Governor Crowns Utica Queen

Pontiac Press Photo

PLEASANT TASK — One of Gov. John B. Swainson's vote-getting stopovers yesterday was Utica where he crowned Irene Heydens, 17, queen of Utica Lions 16th annual Fourth of July celebration. Because of this and other traditional commitments in the area, he missed a session of the Governors' Conference which climaxed with a speech by President Kennedy in Philadelphia yesterday. Other pictures on Page 17.

Thousands Jam Area Parks

3 Drown in County Lakes

Boat Flip-Flops, Throws Pontiac Man Into Lake

No Fatal Car Crashes in Oakland Area Over One-Day Holiday

Three persons — one of them a nonswimming Pontiac man whose "overpowered" boat capsized on Little Silver Lake—are dead as the result of Fourth of July drowning mishaps in Oakland County.

Although no fatal automobile accidents were reported during the 30-hour holiday period in this area, the Independence Day drowning toll was among the worst in the county's history.

An estimated 97,000 persons jammed Dodge Park No. 4, Kensington Park and Bloomer State Park. Thousands more crowded into state recreation areas and beaches throughout the county.

Dead are Raymond O. Ross, 47, of 435 E. Walton Blvd., and two Detroit men, John LaMothe, 46, and Chester P. Bojanczyk, 44.

The fatal water accidents occurred within three hours yesterday evening.

Toll in '62 Oakland Drowning

10

Last Year To Date 10

Only quick action by two Pontiac men saved Rose elderly mother, Mrs. Nell (Sylvia) Ross, from drowning with her son on the small lake which borders Pontiac and Waterford Township.

Sheriff's deputies said William C. Redmon, 216 W. Fairmont, and Clarence Roston, 573 Harvey St., pulled Mrs. Ross from the 40-foot deep water after she had gone under three times.

Redmon, who was in a boat about 500 feet away, told deputies

RAYMOND O. ROSS

Revives Boy Pulled From Lake Neva

A White Lake Township man used mouth-to-mouth respiration he learned only two days earlier to revive a 4-year-old boy pulled unconscious from Lake Neva yesterday.

Howard Compton, 37, of 7016 Biscayne Road, is credited by White Lake Township firemen with saving the life of Denion K. Waller, son of Mr. and Mrs. Roe Waller, 2609 Wilhelm St., Southfield.

Compton and other lake residents had received instructions on the life-saving method from the Detroit Edison Co. Monday.

The youngster and his parents were visiting Compton when the accident occurred.

The boy was playing in the lake with several other children in footdeep water when he stepped into a four-foot drop-off.

The other children pulled him from the water and their screams brought Compton to the scene.

Compton gave mouth-to-mouth resuscitation to the boy. When the White Lake Township fire department arrived the child was breathing.

Firemen gave the boy oxygen. He was taken to Pontiac General Hospital where his condition was listed as satisfactory today.

143 Killed in Traffic for July 4th Record

Traffic	143
Boating	15
Drowning	54
Miscellaneous	36
Total	248

★ ★ ★

BY THE ASSOCIATED PRESS

Traffic accidents killed a record 143 persons during the nation's 30-hour observance of Independence Day.

The death count on the nation's streets and highways exceeded the one-day Fourth of July holiday record set in 1956, the last year when a one-day observance was held.

The National Safety Council estimated earlier that during the holiday period from 6 p.m., Tuesday, to midnight Wednesday the traffic toll would fall somewhere between 110 and 150.

It also said that nearly all of the country's 76 million cars would be on the go.

The country's over-all accident death toll was 248. It included 15 deaths in boating accidents, 54 drownings and 36 deaths in miscellaneous accidents.

Howard Pyle, president of the National Safety Council, termed the record toll tragically high.

"We can only draw one conclusion from this needless waste of human life—drivers are failing to observe basic rules of common sense and courtesy," Pyle said.

"There have been no reports of any unusual circumstances which could have led to this high toll.

"Therefore, it appears that most of the drivers committed one or more of the four mistakes which account for nearly 75 per cent of all traffic accidents—drinking and driving, driving too fast for conditions, driving left of center, and failure to yield the right of way."

Ex-GM Executive Dies

MANHASSET, N.Y. (AP)—August Freise, 69, retired executive vice president of General Motors Acceptance Corp., died Tuesday.

Kennedy Names Envoy to Soviet

Foy D. Kohler, State Dept. Aide, to Succeed Llewellyn Thompson

WASHINGTON (AP) — President Kennedy today chose Foy D. Kohler, assistant secretary of state for European affairs, to succeed Llewellyn E. Thompson as ambassador to the Soviet Union.

Thompson has represented the United States in Moscow for just over five years.

The White House said Thompson would return to the United States for reassignment in the State Department.

Kohler, who has been in the foreign service since 1931, became assistant secretary for European affairs in December 1959—a month before Kennedy took office.

Kohler speaks Russian. He accompanied Kennedy and Secretary of State Dean Rusk to Europe last year, when the President met Soviet Premier Krushchev, French President Charles de Gaulle and British Prime Minister Harold Macmillan.

JFK Huddles With His Top Economic Aides

President Likely to Face Questions on Tax Cut in News Session

WASHINGTON (AP)— President Kennedy conferred for an hour today with his top economic lieutenants before facing a news conference where the possibility of quick tax reduction was likely to be a big question.

Secretary of the Treasury Douglas Dillon told newsmen as he left the White House they discussed "just economics," but admitted this covered a broad field.

Also in the huddle were Chairman Walter W. Heller of the President's Council of Economic Advisers and the two other council members, James Tobin and Kermit Gordon.

Dillon brought with Undersecretary of the Treasury Robert V. Roosa, who is responsible for problems of managing the national debt. He would be deeply involved if the President bowed to labor and business pressure for tax reduction as a business stimulant, because tax-rate reduction would mean a huge federal deficit and more government borrowing.

There was no indication, however, from the Treasury officials or the economists whether their canvass of economic developments in June indicated a weakening of economy which might persuade Kennedy to call for prompt rate reduction.

The President's position, stated at his last news conference, was that the government would watch economic trends closely and form its judgment in the light of business developments.

Meanwhile it would proceed with Kennedy's announced plan to submit a massive rate reduction and tax-reform package for action by Congress early next year, effective as of Jan. 1.

Saskatchewan Dentists Consider Joining Strike

From Our News Wires

REGINA, Sask. — Saskatchewan dentists were reported today to be considering joining the province's doctors in a strike against the socialist government's controversial medical care program.

The Saskatchewan College of Dental Surgeons called a day-long meeting here for tomorrow to decide what move the dentists would make. A spokesman said dentists from throughout this wheat province would attend.

Dr. W. L. Clark, president of the college, said the dentists "definitely are against the government's medical care plan and there is a definite possibility they may join the doctors' strike."

Dentists are not directly involved in the medicare plan which went into effect and started the doctors' strike July 1, because it excludes provision of dentures, drugs and eyeglasses. But they are called on to perform duties such as jaw operations in accident and other emergency cases.

Meanwhile, the threat of violence was injected into the strike of Saskatchewan doctors against the government's compulsory medical care program. Tempers grew short as more doctors reportedly were moving out of the province.

As the government program and doctors' strike moved into the fifth day, each side sought to marshal public support. Neither side showed any sign of backing down.

The doctors stuck to their demand that Provincial Premier Woodrow Lloyd's Socialist government do away with the compulsory feature of the program.

The government refused to budge and claimed the medical care situation was apparently under control. Deputy Premier J. H. Brockelbank declared there "appears nothing in the nature of panic and alarm."

But in the western Saskatchewan town of Swift Current, police guards were posted at the homes of two doctors after an organization calling itself the "Swift Current Citizens Safety Committee" threatened the doctors and their families.

The threats, in letters to the town's weekly newspaper and a radio station, ordered the doctors to get down from their "chosen pedestal" and return to normal practice by Friday morning. Otherwise, the letters warned, the doctors would "suffer such harm to themselves, their families or their property as the organization may deem fit."

The letters said the threats were "no more ruthless than the situation the doctors have subjected the people to in a callous disregard for health and safety."

Ironically, the letter had the effect of taking the doctors out of service. Both had been on emergency duty at Saskatoon's St. Paul's Hospital, one of 34 centers set up to provide free treatment until normal medical services are resumed. After the threats, the doctors returned to Swift Current to move their families.

In Regina, Police Chief A. G. Cookson would neither confirm nor deny reports that police were closely guarding the legislative buildings for fear of violent demonstrations.

In Saskatoon, Hans Taal, vice-president of the provincial Keep Our Doctors Committee, said a mass demonstration is planned in front of the legislative buildings later this week to demand the repeal of the government program.

But Bert McKay of Moosomin, president of the committee, said that "in a measure, we have lost the battle" because doctors already were leaving the province to practice elsewhere.

Straley Signs City Agreement

Action Expected to End Long Dispute With Former Police Chief

Former Pontiac Police Chief Herbert W. Straley has signed an agreement with the city which is expected to end a four-year dispute between himself and city officials.

City Attorney William A. Ewart disclosed that the pending agreement, being negotiated since May, was returned to him signed by Straley late Tuesday.

"With a few minor changes, it is essentially the same agreement that was called for by a City Commission resolution May 22," Ewart said.

The city attorney refused to spell out any details or discuss the content of the agreement "until it is placed before the Commission at next Tuesday's meeting."

ORDERED PAYMENT

The Commission resolution ordered that Straley be paid for 48 vacation days, 181 compensatory days and 89 sick leave days he claimed were owed him when he was fired by former City Manager Walter K. Willman in June 1960.

It also specified that these days be added to Straley's total service credit, thus qualifying him for a pension.

However, the Commission document pointed out that "this settlement shall not be made unless a signed release is submitted by Mr. Straley acknowledging full and complete settlement of his claim."

Straley, now in the real estate business locally, said he had no comment on the agreement today.

It was estimated the back pay would total about $12,000 and Straley would get roughly $9,500 after tax and retirement deductions.

Ewart said he would have given the agreement to commissioners at this week's meeting "but that would have violated a resolution passed a week ago that we don't add items to the agenda after it's prepared Monday afternoons."

Cloudy Skies but No Showers Seen for Tonight

Skies will be partly overcast tonight but no showers are in sight. Friday will be fair with a high of 82.

Tonight's low will be about 64.

Mostly fair and warm is the prediction for Saturday.

Morning easterly winds at 1 mile per hour will become 8 to 12 m.p.h. late today and east to northeast tonight and Friday.

HELL, Mich. (AP)—The U.S. Weather Bureau has approved an official weather station for Hell. It will be set up in about two weeks. Now we'll all know how hot it is there.

Sixty-three was the lowest recording in downtown Pontiac prior to 8 a.m. The reading at 2 p.m. was 89.

News Flash

WASHINGTON (AP) — Employment rose sharply in June to a record 69.5 million but the usual school's-out surge of teen-agers into the labor force sent unemployment up by 744,000 over last month.

1-75 Star of Oakland's Great New Production

PATH OF PROGRESS — One of Oakland County's favorite "road" pictures stars neither Crosby nor Lamour, although it does promise "hope." The picture, instead, portrays the graceful, seemingly relentless rush of a great and bold new highway from Pontiac toward the northwest — the I-75 freeway. Unbounded yet by the rigid definition of carefully laid concrete, I-75, a narrow light-colored strip, poses in this unique aerial view by pilot-photographer Homer Tinney. Photographer Tinney, 6230 Elizabeth Lake Road, Waterford Township, snapped the picture while on a Pontiac Press reconnaissance mission aimed at capturing on film the highlights of progress in the Pontiac area. This view traces I-75s winding way from Walton Boulevard (bottom left) to a point beyond Baldwin Road (top) some four miles away. When completed in October, this Oakland County link will hook up at both ends with other sections of I-75. Altogether, some 40 miles of I-75 will be built within county boundaries. The entire freeway will extend nearly 400 miles from Toledo to Sault Ste. Marie.

U.S. Tells of New Warhead Lock

WASHINGTON (AP) — President Kennedy asked Congress today to appropriate $23.3 million for an electronic lock to reinforce safeguards against accidental or unauthorized firing of nuclear weapons.

WASHINGTON (AP)—The United States has informed its European allies of the successful development of a new, secret electronic lock which will be used to reinforce safeguards against the accidental or unauthorized firing of nuclear weapons.

★ ★ ★

President Kennedy is expected to ask Congress soon for an appropriation of funds to complete work on the device, start manufacture and begin installation in nuclear weapons.

The Allies were told through the North Atlantic Treaty Organization, it was learned, that the new electronic lock will broaden the margin of safety in nuclear weapons control systems and strengthen the exercise of direct control over weapons by top commanders. U.S. officials said the development of increasingly secure control systems becomes more important as the number of weapons increases.

FOR LARGER WEAPONS

The locking device is already perfected for the larger nuclear weapons such as those warheads deployed in the European NATO area for use on medium range ballistic missiles. According to present plans the first operational use of the device will be in the forward missile deployment area.

The device is authoritatively described as an electromechanical system controlled by a radio signal to be sent from a command headquarters remote from the actual missile site.

★ ★ ★

In effect, the device in its normal position makes a break in the electrical circuit necessary to the firing of the nuclear warhead. It couldn't be fired until an authorized commander dispatched the necessary coded radio signal that would operate the device. The device itself would not do the firing but it would control the arming of the warhead. This is comparable to cocking a rifle in advance of firing it by pulling the trigger.

Associates said that like his predecessors in the White House, Kennedy has put heavy emphasis on the need to surround nuclear weapons with a variety of safeguards.

The degree of security with which weapons can be surrounded has been a source of concern to many governments—not only the United States and its Allies but also Soviet bloc and neutralist nations. In the long run U.S. officials believe that the employment of the electronic device as now contemplated will serve to reassure a number of nations about the extent of control which can be exercised over the weapons.

Another aspect of the device is particularly interesting to allied governments.

★ ★ ★

The possibility of arming a warhead only by a coded radio signal sent from Supreme Command headquarters could simplify the procedures involved in creating a NATO nuclear command system.

At present the United States stockpiles nuclear warheads at medium range ballistic missile sites in several allied countries, including Italy and Britain, and nuclear weapons of various kinds are available to American forces stationed in Western Europe.

★ ★ ★

Set N-Shot Over Pacific in Spite of 'Mystery Ship'

HONOLULU (UPI)—The United States will make its third attempt to explode a rocket-borne nuclear device 200 miles over Johnston Island tonight — despite reports that a mysterious ship may be operating in the test ban area.

The coast guard announced yesterday that the unidentified vessel, which falsely acknowledged Coast Guard identification, was seen inside the 530-mile danger area early last Friday.

Joint Task Force 8 (JTF8) announced that everything was "go" at Johnston Island for the megaton shot between 11 p.m. MST today and 2:30 a.m. MST tomorrow (4 a.m. to 7:30 a.m. Pontiac time Friday).

Two previous attempts last month ended in failure, when malfunctions forced JTF8 officials to destroy the Thor rockets and their warheads without a nuclear explosion.

★ ★ ★

Tonight's shot had been originally scheduled for the Fourth of July, but unfavorable weather conditions forced a 24-hour delay. Rain squalls swept the sandy atoll yesterday morning, but test officials were hopeful the weather would be satisfactory tonight.

The mysterious vessel in the test ban area was contacted at 8 a.m. Friday by the Coast Guard tender Ironwood, which followed the pacifist protest ketch Everyman II into the fringe of the ban area.

Crewmen aboard both the Ironwood and the Everyman II reported they spotted the lights of a ship approaching from the east and heading into the test area.

ASSUMED COAST GUARD

The Ironwood, aware, that the Coast Guard cutter Matagoda was steaming for a rendezvous to deliver a federal court order to the Everyman, assumed the vessel to be the Matagorda.

In a blinker message addressed to the Matagorda, the Ironwood warned of the proximity of the nuclear protest ketch. The mystrious vessel acknowledged the receipt of the message by blinker and continued on her westerly course without identifying herself.

A subsequent check revealed the Matagorda was some 90 miles away at the time of the sighting.

★ ★ ★

Two Russian "hydrographic" ships reported in the nuclear test ban area around Johnston Island have been under surveillance by units of the Pacific fleet.

Timber Fire Cuts Holiday at Area Park

A fire, possibly started by careless picnickers, destroyed an estimated five acres of timberland and cut short holiday outings for some 2,000 persons yesterday at Bloomer State Park No. 3.

★ ★ ★

In another mishap, a Detroit man suffered burns when he tripped over a barbecue fire and spilled hot grease on his back, according to Oakland County Sheriff's Deputies.

The victim, Charles Eckert, 50, was treated and released at St. Joseph Mercy Hospital after the accident at Homestead Park in Commerce Township.

The blaze at Bloomer Park in Brandon Township broke out shortly before 2 p.m. Deputies said the crowd of picnickers in the area of the fire left in orderly fashion.

★ ★ ★

The Brandon Township Fire Department, assisted by the Independence Fire Department, contained the blaze in an area of about five acres of 25-foot high pines, deputies said.

★ ★ ★

A Flint woman, Mrs. Willis F. Stanke, told authorities she saw a man, woman and two boys about 12 years old start a fire in the area and then leave hurriedly before putting it out.

2 Blondes Win Miss Michigan Preliminaries

MUSKEGON (AP) — Eighteen-year-olds from Roscommon and Elkton last night won preliminary trophies and points toward the Miss Michigan crown which will be bestowed here Friday.

★ ★ ★

Miss Roscommon is Carole Jean VanValin, a five-foot-five, blue-eyed blonde of 115 pounds who won the swimsuit trophy.

Miss VanValin measures 35-23-35.

Miss Elkton is Audrejean Bauman, who sang and played the piano to win a $150 scholarship and the talent award. Miss Elkton is an ash blonde with hazel eyes.

★ ★ ★

Another preliminary round in the competition is scheduled for tonight.

Violence Sweeps Downtown Oran

Raging Battle Between Moslems, Europeans Kills or Wounds 100

ORAN, Algeria (AP)—A raging gun battle between Moslems and Europeans swept downtown Oran today. Hospital attendants said more than 100 persons were killed or wounded.

★ ★ ★

In midafternoon, more than three hours after firing broke out, shots were still heard but the fighting seemed to be slackening off.

Employes of the city's main hospital said more than 100 dead or wounded had been brought in, but could give no precise figure for either.

MUM ON FIGURES

Doctors worked over the wounded and would not make comment on the number of Moslems and European injured or dead.

The swift and bloody outburst of fighting, the first major incident since the country became independent Tuesday, risked plunging Algeria into chaos.

★ ★ ★

It came as thousands of joyous Moslems were parading and chanting slogans of their new-born state. Suddenly, witnesses said, gunfire crackled from windows of European apartment houses overlooking the Place Foch, main square of the city. Then Moslem police quickly returned fire and the battle was joined.

APPEARED OVER

The shooting appeared to have stopped in the center of the city by late afternoon.

Truckloads of French troops and armored vehicles patrolled Oran. At least one carload of Moslem soldiers also was seen speeding along deserted streets.

★ ★ ★

The body of a European worker still lay in the gutter near the Grand Hotel, 4½ hours after he was killed.

To Cycle to Seattle; 'Got Tired Studying'

It'll be a long trek to the Seattle World's Fair for Fred Ebey, 22, of Waterford Township, who today started bicycling from Minneapolis, Minn. to the West Coast. The round-trip distance is 4,500 miles.

Ebey is the son of Mr. and Mrs. Glenn F. Ebey of 4125 Lannette Drive.

He graduated from Northwestern College of Minneapolis this June and decided to make the trip with another Northwestern student Jim Molkenthin, 20, of Minneapolis.

"They were just tired of studying," his mother said today. "He's just got his bachelor's degree in English, and I think he may be a teacher when he gets through bicycling."

Fred is a husky six-footer who graduated in 1958 from Waterford High School.

He said the pair would carry "30 pounds of luggage each — including a pup tent, sleeping bags, canned food and clothing.

Crisis, Strike Trouble Brazil

New Prime Minister Resigns Too Late to Halt General Walkout

BRASILIA, Brazil (AP)—A general strike virtually paralyzed Brazil today amid a new governmental crisis touched off by the resignation of conservative Prime Minister Aura de Moura Andrade.

★ ★ ★

Army units and police were on the alert in Rio de Janeiro and other large cities as labor leaders ignored presidential appeals and pressed their campaign for a prime minister to be chosen from the Labor party.

CAME TOO LATE

Andrade quit Wednesday night after only 36 hours in office. Labor leaders said the resignation came too late to cancel the strike call but promised to confer with government officials later today.

★ ★ ★

The strike forced the cancellation of all airplane flights in Rio de Janeiro and all public city and interstate buses were halted.

ANNOUNCES MOVE

President Joao Goulart's office announced Andrade's resignation in a communique that said Andrade found it impossible to form a cabinet and bowed out. The president and his short-term prime minister were reportedly at odds on a choice of navy and air force ministers.

★ ★ ★

Goulart's left of center Brazilian Labor party and conservative forces, that include Andrade's social Democratic party, have been clashing since the crisis began to develop June 26.

★ ★ ★

Goulart and some elements in Congress also are feuding over how much power the legislative and executive branches should have.

U.S. Readies Biggest Bomb

Mightiest Blast Yet Set for Tomorrow or Later; Packs 100-Kiloton Jolt

LAS VEGAS, Nev. (AP)—Beneath a scrubby desert flatland 65 miles northwest of Las Vegas the United States plans to touch off the mightiest atomic blast ever triggered in this country.

The Atomic Energy Commission said the underground explosion with a force of 100 kilotons will be set off tomorrow or later. It will be part of the plowshare program designed to probe possible peaceful uses of nuclear energy.

An announcement yesterday said the explosive will be 650 feet below the surface of the Nevada test site. The blast is expected to send a cloud of dust visible for miles into the air, leaving a crater a third of a mile in diameter and 300 feet deep.

★ ★ ★

The current shot will be the second in the plowshare series. The first was detonated last December at Carlsbad, N.M., and was rated at only three kilotons. It was open to news media but the latest, called Project Sedan, will be closed the AEC said, because of nuclear weapons testing at the Nevada site.

The largest previous atomic explosion in the U.S. had a force of 74.3 kilotons and was set off in the air above the Nevada site July 5, 1957.

Parks Are Jammed; 3 Drown in County

(Continued From Page One)

Ross was operating the boat from the rear and Mrs. Ross was sitting up front.

About 6:30 p.m., Redmon said the front of the boat went skyward and the rear took on water as Ross accelerated.

It capsized, throwing both occupants out. Witnesses said neither could swim.

Both Redmon and Roston, who was about 1,000 feet away, headed for the spot. They managed to pull Mrs. Ross into the boat but were unable to reach her son in time.

MOTOR TOO POWERFUL

Deputies said the 12-horsepower motor was too powerful for the 11-foot, 8-inch long plywood boat in which they were riding.

Ross, was single and employed at Fisher Body Division. He lived with his widowed mother.

His body is at the Sparks-Griffin Funeral Home.

Bojanczyk, according to deputies, drowned about 4 p.m. when he attempted to swim to the aid of two women and a boy thrown from a canoe which overturned at Proud Lake in Commerce Township.

Gary Ramell, 12, Redford, told officers he saw Bojanczyk go down in 20 feet of water about 75 feet from shore.

The Ramell youth said he swam out, grabbed the drowning man by the feet, but was unable to hold him above the water.

The occupants of the overturned canoe, Mrs. Rosalie Schroeder, 32, 80 W. Dallas St., Madison Heights; Mrs. Donna L. Wilson, 28, and her 5-year-old son Mickey, managed to stay afloat until help arrived.

LaMothe went down about 5:30 p.m. while swimming alone in an apparent attempt to swim across Square Lake in Orion Township.

His body was recovered in 30 feet of water about 150 feet from shore opposite Kelly's Park.

Homer Kelly, the park owner, rowed out to aid LaMothe when he saw the man go down.

However, Kelly told police the water was too deep and he was unable to find the victim.

His body was recovered by Jack Coleman, a Lake Orion fireman.

The Day in Birmingham

Attorney Campaign Chief for Roberts and Hogan

BIRMINGHAM — Re-election campaigns for two incumbent Oakland County legislators will be under the leadership of a Birmingham patent lawyer.

★ ★ ★

Dale A. Winnie, of 135 Chewton Road, Bloomfield Township, has been named campaign director for Sen. Farrell Roberts and 3rd District Rep. Henry Hogan Jr. both candidates are Republicans.

Winnie, a lawyer and engineer, is a graduate of Notre Dame and Wayne State Universities. He has served as a precinct worker, county and state delegate and executive council member for the Republican Committee of Oakland County.

Before the Aug. 7 primary election, Winnie undoubtedly will concentrate on Roberts' campaign. The senator is facing a two-sided challenge to his bid for nomination from Republicans Richard Kuhn and Robert Huber.

TO FACE FOLEY

Hogan, unopposed for the GOP primary nomination, will face Democrat John F. Foley of Birmingham in the November general election.

★ ★

Following his appointment, Winnie announced.

The state needs Romney, Roberts and Hogan and we're going to have them."

"Senator Roberts' and Representative Hogan's conscientious work in Lansing is well known and applauded by every Republican and discerning Democrat," he said.

"It will be a pleasure to sound their praises from the highest rooftops."

Rev. Robert D. Baynum has been named minister of parish life at the First Presbyterian Church. He will begin his duties July 15.

His responsibilities will be in evangelism, counseling, hospital visits and senior activities.

Following his graduation from the Princeton Theological Seminary, he served in various ministerial positions in Pennsylvania, Virginia and Missouri.

Birmingham teacher Hilda M. Richards will represent Michigan at the 19th annual conference of the National Department of Classroom Teachers to be held July 8-20 at Western State College, Gunnison, Colo.

The annual convention of the largest department of the National Education Association is expected to attract thousands of educators throughout the country.

The two-week conference will focus on such topics as conservation in the 60s, reading skills, professional problems, aerospace defense of North America and Colorado history, natural resources and development.

Romney Allows Son to Make One Speech

HOWELL (AP) — Republican gubernatorial candidate George Romney put in a busy day of handshaking and speech-making yesterday and left one speech to his 15-year-old son, Mitt.

Romney shook hands along a parade route in Wyandotte and rode in a parade in Northville, but he had to leave quickly for an appearance at a barbecue here.

Mitt took the stand and apologized for his father having to leave because of commitments. Then he rushed off to join his father.

Motorist Gets 38 Tickets in 12-Mile Chase

PHILADELPHIA (AP) — Policeman William Fritz handed a motorist 38 traffic tickets Wednesday after a 12-mile high-speed chase.

★ ★ ★

The driver, Edward Niehaus, 21, was held in $500 bail after he was charged with dousing his lights to conceal his car's identity.

Fritz told Magistrate John F. Day that Niehaus' car ran a red light and extinguished his lights, preventing the policeman from getting the license number.

★ ★ ★

A chase ensued, ending when Fritz forced Niehaus' car to the curb and began writing tickets for violations en route.

Kennedy Congratulates Briton on Yacht Trip

NEW YORK (UPI) — President Kennedy sent a telegram of congratulations today to Frank Chichester, 61, a British mapmaker, who singlehandedly maneuvered a 39-foot yacht across the Atlantic in record time.

Chichester arrived here last night on the 13-ton Gypsy Moth III. He made the trip between Plymouth, England, and New York Harbor's Ambrose lightship in 33 days, 15 hours.

Area Youth Listed as Fair After Fight

A 17-year-old Pontiac Township youth, critically injured in a fight here yesterday afternoon, was reported in fair condition today following surgery at Pontiac Osteopathic Hospital.

Hospital authorities said Terry L. Farmer, 2074 Phillips Drive, suffered a ruptured spleen.

His alleged attacker, Arthur Acord, 19, of 376 S. East Blvd., was being held today for investigation of felonious assault.

One of Farmer's four teen-aged companions told police Acord struck the Pontiac Township youth with a catsup bottle and kicked him. The incident occurred on East Boulevard near Murphy Park.

Other witnesses gave conflicting accounts of the incident, said Detective Sgt. John DePauw.

Stay Open to Allow Voter Registrations

All city and township clerk offices in the county will be open until the 8 p.m. deadline Monday to accept voter registrations for the Aug. 7 primary election.

★

County election clerk Mabel Child said that in some cases the clerks may have made arrangements to receive registrations at home.

★ ★ ★

In such instances a notice informing the public where the clerk lives will be posted on the office door.

BRUCE MacDOUGALL

Ex-Pontiac Man Heads for Algiers and Hospital Job

A former Pontiac man, Bruce MacDougall boarded a plane yesterday for Algiers to help staff a new hospital there.

★ ★ ★

MacDougall, along with several other medical men in the United States, has accepted a request from the State Department to participate in the three - month hospital organizational period.

Women are prohibited to take care of male patients in Algeria, consequently the government is in dire need of male nurses.

MacDougall, the only Michigan man to be chosen for the project, has taken a leave of absence from his position as supervisor of the rehabilitation center at Harper Hospital. He was selected because of his organizational ability, and work teaching classes for the American Red Cross.

MacDougall was born and raised in Pontiac, and is the son of Mrs. Harry Campbell of 89 W. Longfellow. He is not married.

Foreign Aid Hit on Budget Basis

Antideficit Financing Members of Congress Have Amendment

WASHINGTON (AP) — An amendment that may be hard for many members to oppose could disrupt the foreign aid authorization bill next week in the House.

Its effect would be to prohibit foreign aid appropriations in any fiscal year following one in which the government's budget was not balance. That could be almost every year the way things have been going financially in recent years.

★ ★ ★

A bipartisan drive for the amendment has the backing of Rep. Howard D. Smith, D-Va., and Rep. Frank Bow, R-Ohio, long-time foes of deficit spending.

House members, most of whom are running for re-election this year, could find it embarrassing to oppose such an amendment.

★ ★ ★

"How can a member stand up and be recorded against an amendment that simply says we will not give to foreign nations money we don't have?" Bow asked. "If we have the money and haven't been operating on deficit financing, well and good."

A similar amendment may be aimed at all future bills authorizing big programs but requiring separate financing.

Soblen's Condition Seen Satisfactory

LONDON (AP) — A hospital spokesman today described the condition of Dr. Robert Soblen, 62, convicted Soviet- spy, as satisfactory after a comfortable night.

★ ★ ★

He said it was still uncertain when Soblen could be put aboard a plane for the United States.

The former Orangeburg, N.Y., psychiatrist stabbed himself while on board an airliner last Sunday being returned to New York from Israel, where he had fled to escape a life sentence.

★ ★ ★

In Jerusalem, the Israel high court Wednesday rejected the request of Soblen's Israeli lawyer that he be returned to Israel.

Tshombe Pays a Visit to Rhodesian Leader

SALISBURY, Southern Rhodesia (AP) — Katanga President Moise Tshombe went to Salisbury this week for talks with his old supporter, the Rhodesian federal prime Minister, Sir Roy Welensky.

★ ★ ★

Tshombe's visit was disclosed by Welensky's office Wednesday after the secessionist Katanga leader left for home. The announcement said they discussed economic matters.

The beluga whale is nicknamed "sea canary." While traveling submerged, the mammal frequently squeaks, squawks and whistles from its blowhole. Some of the sounds are audible. Others are of such high frequency that the human ear cannot detect them.

Among all the flags of the United Nations, only that of Cyprus bears a map of the country.

There are more thunderstorms in the interior of Florida than any other location in the United States.

Ex-AEC Chief Sees H-Bomb Decision Crucial for U.S.

WASHINGTON (AP) — America would not exist as it does today, in the belief of Lewis L. Strauss, had it not been for the momentous decision 12 years ago to manufacture the thermonuclear, or hydrogen, bomb.

★ ★ ★

Strauss, former head of the Atomic Energy Commission and long active in nuclear developments, stresses the fatefulness of the decision in a new book, published this week (by Doubleday).

The book, "Men and Decisions," tells of the great controversy that surrounded the atomic bomb and the H-bomb, as well as other issues, in the years before, during and after World War II.

PRAISES TRUMAN

Summing up the arguments over the H-bomb, and praising President Harry S. Truman's decision to go ahead with it, Strauss wrote:

"We were able to test our first hydrogen bomb in November 1952. The Russians tested their first weapon involving a thermonuclear reaction the following August.

"The President's decision was not only sound but in the very nick of time.

"By no close a margin did we come to being second in armament, not only in the eyes of the world, but in fact. Had we begun our development after the successful Russian test, there is no reason to believe that we would have been accorded time to equal their accomplishment.

'SUSTAINED US'

"Thus the decision, made when it was, provided us with the time and posture which have sustained us to this writing."

It was Jan. 31, 1950 that Truman made known his H-bomb decision. More than a year earlier, Strauss had recommended that work proceed, and there had been a storm of controversy.

Some, including Sen. Estes Kefauver, D-Tenn., cited reports that the maximum force from a concussion of H-bombs could blow the earth off its axis. Others said just a few such bombs would so poison the earth's atmosphere that life would cease to exist.

Other major actions discussed by Strauss included the original decisions to make and use atomic weapons, the decision to monitor the atmosphere for signs of Russian nuclear tests, and the decision by which the Senate refused to confirm the author as President Eisenhower's secretary of commerce.

MOMENTOUS DECISIONS

"Ranking, certainly, among the most momentous military and moral decisions in history were the conclusions to make and use atomic weapons," Strauss wrote.

"The decision to develop the atomic bomb was taken in order that we might not find ourselves at the mercy of Hitler. The Germans were believed to be engaged in a like enterprise.

"The decision to use the bomb, however, was made after Germany had been defeated, and to employ it against an enemy (Japan) unable to develop the weapon and already suing for peace."

Strauss recalls that Truman said in his memoirs that "The final decision of when and where to use the atomic bomb was up to me. Let there be no mistake about it. I regarded the bomb as a military weapon and never had any doubt that it should be used."

'ALL OF US SHARED'

However, Strauss said the decision was not so one-sided, that "all of us, the President's fellow countrymen, shared in varying degrees in the responsibility.

"The decision to use the atomic bomb to accelerate the end of a war already won was not the same as the one five years earlier when a decision had been taken to make the bomb.

★ ★ ★

"Yet both were decisions by compassionate men within the finite limits of human judgment."

Strauss included a variety of sidelights in his book, one of them relating how Gen. Leslie Groves, in charge of the development of the A-bomb, came to Gen. George C. Marshall with a request for an extra $300 million.

REASON FOR DELAY

Marshall delayed briefly, finishing up a bit of writing on his desk, then told Groves:

"General, I have kept you waiting for that two hundred million and I am sorry. You might like to know what I was writing while you waited, I was making out a check to my seed store for a dollar and sixty cents worth of grass seed."

★ ★ ★

In his chapter on the "Decision to Detect," Strauss emphasized the urgency of learning what the Russians were doing in a nuclear way behind the Iron Curtain.

Detection was possible by measuring radioactivity in the atmosphere but, Strauss noted, there was much opposition. Some held it wasn't necessary, that the Russians would never catch up. Others said the money it cost could be spent more fruitfully in other fields.

PICKED UP BLAST

But in September 1949, the monitoring system pushed by Strauss picked up evidence that an atomic explosion had occurred within the Soviet Union.

★ ★ ★

Strauss commented:

"It is sobering to speculate on the course of events had there been no monitoring system in operation in 1949. Russian success in that summer would have been unknown to us.

★ ★ ★

"In consequence, we would have made no attempt to develop a thermonuclear weapon. It was our positive knowledge of Russian attainment of fission bomb capabilities which generated the recommendation to develop a qualitatively superior weapon—thus to maintain our military superiority. And that recommendation nearly failed because of determined opposition to it.

"The Russian success in developing thermonuclear weapon capability in 1953 would have found the United States hopelessly outdistanced.

"Hard decisions would have been before us—to compromise, appease, surrender or fight. The decision in 1947 to undertake the detection of nuclear weapons tests was a fortunate one and far more crucial than we knew."

★ ★ ★

Strauss' rejection by the Senate in 1959 for a place in the Cabinet was an unusual rebuff, seldom administered since the republic began.

★ ★ ★

The author offers a variety of possible reasons for the turndown. He concludes that Democrats in the Senate, numerically superior, took this opportunity to strike an indirect blow at President Eisenhower.

Swainson Hails Industrial Rise

Says Development in State During '62 Best in Five Years

DETROIT (UPI) — Gov. John B. Swainson, in a Fourth of July campaign speech, said the first six months of 1962 showed Michigan's most favorable record in industrial development in five years.

The governor told a gathering in suburban Ecorse that of 160 industrial moves since January, 83 per cent were advantageous to the state's economy.

Swainson said that 132 favorable moves included 90 local plant expansions, 15 move-ins of new industries, 15 starts of new industries in the state, 10 expansions of Michigan industries in new state cities and two reopenings of closed plants.

The governor helped Ecorse welcome Duo-Matic, Inc., as a new industrial resident.

Duo-Matic is expected to employ 300 persons within six months, a company official said.

Antarctica, an area nearly as big as Europe and Australia combined, nurtures practically no plants and few animals.

LIFESAVER — Police Chief Adolph Jaggi of Argyle, Wis., provides jolting road signs at his own expense which, he says, "bring no fines, just save lives."

Librarian in the Groove

ST. LOUIS (UPI) — The music library of Cardinal Glennon College here has a sign: "This is not the police department — we don't need your fingerprints on our records."

Gulf® Deluxe Crown Nylons are stronger and longer wearing than original equipment tires!

Yet Gulf dealers sell this premium quality tire at a competitive price! Everything about Gulf Deluxe Crown Nylon tires is premium except their low price. They actually have more rubber—tough, long-wearing Ameripol rubber—than new car tires. Their treads are wider and deeper for extra road gripping traction. And their full 4-ply cords are all nylon for maximum protection against road hazards. Gulf Deluxe Crown Nylons are the premium quality tires that provide safety and dependability for thousands of low-cost, extra miles.

If you want maximum safety and driving peace-of-mind every day, visit your Gulf Dealer and get a set of Deluxe Crown Nylons, the economical, premium-quality tires that outwear new car tires and help lower your cost of driving!

AMAZING GULF GUARANTEE!

If, for any reason (except for malicious, willful, intentional, or negligent damage), your Gulf brand tire does not prove serviceable for its entire guaranteed minimum lifetime, when used for noncommercial purposes, you are entitled to an adjustment as follows: If the cause is defective workmanship or material, you will receive a new tire without charge. If the cause is any other reason, Gulf will repair it without charge or offer you a brand-new tire, allowing credit for that portion of the purchase price represented by the unused guaranteed minimum life of the tire.

Woman, 105, Has Comment on Television

PROVIDENCE, R.I. (UPI) — Mrs. Hattie Twine, born a slave in North Carolina, celebrated her 105th birthday yesterday.

Given a party by other residents at the home for aged colored women, Mrs. Twine was asked if she liked television.

"I like to watch it for a while but my eyes aren't too good. And the programs aren't too good either," she said.

The first formal observance of Flag Day is believed to have been in Fredonia, Wash., in 1885.

Benton Harbor Woman Held in Mate's Death

BENTON HARBOR (AP) — Rose Marie Jackson, 47, was held for investigation today in the fatal shooting of her husband, Raymond, 52, yesterday.

★ ★ ★

Police said Mrs. Jackson admitted stabbing of her husband, Raymond, early today.

Bob Kennedy Vacations

HYANNIS PORT, Mass. (UPI)—Atty. Gen. Robert F. Kennedy spent the Fourth of July with his family at his summer home here. He is to return to Washington Sunday.

Fellow Workers Save Pair in Ditch Cave-In

GRAND RAPIDS (AP)—A thirty-foot high cliff crumbled and slid into a ditch where two men were working Tuesday, burying one completely, but 30 volunteers saved both.

Fellow workers moved a power shovel to block further cave-ins and reached William Ellis, 52, with an oxygen supply in 15 minutes. Sullivan Hall, 59, trapped to the waist, was freed quickly.

Latten, a metal composed of copper and zinc, generally made into thin sheets, is used especially for monumental brasses and effigies. An example is the screen of Henry VII's tomb in Westminster Abbey.

Soviet Forms 'Neutrals'

WASHINGTON—The chief goal of Soviet foreign aid, the State Department explains, is the creation of "national democratic states" — a policy approved in the Kremlin in 1960. These states are described as non-Communist, but pro-Communist and anti-Western.

Sign Promises Drivers Quite a Lively Time

ST. PETERSBURG, Fla. (AP) — A road sign out in the fishing country near here reads:

"Three miles to beer and worms."

Juneberries were extensively eaten, both fresh and dried, by early explorers and Indians.

THE PONTIAC PRESS

47 West Huron Street — Pontiac, Mich.

THURSDAY, JULY 5, 1962

HAROLD A. FITZGERALD
President and Publisher

HOWARD H. FITZGERALD II, Executive Vice President and Business Manager — JOHN W. FITZGERALD, Vice President and Editor — JOHN A. HIKEY, Secretary and Advertising Director

HENRY J. REID, Managing Editor — FRED THOMPSON, Circulation Manager — G. MARSHALL JORDAN, Local Advertising Manager

New State Constitution Opposed by Mackie

Highway Commissioner JOHN C. MACKIE voices vociferous opposition to the proposed State constitution. Mr. MACKIE urges a "no" vote and he urges it vigorously.

And well he should.

★ ★ ★

The new charter takes his office off the elective ticket and makes it appointive. As it happens, the current Commissioner has done an outstanding job with Michigan highways and is quite generally recognized by the electorate as an unusually capable individual in a responsible spot.

MACKIE

★ ★ ★

The PRESS so regards him and has ever since he took over the administration of this important position. We feel the State had been unhappily saddled with some incompetent men in the past in the light of the tremendous highway problems. Oakland County's own "Pat" Van Wagoner was the last exceptional individual in this place. This isn't a minor division or something that can be entrusted to ordinary hands. It needs an expert and an unusual administrator.

JOHN C. MACKIE fills the bill.

★ ★ ★

He prefers to have his office remain in the hands of the people. This is understandable.

As the PRESS said earlier, this new constitution isn't perfect and won't suit everyone by a long shot. John C. Mackie is a strong part of the vocal opposition.

'Y' Building Committee Deserving of Praise

A well-deserved congratulatory pat on the back for the Expansion Program Committee of the YMCA over its successful campaign to raise a building fund for the local institution.

Under the chairmanship of Robert M. Critchfield, the solicitation had been in progress since May of last year. The $650,000 goal had not been fully met; but, thanks to the praiseworthy generosity of four original subscribers who increased initial contributions, the drive went comfortably over the top

★ ★ ★

The building program thus made possible will provide the Y with enlarged facilities needed for recreational and character-building programs for the area's youth.

★ ★ ★

The present facility, largely a tribute to the financial support and personal interest of the late FREDERICK J. POOLE and designed to serve a membership of 1,000, was completed in 1938. Since then the membership has gone to 4,500 while the school enrollment has doubled, mute testimony to the urgent need for the enlarged center which will be in operation for the fall season.

School Prayer Ruling Brings Criticism

For an appreciable period of time, respect for the Supreme Court has been lessening in this country. This is deplorable as laws are the basis of all orderly and regulated existence.

★ ★ ★

Hence, the unfortunate decision on the simple school prayer in New York State actually horrifies the majority of our population—not to mention sister nations around the globe. This unhappy ruling has been denounced from coast to coast. Newspapers, speakers, churches and private citizens have expressed themselves with vigor and clarity.

★ ★ ★

Just to refresh everyone's memory, here is the prayer in full:

Almighty God, we acknowledge our dependence upon Thee, and we beg Thy blessing upon us, our parents, our teachers and our country.

★ ★ ★

When the Supreme Court ruled on this simple and universal appeal to the Deity, it almost begged for what it got. Once, criticism of the Supreme Court was something to be viewed gravely and with actual apprehension. But that day is gone. Many of our most loyal citizens have been puzzled by a variety of decisions, including the top tribunal's treatment of communism.

Formerly, respect and deference for this court approached actual reverence. There have been many contributing factors and the current happening merely caps the climax. When general respect for law and order seems to be on the decline, we can illy afford to have the standing of this court challenged. We need a general reawakening in many things, including a blind faith, if need be, in the Lord, in law and order, and in each other.

The Man About Town

Pills Won't Down

Reader Suggests Tongue Be Used as Catapult

By HOWARD V. HELDENBRAND

In a recent column, the MAT alluded to the difficulty he has always had in getting pills down in the regulation manner. From

Mrs. O. J. Sorenson Jr.,

of Rochester, comes a most illuminating note which is reprinted for the benefit of others suffering from inhibitions in the pill department: "About taking pills—you are using the wrong engineering principle.

"Your tongue is not a launching pad. It's an automatic 'lifter.'

"You place your pill BENEATH the tip of your tongue—take a drink of water—your tongue automatically lifts and flips the pill down the hatch!"

Well, now—this is most interesting, though seeming a little technical. In fact, scanning the lady's pill flight plan, I got the idea that getting one off was almost a two-man mission—perhaps leading to a copilot . . . Anyhoo, I can hardly wait for another cold to try out the Sorenson injection method.

★ ★ ★

Recently, the column ran a couple of SOS items pointing out the need by the County's Children Center for garden cultivators and voicing a plea for the return of the rifle unlawfully taken from the Civil War soldier monument at Saginaw and Oakland.

Well, we're batting .500. The supervisor of the Center phoned that he had been literally swamped with cultivators — for which he and the MAT thank donors most heartily. But the rifle is still AWOL. It just occurred to us that since it was removed last Memorial Day, the Fourth of July would have been a good day to return it. Let's hope it is now back in its familiar present-arms position.

From "The Mascot," Franklin, N.H.: It's hard to know when one generation ends and the next begins—but it's somewhere around 9 o'clock at night.

There couldn't have been a better choice made for general chairman of Pontiac Area United Fund's 1962 campaign than

Fred V. Haggard

of Waterford. President of Oakland County UAW-CIO Council, he has shown an active interest in Pontiac's civic and governmental questions, and contributed generously of his time and knowledge in meeting them. To him go the MAT's best wishes for outstanding achievement in his new assignment.

★ ★ ★

The Post Office Department has advised business firms that "envelopes having a ratio of width (height) to length of less than one to 1.1414 (one to the square root of two) are not recommended" . . . So-o-o, what else is new?

Still Doing Business at the Old Stand!

David Lawrence Says:

High Court Fails to 'Communicate'

EN ROUTE TO EUROPE — Somehow, as one leaves the tense atmosphere of present-day Washington and travels across calm seas aboard a comfortable ship like the SS United States, things come into perspective. For, despite all of our boasted inventions, we still fail every now and then in the art of communication as between the people and their government. Government by impression is too often substituted for government by factual study.

LAWRENCE

It wasn't just because Chief Justice Earl Warren of the Supreme Court of the United States happened to be aboard as a fellow passenger that this writer's mind turned to the recent decision in the so-called "prayer" case. For this certainly has been continuously in the news.

What, indeed, was the real reason for the widespread misunderstanding of the Supreme Court's ruling? Could the misinterpretations have been avoided? This correspondent has for a long time felt that the highest court ought to do what some of the state courts do—namely, separate the ruling or conclusion reached from the explanation or reasoning used to arrive at the decision.

Thus, in the "prayer" case, the six justices who agreed with the majority ruling might each have had different reasons for arriving at the result—which was simply a statement that no governmental agency could "direct" or "compose" a prayer for mandatory use in public schools.

★ ★ ★

Justice Douglas expressed some of his views at length in a separate concurring opinion. Also, of course, Justice Black presented his own views in writing the majority opinion of the court. But did the other justices agree with all the reasoning he gave in explanation of the ruling?

It would have been much better if the Supreme Court had started off its majority opinion in this case with a brief "headnote" of its own, saying simply that any law which "orders" or "directs" that a certain prayer be used in the public schools is a violation of the Constitution.

DIFFERENT THING

This is a far different thing from saying—as some news reports put it—that prayer is forbidden in the public schools. Obviously, voluntary prayer said orally or a few minutes of silent prayer would hardly seem to come within the ruling proclaimed last week. But it would require a decision in a case involving that specific issue before this particular question could be ruled upon explicitly.

Yet, before a day had passed after the decision of June 25 was announced, the news wires of the country had told the people that, in effect, all prayer in public schools had been forbidden, that all mention of the Deity had been prohibited, and that songs referring in any way to God were barred. No wonder a furor arose in Congress and throughout the country.

The subject is so important to the American people that the spreading of such erroneous impressions—due to inadequate information about what the Supreme Court had really held—is tragic, but it is a consequence of the method or procedure now used by the court itself.

This writer believes that the Supreme Court would be rendering a service to the cause of a better understanding of its decisions if the specific ruling in every case were separated from the rest of the opinion, so that all of the "dicta"—the personal views and interpretations in the court's written opinion—would be clearly differentiated for the reporters who write the news dispatches on the court's decision day.

This is a change, of course, which all the justices would have to agree upon. It certainly wouldn't weaken in any respect the ruling itself.

(Copyright 1962)

The Country Parson

"The bigger a government gets the less it can afford to tolerate corrupt men."

Dr. William Brady Says:

Try Iodin Ration Again; It Won't Prevent Sleep

A common sign of iodin deficiency is lusterless, failing hair, breaking of the ends, prematurely gray. In many instances, this lifeless condition of the hair is associated with noticeable thinness of the eyebrows, particularly the outer thirds.

Notwithstanding frequent assurances that Americans get all the vitamins and minerals they need from everyday diet, thousands of people who have learned to supplement their everyday diet (mostly refined foods) with adequate daily rations of calcium, vitamin D, iodin and vitamin B-complex, have experienced tremendous improvement in health, which can be credited to nothing else but better nutrition.

DR. BRADY

It is now well recognized by physicians in general that the condition of the skin, hair and nails reflects the state of nutrition.

However, a Nebraska woman declares that even one iodin ration tablet a day makes it difficult for her to go to sleep at night, and one day she took two and never went to sleep until 4 a.m. She is 56 and usually retires about 10:30 p.m. She thinks the iodin "gives a stimulation that prevents sleep."

CAUSED RASH

A South Carolina woman reports she started taking iodin last year. In about three months, her face broke out with fine red pimples that itched a good deal. She consulted a skin specialist who said the iodin caused the rash. She stopped taking iodin and in a few weeks the trouble cleared up.

The woman owes it to herself—and a good many other persons with iodin deficiency—to resume the iodin ration and see whether it produces the peculiar effect again. I believe she'll find she can take iodin ration as well as anybody else.

If the Nebraska gal were my patient, I'd give her another tablet containing the same infinitesimal amount of iodin as the iodin ration tablet, with a suggestion that this would help her go to sleep.

★ ★ ★

It is a common notion that iodin or iodides may produce a skin rash —medicinal doses, that it. To imagine nutritional iodin — the amount one could or should get in sea food—can do so is ridiculous, in my judgment.

In all the years I have been advising people to be sure to get their daily requirement of iodin, I have heard from only two or three persons that the iodin ration keeps them awake.

★ ★ ★

Signed letters, not more than one page or 100 words long pertaining to personal health and hygiene, not disease, diagnosis, or treatments, will be answered by Dr. William Brady, if a stamped, self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan.

(Copyright, 1962)

Voice of the People:

'Here's What You Can Do When Receiving Junk Mail'

I am opposed to junk mail which one receives as the result of mailing lists. However, the private citizen can do something about it.

When I receive junk mail I simply enclose this note in the return envelope which the sender furnishes and must pay first class postage upon:

"I am opposed to junk mail. The least you can do is pay first class postage like everyone else. As a taxpayer I do not wish to help pay for your unwanted mailing. Please remove my name from your list."

This really works!

Diane Friedmeyer

'So the Governor Is Trying to Help'

Governor Swainson wishes to help the retired, widows, sick and orphans by removing the sales tax from food and drugs and then he states he would put a 3 per cent state income tax on us plus a flock of tax collectors.

In 51 weeks, $30 per week for food and drugs, would save me $62.40. The 3 per cent income tax would apply to my social security, vet's pension, shop pension and all income of mine and my wife's which would clip us for around $200. The Governor figures this is helping the aged, sick, etc? It might be a good idea to get a tax which would pay some of the state's debts.

Drayton Plains

'Liked Music Show at Northern High'

Thanks to the Fraternal Order of Police for the wonderful music show at Pontiac Northern High on June 30. We need many more of these shows.

A Country Music Fan

'No Hope Is Left for Tiger Ball Club'

The Tigers are doomed to fifth or, sixth place. The best pitcher they had last year, Larry, shouldn't even be carried with the team.

★ ★ ★

The man who led the league last year in batting has broken all records by losing 100 points. The best baseball player in the league, Al Kaline, is out for weeks and weeks.

★ ★ ★

What's left? Nothing. To show how desperate they are, for a time they had Maxwell batting cleanup with an average of .190.

I Give Up

'Blame Policemen; Not Restaurant'

In reference to cleaning or closing a drive-in restaurant because of recent disturbances, we will all agree this is one of the cleanest in the city.

Don't place the blame on the owners, but on our police department. While the delinquent minors gang up our city policemen are drinking coffee at nearby drive-ins. I have seen as many as five police cars at one time at these drive-ins.

If these men were on duty these things wouldn't happen.

EJB

'Pontiac C. of C. Is for the People'

I am now all out for the Chamber of Commerce. They will have it so all people can have a voice in city affairs. When the City Commission is asked to get a report about certain things and then comes back talking about something else, that crew is in politics. I am sick and tired of some people barking about other commissioners in the past. I am from District 4. Whom do I see for representation?

Rockbottom

'Race Could Use Much Improvement'

This is a 50-50 world, and it's time the Negroes began to put their own house in better order before they demand too much equality.

Their percentage of illegitimate children is several times the white figure; their percentage of illiteracy is several times the white figure; their percentage of crime is several times the white figure; their percentage of juvenile delinquency is several times the white figure.

★ ★ ★

Before I get any more excited about racial equality, I want to see a little more effort to be equal. Perhaps the Negroes aren't earning the progress they have already made. The figures above show they haven't kept pace with their swift advance.

★ ★ ★

Shouldn't the NAACP work on these failures and quit worrying about integration?

Not a Southerner

(Editor's Note: The letter published in Tuesday's issue signed J. Dugan was not from former Commissioner John Dugan. J. Dugan's address is Route 2, Pontiac.)

The Almanac

By United Press International

Today is Thursday, July 5, the 186th day of 1962 with 179 to follow.

The moon is approaching its first quarter.

★ ★ ★

On this day in history:

In 1811, Venezuela declared her independence from Spain, the first South American country to take such action.

In 1865, the Salvation Army was founded in London.

In 1945, Gen. Douglas MacArthur announced that the Philippine Islands were liberated and the campaign could be regarded as virtually closed.

Reviewing Other Editorial Pages

Campaigning

The Saturday Evening Post

They are at it again. Nixon versus Brown, Romney versus Swainson, Rockefeller versus Whoall. From now until November they will be disagreeing, taking violent exception, setting the record straight and demanding retractions. But there is one thing that all of them would agree on, we suspect: Campaigning is becoming prohibitively expensive.

President Kennedy appointed a committee which estimated the cost for local, state and national candidates in 1960 at $185 million to $175 million. Said the committee: "Individuals and organizations providing substantial gifts at critical moments can threaten to place a candidate in moral hock. In consequence, a disturbing and fundamental failure of present practices is the widespread cynicism about the process."

To combat this and broaden public participation the committee recommended two tax incentives for contributions to presidential campaigns. The first would be a credit of one half of the contributions against the amount of tax that the individual owed the Federal Government up to $10 per year ($20 for a joint return), and the second a maximum deduction of $1000 (President Kennedy lowered it to $750) from the amount of income that is subject to the Federal tax.

The committee expressed the hope that "the incentive to medium-sized gifts, coupled with the incentive to small gifts, will stimulate the massive giving needed by the parties." It proposed the establishment of a "central Federal repository, with a nonpartisan or bipartisan advisory board."

★ ★ ★

All political committees that raised or spent as much as $2,000 for President and Vice President, and all families or individuals that spent or contributed $5,000 a year, would be required to file regular financial reports. This would be the most effective way to prevent excessive campaign contributions.

President Kennedy noted that "Congress may . . . wish to consider the applicability of any of the recommended practices to campaigns other than Presidential or Vice Presidential." Congress has had before it many proposals to broaden the base of campaign contributions.

★ ★ ★

The proposals of the Heard committee deserve the support of Congress. They have been endorsed by Eisenhower, Truman, Nixon, Stevenson and Dewey. Tax incentives will have a salutary effect on our democratic system. They will broaden the base of financial support for our political parties, and because they will apply every year, they will help the funds.

★ ★ ★

We hope that Congress will coordinate the proposals and provide a reasonable ceiling on tax credits.

'Do Drop In'

The Omaha World-Herald

It appears that friends of the Robert F. Kennedys can take it literally when they are invited to "drop in."

America's Future

Every parent and taxpayer should have a deep interest in the National Education Association's (NEA) activities because it is presently engaged in a pretty little brainwashing job on American public-school pupils. Each year in a great many public high schools a subject is assigned for debate by students in debating clubs or current events or government classes.

★ ★ ★

This year the debate topic is Federal aid to education. We assume that everybody, except perhaps the National Education Association, knows what the word "debate" means. It means a discussion in which both sides of an issue are presented.

★ ★ ★

But NEA is supplying to students who take part in this debate what it calls a "debate kit." The proper name should be "propaganda kit in favor of Federal aid to education." Thus, the student gets a batch of material in one package, every line of which is in favor of Federal handouts to education.

★ ★ ★

If he wants the other side of the story, he has to scrounge around for it in numerous scattered sources; we know because we have had letters from several more perceptive students who feel they are being subjected to a brainwashing job by NEA. And they are right.

★ ★ ★

A covering note from NEA which goes with this spurious "debate" kit tells the student that "we are anxious that all pertinent facts should be made available." Then the National Education Association makes available a whole raft of material on only one side of the issue, and has the brass to declare these are "all pertinent facts." If that isn't brainwashing, what is it?

The Turnabout

Wichita Eagle

The U. S. sent a movie to Nigeria showing kids doing the twist. Now the Nigerians are training a peace corps to send over here.

Nevada Lt. Gov. Rex Bell, Clara Bow's Mate, Dies

LAS VEGAS, Nev. (AP) — Lt. Gov. Rex Bell, a cowboy star of the silent film era who married the "It Girl" of the 1920s, actress Clara Bow, died Wednesday night of a heart attack.

Bell, 58, collapsed at the home of a friend a few hours after addressing a Republican party rally. He was the only announced GOP gubernatorial candidate and was widely regarded by political observers as the only person who could rally strength for Nevada Republicans in next fall's elections.

★ ★ ★

The death of the silver-haired politician brought statements of shock and sadness from Republican and Democratic leaders around the state.

His widow, Miss Bow, was reported seriously ill in a Culver City, Calif., rest home. A spokesman said that due to her condition she was not notified of Bell's death.

He also leaves two sons, Rex Anthony, 27, and George, 24.

'WAS FRIEND'

At the rally, where Bell appeared to be in good health, he introduced Paul Laxalt, 39, a Carson City lawyer, his running mate for the lieutenant governorship.

Upon hearing of Bell's death, Laxalt said: "Rex was my friend. We will all miss him very much."

Laxalt said he was notified by Katie Jenkins, a longtime friend of Bell, that he collapsed in her home just as he was leaving to meet with Laxalt and other Republican leaders.

She called an ambulance and attendants attempted to revive Bell without success. He was pronounced dead at Sunrise Hospital.

★ ★ ★

Bell starred with Miss Bow in several films in the 1920s and they later surprised Hollywood by eloping in 1931.

Ten years later they moved to Nevada and operated a 600,000-acre ranch near Las Vegas. Still later, Bell turned to mining and then started Western apparel stores in Las Vegas and Reno.

Democratic Gov. Grant Sawyer, whom Bell sought to unseat next fall, expressed sadness at Bell's death.

'MUTUAL RESPECT'

"Most people in this state considered themselves as personal friends of Rex Bell," Sawyer said. "I am among them. In spite of the fact that we were political opponents, our personal relationship was one of mutual friendship and respect.

"I join with the thousands of Nevadans and others throughout America in paying tribute to Rex. We will miss a great, colorful, warmhearted friend."

LT. GOV. REX BELL

U.S. to Report on Teen Labor

Surge of Students Seeking Jobs Expected to Be Greatest Ever

WASHINGTON (AP) — The government reports today on the impact of several million eager teen-agers on the nation's already clogged job markets.

★ ★ ★

What happens every June is expected to be repeated, only more so. With the end of school classes for the summer, youngsters rush out to hunt temporary or permanent employment to make some money and test their skills.

GREATER THAN EVER

This summer's surge of students into the labor force looks greater than ever. It is expected to raise the number of employed by some 2 million and the ranks of the unemployed by around 800,000.

★ ★ ★

The government report in mid-afternoon will likely show the student job-seekers have pushed the nation's over-all labor force, including members of the armed forces, to a new high of around 77 million.

THIRD LEFT OUT

As a rule of thumb approximately two out of three teen-agers looking for summer jobs manage to find them, the third being out of luck.

★ ★ ★

The government estimates there were a record 2.4 million high school and college graduates this June. A great many seek only temporary summer work before continuing studies in the fall. Authorities urge them to stay in school to broaden their eventual earning opportunity.

★ ★ ★

But many graduates want permanent employment.

Young Johnnie Manages Long Trip at No Cost

REDONDO BEACH, Calif. (AP) —There was just one thing wrong with the 2,400 mile jet flight John O'Rourke, 13, took from Los Angeles to New York. He didn't have a ticket.

★ ★ ★

New York police, alerted by Trans World Airlines, met the plane, gave him breakfast and shunted him back to Los Angeles in time for lunch Wednesday.

★ ★ ★

John O'Rourke, the boy's father, of Redondo Beach, said the boy had run away previously to San Diego and Winslow, Ariz.

Snow helps enrich the soil by bringing down nitrogen, sulfur, and other fertile elements from the air.

TIGER BY THE TAIL — The quizzical look on Col. E. H. Paterson's face is not one of concern. That's his tiger, and he knows she is affectionate. He was just showing off as he presented the tiger to the Portland, Ore., zoo yesterday. He raised the tiger from a baby but his new Army duties will not permit his keeping it.

To Be Presented Internationally

GM Show Going to Fair

DETROIT — Previews of Progress, the famed General Motors show that demonstrates science in action, is being presented in United States Pavilions at five International Trade Fairs this summer and fall, GM armouced today.

At the request of the U.S. Department of Commerce, GM has trained and equipped special units of the show for appearances at San Salvador in El Salvador; Izmir, Turkey; Damascus, Syria; Karachi, West Pakistan, and Buenos Aires, Argentina.

In each case, nationals of the particular country are presenting a 30-minute version of the show. The trade fair in San Salvador has already begun and the others will be held between now and October.

This will bring to 22 the number of countries outside the United States and Canada where the GM science show has appeared. In its world-wide showing since 1946, Previews of Progress has been seen by nearly 30 million students and adults. In addition, many others have seen it on television.

Presented by a two-man team and narrated in nontechnical terms the non-commercial show gives vivid examples of science's important role in industrial progress under America's free economy. It also encourages young people to consider careers in science.

SEVEN UNITS

Sequences of the Preview shows being presented in the International Trade Faris range from the "color change," which illustrates the control a chemist has over the materials with which he works, to action demonstrations of gyroscopes, jet engines, cold stoves, microwaves and gas turbines.

GM keeps seven units of Previews touring the United States, presenting the admission - free show before schools, civic and fraternal groups, service clubs and at military installations.

General Motors of Canada maintains a full-time traveling Previews unit and General Motors Overseas Operations Division has units operating in Latin America and Europe.

Begun in 1937, Previews was discontinued during World War II. Since it was reactivated in 1946, the show has been presented to 24 million persons in the United States and Canada.

REPORTING FOR DUTY — Ens. James A. Fredericksen of Galveston, Tex., reports for his first Navy assignment aboard the destroyer tender Shenandoah at Norfolk, Va. He graduated from the U.S. Naval Academy in 1958 and has since been trying to get into the Navy.

After 3-Year Battle

Wins Position in Navy

NORFOLK, Va. (AP) — James A. Fredericksen of Galveston, Tex., says he's always been a Navy career man but he just had trouble getting started — four years, to be exact.

★ ★ ★

When he reported for destroyer duty here this week, the 1958 graduate of the U.S. Naval Academy wound up a 3½-year battle with the Navy.

TURNED DOWN

When Fredericksen took his physical to enter the academy, the examining physician noticed a slight misalignment of his spine but told him it wasn't a disqualifying condition. Four years later, however, another examining doctor turned him down for Navy duty.

With the aid of Rear Adm. F. B. Warner, commandant of the 8th Naval District; and Vice Adm. William R. Smedberg III, head of the Bureau of Personnel, Fredericksen finally was commissioned last December—but his long battle didn't quite end there.

TOOK NEW COURSE

Because of his long absence from the Navy, Fredericksen had to take a refresher course in the Officer Candidate School at Newport, R.I.

Fredericksen, married and the father of two children, earned $700 a month as an engineer for Union Carbide Corp. while he carried on his fight to get back in the Navy.

Now he's an ensign—at $358 per month.

Britain, Mac Are First Stop for U. N. Head

LONDON (UPI)—U Thant, acting Secretary General of the United Nations, scheduled a meeting with Prime Minister Harold Macmillan today as the formal beginning of his European tour.

Thant also planned to talk with Hugh Gaitskell, leader of the opposition Labor Party.

★ ★ ★

The U.N. official arrived last night for a three-day visit to Britain, his first stop of a 16-day tour. The trip, his most extensive since he assumed office last year, includes France, Switzerland, Norway, Ireland and Finland.

In an airport statement, Thant said he hoped his talks with British officials would "lead to better relations between the United Nation and the United Kingdom."

He will return to New York July 20.

Indians are believed to have come to the Mesa Verde region in Colorado about a year after the birth of Christ. They were a peaceful, industrious people who kept turkeys and raised corn, squash and beans.

NAACP Leader Eyes All U.S.

'Must Fight Bias in Cities'

ATLANTA (AP)—An official of the National Association for the Advancement of Colored People urged yesterday a co-ordinated drive against racial inequalities in urban areas outside the South.

★ ★ ★

Robert L. Carter, general counsel for the NAACP, mentioned specifically Boston, New York, Philadelphia, Newark, Cleveland, Detroit, St. Louis, Chicago, San Francisco, Los Angeles, Baltimore and Washington, D.C.

Carter made his recommendation at a meeting of the NAACP state conference and branch presidents, executive secretaries, national and field staff members and lawyers. The organization is holding its annual national convention here.

Noting that the 1960 census shows about 49 per cent of the nation's Negro population lives outside the South, Carter said New York has the largest Negro population of any city in the United States and that Washington, D.C., is the only large urban center in the country with more Negro than white residents.

★ ★ ★

Although the non-South urban areas have "no formal laws requiring discrimination, the Negro is relegated to a status of subservience as depressed as that in the South," Carter said.

Legal victories against segregation are not enough, he said.

"We can and should use as many of a variety of techniques—legislation, political action, picketing, mass protest demonstrations and the like—as we find workable as adjuncts . . . to litigation in order to speed progress toward our ultimate goal—equality in fact," the attorney said.

Discrimination in one field promotes discrimination in another, Carter said.

"Housing discrimination—the relegation of Negroes to Ghettos in our urban centers—provides the basis . . . for school discrimination . . . our children leave these segregated, overly crowded, poorly staffed and lower-motivated schools grossly unequipped to compete with their white contemporaries," he said.

★ ★ ★

He proposed what he called a "task force" of national NAACP officials to work with regional and local groups in mapping concentrated campaigns against discrimination in each individual area where it exists.

Retraining Program to Graduate Class

MARQUETTE (AP) — A class of 47 — the first to complete courses here under a federal program designed to cut unemployment — graduates tonight.

★ ★ ★

The graduates have completed clerical, stenographical and welding training at the Northern Michigan College Area Training Center Act.

The classes, sponsored by the college and the Michigan Employment Security Commission, began March 19. Students came from all parts of the Upper Peninsula.

New stenographical and clerical classes are expected to start July 16 with another welder training program scheduled to start July 23.

MIRROR FOR MRS. MAYOR — Mrs. Eleanor Sheppard, Richmond, Virginia's first woman mayor, tries out a big gold-framed mirror in the mayor's office. After the election, she said the big deficiency she noted in the mayor's office was the absence of a mirror for a lady to use in putting on her hat. A friend took care of that little matter.

News Photo Reunites Girl, Real Mother

ARNOLD, Pa. (AP) — A 10-year-old girl is back with her real mother today because of a newspaper photograph and hard work by police.

★ ★ ★

Police reported finding Jeeda Ricketts bound and gagged on a sofa at her home in this Westmoreland County town on May 30. They quoted her as saying she had been left there by her parents.

A few hours later, police said, they found Jeeda's stepfather, Jack Liddle, and his wife at a hotel in the area. The couple was jailed on charges of neglect, assault and abandonment. Jeeda at that time was believed to be Mrs. Liddle's child by a previous marriage.

On May 31, as Jeeda was being taken to a foster home, photographer Charles Carroll of the New Kensington Daily Dispatch snapped her picture. She was smiling and clutching a bag of potato chips and a magazine.

★ ★ ★

The photo was transmitted all over the United States on the Associated Press Wirephoto network. Several days later, Police Chief Herman Ricchuito of Arnold received a letter from a woman who had seen the photo in a newspaper and thought Jeeda might be her long lost child.

★ ★ ★

Ricchuito said he and Detective Joseph Bordanaro of Westmoreland County investigated. Out of the investigation came information that led to the discovery of Jeeda's real mother in Texas.

Mrs. Liddle, Ricchuito said, then admitted that she was not Jeeda's real mother and said Jeeda had been given to her as an infant in Texas.

★ ★ ★

The real mother was reunited with Jeeda on Tuesday, but Ricchuito declined to reveal her name or address.

★ ★ ★

The case against the Liddles also reached a climax Tuesday. They pleaded guilty to the assault charges. Mrs. Liddle drew an 11-to 23-month workhouse term and her husband 6 to 23 months.

Ford Foundation Gives Grants for Educational TV

NEW YORK (AP) — Grants totaling $8,527,000 have been announced by the Ford Foundation to aid educational television.

★ ★ ★

The New York metropolitan area's first educational television station, WNDT, on Channel 13, received $2,994,000 to assist it in beginning operations Sept. 16.

The National Educational Television and Radio Center was given $4.7 million for programming services and other activities to assist the nation's non-commercial television stations.

★ ★ ★

A grant of $838,000 was awarded to start a nationally televised college course in economics.

Tiberius Sets Back the Cause of Science

MEMPHIS (AP) — Nature recently set back the cause of science at Saint Mary's Episcopal School here. An exhibit dealing with the effect of color on two mice mice was delayed when one of the mice, a husky fellow named Tiberius,

'Schools Still Have the Right of Prayer'

DENVER (UPI) — The resolutions committee of the National Education Association (NEA) convention said today the recent Supreme Court decision banning a New York school prayer did not diminish the right of prayer in public schools.

Delegates to the convention today considered adoption of the resolution which called for a thorough one-year study of the court decision banning a New York regents prayer.

The committee conceded that the ruling would bring about changes in school practices regarding prayer and religious observances. But it said: "This decision does not diminish in the least freedom of religion or the right of prayer in public schools."

★ ★ ★

The convention turned to the controversial prayer issue after a hassle between school officials and a vice president of the AFL-CIO, who charged that the General Electric Co. forced the firing of a Liverpool, N.Y., teacher.

James B. Carey, president of the International Union of Electrical, Radio and Machine Workers, made the charge during a convention symposium. He said the teacher, Paul R. Jease, was dismissed three weeks ago after one of his students asked a GE official about price-fixing, during a class visit to the company's plant in Syracuse, N.Y.

"Everyone in Syracuse knows that teacher Jease was fired because General Electric wanted him to be fired, because this multibillion-dollar corporation became frightened over the questions of little children," Carey said.

DENIED BY DEAN

The charge was denied by Virgil M. Rogers, dean of the school of education at Syracuse University and New York State director of the NEA. He said Jesse was fired because his work was unsatisfactory.

"The fact is that this teacher had been unsuccessful in his first year's work in Liverpool and his contract was not renewed because of unsatisfactory work," Rogers said, "and GE had no part in the decision on his dismissal by the board of education."

Carey said a GE executive wrote the Liverpool school board to complain following the visit by Jesse's social studies class. General Electric was one of several firms indicted in a federal price fixing investigation which led to jail terms for several high officials of the company.

Teamster Group Opposes Offer

Toronto Local Split; Faction Sees 'Pressure' From International

TORONTO, Ont. (AP) — Militant Toronto Teamsters campaigned last night for rejection of a proposed settlement of an Ontario-wide trucking strike, now in its seventh week.

★ ★

The campaigning by members of Local 938 of the International Brotherhood of Teamsters came as the local began voting on the proposed pact.

The faction within the local suggested the international union was pressuring members to accept the agreement by threatening to cut off strike pay if the walkout continues.

However, Frank Fitzsimmons, International Teamster vice president, last night told a noisy meeting of Local 938 members the international will honor commitments to the members as long as the local abides by the union constitution.

The memorandum of settlement was written at an all-night bargaining session last weekend between the Teamsters and the Motor Transport Industrial Relations Bureau, agents for the 60-odd firms affected.

International Teamster officials have expressed confidence the men will accept the settlement, understood to include a 25½-cent hourly wage and welfare package for a 48-month contract period.

★ ★ ★

The companies, originally offering the 24½ cent package for a 44 month agreement recommended by a conciliation board had later reduced the offer to 15 cents. The union had been holding out for 30 cents.

GOP Candidate for House Hits Prayer Ruling

BROOKLYN (AP) — Congressional candidate Alvin Bentley yesterday accused the Supreme Court of stretching the First Amendment beyond recognition in its decision banning official school prayers.

★ ★

The amendment was intended to insure "freedom of religion" not "freedom from religion," Bentley, Republican candidate for congressman-at-large, told a crowd celebrating the Fourth of July and this community's 130th anniversary.

★ ★

"It certainly was never the intention of these patriots and statesmen to establish the Constitution of the United States in such a way as to exclude God entirely from our midst," the Owosso Republican said.

Teen Killed in Crash

ASHLEY (AP) — Glen T. Motz, 18, of rural Ashley, was killed today when his car went out of control on M36, three miles east of this Gratiot County community, and struck a tree.

ONE COLOR

Considine Buys 80-Cent Ashtray in Venice

By BOB CONSIDINE

VENICE — Tarcisio Toso, a show-case glassblower employed by the old firm of Gino Cenedese, pulled a glowing ingot from his fiery little oven, and walked back to his bench with it burning a bright, soft orange-red on the tip of his blowstick.

"This he will not blow," commented a dapper managerial type named Mario Frare. "It is a horse."

It was a blob, not a horse, and it would have dripped off the stick if his calloused hands had not continued to rotate it.

★ ★ ★

Now, he whipped out a strange tool as old as the art itself, a thing born of trowel and snippers, and in an incredibly swift period he had shaped a perfect little glass horse, each delicate part "frezing" as formed.

★ ★ ★

Pasquale Vio, an apprentice who looks about 10, moved over expertly at the conclusion, broke the stiffening tail off at the right moment, picked up the finished product with a pincer-tool and placed it artistically on a little pedestal.

It looked as proud as Citation, and Pasquale as pleased as Eddie Arcaro. Several of us applauded, and the maestro gave us a few little bows of the head and a snuffle or two of pregos.

The boy Pasquale looked at him much in the manner of the Yankee batboy looking at Mantle.

★ ★ ★

"The boy will work 15 years, maybe 20, as an apprentice," Frare said. "Then he is a full member of the guild . . . a strong union. But it is a long, long path."

He showed us through the endless exhibit rooms, brimming with exquisite samples of an art that once helped Venice burgeon into an empire and her navies rule great sea routes to lands of spices and precious stones.

One incredible crystal chandelier, like the ultimate burst of a Fourth of July fireworks display, held us spellbound.

"How much is that?" my wife asked wildly, apparently toying with the thought of leasing Madison Square Garden as an apartment.

Sr. Frare just happened to know.

"Interesting that you should notice that one," he said, "it's the most expensive item we now stock. Twelve thousand dollars. King Saud bought four of them for one of the rooms of his newest palace. It was quite an order, when you consider the wall lights, too."

★ ★ ★

We bought an eighty-cent ashtray and blew.

"Business is so-so," Sr. Frare said as he led us to the gondola dock at his door.

"The Americans don't buy as they did before the $100 limit was placed on what they could take back without duty. A pity, but who am I to complain? Your country does much for mine."

We were about to step into the gondola when the visibly smiling apprentice appeared in the doorway.

"Ask him how old he is," a 14-year-old girl we know whispered to Sr. Frare. He called to the boy in Italian and the boy answered.

"Fourteen," Sr. Frare said. The girl's face lighted sweetly.

"That's nice," she said. It seemed to leave something unsaid, at least for the adults.

"Why is his fly open?" my wife asked.

Sr. Frare was curious, too. He asked Pasquale. Pasquale spoke earnestly for several minutes, and Sr. Frare nodded in time.

"Pasquale has been asked about that before, he tells me," Sr. Frare said.

★ ★ ★

"The fly is not open. It just appears to be. He has been in these pants, he says, since age 11, and has grown fatter."

The gondola slithered away and breasted the choppy Grand Canal. The occupants were silent, each with his own thoughts. But the chances were that they would remember Pasquale long after they had forgotten King Saud's chandeliers.

Dock Strike in Goa Ends Peacefully

BOMBAY, India (AP)—A four-day-old strike of 4,000 port and dock workers in Mormugao Harbor, Goa, was called off Wednesday.

The strike immobilizing 11 foreign ore carriers ended after a warning by Indian Gov. T. Sivasankar that it was illegal.

The strikers, led by the Communist union, were assured there would be no reprisals and their demands for higher wages and reemployment of some 50 discharged workers would be considered.

Woman Hits Jackpot While Fixing Breakfast

Detroit automotive engineers asked for it...

AMERICAN OIL RESEARCH DEVELOPED IT...

The Final Step to assure the Finest Gasolines ever sold!

When automotive engineers raised engine compression, they asked for higher octane gasoline—and got it.

Now, to meet *today's* car needs, they ask for another improvement—gasoline free of the microscopic particles that were no problem a few years ago. These contaminants clog the filter that car makers now put in your fuel line to protect modern precision carburetors. Filter clogging cuts your power and acceleration, *can even stop your car.*

American Oil Research has found a solution—the American FINAL/FILTER, the red filter you'll see on the gasoline pump nozzle *only at Standard Oil Dealers.* At no extra cost, you get AMERICAN® Brand Gasolines Final Filtered as they go into your tank to protect you against fuel-line-filter clogging and frequent replacement. Look for the new American FINAL/FILTER at Standard Oil Dealers. It's the gasoline improvement you can actually see . . . your assurance of the final step to the finest gasoline ever sold!

Sees Tax Chaos if Suburbs Get Back at Detroit

Chief Opponent Hits Retaliation

Berkley's Mayor Kuhn Warns of Complications in Legal Fight

DETROIT (AP) — Suburbs which levy income taxes in retaliation against Detroit's tax will be complicating the legal fight against Detroit's tax, the head of the Vigilance Tax Committee said yesterday.

★ ★ ★

Berkley Mayor George W. Kuhn said "even more tax chaos" would result from retaliation measures.

He said he will ask the committee to reaffirm its earlier stand against suburban income taxes when it meets at Pleasant Ridge Saturday.

Kuhn's statement followed action by the Dearborn City Council Tuesday night toward enacting a 1 per cent income tax similar to Detroit's. Hamtramck and Warren also are considering local income taxes.

★ ★ ★

Alfred M. Pelham, Detroit city controller, said Detroit would lose about $4 million of the estimated $35 million yield from its tax if the larger industrialized suburbs enacted their own taxes.

He added, however, "We recognize that some suburbs have the same financial problems as Detroit and certainly the same rights to enact their own taxes to solve them."

Detroit's tax was ruled legal Monday by Wayne County Circuit Judge Neal E. Fitzgerald but Kuhn said an appeal to the State Supreme Court is planned.

★ ★ ★

Other discussion at Saturday's meeting, he said, will concern a possible petition campaign for a statewide referendum vote to outlaw a city from taxing nonresidents.

MOST PATRIOTIC—A float depicting 186 years of America's defense of freedom was judged the most patriotic float in the Fourth of July parade in Utica yesterday. Entered by the Utica branch of the National Bank of Detroit, the float depicted soldiers from the Revolutionary War and World War I along with the soldier of today against a background of the famous Liberty Bell. Thousands lined the streets to watch the colorful parade.

Pontiac Press Photo

Clarkston's 4th a 'Firecracker'

Record Crowds Turn Out for Parade, Show; Jaycee Float Wins

CLARKSTON — Yesterday's parade was called the biggest and best ever by observers. The parade and fireworks display in the evening attracted record crowds.

The Junior Chamber of Commerce float, fashioned from a pontoon boat, took first prize in the adult float competition and, the "Old Print Shop" float entered by the Clarkston News was the runner-up.

In the individual children's float competition, the Northview Subdivision entry took top honors. It featured a large Declaration of Independence document and was decorated with some 4,000 colored paper napkins.

Second prize went to the sailboat float entered by the Overlook Yacht Club.

The award for the best children's costumes went to the C. P. Bennett youngsters, Larry, 4, and Mark, 5, of 6620 Northview Dr., who were dressed as firecrackers.

Runnerup was Richard Kroniger, 6573 Maple Dr., who drove a go-cart with a rocket perched at the rear on a launching pad.

All of the many events of the day, sponsored by the local merchants, attracted large crowds. The program was presented by the Independence Township Firefighters Association.

Quits Council Post for Walled Lake Job

WALLED LAKE — Councilman Marshall E. Taylor has resigned his elected post to take a salaried job with the city.

The former mayor assumed his new duties today, working directly under City Manager Harold Millspaugh.

"I've been considering the change for quite some time," said Taylor. "I think I can perform as good a service to citizens in my new position as I did on the council.

"The city manager said he needed an additional man working with him and since I had the chance to meet the public personally and learn their problems during my term in office I believe I can do the job."

Taylor, 58, of 45350 Pontiac Trail, will be working full-time for the city during the summer months and part-time in the winter, when he also drives a bus for the Walled Lake School System.

His salary from the city will be about $3,000. Councilmen receive $100 a year.

WITH COUNCIL SINCE '54

A member of the council since 1954 when Walled Lake incorporated, Taylor served as mayor during the 1961-62 year.

He was the city's representative on the Oakland County Board of Supervisors for six years, losing the appointed position this past April to a former councilman, E. V. Mercer.

Taylor's resignation leaves two vacancies on the City Council to be filled.

Clyde A. Mottor, a councilman for one year, resigned July 1, blaming dissension among the councilmen for his action.

It is expected that names of candidates for the two positions will be submitted by the council at its next meeting July 17.

Both appointees would serve the terms of Mottor and Taylor until next April, when they would have to seek election.

FRED GRIBBLE

Royal Oak Teacher New Stone Principal

Fred Gribble, a teacher at Parker Elementary School in Royal Oak, has been appointed principal of the Stone Elementary School by the Avondale Board of Education.

A native of Ironwood, Gribble is a graduate of Northern Michigan College with a masters degree from the University of Michigan. He has taught in elementary schools in Royal Oak and Waterford for 12 years.

Gribble replaces Bernard Bland, who resigned to move to Arizona.

★ ★

In other action, the school board has authorized an additional elementary teacher to reduce the class load, a full-time guidance counselor at the junior high school level, an art specialist for the elementary school program and a parttime elementary school librarian.

Thousands Wide-Eyed at Colorful Utica Floats

UTICA — Thousands of wide-eyed spectatore jammed the streets to watch the Fourth of July parade here.

The crowd barely left room for the parade to wind its colorful way through the city yesterday.

A procession of beautiful and imaginative floats, precision-marching units, high school bands playing stirring march music and a host of other brightly decorated entries kept the rapt attention of spectators from throughout the area for more than an hour and a half.

At the head of the parade were Gov. John B. Swainson, acting as parade marshal, and U.S. Congressman James G. O'Hara, D-Utica. A number of other dignitaries and candidates for elective offices also joined the parade.

The parade, part of the 16th annual homecoming celebration sponsored by the Utica Lions Club, began after Gov. Swainson's crowning of Irene Heydens as Miss Utica of 1962.

MOST BEAUTIFUL

First prizes were awarded to floats entered in four categories. Judged most beautiful was a blue and silver float bearing three pretty girls entered by Scheper's Electric of Utica.

Second most beautiful float was the Village of Algonac's entry, while the Romeo Peach Festival float took third place.

MOST PATRIOTIC

Most patriotic float was judged to be the Utica branch of National Bank of Detroit entry depicting soldiers from the Revolutionary War, World War I and today's armed forces against a background of the famous Liberty Bell.

★ ★ ★

Best service club float award went to the Fraser Lions Club for an entry depicting a split sunburst carrying Miss Fraser of 1962 in its midst. Second prize went to the Utica Junior Police Association and third prize to Boy Scout Troop 81 of Utica.

Most unusual pet was an alligator entered by J. Q. Krebiehl. Best mounted horse prize went to Ronald Ruttman. Diana Schlacht won first place for best decorated bicycle and most comical kiddie was Patty Pagle.

MOST COMICAL

A car decorated with a dinosaur figure and carrying a number of costumed characters imitating the "Flintstones" television show was judged the most comical entry in the parade.

A day of games and booths, a children's program and dancing followed the parade. The annual event was climaxed by a fireworks display.

Mark 50th Anniversary at Gathering in Oxford

OXFORD—Friends and relatives recently gathered at the home of Mr. and Mrs. Jay J. Green, at 51 N. Washington St., to help them celebrate their 50th wedding anniversary.

★ ★ ★

Married June 29, 1912, the Greens have a son, Robert Green of Hilladale, and a granddaughter.

State Woman Drowns in Ohio River Mishap

PADUCAH, Ky. (AP) — Mrs. Norma DeMott, 29, of Battle Creek, drowned in the Ohio River about 40 miles northeast of here yesterday.

Officials said Mrs. DeMott has been visiting relatives in Harrisburg, Ill., and went to the river on a picnic. She was wading and stepped off a sandbar into about 12 feet of water.

Returned to Presidency

DRYDEN—William Thorman Jr. has been re-elected president of the Dryden Board of Education. Other officers re-elected were vice president Donald Travis, secretary Mrs. Ellen Phelan and treasurer Fred Thienkey.

To Participate in 'Midsummer Dream' Benefit

SHELBY TOWNSHIP — Ten township and Utica area women will be among 21 models displaying "Midsummer Dream" fashions Sunday at the Harvey Hansen gardens at 46727 Ryan Road.

★ ★ ★

The 2 p.m. fashion show will benefit the Japanese missions of the Catholic Congregation of the Sacred Hearts.

Original designs for summer wear by Sophia Borzrichowski of Utica will be modeled along with hair styles by Bernard Hairstylists of Utica.

★ ★ ★

Rev. Felix Lesnek, a foreign missions procurator for the Society of the Propagation of the Faith, will talk on the work of the 13 Japanese missions of the Congregation of the Sacred Hearts.

6 Hurt in Manhole Blast

DETROIT (UPI) — Six persons were injured yesterday by a flash explosion and fire in a manhole here. Police said the fire apparently started when a truck tore down an overhead electrical wire. A short circuit was caused in wiring.

8 Bashful Beauties to Vie for Title of Miss Oxford

OXFORD — Yes, it's definite. There will be a Miss Oxford this year.

★ ★ ★

She will be one of eight girls who registered their aspirations to the title after the beauty contest was reopened without its previous talent requirement.

All the beautiful girls in the Oxford school district had shied away from the contest with such unanimity that it was called off because only one qualified entry had been received.

It was reopened when it was learned the Romeo Peach Queen contest, in which Miss Oxford will compete, had discarded its talent requirement this year.

Thus was dispelled the cloud of despair over Oxford, which knew all the time its girls were as beautiful as they were bashful.

Responsible for the town's recovered cheerfulness are Nancy Griffon, Janie Langley, Paula Mann, Phyllis Mann, Linda McWilliam, Judy Schoults, Carol Sue Seliff and Diane Wildey.

Judging Monday night at the Clothes Closet will be on personality, appearance, poise and speaking ability.

Judges will be Mrs. David Erlandson, wife of resident copublisher of the weekly Lake Orion Review, Mrs. Harold C. Fox, chairman of the Miss Orion contest held Monday, and Jim Dygert, Pontiac Press area news reporter.

Because of the small size of the shop, the contest is not open to the public.

School Program in Rochester Working Out

ROCHESTER — A large enrollment and a small deficit has kept intact the summer program of Rochester schools.

The board of education has decided not to drop summer school courses in leadership training and science for talented students after receiving a report from Supt. Donald C. Baldwin that an enrollment of 447 and some increased fees had kept the program's deficit below $250.

At its June 18 meeting, the school board had reluctantly agreed to drop the courses if an expected deficit of some $2,500 developed.

The action was to be taken to help trim $100,000 off the 1962-63 budget of $2.23-million after failure of a 4.5-mill tax increase proposal June 11.

The enrollment figure does not include driver training students.

To Arraign Physician for 'Joke' at Airport

DETROIT (AP) —Dr. Ronald S. Bennett of Oak Park faced arraignment today on charges he told a clerk at Detroit Metropolitan Airport his luggage contained a time bomb.

The FBI said Dr. Bennett told a woman employe at the American Airlines ticket office yesterday: "Be very careful with the small bag. It has a time bomb in it."

An agent said Dr. Bennett, of 21910 Eastwood St., called the incident a joke.

Newlywed John Kendalls

Honeymoon in East

MILFORD — Honeymooning at Cape Cod after a day-long stopover at Niagara Falls are newlywed Mr. and Mrs. John Sherman Kendall who exchanged their vows Saturday evening at the First Methodist Church, Ann Arbor.

Rev. Hoover Ruppert performed the candlelight ceremony.

MRS. JOHN S. KENDALL

Parents of the bride, the former Martha Jean Field, are Mr. and Mrs. William R. Field, 1575 Duck Lake Road. The bridegroom is the son of Mr. and Mrs. Howard A. Kendall of Detroit.

For her wedding the bride chose a floor-length gown of ivory peau de soie featuring a deep scoop neckline, long sleeves and a bustle back which swept into a chapel train.

★ ★ ★

The pearl and crystal crown that matched the pearl design on the front of her dress held a fingertip veil of silk illusion. She carried an arrangement of white sweetheart roses and Stephanotis centered with a Phalaenopsis orchid.

Barbara Ann Field was maid of honor for her sister. Bridesmaids were Madeline Kenis of Detroit and Beverely Broughton of Sault Sainte Marie, Ont.

Assisting his brother as best man was William R. Field. The guests were seated by William B. Cox of Ann Arbor and Dr. Lawrence B. Evens of Oklahoma.

★ ★ ★

A reception at the Phi Kappa Psi fraternity house in Ann Arbor followed the nuptials. The newlyweds will make their home in East Hartford, Conn.

New Prison Modern but No Country Club

"Stone walls do not a prison make, nor iron bars a cage."—Richard Lovelace, 1618-58.

★ ★ ★

WASHINGTON (UPI) — A group of ultramodern buildings with a "light and airy" appearance is taking shape in southern Illinois. The finished product will resemble a low, rambling electronics plants.

Actually it will house some of the nation's most hardened criminals.

Even Alcatraz may send some of its inmates to the new federal maximum security prison near Marion, Ill., when it is finished next March.

Unlike the fortress-like Alcatraz, the cell blocks at Marion will be made of pre-stressed concrete slabs put together in clean-lined contemporary style.

The first federal prison erected in more than 20 years, it will have a circular chapel with a fluted concrete roof and a dining room with concrete barrel vault ceiling.

A high wire fence and six toadstool-shaped guard towers may be the only clues to its real purpose.

Officials of the Federal Bureau of Prisons declare, however, that it will meet government standards for maximum security.

Since Atty. Gen. Robert F. Kennedy has announced that Alcatraz probably will be abandoned in the not-too-distant future, prison planners are considering whether to replace the proposed wire fence at Marion with a stone wall.

This might add another $1 million to the $10 million construction costs since a wall would have to be 20 feet high and have a foundation extending 6 feet underground.

If present plans prevail, the 12-foot fence on the inner side would be paralleled by a 10-foot fence several yards away. Both would be topped by barbed wire.

John E. Moran, construction administrator for the Bureau of Prisons, said Marion would hold from 600 to 800 prisoners. Most would occupy individual cells. The others would be in four-man or six-man dormitories.

The two-story cell blocks will have large glass windows to admit daylight. They will be barred with steel sash to prevent escapes.

★ ★ ★

"This was not designed to be another Alcatraz," Moran told UPI in an interview. "For one thing, the main deterrent to escape at Alcatraz are the cold and treacherous waters of San Francisco Bay."

EXPOSED 'ROCK'

The "Rock's" exposed position, however, has led to repair bills of more than $500,000 in recent years and contributed to its fantastically high cost of operation.

The Marion site is in the midst of Crab Orchard Lake Wildlife Refuge in the southern tip of Illinois. The prison was designed by Gyo Obata, of the St. Louis architectural firm of Hellmuth, Obata and Kassabaum. The firm, which designed the St. Louis airport, is known for its contemporary style.

James V. Bennett, director of federal prisons, put many of his own ideas into the plans for Marion. It will have a built-in school and vocational shops. The powerhouse and other maintenance facilities are placed outside the compound to avoid risk of seizure by rebellious inmates.

★ ★ ★

The administration building and staff quarters also are outside the fence. Instead of a gate, there is a roofed-over corridor leading out of the prison area.

If Alcatraz is shut down, its prisoners probably would be scattered among Marion, Leavenworth, Atlanta and McNeil Island. All are designed for maximum security.

Marion, now nearly 60 per cent complete, may begin accepting prisoners next April if work progresses on schedule.

PLACE FOR AGGRESSIVE

Fred. T. Wilkinson, associate director of the Bureau of Prisons, said Marion was envisioned primarily as a place for young, aggressive inmates who require close supervision and intensive training.

"We have planned mainly for single cells so that each prisoner will have some time for introspection," Wilkinson said. "But when he's not in that cell he'll be working, training or exercising and there'll be somebody to watch him do each."

South Attacked by Mosquitoes

Millions Invade Parts of Louisiana, Texas, Menacing Cattle

CAMERON, La. (AP)—Millions of mosquitoes have invaded parts of Louisiana and Texas on the Gulf of Mexico coast, menacing cattle herds and causing heavy losses to growers.

Agricultural experts estimated about 160,000 animals have lost an average of 10 pounds each because of constant movement trying to elude the pests. They said this meant a monetary loss of about $1.6 million.

That loss figure does not include the value of hundreds of animals that have died as a result of the hordes of mosquitoes. Agricultural agent Hadley Fontenot said more than 200 grown cattle and 500 calves have died in Cameron Parish, La., alone.

Some cattle choked to death when insects clogged their nostrils. Calves died after becoming mired in mud while trying to flee the pests.

Rep. T. A. Thompson, D-La., said in Washington the government's communicable disease control center in Atlanta, Ga., has been instructed to see what can be done to wipe out the mosquitoes in Cameron and Calcasieu parishes in Louisiana and Jefferson and Chambers counties in Texas.

Friends Play Costly Joke on Teetotaler

LONDON (AP)— Charlie Walther's antiliquor crusade so peeved his fellow club members they laced his orange juice with a stiff shot of alcohol.

That was how, a court was told Wednesday, Walther came to be nabbed drunk at the wheel of his car.

Walther's lawyer said Charlie's zealous antidrink campaign had annoyed other members of a political club in suburban Sydenham. One night when he temporarily left the clubroom someone poured booze into his soft drink.

The judge fined Walther $58.80.

Foresee Common Market Meeting of Chiefs

De Gaulle, Adenauer Want 'Little Summit'

PARIS (UPI) — French President Charles de Gaulle and West German Chancellor Konrad Adenauer were reported agreed today on the need for a European "little summit" meeting and closer military and economic ties between their countries.

They were to meet officially today (4 a.m. Pontiac Time) for the last time during the 87-year-old West German leader's six-day visit here.

The two "grand old men" of Western Europe were expected to confer alone for a half hour at the Elysee Palace, then be joined for another hour and a half by their foreign ministers.

A joint statement on the discussions held this week was to be published later this afternoon. The final three days of Adenauer's trip to France will be taken up with sight-seeing at Beauvais, Rouen, Bordeaux and Rheims, where he will leave Sunday for Bonn.

De Gaulle, 72, and the West German chancellor were said to have reached broad agreement on a variety of political topics, including:

—A "little summit" meeting of the six European Common Market government chiefs in Rome later this year, provided other Common Market members also agree.

—The need for speeding up negotiations on European political unity, regardless of whether Great Britain joins the Common Market.

—Closer cooperation between French and West German armed forces, particularly in the area of supply and bases. There was no question of merger of the armed forces commands of the two countries.

Adenauer yesterday laid a wreath at the tomb of France's unknown soldier at the Arc de Triomphe and later visited the Chateau of Versailles.

He hosted a dinner honoring De Gaulle and his wife at the French foreign office. A crowd of about 2,000 cheered them when they arrived later for a special gala performance of the Paris opera. De Gaulle and Adenauer stood side by side and waved to the crowds.

Among the problems discussed by the two leaders have been Britain's request for admission to the Common Market, the future of the North Atlantic Treaty Organization (NATO), Berlin and European political unity.

The purpose of the Rome conference would be to review both the problem of British entry into the Common Market and that of political unity.

The union talks have been suspended since a meeting of the six Common Market foreign ministers here April 17.

At that meeting Belgian Foreign Minister Paul-Henri Spaak and Netherlands Foreign Minister Joseph Luns flatly refused to continue the discussions until Britain is admitted to the Common Market.

Spaak has scheduled a visit to Bonn soon and Adenauer was expected to try and break down his stand.

A city hall reception yesterday for Adenauer was marred by a demonstration by Communist members of the city council.

Wearing official red-white-blue tricolor sashes, they shouted in unison as Adenauer entered: "No German revenge seekers here. Long live the DDR (East German Communist Republic)." Others in the hall then began applauding Adenauer, who did not appear disturbed by the incident.

When Students Wed

Upholds Dismissal

NEW YORK (AP)—St. John's University, a Roman Catholic school in Brooklyn, had the right to dismiss three students for taking part in a civil marriage ceremony, the Appellate Division of State Supreme Court has ruled.

The 3-2 ruling Tuesday reversed Supreme Court Justice George Eliperin who last month ordered the students reinstated.

Justice Eliperin had called the university regulations used in expelling the three vague and indefinite.

In its majority opinion, however, the appellate division said:

"When a university, in expelling a student, acts within its jurisdiction, not arbitrarily, but in the exercise of an honest discretion, based on facts within its knowledge, a court may not review the exercise of its discretion."

The court action was brought by Howard Glenn Carr, 23; Greta Schmidt Carr, 21, his wife; and Miss Jean Catto, 21, who served as a witness to the marriage.

The Carrs were married in a civil ceremony last March and then by a Roman Catholic priest a month later.

The university argued that the civil marriage was a serious violation of the canon law of the Church and caused a campus scandal.

Another student who served as a witness, John Sharkey, 21, of Elizabeth, N. J., also was dismissed.

Select Alabama Boy to Lead Organization

LONG BEACH (UPI) — H. Pettus Randall of Tuscaloosa, Ala., yesterday was elected president of Key Club International, a high school boys' service club sponsored by Kiwanis International.

Some 2,000 delegates from throughout the United States and Canada cast ballots in the final session of the four-day 19th annual convention.

Other new officers named included vice presidents Tom Brown of Blacksburg, Va., and William C. Morris of Pensacola, Fla.

The delegates voted to meet next summer, July 7-9, at Pittsburgh for their next international convention.

Alternate Your Shoes

AKRON — To make your shoes last longer, never wear the same pair two days in a row. That's the advice of shoe experts, who explain that alternating gives shoes a chance to dry out and lessens the deterioration rate of the leather and other materials in them.

Analyzes National CD Poll

EAST LANSING (UPI) — A national opinion poll on civil defense shows either people are more likely to believe that fallout shelters will not save them in case of a nuclear attack.

★ ★ ★

The national opinion survey, developed by Michigan State University and carried out by Elmer Roper, national pollster, also shows that people in New England are least likely to believe there will be a nuclear attack on the United States.

An analysis of the poll was made today by MSU Prof. David Berlo, head of the U. S. Department of Defense's project of assessing public opinion relating to civil defense.

Results of the poll were made public earlier this week at the annual governor's conference in Hershey, Pa., by Gov. Nelson Rockefeller of New York.

★ ★ ★

Rockefeller presented the survey on behalf of the governors' civil defense committee. The survey showed that of the 2,000 persons polled, 77 per cent favored a program of helping schools, colleges and hospitals to meet the costs of providing shelter areas.

ADDED INFORMATION

Additional information of the poll released today showed that 15 per cent of the persons surveyed who were classified in upper income levels said the United States would be the target of a nuclear attack in the next 10 or 20 years. This is compared to the 36 per cent polled with lower incomes saying the same thing.

★ ★ ★

The poll also showed that Negroes are more likely to believe there will be a nuclear attack.

In addition, Berlo noted that the poll showed people in south central United States are more likely to believe that there will be a nuclear attack.

★ ★ ★

He said the basic question among most people is whether a fallout shelter will protect them from the effects of a nuclear blast.

"People who are in favor of shelter know quite a bit about them," he said.

Berlo added that the poll showed that 51 per cent of those surveyed think shelters will save lives in case of a nuclear attack.

He said 33 per cent of professional and white collar workers polled favored shelters as a means of protection. Only 10 per cent of the farmers questioned thought fallout shelters would give them a chance of escaping radiation.

Of general agreement among those polled, Berlo said, was the fact that there was no relationship between political preferences and civil defense.

Toledo Man Elected as Head of Moose

ATLANTA (UPI) — Gordon Jeffrey, Toledo, Ohio, was named supreme governor of the Loyal Order of Moose yesterday during the closing Atlanta session of the group's annual convention.

The 6,000 delegates were scheduled to convene today at Mooseheaven, Fla., the Moose home for elderly citizens near Jacksonville. New officers will be installed at the final convention meeting at Mooseheaven.

Other officers elected yesterday were Robert H. Mollohan, Fairmont, W. Va., junior governor, and Thomas J. Grizzi, Memphis, Tenn., supreme prelate. Elected to the order's Supreme Council was Harold D. Rose, Mount Morris, Ill.

Annual bituminous coal output in Pennsylvania averages 100 million tons, and the state also produces about 30 million tons of anthracite.

Engine Trouble Forces Landing

TWA 707 Jetliner Takes 'Precautionary' Move on Kansas-LA Flight

KANSAS CITY, Mo. (UPI) — A Trans World Airlines Boeing 707 jetliner made a precautionary landing here early today because one of its engines developed indications of trouble on a routine Kansas City-Los Angeles flight.

The airlines said the plane was about 15 minutes out of Kansas City when a warning light indicated partial reverse thrust in the number four engine, on the left side.

The sleek four-engine craft, carrying 41 passengers and seven crew members, turned back to its point of origin.

The landing was routine although emergency equipment sped to the municipal airport. Port fire fighters and rescue workers were placed in ready positions.

TWA said that adjustments were made on the craft and it would continue its flight to the West Coast.

Waterspouts Spotted Near Crowded Beach

GULF BREEZE, Fla. (UPI) — Two waterspouts dipped from black clouds over Pensacola Bay yesterday and moved toward beaches packed with Independence Day bathers.

One spout dissipated before it reached land, however, and the other swept inland at this small resort and moved into nearby Orole Beach. There were no injuries but power was cut off at Gulf Breeze and four houses suffered an estimated $50,000 damage.

Seek to Ease Extension Act Trouble

Senate Opens New Sugar Bill Row

WASHINGTON (UPI) — The Senate today headed into round two of a fight over sugar imports that has strained diplomatic relations with some of the Latin American sugar-producing countries.

The politically controversial issue of health care for the nation's elder citizens was to be shunted aside temporarily until the sugar problem is disposed of.

Senate Democratic leaders said the plan to finance health benefits for the aged under Social Security would be debated the balance of the week, but no showdown votes were expected until next week.

The first order of business (at 11 a.m. Pontiac time) for the post-holiday session was a proposal to reserve 150,000 tons of sugar imports a year for allocation to certain Alliance for Progress partner countries.

DOMINICAN COMPLAINT

The Dominican Republic has complained bitterly that the compromise Sugar Extension Act passed by Congress Monday failed to give it a large enough share of the rich U.S. market.

Other Latin American countries, notably Peru and Argentina, also charged that their share was cut drastically.

In an effort to placate these suppliers, the administration proposed to reserve 150,000 tons of imports a year and allocate this at the discretion of President Kennedy to those nations feeling they were short-changed in the extension bill. It would be purchased at premium prices.

The proposed diplomatic accommodation represented a retreat by the administration from its original request to Congress for the elimination of all premiums and country-by-country quotas for imports.

The proposal was offered as a rider to an obscure House bill limiting the importation of adult honey bees. A number of senators served advance notice that a vote would come only after some oratorical fireworks.

Sen. William Proxmire, D-Wis., sponsored an amendment that would earmark the 150,000 tons by cutting off a like amount from the quotas already granted to more than one-half dozen other countries.

Democratic leaders virtually abandoned hope for finishing the welfare-medicare bill this week and set their sights for a showdown early next week.

AMENDED MEASURE

The measure was aired in off-and-on debate Tuesday but only one amendment came to a vote. The Senate added a provision to the welfare bill setting up a $750,000 child care program for migrant workers.

If the Senate approves the compromise medicare program, the House still presents a major problem to the Kennedy administration.

Speaker John W. McCormack said Tuesday the measure, the welfare portion of which the House has passed, could be sent back to the House Ways & Means Committee or to the House Rules Committee, which would decide whether to move it along to a House-Senate conference committee for differences to be ironed out.

★ ★ ★

Also, the House itself could send the bill to a conference committee but this would require unanimous consent. That would be almost impossible.

Hungary to Host 36 U.S. Farmers on Soviet Tour

BUDAPEST (UPI) — A group of 36 farmers from Tennessee arrived yesterday by air from Moscow for a four-day visit.

The Hungarian News Agency MTI said the group, which has visited Poland as well as the Soviet Union, will observe state farms and agricultural cooperatives and exchange views with Hungarian farm experts.

The Chamber of Agricultural Science will give a reception in honor of the American guests tomorrow, MTI said.

Hurt in Freak Mishap

ANNA, Ill. (UPI) — Otto Stroud, 67, of Christopher, Ill., received head injuries yesterday when a truck tire blew out, hurling a chunk of rubber through the windshield of his school bus, which had been converted into a mobile home.

THREE'S A CROWD — Benign expression of orangutan at the bottom of the pile doesn't seem to disturb one whit fellow zoo performers atop him as trio is trundled off to bed after a busy day at the children's zoo in Chicago.

'Seniority' Could Resolve Quarrel in Washington

WASHINGTON (UPI) — Rep. Gerald R. Ford Jr., R-Mich., today proposed that seniority be the compromise to resolve the dispute between the House and Senat appropriations committees that is holding up action on some important money bills.

★ ★ ★

Ford, a member of the House committee, said he would favor naming the man with greatest seniority as a conference committee chairman.

Under this procedure, Rep. Clarence Cannon, D-Mo., for instance, would be chairman of a conference group assigned to reach agreement on the appropriation for public works.

Cannon, chairman of the public works subcommittee as well as the full appropriations committee, has served in the House since 1923, compared to the 1937 starting date of his counterpart in the Senate, Sen. Allen J. Ellender, D-La.

★

Some Senate sources, however, said the plan would be loaded in favor of the House since Cannon outranks all senators in seniority including appropriations committee Chairman Carl Hayden, D-Ariz.

★ ★ ★

As chairman of the House Committee, Cannon could assign himself at will to a conference committee and be assured of being its chairman, it was said.

This would be technically possible, House sources conceded. "But it borders on the ridiculous" to think that Cannon would do it, they claimed.

Ford supported Cannon's contention that conference chairmanships should be shared by the House. The Senate has increased House-approved spending by an average of $3 billion a year for the last 10 years, he said, and a change in the conference procedure would help maintain the House's economies.

DENIES LABEL

Sen. Roman L. Hruska, R-Neb., denied the "spendthrift" label which House members attach to the Senate. He said that sometimes a House appropriations subcommittee, in pique, will deliberately leave out an essential item, forcing the Senate Appropriations Committee on which he serves to accept the responsibility for including it.

"Just give us a chance to report an appropriation bill first," he suggested. "Then we'll see that the increases we put in are not extravagances, but necessary to correct defects."

Pope Asks Penance for Council Opening

VATICAN CITY (UPI) — Pope John XXIII invited all Roman Catholics, in an encyclical letter published today, to do penance in preparation for the ecumenical council opening here in October.

The Pope reminded the world's 500 million Catholics that Christ himself had explicitly instructed on the need for penance—personal mortification in sorrow for one's sins. Pope John said "the church holds (penance) indispensible for the perfection of its life."

The Ecumenical Council—opening Oct. 11—has as its chief aim the renewal of Catholicism in the modern world, an attempt to perfect the church in the face of new problems.

The encyclical, entitled "Peni-tentiam Facere" (To Do Penance) after its opening latin words, was issued today but dated July 1, the Feast of the Most Precious Blood.

Work Record Shows That He's No Goof Off

OLEAN, N.Y. (UPI) — When Franklin R. Fowler retired after running Fowler's Dairy since 1871, he left a work record that will be hard to beat.

Friends said in his last 20 years on the job, he missed only one day from his 5 a.m. to 9:30 p.m. schedule, seven days a week, 52 weeks a year.

The Declaration of Independence is kept in a fireproof, shockproof and bombproof steel-and-concrete vault at night.

Jet Dumps Gasoline, Returns to Idlewild

NEW YORK (AP)—A Scandinavian Airlines DC-8 jet with 147 persons aboard returned to Idlewild Airport Wednesday night 45 minutes after taking off for Hamburg and Copenhagen. A spokesman said excessive oil consumption in one of the craft's four engines was to blame.

★ ★ ★

The big jet dumped its fuel over the Atlantic before returning to Idlewild.

★ ★ ★

The spokesman said the engine was replaced and the flight rescheduled for today.

The passengers spent the night in hotels.

French law requires that the term burgundy be applied only to that wine, both red and white, produced in the departments of the Cote d'Or, the Saone-et-Loire, and Yonne in the eastern part of the country.

40-Year Record of Accident-Free Driving Ended

CHATHAM, Ont. (AP)—Mayme Croke, 77, of Detroit, broke her 40-year, accident - free record Wednesday with a crash.

★ ★ ★

In court, where she was fined $13.50 for failing to yield the right-of-way, she said she had just received a rebate from her car insurance for 40 years without an accident.

Then she had a friend settle with the court for her. Mrs. Croke was unable, to sign her traffic ticket or bail bond slip because her broken right arm was in a cast.

At the approach of the breeding season the male salmon is known as a kipper. At that time it develops a sharp cartilaginous beak known as a "kip." The term kipper is also used for other fish when salted and smoke-dried.

Drop Larceny Case Against Pontiac Man

A simple larceny case against Erick Pearson, of 1290 Stanley St., has been dismissed in circuit court because of a lack of evidence showing intent to steal.

★ ★ ★

Pearson was accused of picking up a wallet belonging to Dona.d Isbell, 57 E. Colgate St., after Isbell left it in a bank.

Two Holdup Men Are Sentenced to Five-Year Terms

Identical 5 to 10-year sentences in Jackson Prison were ordered Tuesday for two accused holdup men who pleaded guilty last week to assault with intent to commit a felony.

Judge William Beer handed down the sentences against Robert H. Hills, 38, of 278 Oakland Ave., and William Yoho, 51, of Dearborn.

The pair was charged with the holdup last August of Food Town Market, 1200 Baldwin Ave.

An alleged accomplice, Homer T. Moreland, 28, of 617 Commerce Road, Commerce Township, pleaded guilty to armed robbery and will be sentenced Friday.

Cats eye is the name for two green gems that show a line of light caused by reflection from parallel fibers. The more valuable of the gems is a form of chrysoberyl, the other a variety of quartz.

Pacifists Demonstrate by March at Gettysburg

GETTYSBURG, Pa. (AP) — A small group of pacifists marched in silent protest against war Wednesday before this famed Civil War battlefield's Peace Light Memorial.

★ ★ ★

The demonstration, led by a group from York, Pa., registered opposition to armament buildups and nuclear testing.

In Jail and Out

Ben Bella, Revolutionist, Lives for Algeria

By United Press International

Mohammed Ben Bella, 43, to thousands the symbol of Algerian independence, is a sallow, humorless, dedicated revolutionary.

Ben Bella hoped to assume command of the revolutionary government when he was released in March after almost six years of detention in France. His imprisonment made him a near-martyr to many Algerians.

His latest split with Premier Ben Youssef Ben Khedda of the Algerian Provision Government (GPRA) stems from his opposition to the latter's wish to cooperate with France.

Ben Bella was one of the original nine who touched off the 7½-year revolution.

He was a symbol of hope and pride across Algeria — a dashing, purposeful rebel who brooked no interference, who sought only independence for his people.

However as the revolution drew to a close, the "moderate" members of the GPRA realized independence would follow faster in cooperation with France. They rejected Ben Bella's designs on ties with the Communist bloc.

FORMED THE OS

In 1947, Ben Bella and five other men all under 30 years of age, formed a group called the Secret Organization (OS).

The OS built itself gradually, raising and training an underground army of about 500 men, but only rarely going into action. Once, in 1949, an OS unit blew up a monument in Mostaganem and, that same year, Ben Bella himself led an armed raid on the central post office in Oran.

Little by little the OS attracted the attention and approval of other Algerians impatient with nationalist leaders Messali Hadj and Ferhat Abbas.

However, the days of the OS were numbered and the count ended when French police uncovered an OS plot in Bone in 1950.

Ben Bella was clapped into jail. The countdown to the start of the revolution marked time, until March 1952, when he escaped from jail in Blida. He made his way to Cairo and joined Mohammed Khider, Belkacem Krim and others.

The OS was finished, but the three in which it had been forged continued to burn, more brightly now than ever. Ben Bella and his colleagues, joined now in what they called the "Club of the Nine," began the job of building up an organization capable of launching a rebellion. They stayed in liaison with former OS members in Algeria, where the secret training and recruiting continued.

The Club of the Nine, in 1954, became the Revolutionary Committee for Unity and Action (CRUA), later to change its name again, this time to the National Liberation Front (FLN).

In the fall of 1954, the CRUA decided the time had come. The revolution began on Nov. 1.

Ben Bella stayed out of Algeria in order to dicker for the arms and support indispensable to the rebellion. He went to Rabat on a rebel mission in 1955 as the guest of King Mohammed V. With him went Ait Hocine, Khider and Mohammed Boudiaf.

BEN BELLA ARRESTED

In October the four Algerians boarded a chartered airliner, manned by a French crew to fly from Rabat to Tunis for a conference with Tunisian and Moroccan officials. King Mohammed had flown on ahead. The pilot of the plane, while airborne, received radio instructions from the tower in Algiers, ordering him to land there instead of in Tunis. He obeyed.

Ben Bella stepped out of the plane in Algiers to find himself surrounded by a ring of armored cars and French soldiers.

Some French officials had expected Ben Bella's capture to be a death blow to the rebellion, but it only added fuel to the flames.

Imprisoned on the tiny island of Aix in the Atlantic off the coast of France, Ben Bella became almost a legend to the fighting Algerians. "Liberez Ben Bella" came to be as frequent a cry at Moslem demonstrations in Algeria as "Vive le FLN."

* * *

When the Franco-rebel talks at Evian-Les-Bains began last spring, France suddenly moved Ben Bella from "hard" imprisonment on Aix to a chateau on the mainland.

* * *

However, the GPRA was put on notice that Ben Bella and his fellow detainees would be released only when the rebels agreed to a cease fire, and then would be sent to Rabat.

Last fall, Ben Bella and the other rebels went on a hunger strike that lasted for almost a month and forced France to agree to further liberalize their regime, to give other rebel prisoners "political" rather than "criminal" status, and to permit Ben Bella to maintain liaison with the GPRA.

NUNS' DAY — A sister of the St. Joseph's order, munching a hot dog, expresses the enjoyment of 854 nuns during the Minnesota-Boston Red Sox game Tuesday at Fenway Park which was designated as "Nuns' Day." Richard Cardinal Cushing, who was the official escort for the nuns, tossed out the first ball.

'Miss Free Cuba' Named by Exiles in Florida

MIAMI (UPI) — Aurora Prieto, a 20-year-old dark-haired beauty who fled from Cuba two years ago, has been named "Miss Free Cuba" and will represent Miami's Cuban exile colony in next week's Miss Universe Bauty Pageant.

A native of Sactic Spirtus in Cuba's Las Villas Province, Miss Prieto won over 20 other contestants.

Lewis T. Cummings, 217 Orchard Lake and Carolyn G. Harris, 217 Orchard Lake.

Edmund Bilski, 4016 W. 19 Mile Road, Royal Oak and Susanne A. DeGeorge, 15730 Addison, Southfield.

James D. Davis, Brighton and Christina P. Jaroslawski, 6307 Drayton, Clarkston.

Rex Allen, Warren, Mich. and Joan E. Podlecki, 24220 New Jersey, Southfield.

John P. Eppel, Summit, N.J. and Carol A. Petroff, 219 Cherokee.

Louis A. Williams, 162 South, Ortonville and Kay A. Uloth, 178 South, Ortonville.

John A. Wilson, 8625 S. Commerce, Walled Lake and Peggy A. McDaniel, 2630 Benstein, Walled Lake.

Bill to Ask U. S. Halt in Foreign Steel Buying

WASHINGTON (UPI) — A congressman from steel-producing Pensylvania said yesterday he has prepared a bill to halt increased U.S. government purchases of foreign-produced steel.

Rep. John P. Saylor, R-Pa., in a statement on his bill, criticized a recent U.S. Navy purchase of 3,500 tons of West German steel for missile ships.

Would Help Balance Money Flow

U. S. Invites Japan to Open Plants Here

TOKYO (AP) — The Kennedy administration has invited Japan to invest in building factories in the United States.

The invitation was announced by the Japanese foreign ministry and confirmed by a spokesman for the U.S. Embassy.

* * *

Wichita, Kan., Wilmington, N.C., Maine, New Jersey and areas on the West Coast were mentioned as regions where industrialization might be expanded with Japanese funds.

* * *

Such a development would help correct a U.S. adverse balance of payments situation, sources said. Japanese exports to the United States last year totaled nearly $1.5 billion. Imports from the United States total $1.2 billion.

* * *

Japanese plants have been established in Southeast Asia, Latin America and on a limited scale in Europe. But there had been no talk here about moving into the United States.

THROUGH EMBASSY

The invitation was reported in today's Nihon Keizai, a respected financial daily, which said the invitation was received from the U.S. Department of Commerce through the U.S. Embassy in Tokyo.

The foreign ministry confirmed the story.

A U.S. Embassy spokesman confirmed the offer but pointed out that the areas involved were not depressed regions but "areas of potential for further industrialization."

The spokesman said the offer was an extension abroad of programs by the various states to encourage investors from within the nation, resulting from the setting up of an Office of International Investment within the U.S. Department of Commerce.

* * *

He said Secretary of Commerce Luther H. Hodges had first suggested that the Japanese might be interested in such investment opportunities during a U.S.-Japan cabinet-level economic conference at Hakone, north of Tokyo last fall.

Since then, he added, the embassy here has been following up the matter with the foreign ministry.

* * *

Kansas and North Carolina were mentioned, he explained "because it so happened that we happened to have investment literature on these states on hand. But there are other areas too, such as Maine, New Jersey and areas on the West Coast."

The general Japanese reaction was one of surprise that a country as industrially advanced as the United States should seek much help from abroad.

Japanese business sources said the plan was still in an embryonic stage with many barriers involved, such as immigration laws relating to sending Japanese personnel to the United States, differences in management practices, and the gap between American and Japanese wage levels.

It was not known whether specific industries were mentioned in the American proposal.

The only sizable Japanese manufacturing venture to date in the United States is the Alaska Pulp Co. a government-backed firm that operates a mill at Sitka, Alaska.

Watusi Bands Invade Rwanda

Belgian News Agency Reports Armed Giants Enter New Republic

BRUSSELS, Belgium (UPI) — The Belgian news agency Inbel reported today that armed bands of Watusi tribesmen have crossed into the new African republic of Rwanda, according to information received by the Belgian embassy at Kigali.

Inbel said a band of about 100 of the giant warriors armed with rifles was reported in the Mutara region and another group of about 75 armed tribesmen was said to be advancing along Lake Kivu from Kisenyo toward southern Rwanda.

There were no reports of fighting thus far between the Watusi and Rwanda forces.

Rwanda was part of the Belgian trust territory of Ruanda-Urundi which was granted independence last Sunday. Urundi became the kingdom of Burundi.

New Envoy to China, Kirk, Meets Chiang

TAIPEI, Formosa (UPI) — Retired Adm. Alan G. Kirk presented his credentials as U. S. ambassador to President Chiang Kai-shek today.

Kirk told Chiang "my purpose and actions will mirror the will of the American people, of Congress and of my President . . . that neither friends nor enemy shall have any doubt of my government's determination to honor its treaty commitment to the Republic of China."

The United States has a mutual defense treaty with Chiang's government for the defense of Formosa and the Pescadores.

* * *

Chiang replied that U. S.-Chinese relationships were tested in World War II "and in the years since then, when we are faced with a common enemy, world communism."

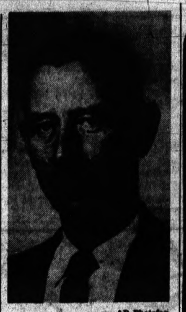
Demand Police Wear Nameplates in Brawls

MUNICH, Germany (UPI) — Residents of Schwabing, this city's Bohemian district, asked yesterday that all police wear nameplates or numbers so they can be identified in any future brawls.

Schwabing has been the scene of almost nightly street fights recently between police and mobs of students, artists and rowdies. The disorders began one night when police stopped three guitarists from playing in the main street and an audience rebelled.

Shriners Name Detroiter

TORONTO (UPI)—Charles E. Merrill of Detroit was elected imperial high priest and prophet of the North American Shriners at their convention here Wednesday.



AP Photofax

OFFERS SERVICES — Dr. Richard Ford, head of the legal medicine department at Harvard, has offered his services to investigate any death in Saskatchewan which might result from professional negligence by physicians.

'Lucky Loser' Discovers Wind Blowing His Way

MEMPHIS, Tenn. (UPI) — The area's "luckiest loser" title may belong to Harry Howard of Whitehaven. He was en route to the bank when a high wind scattered his 77 checks and $220 cash over a parking lot.

With the help of friends, Howard recovered the 77 checks — and $221 cash.

Plans Appeal to U. N.

GEORGETOWN, British Guinea (UPI) — Prime Minister Cheddi Jagan said yesterday he will ask the United Nations to consider Britain's postponement of talks aimed at giving independence to British Guiana.

Auto Show Set for Oct. 20 at Cobo Hall

By BEN PHLEGAR
AP Automotive Writer

DETROIT — After a year's layoff, sponsors of the National Auto Show are building up steam for their October presentation which they claim will be bigger and better than ever — just like their cars.

★ ★ ★

The show, which opens Oct. 20 in Detroit's Cobo Hall, will be the 44th in a series which began in 1900, but only the third since World War II.

★ ★ ★

Before the war the shows were an annual fixture in New York City. Attendance was reasonably good and the New York locale seemed to build up the national interest the auto manufacturers so much desired.

But the one New York postwar revival, in 1956, at the Coliseum, was only modestly successful at best.

★ ★ ★

Two years ago Detroit built Cobo Hall, a vast exhibition showplace on the Detroit River and the Automobile Manufacturers Association organized the 43rd auto show as the opening attraction.

The announced attendance of well over one million in the eight-day run was spectacular, especially in a state where some 500,000 people earn their daily living building cars.

★ ★ ★

National attention also was unusually high with newspapers and magazines issuing special sections and network television devoting a solid hour.

AN OUTSTANDING SUCCESS

Success was so outstanding that the sponsors took a year off to evaluate the situation. Now they're ready for another shot.

Once again they will have 400,000 square feet of exhibition space (they are quick to point out this is enough room for nine football fields), plus a 9,600-seat arena which was still in the building stage in 1960.

The arena will be used for a stage show dedicated to the glories of the automobile, using same talent from the world of music.

President Eisenhower visited the 1960 show and made a major address at the traditional black tie banquet of auto industry brass.

★ ★ ★

President Kennedy is expected to accept an invitation extended to him this year.

Network television (NBC) will be back for a one-hour show Sunday, Oct. 21.

Lending appeal will be the major styling changes in most of the 1963 model cars, plus the public introduction of at least one completely new car, the Buick Riviera.

The Riviera, described by some who have had an advance peek, as looking like an enlarged Karmann Ghia, is General Motors' answer to Ford's highly successful Thunderbird — a personal luxury car.

This also will be the first show for the Studebaker Avanti, another $4,500-bracket personal car now entering production.

★ ★ ★

The AMA proudly notes Angier Biddle Duke, chief of protocol for the State Department, recently declared Detroit at show time one of 10 "must" areas for foreign visitors.

The welcome to foreigners is limited to people, however. Importor if the American market, are ed cars, although still a major fac- barred from the show.

Ike Purchases Villa in Spain; Plans to Visit

LONDON (UPI)—Dwight D. Eisenhower has bought a villa on Spain's Costa del Sol and will visit there next month, the London Daily Express said yesterday.

The Express' gossip columnist, William Hickey, said the former president's villa is in the Marbella area, near the Duke of Windsor's estate and a golf course.

The Express said Eisenhower, who is to make a vacation trip to Europe next month, also will go to Scotland to stay in his own private apartment in Culzean Castle. The people of Scotland gave Eisenhower the ownership of the top floor of the castle as a reward for his role as supreme allied commander in World War II. He stayed there in past trips to Britain.

The Express said the Spanish villa is a one-story, five-room cottage.

Charcoal burns with a pale blue flame at high temperatures and glows at lower temperatures.

Moms Help Camp Fire Girls

350 Gals at Oweki for Classes

Three hundred and fifty Camp Fire Girls are enjoying day camp activities this month at the Pontiac Council's Camp Oweki near Clarkston.

Some 75 mothers are combining their skills for two weeks to provide this beneficial outdoor experience for Pontiac-area girls.

The girls have a choice of many activities suited to their age, ability and interest — open-fire cooking, swimming, hiking, boating, archery, songs, games and nature study.

PROUD OF CLASS

Volunteer day camp directors Mrs. George R. Felice and Mrs. Charles Cupp Jr. are particularly proud of the camp's nature program which utilizes natural materials for its activities such as reeds for weaving, grasses for dolls, stones for jewelry and wood for primitive furniture.

★ ★ ★

"Through our activities we hope our girls will grow to appreciate nature and gain self-reliance and self-confidence by learning to do for themselves," said Mrs. Felice, director of the camp now in session.

"Our girls and leaders need a minimum of facilities and equipment at our camp," she explained, "since our program grows as the girls explore nature."

A typical day at Camp Oweki starts at 9 a.m. The girls and leaders arrive by car or bus and gather for the flag ceremony, songs and announcements.

GROUPS OF 12

The girls then divide into units of 12 for their morning's activities. These may include swimming or making buddy burners for the next day's meal.

At 11 a.m., the girls start preparing lunch — gathering wood, starting fires, preparing food and cleaning up.

After a rest period, they go on to their afternoon programs, such as learning safety hints or weaving.

★ ★ ★

Plans are made for the following day, supplies put away, the daily Camp Oweki News read and then the final flag ceremony is held.

Day Camp coordinator Barbara Battin, the professional staff member assigned to help the volunteer mothers, said this program would not be possible without the wid community support Camp Fire receives.

The agency's year-round program is supported by the community through its contributions to the Pontiac Area United Fund. The camp is supported by the girls' annual candy sale, donations from service clubs and civic-minded individuals.

Camp aids, like Barbara Hughes, 13, (center) of North Merrimac Street, are ever willing to help instruct girls attending camp with the numerous activities, new to some. The attentive listeners are Lorna Garris (left) of Amberwood Street and Jean Hauxwell of Sunset Road, Lake Orion.

Pontiac Press Photos by Ed Noble

Among the wide-range of activities suited to age, ability, and interest are open-fire cooking, lashing, swimming, hiking, boating, archery, songs and games and nature study. Linda Sendegras (foreground) of East Tennyson Avenue, like the rest of the group of combined Camp Fire Girls and Bluebirds, seemed preoccupied with her weaving, when our Press photographer appeared on the scene of activity at Camp Oweki.

Proudly displaying her handmade badge with the Camp Fire Girls emblem is enthusiastic Blue Bird member, Judy Preston of New England Drive, Rochester.

Peggy Petz of Lawson Street, Lake Orion meditates in the midst of Camp Oweki's surroundings near Clarkston. Peggy is among the Pontiac area girls who are growing to appreciate nature as well as gaining self-reliance and self-confidence in learning to do for themselves.

Couple's Departure Notable

Close Shop, Give Clothes, Toys to Camp Oakland

It was like having 36 fairy godmothers wave their magic wands. Suddenly, 36 youngsters, five through 18 years old, at Camp Oakland were decked out last week in brand new outfits.

★ ★ ★

For Mr. and Mrs. G. L. Telfer it was their way of doing a good turn as they said goodby to the community.

The Telfers of Greenwood Street in Birmingham closed the doors of their Cheer Shop on South Woodward Avenue for the last time June 23.

GAVE IT AWAY

The following Monday they carried on with preparations for retiring to their home in Ocean Ridge, Fla. Their first project was to distribute toys and children's clothes left unsold after their final day of shopkeeping.

★ ★ ★

There was enough left to supply a calendar full of Birmingham-Bloomfield Hills birthday parties with Sunday best dresses, tantalizing toys and suits for well-groomed young men.

★ ★ ★

The Telfers could have chosen to sell everything out. Instead, they remembered the charitable projects which mothers of their young customers had told them about.

They sent baby clothes to The Christ Child Society, items for certain age groups to The American Field Service and the mentally retarded children at Pontiac State Hospital.

REMEMBERED CAMP

They remembered that Mrs. Ben D. Mills, head of the Women's Committee for Camp Oakland, had told them about the Oxford camp where young wards of the court are given a home at Girls' Ranch and Boys' Ranch.

On Monday of last week, the Telfers called Camp Oakland, saying they had some clothing and books they wished to give the children.

★ ★ ★

Their big station wagon arrived later at the camp loaded with hats, bathing suits, blouses, shirts, raincoats, sweaters, blazers, slacks, shirts, ties, belts, slips, books and toys.

It was a real boost for Director William J. Matus, head of the large camp family of 36.

★ ★ ★

"Like kids everywhere, these kids are clothes conscious," Mr. Matus said, ". . . especially the girls. They read the magazines about Ben Casey blouses and all these nice things they want to buy that I can't afford."

Personals

Gathering Sunday for the annual reunion at the home of the Robert Goffs, Upper Straits Boulevard, West Bloomfield Township, were members of the Fred Aldrich family.

The Fred Aldriches of Keego Harbor, parents of the hostess, were present, also her aunt and uncle, the Ollie Schrams of Rosewood Place, Herbert Aldrich and Mrs. Kenneth Wells, both of Holly, and the William Vaillencourts of Lake Orion.

★ ★ ★

Kay M. Hamilton, daughter of Mr. and Mrs. Kenneth M. Hamilton, left Saturday to attend summer school at the University of Guadalajara, Jalisco, Mexico, where she will study Spanish literature, songs and dances. Miss Hamilton is a senior at Central Michigan University, Mt. Pleasant.

★ ★ ★

More than 2,500 freshmen who expect to enter Western Michigan University for the first time next fall are spending two days this summer visiting the campus. Pontiac area students attending are Richton Appel, Thomas Hansz, Susan Putnam, Loretta Wanra, Thomas E. McKinnon, Dallas E. Merrick and Judith A. Davidson.

Others from Pontiac are Sydney D. Swindells, Carol Klopman, Betty May Bell, Thomasina Bessent and Pamela Morris.

"Refreshing!"—that's what Gerry Gilfillan of Northumberland Street, Rochester, replied after our Press photographer caught her taking a drink following one of the hiking sessions at Camp Oweki. Camp Fire Girls attending the day camp this month number some 350.

Nightly pinups can cause baldness. So try to have your hair cut in such a way that it will hold its set, without pins.

To Honor Volunteers at Hospital

Volunteers serving in the Oakland County Medical Care Facility and their families will be guests during a 2 to 4 p. m. tea reception given by the officers and staff Sunday at the hospital on North Telegraph Road.

The occasion will give Hospital Manager Thomas J. Leonard his first opportunity this year to express appreciation for the volunteer services extended the hospital over the years.

Mr. Leonard will also cite the recent expansion of the volunteer services offered by the American Red Cross and Future Nurses Clubs, as well as the range of services for patient welfare and comfort offered by churches, women's clubs and other civic troupes throughout the country.

Singled out for special mention will be the hospital's two chaplains the Rev. Gilbert Gibson of the Central Christian Church and Rev. Norman Sanders of the Oxford Baptist Church, Oxford.

★ ★ ★

Hostesses for the affair will be Superintendent of Nurses Mrs. Warren Oakley, R. N.; Volunteer Coordinator Mrs. Edith Blocher, L.P.N.; Nursing Instructor Mrs. Paul Kemp, L.P.A.N.; and Physical Therapy Aide Mrs. Margaret Evans.

Others on hostess duty will be Mrs. Harry Cwikiel, R. N., of Commerce, and Mrs. Dorothy Smith, R. N., of Troy. Mrs. Oakley and Mrs. Cwikiel will pour.

Sylvan Shores Celebrates 4th With Parade

The annual costume and vehicle parade was held in Sylvan Shores subdivision, Waterford Township, as part of the Fourth of July celebration.

Numerous bikes gaily decorated in bunting or flowers, and children in costumes highlighted the parade.

★ ★ ★

The prize for the funniest costume went to Donald Bradford and Johnny Hoffman; the most patriotic to Brian Leigh; the most original, an astronaut, was Roger Wagner. The most cleverly decorated vehicle was driven by Tommy Gottschalk.

Judges were Mr. and Mrs. Austin D. Esler and Mrs. William Hutchinson, all of Shore View Drive.

The committee in charge of the day's activities were Ronel White, John Gottschalk, Mrs. Clare J. Hinckley and Mrs. Russell A. Grover.

Sun and Shampoos Go Together Here

Clean hair is so important to the glamour set at St. Tropez — on the French Riviera — that a beauty salon has been set up right on the beach to give "instant" shampoo-and-set service.

Beauty-conscious beauties at this famous resort can enjoy sun and shampoos at the same time!

Abby's With You, Mom

Don't Comfort Tot Too Soon

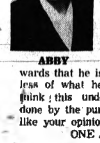
By ABIGAIL VAN BUREN

DEAR ABBY: My husband and I totally disagree on one subject and want you to settle it. When I punish our three-year-old child (usually by a spanking) I leave him for 10 to 30 minutes to ponder what he has done wrong. Then when he comes to me and tells me he is sorry, I forgive him and assure him that I love him.

My husband will spank the child and, while he is still crying, he'll pick him up and kiss him and comfort him.

He believes that the spanking is the punishment, and it is necessary to assure the child immediately afterwards that he is loved regardless of what he has done. I think this undoes any good done by the punishment. We'd like your opinion.

ONE AGAINST ONE



ABBY

DEAR ONE: To kiss and comfort a child who is crying as a result of punishment gives the child the impression that perhaps you were wrong in punishing him, and are seeking HIS forgiveness.

★ ★ ★

DEAR ABBY: Recently you had a letter in your column from a mother who was "disgusted" because her daughter received a corsage made of dog biscuits!

Abby, didn't you know that when a girl reaches her 12th birthday she gets a lollipop corsage? On her 13th she gets a bubble gum corsage? On her 14th it's dog biscuits? For her 15th it's life savers, and on her 16th it's sugar cubes?

KATHIE

DEAR KATHIE: I must be the original "cube" because this is all news to me. Thanks for putting me wise. What's 17th, 18th and 19th?

★ ★ ★

DEAR ABBY: The young man who wondered about having his bread buttered by his lady friend might try this:

For 25 years I have been buttering bread for my husband. When I pass the buttered bread to him he kisses my fingertips. He claims this is the most exciting part of the meal. I agree. Wouldn't you?

STILL ROMANTIC

DEAR STILL: You bet. It's better than dessert, and not as fattening.

★ ★ ★

How's the world treating you? For a personal, unpublished reply, send a self-addressed, stamped envelope to ABBY, care of The Pontiac Press.

★ ★ ★

For Abby's booklet, "How to Have A Lovely Wedding," send 50 cents to ABBY, care of The Pontiac Press, Box 3363, Beverly Hills, Calif.

'Sweet' Towels

While dryer-drying is quick and effective for towels, it is desirable to dry dish towels out of doors occasionally — preferably on a breezy day and in bright sunshine. This helps to fluff and also to "sweeten" them.

Prevents 'Bends'

Use a long-handled string-mop dipped into sudsy water to wash ground floor windows. Then rinse with the hose.

MRS. JOHN G. STUDT

Wed Saturday in the Lakeland United Presbyterian Church, Waterford, were Lucretia Anne Creighton, daughter of the Robert G. Creightons, Wilkie Street to John G. Studt, son of the William J. Studts of Overridge Street, all of Waterford Township.

Studt-Creighton Vows

Wed in Waterford

Lucretia Anne Creighton exchanged vows with John Studt in an evening ceremony Saturday at the Lakeland United Presbyterian Church in Waterford.

The Rev. Roy F. Lambert officiated during the doublering ceremony.

Wearing a white peau de soie gown with sabrina neckline, the daughter of Mr. and Mrs. Robert G. Creighton of Wilkie Street in Waterford, wore a single strand of pearls complementing her bridal dress trimmed with seed pearls. She carried a white Bible topped with pink roses and white Stephanotis.

The matron of honor was Mrs. Charles Green of Midland, who wore pink peau de soie.

BRIDESMAIDS

Also preceding the bride up the aisle were bridesmaids Mrs. Truman Hammett and Mrs. Larry Bowen dressed in matching orchid peau de soie outfits. All carried white-carnations and rosebuds.

Seating the guests were the bridegroom's brother, Thomas Studt, Larry Bowen and Steven Strait of Mount Pleasant. Best man was Robert Studt also a brother of the bridegroom.

* * *

After a reception for 250 in the church parlor the newlyweds departed for Northern Michigan. Mr. Studt is enrolled at Ferris Institute. His fraternity is Delta Tau Epsilon.

The bridegroom's parents are Mr. and Mrs. William J. Studt of Overridge Road, Waterford. For her son's wedding Mrs. Studt chose Copenhagen blue silk organza over taffeta. Mrs. Creighton wore a green silk print sheath. Their corsages were white feathered carnations.

Now That Summer's Here

Get Your Arms in Shape

By JOSEPHINE LOWMAN

I am giving arms an unusual amount of attention just now because they are getting an unusual amount of exposure. Even during winter months the sleeveless dress has been the vogue.

Now that the upper arms are uncovered in regular clothes, play clothes and swim suits, women are especially aware of the condition of their arms.

Sometimes the problem is a heavy upper arm. If you are overweight, of course, a general loss in poundage will reduce the size. This is a difficult spot to reduce with exercise. The following is the best one I have found for this.

Stand tall. Raise the arms forward to shoulder height and shoulder width apart, palms facing. Now swing the arms down and back as far behind you as possible, palms turned up. Swing the arms forward again, palms facing, and then continue.

HELPFUL EXERCISE

The following exercise is helpful in reducing and firming. Stand tall and raise your arms overhead. Stretch toward the ceiling, all the way to your fingertips. Hold the stretch for a few moments. Relax and continue.

The Stretch is the thing! Now do the same exercise, but while stretching — hands out briskly and then in briskly. Continue.

The flabby upper arm perhaps bothers women most of all. Do the following exercise. Sit on the edge of a chair with your back straight. Take a weight in each hand. You can use books for weights. The books should be the same size.

*

Palms are toward the ceiling. Bend the elbows and touch the books to the shoulders. Straighten the arms out in front of you. Continue, bending and straightening the arms. Do this vigorously.

If you would like to have my leaflet, "Armful of Beauty," which contains arm exercises, send a stamped, self-addressed envelope with your request for leaflet No. 11 to Josephine Lowman in care of The Pontiac Press.

Triple Change in On for Weekend Travel

(UPI) — Triple entrendre costumes ideally suited for the weekend traveller are a highlight of the Herbert Sondheim summer collection designed by Sara Ripault.

One example: a sophisticated black cotton sheath covered by a grey and white printed cotton jacket and skirt. Another double life design from this house features a tunic length coat and matching dress in muted grey and white cotton tweed.

Excellent Choices

When selecting upholstery, excellent choice are vinyl plastics which can be sponged clean with soap or detergent suds or fabrics which can be shampooed with "dry" suds.

DAV Women Set Meeting

Disabled American Veterans Auxiliary No. 101 will meet 8 p.m. today at the Amvets Hall on Oakland Avenue.

* * *

This is the final meeting before installation of officers July 19.

Returning from the DAV convention at Niles were Amy Harp, Mrs. Jack Hutchins, Mrs. Maude Davison and Mrs. Francis Wessener.

American railroads, in the shipping of perishables, use about one half of the natural ice in the U.S.

Vinyl Plastic Covers

The newest "paperback" books don't look like paperbacks — and strictly speaking, they aren't.

Their covers are made of vinyl plastic so that fingermarks can be washed off with a sponge wrung out of soap or detergent suds.

Wears Her Grandmother's Locket in Marriage Rites at St. Benedict

An heirloom locket of her grandmother's was the only accessory Gertrude K. Herr wore for her marriage to Daniel E. Burch Saturday morning at St. Benedict's Church.

The Rev. Richard Thomas offered the nuptial Mass before an altar banked with white carnations.

★ ★ ★

Daughter of Mrs. Kathleen Herr of LaSalle Street and Ivan Herr of Royal Oak the bride wore an imported silk organza full-length gown with chapel train for her marriage. Silk illusion veiling fell from a pearl crown over Alencon lace portrait neckline.

★ ★ ★

Maid of honor Renee St. Dennis wore pink organza with matching accessories and carried a cascade of aquamarine carnations.

Bridesmaids Margaret St. Dennis and Mrs. Ivan Herr Jr. appeared in aquamarine organza and carried pink carnation cascades.

CARRIES ROSES

The bride carried white roses and carnations atop her bridal missal.

Best man for his brother's wedding was Michael Burch. William Burch was an usher along with the bride's brother Ivan Herr.

★ ★ ★

A family breakfast followed the ceremony and an evening reception at the V. F. W. Hall in Drayton Plains also honored the newlyweds.

Mrs. Herr selected a beige silk for her daughter's wedding and wore aquamarine accessories and a carnation corsage.

The bridegroom's parents are Mrs. Henry Burch of Monroe Street and the late Mr. Burch. For her son's wedding Mrs. Burch wore pink lace with a rose and carnation corsage.

The newlyweds will be at home on East Huron Street after their honeymoon.

Gertrude K. Herr became Mrs. Daniel E. Burch during Saturday's ceremony in St. Benedict's Church. She is the daughter of Mrs. Kathleen Herr of LaSalle Street and Ivan Herr of Royal Oak. Parents of the bridegroom are Mrs. Henry Burch of Monroe Street and the late Mr. Burch.

MRS. DANIEL E. BURCH

The mosque at Cordova in Southern Spain, one of the finest buildings of Moorish origin, was begun in the eighth century.

Units Hear Reports on Africa

Reports on Africa were shared by the missionary circles of the Joslyn Avenue United Presbyterian Church during last month's meetings.

★ ★ ★

Naomi Circle met at the home of Mrs. Frank DeRousse, Mrs. M. W. Farnsworth gave the Bible study on Romans and Mrs. Ralph Ferdon reported on the missionary recently returned from Africa. Mrs. William Ward was appointed to arrange the Women's Association July 17 picnic at the JayCee Park, 12 noon.

Ruth Circle was entertained at the home of Mrs. Fred Thierren. Bible study was presented by Mrs. Eugene Holsington and a discussion of current news items from Africa followed. Mrs. Alford Denman is assisting with plans for the Women's Association picnic, July 17.

PRESENTED PROGRAM

Mrs. Fred Bohlman gave the Bible study on the Book of Romans when she opened her home to members of the Mary-Martha Circle. The program on Africa was given by Mrs. Sid Deacon and the picnic arrangements are being handled by Mrs. Charles Esralian. There will be no August meeting for this group.

★ ★ ★

Mrs. Gerald Rose gave the report on Africa when the Lydia Circle met at the home of Mrs. Hugh Stimson. The hostess opened the meeting with a poem entitled "God's World" and Mrs. Howard Dow gave the Bible Study.

Mrs. Gerald Rose and Mrs. James Newbigging served the Rescue Mission the past month.

Mrs. Elton Thorpe is on the committee for the July 17 picnic.

'Hills' Miss Will Wed

Mr. and Mrs. Bernard F. Powell of Bloomfield Hills announced the engagement of their daughter Kathleen Ann to John Archangeli, son of Mr. and Mrs. Martin Archangeli of Birmingham.

Miss Powell, now spending eight weeks in Europe, attended Manhattanville College of the Sacred Heart. Purchase, N. Y. The prospective bridegroom graduated this June from Hobart College in Geneva, N. Y.

The couple plans a late fall wedding.

Fall vows are planned by Kathleen Ann Powell, daughter of Mr. and Mrs. Bernard F. Powell of Bloomfield Hills, and John Archangeli, son of Mr. and Mrs. Martin Archangeli of Birmingham.

KATHLEEN ANN POWELL

Although Americans are getting taller and heavier, hat manufacturers report that most people still buy hats size 7¼ or smaller.

Under present methods of manufacturing about 15 to 20 per cent the total weight of an automobile is aluminum.

Hard Liquor Loses in Survey

Teen-Agers Vote in Favor of Beer, Wine

BY EUGENE GILBERT
President, Gilbert Youth Research Co. Inc.

A bare majority of American young people see nothing wrong with drinking beer or wine, but they draw the line, in theory at least, when it comes to hard liquor.

These conclusions come from a nationwide survey we have just made of more than 1,000 teen-agers.

Fifty-one per cent said that young people should be allowed to drink beer; only 17 per cent approved hard liquor.

Their theories do not necessarily jibe, however, with the facts of life on drinking.

Not too long ago, an even more extensive survey indicated that 79 per cent of those between 15 and 17 have had one or more alcoholic drinks in their young lives. Fifty-six per cent of the boys and 35 per cent of the girls then said they drank beer often; while 35 per cent of th boys and 20 per cent of the girls conceded they frequently downed cocktails or soft drinks spiked with hard liquor.

In the present survey, the majority of the high school set seemed to feel that if you can drink legally, you won't be tempted to do so on the sly.

"If they weren't allowed to, they would do it anyway—in fact, more, because they'd think they were geting away with something," said 16-year-old Cindy Kahler of Vermillion S. D., when questioned by a researcher about teen-age beer drinking.

Several said that beer drinking should take place only at home when adults are present.

Jeremy Strickland, 16, of River Edge, N.J., summed up many youthful opinions:

"Trying to prevent teenagers from drinking while adults freely indulge is one of the best ways of making teenagers drink."

But Kathie Crowe, 15, of Manitowoc, Wis., countered with the statement: "Beer serves no purpose at all in this modern world." And Beth Stephens, 18, of Macon, Ga., told us "it starts a bad habit and is ridiculous."

A few more girls—52 per cent—than boys—50 per cent—said that teen-agers should be allowed to drink beer.

What about wine, our questioners asked.

Teen-agers were even more liberal on this. Again girls were more approving than boys. Of the total, 64 per cent of the girls and 59 per cent of the boys questioned said the use of wine was all right.

Only 17 per cent of the youth surveyed said teen-agers should have access to hard liquor.

Iola Ann Williams, 14, of Pocatello, Idaho, said its use "can be very damaging to useful minds," while Carey Allan, 15, of Chicago, said simply: "There is nothing to be gained by it."

However, 18-year-olc Richard Truger of Oaklahoma City said flatly: "If they want to, it's there own business."

Teen-agers drink for a number of reasons, said the youths questioned. But one of the main ones is "just to show off."

Some said teens drink because they see their parents do it, they want to impress the "gang," they want to feel grown up and the fact that it is illegal for them to drink gives them a sense of adventure.

Many said the best way to cut down on teen-age drinking is to teach, graphically, the dangers of alcohol to the body. Tighten liquor laws would help, too, some said.

Others said better recreation is one answer.

* * *

The problem will continue, however, "if the parents allow it in the home," in the opinion of one Philadelphia girl.

His Daughter's a Banker

Tracy 'Touches' Dear Ol' Dad

By HAL BOYLE

NEW YORK (AP)—One of the sterner tests of the principle of family togetherness is a child's demand for a weekly allowance.

Looking back now, it seems the first thing my daughter, Tracy Ann, did after we pinned her first diaper on, was to stretch out a pudgy small hand and demand:

"Where's my allowance?" Ever since then I've been a miser at bay.

At the start it wasn't much of a problem.

BOYLE

"Okay," I told Tracy. "I'll pay you a penny a century."

This was good for laughs for a couple of years. Then my daughter awoke to the difference between copper and silver. Since then there has been nothing but trouble.

★ ★ ★

For a while I thought it was kind of cute to hold out a nickel and a dime in my hand, and watch her pick the nickel because it was bigger.

But her favorite playmates are Susie and Markie, the children of Mark Stumpf, attorney who lives down the hall, and the time came when I suspect Tracy got the benefit of counsel.

LEARNED TO CHOOSE

First she learned to choose the dime from the nickel, then the time came when she peeled off both coins.

Then I made the error of telling her that when I once demanded a weekly allowance of a quarter from my father, he told me: "Sure, son, here's the broom. Sweep out the store."

★ ★ ★

My daughter thought that over for about two swift seconds.

"I know where the broom is, Papa," she replied. "But what did you do with your daddy's store?"

★ ★ ★

Reluctantly I had to fork over the two-bits. Over the years the demands have steadily grown. Now and then I raise a feeble flag of resistance, but get nowhere.

WHAT'S IT FOR?

Such as:

"What do you get your weekly allowance for?"

"For being good."

"When was the last time you were good?"

"I plead the Fifth Amendment."

When Tracy was 7, the allowance level soared to 50 cents a week, 10 per cent of which she agreed to plunk into the piggy bank.

What do kids today do with all their money? I'll tell you what they do in our neighborhood. They swagger up to Sam, the ice cream man, put their foot on the wheel of his cart and say:

"Okay, Sam, I'm buying this round."

★ ★ ★

Tracy is now 9 years old. Recently she decided to raise her weekly allowance to a dollar, of which she agreed to bank 35 cents. I made a small scream and a long speech, then caved in, borrowed the money from my wife, and paid the alowance.

FROM MOMMY

As my wealthy daughter trudged down the hall I heard one of her playmates ask her:

"Gee, who did you it from—the big shot?"

"Yes," answered Tracy. "From Mommy."

My friends who have older children have small sympathy for my hollers.

★ ★ ★

"When kids get to be teen-agers, they think nothing of asking for $5 at a clip," they say. "Just you wait."

Well, I'm in no hurry. I can wait.

My idea now is to hold out until I get Social Security from Uncle Sam—and then split my allowance 50-50 with my daughter.

Bermudas Northernmost Group of Coral Isles

HAMILTON, Bermuda (UPI)—The Bermudas are the most northerly group of coral islands in the world.

They are 568 statute miles due east from Cape Hatteras, North Carolina; 666 miles from the port of New York; 720 miles from the port of Halifax, Nova Scotia; and 2,928 miles from the port of Liverpool, England.

SKILLET COOKIES — No need to heat the oven in order to make cookies. Not when they're Skillet Cookies, these crisp, chewy sweets that are actually made in a frying pan. "Bite-size" shredded rice biscuits are used in the cookie mixture as well as for the crumbs in which the crunchy balls are rolled. You'll want to keep some on hand, stored in a covered container, to serve for dessert or with cold drinks.

Cookies Made on Top of Stove

You may find it hard to believe that cookies can be made in a frying pan. Prove to yourself that it can be done by trying these Skillet Cookies today. It takes no time at all to make a big batch.

★ ★ ★

The magic ingredient that makes them so easy and so good is cereal — "bite-size" shredded rice biscuits, to be exact. Some of the biscuits are added to eggs, sugar and dates that have been cooked together in a large skillet. Nuts are stirred in, too.

Then teaspoonsful of this mixture are rolled in crumbs made from additional "bite-size" biscuits.

As a summertime sweet, Skillet Cookies are tops. You can make them quickly without heating up the kitchen — or yourself. They're fine for dessert served alone, or with fruit or ice cream.

Skillet Cookies

5½ cups "bite-size" shredded rice biscuits
2 eggs
1 cup sugar
1½ cups chopped dates
½ cup coarsely chopped nuts
1 teaspoon vanilla
½ teaspoon salt

Coarsely crush 4 cups of the "bite-size" shredded rice biscuits with rollingpin. Set aside for later use. Beat eggs slightly in 6-cup bowl. Add sugar and dates. Mix well. Pour into large skillet.

Cook over LOW heat, stirring constantly until dates are soft and mixture is thick (about 5 minutes). Stir in nuts, vanilla, and salt. Add crushed shredded rice biscuits. Mix well. Set aside to cool. Roll remaining 1½ cups of the shredded rice biscuits into fine crumbs. When date mixture has cooled, drop from teaspoon onto crumbs and roll into balls. Makes about 3 dozen 1½-inch ball cookies.

Mix Up Lobster in Ale Dressing

Never underestimate the power of a good, tangy dressing to bring zest to a fine salad. Golden beer or ale blends with mayonnaise, minced onion, celery seed, Tabasco and salt for a luscious, creamy dressing that enhances the succulent lobster flavor. After lightly mixing the lobster and salad dressing together, simply fill split frankfurter rolls which have been lined with your favorite salad greens.

★ ★ ★

Perfect with a salad supper is a bowl of good hot soup, and a flavorful accompaniment to the lobster might be pea or tomato soup topped with onion rings.

Lobster Salad

2 cans (5 ounces each) lobster, broken (about 2 cups)
½ cup diced green pepper
⅓ cup sliced pickle
1 tablespoon lemon juice
Salad dressing
Salad greens
Frankfurter rolls

Toss together lightly lobster, green pepper and pickle. Sprinkle with lemon juice. Add dressing and mix lightly. Arrange on salad greens in rolls. YIELD: 6 servings.

Salad Dressing

¼ cup beer or ale
¾ cup mayonnaise
1 teaspoon celery seed
2 teaspoons minced onion
½ teaspoon salt
¼ teaspoon Tabasco

Blend beer into mayonnaise; add remaining ingredients. Stir until well mixed.

Sweeten With Honey

Make iced tea this delicious way. Make fresh tea double strength, strain and pour over crushed ice in tall glasses. Serve with equal parts of honey and lemon juice well blended. Garnish with mint leaves.

Crushed Pineapple Hides in Dough for Shortcake

The king of the islands joins the queen of the berry patch? It's Pineapple Strawberry Shortcake, a delightful new taste sensation!

Sweet-tart pineapple is tucked within the confines of tender, rich shortcake. Shortcake made the good and easy way with biscuit mix. Crowned with a mouth-watering combination of juicy crushed pineapple and jewel-like strawberries, this is fare fit for a queen.

★ ★ ★

This new variation of the ever-popular shortcake can be carried to a picnic, nice as you please. Simply bake it at home, cool and wrap in individual packets of aluminum foil. Reheat the shortcake over the grill, unwrap and form a plate of the foil. Spoon on the berry and pineapple combination, and add a tower of whipped cream with a hint of nutmeg. Ah—what a treat!

Pineapple Strawberry Shortcake

2 cups biscuit mix
2 tablespoons sugar, if desired
¾ cup cream (or ½ cup milk plus ¼ cup melted butter)
1 can (8 oz.) crushed pineapple drained (reserving the juice)
fresh strawberries

Heat oven to 450 degees. Mix biscuit mix, sugar, cream and 2 tablespoons of pineapple well with fork. Beat 15 strokes. Knead gently 8 to 10 times on board lightly dusted with biscuit mix. Pat or roll dough into 9x8" rectangle. Cut into six 3" squares. Place an inch apart on ungreased baking sheet; bake 8 to 9 minutes.

Split and serve warm with a mixture of sweetened fresh strawberries, remaining crushed pineapple and juice between layers and over top. Garnish with whipped cream that has been flavored with a pinch of nutmeg. 6 servings.

Pink Crab Salad Is Pretty in Avocados

If avocados aren't available, you can use this crab stuffing for good old tomatoes.

Crab Stuffed Salad

1 can (6½ ounces) king crab meat
1 cup finely diced celery
3 tablespoons mayonnaise
1 tablespoon cider vinegar
2 medium avocados
Salad greens
Paprika

Drain crab and remove any cartilage; flake, saving 4 pretty pieces for a garnish. Mix flaked crab with celery, mayonnaise, and vinegar. (If prepared ahead, cover and refrigerate.)

At serving time, cut avocados in half lengthwise; twist apart; remove seeds and outer covering; arrange on salad greens. Fill avocado cavities with crab meat mixture; sprinkle with paprika; garnish with reserved crab pieces. Makes 4 hearty salads.

Entomologists estimate that insects ruin at least one-tenth of man-raised crops and destroy more timber each year than forest fires and fungus rot.

Believes Sensible Eating Is Only Weight Reducer

Calorie-counting is a product of our computer age, but cannot solve any weight problem.

★ ★ ★

Rather the only real way to lose weight and keep it lost, contends a leading nutrition expert, Dr. Stephen Gaymont of Chicago, is to "eat everything you want—but don't eat so darned much of it."

Dr. Gaymont assails "the numbers game in weight-reducing" as a kind of "computer madness."

"Americans who really want to subtract pounds ought to let mathematics alone and get back to common sense," contends Dr. Gaymont, Chicago dairy scientist who introduced yogourt to the U.S. some 20 years ago.

Dr. Gaymont was one of the first nutrition experts to get Americans stirred up about keeping their weight down. The Hungarian-born bacteriologist started speaking and writing on the subject back in 1939, when he arrived in the U.S. and began making yogourt.

★ ★ ★

"Food should be chosen both for its taste and its health values, rather than by any adding machine," Dr. Gaymont insists. And he now asserts that it's perfectly okay to let 'em eat cake, as long as the cake comes in small portions.

"I don't want anyone to buy yogourt just because it fits into the mathematical formula of a diet, but rather because it tastes good and is good for you," Dr. Gaymont says.

"Everybody now counts calories and goes on 'crash' diets. But a calorie is only a unit of energy —and any kind of food gives energy. There are only two ways to lose weight: eat less and use more energy."

Dr. Gaymont has a simple formula for using more energy: "Get up off your chair and move around for an extra half-hour every day."

Dr. Gaymont hates the word "diet" because it implies a temporary restriction of freedom. "What are you going to do when the diet is over?" he asks. "If you go back to your old eating habits the minute you stop counting calories, you will regain all the weight you lost during the diet. Sure, you can lose 10 pounds in three weeks—but you can gain it all back in two," he asserts.

"If you just get into the habit of eating smaller portions, those pounds won't creep back. It's high time Americans used a little common sense and looked at the size of the portions on their plates instead of frantically counting up calories. Otherwise, you may lose weight only temporarily."

Dr. Gaymont's crusade extends even to the way to decide whether to lose weight. "Americans spend too much time rushing to the scale, and doing it all by numbers. The best way to tell if you are overweight is to look in the mirror," he states.

★ ★ ★

"If you see too much of yourself, don't stop eating the food you like—but just eat less of it," Dr. Gaymont advises.

Veal Excellent With Tomato Wine Sauce

An artist friend often uses this dish for buffet suppers:

Rebel's Veal

2 pounds boneless veal
1 to 2 tablespoons each butter and olive oil
1 large onion (cut in thin strips)
1 bay leaf
1 can (6 ounces) tomato paste
1½ cups beef stock
1 can (6 ounces) mushroom crowns
Salt and pepper to taste
Dry white wine (if desired)

Have veal cut in about 1½ inch pieces. Heat butter and olive oil in a large skillet and brown veal on all sides. Add onion and bay leaf; cover and simmer without adding any liquid for about 1 hour.

Add the tomato paste, beef stock and drained mushrooms. Stir well and reheat slowly adding salt and pepper. If sauce is too thick add liquid from mushrooms and wine or extra stock.

Makes 6 servings.

When you make meat balls for your family, you can up nutrients by adding nonfat dry milk plus water or whole milk for the liquid.

Shrimp in Foil Is New Grill Treat

Every shrimp lover will eagerly give forth with his own tricks for enhancing the flavor of this popular shellfish. Some say that shrimp, shelled and deveined before cooking are more delicately flavored. Outdoor cooks will tell you that sealing shrimp in aluminum foil while they cook preserves their flavor. (Besides, they won't fall through the grill into the coals.)

Add to this rosy seafood some scallions and mushrooms, with the right spices, and you have this Shrimp in Foil — recommended by the Shrimp Association of the Americas for hearty summer eating. To complete the menu you might serve hot roasted corn with melted butter, raspberry sherbet and iced tea with sprigs of mint.

Shrimp in Foil

1 pound fresh or frozen shrimp, or 1 (8 or 10 ounce) package peeled and deveined shrimp
¾ cup sliced mushrooms, fresh or canned
1-3 cup melted butter or margarine
2 tablespoons chopped scallions
1 tablespoon chili sauce
1-3 cup chopped parsley
¼ teaspoon salt
¼ teaspoon garlic salt
Few drops Tabasco
Few drops Worcestershire

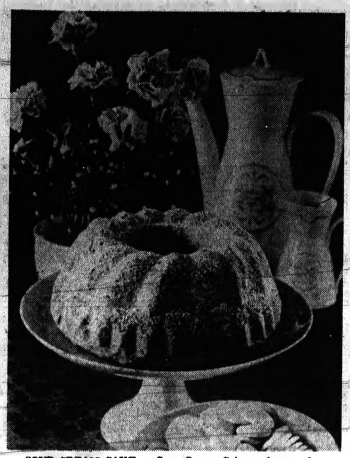
If necessary, shell and devein shrimp. Divide shrimp between 2 or 3 pieces of aluminum foil; top with mushrooms. To melted butter add remaining ingredients and pour over shrimp. Close foil to make tightly sealed packets. Grill foil packets on or close to hot coals 5 to 10 minutes until shrimp are no longer transparent. Makes 2 or 3 servings.

Roman Statesman Had Great Liking for Cabbage

NEW YORK (UPI) —One of the greatest cabbage-eaters of all time was the Roman statesman and orator, Marcus Porcius Cato, the American Dietetic Association reports.

* * *

In his book on agriculture, he wrote — "It is the cabbage which surpasses all other vegetables. It may be eaten either cooked or raw. If you eat it raw, dip it into vinegar. It promotes digestion marvelously."



SOUR CREAM CAKE — Sour Cream Cake makes good company fare, even for guests who are dieting. One portion contains less calories than in a piece of plain cake with icing.

Serve Sour Cream Cake in Thin Slices to Dieters

With so many people on weight reducing and weight control programs, a hostess often is faced with the problem of what to serve her guests who are dieting.

If you want to help dieters enjoy your company refreshments, offer them something containing sugar. Sugar plays a vital part in dieting and weight control. It helps prevent overeating and satisfies the appetite much faster than other foods.

As an example try Sour Cream Cake for company fare. Whether served at an open house buffet or coffee time, this old-time favorite is sure to please almost every taste. The ingredient sour cream gives an extra-flavorful richness and tenderness to the delicate-textured cake. One portion contains about 145 calories which is less calories than in a piece of plain cake with icing.

Sour Cream Cake

2 eggs, separated
¾ cup sugar
1 cup sour cream
1 teaspoon vanilla
1½ cups flour
1 teaspoon baking soda
1 teaspoon salt
½ cup chopped pecans

Beat egg yolks well, add sugar, sour cream and vanilla thoroughly.

Sift together flour, soda, baking powder and salt. Add with pecans to sour cream mixture. Stir only until no more dry flour is evident.

Fold in stiffly beaten egg whites. Turn batter into greased and floured 9-inch tube pan. Bake in moderate oven 350 degrees for 50 minutes.

Coat With Potato Chips

Shape leftover mashed potatoes into patties, roll in melted butter and then in finely crushed potato chips. Bake in a hot oven until hot through and nicely browned.

Free Booklet Is Guide to Eating

Facts Versus Fancies Presented by Expert From Michigan State

Americans are not only seeking the "Fountain of Youth," but they are also seeking the "Fountain of Health."

* * *

While we seem to regard the youth search with tongue-in-cheek and know that eternal youth does not really exist, we tend to be more persistent in looking for good health. Why not? Good health is an excellent goal. The trouble is that we get sidetracked. We want guarantees that we'll never be sick, that we'll be slim and attractive and that we'll always feel GREAT!

Our feverish desires have led many of us to be gullible in what we believe in what we eat.

Wild Tales and Wasted Dollars

Roberta Hershey, Extension specialist in foods and nutrition at Michigan State University, has written a new folder called "Believe It or Not." In it, she outlines some of the wild stories we have swallowed hook, line and sinker as the gospel truth. She points out where and how we have wasted millions of dollars in our search for miracle foods that would give us perfect health, and she describes some of the things science has not yet proved about our health.

She also discusses some of our favorite up-to-date questions, such as: Should I drink milk? Can my diet help prevent a heart attack? And, shouldn't I take extra vitamins just to be sure I get enough nutrients?

* * *

"Believe It or Not" is free. Order it from your Oakland County Extension office.

Rhubarb Settles to Bottom of Pan

When you want a hearty springtime dessert to serve after a light main course, this homey pudding may fill the bill.

Rhubarb Pandowdy

¾ cup sifted flour
1½ teaspoons baking powder
1 teaspoon salt
½ cup enriched white cornmeal
¾ cup firmly packed light brown sugar
¼ cup shortening
2 eggs
¾ cup milk
Rhubarb Sauce

Sift together the flour, baking powder, salt and cornmeal. In a medium mixing bowl, beat together thoroughly the brown sugar, shortening and eggs. Add sifted dry ingredients alternately with milk, stirring well after each addition.

Spoon one-half of the Rhubarb Sauce over the bottom of a buttered 8 by 8 by 2 inch baking pan. Spoon batter over the sauce; spoon over remaining sauce, spreading evenly.

Bake in a moderate (375 degrees) oven 35 to 40 minutes or until tester inserted in batter comes out clean. (Rhubarb Sauce will go to bottom leaving an attractive brown-red color on the top.) Serve with vanilla ice cream or whipped cream.

* * *

Rhubarb Sauce: In a medium saucepan, bring ¾ cup granulated sugar and ¾ cup water to a boil. Add 2 cups (1 pound) ¼-inch pieces rhubarb and 1 tablespoon quick-cooking tapioca. Cook, stirring often, until sauce thickens — about 10 minutes.

Mayonnaise Had Start in French Kitchen Snafu

There are several versions of the origin of Mayonnaise. One romantic tale from the 17th century tells that the Duc de Richelieu, Marshall of France under Louis XVI — returning victorious from a naval engagement with the English at Port Mahon— desired to celebrate his victory with a banquet.

He was very particular about the sauce to be served with the meat, and entered the kitchen to make it himself.

It appears he intended to make the sauce with cream, but the chef not having any on hand, the Duc de Richelieu substituted olive oil!

The guests were so delighted with the smoothness and flavor of the new sauce, they felt it deserved a special name. One can almost picture the discussion that took place — the result being, it was decided to call the sauce "Mahonnaise" in honor of the Duc's victory at Fort Mahon.

Another version is that the dressing originated in Bayonne, France, and was called "Bayonnaise."

Barnacles swim when they are young. In time they attach themselves permanently to an object, frequently the bottom of a ship or whale.

Greens With Dressing Get Unusual Touch

Spinach, kale, mustard or turnip greens can all be prepared this way. Cook greens until just tender (spinach should be only wilted), drain thoroughly. Add the following dressing for 1 cup cooked greens: 1 tablespoon olive oil, 1 teaspoon vanilla, salt and pepper to taste. If desired, a pinch of dry mustard may also be added. Toss to blend.

GET FINER GIFTS FASTER WITH GOLD BELL GIFT STAMPS

HEARTY PICNIC FARE — Hiking to a picnic is rewarding fun if you've these cheese-filled muffins along for fireside heating and eating. You get the muffins all ready before you leave home, then heat them over the campfire. Serve with baked beans.

Fill Picnic Muffins Heat Over Coals

Next time a sunny Saturday rolls around pack up some goodies and hike, don't ride, to the nearest park. A family outing can be great fun and hiking is healthy, too. By the time you've arrived or after a few games of softball appetites will be ravenous.

* * *

So while dad tends the fire unpack the makeshift knapsacks. Out come paper plates, cups, forks and all the essentials including a can opener.

Opened cans of beans can be set right on the coals to heat—close to foil-wrapped Bacon Cheese Muffins. These muffins are mom's special treat made lightning-fast from a corn muffin mix. After quick baking and cooling they were split and filled with a tangy cheese spread. The heat of the fire does the rest as it warms the muffins and melts the cheese.

To finish off this open-air-meal there is sliced, canned luncheon meat, a variety of pickles and everyone's choice of fruit. Mmmm—who could ask for more and where would it taste any better! Best of all at the end, no dishes to be done, just leisurely walk back home.

Bacon Cheese Muffins

One 12-oz. pkg. (2 cups) corn muffin mix
1 egg
2/3 cup milk
Filling:
One 5-oz. jar pasteurized process bacon cheese spread
1 tablespoon milk

Heat oven to hot 400 degrees). Empty contents of package into bowl. Add egg and milk. Blend only until all ingredients are thoroughly moistened.

Fill greased muffin cups half full. Bake in preheated oven (400 degrees) 15 to 20 minutes. Let muffins stand a few minutes, then loosen with spatula or knife. Cool. Cut each muffin in half horizontally.

* * *

For filling, combine ingredients. Place 2 teaspoons filling on bottom half of each muffin; replace top. Wrap in foil. Heat on campfire coals or in a moderate oven (375 degrees) to to 15 minutes or until warm.

The wheel technique of gem cutting was known in Mesopotamia between 4000 and 3000 B. C. The art of engraving stones probably originated in Mesopotamia.

Sunday Brunch Is Time for Good Eggs

Whether you're serving just the family or drop-in guests, this egg dish is something special.

Special Scrambled Eggs

1 package (3 ounces) cream cheese
6 large eggs
1-3 cup light cream
¼ teaspoon salt
White pepper to taste
¼ cup butter
1 tablespoon chopped chives

With a sharp knife dipped into very hot water, cut cream cheese into ¼-inch pieces; reserve. Beat eggs just enough to combine yolks and whites; add cream, salt and pepper; beat to combine. Melt butter in a 10-inch skillet until very hot. Add eggs; cook over moderate heat drawing egg away from sides as quickly as it sets.

Shortly before eggs are entirely set, fold in cream cheese pieces and chives; cheese should only partly melt. Makes 3 to 4 servings.

Raisin Nut Bread

Slices of a quick loaf of raisin and walnut bread are delicious to serve with a melon ball, fresh strawberry and cottage cheese salad. A cup of raisins and a half cup of walnuts is just right for 2 cups biscuit mix . . . a quick way to make the bread when you're in a hurry.

Simple Wine Coolers Go to Picnic Icy Cold

A flavorful wine punch kept icy cold and refreshing in a thermos container may turn out to be the best thing that has happened to the picnic since the development of the deviled egg.

Suggested by the California Wine Growers, thermos - wise wine punches may be as varied as those concocted at home, retain their qualities of refreshment up to ten hours in a thermos container, and offer the picnicking party a means of enjoyment that is ideal for the relaxed atmosphere of a day's outing.

For Thermos-Coolers, try the following:

BEACH PEACH: Use fresh or canned peach slices in a mixture of Rose wine and soda. The longer the trip before the picnic begins, the better the concoction tastes.

WOODLAND WINNER: Equal parts of California Burgundy, lemon juice-with-soda, chunks of pineapple and a handful of maraschino — or fresh — cherries.

SAUTERNE SAUNTER: Twice as much Sauterne as club soda with as much orange juice added as suits your taste. Also, add some chunks or slices of fresh or canned oranges.

CLARET CUP: Add a small can of mixed fruit cocktail to a bottle of Claret. Splash in some club soda for desired carbonation. Squeeze in some fresh lemon or lime.

* * *

To enjoy Thermos Wine Coolers at their flavorful best, include some inexpensive glass tumblers in your picnic kit since ALL cold and flavorsome beverages taste best when sipped from glass. If this is inconvenient, use the specially treated paper cups which are lined inside to retain heat or cold.

Added Lemon

Refreshing lemonade: mix lemon juice and sugar in the quantities needed and add grated lemon rind. Add a little of the mix to ice-filled glasses and then fill with chilled sparkling water.

Rice Dish Is Economical and Tasty

There are a number of reasons why rice is included among the foods donated to needy families by the U. S. Department of Agriculture. It's an inexpensive source of energy, it's adaptable, it's bland flavor combines well with other foods to make them go further, and it goes into all kinds of dishes from soups to desserts.

Rice and vegetables, for example, are a delicious combination welcomed by the young and old alike, if prepared like this:

Cook 4 slices of bacon until crisp. Pour off and save the drippings. Remove bacon and crumble. Measure back 2 tablespoons of the drippings into frying pan, add 2 cups of cooked rice, 2 tablespoons chopped onion, 1 teaspoon salt and ⅛ teaspoon pepper, and mix lightly.

Add 1 cup canned or cooked green peas or lima beans, 1 cup of canned or cooked sliced carrots, and cook slowly, stirring constantly until heated through, about 5 minutes. Fold in the crisp bacon. Serve hot.

Makes 6 servings, approximately 2/3 cup each.

Pretty Pink

To have applesauce a pretty pink color, beat it with some cinnamon candies. Use about three tablespoons of the candies for about a pint of applesauce.

Basic French Dressing Simple to Dress Up

Salad dressings made with vegetable oil provide just the right blend of flavors to complement these fruits and vegetables. From the simplest mixture of fresh, crisp greens to the most extravagant concoction of fresh fruits, vegetable oil salad dressings tie the wonderful assortment of flavors together into one magical taste delight.

* * *

Here's a recipe for a quart of Basic French Dressing that will serve you well:

Combine 3 cups vegetable oil, 1 cup vinegar, 1 tablespoon salt, 1 tablespoon sugar, 2 teaspoons paprika and a dash of pepper. Beat well.

Store the dressing in a covered jar in the refrigerator, and shake well before using.

You can vary this basic dressing to suit your salad needs. To one cup of dressing add—

—a blend of 1-ounce blue or roquefort cheese and 2 tablespoons cream. For tossed salads, hearts of lettuce salads.

—a hard-cooked egg, a small cooked beet and a small onion, all finely chopped. For vegetable salads, hearts of lettuce salads.

—¼ cup cold mashed potatoes and 2 tablespoons minced green onion or chives, using an electric mixer to beat. For vegetable salads.

—1 cup mayonnaise. For head lettuce salads, potato or seafood salads.

Orange Carrots High in Vitamin A

Youngsters usually enjoy carrots prepared this way; so do older members of the family.

Carrots With Sweet Orange Sauce

1 bunch carrots without green tops (about 1¼ pounds)
1 cup boiling water
½ teaspoon salt
¼ cup sugar
1 tablespoon cornstarch
⅓ cup orange juice
2 teaspoons grated orange rind

Cut stem ends from carrots; pare; slice diagonally into very thin crosswise ovals. Cook rapidly in boiling water and salt just until tender-crisp—5 to 8 minutes; drain, reserving carrot liquid.

In a small saucepan stir together well the sugar and cornstarch; slowly stir in orange juice so mixture is smooth, then ¼ cup carrot cooking liquid. Cook and stir constantly over medium heat until thickened and clear; mix in orange rind and cooked carrots; reheat. Makes 6 servings.

Q. What is the name of this cut of meat?

A. Beef Club Steak.

Q. Where does it come from and how is it identified?

A. It is the smallest steak from the short loin and is triangular shaped.

Q. How is it prepared?

A. By broiling or panbroiling. To broil: Set regulator for broiling. Place the steak on the broiler rack. Insert broiler pan and rack so the top surface of a 1-inch thick steak is 2 to 3 inches from the heat and a 2-inch steak is 3 to 5 inches from the heat. When one side is browned, season, turn and finish cooking on the second side.

A 1-inch thick club steak requires 12 to 15 minutes for rare, 18 to 20 minutes for medium. Two-inch steaks require 30 to 35 minutes for rare, 35 to 45 for medium.

Stainless Steel Is Elegant, Ever Bright, Carefree

Imagine a material so versatile that it is equally at home in the astronaut's space vehicle and on the finest dining table. Actually, you don't have to imagine it at all. It's in everyday use right now, and it is called stainless steel.

As in space exploration, stainless steel's unique resistance to time, wear and corrosion are important qualities in flatware, hollowware and appliances. For tableware stainless steel has the added attraction of a glowing beauty that requires no polishing and can't wear off.

Flatware, electric appliances and stove-to-table ware made of stainless steel will last a beautiful lifetime. They can never rust or tarnish, need no scouring, resist dents and scratches, can't chip and shed tastes and odors easily.

Stainless steel is next to precious gold and platinum in its ability to resist adverse conditions. It is inherently and permanently beautiful. Still, it is available for everyday use at a price that makes it competitive with less desirable materials.

THE AUTOMATIC METAL

Stainless steel is one of the few materials—natural or man-made—that is fully automatic. If it is scratched, worn or disturbed in any way, it instantly heals itself as soon as oxygen touches it. Stainless steel is stainless all the way through, no matter how it's cut, worked or shaped.

Stainless steel is a family of metals. The most common family characteristic is chromium to provide corrosion resistance.

Nickel added to stainless steel tends to produce a whiter or more silver color.

There are many types of stainless steel. An illustration of the importance of obtaining the right type is seen in flatware — now found in stainless steel on half of America's tables.

American manufacturers have agreed that the higher alloy stainless steels are best for use in flatware. The buyer of American-made flatware can thus be assured of sufficient amounts of chromium, or chromium and nickel, to make stainless steel perform as it should.

UBIQUITOUS COFFEEMAKER

Most typical of the stainless steel appliances used at the table is the coffeemaker which comes in electric and stove-top models in percolator, drip and vacuum styles. Stainless steel is easily kept free of the oils and residues that spoil coffee taste.

Recent additions to automatic table appliances include a stainless steel toaster, and a stainless steel fry pan that comes with a handle and without.

* * *

Stainless steel table appliances—plus stainless steel chafing dishes and oven-to-table ware in stainless steel—have popularized the buffet party—something for which both guests and hostess are grateful.

The beauty of stainless steel needs no pampering. Soap and water is all that is ordinarily used to keep it in perfect condition. It takes a trip through the dishwasher in stride.

* * *

Particularly in tune with contemporary American life, stainless steel is truly the carefree metal with the cared-for look.

The idea that social class automatically changes with income is disputed by a recent study. It found that wage-earner families do not change their basic ways of life, interest, or associations even when their salary range reaches that of the white collar middle class.

Wheat Germ in Streusel Adds Extra Nutrition

Wheat germ can be added to streusel toppings for — say — coffee cakes or Dutch apple pie. Combine ¼ cups (the same amounts) of sifted all-purpose flour, wheat germ and brown sugar, with ¼ cup of butter or margarine. When mixture is crumbly sprinkle over cake or pie before baking.

PENNED DECLARATION—Charles Hamilton, New York autograph dealer, says that by comparing the writing on the Declaration of Independence with another newly discovered document he has established that the Declaration was penned by Timothy Matlack, a Quaker from Pennsylvania. Portrait of Matlack (left) was provided by Hamilton. At right is a document, provided by Hamilton, dated Jan. 2, 1776 which bears Matlack's signature.

Texas Lab Guide for Lunar Shots

Announcement Made at Welcome for Astronauts in Houston

HOUSTON, Tex. (AP)—At formal ceremonies welcoming the nation's astronauts and 1,600 employes of the manned spacecraft center to Texas yesterday, it was announced that rocket shots designed to place men on the moon will be controlled from Houston.

★ ★ ★

The director of the center, Dr. Robert R. Gilruth, said, "the Apollo (moon shot) launches will be made from Cape Canaveral, Fla., but the flight mission will be monitored and controlled from a mission control center here in Houston."

Control facilities will be included in the space lab being built 25 miles east of downtown Houston.

At the welcoming ceremonies, the astronauts, their families and the top brass of the space flight program balanced plates of Texas barbecue on their knees.

★ ★ ★

Earlier the astronauts were cheered by a crowd of 150,000 to 250,000 during a downtown parade.

They got Texas-style hats, certificates of Texas citizenship and gold deputy sheriff's badges.

★ ★ ★

"The hats make you look like real Texans," said George T. Morse, president of the Houston Chamber of Commerce.

★

John Glenn, the first U.S. astronaut to make an orbital flight replied, "We now look the part and will follow your lead in acting the part. Howdy."

Princess in Paris on Educational Trip

LONDON (AP)— Princess Anne—third in line of succession to the British throne — has gone to France on what a Buckingham Palace spokesman described as an educational visit.

★ ★ ★

She arrived in Paris this morning. Plans for her trip were kept secret and only a handful of people knew about it in advance.

Princess Anne will be 12 on Aug. 15.

Migrants, Drop-Outs 'Need Help'

Educators Eye Disadvantaged Youth

By G. K. HODENFIELD
AP Education Writer

DENVER, Colo. (AP) — The youngster from the big city slums who doesn't have a chance. The child of migrant workers forever on the go. The high school drop-out who enters a labor market that has no job for him.

These young Americans in the growing army of disadvantaged children will form a substantial part of tomorrow's adult generation. What to do with them and about them is a major source of concern at the annual convention of the National Education Association.

Judge Mary Conway Kohler of the National Committee on Employment of Youth told convention delegates Tuesday:

"The devastating effects of long-term unemployment of youth will continue to grow unless we, as a nation, take drastic steps to overhaul our educational, training, guidance and employment machinery."

MOST DROPPED OUT

Most of the million unemployed youth in the United States dropped out of high school before graduation, she said, and most of them are from the slums of the great cities or the lowest economic levels of the middle-sized cities.

Charles H. Percy, chairman of the board of Bell and Howell, told the convention, "For the unprepared, the future holds only dismay and disappointment."

"Automation screams out the message of education for the future," Percy said. "In the electrical industry, for example, employment of production workers fell from 825,000 in 1953 to 636,000 in February 1961. This is a 10 per cent decrease, despite an increase in production of 21 per cent."

Percy summed up the problem this way: "There is very little back-breaking labor left in America today; but all of it is being done by men and women who lack skills and training and who have not had educational and training opportunities."

SPECIAL PROBLEM

There is a special problem with the children of migrant workers, Alfred M. Potts of the Colorado State Department of Education said in a paper to be presented to the convention today.

Some educators might disagree, he said, but Colorado has found that inspiring these youngsters to stay in school is much more important than academic excellence in depth during their early school years.

Kennedy European Partnership Proposal Nothing New

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON — President Kennedy's Fourth of July proposal — partnership with Western Europe—was not new with him although it will get more attention in the years ahead.

Kennedy dipped away back, as far back as the 1960 campaign, for some of the words and phrases he used Wednesday at Philadelphia.

Nevertheless, he left the idea of American partnership with a united Western Europe deliberately vague, as he has in the past. There were three understandable reasons for this:

1. At this moment no one can predict what kind of unity the West Europeans will work out among themselves. They're just talking of it now.

2. What kind of partnership this country will consider, if any, will depend on what European unity turns out to be.

3. Before there is any partnership at all the whole idea will become a national discussion and get a long going over in Congress.

QUOTED JEFFERSON

At least twice in the 1960 campaign Kennedy, dwelling on the magic attractiveness of independence and freedom, quoted Thomas Jefferson's phrase about the infectiousness of the "disease of liberty."

The President, who clings to phrases which catch his fancy, used the Jefferson phrase again Wednesday. And again he emphasized the appeal of freedom and independence.

★ ★ ★

In Britain, the Times of London, reacting favorably to Kennedy's talk, called his reference to interdependence between the United States and Europe an "imaginative idea, typical of his sense of style and history."

But even this word—interdependence—wasn't new with Kennedy Wednesday. He used it at least once before: In a joint statement with West Germany's Chancellor Adenauer last year after the two men met.

If the President ever used the word "partnership"—in reference to Europe—in the 1960 campaign, this writer is not aware of it and could find no record of it.

★ ★ ★

But since 1960—after becoming President—Kennedy has talked a number of times about the idea of partnership, not only with Europe but with the new nations.

Never — Wednesday or before — has he spelled out what he means by partnership.

At this moment in Europe French President Charles de Gaulle seems to have in mind a unity based on a confederation of European nations, with each retaining its own, full sovereignty, some arrangement for working together but each would remain.

This is a long way from the kind of greater unity which might be achieved if the West Europeans, for the sake of greater combined strength and common purpose, were willing to yield some sovereignty in a closer merger.

★ ★ ★

Since the Europeans still haven't worked out the final details of their own common trading market, any realization of greater political unity, even though the idea is cooking, still seems distant.

When Kennedy in the past has talked of partnership with other countries, he has submerged it more or less in whatever else he was saying at the time.

For example:

He talked of such a partnership in his foreign aid message of 1960 and his foreign trade message this year. In the latter he was talking of a trading partnership. If he has anything broader in mind he hasn't said.

GAINS PROMINENCE

Wednesday, however, by making partnership pretty much the main point in his talk, he gave it a prominence which is necessary to get consideration of it started in this country.

Congress has been perpetually wary of anything which would require this country to yield any of its right or ability to do as it pleased. This was one of the sticking points before the United States joined the United Nations.

★ ★ ★

Kennedy may feel now that by stressing the possibility of American partnership he may induce the Europeans to think in terms of closer unity than they have in mind.

But this can hardly be more than a limited inducement until Kennedy spells out in some detail what he's talking about.

For Fourth of July 'Interdependence' Appeal

JFK Gains Bipartisan Governor Support

PHILADELPHIA (AP)— President Kennedy collected some bipartisan support among the nation's governors today for his Independence Day appeal for U.S. partnership with a united Europe.

Forty-two of the nation's governors were in the audience Wednesday at Independence Hall. They had driven from Hershey, Pa., to hear the President as the climax of their 54th annual conference.

★ ★ ★

In introducing the President, Gov. Wesley Powell of New Hampshire, the conservative Republican chairman of the governors' conference, sounded a bipartisan note.

By contrast, the governors had spent their last day at Hershey rapping steadily at Kennedy administration proposals that ranged from cuts in the National Guard to relief for the needy. On civil rights, the governors were unable to agree on a stand.

FAVORABLE REACTION

The immediate reaction of the governors was favorable on Kennedy's European partnership proposal.

Representing a cross-section of opinion among them, Govs. John Anderson Jr. of Kansas and Ernest F. Hollings of South Carolina, supported Kennedy's move for closer cooperation with Western Europe.

Anderson, who is about as regular a Republican as they come, said he thinks Kennedy's proposals offer the kind of solution to world problems that must be followed.

★ ★ ★

"Action and not words will mark progress in this field," he said. "This is where we have bogged down in the past. We have had brave words but we have not followed them up by action."

Hollings, who took a leading role in scuttling a Democratic-sponsored civil rights resolution at the Hershey conference, said in a separate interview he is with the President all the way in believing that there must be interdependence between the United States and Western Europe.

"Perhaps we in America think too much of our own independence and not enough about the other fellow's," he said. "I think the President has very appropriately stated the realities of the day."

AGREES WITH VIEWS

Gov. Edmund G. Brown of California, in a battle for re-election this fall against Republican Richard M. Nixon, said he agreed with Kennedy's views and asserted "interdependence is the only road to peace."

Gov. David Lawrence of Pennsylvania, a Democrat like Brown, said his political views date back to Woodrow Wilson and the League of Nations "and I think the President's suggestion for an Atlantic partnership is a great one."

★ ★ ★

Gov. John Dempsey of Connecticut said Kennedy's speech was "very, very good and the thoughts advanced appropriate and necessary."

At their last business session in Hershey on the eve of the Fourth of July, the governors:

Called on Congress to pass an amendment to the Constitution to permit prayers in public schools.

Took no action on civil rights after Gov. Ernest F. Hollings staged a successful filibuster.

Voted unanimously to support a National Guard without any cuts.

Endorsed a proposal that each state be allowed to keep five per cent of its share of the federal income tax, to be used to finance expansion of education in the state.

Chose Florida as the site of their 1963 conference. The selection of the city will be up to Florida officials.

GIFT FOR PRESIDENT — President Kennedy leans down to inspect a Civil War cannon replica which was presented him yesterday in Independence Hall at Philadelphia. Behind the President (at left) is Pennsylvania Gov. David L. Lawrence.

Crippled AF Plane Lands After Circling 6 Hours

OTIS AIR FORCE BASE, Miss. (UPI) — An Air Force training plane circled this base for six hours yesterday with a stuck nose wheel before making a safe landing.

The propeller-driven, four-engined TC121 scraped onto a foam-covered runway and slightly damaged its nose section. None of the five crewmen was injured.

The plane, attached to the 551st Airborne Early Warning and Control Wing, was practicing landings.

The nose gear did not retract fully on a takeoff shortly before noon and the crew was ordered to circle the base to use up fuel before attempting a landing.

★ ★ ★

Emergency and fire rescue crews spread a carpet of foam over the runway as the plane swung out to sea and back, burning up its fuel.

Base Commander Col. Ernest J. White and Lockheed Aircraft Co. representatives quickly put through telephone calls to Lockheed engineers in New York and Burbank, Calif. for instructions on how to fix the gear.

Despite several radioed instructions to the plane, the crew was unable to lock the gear into place. The decision to land was made after extra fire apparatus had been summoned.

The pilot, Capt. Morgan D. Childs Jr. of Falmouth, Mass., brought the plane down safely at 4:30 p.m. Pontiac time.

★ ★ ★

The other crewmen were: Maj. Milo W. Bresley of Ord, Neb. and Maj. Howard A. Olson of Jacksonville, Ill., both pilots on training flights with Childs; M. Sgt. Ralph Draper of Fulton, N.Y., the flight engineer; and S. Sgt. Donald W. Lanham of Morgantown, W.Va., the radio operator.

'Mississippi, Mexico to Benefit From Ports'

GULFPORT, Miss. (UPI)—Gov. Ross Barnett says both Mississippi and Mexico can benefit from a new economic development program enacted by the 1960 legislature.

Recent improvement of Mississippi's ports and harbors, said Barnett, "offers a great opportunity for Mississippi and the Republic of Mexico to develop a program of trade that will bring great benefits to the economies of our state, our nation and to Mexico as well as other nations to the south of us."

Ford Plant in England Is Halted by Strikers

LIVERPOOL, England (UPI)— A week-long strike by 50 engineers at the Ford Motor Company's new $84-million factory under construction here spread yesterday among 250 plumbers, electricians and other workers.

The workers walked out in sympathy with the engineers and halted the installation of the air conditioning. The dispute stems from the dismissal of six engineers.

Actor Robinson's Wife Sells $42,000 Painting

LONDON (UPI) — Mrs. Gladys Robinson, former wife of actor Edward G. Robinson, yesterday sold a painting to the Marlboro Gallery here for $42,000, it was reported.

A spokesman for Sotheby's, the art auctioneers, said Mrs. Robinson disposed of Pissarro's "Avant Port Dieppe."

Hope to Avert Seaway Boycott

Union Threatens to Halt Ships With Members of Rival Guild Aboard

OTTAWA (UPI)—Officials of the St. Lawrence Seaway Authority of Canada hoped today to avert a boycott which might snarl Great Lakes shipping.

★ ★ ★

The Canadian Brotherhood of Railway, Transport and General Workers threatened to boycott the St. Lawrence Seaway (at 7 a.m. Pontiac time) today unless members of the rival Seafarer's International Union (SIU) joined the brotherhood.

The brotherhood is under contract with the seaway authority, while the International, composed of workers from the United States and Canada, has no pact with the authority.

Seaway Authority President R. J. Rankin said the authority is viewing the brotherhood's action with "great concern" but added that the authority has not yet "moved finally toward securing a legal injunction to restrain action" by the brotherhood.

STEPS 'TAKEN'

Rankin said the authority has "taken steps to protect its interests."

Some 700 members of the brotherhood, employed on seaway locks, and as control and bridge operators, said yesterday they will refuse to allow any ships with SIU members aboard to go through the seaway.

Seaway authorities fear any ship stoppage would ultimately stall all ships entering or leaving the Great Lakes via the St. Lawrence Seaway.

The seaway is a prime outlet to the ocean for vessels bound for Western Hemisphere and European markets.

It handles a variety of cargo ships, freighters, and transports, carrying agricultural commodities, iron ore, and various other products, and industrial raw materials.

Not a Dud in the 'Works' but Oh That Traffic!

WASHINGTON (UPI) — An estimated 135,000 persons jammed onto the Washington Monument grounds last night to watch a gigantic July 4th fireworks display. Police estimated another 52,000 watched from adjacent areas.

The crowd was orderly, the display went off without a dud, but a huge, two-hour traffic jam developed when 187,000 people decided to go home at the same time — after the last aerial firecracker.

2.5 Million for Medicare

WASHINGTON (UPI) — The National Council of Senior Citizens today will present Congress with the last of 2.5 million signatures it says it has collected in behalf of President Kennedy's medical care for the aged plan.

Farm monthly wage rates were up $3 last year from the previous year. The 1961 average was $203 monthly, with house.

Here's a Man Who Knows

Afraid of Shark Bite? But It Doesn't Hurt

By PHYLLIS BATTELLE

NEW YORK — We were discussing going off on vacation to the Virgin Islands, and our friend said oh, how lovely — but aren't there a lot of sharks in the Caribbean?

* * *

We said certainly, ha-ha-ha, but no more than there are in the Atlantic and Pacific. And as for the Indian Ocean, wow.

She didn't believe. She said she had heard there are many more sharks in tropic waters because it is warm, and that is why sharks come in to shore up north only in the summer.

Ridiculous! We replied. There are cold-water sharks and there are warm-water sharks, and they are all over the place. The only reason there seem to be more sharks in shore waters during the summer is that there are more swimmers in summer to observe them.

She asked, "Well how do you know so much?," and we told her we'd talked to the top shark expert at the Scripps (U. of Calif.) Institute of Oceanography in La Jolla, Calif., who said that the public is deluding itself if it thinks colder currents along the beaches will keep the sharks at bay.

There are 250 species of sharks, Dr. Wheeling North said, and only 12 of them are known as "man-eaters." Of those 12, just as many like cold water as warm water. There always has been a large shark population in coastal ocean waters — you'll even find many of them in lakes and rivers, many miles from the ocean.

He recalled the case of an enlisted man in the British army who was washing his jeep in a knee-deep stream 30 miles inland from the Atlantic. He lost a leg to a ravenous shark in the process.

But it didn't hurt the man, Dr. North assured us.

* * *

"Actually victims of shark attacks are always surprised how quick and painless it is," he said, with a grisly sense of humor. "They feel something 'bump' them. They look down and an arm or leg is missing. It's not an uncomfortable process . . . but you know? I've never been able to convince anybody it's a good way to go."

'GIVING UP SWIMMING'

Our friend shuddered appropriately, and said she was giving up swimming altogether, and we said Dr. North would be the first to call that foolishness.

"The fear of sharks," he told us, "is 99 per cent psychological. Any predator carnivore prefers his usual food to the taste of the unusual. In the shark's case, his usual food is fish. If there are tasty fish around, he usually won't bother men.

"Also, a shark respects a courageous human. Unless he is famished, if he sees a human beat an orderly retreat, he will not attack. It's a natural thing in the animal kingdom to admire bravery. I imagine even a well-fed lion, looking at a firmly poised human, might say 'Oh, what the hell,' and back away."

* * *

I don't care, our friend said, I don't like it. I don't think I'm going to the Virgin Islands.

That's one less bed to make.

Now wait till we tell our less skittish friends about the barracuda . . .

AP Photofax

FERRIED TO NEW SITE — A 60-year-old mansion, split into halves, is towed past Alcatraz Prison in San Francisco Bay. The 170-ton structure is being moved to a new foundation in nearby Belvedere, Calif., where it will be sold as a private dwelling. A 10-story building will be constructed on the mansion's former site.

104th Birthday Marked by Pennsylvania Woman

SHARON HILL, Pa. (AP)—Emmy Boyer celebrated her 104th birthday Wednesday with her three sons in this suburban Philadelphia community.

* * *

The sons are Harry, 73; Amos, 80, and John, 83. John lives at Reading, the other two in Delaware County. Mrs. Boyer is the widow of a coal miner.

Plan Welcome for Navy Air Unit Recalled to Berlin

GROSSE ILE (UPI) — Naval Air Reserve Antisubmarine Squadron 733, recalled last October as part of the Berlin build-up, was scheduled to return today to the naval air station here.

Lt. Gov. T. John Lesinski indicated he would be on hand to welcome the squadron home.

The squadron, scheduled to be released from active duty Aug. 1, spent its tour of active duty aboard the naval air station, South Weymouth, Mass.

* * *

The Naval Reserve Association presented the squadron a plaque "for their recall readiness when ordered to extended active duty and exceptional service to the nation."

Scientist Complains to Colleagues

'Little Headway in Alcohol Studies'

NEW YORK (UPI) — A scientist has appealed to fellow scientists to pull up their scientific socks, in a manner of speaking. He complained that despite much effort over the past 20 years, science has made little if any progress in advancing man's knowledge " of how and in what way alcohol affects human behavior."

Dr. John A. Carpenter of the Rutgers University Center of Alcohol Studies had been over the accumulated mountain of investigations with a fine scientific comb, looking for "scientific validity" and for originality. He found very little of either.

"Scientific validity" is the outcome sought in all scientific work. If it is achieved there is no room for question or doubt. Carpenter found that scientific investigations of the influences of strong drink on people asked many questions and engendered much doubt.

★ ★ ★

For instance, many scientific investigations have found that drinking lessens the ability of the individual to drive a car. But all the tests have used either a laboratory "driving simulator" in which no actual car was involved or blocks off private roads without traffic.

Carpenter said it was scientifically permissible to wonder if drivers with one drink or a few drinks under their belts were as seriously concentrated upon their driving under these artificial conditions as they would have been out on a highway.

He also questioned the repeated scientific finding that even a very low level of alcohol in the blood impairs driving ability. Maybe the finding is correct but scientifically it is open to question. Carpenter granted that scientific validity was difficult to achieve but scientists should have the imagination to devise experiments that would achieve it.

In this matter of scientific imagination, he found that much "experimental design" in testing alcoholic effects was aimed at proving or disproving commonly held theories concerning those effects. Such experiments begin with a preconceived idea, and it would be scientifically better for experiments to begin with the entirely open scientific mind, Carpenter said.

'TRADITIONAL IDEA'

In his critique in the quarterly technical journal of the Rutgers University Study Center, he also pointed to "the traditional idea that intellectual functions are particularly susceptible to deterioration by alcohol."

Some scientific efforts to prove or disprove that with scientific validity failed to demonstrate any deterioration. Others failed to prove the degrees of deterioration which had been expected.

Still others found that at some alcohol levels in the blood, there was improvement in intellectual functions rather than deterioration.

Carpenter suggested that some of the trouble may be in the commonly held idea that intellectual functions are "complex" or "higher" or "fragile" when compared to other functions which alcohol affects when taken in sufficient amounts. That could be true but science hasn't proved it, he said.

St. Johns Post Office Is Damaged by Fire

ST. JOHNS (AP) — Fire gutted part of the interior of the post office here yesterday, destroying outgoing mail. Officials said today's mail will be delivered as usual.

Postmaster J. D. Robinson said mail being stored for delivery today was damaged only by water.

He said his staff would arrange temporary headquarters.

Cause of the blaze was not immediately determined.

Jackie, Caroline Will Visit Italy During August

WASHINGTON (AP) — Four-year-old Caroline Kennedy is going abroad next month.

★ ★ ★

Her mother, Mrs. John F. Kennedy, will take the child with her when she visits in Italy with her sister, Princess Lee Radziwill, the White House announced Wednesday. John Jr., 19 months, will remain at home.

The precise date of the trip has not been set, said Pamela Turnure, Mrs. Kennedy's press secretary. Nor is it known what parts of Italy Mrs. Kennedy will visit, Miss Turnure said.

Princess Radziwill, her husband and their two young children are already in Italy. Their home is in England.

The armadillo has such a keen sense of smell that it can detect insects five or six inches under the ground.

North and South vulnerable

West	North	East	South
1 ♥	Double	Pass	1 N.T.
Pass	2 N.T.	Pass	3 N.T.
Pass	Pass	Pass	

Opening lead—♥ 6

By OSWALD JACOBY

Here is another situation where the play of second hand high is essential.

South has reached game in no-trump after an opening heart bid by West and West has led the six of hearts.

South sees that he must establish the club suit in order to bring home his contract and it is obvious to him that West will hold both the ace and king of hearts. If he plays the jack from dummy it will hold the trick and leave South's queen as a second stopper.

That is exactly what does happen if South plays the jack of hearts. He will wind up making four no-trump against any defense.

If South plays second hand low things won't be so pleasant. East will play the nine and South will have his choice of taking the trick or holding off.

In the first case, when West gains the lead with the ace of clubs he will have four good heart tricks. In the second case, East will return West's suit and again the defense will set the hand.

♥♦ CARD Sense ♠♣

Q—The bidding has been:

South	West	North	East
1 ♠	Pass	2 ♦	Pass
?			

You, South, hold: ♠ K J 10 6 5 ♥ A Q 3 2 ♦ 5 4 ♣ K 8

What do you do?

A—Bid two hearts. Your partner may hold four hearts.

TODAY'S QUESTION

Your partner continues with a bid of two no-trump. What do you do now?

Answer Tomorrow

Astrological Forecast

By SYDNEY OMARR
(For Friday)

"The wise man controls his destiny." Astrology points the way.

ARIES (Mar. 21 to Apr. 20): Beware of deception in connection with money matters, self-deception! Picture is apt to be too rosy, or too black. Be Mr. In-Between. Be patient, diplomatic and CAUTIOUS.

TAURUS (Apr. 20 to May 20): Much to be gained through realization that life without love can be cold, lonely. Moon in section of chart which makes these things apparent tonight. See the beautiful, not the unpleasant.

GEMINI (May 21 to June 21): Best results achieved by being "one of the gang" tonight, if possible. Mingle with friends in order to relax. Relief from recent tensions very beneficial. Read, improve mind.

CANCER (June 22 to July 21): Relaxed attitude extremely important. Tension "carries" today. If you are upset, you transmit this attitude. Take things as they come. Worry can only make matters worse.

LEO (July 22 to Aug. 21): Long-range view creates rhythm which results in ultimate gain. Being short-tempered, or "short" in view of panorama around you adds up to loss. Be usual Leo showman tonight.

VIRGO (Aug. 22 to Sept. 22): Lunar cycle high means independence, originality stressed. Pluto and Neptune involved in personal planetary pattern today, indicating tendency to "trip" over the obvious. Be alert!

LIBRA (Sept. 23 to Oct. 22): This is not the day to make tremendous demands. You get what you seek through attitude of DIPLOMACY. This is not sign of weakness. Consideration brings friends and happiness.

SCORPIO (Oct. 23 to Nov. 21): If you "give" of yourself this could be rewarding day and evening. Otherwise, minor disputes are featured. This would prove debilitating. Sense of HUMOR. FLEXIBILITY are keys.

SAGITTARIUS (Nov. 22 to Dec. 21): Time to sum up, to realize what efforts are being wasted; then economize. Brooding adds up to unhappiness. Tonight see the best in others and they will reciprocate.

CAPRICORN (Dec. 22 to Jan. 20): Fine for travel in connection with vacations and for creative activities, including pursuit of hobbies. Especially promising for romance, adventure. In all, a fine latter day.

AQUARIUS (Jan. 21 to Feb. 19): There is apt to be doubt in your mind concerning activities of one close to you. But best now for keeping these thoughts to yourself. Others may prove antagonistic.

PISCES (Feb. 20 to Mar. 20): Cycle could be higher. Take it slow and easy, especially when it comes to signing agreements, making financial commitments. Like Gemini. Important that you fight tendency to be timid.

★ ★ ★

IF FRIDAY IS YOUR BIRTHDAY this should prove exciting month as far as new contacts are concerned. for young people who adolescence you, by October look for opportunities for change, travel, greater financial security.

★ ★ ★

GENERAL TENDENCIES: Day when things will resemble a "mixed bag." Of the new, Cycle up for LEO, VIRGO, LIBRA.

Anti-Gaullist Facing Action

Council Votes to Lift Ex-Premier's Immunity as Legislator

PARIS (UPI) — A parliamentary commission today voted to lift the parliamentary immunity of former Premier Georges Bidault, making him liable to arrest and trial for heading the anti-Gaullist "National Resistance Council."

★ ★ ★

The 12-man special commission's findings must be approved by the National Assembly, of which Bidault is still a member.

The commission did not rule that Bidault belongs to the terrorist Secret Army Organization (OAS). But it did find that he is head of the National Resistance Council, which also opposes President Charles de Gaulle's Algerian independence policy.

The former head of the OAS, ex-Gen. Raoul Salan, designated Bidault his successor in a letter smuggled from his prison cell May 4.

But it was reported Salan told the commission he never had any direct contact with Bidault.

★ ★ ★

Bidault left France several months ago and since then, mimeographed letters have appeared designating him head of the National Resistance Council. He is believed to be in another part of Europe.

AP Photofax

CLOSING SCENE — America Indians straggle home from an all-night tribal dance in a Los Angeles alley in this final scene from a movie called "The Exiles." It's the story of displaced American Indians produced by Kent Mackenzie, who came to Hollywood eight years ago with a burning desire to make movies.

Made by Young Newcomers

Film on Indians Is 'Real'

By BOB THOMAS
AP Movie-Television Writer

HOLLYWOOD — Recently a packed audience at UCLA's cavernous Royce Hall applauded a haunting movie about displaced American Indians, "The Exiles."

Part of a subscription series of film classics, this was the first commercial showing in the United States of a remarkable motion picture put together by a group of young men trying unsuccessfully to break into the movie business.

THOMAS

The man who made "The Exiles" is Kent McKenzie, tall, intense, with a shock of black hair. He got out of the Air Force eight years ago and came here with the burning desire to make movies.

ENROLLED IN SCHOOL

He is the son of DeWitt McKenzie, longtime AP columnist now retired, and he came to me for advice. I told him the difficulty of breaking into the movie business and sent him to producers who did likewise. But he would not be dissuaded and he enrolled in the University of Southern California's excellent cinema school.

★ ★ ★

Five years ago, Kent was researching for a documentary on Indian reservation life. He became acquainted with some young Indians who had drifted to Los Angeles to take up a purposeless life on the fringes of skid row.

STARTED TO GROW

Kent saw their existence as a better subject for a film, and he started shooting some footage with the Indians' cooperation and delight. The project started to grow.

"At first I operated on my own $500," he recalled. "When that ran out, I started showing the film to people in hopes of backing it.

★ ★ ★

"One fellow, who was going into the Army and who later became my brother-in-law, said he had $2,000 he didn't need. That kept us going for about five months. Then a woman saw the film and said she would contribute the money she was going to spend the next day on a new sports car.

"My barber, who is 85 years old, saw what we were up against. He said he had a race horse he would sell and give us the proceeds."

★ ★ ★

So it went. After four years of filming—with long gaps between because of lack of funds—"The Exiles" was finally finished. The cost: $27,000 in actual cash, $45,000 if the deferments by those who helped make it were paid.

Unlike other local productions, the cast cost was not a major item. The actors, all non-pros, were paid off in beer and wine.

TASTE OF REALITY

That's the nature of "The Exiles." It tells, with no effort at Hollywood - type plot, how the young Indians spend their hours watching all-night movies or television, guzzling beer and wine, playing poker and driving their cars to a hilltop overlooking the city, where they fight, make love and chant and dance like their ancestors.

★ ★ ★

It is not a pleasant film and the acting is sometimes wooden. But it has the taste of reality and is expertly made. McKenzie wrote, produced and directed and his crew included many of his fellow film students.

ENTERED IN EUROPE

So far the film has been entered in film festivals in Europe (first prize at Mannheim) and San Francisco. It has been shown to good response on Belgian television and in Poland. Kent is hoping for film deals in Europe and an art-house release in this country. But progress has been slow.

★ ★ ★

He has kept going by work as a film cutter and now is producing some television films for Wolper Productions. But neither he nor his associates in "The Exiles" have been able to realize their ambitions to make movies because the studio unions will not admit them.

A jam-proof system of underground communication is being developed. Antennas deep in solid rock could send and receive at distances of 50 to 100 miles.

Peace Corps Aids Diplomacy

Young Americans Are Helping Relation With the Philippines

PEACE CORPS TOWN, Philippines (UPI) — A team of young, dedicated Americans is shaping up a new and effective concept in international diplomacy in Philippine rural areas.

★ ★ ★

In this typical town, which could be anywhere in the Philippines, President Kennedy has launched the Peace Corps program's first experiment in Asia.

The Peace Corps volunteers who will live and work for two years with residents in Philippine barrios (villages) are proving to be enthusiastic diplomats without portfolio for an eye for better Philippine-American relations.

During their two-year tours in the barrios, the volunteers will serve as educational aides in English, science and mathematics in the schools and assist in better community living.

★ ★

Extensively trained and tutored in different aspects of the Filipino way of live, they are getting accustomed to living in modestly furnished rural Filipino homes, eating rice with their meals and swapping greetings in the local dialect with the residents.

The volunteers, mostly in their 20's and fresh from college, get no actual salary. But they receive monthly allowances of 210 pesos ($105) each which are for board and lodging and other personal expenses.

Armed with a desire to make friends and a dedication to work, the volunteers are on their way to writing a new chapter in international diplomacy.

Heavy Haul Enables Officer to Make Pinch

BUFFALO, N. Y. (UPI) — Patrolman John Brach had no trouble at all catching a burglary suspect when he saw him leaving a closed restaurant in the middle of the night.

"He was so loaded down with coins he could hardly move," said Brach, who counted out $63.48 in change from the man's pockets.

Youth's Broken Arm Ends 31-Year Record

POTOSI, Mo. (UPI) — Roger Lee Coleman's broken arm during a track event ended a family record of 31 years of perfect public school attendance.

The 14-year-old eighth grader required hospital treatment, so he missed school for one day.

Church Head Going to Russia

Britain's Archbishop of Canterbury Accepts Bid From Soviet Patriarch

LONDON (UPI) — Dr. Arthur Michael Ramsey, archbishop of Canterbury and primate of England, announced today he has been invited to Moscow by the patriarch of the Russian Orthodox Church. He will go there on July 30 for four days.

"The purpose of my visit will be to strengthen our ties with the holy orthodox church," he said, "and to encourage the reopening of joint doctrinal discussions between ourselves and the orthodox church."

The archbishop of the Church of England also said he has been invited to appoint three delegate observers to the second Vatican ecumenical council which meets in October.

Dr. Ramsey said representatives of the Church of England, the Church of Scotland, the Episcopal Church of Scotland and the Presbyterian Church of England will meet in Durham next week to discuss the problems of unity and of the church's mission in the world.

"The purpose of this conference," he told a meeting of the church assembly in Westminster, "is not to produce any definite scheme of reunion—its aim is to allow a larger representative group from both traditions to try to understand each other's point of view more clearly."

Judy Garland Injures Head in Fall in London

LONDON (UPI) — Judy Garland received treatment in a London clinic today after injuring her head in a fall in her bathroom.

Filming on her new movie, "The Lonely Stage," was halted at nearby Shepperton Studios. A spokesman said Miss Garland's injuries is were painful, but not critical. He said she hoped to resume filming next week.

While making the picture, Miss Garland has been staying at a suburban hotel near her studio.

Blast JFK's Trade Bill

WASHINGTON (UPI)—Sen. Norris Cotton, R-N.H., and Rep. John H. Rousselot, R-Calif., yesterday attacked President Kennedy's trade expansion bill as "devastating" and "vicious."

One new home has been built for every four babies born in the United States since 1950.

King Rex," potentate of New Orleans' Mardi Gras, first appeared in 1872.

High-Flying Angels Wing Past July 4 in First Place

Los Angeles Hits Top After Sweep of Washington

Yanks Half-Game Back Following Split With Kansas City

By The Associated Press

Flying high, those Angels. And if past performance charts mean anything, Los Angeles' infant American League entry is 2-1 to finish first in the pennant derby—which would rank as one of the most cockeyed upsets in baseball history.

★ ★ ★

The Angels swept into the lead in Wednesday's big holiday program by scoring two victories over Washington, 4-2 and 4-1. That stretched their winning string to four and pushed them a half game ahead of the New York Yankees, who were humbled by Kansas City 11-1 before the home run slugging of Mickey Mantle and Roger Maris powered the Yanks to a 7-3 decision and a split with the Athletics.

JULY 4 BAROMETER

One of baseball's barometers is the July 4 standings—with the team topping the league the traditional favorite to wind up as champion. It's happened that way 41 times in the AL's 61 years. But you only have to go back as far as last season to find the last time it didn't happen. The Yanks split an Independence Day doubleheader with Detroit, leaving them a game back of the Tigers, but the Yankees emerged as runaway pennant winners.

★ ★ ★

And, tradition and percentages to the contrary, hardheaded baseball men expect the heavily-favored Bombers to repeat the job this time out.

In Wednesday's other American League doubleheaders, Cleveland edged to within two percentage points of New York with a pair of overtime victories over Detroit, 1-0 on Gene Green's pinch single in the 10th inning and 6-2 on Don Dillard's grand slam homer in the 13th; Minnesota and Boston split, the Twins taking the first game 8-4 and the Red Sox the second 9-5; and Baltimore split with Chicago, the Orioles winning 7-3 and the White Sox 5-2.

★ ★ ★

The Angels, helping to make a spirited scramble of things in their second season, jumped in front against Washington in both games and nailed down the sweep with strong relief pitching. Right-hander Ken McBride won his seventh in a row in the opener, boosting his record to 8-3, and Dean Chance supplied the needed help from the bullpen. Lee Thomas' homer in the sixth proved the Angels' clincher.

Leon Wagner, the league's leading home run hitter, smacked No. 24 with one on in the third and Felix Torres also banged a two-run homer for Los Angeles in the second game, Art Fowler preserved the pitching victory for southpaw Ted Bowsfield—and the Angels won for the ninth time in their last 12 starts.

BOMBERS HIT

After a no-hit, no-pitch, no-field performance in their first game against the A's, the Yankees cut loose in the second. Ed Charles pushed Kansas City ahead with a two-run, inside-the-park homer in the second inning but Mantle blasted one with a man aboard in the fifth. Then the Bombers bombed in the sixth, when Clete Boyer homered, Maris homered with two on, and Mantle belted his second of the game. Mantle hit five homers in the four-game set with the A's and Maris collected four.

Jim Perry fired a fivehitter and scored Cleveland's run as the Indians nipped Hank Aguirre and Detroit in their opener. Perry opened the last of the 10th with a single, moved around to third on a sacrifice and Tito Francona's infield hit, then came in on Green's pinch single.

Cleveland came from behind twice in the second game before Dillard slammed his bases-loaded homer off loser Jerry Casale in the 13th. Woodie Held's single with two out in the ninth tied it 1-1, and Doc Edwards' first major league homer made it 2-2 in the 10th.

★ ★ ★

Boston's Lu Clinton continued blazing in the Red Sox' split with the Twins, whacking out seven straight hits after grounding out his first time up. The reserve outfielder had two homers, two doubles, three singles, drove in four runs and scored five.

The Twins ran off with the opener behind Bob Allison's hitting and Bill Pleis' 7 1-3 innings of tight relief pitching. Allison batted across four runs with a homer and single.

Johnny Temple rapped out four hits and Jerry Adair tagged a decisive two-run homer in the sixth inning as the Orioles scored over Chicago. Then a flurry of four unearned runs against Gary Estradis in the third inning and lefty Juan Pizarro's six-hit pitching gave the White Sox the victory in the second game.

Frisco's Bonus Baby Hopes for Head Start

SAN FRANCISCO (AP) — Bob Garibaldi, the new $150,000 component of San Francisco's pennant-seeking machine, hopes to begin working immediately with the Giants though he won't officially join them until July 15.

"I'll need a lot of help," said the modest right-handed pitcher, who agreed Wednesday to accept the highest bonus ever paid by the Giants.

Giants Manager Alvin Dark and pitching coach Larry Jansen are equally as eager to see their towering 6-foot-5 205-pound fireballer in action.

"I've never seen him pitch," said Dark. "I won't know how I'm going to use him until I see him. But he'll be doing some work for us."

Added Jansen: "I can't work with him until I see him in a game. But I sure don't know of anything I plan to change about him."

★ ★ ★

The Giants expected to seek approval today from Commissioner Ford Frick for Garibaldi to work out with the team before he legally goes on the roster.

His acceptance of the Giants offer—not the highest he received—ended a month of spirited bidding by every major league club for the 20-year-old University of Santa Clara sophomore.

After winning the most valuable player award at the NCAA World Series last month and leading Santa Clara to second place, he was acclaimed the best college prospect in the country.

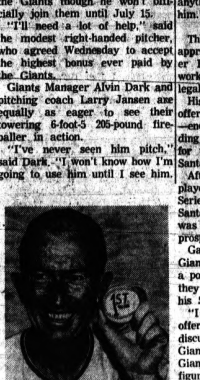
Garibaldi said he chose the Giants because he wanted to join a power-hitting team and because they are based only 80 miles from his Stockton, Calif., home.

"I had one or two higher offers," he said, but would not discuss terms of them nor the Giants bid. A source close to the Giants acknowledged the $150,000 figure was about right, though club president Horace Stoneham declined comment on the bonus.

BLAST SCOUTS

Father James E. Sweeters, the Santa Clara athletic moderator who blasted pro scouts last week in a letter to Frick, said, "When a boy is offered such a fantastic chance, he can't turn it down. What I am opposed to is trying to turn boys against college without any worthwhile bonus."

Garibaldi, who forfeited two years of eligibility, said he will return to Santa Clara in the off-season to earn his history degree.



AP Photofax

LEADING SMILE — Manager Bill Rigney has reason to smile. The Los Angeles Angels are the surprise of the baseball world today, sitting in first place in the American League after defeating Washington, 4-2 and 4-1, yesterday.

AP Photofax

WELCOME HOME — Los Angeles baseball fans found it hard to believe but they turned out to welcome home their Angels who are sitting on top of the American League today, ahead of the New York Yankees. Thousands of people welcomed home the Angels last night after they swept a doubleheader from Washington.

He's First in '62 Pontiac

Fireball a Real Firecracker

DAYTONA BEACH, Fla. (AP)—Hometown hero Glenn (Fireball) Roberts gunned his sleek new Pontiac to victory Wednesday in the Firecracker 250 stock car race.

It was Roberts' second straight triumph on the Daytona International Speedway and his first victory since winning the Daytona 500 in February.

A crowd estimated by Speedway President Bill France at 27,000 was treated to a blistering duel between four Pontiac drivers—Roberts, Edwin (Banjo) Matthews of Asheville, N.C.; Bobby Johns of Miami, Fla., and Junior Johnson of Ronda, N.C.

Johnson claimed second after transmission trouble sidelined Matthews and Johnson.

Three wrecks enlivened the NASCAR-sanctioned race, but no serious injuries were reported. One of the spinouts erased the hot Ford team of Nelson Stacy of Daytona Beach and Fred Lorenzen of Elmhurst, Ill. Also eliminated by wrecks were J. Weatherly of Norfolk, Va., 1962 Pontiac; Lee Roy Yarbrough of Jacksonville, Fla., 1961 Pontiac, and Richard Petty of Randleman, N.C., 1962 Plymouth.

One of the wrecks caused the

Veteran Player Dies

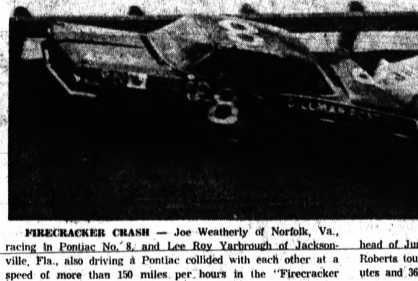
VENTURA, Calif. (AP)—Josh B. Clarke, a veteran baseball player who saw service with Cleveland and the old Brooklyn clubs, is dead at 83.

Clarke, who died Monday, was a brother of the late Fred Clarke, a member of Baseball's Hall of Fame.

race to run under a caution flag for seven laps, slowing the drivers and killing any chance for a new record. Roberts toured the tri-oval track at an average speed of 153.688 miles an hour, about half a mile off the record pace set by David Pearson of Spartanburg, S.C., last year.

★ ★ ★

Matthews had led through much of the race until his transmission gave way on the 73rd lap. Johns took command, but also had to quit because of a faulty transmission.



AP Photofax

FIRECRACKER CRASH — Joe Weatherly of Norfolk, Va., racing in Pontiac No. 8, and Lee Roy Yarbrough of Jacksonville, Fla., also driving a Pontiac collided with each other at a speed of more than 150 miles per hours in the "Firecracker 250" at Daytona International Speedway yesterday. Glenn "Fireball" Roberts won the race with his 1962 Pontiac, 12 seconds ahead of Junior Johnson of Ronda, N.C. also driving a Pontiac. Roberts toured the two and half mile track in one hour 36 minutes and 36 seconds for an average speed of 153.688 m.p.h. The record of 154.294 was set last year by Dave Pearson in a 1961 Pontiac.

Tigers on Short End of Holiday Special

Go 23 Innings for Cost of 18 and Lose Twice

Indians Shade Bengals, 1-0 and 6-2, in Duels at Cleveland

CLEVELAND (AP) — The Detroit Tigers came up with a holiday special yesterday — 23 innings for the price of 18.

Their offense wasn't anything special, though. They scored only two runs and lost both games of the doubleheader to the Cleveland Indians, 1-0 and 6-2, in contests of 10 and 13 innings.

The Tigers now have used up 34 innings for three games. They beat the Chicago White Sox 5-4 in 11 innings Tuesday.

★ ★ ★

While Tiger bats stayed quiet for the first game, Hank Aguirre hung on grimly and pitched a brilliant four-hitter over the regulation nine innings. A sacrifice and three singles in the 10th put over the run that beat him.

In the nightcap, Detroit gave Don Mossi a run in the fourth inning but a sacrifice and two singles tied it in the ninth.

GRAND SLAM FINISH

Both teams picked up a run in the 10th and it stayed 2-2 until Don Dillard unloaded a 365-foot grand slam home run in the 13th.

The two losses dropped the Tigers 4½ games behind the league-leading Los Angeles Angels.

Jim Perry held the Tigers to five hits in the opener, winning his seventh game against five defeats. He also scored the winning run.

Perry started the Indians' 10th inning with a single, moved to second on a sacrifice by Willie Tasby and went to third when Tito Francona beat out a hit to second baseman Dick McAuliffe.

★ ★ ★

Then pinch hitter Gene Green lined a shot into center field driving in the first run off Aguirre in 23 2-3 innings.

The Tigers scored first in the nightcap when McAuliffe singled and Bubba Morton doubled in the fourth. A sacrifice and singles by Francona and Woody Held in the ninth sent the game into extra innings.

HOMER TIES SCORE

Chico Fernandez scored from first on a wild pitch by Ruben Gomez in the 10th but Doc Edwards' homer tied it in the Indians' half.

The Tigers never made a putout in the 13th, Chuck Esseghian singled, Held walked and Jerry Kindall beat out a bunt to third baseman Steve Boros when Boros threw to second base. Then Dillard blasted his homer ofer the right field fence.

Gary Bell, Cleveland's fourth pitcher, held the Tigers to two hits in three innings of relief and picked up the victory. He now is 6-5. Jerry Casale (1-2), the fifth Tiger hurler, was the loser.

Detroit's Mossi and Cleveland's Barry Latman dueled during the first nine innings, Mossi allowing six hits and Latman five.

5th Annual Buick Open Tourney in Progress

Bone Likes 283 at Warwick

By BILL CORNWELL

GRAND BLANC — Pontiac's Gene Bone, host pro for the 5th annual Buick Open golf tournament, thinks a five-under-par score of 283 will win the $52,000 event which got under way this morning at sprawling Warwick Hills Country Club.

Based on past performance, this prediction should be very close to correct when the champion is decided here Sunday afternoon — barring a playoff, of course.

Jack Burke Jr., Billy Casper and Johnny Pott each carded 284 over the regulation 72-hole distance a year ago, then Burke won the title in an 18-hole playoff.

Art Wall and Dow Finsterwald fired a record 282 in 1959 and Mike Souchak equaled that mark in 1960 to post his last win on the PGA tour. Wall was the '59 winner in a playoff with Finsterwald.

Casper won the inaugural Buick tournament in 1958 with a 283 total.

The giant Warwick layout measures 7,280 yards from the back tees and Bone says that they could be moved even further back if necessary. Par is 36-36—72.

CITES NO. 17

Bone, now in his 4th year as head man at Warwick, believes the exacting 17th will be the make-or-break hole in this event.

★ ★ ★

The 17th, a 222-yard par three, has ruined more than one touring pro's bid for the $9,000 first prize. It demands a long and extremely accurate drive to a narrow green well protected by bunkers.

Dave Ragan was leading last year's tourney when he came to the 17th and it turned into his "Waterloo."

Bone also cites the 451-yard 2nd hole and the 194-yard 11th as highly testing holes that could spoil hopes for a good round and a possible championship.

★ ★ ★

There were 150 pros and 10 amateurs on the firing line this morning for the first round of the four-day event.

Among the leading favorites for the crown were Jacky Cupit, winner of the Western Open last week at Chicago's Medinah links; Bobby Nichols, who tied for 3rd place in the U.S. Open, and Casper, the 3rd top money winner on the current tour.

LEONARD FIRES 66

Prizes totaling $3,750 went to the top finishers yesterday in a preliminary pro-am event featuring 50 pros and 150 amateurs.

★ ★ ★

Canadian pro Stan Leonard rifled a six-under-par 66 and collected $250 as the low pro.

Jack Fleck, who collected $200 for his part, and three Flint amateurs — Jack Stone, Bill Kelly and Francis Marzonie — won the best ball event with a 13-under-par 59.

Fleck matched par with his own ball and his three partners picked up 13 strokes.

★ ★ ★

Pro Fred Hawkins and Grand Blanc amateurs Vince Murphy, Bruce Pollock and John Laboskey finished 2nd with a best ball count of 60. Leonard's foursome was 3rd in the 50-team field.

★ ★ ★

The leading pros split $2,500. Amateurs garnered $1,250 in merchandise awards.

Los Angeles Is Toast of U.S. Baseball

LOS ANGELES (AP) — Last spring, a gentleman identifying himself only as an apprentice sorceror went to Las Vegas and offered to bet that both Los Angeles baseball teams would be in first place the morning of July 5.

At that time, it was something of a longshot proposition. In fact, he could have gotten the same odds by wagering that both Los Angeles teams would be in the same league the morning of July 5.

Too bad they threw a net over him before he could get his money down. Because, with part of his winnings, he intended to make a patriotic gesture by retiring the national debt.

★ ★ ★

The Dodgers, who have been in business more than 60 years, figured to be in first place or thereabouts in the National League. But the Angels, organized less than two years ago under a process known as instant baseball, were expected to lead the American League this year only in two-base throwing errors and aspirin consumption.

Yet there they are, a half game ahead of the New York Yankees.

★ ★ ★

The Los Angeles Times trotted out some of its blackest type and announced in an eight-column headline:

"Heaven can wait! Angels in 1st on 4th."

And, immediately below, in somewhat smaller type:

"It's true! And Dodgers, too."

Grid Rules Changes Reviewed by Crisler

COLORADO SPRINGS, Colo. (AP)—Fritz Crisler, director of athletics at Michigan, reviewed football rules changes Tuesday for the National Association of Athletic Commissioners.

★ ★ ★

Crisler, acting chairman of the Association's football rules committee, noted the kicking team this fall will be permitted to down a punt within the defensive team's 10-yard line.

★ ★ ★

Another rules change reduces the penalty for illegal shift from 15 to 5 yards.

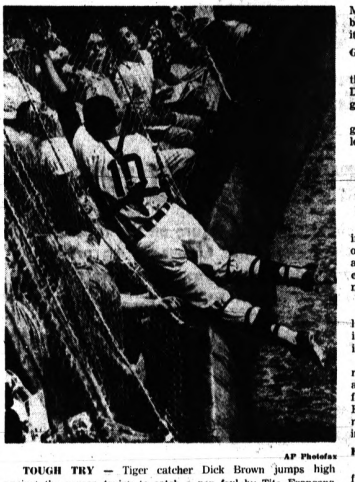
There was general discussion of rules interpretation by football officials.

★ ★ ★

The use of collegians in the Olympics will be discussed tomorrow by Kenneth L. (Tug) Wilson, former Big Ten Commissioner and now president of the American Olympic Association.

Wednesday's Fights
By The Associated Press

STOCKTON, Calif. — Dommy Felicia, 125, Stockton, outpointed Fernando Sota, 124, Oakland, Calif., 10.



AP Photofax

TOUGH TRY — Tiger catcher Dick Brown jumps high against the screen trying to catch a pop foul by Tito Francona in the first game of yesterday's doubleheader at Cleveland. He was unable to get the ball. The Indians won the first game, 1-0, on Gene Green's pinch single in the 10th inning. Then the Tribe won the second game, 6-2, as well.

KC Manager, Bauer, Is Unhappy!

Jimenez Not AL Players' Choice

NEW YORK (AP) — The failure of his fellow American Leaguers to vote him on the all-star team has failed to dampen the bubbling spirits of Manny Jimenez who is more concerned with maintaining his position at the top of the circuit's hit parade.

This is not so with Kansas City manager Hank Bauer who feels the players have done an injustice to his roly poly right fielder who leads the Athletics in batting, hits, home runs and total bases and is second to Norm Siebern in runs batted in.

"It's a darn shame," said Bauer, who didn't feel too well anyway after the New York Yankees had come from behind to beat the A's 7-3 after the Athletics had won the opener 11-1 yesterday.

"What could they have been thinking of? They voted Rollins (Minnesota's Rich Rollins) as the third baseman over more established fellows like Brooks Robinson and Clete Boyer because he is having a good year. The same for Moran (Los Angeles' Billy Moran) at second base. Well, my guy is having a better year than both."

NO ROOM

Jimenez finished behind Roger Maris and runner-up Lee Thomas of the Angeles in the players' vote, Yankee manager Ralph Houk, who will pilot the American League squad in the all-star game at Washington, D. C. next Tuesday, will select his alternates tomorrow. He inudicated he intends to follow the players' selection to the letter. That, in all probability, would leave no room for Jimenez.

"I expect to be criticized," said Houk, "and maybe they'll be right. "But I feel I should follow the dictates of the players. They have selected who they felt were toughest against them."

Jimenez, the league's leading hitter at .350, has 42 RBI and 10 home runs.

"I am disappointed, of course," said the 23-year-old left-handed slugger from San Pedro De Macoris in the Dominican Republic, "but I am not angry at anybody.

"I think I have right to be on all-stars," Jimenez continued in his best broken English, "and it would give me great pleasure but I can do nothing about it, yes?"

Dodgers Gain Tradition in Battle for Pennant

By The Associated Press

The Los Angeles Dodgers, winning 'em two at a time with astonishing regularity, have passed the July 4 milestone with a half-game edge over San Francisco's Giants and added baseball tradition to their line-up in their struggle for National League supremacy.

Tradition jumped on Los Angeles' bandwagon after Wednesday's program as the Dodgers swept their seventh consecutive doubleheader by belting Philadelphia 16-1 and 7-3. The twin triumphs kept the Dodgers a half-length ahead of the Giants, who whipped the New York Mets 11-4 and 10-3.

That, according to baseball's July 4 rule of measure, gives the Dodgers a commanding edge over the runner-up Giants. In the 61 seasons since the turn of the century, 39 NL teams leading after the holiday games have won the pennant—an average of 64 per cent.

LA SWEEP

The Dodgers' sweep turned Los Angeles into the baseball capital—for a day at least—as the 2-year-old Angels moved into first place in the American League by defeating Washington 4-2 and 4-1. In the AL, 41 of 61 July 4 leaders—or 67 per cent—have won the pennant.

★ ★ ★

Pittsburgh remained in third place in the NL, taking Houston 7-0 and 4-3. Fourth-place St. Louis stopped Milwaukee 2-0 after losing the completion of Tuesday night's suspended game, 7-5. Cincinnati's defending champs, in fifth place, defeated the Chicago Cubs 8-6.

Frank Howard's single and bases-loaded double drove in five runs in support of Sandy Koufax's five-hit pitching as the Dodgers pounded Chris Short and his successors for 18 hits in the first game. Koufax (12-4), making his first start since his no-hitter, didn't allow a hit until Ted Savage homered in the seventh inning.

★ ★ ★

Howard drove in two runs in the nightcap but Tommy Davis took over as the big RBI man with a two-run homer and run-scoring single.

Home runs got the job done for the Giants in both halves of their doubleheader with the Mets. Willie McCovey smashed a pair in the opener and added two sacrifice flies and a single for seven runs batted in. Ed Bailey and Jim Davenport also connected as Bob Bolin won it.

★ ★ ★

Willie Mays hit two homers in the second game—one with two on and another with one man aboard—to give Billy O'Dell enough working room to last the distance although tagged for 10 hits. Billy Hunter, victim of Mays' 23rd and 24th homers, took the loss.

LAW WINS

Vern Law continued his comeback for the Pirates in the opener, scattering eight hits to post his fourth consecutive triumph. He also drove in a run with a triple. Roberto Clemente stroked three singles to lead an 11-hit attack that tagged Bob Bruce with the defeat.

★ ★ ★

An 11-hit offensive also worked for the Pirates in the nightcap although this time Dick Groat had three singles. Elroy Face, working in relief of Earl Francis, ran into trouble in the ninth when the Colts pushed across two runs, but got Merritt Ranew on a grounder to end it.

★ ★ ★

Ed Mathews clinched the verdict for the Braves in the suspended game by breaking the 5-5 tie with a two-run ninth inning homer. The Cards, however, bounced back to take the regulation contest as Ernie Broglio checked the Braves on three singles to beat Warren Spahn. Spahn allowed only seven hits, but Ken Boyer took care of the scoring with his 14th homer and a run-scoring single.

★ ★ ★

Leo Cardenas' brilliant play on Billy Williams grounder after the Cubs had scored four runs in the eighth preserved the Reds' triumph for Jim Maloney. Battery-mate Hank Folles accounted for the deciding runs with a three-run homer in the fifth.

AP Photofax

ON RAMPAGE — Lu Clinton, Red Sox outfielder, went on a batting rampage with seven straight hits yesterday and helped Boston to a split of games with Minnesota. Clinton's hitting staked Gene Conley to his 9th victory in the nightcap.

Boston's Clinton Collects Seven Successive Hits

BOSTON (AP)—Lu Clinton, the pride of Ponca City, Okla., today is the hottest thing in the American League, including the pennant fight, thanks to a barrage of seven straight hits.

Thrown into the lineup when Carroll Hardy was ill last week, Clinton, the fourth Boston outfielder, climaxed a great surge Wednesday when he helped the Red Sox beat Minnesota 9-5 after the Twins won the doubleheader opener 5-4.

For the afternoon, Clinton had two homers, two doubles and three singles, drove in four runs and scored five, boosting his batting average 64 points to .259.

What's more, Clinton is "alive" for a shot at the major league record of 12 consecutive hits set by his manager, Mike Higgins, when the latter wore a Boston uniform in 1938.

"I can't explain the streak," shrugged the smiling 24-year-old afterward. "I do know playing regularly helps. That's brought my confidence back. I just hope I can hit half as well the rest of the way."

Griffith to Try to Better Record Set by Gar Wood

Sam Griffith, veteran long distance race driver, will set out on July 7 in an attempt to create a new motor boat speed record between Miami, Florida and New York City. The exciting mark of 47 hours and 15 minutes was established in 1921 by Gar Wood in his speedboat, Gar Jr. II.

Griffith will pilot a 31-foot Bertram express cruiser, powered with twin 310 horsepower inboard engines. Pop Meakins, Buddy Seaman and Bill Campbell will make up the crew.

★ ★ ★

With the start set at 2:30 p.m. (EST) Saturday from the Miami Chamber of Commerce dock, Griffith hopes to reach the 79th Street Yacht Basin in the Hudson River in New York around 9:30 a.m. (EDST) Monday.

The run will be made "outside" in the Atlantic except at Cape Hatteras. Griffith has scheduled five fuel stops during the 1,257-mile run at New Smyrna Beach, Fla., Charleston, S.C., Moorehead City and Oregon Inlet, N.C., and Cape May, N.J., to replenish the 270-gallon tanks.

Bickle, U-M Kicker, 'Not Available' in '62

ANN ARBOR (AP) — Doug Bickle, Michigan's place-kicking specialist and first team end candidate, will not be available for the 1962 football season.

The university, in making its announcement today, said the former All-Stater from Traverse City would not play for the Wolverines because of academic and personal reasons.

Billy Moran, infielder for the Los Angeles Angels, studies industrial management at George Tech during the off season.

Teeing Off

By BILL CORNWELL

A golfer's winning touch can desert him suddenly and then return just as quickly. Pontiac's Mike Andonian is living proof of that fact.

Prior to his conquest of the Michigan Amateur golf title Sunday at Jackson's Arbor Hills Country Club, the 36-year-old Pontiac Central math instructor had been playing some of the poorest golf of his career.

In the Michigan Publinx Golf Association's state match play event the previous week at Lincoln C.C. near Grand Rapids, Andonian reached the quarter-final round before losing to Dearborn veteran John Lock.

Andonian perhaps never played worse than he did against Lock. He couldn't pitch or chip with any telling authority and his putting skill left him almost entirely.

ANDONIAN

Before the State Publinx tourney, Andonian failed to qualify for the National Public Links Championship, an event in which he always has made a creditable showing.

A quarter-finalist a year ago at Rackham Municipal and semi-finalist two years ago at Honolulu, Andonian had passed national trials seven times in eight tries preceding this year's state qualifying test.

He couldn't locate his game and failed to make the national grade for the first time since 1957.

But Mike found his game again at Jackson—just in the nick of time. Such is the up-and-down fate of golfing.

EMBARRASSED DAD

Pontiac's Tom Balliet, who will be competing in his first U.S. Publinx tournament next Monday at Tonawanda, N.Y., was pleasantly embarrassed by his 12-year-old son Gary last Saturday in the City Best Ball event.

Gary and his father were partners in the annual outing at Municipal and the chunky 7th-grader scored better than his dad in addition to firing an eagle three on the south side's 7th hole.

Gary, who stands 5-foot-1 and weighs 130 pounds, carded a five-over-par 74 with his own ball while Tom was shooting 75. Their best ball total was 70.

On the 461-yard 7th, Gary sank a 50-foot wedge shot for his eagle, one of three posted in the tourney.

★ ★ ★

To show that this effort was no fluke, Gary fired 72-73—145 on the same day last summer at Bald Mountain. Pro Ken Wilson verifies this.

Gary will enroll at Avon Township Junior High School in September.

His 36-year-old father managed to hurdle the U.S. Publinx qualifying barrier on his 3rd attempt. Tomorrow he leaves for Tonawanda, which is a 15-minute drive from downtown Buffalo.

Dates of the national public links are July 9-14.

★ ★ ★

Clifford (Kip) Inman, former city medal play king, also eagled the south nine's 7th hole by sinking a 15-foot putt. Jim Miller closed with a rush by eagling the 8th and birdieing the 9th.

SHORT PUTTS

Roger Tallman, Waterford Township High School golfer who works in the pro shop at Pontiac Country Club, three-putted the 5th and 9th greens and four-putted No. 8 at P.C.C., but still collected a 38.

★ ★ ★

Walter Hagen Jr., Edgewood member and son of the famous "Haig," will handle part of Sunday's Buick Open telecast from Warwick Hills.

The Syrons' new 18-hole course being built on the Dixie Highway near Walton Boulevard will probably be called Colonial Hills C.C. A sketchy layout of the $1 million links has been completed.

Groza Holds Record

LEXINGTON, Ky. (AP) — Alex Groza, who played center on the great Kentucky basketball teams in the mid 1940s, is the school's all-time top scorer. Groza tallied 1,744 points in 120 games over a four year period.

Back 9 Challenge at Troon—Nicklaus

TROON, Scotland (AP) — Jack Nicklaus, United States Open Champion, today predicted that the holes of the back nine of the Troon links could send scores soaring in the British Open Golf Championship starting Monday.

Nicklaus, of Columbus, Ohio, has had two days of practice over the 7,045-yard links on the edge of the Firth of Clyde. He admits that the incoming nine still has him baffled.

"I've yet to break 40 on the home nine," he said.

"If the wind starts blowing, as it has a habit of doing in these parts, then there could be some high scores on the last nine."

Nicklaus, Arnold Palmer, U.S. Masters Champion, Sam Snead, winner of the British Open in 1946 and one of the game's greatest players, Gene Littler, 1961 U.S. Open Champion, and Phil Rodgers head the 29-strong American challenge—the strongest U.S. entry for years

★ ★ ★

Palmer is defending the title he won at Birkdale, Lancashire, last year. Nicklaus is out to add the British Open to his U.S. crown. The rivalry between those two—Nicklaus defeated Palmer in a playoff for the U.S. Open—has fired the imagination of British fans and crowds of between 20,000 and 30,000 are expected each day.

Palmer agreed with Nicklaus that the course is a tough one—"One made for a champion of champions."

Palmer arrived in Troon only Wednesday, played a quick round then went to bed early to catch up on some sleep.

Aussie Finals at Wimbledon

Young Marty Mulligan Faces Veteran Laver in Surprise Finale

WIMBLEDON, England (AP)—Martin Mulligan, tennis star who left Australia for a year to improve his game, is the strangest turn-up in this Aussie-dominated Wimbledon Tournament.

Mulligan, 21, is in today's men's singles final against Rod Laver, the defending champion. And he reckons it's all because he got away from Australia and came to England to practice his shots.

"If you want match practice, the round of Australian tournaments is the finest school in the world," Mulligan said.

"But it wasn't match practice I needed. I decided I should concentrate on improving my service and volleying.

★ ★ ★

"So after last year's Wimbledon tournament I stayed on in London and spent the winter practicing with friends. I decided I could do that better in London than anywhere else."

The results were made clear to an enthusiastic 14,000 crowd on Wimbledon's center court Wednesday. They watched Mulligan, unseeded, overpower John Fraser of Australia 6-3, 6-2, 6-2 in the semi-finals.

Laver defeated the elder Fraser brother, former Wimbledon champion Neale Fraser 10-8, 6-1, 7-5 in the other semifinal.

Diamond Play Heavy Tonight on Local Fields

Baseball and softball are on the docket tonight in recreation activity at Pontiac and Waterford.

On the Class A baseball front, Don Nicholle clashes with the R. T. Clippers under the Jaycee Park lights at 8 p.m.

In American division City League softball action, the Pontiac Police will tackle Howe's Lanes at Beaudette at 7 o'clock. In a Northside twin bill, Hi-Way Collision plays UAW Local 594 at 7, followed by an 8:30 contest between Elks No. 910 and Arro Realty.

★ ★ ★

League-leading Stroh's and runnerup Spencer Floor Covering tangle in a Class B Waterford loop softball feature at Drayton Plains at 7 p.m. Spencer trails Stroh's by 1½ games. O'Neil Realty battles Sarko Investment in another "B" contest at 8:30.

U. S. Runner Edged by Derek Ibbotson

OSLO, Norway (AP) — Derek Ibbotson of Norway shaded Cary Weisiger of America in a photo finish in winning the 1,500 meter race which featured the second night's program of the Oslo track and field games.

Ibbotson, a 4-minute miler, was clocked in 3 minutes, 46.1 seconds over a slow track in a drizzling rain. Weisiger, a Marine from the Quantico, Va., base, was just one-tenth of a second behind.

Another U.S. Marine, Dave Tork from Camp Pendleton, Calif. was a disappointment when he was able to reach only 15 feet, 2 inches in the pole vault.

★ ★ ★

Norwegians had been looking forward to Tork's duel with the Finnish world record - holder, Pentti Nikula, who recently cleared 16 feet, 2½ inches to beat Tork's world mark of 16-2.

Tork's best effort fell well below Nikula's leap of 15 feet, 10¾ inches, record Tuesday night.

SOVIETS RACE — Russian eight-oared shell pulls out in front to win the second event of the international regatta on the Schuylkill River at Philadelphia yesterday. The Russians won the singles and doubles to make a clean sweep of the regatta. Other crews in the picture as they are finishing are (from left lane) St. Catherine of Canada, fifth; Vespers of Philadelphia, second; University of Washington, fourth; Cornell, third and Buffalo (far in rear) last.

Russian Flotilla Rows to Victory Over U.S.-Canada

PHILADELPHIA (AP) — Russian oarsmen scored a clean sweep in their races in the Independence Day Regatta on the Schuylkill River Wednesday.

The Russian eight oar crew came from behind to finish 2½ lengths ahead of four top-ranking American crews and one Canadian.

Vyacheslay Ivanov took the single sculls event by a length and a half. He then teamed with Yuri Tyukalov and won the double sculls over Dave Wilmerding and Bill Knecht of Philadelphia's Vesper Club.

Vesper's eight-oar crew finished second behind the Russians, beating out two top collegiate eights, Cornell and Washington.

Boat Firm Honors Ex-Pontiac Resident

with the Chris-Craft Corporation is Eugene R. Fisher, first Pontiac resident employed by the boat building firm when it established its new home port headquarters in Pompano Beach, Florida, in 1957.

Fisher received his service award pin at a recent ceremony from A. W. MacKerer, Chris-Craft Senior Vice-President in Charge of Engineering and Manufacturing.

Starting at Chris-Craft as a Production Engineer and then Prototype Engineer, Fisher is presently Research and Development Technician. In this position he is involved with the development, testing, and improvement of Chris-Craft products.

Fisher, a native of Pontiac and was employed by General Motors Corporation from 1941-1957. In November, 1961, he was honored with a scholarship to the Westlawn School of Yacht Design by the National Association of Engine and Boat Manufacturers which will lead to a degree in Naval Architecture.

Royal Oak Skippers Dominate Regatta

BAY CITY (AP) — Royal Oak men won three of the nine classes Sunday in the Bay City Outboard Regatta, picking up points toward the American Power Boat Association's national championship.

Jim Cameron won AU racing on the three-quarter-mile closed course on the Saginaw river, Bob Moore won the 36 service class and John Gochanour won the B stock hydroplane event.

Bruce Alexander of Toledo won the BU class, Jack McCorlie of Michigan Center won the CU event and Ray Feist of Grand Rapids won DU racing.

$560,000 Turned Down

LONDON (AP) — A British horsemen said today an offer of 200,000 pounds ($560,000) for Tambourine II, winner of the Irish Sweeps Derby, has been turned down by the colt's American owners, Mr. and Mrs. Howell Jackson of Middleburg, Va.

Water Sports

During Safe Boating Week

Use Safety-Courtesy for Boating Fun

By WM. TAYLOR McKEOWN
Newspaper Enterprise Assn.

National safe boating week ending July 7 will help point out that while boating and boats are basically safe, boatmen, sometimes, are not.

More pleasure craft were expected to take to the water these seven summer days than at any other time.

"Increasing participation in this healthy sport has emphasized the need for greater attention to courtesy and safety to minimize boating incidents of the type which often lead to boat mishaps," noted President Kennedy.

The Coast Guard Auxiliary, Boy Scouts, Red Cross, Power Squadron and many other organizations are cooperating to promote this campaign. It is the individual boatman, however, who gets into trouble.

Statistics show most accidents happen to mature boatmen. Though the number of boats has been increasing, accidents have not. Each year, however, too many boatmen needlessly drown.

★ ★ ★

Here is where you are most likely to get in trouble.

Shallow and sheltered waters lead to carelessness. Rivers have been accounting for 35 per cent of the accidents; lakes 33 per cent. Great Lakes? Only 4 per cent. Salt water areas? Only 15 per cent.

Two-thirds of the accidents occur from craft between 12 and 17 feet in length. That's because there are many more boats in this size category than any other. Negligence, a formal word for water-born stupidity, accounts for 50 per cent of the fatalities.

The most frequent mistake is standing up suddenly and falling overboard or capsizing the craft. An unbalanced load, sudden maneuvers and poor observation while steering are typical other causes.

Next to negligence in importance comes "cause unknown" as the reason for 30 per cent of the accidents. These accidents are no real secret.

The boatman is out alone and stands up suddenly to net a fish or reach overboard for the anchor line or an oar floating away. He ends up in the water, has no life jacket on or a preserver available, and becomes one more cause unknown statistic.

★ ★ ★

Figures show that few adults bother to wear life jackets even when in danger, and half of last year's total fatalities could have been prevented by using them.

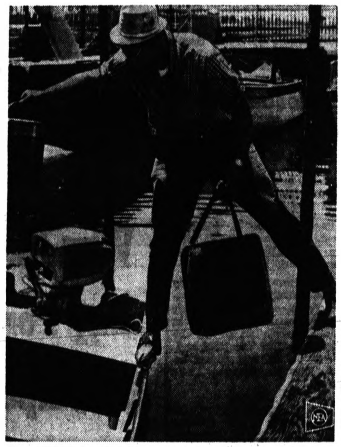
What activity is most dangerous? General boating and cruising are the scene for 45 per cent of the accidents, according to studies by the Outboard Boating Club of America.

Fishing is next with 44 per cent. Is water skiing dangerous? It was responsible for only 1.8 per cent; racing 5 per cent.

Saturdays and Sundays bring 50 per cent of the accidents. The rest are spread through the week as boatmen fall out of their craft or load it down and head out into weather and waters where waves can wash in to swamp it. California, Texas, Michigan and New York, in that order, have been the scene of most accidents.

★ ★ ★

Only one boatman in 7,000 is likely to get in trouble with his boat. Even he will sail home safely if he observes Safe Boating Week for 51 other weeks as well.



DUNKING TIME — This inept boatman is looking for a dunking as he tries to board outboard craft in worst way.

Americans Face Hurdles at Henley River Regatta

HENLEY, England (AP)—Two major hurdles loomed up for the Americans at Henley today, threatening to crush U.S. hopes in both the regatta's main events.

Hurdle No. 1 was a group of Italian factory workers rowing for the Moto Guzzi Club. They were matched against Yale University in the Grand Challenge Cup today — after thrashing a London club by three lengths in a preliminary round.

★ ★ ★

No. 2 was an English crew of white collar workers rowing for the National Provincial Bank. They startled Henley with a magnificient performance in the Thames Cup Wednesday only one second outside Harvard's card's 6-minute, 39 second record, set in 1960.

★ ★ ★

The bank eight was drawn against the Massachusetts Institute of Technology today and MIT coach Gerrit Zwart admitted he would be highly pleased if his crew got through.

★ ★ ★

Four U.S. crews have entered for the Thames Cup this year: MIT, Washington-Lee High School of Arlington, Va., Detroit Boat Club, and Philips Academy of Andover, Mass.

All are in the top half of the draw.

Five Hydro Races Set This Summer

DETROIT—The American Power Boat Association sanction will extend to five unlimited inboard hydroplane races in 1962.

★ ★ ★

Although the announcement did not rule out additions to the schedule in the near future, the race dates did not include such fixtures as the Detroit Memorial or the Silver Cup.

The unlimited slate:

July 21-22—Diamond Cup, Coeur d'Alene, Idaho
Aug. 5—Gold Cup, Seattle, Wash.
Sept. 1-3—Governor's Cup, Madison, Indiana
Sept. 15-16—President's Cup, Washington, D.C.
Sept. 30-16—Lake Tahoe, Nevada

Fishing Not Disturbed by Outboard Turbulence

Outboards do not disturb fish, say Michigan scientists.

★ ★

What may be the definitive answer to the age-old problem of whether or not fish are bothered by outboard motors is given in a study by the Department of Zoology of the University of Michigan in cooperation with the Institute for Fisheries Research of the Michigan Department of Conservation.

They found that fish were not bothered at all by nearby operation of outboard motors.

That outboards attract rather than repel.

The Michigan scientists found. They say:

"One is led to the conclusion that motor use had no significant gross effects directly on fish."

★ ★ ★

The study, "Outboard Motors in Relation to Fish Behavior, Fish Production, and Angling Success," describes a summer of experimentation on the effects of outboard motors use on such subjects as bluegill and largemouth black bass production in experimental ponds; location of nests by fishes; guarding behavior of male fish; mortality of eggs and and fry; survival of advanced fry; and angling success in a natural lake.

In each phase of the study two lakes were set up—one for the test and one for the control. In the test lakes outboard motors were run extensively; in the control. In the test lakes outboard motors were run extensively; in the control lakes no motors were run at all.

The most significant test to fishermen was whether or not an outboard motor driven close to where men were casting would bother their fishing. The results showed no significant difference between the catch on motor-days compared with that on non-motor days.

★ ★ ★

"At the conclusion of the study the concensus was that no differences in angling results were observed between motor and non-motor days.

"Each of the fishermen reported instances of fish biting vigorously and continually during the time the motorboat was run past them. In three instances fish were hooked in the wake of the motorboat while the boat was still within 50 feet of the fisherman."

The biologists came up with other answers of interest to fishermen and boaters. For instance, does propeller turbulence bother fish? The reply:

"Turbulence from propeller action was not observed to have any gross effects directly on fish."

Does motor use "muddy the water"—that is, increase turbidity?

★ ★ ★

"Although silt and a little marl were present in the paths of all motors used, turbidity was not measurably increased by the motors."

POLLUTION

Does motor oil cause pollution?

"No oil could be found, therefore its effects could not be studied. It did not appear on marginal or aquatic vegetation, on the many clear pine test stripe set in the water near the shore, or on the concrete structures for control of the pond levels," says the report.

"If no oil pollution could be discerned in these small experimental ponds, it is probable that this is almost never an item of concern from ordinary outboard use in natural waters."

How do motors affect fish supply?

"In comparing the numbers of young bluegills recovered from the two ponds at the close of the experiment, one is led to the conclusion that motor use had no significant effect on production."

TEST BASS

In another test two ponds were stocked with bass. In one a motor was run twice daily in much the same manner as the bluegill pond. The second pond was kept as a control. A total of 228 hours of motor use was logged in the first pool, accumulated at the rate of about three hours per day.

The results: "No appreciable difference in production."

★ ★ ★

Does outboard use affect the location of nests by fish? Tests with sunfish and bass showed they are not barred by ordinary motorboat use from locating their nests in any parts of natural waters except in "extremely rare" instances. In the bluegill tests, "None deserted their nests for more than 60 seconds when an outboard boat traveled directly over them in 3½ feet of water."

Sailor Beware!

Many accidents can happen to your outboard motor and boat. Fire, theft, collision, loss of the motor overboard . . . all are common and costly hazards. These and many more perils, are covered by our Outboard Boat and Motor insurance policy. Call us.

Huron-Airway Ups Lead to 5 Games

Huron-Airway is making a runaway of the Class A City Baseball League race.

* * *

The Huron squad boosted its lead to a fat five games Wednesday night with a 6-2 victory over the runnerup R. T. Clippers in the nightcap of an Independence Day doubleheader at Jaycee Park.

Don Nicholle, occupying first place two weeks ago, tumbled into the basement after taking a 15-5 licking from CIO Local 594 in the opener of the twin bill.

Don Piemann pitched a steady four-hitter for Huron-Airway and struck out eight while walking four.

Chuck Honchell hurled the route for the Clippers, fanning seven and walking two. He allowed nine hits, including two apiece by Phil Rabaja, Al Barkeley and Stu Dell. Tom Demrick had two RBI's.

GAME STOPPED

The league's 10-run rule stopped the Nicholle-CIO contest after six innings.

Ten men batted in the 5th inning as the CIO tallied six times to overcome a 5-4 deficit and blow the game wide open. Play was halted at the end of the 6th after five more runs crossed the plate.

Larry Cates pitched the distance for the CIO and permitted 7 safeties, two by Ron Smith.

Daryl Thorpe, Wayne Lundy and Tom McCormick shared mound duties for Nicholle with McCormick absorbing the loss.

Chet Woodmore and Jim Berg each socked three safe blows to pace the CIO's 11-hit attack.

Nation's Race Tracks Pull 363,000 Persons on Fourth

By The Associated Press

More than 363,000 persons attended July 4 holiday programs at 19 thoroughbred race tracks in the nation, and bet more than $23 million, an Associated Press survey showed. Both totals were up from 1961, with the betting total representing an increase of nearly $2 million.

The attendance at 19 tracks was 363,750, topped by 55,123 at Hollywood Park. The betting handle was $23,261,503, with Aqueduct leading the list with $4,265,379.

A year ago on Independence Day, 338,546 attending racing programs at 19 tracks and bet $21,381,290.

Although there are additional four games on the July 4 program, baseball attendance dipped about 5,000 from last year's total as 224,866 fans turned out for 18 major league games Wednesday.

The National League led the way this year as 115,292 clicked through the turnstiles for eight games. Last year the NL drew 66,134 for six games.

The American League attracted 109,574 patrons for 10 games this year to 163,270 for eight in 1961. Both leagues totaled 229,404 last season.

The biggest crowd Wednesday was 39,322 at Los Angeles for the twin bill between the National League leading Dodgers and the Philadelphia Phillies. The Kansas City-New York two-game set drew 27,901 for the AL high.

But Psychology Better

Market Slows, Lacks Steam

NEW YORK (AP) — The stock market kept to the upside with some gold mining issues well ahead today. Trading was slow early this afternoon.

The prolonged recovery drive from the 1962 skid — there were four straight clear-cut advances by the Tuesday close—seemed to be running out of gas.

★ ★ ★

Moderate gains outnumbered losses among key stocks, with most movements kept within a point and a number of issues unchanged.

Wall Streeters commented that psychology in the street seemed to be better and a number of analysts said they looked for irregular improvement for some weeks, at least.

The rise of the gold shares was preceded by news of an advance in the price of gold bullion on the London market.

★ ★ ★

Homestake, up about 2, and Dome Mines, ahead more than a point, were the best performers among the gold mining issues.

There was no particular leadership in any of the main stock groupings.

Big Three motors were down as General Motors lost about a point in a spate of active trading. Ford and Chrysler dropped fractions. American Motors gained a fraction. Studebaker was steady.

Steels were narrowly mixed, with Bethlehem up, Republic off and U. S. Steel about unchanged.

Tobaccos edged lower. American Tobacco lost ¼ at 34 on 9,500 shares. Liggett & Myers took a similar loss.

Fractional gains among rubbers, mail orders-retails, oils, and some of the chemicals, base metals, and rails helped give the list its edge to the upside.

Prices moved higher on the American Stock Exchange in light trading. Ankne Chemical was up about a point and Signal Oil "A" more than that.

Imp Chem	7 5/16		

Corporate Bonds Lower

NEW YORK (AP)—Corporate bonds opened slightly lower in quiet trading today but individual issues, primarily in the rail and industrial categories, showed some strength.

★ ★ ★

U.S. Treasury issues showed little trend either way, but one dealer quoted intermediates off 1/32 and long bonds off 2/32. Trading was quiet.

Early changes in corporates were confined mostly to fractions, although Pacific Gas & Electric 3¾s of 1978 rose a full point to 95.

★ ★ ★

Other gainers included Alcoa 4¼s of 1982, up ½ at 99⅞; Sears Roebuck 4¾s of 1983, up ½ at 104 and Lehigh Valley 5s of F2003F, up ⅞ at 36½.

Plant Size Slips, Number Gains

Michigan Dept. Lists 298 Available Buildings but Less Floor Space

LANSING (UPI) — Available plants in Michigan have increased in number since the last report six months ago, but decreased in size, the State Economic Development Department said today.

The department's available plant summary listed 296 plants available, six more than in the winter edition, but the amount of floor space was reduced by 1,322,655 square feet.

Department officials said 142 communities had available plant space listed in the summer edition summary, which is distributed to industrialists throughout the nation. This was one less than in the winter edition.

★ ★ ★

The Upper Peninsula had a reduction of three plants, and the Lower Peninsula had an increase of nine during the six-month period.

Some 55 buildings were removed from the winter list, 30 of them for return to industrial use. Another eight buildings were converted to warehouses and 10 were put into service for commercial use, the department said. Other plants taken off the list during the period were razed, burned or taken off for other miscellaneous reasons.

Grain Futures Up During Early Trade

CHICAGO (AP)—Grain futures prices worked slightly higher today during the first several minutes of transactions on the board of trade.

After a mixed opening, buying by commercial accounts and some short covering absorbed the light offerings and nearly all setbacks were quickly canceled.

Brokers ascribed at least part of the demand to evening up commitments against a private crop report to be issued after the close of trading. It will be the monthly survey by Conrad Leslie of Bacheller & Co. This estimate of soybean acreage will be of particular interest since it will be the first of the growing season.

U.S. Consumer Buying in for Closer Scrutiny

By SAM DAWSON
AP Business News Analyst

NEW YORK — Consumer buying — the biggest thing in the U.S. economy — is in for closer than ever scrutiny today. The other chief forms of spending—by business and by government—are generally accepted as having pretty well taken shape for 1962.

Government spending is going to rise over the long range, stimulating certain industries, assuring some jobs and maybe creating some others.

★ ★ ★

Business spending plans can change, but most seem to call for a slight increase this year over last. And, anyway, business spending plans over the long range are tied to ultimate sales to the consumers and the government, or to prospects for such sales. Any big jump in business spending probably will have to wait for idle production facilities to be activated by increased consumer demands.

So what the consumer is going to do is the chief concern right now.

PUZZLING QUESTION

Particularly puzzling the soothsayers is just how much, if any, Americans will cut back their buying of goods and services because of losses in the stock market, or because of fear of the future induced by the stock market crash.

The latest pulse taking of consumer psychology finds it "soberly optimistic but not exuberant."

The questioning by the University of Michigan Survey Research Center was done while stocks were skidding, but most consumers were contacted before the big break of May 28 and the morning of May 29.

Government statistics also lag. Department of Commerce says, "retail sales continued at a high volume during May though they did not quite match the record total for the month of April."

Early reports of cutbacks in spending by consumers since the big drop in stock prices have concentrated largely in luxury items. Individuals who lost a lot of cash, or those who still have their stocks but aren't worth as much on paper as they once thought they were, are reported to have canceled plans to buy expensive houses, yachts, jewelry. So far stores have reported little apparent cutback in the buying of moderately priced items.

But, even so, consumer spending isn't all that the economic planners would like it to be. A little more of it would give the economy a nice boost.

BEHIND DRIVE

This is behind much of the drive for quick tax cuts, especially in the lower income brackets. Tax cut advocates contend that any such increase in disposable income would quickly find its way into trade or the payment for services.

But some economists doubt this. They concede that those who habitually spend all they make would increase their outlays if their tax bills were less. But those who think they already are spending as much as prudence dictates might use the tax windfall to increase their savings.

★ ★ ★

In either case the nonsupervigilant sector of the economy would gain. Increased spending would help consumer good industries and services. Increased savings would build up funds for investment in future economic growth.

But just now, many economists say, what the economy needs most is more consumer spending. They hope the consumers will stay optimistic—and they wish the consumers would be a bit more exuberant.

Down to Cases in Labor Dispute

Local Hopes to Have Full Contract Proposal Ready for Kohler Co.

SHEBOYGAN, Wis. (UPI) — Negotiations in the nation's longest major labor dispute were to get down to the "brass tacks" level today.

The United Auto Workers Local 833, AFL-CIO, said it hoped to have a "full contract proposal" ready for today's session with Kohler Co. representatives.

They got together last week for 2½ hours, but the session was mainly for the purpose of exchanging greetings and laying some preliminary groundwork.

The negotiations are the first in the five years. The dispute began in 1954.

Neither side would speculate on how long it will take to reach accord on a new pact.

'FRIENDLY' MEETING

The first meeting was described as "friendly," which was in marked contrast to the stormy, name-calling session in the past.

Local 833 went on strike against Kohler April 5, 1954, or 36 days after the union's first and only contract with the firm had expired.

Negotiations were held intermittently after that until April 26, 1957, when they were broken off until last Thursday.

Violence marked the early months of the walkout and the firm had to shut down briefly. Then the battle went before the National Labor Relations Board (NLRB), the Congress and the courts. The strike was technically ended in November 1960, when the NLRB found the firm guilty of an unfair labor practice and ordered the firm to rehire strikers.

The Supreme Court early in June upheld the NLRB decision for a second time. This set the stage for the resumption of talks.

To Check U.S. Use of Foreign Steel

WASHINGTON (UPI) — The White House has promised to check into claims that an expected award of a Navy steel contract to a foreign producer will aggravate the nations unemployment problems.

★ ★ ★

The promise from presidential assistant Lawrence F. O'Brien, was in response to a request from Sen. Hugh Scott, R-Pa., asking President Kennedy to keep the contract within the domestic steel industry.

★ ★ ★

In another development, Rep. John P. Saylor, R-Pa., announced that he has prepared a bill which would halt increased U.S. government purchases of foreign produced steel. He particularly criticized a recent U.S. Navy order of 2,500 tons of West German steel for missile ships.

Latest Auto Strike Over Standards

Working Conditions Still an Issue

DETROIT (UPI) — "This is a question we've fought all through the history of the auto industry: How much sweat must a worker put out to get his daily bread?"

Walter P. Reuther, president of the United Auto Workers Union, was referring to the issue which triggered a strike and caused a nationwide shutdown at Ford last month.

The issue is working conditions.

It long has been a rallying cry for workers in the auto industry. General Motors officials still whince when Reuther periodically voices an old union saying that GM is a "glorified, gold-plated sweatshop."

The auto firms all have production standards experts who determine the amount of work a man should be able to perform in a day. The union often disagrees, as was the case in last month's shutdown.

The UAW went on strike at Ford's Walton Hills, Ohio, plant to protest what it claimed were unfair work burdens. Ford claimed standard of 300 units per hour was realistic and had been met elsewhere.

As a result of the dispute in a department involving 38 men, about 77,500 workers were idled across the country. But both union and company were willing to go to such lengths because they felt a matter of principle was at stake.

★ ★ ★

It wasn't the first time and it won't be the last that working conditions, and not money, shut down a giant manufacturing complex. Working conditions proved the major stumbling block last fall during new contract negotiations between the automotive big three and the UAW.

GM settled national economic issues with the UAW but then found more than 270,000 men out on strike over such issues as the number of minutes of relief time a worker was entitled to. "This strike is 99 per cent about working conditions," Reuther said as the UAW shut down nearly 100 GM plants.

Ford also was hit by a nationwide strike by 190,000 workers last fall mainly on noneconomic issues. The same thing happened during the previous round of talks in 1958 when 210,000 GM workers stayed out a month over plant rebel problems.

"Workers used to strike for another five or ten cents an hour in their paycheck, but now it's a matter of getting five minutes more to wash up in, or some such thing like that," one industry source said.

Say Rebound a Sign Confidence Back

NEW YORK (UPI) — The recent sharp rebound in stock prices reflected a return of confidence in the market, particularly on the part of those who were beginning to believe there was no bottom, says the International Statistical Bureau.

While "one swallow does not make a summer," it says we must construe the action as indicating very clearly that drastic liquidation in the recent past "was overdone and was unjustified, even assuming that many securities which had reacted sharply were overinflated".

Joseph E. Granville of E. F. Hutton & Co. warns that secondary uptrends in a primary decline may last between three weeks and three months. He says still better technical evidence must be forthcoming before any kind of longevity on the upside can be projected.

★ ★ ★

W. I. LaTourette and Walter Mintz of Shearson, Hammill & Co. say there is a growing amount of evidence that the economy is heading for a mild dip and this obviously would have an impact on corporate profits.

In view of the clouded business outlook, the possibility of a tighter money policy and the damaged state of investor confidence "we would doubt that the recent rally would extend much further."

R. E. Buchsbaum of W. E. Hutton & Co. says barring new outside influences, 590-600 in the Dow Jones industrial average is going to be an area of congestion. He says it seems doubtful whether stocks can pierce that area on this move and he thinks that if they do this summer, the danger signals would be flying again because the factors which were blamed for the big market decline are still with us.

Business Notes

A former Oak Park city councilman who now resides in Franklin Village has been appointed to a key executive post at Ford's Research and Engineering Center.

Edgar Auger, 30792 Roberts Drive, has been appointed assistant chief engineer of body development engineering. Auger has been with Ford since 1945.

After starting **AUGER** his automotive career as an apprentice body builder with the Square Deal Body Co. in 1934, he later held engineering positions with General Motors Truck and Coach Division, Packard Motor Car Co. and the Fisher Body Division.

★ ★ ★

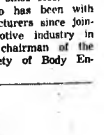
The appointment of a Bloomfield Hills man, Jackson P. Cummings, to the newly created position of chief engineer for the corporate purchasing staff of Chrysler Corp. was announced today.

Cummings, 1078 Stratford Lane, will provide liaison and coordination services between the engineering division and the purchasing staff, according to A. W. Hartig, purchasing director, and P. C. Ackerman, engineering vice president.

The former chief engineer for Chrysler Corp. of Canada, Cummings' most recent position was that of staff engineer, quality coordination, in the engineering division. He has been with the corporation since 1930.

★ ★ ★

John N. Mushong of 5247 Clarendon Crest Drive, Bloomfield Township, has been appointed general product engineer of prestige bodies at the Ford Motor Co. Research and Engineering Center.



MUSHONG

He formerly was senior principal design engineer for Lincoln and Thunderbird body activities before his new appointment. He has been with Ford since 1953.

Mushong, who has been with several manufacturers since joining the automotive industry in 1937, is past chairman of the American Society of Body Engineers.

Dominicans Aid in Old Mystery

U. S. Seeks to Solve Disappearance of Foe of Trujillo in 1956

WASHINGTON (AP) — The United States and the Dominican Republic are working together to try to solve a bizarre six-year-old mystery that erupted into charges of international kidnaping and assassination.

★ ★ ★

The center of the cloak and dagger intrigue is Dr. Jesus de Galindez, who stepped through a New York subway into oblivion on a March night in 1956 after writing a book to expose the brutalities of Gen. Rafael Trujillo's iron-fisted dictatorship in the Dominican Republic.

CONTEND MURDER

Foes of Trujillo contended the general had reached into the heart of Manhattan to eliminate an enemy.

There were stories that the professor, who was teaching international law at Columbia University, was drugged and flown to the Caribbean country by an American pilot who also disappeared.

★ ★ ★

Trujillo heatedly denied the charges and there were hearings and investigations. But no light was shed on De Galindez' disappearance, nor was he ever reported seen alive again.

When Trujillo was alive U.S. investigators probing the case got no cooperation from Dominican Republic authorities.

SEEK SOLUTION

Trujillo was assassinated in May 1961 and the new government is anxious to solve the De Galindez case, a State Department source said last night.

For several months, he said, U.S. and Dominican Republic investigators have been checking through long-locked files and questioning members of Trujillo's intelligence police now held in prison.

★ ★ ★

Linked to the professor's disappearance was an American freelance pilot, Gerald Murphy.

He vanished in the Dominican Republic Dec. 3, 1956 after getting a job as a co-pilot on the Dominican airlines.

The Dominican government said Murphy was knocked into a shark-infested bay during a fight with another airline pilot, Octavio de La Maza, who later hanged himself in his prison cell.

★ ★ ★

But Trujillo foes alleged that Murphy piloted a plane carrying Galindez to face the general's wrath and was later killed to silence him.

Dearborn Sets Final Reading on Tax Ordinance

DEARBORN (UPI)—Final reading of an ordinance that would place a 1 per cent income tax on residents and nonresidents who work in Dearborn, was expected at the next scheduled meeting of the City Council, July 17.

The tax proposal was introduced at the council's Tuesday night meeting by President Pro-Tem George Hart. Hart introduced it for Mayor Orville L. Hubbard, who said it was aimed at Ford Motor Co. operations in Dearborn.

The huge River Rouge complex and Ford's central office building are located here. Some 54,000 workers are employed by Ford in the city.

Hubbard said that under a reciprocity agreement, residents of Dearborn who work in Detroit would pay a tax of one-half of 1 per cent to Dearborn and the other one-half of 1 per cent to Detroit.

Approximately two million people fish and hunt in Michigan annually.

FREE LIFT — Spanish matador Manuel Rodriguez grimaces as he is tossed into the air by an enraged bull in Madrid ring. Rodriguez was badly injured. He was one of three matadors tossed during a day of events during St. Peter and St. Paul holiday events.

Ten Are Drowning Victims

State Traffic Toll 9 Over Holiday

By the Associated Press

Nine persons died in traffic accidents in Michigan during the 30-hour Fourth of July holiday period. Among the victims were three members of a Romulus family who were killed while going to Detroit for a fireworks display.

In addition to the highway toll, 10 persons drowned, two of them while trying to save other persons.

The Associated Press holiday accidental death count covered the period from 6 p.m. Tuesday to midnight Wednesday.

★ ★ ★

State police said traffic was normal for a mid-week holiday, but no major tie-ups reported.

Killed at Belleville were Gilbert Phillips, 30; his wife Carol, 28, and their daughter Janet, 6.

OTHER TRAFFIC VICTIMS:

Robert M. Tobias, 19, Detroit, was struck by a car and killed Wednesday at an intersection in Detroit.

Harvey K. Glidden, 65, Houghton Lake, killed Wednesday when he, his son and his daughter-in-law were struck while fishing by a car crossing a bridge over the Muskegon River on Roscommon County road 200. The younger couple was injured.

Mrs. Wily Stoddard, 75, Flint, suffered fatal injuries Wednesday in a three-car accident near Flint.

James Merz, 12, Grass Lake, killed Wednesday when a go-cart he was riding was struck by a car on rural Jackson County road.

Benjamin Deal, 87, Kalamazoo, injured fatally Wednesday when struck by a car at a downtown intersection in Kalamazoo.

George W. Irwin Jr., 19, Grand Rapids, killed Wednesday when his car rolled over on a county road in Markey Township near Houghton Lake.

DROWNINGS:

James Capers, 31, Hastings, drowned Wednesday after trying to save 4-year-old Terry Rietker of Dowling who was in trouble in the Thornapple River near Middleville in Barry County. The boy was rescued by his father.

Harold Zells, 35, Riley Township, drowned Wednesday in a pond behind his home near Memphis.

John Lamothe, 46, Detroit, drowned in Square Lake near Pontiac while swimming Wednesday.

Alice Gregory, 11, Allen Park, drowned Wednesday in Belleville Lake in Wayne County after she was carried into deep water by an inflated beach ball.

Chester Bojanczyk, 44, Detroit, drowned Wednesday while trying to save two women and a child in Propel Lake in Oakland County.

Thrown into the water when his boat capsized, Raymond Ross, 45, Pontiac, drowned Wednesday in Silver Lake near Pontiac.

Patty Ann Weidner, 2, Horton, drowned Wednesday in a well she uncovered near her home in the Jackson County town.

Ronald Caddys, 17, Coloma, drowned Wednesday in Paw Paw Lake south of Watervliet while swimming.

★ ★ ★

Frederick Gee, 32, Breckenridge, drowned Tuesday night in Lake Meauwataka in Colfax Township, Wexford County. State police said Gee was fishing when his boat capsized.

Fred Shampine, 35, Cheboygan, drowned Tuesday night in Lake Huron after he fell into the water while attempting to untie a boat at a pier on Bois Blanc Island.

Death Notices

FRANK BEAM

Survivors of Frank Beam, 9, of 214 Prospect St. whose funeral service was this afternoon in the Voorhees-Siple Chapel include his parents, Mr. and Mrs. Alvin Beam; his grandmother, Mrs. Winnona Russelo of Utica; a sister Mrs. Gertrude Gilbert of Pontiac; and six brothers, Roger, Paul A., David V., Frederick M., Timothy and Thomas, all of Pontiac.

HERMAN W. FRYE

The Rosary will be recited at 8 p.m. Friday in the Voorhees-Siple Funeral Home for Herman W. Frye, 68, of 245 N. Perry St. Service will be at 9 a.m. Saturday in St. Michael Catholic Church with burial following in Mount Hope Cemetery.

Mr. Frye was a retired employe of Fleet Carrier Corp. and a member of St. Michael Church.

He died early this morning in Pontiac General Hospital after a long illness.

Surviving are his wife, Florence; a son, Herman G. of Detroit; two daughters, Mrs. Ruth Krajenta of Detroit and Mrs. James McCullough of Romulus; three grandchildren, five sisters and two brothers.

WILLIAM H. WELCH JR.

ROMEO—William H. Welch Jr., 66, of 305 S. Main St., died early this morning at his home after a brief illness. Mr. Welch operated the Romeo Tree Nursery for a number of years.

Arrangements are pending at Muir Bros. Funeral Home, Lapeer.

Surviving are his wife, Stella; a son, William E., at home; a brother and a sister.

West Michigan has 35 winter sports areas, one the greatest concentrations in the United States.

Loss to Be Paid by Volunteers

Most of $600 in Suit to Be Made Up by Gift to Area Couple

SHELBY TOWNSHIP — Most of the $600 left in an old suit given to the Volunteers of America by a couple here has been given up as lost, but the couple will lose only $100.

Mr. and Mrs. Albert LaGassa, 50591 Mile End St., will get back $184 in checks found in a big crate of papers at the Volunteer warehouse in Detroit and the Volunteers will give them $316.

Maj. Ann Ploch of the Volunteers said today the money would be given from the Volunteers' emergency fund. "We are a charitable organization," she said, "and this is worthwhile, especially since they lost the money helping us."

Maj. Ploch said there was no hope of finding the $416 in cash left in a pocket of an old suit belonging to LaGassa which Mrs. LaGassa gave to the Volunteers about a week ago not knowing the money was in the suit.

★ ★ ★

Intensive searches by workers at the warehouse have failed to find any of the cash or the old suit. Maj. Ploch said the money was probably baled up with old newspapers.

The LaGassas had collected the money to help pay the funeral expenses of LaGassa's brother, Richard, 34, who was killed June 16 at Romeo Airport on his first attempt at parachute sky diving.

Maj. Ploch said the money is waiting for the LaGassas at Volunteer headquarters. The couple

Car Strikes Boy Running From Behind Truck

A 4-year-old Pontiac boy, struck by a car when he ran from behind an ice cream truck yesterday in a Murphy Park driveway, is reported in fair condition today at Pontiac General Hospital.

Joseph Grandberry, 54 Deland Court, suffered a possible concussion in the accident. Police said the boy was hit by a car driven by James Stone, 32, 180 Wall St.

Police estimated Stone was traveling four miles per hour on the drive which runs into East Boulevard.

Fire Damages House, Marring Troy Holiday

TROY — The Fourth of July holiday was marred for Mrs. Evelyn J. Hildebrandt, 1045 Kelley St., when a fire caused $900 damage to the outside of her home yesterday morning.

Troy firemen said the house caught on fire while a relative of Mrs. Hildebrant was using a blowtorch to remove old paint. Mrs. Hildebrandt is employed at the city offices.

Gondoliers Protest Modern Motorboats

VENICE, Italy (AP) — The "war of the canals" is simmering again with the ancient gondoliers challenging the increasing invasion of modern motorboats.

★ ★ ★

This picturesque port city was all but paralyzed for two hours Wednesday as the gondoliers blockaded the main canals that are the streets of Venice.

BLOCKED CANALS

More than 400 gondoliers lined up their black boats across the city's Grand Canal. Other gondolas blocked smaller canals.

The steam ferry boats that provide Venetians with municipal transport could not move. Motor-powered taxie boats — the direct competitors of the gondoliers — were trapped.

★ ★ ★

Once the gondolas were the only public transport in Venice.

Now the gondoliers complain that the city fathers are issuing too many licenses to motorboats. They say the new taxis offer unfair competition and their graceful boats are endangered by the big waves raised by powered craft.

FREQUENT PROTESTS

Protests by the gondoliers have been frequent in the past. Once they created a small sensation by putting a monstrosity on the canals— a gondola powered by a motorboat.

★ ★ ★

They won this round. The city fathers, with an eye to the tourist trade, promptly ordered a speed limit for the power boats.

★ ★ ★

Now the gondoliers want to stop the licensing of power boats.

'We'll Make Up for GOP Deals'

Government Will Act to Recoup Losses Under Ike, Says Freeman

WASHINGTON (UPI) — Agriculture Secretary Orville L. Freeman said today the Kennedy administration will try to "recoup for the government" any improper losses sustained under an Eisenhower administration cotton program.

Freeman made the statement before the Senate investigations subcommittee which resumed its inquiry into the Billie Sol Estes case. The Texas financier is under federal indictment for fraud.

The secretary said the FBI has spent $236,200 and used the services of 452 special agents while investigating the tangled financial arrangements of the Texas farm tycoon.

★ ★ ★

The question of the operation of a cotton disposal program used by the Eisenhower administration in 1959 and 1960 was first raised by the General Accounting Office (GAO) in a report to Congress earlier this week.

The GAO said the operation involved a possible "conflict of interest" concerning the disposal of more than $400 million in government cotton. There was no evidence linking that program directly with Estes.

Freeman said he is consulting with Atty. Gen. Robert F. Kennedy and that his department "will act to the best of our ability to recoup for the government whatever losses have been sustained by these transactions under cotton programs operating in 1959 and 1960."

'Flares' of Clothes Lead to Rescue of 3

LEAMINGTON, Ont. (AP) — Flares made from clothing soaked in gasoline led to the rescue of two men and a boy who had been adrift four hours with a disabled outboard motor in Lake Erie Tuesday.

★ ★ ★

W. A. Stephenson of Windsor, his son Roy, 9, and Charles Campbell, of Bradford, Ohio, were four miles offshore when they lit their improvised flares at dark. They had one oar.

Gerald Campbell, chief warden of Point Pelee National Park, and Russell Fish and Edward Tracy, 15, both of Windsor, towed them to shore.

Opera Founder Expires

LONDON (AP) — John Christie, 70, founder of the Glyndebourne Opera, died Wednesday. Christie had been ailing since he underwent an eye operation earlier this year.

Hospital Folks to Vote on Union

Nonprofessional Group at Bloomfield to Decide but No Date Set

A strike vote on union representation will be taken by nonprofessional employes at Bloomfield Hospital, 2100 Woodward Ave., Bloomfield Township, following an order by the Michigan Labor Mediation Board. No date has been set.

★ ★ ★

The vote, according to board hearings officer Hyman Parker will "in effect determine whether the Hospital and Sanitarium Employes Guild, Chapter 5, will represent the nonprofessional employes" at the hospital.

The move represents the first attempt to organize nonprofessional employes in an estimated 150 hospitals and sanatoriums in the Detroit area, according to Rene J. DeLorme, president of the Salesmen's Guild of America, which chartered the hospital union.

The local's president, Harold Russell, today said, "We're also working on St Joe's (St. Joseph Mercy Hospital). We have 187 signatures of employes there. They have about 800 nonprofessional employes. We need about 300 signatures."

★ ★ ★

The strike vote was asked by the union, according to Parker.

Clyde Marshbanks, owner of the hospital, today referred questions about the election to Leonard Schultz of Detroit, whom Marshbanks described as "the hospital's labor relations consultant."

Schultz was not available for immediate comment.

Shift of Wind Halts Big Fireworks Display

ECORSE (AP) —A shift of wind cut short a fireworks display over the Detroit River yesterday as some of the fireworks began to drift into a crowd estimated at 60,000.

The aerial display was fired from a barge in the river. Police said several persons suffered minor burns and three or four were treated at Outer Drive Hospital.

Probe Concentrates on Gambler

Convict Mum on Money Found in Car

JERSEY CITY, N.J. (AP)—Investigators concentrated today on convicted gambler Joseph (Newsboy) Moriarty in attempts to solve a $2.4 million question—who left the cache of cash in an abandoned automobile?

★ ★ ★

The Jersey City police chief, Austin J. Conley, said it all points to Moriarty, 52, now serving a 2-to-3 year term in the state prison at Trenton.

Conley said government bonds found with the currency were registered in the name of Moriarty and Moriarty's brother, Alfred, who died five years ago.

TALKED WITH CONVICT

Lawrence A. Whipple, Hudson County prosecutor, and three aides spent 15 minutes with Moriarty Wednesday at the prison and told him of the find.

"You've just lost $2½ million," Whipple said he told the prisoner.

★ ★ ★

"He listened deadpan," Whipple related, "then he said, 'You're telling me this, Mr. Prosecutor.' He would neither admit nor deny ownership of anything that was found. He said he would get a lawyer. He said he would consider making a statement afterward."

FOUND IN CAR

The fortune at issue, ranging in denominations from $1,000 bills down to $5, was found Tuesday by two unidentified carpenters in the trunk of a 1947 Plymouth housed in a garage.

R. W. Bachman, special agent in charge of the Newark office of the FBI, said Moriarty was arrested in a 1947 Plymouth in 1951.

★ ★ ★

Also found in the car were four guns—45 and 32-caliber revolvers, a 32-caliber Belgian automatic and 22-caliber rifle—and considerable ammunition. Equipment of the type used by bookmakers and numbers operators was discovered in a 1951 Ford stored in an opposite garage.

OWNER UNKNOWN

"We don't know yet who the money belongs to—ownership is a legal question for the U.S. attorney's office," Bachman said. "This is the largest amount of money I have ever come in contact with in all my experience with the FBI."

The exact amount, he said, was $2,421,580.

★ ★ ★

The FBI claimed the money, bonds and related papers on the basis of a $250,000 tax lien against Moriarty.

Authorities also pressed to determine the owner of the car, which had no license plates.

ARRESTED IN CAB

According to Conley, a Miss Anna Petrick was the last owner. He said the car had been seized by the county prosecutor in 1952 when Moriarty was arrested in it on a gambling charge. Moriarty was subsequently acquitted and Conley said the car was returned to Miss Petrick.

Conley said Miss Petrick left on a two-week vacation Saturday.

★ ★ ★

A call to her home brought only this response: "She isn't here." The party then hung up.

The two carpenters, meanwhile, were reported to have filed claims against the fortune. And Frank Munzy, 64, owner of the garage in which the cache was found, was considering a similar claim.

LOCATED IN ALLEY

The double row of 24 small garages where the car was parked is located in an alley in a quiet residential section.

Conley said that in agreement with the FBI, the names of the carpenters — there were seven working on the garages—would not be made public. He said they were apprehensive about their part in finding the money and reporting it.

★ ★ ★

Moriarty earned his nickname by selling newspapers as a youngster.

His operations reportedly totaled $10 million a year, authorities said.

HELD IN DEATH—State police at Silverdale, Pa., said 12-year-old Charles F. Clarksen III (lower photo) has admitted stabbing to death a 10-year-old playmate, Theresa M. Cahill (above), in an argument over kittens the pair had found.

AP Photofax

Romney to Host GOP Leaders at Home Saturday

More than 100 Republican party workers, officials and their wives are expected to attend a "strictly social" buffet luncheon Saturday at George Romney's Bloomfield Hills home.

★ ★ ★

Romney and his wife will be hosts for the luncheon.

Party leaders expected to attend are State Chairman George M. Van Peursem, Vice Chairman Mrs. Elly M. Peterson, National Committeeman John B. Martin and National Committeewoman Mrs. Ella Koeze.

The luncheon is planned to "provide an opportunity for all (GOP county and district) chairmen to visit with the Romneys" said Charles Lyle, chairman of the Republican Committee of Oakland County.

Lyle will be host chairman for the luncheon.

After the luncheon Romney will continue his campaigning at a GOP picnic in Ypsilanti and a meeting of the Michigan Conference of Seventh-Day Adventists in Grand Ledge.

Former Admiral Dead

OLD LYME, Conn. (AP)—Vice Adm. James H. Thach Jr., 61, who retired from the Navy in 1957 after 34 years service, died Wednesday.

Michigan was the first state to provide in its constitution for the establishment of public libraries.

Premier of Film Made Here Set

Movie Shot in County to Be Shown First at Area Theater Soon

A world premier of MGM's movie, "Jacktown," filmed entirely on location in Oakland County, is scheduled at Miracle Mile Drive-In Theater within three weeks.

★ ★ ★

In addition to stars Patty McCormack and Richard Meade, the film presents County Prosecutor George Taylor and Royal Oak Municipal Judge Keith J. Leenhouts portraying themselves.

Sheriff's deputy Sgt. Paul Carpenter plays Miss McCormack's father in the story about youth in trouble with the law.

The Oakland County Jail was used in lieu of Jackson Prison where part of the story is said to have actually occurred. Other scenes were shot in downtown Pontiac and at an Oak Park shopping center.

★ ★ ★

The film's writer-producer-director William Martin calls it a bold portrayal of juvenile delinquency based on an actual case in the county several years ago. The exact case is not revealed.

★ ★ ★

This is the first full-length Hollywood production ever filmed in the county, Martin said.

Romney Volunteers Plan Area Chapter

A chapter of Romney volunteers is being organized in Oakland County.

★ ★ ★

The group, preparing to open headquarters at 611 S. Washington St. in Royal Oak, is made up of Democrats, Independents and previously inactive Republicans who want to support George Romney's bid for the governorship of Michigan.

Ruth Lichterman, 25450 York Road, Huntington Woods, a member of the statewide coordinating committee for Romney Volunteers, is a member of the executive committee of the new Oakland County chapter.

According to a Romney spokesman, some 30 other chapters are now active in the state.

Ex-Captain, Author Dies

VALLEJO, Calif. (AP)—Thomas Jefferson Jackson See, 96, a retired naval captain who was internationally known as a mathematician, astronomer, author and lecturer, died Wednesday after a long illness.

PUBLIC SALE
On 12th July at 10:00 a.m. at 243 Auburn, Pontiac, Mich., 1956 Chev. Sp. Cpe., Serial No. 1556F170111 will be sold at Public Auction for cash to highest bidder. Car may be inspected at above address.

REGISTRATION NOTICE FOR THE General Primary Election to be held in Bloomfield Township on Tuesday, August 7, 1962.
To the qualified electors of the Township of Bloomfield (all precincts), County of Oakland, State of Michigan:
Notice is hereby given, that in conformity with the "Michigan Election Law" the final date for registration in order to vote in the General Primary Election is Monday, July 9, 1962, at 8:00 o'clock p.m.
To vote at this election, all persons must be registered. Citizens of the United States, 21 years old, who have resided in the State of Michigan six months and in the Township of Bloomfield thirty days prior to August 7, 1962, are eligible to register.
Notice is further given, that any person who is not already registered upon the registration books of said township may register on or before July 9, 1962, during regular office hours, Monday thru Friday of each week 9:00 a.m. to 5:00 p.m., and in addition to the regular office hours the office of the Township Clerk will be open for the purpose of receiving registrations during the following hours:
Saturday, June 30, 1962, from 10 a.m. to 12 noon.
Monday, July 2, 1962, from 9 a.m. to 5 p.m.
Saturday, July 7, 1962, from 10 a.m. to 12 noon.
and on the last day, Monday, July 9, 1962, from 8 a.m. to 8 p.m.
To transfer a registration from one address to another within the Township of Bloomfield, send a signed request to the office of the Township Clerk, stating present address, former address, and date of moving to present address. Such transfer may be made any time up to and including July 9, 1962, at 8:00 o'clock p.m.
Those persons who have already registered under the permanent registration system and have voted within the last four years do not have to re-register.
DELORIS V. LITTLE, Township Clerk
Dated: June 30 and July 5, 1962

NOTICE FOR INSURANCE BIDS
Sealed bids will be received at the office of the City Clerk, City Hall, 8 E. Parke Street, in the City of Pontiac, up to 2:00 p.m. E.S.T., Tuesday, July 10, 1962, for furnishing Workman's Compensation Insurance for Waste Collection and Disposal Employees.
The City reserves the right to reject any or all bids, or any part of a bid and to waive defects in bids.
By order of the City Commission,
GLOA A. MAHAFFEY
City Clerk
July 5, 1962

Death Notices

BLASHFIELD, JULY 3, 1962, Maude G., 1375 Webster St., Birmingham, formerly of Pontiac; age 76; dear mother of Charles Blashfield; dear sister of Mrs. Glen Church, Fred L. and Frank H. Shield. Funeral service will be held Friday, July 6 at 1 p.m. at the Donelson-Johns Funeral Home with Rev. Chalmer Mastin officiating. Interment in Perry Mount Park Cemetery. Mrs. Blashfield will lie in state at the Donelson-Johns Funeral Home.

FRYE, JULY 4, 1962, HERMAN William, 245 N. Perry St.; age 60; beloved husband of Florence Lucia Frye; dear father of Mrs. Ruth Krajenta, Herman G. Frye, Mrs. James McCullough and Mrs. Chester Voelker; dear brother of Mrs. Esther Nassoiy, Mrs. Harold Livingston, Mrs. Mina Krauser, Mrs. Matie Seymour, Sol and Rhinehart Frye; also survived by three grandchildren. Recitation of the Rosary will be Friday, July 6, at 8 p.m. at the Voorhees-Siple Funeral Home. Funeral service will be held Saturday, July 7, at 9 a.m. at St. Michaels Catholic Church. Interment in Mt. Hope Cemetery. Mr. Frye will lie in state at the Voorhees-Siple Funeral Home.

In Memoriam 2

IN LOVING MEMORY OF ROSE V. Damerjian who passed away July 5, 1947:
The depth of sorrow we cannot tell,
Of the loss of the one we loved so well;
And while she sleeps a peaceful sleep,
Her memory we shall always keep.
Sadly missed by her family.

TRADING IS TERRIFIC

A LITTLE OFF THE BEATEN PATH and setting right along the number one fairway on Silver Lake Golf course. 8 picture windows offer an entrancing view from lower level. A finished recreation room with a soda bar opens out on the course. Yes, there's a bath and a half. 2 fireplaces and a 2-car garage. Could not be duplicated under $26,000 but it is offered at $21,900. About $2,900 will handle this beautiful home.

AVON HILLS near the Northhill Plaza in Rochester. Owner has left Michigan and will sacrifice this big brick (1,386 sq. ft.) ranch at $19,500 with $2,500 down for a clean fast deal. Oak floors, plastered walls, ceramic baths, tiled basement are only a few of the quality features of this fine home. 2-car attached garage. Professional landscaping. Immediate possession.

BERRIES, BERRIES, ALL KINDS, and a beautiful garden spot too. Designed for a small family desiring not too many rooms, but very nice ones, this could be "The House." The 22 foot kitchen has an abundance of beautiful cabinets and double stainless steel sink. This home is immaculate and the garage is attached. No better buy at $11,900 with $3,000 down and only $75 per mo. AUBURN HEIGHTS.

HURON GARDENS BUNGALOW, convenient to everything. 2 bedrooms plus an extra play room that could be a spare. Basement, automatic heat. Now hear this, only $1,100 down and $70 per mo. including taxes and insurance. Why rent?

G.I.
No Money

OUR CUSTOMERS
ALWAYS COME BACK
TO SHELTON'S IN ROCHESTER

1959 Pontiac
Star Chief 4-Door Hardtop with power steering, power brakes, Hydramatic, radio, heater, whitewalls. Reserve it or not, only 10,000 actual miles. We don't believe there is another like it in existence.

1959 Ford
Country Sedan Wagon. Power steering, V-8 engine, automatic transmission, radio, heater, whitewalls. Beautiful white finish with red trim. Locally owned and a new car trade-in.

Here Are Some of Our Typical Low Prices

1961 Monza
"600" series, standard transmission. Go sporty and own this bucket seat job for only $1898.

1959 Chevrolet
Impala 2-Door Hardtop. Powerglide, V-8 engine, radio, heater, whitewalls. Yes the color is right — white with red trim. Strictly beautiful.

1961 Corvair
4-Door Sedan. Automatic transmission, radio, heater, whitewalls. Now hear this! Only 4,000 actual miles. Spare never used. Car still like new. Better hurry!

1961 Tempest
4-Door Wagon. This is a one-owner and a new car trade-in. A solid white beauty with only 11,000 actual miles.

1960 Falcon
2-Door Sedan. Automatic transmission, radio, heater, whitewall tires. A solid white beauty. A most economical compact car.

1961 Chevrolet
Impala 4-Door Sedan. Power steering, Powerglide, V-8 engine, radio, heater, whitewalls. Low miles and extra nice. Drives like new.

1959 Chevrolet
4-Door Wagon with power steering, power brakes, V-8 engine, Powerglide, radio, heater and whitewalls. Guaranteed only 27,000 actual miles. Solid white and sharp.

1960 Pontiac
Bonneville Convertible with power steering, power brakes, Hydramatic, radio, heater and whitewalls. White finish with blue tuo and blue leather trim. It's that time of year so come in and let's make a deal on this beauty.

1959 Buick
Power Steering
4-Door Sedan. Dynaflow, radio, heater, whitewalls. A red and white beauty. Really an eyeful.

1959 Ford
Galaxie 4-Door Sedan. Standard transmission. V-8 engine, radio, heater, whitewalls. Ivory finish. Only $1288.

1956 Pontiac
4-Door Sedan. Hydramatic, radio, heater. If you are looking for the right price, don't pass this one up. Only $295.

1956 Studebaker
2-Door President Sedan. Automatic transmission. V-8 engine, radio, heater, red and white finish. Here is the fastest thing on wheels. Special at only $295.

1955 Pontiac

German City Presents Medals to Flood Rescuers

HAMBURG (UPI) — The mayor of Hamburg presented medals of appreciation yesterday to American, British, Canadian and German soldiers who performed rescue work during last February's flood disaster in this area.

Sgt. Norman N. Kilburger of Lancaster, Ohio, headed the 11-man group. The medals were inscribed: "A thankful Hamburg to its friend in need."

Woman Has New Twist on Man-Dog Jokes

ERIE, Pa. (UPI) — There have been cases of dogs biting men and there have been jokes about men biting dogs. Now comes a new twist.

An Erie woman was convicted of aggravated assault and battery for biting a man on the shoulder during a quarrel over two dogs.

Extends an Apology to 'Unregistered Voter'

NORMAN, Okla. (UPI) — Lt. Gov. George Nigh mispronounced the name of Dr. Cedomir M. Sliepcevich and apologized:

"They told me you were not a registered voter so I didn't work on it."

Family on Wagon Trek to Utah

PLEASANT LAKE, Minn. (UPI)—Mud, rain and overloaded wagons—the same problems which plagued many a 19th century pioneer — troubled their modern-day counterpart on the first leg of a 75-day trek to Salt Lake City, Utah.

Orin Gulbranson, 39, his wife and eight children found yesterday that their saddle horses were not up to hauling the heavily laden 7-feet-wide wagons and Gulbranson was forced to abandon some of his furniture. Friends lugged it back to St. Cloud, Minn.

A MORMON FAMILY

The Gulbransons, a Mormon family which met with financial reverses, decided to emulate their religious antecedents of a century ago and drive four horse-drawn wagons to Utah to start a new life.

On the first leg of the journey yesterday the Gulbransons covered 12 miles and camped last night in a farm pasture near Pleasant Lake.

Gulbranson shod several of his string of 14 horses last night after he found the concrete highway had damaged some of the shoes.

The caravan took to side roads to avoid holiday traffic and make the journey as easy as possible on the horses.

The train almost became mired along a mucky rural road but the wagons creaked through and the family spent the night in the Joseph Ressiman pasture.

LIKE A PARADE

The wagon train resembled an Independence Day parade with children tagging along and begging rides on the wagons, cars lined up behind the cavalcade to view the progress, and well wishers coming out of homes to offer encouragement and occasionally, food.

Gulbranson's itinerary on his 75-day pilgrimage will take him through Sioux Falls, S.D., and Columbus, Neb., and then along the Platte River westward.

Gulbranson, a former $12,-000-a-year sales manager for a St. Cloud welding firm, said he had "about $5" with him at the start of the trip, but that he had turned down offers of financial help because "I didn't want handouts of that sort."

Gulbranson decided to seek a fresh start among his fellow Mormons when he went broke after going into business for himself.

"We have enough food to last us and we still have a little pride," he said. Gulbranson packed food staples, including 500 pounds of wheat onto the wagons and said he hoped to earn a little money along the way by giving children rides on the horses.

Gulbranson's last venture in St. Cloud was running a riding stable. He said he probably would attempt to establish a similar enterprise in Salt Lake City.

"I'll just have to see what is available when we get out there," he said.

"We don't absolutely have to have anything. We've found that out. We're going to start a new life," he said.

AP Photofax

MARINES LEAVE THAILAND — U.S. Marines are shown with their equipment as they wait to board a C130 transport plane at the Udon airstrip in northeast Thailand. The waiting leathernecks were part of a 1,000-man force which was withdrawn from Thailand to rejoin the U.S. 7th Fleet.

Willing to Work With France

Tough Ben Khedda the Quiet Type

By United Press International

Ben Youssef Ben Khedda could be known as the "quiet Algerian."

There is nothing melodramatic about the premier of the Algerian Provisional Government (GPRA). He does not smoke, and rarely raises his voice.

But the 42-year-old former druggist was one of the most resolute leaders of the Algerian rebellion and took power from the aging Ferhat Abbas in September 1961.

"What saves me is that I go unnoticed," he was quoted as telling friends in the thick of the Moslems fight for Algiers in 1957.

Ben Khedda is of medium height and slim. His weak eyes are hidden behind dark glasses.

He led the National Liberation Front (FLN) network in Algiers from 1955 to 1957. His superficial retiring nature allowed him to pass under the noses of French agents and police.

WORKS WITH FRANCE

There were fears when his appointment as premier was announced that France had an "extremist" on their hands in dealing with the rebels.

However, he has since proved to be in favor of Algerian cooperation with France and his place as the revolution's "bad boy" has been taken over by Vice Premier Mohammed Ben Bella.

Ben Khedda's way from the start, however, was that of the revolutionary rather than the reformer. He had little time for the idea of action by constitutional means. The way for him was the small, secret meeting and action by small, secret groups.

At the Soummam Valley meeting of the FLN in 1956 Ben Khedda became linked with Ramdane Abane, Belkacem Krim and Saad Dahlab. Ben Khedda and Abane were the leaders of the "Battle of Algiers" of that winter.

FAVORED TERRORISM

Ben Khedda, without all the fanatical obsession of Abane, still believed that the movement's best weapon was terrorism and remained in the Moslem underground around Algiers to direct the terrorist campaign.

Early in 1957 when French paratroopers launched a determined drive to put down this terrorism in Algiers, Ben Khedda had to flee and escaped via one of the city sewers.

Ben Khedda was prominent in the National Council for the Algerian Revolution (CNRA), the "parliament" which ran the rebel government.

When the provisional government of the Algerian revolution was formed in 1958, Ben Khedda took the post of social affairs minister.

But 16 months later the right wing of the rebel movement held power and was looking toward negotiations with France.

Abane had been killed. Ben Khedda was liquidated only politically.

* * *

When the council of the revolution met in Tripoli in 1961 it named Ben Khedda to succeed Abbas over the heads of such revolutionary stalwarts as Krim.

* * *

By this time the three major attempts at negotiation with the French government — at Melun in 1960 and at Evian and Lugrin in 1961 — had failed. This was under the government of Abbas.

Abbas believed in the more open negotiation. Ben Khedda returned the contacts with France to the level he liked best, the secret contact.

* * *

Ben Khedda has a reputation for intransigence and toughness. Those who have met him say he can be charming when the occasion demands but equally sarcastic when necessary.

Movie Tycoon Levine Prefers Sophia to Liz

By EARL WILSON

NEW YORK—"Jumping Joe Levine," the once shy Bostonian who's become the movies' new Mike Todd—he burns up $100 bills at your table (magic, of course) and takes orchestras home with him at 4 a.m. — told me "I wouldn't hire Elizabeth Taylor to play anything . . . she's a disgrace to our business . . .?"

And: "I was offered Richard Burton for a picture and turned him down."

Still, though:

"Sophia Loren's a very fine person."

He's flying Sophia here late in July — first visit since the Oscar — to exploit "Boccaccio '70"—he revealed he and Carlo Ponti just made a deal for a new picture, "Boccaccio '71," also with Sophia.

WILSON

"We already got part of a script," he gloated. "A great advantage—did the last one without a script."

* * *

Hugh Downs whacked off 17 pounds cutting out bread and butter, appetizers, desserts, between-meals snacks. Hugh (who says Jack Paar suggested him for his upcoming "Today" job) does "Tonight" Aug. 13-17, during Dog Days. "DeGaulle, Jackie Kennedy and Nehru are among those who will not be on my show that week," he promises . . .

* * *

Jackie Gleason signed Art Carney for two guests shots on fall TV—but didn't land him as a regular . . . Ohio State does it again. Roy D. Kobler, next Ambassador to Russia, was there in our day and was a B.M.O.C. . . . Marie (The Body) McDonald looked very motherly dining out with her three children.

Says Texas Seaweed Caused by N-Blasts

GALVESTON, Tex. (UPI) — T. C. Sedgwick, 75, says the Galveston seaweed problem stems from underground atomic explosions in Nevada — not Hurricane Carla.

"We've never had seaweed like this after any storm. We get a new batch every time they blow up one of those damn bombs in Nevada," Sedgwick said.

Marine biologists say the seaweed was dislodged by last fall's Hurricane Carla. Galveston authorities have asked for federal aid to remove the weed clogging the resort city's beaches.

American Pet Lovers Looking to the Unusual

NEW YORK (AP) — Americans, who always have liked pets, are veering to the unusual — Chameleons, iguanas, baby alligators, horned toads, hamsters — say the head of pet operations for a large department store chain.

He said the chain sold 100,000 chameleons, 750,000 turtles, 500,000 birds and four million fish during 1961.

Rather Toot Than Work, Says Elderly Printer

FRANKLIN, Mass. (AP) — Herbert C. Stewart, 77, a printer, doesn't let work interfere with his playing of taps here on Memorial Day. He has been the bugler at Memorial Day services in Franklin for 49 years in nearby Norfolk.

* * *

"I turn work away to make sure I'm available for the chore each year," says Stewart, who runs his own printing shop. "I always accept only the amount of work that pleases me."

Analyzing Berries in Poisoning Death

HOWELL (UP) — Chemical analysis of some wild berries was ordered by the State Health Department today to determine if they caused the death of a 2-year-old Fenton girl.

Deloris Ann Wise, daughter of Mr. and Mrs. Jay Wise of Fenton, was dead on arrival at McPherson Community Health Center here Tuesday. Her brothers, Dennis, 4, and Mitchell, 5, were reported in good condition today at the center, where they are being treated for suspected poisoning.

Dr. Louis E. May, Livingston County medical examiner, said the children appeared to be suffering from some type of internal poisoning or infection.

Argentina won its independence from Spain 150 years ago.

Southern Train Crash Kills 2 and Injures 13

FLORENCE, S.C. (AP) — An Atlantic Coast Line passenger train derailed near here Wednesday, killing the engineer and the fireman and injuring 13.

★ ★ ★

It apparently was "going too fast for conditions," said Oliver P. Dowling, ACL district superintendent.

★ ★ ★

Dowling said a speed limit of 80 miles an hour was in effect at the point where the Florida-to-New York Havana Special hurtled from the track. He would not say whether it had been determined exactly how fast the twin-engine train was moving.

ACL officials said some construction work had been under way in the area of the wreck. The area also had been drenched by recent heavy rains.

The two engines, hooked together under one set of controls, plunged into a gully between the track and U.S. 52 which parallels the railroad. A baggage car and a pullman, unoccupied at the time, also wound up in the deep gully.

Seven of the eight passenger coaches in the 12-unit train jumped the track but remained in a semi-upright position on the railroad bed.

An unidentified passenger on the train said he was sleeping and awoke when he felt the train shudder to a halt and his car keel over. He said he got out of the car as quickly as he could.

Engineer Rindy Keels, 58, and fireman Thomas H. Jones, 43, both of Florence, died in the wreckage of their cab.

Among the four hospitalized were other members of the train crew—M. Z. Campbell, 60, the conductor, and Allen Eagerton, 52, the flagman, both of Florence. Nine others were treated at the hospital and released.

The train was en route from St. Petersburg, Fla., to New York with holiday travelers.

Publishing Firm Nixes Rumors

Curtis Tells Employes Company Won't Merge; Isn't Up for Sale

PHILADELPHIA (UPI) — The board of directors of the Curtis Publishing Co. has squelched rumors that it would be sold or merge with another publishing firm.

The directors informed employes in a letter that Curtis is not for sale or merger. They said the company's goal "is the prompt return to profitable operation. We have no intention of liquidating, selling or merging the company or any of its properties."

Curtis lost $4.2 million during 1961, the first deficit in the company's 70 year history.

On June 26, the board announced that Robert E. MacNeal was leaving his post as president and shortly afterward said the editorial and advertising offices of the Saturday Evening Post would be moved to New York by the fall.

High School Artists Make Error in Spelling

MEMPHIS (UP)—A high school art class prepared the banners to be worn by contestants in the Shelby County spelling bee and were justly proud of the 122 neatly lettered labels.

But students of Scenic Hills Elementary School may have trouble recognizing their representative. His banner reads "Senic Hills."

Australian sheep supply one-third of the world's wool.

Secretary Drops Almost 4 Miles for 'Chute Record

TRACY, Calif. (UPI) — A brunette secretary who likes to try for parachute records on her days off has a new mark under consideration today.

Mrs. Susan Pol, 24, an employe of the Lawrence Radiation Laboratory in Berkeley, stepped out of a C45 at 22,500 feet yesterday and fell 20,000 feet before opening her parachute. She landed easily on her feet.

She hopes the jump will be accepted as a national and possibly a world record for women.

Mrs. Pol, a veteran of 178 jumps during the past three years, jumped from 20,800 feet in March in a bid for the women's night jump record. It is still being considered by the U.S. Women's Parachute Assn.

2 Israeli Soldiers Killed in Jerusalem

JERUSALEM, Israeli Sector (AP)—Israel has accused Jordanians of firing from Jerusalem old city positions across the armistice line, killing two Israeli soldiers and wounding three civilians Wednesday night.

An Israeli military spokesman said the Israelis returned the fire.

★ ★ ★

An Israel communique said Israel authorities have complained to the U.N. Israel-Jordan Armistice Commission.

Abe's Sister Died at 21

LINCOLN CITY, Ind. (UP) — Abraham Lincoln's sister, Sarah Grigsby, died in childbirth at the age of 21. Her remains are buried in a churchyard near here.

Governor Crowns Utica Queen

Pontiac Press Photo

PLEASANT TASK — One of Gov. John B. Swainson's vote-getting stopovers yesterday was Utica where he crowned Irene Heydens, 17, queen of Utica Lions 16th annual Fourth of July celebration. Because of this and other traditional commitments in the area, he missed a session of the Governors' Conference which climaxed with a speech by President Kennedy in Philadelphia yesterday. Kennedy, Dillon Expected to Talk About Tax Cut

President Returns to White House to Confer With Secretary

From Our News Wires

WASHINGTON — President Kennedy returned to the White House today for a conference with Treasury Secretary Douglas Dillon, presumably to discuss increasing demands for an immediate tax cut.

The tax issue was expected to be among highlights of Kennedy's news conference at 3 p.m. Pontiac time, which will be carried on nationwide radio and television.

Both Kennedy and Dillon have expressed the view that taxes should not be reduced until next year. However, Kennedy has indicated that the question of a tax reduction this year was still open and depended on the state of the economy.

Kennedy returned to Washington this morning from Camp David, Md., where he spent Independence Day with his family.

CALLS FOR PARTNERSHIP

He flew Wednesday morning from Washington to Philadelphia, where, at historic Independence Hall, he called for an international declaration of interdependence—a partnership with a united Europe.

The President's 36-minute speech was broadcast across the nation by radio and television. Before him as he spoke was a police-estimated crowd of 100,000, including 42 of the nation's governors who had motored to Philadelphia from Hershey, Pa., at the conclusion of their 54th annual conference.

Kennedy likened the coming together of America's 13 original colonies with the efforts to unify Western Europe.

This comparison and his choice of the birthplace of U.S. independence as the setting for his speech were interpreted as a bid for support of his proposal for a Western trade partnership.

Record 138 Killed in Traffic on Fourth

Traffic	138
Boating	15
Drowning	51
Miscellaneous	35
Total	239

★ ★ ★

BY THE ASSOCIATED PRESS

Traffic accidents killed a record 138 persons during the nation's 30-hour observance of Independence Day.

The death count on the nation's streets and highways exceeded the one-day Fourth of July holiday record set in 1956, the last year when a one-day observance was held.

The National Safety Council estimated earlier that during the holiday period from 6 p.m., Tuesday, to midnight Wednesday the traffic toll would fall somewhere between 110 and 150.

It also said that nearly all of the country's 76 million cars would be on the go.

The country's over-all accident death toll was 238. It included 15 deaths in boating accidents, 51 drownings, and 35 deaths in miscellaneous accidents.

The nation's worst traffic accident on the holiday killed seven persons in a head-on collision near Eveleth, in the Iron Range country of northern Minnesota. Five persons, including a couple and their two sons, were killed in one of the cars.

In Modesto, Calif., three children were killed by an auto as a Fourth of July parade broke up in the downtown district.

Among the 51 persons who drowned during the holiday period were five children aboard a small flat-bottomed boat which capsized in a lake near Sanford, Fla. Four other children and two adults were thrown into the water but were rescued.

The traffic death toll was higher than 107 deaths reported last Memorial Day, also on a Wednesday, a one-day observance. In the only other one-day observance of Independence Day since World War II, in 1951, traffic accidents killed 105 persons.

RAYMOND O. ROSS

Boat Flipflops, Throws Pontiac Man Into Lake

No Fatal Car Crashes in Oakland Area Over One-Day Holiday

Three persons — one of them a nonswimming Pontiac man whose "overpowered" boat capsized on Little Silver Lake—are dead as the result of Fourth of July drowning mishaps in Oakland County.

Although no fatal automobile accidents were reported during the 30-hour holiday period in this area, the Independence Day drowning toll was among the worst in the county's history.

Toll in '62 Oakland Drowning
10
Last Year To Date 10

An estimated 67,000 persons jammed Dodge Park No. 4, Kensington Park and Bloomer State Park. Thousands more crowded into state recreation areas and beaches throughout the county.

Dead are Raymond O. Ross, 47, of 435 E. Walton Blvd., and two Detroit men, John LaMothe, 68, and Chester P. Bojanczyk, 44.

The fatal water accidents occurred within three hours yesterday evening.

Only quick action by two Pontiac men saved Ross' elderly mother, Mrs. Nell (Bygova) Ross, from drowning with her son on the small lake which borders Pontiac and Waterford Township.

Sheriff's deputies said William C. Redmon, 216 W. Fairmont, and Clarence Roston, 573 Harvey St., pulled Mrs. Ross from the 40-feet deep water after she had gone under three times.

Redmon, who was in a boat about 500 feet away, told deputies Ross was operating the boat from the rear and Mrs. Ross was sitting up front.

About 6:30 p.m., Redmon said the front of the boat went skyward and the rear took on water as Ross accelerated.

It capsized, throwing both occupants out. Witnesses said neither could swim.

Both Redmon and Roston, who was about 1,000 feet away, headed for the spot. They managed to pull Mrs. Ross into the boat but were unable to reach her son in time.

MOTOR TO POWERFUL

Deputies said the 12-horsepower motor was too powerful for the 11-foot, 8-inch long plywood boat in which they were riding.

Ross, was single and employed at Fisher Body Division. He lived with his widowed mother.

His body is at the Sparks-Griffin Funeral Home.

Bojanczyk, according to deputies

(Continued on Page 2, Col. 2)

Revives Boy Pulled From Lake Neva

A White Lake Township man used mouth-to-mouth respiration he learned only two days earlier to revive a 4-year-old boy pulled unconscious from Lake Neva yesterday.

Howard Compton, 37, of 7016 Biscayne Road, is credited by White Lake Township firemen with saving the life of Denton K. Waller, son of Mr. and Mrs. Roe Waller, 3689 Wilhelm St., Southfield.

Compton and other lake residents had received instructions on the life-saving method from the Detroit Edison Co. Monday.

The youngster and his parents were visiting Compton when the accident occurred.

The boy was playing in the lake with **several other children in** four-foot deep water when he stepped into a four-foot drop-off.

The other children pulled him from the water and their screams brought Compton to the scene.

Compton gave mouth-to-mouth respiration to the boy. When the White Lake Township fire department arrived the child was breathing.

Firemen gave the boy oxygen. He was taken to Pontiac General Hospital where his condition was listed as satisfactory today.

Churchill Bulletin Says Heart Beats Irregularly

LONDON (AP)— A medical bulletin this afternoon said Sir Winston Churchill has developed "some irregularity of the pulse" at a hospital where he is recuperating from a thigh fracture.

This was the first indication of any setback in the 87-year-old former prime minister's recovery from his accident a week ago today.

Saskatchewan Doctors Threatened With Harm

REGINA, Sask. (AP) — The threat of violence was injected today into the strike of Saskatchewan doctors against the government's compulsory medical care program. Tempers grew short as more doctors reportedly were moving out of the province.

As the government program and doctors' strike moved into the fifth day, each side sought to marshal public support. Neither side showed any sign of backing down.

The doctors stuck to their demand that Provincial Premier Woodrow Lloyd's Socialist government do away with the compulsory feature of the program.

The government refused to budge and claimed the medical care situation was apparently under control. Deputy Premier J. H. Brockelbank declared there "appears nothing in the nature of panic and alarm."

But in the western Saskatchewan town of Swift Current, police guards were posted at the homes of two doctors after an organization calling itself the "Swift Current Citizens Safety Committee" threatened the doctors and their families.

The threats, in letters to the town's weekly newspaper and a radio station, ordered the doctors to get down from their "chosen pedestal" and return to normal practice by Friday morning. Otherwise, the letters warned, the doctors would "suffer such harm to themselves, their families or their property as the organization may deem fit."

The letters said the threats were "no more ruthless than the situation the doctors have subjected the people to in a callous disregard for health and safety."

Ironically, the letter had the effect of taking the doctors out of service. Both had been on emergency duty at Saskatoon's St. Paul's Hospital, one of 34 centers set up to provide free treatment until normal medical services are resumed. After the threats, the doctors returned to Swift Current to move their families.

In Regina, Police Chief A. G. Cookson would neither confirm nor deny reports that police were closely guarding the legislative buildings for fear of violent demonstrations.

In Saskatoon, Hans Taal, vice-president of the provincial Keep Our Doctors Committee, said a mass demonstration is planned in front of the legislative buildings later this week to demand the repeal of the government program.

But Bert McKay of Moosomin, president of the committee, said that "in a measure, we have lost the battle" because doctors already were leaving the province to practice elsewhere.

Ike Sees Units Boon to Party

WASHINGTON (AP) — Former President Dwight D. Eisenhower says two new-born Republican policy groups will help the party build an organization to do justice to its principles.

★ ★ ★

Eisenhower defended the All Republican Conference and the National Republicans Citizens Committee Wednesday against the attack of Sen. Barry Goldwater, R-Ariz., who had labeled them as forces of confusion and distrust.

In forming the two groups, Eisenhower said, Republicans made "the most progressive steps our party has taken in many years."

The All Republican Conference was formed last Saturday by Republicans meeting at Eisenhower's farm in Gettysburg, Pa. Organization of the citizens committee was announced in New York later the same day.

Eisenhower's defense of the two organizations came in a letter to Republican National Chairman William E. Miller. Miller is an active sponsor of the conference.

News Flash

WASHINGTON (AP) — President Kennedy today chose Foy D. Kohler, assistant secretary of state for European affairs, to succeed Llewellyn E. Thompson as ambassador to Russia.

Cloudy Skies but No Showers Seen for Tonight

Skies will be partly overcast tonight but no showers are in sight. Friday will be fair with a high of 82.

Tonight's low will be about 61.

Mostly fair and warm is the prediction for Saturday.

Morning easterly winds at 1 mile per hour will become 8 to 12 m.p.h. late today and east to northeast tonight and Friday.

Straley Signs City Agreement

Action Expected to End Long Dispute With Former Police Chief

Former Pontiac Police Chief Herbert W. Straley has signed an agreement with the city which is expected to end a four-year dispute between himself and city officials.

City Attorney William A. Ewart disclosed that the pending agreement, being negotiated since May, was returned to him signed by Straley late Tuesday.

"With a few minor changes, it is essentially the same agreement that was called for by a City Commission resolution May 22," Ewart said.

The city attorney refused to spell out any details or discuss the content of the agreement "until it is placed before the Commission at next Tuesday's meeting."

ORDERED PAYMENT

The Commission resolution ordered that Straley be paid for 48 vacation days, 181 compensatory days and 89 sick leave days he claimed were owed him when he was fired by former City Manager Walter K. Willman in June 1960.

It also specified that these days be added to Straley's total service credit, thus qualifying him for a pension.

However, the Commission document pointed out that "this settlement shall not be made unless a signed release is submitted by Mr. Straley acknowledging full and complete settlement of his claim."

Straley, now in the real estate business locally, said he had no comment on the agreement today.

It was estimated the back pay would total about $12,000 and Straley would get roughly $9,500 after tax and retirement deductions.

1-75 Star of Oakland's Great New Production

PATH OF PROGRESS — One of Oakland County's favorite "road" pictures stars neither Crosby nor Lamour, although it does promise "hope." The picture, instead, portrays the graceful, seemingly relentless rush of a great and bold new highway from Pontiac toward the northwest — the I-75 freeway. Unbounded yet by the rigid definition of carefully laid concrete, I-75, a narrow light-colored strip, poses in this unique aerial view by pilot-photographer Homer Tinney. Photographer Tinney, 6230 Elizabeth Lake Road, Waterford Township, snapped the picture while on a Pontiac Press reconnaissance mission aimed at capturing on film the highlights of progress in the Pontiac area. This view traces I-75s winding way from Walton Boulevard (bottom left) to a point beyond Baldwin Road (top) some four miles away. When completed in October, this Oakland County link will hook up at both ends with other sections of I-75. Altogether, some 40 miles of I-75 will be built within county boundaries. The entire freeway will extend nearly 400 miles from Toledo to Sault Ste. Marie.

U.S. Tells of New Warhead Lock

WASHINGTON (AP)—The United States has informed its European allies of the successful development of a new, secret electronic lock which will be used to reinforce safeguards against the accidental or unauthorized firing of nuclear weapons.

President Kennedy is expected to ask Congress soon for an appropriation of funds to complete work on the device, start manufacture and begin installation in nuclear weapons.

★ ★ ★

The Allies were told through the North Atlantic Treaty Organization, it was learned, that the new electronic lock will broaden the margin of safety in nuclear weapons control systems and strengthen the exercise of direct control over weapons by top commanders, U.S. officials said the development of increasingly secure control systems becomes more important as the number of weapons increases.

FOR LARGER WEAPONS

The locking device is already perfected for the larger nuclear weapons such as those now beads deployed in the European NATO area for use on medium range ballistic missiles. According to present plans the first operational use of the device will be in the forward missile deployment area.

The device is authoritatively described as an electromechanical system controlled by a radio signal to be sent from a command headquarters remote from the actual missile site.

★ ★ ★

In effect, the device in its normal position makes a break in the electrical circuit necessary to the firing of the nuclear warhead. It couldn't be fired until an authorized commander dispatched the necessary coded radio signal that would operate the device. The device itself would not do the firing but it would control the arming of the warhead. This is comparable to cocking a rifle in advance of firing it by pulling the trigger.

Associates said that like his predecessors in the White House, Kennedy has put heavy emphasis on the need to surround nuclear weapons with a variety of safeguards.

The degree of security with which weapons can be surrounded has been a source of concern to many governments—not only the United States and its Allies but also Soviet bloc and neutralist nations. In the long run U.S. officials believe that the employment of the electronic device as now contemplated will serve to reassure a number of nations about the extent of control which can be exercised over the weapons.

Another aspect of the device is particularly interesting to allied governments.

★ ★ ★

The possibility of arming a warhead only by a coded radio signal sent from Supreme Command headquarters could simplify the procedures involved in creating a NATO nuclear command system.

At present the United States stockpiles nuclear warheads at medium range ballistic missile sites in several allied countries, including Italy and Britain, and nuclear weapons of various kinds are available to American forces stationed in Western Europe.

★ ★ ★

Set N-Shot Over Pacific in Spite of 'Mystery Ship'

HONOLULU (UPI)—The United States will make its third attempt to explode a rocket-borne nuclear device 200 miles over Johnston Island tonight — despite reports that a mysterious ship may be operating in the test ban area.

The coast guard announced yesterday that the unidentified vessel, which falsely acknowledged Coast Guard identification, was seen inside the 530-mile danger area early last Friday.

Joint Task Force 8 (JTF8) announced that everything was "go" at Johnston Island for the megaton shot between 11 p.m. MST today and 2:30 a.m. MST tomorrow (4 a.m. to 7:30 a.m. Pacific time Friday).

Two previous attempts last month ended in failure, when malfunctions forced JTF8 officials to destroy the Thor rockets and their warheads without a nuclear explosion.

★ ★ ★

Tonight's shot had been originally scheduled for the Fourth of July, but unfavorable weather conditions forced a 24-hour delay. Rain squalls swept the sandy atoll yesterday morning, but test officials were hopeful the weather would be satisfactory tonight.

The mysterious vessel is the last ban area was contacted at 2 p.m. Friday by the Coast Guard tender Ironwood, which followed the pacific protest ketch Everyman II into the fringe of the ban area.

Crewmen aboard both the Ironwood and the Everyman II reported they spotted the lights of a ship, approaching from the east and heading into the test area.

ASSUMED COAST GUARD

The Ironwood, aware, that the Coast Guard cutter Matagoda was steaming for a rendezvous to deliver a federal court order to the Everyman, assumed the vessel to be the Matagorda.

In a blinker message addressed to the Matagorda, the Ironwood warned of the proximity of the nuclear protest ketch. The mysterious vessel acknowledged the receipt of the message by blinker and continued on her westerly course without identifying herself.

A subsequent check revealed the Matagorda was some 90 miles away at the time of the sighting.

★ ★ ★

Two Russian "hydrographic" ships, reported in the nuclear test ban area around Johnston Island have been under surveillance by units of the Pacific fleet.

Parks Are Jammed; 3 Drown in County

(Continued From Page One)

ties, drowned about 4 p.m. when he attempted to swim to the aid of two women and a boy thrown from a canoe which overturned at Proud Lake in Commerce Township.

★ ★ ★

Gary Ramell, 12, Redford, told officers he saw Bojanczyk go down in 20 feet of water about 75 feet from shore.

The Ramell youth said he swam out, grabbed the drowning men by the feet, but was unable to hold him above the water.

The occupants of the overturned canoe, Mrs. Rosalie Schroeder, 32, 80 W. Dallas St., Madison Heights, Mrs. Donna L. Wilson, 28, and her 5-year-old son Mickey, managed to stay afloat until help arrived.

★ ★ ★

LaMothe went down about 5:30 p.m. while swimming alone in an apparent attempt to swim across Square Lake in Orion Township.

His body was recovered in 30 feet of water about 150 feet from shore opposite Kelly's Park.

★ ★ ★

Homer Kelly, the park owner, rowed out to aid LaMothe when he saw the man go down.

However, Kelly told police the water was too deep and he was unable to find the victim.

His body was recovered by Jack Coleman, a Lake Orion fireman.

★ ★ ★

In another mishap, a Detroit man suffered burns when he tripped over a barbeque fire and spilled hot grease on his back, according to Oakland County Sheriff's Deputies.

The victim, Charles Eckert, 50, was treated and released at St. Joseph Mercy Hospital after the accident at Homestead Park in Commerce Township.

The blaze at Bloomer Park in Brandon Township broke out shortly before 2 p.m. Deputies said the crowd of picnickers in the area of the fire left in orderly fashion.

★ ★ ★

The Brandon Township Fire Department, assisted by the Independence Fire Department, contained the blaze in an area of about five acres of 25-foot high pines, deputies said.

★ ★ ★

A Flint woman, Mrs. Willis F. Stanke, told authorities she saw a man, woman and two boys about 12 years old start a fire in the area and then leave hurriedly before putting it out.

Timber Fire Cuts Holiday at Area Park

A fire, possibly started by careless picnickers, destroyed an estimated five acres of timberland and cut short holiday outings for some 2,000 persons yesterday at Bloomer State Park No. 3.

2 Blondes Win Miss Michigan Preliminaries

MUSKEGON (AP) — Eighteen-year-olds from Roscommon and Elkton last night won preliminary trophies and points toward the Miss Michigan crown which will be bestowed here Friday.

★ ★ ★

Miss Roscommon is Carole Jean VanVallin, a five-foot-five, blue-eyed blonde of 115 pounds who won the swimsuit trophy.

Miss VanVallin measures 35-23-35.

Miss Elkton is Audrejean Bauman, who sang and played the piano to win a $150 scholarship and the talent award. Miss Elkton is an ash blonde with hazel eyes.

★ ★ ★

Another preliminary round in the competition is scheduled for tonight.

To Cycle to Seattle; 'Got Tired Studying'

It'll be a long trek to the Seattle World's Fair for Fred Ebey, 22, of Waterford Township, who today started bicycling from Minneapolis, Minn. to the West Coast. The round-trip distance is 4,500 miles.

Ebey is the son of Mr. and Mrs. Glenn F. Ebey of 4125 Lannette Drive.

He graduated from Northwestern College of Minneapolis this June and decided to make the trip with another Northwestern student Jim Molkenthin, 20, of Minneapolis.

"They were just tired of studying," his mother said today. "He's just got his bachelor's degree in English, and I think he may be a teacher when he gets through bicycling."

Fred is a husky six-footer who graduated in 1958 from Waterford High School.

He said the pair would carry 35 pounds of luggage each — including a pup tent, sleeping bags, canned food and clothing.

★ ★ ★

The pair hopes to average 75 miles a day.

They will stop over a week near Rapid City, S. D., to work as lifeguards and athletic instructors at a grade-school children's camp.

The two will then visit Yellowstone and Glacier national parks on their way to the coast. They plan to return through Salt Lake City and Denver.

Declares Disaster Area

SAN FRANCISCO (AP)— Mayor George Christopher declared the Potrero Hill district of San Francisco a disaster area Wednesday after parts of two streets collapsed into a still burning railroad tunnel.

Ex-GM Executive Dies

MANHASSET, N.Y. (AP)—August Freise, 69, retired executive vice president of General Motors Acceptance Corp., died Tuesday.

Crisis, Strike Trouble Brazil

New Prime Minister Resigns Too Late to Halt General Walkout

BRASILIA, Brazil (AP)—A general strike virtually paralyzed Brazil today amid a new governmental crisis touched off by the resignation of conservative Prime Minister Auro de Moura Andrade.

★ ★ ★

Army units and police were on the alert in Rio de Janeiro and other large cities as labor leaders ignored presidential appeals and pressed their campaign for a prime minister to be chosen from the Labor party.

CAME TOO LATE

Andrade quit Wednesday night after only 36 hours in office. Labor leaders said the resignation came too late to cancel the strike call but promised to confer with government officials later today.

★ ★ ★

The strike forced the cancellation of all airplane flights in Rio de Janeiro and all public city and interstate buses were halted.

ANNOUNCES MOVE

President Joao Goulart's office announced Andrade's resignation in a communique that said Andrade found it impossible to form a cabinet and bowed out. The president and his short-term prime minister were reportedly at odds on a choice of navy and air force ministers.

★ ★ ★

Goulart's left of center Brazilian Labor party and conservative forces, that include Andrade's social Democratic party, have been clashing since the crisis began to develop June 26.

★ ★ ★

Goulart and some elements in Congress also are feuding over how much power the legislative and executive branches should have.

U.S. Readies Biggest Bomb

Mightiest Blast Yet Set for Tomorrow or Later; Packs 100-Kiloton Jolt

LAS VEGAS, Nev. (AP)—Beneath a scrubby desert flatland 65 miles northwest of Las Vegas the United States plans to touch off the mightiest atomic blast ever triggered in this country.

The Atomic Energy Commission said the underground explosion with a force of 100 kilotons will be set off tomorrow or later. It will be part of the plowshare program designed to probe possible peaceful use of nuclear energy.

An announcement yesterday said the explosive will be 650 feet below the surface of the Nevada test site. The blast is expected to send a cloud of dust visible for miles into the air, leaving a crater a third of a mile in diameter and 300 feet deep.

★ ★ ★

The current shot will be the second in the plowshare series. The first was detonated last December at Carlsbad, N.M., and was rated at only three kilotons. It was open to news media but the latest, called Project Sedan, will be closed the AEC said, because of nuclear weapons testing at the Nevada site.

The largest previous atomic explosion in the U.S. had a force of 74.3 kilotons and was set off in the air above the Nevada site July 5, 1957.

Oran Is Jolted by Violent Fight

Gun Battle in City's Heart Shatters Holiday Celebration

ALGIERS (AP)—A violent gun battle in the heart of Oran's European city today shattered Algeria's celebration of its first official independence holiday. More than 100 dead and wounded were reported in the first hour of the fighting, which swept the former stronghold of hopped-up Secret Army Organization terrorists.

Two hours after the fighting started, gunfire still rattled over the city. French riot police cars set up positions near the battle area.

★ ★ ★

The gunfire panicked tens of thousands of Moslems in the midst of a delirious celebration. An official of the city's main hospital said all the casualties taken there were Moslems. But a number of Europeans also were killed or wounded.

OAS HOLDOUTS

A Moslem policeman said the firing came from holdout terrorists of the European Secret Army, whose leaders had bowed to Algerian independence after months of murder and arson. The policeman's report could not be immediately confirmed.

The Oran violence, first since Algeria became formally independent Tuesday, erupted against a backdrop of a power struggle for leadership of the new-born nation.

In Algiers, nationalist Premier Youssef ben Khedda took the salute from 500 battle-hardened Algerian guerrillas. But the military show underscored the shaky position of Ben Khedda's moderate regime.

★ ★ ★

All the parading troops were from Wilaya No. 3, the only one of the guerrilla army's six zones to have firmly declared its loyalty to Ben Khedda. Three military zones, including the one immediately south of Algiers, have declared their support for rebellious Deputy Premier Ahmed ben Bella, a radical leftist who split with Ben Khedda on the eve of independence.

The Day in Birmingham

Attorney Campaign Chief for Roberts and Hogan

BIRMINGHAM — Re - election campaigns for two incumbent Oakland County legislators will be under the leadership of a Birmingham patent lawyer.

★ ★ ★

Dale A. Winnie, of 125 Chewton Road, Bloomfield Township, has been named campaign director for Sen. Farrell Roberts and 2nd District Rep. Henry Hogan Jr. Both candidates are Republicans.

Winnie, a lawyer and engineer, is a graduate of Notre Dame and Wayne State Universities. He has served as a precinct worker, county and state delegate and executive council member for the Republican Committee of Oakland County.

Before the Aug. 7 primary election, Winnie undoubtedly will concentrate on Roberts' campaign. The senator is facing a two-sided challenge to his bid for nomination from Republicans Richard Kuhn and Robert Huber.

TO FACE FOLEY

Hogan, unopposed for the GOP primary nomination, will face Democrat John F. Foley of Birmingham in the November general election.

★ ★ ★

Following his appointment, Winnie announced.

The state needs Romney, Roberts and Hogan and we're going to have them."

"Senator Roberts and Representative Hogan's conscientious work in Lansing is well known and applauded by every Republican and discerning Democrat," he said.

"It will be a pleasure to sound their praises from the highest rooftops."

★ ★ ★

Rev. Robert D. Beynon has been named minister of parish life at the First Presbyterian Church. He will begin his duties July 15.

His responsibilities will be in evangelism, counseling, hospital visits and senior activities.

Following his graduation from the Princeton Theological Seminary, he served in various ministerial positions in Pennsylvania, Virginia and Missouri.

Birmingham teacher Hilda M. Richards will represent Michigan at the 19th annual conference of the National Department of Classroom Teachers to be held July 8-20 at Western State College, Gunnison, Colo.

The annual convention of the largest department of the National Education Association is expected to attract thousands of educators throughout the country.

The two-week conference will focus such topics as conservation in the 60s, reading skills, professional problems, aerospace defense of North America and Colorado history, natural resources and development.

Romney Allows Son to Make One Speech

HOWELL (AP) — Republican gubernatorial candidate George Romney put in a busy day of hand-shaking and speech-making yesterday and left one speech to his 15-year-old son, Mitt.

Romney shook hands along a parade route in Wyandotte and rode in a parade in Northville, but he had to leave quickly for an appearance at a barbecue here.

Mitt took the stand and apologized for his father having to leave because of commitments. Then he rushed off to join his father.

Stay Open to Allow Voter Registrations

All city and township clerk offices in the county will be open until the 8 p.m. deadline Monday to accept voter registrations for the Aug. 7 primary election.

★ ★ ★

County election clerk Mabel M. Childs said that in some cases the clerks may have made arrangements to receive registrations at home.

★ ★ ★

In such instances a notice informing the public where the clerk lives will be posted on the office door.

Reds Reinforce Wall

BERLIN (UPI) — East German Communist authorities today sent 550 workmen to the city wall and other border points to reinforce the barriers against refugee flights. An armored car guarded one working party to prevent its members from joining the refugees.

State Adventists to Meet

GRAND LEDGE (AP) — The 94th annual state convention of Michigan Seventh Day Adventists will open tonight with 4,500 campers expected here during the 10-day session.

Steal Gems at Harvard

CAMBRIDGE, Mass. (AP)—Thieves smashed display cases in the Harvard University Geological Museum and escaped with diamonds and other precious stones valued at $50,000, police said today.

Motorist Gets 38 Tickets in 12-Mile Chase

PHILADELPHIA (AP) — Policeman William Fritz handed a motorist 38 traffic tickets Wednesday after a 12-mile high-speed chase.

★ ★ ★

The driver, Edward Niehaus, 21, was held in $500 bail after he was charged with dousing his lights to conceal his car's identity.

Fritz told Magistrate John F. Day that Niehaus' car ran a red light and extinguished his lights, preventing the policeman from getting the license number.

★ ★ ★

A chase ensued, ending when Fritz forced Niehaus' car to the curb and began writing tickets for violations en route.

Kennedy Congratulates Briton on Yacht Trip

NEW YORK (UPI) — President Kennedy sent a telegram of congratulations today to Frank Chichester, 61, a British mapmaker who singlehandedly maneuvered a 39-foot yacht across the Atlantic in record time.

Chichester arrived here last night on the 13-ton Gypsy Moth III. He made the trip between Plymouth, England, and New York Harbor's Ambrose lightship in 33 days, 15 hours.

Foresee Common Market Meeting of Chiefs

De Gaulle, Adenauer Want 'Little Summit'

PARIS (UPI) — French President Charles de Gaulle and West German Chancellor Konrad Adenauer were reported agreed today on the need for a European "little summit" meeting and closer military and economic ties between their countries.

They were to meet officially today (4 a.m. Pontiac Time) for the last time during the 87-year-old West German leader's six-day visit here.

The two "grand old men" of Western Europe were expected to confer alone for a half hour at the Elysee Palace, then be joined for another hour and a half by their foreign ministers.

A joint statement on the discussions held this week was to be published later this afternoon. The final three days of Adenauer's trip to France will be taken up with sight-seeing at Beauvais, Rouen, Bordeaux and Rheims, where he will leave Sunday for Bonn.

De Gaulle, 72, and the West German chancellor were said to have reached broad agreement on a variety of political topics, including:

—A "little summit" meeting of the six European Common Market government chiefs in Rome later this year, provided other Common Market members also agree.

—The need for speeding up negotiations on European political unity, regardless of whether Great Britain joins the Common Market.

—Closer cooperation between French and West German armed forces, particularly in the area of supply and bases. There was no question of merger of the armed forces commands of the two countries.

Adenauer yesterday laid a wreath at the tomb of France's unknown soldier at the Arc de Triomphe and later visited the Chateau of Versailles.

He hosted a dinner honoring De Gaulle and his wife at the French foreign office. A crowd of about 2,000 cheered them when they arrived later for a special gala performance of the Paris opera. De Gaulle and Adenauer stood side by side and waved to the crowds.

Among the problems discussed by the two leaders have been Britain's request for admission to the Common Market, the future of the North Atlantic Treaty Organization (NATO), Berlin and European political unity.

The purpose of the Rome conference would be to review both the problem of British entry into the Common Market and that of political unity.

The union talks have been suspended since a meeting of the six Common Market foreign ministers here April 17.

At that meeting Belgian Foreign Minister Paul-Henri Spaak and Netherlands Foreign Minister Joseph Luns flatly refused to continue the discussions until Britain is admitted to the Common Market.

Spaak has scheduled a visit to Bonn soon and Adenauer was expected to try and break down his stand.

A city hall reception yesterday for Adenauer was marred by a demonstration by Communist members of the city council.

Wearing official red-white-blue tricolor sashes, they shouted in unison as Adenauer entered: "No German revenge seekers here. Long live the DDR (East German Communist Republic)." Others in the hall then began applauding Adenauer, who did not appear disturbed by the incident.

When Students Wed

Upholds Dismissal

NEW YORK (AP)—St. John's University, a Roman Catholic school in Brooklyn, had the right to dismiss three students for taking part in a civil marriage ceremony, the Appellate Division of State Supreme Court has ruled.

The 3-2 ruling Tuesday reversed Supreme Court Justice George Eilperin who last month ordered the students reinstated.

Justice Eilperin had called the university regulations used in expelling the three vague and indefinite.

In its majority opinion, however, the appellate division said:

"When a university, in expelling a student, acts within its jurisdiction, not arbitrarily, but in the exercise of an honest discretion, based on facts within its knowledge, a court may not review the exercise of its discretion."

The court action was brought by Howard Glenn Carr, 23; Greta Schmidt Carr, 21, his wife; and Miss Jean Catto, 21, who served as a witness to the marriage.

The Carrs were married in a civil ceremony last March and then by a Roman Catholic priest a month later.

The university argued that the civil marriage was a serious violation of the canon law of the Church and caused a campus scandal.

Another student who served as a witness, John Sharkey, 21, of Elizabeth, N. J., also was dismissed.

In Jail and Out

Ben Bella, Revolutionist, Lives for Algeria

By United Press International

Mohammed Ben Bella, 43, to thousands the symbol of Algerian independence, is a sallow, humorless, dedicated revolutionary.

Ben Bella hoped to assume command of the revolutionary government when he was released in March after almost six years of detention in France. His imprisonment made him a near-martyr to many Algerians.

His latest split with Premier Ben Youssef Ben Khedda of the Algerian Provision Government (GPRA) stems from his opposition to the latter's wish to cooperate with France.

Ben Bella was one of the original nine who touched off the 7½-year revolution.

He was a symbol of hope and pride across Algeria — a dashing, purposeful rebel who brooked no interference, who sought only independence for his people.

However as the revolution drew to a close, the "moderate" members of the GPRA realized independence would follow faster in cooperation with France. They rejected Ben Bella's designs on ties with the Communist bloc.

FORMED THE OS

In 1947, Ben Bella and five other men all under 30 years of age, formed a group called the Secret Organization (OS).

The OS built itself gradually, raising and training an underground army of about 500 men, but only rarely going into action. Once, in 1949, an OS unit blew up a monument in Mostaganem and, that same year, Ben Bella himself led an armed raid on the central post office in Oran.

Little by little the OS attracted the attention and approval of other Algerians impatient with nationalist leaders Messali Hadj and Ferhat Abbas.

However, the days of the OS were numbered and the count ended when French police uncovered an OS plot in Bone in 1950.

Ben Bella was clapped into jail. The countdown to the start of the revolution marked time, until March 1952, when he escaped from jail in Blida. He made his way to Cairo and joined Mohammed Khider, Belkacem Krim and others.

The OS was finished, but the fires in which it had been forged continued to burn, more brightly now than ever. Ben Bella and his colleagues, joined now in what they called the "Club of the Nine," began the job of building up an organization capable of launching a rebellion. They stayed in liaison with former OS members in Algeria, where the secret training and recruiting continued.

The Club of the Nine, in 1954, became the Revolutionary Committee for Unity and Action (CRUA), later to change its name again, this time to the National Liberation Front (FLN).

In the fall of 1954, the CRUA decided the time had come. The revolution began on Nov. 1.

Ben Bella stayed out of Algeria in order to dicker for the arms and support indispensable to the rebellion. He went to Rabat on a rebel mission in 1956 as the guest of King Mohammed V. With him went Ait Hocine, Khider and Mohammed Boudiaf.

BEN BELLA ARRESTED

In October the four Algerians boarded a chartered airliner, manned by a French crew to fly from Rabat to Tunis for a conference with Tunisian and Moroccan officials. King Mohammed had flown on ahead. The pilot of the plane, while airborne, received radio instructions from the tower in Algiers, ordering him to land there instead of in Tunis. He obeyed.

Ben Bella stepped out of the plane in Algiers to find himself surrounded by a ring of armored cars and French soldiers.

Some French officials had expected Ben Bella's capture to be a death blow to the rebellion, but it only added fuel to the flames.

Imprisoned on the tiny island of Aix in the Atlantic off the coast of France, Ben Bella became almost a legend to the fighting Algerians. "Liberez Ben Bella" came to be as frequent a cry at Moslem demonstrations in Algeria as "Vive le FLN."

* * *

When the Franco-rebel talks at Evian-Les-Bains began last spring, France suddenly moved Ben Bella from "hard" imprisonment on Aix to a chateau on the mainland.

* * *

However, the GPRA was put on notice that Ben Bella and his fellow detainees would be released only when the rebels agreed to a cease fire, and then would be sent to Rabat.

Last fall, Ben Bella and the other rebels went on a hunger strike that lasted for almost a month and forced France to agree to further liberalize their regime, to give other rebel prisoners "political" rather than "criminal" status, and to permit Ben Bella to maintain liaison with the GPRA.

Watusi Bands Invade Rwanda

Belgian News Agency Reports Armed Giants Enter New Republic

BRUSSELS, Belgium (UPI) — The Belgian news agency Inbel reported today that armed bands of Watusi tribesmen have crossed into the new African republic of Rwanda, according to information received by the Belgian embassy at Kigali.

Inbel said a band of about 100 of the giant warriors armed with rifles was reported in the Mutara region and another group of about 75 armed tribesmen was said to be advancing along Lake Kivu from Kisenyo toward southern Rwanda.

There were no reports of fighting thus far between the Watusi and Rwanda forces.

Rwanda was part of the Belgian trust territory of Ruanda-Urundi which was granted independence last Sunday. Urundi became the kingdom of Burundi.

New Envoy to China, Kirk, Meets Chiang

TAIPEI, Formosa (AP) — Retired Adm. Alan G. Kirk presented his credentials as U. S. ambassador to President Chiang Kai-shek today.

Kirk told Chiang "my purpose and actions will mirror the will of the American people, of Congress and of my President . . . that neither friends nor enemy shall have any doubt of my government's determination to honor its treaty commitment to the Republic of China."

The United States has a mutual defense treaty with Chiang's government for the defense of Formosa and the Pescadores.

* * *

Chiang replied that U. S.-Chinese relationships were tested in World War II "and in the years since then, when we are faced with a common enemy, world communism."

Demand Police Wear Nameplates in Brawls

MUNICH, Germany (UPI) — Residents of Schwabing, this city's Bohemian district, asked yesterday that all police wear nameplates or numbers so they can be identified in any future brawls.

Schwabing has been the scene of almost nightly street fights recently between police and mobs of students, artists and rowdies. The disorders began one night when police stopped three guitarists from playing in the main street and an audience rebelled.

'Lucky Loser' Discovers Wind Blowing His Way

MEMPHIS, Tenn. (AP) — The area's "luckiest loser" title may belong to Harry Howard of Whitehaven. He was en route to the bank when a high wind scattered his 77 checks and $220 cash over a parking lot.

With the help of friends, Howard recovered the 77 checks — and $221 cash.

Plans Appeal to U. N.

GEORGETOWN, British Guiana (UPI) — Prime Minister Cheddi Jagan said yesterday he will ask the United Nations to consider Britain's postponement of talks aimed at giving independence to British Guiana.

Would Help Balance Money Flow

U.S. Invites Japan to Open Plants Here

TOKYO (AP) — The Kennedy administration has invited Japan to invest in building factories in the United States.

The invitation was announced by the Japanese foreign ministry and confirmed by a spokesman for the U.S. Embassy.

* * *

Wichita, Kan., Wilmington, N.C., Maine, New Jersey and areas on the West Coast were mentioned as regions where industrialization might be expanded with Japanese funds.

* * *

Such a development would help correct a U.S. adverse balance of payments situation, sources said. Japanese exports to the United States last year totaled nearly $1.5 billion. Imports from the United States total $1.2 billion.

* * *

Japanese plants have been established in Southeast Asia, Latin America and on a limited scale in Europe. But there has been no talk here about moving into the United States.

THROUGH EMBASSY

The invitation was reported in today's Nihon Keizai, a respected financial daily, which said the invitation was received from the U.S. Department of Commerce through the U.S. Embassy in Tokyo.

The foreign ministry confirmed the story.

A U.S. Embassy spokesman confirmed the offer but pointed out that the areas involved were not depressed regions but "areas of potential for further industrialization."

The spokesman said the offer was an extension abroad of programs by the various states to encourage investors from within the nation, resulting from the setting up of an Office of International Investment within the U.S. Department of Commerce.

* * *

He said Secretary of Commerce Luther H. Hodges had first suggested that the Japanese might be interested in such investment opportunities during a U.S.-Japan cabinet-level economic conference at Hakone, north of Tokyo last fall.

Since then, he added, the embassy here has been following up the matter with the foreign ministry.

* * *

Kansas and North Carolina were mentioned, he explained "because it so happened that we happened to have investment literature on these states on hand. But there are other areas too, such as Maine, New Jersey and areas on the West Coast."

The general Japanese reaction was one of surprise that a country as industrially advanced as the United States should seek much help from abroad.

Japanese business sources said the plan was still in an embryonic stage with many barriers involved, such as immigration laws relating to sending Japanese personnel to the United States, differences in management practices, and the gap between American and Japanese wage levels.

It was not known whether specific industries were mentioned in the American proposal.

The only sizable Japanese manufacturing venture to date in the United States is the Alaska Pulp Co. a government-backed firm that operates a mill at Sitka, Alaska.

Here's a Man Who Knows

Afraid of Shark Bite? But It Doesn't Hurt

By PHYLLIS BATTELLE

NEW YORK — We were discussing going off on vacation to the Virgin Islands, and our friend said: oh, how lovely — but aren't there a lot of sharks in the Caribbean?

* * *

We said certainly, ha-ha-ha, but no more than there are in the Atlantic and Pacific. And as for the Indian Ocean, wow.

She didn't believe. She said she had heard there are many more sharks in tropic waters because it is warm, and that is why sharks come in to shore up north only in the summer.

Ridiculous! We replied. There are cold-water sharks and there are warm-water sharks, and they are all over the place. The only reason there seem to be more sharks in shore waters during the summer is that there are more swimmers in summer to observe them.

She asked, "Well how do you know so much?," and we told her we'd talked to the top shark expert at the Scripps (U. of Calif.) Institute of Oceanography in La Jolla, Calif., who said that the public is deluding itself if it thinks colder currents along the beaches will keep the sharks at bay.

There are 250 species of sharks, Dr. Wheeling North said, and only 12 of them are known as "man-eaters." Of those 12, just as many like cold water as warm water. There always has been a large shark population in coastal ocean waters — you'll even find many of them in lakes and rivers, many miles from the ocean.

He recalled the case of an enlisted man in the British army who was washing his jeep in a knee-deep stream 30 miles inland from the Atlantic. He lost a leg to a ravenous shark in the process.

But it didn't hurt the man, Dr. North assured us.

* * *

"Actually victims of shark attacks are always surprised how quick and painless it is," he said, with a grisly sense of humor. "They feel something 'bump' them. They look down and an arm or leg is missing. It's not an uncomfortable process . . . but you know? I've never been able to convince anybody it's a good way to go."

'GIVING UP SWIMMING'

Our friend shuddered appropriately, and said she was giving up swimming altogether, and we said Dr. North would be the first to call that foolishness.

"The fear of sharks," he told us, "is 99 per cent psychological. Any predator carnivore prefers his usual food to the taste of the unusual. In the shark's case, his usual food is fish. If there are tasty fish around, he usually won't bother men.

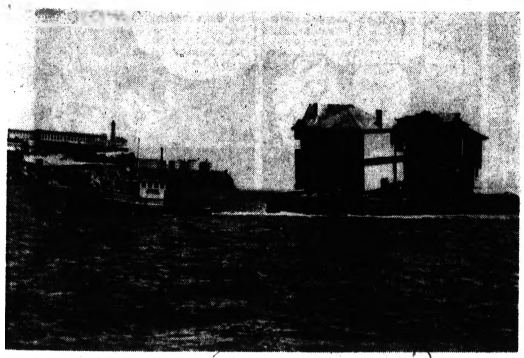
"Also, a shark respects a courageous human. Unless he is famished, if he sees a human beat an orderly retreat, he will not attack. It's a natural thing in the animal kingdom to admire bravery. I imagine even a well-fed lion, looking at a firmly poised human, might say 'Oh, what the hell,' and back away."

* * *

I don't care, our friend said, I don't like it. I don't think I'm going to the Virgin Islands.

That's one less bed to make.

Now wait till we tell our less skittish friends about the barracuda . . .



AP Photofax

FERRIED TO NEW SITE — A 60-year-old mansion, split into halves, is towed past Alcatraz Prison in San Francisco Bay. The 170-ton structure is being moved to a new foundation in nearby Belvedere, Calif., where it will be sold as a private dwelling. A 10-story building will be constructed on the mansion's former site.

104th Birthday Marked by Pennsylvania Woman

SHARON HILL, Pa. (AP)—Emmy Boyer celebrated her 104th birthday Wednesday with her three sons in this suburban Philadelphia community.

* * *

The sons are Harry, 73; Amos, 80, and John, 83. John lives at Reading, the other two in Delaware County. Mrs. Boyer is the widow of a coal miner.

Plan Welcome for Navy Air Unit Recalled to Berlin

GROSSE ILE (UPI) — Naval Air Reserve Antisubmarine Squadron 733, recalled last October as part of the Berlin build-up, was scheduled to return today to the naval air station here.

Lt. Gov. T. John Lesinski in dicated he would be on hand to welcome the squadron home.

The squadron, scheduled to be released from active duty Aug. 1, spent its tour of active duty aboard the naval air station, South Weymouth, Mass.

* * *

The Naval Reserve Association presented the squadron a plaque "for their recall readiness when ordered to extended active duty and exceptional service to the nation."

WELDEN'S

Teeing Off

By BILL CORNWELL

A golfer's winning touch can desert him suddenly and then return just as quickly. Pontiac's Mike Andonian is living proof of that fact.

Prior to his conquest of the Michigan Amateur golf title Sunday at Jackson's Arbor Hills Country Club, the 36-year-old Pontiac Central math instructor had been playing some of the poorest golf of his career.

In the Michigan Publinx Golf Association's state match play event the previous week at Lincoln C.C. near Grand Rapids, Andonian reached the quarter-final round before losing to Dearborn veteran John Lock.

Andonian perhaps never played worse than he did against Lock. He couldn't pitch or chip with any telling authority and his putting skill left him almost entirely.

ANDONIAN

Before the State Publinx tourney, Andonian failed to qualify for the National Public Links Championship, an event in which he always has made a creditable showing.

A quarter-finalist a year ago at Rackham Municipal and semi-finalist two years ago at Honolulu, Andonian had passed national trials seven times in eight tries preceding this year's state qualifying test.

He couldn't locate his game and failed to make the national grade for the first time since 1957.

But Mike found his game again at Jackson—just in the nick of time. Such is the up-and-down fate of golfing.

★ ★ ★

EMBARRASSED DAD

Pontiac's Tom Balliet, who will be competing in his first U.S. Publinx tournament next Monday at Tonawanda, N.Y., was pleasantly embarrassed by his 12-year-old son Gary last Saturday in the City Best Ball event.

Gary and his father were partners in the annual outing at Municipal and the chunky 7th-grader scored better than his dad in addition to firing an eagle three on the south side's 7th hole.

Gary, who stands 5-foot-1 and weighs 130 pounds, carded a five-over-par 74 with his own ball while Tom was shooting 75. Their best ball total was 70.

On the 461-yard 7th, Gary sank a 50-foot wedge shot for his eagle, one of three posted in the tourney.

★ ★ ★

To show that this effort was no fluke, Gary fired 72-77—145 on the same day last summer at Bald Mountain. Pro Ken Wilson verifies this.

Gary will enroll at Avon Township Junior High School in September.

His 36-year-old father managed to hurdle the U.S. Publinx qualifying barrier on his 3rd attempt. Tomorrow he leaves for Tonawanda, which is a 15-minute drive from downtown Buffalo.

Dates of the national public links are July 9-14.

★ ★ ★

Clifford (Kip) Inman, former city medal play king, also eagled the south nine's 7th hole by sinking a 15-foot putt. Jim Miller closed with a rush by eagling the 8th and birdieing the 9th.

SHORT PUTTS

Roger Talliman, Waterford Township High School golfer who works in the pro shop at Pontiac Country Club, three-putted the 5th and 9th greens and four-putted No. 8 at P.C.C., but still collected a 38.

★ ★ ★

Walter Hagen Jr., Edgewood member and son of the famous "Haig," will handle part of Sunday's Buick Open telecast from Warwick Hills.

The Syrons' new 18-hole course being built on the Dixie Highway near Walton Boulevard will probably be called Colonial Hills C.C. A sketchy layout of the $1 million links has been completed.

Groza Holds Record

LEXINGTON, Ky. (AP) — Alex Groza, who played center on the great Kentucky basketball teams in the mid 1940s, is the school's all-time top scorer. Groza tallied 1,744 points in 129 games over a four year period.

Back 9 Challenge at Troon—Nicklaus

TROON, Scotland (AP) — Jack Nicklaus, United States Open Champion, today predicted that the holes of the back nine of the Troon links could send scores soaring in the British Open Golf Championship starting Monday.

Nicklaus, of Columbus, Ohio, has had two days of practice over the 7,045-yard links on the edge of the Firth of Clyde. He admits that the incoming nine still has him baffled.

"I've yet to break 40 on the home nine," he said.

"If the wind starts blowing, as it has a habit of doing in these parts, then there could be some high scores on the last nine."

Nicklaus, Arnold Palmer, U.S. Masters Champion, Sam Snead, winner of the British Open in 1946 and one of the game's greatest players, Gene Littler, 1961 U.S. Open Champion, and Phil Rodgers head the 23-strong American challenge—the strongest U.S. entry for years.

★ ★ ★

Palmer is defending the title he won at Birkdale, Lancashire, last year; Nicklaus is out to add the British Open to his U.S. crown. The rivalry between those two—Nicklaus defeated Palmer in a playoff for the U.S. Open—has fired the imagination of British fans and crowds of between 20,000 and 30,000 are expected each day.

Palmer agreed with Nicklaus that the course is a tough one—"One made for a champion of champions."

Palmer arrived in Troon only Wednesday, played a quick round then went to bed early to catch up on some sleep.

Aussie Finals at Wimbledon

Young Marty Mulligan Faces Veteran Laver in Surprise Finale

WIMBLEDON, England (AP)—Martin Mulligan, tennis star who left Australia for a year to improve his game, is the strangest line-up in this Aussie-dominated Wimbledon Tournament.

Mulligan, 21, is in today's men's singles final against Rod Laver, the defending champion. And he reckons it's all because he got away from Australia and came to England to practice his shots.

"If you want match practice the round of Australian tournaments is the finest school in the world," Mulligan said.

"But it wasn't match practice I needed. I decided I should concentrate on improving my service and volleying.

★ ★ ★

"So after last year's Wimbledon tournament I stayed on in London and spent the winter practicing with friends. I decided I could do that better in London than anywhere else."

The results were made clear to an enthusiastic 14,000 crowd on Wimbledon's center court Wednesday. They watched Mulligan, unseeded, overpower John Fraser of Australia 6-3, 6-2, 6-2 in the semi-finals.

Laver defeated the elder Fraser brother, former Wimbledon champion Neale Fraser 10-8, 6-1, 7-5 in the other semifinal.

Diamond Play Heavy Tonight on Local Fields

Baseball and softball are on the docket tonight in recreation activity at Pontiac and Waterford.

On the Class A baseball front, Don Nichalle clashes with the R. T. Clippers under the Jaycee Park lights at 8 p.m.

In American division City League softball action, the Pontiac Police will tackle Howe's Lanes at Beaudette at 7 o'clock. In a Northside twin bill, Hi-Way Collision plays UAW Local 594 at 7, followed by an 8:30 contest between Elks No. 910 and Arro Realty.

★ ★ ★

League-leading Stroh's and runnerup Spencer Floor Covering tangle in a Class B Waterford loop softball feature at Drayton Plains at 7 p.m. Spencer trails Stroh's by 1½ games. O'Neil Realty battles Sarko Investment in another "B" contest at 8:30.

U. S. Runner Edged by Derek Ibbotson

OSLO, Norway (AP) — Derek Ibbotson of Norway shaded Cary Weisiger of America in a photo finish in winning the 1,500 meter race which featured the second night's program of the Oslo track and field games.

Ibbotson, a 4-minute miler, was clocked in 3 minutes, 46.1 seconds over a slow track in a drizzling rain. Weisiger, a Marine from the Quantico, Va., base, was just one-tenth of a second behind.

Another U.S. Marine, Dave Tork from Camp Pendleton, Calif. was a disappointment when he was able to reach only 15 feet, 7 inches in the pole vault.

★ ★ ★

Norwegians had been looking forward to Tork's duel with the Finnish world record holder, Pentti Nikula, who recently cleared 16 feet, 2½ inches to beat Tork's world mark of 16-2.

Tork's best effort fell well below Nikula's leap of 15 feet, 10¾ inches, record Tuesday night.

Huron-Airway Ups Lead to 5 Games

Huron-Airway is making a runaway of the Class A City Baseball League race.

★ ★ ★

The Huron squad boosted its lead to a fat five games Wednesday night with a 6-2 victory over the runnerup R. T. Clippers in the nightcap of an Independence Day doubleheader at Jaycee Park.

Don Nicholle, occupying first place two weeks ago, tumbled into the basement after taking a 15-5 licking from CIO Local 594 in the opener of the twin bill.

Don Picmann pitched a steady four-hitter for Huron-Airway and struck out eight while walking four.

Chuck Honchell hurled the route for the Clippers, fanning seven and walking two. He allowed nine hits, including two apiece by Phil Rabaja, Al Barkeley and Stu Dell. Tom Demrick had two RBI's.

GAME STOPPED

The league's 10-run rule stopped the Nicholle-CIO contest after six innings.

Ten men batted in the 5th inning as the CIO rallied six times to overcome a 5-4 deficit and blow the game wide open. Play was halted at the end of the 6th after five more runs crossed the plate.

Larry Cates pitched the distance for the CIO and permitted 7 safeties, two by Ron Smith.

Daryl Thorpe, Wayne Lundy and Tom McCormick shared mound duties for Nicholle with McCormick absorbing the loss.

Chet Woodmore and Jim Berg each socked three safe blows to pace the CIO's 13-hit attack.

Nation's Race Tracks Pull 363,000 Persons on Fourth

By The Associated Press

More than 363,000 persons attended July 4 holiday programs at 19 thoroughbred race tracks in the nation, and bet more than $23 million, an Associated Press survey showed. Both totals were up from 1961, with the betting total representing an increase of nearly $2 million.

The attendance at 19 tracks was 363,750, topped by 55,123 at Hollywood Park. The betting handle was $23,261,503, with Aqueduct leading the list with $4,265,379.

A year ago on Independence Day, 338,546 attending racing programs at 19 tracks and bet $21,381,290.

Although there were an additional four games on the July 4 program, baseball attendance dipped about 5,000 from last year's total as 224,866 fans turned out for 18 major league games Wednesday.

The National League led the way this year as 115,292 clicked through the turnstiles for eight games. Last year the NL drew 66,134 for six games.

The American League attracted 109,574 patrons for 10 games this year to 163,270 for eight in 1961. Both leagues totaled 229,401 last season.

The biggest crowd Wednesday was 39,322 at Los Angeles for the twin bill between the National League leading Dodgers and the Philadelphia Phillies. The Kansas City-New York two-game set drew 27,901 for the AL high.

News in Brief

Rummage Sale: July 7, 10 a.m. 26 S. Paddock St. —adv.

N.J. Editor Succumbs

WESTFIELD, N.J. (AP) — Joseph F. Dietz, 52, executive editor and acting sports editor of the Newark (N.J.) Star-Ledger, died Wednesday of a heart attack.

But Auto Group Slips

Market Slow, Then Perks Up

NEW YORK (AP) — The stock market continued its uptrend early today after some hesitation at the opening. Trading was fairly active.

Gold mining shares were prominent gainers following a spurt in the price for gold bullion in London.

Gains of fractions to a point or so among key stocks outnumbered losers throughout the over-all list.

The opening was mixed but prices worked higher within the first hour.

The surprising advance in the preholiday session, when caution is usually the rule, added some further confidence in Wall Street, brokers said.

Among the gold issues, Dome was up about 2 and Homestake more than a point.

Chemicals did well. DuPont and Eastman Kodak adding about a point each.

* * *

Rails, oils, electrical equipments, steels and utilities moved slightly higher on balance.

Among the "growth" stocks, International Business Machines added about a point while Xerox dropped about 2.

In a mixed auto group, General Motors was off nearly a point in active trading. Chrysler lost a fraction. American Motors gained a fraction and Studebaker was about unchanged.

Aerospace issues were narrowly mixed.

* * *

The market was moving from its fourth straight clear-cut advance.

Opening blocks included: U.S. Steel, up ¾ at 46⅞ on 5,000 shares; American Telephone, up ⅝ at 108¼ on 3,000; and Dome Mines, up 1⅜ at 29½ on 2,000.

* * *

Prices were mostly higher on the American Stock Exchange. Moderate gainers included Reliance Insurance, Louisiana Land, Cubic Corp., Aerojet-General, Aurora Plastics, Paddington "A" and Molybdenum.

Corporate Bonds Lower

NEW YORK (AP)—Corporate bonds opened slightly lower in quiet trading today but individual issues, primarily in the rail and industrial categories, showed some strength.

U.S. Treasury issues showed little trend either way, but one dealer quoted intermediates off 1/32 and long bonds off 2/32. Trading was quiet.

Early changes in corporates were confined mostly to fractions, although Pacific Gas & Electric 3¾s of 1978 rose a full point to 95.

* * *

Other gainers included Alcoa 4¼s of 1982, up ½ at 99⅞; Sears Roebuck 4¾s of 1983, up ½ at 104 and Lehigh Valley 5s of F2003F, up ⅞ at 36⅛.

Sales figures are unofficial.

Rates of dividends in the foregoing table are annual disbursements based on the last quarterly or semi-annual declaration. Unless otherwise noted, special or extra dividends are not included.

a—Also extra or extras. b—Annual rate plus stock dividend. d—Declared or paid in 1961 plus stock dividend. e—Declared or paid so far this year. f—Payable in stock during 1961, estimated cash value on ex-dividend or ex-distribution date. g—Paid last year. h—Declared or paid after stock dividend or split up. k—Declared or paid this year, an accumulative issue with dividends in arrears. p—Paid this year, dividend omitted, deferred or no action taken at last dividend meeting. r—Declared or paid in 1962 plus stock dividend. t—Payable in stock during 1962, estimated cash value on ex-dividend or ex-distribution date. y—Liquidating dividend.

z—Sales in full.

cld—Called. xd—Ex dividend. x-dis—Ex distribution. xr—Ex rights. xw—Without warrants. ww—With warrants. wd—When distributed. wi—When issued. nd—Next day delivery. wt—Warrants. ur—under rule.

vj—In bankruptcy or receivership or being reorganized under the Bankruptcy Act, or securities assumed by such companies.

Plant Size Slips, Number Gains

Michigan Dept. Lists 298 Available Buildings but Less Floor Space

LANSING (UPI) — Available plants in Michigan have increased in number since the last report six months ago, but decreased in size, the State Economic Development Department said today.

The department's available plant summary listed 298 plants available, six more than in the winter edition, but the amount of floor space was reduced by 1,322,685 square feet.

Department officials said 142 communities had available plant space listed in the summer edition summary, which is distributed to industrialists throughout the nation. This was one less than in the winter edition.

* * *

The Upper Peninsula had a reduction of three plants, and the Lower Peninsula had an increase of nine during the six-month period.

* * *

Some 55 buildings were removed from the winter list, 30 of them for return to industrial use. Another eight buildings were converted to warehouses and 10 were put into service for commercial use, the department said. Other plants taken off the list during the period were razed, burned or taken off for other miscellaneous reasons.

Union to Vote on Pact Today at State Plant

KALAMAZOO (UPI) — Some 300 members of Local 2078 of the International Association of Machinists were slated to hold a ratification meeting today to vote on a proposal to end a walkout at the Hydreco Division of the New York Air Brake Co.

* * *

Union and company bargainers reported yesterday that a new tentative agreement had been reached in the dispute but no details were released pending the outcome of the ratification meeting scheduled for nearby Augusta.

* * *

The wildcat strike flared Friday over the suspension of an employe for alleged insubordination. Union members refused to work in protest of the disciplinary action.

Grain Futures Up During Early Trade

CHICAGO (AP)—Grain futures prices worked slightly higher today during the first several minutes of transactions on the board of trade.

* * *

After a mixed opening, buying on commercial accounts and some short covering absorbed the light offerings and nearly all setbacks were quickly canceled.

* * *

Brokers ascribed at least part of the demand to evening up commitments against a private crop report to be issued after the close of trading. It will be the monthly survey by Conrad Leslie of Bache & Co. His estimate of soybean acreage will be of particular interest since it will be the first of the growing season.

U.S. Consumer Buying in for Closer Scrutiny

By SAM DAWSON
AP Business News Analyst

NEW YORK — Consumer buying — the biggest thing in the U.S. economy—is in for closer than ever scrutiny today. The other chief forms of spending—by business and by government—are generally accepted as having pretty well taken shape for 1962.

Government spending is going to rise over the long range, stimulating certain industries, assuring some jobs and maybe creating some others.

* * *

Business spending plans can change, but most seem to call for a slight increase this year over last. And, anyway, business spending plans over the long range are tied to ultimate sales to the consumers and the government, or to prospects for such sales. Any big jump in business spending probably will have to wait for idle production facilities to be activated by increased consumer demands.

So what the consumer is going to do is the chief concern right now.

PUZZLING QUESTION

Particularly puzzling the soothsayers is just how much, if any, Americans will cut back their buying of goods and services because of losses in the stock market, or because of fear of the future induced by the stock market crash.

The latest pulse taking of consumer psychology finds it "soberly optimistic but not exuberant."

The questioning by the University of Michigan Survey Research Center was done while stocks were sliding, but most consumers were contacted before the big break of May 28 and the morning of May 29.

Government statistics also lag. Department of Commerce says, "retail sales continued at a high volume during May though they did not quite match the record total for the month of April."

Early reports of cutbacks in spending by consumers since the big drop in stock prices have concentrated largely in luxury items. Individuals who lost a lot of cash, or those who still have their stocks but aren't worth as much on paper as they once thought they were, are reported to have canceled plans to buy expensive houses, yachts, jewelry. So far stores have reported little apparent cutback in the buying of moderately priced items.

But, even so, consumer spending isn't all that the economic planners would like it to be. A little more of it would give the economy a nice boost.

BEHIND DRIVE

This is behind much of the drive for quick tax cuts, especially in the lower income brackets. Tax cut advocates contend that any such increase in disposable incomes would quickly find its way into trade or the payment for services.

But some economists doubt this. They concede that those who habitually spend all they make would increase their outlays if their tax bills were less. But those who think they already are spending as much as prudence dictates might use the tax windfall to increase their savings.

* * *

In either case the nongovernment sector of the economy would gain. Increased spending would help consumer good industries and services. Increased savings would build up funds for investment in future economic growth.

But just now, many economists say, what the economy needs most is more consumer spending. They hope the consumers will stay optimistic—and they wish the consumers would be a bit more exuberant.

Down to Cases in Labor Dispute

Local Hopes to Have Full Contract Proposal Ready for Kohler Co.

SHEBOYGAN, Wis. (UPI) — Negotiations in the nation's longest major labor dispute were to get down to the "brass tacks" level today.

The United Auto Workers Local 833, AFL-CIO, said it hoped to have a "full contract proposal" ready for today's session with Kohler Co. representatives.

They got together last week for 2½ hours, but the session was mainly for the purpose of exchanging greetings and laying some preliminary groundwork.

The negotiations are the first in the five years. The dispute began in 1954.

Neither side would speculate on how long it will take to reach accord on a new pact.

'FRIENDLY' MEETING

The first meeting was described as "friendly," which was in marked contrast to the stormy, name-calling session in the past.

Local 833 went on strike against Kohler April 5, 1954, or 36 days after the union's first and only contract with the firm had expired.

Negotiations were held intermittently after that until April 26, 1957, when they were broken off until last Thursday.

Violence marked the early months of the walkout and the firm had to shut down briefly. Then the battle went before the National Labor Relations Board (NLRB). The Congress and the courts. The strike was technically ended in November 1960, when the NLRB found the firm guilty of an unfair labor practice and ordered the firm to rehire strikers.

The Supreme Court early in June upheld the NLRB decision for a second time. This set the stage for the resumption of talks.

Say Rebound a Sign Confidence Back

NEW YORK (UPI) — The recent sharp rebound in stock prices reflected a return of confidence in the market, particularly on the part of those who were beginning to believe there was no bottom, says the International Statistical Bureau.

While "one swallow does not make a summer," it says we must construe the action as indicating very clearly that drastic liquidation in the recent past "was overdone and was unjustified, even assuming that many securities which had reacted sharply were overinflated".

Joseph E. Granville, of E. F. Hutton & Co. warns that secondary uptrends in a primary decline may last between three weeks and three months. He says still better technical evidence must be forthcoming before any kind of longevity on the upside can be projected.

* * *

W. L. LaTourette and Walter Mintz of Shearson, Hammill & Co. say there is a growing amount of evidence that the economy is heading for a mild dip and this obviously would have an impact on corporate profits.

In view of the clouded business outlook, the possibility of a tighter money policy and the damaged state of investor confidence "we would doubt that the recent rally would extend much further."

R. E. Buchsbaum of W. E. Hutton & Co. says barring new outside influences, 590-600 in the Dow Jones industrial average is going to be an area of congestion. He says it seems doubtful whether stocks can pierce that area on this move and he thinks that if they do this summer, the danger signals would be flying again because the factors which were blamed for the big market decline are still with us.

To Check U.S. Use of Foreign Steel

WASHINGTON (UPI) — The White House has promised to check into claims that an expected award of a Navy steel contract to a foreign producer will aggravate the nations unemployment problems.

* * *

The promise from presidential assistant Lawrence F. O'Brien, was in response to a request from Sen. Hugh Scott, R-Pa. asking President Kennedy to keep the contract within the domestic steel industry.

* * *

In another development, Rep. John P. Saylor, R-Pa., announced that he has prepared a bill which would halt increased U.S. government purchases of foreign produced steel. He particularly criticized a recent U.S. Navy order of 2,500 tons of West German steel for missile ships.

Business Notes

A former Oak Park city councilman who now resides in Franklin Village has been appointed to a key executive post at Ford's Research and Engineering Center.

AUGER

Edgar Auger, 30792 Roberts Drive, has been appointed assistant chief engineer of body development engineering. Auger has been with Ford since 1945.

After starting his automotive career as an apprentice body builder with the Square Deal Body Co. in 1934, he later held engineering positions with General Motors Truck and Coach Division, Packard Motor Car Co. and the Fisher Body Division.

* * *

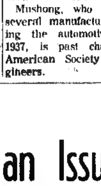
The appointment of a Bloomfield Hills man, Jackson P. Cummings, to the newly created position of chief engineer for the corporate purchasing staff of Chrysler Corp. was announced today.

Cummings, 1076 Stratford Lane, will provide liaison and coordination services between the engineering division and the purchasing staff, according to A. W. Hartig, purchasing director, and P. C. Ackerman, engineering vice president.

The former chief engineer for Chrysler Corp. of Canada, Cummings' most recent position was that of staff engineer, quality coordination, in the engineering division. He has been with the corporation since 1930.

* * *

John N. Mushong of 5247 Clarendon Crest Drive, Bloomfield Township, has been appointed general product engineer of prestige bodies at the Ford Motor Co. Research and Engineering Center.



MUSHONG

He formerly was senior principal design engineer for Lincoln and Thunderbird body activities before his new appointment. He has been with Ford since 1953.

Mushong, who has been with several manufacturers since joining the automotive industry in 1937, is past chairman of the American Society of Body Engineers.

Latest Auto Strike Over Standards

Working Conditions Still an Issue

DETROIT (UPI) — "This is a question we've fought all through the history of the auto industry: How much sweat must a worker put out to get his daily bread?"

Walter P. Reuther, president of the United Auto Workers Union, was referring to the issue which triggered a strike and caused a nationwide shutdown at Ford last month.

The issue is working conditions.

It long has been a rallying cry for workers in the auto industry. General Motors officials still wince when Reuther periodically voices an old union saying that GM is a "glorified, gold-plated sweatshop."

The auto firms all have production standards experts who determine the amount of work a man should be able to perform in a day. The union often disagrees, as was the case in last month's shutdown.

The UAW went on strike at Ford's Walton Hills, Ohio, plant to protest what it claimed were unfair work burdens. Ford claimed standard of 300 units per hour was realistic and had been met elsewhere.

As a result of the dispute in a department involving 25 men, about 77,500 workers were idled across the country. But both union and company were willing to go to such lengths because they felt a matter of principle was at stake.

* * *

It wasn't the first time and it won't be the last that working conditions, and not money, shut down a giant manufacturing complex. Working conditions proved the major stumbling block last fall during new contract negotiations between the automotive big three and the UAW.

GM settled national economic issues with the UAW but then found more than 270,000 men out on strike over such work issues as the number of minutes of relief time a worker was entitled to. "This strike is 99 per cent about working conditions," Reuther said as the UAW shut down nearly 100 GM plants.

Ford also was hit by a nationwide strike by 120,000 workers last fall mainly on noneconomic issues. The same thing happened during the previous round of talks in 1958 when 310,000 GM workers stayed out a month over plant level problems.

"Workers used to strike for another five or ten cents an hour in their paycheck, but now it's a matter of getting five minutes more to wash up in, or some such thing like that," one industry source said.
