Adams Appointed Fourth Circuit Court Judge

Soviets Demand Red Slogans in U. N. Pledge

Dispute Over Wording Besets Assembly at End of Birthday Session

SAN FRANCISCO (INS) —The United Nations 10th anniversary assembly was beset today with a severe dispute over Russian demands that Red propaganda slogans be injected into a peace pledge as an intended preface to next month's Big Four "summit" conference.

A bid by Russia's V. M. Molotov to win assembly sanction of such Communist goals as "co-existence" and an atomic weapons ban was considered certain to fail. But it cast a cold war shadow over the U. N.'s "birthday party" in its closing phases.

The Soviet foreign minister prepared to depart from San Francisco tonight, leaving subordinates behind to make a rearguard stand against Western Big Three efforts to gain unanimous approval of a declaration reaffirming U.N. principles of collective security and peace.

The behind-the-scenes controversy neared a showdown after former President Harry S. Truman brought the U.N. commemorative assemblage to a dramatic highpoint last night with a briskly-phrased speech urging effective disarmament for world survival.

The largest throng ever packed into San Francisco's stately War Memorial Opera House repeatedly roared and applauded its approval as the ex-President, one of the U.N.'s "founding fathers," rammed home point after point.

GETS APPLAUSE

A particularly loud explosion of handclapping rocked the auditorium when Truman reminded his several thousand listeners—without mentioning Russia by name—that the Soviets had abetted the Communist invasion that smashed into South Korea exactly five years ago today.

Despite this slap at Russia's past behavior, Truman spoke hopefully of the future, saying there were signs that the major powers may work out a cold war settlement. He declared that agreements even in little things" could lead to greater accords in such East-West meetings as the coming Geneva talks.

Truman, who flew to San Francisco as America's President to witness the signing of the U.N. charter 10 years ago tomorrow, warned that the only alternative to a workable peace is world destruction in this nuclear area. Therefore, he said, a genuine disarmament program must be agreed upon.

Recapture City Man Escaped From Ionia

IONIA (AP) — An alert newspaper photographer brought about the capture of an armed fugitive from Ionia State Reformatory today just a few hours after the escape.

Raymond Stearle, 22, of Pontiac, was spotted by Gus Beyer 29, of the Ionia Sentinel-Standard who was taking pictures in the county park. Beyer called the reformatory.

Guard Dale Mier located Stearle about a quarter mile from where Beyer had seen him emerge from deep brush. Stearle, who was armed with a seven-inch knife, surrendered without protest.

He had walked away from the prison dairy farm.

Beyer is believed to qualify for a $50 reward offered by the state for information leading to the capture of prison fugitives.

Stearle was sentenced Oct. 25, 1954, to 1½ to 5 years for grand larceny. He was transferred to the reformatory from Southern Michigan Prison in December, 1954, and was a trusty at the reformatory farm.

Rain Falls in Glen Falls

GLENS FALLS, N.Y. (AP)— A small area near here got as much rain in 12 hours yesterday as it normally gets in a month.

County Pros Leading State Open

TOURNEY PACESETTERS — Professionals from two Oakland County clubs are the first-day leaders in the Michigan Open golf championship under way this weekend at the Washtenaw Country Club in Ypsilanti. At the right is Mike Dietz of Indianwood in Lake Orion, the leader with a first-round 67. He is shown with Pete Cooper of Knollwood in Birmingham, who is in 2nd place with a 68. See story on page 14.

President Continues New England Tour Awaiting Russian Answer on Air Attack

WITH EISENHOWER IN NEW ENGLAND (AP) — President Eisenhower today awaited a Soviet Union reply to a U.S. protest against an attack by Russian jet aircraft on an American Navy patrol plane as he continued his tour of Northern New England.

The touring President arranged to keep in close touch with Washington for word of any developments.

He was an overnight guest at the farm home of Secretary of Commerce Weeks six miles from Whitefield, N.H. Today he was moving on to Berlin, N.H., for a speech 10:15 a.m., (EDT) and then to the Dartmouth College forest tract at Wentworth, N.H., for lunch.

His next scheduled stop, in the early afternoon, was at Parmachenee Lake in the Maine wilderness for a weekend of fishing for land-locked salmon. He will remain at the lake until Monday afternoon, then go to Skowhegan, Maine, for an address concluding his New England visit.

Eisenhower received word of the attack, White House Secretary James C. Haggerty said, while he was at Chittenden, Vt.

After being rained out on the golf course Eisenhower motored from Whitefield to nearby Lancaster for a dinner party given in his honor by Secretary Weeks at his 600-acre Cat Bow Farm.

In addition to an informal talk at Berlin, N.H., today, the President was scheduled to watch a wood cutting contest there.

At the Dartmouth College forest tract at Wentworth, N.H., officials of the school hoped to have a trout lunch ready for Eisenhower. Steak was the alternative if the fishing party had bad luck—as Eisenhower has had in trout streams so far this trip.

The President will be joined at Lake Parmachenee in Maine this afternoon by Sen. Frederick Payne (R-Me). After his speech at Skowhegan, Me., late Monday, Eisenhower will be the guest of Sen. Margaret Chase Smith (R-Me) at a clambake at her home there.

The President will fly back to Washington Monday evening.

Clawson Flier Downed

AP Wirephoto

SUFFERS HAND BURNS — Airman Technician Charles W. Shields, 21, of Clawson, was aboard a Navy patrol plane shot down by Russian aircraft Wednesday. Shields suffered burned hands and is in an Alaskan hospital. Shields' father, Charles L., of 414 Roth Blvd., Clawson, a steamfitter, received assurance from a nurse he spoke to by long-distance telephone that his son suffered only hand burns in the crash. He said his son is married and has been in the Navy since graduating from Clawson High School in 1951.

Airman Okay, Father Finds in Alaska Call

Charles L. Shields, of 414 Roth Blvd., Clawson, father of one of the Navy airmen aboard a plane shot down by two Russian MIG-15 fighters Wednesday, was assured by a nurse yesterday that his son had suffered only hand burns when the plane crash-landed.

Shields called the naval hospital at Anchorage, Alaska, and was told his son was in good condition.

"When a newspaper called yesterday morning to ask me if I had heard anything from the Navy Department about Chuck, I thought he might have been killed," Shields said.

Shields said his son, Charles W., 21, has a younger brother in the same Navy patrol squadron, but that he has not been able to contact him to ask if he has seen Charles. The brother is Wayne, 19.

Another son, Edward, 20, is in the Marine Corps in California.

Shields said Charles has been married since January, but declined to give his wife's name for fear she would be bombarded with questions. He would say only that she lives in Oakland County.

Red MIG Jets Shoot Up Navy Patrol Plane

Three Naval Airmen Wounded in Attack Off Alaskan Coast

WASHINGTON (AP) — An unprovoked attack by two Russian jet fighters forced a U. S. Navy Alaskan patrol plane to crash land with injury to seven of its 11 crewmen, the United States announced yesterday.

Three crewmen were wounded by bullets.

The attack occurred Wednesday over international waters between Alaska and Siberia. The Navy P2V5 Neptune plane crash landed and burned on American-held St. Lawrence Island, in the Bering Sea about 100 miles from the Siberian coast.

Among the crewmen was 21-year-old Charles L. Shields of Clawson, who suffered hand burns when the plane crash-landed.

The Defense Department announced that two jet fighters made the attack. However, one of the American crewmen, interviewed at Kodiak, Alaska, spoke of only one attacking plane. There was no immediate explanation of the apparent discrepancy.

Although the shooting occurred Wednesday, announcement of the Russian attack was delayed two days while President Eisenhower conferred by telephone with State and Defense Department officials, and Secretary of State Dulles discussed it with Soviet Foreign Minister V. M. Molotov in San Francisco.

The incident took on added diplomatic importance in the light of Russia's current peace offensive in advance of the scheduled July 18 Big Four summit conference.

Congress members were quick to point that out as they sounded an angry protest.

"Unless we get assurances that the attack was not premeditated,

Congress After Costs Increase

Legislators Seeking Expense Account Hike for Office Routine

WASHINGTON (INS)—Congress, which gave itself a 50 per cent pay hike earlier this year, now plans to increase its free expense accounts.

The House Appropriations Committee is considering proposals backed by leaders of both parties that would:

1. Increase legislators' allowances for stationary supplies from $1200 to $1500 a year.

2. Boost their air mail and special delivery stamp allowance from $200 to $300 a year.

3. Increase the number of minutes of long distance telephone calls allowed from 2,700 to 3,000 a year.

4. Double the present 12,000-word limit on free telegrams allowed each year.

5. Allow "additional" free round trips between their permanent residence and Washington each year. Members of Congress are now allowed 20 cents a mile for one round trip each session.

The House Adminstration Committee recommended the changes to the appropriations unit along with a proposal to allow each House member to hire a $12,000-a-year research assistant to his staff. Average pay rolls of congressmen now are already $24,000 a year.

UM Teaches More

ANN ARBOR (AP)—The University of Michigan law school has more students taking international law than any other school in the United States. Prof. William W. Bishop Jr. made that comment at the current Institute of International Law and the United Nations.

Hubby's a Dad 3 Times Over While Asleep

CHICAGO (AP) — A considerate wife is Mrs. Alice Graham, 25, who gave birth to triplets yesterday.

While her husband, Charles, a night worker at International Harvester Co. was sleeping soundly at their home, Mrs. Graham bore two boys and a girl at Illinois Research and Educational Hospital.

Mrs. Graham asked nurses not to telephone her husband of the births which occurred between 2:30 and 4:30 a. m. She waited until he telephoned at 10 a. m.

GANDER, Nfld. (AP) — Triplet girls were born here last night to Mrs. Ruth Kieth, of Windom, Minn., who first feared she was going to have her babies aboard a Scandinavian Airlines plane bound from Oslo to New York.

Mrs. Keith and the babies are doing fine, hospital authorities at this international air terminal said. Airline officials routed the flight through Gander to get Mrs. Keith and an older son and daughter off the plane.

NEW YORK (AP) — The Thomas Walshes' seven-room Brooklyn apartment will bulge a little more when the mother comes home with their 10th daughter and 15th child. But, as the 46-year-old father put it, "we'll just move over."

Walsh, an $85-a-week shipyard welder, was told about the arrival of Maureen—7 pounds, 10 ounces —while he was at work yesterday.

His wife, Mildred, 40, has been at a Long Island hospital since last Monday, and Walsh kept plenty busy caring for 14 youngsters from 3 to 21 years of age.

Foundry Opens Again Aug. 1

Eaton Firm Decides to Continue at Vassar After UAW Okays Cut

CLEVELAND (AP) — The Eaton Manufacturing Co. yesterday ordered reopening of its foundry at Vassar Aug. 1 "on a necessarily—and, it is hoped, temporarily — reduced basis."

The company previously had ordered the foundry, Vassar's chief industry, closed June 30 because of what it said were "excessive costs." In an agreement worked out between the AFL United Auto Workers, Eaton and a citizens' committee, the union agreed to accept a 61-cent hourly wage reduction.

The foundry, however, will be closed June 30, the company said, "for annual vacations and business readjustments."

F. H. Mott, Eaton vice president in charge of Michigan operations, said, "In view of the foundry division's ability now to be competitive, there is every reason to hope that additional business can be secured which might eventually result in increasing the size of the foundry at Vassar."

In announcing plans to close the foundry May 24, Eaton said that its hourly rated workers at Vassar were paid $2.67 an hour, compared with an area foundry average of $2.05 and an industry average of $1.92.

Molotov Won't Talk; Cancels TV Show

SAN FRANCISCO (AP) — Prime Minister V. M. Molotov's scheduled TV and radio appearance tomorrow has been canceled because he wouldn't face impromptu questioning by newsmen.

Columbia Broadcasting System, on whose TV and radio program "Face the Nation" the Russian diplomat was to have appeared, announced the cancelation yesterday.

* * *

CBS had submitted a list of questions for discussion but Molotov rejected the idea of additional on-the-spot questioning by the interviewing panel. CBS insisted on this feature.

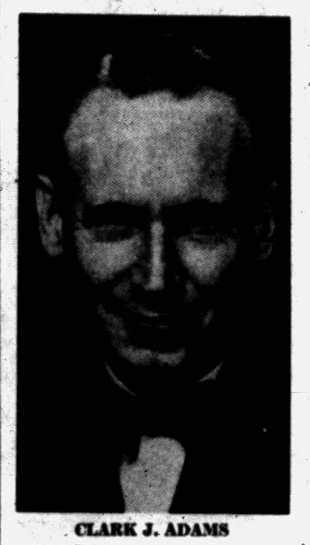

* * *

"We regret very much," said Sig Mickelson, CBS vice president in charge of news and public affairs, "that Mr. Molotov would not take advantage of this opportunity to face the American public with his views on the important issues that confront the world today."

Pidgeon's Parakeet

CASPIAN, (AP) — Roy Stewart found a stray parakeet in his parked car He advertised his find in a newspaper yesterday and promptly located the bird's owner —Joe Pidgeon.

Selected

CLARK J. ADAMS

Local Attorney Named to Post by Governor

Former Supreme Court Jurist, Democrat, Is Given Position

Gov. Williams today appointed former Supreme Court Justice Clark J. Adams to be Oakland county's new fourth circuit judge.

At the same time, Williams signed a legislative bill creating the position for the Pontiac jurist.

Justice Adams will take office next Jan. 1 and face election at the 1956 fall election.

Adams is a former member of the Legislature and former legal adviser to the governor.

Williams described him as an "eminently qualified jurist who is also an experienced statesman and well liked gentleman of broad background."

Williams said Adams' legislative, executive and Supreme Court service makes him "an outstanding appointment." And said his "personal integrity and gentlemanly qualities have won for him a host of friends in the county and Lansing."

HIGHLY TOUTED

Appointment of the 50-year-old Waterford Township resident is expected to bring favorable comment in the county.

Even before Adams announced last Thursday that he had asked the Governor to be considered for the post, he was being touted as a good choice.

The Oakland County Democratic Committee endorsed his appointment to the position, which was created by the legislature May 31.

Educated in the Waterford Schools, he attended Pontiac High School and the University of Michigan before setting up his law practice here in 1927. He was elected a state representative, serving from 1937 to 1945.

He became Gov. Williams' legal advisor in January, 1949, and was appointed to the State Supreme Court August 14, 1953 by Williams.

A narrow margin of 2,054 votes turned him out of office in the April, 1953 election, and he was then placed on the State Corrections Commission by the Governor.

Appointment of the fourth circuit judge is designed to ease the growing load of cases carried by the present three judges.

State Fire Loss $32 Million in '54

Damage for 12 Months Lowest Total Since 1951 in Michigan

LANSING (AP) — The fire loss in Michigan last year was slightly more than 32 million dollars, the smallest since 1951, the State Police fire marshal division reported today.

The 1951 loss was $29,760,609 and the record high was $78,126,591 in 1953. The later included the General Motors plant fire at Livonia.

The division said that 169 lives were lost in fires in 1954, 47 fewer than in 1953. The victims included 42 children and one fireman, compared to 81 children and two firemen the year before.

There were 54,728 fires reported during the year, the division said. Of the total, 15,655 were in dwellings, a decrease of 668. Damage to the structures was $8,032,278 and to contents $3,172,384.

Other fire totals: Autos, 5,605; aircraft, 20; dry cleaning plants, 75; bulk storage plants, 128; house trailers, 297; schools, 148; theaters, 51, and grass fires, 13,972.

The division said firemen answered 64,606 alarms during the year, a reduction of 11,507, and that 9,778 were false alarms, 569 fewer than 1953.

Enjoyable Weather Is Outlook for Area

Pontiac-area residents may bask in the sun and enjoy the balm of gentle breezes for the remainder of the weekend, according to the pleasant weather picture presented by the U.S. Weather Bureau forecast.

Temperatures tonight, says the weatherman, will range as low as 54-58, but the mercury may ease to a high of 80 on Sunday.

Last night and early today, showers and thunderstorms pelted the southeast section of the county, with the heaviest rainfall, 3.01 inches, recorded at Paducah, Ky. In Pontiac, only a trace of precipitation was recorded.

Lowest temperature in downtown Pontiac today before 8 a.m. was 55 degrees. The thermometer registered 70 by 1 p.m.

Hails Integration

NEW YORK (AP)—Vice President Richard M. Nixon says the U. S. Supreme Court's ruling against school segregation "is being implemented with far less difficulty than was predicted."

Austria Pact Signed

LANCASTER, N. H. (INS) — President Eisenhower today signed the Austrian Independence treaty which will end 10 years of Allied occupation of Austria.

Name Ernest W. Wixom Head of Veterans Facility

Ernest W. Wixom of 94 Oriole St. yesterday was named new commandent of the Michigan Veterans' Facility at Grand Rapids, ending a month-long search for a new commandent since the resignation of Col. Walter J. Baker last November.

ERNEST W. WIXOM

The announcement followed a day-long executive session of the 19 member facility board of managers Thursday.

Wixom, 47, currently holds a civil service post as administrative field representative for the Michigan Crippled Children's Commission. He said he will resign from civil service to take the commandant's post. The position carries a $10,000 salary.

He served three years in World War I with the Army Ordinance Division holding the rank of First Lieutenant.

Edmund S. Paloski, of Grand Rapids, chairman of the board of managers says Wixom will probably take up the new duties Aug. 1.

Wixom succeeds Wilber Graham, facility adjutant, who has been acting commandant at the state-operated veterans home since Col. Baker's resignation.

Board to Hear Request for Aid

Ask Technical Help for Water Committee at Monday Session

The Oakland County Board of Supervisors Monday is expected to hear a report from its Ways and Means Committee on a request from the Water Committee for money to hire technical help.

The board will meet at 9:30 a. m. in the county office building at 1 Lafayette St.

The Water Committee has asked the appropriation to get surveys under way toward solving Oakland's present and future water needs in cooperation with St. Clair and Macomb Counties.

The Ways and Means group also is expected to recommend hiring four additional employes for the Juvenile Department to help handle increasing probation, adoption and neglect and dependency cases.

The committee also is slated to ask authority to advertise for bids on construction of the planned county health center.

Other action scheduled includes a report from the Buildings and Grounds Committee on progress toward sale of 87 acres of county-owned land on North Perry Street across from the 4-H Club buildings.

The Road and Agriculture Committees are slated to make a joint report on spread of the Dutch Elm Disease in the county.

Results of a study are scheduled for presentation by the Salaries Committee on a motion tabled at the last meeting which would have allowed road commission employes to vote on coming under Federal Social Security.

Local Barbers Following Suit; Haircuts Go Up

The price of haircuts went up in some 65 barbershops in northern Oakland County today, following the pattern set in Detroit and the southern portion of the county.

Haircuts increased from $1.50 to $1.75. "Crew-cuts" will cost $2. Also hiked was the cost of shaves, to $1.50 from 1.

"It was an increase that came about quite naturally," said Arthur Blankenburg, secretary-treasurer of Local 50, State Barbers Assn. "We are not using it for anything in particular. Each individual can use it as he sees fit."

Local 50 is comprised of barbers north from Birmingham to the Lapeer County line. Detroit boosted prices about a month ago, and south Oakland last week.

House Unit Agrees on Social Security

WASHINGTON (AP) — The House Ways and Means Committee reportedly has decided tentatively to limit proposed new social security benefits for older women and disabled workers.

Committee members, who have been working behind closed doors on Democratic - sponsored proposals said the tentative agreement called for allowing women who become widows after 55 to become eligible for benefits when they turn 60. The present eligibility age is 65.

As for the disabled, the committee was said to have agreed, also tentatively, to allow such workers to collect benefit payments on reaching age 50. The original proposal called for disabled workers to get payments at any age. At present, those disabled must wait until they are 65 to collect.

Senate Okays Measure to Increase Airport Aid

WASHINGTON (AP)—Construction and improvement of civilian airports all over the country would be spurred under a bill passed by the Senate yesterday and sent to the House.

The measure provides for the distribution among the states and cities of 252 million dollars in federal grants to be matched locally on a dollar-for-dollar basis. The program would cover four years.

The Weather

PONTIAC AND VICINITY—Mostly fair tonight and tomorrow. Low tonight 54-58, high tomorrow 78-88. Gentle light variable winds tonight. Fair and continued cool tomorrow night. Low near 58.

ARCHITECTURAL FEATURE — A focal point in the new administration building of General Motors' Research Laboratories Division at the GM Technical Center is a suspended spiral staircase leading from the main lobby to the second floor. The steps are emerald pearl Norway granite, each weighing 1,500 pounds. Staircase rods and other metal parts are stainless steel with a handrail of teak.

Tour Through GM Technical Center Reveals Planning of Automotive Age

Car polishing may be a thing of the past.

Engineers at the General Motors Technical Center say they are testing a new lacquer type finish for automobile bodies which will require no polishing. Just a wash once in a while, and it will retain its original luster, they hope.

It is already being tried out on more than 500 experimental cars. They believe it will be in general use on General Motors cars within two years.

This was just one of several interesting items which popped up during a press tour of the Research Laboratories Division of the General Motors Technical Center at Twelve Mile and Mound Roads Friday.

This 813 acre tract is a fabulous place. New buildings just opened include the new administration building housing the laboratories, the wind tunnel, and the turbine research building. The applied nuclear physics laboratory is nearing completion. In this latter building General Motors will seek to find new ways in which radio active materials can be put to peacetime uses.

In the wind tunnel cars and light trucks can be tested by winds up to 125 miles an hour in velocity, temperatures from 70 to 150 degrees, heavy rains and a wide range in humidity.

This building is 184x76 feet in size, with solid concrete walls. Huge airplane type propellers drive the air through the tunnel.

Another interesting phase of the laboratory work is the balancing of engine parts, and of the complete engine in huge machines which now do the work almost automatically. Even the weight of lubrication oil in the crankshaft is figured in overall balance.

Engineers have found that the oil causes an unbalance of one-half an ounce-inch, which in itself is more than the ultimate tolerance for the entire engine. Balance cuts down vibration, and also reduces engine wear.

One of the thousands of interesting items in the laboratories building is its clocks. A pendulum type master clock is accurate to 10 seconds a month and is corrected monthly to Naval Observatory time. The master clock automatically corrects all the other clocks each hour through small electronic receiving sets.

The 11 foot reception desk in the outer lobby serves as the nucleus of the public address system. From it anyone can be paged in any or all of the eight research buildings. The desk also has a tape recorder unit, a record turntable and an FM radio receiver.

Among the interesting testing methods are studying properties of hardened steel by x-ray diffraction, with viewing microscope slides on a television screen.

Here may be seen the mechanical heart developed by General Motors, in collaboration with a Harper Hospital physician.

The new laboratories building, just opened, was outgrown before it was even occupied. It originally was planned for 600 workers. Later this was increased to 900. Already more than 1,200 people are working in it and one complete department has had to move into another building.

C. L. McCuen is general manager of the research division. A. L. Boegehold of Erie Drive, Cass Lake, is assistant to the general manager. A public opening of the center has been tentatively scheduled for next May.

68-Home Project Ups Building in City

Building permits for a whopping $643,640 worth of new construction were issued by the Pontiac Building Dept. this week.

Accounting for most of that figure was a 68-home development on West Cornell avenue in Buena Vista Heights Subdivision.

The development, which will feature 1-family, full-basement houses, is valued at $612,000. Builders are Julian Builders Inc. and Prentice Builders Inc., of Detroit.

A list of other projects valued at $500 or more follows:

House, 600 E. Columbia, $9,500.
Garage, 1025 Voorheis, $900.
Garage, 330 Oakland, $1,400.
Garage, 141 Le Grande, $1,200.
Garage, 695 First, $650.
Garage, 229 W. Yale, $650.
Garage, 654 Northfield, $600.
Re-side, 94 Putnam, $1,300.
Re-side, 76 Gillespie, $815.
Re-side, 573 California, $895.
Re-side, 293 N. Cass, $860.
Re-side, 297 N. Cass, $620.
Re-side, 66 Branch, $500.
Re-side, 254 Dick, $800.
Re-side, 341 N. Perry, $500.
Re-side, 91 Hammond, $1,200.
Addition, 610 E. Mansfield, $1,300.
Addition, 53 W. Cornell, $1,280.
Addition, 340 S. Anderson, $1,000.
Remodel, 1023 E. Walton, $1,500.
Alter, 193 Hughes, $700.
Alter, 96 Florence, $500.
Alter, 23 Adams, $900.

City Democrat Club to Hold Regular Talk

The regular monthly meeting of the City Democrat Club will be held at 2 p.m. Sunday in the Roosevelt Hotel.

Club President George Hicks asks all new members who have signed in the last 3 to 60 days to attend the meeting.

A $25 Defense Bond will go to the club member who has signed the highest number of new members by October 1. The membership drive, which began June 1, is showing considerable results, Hicks said.

Warn of Threat From Pollution

Water Experts Caution Dirty Lakes May Halt Industry Expansion

ANN ARBOR (AP)—Two Detroit experts have cautioned that continued pollution of the Great Lakes will check the growth of industry in Michigan.

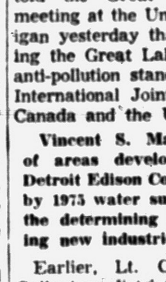

L. G. Lenhardt, general manager of the Detroit Water Board, told the Great Lakes - Institute meeting at the University of Michigan yesterday that states bordering the Great Lakes should adopt anti-pollution standards set by the International Joint Commission of Canada and the United States.

Vincent S. Madison, director of areas development for the Detroit Edison Co., predicted that by 1975 water supplies might be the determining factor in locating new industries.

Earlier, Lt. Col. Edward J. Gallagher, district engineer of the U. S. Lake Survey and Corps of Engineers, told the group that state and federal authorities are studying erosion problems on the shores of Lake Michigan and Lake Huron.

Dale W. Ranger, of the hydrology division of the Michigan Water Resources Commission, said beach erosion caused 62 million dollars worth of damage from May, 1951, to May, 1952—one-third of it in Michigan.

Dr. Hoffman Speaking on Lutheran Hour

Dr. Oswald Hoffman, public relations director of the Lutheran Church, Missouri Synod, will serve as Lutheran Hour speaker beginning Sept. 25. This is the 23rd season for this program.

Sponsored by the Lutheran Laymen's League the broadcast is heard over more than 1,250 stations in 65 countries and territories and in 56 languages.

Conductor Named

JACKSON (AP)—Emil Raab, University of Michigan music professor, will be conductor of the Jackson Symphony Orchestra next season. His appointment was announced Friday by Garrett Gething, president of the Jackson Symphony Orchestra Society.

Bible School Marks 35th Anniversary

Sunday has been designated by the Oakland Avenue United Presbyterian Church to mark the thirty-fifth anniversary of the founding of the church. Starting with a Bible School, June 27, 1920, under the direction of the Home Mission Board of the denomination, a portable building at the Wisner School housed the school for several weeks.

In fact by August of that year the school had grown to 75 and a temporary dwelling at the corner of Oakland and Cadillac Avenues was erected. Later that same year the late Dr. Andrew S. Creswell arrived and the church was organized on Dec. 3. He served the church until his death about a year ago.

A church was built in 1926, which the congregation again outgrew necessitating the building of the new sanctuary.

Guest speaker Sunday will be Dr. A. E. Kelly. Dr. Kelly who is secretary of the board of administration, has served this past year as moderator of the United Presbyterian Church of North America.

He will speak at 10 a. m., 4 p. m. and at the 7:30 service he and Mrs. Kelly will show pictures taken during his recent tour of the denomination's overseas missions. Included in this will be churches, hospitals and schools in Pakistan, the Sudan and Ethiopia.

At the 11:20 Bible School hour a history of the thirty-five years of the school will be given.

Preceding the 4 p. m. vesper service, Lyndon Salathiel, organist and choirmaster at First Presbyterian Church will give an organ recital. And following the service refreshments will be served to members and friends present.

Special music will be presented at all the services.

Pontiac Deaths

Mrs. Reese Germany

Mrs. Reese (Annie Mae) Germany, 44 of 53 Bursh St. died Thursday in Pontiac General Hospital.

Born in Tulsa, Okla. Aug. 1, 1910, she was the daughter of James and Bessie McHand Smith. She married Mr. Germany in Ohio in 1936.

Besides her husband, she is survived by her mother, Mrs. Bessie Edgewood of Los Angeles, a brother and three sisters, Danial and Mrs. Lillie Bell Funnieray also of Los Angeles and Mrs. Murray C. Owens of Kansas City.

The body will be at the Frank Carruthers Funeral Home until Monday at 10 p.m. when it will be sent to Los Angeles for funeral at 2 p.m. on Tuesday.

Mark T. Jozwik

Graveside service will be Monday at St. Augustine Cemetery in Durand for Mark Timothy Jozwik, infant son of Joseph and Vernice Ellsworth Jozwik of 1571 Baldwin Ave. The baby was born Sunday and died Friday in St. Joseph Mercy Hospital.

Besides his parents he is survived by four brothers and sisters, Mary, Michael, Charles and Kimberley, all at home. The body is at the Sparks-Griffin Funeral Home.

Mrs. John Kahler

After an illness of a month, Mrs. John (Ida Louise) Kahler, 70, of 114 N. Jessie St. died in St. Joseph Mercy Hospital at 7:15 p.m. Friday.

Born in Swanington, Ind. Oct. 19, 1884, she was the daughter of Edward and Josephine Larson. She married Mr. Kahler in Indianapolis Dec. 20, 1919 and came to Pontiac that year.

Besides her husband she is survived by a daughter, Mrs. William Deary Jr., of Galesburg, a brother and two sisters, John Larson, Miss Jennie Larson and Mrs. Dora A. Gorman of Fowler, Ind.

Funeral will be Sunday at 2 p.m. from the Huntoon Funeral Home. The Rev. Paul R. Havens of First Methodist Church will officiate. Following the service the body will be taken to the John Hooker Funeral Home at Fowler.

Mrs. Frank Mayes

After an illness of six weeks, Mrs. Frank Mayes, 52, of 83 Jackson St. died in Pontiac General Hospital at 10:45 p.m. Friday.

Born in Kansas City, Mo. June 10, 1903, she married Mr. Mayes here in 1939. She had lived here 30 years and was a member of New Hope Baptist Church.

Besides her husband she is survived by two sisters, Mrs. Evelyn Little of Kansas City and Mrs. Irene Nichols of Seattle.

The body will be at the Frank Carruthers Funeral Home after 1 p.m. Sunday. Funeral will be Tuesday at 2 p.m. from New Hope Church. The Rev. Ford B. Reed, her pastor, will officiate and burial will be in Oak Hill Cemetery.

Red MIGs Shoot Up Navy Patrol Plane

(Continued From Page One)

we should not go to that conference," said Sen. Mansfield D-Mon).

The Navy said patrol flights like the one the Neptune was making have been made regularly for the last year.

The armed forces commander in Alaska, Lt. Gen. Joseph Atkinson, said the flights will continue. He called the attack "entirely unwarranted and without provocation of any kind."

The Russian bullets which wounded the three U.S. Navy fliers Wednesday noon came without warning. Four of the 11 men aboard—all of whom escaped with varying but minor burns and wounds—returned here yesterday and Lt. Richard H. Fischer of Pittsburg, Pa., reported there was no opportunity to avoid or return the gunfire.

He said the bullets ripped through the left wing and fuselage, "injuring three men" just as the gunner, Aviation Ordance Man Donald E. Sonnek of Minnesota Lake, Minn., reported sighting an airplane.

The bullets ripped holes in the wing and set it afire, others tore chunks out of the fuselage and struck three men.

Fischer said, "The flames were high and the men were burned on their faces and hands as they escaped through emergency exits. One man broke an ankle diving out of the plane. He thought it was going to explode."

Natives from the village of Gambell who had seen the burning plane coming down, met the men on the beach, taking the entire crew to Gambell.

An air rescue service plane from Ladd Air Force Base was waiting at Gambell and after treatment was given the burned and wounded flew the 11 men to Fairbanks. Fischer and the other three who were not injured returned to Kodiak.

Two Autos Entered

Two Detroiters' autos were broken into at the Pontiac Lake Recreation Area parking lot, yesterday the Oakland County Sheriff's Dept. reported.

Clothing was reported stolen from a car owned by Dave Stoffer, of 4266 Clemens. Alvin Davis, of 18660 Monica, told deputies his wallet containing $75 had been taken.

Panhandle Hits at Consolidated

Charges Michigan Firm Attempting to Capture State-Ordered Loss

LANSING (AP) — Panhandle Eastern Pipe Line Co. charges that Michigan Consolidated Gas Co. is "attempting to recapture a reduction of $2,500,000 ordered by the Michigan Public Service Commission and at the same time seeking to "tack on more than seven million dollars in new revenues."

Panhandle and Michigan Consolidated long have been at odds. In recent weeks they have been battling before the Federal Power Commission over a proposed new pipeline to bring additional natural gas to Michigan. PFC rule in favor of Michigan-Wisconsin Pipeline Co., an affiliate of Michigan Consolidated.

Henry Tuttle, Michigan Consolidated president, said "there is absolutely no basis for the statement made by Panhandle in opposition to a rate adjustment of the gas company."

Panhandle made its charges in a statement filed with the Michigan Public Service Commission in opposition to a proposed rate increase by the gas company. Panhandle asked investigation of "certain practices" involving Michigan Consolidated and affiliates.

Panhandle also said that it had shown at recent hearing the gas company "needed no new revenues, small or large, in order for the company to earn a fair return."

It questioned Michigan Consolidated's accounting methods and and what it said was a change in how it depreciates its property.

"Panhandle is merely attempting to block the expansion of Michigan Consolidated to serve its market," Tuttle said in a statement.

"Michigan Consolidated must obtain more than 37 million dollars in the immediate future to finance construction of facilities and Panhandle is attempting to prevent us from receiving the earnings necessary to raise that 37 million.

The Day in Birmingham

Recreation Board Lists Summer Play Programs

BIRMINGHAM—For the benefit of parents, the Recreation Board has issued a list showing activities in the city's summer recreation program, and identifying its staff of 26.

Morning classes include riflery at the police range under the direction of Lew Parry, and radio dramatics at the Birmingham High School Little Theater, with Mrs. Monzelle Clark and Carl Foltz in charge.

Junior sports will be at the high school gymnasium, with Kermit Ambrose, Howard Didier and Julie Kelley in charge.

Monday and Thursday mornings are designated for the golf program directed by Robert Fauteck at Springdale Park.

Brooke Marshall is in charge of the tennis program at Eton Park with the Springdale Park day camp operating mornings and afternoons and headed by Harry Keller.

MUSIC COURSES OFFERED

Morning music courses are directed by Arnold Berndt and Robert Kuscher. They will also be held Wednesday evenings.

Swimming is an afternoon and evening activity, directed by Donald Grothe, Robert Miller, Carl Brawner and Julie Kelley.

Morning playground programs at Adams and Quarton Schools and Pembroke Park will be in charge of Carol Hindley, Susan Doherty, Elizabeth Uhrie, Janet McLeese, Mary Jo Stenger and Linda Miller.

Directing morning and afternoon playground programs at Pierce and Torry schools will be Mrs. Louise Clark, Jane Gruber, Mrs. Kay Bronson and Carol Dorman.

* * *

Going into final stages in its membership campaign, the Chamber of Commerce can count on over 60 new members, Roland W. Reese, general chairman, said yesterday.

He pointed out that the drive will increase revenue "to a sound basis," replacing money formerly brought in through the local Secretary of State branch office.

In addition it will mean new committeemen for more strength in the chamber's program to further the city's welfare.

* * *

Registrations are still being taken for the Embury Methodist Church vacation Bible school which opened this week. Bible study, worship, songs, stories, games and other activities are included in the 9:30 to 11:30 a.m. programs held daily.

A potluck picnic on June 30 for youngsters and their parents, will mark the close of the school. Volunteer contributions will benefit the migrant children project of United Church Women.

* * *

Three local youths pleaded guilty to a state complaint of possession of firecrackers when they appeared in Municipal Court before Associate Justice John C. Emery Jr. yesterday.

Richard W. Dexter, 17, of 1408 Holland Ave., and Donald A. V. Yates, 18, of 1392 Holland Ave., were fined $25 apiece and placed on four months probation.

A sentence of five days in Oakland County jail and four months probation was imposed on Gerald E. Stamp, 18, of 1395 Holland Ave. Patrolman Joseph Buckles recovered 15 packages of large firecrackers from the three when he arrested them Wednesday.

* * *

James Dowie

Service for James Dowie, 77, of 998 Hazel St., will be at 1 p.m. Monday at Manley Bailey Funeral Home, with burial in White Chapel Memorial Cemetery.

A retired textile worker who came here from Scotland nine years ago, Mr. Dowie died Thursday.

He is survived by his widow Christine; three daughters, Mrs. Harold Phillips and Mrs. Alexander Provan, both of Birmingham, and Mrs. David Rollo of Detroit; one son, James, of Scotland; a brother, Andrew, of Scotland; four grandchildren and five great-grandchildren.

Soviet Downing of U. S. Plane Latest in Series of Air Incidents Since 1950

WASHINGTON (INS) — The Soviet fighter attack on a U. S. Navy patrol plane just disclosed was the latest of a long series of air clashes with the Communists since World War II, and was the first to occur off the Alaskan coast.

The Pentagon lists eight incidents in which American planes have been shot down with a loss of a total of 46 men in what are considered "unprovoked" attacks in widely spread parts of the world since 1950.

In addition, there have been many incidents in which shots were exchanged without loss on either side, and other incidents in which Soviet planes were bested and shot down by American fighters.

The two most recent exchanges prior to Wednesday's were in the Far East, on Feb. 5 and May 10 this year. In the first, American pilots shot down two Soviet Mig-15 fighters, and in the second three MIGs were downed.

The previous incident closest to Alaska occurred March 15, 1953 when an American patrol plane was attacked about 25 miles off the Siberian coast, several hundred miles southwest of the firing announced today. In the 1953 incident, there was no loss.

Here is the official list of incidents in which American planes have been shot down:

April 8, 1950—An unarmed U. S. Navy "Privateer" shot down over the Baltic Sea, ten men lost.

Nov. 6, 1951—U. S. Navy patrol bomber disappeared on a weather reconnaissance flight over Siberia after Soviet planes fired on it. Ten men lost.

B29 VANISHES

Oct. 7, 1952—American B29 disappeared on a routine flight over the Kuriles Islands in the Far East. Communists said the plane "fired first." The Pentagon said the plane was "unarmed and without escort." Eight men were lost.

Jan. 18, 1953—Navy Neptune forced to ditch in Formosa Straits off Swatow, China, after being fired upon by Communist shore batteries. All crewmen were rescued.

March 10, 1953—An F84 jet fighter plane was shot down over the U. S. zone of Germany. The pilot parachuted to safety.

July 29, 1953—An American B50 bomber was shot down 40 miles off the Russian coast, over the Sea of Japan. Sixteen of the 17 men aboard were lost.

Sept. 4, 1954—A Neptune patrol bomber was shot down over the high seas, 40 miles from the Siberian coast. Eight of the nine men aboard were rescued.

Nov. 7, 1954—An American B29 reconnaissance plane was shot down while on a photomapping mission over northern Hokkaido, Japan. One of the ten aboard was lost.

Hey, Mister—

That's No Way to Plan Your Trip

Here are some of the pitfalls that can bankrupt your holiday . . . and your purse:

Be sure of your accommodations. If you plan to spend the night in a resort town, arrive there with at least one hour of daylight still ahead of you. This will give you adequate time to look around and, if necessary, drive on to the next town. Some unscrupulous inn and tourist camp owners raise their rates for late arrivals.

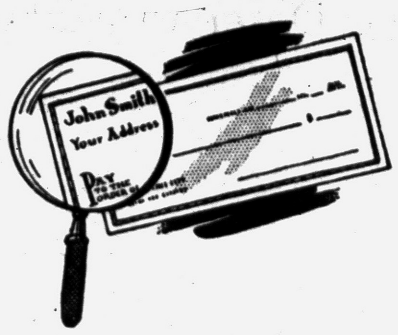

Don't leave luggage in your auto! A car bearing out-of-state license plates is a sure invitation to thieves. When you park for the night, take all your luggage with you unless you are sure that the garage you put it in is thoroughly responsible. A locked car is no protection, since a thief can break in with the aid of an ordinary beer can opener. Watch out for service station gyps! When you stop for gas and oil, get out of the car and see that you get all that you pay for. Watch the meter reading on the pump. Be sure that it is set at zero before the operator starts to fill your tank.

Eating poses problems! There are thousands of roadside bars and grills which exist primarily for local drinking patrons. They add to their income by serving terrible food at top prices to tourists unwary enough to enter. There's one way to play it safe. Stop and eat where you see parked trucks. The surroundings may not be elegant. The food may not be epicurean. But if the truckers patronize it, the food will be good, the kitchen clean, the price inexpensive.

Do these seem like a lot of precautions to observe on your summer motor trip? They're not actually. They just constitute old-fashioned common sense.

News of the Men in Service

Leon R. Doyon enlisted in the United States Air Force, for four years in April, 1955. He is stationed at Lackland Air Force Base in San Antonio, Texas.

DOYON

Leon attended St. Frederick's, Roosevelt, and Waterford Schools. He has applied for training in Mechanics School.

His home is at Uion Lake where he lived with his mother, Mrs. Isabel Dayon.

* * *

Raymond D. Leitch, QM3 has returned to his duties aboard the U. S. S. Shangrila in San Diego, Calif. after spending a 20 day leave with his parents, Mr. and Mrs. William Davidson of 3070 Eastwood Dr. Ray has served for ten years.

Mr. and Mrs. Leitch are the parents of a son, Robin Jay born April 27th at Havre, Montana. Mrs. Leitch is the former Charlotte Wyman of Havre, Montana. She is making her home with her parents in Montana.

* * *

Two brothers, Pvt. Gerald and A1C Lawrence Wright are serving in different parts of the world. They are the sons of Mr. and Mrs. Jessie Wright of 90 W. Cornell.

Gerald, who entered the Army in March, is now in jump training at Fort Bragg, North Carolina.

Lawrence entered the Air Force in May, 1948 and is now stationed in Japan with the 483rd Supply Squadron.

* * *

Corp. Norman E. Hovis, stationed in Korea for one year, has spent a 30 day leave with his wife, Arlene, at her parents' home, 643 Raskob.

Corp. Hovis has returned to the service with the Army in La-Grange, Ill., where his wife will join him soon. He attended Waterford High School and was employed by General Motors Truck and Coach Division before entering service in November, 1953.

* * *

Recently promoted to the grade of airman second class at Johnson Air Base, Japan, was Oliver M. Vanderhoeven, son of Mr. and Mrs. B. M. Vanderhoeven of 180 E. Huron St.

Airman Vanderhoeven, who arrived in Japan last September, is serving with the 41st Air Division at the airbase.

He enlisted in the U. S. Air Force in September, 1953 at Pontiac and was stationed at Keesler Air Force Base, Biloxi, Miss., before coming to the Far East. He has been awarded the National Defense Service medal.

Airman Vanderhoeven entered the service before graduating from Pontiac High School. Continuing his studies in the Air Force, he earned his equivalency diploma through the United States Armed Forces Institute. He is a member of the Johnson Air Base track and football teams.

* * *

Stationed at Craig Air Force Base, Alabama, A3C Neal R. Schultz has recently spent an eighteen day furlough with his parents, Mr and Mrs. Frank Schultz of Drayton Plains.

SCHULTZ

He was graduated from Technical School at Chanute Air Force Base in Illinois as an Electronic Instrument Trainer Specialist. His address is now A3C Neal R. Schultz, AF-16450989, 3617 Student Squadron, Craig A. F. Base, Alabama.

* * *

Pvt. Jon H. Shannon, 21, son of Mr. and Mrs. Herman W. Shannon, Royal Oak, recently was graduated from the track vehicle maintenance course at The Armored School, Fort Knox, Ky.

Private Shannon entered the Army last November and completed basic training at Fort Leonard Wood, Md. He was graduated from Berkley High School in 1951.

* * *

Pvt. Elizabeth A. Lucas, daughter of Mr. and Mrs. John Petrilla, Walled Lake, has just completed basic training at the new Women's Army Corps Center, Fort McClennan, Alabama.

LUCAS

Prior to entering the WAC, Private Lucas was employed by the Grand River Lumber Co., Redford. Miss Lucas attended Walled Lake High School.

Robert Bruce Chatterton Jr., son of Mr. and Mrs. Robert Chatterton of 3130 Interlaken, has enlisted in the Navy as an Electronics Field Seaman Recruit. Under the high school program, he will leave for basic training at Great Lakes, Ill. on Monday, June 27, 1955. Bob was graduated from Bloomfield Hills High School this month.

CHATTERTON

Salk Shots Stopped

BALTIMORE (AP) — The Salk polio vaccine program in Maryland has been temporarily shelved by the State Board of Health, which voted yesterday to wait and see what develops nationally.

The world rice harvest of 1954-55 is exceeded only by the record crop of the previous year.

Strauss Hails Uranium Plan

AEC Chief Claims Ike Has Doubled Amount of Metal for Allies

NEW YORK (AP) — Lewis L. Strass has announced President Eisenhower has doubled the amount of enriched uranium available for nuclear research in friendly countries.

In a speech prepared for the Overseas Press Club, the Atomic Energy Commission chairman said doubling the amount to 200 kilograms is one more step in Eisenhower's share-the-atom program.

* * *

Under the program last Nov. 15 the AEC allocated 100 kilograms of fissionable materials for research reactors in friendly countries. It also agreed to supply some countries with heavy water, used in certain types of atomic power plants.

Strauss re-emphasized that "the fissionable materials which we are thus prepared to make available as fuel for research reactors will not be of weapons grade."

But on that score he stressed again that, should the day of effective atomic disarmament come, the American nuclear stockpile has "another and happier potential" than as a collection of "devices of destruction."

Unlike battleships and guns which can be salvaged only for scrap when obsolete, he said, nuclear materials "can be easily converted into energy sources" for peacetime uses.

Strauss said a recent trip to Western Europe taught him how much Eisenhower's atoms-for-peace plan, unveiled in December, 1953, has inspired the people there.

It's Meat and Potatoes Not Jelly From Now On

LOS ANGELES (AP)—Frank Spieker, 38, is in jail, the victim of a jelly sandwich.

Police had to revive him before they could book him on suspicion of burglary yesterday. They said that Spieker got hungry after he entered a market so he made himself a jelly sandwich from the market's stocks. Then he dropped the jelly.

In the dark, he stepped in it, slipped, fell down and knocked himself out, police said. Market Manager Joe Bennish found him, out cold, and called police.

Discrimination Erupts Around Nisei Dentist

SAN LEANDRO, Calif. (AP)—An Alameda dentist of Japanese ancestry said today he'd lost another opportunity to buy a home in San Leandro.

Dr. Saitoru Aikawa, 32, a veteran of three years in the U.S. Army, said he had received a registered letter signed by 29 persons living in the neighborhood where he planned to buy. He practices dentistry here.

* * *

The letter, dated June 15, concluded "We cannot help but feel that it would be in the interest of better racial understanding that you find a residence in some other block in San Leandro." It opened with the remark that "as Christians we believe that a man is . . . equal in the eyes of God regardless of race or color."

Dr. Aikawa, born in Stockton, said the realty agent suggested he conclude negotiations "because of appraisal complications." Earlier this year the dentist lost another prospective home here as the result of a threatening telephone call.

2 Anti-Trust Bills Awaiting Signature

WASHINGTON (AP) — Two bills aimed at curbing antitrust law violations are awaiting President Eisenhower's signature.

The Senate completed congressional action on both yesterday.

One would increase to $50,000 the maximum fine for breaking the Sherman Act. The top fine now is $5,000. The bill makes no change in the one-year maximum prison penalty.

The other measure would allow the federal government to sue for actual damages resulting from violations of the Sherman or Clayton Acts.

Virginia O'Brien Free to Marry Another Time

LOS ANGELES (AP) — Deadpan singer Virginia O'Brien was all smiles after a trip to court. She's single again.

She termed her divorce yesterday from actor John Feggo the happy end of a "very sad situation." Feggo, onetime movie "superman," struck her on several occasions, she told the court.

Miss O'Brien waived alimony but Feggo agreed to pay $75 a month support for their three children. They were wed in 1942.

National Bargaining Forming Safety Unit

LOS ANGELES (AP)—Frank Brewster of Seattle, president of the Western Conference of Teamsters, says that AFL teamsters will have machinery set up by 1957 for nationwide bargaining.

Brewster is here for next week's 19th session of the conference.

Reflections

J. L. VOORHEES

WHERE ARE YOU GOING?

I think the more important question is not "Where" but "How" are you going. We're all going to the same destination; some in a hurry, some have time to laugh, help others and a few are being carried.

M. E. SIPLE

The Speeder pushes, shoves, elbows his way, gets there—in a lonely heap. The man who goes his way with a smile on his lips, a cherry greeting in his voice, ready and willing to clasp the hand of neighbor, friend or foe, lives gloriously, happily. He gives joy and happiness and gets it back ten to one. The Shirker smiles "Up his sleeve" as others shoulder his load; he lives precariously, is never ahead, too busy holding on to lend a hand, sooner or later is dumped like a sack of meal.

Where are you going? Take time to help your neighbor and he'll take time to point the way to better things.

MEMBER OF AUDIT BUREAU OF CIRCULATIONS

SATURDAY, JUNE 25, 1955

Ex-Gov. Brucker Named to Succeed Stevens

Nomination of WILBER M. BRUCKER to succeed resigned Army Secretary ROBERT T. STEVENS, was welcome news to our former Governor's many Michigan friends.

In asking the Chief Executive to be relieved, STEVENS cited compelling personal considerations. After reluctantly accepting the resignation, the President sent BRUCKER'S name to the Senate before leaving on his New England speech making trip. It is expected that STEVENS will resume his responsibilities as chairman of the board of J. P. STEVENS & Co., textile manufacturers.

★ ★ ★

BRUCKER, who was completely surprised by his appointment, is a native of Saginaw, a Republican and a law graduate of the University of Michigan. Before his one term of service as Governor in 1931-1932, he was prosecutor of Saginaw County and later Attorney General. During World War I he served with distinction in France as a second lieutenant in the famed 42nd Rainbow Division.

★ ★ ★

Since May 1954 he has been the Defense Department's general counsel. His nomination adds one more to the group of Michigan men in important Government posts.

We believe his excellent record of public service and unquestioned ability will earn him speedy Senate confirmation.

Peron Back on Top

Latest dispatches from Buenos Aires indicate that JUAN DOMINGO PERON has resumed his dictatorial control of Argentina's government.

This is contrary to numerous rumors that the dictator had lost his tight hold on the government. It also discounted reports that General LUCERO had become the number one man at bomb damaged Government House and that a three man military junta had been organized to run the country.

★ ★ ★

Resumption of control by PERON became known in a five minute radio broadcast by General LUCERO, commander in chief of the repression. After praising the army for quashing the June 16 rebellion, LUCERO added that it was worthy of being led by the President of the nation and the commander in chief of Argentine forces. These words referred directly to PERON.

Earlier PERON himself scotched rumors that his entire cabinet had resigned by meeting with it in a session devoid of incident.

★ ★ ★

Nothing above should be interpreted as meaning that Peron's position is as strong as before. Not even the man who destroyed the freedom of Argentina's press as well as many other liberties, could survive the bloody revolt with his position unweakened.

By waging war on the Church of Rome, in 95 per cent Catholic Argentina, PERON indeed made a monumental mistake. In fact, his actions have shaken Argentine society to its very foundations.

Korean Reds' Aggression Begun 5 Years Ago Today

Five years ago June 25, 1950, North Korean Communist armed forces crossed the 38th Parallel and began their war on South Korea.

At that time North Korea had become the Russian colony it still is. South Korea, on the other hand, had been progressing steadily toward economic self sufficiency. This progress was being aided by almost $500,000,000 in U. S. funds spent or authorized. At the time also, Congress was putting finishing touches on bills to lower taxes and suspend selective service.

★ ★ ★

As a result of the Korean Reds' naked aggression, however, the lawmakers increased taxes by about $8.5 billion. No restrictions were placed on the extended draft and the President was authorized to impose price, wage and rationing controls.

Two days after the invasion, President TRUMAN ordered U. S. land, naval and air forces, all placed under Gen. MACARTHUR, to help the South Koreans throw back the invaders. He also ordered the Seventh Fleet to prevent any attack on Formosa. President TRUMAN'S action got almost unanimous support in Congress.

★ ★ ★

Twelve hours after the invasion, the U. N. Security Council ordered a cease fire and called on all U. N. members to enforce it. On June 27, the Security Council, with Russia absent, invoked sanctions against North Korea and asked all U. N. members to come to the aid of South Korea.

The response to that request wrote some important new chapters of modern history, with the United States bearing the brunt of the battle. At the time U. N.'s support of U. S. action was widely credited with saving the world body from lapsing into impotence.

The People's Business

Kissin' in Capitol

Williams, Ziegler Agree to Temporary Truce

By JACK I. GREEN

LANSING—Gov. Williams and State Highway Commissioner Charles M. Ziegler have kissed—but not made up.

They are acting now toward each other like the two rival mamas at an Irish wedding.

• • •

Ziegler has produced a mammoth program for spending more than one billion dollars on new highways without saying he couldn't do it, didn't have time, for yelling "politics."

Williams has actually complimented Ziegler for a "sensible" program after shredding the commissioner's reputation in public for many months.

And peace reigns over all—for the moment.

Let no one expect that Williams is going to endorse Ziegler, a Republican, for re-election. Nor, probably, stop sniping at him about this and that.

FOLKS SHOULD CHEER

But out of the quarreling of the past few months has come some semblance of order and the people should take off their hats and cheer—for after all they are paying the shot.

• • •

Ziegler's smash disclosure Thursday of how he intends to build the state's new arterial highway system was big news in many ways.

• • •

You can thank Williams for getting that information—getting it by some very abrupt demands on Ziegler and by constantly prodding him in the political areas of his body.

THANK ZIEGLER, TOO

You can thank Ziegler for having the good sense to see that this time, if never before or again, the public was not going to be satisfied with vague generalities.

• • •

Republican leaders were sore at Ziegler for not being ready with his announcement the moment Williams signed the bill creating the new program.

They figure Ziegler let himself in for a lot of Williams' ripping which was unnecessary.

And they were seriously concerned lest Ziegler continue to hold plans close to his chest.

Let it be said in Ziegler's defense that he has been following what has been a long-standing policy of secrecy by the Highway Department. It has been traditional that the department does not want to commit itself too far in advance for political reasons.

Experience has shown that if the department tells Podunckville it won't get its new pavement for five years, the good citizens of that burg immediately start pulling strings to move up their stretch at someone else's expense.

BETTER TO STALL 'EM

It has been considered better to stall them with glittering promises that the project "is on the drawing boards," that it is almost ready for contracts and thus keep the folks quiet.

So now the people of Michigan know what the goals are for this year and next year and the long years ahead.

CAN WATCH PROGRESS

They will be able to pace the program, see it develop, and watch how that penny and a half extra on each gallon of gasoline is lifting Michigan ahead.

So thanks to you, governor, and thanks to you, Charlie—and let's get going.

Parallel Life Lines

Days of All Faiths

Honor First Roman Pope in St. Peter's Day Festival

By DR. HOWARD V. HARPER

June 29 is one of the greatest days of the year in the city of Rome and in the Roman Catholic church generally. It is St. Peter's Day, the festival honoring the humble fisherman who became the first Pope.

It was to the Apostle Peter that Jesus said "Thou art Peter, and on this rock will I build my Church." (Matthew, chapter 16, verse 18) It is on this statement that the Papacy is based, since St. Peter was the first Bishop of Rome.

Thousands of pilgrims will flock today to the church of St. Peter in Rome. And if his health will permit him to appear they will see St. Peter's successor, Pope Pius XII. By ancient custom a net will be hung over the gate of the church, emblematic of the fisherman-Apostle.

The familiar expression "Rob Peter to pay Paul," meaning to pay one debt by incurring another, is said to have originated in 1560, when money belonging to St. Peter's, Westminster, was used to pay for repairs on St. Paul Cathedral in London.

Tradition says that Peter was crucified head-down, by his own request. He asked to be put in this unusual position because he was not worthy to suffer the same death as his Lord. The crucifixion took place on June 29, in the year 66.

July 2 was the birthday, in 1849, of Thomas Cranmer, who was Archbishop of Canterbury at the time of the split between the Roman Catholic church and the Church of England. Although the break is frequently attributed to the desire of King Henry VIII to get rid of his queen and marry Anne Boleyn, it was Cranmer who really was the moving spirit in the English Reformation.

While he was still a priest he rejected many of the doctrines of the Roman church, and being an astute politician he used the King's domestic difficulties as a ladder on which he climbed to position where he could make his objections heard. His point, which appealed greatly to Henry, was that the King's first marriage (to his brother's widow) was not valid and therefore needed no appeal to the Pope. When, through Henry's influence, Cranmer was made Archbishop he declared the first marriage null and void, and recognized the marriage of Henry and Anne, which had been secretly performed some time before.

Twenty-two years later Cranmer was deposed by the Pope, tried for treason and convicted by an English court, and burned at the stake.

A "jeremiad," according to Webster, is "a lamenting and denunciatory complaint, a dolorous tirade." It comes from the name of the old Hebrew prophet Jeremiah, who may well be the all-time denunciation champion.

Jeremiah, a furious man, appeared in Jewish history at a time 17th Century B.C.) when the people of Israel were falling under pagan influence that threatened to ruin the nation's relationship with Jehovah. He told his people exactly what would happen to them if they did not mend their ways. As all preachers know, this is not the way to make oneself popular.

Case Records of a Psychologist

Methodists Donate Church, Parsonage to Expanding Lutheran Congregation

Mary asks a question that should be of interest to all church members and also to the 70 million religious "orphans" in America who belong to no church whatever. Churches are the greatest foe of divorce and juvenile delinquency so go to your neighborhood church tomorrow and become active therein.

By DR. GEORGE W. CRANE

Case O-366: Mary E., aged 18, is a college freshman.

"Dr. Crane, do you think there is as much quarreling between various church denominations nowadays, as was true in the past," she began.

• • •

"I am writing a paper on this subject and am supposed to interview several people in different fields.

"So would you please tell me your frank opinion of this matter?"

CHURCH FAMILY

The various sects of the Christian Church are much like the boys and girls in a large family.

The latter will quarrel over many petty matters within the home, yet they usually cooperate on major issues and love each other.

And their parents often overlook the quarreling, realizing that some of the friction is due to the excessive energy and zeal of growing children.

God probably looks upon the various sects among his churches as benevolent human father rewards the minor feuds between his children.

LESS FEUDING

And as we human beings grow more understanding of matters, we do find much less feuding between sects of the various churches.

For example, last autumn the First Methodist Church of St. Charles, Ill., gave its church building and parsonage to a neighboring Lutheran Church as an outright gift.

The vote was unanimous to present this $85,000 church plant to St. Mark's Lutheran Church of the Missouri Synod.

The Methodist had just received a beautiful new church building

which was the gift of Col. Edward J. Baker, of St. Charles.

So they could have sold the old property. But when they found that the Lutherans had outgrown their own church edifice and needed larger quarters, they decided to make an outright gift of the Methodist building and parsonage.

TYPICAL COOPERATION

This evidence of cooperation and brotherly love is typical of most of our modern churches today.

• • •

Oh, the churches may still differ in many minor man-made bits of ritual. But on fundamentals they usually agree closely.

Dr. Charles Ray Goff, pastor of the skyscraper church in the heart of Chicago's Loop, asks these questions of all prospective members as they gather at the altar to join that church:

(1) Do you accept Jesus Christ as your personal Saviour?

(2) Do you accept the story of the Christian faith as outlined in the New Testament?

(3) While you are a member here, will you agree to support this church with your prayers, your attendance, your gifts and your service?

TOTAL REQUIREMENTS

That's all that is required for membership. If the applicants answer "I do" to all those queries, then Dr. Goff shakes their hand and welcomes them into full membership.

• • •

You will notice that there is no query about methods of baptism or about whether the Sabbath should be Saturday or Sunday.

There is no debating the merits of rouge and lipstick. And no women are told they must wear hats or gloves to avoid being debarred from church.

No prescribed menus are demanded, nor are the applicants required to omit jewelry or the movies, dancing or football.

FUNDAMENTALS

For Dr. Goff asks simply fundamental questions involved in all Christian religions. As a result, he has taken into membership scores of Roman Catholics and Lutherans, Baptists and Mormons, Presbyterians and various others.

• • •

I cite these facts for the 70,000,000 Americans who belong to no church whatever for they often don't realize what goes on in modern churches.

They still think churches feud seriously with each other. But that is unusual and simply typifies church people who haven't matured.

For you'll find all denominations in heaven since God doesn't quibble over petty man-made ritual.

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long 3c stamped, self-addressed envelope and a dime to cover typing and printing costs when you send for one of his psychological charts.

Voice of the People

James Clapp Says Novi Farm House Founded 1830 May Deserve Marker

Letters will be condensed when necessary because of lack of space. Full name, address and telephone number of the writer must accompany letters but these will not be published if the writer so requests unless the letter is critical in its nature

In noting a story and pictures of Judge Frank Doty receiving the centennial marker for his farm, I recalled a farm which I do not believe has ever been given a marker. I am not positive, however, if the farm would qualify.

I am referring to the farm at West Novi known as the Gage Farm. This farm was taken in 1830 by Stephen Gage, who came from New York.

Gage's son, David, took over the farm in 1843. When he died in 1932 his daughter and her husband, Mr. and Mrs. Frank L. Thompson, undertook the farm.

The farm is now in the hands of David Gage's grandchildren whose father was Stephen Gage, and the children of Clayton Gage, Stephen's brother.

Technically, the farm has been out of actual Gage ownership since the death of Mrs. Thompson in 1942. However, the farm has been Gage owned for 102 years. If family residence as well as ownership is necessary that brings the period down to only 75 years.

James W. Clapp
154 S. Johnson

Flag in Each Home Is American Legion Goal

It has been brought to our attention that there were only 200 flags flown in the city of Pontiac on flag day. The American Legion, standing for God and Country, is starting a "Flag for Every Home" drive. The Hill-Gazette Post 143 of Auburn Heights, along with several other posts in the state of Michigan is offering for sale a 3 feet by 5 feet street flag complete with standard and bracket for hanging on your home front for only $3.00.

We hope that every citizen will take advantage of the low offer and display the American Flag on every National flag observance day. Anyone wishing to purchase a flag may contact Gerald Hill at FE 7-8642. Let's make Pontiac and surrounding towns the most flag flying towns in the nation.

India Agrees to Send U. S. More Monkeys for Polio

WASHINGTON, June 24 (AP)— Officials said today American and Indian representatives have reached agreement on continuing imports of Rhesus monkeys used in manufacturing polio vaccine.

The United States has been taking the monkeys at the rate of several thousand a month. At one point the Indian government, dissatisfied with how the monkeys were handled in shipment, embargoed all exports.

The embargo was imposed in March. In April, India agreed to keep the supply coming until June 30. This permitted time for a more permanent agreement to be negotiated.

• • •

State Department officials said today the negotiations were conducted at New Delhi by an American group composed of representatives of the U.S. Embassy, private companies which manufacture the vaccine, the National Foundation for Infantile Paralysis, and the Department of Health, Education and Welfare.

Informants said that, while no official annoucement has been made, the American and Indian representatives have substantially agreed on arrangements which will keep the shipments of monkeys, held sacred in Hindu India, arrived dead at their American destination.

• • •

A key point of the prospective agreement is that the polio foundation will handle the shipment and distribution of the monkeys and assure treatment satisfactory to the Indian government. Previously all imports were handed separately.

The Indian government became upset over the shipments about six months ago when some of the

States Perry Market First Founded by Sackett

The Perry Friendly Market now owned by Joe Puertas was not founded by him in 1934 as stated in a recent Pontiac Press article.

It was built by its former owner Evart J. Sackett and the grocery store was named the "Auto Shoppers' Market." Mr. Sackett closed the store when he went on active duty with the Army in 1941, at which time he leased and later sold the store to Mr. Puertas.

Fenton, Mich.

Smiles

Some couples get along okay simply because the wife has a will of their own.

Lots of young folks have turned from ice skating to roller skating in order to "sit this one out."

The kids are playing scrub again — first on the corner lot and then at the kitchen sink.

Dieting does little good for some folks but at least it gives them plenty to talk about constantly.

Change, says a writer, gives us a better view of life. It depends on how you spend it.

Some girls find it's easiest to get back their lost youth through a breach of promise suit.

The bathing girl of this summer won't look anything like she did 10 years ago. That much time tells on anyone.

THOUGHTS FOR TODAY

Thus saith the Lord God; In the day that I shall have cleansed you from all your iniquities I will also cause you to dwell in the cities and the wastes shall be builded.—Ezekiel 36:33.

• • •

Prosperity, in regard of our corrupt inclination to abuse the blessings of Almighty God, doth prove a thing dangerous to the soul of man.—Hooker.

Dr. Brady's Mailbag:

Column Reader Recollects Ol' Brady Swimmin' Hole

By DR. WILLIAM BRADY, M.D.

Are you one of the Brady boys who used to go swimming in the hole where Sucker Brook wound around Roy Brigg's shack at the corner of the garden . . . (A.G.B.) It's a beautiful spring day here in northern New York — very red-breasted robins singing . . . Don't you wish you were here? (Mrs. H. A.)

Answer—I am and I do. You have brought on a relapse of nostalgia, and as punishment for my sins I can't slip away to Canandaigua for the cure.

• • •

Ten-year-old daughter has four warts on back of her hand. She is beginning to be very conscious of them . . . (T. DiC.)

Answer—Have you tried stealing a piece of salt pork from grandma and burying it in a graveyard at midnight? If that seems too radical, try applying castor oil to each wart every day; or painting warts and surrounding skin with weak tincture of iodine twice a week. Skilled operator can obliterate one or several warts with fulguration (sparking) or with electro-desiccation (surgical diathermy). Cleanest, safest way to remove a single wart is excision under local anesthesia.

• • •

I have had three babies, raised them all on your Baby Book. They are now fine specimens of health in their teens, and I hope they'll raise THEIR children . . . (Mrs. M. M. A.)

Answer—I do too, whether God wills that they raise their own or others. For Little Lesson No. 7, The New Brady Baby Book, send 25c and stamped self-addressed envelope.

• • •

Please find 25c and stamped, self-addressed envelope, for No. 3 Little Lesson, So You Have Indigestion? Thank you, and God bless you always, from a constant reader for over 30 years . . . (W. B. S.)

Answer—He does, every time I take a drink of pure cold water, every time I awake to a new day, every time I can do good for someone and every time I arrive at the bowling green.

• • •

Most satisfactory results from your recipe for excessive sweating. I read every word you write—only regret you no longer write every day . . . (Mrs. F. B. M.)

Answer—Ah, but I do. For pamphlet Excessive Sweating send stamped, self-addressed envelope.

Just came across an article by you on Calcium and Arthritis . . . (E. M.)

Answer—So far as I know, calcium has nothing to do with arthritis. If you have arthritis, you should be under a physician's care? If you have rheumatis, send stamped, self-addressed envelope and ask in writing, signed, for pamphlet Calcium and Rheumatis.

In behalf of my husband I thank you for your advice — he passed his exams with flying colors. I am 41 and have been very healthy until recently, when I'm afraid my looks and health are fading . . . (S. C. H.)

Answer—First, it is your duty to the firm to have a health examination by your physician. If or when you pass that, send 25c and stomped, self-addressed envelope for Little Lesson No. 16, The 7 Keys to Vite.

• • •

Please print again your formula for running ear. (C. J. A.)

Answer—Send stamped, self-addressed envelope and ask in writing, signed, for pamphlet on Chronic Running Ear.

• • •

Doctor told mother of two children with scarlet fever just to keep them away from other children for two weeks. Is this enough to protect other children in the neighborhood? (S. G.)

Answer—Generally not less than four weeks isolation is required. Convalescents with such sequels as rhinitis, sinusitis, tonsilitis or otitis media (middle ear infecton) may harbor the germ (Straptococcus) of scarlet fever and spread the disease months after the fever is over.

• • •

Is one too old at 40 plus to start doing forward rolls? (Mrs. F. G.)

Answer—I refuse to answer on the ground that it would tend to incriminate me or something. Some people at 40 are young, and some are old. If you roll at all, it will have to be at your own peril. Send stamped, self-addressed envelope and 25c, for Little Lesson 16, The 7 Keys to Vite, and the pamphlet The Somersanitasqua, which tell how and why everyone not crippled should roll 'em every day.

Signed letters, not more than one page or 100 words long, pertaining to personal health and hygiene, not to disease, diagnosis or treatment, will be answered by Dr. William Brady if stamped, self-addressed envelope is sent to the Pontiac Press, Pontiac, Mich.

The Week in Review

Soviet Peace Dove Is a Tough Bird

WASHINGTON (INS) — It became clear this week that any dove of peace the Soviets carry to next month's Big Four "parley at the summit" will be a tough old bird.

* * *

Russian Foreign Minister V. M. Molotov harshly established this point in his San Francisco speech at the United Nations' tenth anniversary commemorative session.

The Kremlin spokesman laid down the Soviet line, and a hard bargaining line it was, calling for cold-war truce concessions which the free world would be most reluctant to yield.

What Molotov demanded was an end to the free nations' protective alliances in Europe, the Near and Middle East, and Asia; withdrawal of all foreign troops from Germany, and abandonment of military bases on foreign soil, plus surrender of Formosa to the Chinese Communists.

AVOIDS FACTS

He called also for the ouster of Nationalist China from the U.N. and its replacement with Red China—disregarding the fact that the Chinese Communist regime is under U.N. indictment as a ruthless aggressor.

* * *

Molotov's speech was in sharp contrast to the words of President Eisenhower, who told the U.N.:

"Each of us here is witness that never in 10 years has the will of so many nations seemed so resolved to wage an honest and sustained campaign for a just and lasting peace."

Ike flew back from San Francisco to spend a busy day at the White House before taking off on a six-day speechmaking, barbecue-munching and fishing trip in cool, calm, Republican New England.

STEVENS QUITS

His brief stay at the executive mansion was highlighted by his acceptance, with "deep regret," of Robert T. Stevens' resignation as Army secretary.

* * *

The Stevens resignation story was a bit hectic. The news grapevine indicated Tuesday that he was quitting. The White House denied it. But Wednesday morning, the report was confirmed.

Ike chose as Stevens' successor the Defense Department's general counsel, Wilber M. Brucker, 61, former governor of Michigan and a close friend of Defense Secretary Charles E. Wilson. He will move into Stevens' job late next month.

McCarthy had nothing to say about the resignation of the man with whom he tangled so bitterly last year. But the senator from Wisconsin had a lot to say on another subject.

McCARTHY QUASHED

Joe demanded that the Senate go on record as insisting that Ike and the other top-level conferees at next month's Geneva meeting discuss the question of the "enslaved peoples" of Moscow's satellite states.

* * *

The Senate Foreign Relations Committee held, by a 14-0 vote, that the resolution proposed by McCarthy would "have the effect of expressing a lack of confidence in the President."

McCarthy tried to withdraw the resolution, but the Democrats insisted on putting it to a vote and the tally was 77 to 4 against it.

The Salk polio vaccine controversy continued, with some unexpected developments.

Several leading scientists, testifying before a House commerce subcommittee, said mass vaccination of children with the new drug should be halted pending a concentrated effort to assure rigid production safeguards.

SHOTS TO CONTINUE

But other expert witnesses disagreed, and one of them said that it would be "tragic" to interrupt the inoculation program now. Dr. Jonas E. Salk, developer of the anti-polio formula, reiterated his faith in both the vaccine and the inoculation plans.

The committee overrode its chairman, Rep. Carl Vinson (D-Ga) and shunted aside a measure of his authorship which eliminated any reference to segregation in military units but also did away with key features specifically asked by the White House.

Thereupon, Vinson presented another version, which his committee approved. This plan contains many of the Eisenhower proposals that were in the original reserve bill which was stalled in the house because of an anti-segregation amendment.

Red China Will Free Turncoats at Once

HONG KONG (AP)—Peiping radio said today arrangements have been completed for the departure of the three American and two Belgian soldiers who changed their minds about staying in Red China. It said they "can now leave immediately."

The five soldiers who chose to stay with the Communists after the Korean War have been identified as Lewis W. Griggs of Jacksonville, Tex., O. G. Bell of Olympia, Wash., William A. Cowart of Dalton, Ga., and the two Belgians, Roger Devriendt and Louis Verdyk.

Wins Music Prize

ANN ARBOR (AP)—Ronald Trogan of Saginaw, a graduate music student at the University of Michigan, has received a $500 award from the Louisville (Ky) Symphony Orchestra. His prize for "Scenes for Orchestra" is one of 10 given by the Louisville Symphony each year to American orchestral composers.

U. S. Steel-CIO Meeting Today

Company-Union Chiefs Call Special Session to Avert Walkout

PITTSBURGH (AP) — Working against a strike deadline of midnight next Thursday, U.S. Steel Corp's top negotiator arranged a meeting today with President David J. McDonald of the CIO United Steelworkers.

John A. Stephens, a vice president of U.S. Steel, said the session would be confined to a small group from both sides. He expressed optimism although the union quickly rejected the corporation's first proposal to boost wages about 10 cents an hour.

Steelworkers now average $2.33 an hour.

McDonald says the industry can afford to come up with a bigger increase because it's booming.

As in former years, U.S. Steel seems to be setting the contract pattern. It employs about 170,000 of the 600,000 USW duespayers in the basic steel industry.

Most observers feel big steel will increase its offer within the next few days. There are no outward signs that anyone expects a strike although McDonald has termed the situation "critical" and has summoned the USW's 170-man wage policy committee here Monday to "chart our future course of action."

Employes of State to Vote on Pension

Lansing (AP) — State employes will vote between Oct. 10 and 14 on whether they want to integrate their state pension plan with federal Social Security.

The State Employes Retirement Board, designated by Gov. Williams to handle the vote, set these dates and said it would adopt regulations at a July 14 meeting on the polling places and hours.

The Legislature recently passed a law permitting public employes to merge their pension plans with Social Security if a majority of those affected approve. Federal legislation requires the vote by secret ballot.

Says Foreign Papers in U.S. Are Pro-Red

WASHINGTON (AP)— Mrs. Stella Andrassy, a former Swedish countess, gave Senate investigators today a list of 34 foreign language newspapers in this country that she described as following the Communist line.

Mrs. Andrassy, a big blonde who said she has applied for U.S. citizenship, testified before the Senate Internal Security subcommittee in its inquiry into alleged Communist exploitation of the foreign language press.

The wife of a former Hungarian diplomat, Mrs. Andrassy said that she came to this country in 1948 and volunteered to work with the New York Civil Defense office as a liaison officer with the foreign language press.

* * *

In the course of this work, she said, she became familiar with some of the foreign language papers in this country and was "astonished that so many" were pro-Communist.

"I think it is a leak in your defense system," she said.

She said they "tell the most horrible things about America" and, when sent to friends and relatives behind the Iron Curtain, make people lose hope and "think it is not worth while to work against communism."

The subcommittee said there are 857 regularly published foreign language periodicals in this country.

OOPS — My Mistake

SALT LAKE CITY (AP)—When the burglar alarm went off in the city treasurer's office, it couldn't have happened at a better time. It was time to change shifts in the sheriff's office, located in the same building. So twice the usual number of deputies were around. But they found only a red faced janitor, Richard Hathaway, who explained he had bumped the burglar alarm while getting a waste basket out from under a cashier's counter.

Negro Fund Gets $10,000

DETROIT—A $10,000 gift from Chrysler Corp. to the United Negro College Fund has raised the total donations to $125,00, only $5,000 short of the goal.

TODAY'S ASSIGNMENT FOR:

JUNIOR EDITORS

TELLING TIME—3

The Sun Dial

Measuring time by the sun's shadows was popular way back in Biblical times.

The ancient Babylonians may have been the first to use sun dials. They placed a rod in such a way that it cast a shadow on a flat surface marked off into sections equal to hours. As the shadows moved, the time was indicated.

This method, of course, had a serious failing. It could only be used when the sun was shining.

Even after clocks and watches were invented, sun dials were still considered fashionable for open spots in the garden where the sun fell directly.

Sculptors carved beautiful bases on which to mount the sun dials. Often a favorite phrase was written around the edge. One of the sayings was: "I only mark the sunny hours."

A boy and girl of George Washington's era are shown, telling the time by a sun dial.

Color the picture and add it to your collection.

Monday: Steps Toward Liberty

Knowland Labels Nehru Broker of Soviet Policy

WASHINGTON (AP) — Sen. Knowland (R-Calif) today accused India's Prime Minister Nehru of becoming "a broker for Soviet foreign policy."

Knowland, the Senate minority leader, said in an interview the Indian leader adopted a "Communist viewpoint" in a recent joint declaration of the Indian and Russian governments after Nehru's visit to Moscow.

"It appears that Mr. Nehru, instead of being neutral, has permitted himself to get into the position where he has become a broker for Soviet foreign policy," Knowland said.

At Moscow, Nehru joined with the Russians in a declaration of mutual aims which called for attaining the "legitimate rights" of Communist China in relation to Formosa and admission of the Peiping regime to the U.N.

Knowland, who has criticized Nehru in the past, said he was not suggesting at this time that the United States counter the Moscow statement.

But he made it clear he does not believe Nehru should be permitted to speak as a neutral in any conferences on Asia that might develop as a result of the July Big Four conference in Geneva.

Committee Studies Driver Services Unit

LANSING (AP) — A citizens' committee has begun its study of the rapidly expanding operations of the State Department's driver services division.

Sec. of State James M. Hare told the committee that reports of moving violations turned into the file have increased from 125,112 in 1951 to an estimated 700,000 in 1955, based on present loads. This is exclusive of reports from Detroit, Hare said.

In the same period, Hare said, the number of employes in this division has increased from 87 to 91.

Under the central file setup, all courts are supposed to report moving violations against individual motorists so that their fitness for license renewals or retention can be accurately judged.

The committee also is studying the number of revoked and suspended licenses restored by circuit courts.

Fire Damage at $75,000

WAYNE — Damages were estimated at $75,000 from a fire at the warehouse of the Unistrut Corp. in Wayne yesterday. The fire, which was fought by Wayne firemen and volunteers from nearby Norwayne, was apparently caused by sparks from a grass fire next to the building.

Communion Service Slated for Sunday

The summer Communion Service at First Presbyterian Church will be observed on Sunday. Rev. Edward D. Auchard will speak at the Communion Service for the Parents Class of the Church School and Dr. William Marbach will preach at the Worship Service.

Parents and friends of children enrolled in the Vacation Church School are invited to visit the departments where their children are enrolled on Thursday, and to attend a program in which the work of the school will be presented at 11:00 a.m. that day.

Guests to Sing Sunday

Guest speaker at the Church of God in Christ on Wessen St. Sunday will be the Rev. G. B. Baker of Detroit. He will be accompanied by the Pastor's Chorus and the Junior Choir. The Wandering Travelers of Pontiac also will sing.

MRS. LULA FULTZ

Choir and Guests Mark Anniversary

The thirty-eighth anniversary of the Senior Choir of Trinity Baptist Church will be observed Sunday at 3:30 p.m.

Guest choirs will be present and participate from Detroit, Flint and Ypsilanti as well as from local churches. Mrs. Lula Fultz has been president for the past eight years. She also is a soloist for the local group.

During the program, Mrs. Josephine Williams and Mrs. Sarah Gary will be honored for a service of 28 years. Special guests will be former pianists and directors. Refreshments will be served.

Make Pastors' Appointments

Few Changes Listed for Methodist Churches in Community

The Rev. Charles Maher, who has been pastor of Baldwin Avenue and Covert Churches, was assigned to Indian River at the annual conference of the Methodist Church held recently in Detroit. Coming to the Baldwin-Covert charge is the Rev. C. Warren Wilson of St. Clair Shores.

Galloway Lake Church and Elmwood which have shared ministers have become separate parishes, and the Rev. Keith Colby who pastored both will become the pastor of Elmwood only.

Kenneth Stevens will be the pastor at Galloway Lake.

The Rev. Robert Benedict was assigned to Keego Harbor, but all other ministers in the community were returned.

However, the Rev. G. Russell Nachtrieb, former associate pastor at Central Methodist and more recently of Pickford, was assigned to Altersgate Church in Detroit.

Canadian Censor Board Gets Comic Book Accord

By Religious News Service

EDMONTON, Alta. — Wholesale distributors of comic books agreed to withdraw from circulation 15 different publications following a meeting with the Alberta Board of Censors at which the board reported it had found the books "objectionable."

The list of condemned comics was not made public, but a board spokesman said all of them portrayed "crime, violence and sex" in words and pictures.

He said the board felt publicizing the names of the banned periodicals would not be conducive to their hoped-for "quiet disappearance from newsstands." Instead, he added, a committee is preparing a Comic Book Guide for Parents that will list the ones found least objectionable for children to read.

AFTER THIRTY-FIVE YEARS — Starting with a Bible School of 18 members thirty-five years ago, the Oakland Avenue United Presbyterian Church has grown to a present membership of 680 with an enrollment of 630 in the Bible School. The picture shows the interior of the new sanctuary built in 1951.

Rev. W. Heyne Returns Sunday

Former Pastor to Aid in Burning Mortgage at St. Trinity

Guest speaker Sunday at St. Trinity Lutheran Church will be the Rev. Walter Heyne of St. Louis, Mo., at the 11 a.m. and 8:30 services.

Fred Burmeister, Larry Hannewald and William Dick, members of the finance board, announce that the mortgage will be burned Sunday and that in the future all monies received on building fund will be channeled toward building a new Christian Educational building.

Pastor Heyne was pastor here in 1941 when the frame building was moved to Jessie and Judson streets and renovated to be used as a school, and the new church was built at a cost of $65,000.

Communion Slated at Joslyn Ave. Church

The Lord's Supper will be observed Sunday at 10:45 in Joslyn Avenue United Presbyterian Chur Church.

At 7:30 p.m. the pastor, the Rev. Edmond I. Watkins will institute a re-marriage ceremony. At this service all married couples will reaffirm their carriage covenant.

This service performed by candlelight is planned to help draw families closer together in an effort to help combat separations and divorces.

Mennonite Head Receives Dolls From Japanese

By Religious News Service

TOKYO — A delegation of Japanese war widows presented a Mennonite official here with 500 dolls in gratitude for the 2,000 food parcels sent to Japan last year by coreligionists in the United States.

Mrs. Norman A. Wingert, wife of the director of the Mennonite Central Committee office in Tokyo, accepted the gift.

She said the dolls, dressed in the garb of various Japanese localities and occupations, will be displayed at the World Mennonite Assembly to be held at Upland, Calif., this summer. Then they will be distributed to American churches that participated in the food parcel program.

Quakers to Visit Russia

PHILADELPHIA—Six American Quakers will go to Russia June 2 for a month's good will visit sponsored by the American Friends Service Committee.

The Quaker party "hopes to express religious concern for world peace to Russians in many walks of life."

Gotham Wants Graham Again

Protestant Group Asks Evangelical Campaign When Billy Returns

By Religious News Service

NEW YORK — Evangelist Billy Graham, now on a European tour, may hold a full-scale crusade in New York City next year.

The board of directors of the Protestant Council of the City of New York voted at a meeting here to invite Dr. Graham to conduct a campaign during the latter part of September 1956, possibly in Madison Square Garden. The invitation was sent to him in Europe.

Last March, Dr. Graham packed the Garden, which seats 20,000 persons, for his first major appearance in the city.

The directors also authorized the appointment of a committee to arrange for the evangelist's campaign.

In announcing the invitation, the board said that reports on Dr. Graham's meetings overseas "indicate that his message benefits all ages and that persons of varied interests respond to his appeal for right living."

If Dr. Graham accepts the invitation, his campaign will be sponsored by a special committee of clergymen from various denominations appointed by the Protestant Council.

St. Trinity Announces Two Supply Ministers

Ted Pflug, a student of theology at Concordia Seminary, St. Louis, Mo., will occupy the pulpit at St. Trinity Lutheran Church July 3 in the absence of the Rev. Ralph C. Claus. The Rev. Otto H. Frinke of Royal Oak will preach on July 10.

Miss Catherine Zessin will be in charge of the office while the pastor is on vacation.

The congregation of People's Church, Toronto, Ont., raises more money for missions than any other in the world.

Members of Church Are Giving Bon Voyage Party for Rev. Dixon

Leaving on July 8, the Rev. Richard H. Dixon, pastor of Trinity Baptist Church will fly to London to attend the World Baptist Alliance as a delegate. Later he will visit other important cities in Europe, Asia and Africa.

He also will participate in the dedicatorial service at the Carrie Dyer Hospital in Liberia, W. Africa.

Sunday evening members of his church who have presented him with the trip will give a "Bon Voyage" party to which members of Newman A.M.E. Church and New Bethel Baptist Church are invited.

Baptists Are Placing Bibles in New Homes

By Religious News Service

JACKSON, Miss. — One of the largest statewide Bible distribution projects is taking place in Mississippi under the direction of Dr. W. A. Keel, secretary of the Negro work department of the Mississippi Baptist Convention.

Aim of the venture, begun last October, is to put a Bible in 100,000 homes that do not own one. Some 24,000 have already been distributed.

The Mississippi Baptist Woman's Missionary Union is sponsoring the distribution program which is primarily for Negro homes. However, others requesting a Bible will be given one.

Dr. Chester L. Quarles, executive secretary of the convention, said he believes the project is one of the most distinctive of any in the 22 state Baptist conventions.

Vacation School Enters Second Week Monday

Vacation Bible School for Church of the Brethren will enter its second week Monday. The school is being planned by Mrs. LeRoy Shafer and Mrs. Ray Fleming.

The closing program and demonstration of work done will take place July 3.

Confident Living

Positive Thinking Power Makes Huge Tasks Easier

By NORMAN VINCENT PEALE

A woman was telling me the other day about her little boy trying to move a table. He's a small child and the table he was pushing was a large one. "Honey," his mother said to him, "you can't move that table. Why, the table's as big as you are."

"I can, mummy," the child answered, "because I'm as big as the table is." That boy is a natural-born positive thinker.

DR. PEALE

Too many of us fail to find success and happiness because we haven't learned to look at things the right way. I know of a sales manager who was having trouble with his salesmen who were not making sales. They had just about given up mentally. They told him there was no business, no opportunities, no chance to do anything at all—things, they said, were bad all over.

He called them all into his office one day and pointed to a big white piece of paper with a black spot on it he had tacked to the wall.

"I want you fellows to sit here for a while and look at that paper," he told them. "And then I want you to tell me what you see." He let them sit for about fifteen minutes and then he asked, "Well, what do you see?"

"We see a black spot," they said with one accord.

"Doesn't anyone see anything else?" he asked.

No one did. They all had fixed their minds on the black spot. Not one of them mentioned the great expanse of white space that surrounded it on that piece of paper. The sales manager used this practical demonstration to point out that these men were concentrating only on the difficulties and blinding themselves to the great possibilities.

We need to learn and make perfect the skill of putting our imagination to use. Robert Crawford of the University of Nebraska calls this process "creative thinking" and Alex Osborne, a great advertising genius, has termed it "imagineering." Whatever you want to call it, it is your key to finding unlimited possibilities. Both Professor Crawford and Mr. Osborne have written books which tell how to use this approach in finding success in the world of business, and their books are worth reading. But the techniques of finding these unlimited possibilities apply to a far more important matter than business and financial success—they apply to success in living.

Marcus Aurelius, that great Roman emperor-philosopher, once wrote, "A man's life is dyed the color of his imagination." That is to say that your life will be what you imagine. Now imagination is usually dsmissed along with fantasy and day dreams, but that isn't really imagination at all. Imagination is the art of projecting images; it might better be called "imaging." It is the art of picturing what you want to be. And there is a deep and profound psychological law which makes you tend to become that which you picture.

Faith and prayer, both of which help us to think right, stimulate your will to project your mind into the unlimited possibilities before you. Everything depends on your slant of mind as you face life. And, once you know how, it is very simple to shift your mental slant from seeing only the black spots to visualizing the potential of the huge white areas around the difficulties we encounter. Start making this change in your point of view this very day, and you too will find your unlimited possibilities.

(Copyright 1955)

First Baptists Plan Service

Outgoing Missionaries Will Be Commissioned Sunday Evening

A special missionary commissioning service will be held Sunday at 7 p.m. in First Baptist Church.

Mr. and Mrs. Paul Hanselman (Ruth Prevette) with their two children, Nancy Jane and Paul Jr., will be leaving for Belgium to study for one year before going on to Belgian Congo for missionary work under the Evangelical Free Church Board.

Paul is a graduate of the University of Illinois and Ruth is a graduate of West Suburban Hospital and Wheaton College.

H. G. Rodine, secretary of foreign missions of the sponsoring board will come from Minneapolis, Minn., to give the charge to the candidates. Dr. H. H. Savage will preach.

Indian Leader Denies Anti-Christian Set

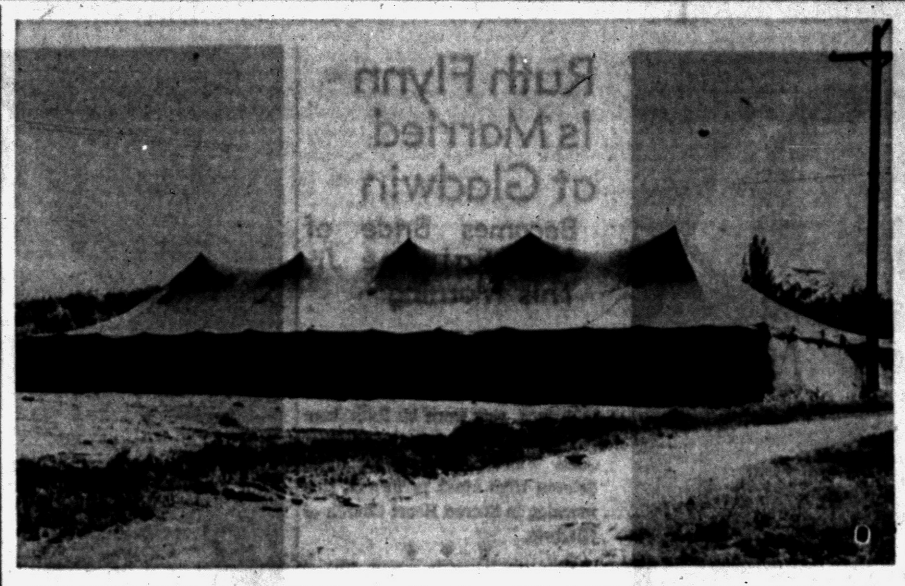

BOMBAY — An official of the Madhya Pradesh government denied charges by Roman Catholic Archbishop Eugene L. D'Souza of Nagpur that the state has become unsafe for Christians.

The official described the allegation as an "exaggeration" that was "not conducive to peace and harmonious relations between different sections of the public."

He also defended the six-man committee set up by the government a year ago to investigate the activities of foreign missionaries.

Catholic leaders had challenged the legality of the committee. They accused it of bias and of doing injustices to Christians.

These allegations, the official said, were "absolutely unwarranted." He said the inquiry board presided over by Dr. Bhawani Shankar Niyogi, former chief justice of the Nagpur high court, was "absolutely impartial in its

GET ACQUAINTED MEETINGS—For some time the Christian and Missionary Alliance Church has owned property on M59 and North Cass Lake Rd. Now this 40x120 ft. tent has been erected and services will be held here each night at 7:30, except on Sunday morning, for the next three weeks. It is the hope of the church that this will pave the way for making friends in the community.

Church Begins Services at New Location

Starting Sunday, the Rev. G. J. Bersche, pastor of Christian and Missionary Alliance Church, announces that tent meetings will be held at the new site of the church at N. Cass Lake Rd. and M59.

For some time the church at 178 Green St., has been inadequate for the specialized program of the church. Recently the parsonage has been built and the church is about ready to launch the construction of the new church.

Conducting services each weekday night from July 26 to July 3 will be the Rev. W. G. Weston, evangelist.

The music for the first week will be under the direction of the Rev. Cecil R. Thomas, district superintendent. The program will change at the close of each week.

2 Musicals Announced

A musical program will be given by the Senior Choir of Providence Missionary Baptist Church Sunday. The 45-voice group will sing at 5 p.m. Mrs. Louise Edwards is president.

The staff of the Southern Baptist conference center at Ridgecrest, N.C., annually celebrates Christmas in mid-summer to show what the holiday can be without commercializaiton.

Rally Announced by Young People

The Youth Rally sponsored by churches of the Oakland Youth Fellowship will be held tonight at 7:30 at the Gingellville Baptist Church, 3920 Baldwin Ave. Guest speaker will be Dr. H. H. Savage who will speak on the challenge of missions in South America as he observed the need on his tour.

A musical program has been planned by young people from cooperating churches.

Dave Kives will lead the singing accompanied by Jane Ann Fulcher.

Refreshments will be served by the host church.

Guest Quartet Here for Tuesday Evening

The Anderson College Quartet from Anderson, Indiana, appears here Tuesday at the First Church of God, it was announced by the Rev. H. Eugene Ramsey, pastor.

A get-acquainted hour with young people of the church is being arranged by Mr. and Mrs. Dan Mattingly and will be held in the church fellowship room.

Mobile trailer chapels now serve the spiritual needs of thousands of U.S. construction workers who move from job to job.

Why So Many Decide To BECOME CATHOLICS

Every week... all over the world ...thousands of people are received into the Catholic Church as converts.

In some cases, they are prominent, even famous people, and newspapers and magazines will interview them to ask: "Why are you adopting the Catholic Faith?" Usually, however, these converts are just average people and nobody bothers to ask them "Why?"

Yet the reasons which prompt the average person to become a Catholic are tremendously impressive. They are worth the most careful study of all who seek the salvation of their immortal souls, and who search for spiritual truth in a world of confusion.

It isn't easy to become a Catholic. It involves more than a mere declaration of faith and regular attendance at a nearby church. Thorough instruction in Catholic beliefs and obligations comes first, and a firm and fervent conviction must be demonstrated. The Sacraments of Baptism, Confirmation, Penance and Holy Communion must follow. And these are only the beginnings of Catholic life and Catholic obligations.

Nobody would undertake to meet such rigid requirements out of mere curiosity, or as a passing fancy. It may be assumed, therefore, that the average person who is thinking of becoming a Catholic has been moved by some strong reasons to feel this way. Is it merely because he has friends and neighbors who are Catholic... because the Catholic Church spans the earth and dates back to the Apostles... because in the Catholic Church there is unity of creed and worship, authority and a distinctive form of ritual?

Any one of a hundred reasons may be responsible for the initial interest of a Catholic convert. But what is it that prompts so many of them to investigate Catholic beliefs and teachings, and then say to themselves: "This is it!"?

The answer comes from the lips of numerous average people who were not originally Catholics but are today. They tell in a clear and understandable way what they found when they looked into the teaching, worship and history of the Catholic Church with an open mind... and into the life and teaching of Jesus Christ. They answer questions which may linger in your mind in a way which any non-Catholic can easily understand, for they too once stood on the outside and, in some cases, were even antagonistic to everything Catholic.

Free

An interesting pamphlet which you cannot obtain elsewhere... describing the experiences of average people who were originally non-Catholics but are now devoted members of the age-old, world-wide Catholic Church ...explaining how and why they became Catholics... how and why the Catholic Faith can aid and enrich your own personal and family life. For your free copy, write today... ask for Pamphlet No. KC-27.

More Couples Join June's Parade of Newlyweds

Ruth Jean Flynn of Lorraine court became the bride of John W. Falahee Jr. of Detroit this morning at Sacred Heart Church of Gladwin. She is the daughter of the Frank J. Flynns of Gladwin and he is the son of Mr. and Mrs. John William Falahee of Jackson.

MRS. JOHN W. FALAHEE JR.

Ruth Flynn Is Married at Gladwin

Becomes Bride of John Falahee Jr. This Morning

A strapless gown of satin and nylon tulle, topped by a redingote of embroidered nylon tulle trimmed with lace, was worn by Ruth Jean Flynn as she became the bride of John William Falahee Jr. at a Solemn High Mass performed this morning in Sacred Heart Church of Gladwin.

* * *

An eyelet headpiece with lily of the valley trim held her veil of illusion and she carried a colonial bouquet of white shasta daisies.

The bride, who resides on Lorraine court, is the daughter of Mr. and Mrs. Frank J. Flynn of Gladwin. John, of Detroit, is the son of Mr. and Mrs. John William Falahee of Jackson.

The Rev. Francis J. Flynn, brother of the bride, was celebrant of the Mass. Assisting were the Rev. John Steffey of Lansing, deacon, and the Rev. Vincent Hoffman of Jackson, sub-deacon. Two hundred and fifty guests attended the 11 a.m. ceremony.

ATTENDS SISTER

Marguerite Flynn of Chicago attended her sister as maid of honor wearing a gown of white eyelet embroidered organdy over lavender taffeta. The gown was fashioned with scalloped short sleeves and boat neckline, empire waistline, and full skirt.

* * *

Wearing aqua, yellow, pink and green gowns respectively were Grace McLaughlin and Sharie Husted of Pontiac, Mary Jane Flynn of Merrill and Patricia Flynn of Grand Rapids.

They wore picture hats of taffata matching their gowns with petals of eyelet and carried colonial bouquets of painted daisies.

Bridget O. Flynn of Detroit attended her aunt as flower girl wearing a gown of eyelet embroidered organdy over powder blue. Flowers were fastened to the sides of her headpiece and she carried a basket of shattered pink carnations.

* * *

George Naour of Detroit was best man. Seating the guests were John Wangler, John Pacuska and Richard Roulin, all of Detroit. Patrick Flynn of Gladwin, nephew of the bride, was ring bearer.

BREAKFAST FOLLOWS

A breakfast for the guests followed the ceremony at Gladwin Community Building.

The bride's mother wore a powder blue street length dress with navy accessories and the bridegroom's mother chose a rose-colored ensemble.

When the couple left on a two-week tour of the Southeastern states the bride was wearing a black and white polka dot suit with white accessories.

The bride is a graduate of Marygrove College and is working on a master's degree at Wayne University. The bridegroom graduated from Sacred Heart College of Detroit and is completing a M.A. degree in industrial psychology at University of Detroit.

For summer evenings, the girl who wears a junior size will find a whole collection of bouffant, short dresses in thin cottons enhanced with tucking, pleating, shirring.

MRS. THOMAS S. TORGERSON

Nancy Burgess Becomes Bride in Cranbrook Rite

BLOOMFIELD HILLS — Trees fashioned from living Dorothy Perkins roses marked the chancel of Christ Church Cranbrook this afternoon at 4:30 o'clock when Nancy Irene Burgess, daughter of Mrs. Magnus Mallory Burgess and the late Mr. Burgess, was married to Dr. Thomas Stedman Torgerson.

* * *

He is the son of Mr. and Mrs. Thomas Emil Torgerson of St. Petersburg, Fla., formerly of Kalamazoo.

The Rev. William C. Norvell of Christ Church Cranbrook and the Rev. Irwin C. Johnson of St. John Church, Detroit, read the service.

The bride was given in marriage by her godfather, Harold M. Taylor of Akron, Ohio. She wore a gown of pure silk Italian taffeta, fashioned on princess lines.

The fitted bodice was finished with a portrait neckline and the bouffant skirt, which ended in a long cathedral train, was draped and caught with tiny hearts of taffeta. The hearts, neckline and long sleeves were outlined in shirred nylon tulle.

LACE FROM PARIS

The veil was fashioned of Duchess lace which the bride bought in Paris last fall. Her bouquet was a nosegay of shell pink feathered carnations, her late father's favorite flowers, bordered with a frill of matching tulle.

* * *

Joan Gruschow was maid of honor, and bridesmaids included Shirleann and Jo-Ann Reynolds, cousins of the bride; Mrs. Charles H. Frey, Julie Sullivan, Joan Hadley and Carol Cobane.

They all were attired in full-length bouffant gowns of sea-foam green taffeta, fashioned along the princess lines of the bridal gown. They wore matching headdresses with net and carried nosegays of rubrum lilies.

Janey Wakevainen, flower girl, wore a miniature version of the bridesmaids' dresses and a band of sweetheart roses in her hair. Johnnie Wakevainen was ring-bearer.

Dr. John M. Wakevainen was best man, and ushers included Alfred J. Macksey Jr., cousin of the bride, John J. Gorman Jr., Dr. Myron Ataman and Dr. Myron Kaufman of Detroit, Dr. James R. Hayward, Dr. Robert B. Hoek, Dr. John J. Pascoe and Dr. Lee N. Stroia of Ann Arbor and Gerald Somers and Neil Gleason of Kalamazoo.

GOWNED IN PINK

Mrs. Burgess wore a shell pink organza gown accented with frosty white imported lace. Her hat was of matching velvet leaves.

* * *

Mrs. Torgerson wore soft blue organza with darker blue lace appliqued on the bodice and skirt. She chose white accessories.

A reception was given in the garden of the Burgess home on Country Club drive where many tables were set under green umbrellas against the gardens and shrubbery.

After a wedding trip to New York and Montego Bay, Jamaica, the new Mr. and Mrs. Torgerson will be at home on Woodland avenue, Birmingham.

For traveling the bride wore a navy sheer suit trimmed with white.

Couple Exchanges Vows in Hillsdale

Janice Bosserman became the bride of David T. Hayhow this afternoon at 3:30 in the First Methodist Church of Hillsdale.

* * *

The bride is the daughter of Mr. and Mrs. William E. Bosserman of Hillsdale and David is the son of Mr. and Mrs. E. C. Hayhow of Hillsdale, fromerly of Pontiac.

A gown of white lace and tulle was worn by the bride. Her fingertip veil was secured by a matching crown, seeded with pearls. Eucharist lilies and ivy formed her wedding bouquet.

Mrs. R. W. Bradshaw attended her sister as matron of honor wearing a gown of pale orchid crystallette with matching hat and bouquet of gladioli.

* * *

Wearing identical ensembles were bridesmaids Mrs. James Parker and Sue Hayhow. Jane Ann Bradshaw, niece of the bride, was flower girl.

ATTENDED BY FATHER

Mr. Hayhow served as best man for his son. Seating the guests were William Katzenmeyer of Detroit, R. W. Bradshaw of Hillsdale, Larry McCann of Pontiac and David Rood of Three Oaks.

* * *

Mrs. Bosserman greeted her guests at a reception held in the church parlors. She wore a beige dress with cream-colored lace and a picture hat.

Mrs. Hayhow wore a pink-beige dress of lace and silk with matching picture hat for her son's wedding. Both mothers chose corsages of garnet roses.

When the newlyweds left on their wedding trip the new Mrs. Hayhow was wearing a black sheath dress with black and white sleeveless jacket and matching accessories.

* * *

They are graduates of Michigan State College and will reside on Newberry street. The bridegroom will become a member of the Pontiac Press advertising staff.

To reside on Newberry street are Mr. and Mrs. David T. Hayhow. The bride is the former Janice Bosserman, daughter of Mr. and Mrs. William Bosserman of Hillsdale. He is the son of Mr. and Mrs. E. C. Hayhow, also of Hillsdale, formerly of Pontiac.

MRS. DAVID T. HAYHOW

Follow Instructions When Waving Hair

Points to remember when waving your child's hair: Follow directions to the letter and do not cut timing in half. After giving your child a home permanent, if the curl seems tighter than you wish it, remember that shampooing immediately will soften the curl without shortening the life of the permanent.

Nancy McCall Married

BIRMINGHAM — Nancy McCall daughter of Mr. and Mrs. Arthur S. McCall, was married this afternoon in the First Presbyterian Church to Duane Scott, whose parents are Mr. and Mrs. Eldred H. Scott of Rivenoak avenue.

The bride's gown was of white nylon tulle embroidered at the edge of the double-tiered skirt and around the heart-shaped neckline. A flat cap held her illusion veil and she carried Eucharist lilies with stephanotis.

Maria Rising was maid of honor, and bridesmaids included Mrs. James C. McCall of Flint, Dorothy Davies of Toronto, Marilyn Robertson and Linda Yaple of Columbus, Ohio.

They wore white organdy frocks embroidered in cornflower blue with matching sashes and bouquets of yellow mystic daisies.

* * *

Bruce Scott was his brother's best man, and ushers were Charles Kelly Jr., Lawrence Nahrgang, James S. McCall, Philip Murphy.

A reception was given in the church after the ceremony.

For traveling the bride wore a beige cotton suit with a brown hat.

The newlyweds will live in East Lansing where both will continue their studies at Michigan State College.

Couple Planning Summer Rite

Mrs. Edward A. Lautenschlager of Hagaman, N. Y., announces the engagement of her daughter, Carolyn Anita, to Gerald M. Wallace, son of Mr. and Mrs. Minto Wallace of Neome drive.

A graduate of Vanderbilt University, Nashville, Tenn., Carolyn is a member of the staff of Waterford High School. Gerald, a graduate of Adrian College, is a member of the faculty of the Isaac E. Crary Junior High School, Waterford.

A summer wedding is planned.

Margaret Stanton Speaks Vows in Birmingham Rite

BIRMINGHAM—In an afternoon ceremony in St. James Episcopal Church today, Margaret Holmes Stanton, daughter of Mr. and Mrs. Donald Tennyson Stanton of Mohegan drive, became the bride of Kent McDonald of Birmingham.

Kent is the son of Mrs. Fred Dale McDonald of Phoenix, Ariz., and the late Mr. McDonald.

The bride wore a gown of Regal Italian silk fashioned with a fitted bodice which was appliqued with Alencon lace, hand decorated with seed pearls and crystals at the neckline.

The billowing skirt extended to a court train and a Dutch cap of Alencon lace held her fingertip veil. She carried a cascade of Album lilies and ivy.

Mrs. Robert Frederick Killeen was matron of honor, and maid of honor was Ethel Jane Armeling of Denver, Colo.

OTHER ATTENDANTS

Bridesmaids were Elizabeth Ann Holmes of Washington, D. C., and Mrs. Alan Traugott of Flint. Julie Ann Calver was junior bridesmaid.

All wore peacock blue taffeta frocks with square collars of matching lace. The skirts were floor length. They carried pink carnations.

Willard McDonald of Phoenix was his brother's best man, and ushers were James Fraser Abbott, Robert Calver, James S. Moon, David Cole and David Calver.

A reception was given in the undercroft of the church.

For a wedding trip to Quebec, the bride wore a charcoal and white ensemble with red accessories.

* * *

The newlyweds will live on Birwood avenue, Birmingham.

Sally Bridson Reveals Plans at Bridal Party

Mrs. William White entertained at a miscellaneous shower Wednesday at her home in Berkley for Sally Bridson of Oliver street.

Sally, the daughter of the L. J. Bridsons of Oliver street, will marry Donald H. Ball, whose parents are Mr. and Mrs. H. E. Ball of Gladstone place, Monday.

Guests included Mrs. Andrew Neilsen, Mrs. Bessie Bogardus, Mrs. Roy Ball, Mrs. Elmer Bogardus, Mrs. Clarence Ball, Mrs. James Ball, Mrs. Howard Wilcox of Berkley, Mrs. Sam Newman of Rochester, Mrs. Craig Wotring of Lansing, Mrs. Bigelow Wotring and Mrs. Leo Bridson, mother of the bride.

Attendants for the wedding will include Mrs. Roy Ball, sister-in-law of the bridegroom, as matron of honor, with Mrs. William Searle and Mrs. Charles Buell of Birmingham as bridesmaids. Little Kathleen Ball, niece of the bridegroom, will be flower girl.

Serving his brother as best man will be Roy Ball, and Clarence Ball, another brother, Robert and Frederick Bridson, brother of the bride, will be the ushers.

Kathleen Shields Feted at Shower

Kathleen Shields, bride-elect of Jack Nelson, was honored with a linen shower given recently by Shirley Taylor of Drayton Plains.

Those attending were Mrs. Kenneth Rathbun, Mrs. Lloyd Mayo, Marcille Shell, Maria Kiriako, Mrs. Donald Seeterlin, Mrs. Harold Adams, Mrs. Gordon Booker, Arlene Horstman, Mrs. Kenneth Squires, Bonnie Allen and Mrs. Lynn Wyckoff.

Kathleen is the daughter of Mr. and Mrs. E. R. Shields of Drayton Plains, and the Herman S. Nelsons of Lochaven road are Jack's parents.

They will be married July 23 in Our Lady of the Lakes Catholic Church.

BONNIE LEE FREDERICK

Mrs. Charles J. Ostrander of South Paddock street announces the engagement of her granddaughter Bonnie Lee Frederick to Richard Frank Lucas. He is the son of Mr. and Mrs. Frank G. Lucas of New Port Richey, Fla., formerly of Pontiac. A fall wedding is being planned.

Coming Events

Ladies Auxiliary 396, National Association of Letter Carriers, will meet at Ortonville State Park on Sunday for noon picnic.

Pontiac Republican Women's Club will meet Monday at 1:30 with Mrs. John Susin of Bloomfield Hills. Election of officers will take place. The Rev. Malcolm K. Burton of First Congregational Church will be speaker.

Elnor Calkins Chapter, WCTU, will meet Tuesday at Central Methodist Church at 1:30 p.m.

Wear Lotion Film

Next to your complexion these hot summer nights, wear a light film of lotion to soothe and comfort your skin as you sleep. The lotion will quickly disappear leaving no greasy traces to rub off on lingerie or linens. For extra tip-to-toe pampering, smooth this wonderful skin softener all over your body after you step from your shower or tub.

MRS. A. J. ROY JR.

Mrs. A. J. Roy Jr. of Kimball street graduated recently from the nursing school at Walther Memorial Hospital in Chicago.

VFW Contest Won by Jackie Voorhees

At the 36th Department Encampment of the Veterans of Foreign Wars held at Traverse City recently, Jackie Rae Voorhees, daughter of Mr. and Mrs. Arthur Voorhees of Dick avenue, took first place in the Senior Division for strutting. She also won last year.

Miss Voorhees who has won the championship title many times for baton twirling, will attend the national contest in Boston in August. She represented the Ladies' Auxiliary of VFW Post 1370.

The Bermuda-length short in striped denim is a happy solution for he girl with a hip or thigh problem.

Married Friday evening in Christ Church Cranbrook were Charlotte Elizabeth Wiley and Warren Harte Lattoff. She is the daughter of Mr. and Mrs. George Stearns Wiley of Birmingham, and his parents are the Nicholas Lattoffs of Arlington Heights, Ill.

MRS. WARREN HARTE LATTOFF

Charlotte Wiley Chooses Organza Wedding Gown

BIRMINGHAM — In an evening wedding Friday in Christ Church Cranbrook, Charlotte Elizabeth Wiley and Warren Harte Lattoff were married.

* * *

The bride is the daughter of Mr. and Mrs. George Stearns Wiley of Willits road and the bridegroom's parents are Mr. and Mrs. Nicholas Lattoff of Arlington Heights, Ill.

The bride wore an off-white organza gown with a deep V of Alencon lace accenting the bodice. Her double-tiered skirt was very full and formed a slight train. A small coronet held her full-length heirloom Rose Pointe veil and she carried a bouquet of gardenias.

Irene Lattoff, sister of the bridegroom, was maid of honor, and bridesmaids included Mary Drake and Mrs. William Gibbs III of Birmingham, Mrs. James Truettner of Mount Vernon, Ill. and deRossett Morrissey of Rye, N. Y.

* * *

The attendants all wore white dotted Swiss frocks with narrow red velvet waistbands, white flowers in their hair and carried bouquets of red and white carnations.

DRESSED IN WHITE

Flower girl Susie Hitchcock, cousin of the bride and small daughter of Mr. and Mrs. Wiley Hitchcock, wore white organza with a red sash. Her cousin, Robert Davenport, son of Mr. and Mrs. Murl Davenport, was ringbearer.

A reception was given at Orchard Lake Country Club.

Edward Johnson of Savannah, Ga., was best man, and ushers were Bruce Collard, Michael Tym, Robert Biehl, Carl Reuther and Robert Dettmer.

After a wedding trip the couple will spend the summer at Lake Geneva, Wis.

Change Powder Tint

Did you know that the powder you have made-to-order this summer to match your tan, can be taken back to a powder bar in the fall to be reblended to harmonize with your paling skintones?

When the season ends, you can go back to the store with the remainder of your summer shade and the consultant will lighten it to suit your new coloring.

Bride Wants a Belated Reception

Asks if Invitations Can Be Enclosed in Announcements

By EMILY POST

The following letter is from a bride-to-be. "My fiance and I would like to be married very quietly with only our parents present and the couple who will stand up with us, and then leave immediately on a wedding trip.

"Would it be proper for my parents to give a wedding reception for us on our return instead of following the ceremony?

"Wedding announcements will be sent out immediately after the ceremony. Could the invitations to the reception be enclosed with the announcements, and how should the reception card be worded?"

Answer: It is unusual, but it would be quite all right to have a reception on your return.

Invitations to the reception may quite properly be enclosed with the wedding announcements and would be worded as follows:

A reception will be held on Saturday the ninth of July at Fairhaven Country Club in honour of Mr. and Mrs. Newlywed.

"Dear Mrs. Post: My husband and I received an invitation to a birthday dinner which is to be held in a private dining room of one of the hotels here in town.

"The dinner is at seven o'clock but all of the guests will be dressed in day clothes.

"I would like to know if it is necessary for the women guests to wear hats?"

Answer: When dining in the evening in a private room, hats are not necessary.

"Dear Mrs. Post: When clearing the table before dessert is brought in, which should be removed first, the meat and vegetable dishes, or should the individual plates be taken off first."

Answer: The plates are removed first. This is because they are directly in front of each person and therefore most conspicuous.

The meat platter (or main dish) is taken away next, then the vegetable dishes) (or condiments) last.

Marilea Kleinert Wed at Kirk in the Hills

Married this afternoon at Kirk in the Hills were Marilea Kleinert and Don Sherman Harvey.

The bride is the daughter of Mr. and Mrs. Walter Alfred Kleinert of Birmingham and Don is the son of Mr. and Mrs. James A. Harvey of Grand Haven.

Dr. Harold DeWindt performed the 3 o'clock eremony.

The bride wore a gown of white mousseline de soie with a lace applique motif over white taffeta. The skirt of the gown ended in a chapel-length train. She wore a two-tier fingertip veil trimmed with lace.

A white orchid surrounded by white roses formed the bridal bouquet.

* * *

Mrs. Thomas Louis Tiernan attended her sister as matron of honor, and bridesmaids were Margaret Elliott of Birmingham and Nancy Brinker of Grosse Pointe.

WEAR ORGANDY

The attendants wore ballerina-length gowns of white organdy over pale green. They carried arrangements of red sweet heart roses.

* * *

Mr. Tiernan served as best man. Seating the guests were Donald Kennedy of Ferndale, and Marvin Van Weelden and Glen Marshall, both of Grand Haven.

Mrs. Kleinert wore a mauve-colored gown of Chantilly lace and silk organza. A dusty rose gown of Chantilly lace was the choice of Mrs. Harvey.

Following a reception at Orchard Lake Country Club, the couple left on a wedding trip to northern Canada. They will make their home in Oak Park.

Marilea Kleinert, daughter of Mr. and Mrs. Walter Alfred Kleinert of Birmingham, became the bride of Don Sherman Harvey this afternoon at Kirk in the Hills. The bridegroom is the son of Mr. and Mrs. James A. Harvey of Grand Haven.

MRS. DON SHERMAN HARVEY

Potential Talents Enhance Living

By ANNE HEYWOD

"I have a part-time job," Mary B. writes, "which doesn't take too much time but which still brings in a little profit. And I have a lot of fun.

"I specialize in taking photographs of animals!

"I've always loved animals. In our house now, there are two dogs, three cats, a pair of parakeets and three turtles.

"The children love them and, fortunately, so does my husband.

"A couple of years ago, I received a camera for Christmas. Because I'd always wanted to learn how to photograph the animals, I worked hard and finally got some pretty good shots.

"One day, Bob's boss and his wife were here for dinner.

"The boss's wife commented on how good my dog pictures were and asked if I would photograph her dog, which is a show dog.

"I did and the photo came out so well, that she insisted on paying me for it.

PHOTOGRAPHED EVERYTHING

"That was only the beginning," this smart woman writes. "It seems that the kennel where she had purchased the dog also thought it was a good photo.

"They asked me to come and photograph several of their champions, for help in selling them. I did and now the kennel regularly calls me in, at a good fee, to photograph their prize pups.

"Finally, I got my nerve up and approached other kennels, as well as pet shops.

"I photograph everything from Siamese cats to canaries, and while the fees aren't high, it does bring in some money.

The beauty of it is, that business grows every year; and someday it may be a really profitable job."

"It seems to me that most of the success stories have this unplanned aspect about them.

A woman likes to do something, starts doing it just for fun and the next thing you know, friends and strangers alike are paying for her services.

"But I don't know what I'd like to do!"

If that's your complaint, perhaps my Housewives Career Guide may help you. If you would like a copy, send me six cents in postage and I will mail you one.

Remember, there isn't a person alive who hasn't some interest, some skill, which can be put to use, to enrich the life—and the pocketbook as well!

(Copyright 1955)

Maureen Joan Sweetman and Homer Thomas Harrison were married this morning in St. Vincent de Paul Church. The bride is the daughter of Mr. and Mrs. James Sweetman of Forest avenue. He is the son of Mr. and Mrs. Charles Harrison of Florence avenue.

MRS. HOMER THOMAS HARRISON

Maureen Joan Sweetman Wed in Morning Service

St. Vincent de Paul Church was the setting for the wedding of Maureen Joan Sweetman and Homer Thomas Harrison at 11 o'clock this morning.

* * *

Maureen is the daughter of Mr. and Mrs. James Raymond Sweetman of Forest avenue and Homer's parents are the Charles Harrisons of Florence avenue.

The bridal gown was of white slipper satin featuring a cathedral train and a portrait neckline of Venetian lace. The lace was jeweled with seed pearls and rhinestones.

To the bride's headdress of lace, covered with seed pearls and iridescent sequins, was attached a fingertip veil with hand-rolled edge. She carried a mother-of-pearl missal, the gift of the bridegroom, on which was fastened a white orchid and ivy corsage.

DESIGNED BY AUNT

The bride's gown, headpiece and veil, and the dress and hat worn by the bride's mother, were designed and made by Mrs. Philip Cooper, the bride's aunt.

* * *

Mrs. James Bale, matron of honor, was wearing a pink dotted nylon cocktail-length dress with white organdy jacket. A large organdy bow, with ties falling the length of the dress, centered the back. The back of her sweetheart-shaped hat was covered with pink daisies.

Bridesmaids Mrs. Robert Harris, Mary Drake and Jane Webster, wore identical dresses in blue and white with blue daisies on their hats.

Wearing a pink dotted nylon dress and carrying a basket of pink rose petals and pink daisies was the flower girl, Lynn Springer, daughter of Mr. and Mrs. Charles A. Springer of Alco drive.

* * *

Carrying the ring was Michael Cooper, son of Mr. and Mrs. Philip Cooper of Lincolnshire road.

ATTENDING HOMER

James Bale served as best man, and seating the guests were Robert Harris, Thomas Sweetman, brother of the bride, and Arthur Harrison, brother of the bridegroom.

* * *

Breakfast was served after Mass at Devon Gables, with flower arrangements in pink, blue and white decorating the tables.

A reception for the 300 guests will be held this evening at 8 o'clock in the Crystal Ballroom of the Hotel Roosevelt.

The bride's mother was dressed in blue lace with matching hat accented with seed pearls. Her accessories were pink and a pink rosebud and stephanotis corsage was on her purse.

White accessories were worn with a navy blue linen sheath dress by the bridegroom's mother. White lace flowers centered with rhinestones outlined the V-neckline and side pockets. She carried a corsage of pink roses and white stephanotis on her purse.

* * *

The bride will wear a gray, white and green polka dot princess-line dress, white accessories and her orchid corsage when she leaves with her husband for a wedding trip to the Smoky Mountains.

The new Mr. and Mrs. Harrison will make their home in Pontiac.

Marlyn Sherman, Robert W. Wright Feted at Dinner

Mr. and Mrs. James E. Wright of Lakeview avenue entertained at a rehearsal dinner Friday evening in Devon Gables for the wedding party of Marilyn Sherman and their son Robert W. Wright. The couple will be married this evening at First Congregational Church.

The bride is the daughter of Mr. and Mrs. Ward Sherman of Cheltingham drive.

Guests were Mr. and Mrs. Sherman, Mr. and Mrs. Ronald Woodhull, Mr. and Mrs. Ralph Grubb, Nancy Dickinson, and Nancy Tremper. Others were Virginia Sherman, Floyd Reynolds, Joe Johnson, Ted Jackson and George Crisman.

Miss Dickinson gave a spinster dinner honoring Marlyn Thursday evening at Forest Lake Country Club. Nine guests attended the dinner party.

A recent bridal shower given by Mrs. Keith Cooper of Clarkston also honored Marlyn. Mrs. Bartlet Wager was co-hostess for the shower which was attended by 18 guests.

If you have both double and single beds, it's often hard to pull out the correct number of the correct kind of sheet from a stack of linen. If a small symbol is embroidered or marked on the sheet corners, it's an easier proposition.

Two Are Attending Chorus Convention

The annual meeting of the Michigan Male Chorus Association is being held today through Sunday at White Lake near Whitehall.

The convention is being attended by Ralph Robinson and Kenneth W. Young of the MacDowell Male Chorus. Mr. Young, now retiring, was president of the association for two years and is governor of the local chorus. Both Mr. Robinson and Mr. Young are past presidents of the Pontiac chorus.

The black linen sheath with belt in a sharp contrast color (turquoise, yellow, amber) is a cool idea for a hot day.

Following their marriage this morning at St. Hugo of the Hills Church, Carolyn Frances Daneke and John Patrick Donovan Jr. left for a trip to Cape Cod. She is the daughter of the John F. Danekes of Birmingham, and his parents are the John Donovans of Dayton, Ohio.

MRS. JOHN PATRICK DONOVAN JR.

Couple Goes to Cape Cod

Carolyn Frances Daneke, daughter of Mr. and Mrs. John F. Daneke of Mohegan drive, was married at 10 o'clock this morning in St. Hugo of the Hills Church to John Patrick Donovan Jr., who is the son of Mr. and Mrs. John P. Donovan, Ohio.

The bride's gown of white Chantilly lace was scalloped at the neck line and hemline and fell into a Chapel train. Her fingertip veil was caught under a lace cap and she carried a white prayerbook with white orchids.

Carol Staub was maid of honor, and bridesmaids were Joanne Cote, Marilyn Moody and Macella Dupis. All wore white organdy waltz-length dresses embroidered with blue diamonds, tiny matching veils and carried pale pink carnations.

Lt. James V. Sosimati was best man, and ushers were John F. Daneke Jr., Richard J. Daneke, William Hallerman and Armand Martion.

A wedding breakfast was served at Pine Lake Country Club.

For a wedding trip to Cape Cod, the bride wore a navy and white suit. The couple will live in Saginaw.

Let Girl Have Own Way--She'll Soon Learn!

By ELIZABETH WOODWARD

This thing has been building up inside of you for some time, and here you are in a perfect froth of rebellion against dictation. Every day and all day its orders, orders, orders.

Your parents are the worst offenders, of course. You have to live with their constant reminders, suggestions, nagging. (And live happily, you sneer to yourself.)

At school it was one rule after another, regulations galore. Even the state you live in deprives you of your freedom. They dictate when you can have a license to drive the car. They make some places out of bounds to you because of your age.

And what you wouldn't do to be able to do exactly as you pleased for a change! With no one to call a halt!

THE BIG ITCHES

I'll bet I know a few of the things you'd do if you were free to toss your hat over the windmill.

You'd stay in bed as long as you pleased in the morning and let the old schedule go to pot.

You'd stay up as late as you wanted to, too. You'd see that "just one more" program, and then you'd see another. You'd watch until they shut down the station.

And you'd stay out as late as you pleased when you went out. If you were delayed, you'd consider that your business and you wouldn't bother to phone home.

Why, you wouldn't even tell 'em at home where you were going, what you were going to do, with whom or why. You wouldn't tell them anything. And when you got back you wouldn't make any reports, either.

You'd date anybody you wanted to.

You'd dress to suit yourself, too. If you wanted to wear your best dress to school, you would. You'd wear high heels, and lipstick and earrings. There would be a glamor-pie reflection in your mirror.

And you'd eat only what tempted you—and of that you'd eat as much as you could hold. A pox on diets and moderation!

Around the house you'd be strictly the princess. No grubby chores for you.

THE PAY OFF

How does that list compare with your own private yens? Write your own down honestly and generously in the order of their importance.

Then present your list to your mother when she's in a particularly good mood. She's intimately acquainted with the restrictions you're bolting against. And if she has a sense of humor she may relax the bans against some of your yens for a whole week!

Wouldn't you be surprised if she told you, "Okay, heave ho! Have it your own way for a while."

But you won't have anyone else to blame but yourself if you're so busy being lazy in bed that you get left behind while the others go on their picnic.

If you fall asleep enough times watching television you'll be cured of that suppressed desire.

And if you don't chat things over with your family, and have their questions to answer, you may find the atmosphere around your house rather cold. Just as though nobody cared a fig about you!

The gorging on sundaes and french fried potatoes and chocolate bars will ruin the effect of your best dress. What do you care how dumpy you get, how rough your skin looks, how stringy your hair.

The yens you yearn for are attractive because normally they're forbidden. A big dose for a short time would get them all out of your system.

And you'll wind up discovering that what your parents want you to do is exactly what you want to do, too!

CASE IN POINT

Here's a mother who has tried every kind, loving way she knows to make her daughter toe the mark. And daughter wails about nagging.

"Dear Miss Woodward: She leaves everything a mess in her room. She went in for dark, exotic make-up and I put my foot down, but it wasn't until her friends told her how terrible she looked, that she stopped wearing it.

"She won't practice the piano and violin, yet insists she wants lessons. She has put on weight through overindulgence, despite my harping on diet for health and beauty.

"She claims I'm driving her to keep up her normal 90 per cent average and insists she's content when she just gets by. She doesn't like correction.

"This state of affairs has changed the atmosphere in our home to one of tension, friction and arguments. Have you any suggestions?"

Answer: Your daughter is beginning to stand on her own two feet and feeling her oats—and she doesn't want anyone, particularly Your slightest suggestion is dictation, your merest hint is nagher mother, to tell her what to do. ging.

My suggestion is to give her her head for a short time and watch her snap out of her mood.

Her friends' comments made her give up makeup. They'll comment unfavorably if she puts on weight, if she shirks her school work. Their influence bears weight with her. (That's not nagging.)

You've guided her well. You have high ideals for her. On the main points of contention, let her have her way. Only too soon she'll begin to question her own judgment!

Copyright, 1955

First Presbyterian Church of Birmingham was the setting Friday evening for the marriage of Barbara L. Gibson and Frank S. Perkin II. She is the daughter of Robert C. Gibson of Birmingham and he is the son of Mrs. Norris Perkin of Birmingham and Dr. Frank S. Perkin of Grosse Pointe.

MRS. FRANK SCOTT PERKIN II

Barbara Gibson Wears Blush Pink for Wedding

Barbara Lee Gibson became the bride of Frank Scott Perkin II Friday evening at 8 o'clock in First Presbyterian Church of Birmingham. Dr. W. Glen Harris performed the ceremony.

* * *

The bride is the daughter of Robert C. Gibson of Birmingham and the bridegroom is the son of Mrs. Norris Perkin of Birmingham and Dr. Frank Scott Perkin of Grosse Pointe.

The bridal gown was fashioned of pure silk organza and hand-drawn Brussels lace over blush pink taffeta. A wide band of delicate lace and seed pearls created a portrait neckline and trimmed the fitted bodice.

The lace also trimmed the bouffant skirt and continued into the circular court train.

* * *

Her fingertip veil of silk illusion was held in place by a band of net leaves and seed pearls. The bride's bouquet was composed of demure roses and stephanotis.

GOWNED IN BLUE

Mrs. Lawrence Peck wore a floor-length gown of powder blue dotted marquisette over taffeta for her duties as matron of honor.

* * *

Sylvia Shertzer was maid of honor, and bridesmaids were Sally Anne Smith, Martha Dieterle and Margaret Perkin. They wore floor-length gowns of pink dotted marquisette over taffeta and matching headpieces of horsehair braid.

The matron of honor carried an arm bouquet of white delphinium and rapture roses. Other attendants carried arm arrangements of blue delphinium.

Dr. Vernon Dodson of Ann Arbor was best man. Seating the guests were Dr. Clayton Rose of Toronto, Thomas Look, John Owen Look and Carl A. Look, all of Detroit, and Edward Hubbel of Howell.

Mrs. Gibson wore a mauve pink gown of lace and chiffon. A Dior blue lace gown was worn by Mrs. Perkin. They both wore corsages of cymbidium orchids.

TO LIVE IN OHIO

Following a reception at the church the new Mrs. Perkin changed to a powder blue linen suit with white accessories. She wore a corsage of demure roses taken from the bridal bouquet.

The newlyweds will make their home in Cleveland.

Eye Bath Relieves Warm Day Strain

Your eyes are due for warm weather relief when you use an eye bath to wake them up in the morning and again during the day to keep them wide open. Then put your eyes softly in focus by donning a sheer trace of a cool, pastel colored eyeshadow on your lids for extra daytime sparkle — such as sea green or blue.

For evening witchery, try a silvery shade of shadow over a pastel shade to give your lids a translucent finish.

Play shoes of denim come in patterns as well as colors this year. And some even sport gold nailhead trim.

american designer pattern

by Claire McCardell

Cover-Girl McCardell Is Hot News

Top Designer Again Shows You Fame Trademarks

A Claire McCardell creation on the cover of a magazine is a regular occurrence, but when a top reportorial magazine selects the lady herself as the subject for its cover story and unreservedly calls her the greatest exponent of the American look, it's not just news, it's hot news!

McCardell fans who have long known and loved her fashionable contributions to the American Scene, will immediately recognize in this new model, all the trademarks that have made her famous:

The buttonhole loops, the soft bodice shirring, the full gored skirt finely gathered into the waist—and the criss-crossed spaghetti tie.

To hold the form of the bodice, there is a thin lining of either china silk or a light weight crepe to hold bodice fullness in place, and Miss McCardell suggests using braide cord for the tie which is tacked in the center front of the midriff.

For summer, choose chambray, soft cotton, pongee, shantung, plain or printed silk; as a fall party dress, it is most effective in taffeta or peau de soie.

This pattern is cut to Designer measurements, not standard pattern measurements.

Bust	Waist	Hips	Size
34	24	35 inches	10
35	25	36 inches	12
36½	26½	37½ inches	14
38	28	39 inches	16
40	30	41 inches	18

* * *

Size 12 requires 5 yards of 39 inch material for dress and ½ yard of 39 inch material for lining. To order Pattern No. 1223, address Spadea Syndicate, Inc., P. O. Box 535, G. P. O., Dept. P-8, New York 1, N. Y. State size. Send $1.00. Airmail handling 25 cents extra

Summer Bras Follow Lower Neckline Trend

NEW YORK (INS)—A lady who wants to keep in style this summer with new necklines had better save some money for new bras, too.

The stylish summer necklines demand special bras.

The low back is one favored summer neck treatment being shown by manufacturers. It's either cut square or "V"—but in either case the back plunges far down, necessitating a bra that dips down in back.

Also much in evidence in summer collections are three halter necklines. One, the usual halter, can take either a strapless or a halter-neck bra.

But there is also a halter neckline with criss-cross straps in back, and a halter "T" strap—in which a band of fabric goes from the back of the neck to below the shoulder blades, leaving the shoulders completely bare.

Front necklines for summer aren't plunging too much, but they're cut lower than usual at the sides. This kind of neckline needs one of those bras that has half-cups, or the bra shows over the edge of the dress.

MARJORIE J. BEVANS

Among those to receive their diplomas at Wayne University commencement exercises held recently was Marjorie J. Bevanss. She is the daughter of Mr. and Mrs. Charles Bevans of South East boulevard and was graduated with a B.S. degree in secondary education. Miss Bevans was secretary of Delta Omicron, national professional music fraternity.

Many of the nylon net stiffening petticoats can make hash out of a pair of stockings. If yours is this kind, wear a cotton half-slip under it.

Piano Recital Held at Church Friday

An informal recital of piano music was presented Friday evening at 8:15 in the Fellowship Hall of Grace Lutheran Church.

Taking part in the program were Gretchen Gaensbauer, Ivonne McFee, Mary Jess, Dennis Jenks, Brian Kemp, Jeanne Nelson and Theodore Gansebauer.

Others were Eileen Kemp, Barbara Patterson, Terry Fortino, Ernest Harris, Esther Diem, James Shaw, Beverly Wells and Lee Patterson.

Smart smoky-green border, 24 karat gold rim and gold flowerets are exquisite on glowing Lenox. 5 pc. place setting, $22.95

3,000 Area Residents Attend First Night of Waterford Fair

Summer Youth Program Now Swinging Into Action

WATERFORD TOWNSHIP — If Waterford Township youngsters stay home this summer, it won't be because they have nothing else to do.

A three-part play program is just swinging into action, under the direction of the township Department of Recreation.

Swimming instruction at five lakes already has started. Playground activities at five schools will begin Monday. And day camp is scheduled to begin Aug. 1.

The township-wide swimming instructional program opened Monday and will continue until July 29. The schedule includes classes twice a week, as follows:

CLASS HOURS LISTED

At Crescent Lake, three-hour instruction and swimming periods are offered Monday and Thursday afternoons. At Elizabeth Lake, sessions are Tuesday and Thursday mornings; Watkins Lake, Tuesday afternoons, Friday mornings; Oakland Lake, Wednesday mornings, Friday afternoons; Williams Lake, Monday mornings, Wednesday afternoons.

Morning hours are 9 a.m. to noon, and afternoon hours are 1 to 4 p.m. at all lakes. Swimming instructor is Miss Margaret Schenck, Cynthia Palmer is assistant, and David Latta is the lifeguard.

Supervised playground activities in five elementary schools will include sports, games, and a varied program of crafts and group activities.

* * *

One school, Drayton Plains Elementary, will have an all-day program under the direction of Mrs. Carol Wolfe. Playground hours will be 9 a.m. to noon and 1-5 p.m. daily.

HALF-DAY PROGRAMS

Covert and Stringham Schools will have morning programs (9 a.m. to noon) through July 22; afternoon programs (1-5 p.m.) July 25 to Aug. 19.

Donelson and Four Towns Schools will reverse this order, with afternoon programs through July 22, and morning programs July 25 to Aug. 19.

Jack Perry will direct activities at Stringham and four towns; Jack McCaffrey will be director at Donelson and Covert. Inter-playground coordinator is Paul Atkins.

* * *

Registrations will be taken the first week at the playgrounds. The program is open without charge to all young people ages 5 to 14. Children must arrange their own transportation.

DAY CAMP SCHEDULED

The fee for the summer day camp is $2.50 per week, recreation superintendent Thomas Belton has announced.

Registrations for the camp are being accepted daily at the recreation office in the CAI building, or by mail.

The program will begin Aug. 1, with bus pickups of children scheduled at the Waterford Village, Williams Lake and Pontiac Lake schools. The schools at which buses will stop will be varied each week.

Camp Tomahawk is located in the Highland Recreation area, and is completely supervised by trained personnel.

Bond Vote Set for Southfield

$2.5 Million Proposal Facing Residents at Sept. 20 Election

SOUTHFIELD TOWNSHIP — A special election for a $2,500,000 school bond issue for building and site purchase has been scheduled for the fall by the Southfield Board of Education.

A tentative date of Sept. 20 has been chosen, according to school officials.

Indications are that a tax boost may not accompany approval of the bonds. This could be accomplished by current bond retirement, and increased valuation of the district.

Buildings included in the plan would be a new junior high school and an addition to the present junior high.

Sites for schools in the growing district would take an important share of the funds.

Pontiac Press Photo

WASHINGTON BOUND — Barbara Boeneman of 2850 Lansdowne St., Williams Lake, carefully packs a blouse in her suitcase, while Ann Churchill of 7102 Buckthorn St., Westacres, checks her list. Both girls will leave tonight with a group of Girl Scouts who will spend a week sightseeing in Washington, D. C.

Girl Scouts Eagerly Await Arrival of Bus Taking Them to Washington

By JANET ODELL

Union Lake Villagers are going to rub their eyes and think they're seeing things tonight when a huge bus pulls up and stops here.

They will be even more puzzled by the furious activity around that bus. Some 26 teenage girls and seven adults will detach themselves from the crowd of relatives, stow away their luggage and board that bus.

Two senior Girl Scout troops are going to Washington for a week of sightseeing.

One, a group of ninth graders from the Williams Lake area will be led by Mrs. Loren Hossler. The other, tenth graders from Westacres troop, follow Mrs. Kenneth Sanderson.

A year of planning has gone into this trip. A year of planning, of dreaming and of working to earn the money.

EARNED THEIR WAY

Girl Scouts always attempt to pay their way, so every girl has earned at least a part of what her trip costs.

How do Scouts earn money? They baby sit, of course. In addition, these girls had bake sales, sold salted nuts—over a ton of them—and sold greeting cards and stationery.

While in the East the girls will stay at Camp Rockwood, the national Girl Scout camp near Bethesda, Md. They will commute by bus to Washington each day. One day will be devoted to a trip to Mt. Vernon.

* * *

At the camp they will have the opportunity of meeting other Girl Scouts from all over the United States.

SPENT HOURS PREPARING

Both troops have spent many hours preparing for this trip. They have previewed all the meals they will cook. Both groups plan to cook the morning and evening meal at Camp Rockwood each day.

Williams Lake girls making the trip are Linda Byington, Gwen Bellamy, Barbara Boeneman, Mary Lee McGinley, Nancy and Bonnie Sue Suart and Carol Grimes.

Others are Sharon Underwood, Bonnie Newmarch, Kay Van Huizen, Cathy Lobb, Claudia Kelley and John McKinnon.

* * *

Leaders chaperoning the group will be Mrs. Hossler, Mrs. Richard Van Huizen, Mrs. Gordon Boeneman and Mrs. Glen Byington.

WESTACRES GROUP

Westacres girls include Susan Laffrey, Marian MacKenzie, Carolyn Benninger, Judy Abersold and Valerie LaPiner.

Other Washington - bound Scouts are Marie Sanderson, Gayle Schenck, Verine Schaub, Kay Stewart, Ann Churchill, Linda King, Becky Odell of Commerce and Sandra Champnella of Wyandotte.

Leaders for the second troop, in addition to Mrs. Sanderson, are Mrs. Gerald LaPiner and Mrs. Carmi J. Odell.

Ortonville Couple Will Observe Golden Wedding

ORTONVILLE — Mr. and Mrs. George Wolfe of 44 Narrin St. will observe their 50th wedding anniversary Sunday. An open house celebration will be held from 2 to 7 p. m. in the home of their son and daughter-in-law, Mr. and Mrs. Nelson Wolfe, 1050 Granger Rd.

The coupel was married June 30, 1905. They have spent the past 40 years in their present home.

Mr. Wolfe is a former employe of the Buick Motor Division in Flint. Mrs. Wolfe retired in 1948 after 25 years as switchboard operator and contractor for the Michigan Associated Telephone Co. here.

They have one son and two granddaughters.

Dr., Mrs. Roberts to Mark Anniversary

SOUTH LYON — Dr. and Mrs. C. O. Roberts will celebrate their golden wedding anniversary with an open house from 3 to 7 p.m. Sunday at their home at 206 E. Lake St.

The two were married in Flushing on June 28, 1905, and have made their home in South Lyon since 1918. They have one son, Dr. D. H. Roberts of Winnans Lake, and a 12-year-old grandson, W. Douglas.

Dr. Roberts retired as a veterinary surgeon in 1942. He is a past master of the South Lyon Masonic Lodge 319.

Mrs. Roberts is a member of First Presbyterian Church, the Tuesday Club and a past matron of the OES.

Seymour Lake Group Plans Social Event

SEYMOUR LAKE — The Girls Extension Club will sponsor a homemade ice cream social at 7 p. m. today at the Seymour Lake Methodist Church hall. There will also be homemade cakes and pies.

The public has been invited to the event.

Three Seek Posts on Marlette Board

MARLETTE — Thre candidates will vie for two vacancies on the Marlette Community School Board at the July 11 election. Running for the office will be incumbents Charles Wood and James Sullivan; and Grant Almas.

A slate of candidates for another election — officers of the Marlette Community Council — will be presented at the August meeting of the Council. A nominating committee to select the names was appointed at this week's council meeting. It is composed of Cecil Dawson, Charles Wood and John Shields.

Also, approval was given for the purchase of a picnic table for the park at the community swimming pool at this meeting.

Set Family Reunion for Home in Davis

DAVIS—Harold and Jean Dicken's home will be the scene of the 70th annual Preston family reunion Sunday.

The reunion will honor E. R. Wilcox and his wife, Mattie Preston Wilcox, at whose home the first reunion was held—New Year's Eve, 1885. The house still stands on 26 Mile road, one and a half miles east of Van Dyke.

Those attending the meeting will also honor Wilcox for his organizing the Preston family history in book form, in 1896. The records go back to William Preston of New Haven Colony, one of its founders, in 1638.

Lakeville Scouts Go on Two-Day Canoe Outing

LAKEVILLE — Sixteen Boy Scouts of Troop 115, Lakeville, recently drove to Grayling for a two-day outing on the Au Sable River.

Main event of the occasion was a fifty-mile canoe trip up and down the Au Sable from Grayling to McMasters Bridge.

Six local men, including the troop scoutmaster, sponsored the excursion.

Marlette Playground Open; 33 Enrolled

MARLETTE — The Marlette preschool and kindergarden playground opened this week, with Mrs. Carl Rasmussen in charge. Children enrolled total 33.

Hours are 9-11 a.m. and activities will continue for four weeks. The village and community councils are sponsoring the playground.

Average width of a tornado path is about 1,200 feet and the average length is 16 miles.

Southfield Township Selects Eugene Swem

SOUTHFIELD TOWNSHIP — Eugene Swem, chairman of the Southfield Township Charter Commission, will be Township Supervisor here.

He was chosen after Fannie Adams, township clerk, and Emanuel Christensen withdrew as nominees. The commission plans work on a charter for a city form of government.

Group at White Lake Elects Mrs. Brendel

WHITE LAKE — Mrs. Chester Brendel was elected chairman of the White Lake Home Extension group at a meeting this week.

Mrs. Wesley Cogger was elected vice chairman; Mrc. Carol Steinbough, secretary-treasurer; Mrs. LeRoy Thompson, vice secretary. Others named were Mrs. Clayton Cook, Mrs. Joseph Boothroy and Mrs. B. A. McKeachie.

Beauty Contest Sunday Night

Festival Offers Rides, Stage Shows, Exhibits, and Children's Day

WATERFORD TOWNSHIP — More than 3,000 people flocked to attend opening night of the three-day CAI Fair before the gates closed shortly after 11 p.m. last night.

* * *

Festivities at the Community Activities, Inc. center, 5640 Williams Lake Rd. will continue through Sunday. The fair is sponsored by the community group, with proceeds earmarked to pay off the mortgage on the activities center. Civic and service clubs in the township are supporting the three-day benefit affair

Today is Children's Day. Two bicycles will be given to a lucky boy and girl ticketholder at 4:30 p.m., and rides are offered at reduced prices to children.

Feature entertainment tonight will be a Ballet Revue.

TO CROWN QUEEN

Sunday's special attraction will be the crowning of the CAI Fair queen, "Miss Waterford of 1955," scheduled to take place at 8 p.m. Votes are still being cast, at a financial outlay of one cent per vote, for the popular Waterford Twonship misses who are competing for the right to reign.

A grand prize is given away each night at the fair. Ten smaller prizes, donated by local merchants, are given away each hour.

Games of all kinds, a midway of rides, and special stage shows offer varied entertainment.

Many items are for sale. Hobbyists are selling their ceramics, jewelry, paintings and plants. And merchants have their wares displayed—plastics, furniture, appliances, cars and many others.

* * *

In the second floor rooms of the CAI Building, are displayed the collectors' items. Stamps, buttons, dolls, antique tools, gun and archery sets, skin diving equipment, and art work of many types offer diversion for all ages.

Almont Lions Officers Installed at Joint Meet

ALMONT — At a county-wide Lions Club joint installation, held at Imlay City recently, the following Almont officers were installed:

Robert Bowman, president; Don Hart, first vice-president; Willard Abraham, second vice president; Albert Hall, third vice president; Howard Kelley, recording secretary; Carl Wendt, financial secretary.

Don Cochrane was installed as lion tamer; Cid Weaver, tail twister; and Harold Hiller, Herb Hoffman, Robert Borland and Donald McAlvey, directors.

Clarence W. Ball was installing officer. Elmer Warren, zone chairman for the installation, was assisted by Tom Richards of Almont, Ernest Weaver of Imlay City, Ron Steir of Lapeer and Paul Horton of Metamora.

Sunny Vale Chapel to Honor Ex-Pastor

WATERFORD TOWNSHIP — Members of Sunny Vale Chapel will honor their former pastor, the Rev. Robert Brian, and his family at a potluck supper at 6:30 tonight at the church.

The Rev. Mr. Brian recently returned from South America. He will tell about his work in the mission field there.

MR. AND MRS. RAMON BUNDY

Shirley Sutherby Becomes Bride of Ramon E. Bundy

LEONARD—Shirley Ann Sutherby and Ramon Ernest Bundy exchanged marriage vows recently in a candlelight ceremony at Brethren in Christ Church.

The bride, daughter of Mr. and Mrs. Charles Sutherby of Leonard, was given in marriage by her father. The bridegroom is the son of Mr. and Mrs. Wilfred Bundy of Goodrich.

Shirely Ann wore ballerina-length gown of lace over satin and carried a bouquet of white roses.

Mrs. Duane Boughton was matron of honor for her sister, and bridesmaids were Mrs. Edward Kozachik, and Carolyn Sutherby, also sisters of the bride, and Wanda Sloan. Karen Kozachik, a niece, was the flower girl.

Attendants for the bridegroom were John L. Bundy, best man, and David Bundy, Dale Godbee, Roger Bontrager and LaVerne Oakes, ushers.

Friends and relatives decorated Rowland Hall for the reception following the ceremony.

Following a honeymoon trip, the couple will reside in Flint.

Pair of Touring Squirrels Taken on 1,600-Mile Trip

DRYDEN—Every town has its red squirrels, some of them even quite tame, but the town of Dryden boasts a pair of traveling squirrels.

Last May Day, county road crews felled a tree on Hough Road and discovered a nest containing four baby squirrels. The frightened mother fled and crewmen faced the problem of finding a home for the little creatures.

Mrs. Fred Behnke volunteered and immediately made a nest of cotton for the babies, keeping it on the pilot light of her furnace. She fed them every few hours from an eyedropper.

Then came the day the Behnkes had planned a trip to Yellow Lake, Wis., to visit their son Maynard and his family.

Since there was no one to care for the squirrels, the family took them along on the 1,600 mile trip.

This included the crossing of Lake Michigan, a night in a hotel at Manitowac, and back home via a northen Michigan route.

En route the baby squirrels were the center of attention each time the family stopped at a restaurant for warm milk.

While at Yellow Lake, Mrs. Behnke gave two of the animals to J. W. Cooper of Gary, Ind., who collects unusual pets.

Back home, Mrs. Behnke reports the "traveling squirrels" are still at it, traveling full speed about the house. They have abandoned the eyedropper, taking milk from a warm dish, and of course, eating lots of nuts.

Their names?—Flippie Tail and Snippie Snoop.

County Deaths

Frank F. Burras

LAPEER—Service will be held at 1:30 p.m. Tuesday at the Baird Funeral Home for Frank F. Burras, 82, of Elba, who died yesterday. Burial will be in Nepessing Cemetery, Elba.

He is survived by his wife, Vivian; four daughters, Mrs. Ina Potter, of Portland, Ore., Mrs. Delia Stewart of Red Creek, N. Y., Mrs. Robert Harr of Elyria, Ohio, and Mrs. Francis Bare of Overland, Ohio. Eight grandchildren and 14 great grandchildren also survive.

Omer M. Conroy

FARMINGTON—Service will be held from the Spencer J. Heeney Funeral Home at 2 p.m. Monday for Omer M. Conroy, 87, of 30704 West Ten Mile Rd., who died at his home yesterday. Burial will be in East Farmington Cemetery.

Mr. Conroy is survived by his widow Lydia; one daughter, Mrs. Hazel M. Gravlin of Brighton; three grandchildren and three great-grandchildren.

Mrs. John Mellen

ROMEO—Service for Mrs. John (Carrie) Mellen, 85, of 70379 Mellen St., will be held at 2 p.m. Monday at Roth's Home for Funerals, with burial in the Romeo Cemetery. Mrs. Mellen died yesterday.

Surviving are three nieces, Mrs. Cora Gillness of Flint, Mrs. Belle Guishneck of Rochester, and Mrs. Perry Jaynes of Romeo, and two nephews, Wes Borthwick of Thedford, Ont. and C. Floyd Mellen of Pontiac.

Daniel R. Gillespie

DRAYTON PLAINS—Service for Daniel Richard Gillespie, two months, will be held at 1 p. m. Monday from the Coats Funeral Home, with burial in Drayton Plains Cemetery. The infant, son of Mr. and Mrs. Anthony R. Gillespie of Drayton Plains, died suddenly Friday at St. Joseph Mercy Hospital.

Surviving besides his parents are the grandparents, Mr. and Mrs. William Stewart of Drayton Plains and Mr. and Mrs. George Dingel of Birmingham.

The American Institute of Cooperation will hold its 27th annual summer conference on farmer cooperative problems at Purdue University, Lafayette, Ind., Aug. 7-11.

Wheat Farmers Vote Today on Controls

WASHINGTON, June 24 (AP)—Wheat growers, plagued by a vast and persistent surplus, will decide in a referendum today whether to continue federal controls that keep their plantings about 30 per cent below war and postwar levels.

The referendum is regarded by farm leaders as the most important ever held by the Agriculture Department in more than 20 years of crop control operations.

The outcome is in doubt because of sharp opposition raised to the restrictions in some areas and because of general farmer dissatisfaction with the present price support program.

If the growers vote down the controls, Congress has already acted promptly to set up an alternative program.

Specifically, farmers will vote on whether to limit sales from the 1956 crop to the wheat produced on 55 million acres allotted individual growers.

Approval of quotas would bring the third straight year of crop restrictions. For 1954, the quota was 62½ million acres with government price supports at $2.22 a bushel. This year, the quota dropped to 55 million acres—the same as proposed for 1956—with that would be only 50 per cent of parity. And parity is the price figured as fair to the farmer in relation to prices a farmer must pay. Even this support would be available only to farmers who complied with acreage allotments anyhow.

Irrigation Plan to Flood Egypt's Finest Temples

CAIRO (AP)—Seventeen of ancient Egypt's best preserved temples will be submerged by the Nile under an irrigation project now pending.

Temple Island, the Valley of Lions and the fabulous rock hewn Temple of Abu Simbel are among the archeological wonders to be flooded. Four 75-foot statues of Ramses II, guarding the Temple of Abu Simbel, will be lost from view.

The project will irrigate two million acres of desert land. It will take 10 years to complete. At the end of three years most of the archeologically fertile region south of Asswan, known as Nubia, will be inundated. Within this area lie the 17 temples.

* * *

The region stretching from Wadi Halfa to the third cataract is practically virgin land in the archeological sense. No excavations have been made there.

Dr. Selim Hassan, veteran Egyptologist, says:

"Underneath these desert sands tombs and temples which may excel those of Luxor may be discovered. Fabulous treasures similar to those of Tutankhamen may be hidden."

Adlai's Son to Wed Kentucky Girl Today

LOUISVILLE, Ky. (AP) — Miss Nancy Lewis Anderson and Adlai Ewing Stevenson Jr., son of the 1952 Democratic nominee for president, will be married today.

The 5 p.m. ceremony will be performed by the Rev. Dr. Peter H. Pleune at the home of the bride's parents, Mr. and Mrs. Warwick McNair Anderson.

The couple will live in Cambridge, Mass., where Stevenson is a student at Harvard law school, following a Canadian wedding trip.

19 Servicemen Killed as Planes Crash in India

NEW DELHI, India (AP)—Indian air force headquarters announced that 15 air force and four army men were killed today when two Dakota planes collided near Agra and went down in flames.

An air force spokesman said no senior officials or foreigners were involved in the crash.

Cheboygan Gets Armory

CHEBOYGAN (AP)—Ground was broken Friday for the new $250,000 Cheboygan National Guard Armory. The building will be headquarters for the city's infantry company.

BROTHERS LOVE THE SAME GIRL — Allied Artists "An Annapolis Story," starting Sunday at the Blue Sky Drive-In, is about two men from Annapolis—with their own private war to settle. In its first run here, the Technicolor film stars John Derek, Diana Lynn and Kevin McCarthy.

Aid Program Revision Seen

Ohio Legislator Claims House Group Whittled Foreign Assistance Bill

WASHINGTON (AP) — Rep. Vorys (R-Ohio) said today the House Foreign Affairs Committee cut deeper into President Eisenhower's foreign aid program than some of its members intended.

Vorys, a senior committee member, announced he would try to restore some of the reduction when the bill came up for House action next week.

* * *

This was how the Ohioan explained the "unintentional cut" of what he said might come to more than 500 million dollars in global military assistance funds:

In approving a bill to authorize a $3,285,800,000 foreign aid program, the committee last Wednesday trimmed the President's request for new military funds by 145 million dollars. This cut to $1,133,000,000 the new military aid total for the fiscal year starting next Friday.

* * *

However, the House committee also approved a Senate provision requiring that the administration hand back to the Treasury all over 200 million dollars in previously appropriated military aid funds that remain unobligated as of June 30.

Hollywood Headlines

Warners Begins Filming Kings Row Series for TV

By BOB THOMAS

HOLLYWOOD (AP) — This week Warner Brothers launched the filming of its TV series Kings Row part of its bold venture into the home-screen medium.

Warners, once a fierce holdout against TV, is now embracing the field with a different formula. Columbia has specialized in half-hour story films, as will 20th-Fox. Disney has gone in for hour long variety shows, using old and new footage.

* * *

Warners has taken the characters and locales of three successful films—"Kings Row," "Casablanca" and "Cheyenne." These will be featured in brand-new stories of an hour's length. Thirteen of each series will be made this year, and they'll alternate on ABC Tuesday evenings.

Paul Stewart was directing the first of Kings Row this week. He's the able actor who appeared in "The Window," "Champion" and many other films. This is not his first fling at direction. He has done several plays and was under contract to Paramount as a director, though he never got an assignment.

* * *

"I also directed my own TV series in the East," he said. "I did a 15-minute show called Top Secret. We did 26 films in 25 days, so you can see I'm used to making deadlines."

Kings Row sets, which fill stage 16 on the Warner lot.

* * *

"Everything is done in the authentic 1905 era," he remarked. "Some of the stuff is fabulous. I'd estimate we have $30,000 worth of furnishings here. Then we have an exterior set on the back lot of a Midwestern town."

Community Theaters

Blue Sky Drive In

Sun., Tues.: "20,000 Leagues Under the Sea," Walt Disney color picture; "The Atomic Kids," Mickey Rooney.

Vietminh in Peiping

TOKYO (AP)—Ho Chi Minh, leader of the Communist Vietminh, and his party arrived in Peiping today, a Peiping radio broadcast reported.

Sam Has Plenty to Crow About — and He Does

GRAND RAPIDS (AP)—Sam is just a little more than six weeks old but he's got plenty to crow about.

As the pet of 14-year-old John Baker, Sam may be the luckiest crow in Kent County. The lad plucked Sam from a woods nest to bring him up as a pet. When John went to school, Mrs. Baker played nursemaid to the fledgling crow.

She says the bird ate worms "as often as you cared to feed him. We shifted the diet to raw hamburger, because you can't dig worms all the time," she adds.

John, who worried because the crow wouldn't drink from a water dish, inadvertently may have concocted a new type of bird's drinking fountain.

He squirted Sam's beak with a water pistol one day.

Mrs. Baker now gives Sam frequent drinks with the trusty water pistol when her son's away. She says the young crow seems to love it.

Sam has been in trouble once at his new home. Mrs. Baker recently rescued the crow from one of her husband's bird dogs which had caught Sam and shook him "like a feather duster in a hurricane."

The experience didn't quite shake Sam's faith in dogs, however.

The Bakers' say the crow still rides doggy-back aboard Katy, their Kerry blue terrier. Sam can fly, the family says, but he doesn't do it very often or for any distance.

"Every morning at seven, he's there cawing for breakfast."

Scholarships, Trip Due Miss Michigan

MUSKEGON (AP) — A total of at least $850 in scholarships, an expense-paid trip to the Miss America pageant and a complete wardrobe are among the top prizes awaiting the new Miss Michigan.

The awards were announced by Phil Riner, general chairman of the sixth annual Miss Michigan pageant to be held June 29 at Muskegon.

Riner said the girl selected as the most beautiful and most talented in Michigan also will receive a winners cup from the Junior Chamber of Commerce Auxiliary.

The pageant is sponsored by the Muskegon Junior Chamber of Commerce. A watch and charm bracelet will be presented to the runnerup, Riner said, and third place winner will receive a charm bracelet.

A prize puppy has been selected for the girl voted most congenial by her fellow contestants.

Begin New School

CHARLEVOIX (AP)—Construction began this week on the new, $75,000 St. Mary's School which replaces the recently razed 53-year-old building. Rev. E. Francis Denay, pastor at St. Mary's said the new school will be ready for use this fall.

Death Has 3 Lives

by Brett Halliday

Distributed by NEA Service, Inc.

THE STORY: Unwittingly Private Detective Michael Shayne helped Jack Bristow escape arrest for murder. Later Tim Rourke, a reporter, finds Bristow's body under the bed in the apartment of Lucy Hamilton, Shayne's secretary.

XII

Shayne heard a car pass below in the alley, and carried the body to the fire escape to wait on the landing until Rourke returned with no lights.

Then he carried his burden down swiftly, thrust it in the back seat and got in beside the reporter.

"Where we taking him, Mike?" Rourke asked as he drove.

"There's a girl in a motel out that way who was disappointed tonight when her husband didn't meet her in front of a house on 18th Street as he'd arranged to. If Jack is the man, she may as well know the worst now as later."

He settled back and lit a cigarette and related his meeting with the hungry girl who called herself Mrs. Peter Smith.

Timothy Rourke divested himself of a non-committal "U-m-m," drove on out the boulevard at a moderate speed until Shayne gestured ahead to a tourist court that now stood dark and silent.

"Cabin No. 6," he directed. "You stay back and bring him in when I tell you to. Pull the blanket down from his face so she sees it before she has a chance to get set."

He got out and went to the door of the cabin and rapped lightly. The headlights behind him outlined his figure clearly, and he saw the girl's face peering at him from behind the window after a moment. He knocked again, heard the key turning inside and the door opened a crack. The girl's thin voice, expressing utter defeat, floated out to him through the crack:

JUMPS IN BED

"Give me a chance to get back in bed before you turn on the light." Bare feet sped across the floor and the bedsprings creaked. Shayne pushed the door open and flipped the light switch. She cringed away from him in the bed with the covers pulled up tightly about her chin. "What'll you do if I scream?"

"Slap some sense into you," said Shayne flatly. "I've got your husband outside. You want to see him?"

She flung the covers back and started to leap out of bed, showing her body clothed only in a white silk slip, and Shayne gestured her back, saying gruffly, "Wait right there. I'll bring him in to you."

He turned in the doorway and nodded to Timothy Rourke, stepped aside to study the girl's expression with fierce intensity when the reporter entered carrying the blanket-wrapped body with pallid face exposed to the bright overhead light.

At the first moment, Shayne knew he had guessed wrong, and he had it in him to be almost glad that the corpse wasn't her man even though it dashed his hopes for a fast conclusion to the case.

The look of eager expectation on her face changed to curiosity and terror as she sank back on the pillow stifling a moan and shaking her head wildly. "No! That's not him. I never saw him before. Is he. . .dead?"

Shayne shrugged and told her, "Sorry to bother you, but we hoped you could identify him. Look again, Miss," he urged. "Look at him carefully now you know he isn't your husband. Will you swear you never saw him befire?"

LOOKS AT BODY

She wet her lips and forced her gaze to rest on Bristow's features. She began shaking her head decidedly, then slowly a puzzled look crept into her eyes. She regarded him more intently, breathing, "He does look sort of familiar at that. I don't know. I'd swear I never knew him in my life, but. . .I. . . don't just know. It's funny. Maybe I've seen his picture somewhere"

"He's from New Orleans," Shayne helped her. "Does the name Jack Bristow mean anything to you?"

For just an instant, he though he saw a flash of recognition, of comprehension, on her face. If it had been there at all, she had swiftly gained control of herself and he knew he would get no more from her.

She shook her head definitely and said, "No. I guess now I was mistaken about ever seeing even his picture."

He told her, "I think you're lying. Not about him being your husband. I accept that. But I do believe you know who he is . . .something about him. And you'd better tell me." His voice became harsh with anger:

"Two people have been murdered tonight. . .and the killer is still on the town. I think you can tell me something about him. You're inviting death yourself if you don't. Give it to me now. I'll see you're protected, but no one can protect you if you don't."

She shook her head stubbornly, compressing her lips. "Like I told you, I just got here tonight. I don't know anything about any killings in Miami. I swear I don't."

Shayne shrugged and turned away. "All right. If you decide to talk. . .call me. The name is Michael Shayne, and the number's in the book." He went out and got under the steering wheel.

"Where to now, mastermind?' asked Rourke mockingly.

"Not a single bright idea," said Shayne savagely. 'Except to get rid of that cold meat in the back seat as fast as we can."

Losing Beauty Contest Best Break for Singer

By EARL WILSON

NEW YORK—"Everything happens for the best," my mother used to say.

I guess many mothers still say it, patting their youngsters on the shoulder to soften some disappointment.

★ ★ ★ ★

My mother must have said it often, for I find myself repeating it when something goes wrong in my own skeptical world.

And now here comes Miss Shirley Jones, 21, blonde and pony-tailed, daughter of a small-town brewer, whose remarkable story you've probably read.

In August 1953, while vacationing in New York, this completely unknown, virtually untrained amateur from a town of 800 was chosen by Rodgers & Hammerstein to play "Laurey" in their great Todd AO movie, "Oklahoma!"

SHIRLEY JONES

. . . the whole town's talking about the Jones girl

My story here is that Shirley Jones of Smithton, Pa., had suffered the crushingest of crushing disappointments the year before that.

In 1952 she was "Miss Pittsburgh" and her friends thought she'd win the "Miss America" title at Atlantic City with ease.

"First, though, I had to win the 'Miss Pennsylvania' title in Philadelphia," she says.

★ ★ ★ ★

"At Philadelphia, I finished second. I went home and bawled."

New York, Philadelphia and other cities send Atlantic City a "city winner," as well as one from the state. Pittsburgh didn't.

For a year she studied at the Pittsburgh Playhouse of the Drama and was coached in the Community Theater by Ken Welch, a New Yorker.

"When I came to New York on a vacation, I didn't think I was ready for New York. I still had a year in drama school."

But one day Welch persuaded her to sing for Gus Schirmer, the agent, who quickly thereafter had her over at the Majestic singing for John Fearnley, then the Rodgers & Hammerstein casting director.

Now here was the lucky part.

Fearnley rushed her across the street to the 46th St. Theater where Dick Rodgers was rehearsing an orchestra for a road company of "Oklahoma!"

★ ★ ★ ★

She went on with the full orchestra—where a girl always sounds better—and Rodgers soon said, "Would you mind waiting a few minutes for Mr. Hammerstein?" The latter, no word-waster, said when he heard her:

"She's a perfect Laurey."

"I didn't know about the movie—I couldn't imagine what they were talking about."

They stuck her into "South acific" as a nurse, made her an understudy in "Me and Juliet," let her play the lead

Yes, We Have No Bandanas

Scarves Among Items Still Hard to Come by Russia, Satellites

WASHINGTON (INS) — The U. S. Information Agency said today that Russia and her satellite states are still suffering from shortages of essential consumer goods.

* * *

The report said the items most frequently mentioned as being in short supply are salt, meat, butter, clothing, matches and thread.

USIA got the information on hard times behind the Iron Curtain from items in the Red press, radio and from escapees to the West.

Although many items are hard to get, the report said, in at least one case — Stalinogrod, Poland — the authorities fined a woman who, realizing the shortage of scarves, knitted a few and sold them.

PAPER SHORTAGE

The report said paper is so scarce in Czechoslovakia that the Prague Electrotechnical Laboratories are writing letters on wartime stationery which bears the greeting: "Heil Hitler."

* * *

In Bulgaria, after a group of railroad workers were supplied with 400 pairs of shoes, all the soles came off. The report said this was indicative of the clothing shortage in the satellite nation.

Matters were just as bad in the motherland of Russia where the Communist party newspaper reported that in the city of Kursk a demand for 30,000 kerosene lamps was met with a shipment of 2,000 and a demand for 50,000 stoves brought only 2,300.

Another Communist paper, Isvestia observed recently that "sometimes there are no matches even in the shops of Kirov, which has a large match factory."

Navy Aide Eloquent Over Atomic U-Boat

BOSTON (AP)—Asst. Secretary of the Navy Albert Pratt states the "application of nuclear power to submarines has exceeded our expectations." Pratt recently cruised aboard the Navy's atom power submarine Nautilus.

Speaking before the 29th convention of the Reserve Officers Assn., Pratt said "it doesn't take much imagination to see a nuclear powered naval plane."

Pratt said the Navy has undergone considerable development since World War II, and has become more than a unit of surface ships, each unit now being a huge, highly mobile base, for both sea and inland employment.

He said technical developments must "never blind the nation to the Navy's manpower requirements and their complications." The Navy needs a strong logistical force with skills far broader than a civilian industry, Pratt said.

Police Scouring Town for Real 'Hot Number'

IPSWICH, England (AP) — Police scored this quiet cathedral town today for a radioactive woman.

Authorities said she walked away from a local civil defense exhibition with a radioactive metal disc handed to visitors to be hidden in their clothing and spotted by Geiger counters.

"She obviously thought it was a free sample of something and took it home, the official said. "She should feel no effect for some time, unless she keeps the disc close to her body."

Trans-Canada Highway Completion Set for 1960

OTTAWA (AP)—Early in the 1960's you may be able to drive 4,600 miles across Canada on paved highways.

The trans-Canada highway was conceived in 1949 as a six-year proposition, with the federal government and the 10 provinces sharing the cost. The provinces are constructing their sections at their own speed, and it likely will take at least four or five more years to wind up the job.

Completing Waterfront

HARBOR SPRINGS (AP)—Completion stages of waterfront improvements at Harbor Springs began this week with construction of slips for 22 yachts and cruisers. The work is expected to be finished by July 1. A permanent harbor commission will be established to administer the facilities and plan further improvements.

Polio Program Lull Continues

New Vaccine Standards May Hold Up Shots for Several Weeks

By FRED S. HOFFMAN

WASHINGTON (AP) — With the peak polio season closing in, all signs pointed today to a continued lull in the immunization of school children against the paralyzing disease.

The stiffer safety standards required in making and testing the Salk vaccine appeared to be the reason.

Dr. Hart Van Riper, medical director of the National Foundation for Infantile Paralysis, said in New York yesterday the Foundation's program to inoculate all first and second graders is "at a standstill until we can get some more vaccine."

A spokesman for the government's National Institutes of Health said no more releases of vaccine supplies are expected for at least a week or 10 days.

On the basis of their March 1 intentions, Canadian farmers plan substantial increases over 1954 in the acreage of oats, barley and flaxseed this year.

Peron Reported Miffed at Vatican for Refusing to Declare Eva a Saint

CHICAGO (INS)—Frustration of an ambition to raise his wife, Eva, to sainthood is one reason for Argentine President Juan Peron's war against the Roman Catholic Church.

This report has come from authoritative sources in Buenos Aires and is believed by many Latin Americans.

President Peron's fight against the church resulted in excommunication of Peron by the Holy See and burst into a revolt that eventually may shake the props from under his presidential throne.

The idea of creating his wife—the "uncrowned queen of the Argentine"—as a saint struck Peron as he watched her slip into eternal sleep in Buenos Aires on July 26, 1952.

His ambition went unheeded. Despite pleas made by Eva's admirers in behalf of sainthood, the Holy See remained silent.

As history shows, the church is slow in publicly declaring the heroic virtues of a person and in including a name in the register of saints.

HOLY SEE DECIDES

The campaign to raise Eva Peron, one of the most powerful women in modern history, to sainthood was launched even before she was buried.

On Aug. 1, 1952, Raulo Costa, head of the Food Workers Union, cabled Pope Pius XII, stating:

* * *

"The Union of Food Workers of the Argentine republic in representation of its 160,000 members, requests his Holiness, Pope Pius XII, that the cause of beatification and canonization of Eva Peron be introduced."

It was reported that similar cables from government officials, admirers of Eva and heads of over 2,400 unions in Argentina deluged the Holy See.

Peron was pleased. Every day while Eva's body lay in state, he would stand near the glass-topped bier. His dream of his wife obsessed him.

Her body to this day is preserved through embalming. In doing this, Peron carried out one of his wife's final requests.

Eight years ago, Pope Pius received Mrs. Peron. He gave her a Papal medal for her services to the church and awarded Peron the Pian Medal—the Vatican's third highest decoration—for his services to the church. At that time there were rumors in Vatican City that Peron was not pleased with the decoration. Some say he had expected a higher award.

WIFE NEAR HIM

After Eva's death, Argentine newspapers reported Peron felt his wife was with him spiritually. Before her death, Eva, as quoted in newspapers, said:

"If I die it does not matter. I will continue to be with my people and with Peron from the land and from the sky."

* * *

Peron has approved the placing of memorials to Eva throughout Argentina. The Peronista Women's Party asked the government to erect shrines to her in the schools.

During her funeral 20-foot high portraits of Evita were displayed in public plazas. The government ordered her book, "The Reason For My Life," to be an official fifth and sixth grade text.

A province was named after her, and the Argentine congress crowned her spiritual chief of state. The congress also ordered a massive project to erect a huge memorial monument of marble and bronze in Beunos Aires and replicas in provincial capitals.

The late first lady of Argentina is dead—but her spirit moves on.

Passport Authority Whittled by Court

WASHINGTON (AP) — The State Department's "passport queen" was shorn of much of her power yesterday in an historic U. S. Court of Appeals decision declaring Americans have a "natural right" to travel abroad.

This right must not be denied arbitrarily or without "due process of law," the court ruled unanimously.

Striking down the State Department's claim to "exclusive control" over issuance of passports, it said the department's actions are subject to judicial scrutiny.

Unless overturned by the Supreme Court, the decision is a jolt to the wide powers exercised by the director of the department's Passport Decision. For years that office was filled by Mrs. Ruth B. "Ma" Shipley. She retired in April and the post went to Frances G. Knight, 49-year-old strawberry blonde and former deputy to W. R. Scott McLeod, head of the department's office of Security and Counsellor Affairs.

Senate Studies Bill for Aid to Airports

WASHINGTON (AP) — The Senate takes up today a bill designed to give a big shot in the arm to civilian airport construction and modernization.

Sen. Monroney (D-Okla), floor manager for the measure, said he knew of little opposition among senators although Eisenhower administration officials testified against it.

The bill would make available 252 million dollars in additional federal airport grants over the next four years without being subject to specific future appropriations. States and cities would have to match the money on a 50-50 basis.

Accredited Hospitals Increase in Michigan

LANSING (AP)—Mihcigan now has 20,622 beds in hospitals inspected and licensed by the State Health Department.

Dr. Albert E. Heustis, commissioner, said today that out of 264 hospitals, maternity homes and doctor's offices, only 34, with 1,220 beds, hold provisional licenses requiring improvements to be made.

The department said that three years ago, when the agency took over hospital inspections, there were only 143 hospitals with 2,642 beds approved for maternity care. Now there are 230 with 3,748 beds.

The department said that in the course of a year fully licensed hospital beds now are available for about 80,000 new babies and their mothers.

British Consul in Detroit Named to German Post

DETROIT—John M. Fisher, British consul for Michigan at Detroit, will be succeeded Sept. 1 by Edward H. Moss, presently British consul in St. Louis.

Fisher has served in Detroit three years and is being transferred to Bonn, West Germany, where he will act as counsellor for press and public relations.

New Pipe Cuts Use

IONIA (AP)—A rejuvenated pipeline to the Grand River has helped the Ionia Manufacturing Co., employing 2,000 persons, reduce city water use by 25 per cent from last month. The firm also expects its new well to provide further aid to the city's water conservation request.

Area Dentists Seek Gaca Rape Slayer

DETROIT (AP) — Two thousand dentists in the Detroit metropolitan area were asked today to aid in the search for the slayer of 7-year-old Barbara Gaca.

Dr. Henry Green, president of the Detroit District Dental Society, gave police a detailed description of dental work of a man sought for questioning in the March slaying. The information was put out in circulars distributed to other dentists.

Dr. Green said the man may be wearing a wide metallic wire band of silver color across the central portion of his mouth. This, he said, might include six different types of dental work.

Mike Dietz 1st Day Leader in Michigan Open

Mike Dietz, one of eight former champions in the field, had the 1st day lead in the Michigan Open Golf tournament after firing a torrid 5-under-par 67 Friday over the Washtenaw Country Club course at Ypsilanti.

* * *

Dietz, now professional at Indianwood Country club in Lake Orion, where he won the state crown in 1952, holds a slender single-stroke margin over Knollwood's Pete Cooper, as Oakland Country club pros showed the way in the 1st round of the 72-hole medal play tourney.

Cooper, who had 33-35, was one stroke up on a pair of young assistant pros, Larry Tomasino of Detroit Country Club and E. B. McElmurry of Plum Hollow.

Dietz displayed some fine putting in birdying 7 holes on the round. Dietz had 35 on the front side, but came back in 32. A bogie at the 17th hole cost Cooper, a transplanted Floridian, a share of the lead.

* * *

Two holes-in-one spiced the 1st day's activity in the tourney, Pontiac amateur Mike Andonian, who carded a 76 for the round, laced an 8-iron into the hole on the 140-yard 4th hole. Assistant pro Bill Markham of Red Run turned the trick on the same hole with a 7-iron.

Dietz and Cooper are playing in the same threesome as they tackle the 2nd 18-hole round today over the 6,638-yard layout. Only the low 60 and ties will carry over for Sunday's 36-hole windup.

Three penalty strokes kept the slender Indianwood pro from having even a greater score. He hooked a tee shot out of bounds at the 6th hole for a 2-stroke penalty and struck an approach into a creek on the 7th hole for another.

In all, 19 players equalled or bettered par as the course didn't prove difficult to solve, despite tricky greens. Just a stroke back of Tomasino and McElmurry with 70s were Markham and the veteran Chick Rutan.

Eight players were clustered as one-under-par 71, including defending champion Horton Smith of Detroit Golf Club, Wally Burkemo of Franklin Hills, and amateur Chuck Kocsis of Royal Oak, a 3-time winner of the tourney.

Others at 71 were John Barnum, Kirk Smith, Jim Barfield, Bob Inman and Barry Laur. Heading the par shooters at 72 were Chick Harbert, the PGA champion from Meadowbrook, who is generally regarded as the man-to-beat in the event.

Larry Pentiuk, one-time Pontiac High School golfer and also a former pro at Washtenaw, was bracketed with Harbert at 72 as were Emerick Kocsis and amateurs Tom Draper of Red Run and Joe Grace of Detroit.

Among other 1st day scores were Max Evans, 73, host pro Tom Talkington at 75, and state amateur champion Glenn Johnson at 77.

Here are scores of other Oakland County-area players in the tourney: Joe Watrous, 74; Warren Orlick of Tam O'Shanter, 75, and his assistant Gene Bone, 76; Andonian, 76; Bill Graham of Bloomfield, 76; Ray Maguire of Birmingham, 78; Leo Conroy of North Hills, 79; Tommy Shannon of Orchard Lake, 79; Bob Waara, 80; amateur Lloyd Syron of Pontiac Country Club, 81; Wally Lasky, 83; amateur Butler Cooper, 86; and pro Earl Roy, 89.

AP Wirephoto

TOUGH ON TRIBE — New York Yankee relief pitcher Jim Konstanty (left) clowns with outfielder Irv Noren in the clubhouse after last night's 10th inning victory over the Cleveland Indians. Konstanty pitched the final 2 innings in a relief role and the winning punch was supplied by Noren's homer in the 10th.

Bengals Take Out Ire on Senators in 18-7 Rout

Maxwell's Lead Is Slim in Tourney at Portland

PORTLAND, Ore. (AP) — Billy Maxwell, a former National Amateur titlist, led a closely bunched field of 68 into the third round of the Western Oregon Golf Championship here today.

Maxwell, whose 137 was tops at the end of 36 holes Friday, was only 12 strokes better than the 149 necessary to qualify for the last two rounds. Some 100 golfers fell by the wayside in the stiff competition of the first 36 holes.

Maxwell, Odessa, Tex., one of the promising young stars of professional golf, surprised by forging in front Friday with a 34-33—67, five under par, after a first-round 70.

Bob Rosburg, San Francisco, shot 70-68—138 to tie for second with massive Mike Souchak, ex-pro football player from Durham, N.C.

Souchak duplicated his first-round 69 with a 33-36.

Next among the 16 golfers who smashed or equaled par in the two rounds were Dr. Cary Middlecoff, the handsome Masters champion from Kiamesha Lake, N.Y., and Young Gene Littler, Palm Springs, Calif.

Middlecoff's 34-36—70 and Littler's 35-35—70, with their Thursday 69s, left them tied at 139

The 1954 National Amateur champion, Arnold Palmer of Youngstown, Pa., had come in a short time earlier with a 33-33—66, the best round of the tourney to date. But because of a 76 Thursday he was able to show only a 142.

Sam Snead, the hard-hitting West Virginia veteran, stayed within grasping range of the title by firing a 34-35—69 to tie with Palmer and several others at 142. This group also included Ted Kroll, Utica, N.Y.; Doug Ford, Kiamesha Lake, N.Y.; Dow Finsterwald, Athens, Ohio; Marty Furgol, Lemont, Ill., and Donald Whitt, Alameda, Calif.

Julius Boros, 1953 National Open titlist from Mid Pines, N.C., still had an outside chance with 71-72—143.

National AAU Runners Slowed by High Altitude

Santee Wins Mile in 4:11.5; Morrow Scores Upset in Dash

BOULDER, Colo. (AP)—This town's mile high altitude has put the clamps on runners in the National AAU Track and Field Championships.

After nine final events yesterday only one new record has been set—a hammer throw of 199 feet 8 inches by Harold Connolly of the Boston Athletic Assn.

The altitude bugaboo loomed big in decisions by defending champion Mal Whitfield of the Los Angeles Athletic Club and Wes Santee of the U.S. Marines not to try out in the 880-yard run.

Santee withdrew from the half-mile competition to concentrate on the mile. He won handily in 4 minutes 11.5 seconds with Fred Dwyer of the Army lagging 25 yards back in second place. Bobby Seaman, UCLA's star, was third in 4:15.3.

The half-mile finals at 5:55 p.m (EST) today may be the highlight of what is shaping up as a lackluster meet. The fastest qualifier yesterday was Tom Rogers of Texas University who won his heat in 1 minute 51. seconds.

Eleven other final events are on the final program today.

Bobby Morrow, Speedy Abilene (Tex) Christian College freshman, upset a veteran field with his 9.5 seconds victory in the 100-yard dash. Defending champion Art Bragg of the Cross City Club of Baltimore, Md., failed to get past the semifinals. Morrow was trailed by Dean Smith of Texas and Rod Richard, Pan-American Games champion now in the Army. Jim Golliday of Northwestern, the the NCAA sprint champ, didn't compete because of a pulled thigh muscle.

Wiffi Is Only Stroke Back of Western Leader

MADISON, Wis. (UP)—Amateur Wiffi Smith of St. Clair, Mich., trailed leader Mickey Wright of La Jolla, Calif., by one stroke today after 36 holes of the 26th annual Women's Western Open golf championship.

Miss Smith fired her second straight par 73 yesterday to give her a two-round total of 146. That put the 20-year-old Michigan golfer one stroke behind Miss Wright, who won medalist honors yesterday with a 36-hole total of 145.

Patty Berg, a 4-time Open winner from Chicago, and Fay Crocker, Montevideo, Uruguay, were tied at 148. Beverly Hanson, Fargo, N. D., was 5th at 149 and Betsy Rawls, Spartanburg, S. C., the 1952 champion, 6th at 150.

Martinez Is Victor on TV

SYRACUSE, N.Y. (AP) — Third-ranked welterweight Vince Martinez tucked away his 14th straight victory and today went off to Camp Drum for a different kind of training than the type that put him in shape to lick Chico Varona.

The tough Cuban, puzzled and too slow to catch cute-boxing Martinez, was the victim of consistent left jabs and occasional power-laden rights as Martinez cut him down to size in the War Memorial Auditorium here Friday night.

After the fight, Vince's handlers said they didn't think they would have "any more trouble" getting opponents. Martinez has complained that the Boxing Managers Guild had "grounded" him because of difficulties with his former manager, Bill Daly.

Referee Mark Conn of New York took the second and fifth rounds away from Varona for low blows but Martinez appeared to be winning both rounds anyway. The decision was unanimous.

CHAPEL HILL, N.C. (AP)—Fifth-seeded Bill Quillian of the University of Washington clashed with seventh-seeded Jose Aguero of Tulane today as the 71st annual National Collegeiate Tennis Tournament ended a week-long stand here.

AWAY WE GO! — Completing a beautiful jump is Miss Budweiser, owned by August A. Busch, Jr., of St. Louis, on her way to victory in the Knock-Down-and-Out Sweepstakes Friday afternoon at the Detroit Horse Show, Bloomfield Open Hunt Club, Bloomfield Hills. The champion Olympic mare's rider is Bob Egan of Creve Coeur, Missouri.

Emsley Beats GMC 9 Again

General Motors apparently has a jinx in the form of Al Emsley. The Elks' pitcher handed the Coachers a 1-0 whitewash Friday night at Beaudette in a city league softball game to earn his 2nd victory over them within a week.

Emsley was touched for only five singles, while striking out three and walking one. Lynus Grant hurled fine ball for GMC, permitting just three safeties. He walked none and fanned 11. But a weak moment in the 7th inning gave Emsley the verdict.

A lead-off single by Marvin Holler, an error by Grant and single by Bill Almas sent home the winning run in the final stanza.

Drayton Drug of the Waterford League dished out an 8-5 setback to Stadium Inn at Beaudette in an exhibition.

Louie's Tavern gave Mike's Used Cars an 11-5 thumping at North Side Park. Louie's iced the contest with seven runs in the 1st two innings.

Franklin Products posted an easy 7-1 decision over North Side Service. Cal Bidwell hurled 5-hit ball for the winners, who trailed by 1-0 count until the 4th frame. Then they scored seven runs over a 3-inning span.

Dennehy Is Winner of BOH 'Big Jumping' Event

By BILL CORNWELL

Friday's program at the Detroit Horse Show was almost a repeat performance of Thursday's opening day events.

Charles Dennehy of Lake Forest, Illinois, won the F. E. I. "Big Jumping" event last night in the show's 2nd day of competition at the Bloomfield Open Hunt Club in Bloomfield Hills.

Dennehy, 24-year-old member of the U. S. Equestrian team, captured Friday's feature event aboard Black Watch after a double jump-off against veteran professional rider Max Bonham of Battle Creek, who rode Velvet Lassie, owned by Mrs. Hubert R. Thomas of Indianapolis, Ind.

Both Dennehy and Bonham toured the rugged 660-yard, 16-jump course twice without error, the 2nd time over obstacles raised 6 inches from an original 5 feet, 2 inches.

Therefore, time became the deciding factor on the 2nd jump-off if the faults remained equal. Both riders were flawless a 3rd trip, but Dennehy made the jaunt in 52 seconds compared to 63 seconds for Bonham.

Miss Budweiser, the champion Olympic mare belonging to August A. Busch, Jr., of St. Louis, and ridden by Bob Egan, was eliminated in the 1st jumping when she refused the same obstacle 3 times.

Earlier in the day she won the Knock-Down-and-Out Sweepstakes. It marked the 2nd straight night that "Miss Bud" thrice refused a jump.

The Bloomfield Hills Fairlaners, captained by Birmingham's Miss Lou Wilson, took over the lead in the Junior Olympic Equestrian League competition by scoring 16 faults in 2 events.

The Birmingham Outlanders were 2nd with 20 faults.

Paul Garlick of Bloomfield Hills was the winner in the U.S.E.T. Equitation Medal class, riding Lassie. Zander Duffield of Rochester and Skip Dowd of Birmingham wound up 2nd and 3rd, respectively, in the Class C division.

The show, which concludes Sunday, has several fine events remaining, including the battle for the prized Ainsworth Trophy. Tonight's show gets under way at 6 p.m. Sunday shows are scheduled at 1 p.m. and 6:30 p.m.

Tuttle, House Each Hit 3-Run Four-Baggers

Billy Hoeft Coasts to Win as Hold on 4th Place Is Bolstered

WASHINGTON (AP) — The Detroit Tigers tried to avenge their entire frustrating Eastern road trip with one glorious binge last night and clobbered the hapless Washington Senators, 18-7.

Beaten in Boston and New York and balked by the weather in Baltimore the Tigers ripped into Washington like wild animals smelling fresh meat for the first time in weeks.

They pounded out 17 runs in four innings and ran up 17 hits, their biggest total of the season.

Frank House and Bill Tuttle smashed three-run homers and Al Kaline built up his league lead average to .378 with three singles in five times at bat.

Hits and runs could be had almost for the asking. And after they ran up a 13-0 lead even the Tigers began to feel generous and let the Senators share slightly in the feast.

In the end Washington collected a dozen safeties and scored seven runs, three of them in the 9th inning.

By that time Billy Hoeft was just going through the motions on the mound for the Tigers. He had held the Senators to one hit through the first four innings, but with an 11-run lead Billy saw no need to continue bearing down.

Everybody in the starting Tiger lineup got at least one hit except Earl Torgeson and he didn't have many opportunities, walking on three occasions. Kaline and Tuttle had three apiece.

While the slaughter was going on in Washington, Boston bowed to the Chicago White Sox, 3-2 allowing the Tigers to regain a full game edge on fourth place.

Tamed through the first two innings, the Tigers came up with six runs off loser Bob Porterfield in the third. Hoeft started the uprising with a single and House ended it with his three-run homer. In between came singles by Harvey Kuenn, Kaline, and Ray Boone and a walk to Torgeson.

Five more Tigers scored in the 4th against Chuck Stobbs, all with two out. The attack this time included singles by Kuenn, Kaline, Jim Delsing and Freddie Hatfield, two walks and a hit batsman.

Braves Win 7th, Straight, Begin March on Dodgers

By The Associated Press

Could it be that the Milwaukee Braves finally are perking up? And if so, is it too late to catch the Brooklyn Dodgers?

Manager Charlie Grimm's athletes, generally picked to win the National League sprint before the season got under way, haven't looked much like contenders for most of the early running.

But now things have changed. The Braves have moved into second place with seven straight victories, belting home No. 7 last night with an 8-2 uprising against the Dodgers.

Lew Burdette went all the way against the Brooks, winning his fifth as against four defeats with a nine-hit breeze The Braves let him loaf by making the most of eight hits.

Three of them were home runs off loser Carl Erskine that afforded Burdette a 7-1 lead in three innings. One of the socks was a 485-foot job by Eddie Mathews—the longest on record at County Stadium.

The only shadow on the Milwaukee picture is the fact that the Dodgers—with power men Roy Campanella and Duke Snider ailing—are still 13 games up. Question is: Is that too much for the Braves to overhaul?

In the other NL games, Chicago's Cubs beat Pittsburgh 10-3, New York beat St. Louis 1-0 and Cincinnati split with Philadelphia a twi-nighter, losing the first 8-6, but winning the second 6-0.

The American League scrap stayed close. The New York Yankees remained two-games out front by nudging Cleveland 2-1 on Irv Noren's home run in the 10th. Runner-up Chicago held the pace with a 3-2 victory that cooled the Boston Red Sox.

Detroit pasted Washington 18-7 and Kansas City blanked Baltimore 2-0.

The Yanks had just five hits off Mike Garcia, but two were home runs. Yogi Berra got the other.

Nicholie Nine Noses Out Jets

Roman Pitches, Hits Realtors to 2-1 Edge in Class A

Don Nicholie Real Estate edged the L. C. Anderson Jets, 2-1, in a neat pitchers' duel Friday night at Wisner Field in Class A city league baseball.

Albie Roman bested Russ Lothery in the tight contest, which was decided by Roman himself. Albie blasted a home run in the 5th inning to break a 1-all tie.

Jack Cole's 1st-stanza lead-off double and Dick Slade's single scored Don Nicholie's 1st run, which the Jets matched in their 1st on a double by Eugene Cox and Judge Booker's single. That set the stage for Roman's hit.

Lothery was touched for five hits while the Jets managed three off Roman. Lothery fanned 12 batters and walked none.

Hy Turkin Dies

NEW YORK (AP)—Hyman C. (Hy) Turkin, sports writer for the New York News and co-author of the official Encyclopedia of Baseball, died Friday at University Hospital. He was 40.

Net Opposition Getting Tougher for Trabert

American Ace Meets Indian Davis Cupper at Wimbledon

WIMBLEDON, England (AP) — Tony Trabert of Cincinnati gets his toughest test thus far today in the Wimbledon Lawn Tennis Championships — and that's the way the American Davis Cup star likes it.

* * *

He's won three matches in the men's singles and each time the opposition has gotten a little tougher. "That's the way I like to build up in a long tournament like this," said the 24-year-old Wimbledon favorite. "When the games get tougher in easy stages then obviously you get plenty of chances to improve each day. If tough customers come along straight from the start then you have to hit peak form immediately."

Trabert defeated unranked American Hugh Stewart of Los Angeles in the third round. Today the American goes on No. 1 court against Indian Davis Cup star Nareth Kumar. His first two opponents were a little known Australian and a South African.

"I'm on No. 1 court today and that suits me fine," said Trabert. "It is the fastest one at Wimbledon and I need practice on fast courts."

* * *

Success for Trabert today means he goes into the quarter-finals against the winner of the match betwee defending champion Jaroslav Drobny of Egypt, who is seeded sixth, and Bob Perry of Los Angeles.

Lewis Hoad, seeded No. 4, and Budge Patty of Los Angeles and Paris, seeded No. 7, are in the second half of the draw with Trabert.

FRIDAY'S HOME RUNS

Smalley, Phillies; Burgess, Post 2, Bell, Kluszewski, Redlegs; Mejias, Pirates; Banks, Cooper, Cubs; Lockman, Giants; Mathews, Crandall, Aaron, Braves; Berra, Noren, Yankees; Dropo White Sox; Hatton, Red Sox; House, Tuttle, Tigers; Killebrew, Senators.

Legion's Top Sunday Tilt Is at Birmingham

Birmingham entertains Waterford Sunday afternoon in the feature game on the 18th District American Legion junior baseball league schedule.

The teams each have only one loss on their records, but Birmingham holds the league lead with a 4-1 record. Waterford has a win and a tie in addition to its loss and has 2 games to make up.

In other Sunday games, Rochester, which also has only one loss goes to Clawson, while Huron Valley Boys Club is at Berkley.

Hendricks Sets Mark

HONOLULU (AP)—Jon Hendricks of Australia set a new long course world record of 55.8 seconds for the 100-meter freestyle in the second evening of the Keo Nakama swim meet Friday night.

2nd Day Results in Horse Show at BOH

U.S.E.T. EQUITATION MEDAL (Fritz Caprilli, individual)—Class C won by Lassie, Paul Garlick; Knick Knack, Zander Duffield, 2nd; Earn Craft, Skip Dowd, 3rd. Class B won by Encore, Marsha Worley; King Arthur, Rick Otto, 2nd; Whipper In, Mary Jo Fisher, 3rd.

MIDDLE & HEAVYWEIGHT OPEN WORKING HUNTERS—Won by Overlook, Charles Verheyden; Spanish Fleet, Mr. & Mrs. D. R. Motch, 2nd; Touravour, Charlotte D. Nichols, 3rd.

NOVICE JUMPERS — Won by Scaramouche, W. E. Kuhn; Glory Be, F. O. Walker, 2nd; Supreme Lady, Patti Bugas, 3rd.

ADVANCED HORSEMANSHIP OVER FENCES—Won by Marie Hammill, up on Rock Lad; Jani Bugas, up on Supreme Lady, 2nd; Wilson Dennehy, up on Potato Chips, 3rd.

JUNIOR PRIX DE NATIONS—Won by Bloomfield Fairlanes, 0 faults; Birmingham Outlanders, 12 faults, 2nd; Grosse Pointe Rascals, 19 faults, 3rd.

HUNTER HACKS—Won by Woodlad, Lynn Belnap; Tellabit, Anne Johnston, 2nd; Entry, Sally Moeling, 3rd.

YOUNG WORKING HUNTER—Won by Horse Marine, Charlotte Nichols; Wind Oats, Ethel Flinn, 2nd; Cat Boots, Alison Rogers, 3rd.

MICHIGAN HUNTS (Perpetual Junior Challenge Trophy)—Won by Marie Hammill, up on Rock Lad; Howard Miller, up on Flanigan, 2nd; Jani Bugas, up on Supreme Lady, 3rd.

LIGHTWEIGHT WORKING HUNTERS—Won by John P., Mrs. Sallie J. Sexton; General Jerry, Anne Evans, 2nd; Lively Sal, Victoria Buchen, 3rd.

KNOCK-DOWN-AND-OUT SWEEPSTAKES—Won by Miss Budweiser, August Busch Jr., Bob Egan; Cummins Happy Day, Cummins-Chicago Corp., Dorothy McCloud, 2nd; Black Watch, owned and ridden by Charles Dennehy, 3rd.

JUNIOR HUNTER APPOINTMENTS—Won by Lively Sal, Victoria Buchen; Sequoia, Sally Moeling, 2nd; Ricochet, Charles Dennehy, 3rd.

JUNIOR HUNT TEAMS—Won by 3-member team, Linda Sadlier, captain, up on Goldilocks; 3-member team, Cari Miller Jr., captain, up on Hy-Lo-Luck, 2nd.

OPEN HUNTERS—Won by Spanish Mint, Mrs. J. Dean Rucker; Pike's Peak, Fox Covert Farm, 2nd; Count to Ten, Cummins-Chicago Corp., 3rd.

MIDDLE & HEAVYWEIGHT HUNTERS—Won by Spanish Mint, Mrs. J. Dean Rucker; Pike's Peak, Fox Covert Farm, 2nd; Understudy, Stanley Luke Farms, 3rd.

SCURRY—Won by Scaramouche, W. E. Kuhn; Altemister, Charles Dennehy, 2nd; Cool Customer, Mr. & Mrs. Robert Rasketwitz, 3rd.

EQUESTRIAN TEAM JUMPING EVENT—Won by Birmingham Outlanders, 8 faults, and Bloomfield Hills Fairlanes, 8 faults (tie); Grosse Pointe Rascals, 12 faults, 2nd; Bloomfield Open Hunt Club, 15 faults, 3rd.

HANDY WORKING HUNTERS—Won by Apt Pupil, Cummins-Chicago Corp.; Red Bird, Mrs. August Busch Jr., 2nd; Kinmount, Charlotte D. Nichols, 3rd.

P.E.I. "BIG JUMPING" EVENT—Won by Black Watch, Charles Dennehy; Velvet Lassie, Mrs. Hubert R. Thomas, 2nd; Golden Chance, Bertram R. Firestone, 3rd.

THE PONTIAC PRESS

"Death Has Three Lives" Read This New Serial Daily

background for LIVING

BRENDEL LAKE — Man and machine have achieved the natural look in the newly developed waterfront in the Brendel Lake area. Over six miles of new frontage, some on meandering streams and other located on wooded peninsulas, has been created artificially. Dozens of country homes are planned for this section when the shoreline has been completed which will be handled by the Schuett Realty Co. Located to the west of M-59, this section is in the heart of Oakland County's recreation area. The photos at the left and above show two of the new waterfronts recently finished.

Your Neighbor's House

Men Find Adventure in Lake Making

By HAZEL A. TRUMBLE

Lakes are where man and machine make them these days.

Mother Nature's prerogative is slipping—she once had the sole say about the placing of silver lakes with sandy beaches and pebble-bottomed stretches of stream coursing off in search of other bodies of water.

But today the invincible team —man and machine—is carving the earth into new lakes and waterways leaving wooded peninsulas and stream-circled isles in the wake of once pastureland or terrain too uneven to farm.

PIONEER LAKE-MAKER

For lake making information, we went to Jim Cole, a young man who is a civil engineer and has found an exciting new career field in which he can count with the pioneers.

With his partner, Lewis Easlick, they founded the Lake Shore Development Corporation and did the planning and work on the Cedar Island Shores project and the new Brendel Lake development off M-59 which is still in the reconstruction stage.

"There is real adventure to this business," said Jim Cole.

Spiced with an element of danger, the men in the lake making business never know when earth cracks will develop and put both man and machine in a precarious position.

"It is a test of nerves, but we go right on working and hoping that there will not be a mass slide or cave in," he explained.

In making the determination of the appropriate lake and stream sites, the lake maker sets out—not with a divining rod—but with a soil tester and an eye trained to noting land topography. He is particularly interested in the lowest area of a land section for here he may find springs which are natural lake feeders. He checks terrain for miles around.

He digs a hole and begins the "watch." His decision may hinge on the level of water maintained in this hole during a dry period.

MUCK NATURAL ENEMY

Muck is the natural enemy of artificial waterway developers.

"We can absorb a certain amount, but if there is a large stratum of muck, we might as well give up," he continued.

The trick - of - the - trade, explained Cole, is to make shorelines which look as though Mother Nature had done it herself.

"We keep the knolls or create them, the curves are always made and we never square corners."

Cole started out after the war with a surplus army duck for equipment and began to work on swimming beaches.

Today, he admits after much prodding, that he has invented most of his machinery because it is not available on the market.

Cole's equipment includes two three-yard drag lines and two two-yard drags. These are huge cranes. Bulldozers are required as part of his machinery and he has just completed a new hydraulic beach cleaning machine.

"Insurance. Yes, you can get it. But once you have an accident and lose a piece of machinery, it won't be available to you again. One drag is worth about $55,000," related Cole.

The men who man these machines, he said, work 12 hours a day and six days a week, but only eight hours on Saturday.

"We have the best men in the state and they know just what to look for," he continued.

Cole and his company are doing more than six miles of new lake frontage for the Brendel Lake development. Commenting on the Cedar Island Shores area, he said, this was a natural because Oxbow Lake was right next door.

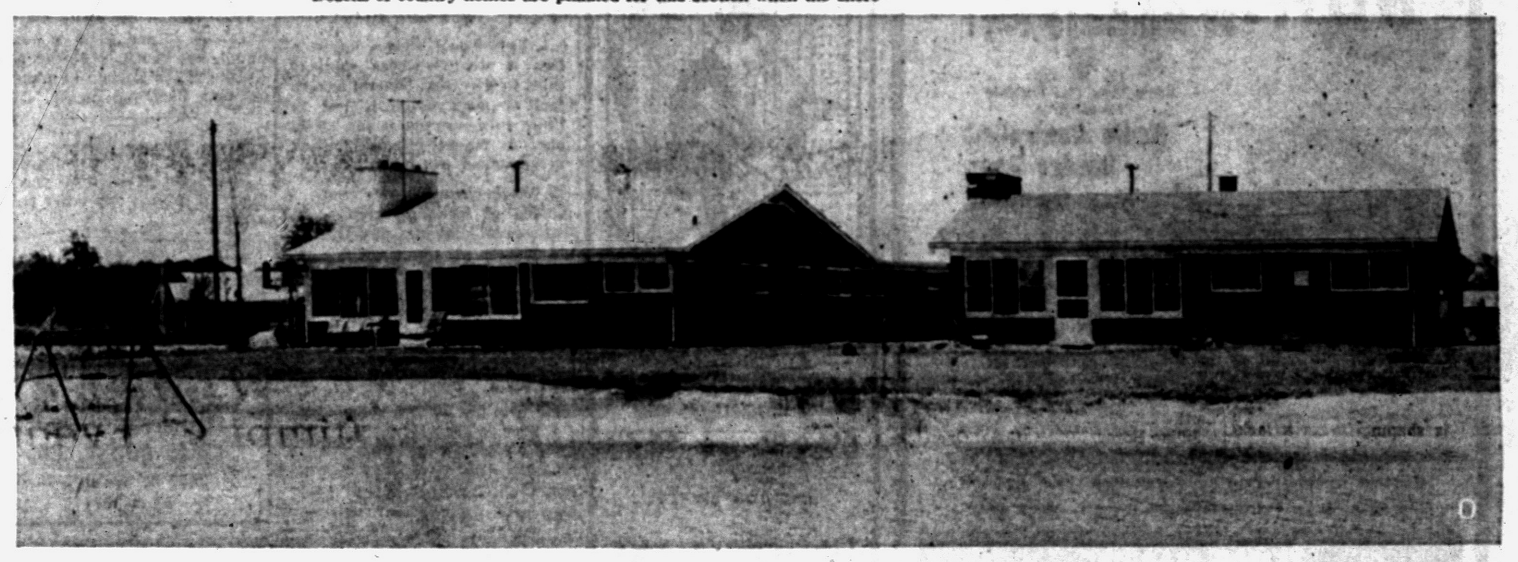

Feet Get Tired? Chiropodist Urges Soft Wood Floor

When your feet get tired, you get tired all over, a leading chiropodist reports.

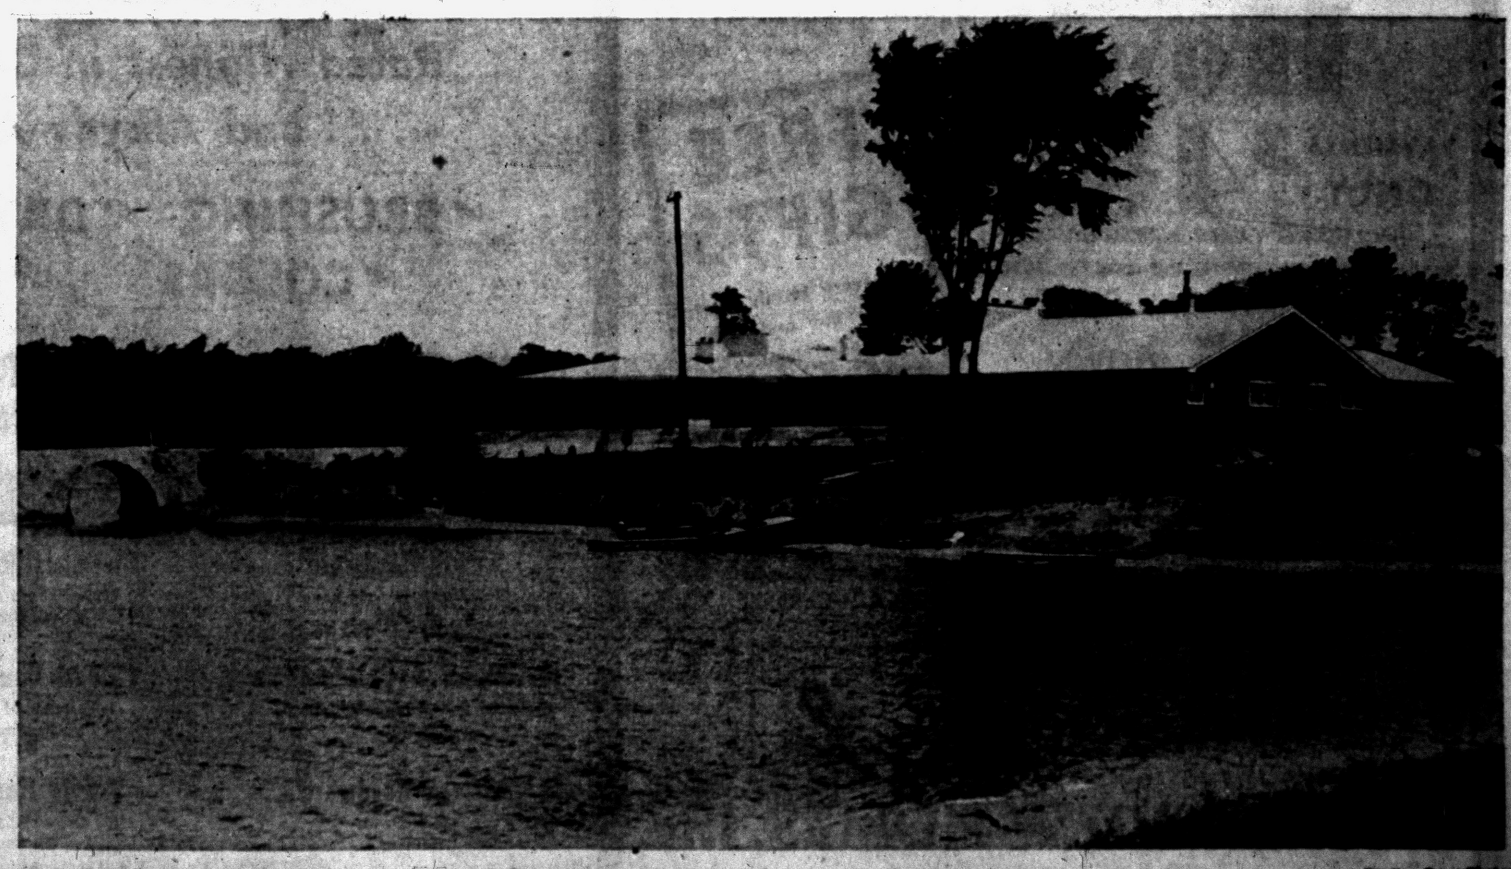

Dr. W. J. Stickel, executive secretary of the national association of chiropodists, says housewives can prevent much of their foot trouble by having their homes floored with wood.

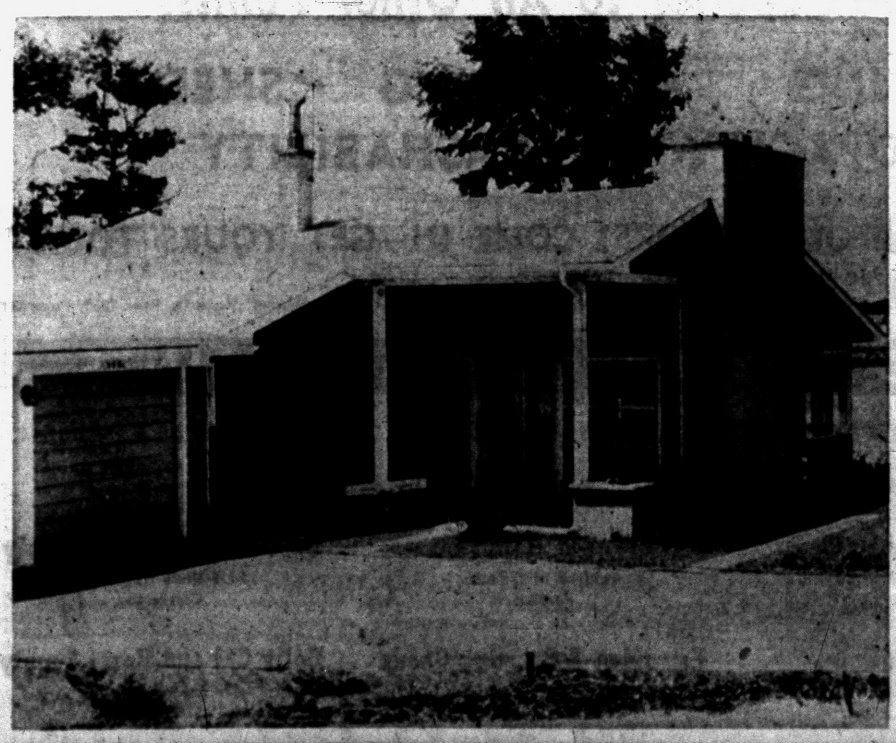

Wood floors have give and resilicence, so result in great foot comfort all the year around, he says, but especially in the hot summer months. Walking on wood cuts down the danger of hyperhidrosis — excessive perspiration, — often a forerunner of athletes foot.

Popular, easy-on-the-feet softwood flooring, like fir or west coast hemlock, can be used under linoleum, cork or tile or wall-to-wall carpeting. Many of the new sealers and finishes add long life to these floors and the natural colors, texture and grain thus left to view aid greatly in the decorative plans for each room.

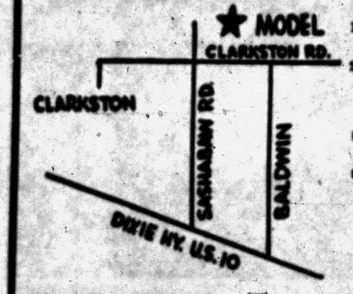

LAKE LIVING — On this island is the home of Mr. and Mrs. Albert Nash. Note the natural slope which was built in the topography changing process carried out by the Lake Shores Development Corporation when they built this new artificial water frontage. This slope allowed the building of houses on split levels.

MAN MADE ISLAND — Directly above are two new homes on the man-made island known as Cedar Shores Drive. The roadway connects two pieces of land and makes this spot accessible. These are the homes of Albert Nash at 9981 and Daryl Falk at 9980 Cedar Shores Drive. In the middle picture is shown one of the canals cut off Pine Lake near Pontiac for the new Pine Lake Manor contemporary project. Top photo shows two other houses on Cedar Island Lake, the one on the right owned by Stanley Stasko, 603 Burgess Drive and the house on the left belonging to Tom MacQueen at 607 Burgess Drive. Note the play swings placed in the lake in front of the MacQueens. In shallow water, this is a favorite spot for youngsters, they report.

Sealers Give Beauty Protection to Floors

Question: What are the particular advantages of using sealers on the interior and exterior wood portions of the home?

Answer: Sealers are synthetic resins in liquid form which penetrate the wood and thus seal the pores. They can be bought in clear or colors. The soft portions of the wood absorb the sealer, thus making it easier to stain, paint or finish clear. Sealer used on fir interior woodwork will work miracles and subsequent varnish or rez finish will make this inexpensive wood look better than more costly kinds. Some sealers contain stains so you can perform both operations with the one coat. Some sealers get a lovely blond effect which brings out the pastel sunshine color of hemlock and the soft reds of western red cedar.

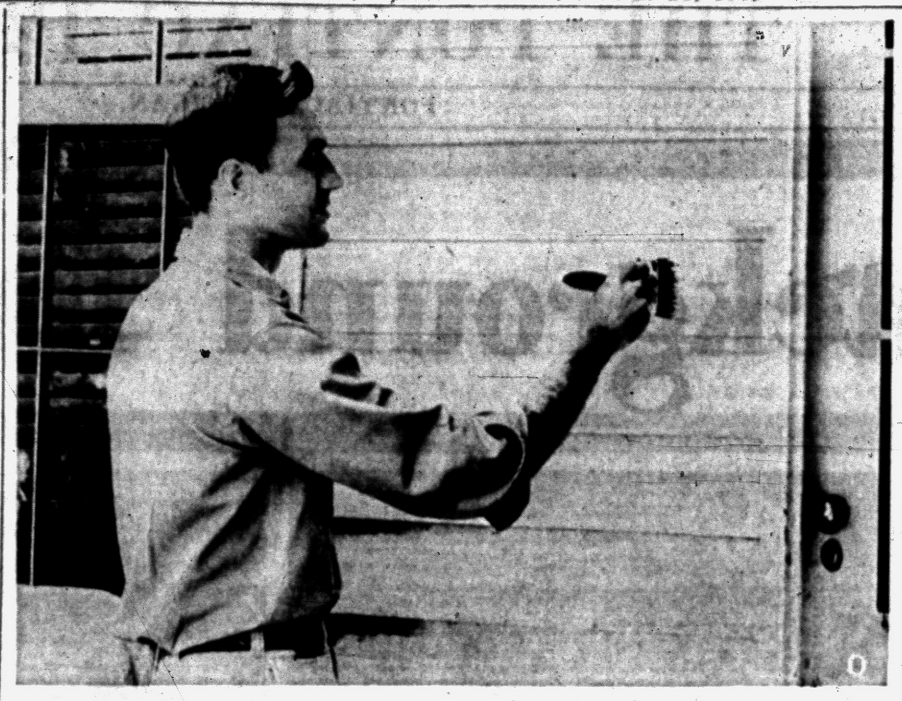

Sea Weed Insulates

Many early settlers of Massachusetts placed dried sea weed in the walls of their homes as a means of insulation. Sea weed proved a fairly good insulator, too, but unlike modern mineral wool, it attracted vermin and was a definite fire hazard.

One of eight Americans will go to a hospital this year.

HOW TO PAINT — To paint clapboards, first run your brush along the edge where one strip of siding overlaps the next. Then "spot-paint" a strip of the siding by striking your newly-filled brush to the wood at intervals. Join the spots with smooth brush action that spreads the paint evenly, making sure that you cover the entire board.

Details Can Up Kitchen's Value

Wife's Chores Easier in Work Area Tailored to Her Needs

Details make a fine kitchen, just as they do fine tailored clothes.

Unlike clothing, however, a kitchen can be tailored to the homemaker's special needs at any time. Whether it is five years old or 20 makes no difference. Details that will add to its comfort and convenience can be installed in it whenever time and budget permit. Here are eight such features:

1. Lazy-Susan shelves in space that is wasted where cabinets meet in a corner. Several square feet of good space is lost in these corner areas in old kitchens. A "merry-go-round" shelf arrangement will put it to use.

2. Washable walls over range. A method of installing grease- and water-proof clay tile directly over old plaster greatly simplifies this remodeling project. The tiled surface can be cleaned easily and will never need redecorating.

3. Sliding cabinet doors. If the members of your family are always running into open wall cabinet doors, by all means replace them with the modern sliding type.

4. Shelves between shelves. More than a third of all storage space in older wall cabinets is lost because shelves are so far apart. Step-back shelves that will hold dishes, glassware and small cans can be installed easily by the home owner.

5. Specialized storage. Few old—or for that matter, new—kitchens have the right storage space for trays, platters and saucepan covers. It has to be built to order for each family.

6. Waterproof drainboards. Drainboard materials that loosen and wear out near the sink edge are both unsanitary and unsightly. One of the best materials for replacing them is waterproof clay tile, which is both durable and colorfast.

7. Ventilated drawers for vegetables. Paper bags may be the most satisfactory thing to buy potatoes and onions in, but most housewives would agree that they are a nuisance for storage. Ventilated drawers are the best answer.

8. A kitchen office. It may not be much larger than a postage stamp, but every housewife needs a place in the kitchen to make out shopping lists and menus.

Floors Wear Most

Floors get at least 90 per cent more wear than any other part of a house.

Detroit Baptist Church Is Damaged by Vandals

DETROIT (INS) — Vandals did several hundred dollars worth of damage in the North Detroit Baptist Church when they sprayed rooms with fire extinguishers and ransacked three rooms this week.

Dr. John Hunter, pastor of the church, told police he surprised three young boys in the church but let them go when nothing appeared to be disturbed.

Library of Congress was established in 1800.

Bloomfield Knolls Opens Sunday at 6310 Greer Rd.

Five different elevations are features of the new Bloomfield Knolls subdivision which is going up at 6310 Greer Rd. in West Bloomfield Township, and will be open to the public Sunday.

Built by the Township Building Co., 140 houses are planned for this countryside site with its rolling terrain. Constructed of brick and stone shake siding, the floor plans offer three bedrooms, large living room with separate dining area, kitchen, utility room and bathroom.

Custom built on the job, these houses have 1216 square feet of living area and include a covered carport with paved entrance from the individual driveways.

Naturally finished birch cabinets are used throughout the house with the buyer having the choice of interior finish colors.

An overhead heating system is installed in the Bloomfield Knolls' home which is placed on lots measuring 80x100 feet and 145x170 feet.

The William A. Kennedy Realty firm is handling the sales.

Jet Fliers Getting Electronic Co-pilots

WASHINGTON (UP)—The fighters and bombers produced by America's aircraft industry fly so fast that they impose demands upon pilots that have not been experienced before.

Sa, to help them out, Planes, official publication of Aircraft Industries Association reports that the aircraft electronics industry has developed an electronic brain which will fly "co-pilot" in new supersonic fighters.

It's a real genius when it comes to solving intricate problems that arise with lightning-like rapidity in modern military planes. It can do 60,000 additions or subtractions, or 3,000 multiplications or divisions in one second.

The new airborne electronic "thinker" was made possible by the development of tiny-weight transistors that are replacing the heavy old-type radio vacuum tubes.

Transistors, though small, are tough, don't heat up and operate on about one-twentieth of the power required by the old vacuum tube. The new airborne computer uses about 800 of these transistors in its circuits.

Hens Double Output

GLENVIL, Neb. (UP) — Mrs. Kenneth Motley has a hen that works overtime. In a three-week period, the hen laid two eggs measuring 8 inches in circumference. Each of the king-sized eggs contained another complete, normal-size egg.

LOSE SOMETHING? Let a Lost Ad find the finder. For a friendly, experienced ad-writer call FE 2-8181.

Spraying Program Boosts Apple Yield

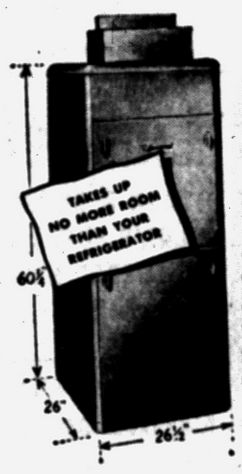

GENEVA, N. Y. (UP)—A five-year experiment to control scab with a ferbam spray program resulted in increased yields of U. S. No. 1 apples in a Hudson Valley orchard.

The program included eight different treatments with lead arsenate as the basic insecticide. All were equally effective in controlling scab, according to a rport just released by the New York State Agricultural Experiment Station here.

An all-season program of ferbam fungicides proved safest and resulted in the highest yields and best fruit quality.

Cost per box also was the highest with this program, but the increased production of U. S. No. 1 apples justified the added expense.

Can't Prosecute Pup

SCOTTSBLUFF, Neb. (UP)—Police received a good description of a shoplifter, but even if they find him, he can't be prosecuted. The culprit is a large black dog that wandered into a store and took a pair of gloves from a rack. The store manager pursued the thief, but four legs proved better than two.

We are seldom out of sight or hearing of one of the many inventions of Thomas Edison.

The Klondike valley area has yielded more than $215 million in gold ore.

SEE — The Spacemaster

More Living Room ... in Every Room

with the new low-priced SPACEMASTER folding door

in your kitchen!

"Spacemaster" doors *fold* inside the doorway, completely out of the way. Your kitchen is larger, easier to move around in. No cabinet or counter tops lost to swinging doors. No danger of doors standing ajar, or closing on children's fingers.

in your living room!

"Spacemaster" doors *fold* back on themselves, make better furniture arrangement possible. No "dead" corners, no valuable floor and wall area lost to door swing.

in your bedroom!

"Spacemaster" doors add many valuable feet of floor and wall space. Beds can be pushed closer to closets. There's more room for night stands and lamps, too, because swinging doors are completely out of the picture.

Buying Runs High at Furniture Mart

GRAND RAPIDS (AP)—Spokesmen for the Grand Rapids Furniture Exposition Assn today said buying orders at the current summer furniture market were "beyond expectations."

Charles F. Campbell, executive secretary, said the opening boomed this week with 500 visiting buyers registered. A normal registration pace through July 1, when the exposition closes, will approach the attendance mark of 2,800 set last January, Campbell predicted.

Registrations yesterday included buyers from 34 states, the District of Columbia, Canada and South Africa.

Richmond Knolls Model Offers Custom Features

Custom features in a low-cost project home are offered in the "Chieftain," a new three-bedroom house built in Richmond Knolls at 5270 Clarkston-Orion Rd., one-half mile east of Sashabaw Rd.

A combination bathroom and dressing room plus a second lavatory in the playroom and kitchen area of the house are included in this plan which has a large living room with dining area, kitchen, family activity room and laundry room.

Forty houses are planned for this subdivision being built by the R. S. and R. Building Co. Lots measure 100 by 150 with some as large as 150 by 250 feet.

The kitchen has naturally finished pine cupboards facing one wall with hammered wrought iron hardware. Yellow has been chosen for the model kitchen with gray plastic counter tops and double white porcelain sinks.

CALIFORNIA CONTEMPORARY WINDOWS

A large picture window overlooks the front yard with a set of California contemporary height windows placed at the side of this long room. There are over 1,100 square feet of living space in this house.

The spacious bathroom has its own built-in dressing table with twin sinks and plastic covered counter tops. Beneath this unit, mounted on a slight angle, are sliding peg-board doors for storage area. The medicine cabinet, another series of sliding doors located above the sinks, looks like part of the mirrored wall.

All floors in this one-story house are covered in tile and each room has its own built-in sliding door closets.

Fully insulated, the "Chieftain," has an unusual floor which is built up from a layer of crushed stone, then a vapor barrier with a specially treated board material on top. The fourth layer is a new type of cement which is chemically treated to retain air holes. This process prevents any moisture seepage from the ground.

A circulating heat furnace is located in the laundry room.

The exterior of this house is done in a partial front of pastel stone-brick with asphalt shakes.

RICHMOND KNOLLS — The "Chieftain," new Richmond Knolls' model opens this weekend for inspection at 5270 Clarkston-Orion Rd., one-half mile east of Sashabaw Rd. The floor plan offers a large living room with dining area, three bedrooms, master bathroom, kitchen and activity room and laundry room plus a lavatory. Front section of the house is built of brick and vertical strips of knotty pine. The remainder of the exterior is done in asphalt shakes. In the lower photo is shown the knotty pine cupboards in the large

(See Interior on page 24)

kitchen. Finished with hammered wrought iron hardware, the cupboards also have gray plastic counter tops and this same material faces the rear cupboard wall. A light is placed directly above the double-sink facility. Drawer fronts are slightly angled to dispense with hardware and allow ease of movement. Toe space has been provided at the base of the cupboard. All floors in the house are finished in asphalt tile and each room has full sliding-door closets.

Flame Resistance Vital Factor in Fire Protection

WASHINGTON, D.C. — What is "Flame resistance?" It is that property in a material which restricts the spread of flame over a surface. The amount of flame resistance which a material possesses can be vitally important in preventing the spread of a disastrous fire. It can allow time to permit the fire to be extinguished and, if necessary, it can allow time for the occupants of a structure to reach safety.

It is a difficult problem to develop specifications by which flame resistance can be measured. But such specifications are invaluable in creating safer surroundings in the nation's homes and workshops. Perfect solutions to the puzzles existing in this field have not yet been found, but much progress has been made in recent years.

In these efforts the makers of various types of protective coatings have taken active part. Paints of various types very definitely aid in reducing the flammability of surfaces at the start of a fire. They increase their "flame resistance," in other words.

This is true not only of interior surfaces, but of exterior ones as well.

A wood shingle roof, for instance, that is not adequately safeguarded with a protective coating will harbor a spark from a chimney and give it lodgment until a fire is well started among the curled and dried-out shingles. The chances of regular intervals is involved.

ATOMIC TEST

A most dramatic example of the flame resistance of well-painted surfaces was provided by a test made in connection with recent atomic bomb tests at Yucca Flats. Three test houses of similar construction were erected. The house at one end was ill-kept and unpainted. At the other end was a house neatly kept but in need of repainting. The house in the middle was well-kept and well-painted.

In the wake of the heat flash from the bomb explosion, the first house took fire immediately and burned to the ground. The second house was a little slower to ignite, but was completely destroyed by the flames that followed. The well-painted house in the middle was left standing with its smooth paint coating only slightly scorched.

Ordinary oil- and water-based paints can both serve as fire-retardants. So, of course, can the coatings designed specifically for the purpose. The easy-to-keep-clean, smoothly painted surfaces are far less likely to catch fire than dirty, rough or splintered substances. If the painted surfaces should ignite, their flame resistance may provide that invaluable margin of time that can spell the difference between safety and disaster.

No Paint for Screen Will Stop Peeping

Q—We live in a basement apartment. Isn't there a way to paint a window screen so that a person cannot see in from above floors? — Mrs. W.

A — Not that I know of, although coating the screening with aluminum paint might help. Reflection of daylight from the silvery surface would block the view from outdoors to some extent. Installing fine-mesh aluminum screening or aluminum-painted louver-type screening might be even better. Have you considered Venetian blinds?

Don't Forget Bathroom When Finishing Attic

When you finish that expansion attic, remember that a bathroom is an essential feature there. To save plumbing costs, build it over the bath on the first floor, or over the kitchen.

Finish its walls and floors with waterproof ceramic tile, so that moisture won't damage its surfaces and even affect walls in adjoining rooms. And be sure that it has sufficient height — don't try to locate it in an area with a low, sloping ceiling.

OUTDOOR WHATNOT—Wondering how to remove that blank, uninteresting stare from your fence or patio screen? A little niche like this set into the fence the depth of a board, makes a charming display shelf for potted plants and garden sculpture. Flowers and shrubs are particularly enhanced by a fence background of natural or stained western red cedar or Douglas fir, and even inexpensive grades of these woods resist weather admirably and blend beautifully with your landscaping.

Oldest School in West

College Hall, on the campus of Pacific University in Forest Grove, Oregon, is the oldest building west of the Rocky Mountains used continuously for educational purposes. The Hall was built in 1850 of hand hewn and rough sawn fir from nearby forests, and from the second floor windows of its now mellow and lovely facade, tthe schoolmaster of yore occasionally fired upon renegade Indians.

Tile Fine for Shelves in Children's Room

Making up some open storage shelves for that three- or four-year-old's room is an easy task for the home handyman. Here's a new wrinkle on it. Make the shelves in a width that will take 4¼-inch squares of ceramic tile and surface them with it.

The few square feet of tile needed will cost very little, and it will eliminate painting the shelves, and make cleaning them much easier.

St. Lawrence Traffic Reaches All-Time High

OGDENSBURG, N. Y. (UP)—More people, more cars and more ferryboats crossed the main St. Lawrence River crossroute between here and Prescott, Ont., in 1954 than in any previous year.

One ferryboat company said its boats had traversed the route—one mile and a quarter—some 42,090 times, carrying 729,000 foot and car passengers.

River crossings may become even greater in the near future when the St. Lawrence Seaway construction begins.

Tile Cleaning Offers Problem

'Grout' Cement Discolors if Not Well Scrubbed With Steel Brush

Ceramic tile is the easiest thing in the world to keep clean—just a little detergent and water. But keeping the cement lines between tiles clean may be another story.

This cement is called "grout" and unfortunately many homemakers neglect cleaning it for long periods. For this reason, grout lines may tend to become discolored after a while.

Grout cement is actually stronger, more durable, and much more resistant to stains than concrete pavement. When stained or dirty (usually from neglect) a good scrubbing with a non-scratching scouring powder and water is the best method for cleaning. On occasion, if scrubbing doesn't do the trick, bleaching with hydrogen peroxide or common hair bleach should be tried. On tougher jobs, steel wool or a clean steel brush is required.

Work carefully, though, when using a steel brush or steel wool so that you won't wear away any of the grout. And always try simple scouring before you use the more drastic methods.

Most of the common household stains can be taken care of with these methods. They include, for instance, stains from beet juice, blood, catsup, coffee, grape juice, ink, laundry bluing, mustard, shoe polish, tea and soot. The important thing is to treat staining as soon as possible. Always scrape off as much as you can first before using a chemical.

OTHER METHODS

Other stains need slightly different treatment. Crayon marks, for example, can usually be dry-brushed off. Iodine will gradually fade away, but fresh stains may be removed with alcohol. Use carbon tetrachloride to dissolve lipstick after rubbing away most of it with tissue paper. And for nail polish — yes, that's right — use nail polish remover.

Paint and rust may present some difficulty because of the length of time they've been on the grout. For a start, use fine sandpaper on paint and then finish by swabbing with paint remover.

Try a one-to-one solution of oxalic acid on rust; a commercial type rust remover is also practical. In general, oils, grease, paints, lacquers and the like require readily available solvents such as alcohol, gasoline, or cleansing fluid. Grout lines which have turned gray with age are all too often caused by careless washing—using dirty water and not rinsing properly.

To sum up, the basic rules for keeping grout clean are these:

1. Most cleaning can be done by scrubbing with cleansing powder. Don't forget rinsing.
2. If grout lines get stained, treat promptly.
3. Try simplest methods first and then, if necessary, use a special preparation.

Early Greek and Roman beds often were made of solid ivory veneered with tortoise shell and with silver feet.

Making Own Window Screens Saves Extra Work Given to Fit Ready-Mades

Although some folks are all for buying window screens ready-made, there's one good argument for making your own screens—you can make them so that they can be fitted to the window frames with a minimum of cutting and planing.

Anyone who has ever hung a door, storm sash or screen can appreciate that it demands considerable skill, patience and perseverance.

But a screen frame made to the exact measurements of a window should fit exactly, if the window opening is square. If it's not square, some planing may be in order, but not much.

Having obtained well-seasoned, knot-free screen stock from a lumber dealer, here's how you could proceed to make window and porch screens:

First select the type of corner joint you wish the screen frames to have. Simplest is the common butt joint, in which the sides are merely butted against the ends of the top and bottom horizontal crossmembers. This joint, however, is not very strong and should be reinforced with steel angle irons, mending plates, or the like.

Stronger are the step joint (side pieces notched to receive top and bottom pieces), the dowel joint (butted or mitered) and the half-lapped joint.

Now, to make a full-length screen frame measure the window opening, mark your lumber and cut it carefully on the marks. Fasten the parts together at corners with glue and nails in the case of butt and step joints, ⅜-inch dowels and glue for the doweled joint, screws and glue for the half-lapped joint. Use waterproof resorcinol-resin glue.

If the screens are more than four feet tall, a middle horizontal crossmember should be added.

EDGES GROOVED

Half-length frames for double-hung windows are made the same, except that their side edges are grooved to permit them to slide up and down on runners nailed to the window frame just outside the lower sash. Place the screens as close as possible to window sash.

Runner channels on the frames can be formed either by gluing and nailing quarter-inch strips to the edges if the frames, or by cutting the grooves on a table saw.

You can now attach the screen cloth. There are several kinds of bronze, copper, aluminum, galvanized and plastic. Plastic has some advantage over the others in that it never needs a protective coating. Most others will rust or corrode in time.

To attach screening, place two frames side by side and block up the opposite sides slightly. Lay a single length of screen cloth across both frames, stapling one end of it to raised side of one frame, pulling it tight and stapling it to the raised side of the other frame.

* * *

Remove blocks (this pulls screen taut) and staple screening around all sides of frames. Finally, cut through screen cloth between frames.

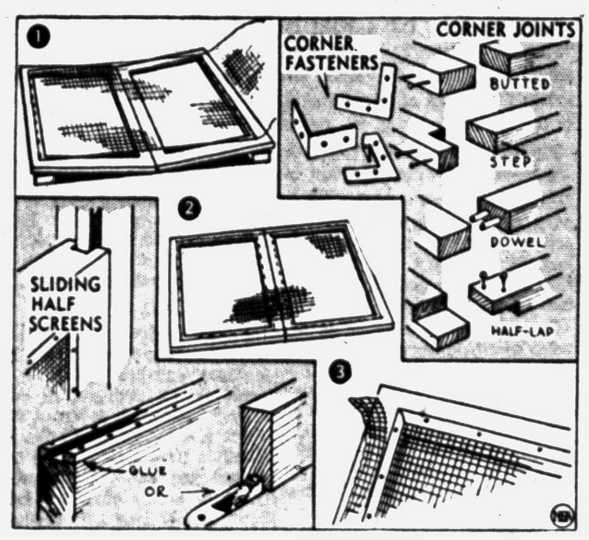

Avoid cirrosive chemical acgalvanized staples only with steel and aluminum screening, copper staples with other screen cloths. Place staples half an inch from inside edges of frames. If screen is plastic, fold it and staple through double thickness on edges.

FINAL STEP

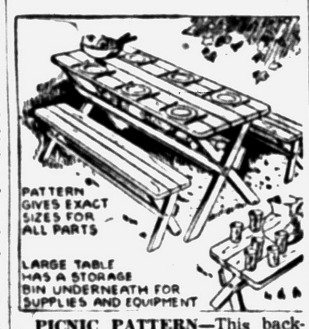

Final step is to cut, fit and nail flat screen moldings over screen edges to cover staples. Trim off excess screening by drawing knife along outside edge of molding.

Before screening is attached is a good time to coat all wooden screen-frame components with a wood preservative. Some preservative solutions provide an excellent base for paint, and reduce the danger of moisture damage to paint films.

Screen frames should be painted before installation. But wire screen cloth should not need painting for a year.

WINDOW SCREENS — If you have a hammer and saw, you can make your own window screens at a fraction of the cost of custom-fitted screens.

PICNIC PATTERN—This backyard set is just what is needed to make those family picnics a huge success. The saw-buck type of table and benches are designs that will harmonize with any barbecue setting.

A hand saw, hammer and screwdriver are the only tools needed. All dimensions and assembling directions are shown with large sketches on pattern 279 which is 25 cents.

Available in packets of five standard size patterns at $1 each packet, are: Lawn & Garden Figures, packets No. 1 and 2; Home Improvements, packets 1 and 2; Lawn & Garden Furniture, packets 1 and 2.

Any of these packets may be returned for refund if any single pattern in a packet is not useful or as expected.

Finds Gas Hard Way

HARRISONBURG, Va. (UP)—Samuel S. Shankes new well just keeps bubbling.

Gas! No doubt that. A driller found this out in an explosion which singed his eyebrows when he tried to light a cigarette. But the state geologist's office exploded any ideas that the gas is in commercial quantity. The scientific fellows said small pockets were not unusual hereabouts.

Portland Cement Paint Recommended for Patio

Q—What is a good, long-lasting method of coloring a poured concrete patio floor?— J. K. S.

A—Portland cement paint affords a durable coating, but should not be applied until concrete has cured for a month. Apply in two coats, allowing 24 hours drying time between coats, and keep surface wet for two days afterwards.

Chemicals Clear Roots From Drain

Q—In the past years I have had much trouble with roots growing in the sewer. As it is very expensive to have them removed twice or more a year, I would like to learn how to kill them before the mass gets large enough to stop the draining.—Mrs I. C. L.

A—Introduce a slow - dissolving chemical root destroyer into the sewer line by flushing it through toilet bowl nearest sewer line. To allow maximum treatment when waste facilities are not being used, apply two pounds of the chemical late in the evening before retiring. It is not necessary to dissolve this type of root destroyer in toilet bowl before flushing. Twice-a-year treatment is recommended to keep the line clear.

Forest land comprises 45 per cent of Kentucky's 25,512,960-acre land area.

FOUR BEDROOMS — Architects and builders report a growing demand for four-bedroom houses. This compact plan features four bedrooms, an extra lavatory in a divided bathroom, a large combination living-dining room and a full basement. This is Plan C-380 AP by the Small House Planning Bureau, St. Cloud, Minn. The house covers 1,565 square feet and contains 29,735 cubic feet.

Proper House Building Best Termite Deterrent

The termite scare is now spreading rapidly. New home owners, especially, are jittery every time they see a flying ant — which of course is not a termite.

In fact, according to experts, there is no evidence that subterranean termites are spreading. It's the damage they are causing to houses that is spreading — and hence the growing concern.

The U.S. Department of Agriculture says subterranean termites are found in every state — "they are found partically throughout the tropical and temperate parts of the world . . . They have occurred in very nearly their present distribution for many million years.

Yet, temites are getting into houses more often. There are obvions reasons for this.

1. More houses are being built in outlaying areas, in the country, on sites cleared out of woodland or near woods. The depletion of forests deprives termites of their natural food supply of fallen trees. Among nature's scavengers, their function is to help destroy surplus wood. So now they're out hunting for wood.

2. The way lots of houses are designed nowdays makes is easy for termites to get a bite. The vogue for low ranch-style houses brought wood siding and other lumber down close to the ground. Careless grading and foundation planting has often brought the earth in contact with the wood.

3. The way many houses are built also is inviting to termites. Hollow block foundations provide these insects with the dark passages they need in which to build their runway tubes between moisture sources in the ground and food sources of cellulose in timbers. Omission of metal shields on top of foundations give termites a clear road into structural lumber.

4. Heated basements make life more comfortable for these pests. They can't stand the cold.

TREAT LUMBER

The best insurance against termites in a house seems to be treated lumber. In building a new house, the use of chemically treated lumber will make a difference of only about $100 for the whole house and you're insured for life.

Such lumber is not just painted on the surface. It is impregnated in pressurized cylinders in a process called Wolmanizing, named for Dr. K. H. Wolman, a German scientist, who discovered it 50 years ago.

As soon as a termite takes a bite of Wolmanized lumber, he's dead. The use of this lumber for sills and other lower members of a structure is economical, since the added cost over untreated lumber amounts to about 4 cents per board foot.

Furniture Goes Natural Today

Colors From Outdoors Feature New Pieces Displayed at Shows

CHICAGO (AP)—The stylists have "gone back to nature" for the colors for new home furnishings.

Marc T. Nielsen, president of the American Institute of Decorators, used that phrase this week in commenting on trends in fabrics and wood finishes.

"In the past it was difficult to distinguish between woods," he said. "Gum wood was made to look like walnut or mahogany. Birch—so beautiful in itself—was stained and dyed to an unnatural tone.

"Today the emphasis is on naturalness. Manufacturers of lacquers and finishes strive for a protective coating without darkening or discoloration.

"Today many woods are in use which were never considered for interior finish — popular, gum, willow, tulip, to mention a few of our native species. And the pigmenting is borrowed from nature."

Nielsen, a Chicagoan, spoke to reporters at the American Furniture Mart. The summer market opened there this week. The semi-annual home furnishings market is under way at the Merchandise Mart.

The top colors of upholstered pieces at these shows are the browns, tans and beiges.

In design, the "rounded contour" —sometimes called "curvaceous" is in fashion.

The markets, open to buyers and sellers but not to the general public, will close July 1.

'Sharp Sand' Suggested in Building Outdoor Wall

Q—Would you recommend a good mortar mix for use in building outdoor walls of brick or concrete block?—Q. B.

A — A good all-around mix calls for 2 parts cement, 9 parts graded sand, and 1 part hydrated lime. That's about enough to lay up 100 bricks. Be sure to specify "sharp" sand when ordering. Sand should have no dirt in it whatever.

Unused Luggage Needs Some Care

If your luggage is used only at vacation time, be sure to check it thoroughly before the day of departure. Luggage is built to last, but still it must have at least a minumum of attention to keep with a brush of your vacuum cleaner. The outside can be cleaned with mild soap if canvas or plastic, and saddle soap is good for leather. Oil the locks sparingly lest the oil soak through and stain the lining, plus making a spot on whatever happens to be next to it.

Devon Brooks Offers Architecture in Both Contemporary, Traditional

Devon Brook, a new 40-acre development east of Telegraph and south of Hickory Grove Rd. in the northwest section of Bloomfield Hills is being built up with a variety of architectural designs ranging from one-floor contemporaries to multi-level traditions.

No duplication of style or design is to be found in this new home area built and produced by Kinzler Construction Co. Bruce Kinzler is the head of this firm.

Each home in the development is completed with lawns and landscaping done, houses are equipped with modern kitchen appliances and furnished with carpeting and draperies.

"We are proud of the location we obtained for this development," said Bruce Kinzler. "It has all of the conveniences found within a three mile radius that can be had in the average town."

A new shopping center is planned within one mile (corner Telegraph and Square Lake Rds.) the new Bloomfield Hills School is a short distance from the site and several lakes and country clubs are nearby.

Sales of the Devon Brook homes are under the direction of Snyder, Kinney & Bennett, Inc.

We get most of our musical terms from the Italian language.

Redheads Need Cool Interiors

Titian Tresses Call for Careful Selection of Decor Colors

The damsel with the titian tresses usually has that rare combination of beauty — vividness of hair coloring coupled with the delicacy of skin tones.

Because of this strong contrast, the redhead must choose with extreme care the colors which surround her at all times — in clothes and in her home.

Walls — this large color area will be the redhead's prime consideration. A hue to pick up and emphasize the highlights in her hair can be found in red cedar walls "antiqued" with white paint.

This process is accomplished by rubbing paint into the natural wood then wiping it off while still wet, before the finishing process. Perhaps one wall might be painted a deep, flat off-green, if the room is quite large; or hemlock or fir panelled walls in blond finishes will compliment the redhead.

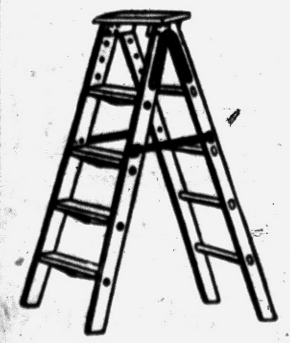

Floors — The redhead may want to carry out a monochromatic scheme in her interior, and greens, shaded off to white and blended with the neutral richness of natural cedar will give a cool appearance to her favorite room. She will probably choose a deep green carpeting over wood floors, or possibly a fluffy, antique white rug.

Ceiling — Here again, white or misty green is suggested. If the ceiling is high, cedar or fir beams can be extended across for drama or rusticity.

Accents and Furnishings — Here is where you can get color to offset coolness of a room done in green and white. Yellow-oranges to match your hair exactly, if possible, is a startlingly pleasing accent in cushions and lamp bases. For the auburn-haired, a rich terra cotta is effective. Lampshades should be ecru or dead white.

Contrary to general opinion, the redhead can emphasize her coloring with pinks and tones of red. However, these fabrics should be chosen in the upholstery shop with as much discrimination as selection of a particularly important hat.

Large chairs and sofas are smart done in turquoises, and drapery fabrics in geometric patterns of black on turquoise and green background. Small accessories like hassocks and occasional chairs can be of warm greens like mustard, or even step over into the cantaloupe or persimmon hues.

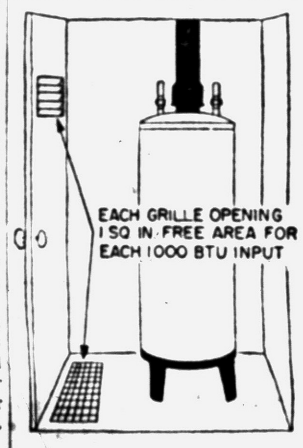

SAFETY PAYS — Step ladders should always be opened fully so their side braces latch firmly.

New Flues, Btu's Eliminate Blues in Water Heaters

Install a water heater in the right place and it will give better service, says the Coleman Heating Institute, Wichita, Kan., a training school operated by a leading manufacturer.

The institute's engineers give this advice:

1. A gas water heater requires a grille or louver opening of one square inch for each 1,000 BTU's.

Water heater needs air to breathe.

of heat output. The BTU input rating is marked on the nameplate of the heater.

2. Put the heater in a central location, near a good flue.
3. Make sure the heater is level and sits solidly on the floor.

Put Blast on Birds

CASPER, Wyo. (AP)—Casper residents can't crow about getting rid of their crows. After receiving several complaints that cawing of crows was disturbing early morning sleep, Casper police promised to investigate. They did. They began shooting the birds with shotguns—at 5 a.m.

Oak Flooring Needs Special Treatment

Q—We had an oak floor laid last July. I would like to know what steps to take and varnishes or whatever to use to make a finished floor. — Mrs. F. B.

A—First, the floor must be mayline sanded. Many large hardware or paint and wallpaper stores offer floor-sander rental services. The dealers will instruct you in the use of the machines and supply finishing instructions. Many manufacturers of floor finishes publish excellent how-to booklets on the subject. For further information, write to National Oak Flooring Manufacturers Association, 814 Sterick Building, Memphis, Tenn.

TRACK is screwed to ceiling.

NYLON BUTTONS on the bamboo fold are inserted into the track in a jiffy.

ATTRACTIVE screening is now provided with bamboo available in 21 colors.

Foldaway Doors Popular in New Home Construction

Foldaway doors are making great headway in the American home. Why have big thick walls between dining room and living room or kitchen and dining room in a small home? True the cook would like privacy on most occasions.

Diners would like to be closed off from unexpected callers. But for the most part walls between living area and dining area are not important—one reason why the folding door is becoming popular.

* * *

A folding wall permits more breathing space for the family. Children may romp in a larger area and a feeling of spaciousness is acquired in a small home.

Metal has been used for this purpose. Bamboo and plastic are also popular in the fold-door group. A bamboo-fold may be applied in from 5 to 7 minutes. A metal track is centered at the ceiling where the room divider is to be put.

Holes are punched through the track with a drill or awl and screws inserted in the opening. Nylon buttons on the bamboo are inserted at the top of the track, keeping folds partially open. The divider folds to less than 10 per cent of its extended width with fingertip control.

More than 21 colors offer high style decorator harmonizing shades for the room. The bamboo may be repainted to match a new decor at whim and because of a specially treated surface it can be cleaned effortlessly with a damp cloth or vacuum cleaner. Makers say it is mildew proof and warp proof.

These bamboo or plastic room dividers are sold all set for the home handyman at lumber yards, decorating stores and building supply stores.

Roomy Closets Also Employed for Decoration

Problem: What to do about a small drab bedroom that needs more drawer and closet space, and more decorative "oomph"?

A good workable solution is suggested in the sketch below.

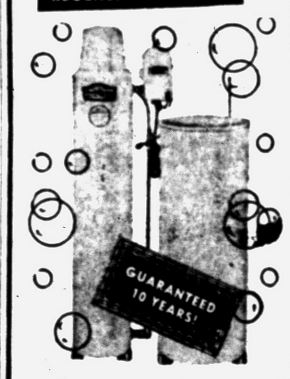

The bed is flanked by roomy wardrobe and drawer units for clothing, linens, and blankets. These are stock ponderosa pine cabinets which can be bought either fully assembled or "knocked down" for do-it-yourself assembly and installation.

A couple of pieces of pine are cut to size to serve as a headboard for books, radio, lamp, flowers and knick-knacks. A mirror, secured to the wall between the cabinets, extends from the headboard to the top of the cabinets. The cabinets and headboard may be painted or stained to suit the color scheme of the room, or simply clear-varnished to reveal the natural - grain beauty of the pine.

Building Outlays Spurt of Over $4 Billion Is Expected for 1955

WASHINGTON (AP) — The government predicted today that spending on construction will shoot up about 4¼ billion dollars this year to an unprecedented $41,800,000,000.

The prediction by the Commerce and Labor Departments was based upon economists' expectations that business will continue throughout the last half of this year at its present record rate.

The new forecast was a sharp upward revision since last November, when government economists foresaw a two-billion-dollar rise in building outlays this year.

Since then, monthly construction reports have indicated peak activity in the building business.

The present construction record is last year's $37,600,000,000. Only a "moderate" price increase was figured into the 11 per cent rise now foreseen during this year, the new report said, indicating that nearly all the increased spending would represent actual building.

The forecast contemplates that federal spending on construction will decline by more than 10 per cent this year but that state and local outlays will offset this decline, rising to a record 8¾ billion dollars.

The report foresaw adequate mortgage funds at relatively easy interest terms, and good supplies of all building materials during this year.

Terrace in Backyard Makes Summer Nicer

Does your backyard need "summerizing" so that your family will have a pleasant retreat on hot July and August days? Consider having a small terrace built of pleasant red quarry tile, which is frostproof and very durable.

It will save "bald" spots on the lawn, and it will dry out quickly after even the heaviest rains. Because the joints between the tiles are filled with cement, no tufts of grass or weeds will spring up on the terrace itself.

The western part of the United States is growing faster than the eastern section, a trend noted since 1850.

Wood Windows Are Important for Insulation

Some really hot day, when the mercury is sizzling in the 90's touch the outside of a window frame or sash. It will be warm, but not unbearably hot. Then feel the inside of the same wood and you'll find it much cooler, or about room temperature.

This test indicates a factor in home insulation that is generally overlooked — the important role played by windows.

A well-insulated house is generally considered to be one with three inches of mineral wool in the walls and four inches in ceilings. But in addition, all windows should be made of wood.

As the "touch test" shows, most of the heat hitting the outside of the wood is stopped "cold" before it can get inside and affect room temperature. This is because ponderosa pine, the wood generally used for windows, is a poor conductor of heat, and therefore a good insulator.

Conversely, in the winter, the outside of the wood sash will be colder than the inside, but still not freezing to the touch. This indicates that room heat is not being dissipated through the frame and sash to any noticeable extent.

If the amount of wood in a window seems a small and unimportant factor in a well-insulated home, basic arithmetic will prove otherwise. Figure out the area of wood surface in one window (both frame and sash), and multiply that figure by the number or windows in the house. The total area is surprisingly large, and a definite factor in home comfort.

Mixing Periods: New Decor Idea

Latest Furniture Ideas Indicate Use of Varied Style Types on Market

Purchasing home furnishings is really an art. Except for newlyweds, there usually are pieces already in your home that must become part of and blend in with the new things you are planning. Here are a few questions that will help you decide whether the new piece of furniture will help your decorating scheme click.

Never buy any furniture you don't need, even if others think it is customary. Collect the pieces you do need. Buy those pieces of furniture in any grouping that tie in with the way you are planning to live. It's smarter not to have all pieces match. Take it easy. Better buy a few pieces of good quality than many you will have to replace later. Get several essential pieces, settle them comfortably, then add to them as you find what you want and need.

Actually, they don't have to be. The tendency in home furnishings is to become more daring in mixing periods. Modern fabrics, trimming, colors and accessories are often used in period rooms. You must be sure that you combine furnishings with the same general feeling and the periods will take care of themselves.

All the woods of your furniture in a single room need not be the same. Contrast is effective and adds decorative interest. Avoid grouping all wooden furniture or all fabric-covered furniture together. Don't place all the high or heavy pieces at one end of the room. Keep balance in your furniture arrangement.

BUY IN PAIRS

Purchasing in pairs makes good decorative sense. Pairs give balance, restfulness, and sense of space, as well as adding beauty. You can actually get more furniture into a room without making it seem crowded when you give balance with pairs.

Formal arrangement means grouping in pairs—like exactly matching chairs or sofas. Informal arrangement combines pieces that don't match—but are related in size. The formal arrangement is restful; the informal is casual. For interesting rooms, you'll want both types.

When you buy a dress or suit, you get the garment that will set you off most attractively and be useful as well. So should it be in the selection of upholstered pieces. Choose the smaller and trimmer of two sofas or chairs, not the larger and more unwieldy. Comfort in furniture depends upon good construction and the size of the space on which you actually sit, not the part that merely fills up space in your room.

* * *

Rooms of moderate size, or ceilings that are average or low, need furniture scaled in proportion. One massive, over-weight sofa, or heavy, dominating piece of furniture will overpower a small room and spoil the balance. In contrast, small, spindly furniture in a large space makes the whole effect seem inadequate. Select your pieces in relation to the size of the room and of other pieces.

TRY 'EM OUT

When buying furniture which you will want to use and live with for a long time, be sure to try it in use. Never buy a sofa without leaning back and relaxing in it. Sit on the piece, relax, does it suit you? Will it help you to relax at home? If the answer is "Yes," then buy it. Remember, too, that the man of the house needs a comfortable piece of furniture for relaxing at the end of a long day.

When you've gotten the furniture and draperies in an eye-satisfying arrangement, remember to add the little touches that give your room the lived-in look. Before you start arranging your furniture, consider the way you and your family want to live. Arrangement needn't follow any pattern. Liveability is the first and final rule of good arrangement.

BELL-RINGER ACTION WINDMILL

BREEZY BELL—Even if dinner is not ready whenever there is a breeze stirring, the little lady in her blue frock and white apron rings the bell like crazy.

Little bells just the size for this project and with pleasing tones are available at small cost.

The white house is one inch thick, trimmed with green shutters, red and blue flowers and brick red chimney.

A coping saw may be used to cut out the various parts but a jig saw would much easier and do a neater job.

The pattern gives the actual size of each piece which is traced directly to the wood; both the saw lines and the decorations. The price of pattern for this unique weathervane is 25 cents.

Write to Workshop, Pontiac Press, Bedford Hills, N. Y.

Says Illinois Sassafras Superior for Tonics

CARBONDALE, Ill. (AP)—Sassafras, used by pioneers as a spring tonic, has been shipped to V. L. Webb of Sacramento, Calif., who requested a batch of the real stuff from genuine Carbondale Sassafras trees.

He said he had been buying sassafras in California drug stores, but their product was weak and tasteless. The Chamber of Commerce dispatched the makings promptly.

Ghost Marks Caused by Insulation Lack

"Ghost marks" on walls and ceilings do not mean your house is haunted. "Ghost marks" occur when dirt is deposited in wide shadowy lines—a tell-tale sign that the house needs mineral wool insulation.

* * *

Without insulation, the spaces between joists becaome darkened because the warm, dust-laden air tends to move to and through these colder surfaces. Use of mineral wool makes surface rempera-tures uniform and nearly equal to room temperature, thereby reducing painting and re-decorating costs.

Home Folks Told Hunt for Uranium May Reap Profit

ROCHESTER, N. Y. (AP)—Three young men from Rochester rode out of the West this week and told the home folks here that it looked like their uranium prospecting had paid off.

Anthony J. Fargo, 37, an airplane parts inspector; Joseph Aiello, 26, an automobile salesman; and William Colby, 28, a driveway paving contractor, all quit their jobs last March and took off for New Mexico.

The three said that they have filed a claim on 360 acres of federal land about 100 miles southwest of Aubuquerque, N. M.

Samples to the Atomic Eenergy Commission raw materials office in Phoenix, Ariz., brought favorable reports, they said.

Howell Man Is Elected

HOWELL—Paul Baldwin of Howell has been elected a vice president of the U.S. Chamber of Commerce at the organization's national convention in Atlanta, Ga.

Japan Plans Purchase of U.S. Farm Surplus

TOKYO (AP)—A bilateral agreement for Japan to buy 85 million dollars worth of U. S. surplus farm products, mostly wheat and cotton, won final Diet ratification today.

The agreement also provides that the United States will give Japan an additional 15 million dollars worth of wheat, cotton and milk products for use in the school lunch program.

Before 1910 there were more men immigrants to the United States than women. However, since 1930 the ratio is reversed.

Kavanagh Presses Quiz Into Firing of Rep. Wood

LANSING (AP)—Atty. Gen. Thomas M. Kavanagh today pressed an investigation into charges that Rep. Leonard E. Wood of Detroit was fired by the Wayne County Road Commission for voting wrong on a highway bill.

Wood, elected as a Republican, switched to the Democratic party in the last Legislative session. After the session he charged he had been fired by the commission because he refused to vote as the commission wanted.

Kavanagh said he would question John C. Jacoby of Detroit, Road Commission lobbyist, next Monday. Other executives of the commission may be summoned for questioning later, Kavanagh said.

Commission officials said that Wood was dropped from the payroll because he failed to return to work after the legislative session.

Jobless Pay Claims Down for Past Week

Jobless pay claims at the Pontiac office of the Michigan Employment Security Commission dropped by 79 from the previous week's total, James H. Dudley, manager, reported.

The total was 675, and Dudley said he believes claims, which have been declining steadily for the past six months, will now level off at around that figure.

Humphrey Says U.S. Nearly in Black

WASHINGTON (AP)—Secretary of the Treasury Humphrey foresaw yesterday a sharp cut in a 2½-billion-dollar deficit predicted for the government in the coming fiscal year, or even perhaps a balanced budget.

Humphrey disclosed the government's improved financial outlook for the bookkeeping year beginning a week hence in testimony prepared for the House Ways and Means Committee. "We hope and believe," he said, that the government can get along on a temporary one-year extension of the public debt limit at its present 281-billion-dollar level.

* * *

Humphrey said "our present promising business and international outlook" is the foundation of his optimism that there is no need for a more permanent higher ceiling.

Humphrey said he would take on the "very difficult task' of living within narrow borrowing margins for the coming year in part to set the nation "an example of economy and prudence."

Western Union Gets OK

LANSING (AP)—The State Public Service Commission today authorized Western Union Co. to issue $38,500,000 worth of debentures to refund outstanding bonds.

Car Production Still Runs High

New Models Pouring From Factories Despite Heavy Stocks

BY DAVID J. WILKIE

DETROIT (AP) — Despite record-smashing inventories new automobiles are pouring out of the assembly lines in heavy volume. The car makers are convinced the market still is of gigantic proportions.

By this month's end the industry will have built 4¼ million cars in six months. This is a total never before achieved in any six months. With the exception of 1929 it is more cars than were built in any one year prior to 1949.

Whether the car makers rolled out this huge volume in anticipation of a major work stoppage that did not materialize still is argued in trade quarters. So, too, is the question of whether demand was stimulated by fears of a car shortage resulting from possible prolonged shutdowns.

Whatever the answer to these questions sales records of virtually all the major car companies have been toppling with unprecedented regularity. Probably more important is the fact retail demand has shown no indication of leaveling off since the new contract agreements that averted a major shutdown of the auto assembly plants.

DROP SHARPLY

Historically new car sales always have dropped off sharply after the end of July. But industry experts say that has become largely a prewar tradition; that it is not wholly true of the postwar era.

However that may be the retail division expects to sell around 800,000 cars between now and the end of July. It probably will have to continue its competitive pricing of the past six months. Probably is will have to continue high tradein allowances.

And after the end of July there will be a drop in factory output. It will be of modest proportions in August. It will become more marked in September. It will be in anticipation of the switchover to new models.

RETAIL STOCK

But a major consideration in the model changover planning will be the size of each car maker's retail inventory at the time. Almost unanimously the car makers have been saying their inventories are not large; generally they have said the dealers held stocks sufficient for only from eight or 10 days to three weeks.

If these inventory appraisals are correct the changeover shutdowns will be brief — from two to three weeks. Where stocks of outgoing models are heavy the changeover shutdowns could be stretched out.

Nobody close to the auto industry questions that the new car retailers can sell close to a million cars in the next two months. The total could even run a little higher.

PRICE CUTS

But nobody close to the industry is bold enough to suggest high volume can be continued without price cutting at the dealer level. It is true new models will appear earlier this year than at any time since before World War II. But it is equally true they will carry higher factory-suggested price tags than current models.

There will be styling and engineering changes designed to make the new models more attractive. And there will be several entirely new lines of cars in the higher priced field.

This may influence some would-be car buyers to hold off until the new models appear. But it is exaggeration to say that from a styling, engineering and dollar-value standpoint the present models will be hard to surpass.

GM Retail Sales Setting New Highs

DETROIT—Despite a series of sporadic and unauthorized UAW-CIO strikes during the last two weeks which seriously affected production schedules, retail sales of General Motors passenger cars in the United States during the first 20 days of June still achieved an all-time high for that period, Harlow H. Curtice, president of General Motors, announced today.

New car sales by General Motors dealers during the first 20 days of the month totaled 213,700 or 118.2 per cent of the previous high total for that period, which was 180,738 reached in 1953. Each General Motors car division—Chevrolet, Pontiac, Oldsmobile, Buick and Cadillac—achieved their best sales record for this particular period.

A substantial reduction in used car inventory took place in the first 20 days of June with more used cars sold by GM dealers in that period than in any other 20-day period in any month in General Motors history. Total used cars sold by GM dealers in the first 20 days of June was 300,770, compared to the previous high of 288,761 sold in the first 20 days of May 1955.

The new car sales for the first 20 days of June brought the 1955 total to 1,811,299, the highest in GM history for that period, Curtice said. It was 132.6 per cent of the previous best year-to-date record, set in 1950.

Ford Ends Production of '55 Lincoln Models

DETROIT (AP)—The Ford Motor Co. has shut down production of 1955 model Lincoln and Lincoln Capri cars and all on hand will be delivered to dealers within the next week.

Announcing this today, Ford's Lincoln Division said its 1956 models will be introduced early this fall."

Pontiac Sales Higher in 10 Day June Period

Pontiac sales during the second 10 days of June were 90 per cent higher than sales during the same period last year and the highest for this June perios in the division's history, Robert M. Critchfield, general manager said yesterday.

During the period, 15,210 new units were sold, Critchfield reported.

Shareholders OK Briggs Stock Buy

DETROIT (AP) — Stockholders of Briggs Manufacturing Co. approved yesterday the purchase of 148,073 shares of the firm's $3.50 per value common stock from estates of the late Mr. and Mrs. Walter O. Briggs.

* * *

The shares, to be returned by the company to the status of authorized but unissued stock, were bought at $21.14 each—the average of all Briggs shares traded on the New York Stock Exchange in the last two weeks. Total cost to the company was $3,126,263.22.

The purchase was proposed in a proxy satement last May 25.

Stockholders re-elected all directors, who in turn re-elected all officers, including W. D. Robinson, chairman, and Everett E. Lundberg, president. Walter O. Briggs Jr., a son of the firm's founder and president of the Detroit Tigers of the American League, was among the directors re-elected.

Annual crop loss for tobacco in the United States is about 396,000,000 pounds.

NOTICE TO BIDDERS

Sealed proposals will be received by the Board of County Road Commissioners of the County of Oakland at their offices, 550 S. Telegraph Road, Pontiac, Michigan until 2:00 o'clock, p.m. Eastern Standard Time, July 7, 1955, at which time and place they will be publicly opened and read for furnishing the following:

Corrugated Metal Pipe Arches
2 pieces of 7'8" Span, 5'5" Rise, Length 36' top and 46' bottom with 1½ to 1 bevelled ends.
1 piece of 14'10" Span, 9'11" Rise, Length 36' top and 63' bottom with 1½ to 1 bevelled ends.

Information, bidding blanks and specifications may be obtained upon request.

All proposals must be plainly marked as to their contents.

The Board reserves the right to reject any or all proposals or to waive defects and to accept the proposals that, in the opinion of the Board, is in the best interest and to the advantage of the Baord of County Road Commissioners of the County of Oakland, Michigan and of the County of Oakland, Michigan.

Jessie, age 70, beloved wife of Mr. John Kahler, dear mother of Mrs. William (Edna) Deary Jr., dear sister of John Larson, Miss Jennie Larson and Mrs. Dora Gorman. Funeral service will be held Sunday, June 26th at 2 p.m. from the Huntoon Funeral Home with Rev. Paul Havens officiating. Interment at Fowler, Indiana. Mrs. Kahler will be sent to the John Hooker Funeral Home, Fowler, Indiana. Sunday evening. Arrangements by the Huntoon Funeral Home.

MAYES, JUNE 24, 1955, MRS. Georgia, 83 Jackson Street, age 82, beloved wife of Mr. Frank Mayes, dear sister of Mrs. Evelyn Littlejohn and Mrs. Irene Nichols. Funeral service will be held Tuesday, June 28th, at 2 p.m. from the New Hope Baptist Church with Rev. F. B. Reed officiating. Interment at Oak Hill Cemetery. Mrs. Mayes may be seen after 1 p.m. Sunday at the Frank Carruthers Funeral Home.

Card of Thanks 1

WE WISH TO THANK OUR friends, neighbors and relatives, Pastor Anderson of Christ Lutheran Church, Donaldson-Johns Funeral Home, the staff at General Hosp. and the employes of Newstead's Drug Store for their kindness during the long illness and recent death of our father and husband William Werner. Mrs. William Werner and family.

In Memoriam 2

IN LOVING MEMORY OF WILlard Hall who passed away 8 years ago today June 25, 1947.
A light is from our household gone
A voice is vacant in our home,
Which never can be filled
Some may think you are forgotten,
Though on earth you are no more,
But in memory you are with us,
As you always were before
Sadly missed by children and grandchildren.

I WISH TO THANK OUR FRIENDS and neighbors for the kindness and sympathy during the illness and death of my wife, Florence Gerard. Special thanks to Father Rademacher for his comforting words. Roy Gerard.

LAKE PRIVILEGES
Here is the perfect small home for those who only need 2 bedrooms. This cute stone house is surrounded by towering oak & elm trees. Located just a short distance from a good beach on beautiful Walters Lake. Other features of this dandy little home are pastel green basement walls with double laundry trays and fireplaces in living room and basement. This home is also equipped with automatic oil fired hot water heat, storm windows and screens. If you want quiet peaceful living, just 9 miles from Pontiac, then here it is. All this can be yours for just $7,450. Why not call for appointment to see this little gem right now?

A Terrific Lakefront Buy!
Here's a spot where living will take on a new meaning! No doubt you've heard the expression of "Love at first sight" which is how it impressed us when we first drove into the yard. Oh, how the children will love the fenced lot which is 75x170 ft. and the sand beach which features cement breakwater, no drop-offs, which means safe swimming for the young bathers. A most attractive house of 5 cheerful rooms and an enclosed sun porch overlooking lake with a view hard to duplicate. There are 2 bedrooms, one of which is carpeted, 2 living rooms. Also one has wall to wall carpeting. The other has a picture window overlooking a beautiful well-landscaped lot. The handy kitchen leads to full basement which features workshop and storage space for your boat. The yard is gorgeous with its evergreen trees and other beautiful landscaping. We also have a 1 car garage. Full price $13,900, with $3,500 down. Call now for appointment. M7

Navy Questions Soda Pop Mix

Buying Agent Insists $177,660 Purchase Was Best on Market

SEATTLE (AP) — The $177,660 worth of soda pop mix he bought for the Navy in 1952 was a high grade product and the manner in which it was purchased above criticism, John E. Moeller insists.

Moeller, now a salesman but then a Navy lieutenant commander in Seattle, was named with two other persons as the principals in the deal by which the 2,600 cases of mix were purchased for 13 Navy ships.

* * *

William L. Ellis, head of investigations for the Government Accounting Office, told the House Government Operations subcommittee the deal was an example of waste in military buying.

* * *

He said it had been supplied even though ship stewards "showed a distinct disinclination to take the stuff aboard."

Not so, said Moeller at his job here, and added there was nothing wrong with the Navy's purchasing system. "It's the finest in the world," he said.

Moeller said the pop mix was purchased for troops traveling to and from Korea on Military Sea Transportation ships.

* * *

"The mix was requisitioned, processed and purchased in a normal way. The statement that I waited until my commanding officer left is entirely false. It was just a routine matter," he said.

* * *

He insisted the mix was a high grade product "which still is selling as popular merchandise." It was, he said, the same product purchased in San Francisco, New York and other ports.

He said it was not true that he had declined, as testified in Washington, to provide investigators with information they desired but he just didn't have money enough to finance a trip to Washington.

Lensman Snaps Ike, His 10th President

WHITEFIELD, N.H. (AP)—Presidents come and go but 75-year-old Arnold Belcher of East Kingston always seems to get around to photographing them.

* * *

When the President posed exclusively for Belcher yesterday at Profile Lake while on a New England tour it marked the 10th president the former Boston Globe photographer has snapped.

* * *

The President was asked to pose after being told that Belcher had photographed nine previous presidents.

"Wonderful," the President was quoted as saying as Belcher took his picture.

$64,000 Candidates

New Show Contestants Are Carefully Screened

By WAYNE OLIVER

NEW YORK (AP)—CBS' $64,000 Question, hottest new show in TV, is so lucky on having interesting contestants it might appear they were carefully screened—and they are.

Louis G. Cowan, who owns the show, and executive producer Steve Carlin make no secret about that. But they say contestants are chosen for their human interest value rather than on the basis of whether they're likely to be able to answer a lot of difficult questions.

* * *

The story of the contestant is as important as the amount of money they're trying for, they say.

Thus it was that the first big winner, Redmod O'Hanlon, was quite a story himself. He's a New York City policeman, a Shakespearean scholar, holder of a master of arts degree and the father of five children.

He quit with $16,000 rather than risk it trying for $32,000.

Contestants are chosen from two sources—letters sent to the program and cards distributed among the studio audience. Those picked from the audience won't be on the night the choice is made. If they pass the screening, they are brought on later.

Usually 25 potential contestants are picked for each show but after three screenings the number is reduced to five. Those five are told it's unlikely more than three will have a chance to go for the money.

Actor Wants Libel Suit in California

SANTA MONICA, Calif. (AP) — Robert Mitchum's lawyer wants the actor's million dollar slander suit against Confidential Magazine to be tried in California.

* * *

Atty. Jerry Giesler asked court permission yesterday to travel to New York to obtain statements from the magazine's executives. He said he hoped this move would force the magazine to trial in California courts.

The magazine has asked that the summons be dropped, on the grounds that the publication doesn't do business in this state.

Superior Judge Orlando Rhodes took the matter under submission.
