

Daddy, Don't Go!

TEARS AT PARTING—Two-year-old Terry Goodhue is heart-broken as he bids goodbye to his dad, Lt. Gerald Goodhue of Arlington, Mass., as he left with the advance detail of the 101st Aircraft Control and Warning Flight, Massachusetts Air National Guard, for Giebstadt, Germany, Wednesday. Young Terry was born in Germany when his dad was on active duty and returned to the U.S. 18 months ago.

Ghosts to 'Spook' on Tuesday Night

The big countdown will begin in many Pontiac areas homes this weekend. Sometime Tuesday, if the wind is right, thousands of weird and colorful little rockets will be launched from home pads.

There'll be creepy goblins, happy clowns, friendly ghosts, withering witches and a few "period" items —

Health Officers Discuss Fallout

Convene in Washington to Consider Protective Measures

WASHINGTON (AP) — Health officers from every state met here today in an extraordinary session designed largely to consider protective measures that might be taken if nuclear fallout reached acute proportions.

The two-day meeting, called by the Public Health Service, brings together about 100 federal, state and local health officials. The sessions are closed to newsmen.

Dr. Francis Weber, chief of the service's radiological health division, said there was no cause for serious concern. He added that while information still was lacking about fallout effects of the Soviet Union's big nuclear blast of last Monday, any significant hazard springing from the current Soviet test series probably would not arise until next spring.

Then, most of the fallout from all the Soviet tests, now judged (Continued on Page 2, Col. 3)

Groups Lobby at Con-Con for 'Earmarking'

Highway, School and Village Representatives Would Hold Taxes

LANSING (AP) — Representatives of schools, highway builders, cities and villages pleaded with constitutional convention delegates Wednesday night to keep their hands off tax revenues earmarked for special purposes by the state constitution.

They warned that programs vital to state welfare would suffer serious damage if the assured income was put under legislative control.

August Scholle, Michigan AFL-CIO president, offered the same advice. He said the legislature couldn't be trusted to spend the money wisely.

The convention's committee on finance and taxation, conducting the first public hearing of the four-

Soldiers Move as U.S. Official Is Turned Back

Army Shows It Means to Keep Crossing Open 'at Friedrichstrasse

WASHINGTON (AP) — The U.S. government has instructed Ambassador Llewellyn Thompson to protest to the Soviet government against interference with Allied official visits to East Berlin, and to insist that Soviet authorities resume active control of the East Zone border check point.

BERLIN (UPI) — The United States sent a civilian car escorted by a convoy of three jeeps loaded with armed soldiers into East Berlin today in a demonstration of American determination to keep Friedrichstrasse crossing point open to Western traffic.

The incident this afternoon developed after a U.S. official in civilian clothes riding in an official Army sedan was turned back by Communist guards during the

Related Story on Page 9

Before and after the two incidents, the Friedrichstrasse crossing point remained open to traffic, with cars passing back and forth in both directions.

A U.S. State Department spokesman said the Russians were informed two hours in advance that the Americans were going to send the automobile through. He said the Russians were asked to send a Soviet officer to the border in case it was necessary to verify the identity of the civilians in the automobile, since the United States refuses to deal with the East Germans. The Russians did not send a representative.

The car's occupants were a driver in civilian clothes and Irwin Firestone of Pittsburgh, Pa., Russian-speaking head of the military police liaison office. He was the civilian also involved in the incident this morning while he was on his way to deliver a message from Maj. Gen. Albert Watson II, Berlin's American commander-in-chief, to Col. A. V. Solovyev, his Soviet counterpart.

Lt. Col. Louis Breaux, spokesman for the U.S. Berlin command, said that at 3:05 a.m. (Pontiac time), five U.S. tanks and five armed personnel carriers moved up to the border at the Friedrichstrasse crossing point.

STOBBED BY POLICE
Five minutes later, the civilian car stalled at the border. The Communist check point, only to be stopped at the eastern end by Red police.

Lt. Col. Robert Saboky, the U.S. provost marshal, and a first lieutenant went over to the car under Dr. Otto C. Hutzinger.

Power Failure Results in The Press Being Late

Failure of two 4800-volt Consumers Power Co. switches yesterday cut off power for approximately 20 per cent of the downtown Pontiac area, resulting in an extremely late press run of The Pontiac Press.

The failure occurred at 1:22 p.m., halting electricity to most businesses in the northwest downtown section bounded by Saginaw, Lafayette, Orchard Lake Avenue and the Grand Trunk tracks.

Consumers emergency crews began shunting power around the switches, located in the power vault at The Press, and some firms in the affected area were back in operation in 20 minutes.

Power was restored to The Press at 2:42 p.m., and the press run continued. Cause of the switch failure is still unknown, according to Gordon A. Low, electrical distribution superintendent for Consumers.

The Press regrets the delay in delivery to its customers.

Coast Guard School Sells Entrance Exam

Congressman William S. Broomfield, R-Oakland County, announces competitive examination for entrance to the U.S. Coast Guard Academy will be held nationwide Feb. 19 and 20, 1962. These examinations will be given in 135 cities.

The opportunity is offered to young men who want a four-year course leading to a commission as a career officer in the Coast Guard and a bachelor of science degree.

Hopes to Open Freeway Before the Deer Season

LANSING (AP)—The State Highway Department says it hopes to open more than 60 miles of U.S. 27 Freeway in Northern Michigan before the start of deer hunting season Nov. 15.

The department announced that 18.3 miles of U.S. 27 Freeway from Mount Pleasant to Clare would open Nov. 18. Completion of another 43.3 miles from south of Harrison to Grayling also is being sought, the department said.

Two Plead Guilty in Assault Case; Pay Fines, Costs

Two Detroit men pleaded guilty to simple assault Wednesday in Pease John McGrath's court, were fined and paid \$35 plus \$15 costs.

Richard J. Price, 31, and Edward F. Laynes, 34, were accused of ordering three Waterford Township people from their parked car at gunpoint. The vehicle was then searched for stolen goods by the pair.

Try to Help Teachers 'Feel More at Home'

In order to make new teachers in the Waterford Township school system feel "more at home," an intensive get-acquainted program is under way, according to the school's vocational coordinator, Steve Hubbell.

At 1:30 p.m. Sunday, young married teachers will meet at the Waterford Township school to go horseback riding at Teasle Hill, in the Highland Recreation Area.

Nasser May Lose Some Power

Egypt Reorganizing After Revolt

BEIRUT, Lebanon (AP) — The Syrian revolt has touched off a wave of arrests and reorganization in Egypt that diplomatic sources say is more widespread than President Nasser has admitted publicly.

Nasser even may have been forced to share some of his power with two long-time associates.

The arrests extend into the army and air force.

Nasser's government has admitted the arrest of 40 civilians and confiscation of property of 167 officers have been arrested or dismissed.

The government said they were reactionary obstacles to Nasser's goal of Arab socialism.

Damascus newspapers reported property was seized from more than 1,000 persons, most of them Syrians and Lebanese. And qualified informants say that at least 16 air force officers have been confined and possibly 100 army officers have been arrested or dismissed.

The army officers are mainly relatives or close allies of the wealthy civilians picked up on Oct. 17.

STRICT CENSORSHIP

Censorship of outgoing dispatches has prevented Cairo correspondents reporting these additional arrests or other evidences of unsettled conditions in Egypt.

One item being kept under wraps is the mysterious appearance of handbills, purportedly from army comrades, complaining of low pay and poor living conditions. These have been mailed to several embassies and also have cropped up elsewhere.

So far as is known, none of the officers arrested had anything to do with the handbills or any known plots against Nasser. They were picked up for what they might do, not for something they did.

Some informed observers in Cairo believe that in moving to

suppress any potential challenge to his regime, Nasser has been forced to surrender some of his power. These sources use a tri-umvirate emerging, with Nasser still very much on top but forced to trim his sails as he did in the first years after the revolution, when he had to work through the revolutionary officers' council.

The other two members of the triumvirate are both veterans of that council: the minister of treasury and planning, Abdel Latif Boghday, and Interior Minister Zakaria Mohieddin.

These two men represent somewhat opposing tendencies. Boghday is believed to favor more personal democracy under Nas-

Rolling for Rolls

CORTEZ, Colo. (U) — A local woman was fined \$3 for running through a red light. Her reason: She had rolls in the oven.

About one-half of all males in Burma are illiterate.

Trial Postponed While Plaintiff Claims TV Prize

BIRMINGHAM, Ala. (AP) — Justice waited while a plaintiff flew to New York to claim a prize on a television show.

the winner of a 1962 automobile. Defense Attorney William Moore said he had no objections.

"If anybody is that lucky," Moore said, "I don't want to try his case on this date anyway."

Texas Family Is Having a Population Explosion

PFLUGERVILLE, Tex. (UPI) — The Pflugers of Texas have their own population explosion under way.

Descendants of the family of Henry Pfluger Sr., now list a seven-generation total of 1,984. They hold an annual reunion here.

Sandburg to Perform at Nation's Capital

JACQUELINE KENNEDY, the Nation's First Lady has charmed the Presidential Cabinet into the culture craze. And this is probably good, since a little culture has never hurt anyone. At her bequest, the President's Cabinet is sponsoring "an evening with CARL SANDBURG," tonight at the new State Department auditorium. SANDBURG will put on the same versatile program that he presented in the Cranbrook stadium here a year ago.

As only Sandburg can, he will comment on current events, read his poetical works and sing a number of ballads and folk songs. He will be performing in the Nation's capital for high officials and diplomats.

Chairman of the program known as the "Artist Series" is Mrs. KENNEDY. The cultural series was started last May with ROBERT FROST, the New England poet, leading off.

In 1959 on the occasion of Abraham Lincoln's birthday anniversary Sandburg gave a moving address to a joint session of Congress. Since then he has been a favorite on Capitol Hill.

However, he was not one of the New Frontier backers in the beginning. Along with 15 other nationally known writers and poets he was stumping for STEVENSON during the pre-convention jousting.

Constitution Meetings Are Open to the Public

Constitution Hall in Lansing, where proposals for a new Michigan Constitution are being debated, is open to the public.

"Since the group assembled on Oct. 3, we have been surprised to hear that many parents and students believe that visitors are not welcome," James M. Hare said. "This, of course, is not true."

HARE pointed out that the Preparatory Commission had taken many steps to insure maximum public participation by providing 180 spectator seats, setting up microphones, cutting large picture windows into the walls of Constitution Hall, and providing for closed circuit television facilities to take care of the overflow crowds.

Convention authorities recommend Tuesday, Wednesday and Thursday visitations for school groups. Most weekly deliberations will begin on Monday evening and close on Thursday afternoon or early Friday.

The Pontiac Press has run a number of news stories bringing out the fact that the Con-Con meetings are open to the public.

As a public service we are printing this reminder from the Michigan Department of State.

Defense Against Missile Subs Becomes Pertinent

Little is being said by our defense experts, but the biggest headache they have is figuring defenses against Soviet missile subs.

U.S. military men now believe the development of the long range Polaris-type submarines are at the head of Khrushchev's military program. The reason for their top priority is that missiles could be fired to fly so close to the ground that U.S. missile defense warning

systems would not be able to see these missiles in flight.

Right now reports are that the Russians have a dozen or so subs set up for firing missiles. But about all they can handle is the short 200 or 300 mile weapons, and then they must surface to fire.

Of course, these are practically useless with our warning system.

One reason Khrushchev has this crash program for mating missiles and subs is that so many American military targets are close to the ocean. If they had medium range missiles and subs working as a unit and could fire under water, it is easy to see what they might be able to do.

The antimissile missiles the U.S. is developing would have a hard time handling such low flying targets.

Reports have it that to date the Russians have not been successful in bringing together the submarine and a 1,000 to 1,500-mile missile that could be fired under water.

Let's hope their difficulties continue, and in the meantime the Pentagon comes up quickly with some defense system to halt this weapon just in case their scientists are able to develop it.

The Man About Town

Chasing Rattlers

New Freeway Disturbing Haunt of Poison Snakes

Oakland County: A county that has everything. (See below)

Since early history the greatest concentration of rattlesnakes in Oakland County has been in the lowlands on the former Holdridge Farm on the Holy-Groveland Township line. Countless hundreds of the vipers have been killed there. Now the great 75 Freeway is to cross that area, and in the excavation and grading work, the snakes are either being killed or driven to new locations. A worker on the project tells me that it is quite surprising that so many of them manage to escape.

The noise of the graders, bulldozers, trucks and other road building machinery makes it quite impossible to hear the warning rattle of the snakes, but no serious bites have been encountered. However, our snake population is spreading out, which may not be a "rattling" good thing.

With a complete set of the McGuffey readers, used in our early schools, Peter Mienoeke of Birmingham wonders if anybody else can boast of such a collection.

A cabbage grown in the garden of Mr. and Mrs. Thomas L. Orvison of Keego Harbor weighs 28 pounds, and is being converted into sauerkraut, making about 20 quarts. "Now all we need is the pig hocks," phones Mrs. Orvison.

Given a young turkey soon after it was hatched last spring, the children of Mr. and Mrs. Randall Felch of Lake Orion felt that they were assured of turkey for Thanksgiving. But the bird has become such a family pet that it now seems destined to die of old age.

Pontiac area people interested in the local Michigan State University Oakland or its parent at East Lansing are feeling chesier than usual, as the 1962 auto license plates which go on sale next week are in their colors, green and white.

Refusing to obey the season's edict, a grove of maple trees near the home of Mr. and Mrs. Gerald Millhouse of Waterford retain their verdant green, with no vestige of any other color.

Old Stone Front ...

David Lawrence Explains:

Labor Killing Golden-Egg Goose

WASHINGTON — Somebody has taken away this month at least \$143 million of prospective tax receipts from Uncle Sam—maybe more—and the public doesn't know anything about it. All that the American people know is that there has been some kind of wage increase in the steel industry which took effect on Oct. 1. They haven't been told that this means additional wage costs of somewhere between \$120 and \$150 million on an annual basis—and some estimates run as high as \$200 million.

Likewise, in the auto industry about \$125 million now have been added to costs by the new wage contracts. Taken together, this is an increase in expenses in these two industries of about \$275 million. Hence, the federal government, which might have gotten 52 percent in the form of taxes on profits from the corporations—or about \$143 million—now loses that sum. GOES TO INDIVIDUALS

Where does it go? Most of it goes to individuals who pay a relatively low income tax, and they spend it in large part for consumer goods and pay higher prices for many of their necessities.

Another \$132 million that could have been utilized by the companies to build plant and equipment—projects that would have really stimulated employment—is not going to be available to the private companies that earned it. This trend is what is worrying businessmen these days.

But, sooner or later, the American people will begin to begin worrying, too, because Uncle Sam's tax receipts are going to be steadily diminished if such costs are regularly added in industry and there is no corresponding "benefit" obtained.

If, in all corporate industry, the same scale of wage increases is applied as the average of those emerging from the steel industry, a pay raise in steel and the 1961 wage contracts in autos, it is estimated that \$2.9 billion would be added annually to corporate wages and salaries.

Indeed, approximately \$4.5 billion would be the total increase in corporate employment costs if "fringe benefits" are included. TAXES WOULD DROP

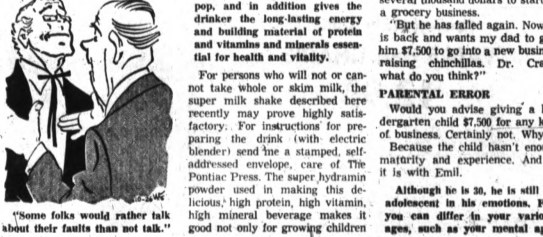

Here is a \$4.5-billion item which must come out of profits. Hence, federal taxes would drop \$1.8 billion. This takes into account an offset of about a half-billion dollars in income tax receipts from individuals, so the net loss to the Treasury would be at least \$1.8 billion.

What could Uncle Sam do with \$1.8 billion? All expenses could be paid for the operations of the country.

A glass of whole milk or skim milk contains more sugar (milk sugar, lactose) than a bottle of pop, and in addition gives the drinker the long-lasting energy and building material of protein and vitamins and minerals essential for health and vitality.

For persons who will not or cannot take whole or skim milk, the super milk shake described here recently may prove highly satisfactory. For instructions for preparing the drink (with electric blender) send me a stamped, self-addressed envelope, care of The Pontiac Press. The super hydramin powder used in making this delicious, high protein, high vitamin, high mineral beverage makes it good not only for growing children

The Country Parson

Voice of the People: Reader Claims Kennedy Has Year-Round Vacation

When is Mr. Kennedy going to stop making his job a year-round vacation and start earning his salary? In the past two months he has managed to have all his relatives put in high office. The rest of the time he has spent on the family estate or at Palm Beach.

His platform and our country are falling on his curly head, yet some Democrats have the nerve to say he's played too much golf. Many of the Democrats are sorry about it, but what about the rest of us who are jobless?

Kennedy can use the economic axe in the hole. He can put money in your pocket and sorrow in many hearts by getting involved in a war.

Sick of Jack and Jackie

Shocked by Music on Radio

I am shocked by a strong raunchy radio policy. A station should meet the musical tastes of the majority of its potential listeners and devote more time to public service and educational broadcasting. Let's clean up the airwaves and "stomp" out this current noisy raunch that is turning many people away.

Disheartened Former Listener

'Let All Nations Strive for Peace'

Due to the fact that any life was saved from one of the deadliest kind of cancers, through the use of cobalt, I write this letter in behalf of all mankind and hope all nations will recognize the great and wonderful things to be enjoyed by our generation and all future generations if they will work for peace and not war.

As I look about and see and know all the changes that have come to us since our country was discovered, I believe our leaders will find a way to help and heal those who now hold fast in their hearts.

Right will rule again if we give our country our wholehearted support and with the guidance of Almighty God we will accomplish the great task of "Atoms for Peace."

Eva Lela Dobson

Portraits

By JOHN C. METCALFE. There have been little moments when I thought about my bygone life. I wondered what I would have done. If you had not become my wife. I wonder I would be living now. Beside some distant sunny sea. Where mountains shade a tiny town. I wonder this is in reference to a few. I've thought that I might also be. Upon a gracious Western plain. Where living in the ranch house style. I would not even mind the rain. And then the thought occurred to me. That maybe I would be alone. And traveling about the world. To live there some years hence. There isn't any doubt but that. I'd spend them all again with you. (Copyright, 1961)

Smiles

Whoever grows the biggest cabbage this year is entitled to have a swelled head. An Ohio clock store was closed after 48 years. Business was swelled to such a point that it was wound up. If at first you don't succeed you'll get a lot of unwanted advice.

Case Records of a Psychologist:

At 30, This Man's Still a Child

your physical age, your emotional age and your business age. Emil is an adult in his I. Q., but in one year of college, and he is a husky 6-footer, so he is physically mature.

But in his emotions he is scarcely 16, and in his business experience he is a 12-year-old. For a newspaper boy has more financial gumption and practical business experience than this 30-year-old.

You parents must never mistake physical adulthood for business gumption. So don't subsidize any child in a business unless he has previously shown his adeptness therein.

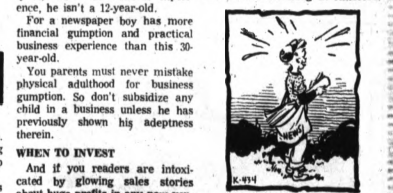

WHEN TO INVEST

And if you readers are intoxicated by glowing sales stories about huge profits in any new venture, whether it be running a gas station or raising chinchillas, sober up by following this formula: First, get a job on salary with somebody else who is already in the business you are interested in.

Let this established operator then teach you the tricks of the trade at his expense, as by working for him at least six months or longer.

Meanwhile, keep your eyes and ears open for all the pointers you can learn. Please remember that gross sales are very different from net profit.

Most people are excited by the gross amount of money taken in at the cash register. But experienced business men know that taxes and rent and feed bills for chinchillas, plus disease and a possible failing

Mrs. Jones Wins Divorce Over Lipstick Cruelty

LONDON (AP)—Joan Jones, 36, was granted a divorce Wednesday after testifying her husband, Stanley, became violent whenever she put on lipstick.

She complained that he once scrubbed her lips with his knuckles.

On another occasion, she said, Stanley became incensed when she declined to remove her lipstick, smacked her on the neck, struck her on the mouth and squashed her nose with his thumb.

"The charge of cruelty is abundantly made out," said the judge.

1st Tests for Tory Now Completed

LAS VEGAS, Nev. (AP)—Tests of the Tory II A-1 reactor, designed to prove nuclear energy propulsion is possible for missiles, have been completed, an Atomic Energy Commission spokesman said Wednesday.

The next step in Project Pluto is development of the larger Tory II C reactor for tests under full power. Bids already have been asked for expanding the facility at the Nevada test site 65 miles north of here.

The II A-1 was the first step in the program. Nuclear power runs were conducted on Oct. 14, Sept. 28, Oct. 5 and Oct. 6 this year.

Old Roommates Have Big Battle in Hilo Hospital

HILO, Hawaii (AP)—Catalino Sile and Emiliano Bibline, both Filipino nationals, had been roommates at Hilo Hospital for 10 years.

They shared the chores of keeping their quarters.

Early this week, Sile asked Bibline to mop. Bibline said it was not his turn. They had words. Bibline bopped his roommate with his cane. Sile retaliated. Nurses pulled them apart and moved them into separate quarters.

Sile is 51. Bibline is only 49.

Norman Rockwell Weds Ex-Teacher

STOCKBRIDGE, Mass. (AP)—Norman Rockwell, noted magazine cover artist and illustrator, and Miss Mary L. Punderson, a retired teacher, were married Wednesday in St. Paul's Episcopal Church.

It was the third marriage for Rockwell, 67. His first marriage ended in divorce in 1930. His second wife died two years ago.

The bride, 65, retired in 1959 after teaching English at Milton Academy for 37 years.

President of Indonesia Told He Needs Surgery

VIENNA, Austria (AP)—President Sukarno of Indonesia was advised by his doctors Wednesday to undergo a kidney operation, an authoritative Austrian source said.

The source said the president's ailment, described as kidney stones, particularly affected his left kidney. Indonesian officials refused to give out information.

Sukarno is under treatment at a Vienna private clinic.

The mayfly usually lives only one day after it becomes an adult.

HOWARD JOHNSON'S

Have you ever thought how convenient and pleasant it would be to stop at Howard Johnson's in Drayton Plains—as early as 7 A.M.—for

BREAKFAST?

Or at noon, to arrange a car-pool with your friends to drive just a few short minutes to Howard Johnson's in Drayton Plains for

LUNCH?

Or to take the family out—at sensible prices—where you know they will enjoy a delicious

DINNER?

Or, instead of raiding the ice-box, take them to the Drayton Plains Howard Johnson's for a tasteful

SNACK?

Why not? Howard Johnson's is conveniently located at

Texas Fireman Active at 79

Volunteer Is Happy in Knowing That He's Still Not 'All Spent'

ARANSAS PASS, Tex. (UPI)—Glen Kishko, at 79, claims to be the oldest active fireman in the nation.

And he doesn't even get paid for it.

Kishko, a partly 5-foot-3-inch volunteer fireman, likes "the satisfaction of knowing that even though you're an old man you're not all spent."

Most of the time, Kishko works as a dispatcher in the main fire station, but he has answered many an alarm since first becoming a volunteer fireman in Rochester, N. Y.

For years he was a bronc rider in Wild West shows and recalls rolling rosin balls for Annie Oakley to shoot out of the air. Kishko rode his first bucking steer when he was 13 years old.

Although putting water on fires is Kishko's vigorous hobby, his vocation is putting paint on canvases.

He has done a mural for the state office building in Columbus, Ohio, and paintings for churches from Texas to Virginia. Most of his painting output is signs and posters.

America's private forest owners plant more than a billion trees a year.

Says Reds Want Talks if the West Is Sincere

MOSCOW (AP)—Soviet Foreign Minister Andrei A. Gromyko says the Soviet Union is ready to consider the Western Allies' point of view on Berlin and Germany if the West is sincere in wanting an understanding with the Soviet Union.

Gromyko declared before the Soviet Communist party congress Wednesday that Soviet foreign policy demonstrates "flexibility and its striving to take account of the interests of the other parties to negotiations when they really seek an understanding."

DID NOT RETREAT

He gave no indication of a retreat in the Soviet position in the tense diplomatic stalemate, however, and he asserted once more that the Soviet Union will sign a separate peace pact with East Germany if negotiations with the West fail.

The address marked Gromyko's first official public report on his recent talks with U.S. Secretary of State Dean Rusk in New York and with President Kennedy in Washington.

Gromyko was applauded repeatedly throughout the address, which appeared to be a major statement on Soviet foreign policy.

AGREES WITH RUSK

He declared that he and Rusk agreed that the two world powers

should find a way to make war impossible.

"The secretary of state told me that we all understand that neither Khrushchev nor Kennedy want to go down in history as the leaders who provoked a world catastrophe in the second half of the 20th Century," Gromyko said.

"I replied that if we can succeed in solving on a basis acceptable to both of our governments the questions concerning the liquidation of the remnants of the Second World War, this will be a great contribution to peace."

'MAKE WAR IMPOSSIBLE'

"We think Kennedy and Khrushchev must be the presidents in a period in which war becomes impossible, that is to say at a decisive turning point in history. The whole world would be grateful to Kennedy and Khrushchev for that," Gromyko said.

He said Rusk declared that "We agree with these ideas of peace and I express the hope we may be able to find a correct path." Gromyko said Rusk added, "All depends on us, the representatives of the two biggest powers in the world."

The foreign minister reiterated the Soviet government's adherence to a policy of peaceful coexistence with capitalist nations and added: "The victory between communism and capitalism will

be decided by history and not by the Kremlin."

WANTS BETTER TIES

Revising a theme that Premier Khrushchev expressed just after Kennedy's election, Gromyko called the period in which Franklin D. Roosevelt was president a bright era of Soviet-American relations. He noted that Kennedy is a Democrat and expressed hope for friendlier ties with the United States.

The Vienna meeting between Kennedy and Khrushchev last May, Gromyko said, was one of the "most outstanding events of our time."

Can't Keep a Job

DES MOINES, Iowa (AP)—Twin Des Moines boys whose father is out of work went to school for the first time. When they returned home on Friday their mother told them they wouldn't have to go back Saturday or Sunday.

One of them inquired, "Are we laid off already?"

Carl Sandburg Hits Eisenhower

Poet Calls Ike Product
of 'Welfare State' Life
in the Army

WASHINGTON (UPI)—Poet and
Lincoln biographer Carl Sandburg
has called former President Eisen-
hower history's most ungrammat-
ical president and the sheltered
product of a "welfare state" life
in the Army.

He said Wednesday it was a
relief to watch President Ken-
nedy, for whom he forecast a
place among the nation's great
leaders.

The 84-year-old poet said fel-
lows state was a dirty word to
Eisenhower, but that from the time
he left a boyhood creamery job
at Abilene, Kan., to enter West
Point, Eisenhower was protected
from all normal hazards like look-
ing for work.

"He has yet to know the people
of the United States," said Sand-
burg at a news conference at the
Library of Congress, where he
formally opened the library's new
Civil War Centennial exhibit.

Earlier in the day Sandburg
went to the White House for a
chat with Kennedy.

Afterward, he said "the chances
are entirely that he (Kennedy) is
going to rate as one of the great
presidents," Sandburg said.

"He's a great relief from the
press conferences of Dwight David
Eisenhower, the most ungram-
matical president we've ever had.
Shooting off about the youth
corps! Before it's begun to have
a try-out he says it's no use. That
wasn't good sportsmanship!"

Antique Addict Refuses Offers to Sell Items

HALSTEAD, Kan. (AP)—Mrs.
Eba B. Arnold likes to buy history.
But she won't sell.

Mrs. Arnold is an avid collector
of almost anything old. She has
succeeded to the point where she
is often sought out by antique buy-
ers who want to acquire some-
thing she owns.

"One of them even wanted to
buy my staircase railing," she
said. "Imagine that."

Her collection includes such
items as a handcarved Griffin din-
ing room set, one of five in the
United States; an incandescent
glass chandelier; a foot-pedal 1880
sewing machine; a canopy bed
brought to New Orleans from
Spain in the 18th Century and an
autographed picture of Abraham
Lincoln.

Mrs. Arnold started collecting 40
years ago and most of the items
are in her home in Halstead. Of-
fers are stored in a ranch house
at Topeka, Kan.

The 1959 census shows more than
5,000 integrated schools, public and
private, in Portuguese Africa. More
than 600,000 pupils were enrolled.

position and efficiency of the big nuclear bomb the Soviet Union exploded Monday.

The prediction of Weather Bureau experts that the edge of the contaminated mass of air from Monday's explosion should arrive

planned, and with the knowledge that Novaya Zemlya had been the location of several earlier tests in the Soviet series, it is likely the United States made arrangements to procure all possible information on the blast.

Some of the Navy's atomic submarines, including the large Triton, could be especially useful on a mission to obtain data on such an explosion.

The Triton carries elaborate radar equipment as well as ultra-modern underwater listening gear. The super-sensitive ears of a submarine's sonar system can detect shock waves as well as a normal sound. And radar can pick up a cloud formation at distances upward of 200 miles.

Even without radar, a submarine could make valuable contribution to data-gathering. One would be data on shock waves transmitted through the water, another on the exact time of detonation.

The precise time of detonation is of major importance in analysis. Certain elements produced in or released by the fusion and fission processes decay over periods ranging from split-seconds to hours, days and weeks.

The microscopic particles taken by high flying planes undergo

minute studies in laboratories. The U.S. Air Force has used U2 jets in various parts of the world to take air samples up to as much as 80,000 feet altitude.

In answer to a question today, the Air Force said that there had been no special increase in the number of sampling planes patrolling the Alaskan-Aleutian area. The fact that a single plane can cover extensive territory and sample a number of layers of atmosphere presumably means that the Air Force believes its system in the Aleutian-Alaskan region is adequate to sample the cloud now approaching the area from far-off Novaya Zemlya.

Pope John to Celebrate 80th Birthday Nov. 4

VATICAN CITY (UPI) — The Catholic world made plans today to celebrate the 80th birthday of Pope John XXIII Nov. 4. Although the pontiff was born Nov. 25, it was decided to celebrate his birthday with the date of his coronation.

On that day, a Papal Mass will be celebrated in St. Peter Cathedral. More than 50 nations will be represented by official missions.

Surface temperatures of some stars are more than 50 times higher than those of the sun.

'Pauper's' Will Stirs Legal Row

Seven Heirs, Landlady and Swiss Government Battle for \$100,000

TAMPA, Fla. (AP) — A man thought to be a pauper left a legacy of \$100,000 for persons in two countries to scrap over. And it's a real legal donnybrook.

Frederick Tallenbach, a native of Switzerland, died at 86 in Tampa nursing home April 19, 1958. He had lived for several years in a small hotel on Tampa's sidewalk.

An attorney was retained by Tallenbach's heirs to look after Tallenbach's affairs after he was judged incompetent. The attorney searched Tallenbach's room and found stocks and bank accounts worth more than \$100,000.

Most of Tallenbach's savings had been invested in Eastman Kodak, his employer in Rochester, N.Y., for many years. Much of the stock was bought during depression years.

The attorney found a will, worthless in Florida because he hadn't been witnessed—saying the money should go to a brother in

Geneva, Switzerland. No address was given.

Tom Fairchild Brown, the attorney, began a search. About the same time Altshuler Genealogical Services of Boston, a firm which specializes in locating lost heirs, heard of the case and also began searching.

So far, 11 heirs—sons and daughters of Tallenbach's brothers and sisters—have turned up. Altshuler located several of them and entered into an agreement with seven of them that it would tell them where to get the legacy in exchange for 40 per cent of their shares.

When the Swiss government heard of the agreement, it entered the case. Several of the seven have tried, with their government's support, to back out of their agreement.

All—the Swiss government, Altshuler, the heirs, Brown, the landlady and several creditors—have filed arguments with County Judge James Bruton. While the judge hopes to divide up the estate soon, the attorneys say that no matter how he does it, someone will appeal the decision.

Celebrates Safety Week

TARA, Japan (UPI) — Police today disclosed the case of traffic policeman Shinji Yamaguchi, who celebrated well but not wisely the end of National Safety Week Oct. 20. He was arrested for speeding, drunken driving, driving without a license and then was freed from the force.

Oct. 23rd thru 28th is

Accuses Three Others on Force

Owosso Policeman in Trouble Over Bribery Implicates Co-Workers

OWOSSO (AP) — A veteran city policeman, arrested by his own chief for allegedly accepting bribes to aid burglaries, today implicated three other members of the police force.

Lt. Clifford Tonnaciff, 49, a veteran of 25 years service on the Owosso police force, waived preliminary examination at his arraignment in Municipal Court last Friday and was bound over to Shiawassee County Circuit Court for a hearing Nov. 29.

Today, Tonnaciff, who is free on \$10,000 personal bond, implicated three police co-workers he charged had worked with him in alleged burglaries.

Two of the men implicated — Capt. Charles E. Leiner, 42, and Walter T. Mole, 41 — were discharged. The third — Capt. Alvin A. Owen, 54 — resigned.

County Prosecutor Norman Van Epps said the three had admitted they burglarized business establishments here when they were patrolmen. Epps said the admitted burglaries date back to 1946 but that none were more recent than 1953.

Because of the statute of limitations by which a person cannot be prosecuted for a crime if he has not been charged within six years of the time the crime was committed, Van Epps said no legal action would be taken against the three men.

Tonnaciff's arrest, which led to today's dismissals of the police captains, came after an investigation linked him with an attempted bar robbery in downtown Owosso Oct. 2. Two men were arrested at the time.

Owosso Police Chief Ted Rice, on the force 30 years, personally created Tonnaciff, accusing him of acting as a "finger man" for burglars and being paid \$140 for this as bribes.

Rice said Tonnaciff, the father of seven children, told him he used the money to pay family doctor bills.

Says Reds' Big N-Bomb Should Wake U.S. Up

WASHINGTON (UPI) — Rep. Chet Hoffield, D-Calif., said Wednesday he hoped the Soviet nuclear test would show "unlike people" in the State Department and Administration that they can't afford to let world opinion hinder U.S. weapons development.

Hoffield, chairman of the Senate-House Atomic Energy Committee, said in a radio interview that Russia's 30-megaton bomb explosion should "serve as a warning" to the United States.

Tentative Meeting Set by German Parliament

BONN, Germany (UPI) — The West German Parliament will meet tentatively next Monday to elect the new chancellor. The present chancellor, Konrad Adenauer, was certain to be named.

Parliamentary Speaker Eugen Gerstmaier sent telegrams to the 521 deputies to be prepared to come to Bonn Monday. He said he will send a second message when the date is finally set.

State Dept. Announces Nehru's Travel Plans

WASHINGTON (UPI) — The State Department announced Wednesday that Indian Prime Minister Jawaharlal Nehru would visit

Los Angeles on Nov. 12 and Mexico City on Nov. 14.

Nehru is due to arrive in New York City Nov. 5. He will go from there to Hyannis Port, Mass., to meet with President Kennedy, and then come to Washington.

Nabbed Taking Picture

Allies Warn Khrushchev and Chou in Albanian Dispute

EDITOR'S NOTE: New significant is the Albanian dispute in the Balkans. What influence might the Albanian dispute have on the West? In dealing with the West on the AP staff, covers these points in a comprehensive story on Albanian relations.

By JOHN M. HIGHTOWER
WASHINGTON (U) — Rumors are circulating in Western diplomatic quarters that the Soviet Union may force Albania out of the Communist bloc's Warsaw Pact.

These rumors are being carefully noted by U.S. and other Allied officials and suggest the possibility that the Communist camp is grappling with its worst internal crisis since 1948.

INTERNAL CRISIS:
In its quarrel with Moscow, which broke wide open at the current Communist party meeting in the Soviet capital, Albania has the support of Red China. The struggle between the Soviet Union and Red China presumably has been intensified by the Albanian dispute.

Albania, in itself, is relatively insignificant. But as a pawn in

the struggle between Moscow and the United States, it could be critically important.

Authorities here are uncertain what the Chinese Communist leaders will do if Soviet Premier Khrushchev decides to expel Albania from the Warsaw Pact. But they think it possible that Khrushchev feels the time has come for a showdown with the Red Chinese.

Washington authorities doubt that the intensified strain between Moscow and Peking will have any decisive influence on Khrushchev's strategy in dealing with the Western powers over the Berlin crisis. But they do not rule out the theoretical possibility that the dispersion within Communist ranks might cause Khrushchev to go more slowly toward a showdown with the West.

AN UNDERSTANDING:
The Soviet premier told the Moscow party congress last week that he would not insist on signing a separate peace treaty with East Germany before the end of the year. He linked this to a statement that the Western powers had displayed a "certain understanding" of the Berlin problem, indicating that it might be possible to arrive at a negotiated settlement.

Khrushchev's speech in this respect, and, indeed, its dominant tone, is regarded by officials here as having been reasonably restrained. The restraint on Berlin, however, was offset to some degree by his announcement of plans to explode a 50-megaton nuclear bomb and by the emphasis placed by other speakers at the congress on Soviet military prowess.

Among all the developments at the Communist session, U.S. officials are obviously most deeply intrigued by the extent and future implications of trouble within the Communist bloc. The row between the Soviet Union and Red China is an old story going back several years. But the rumor of an outright break between Moscow and a European Communist country, even small Albania, is a new element in the feud.

The last time there was such a break was in 1948 when Yugoslavia fell into disagreement with Stalinist leadership in the Kremlin and was kicked out of the international Communist organization, the Comintern.

CHOU TO RETURN?
The possibility that Khrushchev feels the time has come for a showdown with the Chinese Reds may explain why Chinese Premier Chou En-lai left the Moscow meeting and flew to Peking four days ago. It was indicated that he would return to Moscow before the meeting ends, probably early next week. U.S. officials are very interested to see whether he will. The struggle between the Soviet Union and Red China is considered here to be centered on the issue of which of the two major Communist powers is to exercise a controlling voice in the formation of bloc policies. This, in turn, is related to their basic and, in Washington's view, conflicting national interests.

Red China is still in an early stage of industrial development, under the Communist system of centralized planning and control, which the Soviet Union passed through a quarter of a century or more ago. The Red Chinese do not have nuclear weapons, and the assumption here is that they do not understand, as leaders in Moscow understand, the devastation which would result from a nuclear war. They have a massive and expanding population, and are assumed to need additional territory at some time in the future.

One of the specific issues which has come into the open in the course of the Moscow-Peking

quarrel is the issue over the use of war as a means of promoting the Communist theory of the inevitability of war must still be considered in a world of expanded peaceful co-existence and this stand somewhat last winter officials at the time as a kind of concession to the Red Chinese.

Issue Warning to Electra Pilots

Airline Sees Chance That Crash Was Due to Boost System Failure

WASHINGTON (UPI) — Electra pilots have been cautioned to stay alert for any possible failure of the hydraulic boost system that helps move the controls, it was learned today.

The warning apparently is based on a growing suspicion that a hydraulic boost malfunction, similar to power steering suddenly failing on an automobile, may have caused the crash of a Northwest Airlines Electra at Chicago Sept. 17 in which 27 persons were killed.

American Airlines, five days after the accident, ordered pilots to open the floorboard covering over the hydraulic boost disconnect handle during all take-offs and landings. This enables the flight engineer to disconnect the boost system immediately on the captain's command.

The Federal Aviation Agency (FAA), on Sept. 29, followed up American's action with a recommendation that other airlines flying Electras follow similar precautions. FAA's "alert" was not mandatory, which indicated the boost theory was only a possibility and there was no need for more drastic action such as grounding Electras. All Electra operators were understood to have put the precautionary move into flight manuals.

The Civil Aeronautics Board (CAB), whose investigators still are working on the Chicago crash, declined comment. But enough was revealed at the recent CAB hearings on the accident to indicate that the hydraulically operated controls of the Northwest plane may have locked immediately after take-off from Midway Airport.

Any such mishap could be corrected by disconnecting the boost system and flying the ship manually. But flight engineers previously had complained that the disconnect lever is under the cockpit floorboard and may be difficult to reach quickly in an emergency.

To Propose Economy Planning Confabs

WASHINGTON (AP) — Regular conferences of top civilian and government leaders to chart annual goals for the entire American economy soon will be proposed to President Kennedy by his labor-management advisers.

The idea is to suggest limits and guidelines in such sectors as government spending, business investment and profits and wages and prices, in the hope the recommendations will be followed to insure stability and steady growth. The plan is to put more pressure on the "hold the line" appeals voiced by Kennedy and his recent presidential predecessors while still avoiding a controlled economy.

While everyone would remain free to make his own economic decisions, it is felt that all would be somewhat more morally bound to act responsibly within the publicly stated economic goals.

Smiling Farmer at U.S.'s Center

CENTRALIA, Ill. (AP) — Fred Kleiboecker is a typical Midwestern farmer. He also may be the epitome of the hospitable American.

When the government mathematically placed the center of the nation's 1960 population in his cow pasture, he greeted the sudden influx of tourists with a smile. He termed it progress when the tourists and began laying pipeline across his bean patch.

SHIPPING SOIL AWAY He continued to smile when the Girl Scouts began packaging his valuable soil to ship it throughout the country.

And Kleiboecker is expected to be smiling on Monday when Gov. Otto Kerner of Illinois and other dignitaries march across his barnyard to dedicate a monument at the center of population.

Kleiboecker, 46, whose 160-acre farm suddenly was thrust into the national limelight by the Census Bureau in April, treats the distinction with humor.

"The little black marker they put out there is down in a hole deep enough so that my plow won't hit it," he said. "I guess the colony of crickets that took over the hole is as interested in it as the visitors."

COINCIDENCE? It might be more than coincidence that Mississippi River Transmission Corp. and Natural Gas Pipeline Co. of America chose Kleiboecker's farm on which to

It is one of several sets of recommendations due to be submitted to Kennedy when the 21-man advisory group, made up of public, business and labor representatives, meets here again late next month.

The advisory panel, headed by Secretary of Labor Arthur J. Goldberg, has four other subcommittees readying reports for the White House on such subjects as "free and responsible collective bargaining and industrial peace," "economic growth and unemployment," "productivity and higher standards of living" and "policies to insure American products are competitive in world markets."

COMMITTEE MEMBERS Prof. George W. Taylor of the University of Pennsylvania is chairman of the subcommittee on "sound wage and price policies." Members include such businessmen as Henry Ford II and labor leaders George Meany and Walter Reuther.

The wage-price report is also said to affirm the principle that wages and salaries, including the

fringe benefits such as pensions, insurance and so on, should move roughly in step with productivity. But it will stress the principle cannot be adhered to rigidly in every case.

The report headed for Kennedy's desk next month also is understood to suggest that labor and management avoid using up all productivity gains — that some prices must be brought down to

share fruits of greater efficiency with the consumer.

If the proposal to hold annual goal-setting economic conferences is put into effect the result inevitably will be greater government planning—but planning depending upon voluntary rather than compulsory compliance, and planning accomplished as a joint government-civilian enterprise.

Successful Ruse Regains Keys to Parking Meters

ATHENS, Tenn. (AP) — City Hall was burglarized recently and among the loot was a ring of keys. City Manager Bill Garrett de-

scribed the stolen keys as "old and of little, if any value" in a news account of the crime.

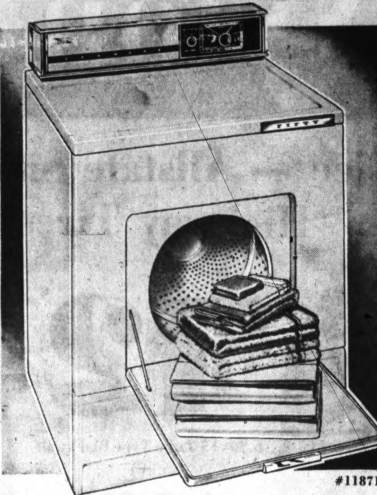

A schoolboy spotted the keys on the bank of a creek and they were returned to Garrett Wednesday. Elated that his ruse worked, Garrett announced: "They fit the locks on every parking meter in town."

Landslide Buries Train; at Least 14 Die, 34 Hurt

TOKYO (AP)—A landslide buried a one-coach passenger train today, killing at least 14 persons and injuring 34 others in Oita Prefecture, Southern Japan, police reported.

Heavy rains were reported lashing southern Japan.

Police said railway workers, policemen, fire fighters, and members of the Japanese armed forces were rushed to the scene of the disaster.

Witch Doctors Right All Along

Medical Men Hunting Rare Plants and Herbs for Curative Powers.

WASHINGTON (AP) — Don't discount the value of a witch doctor.

Medical researchers are stepping up their worldwide search for the rare plants, herbs and barks used by witch doctors, says Medicine at Work, publication of the Pharmaceutical Manufacturers Association.

It began about 1950 when American and Swiss scientists came across "rasnells" growing in Africa and India. Investigation of reports that natives chewed the plant's roots to calm themselves and overcome certain types of mental depression revealed a chemical called reserpine, which proved effective in easing hypertension.

Annual sales of plant-produced drugs now total about \$200 million, a five-fold increase in the last 10 years, says Medicine at Work. One company recently sent a pharmacologist into a Congo rain forest on a seven-month, 11,000-mile safari in search of a natural source of cortisone. Another instructed its worldwide network of employees to keep a watchful eye on the medicines of local witch doctors.

Michigan Farm Bureau to Study Con-Con Ideas

LANSING (AP)—With a bit of good timing the Michigan Farm Bureau should be able to hammer out its proposals and weld them into a united front to present to the constitutional convention.

The bureau will hold its annual meeting in Kellogg Center at Michigan State University Nov. 8-10. The meeting usually is held in

the fall—after the legislature and Congress have adjourned—giving members a chance to assess new farm legislation and take a stand, one spokesman said.

EYES OTHERS' PLANS

It also sets the stage for future proposals or stands it will take on measures other organizations might adopt.

By the time the farm bureau winds up its activities, con-con committee may well be in high gear—forging the proposals that will be voted on by 144 delegates and eventually all Michigan voters.

The state meeting usually is preceded immediately by a series of county meetings.

The bureau already has taken a stand on a plebiscite legislature, the 15-mill tax limitation, strengthening local governments, retention of present two-year terms for county and township officials.

The bureau would be willing to compromise some in the present districting in the House of Representatives, a spokesman said, but still would be reluctant to see a concentration of power.

Once opposed to the earmarking of funds, the bureau has stopped objecting, recognizing it as a part of Michigan life now, he said.

Many of the bureau's previous resolutions will be discussed, reaffirmed and maybe changed, he added.

Will Give Final Performances of 'Kiss Me Kate'

ROCHESTER — Final performances of the Avon Players' first musical, "Kiss Me Kate" by Cole Porter, will be given tomorrow and Saturday nights.

Curtain time is 8 p.m. both nights at Central Junior High School.

The plot of the production is from Shakespeare's "Taming of the Shrew." It centers around a frustrated father's attempts to find a mate for his older daughter, a vituperative shrew, so his more popular younger daughter can marry one of her many suitors.

Principal players are Adele Carragher, Roy Winslow, Jo Anne McVeigh and Alan Miller of Royal Oak.

Music from the Broadway hit includes the melodies, "Why Can't You Behave," "So in Love," and "Wonder Bar."

Tickets may be purchased from any member of the players, at Purdy's Drug Store or at the door.

AREA NEWS

Elmwood School Sets Fall Fair

PTA Sponsoring Event Which Starts at 5 P.M. Tomorrow

AUBURN HEIGHTS — A carnival atmosphere will prevail at Elmwood Elementary School tomorrow night when the Parent-Teacher Association stages its annual school fair.

The kitchen will be open to serve meals and the hay rides will be ready on the playground both at 5 p.m.

Every classroom will be transformed into a booth or game room where all kinds of sales will be conducted and special activities are planned. All will be open at 7:30 p.m.

The booths will feature such items as canned and baked goods, white elephants, dishes, jewelry and plants.

Games will include ring toss, a fish pond, "Dig for Gold" and darts.

Highlight of the annual event will be the coronation of a king and queen about 7 p.m. Each classroom has picked its own pair of candidates for the coveted crowns.

The winners' names will be drawn out of a hat and their majesties each will be given a trophy.

School Principal George E. Shackelford is fair chairman. Mrs. John W. Freeland has charge of publicity.

Proceeds will go toward PTA projects yet to be decided.

Avon Businesswomen's Club

'Remodeled' Style Show in Rochester on Nov. 9

ROCHESTER — The 17-member Avon Business and Professional Women's Club will stage a fashion show, "Fads and Fancies," here Nov. 9.

Produced by Goodwill Industries of Detroit, the show will feature top area models wearing feminine

fashions popular throughout the last century.

It will be held at 8 p.m. in the Central Junior High School.

Every dress, accessory and prop used in the production has been remade or refurbished by handicapped men and women of the Goodwill organization.

Under the direction of Mrs. Helen M. Lipka, Goodwill's promotion director, the show has run for the past eight years and has been featured at the Michigan State Fair, said Mrs. Willena Friend, chairman of the local presentation.

Proceeds from the production will be divided between the club's scholarship fund and the Rochester Unit of Cretifont General Hospital Fund. Mrs. Betty Croteau, show chairman, explained.

Tickets for the show may be obtained from club members, at First Federal Savings and Loan Association of Oakland in Rochester, or at the door.

Berkley Boy's Death Is Ruled an Accident

BERKLEY — The death of a 12-year-old boy here, which at first was thought to be suicide, has been ruled accidental strangulation, according to Berkley police.

Dennis Hachey, son of Mr. and Mrs. Rudolph D. Hachey of 1881 Franklin St., was found by his brother Daniel, 14, Tuesday evening on the floor of the bedroom where he shared.

A necktie was knotted around his neck. The other end of the tie was wrapped around a bed post of the upper tier of the bunk bed which Dennis used.

The parents of the boy said he had been sent to bed early because of a cold.

Dennis was dead on arrival at William Beaumont Hospital despite efforts of his father and a fire department resuscitator crew to revive him.

SPEAK AT BANQUET—These three men were featured speakers at a banquet last night honoring some 100 cooperative extension workers in Oakland County. They are (from left) Lee H. Clark, chairman of the cooperative extension committee; C. Allen Harlan, member of the board of trustees at Michigan State University;

and Arno L. Hulet, chairman pro tem of the county board of supervisors. The affair was held at Michigan State University Oakland. Appreciation for the jobs done by the volunteers also was expressed by Harold J. Foster, district extension director.

Refers Action to CD Director

Troy School Board Rejects Fallout Shelter for School

TROY — The board of education has officially rejected Civil Defense Director Clarence F. Long's proposed fallout shelter for the 170 children at Colerain School.

In a letter sent to the City Commission, the board referred action on the \$37,000 shelter back to the director. The shelter was originally proposed without the commission's approval.

Dr. Rex B. Smith, school superintendent said that the board's recommendation covers two main points.

It asks that such a structure be constructed not for school children alone but for community use as well.

ROOM UNAVAILABLE

It also points out that room for the shelter is not available at the Colerain school and that the site's water table is too high for construction of an effective shelter.

John P. Diefenbaker, principal of Baker Junior High School, has been named to represent the board on Troy's five-man civil defense study committee. The committee was formed Monday to establish a CD administration policy and organization for the city.

Diefenbaker will serve with Mayor Robert J. Huber, Mayor Pro Tem Vincent J. McAvoy, City Manager David E. Firestone and Long.

Other duties of the committee are to iron out differences of opinion on civil defense organization, authority and procedure and to recommend a workable program to the commission.

Pontiac Press Photo
IN MSU COURT — Romeo Peach Queen of 1950, Lorelei Hoxie of Armada, has been named a member of the queen's court for Michigan State University's homecoming celebration Saturday. She is the daughter of Mr. and Mrs. Lyman Hoxie of 74241 Burk St. Queen is Kim Larlee, junior from Mt. Clemens.

what's new?

everything but the name!

You've heard rumors, talk, guesses about an altogether new kind of Ford to be announced in a few weeks. Now here are the facts. You will want to consider them carefully, because *this car is like no other new car you've seen this year*—unique in size, unique in price, unique in the advantages it offers you. Body, engine, transmission, suspension—the very proportions of the automobile—everything is completely new, everything but the name. We sincerely believe it will be one of the great Fords of all time.

Right size, right price right between Galaxia and Falcon

The name is both familiar and famous. We have called it the Fairlane 500 after one of the most popular Fords ever built—but only the name is the same. In every other respect nothing's borrowed, everything's new.

Just right for just about everybody, the newest of Fords is in a class by itself. It will bring you big-car room, luxury and performance in a car that competes with the compacts in price and economy. It is priced well below the Fords that used to bear its name. It is priced under many compacts.

New unitized body shaves bulk...saves room

As a first step in building the new Fairlane, Ford engineers took a fresh look at the proportions of the American automobile—and realized it was time to change the relationship between inside room and exterior size.

They started with a full-size passenger

compartment. They would not settle for less—because this was designed to be, above all, a fine car.

At the same time they wanted to get rid of all automotive fat—those extra inches of steel that make some cars hard to park and expensive to run.

The solution: a completely new unitized body that gives you room on the inside and eliminates bulk on the outside.

New room, new comfort, new luxury

On the inside the new Fairlane 500 is actually bigger, roomier than the majority of the cars on the road today.

On the outside everything is different. With one foot less to park, the Fairlane 500 is the trimmest, sleekest automobile you have ever seen or driven.

Inside and out, it is in every respect a fine car, giving you every essential and every important luxury you want in full-size fine cars. Even the smallest details have been planned for precision: there are knobs you don't bump your elbows on, ash trays that don't squeak, controls that

are easy to the touch, nice places for your elbows to fit.

Twice-a-year maintenance

Routine service has now been reduced to a minimum—30,000 miles on many items, no more than twice a year or 6,000 miles on all other maintenance items.

The new Fairlane 500 will travel 30,000 miles between oil changes and minor lubrications. You go two years, or 30,000 miles, without changing engine coolant antifreeze. The car adjusts its own brakes, saving you those time-wasting little trips to the garage.

Introducing the world's first economy V-8

A new foundry technique, perfected by the world's largest maker of V-8's, made possible a completely new V-8 engine of precision-cast iron, almost as light as engines made of less economical, less durable lightweight metal. Developed exclusively for the new Fairlane, the new Challenger V-8 is the world's happiest combination of performance, economy and durability. Its motion

is crisp and quick and eager... its thrift is a delightful surprise.

If you're looking for even greater savings, your natural engine choice would be the new Fairlane Six. Designed by the engineers who built the record-breaking Falcon, it establishes a new standard of economy for full-size cars. Many compacts would envy its gas mileage figures.

The first of a new generation of automobiles

America's newest car has much to offer that you have never seen before. You have seen cars that were supposed to be in a new class—the intermediates—but which turned out on closer inspection to be slightly enlarged compacts or somewhat abbreviated big cars. The car you haven't seen yet is the first fine car that puts economy first. It will be at your Ford Dealer's in a few weeks. Be sure to see it then—it's quite a car.

JUST RIGHT FOR JUST ABOUT EVERYBODY!

MRS. FRANK KRUGER

Sharon Fournier Speaks Nuptial Vows

HIGHLAND TOWNSHIP—Christ Lutheran Church, Milford, was the setting for the recent wedding of Sharon Kay Fournier and Frank G. Kruger. Rev. Donald Simon officiated.

Parents of the bride are Mr. and Mrs. Raymond Fournier of 1693 Duck Lake Road. The bridegroom is the son of Mr. and Mrs. Frank Kruger, 258 Angola St., Walled Lake.

The couple was attended by Marilyn Collins of Milford as maid of honor and Edward Brinker as best man.

Given 'Til Nov. 15 to Estimate '63 Defense Budget

AVON TOWNSHIP — The township board will have to come up with an estimate of its 1963 civil rector Charles Morell warned last defense budget by Nov. 15, CD Di-

night.

The board must file an estimate of its needs for that year with the state Office of Civil Defense in order to qualify for federal matching funds.

An estimate of monies to be

used for CD equipment in 1963 does not obligate the township to use the money, Morell explained. It is used by Congress when matching appropriations are set aside for the states.

He pointed out that even if the joint CD ordinance with Rochester is passed this grant will be needed and could be prorated for the village.

Morell said that Rochester also has an application for the federal funds and that action on both grants must be filed before Nov. 15 with the state Office of Civil Defense.

TIME NEEDED

Supervisor Cyril E. Miller set Nov. 5 as the date for the township's estimate to be made on the grounds that time is needed to coordinate this action with that of the Rochester Civil Defense group.

The Board of Trustees approved a change in its regular meeting dates. The first and third, instead of second and fourth, Wednesdays in December are set for the board sessions.

An insurance company will act as consultant for the board in its investigation and of the needs of an employee pension plan.

The company, Johnson & Higgins, Detroit, will be paid a consultant's fee of \$500 to draw up specifications of the policy and to find companies suitable to bid for the contract.

The pension plan is intended to cover all full-time township employees and costs will be shared by the township and employee.

AREA NEWS

Bible Meeting Is Set Sunday

All-Day Conference to Start at 9:45 A.M. in Davisburg

DAVISBURG—The annual all-day public Bible Conference at the First Baptist Church here will be held Sunday beginning at 9:45 a.m., according to Rev. Jack A. McCurry, pastor.

The speaker for the initial program and 11 a.m. worship service will be Dr. Henry Brandt, psychologist and author from Detroit.

At 12:30 p.m. a luncheon will be served by the Women's Missionary Guild.

Dr. Cedric Sears, pastor of the North Baptist Church in Flint and former vice president of Youth For Christ International, will be the speaker at the 2 p.m. service.

A vesper hour of Christian music and verse has been scheduled for 3 p.m. Speaking at 4 p.m. will be Dr. Charles Shaw, professor of the Old Testament and dean of the Evening School of the Detroit Bible College.

Light refreshments will be served at 5 p.m. The evening inspiration service will feature Dr. Shaw presenting films of the Holy Land where he was a missionary for 20 years.

Music for all the services will be provided by Rev. and Mrs. James Lancaster and a musical group called "The III Talents" from the Grand Rapids Youth for Christ music department.

Morse PTA to Hold Festival Saturday

TROY — Boots that are now too small for growing children can be exchanged for a pair the right size at the Morse Elementary School Parent-Teacher Association Harvest Festival Saturday.

The boot exchange booth is one of the features of the event which will open at noon and continue until 4 p.m.

Items for sale will include home canned goods, pumpkins, handwork, Christmas cards and gifts, baked goods, plants and fresh fruits and vegetables.

Heads Planning Unit at Wolverine Lake

WOLVERINE LAKE — Albert Lawrence of 2146 Newport Court has been named president of the

recently established five-member village planning board.

Others appointed to the board are Mrs. R. A. Hammer, John Pritchard, Warren Williams and Village Clerk Mrs. Jessie Johnson. Mrs. Hammer was elected vice president and Williams was elected secretary of the new organization.

Plan Service Sunday

TROY — Reformation services will be held at the Big Beaver Methodist Church Sunday. Rev. Albert E. Hartog, pastor, will preach on the subject, "What Do You Mean—Church Union?"

Troy Blue Star Mothers Plan Benefit Luncheon

TROY — A card party and luncheon will be sponsored Monday by the Troy Blue Star Mothers' Chapter 37 at the Women's Guild at the Clawson Shopping Center.

The card games will follow a 1 p.m. luncheon. Home baked goods will be on sale. Proceeds from the event will be used to send Christmas gifts to servicemen from Troy.

In Congo, Limousines for a Few, Shacks for the Many

Limousines for a few, shacks for the many. The first cargo of tin has moved down the river to Leopoldville and on by rail to Matadi. Agriculture is lagging far behind.

RIVERS BUSY AGAIN

River traffic on the Congo, once blocked because of the first few weeks of the rainy season, is again in operation.

LEOPOLDVILLE, the Congo (AP)—The jacaranda and frangipani trees are bursting into gorgeous blossom, but not much else is blooming in the Congo.

Leopoldville today is a city where the fragrance of tropical spring flowers blends with odors from a decaying sewage system.

It is a city where a few Congolese in past in shining limousines and thousands are without jobs. As in so many other recently freed African colonies, a new affluent class of government employees is being formed.

The reconciliation between the Communist-supported Stanleyville regime of Antoine Gizenga and the Leopoldville government is hardly skin deep. The hearts that harbor hopes of peace are matched by others hardened by tribal distrust and political hate.

SLOW DETERIORATION

A slow deterioration is reported from other provinces. In Stanleyville, diplomatic reports say, water and light facilities are faulty. Garbage collection and street cleaning have been practically abandoned.

In Kivu and Equator provinces the larger plantations are beginning to resume operations, but smaller ones are being slowly throttled by jungle vegetation. In Equator, it is reported, the seed rice has been eaten and there cannot be another harvest until 1963.

The central government continues to live on borrowed money. Its deficit runs about \$16 million monthly. A good deal of this money goes to pay salaries to government employees, including the army. The Congolese have waited a long time to reach the white man's standards of living and they want it all at once.

What they are seeing instead is a sharp increase in wealth and living standards for a few thousand Congolese employed by the government and the same old shacks and dirt roads for themselves. Something of the same development is taking place in other newly independent countries of Africa such as Ghana, Guinea, Nigeria and former French colonies.

HIGH PERCENTAGE

United Nations figures show that wages for Africans employed by the central government and provincial administrations (excepting Katanga) in 1959 were about 11 per cent of the total national income. In 1961, the first full year of independence, these wages will represent at least 3 per cent of the total national income.

There are some signs of improvement, but everything in the Congo depends on the tense political situation. As a nation, the old Belgian colony cannot survive unless Katanga with its immense copper profits comes back into the fold.

Whites, mostly Belgians, have been pouring back into the country and they may succeed in giving impetus to the economy. Stanleyville, once down to a few score whites, now has approximately 1,000. Before independence there were 4,000 Europeans in Stanleyville.

In Leopoldville, hotels are crowded and some are forcing patrons to double up in their rooms. Many of the old villas and apartments have been taken over by newly rich Congolese. Belgians hesitate before moving into suburban homes too far from police

protection. Villas outside Leopoldville have been subjected to repeated burglaries.

Pooch Is Bone of Contention in Divorce Case

MOUNT CLEMENS, Mich. (AP)—Miss Hermine Schultz—a sad-eyed dachshund known to her intimates as Hermine—proved the bone of contention in a divorce suit here.

Billy D. Phillips Jr., 36, a salesman, and his wife, Marilyn, 35, obtained a divorce Monday.

Mrs. Phillips told the judge: "Mothers usually are given custody of the children. Since there are no children in this case, I would like custody of my pet."

Phillips protested that he wanted the dog.

Judge George Deneoeweth ruled Hermine will live six months with Mrs. Phillips and the other six months of each year with Phillips.

Wolves, lions and tigers seldom fight strenuously among themselves, because their injuries would be severe. But many meek animals like rabbits have not learned the technique of ritualistic aggression. They fight to the death.

GIFTS AND TALKS — In picture above, Secretary of State Dean Rusk receives an armful of gifts for President Kennedy from Samuel Akintola, premier of Western Nigeria. Akintola called on Rusk at the State Department in Wash-

ington. In lower picture, President Kennedy (in rocking chair) and Prime Minister Cheddi Jagan of British Guiana talk together in the President's White House office.

Dems Introduce Reshuffle Plan

Reapportionment Proposals at Con-Con Call for Unique Voting System

LANSING (U)—Democratic delegates to the constitutional convention made a formal pitch today for reapportionment of the Legislature on the basis of population.

Introduction of two proposals calling for a unique voting system in both the House and Senate touched off what is certain to be one of the hottest issues of the convention.

Democrats have set reapportionment of the Legislature, now under Republican control, as one of their major goals.

Tom Downs, a convention vice president and Michigan AFL-CIO representative, and William C. Marshall, a state AFL-CIO vice president, led the six Detroit area delegates who submitted the measures.

It would give to each senator and house member votes equal to the combined vote cast in his district at the last election.

"We've been kicking this idea around in the union for about 20 years," said Downs. "We think it's a fair and equitable system, and practical, too, with the development of electronic voting machines."

If two lawmakers were elected from one district, each would receive votes equal to half the total vote cast.

Companion Democratic proposals would decree that the population of House districts could not vary by more than 2,500. Senate districts by more than 4,000 and congressional districts by more than 5,000.

The con-con committee calendar today includes:

Administration—1 p.m.
Education—10:30 a.m.
Executive branch—4:30 a.m.
Judicial—8:30 a.m.
Legislative powers—10:30 a.m.
Rights and elections—3 p.m.
Rules and resolutions—10:30 a.m.
Finance and taxation — after plenary session.

Miscellaneous provisions and schedules (subcommittee) — 10:30 a.m.

WHERE SIX DIED—Six men died in the collision of a Milwaukee train, carrying members of the Wisconsin National Guard, and a gravel truck working on the I94 highway in Montana, Wednesday morning. (Bottom) Twisted steel is all that is left of the truck driven by Louis Everling, Terry, Mont, father of five, who died in the crash along with five Pullman car

employees. (Top) An aerial view shows some of the eight cars which were derailed in the crash, 3 miles east of Miles City, Mont. Twenty-five guardsmen and three other trainmen suffered slight injuries in the accident. The movement of the National Guard units, comprising the 32nd Red Arrow Division, continued to Ft. Lewis, Wash., today.

52 FRANKLIN BOULEVARD
City of Pontiac

In pursuance of provisions contained in Miscellaneous Resolution No. 265 adopted by the Oakland County Board of Supervisors on September 11, 1961, the following described property is hereby offered for sale on the following terms and conditions:

TERMS AND CONDITIONS OF SALE:
The sale shall be conducted directly upon a sealed bid basis. Minimum acceptable bid shall not be less than \$15,000.00. A good faith deposit must accompany each bid, such deposit to be a certified check in an amount not less than 10% of total bid submitted. Checks are to be made payable to the Oakland County Board of Supervisors. Bids submitted by the unsuccessful bidder will be promptly returned. Within 10 days from date of sale the County will furnish the successful bidder, for his examination, an abstract of title showing a marketable title to the property. Within 30 days from date of sale bidder will be required to make an additional deposit of not less than 10% of total bid and enter into an agreement to pay the entire amount owing within 60 months plus 4% interest on the unpaid balance. Possession of the premises shall be given on the date such agreement is entered into. Bids will be received at the following address up to 10:00 a.m. E.S.T. November 1, 1961, at which time they will be publicly opened and then referred to the Buildings and Grounds Committee of the Board of Supervisors for their consideration and passing of the successful bidder, or the rejection of any or all bids submitted.

Australian Shark Menace Being Wiped Out by Nets

SYDNEY, Australia (UPI) — Australia's most densely populated state — New South Wales — appears to have found the solution to a problem that has plagued man for centuries — the fear of shark attack.

Since 1937, the New South Wales Department of Local Government has operated a scheme of systematic shark meshing off selected beaches in the Sydney area. Now, after 24 years, the system appears to have been almost 100 per cent effective.

The operation is simple. Huge seine nets — 200 feet long and 20 feet deep are laid in pairs parallel to the beach just outside the last line of waves. The nets vary from 20 to 40 inches in mesh and are made of imported hemp — usually from Japan.

The "lead line" is heavily weighted to keep it on the bottom, while large glass floats tied every few yards along the "bubble line" keep the net upright. When set, the nets have the effect of a high fence extending along the sea bed. Heavy anchors at the extremities of the net hold it firmly in position.

The nets are hauled in and reset each day by the government's shark meshing contractor. When bad weather is expected,

the nets are brought ashore until calm weather returns.

As with all fish, once a shark has hit the net, it's just a matter of time. The more the shark struggles the more firmly it becomes entangled in the net. The sharks eventually become exhausted and drown.

The contractors usually are professional fishermen, their craft small trawlers in the 30 to 50-foot group. Plenty of deck space is required to carry the bulky nets. Contractors work on a three-year basis, after which new bids are called for by the government.

Many people regard shark meshing as ineffective and a waste of public money.

What was to stop sharks swimming over the tops of the nets, or moving in from the sides, close to the beach? The beaches were meshed on a rotation basis and all beaches did not have full seven-day-a-week coverage. And what was to stop the sharks moving in when the nets were ashore?

However, after two years of study of all aspects of the operation, many are firmly convinced that shark meshing is the answer to shark attack.

6-HOUR AFTERNOON and EVENING TIRE SALE

On Friday, Oct. 27, from 3:00 p.m. to 9:00 p.m., we will hold a gigantic Tire Sale never before equalled in this area.

We guarantee you a tremendous savings on Firestone tires . . . whitewalls, blackwalls, nylon, rayon, tubed type or tubeless. We have your size on sale at tremendous discount. Alma Buys Property for Industrial Park

ALMA (AP) — Backing up the slogan "Alma means business," this central Michigan community has purchased 44 acres of prime industrial property for an industrial park.

Benjamin Simon, secretary of the Alma Industrial Development Corp., said the property will be available to new business and industry located in the city.

The property, purchased from the Michigan Sugar Co., is within the city limits, has water and sewerage service and is served by two railroads.

This Donor Could Open Blood Bank of His Own

BUFFALO, N. Y. (UPI) — Giving blood is a major hobby of Joseph A. Wurser, a detective sergeant in the Police Auto Bureau.

Since he began donating blood during World War II, Wurser estimates he has given about 75 pints—or well over nine gallons.

Slavery was ordered abolished in Brazil in 1888.

Ask Con-Con to Use Care on Civil Service Changes

LANSING 6P — Michigan's constitutional convention was advised today by two of its Republican members to think carefully before making any changes in the state's civil service setup which might return the state to the old political spoils system.

The advice came from Dr. James K. Pollock of the University of Michigan political science department and Mrs. Dorothy Judd of Grand Rapids.

It was seconded by F. K. De Wald, personnel director of the Michigan Civil Service Commission.

Mrs. Judd, recalling the spoils system under which most state jobs were distributed before the advent of civil service, contended that the latter has not been perfect.

But she added: "I want to express the urgent need to examine every proposal for change to make certain that it is not a step backward into the spoils system."

"In our day, we can ill afford the high costs of the patronage system in dollars, in poor services, or in injustices to the thousands of men and women who work for the state."

RANK 1-2

Dr. Pollock, one of the nation's leading authorities on civil service systems, said that Michigan and California rank 1-2 among all the states of the union in this respect.

He said, "The burden of proof is on those who want to change it and I have not found any of those people yet."

Dr. Pollock questioned whether the legislature was better able to fix salaries for state employees than the commission is.

"It is not sound to have the legislative body determine administrative salaries," he said. "I think Michigan civil service has done a magnificent job in getting people, setting salaries and holding onto good people."

He suggested civil service should reinstate its former practice of making periodic studies of various state departments to see which, if any, jobs are superfluous so deadwood could be weeded out.

3 TESTIFY

The three witnesses testified before the con-con committee, headed by John Martin, R-Grand Rapids, which is to determine what changes are needed—if any—in the constitutional provisions affecting the executive branch.

De Wald told the committee the Civil Service Commission is not opposed to changes in laws governing it, but that it has not yet seen or heard of any possible amendments which it felt would make such improvements.

He said: "Some forces at work in Michigan would like to see no change at all in our present constitution and they may try to scuttle the document this convention produces before it gets to the voters by the devious method of proposing changes they know will stir up popular opposition."

Gaining Experience by Building Houses

FRESNO, Calif. (UPI) — Fresno City College students have built seven houses during the past nine months. The houses are part of a special project to give students practical experience in house planning, designing and building.

The newest structure has three bedrooms and one-and-three-quarters baths and was offered for sale to the highest bidder, minimum price \$3,500. Only the exterior of the house was finished.

College Headly Over Acquisition

**\$5,500 Skull Collection
of Deceased Hunter
Gathered at Stanford**

STANFORD, Calif. (UPI)—Stanford University's Natural History Museum has acquired the lifetime accumulation of an American head-hunter.

The late Dr. John C. Brown, Los Gatos, Calif., physician, was the collector, and his skulls were those of vertebrate animals which he prepared and catalogued for study. Stanford

experts valued the collection at approximately \$5,500.

Most of the Brown collection consists of skulls of small animals — rats, squirrels, skunks, weasels and foxes, as well as snakes, lizards, fishes, birds and turtles.

Larger specimens include skulls of deer, black bear and an African lioness. The latter bears the mark of the native spear that felled her.

Brown, a Stanford graduate of 1899, acquired some of his specimens from his own hunting and fishing expeditions, and many from other sportsmen.

The famous Hope diamond is blue as a sapphire but the Dresden diamond is an apple green hue, indicating the range of stone colorings.

Actress Will Star in Husband's Play

NEW YORK (AP)—Description of a role: "A present day type of F. Scott Fitzgerald heroine."

The actress who will fill it is Janice Rule.

Playwright Robert Thom, in private life the husband of Miss Rule, makes a further description in talking of his play, "Angel, Angel, Down We Go." He says it is a "far out version of the 'Green Hat' kind of play about a wild, reckless girl heading for destruction."

Producer Leland Hayward is aiming at a December opening on Broadway.

Finds Russian Who Manages to Cut Red Tape

CINCINNATI (AP)—Dr. Albert Sabin, Cincinnati virus researcher, says he found just as much red tape in Russia as the United States, but he found a Soviet scientist who could cut it.

Dr. Sabin, who developed a live-virus polio vaccine used much in the Soviet Union, said the scientist, Prof. Mikhail Chumakov, managed to stay ahead of bureaucratic snails.

He said the professor on his own turned his Moscow institute into a production center to make Sabin vaccine.

Dr. Sabin said it seemed a smart

move because "I know from my four trips to the Soviet Union that red tape can be redder there than anywhere else."

Architectural Advances Designed to Help Aged

NEW YORK (UPI)—Advances in architectural design are helping the aged to live longer and happier lives, says Otis Randall, vice president of the National Council on Aging.

"Architects," she said, "must educate their clients — institutions caring for the aged — to incorporate these design plans."

A home movie projector is remotely controlled and will, when directed, turn off room lights, turn on projector lamp, thread film, stop, start and rewind.

Work Wonders With Scraps

Steel Industry Finds Tons of Uses for Slag Hard to Fill Demand

NEW YORK (AP)—The steel industry has produced something from nothing and is now having a difficult time supplying the demand.

Steelways, publication of American Iron and Steel Institute, says so many uses have been found for slag that this waste by-product of steelmaking

is being consumed 15 per cent faster than it is produced.

The excessive demand has been met out of old stockpiles which are rapidly dwindling.

Steelways says 80 per cent of the mineral rock waste for home and industrial wall insulation now utilizes the former waste material. It is used as a fill material on construction sites, and as an ingredient in cement and concrete.

Florida citrus growers have found that by spreading low phosphorus open hearted slag beneath their trees, the amount of fruit dropping from the trees can be reduced by as much as 50 per cent, said the magazine.

Growers believe this is due to the valuable trace elements of boron, iron, manganese and titanium in slag.

Orders Second Look at Disability Case

CHATTANOOGA (AP)—When Clem Jackson's claim for disability benefits was denied because a doctor said he could crochet and knit, federal judge ordered the Social Security Administration to look again.

"This is so ridiculous," said U.S. District Judge Leslie Darr. "It must be assumed that the doctor threw in a little irony."

Jackson, a laborer, claimed the benefits on grounds of obesity, arthritis and high blood pressure, and appealed to the judge when he was turned down.

About one person in seven over age 65 is disabled.

Safety Tips for Halloween Goblins

CHICAGO (AP)—Those jerry-ing spooks and goblins that turn out en masse on Halloween fall victims to the same hazards that plague ordinary mortals.

Automobiles can hit them as they take off on their broomsticks. Their shrouds can catch fire. And the ghastly faces that scare others can strangle them.

NEXT TUESDAY

These secrets of the nether world were let out today by the National Safety Council, an or-

ganization dedicated to, among other things, saving the spook population for future Halloweens.

Next Tuesday is Halloween.

Some goblins hide their real faces behind masks of cloth, rubber or paper. Some of the eye-slits are too small for good vision or the mask may slip and cover the eyes entirely. When a goblin is running from a house with a sackful of treats, he may have mask trouble and not see an on-

coming automobile.

And if the goblin is wearing dark regalia, such as favored by the Dracula mob, the motorists may be unable to see him in time.

Spook suits, regardless of color, have been known to catch fire from candle-illuminated jack-o-lanterns.

The council suggested these tips:

SAFETY TIPS

Faces can be made mighty scary with rouge, eyebrow pencil

and multicolored mascara. Cold cream takes it off when spooking time is over.

Dark costumes can be trimmed with adhesive reflector tape. They can be made flameproof by dipping in a solution of 4 ounces of boric acid, 8 ounces of borax and a gallon of warm water. Washing or dry-cleaning, however, will take out the protection.

Flashlights instead of candles will fireproof pumpkins.

And goblins should do their tormenting in groups of four to five and beg treats only at homes where they know the occupants.

The main aisle of St. Peter's is one-eighth of a mile long. Yet proportions in the church are so harmonious that things seem smaller than they are.

Whooping Cranes Arrive in Texas for the Winter

WASHINGTON (AP)—Twenty-one whooping cranes from Canada have arrived at the Aransas National Wildlife Refuge on the Texas Gulf Coast, the Interior Department announced Wednesday.

The cranes, 19 adults and two young birds, were sighted from observation posts at strategic points on the refuge, where they spend the winter.

The whooping crane, one of America's largest and rarest birds, spends its summers in the Canadian wilds south of Great Slave Lake and winters at or near Aransas, making the 2,500-mile

migration in spring and fall. At one time the birds were almost extinct.

Prepaid Dental Plan Succeeds With Union

CHICAGO (UPI)—A prepaid union dental care program has been pronounced a success by dentists, patients and the union after more than three years. It is reported in the Journal of the American Dental Association.

The plan is operated by the Oregon State Dental Association for the children and members of the International Longshoremen's and Warehousemen's Union and Pacific Maritime Association. Approximately 2,200 children and 555 dentists are involved in the plan.

Written by Mrs. Raymond (Olive) Clapper

Widows: Read New Book, 'One Lucky Woman'

By HAL BOYLE
NEW YORK (AP)—"A woman behind closed doors is one of the most tragic things in the world," said Olive Clapper.
"I know widows who have lived for years behind locked doors. Their trouble is that they refuse to give to life. They just sit and nurse their sorrow. It's the easiest thing in the world to do. But it is destructive to a woman in every way—it can destroy her health, her personality, her very life."

Mrs. Clapper's own world fell apart Feb. 3, 1944, when her husband, Raymond Clapper, the political columnist, was killed in a plane crash while on a wartime mission in the Pacific theater.
She tells the story of her happy marriage—and how she built a new life of service after her husband's death—in a warm-hearted and inspiring book, "One Lucky Woman."
Since most wives today outlive their husbands, Mrs. Clapper be-

lieves they should face up realistically to the prospect of widowhood.
Here are some of her suggestions:
KEEP UP SKILLS
"I. Keep up any skills you have just in case. A woman who was a secretary should keep a typewriter around—and use it. If she was a nurse before marriage, she should continue doing voluntary nursing."
** * *

"2. Even if a widow has no occupational skills, I'd advise her to find some kind of work outside the home—even if she doesn't need the money.
"Work is the great consolator. Get out among people and don't hide yourself in sorrow."
"3. Many women, after a period of widowhood, hope to remarry. But since men are dying faster than women, the chances of a woman finding a second helpmate are meager. It is better for her to face up to this—and adjust to the prospect of a single life."

"4. Don't impose yourself on your children, or try to run their lives—or the lives of your grandchildren."
** * *

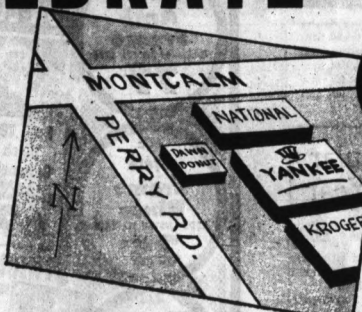

Mrs. Clapper, attractive and happy at 65, has lived up to her own creed.
"I never had any resentment or bitterness over Ray's death," she recalled. "He died as he would have wanted to—and I feel he went out in glory."
LECTURED
His editors suggested that she carry on his column. Mrs. Clapper felt this task was beyond her powers, but she had had experience speaking before women's clubs and she filled her late husband's lecture engagements.
In the years since then she has busied herself writing and speaking and serving as an executive of CARE. Last spring, President Kennedy appointed her cochairman of the American Food for Peace Council.
A career of service has widened her horizons, left her no time for useless mourning.
"Life is precious for all of us," she remarked, "and I think life will survive anything, even atomic attack if it should ever come. But I like to think there will come a time when people dwell together in peace in one undivided world and children will no longer know what the word war means."
** * *

2-Car Collision Fatal to 65-Year-Old Man

A 65-year-old Keego Harbor man died yesterday in Sparrow Hospital, Lansing, from injuries suffered in a two-car collision south of Williamston in Ingham County.
Launcelot H. Button, 2075 Madly Lane, was thrown from his car after it collided with another driven by Daniel Minarik, 15, of Williamston, according to state police.
The accident occurred 7 a.m. yesterday. Button's chest was crushed when he was hurled to the pavement. Miss Minarik was treated for minor injuries.

Wrong Place to Run

PORTLAND (AP)—A man sought to elude pursuers by ducking into the city police station. He was nabbed as he emerged from the building and arrested for shoplifting.

TRUJILLOS IN EXILE—Gen. Hector Trujillo (left) and Gen. Jose Arismendi Trujillo, two brothers of the Trujillo dynasty, have gone into exile. The Dominican Republic announced that they have left the country. Hector, who served as president for eight years under his dictator brother, flew to Bermuda. Jose left for an unspecified destination.

Comedy, Love Popular on Broadway This Year

By EARL WILSON
NEW YORK — The Broadway theater season is off to a smashing start — without those naughty, wicked girls who monopolized last year's themes . . . for we now have shows strong on comedy and plain old love.

Romance has come back. Playwrights aren't painting prostitution as charming now. Furthermore, the season's booming, Americans really prefer clean shows. "Love and marriage always get popular when war threatens," says Composer Julie Styne. "When there's trouble in the air, everybody's for togetherness."

"How to Succeed," "Milk and Honey," "Sail Away," "Let It Ride," "A Cook for Mr. General," "A Shot in the Dark," "Everybody Loves Opal," etc., are in tune with today. Upcoming "Subways Are For Sleeping" even has a number, "Be a Santa," sung by Sydney Chaplin and Carol Lawrence, with the boss Santa pep-talking the other Santas.

I was one columnist who yelled last year against the bad-girl girls in so many shows. Producers found that a way to get out of the red is to get out of the red light district. Virtue triumphs — even on Broadway.

THE MIDNIGHT EARL . . .
The publishers of the London don't show, "Oliver," made Lisa Kirk take one of their songs out of her Waldorf act. (None of it can be sung here yet) . . . Producer Ross Hunter's gift to Nancy Kwan for her work in "Flower Drum Song": a Chinese junk . . . Three days' work was ruined on Sophia Loren's "Boccaccio '70" — the color film spoiled . . .

EARL'S PEARLS: If a girl really likes a man, money doesn't make any difference. Unless, of course, he doesn't have any. —Sam Finkel.
TODAY'S BEST LAUGH: Tom Poston's trying to make a deal with his shirt laundry. He'll give them back all their pins if they'll return all his buttons.
Jackie Mason notes that two people seldom like the same thing: "For instance, I think my girl friend is very pretty and clever. But my wife thinks she's terrible." . . . That's earl, brother.

Skull Found in Furnace Misplaced by Student

NEW BRITAIN, Conn. (AP) — A human skull found in the furnace of a liquor store started a police investigation.

Police discovered a medical stu-

dent once lived at that address years ago. Contacted, the person, now a doctor, identified the skull as one he brought home from medical school and misplaced.

The poison in poison ivy is an oily resin substance.

Sign Tells of Versatility of Ambulance Service

CHARLOTTE, N.C. (AP) — The new Charlotte centralized ambulance service has set up temporary quarters in a building that formerly housed a food catering com-

pany. A sign over the building reads: "Temporary home of Charlotte Ambulance Service . . . Then, the remains of the catering service sign adds: "Catering to 10 or 10,000."

Big Atom Smasher
BUFFALO, N.Y. (AP) — A "neutron howitzer" at Canisius College has been loaded with a plutonium and beryllium charge that will release 50 million atoms a second. The equipment is part of the college's new radiation laboratory.

New ABL Begins Season Tomorrow

CHICAGO (AP)—The new American Basketball League opens its 20-game championship schedule Friday night with the Los Angeles Jets facing the San Francisco Saints in the San Francisco Cow Palace.

The eight-team circuit, whose commissioner is Abe Saperstein, owner-coach of the Harlem Globetrotters, will have each team playing 80 games and will be split into western and eastern divisions.

The Jets, Saints, Kansas City Steers and Hawaii Chiefs are grouped in the western section and the Pittsburgh Wrens, Washington Tapers, Cleveland Pipers and Chicago Majors are in the eastern.

Foremost of the rule change innovations to be introduced will be a three-point "home run" field goal, scored from an arc 25 feet from the basket. There also will be a wider free-throw line with an 18-foot base instead of 12.

Ex-Cudahy Chief Dies

PALO ALTO, Calif. (AP)—Fred William Hoffman, 74, former president of the Cudahy Packing Co., died Tuesday after a long illness.

BERLIN BORDER SCENE — American Patton tanks take position at West Berlin Friedrichstrasse border crossing point after armed U.S. troops escorted two American civilians into

East Berlin in defiance of East German border police. Twelve military police, with fixed bayonets, escorted the civilians past the East German police at the border checkpoint.

About six tons of coal are re-automobile, including all required guined in the manufacture of one materials.

Ghosts and Goblins Do Get Hungry

By JANE COBLE
Pumpkin Pie Recipe
 Have you decided what to bake out when all the apples and gobs show up at your front door on Halloween? Whatever it is, we put forth our annual idea to **WARP IT**. Of course, if you are handing out apples (and you can buy a bushel this year for almost a dime), you needn't wrap them. But any other food should be put into foil, sandwich bags, waxed paper, or plastic. Enlist the help of your own goblins to do the wrapping.

Many mothers bake cookies for their treat, in keeping with the harvest season, you might try this recipe for pumpkin cookies.

Pumpkin Harvest Cookies
 1/2 cup shortening
 1 1/2 cups sugar
 1 egg
 1-3 cups mashed cooked pumpkin
 1 1/2 cups sifted all-purpose flour
 4 teaspoons baking powder
 1/4 teaspoon nutmeg
 1/4 teaspoon cloves
 1/4 teaspoon ginger
 1/4 teaspoon cinnamon
 1 cup raisins or chopped nuts
 1 cup whole bran
 Cream fat; add sugar gradually, beating well to blend. Add egg and

pumpkin and beat well. Sift together flour, baking powder, and spices. Add to first mixture, beating well. Fold in raisins or nuts, and whole bran.
 Drop batter by tablespoons 2 inches apart on greased cookie sheet. Bake in moderate oven (375 degrees) 18 to 20 minutes. Yield: About 4 dozen cookies.

If you are having a party on Halloween night, special refreshments are in order. Fresh cider and homemade doughnuts never fail to please. But for variety's sake, try this punch.

FOR HALLOWEEN — Cold zesty punch will taste even better if it is served from a scalloped pumpkin punch bowl. You line the pumpkin with foil. Tinker toys are used to make a stockpile for

ghosts and cleansing tissue ghosts guard the refreshments. Both children and grown-ups will enjoy such Halloween festivities.

Jack O'Lantern Punch
 1 large pumpkin
 Dr. Pepper ice cubes
 Chilled Dr. Pepper
 Orange sherbet, optional
 Choose a large, round pumpkin and cut off top in zig-zag fashion so that edges will be scalloped. Scoop out seeds and line pumpkin up to scallops with heavy aluminum foil.
 Half-fill punch bowl with Dr. Pepper ice cubes made by freezing the beverage in ice cube trays; then finish filling with chilled Dr. Pepper. (The frozen beverage cubes keep beverage cold without diluting it.) Serve as is or top with scoops of brightly colored orange sherbet.
 With all the sweets that youngsters get when they go begging, they won't need anything of that kind when they return. But Hoot Owl Sandwiches should taste their fancy. They'll be a good foil for all the sweets consumed.
Hoot Owl Sandwiches
 1/2 cup flaked salmon
 1/2 cup chopped hard-cooked eggs
 1/4 cup finely chopped celery
 Pepper
 1 tablespoon lemon juice
 Few drops Tabasco
 1 tablespoon mayonnaise or salad dressing
 1/2 teaspoon salt
 32 slices enriched bread
 32 small stuffed olive slices
 32 tablespoons sliced almonds
 Combine salmon, eggs, celery, green pepper, lemon juice, Tabasco, mayonnaise and salt. Cut a (2 1/2-inch) circle and a (1 1/2-inch) circle from each slice of bread. On half of each of the large circles, spread 1 tablespoon filling; on half of each of the small circles, spread 1 teaspoon filling. Match with remaining circles.
 Assemble Hoot Owls placing the small circles — heads — against larger body circles. "Owls" are animated with olive slice eyes, beaks and feet of sliced almonds, raisin ears and buttons, and collars and ties made from pimiento strips. Yield: 16 Hoot Owl Sandwiches.

Try Gingerbread for Halloween

When large shopping bags begin to disappear from storage, you know Halloween is just around the next gnarled tree. Youngsters have "tricks or treats" in minds so to avoid tricks try charming them with spicy gingerbread.

Gingerbread is one of the many treats, which can be made from nonfat dried milk donated by the U.S. Department of Agriculture to needy persons.

The delightful pastry is a perfect substitute for a food—especially when served with golden apple cider. As to its potent effect on children, we heard of a certain Hoot Owl and Great Owl sent into a witch's home because it was made of gingerbread.

So, as a defense against your Halloween pranksters, try this recipe repeating:

To Stop Trouble
 Fire Burn
 And Cauldron Bubble
 Sift together 1 cup flour, 1/2 cup molasses, 1/2 cup milk, 1/2 cup brown sugar, 1/2 cup raisins, 1/2 cup whole egg, 1/2 cup baking soda, 1/2 cup baking powder, 1/2 cup sugar, 1/2 cup cinnamon, 1/2 cup cloves. Add 1/4 cup fat or oil to 1/2 cup boiling water and add 1/2 cup molasses. Add this slowly to the dry ingredients beating well after each addition.

Pour into an 8x8 greased baking pan and bake at 350 degrees for about 28 minutes. Add orange and black frosting to further tempt those goblins.

Bread Is Pink, Also Delicious

This loaf is nice toasted after it's stored overnight.

Quick Cranberry Loaf
 2 cups sifted flour
 3 teaspoons double-acting baking powder
 1/2 cup sugar
 1 cup quick-cooking rolled oats
 2 eggs
 1/2 cup milk
 1 cup cranberry-sauce-prepared whole cranberry sauce
 1/2 cup orange
 2 tablespoons shortening (melted)
 Sift together the flour, baking powder, salt and sugar into a mixing bowl. Stir in rolled oats. Beat eggs until thick and ivory colored; beat in milk enough to combine. Stir egg mixture into dry ingredients only enough to moisten them. Lightly stir in cranberry sauce, grated orange rind and melted shortening all at one time.
 Grease the bottom of a loaf pan (8 1/2 by 4 1/2 by 2 1/2 inches); line bottom with waxed paper; grease paper. Turn batter into pan. Bake in a moderate (350 degrees) oven 1 hour and 10 minutes or until cake-tester inserted in center comes out clean.
 Turn out of pan; strip off paper; turn right side up on cake rack. If loaf is to be served warm right away it will have to be cut in rather thick slices. If loaf is cooled and stored overnight in a tightly covered container it will slice well and taste good toasted.

Prune Juice Flavors Gelatin for Dessert

A dessert to serve after a hearty meal is light and fluffy Apricot Prune Whip. Mix an envelope of unflavored gelatin with 1/2 cup sugar. Heat 1 1/2 cups bottled prune juice and add to gelatin, stir until thoroughly dissolved. Chill until partially thickened.
 Whip 1/2 cup heavy cream and fold whipped cream and a pound of drained apricot halves into the gelatin. Spoon into dessert dishes. Chill until firm. Four to six

Candied Apples Go Glamorous

You don't have to wait for holiday to make these yummy good apples-on-sticks—the children love them. They are tops for selling at church, club, and school bazaars— they make party-table decorations (see photograph) if you indulge your taste for fancy toppings. Wonderful for Halloween, too.

Grated coconut, chocolate shreds, grated or chopped nuts, little silver candies, and fancy small candies—even chopped peppermint stick—can make delicious and decorative toppings for these apples. Here's the new recipe:

Butterscotch-Walnut Apples-on-Sticks
6 medium-size apples
1 cup sugar
1 cup light corn syrup
1 cup light cream
2 tablespoons butter or margarine
Few grains salt
½ teaspoon vanilla
1½ walnut halves, chopped

Wash and dry apples; insert wooden sticks. Combine sugar, corn syrup, and cream in a large saucepan. Cook rapidly, stirring constantly, to 245 degrees (firm ball stage). Remove from heat at once. Stir in butter, salt and vanilla. Dip apples quickly. Garnish each apple with walnut meats, or other goodies.

Better Plan Apple Dishes for Bargain Eating Now

No Trick-or-Treat your family this week! says the Marketing Agent, Mrs. Josephine Lawyer. Just get a 3 or 4 pound bag of fresh Michigan apples... and you are ready to make apple dumplings, Waldorf salad, baked apples or old-fashioned apple crunch.

Apples are Michigan's King fruit crop! Over 22½ million dollars were brought into our state last year from the sale of apples. About 90 per cent of the apples used by Michigan shoppers are grown in the state. We are also a major apple supplier to 22 other states, and a sizable volume of Michigan apples are exported to Canada. Michigan apples were shipped into California for the first time last year.

Better growing, grading, storage and marketing practices have advanced Michigan to third position in national production of apples.

Apple processors are now buying almost half (4½ million bushels) of Michigan's fresh apples. Later they will appear at your retail market in the form of canned apple sauce, bottle apple juice, apple cake mixes, or commercially baked apple pies, dumplings, apple strudel, etc.

Retailers report that wholesale prices of most meats remain about as they have been except that lamb and turkey are slightly lower. Retail checks show some store features in all red meats and poultry this week.

One of the best ways to benefit from meat specials is to buy in quantity for later use if the cut is one the family enjoys, if there is

freezer space, and if there is an extra outlay of food dollars available. Meat cuts given such emphasis are usually 10 cents per pound less than normal for that particular quality.

Wondering which meats to buy? Then check these cost-per-serving comparisons which not only consider cost per pound, but also amount of edible meat per pound:

Beef—hamburger, 10-12¢; corned beef, 12-13¢; blade chuck, 22-30¢; round steak, 35-35¢; sirloin, 36-46¢.

Pork—picnic shoulder, 15-20¢; Boston butt, 15¢; loin, 20-24¢; whole smoked ham, 24-35¢.

Lamb—shoulder, 18-20¢; leg, 20-25¢.

Veal—leg, 24-28¢; shoulder, 30-38¢.

Poultry—fryers, 18-33¢; turkey, 19-25¢.

The record large turkey crop is being sold as whole birds or turkey pieces. Has your family tried a turkey breast, thigh, leg, or drumstick, or bright turkey wings for home-cooked soups?

About the same amount of fresh fruits and vegetables were sold in large terminal markets last week as during the previous week. This indicates that shoppers will continue to find good supplies in retail stores.

Squash, cabbage, potatoes, green beans, lettuce, Brussels sprouts and broccoli are the fresh vegetables in good supply.

The homegrown tomatoes are finished and hothouse tomatoes have started in fair supply.

Lemon Juice Is Magic Ingredient

That handy bottle of lemon juice in the kitchen can do more than flavor foods; it can cut corners in food preparation and serving.

1. When you slice bananas, avocados, or raw apples, and want to do this work in advance, a sprinkling of bottled lemon juice over the fruits will prevent discoloration until you are ready to use them.

2. When salad dressing or mayonnaise needs thinning and you want to avoid using cream out of

deference to the family's calorie count, add bottled lemon juice instead.

3. If you decide on the spur of the moment to bake a certain cake, and the recipe calls for sour milk but there's none in the refrigerator, you can convert a cup of sweet milk into sour in seconds by adding one tablespoon of bottled lemon juice.

4. When serving lobster, provide each person with a fingerbowl of lukewarm water to which bottled lemon juice has been added. This works like magic in removing seafood aroma and melted butter from fingers.

Try dill seed with potatoes.

NO CHEAP ARTIFICIAL FLAVORINGS GIVE THE TRUE, RICH FLAVOR OF BURNETT'S PURE VANILLA

Good cooks know only pure vanilla gives the richest, truest flavor. So don't risk spoiling your cakes, frostings and desserts with artificial flavorings made from cheap, harsh chemicals in an attempt to imitate vanilla. Burnett's is made from the finest, pure vanilla beans with no artificial ingredients added—it's real vanilla. Nothing can take the place of Burnett's for true flavoring! Also Available in Pure Almond, Lemon, Orange, Brandy and Rum Extracts. America's First PURE VANILLA

Kappa Delta Alumnae Assn.

Unit Sets Import-Export Fair

Imports from some 20 countries will be on display at Showcase, Inc., Birmingham next Thursday when members of the Kappa Delta Sorority Alumnae Association, South Oakland County, hold their fourth annual Import-Export Fair.

German crystal, Swedish glass, Bavarian china, pottery, silver and pewter will vie with English leathers, art objects, linens, silks and woven goods. Imported carved wooden toys, dolls, blocks, and hand puppets will be of interest to children.

Mrs. Stuart M. Totty, Birmingham, general chairman, named as her committee: Mrs. Edward E. Walley, Mrs. George Miller and Mrs. Jerald D. Stone, publicity; Mrs. William E. Siebert, tickets and door prizes; Mrs. Laurence H. Pate, refreshments; Mrs. Donald W. Fleser and Mrs. Ralph T. Northrup, bake sale.

Other chairmen are Mrs. Walter and Mrs. Herbert Van-Alken, consignment; Mary Liz Brown, finances; Mrs. John Hume, baby sitting and Mrs. Donald L. Weldon, puppet show.

Homemade foreign delicacies will be sold and samples of the cookies, soft coffee, will be served without charge.

Hours for the fair are noon until 9 p.m. Showcase, Inc. is located on Brownell Street.

Pontiac Press Photo

Imported lovelies for their annual Import-Export Fair are examined by lovely ladies in imported finery (from left) Mrs. H. N. Van Alen and Mrs. Donald L. Weldon, Bloomfield Hills members of Kappa Delta Sorority Alumnae Association. The one day affair is set for Nov. 2 at Showcase, Inc., in Birmingham.

Waterford PTAs Set Activities

Movies, discussions and meetings with classroom teachers are scheduled this evening at the Waterford Parent-Teacher Associations.

COOLEY

The Cooley School PTA will leave the children home and put the parents back in the classroom for the evening. Parents of children in the kindergarten, first and second grades will meet in the classrooms promptly at 7:30 p.m.

Parents of children in the third, fourth, fifth and sixth grades will meet in their respective rooms at 8 p.m., where teachers will give a summary of curriculum and procedures for each class for the 1961-62 school year.

JAYNO ADAMS

"Emotional Problems of a Normal Child" is the title of a talk to be presented at 8 p.m. at the Adams School by Jerome Breen, of the Pontiac State Hospital.

There will be a book sale at 7 p.m. and immediately following the regular meeting. Books for children in kindergarten through the sixth grade will be available.

HUDSON COVERT

A panel of two teachers will present a discussion entitled "What's New in the School System." Panel members will be Jane Ellsworth, scientific consultant and Peggy Jetter of the material department.

Mrs. Ruth Cook will show slides on conservation taken at Higgins Lake. An open house and refreshments will follow the meeting.

Ice-Skating Sponsored by Club

The Birmingham Wesleyan Club is again sponsoring an ice-skating club at the new Iceland Skating Center, East Maple Road, Troy.

It will meet for 10 private lessons on Thursday afternoons from 4 until 6 during the 1961-62 season. Added feature will be a class for women on Tuesday mornings from 10 to 11.

Children of school age, 5 to 18, are eligible to join. The fee will be divided for the junior group for children through sixth grade, and a senior group. Each group will receive 15 minutes of class instruction every Thursday from Ronald Brown, the rink's professional.

Preschoolers are welcome to skate but no instruction is provided for them. During the half-hour lesson they are expected to stay on their own piece of ice.

Deadline for applications accepted as they are received is Nov. 5. Mrs. W. W. Chao of Birmingham is registrar.

Several exhibitions by experienced skaters are planned, also a final party for all members.

5 Pages Today in Women's Section

To Tackle Home Life Education

A Parent and Family Life Education Conference is planned Friday by the Pontiac Council of Parent-Teacher Associations and the University of Michigan Extension Service. Members will meet 9:30 a.m. to 2:30 p.m. at the Pontiac Young Men's Christian Association.

Mrs. Earl Oltsevig, publicity chairman, reports the conference is a pilot project for which there will be a follow-up session Jan. 19.

Mrs. Belle Parley Murray of the U. of M. Extension Service will be morning speaker on "What We Can Do to Sell Parent and Family Life Education Locally."

Following luncheon Mrs. William Wright, Michigan Congress of Parents and Teachers program chairman, will moderate a panel discussion on "How Parent and Family Life Education Can Help Pontiac Citizens." Panelists will be George Carvill, director of Pontiac's Juvenile Protection Service; Mary P. Sweeney, Pontiac policeman; Rev. Howard R. Clegg, assistant minister at First Congregational Church; and Harold Smead, attendance officer at Pontiac Central High School.

Mrs. Leroy Koch is conference general chairman. Also participating in the program will be Theron Slosson, executive director of the Pontiac YMCA; and Mrs. George Gray, Pontiac Council of PTA president.

PLANNING COMMITTEES

Planning committee members include Mrs. Koch, parent and family life education chairman; Mrs. Ray Ellsworth, co-chairman and art work; Mrs. Wright, MCPPT; Mrs. Gray, Pontiac PTA Council; Mrs. Ervin Christie, national Parent-Teacher Magazine chairman; Mrs. Fred Gones, juvenile protection chairman; and Mrs. Melvin Norberg, preschool chairman.

Hospitality committee members are Mrs. Charles Copper-smith, Mrs. Herbert Mullen and Mrs. James Hartsock. Mrs. William White is invitations chairman, and reservations have been handled by Mrs. Christie and Mrs. Thomas Bartle.

Local PTA presidents, besides parent and family life, juvenile protection, pre-school, program and magazine chairmen, have been urged to attend the public conference.

Women of Moose Planning Dance

Mrs. Harold Finn, Pontiac Chapter 360, Women of the Moose, council of regent chairman and her committee are planning a Halloween dance at the Moose Hall Saturday evening.

Members of the Loyal Order of the Moose and co-workers have been asked to bring friends and to wear costumes for which prizes will be awarded.

Tickets, available from officers and chairmen of the group, also will be sold at the door.

Abby Says: What About Pie?

Be the Boss; He's Not of Age

By ABIGAIL VAN BUREN

DEAR ABBY: Our 15-year-old son worked during his summer vacation. He delivered for a drug store at night, and took care of the neighbors' lawns during the days. He saved about \$300 and wants to buy an old wreck of a car with it.

His Dad saw the car and said it wasn't safe to drive. Besides his grades are just average, and we don't want him to have a car. He says he earned the money himself, and should be able to do what he wants with it. Is he right or are we?

SONNY'S FOLKS

DEAR FOLKS: As parents, you should have better judgment than your 15-year-old son. Don't permit him to get an "old wreck of a car" if you feel he shouldn't have it.

If he wanted to spend all his money on pie, and eat himself sick, would you let him just because it was "his" money?

DEAR ABBY: I am 75 years old. Your stories about the "children" give me a glow. But I have one that tops them all.

One morning my phone rang. I said, "Hello." A gentleman said, "We are testing the line. Madame, will you please whistle a few notes into my telephone?" I whistled a few

notes. Then he asked, "Will you please step back a few feet and whistle the same notes again?"

I complied.

Then he said, "Now step a few feet to the right of your phone and whistle them again." I did. "Now stand to the left and whistle," he requested. I obliged.

Nurses Group Plans Annual Fall Nov. 4

The Rochester Golf and Country Club will be the setting on Nov. 4 for the St. Joseph Mercy Hospital Nurses Alumni Scholarship Ball.

Mrs. Charles Lawson is general chairman. On her committee chairmen are: Mrs. James Green, publicity; Mrs. Charles VanHeteren, decorations; Mrs. Thomas Timmreck, tickets; Mrs. Joseph Smith, orchestra; and Geraldine Zettel, mementoes.

Proceeds will assist with two new scholarships for next year. Ten scholarships have been given in the past.

To Hold Bake Sale

The Pontiac League of the Blind and Friends will sponsor an all-day sale of baked goods Saturday at the Federal Department Store, North Saginaw Street.

Mrs. Elmer Holmquist is chairman.

Then he said, "Thank you, Madame, you will receive your package of bird seed in the morning."

And he hung up. I can laugh about it now, but I certainly felt like an old fool.

M.F.E.

DEAR ABBY: I am a high school girl who gets mostly As. Some of my close friends always ask me if they can copy my homework. I don't want to lose their friendship, but I don't think it's fair that I should sit home doing homework while they're out somewhere, and then give them my answers.

Can you tell me how to handle this problem so I won't appear to be mean and selfish?

STUDENT

DEAR STUDENT: Handing out homework is a poor way to show friendship. If your "friends" don't do the work themselves, when test time comes, they'll be stuck. Tell them firmly that you are sorry but can't do their work for them. If you lose their "friendship" because of this, it was a shallow friendship from the start.

Everyone has a problem. What's yours? For a personal reply, write to Abby in care of The Pontiac Press. Enclose a stamped, self-addressed envelope.

For Abby's booklet, "How To Have A Lovely Wedding," send 50c to Abby, Box 3365, Beverly Hills, Calif.

New Look Is Raised Waistline

By GAY FAULKY

NEW YORK (UPI) — The high waistline silhouette for spring gets added supporters as more manufacturers preview their collections for the next fashion season.

Latest to join the ranks is Larry Aldrich, whose chief designer, Marie McCarthy, featured the above-the-normal waistline in both daytime and evening clothes.

"The raised waistline in varying degrees is important for spring," said Aldrich as he showed his collection late Wednesday.

Aldrich's signature defined the new waistline with wide insets of fabric through the midriff, with seaming or bands of fabric under the boom, with jackets closing at the bust instead of at the waist, or with vertical darts sewn from the hem of brief jackets to shape them to the mid-section of the body.

Aldrich showed "normal waistlines too — many of them belted lightly in black patent.

SOFT LOOK

The Aldrich collection also added emphasis to the soft look which promises to take over by spring. Floating chiffons are replacing the stiffened silks of past seasons, the bias cut abounds in all new dress collections, and gathers, flares and pleats soften the harsher straight-lined silhouette of recent years.

"We predict it will be a soft suit spring," said Aldrich. Typical of the soft suits at this firm was a group whose skirts looked slim when the models stood still. But the skirts swung gracefully when the models walked because of all-around gathers at the waist, or flat-pressed pleats at the sides. Sleeveless chiffon blouses were added to the soft look.

Chiffon was the predominant fabric at Rudolf Gornis, a firm specializing in cocktail and evening fashions. Sheath dresses in chiffon came with rippling cable backs. Several slender chiffon dresses had row on row of ruffles.

The look which Karen Stark, designer for Harvey Berin, Inc., has made her trademark goes right on into 1962.

Berin is known for daytime wool dresses which shape to the body, have a minimum of trim, and usually feature the no-collar or narrow cut collar.

TACED DRESSES

New spring with the firm as "pacer" dresses slim as usual, except for about six inches at the hemline. Then, the skirt is flared or pleated into a restrained flounce.

One of the most youthful shapes at Berin is called the Rondelle — to describe the brief swinging jacket topplings for both daytime and dinner clothes.

The firm of Anthony Blotta likes the repeat theme for spring. Boys under the bustline on suit jackets are repeated on skirts. The same goes for pockets. Typical is a wool suit with waist-length jacket and skirt with pockets right at the jacket hem. The pockets are repeated on the hipbone area of the slim skirt.

Music Guild Hears Report

Elda Sutter of West Ingois Road was hostess for the Pontiac Music Guild's October meeting. Mrs. Carl Clifford assisted.

Two reports from the Michigan Music Teachers Convention at Saginaw were given. Delegate Amy Hogle told of the lecture on piano teaching given by Fay Templeton Frisch of New York and Mrs. Lester Snell reviewed the musical programs presented.

Announcement was made of a student recital at 8 p.m. Nov. 28 in the Morris Music Shop.

Guests Mrs. John B. Kuhlman, Mrs. Gerald Ross and Jerry Libby were introduced at the Tuesday meeting.

Special Guests Attend Shrine

Mrs. Dale Blitter received the degree of the White Shrine of Jerusalem Wednesday evening at a ceremonial conducted by Pontiac Shrine 22.

Special guests were the associates watched and noble prophetesses from shrines in Serbia, Chatham and Windsor, Ontario and Royal Oak. Ann Arbor, Saginaw, Flint, Davis, Port Huron, Highland Park and Detroit. Mrs. Dorthen Shaffer of Dearborn, chairman of material objective, also was present. Mrs. Earle Hoskins was tea committee chairman.

Mrs. Dorthen Shaffer, high priestess, announced completed plans for the annual bazaar and chicken dinner Saturday evening at Roosevelt Masonic Temple.

Pontiac Press Photo

Ricky the Clown of television fame will be a special guest at Central Elementary School's fair Friday, and many of the children will be in costume to greet the friendly hobo. Checking their posters and costumes for the eagerly awaited annual festival are

students (from left) Roger Saincome, Parke Street; Donald McLain, Chandler Street; and Nancy Miller, Maynard Court, whose make-up is being applied by Mrs. Niles Hartung of South Roselawn Drive.

Invitation Enough to Do for All

By The Emily Post Institute

Q: My in-laws are celebrating their golden wedding anniversary and we our silver wedding anniversary at the same time and we are planning a combined reception at the country club. My question is, should we send out one invitation for both anniversaries or should we each send out separate invitations?

A: There are relatives and friends of mine who are not known to my in-laws and vice versa. Will you please advise us concerning this matter?

A: One invitation will be correct. This could be worded: Mr. and Mrs. John Jones

and Mr. and Mrs. Henry Jones request the pleasure of (name written in) company at dinner (or reception)

in honor of their respective Fiftieth and Twenty-Fifth wedding anniversaries Tuesday, the seventh of November at eight o'clock Hillside Country Club

Q: Is it considered good table manners after eating the fruit from half of a grapefruit, to pick it up and squeeze the remaining juice into a spoon?

A: At breakfast or other informal meal it is quite all right to squeeze the last bit of juice from a grapefruit into one's spoon. This should not, however, be done when company is present.

Q: I teach the third grade in a public school. Recently I received a very nice present from one of my pupils. I have been giving extra time to this child in his school work and I suppose the present was given to me because of this. Although the present was given to me by the child it was obviously bought by his mother. I would like to know if I should write to her to thank her for the present, or is thank you to the child sufficient?

A: Thanking the child would do, but as you say it is a very nice present, I think a note to the mother would be appreciated.

Home Is Opened to April-May Group

Mrs. Donald Bos opened her home on West Iroquois Road for the October meeting of the April-May group of the First Presbyterian Church. Luncheon cohostesses were Mrs. Kenneth Carman, Mrs. Ida Reeves and Mrs. Lyndon Salathiel.

The Bible lesson was given by Mrs. A. F. Winters and the mission study by Mrs. Quinton Sweet.

Host Dinner for Board of New Citizens Club

The Clarence Chamberlains of Metamora opened their home Saturday evening to members of the executive board of the New Citizens' League of Pontiac.

Following the cooperative dinner, plans were outlined for the club year, including the annual Christmas-Around-the-World program in December at Pontiac Central High School cafeteria.

It'll Prevent Trouble

Reinforce Cold Defenses

By JOSEPHINE LOWMAN
Nothing, outside of real trouble, makes one feel more miserable than a cold. If we are free of colds for some time, we forget what an unglamorous, unhappy and dripping condition this virus imposes upon us. In the United States alone, around a half billion colds harass the populace each year.

There are three times a year when colds are at their peak; when school starts, when winter, or really cold weather arrives, and in the early spring. Brace yourself, because we are just a jump ahead of November, and if past patterns persist, 20 million persons in the United States will get the sniffles, and I imagine that the situation is similar elsewhere.

Studies have shown that we can be wet, we can be cold, we can be tired, and not get a cold unless

a cold virus catches us. And we can catch the virus if we come in contact with someone who has it. This information is no help because we live in the world, think heaven, and do not wish to isolate ourselves from others.

Our bodies have natural defenses against the cold virus and other such enemies which attack us. Therefore, it is important to reinforce these defenses by being in the best possible condition. This implies good nutrition, enough sleep and exercise, and generally fine hygienic living. Women have to guard against colds, especially just before the arrival of their menstrual periods.

A cold usually lasts about three days unless bacteria take over to prolong and intensify it. The incubation period for a cold is from one to three days—that is, if you are going to have a

cold, you will get it within this time after being exposed.

When we stop to think that the only way colds can spread is from person to person, it makes it seem extremely inconsiderate to send children who have colds to school, or to impose ourselves on others when we can avoid doing so.

Fine nutrition reinforces the body's defenses. Perhaps you would like to have my leaflet, "Vitamin Defense." If so, send a stamped, self-addressed envelope with your request for leaflet No. 27. Address Josephine Lowman in care of The Pontiac Press.

**Gadgets Save Us Time
So We Can Exercise**

RUTH MILLETT

Newspaper Enterprise Assn.
"Bend, straighten, stretch. Bend, straighten, stretch."
What's going on

Just housewives in one of the thousands of exercise classes all over the country, bending, stretching, and twisting to get or keep themselves in shape.

Why do housewives need exercise? Don't they get enough exercise taking care of their homes? Not any more, they don't.

At least, not those who can afford all the new labor-saving devices, each one guaranteed to cut physical activity to a minimum.

The ladies say "wonderful" every time they come across a new gadget to keep them from exerting physical effort. (Now there are even electric can openers.)

Anything that will cut down on walking, stooping, reaching, bending, lifting, hoisting, or

standing is a "must" for the well-equipped household.

So the lucky homemaker who has all of the latest labor-saving devices hardly has to move her muscles at all.

Then what happens? Why, the housewife, waking up one morning to the shuddering realization that she is going soft—that what she needs is EXERCISE—just what she has been trying to avoid.

So she joins an exercise class and drives to it every day to put herself in the hands of a trim, young teacher who makes her do all the exercising from which modern inventions have delivered her.

She bends and twists and stretches to music to keep herself in shape. Kind of ironic, isn't it?

If you have a teen-age son, you'll want to read Ruth Millett's new book, "Tips on Teen-Agers." Mail 25 cents to Ruth Millett Reader Service, care of The Pontiac Press.

Join Society at Dinner

Women's Auxiliary members joined the Oakland County Optometric Society at a dinner meeting Tuesday in Sylvan Glen Country Club.

After dinner, members heard Mrs. Leslie Backus, state auxiliary president, tell of three awards presented to the Michigan Auxiliary at the national conference in Denver, Colo. Recognition from the National Safety Council came for safety projects throughout the state.

Also cited was high membership, and a second place award went to the Michigan Press Book, prepared by Mrs. Ralph Haisen of the Oakland County Auxiliary.

Mrs. James St. Louis, state safety chairman, announced a

presentation from the National Safety Council—the Carol Lane Award—to the Oakland County Auxiliary for its assistance in motorist vision screening in connection with motor vehicle safety checks throughout the county.

Members received pamphlets and posters for placement in hunting license bureaus as part of this year's safety program.

Officers elected for the coming year were Mrs. John Kuzara, president; Mrs. Marvin L. Solomon, recording secretary; Mrs. Benjamin Stein, corresponding secretary; Mrs. M. L. Dubin, treasurer; and Mrs. George A. Harkless, press chairman.

To Conduct Vocal Clinic

The combined vocal departments of Pontiac Northern and Pontiac Central High School will have Gerhard Schroth of Chicago as guest conductor and clinician at the annual Fall Vocal Clinic Nov. 7 in Central's gymnasium.

Mr. Schroth is chairman of Fine Arts in Chicago's Lutheran Schools. For several seasons he has directed the All State High School Orchestra at the National Music Camp, Interlochen.

He comes to the task of directing Pontiac's 500 singers with a versatile music background. His experience runs the gamut of the

professional field, school music education, church, concert and radio fields through the lecture platform.

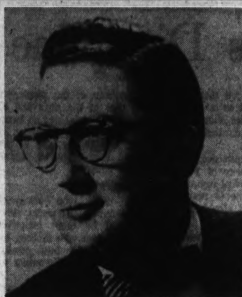

Trained in string and band instruments, organ, voice and composition as well as conducting, he holds degrees from the University of Wisconsin and Northwestern University. He has studied conducting with Dr. F. Martin Christensen of the famed St. Olaf College Choir and with Dr. Frederick Stock of the Chicago Symphony Orchestra.

For three seasons he conducted the St. Louis Philharmonic Orchestra and Civic Chorus.

Leaving St. Louis, he became director of music at the University of Chicago's Rockefeller Memorial Chapel. He has appeared in concerts on the Kraft Music Hall radio broadcasts for ten years.

Best known for his work with young people, he comes to Pontiac already beloved by young local musicians who had the good fortune to play under his baton at Interlochen.

The clinic is open to the public. Tickets are 50 cents and may be had from the singers or at the door.

GERHARD SCHROTH

Gerhard Schroth, nationally known composer and conductor, will be guest conductor at Pontiac's annual Fall Vocal Clinic Nov. 7.

Delta Zetas Honor Founders

Delta Zeta alumnae of Oakland County and Detroit entertained Wayne State University's Epsilon Sigma and University of Detroit's Epsilon Phi active chapters and their Mothers' Clubs at the Wayne State Alumni House Tuesday.

The East Side group of Detroit were hostesses for the annual Founders' Day tea which commenced with the traditional candle-lighting ceremony, honoring the sorority's founders.

The program continued with a skit, "The Beginning of Delta Zeta." Highlight of the evening was the announcement of Delta Zeta's Woman of the Year.

United States Sen. Maurice Neuberger, who was named by a committee of national judges. The senator joined her sorority at the University of Oregon.

The award is presented as a specially designed plaque to an outstanding alumnae member of the sorority at Founders' Day ceremonies simultaneously by 132 college chapters, four colonies and 216 alumnae groups.

Sen. Neuberger is the third woman to have been elected to a full six-year term in the U.S. Senate. Her husband, Richard Neuberger, held the post nearly six years before his death in March of last year.

Attending the tea from Oakland County were Mrs. T. Kenneth Haven of Orchard Lake; Mrs. Winfield C. Hittman, Franklin; Mrs. Cecil King, Mrs. F. Llewellyn Lutze, Mrs. W. Dean Perry, Mrs. Robert V. Kerley, Mrs. Forbes Hascall and Mrs. George N. Scrubb, all of Birmingham; Mrs. Laurence Trevarrow, Huntington Woods; Mrs. William A. Newman, Mrs. Carole W. Hess and Mrs. Albert Lucas, Royal Oak.

The Makah Indians of the Olympic Peninsula in Washington celebrate Makah Day on Aug. 26—the day in 1925 they received full citizenship.

Loses \$1 Million Suit to Mother-in-Law

ATLANTA, Ga. (AP)—An Atlanta salesman lost a \$1 million damage suit in which he accused his former mother-in-law of giving his 18-year-old daughter vodka and tomato juice as a pacifier.

A jury returned a verdict on Wednesday in favor of the child's grandmother, Mrs. Ora E. Dodd, after deliberating two hours. The trial lasted six days.

Robert Lee Slater III claimed Mrs. Dodd gave his daughter, Kandy, vodka in tomato juice while Mrs. Slater was staying with her mother. The Slaters have since been divorced.

Mrs. Dodd denied she gave Kandy any intoxicants.

Bids Will Be Taken on Highway Projects

ESCANABA (AP)—The largest highway construction letting in Upper Peninsula history will be held at Escanaba Nov. 8 when bids will be taken on 12 projects totaling \$3.3 million.

One calls for the letting of nearly six miles of Interstate 75 Freeway in Chippewa and Mackinac counties. When this contract is awarded, more than half of the State Ignance to Sault Ste. Marie Freeway will be either open to traffic or under construction.

Other projects include widening of U.S. 2 to five lanes between Waterford and Bessemer and paving of 80 miles of other highways.

Says Increases in Enrollment College Problem

LANSING (AP)—Dr. Lynn Bartlett, state superintendent of public instruction, said Wednesday that increasing enrollment in the state's 16 community colleges is one of the biggest problems facing his department.

Appearing before the con-con committee on education, Bartlett said that there were 27,890 students in these colleges last year, while current enrollment is 34,670. As background for the committee which is to consider possible changes in the constitutional sections concerning education, Dr. Bartlett gave the group a briefing on his departmental operations.

State to Reconsider Premium Pay Cut

LANSING (AP)—A review has been promised by the State Civil Service Commission of its policy abolishing premium pay for state employees on temporary tours of military duty.

Franklin K. Dowdell, state civil service director, said the commission will ask state personnel officers and others for their views on the issue at the Nov. 27-28 commission meeting.

The premium pay—full state pay on top of military pay—was abolished by the commission in February. The commission substituted a policy of supplementing any military pay with an amount to equal full state salary.

The reconsideration was ordered after military and veterans groups objected to the cutback.

'Stone Age Elvis' Smiles All the Way to His Oil Wells

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP)—John Boles who can smile when he is called "the Elvis Presley of the stone age," was back in Hollywood this week for a sentimental visit.

The tag was hung on him recently by a Houston newspaperman. Boles takes it in good humor. In fact, he smiles all the way to his oil wells.

Hollywood hasn't seen much of John Boles in recent years. He is remembered as a robust, devilishly handsome leading man who could lead desert wars with his baritone "The Desert Song," act fatherly to Shirley Temple "Curly Top," "The Little Rascals," busily to a host of anguished actresses—Rosalind Russell in "Craig's Wife," Barbara Stanwyck in "Stella Dallas," etc., etc.

He helped celebrate his return here to help celebrate another of his old tear-jerkers, "Back Street."

Boles was the apex of the triangle that included Irene Dunne and Doris Lloyd in the 1931 version. Charles Boyer, Margaret Sullivan and Nella Walker played the same game in the 1941 remake.

Now Rose Hunter, the noted ex-jumper of tried-and-true movie plots, has devised a 1961 version with John Gavin, Susan Hayward and Vera Miles. Boles, now invited to help beat the drums and to attend tonight's premiere.

"The picture business has changed," said the former actor, now silver-haired but still strikingly handsome.

State Population in '70 to Be High

Con-Con Told Figure May Go to 9.3 Million in This Decade

LANSING (AP)—If Michigan's birth and death rates don't change significantly, the state population should climb to about 9.3 million by 1970, according to the calculations of a Michigan State University professor.

The 1960 census put Michigan's population at about 7.8 million.

Dr. John F. Thaden of MSU Institute for Community Development, outlined Michigan's population trends Wednesday to a group of constitutional convention delegates. They are considering organization of the state legislature.

"Predicting populations is a very hazardous business," said Thaden. "I'm sticking my neck out."

He pointed out that his figuring could be upset by a substantial in-migration of residents from other states and by an unexpected change in marriage and birth rates.

"We should remember that there is going to be a big increase in the number of people of marriageable age in the next decade," he said. "Families have become larger in the last 15 years than they were before World War II."

The number of families moving in from other states—mostly Ohio, Indiana, Kentucky and Tennessee—dropped during the last 10 years and probably will decline during the next 10, he said.

Thaden said that estimates by the National Office of Vital Statistics putting Michigan's 1970 population at 10.3 to 10.9 million "are probably too high."

FRI.—"EXODUS"

"Everyone seems to be frantic these days. All the fun appears to have gone out of making movies. In the old days, we used to enjoy ourselves."

Boles has carved himself a new career in San Angelo, Tex. He keeps a Beverly Hills apartment, but spends most of his time amid the oil fields of Texas and Louisiana.

"NO BENEFITS"

"Yes, I saved my money," he remarked. "At least they won't have to be giving any benefits for me. When my career started to slow down, I didn't want to sit around. So when the opportunity came to get into the oil business, I jumped at it."

"I enjoyed my acting career, every minute of it. I enjoy the oil business, too; it's also busy and exciting. I like Texas. They think big."

He should like Texans; he is one himself. He was born on the first Christmas of the century in Greenville, studied pre-med at the University of Texas before World War I interrupted his studies.

He never went back. He studied voice more or less as a lark, managed to land the lead in a hit Broadway musical, Gloria Swanson brought him to films in 1927 for the silent "Love of Sunya." His booming voice made him ideal for a leading man when sound came in.

We've Come a Long Way Since Graphite Quills

NEW YORK (UPI)—The first wood-cased pencil was invented around 1868 in France.

Before that advance, graphite was pushed into quills or tubes, wound with string, or put in metal holders called pratt-boys.

State capitol building of Arkansas is patterned after the nation's Capitol structure in Washington, D.C.

Is Honeymoon Over 'Tween JFK and Ike?

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON—President Kennedy has been in the White House long enough, a little over nine months, to provide some insight into the way he operates.

If he could be said to have patterned himself after a model it would be President Eisenhower and not, as some have charged, extremely self-confident President Roosevelt or highly combative President Truman.

But what looked like the development of an unusually friendly personal relationship between Kennedy and Eisenhower may be coming to a quick end.

Throughout his eight White House years Eisenhower deliberately avoided quarrels—particularly with Congress—by refraining from attacks and feuds. Not so with Roosevelt or Truman.

Like Eisenhower
Kennedy has done the same as Eisenhower. There were times in the latter's presidency when he went less than all-out for some of the legislation he asked Congress to pass. The same goes for Kennedy.

This avoidance of quarrels by both men may not create in the public mind the image of an aggressive or even very positive president. But it gives few people an excuse for building up antagonisms against them.

It may explain to some extent why Eisenhower in his time, and Kennedy now, have stood so high in public opinion polls. There has never been much reason for the general public to get steamed up against them.

In one big detail there is a difference between Kennedy and Eisenhower in dealing with Congress. Kennedy, with 34 years' service there, has a sharper understanding of the intricacies, the dickering and maneuvering.

In foreign affairs Kennedy and Eisenhower administrations each committed one obvious blunder.

With Eisenhower it was letting the U2 spy-plane fly over Russia. Kennedy's could be charged down was, just before the 1960 summit conference with Premier Khrushchev, with Kennedy it was letting the Cuban invasion occur.

The main characteristic of both men in foreign affairs seems to be mildness—certainly in comparison with their main opponent, Premier Khrushchev—but trouble piled up for both of them just the same.

They'll probably pile up worse for Kennedy for a simple reason: The United States had a head start on the Russians in nuclear development. They needed time to catch up or outdo.

IN BETTER POSITION
With every passing day they get stronger. The result: They're in a better position to make trouble for Kennedy. This is no obvious difference between the two in the foreign field.

Eisenhower relied to an amazing degree on his secretary of state, John Foster Dulles, who did the tough talking for the administration and often gave the impression he was the one making foreign policy.

Kennedy is the dominant figure in foreign policy now. His secretary of state, Dean Rusk, who looks gray compared with the flamboyant Dulles, avoids belligerent noises while Kennedy does the main talking.

Even so, all their talking is mild. In nine months the harsh statements to the Russians were made last week by a man much further down the administration ladder, Roswell L. Gilpatric, deputy secretary of defense, although he did so with full approval of Kennedy and Rusk.

There was no relationship at all

for eight years between Eisenhower—several times—by personal visit, or phone—to get Eisenhower's But Kennedy went out of his way to open problems.

The foundation for a good relationship seemed well laid, can party, recently has talked no But it may be over. Eisenhower, only critically but derisively of piled.

Chiefs at Saginaw High Friday

I-L Will Finish With Top Games

By CHUCK ABRAH
The Inter-Lakes League rings down the curtain on another football season tomorrow with an outstanding finish on tap.

Each of the three games packs considerable interest.

The No. 1 contest will be at Southfield where Walled Lake tries to halt down another championship. But ranking close behind will be the Pontiac Northern invasion of Berkley.

Farmington will host Waterford in the afternoon in a dual which will settle the bottom of the standings.

Walled Lake is expected to make the grade and gain some sweet revenge because of its stellar defense and the running of Mike Hincley.

The Bluejays upset the Vikings last fall and eventually wound up sharing the crown with coach Dave Smith's gang.

Northern and Berkley will be pulling out all the stops because either one could gain a title tie with a victory should Walled Lake bow. Otherwise, they will be battling for runnerup honors.

The Huskies have been hot and cold since losing at Walled Lake. The offense looked better last week but the defense left much to be desired.

Farmington has had injury

problems all season. Now Waterford is in bad shape. Backs Lee Kelsner and Chuck Cole are through for the season and end Andy Straka is out with a back injury. The skipper offense made one of its top showings of the year last Friday.

A full schedule in the Eastern Michigan will have Birmingham Seaholm gunning for its 2nd straight success at East Detroit, high-riding Royal Oak Kimball at Port Huron and Hazel Park vs. Mt. Clemens.

Avondale gets a big test at Fitzgerald in a hot Oakland B race. Troy should line prodding post Oak Park while Lake Orion entertains Clawson.

Other major college defense leaders this week are Nebraska and Pennsylvania, which share honors in pass defense. Arizona State with the top punting average (43.1 yards a kick), and Michigan State and Ohio State, the stingiest giving up points.

Other major college defense leaders this week are Nebraska and Pennsylvania, which share honors in pass defense. Arizona State with the top punting average (43.1 yards a kick), and Michigan State and Ohio State, the stingiest giving up points.

FORWARD PASS DEFENSE		
Plays	Yds	Per
1. Nebraska	42	18
2. Penn	42	18
3. Auburn	42	18
4. Minnesota	42	18
5. Iowa state	42	18

Ordered still be gunning for an upset and revenge for an earlier setback to get back in the South Central title picture against Inver City, Millington vs. North Branch.

The Southern Thumb state has almost at Capac, Dryden host to Memphis, Armada at Brown City and Anchor Bay vs. New Haven.

Birmingham Grizzlies is at Cross Pointe U.S., Orionville visits Lake Penton, Lamphere vs. Clintondale, Ferndale should have another touchdown parade against Dearborn, Madison plays Garden City, Royal Oak Donders goes to Monroe and South Lyon meets Jackson St. Mary in their Friday action.

Saturday, Rochester goes after the Tri-Country clincher at L'Anse Creuse, Emmanuel Christian hosts Country Day and Cranbrook against Shady Side. Sunday's schedule will feature the 1st grid meeting between St. Michael and Our Lady of the Lakes.

From now on the Chiefs will be fighting to finish as high in the final Saginaw Valley standings as they possibly can.

By winning their two remaining Valley games, the Chiefs could finish as high as 5th. The victories would assure them of 6th place in the nine-team circuit.

They enter tomorrow's contest with a 1-4 record, all in SVC combat. Saginaw is 1-4 in the 1-5 altogether.

The lone PCH and Saginaw 'was have been at the expense of Flint Northern, which has yet to taste victory in six starts.

Pontiac handed the defending Valley champs 7-4 setback at Flint and the 'Trojans beat them at Saginaw, 12-0. When the Trojans conquered them, it was their first SVC triumph since the end of the 1957 season.

After Friday's battle, the Chiefs will be idle for one week before concluding their Valley campaign Nov. 10 against Flint Southwestern at Winder.

Half a dozen Saginaw regulars are ailing and three of them may not see any action against PCH. The injury situation makes PCH a slight favorite in this battle of the 1957 season.

The Chiefs are in sound physical condition for the contest, but they'll have a new fallback to the starting lineup. Paul Holworth and Gene Luppino are expected to alternate at the position in place of Andy Beach, who has been suspended from the squad for disciplinary reasons.

Bay City Central and Midland, both once-beaten, collide tomorrow night at Midland with the loser being eliminated from the Valley race. Unbeaten Hardy entertains Southwestern in another SVC game.

PCH Gridders Seek 2nd Win in Valley Race

Pontiac Slim Favorite Over Crippled Trojans on Enemy Soil

By BILL CORNWELL
Saginaw High's crippled Trojans may catch Pontiac Central on the rebound Friday night when the two Saginaw Valley Conference foes clash at Saginaw at 8 o'clock.

The Chiefs hope to bounce back from last Saturday's dismal showing at home when Michigan's top-ranked team, Bay City Hardy, dealt them a 33-0 beating at Winder Stadium.

It was the poorest performance of the 1961 season for coach Paul Deffenha's gridders, who had been in contention in every game until that fiasco with the Wildcats.

From now on the Chiefs will be fighting to finish as high in the final Saginaw Valley standings as they possibly can.

By winning their two remaining Valley games, the Chiefs could finish as high as 5th. The victories would assure them of 6th place in the nine-team circuit.

They enter tomorrow's contest with a 1-4 record, all in SVC combat. Saginaw is 1-4 in the 1-5 altogether.

The lone PCH and Saginaw 'was have been at the expense of Flint Northern, which has yet to taste victory in six starts.

Pontiac handed the defending Valley champs 7-4 setback at Flint and the 'Trojans beat them at Saginaw, 12-0. When the Trojans conquered them, it was their first SVC triumph since the end of the 1957 season.

After Friday's battle, the Chiefs will be idle for one week before concluding their Valley campaign Nov. 10 against Flint Southwestern at Winder.

Half a dozen Saginaw regulars are ailing and three of them may not see any action against PCH. The injury situation makes PCH a slight favorite in this battle of the 1957 season.

The Chiefs are in sound physical condition for the contest, but they'll have a new fallback to the starting lineup. Paul Holworth and Gene Luppino are expected to alternate at the position in place of Andy Beach, who has been suspended from the squad for disciplinary reasons.

Bay City Central and Midland, both once-beaten, collide tomorrow night at Midland with the loser being eliminated from the Valley race. Unbeaten Hardy entertains Southwestern in another SVC game.

Bloomfields Battle Tomorrow at Keego

By DON VOGEL
The annual "Bloomfield Championship Game" moves to Keego Harbor this season.

When Bloomfield Hills and West Bloomfield square off on the Lake Erie field at 8 p.m. Friday night, the Hills eleven will be after its first win over West Bloomfield since joining the Wayne-Oakland League five years ago.

"West Bloomfield and Northville, always the strong teams in the league, are the only schools we haven't defeated," said Hills coach Don Hoff. "I have hopes that we can put this number to one school on Friday."

The Barons need a victory to keep their slim championship hopes alive. Northville can clinch a share of the crown by beating Clarkston Friday. Should the Lakers ship, the Mustangs could take it all.

Holly, also needing a West Bloomfield triumph to help the Broncos regain second place, play at Milford. Brighton takes on Clarksville.

Roger Stewart, the leading scorer in the county with 8 points, is the key ball carrier in Bloomfield Hills' winged T and single wing offense.

POWERFUL SWEEPS
The 160-pound junior is a strong runner off tackle and around the ends. He is a better than average passer.

Stopping Stewart is one of the problems facing the Lakers. Defense Stewart is the outside, and 180-pound Bill Pettibone powers up the middle. Fritz Stresen-Reuter complicates matters with quick dives and inside reverse.

The Barons are tough on defense with lineman Tom Pinner, Bob Young and Bill Cahoun as the key players. Ed John Schweppe is a solid blocker and pass receiver and plays in the backfield on defense.

Only one regular is back from the 1960 West Bloomfield team that downed the Barons; 28-14, on the way to the league championship and an unbeaten season. He junior end Dave Helmreich.

The 192-pounder does everything well, according to coach Art Padley. He was hampered by a bad ankle in the loss to Clarkston, and may be slowed this week for the same reason.

The Lakers stayed in title contention until the upset by Clarkston.

"We have been playing pretty good ball," said the coach. "But we have trouble getting across the goal line."

NCAA Discusses National Eligibility

NEW YORK (AP) — The day may not be far off when national uniform eligibility requirements will govern college sports.

"We are working on tests that will give us a picture of how a boy should do academically," said NCAA Executive Director Walter Byers today. "I don't know when they'll be perfected, but it shouldn't be too long."

The NCAA's policy-making 16-man council ended its regular fall meeting Wednesday and one of the resolutions it passed called for the setting of minimum eligibility rules for all colleges.

Robert F. Ray of Iowa State is the chairman of the committee that is looking into the matter. It probably won't have a report available for the NCAA convention next June 12-13 in Chicago, but by then it probably will have made considerable progress.

"This, of course, has nothing to do with admission," said Byers. "That is strictly for the colleges to decide. But eligibility for athletics does fall in, our sphere and we would like to work out something."

"For example, we don't think a regular test would do the trick.

The boy might be having an off day and make out poorly. One of the apparently successful devices has been to combine a test with a look at his four years of high school. It is surprising how accurate a projection you can get for college years."

Setting minimum eligibility requirements on a national scale long has been considered something of a utopia among college administrators.

However, it may not be as difficult as it seems. One authority close to the colleges estimated that of the more than 500 institutions that hold membership in the NCAA, only about 100 would be forced to raise their requirements.

"Anything like this on a national scale," said the source, "must necessarily be fairly low. Most of the schools now have requirements higher than we would demand."

The three-day meeting produced some definite action by the AAU in regard to its feud with the AAU over the administration of the sport.

Dawson Scores Victory in Pinehurst Seniors

Pontiac's "Mr. Senior Golf" Bob Dawson is still winning tournaments. The 81-year-old former Pontiac Central star athlete returned from Pinehurst, North Carolina, winner of his flight of the 10th annual North-South Invitation Seniors' championship.

Dawson defeated four players in match play to win the title in the third flight.

A total of 370 entries took part in the tournament including 14 Michigan golfers of which were Myron Patterson of Bloomfield Hills and Lew Swenson of Orchard Lake along with Dawson.

Beach to Stay on Sick List

Patriots Told to Keep Pontiac Back Out for 30 Days

BOSTON (AP)—American Football League officials changed their minds Wednesday and ruled that the Boston Patriots must keep defensive back Walter Beach, of Pontiac, Mich., on the 30-day disabled list.

AFL officials had said only Tuesday night that Beach could be put back on the Patriots roster. Beach was put on the disabled list last week when suffering from bleeding ulcers and it was thought that Ross O'Hanley would be available despite his being called into the service.

Boston moved to regain Beach when AFL commissioner Joe Foss ruled that no militarized personnel could play even if available on weekends.

Assistant AFL commissioner Milt Woodard said the change was made because of "heavy protest from other clubs" in the league.

The Patriots play the Texans at Dallas Sunday.

Nation's Best Jumpers Enter President's Cup

WASHINGTON (AP) — Some of the country's best open jumpers, plus international team riders, compete tonight in the qualifying round of the President of the United States Cup at the Washington International Horse Show.

Only 15 horses will get into Friday night's finals—an event to be witnessed by the first lady, Mrs. Jacqueline Kennedy, who will present the cup to the winner group.

Both amateurs and professionals can compete and the entry list includes a score of horses who already have captured prize ribbons in the show here.

A key contender is Grey Aero, now the show's leading point scorer among open jumpers. The grey gelding is owned by Frank Imperatore of Cannonsburg, Pa.

Michigan Ski Week Starts With Parade on Saturday

Governor John B. Swainson's proclamation of "Michigan Ski Week" October 30 to November 5th, will get under way with the 6th annual Great Lakes Ski Show and convention parade Saturday afternoon downtown Detroit.

The parade, featuring colorful floats of the various ski clubs in Detroit area, will begin at 1:00 p.m. and the parade route will be Woodward at Montclair south to-Cobo Hall.

Highlight of the parade will be

the float with the final finalists vying for the Ski Queen title. The Queen will be chosen prior to the opening of the 3 day ski convention, Nov. 3 at Cobo Hall.

The convention, which drew more than 10,000 spectators last year will have 10 exhibits along with a program of ski guests, movies, fashion shows, musical shows and two big ski dances.

Friday night, November 3rd, the first activity will be the dance called "Prelude to Skiing."

On Saturday and Sunday, Nov. 4-5, the arena will open at 10:00 a.m. for the exhibits and other parts of the program.

The Coronation Ball, Saturday night will be featured by the crowning of the 1962 Ski Queen.

Another Packer Lost to Service

GREEN BAY, Wis. (AP) — Coach Vince Lombardi isn't sure what's going to happen to his Green Bay Packers, rocked Wednesday by the loss of a third football star who was ordered to report for active military duty.

The latest to get the call to Army service was flanker back Boyd Dowler. Summoned earlier were halfback Paul Hornung and center-linebacker Ray Nitschke.

"They (the Army) are doing a good job on us," Lombardi said. "You can't lose three front-liners and keep winning. I'm afraid of the demoralizing effect this will have on the club. There's nothing we can do about it. All we can do now is show up."

Lotus Holds League Lead

Lotus Lake saw its first-place margin shrink to two games this week as both the co-runnerup squads recorded shutouts in the Waterford Township Recreation Department men's volleyball league.

Lotus Lake won just two of its three games against Lake Oakland Heights (15-16, 15-10, 16-10), but second-placer Comets blanked the Bombers, 15-0, 15-0, and Williams Lake whitewashed North Lake, 15-0, 15-0, 15-0.

Highland State swept Shumbe Buns, 15-0, 15-0, 15-0, then grabbed two from North Lake, 15-0, 15-0, 15-0, and Wilson Street shut out Pacific Lake, 15-0, 15-0, 15-0.

Hoople Out of Gas? Picks Only 1 Upset

By MAJOR AMOS E. HOOPLE
The Fearless Predictor
Egad, friends, it is nice to re-
spect that after several hectic week-
ends things are about to return to
normal.
After carefully weighing all
factors, the Hoopie System sees
most of the major games follow-
ing the form sheets.
True enough, there will be a mild

The Detroit Red Wings return to
action tonight at Boston hoping to
gain two more points before head-
ing into a home-and-home series
with Montreal this weekend.

A four-day grand opening cele-
bration starts at "300" Bowl to-
night at 8 with the appearance
of the famed Faircliff team. Billy
Wick, Frank Clesse and a band
will be some of the other fea-
tures.

Northern Michigan ranks a close
second in the AP Small College
and NAIA polls this week.

Infielder Dick McAuliffe of the
Tigers enters the Air Force to-
day for a six-month tour of active
duty. He is expected to be
available for most of the 1962
season.

It's official now. Iowa quarter-
back Wilburn Hollis is out for the
rest of the year. Hawkeye kickoff
ace Gary Fletcher is also finished.
Clemson quarterback Tom Black
will miss the Auburn game.

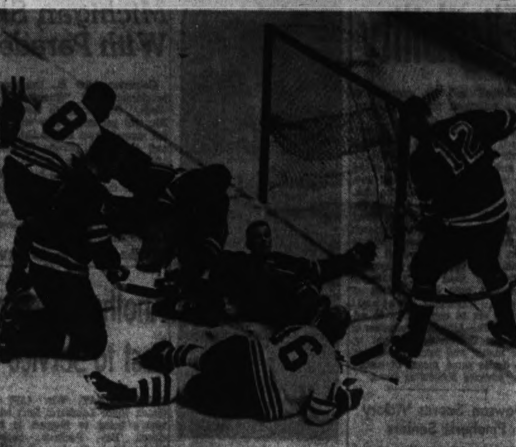

Wins Pace for Charity
JACKSON (8) — Grand Chief Volo
won the featured Torch Drive Race
at Jackson Harness Raceway last
night and returned \$27.40, \$16.00
and \$10. Net proceeds of the race
were donated to the Jackson County
Torch Drive.

upset here and there, and a major
one in the Southwest.
In the cow country's top con-
test, the Rice Owls will prove to
be a nightmare for host Texas in
the final night engagement for
both clubs. I predict a Rice
triumph, 18-16 — har-rumph!

Cubs' 3rd Sacker Voted Best Soph of 1961 in NL

SEATTLE (AP) — The National
League sophomore of the year
refilled his visitors' coffee cups
and said he believed nice guys
can succeed, too.
"You hear it repeated every-
where that an athlete has to be
mean to get ahead," Ron Santo
said today. "I don't believe it.
Determined, yes; nasty, no."
The smile Santo wore as he
talked to reporters in his subur-
ban apartment was even broader
than usual. The 21-year-old third
baseman of the Chicago Cubs had
just learned of his selection in the
annual Associated Press poll as
the league's best second-year
player of 1961.

NET BATTLE—Four players sprawl on the ice in a battle around the net in the Chicago-New York hockey game last night. Rangers' Doug Harvey, center, Marcel Paille (1), Al Langlois (4) and Andy Hebenton (12) are shown in the picture with Hawks Bobby Hull (16) and Murray Balfour (8).

Gross Regains Total Offense Lead

NEW YORK (AP) — Jerry Wright, gave Gross a 201 yard lead.
Gross, whose efforts to keep De-
troit's record unblemished, has
regained the No. 1 standing in the
nation's major college total of
nation's standings.
The NCAA Service Bureau said
today that Gross' 284 yard effort
in a losing cause against Navy
last week was the best individual
effort of the season and rocketed
the junior quarterback into a com-
manding position in the total of-
fense race with 988 yards.

Gross led early this season, but
after an open date fell behind
James Earl Wright of Memphis.
Gross' effort last week, coupled
with an injury-enforced layoff for
Wright, gave Gross a 201 yard
lead.

In other individual rankings,
Pete Pedro of West Texas State
leads the ball carriers and Chon
Gallegos of San Jose State leads
the passers, each for the fourth
straight week. Bill Wright of Brig-
ham Young leads the punters with
a 43.08 average.

Pedro, who has carried for 646
yards on 66 tries for a 9.8 aver-
age, also leads in scoring with 94
points. Gallegos has completed 62
of 105 passes. Gross is second
with 59 completions in 120 tries.

Saban Hired by Bills
BUFFALO, N.Y. (AP) — Lou
Saban, recently fired as head
coach of the Boston Patriots,
Wednesday night was named di-
rector of player personnel of the
Buffalo Bills of the American
Football League.

Pugil sticks are used to teach Marine recruits the fundamentals of bayonet fighting. The Michigan Marines are undergoing recruit training at San Diego.

Michigan UP Copper Under New Demand

LANSING (U)—Some encouraging signs for copper production in Michigan's Upper Peninsula were cited at the annual conference of the Michigan Natural Resources Council at Lansing.

James Boyd, president of the Copper Range Co., owner of the White Pine Mines in the Upper Peninsula, said there was a growing demand for Michigan copper.

Subject of the annual meeting, Wednesday was iron and copper in Michigan's economy.

One in Michigan's copper mines is only about one per cent, he said, while South American mines have two per cent and some in Africa have as high as seven per cent.

"But the Michigan ore has quality that is just being recognized as best and the demand is growing on the world market," Boyd said.

The deeper the mines go in foreign countries, Boyd said, the higher their production costs will rise.

POLITICAL STABILITY
The political stability of the United States also makes the supply of copper here certain while governmental problems sometimes upset production in African and South American countries, he said.

Rev. Louis Cappel, of Christ the King Church at Ramsey, told the group there is one aspect of the problem of iron and copper production which overrides all others in importance.

"We know," he said, "the future life of the Marquette and Gribble Iron ranges depends on

low grade ores and the ability of mine operators to develop large scale beneficiation and pelletizing operations.

"The one missing element is natural gas—large supplies of low cost natural gas."

Fr. Cappel said the proof of the value of natural gas may be seen in Minnesota, where a tremendous investment in ore processing equipment has resulted from the availability of natural gas.

"Time after time," he said, "we in the Upper Peninsula have thought natural gas was within our grasp, but each time it has been jerked away from us. Let us not fail to recognize the immediacy of this matter."

Ralph A. MacMillan, of the State Conservation Department, was elected council president. Other officers named included:

O. S. Myers, United Conservation Clubs, vice chairman; William Colburn, State Conservation Department, secretary; Raleigh Barlowe, director of research development at Michigan State University, treasurer, and Mrs. Maxine Briggs, Federated Garden Clubs, executive committee.

Cahn, Wife Out of Tune

HOLLYWOOD (UPI)—Academy Award-winning songwriter Sammy Cahn and his wife of 15 years, Gloria, have separated, but have no immediate plans for a divorce, according to a family spokesman.

Editor Succumbs

BRIDGEPORT, Conn. (AP)—Andrew Hutchinson Lyon, 71, managing editor of the Post Publishing Company newspapers in Bridgeport since 1943, died Wednesday. Lyon had been ailing since 1954 except for two brief periods.

Dakota means an alliance of Dakota friends and is a word of the Sioux.

Young Terry was born in Germany when his dad was on active duty and returned to the U.S. 19 months ago.

Ghosts to 'Spook' on Tuesday Night

The big countdown will begin in many Pontiac area homes this weekend. Sometime Tuesday, if the wind is right, thousands of weird and colorful little rockets will be launched from home pads.

There'll be creepy goblins, happy clowns, friendly ghosts, withering witches and a few "period" items.

Health Officers Discuss Fallout

Convene in Washington to Consider Protective Measures

WASHINGTON (AP)—Health officers from every state meet today in an extraordinary session designed largely to consider protective measures that might be taken if nuclear fallout reached acute proportions.

The two-day meeting, called by the Public Health Service, brings together about 100 federal, state and local health officers. The sessions are closed to newsmen.

Dr. Francis Weber, chief of the service's radiological health division, said there was no cause now for serious concern. He added that while information still was lacking about fallout effects of the Soviet Union's big nuclear blast of last Monday, any significant hazard springing from the current Soviet test series probably would not arise until next spring.

Then, most of the fallout from all the Soviet tests, now lodged (Continued on Page 2, Col. 3)

Tanks Re-Enter E. Berlin

Groups Lobby at Con-Con for 'Earmarking'

Highway, School and Village Representatives Would Hold Taxes

LANSING (AP)—Representatives of schools, highway builders, cities and villages pleaded with constitutional convention delegates Wednesday night to keep their hands off tax revenues earmarked for special purposes by the state constitution.

They warned that programs vital to state welfare would suffer serious damage if the assured income, paid under legislative control, August Schille, Michigan AFL-CIO president, offered the same advice. He said the legislature couldn't be trusted to spend the money wisely.

The convention's committee on finance and taxation, conducting the first public hearing of the four-

See Other Stories on Pages 18, 20 and 39

week-old session, heard only one recommendation for restoring earmarked funds to legislative control.

On other side, Mrs. Irwin Whitaker of Lansing, legislative chairman for the Michigan League of Women Voters, told the overflow crowd that earmarking of revenues "must be greatly reduced, even eliminated."

"Earmarking of funds, whether by statute or by constitutional guarantee, restricts both the legislative and executive branches from performing those duties for which the voter thought he was electing them," she said.

Much of the blame for Michigan's financial troubles, she said, "lies squarely at the door of dedicated revenues."

To PER CENT EARMARKED Nearly 70 per cent of the \$12 million the state collects in taxes is earmarked by state law or the constitution.

Gas and weight taxes set aside for highway programs are "absolutely essential to sound physical and financial highway construction planning," Howard E. Hill, managing director of the State Highway Department, told the committee.

"It is fair and logical that highway user revenues be used exclusively for highway purposes," he said.

Plans for continued earmarking (Continued on Page 2, Col. 3)

Put Overcoats on Your Posies ... 34 Tonight

Gardeners better cover tomato plants and flowers tonight. The Weather Bureau predicts a low-freezing temperatures in the suburbs and a low of 34 in Pontiac. Skies will be clear.

Fair and cool, the high reaching 55 in Friday's forecast. Partly cloudy and warmer with a chance of showers is the outlook for Saturday.

Morning northerly winds at 11 miles per hour will become 15 to 25 late today and diminish tonight.

Forty-two was the lowest recording in downtown Pontiac preceding 2 a.m. The reading was 49 at 1 a.m.

GM Reporting Profits Down

Third Quarter Shows \$1.3 Million Less Than Same '60 Period

DETROIT (AP)—General Motors made less money in the third quarter this year than last and today Chrysler will announce a loss for the July-September period. The Chrysler report will come following the close of the New York Stock exchange. Last year Chrysler earned \$1.4 million in the third quarter. Its first profit for the period since 1957.

The General Motors report, made Wednesday night, showed a net of \$67,811,746 for the quarter compared with \$69,143,941 for the similar period of 1960. The corporation said quarterly earnings per share of common stock were 30 cents in both years.

Studebaker Packard, the only other automaker to report so far, lost \$1,447,822, down sharply from a loss of \$3,254,739 in the third quarter last year.

Ford will announce its earnings next week. American Motors, which operates on a fiscal year which ended Sept. 30, will report considerably later.

General Motors said it earned \$528 million in the first nine months of this year against \$701 million in the similar period of 1960. Sales dropped from \$2.51 billion last year to \$1.78 billion this year.

Chairman Frederic G. Donner, President John F. Goheen said much of the difference between the two years stemmed from record production during early 1960 to make up for output lost during the 1959 steel strike and lower sales in the third quarter of this year brought about by a United Auto Workers Union strike which shut off production for 10 days.

Seek Way to Step Up UF Drive

STRATEGY MEETING—Four leaders in the UF commercial division's small teams group met this morning to discuss means of stepping up their campaign in view of returns of only \$1,081 on a goal of \$13,445. They are from left to right: Unit Captain Ralph Rotsel, Vice Chairman in Charge of Small Teams E. W. Watchpocket, Group Chairman James R. Jenkins, and Unit Captain Gerald Ray.

\$4,500 Collected in 2 Days Puts Women Near UF Goal

Fast and slow returns were mixed this morning in reports by the Women's Campaign Committee and the Commercial Division of the Pontiac Area United Fund Campaign.

The women saw themselves in sight of victory, as \$4,500.01 collected during the last two days boosted their total to \$17,331.34. This is 64 per cent of their \$27,000 goal.

Commercial division leaders found less reason for optimism as three of their five groups showed low returns ranging from 38 to 39 per cent of respective totals.

However, the commercial division still has until Nov. 10 to complete its calls, while the women's division has less than two days remaining in its house-to-house canvass to raise another \$10,000.

"The results to date are very encouraging," said Mrs. Walter Nafziger, Women's Campaign Committee Chairman. "We will have a big job ahead of us and very little time. All solicitors are urged to redouble their efforts in the final stage of our campaign."

66 PER CENT IN Mrs. Joseph Fox, Pontiac co-chairman reported \$9,788.23 or 66 per cent of Pontiac's \$14,855.55 goal has been raised.

Districts and chairmen "over the top" since the last report are: Mrs. Robert McInnis, District 3; Mrs. Charles Woon, District 17; Mrs. Gerald W. Stanke, District 21; Mrs. Paul Brown, District 22; Mrs. Conrad Tarnquist, District 24; Mrs. Richard Davenport, District 25 and Mrs. Roderick E. Hoover, District 26.

Waterford co-chairman, Mrs. Elmer O. Johnson reported \$8,449.11 or 58 per cent of Waterford's \$14,535.49 goal has been met.

Additional districts and chairmen exceeding their goals are: Mrs. Robert Mosser, District 3; Mrs. Paul Lund, District 12; Mrs. Samuel Lund, District 13; Mrs. Duane Jones, District 16; Mrs. Louise Burmeister, District 20; Mrs. Delvin Richardson, District 23; Mrs. Floyd Beauchamp, District 25.

With visions of a sensational story dancing in my head, I approached the lot.

It was all foreign. Giddings smiled, and I forgot the sensational news story. Instead I spent 20 minutes with Giddings examining the funny little coins in his collection.

They're all worthless to the city. The city calls them rejects. As money from parking meters is sorted mechanically, the sorting machines reject anything with a nonconforming size or weight.

KEPT IN DESK "A few years ago I thought it would be interesting to see how many different countries we get coins from so I started keeping the rejects in my desk," said Giddings.

"I usually replace them with a nickel or dime of my own," he quickly added.

The little collection now represents 15 nations from every continent except Africa. There may be more nations represented because Giddings can't tell the difference between Japanese and Chinese coins.

(Continued on Page 2, Col. 1)

3 Jeeploads Accompany Civilian Car

Firm on Open Border, Armed Soldiers Road Past Commie Guards

BERLIN (UPI)—The U.S. Army sent three jeeploads of armed soldiers, with guns loaded and cocked, past Communist guards today to escort an American civilian sedan into East Berlin.

For the second day in a row, U.S. troops drove into East Berlin to show American determination to keep the divided border open in Western traffic.

Five tanks and four armored personnel carriers roared up the border when the civilian car first stopped at the crossing point this afternoon. They stood still as

Related Story on Page 9

the jeeps — one in front and two behind — escorted the vehicle past the fed guards.

After the jeep convoy completed its shore-to-shore run, newsmen on the scene said the Friedrichstrasse crossing point remained open with automobiles passing through without trouble.

By a little after 4 p.m. (11 a.m. EDT), the American tanks pulled away from the border area and presumably returned to their tank parks.

"I guess we can all go home now, the fun's over," an American officer told reporters.

The combat-clad soldiers in the jeep "carried" the sedan, with fixed bayonets and had their sub-machine guns cocked and loaded.

They crossed the white line marking the East-West Berlin border and moved quickly past the Communist guards without opposition.

The convoy went through the zig-zag maze on the Eastern side of the border put up by the Communists to slow traffic.

Once past the check point and the Communist guards, the civilian car moved away from the convoy and disappeared into East Berlin.

JEeps RETURN The three jeeps turned and rolled back into West Berlin at high speed at 9 a.m. A few minutes later, the civilian car also returned. A U.S. Army helicopter circled over the general area throughout. Presumably, the pilot could witness the progress of the sedan while it was inside East Berlin.

Each of the jeeps had a driver and three MPs. The soldiers wore helmet masks and bullet-proof vests.

The convoy was sent in to again underscore American determination to maintain the right of free access to East Berlin without East German consent.

It defied an East German warning that such armed convoys were playing with fire.

At 10:08 a.m., a British military truck containing the British provost marshal and several British soldiers returned from a drive to East Berlin, presumably having made a reconnaissance.

Earlier, Communist border guards had refused to pass a French official sedan with a French soldier driving and carrying two women passengers.

Parking Meter Nonconformists

Treasurer Admits Hoard

By DICK SAUNDERS

Dear Boss: While making the rounds at City Hall one day last week, I noticed Pontiac City Treasurer Walter A. Giddings sneak into his office, his pockets jingling with the sound of money.

Recalling an old sage—"Be wary of a treasurer with jingling pockets"—and remembering that recently another Oakland

commonly had suffered "losses" in parking meter revenue, I followed Giddings.

As I opened the door, he was putting a handful of change in his desk.

"Ah ha," I cried. "Just where did that money come from?"

"Parking meters," he said, startled treasurer.

"How long has this been going on?" I asked.

"Oh, a couple years," he replied coolly.

With visions of a sensational story dancing in my head, I approached the lot.

It was all foreign. Giddings smiled, and I forgot the sensational news story. Instead I spent 20 minutes with Giddings examining the funny little coins in his collection.

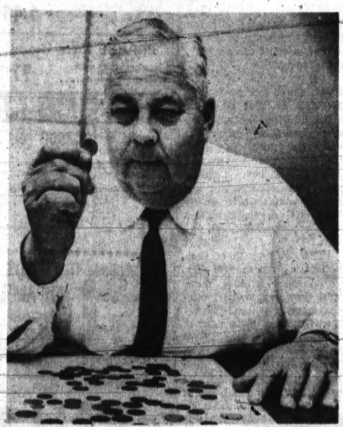

They're all worthless to the city. The city calls them rejects. As money from parking meters is sorted mechanically, the sorting machines reject anything with a nonconforming size or weight.

KEPT IN DESK "A few years ago I thought it would be interesting to see how many different countries we get coins from so I started keeping the rejects in my desk," said Giddings.

"I usually replace them with a nickel or dime of my own," he quickly added.

The little collection now represents 15 nations from every continent except Africa. There may be more nations represented because Giddings can't tell the difference between Japanese and Chinese coins.

(Continued on Page 2, Col. 1)

METER MONEY—Walter A. Giddings examines some of his collection of foreign coins from Pontiac municipal parking meters. Giddings, city treasurer, has built up the collection over several years. The coins are all rejects from machines that sort money from the meter collections. His rejects come from points as distant as India and Australia.

Power Failure Results in The Press Being Late

Failure of two 4800-volt Consumers Power Co. switches yesterday cut off power for approximately 20 per cent of the downtown Pontiac area, resulting in an extremely late press run of The Pontiac Press.

The failure occurred at 1:22 p.m., halting electricity to most businesses in the northwest downtown section bounded by Saginaw, Lafayette, Orchard Lake Avenue and the Grand Trunk tracks.

Consumers emergency crews began shunting power around the switches, located in the power vault at The Press, and some firms in the affected area were back in operation in 20 minutes.

Power was restored to The Press at 2:42 p.m., and the press run continued. Cause of the switch failure is still unknown, according to Gordon A. Low, electrical distribution superintendent for Consumers.

The Press regrets the delay in delivery to its customers.

HELP FOR CHILDREN—A grant of \$2,000 for children at Pontiac State Hospital was made yesterday by the Michigan Association for Emotionally Disturbed Children. Representing Detroit's Women for Emotionally Disturbed Children, which collected the money at its Carousal

Push U.N. Appeal on Super Bomb

By TOM HOGG
UNITED NATIONS, N.Y. (AP)—Bolstered by a thumping 75-10 vote of approval from the U.N. political committee, delegates pressed today for quick General Assembly action on an appeal to the Soviet Union to refrain from exploding a 30-megaton hydrogen bomb.

Treasurer Reveals Parking Meter Hoard

(Continued From Page One)
writing so he classifies all the ornamental coins as one nation.

Switzerland, Germany, Cyprus, Italy, France, Luxembourg, Portugal, Austria, Belgium and the Netherlands are represented.

So are Australia, India, Argentina, Brazil and Mexico.

The collection even sports a token advertising "gold bars with the nylon live center," a nonconformist if there ever was one.

FROM PARKING METERS

"The interesting thing is that all these come from parking meters in this city," Giddings said.

He figures most were put in the meters by mistake.

Recently minted coins may have come from servicemen home on leave or persons returning from a vacation abroad," he said.

There are no valuable collector's items in American currency, such as gold pieces, Giddings noted.

"I'd give the whole collection for just one good old American nickel," with an Indian head on both sides," he said with a chuckle.

NATIONAL WEATHER—It will be cooler tonight in the eastern third of the nation and in the Pacific Northwest while a warming trend is expected in the Great Plains. Showers are forecast for the Central Gulf Coast and the Dakotas while the North Pacific Coast will have drizzle. Snow flurries are expected in the Northern Rockies.

The Day in Birmingham To Help in Observance of World Community Day

BIRMINGHAM—Dr. W. Glenn Harris, minister of the First Presbyterian Church here, will be featured speaker Nov. 2 at the Northminster Presbyterian Church-Troy, as part of a nationwide observance of World Community Day.

The 10 a.m. program, sponsored by the United Church Women of Birmingham, has for its theme "Freedom To Know" to point up the organization's program of "peace, education and action."

Dr. Harris, who has spent considerable time in Latin American nations will discuss the needs of these countries.

Devotions will be given by Rev. Mackay Taylor, pastor of the host church. Special music will be provided by the Methodist Women's Hand Bell Choir, conducted by Rodney Peterson.

Mrs. N. Ralph Tucker, program chairman, said that in keeping with the emphasis on education, the church women are making school bags and equipping them with basic school supplies.

These will be distributed in Latin America where advances are being made to increase educational opportunities, Mrs. Tucker added.

The church women also have been sewing simple school outfits and collecting children's use sweaters and coats to be distributed.

Offerings received on World Community Day will help train Latin American women in adult education, either in their own or other countries, and further United Church Women's international relations program.

Reservations for the annual observance can be made by contacting the offices of the 13 member churches.

A pioneer developer of "teaching machines," Dr. Maurice B. Mitchell, will speak to Friends of Baldwin Public Library at 8:15 p.m. Wednesday.

Dr. Mitchell will discuss "The Revolution in Education" in the library auditorium, 331 Martha St. He will review his recent trip to Africa as consultant in education to 46 nations.

President of Encyclopedia Britannica Films, Inc., Dr. Mitchell has led his organization into a major role in the field of programmed self-instruction (teaching machines) and in advanced use of films to solve problems in science education.

The meeting is open only to members of the Friends of the Library. The group, however, is currently inviting interested persons to join by calling or visiting the library, or by obtaining membership at the door before the meeting Wednesday.

William S. Kirkpatrick, Service for William S. Kirkpatrick, 31, of 787 Redding Road, will be 1 p.m. tomorrow at the Bell Chapel of the William R. Hamilton Co. Burial will be in Ripley, Ohio.

Mr. Kirkpatrick was fatally injured Tuesday when he was struck by a car in Royal Oak.

A Birmingham resident 29 years, coming from Pleasant Ridge, he was a sales representative.

UF Helps Channel 'Vital Boy Power' on Tuesday Night

(Continued From Page One)
All local prizes to the elementary school winners will be delivered to the schools the following day.

Many local communities are conducting local mystery tests, contests, to supplement the city-wide mystery test program, for the youth that are in their immediate community. Registrations for these local contests will be available at the parties in the communities.

Pontiac YMCA will sponsor a boys and girls Halloween Party Tuesday from 3:45-5:30 p.m. at the YMCA, 131 Mt. Clemens St.

Members and guests, ages seven and older are required to register at the office before Saturday noon.

Prizes will be awarded for the best costumes, refreshments will be served, games and perhaps a few snacks are in store for those attending.

Promptly at 6 p.m. Tuesday, Oxford Township fire department sirens will sound off for 10 seconds, announcing the start of Halloween's "Trick or Treat" session for youngsters in kindergarten through the sixth grades.

SPECIAL PARTIES
The door-to-door visitations will continue with the second sounding of the sirens at 7 p.m. Children in grades three through six will go to five locations and participate in special parties.

Locations of the parties and their sponsors are as follows: Community Center, by Waterford; Drayton Rotary; Denelson school; Waterford Junior Chamber of Commerce; Strongham school; Waterford Kiwanis Club; Drayton Plains schools; Waterford Lions; and Leggett school, Waterford Optimist club.

It is in the interest of every citizen in our community to see that the Boys' Club of Pontiac is able to keep pace with the increase in population, to enable us to improve the opportunities for boys in this area to grow into useful and creative citizens.

Given 'Til Nov. 15 to Estimate '63 Defense Budget

AVON TOWNSHIP — The township board will have to come up with an estimate of its 1963 civil defense budget by Nov. 15, CD Director Charles Merrill warned last night.

The board must file an estimate of its needs for that year with the state Office of Civil Defense in order to qualify for federal matching funds.

An estimate of monies to be

used for CD equipment in 1963 does not obligate the township to the money, Merrill explained. It is the money, Merrill explained, that is used by Congress when matching appropriations are set aside for the states.

He pointed out that even if the joint CD ordinance with Rochester passed this grant will be needed and could be provided for the village.

Morell said that Rochester also has an application for the federal funds and that action on both grants must be filed before Nov. 15 with the state Office of Civil Defense.

TIME NEEDED

Supervisor Cyril E. Miller set Nov. 8 as the date for the township's estimate to be made on the grounds that time is needed to coordinate this action with that of the Rochester Civil Defense group.

The Board of Trustees approved a change in its regular meeting dates. The first and third, instead of second and fourth, Wednesdays in December are set for the board sessions.

An insurance company will act as consultant for the board in its investigation and of the needs of an employee pension plan.

The company, Johnson & Higgins, Detroit, will be paid a consultant's fee of \$500 to draw up specifications of the policy and to find companies suitable to bid for the contract.

The pension plan is intended to cover all full-time township employees and costs will be shared by the township and employee.

Baptist Church Holds Services

Evangelists With Gospel Films at Washington This Weekend

WASHINGTON — Evangelistic services are being conducted at the First Baptist Church here by the Rev. and Mrs. Thomas H. Ritchie of Washington, D.C.

In addition to the preaching of Rev. Ritchie and the musical programs presented by Mrs. Ritchie, a number of gospel films in color are being shown.

The 7:30 p.m. presentations today and Saturday are entitled, respectively, "Lakes of Killarney" and "Shadow of His Glory." Friday will be a family night in the evangelistic campaign. The program will begin at 7:30 p.m.

The Sunday morning service will be conducted at 11 a.m. and the evening service, the last program in the series, will be held at 7 p.m. At the final meeting the Ritchies will present "The Life of Christ in Music." This program has been presented by the couple to people throughout the United States, Canada, Great Britain and Sweden.

Rev. Lloyd O. Chase is pastor of the church at 5874 Van Dyke Road.

Measures Heart Beats

NEW YORK (UPI) — The heartbeat of an unborn child can for the first time be measured accurately and continuously during birth with a new electronic device developed by Dr. Edward H. Hon, Yale University School of Medicine.

Heads Planning Unit at Wolverine Lake

WOLVERINE LAKE — Albert Lawrence of 2146 Newport Court has been named president of the recently established five-member village planning board.

Others appointed to the board are Mrs. R. A. Hammer, John Pritchard, Warren Williams and Village Clerk Mrs. Jessie Johnson. Mrs. Hammer was elected vice president and Williams was elected secretary of the new organization.

Plan Service Sunday

TROY — Reformation services will be held at the Big Beaver Methodist Church Sunday. Rev. Albert E. Hartoog, pastor, will preach on the subject, "What Do You Mean—Church Union?"

Troy Blue Star Mothers Plan Benefit Luncheon

TROY — A card party and luncheon will be sponsored Monday by the Troy Blue Star Mother's Chapter 37 at the Women's Guild at the Clawson Shopping Center.

The card games will follow a 1 p.m. luncheon. Hope baked goods will be on sale. Proceeds from the event will be used to send Christmas gifts to servicemen from Troy.

Eichmann Fate Pontiac, Nearby Area Deaths

German's Trial Ended Aug. 14 but 3 Judges Delay Ruling

JERUSALEM, Israel (UPI)—The three judges rendering a verdict in the Adolf Eichmann case have given up indication since the trial adjourned last Aug. 14 when they will hand down a judgment.

At the conclusion of the four-month trial it was announced that a ruling on Eichmann's fate would not be delivered before November.

This was taken to mean any time after Nov. 1. But, present indications point to a date some time in December, court sources said.

The three judges are Supreme Court Justice Moshe Landau, Tel Aviv District Court Judge Yitzhak Rabin, and Jerusalem District Court Judge Benjamin Halevi.

The trial got under way last April 11. There were 15 separate indictments against the 34-year-old former Nazi official who was charged with responsibility for the wartime deaths of six million Jews in Germany and Nazi-occupied countries of Europe.

Calypso contains both African rhythms and the lilting melodies of Spain.

MRS. ALPHA F. CUTRELL, Mrs. Alpha F. (Florence A.) Cutrell, 33, of 30 W. Chicago Ave., died of a heart ailment yesterday at St. Joseph Mercy Hospital. She had been ill nearly three weeks.

Mrs. Cutrell was a member of Marquette Baptist Church. Survivors include two daughters, Mrs. Theodore Banks of Pontiac and Mrs. Richard Blue of Waterford; six sons, Thomas of Clarkston, James of Waterford, Charles with the U.S. Air Force stationed in Turkey, Alfred, Robert and Marvin, all of Pontiac, and two brothers.

Service will be held at 1:30 p.m. Saturday at the Huron Funeral Home with burial in White Chapel Memorial Cemetery.

MRS. WILLIAM H. DENMARK, Mrs. William H. (Gladys) Denmark, 61, of 217 Marion St., died at Pontiac General Hospital this morning. She had been ill several hours.

Mrs. Denmark was a member of Deception Baptist Church. Surviving are her husband; her parents, Mr. and Mrs. Rudie Mead of Tecumseh; two daughters, Mrs. Iris Galbraith of Pontiac and Mrs. Irene Jones of Keego Harbor; and five grandchildren.

Service will be held at 2 p.m. Saturday at Sparks-Griffin Chapel with burial in White Chapel Memorial Cemetery.

ROBERT J. GALLAGHER, Service for Robert J. Gallagher, 5211 Crescent Drive, Waterford Township will be held at 11 a.m. Friday at the Alfred E. Crosby Mortuary, 12700 Hamilton St., Highland Park. Burial will be in Acadia Park Cemetery, Birmingham.

Mr. Gallagher, 33, a former employee of the United States Post Office in Detroit, was a member of Palestine Lodge No. 257 P.M.E.M. and the Metropolitan Club.

Surviving are a son, Charles B. of Hale; three daughters, Mrs. Marion Gieggle of Birmingham, Mrs. Dorothy Anderson and Mrs. Florence Walter.

Mr. Gallagher died Tuesday in Rochester after a brief illness.

MRS. WILLIAM HARRINGTON LEONARD—Service for Mrs. William (Ina) Harrington, 83, formerly of Leonard, will be 11 a.m. Saturday at the Montgomery Funeral Home, Jackson. Burial will be in Lakeville Cemetery.

Mrs. Harrington died yesterday after a lengthy illness in Jackson. Surviving are two daughters, Mrs. Ruth Rogers of Lansing and Mrs. Alton Babcock of Jackson; a sister, Mrs. Lila Bentley of Dryden; a brother, Merle Church of Uxiah; and nine grandchildren.

MRS. WARD HEATH, Mrs. Ward (Gertrude B.) Heath of 3066 Beachgrove, Waterford Township, died of a stroke at Pontiac General Hospital yesterday after a long illness.

Mrs. Heath, 65, has been employed at the Oakland County Children's Home for 30 years. She was a member of First Presbyterian Church.

Surviving are her husband, a son, Ward of Tucson, Ariz.; a daughter, Mrs. John McCormick of Lansing; and three sisters—Mrs. Heath's body is at the Huron Funeral Home.

FLOYD A. MAYBEE, Floyd A. Maybee of 137 Judson St. died of a heart ailment yesterday at St. Joseph Mercy Hospital after a long illness. He was 61.

Mrs. Maybee was an employee of General Motors Truck & Coach Division and a member of the Elks Lodge.

Surviving are his wife, Helen; a son, Duane G. of California; a daughter, Mrs. W. Ernest Threlkell in California; four grandchildren; a sister; and two brothers.

Arrangements are pending at the Huron Funeral Home.

TERA MCREYNOLDS, Service for Tera McReynolds, 60, of 478 Midland, Waterford Township will be held at 1 p.m. Saturday at the Coats Funeral Home with burial following in Ottava Park Cemetery.

He was a member of Waterford Community Church.

A yard foreman at Burke Lumber Co., he leaves his wife, Bertha, his mother, Mrs. Jessie McReynolds; a daughter, Yveta Lee of Waterford Township; two sons, Marvin and William D., both of Waterford Township; two grandchildren; and a sister.

Mrs. McReynolds died unexpectedly of a heart attack at his residence yesterday.

MRS. FRANK CASSIDY, DMLAY CITY—Service for Mrs. Frank (Rose) Cassidy, 68, of 1545 N. Van Dyke Road, will be 11 a.m. Saturday at Sacred Heart Catholic Church with burial in Mount Calvary Cemetery.

Mrs. Cassidy died Tuesday in Community Hospital near Almont following a long illness. She was a member of the Altar Society of The Sacred Heart Church.

The Rosary will be recited at 8:30 p.m. tomorrow at the Muir Brothers Funeral Home.

Surviving besides her husband are a son, John at home; and two brothers.

EGGIDIO IMPERI, AUBURN HEIGHTS—Requiem Mass for Eggidio Imperi, 70, of 2639 Dearborn St. will be sung at
