

Price on 'Hannibal' Slashed to \$4,995!

Elephant Catches Store Shoppers' Eyes

PHILADELPHIA (AP) — Anybody want to buy an elephant?

The John Wanamaker department store here has one on sale for \$4,995.

"It's a bargain," the salesman said. "Hannibal originally cost \$7,500 but we reduced the price in line with the store's two-day Christmas season sale."

At this point, Hannibal, whose 14 months and 550 pounds make

her just a tot among pachyderms, lifted her trunk and trumpeted. As the roar cascaded through the pet shop, a hush fell among the other animals and visiting children. But the salesman smiled confidently.

"Just think of who you could be if Hannibal was yours," he said. "You would be the only private owner of an elephant in the United States."

"I bet you would be surprised at

all the things you can do with an elephant. Suppose your garden hose breaks. All you have to do is set out a dozen pails of water. Then call on Hannibal to spray your flowers.

"As for moving furniture or a snowbound car, just have Hannibal put her stout head against anything heavy and she will push it wherever you want it."

"Of course," the salesman admitted, "Hannibal does have a few personal habits that you have to cater to."

One of her habits turned out to be a hearty breakfast and dinner with the day's feeding consisting of one bushel of kale, one bushel of carrots, 10 to 12 quarts of oats and a bale of hay which she alternately uses as a bed and an in-between snack. At present grocery rates this would add up to \$42 a week.

Hannibal also is concerned about her complexion and there is nothing she likes more than a nice oily skin. The other day it took four men two hours to give her a beauty treatment using two pounds of pure lanolin.

A store official said the young elephant was purchased in keeping with the store pet shop's motto that it handles anything from a guppy to a gorilla but the animal's king-sized appetite prompted the decision to seek a quick sale.

Rescuer of Aged Woman Describes Dramatic Role

A Pontiac man, who found an elderly crippled woman "standing helpless in the midst of flames," told how he rescued Mrs. Maude L. Jenner, 86, from her burning home yesterday morning.

Roy Ripley, 55, said he was driving by the house at 366 Oakland Ave. when he saw flames coming from the front door.

"I had to fight traffic to get to the curb and park. Then I ran back, calling for help all the way," Ripley said.

When he got to the door he bent down to look in under the smoke. "I saw the old lady, standing helpless in the midst of flames, looking like a ghost," he related.

"If I had been a second later, she would have been a goner," he declared.

Ripley said he ran in and struggled with the woman, who wanted to save possessions.

"So I picked her up and carried her out. She said there was no one else in the house."

"When it was all over, I started shaking like a leaf. I didn't get hurt, but my hat has holes in it from burning cinders," he added.

Ripley, unemployed at present, lives at 369 N. Saginaw St.

Another man, David Snider, 27, of Waterford Township, helped Ripley take the woman out of the front door. Snider, who was driv-

ROY RIPLEY

ing by on his way to work, later took Mrs. Jenner to Pontiac General Hospital, where she was treated for minor burns. Firemen said the blaze, mostly confined to the living room where the woman was found, was caused by burning papers falling out of a fireplace. They said there was \$1,500 damage.

Orange, Sugar, Cotton, Rose

Ingredients for Snappy Bowl Game: Two Good Teams and a Pretty Queen

This is the time of the year when Americans by the millions close the books on Christmas and refuse to look into the future until certain pieces of important business are disposed of—the annual bowl games. And what is a bowl game without a queen? To keep you properly posted we present

Dawn Herbert (top right), a sophomore student at Newcomb college is Queen of the Sugar Bowl in New Orleans. She is the daughter of Rep. F. Edward Herbert, of Louisiana.

herewith four of the lovelies who will preside at widely separated festivities this year.

Joan Culver (lower right), a freshman at Pasadena City College. Games are on Jan. 2 this year.

Khrushchev Blasts Ike

Ike Practicing With Golf Clubs in Sunny South

President Mixes Work With Pleasure During Key West Holiday

FROM OUR WIRE SERVICES
KEY WEST, Fla.—President Eisenhower's Key West vacation was turning out today to be just what the doctor ordered.

Weather permitting, he planned another session with his golf clubs on the baseball diamond practice range he tried out for the first time yesterday afternoon in summery 75-degree temperature.

The half-hour practice session was the first time Eisenhower had hit a golf ball since his heart attack, except for some putting practice at his Gettysburg farm and on the lawn of the White House.

The President's personal physician, Maj. Gen. Howard Snyder, kept a close eye on him yesterday to be sure he didn't put too much power into his swing.

It will be several weeks before the convalescing chief executive

Plan to Ease Ike's Job

WASHINGTON (INS)—A high administration source says the White House, the Justice Department, and other federal agencies are working out legislative proposals to lighten the President's work load. The source said a bill to ease some of the President's routine burden of state papers will be submitted to Congress in early January.

is permitted to lay into a drive, though the iron shots he was practicing yesterday are considered excellent exercise at this stage of his recovery.

Eisenhower also went for an hour-long walk around the Key West Naval Base, stopping at the waterfront to look over several submarines and chat with some of their officers.

White House News Secretary (Continued on Page 2, Col. 7)

Perfect Traffic Record, but Chief Crosses Fingers

A perfect traffic safety record yesterday in Pontiac, where no reportable traffic accidents occurred, caused Police Chief Herbert W. Straley to compliment city drivers. But he added wryly:

"Perhaps yesterday was accident-free because party-goers are waiting until the holiday weekend to start mixing drinking with driving."

Pointing out that there were no arrests for drunk driving during the mishapless day, Straley said the obvious lesson for drivers is this:

"Celebrate the New Year by all means, but don't celebrate behind the wheel. If you do, you may not live to see Jan. 2, 1956."

Something New in Key West

COP PRESIDENT-HAPPY — This Key West policeman, Armando Perez Jr., scratches his head as he looks at a new street sign installed in Key West — city so many presidents have visited. It's Eisenhower Drive — and located on the same corner as Truman Ave. (concrete pillar lower left) and Roosevelt Boulevard (dark sign next to U. S. 1 marker).

Plan Engineering Studies of Toll Road Interchange

A meeting between city and Michigan Turnpike Authority officials here yesterday resulted in a decision to make further engineering studies of where an interchange will be located in Pontiac's northeast corner.

Discussing the problem were Mayor William W. Donaldson, City Manager Walter K. Willman, MTA Chairman George N. Higgins and Consulting Engineer Murray D. Van Wagoner.

The MTA originally planned to build the interchange (a point where cars could get on and off the toll road) on M24 near Opdyke road.

The city has recommended it be moved west to a site which would pick up traffic from Walton boulevard. "We feel an interchange in Walton would serve better in handling haulaway truck traffic," said Willman.

The officials agreed to obtain traffic counts and other data before making a final decision. Higgins has said that once the interchange here is located all major route problems from Saginaw south to Eight Mile road will have been ironed out.

Coast Police Setting Up New Year Roadblocks

SPOKANE, Wash. (AP)—Drivers will get either a smile, a ticket or a cup of black coffee when stopped at police roadblocks here New Year's Eve.

"The coffee deal is for the fellow who has had a drink or two but is doing okay in his driving," said Police Capt. O. K. Sherar.

The officers will have thermos jugs and cups for the borderline cases, along with tickets for drunk drivers and smiles for safe drivers.

U.S. Blamed for Red Satellite Interference

He Makes Charges in Report to Parliament, Warns of H-Bomb

MOSCOW (AP) — Communist party boss Nikita Khrushchev today charged President Eisenhower with "crude interference" in the internal affairs of the Communist-ruled countries of East Europe.

Khrushchev's blast before a joint session of the Soviet Parliament was occasioned by Christmas messages the President and other leading Americans broadcast to the East Europeans.

The party boss accused the United States of trying to "re-establish capitalism" in the countries of the Soviet bloc.

Khrushchev also warned the West that the recently exploded Soviet hydrogen bomb "can be considerably increased" in power.

He repeated the statement made in India after the test explosion that the new Russian weapon "was equivalent to many million tons of ordinary explosives."

The Moscow — Frankfurt telephone line over which this story was being dictated was broken by the Soviet censor for five minutes after Khrushchev's statement on the hydrogen bomb was mentioned.

He told the delegates the future belongs to Leninist teachings, that the Socialist camp can never be destroyed, and "we shall sweep out of our way everything that blocks the construction of communism."

Khrushchev drew laughter from the delegates with jokes at U. S. Secretary of State Dulles' recent statement that Portugal's territories in India had been Portuguese for 400 years.

The United States had been a British colony, the party boss declared, and "if we follow Mr. Dulles' logic, the United States should consider itself as Her Majesty's dominion."

Bulgarian, given a standing ovation when he rose to speak first, said, "A great contribution has been made to world peace by the development of friendly relations between the Soviet Union, India, Burma and Afghanistan."

"Nobody can deny that the efforts made by the Soviet Union have been crowned with great success."

He reaffirmed his conviction that in peaceful competition the "superior" Socialist system would eventually win over any other.

He said history would make this decision, but "in our struggle for communism, we will never start an aggressive war."

Both Khrushchev and Premier Bulganin spoke on the fourth day of a special session of the more than 1,400 members of the Supreme Soviet Parliament to report on their recent visit to India, Burma and Afghanistan.

The speeches of both bristled with attacks on "Western colonialism."

Bulgarian assailed such Western-sponsored defense alliances for Asia as SEATO and the Bagdad Pact as "colonialism in a new form with aggressive aims."

Babson Sees Slightly Quieter Period Ahead

Predicts '56 Will Be Second Best Year

By ROGER W. BABSON

Business in Pontiac has enjoyed another remarkably good year in 1955, with considerable improvement in the over-all situation. This has been due, of course to the vigorous gains made in the automotive field.

Looking across the threshold into 1956, I predict a somewhat quieter span of general activity for your city, with business perhaps averaging 5 per cent to 8 per cent below 1955 levels.

If your economy were dependent entirely upon automobiles, I would frankly be even more pessimistic.

It is my honest feeling that during perhaps the first three-fourths of the new year, there will be downward pressure on your leading enterprise. It may even become severe enough, what with the unreasonably high level of consumer-credit financing, to bring about an earlier-than-usual switch

to 1957 models in an effort to step up sales.

Should this happen, it will, of course, act as a shot in the arm for your automotive industry since models are likely to be far more interesting in design than the 1956 models.

Fortunately, Pontiac is not entirely dependent upon this field, so there are optimistic factors in the outlook. I look for a few of your lines to edge slightly higher in 1956: Electric power, some foods, dairy products, and probably public construction.

Support will be given business also by some local endeavors which should hold well during the new year: Molded products, paint, varnish, lacquer, trailers, and commercial building.

Retail sales will do passably well in department and variety chains, but food marts alone are likely to surpass 1955. Wages will

edge very slightly upward in some jobs, but employment will be irregular, especially in the automotive plants.

On the national scene I make the following forecasts:

1. If no unforeseen event happens, President Eisenhower will be re-nominated and re-elected in 1956.

2. The Republican party has an excellent chance of winning in 1956 with President Eisenhower

making a few key speeches and promising to be an active part of the administration. He is trained to take responsibility and enjoys it; but the President should be relieved of speech making, entertaining, and much of the detail work which goes with being President.

3. Competition will be very severe in 1956, and with a few exceptions will cause business profits to be less in 1956 than in 1955. Too many manufacturers, not satisfied with their present good business, are starting to make other products and undercut standard prices.

4. Higher wages may also be expected in 1956, and these could reduce profits. These higher wages, however, will largely be spent and should increase retail sales.

5. Increased advertising appropriations will be seen in 1956. In fact, advertising appropriations for newspapers, magazines,

television, radio, and bill boards have helped our prosperity, or it would not have lasted through 1955.

6. The recent policy of the money managers in the direction of "squeeze" will be shifted to "ease" sometime in 1956. This reversal could put a floor under any business decline that may start next year.

7. Liberal credits to the purchasers of houses, automobiles, washing machines, televisions, and various other things have bolstered prosperity and will continue to be a strong support to many industries, through 1956 at least.

8. If the Republicans are re-elected in 1956, great sums will

4 State Children Perish in Blaze

Report Bottle Gas Stove Ignited Family's House Fire in Newberry

SAULT STE. MARIE (AP)—A fire which snuffed out the lives of four small children was blamed tentatively today to a bottled gas stove.

Those who died in the fire which destroyed their frame home yesterday at Newberry, 60 miles west of Sault Ste. Marie, were children of Arthur Sevans: Bernadine, 5; Arthur, 4; Karen, 3; and Robin Elizabeth, 1.

Newberry Fire Chief Russell Hill said the fire apparently started from a bottled gas stove, but the house also had an oil heater and a wood stove.

Mrs. Joyce Sevans, 24-year-old mother of the children, said she went to a neighbor's to use a telephone, glanced out a window there and saw flames spouting from her own 3-room home.

Newsprint Firms Facing Controls Within Canada

QUEBEC (INS)—Quebec Premier Maurice Duplessis repeated today his threat to impose newsprint controls as soon as the Quebec legislature reconvenes Jan. 10.

"I have tried everything to make some of these men in the newsprint industry understand reason, but they seem bent on going ahead with their plans," he said.

Early this month Duplessis warned newsprint producers he would impose price controls and prohibit exports unless the producers canceled recent price increases to Quebec consumers.

The recent price boost came despite strong protests from U.S. congressmen and others that the Canadian companies were "profiteering" at the expense of American newspapers.

Chicago Club Honors Harvard Auto Victims

CHICAGO (INS)—Two scholarship funds have been established as memorials to the two Harvard university students killed in an auto accident Dec. 21 in which Alvin Stevenson's son was injured seriously.

Establishment of the funds was announced yesterday by the Harvard Club of Chicago at its annual Christmas luncheon. Club President Robert F. Spindell said the action reflected the "intense feeling of sympathy which both Harvard and non-Harvard friends everywhere have for the two bereaved families."

Victims of the crash were William Cooper Boyden III, 19, of Chicago and William Stanley North III, 19, of suburban Lake Forest.

John Felt Stevenson, 19, who was driving the car which was rammed by a truck, was reported improving in Passavant Hospital where he underwent surgery for removal of his shattered right kneecap.

The truck driver, Fred Gill, 29, of Detroit, is under indictment for reckless homicide and manslaughter.

Two Passengers Hurt in Telegraph Collision

Two passengers were slightly injured in a 2-car collision on Dixie Hwy. at Telegraph Rd. last night. Mrs. Elsie Beamer, 86 Parkhurst St., and Kenneth Mason, 23 S. Paddock St., both were treated and released, authorities in St. Joseph Mercy Hospital said.

The pair were riding in a car driven by Bernard Hoffman, 23, slip of 23 S. Paddock St., when it struck the rear end of a car driven by Albert Anderson, of Saginaw. Waterford Township Police said.

The Weather

PONTIAC AND VICINITY — Cloudy and turning colder today and tonight with scattered showers changing to snow flurries. High today 40-45; low tonight 15-20. Tomorrow partly cloudy to cold with a few snow flurries. High 30-35; low 15-20. Wednesday 30-35; low 15-20. Thursday 30-35; low 15-20. Friday 30-35; low 15-20.

Lowest temperature preceding 5 a.m. at 2 a.m.: Wind velocity 15 m.p.h. Direction: West. Sun sets Thursday at 5:08 p.m. Sun rises Friday at 8:01 a.m. Moon sets Friday at 9:02 a.m.

Downtown Temperatures: 7 a.m. -35; 11 a.m. -40; 1 p.m. -37; 3 p.m. -35; 5 p.m. -32; 7 p.m. -30; 9 p.m. -28; 11 p.m. -25.

Wednesday in Pontiac (As recorded downtown): Highest temperature -24; Lowest temperature -37; Mean temperature -30.5; Weather -Snow.

One Year Ago in Pontiac: Highest temperature -21; Lowest temperature -31; Mean temperature -26; Weather -Snow.

Highest and Lowest Temperatures This Date in 1899: 45 to 1899 -11 in 1899.

Wednesday's Temperature Chart: 45 to 1899 -11 in 1899.

TONIGHT'S FORECAST — An area of rain west of the Appalachians will be moving eastward tonight followed by colder weather and snow in the western Great Lakes area and generally throughout the Plains states. There will be little temperature change elsewhere. Pontiac area can expect colder weather tonight, with scattered showers changing to snow flurries.

Steady Business May Cut Taxes

Solons Say Reductions of Third in 10 Years Are Possible

WASHINGTON (INS)—A House Senate subcommittee states federal taxes can be cut one-third in ten years if the economy keeps growing at a steady rate.

But the group, part of the joint committee on the economic report, warned that a tax reduction next year "in the face of a booming economy might well be inflationary."

The subcommittee's views came in a unanimous report based on two weeks of round table hearings with tax experts from all over the country.

However, one member, Sen. Paul Douglas (D-Ill.), urged in a supplementary statement that a half dozen "loopholes" in existing law be closed.

He said that six to seven billion dollars in additional revenue from these sources could be used to give tax relief to low income taxpayers and to reduce or eliminate such excise tax rates as those on communications, transportation and automobiles.

The subcommittee, in holding out hope for a major tax cut, said "general reduction of rates will probably be necessary" in the long run to allow consumer spending to keep up with full production.

However, all such hopes would go out the window, the lawmakers said, if the world political situation worsens or if the nation's economic growth fluctuates widely instead of moving at a steady pace.

Accused of Copper Theft

GRAND RAPIDS (INS)—Benjamin H. Zeestraten, 21, was remanded to jail Wednesday to await sentence after pleading guilty before Circuit Judge Dale Souter on a charge of larceny over \$50. Sheriff's men said Zeestraten admitted stealing approximately 300 pounds of copper cable, valued at about \$880, from Kent County Airport Dec. 14.

John Felt Stevenson, 19, who was driving the car which was rammed by a truck, was reported improving in Passavant Hospital where he underwent surgery for removal of his shattered right kneecap.

The truck driver, Fred Gill, 29, of Detroit, is under indictment for reckless homicide and manslaughter.

Quints Entertain Friends as Papa Fumes at Home

MONTREAL (INS)—The four surviving Dionne quintuplets entertained four friends last night in their Montreal apartment while their father stewed and fretted in Callander, Ont. over the girls' intention to "lead their own lives."

Yvonne, Cecile, Annette and Marie served dinner to two slim, dark-haired young men about 25 years old.

Later, a Montreal businessman, an official of a trust company who has been acting as adviser to the girls, came to the apartment and was served coffee.

The quintuplets, now 21, wealthy, and living their lives without parental discipline, continued to refuse to talk to newsmen concerning their estrangement from their father.

Olivia. The businessman who gives advice to the quintuplets said they are "meeting boys normally now, but marriage is not on their minds at the moment." He added:

"They are enjoying a normal social life. They have friends of both sexes. They like to dance, listen to music, go to shows, read, and they get a kick out of cooking."

IN NURSE TRAINING — The four girls are living together in a conservatively-modern apartment in the west end of Montreal. Two of the quintuplets—Yvonne and Cecile—are nurses-in-training at Notre Dame L'Esperance Hospital in Ville St. Laurent.

Dr. G. Cousineau, medical director at the hospital, expressed hope that a reconciliation between the girls and their father can be effected.

He thought it possible that when Yvonne and Cecile get their New

World Scientists Puzzled Over Mystery of Earth

By ALTON L. BLAKESLEE AP Science Reporter

ATLANTA (AP)—Imagine living on the skin of a big apple, for only a few seconds of time. How much would you have learned about the apple, its insides, and everything outside of it?

That's the fix we humans are in, in knowledge of this home planet of earth, some scientists said today in telling of worldwide cooperative plans to learn a lot more.

The subcommittee's views came in a unanimous report based on two weeks of round table hearings with tax experts from all over the country.

However, one member, Sen. Paul Douglas (D-Ill.), urged in a supplementary statement that a half dozen "loopholes" in existing law be closed.

He said that six to seven billion dollars in additional revenue from these sources could be used to give tax relief to low income taxpayers and to reduce or eliminate such excise tax rates as those on communications, transportation and automobiles.

The subcommittee, in holding out hope for a major tax cut, said "general reduction of rates will probably be necessary" in the long run to allow consumer spending to keep up with full production.

However, all such hopes would go out the window, the lawmakers said, if the world political situation worsens or if the nation's economic growth fluctuates widely instead of moving at a steady pace.

Report Paper Strike Nearing End Today

DETROIT (INS)—Stereotypers, whose walkout 29 days ago closed Detroit's three metropolitan daily newspapers, and publishers were reported near agreement today.

But an immediate agreement between them would not necessarily mean an immediate resumption of publication. Two other unions since have gone on strike, and a third has been authorized to strike, if it desires, by its international union.

A jurisdictional dispute involving at least three unions also complicates the situation.

Sources close to both sides said after a bargaining session last night that the stereotypers' strike was "almost settled."

George Robinson, president of the striking stereotypers, said he would submit a new offer of the publishers of the morning Free Press and afternoon Times and News to a membership meeting of his local union at 8 p.m.

Robinson emphasized, however, he was neither accepting nor rejecting the offer. Reportedly the offer is for a \$3.50 weekly increase in a contract to end next Nov. 30. When they walked out stereotypers had a base wage of \$3.66 hourly.

Stereotypers reportedly offered to settle last night for a \$3.75 weekly increase, but insisted on keeping Nov. 30 as the contract expiration date.

Publishers say that whatever the outcome on their offer to the stereotypers they currently are caught "squarely in the middle of a dispute between rival unions."

Estate of Mrs. Booth Estimated at \$100,000

DETROIT (INS)—The estate of the late Mrs. Clara Coleman Booth was estimated at "upwards of \$100,000" in a will filed yesterday in probate court.

Mrs. Booth was the wife of the late Clarence H. Booth, the first treasurer of the Booth Newspapers, Inc. She died Dec. 21.

The will left the estate divided equally between three children, Mrs. J. Frazier Whitehead, Miss Frances M. Booth, and George C. Booth.

Quits Hastings Job

HASTINGS (INS)—Franklin Beckwith, Hastings City clerk since June, 1946, has resigned effective Feb. 1. His current term in the elective city clerk's post was to end in April 1957. Beckwith resigned to take a post with the National Bank of Hastings.

Second Breakin Nets Sights, 10,000 Bullets

An area sportsmen's club was looted of 10,000 rounds of ammunition Tuesday night, three weeks after a similar breakin netted thieves two rifles and 3,000 rounds.

Scene of the theft was the Multi-Lakes Gun Club in Commerce Township. According to sheriff's deputies, the bullets were of .22 caliber. Also taken in the Tuesday robbery were two telescopic sights.

Detective Leo Hazen states that the burglars also apparently consumed some liquor at the club's bar.

Our existence has been confined to this thin veneer or skin, and the great events inside and outside must be better understood, said Dr. Lloyd V. Berkner, president of Associated Universities, Inc., in New York, operating Brookhaven National Laboratory, an atomic research center.

How much and how often does the life-giving energy from the sun vary? What causes mysterious cosmic rays? How much does the blanket of clouds vary, and how does this affect weather? How much does each element affect our weather, our radio communications?

What's the sea bottom like, what can it tell us about the interior of the earth, how to look better for oil and coal and other riches? How long does it take deep ocean currents to travel from the antarctic to the Equator and back, how do they affect our weather, the wealth of seafood, asked Dr. Roger Revelle, director of the Scripps Institution of Oceanography at La Jolla, Calif.

An official of Correio da Manha said the proof of page six of the paper still was at the War Ministry hours after the press run usually starts.

Censorship to prevent criticism of the legality of Brazil's provisional government was decreed last month. The opposition newspaper Diario de Noticias was raided yesterday, and all copies seized because it published an editorial critical of censorship.

Censorship does not apply to news dispatches sent abroad.

Year's holiday leave they might go home to Callander and settle matters with their family in private.

The quintuplets, through a spokesman, insisted they are not estranged from their parents or other members of the family.

"There is a definite estrangement. But my wife and I bear no grudge against our daughters," Papa Dionne said.

According to Dr. Cousineau, the quintuplets were happy and cheerful before Christmas and gave no indication that they were having trouble with their parents.

Baseline Girl Uninjured When Auto Leaves Road

A 15-year-old Baseline girl was taken to the hospital last night after the car she was riding in ran off Predmore Road in Orion Township.

But Diane Raymore needed no treatment, authorities in Pontiac General Hospital said.

The driver, Evelyn M. Turcott, 18, also of Baseline, told Sheriff's Deputies she lost control when the car skidded on loose gravel.

15 Cartons of Cigarettes Stolen From Drive-In

Fifteen cartons of cigarettes were looted from a Pontiac Township drive-in, broken into last night, Sheriff's Deputies said.

They said entry to the establishment at 2000 Pontiac Rd. was gained by smashing the glass in the front door and unlocking it from the inside.

Ah—of Long Last

MUSKEGON (INS)—Officials today promised a boon to motorists using the city's No. 1 lot—automatic coin changers on parking meters—will receive a 30-day trial in January. If successful, the city may purchase the changers for its three off-street parking lots. The changers return five nickels for a quarter.

Williams Moves to Save Timber on Historic Isle

LANSING (AP)—Gov. Williams moved today to save 700 acres of virgin timber on historic Bois Blanc (Bob Lo) Island in the Straits of Mackinac.

The governor wrote Michigan congressmen urging that the tract be established as a state natural forest preserve.

The tract is now owned by the federal government, which has considered cutting some of the timber but agreed to delay the operation temporarily while the state tries to obtain the land.

Gerald E. Eddy, director of the State Conservation Department, said the state has tried to exchange state lands for the Bois Blanc tract but has been unsuccessful.

Francis C. Criel, president of the Michigan United Conservation Clubs, told the Conservation Commission at its last meeting that Rep. Victor Knox said he would try to obtain the land for the state.

The tract is one of the last remaining stands of virgin timber in the state.

Estate of McFadden Fails to Cover Burial

NEW YORK (INS)—An associate of the late Bernard McFadden, the eccentric publisher reputed to have amassed a \$30-million fortune, has revealed there was not enough money left in his estate to cover burial costs.

Ed Bodin, president of the Bernard McFadden's millions were dissipated in "hotel and health club ventures in California, running for public office in Florida and New York City, expensive promotion schemes, parachute jumping and sad stories by panhandlers."

McFadden died two months ago in Jersey City. He was 87, and was living on a \$2,000-a-month annuity which stopped when he died.

Used Car Sales in Detroit Area Off 50 Per Cent

DETROIT (INS)—The Michigan Used Car Dealers Assn. said today a survey of dealers showed sales of used cars in the Detroit area have fallen off about 50 per cent since Dec. 1.

Detroit's three metropolitan newspapers have been closed down by a strike since that date. The newspapers normally carried a heavy volume of used car advertising.

During the first 11 months of this year sales of used cars had shown a gain of 30 per cent over the same period a year ago.

Thomas J. Hart, president of the dealers association, said that despite the gain in sales earlier this year profits of used car dealers in the Detroit area were below 1954 due to discounting and high trade-ins by new car dealers on 1955 and 1956 models.

Thief Calls Much-Robbed Victim by First Name

LOS ANGELES (INS)—Market operator Max Linger has been held up by the same man three times and the fellow now calls him by his first name.

"The gall of that guy," says Linger. "He entered my store again yesterday, pulled the same 32 automatic pistol, and says: 'C'mon now, Max, give me the money. No monkey business now.'"

Linger handed over \$33, the contents of the cash drawer, just as he did last March, and again in April.

Circuit Court Date Set for Two Detroit Youths

Two Detroit youths, charged with breaking and entering, waived examination before Farmington Township Justice Allen Ingle yesterday. Ingle bound the two over to Circuit Court Jan. 5.

He set \$10,000 bond for Edward Dixon, 19, and \$5,000 bond for Robert Smith, 17. Both youths failed to furnish bonds and were returned to jail.

Shots From Air Rifle Cause \$100 Damage

About \$100 damage was caused when someone shot a B-B gun at a home at 743 Auburn Ave. last night, insurance officials told police.

Police said juveniles are suspected of the act, which destroyed glass panes in a front door and window.

Conlin Still Seeks Mental Care Bill

Legislation With Tighter Curbs on State Patients Sought by Solon

LANSING (AP)—Rep. Rollo G. Conlin (R-Tipton) returned today to his three-year-old fight to obtain a more sensible screening of persons needing state mental care.

Conlin said he was preparing legislation to establish regional diagnostic centers in the State Mental Health Department.

1—He said his program would provide for:

Temporary commitments of not more than 60 days to patients by probate courts to provide time for regional centers to complete mental and physical examination and diagnosis.

2—Recommendations by the regional centers to the probate courts for the treatment and facility best suited to the patient.

3—Action by the probate courts for permanent commitment or other disposition as the courts may deem necessary.

4—A requirement that patients committed to state hospitals by the probate courts, whom the regional centers believe do not require commitment, shall remain the financial responsibility of the county of residence.

Conlin said his plan was an "effort to deal humanely with those suffering from mental illness and a recognition of state responsibility for their treatment."

GOC Members Receive Awards for Long Service

Twenty-five members of the Pontiac Ground Observer Corp were presented with awards based on length of duty with the organization at a meeting held Tuesday night at the County Office building.

The awards were presented by Lt. Jack Saxton of the Air Force, who was the night's guest speaker.

Those receiving honors were: 1000 hour merit bar, Leona Hegeman; Assistant chief wings, Gene Jones; Ben Morgan, Francis Leroy and Earl Steel; 250 hour merit bars, Donald Graham, Edna Hawley, and Lewis Wood; 100 hour certificates, Leroy Good, Lena Good, Donald Graham, Edna Hawley, Earl Eddy, William Moore, Eugene Mabius, Juanita Mabius, Carl Pinkston, Harry Stump, Harry Sticker, Earl Steel, and George Williams, 200 hour wings: Jim Barrows, Geraldine Brown, Hilda Graber and Juanita Turnage.

Telegraph Rd. Mom Raps Ziegler's Plan

DETROIT (INS)—A spokesman for mothers who staged a blockade of Telegraph Road seeking a signal light today criticized a State Highway Department solution of the problem.

Mrs. Clara Tharrett disputed traffic figures reported by Highway Commissioner Charles M. Ziegler, saying: "He's full of hot air. His counts must have slipped a sprocket."

Ziegler yesterday rejected the mothers' demand for a signal light at the Cypress Street intersection and said school buses would be rerouted to cross busy Telegraph Road (U.S. 24) by a nearby overpass. He said Telegraph carries 30,000 vehicles daily and Cypress only 39 in peak hours.

Mrs. Tharrett said the mothers will keep their promise to Gov. Williams not to resume their blockade but that they plan to enroll their children in different schools Jan. 3 so they won't have to cross Telegraph.

Shots From Air Rifle Cause \$100 Damage

About \$100 damage was caused when someone shot a B-B gun at a home at 743 Auburn Ave. last night, insurance officials told police.

Police said juveniles are suspected of the act, which destroyed glass panes in a front door and window.

The Day in Birmingham

Drafting Begun to Build Sections of Evergreen

BIRMINGHAM —Drafting of incorporation articles for an authority of the four governmental units north of 14 Mile Road to build their own section of the Evergreen drain was begun yesterday morning at a meeting in the municipal building.

The authority's proceeding with the project will have Birmingham, Bloomfield township, Bloomfield Hills and Troy provided with the temporary measure, which can be adapted when the Evergreen sanitary sewer project is undertaken.

Engineering plans for the Twelve Town storm drain were discussed by city managers of four towns yesterday afternoon. Robert Wright of Clawson, Nor-

man Bernard of Troy, Edward Shafter of Royal Oak and D. C. Egbert of Birmingham attended in Royal Oak.

Royal Oak's manager will ask his commission permit for that city to share guarantee of engineering planning funds up till Jan. 17, as Egbert did with Birmingham on Tuesday. This city's 50 per cent has already been approved.

Opening of 14 Mile road through the Birmingham Country Club's golf course will be discussed when the planning board meets. The postponed meet will be on Jan. 5 or 10, but date is not set.

"The opening of 14 Mile would just involve the stand of timber that edges the golf course, and if it veers to the south because of the hilly territory it might involve homes," according to Herbert Herzberg, city planner.

"It would best benefit the city as a whole to have the additional east and west road to carry the added burden of traffic now and in the future," Herzberg said, pointing out that experts expect the Detroit area population to jump from its present three million to four and a half million by 1970.

"Our roads would have handled traffic here in 1930," he says, "but just aren't adequate today." Petitions are on file of homeowners in the area between Maple and 14 Mile Road in favor of the 14 Mile road opening, and others, from residents along the road itself, oppose the through traffic it would make possible.

Widening of 14 Mile from Greenfield east to the Birmingham city limits in cooperation with Royal Oak received the City Commission's nod of approval Tuesday night. Sidewalks are included in the plan between the two cities.

Home from University of Michigan, Elizabeth Ann Buckner, 18, of 670 Wellesley received bruises on leg and face when she was hit by a car driven by Mrs. Doris M. Loh, 16261 Kirkshire, Southfield Township Wednesday. No ticket was issued by Birmingham police.

Two boys in their early teens, reported missing from home, were found with sleeping bags, ready to spend Wednesday night in a fire-wrecked home on Quanton road.

William H. Miller, Service for William H. Miller, 81, 647 Henrietta, who died yesterday after a short illness, will be Friday at 2 p.m. at Manley Bailey Funeral Home. Entombment will be in White Chapel Cemetery.

Mr. Miller was born in Rochester, and for the past 21 years has been landscape gardener on the Graham John Graham estate in Bloomfield Hills. He belonged to First Presbyterian Church.

Surviving are his widow, Marion McKinley Miller, a daughter, Mrs. Emma Rogers, of Detroit and two sons, Jess of Birmingham and Irving of Crossville.

Kalamazoo Judge Asks Traffic Violators to Pray

KALAMAZOO (INS)—Municipal Court Judge Clark M. Olmstead had 35 traffic law violators brought before him bow their heads in prayer in thanks that their violations hadn't caused death to themselves or others.

The judge also had them say a prayer in memory of more than 600 persons killed in traffic accidents throughout the nation during the Christmas weekend holidays.

Edward M. Biddle, 22, admitted taking the parts from a car parked on Duke Street.

DETROIT (INS)—A Detroit man yesterday pleaded guilty to stealing two fender skirts here last week and was sentenced to 30 days in jail by Municipal Judge Maurice E. Finnegan.

Edward M. Biddle, 22, admitted taking the parts from a car parked on Duke Street.

WATCH RE

Red Malayan Chief Bolts Amnesty Talks

BALING, Malaya (U)—Malayan Communist chief Chin Peng stalked back into the jungle today, breaking up the talks on amnesty for his forces to end Malaya's 7½ years of guerrilla war.

But in walking out, the 36-year-old leader offered to end the fighting when an "elected" Malayan government takes complete control of its military forces from the British, who are now waging much of the fight.

Britain has promised independence or Commonwealth membership eventually to the federation of Malaya, now a protectorate with an elected legislature over which the British high commissioner has veto power. The island crown

colony of Singapore also has been given the same promise.

Prince Abdul Rahman, chief minister of the federation who led the negotiations with Chin, will go to London Jan. 1 to begin talks with the British government on Malayan independence. The Red offer to quit fighting appeared to give him a strong talking point.

Police Chief Struck

LIVERMORE, Calif. (U)—Police Chief J. R. Michels was struck by a big truck and trailer as he stepped from a curb into the truck's path. The chief, who has been directing a holiday season campaign against jaywalking, was hospitalized with leg bruises. He said ruefully he was more embarrassed than hurt. The truck driver was not cited.

Rebels May Terrorize French Election Day

ALGIERS (U)—Nationalist rebels called today for a sharp rise in terrorist activity on France's parliamentary election day Jan. 2. Clashes between guerrillas and French forces left another five dead in the bloody North African territory. Rebels kidnaped four persons and the French captured 25 Algerians.

The underground Algerian Communist newspaper Liberte issued an appeal to make the election day a "great national day of union and patriotic action. . . to bring closer the day of national liberation."

Election of Algeria's 30 members

of the French National Assembly has been postponed indefinitely because of the continuing violence.

Saki Partygoer Punches Jap Reporter in Scuffle

TOKYO (U)—Tokio Okada, 26, Japan Broadcasting System reporter, popped into the virus and blood plasma section of the Welfare Ministry yesterday and found a saki party in progress.

Welfare official Tetsuhisa Abe, 29, socked Okada on the jaw and chased him upstairs to the press room. Okada's pals manhandled Abe and turned him over to police. Japan Broadcasting called Abe's action "unprovoked." Welfare officials were unavailable for comment today. They were enjoying a "year-end-forgetting" holiday.

Yeast is a series of plant-like bodies, each little particle being somewhat less than one three-thousandths of an inch in diameter. Six states—Maryland, Georgia, North and South Carolina, Virginia and West Virginia—derived their names from former British rulers.

Industrial Atomics Grow as Private Capital Invests

WASHINGTON (AP)—The era of atom-for-profit moved perceptibly closer in 1955, the first full year of the atom's commercial history.

Though most companies figure they'll be lucky to break even on nuclear operations for the next five years or more, atomics already has become a major American industry.

It now is getting multi-million-dollar infusions of private capital, and in 1956 expects a major breakthrough—private sales in foreign markets.

Meantime, the cost of atomic power plants is being whittled down by steady technological progress. The most advanced designs now on the drawing boards still are at least twice as costly, per kilowatt of capacity, as coal plants.

But experts say the new designs may be only about one-sixth as expensive to construct as the nation's first full-scale atomic power plant, being built jointly by the government and Duquesne Light Co. of Pittsburgh. It will start delivering power in 1957.

There were other major strides toward the goal proclaimed by President Eisenhower—to "strip the atom of its military casing and to adapt it to the arts of peace." They include:

1. The 72-nation conference on peaceful uses of atomic energy, held at Geneva in August under United Nations auspices. Free world observers agreed that it demonstrated convincingly America's sincere desire to share atomic benefits around the globe.
2. The signing of bilateral agreements with 20 nations, and the initialing of eight more, under which nuclear products and know-how may be exported and exchanged.
3. Disclosure that the United States is launched on a "fusion-for-peace" program, intended to adapt the hydrogen bomb principle to useful applications.
4. The first atomic industry trade fair was held in Washington in September with more than 70 exhibitors showing their wares to an estimated 7,500 potential customers, investors and technicians.

Germany, France and the other European countries for the most part, plan to buy their initial reactors from the United States and use them as models for home-built reactors.

SOME COMPLAINTS

It appears likely that an act will be opened up in the coming session of Congress for possibly substantial amendment. Some of the complaints concern:

1. The protests of prospective foreign buyers that, even if they obtain U.S. reactors, they will not have assured supplies of fuel; and that they cannot yet buy sizable power reactors under present U.S. regulation.
2. The difficulty of insuring reactors. Private insurance companies are not prepared to underwrite risks of unknown and possibly catastrophic dimensions. Government assumption of part of the risk has been proposed.
3. The thick secrecy with which AEC still surrounds much technical information, despite considerable liberalization in the past year.

Evidently confident that these and other difficulties will be removed before they become crucial, utilities groups are pushing forward under the law which permits them to build, buy and own reactors. They will feed the power into their own systems.

On completion these projects, plus several approved or pending applications calling for very limited AEO help, will represent an investment of some 300 million dollars.

Announcements of smaller reactors—for power, research, testing, or specialized uses—have come in confusingly swift succession.

In other words, by 1960 nuclear power alone will be contributing about half again as much energy as exists today. Meantime, power demand will have expanded so greatly that the atom still will be providing only about half the power used.

Tonga's Queen Salote, who was educated in Auckland, New Zealand, continues to make annual visits there.

DON S. ACKERMAN

DRESS UP your mail box with your name in beautiful block letters set in a graceful mounting. All in everlasting aluminum which can never rust or rot. Assembled while you wait; locked into a solid, permanent unit. Ends forever ugly hand lettering and constant repainting. Inexpensive, too, and simple to install.

Senator Advises Farm Revision

Change in Measurement to Control Production Outlined by Schoepel

WASHINGTON (AP)—Sen. Schoepel (R-Kan.) states Congress might well consider establishing bushels, bales or pounds—rather than acres—as the measurement used in attempts to control farm production.

Schoepel, a member of the Senate Agriculture Committee, outlined his present thinking on farm matters in an interview.

He said he was convinced that acreage quotas have encouraged more intensive production methods "resulting in about as large supplies in crops produced as was the case with more liberal allocations."

With this background, he said, he can see "considerable merit... so long as we have large surpluses" in giving consideration to "some practical, equitable approach to bushelage, baleage or poundage quotas rather than acreage quotas."

The Agriculture Department, in response to a request from Congress, has reported on the probable effect of a poundage or acreage-poundage control program on tobacco rather than the existing acreage allotment effort. It made no recommendations, however.

Schoepel said he also favored "some form of the soil bank" program under which farmers would be paid to retire certain land from crops in surplus supply.

TODAY'S ASSIGNMENT FOR:

JUNIOR EDITORS

HAPPY NEW YEAR—4
American Girl

In America there is much noisy celebrating of New Year's Eve. Revelers roam about the streets with noise makers. There are many parties to "watch the Old Year out."

Here is a Junior Editor at a New Year's Eve party. She wears a dress with the new date on it and has been tossing confetti and colored paper tape. She wears bracelets of bells on her wrists and anklets; she has a funny hat with small balloons on it, and she carries a feather duster tickler.

Paste the picture on cardboard and color it with crayons. Cut out the parts carefully. Join the separate arms by fastening them behind the shoulders in the places indicated by holes, using brass fasteners or bent pins.

Now the Junior Editor can put on her balloon hat and wave her tickler. Fold back the ends at the dotted lines and the figure will stand.

Junior Editors pays \$10 for any reader's idea that is used. Write your suggestion to "Junior Editors" in care of this newspaper; it cannot be acknowledged or returned, and in case of duplication of ideas, the first submission shall be accepted.

Tomorrow: An American boy.

This Is the Best Remedy — Enjoy a Sober New Year's

By ALTON L. BLAKESLEE
AP Science Reporter

ATLANTA (AP)—Don't count on a walk in fresh air to sober up quickly if you overimbibe on New Year's Eve.

For getting more oxygen doesn't help you burn up excess alcohol faster, a scientist said today. A few lungfuls of fresh air won't make you a safer driver.

The tip comes from Dr. Theodore Koppanyi, professor of pharmacology at the Georgetown University Medical School, Washington, D.C. Dr. Koppanyi discussed alcoholic poisoning in a paper prepared for the American Assn. for the Advancement of science.

IT TAKES TIME

It takes five to six hours for your body to burn up four ounces of whisky, he said. And experiments indicating that breathing nearly pure oxygen speeds sobering are not borne out by other studies.

There's also disagreement whether injections of insulin or a sugar, glucose, speed the rate of burning up alcohol.

From limited experiments, injections of another form of sugar, fructose, do look promising for making the human body get rid of alcohol faster, the scientist said.

Another study—not mentioned by Dr. Koppanyi in his talk—has reported benefits from eating honey in sobering up and avoiding hang-over. Honey contains fructose.

Dr. Koppanyi said enough drinks to make your blood contain from 0.15 to 0.45 per cent (15 to 45 hundredths per cent) alcohol produce inebriation. More drinks than that produce coma. A blood content of from 1/2 to 1 per cent alcohol "is within the possibly fatal range."

He warned there is a "low margin of safety" between an anesthetic dose of alcohol, and a lethal dose. The fatal dose varies with individuals, but drinking from one to two pints of 100 proof distilled whisky in a short time has killed people.

There is no specific, reliable treatment for severe alcoholic coma, he said. Good nursing care and use of certain drugs sometimes are very useful.

Cash, Change Taken in Restaurant Breakin

A breakin at Kay's Restaurant, Commerce Township, netted thieves \$24 in bills and change from the cash register. Oakland County Sheriff's detective Leo Hazen said yesterday.

The thieves entered through a side door, he said, after breaking a window.

Dust Storms Threaten Plains

Dry Soils, Little Rainfall Make Farmers Anxious in Ten States

WASHINGTON (U)—The threat of new dust storms hangs over wide areas of the Great Plains, the Agriculture Department reported today.

Reports from the field as of Dec. 1 indicated, the department said, that dry soils and below normal rain and snowfall have left about 20 million acres of land in 10 Great Plains states in a condition to suffer wind damage.

HEAVY CROP LOSS

This acreage, however, is about six million less than that in a similar condition a year ago. So, severe dust storms during the past winter and spring caused heavy crop losses and soil erosion, just as they have done periodically for many years.

Of the land subject to blowing, about 13,886,000 acres is in cropland. The balance is largely range grazing land.

"The total amount of land that will actually be damaged during the current blow season will depend," the department said, "on such factors as the intensity of livestock grazing, the type, velocity and duration of windstorms, the amount and frequency of precipitation, and the timeliness of emergency tillage in blow areas."

The department said about 75 per cent of land in a condition to be damaged by storms is in Kansas, Texas and Colorado. The other states include New Mexico, Oklahoma, Montana, Nebraska, North Dakota, South Dakota and Wyoming.

Quarles Says Budget Is Not Retreating One

TOKYO (U)—Air Force Secretary Donald A. Quarles said today the new U. S. defense budget "is not a retreating budget—and it gives us the wherewithal to do a sound job."

The secretary, who arrived today on a two-week tour of Far East Air Force bases, said he was not completely satisfied with the Air Force share.

THE TRUTH IS

RETIRED UNDEFEATED

IF A BULL ESCAPES DESTRUCTION IN THE RING, HE IS NEVER PERMITTED TO FIGHT AGAIN! BECAUSE THE EXPERIENCE GAINED IN THIS INITIAL COMBAT WOULD MAKE HIM TOO DANGEROUS IN A SECOND FIGHT!

STABILIZERS! YOU CAN GIVE YOURSELF A BIG ASSIST IN STABILIZING YOUR FUTURE BY INVESTING IN U.S. SAVINGS BONDS! REMEMBER—YOU CAN NOW GET A 60% RETURN ON YOUR INVESTMENT!

Little America Officially Settled

Geographic Expedition in Antarctica Begins With Hoisting of Flag

LITTLE AMERICA (U)—The Stars and Stripes were raised again at Little America yesterday. The site of the first two camps built in the antarctic by Rear Adm. Richard Byrd was desolate.

The buildings of the first camp built in 1928 are covered by an estimated 60 feet of snow and ice. The second camp is about 40 feet below us.

All we found on the surface at 3 a.m. were the tops of towers and poles.

The experts aboard the icebreaker USS Glacier haven't decided yet where to build the permanent main base of the current United States antarctic expedition. The base will be used during the next three years by International Geophysical Year scientists.

SEEK STABLE SITE

The experts are seeking a site that would be unlikely to break off and float to sea. The right spot would also be free of crevasses and practical for loading cargo for ships from the bay ice up to the ice shelf.

The specific area known as Little America near the Bay of Whales may not be chosen again but no one here will ever forget the macabre scene.

Sticking up from the wind swept snow are the tops of two steel radio towers built at first Little America. The towers were originally 70 feet high. Today only about eight feet of their peaks are showing.

Also protruding from the snow like fingers frozen in death are the tops of five wooden poles which were used for radio wires at the second Little America between 1933 and 1935.

The second settlement was built directly over the first.

U.S. Children Get Belated Thanks on Gifts to Greece

SHAWNEE, Okla. (U)—Shawnee school children have received thanks for the Christmas packages sent to children in Greece—two years later.

Packages went out in time to reach Greece for Christmas 1953. Two days after Christmas this year a letter came—in Greek. A retired Greek cafe operator in town, George Theodore, translated it.

"The schools of Greece are poor and we have nothing of material value to send to the American children," the letter read. "Do send our blessings and truly thank the American children."

The gift packages went through the Red Cross, distribution center

in Washington and to a distribution point overseas. The letter apparently came back the same way, accounting for the delay.

B'nai Israel Youth to Conduct Service

Friday at 8:30 p.m., Congregation B'nai Israel will hold its annual College Evening Service dedicated to the B'nai Israel young men and women currently on winter vacation from different in and out of state colleges and universities.

The entire service will be conducted by members comprising this group. Featured speaker of the evening will be Stanley Kamper, sophomore student at the University of Michigan, who will speak on "The Place of a Fraternity on the College Campus."

Title Battle Delayed

BUENOS AIRES (AP)—The world flyweight title fight between champion Pascual Perez and Leo Espinosa of the Philippines has been postponed from Jan. 7 to Jan. 11.

Managers of both fighters agreed today on the postponement because of the year-end festivities.

The 1951 Rams set a pro football league record with 5,506 yards gained.

Rose Bowl Camps Physically Fit

PASADENA, Calif. (AP)—There hasn't been a pessimistic note from either the Michigan State or UCLA camp this week as the Rose Bowl contestants approach peak fitness for their New Year's football game.

Both coaches, Duffy Daugherty of the Spartans and Red Sanders of the Bruins, are well satisfied

with the progress their squads have made since practice started. Daugherty said today there's a little sharpening to be done, physically, "but we know we won't have trouble getting them worked up emotionally by Jan. 2." He has workouts scheduled today, tomorrow and Saturday, with a 30-minute limbering up period Sunday. Daugherty said he would start Leo Haidys, a 210-pound senior, in

place of Pat Burke at right tackle. Haidys is 8 pounds heavier than Burke, a sophomore.

Sanders was informed by Dr. Walter Scott that star passer Ronnie Knox, who suffered a broken ankle bone in the Washington game Nov. 12, was available for service. X-rays showed yesterday that the break has healed properly.

But Sanders isn't planning to start Knox, regardless. He said: "Just because the doctors say he's available doesn't mean he'll play. If he doesn't move around well he won't be playing much. He can't pass flat-footed."

The coaches were paying their rival players all sorts of compliment yesterday. Daugherty paid high tribute to the Bruin blockers

who pave the way for tailback Sam Brown and Sanders said Spartan quarterback Earl Morrall's passing and running and the power cruising of Walt Kowalczyk impressed him greatly. Kowalczyk, he said, is the "hardest running back I ever saw; why he even hurts you with his stiff arm."

Daugherty was guest at a luncheon of the UCLA alumni yesterday, and never at a loss for a quip. He said that after listening to the Bruin fight song he was "ready to play the game right now." Sanders said the Bruins may be facing the best team in the country. "Being undefeated doesn't mean a team is one of the best," said Sanders. "Juniata and Centre were just as undefeated as Oklahoma and Maryland."

OLD PRO — NEW PRO — Jack Kramer (left) the old pro among tennis players has a few words with the newest netter to the pro ranks, Tony Trabert. Kramer and his touring troupe, highlighted by the Trabert-Pancho Segura matches visit Detroit next Tuesday Jan. 3rd. The matches will be played at the University of Detroit fieldhouse. Australian Rex Hartwig meets Pancho Segura in the other singles match, with Trabert and Hartwig teaming for the doubles.

Million-Dollar Offer Scorned by NFL Giants

Bell Says He Made Offer to Maras for Unidentified Group

PHILADELPHIA (AP)—Commissioner Bert Bell of the National Football League says the owners of the New York Giants have turned down a million-dollar offer for their franchise.

Bell said yesterday he had made the offer on behalf of a group of men, whom he declined to identify, to Giant Owners Tim Mara and his sons Wellington and Jack.

The Giants, although a losing proposition in recent years, have the league's largest population area from which to draw crowds plus potentially large television revenues. In addition, the club appears to be back on the way up.

Tim Mara bought the Giant franchise in 1925 for \$2,500.

Leafs Shut Out Canucks to Tie for 4th Place

Three-Way Scrap for 3rd, 4th NHL Spots Involves Wings, Too

By THE ASSOCIATED PRESS
The end of the National Hockey League season is still some three months away, but a three-team battle for the third and fourth playoff spots already is shaping up.

As of today the Detroit Red Wings hold down third but only by a margin of 2 points over the Toronto Maple Leafs and the Chicago Black Hawks.

The Leafs moved into a tie with the Hawks for fourth place last night as they blanked the league-leading Montreal Canadiens 2-0 in the circuit's only game.

Goalie Harry Lumley turned in his second shutout of the season as the Leafs made second-period goals by Ron Hurst and George Armstrong stand up. Lumley's other shutout was against the Hawks Oct. 29.

The Canadiens tested Lumley 28 times with his best stops coming in the second and third periods on attempts by Maurice (Rocket) Richard, seeking the 500th goal of his career, and Jean Beliveau, the league's No. 1 marksman.

Crack Two-Miler May Be Out of Olympics

LOS ANGELES (AP)—Fernando Ledesma, crack collegiate two-miler, will be lost to the university of Southern California track team next season and may not attempt to qualify for the U. S. Olympic team next June.

Coach Jess Mortensen said yesterday the speedy senior is still recovering from a liver infection. Last spring, Ledesma set a national collegiate record when he ran the two-mile in 8:57.7.

Babson Sees '56 as 2nd Best Year

(Continued From Page One)

continue to be spent on research and new plant expansion. The effect could well be another "turn up" in the Babsonchart Index of Business.

9. Despite the decline in family formations, the baby boom will roll merrily on through 1956. The reason: More parents are willing to have four, five, and even more youngsters.

The result: A tremendous, sustained demand for all kinds of necessities—housing, food, clothing, new schools, etc.

10. All told, I look for 1956 to be the second best business year in history—just a shade off from 1955. Predicted declines in the key auto and residential building industries will largely be offset by rising expenditures for roads, sewers, and schools—and by increased demand for electricity, natural gas, and foods.

11. The main handicap to retail business in 1956 will be intensification of the parking nuisance, but this is getting so terrible that a

revolutionary solution may be in sight. Shopping centers are a partial remedy and will help suburban property. But only 15 per cent of the people will live in the suburbs in 1956.

More Parking Lots Will Aid Business

12. Cities will condemn old buildings and provide thousands of parking lots in 1956. As this is done, city property will again come back. Until then we see no price improvement during 1956 in city business property.

13. Building costs will average higher through at least the first half of 1956. This means that fewer new homes may be built next year.

14. With demand falling and money more expensive, speculative builders of new homes will have to watch their step more closely in 1956 than in any year since the ending of World War II.

15. Duplex dwellings will probably continue in demand through the whole of 1956 if they are well located. The limiting of rents will probably be totally abolished during 1956.

16. With the trend of vacancies showing a tendency to rise, owners of the newer and more costly apartment buildings will find their profit margins squeezed harder in 1956 than at any time in recent years.

17. Commercial farms need not suffer during 1956. Increased efficiency and new machinery should offset price declines.

18. Owners of small scattered farms will suffer during 1956. They have not the volume or capital to cut their costs to offset the reduced prices for their crops.

19. Farmers within ten or fifteen miles of a city can "beat the game" by selling out at the increased prices which their land will bring for subdivisions. Many more well-located close-in farms will become subdivisions during 1956.

20. Taken all in all, the real estate situation should average only moderately below the good level of 1955. However, activity promises to be less and those who have been holding real estate for speculative profits might do well to consider selling.

21. Russia will keep out of war with us during 1956.

22. There will be one or more small wars during 1956. Both sides of the conflicts will try to secure help in the form of munitions from both Russia and the United States, but none of these will develop into serious conflicts.

23. The "cold war," now existing between Russia and the United States, will continue through 1956.

24. The hydrogen bomb and the guided missile will be the greatest international factors for diplomatic trading during 1956. This trading will hold down the price of big-city property.

25. The Republicans will turn slightly "New Dealish" during 1956 and this will bring on a lively and heated Presidential campaign.

26. Democrats are uncertain as to what their policy will be in 1956. Stevenson is a liberal; but more conservative than many Democrats. Kefauver appeals to the masses while Harriman leans to the left. However, some "dark horse" may run off with the Democratic nomination.

Limited Tax Cuts May Be Realized

27. Some taxes will be reduced during 1956. These cuts will try to favor all voters slightly; but the largest benefits will go to low-income groups.

28. The farm problem—concerning higher price parities—will be the center of most political fights.

29. The cost of living will increase only slightly during 1956. We, however, must not forget what weather can do to production, prices, and even to the stock market.

30. All the above means that there is now in sight no reason for further inflation during 1956. Certainly, I look for no runaway price climb.

31. I am not a crop expert, but my associates' forecast for 1956 is as follows: (1) Further acreage reductions that will be largely offset by soaring yields resulting from intensified cultivation; (2) expanded farm subsidies that will mildly bolster crop prices and farm income compared with the 1955 averages.

32. Although wheat and corn prices depend upon both shifting weather and foreign conditions, for 1956 I forecast moderately higher prices for the major grains, based on increased subsidies to be voted by Congress.

33. Industrial prices will enter the new year on a high plateau and should be well maintained to possibly firmer during the first part of 1956. Later, as business falters, look for selective easing in this group.

34. Steel in 1956 will average higher in price than for all of this year. Do not look for any price cut in this key metal, even if business slackens.

35. Nonferrous metals in 1956 should move with the Babsonchart Index. High prices in early weeks may be followed by selective weakness. Zinc and lead may be the first to give a tip-off on the coming downturn, but copper eventually is riding for the greatest fall.

36. Processed and frozen foods should advance only slightly in price as increased labor costs are offset by new machinery and competition intensified. Early firmness in textiles should be followed by some late-year weakness.

37. There will probably be more leisure time during 1956. This should help the entertainment group, including sports, travel—and possibly the petroleum industry.

38. During 1956 I hope that school teachers will be paid more money. But, in order not to have increased municipal taxes, school committees must develop some method of either improving the efficiency of the schools, or reducing the time necessary for completing studies.

39. More people will continue during 1956 to return to the help of religion. However, statistics on church membership unfortunately cannot be entirely depended upon.

40. Interest rates will start the year at high levels, but later I look for some easing to help the building industry. The present Administration will not allow high money costs to bring about unemployment.

41. Seasoned dividend-paying stocks will do better in 1956 than the more speculative issues. Stocks will follow individual prospects more closely, rather than the curve of business activity.

42. There will be one or two bad breaks during 1956. Railroad stocks will move lower. Biggest declines are likely in auto and residential-building-materials stocks. Utilities will hold up best.

43. I am not making any extensive recommendations, but prefer to select smaller, well-seasoned, undervalued situations for security and good long-range prospects. Those in which I have great confidence are the top-ten group of variety chain-store stocks.

Stock Margins Face Possible Reduction

44. If the rallies continue to be less impressive than the declines in the stock market, I feel that the money managers will reduce stock margins before long.

45. Bank, insurance company, and certain investment trust stocks should continue to be a refuge for the uncertain investor and for those who seek security and income without reference to prices or market-ability.

46. Aircraft stocks in 1956 may suffer from increased government renegotiation. This will be a serious threat if the Democrats win next autumn.

47. Soundly financed natural gas stocks should continue to enjoy good growth during the year ahead.

48. We will hear much more about new industry and new inventions during 1956. Many very important developments are on drawing boards and in test tubes.

49. Canadian stocks have reached their peaks for this cycle. This includes the uranium craze. On the other hand, the time is coming when the greatest stock market profits will be in connection with Canadian stocks.

50. Economic education will continue more and more a factor throughout 1956. The advertising which the New York Stock Exchange is now subsidizing will continue. This will be followed by labor-union and educational programs. The growth of colleges and institutes of business administration will continue.

I now see no depression ahead for 1956, but, of course, stock prices will not "grow to the skies" and there must be a sad readjustment some day. Investors are already beginning to switch from common to preferred stocks, and especially to non-taxable bonds.

Recipe for Rolls Brings \$25,000

NEW YORK (AP)—Mrs. Henry Jorgensen of Portland, Ore., has won the \$25,000 annual cooking prize of the Pillsbury Flour Mills with a recipe for an easy-to-make sweet roll.

The Pillsbury concern said Mrs. Jorgensen "ran circles around other entries" in the firm's seventh annual "Bakeoff," in which she and 99 other women vied at the Waldorf-Astoria Hotel.

She said her recipe came from her mother.

Mrs. Jorgensen, wife of a Portland city employee and mother of an 18-year-old son, had entered the Pillsbury contests each year previously but never qualified for the final round.

She said she would use part of her prize money to send her son to college.

Second prize of \$7,500 went to Mrs. Claude E. Hughes of Orange, Va., for her "Regency Ribbon Cake"—a one-bowl, one-batter affair.

Mrs. Nicholas Suchi of Otter Lake, Mich., won third prize of \$2,500 with her "Apple Dimplings."

Bake Ham Butt With Peaches for Fine Flavor

Your family will enjoy this dish if they go for ham served with fruit.

Smoked Shoulder Butt With Peaches

1 small (about 1½ pounds) boneless smoked pork shoulder butt
Whole cloves
¼ cup honey
1 tablespoon prepared Bahama-type mustard
1 can (30 ounces) peach halves (thoroughly drained)

Cover butt with water and bring to boil. Simmer, covered, until meat feels tender when long-handled cooking fork is inserted in center—use 45 minutes per pound as a cooking guide.

Drain butt thoroughly and place in baking pan—an 8-inch square heat-resistant glass dish is a good choice because it may be brought to the table.

Insert cloves, about 1 inch apart, over top and sides of butt. Stir honey and mustard together; spoon most of mixture over butt.

Arrange peach halves, cavity side up, around butt; spoon remaining honey mixture into peach cavities.

Place in very hot (450 degrees) oven to brown butt and heat peaches through—10 to 15 minutes.

Serve at once, using small amount of liquid in baking dish as a sauce for the sliced ham. Makes four to six servings.

Wonderful topping for cauliflower: A half cup of fine dry bread crumbs browned in half a cup of butter.

Loaf Uses Nuts and Vegetables

The time comes after every holiday feast, when the great bird goes its way in dozens of tasty leftover dishes.

Sometimes the leftover vegetables still hang on, and here's a delicious dish tailor-made for leftover mashed potatoes, celery, carrots, and even those chopped nutmeats!

Quick and easy to prepare, your leftover vegetables will go in a flash when this loaf is put on the table.

Leftover Vegetable Loaf

- 1 cup cooked carrots
- 2 cups mashed potatoes
- 2 tablespoons chopped onion
- 2 eggs
- 1 cup chopped nutmeats
- 2 tablespoons fat
- 1 teaspoon salt
- 1/2 teaspoon paprika

Preheat oven to 350-400 degrees (moderate). Mix all ingredients in large bowl. Pack into a greased loaf pan. Bake 35 minutes in the oven.

Serving tip . . . pour tomato sauce over each serving. Make sauce by using tomatoes instead of milk in a white sauce recipe.

Substitutions . . . use leftover celery instead of carrots.

Lemonade and Rhubarb Flavor Dumpling Dessert

Here's a dessert the family will particularly like on a cold winter evening: Delicious hot dumplings with a new Lemonade-Rhubarb Sauce.

Here's the recipe:

LEMONADE-RHUBARB DUMPLINGS

Sauce

- 1 (12 ounce) package frozen rhubarb
- 1 (16 ounce) can frozen concentrate for lemonade
- 1 canful water (still lemonade-can mix)
- 3 tablespoons sugar

Thaw rhubarb and place in large skillet; add concentrate for lemonade, water, and sugar. Mix well and let come to a full rolling boil, then drop the dumplings in it.

DUMPLINGS

- 2 cups biscuit mix
- 1/2 cup milk

Combine ingredients and mix lightly. Drop by tablespoonsful into the hot lemonade-rhubarb syrup. Cook uncovered for 10 minutes over low heat, then cover tightly and cook 10 minutes longer.

Serve hot. Top with plain or whipped cream, if you like. (Serves six to eight.)

Broil Peach Halves With Tasty Filling

Here are a few suggestions for platter accompaniment to enhance your Christmas ham.

Cling peach halves broiled with any of these fillings:

- 1 tablespoon well-drained sweet pickle relish
- 1 teaspoon brown sugar moistened with a few drops of mild vinegar
- A bit of jelly
- A marshmallow, or ready-prepared marshmallow whip
- Finely chopped nuts, and a teaspoonful of honey

Place on broiler pan, about three inches from the source of heat; broil about five minutes.

Coffee Coronet Crowns Table or Buffet for Party

Here is a delectable confection that looks regal on a party dinner table, a gala buffet board.

Your friends and family will recognize a royal dessert when they see one—and you won't have to tell them that it demands a minimum of time spent in the kitchen.

As its title indicates, coffee is the main ingredient in this Coffee Coronet.

Coronet. There's coffee combined with gelatin to make the molded filling, finely ground coffee and sugar sprinkled on the top as a lovely last touch.

Need we add that piping coffee in the cup should accompany a Coffee Coronet? It's just a case of bluebloods complementing each other, that's all.

But coffee isn't the only flavor in Coffee Coronet. There's suave chocolate present, a sprinkling of pecans, a touch of rum flavoring, a dash of whipped cream. A wreath of ladyfingers forms the "coronet"—more ladyfingers, hide in the center.

Now's the time to make this handsome Coffee Coronet—plus a pot of your best demitasse coffee. You'll find they're two of the brightest jewels in your culinary crown.

Coffee Coronet

- 2 envelopes unflavored gelatin
- 1/2 cup strong cold coffee
- 1 1/2 cups strong hot coffee
- 1 cup sugar
- 1 cup broken pecans

2 dozen ladyfingers (about 1/2 package (15 ounces) semi-sweet chocolate pieces, melted

2 cups heavy cream

1 tablespoon rum flavoring

Sprinkle gelatin on cold coffee. Add hot coffee, sugar, and stir until sugar and gelatin dissolve. Chill until consistency of unbeaten egg white. Meanwhile split 9 or 10 ladyfingers and dip one end of each in melted chocolate. Whip chilled gelatin mixture until light and fluffy. Whip cream and fold in with pecans and rum flavoring.

Spoon into spring form pan to a depth of about one-half inch. Stand chocolate-tipped ladyfingers upright around edge of pan, chocolate tips upmost. Add about one-third gelatin mixture and layer with plain split ladyfingers.

Add another third of gelatin mixture, another layer of split ladyfingers and a top layer of gelatin. Chill until firm. Remove from pan. Just before serving, sprinkle with a mixture of 3 teaspoons sugar and 1 teaspoon very finely ground coffee.

Garnish with additional whipped cream and sugar-coffee mixture. Makes 12 servings.

Try Garnishing Salad With Cheese Carrots

Ever garnish a vegetable salad with cheese carrots? For each carrot use about 2 tablespoons of a processed yellow cheese that molds easily.

Have the cheese at room temperature, of course, so it will be soft enough to shape.

Roll the cheese between your palms, making it a carrot shape. Fork times will make carrot markings. Chill. Before serving, insert a parsley sprig at the top of the carrot.

Buy Cranberries Now and Freeze Till Yule

Consumer marketing information agents suggest buying your Christmas cranberries now. Buy them when the price is good, put them in freezer containers and place them in the food freezer till ready to use.

Cranberries which have been frozen may be used just like fresh except for raw cranberry relish items in which extra juice would be undesirable. The frozen cranberries can be used satisfactorily in gelatin-based salads and for making cooked cranberry dishes.

Leftover Vegetables Combined With a Cream Sauce and Served Over Crisp Toast Will Be Especially Welcomed as a Luncheon Dish by Your Family if You Add a Topping of Crisp Bacon.

Pears Go With Lamb

Baker or broiled pear halves (fresh or canned) make a fine accompaniment to roast leg of lamb; fill the pear cavities with mint jelly. Or use currant jelly for the garnish.

Jovial Bandit Holds Up Store With Broad Smile

ATLANTA (U)—A happy gunman held up six persons in a northwest Atlanta grocery store last night and escaped with \$703.

Police said the short, stocky man lined up employees and customers

at gunpoint and calmly took the money from two cash registers. Then, witnesses said, he strolled to the door, tipped his hat to the victims and with a broad smile waved goodbye.

Police said he answered the description of a man wanted for three other robberies in the area in recent weeks.

Hayworth's Job Facts Revealed

Suit Against Columbia Showing Rita's Salary to Be \$12,500 Weekly

LOS ANGELES (U)—Rita Hayworth's movie salary is \$12,500 a week.

She must always be portrayed sympathetically on the screen. Her fourth husband blocked the Hollywood comeback of her second husband.

These were among the disclosures made in federal court testimony yesterday relating to the problems arising between big studios and big stars.

Miss Hayworth is suing her long-time employer Columbia Pictures for breach of contract. Columbia has a countersuit against Miss Hayworth.

B. B. Kahane, vice president of Columbia, was a witness. He told her fourth husband, crooner Dick Haymes, took over the dealings between Miss Hayworth and the studio. And he said, the studio loaned Haymes \$50,000 last year with a provision Rita would pay back at \$10,000 a year.

The actress divorced Haymes a month ago.

Kahane said that the second husband, Orson Welles, whom he described as an "actor of great stature," was first choice for a top role in "Joseph and His Brethren," in which Rita was to have starred.

"I felt it rather a delicate matter," Kahane said, "so I suggested to Haymes that he ask Miss Hayworth how she felt about it. He replied: 'She wouldn't even consider it. Forget it.'"

"So we did," added Kahane.

Other disclosures by Kahane were:

That Miss Hayworth's role in any picture must be the leading one; that the role must be sympathetic for her; that the picture must be made in technicolor and that the budget must be \$700,000 or above.

Newsman to Attend Veteran's Hearing

WASHINGTON (U)—A hearing open to newsmen has been granted to James Kutcher in his battle to retain a \$329 monthly veterans compensation payment once suspended on loyalty grounds.

The Veterans Administration announced yesterday that Kutcher's "wishes will be honored" to the extent of permitting newsmen to cover tomorrow's hearing before the VA's Central Committee on Waivers and Forfeitures.

Kutcher is a 44-year-old Newark, N. J., man who lost both legs under German mortar fire in World War II. His disability payment for that injury was suspended by a VA regional office as of Nov. 30 pending a loyalty hearing, but was reinstated temporarily by VA headquarters here.

Best Laughs of 1955 — According to the 'Oil'

By EARL WILSON

NEW YORK (U)—"The Best Laughs of 1955"—which I will now fearlessly choose—emphasize how most Americans have just had a crazy year of pleasure-hunting.

Oscar Levant told how a man came home unexpectedly and found his wife. The "Davy Crockett" song inspired Comedian Eddie Henley to name a drunken friend "Davy Crockett." A college football coach was quoted by Matt Weinstock as saying, "Things were so tough this season, we had to use students on the team."

PEGGY

John Steinbeck commented that at the worst, Rodgers and Hammerstein's "Pipe Dream" would be "a two-year flop." Wall-to-wall carpeting was funny somehow. A loupee-wearer was said to have "ear-to-ear carpeting."

Joan Blondell told of a subway rider telling another one, "Sir, do you know you have a banana in your ear?" Whereupon the other man shouted, "Speak louder, man!" Can't you see I have a banana in my ear?

When Peggy King came out leading a dog the same color as her new fur coat, George Gobel said, "What pretty fur. And you had enough left over to make a dog."

Comedian Joe E. Lewis, III, declined to answer when his doctor asked if he'd been smoking and drinking. "Doc," he said, "I'm no stool pigeon!"

Fred Allen in his book "Treadmill to Oblivion" mentioned a man "who had claustrophobia so bad, he couldn't live in Rhode Island."

Walt Disney's success was such that Mike Connolly quoted somebody asking, "How long can that Disney get by only on talent?"

President Eisenhower didn't figure much in the laughs because of his illness. The TV stars took his place. Dick Shawn, who opened at the Copacabana with Dorothy Collins of "The Hit Parade," told how his agent had booked him on the Ed Sullivan show.

"I was surely surprised," Shawn said. "I'd never even worked for Arthur Godfrey."

THE MIDNIGHT EARL...

Steve Allen and Jayne Meadows flew to L.A. and spent Christmas with his sons... Band manager Cress Courtney and model Fran Keegan got the license... Imogene Coca was asked to star in a "Pinocchio" TV spectacular... The Concord will present prominent foreign entertainers. First one: English singer Dinah Kaye.

Farley Granger and Janice Rule may make it a New Year's Day ceremony...

Norman ("Naked and the Dead") Mailer turned down H'wood script offers—he's too busy publishing a Greenwich Village newspaper... The TV Academy awards—in color—will be televised March 17... Danny Scholl's up for the lead in the London company of "No Time for Sergeants."

Joe Louis—who's getting hitched—asked Sarah Vaughan to sing "Love and Marriage" at Birdland... Lilo, ze French singaire, returns from Paris next month for night club work. Jackie Miles wires from the Monte Carlo Hotel, "As the New Year temperatures go down, the Miami prices go up."

That's earl, brother.

Hollywood Headlines

Ann Sheridan Commutes to Filmland From Mexico

By BOB THOMAS
HOLLYWOOD (U)—Remember the old song "Annie Doesn't Live Here Any More?" Well, that applies to Ann Sheridan, one of Hollywood's most durable glamor girls.

Ann now spends all of her leisure time in Mexico City, where she has a home. She also owns a home here, but occupies it only while she's working in films.

Why this double residence?

"I fell in love with Mexico long ago," she reported. "I like the people and I like the living. It's a much easier life, although it is changing somewhat. The Northern culture has been moving in, and they have their ulcer and heart cases too. It's not quite the gentle pace it used to be, but it's still a lot more restful than the way of life up here."

Ann might spend all her time in Mexico except for the matter of earning a living. So she commutes to film jobs here, usually driving the long journey in her car. "It's a beautiful trip," she remarked. "The roads are getting better all the time."

She is here now for another burst of film activity. She was doing a TV drama for Screen Gems' Celebrity Playhouse. Next she goes to MGM to join June Allyson, Dolores Grey, Ann Miller and others in the musical remake of "The Women."

Ann is on the prowl for a TV series. She did a pilot film for one based on the exploits of a Las Vegas hotel press agent. But it struck resistance from sponsors who declined to foster a series that concerned gambling.

Bad Weather May Halt Post-Yule 'BB Bandits'

OKLAHOMA CITY (U)—Oklahoma City's "BB bandits" have started their annual post-Christmas war with the police.

Officers have answered more than 40 complaints since Monday of small boys shooting at everything in sight with air rifles brought by Santa Claus. There is an ordinance against shooting a BB gun inside city limits.

Commented detective Ralph Richards: "All we can do is pray for bad weather."

3 Elderly Brothers Ruled Gas Victims

ST. LOUIS (U)—An autopsy today disclosed that three elderly bachelor brothers found dead in their old-fashioned home here died of carbon monoxide poisoning.

Authorities reported the home was tightly closed and a fire in a coal heating stove had burned out. The bodies of the Hoening brothers—Charles, 62, George, 64, and Henry, 67—were discovered Tuesday.

The bodies, clad in underclothing, were in beds. Police returned to the home

after the autopsy in an effort to locate the source of the fumes in the three-story brick house.

George 5th grad. tag

Market Demand

DALLAS, Tex. (U)—Officers who arrested eight men and charged them with burglary explained yesterday why the ring was quickly disposed of its loot so quickly: the men would "take orders," then would go out and steal merchandise to fill them.

Railroads in the U.S. use about 130 million rail ties every year, enough to build 43,000 miles of track.

Indiana NG Request
Rejected by Williams

INDIANAPOLIS (AP) — Gov. G. Mennen Williams of Michigan has rejected Gov. Craig's request for continued use of Camp Grayling, Mich., for training the Indiana National Guard each summer.

In a letter to the Indiana governor, Williams said Michigan permitted Indiana's 38th Infantry Division to use the camp "to be helpful in time of an emergency." But Williams said he believes the state may not have had legal authority to do so.

He said Michigan National Guard leaders disapproved the joint use of Camp Grayling except in time of war or other emergency. Any future use, he said, would require legislative approval and payment by Indiana of part of the operating cost of the camp.

Rose Paraders Brace!

PASADENA, Calif. (AP) — A half million automobiles carrying 15 million persons are expected here Jan. 2 to view the Tournament of Roses parade, says the Auto Club of Southern California.

NOTICE OF HEARING
Notice is hereby given that the Bloomfield Township Zoning Board will hold a public hearing at the Bloomfield Township Hall, at 4000 Telegraph Road, on Monday, January 9, 1956, at 8:00 o'clock p.m. on the following petition filed with the Zoning Board:

Petition to rezone the following described property from Residence 1 and 2 zones to Commercial zone:

T2N, R10E, Sec. 4, Part of the South West 1/4, Sec. 4, pt. dist. 1, 1/2, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35,
