

Brisk Pace at City Polls May Bring Record Vote

Fire Destroys Baseball Park; Block Levelled

68 Babies Evacuated
From Memphis Hospital
in Million-Dollar Blaze

MEMPHIS (AP)—Towering flames raced with explosive speed through a baseball park Sunday night. They destroyed a city block of shops and scorched the walls of two hospitals.

A human chain of workers hastily passed 68 babies to safety and then evacuated the mothers from maternity wards as 100-foot-high flames charred City Hospital window frames and shattered big glass panes.

The hospitals, Red Cross workers, fire and police officials reported no serious injuries. Damage was estimated at about one million dollars.

There was no panic when Deputy Fire Chief J. D. Johnson warned the 14-story Baptist Hospital to prepare for evacuation and 500 patients were moved to inner halls during the crisis.

The Baptist Hospital lobby was a mess. Every ground floor window was out. Floors were cluttered with overturned furniture, fire hoses and glass.

James Hatmaker, a young City Hospital attendant, said the fire began in the left field grandstand "and seemed to whirl through the stands."

When it reached the street it fanned right and left and enveloped a block of stores.

The flames generated a powerful draft. Embers exploded like buckshot. Fire hoses burned. The street smoked. A dozen cars were ruined, with gas tanks blasting like bombs. A bank vault was singed.

The calmest people appeared to be hospital patients and workers.

"There was no sweat," said Dr. Lewis Neff who organized the human chain that passed the infants to safety at City Hospital.

Winter Will Return to Haunt Us Tonight

Following balmy temperatures and weekend showers which damped Easter bonnets, Pontiac residents are in for some cold weather tonight.

However, the mercury is expected to rise again Tuesday and continue five to six degrees above the normal high of 58, and normal low of 39 for the next five days.

Precipitation will total about 1/4 inch in showers and thunderstorms Thursday or Friday.

Tonight's low will drop to an unseasonable 32, rising to 35 degrees tomorrow. Skies will clear and be mostly fair tonight and Tuesday.

Weekend thermometer readings ranged from 49 to 68 on Saturday, with a low of 40, high of 72 on Sunday. Skies were mostly cloudy, clearing somewhat from time to time.

This morning's lowest temperature was 34 degrees, rising to 42 by 2 p.m. Winds were 10 m.p.h. from the west.

Canada, Soviet Sign

MOSCOW (AP)—Canada and the Soviet Union today signed a new three-year trade pact under which the Soviets will spend two dollars in Canada for every Canadian dollar spent here.

Look, Ma, I'm a Big Boy

JUST AN EASTER HAM — Charles Houghton Jr., 18 months, was so excited by all the attention he received in the Easter Parade in Boston that he walked right away from his dressed-alike sisters. Charles is clutching his youngest sister's handbag but is unaware that he is no longer holding her hand. His sisters are (from left) Maurven, 7; Eileen, 5; Kathleen, 4; and Sheila, 3. A sister, Rita, 8, is not in the picture but she was dressed like the others.

'Can't Preach Doom Anymore'

DETROIT (AP)—A 111-million-dollar spurt in industrial expansion has pushed Michigan ahead of all other states in construction plans during the past six months.

A survey of building permits for new industrial facilities showed Michigan leading with 34, followed by Pennsylvania, with 22 and California with 15.

William B. Sloan, Detroit industrial coordinator, compiled the statistics from building permits issued by every state during the last half year.

Michigan's total does not include two large projects in which preliminary permits do not reflect a dollar value. These are a General Motors Gear Assembly Plant in Saginaw and a five-acre site at South Haven by the Lovejoy Flexible Coupling Corp.

Sloan said 69 new Michigan facilities have sprung up in the Detroit area alone, which is more than the total of all other states, except Pennsylvania.

Of the state's total, more than 27 million dollars are within the Detroit city limits and 33 million dollars in eight suburban communities. This gives the Motor City area more than half of the state total.

A recent survey of long-term industrial expansion, based on the period from 1955-1964, showed Michigan stood third among all states in dollar-volume again in comparison to the national average.

"Those who have been crying wolf and preaching doom and gloom will have to find another subject to howl about now," Sloan said.

"In the early 1950s, other states and cities held us up as the 'horrible example' of an industrial empire that had fallen to the lowest in construction of industrial facilities," he said, adding:

"The tide has turned. We are now first in the big ten top areas of industrial growth in the United States."

Washington (UPI)—Ted Williams, in his first time at bat, cracked out the 42nd home run of his major league career today to tie him with the late Lou Gehrig on the all-time home hitting list.

HOLLYWOOD (UPI)—The platinum-haired mother of teenage Beverly Aadland today was arraigned on a charge of contributing to the delinquency of her daughter and ordered to appear for a preliminary hearing April 21.

WASHINGTON (UPI)—Sen. Vance Harlowe (D-Ia) called on Federal Aviation Administrator Elwood R. Quenda today to make a "full explanation" to the public for ignoring a recommendation to ground all "inspected" Electra airplanes.

MASSENA, N. Y. (AP)—The 715-foot grain ship Menck Lake, buffeted by high winds, brushed against the walls of Eisenhower lock today in the opening-day parade of vessels into the American section of the St. Lawrence Seaway.

WASHINGTON (AP)—The Supreme Court today ruled that a railroad union may not be enjoined from striking over demands for a vote in company plans to eliminate certain jobs.

7 Commission Seats Will Be Decided Today

Charter Amendments,
Two Judgeships Are
Also at Stake

Brisk balloting during the morning at many Pontiac polling places gave strength to the prediction that today's municipal election may see a record turnout.

At stake are two proposed charter changes, the seven seats on the City Commission and the two Municipal judgeships.

Officials expressed hope the turnout would reach 14,000 or 15,000 topping the present record of 13,919 set in 1954.

There were early indications the hopes would be realized.

A spot check showed, for instance, that 30 voters showed up at Precinct 35 in LeBaron School during the first hour after the 7 a.m. opening. This was an unusually high figure, election officials said.

At Washington School, where three precincts are located, balloting was reported picking up rapidly by mid-morning.

City Clerk Ada R. Evans predicted a big citywide increase in voting this afternoon and evening. Polls close at 8 p.m., but all those waiting in line at that time will be allowed to vote.

Pontiac's registered voter strength today stood at 36,612. A vote of more than 14,000 would push the turnout to nearly 40 per cent or more — the highest ever in a nonpresidential election.

The City Commission candidates: District 1 — Incumbent Milton R. Henry; unopposed. Only a sticker candidate could threaten his certainty of another two-year term.

District 2 — Robert T. Flynn is challenging incumbent Mayor Philip E. Rowston.

District 3 — Voting for the vacancy here are George D. Hicks and William H. Taylor Jr.

District 4 — Challenger Winford P. Bottom is seeking the seat of incumbent Floyd P. Miles.

District 5 — Maurice Croteau is contesting with incumbent John A. Kirby versus incumbent Wesley J. Wood.

District 7 — Incumbent Robert A. Landry is opposed by James H. Marshall.

The two proposed charter amendments have become the biggest single issue in the election.

They are championed as a means to smooth the waters in the troubled Pontiac Police Department.

The amendments would effect two big changes.

The first would ensure the compact (Continued on Page 2, Col. 2)

Crack Down on Africa

JOHANNESBURG, South Africa (UPI)—Police arrested dozens of African "troublemakers" today in a crackdown to prevent a week-long stay-at-home strike from flaring into new violence.

Election Returns

As a public service, The Pontiac Press will give election returns this evening.

Information on the voting in seven districts for the two municipal judgeships and on the two charter amendments will be furnished after 9 p.m. to those calling Federal 2-8181.

Trade Sparks Kuenn Debate

KUENN PACKS — Harvey Kuenn, traded to the Cleveland Indians for home run slugger Rocky Colavito Sunday, packs to join the Tribe. Exchange of Kuenn, the 1959 American League batting champion, and Colavito, who tied Washington's Harmon Killebrew for the homer title, sparked vigorous debate among sports fans.

Kuenn, Colavito Trade Jolts Fans

DETROIT (AP)—The trade of Harvey Kuenn to the Cleveland Indians for Rocky Colavito jolted fans in Detroit, where president DeWitt adheres to a similar philosophy as Lane by considering all players trade material, the fans seemed to have accepted the trade as a good one.

All repercussions will be brought to a head early when the Tigers and Indians meet in the season opener tomorrow in Cleveland, starting a two game series.

The first return engagement will be the following Tuesday when the Indians visit Briggs Stadium after a three-game White Sox series in Detroit starting Friday.

At that time Tiger president Bill DeWitt brought Cleveland general manager Frank Lane into the training camp at Lakeland to "clarify" that no such deal was in the making.

Immediately after the "no-trade" press conference, Kuenn signed his contract for a reported \$47,500. Colavito was also a holdout for a short period of time and he signed for a figure said to be \$35,000.

The trade was received with different emotions in the respective cities. In Cleveland, where the fans were up in arms against Tribe general manager, "trader" Lane, the deal was considered unpopular.

In Detroit, where president DeWitt adheres to a similar philosophy as Lane by considering all players trade material, the fans seemed to have accepted the trade as a good one.

New Cobalt Machine Goes Into Operation

The Cobalt "50" teletherapy unit went into operation today at Pontiac General Hospital for the first time and there was an immediate community need for it.

The deep-penetrating radioactive machine—primarily known as a weapon against internal cancers—was in for a busy day.

Already 15 Pontiac area patients are signed up for radiation treatment, said Dr. Robert Williams, the radiologist in charge.

The patients will undergo exposure to the rays for varying periods of time—depending on their individual illnesses five days a week for at least the next five or six weeks, he said.

If Pontiac service clubs, interested doctors and private contributors had not raised the funds for a machine here, these patients would have to make the daily trip to Detroit or Ann Arbor, where the nearest other cobalt machines are located.

ARTHRITIS, TOO?
The machine works on other diseases besides cancer, said Dr. Williams. Some arthritis victims, for instance, could benefit by it.

But Dr. Williams stressed that the unit is not applicable in all cases—only those in which deep therapy would bring about improvement.

The machine was delivered to the hospital last month, but the Picker X-Ray Corp. which built it, discovered a few faults and had to send it back to the factory in Cleveland for new parts.

The machine works on the

Dr. Ross Porritt Succumbs at 52

Lived and Practiced All His Life in Pontiac; to Be Buried Tuesday

Dr. Ross J. Porritt of 131 Chipewa Rd. died unexpectedly Saturday at his home. He was 52.

A member of the Oakland County Medical Society, the Keweenaw Club and Central Methodist Church, he was a lifetime resident of Pontiac, practicing medicine here.

After graduating from Pontiac Central High School in 1925, he entered Michigan State College from which he received his B.S. degree. He received his medical degree from Northwestern Medical School in 1935.

During World War II, Dr. Porritt served as a lieutenant colonel in the Army Medical Corps.

Surviving are his wife Gertrude; a daughter, Linda Sue; a son, Bruce J.; a sister, Mrs. A. L. Mac Adams; and a brother, Carroll, both of Pontiac.

Service will be held Tuesday at 3:30 p.m. at Sparks-Griffin Chapel, with burial in Perry Mt. Park Cemetery.

Hills Resident Gets Torch Drive Job in Detroit

Edward N. Cole of Bloomfield Hills, general manager of Chevrolet Division of General Motors, has been named 1960 Detroit Torch Drive coordinator for chapter solicitation.

Cole, who lives at 1571 Kirkway Rd., will organize, train and direct volunteer workers in the major units consisting of automobile, major, commerce, trade teams, professions, schools and government, and pilot campaigns.

Cole served as chairman of the automotive and supplies unit for the 1959 Torch Drive.

The Weather

Seaway Opens, Seven Freighters Move Today

MONTREAL (UPI)—The St. Lawrence Seaway opened for 1960 business today in dull, gray weather.

The first ship to pass through the St. Lambert Dock, gateway to the 13.5-mile-long waterway, was the 14,400-ton Lemoyne, an old Canada Steamship Lines freighter bound for Ashabula, Ohio, to pick up a load of coal.

Nine in line were six Canadian lake ships, bound for a variety of lake ports to pick up grain, coal and general cargo. They were the Hastings, Teakbay, Grallmeyer, Elgin, Simcoe and Griffon.

Another 15 Pontiac area patients are signed up for radiation treatment, said Dr. Williams, the radiologist in charge.

The patients will undergo exposure to the rays for varying periods of time—depending on their individual illnesses five days a week for at least the next five or six weeks, he said.

Two Are Told of Scholarships

Suzanne Koprince and Frank Serratori Given Ford College Awards

A big difference, however, is that the armature that holds the cobalt bomb does not remain stationary, but rather revolves in a complete circle around the patient as he lies on the table.

This action protects the patient from damage to the surface of his body due to radiation focused on one spot too long.

A Pontiac girl and a West Bloomfield Township boy were among 70 sons and daughters of Ford Motor Co. employees notified Sunday that they have been chosen for college scholarships.

Suzanne M. Koprince, 18-year-old Pontiac Central High School senior, and Frank T. Serratori, 18, of 322 Elder Rd., West Bloomfield Township, will receive the company awards at a formal conference June 28 in Dearborn.

The students each received a personal letter from Henry Ford II Sunday stating that they had been selected by judges from a field of nearly 1,000 applicants.

Winners were determined by their scholastic standing, results of an aptitude test and other potentialities for success in college.

They will receive free tuition plus 50 per cent of normal living costs up to a maximum of \$100 a year for those away from home and \$300 a year maximum if living at home while attending college.

Recipients may attend any approved college of their choice in the United States.

Suzanne is the daughter of Mr. and Mrs. Julius Koprince of 319 W. Troy Rd., Frank, a senior at Wall Lake High School, is the son of Mr. and Mrs. Louis Serratori.

Two other winners from Oakland County are Berkeley High School senior Sharon L. Sullivan of 2814 Phillips St. in Berkeley, and Patricia A. Miles, of 1702 Sycamore St., Royal Oak, a Dordrecht High School senior.

Balloting Gets Off To Fast Start in City
(Continued From Page One)

Continued legality of the present Prohibition at the same time removing the police chief from its jurisdiction and placing him under the city manager to demote or dismiss whenever, in his opinion, such action may be necessary.

The second would eliminate the Department of Public Safety as an administrative setup between the city manager and the fire chief and police chief, raising the two divisions to departmental status directly under the manager.

In order to pass, each amendment must receive a majority of "yes" votes from those balloting on the questions.

Contending for two, 6-year terms on the Municipal Court bench are the present judges, Maurice E. Finnegan and Cecil McCullough, and a challenger, Edward H. Shibley.

Wild Melee in Streets of Seoul
SEOUL (UPI)—Ten thousand antigovernment demonstrators clashed with stick-wielding government supporters in a brief but bitter battle here tonight that followed daylong disturbances in Seoul and Tongnae.

The clash involved 4,000 students and 6,000 other persons who joined them in a march through the streets in protest against alleged fraud in the recent elections which returned President Syngman Rhee to office.

There was no immediate estimate of how many persons were injured in the night battle.

Castro Links U.S. With Plotter Beaton
HAVANA (UPI)—Prime Minister Fidel Castro today charged U.S. authorities at Guantanamo Naval Base were connected with counter-revolutionary plotters in Eastern Cuba.

Castro said eastern Cuban plotters are trying to make a revolutionary leader out of Manuel Beaton, a former captain in Castro's army who heads a rebel band in the Sierra Maestra.

Castro made the charge in an interview aboard a plane bringing him to Havana from Eastern Cuba, where the prime minister last week directed a search for Beaton and his band.

Nab 400 in S. Africa
JOHANNESBURG, South Africa (U)—Police and troops, backed by eight armored cars, arrested 400 Negroes in a raid on the African township of Dunsen outside East London today.

Organize Adlai Club
BOSTON (AP)—Massachusetts supporters of Adlai E. Stevenson organized a Stevenson-for-president Club Sunday night. Marshall Kaplan, acting chairman, said more than 5,000 signatures have been collected on petitions.

The Day in Birmingham

Group to Proffer Idea of Parking Lot Study

BIRMINGHAM — A request that the Planning Commission study the needs for a municipal parking lot in the Woodward area south of Brown street will be presented to the City Commission tonight by a group of businessmen.

In a letter to the Commission signed by 18 businessmen, it is proposed that the "ideal" parking area would be the block bounded by Frank, Ann, George and Purdy streets.

"We suggest this block as it does not contain any large apartment buildings that would be costly to condemn," the letter stated.

"Barnum Junior High School would benefit greatly as the space they now use for parking could be utilized for expansion of buildings."

"This area's streets are now lined with parked cars of many employees of the neighboring business places. If a parking lot is constructed, then restricted street parking should be enforced in this area thereby assuring use of the proposed lot," the letter stated.

Any objections to the resurfacing of Lakeside road from the bridge south of Redding to Quarten roads will be heard tonight by the City Commission.

Creation of a special assessment district to defray the cost of the improvement will also be considered.

The road would be paved with asphalt as the initial step towards providing a permanently improved pavement.

Cost of the project is estimated at \$2,350.

Judge Arthur E. Moore of the Oakland County Juvenile Court will address an open Birmingham Democratic Club meeting 8 p.m. tomorrow at the Community House.

Mrs. Harry M. Denyes, Service for Mrs. Harry (Allene) M. Denyes Sr., 63, of 170 Baldwin St., will be held Tuesday at 1 p.m. at the Bell Chapel of the William R. Hamilton Co. Burial will be in White Chapel Memorial Cemetery.

Mrs. Denyes died Sunday in Grace Hospital, Detroit after a brief illness.

Berkley Mayor Eyes State Post

George W. Kuhn Is Seeking Support to Run for Treasurer

Berkley Mayor George W. Kuhn said today he is seeking support to become a candidate this year for state treasurer on the Republican ticket.

He said "many of my Republican friends have been urging me to run for higher public office."

Kuhn, 55, of 1173 Beverly Blvd., has recently sent letters and his graphical outlines of his career to these friends. He has asked those supporting his candidacy to return an enclosed post card.

"As a candidate for state treasurer, I will conduct a hard-hitting statewide campaign, stressing the serious need for a new state constitution, tax reform, and the necessity for governmental reorganization," Kuhn said.

Elected mayor in 1959, Kuhn is with the development division of Ford Motor Co.

Bomb Foes Protest in Long March

LONDON (UPI)—Thousands of "ban the bomb" marchers converged on London's Trafalgar Square today to climax one of the largest public protests against nuclear weapons in post-Hiroshima history.

At least 20,000 Britons walked shoulder to shoulder in the final stage of a 53-mile, four-day march from the nuclear research station at Aldermaston, forming a column estimated to be seven miles long as it hit the outskirts of London yesterday.

Thousands more, waiting near Trafalgar today to join in the lunch time rally sponsored by such international personalities as Lord Bertrand Russell, philosopher and outspoken critic of Soviet and Western nuclear policies.

"They've got to listen to us now," declared Church of England Canon John Collins, a leader of the march. "They just can't write us off as a bunch of cranks any more."

The demonstrators were orderly and no incidents marred the procession which was aimed at convincing the nuclear powers that world public opinion will not tolerate any delays in achieving a ban on atomic and hydrogen weapons.

Police reported a monumental traffic snarl.

West Virginia Issue

CLARKSBURG, W. Va. (U)—Sen. John F. Kennedy (D-Mass.) said today that unemployment has been economically depressed areas are "the issue in this campaign, not where I go to church on Sunday."

Uncertain Governor Delays Execution

COLUMBUS, Ohio (UPI)—Gov. Michael V. DiSalle today delayed for four days the execution of a murderer to give himself time to read law and history to find precedent to justify clemency.

The governor said he granted a stay of execution to Frank Folsom, 50, who was scheduled to die tonight, until Friday so that he could do some research.

He said if "tradition, the law and the experience of the past" permit him to spare Folsom, he said that the fate of the convict and that of his partner would be equalized, he would spare Folsom's life.

The prisoner's partner, Hollis Leigh, drew a life sentence from the same three judges who first tried Folsom.

The road would be paved with asphalt as the initial step towards providing a permanently improved pavement.

Cost of the project is estimated at \$2,350.

Judge Arthur E. Moore of the Oakland County Juvenile Court will address an open Birmingham Democratic Club meeting 8 p.m. tomorrow at the Community House.

Mrs. Harry M. Denyes, Service for Mrs. Harry (Allene) M. Denyes Sr., 63, of 170 Baldwin St., will be held Tuesday at 1 p.m. at the Bell Chapel of the William R. Hamilton Co. Burial will be in White Chapel Memorial Cemetery.

Mrs. Denyes died Sunday in Grace Hospital, Detroit after a brief illness.

They've Wife Trouble

LONDON (UPI)—Asked whether traditional laundries were worried about the rising number of 40-60-year-old women who are doing their own laundry, W. T. Simms of the Institute of British Laundry replied: "We have always

regarded our greatest competitor as the housewife herself."

Venezuela was given this name by Spanish conquistadores because they found native villages built on stilts on Lake Maracaibo. Venezuela means "little Venice."

GOSSIP DOES NOT FORM YOUR CREDIT RECORD

Neither does gossip destroy it. Your credit record is formed by you and you alone, based on how you have met your obligations in the past. The Pontiac Credit Bureau is maintained to secure and catalog confidentially, facts necessary in establishing your good credit record—a record that shows through past performances that you have the will to accomplish your purpose, that is paying your accounts promptly as arranged either out of resources already earned or to be earned.

A faith in humanity... a controlled power... surplus capital at hand to supply your needs now as well as in the future—such is credit that fails only when you fail to pay as agreed, to meet obligations when due.

To Maintain a Good Credit, Buy Wisely, Pay Promptly!

Holds Police Off With Bow, Arrow

DECATUR, Ga. (AP)—"I hope I don't have to face one of those things again in a long time," a detective said after being held at bay for an hour by a man armed with a bow and arrow.

Detective J. W. Crunkleton and his partner went to the home of Eugene Lucas, 32, after Mrs. Lucas called police and reported her husband had taken several units of insulin and needed hospital treatment.

The officer said Lucas refused to let them use the telephone and appeared angry because his wife wanted him hospitalized.

"If you don't have a warrant, get the hell out of here," Lucas was quoted as saying. "I've been watching Perry Mason on TV and I know the law."

When they started back to the car to radio for an ambulance, the detective said Lucas appeared at a window with a five-foot bow and a steel-tipped arrow and threatened to shoot if they did not leave.

Police Capt. J. H. Day and several neighbors pleaded with Lucas. He finally came out of the house waving the bow and arrow. Day and an unidentified neighbor lunged at Lucas and disarmed him.

Lucas was treated at a hospital and then jailed under a peace warrant signed by his wife and on charges of assaulting an officer.

AMAZING PSORIASIS STORY

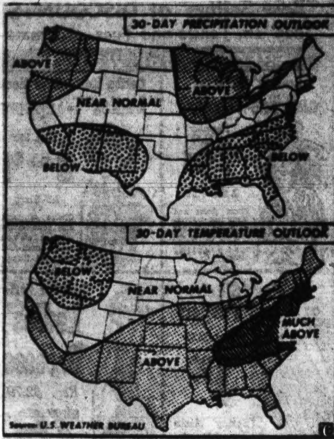

Jan. 10, 1960 — Pittsburgh, Pa. — "Had psoriasis 30 years. Spent much money to no avail. Then used GEP Outlines and Tablets for 2 weeks. Sores disappeared as if by magic. In 6 weeks skin completely cleared and clean. First time in 30 years. Thanks for your marvelous product." This much abbreviated report tells of a user's success with a dual treatment for psoriasis now made available to all sufferers. Full information and details of a 14 day trial plan from Canam Co., Dept. 269, Rockport, Mass.

Kennedy Gets 3 Days Alone in W. Virginia

CHARLESTON, W. Va. (AP) — Sen. John F. Kennedy (D-Mass) returns to West Virginia today to campaign for three days without the presence of his opponent in the May 10 primary. Sen. Hubert H. Humphrey (D-Minn.)

It is the first and last time that Kennedy will have the state to himself. Humphrey plans to return next Monday and will keep at it almost without a break until the election.

The Democratic preferential primary is not binding on West Virginia's 25 votes at the national convention.

WARM AND WET — Both the warmth and the humidity of the Pontiac area will be above normal for the next 30 days, according to the United States Weather Bureau. Outstate rainfall will be normal, the bureau predicts.

Educate 500,000 From Abroad: Dems

WASHINGTON (AP) — The United States should pay for the education of a half million foreign students a year in American colleges, says the Democratic Foreign Policy Advisory Committee.

The group also wants undeveloped nations to get doubled Western economic aid.

The proposals were announced Sunday night by the 30-man group headed by former Secretary of State Dean Acheson. Rep. Chester Bowles (D-Conn.), foreign policy adviser to Sen. John F. Kennedy, is a member of the committee.

Holiday Delays S. African Test

Police Poised to Force Negroes to Work in Face of Stoppage Call

JOHANNESBURG, South Africa (AP)—With Easter Monday a holiday for most South Africa, a show-down in the week-long work stoppage called by the outlawed African National Congress was delayed 24 hours.

The government mobilized all police forces throughout the nation for the first test of strength with the country's leading Negro political organization since it went underground.

Strong police patrols kept a watch on Negro settlements around major urban areas.

Hundreds of thousands of Negroes who work in the big cities and environs were caught in the political squeeze. The government warned anyone staying away from work faced loss of their jobs or even banishment to native reserves in the remote interior.

A failure of the work boycott would be interpreted as a setback for the ANC in its campaign to force an ending in the government's strict segregation policies and gain freedom for jailed Negro leaders.

Police offered protection to Negroes going to work and threatened sharp action against anyone trying to get them to stay home—either by persuasion or intimidation.

Early Barbecue Really Burns Up Neighborhood

OAKLAND, Calif. (AP)—Chester Larson burned some weeds in his backyard barbecue pit Sunday and, in about the time it takes

to broil a steak, seven homes were ablaze.

Asst. Fire Chief J. E. Byrne estimated the neighborhood damage at more than \$60,000.

He said the fire set ablaze a tall tree in the backyard of Larson's neighbor. The tree fire spread to Larson's roof and a neighbor's roof. Windblown embers from those fires started blazes on the roofs of five other nearby homes.

What puts the swing of confidence in a man's step?

Satisfaction in his job... joy in his family... pride in his home... it's made of many things. And not the least of these is the knowledge that he has provided for those he loves today—and tomorrow. Life insurance can bring that kind of security. It alone guarantees its full protection from the very first. Often it represents a sum of money it would take years for a family to accumulate. This is protection with specific dimensions—the kind of protection that gives courage to plan ahead. It goes a long way toward removing some of the uncertainties of the future.

What are the unique benefits of Life Insurance?

- 1 At the stroke of a pen you can create an estate for your family which would take many, many years to acquire in any other way.
- 2 You can build an income which neither you nor your wife can outlive.
- 3 From your very first payment, you can make certain that specific needs, such as mortgage repayments and children's education, will be met.
- 4 You know in advance exactly how much money will be available at any given time, in case of an emergency.
- 5 Your insurance can be so arranged that you and your family are relieved of the burden and risks of money management.

Institute of Life Insurance
488 MADISON AVENUE, NEW YORK 22, N.Y.

Life insurance, in addition to providing for family security, plays an important role in our national growth. Savings, through life insurance, help provide the funds for new schools, new factories and the new jobs a growing America needs. The money saved and used in this way also helps in the continuing fight against inflation.

Downtown Face Lifting Need Tremendously

Downtown merchants will shortly be solicited for the balance of their original pledge to form a plan for re-doing the central business district along modern lines and in conformance with the activities in many other cities.

Those who were not on the scene when the original list was drawn will be visited and given an opportunity to bear their rightful share of the costs. Every property owner and business man with a downtown location has a vital stake in this important matter.

The need is tremendous. Other cities are moving already.

The sooner this move is underwritten, the sooner plans can start for a bigger, better and brighter downtown.

Our Water Program Needs Financial Aid

Oakland County has a bigger stake in water safety than probably any other county in the State. This is largely true because we have 423 lakes.

Aside from all this water, we are adjacent to a large metropolitan area that uses the facilities of Oakland County for recreation. This being the case, Oakland County Sheriff Frank W. Irons' lake patrols are vitally important.

The County has appropriated \$5,000 for the project which is the same as last year. To increase the effectiveness of the lake patrolling, more money is needed.

Recently the Board of Supervisors voted to ask the State Waterways Commission for \$5,000 to match the County's appropriation. The Press feels this request should be granted.

If the Sheriff's program is to do the job adequately, we must have the money. The special deputies appointed for this work must be paid.

The number of accidents and near deaths each year is increasing on our lakes. Boating is on the upswing. Living in this populated area surrounded by lakes we need this added protection:

It is to be hoped that the State will see fit to approve this request for matching money to carry out this worthwhile water safety program. The State Waterways Commission needs only acquaint itself with our problem and it would be aware of the urgency.

Adoption Officials Must Consider Children First

Another case involving selection of parents for adoptive children has found its way into the headlines, this time on the basis of poundage, not mental stature.

An earlier case concerned allowing a child of high intelligence to remain with a family of average mental caliber. Authorities at first thought it best to remove the child, but later relented.

The newest case concerns the attempt of an obese couple to adopt a nine-month-old child whom they had cared for since birth. Adoption authorities told the man, a 320-pounder, and his wife, who weighs 250, that they were too fat.

It's not that fat people don't make good parents, the officials explained,

but that their life expectancy is shorter than the average person.

Adoption officials have a great responsibility to protect children. If they don't exercise care concerning the future of the youngsters, who is going to? It's not easy to tell couples who are childless that they aren't suitable parents, but it must be done for the youngsters' good.

The years ahead of a youngster must always come before the future of the adoptive parents. Adoption officials bear the brunt of emotional people who think only of the parents.

It is strange that in this mechanized and electronic age slot machines are still operated manually. Why aren't they rigged up so a person could push a button and lose his money with greater ease?

A writer says philosophy is the main thing that gives a man dignity. Maybe so, but pants are a close second.

The Man About Town

3,108 Want \$250

Predictions Made by Fans in Our Baseball Contest

Watchful waiting: What 3,108 good sports will now be doing until May 6.

When the time for receiving them expired Friday noon, 3,108 had submitted their entries in our baseball contest. This is the largest number received since the annual contest was started 13 years ago.

The entry naming the player who will be leading the American League on the night of May 5, and comes the nearest to his batting average, wins the prize of \$250 in U.S. savings bonds.

The choices cover a wide range. 139 different players receiving votes. Those given ten or more votes are:

Kuenn, 347; Fox, 187; Kaline, 168; Francona, 94; Mantle, 78; Colavito, 67; Bolling, 60; Minoso, 60; Malone, 52; Maris, 48; Power, 42; Bliko, 40; Allison, 39; Maxwell, 33; Temple, 30; Sieburn, 28; Runnels, 26; Howard, 26; Christley, 25; Throneberry, 25; Cerv, 21; Yost, 21; Woodling, 21; Killebrew, 20; Bludwin, 20; Skowron, 19; Green, 18; Robinson, 18; Kubes, 18; Landis, 18; Freese, 17; Aparicio, 16; Lollar, 16; Bond, 16; Dobbek, 16; Heid, 15; Bauer, 14; Richardson, 14; Lopez, 14; Wise, 13; Minchener, 13; Lemon, 13; Brandt, 12; Williams, 11; Boyd, 11; Berra, 11; Tasby, 11; McDougald, 11; Tuttle, 10; Fernandez, 10; Triandos, 10; Wilson, 10; Al Smith, 10.

Then 134 players received from one to nine votes each.

I like the confidence of

Mrs. Bertha Terry of Clarkston. Enclosed with her baseball contest entry was a stamped return envelope, presumably for mailing the bonds to her.

Another entry was accompanied by a note: "If my old man wins, I'll ask the court to grab it off. He's two years behind with alimony."

Several members of the Class of 1940 of Hamtramck are said to now be residents of Pontiac and vicinity. They are urged to write

Walter Marlee of 2578 Irma St. in Warren, who is arranging for a class reunion May 29.

Here's personal regards to that grand old man of the Michigan Legislature, Louis C. Cramton of our neighboring Lapeer County. At 84 he declines to again be a candidate after a life of public service.

Verbal Orchids to—

Oliver Chadwick of Bloomfield Hills; 83rd birthday.

Ernest Swanson of Lakeville; 84th birthday.

Mrs. Nora Olga of Keego Harbor; 80th birthday.

Wingfield Furniture Store of Holly; 102nd anniversary.

Mrs. Adeline Fucher of Walled Lake; 81st birthday.

Pierce Fleming of Metamora; 82nd birthday.

Lt. and Mrs. Roswell Smithfield of Lapeer; 51st wedding anniversary.

"Isn't That a Funny Place to Find Out

David Lawrence Says:

Intermarriage Heart of Race Woe

WASHINGTON — Billy Graham's Easter message about race relations in America contains many significant passages.

The world evangelist, just back from a tour of Africa, says, the most burning issue of modern times is the race question, that people are discussing it all over the world and that it is not confined to South Africa or to the South in the United States. He says:

"Wherever two races, nationalities or cultures live side by side there are tensions and problems. The real issue is one of mutual adjustment—whether it shall be forced, or follow the paths of evolution."

"Christ said that our problems come from within: 'Out of the heart are the issues of life.' The Supreme Court can make all the decisions it feels are necessary; but, unless they are implemented by good will, love and understanding, great harm will be done."

"I am equally convinced that 'Jim Crow' must go. It is absolutely ridiculous to refuse food or a night's lodging to a man on the basis of skin color. There are many cultured, refined, educated Negroes, Indians or Mexicans, who are insulted as human beings when they cannot get a decent place to sleep in many parts of our country."

The evangelist says that some clergymen of both races have unwisely made the "race issue" their gospel and that it is more important to create an atmosphere "where all racial differences can be settled and love prevail."

He added: "This doesn't mean that the race problem is not to be preached and taught—but it is not to be our 'gospel' nor are we to judge a man's relationship to God solely on the basis of his attitude on the race question."

MANY TOO IMPATIENT Unfortunately too many people who want to see the race problem solved overnight are too impatient. They cry out that they have "waited long enough," and they therefore, approve of those who take the law into their own hands by inciting provocative demonstrations. Yet only a few years ago the lynch mobs felt the same way and wouldn't let the law take its course. Today lynchings are rare. The core, however, of the race problem—intermarriage—is not often touched on by those who argue publicly about the theory of "integration."

Anybody who has discussed the subject with intelligent southerners will find that more refusal to serve Negroes and whites at the same lunch counter is in itself not the issue. Nor is the question of mere attendance of Negroes and whites in the same schoolsrooms the underlying obstacle. The possibility of intermarriage is the basic fear of those who oppose "integration."

Not long ago this writer had lunch with a prominent Negro who is one of the leading editors of a self-governing country in Central Africa. When asked about intermarriage as a problem in his country, he answered that it was forbidden by law and that he heartily approved of the law. His reasons were based on pride of race.

There have been suggestions that here in America segregation in public schools by sexes might come in time with white boys and Negro boys attending the same classes while separately white girls and Negro girls were studying together.

Critics of this idea say it wouldn't help matters much because Negro boys would doubtless be invited by white boys to their homes or Negro girls would become chums of white girls and inevitably at the home there would be social relationships which could develop intermarriage problems.

The people who feel deepest about the race question speak of the intermarriage issue as superseding all else. They say that controversy about lunchrooms and schools are mere symptoms of the larger conflict on the intermarriage question. There have been some intermarriages between whites and Negroes in America but more

unions between whites and members of the yellow races.

It is on this subject that the men in the pulpit will be called upon more and more to define the application of their doctrines of human love so that worried mothers and fathers living in areas where non-whites predominate can be given some answer consistent with the teaching of Christian love.

Smiles

When a fellow constantly sings his own praises he hits a lot of sour notes.

Dr. William Brady Says:

Ca and D Ration Improved Woman's Cramped Legs

"Dear Dr. Brady:

"I am a woman, 42.

"When I was a young matron

my father-in-law,

lived with us. He

used to complain

bitterly about

night cramps in

his legs. I was

bearing my children

and was

sometimes both

erred the same way.

"We both a c-

ceived it as some-

thing that couldn't

be helped." (Come, come, now,

wasn't it? Doc Brady offering to

send on request the pamphlet on

Adult Tetany and Growing Pains to

any one who provided stamped,

self-addressed envelope.)

"As I grew older, 70 or there-

abouts, I began to have a return

of night cramps. But I had been

reading Dr. Brady and I immedi-

ately adopted the Ca & D ration.

Soon the cramps stopped,

but returned when I carelessly

omitted the waters for a few

weeks.

"Last summer, when I went to

my dentist for my annual cleanup,

he complimented me on the state

of my mouth and soundness of my

teeth. I told him I was convinced

the condition of my bones and teeth

was due in large measure to my

faithfulness to Dr. Brady's Ca & D

ration.

"He said he would pass my ex-

perience on to other patients.

"Don't get discouraged. You

have lighted a little candle.

"Let me not be numbered among

the other nine."

Sincerely,

Mrs. Bartlett and Stevenson both

said: 'Set! When I asked them what their allusion to the other nine (candles?) means, I even tried to find it in the Bible.

"People who have night cramps—sometimes one occurs on waking in the early morning if you try to stretch—should send me a stamped, self-addressed envelope for pamphlet on Night Cramps.

Signed letters not more than one page or 100 words long pertaining to cramps, leg pains and leg cramps, diagnosis, or treatment, will be returned. Write Dr. Brady, P.O. Box 100, Pontiac, Michigan. Send stamped, self-addressed envelope to The Pontiac Press, Pontiac, Michigan.

Case Records of a Psychologist:

Bed Wetting Common at 3 Years

Bobby's case should be a challenge to all of you mothers who have pre-school children, so scrapbook this column. Good parents should always show that they love their youngsters, but they also need specific strategy to solve the problems that arise. That's why I offer you the "case method" in this educational column.

BY DR. GEORGE W. CRANE CASE E - 437: Bobby D., aged 3, is getting new parents soon.

"Dr. Crane," his prospective mother began, "I am so utterly happy about Bobby that I feel like singing all day long."

"I've been married eight years, but never could have any babies of my own. Now we have the chance to adopt Bobby. But I need some advice quickly. For ex-

ample, Bobby stutters. And he wets the bed regularly. So please tell us how to cope with a boy of his age?"

In his eagerness to tell about some dramatic event, his ideas thus run far ahead of his vocabulary, so he stutters.

Ignore the story of stuttering, for it corrects itself in a few years, unless neurotic parents "act" the bad habit of stuttering by constantly yelling at the child and making him under self-conscious about his speech.

As regards enuresis (bed wetting) this problem is also very common at Bobby's age. In fact, probably 20 per cent or more of

Voice of the People

'Take Heed, Dog Lovers! I'm Going to Take Action'

It's time for me as a dog lover to speak up. My son was bitten on the face by a dog on my property in Waterford. My brother was bitten while walking home from work. If humans aren't safe from dogs and Township officials can't make laws that should have been made years ago, it's time we started thinking of some new officials and new laws.

I'm tired of being chased and growled at by some dirty dog running loose in packs, and I'm one mother that's going to do something. Take heed, dog lovers, and start gathering your precious stray dogs. Any dog crossing my property or on it will be taken care of one way or another.

I read about the supposed Waterford ordinance in The Press. If Township officials had taken care of this, it might have saved a lot of worry and hurt for parents and children.

Marcella Best

'Why Not Renew Rockefeller Push?'

It polls continue to show Nixon running behind Kennedy, why doesn't the GOP start pushing Rockefeller again? He has a magic name.

R.G.

'Don't Permit Child to Ruin Others' Fun'

Has your child suddenly stopped believing in the Easter Bunny or Santa Claus and the joys of Christmas because some kid at school said, "My mother told me there's no such thing. Boy, are you ever dumb, kid."

If your child is old enough to know these are childhood joys, can't you explain they are memories to treasure and let the little ones enjoy them as long as they can?

I know a lot of parents feel children shouldn't be allowed to believe fantasy and that those who do will never have faith in their parents or believe anything parents say afterwards. My parents let us believe in these wondrous times and we were taught the true meaning of Easter and Christmas when we were old enough to understand. We loved and respected our parents and never lost faith in them.

Feels Skid Row Has Improved

I want to take issue with the lady regarding former Skid Row. Anybody who has used South Saginaw Street should be aware of the decrease in the number of drunks in the past few years.

Harold A. Grant

Appreciates Concern of Press Editorial

I want to thank The Press for the honest talk in the editorial about the dangerous pedestrian problem in Pontiac.

Franklin and Saginaw. We find it refreshing that someone takes an interest in some of us folks living in the Franklin area. It looks like the police don't care. They still expect us to continue to cross Saginaw at Franklin with the arrow letting some of the cars make turns. At least we can keep up this kind of good work.

Mother

As we keep or break the Sabbath, we nobly save or manly lose the last best hope by which man rises.—Abraham Lincoln.

THOUGHT FOR TODAY

If you turn back your foot from the Sabbath, from doing your work on my holy day, and pleasure on my holy day, and keep the Sabbath a delight and the holy day of the Lord honorable—if you honor it, not going your own ways, or seeking your own pleasure, or talking idle words—Isaiah 58:13.

As we keep or break the Sabbath, we nobly save or manly lose the last best hope by which man rises.—Abraham Lincoln.

Gypsy

hours after they retire, for this is usually when a first accident occurs during the night.

Personalize the fight, too, so the child looks on his bladder as the "enemy," instead of feeling that his parents are his foes.

And don't lift the sleeping child out of bed and steer him to the bathroom in the middle of the

night, for this just encourages him further in leaning on others to solve his problem.

Bed wetters MUST accept full responsibility and thus cure themselves!

Send for the Uroclast booklet, enclosing a stamped, return envelope plus 20 cents. It shows how to construct a simple shocking machine that is a surefire method.

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long stamped, self-addressed envelope and a return stamp and printing costs when you send for the Uroclast booklet and pamphlets.

(Copyright 1960)

Sometimes it is well to push fluids before bedtime, instead of curbing them. This will saturate the problem and often force him to a quicker battle with his difficulty.

Let the older children set an alarm clock, to go off about 2

night, for this just encourages him further in leaning on others to solve his problem.

Falling Hair Can Be Helped

A new pamphlet published by Lanole Products, Inc. titled "SCALP HEALTH AND HYGIENE" reveals a startling new concept in the scalp structure and scalp hygiene. It takes you behind the scene of ten years of research into the causes of scalp itch, dandruff and falling hair.
"We must understand the causes of scalp disorders," declares A. P. Abbey, Lanole president, "if we hope to prevent this tragedy. The scalp is an organ,

No Structural Defect Pinpointed as Yet

Quesada Refuses to Ground Electras

WASHINGTON (UPI) — Only three times in history has the government grounded an entire fleet of airliners as a safety precaution.
In each case the planes were ordered out of service until alterations could be made in some

structural defect which had been proven to be the cause of a fatal crash.
No cause has been pinpointed for the crashes of Lockheed Electra jet-prop airliners near Tell City, Ind. last month and Buffalo, Tex. last September killing a total of 97 persons.

Federal aviation administrator Elwood R. Quesada has rejected a unanimous Civil Aeronautics Board recommendation that he ground all "uninspected" Electras.

In 1947 all Douglas DCs were grounded to correct a design fault which placed the air intake for the cabin heater in such a position that it could in certain instances suck in gasoline that overflowed from a wing tank.

The planes were ordered down after gasoline sucked into the in-

take and heated until it caught fire caused the crash of a United Airlines DC8 near Bryce Canyon, Utah, killing all 32 persons aboard, and the forced landing of an American Airlines DC8.

In 1948 all Lockheed Constellations were grounded following a series of electrical fires culminating in the fatal crash of a training flight.

The Civil Aeronautics Board found that a tiny metal conductor which allowed electric power to be brought through the fuselage without affecting the pressurization seal was of "crude and deficient design." New conductors were designed.

The same year, all Martin 202s were grounded after all 37 aboard were killed when one of the planes operated by Northwest Airlines lost a wing in a thunderstorm near Winona, Minn.

Tormenting Rectal Itch Stopped In Minutes

Science Finds New Healing Substance That Promptly Stops Itching and Pain of Piles

New York, N. Y. (Special) — One of the most common afflictions is a condition known as "itching piles." It is most embarrassing for the victim during the day and especially aggravating at night. No matter what you've used without results — here's good news. For the first time, science has found a new healing substance with the astonishing ability to promptly stop the burning itch and pain. It actually shrinks hemorrhoids — without surgery. Medical science has proved this substance produces a remarkably effective rate of healing. Its germ-killing properties also help prevent infection. In one hemorrhoid case after another "very striking improvement" was reported and verified by doctors' observations. This improvement was maintained in cases where doctors' observations were continued over a period of months. Among these sufferers were a wide variety of hemorrhoid conditions, some of 10 to 20 years' duration. The secret is this new healing substance (Bio-Dyne) — discovery of a world-famous research institution. This substance is now obtainable in eminent-suppository form known as Preparation H. Ask for Preparation H suppositories (convenient to carry if away from home) or Preparation H ointment, with special applicator. Absolute satisfaction guaranteed or money refunded. *See U. S. Pat. or

Peering Through Hospital Window

Outside World Is a Wonderful Place

By PHYLAS BATTLE

NEW YORK — The world is never more exciting and inviting than when looked upon, jealously, from a hospital window. From a house window, or an office window, you can view the world calmly, objectively. You can take it or leave it; most of the time, caught up in the latest personal problem, you ignore it. But from a hospital window the world is endearing, and all its people are delightful. Its dogs, observed topside, are marvelous beasts. Its pigeons are exotic, eccentric birds of Paradise. Its streets — how could you ever have thought them grimy? — are wondrous thoroughfares for shining taxis and splendid trucks. Good old taxis and trucks. Once you get out, you'll never swear at them again.

TENEMENTS CHARMING

My room looks out upon buildings which, viewed from the street, might appear to be tenements. Ah, but the free, healthy citizens striding at ground level cannot know how charming a tenement seems from a window of confinement. From here, the tenement top is as representative of luxury as a penthouse. Daily, the diligent ladies of Eighth and Ninth avenues climb out onto their solar roofs to hang the wash on clotheslines strung from chimney to television aerial.

To one grown accustomed to starched hospital white, a clothesline of color is an inspiration.

An elderly man regularly brings his yellow dog to the roof, stands him regally on a parapet five stories above West 51st street, and brushes him to a pedigree polish. Then the dog bounds back to the asphalt, wriggling with vanity and glee, and the man lights a pipe and they enjoy the sunset together. I have never before fully appreciated yellow dogs and placid old men.

SNIFF! SNIFF!

There is a bakery on the corner way below into which people walk quickly, emerging later with boxes and bags of goodies which I cannot think, at the moment, of eating.

Actors Make Demands, Warn of Strike

NEW YORK (AP) — Actors Equity Assn. says a strike is possible throughout the country if demands for better working conditions and higher minimum pay are not met.

The demands were made Friday at a news conference. Present were Helen Hayes, Jessica Tandy, Peggy Wood, Tom Bosley, Kurt Kasnar, Claudia McNeil, Stapleton, Margaret Hamilton, and Ross Parker.

The old contract with the League of New York Theaters, representing about 60 producers, expires June 1. A strike would affect all theaters coast-to-coast.

MIAMI — Here's how Leonard Fruchman's fine horse Bally Ache got its name:

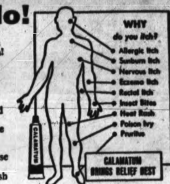

Scotland Advertiser

SWANLEY JUNCTION, England (UPI) — Men walked the auto-clogged highways near here today carrying signs which read: "No

Traffic Jams in Scotland." The men are employed by Scottish tourist agencies. Portable counters for uranium cost \$30 to \$700.

Hits Tree in Maryland;
Ohio Collision Kills 6

MOUNT VERNON, Ohio (UPI)—Eleven persons died in two automobile collisions near Mount Vernon, Ohio, and Sharpsburg, Md., yesterday.

Two infant girls were the only survivors of the "blinding, head-on Mount Vernon crash that took six lives at the top of a knoll on Ohio-214. And five men were killed instantly near Sharpsburg when their automobile crashed into a tree on State Route 34.

Janet Blevins, 3 1/2, and Pamela Sue Blevins, 2, are in fair condition in Children's Hospital, Columbus, Ohio, suffering from injuries received in the crash that killed their parents and two brothers in one car and two girls in the other car.

Dead are Emory Blevins, 30, his wife Hilda, 24, Mansfield, and their two sons, Danny, 6, and Jackie, 3, and Miss Marie Solter, 24, Centerville, and her sister Frances, 20.

In Maryland, the crash impact ripped the car in half and hurled the engine more than 150 feet from the wreckage.

State police identified the victims as George M. Mowen, 28, and Raymond C. Smith Jr., 27, both of Rte. 1, Hagerstown, Md.; Charles William Arthur Jr., 24, and Alton Lee Stewart, 24, both of Hagerstown, and John L. Bingham, 29, Rte. 3, Waynesboro, Pa.

Investigating officers said it was believed Mowen was driving the car at "an excessive rate of speed" when he failed to negotiate a curve and slammed into the tree.

All the victims' bodies were thrown from the car.

Gunning for Burglars

SANTA BARBARA, Calif. (UPI)—Burglars were advised today to quit breaking into a sporting goods store in nearby Goleta. Sheriff's deputies said that despite their warnings about safety, the store owner rigged a double-barrelled shotgun to blast at a rear window if it were tampered with.

Nylon, Doggone It

MAIDSTONE, England (UPI)—A pet shop here is advertising meat-scented nylon bones.

NOW! IS THE TIME..

To Prepare for Another Winter of
Warmth and Comfort at Low, Low Cost!

Telephone FE 5-8181

You know how efficiently, how comfortably, how economically New Mobilheat furnace oil heated your home during the past cold weather . . .

You know how cleanly New Mobilheat distributed the warmth to every room, burning with a cleanliness that actually cleaned as it burned, which in turn eliminated many costly furnace repairs.

You know how dependable GEE's automatic delivery of this better quality fuel oil always maintained a good supply at your finger tips and how cleanly every delivery was made.

So, NOW, when you come to the end of the heating season is the time to arrange for another year of warmth, comfort, cleanliness and economy by dialing FE 5-8181 today.

You Can Always

Hopes to Rouse Lethargic Elephant

Nixon Considers Open Race for VP

By RUTH MONTGOMERY
WASHINGTON—Presidential hopeful Richard M. Nixon is beginning to lend an attentive ear to mounting GOP pressure for a wide, open, fight-to-the-finish contest for the vice presidential nomination.

Republicans crave excitement as the Wisconsin primary demonstrated when tens of thousands of party faithful deserted the non-competitive GOP ticket to mix it with the Democratic bloodletting.

Bored with the prospects of a cut-and-dried presidential nomination, elephant party workers are apt to be caught napping in November unless a hair-pulling contest can stir their fighting blood in July.

At least, that's the consensus of some GOP bigwigs, who are prodding Nixon to invite all comers into the vice presidential fracas at the Chicago nominating convention.

Advocated by BRIDGES
One of the leaders of the "Let's have an open fight" clique is Chairman Styles Bridges of the Senate Republican Policy Committee.

The dean of GOP senators confesses that he has made the proposal to Nixon, and that the White House aspirant has "reacted very favorably" to arguments for a wide-open race.

Barring a major toe-stubbing by Nixon, and a sensational 11th-hour shift by Gov. Nelson Rockefeller, President Eisenhower's running mate has the top spot clinched. This makes for dull convention theatrics, listless delegates and covertly sanguine precinct workers.

Conservative Sen. Barry Goldwater admits frankly: "If the party offers a man the second highest office in America, who could refuse such an honor?"

One of the days when the vice president was a twiddle-dee nonentity. As John A. Wells points out in his newly published Voter's Presidential Handbook, the office has become a superb steppingstone to the White House.

Twenty-eight per cent of our vice presidents have assumed the presidency since 1860. More important,

he has assigned Nixon so many starring roles that his successors will find themselves on an embarrassing spot unless they follow a similar pattern.

Among Nixon's major tasks have been meeting foreign dignitaries and substituting for Ike at many official functions, attending and sometimes presiding over the National Security Council and the President's official embassy to 24 foreign countries, presiding over and breaking the votes in the Senate, chairing the Cabinet Committee on Price Stability for Economic Growth, and directing the President's Committee on Government Contracts.

Without the bipartisan appeal of a war hero, the minority Republican Party will have to work as never before to retain the executive mansion. A zealous, red-blooded floor fight for the vice presidency could help, and may be the best man win.

Wheeling Voters Say: 'Who...?'

WHEELING, W. Va. (UPI)—A man-on-the-street survey taken by a Wheeling reporter indicates that most West Virginia voters don't know who is running for President in the state's primary election May 10.

Of the 50 persons interviewed at random, only four knew the full names of both Democratic presidential aspirants, Sens. John Kennedy of Massachusetts and Hubert Humphrey of Minnesota.

One of the four who supplied the full names of both candidates was a high school freshman.

Another interviewee said the candidates were "Kennedy and Murphy." He said he was campaigning for Kennedy, but couldn't remember his first name. Asked about Murphy's first name, the man said "Murphy isn't very important anyway."

Girls Will Be Boys After Italy Surgery

CHIETI, Italy (UPI)—A surgeon here said today the three Chiavelli sisters are in the process of becoming brothers in a sex change ruse in medical history.

Dr. Pietro Zulli, of the Holy Annunziata Civil Hospital, said 15-year-old Anna and 14-year-old Lucia Chiavelli have already undergone the operation that makes boys out of girls. Ten-year-old Antonietta is being examined preparatory to surgery.

Zulli said the three "girls" actually are male pseudo-hermaphrodites—persons who are biologically male but who have the outward appearance of females.

"What is unusual is not so much the phenomenon itself as the fact that there are three cases in the same family," he said. "There are few similar instances in the world's medical annals."

'We're Existing and Have No Regrets'

Winter Tough for Last 10 of 'The 59ers'

By PAUL QUINN
TALKEETNA, Alaska (UPI)—Ten tough Michigan pioneers who have stuck out the long winter in the Alaska bush summed up their condition today in two words: "We're existing."

The 10 are all that are left of a group of 42 homesteaders who arrived in Alaska 13 months ago to carve out a new life for themselves. But these 10, including a 20-month-old child, are determined they are going to make it.

"It's going to take a lot more than a group of 42 homesteaders who than cold and snow to get me

off my land," Marco Sik said. "We're existing and I have no regrets at all."

Sik, his wife Carol, and their 20-month-old daughter, have just finished laying a floor in their log cabin. They didn't have a floor during the winter.

Sik was a repairman for a gas company in Detroit and also was a deputy sheriff in Wayne County before coming to Alaska as one of the group calling themselves "The 59ers."

TO START GARDEN
"I've just finished a grain house and we hope to start on

our garden as soon as the two feet of snow goes away," he said.

In addition to the three Siks, those remaining are Bill Orzechowski, 45, a former plumber; Raymond Kulu and his wife and 14-year-old son; Harry Donaldson and his wife Bertha, and Eric Eckman.

Many of the 59ers just up and quit, leaving Alaska to return to Michigan. Some of them still are in Alaska, but have moved to more civilized areas, working steady jobs.

The winter was tough for the 59ers who stayed in the wilderness. Snow surrounding their partially completed cabins and lean-tos reached four to five feet in depth. The temperature dropped as low as 55 degrees below zero.

"We only had two days that really got cold," Sik said. "I've

spent many a winter in Detroit that was colder."

"One thing that grates me is that I can't hunt legally. I still have to raise the 59 bucks to buy an Alaska hunting license."

Sik's homestead consists of a couple of acres of land. He started out with a lean-to and a trailer but now he has his flat-roofed log cabin affair with an oil stove.

His livestock includes 10 chickens, a cow and two horses. While the Susitna River is still frozen,

he is able to ride one of the horses across the ice 10 miles to this town to purchase supplies.

But when the ice goes out, which won't be long now, he and his family, as well as the other seven homesteaders, will again be dependent on bush pilots to fly in supplies, render emergency assistance or just be company.

"We expect to have our living quarters finished and ready to live in this summer," Sik said. "I'm going to try and grow more hay for cattle too."

'I Saw No Woman,' Says Eric Peugeot

PARIS (UPI)—Insistence by 4-year-old Eric Peugeot that he did not see a woman during the 51 hours he was held captive cast doubt today on what police had considered one of their most promising leads to his kidnappers.

Gabriel Ballet, manager of an all-night garage, had told police he saw a woman lead a small boy down the street early Friday morning; shortly before Eric was discovered a block away, alone and crying.

Ballet said the woman wore a dark gray topcoat, red sweater and no hat. She had long brown hair and appeared to be between 30 and 40 years old, he said.

He told police that when the woman spotted him, she left the child and jumped in a dark Peugeot 403 sedan with two men and drove off.

DESCRIPTION TALLIES
The description of the car and the men tallied with that given by witnesses at the golf club from which Eric was kidnapped last Tuesday.

But Eric, an heir to an automobile fortune, insisted no woman was involved.

"I never saw a woman," he said. "There were only two men who kept me with them all the time. They were very nice. They even let me turn the knobs on their television set."

But because of a few grains of lipstick found impeding in the glue of the envelope containing the first ransom letter, police continued to believe a woman accomplice figured somewhere in the case.

Eric's father, Roland, 34, has stood by his pledge to the kidnappers not to take an active part

in hunting them down, but he did furnish some details to Police Commissioner Andre Pierangeli, head of the Paris Flying Squad, as to how he paid the ransom.

He said he did not see his son's abductor but merely stood in front of a dark alleyway and passed back a briefcase containing the \$500,000 ransom when a man whispered the password, "Keep the key."

The transaction took place in broad daylight — at 4:55 p.m. Thursday — less than three miles from Peugeot's home.

Test Torch Case
Bullets and Gas

Crime Lab Will Probe Samples; Clues Are Scanty in Slaying

LANSING (UPI)—Investigation of the torch slaying of a Belleville gasoline station attendant will be renewed today when bullets taken from the victim's body and gas-line samples found on portions of his unburned clothing are tested by the state crime lab.

Carl Nickell, 43, was shot Thursday night before he was doused with gasoline and died in a fire at a lonely service station near Willow Run Airport.

The Michigan Department of Health's crime detection laboratory will make the tests of the scanty clues police have been able to find.

Police in Elyria, Ohio, still are holding for questioning two youths who were captured during a high-speed automobile chase. Police said the pair, Harold Dean Wolford, 21, Dearborn, and Earl Estep, 18, Thacker, W. Va., admitted a four-state crime spree, including Michigan, but denied the Nickell slaying.

Police said they found a pint of gasoline in the youths' car and bullets and shell casings from a 22 caliber pistol. Nickell was shot four times with a gun of the same caliber. Tests will be made to determine whether the bullets could have come from the same gun.

The two admitted a motel holdup 18 miles from the gas station and about 15 minutes from the time police believe Nickell died, officers said.

Chief Detective Made Sheriff at Muskegon

MUSKEGON (UPI)—Marion Calkins is the official sheriff of Muskegon County today, succeeding Arthur W. Davis, who resigned under pressure last month.

Calkins took the oath of office as sheriff Friday from County Clerk Eugene Berberon, the day Davis' resignation became effective. Calkins was chief detective under Davis.

READS MESSAGE — Pope John XXIII delivers his Easter message to 150,000 persons gathered in St. Peter's Square in Vatican City Sunday. He lamented the struggle of many for natural and civil rights in an obvious reference to Negro race troubles. The 78-year-old Pontiff also assailed communism for its "false idea of personal and social life."

Addresses 150,000 in Rain**Pope Expresses Sorrow for Racially Oppressed**

By FRANK BRUTO

VATICAN CITY (AP) — Pope John XXIII expressed sorrow in his Easter message Sunday for those suffering because of race or denial of their civil rights. Addressing 150,000 persons standing in the rain in the great square before St. Peter's basilica, the 78-year-old pontiff called men to the peace of the risen Christ in a world plagued by racial intolerance.

In an obvious reference to the Negro's race problem, he said: "And our sorrowing gaze turns also to the other children of God everywhere, suffering because of race or economic conditions, at once complex and giving reason for anxiety, or through the limita-

tion on the exercise of their natural and civil rights." The ruler of the Roman Catholic Church put special emphasis on racial tolerance during Holy Week. On Holy Thursday he performed the traditional ceremony of washing the feet of 13 persons, emulating Christ at the Last Supper. For the first time those chosen included Negroes, a Japanese, West Indians and a Polynesian. The pope also dealt with communism in his message. "On one side stands Christ, together with his representatives and his followers in the church, raised up in holiness and brotherly love," he declared. "And with

the church thus blessed there abide sound doctrine, truth, justice and peace."

On the other side, he said, "rallying support, is the anti-Christian spirit which is error, the false idea of personal and social

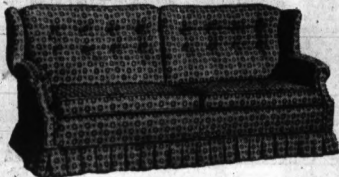

life, excessive power and even physical violence, evil and ruinous disaster."

Pegler Must Pay

TUCSON, Ariz. (UPI) — Columnist Westbrook Pegler must pay his wife \$1,000 temporary monthly support at least until the conclusion of court action to end his marriage of less than a year.

In their new Easter bonnets children of Mr. and Mrs. Louis A. Fry of First avenue descend the stairs for Sunday School at the First Assembly of God Church. Gloria, left, in a robin egg blue frock holds tightly to the hand of Carolyn dressed in hyacinth pink.

Mr. and Mrs. H. W. Grove of Greer street, Keego Harbor leave Trinity Methodist Church following the later Easter morning service. The Groves will give the lily to a member of the congregation who is ill.

Posies From Photos by Phil Webb

Spring Finery in Full Bloom for Pontiac's Easter Parade

Two four year olds — from left, Renee, Rebecca, Rory and Ramona, daughters of Mr. and Mrs. Jack Perry of West- acres, leave historic old Four Towns Methodist Church in Waterford where they attend Sunday School. All decked out in their pretty new outfits, they con- fided they enjoyed the Easter music "best of all."

Watching worshipers as they arrived at First Baptist Church Easter morning was Ricky Stone, son of the Raymond Stones of Witherall street, Walled Lake. Ricky is wearing his first little-boy suit and hat.

Leaving St. Paul Lutheran Church in a pouring rain were Mr. and Mrs. Frank Gohl and daughter Vicki Lynn of Garden court. The Gohls attended an early Easter morning service.

'Quoth the Husband, Nevermore?'

Just Ask About Lenore

By ABIGAIL VAN BUREN

DEAR ABBY: Last week while cleaning out the pockets of my husband's sport jacket I found a sil- ly valentine. It was a pic- ture of a cave- man hitting a cave woman over the head, and un- derneath it said, "YOU SLAY ME." It was signed, "Lenore."

I asked Harold who "Lenore" was. He said, "Oh just some dizzy dame at the office."

Now, Abby, in all the 11 years we've been married I never once went through Harold's billfold and I don't know what made me do it last night.

Well, I found a little white card (the kind that comes with a gift) and on it was, "Love, Lenore."

I am heartick. Should I ask Harold for a showdown when he comes home? Or should I pretend I never saw it? Or should I call Lenore and ask her how far this has gone? Please help me, Abby. I've never faced anything like this before.

HURT, HEARTSICK AND DISILLUSIONED
DEAR HURT: Tell Harold your intuition has been work- ing overtime and you'd like to know more about "Lenore." Listen quietly while he ex- plains. When he's finished you

will probably find out that Le- nore is just "some dizzy dame at the office."

DEAR ABBY: A friend of mine (male) gave me one of those wish-washy hand shakes and I told him that a hand shake with no more life in it than a dead fish was my pet peeve. So he grabbed my hand and crushed it so hard that he broke two bones in my finger. I slapped his face.

I didn't realize the damage he had done until I went to the doctor the following day and had it X-rayed. When I told him about it, he offered to pay the bill. Should I let him? He is married, but I am not.

DEAR DIANNE: Let him? If he doesn't slug him with your GOOD hand.

DEAR ABBY: My husband and I have been watching the ads for movies in the news- papers, and are still waiting for a decent one to come along. They seem to be getting worse. The movies are vulgar, sug- gestive and indecent. And the advertising would make your hair stand on end.

We are no spring chickens but we worry about the young folks who see these ads and go to the movies. Small wonder our juvenile courts are packed every day. Yet our PTA's are busy fund- raising to buy bicycle racks and gym equipment. How about PTA putting forth some effort,

to get movies that are fit to see?

JUST DECENT FOLKS
DEAR FOLKS: It is not the function of the PTA to censor movies and their ads. It is up to the parents of children in the impressionable age group to exercise control over which movies their children see (as well as which books they read and with whom they associate). Not all movies are vulgar, sug- gestive and indecent. Some are wholesome, educational and in- spirational.

CONFIDENTIAL TO "HOW TO TELL HIM" Tell him in English, and fast. It is easier to give back an engagement ring than a wedding ring.

"What's your problem?" Write to Abby in care of this paper. For a personal reply, enclose a stamped, self-ad- dressed envelope.

Oakland Nurses to Meet Tuesday

Oakland County District Nurses Assn. members will meet Tuesday at William Beau- mont Hospital. George T. Daughters, director of the Detroit District Food and Drug Administration, will speak on "Food Facts versus Food Fallacies." The film "Food Fighters" will be shown. A coffee hour at 7:30 p.m. will precede the meeting.

Will Hold Donor Night

Mrs. Milton Rosenbaum will review the Broadway play "A Raisin in the Sun" when donors of Temple Beth Jacobs Sisterhood and their husbands are entertained at Donor Night Wednesday.

Mrs. Irving Gordon is Don- or chairman. A Sisterhood business meet- ing will be held Tuesday with a luncheon at 12:45 p.m. Plans for the Michigan Federation of Temple Sisterhoods Convention slated for April 25-27 in Pon- tiac will be outlined. Mrs. Irving Steinman and Mrs. Julian Levine are co- chairmen.

Evening Wear

(NEA) — A heavy white lace camisole, such as many stores carry in the blouse department now, is a good booster for a girl's wardrobe. Worn with a black velvet or silk skirt, it makes a pretty costume for lit- tle evenings.

Four Pages Today in Women's Section

DAR Convenes Tonight

WASHINGTON (UPI)—The Daughters of the American Revolution (DAR) open their 69th annual continental con- gress tonight. They will re- ceive a message from Presi- dent Eisenhower.

A colorful procession to Con- stitution Hall will begin the five-day session, marked by an opening address from Ameri- can Legion Commander Mar- tin B. McKeenly of Newburg, N.Y., speaking on "America,

its Opportunities and Respon- sibilities."

The Daughters will consider 20 resolutions during the meet- ing, including coexistence and disarmament, television and radio, food and drug additives, Air Force manuals, students' loyalty oaths and pornographic literature. Mrs. Ashland White of Lu- bec, Maine, president general of the DAR, will preside over sessions of the expected 4,300 delegates and alternates.

Prevention of Delinquency to Be Topic

George Carola, executive secretary of protective services for Pontiac, will inform Wever School PTA members of "Protective Services for Children

Before They Become Delinquent" at 2:15 p.m. Thursday. Social committee members will be mothers from the rooms of Mrs. Homer Gervie and Mrs. Esther Bowick, third grade, and Mrs. William Mills, fourth grade. The Wever Pre-School Study Group will not meet this month.

Auxiliary 1008 Meets

Auxiliary 1008 to the Veterans of Foreign Wars elected Mrs. Lucie Wright to the office of president at recent installation ceremonies. Supporting officers installed by Mrs. Jack Gries are Mrs. Elvin Stevall, senior vice president;

Mrs. James Dunning, junior vice president; Mrs. Frank Finkle, treasurer; Mrs. Otto Zander, chaplain; Mrs. Leslie Anderson, guard; Mrs. Loren Beach, conductor; Mrs. James Dada, trustee; Mrs. Archie Tryon, musician; Mrs. Ida Witt, secretary; Mrs. Allan Hersee, assistant secretary.

Color-bearers are Mrs. Otto McCray, Mrs. Dada, Mrs. Alma Cowley and Mrs. Edward Schram. Delegates to Council are Mrs. Zander and Mrs. Beach. Alternates are Mrs. Cowley and Mrs. Tryon. Mrs. Tryon and Mrs. Finkle are 5th district delegates. Guests were from Gold Stars, Blue Stars and Navy Mothers.

Bake Sale Today Sponsored by Emerson PTA

Emerson School PTA is sponsoring a bake sale today until 8 p.m. Mrs. Charles Welch is chairman.

At the April meeting Clifford Smart, legislative chairman for the Michigan Congress of Parents and Teachers explained resolutions to be voted on at the state convention. Mrs. Warren Waldbillig and Mrs. Lloyd Clancy were appointed delegates.

Mrs. Livingston and Lois Coan presided at refreshments prepared by their room mothers.

Style Show Plans Set

The Women's Auxiliary of the Pontiac Italian-American Club has completed plans for the spring fashion show and card party April 28 in the club hall. Mrs. Paul Felice is chairman, and Mrs. Carl Grassi, cochairman. Styles will be presented by the DeCor Shop.

Tentative plans for the May rummage sale were announced by Mrs. Inez Dimas, chairman. Officers elected at the May meeting will be installed at a banquet being planned by Mrs. Joseph Bonfiglio.

Win at Duplicate

Seven tables were in play when Pontiac Bonnevillie Duplicate Bridge Club met Saturday at Hotel Waldron.

Mrs. Ernest Guy and Frank Freyman, Mr. and Mrs. Robert Riccardi and Mr. and Mrs. Frank Kennedy were winners. Others were Mr. and Mrs. Lionel Thompson and Mr. and Mrs. Arnold D. Richards.

A few drops of cologne or toilet water in the final shampoo rinse adds a fragrant touch to your hair.

CAROL ELSWORTH WILSON

Mrs. H. Richard Steding III of Birmingham, and Edward E. Wilson, also of Birmingham, announce the engagement of their daughter Carol Elsworth, to Knox Kinlaw, son of the Knox Kinlaws of Lumberton, N.C. Miss Wilson is a graduate of Kingswood School, Cranbrook, and is now attending Salem College, Winston-Salem, N.C. Her fiancé will graduate from Davidson College, Davidson, N.C., and they both will attend the University of North Carolina next fall where Mr. Kinlaw will be a medical student. An Aug. 20 wedding in Christ Church Cranbrook, is planned.

Meg Hints Honeymoon

LONDON (U) — The London American said today Princess Margaret has hinted she wants to spend part of her honeymoon in the United States.

The weekly newspaper said the British Embassy in Wash-

ington has relayed the princess' wishes informally to the State Department. Sources at the U.S. Embassy in London and at Clarence House, the princess' residence, said they knew nothing of the report.

The princess and former society photographer Antony Armstrong-Jones will be married May 6.

Pontiac Twp. Nebs Hobnob on Vernon Drive

Mrs. Gerald Mahrie of Vernon drive, Pontiac Township, opened her home for the April meeting of the Nebs Social Club. Mrs. Donald Menard and Mrs. Arthur Witt Jr. were cohostesses. Prizes for games were taken home by Mrs. John Salitsky, Mrs. Helen Wallis, Mrs. Jasper Wright, Mrs. Myron DeWys, Mrs. John Irwin and Mrs. Menard.

New member, Mrs. Bernard Jones, was welcomed. Birthdays of Mrs. William Harmon, Mrs. DeWys, Mrs. Salitsky, Mrs. Irwin and Mrs. Menard, were observed. Mrs. Wright of Livingston avenue will be the May 10 hostess.

Extension Club Elects Officers

Officers were elected by the Suburban Heights Extension Club Wednesday evening at the home of Mrs. Frank S. Setzer on Shoals drive, Waterford Township.

Mrs. Richard J. Stern will be chairman, Mrs. Donald R. Hewlett, vice chairman; Mrs. Setzer, secretary-treasurer; Mrs. Ben T. Lowell, project leader; Mrs. William F. Dickson, community chairman and reporter.

Karen Frederickson and Ruth Roberts were models for hair styling by a local beautician. Mrs. Stern spoke on good grooming.

Cancer dressings were made by group members at the meeting.

An application of hand cream eases the job of donning rubber work gloves, and is additional protection for your hands.

Charm Chats by Aleda

Current Coifs

The "bulky look" may be all right for sweaters but not for your hair. Without bulk or excessive curl, the hair can be fashioned along straight and narrow lines that are smoothly polished. Two basics establish this effect: a strategic haircut and a light body permanent. First the hair is carefully tapered and blended to mold neatly to the head. Shorter lengths on top are translated into bangs or brushed back into one of the new partless styles.

It will take a brand new haircut to complement the current fashions. Let us create the haircut that will give you that "new look" for spring. Aleda's Beauty Salon, Pontiac State Bank Bldg. Basement, 26 1/2 North Saginaw Street, Pontiac. Phone Federal 4-8611.

Women Busy on Cancer Crusade

Some 500 area women, volunteers for North Oakland unit, Michigan Cancer Foundation, are participating in the April Crusade. The month-long campaign is designed to better acquaint the public with dangers of cancer and the importance of frequent physical checkups for early detection. Mrs. Phillip C. Jackson, public information chairman for the unit, says local Crusade activities are being directed by Mrs. Phillip L. Francis and Ralph Norvell.

More than 850 women throughout North Oakland County are participating in the education campaign. Volunteers also devote time in service for cancer patients. The Pontiac branch is one of 12 branches in the North Oakland unit, currently providing dressings and sick room supplies to about 75 patients. Cancer patients in the home are given supplies free.

Anyone may request dressings and supplies by presenting the following information to the unit office on West Lawrence street: name and

address of patient, type of cancer and name of attending physician. Funds for the unit are supplied by United Foundation and memorial contributions. North Oakland unit presented 108 films to area groups as part of the educational service during 1959.

Arrangements for film showings may be made by contacting the unit office. Services of volunteers to explain work of Michigan Cancer Foundation and doctors to answer questions about cancer also are offered. A film projector and screen are available.

Contact Lenses

Millions of Americans are now wearing them for every daily activity. They are enjoying a new freedom from glasses... a becoming, natural appearance... and the many other advantages that only wafer-thin, minutely sized contact lenses can give them. If you are actively engaged in work, business, sports or social activities and would enjoy the benefits of contact lenses, inquire at Nu-Vision Optical Studios.

- Contact lenses are totally invisible
- Contact lenses are minute plastic discs
- Contact lenses can be fitted for the majority of prescriptions if desired

- Broader, unobstructed activities are possible
- Contact lenses give a wider field of vision
- Recommended in many cases where thick glasses are required

Sorority Plans for Meetings

Iota Eta chapter of Pi Omicron Sorority met Thursday evening at the Illinois road home of Mrs. Joseph Cummings.

Mrs. E. Verne McCall is reservations chairman for the state board meeting and membership luncheon, Saturday, in the Women's City Club, Detroit.

Reservations for Pontiac Council's May Day breakfast at Aunt Fanny's, Royal Oak, are being accepted by Mrs. Buhl Bert, chairman.

Mrs. Stig Danielson was named delegate to the state convention at the Statler-Hilton Hotel, Detroit, May 14-15. Mrs. Bert will be alternate.

Nominations chairman, Mrs. Paul, Hoskins, will be assisted by Mary Dillon and Mrs. McCall. Mrs. Robert Gaylord was appointed auditor.

Annual reports will be given and officers elected May 12 at the home of Mrs. Dudley H. Moore of Juniper street, Auburn Heights.

DAVID EICHER

Cellist David Eicher, 14, was one of six recipients of the University of Michigan's James Foster Foundation scholarships for eight weeks study at the National Music Camp at Interlochen.

Based on advancement, future promise and cooperation and citizenship, the awards are made annually to outstanding members of the Michigan Youth Symphony. David, one

of the youngest to receive the scholarship is the son of Mr. and Mrs. David N. Eicher of Orchard Lake.

Robb's egg blue and mauve pink are used in alternate stripes to make a beautiful, fragile shirt-waist dress for summer.

Pontiac YM to Hold 60th Annual Meeting

The Pontiac YMCA will hold its 60th annual meeting Tuesday at which eight directors will be elected.

The meeting will be a dinner affair, beginning at 6:30 p.m. at the Y building, 131 Mt. Clemens St. YMCA members will elect eight persons to three-year terms on the Board of Directors, officers of the Board, and four members to the Committee of Management of the Rochester branch.

Following the election, the group will hear John Nuveen, director of the Nuveen Investment Firm of Chicago. He recently completed a six-month tour of the Near and Far East.

His topic will be "Palaces, Pagodas, Poverty: Temples, Tombs and Trouble."

A trustee of the University of Chicago, Nuveen is chairman of the

Science Popularization Conference Set at MSU

EAST LANSING (UPI) — A conference on new developments in science and how to communicate them to the general public will be held April 26 at Michigan State University.

About 75 journalists, public relations men and teachers were expected to attend.

Main speakers will be Paul Block Jr., president and publisher of the Toledo Blade and research professor of chemistry at the University of Toledo; Julius E. Johnson, director of agriculture research for Dow Chemical Co.; Michael Sklar, of the Columbia Broadcasting System, and Dr. Laurence L. Quill, head of the MSU department of chemistry.

Special Education Head Will Attend Convention

Paul Thams, director of special education in Oakland County, will attend the 38th annual convention of the Council for Exceptional Children of the National Education Assn. at Los Angeles April 19-23.

The theme of the conference is "Using Research and Experience in Educational Planning."

The program will feature three panel discussions, on supervision of teachers for exceptional children, on community programs for handicapped children, and on the emotionally disturbed child.

National Advisory Committee of CARE and a member of the International Committee of the YMCA.

In the past 15 years, his principal interest has been in the field of foreign affairs. In 1957, he founded the Foreign Policy Clearing House in Washington and in June 1959 he was a delegate to the Atlantic Congress in London.

Nuveen is a director of the Chicago Council of Foreign Relations.

Persons planning to attend the meetings are urged to make reservations at the Y building as accommodations are limited.

JOHN NUVEEN

What a Bump! Dazed, He Goes 70 Miles on Bike

EARLSTOWN, England (UPI) — Fred Harrison, 35, today blamed a bump on the head for a 70-mile bicycle ride.

Harrison hit his head so hard in a fall Friday that his wife urged him not to go to work. But he got on his bicycle and pedaled off to his job at the local railway station.

Harrison rode past the station and out on the main highway. He pedaled steadily onward for five hours, while police, friends and wife searched all over Earlstown for him.

Harrison had gone 70 miles before he realized something was wrong. Bewildered, he contacted police in Church Stretton and was hospitalized.

Thief Took Liberties With His Hamburger

LONDONVILLE, VT. (UPI) — Clifton Wilcher, 34, was charged with stealing three pounds of

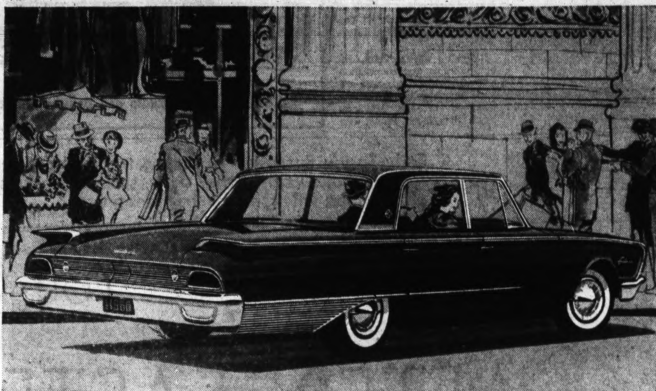

hamburger from one store and then going to a store across the street and asking a clerk to wrap the meat. And then with stealing three more pounds of hamburger from the generous clerk.

Biscuits Bake Slowly in Firemen's Mixture

DALLAS (UPI) — Firemen recently found themselves making biscuits when they answered a

call at Mrs. Baird's Bakery. Battalion Chief I. D. Jones said a small blaze was underway in a flour bin and when water was poured on the flour "it formed biscuits when they answered a

cars love SHELL

If you think of your car as a real friend (and you'd be surprised how many people do!), why not let it have the benefit of a Shell gasoline with TCP? You see, Shell engineers and car manufacturers work hand in hand—a happy relationship that has led to many gasoline improvements. One of these is Shell's additive, TCP*, which neutralizes harmful combustion deposits. Discover how smooth your car can run—how far you can go on a gallon. Your Shell dealer is the man to see.

*Trademark for Shell's unique gasoline additive. Gasoline containing TCP is covered by U.S. Patent 2889212.

3,300 Gleeful Children Hunt Easter Eggs in Parks

Weather's Fine for Annual Foray

Henfruit Is Uncovered at Phenomenal Rate in Annual Event

The weatherman cooperated Saturday as more than 3,300 youngsters descended on four Pontiac parks for a fast and furious Easter egg hunt.

City officials said they were especially pleased by the turnout.

Rain in the morning ceased by the time hunts began at 2 p.m. at Oakland, Murphy, Beaudette and Jaycee parks.

Before the children darted into the fields, the secret color was revealed—yellow, the color of spring sunshine, fresh tulips and little chicks.

The children who found the special yellow eggs won special prizes.

At the signal, the youngsters dashed forward like homesteaders racing over the Oklahoma Territory line.

Mud made little or no difference.

Within 45 minutes, they had discovered the eggs—there were 3,000 of them altogether.

They were hidden in low places — at the base of a tree, under a bush, next to a rock, nestled in the grass.

The hunt was the sixth annual one staged by the department of parks and recreation. This year, the Northside Kiwanis Club, the Pontiac Area Junior Chamber of Commerce and the Neapolitan Club helped out.

Kidnaped Baby Found in Field

Nova Scotia Man Being Held but Police Giving Out No Details

SYDNEY MINES, N.S. (AP)—An 18-month-old boy, snatched from his crib just after midnight by a young man, was found safe and unharmed in a field behind the family home.

Police said they had picked up a man but gave no details immediately.

No explanation for the kidnaping was apparent. The child's father is a telephone company employee and the family has only modest means.

A store clerk, Joan McPhee, found the boy, Russell MacKenzie, as she was walking to work. A doctor examined the baby and said he was a little cold but otherwise in good condition. The lower half of his sleeping suit had been removed and he was wearing only a T-shirt.

The man stole the chubby, brown-eyed baby from his crib after knocking at the door of the MacKenzie home and pushing aside a baby sitter.

Find Drug Firms Lack Competition

WASHINGTON (UPI)—Sen. Estes Kefauver (D-Tenn.) says his Senate investigators have found "a lack of competition" in the drug industry.

Kefauver, chairman of the Senate antitrust and monopoly subcommittee, said last night the profit of drug companies is about twice the average of all U.S. manufacturing.

"We found also that they sell to the pharmacists for very much larger prices than they sell to the government when they bid," he said.

In one case, Kefauver said, a large drug company charged drugists \$180 for a product which was sold to the government for only \$30.

HIDING THE EGGS — Certainly looks like some adult sneaking around, picking up eggs before the kids can find them. But no, it's John Andrews, 23 Waldo St., hiding the eggs for the children. Here he deposits one at the base of a tree.

FINDS ANOTHER — So capable at Easter egg hunting that he brings along a paper bag to carry his loot, Robert Neff, 8, of 233 Sirtree St., stops quickly to pick up another egg.

STOCKING UP — Allen Cavalier, 309 Seward St., has a sharp eye during an Easter Egg hunt. With a confident grin he discovers his sixth egg of the day.

Boy Scout Banquet Set Wednesday

The annual meeting and banquet of the Pontiac District, Boy Scouts of America, will be held at 6:30 p.m. Wednesday at the First Congregational Church.

Lt. Gov. John B. Swainson, candidate for the Democratic gubernatorial nomination, will be guest speaker. He is an Eagle Scout.

Ted Pearson Jr., of Oxford, president of the Clinton Valley Council, will install the 1959-60 officers of the district who will be elected at the meeting.

One of the highlights of the evening will be the presentation of the district's "Distinguished Scout" awards. Thurman Jackson, district committee member and chairman of the award committee will make the presentations.

Program chairman for the annual meeting is Kenneth Goff, district vice chairman. An annual report will be given by John E. Ostrander, district chairman.

Tickets for the banquet will be available at the Clinton Valley Council office in the Community Services Building from 9 a.m. to 1 p.m. tomorrow.

Tickets are priced at \$2.50.

AWHOOH! — For some, this is the really triumphant conclusion to an Easter Egg hunt. Three-year-old Gale Hodge, 458 E. Tennyson St., takes a big, satisfying bite.

Snow, Tornado Strike

Winter Stalking State

From Our News Wires

Wintery weather returned to Michigan today in the wake of a week-end which ran the gamut of weather conditions.

Conditions were best in the south, east where fair weather was mixed with brief showers.

A small tornado which ripped through the Grand Rapids suburb of Wyoming at the other extreme. In between were reports of severe snow, rain and wind storms and damage by floating ice in other areas of the state.

The U.S. Weather Bureau at Grand Rapids said the twister which dipped out of the sky early yesterday morning turned a beach house and several other small buildings into kindling wood but no one was injured.

Farther north, state police reported heavy winds and drifting snow caused poor visibility and hazardous driving conditions in the Lower Peninsula from Bay City northward and throughout the eastern and central portions of the Upper Peninsula.

Saint Ste. Marie had four inches of snow over night. Most of the city's snow removal equipment had been stored away. It had to be brought out to clear streets.

Thirteen fishermen were stranded for several hours Sunday night on Bob's Island in the Detroit River after high winds blew their four boats around. Crewmen from two Coast Guard boats found

them at 2 a.m. today huddled around a bonfire.

"White Christmas" routed "The Easter Parade" in other parts of the Middle West yesterday.

An April storm dumped up to four inches of snow on Iowa and Nebraska.

The unreasonable weather knocked out telephones, cut visibility to zero and piled up huge snow drifts.

The snow got so heavy in Central Iowa that the Des Moines radio of the highway patrol was put out of commission for nearly two hours.

The weather bureau said that a cold front bringing the violent weather continued to stir up thunderstorms from New Orleans to northeastern Ohio as it moved eastward.

The forecast for today called for mostly fair weather over a large portion of the nation, except for parts of the East.

Hold Rites for Executive of Cadillac Newspaper

CADILLAC (AP)—Funeral service was held today for Mrs. May J. Huckle, 78, vice president of the Cadillac Evening News, who died last Friday at Mercy Hospital after suffering a stroke at her home.

She was the widow of the late Thomas O. Huckle, long-time publisher of the Cadillac paper. A son, Earl T. Huckle, succeeded him as president and publisher of the Cadillac Evening News.

FURIOUS FACE — When you're engrossed in an Easter Egg hunt, you don't take time out to tell your name to anyone, not even The Pontiac Press photographer. So we don't know who this young lady is, we only know she's in a mighty big hurry to find her share of Easter eggs.

Consider Stray Dog Law for Waterford

The Waterford Township Board at its weekly meeting tonight will discuss the possible adoption of an ordinance controlling stray dogs.

With recent state legislation permitting communities to make their own rules for dog control, Waterford officials have debated the possibility of hiring a full-time dog warden.

In other business, Township Clerk James E. Seetwin plans to present a request for another section of the cemetery and park department.

Sick African Cardinal Can't Say Easter Mass

ROME (UPI)—African Cardinal Eugenio Tassi, first Negro prince of the Roman Catholic Church in several centuries, was reported today in worsening condition from the after-effects of malaria.

The 46-year-old African cardinal was unable to say Easter Mass in his hospital room yesterday. Pope John XXIII sent his personal secretary, Magr. Lauris Capovilla, to recite a Mass for him.

THREE, TWO, ONE,

ZERO:
 TONIGHT AT MIDNIGHT

THAT'S ALL — Today marks the end of a three-day grace period granted the 60 million Americans who file income tax returns. All returns must be filed by midnight tonight. The regular April 15 deadline was extended this year because it coincided with Good Friday, a legal holiday in 13 states.

Liberia and its neighboring state Sierra Leone, have the heaviest average rainfall annually along the west African coastal bulge territory.

PLAN FARM RECRUITMENT — Farm labor specialists from Oakland County attended a statewide conference on recruiting harvest hands held at the Michigan Employment Security Commission Headquarters, Detroit. From left, are J. Ross Kent, assistant chief of state farm placement for MESC; Ruth Barradall, farm placement spe-

cialist from Adrian; Earl White, Pontiac crop area supervisor and Harold Marey, MESC farm placement specialist for Oakland County. About 3,700 of the 10,000 farm workers needed for the September harvest peak in Oakland County must be recruited from outside the area.

Recently Married Couple Honeymoons in the East

AVON TOWNSHIP—On a honeymoon trip to Washington, D.C. and through Virginia are newlyweds Mr. and Mrs. Allen C. Smith.

The bride is the former Barbara Ann Kaster of 725 Elizabeth St., daughter of Mr. and Mrs. Russell L. Kaster of Knoxville, Iowa.

MRS. ALLEN C. SMITH

The bridegroom's parents are Mr. and Mrs. John B. Smith of Kingston, R.I.

The Rev. J. D. Parker performed the ceremony in St. Paul's Methodist Church.

A floor-length gown of taffeta with a chapel train, scoop neckline and three-quarter length sleeves was chosen by the bride. She wore a pearl necklace, a gift from the bridegroom.

Her veil was tiered with a rolled hem and secured by a crown of pearls. She carried a cascade bouquet of white roses.

Attending the bride were Mrs. Martin Madson of Lake Orion, Mrs. Arthur Spies of Sandusky, Patricia Freyer of Rochester and Nancy Arnold as flower girl.

John Lehmann of Garden City served as best man. Ushers were Douglas McIntyre and Joseph Canella of Inland.

A reception was held in the church parlors immediately following the ceremony. The newlyweds will reside in Dearborn.

Not Considering Return, Says Ex-Holly Police Chief

HOLLY — Former Police Chief James Parker said today that he is not considering returning to head the four-man village department.

Parker was given the chance to reapply for the post by the Village Council after he resigned Tuesday from the job he had held for five years.

At that time he said he was quitting because of criticism. In his letter of resignation he made no mention of who was being critical.

His resignation, he said, was a result of politics.

"I was led to believe that I wouldn't be reappointed to the job so I handed in my resignation. It was done after I had given it a lot of thought," Parker said today. "In the last election one of the issues was to get rid of certain village officials. The word was spread that I was one of them. So instead of waiting for the reappointments, I resigned."

Parker said he was having no

trouble with the Village Council or newly elected Village President Aram Krikorian.

"Most of the trouble seems to stem from political backers in the last election."

He said he had no idea at the present time if he would return to law enforcement in some other community. He has been a policeman 10 years.

"For awhile I think I'll just rest," he said.

Village president Krikorian, who makes all appointments for the village with the approval of the Council, said today that the police department would get along without a chief for awhile.

"I have no one in mind at the moment to take over the job," Krikorian said.

"I think the police department will run smoothly at least until the next Council meeting when the chief's job will probably come up."

"The council will meet April 28.

Planning Group, Council Facing Showdown

SOUTHFIELD—A showdown in the battle for control of city planning between the City Council and the Planning Commission is expected tonight at the regular Council meeting.

"Five disgruntled members of the seven-man commission served notice to the Council Saturday that they would not attend any more meetings until they are given legal status as a commission."

Spokesman for the group, Wilbur Thompson, said this morning that members of the Planning Commission want to operate under the State Planning Act which would give most of the power to the planners.

The group also is demanding immediate action on an ordinance drawn up by the City Council four months ago which would permit the planners to operate under the state act.

President of the Council C. Hugh Doherty said the Council is not agreed on the ordinance and needs more time to study it. He said, however, it will be up for discussion again tonight.

Parker was instrumental in forming the club, and the teenagers feel it will split apart without his guidance.

Parker said he would try to keep in close contact with the teenagers even though he is no longer chief.

Proud of the teen group in the village, he said there have been no serious cases of juvenile delinquency in the village of 3,300 for years.

"The department handles no more than six cases of juvenile problems a year, and those are mostly very minor."

Parker's resignation was the third in recent weeks by village employees.

Late in March, Village Manager Norman E. Telford resigned because of "pressure" from the village president, he said.

Two weeks ago, Village Attorney Donald Bremer resigned.

None of the three has been replaced.

Asks Laws on Milk

WASHINGTON (AP)—Rep. Harlan Hagen (D-Calif.) today called for swift legislative measures to check what he called "a dangerous growth of monopoly in the milk business."

Grant Pay Hikes in Orion District

Starting Teachers to Get \$4,350; Budget Thrown Out of Balance

LAKE ORION — Teachers in the Lake Orion Community School district have been granted pay raises which will cost about \$57,000 including the increments, Schools Supt. A. A. Reed announced today.

The Board of Education has set the starting salary for beginning teachers with bachelors degrees at \$4,350. The maximum salary that can be reached in 10 steps of \$175 increments will be \$6,100.

Teachers with masters degrees will get a starting salary of \$4,500 next year with the maximum set at \$6,550. The increments will be \$200.

The present salary schedule for teachers with B.A. degrees is from \$4,200 to \$5,850 in 12 steps with a sliding scale of increments.

Teachers with M.A. degrees now get salaries ranging from \$4,300 to \$6,250.

The raises were made possible by a favorable vote on four proposals for extra school funds at the polls March 21, Reed said.

The superintendent added, however, that the pay raises for teachers and other school personnel "put the budget out of balance by \$22,000."

This amount can be made up only by increased valuation or increased enrollment, he said.

The \$1,023,529 school budget for next year further provides for an increase of 12 new teachers, nine of whom are for the classrooms now being built. One also will be added to the junior high school, one in the elementary music department and one in the elementary art department.

In addition, the budget includes provision for two replacements and one additional school bus.

Lock Your Door, Dear

NEW YORK — A note on life in the big city: A Police department advisory issued to women's groups urges women to avoid shortcuts home at night, to lock their doors, report anyone loitering around schools or playgrounds, stay calm in case of burglary, robbery or other attack and call the police as soon as possible.

Citizens Call for Dickens' Ouster

Pass Petitions to Recall Three

Royal Oak Twp. Board Walks Out on Demand to Explain 'Shortage'

ROYAL OAK TOWNSHIP — Petitions for the recall of Township Supervisor Elwood Dickens, Clerk Mrs. Artie Gray and Treasurer George L. Glenn are being circulated here by a citizen's committee which has stated it is "fed up with the mismanagement of the present administration."

The committee's action resulted from last Thursday's stormy Township Board meeting when members of the Board walked out on 200 residents demanding an account of a reported \$5,700 shortage in the treasury, a spokesman said today.

Glenn admitted this morning that there is a shortage in the township treasury.

"The books are being audited, and we can't say for sure how great the shortage is until the audit is completed," the treasurer said.

In an "economy drive," four members of the police department and one fireman will be dismissed today, according to Township Supervisor Dickens.

He said "the reduction was approved by the Township Board because there is not enough money in the current budget to pay for them all, and the township no longer can spend \$120,000 for police and fire protection."

The men are paid on an average of about \$4,000 a year.

The dismissals will reduce the police department to eight full time policemen, augmented by an eight-man auxiliary force, and the fire department to six men with 18 volunteers.

Dickens blamed the township's financial crisis on the decline in revenue from various sources which he said will cut total income nearly 40 per cent from last year's \$201,000 to \$140,000.

Last year's state-shared taxes, based on the 1950 estimated population of 10,400, was \$90,000, Dickens said.

He estimated that this year's figure may be only \$65,000, based on the 1960 estimated population of 10,400.

He also blamed the decline in

revenue from township homes under a cooperative plan, affecting between 2,500 and 3,000 which was paid to the township in All of the township's remaining persons have been ordered closed; lien of taxes. The homes are leased; 450 temporary war housing units; July 1 by the state. This will mean a loss of \$17,000 to the township in yearly rents, said Dickens.

Will Explain Needs to Brooklands-Avon PTA

Superintendent to Discuss Bond Issue

ROCHESTER — Schools Superintendent Donald C. Baldwin will be the speaker at the April 27 meeting of the Brooklands-Avon PTA in the multi-purpose room of Brooklands School.

The superintendent will discuss the May 9 bond issue on school construction and expansion in the district.

He will explain how a thorough study of growth in student population on the elementary level has necessitated that the Board of Education propose three elementary projects.

The Howard L. McGregory Elementary School, to be built on the site given by the late Mr. McGregory at the west end of First street, will consist of 14 class rooms.

In addition there will be a library, multipurpose room, a small general use room for speech correction, music and counseling as well as office space.

This building, to cost an estimated \$200,000 also will be designed for future expansion.

The Hamlin and Meadow Brook elementary schools will get identical additions of six classrooms each, a library and a general-use room.

The new McGregory School will take care of the children now housed in the Harrison-Central Building. This will accommodate two classrooms of children from Harrison-Central who are now being housed at Meadow Brook from the Harrison-Central area.

Some 180 children now living in the western section of the district, presently being transported to the North Hill Elementary School, will be shifted to Meadow Brook.

This will permit North Hill to absorb the youngsters moving into at 8 p.m.

Baldwin also is expected to explain briefly the expansion program on the junior and senior high levels at the forthcoming PTA meeting. The entire program will cost an estimated \$3,100,000.

The April 27 meeting will start at 8 p.m.

The new Rochester Meadows and Rochester Heights subdivision.

The Hamlin School addition will implement the transfer of 39 children now going to Meadow Brook back to Hamlin and another 32 will be returned to Hamlin from Brooklands where they now are being transported.

These projects will serve the district's needs for elementary children through 1962 with both Woodward and Hamlin schools having two extra rooms each for additional growth, school officials indicate.

Baldwin also is expected to explain briefly the expansion program on the junior and senior high levels at the forthcoming PTA meeting. The entire program will cost an estimated \$3,100,000.

The April 27 meeting will start at 8 p.m.

Farmington Twp.
Man Killed in West

FARMINGTON TOWNSHIP — Earl C. Aardal, 38, of 38223 13 Mile Rd., was killed Friday night when his car plunged over an embankment near Georgetown, Colo. 12 miles west of Denver.

Aardal, a staff industrial engineer for the Ford Motor Co., was thrown through the windshield and pinned under the car's front bumper when it left U.S. 6 on a curve and rolled 40 feet down the embankment, Colorado State Police reported.

He is survived by his wife and four children.

More than nine pounds of plastic parts are used in the manufacture of the average passenger automobile.

Columbia is the fourth largest country in South America.

Needy in U.S. . . . The Hungry Overseas

Our Food Surplus Split About 50-50

WASHINGTON (U.S. Agriculture Department has come up with a statistical answer to those who say U.S. farm surpluses should be made available to needy at home and abroad.

It issued a report stating that during the past 7 1/2 years, a total of nearly 14 billion pounds of these surpluses have been donated to the needy at home and abroad. These foods cost the government \$2,701,500,000 under farm price support programs.

Of this amount, about 5,361,000,000 pounds — costing \$1,356,400,000 — went to needy in this country, and 8,631,000,000 pounds — costing \$1,345,100,000 — went to the hungry abroad.

The department said that at present about 3,627,000 Americans are receiving surplus foods through local welfare agencies. No estimate

was given on the number of persons abroad that are being helped. The foreign distribution is made through recognized international welfare agencies.

The department gave a pat on the back to the domestic distribution through welfare agencies. Some members of Congress have urged the establishment of a food stamp plan that would channel food to needy through regular grocery stores, with the needy using government-issued stamps as currency.

"The (the present) method of operation gets the job done at a minimum cost," it said.

"States and communities hold expenses down by using state and city food handling and transportation facilities and, in some areas, volunteer labor is available to further reduce out-of-pocket costs." Principal foods donated to the

needy include flour and wheat products, dry beans, butter, cheese, nonfat dry milk, rice, corn meal, shortening, beef and beef products, pork and pork products and poultry products.

\$3,000 Fire Damage to Home in Commerce

COMMERCE TOWNSHIP — Fire damage to a home at 1915 Sparland Rd. Saturday was estimated today at \$3,000 by Commerce Township Fire Chief Clarence Kuttuhm.

He said the fire started in the living room from a cigarette smoldering in an overstuffed chair. Damage was confined to the living room and an enclosed front porch used for a bedroom. The house is owned by Robert Southard. No one was at home at the time of the fire.

4-H Camp Kett
Nearer Reality

\$200,000 Pledged to Training Center in Osceola County

EAST LANSING — Construction of Camp Kett, a youth leadership training center in Osceola County, is moving closer to reality, according to Ben Westrate, executive director of the 4-H Club Foundation of Michigan.

Nearly \$200,000 has been pledged by business, industry, agricultural organizations and other groups and individuals. The foundation has established a goal of \$500,000 for the construction and development of the center.

A recent pledge of \$10,000 by the Michigan Milk Producers Assn. helped the plans make a "glorious step" forward, Westrate said.

Construction plans have been completed and work on the center will begin as soon as the necessary capital has been pledged. The center will operate on a year-around basis and will accommodate up to 150 adult leaders.

Operation of the center will be handled by the foundation while program direction will be given by the 4-H staff of the Michigan Cooperative Extension Service.

"The center will make it possible for the state 4-H staff to step up and improve its training program for the 15,000 adult 4-H leaders," Westrate pointed out. "These leaders are directing the work of more than 70,000 boys and girls in 4-H Clubs in Michigan."

Although the center is being developed primarily for training adult 4-H leaders, its facilities will be available for other youth group leadership training as schedules permit, Westrate said.

The center is located on Center Lake, three miles east of Tustin. It is named for the late A. G. Kettunen, longtime state leader of 4-H work in Michigan.

Avondale Band Boosters
Will Select Officers

Highlight of the Avondale Band Boosters' annual meeting at 8 p.m. tomorrow will be election of officers for the coming year. It will be held at Avondale High School.

All members of the organization and those interested in the future band program are urged to attend. Refreshments will be served at the close of the session.

Mark Clark Rejects U.N.

**Says U.S. Should Get
Out; Fears Balance of
Power for Reds**

WASHINGTON (UPI)—Gen. Mark W. Clark, former United Nations commander in Korea, says this country should withdraw from the U.N. because "no useful purpose is served by the United States being a member."

Clark said yesterday that admission of new nations to the world organization poses "a great threat to our country" because many of these nations gravitate to the Soviet bloc.

"I foresee in the future a time when the balance of power will be against the United States," Clark said in a radio interview.

"Nothing good will happen in the United Nations," Clark said. "I've seen them meet time after time on very grave questions that affect the well-being of the whole world and never have they solved any of them except by a slap on the wrist, or some weak action."

Clark, now president of The Citadel, the South Carolina military college, said that while United Nations commander in Korea he "never received one word of instruction from the United Nations."

More than 700 million meals are served every day in U.S. eating establishments. In some large cities guests eat all their meals there.

Kuenn's .353 Batting Traded for Colavito's 42 Homers

Tigers Give Up 'Hitter' to Get 'Slugger'

'59 Top Hitter Sacrificed for the 'Long Ball'

Deal is Made on Eve of Detroit-Cleveland Opener Tuesday

DETROIT — The Detroit Tigers have parted with Harvey Kuenn, the American League's top hitter of 1959, to get more long ball punch in their lineup.

And the Cleveland Indians have given up the league's co-home run king, Rocky Colavito, hoping to convert Kuenn's steady hitting into a pennant. The biggest star-for-star trade in years came on the eve of the American League's 1960 opening.

Many baseball fans were surprised yesterday when they learned president Bill DeWitt of the Tigers had persuaded general manager Frank Lane of the Indians to give up the slugger Colavito in a straight player deal for Kuenn.

Colavito parked 42 homers last year and should do even better in Detroit's Briggs Stadium with its friendly left field wall only 340 feet from home. He had a .257 batting average compared to Kuenn's title winning .353. But Kuenn hit only nine homers.

"The home run is overrated," said Lane in explaining why he gave up one of the game's finest young power hitters for one of its more consistent hitters. "Look at the Washington club last year. They almost led the league in them last year and still finished last."

"I hated to let Rocky go, but I think our chances of winning the pennant are greater with a steady hitter like Kuenn in the lineup."

Lane had rejected the same deal just a few weeks ago. DeWitt was delighted with his first major deal since becoming Tiger president after last season.

"I have a high regard for Kuenn's ability as a player," he said from his home in St. Louis. "But we felt we needed more power at the plate and we're hopeful this move will enable us to score more runs."

The trade did not surprise Kuenn, who was told about it by manager Jimmie Dykes in the Tigers' clubhouse at Lakeland, Fla., where the club was winding up spring training. He had heard himself mentioned in Colavito trade talk for almost a year.

"That's baseball," Kuenn, who had played shorter than center field and finally right field for Detroit.

Colavito, a right fielder who drove in 111 runs last year for the second-place Indians, seemed disappointed when he heard he had to leave the Indians, but promised to give a "100 per cent effort" for the Tigers.

The explosive Lane, a master juggler of baseball talent, now has parted with what most every one would agree was the heart of a team that finished only five games out of the pennant last season. He dealt his best pitcher, 19-game winner Cal McLain to Cincinnati, Minnie Miñoso batted .302 with 92 RBIs, but Lane sent him to the Chicago White Sox.

With Woodie Held's ailing shoulder a question mark, manager Joe Gordon could always return Kuenn to shortstop in a pinch. Gordon said he'd use Kuenn as a center fielder, Tio Francona in left and rookie phenom Walter Bond in right. But if Held's shoulder kicks up, Kuenn would be right on hand to plug a gap that's plagued the Indians since the days of Lou Boudreau.

Kuenn is a 25-year-old spry hitter who won all-star recognition five straight years as a shortstop before he was switched to the outfield because of difficulty with ground balls. After a season in center, he was switched to right field last year.

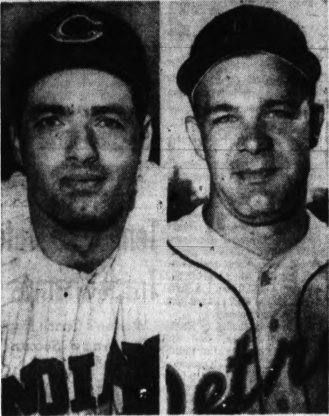

He has been a Detroit stand-out for seven seasons or almost since the day he stepped off the University of Wisconsin campus for a stable home, Kuenn's lifetime batting average is .311.

But the Tigers desperately need power — they topped the league in runners left on base last year and Colavito should supply it. He has batted in almost as many runs in less than four full campaigns as Kuenn has in seven.

Colavito has hit 129 home runs in that time while Kuenn has only 33 in his big league career. But the lanky, black-browed Colavito has a lifetime batting average of .272.

He also possesses one of the most feared arms in the league. Kuenn's arm at best is mediocre. The Tigers are hoping for the same kind of quick dividend from Colavito as they got in their last swap with Cleveland. That came only last Tuesday when Detroit acquired Norm Cash for Steve Demeter.

Cash has been a big gun for the Tigers ever since.

SWAPPED — Slugger Rocky Colavito (left) and the hitting champ of the American League, Harvey Kuenn, will be in opposing uniforms when Cleveland and Detroit meet in the season opener tomorrow. Colavito, 26, hit 42 homers for the Indians last year. Kuenn batted .353 for the Tigers in 1959.

Rival Fans Buzz Over Big Trade

From Our Wire Services

DETROIT — The taverns and all-night restaurants, traditional gathering places for loyal fans in this baseball-conscious city, were buzzing last night over the trade that brought Cleveland's Rocky Colavito to the Tigers in exchange for Harvey Kuenn.

Word of the most dramatic swap the Tigers have made in nearly a decade spread like wildfire through the quiet Easter Sunday afternoon and almost immediately the Hot Stove debates were launched.

Most of the reaction among the fans was favorable. Although Kuenn was one of the popular players in recent Tiger history, it was generally felt that Detroit benefited by the trade.

Tiger fans, eagerly awaiting the home opener Friday, offered the following comments picked up through radio:

"This guy (Colavito) can hit the big one. That's what counts."

"It's tough losing a ballplayer like Kuenn. He's one of the best. But Rocky can't beat a game in half with one punch. That's something you could never look for Harvey to do."

"You gotta trade somebody to get somebody. That's all there is to it. You can't get a guy like Colavito for nothing. I think it's a good deal."

"I hate to say anything. When it comes to trading, we're the biggest bums in baseball. But it looks like we pulled a good one this time."

"It's the best thought in baseball now. How would you like to have to earn your dough pitching through Kaline, Colavito and Max-

well three or four times in one day."

"It might even put us in the pennant race."

Then there were the dissenters: "It's crazy. Kuenn is the best in the league. He's going to hit .400 one of these years. Just wait and see."

"I've seen these big sluggers before. Big bums, most of them. You can count on a guy like Kuenn. He always hits. He's always on base. What did this guy hit? .250 something."

"Typical Tiger. Lousy." "Oh well, back to the second division."

But those against the trade were greatly outnumbered. Most of the Tiger fans, who have the habit of supporting a draft, second-division team as if it was fighting for the pennant, are looking forward to a summer filled with home runs in Briggs Stadium — Rocky Colavito home runs.

CLEVELAND — "Frank Lane just threw away the pennant!" That was the outraged comment of one Cleveland Indians fan after learning that the Indians' general manager had traded Rocky Colavito.

Reaction of fans to the trade sending the highly popular slugger to Detroit was mixed last night, but most was unfavorable.

The Cleveland Plain Dealer said its sports desk was swamped with telephone calls and predicted that the Kuenn-Colavito trade would "top off the biggest mauling here since the beloved Lou Boudreau was sold by Bill Veck" nine years ago.

Comment ranged from the terse remark of Gilbert E. Jansen, a former Cleveland batter, who said, "the trade stinks," to the tearful complaint of eighth-grader Carol Kiehl: "I belong to one of the Rocky Colavito fan clubs. It's all over. We're going to start a new one, the Lane haters."

A few, like Richard Ganin, approved. "They got rid of a bum fielder for a good ball player," Ganin said. "Colavito hasn't learned a thing in four years. He doesn't know how to run the bases or where to throw the ball."

"The man (Lane) to a boxer and run him out of Cleveland," suggested William M. Scott.

George E. Shepley said he thought Colavito had not yet reached his full potential. "But Kuenn has seen his best days. One thing can be certainly said," Shepley added. "The feminine fans of Cleveland have had their hearts broken."

Pistons Trade Conlin for Hawk Bob Ferry

DETROIT — The Detroit Pistons and the St. Louis Hawks have made a straight player deal in which Detroit gets forward Bob Ferry in exchange for veteran Ed Conlin.

The deal, made Saturday, brings Detroit a man who was the only rookie to crack the St. Louis lineup during the past National Basketball Assn. season. Conlin, 34, was traded to the Hawks in 1958 for 384 points in 62 games for the Pistons.

"What I must do to improve on my finish. I have been finding on the last three hurdles and I've got to improve."

His 13.6 was the best of the year so far and was well under the Olympic qualifying standard of 14.4.

There were meets scattered all over the country over the weekend and some of the performances were nothing less than electrifying for so early in the outdoor season.

For instance Charlie Tidwell of Kansas bettered the world record for 220 yards around a turn in a five team meet at Abilene, Tex. with a 26.5 effort. But only two of the three elevators caught him, so it wasn't as snail-paced as a world record. Ray Norton of San Jose State holds the world standard, 26.8.

Tidwell also had a 9.4 time for the 100-yard dash and Eddie Southern of Abilene Saturday set the American record for 300 yards, hitting the tape in 28.8. There is no listed world record for the event.

Bill Nieder won a battle with Dave Davis in the Eastern relay at Santa Barbara, Calif. He got off a 63-1/4 loss in the shot (far off best of 65-7) and Davis finished second with a 61-1/4 effort.

Bill Woodhouse of Abilene Christian released off a 102.100-meter, just a tenth of a second over the world record.

AP Photo

BOXER DIES—Charles Mohr, 22, University of Wisconsin boxer who suffered a brain injury in a collegiate fight, died today at the University hospital in Madison.

Injured Boxer Loses Week-Long Battle for Life

MADISON, Wis. (AP)—Charles Mohr, the 22-year-old University of Wisconsin boxer who suffered a brain injury in a collegiate fight about April 9, died Sunday.

"His death is a great, tragic loss," said Coach Vern Woodward. "Charles was symbolic of all that is fine in college boxing."

Mohr died without regaining consciousness from the time he was admitted to the hospital.

Comment ranged from the terse remark of Gilbert E. Jansen, a former Cleveland batter, who said, "the trade stinks," to the tearful complaint of eighth-grader Carol Kiehl: "I belong to one of the Rocky Colavito fan clubs. It's all over. We're going to start a new one, the Lane haters."

A few, like Richard Ganin, approved. "They got rid of a bum fielder for a good ball player," Ganin said. "Colavito hasn't learned a thing in four years. He doesn't know how to run the bases or where to throw the ball."

"The man (Lane) to a boxer and run him out of Cleveland," suggested William M. Scott.

George E. Shepley said he thought Colavito had not yet reached his full potential. "But Kuenn has seen his best days. One thing can be certainly said," Shepley added. "The feminine fans of Cleveland have had their hearts broken."

Pistons Trade Conlin for Hawk Bob Ferry

DETROIT — The Detroit Pistons and the St. Louis Hawks have made a straight player deal in which Detroit gets forward Bob Ferry in exchange for veteran Ed Conlin.

The deal, made Saturday, brings Detroit a man who was the only rookie to crack the St. Louis lineup during the past National Basketball Assn. season. Conlin, 34, was traded to the Hawks in 1958 for 384 points in 62 games for the Pistons.

"What I must do to improve on my finish. I have been finding on the last three hurdles and I've got to improve."

His 13.6 was the best of the year so far and was well under the Olympic qualifying standard of 14.4.

Bill Woodhouse of Abilene Christian released off a 102.100-meter, just a tenth of a second over the world record.

Hayes Jones has accepted an invitation to compete in the Compton, Calif., Relays June 3. His opposition is expected to include American stars Lee Calhoun and Ansel Robinson and Nationalist China great C. K. Yang, who now attends UCLA.

The Detroit Lions have completed their 1960 exhibition schedule with the addition of the St. Louis Cards for Aug. 20 at Toledo and Pittsburgh for five days later in Detroit.

Current plans at Michigan call for the switching of former Walleye Lake fullback great John Walker to center next fall. He has been on the sidelines in spring practice. Having an injury suffered last fall.

Michigan State did well in baseball and track over the weekend. The Spartan nine beat Alma 5-1 and 7-0 in its first home games. The MSU relay team won a title at the Quantic Relays. Brian Castle, Bob Lake, Willie Atterberry and Jim Carr set a meet record in the two-mile in 7:23.4. They were fifth in the one-mile event.

Babe Ruth Meeting

A Babe Ruth League organizational meeting has been called for Tuesday at 8 p.m. at the Grand Hall in Walled Lake. Parents interested in helping in the league in any way are requested to attend the meeting.

Bosox, Nats Start AL Slate; All Play Tuesday

By the Associated Press

Rumors to the contrary, the American League does plan to play baseball this year.

As a matter of fact, Joe Cronin's circuit is all set to get going today with its traditional opener in the nation's capital.

President Eisenhower interrupted his Georgia vacation to fly up to Washington to throw out the first ball for the game between the Senators and Boston Red Sox.

On Tuesday, exactly seven days after the National League raised its 1960 curtain, all teams will open a full-scale drive for the flag currently held by the Chicago White Sox. According to most of the experts and the betting gentry in Las Vegas, this figure to be a waste of effort by all but the White Sox, New York Yankees and Cleveland Indians.

Although probably aware that the Senators and Red Sox have been picked to finish eighth and seventh, respectively, some 28,000 hopefuls were expected at Griffith Stadium to see the winner take over undisputed possession of first place.

Camilo Pascual, who turned in an incredible pitching feat last year by winning 17 games for the

cellarite Senators, has been selected by Manager Cooke Lavagetto to start against Ted Williams and Co. Choice of the Red Sox was Tom Surdiant (7-9), a right-hander who did his pitching for New York and Kansas City last year.

Williams, a stranger to opening day festivities, not only missed last year's inaugural but has participated in only two since 1952. Dates with doctors, courts and the Marine Corps prevented him from keeping previous appointments on the playing fields.

Around 120,000 baseball-minded folks, two thirds of the 173,000 who turned out for the National League opener, were expected to take in the four games Tuesday.

The White Sox will open defense of their title against Kansas City before a crowd of 20,000 home fans. Early Wynn (22-10), the venerable 40-year-old Sox right-hander, will start his 20th big league season. He will be opposed by southpaw Bud Daley (16-13). The Sox will show new faces in third baseman Gene Freese and outfielder Minnie Miñoso, although the latter is showing his second hitting year with the club. Kansas City first timers include Hank Bauer, Norm Siebern and rookie shortstop Ken Hamlin.

Expected cool weather figures to limit attendance in Boston's Fenway Park to about 22,000 for the clash between the Yankees and Red Sox. With Whitey Ford not fully recovered from the shock of last year's bombing, the Yankee's opening day assignment will go to young Jim Coates (6-21). Another right-hander, Tom Brewer (10-12), is Red Sox Manager Billy Jurges' choice.

The Yankees will have only one new face in the starting lineup—left fielder Roger Maris. The Red Sox may have several including Bobby Thomson, who excels in rising games of the season. Rookie Lou Chioffalo, an outfielder, and Haywood Sullivan, a catcher, may break into the opening day Red Sox lineup.

Young Jerry Walker (11-10) gets Manager Paul Richards' nod to open Baltimore's season at Municipal Stadium before approximately 20,000. The Senators will have the Orioles' ace, Pedro Martinez (13-19) will do the pitching for Washington.

Orion fans will get their first look at center fielder Junior Brant for whom the club gave up pitchers Billy O'Dell and Billy Loos last winter. Also in the starting lineup will be the rookie key-stone bats of Ronnie Hansen and Merv Breeding. Hansen, the flashy fielding shortstop, has been up before but it is the first time for Breeding.

Jones Wants Crack at German Hurdler

FRIENDLY REST — Bob Friend, Pittsburgh Pirate pitcher, relaxes in the dressing room after pitching a four-hit 5-0 shutout over the Cincinnati Reds in the first game of a doubleheader yesterday. The Pirates also won the second game, 6-5, with a nine-run rally in the 9th inning.

No Player Is 'Untouchable'

DeWitt-Lane Think in Same Lines

From Our Wire Services

The thinking of Detroit Tiger president Bill DeWitt and Cleveland General Manager Frank Lane pretty much was the same course.

When DeWitt came to Detroit to

run the Tigers he said "There are no untouchables on this club."

Lane doesn't have to make such a statement. His trades in the past have been proof of his feelings about making trades.

Lane is today probably the most unpopular man in Cleveland.

He has broken Cleveland's unwritten baseball law. He traded the number one idol of Indian fans and he may never be forgiven for it.

By trading the slugger Rocky Colavito to Detroit for Harvey Kuenn, Lane has set himself up as a prime target for angry abuse from the fans throughout Ohio.

The torrent of criticism started pouring in last night, a few hours after the trade was announced.

The Cleveland Press reported that reaction of fans calling in was 10-1 against the trade.

Colavito, whose dramatic home runs and good looks have made him a hero with bona fide fans, was considered the most popular player in the Cleveland outdoor season since Bob Feller and Lou Boudreau.

Kuenn and Lane now have their work cut out for them. They've got to make Cleveland fans forget all about Rocky, and that is going to be a tough job.

The trade of Kuenn was the most important Tiger trade since George Kell went to Boston in 1952. It has been a long time since a front-liner departed at the height of his career.

DeWitt is not promising Colavito will remain a pennant, he feels he is still needed as first base, shortstop, catcher and in the bullpen.

LAST AS INDIAN — Rocky Colavito is congratulated by Woody Held (C) after smashing a 350-foot homer in the second inning to lead the Indians to a 2-1 win over the White Sox in an exhibition game in Memphis, Tenn., yesterday. Minutes later he learned he was traded to Detroit for Harvey Kuenn and then bounced out in the 4th inning.

Doctoring Your Golf

By DR. CARY MIDDLECOFF

PATIENT'S COMPLAINT: "Every shot I make is a headache!"

DIAGNOSIS: Not using your head.

TREATMENT: Probably the first golfer, who ever passed, this piece of valuable advice on to the second one — Keep your head still.

However old it may be, the advice is still sound. And however often it has been passed along, the advice is still often ignored.

It shouldn't be. It is still golf's best maxim.

In today's illustration, we see a man with his head in the proper position to start a shot. That is where it should remain until the ball is hit and is on its way. Then the force of the swing should pull the head around into a position that lets you follow the flight of the ball, with your eyes.

The whole swing centers around the head. Move the head during the swing and the whole thing goes out of kilter.

I know this isn't fancy golf advice. But it sure is sound golf advice—always has been, and always will be.

Loes Giant Hero in Extra Innings; Pirates Win Pair

San Francisco's major winter trade that sent outfielder Jackie Brandt to Baltimore for pitcher Billy O'Dell and Billy Loes has paid its first dividend of the infant 1960 National League season. Loes the unpredictable was Loes the magnificent Sunday. The 30-year-old relief ace not only buried three hits, but pitched a perfect ninth and scored the winning run in the Giants' 4-3 triumph over the Chicago Cubs.

Third baseman Jimmy Davenport, whose late season injury was a big factor in the Giants' 1959 collapse, drove in the tie-breaking run with a single off relief pitcher Ben Johnson.

The victory enabled the Giants to remain in a first place dead-end lock with the Los Angeles Dodgers who defeated the St. Louis Cardinals 7-5 for their third consecutive victory. The defeat was the fifth for the winless Cards.

Milwaukee remained a half game behind the leaders, wallowing in the Philadelphia Phillies 5-4 for its third success in four starts.

Pittsburgh jumped into fourth place by sweeping a doubleheader from Cincinnati. The Pirates won the opener 5-0 behind the four-hit pitcher Bob Friend, then came from behind with a six-run rally in the bottom of the ninth to nip the Reds 6-5 in the nightcap.

Loes took over in the 12th, retired six straight batters, then pitched himself out of trouble by getting pinch hitter Sammy Taylor with two runners on base in the top of the 14th.

The New York home right-hander surprised the home crowd of 33,337 by lashing a single off John...

Orlando Cepeda's two-run homer, his second, Rich Ashburn had four hits for Chicago and stole the 20th base of his 13-year career.

At Greensboro

der par, by making birdies on the last two holes to give him a two-shot margin over Dow Finsterwald of Tequesta, Fla. Finsterwald finished with 68 to 72, 272 to 300.

Club Loses 5th Straight

Cardinal Boss Hemus Has Unhappy Birthday

LOS ANGELES (AP) — There was a brightly ornamented cake waiting for a little man in the St. Louis dressing room, but it looked about as much in place as a library for a single for Los Angeles. The Cardinals had just swallowed their fifth defeat in five games this season.

"I don't think I'll eat any," Solly said. "I'm not very hungry."

The Cardinals lost their first game here on a wild pitch. Next night a ground ball took a bad bounce and turned into a single for Los Angeles at a critical point, Sunday. The Cards committed two errors, one a two-run job. Another Dodger runner scored on a wild pitch as Los Angeles ran its record to 4-1 with a 7-5 victory.

"We just can't get coordinated," Solly said. "But we play well at home so maybe we'll pull out of this when we open there against the Cubs Tuesday."

The Cardinals are developing a platoon of sluggers starts. They lost 14 of their first 17 games in 1958 and 16 of their first 21 last year. "We tried to guard against this kind of thing this spring," Solly said. "We took fewer men to camp, so the regulars would be playing regularly, and we even brought along a doctor to give exercises."

"Two or three of our pitchers went nine innings in the exhibition games and the ball club looked ready to go. But everything we do turns out wrong."

"The ballplayers, though, aren't conceding a thing. And we might just go on and win four, five, six, seven or eight games in a row."

Confident and soft-spoken, Temple is not new at leading U.S. teams in international competition. He coached American teams in two meets against Russia and also led the U.S. female track contingent in the Pan-American Games.

"We'll do well in the dashes and sprints," said Temple, speaking of the Rome Olympics. "What we have to work on are the field events and we could come up with some surprises."

Snead Wins 'His' Meet

GREENSBORO, N.C. (AP) — The incredible story of Sam Snead and the greater Greensboro Open golf tournament continues.

The one-time Virginia hillbilly, who now plays out of a swank White Sulphur Springs, W. Va., resort club, has won here again — for the seventh time.

When Sam accepted the winner's \$2,800 check Sunday after posting a 14-under par 270 score for 72 holes it brought his Greensboro earnings to \$12,600 since he won his first tournament held here in 1938.

It boosted his official earnings in the three major tournaments he's played this year to \$9,325. He won at Bradenton, Fla., last month in his first outing, was tied for 11th in the Masters and won here. In addition, he picked up \$460 in money in a couple of Florida tournaments.

Snead closed with a 69, two under par, by making birdies on the last two holes to give him a two-shot margin over Dow Finsterwald of Tequesta, Fla. Finsterwald finished with 68 to 72, 272 to 300.

Several regular touring players skipped the tournament this year, and Snead said, with the advent of a bigger purse and a better golf course more of the top players would be here. The Sponsors, in a surprise move, added \$2,500 to the purse Sunday to make it \$20,000.

Young Dave Hill of Detroit finished 11th and pocketed \$650. Hill had a 71-75-63-73-284.

The money winners:

Rank	Name	Score
1	Sam Snead	69-66-67-69-271
2	Dow Finsterwald	71-69-70-68-278
3	W. G. Sayers	71-70-70-68-279
4	Tommy Bolt	71-70-70-68-279
5	Don Whal	71-70-70-68-279
6	Burrton Turner	71-70-70-68-279
7	Lee W. Ward	71-70-70-68-279
8	W. G. Sayers	71-70-70-68-279
9	Tommy Bolt	71-70-70-68-279

Bowlers Hope ABC 7th Week Will Be Lucky

TOLEDO, Ohio — Bowlers in the American Bowling Congress tournament are hoping the seventh week of the meet will be a lucky one for them.

In the past week, the contestants have found the current standings hard to beat. The 4th change in the top 10 of any division occurred in the doubles April 12.

There has not been a change in the top 10 of the singles standings since April 11, the all-events division since April 10, the booster team division since April 10 and the open team division since April 7.

Track Ruling Costs Chiefs Mansfield Title

By H. GUY MOATS
MANSFIELD, Ohio — An official's ruling on what most local observers thought was a highly questionable infraction of running rules, Saturday afternoon cost Pontiac Central's fine track squad a championship in the nationally-rated Mansfield Relay games.

The incident, occurring in the mile run, only event in which a record was set on Saturday, and one of only two new marks in the 1960 event involved disqualification.

Fighting Champ Fullmer Defends Title Wednesday

By the Associated Press
Many a freshly crowned boxing champion has vowed to be a "fighting champion." Not many actually follow through.

Not so with Gene Fullmer. The NBA middleweight king believes in being a tussle champion and backs it up with action in the ring. He is making it pay off, too.

The 28-year-old ex-mine worker from West Jordan, Utah, will collect \$100,000 for taking on 29-year-old Joe Giardello of Philadelphia in defense of his NBA middleweight crown Wednesday night. They will meet in a television (ABC 10 p.m., EST) 15-rounder in the field house of Montana State College at Bozeman.

Fire Ruins Chicks' Park

MEMPHIS (AP) — The Memphis Chicks are casting about for a new home park to replace a 14,000-seat stadium that went up in flames.

The holocaust caused half a million dollars damage to Russwood Park and posed a severe threat to two big hospitals nearby before firemen got it under control Sunday night.

Leo Burson, president of the Chicks, said he planned to ask the

of Pontiac Central's ace miler Joe Anderson.

Anderson was said by an official to have allowed a Mt. Lebanon runner, but this writer and many others directly at the spot failed to note any such infraction. Anderson was posted, cut off by another runner, seconds after the incident, but no official saw it.

The ruling cost Chiefs four points, for Anderson finished 2nd to a great 4:21 race by Joe Thomas of Uniontown Pa. Thomas clipped eight seconds off the former mark. Anderson was clocked in 4:30.4 his best time and the 2nd best time of the season for a Michigan miler.

Protests by the PCH coaches and others failed to impress meet officials.

Chiefs wound up with 26 5/9 points to 29 1/9 points for the new champion, Cleveland Glenville. Had the disqualification not been imposed Chiefs would have won with 30 5/9 points.

Flint Northern had 19 1/9 points, a share back of 3rd place Mt. Lebanon, Pa., with 19 1/9; Pittsburgh CC 13; Cleveland East Tech 13; Ecorse 12 1/9; Uniontown Pa. 12; Warren Harding, Ohio 12; Cleveland John Adams 12; Durand 9 comprised the top 16.

Other Michigan schools included: Birmingham 4; Flint Bendle 5; Alma 3; Monroe 2 11-16; Belding

ser," sight Tiry. "She won in the 1956 Olympics and she's better today at the age of 23. Chris Von Salza is the best we can do and that means a second place, finish."

Miss Fraser holds the world record in the 100 meter free style and won the 200 meter free style race in the 1956 games at Melbourne.

Miss Von Salza, representing the Santa Clara Swim Club, swam away with individual honors here and set new American records in the 100, 200 and 500 yards free style events.

"Use Konrads (another Australian) seems to be the best in the 400 meters, but Fraser has beaten her. So the best we can hope for is third place," said Tiry.

"Tiry says the breaststroke is 'strictly a European affair.' But all isn't completely black, according to the Texan.

He says the United States has a good chance in the backstroke because Carin Cone of Houston, one of the best in the world, and Lynn Beyer of Santa Clara, Calif., who beat her in the races here.

"The United States stands a real good chance in the butterfly with Nancy Ramsey of Seattle, the world record holder, solid in this event," Tiry said.

Tiry added that the U.S. medley relay team with Von Salza in the anchor position should win going away. "But our free style relay team still seems to stack up as the number two team."

Suzi Thrasher of Ann Arbor placed sixth yesterday in the 200 yd. butterfly competition. Suzi clocked 2:25.4.

Particularly the swimmers from Australia, Tiry indicates.

"No one can beat Dawn Frazer," said Tiry, "but they face a strong challenge from swimmers of the rest of the world."

Under the postponement plan, the Chicks would be out of business until their next road trip stop in Birmingham April 23. They would put off until an indefinite later date Chattanooga's three days here beginning Tuesday and a series with Atlanta that was to open April 22.

ATLANTA (AP) — Second-seed Barry McKay of Dayton, defeated defending champion Tut Barten of Dallas, Tex., in straight sets Sunday and won the Atlanta Invitational Tennis Tournament.

The 6-foot-4 McKay made the most of a covering serve and fine court coverage to take the match from the co-captain of the Davis Cup team 6-6, 6-1, 6-3.

McKay teamed with veteran Betsy Grant of Atlanta to beat Barten and Florida State Coach John Powless 7-5, 6-4, in the doubles final.

Warfield of Warren Harding at 23 feet 9 1/2 inches.

"Pontiac held the lead most of the afternoon. With only three events to go, they still had a chance to take it all, despite the loss of the four points in the mile. PCH had a five margin.

Then the Cleveland squad rushed into the lead by less than a single point with a victory in the half-mile relay in which Chiefs led off. Chiefs cut the margin a point when Prentiss was 5th in the low hurdles.

The clincher was the meet's final event, the mile relay, in which Chiefs were again shut out. Glenville was 3rd, and that was the title. Pontiac is lacking in really fast middle distance runners where a few points would have counted greatly.

Chiefs will be idle until Friday

Girls Sink U.S. Records

BARTLESVILLE, Okla. (AP) — The U.S. women swimmers sank 11 of 12 American records in the national indoor AUI meet here over the weekend but there's only cautious optimism over their Olympic chances.

In fact, the Olympic prospect offered by Carl Tiry, of Dallas, Tex., a member of the AAU records committee could be edged in black crepe.

"Our girl swimmers have made excellent progress in the last three years," said Tiry, "but they face a strong challenge from swimmers of the rest of the world."

Particularly the swimmers from Australia, Tiry indicates.

"No one can beat Dawn Frazer," said Tiry, "but they face a strong challenge from swimmers of the rest of the world."

Under the postponement plan, the Chicks would be out of business until their next road trip stop in Birmingham April 23. They would put off until an indefinite later date Chattanooga's three days here beginning Tuesday and a series with Atlanta that was to open April 22.

McKay teamed with veteran Betsy Grant of Atlanta to beat Barten and Florida State Coach John Powless 7-5, 6-4, in the doubles final.

First Win for Amerks in AHL Hockey Series

ROCHESTER, N.Y. (AP) — The Rochester Americans, who showed signs of rolling over and playing dead in enemy territory, took a new lease on life today with their first victory in the American Hockey League's final Calder Cup playoffs.

The Amerks, who finished second to Springfield in the regular season, recorded a 7-3 victory over the Indiana Sunday night. The Indians had won the first two games — each by a margin of one goal — on Springfield ice.

WEEKEND FIGHTS
BANKOK, Thailand — Pone Kingpetch, 19th, Thailand, defended Pannat Pansa, 11th, Argentina, world flyweight title bout.

War Hero Has X-Rays
WASHINGTON (UPI)—Korean War hero Maj. Gen. John H. "Mike" Michalski was reported in satisfactory condition today while undergoing x-ray treatments at Walter Reed Army Hospital for a malignancy in his throat.

Wind Rams Ice Into Two Homes Near Cheboygan

CHEBOYGAN, Mich. (AP)—Wind-driven ice smashed inland 50 feet from Black Lake Sunday forcing two families from their homes.

The ice reached window height, crashed doors and piled up inside the houses.

Escaping unhurt were Mr. and Mrs. Charles Smith, their 10-month-old baby and 13-year-old son; and Frank Stoner and his two children. Mrs. Stoner was away at work.

Winds piled up ice 11 feet high along 750 feet of beach of the lake in northern Michigan's resort area.

Sen. Morris Adds Newsmen to Staff

LANSING (AP)—Sen. Carlton H. Morris (R-Kalamazoo) today announced appointment of Terrence J. Miller, Kalamazoo Gazette reporter, as press representative in his campaign for the Republican nomination for governor.

Miller, 26, resigned from his job at the Gazette to take the post. He formerly was a newsmen in St. Joseph and South Haven.

James Anderson, president of Simon Iron and Steel Co. of Lansing, and Kenneth Lang, Kalamazoo attorney, were named co-chairmen of Morris' finance committee.

8 Persons Die in State Traffic

6 of Them Are Killed in Single-Car Wrecks—Autos Out of Control

The Associated Press Eight persons were killed in traffic accidents in Michigan during the Easter weekend.

Six of the victims died in single-car wrecks that occurred out of control and crashed without colliding with any other vehicle.

The Associated Press weekend traffic fatality count starts at 6 p.m. Friday and ends Sunday midnight.

In the previous weekend, seven persons were killed in traffic accidents compared with 16 in the weekend before that.

John Starkey, 30, of Muskegon was injured fatally in a two-car collision on M28 near Muskegon Sunday.

Columbus Taylor, 45, of Cadiz, Ky., died Sunday of injuries suffered Saturday when his car went out of control on M55 in Delta County and crashed into a ditch.

Robert O. Barrett, 34, of Menominee, suffered critical injuries.

Donald Hagerman, 21, of Detroit was killed Saturday when his car ran off an Edsel Ford Expressway ramp and crashed into a house in Detroit.

Wayne S. Powell, 17, of Gagetown and Larry E. Davidson, 18, of Mayville were killed Saturday when the car in which they were riding struck a tree near Owendale in Huron County in a dense fog.

Theodore N. Weiscomb, 23, and Thelma Matlock, 25, both of Detroit, were killed Saturday when their car hit a bridge abutment near the Detroit-Redford township line.

Thomas L. Chapman, 17, of Flint was killed Saturday in a two-car collision in Flint.

EDDIE COCHRAN

Rock, Roll Star Dies in Smashup

Rented Car Hits Lamp Post in England; Two Others Hurt in Crash

BATH, England (UPI)—The body of young American rock 'n' roll singer Eddie Cochran probably will be flown back to the United States Wednesday, his manager said today.

Cochran, 21, was riding to London Airport to catch a plane home to Buena Park, Calif., Saturday when his hired car smashed against a lamp post.

He was hurled to the pavement with his guitar.

He died in a Bath hospital yesterday without regaining consciousness.

The accident came after one of the most enthusiastic receptions of his short career, climaxing a 12-week tour of Britain.

His manager, Norman Riley, said there probably would be an inquest tomorrow. Two other American musicians also were injured in the crash.

Cochran was going home for 10 days before returning to England for another tour, Riley said.

Also injured in the crash late Saturday night were fellow rock 'n' roll star Gene Vincent, 22, of Vancouver, Wash., and a song writing friend from Los Angeles, Miss Sharon Sheeley, 26.

Doctors last night said Miss Sheeley suffered back and pelvic injuries and Vincent "minor" injuries.

Cochran had recorded two golden (million seller) records. They were "C'Mon Everybody" and "Summertime Blues."

Williams Signs Tax Clarifier

Assessed Valuation Is Defined in Bill Written Into Finance Act

LANSING (AP)—A bill clarifying property taxation procedures was signed into law today by Gov. Williams.

The bill, which writes into the Municipal Finance Act a definition of "assessed valuation" for property taxing purposes that a Supreme Court decision applied to school districts more than five years ago.

The court held that assessed valuation means the valuation assigned by the state equalization process.

"This bill creates no new law," Williams said. "It merely puts into the statute books what Supreme Court already has said is law."

It is a clarifying law which makes no actual change in taxing powers or the assessment process.

"The bill in no way deprives local units of the power to set their own tax rates," Williams said, "nor does it give them any power they do not already possess."

In fact, Perry said, none of the boys may have had the help of their parents.

When parents visit the boys, they are in the custody of the parents. Perry said he didn't find out about the escapes until visiting hours were over and the parents couldn't turn in.

There are no fences at Gatesville and no guards as such. There are attempts to see that the boys behave themselves and to report escapes.

The 54 who escaped yesterday got away in two batches while their parents and relatives swarmed over the grounds in Easter visits.

54 Runaways Returned to Boys School

Returned to Boys School

GATESVILLE, Tex. (UPI)—Officials used baying bloodhounds today to help them capture the last of 54 inmates with criminal records ranging from car theft to murder, who escaped yesterday from Gatesville School for Boys.

School Supt. O. F. Perry reported 38 captured. Some were nabbed last night when they wrecked a guard's automobile at Temple, Tex., 30 miles away. Most of the others were captured singly, or in twos or threes, in the woods near the school.

There are no fences at Gatesville and no guards as such. There are attempts to see that the boys behave themselves and to report escapes.

Legislators Take Break to Stump

They Return to Lansing May 11 for Last Fling—Most Work Is Done

LANSING (AP)—A long break in their lawmaking chores today gave Michigan legislators a chance to swing into campaigns for re-elections.

With most of the business of the 1960 session wrapped up, lawmakers scattered to their homes for a breathing spell before returning May 11 for final adjournment.

For many, the recess Saturday after the first weekend meeting of the year cleared the way for a serious start on campaign activities leading up to the primary election Aug. 2.

Several gaps, however, still showed in the legislative record that will have to be carried to the voters.

PAY RAISES TOP LIST Decisions on pay raises for legislators and spending for higher education topped the list.

Republicans and Democrats refused to budge from their stands on either issue and the overtime session broke up in a turmoil with both sides accusing each other of stalling adjournment.

House Republicans asserted the real roadblock was a Democratic demand for a \$5.50 increase in legislators' \$14,000 yearly salary.

A House-Senate conference committee agreed to a \$1,000 raise, the \$25 increase in the \$1,000 expense allowance and a second 10 cents per mile round trip home each month.

"It's not enough," said Rep. Joseph J. Kowalski (D-Detroit), Democratic floor leader. "The position of legislator is worth more than that."

Rochester Man, Learning to Drive, in 2-Car Crash

A 69-year-old Rochester man taking his first driving lesson yesterday lost control of his son's car on Livernois road and collided with another car head on.

Seven were injured in the accident, some seriously. John Lynch, 48, Main St., told deputies his son, Robert, 20, of Roseville, was giving him his first lesson when he lost control and crossed the center line south of Auburn road in Avon Township.

Both Lynchs were treated at St. Joseph Mercy Hospital and released. All the occupants of the other car were from London, Ont.

The driver, William G. Lovell, 47, and his son, William Jr., 15, were treated and released.

Lovell's wife, Dorothy, 42, daughter Phyllis, 21, and Mary Lou Sasche, 30, were admitted to the hospital and are in satisfactory condition.

It Happened 18 Years Ago Today

Remember Doolittle Over Tokyo?

By BOB CONSIDINE
NEW YORK — Eighteen years ago today, as the old Puffinbarger Duck flies, there was astonishing activity aboard the pitching, spray-lashed deck of the USS Hornet. A young lieutenant in the Army Air Corps, who was to lose a leg in the memorable events that followed, told about it in "Thirty Seconds Over Tokyo," a book (Random House) and movie (MGM) which have lived on into a new generation.

"Doolittle," wrote Lt. Ted Lawson, "warned and killed his engines, and how we got a vivid demonstration of one of our classroom lectures on how to get a 25,000-pound bomber off half the deck of a carrier."

"A Navy man stood at the bow of the ship, and off to the left, with a checkered flag in his hand. He gave Doolittle, who was at the controls, the signal to begin racing his engines again."

"He did it by swinging the flag in a circle and making it go faster and faster. Doolittle gave his engines more and more throttle until I was afraid that he'd burn them up. A wave crashed heavily at the bow and sprayed the deck."

"Then I saw that the man with the flag was waiting, timing the dipping of the ship so that Doolittle's plane would get the bene-

fit of a rising deck for its take-off. Then the man gave a new signal."

"Navy boys pulled the blocks from under Doolittle's wheels. Another signal and the bomber released his brakes and the bomber moved forward."

"With full flaps, engines at full throttle and his left wing far out over the port side of the Hornet, Doolittle's plane waddled, and then lunged slowly into the teeth of the gale that swept down the deck. His left main wheel stuck up to the starting line, and then lunged slowly into the teeth of the gale that swept down the deck. His left main wheel stuck up to the starting line, and then lunged slowly into the teeth of the gale that swept down the deck."

"We watched him like hawks, wondering what the wind would do to him and whether we could get off in that little run to the bow. If he couldn't, we couldn't."

"Doolittle picked up more speed and held to his line and just as the Hornet lifted itself up on the top of a wave and cut through it at full speed, Doolittle's plane took off."

"He had yards to spare! He swung his ship almost straight up on its props, until we could see the whole top of his B25. Then he leveled off and I watched him come around in a tight circle and shoot low over our heads—straight down the line painted on the deck."

"The Hornet was giving him his bearings. Admiral Halsey had headed it for the heart of Tokyo."

"The engines of three other ships were warning up, and the thump and hiss of the turbulent sea made additional noise. But loud and clear above those sounds came the voice of our commander, every Navy man on the ship. The

made the Hornet fairly shudder with their yells — and I've never heard anything like it before or since."

Twenty-five survivors of the Tokyo raid and the air battles, wars and adventures that followed got together over the weekend at Colorado Springs. The bright young fledglings of the Air Force Academy, some of them yet unborn when Doolittle's men threw that unforgettable first American counter-punch of World War II, stepped by them Saturday in brisk review.

The 18 years have produced appalling changes in the technology of war. The B25s that went to Tokyo and crashed in China hours later dropped a total of six tons on the thunderstruck Japanese capital. One B-29 in our arsenal now packs a TNT equivalent which, to have been equal to Doolittle, would have meant his use of 6,000,000 B25s. Six million.

But there would have been no knightly flowering in such a mission, as there surely was on that day April 18, 1942, when Jimmy led them off the deck.

Court Will Uphold Race Sit-Downs, King Says

By THE ASSOCIATED PRESS

A Negro integration leader says sit-down demonstrations are democratic and legal.

The expression of the confidence came from the Rev. Martin Luther King Jr. at the start of the 11th week of the Negro campaign against segregated lunch counters.

The 31-year-old Atlanta Baptist pastor appeared on the NBC television program Meet the Press in Washington Sunday night shortly after a Negro college student conference at Raleigh, N.C., said the groundwork for formation of a Southwestern organization.

King conceded the sit-ins might violate local laws, but he said, "In breaking local laws we are really seeking to dignify the law."

The man who led the successful boycott in Montgomery, Ala., in 1956, reasoned that if and when local laws against sit-ins reach the Supreme Court they will be held to be in violation of the basic guarantees of the Constitution.

King said he felt both the Congress and the President could do more to hasten integration.

The statement was echoed in the findings and recommendations of the Eastern weekend Raleigh conference attended by 142 students.

The crew, 21 of them Greek seamen, had plenty of food and water aboard the lifeboat and raft. They waited more than 12 hours before being rescued by a search plane. Rescue ships brought them here.

The 324-foot freighter, valued at about \$150,000 by her agents, was hauled \$150,000 worth of scrap iron from New York to nearby Newport News.

Diomedes Carvass, of New York, skipper of the Ethel C, said the crew would remain here to "finish formalities," then head home. Carvass had a special reason for hastening home. His wife, for whom the freighter was named, is expecting a child soon.

For the skipper, a naturalized citizen of Greek origin, it was the third ship sinking he had survived during his career.

The crew, 21 of them Greek seamen, had plenty of food and water aboard the lifeboat and raft. They waited more than 12 hours before being rescued by a search plane. Rescue ships brought them here.

The 324-foot freighter, valued at about \$150,000 by her agents, was hauled \$150,000 worth of scrap iron from New York to nearby Newport News.

Diomedes Carvass, of New York, skipper of the Ethel C, said the crew would remain here to "finish formalities," then head home. Carvass had a special reason for hastening home. His wife, for whom the freighter was named, is expecting a child soon.

For the skipper, a naturalized citizen of Greek origin, it was the third ship sinking he had survived during his career.

SUNRISE SERVICES IN HOLLYWOOD

White-robed choir members form a huge cross in the bandshell at Hollywood Bowl Easter Sunday during traditional services. Police estimated the crowd at more than 20,000 persons.

AF Scientists Listen to Radio Message to Solve Puzzle

The student steering committee said in a statement there was a possibility President Eisenhower might go to Africa this fall. The committee said, "We feel that before going to Africa, the President should lend the prestige of his office to the solution of the racial problems in this country and thus he should be able to better prepare for his visit to Africa."

Humphrey Worries About U.S. Future

WASHINGTON (UPI)—Sen. Hubert H. Humphrey (D-Minn.) has predicted that the United States will drift into "a very serious position of weakness" unless it steps up its defenses or speeds further disarmament efforts.

"I feel that we're able to defend ourselves for the moment. But it's the long term of time, the next two, three, five years that disturbs me," Humphrey said last night.

Sees Space Sentries as Hope for Peace

BRIDGEPORT, Conn. (UPI)—Lt. Gen. Bernard A. Schriever, Air Force research and development chief, said today satellites serving as space sentries against surprise attack might be the answer to lasting peace.

Schriever said the MIDAS satellite program, designed to detect enemy missile firings by the use of infrared sensors, would "double the warning time we can get from ground-based systems."

The MIDAS and SAMOS—a spy-in-the-sky satellite—would be servants of world peace and security, he said.

Schriever, commander of the Air Research and Development Command, made the statements in a prepared speech to the Bridgeport Chamber of Commerce in connection with Connecticut's "Missile Week."

A studio spokesman declined to say what salary had been settled on but Byrnes earlier had balked at \$750 a week, or twice his former salary.

Greek Boy, 4, Awaits Free Heart Surgery

NEW YORK (AP)—The life of a little Greek boy, flown here in response to his plea for help, hung in the balance today.

A medical team headed by noted heart surgeon Dr. Aaron Gorlick prepared for a delicate heart operation on 4-year-old Stelakios Parthenopoulos.

The boy, son of poverty-stricken parents in a slum near Athens, arrived here last week in a flight arranged by Associated Press newsman John O. D. Wallace.

Doctors said the boy has a heart defect that will mean early death if uncorrected.

Find Second Human Leg in Grand River; No Body

IONIA (AP)—A human leg was found yesterday by a fisherman in Grand River near the Portland Dam, only three miles from the spot where another leg was found last December.

Sheriff Peter Van Vleck said the leg appears to match quite closely the one found five months ago.

Nikito to Visit Austria

LONDON (UPI)—Soviet Premier Nikita Khrushchev will visit Austria in July or August at the invitation of Austrian Chancellor Julius Rabb, Radio Moscow announced last night.

TV News and Reviews

Children's Acts Assure Future for Ed Sullivan

By FRED DANZIG

NEW YORK (UPI)—The thought occurs that might be fair to let my youngsters, or perhaps an authority like Art Linkletter, write this column.

Wouldn't they be the ones to review last night's "Children Are People" special?

But let's not be too hasty. After all, if 200 bright-eyed boys and girls, all 15-years-old or less, can take over a full hour of NBC-TV's prime Sunday time, then we grownups had better watch out. That's why I'll hand this column to them.

As for the show, I found that when the grownups behind it eased up on some gaudy "show biz" touches, the kids invariably did a fine job of entertaining. They had spirit, made lots of noise, sometimes seemed to be having a good time. And Dr. Spock would be proud of them. Many of the kids showed genuine talent, which helps.

A SAMPLE: Writer Johnny Bradford managed to give the kids appropriate, unadmitted material. Sample:

Girl — "I'm bathing a dog."

Girl — "What kind of dog?"

Girl — "A dirty one."

The youngsters — led by Jerry Beaver, Mothers, Jay "Dennis" North and Angela "Linda" Cartwright — moved from one segment to another with a minimum of fuss, supported by brisk, loud music.

My favorite part of the hour involved some charming and clever background shenanigans and sounds. The last half of the show, a small-city circus, fell flat because so much effort went into making the kids come up with artificial reactions and cute moves. The mood of spontaneity and fun melted away like cotton candy.

But after seeing how the kids handled trained animal acts and high wires, I'd say the future of the Ed Sullivan Show is assured.

Of the show's three stars, I thought Master Mathers did the best job. He still manages to sound like a non-pro.

DIALING AND FILING: "Paris in the 20s" on CBS-TV's "Twentieth Century" film on a fascinating instant motion pictures of world-famous writers and performers living it up.

The narrative also offered some interesting comments about the creative aspects of the film. Janet Flanner's reminiscence about Gertrude Stein and Pablo Picasso were especially witty.

"The Way of the Cross," on NBC-TV's "World Wide '60" Sunday night turned up as vivid presentation of the scenes of Jesus' life.

Kookie Cools It; Makes Peace With Warner

HOLLYWOOD (AP) — Ed (Kookie) Byrnes has patched things up with Warner Bros. and goes back to work today.

Byrnes, under suspension since he was walked off the job last November in a salary squabble, played in the "71 Sunset Strip" television series.

A studio spokesman declined to say what salary had been settled

The first Bible published in the United States came from the press of the Harvard college in 1633.

East Germany Eases Up on Passes for West Reich Residents at Easter

By PHIL NEWSOM
UPI Foreign Editor

Red Easter greetings: Things may get easier soon for West Germans wanting to travel across the Iron Curtain to visit relatives and friends in Communist East Germany. This year, for the first time since the curtain came down, Communist authorities abolished long and complicated visa applications for West Germans and admitted them for the Easter weekend merely on production of a regular West German identity card.

The relaxation was good only over the Eastern holidays but

Gaulle's insistence on a greater say for France in Allied councils has decreased lately, thanks to mutual concessions which among other things would give West German officials as hoping it may be a sign of a more permanent relaxation of border formalities in the future.

There is no sign of any change for East Germans wanting to go in the other direction.

Red collectivization: With all farms collectivized, East German Communists now are making private craftsmen their next target.

Special squads of agitators are being formed to get craftsmen to give up their private businesses and form "collectives."

East Germany still has about 20,000 private craftsmen employing about 600,000 workers.

About 3,500 collectives have been formed with about 140,000 workers.

During President Charles de Gaulle's visit to Washington, he is expected to settle with President Eisenhower outstanding differences between France and NATO.

Informed quarters say the ten-

sion created in NATO by De Gaulle's new air force command on the central European front.

De Gaulle also is expected to urge Eisenhower to use his influence to gain France a share in some U.S. atomic secrets.

Tug-of-war: It now appears that President Eisenhower will arrive in Japan at a time when the country will be pulled apart by one of the hottest political fights of the postwar period. It's not a pleasant prospect for American planners although there is no indication the trip may be called off.

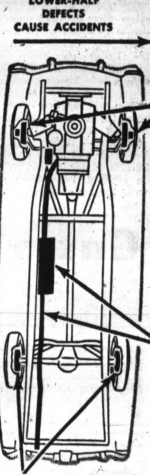

The battle is over ratification of the U. S.-Japan security treaty. When the trip first was proposed, it was believed the treaty would have been ratified and the fight over by the time he arrived.

Now it looks as if it won't be ratified until only a few days before the arrival—if then.

Philippines politics: The way the political football is bouncing in the Philippines today, most political seers concede that President Carlos F. Garcia is an odds-on favorite for re-election in 1961. The real political infighting is expected to be for the vice-presidential nomination. Constitutionally speaking, Garcia could serve only two years, or until 1963, when the vice president automatically would take over.

Sante Fe Flyer U. S. Speed King

CHICAGO (UPI) — The Santa Fe's Super Chief-El Capitan is the fastest passenger train in the United States, Trains Magazine reported today.

The magazine said its annual speed survey showed that the combined Super Chief-El Capitan rolled over the 99.5 mile stretch between Garden City, Kan., and Lamar, Colo., in 73 minutes — a speed of 82.1 miles per hour.

A slight rearrangement in scheduling cut down the Santa Fe train's running time and enabled it to beat the Illinois Central Railroad's City of New Orleans, which held the title in 1958.

The City of New Orleans negotiates the run between Effingham and Centralia, Ill., at a clip of 81.8 miles per hour.

The over-all speed record belongs to France, however. A French National Railways passenger train travels 41 miles between Arras and Longueau in 28 minutes — or 84.8 miles an hour.

Nursing Home Group to Meet in Kalamazoo

KALAMAZOO (UPI) — The Michigan Nursing Home Assn. will hold its annual convention here beginning May 8.

Health and medical authorities are scheduled to address the 225 people expected for the four-day convention. Mrs. Ila Arthur of Grand Rapids is chairman.

The Orinoco River, sixth longest in South America, is navigable in the rainy season from May to November for 1,300 to 1,700 miles.

Today as always... **IT'S WHAT'S UP FRONT THAT COUNTS!**

The big difference is **FILTER-BLEND** ...and only Winston has it!

The secret of Winston's flavor is Filter-Blend, an exclusive Winston development. You see, Filter-Blend is what goes up front of Winston's pure white modern filter. Fine tobacco, specially selected for its full flavor and mildness and specially processed for filter smoking.

Remember — Winston's idea has always been that the pleasure of smoking any cigarette depends upon its flavor. (After all, isn't flavor the whole idea of smoking?)

Yes, that's one very good reason why Winston is America's best-selling filter cigarette, year after year. Filter-Blend up front is why you should try Winston!

'Can't Preach Doom Anymore'

State Industry in Top Spot

DETROIT (AP) — A \$111-million dollar spurt in industrial expansion has pushed Michigan ahead of all other states in construction plans during the past six months.

A survey of building permits for new industrial facilities showed Michigan leading with 84, followed by Pennsylvania with 72 and California with 65.

William B. Sloan, Detroit industrial coordinator, compiled the statistics from building permits issued by every state during the last half year.

Michigan's total does not include two large projects in which preliminary permits do not reflect a dollar value. These are a General Motors Gear Assembly

S. E. Knudsen Will Head Pontiac Area UF Drive

Semon E. Knudsen, vice president of General Motors and general manager of Pontiac Motor Division, has accepted the appointment as 1960 general chairman of the Pontiac Area United Fund campaign.

The announcement was made today by Leonard T. Lewis, president of the Board of Trustees of the Pontiac Area UF.

"Certainly the campaign will be in most capable hands," Lewis said, in announcing Knudsen's acceptance.

"We look forward with confidence to an effective community-wide campaign to support the many agencies which depend on the UF for their financing."

Knudsen is a member of the Executive Committee of the Michigan United Fund, a member of the National Board of Directors of the Boys Clubs of America and a member of the Pontiac Area US Board of Trustees.

During the 1958 campaign he was director of industrial division solicitations, leading the in-plant solicitations for the UF in the automotive and manufacturing plants in the area.

In the 1958 and 1957 drives he was national firm chairman.

De Gaulle Off to Begin Visits

Ottawa Is First Stop on French Premier's 14,000-Mile Jaunt

PARIS (AP) — President Charles de Gaulle took off for the new world today on a 14,000-mile trip to Canada, the United States, and French possessions in the West Indies.

The first stop is Ottawa for the beginning of a four-day Canadian visit.

The 71-day trip, the longest foreign tour since he took power two years ago, will include stops at Quebec, Montreal, Toronto, Washington, New York, San Francisco and New Orleans.

It was a bright spring day and pleasant weather was forecast for the transatlantic flight.

De Gaulle's wife Yvonne, Maurice Couve de Murville and other top government aides are accompanying the president.

De Gaulle spent the Easter holiday at his country home resting for the grueling trip and polishing the speeches he will make. He will deliver most of them from memory.

De Gaulle is bothered by bad eyesight and hates to read texts in public.

Election Returns

As a public service, The Pontiac Press will give election returns this evening.

Information on the voting in seven districts for the two municipal judgeships and on the two charter amendments will be furnished after 9 p.m. to those calling Federal 2-8181.

Fire Destroys Baseball Park; Block Levelled

68 Babies Evacuated From Memphis Hospital in Million-Dollar Blaze

MEMPHIS (AP) — Towering flames raced with explosive speed through a baseball park Sunday night. They destroyed a city block of shops and scorched the walls of two hospitals.

A human chain of workers hastily passed 68 babies to safety and then evacuated the mothers from maternity wards as 100-foot-high flames chaired City Hospital window frames and shattered big glass panes.

The hospitals, Red Cross workers, fire and police officers reported no serious injuries. Damage was estimated at about one million dollars.

There was no panic when Deputy Fire Chief J. D. Johnson warned the 14-story Baptist Hospital to prepare for evacuation and 200 patients were moved to inner halls during the crisis.

The Baptist Hospital lobby was a mess. Every ground floor window was out. Floors were cluttered with overturned furniture, fire hoses and glass.

James Hartmaker, a young City Hospital attendant, said the fire began in the left field grandstand "and seemed to whirl through the stands."

When it reached the street it flamed right and left and enveloped a block of stores.

The flames generated a powerful draft. Embers exploded like buckshot. Fire hoses burned. The street smoked. A dozen cars were wrecked, with gas tanks blasting like bombs. A bank vault was singed.

The calmest people appeared to be hospital patients and workers.

"There was no sweat," said Dr. Lewis Neft who organized the human chain that passed the infants to safety at City Hospital.

Organize Adlai Club

BOSTON (AP) — Massachusetts supporters of Adlai E. Stevenson organized a Stevenson-for-president Club Sunday night.

Marshall Kaplan, acting chairman, said more than 3,000 signatures have been collected on petitions.

Crack Down in Africa

JOHANNESBURG, South Africa (AP) — Police arrested dozens of African "troublemakers" today in a crackdown to prevent a week-long stay-at-home strike from flaring into new violence.

Easter Parade in New York City

WHAT A CROWD — In your Easter bonnet, with all the trills upon it, you'd be mighty hard to locate in the Easter parade. This picture of the traditional New York City promenade was taken on the avenue (Fifth Avenue — where else?) There's not a car in sight, of course.

AT THE POLLS — Mr. and Mrs. John P. Baxter, 33 at LeBaron School. They are greeted by election worker Mrs. W. L. Cotter, 406 E. Second St.

Knenn, Colavito Trade Jolts Fans

By BRUNO L. KEARNS

Sports Editor, Pontiac Press

Briggs Stadium, home of the Detroit Tigers, has always been considered a haven for the top sluggers in the American League.

To gain more of this much-wanted slugging power, the Tigers completed, a trade with the Cleveland Indians by making an even swap, getting Rocky Colavito for Harvey Kuenn.

No regular outfield in the American League last year could match these figures as a unit for home runs and runs batted-in.

The trade was rumored several weeks ago, but it was denied when the Tigers were trying to get Kuenn to sign his 1960 contract.

At that time Tiger president Bill DeWitt brought Cleveland general manager Frank Lane into the training camp at Lakeland to "clarify" that no such deal was in the making.

Immediately after the "no-trade" press conference, Kuenn signed his contract for a reported \$47,500. Colavito was also a holdout for a short period of time and he signed for a figure said to be \$55,000.

The trade was received with different emotions in the respective cities. In Cleveland, where the fans were up in arms against Tribe general manager, "Trader" Lane, the deal was considered unpopular.

In Detroit, where president DeWitt adheres to a similar philosophy as Lane by considering all players trade material, the fans seemed to have accepted the trade as a good one.

All repercussions will be brought to a head early when the Tigers and Indians meet in the season opener tomorrow in Cleveland, starting a two game series.

The first return engagement will be the following Tuesday when the Indians visit Briggs Stadium after a three-game White Sox series in Detroit starting Friday.

The FBI said Richard Kaufman, a freshman from New York City, had received four typewritten threats which said: "We're going to get you. . . We haven't forgotten you. . . We know you're there. . . Your time is up."

The FBI said it was uncertain whether the notes were the work of hoodlums or of fellow students. During the weekend, the FBI took samples of all typewriters from the dormitory in which Kaufman lives.

"We don't know what we have here," an FBI spokesman said. "It may be the work of the Mafia or a college prank. We can't afford to take any chances."

Kaufman's father, Federal Judge Irving R. Kaufman, recently met out prison sentences to 20 men who attended the celebrated gangland convention at Apalachin, N.Y. in November 1957. The defendants are free on bail pending appeal.

A university security guard has been assigned to watch over the young freshman, who received the first threatening note April 5.

News Flashes

JOHANNESBURG, South Africa (AP) — Police and troops, backed by eight armored cars, arrested 400 Negroes in a raid on the African township of Duncan outside East London today.

WASHINGTON (UPI) — An attorney for Carl Chessman today asked the Supreme Court for the 16th time to save the convicted "red light bandit" from execution in California's gas chamber.

CLARKSBURG, W. Va. (AP) — Sen. John F. Kennedy (D-Mass.) said today that unemployment and economically depressed areas are "the issue in this campaign, not where I go to church on Sunday."

Charter Vote, 2 Judgeships, 7 Seats at Stake

Indications Pointing to a Turnout Which Would Better 1954's Record

Brisk balloting during the morning at many Pontiac polling places gave strength to the prediction that today's municipal election may see a record turnout.

At stake are two proposed charter changes, the seven seats on the City Commission and the two Municipal judgeships.

Officials expressed hope the turnout would reach 14,000 or 15,000 topping the present record of 13,919 set in 1954.

There were early indications the hopes would be realized.

A spot check showed, for instance, that 20 voters showed up at Precinct 35 in LeBaron School during the first hour after the 7 a.m. opening. This was an unusually high figure, election officials said.

At Washington School, where three precincts are located, balloting was reported picking up rapidly by mid-morning.

City Clerk Ada R. Evans predicted a big citywide increase in voting this afternoon and evening. Polls close at 8 p.m., but all those waiting in line at that time will be allowed to vote.

Pontiac's registered voter strength today stood at 36,012. A vote of more than 14,000 would push the turnout to nearly 40 per cent of more — the highest ever in a non-presidential election.

The City Commission candidates: District 1 — Incumbent Milton R. Henry is unopposed. Only a sticker candidate could threaten his certainty of another two-year term.

District 2 — Robert T. Flynn is challenging incumbent Mayor Philip E. Rowan.

District 3 — Vying for the vacancy here are George D. Hicks and William H. Taylor Jr.

District 4 — Challenger Winford E. Bottom is seeking the seat of incumbent Floyd P. Miles.

District 5 — Maurice Croteau is contesting with incumbent John A. Dugan.

District 6 — It's challenger Dick M. Kirby versus incumbent Wesley J. Wood.

District 7 — Incumbent Robert A. Landry is opposed by James H. Marshall.

The two proposed charter amendments have become the biggest single issue in the election.

They are championed as a means to smooth the waters in the troubled Pontiac Police Department.

The amendments would effect two big changes.

The first would ensure the con- (Continued on Page 2, Col. 2)

Bike Ride Down Slide Kills City Youngster

The 10-year-old son of a Pontiac fireman was killed Saturday afternoon when his bicycle went over the side of a steep toboggan slide at Murphy Park, hurling him into a creek at the bottom of the slide.

The youth was Craig S. Speers, son of Mr. and Mrs. Billy M. Speers, 18 N. Sanford St.

The accident occurred shortly after 1 p.m. Saturday afternoon.

Craig was pronounced dead on arrival at St. Joseph Mercy Hospital. Cause of death was listed as a depressed skull fracture by Deputy Coroner Isaac Prevette.

At the time of the accident, the park was filled with Pontiac children participating in the annual Easter egg hunt sponsored by the Pontiac Parks & Recreation Dept.

Playmates of Craig told police officers that the youth started down the steep, 100-yard slide when he saw a small boy playing at the bottom.

They said he swerved and went over the side to avoid striking the child.

Craig was a fourth grade pupil at St. Longfellow School and a member of the Pontiac Boys Club.

Polls Will Remain Open Until 8 in Citywide Election

Port of Hong Kong is about 10 square miles in area.

AMAZING PSORIASIS STORY

Jan. 20, 1958 — Pittsburgh, Pa. "Had psoriasis 30 years. Spent much money to no avail. Then used GHP Ointment and Tablets for 3 weeks. Scales disappeared as if by magic. In 4 weeks skin completely cleared and clear. First time in 30 years. Thanks for your marvelous product." This much abbreviated report tells of a user's success with a dual treatment for psoriasis now made available to all sufferers. Full information and details of a 14 day trial plan from Cassin Co., Dept. Rockport, Mass.

Kennedy Gets 3 Days Alone in W. Virginia

CHARLESTON, W. Va. (AP) — Sen. John F. Kennedy (D-Mass.) returns to West Virginia today to campaign for three days without the presence of his opponent in the May 10 primary, Sen. Hubert H. Humphrey (D-Minn.).

It is the first and last time that Kennedy will have the state to himself. Humphrey plans to return next Monday and will keep at it almost without a break until the election.

The Democratic preferential primary is not binding on West Virginia's 25 votes at the national convention.

WARM AND WET — Both the warmth and the humidity of the Pontiac area will be above normal for the next 30 days, according to the United States Weather Bureau. Outstate rainfall will be near normal, the bureau predicts.

to broil a steak, seven homes were ablaze. Asst. Fire Chief J. E. Byrne estimated the neighborhood damage at more than \$90,000. He said the fire started a tall tree in the backyard of Larson's neighbor. The tree fire spread to Larson's roof and a neighbor's roof. Windblown embers from those fires started blazes on the roofs of five other nearby homes.

Educate 500,000 From Abroad: Dems

WASHINGTON (AP) — The United States should pay for the education of a half million foreign students a year in American colleges, says the Democratic Foreign Policy Advisory Committee.

The group also wants underdeveloped nations to get doubled Western economic aid. The proposals were announced Sunday night by the 30-man group headed by former Secretary of State Dean Acheson. Rep. Chester Bowles (D-Conn.), foreign policy adviser to Sen. John F. Kennedy, is a member of the committee.

Holiday Delays S. African Test

Police Poised to Force Negroes to Work in Face of Stoppage Call

JOHANNESBURG, South Africa (AP) — With Easter Monday a holiday for most South Africa, a showdown in the week-long work stoppage called by the outlawed African National Congress was delayed 24 hours.

The government mobilized all police forces throughout the nation for the first test of strength with the country's leading Negro political organization since it went underground.

Strong police patrols kept a watch on Negro settlements around major urban areas.

Hundreds of thousands of Negroes who work in the big cities and environs were caught in the political squeeze. The government warned anyone staying away from work faced loss of their jobs or even banishment to native reserves in the remote interior.

A failure of the work boycott would be interpreted as a setback for the ANC in its campaign to force an easing in the government's strict segregation policies and gain freedom for jailed Negro leaders.

Police offered protection to Negroes going to work and threatened sharp action against anyone trying to get them to stay home—either by persuasion or intimidation.

Most of the known ANC leaders have been jailed, but the thousands of strike pamphlets that flooded Johannesburg and other areas indicated effective underground machinery has been set up.

Early Barbecue Really Burns Up Neighborhood

OAKLAND, Calif. (AP) — Chester Larson burned some weeds in his backyard barbecue pit Sunday and, in about the time it takes

What puts the swing of confidence in a man's step?

Satisfaction in his job ... joy in his family ... pride in his home ... it's made of many things. And not the least of these is the knowledge that he has provided for those he loves today—and tomorrow. Life insurance can bring that kind of security. It alone guarantees its full protection from the very first. Often it represents a sum of money it would take years for a family to accumulate. This is protection with specific dimensions—the kind of protection that gives courage to plan ahead. It goes a long way toward removing some of the uncertainties of the future.

What are the unique benefits of Life Insurance?

- 1 At the stroke of a pen you can create an estate for your family which would take many, many years to acquire in any other way.
- 2 You can build an income which neither you nor your wife can outlive.
- 3 From your very first payment, you can make certain that specific needs, such as mortgage repayments and children's education, will be met.
- 4 You know in advance exactly how much money will be available at any given time, in case of an emergency.
- 5 Your insurance can be so arranged that you and your family are relieved of the burden and risk of money management.

Institute of Life Insurance
488 MADISON AVENUE, NEW YORK 22, N.Y.

Life insurance, in addition to providing for family security, plays an important role in our national growth. Savings, through life insurance, help provide the funds for new schools, new factories and the new jobs a growing America needs. The money saved and used in this way also helps in the continuing fight against inflation.

Life Insurance Is America's Most Widely Used Form Of Thrift

ARTHRITIS SUFFERERS
Get Quick and Pleasant Temporary Relief With
Beckwith 7-D-2 Liniment

Although the cause and cure of arthritis remain unknown, many people have found temporary relief in the use of Beckwith 7-D-2 Liniment. It is a powerful, non-toxic, non-addictive, non-habit-forming, non-damaging and non-injurious liniment.

LANDS ON ROAD—This light plane is shown on the Rickenbacker Causeway at Miami, Fla., where it was landed Friday by four University of Illinois students. They said they bought just enough gas in Nassau, the Bahamas, to get to Miami but ran into winds that used the gas faster than expected. They narrowly missed colliding with a car when they landed.

U.S. Is Unlikely to Grant Castro Secret Conference

By HAROLD K. MILKS
HAVANA (AP)—A suggestion by Fidel Castro that he hold private talks with President Eisenhower or Secretary of State Christian A. Herter, was seen here today as a possible indication the Cuban leader wants to improve relations with the United States.

Castro told correspondent Richard Hale of the Columbia Broadcasting System Sunday that such a meeting could result in better relations between the two countries.

Such a meeting also would mean a considerable boost in prestige for Castro, and it seemed most unlikely Eisenhower would give the idea serious consideration after Castro's numerous bitter attacks on U.S. policy. Nor did it seem likely Herter would see the Cuban leader after all the harsh things Castro has said about the secretary of state.

In Washington, State Department press officer Lincoln White brushed off Castro's suggestion. He said it was surprising to him that the suggestion was made to a newsman and not to U.S. Ambassador Philip Bonsal, whom

Hikers Trek Over Pass Into Desert

RENO, Nev. (AP)—Two British hikers head into the Nevada desert today on the way toward the East Coast while a third hooled along 95 miles back in California.

Sgt. Patrick Moloney and Mervyn Evans, starting from Ferry, Nev., 40 miles east of here, hope by nightfall to do another 40 miles to Lovelock.

Dr. Barbara Moore, 36, a physician and vegetarian, starting from Emigrant Gap high in California's Sierra Nevada, had only a couple of thousand feet to climb before crossing 7,135-foot high Donner Pass and starting the steep descent into Nevada.

All three hope to break the existing record of 73 days, 10 hours and 10 minutes set in 1926 for the 3,032 miles from San Francisco to New York.

The two sergeants set out from San Francisco a day ahead of Dr. Moore.

Has Hope for Summit
WASHINGTON (UPI)—President Alberto Lleras Camargo of Colombia has wound up a U.S. visit by expressing hope that something "very important for peace of the world" will result from the May summit meeting.

Car Tumbles on Tracks, Is Hit
5 Teens Escape Wreck
PACIFIC, Mo. (AP)—A car plunged over a 75-foot embankment and crashed onto railroad tracks below. Seconds later, a Missouri Pacific train smashed into the wreckage. But the five teen-agers in the car scrambled free just before the train plowed into it. All escaped with cuts, bruises and shock.

"It's unbelievable that they were not hurt any worse," said a physician at Washington, Mo., where the youths were hospitalized.

The driver told police he fell asleep at the wheel.

To convert Fahrenheit temperature to Centigrade, subtract 32 from Fahrenheit temperature and multiply by five and then divide by nine.

There were 3,967 independent telephone companies operating at the start of 1959 in the United States.

'Quoth the Husband, Nevermore' Just Ask About Lenore

By ABIGAIL VAN BUREN

DEAR ABBY: Last week while cleaning out the pockets of my husband's sport jacket I found a sil- ly valentine. It was a pic- ture of a cave- man hitting a cave woman over the head, and under- neath it said, "YOU SLAY ME." It was signed, "Lenore."

I asked Harold who "Lenore" was. He said, "Oh just some dizzy dame at the office."

Now, Abby, in all the 11 years we've been married I never once went through Har- old's billfold and I don't know what made me do it last night. Well, I found a little white card (the kind that comes with a gift) and on it was, "Love, Lenore."

I am heartsick. Should I ask Harold for a showdown when he comes home? Or should I pretend I never saw it? Or should I call Lenore and ask her how far this has gone? Please help me, Abby. I've never faced anything like this before.

HURT, HEARTSICK AND DISILLUSIONED

DEAR HURT: Tell Harold your intuition has been work- ing overtime and you'd like to know more about "Lenore." Listen quietly while he ex- plains. When he's finished you

will probably find out that Le- nore is just "some dizzy dame at the office."

DEAR ABBY: A friend of mine (male) gave me one of those wish-washy hand shakes and I told him that a hand shake with no more life in it than a dead fish was my pet peeve. So he grabbed my hand and crushed it so hard that he broke two bones in my finger. I slapped his face.

I didn't realize the damage he had done until I went to the doctor the following day and had it X-rayed. When I told him about it, he offered to pay the bill. Should I let him? He is married, but I am not.

DEAR DIANNE: Let him! If he doesn't slug him with your GOOD HAND.

DEAR ABBY: My husband and I have been watching the ads for movies in the news- papers, and are still waiting for a decent one to come along. They seem to be getting worse. The movies are vulgar, sug- gestive and indecent. And the advertising would make your hair stand on end.

We are no spring chickens but we worry about the young folks who see these ads and go to the movies.

Small wonder our juvenile courts are packed every day. Yet our PTA's are busy fund- raising to buy bicycle racks and gym equipment. How about PTA putting forth some effort

to get movies that are fit to see?

JUST DECENT FOLKS

DEAR FOLKS: It is not the function of the PTA to censor movies and their ads. It is up to the parents of children in the impressionable age group to exercise control over which movies their children see (as well as which books they read and with whom they associate). Not all movies are vulgar, sug- gestive and indecent. Some are wholesome, educational and in- spirational.

CONFIDENTIAL TO "HOW TO TELL HIM?" Tell him in English, and fast. It is easier to give back an engagement ring than a wedding ring.

"What's your problem?" Write to Abby in care of this paper. For a personal reply, enclose a stamped, self-ad- dressed envelope.

Oakland Nurses to Meet Tuesday

Oakland County District Nurses Assn. members will meet Tuesday at William Beau- mont Hospital.

George T. Daughters, direc- tor of the Detroit District Food and Drug Administration, will speak on "Food Facts versus Food Fallacies." The film "Fraud Fighters" will be shown.

A coffee hour at 7:30 p.m. will precede the meeting.

Pontiac YM to Hold 60th Annual Meeting

The Pontiac YMCA will hold its 60th annual meeting Tuesday at which eight directors will be elected.

The meeting will be a dinner affair, beginning at 6:30 p.m. at the Y building, 121 Mt. Clemens St. YMCA members will elect eight persons to three-year terms on the Board of Directors, officers of the Board, and four members to the Committee of Management of the Rochester branch.

Following the election, the group will hear John Nuveen, director of the Nuveen Investment Firm of Chicago. He recently completed a six-month tour of the Near and Far East. His topic will be "Palaces, Pagodas, Poverty, Temples, Tumble and Trouble."

A trustee of the University of Chicago, Nuveen is chairman of the

Science Popularization Conference Set at MSU

EAST LANSING (UPI) — A conference on new developments in science and how to communicate them to the general public will be held April 26 at Michigan State University.

About 75 journalists, public relations men and teachers were expected to attend.

Main speakers will be Paul Block Jr., president and publisher of the Toledo Blade and research professor of chemistry at the University of Toledo; Julius E. Johnson, director of agriculture research for Dow Chemical Co.; Michael Shiner, of the Columbia Broadcasting System, and Dr. Laurence L. Quill, head of the MSU department of chemistry.

Special Education Head Will Attend Convention

Paul Thams, director of special education in Oakland County, will attend the 38th annual convention of the Council for Exceptional Children of the National Education Assn. at Los Angeles April 19-23.

The theme of the conference is "Using Research and Experience in Educational Planning."

The program will feature three panel discussions, on supervision of teachers for exceptional children, on community programs for handicapped children, and on the emotionally disturbed child.

JOHN NUVEEN

National Advisory Committee of CARE and a member of the International Committee of the YMCA.

In the past 18 years, his principal interest has been in the field of foreign affairs. In 1957, he founded the Foreign Policy Clearing House in Washington and in June 1959 he was a delegate to the Atlantic Congress in London.

Nuveen is a director of the Chicago Council of Foreign Relations.

Persons planning to attend the meetings are urged to make reservations at the Y building as accommodations are limited.

What a Bump! Dazed, He Goes 70 Miles on Bike

EARLSTOWN, England (UPI) — Fred Harrison, 35, today blamed a bump on the head for a 70-mile bicycle ride.

Harrison hit his head so hard in a fall Friday that his wife urged him not to go to work. But he got on his bicycle and pedaled off to his job at the local railway station.

Harrison rode, past the station and out on the main highway. He pedaled steadily onward for five hours, while police, friends and wife searched all over Earlstown for him.

Harrison had gone 70 miles before he realized something was wrong. Bewildered, he contacted police in Church Street and was hospitalized.

Thief Took Liberties With His Hamburger

LYNDONVILLE, Vt. (UPI) — Clifton Witcher, 34, was charged with stealing three pounds of

hamburger from one store and then going to a store across the street and asking a clerk to wrap the meat. And then with stealing three more pounds of hamburger from the generous clerk.

Biscuits Bake Slowly in Firemen's Mixture

DALLAS (UPI) — Firemen recently found themselves making biscuits when they answered a

call at Mrs. Baird's Bakery. Battalion Chief I. D. Jones said a small blaze was underway in a flour bin and when water was poured on the flour "it formed the nicest little biscuit crust."

You see, Shell engineers and car manufacturers work hand in hand—a happy relationship that has led to many gasoline improvements. One of these is Shell's additive, TCP*, which neutralizes harmful combustion deposits. Discover how smooth your car can run—how far you can go on a gallon. Your Shell dealer is the man to see.

*Trademark for Shell's unique gasoline additive. Gasoline containing TCP is covered by U.S. Patent 2889212.

Kuenn's .353 Batting Traded for Colavito's 42 Homers

Tigers Give Up 'Hitter' to Get 'Slugger'

'59 Top Hitter Sacrificed for the 'Long Ball'

Deal Is Made on Eve of Detroit-Cleveland Opener Tuesday

DETROIT (AP)—The Detroit Tigers have parted with Harvey Kuenn, the American League's top hitter of 1959, to put more long ball punch in their lineup.

And the Cleveland Indians have given up the league's co-homers running, Rocky Colavito, hoping to convert Kuenn's staid hitting into a pennant. The biggest star-for-star trade in years came on the eve of the American League's 1960 opening.

Many baseball fans were surprised yesterday when they learned president Bill DeWitt of the Tigers had persuaded general manager Frank Lane of the Indians to give up the slugger Colavito in a straight player deal for Kuenn.

Colavito parked 42 homers last year and should do even better in Detroit's Briggs Stadium with its friendly left field wall only 340 feet from home. He had a .257 batting average compared to Kuenn's title winning .353. But Kuenn hit only nine homers.

"The home run is overrated," said Lane in explaining why he gave up one of the game's finest young power hitters for one of its more consistent hitters. "Look at the Washington club last year. They almost led the league in them last year and still finished last."

"I hated to let Rocky go, but I think our chances of winning the pennant are greater with a steady hitter like Kuenn in the lineup."

Lane had rejected the same deal just a few weeks ago.

DeWitt was delighted with his first major deal since becoming Tiger president after last season.

"I have a high regard for Kuenn's ability as a player," he said from his home in St. Louis. "But we felt we needed more power at the plate and we're hopeful this move will enable us to score more runs."

The trade did not surprise Kuenn, who was told about it by manager Jimmie Dykes in the Tigers' club house at Lakeland, Fla., where the club was winding up spring training. He had heard himself mentioned in Colavito trade talk for almost a year.

"That's baseball," Kuenn, who had played shortstop, then pitcher and finally right field for Detroit.

Colavito, a right fielder who drove in 111 runs last year for the second-place Indians, seemed disappointed. He said he hated to leave the Indians but promised to give a "100 per cent effort" for the Tigers.

The explosive Lane, a master juggler of baseball talent, now has parted with what most every one would agree was the heart of a team that finished only five games off the pace last season. He dealt his best pitcher, 19-game winner Cal McLish to Cincinnati, Minnie Miñoso batted .302 with 92 r.h.s., but Lane sent him to the Chicago White Sox.

With Woody Field's ailing shoulder a question mark, manager Joe Gordon could always return Kuenn to shortstop in a pinch. Gordon said he'd use Kuenn as a center fielder, Tito Francona in left and rookie phenom Walter Bonds in right. But if Field's shoulder kicks in, Kuenn would be right on hand to plug a gap that's plagued the Indians since the days of Lou Boudreau.

Kuenn is a 29-year-old spray hitter who won all-star recognition five straight years as a shortstop before he was switched to the outfield because of difficulty with ground balls. After a season in center, he was switched to right field last year.

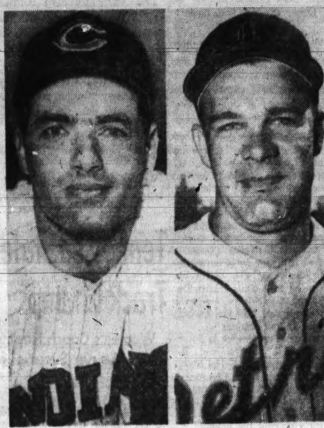

He has been a Detroit stand-out for seven seasons or almost since the day he stepped off the University of Wisconsin campus for a double beam. Kuenn's lifetime batting average is .311.

But the Tigers desperately need power — they topped the league in runners left on base last year — and Colavito should supply it. He has batted in almost as many runs in less than four full campaigns as Kuenn has in seven.

Colavito has hit 129 home runs in that time while Kuenn has only 42 in his big league career. But the lanky, black-browed Colavito has a lifetime batting average of .272.

He also possesses one of the most feared arms in the league. Kuenn's arm at best is mediocre. The Tigers are hoping for the same kind of quick dividend from Colavito as they got in their last swap with Cleveland. That came only last Tuesday when Detroit acquired Norm Cash for Steve Demeter.

Cash had been a big gun for the Tigers ever since.

SWAPPED — Slugger Rocky Colavito (left) and the hitting champ of the American League, Harvey Kuenn, will be in opposing uniforms when Cleveland and Detroit meet in the season opener tomorrow. Colavito, 26, hit 42 homers for the Indians last year. Kuenn batted .353 for the Tigers in 1959.

Jones Wants Crack at German Hurdle

FRIENDLY REST — Bob Friend, Pittsburgh Pirate pitcher, relaxes in the dressing room after pitching a four-hit 5-0 shutout over the Cincinnati Reds in the first game of a doubleheader yesterday. The Pirates also won the second game, 6-5, with a nine-run rally in the 9th inning.

No Player Is 'Untouchable'

DeWitt-Lane Think in Same Lines

From Our Wire Services

The thinking of Detroit Tiger president Bill DeWitt and Cleveland General Manager Frank Lane run pretty much in the same course.

When DeWitt came to Detroit to

run the Tigers he said "There are no untouchables on this club."

Lane doesn't have to make such a statement. His trades in the past have been proof of his feelings about making trades.

LAST AS INDIAN — Rocky Colavito is congratulated by Woody Field (left) after smashing a 350-foot homer in the second inning to lead the Indians to a 2-1 win over the White Sox in an exhibition game in Memphis, Tenn., yesterday. Minutes later he learned he was traded to Detroit for Harvey Kuenn and then bounced out in the 4th inning.

Rival Fans Buzz Over Big Trade

From Our Wire Services

DETROIT — The taverns and all-night restaurants, traditional gathering places for loyal fans in this baseball-conscious city, were buzzing last night over the trade that brought Cleveland's Rocky Colavito to the Tigers in exchange for Harvey Kuenn.

Word of the most dramatic swap the Tigers have made in nearly a decade spread like wildfire through the quiet Easter Sunday afternoon and almost immediately the Hot Stove debates were launched.

Most of the reaction among the fans was favorable. Although Kuenn was one of the popular players in recent Tiger history, it was generally felt that Detroit benefited by the trade.

Tiger fans, eagerly awaiting the home opener Friday, offered the following comments picked up at random:

"This guy (Colavito) can hit the big one. That's what counts."

"It's tough being a ballplayer like Kuenn. He's one of the best. But Rocky can bust a game in half with one punch. That's something you could never look for Harvey to do."

"You gotta trade somebody to get somebody. That's all there is to it. You can't get a guy like Colavito for nothing. I think it's a good deal."

"I hate to say anything. When it comes to trading, we're the biggest bums in baseball. But it looks like we pulled a good one this time."

"It's the best outfield in baseball now. How would you like to have under his belt what's piling up through Kaline, Colavito and Max Baer?"

But those against the trade were greatly outnumbered. Most of the Tiger fans, who have the habit of supporting a drab, second-division team as if it was fighting for the pennant, are looking forward to a summer filled with home runs in Briggs Stadium — Rocky Colavito home runs.

well three or four times in one day."

"It might even put us in the pennant race."

Then there were the dissenters:

"It's crazy. Kuenn is the best in the league. He's going to hit .400 one of these years. Just wait and see."

"Typical Tiger trade. Lou's."

"Oh well, back to the second division."

But those against the trade were greatly outnumbered. Most of the Tiger fans, who have the habit of supporting a drab, second-division team as if it was fighting for the pennant, are looking forward to a summer filled with home runs in Briggs Stadium — Rocky Colavito home runs.

CLEVELAND — "Frank Lane just threw away the pennant!"

That was the outraged comment of one Cleveland Indians fan after learning that the Indians' general manager had traded Rocky Colavito.

Reaction of fans to the trade sending the highly popular slugger to Detroit was mixed last night, but most was unfavorable.

The Cleveland Plain Dealer said its sports desk was swamped with telephone calls and predicted that the Kuenn-Colavito trade could "touch off the biggest mailstorm here since the beloved Lou Boudreau was sold by Bill Veeck" nine years ago.

Comment ranged from the terse remark of Gilbert E. Jensen, a former Cleveland bathboy, who said, "the trade stinks," to the tearful complaint of eighth-grader Carl Kiehl: "I belong to one of the Rocky Colavito fan clubs. It's all over. We're going to start a new one, the Lane haters."

A few, like Richard Ganim, approved. "They got rid of a bum fielder for a good ball player," Ganim said. "Colavito hasn't learned a thing in four years. He doesn't know how to run the bases or where to throw the ball."

"The him (Lane) to a boxcar and run him out of Cleveland," suggested William M. Scott.

George E. Shepley said he thought Colavito had not yet reached his full potential, "but Kuenn has seen his best days. One thing can be certainly said," Shepley added. "The fanbase of Cleveland have had their hearts broken."

George E. Shepley said he thought Colavito had not yet reached his full potential, "but Kuenn has seen his best days. One thing can be certainly said," Shepley added. "The fanbase of Cleveland have had their hearts broken."

On Tuesday, exactly seven days after the National League raised its 1960 curtain, all teams will open a full-scale drive for the ring currently held by the Chicago White Sox. According to most of the experts and the betting ring in Las Vegas, this figures to be a waste of effort by all but the White Sox, New York Yankees and Cleveland Indians.

Although probably aware that the Senators and Red Sox have been picked to finish eighth and seventh, respectively, some 28,000 hopefuls were expected at Griffith Stadium to see the winner take over undisputed possession of first place.

Camilo Pascual, who turned in an incredible pitching feat last year by winning 17 games for the Senators, was expected to lead the Senators.

Early Wynn (22-10), the venerable, 37-year-old Red Sox right-hander, will start his 20th big league season. He will be opposed by southpaw Bud Daley (16-13). The Sox will show new faces in third baseman Gene Freese and outfielder Minnie Miñoso, although the latter is serving his second hitch with the club. Kansas City first-innings include Hank Bauer, Norm Siebern and rookie shortstop Ken Hamlin.

Expected good weather figures to limit attendance in Boston's Fenway Park to about 22,000 for the clash between the Yankees and Red Sox. With Whitey Ford not fully recovered from the shock of last year's bombing, the Yankees' opening day assignment will be to young Jim Coates (6-2). Another right-hander, Tom Brewer (11-12), is Red Sox Manager Billy Martin's choice.

The Yankees will have only one new face in the starting lineup—left fielder Roger Maris. The Red Sox may have several interesting newcomers, including outfielder Bobby Thomson, who excels in closing games of the season. Rookies Lou Clinton, an outfielder, and Haywood Sullivan, a catcher, may break into the opening day Red Sox lineup.

Young Jerry Walker (11-18) sets Manager Paul Richards' record in Baltimore's season at Municipal Stadium before approximately 30,000. The Senators will have the Orioles set under way. Pedro Ramon (13-19) will do the pitching for Washington.

Orlino Falls will get their first look at center fielder Jackie Brandt for whom the club was open to pitchers Billy O'Dell and Billy Lee last winter. Also in the starting lineup will be the rookie keystone star of Ronnie Hansen and Marv Breeding. Hansen, the flashy fielding shortstop, has been up before. It is the first time for Breeding.

I know this isn't fancy golf advice. But it sure is sound golf advice—always has been, and always will be.

War Hero Has X-Rays

WASHINGTON (UPI)—Korean War hero Maj. Gen. John H. "Mike" Michalski was reported in satisfactory condition today while undergoing x-ray treatments at Walter Reed Army Hospital for a malignancy in his throat.

Korean Youths Battle Police

Students Again Protest Alleged Election Fraud in Rhee Victory

SEOUL, Korea (UPI)—Thousands of students clashed with police in the cities of Seoul and Tongnae today in a fresh protest against an alleged fraud in the election which returned President Syngman Rhee to power in South Korea last March.

At least 50 students were arrested by police here and in Tongnae, which lies near Pusan at the southern end of Korea.

By nightfall, 10,000 persons were suffering in the plaza near City Hall and 4,000 students started a sit-down demonstration at the National Assembly Building.

Korea University President Dr. Oh Chin Yoo appealed to the students to break up their protest, but they shouted him down.

In the melee near City Hall, police were reported to have beaten up a Korean newsreel cameraman.

Mrs. Aadland Reports Theft of \$22, Papers

HOLLYWOOD (AP)—Beverly Aadland's mother says she found her apartment burglarized when she returned from jail.

Florence Aadland, 46, told police she believed a man who entered her apartment Thursday shortly before her arrest took \$22, personal papers and pictures of her daughter and the late Errol Flynn.

'We're Existing and Have No Regrets'

Winter Tough for Last 10 of 'The 59ers'

By PAUL QUINN
TALKEETNA, Alaska (UPI)—Ten doughty Michigan pioneers who have stuck out the long winter in the Alaska bush summed up their condition today in two words: "We're existing."

The 10 are all that are left of

arrived in Alaska 13 months ago to carve out a new life for themselves. But these 10, including a 20-month-old child, are determined they are going to make it.

"It's going to take a lot more of a group of 42 homesteaders who than cold and snow to get me off my land," Marine Sik said.

"We're existing and I have no regrets at all," Sik, his wife Carol, and their 20-month-old daughter, have just finished laying a floor in their log cabin. They didn't have a floor during the winter.

Sik was a repairman for a gas company in Detroit and also was

a deputy sheriff in Wayne County before coming to Alaska as one of the group calling themselves "The 59ers."

To START GARDEN
"I've just finished a grain house and we hope to start on our garden as soon as the two feet of snow goes away," he said.

In addition to the three Siks, there remaining are Bill Orzechowski, 43, a former plumber; Raymond Kulu and his wife and 14-year-old son; Harry Donaldson and his wife Bertha, and Eric Eckman.

Many of the 59ers just up and quit, leaving Alaska to return to Michigan. Some of them still are in Alaska, but have moved to more civilized areas, working steady jobs.

The winter was tough for the 59ers who stayed in the wilderness. Snow surrounding their partially completed cabins and lean-tos reached four to five feet in depth. The temperature dropped as low as 25 degrees below zero.

It was the weather and lack

of modern facilities that discouraged most of the others.

"We only had two days that really got cold," Sik said. "I've spent many a winter in Detroit that was colder."

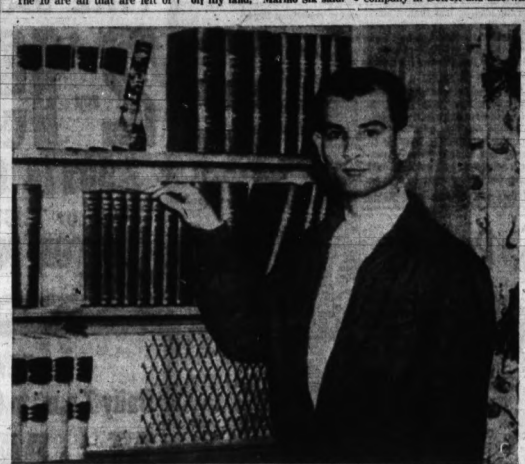

"One thing that grates me is that I can't hunt legally. I still have to raise the 20 bucks to buy an Alaska hunting license," Sik's homestead consists of a couple of acres of land.

He started out with a lean-to and a trailer but now he has his flat-roofed log cabin affair with an oil stove.

His livestock includes 10 chickens, a cow and two horses. While the Susitna River is still frozen, he is able to ride one of the horses across the ice 10 miles to this town to purchase supplies.

But when the ice goes out, which won't be long now, he and his family, as well as the other seven homesteaders, will again be dependent on bush pilots to fly in supplies, render emergency assistance or just be emergency.

"We expect to have our living quarters finished and ready to live in this summer," Sik said. "I'm going to try and grow more hay for cattle too."

'ARABIAN NIGHTS' PRINCIPAL — Maurice Hamilton, convicted four years ago for the murder of Detroit grocer Azzi Hermin Haisla, in the "Arabian Nights" case, works in the library at the Michigan Reformatory at Ionia. The State Supreme Court last week reversed his Record's

25 Ships Wait at Seaway Lock

Second Season Will Open Today; Lemoyne to Lead Way

MONTREAL (AP)—Some 25 ocean and Great Lakes ships waited at the St. Lambert lock west of Montreal, the opening day of the St. Lawrence Seaway's second season.

The 10,480-ton Lemoyne, a veteran freighter of the Canada Steamship Lines, was to lead the parade into the 133-mile waterway.

"The first day will be as busy as last year, but it won't continue that way," Seaway Supt. René L'Heureux said.

Last year some 60 ships were waiting when Queen Elizabeth II and President Eisenhower opened the deep-water route to the Great Lakes with ceremony and pageantry. Because of inexperienced crews on the locks and ship cap-

Escapes Prison Cell; Drink His Downfall

SIOUX FALLS, S.D. (UPI)—William Miller, 25-year-old convicted forger, escaped his prison cell and—unable to get outside the walls of South Dakota Penitentiary—eluded capture within the prison for two days, it was reported today.

He was finally caught when he couldn't stand going without water any longer and dashed from his hiding place toward a prison yard water fountain.

See Court Test on Leaflet Law

Arrest of Students in Ann Arbor May Be Start of Attempt

ANN ARBOR (UPI)—The arrest of 15 University of Michigan students for passing out leaflets during a demonstration protesting southern segregation practices was expected to provide the first court test of a city ordinance, police said today.

The incident closely resembled a 1956 U.S. Supreme Court case, several observers noted.

Chief Det. Dwayne Bauers said several students indicated when they were seized Saturday that they wanted to be arrested so they could make a court test of the city ordinance which bans the distribution of leaflets.

Bauers said the ordinance was viewed primarily as an anti-litter weapon to cut down the strewn of advertising leaflets on city streets.

A spokesman for the pickets said the leaflets were not advertisements, but informative literature about the purpose of the demonstration, which he contended was not a violation of the ordinance.

Police emphasized the students were not arrested for the content of the leaflets but for distributing them to passersby in front of three chain variety stores and a local women's apparel shop.

A baby sitter is a young girl who gives up her TV set and telephone to come over and use yours.

Unusual Music Brings Memories of Yesteryear

NEW BRUNSWICK, N.J. (UPI)—Anthony Longo and Joseph Knapp came across an 1892 music box at an odds-and-ends retail shop. They bought it—and then saw an advertisement for another similar item.

They bought it—and so on until now they have 35 different types of the turn-of-the-century music boxes of a six-foot tall polyphonic, made in Leipzig in 1899, to a wall painting music box made in Paris in 1908.

"This is simple music," Longo explains, "and brings back memories of yesteryear. We can sit back and listen to it for hours and not get tired."

A dry cell has been developed to work efficiently in temperatures recorded as low as 20 below zero.
