

PONTIAC EXPANDS — Formal announcement of a 180,000-square-foot expansion to the foundry facilities at Pontiac Motor Division will be made tonight by E. M. Estes (left), Pontiac general manager, Estes, looking at a scale model of the addition with Elmer E. Starr, works manager (center), and Ted Schroeder, foundry superintendent, outlined the project as one that will give Pontiac Motor the most modern foundry unit in the industry.

Pontiac Will Build Foundry Addition

A multimillion dollar expansion and modernization of Pontiac Motor Division foundry facilities will be announced tonight by E. M. Estes, Pontiac general manager.

Groundbreaking on the new project, the second major building program undertaken by Pontiac within the past nine months, is expected to begin in two weeks.

Formal announcement of the new project is to be made by Estes in a speech to the American Foundrymen's Society meeting at the Whittier Hotel in Detroit.

"Our expansion program will give us the most modern foundry facilities in the automobile industry," said Estes.

FOUNDRY AREA

The foundry area will increase to 796,300 square feet from the present 616,000 square foot area.

The new building will be connected with the present foundry along Montclair St. and cover the present site of parking lots along Montclair extended to Glenwood.

Foundry improvements include a series of new hot box

core making machines to improve accuracy and new water-cooled cupolas with no lining in the melting zone and able to run continuously for extended periods.

A new finishing room will make possible a greater capacity for cleaning castings in addition to housing the latest cleaning equipment.

TWO SHIFTS

"Based on regular two-shift operation, the new facilities and modernization will substantially increase the foundry's metal pouring capacity," Estes explained.

The latest Pontiac Motor ex-

pansion, to be completed in October, followed the announcement in August, 1963, of an addition to any modernization of frame plane facilities.

This program, which also included the addition of more than 1,000 feet to the final assembly line, has already been completed.

Construction of the original foundry was begun in 1927 with metal being poured the following year.

At that time the foundry contained 247,764 square feet, less than half the size it will attain under the new expansion.

Two Firms in Area Hit by Night Fires

Two area fires during the night destroyed a Bloomfield Township antique shop and caused more than \$50,000 damage to a Troy factory.

The Bloomfield blaze also severed utility lines, leaving buildings for a square mile without power. The large red barn housing the Devon Crafts Antique Shop was at 1135 W. Long Lake.

Among those caught without telephones, lights and radio were the township fire and police departments.

The power loss occurred for about 20 minutes after the fire was reported at 2:05 a.m.

Dispatcher Fred Harbrueger said he was summoning a volunteer fireman when it happened. For the next hour and a half it was touch-and-go until an emergency power unit was put to work.

During the period the department had one call, an inhalator run. Harbrueger got the message to a patrol car by using the radio in a car left at the station.

Firemen didn't attribute loss of the building to the power failure.

"It was beyond saving when we got the report," Harbrueger said.

W. Richard Walsh, owner of the remodeled barn behind his home, was unable to estimate immediately the cost of the blaze which completely leveled the building.

FIREMEN ASSISTED

About 25 firemen fought for 2½ hours to keep the blaze under control. Those from Bloomfield Township were assisted by a crew from Bloomfield Hills.

Fire swept through the front section of Palmer Paint Products Co. in Troy early last night, causing traffic on Stephenson to be rerouted for two hours and gutting the front of the building's second level.

Troy Fire Chief Lauren Ford

said the 33 men who battled the fire did a "terrific job" to save the remaining part of the building.

Civil Defense workers aided

(Continued on Page 2, Col. 3)

DEVASTATED BY FIRE — The Devon Crafts Antique Shop, housed in a large remodeled barn at 1135 W. Long Lake, Bloomfield Township, was leveled by an early morning fire which also cut off power in a portion

of the township for about an hour and a half. Yesterday evening, an estimated \$50,000 damage was caused by a fire at Palmer Paint Products Co. in Troy.

On Faulty System Charge Army Missile Waste

Tax-Cut Bill to Take Effect by March 11-12

Conferees End Job; Measure Sent Back to House and Senate

WASHINGTON (AP)—An \$11.5-billion tax cut, largest in the nation's history, is ready for the final formalities expected to put more money into the pockets of 80 million American taxpayers by mid-March.

Senate and House conferees completed work on the 400-page measure yesterday.

The House is expected to pass the compromise bill next

Tax Tables, Page C-12

Tuesday, with Senate action coming either the same day or next Wednesday. Little opposition is anticipated.

President Johnson is then expected to sign the bill early in the following week. The first effects of the bill will come in reduced withholding of taxes in paychecks dated eight days after the measure is signed—either March 11 or 12.

The reductions average about 19 percent of present individual taxes. Rates for some 550,000 corporations are also being cut.

Conference agreement climaxed a solid year of concentrated work in rewriting dozens of provisions in the U.S. tax code.

LAST FEBRUARY

House hearings began on the bill in February last year, just after the late President John F. Kennedy asked Congress for a massive tax cut to try to solve many of the nation's economic problems.

Johnson followed his predecessor in putting the tax cut measure at the top of his legislative agenda along with civil rights.

The reductions are expected by the administration to provide a stimulus aimed at boosting the 1964 economy and providing healthy long-run effects on unemployment and other problems.

CHANGING HANDS — The president's gavel changed hands at last night's annual Pontiac Area Chamber of Commerce meeting. Theodore Bloom (left), 1964 president,

accepts the symbolic instrument from the outgoing chamber president, Dr. F. Milton Hathaway. Bloom is personnel director at Pontiac Motor Division.

Find Huge Fortune of Petty Gambler

CHICAGO (UPI)—Weary police counted the cash of a dead gambler today and kept counting and kept counting. They passed the half-million dollar mark with more to come.

The booty from a nickel and dime gambling wheel operator probably will reach \$750,000, police said, and there may be more that nobody knows about.

Partly Sunny Sky, Snow Flurries Due

Skies will be partly sunny with temperatures a little colder tomorrow, the high near 34.

Occasional snow flurries will continue through tonight with the low dropping to 20. Little change in temperature is expected Saturday.

Morning northerly winds at 10 miles per hour will continue through the night.

Twenty-four was the low reading in downtown Pontiac prior to 8 a.m. The mercury had climbed to 27 by 2 p.m.

Area Chamber Installs Chief

Bloom Takes Over at Yearly Banquet

Theodore B. Bloom took over as president of the Pontiac Area Chamber of Commerce last night as several hundred persons filled the banquet hall of the Elks Temple for the chamber's 54th annual dinner meeting.

Bloom, personnel director of Pontiac Motor Division, was elected 1964 president in December. The new president is traditionally installed at the chamber's annual meeting in February.

Outgoing President Dr. F. Milton Hathaway, a Pontiac optometrist, passed the gavel to Bloom commenting that the new president "is a man with all the qualities of leadership needed to fill this office."

In assuming the post, Bloom said, "I hope to rap this gavel to signify the successful completion of numerous chamber projects in 1964."

COMMUNICATION

Commenting on the past year, Hathaway said that "one of our goals in 1963 was better communication with the public and the membership."

"There is no question we have had more exposure through our new monthly newsletter and press and radio this past year than ever before."

The chamber presented Hathaway with a television set in recognition of his "fine accomplishments this past year."

Toastmaster for the event was Robert Emerick, public relations director at Pontiac Motor, who introduced the 1964 board of directors, officers and staff members.

ENTERTAINMENT

Entertainment was provided by Paul Lennon, billed as "America's Comet of Comedy," and the Bob DuKant Trio.

News Flash

WASHINGTON (AP)—A nuclear test related to the Ploughshares program of developing peaceful uses for nuclear explosives was conducted in Nevada today, the Atomic Energy Commission announced.

Congress Unit Claims Loss of \$300 Million

Military Chief Says Weapon Is Effective Despite Deficiencies

WASHINGTON (AP)—A congressional agency charged today that the Army wasted \$300 million on a missile that never did its job. The General Accounting Office (GAO) did not name the missile in a statement released to the press.

But it did so in a secret report sent to the White House and the Pentagon.

The Army disagreed with the conclusions of the GAO, which is the agent of Congress in checking on government spending.

The GAO reported that the secretary of the Army said that although the missile "has deficiencies, it is an effective weapon system."

The GAO said the missile was "an unsatisfactory weapon" for two reasons:

- It has "unreliable accuracy."
- It is difficult to use because of high maintenance requirements and because of its susceptibility to electronic interference.

ELECTRONIC JAMMING

The GAO said that in 1963 a subcontractor advised the government that the guidance system designed for the missile was so susceptible to electronic jamming that it would be of no use.

Despite this, the GAO said, the Army and the contractor went ahead using the unsatisfactory guidance system because they did not want to delay production of the missile.

The GAO said that in 1956 the Army finally gave in and agreed with the subcontractor that a different guidance system was needed. But this, the GAO said, required a different

(Continued on Page 2, Col. 3)

Wrong Man Is Target of Dallas Bullet

DALLAS, Tex. (AP)—A distraught divorcee took a wild shot yesterday in the busy Dallas air terminal at a man she mistook, by her later account, for radio executive Gordon McLendon.

The bullet, fired from 15 feet at W. W. Dyer of Dallas, lodged in a small handbag carried by D. A. Peterson of Park Ridge, Ill.

Both men were walking to board a 4:45 p.m. flight to Chicago.

Dyer's wife shoved the woman, Mary Elizabeth Stone, 47, to the floor, police said, as she tried to shoot again and the weapon jammed.

WRESTLES AWAY PISTOL

An airline employee wrestled the pistol from Mrs. Stone.

McLendon, a candidate for U.S. senator in Texas' Democratic primary May 6, described the incident as an obvious attempt to assassinate him.

He said he would ask Atty. Gen. Robert F. Kennedy to order an FBI investigation.

Goldwater Predicts Near Majority in New Hampshire Primary

WASHINGTON (R)—Edging out on a limb, Sen. Barry Goldwater predicts he will win close to 50 per cent of the vote in New Hampshire's primary and start his campaign for the Republican presidential nomination snowballing.

"If we can come out of New Hampshire with a decided victory," he told supporters in Rumney, N. H., yesterday, "you have no idea what this is going to do for my candidacy

over the rest of the United States."

The Arizona senator calculated that any candidate who captures 35 per cent of the vote in the March 10 primary and takes seven of the convention delegates would have "a definitive victory."

Hearst Exec Expires

PITTSBURGH (AP)—Malcolm S. Lunn, 76, former circulation director for Hearst Newspapers, died Wednesday. Lunn retired more than 10 years ago as circulation director of the old Pittsburgh Sun-Telegraph.

And he voiced belief that he would run up almost 50 per cent.

That kind of a showing, he declared, would "sew up some states that are waiting to see what happens here."

Also campaigning through

New Hampshire's snowy countryside yesterday and today was one of Goldwater's chief rivals

Supreme Knight Dies

NEW HAVEN, Conn. (AP)—Luke E. Hart, 83, supreme knight of the Knights of Columbus, died Wednesday. Hart, who headed the Roman Catholic fraternal order for more than 10 years, joined the K of C in 1908 in St. Louis and rose rapidly to the post of supreme advocate, serving for 31 years.

for the GOP nomination, Gov. Nelson A. Rockefeller.

Although the two haven't crossed paths so far in the Granite State, both are joined in whaling away at President Johnson's foreign policy.

"I think most Americans are a little sick today to think of the way the United States is being slapped around," is the way the Arizona put it.

The New York governor said, "The American people are rec-

ognizing this dismal record and its frightening portent for the future for what it is—a formula for failure."

Driving through a heavy snow

Car Crash Kills Man

CHARLOTTE (AP)—Earl A. Furnish, 71, of Charlotte was injured fatally Wednesday in a two-car intersection collision near Charlotte's east city limits.

storm yesterday. Rockefeller opened a new four-day vote hunt in New Hampshire, picking up where he left off Friday—shaking hands and tossing darts at Goldwater and Johnson.

New Hampshire has a relatively high percentage of retired persons, and Rockefeller hit again at Goldwater's proposal to put the Social Security on a voluntary basis, saying it would bankrupt the system.

As for the President, Rockefeller said Johnson "can be de-

feated, should be defeated and will be defeated in November."

Sen. Margaret Chase Smith of Maine, another candidate in the state's primary said she plans to return to New Hampshire's campaign trail this weekend.

On Sewer Issue

Oxford Vote Is Monday

OXFORD—Village residents will be voting again Monday, but this time there will be just one "candidate" on the ballot—a proposed village-wide sewer system.

Although the qualified elec-

torate here numbers about 500, some 1,100 are eligible to cast ballots in Monday's unofficial advisory election.

The only requirements for admittance to the booths are

that the voters live in Oxford and be 21 years old.

"Council will take a look at the results of the balloting and make a decision based on them," Village President Allen

E. Valentine said today.

PROPOSED PROJECT

Proposed is a \$915,400 sewer construction project.

The system would provide sewage facilities to all village residents at an average annual cost estimated at \$125.50 for 12 years and \$78 for the next 18.

A spray irrigation plant would handle sewage for 12 to 15 years. Ultimate plans call for the waste to be piped into a county system.

The current schedule calls for the project to be financed and supervised by the Oakland County Department of Public Works.

VOTE UNNECESSARY

Although no vote is necessary to go ahead with the construction, the project is of such magnitude that the council feels the opinion of Oxford's citizens is necessary, according to Village Manager Michael Kilgore.

The council studied eight possible ways of financing the sewer lines and treatment plant before deciding to work with the county.

Preliminary plans for the sewers, submitted by consulting engineers Johnson & Anderson of Waterford Township, have already been approved by the council.

"We're hoping for an excellent turnout in Monday's election," Valentine said. "Its results will play a significant part in the council's final decision."

Council is scheduled to make that decision after the March 9 general election.

HELEN P. HARRIS

A late summer wedding is being planned by Helen Patricia Harris and Jeffrey A. Bagocius whose engagement is announced by her parents, Mr. and Mrs. W. Fenner Harris, 426 Main, Almont. The prospective bridegroom is the son of Mr. and Mrs. Glen G. Douglas, 416 Almont, Almont.

DONNA E. LA-BAIR

Announcement is made of the engagement of Donna Elaine La-Bair to John Lantz by her parents, Mr. and Mrs. Donald La-Bair of New Orleans, La. The prospective bridegroom is the son of Mr. and Mrs. Melvin Lantz, 60 Pearl, Oxford. No wedding date has been set.

Milford Twp. Parties Accept Supervisor

MILFORD TOWNSHIP — If William L. Mainland's entrance into political life is an indication of what's ahead, his term as township supervisor will be a peaceful one.

Mainland's acceptance of the post brings a 15-month deadlock between the two Democrats and the two Republicans in the Township Board.

They had been seeking a supervisor since the resignation of Mayon Hoard became effective Jan. 31.

Clark Mrs. Elizabeth Hubbell said she doesn't even know which party Mainland prefers.

HIGHLY RESPECTED

"It reached the point where we didn't go into that much," she commented. "Mr. Mainland is very active, and very highly respected."

The owner of Oakland Orchards, Mainland is a member of several committees and organizations connected with his work.

He currently is working on a program to help growers meet the needs of migrant workers.

The problem is being tackled through a series of classes sponsored by the Michigan Farm Labor Management Committee, of which Mainland is vice chairman.

TRIP TO EUROPE

Among the details which Mainland has to clear up before settling down to his new

Orion Group Sets Dinner

LAKE ORION — Orion Chapter No. 340, Order of the Eastern Star, will sponsor a reception and dinner tomorrow honoring the association's Grand Family of the Grand Chapter of Michigan.

Staged in the Blanche Sims school, corner of Florence and Jackson, the three-phase program will begin at 6 p.m. with a dinner.

At 7 p.m. the state leaders will be feted with a reception, and beginning at 8 p.m. the Grand Officers will exemplify their degrees.

Those Horrid AGE SPOTS* — WRINKLES

Fade Them Out!

"Weathered" brown spots and wrinkles. They tell the world you're getting old — perhaps before you really are. Fade them out with ESOTERICA, new medicated cream that breaks up masses of pigment on the skin — makes hands look white, smooth, and young again. Equally effective on face, neck and arms. Not a cover up. Penetrates skin cells to stimulate new, smooth beauty. Fragrant, greasless — it softens, lubricates and moistens skin. Guaranteed by the famous 50-year-old laboratory that produces it. Now only \$2.00 for 3 ounces — 3 months' supply used on hand cream and powder foundation. If you want lovelier skin quickly, get ESOTERICA today.

FREE Offer — Limited Time Only:

Try bar of ESOTERICA SOAP, new medicated soap combats bacteria, aids healing. Helps leather away from skin. Gently softens and cleanses the skin without drying. Bath size in plastic case \$1.00. Free Offer with each jar of ESOTERICA.

NEWS OF THE AREA

Rochester 'Y' to Sponsor Eventful 5-Day Program

ROCHESTER — Swimming meets, basketball games and a matchbox derby are included in local YMCA-sponsored events scheduled tomorrow through Tuesday.

Scores of spectators and participants from throughout the area are expected to attend.

Beginning at 7 p.m. tomorrow in the Woodward Elementary School, the "Y" is putting on the second of its introductory square dance classes for children in grades six through nine. Chuck Becker, caller for the

"Hix 'n' Chix" square dance club is instructor. A new 10-lesson series will start Feb. 28.

SWIM MEET

On Saturday, the Rochester YMCA Girls Swim Team is hosting a triangular meet with girls' teams of the Birmingham and Bay City YMCA's. Visitors have been invited to the competition, which will be staged in the Oakland University pool beginning at 9:30 a.m.

The local boys' team will take over the water at 2:30 p.m., when Rochester's team

competes with the Pontiac YMCA swimmers.

Also scheduled for Saturday afternoon is the matchbox derby, sponsored by the Algonquin Nation Council of "Y" Indian Guides. Beginning at 1:30 p.m. in the West Junior High School, the young boys will enter their model race cars and compete for trophies on the basis of both style and speed.

Various modeling displays and a racing movie will also be shown at the affair.

DANCE LESSONS

Ballet and tap dancing classes will be held again at 3:30 Monday in the "Y" activity center. Lessons in kindergarten, beginners and intermediate ballet and tap dancing are available, all taught by an instructor from Dibley School of Dance, Utica.

Currently the classes are preparing for their annual recital, to be held the first weekend in June.

Also on Monday, members of the Rochester YMCA Ski Club will meet again at 4:30 p.m. at the "Y" to leave for another afternoon of skiing at Mt. Holly Ski Area.

Closing out the four days of activities, playoffs for the annual Gra-Y Basketball Championships will get under way at Meadowbrook and Baldwin Elementary Schools.

Boys in the top two grades at Meadowbrook, Baldwin and Woodward elementary schools are competing for the championship trophy.

HONORED — Avondale Schools Supt. George E. Shackelford was feted recently at the dedication of the newly enlarged George E. Shackelford Library in Elmwood School. A large picture of the superintendent was given to the student body at the ceremony and placed on the library wall. Shackelford is former principal of the elementary school.

Report Issued on Unification

Utica-Shelby-Sterling Merger Is Backed

UTICA — After two years of studying the matter, the Greater Utica Chamber of Commerce is recommending that the people of Utica and Shelby and Sterling townships unite.

In a report distributed by the group's executive secretary William F. Schuchard, the chamber is proposing that the three communities merge in "some sort and in at least some degree, if not in all respects."

"The combined areas of Shelby-Utica-Sterling must prepare themselves for rapid urbanization and the demands of progress or perhaps lose many of the opportunities and advantages such evolution must surely bring," the report continues.

The chamber two years ago organized a study committee, composed of three members from each of the involved communities, to analyze the question of unification.

PLAN ENDORSED

In addition to endorsing the joint planning commission meetings and combined water, sewage and storm drain facilities that have been constructed since its organization, the committee is now proposing that other mergers be considered.

The chamber is soliciting a continuation of interest by all in the proposal, and asking for the assistance of public officials, churches, schools, cultural groups and civic-minded individuals.

YMCA Drive Is Under Way

Rochester Captains Aim at \$9,000 Goal

ROCHESTER — Twenty-one team captains will lead the Rochester YMCA's campaign to collect \$9,000 in its annual membership drive this year.

Campaign chairman Lloyd Lae said the drive is already off to a fine start under the leadership of division chairmen Lawrence R. Meyers and Lawrence Shepard.

Drive workers will be attempting to reach their goals before the end of next month.

Assisting Shepard as team captains in Division A will be Vern Houghten, Martin Cook, Mrs. James Bruno, Forest Wiley, Mrs. John Burns, Mrs. William Holland, Mrs. Frederick Houghten, Dr. Kenneth Hock, Harold Milton and Murland Pearsall.

DIVISION B

Division B team captains, under Meyers, will be Mrs. James Reeves, George Haskett, Gerry Bird, Orin Huxton, George Huxton, George Haskett, Harold Strayer, Myron Lockhart, Wayne Dennis, Robert Pitsch and Robert Hawkins.

Anyone interested in working on the campaign this year is requested to contact the local YMCA or the drive's general chairman.

Under the supervision of Executive Secretary Jack Zahn, the Rochester "Y" is now sponsoring 36 activity programs.

ALICE M. CHETTELBURGH

A February 29 wedding is being planned by Alice M. Chettleburgh and Thomas A. Wojewski. The bride-elect is the daughter of Mr. and Mrs. Russell Chettleburgh of 1380 Land, Commerce Township. Her fiancé's parents are Mr. and Mrs. Alexander Wojewski of Plymouth.

Meeting Set on Drainage in Township

INDEPENDENCE TOWNSHIP — The Township Board has scheduled a special meeting March 18 to further explore the problem of poor drainage at Jack's Green Lake Subdivision.

Source of the drainage trouble at the 82-house subdivision is the solid clay terrain which causes septic tanks to overflow.

Representatives of the Veterans Administration and the Oakland County Health Department will be invited to the special meeting.

The board has also accepted the resignation of Kenneth Thayer from the Planning Commission.

Thayer cited the press of outside business as reason for his resignation.

50th Anniversary for Auburn Couple

AUBURN HEIGHTS — Mr. and Mrs. Floyd Lehman, 260 Schoolcraft, celebrated their 50th wedding anniversary recently at a dinner party at the Waldron Hotel in Pontiac.

Later in the day they were honored at the open house at the home of their son-in-law and daughter, Mr. and Mrs. Arnold L. Park, 670 Dell Rose, Bloomfield Township.

Besides Mrs. Park, the Lehmans have three other daughters, Mrs. Lester Oles of Pontiac Township, Mrs. Laurel Sawyer of Marion and Mrs. Milton Anderson of Port St. Joe, Pa.

Church Plans Lent Series in Rochester

ROCHESTER — The Prudential Committee of the First Congregational Church is sponsoring a series of three Lenten programs beginning tonight.

The second and third are scheduled for March 3 and 19. The first and third will be family potluck dinners followed by a program with speaker.

Tonight's speaker will be Fred Noyes, chairman of the board of directors of the First Church of Christ Scientist here. He will talk on "Christian Science."

The program will begin with the supper at 6:30 p.m. Movies and a nursery will be provided for children.

Developer Asks Rezoning for Keego Harbor Units

KEEGO HARBOR — A rezoning request has been submitted to the city by the potential developer of 19 apartments here.

The request is the second the city has received since the Oct. 22 adoption of an ordinance creating a multiple residence zone.

Although the ordinance defines the zone, designation of a specific area requires rezoning.

The latest request, which the City Council passed onto the planning commission for study, was made by Leroy W. Frink of Langer Frink Builders Inc., Southfield.

TWO BUILDINGS

The developer wants to construct two one-story buildings

Avon Twp. Students Will Tell PTA Story

AVON TOWNSHIP — Students in costumes from various countries will illustrate the story of PTA following tonight's 7:30 p.m. business meeting of the Elmwood School PTA.

The children will put on a skit to mark the local school group's observance of PTA Founders Day.

Road Death Toll 236

EAST LANSING (AP) — Traffic accidents have killed 236 persons in Michigan so far this year, provisional figures compiled by state police showed today. The highway death toll at this date last year was 163.

Dog Vaccinations Set at Brandon Fire Hall

ORTONVILLE — Dogs will be vaccinated against rabies at the Brandon Township Dog Clinic to be held at the Brandon Fire Hall here from 1 to 4 p.m. Sunday.

Marvin L. Featherston, township treasurer, also will be on hand to issue 1964 dog licenses.

AFL-CIO Urges LBJ to Press for Legislation in War on Poverty

MIAMI BEACH, Fla. (AP)—The AFL-CIO Executive Council drafted resolutions today calling on President Johnson to step up his war on poverty in general and on unemployment in particular.

Federal measures to reduce the nation's 4.6-million jobless

total are "the key factor in the whole fight against poverty," said a spokesman for the council, which sets policy for AFL-CIO unions and their 13.5 million members.

"We are in favor of the idea of the war on poverty," the spokesman said, "and we want

to see some action. It is not enough just to say this. There has got to be some legislative action."

He said demands the AFL-CIO will make on Johnson and Congress include:

1. An accelerated public

works program "translated into immediate jobs."

2. An increase in the minimum wage, now \$1.25 an hour, to \$2 and expanding its coverage to millions of workers.

3. A shorter workweek, with double pay to discourage overtime and spread employment.

Johnson already has proposed double pay for overtime in some industries and expanding minimum wage coverage but he has not acceded to labor demands to cut the workweek to 35 hours. Labor considers this the essential measure to reduce unemployment.

AFL-CIO officials from President George Meany down consider the unemployment program "as the key to all domestic issues and the key to the United States remaining the mainstay of the free world," the spokesman said.

While the union leaders de-

manded more action from Johnson, they made it clear that he will almost surely be their choice in the November presidential election.

The spokesman said one problem in the presidential election will be that "Johnson is nowhere nearly as well known in

the Northeast as he is in the South and the Southwest."

The Northeast is where the heaviest labor vote is concentrated.

Union officials are "afraid we might get into the position where only millionaires can run for office," the spokesman said.

Lawmaker Advocates Return to 'Woodshed'

A bill authorizing public flogging of juvenile delinquents has been submitted by Rep. ARTHUR LAW for legislative consideration.

The Pontiac lawmaker's proposal is carefully drawn, permitting imposition of corporal punishment only by judicial decree, with adequate safeguards against its misuse.

That there will be strong opposition to Law's bill goes without saying. The bleeding hearts and segments of over-idealized sociologists and psychologists will chorus loud protest over the "traumatic treatment" in store for the "misunderstood" youthful offenders.

These agonizers will point out that the teen-age murderer, the rapist, the chronic thief, the scofflaw is the creation of faulty upbringing and that punitive measures are not the enlightened approach to the regeneration of the young enemy of society.

To which we answer: "Nuts." With juvenile delinquency increasing at a terrifying rate, the safety and welfare of the responsible and respectable body of society is becoming increasingly in jeopardy.

The mounting statistics on juvenile crime are a reality—not a theory. And if for no other reason that existing law-enforcement deterrents have failed to stem the wave of juvenile delinquency, any concrete, forthright step to curb it is to be heartily recommended.

"This bill is nothing new," says Rep. Law. "It's a revival of an old tried practice that for many generations did a world of good. The only difference is that here we recognize the role of the probate court in handling juveniles."

Delaware was the first state to put a whipping law on its books. The Press, after due consideration of the many-sided issue, strongly urges that Michigan be the second.

Wilson Fund Benefits Area's Artistic Climate

Through the beneficence of the late C. B. Wilson, our area, is to take another step forward in its social development.

Trustees of the LULA WILSON Fund have allocated \$75,000 to underwrite the Meadow Brook Festival at Oakland University.

Of the total amount, \$35,000 will go for the construction of an outdoor orchestra shell, and \$40,000 toward expense for an initial two-year program of summer music to be presented by the Detroit Symphony Orchestra. Future plans envision a cultural center for performing arts with schools and workshops for music, dance and theater in cooperation with Oakland University.

A native of Ohio, the benefactor became a Pontiac resident in 1914 when he with his brother, D. R. WILSON, established the Wilson Foundry and Machine Co. For several decades the plant was one of Pontiac's most flourishing industries.

The aesthetic concept originated with Mr. and Mrs. Roger M. Kyes, whose interest and efforts overcame early obstacles. Others to be commended are the Semon E. Knudsen, who now head a committee to further the project.

Mrs. Alfred G. Wilson, to whose philanthropy the founding

of Oakland University is mainly attributable, will serve as honorary chairman of the committee.

The Press expresses deep gratification over the broadening of the community's artistic climate with highest praise for those who have made it possible and are carrying it forward.

"Road to Peace Isn't Smooth, RUSK Says."—Headline. It certainly isn't, and it is hoped the State Department will not ignore those signs reading, "Proceed at Your Own Risk."

Congress Lags; Court Moves In

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON—It is almost 10 years since the Supreme Court, after watching Congress for half a century duck this country's most important social problem, decided to tackle the job itself.

This was the May 17, 1954, decision declaring segregation of Negroes unconstitutional. This, one of the most far-reaching court decisions in American history, began a social revolution still being fought out.

Again, after watching Congress and state legislatures fail for generations to give voters fairer representation, the court moved into this vacuum with two landmark political decisions.

In these—one in 1962, the second last Monday—the court said voting districts from which representatives are sent to Congress and state legislatures, must be rearranged to make the population in each more equal.

As it is now, one district with 900,000 people may have only one representative in Congress while another, with only 200,000 people, also has one.

These social and political decisions had the effect of legislation, a field supposedly reserved under the Constitution for the legislative branch of government.

Nothing in the Constitution specifically gives the court the right to do this. But nothing in the Constitution says it can't. And it's the court which interprets the Constitution.

This is not the first time the court has assumed a right not spelled out. It has done that repeatedly, although for long periods haltingly.

In 1803, it decided it had the power to declare an act of Congress unconstitutional; in 1821 it claimed the right to do the same about state legislation. The court was denounced at the time.

But those decisions helped strengthen this country's unity. The 1821 decision—the power to knock out a state law—made it possible for the court in 1954 to knock out state segregation laws.

Justice John Marshall Harlan, who got on the court too late to take part in the 1954 case, opposed the restricting decisions of 1962 and this week.

He warned last summer that if this kind of thing continued—when the legislative branch failed to act—there would be a "substantial transfer of legislative power to the courts."

What's the alternative? If the legislative branch fails to act, the court does nothing even though it has power to act? By its decisions, the court has rejected such a philosophy.

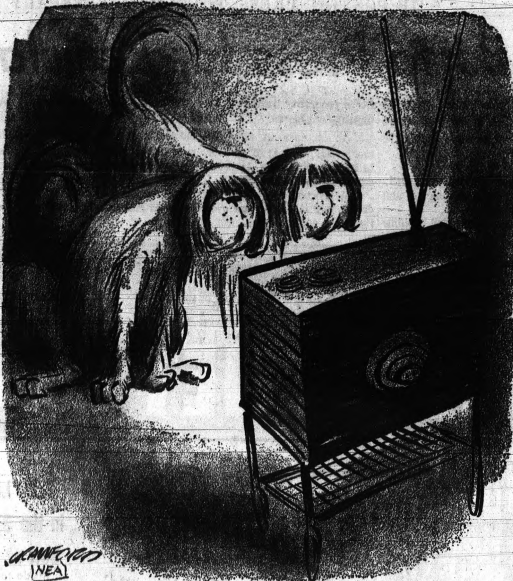

Even after the 1954 decision, Congress has gone less than all-out to end segregation. It passed two fairly mild civil rights bills—in 1957 and 1960. But now it is wrestling with a truly powerful antidiscrimination bill.

If the court had not acted, segregation would probably still be considered constitutional, as it was until 1954, and might have continued so for years, since Congress showed no inclination to ban it.

Yet, such a policy would not only have built up racial hatred in this country but would have made American foreign policy look ludicrous now when it is trying to win the friendship of the world's backward peoples, especially since most of the world's people are not white.

Verbal Orchids To —

Mrs. Minnie Hill
of Lake Orion, 94th birthday.

"They Say Imitation Is The Sincerest Form!"

David Lawrence Says:

Election Year Inaction Harmful

WASHINGTON—What's going on beneath the surface today in national as well as international affairs can make the year 1965 perhaps the most critical in this century.

During the eight months before the presidential election, steps will be taken by the eight governments which could involve the United States in a series of crises that may begin to emerge after the presidential election on November 3.

What gives most concern at present is the behavior of the foreign governments which have deliberately construed the current election campaign in this country as giving them an opportunity to put into effect policies beneficial to themselves but harmful to the United States.

Unfortunately, presidential elections occur at a fixed time under the American Constitution and cannot be postponed to a more opportune moment, as under the parliamentary system.

Foreign governments know that American presidential campaigns are lengthy affairs, and that no president is going to risk his chances for reelection by plunging this country into a military crisis which could demand the drafting of more boys and cause the interruption of the normal lives of many citizens—to say nothing of the impact on the economic situation as a whole.

POSTURE OF INACTION
Confident that the President is virtually stalemated into a

Almanac

By United Press International
Today is Thursday, Feb. 20, the 51st day of 1964 with 315 to follow.

The moon is in its first quarter.

The evening stars are Venus and Jupiter.

On this day in history:

In 1792, President George Washington signed the first U.S. postal act, thereby establishing the federal post office.

In 1869, the U.S. Supreme Court ruled the power of the federal government was greater than that of any individual state of the union.

In 1933, following the lead of the Senate, the House of Representatives voted for repeal of the Prohibition amendment.

In 1962, American astronaut John Glenn orbited the earth three times in a space capsule.

A thought for the day—French philosopher and author Voltaire once said "It is better to risk saving a guilty person than to condemn an innocent one."

posture of inaction, foreign governments feel free to pursue their disturbing policies without fear of reprisals.

This is not only true with respect to Castro in Cuba, but is related to the arrogant behavior of Panama and friction in other parts of Latin America.

The strategy of the Democratic administration appears to be to do nothing which will aggravate or "escalate" the international situation.

There is a tendency in official quarters to soft-pedal what is going on behind the scenes in different parts of the world.

FACTS SUPPRESSED

The press is not being given all the facts about government moves on the international front or even about the happenings inside Latin America, some of which may well be more threatening than outwardly would appear.

Policy-making seems to be predicated on the theory that the nation wants "peace at any price" and that this is the way to win a presidential election.

Throughout grave periods of history, foreign governments have underestimated the resoluteness of the American people.

Capital Letter:

U.S. Voters Rarely Defeat an Incumbent President

By RUTH MONTGOMERY
WASHINGTON—Public opinion polls which currently show President Johnson leading all Republican opponents by landslide proportions tend to dramatize an interesting trend in our political life.

A majority of Americans no longer seems to relish change at the national level.

Not for 32 years has an incumbent president been retired from office by voter action.

Since the Great Depression year of 1932, when Franklin D. Roosevelt defeated President Herbert Hoover, every chief executive who sought another term has won.

Except for Hoover, William Howard Taft was the only other incumbent president defeated for reelection in the Twentieth Century, and Taft would prob-

ably have won except for his predecessor.

By running as the standard-bearer of the Progressive (Rough-Riders) Party, Teddy Roosevelt split the GOP vote and thereby handed the victory to Democrat Woodrow Wilson in 1912.

This may be true, but whatever the reason, it has been demonstrated that as long as the country is reasonably prosperous, the White House "ins" have an enormous advantage over the "outs."

Tradition is so firmly on the side of President Johnson's reelection chances that Republicans will have to come up with a far better campaign issue than the Bobby Baker case, if they hope to win.

The religious issue is dead. So is the "dynasty" issue. The country is prosperous, and a fat tax cut will soon be pouring more take-home pay into workers' pockets.

Barring unforeseen race violence, or a foreign policy boo-boo of major proportions, it looks like everything's coming up roses for Democrats in '64. Yellow roses of Texas, that is.

Voice of the People:

Press Readers in Favor of College for 'C' Pupils

Hurray for the editorial on "C" University. It hit the nail on the head. What this country needs is a college for the "C" student. I had reconciled myself to the fact that my children would not be able to go to college because they were not "A" and "B" students. If most parents would admit this fact just because their children do not get all A's and B's they are still average children. This includes the majority.

It would be wonderful to have a college where all would be on about the same level and not have to worry about competing with an "A" student. This is a very worthwhile project and many taxpayers would vote for that. Here is my vote and husband's also.

Waterford Lee Dugon

Your editorial says word for word my philosophy of education. My hat comes off. I don't have the \$50-million nor two-thousand acres. Do you think forty acres would be enough to start with?

All hail to "C" U.
Ortonville Mrs. Paul F. Schoen Jr.

Your editorial about a "C" average in grades certainly has sense. Two presidents of our country were shot by fanatics. Is God giving us a sign? Let's put the rising generation back in Sunday School.

We Need Truth

'God Is Answer to Stop Delinquency'

Until we put God and His word back into our schools and homes, we will continue to have juvenile delinquency and violence.

Asks About Second-Degree Murder Plea

Regarding the trial of Charles Morris, I wonder how Senior Assistant Prosecutor William Lang or Judge Philip Pratt would explain to their sons or ours, that justice was properly rendered when this boy was proven sane, and who admitted planning the killing and shooting in cold blood, was allowed to plead guilty to second-degree murder.

Kenny Beebe had not been in trouble with law or with neighbors. He had graduated from school and had plans to improve himself by furthering his education. He attended church regularly and was kind to his brothers, sisters and parents. He is dead, buried, his life totally wasted. His sentence was sudden death from a 23-caliber bullet in the back. No one pleaded for mercy or leniency for him.

How can you give Morris second-degree murder sentence of a few years and have him free again to commit another crime of this type? Why was the jury dismissed and the decision made to plead guilty to second-degree murder? What is first-degree murder, if shot in the back in cold blood isn't?

Furious

'We've Already Had One Airport Study'

In a Pontiac Press article I noticed the county is going to spend another \$10,000 of the taxpayers' money for a firm from California to make another study of the county's needs for a second airport. This has been done once.

The City of Pontiac wants the county to take over and help run the Municipal Airport as a joint project but the county is stuck with the white elephant at Allen Airport and can't back out gracefully.

Drayton Plains Lowell Eggert

'Americans Disgraceful Toward Beatles'

It's a disgrace the way The Beatles have been treated by Americans. A lot of adults think it's a crime the way The Beatles shake their heads and stomp their feet but it's a lot better than the way kids danced 15 or 20 years ago.

I think the U. of D. students, who organized to ban The Beatles, are being very childish. They act as if they're jealous of the Beatles.

Karen Clements

Drayton Resident Has Mail Complaint

I would like to know if anybody that has mail delivered by the Drayton Plains Post Office has any trouble getting it. For example, one letter mailed from a town 15 miles away hasn't arrived yet. Don't get me wrong, the mail will get here but it might be a little dusty. If I mail a letter at the post office they hold it a couple of days before they send it. I also don't get my junk mail. (Not that I miss it.) We get better than excellent garbage service. What happened to the mail service?

Waterford A New Resident

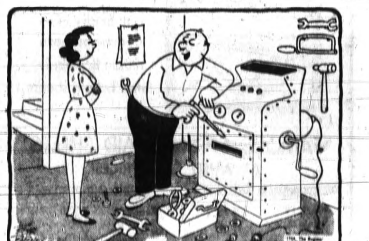

Divorcee Questions Alimony Deduction

I think alimony should be investigated as far as income tax is concerned. I pay almost \$1,000 a year and some doctor bills and have my child two weeks in the summer and every Sunday. But still I can't claim this child on my income tax as a dependent. I can't claim any doctor bills of any kind for this child because I can't have the child for a dependent.

I know of other men who pay alimony and claim all the children and what they buy them regardless of what they pay. They say they're entitled to this. Well, something should be done about this. I think it's time some investigating is done.

Income Taxpayer

The Better Half

"It's a real boon for morons — You feed in bulk newspaper and it turns out 1,000 paper dolls a minute."

Clue Received on Lost Plane

Explosion Heard by Windsor Fisherman

WINDSOR, Ont. (UPI) — A Windsor ice fisherman last night provided authorities with the first lead in their search for three men and a boy missing since Saturday over Lake Erie in a chartered light plane.

Ted Menard, 33, said he saw what looked like the missing twin-engine aero-commander pass overhead Saturday morning while he was fishing on Lake Erie about 2½ miles south of Leamington, Ont.

"It didn't sound good," Menard said. "It sounded like it was experiencing engine trouble."

A few moments after the plane flew by, he and William Gale, also of Windsor, heard what they thought was a loud explosion, Menard told Canadian Mounted Police.

DISPATCH PLANE

A spokesman for the Michigan wing of the Civil Air Patrol said an amphibian plane would be dispatched to the area today from Trenton, Mich.

Missing and presumed dead were Harry E. Black, 49, Grosse Pointe Woods, an S. S. Kresge real estate representative, his 12-year-old son, Edward; James Mixon, 40, Atlanta, Ga., the pilot; and George Drake, 70, Wilton, Conn., a wealthy property developer who chartered the plane out of Atlanta.

The group took off from Detroit City Airport at 8:20 a.m. Saturday en route to Akron, Ohio, on a business trip.

The last sound contact with the plane was made about a minute after takeoff by the airport control tower.

U.S. Eats

Less Fruit

WASHINGTON (U) — An average American eats 50 pounds less fresh fruit annually than his grandfather did half a century ago.

A Department of Agriculture survey indicates that only the citrus fruits have gained in popularity during that time.

On the other hand, there has been a boom in concentrated juice consumption.

Tax Tips

(EDITOR'S NOTE — The following income tax information is supplied by the Internal Revenue Service as a public service.)

QUESTION: I am a single person. My income from wages, on which income tax was withheld, was \$8,000.00. I also had dividends of \$200.00. Would my dividends prevent me from using form 1040-A?

ANSWER: You are not prevented from using form 1040-A. The requirements for Form 1040-A are as follows:

(a) Income must be composed of wages from which income tax was withheld and "other income" of \$200.00 or less.

(b) Total income must be less than \$10,000.00. In your case, the taxable dividend income to be entered on your return is \$180.00 since you are entitled to exclude \$50.00 from dividends received from domestic corporations. You therefore meet the above requirements because your total income is only \$8,380.00 and your "other" income is less than \$200.00.

For the answer to YOUR question call your local Internal Revenue Service Office.

Heavy Snowfall Cripples Many Sections of the Country

the city, and the Catskill Mountain area were hit hard, with snow accumulations of up to a foot. In Upstate New York the snow depths were: Albany, 6 to 8 inches; Glens Falls, 4 inches; Syracuse and Rome, 2 inches; and Rochester and Utica, one inch.

Bergen County in New Jersey had 8 to 10 inches.

PREVENTED REFUELING

The storm prevented refueling operations at McGuire Air Force Base in New Jersey canceling air lifts for 1,500 troops headed from Texas to Germany and the same number headed the other direction.

The airlifts were to demonstrate U.S. ability to rush troops to trouble spots.

Connecticut called it the winter's worst storm, with up to 11 inches of snow in some inland spots. The coastal areas had up to 6 inches.

In Rhode Island, the Providence Airport was closed, and Block Island ferry runs were canceled.

SECOND SNOW

The storm had New England digging out from new snow three days after the seven-inch fall.

Massachusetts bore the brunt of the latest storm, except for Cape Cod and the southern coast, where snow changed to rain. Maine got 2 to 4 inches along its southern and coastal area, with less accumulation to the north.

Snow and strong winds which swept through the northern and central Rockies and into the northern and central Plains caused hazardous driving conditions in many areas.

Snow flurries continued in sections of the Great Lakes region but fair and dry weather

prevailed in most areas west of the Rockies.

FREEZING NORTH

Temperatures were freezing and lower across the northern two-thirds of the nation. Readings were in the 50s in southern Florida, the Lower Rio Grande

Valley and the central and southern Pacific Coast regions.

Snowdrifts closed two major transcontinental highways in the Colorado Rockies for a period Wednesday night. U.S. 6 over Loveland Pass in central Colorado was closed by a snow

slide 12 feet deep and 75 yards long. US 50 over Monarch Pass in southern Colorado also was closed for a time because of heavy snow. Blowing snow caused much drifting and poor visibility in many parts of Wyoming.

WHITE FAIRGROUNDS — A mantle of snow covers buildings under construction at the World's Fair grounds in New York yesterday. In the foreground is the Chrysler building. Behind it is the Travel and Transportation Pavilion, and in the upper right is the corner of the General Motors building. In the background is the New York City building, and behind it is the fair's symbol, the Unisphere.

By The Associated Press

A snow storm spawned in the Gulf of Mexico slammed into the Eastern Seaboard Wednesday, with gale-force winds piling drifts up to six feet from North Carolina to Maine.

The affected areas were expected to have a breather today, with snow flurries, light rain or just cloudy weather forecast.

The storm closed many schools and slowed plane, train, auto and bus traffic. Numerous sports and social events were canceled.

Drifts were six feet deep in northern Virginia; five feet on

Maryland's secondary roads. Near Carlisle in central Pennsylvania the snow measured 25 inches, as it did in Martinsburg, W.Va.

MISSED CAPITAL

The Baltimore and Washington, D.C., areas were practically bypassed. Baltimore got only a few inches of snow and rain prevailed in the nation's capital. New York City escaped with four to six inches of snow, but gusty winds up to 32 miles per hour caused some power failures.

Westchester County, north of

Black is reported to be the most popular color with the Italians.

Proposal Filed for School Aid

Bill Rivals Measure Backed by Romney

LANSING (AP) — A plan for overhauling the state school aid formula adding \$65 million in state support for education next year has been filed for introduction in the House.

With bipartisan support, the proposal will be offered as a rival to a plan introduced earlier by Gov. George W. Romney.

The new bill would determine state aid to districts partly on the ability of a district to support itself and on demonstrated effort to support its schools through voted extra millage.

The Department of Public Instruction issued a statement saying the proposal was "backed and endorsed by every major professional and lay educational organization in the state."

CHIEF SPONSORS

Chief sponsors are Reps. Raymond Wurzel, R-North Street, chairman of the House Education Committee, and George Montgomery, D-Detroit.

Derived from a series of studies, the proposal is similar to a plan proposed previously by Charles Brake, former Wayne County superintendent of schools who served as special advisor to Romney on school aid.

Romney passed up Brake's plan, proposing a program to increase total school aid for 1964-65 by about \$40 million.

Romney's bill would enrich the state aid formula by \$10 million to help districts with low state equalized valuation.

INCREASED AID

It calls for an increase in state aid per pupil from \$224 to \$234, and boosts the deductible millage factor from 3.78 to 4.25. The new school aid bill is designed to increase the state's share of school costs, which has not kept pace with local payments.

The new bill provides that no district would receive less than it collects now in state aid.

A series of percentages would be added and applied against the state's average operating cost of \$380 per pupil, using a district with \$30,000 state equalized valuation as a starting point.

A district with \$30,000 behind each pupil would be considered wealthy. The state average is \$14,000.

As under the present formula, districts with less equalized valuation would collect more state aid, richer districts would draw less.

Hunt for Nazi War Criminals Continues

dence from behind the Iron Curtain.

The trials evoke little interest among West Germans, most of them preoccupied with one aspect or another of their country's "economic miracle."

To young people especially it all seems remote. A generation has grown up that was not even born when most of the crimes occurred.

Some authorities have arranged for high school students to attend war crime trials, but

BACKGROUND
OF THE NEWS

SPECIAL
REPORT

the practice is not widespread.

A small number of West Germans keep hard at the job of investigating war crimes.

Some feel an obligation to pursue justice for its own sake. Others were victims of the

Nazis or had personal experiences of Nazi crimes.

Still others want to defend their country's reputation. Communist propaganda often charges that West German ruling circles are dominated by

Nazis who try to shield war criminals. The West German government is eager to counter this propaganda.

FEW ACCUSE

The number of new accusations brought is small. Suspects usually are found by patient sifting of testimony in cases under investigation.

Sharp questioning in court also brings up new names. The prosecution believes that the recent suicides killed themselves rather than let this happen.

Royal Oak Man Gets
Economic Unit Post

LANSING (AP)—Gov. George W. Romney has appointed Edward Pratt of Royal Oak to the State Economic Expansion Council to succeed David Smucker of Dearborn, resigned.

Romney also has appointed Frederick G. G. Meijer of Grand Rapids to the Governor's Commission on Employment of the Handicapped to succeed Marvin Swink of Grand Rapids, resigned.

Approximately eight million families in the United States own more than one car.

Cuba Exile Says
Missiles in Caves

MIAMI, Fla. (AP)—A Cuban exile publication claims missiles are being hidden in caves drilled in the Cayajabos area of western Pinar del Rio Province.

Rafael Oller, editor of the exile magazine Dignity, said only Soviet military personnel are allowed to enter the area.

He said his information came from underground sources in Cuba.

ONLY ONE LEFT—Dr. Hans Hefelmann is one of the Germans charged with Nazi war crimes in a never-ending hunt by West German legal authorities. In the original indictment charging "mercy killing," several other persons were charged, but all the others have disappeared or died.

BONN, Germany (AP)—A commandant of a Nazi concentration camp is sentenced to life in prison.

A Cabinet minister quits because of evidence "that he sat on a Nazi 'special court.'"

A lawyer, under indictment for Nazi "mercy killings," escapes police surveillance and flees to South America.

Nearly 19 years after the collapse of Nazism, there are still West Germans doggedly trying to jail Nazi war criminals. Other West Germans are trying just as doggedly to conceal their past. A third group, which seems to include most of the population, is trying successfully to forget the whole thing.

SEVERAL AT ONCE

At any given moment there may be several war crimes trials in progress in West Germany. They often drag on for months and get little public attention.

In the next few months two highly important ones will be going on at once. This is unusual.

One of the trials is the biggest that West Germans have organized since the war: 22 men accused of taking part in the killing of millions at the Auschwitz extermination camp. The sessions began just before Christmas and may continue for a year more.

The other may last as long, although only one defendant is available. He is Dr. Hans Hefelmann, 58, the head of what the Nazis called the "mercy killing" section of Adolf Hitler's private staff.

NOT MERCY

The program he coordinated had nothing to do with mercy. It was a plan to free hospital beds, doctors and nurses for the wounded of World War II by killing off about 200,000 mental and physical defectives who may or may not have been curable.

There were to have been four defendants in this trial, and eight or 10 in another later. But of the four, two died last week: one a suicide, and the other possibly a suicide. A third fled the country last summer.

War crimes trials began at Nuernberg in 1946. The United States, the Soviet Union, Britain, and France took part in an international tribunal that tried 22 of the top remaining Nazi leaders. Eleven were sentenced to death. Hermann Goering, long Hitler's No. 2 man, cheated the executioner by taking poison two hours before he was to be hanged.

U.S., British and French military courts sentenced 5,025 people, of whom 806 were put to death. The Soviet Union and other East European countries, whose peoples the Nazis had tortured even more savagely than others, jailed or executed thousands more. The Soviet Union alone is believed to have passed about 10,000 sentences.

FIVE EXECUTED

West German officials estimate that their own authorities have tried another 5,500, but only five have been executed. West Germany abolished capital punishment in 1949.

Prosecutions were not coordinated in West Germany until 1958, when a Central War Crimes Office was set up at Ludwigsburg. It estimated that about 80,000 Germans had taken part in Nazi mass murders. By that time the big majority had either died, escaped or gone underground.

Another 1,000 or so West Germans remain to be tried, officials say, and the trials may last into 1970 or beyond. In 1970 a statute of limitations will make it impossible to prosecute a Nazi murderer unless legal action has been taken in his case before that date.

Pretrial investigations are long and difficult because of the length of time that has elapsed, the reluctance of some German witnesses to testify and the difficulty of getting reliable evidence.

Senate to Get Measure Next Week

GOP Leader Forms Own Civil Rights Bill Team

WASHINGTON (AP)—Senate Republican leader Everett M. Dirksen, Ill., is organizing his own corps of "floor captains" for the coming civil rights battle.

The omnibus civil rights bill, passed by the House Feb. 10, is expected to be taken up by the Senate some time next week.

The measure seeks to end racial discrimination in voting, education, employment, unions and in use of privately owned lodgings, eating establishments and places of amusement.

Senate Democratic leaders openly acknowledge that they will need Republican help to cut off any Southern filibuster and pass the bill.

'FULL CREDIT'
They have said they are willing to give the GOP "full credit" if the necessary votes are provided.

Dirksen has come under fire from some Negro leaders because of his opposition to the key public accommodations section of the bill, but he favors most of the measure.

He intends to name a number of his Republican colleagues to handle separate phases of what is shaping up as a long fight. It is almost certain that GOP Whip Thomas H. Kuchel, Calif., and Sen. Jacob K. Javits, R-N.Y., both long-time civil rights advocates, will be named to that group.

Senate Democratic leader Mike Mansfield, Mont., who is prepared to bypass the hostile judiciary committee, is holding up action on the civil rights bill until the Senate passes the compromise \$11.5 billion tax-cut bill early next week.

FLOOR MANAGER

Mansfield designated Senate Democratic whip Hubert H. Humphrey, Minn., as general floor manager for the civil rights bill.

Humphrey will be assisted by Sens. Warren G. Magnuson, D-Wash., who will handle the public accommodations section; Joseph S. Clark, D-Pa., fair employment practices (FEPC) section, and Philip A. Hart, D-Mich., judicial questions.

Humphrey spent much of yesterday in meetings with Democratic senators from Western and Border states, reviewing the administration's case for the rights bill.

"I'd say there was some encouragement," he said after the sessions, but he emphasized that no commitments were sought nor any given.

He said he also met with Kuchel and will confer with other Republican leaders next week to work out joint strategy for the measure.

PREPARE FILIBUSTER

The Senate's Southern bloc,

Dane Minister Greeted by Warm K in Moscow

MOSCOW (AP)—Prime Minister Jens Otto Krag of Denmark flew into Moscow Wednesday in a blinding snowstorm to a warm greeting from Premier Khrushchev.

Khrushchev told Krag, "Your visit will be an important contribution to strengthening relations between our countries and to the cause of peace in northern Europe."

which is preparing to filibuster against the legislation, is under the over-all command of Sen. Richard B. Russell, D-Ga. The Southern forces usually organize

their members into teams so they always will have three or four of their men on the floor.

After a conference of Southern senators yesterday, Russell told newsmen his forces would fight the bill with "all the vigor at our commands."

The Southerners served notice that they would fight Mansfield's plan to bypass the judiciary committee, which is headed by Sen. James O. Eastland, D-Miss., an implacable civil rights opponent.

Russell said his group agreed to oppose the move. He said he did not want to see the Senate "stomped" on any legislation by such tactics.

Mackie to Stump From Own Building

FLINT (AP)—State Highway Commissioner John C. Mackie will both live in and conduct his campaign for Congress from a downtown Flint apartment building which he bought Wednesday.

deal" on the five-apartment building but declined to tell newsmen what it cost.

Mackie has announced as a candidate for the Democratic nomination in the state's new Seventh District. It includes Genesee, Shiawassee and Lapeer counties.

Cancer is claiming more victims each year in all parts of the world.

IF EVERY ONE OF THESE MEN WORE A DIFFERENT SIZE SUIT WE COULD FIT THEM ALL, RIGHT FROM STOCK, ANY DAY AT HHS

Each of the eighty-three men you see in the picture represents a different size—sizes we carry in our suit departments day in and day out. Why so many? Because every size and proportion is cut and balanced differently. It doesn't do to simply buy something that vaguely fits, and then have it altered all over the place. That's why we select suits from the world's very best tailors, buy them in every possible proportion, and then tailor them precisely to you, in our own fine workshops. It's sort of a triple guarantee that every suit you buy at HHS will fit as if it were tailor-made exactly for you. Now multiply the number of sizes by the number of fabrics and patterns and styles we carry, and you'll see why it's so easy to find precisely what you're looking for, right in stock, at any HHS store. The next time you're buying a suit, come in and size us up. P.S., we have a complete selection of sizes in topcoats, too!

Congress Not Likely to Take Action on Districting This Year

WASHINGTON (AP) — Outside of some complaining and possibly a conference hearing for the official record, Congress isn't likely to do anything this year about the Supreme Court ruling that congressional districts should be more uniform in population.

"For one thing," a highly placed House Democrat said privately, "we just don't have time this year to deal with such a complicated subject. For another thing, most of us think it's none of our business how the states map but their districts."

Chairman Emanuel Celler, D-N.Y., of the House Judiciary Committee long has advocated that Congress take the lead in trying to get more uniformity in congressional districting. He introduced a bill to do that more than a year ago but has been unable to obtain action in his own committee.

He said he would try again this year but wasn't optimistic about success.

ANOTHER PROPOSAL

Another proposal not expected to gain acceptance came from Texas congressmen. They are seeking legislation that supports the Supreme Court decision but preserves present districts until state legislatures can act in their regular sessions. Such a bill would prevent the 23 Texas congressmen from having to run at large this November.

A three-judge federal court at Houston has ruled the present Texas districts unconstitutional, but the decision has been stayed pending an appeal.

The nub of Monday's Supreme Court ruling in a Georgia case was that congressional districts should be more equal in population than they now are. Currently, they range from more than 950,000 to less than 200,000. Based on the 1960 census, the average would be about 408,000.

Celler's bill would require that the variation in population of districts in any state shall not exceed 15 per cent.

The Celler proposal would not become effective until after the

next national census in 1970. Senators, who run from entire states instead of districts, generally look at redistricting proposals as something that should be initiated by the House if they are to be handled by Congress at all.

Harford Courant filed a suit in U.S. District Court that would force Connecticut's six congressmen to run at large this November unless the state man, a political writer for the paper, is redistricted. The suit was filed in the name of Jack Zal-

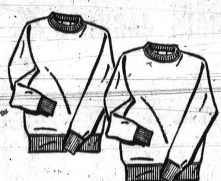

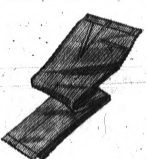

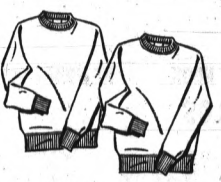

Connecticut districts range in population from 689,555 to 317,953.

JACKIE KORONA

Groups Picket MSU Paper

Integrationists Object
to Wallace Editorial

EAST LANSING (AP) — Members of the National Association for the Advancement of Colored People NAACP and the Student Non-Violent Coordinating Committee (SNCC) Wednesday picketed the State News - a student newspaper at Michigan State University - and a girl reporter.

The two groups objected to a personality sketch and editorial on Alabama Gov. George Wallace by Jackie Korona, a senior from Framingham, Mass., and a State News reporter.

The story on Wallace "tried to portray him as a person - rather than the monster he's always presented as," Miss Korona said.

EXPLAIN FURTHER
The State News ran an editorial trying to explain further that Miss Korona felt Wallace, an ardent segregationist, held many of his beliefs as a result of environment.

"It was not in any way a condoning of his actions or his beliefs - or support from the newspaper or me," she said. "It explained that in the circumstances in which I interviewed him, he was a gentleman," the coed added.

She spotted Wallace in a Chicago hotel last weekend while she was attending a convention there, sought an interview and got it. Wallace was in Chicago to speak at Loyola University - a talk that was later canceled by the university administration.

About 30 pickets marched in front of the State News offices, protesting what they called State News support of Wallace. They carried signs which read: "Hitler was a gentleman too," "The State News must go," "Gov. Wallace must go," "Jackie must go."

State Okays Shutdown of Beeliner Run

LANSING (AP) — Abandonment of the New York Central Railroad Beeliner service between Detroit and Bay City and return was authorized Wednesday by the State Public Service Commission.

The service is the last passenger train being operated on the line by the railroad.

The railroad had claimed it was "forsaken" by the public, averaged only 10 passengers a day and was losing \$45,000 a year on the service. The railroad also said there were parallel highways and adequate bus and plane service.

Members of the railroad brotherhoods and delegations from Saginaw, Bay City and Lapeer had protested the abandonment.

The abandonment is scheduled to become effective March 19.

Fantasy Land Awaits Small Hospital Patients

Capvorting across the windows of the waiting room for pediatrics of Pontiac General Hospital are two characters. Calculated to dispel the gloom surrounding any hospitalized child, they are Mickey Mouse and a frisky turtle.

This perky penguin with his sporty vest and hat leads the way to the third floor play room. All paintings were done by Marilyn Eby, a licensed, practical nurse at the hospital.

Standing guard over the cribs of small babies is this teddy bear. Though the babies are too young to appreciate their protector, the older children love this reminder of security.

Demonstration Group Elects New Officers

Officers were elected to the demonstration group at a meeting of the Parliamentary Study Club, Wednesday in the Masonic Temple on East Lawrence Street.

They are: Mrs. John W. Walrath, president; Mrs. John Sheehan, vice president; Mrs. Forbes S. Hascall, recording secretary; Mrs. Irvin Weiss, corresponding secretary; Mrs. M. E. Baldwin, treasurer and Mrs. Harold Schingek, auditor.

Mrs. H. N. Watson, leader of the day, explained the lesson for the day which included the previous question, to lay on table, to adjourn, to take from the table, and to fix time or place to adjourn.

Mrs. Fred Goines was sponsor of the demonstration group and Mrs. Joseph Penner conducted the question and answer period. Mrs. Maude Tanner of Detroit signed the guest book handed by Mrs. Russell French.

Tell Friends to Leave at Set Curfew

By The Emily Post Institute

Q: My mother allows me to have some of my friends come in on a Friday night (boys and girls both) to dance to our hi-fi. She insists, however, that they leave by 11:00.

It is all well and good for her to say this but how can I get them to leave at this hour? I don't think it would be proper to tell them to leave.

Have you any suggestions as to how I might handle this situation tactfully?

A: Tell your friends when you invite them of your mother's curfew rule.

Then, if they don't leave at 11, you can quite properly say, "I'm sorry, but it's curfew hour and, if you don't leave, mother will never let me have you in again."

Q: I have been asked to be a bridesmaid at a friend's wedding. There will be three other bridesmaids and a maid of honor. The bride's aunt, who is an excellent seamstress, is going to make our dresses.

The bride has selected the pattern and also the material for the dresses. Who is supposed to pay for the material—the bride or the attendants?

A: The attendants should pay for the material just as they would ordinarily pay the whole cost of the dresses if they were bought in a store.

Q: When talking to a man in his office and there is a brief interruption by the entrance of his secretary or any other woman in the company, is a visiting man supposed to stand?

A: If he is introduced to her, yes. If she merely hands her employer some papers or speaks briefly to him, he is not expected to get up.

The clothes of the bride and groom's parents as well as those of the wedding attendants are described in the Emily Post Institute booklet entitled, "Correct Clothes for a Wedding Reception."

Village Woman's Club Slates Antique Series

Gerald Gibson, curator of decorative art at the Henry Ford Museum, returns to the Village Woman's Club in Bloomfield Hills March 2 at 1:30 p.m. to open the spring series of lectures on antiques.

In response to a request from last year's class he will show especially prepared slides of colonial wallpaper, fabrics and ornaments.

The series continues March 17 at 1:30 p.m. with a tour of the collection of Tudor furniture at the Detroit Institute of Art.

FROM ENGLAND

This show has been brought from England, especially for the Shakespearean festivals and will be shown in Detroit, New York and Charlottesville, Virginia. The group will be limited to 45.

On March 30 at 1:30 p.m. Francis Robinson, curator of medieval art at the Detroit Institute of Art, will speak on "Early French Canadian and Detroit Silver."

Silver was only made in Detroit for six years. As a consequence it brings a high price and is considered a collector's item.

"European and American Glass" will be the subject on April 20 at 1:30 p.m. when Paul Perrot, director of the Corning Museum, Corning, N.Y., will close the series.

OPEN TO PUBLIC

These lectures on antiques are open to the public and

WOMEN'S SECTION

By JEANMARIE ELKINS

What price can be put on the smile of a sick child? How much should be paid to eliminate his fears of a proposed hospital stay? What is it worth to brighten his long days?

There is no price too great to pay.

For the child who enters Pontiac General Hospital there awaits not fear, but a fantasy land of storybook characters, nearly life size.

Tweety Bird, Mickey Mouse, Speedy Gonzales, a circus elephant, a fussy old hen, a turtle, penguin, teddy bear and other animal characters are painted on windows of the pediatric ward.

Gracing the walls of the third floor playroom are a Chinaman, a dog with his bone and a mouse with his cheese.

Carefully stored away are many other characters for every holiday from Christmas and Easter to Lincoln's birthday, all on butcher paper just waiting to be hung on the walls.

All are the handiwork of one of the hospital's licensed practical nurses, Marilyn Eby of Oriole Road.

Some five years ago Marilyn began drawing the characters for a neighbor who was teaching in Rochester.

Things began at Pontiac General Hospital with Christmas decorations one year. They have now expanded to playroom decorations for every holiday and fantasy land paintings on the windows.

Originally done in poster paint which washed off each time a window was cleaned, the pictures are now put on with enamel paint which withstands the weekly washings.

Each character may take as long as three hours to complete and all are done in Marilyn's free time.

It took much coaxing before the shy artist, Marilyn Eby reluctantly submitted to being photographed. Here she works on another of her fantasy land creations.

Pigeons Are Nuisances as Well as Health Hazards

By ABIGAIL VAN BUREN

DEAR ABBY: I am on the verge of losing my senses. A neighbor of ours has become a pigeon fancier and he is literally driving me insane.

Those birds are so dirty I can't even hang my laundry outside. And I am forever hosing down my sidewalk.

Parking my car in my own driveway is out of the question. There must be 50 or 60 pigeons, and this man and his wife feed them popcorn and bread all day long.

I just can't take it any more. I have heard that pigeons carry disease. Is this true? Is there anything I can do?

I hate to be a poor neighbor, but this is too much.

PIGEON HATER

DEAR HATER: It has been established that a harmful fungus (Cryptococcus neoformans) is found in pigeon droppings.

Health officials everywhere are waging a war to rid cities of pigeons for this reason.

There should be a special breeding ground where pigeons are kept under control. Call your local Health Department.

DEAR ABBY: Would you get mad if someone asked you if you were wearing something false?

CURIOUS

DEAR CURIOUS: Only if I were.

DEAR ABBY: My brother

Keith Allen Arrives

Mr. and Mrs. Herbert F. Bauer Jr., (nee Judy Bassett) of Irvington, California announce the birth of a son, Keith Allen, February 12. Grandparents are Mr. and Mrs. Russell Bassett of E. Iroquois Road.

the window of a room of a child who had been severely burned and was becoming fussy.

Speedy Gonzales evolved from a little boy who could not walk and received his nickname from the nurses.

TIME LIMITS ARTIST

Of course, there are not enough windows or enough time to paint a picture for all the little patients.

But children and visitors can see the frisky turtle doing a Charleston on the waiting room window.

All can enjoy the huge teddy bear who stands guard above the beds of small babies, not even half his size.

And what of the nurse who spends her free time at the hospital making children happy?

In her own words, "I did it because I wanted to. I did it for the kids."

Adding to the gay atmosphere of the children's ward is this circus elephant, put on in enamel paint, to survive the weekly window washing.

This fussy old hen suddenly appeared on the window one morning. A little girl who had been severely burned was told kiddingly that she was complaining so much she would one day turn into a fussy old hen.

MAD AS HOPS

DEAR MAD: Before anyone performs a service the it for a customer, relative or his best friend, there should be an agreement on price.

Your brother is cheap—but your husband should have learned a cheap lesson.

Get it off your chest. For a personal, unpublished reply, write to ABBY, in care of The Pontiac Press. Enclose a stamped, self-addressed envelope.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, in care of The Pontiac Press.

Alums Review, Plan for Future

A review of the past and plans for the future highlighted the Tuesday evening meeting of the alumnae of St. Joseph's Mercy Hospital School of Nursing.

A report on the recent scholarship dance was given and the group chose Mrs. Erwin P. Nichols as chairman for the nominating committee for new officers.

Mrs. Barney Reardon and Mrs. Edward Omans were selected as chairman and co-chairman for the annual "Reunion May Breakfast."

Speedy Gonzales, the Mexican mouse, was painted on the room window of a patient who was unable to walk. Miss Eby copied this pose from a cereal box.

Pair Has No Money Quarrels in 3 Years

By MARY FEELEY
Consultant
in Money Management

Dear Miss Feeley: My husband and I have NEVER had an argument over money in the three years we have been married. I don't be-

lieve money is anything to fight over. My husband's take home pay is \$60.81 per week. We both go to the grocery store and cash the check. Then we come home, make a cup of coffee, and fix the budget.

We use an envelope filing system, such as you have recommended in your column. I have written the names of all expenses on each envelope—Rent (\$11), Grocery (\$25), Electricity (\$1), etc. My husband gets the remaining amount—except the pennies and I get them. My husband takes lunch and walks to work. Insurance is deducted from his pay.

Most important of all, once you put the money in the envelopes, FORGET IT! Until the bills come in. Then take the money out of the envelopes, drive to town and pay the bills.

When you get home put the re-

ceipts in the envelopes—and have peace of mind. This is an ironclad system—anyone who follows it cannot go wrong.

Thanks a million for your help and interest.

Mrs. N. C. P., Grand Prairie, Texas

Dear Mrs. P.: You're a living testimonial to the fact that all a sound budget needs in order to work is somebody to follow it! ANOTHER INSURER

I'm glad you found the envelope system a keeper of the peace. Another insurer of the peace is a savings account. I didn't see any savings mentioned in your letter. You'll have a hard time fooling up a savings account! Nothing could be simpler to use.

As your husband's income increases, you may want to give the checking account a try. Sure, you pay for the security of keeping cash where it's safe from fire, theft and loss.

But like any other service charge, it has proven well worth the small price. Convenience is another advantage of a checking account.

You may need money when your envelopes are out of reach.

These aren't criticisms, understand, just suggestions. I'm proud of you. Maybe your letter will inspire other couples

to bury the hatchet and set up a budget.

Dear Miss Feeley: We've just bought our first new car, a four-door sedan. We hear different opinions from friends as to how long a car can be expected to last, under normal driving conditions.

Is there any way of figuring how long before we'll have to buy another? We aren't the type to want to trade in for every new model with a new gimmick. T. V., Riverside, Calif.

Dear T. V.: The Automobile Manufacturers Association offers these estimates of life expectancy:

New car—6.2 years
Used car—4.1 years
American make—4.3 years
Foreign make (new car)—3.3 years

ONE OWNER

This table assumes the car is used by one owner the entire time. Of course, how, where, and how much you drive, and how well you care for a car inside, and out, are going to play a big part in its survival.

Dear Miss Feeley: I think it's time for you to write something about Social Security checks buying less and less. Social Security people prefer something to live on; not to get sick or die on! G. W. B., Oak Park, Ill.

Dear G. W. B.: I think it's time to write something about people managing their financial affairs so that they don't have to depend entirely on Social Security. S. S. is designed only to help, not support.

Mr. and Mrs. Raymond L. Zabaglio of Granada Drive have announced the engagement of their daughter Dianna Irene to Airman 2.C. Michael Robert Klingler, son of the Robert Klinglers of Linda Vista Drive. Her fiancée is stationed at Wichita Falls AFB, Tex.

Beatles' Wigs Add Laughter to Lace

The "beatle" bug has certainly hit New York. Liverpool's famous "longhairs," who play anything but long-haired music, have the teenagers in a swoon not equalled since the days of the bobbysockers and Sinatra.

Last week the Beatles were scheduled to play a concert at Carnegie Hall, and teenagers began gathering at eight o'clock in the morning to queue up.

It's affected more than the teen-agers. The whole beetle bug has gotten into the humor system of New Yorkers, many of the most unexpected break out in a ridiculous beetle wig and start combing bangs down over the forehead.

1912 LOOK

Yesterday at the Junior Sophisticates showing, the collection wound up with the most yummy group of lace and cottons inspired by "the

My Fair Lady look" circa 1912. Anne Klein had done considerable research on the authenticity of the look and showed a floor-length gown of the period and a four-year-old with white stockings, blue-sashed white hipline dress (of the same era).

The collection was conception all the way through, with many of the models appearing with parasols. Until the last one!

SHE came out in a white cotton and lace frilled dress, a lacy parasol—and a beetle wig. It broke up everyone, including Anne and Ben Klein, who hadn't been in on the secret.

At the Gothe opening, Larry Farragut came out with a "ya ya" and a beetle wig plus a surf-like shimmy to do the commentary and start the show. "Everything's new at Gothe" he says, which is true, even the designer, Gina.

Don't Let Wet Rain Ruin Wear

After being in the rain, when you hang up a raincoat to dry, stuff the pockets with tissue paper to help dry the inside corners faster. Use shoe trees to prevent creases from becoming cracks, as well as to maintain the overall shape

of the shoe. Never apply polish to wet shoes. Use a dry cloth to remove dust and a bristle brush to remove mud or dirt.

Thickness of Eggs

Whole eggs act as a binder in croquettes and meat loaves. They also thicken liquids as in pie fillings, custards, gravies, soups and sauces.

Careless Arrangement Ruins Effect

Choose Pictures to Match Home

The pictures you hang are an important part of the personality of your home. But, according to noted designer Sarah Pagoria, a careless ar-

rangement can destroy their decorative effect.

Any collection of pictures you've assembled yourself will have an underlying unity simply because they reflect your own taste. Thoughtful arrangement will integrate them with the rest of your decor and beauty to your home.

Most important of all, says Sarah Pagoria, is really seeing when you look—developing an alertness to scale, balance, form and color. Here are some of the designer's suggestions to help you create effective wall arrangements in your home:

- Consider the size of the room and its furnishings and keep the wall arrangements in scale. For instance, a small picture hung over a king-sized couch would look "lost," especially in a large room.

- Balance the parts of the wall arrangement in relation both to each other and to the entire room so you get a sense of restfulness rather than discomfort.

- Relate the pictures to the furniture for a unified look, rather than isolating them from each other. This way you'll avoid clutter and create centers of interest in the room.

- When arranging groups of pictures, make them work as a single picture. Make the outside edges match to form a large rectangle for a unified look.

- Make groups of pictures more interesting by using variety in size, shape, and color within the unified group. Add three-dimensional objects, such as sculpture, to the picture grouping for an added visual effect.

- To hang each component of the wall arrangement, choose hooks that are sturdy enough to support the weight. New plastic ones are available from Selfix in both 15- and 35-pound sizes to suit your needs.

- Equipped with nickel-plated nails, they won't mar the wall or rust. And, if you're including decorative objects that let the hooks show, these are especially good since they are crystal clear so you see the wall and not the hook. To keep each picture straight, hang the wire on two hooks instead of one and it won't slide.

- Generally, hang pictures or wall groupings so their center is at eye level. Whose eye level? Use the architectural average height—five feet, four inches.

Let's Knit

Coat Combines Yarns

Knitting is not such a mystery as most people tend to believe. Even a beginner can knit the beautiful coat modeled by Pamela Britton of CBS Television.

The back falls into soft swinging folds while the front

has a rather straight line to balance the interesting low neckline.

The garment is knitted in a stockinette stitch which is "Knit 1 row, Purl 1 row"; only the raglan sleeves and low crew neck are knitted in a seed stitch which gives this garment a stunning look.

To get the tweed effect, a Mohair and a sock and fingering yarn were used.

You can buy a tweed yarn, or try mixing your own combination, or knit the coat in a solid color—either way you will get a garment that will be admired.

Instructions are written in sizes 10 through 20. All sizes are included in one pattern.

Mohair Tweed Coat No. 38 may be obtained by sending \$1.00 in currency, check or money order to: Ursula du Bois, The Pontiac Press Pattern Dept., Box 3307, Van Nuys, Calif. 91407.

Improve With Use

Daily use is actually good for fine linen and silver. The more table damask is laundered, the prettier it gets. And silver in constant use needs only hot soap or detergent suds to keep it shining.

They Don't Work

Beware Trial Marriages

By DR. GEORGE W. CRANE
CASE R-482: Diane D., 16, is the worried high schooler whose steady boyfriend wanted her to indulge in trial marriage.

"Dr. Crane," she moaned, "it will mean he will jilt me if I don't give in to him."

"And that would hurt my pride terribly, for we've gone steady for six months."

"In fact, he says we are just about the same as married already, so why shouldn't we go all the way?"

SOCIAL PRESSURE
Don't let emotions stampede your brain.

Social pressures, such as being jilted, should NEVER alter the plain medical and psychological facts — all of which veto premarital sexual relations!

Diane's temporary hurt pride, if she were jilted, would be mild.

compared to what would happen if she got syphilis or dropped out of school prematurely because of pregnancy.

And then the debate as to what to do with her baby would cause untold damage to her morale all her life.

BATTING AVERAGE
So play the batting averages. It's far better to take a little pain temporarily than a big pain forever!

Besides, these teen-age romances often blow over and in a remarkably short time.

Your high school romances wither so fast that when you come home from college at the Christmas holidays, you may wonder what you ever saw in your former sweetheart that made you so infatuated!

If you disbelieve me, ask your older friends who are now at college!

NOT AUTOMATIC

Beware, too, for you can become infatuated several times before you marry, so don't think that the first case of butterflies in your tummy automatically means you have met the "one and only" man of your dreams. That's malarky!

So pick wisely by using your brain more than your heart.

For your heart is often fickle. It can change within a few months, but logical facts remain forever!

Indeed, you can even learn to love a stranger — all within a few months — just by going through the proper motions.

So be hard-boiled. Think of your parents and also of your future unborn children, for you are just the middle link in a three-link chain.

VOTE WISELY
Your future children cannot vote right now, so you hold their "proxy" ballots. Be sure you vote them wisely.

Cute sideburns or the dancing skill of your present boyfriend will not thrill those future children!

Nor will his dad's swanky car! Or even his football letter!

Diane finally agreed to make a clean break with her boyfriend, due to his unwise demands for premarital sex liberties.

With tears in her eyes, she

severed their friendship. He dated another girl a few times and did his sexual experimenting with her.

Then he jilted that easy mark and came back, apologetically, to beg Diane to take him back — and on her own terms, too!

For men don't admire girls who are easy marks. They may use them for temporary sexual experimentation — but not for keeps!

Remember, any girl who must offer sexual liberties to win or hold a boyfriend must thus be lacking in personal charm!

Write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long, 5 cent stamp, self-addressed envelope, and 20 cents to cover typing and printing costs when you write for one of his booklets.

(Copyright, 1964)

Dunk-able Shoes

"Patina," a gleaming material used for high-fashion shoes, has proved to be highly resistant to cracking, chipping, and peeling. Equally important is that it can be wiped clean with soap or detergent suds.

The engagement of Ethel Eleanor Kline to Charles Allen Wright is announced by her parents Mr. and Mrs. Lorenzo V. Kline of Elizabeth Lake Road. He is the son of the Kenneth O. Wrights of Cass-Elizabeth Road.

"Appointments not always necessary"

Have You Tried This?

Always a Favorite Dish

BY JANET ODELL
Pontiac Press Food Editor
After hearing the high praises heaped on Mrs. Ma Thomas' Macaroni and Cheese, we had to get her recipe. The eggs she puts into it must make the difference.

Mrs. Thomas uses her culinary talents at the Pontiac-YWCA.

MACARONI, CHEESE
By Mrs. Ma Thomas
3 eggs
2 cups milk
1 1/2 cups uncooked macaroni
2 tablespoons butter or margarine

8 ounces mild cheese
Dash of salt

Cook macaroni in boiling salted water until just tender. Beat eggs, stir in milk and mix well.

In a greased casserole place a layer of cooked macaroni; then one of cheese. Repeat until casserole is full. Pour egg mixture over cheese and dot top with butter or margarine.

Bake about 35 minutes in 350-degree oven. Cover casserole if you do not wish cheese to brown. Serves 4-6.

Better Leather Survives Suds

The popular glace-finish kid skin, a fashion rival of soft suede, tailors well and is washable.

"All you have to do is sponge it with soap and water," says Stanley Shier, an expert who represents a leather couture designer.

Wash Wardrobe

With so much fabric variety to choose from — cottons, silks, synthetics, linens, laces — there is no reason for any woman to travel with anything but an all-washable wardrobe!

Thirty to 40 gallons of sap must be boiled down to produce one gallon of maple syrup.

Delta Zeta Alumnae Will Host Benefit

Delta Zeta Alumnae of Oakland County will host a theater benefit on Feb. 28 in the Birmingham Village Players Theatre.

President Mrs. Herbert W. Schnetzky of Bloomfield Hills will be among those entertaining guests at dinner before the 9 p.m. show.

Following the performance of "Take Her, She's Mine" there will be a party for members and their guests.

CHAIRMAN
The general chairman of the benefit is Mrs. Laurence E. Trevarrow Jr. of Huntington Woods. Others on the commit-

tee are Mrs. Gordon G. Knapp, Mrs. Carlyle W. Rees, and Mrs. Carl J. Koelsch of Royal Oak and Mrs. Everett Bolen of Farmington.

This year, as in the past, a large portion of the benefit proceeds will be presented to Mrs. Evelyn Gottschalk, of the Pontiac School system; for the deaf and hard-of-hearing children in Oakland County.

Mrs. Gottschalk has established a lending fund with this money to purchase new equipment and maintain instruments for children whose parents are unable to meet such expenses.

The remaining portion of the proceeds will be distributed to the American Hearing Society; Gallaudet College, only United States college for the hard-of-hearing; and to the Public Health Service Hospital, Carville, La.

Those interested in tickets or information should contact Mrs. Trevarrow.

Celery Curis Cues

To make curly curls, use the inner stalks of celery, cutting each one three or four inches long. Cut each piece into thin strips, stopping one inch from the end. Chill in ice water to curl.

BURTON'S

feminine fashions for the young in heart

75 North Saginaw

for freshness and flavor that's way out front serve our **COTTAGE CHEESE**

COTTAGE CHEESE WITH SCALLOPED EGGS

8 eggs, hard cooked
1 1/2 cup cottage cheese
Sweet red and green peppers
Paprika or cayenne
1 tspn. butter
1 tspn. flour
1 cup milk
1/2 tspn. salt

Quarter the eggs and arrange a layer in a buttered baking dish. Add a layer of the green and red peppers cut in thin strips or chopped, then another layer of eggs. Make a white sauce of the butter, flour, salt and milk in double boiler. Cream cottage cheese until smooth and fold into the white sauce. Pour over the eggs, sprinkle with buttered bread crumbs and paprika. Brown in hot oven.

VIENNA TARTS

1 1/2 cups cottage cheese
1 1/2 cups butter
1 cup flour
Salt or preserves
Beat butter and blend with cottage cheese. Stir in flour to make a smooth dough. Cut into small pieces and chill until quite firm. Roll and trim each piece into a square. Place a teaspoon of jelly or preserves in center of each, pick up the corners and pinch together, or fold into turnovers and seal the edges by dabbing with time of fork. Bake in hot oven at 450° until brown, 12 or 15 minutes.

COTTAGE CHEESE DUMPLINGS

2 cups Cottage Cheese
1/2 cup flour
4 eggs, beaten
2 tablespoons butter
1/2 cup bread crumbs

Beat the cheese until smooth or press through a fine sieve. Add the other ingredients, mixing well, then form into balls. Drop into a kettle of salted boiling water and cook for 20 minutes. Remove and drain, then roll in browned buttered crumbs.

Waterford Awaits High Scoring PNH Quint Friday Night

Skippers May Recall Last Cage Beating

Huskies Can Clinch

I-L Title With Win on M59 Court

There's an air of determination pervading the Waterford High basketball practice sessions as the Skippers prepare for two of their biggest challenges this season.

The M59 school will meet Pontiac Northern tomorrow night and then run into arch rival (and presently unbeaten) Waterford Kettering Tuesday as the regular season rapidly draws to a close.

To the Skippers the games have little obvious importance. They are burdened with a 2-0 record and have little hope for escaping the Inter-Lakes League basement.

But strong performances against two teams that scored convincing victories (and set school scoring records) over the WTHS quintet earlier would brighten a long season for new coach Bob Taylor.

They would also make his current restriction to crutches (with a minor foot ailment) a lot brighter.

SNAP STREAK

Waterford snapped an eight-game losing streak with a pair of wins before putting up a pair showing at Berkley in its last outing.

Thus the PNH and Kettering games are important ones in emphasizing the late season improvement by the Skippers.

No major changes have been revealed by Taylor to combat the fast-breaking Huskies who scored 104 points to Waterford's 49 in the first meeting.

Coach Dick Hall at Northern, meanwhile, expects to have the Huskies working on a man-to-man defense as they seek their fifth Inter-Lakes tie in six years.

The Huskies, almost strictly a zone and zone press team all season, need only one win to wrap up the league case conferences.

Hall indicated he is not worried about the PNH squad being over-confident at Waterford since the I-L championship awaits a Northern victory.

The Huskies' mentor also factors into PNH teams usually play well there.

RO Kimball, HP in Favorite's Role

Hazel Park and Royal Oak Kimball will share the favorite's role when the Eastern Michigan League wrestling tournament gets underway tomorrow at Hazel Park.

The Kimball mat squad has rolled up a 9-3 record in dual competition, and HP owns a 12-1 record.

Other squads in the meet will be East Detroit, Port Huron and Roseville.

Preliminaries are slated to start at 3 p.m. Finals are set for 7 p.m.

Stanley Cup Playoffs will begin March 26th according to NHL president Clarence Campbell. The top two teams will be the home teams for the opening games.

U. of D. and Marquette, two old basketball rivals, meet tonight at the Titan field house in a rare mid-week encounter.

The Pontiac Central - Flint Southwestern swimming meet Friday has been moved to Pontiac Northern pool.

In junior college basketball ratings this week, Flint JC with a 16-3 record is in 12th place. Coffeyville, Kans., is in first place with a 21-1 record.

AP Photo/Ex

GETS NEWS — Manager Fred Hutchinson of the Cincinnati Redlegs gets some happy news as he examines the X-ray machine with Dr. Lawrence Pipe. Physicians said Hutchinson's "lungs are clean" and the tumor in his upper chest has been greatly reduced. He has been under treatment in Seattle and hopes to join the team in Tampa next week.

Flu-Riddled Central Readies for Flint SW

Pontiac Central coach Fred Zittel isn't one to complain, but you couldn't blame him if he did. He has a couple of good reasons.

The flu bug invaded the Chiefs' starting quintet this week, leaving Zittel with only two days in which to patch up a unit to meet strong Flint Southwestern on the latter's floor tomorrow night.

And the second reason, one which might make Zittel utter a few moans, will be the return of Ray Parks to the Southwestern lineup.

The flashy Colt guard will be back in action after missing two Saginaw Valley Conference games with a badly sprained ankle.

Parks left the lineup with an average of 21.5 points a game in 11 outings in which the Colts compiled a 6-5 record, and during his absence, the squad slumped to a 6-7 mark.

SAME UNIT

With Parks in uniform, the Colts will have the same unit that squeaked by the Chiefs on the Central court Jan. 17, 70-68. Zittel's lineup for the SVC scrap will probably remain a question mark until game time.

Three of the Chiefs' starting five — guard Al Keel, center Jim Johnson and forward Mel DeWalt — have been hit hard by the flu bug and two will be doubtful starters at tipoff tomorrow.

Keel was moving at a sub-par pace in practice yesterday, and Johnson, the club's top re-

Says Russia Is Endangering World Games

PITTSBURGH (AP) — Ken Treadway, chairman of the United States Women's Olympic Swimming Committee, declared Wednesday that Russia is endangering the future of the Olympics by injecting international politics into the games.

Treadway, of Bartlesville, Okla., said at a luncheon in his honor that "the Russians, through international politics, are doing all they can to dominate the games."

He said they tried to keep basketball out of the Olympics.

By controlling the votes of their satellite countries, Treadway said Russia maneuvered the 1968 Olympics away from Detroit to Mexico City.

Meets Bulldogs at Romeo

Kettering Bidding for League Title

It's not easy to go rung by rung when the top of the ladder is so near, but coach Joe Doby must keep the Waterford Kettering Captains playing them one at a time.

His task may be a little easier Friday since the unbeaten Captains know a victory at Romeo will mean an undisputed Tri-County League title in basketball.

Second place Lapeer will be host to Oxford in the other league game, the Wildcats having just snapped a seven-game losing streak with the return of freshman Roger Miller to the lineup.

However, Lapeer cannot prevent the Kettering championship celebration should the latter defeat Romeo, a team which the Captains whipped, 84-43, in setting a school scoring mark earlier this season.

The fact it had such an easy win and the Bulldogs' 7-7 season mark may make the Kettering quintet over-confident.

Throw in the pressure of an approaching undefeated regular season and the memory of a none-too-impressive Tuesday showing against North Farmington, and Doby's job of preparing the Captains is not the easiest.

He probably will point to the Tuesday night Anchor Bay upset of previously unbeaten New Haven as a precaution against over-confidence.

EVENED RACE

The 7-7 Tartans' startling Southern Triumph victory left the league with a championship

Perfect Game at PBA Meet

St. John Hits 300; Moore in Running

NEW ORLEANS (AP) — Opening with a perfect 300 game Jim St. John of San Jose, Calif., took the early lead in the \$27,600 Greater New Orleans Bowling Tournament Wednesday.

St. John turned in 1,394 pins for the first round. Ralph Brunt of Atlanta was No. 2 man with 1,377 and Andy Marzich of Goodyear Beach, Calif., was third at 1,368.

Pontiac's Monroe Moore started strong to stand in a 14th place tie after six games with 1279; but his second block was 1204 and he was 27th after 12 games.

He had a 258 opening game and followed, with 205-185-219-198-214 in the first block. Last night Moore added games of 225-212-205-174-204-183.

shutdown Friday. New Haven will visit Capac with a title tie at stake.

Both have 11-1 league marks with two games to play. Should Capac average its early three-point loss on the Rockets' floor, it still must get by Anchor Bay's spoilers the following week.

Whichever does win, however, will be assured of at least a tie for the championship.

The top two scorers in the area point producing race will also meet in the Capac-New Haven clash. Dwight Lee has a 25.4 average for the Rockets while

Capac's Ken Adamski is hitting at a 22.6 clip after a slow start.

Other Southern Thumb titles will be broken at third place Memphis, Brown City visiting Almont, and Armada will entertain Anchor Bay.

Dryden snapped a four-game

losing string by whipping Almont Tuesday. The Cardinals tied for sixth place in the league when Armada surprised Brown City.

All three are 3-0, two games behind fifth place Almont. Anchor Bay's victory gave it a three-game success streak.

Maple Leafs Tie Detroit

AP Photo/Ex

ONE WAY TO BEAT GOALIE?—Toronto Maple Leafs' Jim Pappin (18) appears intent on beating Red Wings' goalie Terry Sawchuk with his hockey stick after failing to get puck past him in game last night. Actually, the

Leafs' player is attempting to hit flying puck. Partially obscured player to Sawchuk's right is teammate Doug Barkley who is crossing over from defensive position to aid Detroit goalie. The two teams tied, 1-1, last night.

Chicago Blasts Rangers, 7-2

Wings Gain Ground in NHL Playoff Bid

TORONTO, Ont. (AP)—Detroit goalie Terry Sawchuk stopped 14 Toronto shots in the final period of a National Hockey League game Wednesday night to hang on to a 1-1 tie.

Sawchuk halted 37 shots by the Maple Leafs in the game. The tie boosted Detroit's playoff lead over New York to eight points.

The Chicago Black Hawks bombed the fifth-place Rangers 7-2 to take a two-point lead over idle Montreal in the NHL championship race. It was the only other NHL game Wednesday night.

The Leafs scored in the second period after Detroit took a 1-0 first period lead on Alex Delvecchio's goal. The tie kept the third-place Leafs four points ahead of the fourth-place Red Wings. Ron Stewart beat Sawchuk at 9:07 of the second period to force the tie. John Bower made 28 saves in the Toronto net.

Stan Mikita, the league's leading pointmaker, scored two goals and teammate Bobby Hull, running second, added three assists in Chicago's victory over New York. Phil Goyette scored both of New York's goals.

Drivers Continue Daytona Qualifying

DAYTONA BEACH, Fla. (AP)—Some 100 cars were yet to take their qualifying runs for the big races at the Daytona International Speedway this weekend as the timers got ready to go back to work today.

Fourteen drivers were clocked Thursday afternoon for Saturday's 250-mile national championship modified and sportsman race.

The others were clocked as they tried to gain a good position in one of two 100-mile stock car races scheduled Friday. The 14 top finishers in each of Friday's races will qualify for the Daytona 500 Sunday afternoon.

Glenn (Fireball) Roberts of Daytona Beach set a track record Thursday when he averaged 170.470 miles per hour for two laps around the 2.5 mile track in a modified 1961 Ford.

The old record of 164.233 was set last year by Bobby Johns of Miami in a 1957 Chevrolet.

Five other drivers also topped the 150 m.p.h. average as they sped around the windswept course.

Mutt Powell of Hemmingway, S.C., had a 158.241 average in a 1961 Ford; Ronnie Chandler of Houston had 156.979 in a 1961 Pontiac; Freddy Fryer of Rossville, Ga., turned 152.142 in a 1959 Chevrolet; Rod Eulenkamp of Jacksonville, Fla., had 150.262 in a 1956 Ford and Paul Redford of Ferrum, Va., was 150.125 in a 1953 Studebaker.

Roberts will get the pole position in the 250-mile unless his time is bettered today.

THREE MORE

Dave MacDonald of El Monte, Calif., driving a 1964 Mercury, Cale Yarborough of Timmonsville, S.C., in a 1964 Ford and Sol Towella of Chicago in a 1964 Ford were the only three to qualify for the 100-mile Friday. MacDonald's time of 165.885 was best.

Jack McCoy of Modesto, Calif., remained in good condition after his 1953 Studebaker flipped and burned while he was on a practice run. He suffered a slight concussion, a cut on the head and bruised legs.

Royals Halted at 12

Pistons Surprise Lakers

TOLEDO (AP) — Bailey Howell's tip-in with 14 seconds to play gave the Detroit Pistons a 116-115 National Basketball Association victory over the Los Angeles Lakers Wednesday night.

Meanwhile, the San Francisco Warriors, who snapped a 12-game Cincinnati Royal winning streak, 106 - 101, moved two games ahead of second place St. Louis in the Western Division. The Hawks lost to New York, 130-114. The Lakers lost dropped them 5½ games behind the Warriors. In another game, Philadelphia whipped Baltimore, 130-122.

LAKER RALLY

Howell's goal off a fourth quarter Laker rally which had overcome a 12-point Piston lead for a 115-114 advantage. The

Lakers' Jerry West and Elgin Baylor sparked the upset. Baylor led all scorers with 34 points, and West added 28.

Seven-foot Reggie Harding and Don Ohl each scored 11 points to push the Pistons into an 86-86 lead at the end of the third quarter. Ray Scott topped Detroit with 23 points.

Warrior coach Alex Hannum used Wayne Hightower to guard Cincinnati's high-scoring Oscar Robertson in the victory over the Royals. The move upset the Royals' offense as Robertson, who seldom scores less than 30 points, was held to 29. Hightower netted 29 to go with Wilt Chamberlain's 32.

Knick Art Heyman's 33 points powered New York's victory over St. Louis. Bob Pettit led the Hawks with 37.

COUNTY BATTLE

In the county, the battle for swim records continues between Seaholm and Kimball.

Seaholm's Pete Adams and Kimball's Bill Watts both went 1:50.6 in the 200 freestyle relay to break Watts' earlier season time of 1:52.0 flat. The state record is 1:52.6.

Doug Webster, although beaten by Adams in their recent dual meet, still has the best time in the county and state in the 400 in 4:09.3, and all swimming observers are expecting Webster and Adams to break

PNH Tankers Drop 3rd Meet

Despite its best record in history of the school, Pontiac Northern will have to be content with 4th place in the North Suburban Swim League.

The Huskies lost a 58-47 swim meet at Fitzgerald last night for their second league loss and third of the season in 11 meets.

Still left on the PNH schedule is Birmingham Groves and this is expected to be part of the loss column, thereby putting Detroit Thurston in first place, Groves second and Fitzgerald third.

Northern has a good opportunity to defeat Fitzgerald for the first time, but a couple surprises in the diving and 400 freestyle were pulled by the winners.

Alex Hiller, PNH diver lost his first dual competition diving event of the season and Skip Ervin finished second behind Bill Jones in the 400.

A new varsity record was set by Northern's Bill Basinger who

went 53.8 in the 100 freestyle and a school mark was posted by the Fitzgerald freestyle relay team in 1:39.4.

In swimming Friday; Madison trial will meet Flint Southwest-visits Groves and Pontiac Center in the PNH pool.

Outlook Brightens at Local Ski Areas

The 1-2 inch snowfall that hit lower Michigan a Wednesday night is expected to provide a welcome boost to the thousands of state skiers.

The snow ended by early morning in the western part of the state. Some snow was predicted for Thursday.

The outlook for Pontiac area resorts is very good, with all

areas operating and reporting good-to-excellent conditions.

One area, Summit ski resort, reports it will not open until 6 p.m. today and tomorrow, but will be operating at 9:30 a.m. Saturday and Sunday.

PONTIAC AREA:
Alpine Valley, Pontiac: Skiing conditions very good.
Dryden, Oxford: Skiing very good on good base; snow predicted.
Pine Knob, Carleton Place: 1 inch new snow; skiing very good.

To Join White Sox
Camp Next Week

CHICAGO (AP) — Dave DeBusschere, basketball player, pitcher, and two rookies signed Wednesday, giving the Chicago White Sox 28 of their 48 listed players in the 1964 fold.

Contracts also were received from first baseman Grover (Deacon) Jones, 346 hitter at Indianapolis last season, and catcher Gerry McVetney, also up from Indianapolis.

Dave DeBusschere has received permission from team owner Fred Zollner to join the Chicago White Sox in spring training.

The 6-foot-5 forward-guard who has lost out most of the National Basketball Association season with a broken leg, is expected to report to the Chicago early season training camp next Wednesday at Sarasota, Fla.

Zollner made the announcement Wednesday night after meeting briefly with DeBusschere in Toledo.

"Team physician Dr. Raymond Forsyth has indicated it will take two or three weeks for DeBusschere to completely recover from his leg injury," said Zollner. "By that time the season would be over."

The Pistons regular season ends March 18.

3rd Round at Waterford

The Five R's basketball squad was far from impressive during the regular season in Waterford Township Recreation play, finishing last in the three-team Class A League.

But the quintet is writing a different story in the playoff games. It won its second tournament game last night, defeating Lakeland Pharmacy, 83-69, to move into the third round of playoff action.

The winners, led by John Keller's 23 markers, grabbed a 43-34 lead at intermission and were never in trouble.

Tom Nickman and Dale Flusman sparked the losers with 22 points each.

In Class B playoff action, Frushour & Struble Realty won by forfeit when Wardrobe Cleaners showed up with only three players.

One game is listed on tonight's schedule, a Class B tilt involving Wardrobe Cleaners and Bill's Towing. The action is set for 7:15 p.m. at Cray Junior High School.

In Pontiac Class D play last night, New Hope Baptist turned in the highest score of the season (Class D) in a 101-46 triumph over Cotton Billiards.

Daily Double Pays Off

ARCADIA, Calif. (AP) — The \$2 daily double-payoff at Santa Anita Park Wednesday was \$1,123, the highest of the meeting.

Pontiac Press Photo

WINNING HABIT — Bloomfield Hills ski teams have been enjoying exceptional success this season with both the girls and boys teams winning often. The reasons for the successful showings are coach Don Gregory (right) and Cheryl Smith, the Barons' top female performer. Miss Smith is a member of a skiing family; her brother Geoff usually paces the boys' team.

For Major Leaguers

Japan Looks Inviting

TOKYO (AP) — Given the choice of being major league hangers-on in the United States or becoming national heroes in Japan, more and more American ballplayers are migrating across the Pacific.

The latest arrivals are veteran infielder Johnny Logan and journeyman outfielder Chuck Essegian, who flew in Monday.

They'll be joined at the end of the month by four more newcomers, outfielders Gordon Windham and Stan Palys and infielders Daryl Spencer and Reno Betsler.

LONG LIST

They are the latest in a long line of American players who have played out their string in the United States and then moved here.

The big attraction? Basically it's money. Average salaries for the seven-month Japanese season are \$15,000 to \$20,000.

Off-field life is much the same in Japan as it is in the United States for the imported players. Most live with their families close by their club's home parks. Some of the teams even pay house rents for the Americans.

On the road the players travel with their Japanese teammates and the only concession made to them is a Western style room in one of the best hotels.

The language is strange for the imports, of course, and so is the reception they get from the fans. Virtually anonymous in

Aussie Netters Face Suspension From Cup

MELBOURNE (AP) — The Lawn Tennis Association of Australia has called a special meeting for Friday apparently to bar Roy Emerson and perhaps other players from the 1964 Davis Cup team.

The action would virtually kill Australia's hopes of recapturing the trophy from the United States, which won it last December in Adelaide.

Emerson, who has been feuding with Australian officials over restrictions on playing abroad, is the Australian champion and the country's No. 1 player. He won both singles matches against the United States last December.

Without him, the Australians, who have dominated the Davis Cup competition since World War II, might have trouble even qualifying for the 1964 challenge Round.

They are challenging in the American Zone and probably would have to play the strong Mexican team of Rafael-Osuna and Antonio Palafox in the high-altitude atmosphere of Mexico City. Even powerful teams have found this a formidable assignment in the past.

Besides Emerson, two other

Face Is Not Only Thing That Will Be Red

CHICAGO (AP) — A red dye added to gasoline belonging to New York State's Public Works

Department may end pilferage. A trade magazine, Fleet Owner, reports that even a drop of the gasoline containing the dye will glow under fluorescent light. The prevention of theft is

aimed at workers who draw cans of gasoline for field equipment and divert them to private cars. Finland contains more than 60,000 lakes.

Coffee Is Prescription at Friendly Drug Store

SAN DIEGO, Calif. (AP)—Coffee is on the house for customers who bring a prescription

into Jim Fraser's drug store here. They are handed a blue slip of paper which reads: "Relax. If you present this coffee chit with a smile to your waitress, you get a free cup of coffee

while you wait." The proprietor estimates he dispenses about 15,000 gratis cups a year. The only president born in New Jersey was Grover Cleveland, a native of Caldwell.

Fishing Old-Time Way

MINNEAPOLIS, Kan. (AP)—For some time Mrs. Harold Wamsley, had been fishing with a regular rod and reel—without success.

Disgusted, she put it aside and cut a twig from a tree. She fastened the twig with a piece of plastic line and baited the hook. Within minutes she had landed an eight-pound catfish.

OAS Will Hear Findings of Cuban Aggression in Venezuela

WASHINGTON (AP) — In the news from Washington:

OAS-CUBA: The Organization of American States meets Monday to hear an Inter-American Commission's findings that Cuba tried to overthrow the Ven-

ezuelan government with propaganda, arms and terror.

According to an informed source, the commission found that Prime Minister Fidel Castro's regime:

• Beamed broadcasts from

radio Havana seeking to discredit the government of President Romulo Betancourt and urged Venezuelans to subversive activities.

• Supplied funds for subversive actions.

• Trained Venezuelans for terrorist and guerrilla activities.

• Smuggled four tons of arms into Venezuela.

• Bought from a Canadian firm an outboard motor found on a boat abandoned on a Venezuelan beach that had been used to slip the arms into the country.

• Drafted a plan for taking over Caracas through an uprising.

TO STOP ELECTION

This plot to take over the capital city was described as an effort to prevent election of a new Venezuelan president.

The plot failed and Raul Leon, candidate of Betancourt's Democratic Action Party, was declared winner of the Dec. 1 election and is to be inaugurated March 11.

DE GAULLE'S PLAN: Senate Democratic Leader Mike Mansfield told his colleagues yesterday that French Pres-

ident Charles de Gaulle's proposals for a neutralization of Viet Nam "ought not to be dismissed out of hand."

Mansfield said that although he considered France's recognition of Red China to be a "tragic mistake," he felt de Gaulle demonstrated "a sense of history and statesmanship in seeking new ways for dealing with the continuing instability which prevails in Viet Nam and much of southeast Asia."

Expressing support for Secretary of Defense Robert S. McNamara's hope for a major withdrawal of American forces from South Viet Nam by 1968, Mansfield declared:

"We have tetered for too long on the brink of turning the war in Viet Nam, which is still a Vietnamese war, into an American war to be paid for primarily with American lives."

"There is no national interest at this time which would ap-

pear to justify this conversion."

In another Senate speech, Sen. E. L. Bartlett, D-Alaska, said France's interest in discussing with Red China and others the means for a diplomatic solution to the Asian problem should be encouraged as an alternative to U.S. efforts to obtain a military solution.

BIOSATELLITE: The United States intends to pack fruit flies, wasps, frog eggs, bread mold and other organisms into a

spacecraft and rocket the whole shebang into orbit for three days late next year.

The National Aeronautics and Space Administration (NASA) said yesterday it would be the first of six such biosatellite launchings aimed at learning more about the total effects of radiation, weightlessness and the absence of the earth's rotation.

The test is another preliminary to efforts to send men on long space voyages.

Veterans of Bay of Pigs Will Quit U.S. Service

WASHINGTON (AP) — A Cuban invasion veteran has declared that 168 exiled officers in training with the U.S. armed forces plan to quit to fight Fidel Castro on their own.

A total of 310 Cuban Brigade officers have been trained by the U.S. military since last March, a Defense Department spokesman said last night, and of these 171 remain on duty.

Asked if the Cubans had expressed any discontent, the Pentagon spokesman said:

"There have been no expressions of discontent concerning treatment they received from the military services."

AWAY FROM HOME

"Some routine expressions of discontent have been received which can be expected from men who are living away from their homeland."

The Pentagon also said that defense representatives will meet with Cuban Invasion Brigade veterans, starting Monday, at Ft. Benning, Ga.

"The purpose of this meeting," said the Pentagon, "is to review the training program and discuss future opportunities in the services for Cuban Brigade members."

In Miami, Morales Cruz, a veteran of the unsuccessful Bay of Pigs invasion said the 168 exiled officers will announce their resignations after the meeting.

DISGRUNTLED

He said the brigade veterans are disgruntled that the United States has not done more to combat the Castro regime.

Urges Buses Be Inspected

LANSING (AP) — St. Clair County Sheriff William Pettengill who investigated the carbus crash near Port Huron that killed four teen-agers urged Wednesday periodic inspection of buses on municipal routes.

"There should be something in the law to require regular inspection of these buses," he told city officials and Secretary of State James Hare at a meeting in Lansing. They met to discuss the fiery crash of the car and the bus which had stalled while carrying 50 children Jan. 31.

Also discussed was Port Huron's lack of public bus transportation. The city took away the license plates of the private bus firm until a new lease is written to replace an expired one. Officials said they intend to write safety requirements into a new lease.

Car Crash Is Fatal

PETOSKEY (AP) — Richard Mitchell, 20, of Boyne City was killed Wednesday when his car veered off a curve on old U.S. 27 near Frederic and struck a utility pole and a tree.

Cake, Greetings for Celebration of 107th Birthday

LANCASTER, Pa. (AP) — Mrs. Charles Landis celebrates her 107th birthday today with fancy cake, many felicitations and a visit from Philadelphia relatives.

Born in the nearby town of Paradise, her life has spanned the administrations of 21 presidents, from James Buchanan to Lyndon B. Johnson.

On the eve of her birthday an interviewer asked: "Was your husband a handsome man?"

"I don't know," Mrs. Landis said. "I never asked him."

Cuban Fishermen Ready to Sail Home

KEY WEST, Fla. (UPI) — fresh water supply to the U.S. Naval Base at Guantanamo Bay, Cuba; touching off an international crisis.

Castro later offered to turn on the water for one hour a day, but the U.S. rejected the offer and began supplying the base with water shipped in by tankers from Fort Lauderdale.

Local authorities declined to say exactly when the 29 Cubans would leave, fearing demonstrations by local Cuban exiles.

Plans to return the fishermen to Cuba were made yesterday shortly after the four fishing boat skippers were convicted of fishing in Florida territorial waters without a license.

SUSPENDED SENTENCE

Criminal Judge Thomas Caro fined the captains — Gomez Barrios, Jose Garcia Rodriguez, Jose Manuel Ventura and Evaldo Escandalo Soto — \$500 each and suspended six months jail sentence when the fines were paid by a Czechoslovakian diplomat.

Caro dismissed poaching charges against 25 crewmen, but ordered 2,000 pounds of fish the Cubans caught confiscated and turned over to charitable institutions.

The fishermen were rounded up by the Coast Guard near American-owned Dry Tortugas Islands Feb. 2 and escorted here.

Shortly after the Cubans were jailed, Fidel Castro cut off the

men sought and were granted political asylum in this country, and the state dropped charges against seven juveniles in the crew and sent them home.

Caro, agreeing with the defense attorneys hired by the Czech embassy in Washington, decided not to confiscate the four fishing boats — two 75-footers and two smaller vessels.

But he warned that if Cuban fishermen continue to violate U.S. waters, "we might follow a different procedure." Caro added that future violations could also result in the prosecution of all crewmembers.

The four skippers were convicted under a 1963 Florida law making it unlawful for unlicensed aliens to take natural

resources from state waters without a license.

This was the first time the law had been tested.

Worker Is Killed in 8-Story Plunge

ATLANTA, Ga. (AP)—A construction foreman was killed when a scaffold fell from a new apartment building, but another workman saved himself when he grabbed a piece of steel after he fell five stories.

Killed in the accident Wednes-

day was John Junior Swecker, 38.

Raymond Brooks, who climbed to safety after the plunge, said, "God was with me." He was injured slightly.

The scaffold fell from the eighth floor.

The first successful test of cable cars in San Francisco was made on Clay Street in August, 1873.

To Build Access Road

LANSING (AP) — The State Highway Department has announced that a \$1-million access road will be built at the K. I. Sawyer Air Force Command base southeast of Marquette in the Upper Peninsula.

The seven-mile long highway will be built between the base and US 41 in the vicinity of Skandia.

How to Cut Trade?

Spain, Morocco Confused Over Cuba

WASHINGTON (UPI) — Two countries threatened with loss of U.S. aid because of their shipping to Cuba have told the U.S. government they are willing to cooperate but need time to figure out how.

In numbers of vessels the two nations — Spain and Morocco — are among the smallest free world shippers to Cuba, yet they are having the greatest difficulty keeping on the good side of the United States.

Morocco is in trouble under the U.S. foreign aid law not because it has any policy to help Fidel Castro but because it drinks a great deal of tea — tea with lots of sugar.

Morocco has long-term contracts to buy sugar from Cuba, and it has two or three ships which make runs to satisfy its national addiction.

NO EVIDENCE
U.S. officials concede there is no evidence that Moroccan vessels have supplied Cuba with strategic goods.

Last December, Congress

amended the foreign aid law to cut off funds to countries which failed by Feb. 14, 1964, to take "appropriate steps" to halt trade with Cuba. The State Department warned all countries of the deadline. Morocco did not reply.

The Johnson administration, under pressure from Republicans to "do something" about Cuba, this week told Morocco it would get no new aid commitments until "appropriate steps" were taken against shipping.

What Morocco would like to do — as quietly as possible — is to hire other ships to transport its sugar from Cuba. These

Dies in Car Mishap

MUSKEGON (AP)—Rene DeBard, 15, of Muskegon was killed Wednesday when he slipped from the hood of a car driven by 16-year-old Duane W. Drier and fell under its wheels in nearby Norton Township.

would probably be Soviet bloc vessels, but this would be perfectly all right under the U.S. foreign aid law.

MAJOR PUBLICITY

But the fact that the Johnson administration has made major publicity out of slapping Morocco is making it more difficult for the Moroccan government to take any action at all. As a matter of practical politics, it cannot know too openly to big powers.

Spain, which also likes sugar, has more far-reaching reasons for sending ships to Cuba.

Cuba was once a Spanish colony. Many Spanish citizens still live there. Many of these are in Castro jails, and the Spanish government is trying to get them out.

Cuba confiscated much Spanish property, and Spain is seeking repayment. Many people in Spain have relatives living in Cuba.

WISEST COURSE

Because of these ties, Spain has decided its wisest course is

to maintain trade and other relations with Cuba.

Spain says it has only three ships in the Cuba trade. The United States says it has two more vessels under charters which might take them to Cuba. Spain also operates the only free-world scheduled air service to Cuba.

These weekly flights between Havana and Madrid have been

taking a steady stream of Spanish refugees out of Cuba, and there is a big backlog of refugees on the passenger waiting list.

The U.S. and Spanish governments are negotiating to find some compromise, which then will be taken to U.S. congressional committees for their approval.

Goes on Driving Rampage

Ticket Makes Him Mad

ANN ARBOR (AP) — George Overstreet Jr., 35, of Ann Arbor may rue the day he got angry about a \$5 police ticket for going through a red traffic light.

Two policemen gave Overstreet the ticket for going through a stop light at 2 a.m. yesterday, and said not more than 10 minutes later they saw his car fail to halt at two stop signs and then run through three stop lights on the University of Michigan campus.

When they asked why, the police said Overstreet replied: "The first ticket made me mad."

Overstreet was hauled in and booked on a reckless driving charge. The going-rate for reckless driving in Ann Arbor is \$50 plus jail-time in aggravated cases.

"CHANGE-OF-LIFE made me scream at my husband"

If you suffer from the irritable, restless feelings, hot flashes of change-of-life—listen! In tests by doctors Lydia E. Pinkham Vegetable Compound brought help for functionally-caused distress in 3 out of 4 cases! Research shows that this medicine is thoroughly modern in the relief it gives those nervous, "out of sorts" feelings of mid-life "change"! Get Lydia Pinkham Compound today! Acts through sympathetic nervous system to relieve distress of "hot waves"!

CRAZY, MAD, MAD GEORGE

WASHINTGON BIRTHDAY . . .

"GOOD RIDDANCE" SALE

(hurry!)

While others are busy using cute little pictures of hatchets chopping down prices, WE are using the occasion to patriotically get rid of every slow-moving LEMON and DUST-GATHERER in the store. It's an annual tradition. You'll find absolutely ridiculous prices on absolutely ridiculous men's clothing, furnishings and accessories. Included are: Items our buyers guessed wrong on (and were shot for) . . . Items that are collecting social security on our shelves . . . Items that are in perfect shape because they haven't been touched by 10-foot poles. Better come early (if you like this kind of scavenger hunt.) CAUTION: In our frenzy to toss out all the clinkers, we may have accidentally included some usable merchandise. We'll try to be more careful next year.

NOTE: Excuse our spelling of Washington's name in the headline. But if you think that's a mistake, just wait till you see the mistakes we made in buying!

SUBURBAN COATS

An airplane motor must develop at least 12 times more power per pound than any other kind of a modern fuel-propelled engine unit.

Pennsylvania, with a large population of Dutch ancestry, outranks all other states in the production of pretzels, sausage products and scrapple.

Kelley Promises to Fight Railroad Service Cutoff

LANSING (AP) — Atty. Gen. Frank Kelley and local officials vowed Wednesday to fight a Pennsylvania Railroad petition to abandon 22.6 miles of freight line running through 11 counties in Michigan.

The railroad asked the Interstate Commerce Commission Tuesday for authority to abandon the lines. Officials pleaded decreasing traffic on the railroad's Grand Rapids branch and possible discontinuance of the rail ferry that links the line to the Upper Peninsula.

The application also was signed by the Pennell Co., a Pennsylvania affiliate and one owner of the Mackinac Transportation Co. Mackinac Transportation has asked the ICC for permission to discontinue the ferry operation.

Kelley called the move "shocking news" and "a body blow to Michigan's economy felt directly in 11 counties." He listed these as Kent, Montcalm, Mecosta, Oshtemo, Wexford, Grand Traverse, Kalamazoo, Antrim, Otsego, Charlevoix and Emmet.

NOT SERVED

"Almost all of the points eliminated are not served by any other railroad," Kelley said. "Indeed, one railroad would be left high and dry without any connections to another line—the Boyne City railroad from Boyne City to Boyne Falls."

Last month, Gov. George W. Romney asked the Economic Expansion Department and the State Public Service Commission to cooperate with Kelley in fighting the proposed abandonment.

Four state senators who have constituents in the affected area said Wednesday they also would seek to appear before the ICC. Sens. Thomas Schweiger, R-Peabody; Kent Lundgren, R-Monroe; Phillip Raitor, D-Iron Mountain; and Charles McManis, D-Houghton, and several other lawmakers of both houses expressed distress on hearing the news.

"We're not going to stand still for it," said Cliff Kimball, secretary-manager of the Kalamazoo chamber.

TO INTENSIFY FIGHT
Pelosky chamber manager

Merle Lutz said the 15-county Save the Rails steering committee, headquartered at Cheboygan, will intensify its fight to preserve rail service.

Kelley said the ferry abandonment proposal "has now erupted into a pattern which could have a serious effect on efforts to expand Michigan's economy."

There also have been requests by the New York Central and Michigan Central railroads to halt their service between Gaylord and Mackinac City. The Detroit & Mackinac Railroad has asked to abandon service between Rogers City and Cheboygan, Kelley said.

"The railroads have sapped at Michigan's economy too long for them to put themselves away and walk out now merely because the food is not as rich as it was before," Kelley said.

Literature Class to Hold Confab on Censorship

Problems of literary censorship will be discussed in a new Continuing Education course that gets under way at 7:30 tonight at Oakland University.

Taught by Dr. Richard E. Quaintance, assistant professor of English, the course will be offered free to teachers, librarians, school librarians, school members and members of Councils for Better Literature.

Other interested persons will be charged \$10 tuition.

Dr. Quaintance is to give teachers, parents and others the opportunity to discuss the relationship of pornography, cultural awareness and the public welfare in an educational atmosphere.

The Royal Gorge of the Arkansas River in Colorado, is spanned by the world's highest suspension bridge — 1863 feet above the gorge. The bridge is 1,200 feet long. An incline railway 155-feet long descends to the canyon floor.

Reds Name Nikolayev Leader of Space Unit

MOSCOW (AP)—Andrian Nikolayev, who orbited the earth

four days in 1962, has been named commander of the Soviet cosmonauts' unit.

He succeeds Yuri Gagarin, the first Soviet cosmonaut.

He Needed the Money

JASPER, Ala. (AP)—Former Gov. James E. (Kisling Jim) Folsom, explaining why he filed for Democratic nomination as

president of the Alabama Public Service Commission: "I have eight children, six left to educate and will have four in college at the same time. Need I say more."

Restored by French

Gabon Chief Back at Post

LIBREVILLE, Gabon (AP)—President Leon Mba of Gabon resumed office today after French troops put down a two-day military revolt in his West African country.

Unconfirmed reports said 27 persons—25 Gabonese and 2 Frenchmen—died in the fighting Wednesday that ended the rebellion. Forty Gabonese and four Frenchmen were said to have been wounded.

Mba, 52, a champion of close association with France, said in a radio broadcast that legislative elections would be held as scheduled Sunday. Mba had dissolved the National Assembly

and called new elections in an attempt to freeze out opposition leader Jean-Hilaire Aubame. The military rebels apparently acted on behalf of Aubame, whom they proclaimed provisional premier Wednesday.

FACE PUNISHMENT
He did not mention Aubame

Mba said that members of the revolutionary committee who led the revolt have been imprisoned and will be punished.

FACE PUNISHMENT
He did not mention Aubame

and political associates named with him to the rebel provisional government, but presumably they also faced punishment.

For those responsible," said Mba, "there will be neither pardon nor pity."

Rebel soldiers seized key government buildings in Libreville at midnight Tuesday and surrounded Mba in the presidential palace. They took the president to a house outside Libreville, announced he had resigned and proclaimed a 10-man provisional government headed by Aubame.

"Not a shot was fired."

TROOP AIRLIFT
The French Army airlifted some 400 to 600 troops to Gabon from the neighboring Congo Republic, Senegal, Cameroon and the Central African Republic.

The revolt was broken in an hour-long battle in which the French troops seized Baraka Camp, the capital's main army base.

None of the approximately 85 Americans in Libreville was harmed.

France is pledged by a mutual protection treaty to help its former colony maintain internal security, and the French foreign ministry said troops were sent in response to a request for help transmitted through diplomatic channels.

Vice President Paul Marie Yembi claimed credit for the appeal. He said he was on a tour outside Libreville when he learned of the revolt in the capital.

'Witches' Hear Lecture on Their Nonexistence

LONDON (AP)—A covey of self-styled witches descended on London's University College on Wednesday night.

Crowding into a lecture theater, they glowered at Dr. Rosell Hope-Robbins, British-born lecturer at Columbia University, as he delivered a paper denying the reality of witchcraft.

The legendary gatherings of witches for mystical practices, he said, "existed solely in the mind and remained a fabrication of the mind."

Students who packed in to witness the confrontation waited for some retaliatory sign of the witches' prowess. But none of them managed to turn Dr. Hope-Robbins into a toad.

NO EVIDENCE
Discussing on the witches' "sabbat," when witches were supposed to assemble to concoct spells, Hope-Robbins said: "There is not one shred of historical evidence that the sabbat ever had an objective reality."

Witchcraft is still taken seriously by small groups in Britain who claim to have inherited mystical skills from the Middle Ages.

None of the witches at the lecture wore tall hats or long black skirts, though one carried

a raven called Hotfoot Jackson perched on her shoulder.

HIGH PRIESTESS
The bird's owner, Sybil Leek, 41, claims to be high priestess of a covey of witches in the New Forest.

She asked Hope-Robbins: "Don't you realize that at this moment in England and all over the world there are still small groups of people who are sincerely practicing the old cult?"

Hope-Robbins smiled, "I am afraid I am not interested in a person's sincerity in that respect," he said.

Hope-Robbins is an expert on European life in the Middle Ages. His lecture was sponsored by the British Folk Lore Society.

BROOMSTICKS
On a seat outside the theater were two black broomsticks. Mrs. Leek disclaimed them.

"No genuine witch would dream of using them," she snorted. "Must have been students put them there for a joke."

ROUGH LAUNCHING—It's easy to handle this craft on water, but moving the 31-foot cruiser down the ramp of the Grand Rapids Civic Auditorium for the West Michigan

Portland Boat Show is tricky business. Workers had to inch the 11-foot beam craft into position yesterday. The boat show opens Monday.

Sea Elephant Rodeo Ends Underwater Reaction Study

By RALPH DIGHTON
Associated Press Science Writer

PASADENA, Calif.—A story of a sea elephant rodeo on the Mexican island of Guadalupe has been brought back by one of the scientist cowboys.

The story developed from interviews with Dr. Marcos Intaglietta, 28, an Argentine-born research fellow at the California Institute of Technology.

He told how a 17-man expedition used daring and muscles as well as brains to subdue their 2,000-pound subjects—king-sized members of the seal family—with tranquilizers and hoist them aboard ship.

At the end of the two weeks of back-breaking labor and study, the younger scientists, including Intaglietta, relaxed by climbing on some of the huge bulls and "riding them like cowboys at a rodeo," he said.

'SHOOK US OFF'

"The bulls always shook us off," said Dr. Intaglietta. "They would rear up, and we had nothing to hang on to."

Tragedy was narrowly averted when an angry cow charged one of the scientists, Dr. Intaglietta said, "when she rushed at him from the side. Somebody yelled and he jumped just as

she reached him, or he would have been crushed under all that blubber."

Intaglietta and Dr. Merrill Spencer were key men in the expedition, headed by Dr. P. F. Scholander, director of the Physiological Research Laboratory of the Scripps Institution of Oceanography, La Jolla, Calif.

Intaglietta and Spencer are inventors of a tiny blood pressure gauge which can be clamped around individual arteries to detect changes in blood flow in various parts of the body.

Surgical implantation of these small cuffs on blood vessels was a prime purpose of the expedition.

PHYSICAL REACTION

The scientists wanted to know if a certain physical reaction found in smaller diving animals also occurred in the one-ton sea elephants.

Most animals, including man, have a trick of surviving submersion by decreasing the size of arteries in their extremities and thus forcing blood into the vital organs—the heart, brain and lungs. Fish do the same thing when taken out of water.

Earlier research has shown that ducks and seals, thanks to this automatic response which

Dr. Scholander calls a "master switch" defense against asphyxia, can submerge safely up to 20 minutes, whales up to two hours.

Dr. Intaglietta said the expedition found sea elephants, which also are air-breathing mammals, can submerge for up to 30 minutes without breathing, drawing upon the oxygen-carrying blood concentrated in their vital organs. Their heart rate drops from 90 to 20 beats a minute.

Most humans, unless they have undergone the training of pearl divers, can submerge for little more than a minute.

Is there any way of increasing the duration of this "diving response" in humans so they can stay submerged longer without oxygen tanks?

"That's for medical men to determine later," said Dr. Intaglietta. "We don't really know yet what causes this response in animals—that's the purpose of expeditions such as this."

The island of Guadalupe, 300 miles south of San Diego and 200 miles off the Mexican coast, was chosen because it is a breeding ground for sea elephants, distinguished by a fatty proboscis or nose on the males.

Sisters Set on Similarity

SALT LAKE CITY, Utah (AP)—Two sisters who married brothers have kept the pattern of coincidence alive. They both gave birth to sons Wednesday at a suburban Salt Lake City hospital.

Mrs. Gerald Zimmerman's son was born in the afternoon.

Nine hours later, a son was born to Mrs. Stephen Zimmerman.

It was the fourth child for the Gerald Zimmermans and the seventh for the Stephen Zimmermans.

On Feb. 24, 1949, a two-stage bumper rocket, a German V-2 with a smaller rocket in its nose, attained a speed of 5,100 miles an hour and an altitude of 252 miles. It marked for the first time in history the entry of a man-made object into space.

Nabbed in Withdrawal of Bank Credit Mistake

MONTGOMERY, Ala. (AP)—A federal grand jury indicted L. Thaggard Wednesday on charges of unlawfully obtaining money from a bank protected by government deposit insurance.

The Union Bank and Trust Co. of Montgomery accused Thaggard of withdrawing \$48,000 which the bank said was credited to his account erroneously. Thaggard is free under \$10,000 bond.

Stamping Out The Beatles Not Limited

DETROIT (AP)—Circuit Judge James N. Canham today denied an injunction that would have prevented the Art-Craft Poster Display Co. of Detroit from imprinting "Stamp Out The Beatles" on

sweat shirts it markets.

The injunction was sought by B. D. Corp. of suburban Warren, an applicant for a copyright on the slogan, which also is being imprinted on auto bumper tags.

After hearing arguments on both sides, Judge Canham ruled that the two companies could compete for business among those who would like to stamp out the mop-haired quartet of British entertainers, who bill themselves "The Beatles."

THE DEPENDABLES: SUCCESS CARS OF '64

Get something off your chest. Your knees, for instance!

Imagine, unwinding and relaxing in a compact. Now you can! And that goes for backseat passengers as well as travelers up front. Because Dart is a compact in the large economy size. Lots of room for hips, heads, feet and knees. Family-size room all-round. And what goes for Dart in the comfort compartment goes ditto in the performance department. Standard engine is the famous Slant 6 that'll outlast the extra-cost engines in most other

compacts. For even more action, there's an optional new Dart V8 that takes no sass from any size car.

But don't let the comfort and sizzle fool you. Dart is a compact. Wins its low price, easy upkeep, great gas mileage, and snappy parkability, and you'll know what we mean. If you're tired of cramped, underpowered compacts, talk to the man who can do something about it—your Dependable Dodge Dealer.

The President Starts Fashion Trends

By DICK WEST
WASHINGTON (UPI) — A U.S. president automatically becomes a style setter. When the President does something, it usually starts a fashion, a fad or a trend.

President Johnson has made the hat people happy not only by wearing a hat but by giving them away to distinguish guests at his ranch.

The hat people figure that this is bound to stimulate sales. The theory is that a lot of men who haven't been wearing hats will now go out and buy one.

One hat maker has even brought out an LBJ model, which is a three-gallon version of the President's five-gallon version of the Texas 10-gallon hat.

By the same token, the President has delighted the dance people by dancing at White

House social functions, on one occasion gliding around the floor with 50 different partners.

The theory is that this will

Art Officials Check Rubens

Recovered Painting Appears Undamaged

BRUSSELS, Belgium (UPI)—Museum experts today examined a priceless 17th Century painting by Flemish master Peter Paul Rubens to see if it was damaged during the three days it was held by a thief.

Andre Beugnies, 19, an unemployed youth who failed to complete high school, was arrested yesterday and police said he confessed stealing the painting early Monday morning and trying to obtain \$17,000 ransom for it.

"The painting, 'Negro Heads,' which appears on Belgian 500-franc notes, was recovered last night at the home of Beugnies' grandmother, where the youth lived. It appeared to be undamaged.

Philippe Robert-Jones, director of Brussels' Ancient Art Museum, said, "This is without doubt one of the most beautiful days of my life."

MUST REORGANIZE

"But now security measures in our museum should be reorganized to prevent such things from happening again," he added.

About 50 Brussels policemen and radio cars closed in on Beugnies yesterday as he was showing the museum from a public phone booth and allegedly repeating his ransom demand.

Police said the youth confessed that he entered the museum through a skylight and removed the painting. They said he admitted planning the theft for two months after getting the idea from a radio drama.

Public prosecutor Raymond Charles said Beugnies came from a broken home and would be tried by a correctional court which can give prison sentences of up to five years.

MIXED MOTIVES?

Charles said the youth may have had mixed motives for the theft. He said Beugnies was fascinated by painting and the arts, despite his inability to pass his high school exams.

"He wanted money, no doubt, but I also think that he is an unbalanced person," the prosecutor said.

inculcate a desire to trip the light fantastic in a lot of men who have previously done nothing more graceful than trip over light cords.

ENTERPRISING STUDIO

I expect that some enterprising dance studio will shortly come forth with an LBJ Waltz, an LBJ Fox Trot or an LBJ Twist.

It also has been reported that President Johnson occasionally swims in the White House pool "au naturel," as the French say. It will be interesting to see what the effect of that will be.

Presumably, it will cause the bathing suit people to start sending out distress signals the way the hat people used to do when President Kennedy neglected to wear a head piece.

Kennedy yielded to the pressure from the hat people to the extent of carrying a hat in his hand. Perhaps Johnson can mollify the bathing suit people by keeping a pair of trunks under his arm when he takes a dip.

It is, of course, entirely possible that this particular presidential practice will fail to develop into a nationwide trend. At least, I fervently hope so.

Not all of us have private pools, like the one at the White House. For instance, I get my aquatic exercise in one of the so-called community pools that have been springing up in the suburbs in recent years.

If fashion so dictates, I might buy a three-gallon hat for evening wear. I might even, under extreme duress, get out on the dance floor.

But spare me the sight of a bunch of suburbanites splashing around in their birthday bikinis. Togetherness, YES. Altogetherness, NO.

Webb to Be Divorced

LOS ANGELES (UPI)—Actress Jacqueline Loughery's attorney said in Los Angeles she'll sue actor-producer Jack Webb for divorce as soon as a property settlement is signed.

Dates Become Automatic

Coeds Punch Time Clocks

BERKELEY, Calif. (UPI)—University of California coeds won't have to sign out any more when they leave two of the dormitories on campus.

The books at Cunningham and Freeborn residence halls will be removed starting tomorrow night.

The girls will punch in and out at a time clock by the elevators. Each girl will have her own card.

Coeds complained about the books because they had to print where they were going in a space beside the place for their signatures.

The girls also said rejected suitors examined the books to see where their elusive flames had gone.

Hollywood Notes

Bette Davis Against Feuding

By BOB THOMAS
AP Movie-Television Writer
HOLLYWOOD — Notes and comment on the Hollywood scene —

Those who aimed to start a feud between her and Susan Hayward got no help from Bette Davis. The high-powered actresses were paired in "Where Love Has Gone" —

THOMAS
Bette as Susan's mother, though only a decade separates their real ages.

"I would never fight with a woman," Bette said. "It would be ridiculous."

"The only actress I couldn't get along with was Miriam Hopkins. But I would never bring any differences we might have onto the set. A movie company doesn't have time for any such nonsense."

Mike Connors, who finds himself caught between Davis and Hayward in "Where Love Has Gone," found the way to lick the movies' reluctance to hire television series stars: a two-year layoff. After "Tightrope" went

off the network, he found film work scarce, so he did a night club act in Mexico and Argentina, where the series was popular.

SUCCESSFUL RETURN

He returned and landed "Good Neighbor Sam" with Jack Lemmon and Romy Schneider. "Where Love Has Gone" and a movie with Doris Day.

Oscar winner Anne Bancroft's ambition might surprise you. She'd like to play "Romeo and Juliet." But, she explains: "I'd like to play Juliet my own way — very Italian. I think she was a girl who was very impulsive and emotional; she's the one who kept leading Romeo on and getting him into all that trouble."

George Murphy figures his

film image is an advantage in his candidacy for the Republican nomination for senator from California: "I never played a heavy, so the voters think of me as a nice guy. And I never was in any scandal. Matter of fact, newspapermen used to say they wished I would get into some fuss so they could write about me."

Richard Harris came through town—and got hospitalized from exhaustion—en route from a film in Rome to "Major Dundee" in Mexico. Of "Mutiny on the Bounty," in which he costarred and feuded with Marlon Brando, he says little.

"I never saw the bloody thing and I never will," he remarked. "I gained nothing from it—and not a great deal of money, either. It was a loss 13 months in my life."

Family Service Speaker

Race Relations Is Topic

Dr. Harvey Burdick, psychology professor at Oakland University, will be keynote speaker at the 14th annual meeting of Family Service of Oakland County, March 5.

Resume of Family Service activities during the past year will also be given at the meeting to be held 8 p.m. at Seasholm High School, Birmingham. The public is invited.

Dr. Burdick will discuss prejudice and public opinion in his

talk, "Psychological Implications of Race Relations." Author of many articles on race relations, Dr. Burdick currently is working on a research project for the Navy.

Astronauts Train in Helicopters for Moon Shot

PENSACOLA, Fla. (AP) — Astronauts Maj. L. Gordon Cooper and Air Force Capt. Edward H. White II, say they have completed 11 hours of helicopter training and are ready for solo flights.

Cooper and White told a news conference Wednesday that the helicopter training is designed to prepare them for landings on the moon. They said the helicopter is more allied in pattern and approach to a moon landing vehicle than any other available instrument.

The two astronauts are at Ellyson Field, the only helicopter pilot training base for Navy, Marine and Coast Guard use.

Light travels from the sun to the earth in 8 minutes 19 seconds.

State Legislators Wading in Flood of New Proposals

LANSING (AP)—Its schedule already shoved back a week, the legislature today waded into a near-record flood of bills.

Gov. George W. Romney planned to meet with the entire Republican Senate membership today before the afternoon session. He discussed "procedural details" with the GOP leadership Wednesday.

A technicality in the 1963 Constitution has forced postponement of committee action on all spending bills until the bills implementing Romney's \$622.7 million budget are dealt with.

"One of the things holding us up on ADC-U (aid to dependent children of the unemployed) is that we're awaiting an attorney general's opinion," Romney said.

ASKS KELLEY
Romney has asked Atty. Gen. Frank Kelley if the ADC-U bill qualifying the state for federal participation could be classed a "supplementing appropriation," excluded from the procedural requirements.

Romney said he had approval "in writing from Washington" that his proposal would be acceptable to the U. S. Department of Health, Education and

Welfare which rejected the 1963 Kelley said it would be "a few days" before the opinion was ready.

New introductions of bills Wednesday pushed the overall total to 1,090. This is more than the total of any session except the last two regular sessions in which bill introductions topped 1,200.

With new bills accepted through next Wednesday, a new record is likely.

OK POSTPONEMENT
The two chambers approved an across-the-board schedule postponement of one week. The approval of the resolution means new bills can be introduced through Feb. 26, and pushes the effective adjournment target date back to April 24.

All Workers to Receive Pay 'Raise'

When new federal income tax withholding rates go into effect sometime next month, every wage earner in the nation gets an automatic "raise."

The increase will result from the federal income tax cut bill which has already passed the House of Representatives and is up for approval in the Senate.

With the reduction will be a corresponding lowering of the weekly (whatever pay period the employee is under) withholding.

Barring an unexpected revision, the Internal Revenue Service says the accompanying chart will be the one finally authorized when President Johnson signs the bill into law.

DIFFERENT BENEFIT
Compared with the present formula, some wage earners will realize less than a dollar while others will take home several more dollars a week. The amount depends on total earnings and how many exemptions are claimed.

For example, a part-time worker earning \$25 a week and claiming only himself as an exemption, will get 50 cents more.

The average married wage earner with two children who makes \$10 weekly will get an additional \$2.40 take-home pay.

For an accurate comparison for your category, take your most recent pay stub and use the chart to find your "raise."

No two punches used by rail-way conductors are the same. Each is registered in the name of the conductor who uses it.

If the payroll period with respect to an employee is **Weekly:**

And the wages are—		And the number of withholding exemptions claimed is—											
At least	But less than	0	1	2	3	4	5	6	7	8	9	10 or more

Thai Diplomat Named Director of SEATO

BANGKOK, Thailand (AP)—Thailand's Konthi Suphamongkol, one of his country's best known diplomats, was installed Wednesday as secretary-general of the eight-nation Southeast Asia Treaty Organization.

Konthi, 47, took over from acting Secretary-General William Worth.

Likely to Be a Bore

Beware of Conversationalist

By HAL BOYLE

NEW YORK — One of life's little ordeals today is the persons who says, "Let's not talk about me—let's talk about you."

When you hear anyone make this remark, flee him on sight. For you are in the presence of that most boring of all bores — the "formula conversationalist."

The formula conversationalist is one of the curses of our day. He, or she, is someone who has read a book or taken a course on how to influence people

through personal magnetism and social charm.

The crux of the advice he has received seems to be this: "The best way to be interesting to others is to show how deeply you are interested in them. Get them to brag a little about themselves, and they will open up like an oyster."

The mistake the formula conversationalist makes lies in believing that the average man is always glad to talk about himself to anyone who will listen, and that he enjoys bragging 100 per cent of the time.

SOMEONE SPECIAL

The average man normally prefers to talk about himself only to someone he himself wants to impress, and, except

when inhabited by too many martinis, he rarely brags more than 75 per cent of the time.

The male formula conversationalist claps you on the back enthusiastically with one hand while energetically pumping your limp paw with the other, as if he were trying to draw water from a reluctant well. If a woman, she puts her arm cozily in yours, snuggles close, and gazes up into your face with a soft, doe-eyed friendliness.

"Tell me what's new with you—have you taken any interesting trips lately?" Should you or should you not tell her about your last subway trip to the Bronx?

"And that sweet wife of yours, Rosemarie. Is she as lovely as ever?" Everybody knows your wife is named Maude, and it has been 20 since she looked like anything except a mop on top of an overloaded file cabinet.

WHAT TOM

"Do tell me about your son, Tom. Is he doing well at college?" Tom? Does she mean your boy, Jim, the one who was just kicked off the football team at reform school for playing dirty?

"And how are you coming along with your hobby?" What hobby? The only hobby you've ever had is ducking bill collectors.

The trouble with the formula conversationalist's formula is that it doesn't work. People quickly realize a false interest in them from a real one.

How to deal with a formula conversationalist? As soon as he begins his butter-voiced inquiries, deal him a judo blow to the throat, put a heavy knee into his solar plexus, and say: "Enough about me — what's been happening to you lately?"

You'll leave him with an unforgettable impression.

Boater Aids Help Angler

COLUMBUS, Ohio (AP) — Marking underwater stumps as an aid to boaters also has been a help to fishermen, the Ohio Department of Natural Resources says.

White stakes are used, and fishermen make them targets for their lures, knowing that several species of fish seek shelter around underwater stumps.

The marking program is being conducted in the waters on state park lands.

Women Living Aboard Ship

HOUSTON (AP) — Sailors are supposed to have a girl in every port . . . but it's becoming more common for the ship's officers to have their wives with them in every port.

Some shipping companies are now making special concessions and allowing wives to go along on voyages.

On-board the motor ship Whangara, which docked here from New Zealand, were Mrs. Dean Brittain, wife of the Cap-

tain, and Mrs. John Needham, wife of the first officer.

Mrs. Wilhelm Vogeley has now spent 28 months with her husband, Capt. Wilhelm Vogeley, aboard motor ship Freienfels from Bremen, Germany.

This Water Vehicle

Skims Over Surface

FARMINGDALE, N. Y. (UPI) — Americans soon will be seeing a unique, air-cushion vehicle skimming over the water, reports Republic Aviation Corp., which has signed a licensing agreement for such a transport, craft with Vickers of Great Britain and with Hovercraft Development, Ltd., a second British firm that holds basic patents in the field.

Junior Editors Quiz on OPAL

QUESTION: What gives an opal its special color effect?

ANSWER: Precious opal is one of the most beautiful, as well as one of the most unusual gem minerals. There is a white, common kind which has little value, but precious opal possesses the qualities which make a stone rank as a gem: beauty of color and rarity.

This stone has a curious misty, milky color through which the light filters, resulting in sudden flashes of brilliant color, changing as one turns the stone.

Multitudes of tiny gas bubbles trapped within the stone give the misty effect, and the brilliant flashes are caused by different inner structures which cause "interference" of light rays—which collide with each other, throwing out rainbow color effects.

In Roman days, opal was ranked second only to emerald and it was known as a "noble" stone.

In the natural state, precious opal is found in such places as at upper left. It is not ground in many faces like diamond and other gems, but shaped in smooth ovals, so the inner color may be most enjoyed.

Gem opal comes from Australia, Japan, Mexico, Honduras, India, New Zealand and the western part of the U.S.

FOR YOU TO DO: Look in a jeweler's window and see if there is an opal there—it will probably be in a ring. Notice the misty effect and the flash of the colors as you move.

Basal Metabolism Not Correct Factor

By Dr. William Brady

"I was discharged from the Air Corps for 'low basal metabolism.' I had suffered no ill effects whatever, and there have been none since I was discharged. The medical school gives me a clean bill of health, but now I can't enlist in any branch of the service because of the Air Corps discharge." (P. H.)

I can't believe the Air Corps or any other branch of the

service of defense is so stupid. "Low basal metabolism" is not a diagnosis.

NOT SOUND

Rejecting a man, otherwise fit, merely because the machine registers low, is not sound medical practice.

To my Yankee Wiseacre reading this screed and smiling in his superior way at my audacity, I say this: Your medical merchant, having sold you a \$5 B.M.R., (basal metab-

olism test) for \$35 can't do a thing about it or for you that an honest doctor would not have done with the information elicited by proper medical examination.

In other words, I'm trying to tell you that the metabolism (apparatus for measuring basal metabolism), however useful in the physiology laboratory, serves but one purpose in practice — the gadget impresses a simple layman.

Time and again I have cited here the report by Dr. Barnes who found in a study of over 1,000 cases that the basal temperature test proved a better index than the basal metabolism test.

NOT CONTROVERTED

To the best of my knowledge, no one has controverted the fair and logical conclusion drawn by Barnes, namely, that a clinical thermometer and a little intelligence will enable a real doctor to get all the information about the store of metabolism that he can get by the use of the metabolism.

Hypothyroidism, functional deficiency of the thyroid gland and low basal metabolism are, in my judgment, pretentious ways of saying iodine deficiency. Generally there's nothing wrong with people who have low basal metabolism that a suitable iodine ration won't correct.

For instructions send me a self-addressed, stamped envelope and ask for the pamphlet, "The Iodine Ration."

Let no knucklehead infer that I advise anyone to take medicinal iodine or iodide.

RIDICULOUS IDEA

It is ridiculous to attribute acne to the infinitesimal quantity of iodine one gets from such sea food as lobster, shrimp, oysters, crabs, halibut, sole, mackerel, or from the use of iodized salt instead of ordinary salt; or from the daily ration of iodine I recommend (in the pamphlet) for every man, woman and child.

I recall the claim a medical colleague made, that he didn't like iodized salt—he could taste the iodine in it! A sea food dinner, serving of oysters or a can of tuna or salmon contains more iodine than one would get in iodized salt in a month.

Signed letters, not more than one page or 100 words long pertaining to personal health and hygiene, no disease, diagnosis, or treatment, will be answered by Dr. William Brady, a licensed and addressed envelope is sent to The Pontiac Press, Pontiac, Michigan. (Copyright, 1964)

Red Hands? They're Real

LaGRANGE, Ky. (AP) — Some motorists in Oldham County report they've seen a glowing red hand in the distance while driving at night.

But they've learned to obey it rather than panic.

Volunteer firemen are wearing reflecting red plastic gloves at the scenes of fires and highway accidents at night.

Tries to Sell Loot to Theft Victims

NEW YORK (AP) — Two Chinese paintings worth \$100 were stolen from the apartment of Francisco Perez.

Two days later, Perez, 25, and his wife, Esther, 23, were walking on the street near their Manhattan home when a man, later identified as Hector Diaz, 31, approached them with their stolen paintings and

offered the art works for sale for \$5.

Perez paid, then called for the police. Diaz was arrested soon after and charged with criminally receiving stolen property.

The odds against someone peddling back stolen goods to their original owner are 8 million to 1 in this city of 8 million inhabitants.

More dirt has been moved to bury pipelines, most of which carry oil or its products, than that required to build all existing canals.

PONTIAC SCRAP

The Lenten Story

BY WOODY ISHMAEL

CHRIST CLEANSSES THE TEMPLE

Only once in His life, did Christ show anger. Matthew tells the story in two dramatic paragraphs:

"And Jesus went into the temple of God, and cast out all them that sold and bought in the temple, and overthrowed the tables of the money-changers, and the seats of them that sold doves.

"And said unto them, It is written, My house shall be called the house of prayer; but ye have made it a den of thieves." (Matthew XXI:12-13)

WESTINGHOUSE REFRIGERATOR

Stretch Oysters With Corn

Canned sweet corn is on the U.S. Department of Agriculture's Plentiful Foods List this month. The large supply is of excellent quality and is being featured in food markets for canny shoppers. A good supply on the home storage shelf will be found to be great help to meal planning.

Canned corn lends itself to a broad range of cooking whims. If it is a vegetable that is needed there are any number of ways to prepare corn to serve alone, or combined with other vegetables.

Main meal courses using corn are many and varied, and one of the best is a soup supper. Hearty and creamy Corn Oyster Stew makes one of the most satisfying suppers possible.

Corn Oyster Stew

- 1 medium size onion
- 1 tablespoon butter, or margarine
- 1 can condensed cream of celery soup
- 1 cup half and half, or light cream
- 1 can (8 oz.) oysters
- 2 teaspoons Worcestershire sauce
- 1 can (12 or 16 oz.) whole kernel corn
- Mixed parsley

Cook chopped onion in butter until tender. Add celery soup, half and half, milk, liquid from oysters and Worcestershire sauce; mix well. Add corn and oysters; heat. Add a sprinkling of salt if needed.

Serve topped with mixed parsley. Six to eight servings.

Beat Up Gelatin For Frothy Dessert

Youngsters usually like frothy gelatin desserts. Make up a package of fruit-flavored gelatin dessert and chill it until it is partly set. Then beat it vigorously until it is light and fluffy. The dessert may now be put in a mold (to be unmolded later) or in dessert dishes; refrigerate until firm.

Meat Prices Reflect Lenten Use of Fish

Many consumers use less meat during Lent and this influences meat prices explains the District Extension Agent, Mrs. Josephine Lawler. However, this influence is more noticeable at live and wholesale markets than in retail stores.

Use of less meat during Lent at a time when there are generous supplies of beef, pork, and poultry, will result in attractive retail specials to move these products through the retail markets.

According to cattle buyers, there is presently an oversupply of heavy fed steers. Last week Chicago wholesale prices for Prime steers were the lowest in 18 years.

A recent Government survey showed that the number of heavy cattle being fed for the market as of January 1, 1964 increased 25 percent from a year earlier. This adds up to more beef to top quality than is usually available in February and March.

It could add up to substantial savings if you freeze tender beef steaks and roasts for summer use.

FRONT QUARTERS

This week shoppers will find that most emphasis is on beef forequarter cuts. These include the chuck blade, arm, and English roasts; and chuck steaks. Ground beef is an outstanding meat value at this time.

Most retailers report that wholesale pork prices are fluctuating, but shoppers will find most pork cuts featured in some stores.

Market reports show that the fall crop of hogs has not reached heavy marketing weights, that there is a dwindling supply of heavy weight hogs from last spring's pig crop.

In some respects this is good news for food shoppers. Top quality lean pork comes from hogs weighing 200 to 220 pounds. The leanest spareribs weigh

about three pounds; the lean loin weighs 12 to 14 pounds.

Don't overlook broilers, turkeys, and ducks. All are more plentiful than a year ago, and stores are giving emphasis to these again this week.

Of course you will continue to see promotional drives on fishery products at this season. Canned tuna, pink salmon, and Maine sardines are plentiful. Smelt, perch, haddock, cod and whitefish are good alternative choices.

READ LABELS

When buying fishery products, read labels and compare prices by style, type, and size of container. This is of special importance when checking frozen items.

Some frozen fish products are cooked; others are uncooked.

Many frozen fish packages weigh a pound, but some weigh less and others more.

Some fishery products are breaded so that part of the weight is not protein food.

All these considerations enter into your buying decision.

From January to July, large eggs are relatively more plentiful than eggs of medium size. Of course, the price of large eggs will be slightly more per dozen, but the large size is a more economical buy on a weight basis. At present, large and extra large eggs of the same grade are comparable values, and are the best egg buys.

Carrots, cabbage and potatoes represent some of the best vegetable values from standpoint of price.

Crunchiness Added

Here's a hurry-up supper sure to please all. Cook some chopped onion in butter until tender. Add canned beef stew and some salted peanuts; mix well and heat. Serve in bowls garnished with chopped parsley.

Salmon Fits Into Fast Day Menus

By JANET ODELL
Pontiac Press Food Editor

wouldn't welcome a little help—like some salmon recipes, for instance.

Salmon steaks are usually available in the frozen fish section of your supermarket.

They provide a colorful change from other more prosaic looking fish steaks.

Served with fresh lemon curd sauce, they'll be hailed by your family.

Broiled Salmon

4 salmon steaks, 4 to 1-inch thick (1 1/4 to 2 pounds)
3 tablespoons salad oil
Salt and pepper
1/4 cup mayonnaise
1/4 cup catsup

1 teaspoon grated lemon peel
3 tablespoons fresh lemon juice
1/4 teaspoon curry powder

Brush salmon steaks with oil; season with salt and pepper. Place on preheated, oiled, broiler pan about 5 to 6 inches from heat. Broil 3 to 5 minutes on each side until golden brown and fish flakes with fork, brushing occasionally with salad oil.

For sauce, combine mayonnaise, catsup, lemon peel, lemon juice and curry powder, blending well. Serve with the broiled salmon steaks. Makes 4 servings.

If salmon steaks are too rich for your budget, you can always turn to canned salmon.

Although red salmon is preferred by many, there is fully as much protein and nourishment in pink salmon. Perhaps you'll choose cans of that for a dramatic looking salmon mousse.

Salmon Mousse

2 cans (1 pound each) salmon
2 envelopes unflavored gelatin
1 cup instant nonfat dry milk crystals

1/4 cup water
1 tablespoon drained onion
1 vegetable bouillon cube
4 eggs, separated
2 teaspoons chopped dill
1/2 teaspoon salt
1/4 teaspoon celery seed
1/4 teaspoon parsley

Drain salmon, reserving 1/2 cup liquid. Sprinkle gelatin over salmon liquid to soften; stir over low heat until dissolved. In saucepan, stir instant crystals into water; add onion and bouillon cube. Stir over low heat until bouillon is dissolved (do not boil).

Beat egg yolks lightly; quickly stir into milk mixture and cook 3 minutes longer. Remove from heat; stir in salmon and seasonings. Stir in dissolved gelatin. Beat egg whites until stiff, but not dry; fold into salmon mixture until smooth. Turn into lightly oiled 2-quart mold. Chill until set. Garnish with chopped parsley. Makes 6 servings.

The above recipes too much trouble? Then here's your answer.

Salmon Sandwich Puff can be assembled in about 10 minutes. Although the recipe says to let stand for 30 minutes, it won't be hurt if it stands longer.

So prepare it after breakfast, pop it in the refrigerator and forget it until an hour before dinner. Bake and serve.

Salmon Sandwich Puff
6 slices bread, trimmed and cut into triangles
1 can (7 1/2 ounces) salmon
1/4 cup shredded cheddar cheese

Measure warm water into large mixing bowl. Sprinkle or crumble in yeast; stir until dissolved. Add sugar, salt, margarine, herbs, and 1 1/2 cups flour. Beat 2 minutes at medium speed on electric mixer or 300 vigorous strokes by hand.

Scrape sides and bottom of bowl often. Stir in remaining 1 1/2 cups flour. Blend with spoon until smooth, about 2 minutes. Scrape batter from sides of bowl.

Cover; let rise in warm place, free from draft, until doubled in bulk, about 30 minutes. Stir down batter. Spoon evenly into six greased 4 1/2 x 2 1/2 x 1 1/2 inch loaf pans. Sprinkle with se-

3 eggs, lightly beaten
1/4 teaspoon salt
1/4 teaspoon paprika
dash cayenne
1 teaspoon minced onion
1 1/2 cups milk

Line a buttered 1 1/2 quart baking dish with half the bread triangles. Drain salmon, reserving liquid and flake salmon. Sprinkle salmon and cheese over bread, and top with remaining bread triangles.

Combine eggs, salt, paprika,

cayenne, onion, milk and salmon liquid, pour over ingredients in dish and let stand for 30 minutes.

Bake in a preheated 350 degree oven for about 1 hour, or until well browned and puffed. Serve immediately. Serves 4.

Stir a pinch of chili powder, a cup of partially drained canned tomatoes and a teaspoon of instant onion into a cooked 10-ounce package of frozen green beans.

Apples and Cabbage Get Curry Dressing

Combine in a large salad bowl 1 cup shredded green cabbage, 2 sliced, cored Macintosh apples, 1/2 green pepper, cut in slivers and a small onion, thinly-sliced or a teaspoon of grated onion. To this add a dressing of 1/4 cup Spanish olive oil, 1/4 teaspoon salt, 1/4 teaspoon paprika, a pinch of curry powder and 2 tablespoons vinegar.

Toss to blend well; marinate salad half an hour before serving. Makes six servings.

Bit of Curry Flavors Fruit

Soften 1 package (3 oz.) cream cheese with about 3 tablespoons syrup drained from 1 can (1 lb. 14 oz.) fruit cocktail. Blend in 2 tablespoons brown sugar, 1 teaspoon lemon juice and 1/2 teaspoon curry powder.

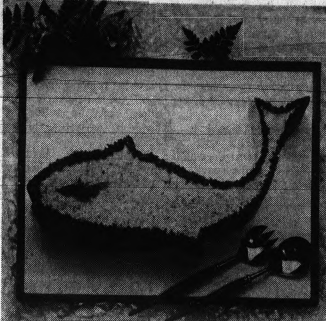

Lightly stir cheese mixture into combination of drained fruit cocktail and diced apple and banana. Chill and serve in individual bowls, sprinkle with nutmeg. Pass thin lemon cookies for an exotic but easy dessert.

Stuff Cooked Prunes With Orange-Chèese

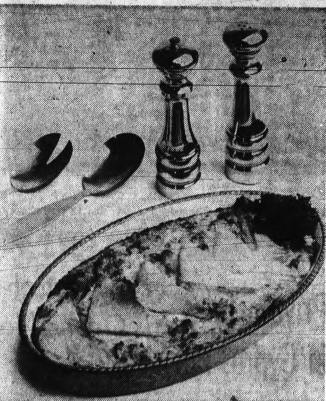

Prunes and oranges are compatible flavors; use them in a lunch-time salad.

Flavor cottage cheese with grated orange rind and stuff cooked prunes with the mixture; arrange the prunes on salad greens with round slices of orange. Serve with French dressing or mayonnaise.

If you don't cover apples you are baking, be sure to taste them occasionally with the syrup in the pan.

SALMON MOUSSE—A shimmering, silvery pink mousse of salmon molded in a spectacular fish shape and outlined with a slender rim of chopped parsley. Instant nonfat dry milk crystals give the mousse delicate texture and flavor, fewer calories, too.

SALMON SANDWICH PUFF

BROILED SALMON

Serve Little Loaves of Herb Bread

Nowadays, stylish hostesses are serving each of her guests an individual loaf of bread with dinner. If it's an informal affair, the breads can be served on tiny boards, with a sharp

knife for cutting each place as needed. These are sprinkled with nutty sesame seeds.

Herbed Little Loaves

1 1/4 cups warm water
1 package or cake yeast, active dry or compressed
2 tablespoons sugar
2 teaspoons salt
2 tablespoons Fleischmann's margarine, softened
1/2 teaspoon basil
1/2 teaspoon thyme
1/2 teaspoon oregano
3/4 cups unsifted flour
Sesame seeds

Measure warm water into large mixing bowl. Sprinkle or crumble in yeast; stir until dissolved. Add sugar, salt, margarine, herbs, and 1 1/2 cups flour. Beat 2 minutes at medium speed on electric mixer or 300 vigorous strokes by hand.

Scrape sides and bottom of bowl often. Stir in remaining 1 1/2 cups flour. Blend with spoon until smooth, about 2 minutes. Scrape batter from sides of bowl.

Cover; let rise in warm place, free from draft, until doubled in bulk, about 30 minutes. Stir down batter. Spoon evenly into six greased 4 1/2 x 2 1/2 x 1 1/2 inch loaf pans. Sprinkle with se-

same seeds. Cover; let rise in warm place, free from draft, until doubled in bulk, about 40 minutes.

Bake in moderate oven (375 degrees) 45-50 minutes, or until done.

Grind leftover ham and bake in a ham loaf. Ham, cubed or julienne, makes a delicious salad when combined with greens or macaroni, celery and pickles, or a combination of fresh or chilled cooked vegetables.

Mix cubed cooked ham and cooked vegetables, rice or macaroni with creamed soup, and heat in the oven as a casserole dish.

Company touch: add sliced water chestnuts to cooked green peas and heat gently with butter.

You Can Use Every Bit

Leftover ham can be cubed and creamed, then served over biscuit, corn bread, baked sweet or Irish potatoes.

Grind leftover ham and bake in a ham loaf. Ham, cubed or julienne, makes a delicious salad when combined with greens or macaroni, celery and pickles, or a combination of fresh or chilled cooked vegetables.

Mix cubed cooked ham and cooked vegetables, rice or macaroni with creamed soup, and heat in the oven as a casserole dish.

Closed Tomorrow

Mart Sees Moderate Trading

NEW YORK (AP)—The stock market clung to an irregular advance early this afternoon in moderate trading.

Steels, motors and rubbers continued the leadership they showed in yesterday's market but most gains were slight.

Caution prevailed in view of the long weekend ahead. Stock exchanges will be closed tomorrow in advance of Washington's Birthday.

The rise in durable goods in January provided encouragement but not enough to stir the market from its dawdling performance of recent sessions.

Rails also put on a relatively strong performance while tobacco, building materials and

nonferrous metals were mixed. The trend was slightly lower among chemicals, aerospace issues and airlines.

AP AVERAGE
The Associated Press average of 60 stocks at noon was up 2 1/2 at 295.5 with industrials up 3 1/2 at 295.5 and utilities unchanged.

Both averages were above their latest closing records established last week.

Among the rails, Rock Island advanced more than a point to a new high on prospects that a new fight for its control will be renewed. Pennsylvania Railroad also made a new high with a fractional gain. New York Central, Southern Pacific and

Southern Railway were among fractional gainers.

ON THE AMEX
On the American Stock Exchange, airlines paced an irregular advance in moderate trading. Active fractional gainers included Allegheny Airlines, Eastern Airlines, Alaska Airlines and Seaboard World Airlines. Flying Tiger gained about a point. Gains of about a point were made also by Page-Hersey Tubes and Pittsburgh Railways. VTR Inc. lost about a point.

Among fractional gainers were Syntex, Borne Chemical, Mass-Ferguson and Textron warrants.

Corporate bonds were mixed. U.S. Government bonds were unchanged to lower.

Azores Quakes Cause 1 Death

Shock Kills Youth; Evacuation Halted

ANGRA DO HEROISMO, Terceira, Azores (AP)—The first casualty was reported today from the earthquakes that sent 1,000 refugees fleeing from Sao Jorge Island in the Azores. He was a youth with a heart condition who died of shock.

The emergency evacuation that brought the islanders to nearby Terceira was halted on Wednesday when the six-day series of quakes subsided. The other 19,000 inhabitants chose to stay on the island, though the homes of thousands were leveled by the frequent earth shocks.

Gov. Teotónio Machado Pires said today that no tremors had been registered on Sao Jorge for more than 24 hours.

THOUSANDS HOMELESS
Tents, medicine and food were rushed to the homeless thousands on the narrow, 24-mile-long island 20 miles from Terceira. U.S. Air Force planes stood by at the Lajes base on Terceira to assist, but high winds kept them grounded for the fourth day.

The American freighter Steel Director joined nine British, Norwegian, Italian and Yugoslav ships in removing dazed refugees. Two landing craft from the U.S. Air Force base at Lajes, on Terceira's eastern shore, brought the refugees from the larger ships to shore.

Most of the 1,600 buildings in the area of Velas, Sao Jorge's chief town, were reported destroyed.

The news was that is that, is desolation and ruins in that one happy sector of the island's district government said.

HEAVY DAMAGE
Rosario Township also was reported heavily damaged.

Portugal, which rules the volcanic Azores chain 1,000 miles west of Lisbon, sent troops to Sao Jorge with relief supplies.

Antonio Loureiro, a refugee, said he lost count of the tremors, which began last Friday.

"There must have been over 1,000 of them," he reported.

Grain Futures Stay Almost Stationary

CHICAGO (AP)—Prices held almost stationary during the first several minutes of transactions today on the Board of Trade.

All commodities were within minor fractions of previous closes in rather slow and mild dealings which dealers said appeared to be further liquidation absorbed by scattered commercial demand.

After about an hour trade virtually was at a standstill with wheat 1 cent a bushel higher, March \$2.63 1/2; soybeans unchanged to 1/4 higher, March \$2.63 1/2; oats unchanged to 1/4 lower, March \$1.17 1/2; corn unchanged to 1/4 higher, March \$1.40.

Athletics, Student Government Top OU Topics

Interest in intercollegiate athletics and student government was reflected by Oakland University students Tuesday at a general meeting with Chancellor D. B. Varner.

The OU chancellor met with an estimated 400 students to discuss current problems and issues, fulfilling his promise to hold at least one all-student meeting every semester.

Varner and other OU officials answered questions from students for an hour and a half.

"A great deal of interest was reflected in student government, although it was not mentioned by name, and intercollegiate athletics," said the chancellor, EYE REFERENCE.

He said that one student proposed a referendum on the controversial athletic question.

Robert Surveille, chairman of the newly formed dormitory council, suggested that his group might conduct a poll on the subject.

Intercollegiate athletics has been a topic of heated debate for some time at the university. Opposition on the issue has been led by the student newspaper.

Varner said that he was on neither side of the question.

MODEST PROGRAM

"If it appears in the best interests of this institution," he added, "I would not oppose a modest, low pressure program that was not in conflict with the objectives of the university."

From the type of questions

Varner thought that the faculty would probably oppose intercollegiate athletics.

He emphasized that any such program "would have to be consistent with what we are trying to do."

From the type of questions

asked, Varner thought that a move to revive student government at OU might be in the offing.

REPRESENTS STUDENTS

The chancellor pointed out that a 12-member dormitory council was recently formed to represent resident students.

He said that some complaints were registered in the all-student meeting over the "arbitrary" operations of a combined faculty-student committee, which is an appointed group.

Varner indicated this might

be further evidence that students were becoming interested in resurrecting student government for all students.

Student government collapsed in the university's third year, primarily because of a lack of interest, according to Varner.

Deaths in Pontiac Area

GUSTAVE DOYON

Reguless Mass will be offered for Gustave Doyon, 57, of 50 Cottage at 10 a. m. tomorrow in St. Vincent de Paul Catholic Church with burial in Mt. Hope Cemetery.

The Rosary will be recited at 8 p. m. today in the Melvin A. Schutt Funeral Home.

Mr. Doyon, an employee of Pontiac Motor Division, died Tuesday.

WALLACE H. TANK

Service for former Pontiac resident Wallace H. Tank, 40, of 361 W. Wilson, Glendale, Calif., will be 1 p. m. Saturday in Voorhees-Siple Chapel with burial in Perry Mount Park Cemetery. His body will be at the funeral home tomorrow.

Mr. Tank, died Monday after a long illness.

Surviving are his parents, Mr. and Mrs. Norman F. Tank of Pontiac; two sisters, Mrs. Bernice Parker of Pontiac and Mrs. Dorothy Meyer of Corvallis, Ore.; and three brothers, Lee A. of Tawas City, Norman Jr. of Caro and Charles of Detroit.

EVERETT J. EARICH SR.

AVON TOWNSHIP — Service for Everett J. Earich Sr., 68, of 3922 Cone will be 11 a. m. Saturday at Moore Chapel of the Sparks-Griffin Funeral Home, Auburn Heights. Burial will follow in Glen Eden Cemetery, Livonia.

Mr. Earich, a retired press operator at the Avon Tube Manufacturing Co., died Tuesday of a heart attack.

EVERETT E. FRANCIS

HOLLY — Service for former resident Everett E. Francis, 62, of Detroit will be 2 p. m. Saturday at the Dryer Funeral Home here. Burial will be in Olive Branch Cemetery, Groveland Township.

Mr. Francis died Tuesday after an extended illness.

He worked for the UAW international union in the General Motors department until his retirement in 1961.

He was a member of the Pontiac Aerie, Fraternal Order of Eagles.

Surviving are his wife, Jessie; a son, Lee of Detroit; a daughter, Mrs. Pauline Allen of Pontiac; his father, William of Indianapolis, Ind.; a brother and four grandchildren.

CLYDE F. HARR

UNION LAKE — Service for Clyde F. Harr, 67, of 7910 Flagstaff will be 1 p. m. Saturday at the Richardson-Bird Funeral Home, Wall Lake. Burial will follow in White Chapel Memorial Cemetery, Troy.

Mr. Harr, a retired rate engineer for the Oldsmobile Motor Division, Lansing, died yesterday after a long illness.

He was past commander of Lansing Post No. 237, American Legion.

Surviving are his wife, Beulah; two daughters, Mrs. Nancy Munn of Union Lake and Mrs. Dorothy Kinsley of Denver, Colo.; a sister and four grandchildren.

CAI to Install New Officers

Arthur Salley will be installed as president of Community Action Inc. at the March 24 meeting of the CAI board of directors.

Other newly elected officers who will be installed in office with Salley are Mrs. Charles Walters, vice president; Ivan Norgrove, treasurer; and Robert Snyder, secretary.

Newly elected members of the board of directors are Mrs. William Bruckman, Mrs. Russell See, John DeWees, Clarence Novess and Snyder.

Each year five new members of the 15-member board are elected for three-year terms.

The officer had just returned to the post from a trip to nearby Southern Michigan Prison and had not reclaimed his weapon.

An emergency call came from the supermarket where a manager suspected a forged check was being offered.

Schools Plan Vote Strategy

Campaign plans were to be mapped at a 2 p. m. meeting today of the Oakland Schools Board of Education and the executive board of the Community College Citizens Committee (CCCC).

The school board will check on progress of the citizens committee, appointed by the board last fall to direct the community college vote.

The school board has set the election on the three-part college proposal for June 8.

Shaking Gun Hand Is Tip-Off to Leave

JACKSON (AP) — "His gun hand started to shake so I thought I had better bail out," said State Police Sgt. Charles Southworth Wednesday in describing how he jumped from the car after a forgerly suspect pulled a gun.

Southworth was unarmed and in plain clothes. He was taking a man who identified himself as James T. Lata of Jackson to state police headquarters for questioning concerning a check he had tried to cash at a supermarket.

The officer had just returned to the post from a trip to nearby Southern Michigan Prison and had not reclaimed his weapon.

An emergency call came from the supermarket where a manager suspected a forged check was being offered.

Kelley Tells Duties of Auditor General

LANSING (AP) — Atty. Gen. Frank Kelley ruled Wednesday that Michigan's new appointed auditor general has no duties other than those spelled out in the constitution.

These include he said auditing of all state agencies, authorities and institutions but do not include county and township governments.

The present auditor general conducts audits of county and township governments by request of the attorney general or on petition of 25 per cent of the area's registered voters.

Death Notices

Method of Blast Not Determined in Safecracking

Michigan State police said today it has not yet been determined what method was used to set off explosives during a safecracking at the Independence Township Hall yesterday.

Thieves escaped with \$100 in cash from the safe, but overtook \$1,000 in an inner compartment.

Police are setting the time of the burglary between 5 and 5:30 a. m., when a nearby resident heard an explosion.

Earlier this month, \$1,000 was stolen from the safe at the Orton Township Hall.

PHONE HOOKUP

At that time, the thieves attached the wires of dynamite caps to the ringing circuit of the telephone, left the building, dialed the township hall number and exploded the charge.

'Yesterday's blast caused extensive interior damage to the township hall.

Suit Brought Due to Cat

CHEYENNE — A Cheyenne animal hospital has been sued for \$3,225 as a result of a lost cat.

Laura and Bill Hopper, Cheyenne, claimed the animal hospital lost their cat which was left there.

The suit seeks \$25 for the cat; \$200 for advertising in an effort to find it; and \$3,000 for mental and physical anguish.

Africa Nations Reach Accord

Algeria and Morocco Tell of Border Pact

ALGIERS (AP)—Algeria and Morocco have settled the border dispute that plunged them into a brief, undeclared war three months ago, President Ahmed Ben Bella announced today.

"I have the great joy to announce that a definite accord has been reached between Algeria and Morocco," the Algerian president said.

Ben Bella said a military commission worked out the agreement and representatives of both countries signed it Wednesday.

He said the agreement should pave the way for restoration of diplomatic relations between the North African neighbors.

NO DETAILS
 Ben Bella gave no details of the agreement. A spokesman in Rabat of Moroccan King Hassan's cabinet confirmed the accord but also did not give details.

However, informed sources said the countries agreed to a demilitarized buffer zone and that both made concessions. Fighting between Moroccan and Algerian troops broke out in early October in an ill-mapped region of the western Sahara.

Movie Maker and Writer in Double Take on Script

By EARL WILSON

NEW YORK—David O. Selznick, famed producer of "Gone With the Wind," who has been considering a return to the Hollywood scene, wrote to Ben Hecht in N.Y. urging him to do a movie script of the best-seller, "Dorothy and Red," to star his wife, Jennifer Jones, Hecht pounced on a reply in strong language explaining he wasn't in the least bit interested in doing a movie about the late Dorothy Thompson and the late Sinclair (Red) Lewis.

To Hecht's astonishment, he received a reply from Selznick, saying, "Jennifer and I are fascinated by your approach to this story, and cannot wait to see your first draft."

WILSON
 Natalie Wood and Arthur Leary Jr. are acting like those stories are true about getting married very soon. Jack Paar's going to get an offer to star at the Las Vegas Riviera, from Joe Pasternak, who now has a small piece of that hotel. Norman Rosemont, executive producer of the next Robert Goulet TV show, has cast himself in it, in a small acting role, a la Hitchcock.

Although President Johnson has a "mide deal" he's been known to take a dip in the White House pool without swim trunks—the Nudist Party plans to nominate its own candidate for President at a Nudist National convention in Little Rock, Ark., on June 23. So I'm told by Robt. Clougher of Holy City, Cal., who says it may also be "mide-worthy" that the nudist delegates may wind up in jail because there's a 1957 Arkansas law prohibiting advocacy of Nudism.

THE MIDNIGHT EARL

George Jessel says Frank Sinatra recently loaned him his Beverly Hills home, complete with food, liquor and servants. Jessel told him jokingly, "But, Frank—no spending money." So he offered him a roll of bills. Neil Sedaka swam to help his father, floundering in the surf near Rio de Janeiro, and both of 'em had to be rescued. Polly Bergen ended the third in her chain of women's clothing stores.

TODAY'S WORST PUN: A fellow who marries an heiress for her money is just trying to cash a check.—H. E. Martz, San Jose, Calif.

REMEMBERED QUOTE: Mark Twain said it long ago, and of course it's current again: "To cease smoking is the easiest thing I ever did I ought to know, because I've done it a thousand times."

EARL'S PEARLS: Temper gets you into trouble. Pride keeps you there.—Bob Goddard.
 In Washington it's not the thought counts, says Bud Dietrich, it's the size of the gift. A necktie has never been investigated.—That's earl, brother.

In Sinatra Kidnaping Case

Court Will Hear Tapes of Ransom Calls

LOS ANGELES (UPI)—The prosecution at the Frank Sinatra Jr. kidnap trial today planned to play taped recordings of telephone calls arranged for the safe release of the young singer for \$240,000 ransom.

The calls were made between the 29-year-old entertainer's movie-star father and one of three men on trial for abducting Sinatra Jr. from a Lake Tahoe motel on the California-Nevada border Dec. 8.

At the same time, the elder Sinatra was under a federal court order to stand by for being recalled to court within an hour's notice for cross-examination by defense attorneys in connection with the tapes.

Federal Court Judge William East issued the stand-by order following Sinatra's appearance at the seventh day of the trial of Barry Worthington Keenan, 23; John William Irwin, 42; and Joseph Clyde Ansler, 23.

DENIES HOAX
 On the witness stand for two hours yesterday, Sinatra denied emphatically that the kidnaping of his son was a "hoax" or "publicity stunt," as the defense has contended.

The 47-year-old crooner also disclosed under cross-examination that Atty. Gen. Robert Kennedy telephoned him twice during the kidnaping to chat with him "personally as a friend."

Sinatra described the calls as unofficial, and East ruled that it was not necessary for him to reveal what was discussed.

Although defense attorneys hammered away at Sinatra with sharp thrusts, the crooner-actor maintained full composure—answering all questions languidly and politely.

SHOWED ANNOYANCE
 However, Sinatra—known for an occasional fiery temper—showed signs of being annoyed at one time or another.

Throughout the testimony, he referred to his son, a singer trying to follow in the footsteps of his father, as "my boy."

Sinatra said one of the kidnapers, while telephoning him to tell him of the release of Sinatra Jr. in the West Hollywood hills, apologized for the kidnaping, saying he was "so, so sorry."

"The voice said he wished to hell he'd never got into it, but that it was too late to get out of it," Sinatra said. "The kidnapers said he didn't like any part of it and was glad it was all over."

The prosecution has identified Irwin as the defendant who negotiated with Sinatra in a series of telephone conversations setting up the release of the crooner's son for the ransom payoff.

Sinatra, a stern expression on his tanned face throughout his testimony, said the kidnapers used a code of identification during the calls. They stipulated that when a call was received, the answering party said, "This is John Adams."

The conversation began with the accused abductors replying, "Patrick Henry."

On the telephone call disclosing young Sinatra's release, the crooner said "the voice" told him:

DROPPED OFF
 "I just dropped your son off somewhere near Mulholland Drive, and the San Diego freeway. You'd better go get him because it's cold up there."

Sinatra said he immediately jumped in his car and "went out looking for my boy," but couldn't find him.

"The first time I saw him was when he was returned to his mother's home (the home of

Area Motorists

8 Lose Driver's License

Eight area motorists recently had their drivers' licenses either suspended or revoked by the Michigan Department of State.

Franklin S. Bowman, 63 Norton, was ordered to show

proof of financial responsibility due to conviction of drunk driving. Unsatisfactory driving records caused the following to be ordered off the road: David C. Beare, 311 N. Eton

and Michael B. Scholl, 6522 Knollwood, both of Birmingham.

Ordered to show proof of financial responsibility due to unsatisfactory financial judgments against them were: Brent L. Hart Jr., 485 Northfield; George Thomas, 309 Osmond; Albert J. Bears, 130 Walnut, Rochester; James R. Nolan, 2899 Walbridge, Rochester; and Thomas O. Stone, 21803 Inkster, Farmington.

Churchill Is Back in Commons Seat

LONDON (AP)—Sir Winston Churchill, due to retire from political life this year, turned up at the House of Commons Wednesday night and joined in ushering through a piece of routine legislation. Churchill, 89, has made fre-

quent appearances lately as his long parliamentary career nears an end. A national election is due this year and Sir Winston has said that he will not be a candidate.

The highest improved automobile highway in eastern United States reaches Clingman's Dome in the Great Smoky Mountains. This mountain itself has an elevation of about 6,643 feet.

Volkswagen Sets New Sales High for 1963 in U.S.

ENGLEWOOD CLIFFS, N.J. (UPI)—Volkswagen of America set a new sales record in 1963 with the sale of 277,006 cars, the firm reported yesterday.

Sales of the German-designed cars were 24.4 per cent

higher than the previous year, said Stuart Perkins, Volkswagen general manager.

He said there are now more than 1.5 million Volkswagens on America's highways, and sales during January of this year were higher than during January 1963.

Thunderstorms in Bogor, Java, occur on the average of about 320 days a year.

Pontiac Motor to Expand Foundry Facilities

PONTIAC EXPANDS— Formal announcement of a 180,000-square-foot expansion to the foundry facilities at Pontiac Motor Division will be made tonight by E. M. Estes (left), Pontiac general manager. Estes, looking at a scale model of the addition with Buel E. Starr, works manager, and Ted Schroeder, foundry superintendent, outlined the project as one that will give Pontiac Motor the most modern foundry unit in the industry.

Project Ground Breaking Expected in About 2 Weeks

A multimillion dollar expansion and modernization of Pontiac Motor Division foundry facilities will be announced tonight by E. M. Estes, Pontiac general manager.

Estes said groundbreaking on the new project, the second major building program undertaken by Pontiac within the past nine months, will begin in two weeks.

Formal announcement of the new project is to be made by Estes in a speech to the American Foundryman's Society meeting at the Whitaker Hotel in Detroit.

"Our expansion program will give us the most modern foundry facilities in the automobile industry," said Estes.

FOUNDRY AREA

The foundry area will increase to 796,300 square feet from the present 616,000 square foot area.

The new building will be connected with the present foundry along Montcalm St. and cover the present site of parking lots along Montcalm extended to Glenwood.

Foundry improvements include a series of new hot box core making machines to improve accuracy and new water-cooled cupolas with no lining in the melting zone and able to run continuously for extended periods.

A new finishing room will make possible a greater capacity for cleaning castings in

addition to housing the latest cleaning equipment.

TWO SHIFTS

"Based on regular two-shift operation, the new facilities and modernization will substantially increase the foundry's metal pouring capacity," Estes explained.

The latest Pontiac Motor expansion, to be completed in October, followed the announcement in August, 1963, of an addition to any modernization of frame plane facilities.

This program, which also included the addition of more than 1,000 feet to the final assembly line, has already been completed.

Construction of the original foundry was begun in 1927 with metal being poured the following year.

At that time the foundry contained 247,764 square feet, less than half the size it will attain under the new expansion.

Flood Waters Recede From Philippine Island

MANILA (AP)—Flood waters were reported receding today on Mindanao Island after submerging a wide area in the eastern section of that Philippine island.

No complete official totals of casualties or damage were as yet available. In Davao Province alone, however, the constabulary said eight persons were dead and seven others missing.

Baker Refusal Hinders Probe

Former Senate Aide Silent to Questions

WASHINGTON (AP)—Senators push ahead today with the Bobby Baker investigation, but the former Senate aide has flung a wet blanket over the inquiry by his refusal to answer questions.

There is substantial opinion around the Senate that while a lot of smoke still may pour out of the investigation, most of its low-burning fire may have been snuffed out.

A Republican member of the Senate Rules Committee, unwilling to be quoted by name, said that Democrats were talking about a speedy windup of the inquiry but that Republicans have around 40 prospective witnesses they want interviewed and possibly called to testify.

Baker, who resigned under fire last Oct. 7 as secretary to the Senate's Democratic majority, is under subpoena to appear for questioning at a public hearing next Tuesday.

CONTINUE SILENCE

But he said Wednesday, after a closed hearing at which he refused to surrender subpoenaed documents, that he would follow the advice of his lawyers and decline to answer the committee's questions.

The committee said that after Tuesday's hearing it will consider whether to recommend to the Senate that he be cited for contempt of Congress, punishable by a year in jail, a \$1,000 fine, or both.

More Excused in Attempt to Pick Ruby Jury

21 Candidates Have Been Rejected; Belli Presses Trial Move

DALLAS (AP)—Five more prospective jurors in the Jack Ruby murder case were dismissed for cause in rapid order today. This brought to 21 the total of jury candidates who have been rejected.

After the 19th rejection, Melvin Belli, chief defense counsel, renewed his motion that the trial be moved to another Texas city.

Dist. Court Judge Joe B. Brown turned him down again.

As the third day continued in the effort to assemble a jury, there still was not a single juror for the trial of the man who killed Lee Harvey Oswald, accused assassin of President John F. Kennedy.

Of the first five prospects struck from the list today, two women and a man said they cannot return a verdict of death in the electric chair.

Another man said he cannot be convinced that Ruby was insane when he gunned down Oswald. And another woman said she had an opinion as to Ruby's guilt or innocence.

Rejected in the first moments of today's session were Mrs. Maude Ford, 52, and Mrs. Margie N. Ackles, 42.

Answering the questions of Dist. Atty. Henry Wade, Mrs. Ford said she has religious scruples against capital punishment. Mrs. Ackles said she had served as a juror in a narcotics case in Dallas "four or five years ago."

She said she was familiar with the duties of a juror. When Wade advised her that (Continued on Page 2, Col. 1)

DEVASTATED BY FIRE—The Devon Crafts Antique Shop, housed in a large remodeled barn at 1135 W. Long Lake, Bloomfield Township, was leveled by an early morning fire which also cut off power in a portion

CHANGING HANDS—The president's gavel changed hands at last night's annual meeting. Theodore Bloom (left), 1964 president, Pontiac Area Chamber of Commerce meets

accepts the symbolic instrument from the outgoing chamber president, Dr. F. Milton Hathaway. Bloom is personnel director at Pontiac Motor Division.

Two Firms in Area Hit by Night Fires

Two area fires during the night destroyed a Bloomfield Township antique shop and caused more than \$50,000 damage to a Troy factory.

The Bloomfield blaze also severed utility lines, leaving buildings for a square mile without power. The large red barn housing the Devon Crafts Antique Shop was at 1135 W. Long Lake.

Among those caught without telephones, lights and radio were the township fire and police departments.

The power loss occurred for about 20 minutes after the fire was reported at 2:05 a.m.

Dispatcher Fred Harbrueger said he was summoning a volunteer fireman when it happened.

For the next hour and a half it was touch-and-go until an emergency power unit was put to work.

During the period the department had one call, an in-hallway run. Harbrueger got the message to a patrol car by using the radio in a car left at the station.

Firemen didn't attribute loss of the building to the power failure.

"It was beyond saving when we got the report," Harbrueger said.

W. Richard Walsh, owner of the remodeled barn behind his home, was unable to estimate immediately the cost of the blaze which completely leveled the building.

FIREMEN ASSISTED

About 25 firemen fought for 2½ hours to keep the blaze under control. Those from Bloomfield Township were assisted by a crew from Bloomfield Hills.

Fire swept through the front section of Palmer Paint Products Co. in Troy early last night, causing traffic on Stephenson to be rerouted for two hours and gutting the front of the building's second level.

Troy Fire Chief Lauren said the 32 men who battled the fire did a "terrific job" to save the remaining part of the building.

Civil Defense workers aided by Paul Lennon, billed as "America's Connet of Comedy" and the Bob Duffan Trio.

Area Chamber Installs Chief

Bloom Takes Over at Yearly Banquet

Theodore B. Bloom took over as president of the Pontiac Area Chamber of Commerce last night as several hundred persons filled the banquet hall of the Elks Temple for the chamber's 54th annual dinner meeting.

Bloom, personnel director of Pontiac Motor Division, was elected 1964 president in December. The new president is traditionally installed at the chamber's annual meeting in February.

Outgoing President Dr. F. Milton Hathaway, a Pontiac optometrist, passed the gavel to Bloom commenting that the new president "is a man with all the qualities of leadership needed to fill this office."

In assuming the post, Bloom said, "I hope to rap this thing to signify the successful completion of numerous chamber projects in 1964."

COMMUNICATION

Commenting on the past year, Hathaway said that "one of our goals in 1963 was better communication with the public and the membership."

"There is no question we have had more exposure through our new monthly newsletter and press and radio this past year than ever before."

The chamber presented Hathaway with a television set in recognition of his "fine accomplishments this past year."

ENTERTAINMENT

Entertainment was provided by Paul Lennon, billed as "America's Connet of Comedy" and the Bob Duffan Trio.

Reduction Bill to Take Effect by March 11-12

Conferees End Job; Measure Sent Back to House and Senate

WASHINGTON (AP)—An \$11.5-billion tax cut, largest in the nation's history, is ready for the final formalities expected to put more money into the pockets of 80 million American taxpayers by mid-March.

Senate and House conferees completed work on the 400-page measure yesterday.

The House is expected to pass the compromise bill next Tuesday, with Senate action coming either the same day or next Wednesday. Little opposition is anticipated.

President Johnson is then expected to sign the bill early the following week. The first effects of the bill will come in reduced withholding of taxes in paychecks dated eight days after the measure is signed—either March 11 or 12.

The reductions average about 19 per cent of present individual taxes. Rates for some 550,000 corporations are also being cut. Conference agreement climaxed a solid year of concentrated work in rewriting dozens of provisions in the U.S. tax code.

LAST FEBRUARY

House hearings began on the bill in February last year, just after the late President John F. Kennedy asked Congress for a massive tax cut to try to solve many of the nation's economic problems.

Johnson followed his predecessor in putting the tax cut (Continued on Page 2, Col. 3)

Wrong Man Is Target of Dallas Bullet

DALLAS, Tex. (AP)—A distraught divorcee took a wild shot yesterday in the busy Dallas air terminal at a man she mistook, by her later account, for radio executive Gordon McLendon.

The bullet, fired from 15 feet at W. W. Dyer of Dallas, lodged in a small handbag carried by D. A. Peterson of Park Ridge, Ill.

Both men were walking to board a 4:45 p.m. flight to Chicago.

Dyer's wife shoved the woman, Mary Elizabeth Stone, 47, to the floor, police said, as she tried to shoot again and the weapon jammed.

WRESTS AWAY PISTOL

An airline employee wrested the pistol from Mrs. Stone.

McLendon, a candidate for U.S. Senator in Texas' Democratic primary May 6, described the incident as an obvious attempt to assassinate him.

He said he would ask Atty. Gen. Robert F. Kennedy to order an FBI investigation.

Sun to Shine in Between Snow Flurries

Skies will be partly sunny with temperatures a little colder tomorrow, the high near 34.

Occasional snow flurries will continue through tonight with the low dropping to 29. Little change in temperature is expected Saturday.

Morning northerly winds at 10 miles per hour will continue through the night.

Twenty-four was the low reading in downtown Pontiac prior to 8 a.m. The mercury had climbed to 32 by 1 p.m.

Searchers See Little Hope for 14 From British Ship

NEW YORK (AP)—A Coast Guard cutter and planes continued searching the Atlantic today for 14 men missing from the storm-battered British freighter Ambassador, but their survival was considered improbable.

Twenty of the 35 crew members have been rescued. The captain died.

Coast Guard area headquarters reported that a Dutch tugboat today took over the listing

More Excused in Attempt to Get Ruby Jury

(Continued From Page One)

the state will ask the death penalty for Ruby and asked if he has religious or conscientious scruples she replied:

"Not religious but conscientious. I just don't feel I would be able to do it. I don't want to be any part of it."

Ruby, flanked by his lawyers, nodded to both women when the district attorney pointed out to them where he was sitting.

The accused man's chief counsel, Belli, has previously stated that he was taking exception to excusing jury candidates who have scruples against voting the death penalty.

ALL FOR DEATH?

He told the court yesterday that, if this practice prevails, the jury eventually chosen will be composed entirely of jurors who are willing to return a verdict of death.

He renewed these exceptions today.

J. P. Carr, 21, a bookkeeper, was disqualified by the court when he said, "I don't think they can prove to me that he (Ruby) is insane."

Then E. G. Boyd, 60, owner of a trailer company, was excused because of opposition to capital punishment.

Mrs. H. M. Waine, a housewife, 59, followed Ruby to the stand and said: "I really can't help having formed some opinion."

A. B. Catlett, an engineer, was excused because of illness.

Scarlet Fever Shuts a Tecumseh School

TECUMSEH (AP)—The suburban Ridgeway elementary school was closed Wednesday following a sharp increase in cases of scarlet fever. School officials said 25 students were sent home with possible scarlet fever.

The Weather

Full U.S. Weather Bureau Report

PONTIAC AND VICINITY — Variable cloudiness and a little colder with occasional snow flurries today and tonight, high 34, low 20. Friday partly sunny little change in temperature, high 34, North to northwest winds 10 to 20 miles.

NATIONAL WEATHER — Snow flurries are forecast tonight for the Dakotas, the northern Atlantic states and over the Ohio Valley and the eastern Great Lakes region. Other weather will prevail over the entire area from the Rockies eastward. The rest of the country will have partly to fair weather with little temperature change.

KARL W. BRADLEY

Director of UF Resigns Post

Karl W. Bradley, executive director of Pontiac Area United Fund since 1955, today announced his resignation to accept a similar post in Gary, Ind.

Bradley, who heads United Fund's paid staff organization, said he expects to leave his present post about May 1.

"It is with real regret that I'll be leaving Pontiac," he said. "I have enjoyed working here very much, but feel the acceptance of this new position is a real opportunity."

Bradley said the Greater Gary United Fund of which he'll become director presently has an organization near the same size of United Fund here, but with the potential of serving a greater area and population.

JOINED IN 1954

Bradley, 42, resides at 1239 Ashover, Birmingham. He first joined Pontiac Area United Fund in 1954 as assistant director, moving up to the top position the following year.

Prior to that, he received his master's degree in social work from University of Michigan and was employed as a Detroit welfare case worker and Wayne County juvenile probation officer.

2 Area Firms Hit by Fires

(Continued From Page One)

police detouring Stephenson traffic.

HOLES IN ROOF

There was a fear some of the volatile paint ingredients might explode.

Firemen cut 20 holes in the roof to get at the flames, which started from an undetermined source.

The 100-foot-square structure is at 2000 Stephenson.

Firemen prevented the blaze from spreading to the plant area, where drums of gas and other explosive material are located.

Ford said the fire started at 7:30 p.m. and was under control by 9:30 p.m. He made the \$50,000 estimate because of extensive damage to the roof and walls and loss of the contents.

Both the building and contents are insured, according to Ford.

Tax Cut Bill on Its Way

(Continued From Page One)

measure at the top of his legislative agenda along with civil rights.

The reductions are expected by the administration to provide a stimulus aimed at boosting the 1961 economy and providing healthy long-run effects on unemployment and other problems.

The new withholding rate is expected to pump an extra \$800 million into the economy each month.

The biggest administration victory came in the last-minute decision yesterday to knock out a House provision reducing the capital gains tax on assets held two years or more.

There might have been trouble with the compromise measure in the Senate if this cut had been retained.

It would have lowered the capital gains rate to 40 percent of the normal levy, with a 21 percent ceiling on profits made from sales of stock and other property held two years or more. The present rate is 50 percent of the regular tax with a 25 percent maximum.

Private Talks in Cyprus Rift

UNITED NATIONS, N.Y. (AP)—Diplomats negotiated privately today on proposals to keep the peace in Cyprus as Britain began flying nearly 2,000 more troops to the eastern Mediterranean island.

Cypriots, in a display of growing anti-British feeling, opened fire on British soldiers today for the first time since the current crisis began in December. No casualties were reported.

Security Council debate on the Cyprus crisis was in recess until Friday afternoon, and there were no sure prospects for agreement on proposals for an international force to take over enforcement of the shaky cease-fire between the Greek and Turkish Cypriot communities.

U.S. Ambassador Adlai E. Stevenson called on the council Wednesday to endorse a Western proposal to bolster the British troops on Cyprus with soldiers from other nations.

REQUIRES OK

Seeking to avoid Soviet intrusion into the dispute, Stevenson pointedly added that composition of the force would require the approval of Cyprus and the three guarantors under the 1960 independence treaties — Britain, Turkey and Greece.

Stevenson also urged the council to call on Cyprus and her three protectors to designate U.S. Secretary-General U. Thant as an impartial mediator.

The U.S. delegate spoke after Chief Soviet Delegate Nikolai T. Fedorenko charged the 1960 treaties had been imposed on Cyprus and denounced the British force as a Western plot to establish a North Atlantic Treaty Organization bridgehead in the eastern Mediterranean.

BACK CYPRIOTS

Backing the Greek Cypriot government of President Makarios, Fedorenko demanded that the council first give guarantees for Cyprus' territorial integrity and against aggression. The Greek Cypriots demand

Pontiac Offices to Be Closed for Tomorrow

City of Pontiac offices will close tomorrow for George Washington's birthday which falls on Saturday this year. Elsewhere it will be observed on Saturday.

City workers get the day off to compensate for the fact the holiday would fall when their offices are normally closed. Oakland County workers do not follow the same holiday schedule, however, and will be at their jobs tomorrow.

Local post offices will be closed and not provide mail delivery on Saturday, but most other federal offices will close tomorrow as well to give employees compensating time.

Major local financial institutions, Community National Bank, Pontiac State Bank and First Federal Savings of Oakland have announced they will not open any of their offices Saturday.

Pontiac trash pickups will continue as usual tomorrow and are not affected.

Says No String on Union Offer

Teamster Testifies on Promotion of Trooper

CHATTANOOGA, Tenn. (AP)—A former Nashville Teamsters official testified today he attached no strings to a promotion for a state trooper whose wife was a juror in James Hoffa's 1962 conspiracy trial.

Ewing King was the last of five men on trial with Hoffa, International Teamsters president, to testify. All are charged with trying to influence jurors in Hoffa's 1962 trial in Nashville.

King, former president of the Nashville Teamsters local, said he agreed to help State Trooper James Paschal of Woodbury, Tenn., get a promotion in the Tennessee Highway Patrol.

He said many union truck drivers knew the patrolman and wanted to see him get ahead.

OFF THE JURY

Paschal's wife was dismissed from the Nashville jury following a meeting between King and Paschal on a lonely road near Woodbury. King said the meeting was arranged by a mutual friend.

"We discussed highway patrolmen in general and people we knew," King testified. "During the course of our conversation, Mr. Paschal asked me, 'what's going to happen to your boy Hoffa in Nashville?'"

"I said, 'Nothing, if he gets a fair trial.' He started to say, 'You know my wife is on the jury?' I said, 'We better not discuss that.'"

Paschal had testified earlier that King offered to use his influence with the then Governor, elect, Frank Clement, and other state officials to obtain the promotion if Paschal "would talk to my wife." Paschal had never discussed the matter with his wife.

Post Office Tells Plan to Switch Service Points

Thursday and will continue through March 15.

The National Academy of Design is the oldest art group in New York City, organized and administered by artists for the advancement of the arts in this country.

Sen. Philip A. Hart, D-Mich., announced today that some 1,400 families in the township will be affected by the change.

"The proposal was prompted by patron desire," Hart said.

The senator further noted that the change would bring an additional 1,078 stops and 1,079 deliveries from Birmingham and 356 stops and 429 deliveries from Pontiac.

MEN CAN SWITCH

From four to five mailmen are involved. They will have the opportunity to switch places of employment if they so desire.

The new Birmingham Hills delivery boundaries are Quanton to Adams, north to South Blvd., west to Oakley, south to Square Lake Road, west to the railroad tracks, northwest and west following the Pontiac city limits to Franklin, south to Square Lake Road, then east and south following existing delivery limits to Quanton.

THE AREA

The area involved is entirely residential.

Letters notifying the patrons that their wish has been granted are to be sent out within the next day or so.

Bloomfield Hills Postmaster Herbert J. Dyble today urged those patrons affected by the change to remember their new ZIP code number — 48013.

Zoltan Sepeshy, president of Cranbrook Academy of Art in Bloomfield Hills, will be represented in the 139th annual exhibition of the National Academy of Design.

The painter will be among 385 exhibitors from 28 states and the District of Columbia in the show which begins

Pedestrian Is Killed

DETROIT (AP)—Arthur Thurman, 70, of Detroit was struck by a car and killed Wednesday night while attempting to cross a Detroit eastside street.

Time Fleeting for Cagers in Point Race

Time is running out for Oakland County cagers hoping to lift the basketball scoring crown from the head of Emmanuel Christian's Ralph Wingate.

With two games, Wingate holds a commanding lead over his closest challengers—Bruce McDonald of Rochester and Bruce Rodwan of Ferndale.

And barring shutouts in his final two appearances of the season, Wingate should collect his second county scoring title in succession.

He won the 1962-63 crown with an average of 23.8 for 17 games, and he leads the present race with a mark of 24.6.

Should the slender senior go scoreless in the final two tilts, an event wholly unexpected, he would wind up with an average of 21.

If he maintains his present pace, McDonald (22.2) will have to score 80 points in his two remaining games to tie for the title.

New Haven's Dwight Lee was held to 10 points Tuesday evening as Anchor Bay upset the Rockets and his average slipped from 27.0 to 25.4 in the area scoring race.

In the runnerup spot among area scorers is Ken Adamski of Capac with a mark of 22.6.

3 Hockey Games on Card Tonight

A goal at the final whistle by Dennis Olson earned Mountain View Rangers a 2-2 tie with the Spartans in a Waterford Recreation junior hockey game last night.

Three games are listed on tonight's schedule at Northside Rink with the Lotus Lake Wings battling the Bruins in a junior game slated to start at 6:30 p.m.

The Waterford Blades will tackle the Union Lake Optimist squad at 7:45 in a senior clash, and an intermediate game will find the Mountain View Rangers playing Richardson Dairy at 9 p.m.

Holly Threatens Barons' Title Hopes
Slammin' Sammy in Seniors Debut

Broncos Home Court Record Worries Hills

Wolves to Entertain Clarenceville; Milford Visits Lakers

Invading the Holly gym has been a nightmare for Wayne Oakland League basketball teams the last two seasons.

The Broncos have lost only once in their last 14 starts at home and this season they are 7-0. Bloomfield Hills will attempt to snap this string Friday night.

This game looms just as big for the Barons as last week's victory over Clarkson that earned Bloomfield a tie for first place.

A loss to Holly and a victory by Clarkson at home over Clarenceville would just about eliminate the Barons from title contention. Each team will have one league contest remaining after Friday and Clarkson will be favored to handle Northville.

Holly did Bloomfield a good turn earlier in the season by upsetting Clarkson — in the Broncos gym. They will be planning to reciprocate for the Wolves Friday.

EYE THIRD PLACE

In other Wayne - Oakland games, West Bloomfield will be seeking a tie for third place in a home encounter with Milford and Northville will be at Brighton.

From Our News Services.
PALM BEACH GARDENS, Fla.—It's Slammin' Sammy Snead against a 407-man field today as they start a four-round chase for the P.G.A. senior golf championship.

The sweet swinger who will be 82 in May makes his debut over the new P.G.A. National golf course after, having a "chance to birdie every hole" in a six under par 33-33-66 during his final tuneup for this 56 and-over chase for the coveted Teacher's Trophy.

The winner of this \$30,000 event also earns a trip to Britain to meet England's senior champion for the "world" senior title.

Slammin' Sam was almost everybody's favorite as they teed it up with Jimmy Demarest as the only "name" player to scratch.

EX-CHAMPIONS

For Snead's rivals include defending champion Herman Barron of White Plains, N.Y., who won last year with a record 16 under par 272 — and former winners Paul Runyan, Gene Sarazen, Pete Burke and Al Watrous in the lists.

The field also include such names as Dutch Harrison, Big John Barnum, Ellsworth Vines, Sammy Byrd, former U.S. Opening Tony Manero and former P.G.A. winners Jim Turnesa, Denny Shute and Vic Ghezzi.

Along with Watrous and

Barnum, there are 18 other golfers from Michigan in the tournament including Tommy Shannon of Orchard Lake Country Club, Bill Graham of Bloomfield Hills CC, Eldon

Briggs of Detroit GC, O. W. Beaupre of Plumbrook GC in Utica, Jim Bartfield of Grand Rapids, and C. B. Meyer of Twin Beach.

"Don't go pinnin' that favorite's tag on me," Snead complained. "There's a lot of guys here who can play good golf, and don't you forget it. But, I am plain' good and I'd sure like to win it."

Snead, who has captured 113 tournaments in his long career, also would like to win a little money. For, in addition to the \$2,500 top prize he said he contemplated "a little Nassau bet to sweeten things with some of these other old fellows."

MacArthur told a news conference that he would go to court Thursday to demand that the PGA come up with a million dollars he said it owes him for construction of the club house.

He also said the court would enforce a PGA promise that it would move its national headquarters here from Dunedin, Fla. and would "do everything in its power" to help him develop this new Florida East Coast community.

MacArthur, founder of Palm Beach Gardens and head of the Bankers Life and Casualty Insurance Co. of Chicago, said he built the new PGA club and its two 18-hole golf courses at a cost of "well over \$3 million."

He said the PGA signed a contract agreeing to pay for the club house, induce its members to buy lots in the community, and help promote the development.

Acton's 36 Leads Alma

Calvin 5 Retains MIAA Lead

By The Associated Press

Calvin walloped Hope, 105-71, and Hillsdale upset Windsor, 84-77, to highlight a seven-game basketball card Wednesday night.

In other games, Alma defeated Kalamazoo, 98-85. Albion tripped Olivet, 73-66. Defiance of Ohio nipped Adrian, 83-82. Ferris State edged Central Michigan, 57-56, and Northern Michigan beat Michigan Tech, 87-72.

Calvin's victory over Hope kept them one game ahead of Alma in the MIAA race. Calvin has a 9-1 record. Alma is 8-2. Jim VanEerden's 23 points paced Calvin which held a 44-36 halftime edge. Hope got 16 points from Clare VanWieren.

FAST BREAK
Hillsdale coach Rod Halstad

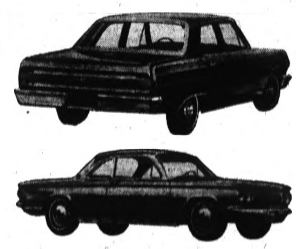

went back to the fast break, an offense he hasn't used since early in the season, to stun Windsor. The Dales handed the Canadian school its fourth loss against 17 victories. Hillsdale stands 6-17.

The Dales' John Rowan led all scorers with 34 points. Teammate Charlie Woods added 20. Ron Horvath scored 21 points to lead Windsor which never got within five points of Hillsdale. Bud Adams, leading MIAA scorer, paced Alma's victory over Kalamazoo with 36 points. He led his club from a seven-point deficit to tie the score, 83-83, with a minute to go. Acton's four points in the last 10 seconds led the victory. Dick Johnson led Kalamazoo with 23.

Albion overcame a 39-33 halftime deficit behind Jerry Chandler's 15 points to defeat Olivet

in another MIAA game. Albion is now 3-7 in the conference, which Olivet is in last place with a 1-8 record. Olivet's Jim Everett led all scorers with 28 points. Defiance nipped Adrian on Dick Fleming's layup with 35 seconds to play on the Ohio school's court. He scored 23 points to match Adrian's Mark Garrett.

Surprise starter Ed Scott scored the winning goal with 1:41 remaining as Ferris avenged two earlier defeats at the hands of Central Michigan. The victory was the 10th straight for Ferris and his 15th in 18 games. Central, now 12-4, led at the half, 27-22. Ferris' Bernie Kilpatrick led all scorers with 21 points. Scott had 15. Dave Nelson had 15 for the Chipawas.

Restored by French

Gabon Chief Back at Post

LIBREVILLE, Gabon (AP)—President Leon Mba of Gabon resumed office today after French troops put down a two-day military revolt in his West African country.

Unconfirmed reports said 27 persons—25 Gabonese and 2 Frenchmen—died in the fighting Wednesday that ended the rebellion. Forty Gabonese and four Frenchmen were said to have been wounded.

Mba, 52, a champion of close association with France, said in a radio broadcast that legislative elections would be held as scheduled Sunday. Mba had dissolved the National Assembly

and called new elections in an attempt to freeze-out opposition leader Jean-Hilaire Aubame. The military rebels apparently acted on behalf of Aubame, whom they proclaimed provisional premier Wednesday.

Mba said that members of the revolutionary committee who led the revolt have been imprisoned and will be punished. He did not mention Aubame.

'Witches' Hear Lecture on Their Nonexistence

LONDON (AP)—A covey of self-styled witches descended on London's University College on Wednesday night.

Crowding into a lecture theatre, they glowered at Dr. Rossell Hope-Robbins, British-born lecturer at Columbia University, as he delivered a paper denying the reality of witchcraft.

The legendary gatherings of witches for mystical practices, he said, "existed solely in the mind and remained a fabrication of the mind."

Students who packed in to witness the confrontation waited for some retaliatory sign of the witches' prowess. But none of them managed to turn Dr. Hope-Robbins into a toad.

NO EVIDENCE
Discussing on the witches' "sabbat," when witches were supposed to assemble to concoct spells, Hope-Robbins said: "There is not one shred of historical evidence that the sabbat ever had an objective reality."

Witchcraft is still taken seriously by small groups in Britain who claim to have inherited mystical skills from the Middle Ages.

None of the witches at the lecture wore tall hats or long black skirts, though one carried

a raven called Hotfoot Jackson perched on her shoulder.

HIGH PRIESTESS

The bird's owner, Sybil Leek, 41, claims to be high priestess of a covey of witches in the New Forest.

She asked Hope-Robbins: "Don't you realize that at this moment in England and all over the world there are still small groups of people who are sincerely practicing the old cult?"

Hope-Robbins smiled. "I am afraid I am not interested in a person's sincerity in that respect," he said.

Hope-Robbins is an expert on European life in the Middle Ages. His lecture was sponsored by the British Folk Lore Society.

BROOMSTICKS

On a seat outside the theater were two big black broomsticks. Mrs. Leek disclaimed them.

"No genuine witch would dream of using them," she snorted. "Must have been students put them there for a joke."

Caesar Injures Arm,

but the Show Goes On

TORONTO (AP)—A piece of scenery hit comedian Sid Caesar, paralyzing his left arm, but Caesar finished the show.

The accident occurred during Tuesday night's performance of "Little Me," a comedy in which Caesar plays seven roles. Caesar's arm was back to normal yesterday and he played in both the matinee and night perform-

ances.

Sea Elephant Rodeo Ends Underwater Reaction Study

By RALPH DIGHTON

Associated Press Science Writer
PASADENA, Calif.—A story of a sea elephant rodeo on the Mexican island of Guadalupe has been brought back by one of the scientist cowboys.

The story developed from interviews with Dr. Marcos Intaglietta, 28, an Argentina-born research fellow at the California Institute of Technology.

He told how a 17-man expedition used daring and muscles as well as brains to subdue their 2,000-pound subjects—king-sized members of the seal family—with tranquilizers and hoist them aboard ship.

At the end of the two weeks of back-breaking labor and study, the younger scientists, including Intaglietta, relaxed by climbing on some of the huge bulls and "riding them like cowboys at a rodeo," he said.

'SHOOK US OFF'

"The bulls always shook us off," said Dr. Intaglietta. "They would rear up, and we had nothing to hang on to."

Tragedy was narrowly averted when an angry cow charged one of the scientists, Dr. Intaglietta said, "when she rushed at him from the side. Somebody yelled and he jumped just as

she reached him, or he would have been crushed under all that blubber."

Intaglietta and Dr. Merrill Spencer were key men in the expedition, headed by Dr. P. F. Scholander, director of the Physiological Research Laboratory of the Scripps Institution of Oceanography, La Jolla, Calif. Intaglietta and Spencer are inventors of a tiny blood pressure gauge which can be clamped around individual arteries to detect changes in blood flow in various parts of the body.

Surgical implantation of these small cuffs on blood vessels was a prime purpose of the expedition.

PHYSICAL REACTION

The scientists wanted to know if a certain physical reaction found in smaller diving animals also occurred in the one-ton sea elephants.

Most animals, including man, have a trick of surviving submersion by decreasing the size of arteries in their extremities and thus forcing blood into the vital organs—the heart, brain and lungs. Fish do the same thing when taken out of water.

Earlier research has shown that ducks and seals, thanks to this automatic response which

Dr. Scholander calls a "master switch" defense against asphyxia, can submerge safely up to 20 minutes, whales up to two hours.

Dr. Intaglietta said the expedition found sea elephants, which also are air-breathing mammals, can submerge for up to 30 minutes without breathing, drawing upon the oxygen-carrying blood concentrated in their vital organs. Their heart rate drops from 90 to 20 beats a minute.

Most humans, unless they have undergone the training of pearl divers, can submerge for little more than a minute.

Is there any way of increasing the duration of this "diving response" in humans so they can stay submerged longer without oxygen tanks?

"That's for medical men to determine later," said Dr. Intaglietta. "We don't really know yet what causes this response in animals—that's the purpose of expeditions such as this."

The island of Guadalupe, 300 miles south of San Diego and 200 miles off the Mexican coast, was chosen because it is a breeding ground for sea elephants, distinguished by a fatty proboscis or nose on the males.

Salmon Fits Into Fast Day Menus

By JANET ODELL
Pontiac Press Food Editor

One down and five to go! Lent is a little over a week old, not old enough for meatless days to become a problem.

That doesn't mean you

wouldn't welcome a little help—like some salmon recipes, for instance.

Salmon steaks are usually available in the frozen fish section of your supermarket.

They provide a colorful change from other more prosaic looking fish steaks.

Served with fresh lemon curdy sauce, they'll be hailed by your family.

Broiled Salmon

4 salmon steaks, ¾ to 1-inch thick (1½ to 2 pounds)
3 tablespoons salad oil
Salt and pepper
¾ cup mayonnaise
¼ cup catsup
1 teaspoon grated lemon peel
3 tablespoons fresh lemon juice
¼ teaspoon curry powder

Brush salmon steaks with oil, season with salt and pepper. Place on preheated, oiled, broiler pan about 5 to 6 inches from heat. Broil 3 to 5 minutes on each side until golden brown and fish flakes with fork, brushing occasionally with salad oil.

For sauce, combine mayonnaise, catsup, lemon peel, lemon juice and curry powder, blending well. Serve with the broiled salmon steaks. Makes 4 servings.

If salmon steaks are too rich for your budget, you can always turn to canned salmon.

Although red salmon is preferred by many, there is fully as much protein and nourishment in pink salmon. Perhaps you'll choose cans of that for a dramatic looking salmon mousse.

Salmon Mousse

2 cans (1 pound each) salmon
2 envelopes unflavored gelatin
1 cup instant nonfat dry milk crystals
¾ cup water
1 tablespoon grated onion
1 vegetable bouillon cube
4 eggs, separated
2 teaspoons chopped dill
½ teaspoon salt
¼ teaspoon pepper
¼ teaspoon celery seed
Chopped parsley

Drain salmon, reserving ½ cup liquid. Sprinkle gelatin over salmon liquid to soften; stir over low heat until dissolved. In saucepan; stir instant crystals into water; add onion and bouillon cube. Stir over low heat until bouillon is dissolved (do not boil).

Beat egg yolks lightly; quickly stir into milk mixture and cook 3 minutes longer. Remove from heat; stir in salmon and seasonings. Stir in dissolved gelatin. Beat egg whites until stiff, but not dry; fold into salmon mixture until smooth. Turn into lightly oiled 2-quart mold. Chill until set. Garnish with chopped parsley. Makes 6 servings.

The above recipes too much trouble? Then here's your answer.

Salmon Sandwich Puff can be assembled in about 10 minutes. Although the recipe says to let stand for 30 minutes, it won't be hurt if it stands longer.

So prepare it after breakfast, pop it in the refrigerator and forget it until an hour before dinner. Bake and serve.

Salmon Sandwich Puff
6 slices bread, trimmed and cut into triangles
1 can (7½ ounces) salmon
¾ cup shredded cheddar cheese

3 eggs, lightly beaten
¾ teaspoon salt
¼ teaspoon paprika
dash cayenne
1 teaspoon minced onion
1½ cups milk

Line a buttered 1½ quart baking dish with half the bread triangles. Drain salmon, reserving liquid and flake salmon. Sprinkle salmon and cheese over bread, and top with remaining bread triangles.

Combine eggs, salt, paprika,

cayenne, onion, milk and salmon liquid; pour over ingredients in dish and let stand for 30 minutes.

Bake in a preheated 350 degree oven for about 1 hour, or until well browned and puffed. Serve immediately. Serves 4.

Stir a pinch of chili powder, a cup of partially drained canned tomatoes and a teaspoon of instant onion into a cooked 10-ounce package of frozen green beans.

Apples and Cabbage Get Curry Dressing

Combine in a large salad bowl 1 cup shredded green cabbage, 2 sliced, cored Macintosh apples, ½ green pepper, cut in slivers and a small onion, thinly-sliced or a teaspoon of grated onion. To this add a dressing of ½ cup Spanish olive oil, ¼ teaspoon salt, ¼ teaspoon paprika, a pinch of curry powder and 2 tablespoons vinegar.

Toss to blend well; marinate salad half an hour before serving. Makes six servings.

Bit of Curry Flavors Fruit

Soften 1 package (3 oz.) cream cheese with about 3 tablespoons syrup drained from 1 can (1 lb. 14 oz.) fruit cocktail. Blend in 2 tablespoons brown sugar, 1 teaspoon lemon juice and ¼ teaspoon curry powder.

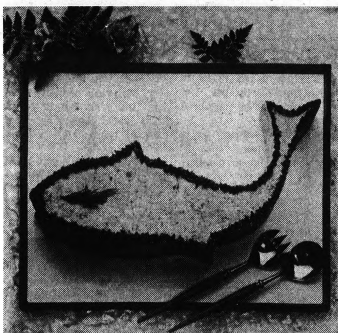

Lightly stir cheese mixture into combination of drained fruit cocktail and diced apple or banana. Chill and serve in individual bowls, sprinkle with nutmeg. Pass this lemon curdy sauce for an exotic, but easy dessert.

Stuff Cooked Prunes With Orange-Cheese

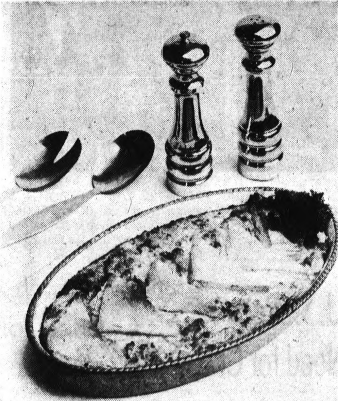

Prunes and oranges are compatible flavors; use them in a lunch-time salad.

Flavor cottage cheese with grated orange rind and stuff cooked prunes with the mixture; arrange the prunes on salad greens with round slices of orange. Serve with French dressing or mayonnaise.

If you don't cover apples you are baking, be sure to taste them occasionally with the syrup in the pan.

SALMON MOUSSE—A shimmering, silvery pink mousse of salmon molded in a spectacular fish shape and outlined with a slender rim of chopped parsley. Instant nonfat dry milk crystals give the mousse delicate texture and flavor, fewer calories, too.

SALMON SANDWICH PUFF

BROILED SALMON

Serve Little Loaves of Herb Bread

Nowadays, stylish hostesses are serving each of her guests an individual loaf of bread with dinner. If it's an informal affair, the breads can be served on tiny boards, with a sharp

knife for cutting each piece as needed. These are sprinkled with nutty sesame seeds.

Herbed Little Loaves

1½ cups warm water
1 package or cake yeast, active dry or compressed
2 tablespoons sugar
2 teaspoons salt
2 tablespoons Fleischmann's margarine, softened
½ teaspoon basil
½ teaspoon thyme
½ teaspoon oregano
¾ cups unsifted flour
Sesame seeds

Measure warm water into large mixing bowl. Sprinkle or crumble in yeast; stir until dissolved. Add sugar, salt, margarine, herbs, and 1½ cups flour. Beat 2 minutes at medium speed on electric mixer or 300 vigorous strokes by hand.

Scrape sides and bottom of bowl often. Stir in remaining 1½ cups flour. Blend with spoon until smooth, about 2 minutes. Scrape batter from sides of bowl.

Cover; let rise in warm place free from draft, until doubled in bulk, about 30 minutes.

Stir down batter. Spoon evenly into six greased 4½x2½x1½-inch loaf pans. Sprinkle with se-

same seeds. Cover; let rise in warm place, free from draft, until doubled in bulk, about 40 minutes.

Bake in moderate oven (375 degrees) 45-50 minutes, or until done.

You Can Use Every Bit

Leftover ham can be cubed and creamed, then served over biscuit, corn bread, baked sweet or Irish potatoes.

Grind leftover ham and bake in a ham loaf. Ham, cut off or julienne, makes a delicious salad when combined with greens or macaroni, celery and pickles, or a combination of fresh or chilled cooked vegetables.

Mix cubed cooked ham and cooked vegetables, rice or macaroni with canned creamed soup, and heat in the oven as a casserole dish.

Company touch: add sliced water chestnuts to cooked greens and heat gently with butter.
