Accord Is Reached in Airline Strike

Pontiac Press Photo

GRADUATION KISS—Cherie Timbrook, 6, gives her mother Mrs. Donald Timbrook of Madison Heights, a kiss of congratulations following Oakland University's commencement exercises while brothers Michael, 15, and Tom, 8, look on. Mrs. Timbrook, mother of nine children, ranging in age from 2½ to 16, received her bachelor of arts degree at Saturday's graduation.

Mother of 9 Wins Bet ... Becomes Teacher

By JODY HEADLEE

Home Editor, The Pontiac Press

Three years ago, Mrs. Donald Timbrook of Madison Heights placed a bet with her family against great odds ... a bet, that she, a high school dropout and mother of eight children, could go back to school and become a teacher.

Saturday, at Oakland University's commencement, the bet paid off. Mrs. Timbrook received her bachelor of arts degree in the school of education with departmental honors in English.

Taking time out to have her ninth child during the second semester didn't interfere with Mrs. Timbrook's A-minus average. She attended class

Use of Birth Curb Pills Is Supported

WASHINGTON (AP) — A government-appointed medical advisory committee says the use of oral contraceptives should continue while studies of possible harmful effects are expanded.

The committee noted "certain very infrequent but serious side effects," but it said in a report released last night that it found "no adequate scientific data, at this time, proving these compounds unsafe for human use."

The Food and Drug Administration appointed the 16-member committee last year and FDA Commissioner James L. Goodard said steps are planned or already have been taken to implement its recommendations.

The recommendations include a requirement that all oral contraceptives be uniformly labeled with warnings of possible serious side effects, and elimination of restrictions on the length of time women may take the pills regularly.

Goddard also announced expansion of some present studies (Continued on Page 2, Col. 4)

It'll Continue Cool, Cloudy

The cool, cloudy weekend weather should continue through tonight and tomorrow with a strong chance of scattered showers.

But tomorrow may be slightly less humid. The low tonight should be in the low 60s and high tomorrow 70-80.

Light winds from 5 to 15 miles per hour are forecast.

Cool and cloudy is the forecast for Wednesday.

The low in downtown Pontiac prior to 8 a.m. was 64. By 2 p.m. the mercury registered 80.

Name City Man to Track Probe

Oakland County grand juror Circuit Judge Philip Pratt today appointed a Pontiac attorney as special prosecutor in the Hazel Park Race Track probe.

Named to the post was Jerome K. Barry, a former veteran assistant county prosecutor.

Barry, 39, of 183 E. Iroquois, will be responsible for all of the legal aspects of the new investigation into alleged criminal activities at the track.

The grand jury was initiated Thursday by the Oakland County Circuit Court bench after State Atty. Gen. Frank Kelley leveled charges involving the drugging of horses, bribery, off-track betting and fraud.

Pratt was named Friday by other members of the bench to head the investigation because of his experience with grand jury procedures.

Pratt concluded a year-long grand jury investigation of Royal Oak Township in June. During that time he issued 20 indictments involving 23 persons.

The appointment of Barry was announced just before Pratt left for Lansing to ask the Michigan Supreme Court to provide a visiting judge to handle his docket while the investigation is in progress.

Pratt explained today that he has the full cooperation of the prosecutor's office in the investigation, but that a lack of manpower makes it impossible for a full-time man to be assigned to the case.

"I chose Barry because of his prior experience and his knowledge in the criminal field," said Pratt. "I have a high regard for his ability."

ASSISTANT PROSECUTOR

Barry was an assistant prosecutor for eight years, resigning in January 1965, to enter (Continued on Page 2, Col. 4)

L'I' ONES

"Watch out some grown-up doesn't throw in a bar of soap and spoil all the fun."

Wayne County Probe Mulled

DETROIT (UPI) — Wayne County Circuit Judges meet today to decide whether to create a second one-man grand jury as requested last week by Atty. Gen. Frank J. Kelley.

Most observers feel the 24 judges will grant Kelley's request for the grand jury to investigate crime in Wayne County.

However, there was some doubt raised about who will be named the grand juror.

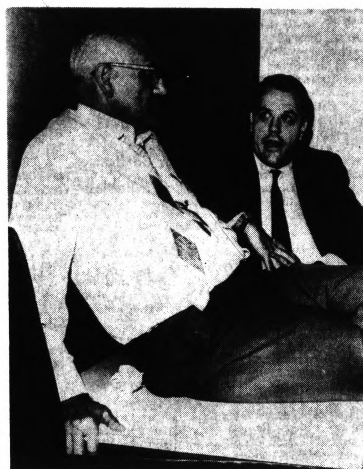

Circuit Court Judge Edward S. Piggins has been conducting a one-man grand jury into alleged crime and corruption in Wayne County, but his term expires Aug. 31.

Some judges have argued it would be illegal to reappoint him.

PETITIONED

Kelley petitioned the Wayne County Circuit Court Thursday to authorize the new grand jury.

The petition said he had reliable information of criminal activity and corruption in Wayne County, including the Detroit Race Course.

AP Wirephoto

REACH SETTLEMENT — P. L. Siemiller (left), president of the AFL-CIO International Association of Machinists, and William Curtin, chief airlines negotiator, talk early today near the end of a 26-hour session which produced a tentative agreement in the 39-day strike. Striking workers must approve the settlement before it becomes effective.

British Close In on Killers

LONDON (UPI)—Police acting on underworld tips raided several London homes before dawn today and said someone would be charged soon in connection with the murder of three unarmed British policemen.

"It is possible that we will charge somebody this afternoon," a police spokesman said. He did not stipulate the nature of the charges.

Authorities were holding an unidentified man taken into custody shortly after the three police were shot Friday on a quiet London street.

The man reportedly was the owner of the station wagon used by the killers to escape. He told police he had sold the vehicle only three hours before the shooting occurred.

While police scientists searched for clues in the abandoned station wagon used by the slayers, contributions poured into police stations throughout the country for a national appeal fund established to aid survivors of the dead policemen. One anonymous donor gave \$280,000.

Sir Joseph Simpson, metropolitan police commissioner, said late last night police would seek assistance from the underworld in tracking down the wanted men.

LBJ Sure of U.S. Viet Victory

JOHNSON CITY, Tex. (AP) President Johnson says weekend talks with Gen. William C. Westmoreland shored up his conviction that American and allied troops "will not be defeated by the Communists in Viet Nam."

A Communist take-over "is no longer to be expected. It is impossible," the President said after he and Westmoreland, U.S. commander in Viet Nam, concluded a review of the status of the war.

Talking with newsmen on

the front lawn of the LBJ Ranch, Johnson tempered his statement with these words:

"No one can say how many men will be needed or how long we must persevere. The American people must know there will

be no quick victory, but the world must know that we will not quit."

Westmoreland, fielding a flurry of questions from reporters, said additional troops will be needed in Viet Nam before the end of the year. He said it was impossible to determine now the extent of the increase.

The general arrived at the ranch Saturday evening but his presence remained secret until he and his wife attended church services Sunday with President and Mrs. Johnson.

Westmoreland spent about 18 hours at the ranch before heading back for Viet Nam.

The general, who described the conference as "officially profitable," left with instructions from Johnson to tell his men that "their determination and their courage in Viet Nam will be matched by a dedicated resolve and support here at home."

Like Johnson, Westmoreland praised U.S. troops.

"They are a credit to America and our society," the four-star general said.

"Their mothers and their wives can be truly proud of their attitudes, their courage, their understanding of the situation, their compassion, their integrity and their endurance."

Westmoreland was asked about the constituent assembly elections coming next month in South Viet Nam. He replied that while he is a military man rather than a politician, "we do feel the election has high prospects of being successful."

Workers Must OK Pact Terms of Negotiators

Mechanics' Vote May Be Held Tomorrow; Package Said Higher

WASHINGTON (AP) — A settlement agreement in the 39-day airlines strike was announced today, subject to a vote of approval by 35,400 strikers against five major airlines.

Assistant Secretary of Labor James J. Reynolds said in announcing the tentative contract agreement that a vote by the striking members of the AFL-CIO International Association of Machinists would be held "possibly and hopefully tomorrow."

First comments on the agreement, from big units in New York and Chicago, indicated that schedule could be met if details were relayed to the locals in time.

But at midmorning, some four hours after the daybreak announcement of an agreement, spokesmen were saying they did not yet know just what was in the package.

Union President P. L. (Roy) Siemiller said meetings of the strikers around the country would be called as soon as possible to explain the terms of the agreement and take a vote.

SECRET TERMS

Terms of the contract agreement were kept secret pending the vote but informed estimates placed the total three-year cost at some \$90 million, or about 8 per cent per year. Top mechanics now make \$3.50 per hour, plus fringe benefits that bring a total to around \$4 per hour.

Asked how he felt about the settlement, reached after 20 straight hours of Labor Department talks, Siemiller said: "I'm tired. Let's go home."

Reynolds called the agreement "a memorandum of understanding" and emphasized it was not final until approved by the strikers who voted down a previous agreement negotiated in the White House.

If approved by the striking mechanics, it would bring to an end the longest, biggest and most costly strike in airline history.

NO PREDICTION

While Siemiller declined to predict the outcome of the vote, the settlement in addition to reportedly containing considerably higher wages and benefits than the rejected White House package also contained a cost of living wage escalator clause.

The wage escalator had been one of the union's most vital demands from the beginning of the long dispute and its absence in the earlier agreement was a reason given by strikers in many areas for turning down the White House agreement July 31.

Reynolds said "it is an agreement reached by the parties. It was not in any way forced upon them."

He said the agreement covered all the major issues affecting strikers on the five airlines — United, Eastern, National, Northwest and Trans World — plus all local issues on the individual lines.

Pontiac Sales for 10-Day Period Continue High

Sales of Pontiac and Tempests in the first 10 days of August continued near-record levels, Thomas L. King, Pontiac Motor general sales manager announced today.

In the Aug. 1-10 period, 19,186 Pontiacs were sold, King reported.

This total is surpassed only by the 20,857 units sold in the same period a year ago.

After Chicago Marches

Whites, Police Clash

By the Associated Press
Thousands of rioting whites clashed with Chicago Sunday night after three separate civil rights marches in all-white neighborhoods.

At least 16 persons — including five policemen — were injured and police arrested 21 persons during the melee.

Police swarmed into Marquette Park on the city's Southwest Side and knocked several persons to the ground with clubs as thousands of white persons stormed through the park.

The park finally was emptied and officers denied anyone entrance.

JAMES C. O'CONNOR

Death Claims Former Official

James C. O'Connor, of 814 Menominee, an Oakland County official for 33 years, died yesterday. He was 76.

O'Connor joined the county in 1925 to supervise construction of the former County Contagious Hospital and then became superintendent of the facility.

He held this position until 1954 when the hospital building was leased to the City of Pontiac. He served on the staff of the County Board of Auditors until his retirement in 1958.

A life member of Elks Lodge No. 810, O'Connor is a past commander of the Cook-Nelson American Legion Post.

The Elks will conduct a Lodge of Sorrow at 7:30 p.m. Tuesday at Donelson - Johns Funeral Home. The Rosary will be recited at 8 p.m.

Requiem Mass will be 10 a.m. Wednesday at St. Benedict Church, with burial in Perry Mount Park Cemetery.

Surviving are two brothers.

The violence erupted after a leader of the American Nazi party called on white persons to march into Negro areas.

The violence came after the civil rights marches into Gage Park, Bogan and Jefferson Park neighborhoods to protest alleged housing discrimination.

Marquette Park was outside the area of the civil rights marches, but the demonstrators were met with volleys of rocks and bottles which resulted in some injuries and several arrests.

John Patter of the American Nazi party earlier had told whites in the park they should prepare for "the white revolution."

Soon after his talk, rioting white persons roamed the park and hurled bottles and rocks at passing cars of Negroes.

SHOTS FIRED
Squads of policemen withdrew to regroup, and when reinforced, swarmed down a hill into the melee. Officers fired shots into the air.

Angry whites yelling, "We want white power!" and "Kill the niggers!" bombarded a caravan of cars carrying marchers into the Gage Park area.

As civil rights leaders prepared to meet tonight to discuss plans for their next demonstration in Chicago, Rep. Roman C. Pucinski, D-Ill., said he would introduce a bill in Congress which would give courts the right to limit the number of marchers in a civil rights demonstration.

Elsewhere on the racial scene More than 3,000 whites at a Ku Klux Klan rally in Raleigh, N.C., jeered a small group of Negroes who sat in on the meeting but helmeted officers kept the session under control.

Six persons, including a Klan security guard, were arrested. All but two of the Negroes left during one of the speeches.

At Detroit, four Negroes

charged with inciting to riot in the aftermath of three days of violence pleaded innocent before Record's Court Judge John A. Ricca. The judge set a hearing for the four, described by police as members of militant civil rights groups.

A relative calm settled over Detroit, Lansing, Ypsilanti and Muskegon, Mich., scenes of outbreaks of violence last week.

Israel, Syria Report Clash

Stories Conflicting on Air, Sea Battles

JERUSALEM, Israel (UPI) — Israel and Syria clashed in a sea and air battle over the Sea of Galilee today.

Conflicting reports said two Syrian MIGs were shot down and four Israeli patrol boats destroyed.

The clash erupted before dawn near the border area where Israeli and Syrian jets fought in a supersonic dog-fight July 14.

An Israeli military spokesman said Syria started the fight by opening fire from shore guns on a stranded Israeli fishing boat and a patrol boat that had come to its rescue.

Syrian jets then joined the attack and Israeli Air Force planes intercepted them, the spokesman said.

CLAIM KILLS
He said two Syrian MIGs were shot down in the dog fight and the Israeli jets then wheeled and silenced the shore batteries on the Syrian side of Galilee.

Galilee — or Lake Tiberias — is at times sometimes called — is on the border between the two feuding countries.

The Syrian military spokesman said in a Damascus radio broadcast that shore batteries destroyed eight others set afloat.

THREE HOURS
The Syrian spokesman also said the battle lasted three hours. He made no mention of air losses.

He said Israel started the fighting at 5:30 a.m. when a patrol boat crossed the armistice line and engaged a Syrian outpost on Galilee's eastern shore.

Syrian positions returned the fire, knocking the Israeli boat out of action.

About an hour later, a flotilla of Israeli patrol boats with air support returned to the scene of the foundering Israeli vessel, Damascus radio said.

Syrian Air Force planes intercepted them "destroying three Israeli vessels close to the Syrian shore and setting fire to eight others further from the shore," the Syrian spokesman claimed.

A PROCLAMATION—Fred Schram (left), president of the Oakland County Retirees Association, holds a proclamation from Michigan Gov. George Romney announcing Retirees Day, Aug. 13. Pontiac Mayor William H. Taylor Jr. (middle) hands main speaker Lt. Gov. William Milliken the key to the city at a picnic Saturday celebrating Retirees Day.

Milliken Lays Area Retirees

"Your group is doing more than any other organization. I worked out now to meet your own problems on a people-to-people basis."

Lt. Gov. William G. Milliken told members of the Oakland County Association of Retirees (OCRA) at a picnic at Hawthorne Park Saturday.

The picnic and a car parade highlighted the local observance of Retirees Day in Michigan.

Milliken, who is co-chairman of the State Council on Human Resources, added that retirees are the second greatest potential reservoir of volunteer workers.

He praised OCRA members as people "who see in retirement real and challenging opportunities for services."

Milliken ended by commending the retirees for their "community efforts" since they showed "other communities the way."

Other guest speakers were Pontiac Mayor William H. Taylor Jr.; Bruce Annett, president of the Pontiac Area United Fund Board of Trustees; and AFL-CIO labor staff representative Arthur Heaton.

OCRA president, Fred Schram, who sent the petition to Gov. Romney requesting a Retirees Day Proclamation, invited the speakers to the over 150 picnicers.

He said he had the Hazel Park probe, while centered on the track, will require a large staff of investigators which will be provided by the state police.

Lt. Raymond McConnell of the state police will be in charge of the investigation.

One problem yet to be resolved from the appointment of Barry is a hearing on a new trial for Harry M. Belcher, convicted more than a year ago of murdering his wife and six children.

The conventions of the 18th and 19th Congressional Districts will begin at 8 p.m. for the purpose of electing delegates and alternates to the state convention.

The 111 county convention will follow to act on a report of the joint committee on resolutions and any other business concerning both congressional districts.

Mother of Nine Becomes English Teacher in Troy

(Continued From Page One)

"Personally, I felt education was the more rewarding. It was kind of like filling in a crossword puzzle with all the right words and it gave me a feeling of exhilaration."

"But someone else might have a different outlook. I would also suggest that a person wanting to go back to school should enroll first in night school to prove to himself that he's really serious about the whole thing."

"I certainly would." "But before they move, they should take a realistic look at what they feel is important."

"MORE REWARDING"
"Time normally spent in amusements, say watching television or going bowling, will have to give way to studying."

"If the challenge turns out to be fun, then school's for him."

"If it is a chore, forget it. It will only end up making his family miserable and himself."

"Actually," she continued, "people like myself have a distinct advantage in going back to school."

"We have lived and our value system is firm. We know what we want and don't have to waste time hunting for a sense of values or philosophy of life."

"Education is a painful experience for the young. Many youngsters of the world were advised today that Bulldog Drummond, the clean-living, fictional adventurer of the 1920s, diploma not because they are challenged by the excitement of education itself."

A new member of the Troy High School faculty, Mrs. Timbrook will teach ungraded English in the fall.

"I'm particularly excited by Troy's creative modular approach to education because it parallels my method of raising my own youngsters."

"He had a rather dim wit whose main job was to get into scrapes that he could pull her out of," said the Rev. Mr. Rogers. "There was also a nice villainess called Irma, who, if she did kill you, would do it reluctantly."

But James Bond? "He's wholly different — 007 takes his women where he finds them and he finds them pretty well anywhere," said the reviewer.

"The woman isn't really a woman at all. She is just a rather pleasantly scented plaything used for an hour or two in a contest of violence that borders on sadism. And that is accepted."

"There, in my judgment is the measure of our contemporary standard of morality."

License Renewal Out for Motorcycle Firm

BIRMINGHAM — In accordance with newly adopted regulations for motorcycle rental agencies, the City Commission will advise a local agency that its license will not be renewed for next year.

The agency, Vigon Corp., of 784 S. Woodward, is operating within 500 feet of a residential district, which violates the new ordinance, according to the commission.

Since the agency has been in operation under a license issued prior to the new amendment, it cannot be revoked. The license expires in December.

The new amendment also establishes hours of operation for motorcycle agencies and stipulates that an applicant for a rental license must provide a \$5,000 surety bond protecting the city against any damage caused by a motorcycle.

The Vigon Corp., managed by Donald Gonczy, is the only motorcycle rental agency in Birmingham.

Applications are now being accepted at the Birmingham post office for city carriers. The starting salary is \$2.64 per hour and the positions are full-time year-round jobs.

Applicants must be 18 years of age or older and possess a valid Michigan motor vehicle operator's license. They must have a safe driving record and be able to pass a practical road test.

Applicants must apply for and

pass a civil service examination within 90 days after appointment. Preference will be given to veterans.

Local residents of Birmingham will be given priority, but applicants need not be residents of the city.

For further information, contact the postmaster's office.

Tanker Sights British Rowers

NEW YORK (UPI) — Coast Guard search and rescue headquarters here reported today that two British paratroopers rowing from the United States to England have been sighted in the Atlantic well on their way to their goal.

The sighting of Capt. John Ridgeway, 27, and Sgt. Shay Blyth, 26, was made Saturday by the British tanker Hauselium, which gave the two men food and water.

The vessel reported both men were in good health and their 22-foot rowboat appeared in good condition.

They started out May 25 from Cape Cod, Mass., with Land's End, England, as their destination.

According to the Coast Guard, they have covered about 1,900 miles of their journey and have some 840 miles to go.

Sowing the Wind?

The Chicago Tribune
People are getting hurt every day in "civil rights" marches into white neighborhoods. Hundreds of police have to be mobilized to provide protection for these nuisance demonstrations. Scores of persons are arrested on each occasion. The target communities are reduced to tumult.

"I have never seen anything so hostile and so hateful as I've seen here today," the Rev. Martin Luther King said after the disorders in the Chicago Lawn-Gage Park area Friday. What did he expect? His tactics are designed to incite crowd fury. If the marches are intended to convey anything, it is the sentiment, "Give up your homes and get out so that we can take over." That will hardly inspire any love.

The "civil rights" marchers are only hurting themselves and their cause. Chicago is retreating to the conditions of a frontier town in early days, where shots are fired in the air and challenges to combat are hurled. The town marshals are busier than in a TV western.

Why are they making phony civil rights marches? All for what? Simply because a lot of misguided people are induced to slog down sidewalks in quiet communities at the behest of King, Raby, Bevel,

Doesn't the Government care enough about returning soldiers to see that they get back to their home states? When they are going into the service, transportation is provided. Why can't this be reversed?

A Quiet Comment on High Cost of Living

I would like to know if people who earn \$1,500 per month and can't live on it, ever wonder how in the world a couple on Social Security (about \$270) can exist?

Says 'Truth' Bill Needed to Combat Deceits

Your editorial "Truth in Packaging" hits a sore spot. Federal and State controls already exist, why is a new measure to be termed "pernicious," "iniquitous," "calamitous?" Existing legislation is obviously ineffective. Beef stew labels depicting luscious chunks of meat belie the granulated mass inside the can. One 3% ounce commodity sells at three packages for 7 cents while another brand retails at two packages for 53 cents for a 3% ounce size. These examples will give you a fair idea of the problem.

I believe these "gimmicks" are deceits calculated to reduce the shopper to a "to H— with it" attitude by which the most highly-advertised product is most likely to wind up in the shopper's cart.

It is too bad humanity is not governed by a built-in sense of decency instead of the universal self-interest which make such legislation necessary.

and the rest of the crop of paid professional agitators. What do these agitators think they are accomplishing? "I have to do this — to expose myself — to bring this hate into the open." King says or to go to the park or beach instead, they are confronted by a shuffling procession of strangers carrying signs and posing as martyrs. The spectacle is repulsive to right-thinking people.

It is time that Chicagoans of color who of necessity cannot avoid the implication that they somehow support or co-

The time has come when the great body of fine and decent Negro Chicagoans ought to take action to get King off their backs. They have found homes here, and opportunities seldom found in southern states.

Their incomes have enormously improved. They have the impartial protection of the law, and they are accustomed to peace and order. They are contributing to Chicago, not trying to tear Chicago down.

What recourse is available to them? Why not a great petition, or a huge rally, to signify to King and his imported troublemakers that Chicago Negroes want an end to this campaign to stir up the antipathy of white people and want to give the races a chance to live in harmony?

Sunday's march was through the Belmont-Cragin neighborhood, a community of modest but good homes. Families ordinarily would be enjoying the chance to sit on the front porch reading the paper, to sprinkle their lawns and work in their gardens,

Revealed by X Ray

Evidence of 'Neutron Star'

By JOSEPH L. MYLER

WASHINGTON (UPI) — A team of Washington rocket astronomers has reported X-ray evidence of what may turn out to be the first "neutron star" ever discovered by man.

This star, if further investigation certifies its existence, is a tiny invisible object, smaller than many a mountain on earth, whose matter is so tightly packed that a single cubic inch of it would weigh a billion tons or more.

In terms of astronomical distance it may be "very close" to the sun in the constellation Scorpions.

The X-ray evidence was reported at a recent meeting of the American Astronomical Society at Cornell University by Dr. Herbert Friedman and his associates of the Naval Research Laboratory (NRL).

Neutron stars have long been postulated but never before detected. Their matter is nuclear. Atoms of the kind of matter with which earthlings are familiar consist, mainly of empty space — dense nuclear cores surrounded by distantly spaced planetary electrons.

REDUCE CAR
Crush the atoms of an automobile, say, into their nuclear dimensions and you would have an infinitesimal mote as heavy as the original object.

From time to time, every hundred years or so, a massive star here and there in our galaxy experiences rapid gravitational collapse when the nuclear fires at its center burn out.

The result is an "implosion" which compresses an already dense core still further while blowing surrounding material far out into space. Such stellar catastrophes, known as supernovas, have often been observed in the long span of history.

For a brief time the star will shine visibly with the power of hundreds of millions of suns and then fade. In some rare cases, according to theory, the innermost cores of supernovas are squeezed to nuclear densities.

These remnants, containing as much material as a sun in a volume no more than 6 to 10 miles in diameter, are fantastically hot.

TIGHTLY BOUND

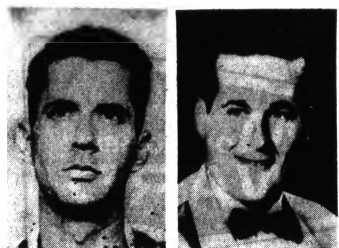

They are so dense and so tightly bound by gravitational forces, however, that they can "shine" only in the invisible X-ray region of the electromagnetic spectrum. As far as visible light is concerned they are dead. With high-speed rockets fired at White Sands, N.M., Friedman and his associates have discovered about 25 X-ray sources in the heavens.

These rays are too feeble to penetrate the earth's absorbing atmosphere. They are

too weak, in fact, to pass through a sheet of paper — a circumstance which tells something about the paucity of matter in the vast reaches of interstellar space.

Some of the X-ray sources have identified with visible objects, such as the crab nebula, remnant of a supernova which did not become a neutron star and can still be seen with telescopes.

So far, however, the X-ray source in the direction of Scorpions has not been identified with any object known to date.

SUSPECTS IN MURDER—Edward Anthony Lynch, 34 (left), of Silverton, N.J., was arrested Saturday and charged with the murder of Mrs. Dorothy Louise McKenzie, 45, found shot twice in the head in her automobile last week. New Jersey police are still looking for John Nuneviller, 35 (right), a Philadelphia who for the last month has been living in Silverton. Nuneviller is suspected of aiding and abetting in the murder of Mrs. McKenzie.

California Dems Add Plank Supporting Open Housing Law

SACRAMENTO, Calif. (AP)—The California Democratic party, voicing determination to speak out on campaign issues in the gubernatorial election, is supporting the state's controversial open housing law.

Delegates to the party's state Central Committee meeting Sunday added that plank to Democratic Gov. Edmund G. Brown's reelection platform.

Last week Republicans at their state convention had joined gubernatorial candidate Ronald Reagan in favoring repeal of the open housing law, the Rumford Act.

The Democratic delegates took their stand after a close chairmanship election. They elected Assemblyman Charles Warren, a hitherto little-known Los Angeles attorney whose supporters included some of the more liberal Democrats.

FUND RAISER

Supporters had claimed that Warren's opponent, Carmen Warschaw of Los Angeles, an outspoken millionaire, was more interested in raising campaign funds and in planning strategy than speaking out on issues.

Mrs. Warschaw's defeat, 447,443, was a blow to a powerful segment in the party, Assembly Speaker Jesse M. Unruh's Los

Father Is Held

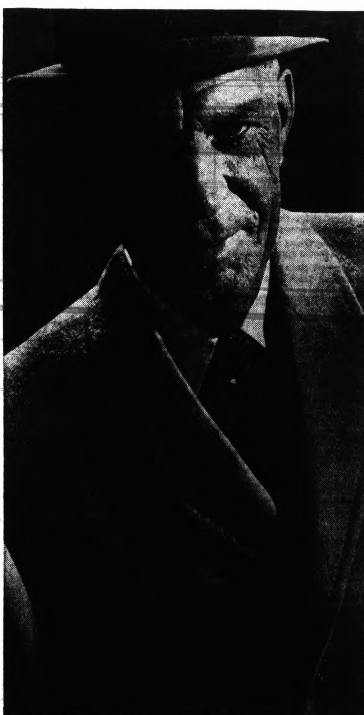

FLINT (AP) — A Burton Township man is being held by police in connection with the reported shooting of his son Saturday night. Robert Hedrick, 22, was listed in fair condition Sunday. His father, George L. Hedrick Jr., 39, was arrested by deputies called to the scene of the shooting.

Fed Up Working So Hard And Earning So Little?

If you've been stuck in a job that doesn't pay enough, here's TRAINING UNDER THE NEW G. I. BILL, has been prepared by the State licensed National School of Home Study, the only home study school chartered by the Board of Regents to offer High School Equivalency Diploma. National offers continued instructions without extra charge until you pass! Get the facts today!

National School of Home Study, Dept. MW7, Box 64, The Pontiac Press, Pontiac, Mich. 48056.

pick out any coat from our entire stock and pay 20% less than the regular price during our **AUGUST COAT SALE**

Trading Is Active

Stock Flies on Airline News

NEW YORK (AP)—The Stock

Market advanced in early trading today as airlines rallied on news of another proposed settlement of the long strike. Trading was active.

Airlines were bought on sizable blocks at the opening. They remained substantially higher even though some of their best gains were trimmed.

Steele posted a string of gains, mostly fractional. Eastern and National Airlines were up about 2 points while TWA climbed almost 2. Pan Am moved down a point.

Steele's gains were mostly fractional. Eastern and National Airlines were up about 2 points while TWA climbed almost 2. Pan Am moved down a point.

American, Continental, Braniff

and American. STEEL ADVANCES

U. S. Steel advanced close to a point while Bethlehem, Republic and Jones & Laughlin were among steels which posted fractional gains.

Gains of a point were made also by Douglas Aircraft, Xerox and Control Data. But Du Pont was down a point.

Little or no change was shown by General Motors, Ford, Good-year, International Paper, Santa Fe and Reynolds Tobacco.

Parke-Davis gained 1 and G. D. Searle a fraction following a

favorable report on birth control pills.

Car Sales Up for the Month

Yearly Trend Trails

Record '65 Tallies

DETROIT (AP)—U. S. auto sales were up slightly in the first 10 days of August but calendar year to date sales remain some 200,000 units off the record 1965 tallies, preliminary figures showed today.

Calendar year to date sales totaled 5,699,692 for 1966 compared to 5,259,553 at this point last year.

Ford Motor Co. and Chrysler Corp. both showed slight increases over the Aug. 1-10 1965 period. General Motors and American Motors were off slightly.

Ford sold 51,571 cars in the period compared with 50,127 for the same 10 days last year.

Ford Division said combined car and light truck sales were 1,491,630, up from the 1,488,374 sales recorded at the same point in 1965.

Ford Division said combined car and light truck sales were 1,491,630, up from the 1,488,374 sales recorded at the same point in 1965.

NEW ENGINE — This new high performance V8 engine is to be introduced in 1967 model Buicks. The engine will be offered in a 430-cubic inch model and a 400-cubic inch size. The bigger version, which will power

Electra, Wildcat and Riviera models, will develop 360 horsepower, while smaller engine will churn 340 horsepower in Gran Sport models.

Expectations Better for Fourth Quarter

BY SAM DAWSON

AP Business News Analyst

SEE HOPE

NEW YORK — Business is halfway through the 1966 third quarter today with much of its earlier hesitation stripping the second — although admittedly much of the gain each quarter this year has been due to rising prices and only partially to increased output.

But business shrugs this off as something to be expected when a business upturn is 5 1/2 years old.

Consumer spending is rising faster than in the late spring. Part of the total is due to higher prices. But much of it is due to increased employment and higher wage scales. More people have more money to spend for goods and services, as well as to meet higher price tags.

The gain in summer jobs has been especially marked this year. And the Armed Forces have been taking more young men, cutting the drag which a high jobless rate would have had on the economy.

Business spending for new plant and equipment continues to increase with still more in prospect. This tends to keep the economy booming this summer, and will speed it further this fall.

But the auto industry, the other most publicized laggard, is confident that better days are all but here. Detroit reports that production schedules call for the industry to turn out more cars next month than in any previous September. And salesmen claim they will sell about one million of the remaining 1966 model cars before the new ones hit the showrooms in force.

At the halfway mark, the third quarter already is shaping up as one of the best. The summer defense outlays are likely to

hold costs.

But in the long run the new production facilities will help hold down costs and keep supplies closer to demand, moderating the price inflation.

Inventory building still holds fairly closely in line with sales, postponing at least the day of reckoning which many past business booms have faced.

Government spending has made the most consistent advance of all this quarter and defense outlays are likely to

hold costs.

Many of the key statistics show the third quarter after stripping the second — although admittedly much of the gain each quarter this year has been due to rising prices and only partially to increased output.

But business shrugs this off as something to be expected when a business upturn is 5 1/2 years old.

Yank Copter Hit

N. Viets Eluding Trap

SAIGON, South Viet Nam (AP) — U.S. cavalrymen took heavy ground fire at North Vietnamese troops in the Ia Drang Valley today while Air Force planes blasted the foe with rockets, but the Reds apparently were eluding an attempt to trap them. Rain and mud, plus thick jungle, hampered U.S. maneuvering.

Communist troops brought down a 1st Cavalry Airmobile, Division rocketfiring helicopter in flames before breaking off at midday a fight that blazed most of the night. Its four crewmen were killed. A second chopper was shot up.

Over all U.S. casualties were described as light. The enemy toll was unknown.

The U.S. Command reported the loss of two more American planes over North Viet Nam and said two more apparently mistaken attacks were carried out on friendly villages in South Viet Nam. The attacks were under investigation. A U.S. spokesman said there was no immediate evidence that Americans were involved.

MORE TROOPS

Allied ground strength was being bolstered even further

About 300 South Korean soldiers arrived as a vanguard of a full 17,000-man division due next month. The United States beefed up its strength Sunday by sending a 3,800-man light infantry brigade fresh from stateside training to jungle posts about 50 miles northwest of Saigon.

The mistaken attacks on friendly villages came Friday and Saturday, a U.S. spokesman said. The first, on a village in the Mekong River delta, resulted in the death of five civilians and the wounding of 15 others.

In the second attack, four civilians were killed and 35 wounded in the southern part of demilitarized zone between North and South Viet Nam.

Two other erroneous attacks last week had been reported earlier.

The circumstances of the attack in the Mekong delta were not clear. A U.S. military spokesman said it had not been determined whether the casualties were caused by aircraft or artillery. He said the villagers were caught in an action involving South Vietnamese ground forces and supporting aircraft and artillery.

One unconfirmed report said a helicopter gunship was in

Shots Fatal to Mother, Two Girls

INDIANAPOLIS, Ind. (AP) — It was near noon when Marguerite Sikes returned from church Sunday with her two teen-age daughters.

Within minutes, gunshots rocked their ranch-type home. A passerby saw one of the girls in the yard cut down by a shot. He rushed to a nearby service station to call police.

About 30 policemen crept toward the house, fired tear gas pellets through windows and rushed inside.

Near the back door outside, two policemen found Mrs. Sikes. She was wounded in the abdomen, but managed to say "My youngest daughter is in the house."

BODY NEARBY

Nearby was the body of Marianne Sikes, 17. In the living room was the body of Dianne Sikes, 14, who is believed to have been shot in the front yard and dragged inside.

In a bedroom, where he had barricaded himself, lay Henry B. Sikes, 62, who, authorities said, killed himself with a shot in the chest. Nearby was a rifle, its bullet clip empty.

Mrs. Sikes died en route to a hospital.

Police said Sikes, a real estate agent, had been divorced Aug. 5 from Mrs. Sikes after 20 years of marriage. She charged cruel and inhuman treatment.

A receipt found on Sikes indicated he bought the gun July 5.

Flint Driver Hurt in Crash

A one-car accident early yesterday on Oakland near Montclair had hospitalized a 34-year-old Flint man.

Gerald M. O'Connor is listed in fair condition at Pontiac General Hospital.

Pontiac police said O'Connor was injured about 6 a.m. when his car went out of control, crossed Oakland, and ran into a culvert.

In Social Security 'Benefits Below Payments'

NEW YORK (AP) — The Tax Foundation, Inc., says that a 21-year-old man who starts working today and retires at age 65 can expect his Social Security pension benefits to total about \$13,000 less than he will have paid in taxes, plus interest.

The foundation reported Sunday that he will have paid, over the 44 years of working, Social Security taxes totaling \$32,500, including interest at 3 1/2 percent. He can expect to draw a total of \$19,700 in pension benefits.

Woman, Man Hurt in Crash on Area Road

A Highland Township woman and a Detroit man were admitted to Pontiac General Hospital following a two-car accident early yesterday.

Mrs. Ingrid L. Doran, 54, of 3301 Highland is listed in fair condition, and Robert H. Earle, 24, is reported satisfactory.

City Man Robbed by 3 Armed Men

A Pontiac man told Pontiac police he was robbed at gunpoint of \$100 early yesterday by three men who approached him in a phone booth at 402 Orchard Lake.

Richard Martinez, 24, of 19 E. Iroquois said he was making a phone call when the men came up, asked him how long he would be on the phone, and then pulled a gun when Martinez stepped out of the booth.

The three fled after taking the money, Martinez said.

ANOTHER OU FIRST—Receiving congratulations from Oakland University Chancellor D. B. Varner (second from right) are (from left) Lawrence Coon, Rochester, N.Y.; David Field, Brunswick, Maine; Linda J. Kluss of 3193 Livernost, Avon Township; and Gerald Compton of 115

Campbell, Rochester. The four graduate students were the first to earn master's degrees at OU. Miss Kluss and Compton are OU graduates. Coon graduated from University of Rochester, Rochester, N.Y., and Field, Bowdoin College, Brunswick, Maine.

Deaths in Pontiac, Neighboring Areas

Claudie W. Key

Service for Claudie W. Key, 51, 212 Chamberlain, will be 11 a.m. Wednesday at the Voorhees-Siple Chapel, with burial in Perry Mount Park Cemetery.

Middlemen Hit on Food Hike

Freeman Is Convinced Someone Profiteering

WASHINGTON (UPI) — Agriculture Secretary Orville L. Freeman is convinced the Federal Trade Commission investigation of soaring food prices will show profiteering by middlemen.

Freeman told United Press International in an interview made public yesterday that the farm is not responsible for rising prices. But, he said, "somewhere along the line, from the farmer to the consumer, someone is getting more than a reasonable fair share for services rendered."

The secretary said the farmer was getting only half-cent more than last year for the wheat going into a loaf of bread, while the retail price went up 3 cents.

The rest, he said, "went somewhere from the time the wheat left the farm till it reached the consumer."

He said that "in the last year, and particularly in the last month, a sharp jump in food prices... in relation to... the farm price, has led everyone to feel that someone is profiteering along the line."

FTC PROBE

Asked what the administration was doing about it, Freeman said he has requested the Federal Trade Commission to investigate "to determine if... there is a villain in this chain from the farmer to the consumer."

"It seems to me," he added, "that more than a fair and reasonable markup somewhere along the chain is being asked, and has been asked in the last few months, and we ought to know who that is and where that is and to take corrective action."

Freeman expressed confidence that the "force of public opinion" would bring some food prices down after the FTC spotlights that "somewhere, someone has done some profiteering."

Oxford Township Dwelling Burns

OXFORD TOWNSHIP — An old vacant farmhouse at 1625 Coats burned to the ground early this morning. Township firemen said the blaze was reported at 1:18 a.m. and was extinguished about two hours later.

The house had been vacant about two months, said a department spokesman. No damage estimate or cause of the fire has been determined.

Neither Side Is Prepared to Press Plateau Fight

CHU PONG, South Viet Nam (AP) — Digging in along ridges and hillsides in the heart of this border mountain chain, U.S. cavalrymen prepared today for what could become the climactic battle of the central Vietnamese plateau.

The Americans have been squared off with North Vietnamese troops for two days. Fire fights have been frequent.

Both sides are reinforcing, neither side is yet prepared to press the fight.

"I tell you one thing," said Maj. Gen. John Norton, com-

Ex-Firm President From Holly Dies

Howard M. Smith, 68, of 13499 W. Lanedon, Holly, a former president of American Spring of Holly, Inc., died Saturday in McLaren Hospital, Flint.

Service will be 2 p.m. tomorrow at the Dryer Funeral Home in Holly with cremation in White Chapel Memorial Cemetery, Troy.

Surviving are his wife, Myrtle; a daughter, Mrs. Lloyd Walker of Charlotte, N.C.; a son, Howard J. of Annapolis, Md.; a sister; and seven grandchildren.

Illness Fatal to Girl at Fair

A 13-year-old Lyon Township girl suffered a fatal asthma attack while at the 4-H Fair Saturday, according to Oakland County Sheriff's deputies.

Dawn Hardsy of 9835 Currier was pronounced dead on arrival at Pontiac General Hospital shortly after 5:30 p.m.

The girl fell unconscious at the fairgrounds at Perry and Walton in Pontiac Township and failed to respond to first aid administered by deputies at the scene.

Gas Station Robbed in Bloomfield Twp.

A bandit robbed a Sunoco station at 1881 Telegraph, Bloomfield Township, at about 1:20 yesterday morning and escaped with \$48.

Floyd Howard, owner of the service station, told State Police the intruder had his hand in his pocket as if he was holding a weapon.

He said, "Hand me all the money or I'll kill you," according to Howard.

Witnesses said the bandit, wearing a brown suit and brown hat, escaped in a car with four other men.

'New Birthrate Reins Needed'

Beehive Type of Life Looming—Biologist

COLLEGE PARK, Md. (AP)—A Yale biologist warned today that mankind is headed for a "beehive type existence" — and worse — unless it checks an eye-increasing population through intensified voluntary birth control.

Prof. Clement L. Markert said that, unless checked, the present annual world population growth — fastest in history — could push the world's present three billion people to 150 billion within two centuries.

Birth control measures are available to stem and reverse the tide but these are not being sufficiently employed, Markert told an international meeting of 6,000 biologists.

"Only psychological conditioning stemming from an enlightened culture can bring about population stability short of a beehive type of existence," he said.

In remarks prepared for the 17th annual meeting of the American Institute of Biological Sciences, an organization representing most of the world's organized biologists, Dr. Markert, president of the institute declared: "Either the birthrate of the world must come down, or the death rate must go up."

"There is no escape from balancing the equation of births and deaths. Nature's processes are certain, ruthless, unemotional, impartial and as sure as death," Dr. Markert said.

"If man does not control his numbers voluntarily, then we can be sure that the traditional methods of famine, pestilence and war will provide us with highly unpleasant limiting controls."

He said the present two percent annual rate of world population increase began about 20 years ago. The scientist said that if that rate had prevailed from the time of Christ "there would be about 30 million individuals in place of each person now alive, or 100 persons to each square foot."
