.

Leave Place for Vegetables

This year, expand your outdoor cooking repertoire to include vegetables as well as meats.

For a start, try kabobs of squash — zucchini and/or yellow squash, brushed with a tasty glaze combining honey, butter, cinnamon and bottled browning sauce.

Cinnamon Glazed Squash Kabobs

2 lb. zucchini (Italian squash) or yellow summer squash
2 tablespoons softened butter
2 tablespoons honey
1 teaspoon kitchen bouquet (bottled browning sauce)
1/2 teaspoon cinnamon
Salt and pepper to taste

Wash squash and cut off stem ends. Cut into 1/2-inch slices and place horizontally on skewers. Combine butter, honey, kitchen bouquet and cinnamon. Brush glaze on squash and place over glowing coals or about 8 inches from oven broiler.

Turn and baste now and then until squash is tender, about 15 minutes. Sprinkle with salt and pepper. Makes 4 servings. Note: Squash may be parboiled first if desired.

Count on heavy cream doubling in volume after it is whipped.

SQUASH ON GRILL — It's barbecue time! Treat your family and friends to grilled vegetables as well as grilled meat, fish or poultry. Here you see summer squash cooking over charcoal.

Peaches Star in Many Ways

By JANET ODELL
Pontiac Press Food Editor

This should be about the middle of the Michigan peach season. September will see

Elbertas and Red Skins ripen, both of which may be used for canning.

In the meantime, why not enjoy the bountiful crop of this delicious fruit with some different recipes?

Ever make a fruit pizza? You might call it an open-faced fruit pie baked in pizza pan. It's yummy, regardless of the name.

Blushing Peach Pizza
1/2 package (1 cup) of pie crust mix
2 tablespoons cold water
1/2 cup sugar
1 1/2 cups fresh peach slices
2 tablespoons cornstarch
Few drops red food coloring
1/4 teaspoon almond extract

Heat oven to 425 degrees. Measure mix into bowl and sprinkle water over it. Stir lightly with fork until just dampened. When pastry holds together, form into ball.

Roll out on lightly floured board or canvas to form a 12-inch circle. Place on pizza or cookie sheet. Flute edges. Prick. Bake 10-12 minutes.

Combine sugar and peaches and let stand about 10 minutes. Drain peaches, reserving liquid; add enough water to liquid to measure 1/4 cup.

Place cornstarch in saucepan and slowly stir in liquid and food coloring. Cook over low heat, stirring frequently until thickened and clear. Add peaches; heat thoroughly.

Remove from heat; stir in almond extract. Spread over baked pie shell. Serve warm or cold with a dollop of sour cream sprinkled with brown sugar. Makes 6 servings.

Homemade peach ice cream is a dessert that's hard to beat. This recipe is as simple as A-B-C.

Frozen Peaches and Cream
1 pint whipping cream
1/2 cup very fine sugar
2 teaspoons vanilla
2 cups finely chopped ripe peaches

Whip cream until it mounds softly. Gently stir in sugar and vanilla. Fold in peaches. Pour in freezing tray; freeze until firm. Makes about 1 quart. Serve with Raspberry-Peach Sauce.

Raspberry-Peach Sauce
1 pkg. (10 oz.) frozen red raspberries
1 cup sliced or diced peaches
1/2 teaspoon brandy flavoring
Thaw raspberries until barely defrosted; add peaches and flavoring. Serve at once.

Peaches star in salads and

in summer beverages. You can stuff peach halves with a meat salad or with cream or cottage cheese.

The Fresh Peach Smoothie is a drink that even dieters can afford in their day's menus.

Stuffed Peach Salad
6 fresh, ripe, sun-blushed peaches
1 can (12 oz.) luncheon meat
6 ribs celery
1/4 cup French dressing
1/4 head iceberg lettuce

Cut peaches in half and remove pit. Peel carefully. Chop meat coarsely. Chop celery. Combine and mix well with French dressing. Fill peach halves with the mixture and arrange on salad plates garnished with lettuce leaves. Yield: 6 servings.

Fresh Peach Smoothie
2 cups sliced sun-blushed fresh peaches
1/4 cup cold water
3 tablespoons fresh lemon juice
2 tablespoons sugar
2 tablespoons nonfat dry milk
1/16 teaspoon salt

Combine all ingredients in the glass container of an electric blender. Cover and blend for 15 seconds to one minute. Serve at once over crushed ice. Yield: 3 1/2 cups.

Fish Francés Are Different

Water chestnuts are the surprise ingredient in this fish stuffing.

Stuffed Fish Francés
2 whole fish (each about 2 1/2 pounds) boned for stuffing
1/2 cup butter
1 1/4 cups finely chopped onion
2 cups finely cut celery

1 cup packaged herb-seasoned bread stuffing
1/4 teaspoon each salt, pepper, thyme and rosemary seasoning
1/2 cup (about 6) thinly sliced water chestnuts

Have head and tail left on fish, if you like, but eyes removed. Wipe fish with a damp cloth.

In a 10-inch skillet over low heat melt the butter; add onion and cook until golden; add celery and cook about 5 minutes. Stir in bread stuffing, breaking up any large pieces, the seasonings and water chestnuts. (Makes about 2 1/2 cups.)

Stuff each fish with half the dressing; skewer or sew up. Place in a shallow buttered pan; rub top fish with soft butter.

Bake in a moderate (350 degrees) oven for 30 to 40 minutes or until fish flakes easily when tested with a fork. Makes 6 servings.

Salmon Fish Is Heart of Pretty Salad Dish

Drain and flake a 1-pound can of salmon and mix with 1/4 cup mayonnaise, 1/4 teaspoon salt, 1/2 cup chopped green onions and 1/2 cup finely chopped celery.

Divide salmon mixture onto 4 salad plates garnished with salad greens and surround with thin slices ripe avocado and lemon. Serves 4.

"CHIPNICS" — WORLD'S FIRST HOMOGENIZED POTATO CHIPS

Sealtest-Created Chips Stay Crisp and Fresh Much Longer

FEEL AND TASTE LESS GREASY THAN ORDINARY POTATO CHIPS

Revolutionary Process Puts Thousands of Crackly Flavor Cells into Each Crisp Chip

Your grocer has a truly new, totally different product this week, CHIPNICS® Homogenized Potato Chips. Developed by Sealtest Foods scientists, CHIPNICS are created by a revolutionary process.

Regular chips are made from potato slices. CHIPNICS Potato Chips are made from homogenized potato batter. The result is a unique kind of chip. Light. Lively. Crackly crisp. Feels and tastes less greasy.

Close examination shows that CHIPNICS Potato Chips are made up of thousands of tiny bubbles, each a crisp shell of potato ready to burst with flavor. These flavor cells give CHIPNICS a new and different texture. CHIPNICS are structurally strong, make excellent "dippies."

Housewives will find these new chips an exciting "something different" to serve with meals, as snacks, for entertaining all year round.

SPECIAL INTRODUCTORY OFFER: SAVE 11¢ ON YOUR FIRST BOX OF "CHIPNICS"! CLIP THIS COUPON—REDEEMABLE AT YOUR GROCER'S NOW!

SAVE

11¢

on any size box of

Chipnics®
homogenized
POTATO CHIPS

Mr. Dealer: Sealtest Foods will reimburse you 11¢ if allowed to a customer, plus 2¢ handling allowance for this coupon provided you received it on your sale of this product and that sufficient product to cover all redemptions has been purchased by you within ninety days of redemption. For redemption, mail to: CHIPNICS Potato Chip, Sealtest Foods, P.O. Box 1767, Clinton, Iowa. Cash value 1/20 of 1¢. Coupon void if faded, prohibited or restricted by law and may not be assigned or transferred by you. Customer must pay any sales or similar tax applicable. Offer expires Dec. 31, 1965.

LIMITED OFFER... ONE TO A FAMILY

SEE THE DIFFERENCE

CHIPNICS Potato Chips are an even, golden brown. No dark spots. No rings. No tough, burned edges.

FEEL THE DIFFERENCE

CHIPNICS Potato Chips are noticeably lighter and feel less greasy. In fact, they weigh about one-third less than regular chips. And CHIPNICS Potato Chips are amazingly crisp. They stay deliciously fresh and crisp long after regular chips have lost their snap. Being strong, they are less likely to break into bits and pieces. Yet they almost melt in your mouth.

TASTE THE DIFFERENCE

CHIPNICS Potato Chips have a fresh, delicate potato flavor with less of the greasy taste of regular chips. An entirely new taste experience. They make a perfect partner for dips and drinks, soup and sandwiches, all kinds of family and party fare. A great snack by themselves!

BAG-IN-A-BOX PROTECTION

CHIPNICS Potato Chips are specially protected against spoilage and breakage by a bag within a box. To reveal the foil-lined bag, just pinch-fold the top. Keeps CHIPNICS full-flavor fresh for days.

Streamlined State Fair Board Backed

DETROIT (AP) — A special Senate committee investigating internal affairs and policies of the Michigan State Fair Authority said at the conclusion of a hearing Tuesday it will recommend "complete streamlining" of what it termed "the unwieldy" 20-member authority.

Sens. Gerald R. Dunn, D-Ft. Lauderdale, and Roger E. Craig, D-Dearborn, announced they would resume hearings next Monday at Detroit's Veterans Memorial Building.

Dunn and Craig also said they would recommend legislation to ban what they said was the practice of providing all members of the authority with private trailers parked on the Detroit Fairgrounds during the State Fair.

It was the connecting of these trailers, the senators said, that caused picketing earlier by union plumbers and threatened the scheduled opening of the 1965 fair Friday night.

STATE EXPENSE

The senators said the trailers

are rented at state expense and cost \$155 each for the 10-day fair.

Authority Chairman Charles Figy of Morenci and general manager Walter A. Goodman were heard Tuesday, and Dunn said Figy agreed the authority was "unwieldy, and the structure unsound."

He said the chairman also agreed inexperience of newly appointed members contributed to confusion.

'Lid' Is Off Crime Clue

OAKLAND, Calif. (UPI) — Police were just about to give up their search for two burglary suspects in a store here yesterday when a brown derby hat fell from a second story window and landed at an officer's feet.

The police renewed their efforts and found Edgar Dennis, 20, and his brother, Harry, 22, hiding upstairs. They were held for investigation.

Says LA Probe Could Aid U.S.

LOS ANGELES (UPI) — A formal investigation of Negro rioting which cost 37 lives today took on a nationwide scale.

Gov. Edmund G. Brown said an investigative commission, appointed by him and headed by John A. McCone, former chief of the Central Intelligence Agency (CIA), could develop findings and recommendations that might benefit all areas of the nation troubled by racial unrest in depressed income areas.

The governor said yesterday

he had instructed the eight members of the investigative commission to work on an objective basis to determine causes of the Negro rioting here and "consider whether there are any steps which private citizens may take, individually or jointly, to prevent a repetition of bloodshed."

Brown told the commission at a formative session:

"The fate not only of Los Angeles but of other cities in California and the nation may well

depend on your findings and your recommendations."

The governor and McCone said they agreed on a Dec. 1 "target date" for a report from the commission.

Brown and McCone stressed that the commission would try to avoid any political or racial prejudgments in its work.

"The commission will not tolerate prejudice on the part of the commissioners or its staff," said McCone.

He repeated this statement when he and Brown were questioned at the new conference about the attitude of the Rev. James E. Jones, a commission member and member of the city board of education, who has been critical of Police Chief William H. Parker's treatment of minority problems.

Jones is one of two Negroes on the commission. The other is Superior Court Judge Earl G. Broady.

Gals 'Dressed Down' on Attire

QUEBEC (AP) — Quebec's city government is waging a polite war on women wearing shorts and other scanty attire in public places.

Police are passing out a pamphlet to underdressed females telling them: "Involuntarily you have committed an infraction of Bylaw 784 concerning decency and good morals. We ask you, as a way of giving our department your best collaboration, to observe our rules, and we thank you for obliging us."

The pamphlet was written with tourists in mind and tells

them: "As a stranger to Quebec, it is possible that you are not aware of our municipal regulations." However, police say most of the 100 women warned so far have been natives, not visitors.

A few scanned the pamphlet, then tossed it away "as if they didn't think it important," said Police Chief Gerard Girard. The chief said that while many citizens have been complaining about underdressed females, no one has been charged yet, "but we will cer-

tainly make some examples," he said.

Bylaw 784 requires "the wearing of clothing covering, in decent fashion, the lower as well as the upper portions of the body, in the city's streets or parts."

Clothing classed as objectionable includes dresses scanty around the shoulders, bathing suits, and shorts unless they are part of a military or scout uniform or are worn for sporting purposes within appropriate areas.

Helicopter Reporter Puts Out Car Fire

BALTIMORE, Md. (AP) — James Conway, who reports traffic conditions from a helicopter for a radio station during rush hours, was out of touch for 3½ minutes Tuesday.

Conway had spotted an automobile on fire on Baltimore's eastern outskirts. He directed pilot Nick Nickerson to land at the scene, extinguished the fire with foam equipment, then resumed his flight.

There are more bones in the body of a trout than in that of a bird.

USW Likely to Nix New Offer

PITTSBURGH (AP) — Directors of the United Steelworkers Union met today for a briefing on steel talks amid strong indications from a union source that a new industry contract offer has been found unacceptable.

Seven days remain before the union is free to strike the nation's basic steel industry at midnight Aug. 31.

The 33-member executive board was expected to consider

an industry offer estimated at between 9 and 13 cents an hour. Indications were, however, that union negotiators were unhappy with the offer and that if it was presented to the board it would be rejected.

"It was an offer, if you can call it that," said an informed union source Tuesday. He said it was more than the nine cents the industry previously said was its ceiling, but "nowhere near" what union negotiators expect-

The union has been demanding an increase of 17.9 cents an hour for 450,000 members in basic steel who now average \$4.40 an hour in wages and benefits. It won 11.5 cents an hour in an interim contract that expires Sept. 1.

William E. Simkin, director of the Federal Mediation and Conciliation service, planned to continue his separate talks with both sides.

The latest industry offer was made at two sessions of the top-level bargaining committee that includes union president I. W. Abel and chief industry negotiator R. Conrad Cooper.

burgh last week, has been credited with suggesting the interim contract that averted a steel strike last May 1. He has been joined by an aide from Washington and R. W. Donahoe, regional director of the mediation service from Philadelphia.

Report Warns of Race Crisis

'Family Life of Negro Is Disintegrating'

WASHINGTON (AP) — John administration officials reportedly are taking a hard new look at a confidential report warning that disintegrating Negro family life threatens a national racial crisis.

The report, circulated widely among top federal officials before the Los Angeles riots, reportedly has been getting increased attention since the trouble there.

The report, made available to the Associated Press, says that, despite recent civil rights legislation, the social and economic plight of most Negroes appears

to be getting worse instead of better, particularly in big city ghettos.

It says the root of the trouble is that three centuries of slavery and discrimination have robbed the Negro male of his sense of manhood, leading to a crumbling family structure.

MALE ANIMAL

"The very essence of the male animal from the bantam rooster to the four-star general is to strut," said the report. But, historically, the instincts of the American Negro male have been suppressed, it added.

"Indeed, in the 19th century America, a particular type of

exaggerated male boastfulness became almost a national style. Not for the Negro male. The 'sassy nigger' was lynched," the report said.

The report, prepared by the Labor Department's Office of Policy Planning and Research and dated last March, has not been made public officially. The department gave no reason for this. Nor does it indicate whether it ever will officially release the report.

Johnson quoted extensively from it last June, however, in announcing a White House conference for November aimed at helping Negroes secure their rights.

BASIC PREMISE

Johnson, in citing a breakdown in Negro family structure, accepted the basic premise of the report.

"For this, most of all, white America must accept the responsibility," he said. "It flows from centuries of oppression and persecution of the Negro man. It flows from the long years of degradation and discrimination which have attacked his dignity and assaulted his right to provide for his family."

Daniel P. Moynihan, former assistant secretary of labor for policy planning and research, helped prepare the report before he resigned to enter New York City politics.

A task force of officials of several federal agencies worked on it.

CONFIDENTIAL

The report, still officially confidential, goes much further than depicting an alarming breakdown among Negro families.

It describes current Negro unrest as no less important than the original American revolution and says it may be crucial to whether the nations of the world eventually divide along color lines.

"It is clear that what happens in America is being taken as a sign of what can, or must happen in the world at large," the report says.

It called the Negro plight the nation's most dangerous social problem.

CITES FIGURES

In documenting the breakdown in Negro family structure, the report cites government figures showing that nearly 25 per cent of all Negro births are illegitimate, compared with about 4 per cent for whites.

Similarly, about 25 per cent of all married Negro women are divorced or separated from their husbands, compared with about 8 per cent for white women.

The report also contained a racial breakdown of armed forces mental tests, showing that 56 per cent of Negroes fail it, compared with 15.4 per cent for whites.

The armed forces test measures ability to perform at an acceptable level of competence for military life.

MEASURES ABILITY

"It roughly measures ability that ought to be found in an average 7th or 8th grade student," the report said.

"A grown young man who cannot pass this test is in trouble," it added.

Armed Youth Robs Resident in Home

A young man armed with a gun entered a Pontiac home last night through an unlocked back door and robbed the occupant of \$1.

Frank Callender of 1242 Meadowlawn told Pontiac police that he was in bed when he heard the intruder enter the house at about 10:45 p.m.

The gunman came in the bedroom, took \$1 from Callender's wallet, then fled.

Order Woman Freed in Husband's Death

MUSKOGEE (AP) — A suburban Twin Lake mother of eight children was freed today after being jailed in connection with the gunshot death of her husband.

Prosecutor Paul Ladas ordered Mrs. Barbara Philter, 31, released. He said a formal charge was withheld pending results of an inquest.

Bids Exceed Estimate on County Units

Bids opened yesterday on an estimated \$52,000 project to expand two Oakland County service center buildings ranged from \$72,128 to \$101,127.

Five firms submitted proposals on additions to the laundry building and garage at a joint meeting of the ways and means and buildings and grounds committees of the County Board of Supervisors.

The bids, which generally were termed disappointing by committee members, were referred to county engineers and architects for a recommendation.

Included in the project are an additional 2,200 square feet for the garage and 1,900 square feet for a basement addition.

Present laundry and garage facilities had been termed inadequate by the buildings and grounds committee which called for bids on the additions.

Low bidder was the Dale E. Cook Construction Co.

Revenge, Italian Style

MILAN, Italy (UPI) — Bus driver Angelo Ferruzzo splashed a group of people waiting at a stop on a rain-soaked street yesterday. The infuriated victims dragged him from the bus and pulled off his pants. The hapless driver returned to the terminal in his underwear.

Waterford Planners OK 60-Acre Subdivision Plan

Waterford Township Planning Commission last night recommended approval of a rezoning request for development of a 60-acre parcel of land on the northeast corner of Cass-Elizabeth and Cooley Lake roads.

Deliberations continued for more than two hours on the proposed \$4-million project before the commission gave its recommendation by a narrow 4-3 vote.

More than 350 persons crammed into Waterford Township High School's cafeteria to attend the public hearing.

The proposed subdivision

County Man Mute in Fatal Stabbing

A Ferndale man stood mute this morning at his arraignment before Oakland County Circuit Judge Philip Pratt on a charge of second-degree murder in connection with a July 10 stabbing in Royal Oak Township.

A plea of not guilty was entered for Clifford Freeman, 51, of 21418 Wyoming. No trial date was set.

Freeman is charged with the pocketknife murder of Ira Oldham, 30, of 21697 Glenfield, Royal Oak Township.

Doing Time for Crime Is Sublime

CHICAGO (UPI) — There is nothing unusual about reputed underworld chief Sam (Moe) Giancana living high on the hog. But authorities were investigating reports today that Giancana has been continuing his luxurious living even though he is in Cook County jail.

Two newspapers said federal, state and county authorities were looking into reports that Giancana has been living in the style to which he had become accustomed, with jailers smuggling steaks, \$1 cigars and whisky into his cell.

The elderly underworld figure has been making his home in Cook County jail since earlier this summer, when he respectfully declined to answer grand jury questions about the operation of the crime syndicate.

Since then, the Chicago Tribune and the Chicago Sun-Times reported, Giancana's life has been as gracious as his refusal to testify.

The Sun-Times reported Giancana strolled regularly from an unlocked cell to watch the late show on television while puffing an expensive cigar.

Hover Plane Fails First Test

ATLANTIC CITY, N.J. (AP) — The Curtiss-Wright X19 tri-service aircraft, an experimental plane designed to rise vertically, hover and then fly forward at speeds up to 460 miles an hour, crashed today during its initial test flight at the National Aviation Experimental Facilities center in nearby Pomona.

Chief test pilot James V. Ryan and project test pilot Bernard J. Hughes parachuted safely from the plane, which crashed in flames in a swamp on the federal reservation about 7:30 a.m.

Officials would only say the plane had been in flight approximately 20 minutes and was on its way back to the landing strip when the accident occurred.

They said no other information about the crash could be released publicly until an investigation was made by authorities.

However, Sam Myers, former Associated Press Photographer who was on the scene, said: "The plane circled and was ready to land but then it appeared to lose its right motor and then it's left."

"It was on fire when it crashed in the swamp about six miles from where it was to land."

Deaths in Pontiac Area

MRS. EARL BLEDSOE
Service for Mrs. Earl (Ella M.) Bledsoe, 42, of 723 Second will be 1:30 p.m. Friday at Voorhes-Siple Chapel with burial in Perry Mount Park Cemetery.

Mrs. Bledsoe died Sunday.

MRS. NANCY M. GOYETTE
Service for former Waterford Township resident Mrs. Nancy M. Goyette, 32, of Fresno, Calif., will be 1:30 p.m. Saturday at Sparks-Griffin Chapel with burial in Mt. Avon Cemetery, Rochester.

Mrs. Goyette died yesterday from injuries received in an automobile accident in Fresno. Surviving are her parents, Ervin Meier of Pontiac and Mrs. Hazel Johnson of Pontiac; and four children, David, Bruce, Betty Ann and Dawn, all at home.

Also surviving are two sisters, Mrs. Betty M. McLeish and Mrs. John Harper, both of Pontiac.

GLADYS C. HYATT

A memorial service for Gladys C. Hyatt of 100 S. Genesee will be 2 p.m. Saturday in the chapel of Central Methodist Church. Miss Hyatt bequeathed her body to Wayne State University School of Medicine.

An employee of Sinna Brothers, Inc., for 26 years, Miss Hyatt died Monday after an illness of a year.

She was a member of Central Church, Tipacan Charter Chapter of the American Business Women's Association and Michigan Grapho Analysts, Inc.

Surviving is a sister, Mrs. Ethel Warner of Flint. The family suggests any memorials be made to the American Cancer Society.

BABY BOY KING

Prayers for Baby Boy King, infant son of Mr. and Mrs. Jack King of 447 Emerson, were held here on Tuesday at 3 p.m. after a stillbirth at the Hutton Funeral Home with burial in Perry Mount Park Cemetery.

The baby died one hour after birth yesterday.

Surviving are the parents; six brothers and sisters, Patricia, Jack Jr., Donald, Lennie, Brad and Kimberly, all at home; and grandparents Mr.

Car Accident Injures Pair

Two persons were hospitalized this morning when a car in which they were riding left Pontiac Road in Pontiac Township, went into a ditch and struck a tree.

Listed in satisfactory condition in the emergency section of St. Joseph Mercy Hospital are Gerald H. Simpson, 26, of 187 Beach and Janice Richardson, 221 Pontiac, Pontiac Township.

Oakland County Sheriff's deputies said the car was traveling east at about 5 a.m. when the accident occurred.

State College Gives Astronaut a Degree

HOUGHTON (UPI) — Astronaut Donald K. Slayton received an honorary doctor of engineering degree from Michigan Technological University today.

The degree was conferred in absentia because Slayton, as assistant director for flight crew operations at the National Aeronautics and Space Administration in Houston, was working with the Gemini 5 mission.

AWAITS DESCENT—Sealab II, the Navy's experimental house for living beneath the water, cruises near a site off La Jolla, Calif., where it will be submerged to a depth of 210 feet.

Divers and scientists will live in the capsule during the 45-day experiment. The Sealab is scheduled for descent tomorrow or Friday.

Off California Coast

Minor Problems Delay Sealab Descent

By RALPH DIGHTON
AP Science Writer

LA JOLLA, Calif.—Safety checks for gear for Sealab 2 are taking far more time than planned, Navy officers say, and it may be Thursday or Friday before divers will be allowed to enter the 12 x 58-foot steel chamber which will be their underwater base for 45 days.

"There are no big problems — just a whole lot of minor ones that have to be solved before we can let the men begin residence at a depth of 210 feet," said Capt. Ray Spenser of the Engineering Applications Division of the Office of Naval Research.

Lowering of Sealab 2 to the bottom 1,000 yards off this Southern California resort, planned since Aug. 15, was delayed Tuesday afternoon by a series of problems that cropped up as piece after piece of auxiliary equipment was checked out.

First there were leaks in a diving bell which will take 10-man teams to and from Sealab for 15 day stays. These were repaired. Then came trouble with air-hose seals and other equipment.

PRACTICE LIFT
Much of the day was spent practicing lifting the diving bell from the water and swinging by crane to a decompression chamber on the mother ship, a tricky procedure on a rolling sea and one that must be performed with split-second precision.

The first team slowed their gear aboard the Sealab 2. The gear includes a ukelele belonging to the team leader, astronaut M. Scott Carpenter, a

Navy commander who is a diving expert.

Carpenter plans to use the ukelele to while away some of the lonely hours below. There was some doubt, however, how long he would persist.

In the mostly helium atmosphere with which Sealab 2 will be pressurized, face-to-face conversation sounds like cartoon mice and ducks in an argument — so what will a ukelele

do to the ears of Carpenter's teammates?

SOUND DISTORTED

Capt. Miller said the cause is not precisely known, but apparently sound is distorted in traveling through helium — sometimes so badly that human speech is unintelligible.

"One of the things we hope to do in Sealab 2 is perfect some way of unscrambling helium-distorted speech," Miller said.

Needed Speed Indeed

PORT ELIZABETH, South Africa (UPI)—Apologizing for driving at 80 miles an hour on a city street, 20-year-old Daniel Higite explained in court he had taken a laxative. "and I was in a hurry to get home." The unsympathetic magistrate fined him \$112 for speeding and another \$28 for having a noisy vehicle.

State of Emergency Declared

S. Korea Mobilized to Combat Rioting by Students

SEOUL, South Korea (UPI)—South Korea today mobilized its armed forces to quash student riots and antigovernment demonstrations. A state of emergency was declared.

The order was issued amid continuing protests against the treaty establishing normal relations between South Korea and Japan.

Earlier today, armed soldiers swinging their rifle butts waded into huge crowds in the streets of Seoul in an attempt to disperse demonstrators.

An estimated 10,000 students participated in the fourth consecutive day of protests against

the treaty. The government retaliated by using troops against the rioters for the first time.

In the initial incident, 400 soldiers, armed and wearing gas masks, hurled tear gas at 2,000 demonstrators and then charged the crowd with rifle butts flailing. The mob scattered before the onslaught.

DISCUSS PLANS

President Park Chung Hee called in his defense minister and army chief of staff to discuss a full-scale mobilization as a means of ending the crisis.

Park scheduled a nationwide television and radio broadcast

to appeal to students to refrain from further demonstrations

4 Jailed; \$120,000 of Loot Still Sought

LOS ANGELES (AP) — Four men convicted of robbing an armored car of \$315,000 in cash and checks, have entered prison with about \$120,000 of the loot unaccounted for.

"We have no idea where it is," said Detective Sgt. John Campbell.

The missing loot is part of that taken last Feb. 3 outside a supermarket here.

and to warn of harsh treatment for those caught ignoring government orders.

Riot police tackled demonstrators at schools in various parts of the strife-torn capital.

A total of 4,000 students from Kunkook and Hanyang universities fought a pitched battle against police for hours. An estimated 1,500 students from Seoul National University scattered when police charged into them through a hail of rocks.

BATTLE AUTHORITIES

Another 2,000 students from Kyun Ghee University and from other colleges battled authorities in other parts of the city.

At Hanyang University, some 500 policemen forced demonstrators back onto the campus, but the students regrouped and counterattacked with guerrilla-type tactics. The police retreated.

In another incident, students captured several truckloads of bricks and broke them up into smaller pieces to be used to battle the police.

Many South Koreans are opposed to the treaty because they are bitter over years of Japanese colonial rule prior to the end of World War II. Japan has not yet ratified the treaty.

Film Gets Realistic Background Noises at Jittery Viet Outpost

By HUGH A. MULLIGAN
DAK PEK, South Viet Nam
(AP) A bizarre, bewildering war—

At this remote Special Forces camp near the Laotian border we had just settled down to watch a movie called "Two Rode West" screened on a bed-sheet suspended from the back of a 2½-ton truck.

The cavalry was getting the better of the Comanches, and the Montagnard soldiers sitting on their haunches at our feet had begun to take umbrage at the color outrages unfolding on the screen. The Montagnards, an aboriginal type people, are always on the side of the Indians when American Westerns are shown.

Suddenly off to our left, just

AP SPECIAL REPORT

beyond the screen, the velvet black sky came alive with flares that turned the jungle night into gaudy day.

ATTACK IS ON

"Dak Sut is under attack!" S. Sgt. Ronald T. Perdus of Lake Wales, Fla., shouted, running up from the sand-bagged radio bunker.

In brilliant flashes of light and pounding peals of explosives, the attack on Dak Sut, a Special Forces camp 10 miles to the east, unfolded before our eyes and echoed in our ears. The pro-

jector stopped and the semicircle of viewers turned their attention to the pyrotechnics flashing over the next mountain.

A big jungle moon rode over the dark green hills just as the first strike of bombers droned overhead and began dropping their payloads in the Viet Cong-infested caves and ridges around the camp under attack. The radioman kept us apprised of the attack in terse bulletins: "The district house is burning."

"They've just set fire to the district town."

"They're being hit by mortars and recoilless rifles."

Slow-dropping flares, constant explosions, glows like flashes of summer lightning amid the dull rumble of thunder, the endless drone of the bombers, made our own camp guard tense and itchy-fingered.

Twice the alert sounded, sending us down to the sandbagged bunkers as the guard units on the hills surrounding our camp opened up with automatic weapons and small arms. Overhead our own flares were set off, illuminating the camp.

It may have been a dog chasing a deer through the thick bushes. Whatever it was, each round of fire set the next hill to firing.

GET GO-AHEAD

When this died down, it was decided to go ahead with the movie. The new sound effects of the distant attack coupled with the constant glow of flares and flash of bombs gave the movie a dimension Hollywood never dreamed of.

Toward the end of the third reel, just as James Stewart was having a massive confrontation with Richard Widmark, the sky out beyond the screen ignited with a terrific series of explosions that lit up the sky.

"They've hit the artillery dump, that's 105 shells going up!" someone shouted.

All night long the bombers droned overhead. The moon hid its face, rain pelted down in slanted sheets and still the bombers came. The hills growled with real thunder as well as the thunder of the battle. Strike after strike of bombers moved above the clouds, led by the little single-engine spotter planes.

At 4 a.m. word came that the Americans and Vietnamese were pulling out of Dak Sut and moving into the jungles along prearranged escape routes.

In leaving, the defenders set off their ammunition, burned their gasoline supplies, touched off their grenades. The Viet Cong overrunning the camp must have found only a burning

mountain, or so it appeared from our vantage point.

BEST VIEW

Sgt. L. C. John Robbards of Sneads, Fla., and S. Sgt. James Waits of Fort Worth, Tex., had the best view of the attack on Dak Sut. They were atop a mountain, coming back to our camp from a seven-day patrol along the Ho Chi Minh trail.

"It was quite a show," said Robbards later. "The firing went on all night. You don't often see that much firepower going on all at once. The VC must have paid heavily for that little piece of rural real estate."

Professional soldiers talk in those matter of fact terms, or perhaps professional soldiers, or perhaps professional soldiers most of all, cheer the deliverance of their buddies in trouble. When the word came that the Americans from Dak Sut had been picked up by helicopters, the neighboring camp at Dak Pek broke out the case of beer it had been hoarding for just such a special occasion.

Cut flowers account for a little more than half of all horticultural specialty crops in the United States.

Indians Cross Kashmir Line

Say Aim Is to 'Prevent Pakistan Infiltration'

NEW DELHI, India (AP) — Indian forces in Kashmir have attacked across the cease-fire line into Pakistani-held territory at two points, Indian Defense Minister Y. B. Chavan announced today.

Chavan told Parliament the army attacked "in order to prevent further infiltration and to keep a watch on the retreat routes of infiltrators."

Indian forces in the divided Himalayan state for weeks have been battling guerrillas who the Indian government charges infiltrated from Pakistan.

Chavan said Indian forces have "established new positions" — apparently meaning the Indian army has seized and will attempt to hold territory on the Pakistani side.

SEIZED EQUIPMENT

First reports said equipment captured included four 81mm mortars, a rocket launcher and a 50-caliber machine gun, Chavan said.

The defense minister did not elaborate on his brief statement and did not specify exactly where the action took place. Speaker Hukam Singh refused members permission to ask questions, saying security matters were involved.

A Defense Ministry spokesman later said he did not think there was "any more fighting" at the two crossing points, but that exchanges of fire were continuing at other points along the cease-fire line.

Continual firing is "a part of the daily fare there now," he said.

Firm Realizes It Pays (U.S.) to Advertise

ST. LOUIS, Mo. (AP) — The highest unauthorized advertisement in the country came down Tuesday because the cost was even higher.

The Pittsburgh-Des Moines Steel Co. took the letters "P-D-M" from the riverfront Gateway Arch after learning the advertisement would cost them \$225,000 and an additional \$42,000 a month after July.

The letters were on the stabilizing strut between the legs of the almost-completed 630-foot-high monument.

The federal government has a regulation against advertising on national monuments. The National Park Service decided on the \$225,000 figure and deducted that amount from the July 31 payment to the prime contractor, MacDonald Construction Co. PDM is a subcontractor.

When PDM removed the 12-foot-high letters Tuesday, the Park Service restored the \$225,000 deduction from the payment.

However, six smaller letters of "P-D-M" remain on creeper crane platforms on each leg of the arch.

A Park Service spokesman said, "We'll have to wait and see what happens with the smaller signs."

Births

Strike at AMC Enters 3rd Day

No Public Agreement on Roots of Trouble

Kenosha, Wis. (AP) —

The United Auto Workers Local 372 strike against American Motors Corp. entered its third day today with no public agreement on the roots of disagreement.

"The time has not elapsed where we can identify the issues," said Eugene S. Mlynke, a federal mediator who started separate talks with union and management negotiators Tuesday night.

Mlynke and David S. Tanzman, a federal mediator from Detroit, planned to continue discussions today, but Tanzman said no joint meetings were scheduled.

"We are probing to find ways to get the parties together," Mlynke said.

HALTS PRODUCTION

The strike, which began Monday in a dispute over 135 pending grievances, has halted 100 production of a Rambler automobile.

More than 11,000 workers have been idled by the walkout at the two assembly plants here. Another 5,000 workers were laid off at American Motors' body plant in Milwaukee 45 minutes after the strike started.

American Motors sent its employees a letter Tuesday saying, "the issue is who is to run the plants, the management or the union."

It said union officials wanted veto authority over supervisory authority and immunity from discipline even for improper conduct.

TWISTING ISSUES

The executive board of UAW Local 72 replied in its statement that the company was "twisting the issues. We wish to make it very emphatic that in no way do we wish to manage the company. We only want what we are entitled to under our contract."

News in Brief

Robert Vance, 18, yesterday reported the theft of a set of impact wrenches valued at \$138 from Morris Gulf Service, 1555 Baldwin.

MOM's Rummage: Thursday, 9 to 12, Indianapolis and Baldwin.

Clearance Rummage: Thursday, 674 Pine Tree, Lake Orion.

Rummage — Thursday, 9-4 p.m., 2819 Grandview, off Hart.

Apr. 1966	\$10.1	\$10.1
May 1966	\$10.1	\$10.1

Business Notes

James C. Pruett of 695 E. Mansfield has been appointed agency manager in the Metropolitan Life Insurance Co.'s Pontiac office.

Pruett joined Metropolitan as an agent in 1962. He is chairman of the life underwriting training course and a member of the board of directors of the Pontiac Life Underwriters Association.

V. James Ford, 4891 Burnley, Bloomfield Township, has been elected Vice President of the Bank of the Commonwealth.

Ford will be responsible for the bank's activities with individuals and corporations and head the marketing division, branch systems administration and installment loan department. He formerly was with Burroughs Corp.

By SAM DAWSON

AP Business News Analyst

NEW YORK—You don't have to look at the calendar. You can tell from glancing over the financial pages of your newspaper that the Dog Days are here again.

The stock market has been taking a breather after its summer rally. The auto industry is coasting on its success in the summer months.

over to the new DAWSON models. The steel industry is in effect marking time, as far as planning goes, while the debate over the labor contract pushes against a Sept. 1 deadline.

Businessmen and consumers alike are paying more attention to the summer than to such complexities as whether the economy may be heading.

And the very evident health of the economy helps the market. The steel industry is in effect marking time, as far as planning goes, while the debate over the labor contract pushes against a Sept. 1 deadline.

What ever happens in steel will have an impact. A strike at first would do little harm to the general economy because for months steel users have been piling up inventories. But a prolonged strike could topple the 4-year-old business boom.

And whatever wage settlement

is reached, and whatever price adjustments follow, will affect other industries. Some want a generous wage increase could set off another wage-price spiral in other industries.

In September and October the auto industry will be having a test of its own. At stake will be the continuing life of the precedent-setting sales boom. How the public greets the new models — with open checkbooks or with indifference — will tell whether the auto industry continues to support the general boom that started in 1961.

The stock market has managed to produce enough of a rally to satisfy the traditionalists who demand a price rise to make summer official. Market hesitancy in recent days may be just a consolidation of previous gains, or caution born of the steel uncertainty at home.

But most of these problems are being postponed, both in the marketplace and in the boardroom. These are lazy days, even if deceptively so.

Space, Airline Issues Go Up

NEW YORK (AP) —

Airlines and aerospace issues paced the stock market to an irregular advance early this afternoon.

For the airlines, it was a resumption of an uptrend that has been in progress and seemed to be getting an increased following after day.

For aerospace issues, strength was attributed to President Johnson's news conference in which he ordered development of a manned orbital space laboratory costing about \$1.5 billion.

Electronics tagged along with

the aerospace firms as a substantial defense outlay goes to electronic components for aircraft and communications.

NO LEADERSHIP

Selected blue chips gave the over-all list just enough of a push to move it upward although there was no strong market leadership among these market wheelhouses.

Rails, however, helped anew by hopes of merger consummation, moved ahead on average.

The Associated Press average

of 80 stocks at noon was up 1.3 at 331.7 with industrials up 2.1, rails up .7 and utilities off .1.

Among companies involved in the space laboratory project, Douglas Aircraft, United Aircraft and General Electric all rose a point or better and Martin-Maria advanced a fraction.

Prices were generally higher in active trading on the American Stock Exchange.

Corporate and U. S. Treasury bonds were mostly unchanged in light trading.

Dire Need for Teachers of Disadvantaged

BY LESLIE J. NASON, Ed. D.

There is a definite shortage of experienced and new teachers trained to instruct disadvantaged boys and girls. Teachers show preference for assignments to schools where the pupils have adequate background and motivation for learning. Young teachers lack the background of experience to understand the learning problems of children from depressed areas.

President Johnson, speaking before the annual conven-

tion of the National Education Association in New York this summer, announced plans for a National Teachers Corps "to dedicated Americans" to teach youngsters in city slums and rural areas of poverty.

The \$1.3 billion elementary secondary education act of 1965 makes long-needed funds available.

Teachers will now be trained specifically to help children who heretofore have been considered unteachable. As a part of this

program, plans for special teacher-training centers have just been proposed by 11 of the country's largest city school systems in close cooperation with a number of metropolitan colleges and universities.

TO POOL KNOWLEDGE

The developmental activities leading up to the present proposals have been administered through the school of education at Northwestern University in cooperation with the research council of the great cities program for school improvement. The council is composed of the superintendents and school board members of the school systems in the nation's 15 largest cities.

Dr. Benjamin C. Willis, superintendent of schools in Chicago, and Dr. Samuel M. Brownell, superintendent of schools in Detroit, serve as president and vice president, respectively, of the research council.

It is proposed that the findings from the 11 training centers be pooled to build up a much-needed body of information regarding the social and learning problems of the underprivileged.

Each center would be housed in a school located in a disadvantaged neighborhood in a city and would be staffed jointly by the school system and a cooperating college.

TO WORK AT CENTER

The future teacher would participate in the work of the center from the start of this teacher preparation. This would involve observation and participation in tutoring, recreation and other activities.

He would come to know the characteristics of the pupils, the parents and the community.

This is an excellent approach to both the problem of helping the children and interesting the teachers to continue teaching in schools in depressed areas. The satisfaction gained by the teacher through the knowledge that he has understood — and helped — even one child will inspire him to continue in the field.

You can get "Help Your Child Succeed in School" by sending \$1 to Help Your Child, Box 1277, General Post Office, New York, N.Y.

Opening lead—♦ Q.			

By JACOBY AND SON

Jim Jacoby asks: "You have told me that Harold Vanderbilt was as good a player as anyone in the days before World War II. You played with him in Newport recently. How well does he play at the age of 81?"

Oswald: "Just as well as ever. The only difference is that 30 years ago he used to love to play long sessions. Today he limits his self to two hours. There is one change. In the old days he played very slowly. Today he has speeded up his play considerably."

Jim: "How about describing one of his recent hands."

Oswald: "Here it is. I always play the Vanderbilt Club convention with him. His one heart opening is correct in that system because he opens four card majors regularly. My two spade response is also correct Vanderbilt Club procedure and I was interested in getting to a

Beatles' Film Maker Has Another Seller

By BOB THOMAS
AP Movie-Television Writer

HOLLYWOOD — Is the Beatlemania dying down? "Perhaps the hysteria has quieted a little," says Beatles' movie maker Walter Shenson, "but their popularity is as great as ever."

Shenson is the Hollywood press agent who worried of flacking for the likes of Rita Hayworth and THOMAS Frank Sinatra, spent his savings on a movie script and tried to produce it in England. He finally succeeded; the film was "The Mouse That Roared."

A few films later he was assigned a project to star a hit-singing group. Shenson pro-

duced "A Hard Day's Night," and the rest is history.

"We made the picture for a half-million and it will gross 10," Shenson reported happily. "Business was sensational in this country, England, the British Commonwealth, Scandinavia and northern Germany. We took \$300,000 out of Japan, which is good but not great."

"WILL DO BETTER"

"The picture didn't do as well in France, Italy, Spain and Latin America, where the sale of Beatles records is soft. But the boys have since toured in southern Europe, and I think the new picture will do better."

The new picture is "Help!" and it doesn't appear to need any. Shenson reports that business so far is ahead of "A Hard Day's Night," although reviews lack the unanimity of critical praise that the first film received.

Even Chance for Tsirimokos

Greek Vote Expected
Toward End of Week

ATHENS (AP) — Premier Elias Tsirimokos appeared today to have an even chance to win endorsement from the Greek Parliament. The confidence vote on his crisis government was expected to be so close that a single deputy might decide it.

The premier went before Parliament Tuesday night and asked for the confidence vote he must have to remain in office.

As he spoke, thousands of police patrolled downtown Athens to keep order and prevent further rioting in the 41-day-old crisis. Five blocks from Parliament 10,000 supporters of ex-Premier George Papandreu held a rally, but there were no disorders.

Tsirimokos, 58, said he was confident of winning the vote, expected Friday or Saturday.

NOT SURE

Political observers were not sure he would win, but they also were not convinced that Papandreu would beat Tsirimokos as his best Greek Athanasios Novas, whom King Constantine first named premier after firing Papandreu.

Attention today was focused on Panayiotis Cannelopoulos, leader of ERE, the conservative National Radical Union.

Tsirimokos is counting on the 99 ERE deputies to vote for him. But some of them are reported reluctant to back Tsirimokos, who founded Greece's Socialist party and was a staunch follower of Papandreu until 10 days ago.

Cannelopoulos was to speak in Parliament tonight and indicate how far he would go in swinging his party behind Tsirimokos.

Tsirimokos also hoped to win over more than 50 deputies of Papandreu's Center Union party. So far 35 of the original 170 Center Union deputies have defected publicly.

Ticket-Fixing Probe Is Aired

Circuit Court Sends Proposal to Romney

DETROIT (AP) — Possibility of a grand jury investigation into allegations of wholesale traffic ticket fixing within the Wayne County Sheriff's Department remained an unanswered question today.

Gov. George Romney called for a grand jury probe Monday "in the interest of improving Wayne County government."

The Wayne County Circuit bench met to discuss Romney's suggestion and sent a recommendation to the governor Tuesday. Details of the communication were not disclosed.

Romney said he plans to confer with Atty. Gen. Frank Kelley on the matter Thursday and no further comment would be forthcoming until after the discussion.

Kelley said, however, that he could see no reason at this time for requesting a one-man grand jury investigation because the Wayne County prosecutor seemed to be moving as swiftly as possible.

In calling for the grand jury investigation, Romney said that investigative steps taken so far appeared to be "wholly inadequate."

The case involves accusations of five former road patrol deputies that a sergeant and an inspector in the sheriff's department were involved in the fixing of thousands of traffic tickets over the past five years.

The Wayne County prosecutor's office is investigating the complaints.

Latest developments in the case included:

- Discovery of the disappearance of four traffic tickets involving one driver from the records of a former justice of the peace who is now a state legislator.

The lawyer, Rep. Edward Mahalak of Romulus Township, said he could not remember individual cases off hand and could offer no explanation immediately.

A statement by assistant prosecutor John McConkey that Martin had confirmed having hand in the "adjustment" of some traffic tickets.

—Plans for questioning drivers who had tickets fixed.

—Assignment of Detroit detectives and state police to the prosecutor's office to assist in interviewing the motorists.

Dixie Shooting Reward Is Set

JACKSON, Miss. (UPI) — Police officers, apparently lacking clues in the ambush wounding of a white minister, hoped for answers today to a reward offer and appeal to the public for information.

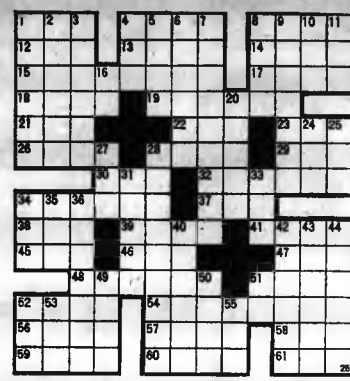

Chief of Detectives M. B. Pierce said the investigation in the shooting of the Rev. Donald Edward Mahalak of Romulus Township, said he could not remember individual cases off hand and could offer no explanation immediately.

A statement by assistant prosecutor John McConkey that Martin had confirmed having hand in the "adjustment" of some traffic tickets.

—Plans for questioning drivers who had tickets fixed.

—Assignment of Detroit detectives and state police to the prosecutor's office to assist in interviewing the motorists.

Board to Air School Fees for Adults

A long agenda faces members of the Pontiac School Board as they meet for a regular session tonight at 7:30 in the board room at 350 E. Wide Track.

Scheduled is a discussion of high school credit classes as a part of the adult education and evening school.

At present, students are charged an enrollment fee of \$20 for 60 hours of instruction during a 16-week period in a course yielding 15 units of credit.

Consideration will be given to dropping the enrollment fee for residents, students working toward a high school diploma.

The Michigan Department of Public Instruction has indicated that students who are enrolled in the high school credit classes and are working toward a high school diploma may be counted for state aid purposes.

POLICY MANUAL
The school board is also scheduled to give consideration of two more sections of the policy manual, being developed by the school administration.

Set for discussion are the sections, "Instructional Division" and "Pupil Personnel Division."

A change in the salary schedule for athletic coaches will also be discussed by school board members.

Consideration will be given to basing salaries on the current teachers' salary schedule, rather than the 1967-68 schedule as is now done.

Reports will be given on project "Head Start," new proposals for the Economic Opportunity Act programs and school vandalism.

Home Is (Cold) Castle
DEVIZES, England (UPI) — For sale, one genuine, 19th century English castle — \$58,000. Owner William Beresford Medlam, 76, is moving to a warmer climate.

But, "Old Mate" was a dedicated eavesdropper and NO insults could deter her. Besides eavesdropping, she also broadcast and sometimes editorialized.

THE MIDNIGHT EARL . . .
Frank Sinatra used his rented yacht for only a week, but it was paid for in advance — 30 days, at a reported \$2,000 a day. . . . Lillian Roth'll play the mother in the national company of "Penny Girl" . . . Hottest backstage feud: Co-producer Norman Rosemont and composer Burton Lane at the forthcoming "On a Clear Day You Can See Forever."

Jerry Vale's crowded Copa premiere, which drew a celebrity turnout, proved a singer can be great without long hair or gimmicks: Vale rates the best. Comic Dick Capri, also a hit, committed this pun: "My girl friend's part Indian, part Italian — a Sioux-clan!" . . . A famed entertainer who swore off betting on horses is back at the \$100 windows.

REMEMBERED QUOTE: "Too many people don't care what happens—as long as it doesn't happen to them."—William Howard Taft.

EARL'S PEARLS: Bob Orben figures the water shortage must be getting serious: "Yesterday I got a letter—and the stamp was pinned on."

"I didn't realize how hot it's been in New York," reports Don Sherman. "I'll pass Grand's Tomb—and the door was open." . . . That's earl, brother.

\$100,000 Fire Hits

Company in Detroit

DETROIT (UPI) — A four-alarm fire raged for about an hour yesterday causing an estimated \$100,000 damage to the Detroit Office Equipment Co. Billowing clouds of heavy black smoke drifted across the street to the University of Detroit campus during the fire at the furniture factory outlet on the Northwest side of the city.

Concert Fans Fill NY Park

NEW YORK (AP) — The stars were out and Strauss was in Tuesday night as 70,000 people turned out in Central Park to hear a concert by the New York Philharmonic.

The Park Department estimated that 372,000 attended the three concerts in Central Park and six in the boroughs. Tuesday night's performance was the last scheduled in the park, but others will be given this week in Brooklyn, Staten Island and the Bronx.

Why have so many turned out for the concerts?

"It's free," said Albert K. Webster, parks concert coordinator. "It's good music. There's plenty of space. Why shouldn't they come?"

The concerts demonstrate absolutely that the people of New York, and I think all cities, are hungry for music well played."

'Wild Blue Yonder'
CLEVELAND (AP) — That best-known song of the nation's military aviators ("Off we go, into the wild blue yonder . . .") and its author, the late Lt. Col. Robert MacArthur Crawford of New York, have been honored with a plaque at Cleveland Hopkins Airport.

Crawford introduced the song at the National Air Races in Cleveland in 1939.

In Youth, Wilson Bugged by 'Bugged' Party Line

By EARL WILSON

NEW YORK — There was a pregnant paragraph in my hometown paper, the Rockford, Ohio Press, stating that the Rockford telephone exchange was expanding. . . . There are requests for a reduction of the party line. . . .

This means that the great institution, the party line, is dying. . . . and I say to you who never lived on a party line, you missed something of the Full Life.

Why, there was a time on the farm when a housewife spent most of her day with her ear to the crank phone eavesdropping on the neighbors.

That's how they got the local news—and sometimes the world news. A woman in Pennsylvania told me that she happened to be eavesdropping on a party line in 1962 when she heard about the death of Marilyn Monroe. Now there was a woman who found the party line more interesting than radio or television.

I grew up on one of those party lines — and the old crank phone is dear to me due to a family legend.

We had one woman eavesdropper on the party line who didn't know it—but we knew when she was listening in, because we could hear a loud-ticking clock in the background. "Tick-tick," went the clock. . . . and if we heard it, we knew that she was hanging on. . . . and she practically always was. "Old Mate," we called her. . . . Matilda, I guess was her name.

"Old Mate's" listening in—and I haven't even turned the crank yet." We might say that when we started a call.

But, "Old Mate" was a dedicated eavesdropper and NO insults could deter her. Besides eavesdropping, she also broadcast and sometimes editorialized.

THE MIDNIGHT EARL . . .
Frank Sinatra used his rented yacht for only a week, but it was paid for in advance — 30 days, at a reported \$2,000 a day. . . . Lillian Roth'll play the mother in the national company of "Penny Girl" . . . Hottest backstage feud: Co-producer Norman Rosemont and composer Burton Lane at the forthcoming "On a Clear Day You Can See Forever."

Jerry Vale's crowded Copa premiere, which drew a celebrity turnout, proved a singer can be great without long hair or gimmicks: Vale rates the best. Comic Dick Capri, also a hit, committed this pun: "My girl friend's part Indian, part Italian — a Sioux-clan!" . . . A famed entertainer who swore off betting on horses is back at the \$100 windows.

REMEMBERED QUOTE: "Too many people don't care what happens—as long as it doesn't happen to them."—William Howard Taft.

GEORGE M. SILVER

Male Nurse Is a First in the Navy

BOSTON (AP) — George M. Silver today becomes Ensign Silver — the first male member of the U.S. Navy Nurse Corps — and joins company with some 2,000 females.

Silver's wife, Sally, says she doesn't object.

"I'm sort of used to his working with women. It's his job, and his career," she said.

Sally and their son, Gregory, will be on hand when Silver, a Rehoboth, Mass., resident, is sworn into the heretofore "female only" nurse corps. The Navy said he is the first in a new program expanding the corps to include men.

ONLY SOMETIMES

Asked in an interview to confirm that his wife wasn't the jealous type, Silver laughed and said, "Well, sometimes at parties — but not while I'm on the job."

Silver said he believes nursing is "useful and helpful work."

"I'm now an assistant head nurse at Taunton State Hospital and I've worked primarily in psychiatry."

"I did work with psychiatric cases as a corpsman at the U.S. Navy Hospital at Memphis." It was then that he became interested in nursing.

NAVY HITCH

Silver is a Dighton native who spent most of a three-year hitch in the Navy at the Tennessee hospital. After discharge he went to work at a veteran's hospital in nearby Brockton.

"But I decided I needed more education and I went into nurses training at McLean Hospital in Belmont."

He also went to Boston Lying-In Hospital for training in obstetrical and other cases, and Massachusetts General for medical and surgical cases.

"I never had any problems crop up in care of women patients," he said. "What most people want in a hospital is for someone to help them and make them comfortable."

ACCIDENT ROOM

"I also worked three nights a week in the accident room at Morton Hospital in Taunton. We get every kind of case there — accidents, suicides, car wrecks."

"At Taunton Hospital I worked in the intensive treatment ward where we devote the most effort to help the newer patients and try to help them get out of the hospital again."

Silver is headed first for an indoctrination session at Newport, R.I., starting Oct. 12.

Then he is scheduled for assignment to the naval hospital at Oakland, Calif., a facility for psychiatric patients.

Ex-Wayne Drain Chief Indicted on Tax Charge

DETROIT (AP) — Christopher Mule, 52, former Wayne County drain commissioner, has been indicted by a federal grand jury on charges of failure to file income tax returns for 1960 and 1961.

Mule was accused of failing to report earnings of \$14,500 in 1960 and \$20,000 in 1961. Each of the two counts in the indictment returned Tuesday is punishable by a maximum of one year in prison and a \$10,000 fine.

Topic: Water Quality

DETROIT (AP) — Michigan's Water Resources Commission opens a two-day meeting here today on water quality goals for Lake Erie, the Detroit River, River Rouge and the Raisin River. Representatives of municipalities and industries are scheduled to attend.

To Invite Russian to Gemini 6 Shot

Gemini Passes U.S. Record

SPACE CENTER, HOUSTON, Tex. (AP) — The Gemini 5 astronauts, their beards itchy and their cramped space cabin cluttered, set a new U.S. space endurance record today and took aim on the Soviet-held world record for a single flight.

They eclipsed the 97 hours, 59-minute record of Gemini 4 at 10:59 a.m. They have a go-ahead to pass the world record of nearly 5 days at 8:06 a.m. tomorrow.

Meanwhile, the Gemini 5 astronauts did some light housekeeping in their cabin and kept a sharp eye on the earth for details of human activity.

Pilot Charles Conrad Jr., a Navy lieutenant commander spotted the wake of the aircraft carrier USS Lake Champlain which is scheduled to recover the astronauts from the sea Sunday.

EXCITED VOICE

Conrad's excited voice announced, "He's at 12 o'clock. I can see him turning. Bigger than heck. We got him in sight this time."

"Roger. I knew an old carrier pilot could find the carrier," said capsule communicator James A. McDivitt. "Very good."

Conrad made his first carrier landing in June, 1955, on the deck of the Lake Champlain. He'll be aiming for it again when the eight-day flight ends.

The space traffic picked up a little today with the launching from Cape Kennedy of an orbiting solar observatory just after the Gemini 5 astronauts passed over the mid-Atlantic on their 62nd orbit.

SOVIET SHOT

The Soviet Union also fired off another unmanned research satellite.

Command pilot L. Gordon Cooper Jr. long before had a logged enough hours in space to claim the world record in that department. His wife, Trudy, relayed her congratulations to him in space.

He and Charles Conrad Jr. lost a little sleep last night dealing with housekeeping chores—and had to pass up a star check to catch up on nap time.

Conrad, talking to capsule communicator James A. McDivitt and describing the cramped quarters of the spacecraft said: "I have every piece of gear in the spacecraft out in my lap."

OLD HOME WEEK

"Very, very good," said McDivitt who compiled four days in space. "Sounds like old home week."

The record for a single flight is held by Soviet cosmonaut Valery Bykovsky who orbited the earth for 119 hours and six minutes beginning June 14, 1963.

The Gemini 5 astronauts plan to pass that mark tomorrow morning.

McDivitt asked Cooper at one point today: "Is your beard getting itchy yet?"

WORSE ITCH

"Yeah," Cooper replied in a drawl. The medical sensors for taking heart rate and other measurements "are itching worse than the beard."

The inflatable pneumatic cuffs on Conrad's legs were causing some itching also.

But Conrad's manner was peppy in copying the details of the day's flight plan from Gemini control in Houston.

The two spacemen are pleasing the doctors who keep constant tabs on them from earth stations around the world. But the astronauts don't seem to be getting as much sleep as some flight officials would like.

"Did Gordon Cooper go to sleep right after your last Haw-

LBJ Says Red Is Welcome at Launch in Fall

Directs Space Chief to Contact the Soviet Academy of Science

WASHINGTON (AP) — President Johnson said today a Russian watcher would be welcome at the Gemini 6 space capsule launching scheduled in October. And he said that on Viet Nam, "generally speaking, the country is united."

On the latter point, Johnson had a rather soft answer to Republican criticism of his policies.

"I think," he said, "the issues of war and peace are far greater than the personalities involved, or the parties."

Johnson spoke up at a news conference carried to the country by television and radio.

He made a number of points on his own, to start, then swung into a series of questions and answers — at one point moving like a boxer by demonstrating a one-two punch.

MAKING POINT

This was to illustrate that Arthur J. Goldberg, U.S. ambassador to the United Nations, is "our left hand" and in searching for a peaceful settlement in Viet Nam while Secretary of Defense Robert S. McNamara wields "our right hand" in the war in that Far East land.

The President told reporters clustered in the White House East Room that he had directed administrator James E. Webb of the National Aeronautics and Space Administration to invite the Soviet Academy of Science to send a high-level representative to the scheduled Oct. 25 launching of a Gemini space vehicle that is designed to lock onto an orbiting satellite.

He said he hoped the invitation would be accepted.

GOP in 'White Paper' Retort: Dems Hold Viet Responsibility

GOP WHITE PAPER — House Minority Leader Gerald Ford, R-Grand Rapids, holds the white paper on Viet Nam hurriedly released last night in Washington by Republicans. It was originally slated to be released this morning. When Republicans learned, however, that President Johnson had scheduled a news conference for about the same time, the release time was advanced.

WASHINGTON (AP) — A House Republican "white paper" made public 18 hours early to try to stymie a march on President Johnson — contends that Democratic administrations, not Republican, bear responsibility for the U.S. position in South Viet Nam.

Further, the 37-page report argues that some of President Johnson's campaign talk was aimed at making Barry Goldwater appear trigger-happy, but may have caused Communists to miscalculate and accelerate the Vietnamese war.

As rebuttal to Johnson's statement that he is carrying out a commitment former President Dwight D. Eisenhower made to Viet Nam in 1954, the white paper said the original U.S. involvement had come under the Truman administration in 1950.

Fearing they might be upstaged by Johnson again, the House Republican leaders yesterday threw away their script for issuing the white paper and sprinted to beat him into the limelight.

It was serious business for the House GOP leaders, who contend Johnson is trying to push them into the background and silence their attempts to criticize some of his policies and present their own.

KNOWN TO ALL

For a week, they let it be known they were going to issue their paper today. They set the unveiling for a news conference at 11 a.m.

Then, with reason for frustration, the House GOP chiefs saw the White House beating them to the punch. On Monday, the administration issued its own pamphlet called "Why Viet Nam."

Then the White House, breaking the usual afternoon pattern for news conferences, scheduled one for Johnson at 10 a.m. today — one hour before the Republican's.

With barely time to make the evening newscasts and the early morning editions, the Republicans hurriedly changed plans and made public their white paper immediately. They rescheduled their news conference for this afternoon, a few hours after Johnson's.

STRONG ACTIONS

The House Republicans have supported strong actions in Viet Nam, but they have objected to Johnson's saying he is carrying out a 1954 Eisenhower commitment.

In the white paper, the Republicans said:

That Harry S. Truman originally involved the United States in Viet Nam back in 1950, before the country had been split into (Continued on Page 2, Col. 6)

Link Missile to Downed Jet

Navy Plane Is Lost on N. Viet Mission

SAIGON, Viet Nam (AP) — A U.S. spokesman announced today a U.S. Navy Phantom jet was downed by what appeared to be a surface to air (SAM) missile yesterday about 90 miles south of Hanoi.

One crewman is presumed dead, the other missing.

It was in the same general area yesterday that North Vietnamese gunners felled a U.S. Air Force F105 Thunderchief, one of a four-plane force attacking an airfield under construction 20 miles west of the city of Thanh Hoa.

A helicopter rescued the Thunderchief pilot.

The spokesman said the Phantom, a supersonic plane from the 7th Fleet carrier Midway, was hit near Thanh Hoa.

MOVING SOUTH

The downing was the first indication that Communist anti-aircraft missiles have been moved as far south as Thanh Hoa. It seemed likely that the missile was fired from a mobile launcher.

One parachute was seen after the Phantom was hit, but search and rescue operations failed to locate the American airman. The other crewman is presumed dead, the spokesman said.

Two other American planes have been downed in the past month by missiles which Soviet technicians are presumed to have installed in North Viet Nam. U.S. officials believe Soviet personnel are helping to man the missile launchers.

A U.S. Air Force Phantom was downed by a missile northwest of Hanoi July 24, and a Navy Skyhawk was shot down Aug. 12 about 50 miles southwest of the North Vietnamese capital.

FLYING SUPPORT

The spokesman said the Phantom downed yesterday was flying support for an armed reconnaissance mission. It was hit on or near the tail, he said, and the pilot of the wing aircraft reported a missile probably was responsible.

In Saigon, Henry Cabot Lodge presented his credentials as the new U.S. ambassador to South Viet Nam and told Chief of State Nguyen Van Thieu: "I hope you can make use of me."

"I want to make myself as useful as I can," Lodge said in French as he began his second tour of duty in Saigon.

Showers to Leave by Thursday Morn

Occasional showers predicted for today and tonight are expected to be headed eastward by tomorrow morning, leaving skies partly cloudy.

High temperatures will continue in the mid 70s through Friday. The low will be near 58 to 63 tonight.

Fifty-eight was the low reading in downtown Pontiac prior to 8 a.m. The mercury had edged up to 63 by 1 p.m.

School Police Plan Nearer

City and District Will Cooperate in Project

The City Commission last night moved to give its approval to a plan to place a police counselor in each of the city's two high schools.

The commission directed City Manager Joseph A. Warren to work out details of the program, which is to be a joint project of the city and the Pontiac School District.

A letter from School Supt. Dr. Dana P. Whitmer said that the school district would share the cost of the police counselors.

Whitmer put the schools' share at \$9,000, which would represent the cost for one counselor.

The city would pay for the second counselor.

STATIONED FULL-TIME

Essentially, the program calls for a policeman to be stationed full-time during the school year at each high school to handle police problems that arise.

School officials have ruled a 10-week trial program this last school year an overwhelming success. The program was held at Pontiac Central High School.

According to Whitmer's letter, the high school principal would select the policemen to serve in their respective schools from a list of candidates from the ranks of the police department. Replacements will be hired for the patrolmen assigned as counselors.

Commenting on the program, Mayor Pro Tem Leslie H. Hudson said that the need for the project was not only in Pontiac but also in schools across the country.

JAMES E. KEPHART JR.

City Assessor Appointed by Commission

A new city assessor was appointed last night by the City Commission.

James E. Kephart Jr., 33, former assistant city assessor, was named to the \$10,998-a-year post. He succeeds Edward C. Bloch, who retired June 1.

Kephart, of 935 Argyle, has been acting assessor since Bloch's retirement.

The new assessor joined the city in July 1967 as a field inspector with the assessor's office. He was appointed assistant city assessor in 1960.

A graduate of Waterford Township High School, Kephart also attended Michigan State University. He is married and the father of two sons.

Kephart, son of Bloomfield Hills City Manager Elmer Kephart, is active in the International Association of Assessors Officers, the southeast chapter of the IAAO, and the Oakland County Assessor's Association.

The commission selected Kephart after interviewing six candidates for the job.

Independence Girl on Collision Course

At 10:50 a.m. yesterday 9-year-old Shellie Hillman of 6380 Eastlawn, Independence Township, collided with a car while riding her bike near her home.

On the way to the Pontiac General Hospital the ambulance in which Shellie was riding collided with a car at West Huron and Telegraph.

The resilient little girl, however, came through both mishaps with only minor injuries and was treated at the hospital and released.

News Flash

LOUISVILLE, Ky. (AP) — Explosions rocked the Du Pont synthetic rubber plant in Louisville today and police said there were a number injured. Survivors were rushed to hospitals in every available vehicle that could be dispatched to the scene, about five miles from the downtown area.

MAKE OVER PAGES

No Rift Over LBJ as Veep—Kennedy

(EDITOR'S NOTE—Varying versions have appeared on how Lyndon B. Johnson was selected as John F. Kennedy's running mate and the role Robert F. Kennedy played. In this interview, Kennedy answers questions about Johnson's selection and gives his views on Viet Nam and the civil rights movement.)

WASHINGTON (AP) — Sen. Robert F. Kennedy said there was never any disagreement between him and President John F. Kennedy over the desirability of having Lyndon B. Johnson on the 1960 Democratic ticket.

Kennedy said in an Associated Press interview that at the direction of his brother he informed Johnson at the Los Angeles Democratic National Convention that opposition to the latter's nomination had arisen in liberal and labor ranks.

In response to a question, however, the New York Democrat disputed the contention of a memorandum of Philip Graham, late publisher of the Washington Post and chairman of Newsweek magazine, that Robert Kennedy told Johnson he should withdraw but John Kennedy said that was a mistake because "Bobby's been out of touch."

"Didn't the Philip Graham memo imply that you went to Johnson on your own?" he was asked.

LITTLE SENSE
"Anyone who knows the relationship between President Kennedy and myself would know that doesn't make a great deal of sense," he replied. "The idea that I would go behind my brother's back doesn't make sense."

On other subjects, Kennedy said President Kennedy had great confidence in Secretary of State Dean Rusk. But the senator declined to comment on published reports that the president intended to replace Rusk after the 1964 elections.

"Said the war in Viet Nam is not going to be won by military action but by political action which will gain the support of the people there."

"Called the civil rights problem in the North more complex than in the South. And said there may be more violence before it is solved."

QUESTIONS, ANSWERS
Here are some questions and answers:

Q. You have said that President Kennedy wanted President Johnson as his running mate in 1960 because he was "the best man to carry on." Did you agree at the time with that assessment?

ideas in a manner which might lead to erroneous conclusions.

RUSK REPLACEMENT
Q. What is your reaction to the published report that President Kennedy intended to replace Secretary of State Rusk after the 1964 elections?

A. I have said that President Kennedy had great confidence in Secretary Rusk and his dedication to his job and the interests of the United States, but that I wasn't going to comment on everybody who is writing a book and what they have to say about everybody else.

Q. Are we following the right course in Viet Nam?

A. I support the effort that's being made in Viet Nam by President Johnson. I believe this to be most important. If the effort in Viet Nam becomes merely a military effort, we shall win some of the battles, but we will lose the over-all struggle. The people of Viet Nam need to feel that their future should rest with Saigon and not Hanoi.

Q. In many ways the North has more difficult and complex

problems than the South. Solutions are more difficult. Furthermore, the makeup of the movement is far different than it is in the South. It lacks the religious overtones and it lacks the leadership that the Southern civil rights movement has. The fact that the problems are more difficult and complex in the North suggests more violence may occur in the North.

WHAT IS NEEDED?
Q. What needs to be done to prevent more outbreaks such as that in Los Angeles?

A. I don't think we ever have enough emphasis on it.

MORE VIOLENCE
Q. Is the civil rights movement entering a phase in which more violence can be expected?

A. I don't think it's necessarily entering a new phase. It should have been anticipated that we were going to have many difficulties. I pointed this out when I was attorney general back in 1961 and 1962 when everybody's attention was focused on the South.

In many ways the North has more difficult and complex

Birmingham Area News

Construction Is Behind for Team Teaching Units

BIRMINGHAM — It will be a while before Birmingham's team teachers can make use of the classrooms especially constructed for the innovation.

Construction of the three units to be involved is running slightly behind schedule, Schools Supt. Dr. John B. Smith told the board of education last night.

The Meadow Lake Elementary School addition now is expected to be completed by Oct. 1 and that at Valley Woods some 15 days later.

The new Evergreen Elementary School should be opened during Christmas vacation.

The construction, which was to be completed in time for the beginning of classes this fall, has been delayed primarily by the steel strike, Smith said.

Designed as the center of the team-teaching project, the Evergreen unit will have a 750-student capacity.

Youngsters designated to attend the school this fall will be based on six other units.

The Meadow Lake addition will increase the school's capacity from 450 to 850.

The new wing at Valley Woods will include a library, kindergarten room, four classrooms, added storage area, an enlarged kitchen and assembly facilities.

DESIGNED JOINTLY
The structures were designed jointly by Caudill, Rowlett and

Scott Associates of Houston, Tex., and Smith and Smith Associates of Royal Oak.

Classrooms to be used for team teaching can be partitioned for small-group study or used as one large lecture room. While the physical facilities can help the program, team teaching can be started in a traditional classroom until the new buildings are ready, Smith noted.

Sale of Loan Notes for Project Is OK'd

The sale of \$3,105,000 in preliminary loan notes for the city's \$30 million renewal project was given final approval last night by the City Commission.

The Bank of America will buy the notes at an interest rate of 2.38 per cent with a premium of .82. This institution was the lowest of seven bidders.

Funds from the notes will be used to pay off the outstanding loans on and to operate the project for the next six months.

Killed in Collision

MANISTEE (AP) — Kenneth Glen Snell, 19, of Roscommon was killed Tuesday when his truck collided with an automobile on M55 near Manistee.

To Invite Russian to Gemini 6 Launch

(Continued From Page One)

and added that a Russian representative would receive a warm welcome.

Wearing glasses to read some prepared statements, rather than the contact lenses he has used much of the time on such occasions, the President said on other topics:

Q. A task force headed by Deputy Atty. Gen. Ramsey Clark is going to Los Angeles to search out the causes underlying recent rioting.

Q. He is going to have some important messages for the new congressional session next year — but nowhere near the volume of this year's requests.

Q. He wants Congress this year to end what he called "an irony and a disgrace" and vote home rule for the District of Columbia.

Q. The enrollment of more than 23,000 persons on the voting lists of the South in about two weeks is most encouraging and heartening. Most of the listings have been Negroes under procedures set up under the new voting rights laws.

Q. He said he expected full and complete responsibility in the current wage negotiations between steel companies and the steelworkers union "and I expect continued stability in steel prices."

Q. He expects a settlement of the situation in the Dominican Republic shortly.

LABORATORY PLANS
The President also announced he has instructed the Defense Department to go ahead with developing a manned orbital laboratory.

"This program," he said, "will bring us new knowledge of what man is able to do in space. It will enable us to relate that knowledge to the defense of America."

A string of appointments to federal jobs was on the announcement list, too, for the presidential session with newsmen.

It was the first presidential

GOP Unveils 'White Paper'

(Continued From Page One)

north and south, with economic and military assistance.

That Eisenhower's commitment was economic, not military.

'NO VIET CRISIS'
That when President Eisenhower left office, "South Viet Nam had a stable and established government."

When President Eisenhower left office, there was no crisis in Viet Nam.

The Republicans charged, however, that "the policy of the Democratic administration has too often been uncertain, providing a basis for miscalculations by the Communists. Policy has been altered abruptly. Conflicting policy statements have been issued. Deeds have not matched words."

They expressed belief miscalculation had been encouraged by some of Johnson's oratory in the last presidential campaign.

"In order to make his opponent (Barry Goldwater) appear reckless and trigger-happy, the President in several statements set limits to American participation in the Vietnamese conflict," said the GOP report.

The Communists in Hanoi and Peking, the Republicans said, could only interpret some of these statements as meaning "they need not fear fuller use of the power of the United States."

BOARD MEMBER

He also announced the appointment of Hobart Taylor Jr. as a member of the board of directors of the Export-Import Bank.

Johnson said he will sign the poverty program bill tomorrow and will nominate Eugene Patrick Foley, 38, now administrator of the Small Business Administration, to head economic development.

Johnson told of an aim to improve government efficiency. He said each Cabinet member has been asked to introduce a revolutionary system of budgeting so the promise of finer lives can be brought to every American.

Each department will set up a special staff of experts to define goals for the coming year.

LEAST COSTLY.
The President said this system will enable us to determine the least costly method of achieving goals, and will help us find ways to do jobs faster, better and at less expense.

Discussing registration of Negroes to vote in the South, he said that in 50 Louisiana counties not one Negro has been rejected.

Truck Mishap Kills Area Man

An Orion Township man was killed this morning in an accident at a White Lake Township stone and gravel company.

Edward A. Legg, 43, of 937 Vernita died shortly after 6:45 a.m. at the scene of the accident, 9400 Gale.

State Police at the Pontiac post said Legg had just filled his truck with fuel and was walking in front of the vehicle when it began to roll toward him.

The rolling truck hit Legg knocking him to the ground. A large gasoline tank was also knocked over and this fell on the trucker, police said.

Medical authorities said that Legg died of a broken neck.

Police Probing Missing \$12,000 in Cash, Checks

Some \$12,000 in cash and checks has been reported missing from Pontiac Tractor & Equipment Co., 1751 S. Telegraph, Bloomfield Township, according to township police.

A deposit bag containing the cash and checks was discovered missing from an office safe yesterday afternoon.

"It has us completely baffled," commented Rupert Smith, owner of the company.

Township police investigating the matter said there was no initial evidence of a break-in at the company.

Gemini 5 Is a Spy in the Sky, Russian Newspaper Claims

MOSCOW (UPI) — The Soviet defense ministry newspaper Red Star indicated today it considers Gemini 5 a spy in the sky, cutting through space over Viet Nam, Cuba and Communist China 40 times.

Red Star said the space capsule containing astronauts Gordon Cooper and Charles Conrad would be flying over Cuba 11 times, over Viet Nam 16 times and over Communist China 40 times.

"The main purpose of Gemini 5," the newspaper said "is to check the possibility of interception of artificial satellites and to conduct reconnaissance (spies)."

It was another in a series of published Soviet attacks on the projected eight day U. S. flight. Red Star said Gemini 5 has powerful cameras "that make possible detailed pictures of cities, railways, ports, ships, etc."

Detroit Firm Low Bidder on Drain Project

Rocco Ferrara Co. of Detroit, with a proposal of \$931,839, was lowest of nine bidders on the City of Southfield's Owens Drain project.

Bids opened yesterday at the office of the Oakland County Drain Commissioner ranged to a high of \$1,215,499. Estimated cost of the drain was \$800,000.

The bids have been referred to the county's consulting engineers for a recommendation.

A bond issue subject to approval by the Michigan Municipal Finance Commission will finance the project which involves enclosure of the existing Morgan and Griffin drains.

Deputy Drain Commissioner R. J. Evans said that the City of Southfield will pay 99.8 per cent of the cost with the county contributing the balance.

The organ of the Soviet Ministry of Defense added that the cosmonauts are conducting visual reconnaissance.

"Suffice it to mention that out of 17 experiments envisaged by the program, six have been planned by the Defense Department and kept secret."

Dinner Followed the Five o'Clock Marriage Rites
The First Presbyterian Church, Royal Oak, was the setting for the recent marriage of Suzanne Marie LaBodie to Richard Charles Baal, son of the Alvin Baals of Sylvan Lake.
Daughter of Mr. and Mrs. Stephen LaBodie, Madison Heights, the bride appeared in ivory satin with Alencon lace and baroque pearls accenting the bodice and train. Satin roses held her illusion veil.
A dinner in Kingsley Inn followed the five o'clock ceremony.
The newlyweds, presently motoring in Iowa, also visited Niagara Falls on their honeymoon.

Should She Ask Date Inside?
By The Emily Post Institute
A question frequently asked is whether or not it is proper when returning home from a party or the movies, etc., for a girl to ask her date into the house.
In answer: If her family is not at home, she must not invite or allow a boy to come in for a while. If he persists, she should answer casually but firmly, "Sorry, another time," and bid him good night.
However, if her parents are home and have been notified, it is perfectly all right to invite him in for a snack.
DOCTOR HUSBAND
Q: My husband is a doctor and I always introduce him as Dr. Jones. I have been criticized for this and was told that it is in very bad taste for a wife to introduce her husband with title.
A: If this is true and I introduce him simply as "my husband," people do not know that he is a doctor will call him Mr., will they not?
A: You should introduce him as "my husband" and then add as an afterthought so that they will know what to call him, "Dr. Jones."

ABOUT SHOWERS
Q: Is it permissible for the mother of the bridegroom to give a shower for her prospective daughter-in-law? I'd love to give one for my son's fiancée, but I don't want to do anything that will be in bad taste.
A: I'm sorry, but it will not be proper for you to give a shower for your son's fiancée, because he will indirectly benefit from the gifts all those who accept your invitation will be obliged to bring his bride-to-be.
You may, however, give any other type of party for her that you please, such as a tea, a luncheon, a cocktail party, etc.
Details concerning the remarriage of a widow and divorcee are described in the Emily Post Institute booklet entitled "Second Marriage."
To obtain a copy, send 10 cents in coin and a stamped, self-addressed envelope to Emily Post Institute, at The Pontiac Press.
The Emily Post Institute cannot answer personal mail, but all questions of general interest are answered in later columns.

This Built-In Lamp Helps You Iron
You may not iron in total darkness, but the lighting may still be dim enough to profit from some additional power.
A new iron throws light on the subject of a built-in lamp. The appliance also dampens clothes, steam irons or dry irons.

Telephone committee members have busy lines these days in preparation for the 25th anniversary observance of Central Methodist Church's Women's Society of Christian Service on Sept. 2. Mrs. J. Harry Baker of Dwight Avenue, WSCS president, pauses before dialing to chat with Mrs. John H. Garrison, Cherokee Road, who holds her charter membership card. Treva Overholt Circle members will host the celebration. A noon luncheon will be served by Pearl Baxter Circle.

Son Has Small Stature

He Must Accept Fate
By ABIGAIL VAN BUREN
DEAR ABBY: Our son is 19 and he has always been very small for his age. He wears a size 10 in boy's underwear, pajamas, shirts, socks and shoes, but he insists on buying his clothes in the men's departments. I am driven to distraction because I have to cut everything down to fit him. I offered to do all his shopping to relieve him of the embarrassment of going into the boys' departments, but he refuses to wear anything I have bought from there.
I am sure his size is responsible for his erratic behavior. He's cost his father a fortune because of the scrapes we've had to buy him out of.
What can be done?
DISTRACTED MOTHER
DEAR MOTHER: Your problem began when you and your husband failed to teach your son how to live with the misfortune of being undersized. You should have sought professional help as soon as this problem became apparent. Children who must go through life with a physical handicap need to develop early the attitude of acceptance.
They should be given every opportunity to develop a skill in something within the realm of their capabilities in order to feel "big" in achievement. Parents must work hard to instill in those children a sense of security and worthiness. Perhaps it is not too late to get professional help for your son. It's worth a try.
I hope your letter will inspire other parents faced with a similar problem to act more promptly.
DEAR ABBY: A well-known man in our town has broken every one of the Ten Commandments with the possible exception of "thou shalt not kill."
And it wouldn't surprise me one bit if he's broken that one, too.
He has born false witness, stolen, used the name of the Lord in vain, coveted his neighbor's wife, and has failed to keep the Sabbath Day holy. Yet he is right up there in the front row, plus as you please every Sunday morning.
Do you think a hypocrite like that belongs in church?

SQUASH ON GRILL — It's barbecue time! Treat your family and friends to grilled vegetables as well as grilled meat, fish or poultry. Here you see summer squash cooking over charcoal.

Leave Place for Vegetables

This year, expand your outdoor cooking repertoire to include vegetables as well as meats.

For a start, try kabobs of squash — zucchini and/or yellow squash, brushed with a tasty glaze combining honey, butter, cinnamon and bottled browning sauce.

Cinnamon Glazed Squash Kabobs:
2 lb. zucchini (Italian squash) or yellow summer squash
2 tablespoons softened butter
2 tablespoons honey
1 teaspoon kitchen bouquet (bottled browning sauce)
1/2 teaspoon cinnamon
Salt and pepper to taste

Wash squash and cut off stem ends. Cut into 1/2-inch slices and place horizontally on skewers. Combine butter, honey, kitchen bouquet and cinnamon. Brush glaze on squash and place over glowing coals or about 8 inches from oven broiler.

Turn and baste now and then until squash is tender, about 15 minutes. Sprinkle with salt and pepper. Makes 4 servings. Note: Squash may be parboiled first if desired.

Count on heavy cream doubling in volume after it is whipped.

Peaches Star in Many Ways

By JANET ODELL
Pontiac Press Food Editor

This should be about the middle of the Michigan peach season. September will see Elbertas and Red Skins ripen, both of which may be used for canning.

In the meantime, why not enjoy the bountiful crop of this delicious fruit with some different recipes?

Ever make a fruit pizza? You might call it an open-faced fruit pie baked in pizza pan. It's yummy, regardless of the name.

Blushing Peach Pizza
1/2 package (1 cup) of pie crust mix
2 tablespoons cold water
1/2 cup sugar
1 1/2 cups fresh peach slices
2 tablespoons cornstarch
Few drops red food coloring
1/4 teaspoon almond extract

Heat oven to 425 degrees. Measure mix into bowl and sprinkle water over it. Stir lightly with fork until just dampened. When pastry holds together, form into ball.

Roll out on lightly floured board or canvas to form a 12-inch circle. Place on pizza or cookie sheet. Flute edges. Prick back 10-12 minutes. Combine sugar and peaches and let stand about 10 minutes.

Fish Francés Are Different

Water chestnuts are the surprise ingredient in this fish stuffing.

Stuffed Fish Francés
2 whole fish (each about 2 1/2 pounds) boned for stuffing
1/2 cup butter
1 1/2 cups finely chopped onion
2 cups finely cut celery
1 cup packaged herb-seasoned bread stuffing
1/4 teaspoon each salt, pepper, thyme and rosemary seasoning
1/2 cup (about 6) thinly sliced water chestnuts

Have head and tail left on fish, if you like, but eyes removed. Wipe fish with a damp cloth.

In a 10-inch skillet over low heat melt the butter; add onion and cook until golden; add celery and cook about 5 minutes. Stir in bread stuffing, the seasonings and water chestnuts. (Makes about 2 1/2 cups.)

Stuff each fish with half the dressing; skewer or sew up. Place in a shallow buttered pan; rub top fish with soft butter.

Bake in a moderate (350 degrees) oven for 30 to 40 minutes or until fish flakes easily when tested with a fork. Makes 6 servings.

Salmon Fish Is Heart of Pretty Salad Dish

Drain and flake a 1-pound can of salmon and mix with 1/4 cup mayonnaise, 1/4 teaspoon salt, 1/2 cup chopped green onions and 1/2 cup finely chopped celery.

Divide salmon mixture onto 4 salad plates garnished with salad greens and surround by thin slices ripe avocado and lemon. Serves 4.

Drain peaches, reserving liquid; add enough water to liquid to measure 3/4 cup.

Place cornstarch in saucepan and slowly stir in liquid and food coloring. Cook over low heat, stirring frequently until thickened and clear. Add peaches; heat thoroughly.

Remove from heat; stir in almond extract. Spread over baked pie shell. Serve warm or cold with a dollop of sour cream sprinkled with brown sugar. Makes 6 servings.

Homemade peach ice cream is a dessert that's hard to beat. This recipe is as simple as A-B-C.

Frozen Peaches and Cream
1 pint whipping cream
1/2 cup very fine sugar
2 teaspoons vanilla
2 cups finely chopped ripe peaches

Whip cream until it mounds softly. Gently stir in sugar and vanilla. Fold in peaches. Pour in freezing tray; freeze until firm. Makes about 1 quart. Serve with Raspberry-Peach Sauce.

Raspberry-Peach Sauce
1 pkg. (10 oz.) frozen red raspberries
1 cup sliced or diced peaches
1/2 teaspoon brandy flavoring
Thaw raspberries until barely defrosted; add peaches and flavoring. Serve at once.

Peaches star in salads and in summer beverages. You can stuff peach halves with a meat salad or with cream or cottage cheese.

The Fresh Peach Smoothie is a drink that even dieters can afford in their day's menus.

Stuffed Peach Salad
6 fresh, ripe, sun-blushed peaches
1 can (12 oz.) luncheon meat
6 ribs celery
1/2 cup French dressing
1/2 head iceberg lettuce
Cut peaches in half and remove pit. Peel carefully. Chop meat coarsely. Chop celery. Combine and mix well with French dressing. Fill peach halves with the mixture and arrange on salad plates garnished with lettuce leaves. Yield: 6 servings.

Fresh Peach Smoothie
2 cups sliced sun-blushed fresh peaches
3/4 cup cold water
3 tablespoons fresh lemon juice
2 tablespoons sugar
3 tablespoons nonfat dry milk
1/16 teaspoon salt
Combine all ingredients in the

Try Serving Grape Rickey

Nice to serve when "the girls" come to visit.

Plain Grape Rickey
1 can (6 ounces) frozen sweetened grape juice concentrate
1 can (6 ounces) frozen orange juice concentrate
3 cups cold water
1 lime
Turn the grape juice and orange juice concentrates into a large pitcher or other container that holds 1 1/2 to 2 quarts. Add the water; stir to melt the concentrates.

Wash the lime; cut in half; squeeze out juice and add along with the lime shells; mix well. Chill and service icy-cold. Makes a little over 1 1/2 quarts.

"CHIPNICS" — WORLD'S FIRST HOMOGENIZED POTATO CHIPS

Sealtest-Created Chips Stay Crisp and Fresh Much Longer

FEEL AND TASTE LESS GREASY THAN ORDINARY POTATO CHIPS

Revolutionary Process Puts Thousands of Crackly Flavor Cells into Each Crisp Chip

Your grocer has a truly new, totally different product this week, CHIPNICS® Homogenized Potato Chips. Developed by Sealtest Foods scientists, CHIPNICS are created by a revolutionary process.

Regular chips are made from potato slices. CHIPNICS Potato Chips are made from homogenized potato batter. The result is a unique kind of chip. Light. Lively. Crackly crisp. Feels and tastes less greasy.

Close examination shows that CHIPNICS Potato Chips are made up of thousands of tiny bubbles, each a crisp shell of potato ready to burst with flavor. These flavor cells give CHIPNICS a new and different texture. CHIPNICS are structurally strong, make excellent "dipnics."

Housewives will find these new chips an exciting "something different" to serve with meals, as snacks, for entertaining all year round.

SPECIAL INTRODUCTORY OFFER: SAVE 11¢ ON YOUR FIRST BOX OF "CHIPNICS"! CLIP THIS COUPON—REDEEMABLE AT YOUR GROCER'S NOW!

POTATO CHIPS

Mr. Dealer: Sealtest Foods will reimburse you 11¢ if allowed to a customer, plus 2¢ handling allowance for this coupon provided you received it on your sale of this product and that sufficient product to cover all redemptions has been purchased by you within ninety days of redemption. For redemption, mail to CHIPNICS Potato Chips, Sealtest Foods, P.O. Box 1767, Clinton, Iowa. Cash value 1.22 of 1¢. Coupon void if taxed, prohibited or restricted by law and may not be assigned or transferred by you. Customer must pay any sales or similar tax applicable. Offer expires Dec. 31, 1965.

LIMITED OFFER... ONE TO A FAMILY

SEE THE DIFFERENCE

CHIPNICS Potato Chips are an even, golden brown. No dark spots. No rings. No tough, burned edges.

FEEL THE DIFFERENCE

CHIPNICS Potato Chips are noticeably lighter and feel less greasy. In fact, they weigh about one-third less than regular chips. And CHIPNICS Potato Chips are amazingly crisp. They stay deliciously fresh and crisp long after regular chips have lost their snap. Being strong, they are less likely to break into bits and pieces. Yet they almost melt in your mouth.

TASTE THE DIFFERENCE

CHIPNICS Potato Chips have a fresh, delicate potato flavor with less of the greasy taste of regular chips. An entirely new taste experience. They make a perfect partner for dips and drinks, soup and sandwiches, all kinds of family and party fare. A great snack by themselves!

BAG-IN-A-BOX PROTECTION

CHIPNICS Potato Chips are specially protected against spoilage and breakage by a bag within a box. To reseal the foil-lined bag, just pinch-fold the top. Keeps CHIPNICS full-flavor fresh for days.
