'Military OK'd Pact Without Pressure'

WASHINGTON (AP) — Gen. Maxwell D. Taylor testified today that the Joint Chiefs of Staff agreed to support the limited test-ban treaty without any "pressure" or "arm twisting" from civilian superiors in the Pentagon.

Taylor, chairman of the joint chiefs, said the top military command was consulted in advance of the

Chrysler After 1 Million Sales

14 Per Cent of Market Expected Next Year

By JOHN J. CROWLEY
City Editor, The Pontiac Press
SAN FRANCISCO — Chrysler Corp. expects to sell a million cars in 1964, for 14 per cent of the market, Lynn A. Townsend, Chrysler's president, said today.

He said the company's goal is to top this year's mark of 917,000, which Chrysler sold 12.5 per cent share of domestic auto sales.

Townsend declined comment on whether Chrysler plans any price changes when most models go on public display Sept. 20.

He confirmed that the first of Chrysler's turbine engine cars will be delivered this fall. This will be two months later than originally planned because the firm didn't want to divert its regular production.

Townsend said several turbine cars have been built and have undergone further improvements since they were previewed by newsmen last spring.

During the news conference he dodged questions about whether a V8 engine will be made available for the compact Valiant line.

\$7-Million Train Robbery Cracked

From Our News Wires
LONDON — Scotland Yard today cracked the \$7.1-million mail train robbery case—one week to the day after it occurred.

The police arrested three men and two women and it was unofficially reported that about \$220,000 of the loot was recovered. Unconfirmed reports said eight

other persons were taken into custody. None was identified.

An official police announcement said two of the men were seized "for complicity in the mail robbery."

They were arrested at Bourne-mouth, a seaside resort, less than 100 miles from the place in Buckinghamshire where a gang of bandits hijacked a royal mail train last Thursday and made off

with 120 bags containing 2½ tons of worn, but valid, pound notes.

Both men, according to the police, put up a struggle and had to be subdued by arresting officers. About 100,000 pounds (\$200,000) was reportedly found in two cars they had.

The other suspects—a man and two women—were arrested in raids on London homes by Scotland Yard's "flying squad" of

detectives, but the police made no formal announcement about them. It was reported that about 500 pounds (\$1,000) was recovered in those raids.

The money found in the possession of the two men arrested at Bourne-mouth was said to be in old notes, similar to the bills which British banks had placed on the train so that they could

be taken to London, destroyed and replaced by new currency.

A police source in the resort city said the arrests followed a tip from an unidentified woman who became suspicious when the men asked for rooms at her boarding house.

TO SCENE OF CRIME

The men were to be taken today to Buckinghamshire.

Scotland yard checked scores of scattered leads and suspects.

The Daily Mirror reported from Cannes on the French Riviera that Billy Hill, a confessed British ex-gangster, had denied masterminding the robbery.

There had been persistent reports that the brain behind the robbery may have headed for the French Riviera days before the robbery to give himself an alibi.

China Charges Russia Broke Atom Promise

Nik Held Responsible for Failure to Share Nuclear Arms Secrets

TOKYO (AP) — Red China charged today that Soviet Premier Khrushchev welshed on a promise to teach it how to make atomic bombs in order to please President Eisenhower at the Camp David talks four years ago.

In a biting statement broadcast by the New China News Agency, a spokesman for the Chinese government said the Soviet Union on June 20, 1959, "when there was not the slightest sign of a treaty on stopping nuclear tests, refused to provide China with a sample of an atomic bomb and technical data concerning its manufacture."

The statement said this "unilaterally tore up the agreement on new technology for a national defense concluded between China and the Soviet Union on Oct. 15, 1957."

"This was done as a presentation gift at the time the Soviet leader (Premier Khrushchev) went to the United States for talks with Eisenhower," the statement asserted.

Raising a new angle in the Moscow-Peking feud, the Red Chinese spokesman charged that Soviet leaders "would not hesitate to obliterate the international position" of Communist East Germany "in order to curry favor with U.S. imperialism."

"Formerly we thought the Soviet leaders were genuinely afraid of the West German militarists' coming into possession of nuclear weapons," the Chinese said.

"Now we see that they trust U.S. imperialism and that it does not matter if the West German militarists possess nuclear weapons provided they are under the control of the United States."

The statement said, "the real aim of the Soviet leaders is to compromise with the United States in order to seek monetary ease and to maintain a monopoly of nuclear weapons and lord it over in the socialist camp."

High of 78 Seen for Area Friday, Rain on Saturday

The mercury will have a little more pep tomorrow, climbing to a high of 78, says the weatherman. A low of 54 is foreseen tonight.

Sunny skies will remain with no rain expected until Saturday.

Westerly winds at 5 to 12 m.p.h. are blowing over the area today, becoming northerly at 10 to 20 m.p.h. tonight and diminishing tomorrow.

The lowest thermometer reading in downtown Pontiac preceding 8 a.m. was a chilly 51. At 2 p.m. the temperature stood at 75.

Dividend Tax Next Problem

Ways, Means Faces Party-Line Battle

WASHINGTON (AP) — Fresh from approving individual and corporate tax cuts, the House Ways and Means Committee plunges today into a stiff party-line battle over dividend taxation.

The Kennedy administration wants to repeal the dividend tax credits which were instituted dur-

ing the Eisenhower administration.

The committee yesterday gave its approval to the heart of President Kennedy's tax program to leave in the hands of individual and corporate taxpayers more than \$10.5 billion now paid in taxes.

The administration counts on the cut to boost the economy and eventually balance the Treasury's books.

If the individual tax cut program survives the fights ahead in House and Senate and becomes law this year, some of the reductions would begin to show up in increased take-home pay after next Jan. 1.

MAIL BAGS FOUND—Mailbags from the London-bound train which was held up and robbed last Thursday are unloaded at police headquarters in Aylesbury, Buckinghamshire,

England today. Police found the bags, some of them stuffed with hay. According to police, \$200,000 of the loot has been recovered.

Detectives have discovered the lonely farmhouse the bandits used as a hideout. They have, but won't disclose, the name and address of the men who bought the place less than a month ago.

A senior Scotland Yard officer said last night police knew the identity of some of the 10 to 15 men who took part in the ambush.

"It is now a question of finding where they are," he said.

Police were counting on the unprecedented bait of \$728,000 in reward money to induce underworld sources to turn in the gang. Meanwhile, they continued the all-out search that was launched soon after the crime was discovered.

FLYING SQUADS
"Flying squads" of detectives specially trained to take part in raids were reported to have swooped down on at least scores of homes last night and today.

The London Daily Telegraph said "hundreds of houses" were visited and searched.

A Scotland Yard spokesman maintained the usual close-mouthed attitude on the reports. "I can't possibly say anything about them," he said.

But it was known that many persons were questioned about their connection with the suspects and their movements before and after the train robbery.

It was believed the list of suspected gang members and accomplices runs anywhere from 10 to 19 names.

Cubans Kidnap 19 Refugees

WASHINGTON (AP) — Men from two Cuban warships and a helicopter kidnaped 19 Cuban refugees from a British Caribbean island Tuesday while U.S. warplanes watched, the State Department disclosed today.

Word of the action at Anguilla Key was given by press officer Richard I. Phillips as a U.S. Coast Guard ship sailed into Key West with 10 other refugees who escaped.

Phillips said the U.S. Coast Guard patrol planes and U.S. fighter craft which saw the seizure "were not in a position" to

do anything about it because of international law.

Anguilla Key is about 40 or 50 miles from Cuba, in the Cay Sal Bank of the Bahamas Islands which is British territory, he said.

The spokesman said the American aircraft did not radio the British while the action was under way, but the United States gave its information to British authorities subsequently in Nassau, the Bahamas' capital, and Washington.

The British then asked that the U.S. forces rescue the remaining Cubans on the island, he said. The rescue vessel was the Coast Guard ship Ariadne.

Phillips subscribed to the word "kidnap" as a description of the Cuban action against the refugees who had been at the island, uninhabited island Monday.

The 10 rescued, Phillips said, included a woman and a child, who said they escaped by hiding.

News Flash

UNITY HOUSE, Pa. (AP) — AFL-CIO President George Meany said today Labor Secretary W. Willard Wirtz has made a proposal to settle the railroad dispute which was accepted by five rail unions this week.

From GI to City Manager

Stierer's Background Varied

What is the professional background and experience of Robert A. Stierer, city manager suspended by the Pontiac City Commission for incompetence, insubordination and irresponsibility?

Stierer, 42, graduated from the University of Chicago in 1942 with a bachelor's degree in social sciences.

He served in the U.S. Army and Air Force from December 1942 to February 1946 as a first sergeant.

He was with the 86th Infantry Division in the final stages of the campaign in Europe, and won a Bronze Star decoration for meritorious and heroic service in maintaining communications under enemy fire at the Altmuhl River (Germany) in April 1945.

He also served on Luzon in the Philippines after the war was over.

Returning to civilian life, he took graduate work in political science at the University of Chicago in 1947.

He was employed by Science Research Associates in Chicago when hand-picked by former City Manager Walter K. Willman to be Willman's administrative assistant in 1956.

Before that, he had served five years as administrative assistant to Chicago Alderman Robert E. Merriam.

For three years, from 1949 to 1952, he was employed by the State of Illinois as a research analyst in the finance department, assistant to the state purchasing agent and a commodities buyer.

He is married and the father of two children.

Stierer was under added pressure in recent weeks due to illness in the family. His wife,

Mary, underwent major surgery in Chicago July 31.

After coming to Pontiac, Stierer quickly became Willman's right-hand man in many areas.

He coordinated the city's urban renewal programs and was active in city planning. He was also responsible for public relations.

Stierer was director of Pontiac's civil defense program and aided in the annual city budget preparation.

In 1960, he was named assistant city manager at Willman's request and two years later, the retiring city manager recommended Stierer as his successor.

He is a member of the International City Managers Association and was appointed by former Gov. John B. Swainson to the Detroit Metropolitan Area Regional Planning Commission last October.

The reduction on real estate amounts to \$29.1 million, said in announcing the commission's decision shortly before 1 p.m. GM had asked for a \$1.8-million reduction on real estate.

The corporation had argued that Bloer's formula for assessing personal property, especially machinery and equipment, didn't allow for depreciation due to age.

Bloer said he had no way of knowing if property values reported to him by GM each year were accurate.

The tax commission's action will result in a \$27.8-million decrease in Pontiac's 1963 tax base. This will necessitate a budget revision or a higher tax rate than the \$14.65 per \$1,000 previously planned.

Robert Eckhardt, tax commission chairman, said the commission reduced GM's local assessed value on personal property by \$27.6 million. The corporation had asked for a \$32-million reduction.

Most of the reduction was on Bloer's assessed value of personal property.

Robert Eckhardt, tax commission chairman, said the commission reduced GM's local assessed value on personal property by \$27.6 million. The corporation had asked for a \$32-million reduction.

Judge to View Drain Between 2 Area Lakes

Circuit Judge William J. Beer was to leave his courtroom this afternoon to make an on-the-spot inspection of a plugged culvert which a group of Williams Lake residents blame for the lake's low water level.

Judge Beer this morning made a 1:30 p.m. appointment with opposing attorneys at the site.

He said he wanted to see the culvert before ruling on a request by the residents for a temporary injunction, forcing the Oakland County Road Commission to remove its concrete plug.

LeRoy W. McEntee, attorney for the road commission, argued at this morning's hearing that it had not been established that a natural water course existed between Williams and Maceyda lakes where the culvert lies, under Williams Lake Road.

McEntee said there had been no showing that the plugging had interfered with anyone's legal rights.

"We have the legal right to block it," he said.

Judge Beer said he would grant the injunction only if it were shown that the road commission's action was illegal.

McEntee maintained that no proof was given to show that unplugging the culvert would raise the lake's level. "There could be a lot of other factors," he said.

John E. McGrath, attorney for the group of residents, filed suit May 29 for a permanent injunction against continuing existence of the plug.

McGrath claims it interferes with the natural flow of water between the two lakes.

Berkley; Jack Zeunen, manager of Detroit Edison Co.'s Pontiac branch office; and Nathan Bressler, president of West Detroit Glass of Pontiac, Inc.

Bank Exec Expires in Hospital

William A. Eubank, vice president and cashier of Pontiac State Bank, died shortly after midnight at Henry Ford Hospital. He was 65.

Service will be 3 p.m. Saturday at the Wm. Sullivan & Son Funeral Home, 705 W. 11 Mile Road, Royal Oak, with burial following in White Chapel Memorial Cemetery.

Mr. Eubank, of 1103 N. Pleasant, Royal Oak, was born in Bedford, Va., the son of Mr. and Mrs. William Eubank. He received his education at Randolph Macon Academy and the University of Virginia.

Before coming to Pontiac in 1940 he was employed at the Dime Savings Bank in Detroit and taught high school science and mathematics while serving as chief accountant for the Guardian Detroit Union Group, formerly a group of banks.

An assistant auditor of the Detroit Federal Reserve Bank, he also was auditor of Wayne Oakland Bank in Royal Oak.

In May 1945, Mr. Eubank was appointed cashier of Pontiac State Bank and in January of this year became a vice president.

A member of the First Congregational Church of Royal Oak, he served four years on the Royal Oak Board of Education and was a member and director of the Kiwanis Club there.

A past president of the Detroit Conference of Bank Auditors and Controllers, Mr. Eubank also had been president of the Oakland County Bankers' Association. He was appointed a member of the Oakland County Tax Allocation Board in 1948.

Surviving are his wife, Hazel; a daughter, Mrs. Dorothy Hapell; a son, William J.; three granddaughters; and three sisters.

WILLIAM A. EUBANK

Recover Body in Sylvan Lake

Sheriff's skindivers this morning recovered the body of a Pontiac man who drowned in Sylvan Lake last night.

The body of Hensil Conway, 57, of 8 Edna, was found tangled in weeds in 12 feet

of water and 250 yards off shore from 2070 Fernside. The sheriff's department first suspected a drowning when David H. Warrilow, a captain with the Pontiac Fire Department, saw the boat drifting on the lake.

Police said Conway had left home at 6 p.m. last night to go fishing. His equipment was found in the boat.

Mrs. J. S. Farmer, of 2872 Grandview, told police that at 8 p.m. yesterday she heard screams of help but thought it was children playing.

Deputies Edward Tessier and Lyle Wilcox recovered Conway's body at 9:30 a.m.

Puerto Rican House

Dates Back to 1521

The oldest continuously inhabited European home in the Western Hemisphere is the Casa Blanca, or White House, in San Juan, Puerto Rico, the National Geographic Magazine says. Begun in 1521, it has survived five major military sieges, as well as an earthquake and hurricane. It is now the residence of the senior United States commander there.

President Quits Post in Congo

Angry Public Demands Force Youlou to Leave

BRAZZAVILLE, Congo Republic—President Fulbert Youlou resigned by angry public demand today and the army assumed power until a new government can be formed. There is no way of knowing now who will succeed him.

Two army captains named Mouzabakany and Moutsaka were placed for the time being in joint command of this young equatorial African nation, a little neighbor of the more widely known former Belgian Congo.

The only chief executive the Congo Republic has ever had, Youlou gave up the presidency on the third anniversary of its independence from France under the pressure of rioting and unrest among strikers hotly opposed to his political and social policies.

The stocky little one-time Roman Catholic Parish Priest, 46, made his announcement from more than 10,000 Congolese demanding his resignation.

Held off by locked gates and heavily armed African troops and given French command they shouted, "Give us bread. Give us bread."

The people had long chafed against political and economic conditions in this largely agricultural nation of 795,000 and they had won their point.

The demonstrators trooped back to squallid African villages on Brazzaville's outskirts to savor their victory.

She Got Heated Up Over Staff of Life

WIMBLEDON, England (UPI)—Baker Thomas Walters was fined \$28 (10 pounds) yesterday for selling bread that was not up to standard.

A woman testified she ate a slice of the Walters' bread and found a glass thermometer in it.

Deputies Edward Tessier and Lyle Wilcox recovered Conway's body at 9:30 a.m.

Commission to Consider Zone Ordinance Proposal

that use the park and traffic on Southfield.

Reports received, however, from the Parks and Forestry Department and the Recreation Board, stated that the installation of the fence was not warranted at present because the area was not developed sufficiently to attract youngsters.

City Manager L. R. Gare said most of the activity is on the east side of the park. The fence was proposed for the west side.

At the same time they will probably hear from a property owner whose development plans hinge on the success of the proposed ordinance.

The controversial zoning code has been in preparation for more than two years.

For most of that period, M. E. Snyder has been awaiting the outcome, blueprints in hand.

Snyder wants to construct a multiple residence building with eight units rather than the four now allowed. The nine-acre site is on the east side of Barden at Barbours.

He would also have a two-story structure with each unit on a single floor. The present code states that any structure must be at least partially on ground level.

The proposed zoning ordinance would allow Snyder's plans to be fulfilled. Otherwise, it would be necessary for him to see an amendment to the ordinance.

Snyder told city planners Tuesday he was getting tired of waiting and will start proceedings to have the present ordinance amended.

Whether the amendment can be adopted before an entire ordinance is approved becomes an interesting question as the latter heads back into the public forum.

A proposal to build a fence on the Southfield side of Crestview Park has been rejected by the City Commission as not being necessary at this time.

Commissioner Robert Page sometime ago suggested that the fence be erected as a safety barrier between the children

City C. of C. Frolics to a Big Success

Well over 400 members of the Pontiac Area Chamber of Commerce and their guests turned out for the chamber's annual frolic yesterday at Pontiac Country Club.

"It was the most successful frolic we've ever had," said Max Adams, manager. "We had the biggest turnover ever."

The event included a day of golfing, a luncheon, dinner, entertainment and some 100 prizes.

Highlight of the affair was Mark Russell, nightclub comic and pianist brought here from Washington, D.C., with Sidney Yudin, master-of-ceremonies.

Chamber President Dr. F. Milton Hathaway, presented a plaque to Nathan Bressler, who was the chamber's top salesman in a recent membership drive.

Downpour Injures 25

HERMOSILLO, Mex. (AP)—A violent rainstorm struck this town in northwestern Mexico last night, slightly injuring 25 persons and causing damage estimated at \$10,000. The weather bureau said 4.4 inches of rain fell in 14 hours—the heaviest downpour ever recorded in the region.

The pipeline will make Detroit water available initially to 10,000 users in the township. About 3,000 of these are presently served by township wells while 7,000 have private wells.

Detroit water will cost 30 cents per thousand gallons. The township has been charging 20 cents per thousand gallons of well water.

The wells have been deemed inadequate to meet the water needs of a growing population.

The pipeline also will be able to provide Bloomfield Hills with Detroit water if required by future needs.

The contracts were given to the low bidders on six separate sections of the 22-mile-long pipeline slated for completion next May.

County engineers said the construction bids amounted to about \$35,000 less than their estimate.

CONTRACT WINNERS

Winning the contracts were Faltore Co. of Center Line for two sections totaling \$208,230; Harbison Construction Co. of Troy, \$242,744; Gay Brothers Construction, Inc., of 822 Crestview in the township, \$265,190; and Greenfield Construction Co. of Detroit, two sections totaling \$384,244.

Construction is scheduled to begin simultaneously on all six sections in mid-October.

The sale of bonds to finance the costs is awaiting approval by the State Municipal Finance Commission in Lansing.

The bonds are to be redeemed during the next 30 years through debt retirement service charges to customers.

The wells have been deemed inadequate to meet the water needs of a growing population.

The pipeline also will be able to provide Bloomfield Hills with Detroit water if required by future needs.

The contracts were given to the low bidders on six separate sections of the 22-mile-long pipeline slated for completion next May.

County engineers said the construction bids amounted to about \$35,000 less than their estimate.

CONTRACT WINNERS

Winning the contracts were Faltore Co. of Center Line for two sections totaling \$208,230; Harbison Construction Co. of Troy, \$242,744; Gay Brothers Construction, Inc., of 822 Crestview in the township, \$265,190; and Greenfield Construction Co. of Detroit, two sections totaling \$384,244.

Construction is scheduled to begin simultaneously on all six sections in mid-October.

The sale of bonds to finance the costs is awaiting approval by the State Municipal Finance Commission in Lansing.

The bonds are to be redeemed during the next 30 years through debt retirement service charges to customers.

The pipeline will make Detroit water available initially to 10,000 users in the township. About 3,000 of these are presently served by township wells while 7,000 have private wells.

Detroit water will cost 30 cents per thousand gallons. The township has been charging 20 cents per thousand gallons of well water.

The wells have been deemed inadequate to meet the water needs of a growing population.

The pipeline also will be able to provide Bloomfield Hills with Detroit water if required by future needs.

Petitions Back Up Ousted Troy Chief

TROY—The man heading a petition drive for reinstatement of ousted Police Chief David Grattopp said yesterday "It is very probable we will have collected 3,000 signatures by this weekend."

William F. Whitcomb Jr., drafted the petitions, which call Grattopp's dismissal "wholly unjustified and not in the best interests of the city of Troy."

AREA NEWS

They also appeal to the commission to "reconsider its action."

Whitcomb said he did not know the former chief until he attended last week's public hearing, when Grattopp stated his position and countered charges made by City Manager David Firestone.

NEVER KNEW HIM

"I had never known him myself," Whitcomb said. "But most of the people at the hearing seemed to want to express their opinions on a bigger scale."

The Troy resident, who lives at 3141 McClure, said about 100 petitions are being circulated throughout the city, with workers canvassing door-to-door.

"As far as I can see, the people here have pretty well made up their minds to sign them," he said.

Any resident over 21 can sign, he added, whether or not he is a qualified voter.

Whitcomb isn't sure what action will be taken when he turns over the petitions to the City Commission.

"Dave Grattopp was accused of being insubordinate," he said. "If the commissioners don't act on these signatures they could be considered insubordinate to the citizens of Troy."

Firestone fired Grattopp two weeks ago after "written and verbal warnings for more than a year." He said the ousted chief lacked the administrative capability to run the department.

The city manager's action was backed by a 5-4 vote of confidence by the City Commission.

At the hearing last week, Grattopp said his department could not comply with the administrative requests of Firestone because "we did not have enough help to take care of the book work needed."

A majority of the 300 people attending the hearing expressed agreement with Grattopp's stand, by cheering his comments, and booing Firestone.

The petitions now being gathered for Grattopp are expected to be presented to the commission at its Aug. 26 regular meeting.

The board referred the bids to Public Works Director R. J. Alexander and his staff for tabulation and recommendation to the County Board of Supervisors Sept. 9 when it is expected to award the contract.

Construction is scheduled to begin by Oct. 1 with completion of the project within 170 days.

It will replace septic tanks presently serving some 250 homes and a shopping center in the Orchard Lake - Middle Belt roads area.

It also will allow for further development in the area limited thus far by the use of septic tanks.

The arm will be an extension of the Farmington Disposal System, which carries sewage into Detroit for treatment.

The awarding of the construction contract will be made subject to the sale of a \$128,000 bond issue to partially finance the project. The 30-year bond sale has been approved by the State Municipal Finance Commission.

An additional \$111,400 has been granted by the federal government under the Accelerated Public Works Act.

OFFICIAL DELEGATES — Representing southeastern Michigan Junior Achievement organizations at the 26th National Junior Achievement's Conference are Steve VanGilder, 18, of 3341 Bathurst, Avon Township (left), and Ted Villella, 16, of 4790 Elizabeth Lake, Waterford Township. The area business teens joined more than 1,000 other achievers from coast to coast for the five-day conference that ends today at Bloomington, Ind.

County Receives Low Bid on Sylvan Manor Sewer

WEST BLOOMFIELD TOWNSHIP — A low bid of \$185,126 to construct the Sylvan Manor sewer arm in West Bloomfield Township was received yesterday by the County Board of Public Works.

The bid was submitted by the Piccirilli Construction Co. of Detroit. It was \$23,485 below the second-low bidder, and fell within the range of the county engineers' estimate for the job.

Altogether, four contractors bid on the project. The highest bid was \$341,281.

The board referred the bids to Public Works Director R. J. Alexander and his staff for tabulation and recommendation to the County Board of Supervisors Sept. 9 when it is expected to award the contract.

Construction is scheduled to begin by Oct. 1 with completion of the project within 170 days.

It will replace septic tanks presently serving some 250 homes and a shopping center in the Orchard Lake - Middle Belt roads area.

It also will allow for further development in the area limited thus far by the use of septic tanks.

The arm will be an extension of the Farmington Disposal System, which carries sewage into Detroit for treatment.

The awarding of the construction contract will be made subject to the sale of a \$128,000 bond issue to partially finance the project. The 30-year bond sale has been approved by the State Municipal Finance Commission.

An additional \$111,400 has been granted by the federal government under the Accelerated Public Works Act.

Other 1963-64 directors are Charles R. Black, 2099 Ridge; Ray W. Blanchard, 3127 Ridge; David G. Campbell, 3183 Jackson; Stanley P. Newton, 3968 Hillcrest; Fred G. Niebrugge, 4274 Jackson; and Allen L. Sweet, 3253 Ridge.

The league's membership numbers several hundred property owners around the lake in both White Lake and Highland townships.

Organized on an informal basis several years ago, the group was incorporated last year.

Concerned with the riparian rights of its members, the league is also interested in general area problems like weed control, traffic signs, lighting and conservation restrictions.

Saturday Homecoming Set for Seymour Lake

BRANDON TOWNSHIP — The annual Seymour Lake homecoming will be held Saturday at the Seymour Lake Methodist Church on Sashabaw.

Members of the Women's Society for Christian Service will serve dinner at noon. Rev. Kyle Elliott, former pastor of the church, will speak during the program scheduled to begin at 2 p.m.

WED 50 YEARS — Mr. and Mrs. Elroy J. Trim will observe their 50th wedding anniversary Tuesday at a family dinner at their home, 2138 Crosby Lake, Springfield Township. The couple has a son, Russell, of 9131 Crosby Lake, and three grandchildren.

Lake Orion Women Plan Fashion Party

LAKE ORION — Reservation p.m. in the undercroft room of St. Marys in the Hills Episcopal Church, corner of Joslyn and Greenfield roads, Orion Township.

Modeling for the Sweetheart Shop in Lake Orion will be Dianne Burde, Mrs. Edward Bretzloff and daughter Tami, Mrs. Rell Ambrose and Mrs. William Berdige.

Showing fall fashions from the Clothes Closet in Oxford will be Mrs. Lynn Appleby, Mrs. Dexter Garbet, Mrs. Jerry DuBois, Mrs. Howard Thatcher and Mrs. Theodore Gawry.

Style trends from the Suburban Shoppe in Oxford will be shown by Mrs. Ralph Shell, Patricia Trimble, Mrs. Frank Bellville and Mrs. Bruce Trimble.

Mrs. Ray Van Wagoner will be fashion commentator.

Acting as general chairman is Mrs. Harry Slater.

Persons interested in obtaining tickets or making reservations should contact Mrs. Harry Slater, 1190 Seneca, or Mrs. H. W. Robinson, 210 N. Broadway, by Monday.

Vows Spoken in Ceremony at Davisburg

DAVISBURG — Shirley Fair McAllister of Plymouth and Harold Ridout exchanged their marriage vows recently before Rev. J. T. Whitehead of the White Lake Presbyterian Church.

The ceremony took place at the home of the bridegroom's brother-in-law and sister, Mr. and Mrs. Foster Brendel, on Brendel Road.

Parents of the bridegroom are Mr. and Mrs. Harry Ridout, 5144 Ormond.

Mrs. Helen F. Welch of Lake Worth, Fla., attended her sister as matron of honor. Best man was Walter Rudok of White Lake, Mich.

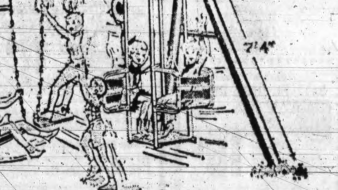

After a reception, the newlyweds left on a honeymoon trip to Niagara Falls. They will reside at Watkins Lake.

Road Toll Hits 1,026

EAST LANSING (UPI) — State police said today the Michigan traffic death toll has increased to 1,026 for 1963. This compares to 907 persons killed on state highways in a similar period last year.

Out to Integrate Suburbs

Aid Sought for Negroes' Move

DETROIT UP — Detroit's churches are being asked to aid in a civil rights group's project of movement of Negroes into all-white suburbs.

Representatives of several suburbs were so informed yesterday at a meeting to which they had been invited by James Del Rio, chairman of the housing committee of the Detroit Council for Human Rights.

Del Rio, Negro real estate man who had a role in Pontiac's homes integration, told the group of a council plan to recruit Negro families for acquisition of federally owned suburban homes.

The Detroit churches, Del Rio said, are being asked to recommend Negro families as renters or buyers.

Del Rio said he was not asking approval from the suburban officials at the meeting but that he was requesting their cooperation.

He said he asked cooperation in the interests of keeping peace and protecting the Negro families.

Sixteen suburbs had been invited to the meeting. Mayor Mark E. Storen of Highland Park was in reprint form.

the only mayor who attended. Numerous city officials are in Houston, Tex., at a national municipal conference.

William Day, president of the Michigan Bell Telephone Co., attended as a city councilman of Grosse Pointe. The meeting

Schools Print Pictorial Book

ORCHARD LAKE — This year's edition of the Orchard Lake Schools annual publication, The Eagle, traces the history of Polish-American parishes in America.

The 268-page book also reviews pictorially student life on the campus of the three Orchard Lake schools: SS Cyril and Methodius Seminary, St. Mary College and St. Mary Preparatory.

The research theme of the publication is available to the public in reprint form.

was held at the Detroit Urban League Office.

Mayor Storen indicated he felt Del Rio acted properly.

"I think he issued a warning to city officials that Negroes will move into their communities," Storen said. "He asked us for protection and I think we are bound by our offices to give it to them."

PLEASED WITH MEETING

Del Rio said he was pleased with the meeting, particularly because Dearborn and Grosse Pointe were represented.

Del Rio said invitations had been sent to the mayors and councilmen of all the suburbs except those of Oakland County and to the chairmen of the boards of supervisors of Oakland, Wayne and Macomb counties.

He said the Council for Human Rights will give information to Negro families on 5,000 Detroit area homes which have been repossessed by the Federal Housing Administration (FHA) and are covered by President Kennedy's antisegregation executive order.

Junior Editors Quiz on WEIGHTS

QUESTION: Why does lb. stand for pound and oz. for ounce?

ANSWER: Early in English history a standard pound weight was established, used both for weighing the precious metal early money was made of and other things as well. In old documents often written in Latin, the Latin word "libra" was used for pound, and this became shortened to "lb."

This abbreviation then became used when writing in English. "Oz." for "ounce," comes from an old Spanish gold coin, the doubloon, which had the value of 16 dollars and was widely circulated and used at one time by people in many countries.

This coin was often referred to as a "Spanish ounce." The Spanish word for ounce being "onza," the abbreviation "oz." became used in much the same way as a "lb." came from "libra."

Today, "avoirdupois weight" is used for weighing almost all commodities; it has 16 ounces to the pound. Sometimes fractions of a pound are used instead of ounces, as the bag of apples might weigh 2 1/2 lbs.

In "fluid measure" 16 ounces equal one pint. Jewelers use "troy weight" with 12 ounces to the pound for weighing precious metals. The "metric system" is used by druggists when they compound prescriptions, and by scientists.

FOR YOU TO DO: Check on some food items in your local stores to see how the weights are shown on the packages.

Grocery Store Thieves Take Burglar Alarm

TUCSON, Ariz. (AP) — There was a reason why the alarm attached \$175.

to the grocery store safe didn't go off when the safe was stolen. Thieves had stolen the burglar alarm first. The safe contained \$2,400. The alarm was valued at \$175.

Press Wishes Success for United Fund Drive

With announcement of the 1963 goal of \$776,700, the Pontiac Area United Fund points toward the 15th annual solicitation campaign, planned for early October.

The amount to be raised for the 55 agencies flying the UF banner represents a 10 per cent increase over last year. The increase is a conservative one, necessitated by rising costs in administration and functions, and the spiraling growth of area population.

Efficacy of the "give once for all"

plan of charitable contribution has been fully proven in our region and wherever adopted. The plan is a businesslike approach to community welfare needs, and insures a fair allocation of funds to each agency in relation to the others.

General chairman for the 1963-64 fund program is E. M. (Pete) Estes, general manager of Pontiac Motor Division. He expressed complete confidence in attainment of the goal by everyone "working just a little harder."

The Press salutes the leaders and workers to be identified with this fine humanitarian undertaking, and offers best wishes for successful outcome.

Ladies' Leopard Coats in Fashion Spotlight

Fashion trends usually appear, to be mere feminine whimsy. But sometimes they have serious overtones.

A recent vogue has created an extraordinary demand for coats made of leopard skins.

And the gals have really got the leopards on the spot. The animals, although protected by law in most African nations, are being shot, speared and trapped by poachers at a rate of 80 per cent faster than their capacity to reproduce.

Axiomatically, leopards never change their spots, but a spot check indicates that unless this fur fades, the cats have a pretty skinny chance of survival unless they contrive a protective spot remover.

An urgent plea comes from the National Audubon Society to American women to quit buying leopard-skin coats.

At the going price, we have a sneaking suspicion that the entirety has at least the covert backing of the National Husbands Society!

Britain Modernizing 10 Downing Street

John Bull, troubled like his American cousin, Sam, by deterioration of his state residence, is fixin' up No. 10 Downing Street.

Long the abode of Britain's prime ministers, No. 10, like an iceberg, shows but a small part of its mass. It is in fact two houses, one built by Sir George Downing toward the end of the 17th century, the other a mansion of slightly more elderly vintage at the rear—all that remains of an original block of 15 houses.

But as was the case with our White House, the years had taken their toll, and the legendary seat of British executive power is undergoing virtual rebuilding within the preserved exterior framework.

The prime minister has a per-

manent staff of about 50, and most of the Downing Street frontage is now occupied by offices. This section of the premises was joined to the mansion at the rear during the three-year reconstruction carried out in the 18th century when the dwelling was first officially designated by the Crown as an official residence of British prime ministers. All of them, however, have not elected to occupy it during tenure as head of state.

From no address has there emanated greater influence on world events and history than that of 10 Downing Street.

Washington Sits on Powder Keg

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON — Washington is in a slow swirl, psychologically and politically. It waits for the massive civil rights demonstration Aug. 28, hoping that whole memorable day will go off peacefully.

Negotiations between railroads and unions are stalemated. Unless some way is found to stop it, there will be a railroad strike Aug. 29. The departure of 100,000 or more demonstrators in one day, even if everything is peaceful, will be an unforgettable burden.

But to have the demonstration followed the next day by a rail strike would be piling climax on climax. While the city waits, Congress, bumbling along at the slowest pace in years, continues to drag its feet and may be here until the end of the year.

The center of this quiet stage is occupied now, and will be for a couple of weeks, by Senate hearings on the limited nuclear test-ban treaty.

That treaty, once approved, could be a fateful embarrassment to the Kennedy administration if the Russians then try tricks to American disadvantage.

ASSET OR ISSUE

If nothing goes wrong, it will be an asset to President Kennedy in seeking reelection. If it goes wrong, it will be an issue in the 1964 campaign.

The administration, conscious of both possibilities, acknowledges risk but insists the treaty's advantages outweigh the disadvantages.

The two most likely Republican presidential candidates as of now — New York's Gov. Nelson A. Rockefeller and Arizona's Sen. Barry Goldwater — are conscious of the for and against possibilities too.

Both have provided themselves an "I told you so" if the treaty proves a dud.

The treaty has wide popular support, it seems sure to pass the Senate by a wide margin; and neither Rockefeller nor Goldwater has come out against it. Rockefeller, in fact, has suggested it be approved but then he added a last warning of things to look out for.

ALREADY DISCUSSED

But most of the things he warned about already had been discussed in one way or another by the administration.

For instance, he said this country should "pursue research and development in the vital area of antimissile defense."

He said that Sunday, Aug. 11. But on Aug. 1, at his news conference, Kennedy said developing an antimissile missile is "beyond us and beyond the Soviets."

He was supported in this Tuesday by Secretary of Defense Robert S. McNamara, testifying before the Senate Foreign Relations Committee.

He said developing an antimissile system is something neither the United States nor Russia has solved. But he didn't say it was impossible.

And Tuesday Goldwater, who hasn't yet gone as far as Rockefeller in saying the treaty should be supported, added his warning.

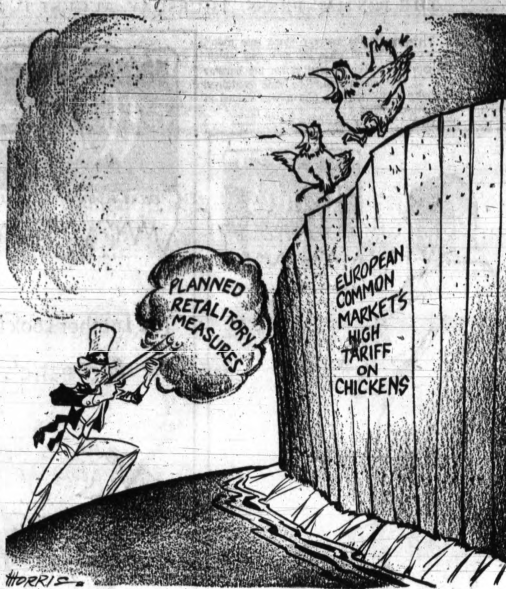

'IRONCLAD ASSURANCE'

He hammered on the antimissile business, too, saying he wants "iron-clad assurance" development in this field won't be inhibited by the treaty.

Goldwater is an Air Force Reserve major general.

McNamara told the committee: "I know of no one in my senior scientific advisers and no one on the Joint Chiefs of Staff who recommends against the treaty with safeguards."

Arguments about the treaty should provide the most excitement in Washington until the civil rights demonstration two weeks from today.

Big Boom In International Trade

David Lawrence Says:

Treaty Clauses Must Be Clarified

WASHINGTON — It's been such a long time since a treaty of major importance was submitted to the Senate that many people probably are unfamiliar with the fact that no treaty is really binding upon the United States unless "two-thirds of the senators present concur" in its ratification.

The signature of the secretary of state alone is not sufficient under the Constitution. "Executive agreements" do not require ratification by the Senate. These have been so numerous in recent years that the word "treaty" has fallen somewhat into disuse.

The Senate, of course, cannot amend a treaty without necessitating a further negotiation by the secretary of state with the other party or parties.

There is full understanding, however, under international law that "reservations" may be included in the resolution of ratification as a means of setting forth the understanding of one side or the other as to the meaning of certain provisions.

The pending treaty with the Soviet Union and Great Britain to limit nuclear tests has just been explained by Secretary of State Dean Rusk to the Senate Foreign Relations Committee.

His statement is an illuminating exposition of the meaning of the treaty, but it has no validity in and of itself.

SIMPLE MATTER

The Senate, on the other hand, can include any "interpretative reservations" that it pleases. It would be a simple matter to pass a resolution ratifying the treaty and including as "interpretative reservations" the substance of certain extracts from the statement of Secretary Rusk.

Some of the pertinent extracts which could be put in the form of "reservations" are as follows:

"The East German authorities will subscribe to the treaty in Moscow. The Soviet Union may notify us of that act. We are under no obligation to accept that notification, and we have no intention of doing so, but the East German regime would have committed itself to abide by the provisions of the treaty."

"By this arrangement, we not only assure that no implication of recognition may arise, but we reserve our right to object if later the East German regime should seek to assert privileges under the treaty, such as voting or participating in a conference called under Article II."

Actually, it wouldn't be necessary to mention the name of the East German regime, and the "reservation" could be in general language that would apply not only to East Germany but to Cuba and to other countries from which the United States has withdrawn recognition or to which it has not extended recognition.

Another significant excerpt from the secretary's statement is the following:

"In international law, the governing criterion of recognition is intent. We do not recognize,

and we do not intend to recognize, the Soviet occupation zone of East Germany as a state or as an entity possessing national sovereignty, or to recognize the local authorities as a government."

"These authorities cannot alter these facts by the act of subscribing to the test-ban treaty."

All that needs to be done now is to reproduce formally the statements by the President and the secretary of state and make them a part of the "reservations" to be adopted by the Senate in ratifying the treaty.

These would include the list of things which the President out-

lined in his statement as constituting his interpretation of what the treaty does or does not do.

DEFINE UNDERSTANDING

It has long been established that any party to a treaty may define its understanding of what certain clauses mean.

It is incumbent upon any other party to the treaty to set forth its own reservations if there is any basis for disagreement.

If no dissent is expressed, it is assumed that the party which made the "interpretative reservations" can consider that they are an integral part of the treaty.

Copyright, 1963, New York Herald Tribune Syndicate, Inc.

Bob Considine Says:

Javits Answers Challenge, Defines 'Radical Right'

NEW YORK — In answer to challenge from Sen. Barry Goldwater that he define what he means when referring to the "radical right," Sen. Jacob Javits put it this way:

"It means, specifically, those groups who call Dwight D. Eisenhower a crypto-Communist, or an associate of Communist, or as being influenced by them — all of which the radical right does not hesitate to do."

"It means calling for the impeachment of Earl Warren, chief justice of the United States, because the radical right doesn't agree with the decisions of the United States Supreme Court."

"Indeed, it means seeking to erect a 'super court' composed of the chief justices of all state courts and putting the Supreme Court out of business."

"It means not overhauling the income tax but repealing it and it also means similar radical moves in respect to labor, in respect to government."

"It means isolationism in the foreign policy of the United States. The radical right has already started a dedicated campaign against any concept of a test-ban treaty or anything remotely approaching it."

"This is what I mean by the radical right; and it's a grave danger to our country."

The New York Republican, who gave his clear-cut answer on TV's "Senate Report" concluded.

DIFFERENCES CLEAR

"The radical right is attempting to take over the conservative label — to which it is not entitled — by exploiting anti-Communism and appealing to the normal conservatism of a large segment of our people."

"But the differences between the radical right and conservatism are clear. The radical right is isolationist in its approach to foreign affairs and negative in its approach to domestic policy. It stresses what it is against."

"It attacks civil liberties under

the guise of anticommunism. It shows mistrust and lack of faith in our government institutions and casts suspicion on leading government officials by using the familiar technique of dogmatic and unproved charges, stubbornly maintained."

"It's very much like the Know-Nothing movement in the 1850s and the Ku Klux Klan in the 1920s. That is why people like myself condemn the radical right and we are against allowing it to infiltrate the Republican party."

The Almanac

By United Press International
Today is Thursday, Aug. 15, the 27th day of 1963 with 138 to follow.

The moon is approaching its new phase.

The morning stars are Jupiter and Saturn.

The evening stars are Mars and Saturn.

Those born today include French Emperor Napoleon Bonaparte, in 1769.

On this day in history: In 1914, the vessel "Ancon" passed from the Atlantic to the Pacific and the Panama Canal was officially opened.

In 1935, Will Rogers and Wiley Post were killed when their plane crashed in Alaska.

In 1945, the U.S. ended rationing of gasoline, food and some food.

In 1947, Great Britain ended her 200-year rule of India.

A thought for today—American poet Henry Wadsworth Longfellow said: "Music is the universal language of mankind . . . Poetry their universal pastime and delight."

Smiles

When it finally makes you fast to live there's no sense in living too fast.

Washington is full of people who pass down the laws and jails with people who pass them up.

Voice of the People:

Pontiac Affairs Continue to Hold 'Voice' Spotlight

Having attended City Commission meetings regularly for the past four years I must answer Mr. Donaldson's letter. I say for 20 years the city may have been run by honest men, but have they been interested in the city? I say "NO!" They plunged into urban renewal, the perimeter road, Detroit water, sewage treatment plant, plus other projects, all at once.

The new commission has been constantly striving to remedy these mistakes. Progress has been made by cutting costs and by acceleration.

This city has been plagued by a police supervision problem dating back many years, when a small group of men undermined former Chief Straley and succeeded in getting him fired. As a result these little people are now completely in charge.

Today the morale of the entire force is at an all-time low. It is next to impossible to sign a complaint against an owner of a stray dog, let alone stop the steadily increasing crime and vice traffic.

Chief Koren has been in charge since 1960. Mr. Stierer has been manager since 1961. Still these problems are on the increase. It is time something is done. The City Commission is trying to remedy the situation and their action seems to be the only solution.

The Press and those who made derogatory statements would do well to hold their peace.

Mrs. Charles Nasstrom

502 E. Mansfield

Political overtones of the actions of our City Commission are alarming. History tells that two important steps in establishing dictatorial power are to gain a leading position in the government's internal management and then gain control of the law enforcement agency.

Isn't it coincidental that our City Commission demands a new city manager and police chief? We elected these commissioners, and are responsible for their actions. I urge every voter to consider the possibility of their recall.

Richard H. Zimmerman

Congratulations and hurrah for speaking out on your front page and editorial on the trial board member. We enjoyed it and heartily approve. Too many people nowadays seem afraid. They do not want to get involved with what they obviously know to be against the law or a direct injustice to individuals. They resent the injustices but don't want to open themselves to criticism, so they let the other fellow go to bat for them.

You have a fine paper and we have long thought there should be a regular column or criticism of "goings on." Your editorials are fine but the more specific references are better.

Mrs. H.

An article concerning John Leonard did not mention he was married and had a family. Isn't there anything good about the man? I have known John and his family for 20 years. He is an excellent mechanic and owns a good business. He is well liked by those that really know him.

If people responsible for such an article in The Press would clean up their own back yard they would have less time for petty gossip. Even with minor violations John Leonard is more capable to hold public office than most.

An Active Church Member
and Lifelong Resident of Pontiac

The report in The Press on what is happening in our city government should arouse our citizens so that there will be a citywide awakening to the need of a repeal of the law on districting of the city. Give us a law allowing the citizens to vote on each of the commissioners.

We sincerely appreciate Mr. William Taylor Jr. for his "common sense, sanity and loyalty to the employee who are fulfilling their places so capably." We fully agree with Mr. Taylor and are proud that he represents us.

We thank The Press for its fine editorials. We have read The Press as a regular subscriber for 40 years and are proud of its high rating.

Mrs. Sadie M. Patten

41 Augusta

The article pertaining to Mr. John F. Leonard, the newly-appointed Pontiac Police Trial Board member certainly is enlightening. His record is most disqualifying in my book. I'm 50 years old and have driven since I was 16 with one traffic ticket and I'm a risk. Who is who and what is what in this city of ours? I'd like to know.

Fed Up

'Broomfield's Free Booklets, Costly, Too'

Congressman Broomfield's letter proved enlightening. I wish he would have projected his mathematics a little further and told us the cost per family for him to send us free "cook books," free "child care" books, etc., through our mails (free) under the guise of "official business."

Goldwater Type Rep.

IN DISTRESS—Left alone on a huge lotus leaf on a pond near Tokyo, this tot clutches her doll and cries loudly for comfort—and rescue. The leaf, more than four feet in diameter, can support more than 50 pounds.

House Eases Log Jam of Measures on Education

WASHINGTON (UPI) — The congressional log jam on education legislation was eased again today with House passage of a \$1.3-billion "bricks and mortar" college aid bill, but no general break was yet in sight.

The bill was sent to the Senate, where it joins a House-approved bill expanding aid for vocational schools. No action has yet been scheduled on either measure by the Senate education subcommittee.

No decision has yet been made in the Senate subcommittee to break up President Kennedy's \$5-billion omnibus education bill into segments such as college aid. There were indications the question will not be faced for a matter of weeks.

SENATE HOPES

There were some privately expressed hopes in the Senate that the House might even approve other portions of the President's program — although House leaders expect no such action.

Ultimately, informed sources said, the Senate will in all likelihood approve as much as the House has approved — and perhaps a little more.

The bill had top-level support from both political parties. It passed with relative ease despite a warmly-debated church-state controversy over its provision of aid to schools operated by religious sects. The vote was 287-113.

GRANTS, LOANS

The college aid bill would provide \$835 million in matching grants and \$380 million in low-interest loans over a three-year period to four-year colleges and universities, graduate schools, junior and community colleges and college-level technical institutes.

The bill was the only new school assistance program expected to pass this year. Congress probably will extend the life of several other existing aid programs.

But no other new program proposed by President Kennedy in his \$5 billion omnibus education request was expected to get through.

Opposition to the bill was based mainly on its provision for direct aid to the nation's 1,300 private

Husband 'Upset' Over Shooting: Wife Still Alive

KANSAS CITY, Mo. (UPI) — William A. Muldrew, 40, a former Salina, Kan., policeman, who admitted shooting his wife yesterday during a tavern quarrel, wept when he was arrested.

He told police his wife Margaret, 40, left him last week and refused to return. He said he could not stand being away from her and that killing her was the only solution. Mrs. Muldrew was shot in both legs. "I hope everything comes out all right," Muldrew cried. "I mean, I hope she dies."

There were about 14,000 women physicians last year in the U.S., compared to 332,400 in Russia.

Several members said such aid to non-public schools would violate the constitutional ban against federal involvement in religious affairs.

Several members said such aid to non-public schools would violate the constitutional ban against federal involvement in religious affairs.

Exoneration of Officer Denounced

DETROIT (AP)—Five civil rights leaders denounced Detroit's police commissioner on television last night, a week after he was on the same station to defend the patrolman who shot and killed Cynthia Scott.

They contended Commissioner George Edwards should have taken action against patrolman Theodore Spicher, who said he shot Miss Scott, 24, when she attacked him with a knife as he tried to arrest her July 5.

Four of the five said Spicher was arresting Miss Scott illegally.

Spicher was exonerated in the slaying of Miss Scott, a convicted prostitute, by police officials and Wayne County Prosecutor Samuel H. Olsen. State Atty. Gen. Frank J. Kelley investigated and declined to intervene in the case.

Arguing the exoneration last night were Roland O'Hare of the Metropolitan Detroit branch of the American Civil Liberties Union; Bernard Fieger of the Detroit Chapter of the National Lawyers Guild; Richard B. Henry, head of the Group on Advanced Leadership; the Rev. Albert B. Cleage, of the Detroit Council for Human Rights; and Edward Turner, president of the Detroit chapter of the National Association for Advancement of Colored People.

Henry said he was appearing to answer the "inaccuracies and inadequacies" of Edwards' explanation of the case and to point out the "suppression of the Negro community in Detroit" by police.

The Rev. Mr. Cleage called Edwards' explanation an "attempt to whitewash" that was a "miserable failure." He said Edwards was trying to protect a "a trigger-happy police department."

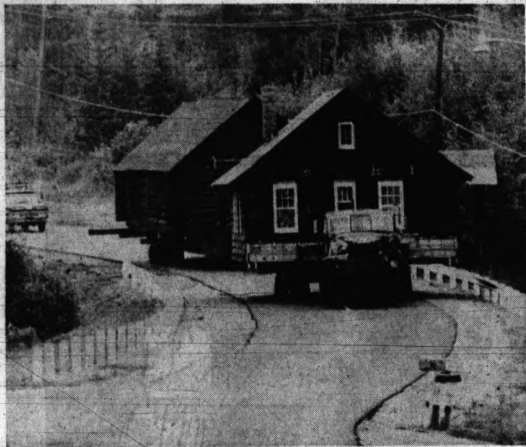

Unit Backs Expansion of Food Stamp Program

WASHINGTON (UPI) — A special House Food Stamp subcommittee has approved several amendments to an administration bill, to expand the present pilot food stamp program on a nationwide basis.

The amendments include one to broaden the definition of food to include all food products except tobacco, alcohol and items marked on the package as being imported.

Down the Road a Piece

Entire Town Moves 10 Miles

HOUSE TAKES RIDE — Two houses from the New York hamlet of Tahawus are towed down a winding road to a new location — part of a project in which the community's

men, women, children, houses and churches are being moved to a new site. Residents of the mining community, some 100 miles north of Albany, began moving early in August.

been paying the same rent for 20 years—about \$6 a room—at the same time getting the same wage as steelworkers in Pittsburgh. They've had no incentive to save, since they've owned nothing. Personally, I think it will be better. They'll own their own home and take an interest in it.

PRIEST AGREES

The view was supported by the Rev. Albert Giroux, the Roman Catholic priest.

"Those who want their own place are happier," he said. "Those used to living cheaply or those close to retirement are not so happy. We'll all have a better place to live, we hope; more room to spread."

In Winebrook Hills, Father Giroux's church will share a parking lot with the Episcopal church. He agreed with a smile that this would be good for the "dialogue" — Catholic-Protestant conversations on doctrinal differences.

John G. Hall, manager of the 400-employee National Lead operation here, said "a very high percentage" of the workers were buying the homes they live in. No one is quitting because of the transfer, Hall said.

Army Men Escape Viet Jungle Crashes

SAIGON (UPI) — Four U. S. Army helicopters crashed in the Communist-infested jungles of South Viet Nam yesterday, but all their crewmen were rescued and none of the machines fell into Red hands, military sources said today.

One of the 'copters is known to have been shot down by the Communists. The other crashes were ascribed to "engine failure." A Vietnamese observer in one of the helicopters was slightly wounded in a gunfight with Red guerrillas who tried to block the crew's escape. No American casualties were reported.

The unusual decay resistance of redwood lumber is due mainly to a natural fungicide, named sempervirin.

By MICHAEL KEATING

TAHAWUS, N.Y. (AP) — The hamlet of Tahawus is packing its children, its bags, its houses and its churches and moving 10 miles down the road.

There the drab mining community of 600 persons will be transformed into Winebrook Hills, an

tional Lead Co. and its product is used as pigment in paint and plastics. The town, too, is owned lock, stock and schoolhouse by the company. So when it was discovered that the titanium deposit extended under the village, the company ordered the move.

National Lead bought the site of Winebrook Hills in the toya of Newcomb from a paper company built-sewers and a water system and hired Carl Tuxill of Weedsport to move 77 units, including houses, apartment dwellings, and two churches — "the best view in the Adirondacks."

The exodus began this week of Aug. 4. Down the winding highway aboard a trailer rolled the log-cabin Episcopal church. A 1½ story house was moved on a separate rig. The trip took 2½ hours and only a couple of bashed highway guard rails testified to their passage.

The job is to be completed before winter sets in.

'Psychologically Unsound?'

Memorial Services Questioned

NEW YORK (UPI)—The modern practice favored by many clergymen of holding a memorial service instead of a funeral is being questioned as a "psychological detour" around the reality of death.

The Rev. Dr. Edgar N. Jackson, minister of The Methodist Church of Mamaroneck, N.Y., and an authority on counseling the bereaved, also questioned the quality of grief displayed by many persons. He said a person who grieves deeply over the loss of a loved one may actually be expressing more guilt than sorrow.

Jackson discussed "Grief and Guilt" in an article in "The Pastoral Counselor," a new journal dealing with religion and psychiatry.

"The Pastoral Counselor," published twice yearly by The American Foundation of Religion and Psychiatry, featured in its first issue articles by clergymen engaged in pastoral counseling, psychiatrists and a psychologist.

The memorial service, Jackson wrote, "is oriented to conscious needs and ignores underlying emotional ones." It "sets up a psychological detour around the reality of what has happened," he said, "by encouraging a refusal to view the remains, though it is this practice that frequently brings a full consciousness of death to the individual."

"A memorial service does not furnish the surroundings that make it easy to express deep feelings, nor does it furnish the opportunity to give group support to the bereaved. What may appear to be intellectually valid may be psychologically unsound, and does quite the opposite from what is intended."

Jackson said the death of a loved one often is accompanied by emotional and mental disorders, "many of which stem not from the grief alone but from the guilt that accompanies it."

"A combination of grief and guilt is quite natural," Jackson said, "for ambivalent feelings develop in any love relationship. The finality of death makes their resolution impossible."

He said one must recognize the difference between grief and mourning, defining the latter as "a feeling of loss of a beloved one" and of shorter duration than grief. More unconscious factors are involved in grief, with the bereaved sometimes feeling in his unconscious that his hostility was responsible for the death.

Ministers can help people realize that grief is a healthy emotion by encouraging them to "let out" their feelings through tears and free talk about their loss, Jackson said.

State Court Aide to Join Staff of the Prosecutor

A 27-year-old State Supreme Court law clerk will join the staff of Oakland County Prosecutor George F. Taylor Sept. 9, Taylor announced yesterday.

Charles J. Porter, formerly of Royal Oak, will be an assistant prosecutor "specializing in appellate work," according to Taylor.

A Notre Dame University graduate who received his law degree

in 1962 from the University of Detroit Law School, Porter has worked for the past year as a law clerk for State Supreme Court Justice Thomas G. Kavanaugh.

4-Legged Lawnmowers Do Free Yard Work

HARTFORD, Conn. (UP)—It was roundup time in West Hartford after 20 cows escaped from a packing plant and began munching lawns of local residents.

A company crew finally managed to capture all the four-legged lawnmowers and the packing firm promised to pay all damage.

Home Owners Protest Kelley's Opinion

LANSING (AP)—A statewide initiative petition drive has been launched by a joint effort of Gen. Frank Kelley's formal opinion that Michigan's new civil rights commission will have sweeping powers over private housing.

"The movement, which has set a goal of 300,000 signatures by the end of the month, was started by two Detroit home owners' groups and has the backing of the Michigan Real Estate Association."

"We were asked to help out and decide we would," said Harold Davis of Lansing, president of the association.

Davis was one of the plaintiffs in a suit which successfully challenged the authority of the corporation and securities commission to issue its controversial "rule 9" against discrimination. The State Supreme Court recently ruled unanimously in favor of the plaintiffs' contention that the commission had no power to issue such a rule.

PETITIONS SENT

Some 20,000 petitions reportedly were sent out last week by the real estate association, with a request to members that they be circulated for signatures.

In at least one case, the action of the association has been criticized by a member and the petitions tossed aside.

But Davis said his group is on the side of property owners regardless of their race, creed or religion.

"If we are not on his side," he asked, "who speaks for him? We're not fighting just for the white property owner."

8 PER CENT

Before such petitions can be presented to the legislature they must be signed by at least eight per cent of the total vote cast for governor in the last election. Since about 2.8 million voted in

the November 1962 election, about 22,000 signatures are required.

Any law proposed by initiative petition must be either enacted or rejected by the legislature, without change or amendment within 48 sessions days from the time it is received by the legislature.

If the law is not enacted, the constitution requires that it be submitted to a vote of the people at the next general election.

The petitions being circulated call for a law which would declare that it is public policy of

the state to recognize certain property owner's rights.

Among them:

"The right to freedom from interference with his property by public authorities attempting to give special privileges to any group."

"The right to freedom of choice persons with whom he will negotiate or contract with reference to his property, and to accept or reject any prospective buyer or tenant for his own reasons."

It also would stipulate that the

exercise of such rights by the owner or by a real estate broker acting under his instructions shall not be considered as discrimination against any person under the provision of the new constitution or subject to the powers and duties of the civil rights commission.

In his formal opinion, the attorney general declared last month that the commission will have the "authority to enforce civil rights to purchase, mortgage, lease or rent private housing."

Kelley added that he found no authority in the new constitution, which goes into effect next Jan. 1, under which the legislature could abrogate or limit in any way the power of the commission in the fields of employment, education, housing and public accommodations.

ROMNEY AGREES

Gov. George Romney, who helped write the new constitution, indicated to newsmen that he is in agreement with Kelley's findings.

Sponsors of the petition drive

have described it as a "fight to protect our homes."

They contend that Kelley's ruling threatens their rights to run their own property as they wish and the choice of persons with whom they may share or occupy property, or to whom they may sell or rent.

Millard Lutz, executive secretary of the Greater Detroit Home Owners Council, one of the sponsoring groups, said that at least 20,000 signatures were gathered in the first week after the petitions began circulating.

The Miami beauty was selected from 15 finalists as the American representative for

Florida Girl, 19, Wins Title in Beauty Contest

Joyce Bryan, 19-year-old Miss Florida, last night was named Miss American Beauty at the International Beauty Congress in Long Beach, Calif.

Karmen Gates, 20, of 807 Sunny Beach, White Lake Township was one of the finalists for the American title from a field of contestants entered from 41 states. She represented Michigan.

The Miami beauty was selected from 15 finalists as the American representative for

the title of Miss International. She will compete tonight and Friday with 46 girls from foreign nations.

'Look-Out' for Selves

BRUNSWICK, Germany (AP)—Two East German soldiers posted in a field along the Iron Curtain border to make sure harvest workers do not escape have themselves fled, West German border authorities said today.

The escape occurred in Lower Saxony yesterday, border officials said, and the soldiers, both aged 20, came across with their weapons. They were quoted as complaining about increasingly depressing economic and political conditions in East Germany.

Late but Better, Says FAA Chief

Hopeful on Supersonic Airliner

By ROBERT J. SERLING
UPI Aviation Editor

WASHINGTON — Keep your shirts on; the American product will be better.

This, in effect, was the advice Federal Aviation Administrator Najeeb E. Halaby gave yesterday to U.S. airlines caught in a supersonic airliner dilemma.

He followed it up today with a formal request to private industry for its ideas on what America's supersonic airliner should be.

The airlines must:

- Order, as Pan American World Airways and Continental Airlines already have, the British-French "Concorde" which will be a supersonic transport (SST) capable of mach 2.2 speeds (twice the speed of sound) and which will have a prototype flying by the end of 1966.

- Wait for an American-built SST, which Halaby promised will be "better, faster, longer-ranged and with superior handling and capacity," but which is not expected to be test-flown until 1967.

Halaby conceded the Concorde's head start. But he emphasized that there could be a considerable time lag between the first flight of an experimental prototype and the entrance of a completely perfected SST into scheduled passenger service. In admitting that the Concorde will fly first, he added:

"More important is when it

will carry passengers at a profit. We believe an American supersonic transport will be in actual airline service not more than six months after the Concorde starts carrying passengers."

Halaby backed up this optimistic forecast with a timetable aimed at reducing the Concorde's current lead. It calls for:

- A formal request for specific supersonic design proposals submitted today by the FAA to the U.S. airframe and engine manufacturing industry.

- Answers to that request handed FAA by Jan. 15, 1964.
- About one year's evaluation of industry's SST proposals by FAA and the airlines.

- An FAA-airline decision by Jan. 1, 1965, on the best design or designs, followed by construction of one or two prototypes sometime in 1967.

Today's FAA request for SST design concepts was general. Briefly, it urged development of a transport that can attain at least mach 2.2, fly nonstop with a full load of 125-150 passengers

plus 5,000 pounds of mail and cargo, and operate in and out of any airport now served by present jets.

Those specifications add up to a plane that would be faster than the Concorde, whose aluminum construction limits its maximum speed. The British-French entry will carry up to 104 passengers.

Any SST, American or foreign-designed, must be able to take off from a 10,500-foot runway on long overwater flights and an 8,500-foot runway on shorter domestic trips.

At \$1.05 a Day

GIs Eat More, Better

CHICAGO (AP)—The American soldier is eating more and better food today than ever before.

Maj. Gen. Thomas B. Evans, 52, head of the Defense Supply Center head-quartered in Chicago, says it costs an average of \$1.05 a day to feed a member of the armed forces.

To feed the 2.5 million men in the armed services, Gen. Evans spends more than \$2.5 million each work day. This makes him the largest food buyer in the United States.

To operate his far-flung food procurement and shipping system, Gen. Evans employs 1,575 civilians, officered by 125 men.

Continental U.S. forces are served through 10 regional offices in the United States. There are 500 in the Chicago office.

"We do the job with a minimum of people," said Gen. Evans.

20 SUPPLY POINTS

Armed forces kitchens are supplied through 20 supply points located close to troop concentrations.

Planning meals begins with a staff of dieticians headed by Marion C. Bolman, a civilian. She says menus are planned through 1965.

Menus leave the Chicago office seven months in advance of use, with large-quantity basic demands planned as much as 18 months in advance.

Meals are built around a food value of 4,000 to 4,200 calories a day.

Each day's menu must have one highly acceptable meal, such as steak, roast beef, stew. Less acceptable fare is offered as alternates at dinner or supper.

Armed services personnel are served steak three times a month, chicken six times, swiss steak once or twice, roast beef three times, turkey twice, ham four or five times, pork loin, chops or steaks four to five times.

The American soldier consumes three times as much fruit juices, as his civilian cousin. He consumes four times as much fruits and vegetables.

The soldier is furnished with all the milk he can drink. Fresh milk is purchased in those dairy countries nearest military bases.

Everywhere except in Japan and Korea, where nonfat dry milk and butter fat are reconstituted, fresh milk is available.

Modern methods of packaging enable frozen foods to be sent overseas for fresh-served desserts such as peaches and cream and strawberry shortcakes.

The gigantic food list for the year will cost a total of \$1.5 billion.

Romney Asks Strict Patrols

State Police to Up Highway Enforcement

LANSING (AP) — Gov. George Romney has wired all law enforcement officials in Michigan asking them to step up traffic safety enforcement activities for the remainder of the year.

The governor noted that there were 31 highway fatalities last week. Special enforcement activities over the long Fourth of July and Memorial Day weekends kept the fatality rate lower than over the past weekend, when there were 31 deaths, the governor said.

"This indicates the effectiveness of enforcement," the governor said. "Please intensify your enforcement activities to the fullest extent possible for the balance of the year."

Commissioner Joseph Childs said State Police already have about their maximum manpower on out on the highways. But he said the department will try to squeeze out a little more enforcement activity.

State police made 97,490 traffic arrests during the first six months of the year, Childs reported, up 6 per cent from the same period last year.

State police cars covered 7.81 million miles on highway patrol during the period, an 18 per cent increase over last year.

An additional manpower problem, Childs said, has resulted from the new five-day week ordered for state police by the State Civil Service Commission.

Five Stranded on Yacht OK

FAIRPORT (AP) — Five persons were removed from a northern Lake Michigan island yesterday after being stranded overnight when their 40-foot yacht went aground.

The Coast Guard took them off the island and brought them to Manistique. All were unharmed.

The five were Herman Zoller of Benton Harbor, Mr. and Mrs. E. M. Walsh of Chicago and Mr. and Mrs. Frank Lahr of St. Joseph. Walsh is the son of former Cook County (Ill.) Sheriff Elmer Walsh.

The yacht Halcyon, owned by David Upton of St. Joseph, ran aground in three feet of water about 200 yards off Summer Island Tuesday night.

The water was shallow enough for the five to make reports to state police of distress flares brought the Coast Guard into action.

Now Red Forces Are 'Blue': They Surrender City

FAYETTEVILLE, N.C. (AP) — This capital of Swift Strike III blue forces was back in blue hands today after being held by red guerrillas for one day in the nation's largest peace-time war games.

The city was recaptured Wednesday by more than 1,000 blue paratroopers who dropped near the city limits.

Red guerrillas who took the city Tuesday, fought a delaying action, but were overcome by 62nd Airborne Division troops.

The maneuvers end Friday. Military officials will meet at Spartanburg Saturday to evaluate the mock war.

tion. The center is responsible for \$1.2 billion.

Quantities are monumental. A volume order for 100-pound sacks of potatoes would stretch end-to-end across the continent.

An order for one-pound prints of butter would make a stack 2,900 miles high.

An order for eggs would be sufficient to circle the earth with Corp.

a 4,000-mile trail reaching into outer space.

The Defense Subsistence Supply Center is a modern outgrowth of the quartermaster market center system set up in 1941 to buy fruits and vegetables for the Army.

Since then it has evolved into a supply organization buying all types of foods for the Army, Navy, Air Force and Marine Corps.

Ferey Awaits Answers

LANSING (UPI)—Democratic State Chairman Zolton A. Ferey said yesterday he is ready to appoint Democratic members of the Preliminary Apportionment Commission within 72 hours after getting answers to questions on availability of staff, office space, finances and other facilities are answered.

Ferey said in a letter to Romney, you must have misunderstood statements of Secretary of State James M. Hare when you rejected his proposals to bring Preliminary Apportionment Commission financing before the special session of the legislature in September.

"It is clear at this stage from your communications with me and from your public pronouncements that there is not now any plan by your administration to finance even preliminary functions of this most important commission."

"The work that this commission is being asked to do is far too important to the people of Michigan for it to be expected to function in a vacuum without clear guidelines of power or financial support for the many needs pertinent to the deliberations."

Ferey urged Romney to reconsider his decision communicated to Hare yesterday that he would not seek special action.

"I sincerely hope that you will reconsider your initial refusal to request such simple action by the legislature," he said.

"Failing this, I shall be happy to cooperate with you in any way possible toward seeking another

source for the necessary financial support of the commission."

"The simple appointment of the preliminary commission members will not solve the problem for which the new document made inadequate provision," Ferey said.

Typhoon Heads for Red China

TOKYO (UPI)—Typhoon Carmen appeared today to be bypassing parched Hong Kong on a course that might take its 104-mile-per-hour winds into the southern end of Red China.

The typhoon warning center on Guam said the storm center was about 276 miles southeast of the British China coast early today, moving west-northwest at a speed of 12 m.p.h. It was expected to be about 230 miles southwest of Hong Kong by 3 p.m. tomorrow.

Philippine authorities followed disaster plans on Luzon Island, lashed yesterday by the typhoon's 155-m.p.h. winds.

President Diosdado Macapagal ordered the immediate dispatch of aid to areas stricken by the storm's destructive sweep across the Philippines' main island.

Damage to crops and property was expected to run into millions of dollars, although no over-all estimate was available.

The Philippine National Police estimated that losses in the coconut growing provinces of southern Luzon totaled nearly \$2 million.

At least one death was blamed on the storm. Two other persons were reported drowned, but there was no confirmation from police.

Mental Health Has Setback

House Commerce Unit
Slashes Bid 70 Pct.

WASHINGTON (UPI)—The House Commerce Committee has cut President Kennedy's mental health program by more than 70 per cent—from \$857 million to \$238 million.

However, it would spend the money it did approve in a shorter time than was recommended by the administration.

The biggest slice came yesterday in the section of the bill calling for the establishment of local mental health treatment centers. Led by its Republican members, the committee knocked out \$427 million earmarked for the centers.

However, the committee left intact funds slated for construction of the local centers. Its objection to the centers was aimed at money which would have been used to pay salaries of medical staff personnel during the formative years of the centers.

Rep. Kenneth Roberts, D-Ala., chief sponsor of the bill, said he did not plan to fight the cuts when the bill reaches the floor of the House.

There was, however, a possibility that administration forces would try to regain some of the money when a conference committee meets to reconcile differences in the House and Senate versions of the bill.

The Senate passed the entire program requested by the administration.

As approved by the Senate, the bill would allocate about \$190 million for mental retardation activities, including the construction of research centers and grants in facilities for the mentally retarded.

Eastern College Prof
Expires at Age 82

MIDDLEBURY, Vt., (UPI)—Dr. Allen M. Cline, emeritus professor of history at Middlebury College since retiring in 1952, died yesterday. He was 82.

Cline, a graduate of the University of Michigan, joined the faculty at the school in 1920. He also taught at the College of the Pacific in San Jose, Calif., from 1909 to 1920.

OAS to Probe Role of Dominicans in Haiti

WASHINGTON (UPI)—The Organization of American States has decided to send a commission to the OAS council.

Haiti to investigate charges that the Dominican Republic aided the revolt against the Francois Duvalier regime.

The decision was announced yesterday at a closed meeting of the OAS council.

World News

Russ Tell Firm 'Pay Up'

TOKYO (AP)—The Soviet Union is demanding \$250,000 from a Japanese firm for failing to fulfill a contract for pipe, Tokyo newspapers reported today.

The company concluded a provisional contract last November to ship 23,000 tons of pipe to the Soviet Union. Shipment of 5,000 tons began in February, but negotiations were suspended, reportedly because of a disagreement over price.

NAIROBI, Kenya (AP)—Kenya's new African government told exclusive European clubs today the time has come to open their doors to all races.

Home Affairs Minister Oginga Odinga called for desegregation to "avoid any more unpleasant incidents." His advice was interpreted as an ultimatum.

ABERDEEN, Scotland (AP)—Aberdeen today had its first execution in more than a century. Henry John Burnett, 21, was hanged at Aberdeen prison for the shotgun killing in May of an Aberdeen seaman, Thomas Guyen. Burnett had been having an affair with Guyen's wife.

The city's previous execution was in 1857.

OTTAWA (AP)—Prime Minister Lester B. Pearson hopes the Canadian Cabinet will give its approval Friday to an agreement with the United States to provide nuclear warheads for Canadian forces.

The nuclear weapon issue led to the fall of John G. Diefenbaker's Conservative government earlier this year after the U.S. State Department criticized him for delaying Canadian acceptance of the warheads.

AP Photofax

WHY, IT'S NOTHIN'—"E" Squadron, which has adopted the elephant as its mascot, brought Jenny along to cadet field day at the Air Force Academy, Colo. The cadets lost a tug-o-war contest to the young lady, borrowed from the Shrine Circus, which is appearing nearby.

Hay Fever Season Due Early

Hay fever sufferers, beware! A University of Michigan meteorologist predicted yesterday that hay fever sufferers may be in for a rough and early siege this year.

James B. Harrington, a research meteorologist, noted that predicting the annual ragweed pollen count has never been very successful because of the lack of adequate data.

"But," Harrington added, "indications are that a warm, moist May combined with a hot, dry August leads to heavier pollen concentrations."

Hay fever victims know what that means.

If hot, dry weather continues it could mean heavier concentrations of pollen in the air and an earlier ripening period.

tritions of pollen in the air and an earlier ripening period.

EARLY RIPENING

"High temperatures and drought favor the early ripening of agricultural crops," noted the meteorologist, "and ragweed behaves similarly."

Hence, drag out the vaporizers, the throat sprays, nose-drops and move the portable air conditioner into the bedroom. It's going to be a rough season.

Harrington said pollen can become airborne in dry weather because rains don't wash the air. Thus, recent rains have spared Pontiac area victims.

If present weather patterns continue, the ragweed season could start a week earlier than

usual and reach its peak a week or so earlier.

Normally, ragweed pollen concentrations are not heavy enough to begin to affect sufferers (of which Harrington is one) until about now.

The concentration must reach about 100 grains per cubic meter of air before hay fever victims suffer. The season peaks about Aug. 23, when concentrations reach 3,000 grains per cubic meter.

The Federal Trade Commission has a staff of 1,200, about half of which are lawyers. Major field offices are now located in 11 cities.

News of Area Service Personnel

Maj. Thomas J. Sobieski, son of Mrs. Angela W. Sobieski of 2600 Crooks Road, Troy, is now participating in Swift Strike III being held in North and South Carolina through Aug. 16.

Maj. Sobieski is an operations staff officer at Headquarters, 8th Air Force, Shaw Air Force Base, S. C.

Promoted to Spec. 4 recently in Germany was James K. Sikes, son of Mr. and Mrs. James L. Sikes of 729 South Blair, Royal Oak.

A construction specialist in the 12th Engineer Battalion Company A, he entered the Army in 1961.

Army Pfc. Roger L. Draper, son of Mr. and Mrs. Alfred E. Draper of 8833 Sashabaw, Clarkston, departed recently from Fort Riley, Kan., with the 1st Division's 2nd Battle Group, 8th Infantry for duty in Germany as part of Exercise Long Thrust VIII.

DRAPER
The 19-year-old soldier attended Clarkson High School.

Also departing from Fort Riley for Germany was Army Pfc. Fird L. McAllister Jr.

McAllister School.
The son of Mrs. Betty McAllister of 238 Franklin Road, he is a wireman in the battle group's Company D. He attended Pontiac Central High School.

With Pfc. Draper and Pfc. McAllister will go Pfc. Robert E. Cross, son of Mr. and Mrs. Milton A. Cross of 5593 Davison, Lapeer. Pfc. Cross attended Lapeer High School.

CROSS
Army Pfc. Reed D. Quick, son of Ovid A. Quick of 2831 Wood

Elm, Rochester, has completed a wheeled-vehicle maintenance course at the U.S. Army School in Germany.

He is assigned to Company C, 69th Armor, 3rd Division in Germany. He attended Avondale High School.

Serving aboard the tank landing ship USS Traverse County is signalman 1 C. Fredrick W. Stephens, son of Mr. and Mrs. T. S. Stephens of 773 East Madison Avenue.

The Navy ship recently returned from four months' deployment as a unit of Amphibious Squadron 2 with the 6th Fleet in the Mediterranean.

Ports of call during the cruise included Naples, Athens, Barcelona and other Mediterranean ports.

He's Probably Hopping Mad

PAYETTE, Idaho (UPI) — Robert James Hanson, 17, Douglas, Wyo., today blamed an uninvited frog for his auto wreck.

The youth said the frog was tossed into his car from an auto he was chasing. He said his car jumped an irrigation ditch, crashed through a gate, roared through a wet pasture, hit a trailer, went through another fence and then came to rest.

He and the frog escaped injury.

Boys Club Unit Sets Meeting

The board of directors of the newly formed Waterford Township Boys' Club will hold its first meeting Aug. 28.

Six men are on the present board, but three additional directors will be selected before the meeting, according to director Richard Goldworthy.

Election of officers and formation of committees will be the chief items of business at the initial board meeting.

The club hopes to acquire property soon to set up a recreation program for boys of all ages.

Other directors of the club which filed incorporation papers this week are Charles Sitton, Rudolph Lisac, Arthur Harrison, John Stefanski and Arthur Holmes.

3 Area Teachers to Attend Union's N.Y. Convention

Three executive board members of Pontiac Local 417 of the American Federation of Teachers will be delegates to the union's 47th annual convention in New York next week.

Attending will be Brooks Robertson of 78 Washington, president; Charles Cheng of 2616 Garland, Sylvan Lake, vice president; and Robert Vacharo of 784 St. Clair, secretary.

The week-long convention will open Monday with a keynote address by Carl J. Megei, president of the American Federation of Teachers.

Workshops will cover the new technology in education, problems of urban education, techniques of teacher organization and the problems facing teachers' unions in colleges.

Boy Catches Bass With Bare Hands

NORFOLK, Va. (U-P) For a lad who never before caught a fish bigger than three ounces, Mark Versipille now has the world by its finny tail.

Mark, 11 years old, plucked a 14½-pound striped bass out of the surf at Ocean View with his bare hands.

"I was wading in about four feet of water," said Mark, "when I heard a girl scream. As I turned around, I saw the fish tail go under. I went under after it, then lost it."

"But I stepped on it going to ward shore. This time I got it by the tail and pulled it in."

Turtle Halts State's Action

RICHMOND, Va. (U-P) A turtle sunning himself in the middle of a narrow country road halted the affairs of state recently.

A bus carrying Gov. Albert S. Harrison Jr. and his budget advisers on a statewide tour stopped for the turtle.

After a short wait a state trooper and the bus driver prodded the turtle across the road. Then amid applause and laughter, the bus drove on.

Rocky, Barry to Speak
at Conference of GOP
EUGENE, Ore. (AP)—Oregon
Republican officials said Wednes-
day that New York Gov. Nelson

A Rockefeller and Sen. Barry
Goldwater of Arizona will speak
Oct. 12 at the Republican Western
States Conference.
There was no indication whether
they would appear together.

Opposition Builds

'Tax Cut Is Doubtful'

WASHINGTON (AP)—Sen. Har-
ry F. Byrd today joined Repub-
lican congressional leaders in ex-
pressing doubt that Congress will
pass a tax reduction bill this year.

Byrd, Virginia Democrat who
heads the Senate Finance Com-
mittee which would consider any
measure passed by the House,
said opposition to an immediate
tax reduction has been building
up to the point where it is touch-
and-go whether any measure
could gain majority support within
the group.

Beyond that, he said in an inter-
view that a prospective Southern
filibuster on civil rights legisla-
tion may slow committee proce-
dures to the point where it could
not act until late in the year, even

if a majority supported tax cuts.
Byrd opposes any reductions not
accompanied by spending cuts he
said the administration seems un-
willing to make.

"I just don't know what will
happen," he said. "But with the
committee so divided and the leg-
islative schedule as jammed as it
seems doubtful to me that
bill can be passed. I don't think
Congress is going to want to stay
here all year."

Senate Republican Leader Ev-
erett M. Dirksen of Illinois and
House GOP Leader Charles A.
Haleck of Indiana told a news
conference Wednesday they doubt
that a tax bill will be passed this
year.

NOT ENOUGH TIME
Dirksen said legislative action

probably couldn't be completed in
the Senate until Thanksgiving and
he indicated he doesn't really
think Congress will stay in Wash-
ington that long. Haleck said the
House wouldn't be happy if it
passed a bill and the Senate held
it over until next year.

The word has gone around the
Senate that civil rights will be
brought to a showdown after
Labor Day, about the time the
House is expected to debate the
tax bill. Whatever moves admin-
istration leaders make will be met
by civil rights opponents with a
filibuster.

While the filibuster is on, the
Senate Finance Committee can
meet only when the Senate itself
is not in session.

Byrd predicted that the narrow
13-12 vote by which the House
Ways and Means Committee de-
feated Wednesday a Republican-
sponsored move to tie the tax re-
duction to a holddown on deficit
spending would spur similar at-
tempts in his committee.

The House committee approved
by a 19-4 vote an across the board
reduction in individual income lev-
els, averaging 20 per cent in over-
all rates and 10 1/2 per cent in the
brackets into which most taxpay-
ers fall.

Two-thirds of the tax cut would
go into effect next Jan. 1 and
the remainder a year later.
Rep. Howard H. Baker, R-Tenn.,
moved to void the second part of
the tax reduction if the net na-
tional debt exceeded \$30 billion
next June 30 but lost by one vote.

Here's Comparison of Old, New Rates

WASHINGTON (UPI)—Here's how the revised schedule of in-
dividual tax rates recommended by the Kennedy administration
compares with (1) existing law and (2) the schedule initially
recommended.

Taxable Income for Single Person	Taxable Income for Married Couples	Present Law	Initial Pro- posal %	Revised Pro- posal %
\$0-\$500	\$0-\$1,000	20	14	14

The "taxable income" is the amount the taxpayer has left after he has subtracted his personal exemptions and his itemized or standard deductions.

Judge Denies Another Trial

Barmore Plans Appeal to State High Court

MUSKEGON (UPI)—Herman Barmore was denied a new trial yesterday by Kent County Circuit Judge John Vander Wal, who last May imprisoned the twice-convicted murderer for life.

Barmore, 45, an inmate at Southern Michigan Prison, indicated he would again ask the State Supreme Court to set aside his conviction for the 1955 slaying of boy scout Peter Gorham, 12, Evanston, Ill.

Vander Wal ruled against 30 points raised by Barmore's attorney, John C. Boeschstein, including the convicted man's two main claims—that he was found guilty on circumstantial evidence and that the jury was prejudiced.

ENOUGH EVIDENCE
"I don't believe the jury verdict was the result of speculation," Vander Wal said. "There was enough evidence produced at the trial to uphold the verdict."

Barmore's conviction was his

second for the gun-slaying of Gorham. He managed to get the State Supreme Court to overturn his first conviction in 1957 when the high court ruled pre-judicial error by Muskegon County Circuit Judge Henry Beers.

A jury of 10 women and two men found Barmore guilty of second degree murder May 1 after a dramatic three-week trial. Barmore pleaded his own case although Boeschstein helped him in his final summation to the jury.

Barmore, an ex-handyman who has spent half his life in prison, was not present at yesterday's proceeding. However, Boeschstein said he believed Barmore would seek a third trial through the Supreme Court.

Twins Are Set No. 5

SYDNEY, Australia (AP)—Janette Struthers, 40, of the Sydney suburb of Guildford, gave birth Wednesday night to her fifth set of twins.

All the children are well. Mrs. Struthers' only comment later: "It's very exciting news."

Electric Car Window Strangles 2-Year-Old

READING, Pa. (AP)—Terry A. Weist, 2, of nearby Shoemakersville, was found strangled Wednesday in the rear seat of his fam-

ily's car. His neck was clamped between the window glass and frame.
His father, John Weist, said Terry apparently stuck his head out the window, then accidentally pushed a button operating the electric-powered window.

DOWNTOWN AND DRAYTON PLAINS

And Fate of De Gaulle?

Germany Has Key to Europe?

By PHIL NEWSOM
UPI Foreign News Analyst

In a park-like setting in Bonn stands a three-story residence of clean, white lines and quiet elegance. It is called the Palais Schaumburg.

In its withdrawn setting only the soldiers of the West German Republic standing at the gates give the appearance of more than passing importance.

But it is, in fact, the official residence of the West German chancellor and from it to a degree which would have been deemed impossible 25 years ago radiates an influence over the decisions of every major Western power.

It may be the force which determines whether President

Charles de Gaulle of France decides to seek a second term. It, more than France, will determine whether President European Common Market.

And in these days of cautious hope for a world more at ease with itself, the United States will take careful soundings of opinion at the Palais Schaumburg before proceeding further in any effort to reach agreement with the Soviet Union beyond the present partial nuclear test-ban treaty.

For de Gaulle, who sealed his Europe, and remains as it has been through modern history the key to European stability.

For De Gaulle, who called his Franco-German accord with a kiss for Chancellor Konrad Adenauer, the course of events since last January has been a disappointment.

DEVOTION TO NATO
In the preamble to the accord approved by the West German

Bundestag the Germans made clear their continued devotion to NATO and to close ties with the United States as opposed to de Gaulle's own grand designs for Europe.

The German decision to become a signatory to the partial test ban agreement was over de Gaulle's opposition and led to arguments in French newspapers that France now stands isolated.

In its agricultural policies for the Common Market and in its desire that Britain also be brought into the European community, West Germany also stands in stubborn opposition to de Gaulle.

And these are two conditions which may determine de Gaulle that he and he alone can guide France through the immediate years ahead.

In the years since the West German Federal Republic came into being in 1949, the United States carefully has nurtured West German public opinion.

A neutralist or pro-Communist Germany could determine the fate of the whole of Europe.

This is the knowledge which has helped to keep U.S. forces in Europe and has been a contributing factor to U.S. support of German demands for reunification of Germany.

And it will dictate caution in the study of such Soviet proposals as a nonaggression pact between the NATO and Warsaw Pact nations for fear that it also will mean recognition of Communist East Germany.

It could be, as Secretary of State Dean Rusk hopes, that the partial test-ban treaty, can help "trail and fearful mankind" to take another step toward world peace. But other factors which have divided Europe since the end of World War II remain.

A Poor Loser, All Right

MADISON, Wis. (UPI) — The Dane County Circuit Court Clerk's Office said it received two all-money checks from a man for his ex-wife. The checks, certified for \$22 each, were made out to "Clerk of Kangaroo Court."

WAREHOUSE FIRE—A warehouse of the Huntington (W.Va.) Tobacco Co. was ravaged by fire yesterday. The warehouse was full of

glass bottles stored there by Owens-Illinois Glass Co.

Find Abode in Israel Dating 5,000 Years

JERUSALEM, Israel (UPI) — Archaeologists reported today they uncovered a model home built of clay about 5,000 years ago.

The discovery, which they said would enable reconstruction of the Tel Arab site upper levels on the Dead Sea, was made Monday. A number of Egyptian-made jars of the same period also were found there.

The Daughters of the American Revolution presented 30,000 flags as gifts last year to new citizens, Scout groups, schools, churches and other organizations.

WEEK-END WHIMSY

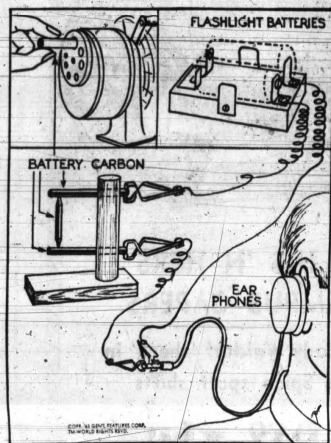

To a cocktail shaker, add 1 tsp. powdered sugar; 3 ozs. Cash Sherry Wine; 1/2 pint milk. Fill with cracked ice. Shake well. Strain into 12 oz. glass. Sprinkle nutmeg on top. Serve with straws.

Science for You

By BOB BROWN
PROBLEM — A vibration detector.

NEEDED — A good flashlight cell, three dead cells, pencil sharpener, earphones, wires and connecting clips, wood and wood-working tools.

DO THIS — Take a carbon out of a dead cell, and sharpen it at both ends. Bore holes in the other two carbons from the dead cells, so they will hold the sharpened one when set into dowels. The sharpened carbon must rest loosely in the holes. Connect as shown. One flashlight will give enough power.

WHAT HAPPENS: Set the instrument on the ground, and ground vibrations may be heard. If the earphones are in another room, speech may be heard coming over the device.

Air movement or vibration causes the carbon-to-carbon contact to be better or worse, varying the amount of current that may pass through it.

This is the principle of the telephone microphone, which is called the "transmitter." Carbon granules are used in it. (Idea suggested by Russell Richner, Lake Worth, Fla.)

A collection of these scientific puzzles is in book form under the name "Science Circus." It is in bookstores and libraries.

Freeway in Detroit Busiest in the Nation

DETROIT (AP)—Detroit's Ford-Lodge freeway exchange handled more passenger cars, trucks and buses last year than are registered in the entire United States, the State Highway Department reports.

The department said an estimated 107 million vehicles drove through the three-level exchange linking the two expressways last year.

There are an estimated 79 million passenger cars, trucks and buses registered in the country. The department said an average of 285,000 vehicles per day passed through the intersection last year, making it one of the busiest—if not the busiest—highway intersections in the world.

Just a Joke— That's Rich!

HOLLYWOOD (UPI)—Harold B. Lovitt, 21, a recent University of Southern California graduate, yesterday admitted trying to rob a bank but said he did it as a joke.

He was booked on suspicion of robbery when police learned he had played similar "jokes" at other banks.

'Little Americas' Drift in Antarctic

WASHINGTON (AP)—Little America III, Admiral Richard E. Byrd's base in Antarctica from 1939 to 1941, has shipped out on an iceberg.

A Navy icebreaker recently sighted the camp floating in the Ross Sea 300 miles from its original site.

The research station, like the other four Little Americas, was built on the seaward edge of the Ross Ice Shelf, a California-size ice field fed by glaciers.

As the shelf moves north at about four feet a day, huge icebergs break off and float away.

Icefalls will eventually doom all the camps, the National Geographic Society says.

The late Admiral Byrd established the original Little America in January, 1939, during his first assault on the frozen continent. The outpost stood 785 miles from the geographic South Pole.

Some 2,300 miles from the nearest human dwelling, Byrd and his men spent 14 months in weather-tight buildings warmed by kerosene stoves.

Winter months brought bitter cold and long darkness, Byrd

wrote: "We became a family of moles, scuttling through glistening snow tunnels with lanterns and flashlights."

When the temperature dropped to 64 degrees below zero, a man could hear his breath freeze. "We had to warm candles before they would burn," the Admiral recalled.

The great explorer's conquest of the South Pole by air, and the discovery of Marie Byrd Land climaxed the 1929-30 venture.

When Byrd returned to Little America in 1934, he found the old camp intact beneath 30 feet of snow. On a mess hall table stood a coffee pot, a half load of bread, and a slab of roast beef with a fork sticking in it.

Little America II was built atop the first. The miniature city had a broadcasting plant, four-cow dairy, and motion-picture theater.

A dramatic moment came during Byrd's stay in 'Little America II. Overnight, without warning, the underlying ice broke loose from the shelf and the camp almost went to sea. Fortunately, a cold spell mended the cracked ice.

The first two expeditions were aided by grants from the National Geographic Society, and National Geographic published many personal accounts of Byrd's adventures.

Little America III, now at sea, was Byrd's headquarters for the 1939-41 United States Antarctic Service Expedition. Members of the group walked six miles south to abandoned Little America II and picked up perfectly preserved six-year-old beefsteak, bread, butter, and candy.

When Byrd led the Navy's mammoth "Operation Highjump" in 1946-47, a tent city—the fourth Little America—hugged the ice two miles north of the third.

On the 1956 Operation Deep Freeze in support of the International Geophysical Year, Admiral Byrd established Little America V, the last before his death a year later.

The five-acre site boasted 17 oil-heated buildings, hot and cold running water and inspersing mattresses. As a final touch, Navy ships dispatched Fourth of July fireworks, Santa Claus suits, and 15,750 birthday candles.

Senate Group OKs 1st Negro for NLRB

WASHINGTON (AP)—The Senate Labor Committee quickly approved yesterday the nomination of Howard Jenkins Jr., first Negro to be named to the National Labor Relations Board.

At a brief hearing before the vote, Jenkins received the personal endorsement of Secretary of Labor W. Willard Wirtz, an old friend and colleague.

Jenkins, a native of Denver, Colo., has lived in Washington since 1946, teaching law at Howard and serving in a variety of government posts.

Fewer Riders on Pontiac Buses Seen in July

Pontiac Transit Corp. buses carried fewer riders during July than any month so far this year: 57,761.

This continues a trend of declining patronage since January. In June, the company carried 61,719 passengers.

Pontiac Transit reports the drop in fares is largely due to the loss of student riders for the summer months. In July 1962, there were 62,434 passengers.

Should Pick on Someone His Own Size

LYNN, Mass. (AP)—The 6-foot-2 woman manager of Weddings Inc., a bridal shop in the heart of Lynn was more than a match for two sturdy robbers, one of them a six-footer, Wednesday.

Dorothy Stuart, 45, of Swampscott told police she was alone when the stocking masked bandits, apparently unarmed, invaded the shop and demanded money.

As she pulled out a cash drawer containing about \$30 she said the larger man made an obscene remark, grabbed and tore her dress down the front, and tried to drag her to a back room.

She said she sent him reeling back with a well-aimed kick and that the smaller robber aided the larger out of the store, leaving the money spilled on the floor.

In the flurry, Mrs. Stuart tried to use a tiny knife on the robber but wounded herself, slightly, instead. She was treated at a hospital for a hip-and-back injury.

Theodore Roosevelt was an unsuccessful candidate for mayor of New York City in 1886 before he became governor of New York and president.

Pope Names Successor

VATICAN CITY (AP)—Pope Paul VI has named the Most Rev. Giovanni Colombo as Archbishop of Milan, the post which the Pope had held as Giovanni Battista Cardinal Montini before his election to the papacy June 21.

The new archbishop has been auxiliary bishop of Milan and is titular bishop of Filippopolis of Arabia.

Dem Senators OK Bill

WASHINGTON (AP)—Michigan Democratic Senators Philip Hart and Patrick McNamara voted with the majority yesterday as the Senate passed, 67-44, President Kennedy's National Service Corps Bill.

World War I veterans have received \$3.5 billion in benefits, Rep. Paul Findley, R-Ill., recently told Congress.

Stops Raisin' Corn With Simple Cure

By DR. WILLIAM BRADY, M.D.

"In your column not long ago, someone suggested cutting a raisin in half and placing it on a callus for relief and cure, or something to that effect. (I'm not certain about it, but I believe the suggestion was to use the raisin on a wart.)

"I tried it on a corn, mainly for curiosity's sake. I wore the half raisin, held on with adhesive tape for three days, then put a fresh half raisin on. I had it on for a total of one week. Soreness vanished almost immediately after application and in a week the corn was gone, except for a tiny core, which I rubbed off after a week.

"Probably my shoes, but corn returned and more painful this time. However, I have cut another expensive raisin in half and taped it on the corn, and again the soreness and burning has ceased. I infer from this experience that these things need something soft or softening. I wonder whether there is something in raisins that relieves pain and soreness?" (Mrs. R.J.M., Jr.)

Yes, the raisin softens and probably lessens soreness. It reminds me of Grandma's remedy for stone bruise and other sores a feller got going barefoot—a poultice or salve composed of equal parts of home made soap (gross and wood ash lye) and brown sugar.

Mrs. L. S. says her daughter, 7, has warts by the dozens, which are multiplying and growing big.

ger. They are mostly on the arms, but a few on face and legs. She had a few burned off, but this leaves a scar. So she wants my pamphlet on warts.

Indeed I haven't any. There are three pages about warts in Volunette XX of the Pocket Cyclopaedia of Health—titled "Cosmetic Blemishes." For which send me 35 cents and a stamped, self-addressed envelope.

Corns and calluses are caused by pressure and friction on the skin. The familiar salicylated collodian (corn cure) is the best remedy for corn or callus. This was formerly a standard home remedy.

It was prepared by the druggist himself and dispensed without fuss when a customer asked for corn cure. It consists of a solution of 30 grains of salicylic acid in one-half fluidounce of flexible collodian. Apply a coat to corn or callus once a day for a week or ten days, by which time the corn or callus will have softened so that it may be wiped or rubbed off. It is not so good for warts, although there is no harm in trying it, if you wish.

Collodion is a solution of pyroxyl in alcohol and ether. Pyroxyl is nitrocellulose obtained by the action of nitric and sulfuric acids on cotton. Flexible or elastic collodion is ordinary collodion to which is added a little castor oil and resin—it is less brittle when it dries.

The ether and alcohol in collodion evaporate rapidly when it is exposed to the air. Therefore the corn cure must be kept tightly stoppered.

And one must be careful when using it to keep it off the stopper or the neck of the vial, for a coating of it on stopper or vial makes it difficult to prevent evaporation, which leaves an unwieldy mass in the vial.

Housewives 1st Source to Teach on Sundays

ATLANTIC CITY, N. J. (AP)—More housewives than any other occupational group are Sunday school teachers in the Methodist Church, says a report to the denomination's board of education. It says housewives make up nearly 55 per cent of the Methodist Sunday school teachers, 28 per cent of the teachers of youth and 24 per cent of the teachers of adult classes.

ROUGHIN' IT—A group of 35 teen-agers from Tulsa, Okla., are sleeping on the floor at Toronto's St. George the Martyr Church for the next 10 nights. Led by Rev. Ralph Taylor (foreground), the boys are among more than 1,000 delegates to the Anglican World Congress that opened in Toronto yesterday.

5 Die En Route to Mexican Town From Michigan

MONCLOVIA, Mexico (AP) — Five persons en route from Saginaw, Mich., to Monclovia died Monday night in the collision of a station wagon and a truck.

The Monclovia newspaper La Voz del Norte identified the dead as Mrs. Alfredo Maldonado Salazar, 37; her three children, Alfredo, 7; Jorge, 5; and Ricardo, 2; and her sister, Mrs. Pauleta Aguirre. Mrs. Aguirre was the wife of the Monclovia mayor.

Alfredo Maldonado Salazar at last report was in critical condition.

The newspaper did not include other details. Monclovia is about

350 miles west-northwest of Brownsville at the southern tip of Texas.

Romney Names Adviser on School Financing

LANSING (UPI)—Gov. George Romney yesterday appointed Charles E. Brake, of Grosse Pointe, as a special adviser to the governor on school finance.

Romney asked Brake, the retired superintendent of the Wayne County School System, to consult with educators and citizens in the state and then submit recommendations for changes in the school aid formula to make it more adequate and equitable.

Detroit Jurist on Society

CHICAGO (AP) — Henry L. Woolfenden of Detroit was one of three vice presidents elected yesterday by the American Judicial Society.

Young GOP Split on Barry

DETROIT (AP) — Two Michigan younger Republican groups are at odds over Arizona's Sen. Barry Goldwater.

Allen Howell, a Wayne State University student who is chairman of the Michigan Federation of College Republicans, announced yesterday his group will promote Goldwater for the 1964 GOP nomination for President.

Promptly, Bob Dethmers, chairman of the Michigan Federation of Young Republicans, charged that Howell was "out of step."

Dethmers, an assistant Ingham County prosecutor, said his organization includes the

college group, and its constitution prohibits the latter from endorsing any candidate.

Howell, 23, said his group would try to get the Michigan delegation to the Republican national convention next year to support Goldwater.

He said more planning is due at a meeting Aug. 24 at the Midland home of former State Sen. Lynn O. Francis, a Goldwater supporter.

Dethmers said he doubted that the Michigan delegation would be "much persuaded" by Howell's group. He said he was convinced the "overwhelming majority are dedicated to Gov. Romney and will give strong support to whatever his wishes may be."

Ireland is attracting United States industry. More than 20 American branch manufacturing plants are now located in Northern Ireland.

Leaders Make Tribute to Japanese War Dead

TOKYO (UPI)—Emperor Hirohito, Premier Hayato Ikeda and other leaders paid tribute to the 3 million Japanese dead of World War II today at ceremonies marking the 18th anniversary of the end of the fighting. Hirohito expressed "deep condolence" to the bereaved survivors in a nation-wide radio-television speech broadcast from the Hibiyu Auditorium, where the government held its first war memorial service.

Young GOP Picks Site

KALAMAZOO (AP) — Kalamazoo will be the site of the 1964 convention of the Michigan Young Republicans. The immediate past president of the Kalamazoo County Republicans, John Kwaak, has been named chairman of the convention planning committee.

Celebrates on Royal Yacht

Princess Anne's Now a Teen

AP Photos

13TH BIRTHDAY—Princess Anne of Great Britain celebrates her 13th birthday today. She poses in a girl scout uniform in the palace in London.

LONDON (UPI) — Princess Anne, who leaves home soon for boarding school, stepped into the teen-age world today with a 13th birthday party aboard the royal yacht Bloodhound.

The princess awoke to find the vessel under way for Aberdeen Scotland, from where she will go to Balmoral to spend her summer vacation with her mother, Queen Elizabeth.

Prince Philip and Prince Charles, the 14-year-old heir to the throne, opened the princess' day with a shipboard rendition of "Happy Birthday to You."

The slim, blonde-haired Anne won't have her "real party" until she reaches Balmoral and is reunited with her mother, a Buckingham Palace spokesman said.

They will then cut the pink and white cake Elizabeth's chef, Ronald Aubrey, plans to bake in honor of the occasion.

One guest who will get a slice of the cake — and for a very special reason — is the princess' pet Corgi terrier, Sherry.

Anne will have to leave Sherry behind when she reports to Benenden, the private boarding school on Sept. 20.

The \$1,344-a-year fee does not entitle even a royal prince to bring her puppy. Up until now, Anne has studied under private tutors and a governess, the same type of education received by the Queen and Princess Margaret.

But Anne and Charles, who will be 15 on Nov. 14, are both trailbreakers. Charles was a student at Cheam and is now enrolled at Gordonstoun School in Scotland.

British newspapers carried

Radar Finds a Balloon Over Alaska

ANCHORAGE, Alaska (U) — A free balloon of unknown origin drifted above the northern coast of Alaska into northern Canada Sunday and Monday.

A spokesman for the North American Air Defense Command at Elmendorf Air Force Base, Anchorage, said last night the distant Early Warning (DEW) line, the Alaska NORAD region and the NORAD command post at Colorado Springs, Colo., had the balloon under surveillance.

His statement came several hours after the Fairbanks, Alaska, News-Miner published a story based on reports from an unnamed source.

NORAD reported the balloon was detected by radar at noon Sunday as it drifted at an altitude of about 35,000 feet over the Arctic Ocean toward Point Barrow, on the north coast of Alaska. The News-Miner said it was visible in Barrow.

The military said a B52 bomber flew near the balloon and reported no antenna or superstructure was visible. It was described as similar to balloons used in weather research.

NORAD said it did not know what happened to the balloon after it drifted into Canada.

photographs of the young princess today in her girl scout uniform of royal-blue blouse, navy-blue skirt and beret and brown belt.

It will probably be the last time she'll put on the uniform, because the First Buckingham Palace Scout Troop will now be disbanded.

There was no indication yet what presents the princess received today or whether everything would be held over until the Balmoral party.

Presents or not, this was a day of the type Anne loves to spend. She dotes on sail-

Iraq Depends on Resources

Oil, Land, Water Vital in Civilization Cradle

WASHINGTON — Whatever its changes in government, Iraq depends for its life and well-being on oil, land and water.

Life-giving water is provided by the great Tigris and Euphrates river systems. They have long made Iraq one of the more fertile areas of the desert-plagued Near East.

According to tradition, the Garden of Eden lay near the confluence of the two rivers. Iraq's ancient name was Mesopotamia, from the Greek meaning "Land Between the Rivers."

Effective irrigation made Mesopotamia the granary of the ancient world. Its green fields supported many times the present population of 7,263,000.

"Oil is a fine thing, but you can't plant it," an Iraqi said. Water is far more important. Most natural resources are replaceable. But once you take oil out of the ground, it is gone forever."

Wherever water is available, soil in Iraq is extremely productive. It yields grain for domestic consumption and export and about four-fifths of the world's dates.

The key to Iraq's economic future lies, however, in its huge oil wealth. Oil royalties have financed a dozen dams, canals, artificial lakes, irrigation and drainage installations.

Iraq has witnessed the rise and fall of some of the world's greatest civilizations. South of Baghdad was storied Babylon where Nebuchadnezzar built the famed Hanging Gardens.

In the north stood Nineveh, royal residence of Sennacherib when the Biblical monarch ruled the Assyrian empire during its golden age.

The oil center of Kirkuk is the reputed site of the fiery furnace from which Shadrach, Meshach, and Abednego emerged unscathed.

Iraqis hope the past is only a prelude. In spite of political turbulence and problems of poverty and illiteracy, the people are working hard to build a modern nation on the ancient ruins.

Sons of primitive farmers are studying chemistry and physics in first-rate laboratories, and signs of a new nation in the making are apparent.

Planes, Trains Log Coast-to-Coast Trip

NEW YORK (U) — The first transcontinental travel service in this country, begun in July, 1929, was a combination of trains and planes.

The cross-country "passengers" left Pennsylvania Station in New York by train at 6 p.m., were transferred to a plane next morning at Columbus, Ohio, went back to trains at Wyandotte, Okla. the next night, and slept through to Clovis, N. Mex.

There they boarded another plane for the final leg to Los Angeles.

Travel time was 48 hours; fare, \$321.24. When all-plane service began in 1930, the train-plane combination was abandoned.

It is believed that most of the 500,000 eye accidents suffered by Americans each year are preventable, especially those involving children.

Kennedy Put Off the Street

ALBANY, Ga. (U) — Residents on Kennedy Boulevard have succeeded in changing the name of their street, but they ignored a quip by Mayor Asa D. Kelley that they make it "Goldwater Trail."

The Albany City Commission voted unanimously yesterday to approve a petition from 22 householders who said they found it humiliating to live on a street named in honor of the President when they disagree with his civil rights policies.

The new name is Murry Hill Lane.

Baby Bites Hot Outlet

SALFORD, England (U) — Ten-month-old Howard Moggan was recovering today from a burned mouth and upper lip suffered when he bit a live 230-volt electrical outlet.

Balloonist to Seek World Altitude Peak

KALAMAZOO (U) — Well-known balloonist, Don Piccard, will try for a world altitude record Sunday in the finale of the two-day "100 years of flight" air show. The Kalamazoo County Chamber of Commerce is sponsoring the event, which includes among its attractions the first national hot air balloon championships, the Michigan 99's eighth annual 200-mile cross-country race, the Cole Flying Circus and the Air Force Thunderbirds precision flying team.

The United Nations Children's Fund has provided about \$11.5 million to Indonesia in the last 12 years to further child welfare programs.

Moslem Saudi Arabia has moved to ban the import of cologne and other toiletries with a high alcoholic content.

Optimist Club Elects Officers

Dave Putnam, 2830 St. Jude, Waterford Township, has been named president of the Breakfast Optimist Club of Lakeland to fill the unexpired one year term of Dr. Kenneth Soncraine.

Dr. Soncraine, elected president July 1, resigned due to outside business.

Elmer Fangbner, 3327 Melrad, was named to fill the post of first vice president vacated by Putnam.

Paper Publisher Dies
UKIAH, Calif. (U) — Bernice Oster Cober, 68, who had published the Ukiah Daily Journal with her husband since 1931, died yesterday at their home.

Now Impoverished, Illiterate

Haiti Once Led New World Production

WASHINGTON — Mounting natural cycle that cuts yield as much as 50 per cent every other year. In 1960, coffee accounted for 74 per cent of Haiti's total exports; sisal, 13 per cent; sugar, 2 per cent.

TOPSOIL WASHED AWAY

Farm families—51 per cent of the population—raise just enough subsistence crops to feed themselves. Overcultivation has depleted the soil. New lands were opened to farmers by cutting trees, but in most places tropical rains washed away the thin layer of fertile topsoil.

Haiti's gross national product in 1961 averaged 383 Gourdes (about \$75) a person—lowest in the Americas. Despite compulsory education laws, schools are few, teachers scarce, and illiteracy almost universal. Only about one of 10 Haitians can read and write.

A city of nearly 200,000, Port-au-Prince lies at the eastern extremity of the huge Galle des Gonaves. It is a place of dramatic contrasts, reflecting the wealth and sophistication of the elite minority and the squalor of the slum dwellers.

The gleaming national palace and cathedral tower over flimsy shacks. Luxury hotels rise in the surrounding hillsides.

Cap Haitien, on the north coast, is Haiti's second city and former colonial capital. Once known as "Little Paris," it was burned to the ground during the fight for independence in 1802.

Rebuilt, Cap Haitien was nearly demolished by an earthquake in 1942; the job was finished by a 1928 hurricane. The present city of 26,000 was built out of the mellowed ruins. Gaily painted houses are set amid hibiscus, orchids, and night-blooming cereus. Cap Haitien has been called "the most subtly beautiful city in the West Indies."

Coffee emerged as the major crop. The Haitians, unlike the French, left the coffee bushes untended and let them grow wild.

The shrubs are now subject to a

Haiti's last tie with France is its official language, French. Cultured Haitians speak French; many are French-educated. The masses speak a patois—French, Spanish, English, African and Caribbean Indian dialects.

Most Legislators From State Vote for School Aid

WASHINGTON (AP) — Here is how Michigan representatives voted when the House yesterday passed, 287 to 113, and sent to the Senate a bill to provide federal aid for higher education: Democrats for: Diggs, Dingell,

Griffiths, Lesinski, Nedei, O'Hara, Ryan, Staebler. Republicans for: Bennett, Broomfield, Cederberg, Chamberlain, Ford, Griffin, Harvey, Knox, Meader. Republicans against: Hutchinson, Johnson.

The Post Office Department, largest civilian agency of the government, has \$85,000 employees, according to Postmaster General J. Edward Day.

Woman Found Dead in Her Crashed Car

OWOSSO (AP) — A young Owasso woman was found dead in her car on a rural road yesterday after it had skidded and partly upset, then righted itself. Beverly Grim, 23, lay dead at the wheel. The cause of death was not evident. Coroner Howard Jennings of

Shiawassee County said Miss Grim might have suffered a heart attack or a broken neck when the car tipped over.

Funeral Service Set

SULLIVAN, Ill. (UPI) — Funeral service will be held tomorrow for Bliss Shuman, 84, father of Charles Shuman, the president of the American Farm Bureau. Shuman died Tuesday.

Stock Exchange Official Dies of Heart Attack

PISA, Italy (AP) — Funeral arrangements were being made today for Harold C. Mayer, a former governor of the New York Stock Exchange and a senior partner in the Wall Street firm of Bear, Stearns & Co. Mayer, 68, died Tuesday of a heart attack while vacationing here.

Algiers Leaders Denounce Rift

Blast President for Break With Ben Bella

ALGIERS (AP) — Leaders of Premier Ahmed Ben Bella's National Liberation Front (FLN) denounced veteran Nationalist leader Ferhat Abbas today for his break with the premier.

The FLN's coordination federation, composed of representatives from all over the country, hurried to Algiers yesterday after Abbas resigned as president of the National Assembly.

The federation statement accused Abbas of "defending pure and simply the interests of some privileged people."

Abbas, the political leader of the Algerian revolt, charged in his resignation that Ben Bella was usurping the assembly's right to write the country's constitution.

An advocate of private enterprise, he opposed the premier's plans to set up a socialist economy.

Amid the atmosphere of political crisis, Ben Bella's government accused Israeli agents of plotting against the regime.

CRUSH GUERRILLAS

Information Minister Mouloud Belouane announced that government troops had smashed a guerrilla band in the Kabylie Mountain town of Dra El Mizan, 100 miles southeast of Algiers.

Belouane said 20 members were Algerians and the others were foreigners — "some of them Jews."

The minister said the Israelis "are trying to interfere in our internal affairs," because Ben Bella has taken a strong anti-Israeli stand. His statement was seen as an effort to divert Algerian attention from domestic problems.

Shortly before Belouane made his statement, the government decided to prohibit "all associations of political nature." It did not elaborate.

Traverse City to Vote on School Mill Issue

TRAVERSE CITY (AP) — Traverse City residents will vote again today on a three-year, 4.1-mill school tax increase which lost, 1,067 to 965, in June.

The city's school board said defeat will mean elimination of bus service and athletics, not hiring a music and art teacher and curtailment of teacher travel.

Crash in Korea Kills Crew of 6 Army Officers

SEOUL, Korea (AP) — A U.S. Army spokesman announced today that all six Army personnel aboard a light plane that crashed Aug. 4 were killed.

Their bodies were found in the wreckage of the L-29 on a mountain less than 20 miles from an airstrip near Kamsong, 90 miles northeast of Seoul. They had left Kamsong for Pyongyang, 40 miles south of Seoul.

The wreckage was sighted Tuesday.

The spokesman said the cause of the crash is being investigated. Killed were Capt. Kenneth J. Alves, Fayetteville, N.C.; Capt. Gene A. Truitt, North Largo, Fla.; Capt. Travis L. Moore, Fort Smith, Ark.; 1st Sgt. Marvin E. Morgan, Ellenwood, Ga.; Capt. Russell E. Cooper, Big Stone Gap, Va.; and Capt. Joseph M. Davis, San Antonio, Tex.

City Sees Dip in Construction

New construction in Pontiac slumped during July. Valuation of all building activity was set at \$76,230.

The city issued 163 building permits, compared to 193 in June and 175 in July 1962. Carl F. Alt, building inspector, said the monthly variation is not unusual and predicted construction values will rise in August.

Sixteen new dwellings, valued at \$122,700, were the largest single category. Other high valuation permits were a \$125,798 city fire station; two new churches, \$89,000; a \$70,000 new commercial building.

Bulk of the permits, 92, represents residential alterations and repairs amounting to \$62,309. Demolition of 16 structures was also approved.

The \$78,230 total July valuation is sharply under June's \$2,618,329 total.

Car Driven by Father Kills 18-Month-Old Boy

HOUGHTON (AP) — Eighteen-month-old Scott Morlan was struck and killed last night by a car driven by his father, Donald. Witnesses told police the boy was playing in front of the parked car and the father got into the car without seeing him.

Who buys more Savings Bonds?

As statistical-minded as we are today, the Treasury Department can't answer that question.

The Treasury does know that U. S. Savings Bonds are owned by tens of millions of families. So it might be safe to assume that people in every walk of life belong to this "savings club."

This is a happy fact for the United States, and for the free peoples of the

earth. For Savings Bond dollars are playing an important role today in the making of history.

This \$46 billion reserve in the government's hands is working vigorously today to help our country in the major struggle to defend freedom.

At the same time, Savings Bonds help build your personal purchasing power by paying good interest and providing a

method of saving that's unconditionally safe and readily cashable. And the higher your purchasing power, the better it speaks for our system.

It all adds up to one of the best ways you can save money and at the same time help your country. Start buying Bonds next payday—through the Payroll Savings Plan where you work, or from any bank—and see if you don't feel pretty good about it.

Quick facts about U. S. Savings Bonds

- You get \$4 for every \$3 at maturity
- Your Bonds are replaced free if lost, stolen or destroyed
- You can get your money anytime
- You can save automatically on Payroll Savings

Keep freedom in your future with **U.S. SAVINGS BONDS**

The Pontiac Press

The U.S. Government does not pay for this advertising. The Treasury Department thanks The Advertising Council and this newspaper for their patriotic support.

Mr. John Doffs His New High Hats

"Tupilo," with its pile leopard-like fur, features a higher dome toque with a shorter cuff emphasizing its higher silhouette. Shown here with a matching

bag, this Mr. John classic hat retails in the \$6.95 to \$12 price range. All Mr. John hats shown are available locally.

MR. JOHN

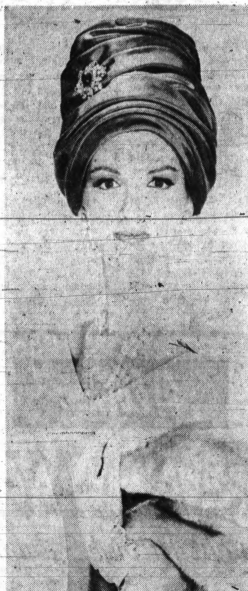

Regatta Set for Weekend

The Second Invitational Snipe Regatta of the Watkins Lake Yachting Association will be held Saturday and Sunday at Watkins Lake.

Cochairmen of the affair are Sheldon Covert and Mrs. Glenn Fries.

One race will be held on Saturday with two races on Sunday, followed by luncheon and the awarding of trophies for first, second and third place winners.

Boats from Lake Angelus and Green Lakes have been invited as well as boats from Grand Rapids, Ann Arbor, Jackson and Cassopolis.

"Seductive," a silhouette of the very finest and lightest silk in a light foliage green, drapes into this elegant toque. It's higher "tower" crown gently cascades to a snug turban look highlighted by a Mr. John court jewel. A Mr. John custom designer original at approximately \$89.50.

"Rialto," a custom designer original hat for approximately \$69.50 in pale grey felt, is handshaped into an imposing silhouette. The wider, portrait brim so delicately hand-turned to give a slight "look" of a boater but with a profile slant has a narrow, tapered crown sashed in pale grey pea de soie in a court bow.

Husband Looks for 'Purpose' While Family Sits at Home

By ABIGAIL VAN BUREN

DEAR ABBY: It's the same old story. Wife puts husband through four years of school, plus two years of dentistry, and now she has been outgrown.

However, my story is more than this. I've taught school, born two children and am expecting another. My husband took up with a "beat" crowd and is now trying to "discover" who he is — and what his purpose in life is.

He was raised rigidly in the church, but he's forsaken it to experiment in a "free" way of life, which includes drinking and other women.

We've been separated three months. (I took the children and went to HIS parents, 2000 miles away — my parents are dead and I have no "family" of my own).

My husband now writes that he has taken up painting and intends to desert the career for which he was trained, because he can't handle the responsibility of a family until he finds out who he is and what his purpose in life is.

I know I haven't been a perfect wife, but I was faithful, and put him through school. What am I to do?

TROUBLED

DEAR TROUBLED: Your husband is either sick or a bad apple. His father should go after him and tell him WHO he is (a husband and father) — and explain that his "purpose" in life is to take care of his family.

If your husband is sick, he should have treatment. If he's a bad apple, he should be cut off the family tree.

DEAR ABBY: Is it true

that in order to meet the qualifications of a true gentleman, a male, when out tripping the light-fantastic, must dance with each lady at his table? That is, if he knows his one, two, three kick?

R. F. A.

DEAR R. F. A.: Today a

man is considered a "hero" if he dances his wife once around the floor.

If he goes in for the "one, two, three, kick" routine (to quality) as a true gentleman he won't give the lady much pleasure — nor will he get much.

WOMEN'S SECTION

Best Way to Interrupt Busy Boss

By the Emily Rost Institute

Q. On occasion, while my employer is occupied with a visitor, it is necessary for me to go into his office and give him an important message. When this happens, I am always at a loss as to the correct way to handle the situation.

By this I mean, do I excuse myself and interrupt his conversation, or must I stand quietly by and wait for my employer to acknowledge my presence?

A. If it is something that requires his immediate attention, you may interrupt with, "I'm sorry Mr. Jones but Paris is on the wire." For anything less immediate you should stand quietly by and wait till he notices you and asks, "What is it, Miss Smith?"

Q: What is the correct way to acknowledge a wedding present sent by a mother and father, their daughter and her husband?

Are two notes necessary—one to the mother and father and another to the married daughter and her husband, or would one note suffice?

A: If all four are living under the same roof, one note will do, but otherwise two are necessary.

"Hacienda," is a Mr. John custom designer original hat available at approximately \$350. The pearl colored seal great cloche is banded by a glittering gold ribbon encrusted with diamond-like brilliants.

Women Plan Supper, Sale

Hostess for the Tuesday evening meeting of the Women's Missionary Society of the First Church of God was Mrs. Dan Mattingly, Sunnybeach Drive.

Fall projects were discussed at the meeting. Planned are a Sloppy Joe supper and a benefit sale at the Knights of Columbus Hall.

Michigan 'Sisters' Named to Post

At the recent international convention of Alpha-Delta Kappa sorority in Pittsburgh, two members from Michigan were named to the International Grand Chapter Board. Mrs. E. Cleo Wiley of Pontiac's Rho chapter was elected grand sergeant at arms and Dr. Ruth I. Golden of Highland Park is grand vice president.

Odell Smith, high school counselor from Greenboro, N.C., was elected grand president.

The sorority presented Regina Prosdrow of Cavala, Greece, with a \$1,000 scholarship to continue work on her doctorate.

Similar scholarships were sent to four other teachers from Switzerland, Germany

and Argentina.

Some 900 delegates from 44 states, two from Puerto Rico and five from Ontario attended the conference.

From the Pontiac area were Wilma Webb, Faye Denelson, Helen Voss, Margaret MacKenzie, Mrs. Cornelius Crowley, Mrs. Lewis Cornell, Helen Kinney, Mabel Smith and Mrs. John Landon.

B. Slim, 3-piece ensemble with a neatly collared cardigan and companion overblouse, both with luxury looped trim. In oxford/gold, cardinal/fawn or chocolate/oatmeal. Sizes 8 to 10.

The Danger of Food Poisoning Rises Along With the Mercury

Potato salad, ham, poultry stuffings, and custard-filled pastries all make headlines in summer—too often as the suspected villains in food poisoning outbreaks.

Usually, only the more severely ill cases and outbreaks involving numbers of people are reported, points out Mrs. Mary Jane Van Meter, Oakland County extension agent in home economics.

However, she warns, the family cook as well as institution caterers and restaurant chefs must observe certain precautions in food preparation to preserve top-

quality foods and avoid contamination by bacteria.

Most foods are highly perishable and become even more perishable as they are prepared for serving. Some foods are more likely to cause food poisoning if they are not handled and stored correctly.

Low-acid foods such as meats, poultry, poultry dressings, meat and fish can easily be the source of food poisoning, especially when minced and moist and when handled a great deal. Special care is needed for

such foods as cream-filled and custard-filled pastries, sandwiches, ham, meat, chicken and potato salads.

PERSONAL CLEANLINESS

Prevention of food poisoning must depend on a great deal on personal cleanliness and carefully cleaned preparation areas and on the protection of food during its storage and preparation.

Mrs. Van Meter points out that bacteria grow best when the temperature is between 50 and 120 degrees Fahrenheit. This is the danger zone in which foods should be held the last possible time, and unfortunately, picnic weather temperatures!

Refrigerate food immediately after it is cooked to check the growth of bacteria. If a lot of hot food must be refrigerated, precool it first by putting it in shallow pans placed in cold water.

Refrigerate leftovers as soon as possible. Chill perishable foods rapidly and hold them at 40 degrees Fahrenheit or below.

Temperature is especially important in handling some types of food. Do not let prepared salads or sandwich fillings stand at temperatures between 50 and 120 degrees Fahrenheit for more than four hours.

Remember: The time food remains in the danger zone (temperatures over 50 degrees but below 120 degrees Fahrenheit) is cumulative. It adds up.

If something is refrigerated at intervals, the total time it is out of the refrigerator should not exceed three or four hours.

Refrigeration does not kill food-poisoning bacteria; it does prevent it from growing.

Towel-Rub Is Reversible

A new, reversible towel-rub comes with a towel boasting a velvet-like finish on one side and terry cloth on the other.

Put a couple of drops of lemon juice on shoes when polishing. It adds to the shine.

Honored With Showers

Honored recently for her forthcoming marriage was Janet Ann Baranski, daughter of the Raymond Baranskis of Vassar. Sept. 14 vows are planned by the bride-elect and Ronald Wilford

Ramsey, son of the Albert Ramseys of Hallman Street.

Linda Turner and Gayle Wimmer hosted a personal shower recently in East Lansing. Guests were present from New York, Pittsburgh, Pa., Vassar and Canada, as well as local residents.

Also held recently was a shower given at the home of Mrs. Harry Ramsey in Detroit. Some 50 guests came from Pontiac, Wixom, Commerce, Royal Oak, Berkley and Vassar.

The bride-to-be will also be feted Aug. 25 by JoAnn and Kathy Baranski in Vassar.

BONNIE MAE RICHARD

Dr. and Mrs. Laurence J. Richard of Franklin Village announce the engagement of their daughter Bonnie Mae to Gary Mason Miller, son of Mrs. Ellynde Livingston Miller of Bloomfield Hills and Rhys D. Miller of Orinda, Cal.

House Rule Saves Regret

NEW YORK (UPI)—Take along a yardstick or folding rule when you go house shopping.

You will need it to check some vital statistics which will make the difference between convenient and inconvenient living.

Use the measuring rod on closets — they should be 24 inches deep. Less depth crumples garments and more is a waste.

Halls and doorways should be at least three feet wide so large furniture can be moved in and out.

Watch for Fraud, Deception

Free Booklet Tells Consumer to Beware

By MARY FEELEY
Consultant in Money Management
"An alert and wary consumer is the best protection against fraud and deception."

This is a simple truth that we who buy merchandise and need for repair services should repeat to ourselves and cling to as gospel. The state-

MARY FEELEY

ment comes from a man whose office receives thousands of complaints of fraud every year — from people who spend their hard-earned money not wisely but too costly.

Dear Miss Feeley: I read with interest your column entitled "Cut Down on Home Repair Bills." The major segment of business and service men carry on with integrity and deal with their customers in good faith.

Unfortunately, a relatively

small but significant minority seeks only to make an easy dollar at the expense of the public.

An alert and wary consumer is the best protection against fraud and deception. The Bureau of Consumer Frands and Protection in the State Department of Law, which I am privileged to head, carries on broad educational programs to assist the consumer in recognizing and thus avoiding schemes which are used to bilk him.

Our success is dependent in great measure upon the scope with which our warnings and education material are brought to public attention.

The latest brochure distributed by my office is entitled "Your ABCs of Careful Buying — a Guide for the Consumer." I am enclosing a copy for your information.

A few words in your column, advising people of this guide and that it may be obtained free of charge from my office, undoubtedly would bring it to the attention of a tremendously wide audience.

My congratulations to you for your efforts in the campaign for business decency.

Louis J. Letkowitz,
Attorney General,
State of New York,
80 Centre Street,
New York City

The attorney general does us all a favor in making this booklet available. For its 10-point buying guide can prove a real budget saver — no matter where you live or how much money you

have to live on. None of us can afford to be bilked. I quote here some highlights from the "ABCs":

"Don't be misled by the dealer who lures you to his establishment with an attractive advertisement of a standard brand item and then tries to talk you into a higher priced off-brand article."

"Don't be blinded by 'bargains' offered at prices which are hard to believe. Check prices of the same quality merchandise or services offered by other dealers."

"Don't be rushed into buying anything by talk of a 'golden opportunity.' Take your time, investigate, and make up your mind carefully."

"Don't allow a door-to-door salesman to leave merchandise with you on an 'approval receipt' until he returns. He may not come back and you will find yourself receiving a bill for an article which you do not want."

"Don't permit a household appliance or television or radio set to be taken from your home for repairs without first receiving in writing an estimate of the probable repair cost. Obtain written assurance that no additional charges will be made without your consent."

"Don't use the article delivered to you if you find that it is not the same as you ordered, but immediately notify the seller."

"Don't sign a contract without reading it carefully — especially

the fine print. NEVER SIGN A BLANK CONTRACT OR A CONTRACT WITH BLANK SPACES IN IT. Demand and get a copy of the contract. Check with a lawyer if you don't understand it."

"Don't make financial commitments which you cannot possibly meet. Don't hesitate to investigate before buying. If you have any doubt about a dealer, check with the attorney general's office, Better Business Bureau in your area, your local Chamber of Commerce, or some other community organization which works to protect the consumer and the legitimate business man."

(You can write Mary Feeley at care of The Pontiac Press. She will answer in her column questions of widest interest.)

Health Guide Is Rewritten

WASHINGTON (UPI)—One of the family's best friends in matters of health for the past 50 years has been rewritten and brought up to date.

It is the American Red Cross Home Nursing Textbook available either at book stores or through local Red Cross chapters.

The paperback book is divided into two major sections — one, the theories of disease and health, and the second, practical instructions on how to meet family and community health needs.

SUZANNE RAE KOREN

The Michael Korens of School House Drive announce engagement of their daughter Suzanne Rae to Gary George Payne, son of the Edmond G. Paynes of Lincolnshire Drive. January vows are planned.

Registration for School Nursery Set

Bethany Nursery School, created two years ago by the Bethany Baptist Church, opens registration at 10 a.m. Friday for its fall semester. Staff members will be present until noon at the church, and will return Aug. 23, 30 and Sept. 6. The fall term begins Sept. 9.

Mrs. Mark Cheny, who holds a master's degree in elementary education and an elementary life teaching certificate, is the director of the school. Assisting her are Mrs. Andrew Pepper and Mrs. Peter Lepersau.

Children who are 4 years old, or will be by Dec. 1, may enroll in the Monday-Wednesday - Friday sessions. Those children 3 years of age (by Dec. 1) will meet on Tuesdays and Thursdays. Classes are held from 9-11:30 a.m. each weekday.

Daily schedule at the school includes individual and group play, stories, music, rhythm games and creative activities. Individual and group guidance is also given. Although the school is non-sectarian in character, spiritual emphasis on a children's level is part of the regular program. Bible stories, hymns and prayers are included in the daily routine.

Conferences with the teachers will be available and parents will be invited to visit the school to observe their children's play and work patterns. Interested parents are also invited to visit the school Friday or any of the Fridays during the enrollment period to meet with the teachers and inspect the facilities.

Restaurant Faults

A survey shows that most frequent customer complaints about restaurants are waiting to be seated, noise, unpleasant waiter or waitress, and problems with their own small children.

Coffee Key Handy Tool

The key attached to open a coffee can can serve double duty as a screwdriver for small screws.

Just unwind the metal strip from the key after it has been used to open the coffee.

Delightful Little Whimsies

\$2.98 and up

Delightful little veiled fantasies that sit atop your hair-do. Feathers, Velvets, Silks, Taffetas in black, sapphire, navy, beige, moss, coffee, green, red and others. You'll want several.

Hat Department — Second Floor

Shoe Tips for Walking

NEW YORK (UPI)—For a country walk a shoe with ties is strongly recommended, said the National Shoe Institute.

But the woman with a narrow, bony foot might find that the shoe with a tie does not cover the full instep is more comfortable.

For city walks, however, women should choose shoes that have medium or low heels with a firm yet comfortable grip, the Institute advised.

Scholarships Are Set for Exec Seminars

A scholarship fund of \$10,000, earmarked for participants at forthcoming seminars for women executives at the University of Illinois and the University of Southern California, was announced recently by the Business and Professional Women's Foundation.

Fifty \$200 scholarships are available to women executives who apply before Aug. 20 to either of the two universities.

Applications should be mailed to the Office of Executive Programs, Graduate School of Business Administration, University of Southern California, Los Angeles; or to Executive Development Center, College of Commerce and Business Administration, University of Illinois, Urbana.

The Southern California seminar will be held Aug. 25-

31, and the University of Illinois Seminar Sept. 17.

The theme for the University of Southern California seminar is "Modular Management for the Executive Woman." The objectives of the seminar at the University of Illinois are to provide women in management with an insight into the art and science of management.

A top management seminar is being held this year at Michigan State University Sept. 22-26. It is also sponsored by the Business and Professional Women's Foundation.

BRENDA R. EDWARDS

September votes are planned by Brenda Ruth Edwards, daughter of Mr. and Mrs. James Edwards of Bartlett Street, to Leonard Gerald Gracey, son of Mr. and Mrs. Coley Gracey of Lorraine Court.

Grocery Bill Is Catchall

CHICAGO (UPI)—In estimating the total "food budget," consider that two of every 12 items that go into the shopping cart are known as "non foods" in the trade. Young homemakers particularly are prone to include such items as phonograph records, toothpaste, children's toys, household cleaners, beach sandals and capri pants as items bought with their "grocery money," says the Super Market Institute.

A survey team from Purdue University peeked into the shopping carts of more than 11,000 Indiana homemakers to see how much general merchandise the average supermarket shopper buys.

The average value of the items in the carts was \$4.59. Of this 83 cents went for non-food items, or almost \$2.00 of every \$10 spent.

Style Kills Off Cats

NEW YORK — The National Audubon Society today released a late report from Africa on the illegal slaughter of the leopard for a black-market that supplies the fur-fashion trade in the United States.

Society president Carl W. Buchheiser renewed his appeal to American women to quit buying leopard skin garments in order to take the pressure off the endangered African animal.

Stimulated by a fashion craze for the uniquely spotted pelt, the sale of leopard coats in the United States has increased sharply, according to figures quoted by the Wall Street Journal.

In a recent communication Mr. E. H. Risley of Nairobi, Kenya, executive officer of the East African Wildlife Society, told the Audubon Society that "the illegal killing of leopard has reached a new peak of intensity."

He said that during the last 18 months the black market center has switched from Somalia to Ethiopia, and the current price for an average leopard skin is from 70 to \$80 British pounds. In American money this is from \$196 to \$224.

He estimated that three-fourths of the poached pelt come from Kenya, Uganda and Tanganyika, the countries regarded as the last — but rapidly diminishing

stronghold of the once great herds of African big game.

"To sum up," Risley wrote the American conservation organization, "the illegal killing of leopard is almost certainly more extensive than it has ever been, and many areas of East Africa have now been deprived of leopard with a resultant prolific increase in pig and baboon and other crop-destroying pests."

Tip for Sewing

Before sewing, place a sheet under your chair. Dropped pins, hooks and eyes, needles and threads then can be found more easily.

Artery Ills May Begin in Infancy

NEW YORK (UPI) — The hardening of arteries, a disease usually associated with old age, actually may begin in infancy.

A study of the coronary arteries of 25 dead infants and children by a team of researchers, headed by Dr. A. S. Daoud, from Albany Medical College and Veteran's Administration hospital, Albany, N.Y., showed the existence

of fatty patches and wall thickening.

The children varied in age from stillborn to 15 years. These conditions were found to be more pronounced with age, and the researchers say "may represent the early stages of arteriosclerotic heart disease."

Their report was in a recent publication of the Journal of The American Medical Association.

Sweaters Muffled

Muffled is the look for many of the fall sweaters. Turtle neck treatments are plentiful in both the smooth surface and heavily ribbed pullovers.

Dad, Not Son, May Be Woman's Problem

By MRS. MURIEL LAWRENCE
Dear Mrs. Lawrence: My husband has allowed our 16-year-old boy to take out a driving permit. Ever since the boy got it he had defied everything I say and has made friends with two boys who have been arrested for reckless driving several times. My nerves are breaking over this situation. All I get from my husband is the accusation that I am trying to stop our son from growing up. He can't see that the boy isn't mature enough to start driving.

ANSWER: Why are you so upset by the discovery that you can't change your husband's decision to let the boy drive? Have you always been able to control his judgments?

If so, it would seem wise to acknowledge this. For the real issue between you may not be the boy's driving at all. It may be your husband's rebellion at your control of his decisions. He may be using defense of your son's right to "grow up" to assert his

own right to independent judgment — and be engaged with you in a battle, which neither of you will openly acknowledge. Sooner or later, you know, we all comes up against another person's refusal to give us our way. Our way may be wiser, righter, better than his in every way. Yet we can't have it. Under these circumstances our "nerves" can break down. That can be an instructive experience.

We see that our nerves have resisted the impossible obligation to control other lives by breaking down. And we begin to build them up again by withdrawing from

this godlike obligation. Then, it becomes possible to say to the husband with whom we do not agree:

"All right. But let us be clear here. Letting the boy drive is your decision. As I think it's mistaken, I take no responsibility for it. If it gets him into trouble, I will rally around with all the support and love I have. But in the meantime, I want no part in this adventure."

Quite often, when we stop fighting another person's judgment, he begins to take new, fuller re-

sponsibility for it himself. He stops depending on us to remind him of all the hazards involved in 16-year-old driving — and is forced to examine them himself. He is made the wiser over a son's admiration of reckless-driving friends.

You have, I think, become accustomed to getting your own way. Now that it's been denied to you, it's a good idea to realize how very tired you are of the whole responsibility for your family's decisions.

Ex-Messenger Climbs Up

Saroyan's Boy Makes Grade

By **BOB THOMAS**
AP Movie-Television Writer
HOLLYWOOD—Memo to William Saroyan: the kid finally made it.
The kid was named Arthur Jacobs and he was just out of the University of Southern California Cinema School. The best job he could find was a messenger boy at MGM. That was 20 years ago, when the free-wheeling Saroyan had moved into the studio to make a movie out of "The Human Comedy."

THOMAS

Saroyan took a shine to the eager lad and wrote a note to studio boss Louis B. Mayer urging a production post for him. Mayer failed to heed his advice. In fact, he fired Saroyan shortly afterward. Jacobs worked his way up to

mimeograph boy in the publicity department. During his spare time he hustled around to the sets, picking up gossip which he wrote up for the publicity releases. The department head promoted him to press agent.

FIRE

The war intervened, and Jacobs went to work at Warner's, only to be fired because the department chief said he would never be a publicity man.

Jacobs proceeded to build up one of the most important publicity offices in town. A neat-looking chap of normal height and abnormal energy, he never forgot Saroyan's encouragement. One day a year and a half ago, he was lunching with client Marilyn Monroe.

"She was looking for a picture to do and was unhappy with a couple of properties that Fox had offered her," Arthur recalls. "She asked me why I didn't find a property and produce it. She even offered to sign a deal splitting the production 50-50 with me."

But Jacobs didn't have a property—until client Gene Kelly gave him a script he had been working on. Jacobs read it, saw it as a Marilyn vehicle and called Kelly. They started talking a deal.

WANTED

"Marilyn flipped over the story and said she wanted to do it," said Jacobs. "But then Gene got tied up for a year in his television series, 'Going My Way.'"

Kelly also lost his option on the property, but Jacobs managed to get it back. He talked to clients Betty Comden and Adolph Green about writing a script and client

Jackie Resting Up Out of the Spotlight

HYANNIS PORT, Mass. (AP)—First Lady Jacqueline Kennedy is home with her children again and out of the public spotlight, as she prefers to be.

At her doctor's suggestion, she may be able to stay that way for the next five months. It may be a month or two before she returns to Washington.

Mrs. Kennedy settled quickly back into the summer routine in the big gray-shingled house, "Brambletyde," which the Kennedys have rented on Squaw Island here until Sept. 15.

Surrounded by her children, Caroline, 5½, and John Jr., 2½, and seven pet dogs, she can relax and try to forget the heartache of losing her third child, Patrick Bouvier Kennedy, who lived less than two days.

Mrs. Kennedy came home from Olds Air Force Base Hospital Wednesday. Her obstetrician, Dr. John W. Walsh of Washington, D.C., said Mrs. Kennedy is making a very satisfactory recovery from the Caesarean birth on Aug. 7 but suggested:

as greeting groups or things of that kind, said Pierre Salinger, White House press secretary.

JACKIE'S PLANS

The First Lady's plans indicate she will remain here until the lease on "Brambletyde" expires and then go to the Hammersmith Farm home of her mother and stepfather, Mr. and Mrs. Hugh D. Auchincloss at Newport, R.I. She could be expected to remain until her daughter, Caroline, has to resume first grade classes at the White House school, a schedule

she completed only a few months ago. They rented it for the summer to a Washington stockbroker.

Mrs. Kennedy may well be expected to make use of this week-end hideaway until winter, when the Kennedys traditionally go to Palm Beach, Fla.

Demonstrators Are Censured

Lawyer's Group Hits Stopping of Workers

CHICAGO (UPI)—Civil rights demonstrators which interfere with traffic or work are not covered by the constitutional guarantees of freedom of speech or assembly, the president of the American Bar Association (ABA) said today.

Such demonstrations "certainly were not the way the Constitution guaranteed the rights of speech and assembly," said Sylvester C. Smith, after a session of the 86th annual meeting of the ABA.

More than 150 demonstrators have been arrested during the last two weeks while protesting the installation of mobile classrooms on Chicago's South Side. They said the classrooms encouraged "de facto" segregation in the city's public schools.

Demonstrators have placed themselves in front of trucks carrying equipment to the classroom employment, sprawled on railroad tracks and climbed utility poles.

"We couldn't get along in the United States if demonstrators interfered with traffic or the normal conduct of business," said Smith.

He said there was "a time and a place for demonstrations" but "certainly the right of freedom of assembly does not include" obstructionist tactics.

The 258-member ABA House of Delegates approved a special committee report Tuesday which censured "lawlessness in any form."

The delegates criticized "demonstration which involve violence or injury to persons or property, and intentional violations of law calculated to provoke arrest and to obtain the publicity usually associated with such arrest."

Lakes Chief Asks Unit of Control

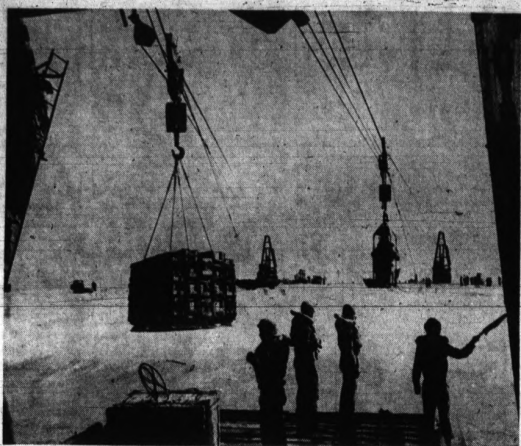

CHICAGO (U)—The chairman of the Great Lakes Commission urges establishment of an agency empowered to regulate and manage the waters of the Great Lakes.

Albert J. Meserow, Chicago attorney who heads the commission, spoke yesterday to the American Bar Association's section on mineral and natural resources law.

The commission is a seven-state advisory group consisting of representatives appointed by the governors of Illinois, Indiana, Michigan, Wisconsin, Minnesota, New York and Pennsylvania.

Meserow declared demands for more water will continue to increase along with the growth of population and industry in the Great Lakes area.

He said the regulatory agency he proposes should include the seven states on his commission, plus Ohio, Ontario and Quebec. He added that such an agency could meet all existing problems — navigation, power, pollution, fisheries, recreation, domestic and industrial uses and diversion of water.

AP Photo/Ex

TEST NEW SYSTEM — Here's the view through open end of a Navy Landing Ship Tank (LST) at a recent test of the Beach Highline, a new system developed by the San Francisco

Naval Shipyard for moving cargo from ship to shore over dangerous surf rather than through it. Cargo can be dropped into trucks on shore with a minimum of handling.

Study Planned in Sylvan Lake to Limit Pests

The Sylvan Lake Council it down and charge the resident. A special meeting was set for In other action, the council voted Aug. 28, to meet with the city to purchase a \$1,200 snowplow auditors.

Complaints on the large number of salesmen prompted the council to investigate what other communities are doing to control them.

The second proposed ordinance would require home owners to remove dead trees after proper notification. If the home owner fails to remove the dead tree, the city will be authorized to cut

Dutch Still Refuse Air Service to Cuba

WASHINGTON (U)—Dutch officials here said yesterday KLM, the Dutch airline, will make two diplomatic trips to Havana this month, but there are no plans, as reported in Havana, to resume regular service to Cuba.

A Dutch Embassy spokesman said, "KLM will have two flights on the 14th and 21st of August to Havana. The first will be to pick up our present ambassador, his family and staff, and the other flight will be to take the new ambassador to Havana. No other paying passengers will be on either flight."

Reports from Havana over the weekend said KLM planned to resume regular weekly service from Curacao, Dutch West Indies, to Havana.

NY Newspaperman Succumbs at Home

WESTPORT, Conn. (UPI)—Fred O. Newman, a former assistant city editor of the New York Herald Tribune and longtime managing editor of Popular Science Magazine, died at his home yesterday after a long illness. He was 59.

Newman served as assistant city editor of the Herald Tribune from 1930 to 1940 and then joined the staff of Popular Science. He left the magazine in 1951 to work in the public relations field.

Replacement for 'What's My Line'

This TV Show Puts Panelists in the Dark

WASHINGTON (UPI)—It occurred to me the other evening that "What's My Line?" can't go on forever and that eventually they are going to need a replacement.

When that happens, I hope to interest the network in a television game I recently invented called "Who Asked That?"

As everyone knows, the panelists on "What's My Line?" put on blindfolds and try to identify the mystery guest. Well, on "Who Asked That?" the guest will put on a blindfold and try to identify the panelists.

Sounds like fun, doesn't it?

I got the idea for the show from a magazine column that answers questions sent in by curious readers.

Some of the questions are rather bizarre, and, as a hobby, I like to see if I can create situations to fit them.

For example, a reader who

gave her name as Ellen Gershenson wanted to know "If Elizabeth Taylor has a minimalist railroad, or is that just publicity?"

My guess would be that Miss Gershenson is Miss Taylor's press agent.

Using this as a springboard, I drew up the format for "Who Asked That?" Here's the way the program will operate:

Each week, I, the producer, will go through the column and pick out questions for the mystery panelists to ask on the air.

Then the blindfolded guest will try to guess who asked them. Got it?

Appearing below are six questions I have already selected. Without peeking, see if you can identify the mystery panelists, who are listed in parentheses at the end.

1. "What actually is Averell Harriman's position in the Kennedy administration?"

2. "I would like to know what position Dr. Max Adenauer, son of the West German chancellor, occupies in his father's government?"

3. "Is Grace Kelly expecting her third child as the rumors have it?"

4. "How good are the chances of Vice President Lyndon Johnson running for the presidency in 1968?"

5. "Who said, 'Love is the history of a woman's life but only an episode in a man's?'"

6. "Is Bonita Granville Wrather, who is listed as associate producer of the Lassie TV series, the same Bonita Granville who was a child actress in Hollywood?"

(1. Averell Harriman. 2. Konrad Adenauer. 3. Prince Rainier. 4. Lady Bird. 5. John Profumo. 6. Lassie.)

Housewives Hold 22 Jobs

BUTLER, Tenn. (AP) — Members of the Home Demonstration Club had something to tell their husbands when they got home from a meeting at which Alice Blackburn spoke.

She said a housewife holds 22 jobs and named them as follows:

Coordinator, hostess, interior decorator, mediator, decision maker, spark plug, partner, community member, companion, gardener, maintenance worker,

secretary-treasurer, chef, purchasing agent, landlady, nurse, teacher, seamstress, counselor, food processor, electrical engineer and chauffeur.

GOP Leader Expires

NORMAL, Ill. (UPI) — Richard Francis Dunn, 76, state Republican chairman from 1928 to 1932 and a lawyer for 47 years, died of cancer yesterday.

Titan Missile Firing Called Routine by AF

VANDENBERG AIR FORCE BASE, Calif. (UPI)—A Titan intercontinental ballistic missile was fired today in what the Air Force described as a routine training launch.

The launch crew was assigned to the 35th Missile Squadron of the Strategic Air Command.

Buzzing Sound Bugging NL's Flailing Dodgers?

By The Associated Press

Buzz!

Is that the sound of the Los Angeles Dodgers leaning on the panic button now that their stranglehold on the National League pennant scramble has been reduced to a toehold?

Hank Aaron may have triggered the little round disc when he slipped a little round ball into the stands for a grand slam homer that gave Milwaukee a 5-3 victory Wednesday night and trimmed the Dodgers' edge over second-place San Francisco to a mere three games.

Aaron, becoming the first in the majors to collect 100 runs batted in, hit home run No. 32 off Don Drysdale, capping a five-run seventh inning explosion that sent the Dodgers reeling to their third straight loss and fifth in six games.

BULGE DWINDLES

Since July 20 when they led the league by 7½ games and held a 10-game edge on the defending champion Giants, the Dodgers have managed a tepid 10-13 record. In three weeks, their lead has been trimmed by four games and the Giants have made up seven lengths.

"It's still a long way to go," said San Francisco Manager Alvin

Dark, who watched the Giants get in the seventh inning. Jim Davenport singled to set up the Giants' tiebreaking run in the eighth, then led off the 10th with a double and rode home with the clincher on Alou's ninth-inning over fourth-place Cincinnati.

Third-place St. Louis closed to within four games to the top, edging Houston 3-2 on Bill White's straight setback with his 21st homer, a two-out blast off Ken Johnson. That gave the victory to Bob Gibson, who struck out 10

Drysdale, 15-13, who has given up only two grand slams in the majors—both to Aaron—had a three-hit shutout going into the seventh. With one out, Roy McMillan singled, Del Grandall walked and a passed ball moved the runners up. One out later, Drysdale intentionally walked Lee Maye and Frank Bolling singled to tie the score 1-1. Aaron followed with his drive, getting rookie Bob Sadowski his second major league victory, both against the Dodgers.

The Giants started Frank Linzy, just called up from the minors, while John Tsitouris got the call for the Reds. A hit barrage ensued. When it was all over the Giants had 15 hits, the Reds 17, including a homer by Vada Pinson that put Cincinnati ahead 6-5

and scattered eight hits for a 13-7 record.

The Phillies overcame early Cub homers and rallied for four runs in the fifth inning of each game to sweep the doubleheader. Ernie Banks homered in the opener while Steve Boros and Ellis Bur-

ton connected for Chicago in the second game.

The Phillies came back in the opener while Johnny Klippenstein allowed the Cubs only two hits after taking over for starter Ray Culp in the third inning. Johnny Call-

son and Don Demeter hit homers as the Phillies surged back to win the nightcap behind Dennis Bennett.

Frank Thomas homered for the Mets, who pushed across the deciding runs in the sixth when Tommie Sisk walked Jim Hickman with the bases loaded and Don Cline's low throw enabled another run to cross. Cline's homer homered for the Pirates, taking over for starter Ray Culp in the third inning. Johnny Call-

Boros Pleases Hartford Fans

U.S. Open Champ Eyes Insurance Open Title

HARTFORD, Conn. (AP)—The crowd is rooting for a local boy and U.S. Open champion Julius Boros has shown that he intends to please them in the 12th Insurance City Open Golf Tournament starting today.

A native of Fairfield, Conn., Boros scored a stellar five under par 31-35-66 Wednesday in the pro-am, preliminary to the tournament competition.

The 43-year-old master has failed in several attempts to win the Insurance City crown on the par 71, 6,515-yard Wethersfield Country Club course.

Looking as if he were putting in his back yard, Boros rolled in three of 12 feet or better to win the \$300 top money in the pro-am. There is \$40,000 at stake in the 72-hole competition starting today. And Boros has said: "I want to win this one, with the home folks looking on, very much."

Jack Nicklaus, Boros' toughest foe among the 100 entries, is making his first appearance on the course. The current Masters and PGA champ seemed to take it leisurely Wednesday.

Girls Junior Tourney Now in Semifinals

ALBANY, N. Y. (AP)—The semifinal matches of the U.S. Golf Association's National Junior Girls Championship took on a familiar look today with one of the matches pitting the finalists of last week's Western Junior Tournament.

Janis Ferraris of San Francisco, winner of the Western title was matched against Roberta Albers of Tampa, Fla.

Miss Flados, 1963 Iowa women's runner-up, scored the most dramatic victory of the day in Wednesday's second and third rounds over the Wolfert's Roost Country Club course when she dropped a 38½-foot birdie putt on the 18th hole to oust Sue Lance of Woodland Hills, Calif., 1-up, in the quarter-finals.

Nancy Roth Wins Title

CHARLOTTESVILLE, Va. (AP)—Despite blowing a four-stroke advantage with nine holes to go, Nancy Roth of Hollywood, Fla. has successfully defended her title in the Farmington Women's Invitational Golf Tournament.

Eliminates Cranbrook, 6-1

Class A Finals Next for Huron-Airway Nine

Regular season champion Cranbrook made a quick exit in the Class A city baseball playoffs last night, dropping a 6-1 contest to Huron-Airway.

It was the second straight loss for the Bloomfield Hills nine in the two-game elimination tourney.

In the nightcap at Jaycee Park, the Clippers took an early edge in its series with Local 594 by downing the union team, 7-3.

H.A. tapped Cranbrook hurler John Billeston for two runs each in the second and fourth innings, added one each in the fifth and sixth frames and then relied on the right arm of pitcher John Wagner for the victory.

Cranbrook jumped off to an early lead when Chuck Heavrich blasted a solo home run off Wagner in the first inning. But from then on it was all Huron-Airway.

Wagner went the distance for the winners scattering five hits and fanning six.

Felix Brooks' torrid hitting

and Bob Reader's clutch pitching paced the Clippers to its triumph.

Five Michigan Golfers Qualify in Junior Meet

COLUMBUS, Ohio (AP) — Five Michigan entries qualified yesterday for match play in the 46th Western Junior Golf Championship at Ohio State University.

Bill Newton of Ann Arbor and Fred Ewald of Birmingham led the Michigan group with scores of 72-72-144. Newton shot 74-70 and Ewald 73-71.

Others were Pete Smith of Niles, 77-79-149; Charles West of Birmingham, 80-80-150, and Ken Cadey, East Grand Rapids, 76-74-150.

The burly, 6-foot-1, 205-pound Californian admitted that "everything was working pretty good for me."

His sub-par round came within one stroke of tying Ohio State's 6,000-yard Gray course record. That mark is held by former Ohio State stars Jack Nicklaus and Dave Daniels.

The 136 score did set a medalist record for the Western Junior competitors. The previous best was 141 established in 1961.

Wiechers, who won the 1962 USGA junior championship, topped his nearest rivals by six strokes.

COLUMBUS, Ohio (AP) — Qualifiers Wednesday in the Western Junior Golf Championship:

Wiechers, Calif.	72-68-140

'City Fella' Shows Talent With Fly Rod

NASHVILLE, Tenn. (AP)—Dick Helms of Kansas City won the trout fly distance event Wednesday in the National Casting Tournament at Centennial Lake. His average cast was 166 1-3 feet.

Jon Tarantino of San Francisco was second in the same event with an average of 154 2-3 feet.

In the combination fly accuracy and distance event, Dave Cohn of San Francisco, was first with 37 points and Tarantino was second with 31.

Zack Wilson of St. Louis won the 500-yard official ball distance event with an average of 35 1-3 feet. Edward Laney, St. Louis, was second with 34 1-3 feet.

Swim Pace Stepping Up in Women's AAU Meet

HIGH POINT, N.C. (AP)—The pace is expected to step up today for both the National AAU Senior Women's Outdoor Swimming Championships and for 16-year-old Ginnie Duenkel of the Summit, N.J. YMCA.

Miss Duenkel won the only event on Wednesday's opening round when she defeated Sharon Finerman, from Los Angeles, and Carolyn House of the Los Angeles A.C. in the 100-meter freestyle with a time of 1:20.9.

Today's program features five events, with Miss Duenkel's defense of her 200-meter backstroke title expected to be the top attraction. All three of the leading contenders—Donna De Varona, a 1960 Olympian from the Santa Clara, Calif. S.C. and Cathy Ferguson of the Los Angeles A.C. and Miss Duenkel—have bettered the world record for the distance this summer.

DEFEND TITLES
Also on hand to defend their titles will be Robyn Johnson of Northern Virginia A.C. in the 100-meter freestyle; Barbara McAllister of Talmadge of the Dick Smith Gym of Phoenix, Ariz., in the three-meter diving; and Miss Finerman in the 400-meter individual medley.

Miss Johnson, who ended Chris Von Salza's reign as queen of the U.S. freestylers in 1961, will have the biggest list of challengers as five other entrants have submitted

times matching or bettering her time for this year.

Heading the list is the nation's newest freestyle swimmer, Poky Watson of the Santa Clara S.C. Just 13 last month, Miss Watson already has recorded a 1:02.02 time for the distance, the same time that Miss Johnson won the title with last year.

Also in the field will be Terri Stickles, a 16-year-old teammate of Miss Watson, who won the Pan American games 100-meter title last spring in 1:02.8.

The women's diving field includes 1960 Olympic performer Patsy Willard, now a teammate of Mrs. Talmadge, along with Joel Lenz O'Connell, who has won four national three-meter titles.

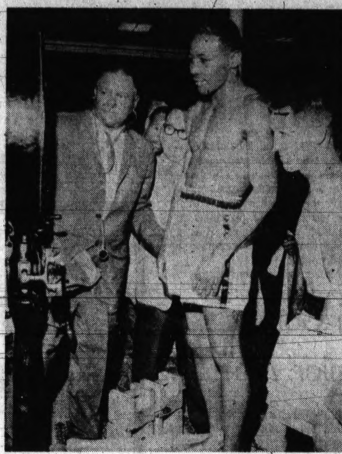

National Drag Races

Set for Indianapolis

INDIANAPOLIS (AP)—Entries for the National Hot Rod Association's national drag races, Aug. 22-Sept. 2 at Indianapolis Raceway Park, were closed Wednesday at 1,000 cars, ranging from street vehicles to 900-horsepower monsters.

Ohio topped the list with 255 entries; Indiana had 104, Michigan 67, Pennsylvania 66, New York 58 and California 48.

A warm-up for the quarter-mile acceleration contests will be held at Raceway Sunday.

AP Photo/Ex

GETTING READY—Paul Armstead takes his turn on the scales in a pre-fight physical examination in Saginaw where he will meet Kenny Lane on Monday for the Michigan version of world's lightweight championship. Lane watches on the right.

State Gives Boxers OK

SAGINAW (AP)—Kenny Lane and Paul Armstead were both pronounced fit yesterday for their Monday night fight for the world's lightweight championship.

Dr. Robert Bennett, chief examiner for the Michigan State Athletic Commission, said both fighters weighed a little more than the 135-pound limit but said Armstead and Lane would both be within the limit by Monday.

Armstead, who hails from California, said he would try for a knockout. "I'm going to try and put him (Lane) under because I don't want to take a chance on a decision by a home-town crowd."

Lane, from Muskegon, said he thought his southpaw style might confuse Armstead.

But Armstead said he had a good left-handed sparring partner on the West Coast. Armstead said he had been sparring with Rudy Jordahl.

Both boxers will wind up training on Saturday, rest Sunday and early Monday.

The World Boxing Association stripped Carlos Ortiz of his title in June, forcing the match between Lane and Armstead.

Two Junior 9s Clinch District Titles

With no more diamond worlds to conquer at home, two of Pontiac's contenders for state recreation baseball titles will move on to Jackson next Tuesday.

The Auburn Heights Boys' Club's Class F and D teams earned the right to play in the state semifinals with victories yesterday at Jaycee Park.

Sam Sheehy's "F" nine, under the sponsorship of Rochester Pontiac dealer Jim Barnowsky, broke open a close ball game with two out in the third inning against Roseville to win, 7-4.

With a teammate on by a walk, the locals rapped out four singles and a triple, plus dragging another walk for five runs. Tony DeLaRosa's triple was a key blow in the frame.

ONLY 4 HITS

DeLaRosa and Dugan's life combined on the mound to hold Roseville to four hits. Teammate Don Hayward had two runs batted in for the winners.

Sheehy did not have it as easy in the "D" contest. Holding a 5-0 lead, the Auburn Heights squad squandered it as Earl Hook and Ron Toles delivered key doubles and Rick Pankey a big triple to pull Waterford's Optimist Lakers into a 5-5 deadlock.

The score remained knotted until the winners had two out and no one on base in the seventh inning. Then Doc Hill cured Pontiac's woes with a triple to right-centerfield, followed by Lynn Thorpe's bloop single.

Three more base hits followed.

lowered and the spunky Waterford entry was an 8-4 victim.

Big Roger Hayward gained the mound verdict, yielding six hits while fanning ten.

In the Class E district action, Roseville was a 7-5 winner over Saginaw and will join the two Pontiac teams at Jackson Tuesday.

INLET TIPS

The one thing to remember in running an inlet is to maintain the stability of your boat. If it yaws, you have lost stability. Ship water and you disturb stability.

The idea is never to let a rising sea get under your boat, either forward, aft or abeam, where it can push the craft over.

Allowing your boat to broach or turn sideways to the wave can do this.

If your boat is allowed to get on top of a crest, it can be hurled over, or pitch-poled. It is called into the trough. Get too far behind the wave ahead and you can be swamped by a following, breaking sea.

Always have everything possible stowed away before running an inlet. Any gear that must be above deck should be tightly secured.

Gear left loose could conceivably go through the boat's side or transom, and line could go overboard and tangle in your propeller, depriving you of propulsion. You really need in running an inlet.

Above all, don't bite off more than you can chew by tackling an inlet that is too rough for your boat and seamanish.

That don't bite off more than you can chew admonition is a pretty good rule for all boating.

City Entries Win in State Softball

Pontiac district representatives against Avesian, plus an unearned run in the final inning.

BIG BLOW

Chuck Mason's triple broke open a tight contest between Elks

The city teams captured three of the four games, including a twin bill on the Drayton Plains softball diamond.

In that one, Arto Realty topped Spence's Floor Covering, 8-1, in Class A; and Class-D entry Elks 8-0 whipped A&W Root Beer, 9-4.

At Beaudette Park, Town & Country overcame West Side Recreation, 4-2, in "C" play for the other city victory.

The township's lone victory came in the nightcap at Beaudette when Lakeland Pharmacy topped Martin Associates, 5-4, in Class B.

Playoff activity in the city play-offs continued at Northside Park where Berry Door defeated Bud & Lou's Bar, 8-3, and Jet Bar nudged Pontiac Millwork, 6-5.

Arto's Harry Avesian turned in the night's top pitching effort, hurling a one-hitter to whip Spence's Tom Bryce's fourth-inning single was the only blemish

Jim Boggio Captures

Karting Feature Race

Jim Boggio won the "A" Stock light feature race at the Monza Kart Course last night to clinch the mid-season high point trophy. Boggio slipped past three other drivers on the final lap to claim the trophy.

Other winners last night were Robbie Gralapp in the "A" junior event and Gary Wills in the "A" heavy.

Angels Sell Eli Grba

LOS ANGELES (U) — The Los Angeles Angels sold pitcher Eli Grba to their Hawaii farm club, hurling a one-hitter to whip Spence's Tom Bryce's fourth-inning single was the only blemish

and A&W. The blow produced a four-run rally for the winners. Algie Black lost the game, after compiling an unbeaten record in league play this summer.

Don Moorhead caught a game-ending fly ball while stretched on the ground to preserve T&C's two-run decision over West Side. The winners trailed 2-0 in the first inning but Roger Reynolds shut out the bowlers the remainder of the way.

Lakeland won with a five-run outburst in the final two innings. Dick Ryan's single scored the tying and winning runs for the township team.

Tonight, Elks and A&W will play at 7 o'clock and Arto will meet Spence's at 8:30 p.m. on the Drayton Plains diamond, while the Beaudette Park schedule will be the same as last night's, also.

At Northside, Berry Door will play Poppon's Market at 7 p.m. and Jet Bar has a return engagement with Pontiac Millwork at 8:30 p.m.

Impressive Title Defense of Elizabeth City, N.C., re-completing a 600 to 381 victory tained his world pocket billiards over challenger Jimmy Moore of New York (AP)—Luther Lasch championship Wednesday night by Albuquerque, N.M.

State Boating Group Makes First Report

LANSING (U) — Most complaints made to the new state boating committee come from fishermen claiming interference from water skiers and fast motorboats, the committee reports.

The committee, created by the legislature last year, made its report after one year of existence. Fishermen resent fast, new motorboats and the rapidly growing sport of water skiing, the committee said. Tempers often flare and the demand is for rigid restrictions on the use of high powered boats.

"We hear requests to limit horsepower, limit water skiing by hours or to prohibit motor boating or water skiing entirely," a spokesman said, "often our investigations indicate a need for corrective action, but all too often these demands result from lack of willingness to share the waters by all the various recreational water users."

The committee said it has proceeded cautiously on each request for special controls.

When asked by a local unit of government, the group holds a public hearing to air complaints

2 Boys' Club Titles Decided

The Tigers won the Pontiac Boys' Club American League title yesterday by defeating the Twins, 10-7. Bob Martin's two-hit pitching led the Tigers.

Championship honors also went to the Braves in the National League when they edged the Phillies, 14-13.

Denver and Seattle will meet today to decide the Great Lakes League title. Denver beat Charleston, 6-5 and Seattle defeated Memphis, 8-2, to set the stage for the final round.

Orchard Lake CC Has Club Tourney Finals

The finals of the men's and women's Orchard Lake club championship will be held Saturday with a new winner assured in the men's division.

Steve Stubbs and Pete White-law will play in the finals starting at 1:00 p.m. Defending champion Jim Sheridan does not reside in the area and thus did not compete this year.

Mrs. William L. Mosher is still in contention in the women's division which continues today and Friday. The women's finals will begin right after the men tee off Saturday.

'Stage Father' Hires Teachers

Former Crofoot School Principal Lewis A. Crew is a "stage father" more than 100 times each year.

Crew, 41, is in his second year of hiring new teachers as director of certified personnel. Before he was principal of Crofoot for one year, he was rising instrumental music teacher.

He hires about a hundred new teachers annually. This year, for example, 140 new instructors will go on the school district's 900-teacher payroll.

Many of the new people will be entering the classroom for the first time as full-fledged teachers. This furnishes Crew with special pleasure.

TO WATCH CLOSELY

Much like an enthused stage father, the Pontiac administrator will closely watch the performance of his 140 proteges.

"I feel," he explained, "that the effectiveness of a school district will rise and fall on the quality of its personnel."

Crew wants top-notch people almost with a passion. He has a double-barreled system of interviews.

He said the turnover in the Pontiac school district runs about 10 per cent annually, close to 100 of the system's 900 teachers.

Fifty-two visits are made to colleges and universities every year. Crew said the on-campus interviews usually are conducted from mid-February to April. Repeat visits are made to some of the larger institutions.

Working with the college job-placement-offices, Crew explains the openings available, salaries, and similar essential information.

A new teacher in Pontiac receives \$5,000 annually with a bachelors degree, while a masters degree rates \$5,320. The maximum is \$7,000 and \$8,000, respectively, after 10 years.

He invites good teacher prospects to visit Pontiac and the school where the opening exists.

Pontiac, unlike some larger school districts, attempts to match the personality of the new teacher with the staff and principal at each school.

The principal of the individual school conducts the second interview.

Hospital Skips 13 in Numbering Hospital Rooms

BALTIMORE, Md. (AP)—Johns Hopkins Hospital officials explained Wednesday why there's no operating suite No. 13 there.

When four new suites were added to the 12 old ones, said a spokesman, they were numbered 14 through 17, skipping No. 13.

"A patient is anxiety-ridden already by thoughts of undergoing surgery," said the spokesman, "and the knowledge that he is scheduled for general operating room No. 13 might produce unnecessary fears if he is the least bit superstitious."

The new rooms were opened Tuesday—Aug. 12.

The United States imported more than 10 million pounds of canned mushrooms last year—five times as much as five years ago. Nearly two thirds of the total came from Taiwan.

LEWIS A. CREW

teacher. Crew said only those receiving the two highest ratings—employ and good prospect—are hired.

Crew said about one out of 10 applicants actually ends up in the classroom. He pointed out that 1,300 candidates have been interviewed for this year's 140 vacancies.

He said about half of the new teachers coming to Pontiac have had some previous teaching experience.

The hardest teacher to find is the vocational education instructor. Crew said this included the industrial arts, metal shop, auto shop, and electrical shop.

"We have to compete with several industries for these people," he added.

The biggest turnover every year is among elementary school teachers. Crew explained that mostly women teach the lower grades. He said they most often leave to get married or take a maternity leave.

The greatest need is in the first three grades. He said they have found that the younger teacher usually prefers to teach young children.

Pontiac has 358 male and 530 female teachers.

AP Photos

QUESTIONED IN SLAYING—Grim-faced Michael Wehrung, 15, is shown with his mother after questioning by Cincinnati police yesterday about the slaying this week of Patricia Ann Rehbock, 15, with whom he was having dates. The girl was clubbed to death while en route to the Wehrung home from a dance that Michael did not attend.

Swimming burns up more calories than almost any other activity. It consumes 8.65 calories per minute, according to Dr. Her-

Gourmet Veal Low in Fat

Lime-Cherry Ring Punch Is Festive Gem

If you have an idea that cooks who must concern themselves with limiting saturated fats can cook anything out of the ordinary, then here's a recipe to set you straight. It is Veal Scallopine, and so delicious it's recommended not only for cholesterol watchers but for anyone who likes good food.

Veal Scallopine
1 pound veal cutlet, cut thin and pounded.
Flour, seasoned with salt and pepper.
1/4 cup corn oil margarine
2 cups sliced fresh mushrooms
1/4 cup Marsala or sherry wine
2 tablespoons chopped parsley
Dredge veal in seasoned flour.
Sauté margarine until golden brown on both sides. Add mushrooms and sauté with the meat. When nicely browned, add wine and simmer about 3 minutes.
Sprinkle with chopped parsley and serve immediately, pouring sauce in pan over the meat. Makes 4 servings.

Plan to Have Extra Turkey

Plan deliberately to have enough turkey left for sandwiches that can be served cold or hot, plain or fancy.
For a cool impromptu meal, place cold turkey slices on a piece of toast. Arrange lettuce and cranberry relish outlined with cream cheese on another. Put the slices together and you have a Turkey Festival Sandwich.
For a hot dish, arrange slices of cooked turkey on buttered bread, toasted hamburger buns, or English muffins. Top with piping hot mushroom sauce made by diluting cream of mushroom soup with 1/4 soup can of evaporated milk. Heat to serving temperature and ladle over turkey slices.

If a forthcoming wedding in your family has your schedule filled with party plans, chances are that you have only limited time to decide on the refreshments. Here's a recipe that can be a beautiful solution for the punch-bowl.

Wedding Ring Punch gets its name from the colorful ring of lime sherbet, studded with red and green maraschino cherries, that floats in the center of a festive mixture of Champagne, sauterne, and ginger ale.
This recipe is equally appropriate for rehearsal parties or the wedding reception, or any gay non-wedding event.

Wedding Ring Punch
2 pints lime sherbet, partially thawed
1 cup whole red maraschino cherries
1 cup whole green maraschino cherries
1 quart ginger ale
1 (1-5 gallon) bottle sauterne
1 (1-5 gallon) bottle Champagne

Fill a 1 1/2-gallon ring mold with the softened sherbet and arrange the red and green cherries throughout. Refreeze until solid.

When ready to serve, unmold lime-cherry ring into empty punch bowl. Add ginger ale, sauterne, and Champagne. Serves 16.

Curried Melon Is Grilled Surprise

You will like the color accent and surprise flavor of grilled cantaloupe.

Curried Cantaloupe
1 medium cantaloupe
Curry powder
Cut cantaloupe in half lengthwise and remove seeds. Cut each half into quarters and cut off rind. Sprinkle lightly with curry powder.

Place on grill; brush with melted butter or margarine and heat thoroughly. Grill or broil 10-12 minutes. Makes 4-6 servings.

Wide Variety of Beans Go in Salad

BY JANET ODELL
Pontiac Press Food Editor

Whenever we plan a buffet supper, we have one sure-fire dish we can serve—that's bean salad. Men especially are fond of it. We know that whatever is left won't go to waste; the better half will happily finish it.

For several months we have been accumulating recipes for different kinds of bean salads. Most of them are of the hearty variety, perfect for patio or barbecue suppers, or just-the-thing to take to a cooperative party.

The first recipe is for a green bean and mushroom salad. Onion rings, carefully separated, are used so that those who dislike or can't eat onions can remove them.

Bean and Mushroom Vinaigrette
1/4 cup salad oil
1/4 cup vinegar
1 clove garlic, minced
1 teaspoon dry mustard
1/4 teaspoon salt
1 can (1 lb.) green beans
1 (4 oz.) button mushrooms
1 small onion, sliced thin
1 tablespoon chopped pimiento

Blend oil, vinegar and seasonings in covered jar. Shade well. Blend beans, mushrooms, onion, separated into rings, and pimiento in a bowl. Pour oil-vinegar mixture over vegetables. Cover; refrigerate overnight. Serve in lettuce cups. 4 to 6 servings.

Hearty Bean Salad is made with canned kidney beans. You'll want to make this the day before to let the flavors blend well. This type of salad can take the place of potatoes.

Hearty Bean Salad
1 can (1 pound) kidney beans, drained
1/4 cup chopped celery
1/4 cup chopped dill pickles
1/4 cup minced onion
2 tablespoons mayonnaise or salad dressing
2 tabl spoons salad oil
1 tablespoon vinegar
1/4 teaspoon salt
Dash pepper
2 hard-cooked eggs, chopped, chilled
Grated American cheese

Combine all ingredients except eggs and cheese; chill 3 to 4 hours. Fold in eggs. Serve on lettuce leaves; garnish with grated cheese. Makes 4 servings.

Tossed Bean Salad
Combine and toss together lightly:
1 (28 oz.) can pork and beans with tomato sauce, drained
1 cup diced celery
1/4 cup crisp diced cooked bacon
1/4 cup chopped dill pickle
Moisten with:
2 tablespoons spicy French dressing
Garnish with:
3 hard cooked eggs, sliced
Makes four servings.

Idaho also grows beans and this year features them in her centennial salad. This is a whole meal salad.

Idaho's Centennial Salad
Cooked Idaho Great Northern (large white) beans
thin-sliced celery
Chive Dressing
whole garlic black pepper (fresh ground in your pepper mill)—sifters of Swiss and Cheddar cheese, boiled or baked ham sliced hard-cooked eggs, if desired.
Crisp salad greens

Soak washed beans overnight or boil 2 minutes; let stand 1 hour. Simmer in soaking water until tender, adding 1 teaspoon salt for each cup of beans. Drain, reserving the liquid to use as soup along with some of the beans.
Better cook plenty. One cup dried beans will give about 2 cups cooked beans plus liquid. Allow about 1/4 cup cooked beans for each salad serving. Chill beans before adding salad dressing and celery. Then stir in enough thin-sliced celery to make for crunchiness, add fresh ground pepper and enough dressing to coat the beans. Chill well in the bowl in which the salad is to be served.

Just before serving, tuck crisp

salad greens around the edges of the bowl. Arrange the silvers of cheese, ham, and chicken or turkey if desired, in alternate clumps atop the bean salad, with hard-cooked egg slices or thin-sliced radishes as a center garnish.

Chive Dressing
In a pint jar with a tight-fitting cover place 1/2 cup each undrained evaporated milk and salad oil, 3 tablespoons cider vinegar or red wine vinegar, 1 teaspoon each salt and granulated sugar, 1/4 teaspoon dry mustard, 1/4 tea-

Cooking Livers
Watching the family's diet? You can cook a pound of chicken livers in a medium skillet in just a couple of tablespoons of butter, margarine or salad oil.

Gazpacho Is Always Cold Soup Made With Tomatoes

That remarkable Andalusian culinary creation called Gazpacho — a native Spanish cold soup — has become the most controversial soup not only in Spain, where it originated, but among gourmets who are of two minds.

One group calls it the tastiest and healthiest, as well as one of the most attractive soups in the world. The other wonders "if it is a soup at all!"

To the defense and clarification of Gazpacho comes Fernando Ruiz Escribano, Master-Caterer for Iberia Airlines of Spain, whose authoritative Spanish menus have delighted Iberia passengers on transatlantic, intercontinental and domestic flights.

"Gazpacho was created by the peasants," says Mr. Escribano, "for whom it had to serve as more than a first course. It had, often, to be the entire meal. It had to be nourishing and tasty. And since they were Spanish peasants, the soup also had to please the esthetic senses. It had to cool as well as sustain."

"During the years the soup has, therefore, taken on as many variations as Spanish imagination has been able to provide. It has taken the soup from cottage kitchen to the finest hotels and restaurants in Spain."

"Gazpacho has crossed provincial lines into all provinces of Spain. Today, chefs of great renown add more variety to the basic ingredients as well as the garnishes."

According to Mr. Escribano, whose prime function with Iberia Airlines is to satisfy the culinary desires of the passengers, the following versions are

among the most popular in Spain, and the American housewife should find them easy to prepare in her own kitchen:

Gazpacho Andaluz
2 pounds very ripe tomatoes
½ pound cucumbers
2 fresh green peppers
1 garlic clove
¾ cup bread crumbs
¼ cup Spanish olive oil
¼ cup vinegar
1 quart cold water
Several ice cubes
1 teaspoon salt
1 cup cubed toasted bread for croutons
Mash together or blend in electric blender, the garlic clove,

salt and bread crumbs. Peel and section cucumbers and remove heart. Add three strips of peel and the heart to garlic mixture and puree.

Peel tomatoes and add to puree. Blend until smooth. Pour into a large bowl. Chop or dice tomatoes, cucumbers and green peppers that are left and add to puree. Season with salt and vinegar to taste.

Add olive oil and cold water, and stir vigorously. Let stand. When ready to serve, add ice

cubes and mix until cubes are melted. Pour into bowls sprinkled with bread croutons, serve.

GAZPACHO VALENCIANA
2 cans tomato puree
¼ cup olive oil
1 tablespoon vinegar
¼ teaspoon cumin
2 garlic cloves
1 teaspoon salt
12 ice cubes
Mince cucumber
Mince sweet pepper
Mince onion
Crisp bread cubes

Mash garlic with salt, cumin and olive oil. Combine with pureed tomatoes. Add vinegar and blend until smooth. Put in refrigerator to chill.

Meanwhile, saute bread cubes in Spanish olive oil until golden brown. Drain on absorbent paper. Add ice cubes to soup half hour before serving. Top each bowl with croutons. Pass minced vegetables for garnish.

Gazpacho Sevillana
1 large can canned tomatoes
1 can pimiento

2 tablespoons vinegar
2 garlic cloves
¼ cup Spanish olive oil
¼ cup fine-dry bread crumbs
4 cups cold water
1 teaspoon salt
2 hard boiled egg yolks minced
1 cup minced onions
Mash garlic and salt to a paste. Add pimiento. Beat in olive oil. Add bread crumbs. Add tomatoes. Blend until smooth as satin. Whip in vinegar. Serve with garnish of egg yolks and onions.

Be Mexican Cook, Serve Cold Soups

South of the border, where Spanish colonial influence and hot weather go hand in hand, cold soups are favorites. This glorified version of vichyssoise takes advantage of such North American conveniences as frozen potato and shrimp soups for its base. It combines them with chicken stock, and dresses them up with pimiento-stuffed olives and diced avocado.

That's where the Spanish artistry with food shows — the olives and avocado add pleasing color and texture. With the addition of grated Parmesan cheese, this "Sopa de Aguacate con Aceitunas" (Chilled Avocado Soup with Olives) is a superb blend of flavors, a company-worthy luncheon anytime.

Another soup as cooling as a palm frond is "Sopa Puerbla," a pea soup with olives. Though it can be made with frozen peas, fresh peas will make it even better. And like the Avocado Soup with Olives, it would be especially nice served in crushed ice. Perhaps surrounded with fresh mint

sprigs or another herb from your garden.

Chilled Avocado Soup
¾ cup chicken - seasoned stock base or 4 - thickened bouillon cubes
1 quart boiling water
1 can (10½ ounces) frozen condensed cream of potato soup, base
1 can (10 ounces) frozen condensed cream of shrimp soup, thawed
1 cup heavy cream
¼ teaspoon white pepper
¾ cup grated Parmesan cheese
¾ cup sliced, pimiento-stuffed olives
1 medium avocado, peeled and diced
Dissolve stock base or bouillon in water; blend with remaining ingredients. Chill. Sprinkle with paprika and garnish with lemon wedges, if desired. Makes 8 servings.

Puebla Pea Soup
3 packages (10 ounces each) frozen peas
½ cup chopped pimiento-stuffed olives
1 medium - sized onion, quartered
2 cups dairy sour cream
¾ cups milk
1½ teaspoons salt
¼ teaspoon pepper
Cook peas according to package directions; drain if necessary. Force peas, olives and onion through food mill or blend on electric blender. Add sour cream, milk, salt and pepper; mix well. Chill. Stir before serving. Garnish with additional sliced olives, if desired. Makes 8-10 servings.

Wheat Germ Adds to Dough

These hearty but bite-size biscuits may steal the show!

Wheat Germ Drop Biscuits
2 cups biscuit mix (bought or homemade)
1-3 cup wheat germ
½ to ¾ cup milk
Stir together biscuit mix and wheat germ. With a fork stir in enough milk to make mixture a little softer than regular biscuit dough. Drop into greased small muffin pans filling cups almost to top.

Bake in a hot (425 degrees) oven 10 to 12 minutes or until lightly browned. If muffin-pan cups each hold 2 tablespoons, recipe will make 18 biscuits.

Summertime—and the Baking Is Easy

Who says summertime's not for baking? There's time to spare during the long, leisurely summer afternoons—just the right time for cooks, young and old, to try their hand at the pleasurable art of yeast baking.

High school teenagers or girls home from college can get their first indoctrination into the art of yeast baking, or brush up on baking skills.

And if you're a homemaker with years of baking to your credit, you'll welcome a lazy afternoon that allows you to indulge yourself in your favorite creative pastime—baking a batch of rolls or pans of fragrant bread.

Rich Dinner Rolls

1 cup milk
1/4 cup sugar
1 teaspoon salt
1/4 cup (1/4 stick) margarine
1/2 cup warm water (105 degrees - 115 degrees F.)
2 packages or cakes of yeast, active dry or compressed
2 eggs, beaten
5 1/2 cups unsifted flour (about)

Scald milk; stir in sugar, salt and margarine. Cool to lukewarm. Measure warm water into large warm bowl. Sprinkle or crumble yeast; stir until dissolved. Add lukewarm milk mixture, eggs and 2 cups of flour. Beat until smooth.

Stir in enough additional flour to make soft dough. Turn out onto lightly floured board; knead until smooth and elastic, about 8-10 minutes. Place in greased bowl, turning to grease top.

Cover; let rise in warm place, free from draft, until doubled in bulk, about 30 minutes.

Punch down. Turn out on lightly floured board. Proceed according to directions for any of the following shapes.

Shaping

Crescents: Divide dough into 3 equal pieces. Roll each piece into a circle 12 inches in diameter. Brush lightly with melted margarine. Cut into 12 to 16 pie-shaped pieces. Roll up tightly,

beginning at wide end. Seal points firmly.

Place on greased baking sheets, with points underneath, about 2 inches apart. Curve to form crescents. Makes 36 to 48.

Cloverleaf Rolls: Divide dough into 3 equal pieces. Form each piece into 8-inch roll. Cut into 9 equal pieces. Form each piece into 3 small balls. Brush with melted margarine. Place 3 balls in each section of greased muffin pans. Makes 27.

Bowknots: Divide dough into 3 equal pieces. Form each piece into a roll 9 inches long; cut into 9 equal pieces; form into strips 8 inches long. Tie each strip into bowknot. Brush lightly with melted margarine. Place on greased baking sheets, pressing ends of knot onto pan. Makes 27.

Baking

Cover rolls; let rise in warm place, free from draft, until doubled in bulk, about 30 minutes. Brush lightly with melted margarine. Bake in hot oven (400

degrees F) about 12 minutes for Crescents and Bowknots; 15 minutes for Cloverleaf Rolls.

Rarebit Filling Baked in Fish

Secretary of the Interior Stewart L. Udall recently said, "While fishing for food has been one of man's means of existence since before the dawn of recorded history, we know little about the sea and its resources."

But we lucky Americans have plenty of seafoods at our fingertips. Especially plentiful right now, says the National Fisheries Institute, are our supplies of cod, flounder, haddock and ocean perch fillets. The Institute suggests baking the fillets rolled up in muffin cups with a tangy rarebit stuffing.

Rarebit-Staffed Fillets

4 fish fillets, fresh or frozen
1 tablespoon butter or margarine
1/4 cup milk
1/2 pound Cheddar cheese, grated
1/4 teaspoon paprika
1/4 teaspoon dry mustard
1/4 teaspoon red pepper
1/4 teaspoon Worcestershire

2 cups soft bread cubes
Twirl fillets around inside of greased muffin cups, trimming fish if necessary. Heat butter or margarine and milk in top of double boiler. Place over hot water and stir in cheese and seasonings. If eat only until smooth. Remove from heat and stir in bread cubes.

Spoon rarebit into fillet twirls. Bake in moderate oven (350 degrees) 20 to 25 minutes until fish is flaky. Loosen edges of fish with a knife and carefully lift out with a spoon. Makes 4 servings.

Soup in Gravy
Make a mouth-watering mushroom gravy in a jiffy by adding one (1 1/4 oz.) envelope mushroom soup mix to pan drippings. Gradually blend in two cups water until smooth. Heat and stir until the gravy thickens.

RICH DINNER ROLLS—Fragrant homemade rolls add that special touch to any meal.

By shaping your dough in various ways, you get rolls to suit everyone.

Young Hostess Can Make Easy Cookies

A wonderful way to spend a hot summer afternoon is giving a tea party! This is especially true if you've never been to a tea party before and you have lots of friends or dolls who would like to be invited for tea. What to serve? Here are chocolate cookies which the youngest hostess can help make herself.

Chocolate-Scotch Drops are so simple because they contain only four ingredients. There's no baking! The cookies will be very popular for they're chewy with rolled oats, which also add a delicious nut-like flavor to the cookies.

In place of tea, small guests might like hot chocolate, which makes, with a marshmallow floating on top. A play tea set is just right for serving, or mom might let you use her demitasse set.

When all your guests are seated 'round the table in their prettiest summer dresses, you take the cookies from the refrigerator to the serving table and pour hot chocolate for the guests, carefully spooning a marshmallow into each cup.

Chocolate-Scotch Drops
One 6-oz. pkg. (1 cup) semi-sweet chocolate pieces
One 6-oz. pkg. (1 cup) butter-scotch pieces
1 1/4 cups quick rolled oats, uncooked
1 cup salted peanuts

Melt chocolate and butterscotch pieces in top of double boiler over hot (not boiling) water, stirring occasionally. Remove from heat; stir in rolled oats and peanuts. Drop from a teaspoon onto waxed paper. Store in refrigerator. Makes 2 1/2 dozen cookies.

Chill Salad Well

Deviled hard-cooked eggs with cooked snap beans vinaigrette plus salad greens make a refreshing noontime salad. Both the eggs and beans will benefit from being prepared ahead and allowed to chill. This way flavors develop. But take the eggs and beans out of the refrigerator about 15 minutes before you serve them.

Ever use sour cream as a dressing for salad? Season it with lemon juice and sugar.

TEA PARTY FARE—Little girls and dolls will love a tea party with chocolaty no-bake cookies and marshmallows floating atop hot chocolate.

Vary the Stuffing

Use whatever's on hand when you are preparing stuffed tomato salad. Fine fillings can be made from raw vegetables such as grated carrot and chopped cabbage, from eggs or sardines or a combination of the two, from tuna or canned shrimp.

\$16-Million Budget, New Judges

2 Items on Supervisor Agenda

A \$15.9-million county budget, then be accommodated in the new courthouse auditorium until vacant space in the court tower can be finished off for a sixth courtroom and chambers.

The recommendation results from a study completed by Dr. Louis L. Friedland, the county's space utilization consultant.

He offered several alternatives, but this would be the "simplest, quickest and least expensive arrangement," according to the auditors.

"With these moves we can put the two new judges to work immediately upon their appointment," said Auditor Robert Lilly. "Otherwise, they would be delayed from two to four months."

He said the recommendation is predicated on a lack of funds to construct a "badly needed" east wing on the courthouse.

"The new wing would be the real answer to our space problems," said Lilly.

The auditors' budget recommendation for next year is \$200,000 higher than what they were considering last month and \$1.1 million less than the tentative budget adopted in the spring.

It is also \$400,000 higher than this year's county budget of \$15.5 million.

John Austin, chairman of the board of auditors, said the latest recommendation is based on a full six months' experience this year and a new fee schedule for

county services that will go into effect next month.

TO REVIEW PROPOSAL

The ways and means committee is expected to take the auditors' recommendation under advisement until after it has reviewed the overall budget proposal item by item.

The committee will begin the operation tomorrow by reviewing sections of the budget pertaining to social welfare and the tuberculosis sanatorium.

Nun Burns Self in Viet Protest

SAIGON, South Viet-Nam (AP) — A middle-aged Buddhist nun burned herself to death today in a Vietnamese coastal village to further the Buddhist campaign against President Ngo Dinh Diem's government.

The nun was the fourth Buddhist to commit suicide by fire.

In Hue, capital of central Viet Nam, government troops with fixed bayonets broke up a demonstration by several hundred Buddhist students demanding the body of a novice monk who burned himself to death Tuesday. Scores of students were arrested.

BODY SEIZED

Monks were carrying the body into the city for a public burial when troops seized it and turned it over to an uncle of the monk for private burial.

At least 25 members of the funeral entourage were wounded, some seriously, when the troops beat them with their steel helmets.

City authorities issued an order against any cameras being carried openly in the city.

Tension appeared to be increasing, and more incidents were expected.

President Diem, a Roman Catholic, in an interview Wednesday declared he would "not judge from his efforts to end the bitter religious dispute, despite criticism of his sister-in-law, Mrs. Ngo Dinh Nhu, the New York Herald Tribune reported.

Diem told Herald-Tribune correspondent Marguerite Higgins in Saigon his policy of seeking a reconciliation with the Buddhists is "irreversible."

"It is only because some have contributed, either consciously or

unconsciously, to raising doubts about this government policy that the solution of the Buddhist affair has been retarded," the president said.

Miss Higgins said this was apparently a rebuke to Mrs. Nhu, who has urged even sterner action against the Buddhists. Her husband is Diem's closest adviser and she herself is considered a major power in the government.

Mrs. Nhu, also interviewed by Miss Higgins, called the Buddhists "utterly hypocritical."

"If the president keeps bowing to the unreasonable demands of the Buddhists, they will keep right on taking advantage of this weakness to make new impossible demands," Mrs. Nhu said.

"If you start to give status to suicide you only encourage impressionable, credulous people to seek false glory."

Mei Goldman, health department sanitation inspector, said poison released in the food prior to its being eaten would cause illness within a few hours.

The effect is not particularly severe although it can be dramatic at the onset, he said.

Of the approximately 150 women treated at St. Joseph Mercy Hospital and in Ontario, 29 required hospitalization. All have been released.

The women stricken were among more than 800 pilgrims who ate a catered meal following Marian Day ceremonies at the seminary. All were from New York, Indiana, Illinois and Pennsylvania.

"Unfortunately the foods provided were entirely consumed," Goldman said. "There were no leftovers."

DOCTORS GIVE INFO — Therefore, the health authorities have had to base their judgment on information supplied by the doctors who treated the women.

Probably only one of the dozen or more meals served was contaminated, according to Dr. John D. Monroe, county health director.

Whether or not action will be taken against the unidentified caterer has not been determined, Monroe said.

He indicated inadequate refrigeration "might have been a factor."

Monroe said the U.S. Department of Agriculture has been informed of the details of the case because the canned ham had been packed in another state.

CHARIOT RACE — It didn't exactly match Ben Hur as a spectacle, but these youngsters put plenty of spirit into their race yesterday. They were among hundreds who took part in

the Pontiac Parks and Recreation Department annual fun day at Oakland Park.

Outbreak Due to Bacteria

Women Stricken at Area Seminary

The illness of women treated for "suspected food poisoning" after a dinner at the Orchard Lake Seminary Sunday has been attributed to a bacteria in the food they consumed.

Oakland County Health Department authorities have received reports from doctors who treated the women in Brantford, Ont., and Ann Arbor, identifying the bacteria as staphylococcal enteritis.

Mei Goldman, health department sanitation inspector, said poison released in the food prior to its being eaten would cause illness within a few hours.

The effect is not particularly severe although it can be dramatic at the onset, he said.

Of the approximately 150 women treated at St. Joseph Mercy Hospital and in Ontario, 29 required hospitalization. All have been released.

The women stricken were among more than 800 pilgrims who ate a catered meal following Marian Day ceremonies at the seminary. All were from New York, Indiana, Illinois and Pennsylvania.

Deaths in Pontiac Area

MRS. ADDISON CHAPMAN

Service for Mrs. Addison (Annie B.) Chapman, 55, of 609 Highland will be at 1 p.m. Saturday in Macedonia Baptist Church with burial in Oak Hill Cemetery. Her body is at the William F. Davis Funeral Home.

Mrs. Chapman, a member of the Macedonia Church, died Monday after an illness of several weeks. She was an employee of Pontiac Motor Division.

Surviving besides her husband are two grandchildren; three sisters, Mrs. Louis Jackson in Bensenville, Ala., Mrs. Emma P. Dial and Mrs. Mary Braxton, both of Pontiac; and five brothers.

EMMETT A. LYONS

Service for Emmett A. Lyons, self-employed tax consultant, will be at 9:30 a.m. Saturday in St. Michael's Catholic Church with burial in Mt. Hope Cemetery.

The Rosary will be recited at 8 p.m. Friday in the D. E. Purley Funeral Home. An Elks Lodge of Sorrow will follow at 8:30 p.m.

Mr. Lyons, 51, of 66 Lincoln died yesterday after a brief illness. He was a member of St. Michael Church, the Holy Name Society of his church and Elks Lodge No. 810.

Survivors include his wife, Violet; his mother, Mrs. Cornelius Lyons; a son, John C.; three grandchildren; and two brothers, Lester of Pontiac and Arthur of Albuquerque, N. Mex.

Also surviving are eight sisters. Mrs. Helen Scheppeler in Florida, Mrs. Cecelia Rule in Arizona, Mrs. Katherine Carey in California, Mrs. Edith Christie, Mrs. L. Gaudet, Mrs. Margaret E. Gibson, Mrs. Marian Hoover and Mrs. Betty Belisle, all of Pontiac.

Fourth-Grader Worries — DALLAS, Tex. (AP) — Tony Sandows, a fourth-grader, usually makes perfect grades. But he was late getting a notebook in class and got 3, the equivalent of a "C," instead of his usual "A."

"Mother," he asked Mrs. Bernard Sandows after brooding over his misfortune awhile, "will that 3 keep me from making Phi Beta Kappa?"

Two victims of smoke inhalation remained in the hospital today as the result of fire in a Lakeville home early this morning.

Mrs. Bertha Maples, 83, and her 23-year-old grandson Edward were taken to St. Joseph Mercy Hospital, Pontiac, after they were removed from the burning house.

Before it could be controlled, the blaze gutted the home's main floor, causing about \$8,000 in damages, according to Addison Township's acting fire chief, Robert McCullum.

Both victims were sleeping about 2 a.m. when the home filled with smoke from a fire caused by faulty wiring near the furnace, according to McCullum.

Also in the house were Edward's brothers, Robert, 30, and James, 15, all sons of Mr. and Mrs. Stanley Maples of Grange Pointe Shores.

When the Addison Township Fire Department arrived, the main floor was in flames. The firemen were able to control the blaze and prevent it from spreading.

Argument on Anatomy — SETTLED BY BROKEN JAW — PROVIDENCE, R. I. (AP) — Two friends arguing about anatomy may not have been up on that subject, but they both knew a fractured jaw when they saw one.

A 48-year-old man was treated at Rhode Island Hospital after his companion struck him on the jaw during a hot dispute about the number of bones in the human body.

Death Notices

BODEKOR, AUGUST 12, 1963. Mrs. Bodekor, 80, died at 11:30 a.m. at St. Mary's Hospital. Burial will be at 1:30 p.m. Saturday in St. Mary's Cemetery. Mrs. Bodekor was a member of the St. Mary's Church.

2 Are Hospitalized After Fire in Home

Two victims of smoke inhalation remained in the hospital today as the result of fire in a Lakeville home early this morning.

Mrs. Bertha Maples, 83, and her 23-year-old grandson Edward were taken to St. Joseph Mercy Hospital, Pontiac, after they were removed from the burning house.

Before it could be controlled, the blaze gutted the home's main floor, causing about \$8,000 in damages, according to Addison Township's acting fire chief, Robert McCullum.

Both victims were sleeping about 2 a.m. when the home filled with smoke from a fire caused by faulty wiring near the furnace, according to McCullum.

Also in the house were Edward's brothers, Robert, 30, and James, 15, all sons of Mr. and Mrs. Stanley Maples of Grange Pointe Shores.

When the Addison Township Fire Department arrived, the main floor was in flames. The firemen were able to control the blaze and prevent it from spreading.

Argument on Anatomy — SETTLED BY BROKEN JAW — PROVIDENCE, R. I. (AP) — Two friends arguing about anatomy may not have been up on that subject, but they both knew a fractured jaw when they saw one.

A 48-year-old man was treated at Rhode Island Hospital after his companion struck him on the jaw during a hot dispute about the number of bones in the human body.

MRS. ELWOOD A. DUNLOP — WEST BLOOMFIELD TOWNSHIP — Service for Mrs. Elwood A. (Ruth A.) Dunlop, 48, formerly of 1944 Parkside, will be at 1:30 p.m. Saturday at Kinsey Funeral Home, Royal Oak. Burial will be in White Chapel Memorial Cemetery, Troy.

Mrs. Dunlop died early today after a long illness.

Surviving besides her husband are a daughter, Glenn Bartlett of White Cloud; her mother, Mrs. Elsie Deemer of Southfield; a daughter, Mrs. Don Laurie of Boyne City; a sister, Mrs. Eugene Wilber of Oxford; and two brothers and four grandchildren.

ROBERT G. POWELSON — ROCHESTER — Service for Robert G. Powelson, 60, of 1211 N. Oak will be at 1 p.m. Saturday at the Piley Funeral Home.

Mr. Powelson died Tuesday while on vacation in Baraga.

He was an employee of National Twist Drill and Tool Co. and a member of Brown City Lodge No. 409, F.&M.

Surviving are his wife, Dorothy; three children, Robert W. and George, both of Warren; and Lillian of Detroit; a brother; and a sister and three grandchildren.

Handwritten musical notation on a five-line staff. The notation includes a treble clef, a key signature of one sharp (F#), and a 4/4 time signature. The melody consists of several measures, with notes and rests written in ink. The handwriting is somewhat cursive and typical of a personal sketch.

10

Handwritten musical notation on a five-line staff. The notation includes a treble clef, a key signature of one sharp (F#), and a series of notes and rests. The notes are written in a cursive, handwritten style. The staff is part of a larger manuscript page, with other staves visible above and below.

10

10

This image shows a single, blank page from a manuscript. The paper has a light beige or off-white color with visible texture and some minor discoloration or foxing. There are several faint, horizontal ruling lines spaced evenly down the page, typical of a ledger or account book. No text, figures, or other markings are present on the page.

WHALE OF A TIME—A playful bachelor beluga whale while the head of a skin-diving tankman at New York's Coney Island aquarium. The whale is one of two male belugas in the aquarium that are normally a

Chicago Tense

Classroom Is Burned

CHICAGO (UPI) — A mobile classroom was set afire early today and integrationists said they would demonstrate "until hell freezes over" unless their demands were met.

The classroom put to the torch was at the Chicago Teachers College — less than a mile from where tumultuous demonstrations have taken place earlier this week at another mobile classroom site.

Vandals tried to burn down another mobile unit only a block from the scene of demonstrations Tuesday, but the fire burned itself out quickly and caused little damage.

Integrationists, claiming they had been "doublecrossed and hoodwinked," said they would resume their strike of last month at the Chicago Board of Education Office today and perhaps picket Mayor Richard J. Daley's home again tomorrow in protest of alleged school segregation.

They also planned to continue demonstrations today at a mobile classroom site on the South Side where more than 150 persons have been arrested this week.

White and Negro civil rights demonstrators picketed Daley's home yesterday.

Other demonstrations marked the nation's racial picture yesterday.

terday in the South, the Middle West and the East, but there was a lull in the violence that erupted earlier in the week.

In New York 13 members of the Congress of Racial Equality (CORE) should be in good shape for the big civil rights march in Washington on Aug. 28.

They left this morning for the nation's capital on foot, planning to pace off an average of 20 miles a day en route. CORE National Director James Farmer said they would be on hand to see them off at their starting point in Brooklyn.

Later in the day, the City Commission on Human Rights was expected to hear more testimony on the problem of alleged job discrimination against nonwhites in the New York construction industry.

Other integration developments:

ELIZABETH, N. J. — Some 250 pickets returned to two construction sites which were plagued with violence earlier in the week. Equipment — carrying trucks moved in and out freely in contrast to the brawling between police and demonstrators Tuesday.

GOLDSBORO, N. C. — More than 500 Negroes staged a demonstration of anti-segregation marches last night. Police

said several rocks were hurled at the crowd as they sang and prayed on the courthouse steps. No one was injured. More than 1,000 whites watched the demonstration.

Another Delay Stalls Return of Students in Cuba

HAVANA, Cuba (AP) — The American students visiting Cuba in defiance of a U.S. State Department travel ban have encountered a fourth delay in their return home.

They were told yesterday the plane that was to have flown them out today will not be ready until Wednesday because of mechanical trouble.

They lacked priority on three previous flights to Prague, Czechoslovakia, the route they chose to get around the U.S. ban on unauthorized travel between Cuba and the United States.

Group leader Levi Laub of New York said they now may experience a delay in arranging a connecting flight from Prague to New York.

They came here for a one-month visit in June.

New Resuscitator Devised in England

LONDON, England (AP) — A new type of breathing apparatus that weighs only 25 pounds, or 11 pounds less than standard oxygen equipment, has been displayed here.

It is combined with a tunic and has the breathing bag built into the jacket to eliminate unnecessary bulk.

It also includes a warning device to indicate the amount of oxygen remaining and a hood fitted to a throat microphone.

The new apparatus will be tested for a year by 12 fire departments.

Union Council Sets Classes on Services

A series of community services classes sponsored by the Oakland County AFL-CIO Council, in cooperation with the Pontiac Area United Fund, will begin next month at UAW Local 47's union hall, 336 E. 14-Mile, Clawson.

The classes — open to all union members — will meet from 7 to 9 p.m. each Thursday starting Sept. 12. Seven sessions will be held in all.

The first meeting will be devoted to "Orientation on Union Council Program." Guest speakers will be Ken Morris, codirector of UAW Region 1, and Arthur Heaton, labor staff representative on the Pontiac Area United Fund.

Subsequent programs will feature representatives from the UAW, the Michigan Employment and Security Commission, the Family Service of Oakland County, the Michigan Crippled Children's Commission, the Social Security Administration, and the Oakland County Department of Social Welfare.

Persons wishing further information on the classes may contact the Oakland County AFL-CIO, 21½ E. Lawrence.

To Boost Communication

'Syncom II in Position'

WASHINGTON (AP) — Space agency scientists said today they appeared to have succeeded in placing the Syncom II satellite in station high over Brazil.

The world's first virtually synchronous satellite, Syncom II was placed in position to enable 24-hour transatlantic communication between Lakehurst, N.J., and Lagos, Nigeria.

Commands were radioed to the satellite in the early morning hours to touch off its jets of nitrogen gas and speed Syncom II's orbit to make it nearly synchronous with the earth's rotation.

This was the last in a series of maneuvers to place Syncom II along the 58th degree of longitude.

On launching from Cape Canaveral, Fla., July 26, the satellite had gone into a lower than planned orbit and its speed carried it eastward in relation to the earth's rotation.

Scientists expect the satellite to stay on station, 22,300 miles above the earth, for two years.

Meanwhile, the National Aeronautics and Space Administration reported yesterday the indefinite postponement of a plan for President Kennedy to dedicate Syncom II today by means of a satellite-relayed telephone conversation with Prime Minister Abubakar Tafawa Balewa of Nigeria.

Hope had recorded the program some time ago, long before the death last Friday of President and Mrs. Kennedy's infant son.

"After Wednesday night's British television on the Commercial Appeal Television, an announcer said:

"The program you have just seen was recorded some weeks ago in America.

"We very much regret certain untimely references which occurred during the program. The company received about 40 protests from viewers."

A company spokesman said later: "As soon as the program was imported into this country, it was vetted (scrutinized) by ATTV executives and approved for showing."

"Between this vetting and the screening of the program, the death of the Kennedy baby occurred. The fact that the joke was not removed from the program was an oversight on our part for which we have apologized."

They lacked priority on three previous flights to Prague, Czechoslovakia, the route they chose to get around the U.S. ban on unauthorized travel between Cuba and the United States.

Group leader Levi Laub of New York said they now may experience a delay in arranging a connecting flight from Prague to New York.

Albania Snubs Nuclear Treaty

VIENNA, Austria (AP) — Communist Albania, Red China's tiny European ally, formally rejected today the limited nuclear test-ban treaty.

In a communique broadcast by radio Tirana, the Albanian government called Premier Khrushchev a traitor for concluding the agreement.

The communique said Albania would not adhere to the treaty "because it was not consulted prior to the agreement, although it is a member of the Warsaw Pact."

Albania has been excluded from Warsaw Pact meetings since late 1961.

The test-ban treaty is directed against the principles of the pact. Albania proposes, therefore, to hold a conference of all members to render judgment on the policies of Nikita Khrushchev.

Albania also charged that Khrushchev was participating in a plot directed against Red China in connection with the Chinese-Indian border conflict.

Spot Is Doubly Tragical

KINGSTON, England (UPI) — A corner set yesterday Mrs. Gertrude Bruce, 70, was killed by an automobile Aug. 6 at the same spot on a road where her husband Neil Bruce was killed in an accident Dec. 25, 1960.

Star Claudia Cardinale Wore 'Lampshade' Hairdo

By EARL WILSON

NEW YORK — "Cloud" Cardinal jettied in from Rome hoping to see all New York in 48 hours — pretty difficult, considering that she was hiding behind a "peek-a-boo" lampshade hairdo which she could raise or lower like the side-curtains on an old-fashioned buggy. (Anybody here remember those curtains on the rig?)

"Oh, 'ALLO!" Claudia would often exclaim, lifting the fringe on the lampshade.

"If I don't have these" — she had the fringe up — "I feel naked."

Cladia, who was born in Tunisia but elevated to stardom in Italy, wishes the planes arriving from Europe could reach the Statue of Liberty — a time-saver for tourists.

THE MIDNIGHT EARL . . . Julie Newmar plays a physical culturist in "For Love or Money."

To all who wrote for Jimmy Dean's idea for an Upside Down World Series between the N.Y. Mets and the Washington Senators for "the cellar championship" is offered in earnest — but with the hope that it would promote a lot of fun besides.

TODAY'S BEST LAUGH: That big mail robbery in England reminds us that holdup men lately seem to be getting everything except what's coming to them.

WISH I'D SAID THAT: "We know a girl so dumb she thinks the Ford Foundation is a new giraffe."

EARL'S PEARLS: Today's serious thought, for a change, is that each race now thinks God was a member of its race. Well, don't forget that the suffragist, Mrs. Pankhurst, once said, "Put your trust in God and She will protect you." . . . That's earl, brother.

Wash 'n Wear
Random Cord

Boys' Slacks

10 DAYS ONLY

Sears Regular
Low, Low Price
~~\$3.99~~
2.88
pr.

Proportioned Fit
Slim Sizes 6 to 22
Regular Sizes 8 to 22

- Machine-wash, tumble or drip-dry, little ironing
- Sanforized Plus—maximum fabric shrinkage 1%
- Repel water and most oil borne stains—stay neat

You'll pick these slacks for their stamina, good looks and easy care. Of tightly woven cotton cord, they stand up to hard wear and frequent washings. Treated with Scotchgard® Brand stain repeller, they resist soil. Ivy or Continental styles, pleatless front. Proportioned for better fit in waist, seat, thighs. Save \$1.11 on every pair at Sears sale-price.

Every Wanted Color:

- Black • Dark Blue • Charcoal
- Tan • Black Olive

Your Choice

87¢
Each
6 for \$5

The best thing about wearing Sears underwear is that you don't even know you're wearing it. There's no bunching, creeping-up, twisting, sagging. All styles hold their shape washing after washing. Knits in white. Shorts in patterns, solid colors.

Better Because

SEARS 6 POINT STAR VALUE
LABORATORY APPROVED

- Knits are 100% extra-long fiber Egyptian cotton
- Brief waistbands are heat and bleach-resistant
- Shorts have reinforced crotches to wear 71% longer

FRANKLIN STOVES

ORIGINATED IN COLONIAL AMERICA
By BENJAMIN FRANKLIN

Wonderful for amusement and family rooms, lake homes and maintenance of early Colonial decorating decor. Fireplace benefits, appeal and comfort at a fraction of fireplace costs.

Benjamin Franklin himself is credited with originating the Franklin stove far back in 1745. Ever since, and continuing to today, its unique performance properties are being recognized and put to use. Far more efficient than a fireplace, but imparts true fireplace coziness and appearance with its wide open front. Holds fire for long periods. The flat top area provides for bar-coffee pot and cooking utensils; the open fireplace area for barbecuing and open fire broiling.

EXPRESS WAYS TO DRIVE OUR NEW EXPRESSWAYS

High speed EXPRESSWAY driving is different from the stop-start driving we experienced on older highways. Experts recommend the following EXPRESS WAYS to safely take advantage of our fast, convenient EXPRESSWAYS:

1. Keep right when entering. Use the acceleration strip to build up to the average speed of the traffic.
2. Pick your lane . . . and stay in it. Lane wandering is dangerous. Generally, keep right. Where slow trucks and merging traffic make a lane hazardous, move over a lane.
3. Stay one car length back for every 10 m. p. h. Use turn signals when changing lanes.
4. If you must stop, signal for right hand turn as you decelerate. Get completely off the right side of the highway.
5. When leaving, look for advance turn signs. Move to the proper turn-off lane. Signal. Use deceleration lane, and slow down.
6. Watch "Highway Hypnosis" (move head and eyes constantly). Start a trip well-rested. Keep fresh air circulating. Avoid sun glare (and bright dash lights).

JOSEPH A. CHILDS, Commissioner

Michigan's new Interstate Expressways give us special advantages . . . and special problems. Our new minimum Expressway speed is 45 m. p. h. and the night limit has been raised to match the 70 m. p. h. daytime speed limit (effective September 6). Expressways have reduced accidents. When one does occur, however, it's likely to be serious due to the high speeds, and many are rear-end collisions, and the run-off type. Drivers using Expressways must adjust their habits to high speed travel.

We Are Adding a New Name to Our Shopping Center

Here's Why . . .

We are almost six years old and now we find we are, not only the No. 1 Shopping Center for the Pontiac area, but also serve a great percentage of the population of Birmingham and Bloomfield. For this reason and to better define our location we are adding the name Bloomfield to our center. From this day forward our official name will be . . .

BLOOMFIELD MIRACLE MILE *Shopping Center*

where one-stop shopping reaches its zenith! And remember, anything wanted and bought by a resident of the Pontiac and Bloomfield area was probably bought at "Bloomfield Miracle Mile" . . . because there is something for everyone, everywhere, every day at Bloomfield Miracle Mile.

Dividend Tax Next Problem for Committee

House Ways, Means
Eyes JFK Request
to Repeal Ike Credits

WASHINGTON (AP) — Fresh from approving individual and corporate tax cuts, the House Ways and Means Committee plunges today into a stiff party-line battle over dividend taxation.

The Kennedy administration wants to repeal the dividend tax credits which were instituted dur-

See Story, Table
Page B-4.

ing the Eisenhower administration. The committee yesterday gave its approval to the heart of President Kennedy's tax program to leave in the hands of individual and corporate taxpayers more than \$10.5 billion now paid in taxes.

The administration counts on the cut to boost the economy and eventually balance the Treasury's books.

If the individual tax cut program survives the lights ahead in House and Senate and becomes law this year, some of the reductions would begin to show up in increased take-home pay after Oct. 1.

But three congressional leaders have already voiced doubts about the program's future.

Sen. Harry F. Byrd, Virginia Democrat who heads the Senate Finance Committee, said today he doubts that Congress will approve tax reduction this year.

Similar views were expressed Wednesday by Senate Republican Leader Everett M. Dirksen of Illinois and House Republican Leader Charles A. Halleck of Indiana.

PROGRAM TRIMS

Under the program approved by the House group, withholding rates would be trimmed to fit new tax schedules that typically reduce a \$4,000-a-year family man's tax bill by \$100, a \$10,000-a-year man's by \$200. Exact amounts would vary with individual cases, but the Treasury estimated a general 20 per cent cut—about 15 per cent in the brackets including most taxpayers.

The full effect of the reductions would not be felt until 1965, but two-thirds would go into effect next Jan. 1.

Income tax returns filed next April, or earlier, would not reflect the new rates because the returns cover 1963 income.

Picking up speed after its months of deliberation over the complex tax bill, the committee swiftly approved a corporate rate slash slightly more generous to small business than the Treasury had recommended.

Also approved was a new minimum standard deduction feature that sweetens the tax benefit for low-income taxpayers.

China Charges Russia Broke Atom Promise

Nik Held Responsible
for Failure to Share
Nuclear Arms Secrets

TOKYO (AP) — Red China charged today that Soviet Premier Khrushchev wrenched on a promise to teach it how to make atomic bombs in order to please President Eisenhower at the Camp David talks four years ago.

In a biting statement broadcast by the New China News Agency, a spokesman for the Chinese government said the Soviet Union on June 26, 1954, "when there was not yet the slightest sign of a treaty on stopping nuclear tests, refused to provide China with a sample of an atomic bomb and technical data concerning its manufacture."

"The statement said this 'unilaterally tore up the agreement on new technology for national defense concluded between China and the Soviet Union on Oct. 15, 1947.'"

"This was done as a presentation gift at the time the Soviet leader (Premier Khrushchev) went to the United States to talk with Eisenhower," the statement asserted.

Raising a new angle in the Moscow-Peking feud, the Red Chinese spokesman charged that Soviet leaders "would not hesitate to obliterate the international position of Communist East Germany 'in order to curry favor with U.S. imperialism.'"

"Formerly we thought the Soviet leaders were genuinely afraid of the West German nuclearists' coming into possession of nuclear weapons," the Chinese said.

"Now we see that they trust U.S. imperialism and think it does not matter if the West German nuclearists possess nuclear weapons provided they are under the control of the United States."

The statement said the real aim of the Soviet leaders is to compromise with the United States in order to secure monetary aid and to maintain a monopoly of nuclear weapons and lord it over in the socialist camp.

The New China blast against Soviet participation in the limited test ban treaty said Soviet possession of a nuclear arsenal was no excuse for preventing other Communist nations from acquiring their own stockpile.

Peking's statement replied to a Soviet statement of Aug. 3 which gave the Kremlin's reasons for signing the test ban pact.

MAIL BAGS FOUND—Mailbags from the London-bound train which was held up and robbed last Thursday are unloaded at police headquarters in Aylesbury, Buckinghamshire, England today. Police found the bags, some of them stuffed with hay. According to police, \$280,000 of the loot has been recovered.

British Police Tell Recovery of Large Sum

Men Arrested in Resort
After Woman Gets
Suspicious, Phones

LONDON (AP) — Two men were held today on charges in connection with Britain's great train robbery, and a man and two women were retained for investigation.

Police said a large sum of money—reportedly about \$280,000—had been recovered.

Two men, both about 45 years old, were arrested Wednesday night in Bournemouth, a resort on England's south coast, after they stopped a woman on a quiet street and asked if she could recommend lodgings.

The woman became suspicious and phoned the police. When detectives arrived, a fight ensued and the men were taken into custody.

Police said a considerable sum of money was found in a car, and later another car was found about a mile away with a large sum of money in it.

Police in Bournemouth said charges were placed against the men but did not announce the charges or identities of the men.

TO SCENE OF CRIME

The men were to be taken today to Buckinghamshire, the county in which the bandit gang held up the Glasgow-London mail train and escaped with \$7 million in currency.

The other man and two women were picked up in London. Scotland Yard checked scores of scattered leads and suspects.

The Daily Mirror reported from Cannes on the French Riviera that Billy Hill, a confessed British ex-gangster, had denied masterminding the robbery.

There have been persistent reports that the brain behind the robbery may have headed for the French Riviera days before the robbery to give himself an alibi.

Detectives have discovered the lonely farmhouse the French used as a hideout. They have, but won't disclose, the name and address of the men who bought the place less than a month ago.

Reward Money Biggest Ever

\$728,000 Won't Even
Be Subject to Tax

LONDON (UPI) — The \$728,000 reward money offered for the sensational mail train robbery represents more cash than any evidence crook could hope to steal in a lifetime.

It glitters in the minds of men, and in the minds of their wives or sweethearts: the dream of a life of luxury—legal and tax-free.

"We would treat it as a windfall," an inland revenue spokesman said, "and would not try to tax it."

"It" is the cash-on-delivery reward being offered for a solution to the biggest robbery of all time, the \$7.1-million theft from a British mail train last week.

The reward sets another record: It is believed to be the biggest ever offered and is certainly the biggest ever offered in Britain.

To any member of the gang which staged the precision train robbery, such a reward offers

(Continued on Page 2, Col. 3)

At Pontiac State Hospital

Mental Care Experiment Set

A novel attempt at treating the mentally ill will be undertaken later this month at Pontiac State Hospital.

The hospital has been asked by the Michigan Department of Mental Health to begin a day care program whereby patients receive regular treatment during the day but return to their homes at night and on weekends.

Dr. Edward L. Herman, 31, a staff psychiatrist, will direct the pilot project. He is optimistic about the day care experiment.

The object of the \$60,000 project is to determine whether day care would be beneficial for all state hospitals in Michigan.

"The idea is to see if the program can be integrated with existing hospital operations rather than build separate facilities," explained Dr. Herman.

"DEFINITE TREND"

Pontiac is the first-state hospital to attempt day care. Dr. Herman views the idea as a definite trend. The program's recent development began in the early 1960's, although England and Canada have extensive day care facilities.

He said it was "quite widely" developed on the East and West coasts of the United States.

"Our experience has been that some patients can recover faster without complete hospitalization," Dr. Herman said.

"They don't lose contact with their family and environment."

Thus, they don't have the readjustment, to make after a long hospital stay."

The psychiatrist added that others in the family maintain interest in the patient and are motivated to learn about mental illness and to see what they can do about their sick family member.

"Of course," he said, "the cost is obviously much less. Perhaps not in actual dollars, but at least in terms of preventing human suffering."

Dr. Herman said there were no exact statistics available to compare the costs of day care

Sailor Sentenced as Spy for Soviets

NEW YORK (AP) — Nelson C. Drummond, 34-year-old Navy yeoman, was sentenced to life imprisonment today as a Soviet spy.

Drummond, a 17-year Navy veteran from Baltimore who was arrested with secret documents in company of two Soviet officials, was convicted July 19 of conspiring to commit espionage.

Federal Judge Thomas P. Murphy passed sentence.

A stockily built Negro, Drummond appeared shocked as he heard the sentence. He tightly gripped the edge of the table against which he stood.

Stierer's Background Is Diversified

What is the professional background and experience of Robert A. Stierer, city manager suspended by the Pontiac City Commission for incompetence, insubordination and irresponsibility?

Stierer, 42, graduated from the University of Chicago in 1942 with a bachelor's degree in social sciences.

He served in the U.S. Army and Air Force from December 1942 to February 1946 as a first sergeant.

He was with the 36th Infantry Division in the final stages of the campaign in Europe, and won a Bronze Star decoration for meritorious and heroic service in maintaining communications under enemy fire at the Altmuhl River (Germany) in April 1945.

He also served on Luzon in the Philippines after the war was over.

ROBERT A. STIERER

Returning to civilian life, he took graduate work in political science at the University of Chicago in 1947.

He was employed by Science Research Associates in Chicago when hand-picked by former City Manager Walter K. Willman to be Willman's administrative assistant in 1956.

Before that, he had served five years as administrative assistant to Chicago Alderman Robert E. Merriam.

For three years, from 1949 to 1952, he was employed by the State of Illinois as a research analyst in the finance department, assistant to the state purchasing agent and a commodities buyer.

He is married and the father of two children.

Stierer was under added pressure in recent weeks due to illness in the family. His wife,

Mary, underwent major surgery in Chicago July 31.

After coming to Pontiac, Stierer quickly became Willman's right-hand man in many areas.

He coordinated the city's urban renewal programs and was active in city planning. He was also responsible for public relations.

Stierer was director of Pontiac's civil defense program and aided in the annual city budget preparation.

In 1960, he was named assistant city manager at Willman's request and two years later, the retiring city manager recommended Stierer as his successor.

He is a member of the International City Managers Association and was appointed by former

Gov. John B. Swainson to the Detroit Metropolitan Area Regional Planning Commission last October.

FROLICKERS—Enjoying a little indoor sport at Chamber of Commerce Frolics at Pontiac Country Club yesterday are (left) Stanley Vitilinsky, owner of the Berkley Beer Store in Berkley; Jack Zeunen, manager of Detroit Edison Co.'s Pontiac branch office; and Nathan Bressler, president of West Detroit Glass Co., Inc.

City C. of C. Frolics to a Big Success

Well over 400 members of the Pontiac Area Chamber of Commerce and their guests turned out for the chamber's annual frolic yesterday at Pontiac Country Club.

"It was the most successful frolic we've ever had," said Max Adams, manager. "We had the biggest turnover ever."

The event included a day of golfing, a luncheon, dinner, entertainment and some 100 prizes.

Highlight of the affair was a market, nightclub, comic and pianist brought here from Washington, D.C., with Sidney Yudian, master-of-ceremonies.

Chamber President Dr. F. Milton Hathaway, presented a plaque to Nathan Bressler, who was the chamber's top salesman in a recent membership drive.

Downpour Injures 25

HERMOSILLO, Mex. (AP)—A violent rainstorm struck this town in northwestern Mexico last night, slightly injuring 25 persons and causing damage estimated at \$100,000. The weather bureau said 4.4 inches of rain fell in 1 1/2 hours — the heaviest downpour ever recorded in the region.

NATIONAL WEATHER—Scattered showers and thunderstorms will occur tonight over the extreme northeastern coastal states, portions of the western Gulf region and the southern Plateau and southern Plains. It will be cooler in the Northeast and parts of the northern plateau and Ohio and Tennessee valleys as well as the south Atlantic coastal states and Gulf region.

Bank Exec Expires in Hospital

William A. Eubank, vice president and cashier of Pontiac State Bank, died shortly after midnight at Henry Ford Hospital. He was 65.

Service will be 3 p.m. Saturday at the Wm. Sullivan & Son Funeral Home, 785 W. 11 Mile Road, Royal Oak, with burial following in White Chapel Memorial Cemetery.

Mr. Eubank, of 1103 N. Pleasant, Royal Oak, was born in Bedford, Va., the son of Mr. and Mrs. William Eubank. He received his education at Randolph Macon Academy and the University of Virginia.

Before coming to Pontiac in 1940 he was employed at the Dime Savings Bank in Detroit and taught high school science and mathematics while serving as chief accountant for the Guardian Detroit Union Group formerly a group of banks.

An assistant auditor of the Detroit Federal Reserve Bank, he was also auditor of Wayne Oakland Bank in Royal Oak.

In May 1945, Mr. Eubank was appointed cashier of Pontiac State Bank and in January of this year became a vice president.

A member of the First Congregational Church of Royal Oak, he served four years on the Royal Oak Board of Education and was a member and director of the Kiwanis Club there.

A past president of the Detroit Conference of Bank Auditors and Comptrollers, Mr. Eubank also had been president of the Oakland County Bankers' Association. He was appointed a member of the Oakland County Tax Allocation Board in 1948.

Surviving are his wife, Hazel; a daughter, Mrs. Dorothy Trippel of Royal Oak; a son, William J. of Livonia; six grandchildren; and three sisters.

Clerk Stops Bad Check

BURLINGTON, N. C. (AP)—A clerk at the Burlington bus station hesitated when a man presented a check. "Any references?" the clerk asked. The customer said that Sheriff Arthur Jones could identify him.

The clerk telephoned the sheriff. The sheriff gathered up several papers and hurried to the station. The sheriff served three warrants he had been holding, charging the man with issuing worthless checks.

Reward Money Biggest Ever

(Continued From Page One)

every imaginable good thing in life.

Here are some of the things it would buy:

A yacht, at say—\$112,000. A house in the country, at another \$84,000. A \$22,000 Rolls-Royce. A cruise around the world, a few thousand bottles of champagne, a private plane, and left over after all this was spent would be about \$476,000.

Invested, that would bring

'Military OK'd Pact Without Pressure'

(Continued From Page One)

chiefs "to support the treaty. He asked if any such pressure took place.

"Not in the sense that you suggest," Taylor replied. He said the only pressures on the military leadership are from "the services, conscience and duty to our country."

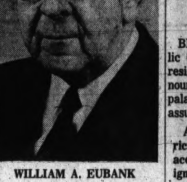

But, he told Russia, as to any "pressures" from superiors to take that stand, "No sir, definitely not."

Taylor read to the hearing the same statement he had given the Preparedness subcommittee—that the joint chiefs agree that while there are military "risks and disadvantages," they support the pact as "compatible with the security interests of the United States."

He repeated that among the risks in the treaty is the danger of any "related military effort by the United States and our allies."

The demand from the Preparedness subcommittee for specifics on the necessary safeguards was on motion of Sen. Henry M. Jackson, D-Wash.

Recover Body in Sylvan Lake

Sheriff's skindivers this morning recovered the body of a Pontiac man who drowned in Sylvan Lake last night.

The body of Hensel Conway, 57, of 8 Edna, was found tangled in weeds in 12 feet of water and 250 yards off shore from 2070 Ferndale.

The sheriff's department first suspected a drowning when David H. Warlow reported at 7:30 a.m. that he had seen a boat drifting on the lake.

Warlow, a captain with the Pontiac Fire Department, saw the boat off the east shore near Telegraph while on his way to work.

Police said Conway had left home at 6 p.m. last night to go fishing. His equipment was found in the boat.

Mrs. J. S. Farmer, of 2872 Garfield, told police that at 8 p.m. yesterday she heard screams of help but thought it was children playing.

Deputies Edward Tessler and Lyle Wilcox recovered Conway's body at 9:30 a.m.

Puerto Rican House Dates Back to 1521

The oldest continuously inhabited European home in the Western Hemisphere is the Casa Blanca, or White House, in San Juan, Puerto Rico, the National Geographic Magazine says. Begun in 1521, it has survived five major military sieges, as well as earthquake and hurricane. It is now the residence of the senior United States commander there.

President Quits Post in Congo

Army Temporarily Takes Over in Power

BRAZZAVILLE, Congo Republic (AP)—President Fulbert Youlou resigned today in a dramatic announcement from the steps of his palace. The army temporarily assumed power.

A chanting mob of 10,000 Africans had surrounded the palace, shouting for Youlou's resignation. They hailed his announcement with jubilation.

The downfall of the little, 46-year-old priest-politician came on the third anniversary of this equatorial African nation's independence from France. Youlou had been the Congo Republic's chief executive from the start.

Strong gendarmerie reinforcements had coped with the crowd since morning, when workers marched to the palace to demand that Youlou get out. Labor leaders have charged there was graft and corruption in his government.

After the announcement, the crowd began breaking up. They walked off toward native villages excitedly talking about what they called "our victory."

Workers rioted Tuesday, calling for reform in government, abolition of Youlou's plan for one-party rule, and higher wages. They stormed the city prison and liberated 480 inmates in a search for jailed labor leaders. Police fire killed five and wounded about a dozen.

Youlou yesterday promised reforms in the government. His promises either came too late or were not accepted by the people. There was no indication who might succeed him.

LOUISVILLE, Ky. (AP)—Whisky barrels contain metal only on the outside, in the form of iron hoops. If metal were used on the inside, it would contaminate the whisky.

Commission to Consider Zone Ordinance Proposal

BLOOMFIELD HILLS — The City Commissioners will receive tonight a new zoning ordinance recommended by the planning commission Tuesday.

At the same time they will probably hear from a property owner whose development plans hinge on the success of the proposed ordinance.

The controversial zoning code has been in preparation for more than two years.

For most of that period, M. E. Snyder has been awaiting the outcome, blueprints in hand.

Whether the amendment can be adopted before an entire ordinance is approved becomes an interesting question as the latter heads back into the public forum.

A proposal to build a fence on the Southfield side of Crestview Park has been rejected by the City Commission as not being necessary at this time.

Commissioner Robert Page sometime ago suggested that the fence be erected as a safety barrier between the children

Snyder wants to construct a multiple residence building with eight units rather than the four now allowed. The nine-acre site is on the east side of Barden at Barbours.

He would also have a two-story structure with each unit on a single floor. The present code states that every unit must be at least partially on ground level.

The proposed zoning ordinance would allow Snyder's plans to be fulfilled. Otherwise, it would be necessary for him to see an amendment to the ordinance.

Snyder told city planners Tuesday he was getting tired of waiting and will start proceedings to have the present ordinance amended.

Whether the amendment can be adopted before an entire ordinance is approved becomes an interesting question as the latter heads back into the public forum.

A proposal to build a fence on the Southfield side of Crestview Park has been rejected by the City Commission as not being necessary at this time.

Chicago Tense

Classroom Is Burned

CHICAGO (UPI)—A mobile classroom was set afire early today and integrationists said they would demonstrate "until hell freezes over" unless their demands were met.

The classroom put to the torch was at the Chicago Teachers College—less than a mile from where tumultuous demonstrations have taken place earlier this week at another mobile classroom site.

Vandals tried to burn down another mobile unit only a block from the scene of demonstrations Tuesday, but the fire burned itself out quickly and caused little damage.

Integrationists, claiming they had been "doublecrossed and hoodwinked," said they would resume their sit-ins of last month at the Chicago Board of Education office today and perhaps picket Mayor Richard J. Daley's home again tomorrow in protest of alleged school segregation.

They also planned to continue demonstrations today at a mobile classroom site on the South Side where more than 150 persons have been arrested this week.

White and Negro civil rights demonstrators picketed Daley's home yesterday.

Other demonstrators marked the nation's racial picture yesterday.

said several rocks were hurled at the crowd as they sang and prayed on the courthouse steps. No one was injured. More than 1,000 whites watched the demonstration.

In New York 13 members of the Congress of Racial Equality (CORE) should be in good shape for the big civil rights march in Washington on Aug. 28.

They left this morning for the nation's capital on foot, planning to pace off an average of 20 miles a day en route. CORE National Director James Farmer said he would be on hand to see them off at their starting point in Brooklyn.

Later in the day, the City Commission of Human Rights was expected to hear more testimony on the problem of alleged job discrimination against nonwhites in the New York construction industry.

Other integration developments...

ELIZABETH, N. J.—Some 250 pickets returned to two construction sites which were plagued with violence earlier in the week. Equipment—carrying trucks moved in and out freely in contrast to the brawling between police and demonstrators Tuesday.

GOLDSBORO, N. C.—More than 500 Negroes staged the fifth consecutive night of anti-segregation marches last night. Police

devised in England

New Resuscitator

Devised in England

LONDON, England (U)—A new type of breathing apparatus that weighs only 25 pounds, or 11 pounds less than standard oxygen equipment, has been displayed here.

It is combined with a tunic and has the breathing bag built into the jacket to eliminate unnecessary bulk.

It also includes a warning device to indicate the amount of oxygen remaining and a loud hailer fitted to a throat microphone.

The new apparatus will be tested for a year by 12 fire departments.

Union Council

Sets Classes on Services

A series of community service classes sponsored by the Oakland County AFL-CIO Council, in cooperation with the Pontiac Area United Fund, will begin next month at UAW Local 417's union hall, 338 E. 14-Mile, Clawson.

The classes—open to all union members—will meet from 7 to 9 p.m. each Thursday starting Sept. 12. Seven sessions will be held in all.

The first meeting will be devoted to "Orientation on Union-Council Program." Guest speakers will be Ken Morris, coordinator of UAW Region 1, and Arthur Heaf, on labor staff representative on the Pontiac Area United Fund.

Subsequent programs will feature representatives from the UAW, the Michigan Employment and Security Commission, the Family Service of Oakland County, the Michigan Crippled Children's Commission, the Social Security Administration, and the Oakland County Department of Social Welfare.

Persons wishing further information on the classes may contact the Oakland County AFL-CIO, 214 E. Lawrence.

'Syncom II in Position'

WASHINGTON (U)—Space agency scientists said today they apparently have succeeded in placing the Syncom II satellite on station high over Brazil.

The world's first virtually synchronous satellite, Syncom II was placed in position to enable 24-hour transatlantic communication between Lakehurst, N.J., and Lagos, Nigeria.

Commands were radioed to the satellite in the early morning hours to touch off its job of nitrogen gas and speed Syncom II's orbit to make it nearly synchronous with the earth's rotation.

This was the last in a series of maneuvers to place Syncom II along the 55th degree of longitude.

On launching from Cape Canaveral, Fla., July 26, the satellite had gone 100,000 miles lower than planned orbit and its speed carried it eastward in relation to the earth's rotation.

Scientists expect the satellite to stay on station, 22,300 miles above the earth, for two years.

Meanwhile, the National Aeronautics and Space Administration reported yesterday the indefinite postponement of a plan for President Kennedy to dedicate Syncom II today by means of a satellite-relayed telephone conversation with Prime Minister Abubakar Tafawa Balewa of Nigeria.

Hope had recorded the program some time ago, long before the death last Friday of President and Mrs. Kennedy's infant son.

After Wednesday night's British showing on the Commercial American Television, an announcer said:

"The program you have just seen was recorded some weeks ago in America."

"We very much regret certain untimely references which occurred during the program."

The company received about 40 protests from viewers.

A company spokesman said later: "As soon as the program was imported into this country, it was vetted (scrutinized) by ATN executives and approved for showing."

"Between this vetting and the screening of the program, the death of the Kennedy baby occurred. The fact that the joke was not removed from the program was an oversight on our part for which we have apologized."

Proof Ordered in Drug Claims

Deadline Is Set by Agency of U.S.

WASHINGTON (U)—The Food and Drug Administration (FDA) has ordered drug manufacturers to prove their claims for antibiotics in a wide variety of compounds such as throat lozenges, nose drops and sprays, which generally can be bought without prescription.

The FDA set a deadline of Sept. 8 in the order, which is in the Federal Register of July 23 and a spokesman for the Pharmaceutical Manufacturers Association said yesterday many companies cannot comply by that date.

The spokesman expressed the opinion the companies probably cannot devise tests to prove the effectiveness of the drugs, as required, "let alone carry them out."

He said he had no definite figures on the sales value of affected products, but doubtless it is well over \$1 million a year.

"This will be very tough on some manufacturers," the spokesman said. "However, as I understand it the antibiotics may be removed or its use discontinued and the marketing of the product could continue."

FDA acted under authority contained in the 1962 amendments to the Food, Drug and Cosmetic Act which allow it to require proof of both efficacy and safety of drugs.

Previously, it had such authority in regard to five of the older antibiotics and their derivatives: penicillin, streptomycin, chlorotetracycline, chlortetracycline and bacitracin.

The agency has not questioned the safety of the antibiotics, of which about 30 of the lesser used ones are affected.

But it said labeling claims on effectiveness of the products are not supported by available medical data.

Affected antibiotics, for which it could previously only require proof of safety, include drugs such as tyrothricin, gramicidin and neomycin.

There are about 100 varieties of Vermont marble. Vermont leads the country in the production of marble and granite.

Albania Snubs Nuclear Treaty

VIENNA, Austria (U)—Communist Albania, Red China's tiny European ally, formally rejected today the limited nuclear test-ban treaty.

In a communicate broadcast by radio Tirana, the Albanian government, called Premier Khrushchev a traitor for concluding the agreement.

The communicate said Albania would not adhere to the treaty "because it was not consulted prior to the agreement, although it is a member of the Warsaw Pact."

Albania has been excluded from Warsaw Pact meetings since late 1961.

The test-ban treaty is directed against the principles of the pact. Albania proposes, therefore, to hold a conference of all members to render judgment on the policies of Nikita Khrushchev.

Albania also charged that Khrushchev was participating in a plot directed against Red China in connection with the Chinese-Indian border conflict.

Spot Is Doubly Treach

KINGSTON, England (UPI)—A coroner said yesterday Mrs. Gertrude Bruce, 70, was killed by an automobile Aug. 6 at the same spot on a road where her husband Neil Bruce was killed in an accident Dec. 25, 1960.

Star Claudia Cardinale Wore 'Lampshade' Hairdo

NEW YORK (U)—"Cloudia" Cardinal letted in from Rome hoping to see all New York in 48 hours—pretty difficult, considering that she was hiding behind a "peck-a-bow" lampshade hairdo which she could raise or lower like the side-curtains on an old-fashioned buggy. (Anybody here remember those curtains on "the rig"?)

"Oh, ALLO!" Claudia would often exclaim, lifting the fringe of the lampshade.

"If I don't have these"—she had the fringe up—"I feel naked."

Claudia, who was born in Tunisia but elevated to stardom in Italy, wishes the planes arriving from Europe would circle the Statue of Liberty—a time-saver for tourists.

THE MIDNIGHT EARL

Julie Newman plays a physical culturist in "For Love or Money." To all those who wrote for Jimmy Dean's idea for an Upside Down World Series between the N.Y. Mets and the Washington Senators for "the cellar championship" is offered in earnest—but with the hope that it would promote a lot of fun besides.

TODAY'S BEST LAUGH: That big mail robbery in England reminds us that holdup men lately seem to be getting everything except what's coming to them.

WISH I'D SAID THAT: "We know a girl so dumb she thinks the Ford Foundation is a new girl."

EARL'S PEARLS: Today's serious thought, for a change, is that each race now thinks God was a member of its race. Well, don't forget that the suffragist, Mrs. Pankhurst, once said, "Put your trust in God and She will protect you." ... That's earl, brother.
