Attractive City Resident First in Line

## Theater Train Seats Going—Fast!

The first conductor's call was still reverberating across the Pontiac area this week when applications for seats aboard the Pontiac Press Theater Special began to fatten the file beside the station-master's desk at Press headquarters.

First to make a reservation for the Sept. 10-15 round of plays and sight-seeing tours was Miss Joan Lewis, of 2195 Garland Ave., who will see America's biggest and most glamorous city for the first time.

**The pretty local resident remarked that she was first attracted to the trip by the array of Broadway shows she will take in as a member of the group of 60 local excursionists.**

"And of course the fact that I won't have to worry about any traveling details is a very attractive feature," she added.

Miss Lewis, along with her 59 fellow-travelers, will leave Pontiac on Sept. 10 for a five-day stay at New York City's Paramount Hotel from where she can easily reach by foot each of the theaters at which five of the season's top plays will be showing.

**Miss Lewis' tickets will admit her to orchestra seats for "No Time for Sergeants," "Damn Yankees," "Will Success Spoil Rock Hunter," "The Most Happy Fella," and "New Faces of '56."**

Other events which the $140 charge to each participant will cover during the busy week will include:

A tour of the United Nations Building with luncheon in the Delegates' Lounge, a boat trip around Manhattan Island, tickets to several television shows, an after-theater party at Leone's Restaurant, an arrival party at Greenwich Village and a number of "surprises."

**The attention to details admired by Miss Lewis include special handling of luggage (she won't see it from the time she leaves Pontiac until she reaches New York), orchids for the ladies, daily copies of The Pontiac Press, and the personal services of tour coordinators.**

But it won't be a week in which participants will have to rush madly from one event to another—plenty of free time has been allotted for seeing the city.

The available places are going fast. The Press advises its readers to make up their minds soon about this bargain offer to visit New York City.

Just complete the form on Page 2 and send it or bring it, along with a money order or check for $140, to John Riley, Promotion Manager—Pontiac Press.

Miss Lewis, the first to reserve a place for the excursion, is employed by the Oakland County Medical Society and is in charge of the physicians' library at Pontiac General Hospital.

## Dulles Argues Today for Hike in Foreign Aid

Will Request Senators to Add a Half-Billion to House Proposal

WASHINGTON (AP)—Secretary of State Dulles prepared a final plea today to a Senate committee ready to act on President Eisenhower's hard-hit foreign aid request.

Dulles hoped to persuade Appropriations Committee senators in closed session to add half a billion dollars or so to a $3,600,000,000 aid bill the House passed late yesterday.

Eisenhower himself, in a follow-up to a Tuesday conference with Republican legislative leaders, was reported contacting Democratic chiefs in his drive to increase funds for the program designed to strengthen free world countries against communism.

**The House passed 284-120 a $3,665,920,000 appropriation for foreign aid in the fiscal year started July 1. The amount was $1,405,955,000 below Eisenhower's original request of around five billion dollars.**

The bill included $3,425,120,000 in new funds plus $240,800,000 in reappropriations of previously voted money that otherwise would revert to the U.S. Treasury.

A previously passed four-billion-dollar authorization bill, setting ceilings for the program but providing no cash, would allow nearly 600 million dollars in new money to be put back in the appropriation bill.

**The Senate committee plans to complete action on the big money measure tomorrow.**

Sen Lyndon B. Johnson Tex, the Democratic leader, said he hopes to bring the bill before the Senate early next week.

Dulles told a news conference yesterday the House cuts could have a serious effect on Western collective alliances. Vice President Nixon, returning to Washington from a round-the-world trip, said drastic foreign aid cuts "could be disastrous."

House GOP leaders during debate called for a 550-million-dollar restoration of military aid funds to the bill, but offered no amendment to do this.

On passage, 160 Democrats and 124 Republicans voted for the bill. Against it were 70 Republicans and 50 Democrats.

In the foreground is the eight-tenths-mile-long St. Ignace causeway and four completed approach spans. Seven south approach spans, barely visible four and one-half miles away, also have been completed.

## Injured Soldier Says Assailant Wore AF Garb

Statewide Alert Issued as Victim Battles for Life in Saginaw

FRANKENMUTH (AP)—A statewide alarm was out today for a man police said hitchhiked a ride with a young Army private, then shot him twice in the head with a .22 caliber pistol.

Pvt. Jack H. Vining, 22, of Middleton was in critical condition at St. Mary Hospital in Saginaw. He underwent emergency surgery last night to remove the two bullets from his head.

Vining said he was shot about four miles south of Frankenmuth yesterday by a man wearing the uniform of an Air Force sergeant. He said he had picked up the gunman in Ann Arbor while en route home from Ft. Bragg, N. C., on a five-day furlough.

**Though temporarily blinded by his wounds, Vining staggered to the farm of Irvin Keineth near the Tuscola-Saginaw County line after his assailant forced him out of the car.**

Vining said the man took his military papers and billfold containing $30 and fled south toward Flint in the car, a 1954 model light green Ford convertible with Michigan license UB-3873.

* * *

Keineth drove Vining to Frankenmuth where Police Chief Henry Zinck rushed him to Saginaw in a patrol car.

Vining said his assailant was a Negro about 5 feet, 7 inches tall and weighed about 140 pounds.

**Vining was headed toward Bay City to visit his wife, Phyllis. The couple has a 6-month-old daughter.**

Officers were not able to question Vining at length, but said the gunman probably forced Vining to drive from U.S. 23 to a side-road, where he shot him. They found his pocket comb and glasses at the scene.

PVT. JACK VINING

Vining was due back at Ft. Bragg next Monday.

State police said they were not informed of the shooting for 90 minutes. They said this would have given the assailant a head start to "beat the roadblocks" set up in the Saginaw area.

## Senators Face Long Schedule

Early Sessions, Late Adjournments to Meet Legislation Burden

WASHINGTON (AP) — Majority leader Johnson (D-Tex) put the Senate on an adjournment schedule today with a program to "start early and stay late and meet Saturdays."

* * *

Johnson, who has refused to predict when Congress will end this session, had reminded senators last night that the Democratic National Convention opens Aug. 13.

He began the Senate session today at 9:30 a.m. an hour and a half early, and announced that the Senate would meet late each evening in order to clear the final mass of legislation.

Sen. Robertson (D-Va) urged Johnson to try to get the Senate to quit next week. Robertson contended that appropriations committeemen were told earlier this session that Congress could quit July 14 if they got annual money bills for government agencies out of the way early.

He said all but the foreign aid and supplemental appropriations were completed and they would be ready for Senate action early next week.

Johnson, in reply, denied he had set July 14 or any other "target date" and said several important bills still must be acted upon.

These included, he said, revision of social security, an atomic electric power reactor proposal, military public works and numerous others.

## Hall Sees Ike Stumping Various Areas Via Plane

GETTYSBURG, Pa. (AP)—After talking political plans with President Eisenhower, GOP Chairman Leonard Hall today predicted a "vigorous campaign" with Eisenhower traveling to different parts of the country by plane.

But Hall still said Eisenhower may confine himself to five or six major speeches, to be delivered by television and radio.

The Republican chairman spent nearly an hour at Eisenhower's country estate, then held a news conference afterward.

The meeting with reporters brought out these points:

**1. Eisenhower plans to go to the Republican National Convention and accept his renomination in person.**

2. Rep. Charles A. Halleck of Indiana will put the President's name in nomination at the San Francisco meeting which opens Aug. 20.

* * *

3. So far as Hall is concerned, the ticket still is Eisenhower and Vice President Nixon. He said that "absolutely" the President made it clear today that he still would be pleased to have Nixon.

4. Hall looks for Nixon to play a big and "very vigorous" role in the campaign.

Asked how the Republicans will meet the issue of the health of the

## Briggs Estate to Pick Bidder

'Spike' Says Trustees Will Meet Next Week to Determine Choice

DETROIT (INS) — Walter O. "Spike" Briggs, president of the Detroit Tigers, said today that when the board of trustees of the Briggs estate meet next week it probably will select but one of eight bidders.

**"The trustees, however, still have an open mind regarding all eight bidders," "Spike" told International News Service, "But we'll likely concentrate our attention on the top four."**

Spike said there has been some misunderstanding as to reports that he already has offered the name of the members of the four top syndicates for screening purposes to Baseball Commissioner Ford C. Frick and American League President Will Harridge.

## FBI Reveals Kidnap Note Facts

WESTBURY, N.Y. (INS) — Nassau County Detective Chief Stuyvesant Pinnell disclosed today that the Peter Weinberger ransom note was signed "Your Baby Sitter."

It was indicated the phrase was used as a code name in at least two telephone contacts with the parents.

**The use of the phrase by the caller was said to have convinced Morris Weinberger, 48, and his wife, Beatrice, 32, that they were in contact with the abductor of their 40-day-old son, Peter, who was taken from a carriage on the rear patio of their fashionable Westbury, L.I., home July 4.**

Disclosure of the note details came after the FBI and Nassau County officials joined forces yesterday to nab crackpots and hoaxers hampering the kidnap investigation and to press search for the infant and the kidnaper.

**35 WORD NOTE**

Although the note was signed "Your Baby Sitter," Pinnell said the Weinbergers told him they never had employed anyone to sit with Peter or their first son, Lewis, 2½.

**Pinnell said the note contained more than 35 words, that it was pencilled in well-written longhand and "obviously prepared by a grown-up person."**

He added:

"We got the impression it may have been someone working in the neighborhood, such as a servant, maid or gardener. More than two handwriting analysts have examined the note but their opinions have differed as to the sex and age of the writer."

Pinnell said there were no instructions for the delivery of the child in the event the Weinbergers followed the note's demand to leave $2,000 at Albermarle Rd. and Park ave., Westbury, L.I.

**FBI GETS TOUGH**

The new details of the ransom message were disclosed as the FBI and Nassau detectives began checks on the past life of the Weinbergers for a possible lead to the kidnapers.

**The G-men warned they are prepared to throw the book at crackpot callers under tough**

## USW, Big Three Hold 1st Parley

Federal Mediator Says Situation 'Still Serious' as Layoffs Continue

PITTSBURGH (AP) — Leaders of three of the nation's top basic steel producers and the United Steelworkers today hold their first negotiating session since the nationwide steel strike started 12 days ago.

Government mediators, who prodded both sides to get together at the bargaining table, came here from Washington to sit in.

**Meanwhile, unemployment continued to mount in allied industries. In addition to the 650,000 striking USW members, 72,770 workers in other industries have been furloughed. Hardest hit are railroads and the coal industry.**

Neither union nor industry gave any indication they would come up with counteroffers at today's session, arranged by Joseph F. Finnegan, director of the Federal Mediation and Conciliation Service.

Although announcing that both sides are "agreeable and cooperative," Finnegan described the situation as "still serious." The strike has cut steel production 90 per cent.

The industry proposed a 52-month contract which it said would boost pay 17 2-3 cents an hour for the first year. David J. McDonald, union president, says the offer actually amounts to 14 cents an hour. He has not disclosed union demands.

## Hurried Mother Drops Cake Mixer Into Baby's Bath

Mrs. Alva Perry, of Oak Park, discovered yesterday you can't mix a cake and bathe a child at the same time.

Mrs. Perry had plenty of household chores to do and decided to combine a few.

**She put her nine-month-old son Mitchell in the bathtub and then plugged her electric mixer into the bathroom's electric razor outlet.**

Everything was proceeding nicely, the batter was swirling and Mitchell was splashing.

Then the mixer slipped from Mrs. Perry's hands and dropped into the tub. Mitchell was knocked unconscious by electric shock.

* * *

The housewife called police but the child revived by himself and apparently suffered no injuries, police reported.

## Beware of the Spooks—Tomorrow's 13th Again

Shades of black cats, spilled salt and broken mirrors! Another Friday the 13th comes up tomorrow making three this year . . . one in January, one in April and this one.

The evil spirits who fly on Friday the 13th are having a screeching good time this year with three days to plot and carry out bad deeds.

The old superstition tells us it's a day to beware and take care. But if you get a little tired of hiding under the bed—in a room with the windows tightly closed and the blinds down, be brave! Walk boldly out your back door.

We have it straight from the spooky specters that they guard only the front doors of people who do not believe in their magical Friday the 13th powers.

**But just for safety's sake and not to press your luck, kind of keep an eye out for speeding tricycles, open manholes, collapsing doghouses and falling meteors.**

After all, there's no sense being closeminded about this thing. Besides we can relax for over a year from here on. There's not another Friday the 13th until September, 1957.

After three this year, we need a long holiday.

# Railroader Tells of Finding Dope

## Saw Woman in Kimono Bury Can With Heroin in Trash Pile

A kimono-clad woman hiding $300 worth of dope from police was described Wednesday at the Municipal Court examination of 15 suspects in a drug conspiracy.

* * *

Heroin and the tin can in which it was hidden were introduced as evidence of a drug traffic in the southwest area.

**A Grand Trunk Railway engineer, Lee A. Martell, testified he saw the woman hide the can in a trash pile behind 426½ S. Saginaw St. May 12, shortly before a Vice Squad raid.**

Martell, of 42 S. Johnson Ave., also identified a kimono which Det. Herbert Cooley said was taken from an upstairs flat at the Saginaw address. One of the suspects, Eddie May Yates, 28, lives there.

**SAW IT ALL**

Martell told Assistant Prosecutor George F. Taylor, he saw the action from a railroad car on tracks about 20 feet away. He recovered the can, Martell testified, became suspicious of its contents, and turned it over to Cooley.

**The contents were identified as heroin in testimony by a State Health Department official.**

The suspects include two other women, one of them an expectant mother from Flint. They are not charged with sale or purchase of narcotics, but only with involvement in the ring, which police revealed with the arrests in mid-May.

* * *

Judge Cecil McCallum adjourned the case until Tuesday morning and freed the suspects under bonds already posted. If they are bound over to circuit court, it will be the first such conspiracy case tried in Pontiac.

Conviction can bring up to five years in prison, a $10,000 fine or both.

**CRANK CALLS CONTINUE**

FBI agents, winging into fast action said they would begin by picking up for questioning all curiosity seekers and hangers-on surrounding the Weinberger's Long Island home.

**The parents of the child—Mr. and Mrs. Morris Weinberger—who have faithfully followed up all the hoax leads — were besieged by some 17 calls on Tuesday and more calls yesterday offering false hopes for the return of their child.**

One of the calls was traced to Brooklyn where a former mental patient, Shirley Ginsberg, was picked up by police in a telephone booth. She was booked on charges of giving false information in a kidnaping case.

* * *

Even public conveyances were being used to trick the sorrow-laden parents. Yesterday a rider on a Broadway bus found a placard advising the baby was in a Brooklyn boarding house. This lead turned out to be "phony."

# Coffee Drinkers Cut Down Use to Cut Prices

NEW YORK (INS)—A leading American coffee roaster urged American housewives today to stage a boycott on buying coffee to help check rising prices for the product.

* * *

William Black, president of the Chock Full O'Nuts Coffee Corp., said the American housewife was "getting the business" and that to "stop drinking coffee" was the only answer to current pricing practices of the coffee-producing South American countries.

Black said:

**"Coffee prices have soared to the highest level since the record breaking prices of 1954. And there isn't a thing we can do about it, except to stop drinking coffee. We don't grow coffee here.**

"All the South American countries have to do is to hold back their supplies and we have to pay what they ask—through the nose.

"Present coffee prices have absolutely nothing to do with the cost of growing coffee, or the law of supply and demand. The U.S. Department of Agriculture has just issued a report that the present coffee crop will be over 50 million bags (132 pounds to a bag), the largest on record.

* * *

This means at least a 10-million bag surplus from this year alone. In addition, Brazil is still holding 3,200,000 bags which she bought up from the last crop, in order to bolster the market."

## Salvage Materials Taken

About $230 worth of materials were reported stolen from a building on the grounds of the Typhoon Steel Co. at 133 Branch St. Tuesday night, Pontiac police said.

The manager, George Bergor of Detroit, said a heavy door had been pried open and copper tubing and wire, chain and other materials taken.

# Gromyko OKs Arms Ceilings

## Soviets Accept West's Proposal for First Stage of Disarmament

UNITED NATIONS, N. Y. (AP) — Soviet Dep. Foreign Minister Andrei Gromyko today accepted the ceilings for armed forces proposed by the Western powers for the first stage of disarmament.

* * *

Speaking before the U. N. Disarmament Commission, he dropped the Soviet Union's insistence on lower ceilings. He also proposed an agreement to stop stock piles of such bombs, end their production and ban their use.

* * *

But he still refused to accept President Eisenhower's plan for aerial inspection of armed facilities to guard against surprise attack. He stood by the Soviet Union's proposals for control of disarmament by ground inspection only.

* * *

Gromyko also refused to agree to the West's demand that genuine disarmament should be preceded by settlement of international political problems such as the division of Germany, Korea and Viet Nam.

* * *

Gromyko agreed that as a first step the armed forces of the United States, the Soviet Union, and Communist China should be cut to 2½ million each; those of Britain and France to 750,000 each and those of other countries to 150,000 to 200,000 each.

# Vigorous Campaign Predicted for Ike

(Continued From Page One)

President who has suffered a heart attack and undergone a major operation in the past few months, Hall said it already has been met by "frankness and candor."

Hall said that is "the complete answer" and "nothing has been kept from the American people."

**Hall said it is his feeling the Republican campaign will start around Sept. 15 and last six weeks. He said he couldn't say whether Eisenhower will kick it off with a major speech.**

Campaign headquarters will remain in Washington, Hall said, and the GOP has budgeted seven million dollars for the presidential campaign and the House and Senate campaigns.

The GOP leader predicted that the party will win even more impressively than in 1952, regain control of the House and Senate, and carry more than the four Southern states Eisenhower took four years ago.

Hall said he doesn't "anticipate any trouble" in the farm belt. He did concede that "we had a situation" there before price and drought conditions improved.

He was asked what Democrat would be toughest for Eisenhower to beat.

"Oh," Hall replied, grinning, "I don't care which one it is."

Before talking with Hall, Eisenhower conferred with Sherman Adams, his aide, and Harold E. Stassen, his assistant on disarmament matters.

Eisenhower will confere here tomorrow with Vice President Nixon and return to his White House duties in Washington Monday or Tuesday.

## Widow Starts Memorial Fund for Hospital

A memorial fund has been established at Pontiac General Hospital for Dr. Harry A. Sibley, who died July 10.

Mrs. Sibley has asked, in lieu of flowers, contributions to the fund be made out to the hospital in memory of her husband. The money will be used toward some part of the new addition at Pontiac General, according to Miss Shirley Dovre, administrative assistant at the hospital.

## The Day in Birmingham

# Business C Enforcement Waits for Board Decision

BIRMINGHAM — Details of the proposed policy for the Business C zoning will not be settled for another two weeks, according to City planner Herbert Herzberg.

The policy was discussed at Tuesday's planning commission meeting, but no decisions were formulated.

* * *

Areas which Herzberg says are "Floundering in the state of land use instability are South Woodward Avenue, east of Elm Street between Bowers and Forest streets, North of Maple avenue and east of Hunter boulevard, east of Adams between Ruffner and Holland, Pierce and Purdy streets south of Brown street, Oakland avenue both east and west of Hunter, North Woodward frontage particularly on the west side of Ferndale street, and the blocks bounded by Merrill, Brown, Bates, and Henrietta Streets.

**Thomas W. Schad, son of Mr. and Mrs. Eugene F. Schad, 623 Bloomfield Ct., Birmingham, is one of 20 awarded the Edward P. Burrell Scholarship at Cornell University, Ithaca, N. Y.**

Selection of winners is based on overall secondary school records and awards range from $100 to $700 applicable during the student's freshman year.

* * *

Schad is a graduate of Cranbrook School. He will enter the Department of Engineering Physics at Cornell.

* * *

**Byron Edward Burnell**

**Byron Edward Burnell, 6, son of Mr. and Mrs. John Barrett Burnell of 7075 Sherwood Dr. drowned yesterday in a town near Huntsville Ont. where his parents were vacationing.**

His father is an assistant staff engineer in the Chevrolet Division at the General Motors Engineering Center.

Funeral service will be Saturday from the Bell Chapel of the William R. Hamilton Co., with interment in Roseland Park Cemetery.

Besides his parents, Byron is survived by his paternal grandparents, Dr. and Mrs. Max Burnell of Flint and his maternal grandmother, Mrs. Emil Meims of Florida.

## Waives Examination

A Ferndale man, charged by by Hazel Park Police with an attempted breakin, Wednesday waived examination before Municipal Judge Robert C. Baldwin.

Ronald DeLoy, 24, of 281 College St., was sent to Oakland County Jail under $2,000 bond pending arraignment Monday in Circuit Court.

U.S. Customs now permits American tourists to mail home from abroad gifts valued at not more than $10 to as many persons as they wish free of duty.

# Gent Loses Car While Negotiating for Better Model

BALTIMORE (AP) — Theodore B. Fowler had a car, went to trade it for a new one and went home by bus without any.

* * *

Fowler's complaint to the department of motor vehicles has been referred to the state's attorney.

* * *

Fowler reported that while he and a salesman were negotiating, another took away his car. Meanwhile, Fowler signed what he said he thought was a conditional sales contract.

* * *

But finally he didn't like the deal and asked for his car back. The salesman told him he had sold it by signing the contract. Besides, he was told, his car already had been sold to another.

Fowler still is riding the bus.

Composes 1,000 Pop Tunes an Hour

# Automation Catches Up to Rock 'n' Roll

DETROIT (AP) — The modern age has come up with a song-writing machine.

The Burrough's Corp. says its $250,000 electronic computer, Datatron, can turn out 1,000 popular tunes an hour.

• • •

Lest human composers fear they'll be replaced by automation, Burroughs officials say Datatron's song-writing "is only an experiment of mathematical importance."

**However, the machine's first song, a ballad titled "Pushbutton Bertha," with lyrics by Jack Owens, will debut Sunday on a television science show in Los Angeles (Adventure Tomorrow, KABC-TV).**

Mathematicians Douglas Bolitho and Dr. Martin Klein, who worked out the formula for getting music out of Datatron, said any similar computer could "write" music.

They went on the theory that American popular music is "highly codified, involving a rigid pattern of notes with specified cadences."

**They say a human composer follows these restrictions intuitively. Datatron has no instincts, they said, but "a kind of logic is woven in its circuit design, enabling it to make the creative decisions of songwriting."**

So, they feed the machine a formula that substitutes numbers for notes and equations for tempo. It prints the melodies on an electric typewriter in the form of capital letters and rhythm symbols.

As the mathematicians put it, from a keyboard starts a chain reaction generating thousands of other numbers representing one of eight diatonic notes in the scale with two allowable accidentals."

**Or, the machine automatically picks a series of numbers at random, testing each for its melodic quality and rejecting sour notes.**

Bolitho and Klein said the machines could continuously write more than 10 billion tunes without human intervention. There are that many possible mathematical combinations.

THE CODE'S THE THING

Anyone who can "program" a computer — that is, work out a code in the robot's vocabulary — could write a music formula, they said.

• • •

And Burroughs said people can be trained in programming the Datatron in only three or four days.

We Had to Cancel This Adv....

Originally this space was occupied by an advertisement on $4 poplin jackets 'on sale' for $1.00 . . . but today, we had to ask the Pontiac Press to leave it out.

Here's what happened: Last Monday, we had exactly 972 jackets for a week-end sale but so many were bought by folks just "walking-in" on Tuesday and Wednesday that we cancelled the advertisement intended for this space.

Today, with less than 200 jackets left in broken size ranges, we didn't want to disappoint a lot of customers.

The lesson to be learned from this incident is that it always pays to shop at SIMMS everytime you are downtown. 'nuf sed!

SIMMS BROTHERS

P. S. Yesterday, we bought 600 more of the jackets (delivery promised Saturday or Monday) but still we are afraid to advertise them. As soon as they arrive, we'll put them in stock at the same low $1.00 price.

# U. of M. Bares Truth on Davy Crockett

ANN ARBOR (AP)—It took a lot of courage, but the University of Michigan alumnus magazine has printed the "whole truth" about the greatest "b'ar-killer" of them all—Davy Crockett.

Davy, the article says, was born on a mountain top all right . . . not in Tennessee, but in North Carolina.

• • •

The article is by Ruth C. Silva, a former Michigan student, now associate professor of political science at Pennsylvania State University.

**She proclaimes Davy was destined to become a children's idol from the moment he said, "Big men have more important things to attend to than learning to spell."**

It wasn't, of course, that Davy didn't try. He decided his courtships were suffering from lack of "larnin'," so he began to study. Unfortunately he was jilted shortly and quit school immediately.

**FIGHTING FATHER**

Married at 20, he had two children and went off to fight in the Indian wars. The article says:

"Private Crockett fought single-handed through the Injun War of 1813-1814 'till the Creeks was whipped' with only a little assistance from Gen. Andrew Jackson and several thousand regulars."

• • •

Davy's wife died the year after the Indian Wars ended, leaving him with three children. Davy later embarked on his fourth romance and his second marriage.

**His political life began in Giles County, Tenn., where he was named justice of the peace. He admitted he relied more on "natural born sense and not on law learning."**

He issued warrants in "verbal writing" which was fine until the state legislature demanded he use "real writing." With the help of a better educated constable, Davy conformed until his own writing improved.

From justice to legislator went Davy and then came the call to Congress. Defeated in his first try, he made it in his second. Off in the Congress in 1827, Davy's career was notable through his refusal to go along with a bill that would have given land for schools to Tennessee. It passed in spite of his opposition, the article says.

**He lost the next term, was elected again in the one after that. After battling long and hard against President Jackson, Davy, the article says, was led to believe he could become "the second greatest and best" president of the U.S.**

While he was planing his presidential campaign, he lost the election to Congress. Thereupon in bitterness, the article says, he quit his wife and children, and west off to Texas.

• • •

There, the article concludes, "a-grinnin' to follow the sun to Texas," he joined the 186 men in defense of the Alamo. When the battle ended, "the fearless hunter had gone to the happy hunting ground."

## Proposed City Park Would Be Great Boon

According to the local soothsayers, Pontiac's current gift from Mr. and Mrs. O. L. Beaudette constitutes this city's finest donation.

★ ★ ★

**The Beaudettes are giving Pontiac approximately eight acres of ground across from the High School for use as a park, plus their own residence which the city could well adapt as a library. This probably represents several hundred thousand dollars worth of property, in addition to the home.**

★ ★ ★

Many will consider the location of the residence ideal for a library. It is reasonably near the center of the city and is large enough to serve the community well. Also, the construction is such that it will last indefinitely with normal maintenance.

The family of Harold L. Ward which owns the Bradfield residence east of the Beaudettes declares it is interested in the general proposition and would like to give some additional property or a cash donation to further the project.

Also, in the end, the city would acquire the rest of the property to complete the block square park which would total about 15 acres.

★ ★ ★

As long as either Mr. or Mrs. Beaudette lives, the Beaudette residence will remain as their home. In addition there are many details to work out which require time and study. Nothing can really happen until the area is zoned against commercial encroachment. Two tentative transactions involving business usage of property in the area under discussion have already been sidetracked, awaiting developments.

★ ★ ★

**This is a splendid gift.**

**It ranks first in Pontiac history.**

**Such action may stimulate others to think along the same lines and it may be the forerunner of further civic beneficence. Mr. and Mrs. Beaudette have done a grand thing.**

## Eisenhower Candidacy Is Officially Announced

It's official now.

He's going to run.

President Dwight D. Eisenhower has issued a direct proclamation covering his intentions to seek the Chief Executive's office again.

★ ★ ★

Few are surprised.

Both Republicans and Democrats were virtually certain that he would declare himself a candidate, but it took a direct pronunciamento from the man himself to make it certain.

★ ★ ★

**We believe that the President delayed his answer for just one reason: he wanted to be absolutely certain himself of his own physical condition. At one time he stated that if he became convinced he should not run, the American people could rest assured that he would step aside and take himself out of the race voluntarily and promptly.**

★ ★ ★

Well, the die is cast.

President Eisenhower is "in."

The Democrats can plan accordingly.

The Republicans can do likewise.

The latter are all set for the impending struggle. The Democrats still face a merry-go-round in their convention. This will make interesting reading in the days ahead. Stevenson is in front, but the margin is thin. Both Adlai and his Democratic opponents now know the November opposition for sure. It hardly makes the Democratic nomination any more enticing.

## Cheering Up-ers

Life is getting to be so very cheerful in these United States of ours. Just one long chuckle.

First off is the weekend forecast. How many are going to be killed this weekend?

★ ★ ★

"Will you die on the Sabbath?" asks a cheerful headline.

By the time you have read and heard a few of these grisly reminders that death is stalking you at every step, you begin to take some degree of comfort in the fact that you are crowding retirement age. Perhaps you can afford to smile a little, if you do it surreptitiously, slyly, when nobody is looking.

**But then you begin to notice these pieces they write for the aging. Once more you are brought up short. You choke back that first halting belly laugh you finally decided you could try.**

"Keep Going," the headline orders. "Agitate, don't vegetate. Fight, tug, pull, push and shove yourself up on those two feet."

★ ★ ★

There is more of the same, but you just don't read any more. You fight, tug and push that exhortation away from you. If retirement is going to involve all that effort, it is going to be tougher than staying on the job.

**"The all around deal is the best thing that has ever been offered around here. People who haven't been to New York have a terrific treat ahead of them and those that have been already realize what a great opportunity this represents."**

Archie, old pal, you're absolutely right. This trip took a lot of planning and a lot of ground work, but our promotion manager, Johnny Riley, has worked out all the details.

David Lawrence Says:

## Reds Won't Influence '56 Election

WASHINGTON—The Democrats in Congress the other day gave vent to some righteous indignation about a staff memorandum sent out by the Senate Republican Policy Committee with the headline: "Communist party pleads for Democrats to win." Several Republican senators disavowed the memorandum and coridemned it.

• • •

**But now the Republicans are protesting because Rep. Rooney of New York, Democrat, read to the House on Wednesday a news report from London quoting Jacob Malik, the Soviet ambassador there, as saying: "I'm for Eisenhower. The people of Europe know him and like him. We can do business with President Eisenhower."**

**Rep. Charles Halleck, Republican leader of the House, said "shame on you" to Rooney and generally condemned the tactic. No Democratic leaders have disavowed it.**

But one wonders why all the excitement over what the Communists think about an American presidential election. The Senate Republican Policy Committee memorandum was also made up of quotations from published news reports which stated the Illinois chairman of the Communist party had brought in a recommendation to his fellow Communists to help support the Democratic party in the 1956 election.

**NOTHING NEW TO U.S.**

The theory that the American people will be persuaded to believe that the Communists can influence the outcome of an American election is, of course, not a new one. President Harry S. Truman, campaigning in 1948 for re-election, said in a speech in Oklahoma City on September 28:

**"I charge finally that, in all this they (the Republicans) have not hurt the Communist party one bit. They have helped it. The fact of the matter is that the Republican party is unwittingly the ally of the Communists in this country. This is clearly shown in the election record of the Communist party. . . .**

"The Communists want a Republican administration because they think that its reactionary policies will lead to the confusion and strife on which Communism thrives. . . .

**SOMETHING TO PONDER**

**"Here is something for every American to think about. Why have the Communists lined up solidly to help put a Republican president in the White House? Why do they want a Republican victory? Could it be that their position is now so weak, under a Democratic administration, that their only hope is in a change? Could it be that they are counting on a Republican administration to produce another economic crash which would play into the hands of Communism? Think that one over."**

Nearly a month later at Boston, on Oct. 27, Truman in a campaign speech said:

**"Now my friends, the truth of the matter is the Communists are doing all they can to defeat me and help my Republican opponents."**

Truman in the 1952 campaign went a step further and virtually accused Gen. Eisenhower of accepting Nazism. Truman said in a speech in New York in October 1952:

**"He (Gen. Eisenhower) has had an attack of moral blindness, for today he is willing to accept the very practices that identified the so-called 'master race,' although he took a leading part in liberating Europe from their domination. . . .**

"Anti-Semitism, anti-Catholicism, and anti-foreignism grow only in concealment. They have hidden themselves within the Republican party for years."

In that same campaign, Gov. Stevenson, the Democratic nominee, in a speech at Boston on Oct. 2, 1952, indicted a whole group of Republicans in this manner:

**ATTACKS REPUBLICANS**

**"They (the Republicans) have voted for policies which would encourage Soviet aggression and against policies which would check it. On these crucial issues of foreign policy, in short, the old guard has voted the straight party line—and I don't mean the Republican party."**

**Stevenson's reference to a "straight party line" was taken generally at the time to mean, of course, the Communist party line, since the words "party line" are usually associated with the policies that the Communists employ in indoctrinating their members or their allies or their dupes.**

What the Senate Republican Policy Committee staff said the other day in their mimeographed announcement was this:

**"The official Communist line has now been announced. The Republicans must be defeated and all support thrown to the Democrats. A Democratic party victory is essential. This news has been percolating down to party members for some days."**

The American people, however, will make up their own minds as to which party is doing better service for the Communist cause.

Dr. William Brady Says:

## Be Positive of Medicines You Take to Relieve Pain

Remember the four or five weeks siege of peripatetic bellyache I described here recently? From day to day I thought I had diverticulitis, duodenal ulcer, carcinoma of the head of the pancreas, hydro-nephrosis, and toward the end angina pectoris. Really, I didn't take the angina suggestion seriously—it was just an explanation conceived by an obstetrician who attended me on the bowling green when I was having pains.

**Although I worried in my strong, silent way, about all of the things mentioned, before it dawned on me that the wandering pain was just intercostal neuralgia, I took only two medicines in the course of the unpleasantness. At the time I suspected it was duodenal ulcer I chewed some Traco discs—delicately flavored combination of calcium carbonate (prepared chalk) and magnesium trisilicate, which in my judgment is the best antiacid one can take to relieve hyperacidity of stomach; and toward the end, I took one nitroglycerin tablet, not because I was in any particular distress at the moment but just to determine whether the obstetrician's supply was what it purported to be. It was! Within a minute from the second I put the tablet under my tongue I felt the characteristic throbbing in the head and flushing of face.**

Certainly I'm not insensitive to discomfort, nor am I stoical; but I can't understand the unconcern with which many persons who should know better indulge in dangerous analgesics (pain-killers) for every ache, pain, anxiety, discomfort as though aspirin, acetanilid (monoacetylaniline, phenylacetamide), acetophenetidin (phenacetin), antipyrine, pyramidon or one of the numerous mixtures of these, without a dash of caffeine, sold under fancy trade names as remedies for whatever ails you.

In Volumette 2 (Heart and Arteries) and Volumette 15 (Nerves and Nutrition), of the Pocket Cyclopedia of Health I describe in some detail the dangers involved in the use of aspirin, acetanilid, the barbiturates and other nerve sedatives.

**If any kind of pain-killer must be taken the least dangerous (I do not say safest) in my judgment, is aspirin, and I mean the cheapest brand of aspirin you can buy.**

As already intimated, I'm not fond of ache or pain. In fact I usually holler before I'm hurt. But I wouldn't take a dose of aspirin in any circumstance unless I could sit or lie at rest for at least an hour afterward. If such precaution were out of the question I'd worry along without the aspirin. But, then, my health is probably more precious than yours. One of my notions is that you should "Care for your health while you have it . . . for when it is gone the chances are you can't buy any more.

## Man Relates Destruction of Decoration for Grave

Letters will be condensed when necessary because of lack of space. Full name, address and telephone number of the writer must accompany letters but these will not be published if the writer so requests unless the letter is critical in its nature.

Memorial Day we decorated our boy's grave at the Drayton Plains Cemetery. Returning a week later, we found the flag and the wreath stand were gone.

**On July 4 we again visited his grave and two flags, the Christian and the Stars and Stripes, were gone. The cross we had placed there was also destroyed.**

My son gave his life for his country in Korea. Why are people so rotten mean as to rob and destroy any grave?

### Writer Commends Young Girl's Letter

I think Joyce Peaks is to be commended for her letter about not being able to secure a job because of her color.

She has placed her trust in God Who is able to supply her every need according to His riches and not to the whims of a few job mongers who want a token every month or a percentage of one's wages for a few hours work.

The time is coming when this colored girl will stand in judgment against those who are persecuting her now. These racial discriminations only show the contempt and hatred in the hearts of men.

## Pastors in Isolated Spots Become Real Sky Pilots

By EDWARD S. KITCH
(For HAL BOYLE)

WOODDALE, Ill. (AP)—One of the nation's most unusual flight schools is training missionary students to be bush pilots.

• • •

Young men are prepared by the Moody Bible Institute's aviation training branch to provide wings for missionary families serving in undeveloped areas of South and Central America, Alaska and Canada.

**50 FINISH COURSE**

Some 50 pilots have finished the four-year course that qualifies them to serve in the ministry as well as fly as commercial pilots.

• • •

These missionary technical specialists are the result of a program pioneered by a former Baptist minister, the Rev. Paul Robinson.

With Civil Aeronautics Authority approval he began the school 10 years ago with a class of three men and one airplane.

• • •

Now the class has 60 men and 12 planes. The institute owns the Moody-Wooddale Campus Airport, a 90-acre layout of hangars, shops and classrooms.

**SURVIVAL TRAINING**

"You have to be an expert to survive in the kind of country these fellows go to," the Rev. Mr. Robinson said.

• • •

To equip them for emergencies, the future sky pilots are trained to overhaul all types of aircraft engines, repair propellers for light planes and land aircraft in rough territory. They are crammed with scores of technical details.

The Rev. Mr. Robinson, who has held three pastorates in New York State, first conceived his plan to combine missionary work with flying after extensive travels through the jungle areas of the Amazon.

• • •

He wanted to be a flying missionary himself but World War II interrupted plans. He served as a flight officer in the Civil Air Patrol instead.

**TRUSTEES INTERESTED**

He presented his idea to Moody's Board of Trustees and one of their number personally purchased the first aircraft for the course.

A missionary bush pilot is one of several skilled men who serve in the field where white men seldom venture. They include teachers, radio men, linguists and medical missionaries.

They dedicate themselves to follow the instructions of the Bible, particularly Mark 16:15, "Go ye into all the world and preach the Gospel to every creature."

An interdenominational Christian training school, Moody Bible Institute is supported by members of churches all over the world. It admits 12 students each year to its radio and flight course. Scores more applicants try for entry but careful screening sifts the field to those who express sincere missionary qualifications.

"If we sense a young man's interest in the course is merely of an adventurous spirit, we call a halt there," Robinson said.

Case Records of a Psychologist:

## Try to See Yourself as Others Do

*Dr. Milo is an acquaintance of mine. Yet he is fettered by childhood emotional attitudes, so he acts like a fool in a certain realm. Otherwise, he is a brilliant doctor and popular man. But other people are often just juvenile in their religious zeal, being dominated by outmoded childish views.*

By DR. GEORGE W. CRANE

Case S-310: Dr. Milo, aged 43, is a very successful Chicago physician.

"But he has never matured emotionally," a mutual friend informed me.

• • •

"Dr. Milo grew up on the other side of the tracks. His family was very poor.

"He struggled and skimped and worked his way through school. But now that he is successful, he still shows juvenile traits that reflect his boyhood.

"A couple of months ago, for example, he walked into a Chicago bar and ordered drinks for everybody.

"Then he flashed a roll of bills that amounted to over $16,000, and had the $1,000 bills on the outside.

**"He handed the bartender a $1,000 bill to pay for the drinks! Obviously, he just wanted to flash his success and be a grandstander, for he wasn't drunk.**

"His ego hunger for acclaim as a rich man simply beclouded his good sense. For when he headed out to Oak Park in his car, a couple of thugs trailed him.

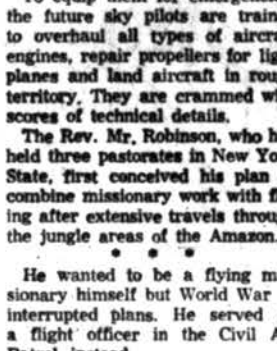

"They curbed his car. He saw what was coming so he pulled the roll of bills from his pocket, he purposely dropped half of them on the floor, and thereby saved himself about $9,000, for they grabbed the balance and fled.

"But, Dr. Crane, he didn't even profit from that experience! Just last week he did the same doggone thing in another tavern.

**"After flashing a big roll, he started for home and again was robbed. Wouldn't you think a man who was smart enough to rate an M. D. degree, would grow up emotionally and quit being a show-off juvenile?"**

**NO "HORSE SENSE"**

Dr. Milo's case shows that you can have a high I. Q. and even a college degree, yet lack "horse

sense" or good old-fashioned gumption.

I have known Dr. Milo for many years. He is popular and a good talker. And an excellent doctor.

But his childhood experiences have branded him with such a lasting impression that he doesn't use good logic.

• • •

This case also shows how early childhood "conditioning" or habit training can affect an adult, even contrary to mature logic.

**Some people thus become so imbued with religious bias that they behave just as stupidly in the religious realm as Dr. Milo does with reference to flashing his $1,000 bills before saloon crowds.**

Despite a high I. Q. and even advanced college degrees, therefore, these religious zealots will claim that everybody is going to Hades who doesn't belong to their denomination.

Or they will consign to eternal flames the people who aren't baptized in a definite manner or who eat or don't eat certain foods.

**MENTAL CALISTHENICS**

As a rule, most of us grow somewhat philosophical as we advance in years and thus obtain a broad perspective.

St. Paul says, "When I was a child I thought as a child, but when I became an adult, I put away childish things."

That expresses what should happen. Alas, some people retain their childishness all their lives.

They have a congealed imagination. Truly mature adults have an elastic imagination. They can look at themselves somewhat as others view them.

**"Suppose I might be wrong?" they can at least think occasionally. "Maybe God really does let people into Heaven of a different church."**

So cultivate "empathy" in your children which means, urge them to place themselves, via imagination, in other peoples' shoes.

"Try to view yourself as others see you," is excellent calisthenics for a mature, elastic imagination.

Don't be fettered by childhood's fears or biased outlooks. God wants us to grow up.

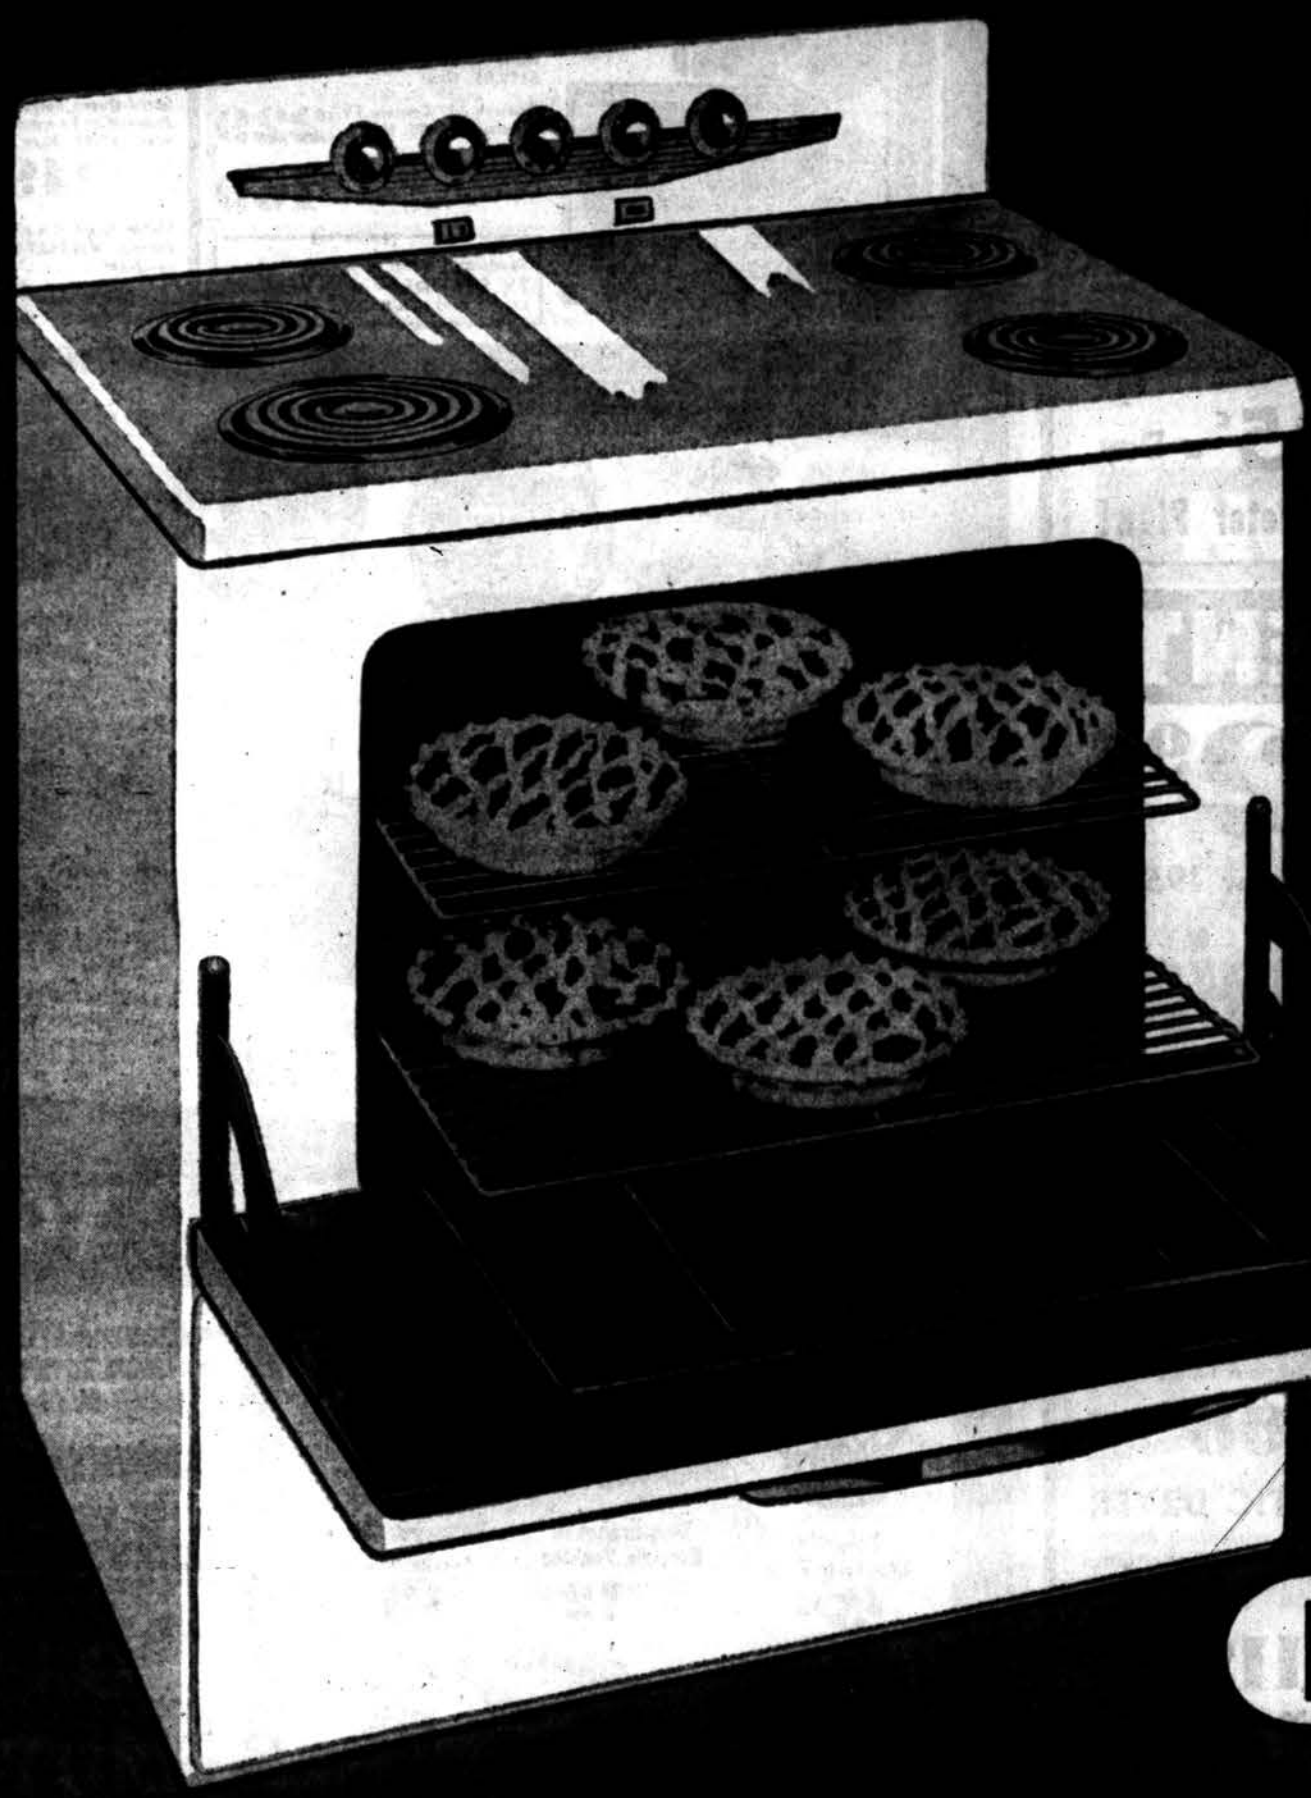

**Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long 3c stamped, self-addressed envelope and 20c to cover typing and printing costs when you send for his psychological charts and pamphlets.**

## Don't Understand —Just Live With Her

NEW YORK — "Don't try to understand your wife," advises marital guinea-pig, Jo Chamberlin, "just enjoy having her around." Chamberlin has been conducting self-experiments all during his eleven years of marriage.

• • •

"My suggestions may not be foolproof," he says, "but some guidance on the marital battlefield is better than none."

Among the 15 tips he gives are:

**1 — Don't object to social activities like women's clubs or civic - improvement societies. They don't hurt anybody, and they make the ladies feel good.**

**2 — Confirm her ideas. Don't advance your own.**

**3 — Enjoy male company at frequent intervals. One night out a week is a minimum.**

**4 — After an argument use the silent treatment. It's a scientific fact that women can't refrain from talking for very long.**

"Above all," cautions Chamberlin, "don't forget your wife's birthdays or your anniversary. These are unpardonable sins."

## 2½ Million in Trailers

NEW YORK — About 2,500,000 persons—1½ per cent of the population—live in the 850,000-odd house trailers in use in the nation.

Twenty per cent of the trailer residents are servicemen and their families, 10 per cent are retired persons, 7 per cent are salesmen, businessmen, engineers, teachers, and ministers, and the remaining 63 per cent are workers whose occupations are mobile or semimobile.

**Long to See 'Real America' - - - Hollywood Style**

# Tourists From Europe Get Cool Welcome

By PHYLLIS BATTELLE

NEW YORK (INS) — You see them wandering the streets, gazing uncomfortably at the people, goggling the shop windows, wrinkling their foreheads as they try to make themselves understood, and you wonder: Why did they come?

• • •

These are the European visitors who have screwed up the courage to venture into the United States to see if what they heard is true.

**They came, of course, because overseas travel is now a common thing — and if so many thousands of Americans go to Europe each summer, why should not a few thousands of Europeans venture here?**

Only it's different for them. It must certainly be a bewildering, freightening, disappointing experience.

• • •

The curious, and rather sad, fact is that an American need speak no foreign language at all to have a whooping good time in Europe.

There are hundreds of travel folders to show him the way, and millions of Europeans who learned to speak English as soon as they were old enough to know the value of the dollar.

**FEW GUIDEBOOKS**

But a traveler from the old country coming to the U.S. has few —if any— "Guides to America" printed in his language. And the thought of earning a French franc or an Italian lira has never made linguists out of us-all.

A European tourist must only stand and gape. He will not be given the red carpet, the illustrative travel tour. He will understand very little of what he sees, and almost nobody will understand him.

**The movies are almost the only clue non-English foreigners have to what goes on within our borders, and in their curious eyes as they stroll the streets of New York, you see a hunger for sight of "the real America."**

Where, they must be thinking, are the penthouse suites overlooking the George Washington Bridge, wherein dwell the tycoon and the blonde fatale sipping champagne?

• • •

Where are the big-city newspaper offices with the men in slouch hats reforming the underworld? And, on that subject, where are the guys and molls and nightclubs with gaming tables in the back room?

Where, indeed, are Marilyn Monroe and the ever-popular Mae Bush?

**TAUGHT BY MOVIES**

Europeans know well how to hail taxicabs and drink martinis and ride the range at sunset, because the movies have instructed them.

• • •

But from the looks on their faces, as they wander, you fear that they would never have the nerve to ride cabs often or risk being "rolled" by Class B Warner Bros. characters after a round of drinks.

**As for range-riding, it seems doubtful they ever would get the courage to head beyond the cities where at least the personnel of their consulates and tourist offices speak in their own tongue.**

Besides, there are the Indians to consider.

• • •

I ounce found myself roaming through a countryside section of Italy alone, unable to find a soul who could speak my language, and unable to make myself understood.

Despite the wonders of seeing a whole new world, I was frightened and homesick.

The whole of America must make European tourists feel that way. What a pity.

## Cheaper by the Dozen, but Harder to Corral

LOS ANGELES (AP) — Roll call will be more closely watched in the Refugio Rangel household. Mrs. Rangel overlooked one of her 10 children and it was 14 hours before he was found.

She said she looked in on the youngsters, all in identical nightshirts, as they got ready for bed, and thought she counted them all.

But Benjamin, 2, had slipped out and was found four blocks away by a stranger who turned him over to police. It wasn't until morning when Mrs. Rangel called the roll again that Benjamin was found to be missing. A telephone call to police quickly united the family again.

## *West Finds Key to Mysterious Eastern Problem*

BALTIMORE (AP)—A western key unlocked a small, minor eastern mystery yesterday, and north and south got into the story, too.

Mrs. Jean Steg, 23, brought the Japanese lacquerware box to northern police station here yesterday. A locksmith had been unable to open the wedding-anniversary gift from her husband, Airman 1-C Richard J. Steg, in Manila. It seems the key was inside.

Lieut. Frank Schmidt had a key handy—for handcuffs. This western device unlocked the musical box, which then played a southern tune—"O Susanna."

## Hot Razor Identified

OMAHA (INS)—The Omaha police department's identification expert had no trouble establishing the ownership of an electric razor brought in with two men suspected of burglarizing a service station. The police sergeant had sold the razor to the service station owner.

## British Car Record Set

LONDON — Britain's automobile industry produced a record 1,240,000 cars, trucks, and buses during 1955, an increase of 200,000 over 1954. Passenger-car production totaled 900,000 vehicles.

# Grand Illusion Fades Away for Class-Conscious Britons

LONDON (INS)—The grand illusion is over for class-conscious Britons who thought their positions and titles gave them claim to superiority over their humbler neighbors.

* * *

It's all down in black and white now in an official document issued by the general register office and entitled "classification of occupations."

**The British people are divided into five classes and the lords and ladies of the land are ignominiously tagged on to the bottom of the list under X and classed as "other persons (no gainful occupation stated)."**

Peers, knights, baronets, together with capitalists and doctors of philosophy come under the same classification as vagrants, gypsies, tramps and lunatics.

* * *

And they will stay there until they can provide proof of "gainful occupation," like Sir Laurence Olivier, who rates third class in the social scale as an actor, together with animal trainers, adagio dancers, snake charmers and ventriloquists.

**BOYS LORD OVER**

Lording it over their "inferiors" today as class I are company directors, bank managers, ship owners, stockbrokers, engineers, architects, lawyers, doctors, clergymen, commissioned officers, authors and journalists, not to mention "civil service administrative and higher officers" including "bus and tramway managers and superintendents."

Class II runs the gamut from beersellers, innkeepers, stevedores, farmers and proprietors of retail business to pawnbrokers, money lenders, painters, sculptors, midwives and police chiefs.

**Class III, besides actors and variety artists, embraces waiters, stable lads, chimney sweeps, skilled workers and corset makers.**

But such people as longshoremen, elevator boys, watchmen, unskilled workers, rag, bone and bottle sorters and garbage collectors need not worry about being Class V, the lowest of the low.

They are still on a higher social scale than the lords and ladies-in-waiting and equerries of the royal household who also come under the ungainfully occupied Xs.

ATHENS, Greece (AP) — An embassy spokesman announced today that the U.S. ambassador to Greece, Cavendish Cannon, will be America's first ambassador to newly independent Morocco. ## Tallahassee Negroes Reaffirm Bus Boycott

TALLAHASSEE, Fla. (AP)—Tallahassee negroes last night publicly ignored an announcement that bus service will be resumed here and reaffirmed their determination to hold out for fully integrated seating.

No mention was made at a mass meeting of the Negro Inter Civic Council of plans announced by the Cities Transit Co. to reinstate the service suspended July 1. The company halted operations in the wake of financial losses caused by the negro boycott. The boycott is a protest against segregated seating.

Instead, council members said they would keep on providing their own transportation by means of carpools. They took up a collection toward purchase of station wagons to serve the negro community.

## *Planning Tests on Space Rockets in Australia*

WOOMERA, Australia — Woomera Rocket Range, in the desert region in the northwest of the State of South Australia, will be the site for erection of an 81-ft. tower, to weight 35 tons, from which space-exploring rockets will be fired, in tests planned to begin before September.

* * *

The rockets, each of 17-inch diameter and weighing 2,500 pounds, are expected to reach altitudes of more than 120 miles.

**The nose of each rocket will carry 100 pounds of automatic recording equipment to radio information about the ionosphere back to base, or record iton film. Design and firing of the rockets has been undertaken by the British Ministry of Supply.**

The experiments will be organized by Melbourne-born Professor H. S. W. Massey for the Royal Society.

## Things Are Real Tough for This Maharajah

LONDON (AP)—The Maharajah of Jaipur said he is down to his last four elephants and is turning one of his five remaining palaces into a hotel.

• • •

It isn't that the 44-year-old Maharajah is starving, or anything like that.

But his income, once fabulous, is a paltry $335,000 a year since—under the new order of things in India—he became governor of Jaipur instead of its absolute ruler.

With this kind of money, he told a reporter, he cannot afford to run half a dozen palaces. He has been forced already to cut his staff of 600 servants in half, and has given one palace to the Indian government for use as a guest house.

• • •

He figures he can still keep about four palaces going and, he explained, "It would be silly to leave the fifth empty, so we will turn it into a family business."

The State of Jaipur, which has three million population, has no luxury hotel at present, he said, although it is "becoming one of the biggest tourist centers in India."

• • •

The palace he plans to turn into a hotel is surrounded by an 18-hole golf course. It will contain 60 to 70 bedrooms. The Maharajah hopes to hire an experienced hotel manager during his present stay in England.

The Maharajah, who once owned a string of 70 elephants used mainly for tiger hunting, said the old princely way of life is dying in India.

• • •

"Some of the maharajahs," he said, "are having to move out of their palaces altogether. We now have estate taxes just like the people in England, and our generation is probably the last to attempt to live in the old style."

### Keeper Hospitalized When Stung by Bee

SALISBURY, N.C. (AP)—A China Grove beekeeper was hospitalized here after he was stung by a bee.

Hospital attaches said James R. Nichols, 50, of Rt. 3, China Grove, received "a terrible reaction and a great deal of pain" when one bee stung him on the leg.

Nichols was removing honey from a hive when he was stung.

### Otsego Hospital Okayed

ALLEGAN (AP)—The Allegan County Board of Supervisors has voted for a $1,000,000, 140-bed county hospital at Otsego. Voters last March defeated a proposed bond issue to place a 125-bed hospital on the site of the Allegan County farm and infirmary.

## Rock 'n' Roller Proves Point to Councilmen

BURBANK, Calif. (AP)—Music's well-known power to soothe the savage beast works on City Councilmen, too.

• • •

The Parks and Recreation Department gave in yesterday and agreed to let a local recording group perform at a teen-age dance after first turning down the request for fear a rock and roll riot might ensue.

David Friendlander, 15, lugged a stack of the group's records into City Hall and played them for two hours, at the end of which time the officials capitulated.

• • •

David described the music as "not to rocking and not too rolling; just kind of nuzzlin' music."

### OK Wheat Agreement

TOKYO (AP)—The Japanese Cabinet today approved the 1956 International Wheat Agreement signed in Washington May 15.

### 120 Pakastani Drown as Storm Capsizes Boat

KARACHI (AP)—About 120 persons are believed drowned in the capsizing of a boat on the Chenab River 70 miles northwest of Lahore.

Reports reaching Karachi said a heavy storm overtook the boat yesterday as it left the river bank. It was dashed against an island in the river and overturned.

• • •

Of about 150 persons aboard, only 30 were rescued, the reports said.

PROMOTED TO THE MAIL RUN—Andy Jansic, retired New York Central freight conductor, has promoted himself to a mail run in suburban North Olmsted, near Cleveland, Ohio. His mailbox is a homemade caboose and house number is fashioned after an old-time semaphore signal. But the mail gets sidetracked regularly. The mailman is a traditionalist. He often insists on leaving the day's clutch of letters in the old-style, conventional mailbox on a nearby post.

### Oh! Those Cold Baths

## Tough Times in St. Louis as Utility Strike Continues

ST. LOUIS — A steady diet of barbecued food is hard to take. Dining out with relatives soon becomes tiresome. Cold water baths are the cruelest blow of all.

• • •

This is the plight of thousands of St.Louis area residents, caught in the middle of a utility strike now in its 11th day.

The strike against the Laclede Gas Co. has produced a spreading breakdown of natural gas service that has affected 18,000 to 20,000 customers.

All efforts toward ending it, including state seizure of the firm under a law prohibiting strikes in public utilities, have been unavailing.

There was hope today the end may be in sight.

An attorney for the 2,200 striking members of Oil, Chemical, and Atomic Workers Union said they would comply with a court order to return to work.

A hearing on the state's request for such an order was scheduled today.

Mountains of dirty clothes are piling up. Tea kettles and electric hot plates discarded years ago have been retrieved from attics. Camp stoves and ice boxes are in great demand. Barbecue pits are in use as never before.

Nerves are frayed.

Mrs. John Kitchen, who has been without service since July 4, is using a deep fat frier for cooking. But she's on a diet prohibiting fried foods.

"I'm practically starving," she said.

"My husband rigged up some kind of apparatus in the basement with a tub and charcoal fire under it for a hot bath. I wouldn't even look at it. I'm just doing the best I can with water heated in an electric coffee perculator."

Mrs. Christina Spahn, in an apartment building with no service since last week, said neighborhood laundromats are so rushed they've quit accepting more business.

"It's going to be terrible if it keeps on," she said.

The majority of service failures were attributed by the company to vandalism. Officials of the union disclaimed responsibility.

The strike started when negotiators were unable to agree on awges and other terms of a new contract. The main issue is Laclede's plan to turn over to contractors the job of connecting appliances to gas lines. The work heretofore has been done by Laclede employes.

### Tobacco-Hater to Race Smokers Up Mountain

COLORADO SPRINGS, Colo. (UP) —Aug. 10 has been set as the date for the foot race up Pike's Peak in which Dr. Arne L. Suominen, tobacco-hating hiker from Delray Beach, Fla., has challenged cigarette smokers.

Ron Bierstedt, Colorado College student and cigarette smoker, will race Dr. Suominen.

A radar expert at Kessler Air Force Base in Mississippi, Clayton Krewson, who insists smoking doesn't hamper his mountain climbing ability, said he wants to compete too.

### Applications Available for Trailer Lot Space

WARNING — Development of new weapons is being slowed by lack of funds and red tape within the Pentagon. So states Lt. Gen. Donald L. Putt, above, Air Force chief of staff for development, who outlined his criticism in closed-door testimony before the Senate Armed Services Subcommittee. Putt recommends that the proposed 610-million-dollar Air Force research budget be upped by 250 million dollars.

## 26 Spectators Burned at Fire

### Gas Seeps Into Crowd, Goes Off as Bystander Lights Cigarette

YORK, Pa. (AP)—At least 26 persons watching a fire last night were injured when gas fumes seeping through the area were set ablaze and exploded.

Fire engine driver Edward Horn said, "The explosion in the middle of the crowd sounded like a big 'puff' and suddenly you could see people laying on the ground and others moving around with their clothes on fire."

Others in the crowd rolled those with flaming clothes on the ground to extinguish the flames. "It was remarkable, but there was no panic," said Horn.

York Hospital said it had treated 26 persons for burns or for the effects of inhaling gas. Eleven were held overnight in the hospital and all were reported in satisfactory condition.

The original fire began as two men attempted to remove bottled gas tanks from beside a building housing the Delthia Athletic Assn. Gas seeping from a tank exploded, injuring one of the men. The building was not damaged.

Firemen were summoned and they had extinguished the first gas blaze when fumes seeping among the estimated 50 spectators who had come to the scene were apparently set afire by someone lighting a cigarette.

## Farouk Is Touched; TV Winner Benefits

FLORENCE, Italy (AP)—Shapely Marisa Zocchi, who won $4,000 on an Italian television quiz program for knowing all about bicycle racing, is engaged to Guido Boni, a bike racer.

Marisa dropped out of the TV quiz contest at the halfway mark, explaining she needed the money for her ailing mother and couldn't risk losing the $4,000 she had won. Former King Farouk of Egypt sent her the $4,000 she might have won, saying he was "deeply touched" by her reason for withdrawing.

• • •

Before announcing her engagement, Marisa said that with the $8,000 she had been able to provide a home and care for her mother.

### Lost Faith in Client

SAN DIEGO, Calif. (AP) — Harold P. Curtis, attorney, told the court that his client had paid him with a bogus check. "You've lost faith in him?" the judge asked. "Yes," Curtis replied. The defendant accepted a court appointed attorney to replace Curtis.

## Bonn Socialists Call for Closer Red Ties

MUNICH, Germany (AP)—Looking to next year's general elections, West Germany's leading opposition Socialist party has solidly endorsed a platform calling for increased contacts with the East.

The Socialists' annual convention approved a series of resolutions urging closer ties with the Soviet bloc as a move toward reunification of Germany.

Party Chairman Erich Ollenhau told the convention a policy of international understanding should be pursued instead of an exchange of sharp words. He said in a keynote speech that chances of a settlement were never better and charged the government of Chancellor Konrad Adenauer with ignoring signs of improvement in the international situation.

### Peak Tire Shipments

AKRON, Ohio — The nation's tire manufacturers shipped 93,729,709 tires during 1955, the highest recorded shipments in the industry's history. They represented an increase of 20.6 per cent over 1954 shipments and 11.2 per cent over the 1950 record high.

### Outspins the Spider

LOS ANGELES — A new precision coil winder that spins strands of spider-web-thin wire in loops less than one thirty-fifth of a hair's breadth apart has been developed for the aircraft industry. The coils it makes are tiny electrical devices whose signals operate electronic autopilots and other automatic controls in modern aircraft and guided missiles.

## Colorado Parallels 'Dust Bowl' Years

DENVER (AP)—Colorado's crop situation is "quite similar" to that during the Dust Bowl years of 1934 and 1939, a U. S. Agriculture Department statistician said today.

His harvests forecasts showed not one major Colorado crop is expected to match its production total last year. Generally the estimates are far below figures reported during the past 10 years.

KEYPORT, Wash. (AP)—A practice torpedo with an urge to travel gave Navy officials more than their quota of gray hairs. The practice torpedo, in theory, is supposed to streak for the target, then veer off and run in circles until it's picked up.

This torpedo kept right on going up onto the beach and into the hull of a surplus, 40-foot landing craft being repaired by James Colby of Gilbertson. The landing craft suffered extensive damage. The chargeless torpedo sustained a couple of small dents in its hard head.

## Lightning KOs Golfers on South Africa Green

CAPETOWN — Four prominent people were "knocked cold" by lightning while playing golf in a violent storm at Vereeniging, South Africa, but all recovered.

They were Mrs. Vicky Snyman, Mrs. Decima Doherty, Dr. Ted de Beer and Karel Wertheimer.

All were knocked down and were too dazed to pick themselves up. Gaby Cutler, from a nearby green, saw the four prostrate golfers on the green and he and others ran to their assistance.

They covered them from the pouring rain with their jackets and one left in his car to get help. Mrs. Snyman appeared to be dead but artificial respiration revived her. All suffered from burns and shock but were soon up and about.

MINNEAPOLIS — An electronic system that logs a plant's operating data at high speed and adds it up at day's end, meanwhile keeping a robot eye on quality, has been developed by a Minneapolis firm for use by a refinery. It is believed to be the first system to incorporate computing and quality evaluation with conventional automatic data-handling operations.

## Comfort — What's That?

# They'll Tour the Country

POMONA, Calif. (AP) — The five members of the Cecil Bradley family have left on a 4,500-mile summer vacation trip to Farlin, Iowa. Nothing unusual about that, except . . .

They're all riding the same motorcycle.

• • •

What's more, they're carrying complete cooking and camping equipment and plan to shun hotels and motels.

How do they do it?

Mr. Bradley drives and Mrs. Bradley is just astern on the cycle's rear seat. Cecil Jr., 11, Frad, 5, and Jackie, 15, ride in a sidecar. A large trunk strapped on the back of the sidecar contains sleeping bags, groceries, various equipment and a stove.

• • •

The family plans a leisurely trip through the West, seeing sights and stopping at resorts. Their route carries them through Las Vegas, Nev., Salt Lake City, Cheyenne, Wyo., Farlin—where Bradley plans to sell a gas station he owns, then back through Dallas, Tex., and Douglas, Ariz.

Why did they pick a motorcycle for transportation?

Well, they like motorcycles. It's easy on the wallet—about a penny a mile for transportation. And Bradley will be making notes for a story he plans on the trip for the motorcycle magazine he works for.

• • •

They even have a portable radio for entertainment.

Says Mrs. Bradley: "We'll just relax. And I'll forget household chores."

## Norwegian Highway Goes to Northern Tip

NARVIK, Norway—Tourists will soon be able to go by automobile all the way to North Cape, at the northern tip of Norway, much farther north than the Arctic Circle and the magnetic North Pole.

The final stretch of road, from Honningsvaeg, the most northerly town in the world, to the cape, will be opened shortly.

North Cape is a promontory of Magerooy Island. Regular ferry service will link the new road with the main Arctic Highway, which runs all the way to Oslo, a distance of 1,300 miles.

## Judge 'Arrested' for Illegal Whisky

LUMBERTON, N. C. (AP) — Superior Court Judge Raymond B. Mallard of Tabor City showed up here as scheduled to preside over a term of court — and ran into an order committing him to prison for two years for manufacturing whisky illegally.

Mrs. Dixie Adams, assistant clerk of court, was typing a commitment order for another man when the telephone rang. The caller asked who was conducting court. And Mrs. Adams typed in Judge Mallard's name as she replied.

She signed the order, too. But the judge beat the rap.

## Chicago Mayor Given Portrait Bust of Shaw

CHICAGO (AP)—A portrait bust of George Bernard Shaw was presented to Mayor Richard J. Daley yesterday but the mayor doesn't plan to keep it.

The bust was given to Daley, whose roots go back to Ireland, by Hal Schor to create interest in the 100th anniversary of Shaw's birth, July 26. Daley, asked if he was aware that Shaw had been classified as anti-Irish, said: "We Irish are a tolerant race."

However, he said he would ask the Chicago Historical Society if it would like to relieve him of this work of art.

**Test Your Strength**

Sally is very strong for a girl of her age, so she is trying out a machine at the carnival which invites passersby to test their strength. It is a one-arm test to see if they can "ring-the-bell."

Color this picture with your crayons, making the machine a bright blue with the figures on a white ground. Sally is wearing a red western hat which she bought at a booth in the carnival. The strip at the left is red, white and blue, with a bright green tip.

Cut out the parts carefully. Attach Sally's arm to her shoulder as indicated with a brass fastener or bent pin, so she can lift the mallet and bring it down.

Cuts slits in the dotted lines over and under the numbers. Insert the tip of the long narrow piece from the back just under the figure "20" and weave it over and under until the point comes out at the top near the bell. This is an indicator that tells people how hard they have hit the machine. You can push it up each time Sally swings the mallet.

Fold the panel at the left back and fold Sally forward. Then the picture will stand.

## Accident Cars Mixed by Erroneous Story

Monday's Pontiac Press carried a story which erroneously listed a car driven by David May, 28, of Flint, as being struck from behind by one driven by William C. Merz, 42, of Drayton Plains, Saturday night. It was taken from a report by Waterford Township Police.

Merz told the Press his car was struck from behind when he stopped to allow a flock of ducks to cross Telegraph road. May was slightly hurt in the collision.

## Ecorse Damps Probe

ECORSE—The Ecorse City Council has voted four to two against requesting the prosecutor's office to investigate charges that city officials filed erroneous expense accounts. The proposed investigation was an outgrowth of charges that Mayor William W. Voisine and Comptroller Willy Jones had collected expense money for a convention they never attended.

## Forest Fires Decline

WASHINGTON — The national Forest Service reports there were 8,16 forest fires on federal lands within national forests during 1955, a 20 per cent drop from the 10,462 blazes reported in 1954. Man-caused fires dropped from 5,978 in 1954 to 4,375 in 1955, but the area burned increased from 142,253 acres to 365,905.

## New Seaplane Brake

LOS ANGELES — A large aircraft manufacturer, hunting for ways to slow flighter landing speeds, has devised an inflatable rubber covering for the leading edge of the wing. Inflated for landing, the rubber rounds the wing's sharp leading edges, smooths the air flow, and reduces landing speed 23 per cent, the company reports.

## Southern Leaders Plan Solidarity Talks

ATLANTA (AP) — Some Southern Democrats want to present a solid Southern front at the national nominating convention—but so far they haven't been able to line up solid support for a meeting to outline plans for Southern solidarity.

• • •

Neville Bennett, Democratic chairman of South Carolina, asked party leaders of 10 other Southern states to meet in Atlanta this weekend.

Democratic spokesmen in North Carolina, Texas, Louisiana and Arkansas said yesterday their states won't be represented. Georgia, Virginia, South Carolina, Tennessee, Florida and Alabama planned to send representatives and Mississippi hoped to have a man on hand.

Bennett said no agenda has been prepared but that a major topic would be means of balking a strong antisegregation plank in the 1956 Democratic platform.

• • •

Both Bennett and Georgia Chairman John Sammons Bell said the meeting is in no way a move toward a third party.

### Foreigners Aid U. S.

WASHINGTON — In 1883 the American Red Cross provided $1,000 for Balkan War victims. Since then 55 countries have helped United States disaster victims, and the American Red Cross has sent $34,000,000 in disaster aid overseas.

### French Exports Jump

PARIS — France had an adverse trade balance with foreign countries—outside the franc area—of $247,000,000 last year, about half the size of the 1954 deficit. Exports increased by 20 per cent, to $3,318,000,000, and imports by 12 per cent, to $3,565,000,000.

## Vivien Leigh, Olivier Expecting Fall Baby

LONDON (AP)—Vivien Leigh and Sir Laurence Olivier, Britain's most famous acting couple, today announced they are expecting their first baby in November. They have been married 16 years.

Miss Leigh, 42, will soon leave the cast of Noel Coward's play "South Sea Bubble." She has a 22-year-old daughter by her first marriage to London lawyer Herbert Leigh Holman.

Sir Laurence, 49, has a 21-year-old son by his previous marriage to actress Jill Esmond.

### Baby Bears Small

## Third of U.S. Workers Covered by Pensions

NEW YORK — The Life Insurance Institute reports that about a third of the nation's employed civilian working force is now covered by some form of pension plan, with some 22,000,000 persons enrolled, a 350 per cent increase in 20 years.

Nearly 20 per cent of them are covered under plans insured by the life insurance concerns.

'Creeping Paralysis'

# Gotham Traffic - - A National Nightmare

(This is the fourth of five articles on the daily traffic jams in cities across the nation.)

By JACK LOTTO
INS Staff Writer

Traffic experts say it will soon be possible to drive non-stop from New York to Chicago.

* * *

But try riding a few blocks or miles through the streets of the nation's largest city. It is a nerve-racking, frustrating and sometimes deadly experience.

Walking is the fastest means of transportation in many sections.

**The city planners who laid out New York's narrow streets in 1784 started the trouble, but they had no idea the city of 33,000 would grow into the nation's greatest financial, commercial and shipping center.**

But some of the blame must also fall on today's officials.

Despite the millions being spent to speed traffic over, under the rivers around New York and through the fringes of the city, nothing has been done to move traffic expeditiously across Manhattan from the East River to the Hudson River, or, in local parlance, "crosstown."

**OUT OF TOWNERS**

This startling lack, experts say, contributes immeasurably, to the tremendous tieups in the heart of the city.

**Detailed studies of the Port of New York Authority show that 48 per cent of the 77,353,000 vehicles that crossed the Hudson River in 1955 via the George Washington Bridge and the Lincoln and Holland Tunnels came from and was bound to points other than Manhattan.**

Thus, some 37 million cars were forced to use the narrow crosstown streets as "expressways."

City officials have realized the need for true crosstown expressways for years, but until this year the method of financing them never has been found.

**PLAN EXPRESSWAYS**

Late in March this year, Robert Moses, chairman of the Tri-Borough Bridge and Tunnel Authority, said he hoped to be able to begin work on two elevated expressways this year if the Congress approved the multi - billion dollar highway bill, which it now has. The Federal Government would pay 90 per cent of the $150,000,000 needed to link the tunnels on the west side with the tunnel and bridges on the east side.

**After the bill's passage, Moses commented it would mean "a great deal to metropolitan New York," because it would "enable us to attack congestion in earnest," adding:**

**"The downtown elevated expressway will be well up on the program. I hope the midtown elevated expressway will follow."**

But even if work were to begin in 1956, the two expressways would not be completed for some five years.

Those who oppose the outlay of more money to improve road conditions contend the city cannot solve its traffic troubles by providing for more traffic.

**USE THE BUSSES**

Dennis O'Harrow, executive director of the American Society of Planning Officials, insisted that only by lessening the load of cars and trucks can the city get any relief.

**O'Harrow suggested greater off-surface public transportation. His argument was echoed by Theodore W. Kheel, impartial chairman of the private transit industry, who wants greater use of mass transit facilities.**

Kheel said a recent study showed a sharp drop in riding on transit lines.

He said there has been "a tremendous shift" from mass transit to private cars which is "accelerating at a greater rate each year."

**30 PER CENT LOSS**

Harris J. Klein, former member of the Transit Authority which runs the city - operated subways and some bus lines, declared that 378,000,000 passengers have been lost since the 15 cent fare was imposed in 1953.

**Since its peak year in 1948, the largest passenger carrying system in the world, has lost 30 per cent of its riders!**

To Klein's suggestion for a traffic "czar" with extraordinary powers to regulate the life of the city and its inhabitants, Traffic Commissioner T. T. Wiley had this to say:

"We can make a big dent in the problem if we eliminate cars, trucks, taxis and buses, but in our book, it's completely unfair. It would be taking one segment of our city and saying you can't use our streets. This is not democracy. It's traffic that makes the life of the city. We're always going to have it."

**USE ALL MEANS**

In 1948 and 1950, Wiley tried to ban trucks from loading and unloading in the garment district between the hours of 10 a.m. and 6 p.m. The bans were lifted both times in the face of strong objections from trucking associations and the industry.

**The city's traffic relief plan has included the extensive use of parking meters, restricted parking, tow-away zones, a system of one-way streets, and a $50,000,000 long - range program of peripheral parking lots in outlying districts of Queens and the Bronx.**

To complicate the traffic situation still further, commuter railroads, which are losing passengers and revenue, are seeking to curtail services.

The Citizens Traffic Safety Board recently estimated that the traffic congestion costs business men over two billion dollars annually. Department stores in the midtown area—which 525,000 cars enter daily—report huge drops in sales, due in part to the inability of shoppers to find parking spaces.

Police estimate 100,000 cars are parking illegally in the city every day and are cracking down heavily on violators.

## Police Hunt for Crime —Crook in Jail

JACKSONVILLE, Fla. (AP)—Ordinarily, police have a crime in hand and go hunting for the criminal—but not this time.

They had the criminal in hand and had to go hunting for the crime.

A man came into headquarters and said he'd broken into a confectionary "somewhere" and taken $15.

Police couldn't find the place so booked him on vagrancy charges.

Mississippi's population declined 2.4 per cent between April 1, 1950 and July 1, 1954.

# City Employe Pension Plan Faces Voters

Intermingled among the nomination of county, state, and national officers confronting Pontiac voters in the Aug. 7 primary, will be a charter amendment proposal linking the city's employe retirement system with Social Security.

* * *

On Feb. 23, city employes voted by a 64 per cent margin to coordinate the two systems. On May 22, the City Commission approved the form of the ballot and instructed the proposal be decided at a special city election to be held in conjunction with the primary.

**If the proposal receives approval by simple majority, the city will be joining some 60 other Michigan municipalities which have previously adopted the combination.**

Under the present employe retirement system, instituted in 1946, employes contribute five per cent of their earnings to the pension plan. The new system will call for two per cent to Social Security while three per cent will be deducted for the pension plan for the first $4,200 of the employe's salary.

**For employes earning $4,200 or more, five per cent over this figure will be deducted for the pension plan, Director of Finance Oscar Eckman said.**

"The present pension plan will be reduced somewhat but the employes will more than make up this under Social Security," he said.

In 1955, $70,874.28 was paid out to 69 employes in retirement allowances. The total for 10 years of allowances payments has reached $348,713.62.

**The new plan will affect some 1,600 city employes. Police and firemen are exempt from receiving benefits from Social Security under federal law.**

Eckman explained employes will be eligible for Social Security insurance plans for their families if the new amendment is adopted.

* * *

If accepted, the program would be retroactive to Jan. 1, 1955, he said.

# Weeks Bucking Auto Dealer Bill

## Commerce Secretary Calls Law Confusing, Sees Problems Ahead

WASHINGTON (AP)—Secretary of Commerce Weeks has expressed opposition to a bill which would allow auto dealers to sue manufacturers in federal court for alleged failure to show good faith in carrying out franchise agreements.

• • •

The bill has passed the Senate and is being studied by a House Judiciary subcommittee. Weeks wrote the subcommittee that the measure "would raise numerous problems of interpretation and would undoubtedly create confusion in franchise relationships between manufacturers and dealers."

**"Rather than solve existing problems," he added, "this legislation would, we feel, create a number of new ones."**

As the subcommittee neared the end of its hearings, William F. Rufstader, General Motors Corp. vice president for distribution, said he could not say why many dealers favor the bill.

**DON'T UNDERSTAND?**

"Maybe the dealers are not familiar with content of the bill," he suggested after being asked by Rep. Keating (R-NY) for an explanation of the "hundreds of telegrams" Keating said he had received from dealers supporting the proposal.

**Rep. Celler (D-NY), chairman of both the judiciary committee and the subcommittee, said these groups have received thousands" of communications from dealers favoring the legislation.**

Keating said he "would judge from communications that dealers are not very satisfied" with the situation despite improvements the manufacturers have made in the franchise agreements.

# East Coast Hurricanes 'Most Unusual'

MIAMI (INS)—If you're a form player, an Easterner, and like your weather sunny side up—you may find peace of mind in the information offered today by Leonard Pardue, forecaster at the Miami Weather Bureau.

• • •

Pardue, while stressing he was making no "predictions," termed the hurricanes that has battered the East Coast from South Carolina to Maine during the past two years "most unusual."

• • •

"The hurricane path during this period was displaced north and west," he said. "We do not know the reason for this or whether this season will bring a change."

**He pointed out, however, that prior to 1954, the New England states had been affected by sizable hurricanes only twice in the memory of man—once in 1938 and again in 1944.**

"Perhaps if you went back to the time of Christopher Columbus you could find a period when the northeast consistently took a beating," Pardue said, "but who knows what happened back then?"

The veteran weatherman said that science has pretty well established that changes in the earth's atmosphere have a bearing on the paths of the storms, but he ruled out the possibility that recent atomic explosions have caused the hurricanes to switch routes.

**PAST PERFORMANCES**

On the basis of past performance—1954 and '55 excluded—the unladylike storms with the feminine names have preferred to romp in Florida and the Gulf Coast states.

• • •

Pardue said it was "rare" for a hurricane to strike north of Cape Hatteras, N. C., although this area has been the favorite port of entry for the storms the last two years.

Whatever track the storms take this year, the citizenry in affected areas will be warned well in advance.

• • •

The weather bureau, in cooperation with the Air Force and Navy, has established the most elaborate tracking setup in history.

Once a Navy hurricane hunter plane finds an area of suspicion, the Air Force is prepared to send up three especially equipped planes to record every conceivable phase of the disturbance.

**As the planes fly through a storm, electronic devices will punch out information on cards at the rate of one card every fourth of a mile. After a flight of perhaps thousands of miles, the planes will return to their base with the mountains of cards, which then will be run through a mechanical brain.**

"Knowing the ingredients of a storm is the first step in forecasting," Pardue said, "and the information that we will now have access to may prove or disprove many of the theories we've had about hurricanes for years."

# Sulphuric Acid Tank Explodes in Utah Mill

SALT LAKE CITY (AP)—A 15,000-gallon tank of sulphuric acid exploded in a uranium processing mill here yesterday. The blast, which officials emphasized was not atomic, injured three men, one critically.

W. B. Hall, general manager of the Vitro Uranium Corp. plant, said the explosion could have been set off by a spark from a welding torch being used in the building. The blast ripped apart a corner of the three-story plant building but did little other damage.

Critically burned by the flash of fire which accompanied the explosion was George Asmussen, 58.

# *Russian, Iranian Chiefs End Talks in Disagreement*

MOSCOW (AP) — The Shah of Iran left Moscow today, his talks with Soviet government leaders ended in polite but open disagreement.

• • •

A joint Soviet-Iranian communique which had been scheduled for signing Tuesday was postponed and later canceled. Iran's continued adherence to the Western-sponsored Baghdad Pact apparently was the stumbling block.

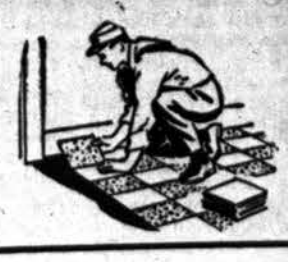

Shah Mohammed Reza Pahlevi and Queen Soraya took off from Moscow's Central Airport enroute to Tehran after a 17-day tour of the Soviet Union.

• • •

In a brief farewell address, the 36-year-old ruler of the Soviet Union's southern Asian neighbor thanked the Soviet government for the courtesy it had extended him and expressed hope the two nations would live in peace and friendship.

# Reds Protest Air Invasion

WASHINGTON (AP)—Pending further study, U.S. officials remained silent today on a Russian protest that American military aircraft flew over seven Soviet cities on three different days this month.

Pentagon officials said they had "no immediate comment or information" about what Russian Ambassador Georgi N. Zarubin described as incidents of "gross violation of Soviet air space."

* * *

Zarubin handed a formal protest to Secretary of State Dulles late yesterday. The State Department said it was a military matter and promptly turned it over to the Defense Department.

Zarubin told newsmen the flights took place July 4, 5 and 9. He described them as "an invasion of our air" and said "some of these planes remained there two hours and one half."

A Moscow radio broadcast heard in London said the planes came from Western Germany by way of Communist East Germany and Poland. Moscow said two of the planes were twin-engine medium bombers.

* * *

The protest note said "the Soviet government expects the U.S. government to take measures to punish those guilty of these violations and to prevent such violations in the future."

* * *

The deepest penetration alleged by the Russians was over the city of Minsk, some 250 miles from the Baltic Sea Coast. Two of the points, Vilna and Kaunas, once belonged in the independent country of Lithuania which was gobbled up by the Soviets during World War II. The United States has never recognized this annexation.

## Low Pay Causes U.S. Decrease in Musicians

CHICAGO (INS) — More music is heard in the United States today than at any other time in history but Chicago music educator Dr. Leon Stein complains that available musicians have decreased rapidly.

Dr. Stein, a member of the DePauw University Music faculty for 25 years, indicated that low wages are responsible for lack of interest in music as a profession. He said:

**"Young people have declined to study the violin and other string instruments because they have realized their opportunities for supporting themselves with string music are slim indeed."**

He pointed out that in Chicago alone, only three per cent of the 16,000 registered union musicians earn a full time salary through music. He also said there is less than one musician for each radio station in the country.

Dr. Stein asserted that some form of national, state or local subsidy "must eventually be forthcoming." The United States, he said, "is the only leading nation in the world which has no national subsidy of the arts."

## Surprise Purchase

HARRISBURG, Pa. (AP)—Martha Freedman finally got her book back after 21 years. She bought a copy of Dashiel Hammett's "Omnibus" at a local book store. Upon opening the book, she discovered her name and the date 1935 on the flyleaf.

Security for You

# Social Security Numbers May Be Issued at Births

By RAY HENRY
AP Writer

Who knows? There may come a day when new babies will be given a Social Security number with their birth certificate.

• • •

Until then, Charles Spies of Eugene, Ore., has a good claim on being one of the youngest persons ever to get a Society Security card.

**Last September, he signed up at the age of seven—not too long after he'd learned to write. By law, he was required to do so because he'd made $100 during the summer picking beans. All agricultural workers—that's what Charles was in the eyes of the law—who make more than $100 in a year must have Social Security tax deducted from their pay.**

Although Charles' case is unusual, the procedure he followed in getting a Social Security number and the reason he had to have one are the same for everyone. Everyone, that is, who first enters a job which is covered by Social Security.

**125 MILLION ISSUED**

About 125 million numbers have already been issued.

To get a Social Security number, you must fill out a simple application form and deliver or mail it to a Social Security office. You can get the form through any post office if a Social Security office isn't nearby.

**In a few days, you'll receive a card showing your name and number. That's your number for life. All the money you earn working for some one or for yourself will be recorded under this number at Social Security headquarters if the work is covered by Social Security.**

The money credited to your future Social Security payments since the amount generally determines the size of the payments you or your dependents will eventually get.

**CARD IMPORTANT**

Thus, it's important that you keep the card so that you can show it to each new employer. He must use the number in making periodic reports of your earnings to Social Security headquarters and in paying the contributory tax so you'll get credit for it on your record.

**The loss of your Social Security card is no barrier to getting a duplicate. You can apply in the same way you first applied for your number.**

And, if your name is changed, either by marriage or by a court order, you should notify your Social Security office so that the change can be made on your record and so you can be issued a new card wtih your new name. Your number will not change. To make it easy for you to get such changes made, the Social Security people also have a special form you can get at any Social Security office.

**APPLICATION NEEDED**

In addition to keeping your card in a safe place for use with any future employer, you will want to make sure your family can get hold of it in case of your death.

**Your family may be eligible for Social Security benefits upon your death, but to get them they'll have to make out an application. Your number will be necessary to complete the application.**

You'll also have to use your number in any correspondence you may have with your Social Security office.

'I Owe It All to Three Statistics'

# Dors Opens British Imagination

This is the third of a series of six articles by Joe Hyams, Hollywood correspondent of the New York Herald Tribune, who has interviewed Europe's top feminine movie stars to find out the secret of the charm of the European woman.

By JOE HYAMS

Diana Dors, who is the Marilyn Monroe of England, told me there is no secret to her phenomenal success as Britain's number one glamour girl. She claimed with remarkable candor, "I owe it all to three vital statistics—36, 24, 36."

* * *

Unquestionably there are thousands of other young ladies in England and the colonies with the same statistics but none of them are in the same league with Miss Dors when it comes to self-exploitation.

**Miss Dors is the antithesis of the traditional British female. She is flamboyant, not dignified; obvious, rather than discreet; aggressive and not retiring; sexy, not sedate; ostentatious rather than modest. Above all she is herself.**

She is the platinum blonde chorus girl in black silk stockings and red halter on a stage principally occupied by tweedy brunettes in sensible shoes. As she puts it, "To the average Englishman a girl like Grace Kelly is the summit of a mountain—cool and unattainable. I am like the valley. Attainable."

'ATTAINABILITY'

In only five years Miss Dors, who is twenty-four, has parlayed the illusion of "attainability" into a vast empire complete with yacht, Rolls Royce, country estate, airplane and annuity.

**Like Marilyn Monroe, she began her show business career posing in the nude. But whereas Marilyn was nineteen and posed for a photographer because she needed the money, Miss Dors began her modeling career at fourteen, posing for artists because she enjoyed being admired.**

There's also a striking physical resemblance between Dors and Monroe. Miss Dors is amply proportioned; she always poses with her mouth slightly open because when it's closed she appears to be pouting; on important occasions she pours herself into vividly colored dresses designed to attract attention to her bosom overflow and wiggle-walk; she is completely unselfconscious.

ROBUST APPEAL

On screen and in person Miss Dors has the same sort of robust sex appeal typical of the chorus-girl-with-heart-of-gold featured in so many Hollywood movies. She makes no pretense of being anything other than female.

**For an interview at her home on the Thames Miss Dors wore a man's white shirt unbuttoned to the waist and tucked into the edge of her brassiere to give even more cleavage. She also wore skin - tight green denim slacks pulled taut by a violet-colored jewel - studded belt. Her shoes were open-toed with three inch spike-type high heels. She wore heavy gold bracelets and a huge topaz ring.**

Her lipstick, an off shade of pink, matched her fingernails and she deliberately sat with her back to the sun so her platinum hair was haloed.

* * *

When she laughed — and she laughed often—it was lusty and genuine and her eyes seemed to echo the joke long after the laugh ended.

Like Miss Monroe, Miss Dors is adept at the quotable quote. Her answers to questions were direct and to the point. Invariably they were witty.

ATTRACTIVE PACKAGE

**She appeared able to laugh at herself and her sense of humor never seemed obstructed by her own ego. She obviously enjoyed talking about herself and accomplishments but she never lost her objectivity.**

Miss Dors frankly admitted she owes her screen popularity to two things: sex and good publicity.

**"There are hundreds of girls in England with more attractive individual characteristics than I have," she said. "But I don't think any one tried to make herself into a more attractive package.**

"I point up my best features, especially my eyes, and minimize my worst. When I dress it's for men. If I have to dress up I put on everything I own. Jewelry, furs, everything I can wear or carry.

* * *

"Some men think I'm too obvious. They say they like subtlety. Maybe that's what I'll achieve when I'm forty-five. Then I'll cut off the long blonde hair and start looking smart and wearing tailored clothes.

BETTER HAVE TALENT

"But for now I'll stick with what I've got. I know sex is a dangerous tightrope to walk but I figure if I'm lucky I can last for another five years. Then the public is going to want to know what else I can do. That's when I'd better have either talent or money in the bank."

* * *

As for publicity, Miss Dors claims she has never had a press agent. She and her husband, Dennis Hamilton, plan and organize things to hit the headlines.

**For example, she burst into prominence recently when she "stole" the publicity at a Cannes Film Festival by steadfastly refusing to pose for pictures until the day a rival contingent of stars was due to appear. Then Miss Dors appeared on the beach in a bathing suit, flanked by the photographers who should have been covering the arrival of the other stars.**

What is the secret of Diana Dors' glamour? "I'm a woman in a man's world. I find men much more interesting than women and I let them know it. It's as simple as that."

Unlike Miss Monroe, Miss Dors is emotionally uncomplicated. She laughed when asked if she had a psychiatrist and countered with the question, "What for?"

* * *

"I'm happy," she said. "I'm as happy as any one can be. There's no one I'd rather be. If I could I wouldn't want to live my life any other way.

"When I was eight years old I was asked to write a composition on what I was going to be when I grew up. I wrote that I would be a film star and have a house with a swimming pool and a white telephone.

* * *

"Well, I've got all that and more besides, including a good marriage. Is there anything else?"

(Copyright 1956, New York Herald Tribune Inc.)

**In tomorrow's article Mr. Hyams interviews France's top cinema beauty, Brigitte Bardot.**

ALPENA (AP) — Second Lt. Gerald C. Gorton, 26, of the Ohio Air National Guard was killed Wednesday when his F51D fighter plane plunged into Lake Huron 50 miles north of Alpena.

Coast Guardsmen from nearby Presque Isle Coast Guard Station recovered the body.

Brig. Gen. E. H. Briscoe, commander of the Collins Air National Guard Base here, said the plane was flying in formation on a routine training flight. He ordered an investigation.

Gorton, of Cleveland, came here for training with the 121st Fighter-Interceptor Wing. He was attached to the 112th Fighter-Interceptor Squadron.

# Blockbuster of Color to Highlight Ike Bandwagon

NEW YORK (AP) — A supercharged blockbuster of color, sounds and spectacle was being readied today to stir up fervor for President Eisenhower along the main streets of America.

"We're going to use every physical, emotional and visual means of getting the message across," said C. Langhorne Washburn, director of special activities for the National Citizens for Eisenhower organization.

• • •

There'll be huge floating balloons, parades, blaring loudspeakers, moving pictures, reams of press releases, television "quickies," music, rallies, pretty girls in "Ike dresses" and campaign buttons galore.

All this is part of a high-powered task force getting set to invade cities and towns across the country, beating campaign drums for the re-election of Eisenhower.

It's called the "Eisenhower Bandwagon" operation, and it's got everything from floodlights, costumes and streamer-bedecked vehicles to specially schooled crews and helium gas.

• • •

The mission, as Washburn put it: "Selling and telling."

Altogether, there'll be six "Bandwagon" outfits, each including 30-ton trailer-trucks loaded with equipment, a jeep, two station wagons, two 40-foot, dirigible-shaped balloons and four bicycles.

The rolling stock is all painted in brilliant white, with red-and-blue slogans on it. Among other things the cargo includes outdoor movie units, amplifiers, power generators and campaign leaflets.

The teams will hit the road Labor Day, shortly after the GOP convention Aug. 20, and keep going nine weeks, with plans to uncork their fanfare in about 150 communities by election day.

• • •

As part of the crowd-luring devices, each unit will have eight pink and fancy "Ike dresses," sizes 10 and 12, to be worn by locally recruited girls (the requirement: "young and pretty") in parades and rallies.

There'll be numerous other volunteers recruited in advance in each city to help stage the proceedings.

"We provide the equipment," Washburn said. "They furnish the bodies."

He said the objective, as he saw it, was to "spread the philosophy of the President and the accomplishments of the administration up and down every main street of America through every communications media."

He said Eisenhower has "always been very attached to the bandwagon idea."

• • •

Asked if the technique might have only superficial effects, he said:

"It can provide an uplifting of spirit, and leave in each place a spirit of confidence, optimism and Eisenhower."

Six men, who have gone through a four-day "school" here this week, will serve as directors of the units. They'll take leave from their jobs, they said, to give their services.

# Long of Louisiana Leads Legislature in Wild Session

BATON ROUGE, La. (AP) — The Louisiana Legislature early today wound up the wildest session in many years, with Gov. Earl Long causing most of the uproar.

• • •

The lawmakers brushed aside new taxes, but set spending records; repealed the two-year-old right to work law, but reinstated it for agricultural workers; voted a whopping pay raise for teachers, but killed the tax measure providing the funds.

Long, younger brother of the late Sen. Huey P. Long, carried on a running feud with anyone who opposed his program.

• • •

The fiery 60-year-old governor stalked the House and Senate floor, buttonholing members, heckling opponents and shouting instructions to his leaders.

He touched off a lusty name-calling feud with Secretary of State Wade Martin Jr. and his father, chairman of the Louisiana Public Service Commission, then pushed through legislation stripping the younger Martin of his duties as state insurance commissioner and custodian of voting machines

• • •

Long held the spotlight to the end, going before a joint meeting of the House and Senate shortly after midnight to talk more than one hour. He defended his actions during the session and bitterly attacked newspapers and foes of his tax program.

Long began the 60-day session by directing the Legislature to address out of office 14 board members and the chairman of the State Tax Commission who refused to resign at his request.

And he easily won passage of legislation nullifying governmental reorganization under former Gov. Robert Kennon.

• • •

But one by one, the House killed Long's tax bills. Each fell short, by a narrow margin, of the 68-vote two-thirds approval required under a constitutional amendment adopted in the April general election.

• • •

In a last-ditch effort, Long rammed through a constitutional amendment to repeal the two-thirds requirement.

But like many of Long's proposals, it must be ratified by popular vote in November. Long predicts voter approval and promises a wide-ranging stump speaking tour for his proposals.

However, already some 37 legislators have organized a statewide fight to keep the two-thirds requirement.

Segregation, expected by many to be the top issue of the session, proved relatively noncontroversial.

The lawmakers gave a quick go-ahead to the 12-measure program sponsored by the legislative "watch dog" committee on segregation which included:

1. An interposition resolution declaring unconstitutional the U. S. Supreme Coutr's segregation decisions.

• • •

2. Measures permitting firing of teachers and school employes who advocate racial integration or belong to the National Assn. for the Advancement of Colored People, outlawed under state court order.

3. A series of bills designed to throw a legal tangle about segregation in recreation and parks facilities, schools and colleges and travel waiting rooms.

Both house and Senate gave careful consideration of other segregation proposals, but finally okayed measures to:

1. Outlaw racially mixed social and athletic events.

2. Require employers to furnish separate sanitary facilities for white and Negro employes.

# Nasser Flies to Meet Tito, Nehru for Talks

CAIRO, Egypt (AP) — President Gamal Abdel Nasser left by plane today for an eight-day state visit to Yugoslavia. The major event of his trip will be a conference next week with President Tito and Indian Prime Minister Nehru.

Nasser's trip returns the visit Tito made to Egypt last December.

Egypt's Middle East News Agency said earlier this week the top subject of discussions will be efforts by countries still under foreign domination to achieve full independence.

The agency said. "Obviously then, the Algerian problem will figure prominently on the agenda." It added that it is believed they will "warn France that her present policy in North Africa constitutes a direct threat to world peace and runs against the principles of the U. N. charter."

## Holdup Men Arrested Despite Loot Return

COMPTON, Calif. (AP) — Police have arrested two brothers on charges of holding up a cafe, although the victim says they gave back the money.

• • •

Officers booked Ellie Lee Huddleston 28, and his brother, Billy, 22, yesterday on suspicion of robbery and identified them as the men who entered a cafe operated by Mrs. Margy Gillingham. She said they told her that she was being held up and that they wanted $20.

"I can't afford this," Mrs. Gillingham said as she handed over the money.

• • •

She said one man ordered the other to give her back the $20, which he did. They walked out.

## He Needs the Hams—They're on the Menu

NASHVILLE, Tenn. (AP)—Restaurant operator John Batson offered a reward today for the return of 40 hams stolen from his restaurant. He promised to forget about the $88 in stolen cash.

"You can't get hams that have been cured two years any more," he said. "I'll give anybody $50, no questions asked, if I can get them back. They can keep the money, but I've got country ham on my menu."

## *Sen. Byrd Promises Fight Over Social Security Bill*

By JOE HALL

WASHINGTON (AP) — Sen. Byrd (D-Va) said today his opposition to two major provisions in a House-passed Social Security bill has not been lessened a bit by compromises offered by two Democrats.

• • •

The provisions would provide new benefits for disabled persons aged 50 or over and for women between the ages of 62 and 65.

Byrd, chairman of the Senate Finance Committee which stripped the two benefits out of the measure, made clear in an interview he will fight in the Senate to beat both compromise plans.

He declined, however, to predict the outcome, conceding that the votes should be close.

• • •

He said he understands debate on the long-delayed bill may begin Monday. The Democratic leadership has held it up while seeking acceptable compromises for the two key House provisions, both opposed by the Eisenhower administration.

• • •

One of the compromises, introduced yesterday by Sen. Kerr (D-Okla), would restore to the measure the right of working women and wives of retired men to receive Social Security retirement payments at age 62. However, the payments would be on a somewhat lower scale than if they waited until age 65, the present minimum. The House version calls for full benefits to women at 62.

The other compromise, offered Monday by Sen. George (D-Ga), would restore the House section to provide for the first time Social Security payments to persons totally disabled at age 50 or higher.

• • •

Kerr's plan would give working women 80 per cent of their normal age 65 benefits if they retired at 62, wives 75 per cent. The payments would be graduated upwards if they retired closer to 65.

## *I Want Out! 3-Year-Old Got More Than That*

DENVER (AP)—A 3-year-old boy took a drive in the family car yesterday—until a vacant house got in his way.

* * *

Young Robert Daniel (Danny) Dillon Jr. was undamaged. But the car and house suffered to the tune of about $500 each.

It all started when Danny's mother left the house for five minutes after putting him to bed.

Danny got up.

And here's what happened:

He dragged up a chair so he could reach a cabinet. He fished the car keys out of the cabinet.

* * *

He found the car and took the automatic drive out of reverse. He started the car—and put it into reverse again.

Off went the car—down 30 feet of the Dillon driveway, across the 24-foot street and up over 30-foot lawn to the house.

It smashed into the kitchen and stopped against an inside wall—cracking the wall.

His mother and neighbors found Danny cowering on the floorboards.

"I want out, Mommy," he said.

# Barbecue Fowl With Sauce Hot

Perhaps your next picnic will be a chicken barbecue on a terrace or patio grill, or over the glowing coals of a backyard barbecue pit. Well, the barbecue season is definitely here and so are the chickens. Supplies will continue to be plentiful during July and prices are likely to continue below a year ago.

Remember, a secret of good barbecuing is to keep the sauce warm during barbecuing, and to apply plenty of it.

Ample sauce keeps the chicken moist and tender. You can set it on the edge of the grill to keep it warm.

**Before the chicken goes on the grill, dip it in the barbecue sauce and apply more sauce each time you turn the chicken—every 4 or 5 minutes. For large groups, the sauce may be sprayed on the chicken from a 3-gallon stainless steel sprayer.**

You'll find that chickens weighing from one to 1¼ pounds will be best for barbecuing, and that it takes about 1 to 1¼ hours to barbecue them.

You can test their tenderness by twisting the leg joints just as you do when roasting chicken in the oven. Or you can check the muscles under the wing. If this muscle breaks when the wing is lifted, the bird is ready to eat.

* * *

About the barbecue sauce. That's where the battle royal begins, with favorite recipes as the weapons. You may prefer a simple sauce, made of vinegar, melted butter and water. Or, you may start with those ingredients and add others, such as tomato paste, Worcestershire sauce, Tobasco sauce, onion salt, powdered mustard, and ground pepper.

Whatever your favorite recipe, though, keep the sauce hot and baste generously as the chicken cooks.

## *Tube-Packaging of Jams, Spreads Being Introduced*

Tube-packaged foods, such as jams, jellies, icings and various types of spreads, will find places on American pantry shelves if this country's food processors take a tip from European manufacturers.

First steps in this direction are being made by a New York department store which is featuring Swiss jams and chocolate in a week-long demonstration in its epicure department.

Small cakes and cookies topped off with four kinds of jam and two kinds of chocolate — bitter sweet and sweet — are being served to shoppers to introduce them to the convenience of tube-packaged foods. The jam flavors are strawberry, raspberry, cranberry and apricot.

While American foods in tubes are confined to anchovy paste and a few cheese spreads, Europeans have a great variety of spreads and condiments in metal tubes. In Switzerland, 90 per cent of all mustard sold to consumers is packaged in tubes. Cream cheese and butter also are available in tubes.

* * *

In Sweden, a variety of products are packaged in fold-up containers. These include fish and meat spreads, caviar, catsup, coffee cream, honey, jellies, preserves, horseradish sauce and chocolate syrup.

American food processors and packers are showing an increasing interest in the tube packaging of food products. At the moment, a Pennsylvania firm is preparing to package peanut butter in metal tubes and two candy manufacturers are studying the possibility of tube-packaged toppings for ice cream.

## Vary Applesauce Flavor

If you serve applesauce often, here's a delicious and nourishing way to vary the flavor. Just pour a little molasses over it and sprinkle with cinnamon!

# Salmon-Cucumber Salad to Spark Jaded Appetites

Cool as that proverbial cucumber! That's our recipe of the day—Salmon - Cucumber Salad Mold with Chive Sauce. It's not only a beautiful hot weather menu special. It also is as good as it looks, and it is so nourishing. Nutritious instant dry milk "the heart of milk," enriches the ring mold, and it also is used in a jiffy recipe for Chive Suace.

Salmon-Cucumber Salad Mold is comparatively low in calories for each serving is approximately 193 calories. The Chive Sauce adds only 23 calories per serving.

**Salmon-Cucumber Salad**

2 tablespoons cold water
2 tablespoons lemon juice
1 tablespoon (1 envelope) unflavored gelatin
1 cup boiling water
1 cup thinly sliced cucumbers
1 (7¾ ounce) can salmon, drained
1 cup peas, cooked
¼ cup mayonnaise
1 teaspoon onion salt
½ teaspoon prepared horseradish
¼ cup instant nonfat dry milk powder
1 egg, slightly beaten

Combine water and lemon juice. Soften gelatine in water and lemon juice. Let stand 5 minutes. Dissolve in boiling water.

Rinse a 1-quart mold in cold water. Pour 1-3 cup of the gelatin mixture in mold. Arrange cucumber slices, over-lapping, in mold. Chill until set.

Remove bones and skin from salmon. Combine with remaining gelatin mixture, peas, mayonnaise, onion salt, horseradish and instant nonfat dry milk powder. Fold in egg. Spoon mixture into mold. Chill until firm, about 2 hours. Makes 6 servings.

**Chive Sauce**

1 cup liquefied instant nonfat dry milk
1 tablespoon flour
½ teaspoon salt
Dash of black pepper
1 tablespoon finely chopped chives

Pour liquefied instant nonfat dry milk into top of double boiler; sprinkle combined flour, salt and pepper over surface. Beat with rotary beater until just blended. Cook over hot water, stirring constantly, until thickened. Stir in chives. Makes 4 servings of ¼ cup each.

SALMON-CUCUMBER SALAD MOLD — A jewel of a recipe to spark jaded summer appetites — or as a matter of fact, a palate pleaser, most any day — is this Salmon-Cucumber Salad Mold served with Chive Sauce.

## Big Ripe Blueberries Higher in Flavor

Large size Blueberries she preferred to smaller ones as they have a better flavor. The blueberry is a development, through horticultural research, of the wild huckleberry.

**Berries to be frozen should be fully ripe, blue-black in color.**

For fruit compotes and fresh-fruit desserts use sprup. For pies and salads dry pack.

Jersey, Pioneer, Rubel, Rancocas are recommended Michigan varieties.

## Extra Dash for Chicken

Add a dash of garlic powder, celery salt and nutmeg to the flour you use for coating chicken pieces. Fry the chicken by whichever method you prefer and serve with broiled pineapple slices.

# Potato Salad Aspic to Keep in Freezer

It's a good idea to prepare in advance for those impromptu picnics by keeping some picnic dishes in the freezer for an unexpected outing.

A potato salad spic recipe suggestion for this type of dish comes from a firm that makes square waxed board containers for home freezing.

1 envelope unflavored gelatin
¼ cup cold water
1 cup consomme
¾ cup mayonnaise
3 cups cubed cooked potatoes
2 hard cooked eggs, chopped
1 tablespoon chopped olives
¼ cup chopped parsley
1 green pepper, cut in strips
Salt and pepper
1 chopped pimiento
Celery salt

Heat consomme. Soften gelatin in cold water; dissolve in consomme. Chill until sirupy.

Fold mayonnaise into gelatin. Combine remaining ingredients; add to gelatin mixture.

Pour into freezer containers. Chill in refrigerator until firm. Place in freezer.

## Soup for Breakfast

Suit the season with soup served for breakfast! It's a wonderful welcome for these balmy summer mornings and a popular changeover from all-year-round breakfast fare. Served hot or iced in mugs, this breakfast beverage is noursihing, energizing—and delicious!

# Lamb a Good Buy Now Choose Chops for Broiling

Michigan's growing season is bringing more fresh fruits and vegetables for the summer market basket. Cherries, berries and green vegetables are attracting the shopper's interest at produce counters. A good supply of poultry, lamb, and veal warrant consideration in the meat department, says Mrs. Josephine Lawyer, Consumer Marketing Information Agent.

Michigan grown sweet cherries and raspberries are available in very limited quantities. Since raspberries are very fragile, but only enough for one meal at a time.

**Mature berries will be firm, plump, full colored, and free of their hulls. Berries that are dull or soft will have lost much of their fresh fruit flavor.**

Small fruits shipped from other states add to the summer fruit basket with plums, apricots, and peaches wearing reasonable price tags for this early in the season. There are still good supplies of watermelons and cantaloupe for easy desserts or fancy fruit cups.

The 1956 tart red cherry harvest started this week in Southwestern Michigan, about 10 days later than last year. Due to unfavorable weather conditions last summer and this spring, the Michigan Crop Reporting Service, as of June 15, estimates this year's crop will be 56,000 tons—about one-fifth less than last year and one-fourth less than the 1950-54 average of 74,200 tons.

**The supply of fresh Michigan vegetables is steadily increasing. Italian and summer squash, green onions, cabbage, beets, and turnips will add plenty of variety and color.**

There are good values in many canned vegetables at this time. Be label conscious, compare can sizes, styles of pack, and prices before deciding which cans will go into the market basket. Many canned vegetables are packed in No. 303 cans which weigh about 16 to 17 ounces and hold two cups of food.

Compared with many other meats in the July market, chicken is a good value, even with slightly increased prices this week. Poultry is perishable, and in warm weather extra care should be taken to rush it from the refrigerated case at the store to the home refrigerator. Store chicken, loosely covered at 35 degrees F. and use it within 2 to 3 days.

**The small 1½ to 2 pound birds are preferred for broiling. The larger 2½ to 3½ pound chickens yield more meat in relation to bone and are usually preferred for frying or baking.**

Lambs that were born during the late winter are now approaching market weight, and as supplies increase, lamb prices will drop slightly. A leg of lamb makes an excellent meal for a special occasion.

* * *

Savory broiled lamb chops are easy to prepare and provide a main dish fit for a king.

* * *

About one third of the lamb carcass is made up of cuts such as the breast, flank, shoulder, neck, and shank. These cuts are just as flavorful and nutritious, are less in demand, and very reasonable in price. These pieces are best when cooked with moist heat.

**Supplies of veal are adequate and prices remain fairly steady. Cuts that are economy-priced in lamb wear correspondingly low price tags in veal.**

**Berry Cream Cake**

Start with a pound cake or loaf angel food cake. Slice lengthwise in three slices. Between the layers, spread a thick layer of partially softened vanilla ice cream, sliced strawberries or raspberries slightly sweetened. Put together and add more ice cream and berries on top. Place in freezer to harden.

**Just before serving, spread with whipped cream, slice and garnish with whole berries. For variety and real special party fare, place the loaf on a chilled wooden board; have the oven hot, add 2 egg whites beaten stiff with 4 tablespoons sugar.**

At the moment the loaf comes from the freezer, cover completely with meringue and place in hot oven for 5-8 minutes to brown. Serve at once—and this time call it Berry Cream Alaska.

## Blend Cheese, Pineapple for Sandwich Spread

Summertime is the time to have available recipes for sandwiches that can be made quickly. Here is a favorite—Cottage Cheese and Pineapple:

To 1 cup of creamed cottage cheese, add ½ cup well-drained, crushed pineapple, (allow to stand in sieve and press out juice with a spoon.) Add ¼ teaspoon salt, ½ teaspoon curry powder and ¼ cup toasted, finely chopped almonds.

Blend all ingredients and spread on round or diamond-shaped slices of white bread. Garnish with minced parsley and slices of radish. (Yield: about 40 open faced sandwiches.)

# Blueberry Treat --- Shortcake!

Blueberry shortcake, made with rounds of rich pastry, has gained favor at our house.

Use your own favorite recipe for flaky pastry; a large cookie cutter will cut out the rounds for the Blueberry Shortcake nicely.

**Blueberry Shortcake**

1 cup heavy cream, sugar
½ teaspoon vanilla
16 rounds (3 to 4 inches in diameter) baked flaky pastry
1 pint basket cultivated blueberries (washed and well drained)

Beat cream until almost stiff; add sugar to taste and vanilla; beat until sugar is combined and cream is just stiff; do not overbeat.

**Reserve a few dozen of the largest blueberries for garnishing; fold the remaining blueberries into the cream.**

Arrange 8 of the baked pastry rounds on individual plates or a serving platter. Spoon about two-thirds of the blueberry-cream onto the rounds; place remaining pastry rounds over the cream.

Top with remaining blueberry-cream and the reserved berries. Serve at once. Makes 8 servings.

## Salmon-Tomato Chowder to Serve at Special Lunch

For a women's committee lunch, try this luscious quick soup with a pretty rosy color. No one will be able to guess all the ingredients!

**Salmon And Tomato Chowder**

1 can (10½ ounces) condensed cream of mushroom soup
1 can (10½ ounces) condensed beef consomme
1 can (1 pound) stewed tomatoes
1 can (about 8 ounces) salmon
2 tablespoons cooking sherry
¼ teaspoon Worcestershire sauce
¼ cup heavy cream

Empty condensed undiluted cream of mushroom soup, condensed undiluted beef consomme and stewed tomatoes into a saucepan (at least 2 quarts).

Remove skin and bones from salmon; add fish to saucepan in chunks. Bring to simmering over low heat, stirring occasionally to mix well and flake salmon.

Add sherry, Worcestershire sauce and cream; reheat but do not boil. Makes 1½ quarts.

In deep-fat frying, the temperature of the lard should usually be 350 degrees F. to 365 degrees F.

## Hamburger Surprise

To serve four, make 8 very thin hamburger patties, 4-inches in diameter. Split 2 slices of pineapple through the middle so that you have 4 thin circles of pineapple.

Place a slice of pineapple on each of the 4 hamburger patties, top with remaining patties. Press each together firmly and seal the edges well. Broil until well browned and cooked through.

# Spain Offers Exotic Foods

MADRID — A few years ago a traveler visiting Spain for the first time was invited to dine at a villa in San Sebastian. The dinner hour was fixed at 11 o'clock at night. Assuming that the hosts were eccentric diners, he decided to fortify himself at the restaurant of the Continental Palace Hotel.

* * *

When he appeared at 6:30 p.m., the headwaiter pointed to the terrace over the Bay of Biscay where tea was being served. When he indicated that he wanted a complete meal, not a cup of tea, the headwaiter nodded tolerantly and explained, as he must have explained to dozens of starving Americans before, that dinner did not begin until close to 10 p.m. As the traveler later discovered, anyone who dines at the stroke of ten dines not only first but also alone. The fashionable hour is closer to eleven.

**Like dinner, lunch is also a later affair — anywhere between 1:30 and 4:30, and 3 o'clock seems to be the popular hour in Madrid. A late afternoon siesta and a snack or "merienda," are the Spanish solution to the idea of staying up late for dinner. Around 6 p.m., men gather in the cafes for sandwiches and seafood with beer and white wine, while the women congregate over cakes and tea in the pastry shops.**

The cocktail hour gets going a little before nine. Sherry, discovered in Spain and called "Jerez," is the national drink, ranging from pale and dry to dark and sweet. Amontillado, a medium dry sherry with a nutty flavor, is a good substitute for a cocktail.

* * *

A typical Spanish concoction called an "andaluza," made of sherry, orange juice and cracked ice, is perfect for warm weather. There are also a number of excellent white wines which, when chilled, make very pleasant appetizers before dining.

**PORTUGUESE DIFFER**

Though Portugal shares the Iberian Peninsula with Spain, Portuguese eating habits differ from their neighbors in a number of ways. Meals are not served so late. Lunch begins at one and dinner at eight in Lisbon.

* * *

The smart cafes along Lisbon's Avenida da Liberdade, bordered by acacias and palms, fill up with coffee-drinkers and sherbet-eaters late in the afternoon. As a rule mixed drinks are not popular except in the big luxury hotels. The best bet in a little bistro is a glass of Port or Madeira.

**Food in both countries is plentiful and low cost. A full meal with wine and service seldom exceeds $2.50 even in a palatial establishment. Prices are generally lower outside the big cities. Portuguese "pousadas" and Spanish "paradores," both road hotels run by the government, charge as low as $3 per person for lodging, meals and wine.**

Americans who come to Spain with the idea of duplicating their diet back home are in for a disappointment. Spanish cooking differs from American as baseball differs from bullfighting. Many of the dishes are spicy, seasoned with garlic and olive oil, and sampling this exotic fare is as exciting an adventure as a tour of the Alhambra in Granada.

Most menus will include such popular native dishes as "cochinillo asado," suckling pig, roasted so crisp and juicy that even the skin is eaten; "rinones al jerez," kidneys cooked with a sherry wine sauce; "puerco en estofado," a highly seasoned pork stew, and "pepitoria de gallina," chicken with olives, tomatoes and peas. The "tortilla" or omelette is served in a variety of styles, especially with mushrooms and potatoes.

**"Paella," fried yellow rice with fish, chicken or meat, is the classic Spanish dish. As no one can visit the United States without encountering a hamburger or a hotdog so no one can be in Spain with sampling "paella." The rice is flavored with saffron, and tiny pieces of meat and fish are added.**

The whole affair, served in a copper pan, is decorated on top with strips of sweet red pimento and green peas. Originated in Valencia, the dish is now as popular throughout Spain as the flamenco.

* * *

Another national specialty is "Gazpacho," a refreshing iced soup ideal for warm weather eating. Ingredients include finely strained tomatoes, green pepper, chopped onion and cucumber, bread crumbs, garlic, oil and vinegar. Though native to Andalusia, "gazpacho," like "paella," is served in all parts of Spain.

**FISH IS DIET**

If there is one national dish in Portugal, that dish is fish. "Bacalhau" or cod is to the Portuguese table what spaghetti is to the Italian, and Portuguese cooks have hundreds of recipes to turn this dry salted fish into a delicious mouthful. Codfish cakes with rice and peppers is one, and dried cod-fish with eggs, onions and garlic is another.

**Every Portuguese city has its fish-market, and its fishwives or "varinas" who patter gracefully through the streets with baskets of silvery sardines atop their heads. Portuguese menus offer fish of every size, form and taste, from salt-water mullet to fresh-water salmon. Port restaurants specialise in "caldeirada a pescadora," a thick, spicy fish stew on a par with French bouillabaisse.**

Shellfish of all kinds are excellent, and Portuguese cooks have an imagination. You can, for example, have your lobster plain — broiled and dipped in butter. Or, if you feel in the mood for a more elegant version, you can try "lagosta suada a moda de peniche," lobster cooked with olives in a light wine sauce.

Anyone who prefers meat to fish will find some of the best beef filets in Europe in Portugal. Everyone understands the word for beef, but it's well to remember that "mal passado" is rare, "medio" is medium and "bem passado" is well done. Unlikely as it sounds, "bife na frigideira" is not beef from the frigidaire, but steak served on an earthenware plate.

**TRY EELS, OCTOPUS**

Both Spain and Portugal offer a few dishes that require the American diner to muster up his courage. The daring gourmet in Basque Spain, for example, can try baby eels (angulas), shiny and tiny as pins, boiled in black sauce and garlic, then fried in sizzling olive oil with red peppers. The valiant in Portugal can sample octopus (polvo) or squid (lulas), cooked casserole style in their own ink and white wine. Once timidity is conquered, these dishes offer a delightful new experience in dining.

Standard desserts in Spain include "flan," a custard, "pena santa," the Spanish version of baked Alaska, and crepes suzettes. Portugal, however, has a national sweet tooth which has resulted in the creation of a variety of rich confections.

Contrary to popular opinion, Spain and Portugal produce a number of good wines beside sherry and port. Unless you are a connoisseur of wines, it's best to stay with the unbottled wine of the house called "vino de la casa" in Spain.

A good drinkable table wine, it is about one-third the price of the name brands. An excellent choice with a fish plate in Portugal is "vinho verde," a young white wine similar to vintages made on the Rhine.

**MARASCHINO CHERRY DRINKS** — Serve maraschino cherry lemonades for cooling, interesting drinks this summer. On the left is Cherry Raspberry Lemonade and on the right is Cherry Orange Soda.

## *Want to Gain? Don't Cut Out Those Proteins*

Considerable attention has been given the person who is overweight but little help has been given to the many millions in this country who are underweight. They too have problems in feeling below par physically and looking trim and attractive in appearance.

Surprisingly, protein, which is high in B-vitamins is the most important dietary requirement for those trying to gain weight as well as those who are trying to pare off the poundage.

**Foods high in protein are meat, fish, poultry, eggs, enriched bread and milk. These are the foods that should be included frequently in the diet of the underweight person.**

Since the person who is underweight often lacks a hearty appetite, it is easier to add calories by adding light snacks between meals rather than increasing the size of the meals.

Enriched bread and milk make an ideal team for between meal bites as they contain the 10 essential amino acids, the building blocks from which man manufactures proteins for the body. And, too, they add all important calories without filling.

* * *

Try the following snacks to add to three well balanced meals.

Mocha Milk—Add 2 tablespoons chocolate syrup and 2 teaspoons instant coffee to 1 cup milk.

Cinnamon Toast

Peach Milk Shake—Add ¼ cup pureed peaches, 2 tablespoons light cream, and 1 tablespoon sugar to 1 cup milk.

* * *

Peanut Butter finger sandwiches

Strawberry Milk—Add 2 to 3 tablespoons strawberry jam to 1 cup milk.

* * *

Cream cheese and nut triangles.

---

To make buttered bread crumbs, melt 1-3 to ½ cup butter in a skillet and stir in a cup of fine dry bread crumbs; keep stirring until the crumbs are golden-brown.

# Unique Meat Loaf Makes 'Big News' of Leftovers

A meat loaf need not always be made the same old way. There are many ways to prepare a really delicious meat loaf and variations in recipes are what give your menus personality.

If you mix a bit of originality in with the rest of the ingredients you will have a meat loaf fit for a gourmet.

**Here is a recipe that calls for a package of beef-vegetable soup mix as the principle ingredient. All the subtle seasoning and nutritious elements in the soup mix permeate the meat loaf and give it a highly original flavor.**

In making the Baked Beef Vegetable loaf, you follow a very quick and simple method.

Beat an egg slightly, then add water and ground beef chuck. Next add the beef-vegetable soup mix "as is" from the package, then chopped onion, diced bacon, mustard and chili sauce for a piquant touch. Mould into a loaf and bake in the oven for an hour.

**It's that simple but the results are a taste treat. Take advantage of the hot oven and pop in some rolls and a custard to bake for dessert.**

You will find that packaged soup mixes go a long way toward adding taste and variety as well as nutrition to many main dishes. Keep several packages handy for instant use.

**Baked Beef Vegetable Loaf**

1 egg
½ cup water
1 pound beef chuck, ground
1 package Vegetable-Beef Soup Mix
½ cup chopped onions
2 slices bacon, diced
2 teaspoons prepared mustard
1 tablespoon chili sauce

Beat egg slightly, add water and lightly stir in meat. Mix in the remaining ingredients. Shape meat mixture into a loaf in a shallow baking pan. Bake in moderate oven (350 degrees) for 1 hour. Makes 4 to 6 servings.

## Spicy-Sweet Sandwich Made With Deviled Ham

Nice for eating out-of-hand with a cool glass of milk is an open-face sandwich that blends spiciness of deviled ham with the tart-sweetness of cranberry sauce or currant jelly.

Spread slices of raisin bread with a layer of deviled ham. Top with a spoonful of jellied cranberry sauce that's been crushed with a fork, or currant jelly. Slide under the broiler for a few minutes until top is nicely glazed.

There's more than one way to heat ready-to-eat fully cooked ham: bake, pan-fry or broil it.

**CRISPY FRANKS** — Skinless frankfurters dipped in spicy egg batter, rolled in crushed potato chips make a "Crispy Frank" for mouth-watering summertime lunches. Bake until golden brown. Serve with sliced tomatoes, green beans and a fresh fruit dessert.

# Crispy Franks Quick and Fun

**Potato chips and frankfurters "go steady" to make summer meal planning both quick and fun.**

**These nutritious and mouth watering "Crispy Franks" may be prepared in no time at all. Serve them with sliced tomatoes, green beans or other vegetables and a glass of milk.**

Add fresh fruit for dessert and presto, the menu is complete!

**"Crispy Franks"**

6 to 8 skinless frankfurters
2 large eggs
1 tablespoon Worcestershire sauce
1 teaspoon garlic powder
1 teaspoon monosodium glutamate
2 teaspoons Tabasco
½ teaspoon chili powder
5 ounce package of potato chips

Brush frankfurters with the following mixture: Beaten eggs with dry spices and Worcestershire sauce. Roll franks in crushed potato chips, and bake at 375 degrees until golden brown. Serve at once.

## Test Fat Temperature

**Old-fashioned test for deep-fat frying is still good if you haven't a thermometer. If a cube of bread turns golden-brown in one minute after it's dropped into the hot fat, you have the right temperature for frying raw foods.**

# *Pre-Packaged Farm Products on Increase*

Substantial reduction in the food bill of the average American family as a result of new methods of pre-packaging fruits and vegetables from the farm to the retail market is predicted by John C. Newell, marketing director of the Folding Paper Box Association.

* * *

The day is not long distant, says Newell, when all fruits and vegetables will be cleaned, processed and packaged right at the farm and shipped under ideal conditions to keep them at their freshest to markets where consumers can buy practically 100 per cent edible products.

**Needless waste in the various stages of handling and shipping farm products is responsible for a considerable part of the cost of fresh produce, the packaging expert continues. Pre-packaging will eliminate the major part of this waste when it arrives in retail markets.**

* * *

Now, he says, almost one-third of fresh produce in retail markets goes into the garbage can, thus adding to the cost of the fruits and vegetables to the consumer.

* * *

In 1950, only five per cent of fresh produce was packaged for the consumer. In 1955, almost 25 per cent of all fruits and vegetables were pre-packaged at the farm and this year at least 50 billion pounds will be packaged before shipment, Newell said.

* * *

Already 100 per cent of all berries are pre-packaged; 60 per cent of tomatoes; 50 per cent of mushrooms, brussels sprouts and carrots; 75 per cent of spinach and 80 per cent of kale.

## Corn Muffin Surprise

Fill muffin-pan wells one-third full of cornmeal muffin batter; drop a blob of deviled ham in each well; add enough batter so wells will be two-thirds full. Bake and serve hot with butter. Good with fried chicken!

## Rich Vegetable Sauce

Add an egg yolk and a little lemon juice to a cup of medium cream sauce for something good and rich to serve over vegetables. Slowly beat the hot cream sauce into the slightly beaten egg yolk, then stir in the lemon juice.

## Pecan Waffles Tasty

Making waffles? Sprinkle batter, after you've poured it onto the irons, with small pecan halves and bake as usual. Super with real maple syrup.

# *Two Hot Bread Recipes Come From Girl Scouts*

By JANET ODELL
Pontiac Press Home Editor

Well, I managed to get a couple of recipes for you from the Girl Scouts out at the Roundup. They've all gone home now. But we shan't soon forget them.

* * *

Almost every day there were food demonstrations of one kind or another. I never managed to see all I wanted to see. But I heard a lot about what was happening.

**All day Sunday girls from the Thumb area of Michigan served bean soup. They had made the soup some months ago and frozen it. One of the girls' fathers drove down Saturday with the frozen mixture, and the girls arose at six on Sunday to get it thawed. They served some 900 visitors.**

A patrol from New England made sugar from maple syrup. Then they made pancakes and served the sugar on them. But first they poured a bit of lemon extract on the sugar and lit it. Result: Flaming Pancakes!

* * *

Girls from Mexico and the southwest brought their versions of enchiladas, tortillas, tacos and other delicacies of the region. Scouts from all over showed their ability to cook with a minimum of utensils over charcoal stoves.

**On Monday, when I went up to one of the far sections to get the recipe for Sour Dough Biscuits, the patrol from Texas was baking cake. My, it smelled good in that kitchen tent.**

They were using a reflector oven this method of baking heat is reflected back from the fire onto what is being baked. It works, too. Another group made Pineapple Upside Down Cake in their Dutch oven over a charcoal stove.

* * *

Here's the recipe for Sour Dough Biscuits is similar in method to the Sour Dough Pancakes made by the girls from Alaska.

**SOUR DOUGH BISCUITS**
**By Girl Scouts**
**From Amarillo, Texas**

1 small potato cut into little pieces
1¾ cups water
2 tablespoons sugar
½ cup flour

Mix well. It will be about the consistency of buttermilk. Let stand in a warm place for 24 hours.

2 cups sifted flour
3 teaspoons baking powder
1 teaspoon salt
½ teaspoon soda
4 tablespoons shortening
3 cups yeast mixture (sour dough)

Sift dry ingredients together. Cut in shortening. Add yeast mixture and mix well. Pinch off small biscuits from the dough. Place on a greased pan.

**Bake about 10 minutes in a 425-degree oven. (The original biscuits, of course, were made in a reflector oven. Cowboys make them out on the range.)**

The Tar Babies patrol from North Carolina made and served Hush Puppies to visitors in the demonstration area. They passed out the recipe for these delicious little cornmeal delicacies.

**HUSH PUPPIES**
**By Girl Scouts**
**From North Carolina**

¾ cup corn meal
½ teaspoon salt
1 teaspoon sugar
¼ cup sifted flour
1 teaspoon baking powder
1 egg
1 small onion, minced (optional)

Mix all together, adding only enough milk to make a medium thick dough. Drop by small tablespoonfuls into hot fat. Cook until golden brown. Don't let the fat get too hot.

## Frozen Grapefruit Juice Good on Ice Cream

Frozen grapefruit juice concentrate, undiluted and right from the can, becomes a refreshing sauce for ice cream sundaes. The tart fruit flavor provides just the right contrast with vanilla ice cream.

* * *

A can of undiluted grapefruit juice concentrate also teams up beautifully with a package of frozen raspberries and two sliced bananas for a fruit cup medley to serve six.

## Tomato Soup Shake Will Please Youngsters

When it's "just too hot to eat" and your youngster is out of sorts or overtired, tempt his appetite with a frosty tomato soup shake. Just combine a can of chilled condensed soup with a can of icy-cold milk in a mixer, blender or shaker. Add a cinnamon-stick stirrer, for flavor and fun!

BLACKBERRY JAM—July brings blackberries back to the markets, so it's time to plan ways to enjoy this bounty. Thrifty homemakers put up jams and jellies, which is one of the best ways to have the sweet flavor of blackberries available throughout the year.

# It's Blackberry Month; Enjoy 'Em All Year 'Round

"Blackberries," said Pliny, centuries ago, "are the friend of man," for he believed, as did other ancient Romans, that this berry had medicinal qualities. Nowadays we value them most of all for their distinctive flavor.

When blackberries are at their ripest stage, during the month of July, it's time to make blackberry jam and jelly.

**And, when you use fully ripe fruit, and the modern short-boil method, you capture the true flavor of the berries in each glass.**

Try these recipes featuring blackberries and you'll find that this method of jellymaking is quick and easy. In literally a matter of minutes sparkling jellies and fragrant jams will be ready for your family to enjoy all year long.

**Blackberry and Cherry Jam**
**(Using sour cherries)**

4 cups prepared fruit (about 1 qt. ripe blackberries and 1¼ lbs. ripe or sour cherries)
7 cups (3 lbs.) sugar
1 bottle liquid fruit pectin

Crush thoroughly about 1 quart fully ripe blackberries. Stem and pit about 1¼ pounds fully ripe sour cherries. Chop fine. Combine fruits and measure 4 cups into a very large saucepan.

**Add sugar to fruit in saucepan and mix well. Place over high heat, bring to a full rolling boil and boil hard 1 minutes, stirring constantly.**

Remove from heat and at once stir in liquid fruit pectin. Skim off foam with metal spoon. Then stir and skim by turns for 5 minutes to cool slightly, to prevent floating fruit. Ladle quickly into glasses. Cover jam at once with ⅛ inch hot paraffin. Makes about 11 medium glasses.

**Spiced Blackberry Jelly**

1 box (2¼ oz., powdered fruit pectin
5 cups (2¼ lbs.) sugar
½ to 1 teaspoon each cinnamon, allspice, and cloves
1 box (2½ oz.) powdeerd fruit pectin

Crush thoroughly about 2 quarts fully ripe blackberries (not blackcaps). Place in jelly cloth or bag and squeeze out juice. Measure 3½ cups into a large saucepan. Measure sugar and set aside. Add spices and powdered fruit pectin to juice in saucepan and mix well. Place over high heat and stir until mixture comes to a hard boil. At once stir in sugar.

Bring to a full rolling boil and boil hard 1 minute, stirring constantly. Remove from heat, skim off foam with metal spoon, and pour quickly into glasses. Cover jelly at once with ⅛ inch hot paraffin. Makes about medium glasses.

# Milk Fortifies Cooling Drinks

Just can't get enough cooling summer drinks for those thirsty folks at home? Here are two nourishing beverages made with nutritious instant nonfat dry milk.

This "Orange Chiller" recipe combines orange juice concentrate with instant nonfat dry milk in a refreshing drink for grownups as well as youngsters.

The Chocolate Cooler, which is a jig-time recipe, is guaranteed to make a big hit with the small fry especially.

**Orange Chiller**

½ cup frozen orange concentrate, defrosted
2 tablespoons honey
½ cup chopped ice
1 quart liquefied instant nonfat dry milk, chilled

Combine orange concentrate and honey in large pitcher; add chopped ice. Pour liquefied instant nonfat dry milk over ice; blend well. Serve. Makes four servings.

* * *

**Chocolate Cooler**

1 quart chilled liquefied instant nonfat dry milk
⅓ cup chocolate syrup
4 medium-sized scoops (1 cup) orange sherbet

Place ingredients in electric blender. Blend until smooth and creamy, about ½ minute. Serve. Makes four large servings.

## Easy Vegetable Salad

Cook a package of frozen mixed vegetables and cool. Mix with French dressing to which a little curry powder has been added. Let Serve with cold meat.

Brown bread crumbs (fresh or dry coarse) in butter and sprinkle over hot cooked drained asparagus stalks.

# Definite Trend to Leaner Pork

Leaner pork is coming to market these days in the meat industry's newest effort to "give the lady what she wants."

The American Meat Institute points out that the housewife at the meat counter, by what she chooses to buy, determines the fashion in meats as well as the prices.

**The Institute noted that during the first half of 1956 the number of hogs which went to market was up about 18 per cent over a year ago. Pork volume, however, was only about 13 per cent higher.**

This indicates the industry has an increasing recognition of consumer preferences in supplying a leaner type of meat, Institute officials said. For example, during the last year, at the recommendation of the Institute, the meat industry generally adopted a closer trim for pork.

**MEAT HOGS DOUBLE**

Hog producers, agricultural colleges and others developed an increasing interest in meat-type hogs which last year were estimated at nearly 20 per cent of the market supply, compared with about 10 per cent in 1954. The trend is continuing higher this year, it was added.

**Another new development is the recognition by producers of the value of spreading rather than bunching their hog marketings in order to achieve a more stable price fluctuation.**

One move in this direction is through multiple farrowing of pigs; that is, producing several pig crops instead of one or two.

Back 50 years ago, when the meat packer trade association was started, the fashion in meat called for a liberal covering of fat to meet the requirements of much more manual and outdoor work than at present.

## Handy Picnic Table

**If your choice of a picnic spot provides only Mother Earth's green grass for a table, surprise your picnickers by rolling out a "match stick" bamboo window shade. It offers an attractive, firm surface on which to set plates of sandwiches or buns, salads and an array of desserts for out-of-hand eating—fruit pies, cup cakes or cookies.**

## Fried Scallops Coated With Rusk-Egg Mixture

Crush half a dozen rusks and mix them with a good dash of salt and pepper. Beat an egg with a couple of tablespoons of water just enough to mix yolk and white.

Dip a pound and a half of scallops in the crumbs, then in the egg and again the crumbs. Fry in deep or shallow fat to a beautiful golden brown. Serve with tartar sauce.

## Keep Milk in Coldest Section of Refrigerator

Milk always should be kept cold and covered. To best preserve its flavor and food value, it should be stored in the coldest section of the refrigerator.

* * *

In order to retain its full content of riboflavin, milk should be protected from strong light. Uncovered milk picks up the flavor of other foods. A partially emptied bottle should be resealed immediately and returned to the refrigerator.

## Serve Beef Broth Iced

Neatest trick of the summer is keeping cool! It's easier to do if you keep a few cans of beef broth in your refrigerator, ready for spur-of-the-moment serving. Just pour the broth over ice cubes and taste that delicious, beefy flavor—enhanced, perhaps by a tiny sprinkling of freshly-ground pepper!

# Limes Dress Up Summer Food

There's good food and then there's superb food, and very often the preparation difference is slight.

A colorful garnish can add a fillip to an ordinary dish and the addition of new and tangy flavor to a basic sauce recipe may make a vegetable or fish dish memorable.

* * *

One of the more delightful but still uncommon flavors that make for truly gourmet eating is that of the Florida Persian lime. This fruit is lemon-sized and interchangeable in any recipe with a lemon, but unlike the lemon it is ripe when green!

Limes belong to the "you have to taste it to believe it" school of cookery, since the piquant flavor they impart to a variety of foods can hardly be described.

Like other citrus, limes are juicy and rich in vitamin C. They are the only Florida citrus fruit, however, that reach the peak of maturity during the summer months.

As usual, though, nature seems to have timed things right, making limes available when we most need tall cool drinks, and when ripe melons are just a-waitin' the addition of some tart lime juice to be most enjoyed.

During July, August and September you should have no trouble buying this delightful seedless and juicy fruit. Use wedges with your iced tea, cold soups, and these delicious sauces:

**Lime Butter Lobster Sauce**

4 tablespoons butter or margarine
1 tablespoon Florida lime juice
¼ teaspoon Tabasco
1 tablespoon minced parsley, optional

Melt butter; stir in Florida lime juice and Tabasco. Add parsley. Serve with lobster. Yield: Approximately 1-3 cup.

**Lime Hollandaise Sauce**

2 egg yolks
2 tablespoons Florida lime juice
⅛ teaspoon dry mustard
⅛ teaspoon sugar
¼ teaspoon salt
⅛ teaspoon Tabasco
⅛ cup butter

Put egg yolks, lime juice, mustard, sugar, salt and Tabasco into small heavy earthenware mixing bowl; mix well. Divide butter into 3 equal portions. Add one portion of butter to the egg mixture and place the bowl in a saucepan of hot water.

Place over low heat and stir constantly until butter is melted. Add second portion of butter, and when this is melted, repeat with third portion, stirring constantly as butter melts and sauce thickens. Remove from heat.

* * *

Serve over cauliflower, broccoli or asparagus. Yield 2-3 cup.

LIVE IT UP WITH LIMES — Limes add a wonderfully distinctive flavor to foods. Try wedges of this green citrus fruit with melon or fish. Garnish chilled consomme with slices. Serve Lime Butter sauce with lobster and Lime Hollandaise sauce with broccoli.

## 'Magic' Cookies Feature Six Delectable Variations

Picnics are almost as traditional as fireworks on the Fourth of July. And even if the successful agitation in favor of a safe and sane Fourth has brought about the abolition of dangerous noisemakers in many places, picnics are still in order.

Here's a special picnic cookie that you'll be sure to like, whether you have your picnic in the back yard, on the roof, in an open window, or at your favorite picnicking haunt.

**This picnic delight is made with sweetened condensed milk by a recipe that calls for no eggs, butter, flour or leavening—indeed it calls for just three ingredients, sweetened condensed milk, peanut butter and one other, such as corn flakes or raisins.**

Sandwiches, plenty of hot or cold beverage—cocoa or coffee, milk or pop—an easy to eat salad such as potato in hollowed-out tomatoes, each wrapped in aluminum foil for easy eating, and fresh fruit make a substantial and satisfying lunch that will reach any picnic site in good condition.

This is the recipe for the magic cookies that are so easy to make, so good to eat.

**Magic Take-Your-Choice Cookies**

1⅓ cups (1 15-ounce can) sweetened condensed milk
½ cup creamy smooth peanut butter
Any one of these six ingredients:
2 cups raisins
2 cups corn flakes
3 cups shredded coconut
2 cups bran flakes
1 cup chopped nut meats
2 cups chopped dates

Mix sweetened condensed milk, peanut buter and any one of the six ingredients. Drop by teaspoonfuls on well-greased baking sheet. Bake in moderate oven (375 degrees) for 12 minutes or until brown. Remove from pan at once.

## Taste of Spain in Lusty Soup

Here's a cold soup recipe from Spain called Gazpacho Andaluz, to increase summer eating pleasure. It is lusty, interesting and different.

**Gazpacho Andaluz**

One No. 2 can tomatoes
⅓ cup tomato puree
1 tablespoon butter or margarine
⅓ cup beet juice
1 cup water
Salt and red pepper to taste
1 tablespoon all-purpose flour
½ cup milk
1½ tablespoons sherry if desired
½ cup sliced pimiento-stuffed green olives
½ cup chopped green pepper
¼ cup slivered toasted almonds
¼ cup croutons

Combine tomatoes, tomato puree and butter or margarine, cook over medium heat 10 minutes, stirring occasionally. Add beet juice, water and salt and red pepper to taste. Cook 20 minutes, stirring occasionally. Strain and heat to boiling point.

Combine flour and milk and blend. Add to strained ingredients gradually and cook over low heat, stirring constantly, until thickened. Cool. Add sherry, if desired, and mix well.

Chill thoroughly. Serve with remaining ingredients as toppings. Makes four to six servings.

## Packing for Picnic? Add Chewing Gum

The annual summer trek to favorite picnic spots is under way. And this year it looks as if more families than ever are heading for the wide outdoors and picnic fun.

When your family's "dining out" in nature's wonderland, you'll be filling your picnic basket with all sorts of appetizing, delicious foods which involve a minimum of fuss and bother in preparing. For an extra touch, include a pack of chewing gum. It'll disappear mighty fast when lunch is done.

## Topping for Greens

Hard to get your family to eat those vitamin-rich greenstuffs? Try topping green beans, cabbage and broccoli with this tangy deviled ham suace:

Melt two tablespoons butter, stir in one tablespoon flour and one tablespoon prepared mustard. Stir, then slowly add one cup milk. Stir over moderate heat until thickened, add dash of pepper and one (2¼ oz.) can deviled ham. Cook until hot.

Sprinkle sesame seeds over yeast rolls after they have been shaped and their tops have been moistened with water. Let rise and bake.

## SKILLET CLUB FOR MEN

By Frank Kohler

Mrs. Francis W. Leach of the Worcester, Mass., Gazette Chapter sent us this one, "named by a frustrated husband for his lazy wife—"Anna-dam'er."

**Annadamma Bread**

½ cup Indian (or corn) meal
2 cups boiling water
2 tablespoons shortening
⅓ cup molasses
1 teaspoon salt
1 yeast cake
¼ cup warm water
6 cups flour

Stir the meal slowly into the boiling water and mix well. Add shortening, molasses and salt, and set aside to cool. Dissolve the yeast in warm water about five minutes, then add alternately with the flour to the lukewarm cornmeal mixture.

**Knead until smooth and place in large greased bowl and let rise to double its bulk.**

Turn out on floured board, and divide in half. Knead down and greased bread pans and let rise again to double its bulk. Bake at 375 degrees for one hour.

Potato Salad with Franks and Blue Cheese is from Miss Corinne Saltzman of New York City. We found this a fine summer idea.

2 tablespoons butter
4 frankfurters, diced
½ cup chopped onion
½ cup chopped celery
¾ cup crumbled blue cheese
¼ cup water
½ cup vinegar
½ teaspoon sugar
¼ teaspoon dry mustard
4 medium-sized potatoes, cooked and diced
⅛ cup chopped parsley

Melt butter and brown the franks lightly. Add onion and celery and saute lightly. When onion is transparent, stir in the cheese.

**Combine water, vinegar, sugar and mustard, and mix well. Heat to the boiling point and boil 3 minutes. Add to frankfurter mixture and mix well.**

Add potatoes and parsley and cook over low heat, stirring occasionally, for 10 to 15 minutes, until thoroughly heated, and serve hot.

Williamsburg Sandwich makes a nice summer snack. For 4 man-sized sandwiches:

1½ cups diced cooked chicken
¼ cup crumbled blue cheese
½ cup fine chopped celery
3 tablespoons mayonnaise
8 buttered bread slices

Mix the filling ingredients well; spread generously on four bread slices, and top with the remaining four slices.

## Fruited Cookie Made With Bread Crumbs

Here's a quick fruited cookie made with enriched yeast-raised bread crumbs that will gladden the hearts of the cookie jar raiders.

Place 1 cup fine bread crumbs in a bowl. radually add one 15-ounce can sweetened condensed milk until of drop cookie consistency. Add 1 teaspoon lemon extract, ½ cup raisins, ½ cup chopped nuts and ⅛ teaspoon salt.

Mix thoroughly and drop from tip of spoon onto greased baking sheet. Bake at 350 degrees 12-15 minutes. Makes 3 dozen.

PAELLA—Paella is main dish that combines chicken, rice and seafood. It is a complete meal and needs only some crusty bread or rolls to round it out.

# Savory Paella Meal in Itself

In many cities in the United States, and particularly in the Southwest, the custom of serving crusty breads with meals has been adopted from the Spanish settlers.

As in most of the Latin American countries, the bread is made in many small bakeries where it is baked in small quantities several times a day so it may be purchased fresh.

**The bread can be served warm as it comes from the bakery. Otherwise, it can be placed in a paper bag and reheated for several minutes in a moderate oven. It is then cut in diagonal slices to, but not through, the bottom crust.**

Here it adds texture interest to a meal which includes chicken and seafood filled Paella and a large relish tray of marinated asparagus, carrots and tomato slices.

**Paella**

1 2½ to 3 pound chicken, cut in serving pieces
Boiling water
1 small onion
1 carrot, sliced
1 stalk celery
2 sprigs parsley
1 tablespoon salt
2 tablespoons salad oil
1 clove garlic, peeled and crushed
1 cup uncooked rice
2 cups broth from chicken
2 teaspoons salt
¼ teaspoon oregano
⅛ teaspoon pepper
2 tablespoons chopped pimientos
½ pound raw shrimp, peeled and deveined
6 mussels or clams, cleaned

Place chicken in large kettle; cover with boiling water. Add onion, celery, carrot, parsley and salt. Cover and simmer until tender, about 1 hour. Remove chicken from broth.

Heat salad oil in paellera pan or large skillet. Add crushed garlic clove and rice. Cook over low heat until rice is browned. Add chicken broth, salt, oregano, pepper and pimientos. Cover and cook over low heat 15 minutes.

Add shrimp. Mix lightly. Insert chicken and mussels or clams into rice. Cover and cook 10 minutes. Makes 6 servings.

## Broil Fat Shrimp in Seasoned Oil

Easy to do and so good!

**Broiled Shrimp**

1 pound shrimp
¼ cup butter
2 tablespoons olive oil
1 small clove garlic (peeled and minced)
Salt
Paprika
2 tablespoons minced parsley

Shell raw shrimp and devein. Melt butter in a small shallow pan; stir in olive oil and garlic.

**Add shrimp, turning them over in the butter-oil mixture to make sure they are well coated. Sprinkle lightly with salt and paprika.**

Broil shrimp rapidly until cooked through, turning once and sprinkling again with paprika. Broiling will take 5 to 8 minutes. Sprinkle with parsley and serve at once.

Crusty bread is good dunked in the sauce. Makes 3 to 4 servings.

## Vitamin Cocktail Peppy First Course

Tangy, cold and refreshing beverage for your first course:

**New Vitamin Cocktail**

1 can (12 ounces) vegetable juice cocktail
1 can (1 pint and 3 ounces) sauerkraut juice
1 teaspoon dried crushed chervil

Mix vegetable juice cocktail, sauerkraut juice and chervil in a container. Cover tightly and refrigerate until thoroughly chilled. Makes 6 to 8 servings.

# Use Muffins Two Ways

A cook who knows her muffins says firmly, "There is no such thing as a cold muffin!" If you agree, there is a short-cut to hot muffins for breakfast.

First, bake a double batch of the All-Bran Muffins. Serve half hot, save half for:

**Cinnamon Circles**

9 All-Bran Muffins
2 tablespoons butter or margarine
3 tablespoons cinnamon
½ cup sugar

Split muffins in half crosswise, spread cut surfaces with butter. Sprinkle with mixture of cinnamon and sugar. Broil 2 to 3 minutes, until bubbly and lightly browned. Serve at once.

Yield: 18 cinnamon circles.

**All-Bran Muffins**

1 cup all-bran
¾ cup milk
1 egg
¼ cup soft shortening
1 cup sifted flour
2½ teaspoons baking powder
½ teaspoon salt
¼ cup sugar

Combine All-Bran and milk; let stand until most of moisture is taken up. Add egg and shortening; beat well.

**Sift together flour, baking powder, salt and sugar. Add to All-Bran mixture, stirring only until combined.**

**Fill greased muffin pans 2-3 full. Bake in moderately hot oven (400 degrees) about 30 minutes.**

Yield: 9 muffins, 2½ inches in diameter.

Note: If buttermilk or sour milk is used in place of sweet milk, reduce baking powder to 1 teaspoon and add ½ teaspoon baking soda.

## Coffee Milk Shake

Beat two cups of milk and a pint of soft chocolate ice cream together with a couple of tablespoons of instant coffee powder for a hot-weather treat. Serve in pretty glasses.

When you use margarine for pastry, it is usually not necessary to add much salt.

# 'Fun With Coffee' Tells Ways of Using Beverage

By JANET ODELL
Pontiac Press Home Editor

"In Washington, where protocol is important, coffee is the highest ranking beverage! Hostesses must make sure, no matter what else is served, that the Most Important Lady pours the coffee." Coffee really rates.

Coffee is a distinctive beverage, in that it is good hot or iced. It can be varied with a number of different flavorings. Coffee itself is a flavoring and adds a delightful taste to recipes for cake, cookies and desserts.

**The Pan American Coffee Bureau has just published a small coffee recipe book, entitled, "Fun with Coffee." In it they have collected some of their choicest recipes.**

First of all, the book tells how to make good coffee with any method. Then it has a section on variations of the beverage, hot or cold. Try, for instance a Mocha Frosted when the temperature soars.

**Mocha Frosted**

2½ measuring cups strong, cold coffee
3 tablespoons chocolate syrup
1 pint coffee ice cream

Place all ingredients in a bowl and blend with a rotary beater until smooth. Pour into tall glasses. Serves 4.

• • •

Among the dessert recipes is this simple way of making a Pilau. Pilau, in this instance, is a rice dessert, not a main dish.

**Coffee Raisin Pilau**

1 package (6 oz.) pre-cooked rice
Regular strength coffee
½ cup golden raisins
½ cup chopped walnuts
½ teaspoon salt
⅛ teaspoon nutmeg
½ cup brown sugar, firmly packed
1 cup heavy cream, whipped

Prepare pre-cooked rice according to package directions, using coffee instead of water. Stir in remaining ingredients except cream and mix well. Cool.

**Fold in whipped cream, reserving enough for garnishing. Spoon into sherbet glasses. Top with remaining whipped cream and a few chopped walnuts. Makes 6 servings.**

How about putting coffee into the quick bread you make to serve with a cup of coffee for a mid-morning snack? Here's the recipe.

**Coffee Date Nut Loaf**

2 cups sifted flour
4 teaspoons baking powder
1 teaspoon salt
⅓ cup sugar
½ cup broken walnuts
¾ cup finely cut, pitted dates
1 cup strong coffee
½ teaspoon baking soda
1 egg, well beaten
2 tablespoons melted shortening

Mix and sift flour, baking powder, salt and sugar. Stir in walnut meats and dates. Combine coffee, baking soda, egg and shortening. Add all at once to dry ingredients. Stir only enough to dampen dry ingredients.

**Turn into greased loaf pan. Let stand 20 minutes. Bake in moderate oven, 375 degrees, for 1 hour.**

If you have just a short time to prepare for guests, make up a recipe of Mocha Balls. They're part cookie, part candy. They need no cooking and are easy to make.

**Mocha Balls**

1 large box (7 oz.) vanilla wafers
2 cups confectioners sugar
⅔ cup finely chopped nuts
2 tablespoons cocoa
⅓ cup heavy cream
¼ cup double-strength, cold coffee

Crush vanilla wafers into fine crumbs (there should be 2 cups). Add sugar and mix well. Stir in nutmeats and cocoa. Add cream and coffee. Mix well and shape into balls about ¾ inch in diameter. Roll some of the balls in additional confectioners sugar. Chill. Do not bake. Makes about 4 dozen.

## Freeze Plump Raspberries for Winter Use

Mother Nature has indeed played tricks on farmers and consumer alike this '56 growing season. First, it was too cold, then too wet—so planting was delayed; then the weather was fine and farmers went to work getting soil and planting started—then it was too dry and too hot.

Close on the heels of strawberries will be black raspberries. They will be followed by red raspberries.

For freezing, select berries that are bright and plump, clean, fresh in appearance, solid full color, free from moisture and adhering caps. One quart of quality berries will yield 3½ cups.

**Fresh raspberries are very perishable. They do not store well. Buy in small quantities. Berries will keep in a fair condition for a few days at 31 or 32 degrees F.**

Taylor and Latham are two varieties of red raspberries suggested as especially good freezing berries. Handle carefully and rapidly.

Sort, wash and drain thoroughly. Pack dry without sugar; or cover with 40 per cent syrup, or mix 1 cup sugar with 6 cups of fruit. Label and freeze promptly.

Cumberland and Logan are varieties of black raspberries that will freeze well. Prepare in the some manner as the red berries, then pack in 40 per cent syrup.

# Cool Concentrates Make Tangy Summer Drinks

It's just like having a magical citrus tree in your backyard when you keep your freezer stocked with a selection of quick-frozen concentrated fruit juices and fruit ades.

Joining the popular orange juice and lemonade concentrates this summer are tangerine juice, grapefruit juice, grapefruit and orange juice, limeade. All are packed in heavy 6-ounce containers.

**The juices, when reconstituted with 3 cans of water, make 1½ pints of pure, fresh-flavored juice; the ades call for 4½ cans of water to make a full quart of refreshing beverages.**

So when the temperature soars, try any or all of these cool, citrus concentrates. Serve them solo in tall glasses over tinkling ice cubes . . . mix two flavors together . . . or try some of these compatible combos:

**LIME 'N' TONIC:** For a sophisticated soft drink, spoon 2 tablespoons of partly-thawed limeade concentrate into a tall glass. Add 2 or 3 ice cubes, fill with quinine water. Stir to mix well. (Or try teaming "tonic" with lemonade or any of the fruit juices.)

**ORANGE MIST:** Mix a can of orange juice with 3 cups of ginger ale . . . pour over crushed ice. Serve with straws for sipping.

**TANGERINE TEMPTER:** Take a tall glass. Into it spoon 2 tablespoons of partly thawed tangerine concentrate. Add 2 or 3 ice cubes and fill up with lemon-lime carbonated drink. (Do the same with the other partly-thawed juices.)

**CITRUS CRUSH:** Combine a can of orange and grapefruit juice with 3 cans of water and 2 cups of bottled cranberry juice. Add sugar to taste — about 2 to 4 tablespoons — mix well and pour over ice in tall glasses.

**ORANGE SMASH:** Mix 1 can of orange juice with 3 cans of water. Add 1 pint of vanilla ice cream. Beat for 1 minute with rotary egg beater or in electric blender. Serve in tall glasses with long spoons. Smashing!

**LEMON-MINT TEA:** Just add about a teaspoon of partly-thawed lemonade concentrate to each tall glass of iced tea. Sweeten if you like. Garnish with mint leaves.

## Juices, Chicken Broth Give Waffles Flavor

Flavored waffles for any meal are easy the evaporated milk way. Use a waffle mix or follow your favorite waffle recipe. Then for the liquid, use half eveaporated milk and half fruit juice or chicken broth.

The chicken broth-flavored waffles are excellent topped with chicken a la king. Tomato juice-flavored waffles may be topped with cheese rabbit; orange juice-flavored waffles are excellent with syrup.

## Sardines, Bean Salad Simple, Filling Supper

For a simple supper, with the stick-to-the-ribs quality that summer appetites crave, start off with sardines garnished with wedges of lemon, and a salad made by mixing a drained can of kidney beans with chopped onion, celery, parsley and a tangy French dressing.

Add a few slices of tomato for color and potato chips for crisp texture and the meal is complete.

# The Blonde Cried MURDER

By Brett Halliday

THE STORY: A frightened woman tells Mike Shayne the body of a murdered man, her brother, disappeared from a room at the Hibiscus Hotel. She was pursued by the murderer, a scarfaced man. Mike hides the girl, after a knock comes on the door. He admits a scar-faced man who says he is the girl's brother. He says there was no body in room 316 of the Hibiscus.

XII

Shayne nodded slowly. "I know. That fits her story, too. About the body of her brother disappearing from the room while she was telephoning for help from another room."

* * *

"But I'm her brother," fumed Paulson helplessly. "Let me see her, Mr. Shayne. Let me talk to her. You can be right there and listen. Don't you see she needs help—making up a crazy story about me being murdered and then running away at the sight of me?"

**"Somebody," agreed Shayne, "is sure making up a crazy story." He drummed blunt fingertips on the arm of his chair indecisively. "Couple of things we can check without too much trouble."**

"Then start checking them," burst out Paulson. "Get the bottom of this. You claim Nellie is all right and you can produce her any time, but how do I know. Prove it."

Shayne said equably, "You'll have to take my word for it." He went to the telephone and called the number of the Hibiscus Hotel which he had looked up earlier. When the switchboard answered, he asked, "Do you have a Miss Paulson registered? Nellie Paulson from Jacksonville?"

**A LONG PAUSE**

"Three-sixteen," Evelyn replied at once. "But Miss Paulson isn't in just now."

"I know. Look, anything more on bodies appearing and disappearing from her room?"

**There was a long pause. Then Evelyn said primly, "I'm sure I don't know what you mean, sir. Who is calling?"**

Shayne said, "Never mind," and hung up. He added to Paulson who had risen and was looking at him eagerly, "That much checks. Miss Paulson has 316 and she isn't in."

"Well—what are you waiting for?"

* * *

"One more detail." Shayne called the Roney Plaza. He asked again, "Do you have a Miss Paulson registered? Miss Nellie Paulson from Jacksonville?"

**NO RESPONSE**

It took quite a bit longer to get an answer this time. And it was decisively negative: "Sorry, but we have no Miss Paulson."

Shayne hung up with a shrug. He told Paulson, "I guess it's about time we tried to straighten this out." He strode to the kitchen door and knocked on it. "Nellie. This is Mike Shayne. It's all right to come out now."

**There was no response from the kitchen. Paulson shoved Shayne aside and rattled the knob frantically. "Nellie! Do you hear me, Nellie? It's Bert, darling. Don't you hear? Everything's all right. I swear it is. I've been so worried."**

Shayne stood aside with a bleakly saturnine look on his face while Bert pleaded through the closed door for his sister to come out. After a few minutes attempted cajolery got them nowhere, Shayne said, "If you'd kept your mouth closed until she unlocked the door, everything would have been all right. As it is—the way she seems to feel about you—she's probably run out the back door and down the fire escape by this time."

**CRASHED OPEN**

"The fire escape?" Paulson whirled about, his scar standing out strongly on his cheek. "You mean there's a back way out of that room?"

Paulson whirled and threw his weight against the door. The hook holding it on the inside gave under the impact and the door crashed open.

**One glance showed them the kitchen was empty. Paulson jumped for the back door and found it unlocked, jerked it open and stepped out onto the fire escape landing to peer anxiously downward.**

Shayne caught his shoulder and whirled him about as he started to run out. "Take it easy. Maybe she had a good reason for ducking out before you broke that door down. You and I are going down to police headquarters and—"

**DON'T DO IT!**

An extraordinary change came over Bert Paulson's face. He backed away and his right hand darted inside his jacket buttoned in front and reappeared holding a .45 Army automatic aimed squarely at Shayne's belly.

**"Don't do it, Mister Detective. I'd just as soon kill you as any of those men I killed in Korea. You can go down to police headquarters if you want, but you'll go alone. I've had enough talk. You don't seem to realize Nellie's out there alone somewhere.**

"I'm going out to find her!" He was backing away toward the front door, gun held unwaveringly in line with Shayne's middle.

**10:28 P.M.**

The girl stood inside Shayne's kitchen with her ear pressed hard against the thin wooden panel trying to hear what was going on beyond the door.

She stiffened as she heard a knock and Shayne's voice: "Nellie. This is Mike Shayne. It's all right to come out now."

* * *

She waited to hear no more. She slithered across the room and out the open door, drawing it silently shut behind her.

**(To Be Continued)**

## Columbus Had to Guess Time and Sea Mileage

MADRID — The computing of time and distance at sea in Columbus' day was not very precise. Given a good wind on the quarter, a caravel such as Columbus' Santa Maria made 12 to 15 "miles" in an hour, as measured by a boy who turned a sand glass every half hour.

* * *

A day's run was from sunrise to sunset, regardless of the time of year. Presumably roosters were carried, for "cockgrow" signaled "the third part of the night."

U.S. meat production in 1955 was 26 billion pounds.

## No Greybeards Here

ALBUQUERQUE, N. M. She says she'll set up special facilities "if we get enough requests."

# Coats Conceal, Dresses Reveal

By OLGA CURTIS

NEW YORK (INS)—Fashion designer Pauline Trigere thinks the secret of fall style comes in two parts this year: Coats big enough to hide in, and dresses shaped so they don't hide a thing.

★ ★ ★

The prize-winning designer doesn't mind using drapery, bloused backs or any other new trend. She merely insists they be used to outline what's underneath.

**For instance, Trigere has a bloused jacket that blouses right down to the hips — but also manages to wrap the body. As for higher waistlines, Trigere has them — done with shaping darts that emphasize the natural figure and the natural waist.**

Trigere doesn't mind high-front dresses, either. She'll give you a high neck or a scarf-wrapped throat, and then quietly cut a keyhole in front or bare most of the back.

Coats are Trigere's big effort. She makes them big, really big, with buttons the size of saucers and revers that drop to the knees.

She also showed fashion editors attending the 27th National Press Week huge embroidered collars, big enough to brush the eyelashes or to use as hoods.

★ ★ ★

For evening, Trigere favors the floor-length slinky black dress. She likes it worn with a dramatic full-length cape.

ROMANTIC REVIVAL

Famed designer Karen Stark of Harvey Berin favors the "romantic" revival of drapes, sashes and high waists.

★ ★ ★

She fits satin bands into dresses a few inches above the normal waistline, but cuts sashes down into half-sashes that show only at the sides, and then fall into long side streamers.

*Silk serge and white satin are combined for a black and white "guimpe" dress from Herbert Sondheim's collection. The V'd yoke front is repeated in a buttoned kerchief back. The white satin sleeves are designed with soft, circular folds.*

*Designed by Karen Stark for Harvey Berin is this short black dinner and evening dress in tucked silk satin with insets of Alencon lace. A shoestring tie forms at the natural waist.*

*Flat bows mark the natural waistline for a short dinner dress of French blue silk satin. Another bow peeks from the back of a keyhole neckline. From the William Fox collection.*

*Elegant is the word for Pauline Trigere's red burlap-tweed coat. Pierrot side buttoning is a feature of the coat.*

## 'My Fair Lady' Designer Continues With 1912 Look

### Special Group of 12 Evening Dresses Sums Up Whole Nostalgic Revival

NEW YORK (INS) — Cecil Beaton, the man who launched the "1912" fashion trend with his costumes for "My Fair Lady," has dipped into the same period for offstage clothes.

• • •

Beaton has done a special group of 12 evening dresses for Samuel Winston's fall collection which sum up the whole nostalgic fashion revival:

**Pegtop hobble skirts, kimono tops, draped fabric overlays, wrapped midriffs and multi-color and multi-fabric combinations.**

The dresses, shown today to the fashion editors attending the 27th National Press Week, are pure 1912. They look like the tea gowns fashionable ladies once wore, both in color and cut.

• • •

One dress of black crepe has a midriff and bodice of draped orange and pink, with huge chiffon panels of orange and pink drifting over the shoulders. The black skirt has a side drape and a hobble hem.

HOBBLE SKIRT

Another dress of lavender satin also has a hobble skirt, plus an overdrape of green lace. The midriff is wrapped in a cummerbund and sash of lavender satin.

• • •

This color combination is also used for a pale green lace dress with an overlay of lavender satin. One band of the satin goes over the left shoulder, and the midriff is again wrapped in a satin cummerbund and sashed to the side.

**Beaton, who uses as many as four fabrics and colors for each dress, likes combinations vivid enough to be seen from the second balcony.**

The English designer, for instance, has one gown that starts with white satin. The satin is covered with white lace from elbow-length sleeve to knee.

The lace is then covered with black velvet flower embroidery from bosom to knee. The black embroidery is then sashed high over the waist in a huge cascade of pink satin. The original white satin shows only in a dramatic hemline flounce from knee to instep.

ALSO FAVORS 1912

Samuel Winston's regular designer, Roxanne, also favors 1912, but Roxanne adapts the romance of that period into clothes with a '56 flavor. Her pet idea for fall is a sheath with an uplifted line, softened and eased with 1912-type panels overlays and fabric contrasts.

• • •

Roxanne, who designed the main Winston line, particularly likes black velvet or black satin set into black silk both for eye-appeal and the higher waistline look.

**One dress has velvet bands climbing from the hips to just under the bust. Another has double velvet bands stitched under the bust in front and dipping into waistline bows at back.**

Back interest is important in Roxanne's designs. There are floating back panels, low-back V cuts on high-fronted cocktail frocks, and some bloused backs gathered from the shoulders into a neat bow just under the shoulder blades.

• • •

Roxanne's skirts have apron overlays at front or sides, and she likes the effect of a pegtop hobble, too. All her skirts, even the "hobbles," have plenty of walking room.

BACK INTEREST

The high-waisted, back-interest costume was also featured today by Herbert Sondheim. This fashion firm, known for neat costumes, makes them especially young-looking for this fall with slim high-waisted dresses, and tiny chopped off jackets.

*This black and white tweed three-piece suit with lace and sequin ascot has a fitted jacket outlined in black braid. Under it is a black jersey Porter's vest with self-buttons. Designed by Roxanne for Samuel Winston.*

## Elegance Demanded for Autumn

### Milady Expected to Dress to the Teeth and Act Refined

By DOROTHY ROE
AP Women's Editor

NEW YORK (AP)—You've got to be elegant this fall.

You've got to dress to the teeth, act like a lady and perhaps learn to swoon with the grace that grandmother understood so well.

That is the theme that has been impressed upon the American fashion press this week, during a series of previews of New York fall styles, all of which have been

*There Are Five Pages in Today's Women's Section*

bitten by a nostalgic bug producing large rashes of ladylike elegance in the 1912 manner.

Pauline Trigere, the transplanted French designer who is now happily American, hits a high note of suave, understated magnificence in her collection of great-lady fashions. There is nothing flagrant or overdone, but there is definitely a new air of formality.

An example is the almost shamelessly simple collarless suit of red velour, which manages to caress the figure with subtle suggestion, achieving a nostalgic look for no good reason except possibly the prim little mink choker worn with it, or the way the model wears her hair, in buns over each ear.

• • •

Ben Zuckerman, master of the tailored touch, softens the line this season with Empire suggestion, feminine detail and lush fabrics. His suits, while still unmistakably tailored by a master hand, have a look of fragility that is the mark of the new season's female.

## Turn Gray Hair Into Big Asset Toward Beauty

CHICAGO (INS) — Gray hair needn't give a woman that "rocking chair look."

So says Carol Douglas, beauty consultant for a manufacturer of home grooming products.

As a result, Miss Douglas has compiled a list of recommendations for women with gray hair. Here they are:

**1. Add color to your wardrobe, concentrating on pastels and shades of blue. Clear, true reds also deserve a place in your wardrobe. Avoid beige, taupe, yellow and other colors that do not contrast with your hair and skin.**

2. Never wear black near the face — always add white or a touch of color at the neckline. Coordinate black, gray or navy outfits with colorful accessories.

3. Brush your hair and massage the scalp regularly because graying and white hair tends to become dry and lifeless looking. It may be necessary to shampoo every few days to keep hair shining, clean and fluffy.

**4. Experiment with different hairstyles, but stay away from extremes. Upswept lines are best because they give a more youthful appearance.**

5. Choose a warm, rosy face powder in a shade deeper than your skin. Avoid beige or yellow shades of powder that tend to make skin look pale and sallow.

6. Rouge and lipstick shades should be vivid and clear. Coral, red, pink and rose are best.

## F'rst Birthday to Be Celebrated By Fellowship

Mrs. Lowell Mount presided at the Tuesday evening meeting of the Christian Women's Fellowship of the First Christian Church.

• • •

The worship service was conducted by Mrs. Harry Kunse and the program was presented by Mrs. Allan Hersee.

**Delegates were named to the Business Women's Guild Retreat being held at Crystal Lake this weend.**

The first birthday of the World Christian Women's Fellowship will be celebrated in August, and announcement was made of the international convention being held at Des Moines, Iowa, in September.

• • •

Following the business meeting, refreshments were served by members of the executive board.

## *Nip Bad Habits During Teen Years*

Many habits are set in the teens. They will last for life. They may be beneficial or harmful. The choice is up to the girl herself.

Breaking or establishing a habit takes a couple of months of concerted effort. Many girls help themselves by paying a piggy bank each time they offend or by rewarding themselves if they hold out for a week.

• • •

Typical teenage habits that a girl ought to go to whatever trouble is necessary to break include:

**Twisting or chewing strands of hair. This may get by in a high school classroom, but it will surely cause trouble in an office or in college.**

If this seems too hard to break, a girl ought to have her hair cut off in the shortest possible style until she learns to keep fingers and teeth out of it.

• • •

Rubbing, touching or picking on the face with finger tips. Since fingers get dirty all day long, this habit is a sure introduction to skin trouble.

**A woman should never touch her face unless she's washed her hands or is applying make-up or is actually washing the face.**

Scratching the scalp. This one, if it seems to be impossible to avoid, should be treated where it starts, at the scalp. A beautician, dermatologist or allergist ought to prescribe for an itchy scalp.

First Lady of World Communism

# Britain Gets Good Look at Russia's Woman Dynamo

By CHARLES H. KLENSCH

MOSCOW (INS) — The Soviet Union exported temporarily to Britain today a deceptively soft-spoken and matronly looking female dynamo who has devoted 32 of her 46 years to the Communist Party.

As a reward for those years, Ekaterina Alexeevna Furtseva could, if she wished, relax in the title of "First Lady of World Communism."

**But judging by her past, "Katya," as she is known to her friends, will do little relaxing either on her visit as the head of a Russian delegation invited by the British Parliament, or on her return to her post in Moscow.**

Furtseva — the Russians don't use Mrs.—has been for the past two years the first secretary of the Moscow City Committee of the party. One of her predecessors was Nikita S. Khrushchev, now the nation's No. 1 Communist.

* * *

More importantly, Furtseva is a candidate member of the Presidium of the Central Committee of the party—the Soviet Union's government - within - a - government. She's the first woman to make the grade.

**NO STANDARD TYPE**

But this strawberry blonde doesn't fit the standard picture of a lady Communist.

* * *

She's a matronly 5-foot-5 who wears no makeup and prefers dark tailored suits and frilly, feminine blouses. She wears her wavy hair combed back with a part on the left side. She plaits it into a pigtail and curls it in a bun in back.

**When chatting with foreigners at Kremlin receptions, she talks softly and smiles frequently. You catch a gleam of golden bicuspids as she laughs. Her blue-gray eyes twinkle.**

But Furtseva on the hustings is a tough, Communist agitator — lashing out at heel-draggers among the capital's 430,000 card-carriers.

* * *

Between meetings and her administrative chores, she's off inspecting factories, laying cornerstones and representing Soviet women on trips abroad.

At the same time she manages to bring up her 14-year-old daughter, Svetlana, a Moscow high school student.

Furtseva's husband, Nikolai P. Firyubin, is an important cog in the Soviet foreign service. He was assigned to the strategic post of ambassador to Belgrade last August.

**Furtseva was born in 1910 in Vyshny Volochek, a town on the Novgorod - Leningrad highway about 300 kilometers northwest of Moscow.**

Her father and mother worked in a textile mill in the town. Her mother supported the family after citizen-soldier Alexei Furtsev died at the front in 1914.

Blonde, pigtailed Ekaterina Alexeevna finished grade school at 14 and followed her mother to the textile mill. She joined the infant Komsomol the same year, 1924.

Aside from her job and her Komsomol activities, young Katya also attended night high school. Taking on all jobs in sight became a habit.

It propelled the handsome blonde from the provinces to the Kremlin itself.

* * *

In 1930, Furtseva joined the Communist Party. The Komsomol sent the 20-year-old as a troubleshooter to Kursk, 450 kilometers south of Moscow, and then to Feodosiya, a small Black Sea port in the eastern Crimea.

**In 1936 she was recalled to Moscow again. She worked on student affairs for a year and then was sent to the Lomonosov Chemical Engineering Institute of Moscow to learn a profession and head the party organization at the school.**

Furtseva stayed on at the institute for a couple of years after graduation in 1940 and then stepped into her first important party post, a secretary of the party organization of Moscow's Frunze district.

Meanwhile, there was a war going on, she had married and her daughter was born.

**BROADER HORIZONS**

The postwar world opened new fields for a woman with ability and drive. She was sent to a world women's conference in Paris in 1945 and a Bulgarian women's congress in 1947.

Her big-time party life began at 40, when she was elected second secretary of the Moscow party organization in 1950. In March 1954 her boss moved up a notch and she stepped in.

The gal who couldn't get too much to do took on more and more.

**In the past two years, in addition to her regular duties, she has accompanied Khrushchev and other Soviet leaders to important conferences in Prague and Peiping.**

Furtseva first caught the headlines in the Western world when Khrushchev singled her out at the 1955 May Day parade and invited her to the top of the Red Square Tribune.

Last fall she was in the news again after turning up in a formal gown and becoming the belle of the ball at the traditional hoedown in the Kremlin on the anniversary of the revolution.

President Klement Voroshilov called for a polka and led Furtseva out for the first dance in historic St. Vladimir Hall.

**MORE WOMEN**

At the February congress of the party, First Secretary Khrushchev complained:

"A number of party and legislative bodies (have been) . . .timid in promoting women to executive jobs. Very few women hold important party and government posts — specifically as heads of party committees, chairmen of legislative councils and managers of industrial enterprises and . . . farms."

**It seems likely that it will be Furtseva's job to see to it that Khrushchev's "suggestion" about getting more women into top jobs is translated into action.**

Perhaps she will organize a "women's bureau" of the Central Committee for this purpose.

Khrushchev could hardly have found a more capable gal for the job.

## *Temperature Is Important in Ironing Clothes*

MADISON, Wis. (INS)—In giving your clothes a "well pressed" look, gear your ironing temperature to the material.

Leonore Landry, University of Wisconsin clothing specialist, says even the old standby, cotton, has new finishes that mean different pressing temperatures. For the polished cottons with a shiny finish, press on the right side but the iron should not be as hot as it normally is for cotton.

To bring out the slub or textured finish of a cotton or for other materials with a dull finish you want to retain, press on the wrong side.

Most synthetic fibers and blends, said Miss Landry, require an iron temperature no higher than that for rayon. Nylon, orlon and dacron take only the low heat.

The clothing specialist said women pressing an all-dynel material should never use a steam iron because the moisture lowers the melting point of the fibers so even a low setting will be too warm.

## Hall Family Holds Reunion at Picnic

The Hall family reunion was held Sunday at the home of the William Davidsons on Eastwood drive, beginning with a picnic dinner. Mrs. Jennie Hall of Green street was the honored guest at the gathering.

During the afternoon games and swimming were enjoyed, and supper was served at the John Graham home in LaSalle Park. Guests were present from Milford, Rochester, Auburn Heights and Pontiac.

New Designs Are Chic

## *Shower Curtain Glamor*

ATLANTIC CITY, N. J. (INS) —A shower curtain can be more than just a piece of waterproof cloth—it can be the key to your bathroom decor.

Some of the latest curtains, displayed at the 25th National Housewares Manufacturers Exhibit, prove that shower curtains can be both chic and cheery.

**Take, for example, the hand-printed, heavy curtain designed by Florence Isles. She used Victorian period circus performers for her motif in a gay print with lots of girls in tights.**

The color range is wide and keyed to the latest in towel shades —blue, green, yellow, pink, turquoise, gray, black and white or champagne.

People with a yen for faraway places will go for the travel poster print that's new in shower curtains. Each exotic place name—like Italy, Spain and India—is coupled with a picture that represents the land.

This one comes in green, blue, yellow, pink, black, black and white and aqua.

**No home furnishings story is complete these days without an Oriental note, and this includes bathrooms. A different and delicate looking curtain is inspired by the Japanses Shoji screen.**

It features black-outlined squares with delicate leaf patterns inside and is translucent. The curtain comes in seven color combinations.

## Protect Yourself With Adequate Beauty Aids

**If you're of the do-it-at-home beauty school, there are some definite precautions you should take when doing the more complex projects.**

* * *

This particularly applies to hair coloring, home permanents and nail enameling.

**The first is to protect yourself adequately. You may need rubber gloves, a plastic bib or shoulder covering, several towels, a plastic or rubber mat for a table, old clothes to wear.**

Since these pieces of equipment may be more or less damaged by any of these processes, it's best to use old or worn towels, etc. They should then be washed or wiped off and saved in a separate place until the next time they're needed.

**WHEN ALONE**

It's best to do all such activities after the kids are in bed and in a location away from that where food is prepared, even though the kitchen may seem like an easy place to do hair coloring.

**If any of the instructions say "Keep away from eyes (or ears, or mouth) and in case of accident neutralize with . . ." be sure you've got the first aid necessary on hand before you start.**

Be sure that rubber gloves used in hair coloring aren't the ones you wear for washing the dishes.

## Townsend Still Thrills Womenfolk

SOLIHUL, England (INS)—Group Capt. Peter Townsend may have loved and lost Princess Margaret but he's lost none of his charm for the ladies.

* * *

Townsend held a news conference at the Rover auto plant near Birmingham Wednesday to tell of the 60,000-mile world tour he itends to take by automobile.

**He said he's received an "extraordinary variety" of offers from would-be companions. One, he said, was from a middle-aged woman who said she'd be happy to sleep in the car if only he would take her along.**

Townsend, who intends to resign from the Royal Air Force before setting out in his specially built Landrover car, apparently intends to make the jaunt soolo. He s is "quite happy being alone."

* * *

He hinted to newsmen at the Solihul conference that he might tour Red China. Reviewing his projected itinerary, the slim air hero mentioned Hong Kong and added:

**"Then there is a possibility which I leave to your imagination. But if it doesn't come off I will go straight on to Japan."**

Townsend said his post-tour plans are uncertain but that, at present, he has "no intention" of coming back to England.

# New Interests Will Prevent Aging

By JOSEPHINE LOWMAN

Many well-qualified people believe that keen mental interest and hard mental work have a direct effect on delaying physical aging.

More and more is being learned about the correlation between the mind and emotions and body. Usually, the person who is youthful physically for his age is vital mentally.

**It has been established that it is not the hard work which ages and kills us, but the emotional factors which go along with it. Strain and tensions, unhappy surroundings, dissatisfaction with work, close contact with those who irritate one, hurry and worry; all of these are the enemies which lead us to early deterioration.**

*Dissatisfaction with work is one of the enemies which lead us to early deterioration.*

What can we do about this? We know it to be true but we are all necessarily subjected to strains and stresses part of the time. We can control our atmosphere as much as possible and also our emotional reaction to this atmosphere.

We also can see to it that our lives do not fall into ruts in physical activity, emotions or in thoughts. We can find an interest which revitalizes us.

**PEP RESTORED**

We can be in a seeming state of exhaustion, but if some keen interest enters the scene or some wonderful surprise happens to us, we may find ourselves bounding about. It is a fact that one can work for long hours if the work is interesting enough and feel only healthy fatigue afterward.

We all need new goals to shoot for, a new reaching out toward future plans which are translated into daily life.

**Somewhat the same thing is true of physical activity. Pushing oneself past one's endurance is aging and can even be fatal, but far too many people have far too little physical activity in their lives.**

It seems that boredom and "rocking chairitis" are two factors in aging which are well worth avoiding as we would the plague.

If you would like to have my leaflet "Individual Happiness" send a stamped, self-addressed envelope with your request for leaflet No. 65 to Josephine Lowman in care of The Pontiac Press.

## Real Life Fails to Match Hopes of Miss Universe

LONG BEACH, Calif. (AP)—How real is the pot of gold and fame at the end of the Miss Universe rainbow?

* * *

With visions of the glamor and riches of movie stardom in their pretty heads, 74 beauties from throughout the world today start down the glittering trail that will lead to the crown.

They come from 32 foreign countries and 39 states and three cities of this country.

After nine days of competition in face and form in the fifth annual International Beauty Congress, the fairest of all will be acclaimed Miss Universe.

Universal-International studios will place Miss Universe, Miss U.S.A. and the runner-up in each of those categories under six-month contract. And it may sign others who look promising.

* * *

What has happened to the four previous winners of the title?

First Miss Universe in 1952 was the Finnish beauty Helena Kuusela. Not long after winning, she went to Manila to make an appearance at an international exposition. There she met Virgilio Hilario, a wealthy young Filipino. They were married soon after in Tokyo.

* * *

In 1953, Christiane Martel, 18, a fiery French brunette, walked off with the crown. She wed Ronnie Morengo, Stockton, Calif., department store heir, in January 1954, but their marriage lasted only 74 days. After completing her six-month film contract, she went on a night club tour of Mexico and South America. Little has been heard of her since.

The 1954 winner was Miriam Stevenson of Winnsboro, S.C., who was admired as typifying the fresh beauty of a country girl. Her interest in a movie career evaporated in a few weeks and she went home to finish college.

* * *

Romance almost grabbed the 1955 Miss Universe, Sweden's Hillevi Rombin, before her chance at a film career got under way. She had been given a six-word role in "The Benny Goodman Story."

With filming about to start, she flew to Sweden to see her fiance. But she returned to Hollywood unmarried and is still under contract to Universal-International. She is just back from a personal appearance tour in South America.

## Kangaroo Skin Pockets Fight Winters' Cold

NEW YORK (INS) — The girl with cold hands can solve the problem next fall by buying a coat with kangaroo pockets.

* * *

These are pockets big as a kangaroo's pouch which act like a built-in muff: Put your hands inside and they disappear practically up to the elbow.

This cool weather idea for keeping hands both warm and hidden was thought up one hot day by coat-and-suiter Burt Haft.

**The new oversize pockets in his originals have 12-inch openings and are placed at tummy level. There are two practical reasons for the novel pocket style: They really do provide the over-the-wrist warmth of a muff, and you don't have to raise your arms and shift your handbag to reach into your pockets.**

Haft is using long vertical slit openings for pockets set alone or between band trimming on straight, sleek black wool coats. He also has a sporty beige coat with kangaroo pockets that features double compartments for hand-warming.

* * *

The muff-size pockets are covered with button-down muff-like flaps—so when your pockets are stuffed full you can still warm your hands under the flaps.

# Imagination Helps You Vocationally

By ANNE HEYWOOD

Lack of imagination can hold you back in most areas of life — from cooking to makeup, from conversation to dancing. But most of all, it can hold you back vocationally.

"I'd like to work with people in an advisory, not selling, capacity," a woman told me recently, "but I haven't my degree in psychology or personnel work, so there isn't a chance."

But she was wrong, of course. A little imagination, plus a little investigation, would have opened up all kinds of possibilities for her.

For example, a medical secretary has a wonderful opportunity to use "people" skills. Yet this is a job which too many women and young people fail to consider.

• • •

Annice Rimington of Peoria, Ill., is a very successful medical secretary and a very interesting woman to boot.

VOLUNTEER WORKER

I heard about her because of the wonderful volunteer work she does for American Heart Fund, the Red Cross, and other organizations.

So I wrote and asked her to tell me a little about her job, and about the whole field of medical secretarial work.

Here's what she says:

"The work is very interesting — no two days are ever alike. There is no dull routine . . . Every time the phone rings you never know whether it will be someone making a routine appointment or a sudden emergency.

"It requires a lot of patience and understanding of people. A sense of humor is also very helpful.

"Ill people are not always consistent. When they are ill, they tend to think only of themselves and expect immediate attention regardless of how many emergencies you may have waiting for the doctor.

PLENTY OF WORK

"There is plenty of hard work, but there is an outlet for all your interest in people. There is drama and a certain satisfaction that I never found in any other work."

If you are interested in this field, send me a stamped, self-addressed envelope, and I'll give you a list of books which will help acquaint you with it.

## Is Corsage Presented to Honoree?

### Luncheon Hostess Is Not Obligated to Give Flowers

By EMILY POST

"I am giving a luncheon for a friend who is soon to be married. I would like to know if I am expected to provide her with a corsage to wear on this occasion. I have had conflicting opinions on this and would like to be set straight."

Answer: An obligation such as this does not even exist. It is never necessary to give the guest of honor flowers at a lunch or dinner party.

"Dear Mrs. Post: For the past several months I have been taking instructions to become a Catholic. The priest who has been instructing me has been very kind and has given me a lot of his time.

"Even though this may be part of his duties, I feel that I would like to do something for him to show my appreciation. Would a present be in order? If so, what would you suggest?"

Answer: In becoming a Catholic you are giving him the greatest present possible — and nothing more is necessary.

"Dear Mrs. Post: Perhaps you can help me. I have always been curious to know the meaning behind throwing rice at the bride and bridegroom on their wedding day, and also the reason for tying old shoes on the back of the bridal car. I would appreciate it if you could enlighten me on these matters."

Answer: The throwing of rice is supposed to bring them good luck in raising a large family. The old shoes and tin cans are a vulgarity that has never been in good taste.

"Dear Mrs. Post: When invited to dinner at the home of a friend who has no help, is a guest expected to offer to help with the dishes?"

Answer: It would be inconsiderate not to do so.

Delicate curtains can be laundered in a washing machine if you tie them up in a pillow slip.

## Ice Cream Cone Dresses Up in Sundae Garb

There's nothing new about an ice cream cone? That's what you think!

• • •

Ask any young man on a hobby horse or in a cowboy suit, and he'll tell you an ordinary ice cream cone is old hat. These days a cone is all fancied and prettied up—almost like a sundae. Take your choice of chocolate sprinklers, cherries, shredded pineapple or crushed peanut topping.

You may make the ice cream cones drip - proof by wrapping them with ready-cut crepe paper icicles that make up into a daisy pattern.

An unusual combination is the crushed peanuts ice cream cone. One can of peanuts (about 7½ ounces) will cover about ten good scoops of ice cream.

• • •

The daisy wrapping may be secured with strips of colored tape and the icicle "petals" can be peeled off banana - style as the youngster eats his way down to the cone. There'll be no sticky fingers, either, with this cone in the daisy.

Smoke, and the world smokes with you; swear off, and you smoke alone.

## Walking Shorts No Longer Fad for Menfolk

Walking shorts are walking away with the honors among men's summer fashions. Once regarded as just a minor fad, they are headed for record popularity this year, reports the National Cotton Council.

• • •

Cotton is the preferred walk shorts fabric because of its fresh, cool comfort and wide variety of patterns. Cotton sport shirts in matching or contrasting colors are the preferred companions for walk shorts.

FOUR STYLES

At least four different shorts styles have been introduced for 1956, ranging from a new Ivy League type to the traditional Bermuda shorts. Most popular still are the Bermuda-length shorts, with an 11-inch inseam; these extend to the knees. More daring dressers are offered Jamaica-length shorts with a 9-inch inseam.

Chino, sailcloth, rough-textured suiting, madras plaid, stripes, checks and cords are among the cottons receiving most attention in walk shorts fashions.

Many of these fabrics also appear in sports shirts, which this year show heavy emphasis on striped patterns and Far Eastern themes. Stripes are horizontal, vertical or even angled, and bold in color contrast.

Dab a little nail polish on your house key and you'll be able to distinguish it from the others in your purse in the dark by feeling the polish.

# Malayan 'War' Enters 9th Year

## Commie Rebels Seem Weak, Still Clash With British Occasionally

KUALA LUMPUR, Malaya (AP) — "Two water buffaloes killed and one farmer wounded. No terrorists sighted."

That was the report of a patrol of British soldiers who walked out of the Malayan jungle the other day as Britain entered the ninth year of its war upon Communist rebels.

The soldiers, in their 20s, had spent days hacking their way through underbrush or burning leeches from their skin. Their report was pretty much routine for the "emergency" that each day seems to lose more of its urgency.

The Communists, once a force estimated at 5,000, are supposed to number 2,500 to 3,000 now. They tangle with British forces only occasionally.

This is an expensive war for Britain — about three million dollars a month. It is also unpopular at home. Britons sense the decline of their influence in Malaya. It is hard for them to send out young men, mostly draftees.

The average Malay seems tired of restrictions too.

Roadblocks still dot the highways. Curfews, imposed in 1948, are strictly observed. No cars can be driven between towns after dark. Malay guards still search cars and trucks — particularly those belonging to Chinese — to make sure no food is being carried to the terrorists.

Chinese squatters, put into new villages in 1950 and restricted in areas they can farm, hold a smoldering contempt for the Malay authorities.

• • •

Today the Malayan Communist party finds two factors working against it.

Armed rebellion has been downgraded in the context of world Communist strategy. And the rapid grant of Malayan independence — due next year — has cut the ground from under the party's feet.

While Britain will give up its authority here, it will continue to have an interest in this area. It has been negotiating for retention of military bases for a commonwealth strategic reserve.

The British and Malays seem hopeful of declaring an end to the emergency within 18 months.

# Sentence Four in June Robbery

## Local Gang Members Given 3-15 Years for Post Office Crime

Four local members of a gang known as the "Black Angels" were sentenced to terms of 3-to-15 years at Jackson prison Monday after being found guilty of the June breakin of a Livingston County Post Office in which $1,000 in cash was reportedly stolen.

• • •

Sentenced were: Milton W. McDowell, 19, Elizabeth Lake Ave., and Charles L. Cone, 19, 5045 Cheyenne St., both in Waterford Township; Harold L. Rice, 21, and Harold C. Hammond, of Milford.

**The group was sentenced in the Livingston County Circuit Court at Howell, according to Livingston County Prosecutor Wilfred Irwin. He said the men carted a safe out of the building and dumped all its contents in a nearby river after taking the money.**

All four were arrested in Lansing June 21 in connection with several breakins in Eastern and Central Michigan. Irwin said he believed other area departments would be holding detainers on the quartet. About seven of the breakins were said to have been committed in Oakland County in early June.

Five other gang members are still believed to be at large.

• • •

The gang was allegedly organized a year ago. Its members wore tight-fitting black costumes during night jobs, it was reported by the Brighton State Post. Troopers there apprehended the men on the Post Office larceny.

# *Prairie Schooner Carrying Couple Across Country*

HANNIBAL, Mo. (AP) — An old Prairie schooner drawn by two white mules pulled into Hannibal yesterday, bringing the Elfgren family of eight and their pet dog.

The Elfgrens, who travel about 10 hours and 25-30 miles each day, planned to continue today their trip from East Killingly, Conn., to Lincoln, Neb. They still have about 400 miles to go.

Mom, Dad, six children and the dog left East Killingly three weeks ago.

Ernest Elfgren, a machinist, says he expects to reach Lincoln about Aug. 1. They plan to settle and start a chinchilla and pony farm in Nebraska.

## Holy Smokes! $40 a Month for Cigarettes

TOPEKA, Kan. (AP)—A 13-year-old Topeka boy told officers he broke into a service station because his $40-a-month allowance doesn't keep him in cigarettes.

He was turned over to the juvenile authorities. His name was not divulged.

Deputy Sheriff Don Becker quoted the lad as saying he usually spent his allowance in about two days on swimming, movies and candy. The money was provided by his grandmother, with whom he lived.

# THE POWERHOUSE

By Jimmy Powers

Assigning weights for important races is one of the routine tasks for any racing secretary.

**Jimmy Kilroe has to do it in New York; Charley McLennan, Horace Wade and Francis Dunne do it in Florida. Fellows like Ty Shea, Fred Burton and Webb Everett are faced with the necessity ever so often.**

John Turner, however, has one of the big problems of the current racing season. He is the first secretary to be called upon to weigh Nashua, the world's greatest money winner and Needles, the No. 1 star in the 3-year-old division. The two may meet in the $100,000 Monmouth Handicap Saturday.

**WEIGHT FOR NASHUA A BIG PROBLEM**

How will Turner handle the situation? That is a question owners of 32 eligibles for the Monmouth Handicap want to see answered—to say nothing of thousands of turf followers who are aligned in either the Nashua or Needles camps.

**Normally a 3-year-old does not attempt to compete with older horses at this stage of the season, usually waiting until late fall.**

However, in this case, Needles is on the grounds and awaiting the handicap for his next start.

★ ★ ★

Officials were assured earlier that Nashua would be pointed for the first $100,000 stakes in the track's history.

**Under the scale of weights for July, in New Jersey, 3-year-olds carry 114 pounds when the distance is a mile and a quarter, while for horses 4 years old and older, the scale is 126 pounds. These weights, naturally, form the starting point of Turner's handicap.**

There is nothing to stop him from assigning an outstanding performer weight higher than the scale, nor is there anything to keep him from dropping a few pounds off of horses who have not quite measured up to the leaders in their division.

★ ★ ★

Nashua, with well over a million dollars in earnings to his credit to gain the top money-winning position from Citation, rates as the top handicap performer in the East; if Swaps were around the story might be different.

So, Nashua doubtless will get first ranking among the older horses when Turner sits down to turn out his weights tomorrow.

**HEADS SYNDICATE**—A syndicate headed by Fred Knorr, radio executive, reportedly holds the inside track among eight groups who have entered bids for the Detroit Tigers.

# Briggs Sisters Hold Aces in Bengal Sale

DETROIT (AP)—An 11-man syndicate headed by two Michigan radio executives and embracing such famous names as Crosby and Woolworth today was one full stride ahead of three other groups still in the running for the Detroit Tigers.

A good-looking, 42-year-old Detroiter whose company operates four Michigan radio stations heads the syndicate. He is Fred Knorr, a business associate and close friend of Walter O. (Spike) Briggs Jr., the Tigers' president.

Others in it include singer-actor Bing Crosby; John Fetzer, president of Fetzer Broadcasting Co., operator of several radio stations in Michigan and other states, and R. F. Woolworth of the Woolworth dime store family and a member of Stone & Webster, New York investment firm.

Their bid for the baseball company and Briggs Stadium is five million dollars, a quarter of a million dollars less than the bid of a syndicate headed by Bill Veeck and under two other bids submitted by movie Producer Bob Goldstein and Toronto sportsman Jack Cooke.

Briggs, who with his sisters inherited the Tigers from their late father, said he has altered the plans for disposing of the franchise.

Briggs said all along that the "top three or four bids" would be sent along to American League President Will Harridge and Commissioner Ford Frick for their judgment to "avoid any confusion." That way, he theorized, the "acceptable" bidders then could be studied again by trustees of the estate of the late Walter O. Briggs Sr.

* * *

But after an informal conference with Harridge and Frick during the All-Star game in Washington earlier in the week, Briggs changed his mind.

"We had a chance to go over all the prospective bidders," said Briggs. "Actually, we had narrowed it down to four and all were discussed. All of us agreed in Washington that it would be best for the Tigers' group to select one bid and then have the baseball people examine it."

For days there have been reports that Knorr's group has the inside track. Briggs holds about seven per cent of the stock in Knorr's radio company.

"It's pretty obvious what I think of him," said Briggs. "I wouldn't have invested money in his outfit if I didn't have an abundance of confidence in the man. In my book he's a pretty wonderful fellow."

* * *

Briggs and other members of the club's board of directors have spoken often of their desire to place the franchise in the hands of Detroit people who would operate it in much the same manner as did the elder Briggs and as Spike has run it.

"This man (Knorr) has a fine Detroit background," Briggs added. "He's a young man with progressive ideas. I think he would make a fine baseball executive."

Although Briggs insists "There is no inside track," there is no doubt that Knorr's group is the choice of the personable Tiger president—who would remain with the Tigers in an executive capacity should that group take over Oct. 1.

* * *

But Briggs has but one voice in the group that sometime next week will select one bid. This is the board of trustees of the senior Briggs' estate. There are four trustees. The others are Harry Sisson, the club's secretary and business manager; Pete Monahan and Florence McCreadie.

A committee consisting of Briggs, Sisson, and Charles T. Fisher Jr., treasurer, will select the bids to be put before the Briggs trustees. It appears likely the top money bid, submitted by the Veeck group, and Briggs' choice, the Knorr syndicate, will be the "candidates" upon which the trustees will decide.

## Tiger Bidders

DETROIT (AP)—Here is a list of the 11-man syndicate which has an inside track on the multi-million dollar bidding for the Detroit Tigers:

Fred Knorr, president of the Knorr Broadcasting Co. which operates four Michigan radio stations.

* * *

John E. Fetzer, president of Fetzer Broadcasting Co., operator of several Michigan and Nebraska radio and television stations.

Singer-actor Bing Crosby.

R. F. Woolworth, member of the F. W. Woolworth dime store family and a member of the New York investment firm of Stone & Webster.

Kenyon Brown, president of Vitapix Corp. of New York and Hollywood which designs television programs.

George L. Coleman, banker and manufacturer of Miami, Okla.

Joseph A. Thomas, member of the Lehman Bro. investment firm of New York.

Harvey R. Hansen of Detroit, wholesale lumber businessman who controls some West Coast mills.

William H. McCoy of Detroit, associate general agent for the New England Mutual Life Insurance Co.

Paul A. O'Bryan, Washington, D. C., businessman and attorney with the firm of Dow, Lohnes & Alvertson.

Carl Lee, managing director of WKZO and WKZO-TV, in Kalamazoo, Mich., one of the stations operated by Fetzer's company.

### On Eastern Swing

## Tigers on 12-Game Tour

WASHINGTON (AP)—The Detroit Tigers open a 12-game road tour of the East with a game against the Washington Senators tonight.

They'll also play Baltimore, New York and Boston before they return to Briggs Stadium July 24 for a stretch of home games that will carry them into mid-August.

**If the Tigers are going to tighten their hold on 5th place in the American League standings they'll have their best opportunity between now and Tuesday when they face the New York Yankees.**

The club should be pretty well rested after the three-day all-star game break. And three games against the 7th-place Senators and a double header Sunday against the 6th-place Baltimore Orioles could widen the one-game gap Detroit now holds over Baltimore.

**Then, too, something should be left of the impetus of last weekend's 53-hit barrage that smothered the Chicago White Sox.**

Taking three straight games from Chicago cast the Tigers in the unaccustomed role, for this season anyway, of a dangerous opponent.

Billy Hoeft, with a 10-6 record for the season, was scheduled to open for Detroit tonight.

## Tebbetts Sees Trouble From Phils for Reds

CINCINNATI (AP) — These major league managers can be timid souls.

Manager Birdie Tebbetts came home yesterday from the All-Star game with his Cincinnati Redlegs leading the National League by a game and a half and after several of them had been big factors in the National League's 7-3 victory over the American Leaguers.

What did he have to say about a series opening tonight against the seventh - place Philadelphia Phils?

"The Phils are hot now. The coming series scares me to death. They will have (Curt) Simmons and (Robin) Roberts in two of those games. It will be a real test."

## Machen Scores Smashing Kayo

### Unbeaten Fighter Sends Nino Valdes to Canvas in 8th Round

MIAMI BEACH, Fla. (AP) — Unbeaten Eddie Machen, his prestige heightened by a smashing knockout victory last night over the Cuban giant, Nino Valdes, apparently will be in no hurry to go after bigger game.

* * *

Machen, a quick-striking opportunist from California, bent Valdes like a jackknife with a thudding right to the stomach in the eighth round. Ten seconds later Nino, lying on his side, was counted out for the first time in his career. The bout was scheduled for 10 rounds.

Already the 10th ranking heavyweight, although he has had only 15 professional fights, Machen undoubtedly advanced a notch or two in the ratings on his sparkling victory over Valdes in the nationally televised bout from the Miami Beach Auditorium.

The 24-year-old Californian has won them all, 12 by knockouts, and Flaherty is confident that with a few more fights under his belt Machen will be a real title contender.

## Griff's Defeat Jets in 8th

Dave Zittel's triple and the timely single by Ted Wharry last night broke a 1-1 Class A City Baseball game knot to give the Griff's Grill club a 2-1 victory. Losers were L. C. Anderson's Jets, who had scored in the 1st inning of the contest. Only one was out when Dave, former PHS star, set up the winning score. He scored on Patterson's infield play.

**At the outset of the tilt Jim Jones walked Don Russell, Jets' 1st batsman. He went to 2nd on a past ball and tallied on Sam Woodmore's hot single.**

Griff's didn't count until the 6th when Dick Ayling and Zittel singled, with Ayling getting home with the further aid of an infield play and an error.

Jones, PHS hurler this spring, did a fine job on the mound, allowing Jets only three hits, all of them by Woodmore. Zittel's triple was the only extra-base blow. Jim Addis for Jets was touched for six blows.

## Eight Listed at Arlington

CHICAGO, July 12 (AP)—Eight 3-year-olds are listed as starters in Satuday's $100,000-added Arlington Classic and the field could be increased to 12.

Calumet Farm's Preakness winner, Fabius, with Bill Hartack up, is expected to rule a slight favorite in the mile fixture. But a strong challenge will be hurled by E. Gay Drake's Swoon Son with Dave Erb aboard.

The Classic will mark the first meeting this year between Swoon's Son, unbeaten in four starts, and Fabius.

Other starters are Head Man, Doubledogdare, The Warrior, Flight History, Ben A. Jones and Royal Sting. Uncertain are Liberty Sun, a stablemate of Fabius who will go if rain softens the track, Jovial Jove, First Lap and Ratheram.

## Golfing Tyro Bags Ace at Bald Mountain

Playing golf for only his second summer, Larry Termarsch, 380 Catalpa, Pontiac, Tuesday accomplished a feat that most golfers never do in a lifetime at the game. He bagged an ace on Bald Mountain's par 3, 170-yard No. 17 green.

Larry, 20, was playing with his father, Lawrence, brother David and Hugh Remley, 209 Buick Pontiac. He banged a spoon shot that hit the green, went in the cup on the first bounce.

Ace was the 2nd within three days on the same hole and the 4th of the season for Bald Mountain.

### Double Winner

In Tuesday's regular play for Silver Lake Golf club women, Mrs. Elbert Looney turned out to be a double winner. She carded low gross of 52 for the day then won the blind hole (par 4 No. 7) with 5. Low net went to Mrs. Clare Campbell of Watkins Lake at 35. Thirty-two took part in the activities. Recent picnic at Mrs. William Potter's at Watkins Lake attracted 23 women.

## Howell, Priest in Spotlight

Bennie Howell and Dale Priest, both Pontiac devotees of the speedways, grabbed top spots in last night's split race card at Pontiac Speedway.

Howell was the "light" of the hardtops, while Priest led the antics of the old model boys.

* * *

Howell was fastest qualifier, won the dash, the 3rd heat and the pursuit. He also figured in a three-way assault on the track retaining wall, along with Johnny Brown and John Devlin. All three went through the wall during the feature, won by Ron Lancto of Flint, in his 1st try at the speedway. Chuck Partello was 2nd (also won 2nd heat), with Karm Ragatz 3rd. Ross Heichel won the 1st heat.

Priest took the fastest qualifying time, won the 2nd heat and the feature for the old models. Many spinouts marked the feature, but no one was hurt. Bud Harbert was 2nd and Don Irish 3rd.

Don Baden won 1st heat, and Bob Gatton the pursuit.

Davisburg Cub Scout pack were guests of the Speedway for the night.

### Jack's Service Winner in Little League Tilt

Proksch for Jack's had a triple and single for three RBIs and Underwood of Rogers got a homer and three singles for the top hitting job.

In a Junior League contest Yankees defeated Drayton Drugs 5-4, with the winning runs coming in the 6th frame on successive hits by Young, Long and Armstrong.

### Scotty McBeath Heads Publinx Field

# Andonian Still in Contention

SAN FRANCISCO (AP) — Sixteen golfers today headed into the third round of the 31st amateur Public Links championships where, judging from yesterday, anything can happen.

Continuing in the role of favorite was salesman Scotty McBeath, the 34-year-old qualifying medalist from Palo Alto, Calif., who won his first two matches handily.

* * *

Two more will be played today over the par 35-36—72 Harding Park course to reduce the field to four semifinalists.

Sharing attention with the good golf were the unusual happenings. For instance, Dick Hermann of La Canada, Calif., shot a hole-in-one during his first-round match but lost.

* * *

Then Eddie Langert of Memphis, Tenn., dropped his second round-match after losing a hole when he tried to use a golf stick as a pool cue in getting his ball out of a tree. "Improper use of a club" was the official ruling.

Five of the surviving third-rounders in this event for the nation's best public course players were under par for yesterday's play. McBeath was one of them. The others were Joe Roach, national Negro champion from Los Angeles, George Galios of Monterey, Calif., Dick Hopwood of Phoenix, Ariz., and George Aubrey of Moon Run, Pa.

* * *

On the other hand, one of today's matches brought together Jim North, the 265-pound genial giant from North Bend, Wash., and Emil Espositio, an 18-year-old high school student from Franklin Park, Ill.

In winning two matches yesterday, the scrambling big Jim was 13 strokes over par while Emil went 11 over but nevertheless whipped two foes.

North, who can blast out his drives 300 yards, beat Craig Olson of Long Beach, Calif., on the 20th hole in the second round when he sank a 20-foot putt from the fringe of the green.

Included among the survivors was Vern Callison of Sacramento, Calif., runner-up to McBeath in the qualifying.

* * *

Others making the grade into the round of 16 were Ovid Seyler, San Francisco; Peter Schefcick, San Mateo, Calif.; Jim Wilbert, South San Francisco; Mike M. Andonian, Pontiac, Mich.; Bobby Nichols, Louisville, Ky.; William C. Scarbrough Jr., Jacksonville, Fla.; John Demello, Honolulu and Junie Buxbaum, Memphis, Tenn.

* * *

Andonian, who is the 1956 Michigan Publinx champion, defeated two foes in Wednesday's match play.

**He defeated Isamu Maurata of Honolulu, 4 and 2 in the morning round and then gained a 2 and 1 decision over Gene Frase of Memphis in the afternoon.**

Andonian just made the qualifying field by one stroke on Tuesday, being the lone Michigan survivor in the meet.

* * *

Matched for the third round were: Roach vs. Andonian; Nichols vs. Scarbrough; North vs. Esposito; Seyler vs. Demello; Schefcick vs. Wilbert; Aubrey vs. Callison; Buxbaum vs. Hopwood; and Galios vs. McBeath.

Upsets during the first match play rounds over the 6,683-yard Harding course included a 1-up victory by 18-year-old Dave Onstad of Miami Springs, Fla., over Air Force champion Dick Steanrs of Portland, Ore. Then Onstad went down 5 and 4 before McBeath in the second go round.

* * *

Joe Gallardo of Los Angeles, the No. 3 man in the qualifying, went out 4 and 3 in his first match—against Mike Mural, a member of this year's Ohio State team. Then Mike was defeated by Schefcick, 2 and 1.

## Rochester Wins 1st Round Title

### Two Runs in 1st Inning Produce 2-0 Victory in Junior Legion Play

Rochester's American Legion baseball club last night took a 2-0 win over Pontiac's Boys' Club to capture the first-half championship of the Junior Legion circuit.

**The team managed by Al Szczesny got its victory in the 1st inning. It parlayed a walk, an error that followed a tricky bunt, and a long double for all the game's counters. No one was out at the time.**

Rochester thus becomes the 18th District representative at the Junior Legion zone tournament, starting next Wednesday.

Larry LaForge gave up only three hits in a sharp mound job for the winners. Whitey Larson for Boys' Club also turned in a fine pitching job, holding Rochester to three hits after the first frame. Gerry Orr (2) and Chuck McIlreth got the Pontiac hits.

Boys' Club opens 2nd half play Sunday at Clawson.

### Monmouth Park Draws

OCEANPORT, N.J. (AP) — Monmouth Park outdrew New York's Jamaica race track yesterday. A crowd of 24,415 bet a total of $2,233,175 at Monmouth. At Jamaica 20,983 wagered $1,780,926.

### Scoring Extremes

## Oxbow, Louie's on Top

City softball encounters on two fields last night, ran the gamut from a shutout to a high-scoring battle in which 25 runs were counted, 13 for the winner.

**Shutout was administered by Pulver Tires, 4-0, over General Motors, with Wasik limiting the Motors girls to a single hit. This was an exhibition game on the North Side field, where Walled Lake Merchants of the City American League edged Stadium Inn 2-1 in an interesting battle. Decisive tally came in the top of the 7th when Schmitt scored after singling. Errors and another hit moved him around.**

The big score was the 13-12 victory for Oxbow Pavilion over N. S. Merchants in a National loop encounter at Beaudette Park. Merchants staged a real slugfest of a final turn at bat in an effort to catch up, but fell one run short. They banged seven hits and were aided somewhat by miscues on the part of Oxbow. Winners scored steadily from the 2nd on, with a big 4th frame the deciding factor. A total of 26 hits were registered with Oxbow's Parcells combing out the only 4-bagger.

Richard's Tavern dropped a 4-1 game to Louie's Tavern in another Beaudette tilt, with a big, three-run 5th frame turning the trick. Louie's Wright hurled a two-hitter.

# Three Harness Drivers Cleared by USTA of Slowing Races

ALBANY, N.Y. (AP)—The U. S. Trotting Assn. (USTA) today cleared three harness racing drivers charged by state judges with slowing Vernon Downs races.

The Board of Directors of the association's District 9 said it had decided on the basis of a June 25 appeal hearing that no violation would be entered on the records or licenses of Hal Hetzler of Pittsburg, Pa., Bart Wagner of Jamaica and Harold Dancer Jr. of Holmdel, N.J.

The drivers served the suspensions June 12-14 but appealed in a move to clear their licenses, issued by the USTA.

The board said testimony at its hearing showed that the judges had been instructed to penalize the drivers of leading horses if the second quarter of a race were run 4 seconds or more lower than the first quarter.

UCLA Athlete Top Prospect

# Forty-Two Entered in AAU Decathlon

CRAWFORDSVILLE, Ind. (AP) — Forty-two fast, big men will work their way through 10 track and field events tomorrow and Saturday at Wabash College in the National AAU decathlon elimination that has produced the best all-around athlete in four straight Olympic Games.

• • •

On the records, 20-year-old Rafer Johnson of UCLA is the logical successor to James Bausch, the 1932 Olympic decathlon winner; Glenn Morris, 1936, and Bob Mathias, 1948 and 1952.

Johnson, 6 - foot - 2½ and 195 pounds, broke Mathias' '52 world record of 7,887 points by scoring 7,983 in winning the Central California AAU decathlon last year. Officials of this weekend's meet think Johnson is capable of compiling more than 8,000 points.

• • •

The three top performers will be added to the Olympic squad. Johnson already is a member as a broad jumper. The Rev. Bob Richards of the Los Angeles Athletic Club, defending champion in the AAU meet, also has a berth clinched in the pole vault, an event he won at Helsinki, Finland, in 1952.

Richards, who has topped 15 feet 4⅝ inches in the vault, can win over 1,000 points in the one event, his only first place in last year's AAU decathlon.

Johnson is rated best in the field in the 100-meter dash, in which he has a best time of 10.5 seconds, and the broad jump, in which he has leaped 25 feet 5¾ inches.

• • •

Sam Adams of the Santa Barbara (Calif.) AC who defeated Richards earlier this year in the Southern Pacific decathlon, is a potential winner in three events. He has best performances in the shot put, 52 feet 9½ inches; discus, 159 feet, 3 inches, and javelin, 220 feet.

Ernie Shelton of the Southern California Striders Club, who failed to make the U.S. team in the high jump despite past performances up to 6 feet 11¾ inches, should win that event.

Aubrey Lewis, Notre Dame football halfback, who was runner-up to Richards in the 1954 national decathlon, is the top 400-meter dash man with a 47-second mark and also is strong in the hurdles.

121 in Field

# Rich Canada Meet Begins

BOISCHATEL, Quebec (AP)—Miserable, rainy weather threatened the first round of Canada's richest golfing prize today—the fourth annual $26,800 Open tournament, sponsored by a local brewery.

• • •

On hand for the open, in which the winner pockets $5,000 was a field of 121, headed by amateur Doug Sanders of Miami Beach, Fla., who won last week's Canadian Open despite troublesome weather conditions; defending champion Gene Littler of Singing Hills, Calif., and this year's Masters champ, Jackie Burke Jr., of Kiamesha Lake, N.Y.

• • •

Sanders, of course, is playing for prestige, not money, just as he did in the last week's Open when runner-up Dow Finsterwald of Bedford Heights, Ohio, took the first - place check. Finsterwald's here, too.

The field will be chopped to the low 60s and ties after the first two rounds over the 6,500-yard Royal Quebec course which has a pair of 35-37—72. The third-round field may go over the 60-and-ties to keep the required 12 Canadian pros and five amateurs in it.

One of Canada's top entries, Al Balding of Toronto, was a late arrival yesterday—the day after the registration officially closed. He said he overslept and missed plane connections. He was allowed to enter late, over the objection of some U.S. players.

## Scott Frost Not Ready

FOXBORO, Mass. (AP) — Trainer-driver Joe O'Brien has sent word from Goshen, N. Y., that rain slowed the training schedule of Scott Frost, the California champ, and that the horse will not be ready for the $10,000 Massachusetts Trotting Derby tomorrow night.

There is speculation that O'Brien felt his horse would not be up to a peak necessary to face Galophone, 2:01.

Boxing managers Marv Jensen, Hymie Wollman and Alex Koskowitz are in the fur business.

# Two Jackson Teen Golfers Set Amateur Pace

JACKSON (AP)—Two Jackson teenagers and an unheralded Detroit accountant hold front positions today as a record 365 players swam over two Jackson golf courses for the second qualifying round of the Michigan Amateur Golf Tournament.

• • •

Don Stevens, 25-year-old Detroiter, and Bob Zimmerman, 18-year-old Jackson High School graduate, both shot 3-under-par 69s over the Cascades course to set the pace in the opening round yesterday.

**One stroke behind in third place was Dave Hill, 19-year-old Jackson machinist, who had a 70 over the par-72 Jackson Country Club layout.**

Nine of the top 10 qualifiers toured the cascades course, generally considered to be slightly tougher than the country club course.

Today players switch courses for the second 18-hole qualifying round. The low 63, plus defending champion Glenn Johnson of Grosse Ile, will start six 18-hole rounds of match play: Two each on Friday, Saturday and Sunday.

**Yesterday's starters, by far the biggest field in the 50-year history of the tournament, took 12 hours and 45 minutes to finish play. The first man teed off at 7:30 a.m. (EST) and the last foursome didn't come in until 8:15 p.m.**

Stevens and Zimmerman each had 35-34—69 on their rounds and Hill a 36-34—70.

Trailing the top three with 71s were veteran competitors Harold Brink and Joe Tangney, 54-year-old rug salesman, both of Grand Rapids, Dave McHarg of Dearborn and Harrison Baker of Battle Creek.

At 72 were Ron Stetler of Saginaw; Joe Grace Jr. of Detroit, and Martin Hurd of Flint.

Three former champions who entered all carded scores in the 70s. Tom Draper, 1940 titlist from Detroit, fired a 74; Lou Windrow, 1946 winner from Lansing, a 75; and Fred Turner, 1952 champion from Flint, a 78.

Johnson, former Michigan State football player, won the crown both in 1954 and '55.

One of the leading Pontiac scores was turned in by Lloyd Sy-Tommy Watrous, son of Oakland Hills pro Al Watrous, who carded a 75.

Close behind was Jack Reynolds, Waterford High School golfer, who fired a 76.

Birmingham golfers Ray Lovell and Dick Weyand shot 77 and 78 respectively.

It appeared that a score of 153 or better would be necessary to make the round-of-64. Forty-seven players notched scores of 75 or better.

DOCTORING YOUR GOLF —hed

PATIENT'S COMPLAINT: Hitting up on ball.

DIAGNOSIS: High flying woods.

TREATMENT: Those skyward wooden shots, that go a long way up and down but not forward, actually need little correction to get a lower, powerful trajectory.

Maintaining a firm grip with the left hand—the third, middle, and little fingers—farther through the downswing is all that it takes.

As I mentioned in the preceding article, it's got to be done at the very onset, in beginning the backswing with a low sweep straight back from the ball in one piece action. No wrist break at the start. Keep a straight line from the clubhead to the left shoulder, head still, and let the left shoulder, left hip, and left knee follow back freely, unrestrained, to get body turn. Body turn gives you swing groove.

Then keep firm hold in the downswing with the left hand. Start down with the feeling of a left arm pull right down to and through the ball — without any thought of action. That comes automatically . . . in the hitting area . . . a flash before the ball is struck

How long to keep hold with the left hand?

## Police Squad Sinks Vigilantes Nine 15-2

Pontiac Police Class D baseball club rode roughshod over the Ritchie Vigilantes in an exhibition game last night, 15-2.

Bluecoats scored in every frame but the 3rd, with the 2nd the big outburst. In the 2nd frame Police sent seven tallies scurrying across the rubber. They blasted out seven hits to help the runners home. Of all the 14 hits collected off Jim Hoke the coppers managed to get only one triple, by Jerry Pointer, in the 2nd inning, a base-cleaning operation, good for two runs.

Leon Weeks was the winning pitcher, giving up only four blows. Despite the heavy barrage of hitting, not a single error was charged to either team.

## Gillis' Late Blow Wins for Drug Nine

With the count tied at 4-4 in the last frame of last night's Waterford Softball League contest Thrifty Drugs came through with a timely single by Chuck Gillis to score Farger for a 5-4 victory. White Brothers was the losing club.

White's tied it up at the top of the 7th when Gregory scored after singling, going to 2nd on an infield out and home on Ed Varion's single.

Kruskie doubled, Farger singled and Jerry was out at home after Joe Humphrey hit into a fielder's choice. Then came Gillis' blast over 2nd to score Farger.

Gregory for Whites had 3 for 4 to top the hitting.

Redlegs, Yanks Out to Widen Leads

# Time of Decision in Major League Races

By THE ASSOCIATED PRESS

The time of decision is at hand in the National and American League pennant races, where the Cincinnati Redlegs and the New York Yankees enjoy the leads at the moment with great expectations ahead.

• • •

Cincinnati could fatten its 1½-game National League edge almost overnight. And the Yankees, even with Mickey Mantle and Yogi Berra bothered by injuries, could bust the AL race wide open.

The Redlegs have 13 games remaining on their current home stand and get back to business after the All-Star game break by opening a three-game series against the seventh-place Philadelphia Phillies tonight.

Second-place Milwaukee and Brooklyn's third-place world champions, have a four-game set on tap at Milwaukee, opening with a twi-night doubleheader today. That puts the Redlegs, who have 12 of their last 16 and have a four-game winning streak on the fire, in a dandy spot to make hay.

• • •

It also put the Braves and the Dodgers, who are two games behind, on the spot, along with fourth-place St. Louis and fifth-place Pittsburgh. The Cardinals, particularly, are on the fence—having lost 11 of their last 16 and eight of their last nine to fall to a mere 1 percentage point edge over the Bucs.

All in all, the Alphonse-Gaston act the NL has put together for a pennant race this year is a whale of a changeup from last season — when the break-away Dodgers led by 11½ games after the All-Star game break.

Rain postponed the game between Milwaukee and New York, which was scheduled as a make-up of an earlier rainout.

• • •

The American League race is almost exactly as it was at this stage last year—with the Yankees apparently safely out front. New York holds a 6½-game edge over second-place Chicago and third-place Cleveland going into a three-game series with the Indians today and with the White Sox due for a three-game visit starting Sunday.

• • •

A year ago, the Yankees had a five-game spread over second-place Cleveland with Chicago another game back as the pennant chase resumed after the All-Star game. But within nine days, the Yanks were 2 points back of the White Sox. A month later, Cleveland had taken a two-game lead with the Yankees in third, 2 points back of Chicago. It wasn't until late August that New York finally got its pennant drive in gear.

• • •

Manager Casey Stengel thinks the three-day All-Star game break may have helped his wobbling pitching staff, but the big question is how effectively Mickey Mantle and Yogi Berra can work with their injuries.

Mantle, still wearing a brace on his injured right knee, says his nine-inning haul in the All-Star game didn't do his knee any further harm. Yogi insists there's nothing frightfully wrong with the little finger on his right hand which was banged by a foul tip in Tuesday's classic. Berra even snubbed a scheduled X-ray examination of the pinky yesterday.

There also are two notable injuries in the National League — with Milwaukee catcher Del Crandall nursing a bum elbow, which forced him out of the All-Star game; and Brooklyn third baseman Randy Jackson, the second best hitter in the Dodgers timid bat attack at .294, out for about a week with a slashed thumb suffered in a household mishap.

Gives Up 20 Homers

## Pascual "Gopher" Leader

NEW YORK (AP) — Camilio Pascual, Washington's young right-hander, has gone from one extreme to the other in the matter of serving up gopher ball tosses to American League batsmen this season.

• • •

The 22-year-old Cuban, who gave up only five homers in 130 innings last year, already has been tapped for 20—most in the majors. Pascual's "gophers" also are the most yielded by a Washington pitcher in a season, Bob Porterfield having set the previous high of 19 in 1953. Porterfield, now with Boston, is runner-up to Pascual with 15.

Figures compiled by The Associated Press disclosed today that Bob Rush of the Chicago Cubs and Philadelphia's Robin Roberts are tied for the most home runs allowed in the National League with 18 apiece. Rush has worked 113 innings as compared to 137 innings by Roberts.

• • •

Pascual, who has hurled 98 innings, has been victimized chiefly by the league-leading New York Yankees. The Yanks have hit nine homers off him with Mickey Mantle accounting for three and Hank Bauer for two. He has also grooved a pair of round-trippers to Detroit's Al Kaline.

Trailing Porterfield in the AL gopher derby are Don Larsen of the Yanks, Chuck Stobbs of the Senators and Early Wynn of the Indians. Each has permitted 14 homers.

Detroit's Steve Gromek, the American League leader in home runs allowed the past two seasons with 26 each time, has been tagged for 12 this year.

## Haage-Wright Duo Favored

HOT SPRINGS, Va. (AP) — The team of Marlene Bauer Hagge and Mickey Wright shaped up as the favorite today as play began in the $6,500 Hot Springs Four-Ball Golf Tournament.

Mrs. Hagge, with an intake of $10,196, is the top money winner on the women's pro circuit this year. Miss Wright, from San Diego, Calif., is fourth with $6,353.

But they faced stiff competition from nine other teams entered in the 72-hole event over the 6,375-yard, par 74 Cascades course.

Mrs. Hagge, who plays out of Asheville, N.C., and Miss Wright warmed up with a practice 68 yesterday.

Defending champions are Betty Jameson of San Antonio, Tex., and Mary Lena Faulk of Thomasville, Ga., who won last year with a 16-under-par total of 280.

# Pencil Looms Room-High in Science Fiction Movie

By BOB THOMAS

HOLLYWOOD (AP) — Can you imagine a pencil as tall as a room? A divan the size of an automobile? A coffee can as big as a water tank?

These are some of the latest results of the rampant imaginations of film creators at Universal-International. That studio has become the citadel of science fiction movies, just as it once excelled in horror films in years past.

The newest product of the fantasy factory is a dilly called "The Incredible Shrinking Man." It concerns a young man and his wife who go on a vacation cruise on a small boat in the Pacific. While the wife (Randy Stuart) is below deck, the husband (Grant Williams) is contaminated by a freak atomic fall-out.

• • •

Confidentially, he shrinks. From 6 feet 2, he diminishes to 4 feet 7, 3 feet 6, then to 6 inches, 2 inches and finally to half an inch. To achieve this illusion, the U-I craftsmen have created some monstrous furniture and household effects.

The studio's top expert in the science fiction line is Jack Arnold, who has directed half a dozen of the immensely successful films.

• • •

Arnold observed that the current run of science fiction films differs from the horror pictures in which the studio once specialized.

"You'll recall that the first 'Frankenstein' and the first 'Invisible Man' were both very well-made pictures," he said. "But then they deteriorated in sequels. Their design was strictly horror to scare the audience.

• • •

"Science fiction pictures are more aimed at the imagination. They often scare you, but they also make your imagination run rampant.

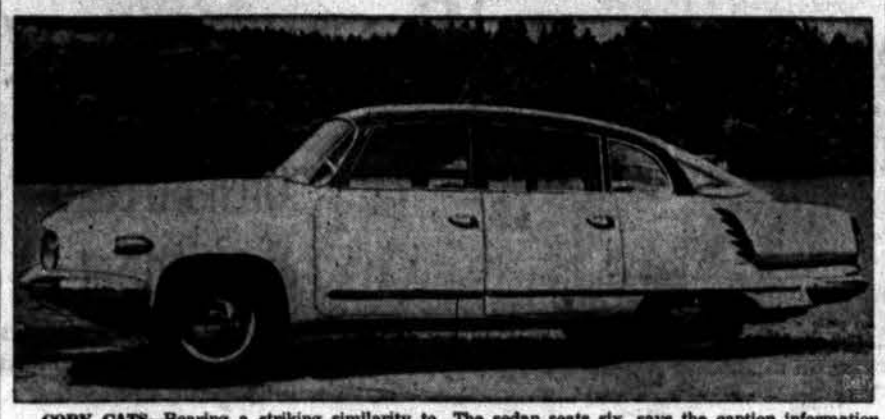

"For that reason, they must have a valid premise. Once you get the audience to accept that, you can take off in any direction."

### Mother Captures Son

FORT MADISON, Iowa (AP)—When Junior John Reynoso, 34, escaped from the state penitentiary he did not figure on his mother making the capture. Prison officials said Mrs. Ethel Reynoso escorted her son back to the penitentiary 24 hours later. Reynoso had 23 days left to serve when he fled from a work detail. He now faces an additional five years for escape.

# Poles Can't Buy--Even With Money

(This is the second of two articles on life in Poland, the shaky Russian satellite, recently the scene of "bread and freedom" riots. The writer, first American reporter in Poznan after the uprising, details living conditions of the average pole—conditions that led to the Poznan riots and still keep the country in a state of unrest.)

By KATHARINE CLARK

WARSAW — (INS)—One look at shop windows in Warsaw explains—at least partially — the unrest in Poland.

The legal exchange rate is four zloty to the dollar. At that rate:

**A can of orange juice cost $8, the cheapest loaf of bread is 92 cents, a pair of baby shoes cost $31.50, eggs are $4 a dozen.**

Men's shoes are $80 a pair, a cheap cotton house dress is $42, soap is $1.22 a bar, a man's shirt is $39, a man's raincoat costs $332, a woman's rayon slip is $80.

**SKYHIGH PRICES**

Cocoa is $32 a pound, lemons $6 a pound, tomatoes $7 a pound, and even cabbage commands the royal price of 40 cents a pound.

Nothing can be called cheap, few items are even reasonable.

**Even if the unrealistic legal rate of exchange is disregarded (the real rate is between 80 and 100 zloty to the dollar) and prices are looked at according to purchasing power of the worker, the shock is just as great.**

The average Pole must work four hours to buy a dozen eggs (average pay is 700 zloty a month), 21 days to buy a pair of shoes, six days for his wife's cotton dress, 22 days for a sweater and 4½ days for his baby's pair of shoes.

• • •

A second-hand wrist watch costs three months' pay.

**Quality of goods a Pole buys does not meet Western standards. This is not, however, very important.**

After the horrors of Poland's wartime life, poverty and starvation endured, the quality of goods is not always considered. Also, few Poles have been abroad since the war or even been permitted to read Western periodicals to learn how far below our standards their goods are.

What is important is the quantity of the goods. Often, one sees long lines in front of a shop. Those lines mean the shops actually have for sale goods which are displayed in the windows.

**ALWAYS SOLD OUT**

Several times I entered a shop asking for an item only to be told it was not in stock. If I pointed to the identical item in a window, I was told the item was there to show what they sold and it would be available "soon."

**The result of this inflation and scarcity of goods is to reduce Poland to a cigarette economy such as Germany had at the end of the war. I saw a hotel porter refuse a hundred zloty tip ($25 on the legal rate) and ask instead for two cigarettes.**

This type of economy has a degenerating effect on the people. Alcoholism has greatly increased. There may not be enough money for shoes but there is enough for vodka. The Polish Government recently recognized the seriousness of this situation and banned the sale of spirits on paydays.

• • •

There also is a tendency to be what the Poles call "one-day millionaires." The pay is so low in proportion to costs that the people "shoot their wads" on paydays.

**It gives them a sense of well being to go to town on payday and spend it all.**

Recently in Warsaw the payday of those paid monthly, bimonthly and weekly coincided. The result was a near riot. Every citizen of Warsaw was on the streets, buying what he could while his money lasted, window shopping when he ran out of cash and—taxi riding!

"Nothing," said one Pole, "makes me feel wealthier than riding in a taxi!"

# Commerce to Buy Fire Hall

## Township OKs Site Purchase

### Fisher Road Building Transfer Awaits Vote From Stockholders

COMMERCE TOWNSHIP — The Commerce Township Board will buy Oakley Park Volunteer Fire Department fire hall on Fisher road.

• • •

Claude Garvey, chairman of the Oakley Park Volunteer Fire Department board of directors, offered the building for $7,000 with proviso that the hall be used for "around-the-clock fire protection."

**Transfer is subject to stockholder approval. Garvey said plans for distributing ballots are under way. He said he felt confident answers would be returned by stockholders in about eight weeks.**

While the transaction is being completed, Commerce Township has the privilege of using the north section of the building without rent for one year. However, the township must pay insurance, heat and electric bills.

In other action the board approved a request that the southeast 20 acres lying north of Oakley Park road and West of Haggerty road be rezoned to an industrial classification.

• • •

Also, the board approved subdividing a parcel of land on the south side of Maple road and the corner of Wixom Road into six separate lots.

## Italian Royal Estate Splitup Before the Court

ROME (AP)—Italy is getting ready to split up the two-million-dollar estate of the late King Vittorio Emanuele.

Rome's Civil Court has accepted the detailed inventories on which the property will be divided into five parts to be apportioned to his heirs and the state.

Under a ruling made earlier, three parts will go to the late King's daughters, Princess Maria of Bourbon-Parma; Giovanna, widow of King Boris of Bulgaria; and Yolanda, Countess Calvi de Bergolo. One part will be divided among the four children of his other daughter, Mafalda d'Assia, who died in a German concentration camp in 1944.

The share of Vittorio Emanuele's son, former King Umberto, will go to the state. Umberto's property became forfeit under the terms of his exile when Italy ended the monarchy and became a republic in June, 1946.

Vittorio Emanuele's property includes the big villa Savoia in Rome, the 400-room castle of Racconigi, the castles of Sarre and Pollenzo, the hunting lodge of Santa Anna di Valdieri and large collections of furniture, arms, paintings and ceramics.

She was among nine local students who attended with Charlotte Baird, assistant to the pastor.

## Comrade Stalin Purged From Museum . . . Almost

BUCHAREST, Romania (AP)—Stalin has been downgraded but not entirely wiped out in Bucharest, where for years Communists venerated him as "liberator."

His big statue still stands in Stalin Square. In the National Art Gallery he has been purged. A year ago this gallery was so full of Stalin portraits and statues that visitors had the feeling that Big Brother was peering over their shoulders. Now the only statue left is in a wing showing Soviet art and culture.

This one is apparently too heavy to move.

## Drinking Ban Placed in All Ingham Parks

MASON (AP) — Drinking has been banned at all Ingham County parks after a county supervisor complained of beer parties by Michigan State University students.

The dry regulation was instituted by Supervisor Bernard Ward of Meridian Township, who said MSU students made a nuisance of themselves at Lake Lansing Park.

"The park is being overrun with Michigan State students," he said, "most with beer bottles in their hands and most of them slightly inebriated."

Supervisor Harold Moore of Lansing objected that the board would be penalizing the public because of a few students.

"I like a bottle of beer on a picnic," Moore said.

The ban on drinking of intoxicants at all county parks was passed with Moore and two other supervisors dissenting.

Sheriff Willard P. Barnes told the supervisors that the ban "lacks teeth" and that he might have trouble enforcing it.

# CD Pushing New Local Evacuation Plan

Civil Defense officials figure that thousands of evacuees from the Detroit area would flock through Oakland County in the event of enemy air attack. Many would seek refuge in the county, while others would possibly continue further north.

* * *

Many relatives left behind or in other suburban areas would immediately wonder about the whereabouts of these people. Oakland County residents would also inquire about friends and relatives in the Detroit area.

**Set up to answer the questions of thousands of puzzled and many panic-stricken persons would be Civil Defense Registration and Information points.**

Recently 38 persons from eight townships received certificates of completion of the basic R and I course under the direction of Mrs. John F. Warren, coordinator of emergency welfare in the county and a member of the Regional Steering Committee of southeastern Michigan.

**TO TEACH OTHERS**

These "graduates" have returned to their respective townships to teach Registration and Information to potential R and I workers. Mrs. Warren said the group would return and take an advanced centralized county registration course.

**The objective of these services are twofold: (1) to initiate a program of education urging families to plan where they will meet and how they will keep in contact with one another in event of attack; and (2) to plan a program to carry out the post-attack activities.**

When an evacuee seeks temporary shelter, say at a future R and I point in Oakland County, he will make out a detailed information card in triplicate form stating where he came from, relatives, dependents, etc. Two copies of the card will be forwarded to a centralized county registration center.

**NUMBER UNKNOWN**

The number of Registration and Information workers needed for the county still is not known. A survival plan study is being made to determine the number of evacuees each township could handle.

**But Lewis C. Jarrendt, Oakland County Civil Defense director, said a recent study revealed that Waterford Township could handle 20,200 persons.**

A possibility exists, according to Jarrendt, that a system would be devised where school children from one school would be assigned another school out of the danger area which would be the destination if the attack came during school hours. This way parents will know where their children can be reached.

Mrs. Warren said any person with typing, clerical experience, and possibly a teaching background could qualify for R and I work.

Reviewing this infant program of Civil Defense, Jarrendt said: "This is a minor but extremely important service to make Civil Defense function properly in the county."

**PLAYTHING OF THE TERROR** — Its grip bearing an outline of the island of Cyprus and letters "EOKA," signifying the Greek underground, this child's comb in shape of a pistol is being sold on the streets of Athens, Greece. Observers of the movement for nationalism which is shaking Cyprus see in pistol-comb's sale an effort to indoctrinate even children with the desire for union of Cyprus with Greece.

## Probers in Port Huron

PORT HURON (AP) — Members of a state Senate committee studying Michigan port and harbor facilities toured Port Huron yesterday. The group, headed by Sen. Carlton H. Morris (R-Kalamazoo) is considering recommendations to change condemnation laws and grant greater power to local port authorities. The committee goes next to Bay City-Saginaw.

# Perfume Industry Brings New Prosperity to Monks

WASHINGTON — On the isle of Caldy, off the south coast of Wales, Cistercian monks are distilling prosperity along with perfume from fragrant lavender blossoms that grow profusely there.

The new scent-making industry—whose delicate product is marketed in nearby mainland resorts as well as in the monastic community shop—is reported to be bringing a welcome addition to the monastery's modest income from exports of farm and dairy output.

**With its broad green fields stretching behind a bold cliff front, Caldy is both productive and scenic, says the National Geographic Society. Most of its 600 acres are under cultivation.**

Lilies, primroses, bluebells, purple thrift and golden gorse mingle with lavender to spread carpets of color amid more prosaic wheat, oats and barley.

Caldy's Cistercians of the Strict Observance (Trappists) follow a simple, austere regime of toil, meditation and prayer far removed from such feminine frivolities as perfume. But all garden and farm work is in line with the historic interests of this ancient religious organization.

**FOUNDED IN 1098**

Founded in 1098 as a Benedictine-reform offshoot, the Cistercian Order made major contributions to Europe's agricultural and stock-breeding progress during the Middle Ages.

Dependent on the land for livelihood, the monks introduced practical improvements in farm techniques and methods of selling and livestock. To carry out their extensive operations, they set up a system of lay brothers to help with the endless chores.

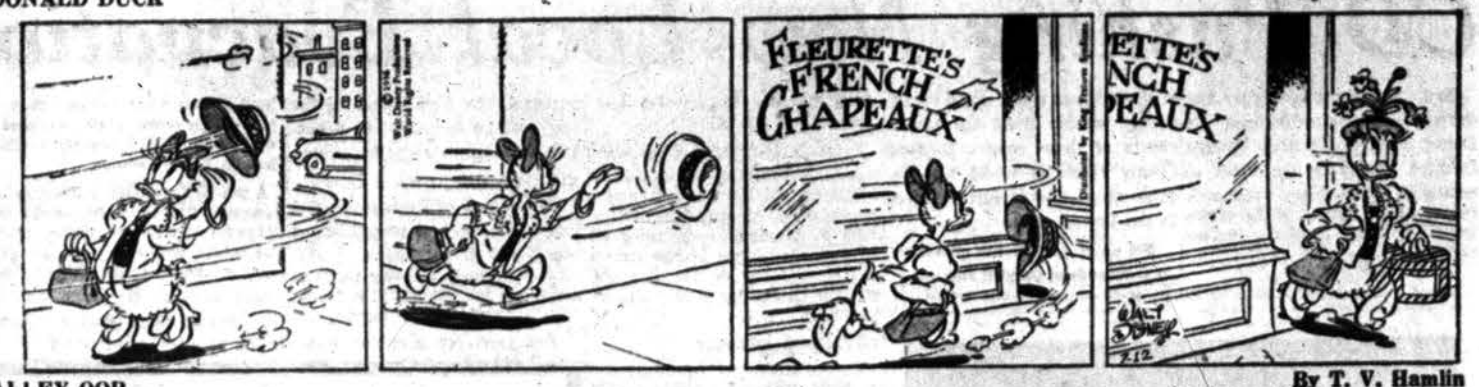

**Gradually, through successive periods of strength and decline, the Order spread around the world from its original home at Citeaux, France. The monks of Caldy, or Caldey as it is often spelled, moved there from Chimay, Belgium, in January, 1929. They bought the property from a modern religious group that had taken over the site from a private owner in 1906.**

As the "Island of Saints," however, Caldy's connection with monasteries goes back long before the 20th century. At least as early as the 6th century, Celtic monks lived on the island, known then as Ynys Byr. Many early saints—including David, patron saint of Wales, and Samson, Caldy's own patron sait—are reputed to have visited or served there.

For 400 years, from the 12th to the 16th centuries, Caldy was the home of the Benedictines of St. Dogmaels. Several sturdy priory buildings still stand from this era, along with the even older St. David's Church.

Today, about 40 monks and 20 lay people—most of them retired, and all members of the Order—live on the island.

# Trends Mixed in Grain Trade

CHICAGO (AP) — In a fairly active market grains developed mixed trends on the Board of Trade today.

* * *

Wheat tilted a little lower as additional hedging pressure entered the market. Mills supported the bread grain as prices declined, preventing any really serious losses.

Oats ran into profit taking after having set new seasonal highs for three straight days but rye continued its advance. July corn weakened at times but other corn futures, as well as all soybeans, had a steady tone.

Wheat near the end of the first hour was ⅜ to ¾ lower, July $2.04⅝; corn unchanged to ½ lower, July $1.52⅝; oats ⅜ to ⅞ lower, July 71¼; rye ¼ to ¾ higher, July $1.28¾; soybeans unchanged to ¾ higher, July $2.75; lard 15 to 18 cents a hundred pounds higher, July $11.20.

# Stock Market Slightly Lower

NEW YORK (AP)—The Stock Market was moderately lower early this afternoon after a selling flurry tripped an early rise.

Leading stocks exchanged their minor gains for losses ranging from fractions to around 2 points.

Volume for the day was estimated at around 2,500,000 shares compared with 2,520,000 yesterday.

Steels, motors and chemicals took the worst of the losses as profit-taking held sway following six straight daily advances on average.

U. S. Steel, Bethlehem, Republic and Youngstown Sheet & Tube all tilted fractionally to the downside after early trading left them virtually unchanged.

Chrysler led the motors downward with a drop of more than a point. Ford and General Motors were off fractionally.

Among the chemicals, Du Pont dropped around two. Allied Chemical and Union Carbide were off a point or more.

Lukens Steel was ahead only a point after an early gain of better than 3 points today following its surge of yesterday on a sharply higher earnings report.

Coppers, which had shown gains of a point or so, tapered off to fractional gains and losses.

At noon the Associated Press average of 60 stocks was down 60 cents at $186.50, with the industrials down $1.40, the rails down 20 cents and the utilities down 10 cents.

# Dulles and Nixon Vie Over India

## Improved Relations by U.S. With Nehru Sought by Secretary

WASHINGTON (AP)—Secretary of State Dulles apparently is seeking to improve U.S. relations with neutral India and abate a wordy storm over the American attitude toward neutrality.

That, at least, is the impression created by his news conference comments yesterday — one of which indicated some slight disagreement with Vice President Nixon.

* * *

Dulles later conferred with the retiring U.S. ambassador to India, John Sherman Cooper, an advocate of substantial U.S. assistance to India's long-term development.

Cooper told reporters afterwards he wants to get "some decisions" on economic aid to India before he steps out, probably at the end of next week, to campaign for the Senate for Kentucky.

Cooper declined to comment on a Senate speech by Sen. Kefauver (D-Tenn) saying that since the Republicans took over, "almost every action of the United States in that area of the world . . . has served to alienate the friendship of India."

Describing Cooper as "a good and distinguished ambassador," Kefauver said President Eisenhower's request that Cooper relinquish his post to run for the Senate is a move "to cap all the mistakes we have made in dealing with India."

* * *

Dulles did not discuss this country's sometimes irritated relations with India and with Prime Minister Nehru specifically at his meeting with newsmen. However, he did talk about statements which Nixon made during a trip, ended yesterday, to six allied countries in the Far and Middle East.

It was while on this trip that Nixon said countries which follow a neutralist policy toward communism run "almost the certain risk" of becoming Red satellites.

Nehru called Nixon's views undemocratic, declaring that tolerance of different viewpoints is the basis of democracy. Nixon replied that Nehru is entitled to his opinion but that his speech was not undemocratic.

* * *

Nixon took the position, however, that the United States in some cases should continue to give assistance to countries which also accept help from Russia.

Nehru has accepted help from both Russia and the Western Powers while consistently decling to be drawn into alliances with either side.

Dulles, asked what he thought about Nixon's idea of continuing to help countries which accept aid from the Communists, said he was "in general . . . quite in accord with it." It is established U.S. policy to continue helping such countries as India.

# *City Ground Observers Plan Open House Saturday*

The Pontiac Ground Observer Corps Post will hold an open house Saturday in celebration of the fourth anniversary of 24-hour around-the-clock skywatch duties of GOC posts across the country.

* * *

The local post, which has been in operation since March 1953, is situated atop the County Office Building, 1 Lafayette St. The open house will be from 9 a.m. until 5 p.m.

**Frank Comps, chairman for the event, said in addition to the regular two observers on duty, eight other volunteers will conduct tours of the post explaining the procedure of spotting and reporting aircraft.**

The Air Force and Continental Air Defense Command have estimated 400,000 volunteers are presently engaged in GOC work.

As a preview to the anniversary, Gen. Earle E. Partridge, the air defense system's commander, said: "We still need the Ground Observer Corps and need it badly."

* * *

Arthur Heaton, supervisor of the Pontiac post, continued his request for more volunteers to man the post.

# Ike's Investments a Secret . . . to Him

WASHINGTON (AP) — Rep. Bow (R-Ohio) said today friends handle President Eisenhower's personal investments without telling him what securities they are buying and selling.

He said Eisenhower wants it that way so there isn't "even the possibility of a subconscious bias in favor of any organization in which he had an interest."

Writing in a regular letter to constituents, Bow did not give the source of his information.

He said that among "a few trusted friends" handling Eisenhower's investments is Col. Robert L. Schulz, his military aide, and continued:

"Thus today, aside from the farm at Gettysburg, the President has no personal knowledge of stock ownership. He receives regular reports as to total gains or losses, but no details of the transactions."

# Senators Okay Car Trade Bill

## Marketing Curb Given Approval of Commerce Subcommittee

WASHINGTON (AP) — A bill designed to eliminate "unfair trade practices" in the marketing of automobiles has been approved by a Senate commerce subcommittee.

The measure is a revised version of legislation introduced by Sens. Monroney (D-Okla), Payne (R-Maine), O'Mahoney (D-Wyo) and others to govern relations between automobile manufacturers and dealers.

**The full Commerce Committee is expected to consider the bill at its next regular meeting, probably a week hence.**

Monroney, the subcommittee chairman, said in a statement that the new version of the bill is intended to meet some objections raised by manufacturers, the Justice Department and the Federal Trade Commission to the original measure.

He said it would declare certain actions by manufacturers and dealers to be "unfair trade practices" and put them under the "scrutiny" of the FTC.

**Among such unfair trade practices would be coercion of dealers by manufacturers and the "bootlegging" of excess cars by dealers unless the dealers first offered them back to the manufacturer.**

Monroney said that "regardless of the 'hobgoblins' raised by the giant manufacturers opposing the bill, it does not place the FTC or any other government agency in the day-to-day workings of the factory dealer relations.

## New Keego Policeman Boosts Force to 4 Men

# *U. S. a 'Beautiful Country,' Greek Immigrants Find*

America, and especially Pontiac, looks pretty good to 21-year-old Mrs. Efthymia Petrovich, who arrived via plane from Athens, Greece two weeks ago.

* * *

Waiting for and meeting her in New York City was her husband, Elia, just over from Greece in January of this year.

**The young Petrovichs are now living with his family, the Vasil Petrovichs at 392½ Orchard Lake Ave.**

Both Petrovichs are employed as bakers at Thomas Bakery of Pontiac, the elder Petrovich being here 40 years.

Before Greece, the family lived in Yugoslavia until they opposed the new regime. Then they moved to Athens.

**STUDYING FOR CITIZENSHIP**

The Petrovich family is pretty fond of their new country. Both the elder Petrovichs are citizens. Elia is studying for his citizenship and Efthymia plans to begin night classes very soon.

As the elder Mr. Petrovich says, "Here no one cares who you are or where you come from. America is the most beautiful country in the world."

* * *

And young Efthymia agrees now that she's reunited with her husband in a new, free country.

# Algiers Terror Takes 4 Lives

## 7 Wounded as Arabs Fire Submachineguns and Hurl Bombs

ALGIERS, Algeria (AP)—Nationalist violence erupted anew in Algiers last night, resulting in the deaths of three rebels and one French soldier. Seven other persons were wounded in random attacks throughout the city.

* * *

Bombs were lobbed into crowded cafes, and submachineguns chattered from speeding cars in a night of gangstertike violence.

**A big bomb blew out all the windows of the Algiers Opera House and those in neighboring houses.**

Nationalists sped past a military post in a small car, spraying the guards with machine-gun fire. One guard was killed and two wounded. The French fired back, killing one rebel.

* * *

Four Europeans were wounded severely in a downtown cafe when Arabs threw a flaming Molotov cocktail into the building.

**Two rebels accused of tossing the bomb were captured. One was wounded by police fire.**

In Paris, Finance Minister Paul Ramadier won Cabinet approval of new tax levies to raise an estimated 285 million dollars this year for the government's "pacification of Algeria" program. They must have parliamentary approval.

# Area, Detroit Banks Approve Merger Plan

Approval of a proposal to merge Farmington State Bank with the National Bank of Detroit was announced yesterday by officials of the two institutions. The agreement will give the Detroit bank its 55th office.

* * *

The announcement was made on behalf of directors by Howard M. Warner, former state banking commissioner and president of the Farmington Bank, and Charles T. Fisher Jr., president of the National Bank.

The merger plan calls for the issuance of 22,000 shares of NBD stock in exchange for 30,000 shares of State Bank stock.

Similar mergers last year consolidated banks in Utica and Rochester with the Detroit firm.

# Non-Industrial Jobs Hold Steady Locally

Unemployment during this time amounted to 10.2 per cent of the total labor force of 83,300, as compared to 8.6 per cent in May.

The office issued 21,032 unemployment chec

# Youth Found Dead in Lane Near Home

LAWTON (AP)—A 10-year-old boy was found dead last night beside a narrow lane running across the rear of the family farm near Lawton in Van Buren County.

* * *

The body of Jack Reynolds was found by his parents, Mr. and Mrs. C. B. Reynolds. The boy was lying about a half-mile from where a tractor had gone over an embankment.

There were no indications of foul play, deputies said, but an autopsy is being considered. Other than a few small scratches on his back, the boy's body bore no marks, deputies said.

* * *

Deputies said the youngster may have suffered a heart attack after the tractor accident.

He was reported missing after failing to return home for supper.

## 'High Finance' Should Succeed

### Julius La Rosa to Sub for Perry Como on the Next 4 Saturdays

By JACK O'BRIAN

NEW YORK (INS) — Dennis James, a personable fellow who has made zillions of friends and fans via unstinting charity work and general geniality, has brought to TV his own huge cash huriaway, "High Finance."

* * *

While it's complicated in detail, the combination of the amiable Dennis and the hope of winning TV's biggest fortune (up to now, anyway) should permit the Saturday evening show to bank on a large audience . . .

**Julius LaRosa takes over from Patti Page as the Perry Como substitution for the next four Saturdays, and on Aug. 19 will be Steve Allen's star guest . . .**

The Tommy-Jimmy Dorsey situation is terrible. Jimmy wants to play some of his fine woodwinds but big brother Tommy apparently owns the ball and won't let James play; keeps things consistent around the "Stage Show" studio—consistently mad . . .

Margaret Truman blamed the flop of her sketch Sunday with Steve Allen and Jack Palance on the lassitude of the studio audience but if Mrs. Daniel will take a peek at her kinescope she might find the sketch was dull and the performances ridiculous . . .

**DOROTHY SCORES**

Dorothy Kilgallen won friends and influenced affection when she stopped "What's My Line" to admire the gal guest's shoes and ask where she got 'em . . .

Gene Rayburn is smart-alecky with stars subbing for Steve Allen but keeps his subservient place when Steve's aboard . . .

**We just love Hal March's patient encouragement to $64,000 Question quizzees: "Take your time—you have 30 seconds" . . .**

Lynn Dollar, seeing eye girl leading helpless $64,000 Question contestants into the isolation booth, has competition right in her own apartment — her roommate Nerissa Nickle got the fashion commentator and modeling assignment on "The Big Payoff" . . .

Steve Lawrence seems to be spreading out not only as a singer but as a comedian, mimic, musician and all-around handy TV fella . . .

**LONG UNDERWEAR**

The Cincinnati Redlegs' road uniforms are the big leagues' sloppiest . . . They look like long underwear on TV . . .

Walter Slezak can't possibly yearn for a respected place in TV or else he wouldn't indulge in blatant free "plugs" when he guests on TV shows . . .

**Nine - year - old Brenda Lee, whose emphatic talents on "Ozark Jubilee" won her admiring reviews, has just been signed to a five-year pact on that ABC-TV hoedown and has inked a Decca recording contract.**

Little Brenda has the cutest trademark: The very-serious mien as she sings . . .

## Try This Russian Drink to Cure About Anything

By EARL WILSON

LENINGRAD—The Russian militiamen salute us American tourists now when we swing in and out of their hotels and it gave me quite a shock at first. Then I realized they were saluting us not because we're Americans—but because we're tourists.

Yes, even the Russians are willing to get American money—or Americans' money . . . it all subtracts up to the same thing.

*

**I asked a Russian if he'd ever heard of Marilyn Monroe. He hadn't. I felt he was underprivileged and regaled him with Marilyn's life story, including the calendar picture, the no-undies, her marriages, her desire to play in "The Brothers Karamazov," her predominance in the industry in the whole world.**

"So she wishes to do 'The Brothers Karamazov'!" he exclaimed. "The Russian authors are really popular in America, n'yet?"

No wonder the Russian Big Shots occasionally get a load on. They take a tumbler of vodka, pour in salt and so much pepper that it turns dark in color, then down the whole glass in one gulp.

**Athletes get top attention in restaurants—and in one I saw some stalwarts eating in their undershirts. This was a top restaurant, too. In Russia formal clothes for athletes doesn't mean black tie—it doesn't mean any tie—it means a shirt.**

Every American admits that the operas and ballet produced at the Bolshoi Theater are "the most".

"That's really show business!" acknowledged one Yankee. "Such production! They have 250 stagehands."

"The secret of their success," observed another American, "is simply this—no union trouble!"

**THE MIDNIGHT EARL IN N.Y. . . .**

Frank Sinatra's daughter, Nancy, is a salesgirl in a Beverly Hills sports shop . . . Steve Allen, anxious to have Mae West on his TV'er, has submitted three scripts to her. So far, it's nope.

A N. Y. night club owner barred a customer who turned out to be an executive of the waiters' union. Result: A drive to unionize the place, and it'll cost the cafe man an additional $55,000 in yearly salaries—because he was so hot-tempered that day.

## State Staging Parks Survey

### Conservationists Want to Know What's Good, Bad in Recreation

EAST LANSING (INS) — The parks division of Michigan's Conservation Department is sponsoring a survey to find out what Michigan residents think of their favorite nature spots.

* * *

Michigan State University is conducting the survey for the department, which wants to know:

**"What's right with the parks, what's wrong with them, and how they are being used."**

Results of the survey will help guide the parks division in future park development and improvement.

**QUESTIONS FOR 1,000**

Representatives of MSU's bureau of business research hope to question some 1,000 park visitors in person this summer in more than 30 of the parks—from the southernmost part of the state to the tip of the Upper Peninsula.

**Questionnaires will be available in many state parks during the summer on which vacationers can state their views and opinions.**

The field survey is being directed by Dr. Thomas L. Dahle of MSU's department of communication skills.

* * *

Campers are being asked what park facilities they use most often and what improvements they would like to see made.

**Park administrators also want to know how often people visit parks, how old they are, their family status and how much money they usually spend on a trip.**

Dr. David J. Luck, director of the MSU's bureau of business research, says:

"The use of Michigan State parks has grown rapidly in each recent year. This study will assist in their wise development in anticipation of what Michiganders and visitors will want in their growing leisure time of the future."

### Even Runaway Car Can't Keep Her Down

SANTA MONICA, Calif. (AP)—It takes more than an automobile to put 78-year-old Mrs. Lorena Stephens out of commission.

She was seated on a bus bench yesterday when W. J. Raines' car rounded a corner, jumped the curb and knocked Mrs. Stephens sprawling.

She was taken to Santa Monica Hospital, where she told attendents:

"My back hurts a little, but I think I can make it home all right."

She did, too.

## Illinois' '56 Corn Crop 3rd Largest in History

SPRINGFIELD, Ill. (AP)—Illinois crop experts have forecast a potential 516 million bushel corn harvest, third largest in history.

State-federal agriculture departments Wednesday foresaw a 58-bushel yield per acre on 8,900,000 acres if current prospects are maintained.

Stands are uniformly good throughout the state despite some troublesome rains, mostly in central and eastern Illinois.

Growers estimate 4,800,000 acres of soybeans will yield a promising crop, not yet estimated. Stands are good.

Harvest of the 52-million bushel wheat crop is nearly done.

## U.S. Denies Planes Flew Over Russia

WASHINGTON (AP)—The U.S. Air Force both here and in Germany has denied Russian claims that its planes flew over Russian territory three times this month.

* * *

Soviet Ambassador Georgi Zarubin protested formally to the State Department Tuesday that U.S. planes from West Germany had flown over territory of both Russia and its satellite neighbors July 4, 5 and 9.

* * *

The State Department has not yet replied officially, but the Air Force's European headquarters said yesterday, "No aircraft assigned to the command of the U.S. Air Force in Europe violated Soviet or satellite territory."

A similar statement came from Air Force headquarters here, which said that "no United States Air Force planes have been flying over Soviet territory as Moscow charged."

# Ike Avoids Drama in Announcing Candidacy

NEW YORK (INS)—People . . . places . . . things . . .

The President "threw it away," as they would say on Broadway. No trumpets, no clearing of the throat, no eye agliter. He released the news that he'd run again through Sen. Knowland.

* * *

The effect, one resident pundit in Washington said, was one of "Why, of course!" rather than "after considerable soul-searching, I have come to the conclusion, things being what they are, etc."

**It relieved Eisenhower of the (to him) humiliating task of standing up before the evil red eye of a TV camera and telling the American people all over again that he feels he's physically fit to carry on.**

He underplayed the line for which the country's voters, pro and con, were so tensely waiting.

* * *

The obvious way of doing it, by personal announcement, would only have complicated his return to the Presidential race.

**CLOUDED FUTURE**

The future of Vice President Nixon again is clouded—after it appeared he was a sure thing to be the President's running mate once more.

It cannot have been a coincidence that the Knowland announcement studiously avoided mention of Nixon. Perhaps, as explained by some of the Republican governors who signed the solid-front appeal to Ike to run, while at their recent conference, they honestly forgot to include Nixon's name in the proclamation-appeal.

**But in view of this, could there have been a second oversight so soon after?**

Nixon won a grudging endorsement from Eisenhower in the days and weeks following the President's Feb. 29 announcement that he'd seek a second term.

He would be "delighted," the President said, to have Nixon at his side again, whereupon Nixon announced his candidacy, with relief.

* * *

The political fires within the GOP died down. Plainly, they flame again. Only Ike can douse them. Jim Hagerty's half endorsement hardly sufficed.

**HOTEL WITH 'SEAM'**

Feature exhibit at the cocktail party which builder-architect Ian Woodner tossed for Washington manager Chuck Dressen, during the All-Star Baseball Game frivolities, was what Woodner calls the "seam" in the apartment hotel that bears his name. Incidentally, the Woodner is the largest such place on earth.

* * *

Seems that the FHA, with which Woodner has had some publicized experience, would give him only up to $5,000,000 with which to build what he wanted.

**Woodner dreamed of a $16,000,000 pleasure dome. The FHA said never! So the fellow asked, "Suppose I build two five million dollar places side by side?"**

The genius behind the desk thought that one over for a while and okayed it, provided there was a legal separation between the buildings. There is—darn near an inch—but you'd never notice it unless Woodner pointed it out.

---

Toots Shor, the democratic publican, picked up his ringing telephone — while being visited by Jackie Gleason—listened for a time and said to the world's richest fat man, "Lard, you think you're the greatest but you're nothing. They want me! They want me everywhere, this fellow just said. They want me on television."

"I know," Gleason said. "Zoo Parade."

**MAID OF ALL WORK**

Stewardess Betty Condon, a beautiful Baltimore girl who works for American Airlines, served 40 dinners and pre-dinner drinks on a Convair which flew from Washington to New York the other evening in less than an hour.

In addition, of course, to handing out reading matter, taking care of the children, opening and closing the door, and chatting with the nice old man who wanted scenic spots pointed out.

Show this clipping to the next waiter who refuses to tell you the time, because it isn't his station.

## U.S. to Probe Snarl on Detroit's Airports

DETROIT (AP) — A House Operations subcommittee will open hearings in Washington Monday on Detroit's airport tangle.

The inquiry was asked by Rep. Meader (R-Ann Arbor).

**The subcommittee, headed by Rep. Mollohan (D-W.Va), will look into the lease of Willow Run from the University of Michigan by the airlines and the circumstances under which the Wayne County Road Commission obtained federal funds to develop Detroit-Wayne Major in the face of the refusal of most of the airlines to use the field.**

Only American Airlines among the major companies has agreed to transfer operations from Willow Run to Wayne Major at the request of the county airport.

The other airlines say the few minutes travel time saved by the transfer would not warrant the cost of developing the county field. Spokesmen say their companies are ready to join in any plan to build an entirely new terminal in the northeast area.

## Prison Doesn't Stop Him—He Uses Mails

COLUMBIA, S. C. (AP) — William R. Hall, serving 10 years for a liquor store burglary, has been sentenced to an additional two years for mail fraud.

He was charged with issuing bad checks to pay for merchandise ordered by mail. Evidence introduced at his trial showed that he gave his address as Apartment 6-A, 1515 Gist St.

That's the street number of the South Carolina penitentiary.
