

Ike Names 'Czar' to Push Missile Program

GM Reveals '58 Light, Medium Trucks

President Moves to Close Red Gap

FROM OUR WIRE SERVICES

WASHINGTON—America's lagging missile program is on a "crash" basis today under a "czar" appointed by President Eisenhower to slash Pentagon red tape and end inter-service rivalries.

The job of overtaking Russia's lead in the satellite and guided missile race was assigned by the Chief Executive last night to Massachusetts Institute of Technology President James R. Killian.

The noted educator and scientist was directed to push ahead with the "utmost possible speed." He assured the President he would marshal "the best scientific and engineering judgment and creative talent in the country" for the task.

Eisenhower announced the appointment of Killian in a nationwide radio-television address in which he disclosed several major U.S. achievements in the missile field.

These included solution of the so-called "re-entry" problem, the most difficult obstacle to development of a successful intercontinental guided missile.

To the millions of Americans watching on TV, the President exhibited the undamaged nose cone of a missile that had been fired hundreds of miles into space.

It was dramatic evidence that the atomic warhead of a projectile arched hundreds of miles into the sky could reach a target in enemy territory without burning up as it reentered the earth's atmosphere.

UP 4,000 MILES

Eisenhower also revealed that an Air Force Snark missile hit a target over 5,000 miles away and that the U.S. has fired three rockets.

Temperature Drop, Snow Due Tonight

Temperatures will drop sharply tonight and snow is expected. The U.S. Weather Bureau predicts sub-freezing temperatures for the Pontiac area tonight, with snow flurries likely. The low will be 30-32.

Football fans should be prepared for a cold day tomorrow. The outlook for Saturday is cloudy and cold with snow flurries. The mercury is expected to only go to 36-40.

For Sunday, the weather man says partly cloudy with continued cold and snow flurries.

A mild 46, was the lowest recorded temperature in downtown Pontiac preceding 8 a.m. today. Forty-nine was the reading at 1 p.m.

Hats Are Off in Salute to City Industries

Chamber of Commerce Celebration to Feature Many Displays

It will be hats off to Pontiac Motor Division, GMC Truck & Coach Division and other city industries during tomorrow's "Salute to Industry" show of the Pontiac Area Chamber of Commerce.

Top feature of the six-hour celebration will be the introduction of the 1958 Pontiacs and GMC trucks.

Three separate showings will be held of 16 new Pontiacs (this represents every new style on the market), 12 new trucks from pickups to tandems, a new General Motors bus, displays of six local industries, and a modern house trailer from the Hutchinson Trailer Sales.

The shows will be held on West Huron between Saginaw and Wayne (9:30 to 11:30 a.m.), at the Miracle Mile Shopping Center (noon till 1:30 p.m.), and at Tel-Huron Shopping Center from 2 to 3 p.m. There will be no charge for the shows.

A colorful caravan of the 30 vehicles will move the shows from place to place.

While Pontiac area persons examine the cars and trucks from bumper to tail, the rock 'n' roll music of the Bobbie Barnes six-piece Combo will provide some added entertainment. The combo's vocalist will be Bill McLain.

Featured also with the band will be Pontiac's beautiful contributions to the singing fraternity — lovely Mrs. Gunvor Ryden and Pat Morris.

Displays from Universal Oil Seal, American Forge & Socket, Dostal Foundry, Baldwin Rubber Co., Superior Metal Products Manufacturing Co. and Jig Bushing Co. will be shown on the back of six trucks during the shows.

Capt. Joseph Koren, head of the Pontiac police traffic and safety bureau, announced that West Huron between Saginaw and Wayne will be barricaded until 11:30 a.m. All parking will be prohibited on Wayne between Huron north to Lafayette.

East and west bound motorists are urged to take either Wayne or Lawrence streets as alternate routes during the first show.

Rogers Takes Oath

WASHINGTON (INS) — William P. Rogers takes the oath of office today as Attorney General of the United States and becomes the youngest member of President Eisenhower's cabinet.

Hannah Speaks on Oakland MSU Branch

GLAD TIDINGS—Details on Michigan State University's opening branch college on Meadow Brook Farm, near Rochester, were given yesterday by Dr. John A. Hannah, MSU president, second from right. Discussing the news with him are members of the Citizens Advisory Council for the college, from left, A. C. Girard,

president of Community National Bank; Dr. Dana P. Whitmer, Pontiac schools superintendent; and S. E. Knudsen, Pontiac Motor general manager. Dr. Hannah also learned yesterday that President Eisenhower had named him to the new Federal Civil Rights Commission.

MSU Oakland Branch to Open in Fall

Expect 500-1,000 Enrollment

Michigan State University's Oakland branch college will open in the fall of 1959 with an estimated enrollment of 500 to 1,000 students. Dr. John A. Hannah, MSU president, said yesterday.

He addressed 468 members of 15 luncheon and service clubs from Oakland and Macomb Counties at the Elks Temple.

Dr. Hannah said that the Citizens Advisory Council which has worked with MSU on the new college will meet today at East Lansing to inspect architect's drawing of the \$2 million first building.

The new structure will be financed from the \$2 million gift

of Mr. and Mrs. Alfred G. Wilson, one-story section with scientific son of Rochester. It will be laboratories, two lecture halls, a erected on the Meadow Brook library and offices.

Its site will be along Adams road, on the east side of the estate. MSU last January.

Bids on the building will be let in January, Dr. Hannah said. The structure will contain a three-story section with 39 classrooms and a

City May Borrow on 1958, 1959 Taxes

See Way to Equip Hospital

If Pontiac General Hospital is to be finished, funds must be borrowed from 1958 and 1959 taxes on a tax anticipation note basis, said City Manager Walter K. Willman this morning.

"There is no other way," he said. "The hospital must be completed."

The City Commission will meet tonight in an informal emergency session to discuss this question. Commissioners are likely to approve this method at their regular Tuesday meeting next week.

The last-ditch means of financing the new hospital addition and renovating the present building was discussed yesterday after Carl I. Flath, hospital director, told commissioners of the

crisis facing Pontiac General because of lack of funds to finish the project.

Willman outlined that taking an estimated \$739,000 a year in tax anticipation notes from the city's do so.

\$900,000 capital improvement program for the next two years would provide the funds.

He pointed out that this would 2,500 to 4,200, 12.6 per cent prefer

By 1960, he added, Oakland and Macomb will have a combined population of 1,800,000, or the same as Detroit has today.

He said a survey of the two counties made by MSU showed that 1,200 of the 27,836 adults included are certain they would take college work at the branch and anticipated notes from the city's do so.

Of the regular students who this week's puzzle, turn to Page 14 and read the explanations given by the puzzle writers for their choice of words.

Dual Headlights Now Standard on Entire Line

New Styling Gives Owners New Values, Says Monaghan

Truck styling, growing rapidly in commercial value to truck owners, came to its postwar peak today as the GMC Truck & Coach Division announced its 1958 model GMC light and medium duty trucks.

The new line of GMCs features dual headlamps blending smoothly with new grille, hood and fenders to shape an exterior counterpart equal in significance to the powerful new V-8 engine beneath.

In making the new model announcement, Phillip J. Monaghan, vice president of General Motors and general manager of the division, said the styling and engineering improvements for the 1958 product give truckers an entirely new set of values for their businesses.

"In the refreshingly beautiful appearance of our GMC models we are offering truck buyers a smart new 'face' for their commercial enterprises that will reflect their quality and up-and-coming facets so desirable to have seen and known," Monaghan said.

SUPERIOR PERFORMANCE

"At the same time, they can be sure of a superior mechanical performance that will give them

Pot-O-Gold Enters Dangerous-Zone Holding \$900

Another week without a winner has put Pot-O-Gold in the dangerous zone, as you know from past experience. Once the money reaches the \$1,000 mark, contestants go all out in their efforts to relieve the pot of its load. The harder people work and the more who enter the greater the possibilities of someone finding the correct solution.

This is the last chance you'll have to try the puzzle while it's still under the \$1,000 mark. To avoid seeing someone else scoop the riches into his own pocket, turn to page 28 and see if you can beat the others to the punch. You'll be \$900 richer.

To help select your answers for this week's puzzle, turn to Page 14 and read the explanations given by the puzzle writers for their choice of words.

Sleek New 1958 GMC Line of Trucks Puts Emphasis on Styling, Comfort, Power

STYLING BOOSTS VALUE — This GMC two and one-half ton stake truck of the new 1958 line announced today emphasizes smart

appearance, driver comfort, and plenty of power for all occasions. It has a new V-8 engine that generates 200 horsepower.

NEW LOOK — Dual headlamps, massive bumper and grille treatment combine to make this 1958 GMC pickup something that

truck-owners will be proud to have as a part of their firm.

TWO Truck Units Heralds New Models

(Continued From Page One)

high efficiency and economy of operation. The new GMCs for 1958 truly are hauling a new package of values to their owners."

One new model has been introduced to the GMC line, which ranges from half-ton units on up to highway tractors capable of hauling 90,000 lbs. gross combination weight.

It is a package delivery chassis of 16,000 lbs. gross vehicle weight, a new companion for the popular 7,000 lb. and 10,000 lb. GVW package delivery models.

TORQMATIC GEARS

A new transmission, the Allison Torqmatic, designed specially to meet the needs of truckers, has been placed in the new GMC models 370 and up through the 600, which cover weight ranges from 22,000 to 35,000 lbs. GCW.

The Torqmatic, succeeding the Hydra-Matic for these models is basically a torque converter in series with a planetary gear train operated through a hydraulic control system.

The famed Hydra-Matic transmission is remaining on the one-half through 2-ton GMC models.

A new GMC 336 cubic inch V-8 gasoline engine with unusual long-life features heads up a group of 9 gas and Diesel engines used through the GMC line. A valve-in-head 90 degree V-type, it develops 200 gross horsepower at 4400 RPM and a gross torque of 307 pounds-feet at 2,000 to 2,400 RPM. It has a compression ratio of 7.5 to 1.

The 336 engines available in all models up through the 500 series.

DUAL HEADLAMPS

The new dual headlamps are far more than a styling innovation. The new four-lamp system gives better control of light, particularly in the low beam, greater low beam range and chassis improvements add strength, safety and long-life factors to the new models.

A heavier, stronger front frame cross member provides greater frame rigidity and minimizes front end flexing on all GMC models from the 100 series on through the model 370.

Exhaust and vibration noises will be reduced as a result of new flexible muffler and tail pipe mountings on GMC models 100 through 250.

Bendix power steering units are available on models 350 and up, a change from former power steering units to give smoother steering.

On GMC models 100 and 100-8 a Power-LOK differential which permits the rear axle to send the greatest driving force to the wheel that has the best traction will be offered.

By E. H. SIMS

Know the Weather

Why does a cooling of the air often produce clouds?

The air always contains a certain amount of moisture. When there are no clouds in the sky, the moisture is invisible, but it is there. Cooling condenses air and reduces its capacity to retain water.

In doing so, the invisible water particles in the air become relatively greater in content and finally become visible droplets of moisture. A cloud, then, is the result of cooling of air which changes invisible moisture into visible form.

This cooling process also produces fog—the lowest of the clouds. The sun's heating of the earth, which, in turn, heats the air above it, which rises and is cooled in the higher altitude, causes the formation of most clouds.

The Weather

Pinpoints Area Freeway 'Trouble Spots' Like Names 'Czar' to Push Missiles

The proposed Oakland County expressway could be under contract in about two years and be a reality in five "if we have no trouble," State Highway Commissioner John C. Mackie said yesterday.

"Trouble" could occur, said Mackie, if the communities affected refuse to agree on the exact route, if the communities and the county quarrel over their shares of the total cost, and if the present picture for anticipated road funds is altered.

Mackie said yesterday the road should cost about \$48 million, including right-of-way, with 90 per cent of the cost to be paid by the federal government, 5 per cent by the state, 2 1/2 per cent by the county and 2 1/2 per cent by the communities involved.

He said he was willing to budget anticipated state and federal funds to construct the road as part of the \$632,000,000 system of express-

ways and superhighways he announced yesterday for the Detroit metropolitan area during the next 10 years.

Mackie said he preferred a route on the east side of Woodward avenue (U.S. 10) from Detroit to Flint.

ROUTES POSSIBLE

The expressway could either bypass Pontiac on the east, or pass through the northeast section of the city along the proposed turnpike route which was approved two years ago by the city.

"It will be up to each community to come to an agreement with the highway department on the exact route of this new road," Mackie said. "We will not begin any construction until the entire route is agreed on, and right-of-way has been purchased."

Other cities through which the road might pass: Madison Heights, Hazel Park, Ferndale, Royal Oak, Clawson, Troy, Birmingham and Bloomfield Hills.

Present planning indicates the road should begin in Oakland County somewhere in the vicinity of Eight Mile road and Stephenson highway, Mackie said.

TIMES SCHEDULED

However during the first five years of Mackie's 10-year plan, the road will be pushed only as far as Eleven Mile road. During this same five years, he said, construction of the Hastings-Oakland expressway on Detroit's near-east side also will begin.

During the second five years, the \$15-mile link between the Oakland County expressway and the Hastings-Oakland expressway should be completed, Mackie said.

"The finished road will be a new U.S. 10, designated as an interstate highway," Mackie said. "It will connect at the north with other expressways already announced, and provide limited-access travel from downtown Detroit to the MacKinnon Bridge and the Soo."

At a press conference yesterday, Mackie went to a map of the metropolitan area and ran his finger along Woodward from Detroit to Flint.

BUSIEST ROAD IN STATE

"This is the heaviest traveled road in Michigan. I'm happy that we can plan on building a new road there."

North Woodward, a 3-lane state trunkline, has a safe 24-hour traffic capacity of 50,000 vehicles, he said, while a 6-lane divided expressway, like the proposed Oakland County expressway, has a safe 24-hour capacity of 100,000 vehicles.

"The new expressway will help meet traffic needs for a number of years to come," Mackie believed.

A month ago, when Mackie announced highway plans for outside Michigan, he said there was no room in the plan for an Oakland County expressway. "I would prefer to build it, but can't," he said.

The big obstacle to the road, Mackie said, then, was a commitment by the previous highway administration to the extension of Northwestern Highway across Oakland County to the Fenton-Clio expressway.

Mackie said he went to Kavanagh once again, and this time the attorney general said that as highway commissioner, Mackie was bound by law to build roads for the good of the public.

UAW Board Convenes

DETROIT (U-P)—The United Auto Workers Union's Public Review Board met Thursday to begin its first deliberations. It had 13 cases to consider.

ets to heights between 2,000 and 4,000 miles.

The President conceded frankly that the Soviets are "quite likely" ahead of the U. S. in some phases of missile development and "obviously" ahead in satellites.

But he expressed his conviction that the over-all military strength of the free world is "distinctly greater" than the combined might of the Communist powers.

He warned that the West could fall behind in the space-age com-

DR. JAMES E. KILLIAN

petition with the Soviet, however, unless it moves with all possible speed to close the gap dramatized by the Russian Sputniks.

DEMS CRITICAL

The President's speech, first of a series of addresses designed to reassure Americans of the basic strength of security programs, failed to satisfy his democratic critics on Capitol Hill.

While they hailed his decision to name a missile czar, they found little else in the address to praise. Senate majority leader Lyndon Johnson expressed disappointment that the president had not stressed "what we need to do as well as what we have done."

A number of Republicans had joined Democrats in urging appointment of a missile czar to end the rivalry between the Army, Air Force and Navy that has been blamed for at least some of nation's missile troubles.

In a plea for a bipartisan approach to the problem, Eisenhower declared:

"It reminds us once again that we are not partisans of any kind, we are Americans! We will close ranks as Americans, and get on with the job to be done."

SPECIAL ASSISTANT TITLE

Killian will operate from the White House, with the title of "Special Assistant to the President for Science and Technology."

Eisenhower also directed that the Pentagon's guided missile expert, William M. Holaday, be armed with extra authority to cut through service rivalries and red tape.

The President, who said he was deliberately presenting both the pleasant and unpleasant facts, gave a more cheerful picture in the atomic field.

He said: "Our scientists assure me that we are well ahead of the Soviets in the nuclear field, both in quantity and in quality. We intend to stay ahead."

He called for a pool of free world scientific resources to meet the Soviet challenge on a broader front, however. It doesn't make sense, the President said, to deny to our Allies scientific information that we know the Russians have anyway.

While agreeing that top priority must be given to the missile program, Eisenhower said it would be foolish to boost other defense spending and restore personnel cuts in the armed forces, as demanded by some congressmen.

Eisenhower hammered hard at what the United States already has accomplished in the fields of missiles and other modern weapons.

Air Rifle Firm to Leave State

Daisy Company Plans Arkansas Move; Costs Too High in Michigan

DETROIT (U-P)—Daisy Manufacturing Co., maker of air rifles and toy weapons has announced plans to move its Plymouth, Mich., plant to the Ozark Mountain town of Rogers, Ark., next May.

Michigan's "unhealthy economic climate" was given by a company official as a reason for the proposed move.

The plant employs about 700 in the manufacture of cap pistols, holster sets and other types of juvenile armament.

Including fringe benefits, the average hourly wage at the Michigan plant is \$2.24, said Cass Hough, executive vice president of the firm. Wages at the new plant in Arkansas will be about \$1 an hour less, he said.

"Small industry in Southeast Michigan doesn't have a chance," Hough said. "We're forced to pay what the giants of industry are made to pay by the UAW and CIO."

The Day in Birmingham Local Moms of America to Sponsor Veterans Day

BIRMINGHAM — Under the sponsorship of MOMS of America, plans are completed for the observance of Veterans Day here on Monday afternoon.

In a two-hour program set for 1:30, area men who gave their lives in World War II and the Korean conflict will be paid a special tribute.

The program also will include a talk on the hospital volunteer by M. L. Whitaker, director of volunteers at the Dearborn VA hospital and Congressman William Broomfield who will speak on Veteran's Legislation.

The tribute to men who died in battle will be given by the Rev. Emil Kontz, D. D., of the First Baptist church. A representative from the Nike Base at Auburn Heights will speak and color slides of the MOMS services will be shown.

Mrs. Howard R. Estes, president of the local unit, said the afternoon would close with a social hour and refreshments.

"Ontario Safari" will be the travel film shown at the conclusion of the YMCA - sponsored Family Swim program at Barnum junior high school tonight. Swimming is at Barnum from 7:30 to 8:30 p.m., with the film and social hour at the Y building on Lincoln avenue. Members of the Y may obtain swim tickets at the office without charge. Admission to the pool is by ticket, only.

The family suggests memorial tributes be sent to the Kiwanis Club No. 1 Foundation for Underprivileged Children, Kales Building, Detroit 26.

Crash Wrecks 1923 'Star' Auto in Its Prime

COLUMBUS, N.J. (U-P)—Walter B. Bowne will have to drive his work vehicle from now on. His "good car" was wrecked last night. The body of Bowne's 1923 Star was ripped from the chassis when another vehicle smashed into its rear. The 68-year-old electrician and dairy farmer escaped with a few cuts.

But, he lamented, they don't make them the way they used to, and the Star was a "good car."

He said his work vehicle is a 1922 Model T Ford.

Police said Bowne has maintained both cars through the years, and they passed the 1957 New Jersey motor vehicle inspection.

A NEW KIND OF CAR

BOLDEST ADVANCE

THIS IS THE GOLDEN JUBILEE CAR
—a revolution on wheels—boldly planned from
the very beginning as a Golden Anniversary
showpiece for Pontiac and General Motors.

This one you really must see—here is a car unlike any you have ever known! The Golden Jubilee Pontiac is actually an all-new breed of cars—in four brilliant series and 16 sleek models covering virtually every price bracket.

In all of them you'll find engineering advances so daringly different yet so basically sound that they will trigger the next big change in

automobile design. You'll find a few of these ideas illustrated here, but even they can't begin to tell the full story.

There's much, much more: new jeweled-action power; a new transmission; new handling; new comfort; new styling . . . and the unbelievable luxury of new fabrics and wall-to-wall carpeting even in the lowest priced models.

Why not be among the first to discover the newest. Try the newest of all the new cars. We promise you you're in for a driving thrill that is impossible to duplicate in cars of conventional design. So make it a point to see your Pontiac dealer soon and prove to yourself that no car in history ever left yesterday so far behind.

Ever-Level Air Ride*

The most perfect suspension system ever developed—and Pontiac's revolutionary Aero-Frame is specifically designed for it! Air cushions on all four wheels literally float you over the bumps . . . keep the car perfectly level regardless of load or road!

Circles-of-Steel SAFETY

Pontiac's completely new body construction surrounds you with girder steel protection—above, below, fore and aft. Now you can drive with wonderful new peace of mind!

Aero-Frame STABILITY

Here is the biggest basic construction change since the early days of motoring. Pontiac's revolutionary new frame design is lighter, stronger, more stable than the conventional box type used on other cars.

Tempest 395 PERFORMANCE

Try Pontiac's new jeweled-action response! Scores of exclusive engineering innovations make Pontiac's hefty power plant a miracle of smoothness . . . and you can choose from four horsepower ratings—including Tri-Power Carburetion* and Fuel Injection*.

*An extra-cost option.

IS BORN! *Tomorrow at Your Pontiac Dealers!*

IN 50 YEARS!

New Direction **STYLING**

Here's a fresh new look in automobile styling—and only Pontiac has it! From classic grille to bold rear end, Pontiac makes a decisive break with the fads and frills! And despite its 4½ inch lower silhouette, there's more room inside than ever!

Quadra-Poise **ROADABILITY**

Only the wheels know where the bumps are! Pontiac's new suspension geometry ends dive, sway and bounce to bring you the smoothest ride, easiest handling you've ever known!

LET ME AT 'EM — Rehearsing for the Waterford Township High School Dramatics club play are Don Tate, of 5805 Pontiac Lake Rd., Waterford Township; Bill Barnett, 4346 Louella St., Drayton Plains; Don North, of 6916 Desmond Rd., Waterford Town-

ship and Ruth Ann DeGrow, of 2401 James K, Waterford Township. The play, "The Remarkable Incident at Carson Corners," opens tonight for a two-night run.

PHS Students Record Attendance; Receive Practical Work Experience

Dramatics Club Announces Play

Pick Chinese Classic
'The Lute Song' by Kia
for Winter Production

By WILLIAM BANK

In a large school such as Pontiac High, it is rather difficult to keep track of all the students. The attendance office, directed by Harold Smead and Mrs. Marjorie Lowry, has approximately 40 students who help keep tab of everyone.

These students work in the attendance office during their free periods. They first pick up the absence slips from the class rooms. Then they record the absentees on the "long sheets" which tell the students name, grade, and how many hours or periods he has missed. From there the information is transferred to the files.

By helping the school in this manner, the students get experience in filing, recording, answering phones and taking messages.

For their winter production the PHS' dramatics department will present a Chinese classic which has been dramatized for more than five hundred years. Its name is "The Lute Song" or "Pi-Pa-Ki," and was written by Kao-Tong Kia.

The members of the cast for this play are Alvin Higgins, Honorable Tchang; Bob Thompson, Tsai-Yong; Sam Karaguleff, Tsai; Terri Fortino, Madame Tsai; Judy Baker, Tchou-on-Niang; Carl Code, Prince Nieou; and Judi Johnson, Princess Nieou-Chi.

Other members of the cast are Dorita Carlisle, Si-Tehun; Clarice Graves, Governess; Dick Hathaway, Li-Wang and Priest Amidu Buda; Lynn Walker, Youen-Kong; Joanne Wood, marriage broker; Bill Bank, food commissioner; and Phyllis Wardell, Holy man.

Other cast members are Sam Hartman, priest; Alvin Lambert and Bruce Bishop, first and second clerks respectively; Kay Hamilton, old man; Levi Williams, blind man; Judy Kenny, Bonze; and Harold Hansen, a merchant.

Others are Barbara Wolfe, a little boy; Sharon Walenick a child; Lynn Thompson, a secretary; Bill Hanson and Adrienne Ressler, travelers; Nancy Fulkerson, beggar, woman; and Sandy McDowell, lamed beggar.

Assisting Garth Errington, director, will be Sharon Walenick, stage manager, and Sophia Skinner, student director. For this play Miss Mary Parrish will be in charge of the committees.

WIN QUIZ SHOW

A team of five students won honors for our school by participating in the Quiz-Em Show on WWJ-TV. They competed against students of Grosse Ile High.

The members of the team were Sharon Daniels, Judy Baker, Emmanuel Williams, Harry Van Matre and alternate Alan Higgins. They answered a total of 13 questions. As a result of the efforts of these seniors, advised by Peter Arts and Robert Rickard, the school will be presented with a new tape recorder.

From the fencing club that has recently started, PHS plans to select its fencing team. This club is open to anyone but the majority of the attendance is made by high school students. Instructor of this class is Mr. Eldon Gardener.

Name 'Gasoline Alley'

AKRON, Ohio (U) — Portage Terrace in nearby Cuyahoga Falls is gaining the nickname "Gasoline Alley." In a 1.4-mile distance, there are 11 service stations. One has a sign: "Better fill up here—last station for 50 feet."

Picnic Judges Morose

HANOVER COURTHOUSE, Va. (U) — Judges for the Hanover Farmers' Picnic were disappointed. Watermelons and cantaloupes were judged entirely on looks — no tasting.

Elect Morrow, Drake to Head St. Fred Clubs

By PATRICIA FOSTER

The Teen Club and the Future Nurses Club of St. Frederick High School elected officers this week. Teen Club officers include: President Sharon Talbot; Treasurer Bobby Jo Croesdell and Secretary Pat Meagher.

The Future Nurses Club officers are: Maureen Drake, president; Peggy Durocher, vice president; Pat O'Leary, treasurer and Mary Deerr, secretary.

Last week the group's guest speaker was Mrs. Charlotte Marrin, assistant director of the McCauley School of Practical Nursing. Members of the club will attend a tea at the McCauley school of practical nursing, 126 Fulton St. November 21.

Seniors who attended Catholic Theater Day at Marygrove College in Detroit Saturday were entertained. Various schools were excerpted from their 1957 senior plays. These were commented upon by Father Urban Nagle, a Broadway playwright. The information gained should make for bigger and better senior plays next year.

Baby Reactor Made

CANOGA PARK, Calif. — A Canoga Park concern has developed a miniature nuclear reactor for use in school, industrial, and medical laboratories. It can be operated by one man. The cylindrical reactor is 8 feet high and 8 feet in diameter. It sells for \$55,000 and can be installed without special facilities, the company says.

The principal region of foreign trade of the United States is the Western Hemisphere, half of these exports-imports being with Canada and Mexico.

Waterford Play Opens Tonight

By SANDY CLEMENCE

"The Remarkable Incident at Carson Corners," adapted from a television play by Reginald Rose, will be presented tonight and Saturday night by the Waterford Township High School Dramatics club.

The play which begins at 8 p.m. concerns the effect a student's death has on the people in the town of Carson Corners. At the trial resulting from the student's fall off of a fire escape, everyone in the town is found to be

indirectly responsible for his death.

Leading actors of the cast are: Don North, Bill Barnett, Don Tate, Ruth Ann DeGrow, A. J. Lowe, Rick Erikson, Eileen Walsh, Dunstan Smith, Carole Wade, Marla Cameron, Dayton Thomson, Carole Tynan, and John Teeuwissen.

Others are: Brenda Lewis, Dave Wilson, Nancy Raymond, Carol Saul, Jane Dovletian, Sara Barningham, Nancy Richards, Roger Meyers, Nancy Robertson, Bob Luther, Betty Vernon, Bob Burt,

and Ron Somerville. The play is being staged and directed by Patty Looman, dramatics advisor.

Three Inter-Lakes high schools, Waterford, Walled Lake and Farmington, were represented at a Discussion club debate at Farmington High School this week. The topic concerned the nature of our foreign aid program.

Those participating from Waterford were: John Teeuwissen, Carole Tynan, Ruth Ann DeGrow, Don Tate, Thelma DeBarr, and Dustin Smith. Also attending were: Joan Whit-

4 City Schools Sell Magazines

Lincoln Jr. High Choir Has Full Agenda

Highlight of the week at Lincoln Junior High School was the appearance in two assemblies of the Lincoln Concert Choir under the direction of Mr. Jerry Smith, head of the music department.

The group of 40 mixed voices balanced with 10 members in each of the four main parts presented a variety program of solos, ensembles, and choral arrangements in both secular and sacred numbers yesterday and today.

The program opened with "Psalm 150" by Levandowski. "You'll Never Walk Alone" by Rodgers, and "Plymouth Rock" by Scott, by the ninth grade chorus. They presented a mixed vocal ensemble of Deep Purple. A theme song written by the director, Jerry Smith, "Holiday Song" by Schumann, and selections from "Anne Get Your Gun" by Berlin formed the popular second group of numbers.

"When the Saints Come Marching In" an old Negro spiritual, and "Give Me A Song To Sing" by Elliott concluded the program.

Tom Eley, president of the choir, and Jerry Menter, vice-president, acted as announcers for the program. Special solos were presented by Karlene Walton, soprano; Pauline Noell, soprano; Ellen Cunningham, and Sandra Guye, altos; Jerry Menter, tenor; a duet by Pat Vandecar, soprano and Tom Eley, bass; and Eric Warren, bass. Jill Hicks assisted Mr. Smith in accompanying the numbers.

The Lincoln Concert Choir has presented six programs this fall including a full day of singing engagements in Detroit when the choir appeared at the Clara B. Ford School, Ray H. Adams Junior High School, and the Fred E. Mapes Junior High. The choir also appeared at Eastern Junior High and in a Lincoln PTA program in October.

Rehearsals are now underway

for two annual Christmas programs.

AT WASHINGTON

Washington Junior High students are working as a group to participate in the magazine sale being sponsored in conjunction with the Curtis Publishing Company. A school quota of approximately \$5,600 was set. Monday sales totalled \$817.

The entire student group working at this pace should easily top the quota. Top sellers will be rewarded and the money raised will go toward the purchase of new grapes for the library and to add to the new curtains already in the auditorium.

Members of the Model Airplane Club sponsored by Roger Gunn have recently added to their scheduled club meeting periods during the school week. Student interest has called for two recent Saturday morning meetings in the gym of the school. These morning scenes in the gym show almost any type hobby model.

The most recent faculty wedding was that of the former Kay Justin, homemaking teacher, who is now Mrs. Thomas Francis Devereaux.

AT MADISON

Madison's annual magazine drive got off to a thrilling start with the kick-off assembly Friday.

Dog Pleads His Case

DES MOINES (U) — Mrs. Mary Huncke, a member of the State Board of Social Welfare, recently helped care for an ailing daughter. Several times Mrs. Huncke answered the doorbell, but no one was there except her daughter's dog, Duke.

Mrs. Huncke thought some neighborhood children were being mischievous until she mentioned it to her daughter, who replied: "Oh, I forgot to tell you. Duke always rings the doorbell when he wants in."

LINCOLN CHOIR CONCERT TODAY — The 45 students at Lincoln Junior High School who are members of the concert choir have a busy schedule this fall, especially yesterday and today when they present the Fall Serenade. The group is under

the direction of Jerry Smith, head of the Lincoln music department. Plans for a Christmas program will follow today's concert.

Pontiac Press Photo

PHS HOOKEY RECORDERS — Keeping records of the attendance of Pontiac High School students is the job of the attendance office. Students Juanita Willis, of 228 Hughes Ave., (left)

and Hazelene Patton, 22 Luther St., (right) assist Mrs. Marjorie Lowry, 520 Roland Rd., during their free periods.

Troy Holds 1st Homecoming

Clarkston Rally Tonight

Clarkston High School will celebrate the third annual homecoming tonight under the reign of Homecoming Queen Judy Weaver.

The queen's court consists of Hazel Miller, Carolyn Warrick, Prudy Hutchins and Judy Booth. The five girls were selected by the Clarkston High School football team, who will tackle Brighton High School tonight.

A dance in the high school cafeteria will follow the game.

AT WALLED LAKE

J-Hop arrangements at Walled Lake High School are finally underway. A week from today, November 15, marks the big event, when the juniors hold their annual semi-formal prom.

It will be held in the senior high gymnasium from 8 p.m. until midnight and this year's theme is "Prelude to Winter."

Committee chairmen who have been named are Louann Pirtle, decorations; Frank Fink, refreshments; Tamara Cox and Karen Barr, music; Earline Hanson, monitors; Martha Thibideau, general planning; Janet Welch, tickets and programs; Jack Stewart, clean-up and Stewart MacKenzie, advertising.

The Student Council which canvassed every homeroom for the United Fund collected \$105 last week.

AT BLOOMFIELD HILLS

The Provincetown Players of Bloomfield Hills High School will present "Penny" for the second annual senior play, November 21-22.

Penny, by Mary Jane and Joseph Hayes, is based on the syndicated comic strip. The cast includes: Ellen Harr, Penny; Sue Boyd, mother; Gerry Gray, father; Jim Kuras, Doodie; Bob Herrgott, Elwood, and Nancy Layman, Aunt Ellen.

Others include Fred Pulve, Mr. Jackson; Joan Vandermere, Alice; Maryann Ogur, Norma; Sandy Clark, Mr. Dawson and Gary Miller, Cedric. Glenn Wooster will direct the play.

AT AVONDALE

The combined Little Brown Jug and Sadie Hawkins dance will be held at Avondale High School tonight from 8 to 11. Appropriate decorations for the dance with pictures of Daisy Mae and Little Abner, and little brown jugs will be the setting for square and round dancing. Music will be furnished by Hallis Hinkle with Harry Howard, caller.

Identification brackets will be given to the best dressed Daisy Mae and Little Abner. Admission will be 50 cents per person.

Frederic Sjobain, well known concert pianist will be the guest soloist at an assembly Monday.

Report Cards Due Monday at St. Mikes

By MICHAEL BUCHANAN
Monday will be another one of those days. Report cards are due then at St. Michael High School. Tuesday Father Immel and the boys of the high school had a Holy Name Meeting. They were then reminded to attend Mass Sunday to receive Holy Communion publicly in a body.

The Holy Name's main objective is to suppress the profane usage of God's name. All of the men and boys of the parish belong to the organization.

Saturday St. Mike's football team, at the annual homecoming game, trounced St. Mary's of Royal Oak to regain the roamin' jug, which was acquired in 1950. The score was 21-0.

AT LAKE ORION

Lake Orion High School students made out schedules this week for their parents to use Tuesday night when their parents will visit the rooms for the first time.

A program will be presented by the music department, Student Council members and the National Honor Society members will act as guides to help the "students for the night" find their rooms during the annual open house. Parents will report to the "office of the night" to pick up their schedules which will be alphabetized for convenience.

AT TROY

Tonight is Troy High School's first homecoming celebration. The court containing the yet unidentified homecoming queen includes: Sally Wilcock, Sally Carr, Barbara Wass, Sue Sloan, Bonnie Pirkel, Judy Sirocus, and Barbara Podous.

All of the alumni of the Log Cabin High School, Big Beaver and Troy are invited to attend the game between Avondale and Troy and dance which follows.

AT ROCHESTER

Rochester High School's \$500,000 gym, under construction for the past year, will be ready for use within two weeks according to Principal Harlan Johnson. Members of the color guard from the Auburn Heights Niki Base will be guests at the Annual Veterans Day assembly at school Monday.

Legislators in Wyoming Patch Up Hole in Law

LANDER, Wyo. (U) — The Lander city council recently passed an ordinance forbidding drinking in the city park. Then they discovered there was a hitch: The city park is outside the city limits. The council promptly passed another ordinance annexing the city park.

U.S. to Produce Powerful Fuels

High-Energy Compound for Rockets Now Being Developed by Navy

PITTSBURGH (AP)—A scientist revealed today that the United States soon will attain substantial production of boron-hydrogen high energy fuels, compounds which some sources suspect were the new type rocket power Soviet Russia says it used to fire Sputnik II into space.

"Project Zip" was the code name assigned to the research by the Navy in 1952. It has been classified as secret until very recently.

Pilot plant production of boron-hydrogen compounds has been under way for some time at the plant of Callery Chemical Co. in Butler County 25 miles north of Pittsburgh. Dr. George F. Huff, the company's director of research, told a reporter. The output has been devoted to research. A new four-million-dollar plant going into production next spring at Lawrenceburg, Kas., will produce "practical quantities," he said. Larger production will come from a 38-million-dollar plant scheduled to open at Muskogee, Okla., in January 1959.

Callery is a subsidiary of Mine Safety Appliance Co. Gulf Oil Corp. recently purchased 25 per cent of Callery stock and is assisting some of the research work. A number of other companies are engaged in similar work.

Power of a fuel is measured by the number of British Thermal Units of heat generated when it burns. Rockets convert this heat energy into motion energy.

For comparison purposes, the gasoline which powers your car yields about 18,500 BTU's per pound. The liquid burned by jet aircraft yields about 18,000 BTU's.

A pound of boron-hydrogen compound is more than 50 per cent more powerful. Decaborane, a solid, yields 28,500 BTU's per pound; pentaborane a liquid, steps up to 29,000 BTU's and diborane, a gas, goes to 32,000.

Hydrogen alone yields 52,000 BTU's. But it is a tricky gas which can be solidified only at hundreds of degrees below zero and Dr. Huff says chemists have been unable to find any practical fuel above the 32,000 BTU level.

Boron-hydrogen compounds appear to be "the approximate ceiling for chemical energy," he says. The next step is nuclear fission or fusion as a propellant force.

Lawmakers Get Phony Invitations to Reds' Shindig

WASHINGTON (AP)—Phony invitations to last night's anniversary party at the Russian Embassy were received by many members of Congress.

The handsomely embossed fake invitations were for a celebration "of the 40th anniversary of the world's most powerful slave empire and the farewell party in honor of our former minister of defense, Marshal Georgi Zhukov." Zhukov was removed from his post a week ago.

Commented a Soviet Embassy spokesman: "It's obviously a not very clever attempt to be funny. It's a very poor joke."

1st Monument to Woman

WASHINGTON — Perhaps the first monument erected to a woman in the United States honors Hannah Duston, who was captured by Indians at Haverhill, Massachusetts, in 1697. Hannah, another woman, and a boy supposedly killed ten Indians to make their escape. The statue at Haverhill shows Hannah with her tomahawk in her hand.

Technique for Starting 20th Anniversary

NEW YORK (AP)—As any ordinary happy man does, I awoke as usual this morning with the pleasurable sensation that my wife was pouring champagne on my toes.

I awoke and discovered, as usual, that my wife was not pouring champagne on my toes.

"Do you know what day this is?" she asked.

"This, my dear," I assured her, "was the day I destroyed you forever, just two decades ago."

"You were a carefree, bare-minded working girl, and I did the most cruel thing a man can do to an innocent girl with a purpose in way?"

"Don't you think we should celebrate?"

"Celebrate what?"

"This is an occasion."

"Living with you, every day is an adventure. Being married to a Mau-Mau might offer the opportunity of an occasion. Being married to you every moment, even after 20 years, has its strangeness."

"Well, I didn't have to marry you. I could have married any number of men. And why I picked you I don't know. And who else could you have married, any-

Live in Natural Caves

WASHINGTON — In Spain's southern provinces entire communities live below ground in natural caves. Their homes vary just as houses do: Some have only a single room, others as many as 20 chambers with tiled floors and whitewashed walls. Granada's caverns, a center of flamenco art, have sheltered many of Spain's finest singers and dancers.

"Which Mau-Mau?"
"You don't make sense."
"Do you want me to make sense?"
"Some days."
"Then marry another man on those days."
"But you aren't at all altogether satisfactory."
"I'm not?"
"No, you're not!"
"But you are!"
"But do you really mean it? I mean from the heart?"

"Well, I'd rather have you than any Mau-Mau I know."
"You're sure?"
"Sure. Will you do me a favor?"
"What?"
"Is there any champagne in the icebox?"
"Yes. Why?"
"Will you open a bottle and pour it slowly over my toes?"

"No, I won't. And why do you ask such a crazy thing?"
"Because I know you wouldn't."
"Do you really think this is the way to celebrate a 20th wedding anniversary?"
"No, not if you don't wake me up by pouring champagne on my toes. This is my anniversary, too."

Now Many Wear FALSE TEETH With Little Worry

Eat, talk, laugh or sneeze without fear of insecure false teeth dropping, slipping or wobbling. FASTEETH holds plates firmer and more comfortably. This pleasant powder has no gummy, gooey, pasty taste or feeling. Doesn't cause nausea. It's alkaline (non-acid). Checks "plate odor" (denture breath). Get FASTEETH at any drug counter.

Hurries Back to Jail, Afraid of Getting Shot

THE YEAR'S NEWEST CAR, THE NEWEST CAR IN YEARS ... '58 CHEVROLET!

Impala Convertible—one of two new super models in the Bel Air Series. Chevy's boldly sculptured beauty sets a new style in styling. Body by Fisher, of course.

Bel Air 2-Door Sedan—a beautifully moving thing. New, safer and smarter dual headlights are accented by dual-styled parking and directional signal units.

It's almost too new to be true! It sets a new style in styling. It takes a new approach to power. It's new right down to the smooth and solid way it rides. Now for '58, Chevrolet takes the giant step—the biggest, boldest move any car ever made!

It's long, low and luxuriously new—the beautifully moving '58 Chevrolet. It's new from ride to roof . . . new in every gracefully sculptured contour, from its bold new grille to its unique gull-wing rear fenders. And it offers quick-responding power aplenty in any engine you pick—V8 or 6.

NEW BODY-FRAME DESIGN

Chevrolet's new low-sweeping silhouette for '58 combines a new Body by Fisher with a new X-type frame. It's dramatically lower and wider—and a full 9 inches longer!

NEW TURBO-THRUST V8

Chevrolet unveils the revolutionary Turbo-Thrust V8* with Wedge-Fire design. Wedge-shaped combustion chambers precision-machined in the cylinder block help achieve a new pinnacle of performance.

NEW FULL COIL SUSPENSION

Deep-coil springs provide cradle-soft action at every wheel, completely replacing conventional leaf spring rear suspension.

A REAL AIR RIDE

Chevy's new Level Air suspension* carries you on cushions of compressed air, with all its natural shock-absorbing properties.

THE BEAUTIFUL WAY TO BE THRIFTY

Never before has there been so much low-priced luxury! Sedans with thin pillar styling . . . stunning interiors . . . a new foot-operated parking brake. Your Chevrolet dealer is waiting right now to show you the beautiful way to be thrifty—the '58 Chevrolet.

*Optional at extra cost.

'58!

Mancini of California interprets the shift look in a one-piece design of navy blue, and gives it a middy line by the use of red and blue grosgrain ribbon around the hips.

Dorothy O'Hara molds black silk surah into a wrapped skirt. On the bodice are hand-screened red roses, a style typical of this designer.

Pink-Blue Shower Is Held

Mrs. Billy Wisheart was honored at a pink and blue shower Thursday evening at the Old Lane drive home of Mrs. C. W. Griggs. Co-hostess for the evening was Mrs. W. Earl DeMond.

Attending were Mrs. Walter W. Babb, Mrs. Frances McCue, Mrs. Lester Stanley, Mrs. James Rowland, and Mrs. Robert L. Burmeister.

Also present were Mrs. William St. Charles, Mrs. Clyde Cronover, Mrs. E. A. Reitmeyer, Mrs. Cordell Tompkins Jr., Mrs. William Hartman, Mrs. Alton Owens, Mrs. William Joyce and Mrs. Edward Vanderworp.

Mrs. Alfred Koop, Mrs. Jack Bailey, Mrs. Kenneth Hoard, Althea Leonard, Sandy Arnold, Norma Ainsley and Mickey Tersigni attended.

Others were Mary Eleanor Lockman, Janet Guoin, Jeannette Davies, and Shelby Hahn.

Mrs. Roberts Hosts Beta Theta Phi

Mrs. Farrell Roberts opened her LaFay avenue home Thursday evening to members of Beta Theta Phi sorority. Mrs. Ovis Gidcomb gave a plastics demonstration.

Mrs. Ward Ross collected articles of clothing from members for Needlework Guild's Ingathering.

Wash Frequently

Decorative glassware that's kept out on display should be washed frequently in hot soap or detergent suds to maintain its luster, shine, and attractiveness.

News From Birmingham, Bloomfield Hills

Musicale to Feature Area Artists

BIRMINGHAM — Birmingham Musicale has planned a Nov. 14 afternoon of presentations that will be performed by local artists.

"Monette," a gay melodic "demi-opera" by Jeannette McKee, a former Detroit resident, will be featured.

In the cast will be Mary Pardee, Ruth Killen, Beverly Steif, Mioma Sherman, Anne Molloy, Dorothy Mitchell, Marie Wilson and Nell Herzberg, all originally from Birmingham.

Marie Wilson is directing and Miss McKee will come from New York where she now lives, for the affair.

STUDENT FEATURED

Also headlined will be Penelope Ball, daughter of Mr. and Mrs. L. W. Ball, whose work as a pianist and composer have won her scholarships to Interlochen Music Camp. She is a student at Birmingham High School.

John Boulton, flutist, who is currently student-teaching in Birmingham, will have a place

on the program. He will be accompanied by Kent McDonald, well-known pianist, organist and choir director at St. James Episcopal Church in Birmingham.

Mrs. Donald A. Harnsberger, chairman of the day, will be assisted by Mrs. Charles Currie, Mrs. C. C. Richard, Mrs. Maurice Garabrant and Mrs. W. Gerald McCray.

Hostesses will be Mrs. John Wright, Mrs. Walter S. Skinner and Mrs. Stanley Burton. Presiding at the tea tables will be Mrs. Donald Bigge, Mrs. A. Edgar Ebersole, Mrs. Donald T. Stanton and Mrs. William Busch.

In charge of house and stage will be Mrs. Busch and Mrs. Frank Heath.

MRS. DAVOCK TO VISIT

Mrs. Harold N. Davock, who formerly lived in Birmingham, is the guest this week of Mrs. Harrison Thurston of Colonial court.

Mrs. Davock is en route to Fort Lauderdale, Fla. where she will spend the winter. Mrs.

Davock divides her time between Florida and Torch Lake, her summer home.

Mr. and Mrs. Howard H. Fitzgerald of Bedford road have invited Mr. and Mrs. Christian DanHerder of Holland, Mich., to spend next weekend with them.

Mr. and Mrs. Charles D. McCall of West Lincoln road will have as their guest the weekend of Nov. 23, Charles Shriner of Columbus, Mo.

Together they will attend the Michigan-Ohio State game in Ann Arbor.

Mrs. Ralph Reeves is chairman of the women's card luncheon and fur fashion show at Birmingham Country Club next Wednesday.

Mrs. John S. Larkins and Mrs. Jack A. Nancarrow are her assistants.

The show will include the original fur collection of the late designer Christian Dior.

BLOOMFIELD HILLS NEWS

Mr. and Mrs. H. W. Taylor

Stylist for Grace Kelly 'Old Hat' to Daughter

By JUDITH L. CLEMENCE
Women's Editor, Pontiac Press

LOS ANGELES—Movie designer Helen Rose, who does wardrobes for such glamorous gals as Liz Taylor and Grace Kelly, can't dream up creations to please her own daughter, Judy. This 20-year-old thinks her mother is living in the "Olden Days." (You'll remember Miss Rose did Grace Kelly's trousseau).

We learned about daughter, Judy, at a dinner party at MGM Wednesday. Tables were set up on a stage set with glittering chandeliers over a tremendous double stairway covered with red velvet carpeting. This same setting was used for "High Society," "The Swan" and "Gigi."

SCORNS CHEMISE

More important, Miss Rose, who sat at our table, took a definite stand when asked how she liked the chemise. She said, "I think it's perfectly dreadful. I don't think American women will take to it."

The academy awarding winning designer, who now is doing wardrobes for TV as well as movies, presented some of her fashions for "The Thin Man" series.

One outfit designed for Phyllis Kirk, co-star of the series, has a brown wool jersey skirt, coordinated with a jacket and hood that drapes into a cowl collar. A printed sheer blouse and a long wool skirt, which Miss Kirk wore to the party, converts to an evening gown when the jacket is removed. Miss Kirk will be seen in this outfit in "The Fashion Show."

MRS. CLEMENCE

down" an episode in the series. Fifteen visiting fashion editors, including your reporter also will be seen in the program to be released in December.

In the film we merely sit watching models parade, just as we've been doing this week in Los Angeles.

The dress picture is still

This nautical dress of sailtone is short-sleeved, and the bodice laces over a striped dickey. Jeannette Alexander is the designer.

Auxiliary Plans Fair on Nov. 13

Mrs. Frank Arnoldi and Mrs. Rogers Marquis have been named cochairmen for the fall fair to be held by Women's Auxiliary of Episcopal Church of the Advent Nov. 13.

Subchairmen include Jean Arnoldi, Christmas decorations; Mrs. Hugh Macduff, snack bar; Mrs. C. Sanborn Hutchins, imports, and Mrs. Robert Kent, merchandizing and handwork.

Mrs. George Wilde is in charge of baked goods; Mrs. Bernard Head, candy; Mrs. Glen Warner, children's shop, and Mrs. John Wigle, baby-sitting.

There will be a food specialties shop under the direction of Mrs. Marquis, and Mrs. Frank Read is handling publicity. Mrs. John Black and Mrs. Russell Meyer are serving on the central committee in an advisory capacity.

Proceeds from the fair will go toward a building fund for Church of the Advent.

Broomfield Talks Defense at Zonta Club Luncheon

William S. Broomfield, U.S. Representative from 18th Michigan district, was speaker at Zonta Club's luncheon meeting Thursday at Hotel Waldron.

He told of his experiences as a Michigan legislator and of his first year in Washington, D. C.

Representative Broomfield said that we must not be complacent about Russia's launching of satellites but pointed out we have been first in atom bomb, hydrogen bomb and nuclear reactor development.

While he said there should be ample funds available for

pointed out that we are prepared.

Broomfield is a member of the Public Works committee and is promoting a bill to give the president selective veto power.

Waterford Gardeners Gather

Forty members and guests were in the Maceday Lake home of Mrs. D. F. Hoyt for Thursday's meeting of Waterford Branch of Woman's National Farm and Garden Association.

Hostesses were Mrs. Ashton Emery, Mrs. Norman Hill, and Mrs. E. L. Windeler.

Mrs. John Nez reviewed the book "Last of the Curlews." The tea table was decorated with arrangements of pink chrysanthemums and snapdragons, flanked by blue and gold venetian glass birds.

Among the guests were Mrs. Ralph Dikeman, Mrs. Vivian Tubbs, Mrs. Albert Koh, Mrs. Clyde Herrins, Mrs. Arthur Meyer and Mrs. Matthews.

Do-C-Do Dance Is Held

John Kline served as master of ceremonies Thursday evening when Do-C-Do Square Dance group met in the multipurpose room of Central School.

Callers were Rex Lawrence, John Streit, George Newton, William Brown, Robert Newill and George Harkless.

Among the guests were Mr. and Mrs. Ralph Sherrod, Mr. and Mrs. Richard Irwin, Mr. and Mrs. Virgil Newton, Mr. and Mrs. John Costello and Mr. and Mrs. Jack King.

Mr. and Mrs. Albert Kiss-hauer and Mr. and Mrs. Russell Fahr were received as new members.

Research and that he favors a cabinet officer in scientific fields, he indicated we need not be too alarmed about the possibility of an all-out war. He

Youngsters Like Bright Blossoms

MADISON, Wis. (INS)—The flowers you bring indoors should be keyed to people as well as home decorating schemes.

Ruth Davis, related art instructor at the University of Wisconsin, says, for example, that bright-colored flowers should be used for a children's party because those hues are most attractive to small fry.

On the other hand, muted colors are most pleasing for adult affairs, she said.

undecided. Some designers strongly favor the chemise. One of the backers of the new look is Phil Altbau. The chemise in this group seemed less "shocking" than some we've seen. One two-piece dress had a slim pleated skirt with a straight middie over-blower. This appeared more of a compromise between the new and the old look.

COSTUMES VERSATILE

Dede Johnson showed dresses with relaxed waistlines and shortened the hemlines by about one inch. The versatility typical of this designer's costumes is noted in the reversible jackets and detachable collars. Important colors are emerald green, sunset coral and Capri blue.

The mattress-ticking sundress and matching coat which Marjorie Montgomery showed to fashion editors is quite unusual. The fabric is actual ticking and looks good. The coat with deep dolman sleeves is fully lined in bright red.

Elaine Terry took to the ships for her resort collection. The nautical look of the middie, captain's coat and flag trimmed dresses were seen. The slim look is pre-dominant, but the designer has one shirt dress where the shirt-tail is worn inside or outside of the belt, pointing toward the chemise.

Jeannette Alexander's choice of fabrics for her vivid colors and pastels shows versatility and gives high styling to the junior figure.

DRAPE LOOK

The drape look is the big look in the Dorothy O'Hara line. Some of the draping is done on the bodice, at the neckline or on the skirt. Most important fabrics are wools and crepes. The wools are navy, beige or gray.

The holiday collection by Addie Masters is newsworthy. Wool jersey sheaths accented with jewel tones of ruby, emerald, moonstone and satin pipings having matching jackets to transform scoop-back cocktail dresses into daytime costumes.

Although Pat Premo doesn't believe in fashion extremes, she does like a modified chemise look. One interpretation is a sleeveless dress of beige linen. The elongated look is achieved with seamed horizontal bands that extend below the waistline, gradually shaped to give a semi-fit.

With this day's showings completed, fashion editors are still wondering about the chemise look. Some favor it along with many designers, but others still classify it as a "gimmick." We'll have the couture story tomorrow.

Sorority Sees Demonstration, Plans Dance

A toy demonstration was presented when members of the Alpha Alpha Chapter of Epsilon Sigma Alpha Sorority met Thursday evening at the YMCA.

Mrs. Winston Hopp was named chairman of the Christmas dance, to be held at the Elks Club Dec. 20. Proceeds of the affair will go to the child psychiatry program at Pontiac State Hospital.

Assisting Mrs. Hopp will be Mrs. Donald Stone, publicity committee; Mrs. Earl Smith, decorations; Mrs. Donald Giordano, tickets; Mrs. Edward Hummel, orchestra, and Mrs. Jack D. Holler, patrons.

Marjorie Montgomery designed this sweater sheath of pique which is hand-screened with an all-over design of red roses and green leaves. The sweater is of orlon.

Wear Only What Suits Your Type

Sack Dresses May Not Be for You, Designer Warns

By JOAN HANAUER
NEW YORK (INS) — If it doesn't look good, don't wear it.

That piece of advice comes from Luis Estevez, one of New York's youngest and most admired fashion designers. The blond young man admitted that this year's sack dresses and shorter skirts do not flatter every figure and added:

"Wear them as short as is flattering to you. And as for the silhouette, wear clothes as loose or as tight as is becoming to you."

Estevez has been influenced by the straight-line, waistless sack styles from Paris, but he hasn't gone all the way and doesn't intend to.

"I do not go for the sack look," he said. "My clothes are easy to wear with eased waists, but they don't make you look like a sack of potatoes."

Estevez makes one careful definition and that's the question of dinner and evening dresses. Both can be floor-length, but Estevez makes his dinner dresses so tight-skirted that a woman must take tiny, soldier-like steps. These are his "sitting down" dresses, not to be confused with dance costumes.

Sorority Meets

Mrs. Gordon Rice of Nelson street opened her home Thursday evening to members of Alpha Delta Kappa, Epsilon Chapter. Arrangements for furnishing refreshments for a Pontiac State Hospital dance were discussed.

On their way to Holiday House to work on final preparations for the fall fair sponsored by Women's Auxiliary of Episcopal Church of the Advent at

Pine Lake are (left to right) Mrs. Clements White, Mrs. George Wilde, Mrs. Clarence Suhr and Mrs. John Wigle. The event is scheduled Nov. 13.

Unique School Playground

This is a story of community spirit that began with children in this case, students at Will Rogers Elementary School.

Will Rogers School is comparatively new and, like most new schools, landscaping and playground area are the last things completed.

Students decided in class to do something about the barren looking play area they had. They designed plans for things they wanted on their playground—not just usual, conventional playground toys but novel, constructive ideas. And they put their ideas on paper.

Then parents began to like the idea as their children brought home. PTA formed a committee to study the plan and help bring the children's dreams to fruition.

Fathers constructed the playground from their children's blueprints.

Included in this unique project was a plan for a real cave for the children to play in. After careful consideration a design for a safe "cave-in free" cave was discovered. Road tiles are being set in cement to insure safe playing in the U-shaped cave.

Two fireplaces were constructed. One father who helped build the fireplaces is a mason, the other picked up what he knew from the professional.

A wildlife area is planned, as are slides and a skating rink.

A byproduct of the project is an air rifle safety program for boys and girls that was initiated by an air rifle company. Students learn proper care of guns as well as how to use them.

The outdoor project, which is open to anyone in the community, is a family affair. The mothers spend part of Saturday morning cooking lunches in the school cafeteria for the fathers who are busy with various things outside.

Since money for landscaping did a large portion of the actual labor. Most of the planting has been done now and the picnic area is seeded. A patio made of broken cement has been installed around the fireplaces.

Horizontal bars made of well drilling pipe and an obstacle course have been completed.

And all this came from the ideas of children!

Watch Dials Boast Variety of Colors

ELGIN, ILL. (INS) — Watch dials now are available in a variety of colors.

A leading manufacturer has introduced 15 new colors, ranging from pale to deep tones, for wrist-watch dials. The firm says any watch you own can be restyled with a colored dial.

A survey shows that women pre-

fer pastel tints of pink, pale green and baby blue in colored dials. Men like watch faces in deep tones of brown, gray, green or black.

Watch dials also can have two-toned colors for school or club members.

The firm says jewelers across the nation can provide the colored dials.

Luster can be restored to old pearl buttons by giving them a coat of clear fingernail polish.

MSU Expects Battle; 'M' Fears Illinois

Inspired Irish Figure to Offer Busy Afternoon

Spartans' Bowl Hopes Could Get Boost in Purdue-OSU Game

EAST LANSING — Walt Kowalczyk and Co. of Michigan State have a busy afternoon of football ahead Saturday against the inspired Irish of Notre Dame.

"This is a good Notre Dame team," declared Spartan coach Duffy Daugherty. "And we know they want to beat us as badly as we want to beat them."

Daugherty said his team won't be looking over its shoulder at any results elsewhere in the Western Conference.

Ohio State is playing Purdue and a Purdue win could give a big boost to the MSU Rose Bowl hopes.

"We will have to give Notre Dame all our attention and effort," Daugherty said. "We won't have a single thing on our minds but this game."

After a shocking two won, eight lost season last year, Notre Dame made an inspired comeback this fall. They won four straight before an unexpected defeat by Navy last Saturday.

The Irish also have beaten Purdue, the only team to break the Spartan winning habit this season. Terry Brennan's boys are figured to be late after losing to Navy.

Also, State has won five of the last six games in series in recent years, a thing that just isn't done to the Irish. This included a 47-14 stunner last season.

Kowalczyk, the hefty right half, is the bread and butter player for the Spartans. He's top in yardage for his team although that opposition has stacked the defense in the last few games in an attempt to stop the running game with as many as nine men up in the line.

State solved this last Saturday against Wisconsin by having quarterback Jim Ninowski take to the air in the first scoring drive.

Perhaps the best are Dave Kaiser, who was a back at Notre Dame as a freshman before he switched to State and was converted to the flanker spot, and Sammy Williams, a six foot-five inches who had the distinction of being drafted on the strength of his service play while still a freshman.

RUGGED FALCON — Hard-hitting fullback Fred Rosenquist, a converted lineman, leads the Rochester Falcons against L'Anse Creuse tonight. The Oakland County school is heavily favored to clinch the 1st Tri-County League crown in its loop final.

Michigan Still Has Hopes for Winning Title

Both Teams Have List of Injuries; Illinois Is Tough at Home

ANN ARBOR — Michigan, still clutching a dim hope it can eke out a Big Ten title, clashes here tomorrow with Illinois, a team usually capable of springing an upset on its home field.

Both teams are beset by injuries to key personnel.

The Illini, coached by Ray Eliot, whose 15 seasons make him the dean of conference coaches, call Michigan their favorite upset victim.

Only two seasons ago an unbeaten and apparently Rose Bowl bound Michigan squad fell before one of Eliot's typical in-and-out teams.

Eliot has the knack of arousing his players before the home folk. The Illini knocked off Michigan State riding high as the nation's No. 1 team, here last season. The same fate befell undefeated and proud Minnesota this year.

The Wolverines are favored by a touchdown despite Illinois reputation as a king-killer.

The smallest crowd for a Michigan game since 1943 — 47,000 — is expected to leave wide areas of empty seats in double-tiered Memorial Stadium.

It will be the 43rd game in the series which has had Michigan winning 27 times and losing 15. But the Wolverines haven't won at Champaign since 1949 and have lost five of the last seven games with the Illini.

Michigan enters the tilt with the faint chance a rash of upsets will hit Ohio State, Iowa and Michigan State in the three weeks left this season and permit the Wolverines to back into the title. Last week's stalemate with Iowa just about nipped Michigan's chances for the Rose Bowl.

The Wolverines are hurting at several positions. Sophomore Chuck Teuscher is a likely starter at left instead of Gary Praht, who has an ailing shoulder and leg. Praht probably will see action later in the game.

Quarterback Jim Van Pelt may not play at all, coach Bennie Oosterbann said. His star field general has a pulled leg muscle.

Recruiter Hired

Four Gridders Leave Sinking Indiana Team

BLOOMINGTON, Ind. (INS)—Indiana's football fortunes continued to sink today with the announcement that four players have dropped out of school but were bolstered somewhat by the appointment of Bob Dro, one of the Hoosiers' all-time athletic greats, as head recruiter.

Dro, a former basketball and baseball star, will carry the title of assistant athletic director and will assume his new duties a week from today.

Meanwhile, three players from Uniontown, Pa., fullback John

Meegan, a sophomore; center Harry Hartman; and tackle Bruce Coligan have returned home. Meegan quit school Wednesday because he was "disturbed" over Indiana's football outlook.

The fourth player to leave Indiana was Willie Jones, junior tailback from Chicago, who has been sidelined by injuries. The squad is now down to 39 players.

Meegan said he hoped that West Virginia University "will be interested in me." Coligan and Hartman were unavailable for comment but Meegan indicated that both would also try to enter other schools.

Dro, 39, apparently was hired to take the heat off the coaching staff and to produce the caliber of athletes that will enable the Hoosiers to compete with the powers of the Big Ten.

Indiana has failed to win the Western Conference football title since 1945. This season, under acting coach Bob Hicks, Indiana has won one and lost five games.

Phillies-Yanks Plan Exhibition Series

NEW YORK (INS) — The Philadelphia Phillies will take the place of the Dodgers as spring training rivals of the New York Yankees.

The Yanks announced yesterday they will play eight games with the Phils starting April 5th and culminating in a home-and-home set in Yankee Stadium and Connie Mack Stadium on April 12-13, the final weekend before the regular season opens.

It will be the first barnstorming trip home with a Major League club for the Yankees in more than a decade.

Ex-Goalie Dies at 57

TORONTO (INS) — Roy Worters, a former goalie for the New York Americans of the national hockey league, died in Toronto yesterday at the age of 57.

While in the nets for the now-defunct Americans, Worters in 1930-31 won the Vezina trophy as the league's top net minder.

Top Contenders for Honors Vie at Garden State

CAMDEN, N.J. — Ironically, Gallant Man and Round Table, top contenders for three-year-old of the year honors, will clash in the \$75,000 added Trenton Handicap at Garden State Park Saturday for about half the money offered by several other tracks.

The two classy three-year-olds and Wheatley Stable's Bold Ruler, plus perhaps one or two others, are slated to run in the mile and a quarter Trenton. The winner figures to drag down somewhere in the neighborhood of \$50,000. Ralph Lowe, owner of Gallant Man, and Travis Kerr, owner of Round Table, previously had been offered \$100,000, winner take all for a match race.

However, while the money is always welcome, both Lowe and Kerr are wealthy enough to want the three-year-old title, regardless of the purse. And that's what they'll be running for about 4:10 p.m. (EST) Saturday.

Scanlon Fights Nov. 26

RICHMOND, Calif. — Undeclared lightweight Bobby Scanlon, who stopped ex-champ Wallace (Bud) Smith last week, will fight Noel Humphries of Charleston, W. Va., here on Nov. 26.

Promoter Jimmy Cosenza announced the match yesterday. Scanlon has won 26 fights.

Boom Stops for Breather Business Leaders Chant: 'Wait Until Next Year'

By SAM DAWSON

NEW YORK (U)—Fans of a baseball club that used to call Brooklyn home base were wont to mutter: "Wait until next year." Today business leaders and government officials are taking up the same chant.

That the long and strong business boom has stopped for a breather is widely recognized from President Eisenhower on down. That the next six months or so will be comparatively quiet at the best, and slightly lower at the worst, is the forecast of the majority of government and private economists.

But wait until next year. Almost all of the soothsayers are counting on a renewal of the boom. Only a rare Cassandra here and there talks gloomily of a real recession. Depression has become a naughty word.

Part of this is due to the widely held belief that the government will do something—that the government won't let a recession develop, unemployment spread, business profits turn to business losses.

What government does undenia-

bly has considerable weight on business activities.

But the Federal Reserve Board chairman reminds us that government cannot and should not "prevent declines that have to occur from time to time."

This will shock those who hold that government by its own actions alone can and must halt a recession at its outset.

There is considerable difference of opinion as to just what is happening today. President Eisenhower calls it a breather. Some of his government economists stick to the rolling readjustment tag.

The Federal Reserve chief, William McChesney Martin, holds that the breather is really a healthy correction after a boom that brought inflation as its price and that any attempt to prime the industrial pump now would bring on another spurt of inflation and further cheapening of the dollar's purchasing power.

Business in many lines didn't boom this fall as industrialists and merchants had hoped. But overall activity in the unemployed form such a small percentage of the total labor force that most Americans aren't really hurt by the breather.

It's that next year about which there is uncertainty. So far the signs favor those who hold that the pickup which didn't make an appearance this fall will arrive some six or nine months from now.

General Dynamics was up 2 1/2

on 35 1/2 shares, helped by the President's reference to its planes. North American Aviation fell 1/2 on 9,000 shares.

Steel, motors, nonferrous metals, oils and rails were generally lower by fractions to around a point.

Standard Oil (New Jersey) was fractionally lower following news of its big stock rights offering.

U. S. Borax, another fuel stock, dropped well over two points. It rose 4 1/2 yesterday when it was the second-most active stock.

American Potash, which advanced 1 1/2 yesterday, was down around two today. Hooker Electrochemical dropped a fraction.

Aircrafts, Fuels Drop on Market

NEW YORK (U)—Aircrafts and rocket fuel shares were lower as the stock market declined early today.

Key stocks were off from fractions to around two points.

The ticker tape fell behind the space for five minutes as a series of opening blocks piled up. Many of these were of stocks which have climbed in the last few sessions in response to news of Russia's Sputnik II.

Profits were taken in a number of the stocks representing high-energy fuels which rose dramatically yesterday. Wall Street sources said that the import of President Eisenhower's speech was anticipated to some extent and that the absence of an indication of bigger spending for defense was disappointing.

Opening blocks included Boeing off 3/4 at 37 1/2 on 10,000 shares; Olin Mathieson unchanged at 43 1/2 on 10,000; and Foote Mineral up one at 44 1/2 on 1,800. The latter showed a net loss in later trades as did Olin Mathieson. Both rose yesterday because of their interest in rocket fuels.

U. S. Borax, another fuel stock, dropped well over two points. It rose 4 1/2 yesterday when it was the second-most active stock.

American Potash, which advanced 1 1/2 yesterday, was down around two today. Hooker Electrochemical dropped a fraction.

General Dynamics was up 2 1/2 on 35 1/2 shares, helped by the President's reference to its planes. North American Aviation fell 1/2 on 9,000 shares.

Steel, motors, nonferrous metals, oils and rails were generally lower by fractions to around a point.

Van Peursem Yells for Action

Hits Dems on State Taxes

LANSING (U)—A Republican leader says Gov. Williams had better "start paying attention to the economic facts of life before Michigan is turned into a Democrat desert."

House Speaker George M. Van Peursem scoffed at the governor's contention that Republican administration policies are causing unemployment in Michigan.

He built his case on relatively low unemployment figures for other industrial states and announced yesterday by the Daisy Manufacturing Co. of plans to move to Arkansas.

The Daisy concern, makers of air rifles, said it would shift its 700-man operation at Plymouth, outside Detroit, to Rogers, Ark. in the Ozark Mountains next May.
