## Appalachia Top Aide Is Sent to Saigon Cleans Senate for Report on Viet Situation in Two Days

**Prompt House Action Expected on 'Pep Pill' for Depressed Areas**

WASHINGTON (AP)—President Johnson is dispatching McGeorge Bundy to Saigon to confer with Ambassador Maxwell D. Taylor on South Viet Nam's political turmoil and anti-Communist war.

Bundy, top White House foreign policy adviser, leaves late today and will return sometime next weekend.

A White House announcement late Monday on Bundy's trip followed a high level meeting held by Johnson, one of the President's first activities in the foreign policy field since he recovered from his illness.

The President also held a 45-minute National Security Council meeting on the Vietnamese situation.

★★★

In sending Bundy to Saigon, Johnson is understood to want a detailed, first-hand report on the prospects for developing political stability in the South Vietnamese government which only last week suffered another in a long series of overruns.

**TAYLOR'S ABILITY**

Bundy also may discuss with Taylor whether his own ability to carry out U.S. policy has been impaired by his disputes with Lt. Gen. Nguyen Khanh, South Vietnamese strongman who engineered last week's coup.

The White House and State Department have declared Johnson's "full confidence" in Taylor and his intention to keep Taylor in Saigon.

The third topic likely to figure in the Bundy-Taylor talks is the scheduled visit of Soviet Premier Alexei N. Kossygin to Communist North Viet Nam in a few days at the head of a delegation of military, economic and aviation experts.

Administration officials said today they are not certain what Soviet intentions are.

**POSSIBLE NEGOTIATIONS**

Speculation here encompasses the possibility that the Soviets may want to move toward diplomatic negotiations for some kind of settlement in Southeast Asia, possibly beginning with a strong defensive commitment to North Viet Nam against any U.S. move to expand the fighting in South Viet Nam to the north.

However, authorities say they cannot rule out the possibility that the Soviets have some other objective in mind.

An increase in military supplies to North Viet Nam could mean an intensification of Red guerrilla fighting in the south since the North Vietnamese send supplies and reinforcements into the south.

U.S. officials reported recently that during 1964 North Viet Nam sent an estimated 10,000 trained soldiers through the jungle trails of Laos into the south to reinforce guerrilla units.

**STABLE GOVERNMENT**

The primary concern of the Johnson administration for months has been to promote the formation of a stable civilian government at Saigon in the hope that it would be able to unify the country politically.

## 'Indonesia Working on A-Bomb'

JAKARTA, Indonesia (AP)—The director of Indonesia's army arsenal said today about 200 scientists are working to make the country's first atomic bomb. He promised a "surprise" at the Armed Forces Day celebration in October.

★★★

The officer, Brig. Gen. Hartono, also said Indonesia this year will produce guided missiles "whose damaging abilities are superior to those of other countries." His statements were distributed without elaboration by the official Antara News Agency.

Hartono said last November that Indonesia would explode an atomic bomb in 1965 and that it had begun surveying the possibility of producing intercontinental ballistic missiles.

His statements last year came shortly after a reported successful launching of Indonesian-made rockets for artillery and infantry use.

Antara also carried an announcement that the Indonesian army later this year plans to build a plant to produce explosive materials. The agency said it would be located in Java, Sumatra or in the Celebes but gave no details.

**ATOMIC REACTOR**

Indonesia has an atomic reactor in Bandung, West Java, which was obtained from the United States.

Another reactor is now under construction with Soviet aid at Serpong, 44 miles southwest of Jakarta. Both reactors were said to be for peaceful purposes.

The U.S. State Department said last November that the American reactor was "incapable of producing materials for weapons."

McGEORGE BUNDY

The Senate cleared the legislation yesterday on a 62-22 roll-call vote after two days' debate.

The bill's managers succeeded in fighting off all amendments to weaken the measure or to add development programs for other regions.

★★★

Last year the Senate passed a similar measure 45-13. But this died in the House after clearing its Public Works and Rules Committees.

**TO OPEN HEARINGS**

A Public Works subcommittee will open hearings on the legislation tomorrow. House sponsors predict that with a bigger Democratic majority in this Congress, there will be relatively smooth sailing this year.

However, they concede there may be efforts similar to those in the Senate to add programs for other areas suffering economic distress.

In the Senate Democratic leaders kept amendments for other areas off the bill with a pledge that planning funds for development programs in these areas would be considered later this session.

★★★

The leaders said that Johnson had approved this course.

**SURPRISE AMENDMENT**

The bill's managers did go along with a surprise amendment by Sen. Robert F. Kennedy, D-N.Y., to keep the door open for a possible later addition of 13 New York counties to the Appalachian program.

★★★

They emphasized these counties are considered a part of Appalachia but were kept out of the legislation originally by decision of New York itself.

The Senate and the Appalachian Regional Council set up by the bill would have to agree to the 13-county addition.

## Laos Troops Block Rebels Heavy Fighting Halts Supporters of Coup

VIENTIANE, Laos (UPI)—Government troops today intercepted a rebel column moving on Vientiane in support of an attempted coup and drove it back 18 miles in heavy fighting.

Reports from the area said the fighting broke out 12 miles east of Vientiane and that the rebel forces were now retreating along the banks of the Mekong River about 30 miles to the east.

During an artillery and mortar engagement three loyal soldiers were reported killed and an undetermined number wounded. Casualties on the rebel side were not immediately known.

The rebel forces estimated at three companies ran into loyal troops under command of Gen. Kourprathit Abhay. The rebels were reported to have come from Pakxane, 100 miles northeast of Vientiane.

Reports reaching here said the battle started when Kourprathit's forward troops and tanks came under mortar fire from rebel forces under Gen. Khamsong, commander of Laos' 2nd military region. The loyal troops replied with heavy artillery and cannon fire.

**EXPLAINING BUDGET**—Gov. George Romney explains his \$788.5-million state budget to newsmen in Lansing today. With him are State Controller Glenn Allen Jr. (center) and Paul Wileiden, director of the budget. Romney's proposed figure is \$94 million higher than the previous appropriation.

## Eye Racketeer-Bank Link Senators Probe Union Funds

WASHINGTON (AP)—The Senate Investigations subcommittee said today it is looking into huge union welfare and pension funds which rarely pay any benefits and the suspected role of racketeers in the failure of some federally insured banks.

Its plans for hearings on these and other matters were disclosed in a letter from Chairman John L. McClellan, D-Ark., to the Senate Rules Committee asking approval of a \$435,000 budget for the year ahead.

The letter, filed with the Senate along with the request, said staff investigators were checking into a number of labor union welfare-pension funds whose wage-earning employees "rarely receive any benefits or annuities" but whose administrators do profit.

McClellan did not name any of the union pension funds involved. He declined to elaborate to a reporter.

Involved, he said, are unions "affiliated with large international labor organizations" representing unskilled laborers whose tenure on the job is apt to be short.

**FEW QUALIFY**

Seldom, he said, do the members remain with an employer long enough to qualify for any benefits from funds which accumulate to millions of dollars.

McClellan's letter gave no real details about the banks and savings and loan institutions whose failures in the past two years are under study.

The senator also disclosed—again without details—his subcommittee is looking into:

- "Allegations concerning irregularities in many phases of the operation of the urban renewal program."
- "Labor racketeering in the New York area" including allegations of "exorbitant featherbedding, extortion of payoffs and other improper conduct."
- "Alleged wasteful duplications by four major medical supply systems run independently by the Defense Department, Veterans Administration, General Services Administration and the Department of Health, Education and Welfare. He said he has heard of losses aggregating millions of dollars from avoidable deterioration of surplus stocks."

## No New Taxes Scheduled in Romney Total

**One-Third of Surplus Would Be Consumed; Education Aid Jumps**

LANSING (AP)—Gov. George Romney proposed a record \$788.5-million general fund budget today that would require no new taxes while consuming nearly one-third of a predicted \$104.8-million treasury surplus.

His spending recommendations for the fiscal year beginning July 1 were \$94.2 million higher than the \$694.3 million appropriated for the current budget year.

Education, mental health, conservation-recreation and public health were the big gainers as Romney moved to implement a program for Michigan's future that he had proposed in his State of the State message Jan. 14.

Romney also said special purpose and restricted income and expenses would be \$95.9 million. This covers such areas as highway construction.

Romney said Michigan would still retain a \$72.4-million treasury surplus on June 30, 1966, if the legislature follows his recommendations. He has already declared this will still only carry the state through one additional year without more taxes.

**MORE THAN HALF**

Education for the first time takes more than half the general fund budget—\$409.7 million or 51.96 per cent.

State aid to primary and secondary schools would increase from \$236.50 per pupil to \$242, and aid to community college students would go up \$16 to \$250.

★★★

Romney would double the state scholarship program.

**\$87 MILLION MORE**

In all, education would get \$87 million more than it received in 1964-65.

Mental health is tagged for an \$11-million boost. This includes another million in construction.

**LONG WINTER AHEAD**—Mr. Groundhog, who is considered a weather forecaster by many folks, checks charts in the Philadelphia Airport weather station while meteorologist Glenn Stallard watches. The groundhog and the weatherman agree it's going to be a long, hard winter.

## Frigid Polar Air Paralyzes the Nation's Midsection

**BY THE ASSOCIATED PRESS**

Arctic air directly from the polar ice cap delivered a paralyzing punch into the nation's midsection today.

The icy air flooded the Eastern half of the nation and the Weather Bureau said more and more of the chilling mass will invade the country at least until the end of the week.

Below zero temperatures this morning covered a vast area in the Northern Plains, the Upper and Mid-Mississippi Valley and the Ohio Valley. Brainerd and Bemidji, both in Minnesota, recorded lows of -32 and the mercury sank to a record-tying 25 below in Rochester, Minn. It was 30 below zero in International Falls, Minn. Decorah and Elkader in Iowa reported -34 degrees and the mercury skidded to 31 below in New Albin, Iowa.

Snow blew across the Great Lakes into New England and the Appalachians with cold rain pushing farther south to Florida.

A wind-whipped storm off Lake Ontario dumped up to a foot of snow across Oswego County in New York, closing many schools, including all in the city of Oswego.

Hazardous roads in Tennessee led to the closing of many schools, but all main highways were open.

In Wisconsin nine fatalities were blamed on weather conditions.

## Groundhogs Agree Winter to Drag On

QUARRYVILLE, Pa. (AP)—Button up your overcoat and keep those long woolly hands there are going to be six more weeks of winter, said that's the prediction of Pennsylvania's two famous furry forecasters who poked their heads from their cold holes on opposite ends of the state at daylight today, saw their shadows and, true to tradition, scooted right back in to enjoy the underground warmth until spring beckons.

If the two — Punxsutawney Phil in the western part of the state and an unnamed groundhog in the eastern Pennsylvania community — venture afield, it would have meant spring was soon to come.

Those seeking out the seer at Pete's stomping grounds at Gobbler Knob traditionally dispense with formality, wearing blue jeans and fleece-lined coats to await the annual prediction.

**Income Tax Is Defeated in State City**

Sixteen inches of snow kept Muskegon Heights voters away from the polls in large numbers yesterday, and a city income tax proposal was defeated.

Saginaw voters are battling the elements to mark ballots on a similar proposal today.

The proposed tax for Muskegon Heights was defeated, 1,418 to 985, as less than 29 per cent of the registered voters in the city made it to the polls.

The proposal called for a tax of 1 per cent on residents and 1/2 per cent on nonresidents working in the city.

City officials said the rejection means cutbacks in services and continuation of a two-year austerity program.

**SPRING BALLOT**

The city council will meet tomorrow night to discuss placing a property tax increase on the April 5 spring ballot.

Pontiac voters will go to the polls March 18 to decide the income tax question. The proposal will be identical to the one in Muskegon Heights.

March 6 comes dinner at the Sandbar tonight, 207 W. Huron. —edv.

# Record Budget Offered

(Continued From Page One)

mainly service grants, \$14.4 million for services to the mentally ill, \$800,000 for the mentally retarded and \$700,000 for improved research and training in the department.

Romney proposed a \$9.9-million expansion of the state's building program to \$67 million.

The governor said \$56 million of his general fund budget increase results from "built-ins" — the higher cost of state programs brought on merely by population increase without regard to program expansion.

## USE UP REST

Program expansions use up the other \$38 million of the increase.

The total general fund figure was slightly under what most observers had expected.

But in his accompanying message to the legislature, Romney warned that he has often done that "we must use our surplus prudently in this coming year and the year following it to meet essential needs progressively without increasing taxes or going into debt."

The governor said Michigan "is currently enjoying unequalled revenue growth," but his revenue estimates for the coming year appeared conservative in light of that growth.

## ANTICIPATED REVENUES

He said anticipated current year revenues of \$727.5 million, an increase less than the three-year average annual revenue gain of \$38.5 million.

Romney explained his conservatism by saying economists predict a 4 to 4½ percent gain in the economy for calendar 1965 — strong, but below the current 8.8 percent growth rate.

He pointed out that the new constitution requires revenues to keep pace with expenditures that appropriations must be altered if revenues slip.

Romney said his budget attempts to reduce "long-time deficiencies in meeting our responsibilities" and called it "something more than a hold-

the-line budget, more than simply meeting our 'built-in' expenditures."

## SALARY INCREASES

In higher education, for example, the governor said \$7.2 million budgeted for major improvements and new programs will permit salary increases averaging 7 percent for faculty and 4 percent for nonfaculty positions.

In state building, Romney proposed installation of \$3 new projects in addition to continuation of 60 others.

Most urgent among these projects, he said, "are those to meet the burgeoning enrollments of our degree-granting colleges and universities." He

recommended raising from \$500,000 to \$600,000 the annual state appropriation limit for funds to one institution.

## MENTAL HEALTH

The governor said 13 of his new projects will fulfill mental health requirements.

In traffic safety, an area where Romney already has sent the legislature a special message, he asked for 200 more state policemen at \$1.2 million and implementation of mandatory vehicle inspection at \$851,000.

In other areas the governor made such recommendations as:

• Civil Rights Commission, \$250,000 for staff support.

• Agriculture, a state-aided community advertising program.

• Workmen's Compensation Department, a supplemental budget of \$69,500 in the current year and an addition of \$187,000 next year to reduce the case backlog.

While mentioning no new taxes, Romney was emphatic that the state cannot afford to pass its surplus back to the public in "isolated tax reductions."

## STRONG PRESSURES

"While we will be subjected to strong pressures to further increase expenditures this year or pass the surplus back to the public in isolated tax reductions, neither course would be a responsible fulfillment of our obligations as public servants," he declared.

"Unwise overuse of our current surplus, or sporadic, unplanned piecemeal tax reductions could put Michigan back into a crisis situation financially. Higher taxes or interest bearing debt would soon be necessary."

Romney pointed out in detail why he wants to save so much of the surplus:

He said the addition of only \$40 million in costs would raise the minimum budget for 1966-67 to \$845 million but revenue growth of 3 percent would produce only \$778 million in revenue.

Thus, he said, the rest of the surplus is necessary to avoid new taxes a year from now.

## STRONG PITCH

He put in a strong pitch for \$200,000 for a commission on Michigan's continuing financial requirements and policy, again emphasizing it is more than just a tax study.

"Thus we approach another crossroads of Michigan's destiny," concluded Romney.

"We are in a position to be both prudent and progressive in our budget and revenue actions. We must be responsive, but we must also be responsible."

## Woman Dies, 5 Hurt in Crash Near Hillsdale

HILLSDALE (AP) — Mrs. Frank Beebe, 22, of Hillsdale was killed, and five other persons critically injured in a head-on accident four miles from Hillsdale yesterday.

Sheriff's deputies said a second car was attempting to pass two cars and a snowplow when it collided with the Beebe auto.

## 20 Are Killed in French Mine

LENS, France (U) — An explosion rocked a coal mine near here today, killing at least 20 miners. Another miner was missing and mine officials said there was little hope he was alive.

The blast came at the 2,200-foot level as a small, off-hours crew was at work.

The disaster probably would have had far greater proportions except that it was a regular off-time period for the some 200 miners who usually work. A small crew was on duty preparing for the regular shift to go down.

The first alert came from a miner in a nearby gallery who telephoned to the surface saying he had felt a violent blast of hot air and that a cloud of smoke was pouring from the gallery where the disaster occurred.

Most of the victims were French. There were several of Polish and Algerian origin.

## Faulty Fireplace Is Suspected in Two Area Deaths

Two persons were found dead in their Dryden Township home last night by Lapeer County sheriff's deputies who had been summoned by a neighbor.

Postmortems performed on the bodies of Anthony Bush, 79, and his housekeeper, Ethel Fultz, about 58, indicated they had died of carbon monoxide poisoning.

Sheriff's deputies believe the deaths were caused by a faulty fireplace.

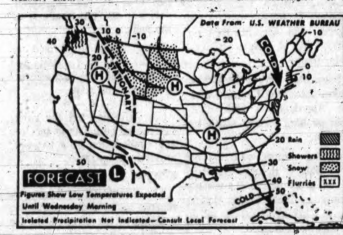

Bush, his housekeeper and two pet dogs were found in the living room of the home at 5743 Lake George, by a neighbor, Albert Mellendorf, of 5748 Whigville.

## Come On! Where Is the Fire?

Two girls who forgot to say where the fire was last night watched their Springfield Township home burn down, according to Davisburg Fire Chief Charles Hillman.

He said two daughters of Mr. and Mrs. Robert Buning were home alone when they spotted the fire in the kitchen about 6 p.m.

One of them ran to the telephone but found the rural line busy, Hillman said.

"She just yelled, 'Our house is on fire,' but didn't say what house," he reported. "That gave it time to get going."

By the time firemen located the blaze it was well on its way to destroying the single-story frame house at 12851 Rattalee Lake.

Hillman estimated damage at \$8,000 to the house and \$2,500 to its contents. He noted that the cause of the fire was accidental and therefore would not be investigated.

Davisburg firemen were assisted by the Holy department in extinguishing the blaze.

## Monaco Is Celebrating Birth of New Princess

MONTE CARLO (AP) — The little principality of Monaco was decked out in flags today and every window was decorated with a picture of its royal family as the population celebrated the birth of a new princess.

At the palace of Prince Rainier III, a bulletin said that Princess Grace—former actress Grace Kelly—and tiny Princess Stephanie Marie Elisabeth, born Monday night, were in excellent condition.

## List Candidates for Record Space Flight

HOUSTON, Tex. (UPI) — L. Gordon Cooper — Charles (Pete) Conrad — Neil Armstrong — Elliot See — these are the candidates for man's greatest show in space.

From this list apparently will come the names of two astronauts to pilot a twin-seat Gemini space capsule on a record seven-day orbit voyage around earth this year.

It would be a feat as yet unmatched even by the Soviet Union. The present record is held by Russian Cosmonaut Valery Bykovsky. His best was the 52-orbit, five-day journey aboard Vostok-5 on June 14-19, 1963.

Although declining to discuss the report, veteran spaceman Walter M. Schirra Jr. told United Press International that "we're about ready to announce a crew" for the ambitious mission—one of four Gemini flights scheduled for this year.

The names of Cooper (holder of the American record of 22.9 orbits in 34 hours), Conrad, Armstrong and See were arrived at virtually by process of elimination. All other eligible astronauts are either incapacitated or committed to training for earlier Gemini flights.

## Dr. King Remains in Jail as Negroes Demonstrate

SELMA, Ala. (U) — Scores of Negroes began another right to vote demonstration here today, while their leader, Dr. Martin Luther King Jr., remained in jail.

Walking in small groups in contrast to the large formation which brought King's arrest, the Negroes left a church and headed for the county courthouse to protest what they called their inability to register.

## Grads of Area to Rate Schools

Counselors in five area high schools will ask their 1964 graduates to report on their first year out of school and to rate their high school education on special survey forms.

Participating are Pontiac Central, Pontiac Northern, Waterford Township, Waterford Kettering and Clarkston high schools.

The information program is a follow-up of a questionnaire last May prior to their graduation, according to Dr. William Moorhouse, director of guidance of Oakland Schools.

Questionnaires are being mailed this week to 2,700 graduates of the five area schools as well as three others in the county participating in the federally sponsored project for counseling employment-bound students.

Findings from the survey will be used as a basis for improving guidance, counseling and placement for those still in school as well as to determine more appropriate high school course offerings, Moorhouse said.

even though the registration board was not in session today.

City police who arrested King and 250 other Negroes yesterday allowed the demonstrators to walk along the streets unmolested today because they moved in small groups.

Wilson Baker, Selma's public safety director, said this march did not constitute a parade because the Negroes did not mass in one formation.

King, the 1964 Nobel Peace Prize winner, remained in a cell in city jail. He refused to post bond on a charge of parading without a permit, and there was no indication when he would seek his release.

An aide, the Rev. Andrew Young of Atlanta, told a news conference that King "doesn't mind staying in jail as long as he feels that it is necessary to dramatize our problems."

King was arrested yesterday with about 250 Negroes and a half dozen white civil rights workers on a march toward the courthouse. Most of those arrested with King were released in bonds of \$200 each.

Young, who talked with reporters after conferring with King, said the integration leader told him that "the bed is hard but it's clean." In referring to the cot in his cell.

Young said demonstrations probably will continue from day to day for an indefinite period in hope of finding a way to get more Negroes registered.

Today's demonstration, he said, would protest the limited number of days the Dallas County Registration Board is in session. Young said the Negroes feel the board could get additional time by asking state authorities to approve it, as the board did last month.

## Birmingham Area News Bloomfield Art Group to Show Work at Center

BIRMINGHAM — Bloomfield Art Association artists, particularly those presently on its faculty, will exhibit their work at the Birmingham Art Center for three weeks this month.

The show, to open Sunday, will be available to viewers during regular gallery hours, 2-5 p. m. daily except Monday.

Titled "An Exhibition of the Work of Its Faculty and Associates," the display will include a variety of media.

Among them will be oil painting, water color painting, experimental media, portrait painting, creative stitching, weaving, pottery, sculpture and graphic prints.

Numerous awards, honors, grants and fellowships have been bestowed on the exhibitors, many of whom have taught or are now teaching in

colleges or universities. They also have held one-man shows.

## DISCUSSION SET

In connection with the exhibit, will exhibit their work at the Birmingham Art Center for three weeks this month.

"Why Artists Work as They Do" is the title of the 8:30 p. m. program, to be moderated by artist and critic Carolyn Hall.

Completing the panel will be sculptor Ken Fadem and three painters, Mary Jane Bigler, Dorothy Siddall and George Vi-hos.

The program is aimed at giving the art viewer an insight into the thoughts of an artist, therefore better equipping him to understand and appreciate the work.

## NOMINAL CHARGE

The event will be open to non-members for a nominal charge.

The Birmingham City Commission meeting last night was canceled because of lack of a quorum.

Four of the seven commissioners were unable to attend the weekly session.

Petitioners' requests which were scheduled for discussion will be carried over to next Monday's meeting.

## Council May Judge Member New Petition Filed in Sylvan City Case

The Sylvan Lake City Council may have to decide if one of its members is qualified to hold office.

Presently the eligibility question of Councilman John D. McKinlay is before Circuit Judge Stanton G. Dondero.

Yesterday, however, a petition asking that Dondero order the other four councilmen to pass judgment was filed by Fred Crossman, an unsuccessful council candidate in the Nov. 3 election.

McKinlay, 32, of 2709 Littlefield topped the field of five candidates seeking two council seats. Crossman, of 2461 Renfrew, ran third.

In a suit filed Jan. 11, five Sylvan Lake residents challenged McKinlay's right to hold office on the basis that he did not meet the two-year residency requirement of the Sylvan Lake City Charter.

## SAME SECTION

Crossman notes the same charter section in his request for a writ of mandamus, but prefaces it with another charter clause that states "The council shall be the judge of the eligibility and qualifications of its own members."

Crossman wants councilmen John Hadden, Donald A. Terry, Thomas J. McHugh and Mayor E. V. Geiter to make the decision.

The cases will be consolidated into one show-case hearing Monday.

A show-case hearing was held Jan. 25 to allow Dondero to decide if McKinlay should be temporarily restrained from holding office pending the outcome of a trial.

## ADJOURNED

It was adjourned for two weeks so that briefs on a point of law could be prepared by attorneys and submitted to Dondero for study.

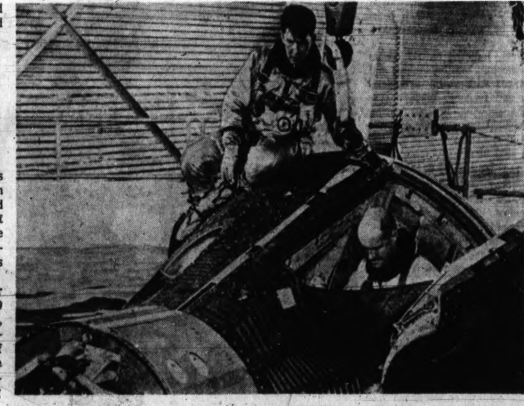

Should Dondero order the council to resolve the question, he would not have to make a decision on the first legal action.

The original suit against McKinlay charges that he did not move into Sylvan Lake until December 1962. To have been legally elected, the suit says it was necessary for him to have been a resident on or before Nov. 3, 1962.

## ONE OF CHALLENGERS

John C. Houston, the attorney representing Crossman, is one of the five residents who challenged McKinlay in the first suit.

### Philadelphia Key Port in Strike

## ILA Fails to Comply With LBJ Appeal

NEW YORK (AP) — Top officials of the striking longshoremen's union have declined to comply immediately with President Johnson's request that the men return to work in the ports

from Maine to Texas where contract settlements have been reached.

Johnson, who relayed his request through Secretary of Labor W. Willard Wirtz, also urged early settlements in the other ports.

### Asian Flu Not Serious This Year

WASHINGTON (UPI) — The nation apparently has escaped any serious outbreak of Asian flu for this winter despite the epidemic of "executive flu" currently making the rounds of official Washington.

The U.S. Public Health Service's communicable disease center reported today that, so far, the incidence of genuine Asian flu — the worst kind — has been even less than last year's light outbreak.

The bad cold and sore throat sent President Johnson to the hospital and then seemed to spread through the government apparently was just a cold, despite the complications.

Defense Secretary Robert S. McNamara led the capital's sick call yesterday with a moderate case of virus pneumonia. His aides said he would stay a few more days in Walter Reed Army Medical Center where he was admitted Friday with a 102-degree temperature.

The fever is gone but McNamara still does not feel well.

MISSA HEARING  
Another cabinet member, Secretary of State Dean Rusk, was forced to miss an appearance before a Senate committee yesterday.

He stayed home in bed on doctor's orders to recuperate from the cold which forced him to miss Winston Churchill's funeral in London.

The center said that outbreaks of severe colds in Washington and other U.S. cities have increased normal winter absenteeism in schools and offices somewhat, but there is no evidence this ailment is anything like Asian flu.

The center said, however, that during the weekend it had confirmed outbreaks of Asian flu (type A2) in New Jersey and Connecticut; it suspects that similar outbreaks also may have occurred in sections of Massachusetts and Pennsylvania.

NOT WIDESPREAD  
But none of these outbreaks has been particularly widespread and, for the most part, they have affected school-age children, not adults.

The Public Health Service does not positively identify a flu-like outbreak as Asian flu until the communicable disease center has made an analysis of virus samples collected from sufferers.

The health service did not recommend a nationwide vaccine inoculation program this winter because it did not believe there would be any large-scale outbreaks of the illness.

But next winter may be a big year for inoculations. Asian flu has been hitting hard in about three-year cycles. This winter is shaping up as the second with a major outbreak.

More than a week ago, the ILA lifted its picket lines from docks of American-flag passenger ships, and a number of them are sailing.

In addition to Baltimore, the ports where the ILA has reached agreements with the shipping and stevedoring companies include New York, normally the nation's busiest port; New Orleans, the second busiest; Boston; Norfolk, Va.; Baton Rouge, La.; and Mobile, Ala.

FOLLOW PATTERN  
The agreements generally follow the pattern of the contract approved by the 24,000 longshoremen in New York Jan. 11. Gleason and other ILA officials called the New York agreement the best in the union's history.

In addition to Philadelphia, the major unsettled areas are Galveston, Tex.; Miami, Fla.; and Hampton Roads, Va. The stalled negotiations in Galveston involve ports on the western part of the Gulf Coast from Lake Charles, La., to Brownsville, Tex.

The negotiations in Miami, which continue today, involve ports from Morehead City, N.C., around the tip of Florida to Tampa on the state's west coast. Secretary of Labor Wirtz has listed this area and the Galveston area as the "principle holdouts" in the strike.

For many years the ILA has not allowed its men to work in any port until locals in all ports reached agreements. Locals in a number of South Atlantic and Gulf Coast ports still have not reached settlements. Pacific Coast longshoremen belong to a different union.

The U.S. Maritime Administration has estimated that the 23-day-old strike of 40,000 ILA members has cost the national economy well over \$1 billion. It says the strike has idled 617 ships, including 142 American-flag ships.

# Water in Fenton Hailed as 'Find'

By PAT McCARTY

The city of Fenton has contributed another factor to the argument concerning north Oakland County's ground water supply.

While not participating in the debate between other Genesee County communities and some in Oakland, Fenton has made a real water "find."

The city which touches Oakland County's western boundary about two miles from Holly last week pumped water from a new well in the area at the rate of three million gallons a day.

The pumping was done for three days as a test of potential output of three new wells drilled northwest of Fenton.

Performance could have been doubted if bigger test pumps had been used, according to drillers from Layne Northern Co., Inc., of Lansing.

"This says in fact what we've been saying in theory," engineer Philip M. Hampton commented.

There's a definite possibility that water there is in great abundance."

Hampton is spokesman for Johnson and Anderson, Inc., Waterford Township engineers working for the Genesee Valley Utilities Authority.

Officials of 11 townships formed the authority to seek new sources of water.

However, the group met opposition from township officials in north Oakland County when it indicated it had an eye on water sources here.

PROTEST GROUP

The North Oakland Water Association (NOWA) was established as a protest organization when the Genesee County applied for a \$321,000 federal loan to investigate the feasibility of using north Oakland wells as a source for water.

The NOWA maintains Oakland County residents have first claim to Oakland County water and that there probably isn't enough of it to be used by residents of both counties.

Hampton labeled Fenton's find an "unexpected field 'comforting'."

Although preliminary studies have been made of the area, Hampton said, "Until someone puts a well down, there's always a possibility that there's not as much water there as we thought."

GOOD SUPPLY

Fenton's new find serves to point out another factor — that there apparently is a good ground water supply in Genesee as well as northern Oakland County.

"We've never eliminated Genesee County," Hampton said.

He noted the authority wanted to investigate potential wells in five Genesee County townships along with those in north Oakland.

Hampton cited Holly's well field as "an existing well typical of what we think is possible."

PRESENT OUTPUT

Developed for the village in 1960, it now has an output of 300 gallons a minute.

"It could produce 15 times that — theoretically over nine million gallons a day," Hampton said.

The authority has indicated it initially would need about 10 million gallons of water a day from wells along the northern boundary of Oakland County.

Eventually, in 10 or 15 years, the demand would be up to about 50 million gallons a day.

The authority also has said it would like to cooperate with Oakland County units to develop a joint water source.

While its application and the NOWA's protest are pending before the Community Facilities Administration, the authority is planning a meeting with potential Oakland County participants.

The session tentatively has been scheduled for late February.

'AW, C'MON, FELLAS!' — Although Dr. William A. McNeill's English setter, Bandit, should be used to the skirl of bagpipes, he still starts to tremble when the shrill music begins. Dr. McNeill (right) and his assistant, Bob Jarski, 17, of Addison Township, both look forward to their practice sessions on the pipes between appointments at the doctor's veterinary hospital in Lake Orion. When the two aren't playing the pipes, they're listening to bagpipe records.

### Avondale Board, Teachers Will Discuss Recognition

A meeting with the two teachers' groups seeking official recognition as the exclusive bargaining agent in the Avondale District is scheduled with the board of education Monday night.

This session is designed to get opinions and reactions to the policy the board has formulated based on a framework established in the Pontiac City School District.

The two groups seeking the board's blessing as bargaining agent are the Avondale unit of the Michigan Education Association (AEA) and the rival local unit of the Michigan Federation of Teachers (AFT).

Included in the nine points of the policy to be discussed at Monday's session is the one which would officially recognize the group with the majority representation in the district.

This would be the AEA.

NOT CLOSING DOOR

The board hastened to point out, however, that it was not closing the door to communication between any individual teacher or group of teachers with the superintendent and board.

"All will be given consideration," said Thomas H. Gallows, board secretary. "We are not limiting contacts with the board or administration."

The proposed policy, although based on the one used in the Pontiac system, has been altered to suit local needs, Gallows said.

"But before we say we're going to live by it," he added, "we want to get the reactions of the two groups involved."

CAN ALTER RULING

"We are flexible enough that we can alter any ruling if justification is shown for the change," he concluded.

Representatives of the AFT have indicated they will not oppose recognition of the AEA if the rights of the minority group are protected.

Also, the board has set a limitation of one calendar year for recognition of one group as the official bargaining agent for the 130-plus staff in the district.

Final action on the 9-point policy is expected shortly after Monday night's session in order to pave the way for discussion of teachers' contracts next month.

### Serenade to Sick Animals

By LEE OLSON Area News Editor

LAKE ORION — "Music hath charms to soothe the savage beast."

So the old saying goes, but imagine it referring to bagpipes in an animal hospital!

It's not so unlikely, though, if you consider the veterinarian's name is McNeill.

But the Oxford High School student who started the whole thing has the inappropriate name of Jarski.

Dr. Richard A. McNeill says he doesn't remember when he first began to enjoy bagpipe music. He has quite a collection of records that grows with each passing year.

EVERY CHANCE

"I play the records during surgery—or really every chance I get," he said.

But the love of the music did not develop into the desire to play the instrument until Robert Jarski, 17, began to visit the doctor to learn a little more about veterinary medicine.

Bob became the doctor's assistant about two years ago, and recent sessions with the "Royal Scots Gray" and the "Black Watch" became an integral part of the hospital routine.

Neither the doctor nor his helper has ever been a music student, but Bob started playing the chanter or melody pipe that pipers first use to learn the proper fingering last September.

PLAYS THE PIPES

He became quite proficient and hooked up the rest of the reeds and sheepskin bag, and now plays many marching tunes, retreats and popular Scottish airs.

He has only a three-month head start, however, on Dr. McNeill who received his pipes from his wife for Christmas.

So far the doctor can play six or seven tunes on his chanter—and he does get a pretty good wheeze out of the pipes, too.

But to play anything but the simplest airs still poses a problem for the busy veterinarian.

TAKES 10 YEARS

He believes what he has read that "it takes about three days to fashion a set of pipes, but about 10 years to make a good piper."

After the piper learns the fingering and has it down pat, building the wind is the next struggle.

To add to the pipers' difficulty is the temperament of the pipes. The instrument is known as one of the most temperamental ever devised.

It consists of four pipes sounded by reeds and fed with wind by arm pressure on a sheepskin bag. The melody is played on the chanter, the only pipe the piper can control directly.

DISTINCTIVE SKIRL

When the three other pipes are carefully pretuned against the chanter, the overall effect is a distinctive skirl.

But if a change of temperature or humidity throws the reeds off pitch, the player hasn't tuned them in or his playing is a little "off," the results are terrible squawks.

And perhaps it's a blessing that many of the animals in the hospital at 44 E. Flint are under anesthesia when the practice sessions take place.

But the pleasure the pipes bring to both the doctor and his protégé make the rehearsals worthwhile.

GOING TO MSU

Bob, son of the William Jarski, 388 Lakeville, Addison Township, plans to attend Michigan State University to start work on his degree in veterinary medicine next fall. He says he will take his pipes with him.

But he'll be missed in area parades and at special functions where he performs and by his mentor — but probably not by the animals who do not seem to derive the pleasure humans do from the instrument that has "such power to sway men's souls."

## Bagpipes Skirl at Lake Orion

By LEE OLSON Area News Editor

LAKE ORION — "Music hath charms to soothe the savage beast."

So the old saying goes, but imagine it referring to bagpipes in an animal hospital!

It's not so unlikely, though, if you consider the veterinarian's name is McNeill.

But the Oxford High School student who started the whole thing has the inappropriate name of Jarski.

Dr. Richard A. McNeill says he doesn't remember when he first began to enjoy bagpipe music. He has quite a collection of records that grows with each passing year.

EVERY CHANCE

"I play the records during surgery—or really every chance I get," he said.

But the love of the music did not develop into the desire to play the instrument until Robert Jarski, 17, began to visit the doctor to learn a little more about veterinary medicine.

Bob became the doctor's assistant about two years ago, and recent sessions with the "Royal Scots Gray" and the "Black Watch" became an integral part of the hospital routine.

Neither the doctor nor his helper has ever been a music student, but Bob started playing the chanter or melody pipe that pipers first use to learn the proper fingering last September.

PLAYS THE PIPES

He became quite proficient and hooked up the rest of the reeds and sheepskin bag, and now plays many marching tunes, retreats and popular Scottish airs.

He has only a three-month head start, however, on Dr. McNeill who received his pipes from his wife for Christmas.

## To Air Rights in Rochester

ROCHESTER—Area residents curious about the meaning of civil rights legislation locally will have three opportunities this winter to learn more about it.

The Rochester Area Human Relations Council is scheduling three meetings open to the public in February, March and April.

All meetings, which also will include question and answer periods, are planned to serve a two-fold purpose:

- Give residents a chance to better understand their rights and obligations.
- Ease assimilation of minority groups by the community when the time comes.

The first meeting will be a round table discussion moderated by Donald Hildums at 8 p.m., Feb. 18 at the First Congregational Church.

Members of the panel will include a Liberian exchange student, a local Negro student and a college professor.

In March, the date and place to be announced later, a well-known Detroit speaker will present the issues affecting housing and real estate.

RIGHTS SPECIALIST

In April, a Detroit lawyer, a specialist on civil rights, will discuss the legal aspects of the new legislation nationally, in Michigan and in this area.

All meetings, which also will include question and answer periods, are planned to serve a two-fold purpose:

- Give residents a chance to better understand their rights and obligations.
- Ease assimilation of minority groups by the community when the time comes.

## Novi Village Council OKs Purchase of Water System

NOVI — Water and sewers are on their way to the rapidly developing southeast section of the village.

The Village Council last night passed a resolution seeking authority to sell \$210,000 worth of revenue bonds in order to purchase the Willowbrook Water Co. and install new transmission lines.

The water system nucleus will cost the village \$42,500. It now serves some 240 homes in Willowbrook Estates No. 1, No. 2 and No. 3.

From it will be extended a 16-inch transmission line on 10 Mile between Hagerty and Meadowbrook and a 12-inch line from 10 Mile south on Meadowbrook to Chatham.

The larger line will be a mile long and the other one some 4,000 feet.

TOTAL CUSTOMERS

When the area is completely built up, the system is expected to serve some 1,200 to 1,500 customers, according to Village Manager Harold Ackley.

He noted that Willowbrook Estates No. 4, 5, 6 and 7 are yet to be built.

Meadowbrook Lake Subdivision has been planned on Meadowbrook north of Nine Mile.

Orchard Hills Subdivision now is being developed on the southwest corner of Meadowbrook and 10 Mile and across Meadowbrook a 200-acre development is in the preliminary planning stages.

FEES HELP PAY

Helping to pay for the water system will be \$200 tap-in fees for new connections, not those already being served.

Residential water rates will be \$6 a quarter for a minimum of 7,500 gallons and 40 cents for every 1,000 gallons thereafter.

Using the United States average of water consumption, Ackley said he expects the average water bill for Willowbrook residents to be somewhat lower.

They now are paying \$4.15 a month or \$12.45 a quarter.

AVERAGE COST

Under the village system, the average should be about \$11.70.

The village's application to sell the bonds will be submitted to the State Municipal Finance Commission.

Ackley said he hoped the agreement with Mrs. Paul LeBost, owner of the private water company, could be signed this week.

In other action, the council last night set Feb. 24 as the date of a hearing on the necessity of installing sewer lines in Willowbrook Estates No. 1.

COST ESTIMATES

A resolution was passed authorizing Ackley to prepare cost estimates for sewer lines in Willowbrook Estates No. 3.

The lines, laterals from the Huron interceptor, already have been approved for Willowbrook Estates No. 2. There they will cost an estimated \$191,000.

## JC Group Organized in Area

AUBURN HEIGHTS — A Junior Chamber of Commerce is being organized in Auburn Heights under the temporary chairmanship of Charles Johnson, assistant superintendent of the Avondale School District.

Twenty young men attended the first session recently at the G.B.U. Hall and expressed a desire to form the new group as soon as possible.

As a result another meeting is slated for 7:30 p.m. Thursday at the fire hall on Auburn Road.

In issuing an open invitation to the session, Johnson said, "We feel that every Auburn Heights young man can benefit from membership with the Jaycees. The organization gives them a means to improve their community and themselves."

Any man interested in obtaining more information about the local group can contact Johnson at the high school.

WATERFORD JAYCEES

Waterford Township Jaycees, who conducted the initial session, outlined the local, state and national phases of the Jaycee program.

Theodore McCullough Jr., Waterford Jaycee president, outlined the goals. Others on the program included Ozee Watchpock, Pontiac Jaycees, and Whit Carnahan, Waterford Jaycee vice president.

Keynote address was given by Jack Cooper of Clarkston, state Jaycee vice - president. Chairman of the Waterford extension group is David Zuehke.

For an hour's pay, the average American factory worker can buy enough food to serve a meal to four persons. In Germany or England it takes twice as long to earn enough money to buy the same meal.

## Farmers Back Tax Changes

LANSING (AP)—Some 70,000 members of the Michigan Farm Bureau are "ready and willing to give a sympathetic ear" to state tax reform proposals, says its president, Elton Smith.

In a letter to Gov. George Romney and members of the legislature, Smith backed an "immediate program of tax reform."

The letter follows a Jan. 22 Farm Bureau Board of Directors' statement calling for reform of the state's "inequitable and antiquated tax structure."

"No longer can local government survive and flourish by depending on a single source of revenue — the property tax," they said.

Although the state expects surplus in the neighborhood of \$100 million by the end of the current fiscal year, both Romney and the Democratic-dominated legislature concede that fiscal reform — including a statewide income tax — is necessary.

Each side has said it is waiting for the other, however.

## Will Face Sharks to Test Bane

LONDON (AP) — Members of a British research team plan to offer themselves as bait in a test of shark repellent. They'll tempt the sharks with human blood.

"Considerable risk will be attached to this, as no shark repellent has yet proved effective," Ley Kenyon, 50, the expedition's photographer told a news conference yesterday.

Kenyon used to teach diving to Prince Philip at the Buckingham Palace swimming pool.

The 11-member skin diving group leaves for the Red Sea next April to carry out the tests for the British Admiralty.

"We are experimenting with a special naval shark repellent which is actually made in part with shark flesh. The rest is colored dye," said Brian Curran, 24, another member of the expedition.

### SPECIAL CAGE

"At first we shall go down in a special cage but later we hope to go out alone and try experiments without protection," he added.

He said the Admiralty has told the group that sharks will be scared off with such measures as crashing pans together, screaming or splashing "if they really mean business."

The expedition will also use human blood from a hospital blood bank to study its effects on sharks.

Members of the expedition include two doctors and a 21-year-old woman skin diver. She was identified only as "Tina" because she told expedition organizers that she did not want her parents to know she plans to spend six weeks in a boat with 10 men.

## Assessment Deadlock Remains

## Recess Averts U.N. Showdown Again

UNITED NATIONS, N.Y. (AP) — Apparently abandoning hope of breaking the deadlock over assessments, delegates worked today to wind up house-keeping details and bring the most fruitless General Assembly in U.N. history to an end.

The assembly won another delay Monday in the threatened U.S.-Soviet showdown over voting rights by agreeing to another week's recess while new efforts are made to negotiate a

solution to the U.N. financial crisis.

Some delegates expressed doubt, however, that another week would bring negotiators any nearer a solution than they were two months ago.

Ambassador B. N. Chakravarty of India said he saw no hope for a solution in the next few days.

### MEMBERS AGREE

Member nations agreed to Assembly President Alex Quisenberry's call for adjournment until Monday. Earlier, Secretary General U Thant said everyone agreed it was to the United Nations' interest to avert a showdown at this session.

Thant said the assembly agreed on these points:

— All members want to set aside differences to get the United Nations out of its present financial plight.

— A confrontation over application of Article 19 denying the assembly vote to any member two years in arrears should be avoided at the current session.

### VOLUNTARY FUNDS

— Voluntary financial contributions should be made to save

the world organization from bankruptcy, without prejudicing the views of any member as to the legality of peace-keeping dues.

— The contributions should be made as soon as possible to erase about \$13 million in unpaid assessments and highly developed nations should give the biggest part.

— A comprehensive review of the question of peace-keeping operations should be undertaken, possibly by a 21-nation working group studying the problem and a report turned into the assembly.

The United States and the Soviet Union were guarded as to the prospects of achieving anything during the latest recess.

### RESOLVE PROBLEM

U.S. Ambassador Adlai E. Stevenson told newsmen, "Now that there is a recess we hope it can be used to resolve the problem so that the assembly can get on with its business and the influence of the United Nations can be strengthened."

Soviet Ambassador Semyon K. Tsarapkin told a reporter it was too early to say whether the recess would accomplish anything.

## People in the News

BY THE ASSOCIATED PRESS

Mrs. William W. Scranton, Pennsylvania's first lady, has appealed for public support in a controversy involving the state's refusal to pay for new draperies in the governor's reception room.

"As a housewife, a bargain is a bargain and politics is politics," the wife of the Republican governor said yesterday in a statement. "The state has been asked only to pay \$1,555 for the drapes."

Because the drapes were not purchased through competitive bidding, the Democratic-controlled auditor general's office last week returned the requisition for payment to the department of property and supplies.

Mrs. Scranton said that in the best interests of Pennsylvania, the Democrats should "accept the bargain in the good graces with which it was offered." She said she undertook at her own expense to redecorate Scranton's private office after he became governor two years ago.

### Chest Pains Hospitalize Jory

Victor Jory, 63, television and film actor, has been hospitalized in Hemet, Calif., after experiencing chest pains.

He was admitted to the hospital Saturday and doctors said yesterday tests were being made to determine if the pains were caused by a mild heart attack. He is expected to remain in bed for several weeks.

### Singer Treated for Pill Overdose

Singer Joan O'Brien is being treated at a hospital in Los Angeles for what doctors said apparently was an overdose of sleeping pills. She is expected to recover, the hospital said.

Miss O'Brien was taken to the hospital yesterday after apparently swallowing 35 sleeping tablets, authorities said.

## Illness of Secretary Not Cause for Alarm

The third Administration figure to fall victim to the respiratory virus plaguing Washington, Secretary of Defense Robert S. McNamara was admitted over the weekend to Walter Reed Hospital for indefinite confinement.

Following X-rays, his ailment was diagnosed as viral pneumonia. McNamara's condition is not considered serious, and a medical report issued yesterday indicated normal temperature and condition good.

It is doubtful whether the Capitol has ever seen a more driving and exacting executive than the man who sits in the all-important chair of Defense Secretary. The killing pace McNamara sets and the rigorous winter weather that has gripped the nation constitute a hazard few could withstand.

The countless friends of the cabinet officer, not only here but around the world, will share feelings of relief that his illness is not of major character and join in best wishes for speedy recovery.

## Commission Approves City's Fiscal Plan

It's budget time again, and the City Commission approved one for the current year amounting to \$8 million—some \$1.1 million higher than the 1964 budget.

The major portion of city revenue is realized from property taxes, this year estimated at \$5 million. With a planned increase of \$1 million in Pontiac's tax base, a rate of \$17.16 per \$1,000 of assessed valuation is indicated—the same as last year's.

Reflected in the budget are increases on both sides of the ledger. The city will pay out more than last year in the areas of personnel compensation and administration, pensions, street lighting, street projects, bus subsidization and community center operation.

To some extent offsetting these expense increases are higher revenues from licenses and permits, fines and penalties, hangar rental at the airport and library aid. And income from Urban Renewal Administration Service, equipment rental, parking, and water and sewer services will swell the general fund.

Although the budget is theoretically in balance, the City's fiscal position leaves something to be desired. Only \$35,000 is earmarked for contingencies in the general fund. Since the general fund represents \$6.7 million of the budget total, the reserve, in City Manager Joseph R. Warren's words, is practically nothing.

The 1965 fiscal projection reflects praiseworthy preparation and clarification in some particulars, and we commend city officials on the excellence of the result.

## Fatherhood Age Down, Statistics Indicate

American fathers are getting younger and younger—at least in terms of their age when they have children.

An Institute of Life Insurance comparison of births from 1940

through 1962 shows that younger men are fathering more and more babies, while older men are fathering fewer and fewer.

Experts say they don't know all the reasons behind the pronounced trend toward youthful fatherhood, but it reflects several economic, social and medical factors. A similar age trend is evident among American mothers. As a result, the age structure of families is undergoing significant changes.

In 1940, for example, the average number of births per 1,000 men in their late 40s was much higher than the comparable "fatherhood rate" among young men in their late teens. And men in their early 30s averaged more babies than those in their early 20s. By 1962, both situations were sharply reversed.

From all this, you might conclude that the stark, like the advertised prices of some commodities, is subject to change without notice.

## Peace Presents Special Problems

By JAMES MARLOW  
Associated Press News Analyst

WASHINGTON—This country is heading into a comparatively peaceful time unless something not now visible happens, like a greatly expanded war in Viet Nam.

This is not President Johnson's doing but the result of a number of conditions and events before he moved in. He inherited the tranquility, such as it is, and is trying to take advantage of it by his emphasis on home problems.

Before Johnson's presidency, President John F. Kennedy took some of the steam out of the Russians' aggressiveness with the missile showdown in Cuba. But that wasn't all that helped cool them off.

Their own economy needed attention because it was stumbling. And, because of their split with Red China, they were no longer able to concentrate on plaguing the West. And China looks like a problem for them for years.

That Johnson seems to see a time of tranquility—or at least a period not nearly so hair-raising as the years since the cold war began in the 1940s—was reflected in what he stressed in his messages to Congress.

DOMESTIC EMPHASIS

He put the emphasis on domestic affairs, skipping lightly over the foreign ones.

He would not have been able to bear down so heavily on programs for the development of this country, and the welfare of its people, if he had been under great foreign pressures. He wasn't.

His statement about American military superiority is a good reason by itself why he feels free to pick up the unfinished business at home.

The pulling and hauling going on now among the Western allies is more evidence the immediate dangers have subsided. If they felt unsafe, they wouldn't dare the luxury of disagreements.

In a relaxed period the Communist world, even if the Soviet Union and Red China are antagonists operating separately, will be trying advances without war, not by aggressions but by influence and subversion.

So the peace Johnson seems to be facing will be only a relative peace and may require more imagination in dealing with the rest of the world—friend, foe and neutral—than even the cold war required.

David Lawrence Says:

## Labor Bargainers Ignore Public

WASHINGTON—About \$1.5 billion has been lost to the nation's economy in the last three weeks due to a longshoremen's strike in Atlantic Coast and Gulf ports.

Perhaps one fifth of this sum is a loss to the federal treasury because of resultant tax deductions, but the major loss is LAWRENCE to American businessmen and to the workers.

Orders for goods have been held in abeyance due to the strike, and the indirect effects on various businesses here and abroad probably amount to far more than the estimated \$65 million a day.

Approximately 62,000 workers have been idle 22 days thus far.

Yet the President of the United States could not avert this catastrophe, and leaders of the Democratic party, which has control of both houses of Congress, have not given any sign that they will take action to prevent a recurrence of the same kind of interruption to American commerce and trade.

President Johnson has finally made an appeal to the unions, but he has no legal authority to require them to resume work.

Plainly, Congress has the major responsibility. It can pass a law forbidding the misuse and abuse of the "right to strike."

There is no reason why strikes should be permitted while serious and hopeful negotiations are in progress, or when localities in some of the large ports have accepted the terms, yet cannot go back to work because unions in other coast cities have not voted their approval of the settlement.

AN HISTORIC MESS

The whole situation is one of the worst messes in labor history. It is a state of anarchy.

There is no question of the importance of the right to strike and of the value of collective bargaining in settling labor disputes.

But the "public interest" which is so often mentioned but given little attention by the parties battling one another—can not be ignored much longer.

A simple amendment to the National Labor Relations law could prohibit the beginning of any strikes until after a federal mediator has examined carefully the negotiations to determine whether there is good faith on both sides and whether a reasonable settlement is possible by further talks.

Postage has been paid at the Pontiac, Mich. Post Office, No. 1000, Second Street, Pontiac, Michigan. Member of A.P.C.

The waste of \$1.5 billion is something which the average citizen can understand. It is a sum which is larger than what is about to be appropriated for the "War on Poverty."

The Department of Labor cannot be blamed for what has happened. It has tried conscientiously to bring about a settlement.

If Congress amended the labor laws so that there could be no strikes while collective-bargaining negotiations were proceeding, it would remove many of the hazards.

The Department of Labor

could be authorized to investigate and determine whether adequate time has been given for collective-bargaining negotiations.

And if there was a prospect of agreement, the department could be given authority to require that work continue—not just for an 80-day "cooling-off" period but indefinitely—while the negotiations are extended.

Procedures of this kind might not avert all strikes, but could prevent many of them and save the country losses of billions of dollars a year in labor disputes.

## All Boosters of Medicare Should Read This Article

LONDON—All Americans in favor of the swift passage of Medicare might ponder the following excerpts from an article in a recent issue of the London Daily Express:

"I am saying farewell to Britain in a mood of sadness and irritation," it began.

"Like many doctors today, I am leaving the National Health Service to practice my craft in another country. But before I go I should like to tell what is happening to the family doctor, and why he is one of a vanishing breed."

"I have a one-man practice of 3,000 people, which I started on nothing 30 years ago. My working day starts at 8 a.m. and finishes if I am lucky at 9 p.m. I do two hours in surgery morning and evening, and the rest of the day is spent in making visits. I work between 60 and 70 hours a week."

"On average, I am called out from my bed two nights a week."

"I am required by my contract, under pain of heavy penalties, to be available to each of these 3,000 patients 24 hours a day 365 days a year."

"I am paid at a basic scale of five shillings one pence (about 20 cents) every three months for each person on my list."

"I may have to visit a patient dozens of times, perhaps save his life, during those three months. But my reward is still the price of a packet of cigarettes."

"Can you get a plumber to fix a leaking tap, just once, for five shillings one pence?"

"Since the start of the National Health Service I have had 16 years of desperate financial insecurity."

"My eldest son wanted to become a doctor like his father and grandfather before him. I

could not afford to keep him for seven years, and he did not win a scholarship.

"There will be no holiday for me this summer, as usual. Instead, with my wife and our two younger children, I shall be on my way to New Zealand—and a new life—at the age of 54, to practice medicine as it was meant to be practiced."

In Washington:

By BRUCE BLOSSAT  
WASHINGTON (NEA)—Despite all the brave talk from the Johnson administration on the success of the fight against inflation, it's a thing of walking on eggs.

As the President and his economic advisers are pointing out, consumer prices have been held to an average annual rise of only 1.2 per cent over the past four years.

No economists, partisan or otherwise, have been heard to dispute that this is just about as close to total stability as could be hoped for in an expansionary period like 1964-65.

Yet an annual rise of only a few additional tenths of a point could start an epidemic of jitters among government price specialists.

Says one:

"There would be speeches made if the increase went beyond 1.5 per cent. We'd be reassured people everything was still all right, but we'd be worried."

Though there isn't any handy definition of how big a rise constitutes "inflation," all the alarm bells probably would be

Voice of the People:

## 'Does State Have Surplus or Need an Income Tax?'

Governor Romney said he expected a state surplus of \$60 million, and some democratic "big-wigs" said the surplus would be closer to \$100 million. Zolton Ferency practically ordered the state legislature to enact a state income tax to solve the state's financial problems. With \$100 million left?

Apparently two smaller cities in this area don't think the state has a financial problem. They have by official resolution asked Governor Romney to give them some of the surplus for their own financial problems.

## 'Who Will Benefit by State Income Tax?'

State Senator Carl W. O'Brien is trying to delete from our constitution the prohibition on a graduated state income tax. If any state income tax is imposed, the taxpayer will have less disposable income. Taxpayers should let the Lansing spenders realize this is still a democracy and not a political paradise for those on the public payroll.

## 'Wage-Earners Don't Need Extra Taxes'

## 'Driving Is Hazardous on Side Streets'

It appears many people feel the street is a safer place than driveways to park their cars. Many side streets have been covered with snow and ice and have been thoroughly rutted by the changing weather and traffic. This makes driving hazardous without having to drive over and through the icy ruts to pass cars parked at the curb on both sides of the street.

## Comments on Value of Good Teachers

Would those who complain of high teachers' salaries be willing to be a teacher? Most other college graduates earn more, have a much higher status, and have much less responsibility.

Only by giving teachers the respect and status they should have can we expect the best from our schools and the best from our children. Only by knowing the true worth of our children can we realize the value of a good teacher's services.

## Inflation Peril Haunts Economy

ringing hard if the increase shot past 2 per cent.

Last time that happened was in 1958, when the hike was 2.7 per cent. The year before, the rise was a clearly inflationary 3.3 per cent.

Even these boosts do not compare, however, with the great spiraling that occurred right after World War II and again at the outset of the Korean war.

In the first two postwar years, 1946-47, the consumer price level leaped upward 15.1 per cent. With very little breather in between, inflation took a 7 per cent toll in 1951, amidst the Korean war.

U.S. economic activity in 1964 increased so strongly that at least one government price expert was surprised to see the anti-inflation line held so firmly.

But the factors which helped produce this successful price "containment" last year could very well work to the same end in 1965.

As the economic reports of the President and his advisers emphasize, demand is not really pushing hard against supply. The choice given the American consumer by today's immense variety of goods takes away some of the upthrust. Moreover, consumers are basically well-stocked, and industry has a good deal of unused capacity.

The Council of Economic Advisors says the country's gross national product in 1964 fell about \$27 billion short of estimated potential. This gap, narrowed from \$51 billion in 1961, is unmistakably an anti-inflation valve.

The government's so-called guidelines—formulas intended to put limits on wage-price increases—are believed also to have been of some real benefit as informal restraints in union-management bargaining over new contracts.

If it were not for these and the other factors noted, the administration's price guardians might be far more than ordinarily concerned at the 1965 outlook. At least 134 wage agreements involving bargaining units of 5,000 workers or more each, affecting a total of some 1.5 million employees, are due to expire this year.

The big ones are in steel, aluminum, rubber, shipbuilding and aircraft manufacture. The President already has his economists looking into steel price rises. No one needs to be reminded the steel negotiations are most crucial of all.

As busy as the new bargaining year is, others have been busier and more fraught with inflationary peril. Nevertheless, optimism should not run beyond saying that President Johnson's eggs may not crack for another year.

## Protests Greet N-Sub in Japan

SASEBO, Japan (AP) — Japanese leftists demonstrated today against the return visit of the U.S. nuclear submarine Seadragon, but police kept the rallies and parades under control.

Police outnumbered the demonstrating Socialists and Com-

munist 2 to 1, as the leftists failed in a call for 5,000 followers to demonstrate against the Seadragon, which arrived today for a four-day visit.

Police estimated 1,000 persons, paraded in the streets of this southern port city in the morning, and about 1,300 snake danced through the streets during the afternoon. Their enthusiasm was less than those who demonstrated against the Seadragon's first visit last Nov. 12.

The leftists obeyed whenever police asked them to break up their chanting columns.

### FAN EXCITEMENT

Radio Moscow, however, fanned the excitement of the demonstrators with a Japanese-language broadcast claiming the United States plans to set up bases for nuclear submarines and weapons in Japan.

"It cannot be ignored that a Japanese port becomes the entrance for vessels equipped with nuclear rockets to the great ocean extending up to the coasts of other peace-loving countries of Asia," the broadcast said.

The United States was granted port facilities for its nuclear-powered subs under a recent agreement with Japan. Both countries made it clear the submarines do not carry nuclear weapons in Japanese waters.

In Tokyo, Prime Minister Eisaku Sato told a lower house budget committee that extensive Japanese surveys have proven there is no danger of radiation or contamination of the sea water.

The Socialists, the Communists and the 4.3-million member Sohyo Labor Federation, however, reaffirmed their intention to demonstrate every day the Seadragon is in port.

The announced purpose of the submarine's visit is to provide rest and recreation for the crew of 95.

### World News in Brief

## Judge and Prosecutor Fired in Russia

MOSCOW (AP) — A judge, Kuzmynkh, was dismissed, a regional judge was removed and a prosecutor who convicted an innocent journalist on bribery charges have been fired, Pravda reported today.

The Soviet Communist party daily last December angrily interceded on behalf of A. D. Gaskov, a journalist in the town of Armavir, who was sent to prison on trumped-up bribery charges.

Gaskov was said to have offended local party bosses with his exposes of sin and corruption between the party and government elite in Armavir. Following the publicity in Pravda, authorities reviewed the case and the prosecutor, L. I.

passengers were only slightly injured.

STOCKHOLM (AP) — A Swedish businessman is in jail because he tried to turn over to the Soviet Union American-made electronic material used by Swedish forces.

John Uno Norman, 53, was sentenced to a 10-month prison term Monday after being convicted of attempted espionage.

Norman confessed he acquired classified information on electronic material such as microtransistors, radar material, mines and other weapons. He denied, however, he was going to sell it to the Russians.

## French Official Will Visit U.S.

PARIS (AP) — French Foreign Minister Maurice Couve de Murville will go to the United States Feb. 17, at the invitation of U.S. Secretary of State Dean Rusk, it was officially announced today.

The announcement said Couve de Murville would spend several days in the United States. It gave no details.

Officials here would not comment on whether he would talk with President Johnson, but it was felt likely that he would. On his last visit, in October 1963, he met with the late President Kennedy.

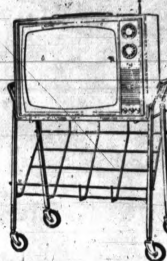

His visit will follow by a week a scheduled trip to Washington by British Prime Minister Harold Wilson, who will meet with Johnson.

It is believed that the British prime minister will fill in President Johnson on his meeting with President de Gaulle in London last week. The two talked privately during de Gaulle's visit to London to attend the funeral of Sir Winston Churchill.

The talks were described as friendly and useful. They also brought the announcement that Wilson would visit de Gaulle in Paris either late this month or early in March.

# Vote to Relax U.A.R. Aid Ban

WASHINGTON (AP) — The Senate Appropriations Committee has lined up in support of President Johnson's drive to ease a House-voted prohibition against further shipments of surplus farm products to the United Arab Republic.

The committee voted 17 to 6 Monday to relax the House ban by giving the President flexibility to continue the shipments when they are necessary to carry out a 1962 sales agreement and if he determines such exports are "in the national interest."

This so-called "escape hatch" was written into a \$1.6-billion emergency agricultural appropriation in a modification of the flat ban voted by the House.

Sen. George D. Aiken, R-Vt., said the State Department had given senators a "confidential" reason for opposing the House ban. He said "I think that our oil companies are very much disturbed for fear" that U.A.R. President Gamal Abdel Nasser "would shut off the use of the Suez Canal or take some other steps to make their business in the Middle East rather hazardous."

Aiken was interviewed Monday on the American Broadcasting Co. radio program "From the Capital."

**STERN WARNING**

The Senate committee, reflecting growing congressional resentment against Nasser, sternly warned the administration against continued aid to countries like his, Nasser said.

## Accused Spy Quits Russia, Flies to U.S.

MOSCOW (AP) — Richard F. Stolz, a U.S. diplomat accused by the Soviet Union of spying in what the American Embassy called a retaliatory move, left for home today.

The Soviet Foreign Ministry charged last Tuesday that Stolz, an embassy first secretary, had engaged in "activity incompatible with his status as an accredited diplomat." It demanded he leave the country.

The American Embassy denied the charge. It said "this is a clear example of retaliation" for a case in the United States.

Boris V. Karповich, a former information counselor at the Soviet Embassy in Washington, was expelled from the United States Jan. 7 on spying charges.

**FLY TO VIENNA**

Stolz, 39, and his wife and three children flew to Vienna on their way to Munich and Washington.

five weeks ago the United States could take its aid and, in effect, "go to hell."

The report warned foreign aid officials against continued assistance to countries that are directly or indirectly "hostile to the United States" or that are providing assistance to groups or countries "that are acting against the best interests of the United States." Nasser boasts of his help to the Congo rebels.

The report emphasized the congressional view that American taxpayers, who foot the bill, do not favor assistance to countries "which permit the property of the United States of America to be destroyed and whose leaders make statements derogatory to our country."

Nasser was the target was clear. A Cairo mob burned a U.S. library on Thanksgiving Day.

The committee acted after a public hearing at which Undersecretary of State George W. Ball pleaded with the senators to allow the President "all possible flexibility" in this country's dealings with Nasser.

**THE AMENDMENT**

The amendment would deny continued exports of surplus commodities to Nasser for Egyptian currency "except where such exports are necessary to carry out" sales agreement of 1962, which expires in July, and "if the President determines that the financing of such exports is in the national interest."

Ball testified that under the 1962 agreement the United States committed itself to sell \$431.8 million of commodities, of which all but \$37 million have either been "actually delivered or are subject to purchase authorizations issued to the U.A.R." But he said no further sales are being negotiated in the light of Nasser's current policy.

The committee upheld his view that in critical decisions in the turbulent Middle East, the President "must be in a position, if he deems it wise, to complete deliveries under this agreement."

The committee refused to make public the roll call on the vote. A Senate vote is expected Wednesday or Thursday.

## More Detroit Hotels Plan to Hike Rates

DETROIT (AP) — The Abington, Embassy and Park Shelton hotels said Monday they soon will raise room and food-beverage rates an average nine percent. The three will join two other major hotels which raised rates following a new labor contract, signed Jan. 11 with hotel workers unions.

# AF Academy Probe Believed Near End

**AIR FORCE ACADEMY, Colo. (AP) —** An Air Force Academy official said the diminishing number of cadet resignations — nine Monday — "strongly indicates that the end is near" in the academy's investigation of the theft and sale of examinations.

The official, anonymous in the face of a strict academy order forbidding personnel to discuss the affair, said the probe may be finished by the weekend. He made the remarks in an interview with the Rocky Mountain News.

Rep. Samuel S. Stratton, D-N.Y., labeled Air Force answers to his inquiries concerning the cheating, "a snow job," and said he was waiting for replies to 11 written questions he submitted Monday to Secretary of the Air Force Eugene Zuckert.

Stratton, a member of the House Armed Services Committee, has charged that "athletic professionalism" was a factor in the cheating scandal, and has questioned the scholastic qualifications of academy athletes.

**TOP QUARTER**

An Air Force athletic officer said Monday that of 100 varsity, junior varsity, and freshman cadets on academy football teams last fall, 81 were in the top quarter of their high school class.

The Air Force Board of Visitors, headed by former Air

Force Chief of Staff Gen. Thomas D. White, is scheduled to meet this week to discuss academic matters at the academy. The group includes the chairmen of the House and Senate Armed Services committees, or their designees, three other senators, four other House members, and six members appointed by the President.

"We will go into the academic situation," said White, "but we have nothing to do with the disciplinary situation."

White also heads a special five-man committee appointed last week by Secretary Zuckert to look into the academy's "fundamental programs."

# Language Rift Causes Strike

LAREDO, Tex. (AP) — A language strike kept operators of Southwest Bell Telephone Co. away from their switchboards today.

Sticking to a deadline set Jan. 11, union operators quit work Monday because management refused to pay them extra for speaking Spanish — a language commonly in this old Mexican border town.

Company officials and supervisors took over duties of the operators. Southwest Bell sent 40 supervisory employees here from Corpus Christi and San Antonio.

Laredo has automatic dial telephones but the dispute arose because private and business calls made to and from Nuevo Laredo, across the Rio Grande in Mexico, must be handled manually.

**USE OF SPANISH**

Ramiro J. Ramirez, local president of the Communications Workers of America, estimated 30 to 40 percent of the operators' work required use of Spanish because callers would not speak English.

# TV Show Fast Pace for HST Kin

PHILADELPHIA (AP) — Margaret Truman admitted after the opening show of her first daily television series, that she was a little worried. Not about the show, but about getting home in time to cook dinner for her husband and three sons.

The show, a local special events broadcast live by WCAU-TV, in which Miss Truman is cohost with Bill Hart, lasts half an hour and demands little rehearsal time. It does require three hours commuting every day for Miss Truman — in private life Mrs. Clifton Daniel — between her Manhattan home and the station's Philadelphia studios.

"We have a maid," she said, dashing for the dressing room after Monday's show, "but not a cook. It's going to be tough getting home in time some days."

The current series is scheduled to last, as far as Miss Truman is concerned, only until the show's regular hostess, Nancy Beebe, currently on vacation, rejoins Hart before the cameras.

## FAST LUNCH

Rushing off for a fast lunch, then a conference with the producer and a race against the train timetable, Miss Truman said the show itself did not make her nervous.

"I didn't have time to be," she said. "After the show, everybody was apologizing for the madhouse atmosphere. I told them I thought it was just part of the course."

Miss Truman said that because the show was only for local broadcast, she had not thought to tell her parents, former President and Mrs. Harry S. Truman, about it until a few days ago.

Truman told her "It sounded interesting, and he wished me luck," she said.

Argentina's two oldest cities, San Juan and Mendoza, were founded in 1561 and 1562 by Chile colonists.

# House Group, McNamara Near Defense Showdown

WASHINGTON (AP) — The House Armed Services Committee appeared today to be marching toward a showdown with Secretary of Defense Robert S. McNamara in the long dispute over congressional authority on defense policy.

"We have never come to grips with it before," said Rep. F. Edward Hebert, D-La., an armed services subcommittee chairman.

The full committee organized itself yesterday under a new chairman, Rep. L. Mendel Rivers, D-S.C. He succeeded the veteran Carl Vinson, D-Ga., who retired from Congress after the last session.

Today, with a closed briefing from Central Intelligence Agency Director John A. McCona, the committee begins its annual stem-to-stern survey of the nation's military strength, policies and problems.

When these hearings on defense posture and procurement authorizations are finished, Hebert said he intends to open a subcommittee investigation of McNamara's decision to put the Army Reserves into the National Guard.

**CIRCUMVENT AUTHORITY**

Hebert considers this move without congressional approval an attempt by McNamara to circumvent Congress' authority.

As the first order of business, Hebert said he plans to ask Defense Department for the name and salary of every "press agent in the Pentagon" from Arthur Sylvester down. Sylvester is assistant secretary of defense for public information.

"The press agents in the Pentagon," Hebert said in an interview, "have built up a superman that doesn't exist. They have tried to picture McNamara as a St. George facing the dragon of waste. He is, in reality, Merlin the Magician

fooling the people with economic legerdemain."

There have been battles — and threatened battles — before. The committee has tried to get McNamara to build more bombers, to press work on an antimissile system and has fought him over his National Guard reorganization plan — but McNamara has given little ground.

## SENIOR MEMBERS

As the senior members of the committee — Republican and Democrat — pledged their support to Rivers yesterday, practically every one spoke of Congress' constitutional authority.

Rivers spoke sternly of this himself. He said the one overriding duty of Congress is to provide for the common defense and general welfare.

It is Congress' power and responsibility, he said, to raise and support armies, provide and maintain a Navy and to "make all laws which shall be necessary for carrying into execution" these powers.

No one else, he said without mentioning the Pentagon, has this responsibility.

## Judge Gives Certain Probationers 'Key to Prison Front Door'

(EDITOR'S NOTE — Sonic boom echoes in Oklahoma, a judge's keys to prison, a grandmother-grandson in an Ohio high school, and a snip of lines for more accidents are among facets of the U.S. scene this week.)

PROVIDENCE, R.I. (AP) — Keys to prison — which actually don't fit — are being handed out these days by a Rhode Island Superior Court judge "in appropriate cases."

Judge William M. Mackenzie presented a key to Robert R. Tutalo, 22, of Johnston, convicted of possession of a lottery slip.

"I have a key to present to you," Judge Mackenzie told Tutalo. "It has the letter P on it to let you know that prison is where you are going if you violate probation."

Judge Mackenzie added this suggestion: "Put it in your pocket every morning. It's your key to the front door of state prison."

**KEY SUPPLY**  
He said he obtained a supply of old keys — none of which fit the front door of state prison — from a locksmith.

OKLAHOMA CITY, Okla. (AP) — Sonic booms ended here six months ago, but not the irritations of some area residents.

Partly for that reason, but also because of a gigantic task of analyzing 100,000 items of data gathered from 1,252 supersonic jet plane flights, a government staff lingers on here.

The statute of limitations is two years.  
Damage claims continue to trickle in even six months after the end of the tests. So far, claims total 4,400. But only 218 have been approved for payment totaling \$12,000.

**PROOF LACKING**  
The Federal Aviation Agency, which supervised the program, thus far has failed to concede that sonic booms were proven causes of damage.

AKRON, Ohio (AP) — Bill

Thornberg and his grandmother are both honor students, but she'll beat him to a high school diploma.

But 17, will be graduated in June from Akron North High. His grandmother, Sarah Jamison, 61, will get her diploma in May from Akron Evening High School.

Mrs. Jamison, who lives with Bill and his parents, said she left school after the sixth grade because her father didn't believe any more education than that was needed for a girl.

She felt a lack of education, though, so six years ago she entered high school.

**COLLEGE AHEAD**  
"I'm real happy to be the only boy whose grandma will graduate in the same class," Bill says. He plans to go on to college.

Does Mrs. Jamison plan to enter college, too?  
"I certainly plan to do something in the way of more education," she says. "I'm not going to sit around and vegetate, that's for sure."

SACRAMENTO, Calif. (AP) — Safety barriers dividing California highways are causing more accidents.

But they are cutting the traffic death toll by preventing worse head-on collisions, the State Division of Highways says. It plans to build five times as many barriers as now divide California freeways.

"We are trading property damage for lives," explains James E. Wilson, an engineer of the division.

In four years of experiment, the state has built 250 miles of beam barriers, or cable and chain-link fence, in center strips of its 65 m.p.h. freeways. The division plans to increase this up to 1,500 miles.

**ACCIDENTS INCREASED**  
Accidents have increased 32 per cent where cable barriers are used and 20 per cent where beams are installed.

On the life-saving side of the scales there were 45 fatal acci-

dents involving cars that crossed a freeway dividing strip in 1959, the last year before barriers went up. Since then traffic on the high speed freeways has doubled but this type of fatal accident has dropped to an annual average of 20.

The barrier prevents a car out of control from crashing head on into autos traveling in the opposite direction. The barrier

increases lesser accidents because it often prevents a motorist from recovering control of his car after it swerves into the dividing strip.

NEW YORK (AP) — After gathering dust in a warehouse for 13 years, Jose Marti finally will be put on his Central Park pedestal.

Jose Marti is a 19-foot statue of the Cuban fighter for inde-

pendence who was slain by Spaniards in 1895 at the age of 42.

The giant bronze work has been the cause of a dispute involving the U.S. State Department, the New York City Police Department and assorted Cuban groups.

Placing of the statue itself was postponed until things cooled off. Now it has been

decided that the atmosphere is cool enough to go ahead.

**A GIFT**  
The statue is the work of Anna Hayatt Huntington and was her gift to the city, as were other statues of Joan of Arc, Don Quixote and El Cid.

Now the problem is to find the statue. City officials were certain it's around, in some city warehouse.

# Wilson: Must Guard Nonnuclear Nations

LONDON (AP) — Prime Minister Harold Wilson says world nuclear war is inevitable if the Western allies don't protect non-nuclear nations against the threat of Red China's A-bomb.

The British Labor party leader's comments came on the eve of today's debate in the House of Commons on a measure motion introduced by the opposition Conservatives. It accuses

Wilson of hasty and ill-considered action in his measures to meet the recent economic crisis.

It deflated in the debate — which is unlikely — Wilson would resign and call new elections.

Answering questions Monday night on a television program marking his first 100 days in office, Wilson explained why he had decided to keep British bombers east of the Suez Canal when his election platform pledged Britain would abandon independent nuclear power.

**WORLD ROLE**

"This country's strength is going to depend on our world role and not being corralled in Europe," he said.

"We now have the situation of the Chinese nuclear weapon."

"We have nonnuclear coun-

tries, including India, who want some safeguards against that, otherwise we are going to find India, Pakistan and all countries in Asia, and perhaps Indonesia before long, and the Middle East, becoming nuclear powers.

"Once this happens, world nuclear war is inevitable," Wilson declared.

## NO PROPOSAL

The prime minister did not propose any working solution to the situation beyond saying "we attach the greatest priority this year to working out with our allies some kind of force to protect nonnuclear powers against the threat of the Chinese bomb."

Before debate on the measure motion Wilson had secured a working majority of only seven votes.

## KEY CENSURE

The Liberals announced Monday they would abstain from the key measure vote after introducing a motion that also accused Labor of "hasty and ill-considered action" and blamed the Conservatives for leaving all important problems unsolved.

Wilson lunched Monday with Prime Ministers Robert Menzies of Australia and Keith Holyoake of New Zealand. Both nations have pitched in with Britain to help Malaysia repel Indonesian raids and landings in the islands.

**DEFENSE SECRETARY** Denis Healey told Parliament operations in the area are costing the country \$253,000 a week above the regular British contribution for defending Malaysia.

The measure now goes to the Senate Judiciary Committee. If that body acts soon enough, Senate Democratic Leader Mike Mansfield says he'll try to get a full Senate vote late this week.

The Senate approved the bill last year, but the House didn't. Rep. Emanuel Celler, D-N.Y., chairman of the House Judiciary Committee, has promised priority action this year.

Supporters say if there is early ratification, it could become law this year. The amendment would have to be ratified by three-fourths of the state legislatures.

## BY APPOINTMENT

The proposal would fill presidential vacancies by presidential appointment, subject to approval by majority vote of Congress.

The vice president could become acting president either through a written declaration by the president, or through a majority vote of the Cabinet.

The president could end the disability period by notifying Congress he is ready to resume work. The vice president could challenge this with the concurrence of a majority of the Cabinet.

Congress then would decide the issue. Both Senate and House, by two-thirds votes, would have to decide the president was still disabled for the vice president to continue as acting president.

## Many Testify in Rights Case

**Maddox Restaurant Put Out Negroes**

**ATLANTA (UPI)** — Restaurant operator Lester Maddox summoned 15 witnesses, including himself, today in an effort to stay out of jail and keep his segregated eating place in operation.

Maddox, in the second day of a nonjury hearing before U.S. District Judge Frank A. Hooper, was brought into court on contempt charges after turning back three attempts by Negroes to eat at his restaurant following passage of the 1964 civil rights law.

Hooper had enjoined him from such actions.

The judge gave no indication how he would rule on the case, a major test of the civil rights law. But late yesterday he firmly told the white man's attorneys that Negroes have the right to visit public eating places, either from hunger or to test their right to be there.

Hooper, who has heard numerous civil rights cases, made his observation from the bench during an argument over the admission of testimony as to the reasons Negroes went three miles across town to dine at the Maddox restaurant.

## KNEW PLANS

A white secretary for the Student Nonviolent Coordinating Committee, Barbara B. Rand, testified she knew of plans the night before four Negroes turned up at the Maddox place last Friday.

She had a front booth seat for the restaurant man's latest pushing and shoving episode of Negroes.

"A person may go to a restaurant in the interests of integration to see if they will be put out," Hooper said shortly before the prosecution rested its case.

"They may see if they can bring contempt action. There is no difference between excluding Negroes if they are hungry or if they go to find out if they will be put out."

## TURNED AWAY

Three Negroes who were turned away by Maddox over a six-month period insisted they went to his eating place on a routine basis because they were hungry.

Didn't you read the signs? asked Maddox attorney, Sidney Schell, referring to large notices on the door of the restaurant stating that integrationists and interstate travelers were not welcome.

Each witness denied knowing the definition of an integrationist.

"But I believe in only one race, the human race," Miss Brandt testified she told Maddox when he challenged her at his place last Friday.

## Workers Due Back on Jobs at Moonport

**CAPE KENNEDY, Fla. (AP)** — The majority of 3,800 building trades workers was expected back on the job today, ending a five-day walkout that held up \$201 million in vital space construction at the U.S. moonport.

Business agents of 18 A CIO unions said every effort would be made to spread the back-to-work word.

The decision came Monday night after the President's Missile Sites Labor Commission set a date to hear complaints registered by the unions against the National Aeronautics and Space Administration. The dispute involves which union should do assembly work on moon rocket transporters.

Clifford Baxley, coordinator of the Brevard Building Trades Council, said the commission scheduled a hearing for Feb. 9 in Washington, D.C.

**WORK HALTED**

The walkout completely halted work on 45 construction projects at Cape Kennedy and adjacent Merritt Island, where NASA is building millions of dollars worth of facilities for launching astronauts to the moon late in this decade.

# Advice to Widows Includes Warning on 'Vultures'

(EDITOR'S NOTE — How does a woman meet the challenge of living her life alone after her husband has died? How does she spot the "widow vultures"? How does she cultivate her latent talents to ward a successful new life? These and many more questions are answered by Mrs. Donn Sutton in a special four-part NEA story beginning today.)

By MRS. DONN SUTTON  
Newspaper Enterprise Assn.  
The day I became a widow I wanted to die. My husband's

life and mine were so intertwined with love and companionship and common interests that it was inconceivable to me that life could go on without him.

My friends and relatives rallied round. One friend took over the house and answered the phone, keeping all messages of sympathy for me. Others brought food in, ran errands, called on me and my children to console us, dined with us.

Then the funeral. It was soon over and I was left there with my great loneliness.

You really don't know how dependent you are upon your husband till the day you don't have him.

Hard as it is to force yourself out, to put aside your grief and loneliness, it is so important to do so.

I shall always remember the first time I was invited to dinner with some dear friends. They had invited a few other couples, all of whom I knew well.

It was a bitter cold, snowy, dark evening and I had to drive 15 miles alone to their home. I mustered up what courage I could and made the trip I had always taken before with my husband.

When I entered their house and saw the faces of my friends they were so solemn, grave and sympathetic.

SADNESS GONE

I was so relieved to be there, so happy to see them, that suddenly sadness left me. I felt joyous and grateful and smiling.

Spontaneously the solemnity left their faces. We had a de-

lightful evening as only old friends can.

You are, in widowhood, setting out on an uncharted course.

Chances are, over a period of years you have had your life absorbed by your husband and children.

When you are left alone, your whole outlook changes. First, you no longer have the protection of your home or the shelter of your husband's love.

Most of us have lived in our own small world of household duties, rearing a family, being the best kind of wife we know how and a companion to our husband.

Many of the harsh, cold realities of life have been about us all the while, but only now are we aware of them.

Our sex is noted for its adaptability. Your adjustments will come all in good time.

DON'T PANIC

There is no need to panic and upset your entire life's pattern by any hasty action. Make only the changes at

first which are absolutely imperative. In your state of grief and shock so much you do will be wrong.

Time heals and corrects many things. Take that time! Unfortunately, some tradespeople and sales promoters consider a widow easy prey.

Be watchful. Do not be gullible. Do keep your wits about you.

Particularly in money matters, some people may try to take advantage of you.

In choosing persons to handle your legal and business affairs, get advice from friends whom you respect.

Remember, where money is involved, whether the sum be large or small, families at times are separated and money matters can spoil friendships.

Generally it is better to put your affairs in the hands of professional people who are not close friends.

THEY PREY

There are predatory men who make an occupation of preying upon lonely women.

These are the "widow vultures."

They lead you to believe that you are the most alluring, adorable, irresistible woman in the world.

They flatter you, are romantic, call you often by phone, are solicitous, can't bear being away from you.

And what a joy it is to hear all these lovely things. You have been lonely, grieved, felt unwanted, abandoned, and suddenly the world seems bright and gay.

You feel and act just like a schoolgirl and you can't seem to help it.

If this man comes along, let us hope you won't be too gullible, that you won't marry in haste, sign any blank checks, or turn over any insurance money to him.

Try just to enjoy the court-

ship so that it may be merely a diversion for you if it alleviates some of your pain and grief.

A charming woman of our knowledge had worked hard after her husband's death to become a real estate agent and get her license.

She was highly respected professionally in her community when she became enamored by a man who succeeded in getting her to make a temporary loan to him.

To tide him over for a short time while he was consummating a big business venture.

HE RENEGED

The loan was never repaid. But in order to get the money, our real estate acquaintance borrowed some of the pro-

ceeds from the sale of a house which she had just made for a friend who lived in Mexico.

The friend finally asked for the money which wasn't forthcoming.

Now the widow faces prosecution for embezzlement, will lose her real estate license for which she studied and worked so hard, her livelihood and reputation.

She is in the process of trying to work it out by confessing to her friend what she has done.

She hopes to arrange to repay her so much monthly from her income until her debt is paid in full.

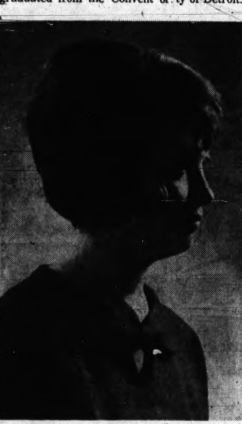

In the meantime, the man has gone on to track down another gullible woman and other "big business deals."

NEXT: Develop your skills.

## Garden Clubs Have Active Days Ahead

Edward H. Laird will present slides to illustrate his lecture on "Domestic Landscapes" before Birmingham Branch, Woman's National Farm and Garden Association (WNFGA) on Monday.

A graduate of Michigan State University, Laird is a Fellow of the American Society of Landscape Architects and is nationally known for his work on residential estates and for the State Department.

Chairman for the day at Birmingham Community House will be Mrs. Donald H. Goldsmith.

Mrs. George S. Dixon is designing special name cards for the 23 new members to be honored at a tea on that day.

NEW MEMBERS

Mrs. L. E. Atwood, Mrs. R. M. Roth, Mrs. R. D. Go-forth and Mrs. Robert Evans, latest additions to the branch roster, will also be welcomed.

Tea chairman, Mrs. Leon E. Jackman has asked Mrs. R. B. Pokorny, Mrs. Russell G. Heyl Jr. and Mrs. William H. Burgum to assist with the tea. Mrs. Frances McCallum and Mrs. Lett R. Els will

preside at the tea table arranged by Mrs. Charles H. Davison and Mrs. Stewart M. Cram.

Dirt Gardeners

The Dirt Gardeners will also meet at 1314 Pilgrim Road, Birmingham on Monday. Mrs. Donald Wallace will lead a discussion of garden problems, plantings and bulbs.

Mrs. J. Reed Alexander, chairman of horticulture at Pontiac State Hospital reports that the boys meet four days a week. Two of the four days, they are without volunteer workers, hence there are no treat periods.

With a limited budget, treats are an important part in developing a friendly relation between the boys and their leaders.

NEED HELP

Suggested ways to help the chairman are to join the workers at Pontiac State Hospital; provide cookies or fruit for treats, or provide additional funds to help buy treats.

Mrs. Marvin L. Katke is organizing a group who will call themselves a "Sweet Committee" to assist the chairman in this work in the name of Birmingham Branch.

By ABIGAIL VAN BUREN

DEAR ABBY: I believe in teaching children to be honest, but what do you do when a child is TOO honest?

I am a working mother (not by choice) so I frequently leave my four-year-old son, Peter, at the home of a friend, who is a competent older woman.

The other evening after work I stopped to pick up Peter and, as we were leaving, I said, "Peter, give Mrs. Hansen a big hug and kiss for looking after you all day."

Imagine my embarrassment when he said, "I DON'T KISS OLD LADIES!"

Mrs. Hansen looked so hurt. I was struck speechless for a moment, then I tried to apologize to Mrs. Hansen and I told Peter that I was ashamed of him. What should a mother do in a situation like this?

PERPLEXED

DEAR PERPLEXED: Accept it. The child's "crime" was in being honest, and to punish a child for being honest will only confuse him.

Few youngsters are born with a sense of tact. Teach him truth first, and when he has learned it well, teach him the wisdom of keeping his

mouth shut at certain times and why.

DEAR ABBY: Our son has been married for the past 19 years. Before his marriage, he lived at home with us, but now, of course, he has his own home.

Please don't think I am being petty, but our son still carries a key to our front door, and when he comes to our home he does not ring the bell, but lets himself in with his own key.

I do not have a key to HIS house, and if I did I would not use it to let myself in. I would ring the bell.

Don't you think that even

though he has a key he should ring our bell?

SONNY'S MOTHER

DEAR MOTHER: Yes. An unannounced entrance could be frightening. Tell him.

CONFIDENTIAL TO "CARRIED AWAY" IN LAGUNA: Don't tell too many people your side of it. "Repetition is the secret of monotony." (Arthur Groman)

## Northern Trip for Pair

Deep red Yuletide roses for her bouquet complemented an Empire gown of white peau de soie for Janice Pletsch who became Mrs. Raymond Glen Roth, recently in the Pilgrim Holiness Church.

An elbow-length veil of illusion of her own styling dipped to fingertip-length over her gown which ended in a brush train.

Mrs. Ronald Stimson as

honors matron, attended her cousin, daughter of Otto Pletsch of Orchard Lake Avenue and the late Mrs. Pletsch.

Mrs. Gerald Topoleski of Royal Oak was bridesmaid.

Their floor-length Empire gowns were cranberry velvet. They carried pink roses and carnations.

Robyn Roth and Wayne Myers were flower-girl and ring-bearer at their uncle's wedding.

Kenneth Roth stood as best man for his brother. They are the sons of Rev. and Mrs. George W. Roth of Hatchery Road. Their father assisted Rev. W. N. Miller at the candlelight ceremony.

Dennis Gern of Spring Arbor seated the wedding guests. After a reception at Maurice's, the newlyweds left for a northern Michigan honeymoon. They are graduates of Wayne State University and Greenville (Ill.) College, respectively.

It took a week for Kaufman and art students at the academy to arrange, hang and label the exhibit.

I found it exciting.

CREWEL WORK

Have you taken up crewel work lately? There are several interesting samples of that needlework, some dating back two centuries.

Knitting or crocheting is your forte, you'll be impressed with the antique samples of these means of making fabric.

Time hasn't dimmed the beauty of old brocades that sparkle with gold and silver threads. With these are samples of contemporary brocades. The technique is the same and some of the patterns.

Some weaver in Avon, Michigan (Avon Township, perhaps) made a double woven coverlet dated 1851. Another weaver wove a bag in Mexico in 1951.

Both are the same indigo blue. Both incorporate a bird design. And both match in color a swatch of Italian weaving that is older than they are.

This connection never ceases to amaze me — how the idea for something beautiful crosses time and space and results in similar creations.

Most women know what a Paisley pattern looks like. But do you know that the predominant figure in that pattern is a variation of the "tree of life" design that crops up in both ancient and modern fabrics? I didn't until Monday.

It is often found in artwork of the Far East. It is found

## Fabrics Are on Display

By JANET ODELL

Pontiac Press Women's Editor

Little did the 19th century homemaker dream as she feather-stitched irregular scraps of silk together for a quilt that a piece of her quilt would be exhibited in an art gallery.

But a remnant of that crazy quilt is on display in the galleries of the Cranbrook Academy of Art in a show which opens today.

Ornamentation — the art of fabric decoration — is an exhibition of textiles organized by Glen Kaufman, head of the weaving department.

ON LOAN

He has collected antique fabrics of various kinds from the Detroit Institute of Arts, the Henry Ford Museum, Peter Cooper Union in New York, Cranbrook itself and private collections.

To these, he has added contemporary fabrics.

Kaufman's aim in collecting this exhibit is "to demonstrate the vast diversity of fabric decoration in past cultures and to underscore its importance as a creative art today."

It took a week for Kaufman and art students at the academy to arrange, hang and label the exhibit.

I found it exciting.

In American Indian designs. It is magnificently shown in this exhibit by the huge Indian cashmere shawl with its embroidered border.

Contemporary designers have work on display, hung side by side with ancient examples.

What impressed me most about the modern designs is the uninhibited use of bold color. It's invigorating.

One of the more amusing 20th century fabrics is a large African batik.

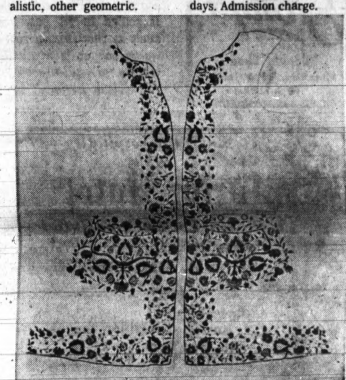

There are half a dozen motifs on the piece, some naturalistic, other geometric.

But what catches one's eye are the squares that contain the letter, "OK" printed a dozen times.

In addition to the fabrics, there is a silver exhibition of prize winning flatware circulated by the Smithsonian Institution.

The silver will be at the galleries during the entire month of February. The fabric will hang until March 22.

Gallery hours are Tuesdays through Fridays, 2-5 p.m.; Saturdays and Sundays, 1-5 p.m. Galleries closed on Mondays. Admission charge.

Crewel work which has had a recent widespread revival in this country is an old embroidery technique. This 18th Century coat or jacket is English in origin. The colors are beautifully clear and the linen material without a break.

From the Henry Ford museum collection of early Americana comes this delightful child's handkerchief. Others from the same era showed different aspects of child life.

Jack L. Larsen, New York fabric designer and former student at Cranbrook, exhibits a number of his contemporary fabrics. He uses bold colors and daring combinations.

A contemporary design for sterling flatware has unusual handles with a wrapped look. Artist was German born. This is one of 22 prize-winning designs in the current exhibit at the Galleries of Cranbrook Academy of Art. The Smithsonian Institution is circulating the exhibit which will be open to the public from Feb. 2 to March 1.

The brocade technique of weaving originated in the Far East. A modern example is this Japanese obi done in brilliant colors.

The natural stripings of a zebra skin, faithfully reproduced in an area rug, form the crisp accent for a contemporary living room. The rug is part of a "Safari" group which includes tiger and leopard patterns. Rug: Hardwick & Moggie

Co. All wool, Wilton weave; available in 27-inch widths and rug sizes from 2'3"x3' to 11'3"x18'4". Approximately \$27 per square yard. Sofa, Thayer-Coggins; other furniture, Drexel, "Viewpoint '70".

A subtle harlequin pattern is the highlight of new fringed rug, which is also made in broadloom carpet widths for wall-to-wall installations. The coloring is a subtle blend of orange, gold and brown tones; the texture is multi-level, cut-and-

looped pile. "New Flair" by James Lees & Sons Co. All wool, Azminster weave; made in rug sizes from 3'x5' to 9'x12'. Approximate retail price for 9'x12', \$215. Furniture by Drexel.

### Cover His Legs

It's encouraging to read reports of the continued popularity of over-the-calf socks. Hopefully, says the American Institute of Men's and Boys' Wear, it can mean the demise of one of the worst grooming faults in history — the male leg-show caused by the wearing of too-short anklets.

### Design Is All-Important in New Rugs

Rugs shown in the latest markets are exciting in many ways. There is a marked return to patterns, all the way from subtle combinations of color to classic florals and bold contemporary designs.

Texture is still important, and buyers can choose from a variety of piles. These carpets look extravagant, but are really practical. If you want wall-to-wall carpeting, you can have it. If you prefer room size rugs, they're yours for the buying.

Color is all important. Carpets have become not only floor coverings, but an essential part of the room's decoration.

### Bride Gowned in Taffeta for Recent Nuptials

Our Lady of Victory Church in Northville was the setting for the recent marriage of Judith Ann Mengyan to Robert George Budlong.

The couple left for a honeymoon in New York after the buffet luncheon in the church social hall.

Their parents are the David L. Mengyans of West Lake Drive, Novi Township, and the Robert W. Budlongs of Novi.

**ORGANZA OVERDRESS**  
White organza veiled the bride's gown of white taffeta fashioned with lace jacket and train. Her lace-trimmed illusion veil was petal-shaped.

The bridal bouquet of white carnations was bowed with white velvet.

Attending her sister as bridesmaids, along with Evelyn Budlong, were Jennifer and Nancy Mengyan. The bride had Com Lewis for her maid of honor.

With Allan Budlong, who was best man, were ushers Ronald Pelchat, Greg Budlong and David Mengyan.

### Why Grow Old?

by JOSEPHINE LOWMAN

The upper arm is the black sheep of many a figure family. The silhouette may be lovely and the measurements correct except for very fat upper arms. This excess fat is often due to the glularular setup. Overweight may be especially noticeable in this area.

This is a difficult spot to reduce, but improvement can be made. Naturally if you are overweight in loss in poundage will help.

The following exercise is one of the few I have found to be effective and I have used it successfully in my classes.

#### SWING HARD

Stand tall with your toes pointing forward. Swing both arms forward-upward to a shoulder-height position; arms shoulder width apart and palms facing the ceiling.

Now swing both arms down and back HARD. As you do so turn the palms toward the back of the room. Continue.

Here is another one. Stand tall. Raise your left arm overhead. Shake the arm vigorously for a few moments. Lower arm.

Raise your right arm and shake vigorously. Lower. Continue.

#### ARM GETS FLABBY

It is a splendid idea to take arm-firming exercises while losing weight because the upper arm is one of the spots which may be flabby after a loss of a great many pounds.

Upper arms become flabby early in life unless a woman exercises faithfully to get to prevent it. Not many women have firm rounded upper arms at middle age.

Special exercises can do much to improve this condition. Of course sports such as swimming and golf and tennis are splendid for upper arm firming.

#### CLENCH YOUR FISTS

The following exercise will

help you banish flabbiness. Stand erect. Bend your elbows and clench your fists. HARD as you touch your fists to your shoulders. Stretch the arms up toward the ceiling.

Again bend the elbows as you clench your fists and touch your shoulders with your fists. Continue.

You will need a partner for this one. Stand facing someone. Both raise, arms to a sideward, shoulder-height position. Take turn-abouts so that she pushes and you resist.

Place your hands on the other person's wrists or hands. You push down as your partner resists and holds her arms in the same position. Hold this push for six seconds.

Take turn-abouts so that she pushes and you resist.

If you would like to have my exercises for the arms send a stamped, self-addressed envelope with your request for leaflet 11 to Josephine Lowman in care of this paper.

### His Story Is Old One but End Is New

MYRTLE BEACH, S. C. (AP)—A tourist, after spending the night here, appealed to the Chamber of Commerce for help in finding his wife.

He couldn't remember which of the town's more than 200 motels they had checked in to. The man had left early to get gas for his car and when he headed back to pick up his wife he realized he didn't know which of the numerous places along the Ocean Highway was home base.

Police men took him from motel to motel to ask if he were registered there. Hours later, he finally hit the right one and was reunited with his wife.

### Harry Bertoria Visits

### C. B. West's Honor Artist

By SIGNE KARLSTROM  
Mr. and Mrs. Clifford B. West honored their friend, Harry Bertoria recently. Many will remember this distinguished artist from his association with the Cranbrook Academy of Art.

Bertoria visited Detroit and the Wests invited members of the Collection Committee of the Detroit Institute of Arts for dinner and an evening with Mr. Bertoria. Mr. West is a member of this committee.

Mr. and Mrs. West also entertained at another dinner for twenty-two friends.

Daughter Jill Shallos has returned to the New York University where she is working on her masters degree in art. Last week Mr. and Mrs. Graham John Graham gave a dinner party in their home to

honor Mrs. R. L. Polk, Mrs. Manly Davis and Mrs. Robert Mantell before all leave for trips.

Mrs. Polk and her sister-in-law, Mrs. George Ruppee of Calumet, Mich., will be leaving for Palm Beach, Fla.

In March, Mrs. Davis and Mrs. Mantell will take off by plane for Italy and Switzerland, returning via London. Their first stop will be Rome and they expect to be away five to six weeks.

Mr. and Mrs. Graham will spend the month of March in Puerto Rico.

A surprise will be in store for the twenty-five guests who have been invited for a Valentine cocktail and buffet supper party at the John Denmans on Covington Place, on Feb. 13.

### Needlework Kit

### Work Crewel Pillows

These lovely bird pillows will bring the garden right into your living room.

The exquisite crewel embroidery is to be worked in soft wool yarn.

The robins are in shades of brown and red, resting on a bough of pink apple blossoms.

The thrushes have touches of red to brighten their brown coats and they too stand on pink blossoming boughs.

Both of the boughs have green leaves.

Each pillow finishes in size 14 by 14 inches.

#### STAMPED ON LINEN

The designs are stamped on rich cream colored imported 100 per cent linen.

The kits also include zippers, a beautiful olive green corded welting with the look and feel of silk and complete easy-to-follow instructions and diagrams given.

If you've never done crewel embroidery, you will be able to make these pillows.

Of course, if you wish, you could also frame the embroidery when completed. Try a handsome gold leaf or moss green frame.

Kits 42A and 42B are priced at \$3.99 each.

If you price similar made up pillows, they would cost about ten times as much as our kit, so you can see what a good value these are.

Kits do NOT include pillow

form which should be 14 inch "knife edge" square forms available locally.

### Fancy Cakes Take Form

A night class in cake decorating will be offered by the Pontiac YWCA, beginning Thursday at 7:30 p.m. Mrs. Anton Koenig will teach the special class.

The class for teen-age ball-room dancing, which has been postponed twice, has been rescheduled for Feb. 8 at 7 p.m. Mrs. John Streit will teach this class.

Fees and other details for winter term classes offered by the "Y" are available in the office on Franklin Boulevard.

### Women Peek Under Hood

NEW YORK (AP)—The women who take a new course being offered by the Central Queens YMCA may be able to outdo the men in figuring out what's wrong with the family car.

The ten-session practical study of actual car engines, "Under the Hood," will teach the inner workings of automobiles, the major parts, what they are for and how they work—and is limited to women only.

## Man Joins Girl Scout Staff

More than 50,000 men are registered members of Girl Scouts of the U.S.A. and hold important posts on the local and national levels.

But, for the first time, Northern Oakland County Girl Scout Council has employed a man on the professional staff.

John E. Miller Jr. is now community services director for the council. This is a newly created position.

His job has many facets.

• To seek, promote and maintain on-going relation-

ships with educational, business, industrial, civic and service organizations in the community.

• To assist in recruiting quality personnel for responsible administrative roles at all levels;

• To conduct recruitment training and workshops among volunteer personnel;

• To give assistance in troop organization in hard-to-reach areas and to develop a plan of service to meet specific needs of such areas;

• To be on call for public

speaking before community groups.

Miller has had 12 years of experience in YMCA work. He is a former youth director for the Pontiac "Y."

His educational background includes a BA degree from Emory and Henry College, Emory, Va. and graduate work at Wayne State University and George Williams College in Chicago.

Miller, his wife and three daughters (all in Girl Scout-ing) live at 117 Washington.

He will attend professional Girl Scout orientation in March and a job training course at Excelsior Springs, Mo. in April.

All of the Girl Scout professional staff, including Miller, will attend the national staff meeting next week in Chicago.

MRS. W. F. McQUEEN

The William Francis McQueens (Martha May Mallory) left for a brief honeymoon after their recent vows and reception in the Joslyn Avenue United Presbyterian Church.

White pea taffeta and Chantilly lace fashioned a bouffant gown for the daughter of the Norman L. Mallorys of Westbrook Avenue.

The envelope front of the gown swept into deep alternating tiers of lace and taffeta which ended in a chapel train.

**SHORT VEIL**

A short illusion veil and bouquet of white carnations and pink roses completed the bride's ensemble.

Wearing full-length pink crepe Empire gowns were honor maid, Louanna Marie Wagner, and bridesmaids Mil-

dred K. McQueen and Mrs. Norman Mallory Jr. of Chicago. They carried matching carnations.

Robert A. McQueen was best man for his brother. They are the sons of the Francis A. McQueens of Decatur, Ill.

Ushers at the ceremony performed by Rev. E. L. Wat-

kins were Richard Mallory of Rochester, N.Y., Norman Mallory Jr. and Tommy Pritts.

Mr. McQueen, a graduate of Millikan University, and his bride, will reside on North Cass Lake Road.

## Sequence, Important

# Youngest Is Extrovert

By DR. GEORGE W. CRANE

CASE U-42: Matthew, age 5, and Peter, age 4, are the older sons of our daughter Judy.

During the summer they spent a few weeks visiting us at our farm home.

One night they came into the house rather late for dinner, so one of their uncles tried to hurry them:

"Run and wash your hands," he suggested. "See which one of you can do it first."

"For the last one to the table is a cry baby!"

Well, that last thoughtless remark was said in sport.

But Matthew, being older and stronger, pushed his way into the wash basin first.

So Peter was last. But he did not come to the table at all.

Instead, he headed for his bedroom, saying he was too tired to eat.

**CAMOUFLAGE**

Actually, that was a childish camouflage to escape being classed as a "cry baby."

For he was a hungry-as-his-older-brother. But he couldn't stand the deflation to his ego, so he was even willing to forego his evening meal, plus all the excitement of being at the table with his uncles, just to protect his own pride.

You parents should realize that the second child suffers many similar affronts, for he is seldom strong enough to compete with the older sibling of the same sex.

## YOUNGER SUFFERS

Thus, if you have two daughters or two sons who are close in age, the younger is bound to suffer many defeats and rebuffs because of smaller stature and weaker muscles.

To offset or "compensate" (as we call it in psychology) the younger child then may take one of several alternatives.

He may become chronically naughty or withdraw or become a whiner!

If the older child is good at sports, then the younger may veer away from athletics altogether and try to gain the

spotlight in a different field.

If the older child is a brilliant student, then the younger may affect disinterest in high grades and become socially minded or try to excel in athletics.

If the older child likes music, the younger may affect distaste for it.

Remember, the remarkable differences in your young-

sters are usually not due to heredity at all, but just to the sequence they occupy in the family!

The oldest child generally tends to be an introvert. The younger, an extrovert.

The Bible "Prodigal Son" story is a classical example in point.

It was the younger son who was glib of tongue and the partying type who fast-talked his dad out of his inheritance.

Because, however, the younger child is rebuffed so often, he may ultimately grow calloused, which is why he often makes a happier salesman.

## Empty Pockets Look Better

Roddy McDowell, when he buys a new suit, instructs the tailor not to cut the stitches that keep the outside pockets closed—before a suit is sold and delivered. He feels that anything in these pockets keeps a good suit from looking its best.

Jack Cassidy, one of the stage's best-dressed men, gives this advice: "A tab-collar shirt should be worn only by slimmer men. This style accentuates a double-chin or a full face."

## Train Victim Had \$12,000

CHICAGO (AP) — Police found nearly \$12,000 in the pockets of Spiros Cartas, 68, an 800-a-week cook, after he was killed Monday by a freight train.

Police said they found three packets of currency wrapped in waxed paper totaling \$11,972. There were 114 \$100 bills, 24 \$20 bills and smaller bills.

George Grapas, operator of the restaurant, said he had known Cartas for 10 years in Australia. Both had emigrated from Greece. He said Cartas came to Chicago seven years ago to work in the restaurant. He said Cartas lived alone.

## Yank in Germany Has Meningitis

FRANKFURT, Germany (AP) — An American airman at Frankfurt's giant Rhein-Main Air Force Base has contracted infectious meningitis, U.S. Air Force officials announced today.

Immediate measures were taken to prevent spread of the disease and treat persons who had been in contact with the airman, identified as Airman I.C. Norman Spence.

The Air Force said Spence had just returned from a flight to bases at Chateauroux, France; Sigonella, Italy; and Wheelus, Libya.

## Yanks in Formosa Keep American Ways

TAIPEI, Formosa (AP) — Members of an American family in Formosa could almost pretend they were still living in Suburbia, U.S.A. — and most would like to.

Many American military personnel in this capital city live in housing tracts that are impervious to Chinese influence. The rows of uniform houses and neat patches of lawns draw ridicule from the Chinese.

"If they come to live in Taiwan, why don't they see some of our life, our culture?" one asked.

But Americans argue that little is offered to draw them into Chinese society. Service families do all their shopping at the Navy exchange and commissary.

### FEW STORES

There are few stores in the city that attract window shoppers. Most women spend as little time as possible on their own in this gray, smog-ridden city.

Some families occasionally venture out to a Chinese restaurant but most avoid it. Those who are enticed out regularly come to enjoy it, but none would dare eat at the street stalls or from pushcart hawkers.

For recreation, Americans go to their own elaborate clubs for dancing or floor shows. They attend movies at military theaters.

The biggest single attraction is golf, played year-round at Tamsui, some 14 miles from Taipei. The course is considered one of the finest — and toughest — in Asia.

### POPULAR SPORTS

Tennis and swimming also

are popular in the summer months. Children often swim in pools built within the grounds of the suburban compounds.

Many prefer to go to the beaches but only one beach near Taipei has been established as a recreation area where the water is said to be unpolluted.

The Nationalist Chinese government keeps the beaches closed for most of the year for what it says are security reasons.

For bachelors living here, however, life can be a steady round of wine, women and song. Two English-language papers run daily advertisements of bars with names like Club Playmate or Club Eros. And all

claim they have the most attractive hostesses in town.

Prostitution, which is legalized by the government, is well-established in a tree-shaded city just six miles north of Taipei.

Scores of hotels, most with hot spring baths, cater to their hundreds of nightly visitors. American families living in the

city, called Peitou, find the brisk prostitution business poses little or no disturbance. The only complaint seems to be the noise of motorcycles constantly ferrying girls to Taipei.

But easy access of women and wine has created problems at the American high school near Taipei. Teachers find it nearly impossible — and out of their line — to keep tabs on the students after school hours. Much of the blame is put on parents.

One teacher explained that parents attending parties leave the children with the Chinese servants. The servants, the teacher explained, are fearful of angering the children because they may lose their jobs. So little or no control is exercised.

per Peninsula communities starting the week of Feb. 8. Courses will start in Ironwood and Marquette Monday and in Escanaba Tuesday.

# Hills Five in Cage Spotlight

## Central Home for Waterford Game Tonight

Northern Entertains  
Detroit CC; Ferndale  
Meets E. Detroit

Tonight's high school basketball schedule has Waterford visiting Pontiac Central, and Catholic Central at Pontiac Northern, but the spotlight will shine strongest on Bloomfield Hills.

The Barons are risking their seven-game winning streak against what is currently the hottest Class B quintet in the county in a crucial Wayne-Oakland League struggle.

Nordville's Mustangs have stamped through five straight league losses since finding themselves with a victory in the final game of a holiday tournament.

Blessed with a tall squad, Northville coach Dave Longridge has finally solved his backcourt problems and molded the Mustangs into a definite challenger.

They are 6-2 in the W-O chase while pace-setting Hills is 7-1 and hasn't lost since Dec. 11. Tonight's game is one rescheduled from Jan. 23.

**2 STRAIGHT**  
Waterford has won two straight but isn't favored to make it three against Pontiac Central, the fourth-rated Class A team.

PNH and Catholic Central renew a fast-developing rivalry. The visitors are favored based on their stronger showings to date.

Three Oakland A League games are planned. Avondale visits Lake Orion, Cassin is at Troy and Clawson at Warren Fitzgerald.

Other games of interest have Milford seeking revenge for an earlier overtime loss in a visit to Kettering, Orionville Brandon at Oxford and East Detroit at Ferndale. New Haven visits Almont in a Southern Thumb showdown.

Ferndale is the third-rated Class A quintet and will try for eleven straight. East Detroit is the eighth-rated team.

A few more contests have Royal Oak Donders at Berkley, Linley City at Vale, Dryden at Capac, and Flint Northern at Flint Southwestern.

Dryden's Cardinals, who play at Capac, will be keeping an eye on the outcome of the Southern Thumb tussle at Almont. A victory for the Raiders will give Dryden a chance to tie for the title.

Avondale faces its slim Oakland A chances on the line against the Dragons. One more loss and the Yellow Jackets will be out of contention.

## Time Adds Up in Cage Tilts

WILLIAMSBURG, Va. (AP)—The time is back in point now in the James Wood High School gymnasium after eight basketball games that really added up to almost nine.

Foes of James Wood have been losing regularly in the gym and so, it turns out, has the time clock.

A check Friday night before a game with Poquoson showed that it took the clock 74 seconds to tick off a 60-second minute. Thus, games at James Wood had been lasting nearly 40 minutes instead of 32.

They got another clock for the Poquoson game. Lucky for Poquoson, too, for even a genuine 32 minutes seemed interminable to the visitors. James Wood won 103-38.

## Jubilant Floyd in Title Line

NEW YORK (AP)—Jubilant Floyd Patterson, aiming for a record third heavyweight crown, had a promise of a title fight from king Cassius Clay today following his rousing victory over George Chuvalo in 12 "blasting rounds."

"You've got the title fight, Floyd," Clay shouted, "you've earned it."

But first the 30-year-old Patterson, seemingly relegated to boxing's scrapheap after his two first round knockout defeats to Sonny Liston, will have to wait out the Liston-Clay return in Boston in May or June. He may take a return fight with Chuvalo while he's marking time.

Clay, who had disdainfully called the former two-time heavyweight champion a "rabbit," changed his tune after watching Patterson hammer out a unanimous decision over the gallant, blood-soaked Canadian champion before a standing room only crowd of 19,100 Monday night.

### CONSTANT ROARS

Patterson seemed as happy to prove "my chin isn't made of china" as he was over the verdict in the savage slugfest that drew constant roars from the huge throng. Patterson earned the decision by landing more punches—mostly to the head—than his body-bombing foe.

"I proved I could take a punch and come back fighting although he hurt me at times," Patterson repeated over and over to the fresh waves of newsmen entering his dressing room. The virtually unmarked victor, first man ever to win and lose the heavyweight crown twice, said he would like to fight Clay right off but that if he had to wait he would like to fight Chuvalo again first.

Although Patterson said Clay told him that he (Clay) would like to fight him next, Clay's manager, Angelo Dundee, said Liston comes first.

"Clay will fight Patterson but first has to fulfill his contract to give Liston a chance to regain the title," said Dundee.

That return fight caused the World Boxing Association to rebuke Clay. The WBA has approved as a title fight, a clash between Ernie Terrell and Eddie Machen at Chicago March 5.

### PREFERS CLAY

Patterson could get a shot at the winner but he said he prefers Clay.

"If I can beat Clay and then Liston, I'll call it a career," he said.

Patterson couldn't floor the rugged, 27-year-old Chuvalo but he bombed his head with everything he had—and often. He cut him over the left eye and

chopped other nicks and bruises on Chuvalo's face with his flashing volleys.

Clayton scored the fight 6-5-1 in rounds. Judge Tony Castellano had it 7-5 and judge Joe Armstrong, 8-4, all for Patterson. The Associated Press had Patterson in front, 9-2-1. A ringside poll gave Patterson the edge, 18 to 1, with one writer calling it a draw. Most gave Patterson eight rounds or more.

## Fighter's Wife Weeps

# Chuvalo's Loss Stirs Emotions

NEW YORK (AP)—When you've been separated from your husband for 10 weeks while he trained for the fight of his life and then watched in agony as all that labor seemingly was wasted, it's hard to control your emotions.

So Lynn Chuvalo did the natural thing Monday night when she was finally reunited with hubby George after the Canadian heavyweight champion dropped a unanimous decision to Floyd Patterson.

She wept—unashamedly and unceasingly.

Dressed in a white, fur-collared coat which showed the strain of her tears, Lynn fought her way past guards and barged into her husband's dressing room in the Madison Square Garden catacombs while boxing commission officials screamed, "get that woman out of there."

After a brief reunion with her man, Lynn Chuvalo left the room and leaned against a corridor wall and tried to explain why she couldn't hold back the tears.

"I'm not crying because I'm embarrassed," she said, "It's just because George worked so hard for this fight—he wanted to win so badly—I can't help crying for him."

Inside Chuvalo's dressing room, the bruised but unbowed Canadian complained bitterly about referee Zack Clayton.

"Every time I hit him (Patterson) with a good body blow that referee would break us up," George said. "He wouldn't let me fight my fight."

MAKE CHANGE  
Asked if he would make any changes if he gets a rematch with the two-time former world champion, Chuvalo snapped:

"Yes, sir. I'd ask for a different referee."

In Patterson's dressing room at the opposite end of the Garden, the winner spent his first few moments after the fight exclaiming the loser.

"I think because of Chuvalo's showing, he gained a lot more in defeat than I did in victory," Patterson said.

Yet Floyd was happy because he felt he had finally wiped out part of the memory of those two first round kayos at the murderous hands of Sonny Liston.

"I proved I can take a punch," he said. "Maybe you fellows will move me up a notch now. Instead of calling me a china chin, maybe you can call me a china clock."

He commented on Hull's regiments, a sharp contrast to the Golden Glove's early season pace when he fired home 35 shots in 37 games.

# Loyola Upset by St. Johns in Top Game

## Tulsa Defeats Ranked San Francisco; Duke Also Wins

By The Associated Press  
The St. John's University Redmen took a giant stride along the comeback trail in college basketball Monday night. The Redmen from New York beat Chicago Loyola 92-87 and the result was as much a surprise as the 78-50 bombing St. John's absorbed from Marquette in Milwaukee Saturday, a defeat that dropped the Redmen out of The Associated Press Top Ten.

After Saturday's wallowing, the Redmen weren't given much chance against Loyola, upset winner over Wichita Friday, especially on the Ramblers' home court where they hadn't lost in four years.

But Coach Joe Lapchick's boys turned the trick and they did it the hard way.

They erased a 10-point Loyola lead in the second half with two key baskets by Jerry Houston.

The first put the Redmen ahead at 76-75 and the second put St. John's ahead for good at 82-80.

**DONS DOWNED**  
The sixth-ranked Duke Blue Devils crushed Maryland 62-62 at Durham to tie N.C. State for the lead in the Atlantic Coast Conference and the touring 10th-ranked San Francisco Dons took a 59-53 licking from the Tulsa Hurricane.

Tennessee chalked up its seventh straight win, kept on the heels of Vanderbilt in the Southeastern Conference by whipping Florida 74-43 at Knoxville. Kentucky kept alive its slim SEC hopes with a 96-64 triumph over Georgia.

Former Cleveland Browns' star pass receiver Ray Renfro who retired as a player in 1963, was named end coach. He is 34 and helped coach the College All-Stars with Otto Graham last August.

Still to be named on the coaching staff are a defensive line coach and offensive backfield coach.

Aldo Forte was recently rehired as offensive line coach.

**Pro Golfers Try Desert**

PALM SPRINGS, Calif. (AP)—The \$100,000 Bob Hope Desert Classic gets under way Wednesday, a 90-hole marathon played over four golf courses that marks the return to the winter circuit of such popular standouts as Jack Nicklaus and Arnold Palmer.

It's a complicated event that consumes five days as far as the pro-amateur competition is involved, but the main lost is the winning individual pro score after the 90 holes—\$15,000 and an expensive send.

The Douglass, Larry and d Pete, each tallied 17 for Lloyd's. Bill Graham (23) and John Podgurski (21) weren't enough as the Students dropped a 97-71 verdict to West Bloomfield.

The city's top adult recreation league, the Unbeatables hoped to increase their Class A lead in two loop starts and then polish off a visiting quintet from Warren Saturday night at Jefferson Junior High.

But Lloyd Motors had different ideas and upset White's squad, 24-45. Monday in the feature tilt of a big recreation cage night.

Three come-from-behind verdicts filled the Waterford Township adult hoop schedule last night. Spencer's won, 86-84, over Zilka Heating when John Herrington scored a lay-up with five seconds to play.

Herrington and the losers' Bob Tuck both had 31. Tom Courtney matched that for Lyons-Heaton which overcame Joe's 33-60, after trailing, 42-25, at intermission. Dave Dodd scored 25 for the losers.

The final tilt saw Ryerson's Market win its first game, 54-52, over Frushour & Struble Realty. Nick Forsythe of the realtors led all scorers with 20 and Wayne Zilka hit 14 for Ryerson's.

Snively, Holland  
 Hall of Fame Picks

**NEW BRUNSWICK, N. J. (AP)** — Seven players and a coach are the newest members of the National Football Hall of Fame.

The new Hall of Famers, whose selection was announced Monday by the National Football Foundation, are Jack Cannon, Notre Dame guard 1927-29; Merle Glick, Toledo and Hobart quarterback, 1925-28; Thomas J. Hamilton, Navy back, 1923-25; Dr. George (Tank) McLaren, Pittsburgh fullback, 1915-17.

Also, Eric (The Red) Tipton, Duke back, 1936-1938; James (Froggy) Williams, Rice end, 1940-41; Dr. Jerome (Bud) Holland, Cornell end, 1936-38; and Carl Snively, coach at North Carolina, Bucknell and Cornell 1926-52.

Holland was a two-time All-America selection playing under Snively at Cornell in 1937 and 1938. He is now president of Hampton Institute in Virginia.

Snively, who started his 26-year coaching career at Bucknell before moving on to North Carolina in 1934 and to Cornell in 1937, retired in 1952, eight years after returning to coach North Carolina. Now in business in St. Louis, he had a 147-7-16 record as a coach and was one of the first to use movies in developing his teams.

Run-up Huron Cleaners broke even with league-leading Andy's Service last week in the Huron Bowl Wednesday "A" League, but fell into fourth place. Eight-point sweeps by All-Star Lounge and Triple XXX led them into a tie for the second rung, one point ahead of the cleaning crew.

The night's high series was the 636 by Al Latendresse of the Wolverine Entertainers. Frank Pavline hit a 246 game for Cottor Billiards.

At Rochester Lanes, coprietary Gerry Hintz found the lanes to her liking last Tuesday with a 223-634 effort in the Kings & Queens circuit. Jack Gorham had 212.

Mrs. Hintz also took the honors in the Avon Eagles Mixed League that same night with 221-500. Kay Vernon had 200-506. Bob Gohsman had 255-622 the night before as Carling's.

**Church League Title Decided**

Unbeaten Lake Orion Baptist received additional help from St. Luke's Methodist last night and clinched the over-all championship of the YMCA Men's Church Basketball League.

St. Luke upset Avondale Baptist, 63-52, to tie for second place behind the 29-point effort of Marshall Bishop. Gerland Spangler contributed 20 to the Avondale cause.

Lake Orion, which won the first round tie, pushed its streak to eight straight and assured itself the second round crown, too, with a 96-63 romp past Pontiac Business Institute.

Jerry Olsen riddled the nets for 42 markers at the winners' end while Nick Luxon totaled 28 for PBI.

The other tilt saw First Church of the Brethren repel Elizabeth Lake Church of Christ, 72-42. Shirley DeVault had 28 for First Church.

**Central 5 Moves Up in AP Poll**

**By The Associated Press**  
 The top teams held their spots in this week's high school basketball poll, conducted by The Associated Press, as Michigan cagers headed into the last full month of the regular season.

Benton Harbor, on top in Class A since the start of the season, retained its No. 1 ranking. River Rouge, despite two losses, followed suit in Class B, as did Portland in Class C and Barryton in Class D.

Ferrand and Pontiac Central each jumped two notches to take over the third and fourth spots. Benton Harbor was the biggest favorite in the fifth week of the poll as it garnered 180 poll points.

**Char Price** qualified for a 100-plus award last week with her 222 game at Primrose Lanes. She carries a 105 average. 300 Bowl has a 147-1 point lead in the race.

The Lakewooders rolled six 500 sevens Friday night with Howard Menzies, Sr., giving the best performance on the Lakewood Lanes, a 235-554-722.

The Dugway Aluminum and Commercial Shell teams waged a "ballot" fight with the former having a 3240 series and the latter a 3112.

Wednesday morning's Coffee League bowlers at Auburn Lanes listed a 222-538 for Wanda Brunetti, a 262 for Dot Peel and a 502 for Fran Ginter.

Clyde Bell's 238 and Bill Nicholson's 229 led the Men's Trio bowlers at Montclair Bowling Center last week. The Fisher Hill keggers recorded a 222 for Clarence Scott of Chief Pontiac Bar and a 524 for Ellis Irwin of Lorraine's Beauty Shop.

Airway Lanes Kings & Queens bowlers were paced by Larry Thompson (227) and Gloria Ingerson (200-501). The Airway First circuit listed a 548 for Bea Huggins and a 124 triplicate for Priscilla Sandow.

Pat Jeffers' 225 was close to the season high among the Airway Keglerettes Thursday. Betty Bantion hit 509.

**Bill Farrah Says,**  
**"If Your Car Does Not . . ."**

1. Ride as smoothly as a sailing ship.
2. Stay rust free, from road to roof, for as long as you own it.
3. Cost you less to buy, drive and service than any comparable U.S. built car.
4. Provide more inside room with easier parking and turning - **Then You Are Not Driving a RAMBLER!**

Yes, our Ramblers fairly float over the roughest roads smoothly, softly, gently due to an ingenious combination of Deep Coil Springs and a Torque Tube Drive.

Then they stay rust-free for years longer than other cars because the entire Single Unit Safety body shell is "dunked" in a giant bath of rustproofing liquid right up to the roofline. And the muffler and exhaust system is Ceramic-armored for longer, rust-free life.

Ramblers, car for car, are the lowest priced of all U. S. built cars. And they've been breaking all the official mileage contests for years.

Rambler, the first of the compacts, gives you plenty of room inside for six, yet they're easy to park in short spaces and to turn on narrow roads and streets.

But, come on in and get your free copy of our X-Ray book. It tells the whole story (almost). A ride in a Rambler will complete it for you.

# Kim Novak's Leading Man Showers Her With Praise

By BOB THOMAS  
AP Movie-TV Writer

HOLLYWOOD — Kim Novak's new leading man-on-screen as well as off-is in town with praise of her as an actress as well as a woman.

The fellow's name is Richard Johnson, and he is one of Britain's most accomplished actors — Shakespeare and all that. American audiences would know him chiefly as the ghostseeker in "The Hound of the Baskinville."

Johnson, a 6-foot-3, dark-haired man of 37, is likely to become better known in 1965. He will appear in "Operation Crossbow" with Sophia Loren and George Peppard and in "The Amorous Adventures of Moll Flanders" with the aforementioned Miss Novak.

"I play her real love affair," he explained. "The others are her lust affairs."

**VISITS KIM**  
The actor has visited Kim at her picturehouse, cliff-hanging home in the Big Sur country up north and was planning to return as soon as he paid his respects to Paramount and MGM, with whom he has contracts.

"It is a good idea to drop in and see the people who own you," Johnson remarked. "Otherwise they are inclined to forget you are alive."

About Kim: He finds her fascinating. "I think she has long been underestimated as an actress," he said. "She really is remarkably talented. I hope that people will realize that in 'Moll Flanders.'"

Prior to Kim, Johnson was linked romantically with young Geraldine Chaplin, dancing daughter of the comedian. He met her when called to appear

in her screen test for Hal Wallis.

"She has an amazing presence on the screen, and I think she will have a great future," the actor said. "I doubt if she wants to undergo the rigorous routine of the ballet life, which is almost inhuman. Since she knows she isn't another Margot Fonteyn, why should she? She should do excellently in films."

Miss Chaplin is now in Spain appearing in "Dr. Zhivago."

Asked what happened to that alliance, Johnson gazed distantly and mused, "What does happen to one's girlfriends? They change."

**TRUE WORTH**  
As for Kim: "I think her true worth as an actress has not been realized because of the

fact that a lot of men think she is sexy, and not without reason. But I don't think she is happy as a sex symbol. No woman could be."

Johnson would be delighted if his two forthcoming films establish him as a screen personality. If that happens, he will be continuing the trend of new-screen stars coming from Britain: Richard Burton, Albert Finney, Peter O'Toole, etc. Why the trend?

"I suppose it's because your own male stars are becoming a bit long in the tooth," Johnson reasoned. "Someone has to replace them, and the stage training that we get in England does seem to pay off in terms of being able to handle roles."

**BRITON PRAISES KIM** — Richard Johnson, one of Britain's most accomplished actors, says of Kim Novak: "I think she has long been underestimated as an actress. She really is remarkably talented." They're pictured together in a just-completed movie, "The Amorous Adventures of Moll Flanders."

# Director Ford Vigorous at 70

HOLLYWOOD (AP) — John Ford, only film director to win four Oscars, marked his 70th birthday in his usual style — gruff but sentimental.

The creator of movie classics spent Monday as he has most of his 50 years in films — hard at work. The only interruption was a luncheon tendered him by executives at MGM, where he is preparing his next film.

"Tendered" is the proper word; they were so concerned that he would object to the luncheon that they planned no cake and no speeches. But Ford, a Navy admiral who runs a tight ship, was pleased by the observance.

"It has been a delightful day," he said afterward. "The lunch was charming, and I have had phone calls or telegrams from nearly everyone I know."

**TOOK SWIM**  
Ford also displayed his vigor at 70 by taking a swim in his Bel Air pool.

"I can still lick anyone around," he blustered. He is back up to 175 pounds after dropping to 140 in a double pneumonia attack that made him abandon direction of "Young Cassidy," the story of Sean O'Casey's early years which he was filming in Ireland last year.

He is eager to get started on his next film, "Seven Women." It is a tale of China before the Communist takeover and stars Patricia Neal, Margaret Leighton, Sue Lyon, Flora Robson, Betty Field, Mildred Dunnock and Anna Lee, with Eddie Albert in a brief role.

# Auto Ferry Is Freed After 8 Hours in Ice

MUSKOGON (AP) — The auto ferry Highway 16 entered port here late Monday after being released from an ice field by the U. S. Coast Guard icebreaker Mackinaw.

The ferry had been imprisoned more than eight hours while inbound from Milwaukee before the Mackinaw arrived to break a path through the ice field which extends some two miles out from shore.

SAIGON, South Viet Nam (AP) — Two Americans flying an Air Force transport plane were wounded by Viet Cong bullet fragments today, despite a Communist-declared cease-fire for the lunar new year's holiday period.

The Viet Cong had announced it would halt military operations during the new year period, specifying that no unarmed Vietnamese soldier would be fired on. Presumably the cease-fire terms did not include Americans.

SYDNEY (U) — Two cars collided in the middle of Church Street, Parramatta, and the drivers began to argue. A fire engine arrived to answer a false alarm. A nervous girl, a learner driver, saw the traffic banking up and stopped suddenly. A man following her did likewise, but beside him was a woman holding a big keel cake. The cake hit the windscreen and fell apart. The woman burst into tears and tossed the cake out the window. A truck pulled up quickly, and hundreds of empty bottles fell from it on to Church Street. The two drivers continued to argue and more vehicles piled up. Police arrived and started the traffic moving. The truck driver swept up his bottles. A couple of stray dogs came along and ate the cake. It was just half an hour in the life of busy Parramatta.

## Junior Editors Quiz on ALGAE

QUESTION: How can algae be any use to man?

ANSWER: Algae are very simple plants which usually grow in water. You have seen them as the green scum which coats the edges of stagnant ponds.

If you have been to the seacoast you will probably have seen some seaweed, which is a large form of algae, mostly brown or red in color.

Seaweed is such slippery, rubbery and generally unattractive stuff that it is hard to think of it as having any value to us human beings. Yet it does have value, and in a number of ways.

The large seaweed kelp gives a material called algin which has the very useful property of holding liquids together.

Ice cream, for example, algin prevents the water in the milk from forming crystals and so keeps the ice cream smooth. It also smooths chocolate milk and salad dressings.

Iodine is a useful drug extracted from kelp and makes an important antiseptic. Algae supply an extremely important food supply for ocean fish, and various seaweeds are eaten and enjoyed by people in different parts of the world; maybe, some day, algae may be an important part of our human diet.

Don't worry about having to eat "seaweedburgers" when algae is used widely for food, it probably will be treated to taste delicious.

FOR YOU TO DO: When you next eat some ice cream, think of the humble seaweed plants which are helping to make it taste so good.

## Fun With Snow Undercover Reds Seek United Line

KNOXVILLE, Tenn. (AP) — A University of Tennessee student was shot to death yesterday by a truck driver who had been pelted with snowballs, police said.

Dean's Marcell Goodman, 18, of Swampscott, Mass., a freshman, was a nephew of Fred Blumberg, a professor of English at the university.

Charged with second degree murder in the shooting is William D. Willett Jr., 27, a Greenville, Tenn., truck driver.

The shooting occurred as a crowd of about 200 students gathered near a city street adjacent to the campus to throw snowballs.

Homicide Capt. Fred Scruggs said Willett told him he fired a 22-caliber pistol after students hit him with snowballs when his truck stopped.

DIDN'T MEAN IT

"I didn't mean to do it. They threw snow in my eyes and I fired a shot to scare the gang away as they closed in on me. I was afraid," Scruggs quoted Willett as saying.

Willett said he fired only when the students tried to drag him from the cab of his truck.

Students at the scene gave a different story. Tom Garrison, a freshman from Knoxville, said:

"This truck came along going toward town. The driver stopped, got out and the gang pelted him with snowballs."

GOT A PISTOL

"He ran back to his truck, reached in and got a pistol. Suddenly this guy (Goodman) ran by and the man shot him," Garrison said.

MOSCOW (AP) — Underground Communist parties in many countries are trying to form united fronts with non-Communist political elements, Pravda said today.

The Soviet Communist party newspaper disclosed this strategy in an editorial denouncing what it called repression of Communists in some nations. Nineteen countries were named, including the United States.

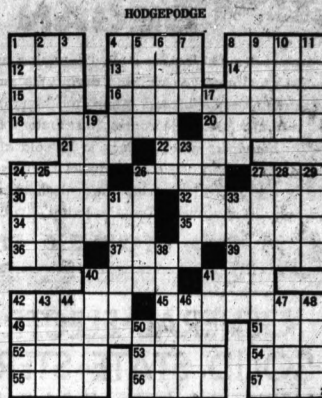

Pravda laid down a line of peaceful cooperation with other parties that was in sharp contrast with the Chinese strategy for Communists. Pravda preached more violent action than the Moscow method of working through existing political channels.

"The underground Communist parties," Pravda said, "are actively and courageously doing their work and, taking into account concrete conditions, are evolving the strategy and tactics of a united liberation, anti-monopoly front (with) the forms and methods for rallying all democratic and patriotic masses."

This echoed the Moscow-directed tactics of the 1930s when Communist parties functioning legally in Western Europe formed "popular fronts" with other parties in attempts to use them as stepping-stones to power.

WESTERN ESTIMATE  
According to one expert, Communist parties are now proscribed in 41 countries. This is roughly half the parties outside the Soviet-Chinese world.

AF Will Close

Missile Station

on San Salvador

CAPE KENNEDY, Fla. (AP) — The missile-tracking station on San Salvador Island will be closed, and 300 employees will be dropped from the Air Force Eastern Test Range payroll in an economy move.

The Air Force made the announcement Monday. Affected will be 170 employees of Pan American World Airways and 130 of Radio Corp. of America. The dollar saving was not announced.

Only a small caretaker force will remain on the Bahamas island. Pan American operates and maintains the range for the Air Force. RCA performs technical services under a subcontract with Pan Am.

## Binns Now Got It Made—Others Know Him by Name

By EARL WILSON  
NEW YORK—Edward Binns is very glad that people are finally getting it straight what Ed Binns is. "But they haven't all got it straight," Binns just told me. "There was a fellow who said, 'I know who you are! Don't tell me! You're Frank Lovejoy! You are, aren't you?'"

"I had to tell him, Frank Lovejoy has been dead a couple of years."

Binns' face became known to millions through the "Brenner" and "The Stars" TV series—and to many more through "The Americanization of Emily" and "Rail-Sale" ... nevertheless ...

"I can still see people snapping their fingers, trying to think of the name."

"They used to say I was a young Richard Dix. Now you come on the set and some nice youngster jumps up and says, 'Here, Mr. Binns, have a chair ...'"

His wife Marcia spoke up: "Now you're Eddie Binns at last!"

And because the face and the voice are important, his agent tells him, "Don't you ever put your face in one of those TV commercials!"

"It's a legitimate thing, plenty of actors do it, it's kind of like an annuity," Binns said.

"So I had a meeting at a big agency."

"A man explains what I'm to do. 'You're dressed like a very kindly doctor, and you're talking to young girls. You're saying that you can guarantee that this soap absolutely will not cause a rash under the armpits.'"

"I said, 'Thank you very much,' and left."

REMEMBERED QUOTES: "Mankind should take a lesson from the snowflakes. No two of them are alike, yet observe how well they cooperate on major projects, such as tying up traffic."

—Lee Call, Affon (WY) Independent.

EARL'S PEARLS: "Education" is what you get from reading the small-print in a contract. "Experience" is what you get from not reading it. —Bill Gold.

A lush walked into Steuben's Tavern carrying an auto seat belt. He explained, "I don't wanna forget where I parked my car." ... That's Carl, brother.

# Romney Proposes Record Budget

## Top Aide Is Sent to Saigon for Report on Viet Situation

WASHINGTON (AP)—President Johnson is dispatching McGeorge Bundy to Saigon to confer with Ambassador Maxwell D. Taylor on South Viet Nam's political turmoil and anti-Communist war.

Bundy, top White House foreign policy adviser, leaves late today and will return sometime next weekend.

A White House announcement late Monday on Bundy's trip followed a high level meeting held by Johnson, one of the President's first activities in the foreign policy

field since he recovered from his illness.

The President also held a 45-minute National Security Council meeting on the Vietnamese situation.

In sending Bundy to Saigon, Johnson is understood to want a detailed, first-hand report on the prospects for developing political stability in the South Vietnamese government which only last week suffered another in a long series of overthrows.

### TAYLOR'S ABILITY

Bundy also may discuss with Taylor whether his own ability to carry out U.S. policy has been impaired by his disputes with Lt. Gen. Nguyen Khanh, South Vietnamese strongman who engineered last week's coup.

The White House and State Department have declared Johnson's "full confidence" in Taylor and his intention to keep Taylor in Saigon.

The third topic likely to figure in the Bundy-Taylor talks is the scheduled visit of Soviet Premier Alexei N. Kosygin to Communist North Viet Nam in a few days at the head of a delegation of military, economic and aviation experts.

Administration officials said today they are not certain what Soviet intentions are.

Speculation here encompasses the possibility that the Soviets may want to move toward diplomatic negotiations for some civil rights struggle today while his followers get ready for new demonstrations to protest his arrest.

Most of the 250 Negroes and half a dozen white, civil rights volunteers jailed with King during a massive right to vote march yesterday were free on bonds of \$500 each.

A member of King's staff said Negroes would renew demonstrations in Selma today to "protest the arrest of the Nobel Peace Prize winner."

The spokesman, the Rev. Hosea Williams of Atlanta, said simultaneous marches were being organized in the neighboring counties of Perry and Morgan and possibly also in Lowndes.

Those rural South Alabama counties already are marked for voter registration campaigns patterned after the three-week old drive in Selma.

ALREADY BEGUN  
The right-to-vote movement has already begun in Perry County, birthplace of King's wife, Coretta.

An estimated 300 Negroes lined up to seek registration as voters yesterday while others penetrated the racial barrier at eating places in the county seat of Marion, 30 miles west of Selma. There were no arrests or disorders.

While King spent the night in jail, Williams and other civil rights leaders kept the campaign going at another night mass meeting.

Sheriff deputies took 474 teen-agers, mostly high school students absent from class, into custody while picketing the courthouse yesterday.

### FILLED OUT BLANKS

Many of them complied with a request from Juvenile Court Judge Bernard Reynolds and filled out blanks giving their names, addresses and school so they could be released.

King, who along with the other Negro marchers was charged with parading without a permit, almost escaped arrest because Selma's public safety director, Wilson Baker, said King "wanted to go to jail."

Baker told the civil rights leader at one point that he and his close friend, the Rev. Ralph Abernathy, could leave but then reconsidered and ordered them back into line with the others.

## Appalachia Bill Clears Senate in Two Days

Prompt House Action  
Expected on 'Pep Pill'  
for Depressed Areas

WASHINGTON (AP)—The Senate has passed the Appalachia aid bill, and prompt House action is scheduled on the \$1.09-billion measure drawn up as an economic pep pill for depressed regions of an 11-state area.

House Speaker John W. McCormack said it was likely the measure would be the first major piece of legislation from the 88th Congress to reach President Johnson's desk. Johnson has been pressing for quick action.

The Senate cleared the legislation yesterday on a 62-22 roll-call vote after two days' debate.

The bill's managers succeeded in fighting off all amendments to weaken the measure or to add development programs for other regions.

Last year the Senate passed a similar measure 45-13. But this died in the House after clearing its Public Works and Rules Committee.

### TO OPEN HEARINGS

A Public Works subcommittee will open hearings on the legislation tomorrow. House sponsors predict that with a bigger Democratic majority in this Congress, there will be relatively smooth sailing this year.

However, they concede there may be efforts similar to those in the Senate to add programs for other areas suffering economic distress.

In the Senate Democratic leaders kept amendments for other regions off the bill with a pledge that planning funds for development programs in these areas would be considered later this session.

The leaders said that Johnson had approved this course.

### SURPRISE AMENDMENT

The bill's managers did go along with a surprise amendment by Sen. Robert F. Kennedy, D-N.Y., to keep the door open for a possible later addition of 13 New York counties to the Appalachian program.

They emphasized these counties are considered a part of Appalachia but were kept out of the legislation originally by decision of New York itself.

The Senate and the Appalachian Regional Council set up by the bill would have to agree to the 13-county addition.

Appalachia as defined in the bill includes 355 counties in 11 states, a 165,000-square mile region with more than 15 million residents.

CLEAN SWEEP — Residents spent the better part of yesterday and last night digging out from under a four-inch snowfall. City crews were busy keeping roads and parking lots clear. The "jeep-sweep" pictured is one of many vehicles the city uses in snow removal operations.

FROZEN FISH — This giant fish snow sculpture was entered by Alpha Delta Chi, architectural drafting group in competition at Ferris State College, Big Rapids. Visitors took advantage of the artistic snow piles as snapshot backdrops.

## Eye Racketeer-Bank Link

## Senators Probe Union Funds

WASHINGTON (AP)—The Senate Investigations subcommittee said today it is looking into huge union welfare and pension funds which rarely pay any benefits and the suspected role of racketeers in the failure of some federally insured banks.

Its plans for hearings on these and other matters were disclosed in a letter from Chairman John L. McClellan, D-Ark., to the Senate Rules Committee asking approval of a \$435,000 budget for the year ahead.

The letter, filed with the Senate along with the request, said staff investigators were checking into a number of labor union welfare-pension funds whose wage-earning employees "rarely receive any benefits or annuities" but whose administrators do profit.

McClellan did not name any of the union pension funds involved. He declined to elaborate to a reporter.

Involved, he said, are unions "affiliated with large international labor organizations" representing unskilled laborers whose tenure on the job is apt to be short.

### FEW QUALIFY

Seldom, he said, do the members remain with an employer long enough to qualify for any benefits from funds which accumulate to millions of dollars.

McClellan's letter gave no real details about the banks and savings and loan institutions whose failures in the past two years are under study.

"The cause of the closings of these banks and savings and loan associations has been attributed to persons of unsavory character and principles acting in concert to gain control of the stock and management of the institution, then causing its downfall," he said.

Once these groups gain control of the stock and management there followed a rapid deterioration of the assets."

Arctic air over the North Central states pushed south through the lower Mississippi Valley and southern Texas and east over the Tennessee and Ohio Valleys.

Cold wave warnings were issued for Arkansas, northern Mississippi and sections of Tennessee and Kentucky.

The temperature dropped to 9 in Paducah, Ky., before midnight and to 10 in Louisville.

Schools were closed in 29 Kentucky counties because of snow and cold.

### BELT OF SNOW

Rain fell over the central Gulf Coast states and a belt of snow whitened an area from Tennessee to the Carolina mountains north to southern New England and the eastern Great Lakes.

Five inches of snow fell in Knoxville, Tenn., and 4 inches were measured in Crossville and Bristol. The temperature in Nashville was 15 before midnight.

Four-inch snowfalls also were reported in London, Ky.; Beckley, W.Va.; Binghamton, N.Y.; and Muskegon, Mich.

Several school systems were closed today in North Carolina mountain areas because of snow.

## State Program Would Require No New Taxes

\$788.5 Million Total  
Is Slated to Consume  
One-Third of Surplus

LANSING (AP)—Gov. George Romney proposed a record \$788.5 million general fund budget today that would require no new taxes while consuming nearly one-third of a predicted \$104.8 million treasury surplus.

His spending recommendations for the fiscal year beginning July 1 were \$94.3 million higher than the \$99.3 million appropriated for the current budget year.

Education, mental health, conservation - recreation and public health were the big gainers as Romney moved to implement a program for Michigan's future that he had proposed in his State of the State message Jan. 14.

Romney also said special purpose and restricted income and expenses would be \$69.3 million higher than the \$99.3 million appropriated for the current budget year.

Romney said Michigan would still retain a \$72.4 million treasury surplus on June 30, 1966, if the legislature follows his recommendations. He has already declared this will still only carry the state through one additional year without more taxes.

MORE THAN HALF  
Education for the first time takes more than half the general fund budget - \$48.7 million or 51.96 per cent.

College and university support jumps \$7.2 million.

State aid to primary and secondary schools would increase from \$28.50 per pupil to \$32, and aid to community college students would go up \$16 to \$250.

Romney would double the state scholarship program.

\$67 MILLION MORE  
In all, education would get \$67 million more than it received in 1964-65.

A mental health is tagged for an \$11 million boost. This includes another million in community service grants, \$1.4 million for services to the mentally ill, \$900,000 for the mentally retarded and \$700,000 for improved research and training in the department.

Romney proposed a \$9.9 million expansion of the state's building program to \$67 million.

The governor said \$56 million of his general fund budget increase results from "buildings" - the higher cost of state programs brought on merely by population increase without regard to program expansion.

USE UP REST  
Program expansions use up the other \$38 million of the increase.

The total general fund figure was slightly under what most observers had expected.

But in his accompanying message to the legislature, Romney warned as he has often done that "we must use our surplus prudently in this coming year and the year following if we are to meet essential needs progressively without increasing taxes or going into debt."

The governor said Michigan "is currently enjoying unqualified revenue growth," but his revenue estimates for the coming year appeared conservative in light of that growth.

ANTICIPATED REVENUES  
He said anticipated current year revenues of \$727.5 million are up \$63.6 million over last year. But he budgeted revenues

## A-Bomb Work in Indonesia

General Promises  
'Surprise' in October

JAKARTA, Indonesia (AP)—The director of Indonesia's army arsenal said today about 200 scientists are working to make the country's first atomic bomb. He promised a "surprise" at the Armed Forces Day celebration in October.

The officer, Brig. Gen. Hartono, also said Indonesia this year will produce guided missiles "whose damaging abilities are superior to those of other countries." His statements were distributed without elaboration by the official Antara News Agency.

Hartono said last November that Indonesia would explode an atomic bomb in 1965 and that it had begun surveying the possibility of producing intercontinental ballistic missiles.

His statements last year came shortly after a reported successful launching of Indonesian-made rockets for artillery and infantry use.

Antara also carried an announcement that the Indonesian army later this year plans to build a plant to produce explosive materials. The agency said it would be located in Java, Sumatra or in the Celebes but gave no details.

ATOMIC REACTOR  
Indonesia has an atomic reactor in Bandung, West Java, which was obtained from the United States.

Another reactor is now under construction with Soviet aid at Serpong, 44 miles southwest of Jakarta. Both reactors were said to be for peaceful purposes.

The U.S. State Department said last November that the American reactor was "incapable of producing materials for weapons."

The department's press officer, Robert McCloskey, said the reactor was furnished by the United States under a 1960 agreement. It became operational last October.

Romney Plan Outlook

Budget Hike Expected

By DICK BARNES  
Associated Press Writer  
LANSING—Legislative bodies usually are thought of as taking an ax to executive spending recommendations.

But the early outlook for Gov. George Romney's proposed \$78.5 million general fund

budget is that it has nowhere to go but up.

The governor wants to pre-serve about \$72 million of a treasury surplus he says will reach \$104 million in June. But the money could be tough to hang onto.

Most guesses on the Romney budget had fallen in the \$75

million to \$800 million range—thus the governor already may be at a psychological disadvantage in trying to hold down spending.

DEM MAJORITIES

He also must get his figures past overwhelming Democratic majorities in both houses of the legislature—and the Democrats, from campaign through legislative proposals, apparently have strong revenue boosts in mind.

"We go out to meet the needs, then we look to see where the money can be found," House Speaker Joseph Kowalski, D-Detroit, said last week at an editors' meeting.

Obviously additional money could easily be found—for this year.

Democrats have emphasized the need for a jump in state school aid, which over a 15-year period has declined markedly in relation to local school support.

PER-PUPIL AID

Romney did propose a per-pupil aid increase from \$256.50 to \$342, but Superintendent of Public Instruction Lynn Bartlett, a Democrat, had asked for \$260. Romney did leave the aid deduction formula unchanged, which will in effect also boost aid.

Agencies also had requested \$192.3 million for the over-all higher education program although the governor's \$168.6 million was, he said, \$4.2 million more than the record increase approved for the current year, it was \$2.2 million shy of the request.

If the legislature does appropriate significantly more than Romney recommended, tax revision is likely to move to the fore.

Romney already has declared he is ready to talk tax reform—but he puts it in terms of a fairer method of taxing rather than necessarily higher revenues.

One of them ran to the telephone but found the rural line busy, Hillman said.

"She just yelled, 'Our house is on fire,' but didn't say what house," he reported. "That gave it time to get going."

By the time firemen located the blaze it was well on its way to destroying a single-story frame house at 12851 Rattalake Lake.

**\$18,500 DAMAGE**

Hillman estimated damage at \$8,000 to the house and \$2,500 to its contents. He noted that the cause of the fire was accidental and therefore would not be investigated.

An increase in military supplies to North Viet Nam could mean an intensification of Red guerrilla fighting in the south since the North Vietnamese are sending aid and reinforcements into the south.

U.S. officials reported recently that during 1964 North Viet Nam sent an estimated 10,000 trained soldiers through the jungle trails of Laos into the south to reinforce guerrilla units.

The primary concern of the Johnson administration for months has been to promote the formation of a stable civilian government in Saigon in the hope that it would be able to unify the country politically, carry out reforms and command greater loyalty from the South Vietnamese.

This objective has been repeatedly frustrated by a succession of coups, frequently following Buddhist and student demonstrations in Saigon, and some other cities.

Two girls who forgot to say where the fire was last night watched their Springfield Township home burn down, according to Davisburg Fire Chief Charles Hillman.

He said two daughters of Mr. and Mrs. Robert Buning were home alone when they spotted the fire in the kitchen about 6 p.m.

One of them ran to the telephone but found the rural line busy, Hillman said.

Bloomfield Art Group to Show Work at Center

**BIRMINGHAM**—Bloomfield Art Association artists, particularly those presently on its faculty, will exhibit their work at the Birmingham Art Center for three weeks this month.

The show, to open Sunday, will be available to viewers during regular gallery hours, 2½ p.m. daily except Monday.

Titled "An Exhibition of the Work of Its Faculty and Associates," the display will include a variety of media.

Among them will be oil painting, water color painting, experimental media, portrait painting, creative stitching, weaving, pottery, sculpture and graphic prints.

Numerous awards, honors, grants and fellowships have been bestowed on the exhibitors, many of whom have taught or are now teaching in colleges or universities. They also have held one-man shows.

**DISCUSSION SET**

In connection with the exhibit, a round-table discussion by five artists and faculty members will be held Feb. 19.

"Why Artists Work as They Do" is the title of the 6:30 p.m. program, to be moderated by artist and critic Carolyn Hall.

Completing the panel will be sculptor Ken Fadem and three painters, Mary Jane Bigler, Dorothy Siddall and George Vinos.

The program is aimed at giving the art viewer an insight into the thoughts of an artist, therefore better equipping him to understand and appreciate the work.

**NOMINAL CHARGE**

The event will be open to non-members for a nominal charge.

The Birmingham City Commission meeting last night was canceled because of lack of a quorum.

Four of the seven commissioners were unable to attend the weekly session.

Petitions and reports which were scheduled for discussion will be carried over to next Monday's meeting.

Council May Judge Member

**New Petition Filed in Sylvan City Case**

The Sylvan Lake City Council may have to decide if one of its members is qualified to hold office.

Presently the eligibility question of Councilman John D. McKinlay is before Circuit Judge Stanton G. Dondoro.

Yesterday, however, a petition asking that Dondoro order the other four councilmen to pass judgment was filed by Fred Crossman, an unsuccessful council candidate in the Nov. 5 election.

McKinlay, 32, of 2709 Littelltopped the field of five candidates seeking two council seats. Crossman, of 2461 Renfrew, ran third.

In a suit filed Jan. 11, five Sylvan Lake residents challenged McKinlay's right to hold office on the basis that he did not meet the two-year residency requirement of the Sylvan Lake City Charter.

**SAME SECTION**

Crossman notes the same charter section in his request for a writ of mandamus, but prefaces it with another charter clause that states "The council shall be the judge of the eligibility and qualifications of its own members."

Crossman wants councilmen John Hanson, Donald A. Tews, Thomas J. McHugh and Mayor E. V. Getzler to make the decision.

The cases will be consolidated into one show-case hearing Monday.

A show-case hearing was held Jan. 25 to allow Dondoro to decide if McKinlay should be temporarily restrained from holding office pending the outcome of a trial.

**ADJOURNED**

It was adjourned for two weeks so that briefs on a point of law could be prepared by attorneys and submitted to Dondoro for study.

Should Dondoro order the council to resolve the question, he would not have to make a decision on the first legal action.

The original suit against McKinlay charges that he did not move into Sylvan Lake until December 1962. To have been legally elected, the suit says it was necessary for him to have been a resident on or before Nov. 3, 1962.

McKinlay, says he rented his home at 2709 Littelltop on Nov. 1, 1962, but did not move in immediately.

Record Budget Proposed

(Continued From Page One)

for the coming year of \$756 million, an increase less than the three-year average annual revenue gain of \$3.5 million.

Romney explained his conservatism by saying economists predict a 4 to 4½ per cent gain in the economy for calendar 1965 — strong, but below the current 8.3 per cent growth rate.

He pointed out that the new constitution requires revenues to keep pace with expenditures — that appropriations must be altered if revenues slip.

Romney said his budget attempts to reduce "long - time deficiencies in meeting our responsibilities" and called it "something more than a hold-the-line budget, more than simply meeting our 'built-in' expenditures."

**SALARY INCREASES**

In higher education, for example, the governor said \$7.2 million budgeted for major improvements and new programs will permit salary increases averaging 7 per cent for faculty and 4 per cent for nonfaculty positions.

In state building, Romney proposed installation of 53 new projects in addition to continuation of 60 others.

Most urgent among these projects, he said, "will be to meet the burgeoning enrollments of our degree - granting colleges and universities." He recommended raising from \$50,000 to \$60,000 the annual state appropriation limit for funds to one institution.

**MENTAL HEALTH**

The governor said 13 of his new projects will fulfill mental health requirements.

In traffic safety, an area where Romney already has sent the legislature a special message, he asked for 200 more state policemen at \$12 million and implementation of mandatory vehicle inspection at \$851,000.

In other areas the governor made such recommendations as:

• Civil Rights Commission, \$250,000 for staff support.

• Agriculture, a state-aided community advertising program.

• Workmen's Compensation Department, a supplemental budget of \$69,500 in the current year and an addition of \$187,000 next year to reduce the case backlog.

While mentioning no new taxes, Romney was emphatic that the state cannot afford to pass its surplus back to the public in "isolated tax reductions."

**STRONG PRESSURES**

"While we will be subjected to strong pressures to further increase expenditures this year or pass the surplus back in the form of isolated tax reductions, neither course would be a responsible fulfillment of our obligations as public servants," he declared.

"Unwise overuse of our current surplus, or sporadic, unplanned piecemeal tax reductions could put Michigan back into a crisis situation financially. Higher taxes or interest bearing debt would soon be necessary."

Romney pointed out in detail why he wants to save so much of the surplus:

He said the addition of only built-up costs would raise the minimum budget for 1966-67 to \$845 million but revenue growth of 3 per cent would produce only \$778 million in revenue.

Thus, he said, the rest of the surplus is necessary to avoid new taxes a year from now.

**STRONG PITCH**

He put in a strong pitch for \$200,000 for a commission on Michigan's continuing financial requirements and policy, again emphasizing it is more than just a tax study.

"Thus we approach another crossroads of Michigan's destiny," concluded Romney.

"We are in a position to be both prudent and progressive in our budget and revenue actions. We must be responsive, but we must also be responsible."

## Illness of Secretary Not Cause for Alarm

The third Administration figure to fall victim to the respiratory virus plaguing Washington, Secretary of Defense ROBERT S. McNAMARA was admitted over the weekend to Walter Reed Hospital for indefinite confinement.

Following X Rays, his ailment was diagnosed as viral pneumonia.

McNAMARA The Secretary's condition is not considered serious, and a medical report issued yesterday indicated normal temperature and condition good.

It is doubtful whether the Capital has ever seen a more driving and exacting executive than the man who sits in the all-important chair of Defense Secretary. The killing pace McNamara sets and the rigorous winter weather that has gripped the nation constitute a hazard few could withstand.

The countless friends of the cabinet officer, not only here but around the world, will share feelings of relief that his illness is not of major character and join in best wishes for speedy recovery.

## Commission Approves City's Fiscal Plan

It's budget time again, and the City Commission approved one for the current year amounting to \$8 million—some \$1.1 million higher than the 1964 budget.

The major portion of city revenue is realized from property taxes, this year estimated at \$5 million. With a planned increase of \$1 million in Pontiac's tax base, a rate of \$17.16 per \$1,000 of assessed valuation is indicated—the same as last year's.

Reflected in the budget are increases on both sides of the ledger. The city will pay out more than last year in the areas of personnel compensation and administration, pensions, street lighting, street projects, bus subsidization and community center operation.

To some extent offsetting these expense increases are higher revenues from licenses and permits, fines and penalties, hangar rental at the airport and library aid. And income from Urban Renewal Administration Service, equipment rental, parking, and water and sewerage services will swell the general fund.

Although the budget is theoretically in balance, the City's fiscal position leaves something to be desired. Only \$35,000 is earmarked for contingencies in the general fund. Since the general fund represents \$6.7 million of the budget total, the reserve, in City Manager JOSEPH R. WARREN's words, is practically nothing.

The 1965 fiscal projection reflects praiseworthy preparation and clarification in some particulars, and we commend city officials on the excellence of the result.

## Fatherhood Age Down, Statistics Indicate

American fathers are getting younger and younger—at least in terms of their age when they have children.

An Institute of Life Insurance comparison of births from 1940

through 1962 shows that younger men are fathering more and more babies, while older men are fathering fewer and fewer.

Experts say they don't know all the reasons behind the pronounced trend toward youthful fatherhood, but it reflects several economic, social and medical factors. A similar age trend is evident among American mothers. As a result, the age structure of families is undergoing significant changes.

In 1940, for example, the average number of births per 1,000 men in their late 40s was much higher than the comparable "fatherhood rate" among young men in their late teens. And men in their early 30s averaged more babies than those in their early 20s. By 1962, both situations were sharply reversed.

From all this, you might conclude that the stark, like the advertised prices of some commodities, is subject to change without notice.

## Peace Presents Special Problems

By JAMES MARLOW  
Associated Press News Analyst

WASHINGTON — This country is heading into a comparatively peaceful time unless something not now visible happens, like a greatly expanded war in Viet Nam.

This is not President Johnson's doing but the result of a number of conditions and events before he moved in. He inherited the tranquility, such as it is, and is trying to take advantage of it by his emphasis on home problems.

Before Johnson's presidency, President John F. Kennedy took some of the steam out of the Russians' aggressiveness with the missile showdown in Cuba. But that wasn't all that helped cool them off.

Their own economy needed attention because it was stumbling. And, because of their split with Red China, they were no longer able to concentrate on plaguing the West. And China looks like a problem for them years.

That Johnson seems to see a time of tranquility—or at least a period not nearly so hair-raising as the years since the cold war began in the 1940s—was reflected in what he stressed in his messages to Congress.

DOMESTIC EMPHASIS

He put the emphasis on domestic affairs, skipping lightly over the foreign ones.

He would not have been able to bear down so heavily on programs for the development of this country, and the welfare of the people, if he had been under great foreign pressures. He wasn't.

His statement about American military superiority is a good reason by itself why he feels free to pick up the unfinished business at home.

The pulling and hauling going on now among the Western allies is more evidence the immediate dangers have subsided. If they felt unsafe, they wouldn't dare the luxury of disagreements.

In a relaxed period the Communist world, even if the Soviet Union and Red China are antagonists operating separately, will be trying advances without war, not by aggressions but by influence and subversion.

So the peace Johnson seems to be facing will be only a relative peace and may require more imagination in dealing with the rest of the world—friend, foe and neutral—than even the cold war required.

## David Lawrence Says:

# Labor Bargainers Ignore Public

WASHINGTON — About \$1.5 billion has been lost to the nation's economy in the last three weeks due to a longshoremen's strike in Atlantic Coast and Gulf ports.

Perhaps one fifth of this sum is a loss to the federal treasury because of resultant tax deductions, but the major loss is LAWRENCE to American businessmen and to the workers.

Orders for goods have been held in abeyance due to the strike, and the indirect effects on various businesses here and abroad probably amount to far more than the estimated \$65 million a day.

Approximately 62,000 workers have been idle 22 days thus far. Yet the President of the United States could not avert this catastrophe, and leaders of the Democratic party, which has control of both houses of Congress, have not given any sign that they will take action to prevent a recurrence of the same kind of interruption to American commerce and trade.

President Johnson has finally made an appeal to the unions, but he has no legal authority to require them to resume work.

Plainly, Congress has the major responsibility. It can pass a law forbidding the misuse and abuse of the "right to strike."

There is no reason why strikes should be permitted while serious and hopeful negotiations are in progress or when locals in some of the large ports have accepted the terms, yet cannot go back to work because unions in other coast cities have not voted their approval of the settlement.

## AN HISTORIC MESS

The whole situation is one of the worst messes in labor history. It is a state of anarchy.

There is no question of the importance of the right to strike and of the value of collective bargaining in settling labor disputes.

But the "public interest"—which is so often mentioned but given little attention by the parties battling one another—cannot be ignored much longer.

A simple amendment to the National Labor Relations law could prohibit the beginning of any strikes until after a federal mediator has examined carefully the negotiations to determine whether there is good faith on both sides and whether a reasonable settlement is possible by further talks.

The Associated Press in entitled exclusively to the use for republication of all material appearing in this newspaper as well as all AP wire copy and other material.

The Pontiac Press is delivered by carrier for 30 cents a week, where delivery is made by carrier. Subscriptions elsewhere in Michigan and given little attention by the parties battling one another—cannot be ignored much longer.

States \$2.00 a year. All mail subscriptions outside the United States \$3.00 a year. Advance payment is required. Payment in cash or by check, money order or postal note. Payment by credit card is not accepted. Payment by check should be made payable to Pontiac Press, Pontiac, Michigan.

The waste of \$1.5 billion is something which the average citizen can understand. It is a sum which is larger than what is about to be appropriated for the "War on Poverty."

The Department of Labor cannot be blamed for what has happened. It has tried conscientiously to bring about a settlement.

If Congress amended the labor laws so that there could be no strikes while collective-bargaining negotiations were proceeding, it would remove many of the hazards.

The Department of Labor

could be authorized to investigate and determine whether adequate time has been given for collective-bargaining negotiations.

And if there was a prospect of agreement, the department could be given authority to require that work continue—not just for an 80-day "cooling-off" period but indefinitely—while the negotiations are extended.

Procedures of this kind might not avert all strikes, but could prevent many of them and save the country losses of billions of dollars a year in labor disputes.

# All Boosters of Medicare Should Read This Article

LONDON — All Americans in favor of the swift passage of Medicare might ponder the following excerpts from an article in a recent issue of the London Daily Express:

"I am saying farewell to Britain in a mood of sadness and irritation. It began."

"Like many doctors today, I am leaving the National Health Service to practice my craft in another country. But before I go I should like to tell what is happening to the family doctor and why he is one of a vanishing breed."

"I have a one-man practice of 3,000 people, which I started on nothing 30 years ago. My working day starts at 8 a.m. and finishes if I am lucky at 9 p.m. I do two hours in surgery morning and evening, and the rest of the day is spent in making visits. I work between 60 and 70 hours a week."

"On average, I am called out from my bed two nights a week."

"I am required by my contract, under pain of heavy penalties, to be available to each of these 3,000 patients 24 hours a day for 365 days a year."

"I am paid at a basic scale of five shillings one penny (about 70 cents) every three months for each person on my list."

"I may have to visit a patient dozens of times, perhaps save his life, during those three months. But my reward is still the price of a packet of cigarettes."

"Since the start of the National Health Service I have had 16 years of desperate financial insecurity."

"My eldest son wanted to become a doctor like his father and grandfather before him. I

could not afford to keep him for seven years, and he did not win a scholarship."

"There will be no holiday for me this summer, as usual. Instead, with my wife and our two younger children, I shall be on my way to New Zealand—and a new life—at the age of 54, to practice medicine as it was meant to be practiced."

# Inflation Peril Haunts Economy

By BRUCE BLOSSAT  
WASHINGTON (NEA) — Despite all the brave talk from the Johnson administration on the success of the fight against inflation, it's a thing of walking on eggs.

As the President and his economic advisers are pointing out, consumer prices have been held to an average annual increase of 1.2 percent over the past four years.

No economists, partisan or otherwise, have been heard to dispute that this is just about as close to total stability as could be hoped for in an expansionary period like 1961-65.

Yet an annual rise of only a few additional tenths of a point could start an epidemic of jitters among government price specialists.

Says one:

"There would be speeches made if the increase went beyond 1.5 percent. We'd be reassuring people everything was still all right, but we'd be worried."

Though there isn't any handy definition of how big a rise constitutes "inflation," all the alarm bells probably would be

# 'Does State Have Surplus or Need an Income Tax?'

Governor Romney said he expected a state surplus of \$60 million, and some democratic "big-wigs" said the surplus would be closer to \$100 million. Zoltan Ferency practically ordered the state legislature to enact a state income tax to solve the state's financial problems. With \$100 million left?

Apparently two smaller cities in this area don't think the state has a financial problem. They have by official resolution asked Governor Romney to give them some of the surplus for their own financial problems.

## Comments on Value of Good Teachers

Would those who complain of high teachers' salaries be willing to be a teacher? Most other college graduates earn more, have a much higher status, and have much less responsibility.

Only by giving teachers the respect and status they should have can we expect the best from our schools and the best from our children. Only by knowing the true worth of our children can we realize the value of a good teacher's services.

## Judge Gives Certain Probationers 'Key to Prison Front Door'

(EDITOR'S NOTE — Sonic boom echoes in Oklahoma, a judge's keys to prison, a grandmother-grandson in an Ohio high school, and a snop of lives for more accidents are among facets of the U.S. scene this week.)

**PROVIDENCE, R.I. (AP)** — Keys to prison — are being handed out these days by a Rhode Island Superior Court judge "in appropriate cases."

Judge William M. Mackenzie presented a key to Robert R. Tutalo, 22, of Johnston, convicted of possession of a lottery slip.

"I have a key to present to you," Judge Mackenzie told Tutalo. "It has the letter P on it to let you know that prison is where you are going if you violate probation."

Judge Mackenzie added this suggestion: "Put it in your pocket every morning. It's your key to the front door of state prison."

## KEY SUPPLY

He said he obtained a supply of old keys — none of which fit the front door of state prison — from a locksmith.

**OKLAHOMA CITY, Okla. (AP)** — Sonic booms ended here six months ago, but not the irritations of some area residents.

Partly for that reason, but also because of a gigantic task of analyzing 100,000 items of data gathered from 1,252 supersonic jet plane flights, a government staff lingers on here.

The statute of limitations is two years.

Damage claims continue to trickle in even six months after the end of the tests. So far, claims total 4,400. But only 218 have been approved for payment totaling \$12,000.

## PROOF LACKING

The Federal Aviation Agency, which supervised the program, thus far has failed to concede that sonic booms were proven causes of damage.

**AKRON, Ohio (AP)** — Bill

Thornberg and his grandmother are both honor students, but she'll beat him to a high school diploma.

Bill, 17, will be graduated in June from Akron North High. His grandmother, Sarah Jamison, 61, will get her diploma in May from Akron Evening High school.

Mrs. Jamison, who lives with Bill and his parents, said she left school after the sixth grade because her father didn't believe any more education than that was needed for a girl.

She felt a lack of education, though, so six years ago she entered high school.

## COLLEGE AHEAD

"I'm real happy to be the only boy whose grandma will graduate in the same class," Bill says. He plans to go on to college.

Does Mrs. Jamison plan to enter college, too?

"I certainly plan to do something in the way of more education," she says. "I'm not going to sit around and vegetate, that's for sure."

## SACRAMENTO, Calif. (AP)

Safety barriers dividing California highways are causing more accidents.

But they are cutting the traffic death toll by preventing worse head-on collisions, the State Division of Highways says. It plans to build five times as many barriers as now divide California freeways.

"We are trading property damage for lives," explains James E. Wilson, an engineer of the division.

In four years of experiment, the state has built 250 miles of beam barriers, or cable and chain-link fences, in center strips of its 65 m.p.h. freeways. The division plans to increase this up to 1,500 miles.

## ACCIDENTS INCREASED

Accidents have increased 22 per cent where cable barriers are used and 20 per cent where beams are installed.

On the life-saving side of the scales there were 45 fatal acci-

dents involving cars that crossed a freeway dividing strip in 1959, the last year before barriers went up. Since then traffic on the high speed freeways has doubled but this type of fatal accident has dropped to an annual average of 20.

The barrier prevents a car out of control from crashing head on into autos traveling in the opposite direction. The barrier

increases lesser accidents because it often prevents a motorist from recovering control of his car after it swerves into the dividing strip.

**NEW YORK (AP)** — After gathering dust in a warehouse for 13 years, Jose Marti finally will be put on his Central Park pedestal.

Jose Marti is a 19-foot statue of the Cuban fighter for inde-

pendence who was slain by Spaniards in 1895 at the age of 42.

The giant bronze work has been the cause of a dispute involving the U.S. State Department, the New York City Police Department and assorted Cuban groups.

Placing of the statue itself was postponed until things cooled off. Now it has been

decided that the atmosphere is cool enough to go ahead.

## A GIFT

The statue is the work of Anna Hayati Huntington and was her gift to the city, as were other statues of Joan of Arc, Don Quixote and El Cid.

Now the problem is to find the statue. City officials were certain it's around in some city warehouse.

Junior Editors Quiz on ALGAE

QUESTION: How can algae be any use to man?

ANSWER: Algae are very simple plants which usually grow in water. You have seen them as the green scum which coats the edges of stagnant ponds.

If you have been to the seacoast you will probably have seen some seaweed, which is a large form of algae, mostly brown or red in color.

Seaweed is such slippery, rubbery and generally unattractive stuff that it is hard to think of it as having any value to us human beings. Yet it does have value, and in a number of ways.

The large seaweed kelp gives a material called algin which has the very useful property of holding liquids together.

Ice cream, for example, algin prevents the water in the milk from forming crystals and so keeps the ice cream smooth. It also smooths chocolate milk and salad dressings.

Iodine is a useful drug extracted from kelp and makes an important antiseptic. Algae supply an extremely important food supply for ocean fish, and various seaweeds are eaten and enjoyed by people in different parts of the world; maybe, some day, algae may be an important part of our human diet.

Don't worry about having to eat "seaweedburgers"—when algae is used widely for food, it probably will be treated to taste delicious.

FOR YOU TO DO: When you next eat some ice cream, think of the humble seaweed plants which are helping to make it so good.

Fun With Snow Undercover Reds Seek United Line

KNOXVILLE, Tenn. (AP)—A University of Tennessee student was shot to death yesterday by a truck driver who had been pelleted with snowballs, police said.

Dead is Marneel Goodman, 18, of Swampscott, Mass., a freshman. He was a nephew of Fred Blumberg, a professor of English at the university.

Charged with second degree murder in the shooting is William D. Willett Jr., 27, a Greenville, Tenn., truck driver.

The shooting occurred as a crowd of about 200 students gathered near a city street adjacent to the campus to throw snowballs.

Homicide Capt. Fred Scruggs said Willett told him he fired a 22-caliber pistol after students hit him with snowballs when his truck stopped.

DIDN'T MEAN IT  
"I didn't mean to do it. They threw snow in my eyes and I fired a shot to scare the gang away as they closed in on me. I was afraid," Scruggs told Willett as saying.

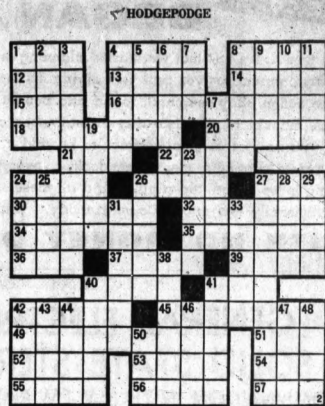

Willett said he fired only when the students tried to drag him from the cab of his truck.

Students at the scene gave a different story. Tom Garrison, a freshman at Knoxville, said:

"This truck came along, going toward town. The driver stopped, got out and the gang pelted him with snowballs."

GOT A PISTOL  
"He ran back with his truck, reached in and got a pistol. Suddenly the man shot him," Garrison said.

Binns Now Got It Made—Others Know Him by Name

By EARL WILSON  
NEW YORK—Edward Binns is very glad that people are finally getting it straight what Ed Binns is.  
"But they haven't all got it straight," Binns just told me. "There was a fellow who said, 'I know who you are! Don't tell me! You're... uh... Frank Lovejoy! You are, aren't you?'"

"I had to tell him, Frank Lovejoy has been dead a couple of years."

Binns' face became known to millions through the "Brenner" and "The Nurses" TV series—and to many more through "The Americanization of Emily" and "Fai-Safe" nevertheless.

"I can still see people snapping their fingers, trying to think of the name."

"They used to say I was a young Richard Dix. Now you come on the set and some nice youngster jumps up and says, 'Here, Mr. Binns, have a chair...'"

His wife Marcia spoke up: "Now you're Eddie Binns at last!"

And because the face and the voice are important, his agent tells him, "Don't you ever put your face in one of those TV commercials!"

"It's a legitimate thing, plenty of actors do it, it's kind of like an annuity," Binns said.

"So I had a meeting at a big agency."

"A man explains what I'm to do. 'You're dressed like a very kindly doctor, and you're talking to young girls. You're saying that you can guarantee that this soap absolutely will not cause a rash under the armpits.'"

"I said, 'Thank you very much,' and left."

REMEMBERED QUOTES: "Mankind should take a lesson from the snowflakes. No two of them are alike, yet observe how well they cooperate on major projects, such as tying up traffic."

—Lee Call, Afton (Wyo.) Independent.

EARL'S PEARLS: "Education" is what you get from reading the small print in a Bill Gold.

"Experience" is what you get from reading it in a Bill Gold.

A lush walk into Steuben's Tavern carrying an auto seat belt. He explained, "I don't wanna forget where I parked my car."

—That's Earl, brother.
