

Board Upholds Tax Mill Hike

A recommended local tax rate of 2.83 mills—double this year's—to finance Waterford Township's proposed 1964 budget was upheld last night following a lengthy Township Board review of the new budget.

Following a public hearing on

the proposed budget Sept. 9, the established 1964 millage rate must be filed with the county clerk's office.

Last night's review of the budget, submitted Monday to board members by Township Supervisor James Seeterlin, resulted in only one change.

A total of \$29,300, earmarked for a pension plan for employees other than police and fire personnel and for longevity pay was diverted to provide for the hiring of three additional firemen and two more police officers.

NO EFFECT

The switch of \$29,300 from one area of the budget to another had no effect on the total operating budget of \$794,245 proposed by Seeterlin.

Seeterlin's recommended budget specified two additional patrolmen and three firemen. Last night's action would double this provision if the budget is approved as it stands now.

Trustee Loren Anderson, who attacked the increase from 1.42 mills in the current budget to 2.83 at Monday's board meeting, indicated at the start of last night's session that he would agree to the new rate if funds were appropriated differently.

Anderson and trustees John Coleman, Kenneth Preston and Charles Evans all advocated a switch of funds to the uniform departments.

As proposed, the 1964 budget is 18.5 per cent over the current \$647,445 budget, based on a local tax levy of 1.42 mills.

The proposed budget would yield an estimated \$262,144 in local revenue, or about one third of the total operating budget.

State sales, intangible and liquor taxes would produce the greatest single slice of revenue for the new budget—an estimated \$406,000.

Several expenditures contribute to the increase of \$146,738 in the proposed budget over the current one.

Among them are in across-the-board pay raises of approximately \$13,500 for the township's 68 employees, \$28,800 for operation of a library and \$18,620 in capital improvements.

Lewis, 23, a Negro, is chairman of the Student Nonviolent Coordinating Committee, one of the youngest and most militant of the civil rights organizations.

Delegates Take Recess

at Geneva Arms Talks

GENEVA (UPI) — The 17-nation disarmament conference today began a two-month recess with delegates optimistic over chances of new East-West agreements soon.

The talks here were suspended for the duration of disarmament discussions which will take place at the United Nations General Assembly which starts Sept. 17.

KEEPING WATCH—A U.S. military adviser keeps watch for Viet Cong guerrillas near Ben Cat, South Viet Nam, north of Saigon, as an H21 helicopter attaches a sling to a downed chopper prior to the disabled aircraft's being lifted from a rice paddy.

'Diem a U.S. Lackey' Peking Boss Says

SAIGON, South Viet Nam (UPI) — Communist China denounced South Vietnamese president Ngo Dinh Diem today as a "lackey" of "U.S. imperialism."

Ma's blast coincided with moves here to ease the restrictions which have been in effect since the government cracked down on Buddhist opposition forces with a series of raids on pagodas throughout the country on Aug. 21.

The military governor of Saigon, Brig. Gen. Tom That Dinh, Western newsmen that 845 Buddhists were arrested in the pagoda raids, with an additional 1,380 students arrested in demonstrations Sunday.

He pledged that all the students would be released by tomorrow.

At the same time, the official South Viet Nam press agency said Diem had promised to remove police guards from the Buddhist pagodas and free imprisoned monks and nuns who will obey newly installed Buddhist leaders.

In another development, resigned Foreign Minister Vu Van Mau was reported to have left on a Buddhist pilgrimage to India.

In his statement, Mao reaffirmed his support for the Communist Viet Cong rebels in Viet Nam, but he made no mention of any concrete Chinese help for the guerrillas.

Ma's statement appeared to be another manifestation of his "hard line" policy of militant communism in the face of the Soviet Union's advocacy of "peaceful coexistence" with the West.

The official government news agency distributed word of Diem's softening moves against the Buddhists before Mao issued his latest blast.

The agency said Diem, whose government raided the pagodas last week, imprisoning thousands of Buddhist leaders, will place the pagodas in the charge of Buddhist monks now in command.

It said the president made these promises Tuesday to a delegation of monks headed by Thich Thien Hoa, who was named to head Buddhist affairs last weekend after the arrests. The agency said Hoa also heads a breakaway Buddhist committee called the Union Committee for the Defense of Pure Buddhism.

Du Bois was given a state funeral at Accra's Christiansborg Castle, now known as government house, then was buried just outside the castle.

Du Bois was a founder of the American Negro Academy and an organizer of the Niagara Movement, a pioneer anti-segregation organization that grew into the NAACP. He left the NAACP in 1948 and joined the Communist party last year.

Cost of Living Includes

Price of Taking Survey

TOKYO (UPI) — The American Chamber of Commerce in Japan has notified its members it is dropping a cost-of-living survey because it would be too expensive.

"We now regret to inform you that the project must be dropped for lack of foreseeable funds," Warren L. Corbin, chairman of the cost-of-living subcommittee, said in a letter to members.

The crews were electrified but only for a fast-trading flash-

2 Die, 3 Hurt in 3-Car Crash

15-Year-Old Killed in Sterling Twp. Mishap

A three-car pile-up early this morning in Sterling Township killed two persons—one a 15-year-old boy—and injured three others.

The dead were Thomas G. Linke, 15, of 3550 S. Emmons, Rochester, and Raymond Atherton, 50, of 4305 Mound, Utica.

Linke and his brother Carl, 17, were passengers in a car that ran a stop sign, police said.

The driver, Joseph M. Nagy, 16, of 3127 Melvin, Rochester, is in "critical condition" at St. Clements General Hospital with multiple fractures and severe internal injuries.

Carl Linke was listed in fair condition in Mt. Clemens St. Joseph Mercy Hospital. He suffered a fractured pelvis and leg.

State police of the Centerline post said the Nagy auto, going west on 18th Mile Road, failed to stop for a stop sign at the Mound intersection and was struck broadside by the Atherton vehicle.

Nagy's car, police added, was forced to the shoulder on the west side of Mound. After the impact, Atherton's car spun sideways in the middle of Mound and was struck broadside by an auto driven by Miss Minnie J. Taylor, 52, of Detroit.

Coroner Raymond Markle, M.D., of Roseville, pronounced Atherton dead at the scene.

Linke died in the hospital just over two hours after the 12:45 a.m. smashup.

Miss Taylor, according to police, suffered cuts and bruises.

Trooper Louis Adams said the road was wet, but it was not raining at the time of the accident.

He added that the speed of the vehicles had not been established.

Linke is survived by his parents, Mr. and Mrs. Carl H. Linke; grandparents Mr. and Mrs. Candido Cifolletti of Detroit; a sister Cindy and two other brothers at home, Marvin and Dennis.

Requiem Mass will be 10 a.m. Saturday at St. Andrews Church, Rochester.

The Rosary will be recited 8:30 p.m. tomorrow at the William R. Potere Funeral Home, Rochester.

A break-in at a Highland Township hardware had police wondering today if a mountain-type Martin-and-McCoy feud is in the making.

One of the two thieves, who stole nine rifles, a shotgun, two pistols and a revolver from the store, was barefoot.

The weapons, valued at \$687, were stolen from the Highland Hardware, 212 E. Livingston. The manager, Robert J. Lang, reported the burglary to the sheriff's department yesterday.

First Negro Sworn as Member of NLRB

WASHINGTON (UPI) — Howard Jenkins Jr., 48, was sworn in today as the first Negro member of the National Labor Relations Board.

Jenkins began his five-year term by taking the oath of office before Supreme Court Justice Arthur J. Goldberg in a ceremony conducted in the Interior Department auditorium.

In that moment, the crews took fresh heart in their efforts to bring out Bova, who was hoisted Aug. 13 over 300 feet down in the nearby Shepperton coal mine along with David Fellin, 58, and Henry Thorne, 28.

Those two are recuperating in Hazelton State Hospital after their dramatic rescue early Tuesday.

But a tape recording of the sound Daniel Bova heard, was played back, with the volume increased—and it turned out to be only a soft sifting down an underground slope.

Mine experts ruled out any likelihood that it could have been a voice.

Birmingham Area News

Parents Reminded of Fraternity Ban

BIRMINGHAM — Back-to-school plans of high school students should not include attendance of secret society activities, the board of education warns.

This message is explicit in a letter sent yesterday to parents of students at both Seaholm and Groves High Schools.

The two-page letters, "due warning" to all parents, were signed by E. Ross Hanson, board president. They are the most recent step in a campaign which began in June.

The school system means to "strictly enforce" a state law which authorizes withholding class credit, promotion or graduation.

James Thorburn, legal adviser for the board, and Oakland County Prosecutor George F. Taylor have said secret societies operating in Birmingham are illegal.

Board members met last week with speakers for one of the groups, Tau Alpha Epsilon.

The sorority's spokesman threatened legal action against the board.

"The organized good of many well-meaning younger citizens will be lost to the community if the groups are dissolved, on a student protest."

The student said school-supported organizations such as the honor society and dramatics club discriminate as much as the social clubs.

However, the school board plans to crack down on sororities and fraternities "so they won't get out of proportion."

In yesterday's letter, Hanson noted that board members can be fined up to \$100 for tolerating such groups.

Douglas Norland, 18, a member of the Bloomfield 4-H Club, has qualified as one of Michigan's top 4-H auto drivers.

Norland placed second in competition during the 48th annual State 4-H Club Show at Michigan State University. The contest included NORLAND a written examination on auto care and use, a road test and driving a tricky obstacle course.

Hugh W. Cunningham Service for Hugh W. Cunningham, 77, of 1074 Stratford, Bloomfield Hills, will be 3 p.m. Saturday.

One Dead, Four Hurt in Alma Auto Crash

ALMA (U-P) — One person is dead and four others, including an expectant mother, are hospitalized as the result of a two-car collision near Alma yesterday.

Killed was Mrs. Jo A. Moros, 31, of Alma. A passenger in her car, Mrs. Mary Trank, 30, of Alma suffered arm and back injuries. State police said she is about five months pregnant.

Mrs. Moros' car collided with one driven by Dale Junior Wright, 33, of Flint at the intersection of alternate U.S. 27 and M-66, three miles north of Alma.

Coast Guard Protects Duck

MILWAUKEE, Wis. (U-P) — Gee, a prospective mother duck, doesn't have to worry about the bright eggs in her nest — she has the Coast Guard guarding them.

The mallard, who took up residence on a bridge piling, has been adopted by and named after the nearby Coast Guard recruitment station.

The guardsmen have even been assigned duty sections to feed the duck. Gee and orders have been issued to those crossing the bridge to "tread carefully and softly."

At South Lyon

Fete to Herald Park Dedication

SOUTH LYON—A three-day celebration beginning Saturday will precede formal dedication of South Lyon's new city park.

The dedication, scheduled in connection with the annual Gala Days, will immediately follow a 2 p.m. parade Monday.

A carnival, contests and a chicken barbecue are among the activities packed into the weekend.

Most of the events will be held at McHattie Park, where carnival rides will be operating Saturday, Sunday and Monday.

EXCITING PARADE

South Lyon Kiwanians have promised an exciting Labor Day parade including at least 10 floats, a variety of other exhibits, bands, old cars, horses, clowns and bicycles.

Floats and horseback riders will be judged. Other prizes will be awarded for the best children's costumes, decorated bicycles and pets.

The parade will line up at the high school at 1 p.m., proceed east on Whipple, south on Lafayette, west on Lake and south on West Street to the park.

Mayor John Knoll will preside at the dedication, along with William McHattie, president of Michigan Seamless Tube Co. and the city's benefactor for the park. Also participating will be local judges, sponsors of the celebration.

Queen of the event is to be crowned at 2 p.m. Saturday. Bidding is being done in downtown South Lyon, where resi-

12 Youths Hurt in Truck Crash Near Midland

MIDLAND (P)—Two Kalamazoo boys were in serious condition today with spinal fractures suffered in a highway accident that also injured 10 other youths.

Six of the 12, all ice cream vendors, remained in Midland Hospital. In serious condition were Peter J. Lowery and Ernest Irby, both 13.

The boys were hurt yesterday when a truck taking them to Midland for a vacation outing skidded and turned over on a county road two miles south of Midland.

The driver, Jim Chalmiras, 20, of Midland said the truck went out of control when he swerved to avoid an approaching car. He was treated for bruises and released.

Chalmiras said the boys had not ice cream for his vending firm.

Six of the boys also were discharged from the emergency room. Still hospitalized, in addition to Lowery and Irby, were Gordon Elston, 13, of Battle Creek, and Frank Phillips, 13, David Grant, 4, and Jack Wolthuis, 11, all of Kalamazoo.

Rose Twp. Girl Set for Exchange at Fair

ROSE TOWNSHIP—Fifteen-year-old Susan Patnode, 850 Munger, will be among some 100 youngsters participating in an unusual exchange program tonight and tomorrow.

The Michigan State Fair program is designed to give farm youngsters a closer look at their city "cousins," and vice versa.

The boys and girls from rural areas will gather at 5 p.m. at the state fairgrounds where each will be teamed with a member of the same sex from the city group.

A dinner and overnight stay with their city hosts are on the agenda for tonight.

Tomorrow at 5 a.m., they will return to the fairgrounds for farm chores. Later in the day all will be guests of the State Fair Authority for a luncheon and sight-seeing.

Worker Listed as Critical After Fall During Job

DETROIT (UPI)—The condition of George P. Morang remained critical today after he suffered a 40-foot fall to the bottom of a shaft while working on a sewage disposal system.

Morang, 28, was taken to Wayne County General Hospital, with multiple fractures and a possible skull fracture. He is an employee of the Frank J. Knight Construction Co.

dents may drop the names of their choices into containers.

They are also casting penny ballots for two baby-contest winners. Pictures of babies nominated have been placed on containers in four downtown locations. The containers with the most pennies by Monday will indicate the winners.

CONTESTANTS

Contestants are Betty Jean Lakvold, Pamela Jean Bourns

and Laurie Louise Jones at Spencer Drug; Teddy Harris, Kelly Sue McIlroy, and Nancy Ann Wickie at Showerman Market; Joseph William Bielecki, Kevin John Steiner and Colleen Jay Horton at Enders Drug; and Vickie Lynn Fletcher, Lynne Caldwell and Bryan Smith at Slaughter's Variety.

Merchandise will add to the celebration by holding a downtown sidewalk sale Saturday.

The Kiwanis Club chicken barbecue will be held from noon to 2 p.m. Saturday and Sunday.

Athletic events for children will begin at noon Sunday at the park.

A go-kart demonstration is scheduled for 3 p.m. Sunday at the corner of Warren and Whipple.

Concluding the celebration Monday will be an 8 p.m. fireworks display at the park.

They're Gold to Avon Farmers

There's a Real Mine in Mushrooms

By ALLEN PHILLIPS
AVON TOWNSHIP—A miner's lamp pierces the damp darkness as the helmeted man steps along a board walkway.

He doesn't grip a pickaxe, but a wood basket. His tools are his hands. His "mine" is a windowless black building above ground. And he's not a miner—he's a farmer.

Almost unnoticed along the eastern edge of Oakland County and around Utica, are a dozen

mushroom farms that can probably claim the title for Michigan's most unusual type of agriculture.

Consider the crops grow indoors, and do not require sun or rain; the growing area is air-conditioned, the "plants" harvested throughout the year.

But there are stories within the story.

Of hard-working immigrants, all from the same region in north-

Italy, who labored to build an industry, and their acceptance of scientific methods that turned their "fields" almost into laboratories.

"It was hard work from dawn until dark," recalls Alexander Marzetti, 4123 Birchhill, Utica, son of one of the founders of the local industry.

"In the late 1940's, everybody harvested in the fall. The market was glutted and prices fell."

For the hard-pressed growers, there was only one solution—unite.

By 1951, they constructed their jointly owned processing plant, Great Lakes Mushroom Co-Operative, in Warren.

HOTELS, MESS HALLS

Off its spotless production lines tumble cans destined for hotels, hospitals, and military mess halls. This year's production totals four million pounds.

The finest mushrooms are hand packed fresh for sale in supermarkets around Detroit.

The object of all this effort, the edible fungus dates back to ancient times, but it was always difficult to grow commercially. There was no real attempt to grow mushrooms in this county until the 1890's.

"A lot of people really believe we get the mushrooms out of the woods and fields," Leno Ghilardi said with a laugh. He operates a farm at 1441 Hamlin.

Actually, mushroom growing is a carefully controlled process.

It begins with a basic ingredient to any farming, manure. The material is composted and aerated for weeks before it is spread on wooden tables of several levels extending the width of the "block" or long building for growing.

The gloomy block is subdivided into "houses" or rooms.

Three weeks later, grain that has been inoculated with mushroom-spawn is spread on top of the manure. This method is used since mushrooms do not have seeds.

FUZZ SPREADS

Within a few weeks, fine, threadlike fuzz spreads throughout the bed. At this point an inch-deep covering of specially treated topsoil is placed over the bed. Layeredsoil, the fuzz solidifies into mushrooms pushing their way to the surface.

And for reasons not completely understood, banks of air conditioners maintain a temperature of 55 to 62 degrees, winter or summer.

From here on, it's just a job of cutting the mushrooms, as many as four crops within several weeks, and sending them off for processing.

At the end of the four-month growing cycle, the beds are emptied and the entire house steamed to kill any lingering disease or fungus harmful to the next "planting."

Lapeer Man Electrocuted in Furnace Work

LAPER—A 22-year-old father of three was electrocuted yesterday afternoon when he crawled under his one-story home to repair the furnace.

Wayland Jarvis, 4008 Hunt, Elba Township, was pulled unconscious from beneath the house when he failed to answer calls. He was later pronounced dead at the scene.

Jarvis had been using an electric saw when he was killed, according to Lapeer County sheriff's deputies.

Drive-In Issue May Cool Off

Detroit Takes Steps on Resident Complaint

DETROIT (UPI)—The question of rowdiness at drive-in restaurants may become a moot point under a new ruling made yesterday by the city planning commission.

After a heated debate, the commission declared a moratorium on new restaurants of this type until the possibility of tougher restrictions can be looked into.

Two of the members of the commission said, "We are just contributing to the problem by routinely approving these requests" for new establishments.

Commissioners Craig A. Smith and Dr. Ralph A. Johnson said, "An industry that doesn't police itself is a public nuisance."

Both men made reference to an instance yesterday when some 50 angry residents of an area near just such a restaurant stormed the City Council and asked for police supervision of the area.

The residents claimed that their streets were being turned into "midnight drag strips" and that "beer bottles were strewn over the lawns" by youths hanging around the restaurant.

One dissenting commissioner, John J. Flaherty said, "You can't condemn all drive-in restaurants because a few have rowdy patrons."

The commission voted to ask the common council for action and to seek clarification of its own powers from the corporation counsel.

State Traffic Toll 1,091

EAST LANSING (P)—Traffic accidents have claimed 1,091 lives in Michigan so far this year, provisional figures compiled by state police showed today. The toll on this date a year ago was 990.

News of the Area

Clarkston Festival Will Start With Sale

CLARKSTON—An eventful Labor Day weekend celebration will begin tomorrow morning in Clarkston with a sidewalk sale and will end Monday morning with the annual parade, followed by an art exhibit.

"The sidewalk sale, under the theme 'Clarkston Village Days,' is slated for all day Friday and Saturday. Numerous prizes will be given away by village merchants."

While the outdoor sale sponsored by the Clarkston Businessmen's Association is in progress, the Junior Chamber of Commerce will operate four rides for youngsters and a refreshment stand on a roped-off area of Washington Street near Main.

Monday's parade, scheduled to begin at 10 a.m., will feature colorful floats, marching bands representing nearly every organization in the area, and the Clarkston High School band.

Sponsored by the Rotary Club, the parade will have "community service" as its theme.

Parade participants will gather at 9 a.m. at Miller and M15 where the parade will form. Its route will be down Main.

Following the parade, the Village Friends of Art will hold an all-day art exhibit on the corner of Main and Washington.

Oils, water colors pastels and mixed media will be featured in the third annual art exhibition.

Rochester Member Gets Kiwanis Post

ROCHESTER—Carl R. Simon, secretary of the Rochester Kiwanis Club, was recently elected to the post of lieutenant governor of Michigan's 5th Kiwanis Division for 1964.

A total of 120 Kiwanians attended the election and preceding dinner Monday, both staged in the Avon Park Pavilion. The Rochester club was host for the event.

Thirty-two delegates from 16 area clubs took part in the election.

The new lieutenant governor is past president of the Rochester Club, chairman of the Avon Regional Planning Commission and a member of the Avon Township Zoning Board.

An engineer, Simon lives at 1332 Christian Hills, Avon Township.

MEA to Seek Teacher Tenure

Petition Drive Planned for Statewide Law

LANSING (P)—The Michigan Education Association (MEA) is preparing for a 250,000-signature petition campaign to seek legislation making tenure mandatory for all Michigan teachers.

E. Dale Kennedy, executive secretary of the MEA, announced the group's board of directors had elected to start the campaign immediately and present the issue to the 1964 legislature.

At present, the MEA said, 25,000 of the state's 84,000 teachers are in its 1,375 public school districts have tenure which protects them from arbitrary and unjust dismissal.

Under present law, school boards may voluntarily adopt tenure for their teachers. It becomes effective once the teacher has passed a probationary period.

"The MEA believes that a dedicated and competent teacher in every classroom is the very heart of an adequate educational program," said MEA President Octavius Townsend.

"The efficiency of that teacher is enhanced greatly when he works in an atmosphere of cooperation and security."

"Teacher tenure encourages this spirit of cooperation and offers the security which attracts and holds the top teachers."

Previous attempts to extend tenure to all teachers in the state on a mandatory basis have met defeat in the legislature.

Farmhouse Blaze

Takes Life of Owner

FWLER (UPI)—An early morning fire swept a farmhouse near here and killed the owner.

The victim was identified as Earl Avery. The fire occurred at his farm about nine miles south of here. Firemen from the Grand Lodge, Westphalia and Fowler fire departments battled the blaze.

On Delta University

Bartlett Is Censured

LANSING (P)—The lone Republican on the State Board of Education has censured Dr. Lynn Bartlett, superintendent of public instruction, of treating a pending Delta State University request in a secretive and "extremely questionable manner."

"Bartlett promptly replied that the remarks made by Republican James O'Neil of Livonia were 'ridiculous' and 'kind of disgusting.'"

The controversy centered on a request from a newly-formed non-profit corporation to operate a third-and-fourth-year college at publicly-owned facilities of Delta Community College, a junior college which serves the Saginaw-Bay City-Midland area.

O'Neil said in a prepared statement yesterday that "while the present proposal regarding Delta

Senior University has been under consideration for two months, and the written request (for its approval) was made on July 3, Bartlett concealed this knowledge from the board and did not even make the written request available to the board members until the middle of August, a few days before the board meeting."

The board refused to second Bartlett's motion that the request be approved. Board members resolved to study the proposal further.

TO GRADUATE—Elizabeth Stadel will graduate from the Grace Hospital School of Nursing, Detroit, on Sept. 13. A graduate of Avondale High School, Miss Stadel lives at 877 W. Auburn, Avon Township.

Bean Study May End Gas

BOISE, Idaho (UPI) — The Idaho Bean Commission wants to tame its beans.

The commission reported in its new "Idaho Bean News" that it is spending \$16,000 for a study by the Stanford Research Institute in California to determine ways to reduce gas-producing properties in beans.

Commissioner Harold West says certain specialized markets shun beans because of gas effects.

Beans are not used in hospitals, nursing homes, old age homes and other institutions, or in baby foods, West said, due to the gas effect. He said a quick-cooking process developed by Stanford has shown a "gas reducing effect on beans."

Governor Favors Prayer

NASHVILLE, Tenn. (UPI) — Gov. Fran Clement yesterday signed a petition protesting the U.S. Supreme Court ruling against required prayers in schools.

Most India Children in Schools This Year

NEW DELHI, India (UPI) — Three-quarters of India's children got at least some formal education this year, the highest percentage in the nation's history, an Education Ministry statement said today.

The statement presented to the lower house of Parliament, said 45,301,642 children were enrolled in the first four years of primary schools this year — 75 percent of all children in the age group.

Rides Herd on Yank TV

GLASGOW, Scotland (UPI) — American television cowboys and Italian shoemakers are ruining the health of Glasgow youth, a local health officer charged today.

Dr. James M. Parker said the boys are becoming round-shouldered and hollow-chested from imitating the stride of the heroes of the West — jeans worn low on the hips and hands

stuffed in the drooping front pockets. He said Italian shoe styles with exaggerated pointed toes could cause permanent deformities of the feet.

Soak: Chips First

To give an especially enticing smoke flavor to grilled meats use wood chips such as hickory, oak, apple and cherry. Soak chips in water at least 1 hour before using so they will give maximum smoke and will not burn. Add a few chips at a time to the charcoal briquets while cooking. If chips flame up, replace them with wet ones.

Hospital to Release Sen. Engle in Week

WASHINGTON (UPI) — Sen. Clair Engle, D-Calif., is expected to be released from Doctors Hospital within a week or 10 days following brain surgery Saturday.

The operation on the 51-year-old Californian was to correct circulatory trouble that affected his right arm and leg.

His office said yesterday his recovery "continues to be excellent."

Infantile paralysis was first recognized as an epidemic disease in about 1840.

City Attorney's Manner Unbecoming to Hearing

When the hearing on suspended City Manager ROBERT A. STIERER resumes tonight, we are hopeful that the arrogant attitude of City Attorney WILLIAM A. EWART will have disappeared.

His over-belligerent and rude behavior drew hisses from the audience, and Mayor LANDRY was booed when he allowed the disgraceful conduct to continue.

EWART

Stierer's attorney, Howard I. Bond, and witness Louis H. Schimmel were the subject of much of Ewart's cavalier attitude.

Mr. EWART, no one is impressed. To behave in this manner, when the side you represent is both the prosecutor and the judge, is extremely poor taste.

Caleb E. Summers

The unexpected death abroad of CALEB E. SUMMERS saddened a host of friends and professional contemporaries.

Mr. SUMMERS was a prominent figure in the automotive field, and as assistant chief engineer made notable contribution to the early development of the Pontiac car.

His warm and gracious demeanor marked him as a gentleman of the old school, and those who knew him intimately were enriched by the association.

Mr. SUMMERS' mortal life was a full and rewarding one and now, with mission accomplished, he is called to the spiritual peace and fulfillment of the hereafter.

We express sorrow over the loss of this sterling character who added so much to his community.

Berlin Wall Unique in Barrier History

Throughout history, ancient and medieval, rulers have erected strategic walls protective of their domain. The city states of Rome and Athens were so safeguarded, with the 1,500-mile, five-century old, Great Wall of China standing as the most ambitious.

Nothing more in the wall-building line was done, however, until two years ago, when East German Proconsul Walter Ulbricht, with the blessing of Nikita Khrushchev, startled the free world with the inception of the Berlin Wall.

But this wall differs from its classic predecessors. Those were erected to keep people—the enemy—out. The intent of the wall between East and West Berlin is to keep people—citizens of East Berlin—in.

The wall stands today as a symbol of ideological and economic failure of the Communists.

Whereas democratic West Berlin has become a flourishing and progressive landmark of European recovery after World War II, dictator-led East Berlin has sunk into social and fiscal bankruptcy.

Figures related to the 28-mile wall are arresting. Its 7-foot height represents 6,000 miles of barbed wire, 124 watch towers, enough building material to construct 200 apartments, and a capital outlay of \$25 million. Eleven thousand East German soldiers are required to guard it.

The wall has virtually halted flow of refugees from East Germany, with

but 16,000 crossing the border in the two years since it was started compared to 160,000 in the seven months prior.

Ironically, the barrier has actually dealt a final blow to Ulbricht's efforts to gain social and economic parity with West Berlin. His last excuse—flight of his countrymen—has been faulted in the continued failure of East German's industry and agriculture. Growth rates in the first six months of this year amounted to only half the planned figures.

The wall indeed offers stark evidence that though man can be physically imprisoned, spiritually he cannot.

Will D.C. March Affect Congress?

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON — Yesterday's giant civil rights march doesn't figure to impress Congress much although it will leave imprints on whites and Negroes.

One of the purposes of the demonstration, besides protesting racial injustices, was to try to pressure Congress into passing President Kennedy's civil rights bill.

But it will not change Southern Democrats' opposition. Others in the House and Senate have already made up their minds on how they will vote, either out of conviction or what they think is politically shrewd.

That leaves the force itters to impress. They, too, will do what they think is right or expedient. A completely orderly march might affect some of them favorably.

That could make a difference in a tight vote in Congress.

If white prejudice with all its discrimination didn't exist, "North and South," there would be no need at all for this march of Negroes demanding equal treatment almost 100 years after the Civil War.

But the march itself, and the demands of the speakers, won't dent the prejudices built up over lifetimes and generations. Some of the prejudiced will resist the Negro even more for asserting himself.

What the march will certainly do, if there is no disorder to confuse the problem, is demonstrate the Negro is fed up, waiting for the same treatment white people get and has learned how to demand it through collective effort.

He couldn't do any demanding until nine years ago when the Supreme Court declared the principle of segregation itself unconstitutional. The law was against him. All he could do was chip away through law suits.

Even so the prejudiced, with the law now on the side of the Negro, have refused to end the various discriminations until compelled to. The Negro has had to ram them with sit-ins, street demonstrations, picketing.

It was in doing so that Negroes came to the realization they were helpless individually but together could hasten what they wanted.

This march in Washington yesterday is simply a kind of dramatic climax to that realization. To the mind of the prejudiced yesterday's spectacle is evidence, if any were needed, that the Negro is determined to get justice.

This has unpleasant implications for whites who don't want to yield: more turmoil and disorder, perhaps on an even greater scale, if nonviolent efforts collapse in violence, as they have been doing increasingly.

APPROVAL UNCERTAIN
The Kennedy bill was intended to eliminate a number of potential trouble areas. It isn't clear yet whether Congress will approve.

But after yesterday's display of solidarity, at least in what is wanted, Negroes can be expected to push even harder. It can be an encouragement to them.

But while there is solidarity on what is wanted among Negroes, there isn't on how or where or when to achieve it.

The Negro leadership, although it is unified for today's program, is divided and no doubt will resume its divisions after today. (This to some extent will divide Negroes generally on the strategy to use and may cause conflict among them.)

Purely Theoretical?

David Lawrence Says:

It Was a Day of Public Disgrace

WASHINGTON — The "March on Washington" will go down in history as marking a day of public disgrace — a step backward in the history of the American system of government.

For the image of the United States presented to the world is that of a republic which had in LAWRENCE

professed to believe in voluntarism rather than coercion, but which on August 28, 1963 permitted itself to be portrayed as unable to legislate "equal rights" for its citizens except under the intimidating influence of mass demonstrations.

The press, television and radio, the public forums in halls and stadiums — all have been available heretofore as mediums through which the "right of petition" could be effectively expressed and public opinion formed on controversial questions.

But a minority group—led by men who drew to their side church leaders and groups as well as civic organizations—decided that a massive publicity stunt would be a better way to impress Congress and the President with the idea that unemployment and racial discrimination can be legislated out of existence.

REVOLUTION SYMBOL
Government by mob has on a few occasions in the past darkened the pages of American history. A. Philip Randolph, the leader of the "March" this week, frankly characterized the "March" as a symbol of "revolution," he said:

"In our pluralistic democratic society, causes must gain acceptance and approval and support. They can gain acceptance, approval and support only if they can get attention and in order to get attention with numerous causes seeking the focus of public opinion—it is necessary for the dramatization to be developed of a given cause."

Mr. Randolph, however, was not content with trying to mobilize American public opinion. He told an audience at the National Press Club on Monday that the "March on Washington" would bring into "world focus" the struggles of peoples of color in America "for first-class citizenship," he added.

WORLD PRESSURE
"It will have the value of giving the peoples of the world some concept of this problem... it will serve to bring world pressure upon the United States of America to stop up the struggle to wipe out race bias, because in the cold war—in the conflict of the free world with the totalitarian world—the free world is seeking the alliance of the Afro-Asian world."

"And in order that the free world may win the alliance of the Afro-Asian world, the free world must show that we are not only making promises to Africa and promises to Asia to help them advance their cause, but we are going to keep our promises, fulfill our promises with our own citizens at home

—especially Negroes of African descent."

"Africa will not trust the United States in its promise to the peoples of Africa unless they realize and understand that the Negroes here in America are giving and evincing basic trust in the promises that have been made by our own country to them."

"And so, the 'March on Washington' is an expression, a great step forward of the confrontation between the civil-rights revolution and our American society. But could not the merits of the

Bob Considine Says:

Cold War Is Still Frozen to Men on the DEW Line

WASHINGTON—There's a "Hot Line" being strung between the Kremlin and the White House.

The President is going to meet soon with Foreign Minister Andrei Gromyko and later, in all probability, with Chairman Khrushchev. For all the debate and misgivings, the Sen-

CONSIDINE
sate will rally the Anglo-American-Soviet test-ban pact.

But it's still a very cold Cold War along the Distant Early Warning line, a network of 38 radar and warning stations stretching across the top of the world from the west coast of Alaska to the east coast of Greenland.

Nobody in Washington is in any mood as yet to pull the plug out of that system, which would sound the first alarm if the Soviets launched an aerial attack over the North Pole.

It's a world without women up there. Some of the tiny isolated communities have as few as 20 men; a handful as many as 100. They are getting ready right now for a winter that will bring with it 140-knot gales and thermometer readings beneath 60 below.

Winter makes no secret of its coming, in the Arctic. Several stations reported snow on July 4.

It takes a heap of doing to keep the 200 men in their sensitive instruments functioning. The service organization involved is the Federal Electric Corporation, a division of International Telephone and Telegraph Corporation, plus small teams of U.S. and Royal Canadian air forces.

It operates with planes, ships, snowmobiles, trucks, tractors, jeeps; radar technicians, radio experts, clemency, cooks, physicians, dentists and logistic specialists.

Food is plentiful and free, 4,000 calories a day. Fresh meats, fruits and vegetables flow in from the temperate zones.

There is a short span in the summer when the tundra springs alive with arctic flowers, and men play ball with shotguns. But the recreating concentration naturally is on autumn, winter and spring — when the men hibernate.

civil-rights "revolution" have been presented effectively to American audiences without street demonstrations?

Couldn't the State Department and the "Voice of America" instead have dealt comprehensively abroad with the story of the efforts being made inside the United States to deal with the "civil rights" problem?

What was proved by the big demonstration — that in Free America only the mob can get laws passed covering the issue of "civil rights"? (Copyright 1963, New York Herald Tribune Syndicate, Inc.)

There is table tennis, pool, cards, hi-fi, movies three times a week, photog darkrooms, and six cans of beer per man per week.

Fitness Council Has New Booklet

By PETER EDSON
WASHINGTON (NEA) — The President's Council on Physical Fitness has issued another one of its pamphlets intended to make you healthy. Its title: "Adult Physical Fitness—A Program for Men and Women."

Government Printing Office has published 250,000 copies of this 64-page pocket booklet — which shouldn't go very far among 100 million people. But you can get your copy if you hurry by sending 35 cents to Superintendent of Documents, Washington, D.C., Zip Code 20402.

No author's name appears on this latest government guide to your life, but this is the program that Coach C. C. "Bud" Wilkinson of Oklahoma has been working on for a couple of years as Consultant to the President on Physical Fitness.

The only name that appears in the pamphlet is President Kennedy's.

In an introductory message he says: "Ours is not a regimented society where men are forced to live their lives in the interest of the state. But if we are to retain freedom, we must be willing to work for those physical qualities upon which the courage and intelligence and skill of man so largely depend."

Each of you to follow these recommendations... The government cannot compel you to act, but freedom demands it."

EDSON
Henderson poses for one uncaptioned photo showing himself, fully dressed, looking at television. This doesn't look like exercise. This doesn't look like a chair while watching television. This is the kind of exercise people won't do. He isn't eating, either.

Miss Tirana, fully dressed, poses for another uncaptioned photo showing her in front of a mirror, doctored her eyebrows with a lot of beauty preparations.

This is also the kind of exercise that too many gals can overdo. But the text explains that you need have no fear of becoming unattractively muscled if you take real exercise.

There are some other unorthodox generalizations which may surprise you.

A heart specialist is quoted as saying, "The best insurance

Voice of the People:

Believes Conservatives Both Negative, Positive

The phony Liberal today charges Conservatives are negative.

He's right. We are negative to socialism, communism, economic bankruptcy and surrender of natural sovereignty.

We are also positive: balance the budget, reduce the debt, uphold the Constitution, strengthen individual rights and decrease the federal bureaucracy.

In foreign policy, quit trying to seek accommodation with Khrushchev and declare a policy of seeking victory in the cold war.

Congressman Donald C. Bruce (R-Ind.)

Tell Sources of Revenue for City Schools

Pontiac School System has three or four sources of revenue to operate and build schools.

First, the amount they get from the 15 mills is set by the County Tax Allocation Board; second, any millage that is voted which at present is the 8.75 mills; third, what someone calls a "limited debt" to build and repair buildings and buy sites. This is a misnomer because they are limited to the amount they can spread at any one time, which is two per cent of the total valuation; fourth, what the state pays to all schools which is based on a per pupil basis by the state.

The city collects the first three but the Pontiac County School System does not have one thing to do with these sources. The County Allocation Board sets the amount of millage the schools get. Second, the State Equalized Commission sets the final State Equalized factor which is worked out by the Oakland County Equalization Board.

The School Board can set the Unlimited Debt to build buildings and the variable factor which the county tax allocation allows. They can go below, but not higher. The city has nothing to do with the schools and the schools hands are tied and can only collect what they are given.

W. S. Downes
2005 Pontiac Road

'Pontiac Could Use Better Leadership'

Your newspaper stated that a member (or members) of the City Commission caused two prominent businessmen of "attempting to run the city." The city would be fortunate to have two such able businessmen at the helm, for it is interesting to note that their respective enterprises have prospered and grown as Pontiac businesses—benefiting the community through employment and tax payments.

I would like to thank the member who suggested this intelligent move, for it's high time the citizens of Pontiac had some professional leadership. Both major political parties called upon the acumen of prominent business leaders with gratifying results.

A Citizen 38 Years

Suggests Way of Reducing National Debt

The federal debt could be reduced if the government were prohibited from competing with private enterprise and required to sell existing federal industries.

The revenues could pay a share of the national debt. Also, the number of businesses supporting the government through taxes would increase.

Taxes would fall more equitably on everyone. Since revenue to support the government would be less, there could be a subsequent lowering of tax rates.

Tom

against coronary disease is exercise — lots of it."

You have 600 muscles. You may have been able to count every one when tired. But the booklet states chronic tiredness comes from not taking enough exercise.

Regular exercise, it says, can slow down the physical deterioration that accompanies aging. By delaying the aging process, proper exercise prolongs your life.

Even Harvard is dragged into the act as authority for the statement that "one-half hour of exercise daily can keep off or take off as much as 26 pounds a year."

In addition to the illustrated push-ups and stretches and bends and tortures you inflict on yourself in your own home, the book says you can exercise while at work:

• Don't ride elevators — bound up stairs two at a time.

• Suck in your abdomen, hold flat a few seconds.

• Instead of coffee breaks, take exercises.

• If you lack privacy for this, do "isometrics."

• Isometrics, it says, is pulling or pushing against an immovable object, such as a wall, using various muscles to perform a series of brief exercises, several times a day. Gosh!

Coon, 2 Women Set Fur Flying for Hearth, Home

SANTE FE, N. M. (AP) — A raccoon was the victor during a brief encounter with two Santa Fe women.

Mrs. Audry Cole, 65, was moving into an apartment when she opened what she thought was a closet door.

Instead the door yielded the pet raccoon of the house's owner.

The raccoon charged from his room. Mrs. Cole fell down, breaking her arm. Mrs. Cole's daughter-in-law, Birke Cole, grabbed the animal but suffered scratches on her arms.

The Coles were treated at a hospital and the raccoon was confined at the animal shelter.

Russ Return Finn Boats

HELSINKI, Finland (UPI) — The Soviet Union yesterday returned two Finnish trawlers and a motor launch which Russian warships arrested in the Gulf of Finland Monday. The Russians contended the vessels had entered Soviet waters.

Home-brewed coffee costs about three cents a cup, according to present estimates.

Volunteers Shelter Explosion Victims

HUNTSVILLE, Utah (AP) — They looked like ordinary construction men but they seemed to be miracle workers to the Orville Peterson family.

Using prefabricated sections, 15 volunteers built the Petersons a new home in five hours. Much of the construction material was donated and other items were provided at below cost.

The Petersons' former home was shattered in an explosion that also cost two sons their legs. Money in excess of construction costs will be placed in a trust fund for the injured youths.

'Hey, You— This Is Us'

NASHVILLE, Tenn. (AP) — Melanie Hall, three-year-old daughter of Dr. and Mrs. B. J. Hall, had been receiving instruction on the etiquette of introductions.

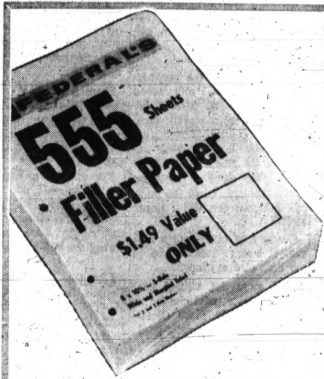

Accompanied by a playmate, Denise Hill, she visited her grandmother, Mrs. W. R. Gower Jr., and decided to put her knowledge in to practice.

Pointing to Denise, Melanie announced politely: "Grandma, that's her — and this is me!"

Wine Chateau • Holds Exhibit of Modern Art

BORDEAUX, France (UPI)—The spacious rooms of one of France's great wine chateaux have become galleries for a popular exhibit of contemporary art.

For the third year, fine artists are displaying their works at Chateau Lascombes, 15 miles north of here in the wine country village of Margaux.

The summer exhibit has drawn favorable notices from Paris critics and the crowds who wind their way through the vineyards and gardens of Lascombes attest to its popular appeal.

The exhibit, with the theme "La Vigne et le Vin" (the wine and the vine), has attracted works of contemporary artists from France, Italy, the United States, Britain, Japan, Greece, Australia, Israel, Spain, Argentina, Belgium, Lithuania, Holland and Germany.

Visitors who come to Lascombes to view and possibly buy the art works are invited to the famed chateau's wine cellars to sample its ruby vintages.

The exhibit will remain open to the public until October, according to Alexis Lichine who organized it. Lichine, an American, is a leading exporter of French wines in addition to heading the society which now controls famed Chateau Lascombes and its great vineyards.

THIRD YEAR

The current year is the third for the art show which appears to be becoming an annual classic. The initial exhibit in 1961 featured only French artists.

Last year, contemporary Italian painters showed their works. This year the exhibit has become truly international and its scope has been broadened to include, in addition to paintings, sculpture, ceramics, mosaics and tapestries.

No admission is charged for the extraordinary exhibit. Catalogues are available and paintings may be purchased at the artists' prices.

Many artists from the Bordeaux region itself are represented, as well as other great names of current French art including Jean Dufy, Chagall, Lorrain, Pignon and Grau-Sala.

30 Enter Finals for Astronauts

HOUSTON (UPI)—The manned spacecraft center (MSC) said yesterday the final screening has begun to choose America's newest team of astronauts.

An MSC spokesman said the list of candidates has been reduced to 30 and from these, 10 to 15 will be selected. The spokesman said the final group will be picked by October.

Originally there were 271 applicants, including two women. But the women were disqualified because of a basic qualification calling for 1,000 hours of jet training.

Doctors at Brooke Air Force base in San Antonio are studying the 30 prospective astronauts.

Prof Places Man, Ape in Same Tree

DETROIT (AP)—Man is more closely related to apes than he thought, says a Wayne State University professor.

Taxonomists (animal classification specialists) have been placing man in a separate family—with no apes in it. But Dr. Morris Goodman, associate professor in Wayne's department of microbiology, has moved in gorillas and chimpanzees.

Blood protein studies support this closer relationship and put chimps and gorillas in the family hominidae—supposedly the family of man alone. The three—man, chimpanzees and gorillas—are more closely related, in terms of blood proteins, than to any other animals, Goodman said.

The family still is pretty close and exclusive, however. Orangutings and gibbons, regarded as close relatives of the chimps and gorillas, don't belong in the family, he added.

BATTER UP — David Kennedy, son of the attorney general, engages in a baseball game with friends in Hyannis Port. At 7, he has a reputation for a playful spirit.

State Cuban Visitor a 'Strong-Willed' Girl

NEW BOSTON (UPI) — Patricia Ann Sopiak was always a "strong-willed" girl, and this is one of the reasons why she made an unauthorized visit to Communist Cuba without permission of the United States government.

She was one of 54 students who landed in Cuba last June and who are now in trouble with the U.S. State Department.

President Kennedy has said the students' passports would be lifted when they returned.

The names of the students were released last night by the State Department.

Pat's father, Metro Sopiak, said he received a telephone call from his daughter when she landed in Cuba last June.

"She told me she just wanted to look around and see what Cuba was like," Sopiak said. "She was always a strong-willed girl, but a good girl who never gave me a bit of trouble."

WON SCHOLARSHIP

Patricia, 23, who attends the University of Michigan, won a scholarship from the Huron Township High School. "She always had good marks, but when she graduated from high school, she was on her own from then on out," Sopiak said.

The President told, an Aug. 1 news conference that a few of the group, which originally numbered 59, were not students, but Communists, and additional steps would be considered for dealing with them.

The State Department said the 54 whose names and addresses were those who landed at Madrid from Havana Tuesday. They are en route home through Czechoslovakia, which was the route they took to get to Cuba without properly validated passports.

New Boston is a tiny community tucked away in the southern part of Wayne County.

Sopiak said his daughter worked summers at the university library and wasn't home much. "She is my only child," he said "and she would come home during the summers for a few weeks and then be off to Ann Arbor again."

"I didn't even know she had gone to Cuba. The first thing I knew about it was when she called me from there," Sopiak said.

Sopiak, 50, who works at a Detroit department store, said he was not worried about his daughter. He said he was sure that she was not in "serious" trouble and that "She probably just wanted to visit the country, that's all."

232 Negroes Begin Trials

**CORE Demonstrations
Lead to Mass Arrests**

PLAQUEMINE, La. (AP)—Arrests begin today in City Court for 232 Negroes—including James Farmer, national director of the Congress of Racial Equality—arrested for disturbing the peace during racial demonstrations here.

Mayor Charles Schnebelen, the city's magistrate, will start with the first 17 cases after a week's delay. The delay was due to a move last week by CORE which asked a federal court in New Orleans to dissolve a Baton Rouge federal court's order prohibiting mass demonstrations. The judge declined and the matter is now before the 5th U.S. Circuit Court of Appeals.

The demonstrations started Aug. 19 to protest segregation and to spark a Negro voter registration drive. They continued almost daily—despite the federal ban issued Aug. 21—until last weekend when they lulled into "pray-ins" at white churches.

The demonstrations erupted again briefly Wednesday night when about 40, singing "freedom songs," began a march to protest the mayor's decision not to release 239 who had been arrested and jailed at nearby Port Allen.

They voluntarily disbanded only a few feet from the church where the march started after a "freedom rally."

The mayor earlier Wednesday released for "health reasons" 60 Negroes held in a temporary jail at the state fairgrounds in Plaquemine.

Search for Boy Ends as Body Is Found in Canal

FAIRHAVEN (AP) — A massive search for 5-year-old James Beeman ended yesterday with discovery of the boy's body in a canal near his home.

Two sheriff's deputies among the estimated 200 searchers found the body while dragging the 12-foot-deep canal.

Police theorized that James drowned Tuesday afternoon, after he purchased caps for his toy gun at a store. His mother, Mrs. Walter Beeman, said the boy was playing with the cap pistol when she last saw him at 10 a.m.

Some 200 volunteers from Selfridge Air Force Base assisted in the search. James' father, an airman, is stationed at the base. The Beemans have three other children.

'Here Come the Kennedy Kids'

Brothers Captain Quite a Crew

By BRUCE BLOSSAT

HYANNIS PORT, Mass. (NEA) — "Kerry, can you do your cursey?"

With a touch of solemnity, Mary Kerry Kennedy, 8, second youngest of Robert and Ethel Kennedy's lively crop of eight, dropped one knee into the dust of the farm field.

Then, dungarees sagging and yellow hair hanging in a straight curtain, she traipsed off to get aboard a pony called Lollipop.

She felt quite at home in the saddle, but nevertheless managed to suggest to one of her sibs: "He wants to go with you."

That morning Kerry's sisters and brothers were scattered about. With her for riding lessons were Courtney, 6, and Michael, 5.

Off on a sailing venture were Bobby, 9, and David, 7. Husky Joe, 10, was getting ready for a sailing race. The eldest, Kathleen, 12, was reading because her horse was ill.

Kathleen, a trim, alert, dark-haired collier, is an expert rider. She has had five champions and three "reserves." Her room is festooned with 12 trophies and 60 ribbons.

Joe is the big boy. Says "coach" Sandy Eller at the Kennedy Compound: "He can almost hit the baseball off the fence." Joe also plays "tackle" football.

To the brief observer, he seems thoughtful, relaxed, extremely polite.

Ethel Kennedy calls slender Bobby Jr. a "great bug man." That's just part of it. Says the attorney general: "He's sort of a dreamer, off in some other world."

What's in that world? Comments his father: "Animals, bugs and stars."

Young Bobby is, most noted for the fact that snakes and other crawling things may be found in his pockets at any time.

If the gang is out on a mass bike ride, Bobby is the one likely to drift out of line as he scans the earth for signs of other life.

W. German Chief of Allied Troops Ends Duty Tour

FONTAINEBLEAU, France (AP) — Gen. Hans Speidel of West Germany, commander of allied land forces in Central Europe, bade farewell to his command today after a six-year tour of duty that began in a storm of controversy.

Speidel was the first German appointed to a high NATO post. His appointment, on April 1, 1957, brought an outburst of protest from Communist and other left-wing groups.

During World War II, Speidel was chief of staff on the eastern front and chief of staff to Field Marshal Erwin Rommel in France.

In September 1944, he was arrested by the Gestapo on suspicion of plotting against the Nazi regime.

Naturally enough, his paintings, hung with others on his dad's office walls, feature animals and insects.

At 7, David is the near-perfect Huck Finn, with broad teeth, an arc of freckles beneath his eyes, a playful spirit.

At lunch in the Shriver (the President's) house, David announced the results of a morning officially devoted to sailing: "On this trip, I had two malteds, a hamburger, and a ginger ale."

Courtney, a pixie with a rich vein of humor, seems to be in the thick of everything.

And an artist visiting her dad's office to paint him for a magazine cover found Courtney's paintings unusually good in use of line and color.

Big as this bunch is, the onlooker finds no signs of jealousy. They appear extremely loyal, thoughtful, caring toward each other.

The attorney general and his wife spend lots of time with their children. Breakfast together is a big thing.

DINNER TOGETHER

Often at Hickory Hill, their home in McLean, Va., there is an early ride or swim for some. No matter what her social schedule, Ethel Kennedy tries to eat lunch and dinner with the kids—even if it means sitting at two meals in a row some days.

Their father can't easily manage that, so from time to time the gang comes down to the office.

They usually have hamburgers at a big table in the corner. While he works, they paint, play cards, test the office telephone, try out the typewriters.

There is nothing the attorney general likes better than to show up at the Cape, spot a group looking for action, grab half a dozen or more and go for a hike, bike ride or swim.

Few dare try to take a census of the animals the Kennedys keep at Hickory Hill and Hyannis Port. The number and kind shift steadily. Two monkeys are among the latest additions.

Like the President and the Stephen Smiths, Sen. Edward M. (Ted) Kennedy and his wife, Joan, live away from the Compound. They have a house of their own on Squaw Island, very close to where the President is renting this summer.

But Ted and Joan's youngsters, Kara, 3, and Teddy, nearing 2, join the big group much of the time.

Kara, whom I saw on a horse at the farm, is a bit shy. She loves the water, and wants it cold (in her bath, too.)

She and Teddy, whose hair is white blond, look for little blue snails, periwinkles, among the rocks at the beach. Kara always insists that someone build an on-shore pool in the sand for Teddy, whom she watches over carefully.

'YES! YES!'

She was taught French by her

nurse from an early age. She suffered a minor mishap at the beach and she asked in French: "Are you hurt?" With tears streaming, she replied: "Ouf! Ouf!"

Young Teddy is at the milk-pipping stage, and knows that a rap on the fingers is often the penalty.

One day, trying to beat the game, he calmly turned his silver cup of milk upside down into his plate. Then, in a flash, he jammed both hands out of sight under his legs.

NEXT: A full time job.)

Astronaut Hopefuls Escape Plane Crash

EDWARDS AIR FORCE BASE, Calif. (UPI) — A crippled F104B fighter plane with two astronaut candidates aboard crash-landed yesterday and burst into flames, but both men escaped without injury.

"I guess his lucky star was with him," an Air Force spokesman said of Capt. David R. Scott, 31, La Jolla, Calif., the pilot who stepped from the plane just before it burst into flames.

Capt. Michael J. Adams, 33, Sacramento, Calif., made a successful ejection immediately upon impact. Both men are assigned to the aerospace research pilot school along with 13 other men.

Latins Flee Western Style

RESISTENCIA, Argentina (P) — The jail of this hinterland city was badly in need of repair, but the authorities were short on funds.

Someone suggested putting the prisoners to good use. Bruno Boeglia and Roberto Vargas seemed

to be ideal candidates — model prisoners and good carpenters both.

But the first day the two were put to work, they fled in wild West tradition — on stolen fast horses which, the red-faced jail keepers surmise, were provided by outside accomplices.

Sweden's national bank has lowered the official interest rate from 4 to 3½ per cent to stimulate late business. The new rate is the lowest since 1955.

English 'Gastronauts' Can Circle Globe

LONDON (P) — A new restaurant, a shape of an airplane fuselage. It has opened in London which is open until midnight every night.

You can also see travel films without charge, in an adjoining cinema room.

It's called "Taste the World" and is a self-service restaurant in a huge room. You choose dishes from 12 different countries.

There were 1,070 urban renewal projects under way in 57 cities in the final quarter of last year. A travel agency — built in the year.

Boat Hits Car in Odd Crash

It really happened — a boat crashed head-on into a car. George Godowns and his 20-year-old son Asa were at Lion's beach when the lake began to set rough and the pair decided to move their outboard motorboat to a safer mooring.

where the boat would berth and aimed the headlights to help his son's vision, but the lights blinded the youth. Failing to see the shoreline, he ran the craft right up onto the beach and into the automobile about 26 feet from the water's edge.

The encounter resulted in two broken headlights and a crumpled front fender on the car and a small hole in the bow of the boat.

About 96 per cent of American women do their own housework.

Indians Get Late Payment

MUSKOGEE, Okla. (P) — All living Cherokees who were on the tribal rolls in 1907 have received their shares of a \$12 million supplemental land payment for land bought by the federal government in 1890.

The government says payments have gone to 12,392 Cherokees the year.

Payments are being made to heirs of the approximately 30,000 deceased tribal members. Courts ruled the government did not pay a fair price for the land in 1880 and ordered the additional payment.

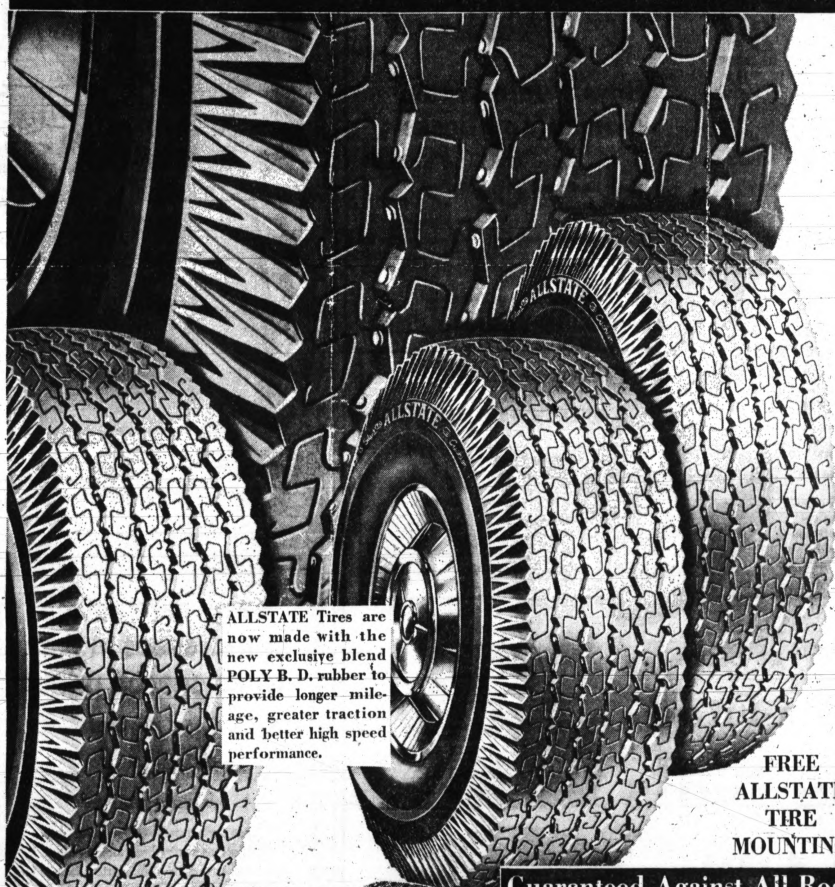

The 13,010,289 tourists who visited Florida in 1962 set a new record, the Florida Development Commission reports. Tourism poured more than \$12.2 billion into the state's economy during the year.

New Public-Port Bills Ready

LANSING (AP) — Legislation aimed at facilitating money-raising for public port development will be revived in the special legislative session next month, if other would enable port authorities to accept gifts and grants from public and private sources.

Two bills which failed to pass the legislature last April have been drafted anew and are "all ready to go," said Rep. Oscar Bouwsma, R-Muskegon.

"The only question is whether Gov. Romney will see fit to include these bills in his call to the legislature," said Bouwsma. "As far as I am concerned, they deal with fiscal matters and could logically be included."

One of the bills would reduce from 60 to 51 per cent the majority needed to approve a bond issue for a public port facility. The other would enable port authorities to accept gifts and grants from public and private sources.

DIED IN SENATE
Both bills, with strong bipartisan backing, passed the House last spring but perished in a Senate committee.

Bouwsma said yesterday, at the close of a joint interim committee hearing, that the bills might have a better chance next month.

"I think we've picked up some support in the Senate," he said. The perennial issue of public

versus private port development arose again as the committee, of which Bouwsma and Sen. Clyde Geerlings, R-Holland, are co-chairmen, held the fourth of five hearings.

Two former Michigan governors, Democrat Murray Van Waggoner and Republican Wilbur Brucker, were among witnesses who testified in opposition to public port development.

Van Waggoner, a director of the privately-operated Detroit harbor terminals, accused the Detroit-Wayne County Port Commission of trying to build a "personal dynasty" by spreading word that Detroit's existing facilities are inadequate.

"They are making everybody think it is a peanut port," said Van Waggoner.

TELL HOW GOOD

He said what Detroit needs is somebody to tell how good its facilities are, and he suggested this job might best be handled through creation of a state port commission.

Such a body could handle the promotion of Michigan ports to encourage shippers to use them. This would benefit not only Detroit and other port cities, but inland cities as well, he said.

Detroit and Wayne County have facilities adequate to meet the

need at least until the middle or late 1970s, Van Waggoner said.

Brucker told the committee that a shortage of port facilities is not the reason for the failure of cities in Michigan to reap expected benefits from the St. Lawrence Seaway.

The real problem, he said, is created by "inequities" in rates offered by railroads to shippers through Eastern and Southern ports as compared to Great Lakes ports.

Brucker said a "cartel" of Eastern ports, railroads and shipping interests has succeeded in diverting export trade away from the seaway.

Testimony on behalf of public port development was led by Carlis Stettin, executive director of the Detroit-Wayne County Port Commission which has seen its

plans for a port bond issue styled by the 60 per cent majority rule.

Stettin said public port authorities have advantages of long-term financing at lower interest rates, cheaper land acquisition and the ability to sustain themselves while waiting for full cargo potential to develop.

South Korea Will Get U.S. Destroyer Sept. 4

SEOUL, Korea (UPI)—The first destroyer and largest ship to be turned over to South Korea by the United States will arrive in Korean waters on Sept. 4, a U.S. military spokesman announced.

The 376-foot warship, formerly the USS Eber, was transferred to the South Korean government last May in Los Angeles. It was originally commissioned in 1943.

Noted Negro Educator, Neal Simeon, Expires

CHICAGO (UPI)—Neal F. Simeon, one of the Midwest's most prominent Negro educators, died yesterday. He was 46.

Simeon, as director of vocational

education and guidance centers for the Chicago Board of Education, was the highest paid Negro educator in the city at a salary of \$18,600 a year.

Sir Edmund Hillary of New Zealand, the mountain climber, is a bookkeeper by profession.

Food Stamps Aid Poor Shopper

This Juror Emphasizes

With Shoplifting Suspect

SAN DIEGO, Calif. (UPI)—The battery trial of a former shoplifting suspect came to an abrupt halt Tuesday when one of the jurors was arrested on suspicion of shoplifting.

Ruth H. Ames, 51, had a \$15 sweater stolen from a downtown department store in her possession when she was arrested during the noon recess.

About 41 million people — 64 per cent of the United States work force — now travel to work by car.

CHATTANOOGA, Tenn. (UPI)—Wayne Freeman tells the story of the grizzled old mountaineer, armed with a handful of new government food stamps, who went to a grocery.

"Can you get meat with these things?" he asked the grocer. The grocer replied he could — in fact, that was one of the items being pushed.

"Well, give me a \$5 steak," the mountaineer replied. "We ain't never had any steak before."

The stamps are giving some low-income families, dependent on commodity surplus, their first chance to shop at length for groceries in years.

"It's just like a new industry," said Freeman, who said J. A. Lloyd in the stamp distribution in a southeastern Tennessee area long troubled by low incomes and high unemployment.

ECONOMY AIDED
The U.S. Department of Agriculture marketing service-administered program, a little like a two-for-one sale, may pump \$2 million into this area's economy annually.

Figures for the first 2½ months indicate it has been responsible for more than \$37,000 in extra food-buying power — in some cases tripling family food-buying power.

Those participating "can buy anything they can eat that is produced in this country," Freeman said. They can't buy alcoholic beverages, tobacco, coffee, tea or imported items.

Most of the 414 authorized grocers and 28 wholesalers in the Hamilton-Sequatchie-Marietta-Grundy county area are happy. The program can increase their volume as much as 8 per cent. For some marginal operations, it's a lifesaver.

TRAFFIC JAM
Those who got their food from the old commodities surplus program didn't have to go to the grocery. In fact, at least one program distribution center accidentally wound up next door to a grocery and the resulting traffic jam kept people away from the store.

The program takes "the government out of competition with the grocers" and uses "established channels of distribution and trade," Freeman said.

The over-all purpose is "to see if they can be fed better and also to reduce the number of surplus commodities." Buying one pound of meat, in effect, "removes six pounds of feed grain" that it took to produce the meat, Freeman said.

The government also is interested in seeing that the families receive training on what kind of foods they should eat.

Twenty-two states now use the program, but this one is the first

in Tennessee, and one of the largest geographically. More than 6,000 families — about 23,000 persons — have applied and about two-thirds have been approved by state welfare officials.

Need is determined by income and size of family. For

instance, a household of seven with \$100-\$109 monthly income can pay a maximum of \$44 and get \$42 worth of free stamps for a total economic injection of \$86.

The family can't have more than \$130 monthly income.

At the other end of the scale, a household of seven with a monthly income of less than \$10 can pay \$2 and get \$60 free.

"Apparently we're always going to have people we're going to have to help feed," Freeman said.

British Pick Real Brain to Help Plug Drain

ABERDEEN, Scotland (AP)—The British Association for the Advancement of Science, which has been protesting against a "brain drain" of British scientists to the United States, elected a new president at its annual meeting Wednesday.

Observes Anniversary With Suit for Divorce

DENVER, Colo. (AP)—Ruth K. Crassey observed her 14th wedding anniversary Wednesday by suing her husband, Jack, for divorce.

The suit filed in Denver District Court accused Crassey of cruelty. The couple has three children.

Integration in Advertising Steadily Increasing

By JACK LEFLER
AP Business News Writer

NEW YORK—Racial integration of advertisements is moving ahead slowly but steadily. More and more Negro models are appearing alongside white models.

Recently Macy's, the big New York department store chain, pictured a real impetus comes from a desire by advertisers to reach the Negro market. This market comprises almost 11 percent of the U.S. population, or 20 million persons, with \$19 billion in annual purchasing power.

SPECIAL ATTENTION
Some companies have paid special attention to the Negro market for many years. Sometimes this was a part of a program aimed at many ethnic groups and neighborhoods.

Congress OKs NASA Budget

**\$5-Billion Bill Now
Goes to White House**

WASHINGTON (UPI)—Congress completed action on a bill authorizing the space agency to spend \$5.35 billion during the current fiscal year.

Both the House and Senate approved a compromise version of bills passed earlier by each chamber. The legislation now goes to the White House.

The National Aeronautics and Space Administration asked for about \$5.5 billion.

But the House originally approved expenditures of \$5.2 billion and the Senate approved a \$5.5-billion request by NASA.

The Senate accepted the conference report by a vote of 70-20 with only a handful of members present. The House approved it by 248 to 125 vote.

The authorization bill must now be followed up by an appropriation measure in order to make funds available to the space agency.

Other developments:
Shelters—The House Rules Committee cleared for House action legislation to start the government on a five-year, \$2-billion program for fallout shelter construction.

The bill would authorize appropriations up to \$100 million for a one-year trial run of a plan to eventually put up 240 million shelter spaces in new and old buildings.

Recess—Democratic leaders arranged for House members to take a 10-day Labor Day recess. Speaker John W. McCormack said there would be no further business on the floor until Sept. 8.

The Senate, according to Democratic leader Mike Mansfield, will take a long Labor Day weekend returning to work Thursday.

Each American family this year will pay an average of \$15 monthly to defray interest on the national debt, Rep. Ben F. Jensen, R-Iowa, reported to Congress.

Until recently efforts to reach the Negro market were mainly confined to the Negro press. Now general media are being used.

The trend toward use of Negro models is quite new and the advertising industry is having its problems.

"Many advertisers and agencies don't know how to do it," an industry spokesman said. "A problem is attracting too much attention to the models. After all, they're selling peanut butter, not integration."

DEFINITE INCREASE
"There is a definite increase in the use of Negro models in general advertising," said Richard Scheidecker, senior vice president of the American Association of Advertising Agencies. "But you have to use them where appropriate and where they will sell products."

New York Mayor Robert Wagner's committee on job advancement has made a strong push for greater employment of Negroes in newspaper, magazine, television and radio advertising.

The committee recently commended the Chemical Bank New York Trust Co., Manufacturers Hanover Trust Co., Trans World Airlines, Bell Telephone System, American Machine & Foundry Co. and Consolidated Edison Co. for use of Negroes in their advertisements.

The New York Telephone Co. has employed several models.

Integration Gets Victory in Chicago

CHICAGO (UPI)—Integrationists claimed a victory when the board of education agreed to remove mobile classrooms from a South Side school ground, but warned today of more demonstrations if the units are moved, as planned, to other school sites in the area.

The Rev. B. Elton Cox, director of the Congress of Racial Equality's (CORE), Chicago chapter, said there will be more demonstrations "at some other school" if the 19 units are moved.

The school board voted yesterday to move the mobile classrooms to the Wentworth, Oglesby and Guggenheim schools.

All are in the same area as the 73rd and Lowe sites where racial demonstrators threw themselves in front of construction machinery this month to prevent the temporary units from being installed.

Board members said students who would have attended classes in the mobile units at 73rd and Lowe would have to follow them to the other school sites.

The decision to move the mobile classrooms was one of two victories for integrationists yesterday.

The board of education also approved an out-of-court settlement of a school segregation suit filed by 20 Negro parents.

Under terms of the settlement, a five-member team of experts will study the "emotional and psychological problems that attendance at an entirely or predominantly Negro school causes pupils."

among them a Negro girl, to pose for an ad promoting the use of street-corner telephone booths. The picture of the Negro girl was selected for use because her expression told the story best.

SEVERAL COMMERCIALS
The Colgate Palmolive Co., which spends \$70 million a year on advertising, will release within the next two weeks several television commercials with a number of Negro models.

The ads will be broadcast in a substantial number of cities but not in the South.

"The purpose of an advertisement is to put across the clearest message to the desired market," said a spokesman for one of the nation's biggest advertising agencies. "We would not advise a client to use Negro models unless it enhanced the purpose of the ad."

SIZEABLE COMMUNITY
Boston Gas Co. has placed two billboards in downtown Boston, showing white and Negro children playing together.

"Boston has a sizeable Negro community," said Earl H. Eacker, Boston Gas president. "Boston Gas Co. has Negroes, both as customers and employees. White and Negro children play together. And the Negro community has become the fastest growing commercial opportunity in America."

Schaefer Brewery of Brooklyn is a front-runner in the use of Negroes promotionally. It uses Andy Stanfield, former track star, in television and radio coverage of athletic events.

One of its major promotions is election of a queen of the annual Negro Beaux Arts Ball. This contest draws 3 million votes annually. "Everyone is conscious of the possible use of integrated advertisements," said an ad agency man. "It's a big topic for clients and agencies."

An average automobile tire wears out at a rate of three to three and one-half per cent per month.

The first U.S. automobile road race was between Chicago and Libertyville in 1885, a 100-mile trip.

Quinidine May Help Runaway Heartbeat

By DR. WILLIAM BRADY
A Pennsylvania man says he has had paroxysmal tachycardia (spells of extremely rapid heart beat) for more than 20 years. At various times doctors have prescribed secenal, trional, nembutal, barbitol, amytal and quinidine. He believes the quinidine has been more effective than anything else.

At present he takes one-half of a three-grain quinidine tablet every morning. He suspects the effect is mostly psychological.

The runaway spells come with out apparent cause and last from one or two minutes up to 12 hours or more.

Years ago he had as many as four spells in a day. On doctor's advice, he quit smoking, but to no avail.

He says he is a moderate user of alcohol.

He can't actually determine whether alcohol is a factor of his trouble unless he discontinues it altogether.

Two years ago he consulted a new doctor, who, after an examination, advised him to stop using all forms of stimulants, including so-called caffeine-free coffee. When he did so, the results proved highly satisfactory.

SLIGHT SPELLS

Now he has a slight spell every week or two, but it lasts only one or two minutes. He says he seems to be able to get rid of these spells by holding his breath as long as he can. Recently he had three slight spells in one day, which he thinks were caused by his indulging in too much chocolate.

Of course, chocolate, whether consumed as beverage, flavor or candy, is a stimulant, its active principle, erythroxylon, being similar to the caffeine of tea or coffee.

Quinidine (not to be confused with quinine) is widely recognized as a remedy for tachycardia and other irregularities of the heart.

Carbon monoxide, which the cigarette or cigar smoker gets from smoke (but, I believe, the pipe smoker does not), is quite likely to cause or aggravate heart irregularity.

BELLY BREATHING

Instead of trying to hold his breath, I'd suggest the man practice belly breathing. This is a natural breathing, the most efficient breathing. Instructions in Little Lesson No. 21, "How to Breathe," for which send me 25 cents and a stamped, self-addressed envelope.

In some cases of runaway heart, relief is obtained by making moderate pressure on the eyeballs with the thumbs for a minute or two.

One reader reported that he found a simple remedy for his

spells—an ounce (two tablespoonfuls) of Epsom salts.

Physicians have found that injection of a dose of calcium chloride or calcium gluconate solution into a vein terminates the attack in a few minutes.

None of the remedies mentioned should be used for ordinary fast heart beat, but only for runaway heart, extremely rapid heart action that occurs in spells without evident cause.

Signed letter, not more than one page in length, will be returned by Dr. William Brady, if a stamped self-addressed envelope is enclosed. The Pontiac Press, Pontiac, Michigan. (Copyright, 1963)

Winter Cold No Bother to Some Life

WASHINGTON — Henry David Thoreau welcomed "that grand old poem called winter," but then he never had to scratch through ice and snow looking for acorns.

For most animals, winter is more purgatory than poem. They must find adequate shelter and devise ways to survive the cold that covers water supplies with ice and food with snow, the National Geographic Society says.

Rotifers, however, are different. These microscopic aquatic animals ignore seasonal changes. They can endure long periods of intense cold or heat.

Some species remain frozen-in place, and a certain percentage of the year.

SEEK SHELTER

Cold-blooded animals, having no control over their body heat, must seek refuges where temperatures stay above freezing.

Millions of insects tuck themselves away in tick crannies, beneath dead leaves, or under bark.

The cecropia moth spins itself a small, warm, bottle-cotton — with a double wall and an air space between for insulation. The female tent caterpillar lays eggs on a twig, then covers them with a protective shell.

Fish swim beneath ice in water that remains only a few degrees above freezing. A frog may spend the winter in soft mud at the bottom of a pond.

Some warm-blooded mammals hibernate. True hibernation is not merely a deep sleep but a state of suspended animation that is, in effect, a vacation from life.

The flame of life burns so low that a hibernating hedgehog survived a 22-minute dunking in water.

A dormouse, which curls into a furry ball and is cold to the touch, can be rolled across a table without awakening. One dormouse slept continuously for six months and 23 days.

Contrary to popular belief, bears do not hibernate. But they sleep deeply, drawing on fat reserves to keep them alive.

Ninety-five per cent of Haiti's three million people are pure-blooded Negroes, according to census figures.

AFTERMATH—Discarded signs and other debris litter the ground near the Lincoln Memorial after yesterday's civil rights march attended by a crowd estimated at more than 200,000. It was described as the most orderly in history.

State Marchers Hail Mission

By United Press International
"Magnificent" was the word most often used by Michigan residents to describe the civil rights "freedom march" on Washington yesterday when more than 200,000 demonstrators welled the nation's capital.

Bone-weary travelers reached their homes late last night and told of their experiences.

Mrs. Elizabeth Hogan, an employee of the Detroit Board of Education, said the trip and march itself were "magnificent. I've never seen anything like it in my life. I am a daughter of immigrants," Mrs. Hogan said, "and in one generation we have accomplished so much."

"It's time that the Negroes were given the same opportunities," Michigan's contingent in the march numbered somewhere around the 2,000 mark. They were part of the mass of people that jammed the park area around the Lincoln Memorial and

on the east steps where the speaker's rostrum was located.

Arthur Johnson, head of the Detroit branch of the National Association for the Advancement of Colored People, said "You got the feeling that you were participating in something. It was magnificent."

Johnson's group made the trip in a specially chartered "freedom train." Some 400 United Auto Workers representatives from the state flew to Washington by plane.

Some 100 came to represent the Detroit Council of Churches and a score of Detroit Roman Catholic priests were on hand.

A Sept. 11 trial date has been set for 12 civil rights demonstrators in Ann Arbor who were arrested on charges of disorderly following a sit-in at the council chambers.

The nine white and three Negro members of the Ann Arbor Area Fair Housing Association were arrested Tuesday night after refusing to leave the council chambers once they were officially closed for the night.

cell chambers once they were officially closed for the night.

The group is protesting alleged housing discrimination in the Ann Arbor, area. They support a strong housing ordinance which has been under discussion for several weeks.

The 12 stood mute at their arraignment yesterday and were released on \$25 bond.

The arrests were the first in several weeks of demonstrations.

City Police Charge Breaking, Entering

A 30-year-old Pontiac man will be arraigned in Circuit Court Sept. 4 on a charge of breaking and entering Simms Brothers, Inc., Aug. 11.

Richard K. Allen, 7 Short, was bound over to the higher court at his examination yesterday before Municipal Judge Cecil McCalm.

Police accused Allen of entering the store after breaking a front door window. They said he was frightened off by a night watchman. He was apprehended by a group of men who saw him run from the building at 98 N. Saginaw.

Kennedy's Pen Busy as Days, Weeks Pass

WASHINGTON (UPI)—President Kennedy issued proclamations yesterday designating the week beginning Oct. 6 as National Employ the Physically Handicapped Week, the week beginning Oct. 13 as National School Lunch Week,

and Monday, Oct. 7, as Child Health Day.

Kennedy called on federal, state and local public officials as well as leaders of industry and labor to renew "efforts toward creating community awareness of the abilities of handicapped persons."

Cancer War Is Aided by N-Research Unit

STANFORD, Calif. (UPI)—A scaled-down version of a machine used in nuclear research has turned out to be a valuable tool in the battle against cancer.

After seven years of hospital use and treatment of 1,500 patients, Stanford University's medical linear accelerator has gone into commercial production by the Palo Alto electronics firm of Varian Associates.

Two commercial models worth \$150,000 each are in service at the Stanford Medical Center and the University of

California Medical Center at Los Angeles.

For patients afflicted with certain types of cancer, the medical accelerator can mean more effective and more comfortable radiation treatment than that provided by older methods.

It has led to "real advances" in the treatment of several forms of cancer, according to Dr. Henry S. Kaplan, executive head of the department of radiology at the Stanford School of Medicine.

Its six-million-electron-volt supervoltage X-ray beam pene-

trates to certain deep-seated tumors which are difficult or impossible to remove by surgery.

It also reduces the skin reactions, nausea and loss of appetite caused by conventional radiation treatment.

Kaplan said the most significant improvement in results to date have been in treating cancers of the bladder, prostate, tongue, throat and sinuses and malignant tumors of the lymphoid tissues.

However, he said, the ac-

celerator is not necessarily suitable for treatment of all types of cancer, and thus Stanford accepts patients only on referral from their own physicians.

The medical accelerator is a smaller version of the university's one-billion electron volt machine used in nuclear research.

It also is a relative of the two-mile-long linear accelerator now under construction on the Stanford campus for the federal government.

Boy Falls From Train, Escapes With Bruises

BERGDALE, Yugoslavia (AP)—An eight-year-old boy fell from a speeding express train near Sarajevo yesterday and escaped with bruises, the newspaper Politika reported.

Vanca Skubey opened the wrong door while looking for the washroom. Passengers notified the crew who backed up the train and found the boy a half hour later.

Colorado boasts the highest railroad route in North America at an altitude of 10,846 feet where the Rio Grande railroad crosses the Continental divide.

3 Dead in Japan as Typhoon Della Skirts Coastline

TOKYO (AP)—Typhoon Della, packing winds up to 75 miles per hour, skirted Japan's western coast today leaving three persons dead, police said.

Della drenched the Tokyo area with eight inches of rain in the past 24 hours, flooding more than 13,000 homes and disrupting train service.

Police said the three victims were killed in landslides and floods in central western Japan.

The U.S. Joint Typhoon Warning Center on Guam said Della more than 10 million pounds of was moving northwesterly at 20 mph as much as five years ago.

PLANNERS AT WORK—Pictured here are some of the 25 committee members who have worked toward the creation of an ideal junior high school in Waterford Township. Seated (from left) are Roy Alexander, Shirley Castell, Harriet Hoffarth, Dave

Freeman, Carol Wolverton, Jerry Blanchard and Klara Hanson. Standing (from left) are Jim Matteson, Doug Kuechle, Glen Bevan and Gil Waters.

Waterford Twp. Considers Tailor-Made Junior High

By JOE MULLEN
Ever hear of a tailor-made school?

Waterford Township may have just such a facility in two years if a set of recommendations aimed at creating an ideal junior high school is basically retained.

It all began last February when a citizens' advisory committee studying future school needs determined that a new junior high school was needed in the northeast area of the township.

To make this proposed school as functional as possible, Supt. of Schools Dr. Don O. Fraire established a committee of school personnel to seek out the characteristics of a perfect school.

Headed by Dave Freeman, principal of Cravy Junior High School, the 25-member group went to work.

The first step was to determine particular needs of local students through a series of committee meetings.

Elementary school personnel on the committee offered some definite ideas on what sort of a junior high would best be suited to serve the youngsters with whom they had been working.

"And the high school people in the group had formulated opinions on what sort of intermediate school could best prepare students for the higher secondary level.

After laying the groundwork,

committee members began a series of visits to other school districts where favorable educational and physical characteristics were noted.

The desirable features found in these trips were incorporated into the committee's recommendations to the architectural firm planning the \$2.8-million building.

Though it realized some of the suggested features would be overlaid due to budgetary limitations, the committee included everything in its report it felt would fulfill the ideal school plan.

This information was passed on to the architects in a series of 14 meetings with Wakely-Kushner Associates since March 13.

The existing school dropout problem that plagues the entire area influenced the committee in its basic school plan recommendation.

Realizing that many youngsters leave school simply because they feel lost in the crowd at a big school, the committee suggested a building plan with a central resource area and two nearly autonomous sections.

If the 1,500 student capacity school is expanded in the future, a third wing, similarly self-sufficient, is specified.

According to plan, all students would spend some time in the central resource area, but they would become identified with one

of the autonomous units, or schools within a school.

OTHER FACTORS

Availability of the school building for general community use also was a factor that influenced the planning group.

Participation of staff members in planning a school building is uncommon but not unheard of.

A similar committee in the Waterford Township school system has worked since March in the development of a basic elementary school plan.

This preliminary plan prepared by Smith & Smith Associates was approved by the school board last week. Now the working drawings are in progress.

Other area school systems which have utilized faculty participation are Royal Oak and Livonia.

Waterford's junior high school planning committee will see the results of its efforts tonight when preliminary plans for the new school building are presented by the architects to the school board.

Committee members include: Freeman, Glenn Bevan, Jerry Blanchard, Shirley Castell, Dorothy Clark, Norma Clark, Dave Cliffe, Bob Elliott, Klara Hanson, Harriet Hoffarth, Doug Kuechle, Bill Limakka, Jim Matteson and Shirley McCoy.

Others are Wayne McMeans, Don Maxwell, Jack Perry, Finn Reed, Zelma Rose, Larry Timm, Gil Waters, Carol Wolverton and Larry Murray.

Roy J. Alexander also took an active part in the school planning since becoming the school system's coordinator of secondary schools a month ago.

Also aiding in the effort was Paul Ripley, former assistant principal at Pierce Junior High School, who left the school system this month.

Trim and Slash Fat

To keep steaks, chops and ham slices from curling during grilling or indoor broiling do not broil them too fast. Slash into the fat edge, being careful not to cut into the lean, also helps prevent curling. You may want to trim off part of the outer edge of fat so the drippings won't blaze up too much.

Seven Area Drivers Lose Their Licenses

Drivers' licenses of seven area motorists were recently suspended or revoked by the Michigan Department of State.

Paul T. Sawyer, 22770 Colgate, Farmington, was ordered to show proof of financial responsibility after conviction of drunk driving.

Unsatisfactory driving records caused the following to lose their licenses: William E. Fuller, 6425 Worthington, Birmingham; William P. Jordan, 3184 Middle Bell, Orchard Lake; and Daniel J. Murphy, 32280 Auburn, Birmingham.

Ordered to show proof of financial judgment against him was Norman R. Overton, 546 Luther. Virgil L. Oswald, 2569 Culbertson, Rochester, was ordered off the road for driving with a revoked license.

Grace M. McKinney, 1540 Lapeer, Lake Orion, had her license revoked for being unable to pass the driving test.

Pontiac Combats Problem

Educators Start Dropout Plan

By GARY THORNE

Nationwide concern for school dropouts has prompted the first of several steps by Pontiac school officials to combat the problem locally.

In response to a plea from President Kennedy, the school system has opened a drive to cut dropouts in the city's two high schools.

Assistant Supt. William J. Lacy has written a letter to 250 young people who dropped out of high school last year. The letter urges the dropouts to return to school and promises cooperation of teachers, counselors and principals.

In addition, a three-day workshop which began yesterday for Pontiac's 32 counselors will emphasize ways in which guidance services can help dropouts.

A still further step, according to Lacy, will be a talk next week by School Supt. Dana P. Whitmer to the district's 850 teachers at a preschool conference.

Whitmer will urge each teacher to contact a dropout and aid him

with his future education and work plans.

REAL MEANING

And what is the main problem? "If you can convince them (dropouts) that school has a real meaning in their lives," Lacy said, "the dropout rate will decline."

He said most young people can stay in school if they have an interest to stay there.

A strong effort will be made during the school year to "place students on the work-study program. Lacy explained that this was a cooperative, on-the-job training program where students work half a day and go to school the other half.

"The job has to be an educational experience," he added.

Lacy said less capable students could benefit from this program and retain an interest in school. Ninety-two students were in the program last year.

In a related vein, he pointed out that the vocational curriculum will be studied to attempt to bring the vocational experience

into school in-line with what is required by the labor market.

Lacy said a study of 1,028 high school students was completed last June. He explained that school officials took a count of ninth graders in 1958-59 and followed their progress through high school.

About 53 per cent or 545 graduated, while 272 or 26 per cent dropped from school. He said this was the Pontiac system's dropout average.

Lacy said the United States' average was 30.3 per cent and Michigan averaged 21.7 per cent.

Pontiac school officials have compiled a long list of reasons for the 272 dropouts from the 1962 graduating class. The reasons, which Lacy admits are vague in some instances, range from a simple lack of interest (32) to trouble with the law (3).

Truancy and over-age are the two biggest causes of young people leaving school. The two categories accounted for 80 of the dropouts.

While ten students are listed as just dropped, 28 left school to marry and nine because of pregnancy.

Another 27 left for military service, two were expelled, 15 dropped because of illness and 35 went to work.

The assistant superintendent reported a gradual improvement in the dropout rate locally. He said Pontiac Central High School has registered about a 1 per cent gain per year for the last five years.

Lacy said the dropout problem will continue to be studied. He said school officials would keep special tabs on a selected group of potential dropouts for six years.

"Although several studies concerning dropouts have been made in the past," he added, "none of these have involved the staff in working with potential dropouts prior to their leaving the school."

He anticipates new insight into the problem after the six-year study. This will furnish valuable information regarding the Pontiac school district's holding power.

Lacy said the effect of his letter to dropouts would be measured in late September and reported to the U. S. Department of Health, Education and Welfare.

50 Shy Birds March in Step

NASSAU, Bahamas (U) — The Ardsra Gardens here house 50 trained flamingos.

Noted as one of the world's shyest birds, they have been trained by Hedley Vivian Edwards to act as a precision parade platoon and obey such orders as, "Parade," "muster," "about turn," "halt."

The birds are drilled twice a day for visitors to the gardens and Edwards advises his audiences to be generous with their praise, because the more applause the birds hear, the harder they work.

He started training his bird platoon when they were four months old and worked with them a year before they appeared in public.

One problem he hasn't completely solved is the mating season between February and June when, he says, "All the men are showing off for the ladies and fight and court all day. The females really carry the show."

About one-fourth of the maple syrup produced annually in Vermont and New York state is used for the purpose of flavoring to-bacco.

They Show Men Their Place

Womanly Ways Win Out

By HOWARD HELDENBRAND

Being a man is pretty frustrating at times. Frustrating when you realize how many areas generally conceded to male authority are casually and victoriously invaded by the weaker sex.

For a start, let's take horse racing.

On annual visits to the track, I have been in company with some pretty shrewd turpins. Nothing is left to chance as preparation is made for an afternoon of fun and gain.

The paddock is visited, where many low-voiced colloquies are held with trainers, grooms and their ilk—sometimes even with the horses. Much technical literature is pored over for complementary intelligence leading to astute selection of race choices."

But, said to relate, gloom invariably settles on the group as race follows race without a winner.

Meanwhile, to the chagrin of the experts, joy and excitement are rampant among many lady fugitives from housework as they spike-heel a tattoo to the cashiers' windows.

When masculine pride has finally given way to curiosity and inquiry made among the happy ones re: their method of pickin' 'em, it turns out that decision hinged on such typical analytical assessments as:

- (a) Horse matched living room drapes.
- (b) Jockey had same name as brother-in-law.
- (c) Weight carried by entry corresponded with total of bettor's measurements.

ANOTHER ANGLE

Fishing offers another example of the distaff invasion.

The vacationing family bows to Pop and heads for a spot where he'll really land some fish.

Bright and early, the nimrod, complete with lunch, a hundred bucks worth of tackle and a guide, sets out for a

day calculated to decimate a lake of fish.

On his disillusioned empty-handed return, he finds that the IFI woman had found a discarded fish pole, dug herself a can of worms and, comfortably seated on dock with book in hand, hooked fish until boredom stopped the carnage.

And everybody knows that men are leaders in the delicate and inspired art of dressmaking.

The portrait of the aesthetic, temperamental geniuses agonizingly creating sumptuous gowns is something to conjure with.

It is, until some housewife, snatching a few minutes from domestic chores, sees in a newspaper fashion article an advance design of one of these creations. Whereupon she off to a shop for material that in a day or two emerges as the spitin' image of the original.

About all that's left to the men, it seems, is the moral: Never underestimate the power of a woman!

\$200 Fee, Six Approvals Needed for Dance Permit

For a \$200 fee and the approval of no less than six public agencies, a Pontiac bar or tavern with a Class C liquor license can allow its patrons to dance.

Earlier this week, the City Commission issued its first dance permit to Thomas Reeling and Arthur Kollin of the Pink Poodle bar, 21 E. Pike.

The permit is the first one issued since the commission amended a city ordinance to allow dancing in local Class C taverns and bars.

And how does such an establishment receive a dance permit?

City Clerk Olga Barkeley explained that the procedure for getting a dance permit was similar to applying for a Class C license.

MAKE APPLICATION

Mrs. Barkeley said the bar owner must make application to the Michigan Liquor Control Commission. The liquor commission sends the application to the city.

Then, she said, the police, fire, health and building departments investigate and approve or disapprove the permit request. The application then goes to the City Commission for its approval.

After the commission okay's the dance permit, the request is re-

turned to the liquor commission, which actually issues the first permit.

However, Pontiac bars and taverns must still secure a city permit before they can have dancing.

Mrs. Barkeley explained that there is a \$200 fee for a one-year dance permit under the city ordinance. The liquor commission permit is permanent, but the city's permit must be renewed every year.

H-H-S BUDGET BUYS

THE PROOF OF A VALUE IS MORE THAN JUST THE PRICE . . .

Our Budget Buys are selected because they give you more for your money than you'd normally expect—for it's what you get for your dollar that proves a value. We select each Budget Buy carefully; many are made to our exacting specifications. Take a moment to read exactly what these Budget Buys mean to you.

- It means low prices; lower than we normally carry. ● It means satisfaction in fit, wear, in every respect
- It means better quality than you'd expect at the price. ● It means fresh, new apparel in full selections.
- It means top value, value that just can't be surpassed. ● It means no charge for alterations.

And it means you'll buy it in a store you know and trust—where you can be sure of quality, of origin, of satisfaction—not just when you buy, but after the purchase, too. It means full selections and complete size ranges. It means proper fit by trained clothing experts, and courteous attention. **LOOK AT THE BUDGET BUYS BELOW. SHOP THEM, COMPARE THEM, SEE IF YOU CAN MATCH THEM, AND REMEMBER: YOU CAN CHARGE THEM, TOO—AT ANY OF THE ELEVEN CONVENIENT HUGHES-HATCHER-SUFFRIN STORES.**

FRIDAY AND SATURDAY ONLY . . .

LUXURIOUS ALL-WOOL

SHARKSKIN 2-TROUSER SUITS

BUDGET-BUY PRICED . . .

53⁷⁰

There's no question that luxurious sharkskin is the favored fabric this fall. And there's also no question that you'll probably pay a good deal more for it than 53.70. Especially when it's as fine as this: smooth, lustrous, long-wearing wool in handsome shades of light grey, medium grey, navy, brown and olive. And when it's as well-tailored as this, in a newly-trim 3-button model with slim single-pleat trousers—TWO pair of them! And you certainly won't find it in a fuller selection, for we purchased this Budget Buy in sizes from 36 to 52, and in proportions for regulars, shorts, longs, extra-longs, portlies, and portly-shorts. How's that for value, from every standpoint!

**FRI. & SAT. ONLY!
WOMEN'S CORDUROY
DOUBLE-BREADED CAR COATS**

The classic corduroy car coat, here in a smart 3/4 length with a large mandarin collar and a double row of front buttons. And for extra warmth, there's a snug fake-fur lining, plus a knit inner collar and wristlets. Astro blue, Burnt gold, olive and red; sizes 8 to 18.

**BUDGET BUY
SPECIAL 17⁹⁹**

**FRI. & SAT. ONLY:
BOYS' PILE-LINED CORDUROY
PARKA, ATTACHED HOOD**

New drop-shoulder styling with front and back yoke, knit cuffs and collar, two pockets and a zipper front. The lining is snug Orlon pile. Lodens, bark, tan; sizes 6-14.

**BUDGET BUY
SPECIAL 13⁹⁹**

**FRI. & SAT. ONLY:
FAMOUS MAKER ALPACA—
STITCH WOOL CARDIGAN**

Luxury-look sweaters of pure worsted wool in an alpaca link stitch. Classic V-neck style with six-button front, rib-knit waist, and intarsia stripe panel. Black, grey, olive, charbrown; sizes S, M, L, XL. Navy in S, L, XL.

**BUDGET BUY
SPECIAL 10⁹⁹**

Indonesia Entering Most Crucial Period of Development

JAKARTA (AP) — Indonesia is entering what could be the most crucial period of its development since it declared its independence 18 years ago.

Competent observers say the time probably has never been more ripe for an all-out effort by Indonesian leaders to pull this Southeast Asian country up by its bootstraps — with some foreign help.

This thinking is based on:

1. The return of stability and security to the regions of the

BACKGROUND
OF THE NEWS

**SPECIAL
REPORT**

country which had been plagued by military rebellions since 1957, and years before by Moslem terrorists.

2. The end of the West Irian (New Guinea) crisis and its heavy drain on the nation's resources.
3. A clearing up of the political

situation—near chaos six or seven years ago—with President Sukarno and his "guided democracy" regime still firmly in the saddle. The Communist party, whose claimed membership of 2½ million makes it the biggest outside the Iron Curtain, poses a poten-

tial threat. But Sukarno keeps it at arm's length. An effective balance is provided by the 400,000-man armed forces under non-Communist leadership.

BIGGEST PROBLEM

The biggest problem now facing this country of 3,000 islands—with oil, rubber and other natural sources of wealth—is economic. Economists put the blame largely on the government's past preoccupation with politics at home and abroad.

A tentative step has been taken with the launching of an economic stabilization campaign. Must of it still is on paper, and it is possible the West Irian crisis might still be replaced by a similar

militant and costly confrontation with Malaysia over the Malaysia issue.

As in the case of West Irian, the United Nations has taken a hand in trying to bring about a peaceful Malaysia settlement.

The United Nations is to run a survey in Sarawak and North Borneo, the two British-ruled territories tabbed as partners of Malaysia and Singapore in the new federation. Sukarno has pegged his acceptance of Malaysia on U.N.-determined popular support for it in the territories, which border on his country.

Sukarno has embraced the concept of a loose confederation of Malay states. This would include

Malaysia and the Philippines, but with Indonesia as the biggest partner with the biggest voice.

WEST WELCOMES?

Western diplomats welcome the attitude Indonesia is displaying toward the staunchly pro-American Philippines, as well as other neighbors such as Thailand and Pakistan.

Those three belong to SEATO, the Southeast Asia Treaty Organization which always has been a dirty word in Sukarno's non-aligned dictionary.

One educated guess is that at least part of Indonesia's goodwill toward the West can be traced to a need for assistance in financing its economic program.

Economic experts note that Soviet-bloc credits—used chiefly for military equipment and nonproductive prestige projects such as Jakarta's huge sports complex—are not the kind needed to help shore up this country's shaky economy.

Runaway prices and spiraling inflation have made life grim for the average Indonesian, particularly on crowded Java island, which holds 60 per cent of the country's 100 million population.

Despite recent indirect devaluation of the rupiah to the rate of 315-1, Jakarta residents insist the black market rate of about 900-1 is more realistic. Only a few months ago it hit 1,250 to 1.

The typical wage earner finds half his monthly salary going to buy his staple, rice.

A new shirt is a luxury for a casual laborer, who gets the equivalent of 5 U.S. cents a day, when he can find work.

The government last May issued a set of sweeping regulations designed to increase production and exports, curb price rises and stem inflation.

Stabilization moves have led to a loan from the International Monetary Fund, which is making annual payments of about \$50 million available over a one-year period. At least six times that amount in foreign aid is hoped for, mostly from the United States.

But Officials Expect Surplus

Schools Have Deficit on Paper

The Oakland Schools record \$2,386,017 special education budget carries a \$354,320 deficit. However, the deficit only appears on paper and school officials even expect a slight surplus at the end of the 1963-64 fiscal year.

The county school board approved the special education budget and a \$280,953 general operating budget last week.

Financed from a county wide half mill levy, the new special education budget appears to be radically increased from last year's \$1,174,457.

This shows up only on paper, Dr. Kenneth W. Brown, deputy superintendent, explained that the illusion results from entitlements or money set aside to subsidize new special education buildings and equipment.

Entitlements are authorized programs for local school districts. The cost of the new facilities is divided between the county school board and the state.

The school board annually allows in its budget for all authorized or entitled programs, but the total number is never built in any single year because school districts add new special education facilities only when they are in a building program.

Entitlements are amounts set aside by the county school board to subsidize in full for building of rooms and equipping them," Dr. Brown added. "They also include those amounts of money required to operate special education rooms over and above state aid."

He said the county was liable for the difference in state aid and the total costs of the special education programs to the local school districts.

Dr. Brown pointed out that entitlements for buildings and equipment jumped from last year's \$234,330 to \$1,055,000 in the 1963-64 budget.

In addition, he said specialized services, which includes special education teacher salaries and supplies, increased from \$565,613 to \$887,000 in the new budget.

The deputy superintendent said the actual entitlements paid out each year averaged \$300,000, or roughly 15 rooms.

Specialized services increased, according to Dr. Brown, because of salary increments, increased costs of teaching supplies and a reduction in state aid.

"In addition," he reminded, "the child growth in Oakland County is requiring we expand in some of the areas."

The special education budget incorporates receipts of \$2,041,697, which includes an estimated carry over of an \$853,960 surplus and state aid of \$77,284.

The half-mill levy is expected to bring in \$1,004,138, which is more than last year's \$980,102.

Brown Speaks, McNamara Listens

Young 'Brain' Worries Arms Experts

WASHINGTON (NEA) — Key military nuclear scientists are concerned about the influence of 35-year-old Dr. Harold Brown on Defense Secretary McNamara and United States atomic defense.

Brown is the boy-wonder scientist, who at 33 leaped from the Livermore Radiation Laboratory to the top science spot in the Pentagon. He is in charge of Defense research and development.

He has close access to McNamara's ear. More than any other man, except McNamara himself, he probably has top influence on:

- What weapons will be developed.
- How they will be developed.
- What weapons will be killed—and when.

The scientists fear Brown has his head so deep in theoretical clouds that McNamara and the Department of Defense may make serious miscalculations in our nuclear defenses in the next few years.

They think Brown may be a genius theoretician but that he

DR. HAROLD BROWN

may lack common sense. That weakness could be disastrous in dealing with national defense.

They are especially worried over what will happen under Brown's leadership with the ratification of the partial nuclear test ban treaty, which makes testing of theory more difficult.

As one scientist puts it: "We've got to ratify the treaty. But then

we have to go into nuclear weapons development after the partial test ban with our eyes open."

'EYES HALF CLOSED'

They believe Brown and McNamara may be going in with their eyes half closed.

Specifically, these key scientists are concerned about full public or private statements by McNamara and Brown along the following lines expressed bluntly as though they were certainties: (They believe Brown is responsible for McNamara's nuclear statements as well as his own.)

1. That the U.S. is ahead of the Soviet Union in underground testing.

2. That the U.S. is ahead of the Soviet Union in small nuclear weapons.

3. That the Soviet Union is not ahead of the U.S. in antimissile capability.

4. That the U.S. knows as much as the Soviet Union about the effects of high level nuclear

bias on communications and radar systems in antimissile defense.

5. That such undetected cheat-

ing the Russian might do would not be of great value to them; that we can detect anything of any importance.

6. In building antimissile systems we can design around our lack of knowledge of antimissile nuclear blast effects on enemy missiles in space. We can also design around our lack of knowledge about what nuclear blasts would do to communication and radar systems.

7. We can test one-megaton bombs underground. We can estimate from one megaton explosions to build 35-megaton weapons based on those one-megaton tests.

8. We can accurately design radically new types of weapons, test small prototypes underground and know accurately whether full-scale models will work and what damage they will do.

The truth is—say Brown's critics—we don't know any of these things.

We don't know if the United States is ahead of the Russians in underground testing or small atomic weapons. We don't know

how much cheating the Russians will be able to do or how much they will learn from that cheating.

We don't know whether we can design around our lack of knowledge of nuclear explosions in space and our ignorance of their exact effects on communications and radar. We don't know that the Russians are not ahead of us in their knowledge of the effects of high level explosions.

You are in trouble when you try to go past two or three megaton calculations from a one-megaton device. When you get into radically new types of weapons you have even less of an idea how far your mathematical calculations can carry you accurately.

As one of the critical scientists puts it, "If you make flat assumptions like these that McNamara and Brown are making and base your entire nuclear defenses on them, then you can be in serious trouble." They have argued to this effect with Brown.

DIDN'T GET THROUGH

But they didn't think they got through to him.

One scientist who was formerly in industry pointed out that even new automobile models, which have been tested for thousands of miles on the proving ground, still develop unexpected bugs.

Some scientists disagree. One who works for Brown says: "The man is brilliant. Sometimes when I'm working on a problem my mind wanders away to thinking about what I'm going to have for dinner tonight or what I'm going to do this weekend."

But Brown, if he were working on a problem and you put a beautiful dancing blonde in front of him, he wouldn't even notice."

Thieves Steal! Wahoo!

JACKSONVILLE, Fla. (UPI) — Blake Livingston told police yesterday someone stole his stuffed wahoo, a fish 64 inches long, from his truck.

Pakistan, Red Chinese

Sign Airline Agreement

KARACHI, Pakistan (AP) — Pakistan today signed an air agreement with Communist China un-

der which Pakistan's commercial aircraft may pick up passengers at Canton and Shanghai en route to Tokyo.

The Chinese in turn can route commercial airlines to Pakistan.

Small Colleges Get More Recognition

NEW YORK (UPI) — At a national industry-education conference seven years ago, a little-known educator timidly asked for the floor.

Surrounded by leaders a big business and "big" education, the president of a tiny college in the hills of West Virginia had a question.

Dr. K. Duane Hurley of Salem College, of Salem and Clarkburg, W. Va., wanted to know: "How can small, nonregionally accredited institutions be helped if they have to have regional accreditation in order to get money and have to have money in order to get accreditation?"

Hurley pointed out that unlike most big schools Salem, and a good many other small colleges, admits to its student body one percent who ordinarily would not be eligible.

"If on a test some students show aptitude and if their recommendations are sound, we admit them," he said.

"We suffer from some people who say that anyone can go to Salem. But some of these students — those who go off to school who never got their feet off the ground or might be drop-outs from big schools — turn out to be our best students."

There's Little Chance for Private Romance

BLOOMINGTON, Ill. (AP) — When Mr. and Mrs. George W. Johnston went on a second honeymoon to celebrate their 40th wedding anniversary, 16 other people went along with them.

The couple and their three children, nine grandchildren and other relatives from Oklahoma, Texas, Illinois and Mexico got together for a reunion at Hot Springs, Ark., in honor of the event.

Since 1940 the number of dwelling units using natural gas for central heating has increased by more than 400 percent.

Youth Worker Opens Office in Waterford Twp.

Jim McFarland, Oakland County Juvenile Court caseworker, established an office this week at the Waterford Township Community Activities, Inc., building.

McFarland, who works out of the court's Protective Services Division, will be in Waterford each day except Tuesday, when he handles cases in West Bloomfield Township. Office hours are 8:30 a.m. to 5 p.m.

The caseworker deals mainly with youngsters whose offenses can be resolved at an unofficial level outside the court.

He works closely with the township's Youth Assistance Committee and with the juvenile offices of the police department.

Fruit Dessert Omelet

Dress up a summer's dinner with a "Nectarine Omelet" dessert. Combine diced fresh nectarines and sour cream, spread mixture on half the omelet, fold over and serve immediately with sprinkling of powdered sugar and garnish of mint sprigs.

Costs are rising. There's a shortage of Ph.D.'s. Small colleges are still crossed off the prospectus' student list in favor of "big" name schools.

The "selling points" of a small college? They are more flexible, there's less red tape, costs are relatively low (CASC colleges average \$1,200 per year), and adds Hurley, the small college seems to meet the demand of college.

PLEASANT GROVE, Utah (P) — Mrs. Neph W. Burgerer will look before she leaps after this.

Waiting on her porch to be picked up by friends, she climbed into the back seat of a car which came up the dead end street and turned into her driveway.

Remarkably laughingly that she didn't recognize the car, she suddenly realized she didn't recognize the occupants either. They had been using her driveway to turn around.

VICKI SUE McLAUGHLIN

Party Suits Animals to a Tea

All the animals were welcome at the tea party Wednesday at the Beach Road home of Mrs. William R. Walsh.

This may sound unusual until you know that the tea was given to honor assistants who will work at the annual antique show Sept. 12-14. Proceeds from this show go to support the Michigan Animal Rescue League.

Miss Georgia Hoyt, long-time Pontiac resident and ardent worker in the league, presided at the tea table.

The antique show and sale will be held in the Cranbrook School auditorium from 11 a.m. to 10 p.m. each day.

Garden Club Holds Meeting, Flower Session

The August meeting of the Lorraine Manor Garden Club, branch of the Woman's National Farm and Garden Club, was held Tuesday evening at the home of Mrs. Charles Carpenter on Fernbury Drive.

A short business meeting preceded a workshop where members made flower arrangements from dried and fresh material. Arrangements were judged by the members. The next meeting will be held Sept. 24 at the Lorberta Lane home of Mrs. Charles Cullen.

The Angora cat held by Mrs. W. H. O'Laughlin, East Iroquois Road, belongs to the Walshes and, like the collie, came from the Michigan Animal Rescue League shelter. Members attending the tea at the Walsh home will work at the organization's annual antique show in September.

Women Fight Fatigue With Several Methods

It's certainly no surprise to the housewife that she performs all day as a baby-sitter, cook, maid, chauffeur and purchasing agent, and is expected to be a fresh, delightful companion when husband comes home from work.

Achieving the latter day after day can be difficult and certainly takes some planning. Each woman has her own little secrets for doing

it. To learn them, a drug manufacturer conducted a spot check across the country and came up with some interesting answers.

One New England woman, the mother of four, says that her secret is to plan each day in writing, so she can allow at least 20 minutes of rest before preparing dinner. While her schedule does not always permit this, she does get the rest often enough to make it worthwhile.

A Florida mother of two teen-age girls says that, during the summer months, she takes a "heat break" almost every afternoon. This consists of a shower, a short rest and two aspirin tablets. Afterward, she reports, she is greatly refreshed for the remainder of the day.

FOOT METHOD
A Kansas mother of three, who is also president of her PTA, finds that changing her shoes several times during the day permits her to approach the evening with her husband without extreme fatigue. Podiatrists will tell you that when your feet hurt, you hurt all over.

A California housewife who is fortunate in having a swimming pool, takes a dip just before dressing for dinner, which leaves her refreshed for the evening hours with her lawyer husband. She says that this is especially helpful on days they are going out.

A Minnesota mother combats day-end fatigue through her eyes. Right after dinner, while her daughters do the dishes, she lies down with a cotton pad soaked in cooling cologne on each closed eye. Afterward, she is ready for a pleasant evening with her family.

A Texas mother finds that soft music, away from everyone else, for a short time is all it takes to revive her. For her, "togetherness" is wonderful, but there comes a time at the end of each busy day when she must have some "aloneness."

The important thing to remember is that each housewife really lives two lives, one as a mother and the other as a companion to her husband.

She should make certain that she is mentally and physically rested, to make a success of both.

Blot Silk Stains; Don't Rub Them

Don't try to rub a spot or stain from your summer silks warns the National Institute of Drycleaning.

If you rub silk while it is damp, or even garments which contain silk, the surface fibers are easily broken or stretched.

This raises fibers which should lie flat causing a different light reflection which looks like a discoloration. When you spill something on garments containing silk, blot don't rub, advises the Institute. Then take it to your cleaner.

Future Bride to Be Feted

September bride-elect Jean Marie Johnson will be honored at a shower Friday evening in the home of Mrs. J. R. Key on Cresthaven Street.

Mrs. Hershel Johnson of Glenwood Avenue gave a recent shower for her niece. Among the guests were the bride-elect's mother, Mrs. Thomas Johnson of Fourth Avenue; Mrs. Les Edwards, Livonia; and Mrs. Key.

Seaman Robert Paul Simon of Norfolk, Va., is the prospective bridegroom.

Weekly Washout

Father Eyes Daughter's Eyes

By ABIGAIL VAN BUREN
DEAR ABBY: What do you do when your father gets out a bar of soap and tries to wash off eye make-up you don't have on?

Abby, this happens at least once a week. Sometimes I have to go to church with blood shot eyes, and

when my friends ask me what's wrong it's hard to think up something different every week.

I am almost 15 and I don't think my father realizes that I am beginning to look like my mother, who is very beautiful. I promise to take your advice.

GIDGET

DEAR GIDGET: Enlist the help of your beautiful mother to convince your skeptical father that you are for real.

Pontiac Music Teacher to Be Honored

A music instructor in the Pontiac Public Schools will be among 33 teachers and educators honored during Teachers Day ceremonies at the Michigan State Fair tomorrow. All teachers and educators will be admitted free until 3 p. m. on this day.

Rosamond Haerberle, West Huron Street, will receive her award in the Music Shell. A reception in the adjoining Symphony Gardens will follow.

Miss Haerberle received her education at Kansas State University and Northwestern University. She taught eight years in Kansas schools and three years in Waterford Township before coming to Pontiac in 1947.

Active in many organiza-

tions, Miss Haerberle has been president of the Pontiac Women's Chorus, the Pontiac Business and Professional Women's Club, the Pontiac City Panhellenic and the Pontiac Federation of Teachers.

In addition, she has held district offices in the Michigan Business and Professional Women's Club.

MISS HAEBERLE

Upholstery Fabric

A tightly-woven fabric wears better for upholstery than a loose weave, even if the material is heavy.

Test Dark Corduroy for Lasting Color

It's a good idea to apply a simple color test when purchasing dark-colored corduroy.

To test for color-permanence, take a white handkerchief and rub the surface of the fabric briskly.

If the color comes off, you can expect it to rub off on other clothing. And, if the color rubs off when dry, the problem will be worse when the material is being laundered.

Stewardess Training Is Not All Glamour

GILBERT YOUTH SERVICE

MIAMI, Fla.—When Allison Jones and Tove Jensen signed up for work as airline stewardesses, they were lured not as much by the appeal of the high blue yonder, but by two very practical considerations.

Tove, whose home is in Copenhagen, Denmark, wanted to see America without having to pay the heavy costs of a traveler. Allison, a graduate of Spring Hill College in Mobile, Ala., wanted pay checks that would finance her graduate work in medical illustration.

So the two serious-minded girls enrolled for the five-week training course here and began to learn their hostess chores by apprenticing aboard both a jet and a local hedge-hopping Convair.

"We really work in our course," says vivacious Allison. "We have to memorize all the parts of the aircraft, and practice emergency procedure till we can do it automatically."

"We're being scrutinized all the time we're here. Even the bell boys watch us to be sure we're clean-living girls. We must get 90 per cent in our tests, stay beautiful all the time, and get along well with other people."

Tove chimes in. "At least we didn't get washed out. One girl came here with eight suitcases. She must have thought it was going to be a fashion parade. She didn't last long."

Allison's family at first didn't share her enthusiasm for an airline career. "Mother burst into tears when I told her. But now she's changed completely, and is all for it." Tove, who's been on her own since she left Denmark to work as a maid in this country, is a long-range planner with a very practical head on her shoulders.

"I like variety, and in this work, every day will be different."

"bare feet
are
healthy feet"

THE *Wikler* SHOE
by Buster Brown.

We believe that a youngster's toes need freedom to grow, flex, and exercise fully. That is why we state, frankly, that the healthiest thing a child can do is go barefoot. But since that's impractical, we suggest The Wikler Shoe by Buster Brown—a fun-shaped shoe which lets children "go barefoot with shoes on." It allows toes plenty of room to exercise normally and gives your child the best possible walking start.

Return to ABCs Is Needed to Correct 'Teaching Failure'

By GAY PAULEY
UPI Women's Editor
NEW YORK — Johnny can't read because modern education doesn't saturate Johnny with ABC's as a starter, contends one organization out to correct what it calls an educational failure.

The organization is the Reading Reform Foundation, a two-year-old non-profit group whose purpose is to restore the phonics, or alphabet, method of teaching reading. That is, learning to recognize words by the sounds of the letters, instead of the "looksay" method — recognizing words by their shapes.

"There is every reason to believe that the reading program in American schools is just about as bad as it can get," Arthur S. Trace Jr., told the second annual conference of the foundation.

Trace is author of "What Doesn't," an English professor at John Carroll University, a Roman Catholic school in Cleveland.

"Certainly," Trace contended, "one does not have to look far for evidence that the reading skills of today's American ranges in general from bad to abominable. Never before have so many students spent more time learning to read so badly."

Trace told the conference that the causes are, first, the method of teaching reading, and second, the material used for teaching it, namely the "basal" readers.

Trace said that some 30 basal reader series on the market last year were "all almost unbelievably bad." "The most deplorable feature of them is a vocabulary control apparatus so tight that these readers assume that students will learn only about 300 words a year during the first three or four grades," said Trace. "The vocabulary of a 'basal' reader in the fourth grade rarely exceeds 1,500 words — about one-fourth of their speaking vocabulary before they enter kindergarten."

"This process can only be described as programmed retardation," he continued. "The contents, with this restricted vocabulary, are generally to an excruciating degree insipid, inane, unimaginative, trivial, pointless, dull, and otherwise devoid of either profit or pleasure."

Fortunately, he said, by fall at least two new series of elementary school readers will be available which will be "vastly superior to the Dick and Jane type reader," or the basal.

Dr. Charles C. Walcutt, an English professor at Queens College, traced the history of substituting look - say approach to the ABC method. It began 40 or so years ago, he said, when the reading theorists "decided erroneously" that rapid adult readers, who take in from four to six words at a single "fixation" of the eye, must see these words as total shapes — that is, as outlines of silhouettes.

So, he said, emerged the method of teaching whole words before letters, and before children learned that

letters are symbols of sounds.

Here lies the root of the whole evil, he continued. When a child sees the word "bowl," looks at the picture, and says "dish," he is praised for "reading for meaning." And this phrase, "reading for meaning," has become the battle cry of the defenders of the status quo, said Walcutt.

The look-say method became entrenched in the elementary system, the reformers said. But Dr. Trace said that a "tremendous grass roots rebellion has sprung up against it."

About one-fifth of the nation's schools already have adopted the alphabet - phonic system, said Watson Washburn, founder and president of the organization.

Washburn, 69, a New York lawyer and former tennis star, said he became concerned about reading problems during the education of his grandnieces several years ago. He said the foundation now had a national

advisory council of nearly 200 educators, authors, and commentators.

The foundation offered these statistics to support its program:

Thirty-five per cent of U.S. children are seriously retarded in reading; 40 per cent are deficient in reading; 25 per cent do not read as well as they could if properly taught.

In contrast, Russian children eight or nine years of age, taught alphabetically, are several years ahead of ours in reading. Their vocabulary is 10,000 words and they use a dictionary. The average American child of the same age recognizes 1,500 words and the majority cannot use a dictionary.

Trace said that defenders of the look - say method of teaching now insist they do teach phonics. "And indeed they do," he said. "But instead of letting the student in on all the secrets of the sounds of the letters during the first semester of the first grade, as any good phonics program would do, the phon-

ics of his language is doled out to him in bits and dabs over a period of three or four years."

Said Trace, "The abandonment of phonics as the basic method of teaching reading constitutes perhaps the greatest abuse of common sense in all the annals of American pedagogy."

Fountain pens were not practical or in common use until sometime after 1880.

An average American drinks more than 2.5 cups of coffee per day.

Tuesday Tee Golfers Hold Lunch, Election

Following a round of golf Tuesday at the Pontiac Country Club, members of the Ladies Tuesday Tee Golf League held its annual Flag Day luncheon and election of officers.

Top honors for the day's events went to Mrs. Jack Beedle, Mrs. Thomas Zielenki and Mrs. LeRoy Johnson.

Mrs. Euell Smith was elected president of the group. Other new officers for the coming year are Mrs. Calvin

C. Warner, vice president; Mrs. Donald Neel, treasurer; and Mrs. A. J. Latta, secretary. Mrs. Zielenki was re-appointed golf chairman.

Social chairman Mrs. William Sparks announced at the meeting that the golf banquet will be held Sept. 17 at the K-Fall Lounge. Assisting in preparations will be Mrs. Albert Anselmi, Mrs. Bertha Lampkin, Mrs. Henry L. Grace and Mrs. Arnold Bentham.

His Taste Far From Fiancee's

By The Emily Post Institute
Q: Since I have been engaged, my fiancé has given me many presents, usually costly, but things I do not particularly care for.

When he gave me my engagement ring, which I wasn't asked to select, I pretended to be crazy about it, although it is not what I would have chosen.

Now he has given me a watch for my birthday and I am so disappointed I don't know what to do. It looks exactly like my old watch, and I've had my heart set on a different one for a long time.

I certainly don't want to hurt his feelings, but could I possibly tell him that I do not like it and to please exchange it; or must I keep it and pretend I like it?

A: If the watch can be exchanged and you explain to him that while the watch is lovely it is so much like the one you already have, his feelings should not be hurt if you ask him to exchange it for another.

Q: My husband and I were invited to the wedding and reception of a close friend. We had planned on going together but last week I was taken ill and the doctor has advised me against going.

I know my husband would like to go but feels that people will think it strange if I do not accompany him and might even think we are not getting along together. Under the circumstances, would it be proper for him to go alone?

A: If he does not mind going without you, it would be entirely proper for him to go alone. He would of course tell people why you are not there and how much you regretted not being able to come.

Q: I was severely criticized lately by a relative for making the announcements of my daughter's marriage, stamped by an automatic stamp machine, rather than affixing regular postage stamps. I was told that it was in very bad taste. Will you please give me your opinion?

A: I'm sorry, but it was in very bad taste.

The correct wording and addressing of wedding invitations and announcements are described in the new Emily Post Institute booklet entitled, "Wedding Invitations and Announcements." To obtain a copy, send 10 cents in coin and a self-addressed stamped envelope to the Emily Post Institute, in care of The Pontiac Press.

The Emily Post Institute cannot answer personal mail, but all questions of general interest are answered in this column.

Zipper's Traveled

U.S. Wage Plan Helps Avoid Bankruptcy

By MARY FEELEY
Consultant in Money Management

It's heartening to note that the personal bankruptcy rate has been slowed and may well continue to diminish, because more people are learning about the Wage Earner's Plan — known also as Chapter XIII of the National Bankruptcy Act of 1938.

At a recent International Consumer Credit Conference, a banker made the point that credit men are agitating for wider application of this plan.

For the benefit of those readers who aren't aware that this legislation is on the books, let me sum up briefly:

Under this plan, the insolvent wage earner can avoid bankruptcy. He is allowed to make regular payments — based on what he can actually afford — to a specified authority, who then distributes these funds among his creditors.

Thus the creditors eventually get paid and the debtor is given the opportunity of fulfilling his obligations — instead of just writing them off by filing bankruptcy.

The wage earner's salary cannot be garnished while this plan is in effect, and creditors who wish to repossess merchandise not paid for must apply to the court.

Since I discussed the Wage Earner's Plan in this column some time ago, I have received many letters from readers who said they could not get hold of the proper form to file, in order to obtain the aid this piece of social legislation offers.

Form 1058A should be obtainable at large stationery stores. I scouted my own area in the interest of research and found one promptly.

If you can't, you might try contacting a bar association — city, county, or state. A lawyer, moreover, can help you make sure you fill out the form correctly, and what fees are involved.

community adult education facilities. Usually there is a very true, she can feed the four of small fee which can easily be handled on almost any budget.

Dear Miss Feeley: I understand a qualified student can get a government loan. Does this same provision apply to an adult?

I would like to go to school to take a business course. Can I apply for this loan or is there some other government loan I could get?

Mrs. L.R.H., Oakland, Calif.

Dear Mrs. H.: To apply for this type loan, you must be a full-time matriculated student in a degree program at the college level.

However, business schools may have loan arrangements in your area, so why not inquire?

If you simply want a means of earning an income, and a diploma is not essential, you might take some courses through your

U.S. Department of Agriculture. Usually there is a very true, she can feed the four of small fee which can easily be handled on almost any budget.

And with a cautious approach to other items, your budget should survive this medical emergency.

For instance: trim your wife's weekly allowance to \$49.60. This would allow \$27.10

With a boy 14 and a girl 10, how can we manage? I've been accustomed to giving my wife \$60 a week, to cover food, laundry, clothes, and personal expenses for her and the kids.

But we're going to have to tighten up. The point is, where?

D. E. L. Long Island, N. Y.

Dear D.E.L.: When a family plan needs surgery, the logical place to start operating is on the food allotment.

The food dollar has a lot to give and bounce. If your wife will aim at the low-cost food list per week, as estimated by

for food; \$4, laundry, supplies, etc.; \$5, clothes; \$10, personal expenses; \$3.50, children's personal expenses.

Hold family weekly expenses to \$33.60, which you should bank \$4, telephone; \$5.10 insurance; \$3.50 savings.

Now for your personal weekly expenses, and others: \$15, including car; \$2, miscellaneous; \$8, medical; \$1, newspapers, etc.

\$3.50 additional for car operation. That's \$28.50.

You'll note, that I've counted the dimes as well as the dollars, which is what you'd better do too.

BUGGY-WHIP CORD PARKA & PANTS
As seen in Seventeen

Zipper's Traveled

The zipper has traveled a long way since Whitcomb L. Judson invented it. Nylon and polyester cord zippers have come in very strongly, and there is even a zipper with a bar tack making it possible for the home sewer to snip the zipper, to any desired length.

Treat Clothesline

It pays to "pre-treat" a new rope clothesline by soaking it in hot soap or detergent suds. Then rinse and string it up wet, so it will shrink taut as it dries.

For Tall Woman

A tall, slim woman should avoid vertical lines. She can wear big accessories and bright colors or a contrasting top and bottom.

Newest Boots

Women can look for a winter of sloshing through snows in suede, calf, snake, alligator or rubber boots — all coordinated with costumes.

Expectant Parent Classes Set

Expectant parents who want to learn about childbirth and how to care for their baby can do so by taking Expectant Parent Classes offered by the Oakland County Department of Health.

Registrations will be accepted by phone at the health department offices in Birmingham, Pontiac and Royal Oak, Sept. 1-17.

These classes, which are attended by hundreds of expectant parents each year, will answer many questions such as:

What does it mean if I am Rh negative and my husband is Rh positive?

How can I tell when my baby is hungry — he cries for everything?

How many diapers shall we buy?

CLASSES

The series consists of eight classes and covers such topics as mental health of the family unit, growth and development of the baby prior to and immediately after birth, labor and delivery, and feeding and bathing of the infant. A conducted hospital tour is arranged for all parents.

The Oakland County Medical Society, various adult education departments and the health department jointly sponsor the classes which are taught by public health nurses.

* * *

Anyone who fails to register by phone may register in person 6:30-7:30 p.m. Sept. 17 at one of these health department offices: 1200 North Telegraph Road, Pontiac; 151 Martin Street, Birmingham; and 2401 East Fourth Street, Royal Oak.

Classes will begin in Pontiac and Royal Oak the week of Sept. 23 and in Birmingham the week of Sept. 30.

For further information, call the local health department office.

Golf League Meets, Has Coffee Hour

The Women's Silver Lake Golf League combined business and pleasure in the final monthly meeting and coffee hour held Tuesday at the Shawnee Court home of Mrs. Floyd A. Levely, president.

Officers for the coming year are Mrs. Levely, president; Mrs. William DeBeaubien, vice president; Mrs. Floyd Poren, secretary; Mrs. Glen Bartle, treasurer; and Mrs. Paul Castleberry, sergeant-at-arms.

* * *

Preceding the election, members played their 1st, 2nd, 3rd and 4th rounds. Mrs. Elmer Partridge, first flight; Mrs. Edith Fefel, second flight; and Mrs. Paul Spavin, third flight. Mrs. Jacob Martz won low putt honors.

Mrs. Elmer Johnson, social chairman, announced that a Doe Day, which includes golf and luncheon at the Waterford Hill Country Club, will be held tomorrow.

Understand Drycleaning

Many types of soil are not removed from fabrics by water. Thus the need for drycleaning which removes oily and greasy soil more readily than water.

Cleaning a garment in a drycleaning solvent rather than water also has the advantage of minimizing shrinkage, preserving tailoring details, preserving many of the colors and finishes applied to modern day fabrics.

After your garment has been properly cleaned and finished, rotate your wardrobe. This gives garments a chance to relax and reshape just by hanging.

There are 270 FM radio stations this year compared with 70 in 1955. Sales of FM sets has soared from \$30,000 to 3 million during the same period.

Mildew Damage
Summer clothes should be stored in a dry place to avoid mildew damage. They should

also be packed loosely so that there will be fewer wrinkles when it comes time for wearing them.

Restore Leaky Hose
Put pliable roof paint on a leaky garden hose to restore it.

How to Keep Young

By JOSEPHINE LOWMAN

Q. "What is the normal weight for a woman 45 who is 5 feet tall?"

A. Most women gain weight as they grow older. However, this is undesirable. The weight which is right for you at the age of 25 is the weight you should keep all of your life. Also, bone structure makes a difference.

A woman who is 5 feet tall and has a medium frame should weigh from 101 to 113 pounds. If her frame is small she should weigh from 96 to 104 pounds. If hers is a large frame between 109-125. This is with 2 1/2 inch heels.

Q. "I am 29 years old and have three children. All three were bottle babies. After each child, I noticed that my bust measurement had decreased. I would like to know if there is any reason for this and also if there is any way to increase the size of my bust."

A. Since you did not nurse your children I do not know why your bust should have become smaller, except for one reason. The busts enlarge during pregnancy. If they are not properly supported with special brassieres they may lose tone and sag. The only way to in-

crease your busts is to gain weight.

However, you can make them more prominent and increase your bust measurement by developing the underlying chest muscles. If you or any of my readers would like to have my exercises for this send 10 cents and a stamped, self-addressed envelope, with your request for "Your Bust" to Josephine Lowman in care of The Pontiac Press.

Q. "Will you please give me an exercise for reducing a double chin? Also is there a cosmetic to help tighten up this area?"

A. The following one is the best I know. Stand tall. Lower your head backward as far as comfortable. Keep your head in this position while you chew in an exaggerated way. Open your mouth very widely when you chew. There is a product which tightens the skin temporarily and is used under make-up.

Q. "My hands look very old with veins sticking out. I feel terrible when I am dressed to go out in the evening because my hands look so much older than I am."

A. Unfortunately, large veins in the hands are an inherited characteristic, and there isn't much we can do about them. Some women of 70 have old faces and youthful hands, while others have youthful faces and old-appearing hands. The youthful face is the better blessing but don't sit on your hands!

In other words, do not allow them to make you self-conscious. It is a good idea to keep them out of hot water as much as possible and be sure to use a good hand cream or lotion to keep the skin soft.

(The Register and Tribune Syndicate, 1963)

She Worked With Vigah

Sometimes a simple spot on your clothing may seem too small to have the entire garment cleaned. But still it's noticeable. This is how Oregon housewife Jane Goodsell handled this problem as reported to the National Institute of Drycleaning.

First she saturated the spot with cleaning fluid. The spot disappeared. She waited for three or four minutes. Then took a peek. Something was there again. But it was "different and bigger than the original spot."

Then she really went to work. "First water, then soap and water, then practically anything from dry oatmeal to lemon juice." Then she phoned her drycleaner. "The spot is now large enough so that I can send the dress with a clear conscience," she said.

Double Bath Mats

Getting more mileage out of household fabrics is a hobby. For instance, you can make bath mats reversible and extend their life by sewing a Turkish towel on the bottom side.

NO RIDE FOR BRIDE — Josef Mathenge, prominent Kenya political figure, is given a colorful sendoff as he and his bride, Anastasia Wangari, personal secretary to Prime Minister Jomo Kenyatta, walk, following wedding recently in Nairobi.

Sukarno Poses Threat

Birth of Malaysia Is Doubtful

By PHIL NEWSOM
UPI Foreign News Analyst

The flags were ready and the musicians rehearsed to welcome on Aug. 31 the peaceful birth of a new nation of 10 million persons to be known as Malaysia.

But the chances were increased today that it may be a still-born birth.

Malaysia is or was a dream-child of the British who hoped to weld into a single anti-Communist nation former Southeast Asia holdings.

NEWSOM comprised of Malaya, Singapore, North Borneo, including the Sultanate of Brunei, and Sarawak.

The capital would be Kuala Lumpur in presently independent Malaya.

Unquestionably in favor of federation were Malaya and Singapore.

Recent elections in North Borneo and Sarawak had con-

vinced the British that these areas also wished to join.

Despite occasional seemingly conciliatory gestures, unalterably opposed was President Sukarno of Indonesia and less violently, the Philippines, with an historic but scarcely tangible claim of its own on North Borneo.

Sukarno charged the plan for Malaysian federation was a Western plot to surround Indonesia and threatened it with a "confrontation" similar to that by which he at last wrested Western New Guinea from the Dutch.

SITUATION EASED

The situation eased after a Tokyo meeting between Sukarno and chief federation mover, Prince Abdul Rahman, prime minister of Malaya, and seemed to ease still further after a Manila meeting which also included President Diosdado Macapagal of the Philippines.

There the three initiated agreement on a loose confederation which would include the new na-

tion and which would be called Maphilind.

So far as Sukarno was concerned these turned out simply to be delaying tactics.

In the Maphilind agreement was a clause calling upon United Nations Secretary General U. Thant to send teams into North Borneo and Sarawak to determine whether elections there had been "properly" conducted.

The declaration also referred to British and American bases in the area as "temporary."

The British reluctantly, and Thant with the express reservation that his findings should be final, agreed to the inspection.

But back at home in Jakarta, it also became obvious that Sukarno had not budged from his previous stand in opposition to Malaysia.

Demonstrators in Jakarta, observing the date of Indonesia's proclamation of independence from the Dutch, carried banners attacking the federation, Britain and Prince Abdul Rahman.

The Indonesian Army made clear it stood ready to train guerrilla fighters who would infiltrate North Borneo and Sarawak. Clandestine radio in Java poured anti-Malaysian propaganda into North Borneo.

Anti-federation demonstrators met U.N. team members in Sarawak.

IN FULL FORCE

As British forces in Singapore and North Borneo remained on the alert and naval vessels cruised off shore, it was plain that Sukarno's "confrontation" was on in full force.

And the birth of Malaysia, already set back by at least a month, could be delayed indefinitely.

Taxi Drivers Polled

MONTGOMERY, Ala. (UPI) — Local taxi drivers were being polled today by officials at Maxwell Air Force Base to determine if they will drop the color bar for servicemen.

School Named for General Lee to Be Integrated

BATON ROUGE, La. (AP) — Robert E. Lee High School, named for one of the great generals of the Civil War, will be among the first four high schools to integrate in this Dixie city.

School officials enrolled 28 Negroes in the 12th grade of four formerly all-white schools Wednesday. The 22 girls and six boys will start classes next Tuesday.

In New Orleans, 309 Negroes registered to attend 27 desegregated public schools in grades one

through four. They apparently include 107 Negroes who attended 26 desegregated schools last year in the first three grades.

And a federal judge in New Orleans Wednesday ordered white high schools in south Louisiana's Terrebonne Parish to admit Indian pupils to 11th and 12th grades next month. Parents of 52 Indian children objected to segregated classes.

Girl, 7, Killed by Auto

HOLLAND — Seven-year-old Barbara Burek was struck and killed by a car yesterday on M40, seven miles southeast of here. Allegan County sheriff's deputies said the girl darted in front of the car near her home.

Malaya Agrees to Stall of Unity

KUALA LUMPUR (AP) — Malaya wealth Secretary Duncan Sandys agreed today to postpone from Aug. 31 to Sept. 16 the formation of Malaysia, a federation to unite Malaya, Singapore, North Borneo and Sarawak.

Malaya, senior partner in the proposed Southeast Asian union, indicated its decision resulted from word received from U.N. Secretary-General U. Thant that a United Nations survey of opinions in North Borneo and Sarawak would be completed Sept. 14.

The U.N. survey on whether the people of the two British territories want to join the federation was requested by the Philippines, Indonesia and Malaya early this month.

President Sukarno of Indonesia, who had objected to formation of Malaysia on the ground that it was an excuse for continuing British colonial rule, insisted on the survey, Malaya gave in to pressure from the Philippines and Indonesia.

Malaya's king, the Yang Di Pertuan Agong, signed the proclamation postponing formation of the federation.

The proclamation had been expected since British Common-

wealth Secretary Duncan Sandys began conferences here with Malayan leaders on the issue.

In London, the British government hailed the postponement, describing it as a positive step that will end uncertainty in the troubled Far East.

In a note attached to the proclamation, the Malayan government emphasized that Malaysia will be formed regardless of how Indonesia and the Philippines receive the U.N. report.

Meanwhile, about 200 Chinese residents of Sarawak, shouting anti-Malaysia slogans, hurled wads of paper at a truck carrying the U.N. fact-finding team into the oil refinery center of Miri.

Look Out, Musicians — Automation's Coming

NEWCASTLE, England (UPI) — Pianist Alan Blomerey refused last night to play a commercial television program, to the accompaniment of a robot drum because it was "a threat to musicians."

The drum, which can beat out a samba or a cha-cha-cha, played alone.

Junior Editors Quiz on CHEMISTRY

WATER VAPOR
BOILING POINT
AIR
(THESE ARE NOT IN SCALE)
PRESIDING POINT
ICE
BOILING POINT
LIQUID AIR

I POURED LIQUID AIR INTO A PAN — NOW I'M HOLDING A SOAP BUBBLE OVER IT —

HEY! THE BUBBLE'S TURNED TO ICE!

QUESTION: What is liquid air and what is it used for?

ANSWER: We all know how water (left hand picture) when heated enough, boils and turns into invisible water vapor which condenses, when cooled, into steam and clouds.

Air (next right) like water vapor, is invisible, but it is nevertheless the gaseous form of certain substances, mostly oxygen and nitrogen. The reason we find little liquid air around is that liquid air's boiling point, the point where a liquid turns into a gas, is extremely low.

This means that liquid air is extremely cold — about 312 degrees below zero.

Oxygen and nitrogen are valuable substances, and one of the ways manufacturers can obtain them in usable form is to cool air down so far that it turns into liquid and the oxygen and nitrogen can be recovered in liquid form.

By putting the air under high pressure it will change to liquid more quickly.

Liquid air is strange stuff. If poured out in a pan it will start to simmer and boil, because the surrounding air is so much warmer.

If you dipped your finger in it for only two seconds, the extreme cold would mean you'd lose that finger.

FOR YOU TO DO: There are strange experiments, like the one involving the soap bubble, which scientists make with liquid air. Read about them in an encyclopedia.

Plan Meals for Labor Day Now

By JANET ODELL

Pontiac Press Food Editor

The last big holiday weekend before fall is almost upon us. As you shop this week perhaps you are planning meals for three days of company.

Want some new ideas? We're full of them.

A week ago on the last lap of our vacation we stopped for a little leisurely breakfast at Schuler's Restaurant in Marshall. One of the juices on the menu was a cranberry-orange combination. We found the following recipe in our files since then.

Orange Cranberry Cooler

1 can frozen orange juice concentrate, reconstituted
1½ cups cranberry juice cocktail

¾ cup lime juice
3 tablespoons granadine (optional)

Combine all ingredients. To serve, pour over crushed ice in tall glasses. If desired garnish with lime slices. Makes 6 servings.

(All the following recipes may be prepared in advance, thus

saving you time to be with your family or guests.

For an appetizer on the patio or even at a picnic, one featuring fresh raw vegetables and a dip is ideal. The dip in this case is made with anchovies.

Creamy Anchovy Dip

1 flat tin (2 oz.) anchovy fillets
Salad oil
¾ cup evaporated milk
¾ cup wine vinegar
1 teaspoon salt
¾ teaspoon pepper
Dash of garlic salt
¾ cup coarsely snipped parsley

Drain oil of anchovies into measuring cup. (There will be about 1½ tablespoons.) Add salad oil to make ¾ cup. Pour into container of blender. Add anchovies. Measure and add remaining ingredients.

Blend for a few seconds until smooth. Cover and chill until ready to use. Makes 1 cup.

Chicken, being the inexpensive food it is, can star in a main course. Make up a chicken-mayonnaise loaf and tuck it away

CHICKEN-MAYONNAISE LOAF

in the refrigerator until meal time. A dash of curry perks it up.

Chicken-Mayonnaise Salad Loaf
4 cups finely-chopped chicken (about 1 lb. cooked chicken)
¼ cup French dressing

3 envelopes plain gelatin
2½ cups chicken broth*
1¼ cups chopped celery
¾ cup chopped pecans
1¼ cups commercial mayonnaise or salad dressing
2 tablespoons grated onion
¼ teaspoon curry powder
1 teaspoon salt

Salad greens
Thin cucumber slices, optional
Thin radish slices, optional
Mayonnaise or salad dressing

Combine chicken and French dressing; toss gently. Chill. Soften gelatin in ¾ cup cold chicken broth. Heat remaining 1¼ cups broth to boiling point. Add gelatin; stir until dissolved. Cool gelatin mixture until syrupy in consistency.

Add celery and pecans to chicken mixture. Mix 1¼ cups mayonnaise or salad dressing, grated onion, curry powder and salt; stir into chicken mixture. Stir in gelatin.

Four into an oiled 9x5x3 inch loaf pan. Chill until firm. Unmold on salad greens.

Garnish if desired with cucumber and radish slices. Serve with additional mayonnaise or salad dressing. Yield 8 to 10 servings.

*If chicken broth is not available, dissolve 3 chicken bouillon cubes in 1¼ cups boiling water.

Fried blueberries? You never

heard of them? Neither did we until we received the following recipe. Here's the story behind it.

The matriarch of a large family once bragged that there was no way in which her nine children and twenty-one grandchildren didn't love blueberries—and she had tried them all! Some joker within hearing distance asked "Even fried?" Even fried, came the reply, followed by the ad lib invention of the recipe.

Fried Blueberry Sandwiches

2 cups fresh cultivated blueberries
¼ cup granulated sugar
32 slices moist, fresh white bread

Rinse blueberries in colander and let drain. Sprinkle berries with sugar and set aside.

With sharp knife, cut off all bread crusts. Place two slices of trimmed bread on a board with two of the edges slightly overlapping. With a rolling pin, press and roll slices until bread is flattened to a dough-like consistency and the edges are joined to make a long rectangle.

Bring together the two ends of the rectangle, overlapping them about 1-inch. With fingers, press the bread-dough together to seal.

With fingers or tines of a fork, press or crimp one end tightly together to form a pocket. Holding bread casing in one hand, fill with as many sweetened blueberries as possible without bursting.

Seal last open end by pressing bread together with fingers or fork. Continue with remaining bread slices until 16 filled cylinders are ready.

Fry in butter in hot skillet, turning to brown and crisp on all

sides. Serve warm with sour cream. Yield 16 "sandwiches."

Butterscotch-Orange

Sauce Toppings Ice Cream

Add a superb touch to simple cakes, ice cream, or puddings with New Orleans Butterscotch Sauce.

Melt 2 tablespoons butter in a skillet, add ½ cup pecans, and cook over low heat until lightly browned. Stir in one 6-ounce package (1 cup) butterscotch morsels and cook until melted. Add 2 tablespoons water, ¼ cup orange liqueur and stir until smooth.

Olive-Sardine Filling Is Good

Get into the swing of summer with "Olive-Cheese-Sardine Sandwiches." These open-faced treats are fancy enough to serve as hors d'oeuvres if you cut them into bite-size appetizers.

Include whole ripe olives on your relish tray, too. Make them glisten by rolling them lightly in a little olive or salad oil.

Olive-Cheese-Sardine Sandwiches

3 large canned sardines
¾ cup ripe olives
¾ cup cream cheese
¾ cup finely chopped celery
¼ teaspoon salt
¼ teaspoon lemon juice
Dash paprika
¼ cup mayonnaise
4 tablespoons pickle relish
Buttered toast

Cut olives into small pieces. Cut sardines lengthwise into halves; remove bones. Mix together olives, cheese, celery, salt, lemon juice, paprika and mayonnaise. Combine pickle relish and remaining mayonnaise.

Place each sardine half on a slice of toast. Heap olive mixture onto sardines and top with pickle relish mixtures. Makes 6 sandwiches.

Lamb Steaks Good on Grill

Thick, juicy lamb steaks, charcoal broiled until crusty on the outside and fairly pink on the inside, are delicious eaten in the great quidors or served on your best china for an elegant on-the-terrace meal!

Since lamb steaks are a relatively new cut of lamb, you may not be as familiar with them as you are with chops, roasts and ground lamb. They have a wide variety of uses.

For wise buying, select a large leg of lamb and ask the marketman to cut steaks from the leg. Roast the remainder of the leg for another meal. Use lamb left from the leg in croquettes, sandwich fillings, salads, casseroles, soups or creamed dishes.

The young, tender Grand Country Lamb now in your markets is a very young meat, and consequently a very clean meat. There's almost no fat marbling in the lean.

In fact, when you trim the fat off the edges, lamb is one of the leanest meats you can buy. And that means it's low in calories yet very high in protein and rich in valuable minerals and vitamins!

Lamb Steak Special
2 tablespoons salad oil

1 tablespoon vinegar
2 teaspoons Worcestershire sauce
1 clove garlic, crushed
1 teaspoon salt
1/4 teaspoon pepper
1/2 teaspoon celery seed
2 lamb leg steaks, about 1-inch thick

Combine oil, vinegar, Worcestershire sauce, garlic, salt, pepper and celery seed; mix well. Add lamb and chill 2-3 hours, turning lamb occasionally. Broil lamb 3-5 inches from source of heat, or cook on outdoor grill, 10-12 minutes. Turn lamb and cook 10-12 minutes, or until lamb is desired degree of doneness.

Congress has been told that more than half the nation's public elementary school children, an estimated 10 million, attend classes in buildings lacking libraries.

LAMB STEAK—Serve Grand Country Lamb steaks with tomato sauce, corn with mushrooms and fruit salads for a tempting dinner.

Rainbow Meals Achieved With Food Coloring

Newest Hollywood fad in entertaining, according to CBS Radio "Fashionscope" hostess Edith Head, is the "Come to a Pink Luncheon" . . . or a blue breakfast . . . or an orange tea.

Hostess and guests should wear at least one item of dress in the theme color. Table linens and accessories to match, of course. And the food?

Two sample menus . . . For a Pink Dinner: creamed chicken (use pink food coloring) on a bed of pink rice; tomato

aspic with pink mayonnaise; pink colored cauliflower; pink hot rolls, strawberry ice cream with pink cake.

For a Yellow Breakfast: compote of oranges, grapefruit, peaches, melon; corn muffins hollowed out and filled with scrambled eggs and mushrooms, re-topped and covered with cheese sauce; hot or iced tea.

With the aid of food colorings, Miss Head has entertained in red, yellow, orange, blue, green and pink.

So far, purple has her completely stumped.

Alaskan Cooler Starts With Frozen Grapefruit

Alaskans are already cool, but don't let that prevent you from making an Alaskan Cooler. Place an unopened can of Florida grapefruit sections in the freezing compartment of the refrigerator; freeze until solid. When ready to serve, place under running water to loosen slightly.

Remove both ends of can, push out contents, and cut frozen grapefruit lengthwise into quarters. Place each quarter in tall glass, fill with chilled Florida grapefruit or orange juice and garnish with cherries.

Smaller Turkeys Are Fine for Barbecuing

Smaller turkeys are perfect for barbecuing; just thread a whole bird (about 4 pounds ready-to-cook) on the spit. For the most flavorful bird, allow plenty of time for the heat to penetrate thoroughly and cook until the leg and wings move very easily.

Larger turkeys, 10 to 12 pounds, can be barbecued on a revolving spit. Allow about 20 minutes per pound for these birds.

The cooking time will be considerably shorter if birds are done in pieces. Place halves or quarters on the grill over hot coals.

Baste with butter or barbecue sauce frequently during the cooking to insure a soft, tender exterior.

Whipped Milk Fluffs Dessert

An old-fashioned favorite made in the modern manner is this recipe for Heavenly Hash. It is made with whipped instant non-fat dry milk crystals for lightness, calories, and for a fine, smooth and fluffy texture.

To make 4 servings: Drain syrup from one 10-ounce package frozen sliced strawberries; reserve and chill 1/4 cup of the syrup. Combine the strawberries with 1 cup cold cooked rice, 1/2 cup dried marshmallows, 1/4 teaspoon grated orange rind and 1/4 teaspoon nutmeg.

Whip instant crystals according to package directions for 1 1/2 cups, substituting reserved strawberry liquid for water. Fold gently into rice mixture. Serve immediately.

Avocado Dip Good on Toast

Buttered strips of toast flavored with seasoned salt are ideal for serving with "Savory Avocado Dip," a tasty mélange of California avocado cottage cheese and tomato spiced by Tabasco and lemon juice. On other occasions, spread mashed avocado seasoned with a little salt, pepper and lime juice on crisp, hot toast.

The number of calories in California avocados is surprisingly low considering the fruit's eating satisfaction: a 4-inch, 80-gram half-shell contains only 137 calories.

Savory Avocado Dip
3 tablespoons butter or margarine
1/4 teaspoon seasoned salt
6 thin slices bread
1 California avocado
1/2 cup cottage cheese

1 tablespoon lemon juice
Dash Tabasco
1/4 cup finely chopped tomato
Melt butter and stir in 1 teaspoon seasoned salt; brush on bread. Place on baking sheet and toast in 300-degree (slow) oven 15 to 30 minutes, until crisp. Cut into strips.

Cut avocado lengthwise into halves; remove seed and skin. Force fruit through sieve or whiz in blender along with cheese. Mix in remaining salt and rest of ingredients. Serve with toast strips. Makes 1 1/2 cups.

The Dental Corps provided care to about eight million servicemen and women in World War II, expanding from 250 dental officers in 1939 to a peak of 15,000.

Sardines Have More Than Taste to Recommend Them

Meaty little sardines, caught in the cool clear waters off the craggy Maine coast lend themselves to a variety of "made" dishes, as well as serving as a popular snack food. The tangy fish are especially delicious as a crispy delicious appetizer when combined with cucumbers and onion rings.

It is often considered "just a snack," the silvery fish pack a nutritional wallop far beyond their size. Rich in minerals, they are also extremely high in the body-building protein which is so

necessary for health and well-being.

It is felt by many nutritionists that the fatty acids found in sardines are of the healthful variety which tend to reduce the formation of cholesterol in the bloodstream.

During the summer, a crisp and flavorful combination of vegetables and Maine Sardines is an ideal first course. Marinated and served icy cold, the tiny fish take on a glamorous personality which quite befits the merry summer season.

Marinated Maine Sardines
2 cans Maine Sardines (4 oz. ea.)
1 clove garlic
1 cup very thinly sliced cucumbers
1/2 cup very thinly sliced onions
1 teaspoon salt
1/2 cup black pepper
1/2 cup white wine vinegar
2 tablespoons lemon juice
1 cup commercial sour cream

Drain Maine Sardines. Rub shallow dish with cut clove of garlic. Arrange Maine Sardines in bottom of dish and cover with

very thinly sliced cucumbers. Top cucumbers with onions.

Combine oil, salt, pepper, vinegar, and lemon juice. Pour over vegetables. Cover and let stand at room temperature for 2 hours to blend flavors.

Drain, reserving liquid for salad dressing. Top with sour cream and chill at least one hour. Serve as appetizer. Yield: 4-6 servings.

Sardine Vegetable Pie
2 cans (4 oz. ea.) Maine Sardines
3 large tomatoes, sliced
2 cups fresh green beans, cooked
1 tablespoon instant minced onion

Sardine Vegetable Pie
2 cans (4 oz. ea.) Maine Sardines
3 large tomatoes, sliced
2 cups fresh green beans, cooked
1 tablespoon instant minced onion

Bubbly Topping
Generously spread 4 slices raisin bread with 2 tablespoons soft butter mixed with 1-3 cup powdered sugar and 1/2 teaspoon rum extract. Broil until mixture becomes bubbly on top. Serve at once for a delicious breakfast treat.

Spotless Vegetables
Tabasco sauce, the nippy liquid red pepper seasoning, replaces ground pepper for vegetables, leaves them without black flecks. Simply add 1/4 teaspoon Tabasco to each cup water for squash, snap beans, broccoli, or any other vegetable.

Add a ring of biscuits and bake in a hot oven, 400 degrees for 25 minutes. Yield: 4-5 servings.

*Make biscuits using a mix or favorite recipe, or use refrigerator biscuits.

Coffee Creamer Enriches Beverages

The history of coffee in this country depicts its migration from the campfires of a westward-surfing peoples to the dining tables and breakfast nooks of America. And the last decade brought a new vogue—the modern coffee house or "cafe espresso."

Coffee lovers, and this includes most Americans, flock to these coffee houses in every city. In late afternoon and after movies, plays and meetings, a cup of coffee, tea or cocoa with a sandwich or tiny pastry is most welcome.

This salute to coffee houses includes three marvelous drinks of Venice and Rome, frothy Colombian saluting South America, and Mate's Cocoa that delights sailors and landlubbers alike. This trio incorporates the most marvelous of new conven-

ience products, instant non-dairy coffee creamer.

This unique non-dairy coffee creamer dissolves readily into steaming coffee, tea or cocoa, adding full flavor and satisfying richness. It stores on your pantry shelf, does not require refrigeration and always tastes delicious.

Lemon Espresso
2-3 cup dry instant non-dairy coffee creamer
1-3 cup cold reliquified instant nonfat dry milk crystals (according to package directions)
1/4 to 1/2 teaspoon lemon extract
1 1/2 tablespoons sugar
8 cups hot espresso coffee

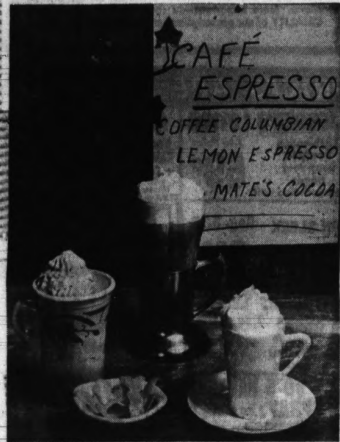

Chill bowl and beaters in refrigerator for 15 minutes. Blend non-dairy coffee creamer, reliquified instant crystals, lemon extract and sugar in chilled bowl.

Whip at high speed with electric mixer until soft peaks form (3 to 5 minutes).

Serve each cup of espresso with the Whipped Topping. Add a bit of lemon peel, if desired. Makes 6 servings.

Coffee Colombian
2-3 cup dry instant non-dairy coffee creamer
1-3 cup cold reliquified instant nonfat dry milk crystals (according to package directions)
1 teaspoon vanilla
1 1/2 tablespoons sugar
2 teaspoons instant coffee
1 1/2 quarts strong coffee, chilled
1 pint coffee ice cream

Chill bowl and beaters in refrigerator for 15 minutes. Blend non-dairy coffee creamer, reliquified instant crystals, vanilla, sugar and instant coffee in chilled bowl. Whip at high speed with electric mixer until soft peaks form (3 to 5 minutes).

NEW BEVERAGES—In the casual atmosphere of the modern coffee house or "Cafe Espresso", three unusual and delightful beverages are featured. Coffee Colombian, Lemon Espresso and Mate's Cocoa all owe their superb flavor and appearance to a unique new non-dairy coffee creamer.

INSPIRATION AND REALITY — Inspiration for a delicious new dessert is a "Hummel" ceramic figurine of a confectioner carrying an apricot-colored Bavarian Cream. Above is the reality — an Apricot Bavarian Cream created by Luchow's pastry chef and now being served at the famous New York restaurant.

Figurine Acts as Model for Chef to Create Dessert

What inspires the chef of a world-famous restaurant to create a dessert that wins the instant acceptance of its customers? In the case of Luchow's Bavarian Cream the inspiration is really unusual — a "Hummel" figurine of a little confectioner offering an apricot-colored, delicately molded dessert.

Charmed by the sight of the figure, the chef of this famous New York restaurant decided to adapt the Luchow's time-honored Bavarian Cream recipe to duplicate the appearance of the cream being offered by the delightful "Hummel" confectioner.

Jan Mitchell, owner of the 81-year-old landmark, tasted the chef's creation — liked what he tasted — and added the dessert to the Luchow's menu.

The delicious new Bavarian cream is easy to prepare and ideal for summer menus.

Luchow's Apricot Bavarian Cream

1 pint milk
4 egg yolks
¼ cup sugar
¼ teaspoon vanilla
1 tablespoon (approx. 14 grams) unflavored gelatin
1 pint heavy cream, whipped
Pinch of salt
½ to ¾ pound apricots (or any

other fresh, frozen or canned fruit) diced or puréed.

Mix sugar, egg yolks and vanilla. Bring milk and salt to a boil. Remove from heat and pour over sugar and egg mixture, stirring constantly.

Dissolve gelatin in cold water according to directions on package. Add gelatin to hot mixture stirring well. Put in a cool place.

When mixture starts to jelly, mix in whipped cream and fruit. In mixture cream and fruit. Stir gently. Pour into 1 quart mold that has been moistened with water or lightly brushed with oil; refrigerate. Remove from mold and serve. (To facilitate removal, wrap a towel over which has been soaked with hot water and place it briefly over bottom and sides of the mold.)

Optional: Garnish sides and top with whipped cream and top with apricot half.

Yield: 8 to 10 servings.

Tomato Soup Dip

A different and delightful dip is made by blending one (24 oz.) envelope tomato soup mix with 1 pint sour cream. Chill and serve with potato chips or crackers. For a variation, add (2 4-oz.) cans deviled ham.

Wine Coolers Differ in Their Sweetness

A hostess who serves tall cool drinks to her summer guests, knows that there is quite a difference in tastes where sweetness is concerned. This is especially true of wine coolers — some like them refreshingly tart, others prefer to add sugar.

For everyone's enjoyment, it's a good plan to have a small pitcher of simple syrup made up in advance and chilled in the refrigerator. Use two parts sugar to one of water and heat just until the sugar is completely dissolved. Or, use honey, nature's own sweetener. It stirs into a cold beverage easily and adds a pleasant flavor of its own.

Chances are, a wine cooler made with port, mixed with an equal amount of sparkling water and poured over ice cubes in a tall glass, will be sweet enough for anyone. Port is a fruit dessert wine. The dry red or white wines, also often used in this way, sometimes call for extra sweetness.

Rice and Onion Rings

Ever pot cooked rice with golden-brown, hot, crisp French-fried onion rings. Delightful served with curried meat or fish platters.

Food Choice Is Good, Prices Moderate

Summer's food abundance extends into September. Late summer fruits and vegetables will offer goodness until frost advises the Consumer Marketing Information Agent, Mrs. Josephine Lawyer.

Michigan's peach season lasts through most of September with the Elberta and Redskin varieties. When a bushel of peaches costs \$3 to \$4, a pint of home canned or frozen peaches will cost 15 cents to 17 cents including the cost of containers, sugar, and ascorbic acid for freezing.

Michigan's blueberry crop will finish in mid-September. The crop has been about 70 per cent its normal size and quality has been excellent.

All fresh vegetables, except asparagus, will be available during the next month. Corn, tomatoes, snap beans, potatoes, cabbage, celery, peppers, onions, and salad greens are in generous supply.

Shoppers may choose from an abundant supply of red meats and poultry this September. Supplies of beef at retail continue large and average retail prices will be about the same as in August.

Although shoppers buy more broilers in summer, and production reached its peak in July, the fact remains that about 7 per cent more broilers will be available in September than a year ago. There will be plenty of fryers for the rest of the year at lower prices than last year.

The 6 to 16 pound turkeys will get special merchandising this month. Prices may be lower than they sometimes are, but perhaps not lower than the prices of large turkeys. The smaller size turkeys cost more per pound than larger turkeys, partly because of processing costs.

It takes 5.4 cents per pound, processed weight, to change a live, heavy, young tom turkey into a ready-to-cook heavy young tom. For hens, the cost is 6.7 cents per pound. Breeder turkeys cost more to process than young turkeys, and the small size turkeys also cost more.

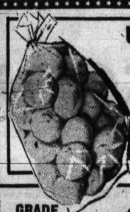

California has the largest clingstone peach crop on record and the canned pack is expected to be a bit larger than that of last

year. There will be less fruit is about one-third smaller than last year at this time and the citrus juice stocks are smaller. Citrus juices are 30 to 70 per cent higher than a year ago and are likely to stay that way.

is given to tomato juice. Supplies of tomato juice are larger than last year at this time and the citrus juice stocks are smaller. Citrus juices are 30 to 70 per cent higher than a year ago and are likely to stay that way.

Cheese Popcorn

Popping corn after the barbecue? When you mix the popcorn with melted butter or margarine, add an extra touch — sprinkle with grated parmesan cheese.

Eyes of NFL on Layne for Last Time

Season Ends Early for Lions' Studstill

Pat Studstill, the Detroit Lions' flanker back, was to undergo knee surgery late today and appeared lost for the entire National Football League season.

The loss of Studstill hurts the Lions where they're weakest. Terry Barr, the Lions' other flanker back, missed much of last season with a knee ailment similar to Studstill's and has yet to play in a pre-season game this year. Barr reinjured his knee in the Lions' first contact drill after the start of practice.

Studstill, hurt in a pile up last Saturday in an exhibition game with St. Louis at Omaha, was scheduled for surgery at University of Michigan hospital in Ann Arbor this afternoon, hospital officials said.

Coach George Wilson said Barr would start Friday night's pre-season game with the Pittsburgh Steelers. If Barr's knee reacts on him, Wilson said, Tom Hall, an offensive end and defensive back, would take over as flanker.

The Steelers came into this game with a record of one victory and two losses, having downed Philadelphia 24-13 while losing to Green Bay, 27-7, and to Baltimore, 17-14. The Lions sport a 2-1 record with victories over Cleveland, 24-10, and St. Louis, 22-17, while losing to the New York Giants, 24-21.

Coach Buddy Parker of the Steelers has installed Ed Brown as his starting quarterback after Bobby Layne's retirement, and Parker is hoping that Brown will be the big answer to the job, once he has the job locked up. Veterans surround Brown in the starting lineup with fullback John Henry Johnson hoping for a repeat of his 1,000 yardage year in '63. Dick Hoak is the other running back and speedy Buddy Dial will be on the flank.

OLE NO. 22 — The Jerseys are different but the number Bobby Layne wore for 16 years of pro football was the same. Layne is shown in the photo with coach Buddy Parker under whom he played while with Detroit and then at Pittsburgh. In the lower photo, Layne wears a Steelers jersey at the bench position on the sidelines. Friday night, the jersey No. 22 will be retired by the Lions in the game between the Lions and Steelers, as "Bobby Layne Day" is celebrated in Detroit.

Ex-Lions' QB to Be Honored Friday Night

Motor City to Honor All-Time Holder of NFL Records

By BRUNO L. KEARNS

Sports Editor, Pontiac Press

The eyes of Texas and the National Football League have been on Bobby Layne ever since his All-American days with the Longhorns in 1947.

Layne's career in the NFL can be filled with adjectives. He was outspoken as a quarterback with his teammates. He was controversial in the public image. He was the master field general of the third down in the opinion of coaches. And he was one of the most colorful players to watch on the gridiron from the reactions of pro football fans.

Despite the pros and cons of Layne's personality and football talents, the 16 years in the NFL have a "flank" ending Friday night when he steps out to the Tiger Stadium turf to have "his night" in the game between the Lions and Steelers.

No one, not even the great Sammy Baugh, can point to the array of statistics Layne has in his favor as an NFL quarterback. When Layne came into pro football, no one really wanted him. He was the number one draft choice of the Pittsburgh Steelers in 1948, but the Steel City team was using the single wing offense at the time and found no room for him.

STEELERS' CHOICE

The Steelers traded him to the Chicago Bears, but there he was the third man behind Sid Luckman and John Lujack. They were known as the three L's.

He stayed in Chicago for one season and was traded to the New York Bulldogs where his mark of 185 passes in 329 attempts perked the attention of other teams.

The Lions obtained him for fullback Camp Wilson and starting under coach Buddy Parker in 1951. Layne became the master QB of pro football.

In 1951 the Lions had a record of 7-4-1, their best since 1938. The next season, the Lions defeated the Browns for the World Championship and in 1953 repeated for the title.

In 1954, Detroit won the divisional title but was trounced by Cleveland in the championship, 56-10.

In 1958, Layne's leg was fractured in the big rubarb in Chicago where the Lions lost the last game 38-21 thereby losing the title, won by the Bears by a half-game.

In 1957 Layne and Tobin Role guided the Lions to their 4th divisional title and third world crown in six years. October 6, 1958, the Lions under coach George Wilson pulled the shocking trade of Layne for Earl Morrall from the Steelers.

The Lions haven't won a title since 1957 and neither had Layne nor Parker with the Steelers in 1958.

But Layne's records mounted and tomorrow night an engraved sterling silver football listing all of his marks will be presented to him.

In his honor, a scholarship fund at the University of Texas has been set up, the amount raised reaching toward \$10,000.

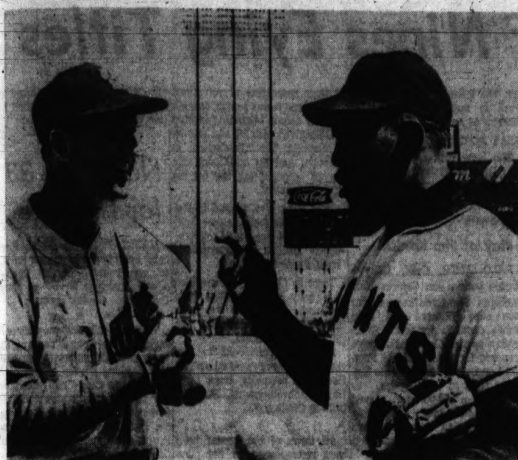

Grosscup Will Start

PEEKSKILL, N.Y. — Coach Webb Ewbank, ready to go with his regulars the rest of the exhibition season, has named Les Grosscup to start at quarterback and Bill Mathis at fullback for the New York Jets in their American Football League test against Boston at Rutgers University Sunday.

Layne's NFL Career

400 CLUBBERS — Only ten players have ever hit 400 home runs or more during their major league career and two of them were active at San Francisco's Candlestick Park yesterday. St. Louis Cardinal great Stan Musial (left) welcomes the Giants' Willie Mays to the club after the latter had batted his 400th home run in the National League to accomplish the feat.

Tigers' Dressen Gets Results

Lary Nips LA, 2-1; Triumph 7th Straight

Surge Wins Plaudits for Manager; Squad Shows Improvement

DETROIT (P)—Each day more of Charlie Dressen's influence on the Tigers becomes evident. The front office credits the new manager as much as anyone for Detroit's current surge. Yesterday the infield provided graphically how Dressen has helped straighten out the Tigers.

It sparked afield as the Tigers stretched their winning streak to seven games with a 2-1 triumph over the Los Angeles Angels.

Weakness on such basic fundamentals as picking up routine grounders or completing normal double plays long have been Tiger problems. This was so even two years ago when the Tigers made their challenge for the pennant.

FEW TRICKS

The Tigers brought rookie George Smith up to play second base after Jake Wood was hurt at Dressen's insistence. Dressen has taught Dick McAuliffe a few tricks of shortstop play and hastened his improvement. At third base, Dressen has altered rookie Don Wert with veteran Bubba Phillips with uncanny success.

All together the Tiger infield has been tighter than it has in years.

"McAuliffe has quicker hands than I thought," said Dressen. "When I first came here he was letting the ball play him too much. He was waiting back for it. He charges them now."

Frank Lary, with control problems in the early innings, settled down to hurl a seven-hitter and his fourth straight complete game. He allowed only one hit after Jim Fregosi homered in the fifth to cut Detroit's lead to 2-1.

The veteran right-hander, brought back from the minors July 4, now has doubled his victory output of last year when he had a sore shoulder.

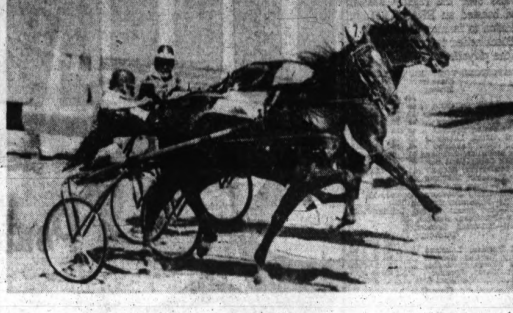

KEY ERROR

Lee Thomas' error on a throw to first after a routine groundout opened the way to two Detroit runs in the fourth. Rocky Colavito's single followed the first Norm Cash-doubled in the first run with a 420-foot blast to center. Phillips then hit his first producing single.

CROWDED—It looks more like Grand Central Station than the third base line at Yankee Stadium where Yankee runner Hector Lopez is trapped by Boston Red Sox players. On third

is Yankee Clete Boyer but Red Sox players continue to run down Lopez, who slid into third base three times before being tagged out. The Yanks won, 4-1.

Wild Pitches Help Yanks

Ford Posts 19th Victory

By The Associated Press
Whitey Ford became the AL's first 19-game winner as the front-

running New York Yankees scored three times on wild pitches by Earl Wilson and downed Boston 4-1.

Also in the AL—the Chicago White Sox broke a tie with the Minnesota Twins for second place, sweeping a doubleheader from Cleveland, 8-3 and 3-1 behind the steady pitching of Juan Pizarro and Eddie Fisher, and homers by Jackie Brandt and Jerry Adair in support of Milt Pappas' three-hit pitching led Baltimore over Kansas City, 4-1, with the Twins.

Frank Lary added another victory in his pitching comeback with the Tigers, with a seven-hitter against the Angels. He had a shaky start, gave up a fifth-inning homer to Jim Fregosi, then allowed just one hit the rest of the way. Lary is 4-6.

Ford, 19-7, limited the Red Sox to five hits, including Dick Stuart's 34th homer. Wilson also was stingy with the hits—five in his five innings—but generous with his wild pitches.

He uncorked one in the first inning, allowing Phil Linz to come in from third for the first Yankee run. Then in the fourth, on Wilson's second wild pitch of the inning, Clete Boyer scored from third and Linz flew all the way in from second—making it 4-1.

The Yanks have won eight of their last 10 games while the Red Sox have lost four straight and nine of 12.

Pizarro fired a six-hitter, striking out 10, and Fisher gave up just three in an eight-inning stint in the doubleheader sweep at

Cleveland for the White Sox, now 12 games behind the Yankees. Pizarro is 16-8, Fisher 7-4. Tom McCraw and Nellie Fox led Chicago's offense with four runs batted in apiece. McGraw collected five hits, including a homer, and Fox had four, also with a homer. Pedro Ramos and Dick Donovan were the Indians' losers.

Outfielders Top Batters

A pair of center fielders captured the regular-season batting titles this season in the Waterford Township Class B and C men's softball leagues.

Right-hander Jim Attard, 27, who patrolled the outfield for Lakeland Pharmacy's second-place squad, posted the top bat mark in Class B, hitting .375. Attard edged out Spencer

ATTARD

HEATON

Floor's right fielder Jim Patterson, who had a .373 average.

Ray Heaton, 19-year-old left-hander of league and playoff champion A & W Root Beer, blistered the Class C pitching for a .513 average to win honors going away. Runnerup was teammate Kurt Kuhne (.473).

Heaton wielded the most powerful bat at the Drayton Plains Park in many years, slugging seven home runs during the regular season and adding two during the playoffs. He led in runs batted in with 24 during the season and 11 in the playoffs.

Bill Pittman of Lakeland topped the "B" pitchers in earned run average (1.10), but that loop's best won-loss record was posted by Spencer's Jerry Thomas (9-0).

Three reasoned tournament softball teams will leave the county Friday and Saturday hoping to return with state championship laurels.

Two, Arro Realty and Elks 810, will depart tomorrow for their night engagements with opponents having similar aspirations. The third, Town & Country, does not play until Saturday morning and will leave then.

Arro is the Pontiac representative in the state Class A recreation softball finals at Lansing. The Realtors have a 7:45 p.m. contest with host Lansing at Ramey Field tomorrow.

Town and Country will play in the double elimination affair. The city recreation department's Class D entry is Elks

810. The Elksmen will meet Allen Park in their first contest tomorrow at 9:45 p.m. in Hastings.

PLAY AGAIN

The local representatives will play again Saturday, win or lose.

Browns' Staff Praise Play of Jim Kanicki

PALO ALTO, Calif. (AP)—Rookie tackle Jim Kanicki from Michigan State and second-year men Sam Tidmore and John Brown came in for praise Wednesday as the Cleveland Browns prepared for their National Football League pre-season game Saturday night at Los Angeles.

Kanicki, a 270-pounder, played all but one play defensively against the San Francisco 49ers last Sunday as the Browns won 24-7.

at their respective playoff sites. The three teams fought through the city season beginning in May and survived district and regional playoffs. The Elks squad, in addition, had an additional city playoff before qualifying for the "D" tournament.

The Elks, also, played in the Inter-City Softball League and probably is the most experienced softball representative from Pontiac this year.

Town & Country is something of a rarity in that it often starts a lineup with three southpaw throwers (not counting the pitcher) in the infield. Arro was runner-up to city champion Harvey's Colonial House. It normally has three Hayward brothers—Al, Bud and Bill—in the lineup.

All three of the teams have been strengthened in the play-

offs with two players picked up from city teams that finished below them in the standings.

Nominate 33 for HP Race

HAZEL PARK (U)—Thirty-three colts have been nominated for the seventh running of the \$25,000-added Michigan Derby at Hazel Park Race Course Sept. 7.

The one-mile-and-one-sixteenth derby is the richest race of the year in Michigan for three-year-olds. Among the top horses nominated were Copy Chief, Cosvade, Sky Gem, Space Skates and Well Ordered, all competing at Arlington Park in Chicago, and Grand Profit, now running at Atlantic City in New Jersey.

For every man who ever fell in love with a Jeep—a new kind of family station wagon has been born. The Jeep Wagoneer. It's the first station wagon ever built to offer the comfort, silence, speed and smoothness of a passenger car—plus the traction and safety of 4-wheel drive.

It's sheer pleasure to drive. Simple too. One lever puts you in 4-wheel drive. So at a second's notice you can shift into greater safety...from wheel-spinning in mud or snow...from skids on slick surfaces...from getting stuck or going out of control on the highway or off!

The Wagoneer really makes a demonstration worthwhile. It'll be your most exciting 30 minutes behind the wheel in 1963. By the way, 2-wheel drive models available, too. See your Jeep dealer today.

Wide-Open Football Race Seen for Big Ten Teams

CHICAGO (AP) — In a league where two defeats spell disaster and unbeaten seasons are becoming rarities, the powerful Big Ten conference is geared for another wide-open football race this year.

Defending champion Wisconsin and oncoming Northwestern figure as early favorites. But Big Ten teams pay little heed to odds and seldom does the pre-season favorite wind up on top.

Although Wisconsin will be without its great passing combination of quarterback Ron Vanderkelen and end Pat Richter, the Badgers have 24 returning lettermen which include some of the fastest backs in the country.

Before starting its seven-

game conference schedule, Wisconsin will meet Notre Dame and Irish head coach Hugh Devore recently committed to the speed coach Milt Bruhn has at his disposal.

Succeeding Vanderkelen will be sophomore Hal Brandt and end Larry Howard and Don Leafblad will flank an experienced line. Backfield candidates include Lou Holland, Ron Smith, Jim Nettles, Billy Smith and Ralph Kurek; Northwestern hasn't won the

Big Ten title for 27 years. Now the Wildcats seem ready. Coach Ara Parseghian, whose teams have faltered in the late stages of recent seasons, has 22 lettermen returning including 11 regulars.

Back again for the Wildcats is quarterback Tom Myers.

Ohio State, because of its tremendous home-grown talent, is always a contender as is Michigan State. These two teams along with Purdue and Minne-

Big Lead in Sailing

RYE, N.Y. (AP) — Joseph Duplin, a 29-year-old instructor at MIT, takes a commanding 15-point lead into today's fourth race of the North American Star Class Sailing Championships.

With two races left, Duplin has accumulated 183 points with a first, a second and a third to 154 for the runner-up, boat-builder Bob Lippincott of Newport, N.J. Skip Allen III of New Port Beach, Calif., follows with 156 and Buddy Friedrichs of New Orleans is fourth with 154.

Duplin finished third in Wednesday's 10-mile race, won by Blair Fletcher of Barnegat Bay, N.J. Fletcher is well down the overall list with 120 points.

Two Tiger Farms Cop Loop Titles; 3rd Team Close

DETROIT (AP) — While the Tigers battle to make the first division in the American League, two of their farm clubs already have won pennants and another is closing in on a flag.

Duluth of the class A Northern League and Thomasville of the class A Georgia-Florida League have won the championships of their leagues.

Syracuse, with a 64-game lead with nine games left, is nearing the Northern Division title in the Class AAA International League. The Chiefs are the Tigers' top farm club.

Lakeland finished in fifth place in the Class A Florida State League while Knoxville is fourth in the Class A Sally League and Jamestown fifth in the Class A New York-Pennsylvania League.

Detroit Willie Horton gave signs of being the Tigers' most promising farmhand. Horton took over the Sally League batting lead with a .339 average at Knoxville.

Area Gridded 'Best'

AMES, Iowa (AP) — Iowa State football coach Clay Stapleton said Wednesday that tackle John Van Sicken of Walled Lake, Mich., is "as good a line-man as there is in the big eight." Sicken, a junior, was a standout in the Cyclones third day of practice.

Purdue will have to do a lot of rebuilding but the Boilermakers have experience in the backfield with Gary Hogan and Ron Digraivo calling the signals and handling the passing chores.

Indiana suffered a serious blow when four varsity candidates were declared scholastically ineligible through summer school plus the loss of four other players from last semester. The outcome leaves the Hoosiers in a line of last year full of holes.

No Close Haircut for Dodgers' Exec

By The Associated Press
It was close but no haircut for Red Patterson, the Los Angeles Dodgers exec who just might win wearing ribbons 'round his ringlets before the National League leaders score four runs in one inning.

Patterson, the Dodgers' assistant general manager who has vowed not to get a haircut until his team has a four-run inning, watched Cincinnati push across four runs in the sixth inning and trim Los Angeles 9-5 Wednesday night.

Jim Maloney posted his 19th victory as the Dodgers went down to their fifth defeat in seven games despite their largest run output during that stretch. The stretch. The loss cut the Dodgers lead to 5½ games over second-place San Francisco.

The Giants, who move into Los Angeles tonight for the opener of a four-game series, donned third-place St. Louis 5-3 as Tom Haller hit two homers and Chuck Hiller and Orlando Cepeda on each. The Cardinals remained 6½ games behind.

7 GAMES OUT
The fourth-place Philadelphia Phillies closed to within seven games of the top by edging the Chicago Cubs 8-7 for their 12th victory in 15 games. Gene Oliver hit a grand slam and two-run homer in Milwaukee's 9-1 wallop of Houston and Pittsburgh downed the New York Mets 7-2.

The Dodgers, who have managed to score only 15 runs in their last seven games, collected eight hits against Maloney, 19-6, and reliever Joey Jay, but again failed to get Patterson in the harbor's chair. It's been nine days since they scored four runs in one inning.

The Reds' decisive four-run sixth revolved around Don Pavletich, who had hit a homer off Johnny Podres, 11-10, in the fourth. With two on, Pavletich ripped a hard shot to third on which Tommy Davis started a doubleplay. However, Umpire Frank Walsh ruled the ball was fielded in foul territory.

Pavletich went back to the plate and laid down a bunt. Davis fielded it, hesitated, then threw high to Jim Gilliam covering first base and two runs scored. Singles by Johnny Edwards and Pete Rose brought in the other two runs. Moose Skowron accounted for two Dodgers' runs with a ninth inning homer off Jay, who took over in the eighth when

Maloney was forced to leave with a pulled back muscle.

Hiller got the Giants' homer barrage started with a two-run shot in the first inning before Haller connected in the second. Cepeda and Haller hit consecutive homers in the fourth off Bob Gibson, 14-8. Billy O'Dell, 12-4, posted his first victory since July 30 with a six-litter.

The Phillies lashed 15 hits, including homers by Wes Covington, Clary Dalrymple and John Callison, to overpower the Cubs. But the actual margin of victory turned out to be an error by Andre Rodgers that let the final run score in the seventh inning. Ryne Duren cut off a Cub rally in the eighth to preserve the triumph for Dallas Green, 5-3. Paul Toth, 5-9, took the loss. While Oliver belted his two

homers off Dick Farrell, 10-11, Tony Cloninger brought his record to 9-5 by stopping the Colts on three hits and allowing only an unearned run. A two-base error by Eddie Mathews and a single by Carl Warwick gave Houston a run in the seventh.

Don Cardwell, 13-12, gained his sixth straight triumph this month by pitching the Pirates past the Mets with ninth inning relief help from ElRoy Face. Roberto Clemente's two-run homer off Al Jackson, 8-16, in the third put the Pirates out front to stay.

Sent to Sidelines

REDWOOD CITY, Calif. (AP)—Injured light end Monty Stickles was declared out of Friday's game with Dallas by San Francisco 49er Coach Red Hickey.

coddled and pampered—who need a swift kick in the seat of their tiny-white shorts, the veteran Gardner Mulloy said today.

"They bang their rackets against the ground, they bash balls over the fences on they yell and curse like spoiled brats," the 49-year-old court internationalist added. "They're a disgrace to the game."

CRITICIZES BEHAVIOR

The outspoken and controversial Mulloy, bidding here this week for his fifth seniors title at the National Tennis Championships, said he believed these tantrums were hurting the caliber of the amateur game.

"You can't concentrate and blow your stack at the same time," he added. "You can't be a real champion if you're going to gripe and fret over every adverse decision or bit of bad luck."

Mulloy said his criticism was not intended just for the youngsters who have yet to make their mark but was leveled at players of the highest rank.

"I don't exclude Chuck McKinley and Dennis Ralston, our two best players" he said. "They are as bad offenders as anybody."

"Last week I was sitting in the stands at the Longwood Cricket Club watching the men's doubles final between Chuck and Denny and Mexico's Rafael Osuna and Antonio Palafox. Our boys got a bad call on a lob. I'll admit it was a bad call. I thought Chuck and Denny were going crazy. I half expected them to tear down the place. Chuck banged his racket against the net not once but a dozen times. Denny stomped around the court like an enraged bull."

"What the heck? Don't you think Jack Kramer, Don Budge or Pancho Gonzalez wanted to win? Sure, they did. They were intense but you never saw them pull stunts like this."

Mulloy said one of the reasons that the youngsters have such poor court manners is that they are pampered at every turn.

"Invite one of these kids to a tournament and the first thing he asks is: 'How do I get there? Where do I stay? How much expense money do I get?'"

"When I was getting started—and this is true of Bill Talbert, Gonzalez and others—we were hatched from tournament to tournament. We ate at hamburger joints. We slept under trees or in broken-down old cars. It's very different now."

Fighters Seek State Crown

Middleweights Meet in Escapaba Bout

ESCANABA (AP)—Pete Bosanic of Manistique, six-time Upper Peninsula Golden Gloves champion who is undefeated in seven professional starts, will face Jim Davis of Detroit in a 10-round bout for the vacant Michigan middleweight championship in the new 3,600 seat high school gym here Saturday night.

The card, promoted by Richard Ludwig of Leslie, will be the first professional boxing show staged here in more than 20 years.

Bosanic, 21, won 41 of 48 bouts as an amateur and captured the National AAU 160-pound championship in Cincinnati in 1962. He reached the semifinals of the National Golden Gloves tournament in Chicago before turning professional this year.

Ludwig announced the following preliminary bouts:

Rufus Beach, Lima, Ohio, vs. Jimmy Christopher, Milwaukee, Bayview, four rounds.

Davey Merritt, Detroit, vs. J. D. Linder, Chicago, lightweight, six rounds.

Al Mittenbush, Milwaukee, vs. Al Wilbergson, Windsor, middleweight, four rounds.

Dick Thompson, Detroit, vs. John James, Milwaukee, welterweight, four rounds.

Red Sox Sign Capac's Petz

Dan Petz, who wound up his high school baseball career by setting five records at Capac this season, has been signed for an undisclosed sum by the Boston Red Sox, the team announced Wednesday.

Petz, 19, who started pitching at nine years of age in the Little League, has an overall high school record of 24 wins and 3 losses.

He has been assigned to Wellsboro, N. Y., a class A team in the New York-Pennsylvania league.

The rangy left-hander averaged 12 strikeouts a game his senior year and was one of the top batters in the Southern Thumb Conference.

Motor City Women

Unbeaten in Softball

STRATFORD, Conn. (AP)—Host Stratford and Detroit, the only still unbeaten teams in the Women's World Softball Tournament, clash in the second game of tonight's three game schedule. Stratford downed previously unbeaten Minneapolis 4-0 Wednesday night behind the canny pitching of veteran Bertha Ragan.

Blue Devils Win Lake Orion Title

The Blue Devils are Lake Orion's junior baseball Senior National League and Senior Playoff champions.

The team won the playoff title Tuesday night as Bill Crosby tossed a shutout against the Sen-

ior American champs, 4-0. It was the second straight playoff win for the Blue Devils.

Under the leadership of Frank Collom and Tom McCoy, the squad went undefeated through the regular season and playoffs.

Two Professionals won the PGA Championship at the age of 20. Gene Sarazen in 1922 and Tom Creavy in 1931.

Man Without a Holiday

Let's Honor Our Bosses (Once a Year)

NEW YORK (AP)—Someone has made the suggestion that, since we have a national holiday for labor, we should have a national holiday for management, too.

Sounds like a good idea, doesn't it?

If we have a National Hot Dog Month, a national week in which to ponder the juicy virtues of the dill pickle, certainly we can all pause in our tasks long enough to celebrate a national honor the Boss Day.

BOYLE

If the idea of a national day to celebrate the role of management in the economy catches on, many will be puzzled just how to observe it.

What is the best way to honor the boss?

Well, since the worker abhors work on Labor Day, it would appear that management should be allowed to refrain from managing on National Management Day.

Here are a few tips on how any office staff can make the boss feel they realize he is important to the firm's endeavor, and that beneath his gruff exterior there beats an honest heart:

First, put gin in the office water cooler to help generate a friendly, relaxed atmosphere.

TURN CLOCK

Turn the office clock to the wall—so that the boss won't have to try to catch anybody watching it.

Wrap his swivel chair in gay, colorful bunting. Roll up his carpet so that he won't have to call anyone up on it.

Have the chairman of the union grievance committee spend at least 15 full seconds reading the boss as long a list as possible of things that are right about the place—instead of what's wrong about it.

Everybody take a voluntary 15 per cent pay-out for this one day. Show the boss they really think he's one of the fellows by letting him join in the usual pre-lunchen crap game in the stockroom with the clerks, the office boy, the janitor, and the assistant bookkeeper.

Insist that he stand at the head of the line during both the first and second morning coffee breaks.

It is now 10:30 a.m. It is time to hand the boss his golf clubs, thumb him fondly between the shoulder blades—no knives, please—and tell him, "Take the rest of the day off, chief. Happy putting."

Then all the employees rush to their desks and work like beavers doing all the jobs they should have done last week. With no boss around to bother them, they should be finished by noon—in

Jail Term Delayed in Negro Death

HAGERSTOWN, Md. (UPI)—A young tobacco farmer, convicted in the beating death of a Negro waitress, was given until Sept. 15 to start serving a six-month sentence so that he could harvest his crop.

Judge D. Kennedy McLaughlin allowed the delay yesterday in sentencing William Zantinger, 24, and fining him \$625 on the manslaughter conviction. He could have received a 10-year term.

Zantinger of Mount Victoria was found guilty by a three-judge court in the death of Mrs. Hattie Carroll, 51, who died eight hours after he beat her with a toy cane and cursed her at a charity ball in Baltimore on Feb. 9. Mrs. Carroll had a history of heart trouble.

The court, which received the case here on a change of venue from Baltimore, found that either the beating or the insults led to her death.

His wife was charged with disorderly conduct and assault in the case. Shouting "I love him," she allegedly jumped a policeman who was leading Zantinger away from the scene at the hotel.

MIT Scientists Probing Cause of Balloon Burst

PALESTINE, Tex. (UPI)—Massachusetts Institute of Technology scientists attempted today to determine what caused a huge balloon carrying instruments to study cosmic rays to burst at 107,000 feet.

The balloon's 325-pound instrument payload was automatically parachuted to earth. Scientists recovered the instruments in a wooded area about 20 miles northwest of the balloon launch center at Palestine, 100 miles southeast of Dallas.

Scientists said they would try again later to launch the balloon. The balloon is 141-feet high.

2 Area Businesses Draw Liquor Fines

A Pontiac market and a Bloomfield Township bowling alley-restaurant have been fined \$450 each by the Michigan Liquor Control Commission.

The fines were levied against Williams Market, 161 Pingree, for selling to a minor, and Strike 'n Spare Steak Knife, Inc., 4065 W. Maple, Bloomfield Township, for a minor consuming on the premises.

520 Road Deaths Warned for Holiday

CHICAGO (AP)—The National Safety Council has estimated that between 430 and 520 Americans may die in traffic accidents over the long Labor Day weekend.

The council also said Wednesday that 17,000 to 21,000 persons may suffer injuries disabling them beyond the day of the accident.

The council said at least 60 lives would be saved if every motorist were a seat belt. It said the death toll could be held down if motorists don't mix drinking and driving, don't drive too fast for conditions, and don't drive left of center.

The area of Greenland is about 627,000 square miles.

World War I Hero Released From Hospital

PALL MALL, Tenn. (AP)—Sgt. Alvin York, 75, Medal of Honor winner in World War I, returned from a Nashville hospital to his mountain home near here Wednesday night.

Bedridden for nine years and in poor health several times in the past year, York was admitted to the hospital the last time on July 19 for treatment of bedsores and later suffered a urinary tract infection.

The newest plant-fueling equipment can deliver up to 750 gallons of fuel a minute—enough to drive a small car around the world. Yet as the fuel rushes into the plane's tanks it is micro-filtered to ensure perfect cleanliness.

U.S. Navy Force Pays Quebec Courtesy Call

QUEBEC (AP)—A U.S. naval force headed by the aircraft carrier Intrepid steamed into Quebec City Wednesday for a six-day courtesy call.

The fleet, which has some 5,000

officers, midshipmen and men, is on a summer training cruise out of its home base at Norfolk, Va.

Major Gen. Henry C. Hodges Jr., who died recently at the age of 183 in Stamford, Conn., lived longer than any other graduate of West Point. He had been appointed by President Grant.

Veteran School Architect Discusses Building Use

NEW YORK (UPI)—It's foolish for big cities to keep buying fantastically expensive downtown real estate and putting only a school on it, in the opinion of a veteran school architect.

Michael Radoslovich, former chief architect of the New York City Board of Education, claims it is equally foolish to build a typically suburban low ranch-type school in a crowded urban area.

It would be wiser to incorporate a school into a large skyscraper or an apartment building, he thinks.

New York's schools, Radoslovich believes, are shabby, depressing structures that are costing the city a mint of money.

Some are seriously under-occupied because the inner-city population was dwindled by the trend to the suburbs, he said.

NOT IN TUNE

"Even those that are fully used are wasteful eyesores that no longer are in tune with the life of the city. The little red school house suited its rural setting and its rural pupils.

"The anachronistic Manhattan school suits neither the modern city skyline nor modern city boys and girls," said Radoslovich, now a member of Emery Roth & Sons, designers of skyscrapers.

Radoslovich said Chicago and one or two other of our largest cities have the same problem as New York in wasting money on expensive downtown school sites.

New York and other very large cities must start putting down before New York and Chicago town schools in skyscrapers and large apartment house buildings, he said.

The school part of the building must have separate entrances and be designed from the start for school use.

"Remodelling parts of existing buildings for school use won't be practical," Radoslovich said.

Radoslovich had the New York City board on the verge of putting a new business high school in the first six stories of a new 38-story skyscraper before he retired from the school system, but the city failed to land the site.

HORRIBLE WASTE

The present business high school, sitting between two skyscrapers on East 42nd Street in the Grand Central district is Radoslovich's idea of the most horrible example of waste of expensive land in the country.

Twenty-one hundred boys and girls go to day school and 900 to night school in this high school.

They come from many sections of the city and most of them have part- or full-time office jobs in nearby skyscrapers.

Radoslovich said the sensible thing would be for the city to sell this site and put up a new school in a skyscraper nearby with commercial space to be rented out.

Although some teachers and school officials look askance at Radoslovich's suggestion and cling to the idea that a school should have the isolated look of a museum, the architect said more school officials are coming around to his way of thinking.

He predicts it won't be long cities must start putting down before New York and Chicago town schools in skyscrapers and large apartment house buildings, he said.

WAIL OF A TIME—Sister Mary Ann, H.H.M., lives up the day as she cranks airen on fire truck arriving at Stumbaugh Boy Scout Reservation near Youngstown, Ohio, for "Sister's Day."

Driver is Herb Wynn of Poland, Ohio. The sister is one of 60 attending the outing yesterday.

Cotton can be spun so fine that one pound will make 250 miles of yarn.

Constitution Puts Ben Bella in Charge

ALGIERS, Algeria (AP)—The Algerian Assembly adopted the country's first constitution Wednesday night, and thus established virtual unrestricted rule by Premier Ahmed Ben Bella.

Upon expected ratification of the constitution in a national referendum, Ben Bella will be sworn to no one but his National Liberation Front, the only legal party.

The Assembly vote was 139-23 with a number of abstentions. Opposition came from Farmer Ben Bella allies in the Algerian revolt against the French. Seven French deputies also abstained and one voted no.

The referendum, expected Sept. 8, will be followed by elections for Algeria's first president. Ben Bella is assured of election.

MOSCOW (AP)—The Soviet Union today denounced recent hit-and-run raids on Cuba and pledged continued support for Fidel Castro's regime. But there was no mention of

when Cuba might accede to Soviet wishes and sign the limited nuclear test ban treaty. All other Communist countries except those which follow Red China have signed.

Western diplomats believe Castro is holding out for more Soviet economic aid, but that he will eventually agree to sign.

Today's declaration of Soviet support was printed in Pravda, the Communist party newspaper.

LONDON (AP)—The serial numbers of many of the bank notes stolen in Britain's great train robbery were circulated widely today. Police said they were convinced most of the \$7-million haul now is useless to the thieves.

Scotland Yard believes the loot from the Aug. 8 mail train ambush still is in Britain, although some of the gang's ringleaders may have fled the country.

South Korea's military government, demanded today that he be tried by a civilian court.

He said he would not get a fair hearing in a court martial, as prescribed by the indictment.

Song, 47, was arrested Aug. 11, three days after he published an open letter criticizing the military junta's strongman, Gen. Chung Hee Park. He was charged then with ordering the summary execution of an officer during the Korean War and with ordering troops to shoot students in a 1960 demonstration.

Film Star-Waitress to Make Comeback

NEW YORK (U)—Veronica Lake, who roomed to movie fame in the 1940's only to vanish into obscurity as a Manhattan waitress, makes her debut on the New York stage tonight.

"She's all tied up," said a friend. "She really can't talk to anyone. That's how she feels. You can understand it. It's natural, isn't it? After the opening, she'll be glad to talk."

Miss Lake created a sensation 20 years ago with a hairdo that had her long blonde tresses covering one eye.

Women copied the hairdo with abandon, but Veronica no longer wears it. She starred in several movies, including "Star-Spangled Rhythm" and "Blue Dahlia."

Unearths a Record

PERTH, Australia (U)—Dorothy Williams emerged from Neglig Cave at Yallingup, 165 miles south of Perth, yesterday after setting a world record of 90 days underground.

"I have proved that women can endure solitude as well as men," she said.

Miss Williams, 35, exceeded by three days the previous record, set in the same cave last May by Wyndham Rendell.

After TV Options Drop

What Happens to Child Stars?

By BOB THOMAS
AP Movie-Television Writer
HOLLYWOOD (AP) — What happens to child stars in television series after their options have been dropped?

Jay North, the low-headed "Dennis the Menace," hasn't been acting since the series ended last April. He finished some personal appearance dates to which he was committed, then took a Hawaiian holiday.

Lee Aker, once the young pal

of "Rin Tin Tin," is now 19 and working as assistant location manager for the "Route 66" company.

Eleanor Donahue, eldest daughter in "Father Knows Best," had a season in "The Andy Griffith Show," then dropped out to have a baby. The wife of Screen Gems official Harry Ackerman, she does guest shots in several series.

Johnny Crawford, Chuck Connors' sprout in "Gunsmoke," took off for Texas after the series ended and has been appearing in a Western film, "Indian Paint."

He plays an Indian boy.

GOING TO SCHOOL

Lori Martin, the second "Nation-

el Velvet" girl, has been going to school since the series folded.

"There isn't much work for a girl my age," laments Lori, now 16. She did do a "Beaver" and a "Mona Reed" and is testing for a movie.

Tony Dowd, the older brother of "Leave It to Beaver," finished high school and plans to take night courses at college. Now 18, he has done a "Mr. Novak" and "My Three Sons" and is up for a continuing role in another series.

Jerry Mathers, the Beaver himself, has virtually retired at 15. He begins high school this month and has no acting plans.

Shelley Fabares outgrew the "Donna Reed Show." She has done roles in other shows and is pursuing her singing career.

Sherry Jackson, Danny Thomas's daughter when the show was "Make Room for Daddy," developed into a looker and has graced many television series.

CLOSE BUDDY

Richard Keith (real name: Keith Thibodeau), who played young Ricky in the "I Love Lucy" series, is now 12 and has done occasional roles in shows like "Route 66" and "Andy Griffith." He is a close buddy of his real-life counterpart, Desi Arnaz IV, and both have made appearances in a kid band. Richard plays the drums. Young Desi? The bongos, match.

Remember little Tommy Rettig, the first lad who was pal of "Lassie" on the television series? Now a free-lancer on shows like "Wagon Train" and "Death Valley Days," he's 21 and father of two.

Young Mother Killed in Head-On Collision

ANGOLA, Ind. (AP)—A Michigan woman, Mrs. Peggy Sue Campbell, 21, of Clio, was killed yesterday in a head-on auto collision under an Indiana toll road overpass.

State police said Mrs. Campbell lost control of her car as she braked quickly when she came up behind a slow-moving line of traffic. Three passengers in her car, including the woman's 1-year-old daughter, Dianna, were injured seriously.

Negro Official Gets New Job

DETROIT (AP) — Edward N. Hodges III, an Inkster Negro, resigned yesterday as executive director of the Michigan Fair Employment Practices Commission.

Hodges has been named personnel employment manager of Michigan Bell Telephone Co.

David K. Ekalick, vice president of personnel for Michigan Bell, said Hodges will assist the company "in implementing its longstanding policy of non-discrimination in its hiring and promotional practices."

His specific duties will include the administration of Bell's personnel development programs and community relations activities.

Hodges, 43, has been head of the FEPC since June 1962. Prior to that he had been conciliation director for 10 years. His 17-year career with the state included the post of minority group consultant with the Michigan Employment Security Commission.

Hodges assumes his new post Sept. 23.

About 400,000 divorces are granted each year in the United States.

Heap Big Deal Makes Velly Nice Profit

ANADARKO, Okla. (UPI) — Tourists in Oklahoma often are shocked to find that the Indian basket they bought at Laughing Wolf's trading post is stamped "Made in Hong Kong."

The Oriental artisan has made a big impact on the Indian handicraft trade, a major tourist business in Oklahoma.

The Indians are quick to admit that Wun Lee Hi in Yukonema can make a doeksin moccasins cheaper — and often better — than can Little Running Fawn in Broken Arrow, Okla.

Ruth Cox, president of a \$100,000 Anadarko tourist attraction called Indian City, says her shops sell both authentic Indian craft and imitations from the Far East.

"Take these two pieces of beadwork for example," Miss Cox challenged a visitor. "Which do you think is the real McCoy?" The tourist picked the better-looking piece.

"Wrong," Miss Cox said. "It's the other one."

The beadwork done by the American Indian was priced at \$15. The imitation from Hong Kong cost \$10.

"We could even price it lower and make a profit, but we want to

encourage Indian work," said Miss Cox.

About the only thing that cannot be duplicated by the Oriental craftsmen is the Indian war bonnet with real eagle feathers. The United States prohibits the exporting of eagle feathers.

Even so, the Japanese turn out a pretty good imitation, using Asian culture feathers that fool most tourists.

Only 65 per cent of the farm homes in the United States have hot and cold-running-water, compared with 99 per cent of city homes.

Uprisings Mark Paraguay Life

Natives Learn to Take Revolution in Stride

WASHINGTON — In one of Paraguay's many revolutions, residents of Asuncion, the capital, fought at night and went to work as usual during the day.

Paraguayans, living in the backwash of history, have learned to take revolutions in stride. In one two-year period between 1910 and 1912, the nation had seven presidents.

Strong-man regimes have brought the country what little stability it has known.

TWO COSTLY WARS

Paraguay has never recovered from two bitter, costly wars that devastated its economy and exhausted its people.

The War of the Triple Alliance, which Paraguay fought single handed against Argentina, Brazil and Uruguay from 1864 to 1870, cost the nation nine-tenths of the male population.

From 1932 to 1935, Paraguay fought against Bolivia over the Chaco Boreal — a wild, desolate scrubland often called a "green hell." The Chaco comprises more than half of Paraguay's 157,000 square miles.

An earlier dispute over the Chaco was submitted to U. S. President Rutherford B. Hayes for arbitration. He ruled in Paraguay's favor, and today one of the Chaco provinces is named Presidente Hayes (pronounced Ah-Yes). Its capital is Villa Hayes.

Paraguay suffers from both underpopulation and underdevelopment. To solve the problems, the government is building roads to open up new lands and encouraging immigration. A treaty with Japan has brought an estimated 10,000 Japanese to Paraguay.

Many years ago, the Government opened a section of the Chaco to Menonite immigrants from all over the world. In deference to their religious beliefs, the Menonites are exempted from military service.

City Will Host Seabee Group

Pontiac will be host to the 15th annual reunion of the 60th Naval Construction Battalion (Seabees) tomorrow through Sunday.

Some 350 persons from 42 states are expected to be here for the event, according to Andrew C. Suhart, reunion chairman and member of the group's board of trustees.

Suhart, an engineering coordination supervisor at GMC Truck & Coach Division, lives at 2850 Olive, Waterford Township.

Headquarters for the reunion will be the Waldron Hotel. Highlight of the event will be a dinner-dance at the Elks Temple Saturday night.

The city has agreed to reserve a municipal parking lot on Mill, next to the hotel, for free parking for the Seabees. Suhart is one of some 880 men in the 1,200-man battalion who survived World War II.

Officers Picked for Boys' Club in Waterford

Richard Goldsworthy, 1420 Dundee, was elected president of the newly formed Waterford Township Boys' Club last night at the group's initial board meeting.

Other officers named were Charles Sitton, 3505 Richmond, vice president; secretary, Tom Harrison, 2875 Marlington; and treasurer, W. C. Robertson, 3952 Lakewood.

Named to the board of directors along with the four officers were Judge Donald Adams, Richard Holmes, Roddy Lisc, John Stefanski and Claude Patterson.

The board of directors established finance and public relations committees at the meeting at Airport Lakes and scheduled the next board meeting for Sept. 24.

Adults interested in boys' club work are invited to contact any of the officers or board members for membership information.

Supervisors Get It Sept. 9

Details Put to County Budget

The ways and means committee of the County Board of Supervisors yesterday applied final touches to a \$16-million county budget for 1964 that it will present to the full board Sept. 9.

It is \$400,000 higher than this year's budget but \$1.1 million less than the figure proposed this spring before the tax rate was boosted \$90,000 from the \$15.3

million total recommended earlier by the County Board of Auditors.

The resolution notes that the allocation from miscellaneous monies revenue for the South Oakland Health Center building fund was reduced to \$100,000 in the interest of maintaining flexibility in allocations for capital outlay purposes.

Also approved was a last minor changing in the budget that reduced the salaries budget \$40,000 to \$7,000, and shifted most of the change into the contingent fund.

The committee yesterday approved the resolution with which it will introduce and recommend adoption of the budget. It was boosted \$90,000 from the \$15.3

million total recommended earlier by the County Board of Auditors.

Deaths in Pontiac Area

RHOUN BEATTY

Service for Rhoun Beatty, 70, of 602 Kaskaskia will be at 2 p.m. Saturday in St. Trinity Lutheran Church with burial in Perry Mount Park Cemetery. Arrangements by the Sparks-Griffin Funeral Home.

Mr. Beatty, a maintenance foreman for the City of Pontiac, died of a heart attack Tuesday. He was a member of St. Trinity Church.

Surviving are his wife, Laura; two sons, LaVern and Myron; both of Pontiac; four grandchildren; three great-grandchildren; a brother, Charles of Oxford, and

a sister, Mrs. Harvey Withorn of Leonard.

MRS. PAULINE M. JANTZ

Mrs. Pauline M. Jantz of 2289 Main Road, a retired Fisher Body Division employee, died early this morning after a long illness. She was 77.

Mrs. Jantz' body is at the Voorhes-Siple Funeral Home.

Surviving are two sons, Raymond and Donald Baumgard, both of Pontiac; four grandchildren, and a brother.

MRS. CHARLES O. WHITLOCK

Service for Mrs. Charles O. (Mayme) Whitlock, 77, of 545 E. Columbia will be at 3 p.m. Saturday in Donahoe-Johns Funeral Home with burial following in Ottawa Park Cemetery.

Mrs. Whitlock died early this morning after a three-month illness.

Surviving are two daughters, Mrs. Loomis E. Tate of Waterford Township and Mrs. Kenneth Campbell of Pontiac; and four sons, Lloyd of San Diego, Calif., Hayward of Auburn Heights, Roger M. of Lake Orion and Guy W. of Lakeside, Calif.

Also surviving are 15 grandchildren; six great-grandchildren; three sisters and a brother.

THOMAS M. FULLER

UNION LAKE — Service for Thomas M. Fuller, 45, of 8705 Edgewood, will be at 3 p.m. Saturday at St. Mark's Lutheran Church. Burial will follow in Glen Eden Cemetery, Livonia.

Mr. Fuller died yesterday after a two-week illness. His body is at the Sparks-Griffin Funeral Home, Pontiac.

He was employed as an insurance salesman.

Surviving are his wife, Carol; his mother, Mrs. Roy Fuller of Arizona; a daughter, Diane and a son, James, both at home; and a sister.

MRS. CHARLES A. HORIST

SOUTHFIELD — Requiem Mass for Mrs. Charles A. (Frances A.) Horist, 45, of 22410 Brookside will be at 9:30 a.m. Saturday at St. Michael Catholic Church. Burial will be in Holy Sepulchre Cemetery.

Mrs. Horist died yesterday after a lengthy illness. Rosary will be recited at 8 p.m. tomorrow at Holy Funeral Home.

Mrs. Haley was a member of the Plum Hollow Golf Club.

Surviving besides her husband are three sons, Ronald, Timothy and Terrance, at home; two daughters, Dawn and Sandra, also at home; her mother, Mrs. Matilda Wozniak of Pontiac; and four sisters.

WAYLAND F. JARVIS

ELBA TOWNSHIP — Service for Wayland F. Jarvis, 32, of 4008 Hunt will be at 1:30 p.m. Saturday at Baird-Newton Funeral Home, Lapeer. Burial will follow in Stiles Cemetery, Mayfield Township.

Mr. Jarvis was electrocuted in an accident at his home yesterday.

Surviving are his wife, Mary; step-mother, Mrs. Peter Jarvis of East Tawas; a daughter, Linda, and two sons, Steven and Thomas, all at home; four sisters and a brother.

DODGEVILLE, Wis. — More than 20 residents of this southwestern Wisconsin city with a 2,500 population have received from \$80 to \$100 in cash in envelopes bearing no return address from an unknown benefactor.

A homicide investigation continues. Weiler said the partly decomposed body was identified by the state police through fingerprints on personal effects.

The victim was slain, Weiler said, by a bullet found lodged against the spine. An odd job worker in the area, St. Clair had lived alone at a downtown apartment. He was the son of Mr. and Mrs. Orlando St. Clair of Boone.

Mental Health Gets Attention

County to Establish Board of 12 for Study

At the urging of County Board of Supervisors Chairman, Delbert Hamlin, the board's ways and means committee yesterday decided to recommend immediate establishment of a 12-member mental health board.

Hamlin said it was important that the new board be able to sit on once with a study that would:

2 Career Girls Found Stabbed

Both Worked in NY, Had Prominent Kin

NEW YORK (UPI)—Two young career girls, one the niece of author Philip Wylie, were found last night stabbed to death and tied together in their apartment on Manhattan's swank East Side.

The victims, found in the bedroom of the flat, were Janice Wylie, 21, an employee of Newsweek Magazine who hoped to become an actress, and Emily Hoffer, 23, daughter of a prominent Minneapolis surgeon, who had planned to start teaching school next month.

The bodies were removed from the third-floor apartment shortly after midnight and taken, still bound together, to the morgue at Bellevue Hospital where autopsies will be performed later today.

NOT BURGLARY

Police virtually ruled out burglary as a motive in the slayings. Dr. Milton Helfers, the city's chief medical examiner, said it did not appear that the women had been sexually molested.

Lawrence McKearney, an assistant chief of detectives, said police had "no suspects" and "no leads." Of the killings, he said: "This is really sadistic."

"We're reaching out for anyone," McKearney said, when asked if he thought police would solve the case soon. "It's a tough one."

The bodies were discovered by the two girls' roommate, Patricia Tolles, 23, and Miss Wylie's father, Max Wylie, an advertising firm executive and author.

Miss Tolles, who has a job with Time Book, Inc., said she last saw her roommates alive when she left the four-room, \$250-a-month apartment at 9:30 a.m. EDT yesterday for work.

When she returned at 6:40 p.m. she said she found the apartment in disarray and, frightened, telephoned Max Wylie, who lives just two blocks away.

It was Wylie who pushed open the bedroom door and found the girls, who had been bound hand and foot and then tied together back-to-back with sheets.

FRANKLIN STOVES

ORIGINATED IN COLONIAL AMERICA
By BENJAMIN FRANKLIN

Wonderful for amusement and family rooms, lake homes and maintenance of early Colonial decorating decor. Fireplace benefits, appeal and comfort at a fraction of fireplace costs.

Benjamin Franklin himself is credited with originating the Franklin stove far back in 1745. Ever since, and continuing to today, its unique performance properties are being recognized and put to use. Far more efficient than a fireplace, but imparts true fireplace coziness and appearance with its wide open front. Holds fire for long periods. The flat top area provides for the coffee pot and cooking utensils; the open fireplace area for barbecuing and open fire broiling.

Mine Rescue Try Halted 24 Hours

NEW PLANS VIEWED—Pontiac Motor Division General Manager E. M. Estes (left) is shown here pointing out the site of a division modernization project to Buel Starr, works manager. Two plants are affected by the program.

Congress Halts Railroad Strike at Last Minute

President Signs Law; Some Say Legislation Only Delays Outbreak

WASHINGTON (AP)—The trains were rolling today, but there were caution lights ahead.

What kept them rolling was strike-blocking legislation quickly enacted yesterday by Congress and signed into law by President Kennedy.

What touches off the note of caution is the view in several quarters that the legislation only serves to delay a future outbreak of discord and a subsequent strike threat.

Racing against the clock—the strike had been set for 12:01 a.m. Eastern Standard Time today—and after four hours of debate, the House at 4:32 p.m. yesterday approved a resolution passed by the Senate Tuesday night calling for binding arbitration of the two major issues in dispute. The House vote was 286 to 66.

Minutes later the threat of a nationwide rail strike was removed. The carriers announced they were taking down notices of new work rules and the heads of the five rail brotherhoods announced they were canceling their strike plans.

Then, at 6:14 p.m., Kennedy signed the measure.

Having previously declared a railroad strike at this time "intolerable," the President said the legislation "reaffirmed the essential priority of the public interest over any narrower interest."

The President's statement appeared, however, to be couched in terms designed to ward off future criticism.

For even as the bill rolled through Congress—after weeks of indecision and numerous but fruitless government-drafted negotiating sessions—there were rumors that it had stalled off a strike for possibly only six months.

GRIM NEWS—A mine rescue worker returns to the surface after the announcement was made that eight are known dead from an explosion Tuesday in a potash mine in Moab, Utah. The blast trapped 25 men more than 2,700 feet underground. Two were rescued; and five others are believed to be alive but trapped.

Efforts Stopped for New Work on Air Pocket

8 Bodies Discovered in Search Last Night; Two Saved Earlier

MOAB, Utah (AP)—Efforts to reach five of seven reported survivors of a mine explosion were temporarily suspended today to establish a fresh air pocket at the base of a 2,700-foot mine shaft.

Casper Nelson, state mine commissioner, said work on the air project may take 24 hours, and during that time rescuers would not go into the tunnels.

Nelson's announcement followed discovery of eight bodies last night, dimming the hope of rescue workers, who had pushed their search since the explosion Tuesday afternoon.

The blast trapped 25 men in Texas Gulf Sulphur Co. \$35-million potash mine. Two men were rescued yesterday in good condition.

They said five of their companions were alive after the blast, barricaded behind debris about 2,100 feet into one of two tunnels extending laterally and downward from the main shaft.

Fate of the other 10 miners was not known.

RESTORED LINE

During the night, Nelson said rescue crews succeeded in restoring the compressed air line leading to the five barricaded miners.

"We're guessing the air is going to the five," he said. "However, rescuers instructed to tap on the line have not received any answering sounds."

Frank Tipple, head of the Texas Gulf potash division, said the general rescue situation: "It does not look good when you find eight bodies."

The first body was removed from the mine shaft early today, shielded from onlookers by blankets. The dead were not immediately identified.

Fears deepened when the Rev. Vernon Kendall announced a temporary morgue would be set up at the Baptist church here.

There were anguished shouts of "No! No!" from several women. (Continued on Page 2, Col. 3)

Expansion of Plant Revealed at Pontiac

A 148,540-square-foot plant expansion program and a 213,574-square-foot modernization project at Pontiac Motor Division were announced today by E. M. Estes, general manager.

Included in this is the creation of a new frame production facility within the complex which will make frames for the smaller General Motors cars, including certain Buick and Oldsmobile models, Chevrolet's new medium-sized Chevelle and the Pontiac Tempest.

The new frame facility be-

came necessary when Pontiac and other GM divisions agreed to abandon the unit-body construction concept.

Plant 15, which was built in 1952 to house the assembly of 20mm guns and cargo carriers for the Army, has been completely renovated for the frame-making operation.

Its use will now be divided between the manufacture of small and medium stampings and the production of frames.

The manufacturing expansion

program is currently under way in Plant 3, Pontiac's final assembly plant.

ASSEMBLY LINE

Included in the program is the addition of more than 1,000 feet to the final assembly line.

The purpose of this is to permit workers to install carpets, kick pads, door mats and air conditioners while the vehicles move down the conveyor.

Other improvements to the final assembly plant include the addition of 10,000 square feet to provide a larger material storage area and the allocation of 40,000 square feet on the second floor for manufacturing space and 80,000 square feet on the third floor for body storage.

By filling in a 10,040 square foot railroad dock, the plant will now also contain a modern mechanism to handle the new frames.

In this operation, frames will be automatically selected, removed from the storage area and positioned on a frame assembly conveyor.

Estes indicated that construction of the new facilities within the division complex is well under way and that many phases of the program are already operative.

Stierer Issue to Resume at 7 P.M. Today

The public hearing into charges of incompetence, irresponsibility and insubordination against suspended City Manager Robert A. Stierer will resume at 7 tonight at City Hall.

Defense witnesses testified on the first of six charges at the opening session Monday. More than half of Monday's session was devoted to arguments over 31 exhibits submitted by the City Commission, three of which were withdrawn.

Commissioners have indicated they hope to conclude the hearing this week, tonight if possible.

Showdown Due on 'Payoffs'

Civil Service Eyes Appointees' Donations

LANSING (AP)—The State Civil Service Commission says it will force a showdown soon on the issue of political payoffs by branch office managers appointed by the office of the secretary of state.

The commission is going to try to make a decision on the issue at its Sept. 18 meeting.

At stake are the commission's paid 230 branch managers, selected by their local county Democratic committees and appointed by Secretary of State James Hare.

Such offices took in \$1.2 million last year.

The money comes from a 30-cent fee for each license plate and auto transfer transaction and 10 cents for sales and use tax processing.

The branch manager system has been a steady contributor to the Democratic party.

Former state chairman Neil Staebler once disclosed that Democrats received \$37,465 in political contributions from the branch managers in the 1958 campaign.

The figure was made public when a bitter party dispute arose over a patronage job in the East Side of Detroit. James Mellon, who ran the office, was dismissed. Mellon reported the job was worth \$25,000 a year in fees.

Mellon said he personally donated better than \$2,000 a year into party funds over a five-year period.

At the time, Hare commented that he "regretted ventilating Democratic dirty linen in this way."

Cool, Wet Weather to Refresh Lawns

A few showers forecast for tonight will refresh lawns and gardens. The weatherman said showers will end in the morning.

Temperatures dropping to near 60 tonight will reach for a high of 72 tomorrow. Fair and cool is the outlook for Saturday.

Morning westerly winds at 1 mile per hour will become 8 to 15 m.p.h. tonight, then shift to north to northeast at 10 to 20 miles Friday.

Rainfall yesterday and early today measured .2 of an inch. The low thermometer reading prior to 8 a.m. was 64. At 1 p.m. the mercury registered 70.

Cost of Living Includes

Price of Taking Survey

TOKYO (UPI)—The American Chamber of Commerce in Japan has notified its members it is dropping a cost-of-living survey because it would be too expensive.

"We now regret to inform you that the project must be dropped for lack of foreseeable funds," Warren L. Corbin, chairman of the cost-of-living subcommittee, said in a letter to members.

After the March

Negroes Await Action

WASHINGTON (AP)—The historic civil rights march on Washington—massive and orderly and moving—has dramatized the wants of Negroes in America, but leaders still faced the task today of trying to turn drama into action.

Speaker after speaker told the 200,000 Negro and white sympathizers massed in front of the Lincoln Memorial yesterday that their demonstration was no more than a beginning.

"Those who hope that the Negro needed to blow off steam and will now be content," said the Rev.

Dr. Martin Luther King Jr., "will have a rude awakening if the nation returns to business as usual."

Demonstrators and their leaders made it clear that one sign of progress, in their view, would be congressional approval of President Kennedy's civil rights bill.

But there was no evidence that the demonstration would move the Congress into any faster consideration of the bill.

Kennedy, like the civil rights leaders, also talked in terms of a beginning. He met with King and the other civil rights leaders after the demonstration and said, "We have a long way yet to travel."

But the President also said the cause of 20 million Negroes has been advanced by the protest. (Continued on Page 2, Col. 1)

WASHINGTON (AP)—The historic civil rights march on Washington—massive and orderly and moving—has dramatized the wants of Negroes in America, but leaders still faced the task today of trying to turn drama into action.

Speaker after speaker told the 200,000 Negro and white sympathizers massed in front of the Lincoln Memorial yesterday that their demonstration was no more than a beginning.

"Those who hope that the Negro needed to blow off steam and will now be content," said the Rev.

Dr. Martin Luther King Jr., "will have a rude awakening if the nation returns to business as usual."

Demonstrators and their leaders made it clear that one sign of progress, in their view, would be congressional approval of President Kennedy's civil rights bill.

But there was no evidence that the demonstration would move the Congress into any faster consideration of the bill.

But the President also said the cause of 20 million Negroes has been advanced by the protest. (Continued on Page 2, Col. 1)

County Police Units Gird for Labor Day

Maximum traffic enforcement on Oakland County roads during the long Labor Day weekend has been promised by the state police and sheriff's department.

Added patrols from both departments will be on the road during the 78-hour period, beginning at 6 p.m. Friday and ending midnight Monday.

In Waterford Township, police will go on 12-hour shifts from tomorrow morning until Tuesday morning in a stepped-up traffic enforcement program for the holiday weekend.

Police Chief Millard Pender said all leaves have been canceled for the period to provide a six-car patrol force throughout the weekend.

Pontiac State Police Post Commander John Ambros said that all pass days for his men have been canceled during this period to provide the extra manpower.

"When traffic is heaviest between the hours of 3 and 9 p.m., there will be 12 patrol cars on the road," said Sgt. Ambros.

The driver, Joseph M. Nagy, 18, of 3197 Melvin, Rochester, is in critical condition in Mt. Clemens General Hospital with multiple fractures and severe internal injuries.

Carl Linke was listed in fair condition in Mt. Clemens St. Joseph Mercy Hospital. He suffered a fractured pelvis and leg.

State police of the Centering post said the Nagy auto, going west on 184-Mile Road, failed to stop for a stop sign at the Mound intersection and was struck broadside by the Atherton vehicle.

Nagy's car, police added, was forced to the shoulder on the west side of Mound. After the impact, Atherton's car spun sideways in the middle of Mound and was struck broadside by an auto driven by Miss Minnie J. Taylor, 52, of Detroit.

Coroner Raymond Markle, M.D., of Roseville, pronounced Atherton dead at the scene. Linke died in the hospital just over two hours after the 12:45 a.m. smashup.

Miss Taylor, according to police, suffered cuts and bruises. Trooper Louis Adams said the road was wet, but it was not raining at the time of the accident. He added that the speed of the vehicles had not been established.

Linke is survived by his parents, Mr. and Mrs. Carl H. Linke; grandparents Mr. and Mrs. Candido Ciofelli of Detroit; a sister Cindy and two other brothers at home, Marvin and Dennis.

Requiem Mass will be 10 a.m. Saturday at St. Andrews Church, Rochester.

The Rosary will be recited 8:30 p.m. tomorrow at the William R. Potere Funeral Home, Rochester.

Hope for Bova Flickers, Fades

HAZLETON, Pa. (AP)—Hope of finding Louis Bova alive flickered for a moment today, then died out, as rescue probes with renewed determination for the miner's fate through four separate shafts.

The crews were electrified—but only for a fast-fading flash—when Daniel Bova, a brother of the 54-year-old Louis, said he thought he heard a voice calling out weakly, "Hello, hello," over a sensitive microphone lowered into one hole.

In that moment, the crews took fresh heart in their efforts to bring out Bova, who was entombed Aug. 13 over 300 feet down in the nearby Sherburne coal mine along with David Fellin, 54, and Henry Thrane, 28.

Those two are recuperating in Hazleton State Hospital after their dramatic rescue early Tuesday.

But a tape recording of the sound Daniel Bova heard was played back, with the volume increased—and it turned out to be only sound sifting down an underground slope.

Mine experts ruled out any likelihood that it could have been a voice.

Pontiac Music Teacher to Be Honored

A music instructor in the Pontiac Public Schools will be among 33 teachers and educators honored during Teachers Day ceremonies at the Michigan State Fair tomorrow. All teachers and educators will be admitted free until 3 p. m. on this day.

Rosamond Haerberle, West Huron Street, will receive her award in the Music Shell. A reception in the adjoining Symphony Gardens will follow.

Miss Haerberle received her education at Kansas State University and Northwestern University. She taught eight years in Kansas schools and three years in Waterford Township before coming to Pontiac in 1947.

Active in many organiza-

tions, Miss Haerberle has been president of the Pontiac Women's Chorus, the Pontiac Business and Professional Women's Club,

MISS HAEBERLE

Upholstery Fabric

A tightly-woven fabric wears better for upholstery than a loose weave, even if the material is heavy.

Test Dark Corduroy for Lasting Color

It's a good idea to apply a simple color test when purchasing dark-colored corduroy.

To test for color permanence, take a white handkerchief and rub the surface of the fabric briskly.

If the color comes off, you can expect it to rub off on other clothing. And, if the color rubs off when dry, the problem will be worse when the material is being laundered.

YOU GET MORE
IN AN ARTHUR'S
Brantwood
Coat
... yet you pay
no more!

Because...

1. The furs are the finest.
2. The fabrics are warm and long wearing.
3. The inner construction and tailoring are lasting.
4. More fur, more fashion, more value in Arthur's coat.
