Wins Title Hard Way

CHAMPS' CHAMPION — The champion of champions had to gain his National Skeet Shooting Association title the hard way Wednesday at OCSC's skeet fields. Lew Gordon (above) veteran, outshot two others in a shootoff to win the event with 125 straight targets. With R. V. Thomas, Akron, O. and Charles E. Boardman of Philadelphia he had tied with 100s. Gordon is from Texarkana, Ark., the town that rests on the state line of Texas and Arkansas.

Shigemitsu Speaks in New York

Greater Trade With Reds Desired by Jap Minister

NEW YORK (INS) — Japanese Foreign Minister Mamoru Shigemitsu today called for relaxation of the U. S. embargo of the China mainland to allow greater trade with Chinese Communists.

He said his country contemplates "somewhat longingly the vast potential market represented by continental China."

The foreign minister spoke in New York on the tenth anniversary of the day he signed the surrender on the battleship Missouri to end World War II.

He termed "unlikely" and "fatal" any possible fraternization by Japan with the Communist powers seeking a neutralist course.

Shigemitsu addressed a luncheon at the Waldorf-Astoria given by the Far East-American Council of Commerce and Industry, the Japan Society and the Japanese Chamber of Commerce of New York.

The speech followed his arrival from Washington where yesterday he concluded a three-day conference with Secretary of State Dulles.

The speech took up several points covered in the Washington talks.

TREATY OUTMODED — He maintained Japan "has come to a stage where I fear" the defense arrangements under the three-year-old security treaty "is becoming outmoded."

The communiqué issued after his talks with Dulles provided for replacement of the present pact under certain outlined conditions.

In his plea for a new treaty, the Foreign Minister said:

"As a truly independent nation we would like to place the present unilateral defense relationship between our countries on a new basis founded upon the principle of mutuality."

He told the New York audience there is "great concern" and "certain doubts" in his country because of talk of restrictive measures by the United States against Japanese goods. In this direction he continued:

"We prefer trade to aid from the United States and ask only a fair chance at access to the markets of the world. We need to bring our trade into balance at the highest possible level in order to exist as a self-supporting democracy."

Shigemitsu also reiterated Japan's desire to join the United Nations and termed it "mortifying" that his country has not been admitted to U.N.

Leaving for North Alabama Sept. 3. Want 5 riders to share expenses. 266 Raeburn.

Peron Tightens Powerful Grip Upon Argentina

Vows Death to Foes as He Withdraws Offer to Leave Presidency

BUENOS AIRES (INS) — President Juan Peron, vowing death to all who stand in his way, moved to tighten his 10-year-long grip on Argentina today.

With the shouts of more than a 100,000 of his supporters welling up from the Plaza de Mayo last night, Peron withdrew the offer to resign that he had made some 10 hours earlier.

Speaking from the balcony of Government House, the President gave virtually direct orders to his Peronista supporters to kill any member of the opposition caught plotting against the government.

In a strongly worded speech, Peron declared:

"If any person is caught in the act of attempting to create disorder, he may be killed by the act of attempting to create any Argentine. This order to all Peronistas is directed against those who conspire or incite disorders as well as those who actually execute crimes."

Peron's request to the Peronist party and General Confederation of Labor that he be permitted to leave office was the signal for a general strike to be called throughout the nation.

With Peron remaining in office, the CGF issued orders last night that work was to resume this morning. By late last night, the city was quiet again and the streets deserted.

FIVE WILL FALL — The 59-year-old President promised his followers that for every one of them that fell in violence with their opponents, "five of them will fall."

The climactic rally and speech came some 2½ months after the same plaza was turned into a battleground by a revolt of naval officers. That rebellion, which cost 200 lives, was squelched by the army, which remained loyal to the President.

Six weeks ago Peron had offered a political truce to his opponents. Last night, he charged the opposition with breaking that truce by their violent acts, and declared:

"We have to answer the violence with greater violence."

Peron's appearance was his first at a political rally since the June 16 revolt. It also was the first time the Peronista-dominated CGT had called a strike and summoned its members to a demonstration in favor of the President.

Ten years ago this fall, similar action by the workers whom Peron had organized brought him back into the government after he had been forced to resign.

Whatever Peron's main aim was in planning the demonstration it served to indicate that his influence among his supporters was unshaken. And not all who clamored last night for his continuation in power were members of his own party.

One 7-Hour Day Coming

LOS ANGELES (INS) — Men will work one seven-hour day a week 100 years from now and receive the same pay they now get for a 40-hour week, says Joseph Prendegast, executive director of the National Recreation Assn. of New York. He spoke before the California Recreation Commission yesterday.

Diplomats feared an all-out war might erupt momentarily. In London a foreign office spokesman said Britain and France were in contact with the U.S. on the situation.

Hundred Grand Finish

NASHUA BY SIX-AND-A-HALF — Swaps, the odds-on betting favorite, eats the dust as Nashua, Eddie Arcaro up, drives across the finish line at Chicago's Washington Park to win by six-and-one-half lengths. Nashua, who returned his backers \$4.40 for \$2, negotiated the mile and a quarter distance in 2:04-1/5 in winning the \$100,000 winner-take-all race. Willie Shoemaker is aboard Swaps. A crowd of 35,262 watched the race.

Appointments Announced in Pontiac School System

A complete list of appointments to upper level posts in the Pontiac School System was announced today by Dr. Dana P. Whitmer, school superintendent.

Dr. Russell Curtis has been appointed coordinator of secondary education. Curtis comes from a similar post in Janesville, Wis.

Paul Sullivan has been named the school system's first psychologist.

Thomas Dodson is the new director of athletics and physical education.

Richard Fell is in charge of vocational education, including business and home-making courses.

Francis Staley, former Eastern Junior High School principal, is new principal at Pontiac High School.

A former junior high principal in Urbana, Ohio, Kenneth Nagley, replaces Staley at Eastern.

Mrs. Mary Killian, previously a teacher at Webster Elementary, has the principal's post at the new Lake Street Elementary opening this fall.

William Wright, principal at Whittier Elementary, has been named to the same post at the new Linda Vista Elementary. Classes for the school will be held at Emerson Elementary until the new school is built.

Replacing Wright at Whittier is Mrs. Vida Walker, a former elementary teacher.

The new principal at Crofoot Elementary is Horton Southworth, formerly a principal at Bellevue. W. W. Abbott fills the assistant principal's position at Washington Junior High School.

Ninety-three teachers have been hired as replacements and for new

To Teach Bike Riding

GAINESVILLE, Fla. — Proper riding of bicycles and motor scooters will be taught Gainesville schoolchildren this fall. The course is sponsored by the Gainesville Citizens Safety Council.

Two days later, though, the downtown thermometer recorded a sizzling 100 degrees, establishing the high mark for the year.

Cool air moving in from the west caused the temperature to plummet 30 degrees that evening

Chrysler, UAW Agree to Terms of New Contract

Widespread Walkouts Hit Plants; Settlement Follows GM, Ford

DETROIT (AP) — Chrysler Corp. and the CIO United Auto Workers reached a contract settlement today, six hours after widespread strikes hit Chrysler plants in six states.

The UAW immediately sent out back-to-work orders to all union locals.

There were indications, however, that work disruptions among Chrysler's 139,000 employees would mar production throughout the day.

The settlement was modeled closely after Ford and General Motors agreements reached in early June. It completed the lineup of the auto industry's "big three" companies on revolutionary, new layoff pay plans.

Like the Ford and GM plans, the Chrysler agreement will guarantee laid off workers 60 to 65 per cent of regular take-home pay for up to 26 weeks of idleness.

It also provides wage increases of six cents an hour to all employees for each of the three years in skilled classifications.

Also included in the new agreement were clauses to:

1. Boost pension benefits up to a maximum of about \$250 a month, including social security.
2. Eliminate wage differentials between the Detroit area, biggest concentration of Chrysler workers, and other parts of the country. Chrysler said it thus became the first big auto company to do this. Chrysler has plants in Michigan, Indiana, California, Delaware, Kansas and Georgia.
3. Improve hospital-medical and insurance coverage.
4. Liberalize non-economic portions of the contract, which among other things gives the union for the first time the right to strike over production standards.

A dispute over the effective dates of the layoff pay plan and other economic benefits snagged the settlement beyond the midnight strike deadline and until dawn.

The new contract will expire June 1, 1958. This will bring the union's contract negotiations to a head at all "big three" companies at virtually the same time.

Negotiations headed toward a climax at American Motors with the Chrysler signing. The UAW's contract there expires at midnight tonight. There have been reports that a showdown at American Motors was held up pending developments at Chrysler.

The Studebaker division of the Studebaker-Packard Corp. was shut by a strike in South Bend, Ind., today.

Bendix Aviation Corp. and the UAW were continuing negotiations in Detroit, with 20,000 out in Bendix plants in five states.

Weather Ideal for Fourth Day of Skeet Action

By H. GUY MOATS

Pontiac Press Sports Editor Under fair skies and with light wind, the National Skeet Shooting Assn. championship got off to the fourth day of competition with bright prospects.

The only squad completing its round of fire at 11:30 a.m., the Puerto Rican police team fired an average of better than 90x100.

Top count for the San Juan crew was a 98 turned in by Detective William Fernandez. Other scores for the Puerto Ricans included Captain Alberto Guerrero's 97x100, Jaime Loyola's 93x100, Angel Gonzales' 87x100, and Captain Rosario Loyola's 88x100.

Competition today was for the national 20 gauge championship, last preliminary to the national open all gauge event which begins Friday. This marks the last event in the tournament, which concludes Sunday.

Still Need Flood Funds

NEW YORK (INS) — The Red Cross says it still is shy 2½ million dollars of its 10-million goal for Northeast flood relief. The organization announced yesterday that emergency contributions total \$7,481,926 to date.

Consultant

MURRAY D. VAN WAGONER

Name Area Man as Turnpike Aide

Murray Van Wagoner Is Consulting Engineer for Toll Road Group

George N. Higgins, chairman of the Michigan Turnpike Authority, today announced the appointment of Murray D. Van Wagoner, of Birmingham, as consulting engineer for the authority.

Van Wagoner is a former governor and state highway commissioner.

Higgins said he and Van Wagoner will tour the route of the proposed north-south turnpike from Bridgeport, near Saginaw, to Rockwood on the south. The inspection, already made once by Higgins, will begin at the southern end, with special attention given to Dearborn and Detroit, the chairman said.

"I wanted somebody local who knows the problems and who has built roads to look over the route," said Higgins. "Maybe he will see something that I don't see or spot something different."

"I want to be ready when the State Supreme Court makes its decision that this is the route. I want to make sure it is correct."

Custodians Try Anything to Keep People Away

Boise, Idaho (INS) — The State Land Department placed signs yesterday around the new asphalt surface of the government parking lot near the statehouse in downtown Boise. They read: "State land keep off. Remove no timber. Graze no stock without permit. No mining."

Statehouse custodians wanted to keep people off the asphalt and the signs were the only ones available.

Romans Have a Holiday—Joe DiMaggio's in Town

ROME (AP) — Swank Donet's sidewalk cafe today looked like Yankee Stadium after Joe DiMaggio had doubled with the bases loaded.

Joe was at the cafe. So was U. S. Ambassador Clare Booth Luce and Gino Prato, the Italian-born wizard on opera lore who recently won \$32,000 on a quiz show.

Mrs. Luce had invited Prato and DiMaggio to join her in a cup of coffee at the cafe, patronized by the sophisticates and aristocrats of Rome. The party was theoretically in honor of Prato, who arrived yesterday.

It turned out to be a Yankee fan and player reunion.

Prato, who was virtually put out in right field, once Joe and Mrs. Luce arrived, grabbed Joe and bussed him soundly on the cheek.

"I've been waiting to do this all my life," the gray-little shoemaker declared. "We're all Yankee fans." That included his wife, daughter Lorraine and Eugene Joanides, the son-in-law, who came with Prato to see his 92-year-old father and home village of Statali.

More than a score of photographers swarmed around the group, who actually drank orange juice.

One matronly American tourist jumped up and started yelling:

"Hey, Joe DiMaggio."

That started it.

"Joe, Joe, Joe," echoed in and around the umbrella-covered tables while everybody tried to get next to Joe. A polite patter of applause greeted the arrival of the ambassador.

She turned out to be a Joe DiMaggio fan, too.

"I'm a down-the-line Yankee fan," she said. "I've always been. No, not a Dodger nor a Giant. I'm a Yankee."

DiMaggio said "Yes, we talked some baseball."

Afterward Mrs. Luce took the party to the embassy, about 100 yards away.

Autumn Touch in Air

Hot-and-Cool August Bows Out

A touch of autumn was in the air as September bowed in today, with the weatherman predicting fair skies and cool temperatures through Friday.

Daytime temperatures will remain in the 70s, while the mercury will drop into the low 50s during the night, the Weather Bureau said.

August ended on the same cool note with which September is beginning. But it didn't begin that way. The first five days of the month saw the temperature climb well into the 90s.

A cool wave moving in on the

6th eased things and pleasant temperatures stayed through the 15th, when the mercury crept up to the 86-degree mark, heralding another hot spell.

Wilson, Earl 56
Women's Pages 28-31

Highs of 90 were registered on the 16th and 17th and on the 18th the mercury hit 93 degrees. An 83-year record for the date was smashed on the 19th when the temperature soared to 99. That reading also set a temporary high for the summer.

Two days later, though, the downtown thermometer recorded a sizzling 100 degrees, establishing the high mark for the year.

Cool air moving in from the west caused the temperature to plummet 30 degrees that evening

and summer blankets were brought out of storage in many homes.

Generally pleasant weather, interrupted by showers and thunderstorms, continued through the 29th when the mercury again edged into the 90s for a one-day stand. It eased back to high readings in the 70s to end the month gently.

Yesterday, the high was 70 and the low 54 degrees. A total of 2.36 inches of rain fell during the month.

HELLO—A young woman at the Resi Ballroom has a talk with a young man at another table. Each table has a number which can be dialed. The management has a censor to guard against improper exchanges.

Nitrogen Fertilizer Use Rises Sharply

DES MOINES—In the past 15 years there has been a phenomenal growth in the use of nitrogen fertilizers in the United States. Annual consumption of this important plant nutrient rose 371 per cent—from about 384,000 short tons in the 1938-39 fiscal year to 1,810,000 tons in 1953-54. In each year since 1950 the quantity used was 11 to 23 per cent higher than in the previous year.

With a single exception—1951-52—the consumption increased in every year in this period and in most of the years would have been larger had supplies been available.

During the same period world consumption increased 127 per cent—from 2,517,000 tons to 5,702,000.

Two American hens now average as many eggs each year as the laying capacity of three hens 25 years ago.

Phones Assist Bashful Youths

Giant Berlin Nightclub Helps Shy Boys Meet Girls by Unique System

BERLIN —Soldiers and other Americans in Berlin like to visit a mammoth night club that goes out of its way to help boy meet girl. It's the Resi Ballroom (pronounced "racy") and it's a favorite spot for both GIs and tourists.

"By the numbers," can have unpleasant meanings for GIs when they recall the drill sergeant's chant. But the numbers at the Resi stand in lights above each of the tables and they can help a lonesome man who wants to talk to that comely miss several tables away. He can dial her number by telephone.

For the more bashful, there is pneumatic tube system over which coy notes may be "mailed" from one table to another.

But the message must not be naughty. It goes first to a central office where it is read by a woman censor. If the note passes, it is relayed by pneumatic tube to its table address.

The Resi is perhaps best known for its water show, a multi colored display of thousands of water spouts which are raised and lowered or swayed back and forth in synchronization with symphonic music.

More than 2,000 gallons of water a minute are pressured through these jets. The changing light effects are produced by 100,000 colored lights located behind and under the spouts.

The Resi Ballroom draws an average of 650 persons a night during the week and more than 1,000 patrons a night on week-ends.

It was originally established in 1926 by Paul Baatz, a well known speedboat racer. At the time, it was located in the center of Berlin near Alexander Platz, which now is in the Russian sector.

Red Farming—One Man's Opinion

Soviet Agriculture Needs Uptake in Worker Output

(Editor's Note: This is the fourth of six articles in which the dean and director of the University of Nebraska College of Agriculture reports on what he saw during a five-week, 10,000-mile tour of Russian farms areas.)

By DR. W. V. LAMBERT

The use of manpower on Soviet farms is excessive by U.S. standards. The Russian farm worker produces only about one-fifth as much as an American farm hand. This is the greatest contrast we noted between the agriculture of the two countries.

The average American farmer and his family will do most of the work on a 160-acre farm. This includes management, bookkeeping and the many other chores required in operating a modern farm—as well as the physical labor.

Direct comparisons are not possible since all Soviet farms are large-scale enterprises oper-

ated either by the state or as collectives.

The collectives are managed by a chairman approved by local party and government authorities and elected by the farm members.

The full-time members of the collective receive cash and produce as their share of the profits.

RUN LIKE FACTORIES

State farms are run like agriculture factories under a government appointed manager. The farm laborer receives a monthly wage based on a piecework scale.

Some comparison is possible, however, on a manpower-per-acre basis.

Eight hundred and nineteen persons work on one highly-diversified collective farm we visited. This is the equivalent of one person for each 14.4 acres.

This includes, however, workers

at the farm's brick and lime kilns, the recreation center and other smaller enterprises on the farm.

Figuring that not more than a hundred of these people were working on such jobs the year around, each farm worker was still operating only 16.3 acres.

SPECIALISTS ON TRACTORS

But this figure doesn't include the tractor and combine operators and mechanics from the state machine-tractor station (MTS) who do all of the farm's mechanized planting, cultivating and harvesting.

Another collective of 36,250 acres has 2,500 workers. Allowing for work in enterprises not strictly farming, each worker was handling the equivalent of 16.18 acres, not counting the MTS personnel.

A well-managed, state-operated

grain farm of nearly 45,000 acres which we visited had 620 regular employees and 500 seasonal, who worked five to six months a year.

Assuming the seasonal workers equalled 200 full-time workers and estimating generously that 150 of the permanent work force were not directly engaged in farming, each worker was handling about 67 acres.

Soviet state farms own and operate their own tractors and mechanized equipment.

Swedish Airlines Safe

STOCKHOLM — Swedish scheduled commercial aviation in 1934 showed a record of no fatalities for the sixth consecutive year. Five deaths were recorded by non-scheduled airlines. Out of 59 air-due to the human factor.

line accidents, 46 were found to be

This farm represented about the best in management that I saw.

On the basis of these comparisons, it is apparent that as a whole the average Soviet farm laborer handles only 15 to 20 per cent as much land as each American farmer.

The U.S. farmer is able to do this because of greater mechanization, smaller administrative overhead and far less use of manpower. Fifty to sixty per cent of the laborers on the farms we have visited have been women.

Perhaps the most significant factor is the difference in the two systems of farming.

The American system demands great efficiency of every farmer if he is to survive in competition with other farmers. That incentive is lacking in the Soviet Union.

The Soviet government is aware of the inefficient use of manpower on its farms and is taking several steps to increase output per worker.

It will be interesting to observe the extent to which the USSR can make the use of farm manpower more economical.

The middy bows onto the night-time scene as Christian Dior introduces his new "Y" silhouette. A perfect example of the new line, the dinner gown is fashioned of lustrous orlon-and-silk satin. The white middy blouse, tied in self bows at each shoulder, puffs over the hips in a soft pouf. It tops a slim sinuous sheath skirt of the same fabric.

Tackle Jobs With All Your Might

By ANNE HEYWOOD

The most interesting thing about growing older is the way you begin to re-evaluate things.

For example, the tired old virtuous clichés, which used to irritate me to death in my youth, are beginning to make more and more sense to me now.

Take this one: "Whatever your hand finds to do, do it with all your might."

When Mother used to hand me that one, I'd think, "Oh, honestly!" But now I see how important it is—not only for virtue,

but for happiness, health and even good looks!

Two women I know illustrate this point, beautifully.

Helen does not practice that little rule of thumb, but Esther does. They are both in their early 30's—within one month of the same age.

But Helen literally looks old enough to be Esther's mother. And her life is just as unhappy as Esther's is happy.

HOUSEHOLD DUTIES

Both are housewives and neither of them is particularly crazy about household duties.

However, Esther does them as well and as cheerfully as she can. She gets them done in good time, with no wear and tear on her nervous system and no stabs from her conscience.

In the afternoons—when her housework is finished—she has a part-time job, in a doctor's office, which she loves. Furthermore, it brings in extra money which the family needs.

On the other hand, Helen makes a lifework, quite literally, of hating housework.

She drags through it, doing it badly, complaining and talking forever. She wears sloppy old

housewives, claiming that she never has any time for herself.

NEVER HAS TIME

She never gets finished before her husband arrives, so she just tosses some terrible dinner together at the last minute. They need extra money, too, but Helen never "has time for a job."

There is no real difference between the two, except for that basic concept, "Whatever your hand finds to do, do it with all your might."

Esther does, Helen doesn't. But the difference it makes is tremendous, and affects everything about both their lives.

(Copyright, 1955)

Couple Wed in St. Johns

Gladioli, pompons and fugi chrysanthemums in shades of rust and ivory decorated the Symmonds home in St. Johns for the marriage of Nancy Symmonds and Glynn Barnett.

The bride is the daughter of Dr. and Mrs. Charles S. Symmonds of St. Johns, and Glynn is the son of Mr. and Mrs. U. H. Barnett of Norton avenue.

The bride's gown of Wedgewood blue lace was ballerina length. She carried a colonial bouquet of white chrysanthemums and yellow roses.

Her only attendant was her sister, Mrs. Merrill A. Wilson of Des Moines, Iowa. She wore a rust linen dress accented by a bouquet of yellow chrysanthemums and yellow roses.

Guy Barnett served as best man.

For a reception held at Walker's Restaurant in St. Johns, the bride's mother wore a pale blue linen dress. Mrs. Barnett wore a pink nylon dress. Both mothers chose corsages of white chrysanthemums and pink roses.

Both the bride and bridegroom are graduates of the University

of Michigan where he is at present studying in the Law School.

The bride chose a dark brown suit with white accessories and wore a corsage of white carnations and yellow roses for their honeymoon on Lake Michigan. They will reside in Ann Arbor on their return.

Verla Sturgeon Feted at Shower

A linen shower was given for Verla Lee Sturgeon Tuesday evening by Mrs. Joan Morang of Bramble drive. Verla, the daughter of Mr. and Mrs. Shelby Sturgeon of Sanford drive, is the bride-elect of George Howell.

He is the son of Mr. and Mrs. Raymond Howell of Pontiac drive. The couple plans an Oct. 8 wedding.

Invited guests were Mrs. Sturgeon, Mrs. Howell, Mrs. Robert Travis, Mrs. James Mazza, Mrs. Arthur Featherstone, Mrs. B. M. Pitchford, and Mrs. John Putnam.

Completing the guest list were Mrs. Jack Albright, Mrs. Joe Zaffina, Gwen Lehmann, Mrs. Lyle Ross, Doris Jones and Mrs. Lillian Cummings.

Marlene Hartmann Weds

Marlene Hartmann, daughter of Mr. and Mrs. Harold J. Hartmann of Monterey boulevard, became the bride of David J. England, the son of Mr. and Mrs. David W. England of Logan, Utah, last Friday.

Parents of the couple and close relatives attended the double-ring ceremony performed in the Temple of the Church of Jesus Christ of Latter-Day Saints, Idaho Falls, Idaho.

The bride wore a waltz-length gown of imported Chantilly lace and net over white slipper satin. Her fingertip veil was joined to a tiara of lace with seed pearls and sequins. Her bridal bouquet was of white roses centered with a white orchid.

Bridesmaids Nancy Lundquist, Judy Hartmann and Patricia Tolman wore dresses of net and lace, in pastel colors. Julie Ann England and Helen Marie Lundquist wore teal green frocks for their duties as flower girls.

Mahlon Lundquist served as best man.

For the reception held in the evening, Mrs. Hartmann wore a blue lace and crepe dress. Mrs. England wore a gown of pink linen and lace. Both mothers chose carnation corsages.

The bride wore a gray suit with white accessories for her going away costume. After honeymooning in Yellowstone National Park, the newlyweds will make their home in Logan, Utah, where he will enter Utah State College in the fall.

Hawthorne Board Outlines Programs

The executive board of the Hawthorne PTA met Wednesday evening at the home of its new president, Mrs. Ronald Carr, on West Colgate avenue.

The theme for the coming year will be "Understanding the Educational Program of Our School." Each month's program was outlined under that theme.

Committee chairmen were appointed to handle the popcorn sales held each Friday during the school year. The first one is scheduled for Sept. 16.

The fall program will get under way with a family picnic to be held Sept. 22 at 6 p.m. at Hawthorne School.

Bentley Opposes Foreign Policy

Claims Geneva Meeting Was Republican Mistake Which Aided Soviet

CHICAGO (INS) — Rep. Bentley (R-Mich) admits he has opposed President Eisenhower's foreign policy more often than he's supported it, but says conditions would be worse if the Democrats returned to power in 1936.

Bentley, a member of the House Foreign Affairs Committee, told a meeting of women of the Abraham Lincoln National Republican Club that the Geneva Conference was a mistake.

While we proved we want peace at Geneva, he said, he fears the propaganda effects of President Eisenhower "sitting down with the murderers and tyrants of the Kremlin and giving them an aura of respectability."

Bentley said he had opposed about 61 per cent of the President's foreign policy program in Congress. He added, however, he had approved three-fourths of his domestic program.

"A national political victory for our opposition would present far worse consequences than the present situation," Bentley said.

Steel Stockholders to Act on Mortgage

DETROIT (U) — Detroit Steel Corp. shareholders will meet Sept. 16 to act upon plans for refinancing the company's first mortgage note to the Reconstruction Finance Corp.

M. J. Zivian, company president, announced that Detroit Steel has filed a registration statement covering a million dollars in first mortgage sinking fund bonds, due in 1970, and 403,135 shares of common stock.

A syndicate headed by Halsey, Stuart & Co. will sell the bonds. The additional shares will be offered to shareholders on the basis of one share of new stock for each five shares held.

The program also includes six million dollars of 6 per cent cumulative preferred stock not covered by the registration statement. The preferred stock will be issued to the RFC as partial payment of the existing \$38,180,000 debt.

Bob Considine Says:

Girl Tank Drivers Beautify GM Powerama

CHICAGO (INS) — Came out here to look at two beasts of burden — they call them some crazy names like Swaps and Nashua around the multi-million dollar exhibition of the monster that threatened to render the horse extinct many years ago, the engine.

This would be General Motors "Powerama," a display of everything that industrial colossus makes except that for which it is best known, the automobile.

Pitched on the memorable "old Century of Progress" fairgrounds along the lakefront, the exhibit of power covers 1,000,000 square feet and includes everything from the atomic cannon (powered by GM diesel cabs) to the similarly powered 10-car 103 m.p.h. streamlined "Aerotrains" which soon will be in service on the New York Central and Pennsylvania Railroads.

Strange things happened at "Powerama" during the press review. A hard-bitten tank sergeant, toting around the tank proving grounds in a 50-tonner that could sink a battleship, passed a 49,000-pounder (M-42 Duster) and sneered, "Lady driver!"

Auto Parts Makers Protest Against Big 3

WASHINGTON (U) — A spokesman for independent car parts makers has testified that three big automobile manufacturers "set and establish the price for almost every part and replacement" needed to repair cars and trucks.

Harold T. Halfpenny of Chicago, counsel to the National Standard Parts Assn., told Senate investigators this occurs while the Federal Trade Commission (FTC) "stands idly by."

Halfpenny said "three major vehicle manufacturers dominate" their own industry and the sale of parts to repair the vehicles.

750 French Tourists Welcomed in Russia

MOSCOW (U) — The Soviet Union, already swarming with foreign visitors including U.S. congressmen and a Supreme Court justice, welcomed today 750 French tourists.

The French group reached Leningrad aboard the chartered Polish liner Batory. Russian crowds gathered around them, singing the Marseillaise, the French national anthem, and asking for autographs.

Sure enough it was; Peggy Taft, a lissome Chicago nightclub singer, Peggy is one of three girls hired to drive the big Army tanks between now and the time the show closes Sept. 25 and goes on the road. While Peggy gave the bum a swish of her rear armor (two 40mm's) I talked to the other members of one of the oddest and certainly most beautiful troupe ever hired.

They turned out to be Joby Johnson, 17-year-old singer who goes to Amundsen High in CHI when not driving a tank, and beautiful Muriel Carroll, a big do-eyed doll who usually does fashion. The William Morris Agency found this curious chore for all.

"We thought they just wanted

us to make the tanks as decorative as possible," Muriel said, with a note of helplessness that belied the way she handles a Siegfried Line buster.

"But after we got over our surprise, things were okay," she went on. "They're not hard to drive. There's less traffic, of course, and we feel that nobody's going to get in our way."

The girls drive their own cars on the side and swear they've never had any trouble with motorcycle cops, traffic lights, parking, or the law in general.

JUST MEN DRIVERS

"The only trouble we've had is with men drivers," La Carroll said, throatily.

The Tankettes wore creamy white shirtwaists on the low-cut side. Properly to display their charms, GM engineers built extra steering devices on top the tanks.

Out of an armored lower hatch on the "Duster" stuck a solemn helmeted head, perhaps decapitated, but wearing the shaken expression of a driving instructor. Things, the head seemed to say, were never like this at Baslogne.

Other girls were swimming in a truck. No kidding. This was a 50-ton truck with a carrying vat bigger than most home pools. Capt Stubbs, the Cecil B. DeMille of such vast exhibits, promptly turned it into the most expensive bathtub since Nita Naldi's.

Stubbs made some interesting discoveries while plowing up the old World Fair site for this one. Came across two 36-inch gas mains which not even the city of Chicago could tell him about. Just 36-inch gas mains, headed nowhere.

City fathers are trying to get in touch with Big Bill Thompson by ouija. There were a lot of conduits left in the ground but no power. He believes he unearthed a gross of Sally Rand's old bubbles.

Anyway, don't miss the great missiles, the incredible earth-movers, and oil rings, the Kitchen of Tomorrow, Convair's pogo-stick plane, the cotton gin, the submarine, the shrimp boat and—figures—the dancing tonight.

Detroit to Reinter Stevens' Remains

DETROIT (U) — The remains of Gov. Stevens T. Mason will be reinterred in downtown Capitol Park some time in September, the Detroit Historical Commission has announced.

Over a period of months there had been dispute over whether the remains of Michigan's first governor should be kept in Detroit, where he was first laid to rest, or taken to Lansing.

The Stevens tomb had been removed during a construction job in the park.

After objections from Detroit, a Lansing group gave up the idea of interment at Lansing.

The Historical Commission said reinterment plans call for a simple ceremony. The 425th National Guard Infantry will provide an honor guard.

U. of M. Printers Buy Cedar Springs Paper

DETROIT (U) — The Cedar Springs Paper Co., one of west Michigan's best-known weekly newspapers, was sold today to Archard C. Gamm and Millard E. Engberg, Ann Arbor printers.

Details of the transaction were not disclosed. The new owners, employed as printers on the Michigan Daily at the University of Michigan, take possession Sept. 12.

Stock Exchanges Help

NEW YORK (U) — Including donations from stock exchange workers throughout the country, a check for \$151,048 was given to the Red Cross today for Northeastern flood relief. Harold W. Scott, chairman of the New York Stock Exchange, presented the check—the largest single gift yet in the Red Cross disaster drive.

The State Fair: It's Tomorrow!

Parade, Beauty Queens, Dancers and Officials Will Open Festival

DETROIT (AP)—It's State Fair Time in Michigan again.

The nation's oldest state fair will open tomorrow morning with a gala three-mile-long parade up Woodward Avenue, Detroit's main street. Nearly 3,000 persons and more than 300 animals will take part.

Participants will include 30 bands, 50 beauty queens from all parts of Michigan, "big-name" entertainers, antique autos, stage coaches and the Holland, Mich., Dutch klompen dancers.

Gov. Williams, assisted by Fair Manager Donald L. Swanson, will cut the ribbon officially opening the fair at 12:30 p. m.

EXPECT 800,000

Swanson said an estimated 800,000 persons are expected to attend the 1953 fair during its 10-day run ending Sept. 11. Fairgrounds will be open from 9 a. m. till 10 p. m. daily and from 8 a. m. to 10 p. m. on weekends.

On display will be 5,000 farm animals, 6,000 vegetable, fruit and other farm products exhibits and 3,500 home arts entries of canned goods, baked goods and needlework.

Entertainment will include two free concerts daily by the U. S. Air Force band, a million-dollar auto show, carnival rides and concessions and performances by singer Joni James, the Mills brothers, the Fontaine sisters, Frankie Laine, Ella Fitzgerald, Roy Hamilton and the Honey brothers.

Pontiac Boys Fined on Trespass Charge

BLOOMFIELD HILLS—Two 18-year-old Pontiac youths spent the night in jail and paid fines of ten dollars apiece yesterday, after pleading guilty before Justice A. J. Richardson on a trespassing charge.

James M. Cullens, 42 Washington St. and Donald E. Kleindl, 98 East Howard St., were picked up Tuesday night on the premises of a home on Quanton Road, a quarter mile west of Cranbrook Road, owned by Mrs. E. E. Keller.

City Manager Elmer Kephart said such occurrences at the residence "have been a constant source of trouble to the police department and something must be done. We will continue to be just as severe as we can in punishing any offenders."

Four minors caught with Cullens and Kleindl were released to their parents.

New Promotions Revealed by Police

(Continued From Page One)

will replace Sgt. Fred J. Wirth presently assigned to the Uniform Patrol Bureau.

Elevated to the rank of detective after spending more than three years in the Traffic and Safety Bureau was Robert A. Emery, motorcycle officer.

Quick was transferred to Lt. Nartker's platoon in the Uniform Patrol Bureau. Before his transfer Quick worked with the Juvenile Department of the force.

Also holding the new rank as detective is former Patrolman Herbert C. Cooley. He will remain in his present assignment as a detective with the vice detail.

Joining the Traffic and Safety Bureau as a motorcycle officer to replace Emery, is Patrolman Clarence G. Smith. Formerly assigned to Lt. George T. Scott's platoon, Smith will now be attached to the second unit for traffic control and accident investigation duty.

HELLO—A young woman at the Resi Ballroom has a talk with a young man at another table. Each table has a number which can be dialed. The management has a censor to guard against improper exchanges.

Phones Assist Bashful Youths

Giant Berlin Nightclub
Helps Shy Boys Meet
Girls by Unique System

BERLIN (AP)—Soldiers and other Americans in Berlin like to visit a mammoth night club that goes out of its way to help boy meet girl. It's the Resi Ballroom (pronounced "racy") and it's a favorite spot for both GIs and tourists.

"By the numbers," can have unpleasant meanings for GIs when they recall the drill sergeant's chant. But the numbers at the Resi stand in lights above each of the tables and they can help a lonesome man who wants to talk to that comely miss several tables away. He can dial her number by telephone.

For the more bashful, there is pneumatic tube system over which coy notes may be "mailed from one table to another."

But the message must not be naughty. It goes first to a central office where it is read by a woman censor. If the note passes, it is relayed by pneumatic tube to its table address.

The Resi is perhaps best known for its water show, a multi colored display of thousands of water spouts which are raised and lowered or swayed back and forth in synchronization with symphonic music.

More than 2,000 gallons of water a minute are pressured through these jets. The changing light effects are produced by 100,000 colored lights located behind and under the spouts.

The Resi Ballroom draws an average of 650 persons a night during the week and more than 1,000 patrons a night on week-ends.

It was originally established in 1926 by Paul Baatz, a well known speedboat racer. At the time, it was located in the center of Berlin near Alexander Platz, which now is in the Russian sector.

Nitrogen Fertilizer Use Rises Sharply

DES MOINES—In the past 15 years there has been a phenomenal growth in the use of nitrogen fertilizers in the United States.

Annual consumption of this important-plant nutrient rose 371 per cent—from about 384,000 short tons in the 1938-39 fiscal year to 1,810,000 tons in 1953-54. In each year since 1950 the quantity used was 11 to 23 per cent higher than in the previous year.

With a single exception—1951-52—the consumption increased in every year in this period and in most of the years would have been larger had supplies been available.

During the same period world consumption increased 127 per cent—from 2,517,000 tons to 5,702,000.

Two American hens now average as many eggs each year as the laying capacity of three hens 25 years ago.

We'll gladly send a representative to
your home with samples. No obligation.

If you've been holding off on your purchase of carpet until you could afford a better grade broadloom, wait no more! Here's all the luxury and quality you expect of carpets selling for as much as \$30 a yard—Harrison low-priced at a sensational 9.95.

The reason? One of America's largest and finest makers of broadloom designed this carpet to sell for 16.95, yet still give the public all the value they get in grades now selling for as much as \$30. During the initial loom runs, slight irregularities developed which prompted the manufacturer to classify it as "mill trials." Because Harrison's is one of the few floorcovering retailers in the country capable of buying great quantities of goods, this maker offered Harrison's the entire run, over 10,000 yards in all, at fantastic reductions.

It's one of the most lush, richly textured broadlooms you've ever seen. It's closely woven pile contains nothing but the finest imported wool yarns. Durable 4-ply construction, weighing approximately 5 lbs. per square yard. It's available in 12 or 15-ft. widths in April Green, Mayfair Beige, Rose Quartz, Meadow Green, Nutria, Parchment or Cocoa.

- Designed to compete with qualities selling for as much as \$30 a yard!
- Woven of finest imported wools, durable 4-ply construction!
- Eight beautiful decorator colors, 12 or 15-ft. widths!

Sylvan Residents Attend Meeting

Tension Eased Against Rezoning Orchard Lake Road, Says Mayor

Sylvan Lake Mayor Anthony Kreps today credited a public meeting last night with easing tension over a proposal to rezone property on Orchard Lake Road to permit construction of a lumber company.

"We feel we had a good meeting and the people who were out really have been enlightened on the question considerable," Kreps said.

"It has eased tension against the proposition, although there are, of course, a few things that still have to be cleared up. The biggest fear has been that rezoning would allow industry, but it was shown there just wouldn't be enough room for industry. There isn't any land available."

After the public meeting, held at the Whitfield School, the City Council postponed further action on the matter until the next regular meeting, Sept. 14. Approximately 250 persons attended, Kreps said.

Detroit Is Sentenced

After pleading guilty to driving under the influence of liquor yesterday, Johnnie McDonald, 23, of Detroit, was sentenced to 30 days in Oakland County Jail by Oak Park Justice William F. Nern. McDonald also was ordered to pay a \$50 fine and \$5 costs or spend 15 days in jail.

MAKE OVER FARM SURPLUS — PUZZLER SUPREME

(An Associated Press writer details the background of a political puzzle — "What to do with the ever-growing farm surplus?" This is the second of three articles.)

By WARREN ROGERS JR.

WASHINGTON — America's farm production was coaxed to new heights during the war years. Today it bestrides the delicate field of foreign affairs like Frankenstein's monster.

Butter, cheese, cotton, rice, wheat—these are unmentionables in polite conversation with certain of America's allies. And for very grave reasons.

Dumping the huge U. S. surplus in rice and cotton on the world market, for example, could drive Asia and the Near and Middle East into the Communist camp.

Burma is the chief rice supplier in Southeast Asia. If the United States started shipping rice into that area, the Burmese would be outraged, perhaps driven to trade and tight liaison with rice-hungry Red China. The lives and fortunes spent to keep the Reds out of the area would be lost—and possibly all of non-Communist Asia as well.

COTTON WOES

With cotton, it's principally Egypt, although Mexico and Brazil are concerned too. The Egyptians are the world's champion growers of fine long-staple cotton. It is practically the only thing they export. Dumping the U.S. cotton surplus into Egypt's markets would play havoc with Egypt's economy.

Egypt is a key to Arab-Israeli peace and to continued cold-shouldering of Communist attempts to muscle in on the Middle East.

The milk-producing Scandinavian countries might be alienated

if American dairy surpluses showed up cheap on the world market. The grain-growing Canadians never cease to fret that surplus might be dumped. How can this five-billion-dollar of U.S. surpluses be tamed before

it tramples its owner's hard-won foreign friendships? The Eisenhower administration is reviewing the whole monumental question at this time. Its chief tool for disposing of farm surpluses abroad is Public

Law 480. This permits their sale, barter or giveaway to "friendly countries." Russia and Red China are specifically barred. The law would have to be changed to bring them in.

A major provision is that sales may be made for foreign currency. This money never reaches the United States, however. It is simply plowed back into economic development of the country, gift of Uncle Sam, or used to pay off U.S. bills, such as for troop camps in Japan.

A Hoover Commission task force took a swipe at a companion law in a report made public this month. It complained:

"The earmarking of dollar aid for surplus agricultural commodities leads to the appearance if not the reality of pressure on recipient countries to take American surplus commodities."

But officials who administer the law defend it as a way out of the shortage of dollars abroad. They see the long range solution in ultimately getting enough dollars in the hands of foreign buyers so they can pay the high price of U.S. farm goods.

6 Bendix Radio Plants Are Closed by Strike

BALTIMORE — A strike early today halted production at six Bendix radio plants here where work is mostly classified electronics equipment for the armed forces.

Picketing began at midnight, when the company's one-year contract with the AFL International Assn. of Machinists expired.

The union represents about 3,000 employees, but the company said about 3,000 others not on hourly wage scale also were affected.

Slaying Suspect Found in Well

Death Comes to Second of Four Principals in Oilman's Murder

FORT WORTH, Tex. — Police found the body of gunman-gambler Leroy (Tincy) Eggleston, 49, in a shallow well six miles north of here last night. He had been shot in the back of the head.

His death left alive only two of the principals in the slay-for-pay murder of wealthy oilman William P. Clark, 61, found dead in his expensive home May 22, 1953.

The remaining principals are Clark's blonde widow Mary, 46, and Harry Huggins, the 47-year-old mobster-informer who said Mrs. Clark offered a \$10,000 reward for her husband's death.

Eggleston's body was found less than a week after his blood-stained sedan turned up on a parking lot here.

Another mobster named by Huggins and the police in the Clark killing, Cecil Green, 49, was slain in a gangland ambush last May 4 when he and Eggleston drove up to a highway rendezvous. Eggleston shot his way out of the trap and was found, scared and shaking, hours later in a nearby building. He had been reported in hiding until his disappearance but underworld sources said he "was still busy."

Eggleston, the source said, stayed busy milking gamblers, burglars, safe men and others of part of their hauls, giving them the alternative of losing all of their take.

The middy bows onto the night-time scene as Christian Dior introduces his new "Y" silhouette. A perfect example of the new line, the dinner gown is fashioned of lustrous orlon-and-silk satin. The white middie blouse, tied in self bows at each shoulder, puffs over the hips in a soft pouf. It tops a slim sinuous sheath skirt of the same fabric.

Marlene Hartmann Weds

Marlene Hartmann, daughter of Mr. and Mrs. Harold J. Hartmann of Monterey boulevard, became the bride of David J. England, the son of Mr. and Mrs. David W. England of Logan, Utah, last Friday.

Parents of the couple and close relatives attended the double-ring ceremony performed in the Temple of the Church of Jesus Christ of Latter-Day Saints, Idaho Falls, Idaho.

The bride wore a waltz-length gown of imported Chantilly lace and net over white slipper satin. Her fingertip veil was joined to a tiara of lace with seed pearls and sequins. Her bridal bouquet was of white roses centered with a white orchid.

Bridesmaids Nancy Lundquist, Judy Hartmann and Patricia Tolman wore dresses of net and lace in pastel colors. Julie Ann England and Helen Marie Lundquist wore teal green frocks for their duties as flower girls.

Mahlon Lundquist served as best man.

For the reception held in the evening, Mrs. Hartmann wore a blue lace and crepe dress. Mrs. England wore a gown of pink linen and lace. Both mothers chose carnation corsages.

The bride wore a gray suit with white accessories for her going away costume. After honeymooning in Yellowstone National Park, the newlyweds will make their home in Logan, Utah, where he will enter Utah State College in the fall.

Hawthorne Board Outlines Programs

The executive board of the Hawthorne PTA met Wednesday evening at the home of its new president, Mrs. Ronald Carr, on West Colgate avenue.

The theme for the coming year will be "Understanding the Educational Program of Our School." Each month's program was outlined under that theme.

Committee chairmen were appointed to handle the popcorn sales held each Friday during the school year. The first one is scheduled for Sept. 16.

The fall program will get under way with a family picnic to be held Sept. 22 at 6 p.m. at Hawthorne School.

Tackle Jobs With All Your Might

By ANNE HEYWOOD

The most interesting thing about growing older is the way you begin to re-evaluate things.

For example, the tired old virtuous clichés, which used to irritate me to death in my youth, are beginning to make more and more sense to me now.

Take this one: "Whatever your hand finds to do, do it with all your might."

When Mother used to hand me that one, I'd think, "Oh, honestly!" But now I see how important it is—not only for virtue,

but for happiness, health and even good looks!

Two women I know illustrate this point, beautifully.

Helen does not practice that little rule of thumb, but Esther does. They are both in their early 30's—within one month of the same age.

But Helen literally looks old enough to be Esther's mother. And her life is just as unhappy as Esther's is happy.

HOUSEHOLD DUTIES
Both are housewives and neither of them is particularly crazy about household duties.

However, Esther does them as well and as cheerfully as she can. She gets them done in good time, with no wear and tear on her nervous system and no stabs from her conscience.

In the afternoons—when her housework is finished—she has a part-time job, in a doctor's office, which she loves. Furthermore, it brings in extra money which the family needs.

On the other hand, Helen makes a life-work, quite literally, of hating housework.

She drags through it, doing it badly, complaining and talking forever. She wears sloppy old

housewives, claiming that she never has any time for herself.

NEVER HAS TIME.
She never gets finished before her husband arrives, so she just tosses some terrible dinner together at the last minute. They need extra money, too, but Helen never "has time for a job."

There is no real difference between the two, except for that basic concept, "Whatever your hand finds to do, do it with all your might."

Esther does, Helen doesn't. But the difference it makes is tremendous, and affects everything about both their lives.

(Copyright, 1955)

Couple Wed in St. Johns

Gladioli, pompons and fugi chrysanthemums in shades of rust and ivory decorated the Symmonds home in St. Johns for the marriage of Nancy Symmonds and Glynn Barnett.

The bride is the daughter of Dr. and Mrs. Charles S. Symmonds of St. Johns, and Glynn is the son of Mr. and Mrs. U. H. Barnett of Norton avenue.

The bride's gown of Wedgewood blue lace was ballerina length. She carried a colonial bouquet of white chrysanthemums and yellow roses.

Her only attendant was her sister, Mrs. Merrill A. Wilson of Des Moines, Iowa. She wore a rust linen dress accented by a bouquet of yellow chrysanthemums and yellow roses.

Guy Barnett served as best man.

For a reception held at Walker's Restaurant in St. Johns, the bride's mother wore a pale blue linen dress. Mrs. Barnett wore a pink nylon dress. Both mothers chose corsages of white chrysanthemums and pink roses.

Both the bride and bridegroom are graduates of the University

of Michigan where he is at present studying in the Law School.

The bride chose a dark brown suit with white accessories and wore a corsage of white carnations and yellow roses for their honeymoon on Lake Michigan. They will reside in Ann Arbor on their return.

Verla Sturgeon Feted at Shower

A linen shower was given for Verla Lee Sturgeon Tuesday evening by Mrs. Joan Morang of Bramble drive. Verla, the daughter of Mr. and Mrs. Shelby Sturgeon of Sanford drive, is the bride-elect of George Howell.

He is the son of Mr. and Mrs. Raymond Howell of Pontiac drive. The couple plans an Oct. 8 wedding.

Invited guests were Mrs. Sturgeon, Mrs. Howell, Mrs. Robert Travis, Mrs. James Mazza, Mrs. Arthur Featherstone, Mrs. B. M. Pitchford, and Mrs. John Putnam.

Completing the guest list were Mrs. Jack Albright, Mrs. Joe Zaffina, Gwen Lehmann, Mrs. Lyle Ross, Doris Jones and Mrs. Lillian Cummings.

Bentley Opposes Foreign Policy

Claims Geneva Meeting Was Republican Mistake Which Aided Soviet

CHICAGO (INS) — Rep. Bentley (R-Mich) admits he has opposed President Eisenhower's foreign policy more often than he's supported it, but says conditions would be worse if the Democrats returned to power in 1956.

Bentley, a member of the House Foreign Affairs Committee, told a meeting of women of the Abraham Lincoln National Republican Club that the Geneva Conference was a mistake.

While we proved we want peace at Geneva, he said, he fears the propaganda effects of President Eisenhower "sitting down with the murderers and tyrants of the Kremlin and giving them an aura of respectability."

Bentley said he had opposed about 61 per cent of the President's foreign policy program in Congress. He added, however, he had approved three-fourths of his domestic program.

"A national political victory for our opposition would present far worse consequences than the present situation," Bentley said.

Steel Stockholders to Act on Mortgage

DETROIT (INS) — Detroit Steel Corp. shareholders will meet Sept. 16 to act upon plans for refinancing the company's first mortgage note to the Reconstruction Finance Corp.

M. J. Zivian, company president, announced that Detroit Steel has filed a registration statement covering a million dollars in first mortgage sinking fund bonds, due in 1970, and 403,155 shares of common stock.

A syndicate headed by Halsey, Stuart & Co. will sell the bonds. The additional shares will be offered to shareholders on the basis of one share of new stock for each five shares held.

The program also includes six million dollars of 6 per cent cumulative preferred stock not covered by the registration statement. The preferred stock will be issued to the RFC as partial payment of the existing \$38,180,000 debt.

Bob Considine Says:

Girl Tank Drivers Beautify GM Powerama

CHICAGO (INS) — Came out here to look at two beasts of burden — they call them some crazy names like Swaps and Nashua around the barns — but ran smack dab into a multi-million dollar exhibition of the monster that threatened to render the horse extinct many years ago, the engine.

This would be General Motors "Powerama," a display of everything that industrial colossus makes except that for which it is best known, the automobile.

Pitched on the memorable old "Century of Progress" fairgrounds along the lakefront, the exhibit of power covers 1,000,000 square feet and includes everything from the atomic cannon (powered by GM diesel cabs) to the similarly powered 10-car 105 m.p.h. streamlined "Aerotrain" which soon will be in service on the New York Central and Pennsylvania Railroads.

Strange things happened at "Powerama" during the press review. A hard-bitten tank sergeant, tooling around the tank proving grounds in a 50-tonner that could sink a battleship, passed a 49,000-pound (M-42 Duster) and sneered, "Lady driver!"

Auto Parts Makers Protest Against Big 3

WASHINGTON (INS) — A spokesman for independent car parts makers has testified that three big automobile manufacturers "set and establish the price for almost every part and replacement" needed to repair cars and trucks.

Harold T. Halpenny of Chicago, counsel to the National Standard Parts Assn., told Senate investigators this occurs while the Federal Trade Commission (FTC) "stands idly by."

Halpenny said "three major vehicle manufacturers dominate" their own industry and the sale of parts to repair the vehicles.

750 French Tourists Welcomed in Russia

MOSCOW (INS) — The Soviet Union, already swarming with foreign visitors including U.S. congressmen and a Supreme Court justice, welcomed today 750 French tourists.

The French group reached Leningrad aboard the chartered Polish liner Batory. Russian crowds gathered around them, singing the Marseillaise, the French national anthem, and asking for autographs.

Sure enough it was: Peggy Taft, a lissome Chicago nightclub singer. Peggy is one of three girls hired to drive the big Army tanks between now and the time the show closes Sept. 25 and goes on the road. While Peggy gave the bum a swish of her rear armor (two 40mm's) I talked to the other members of one of the oddest and certainly most beautiful troupe ever hired.

They turned out to be Joby Johnson, 17-year-old singer who goes to Amundsen High in CHI when not driving a tank, and beautiful Muriel Carroll, a big do-eyed doll who usually does fashion. The William Morris Agency found this curious chore for all.

"We thought they just wanted

us to make the tanks as decorative as possible," Muriel said, with a note of helplessness that belied the way she handles a Siegfried Line buster.

"But after we got over our surprise, things were okay," she went on. "They're not hard to drive. There's less traffic, of course, and we feel that nobody's going to get in our way."

The girls drive their own cars on the side and swear they've never had any trouble with motorcycle cops, traffic lights, parking, or the law in general.

JUST MEN DRIVERS
"The only trouble we've had is with men drivers," La Carroll said, throatily.

The Tankettes were creamy white shirtwaists on the low-cut side. Properly to display their charms, GM engineers built extra steering devices on top the tanks.

Out of an armored lower hatch on the "Duster" stuck a solemn helmeted head, perhaps decapitated, but wearing the shaken expression of a driving instructor. Things, the head seemed to say, were never like this at Bastogne.

Other girls were swimming in a truck. No kidding. This was a 50-ton truck with a carrying vat bigger than most home pools. Capt Stubbs, the Cecil B. DeMille of such vast exhibits, promptly turned it into the most expensive bathtub since Nita Naldi's.

Stubbs made some interesting discoveries while plowing up the old World Fair site for this one. Came across two 36-inch gas mains which not even the city of Chicago could tell him about. Just 36-inch gas mains, headed nowhere.

City fathers are trying to get in touch with Big Bill Thompson by ousting. There were a lot of conduits left in the ground but no power. He believes he unearthed a gross of Sally Rand's old bubbles.

Anyway, don't miss the great missiles, the incredible earth-movers, and oil rigs, the Kitchen of Tomorrow, Conval's pogo-stick plane, the cotton gin, the submarine, the shrimp boat and—figures—the dancing tonight.

Detroit to Reinter Stevens' Remains

DETROIT (INS) — The remains of Gov. Stevens T. Mason will be reinterred in downtown Capitol Park some time in September, the Detroit Historical Commission has announced.

Over a period of months there had been dispute over whether the remains of Michigan's first governor should be kept in Detroit, where he was first laid to rest, or taken to Lansing.

The Stevens tomb had been removed during a construction job in the park.

After objections from Detroit, a Lansing group gave up the idea of interment at Lansing.

The Historical Commission said reinterment plans call for a simple ceremony. The 425th National Guard Infantry will provide an honor guard.

U. of M. Printers Buy Cedar Springs Paper

CEDAR SPRINGS (INS) — The Cedar Springs Clipper, one of west Michigan's best-known weekly newspapers, was sold today to Archard C. Gamm and Millard E. Engberg, Ann Arbor printers.

Details of the transaction were not disclosed. The new owners, employed as printers on the Michigan Daily at the University of Michigan, take possession Sept. 12.

Stock Exchanges Help

NEW YORK (INS) — Including donations from stock exchange workers throughout the country, a check for \$151,048 was given to the Red Cross today for Northeastern flood relief. Harold W. Scott, chairman of the New York Stock Exchange, presented the check—the largest single gift yet in the Red Cross disaster drive.

RCAF Outpost Cold
Resolute, on Cornwallis island, is the northernmost post of the Royal Canadian Air Force. It lies 999 miles north of the Arctic Circle. Outgoing planes make about 50 flights in spring, carrying men and a year's supplies to

White's Return
The famed White Horses of Vienna and their dexterous riders are coming back to their home arena in the Imperial Palace of the Hapsburg emperors. Until recently dispersed to various parts

of Europe, the animals have been reassembled and will enter the ring of the Imperial Riding School and step out delicately into the quadrille that only they can do. The Lipizzaner horses are black at birth and do not turn white until the seventh year.

Delhi Slowly Dries Up
NEW DELHI, India, Aug. 31.—The Delhi state government, as a new step toward prohibition, has cut down the drinking hours in night clubs and hotels. An order puts a weekday curfew of midnight and a Saturday night curfew of 1 a.m.

on drinking. Previously bars were permitted to serve drinks an hour longer. Delhi already observes dry Tuesdays each week.

Eggs When Desired
UNIVERSITY PARK, Pa. Aug. 31.—Harry Kauffman, poultry specialist for Pennsylvania State University, says farmers producing eggs for a local market can fix production schedules to equalize monthly output. One flock of chickens hatched

in winter and another flock hatched in June will help to equalize monthly production, Kauffman explained.

A mature skunk can fire from four to six successive discharges of odoriferous liquid, accurate to a distance of 8 to 15 feet.
