

Eisenhower Urges NATO to Gird Against Reds

County Area Goodfellows Selling Press

Auburn Heights, Keego and Lake Orion Groups Raise Funds Today

Goodfellows in suburban areas around Pontiac are selling the Press today to raise money for Christmas projects.

Sales are being held in Auburn Heights and Pontiac Township, Keego Harbor and Bloomfield Township, Lake Orion and Gillingville.

Purchase of a Goodfellow edition of the Press will help brighten Christmas for a needy family and its children and the Goodfellows stress that the need is greater this year.

In Pontiac Township and Auburn Heights, Metropolitan Club members and township firemen hope to sell 2,700 papers.

This is 200 more than the number sold in last year's drive which netted \$800 for projects.

Participating in the Keego Harbor-West Bloomfield drive are township and Union Lake firemen, Orchard Lake, Keego Harbor and Sylvan Lake police. Keego Harbor's Chamber of Commerce and the Kiwanis Club of West Bloomfield are pitching in, too.

They were at their stations throughout the township at 1 p.m. They will remain out till dark, or until all 2,000 Press Goodfellow editions are sold, said Township Fire Chief Ben Mosher, drive chairman.

"We've been raising our goal each year," he said. "And this year with the need so great, we've hiked it again—from \$2,000 to \$2,500."

In Lake Orion, Lions Club members were on the corners today. "We'll be out all day if necessary," said drive chairman James Sheldon. "We have 2,000 papers to sell."

About 35 Lions are taking part in the Goodfellow effort, he said. This is the 19th consecutive year the club has sponsored the sale. Gillingville's Metropolitan Club Goodfellow drive began last night and is continuing today. Chairman is William Stancombe.

Goodfellows won't rest until they know they've done their best to cheer some young heart on Christmas.

Rift Seen Between Striking Motormen

NEW YORK (AP)—An apparent rift has developed among officials of the Motormen's Benevolent Assn. as its strike against the city subway system extends into the sixth day.

The city's subways are running about 70 per cent of normal with the aid of some non-striking motormen, newly trained workers and supervisory personnel.

Signs of union dissension appeared yesterday following a meeting between Mayor Robert F. Wagner and MBA Attorney Louis Waldman.

Wagner turned down the six-point union formula for ending the strike, saying he would not discuss strike issues until the motormen go back to work.

Milder Weather Seen for Next Few Days

The weatherman promises warmer temperatures for the next few days after the cold snap experienced early this week.

Today's snow will be followed by partly cloudy skies tonight with a low of about 32 degrees. Cloudy, with little change from today's temperature ranges is predicted for tomorrow, but either rain or snow can be expected by Sunday evening.

Monday will be partly cloudy with little change in temperature. The lowest recorded temperature in downtown Pontiac, preceding 8 a.m. was 32. At 1 p.m. the reading was 39.

Quality Ready Xmas Trees 1 to 10' Corner Huron and Elizabeth Lake Rd. Newman's Variety and Gift. All Year needs. Open Sunday, 915 Orchard Lake.

Young Love (Very Young) Finds a Way

Southfield Lad Remembers His Fair Lady

A summertime romance between a seven-year-old Southfield boy and his Chicago girl-friend (age 4) blossomed into an early Christmas yesterday.

But it took a bit of doing from Chicago police.

Little Kathy "Toto" Brown had expressed a wish for a cuddly gray kitten even since she met Brian Soncrant while vacationing in Michigan two years ago.

THIS KITTY COULDN'T MAKE IT — But Brian Soncrant, 7, of 26999 Ten Mile Rd., Southfield, still managed to send a Christmas cat to his four-year-old girl-friend in Chicago. Brian wrote a letter to the Chicago police commissioner, enclosed a \$5 bill, and asked him to go out and get a cuddly kitten for Kathy "Toto" Brown, of Chicago.

Brian, the son of Mr. and Mrs. Leon Soncrant, of 26999 Ten Mile Rd., Southfield, and his five sisters have always had plenty of kittens in their home.

The young lad decided this would make an ideal Christmas present for Kathy. But, faced with geographical and financial obstacles, he took his problem, right to the top—Chicago's police commissioner.

"It was too much trouble to ship a cat," Brian explained. "We'd have to take the animal to Detroit, get a special health certificate and plow through a lot of red tape."

So, yesterday morning Commissioner Timothy O'Connor received a note addressed to the "Honorable Chief of Police."

Enclosed was \$5 and a request "that one of your nice policemen go to a pet shop for me and get this little girl a kitty that purrs with a red ribbon and a bell on its neck."

Brian said he would have sent one himself but "it would cost me too much money to send one by freight."

Chicago's busy police machinery jumped into action and late yesterday afternoon a gray "kitty that purrs" was presented to Kathy at her North Side home by Capt. Leroy Steffens and Police-man James Bes Palets.

Wide-eyed Kathy hugged the two officers and immediately fell to the task of picking a name. By bedtime she had narrowed it down to Nosey, Misty and of course—Brian.

O'Connor's order to Capt. Steffens of the Town Hall Station left little doubt that the police department was backing Brian to the hilt.

"Obtain a kitten which purrs, equip it with a red ribbon and present it to a little girl named Kathleen Brown," the order read. "In the event the station cat can be induced to donate a kitten and this kitten purrs, you may use this kitten for the presentation and return the \$5," the order went on.

The station cat was not induced, but Patrolman Bes Palets finally located the perfect facsimile at the anti-cruelty society.

O'Connor says he is returning the \$5 and will not deduct the six cents postage due on Brian's letter.

Officers decided Brian must have raided the coin section of his piggy bank, for the envelope contained three one-dollar bills and four 50-cent pieces.

You're Cold? Pity Policemen in Diving Test

EAST LANSING (AP)—If you think you were cold during the near zero snap this week, how about some State Policemen that went skin-diving.

Police reported a skin-diving test was conducted at Higgins Lake with air temperatures hovering around zero.

The 17 troopers had to break ice on the lake and dipped into the water for as long as 15 minutes under the test.

The skin-diving squad was organized last summer and since has been highly successful in recovering bodies of drowning and plane crash victims and material needed for evidence.

Ike Arrives in Paris

WELCOMED BY COTY — French President Rene Coty is on hand to greet President Eisenhower on the chief executive's arrival at Paris' Orly airfield today, to attend the NATO conference.

Partnership in Strengths Will Meet Test

President Alights in Paris for NATO Parley and Gets Red Carpet

PARIS (AP)—President Eisenhower told the NATO allies today they face a Soviet challenge to their very survival as independent nations.

They can meet this period of test, Eisenhower said on landing in Paris for the NATO summit conference, only through true partnership in spiritual, economic and military strength.

In his prepared speech, Eisenhower expressed confidence that the 15-nation alliance could meet the "despotic and continuing threat from the East" in an effective manner.

He predicted that they would not only strengthen their protective shield of NATO military forces but also reinforce other aspects of the coalition as well.

OFFERS A-MISSILES — Eisenhower, arrived with an offer of atomic missiles for allied armies and an appeal for greater unity in the North Atlantic coalition.

The President's plane landed at Orly Field at 2:52 p.m. (8:52 a.m. EST) today.

Fire trucks lined the runway as the wheels of the big four-engined Columbine II touched concrete. The President left Washington yesterday.

The trip to Europe is Eisenhower's second as chief executive. But in contrast with his 1953 mission to negotiate with the Soviet Union, this time he will seek to rally the Western Alliance against Russia's bid for dominance in the dawn era of pushbutton weapons.

GETS RED CARPET — France laid out a red carpet welcome with full military honors for the man who led the victorious allied armies in World War II and later served as NATO's first supreme commander. President Rene Coty planned to be among the welcomers.

Along with the red carpet, the government ordered 3,000 steel-helmeted security troops to line the President's route from Orly to the U.S. embassy, where he will stay.

There were only about 200 persons on hand at the airport, standing behind police lines as the plane began its final approach.

The welcoming party headed by President Rene Coty, took their assigned places as the plane taxied in.

A rolling stairway was pushed against the Columbine's side, and the door opened. Promptly at 3 p.m. (9 a.m. EST) the President stepped out and walked smartly down the stairs. At the bottom he doffed his soft felt hat and shook hands with the French president. Then he replaced the hat.

BIG POLICE CORDON — There were about 500 policemen—more than double the number of spectators—and a French blue-uniformed air force honor guard of 150. Scattered through the crowd were U. S. plainclothesmen.

The 15-nation NATO conference is bringing together for the first time in one group British Prime

Rackets Committee Turns to 'Improper' UAW Doings

WASHINGTON (AP)—Sen. Mundt (R-SD) said today the Senate Rackets Investigating Committee is exploring "reports of any improper activities" by the United Auto Workers Union.

Mundt said the committee's investigation of violence in the still unsettled 4-year strike by the UAW against the Kohler Co. of Wisconsin "is only one facet of our investigation." He declined to be more specific at this time.

The UAW is headed by Walter Reuther.

Mundt is a member of the investigating committee. He made his statement to a reporter in rejecting charges expressed by the AFL-CIO in a resolution accusing the committee of bias on the side of management.

UNITED NATIONS, N. Y. (INS) — Free world diplomats demanded today clemency for three top Hungarian freedom fighters reportedly doctored by the Janos Kadar puppet government.

At the same time, the five-nation U. N. committee on Hungary was summoned to meet at headquarters on the dispute over names of refugee witnesses.

Action also was expected by the group to head off the "imminent executions" in Budapest and to follow up on the Red refusal to cooperate with Thailand's Prince Wan, special U. N. representative on Hungary.

Ironically, the many problems connected with Soviet-subjugated Hungary began sputtering again amid Russia's drive for adoption by the General Assembly of a "peaceful co-existence" resolution.

A stunning defeat for the Kremlin draft was foreshadowed by repeated references in the 82-nation forum to last year's Red army rape of Hungary.

Through nearly 12 hours of debate ending early today, Western and even some Afro-Asian delegates repeated one thing: When the USSR says one thing, it means exactly the opposite. Western envoys pressed for the long debate in order to forestall the Soviet item from overlapping the Paris NATO summit meeting.

All 20 Latin American members of the Free World alliance were meeting to formulate a joint demand for clemency for Generals Pal Maleter and Istvan Kovacs, and Col. Alexander Kopascsy, the freedom fight leaders reportedly facing execution.

Reports 1,287 Died in Quake

Telegraph Official Ups Government Figure in Iranian Disaster

TEHRAN, Iran (AP)—A post and telegraph official reported today that 1,287 persons were killed by a severe earthquake in Western Iran yesterday.

A newspaper correspondent said 500 of the victims were in one West Iranian village alone.

The government set the death toll at 205, the number of bodies recovered. Officials declined to estimate the final toll.

Truckloads of food, medicine and tents were being rushed into the mountainous area where the two-mile quake struck before dawn yesterday.

It was described as equal in violence to one that killed an estimated 2,000 persons last July on Iran's Caspian Sea coast.

A correspondent for "Etelat" said 500 persons were killed in Farsang, near the small town of Sehneh which was officially reported to have been at the center of the quake. Sehneh is on the 7,240-foot Shah Pass 240 miles southwest of Tehran.

Athens and nearby areas of Greece were hit yesterday by a sharp quake but no casualties were reported. There were no reports of shocks in Turkey, which lies between Iran and Greece.

The Soviet Tass News Agency meanwhile reported that a quake Dec. 5 hit Outer Mongolia with catastrophic force and landslides are continuing. Casualties were not reported.

General Attacks Joint Staff Chiefs

WASHINGTON (INS)—Senate missile-satellite probers shied away today from any quick verdict on a proposal for a revolutionary shakeup in the Pentagon which would scrap the Joint Chiefs of Staff.

The surprise proposal came from Lt. Gen. James W. Gavin, Army deputy chief of staff for missile development. He said at a Friday night session that there should be a "breakup of the Joint Chiefs of Staff."

Gavin said that Defense Secretary Neil McElroy should be getting "better advice" on the needs of the space age than he now receives.

Gavin said the Joint Chiefs should be replaced by a staff of professional, military men who would "take over the functions of the Joint Chiefs."

The Senate Preparedness subcommittee hears a long list of witnesses today, beginning with Maj. Gen. John D. Medaris, commanding general of the Army's Ballistic Missile Center at Huntsville, Ala.

Others include Dr. Wehrli von Braun, the famed German-born rocket expert who now is director of development operations at Huntsville, and top Navy officers.

CANDID MEN — Senate Majority Leader Lyndon B. Johnson (D-Tex.), who heads the inquiry, declined to pass judgment on the "technical aspects" of Gavin's testimony but said that "we need more 'can-do' men."

Sen. Stuart Symington (D-Mo) would not commit himself on scrapping the Joint Chiefs, but he said that Gavin's proposal "deserves close study."

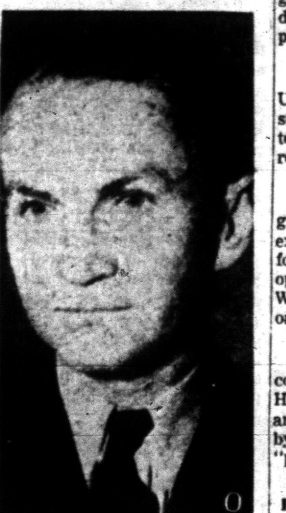

Symington, a former Air Force secretary, added: "There obviously have got to be some changes over there (at the Pentagon)."

"The structure is not conducive to either efficiency or effective organization. It also is wasteful. It was there for years. It was bad then, and it's worse now."

Gavin said he believes the U. S. is behind Russia in overall military power.

WRONG DECISIONS — He said the U. S. could have been the first to launch an earth satellite. The Army's satellite program was sidetracked, he said, because of "wrong decisions."

The missile expert declared it is "vital" that the U. S. beat the Soviets to the moon. He stressed that there will be a race to "occupy the moon" and the Soviets could become the winner.

LT. GEN. GAVIN

Mother's Pills Kill Year-Old Daughter

One-year-old Katherine Martin of 10558 Deerwood Ct., Royal Oak Township, died at 1:35 this morning in Mt. Carmel Mercy hospital, Detroit, an hour and a half after swallowing several pills prescribed for her mother.

Willie Martin, the father, told Township Police his wife had placed her high blood pressure pills on a table in her bedroom.

While her back was turned, the child ate them, police said.

Macmillan in Paris

PARIS (INS)—British Prime Minister Harold Macmillan entered Paris quietly today for the NATO summit conference. Only a few dozen curious bystanders met him at the Gare du Nord train station.

Diphtheria Drops Off

DETROIT (INS)—Health officials in the Motor City were hopeful today the sharp drop-off in the number of new diphtheria cases means the permanent decline of the disease. Yesterday saw only five new cases compared with 16 the preceding day.

Red Paper Slaps NATO

MOSCOW (AP)—The Soviet Army newspaper Red Star said today NATO nations are hatching aggressive plans that could turn Europe into an "atomic graveyard."

9 Die in Scottish Mine

LONDON (INS)—Nine miners were reported killed and seven others injured today when an explosion ripped through a shaft in a Scottish mine.

Shops Are Full of Presents to Delight All Women

Gifts Galore for My Fair Lady

By JANET ODELL

The lady who is proud of her you match her Lenox china with house and who liked to get gifts salt and pepper shakers or a table for it will swoon with delight if lighter. She'll hunt up recipes to prepare and serve in decorated enameled steel frying pan made by the Yale Lock Company — of all places.

For the needlewoman there are petit point cuff link sets to complete. A pair of the newest kind of pinking shears will make her sewing more enjoyable.

Get her a telescoping drinking cup with attached pill box under the lid; made of white plastic. It sparkles with multi-colored stones. Cut stones in many colors are used also to decorate ceramic ashtrays.

SHOPPING DAYS TILL CHRISTMAS

U.S., Reds Would Exchange Experts

Hopes for Educator Swap

WASHINGTON (INS) — The U. S. is hopeful today that an agreement can be worked out with Russia for an exchange of school experts.

Welfare Secretary Marion B. Folsom said he hopes an American official will be allowed to visit Moscow soon to make final arrangements.

He indicated that Director Oliver J. Caldwell of the Division of International Education would make the trip.

Folsom told Sen. J. William Fulbright (D-Ark.) in a letter that his department has been engaged "for many months" in negotiations with the Soviet government.

He said: "We believe that this is the most constructive step we can take to improve our knowledge of Soviet education."

Fulbright had accused the administration of issuing "official statements in recent years," which, he said, tended to downgrade Russia's educational accomplishments.

An agreement would permit educational authorities to inspect colleges and schools in each country.

Five From Pontiac Injured in Accident

A two-car collision at Woodward avenue and Square Lake road in Bloomfield Township early this morning sent five Pontiac residents to St. Joseph Mercy Hospital, one with serious injuries, according to State Police at the Pontiac Post.

All were in the car being driven by Leonard Conway, 50, of 201 W. Wilson Ave. Injured were Conway, his wife, Esther, 38, Eugene Phillips, 27, and his wife, Esther, 25, who lived with the Conways. They were treated for minor injuries and released, said a hospital spokesman.

Jesse Smith, 29, of 249 W. Wilson Ave., was admitted with possible fractures and internal injuries and is reported in serious condition.

The southbound Conway car had just started up after stopping for

By E. H. SIMS

Does the dew in the morning indicate that good weather can be expected that day?

Yes, strangely enough, this old weather saying is not merely folklore without scientific foundation but genuine weather knowledge.

Dew is formed by cooling. The blade of grass that collects moisture collects it from air being cooled. Warm air has a greater capacity for moisture than cool air and gives some of it up (on blades of grass) when it is cooled.

Cloudless nights are nights for the collection of dew because heat radiation is necessary in the process and clouds checks this process. The sight of dew then means clear skies and clear weather. The old saying, then, is usually accurate.

More Cold Creeps Across North Plains

By THE ASSOCIATED PRESS

A new invasion of cold air crept across the Northern Plains today, but it appeared somewhat less severe than the milder and less muggy weather which extended deep into the South earlier in the week.

Elsewhere around the country, including frost-nipped Florida,

Watchdog Committee Kept in Dark

Thugs Use Buttoned Lip

ALBANY, N.Y. — Gangland's big weapon — the buttoned lip — frustrated legislative probes today in their drive to find out who those underworld bigwigs hid behind at Alachua last month.

Those of the mobsters most certain to know the score have ducked behind the Fifth Amendment when hauled before the watchdog committee.

And the few figures who would talk—including the namesake son of host Joseph Barbara—claimed they hadn't the faintest idea why 60 mobsters and pals would convene at Barbara's hilltop mansion near Binghamton.

Although plainly discouraged, the three-man subcommittee third day of its public hearing, pressed doggedly ahead into the calling a quartet of Buffalo area "delegates" to testify.

On tap were: James LaDuca of Lewiston, an ousted union official; Anthony Magaddino, a Niagara Falls undertaker; Roy Carlini, a Buffalo tavern owner; and Dominick D'Agostino of Niagara Falls.

LaDuca was fired as secretary-treasurer of a Buffalo hotel and restaurant workers local after state police raided the convention on Nov. 14.

The raid flushed more than 60 mobsters and their pals from the Barbara hearth. A handful beat it into the woods, only to be nabbed, questioned and released along with the others.

After yesterday's long session, at which four of the six witnesses took the Fifth Amendment, the

Frozen Girl, 15, Reported 'Poor'

Found Unconscious in Empty Kentucky Store After 5-Day Absence

LOUISVILLE, Ky. — Doctors described the condition of a 15-year-old girl — her legs "frozen just as solid as if they had come out of a deepfreeze" — as poor late last night.

Rosella Auxier was found unconscious and in shock in an abandoned store at Prestonsburg, Ky., yesterday and rushed to a hospital here. She had been missing five days.

Her legs were packed in ice to control thawing. Doctors, saying the girl was in no pain and had eaten her first meal since her disappearance Sunday, said no immediate surgery was planned.

Rosella left her grandmother's home Sunday with these parting words: "If you make me go, I won't come back."

The girl's mother, Mrs. Richard Auxier, said Rosella went to visit her grandmother with her father, but the grandmother was not home. She said Rosella left the house to telephone her grandmother, but apparently went to a movie at Prestonsburg without making the call.

She was too weak to explain what happened during the five days before she was found half-frozen by workmen who spotted her through a window.

Dr. George Archer, who gave the girl emergency treatment, said "nothing but a miracle" would save her legs. He said he found a sixteenth of an inch of frost on the bottom of her feet.

3 Air Force Crewmen Die in Bomber Crash

DULUTH, Minn. (INS) — Three crew members of a crippled Air Force B-47 jet bomber were killed yesterday when the plane crashed and exploded near the Duluth air field.

The big bomber dropped from about 200 feet a half mile northeast of the Minnesota Air National Guard quarters after the pilot radioed an emergency signal reporting three of the plane's six engines were not functioning.

The bomber was from the Air Force Base at Lincoln, Neb.

The three flyers killed were identified as Maj. William F. Gardner, aircraft commander, Fresno, Calif.; Capt. Byron H. Blackmore, navigator, Grand Forks, N. D.; and Capt. William A. Baldwin, pilot, St. Louis.

Pontiac Youth Held in Death of Hunter

DETROIT (AP) — A 38-year-old Saginaw father of three died in a Detroit hospital yesterday of a rifle wound suffered while hunting Nov. 29 near Alpena.

He was Edwin Seder, 38, a millwright.

State police said Seder was shot through the pelvis by Walter Skrine, 17, of Pontiac, who said he mistook Seder for a bear. The youth has been held at Alpena since the shooting.

City Hospital Is Cut 3 to 1 Year

Certification Change Is Ordered Pending Changes in Methods

Pontiac General Hospital is operating on a one-year accreditation instead of the usual accreditation for three years, Carl I. Flath, hospital director, said yesterday. He said the action was taken in September by the Joint Commission on Hospital Accreditation.

Flath pointed out that the one-year accreditation instead of the usual three resulted after the survey showed several discrepancies in operating procedure.

Some of the deficiencies were the result of the building program in progress and had to do with sanitary conditions.

Corrective measures to be taken by the trustees and medical staff will be in keeping with standards as set up by the Joint Commission. Regulations established by the Hospital Board of Trustees to bring up the hospital's rating were followed by two legal actions.

Two suits involving doctors at the hospital are pending in Oakland County Circuit Court. In one, Drs. Roy V. Cooley, Douglas A. Haddock, Maolin Han, Rodman C. Jacobo and Leonard Blackwell, seek unrestricted surgical privileges.

In the second, filed by Dr. Neil H. Sullenberger, a damage suit of \$250,000 is being asked after he was suspended Nov. 13 for certain alleged "infringements" of medical by-laws, according to Flath.

2-Year-Old Keeps Good Time

DETROIT (AP) — Two-year-old Kenneth Rogers is ticking away today. X-rays show he is keeping good time.

Kenneth swallowed his mother's wristwatch yesterday — after first removing the band, of course.

The fact that he's a walking timepiece apparently hasn't phased Kenneth. Doctors sent him home for observation last night after X-rays revealed the watch in his tummy. It was still running.

More X-rays will be taken and then doctors will decide how to rid Kenneth of the watch.

His mother, Mrs. Betty Rogers, 26, asked Kenneth where her watch was when she returned to the bedroom where he had been napping.

"I eat it," said Kenny truthfully.

Hoffa Suit Hears From Syracuse, Albany Locals

WASHINGTON (INS) — A Syracuse, N.Y., Teamster has testified that his local sent six men to the Miami Teamsters convention at a cost of \$7,500 — and none voted.

Another Teamster from an Albany, N.Y., local said he was given \$50 a day for expenses and also failed to vote.

The witnesses appeared in Washington's district court before Federal Judge F. Dickenson Letts, who is hearing a suit brought by 13 rank-and-file Teamsters attempting to bar James Hoffa from the Teamsters presidency on the grounds the Miami convention was stacked in his favor.

Ernest J. Demont, of Local 317 in Syracuse, said the local elected only three delegates. When the three arrived in Florida, they were informed by three of the local's officers,

Fred Maggio, William Roggenkamp and John Fortino, that they could only serve as alternates. Maggio and Roggenkamp were seated as the local's official delegates and abstained from voting.

The local had instructed its delegates not to vote for Hoffa. All six were given \$1,250 each for the five-day Florida sessions.

Fred Ostrander, of Local 294 in Albany, N.Y., insisted under cross-examination that he had voted "to keep my job," although he was not listed as a voting delegate in the convention minutes.

Ostrander, who drew \$30 daily for expenses, said he had worked on a document listing his delegates, although the membership never voted for its choice of delegates.

Strong Partnership of Nations Is Way Ahead

(Continued From Page One)

Minister Harold Macmillan, German Chancellor Konrad Adenauer, French Premier Felix Gaillard, and Italian Premier Adone Zoli. The meetings will be held Monday through Wednesday and Eisenhower will fly home Thursday.

The 81-year-old Adenauer left Bonn by special train early today and was expected here this afternoon.

He was scheduled to begin his talks this afternoon with Gaillard at the U. S. embassy. If the visit is more than a courtesy call, Eisenhower may get from the young Premier some straight talk on European criticism of U. S. NATO policies.

FRENCH TO WOO U. S.

Gaillard wants U. S. and British support for France's position in North Africa. France and other European countries would like a decisive voice in the control of any U. S. nuclear weapons to be stockpiled in Europe. Under U. S. law, the nuclear warheads must be kept in U. S. custody and only the President can make any decision on their use.

To induce European allies now — and the U. S. Congress later — to go along with the major U. S. proposals for strengthening and modernizing NATO, Eisenhower likely will need all the persuasiveness and prestige he can muster.

Diplomats worried over the disension in Western ranks have been greatly cheered by the President's determination to attend the Paris meeting in spite of his slight stroke Nov. 25. His trip has the color and drama of a soldier's return to the scenes of his triumph.

But the problems awaiting his attention in the next five days are

Planes Readied for A-Warfare

AF Reports That Most Fighters and Bombers Have Nuclear Capacity

ALBUQUERQUE, N.M. — The Air Force said today "virtually all front-line U. S. fighters and bombers have nuclear or thermo-nuclear capabilities."

It said the newest aircraft to be equipped with a system for carrying nuclear weapons is the B58 Hustler, a four-engined, delta-winged bomber capable of flying more than 1,500 miles per hour.

The announcement said a special weapons command development directorate at Kirtland Air Force Base here has been carrying on "many projects to mate special weapons with carriers . . . this year."

"Bombers involved," the announcement said, "are the B36, B47, RB47, B52, B66 and B57. Fighters in the program include the F83, F86F, F100C, F100D, F101A and F105."

Test ranges used in the work were listed as the Los Lunas, N.M., Bombing Range — 25 miles southwest of Kirtland; Edwards AFB in California; Holloman AFB at Alamogordo, N.M.; Atomic Energy Commission ranges at Salton Sea Test Base in California, Yucca Flats Test Base and Tonopah Test Range in Nevada, and Red Lake Test Site in Minnesota.

Hopes to Equal Russian Technology

U. of M. to Set Up Science Institute

ANN ARBOR (AP) — Plans for an Institute of Science and Technology at the University of Michigan to train American scientists to attain the technological peaks held by the Russians were approved yesterday.

The University's Board of Regents unanimously and eagerly passed a resolution to get the project under way immediately. The regents expected to have an initial operating cost in the neighborhood of \$2,800,000 per year which will be provided by state appropriation if approved by the legislature.

The institute will have two major goals: Satisfying the critical need for highly trained American scientists and engineers and developing sufficient skilled manpower to place Michigan in the forefront of forthcoming technological advances.

Top research work is another objective.

"I'd like to get it started right away," said U. of M. President Harlan Hatcher. "This is something you just don't wave a wand over and get started. It will be ready just as soon as the resources permit."

The institute's operation will resemble that of the university's Memorial Phoenix Project, which is devoted to the peaceful use of atomic energy.

Snow Keeps RCAF From Hunting Plane

HAGERSVILLE, Ont. (AP) — Heavy snow last night prevented planes from joining police in a search for a light twin-engine aircraft believed down in this area with a Chicago businessman aboard.

The pilot of the plane was identified as R. West of the West Instrument Co., Chicago, en route from Rochester to Detroit.

A spokesman at the Royal Canadian Air Force Search and Rescue Unit, Trenton, said planes were standing by, awaiting a break in a low cloud ceiling, but the forecast was for poor weather.

The Day in Birmingham

Sheffield Estate Reveals Yule Decorations Contest

BIRMINGHAM — Sheffield Estate Subdivision has announced plans for its own outdoor Christmas decorations contest. Prizes of \$15, \$10 and \$5 will be awarded.

All residents in the area, except the civic association's directors, are eligible. Judging will take place the evening of Dec. 27.

Recently elected officers of the association are John McGill president; M. R. LaLonde, vice president; M. C. Shepherd, treasurer; Mrs. Francis Henderson, Don Mittel, Robert Palwinski, Lou Mandall and Charles Tanner, directors.

Additional business at the annual meeting was contact with Berz Airport and the Civil Aeronautics Patrol to secure a pledge to keep altitude violations of aircraft at a minimum.

The Quanton-Telegraph Road intersection is jammed as far as John Duncan, 31, of 4000 Quanton Rd. is concerned.

Yesterday Duncan was taken to St. Joseph Mercy Hospital, Pontiac, suffering from a possible broken neck.

He told Bloomfield Township Police he had stopped to make a left turn off Telegraph when his car was struck in the rear by an auto driven by Howard Herrman, 25, of 1565 Roseland St., Pontiac.

The impact spun Duncan's car around and it crashed into a third vehicle driven by Ernest Kugler, 35, of 320 Slocum St., Pontiac. The Duncan car then rammed a tree.

Herrman suffered a deep cut near the right eye and a possible fractured nose. Kugler escaped injury.

Duncan's previous mishap at the intersection a couple of years ago happened under similar circumstances. At that time, all of his teeth were knocked out, he told police.

Under the direction of Leonard and Rachel Bunyan, "Eager Heart," a Christmas drama, will be presented at 7 p.m. Sunday in the First Baptist Church. Written by Anne Buckton of Birmingham, the play is developed around the original Christmas theme.

Adults and young people of the church will be assisted by the Sanctuary Choir. The program is open to the public.

Senior Men's Club has adopted its constitution and bylaws. H. A. O'Hara, of the nominations committee, has prepared a 1958 slate of officers, with Russell O. Herriek and Earl J. Roy seeking the president's office and Charles Staples and Henry O. Wagner running for vice president.

LAPEER — Service for Lewis E. Arnold, 72, of 3925 Fish Lake Rd., who died Friday in Marlette Community Hospital, will be held at 1 p.m. Monday at Baird Funeral Home.

Officiating will be the Rev. Frank S. Hemmingsway of the Liberty Street Gospel Church. Burial will be in Hoover Cemetery, Macomb County.

Surviving are his wife, Sadie; three daughters and a son by a previous marriage, Mrs. Rufus Wood of Trenton, Mrs. Lee Stickney and Mrs. Orville Hillis, both of Big Rapids, and Louis C. Arnold of Lapeer.

Two brothers, Thomas of Millington and Charles of California; 17 grandchildren and 17 great-grandchildren also survive.

Townships Form CD Council

Several Smaller Cities Also Join to Coordinate Functions

All Oakland County's 25 townships and several smaller cities and villages have formed an Oakland County Township Civil Defense Council to coordinate the different Civil Defense functions between them.

"They will coordinate" their plans based on the facilities available," said Lewis C. Jarrendt, County Civil Defense director. He was named as chairman of the new group.

Besides the county's 25 townships, it will include representatives from Rochester, Huntington Woods, Lathrup Village, South Lyon, and Farmington.

The group will also work together with the Oakland County CD Council which is made up of representatives of 10 cities in the county of 10,000 or more population.

Elected vice-chairman of the township council was John F. Warren, West Bloomfield CD director. Secretary will be Mrs. Mary McGee, of the county CD staff.

Detroit Baby Swallows Mom's Medicine, Dies

DETROIT (AP) — A year-old Detroit girl died today a few minutes after she swallowed some pills prescribed for her mother. The victim was Catherine Martin.

Catherine's mother, Opal, 27, said she had laid an envelope containing the pills on a table. Shortly afterward she said she discovered the child had swallowed an undeclared number. Catherine was raced to a hospital in vain.

Japanese Indict Michigan Soldier

YOKOHAMA (INS) — The Yokohama district prosecutor's office today indicted U. S. Army Specialist 3. C. Gregory J. Kupski of Detroit on charges of murdering a 25-year-old Japanese girl in Yokohama Nov. 17.

The prosecutor's office seeks to try Kupski on murder charges instead of accepting Army jurisdiction, claiming he was off duty at the time of the murder.

The prosecutor's office filed a formal indictment against Kupski and at the same time notified the U. S. Army, through the Ministry of Justice, that Japan considers its full rights to try the case in a Japanese court.

Earlier this month the Army announced Kupski had confessed the murder.

The GI is confined at Camp Drake, outside Tokyo.

A legal technicality as to the status of the victim, Mrs. Kazuo Elkawa Wescott, delayed today's decision.

She was married to Aviation Ordnanceman T. C. Robert Wescott, Vineland, N.J. She remained a Japanese citizen when Wescott left Japan for duty at the Navy's China Lake Air Facility, Calif.

The indictment came after the prosecutor's office determined that the victim was not Wescott's legal wife, under Japanese law.

Hopes to Equal Russian Technology

U. of M. to Set Up Science Institute

ANN ARBOR (AP) — Plans for an Institute of Science and Technology at the University of Michigan to train American scientists to attain the technological peaks held by the Russians were approved yesterday.

The University's Board of Regents unanimously and eagerly passed a resolution to get the project under way immediately. The regents expected to have an initial operating cost in the neighborhood of \$2,800,000 per year which will be provided by state appropriation if approved by the legislature.

The institute will have two major goals: Satisfying the critical need for highly trained American scientists and engineers and developing sufficient skilled manpower to place Michigan in the forefront of forthcoming technological advances.

Top research work is another objective.

"I'd like to get it started right away," said U. of M. President Harlan Hatcher. "This is something you just don't wave a wand over and get started. It will be ready just as soon as the resources permit."

The institute's operation will resemble that of the university's Memorial Phoenix Project, which is devoted to the peaceful use of atomic energy.

Snow Keeps RCAF From Hunting Plane

HAGERSVILLE, Ont. (AP) — Heavy snow last night prevented planes from joining police in a search for a light twin-engine aircraft believed down in this area with a Chicago businessman aboard.

The pilot of the plane was identified as R. West of the West Instrument Co., Chicago, en route from Rochester to Detroit.

A spokesman at the Royal Canadian Air Force Search and Rescue Unit, Trenton, said planes were standing by, awaiting a break in a low cloud ceiling, but the forecast was for poor weather.

The Day in Birmingham

Sheffield Estate Reveals Yule Decorations Contest

BIRMINGHAM — Sheffield Estate Subdivision has announced plans for its own outdoor Christmas decorations contest. Prizes of \$15, \$10 and \$5 will be awarded.

All residents in the area, except the civic association's directors, are eligible. Judging will take place the evening of Dec. 27.

Recently elected officers of the association are John McGill president; M. R. LaLonde, vice president; M. C. Shepherd, treasurer; Mrs. Francis Henderson, Don Mittel, Robert Palwinski, Lou Mandall and Charles Tanner, directors.

Additional business at the annual meeting was contact with Berz Airport and the Civil Aeronautics Patrol to secure a pledge to keep altitude violations of aircraft at a minimum.
