

Icicles in Alabama

AP Facsimile

FREE TREAT — Cold wave which swept Alabama yesterday coated trees with ice. For Kathy Lynn Gunthorpe, in Birmingham, it was an unusual experience to break icicles from trees and bushes and sample them for flavor. Birmingham News photographer Bob Gunthorpe took this picture of his small daughter as she met this situation for the first time.

Moonshine Still in County Raided; Six Men Arrested

Federal and local authorities arrested six men in a raid yesterday which uncovered what may have been the largest and most productive moonshine still ever found in Oakland County.

Sheriff Frank W. Irons, seven deputies and four federal agents entered the basement of a house at 9225 Southeastern Rd., White Lake Township about 5:30 p.m.

The six men are in Oakland County Jail and will be arraigned today in Detroit on charges of violating the federal liquor laws. The moonshiners were discovered some time ago and had been under a constant watch for about two weeks. Authorities wanted to be sure they got everyone connected with the outfit before making a move, according to Irons.

"Yesterday they showed up with a truck and began packing up so we were forced to move in," he said.

Two 250-gallon stills, each made up of three barrels connected by stove pipes, were in action. Several large vats at one end of the room held an estimated 4,000 gallons of illegal booze.

"The procedure was a constant one," explained Irons. "At the same time one vat was being filled with freshly cooked mash, the moonshine in the last vat would be ready for bottling."

The six men arrested were: Louis Miles, 36; Harold Rowe, 40; and James Hartwell, 55; all of Detroit; James Johnson, 33, of River Rouge; James Everson, 34, of Ecorse; and Simule Rowe, 41, of Inkster.

Somewhat warmer temperatures will prevail in the Pontiac area this weekend, the U.S. weather Bureau reports.

Tonight will be partly cloudy and warmer with a low of 25 degrees.

Scattered snow flurries blew through Pontiac most of the day, but temperatures were warmer than yesterday.

The outlook for Saturday is mostly fair and warmer, with a high of 38. Sunday will be partly cloudy and warmer.

The lowest recorded temperature in downtown Pontiac preceding 8 a.m. was 15. The reading at 1 p.m. was 28.

They're 'Young' Sisters

WARWICK, R. I. (U.P.) — Mrs. Mildred G. Burton celebrated her 100th birthday yesterday. With her were her three young sisters, aged 80, 83 and 90.

AFL-CIO Ousts Laundry Union From Federation

Adjourns After Electing George Meany Again to Presidency

ATLANTIC CITY, N. J. (INS) — The AFL-CIO expelled both the Bakery Workers and Laundry Workers Unions yesterday on charges that the two unions are in the grip of corrupt leaders.

Last Friday, the 1,500,000 member Teamsters Union, largest in the nation, was ousted for the same reason. The federation's eight-day second convention, held in Atlantic City, adjourned after deciding to keep on probation the Distillery Workers and the United Textile Workers — the latter not to be confused with the Textile Worker's Union — until they carry out clean-up demands under AFL-CIO supervision.

The convention reelected George Meany AFL-CIO president and William F. Schmitzer secretary-treasurer.

Other members of the executive council were reelected, among them Vice President Walter Reuther, head of the giant AFL-CIO Industrial Union Department.

Peter T. Schoemann, Washington, D. C., president of the plumbers, and Paul L. Phillips, Albany, N.Y., president of the papermakers were elected vice presidents and members of the executive council. They succeeded Teamster secretary-treasurer John English and Herman Winter, president emeritus of the Bakery Workers, who went off the council with the ouster of their unions.

The federation had shown during its week-long convention a firmness to deal decisively with corruption even if it meant expulsion of its largest affiliate — the 1,400,000-member Teamsters Union.

Ouster from the federation of the three unions charged with corruption apparently had restored some of the prestige or organized labor lost by disclosures of the Senate Rackets Committee.

In a final act of its second con-

Claim 350 Dead in Iran Quake

Thousands Are Hurt, Homeless in Freezing Western Area

TEHRAN, Iran (U.P.) — A heavy earthquake shook west Iran today and unofficial accounts reaching Tehran said at least 350 persons perished and thousands were injured.

Tehran radio said the towns of Sahneh and Farsinak were badly damaged and that most villages in that area were ruined. Heavy snowfalls created harsh conditions for several thousand made homeless by the tremor.

First official reports reaching the capital said the quake struck at 5:15 a.m., causing casualties and damage. The center of the two-minute tremor was given as Sahneh, between Hamadan and Kermanshah.

No official figures on the number of casualties or amount of damage were available. The government said a check has been begun.

The government started moving food and medicine for several thousand homeless victims into the freezing area of west Iran.

The earthquake was reported as strong as the shock which struck Damavand and the Caspian Sea area last July, in which about 2,000 persons perished.

FIRST OF THE SEASON — Patrons of the Pontiac State Bank yesterday noon were serenaded by this glee club of St. Michael's High School. It was the first of a annual series of Christmas caroling at the downtown bank, which will run through Dec. 24. Ten schools will participate in the program this year.

Car Gift May Solve Shopping Problem

By JANET ODELL

If you can't knit Argyle socks, what do you get a man for Christmas? The Christmas shopping snooper has seen a few items that might be welcome. You're on your own when it comes to ties.

After the recent snowfall any man who doesn't already have a snow brush for his car will appreciate one. Another car gift is a visor kit containing paper hankies, mirror, comb, cigarette case and zippered compartment.

Should the man you're shopping for be a barbecue expert, get him a packaged set of three barbecue brushes. Aprons, hot pad mitts and barbecue equipment will make him long for an early spring.

The host who enjoys serving wine to his guests will like the gift of a French cut glass decanter, trimmed in gold. Six matching glasses go with it.

Camera fans are easy to buy for: just keep on getting them new gadgets. Exposure meters that are simple or complex can be purchased for the male, depending upon his degree of proficiency. Automatic slide trays are welcome, also repeating flash units.

An ashtray may seem like a commonplace gift. But there is nothing commonplace about the set of ashtrays seen in one men's store. Made in Mexico of brass, the two trays are footprints—most unusual looking.

Want to spoof a fisherman? Get him a pack containing ultra-ultra equipment: a fur covered hook, a ruler for measuring and a fur-

Offer Formula to End Strike

Subway Workers Give Plan Amid Indications Walkout Is Crumbling

NEW YORK (U.P.) — Striking subway motormen, amid indications that their walkout was beginning to crumble, have offered a formula for ending a work stoppage now in its fifth day.

Some 1,000 members of the Independent Motormen's Benevolent Assn. decided at a Brooklyn meeting last night to submit a six-point proposal to Mayor Robert F. Wagner designed to bring about a conference and a strike settlement.

The mayor's office said Wagner would have a statement sometime today on the formula, sent to him by telegram.

The motormen, while showing solidarity and cheering their leaders at the membership session, were confronted with the fact that subway service was the best since the strike started last Monday.

The Transit Authority reported that 203 more motormen were at work than on Tuesday and that over-all service on the subways was back to 61 1/2 per cent of normal. The evening rush hour went off without a hitch, with the hectic congestion missing.

The strike stemmed from a dispute between the MBA and the AFL-CIO Transport Workers Union, which represents subway workers in collective bargaining. The MBA and TWU long have been at swords point over union representation.

Helps to Have One

DENVER (U.P.) — Tony C. Madina, 33, pressed the starter on his car. The motor ran but the wheels didn't turn. The drive shaft had been stolen.

Cars Would Move Faster on Saginaw

Eye Traffic Light Change

Traffic signals along Saginaw street between Lafayette and South Boulevard should be changed to permit a smoother flow of traffic, State Highway Dept. engineers told city officials yesterday.

The department will recommend to the city in March that an interconnected and two or three dial system be installed along this route.

NO STOPS NEEDED — "This means that if you are traveling 25 miles per hour, you will never have to stop for a light," explained Theodore M. Vanderstempel, traffic engineer for Pontiac.

He examined the present system Thursday with Joseph Marlow, acting district traffic engineer for the department, Theodore M. Vanderstempel, city traffic engineer, Keither Bushnell, traffic signal engineer for the state, and Pascual E. Turner, highway department engineer trainee.

Some Contestants Coming Close to \$1,400 Pot-O-Gold

Our judges are getting more frustrated by the week, as several Pot-O-Gold contestants are within one or two answers of the correct solution.

They're in hopes of getting a winner before Christmas, and there's just one more week in which to do that.

The puzzle that appears on page 31 of today's Press is due next Tuesday, and a winner for that one will be able to take home the \$1,400 in time to help Santa along.

Unless Santa's visit imposes no financial strain on your family, you'd better see what you can do about winning the money.

Answers and explanations for last week's puzzle are on page 16.

Asks \$30 Million for State Parks

Conservation Unit Seeks November '58 Election on Bond Issue

LANSING (U)—The State Conservation Commission today took the opening step in efforts to set up a multi-million dollar financing program for expanding and improving Michigan's state parks.

The commission called on the Legislature to place on the November 1958, election ballot a proposal asking for a 30-million-dollar general obligation bond issue.

Gov. Williams also was asked to lend his support to the plan.

At the same time, commissioners recommended legislative approval of "reasonable" fees for parks use to help retire the bonds.

While not specifying the type of fees, Commissioner Frank Brevitz of Battle Creek suggested car parking charges or per-person admission fees as possibilities.

"We cannot expect that fees will bring in sufficient funds to retire the bonds, however," said Commissioner Joseph P. Rahilly of Newberry. "The Legislature also will have to allocate money from the state's general fund."

ROLL OUT THE BARREL—Oakland County Sheriff Frank W. Irons examines one of the barrels of moonshine uncovered Thursday when federal and local authorities raided a White Lake Township still. An estimated 4,000 gallons of illegal whisky were found at the site. The still was believed to be the largest ever uncovered in Oakland County. Six men were arrested at the site which had been under surveillance for approximately two weeks.

legal whisky were found at the site. The still was believed to be the largest ever uncovered in Oakland County. Six men were arrested at the site which had been under surveillance for approximately two weeks.

Lay Mental Health Issue in Hospitals' Lap

The burden of the emergency care of the mentally ill was laid in the lap of public hospitals by the Greater Pontiac Community Advisory Council last night.

The council adopted a recommendation of Probate Judge Arthur E. Moore that Oakland County's general hospitals should provide at least 100 beds, and the county provide some facilities other than the county jail.

LACKS FACILITIES
Fifty delegates and interested citizens gathered at the City Hall commission chambers to discuss the growing problem that Oakland County lacks sufficient emergency

facilities to care for the mentally ill.

Criticism has been leveled because many must be housed at the county jail pending further treatment.

Judge Moore's recommendation was ordered sent to the county Board of Supervisors in time for their Dec. 23 meeting.

During the three-hour session the question of who should finance these facilities was brought up by Judge Clark J. Adams, president of the council.

"We all agree that something has to be done for the mentally ill who are not yet being treated by the state," he said. "The question is should the county pay the expense of somebody else."

JAIL HOUSES
Sheriff Frank W. Irons said the jail presently houses two mental patients. "We don't want to take care of them but what else can we do under existing conditions," he said.

The chairman of the Mental Health Committee of the Oakland County Medical Society, Dr. L. Jerome Fink, accused

of the Board of Directors at William Beaumont Hospital, said that the hospital "hoped" to include facilities for the mentally ill in its expansion plans.

"If the people of Oakland County want a facility for the mentally ill, and county government gets behind the idea, there should not be much trouble in changing existing law if that's necessary," Dr. Fink told the delegates.

Edwin A. Tomlinson, president

of the Board of Directors at William Beaumont Hospital, said that the hospital "hoped" to include facilities for the mentally ill in its expansion plans.

"The county is studying the need for more mental health facilities," said Hiland M. Thatcher, chairman pro-tem of the Board of Supervisors, "but at the moment we're not sure how far we can go under existing laws."

Laundry Workers Ousted From AFL-CIO

(Continued From Page One)

stitutional convention which ended yesterday, the federation pledged to redouble its efforts to eliminate "all forces of crime, racketeering and corruption within the trade union movement."

WANTS WIDER PROBE

It felt, however, that too much emphasis had been placed on labor corruption by the Senate committee and called for equal efforts to smoke out any management malpractice.

AFL-CIO President George Meany, re-elected to his second two-year term as head of the federation, summed up labor's position on union corruption in this way:

"The important thing . . . is that we have demonstrated that we are reluctant to throw people out of the house of labor; that we only do it when there is no other way, and that we do it in the full knowledge that it presents dangers to us, but with the complete conviction that in the long run labor will be better off for what we have done here this week."

Meany then told the federation it must stick to its purpose of securing for labor its "fair share" of the national wealth.

"We still think that organizing the unorganized is the first and fundamental purpose of the trade union movement, that it is a prerequisite to doing anything to improve their workers' position," he declared.

The convention had earlier called for an intensified organizing campaign and fixed substantial wage increases, a shorter work week and improved fringe benefits as its 1958 collective bargaining demands.

NEIL B. McARTHUR

Appointed recently to the post of deputy state labor commissioner was Neil B. McArthur, 33, of 2300 Middlebelt Rd., West Bloomfield Township. McArthur, president of Detroit Carpenters Local 19 (AFL-CIO), replaces Joel E. Wolfe.

3,000 in Subway Accidentally Trapped

NEW YORK (U)—Some 3,000 passengers—some of them screaming and fainting—were trapped nearly 2½ hours yesterday in a jam-packed subway train.

The stalled train, en route from Brooklyn to Manhattan, was terminated an accident, not strike sabotage, police reported.

About 5,000 other passengers trapped for lesser periods ranging from 30 minutes to an hour in two trains following the stalled one.

All 8,000 eventually were safely evacuated and given transfers to other trains.

Investigation showed that the stalled train's brakes had locked accidentally.

Believes Sex Deviate Took Away Missing Girl

SYCAMORE, Ill. (U)—Sheriff Alf M. Deisz says he is convinced a sex deviate is responsible for the disappearance of 7-year-old Maria Ridolph.

He adds that in such cases, "They never leave them alive."

The sheriff told newsmen yesterday he has discarded possible kidnapping theories in the case.

"We're stymied," he said, "but still rooting, digging and hunting."

Little Maria has been missing more than a week—since the day she and a playmate were offered "piggy back" rides by a stranger.

The Day in Birmingham

Trunk Sewer Will Cost Bloomfield Hills \$1,950,000

BIRMINGHAM—Bloomfield Hills' share of the North Evergreen Trunk Sewer System will be roughly \$1,950,000, according to City Manager Elmer Kephart.

He said this included other fees amounting to \$204,000, the extension of which eliminates the need for some anticipated lateral lines.

Kephart suggested the possibility of an overall city assessment to pay for lateral sewers with individual property owners paying for connection.

The original North Evergreen Authority terminated trunk plans at Woodward Avenue and the Bloomfield Hills Country Club. Plans have been extended to the railroad at East Long Lake road on to Stonycroft Golf Course toward Square Lake road, then along Vihay road to Cranbrook and through Cranbrook to the western part of the city.

The North Evergreen Authority has requested that someone be appointed to approve plans for the system in the area. At the suggestion of city commissioners, Kephart was named to the post. The commission retained the right to pass final approval.

Dr. Paul T. Lahti of Fairfax road and Mrs. C. J. Thomas of West Long Lake road have been honored by the American Cancer Society. They have received awards for the excellence of their volunteer service during the past year.

Dr. Lahti is South Oakland's representative to the division board, while Mrs. Thomas is secretary of the board of trustees.

According to Birmingham police, Christmas will be brighter for some unknown area family. Henry Dahlquist reported finding a number of toys, apparently put in the wrong car parked near his business in Birmingham. The toys may be picked up at his office, 184 Pierce St.

James Calvin, 30, has waived extradition from Memphis, Tenn., and will be returned to Birmingham to face charges of breaking and entering.

Calvin was arrested in the southern city when he tried to pawn some silver stolen from D.W.D. Peterson, 888 Westwood Ave., Feb. 19, 1956. Police said the man also is wanted in Pontiac on charges of felonious assault.

Dr. Robert Lee Schorr
Service for Dr. Robert Lee Schorr, 84, Tuller Hotel Detroit, will be at 1 p.m. Monday in the Manley Bailey Funeral Home. Cremation will be at Evergreen Cemetery.

A graduate of the Detroit College of Medicine, in 1908, Dr. Schorr practiced in Birmingham from 1921 to 1923.

He was the first industrial doctor for the Fisher Body Co., and had remained active as a surgeon and general practitioner until his sudden death at the Tuller Hotel Wednesday.

He was a member of the St. Paul Cathedral, Detroit, the Mich-

Chemical Firm Blast Kills 4 Persons

ELKTON, Md. (U)—Four persons were killed and several injured today in an explosion at the Thiokol Chemical Corp. plant on U.S. 40 near here, state police reported.

Police said the explosion occurred at 10:25 a.m. Union Hospital in Elkton said it had three persons in its accident room.

One police report had two missing, it was not clear immediately if they were included in the four reported dead.

MSU Housing Project for Couples Approved

WASHINGTON (U)—The community facilities administration has approved a \$3,750,000 loan for construction of housing for 800 married students and their families at Michigan State University.

The administration informed Sen. Potter (R-Mich.) yesterday that the university will supply \$2,500,000 for 72 two-story brick apartment buildings. The buildings will include 276 two-bedroom units and 524 one-bedroom units.

Michigan State's 4,529 married students have been living in temporary quarters. They comprise about 25 per cent of the university's total enrollment.

Still Not Certain Ike Will Deliver Message

WASHINGTON (U)—An outline of President Eisenhower's 1958 legislative program will be presented to Congress Jan. 9, two days after it reconvenes.

The White House said there was no word yet on whether Eisenhower will deliver his annual State of the Union message in person. He has done so every year but one since he became president in 1953. The exception was in 1956 when he was recuperating from a heart attack.

Eisenhower currently is recovering from a slight stroke.

2 Pedestrians Hurt on Pontiac Streets

Two pedestrians, one a six-year-old boy, were injured in Pontiac traffic accidents yesterday.

Jessie Currington, 6, of 414 S. Saginaw St., was knocked down by a car while running across S. Saginaw at Rapid Street.

The driver, Johnnie E. Powe, 32, of 252 Bondale Ave., told police he did not have time to stop.

The boy was taken to St. Joseph Mercy Hospital by the Pontiac Fire Dept. and is in fair condition today with internal injuries and multiple abrasions.

Bennie Williams, 40, of 293 Rapid St., was injured when he crossed W. South Blvd., near Franklin Road last night.

Williams was hit by a car driven by Marie McGinnis, 25, of 34 Lincoln Ave.

He was treated at Pontiac General Hospital for face lacerations and released.

Lucky Woman Not Afraid of Friday 13th

Friday the 13th—that's today's day and date—holds no superstitious worries for Mrs. Lula Mae Hopper, of 86 S. Marshall St.

Mrs. Hopper, who celebrates her 44th birthday today, was born on Friday, Dec. 13, 1913.

She had 13 letters in her maiden name—Lula Mae Miller—and has 13 letters in her married name.

In addition, Mrs. Hopper notes that she has 13 nieces and nephews. "The number 13 has always been pretty lucky for me," she said.

Her husband, Harold Hopper, is an automotive maintenance man for Orchard Lake Village.

Advices Law Changes

DETROIT (U)—A 23-man committee of building and health officers has recommended changes in Michigan's housing law. The committee was appointed by Gov. Williams.

SIMMS BROTHERS

CAMERAS—Main Floor

By E. H. SIMS

How does an airliner's radar equipment enable it to offer a smoother ride than airliners not so equipped?

Radar or a radar-eye, as some call it, enables the pilot of an airliner to detect the densest section of clouds ahead. The densest section (often precipitation) is usually the most turbulent. It should be avoided if passengers are not to be tossed around in their seats.

Most people do not know it but summer thunderstorms often contain updrafts and downdrafts, moving vertically at hundreds of miles an hour, very close to each other. In the old days with flimsy aircraft, a pilot risked his life entering such a cloud.

Winter clouds are not so dangerous but are more extensive, laterally. Radar allows the pilot of a passenger plane to dodge the rough spots in all seasons, but more easily in summer, when the rough spots, though more numerous, are usually not general, but localized.

But Not So in Florida!

'Normal' Weather Ahead

By THE ASSOCIATED PRESS

In the Pontiac area, temperatures will average 3-4 degrees above normal for the next five

days. Normal maximum 35, Normal minimum 23.

Warmer Saturday . . . mild Sunday . . . colder Monday . . . warmer Wednesday.

Precipitation will total about four-tenths of an inch mainly as rain or snow late Tuesday and Wednesday, with snow flurries possible Monday.

Way down south another crop-killing freeze, and heavy frosts in other sections, gripped Florida again last night and today.

Winter crops again were heavily damaged and more of the quarter-billion-dollar citrus crop was hard hit.

Temperatures are expected to rise this afternoon, easing out one of the more severe freezes of this century in Florida.

12 DEGREES IN OCALA

It was colder in some parts of Florida last night than Wednesday night. Ocala was struck by 12-degree weather. Gainesville had an 18-degree thermometer reading.

Some light snow spread eastward from Minnesota across parts of the Great Lakes region during the night, and snow flurries persisted in some sections of the North Atlantic States southward into Pennsylvania.

JAMES E. BRIDGEWATER

BIRMINGHAM—James E. Bridgewater of 25603 W. 12-Mile Rd. will be installed as high priest of Birmingham Chapter 93, Royal Arch Masons, Monday at the Birmingham Masonic Temple. He is a member of Southfield Lodge 573, Free and Accepted Masons.

Installing officers will be James F. Smith, acting grand high priest; Richard W. Lewis, acting grand master of the host; Edwin Grant, acting grand secretary, and William Johnson, acting grand chaplain.

Refreshments will be served by the Birmingham Chapter 220, Order of Eastern Star.

Texan's Fuel for Fire Shoots Right Back

DALLAS (U)—Mrs. Rose Parker, 58, tossed some unwanted objects in a wood-burning stove while preparing to move. A few minutes later there was a loud bang and a bullet whizzed across the kitchen. Mrs. Parker crumpled to the floor with a wound near her left shoulder.

Unknowningly, she had dumped a couple of live pistol shells in the hot fire. She was reported in satisfactory condition.

Ramblin' Wrecks Prefer to Date Kissable Girls

ATLANTA (AP) — Georgia Tech men report their ideal date doesn't drink or smoke, is serious, sweet, conservatively dressed, broadminded and kissable on the first date.

She's also a little over 5 feet 2, has eyes of blue and brown hair.

The attributes and statistics were revealed in a poll conducted

ed by Technique, student newspaper. The editors said 441 of the school's 5,400 students answered the questions.

Only 4 per cent of the Tech men voting were in favor of a "little old naive girl."

There were occasional bursts of spirit reminiscent of the good old college days, however. Six per cent voted for "any girl up to 20 feet or six beer cans in height."

Seven per cent said they didn't care whether she weighed 150, 350 pounds or the equivalent of three cases of beer.

Hawk Raised in Medieval Tradition Revives Falconry Sport

ALBUQUERQUE, N.M. (INS)—A 13-year-old Albuquerque boy is raising a pet falcon in the medieval tradition of falconry.

John Griggs, son of Roy L. Griggs of the U. S. Geological Survey, found a young hawk in a cliff nest near Tucuman.

NAMED BIRD

Griggs named the bird Bucca-neer and has raised it with tender care. Just recently, after corresponding with professional falconers in Europe and the United States, he began to train Bucca-neer for hunting.

The boy has all the equipment needed for the ancient sport of kings: a leather hood with feathered plumes, leather gauntlets, British leather game bags, leg leashes (jesses) and special metal swivels for falcon's leashes, metal bells from Pakistan and Europe, and the most important item of all, sturdy leather gloves.

A hunting falcon diving after its prey is an impressive sight.

According to the art of falconry, the bird is hooded until the game is sighted. When a bird is sighted,

the hood is removed and the falcon is released from his perch on the falconer's wrist.

The perfectly trained bird loses no time in going into action. He soars high above his unsuspecting prey. Then when at the right altitude, the bird falls into a dive.

The trained falcon kills his prey in mid-air with a closed claw, unlike wild hawks who capture their prey in mid-air and kill it on the ground.

The falcon's blow usually breaks the prey's neck and it tumbles to earth. The falcon remains perched upon the prey until the falconer arrives.

Mobsters Silent at Investigation

One Man Invokes Fifth 18 Times at Watchdog Committee Hearing

By JAMES KOCH

ALBANY, N. Y. (AP)—Legislative probes threatened to slap contempt proceedings on balky mobsters if they refused today to tell what happened last month at a gathering of gangland's elite and their friends.

Big John Ormento, one of the 60 men at the national gangland meeting at tiny Apalachin, took the Fifth Amendment 18 times yesterday as the first to testify among two dozen delegates subpoenaed. Ormento, of Lido Beach, Long Island, was under warning not to repeat the performance as he prepared to return to the witness chair today.

Other delegates slated to follow Big John in the watchdog committee's public hearing were Joe Profaci, the "Olive Oil King" from Brooklyn; Joseph Falcone, Utica liquor dealer; and 21-year-old Joseph Barbara Jr.

It was young Barbara's father who played host to the hoodlums when surprised state police flushed them from his spacious stone mansion west of Binghamton Nov. 14. The raid touched off more than a dozen investigations in assorted states into the reasons for the meeting.

No one has talked yet and Ormento's recourse to the Fifth Amendment indicated few, if any, will now.

Ormento, a twice-convicted dope peddler, gave no more than his name and address. He invoked the Fifth Amendment on each of the nine questions dealing with his criminal record.

Coast Group Decides Withdrawals Today

LOS ANGELES (AP)—The question of whether the University of California and UCLA withdraw from the dissension-torn Pacific Coast Conference is expected to be decided by the regents today.

The Board of Regents, governing body for all the university campuses, is due to take up the hot

question at a 2 p.m. (PST) open meeting.

What recommendations, if any, were formulated in yesterday's closed committee meetings are not known.

Rock Hudsons to Split

HOLLYWOOD (AP)—Actor Rock Hudson and his wife, the former Phyllis Gates, are panning a divorce, their friends said yesterday. Hudson, 32, and Miss Gates, formerly his agent's secretary, were married Nov. 9, 1955. They separated last October.

Williams Heads Civil Righters

Governor New Leader of Continuing Confab of 12 States

NEW YORK (AP)—Michigan Gov. G. Mennen Williams has been named head of a new continuing governor's Conference on Civil Rights.

Purpose of the conference, attended here yesterday by governors and other officials from 12 northern and western states, is to "expand interstate cooperation to protect and strengthen the rights of the individual."

The conference, which met on the 10th anniversary of the founding of former President Harry S. Truman's committee on civil rights, criticized the federal government for what it called inadequate efforts to combat discrimination in employment.

It charged that the president's committee on government contracts is underbudgeted, understaffed and too limited in its objectives.

Gov. Williams and Gov. Averell Harriman of New York sponsored the meeting. Membership in the new group was limited initially to the governors of the 12 states that have anti-discrimination laws. Members will be added as other states enact anti-bias laws.

Tried Every Minute in U.S.

Book Discusses Suicide

LOS ANGELES (INS)—At least one attempt at suicide is made in the United States during every minute of the day and night.

And chances are the person who tries to take his own life will be a prosperous white male just shy of his 50th birthday.

It disclosed that suicides occur most frequently between the ages of 49 and 50, that males exceed females by three to one and that many more suicide attempts take place among the so-called privileged groups than among those in a lower income bracket.

The experts said the rate is lower among married persons than in those single, widowed or divorced.

They said of those persons who commit suicide almost one-half do so within 90 days after a first, unsuccessful attempt. They said:

"The final act occurs more frequently when the patient seems to be on the way to recovery. This means that physicians and relatives must be especially watchful during this period."

Their volume took three years to compile.

GEORGE'S NEWPORT'S

These Puzzle Answers Are Right

The following are the correct answers and explanations for the Pot-O-Gold puzzle that appeared in last week's Pontiac Press.

- A. (1) LUSTER. It's the sparkle of diamonds that makes a woman feel glamorous. If the Cluster (such as a number of the gems joined together in a pin) did not sparkle, the total effect would not seem so luxurious.
- B. (3) BURYING. By BURYING himself in hard work, a man would become so completely wrapped up in his job that there would be no time to brood over a recent grief. "Burying himself" does not have the connotation of complete engrossment.
- C. (6) HEALING. A visit to the doctor will "probably" result in a neglected cut's HEALING better. The previous neglect may slow up the Healing, and may prevent the injured area from Healing better immediately after treatment.
- D. (8) CLOTHES. Women's stylists are trying hard to revive the CLOTHES of the Twenties; this also includes the Clothes, those bell-shaped hats that came down over the ears.
- E. (10) HEARTENS. The rescue workers, after a plane accident, work as fast as they can, so a change in the weather hardly HEARTENS their efforts. But fog handicaps the searchers; clearing HEARTENS them, giving them fresh hope.
- F. (11) BASEMENT. By using a BASEMENT, the merchant will have larger space, either as a salesroom, or for storage, and can carry a larger selection of goods. Easement is the right to use another's property, but the word is applied to such things as a right

- of way (for instance, a road that crosses a neighbor's land).
- G. (13) CLEARING. With parked cars jammed at the curb, a driver who wants to get his out on the road finds he has no room to maneuver. Even the most skillful steering will not suffice for CLEARING or freeing his car from the adjoining cars if there isn't room to get out.
- H. (15) PRISONER is the inclusive word, and would cover the Prisoner as well as any other type of criminal.
- I. (17) CLARITY. Some Congressional bills are so obscurely written that there may be later disputes as to their meaning. In a bill which concerns his own constituency, a Senator would want its exact terms to be very clear. PARITY is the fixed basic price for a commodity that is guaranteed by the government.
- J. (19) VICTORY. Thousands of people crowd the streets to celebrate the VICTORY at the end of the war. The Victors—the heroes who won the war—are not immediately present to be feted.
- K. (22) HEADLONG. The persistent gambler beyond his means can plunge recklessly into bankruptcy, if he runs into a long losing streak. It's the gambler himself who is Headstrong—stubbornly refusing to quit—rather than the plunge.
- L. (23) STUDIOS. A high school youth who hopes to be a painter has so many regulation school studies that he could hardly manage to STUDY art as well. He can, however, enhance his knowledge by visiting art STUDIOS, for background observation.
- M. (26) DECEIT. To find that

one's business partner has been cheating would be very hard on one's morale. There is emotional hurt in being betrayed by a trusted friend, which is far worse than a business breakup by Deceit. A man can always try again.

N. (28) REBOUNDING. The clue mentioned "city streets" where traffic noises can keep visitors awake, since they are not used to loud sounds Rebounding, or filling the air. But narrow city streets make the noise worse, since it strikes the walls of buildings, REBOUNDING to increase the din.

O. (30) MATTERS. In the Middle Ages, there were bitter public controversies over religious MATTER, as in disputes over the respective powers of the church and of the state. Martyrs would be included in the general category of religious MATTERS.

P. (31) HAMPERING. A boy who repels people by his brashness is using the wrong approach and should try another—a DIFFERENT one. A Different or shy approach, in his case, would clearly be too insincere to be effective.

R. (36) COMPETE. An ignorant man can't get a job requiring a knowledge of mathematics, since he's unable to COMPETE. He has not the ability to try for the job against others with appropriate training. His inability to COMPETE,

or put numbers together in some mathematical pattern, is only part of his incompetence for the job.

S. (38) QUERULOUS. A woman who is always complaining is the only one who feels sorry for herself. Nobody likes a whiner, and she will be avoided. A Garrulous woman talks too much, but it's what she says that will be the deciding factor. Some of her conversation may be interesting.

T. (39) PLASTER. An earthquake during dinner may well shake the Plaster on the floor in pieces, but there surely would be fewer pieces of the plaster than of the PLASTER from the whole ceiling.

(Copyright 1937)

Home Town Remembers Its GIs

Milan Santa Won't Forget Serviceman at South Pole

MILAN 12 — When Santa Claus empties his pack at the South Pole this year it will hold one special package for a Milan, Mich., serviceman stationed there.

Cmdr. Bernard Lauff of the ice breaker USS Glacier will be one of 83 Milan men who will receive gift cartons labeled "From Your Home Town Folks."

This is the eighth year that the Milan servicemen's commit-

tee has sent boxes to all Milan men in service. This year the packages went to such points as Germany, Japan, Alaska and the South Pole.

The package project was started in 1930 by Ted Woodruff, who remembered lonely holidays as a serviceman. He interested other Milan residents and the group borrowed \$275 and sent a \$5 bill to each of 55 young men. The loan was repaid by the proceeds from a hog raffle and fish fry and from personal donations.

The boxes this year contain capisters of homemade cookies and candy, nuts, stationery and stamps, pencils, calendars, toilet articles, playing cards and reading materials contributed by individuals and business firms.

Postage is raised from gifts and by the sale of greeting cards by the committee's secretary, Mrs. Melvin Flower.

Mrs. Flower keeps track of every serviceman from the time of his induction until he is discharged. She has received many letters saying "I'm the only fellow I know here who got a gift from his home town."

Mrs. Flower also sends a birthday card to each man and notifies him if another Milan man is located in his area.

Milan servicemen also receive their home town newspaper. The Milan Community Council, through its Red Feather Drive, contributes \$300 annually for the subscriptions. The servicemen's committee handles the details.

MESC to Have New City Office

Site on Oakland Ave. Selected for Michigan Employment Service

Plans for a new Pontiac office of the Michigan Employment Security Commission at 242 Oakland Ave. were revealed today by the Ray O'Neill Real Estate firm, 262 S. Telegraph Rd.

A 170 by 280-foot parcel of land fronting on Oakland avenue was purchased by the City Beverage Co., Inc., which will construct a one-story building which will be leased to the state for the new office.

Present offices of the MESC are located at 142 Wayne St. They have been located there for 10 years.

An official of the real estate firm, which handled the purchase, said three homes and a store would be razed to make room for the \$140,000 project. It will have a 100-foot frontage on Oakland and will be 90 feet deep.

Subway Strike Costing About \$400,000 Daily

NEW YORK 12 — The Transit Authority says the subway strike is costing it about \$400,000 a day.

The authority said this includes about \$250,000 in fares and \$150,000 in overtime payments, bonuses and food costs for nonstriking employees.

The authority is feeding 2,500 employees. Yesterday these workers consumed 24,000 sandwiches, 7,500 pieces of pie, 200 gallons of coffee and 35 gallons of milk.

New Mexico Observes Old Twelfth Night Ritual

SANTA FE, New Mexico — An ancient custom of the Old World—the celebration of Old Christmas or Twelfth Night—is still observed in many parts of New Mexico, the Land of Enchantment.

Twelve days after most Americans have put away all thoughts of Christmas, and six days after the usual New Year's celebrations, January 6 marks the Feast of the Epiphany, commemorating the arrival of the Three Wise Men in Bethlehem.

The custom of observing Twelfth Night was brought to New Mexico by the 16th Century Spanish Conquistadores, and is still carried on by the Spanish-speaking descendants of the early colonists and by many of the Pueblo Indians. For the Indians, who were introduced to Christianity by the Franciscan friars of the 15th and 17th centuries, Twelfth Night is a day of giving and the official start of the New Year.

Some Indian dances are performed on Jan. 1, but the Pueblo people regard Jan. 6 as the more important festival. On this date the new Pueblo Governors are installed and are presented with their badges of office—silver-headed canes presented to the Pueblo dignitaries of 1953 by President Lincoln.

A Spanish folk drama — "Los Tres Reyes Magos" (The Three Wise Kings) — is often presented on Twelfth Night in the small mountain villages of northern New Mexico. Small amateur groups perform these plays, unchanged since medieval times.

Ritual dances are performed by the Pueblo Indians in most of New Mexico's eighteen Indian villages. These dances usually include the Eagle and Buffalo Dances, a form of prayer for strength and success, or Plains Indian dances.

borrowed from the Pueblos' former enemies.

It is not difficult to reach New Mexico for the unique Twelfth Night celebrations. The Land of Enchantment is served by a score of Federal highways; the transcontinental facilities of the Santa Fe and Southern Pacific Railways; TWA, Continental, Frontier and Pioneer Airlines; and Southwestern Greyhound and Continental Trailways buses.

About three per cent of North Carolina's cropland is devoted to peanut growing.

REHEARSE FOR CONCERT — The Senior Choir of Oxford High School will be appearing in its new robes for the first time at the annual Christmas concert in the high school auditorium Monday evening. Here, four of the school's 90-member vocal group rehearse for the event. From left, they are Edward La Douceur, Judy Cash, Joanne Maguire, and Harold Carter.

Band Room Approved for Romeo High School

ROMEO — Board of Education members last night authorized the architect to proceed with plans for a proposed band room addition to the new high school now under construction here.

The move was delayed some two weeks while contractors reconsidered their bids on the room. Their first bid had exceeded the architect's estimate of \$25,000 by some \$3,000.

REVISED BIDS — Their bids to a total of \$28,393, or to \$12.76 per square foot. Advised that it was "most unlikely" that they could get a better price in the immediate future, the educators decided to take action now as long as the need was already acute.

The extra amount, over the \$25,000 available for the band room, will be provided through board-authorized transfer of surplus funds in the 1951 debt retirement fund.

This surplus would supply a minimum of \$15,000, one-third for \$10,000 to be earmarked for

bleachers and/or folding doors in the gymnasium.

A preliminary hearing has been set for Dec. 20 in Macomb County Circuit Court in the \$50,000 law suit brought by Architect Robert J. West against the Romeo Community School District. West was fired over a year ago when bids on his firm's plans for a new high school exceeded the building budget by more than \$250,000.

Clarkston to See World Tour Film at Ladies' Night

CLARKSTON — Ladies' night will be held by the Clarkston Men's Club Dec. 19 at the Methodist Church.

A film, "Around the World in 80 Minutes," will be shown at 7:30 by Leslie B. Eby. He and his wife flew more than 37,000 miles to make the color movie which shows the far East, South Pacific Islands and the Olympic Games in Australia.

Eby is a member of the Circumnavigators Club along with Lowell Thomas, Douglas MacArthur and other renowned travelers. Men of the community and their ladies are invited. A light buffet meal will be served after the film.

Ortonville Shops Give \$144 for Yule Frills

ORTONVILLE — Twenty-two businesses and individuals contributed \$144 for street decorations here. Robert Sutton, trustee on the Village Council and William Buckingham, village fire marshal, donated their time to do the decorating.

Several businesses, in addition to contributing money, will absorb the electricity costs through the holiday season. The Christmas tree in the square has been decorated and already has been violated by juveniles removing the bulbs. The Village Council warns that parents will be held liable for the loss.

Oxford to Vote on Bonds for Filter Plant

OXFORD — A special election will be held Monday on a proposal to authorize the village of Oxford to issue \$75,000 in general obligation bonds to provide a new aeration and filtration plant, together with necessary pumps and storage facilities.

Rust and odors in the water have long plagued Oxford residents, and the new plant should eliminate such elements within six months after completion of the plant, according to engineers.

Fluoridation opponents have expressed this is not an issue in this election. Any such action would be taken only after public hearings and a subsequent election, according to village authorities.

Polls at the village office will be open from 7 a.m. to 8 p.m. Only property owners and their wives or husbands may vote on the bonding issue.

Church Women Offer Rummage, Bake Sale

WALLED LAKE — The Women's Assn. of the Cross Roads Presbyterian Church will sponsor its first fund-raising affair Saturday when it will hold a rummage and bake sale. The event will begin at 10 a.m. and continue until everything is sold.

Clean rummage, homemade baked goods and packaged candy will be offered, according to Mrs. Stanley Jacke, co-chairman with Mrs. Bruce Anderson.

Proceeds will be used to purchase equipment for the new church which was formally dedicated Sunday. The church is located at Welch road between Pontiac Trail and West Maple.

Seek Roomier New Post Office

Wixom to Receive Bids on Larger Mail Quarters Through Feb. 3

WIXOM — A need for larger quarters has resulted in a decision that Wixom will have a new post office.

Herbert R. Abrams, postmaster at Wixom, announced today that bids (offers to lease) will be received until Feb. 3.

The bids should be directed to Postmaster Abrams or John Jehowski, regional real estate officer, postal department, 1905 Federal Building, Detroit.

The postal department is asking for a 5-to-10-year lease for new quarters in a central location at Wixom. The building must be approximately 2,400 square feet in area.

Bids to be submitted should include inside dimensions, offsets, windows, doors, etc., along with a description of adjoining lot areas for parking and driveways.

Interested persons may obtain specifications and preliminary information for a building from Abrams or Jehowski.

The present Wixom post office contains only about 1,000 feet of working space, which is now considered inadequate for a heavier volume of mail.

The increased mail load is attributed to the growth of the community.

More space is needed to locate equipment that will aid in the handling of the mail load.

CONSTANCE HIMES

Mr. and Mrs. Donald D. Himes, of 835 Garner Rd., Milford, announce the engagement of their daughter, Constance Beverly, to Jack Brasher, son of Mr. and Mrs. John A. Brasher of 12025 South Dixie Hwy., near Flint. A fall wedding is planned.

Drain Idea Shunned by Madison Heights

MADISON HEIGHTS — The City Council here went on record, in stating that it would have no part of the 12-Town Drain at its regular meeting Wednesday, said City Manager Paul Switzer.

The council voted unanimously to cancel all previous resolutions on the 12-Town Drain, excluding 13 acres which fall in the 12-Town watershed and are not yet served by sewers.

This resolution followed last week's approval of a \$1,500,000 sewer bond issue by voters.

Association in Highland Slates Gala Yule Party

HIGHLAND — Gala plans are under way for the 16th annual Christmas party to be held at 7:30 p.m. Wednesday at the East Highland Improvement Association Hall on M59 at Duck Lake roads.

A special program has been scheduled for entertainment during the evening, and Santa Claus will have a gift for each youngster under 12 years of age.

Chairman for the affair, Mrs. Larry Mitchell, invites all children in the Huron Valley area to attend the party, which is being sponsored by the East Highland Improvement Association.

School Board Studies Insurance Coverage

LAKE ORION — The Lake Orion Community School Board meeting went into the wee hours Wednesday night, with most of the discussion concerning banking of funds and insurance coverage.

Board members took under consideration the choice of a bank in which to keep money that must be kept on hand for the retirement of school bonds and for small accounts. The money now is kept in the Orion Bank at a 2 per cent interest rate.

It was decided to check with Oxford and Flint banks besides the Orion Bank on interest rates and other pertinent factors.

More than \$10,000 could be saved if the money can be invested at 3 per cent interest, a member stated.

Three types of insurance coverage were studied at the session. They were 80 and 90 per cent replacement policies, with 33 per cent depreciation, or 100 per cent replacement (new for old).

The board chose the 100 per cent coverage so equipment moved throughout the district would be insured.

The cost would be about \$500 greater a year than the 80 per cent policy, pending the final determination of the actual value of contents in all buildings of the school system, it was pointed out.

It was brought out, however, that 80 per cent coverage would replace only contents belonging to a particular building, and at about 33 per cent less than replacement cost.

Members said relatively accurate inventories will be needed. The board is setting up a special file for this purpose.

Plans were made by the board

Extension Service of MSU Given Confidence Vote

EAST LANSING — A unanimous vote of confidence was given to the extension service at Michigan State University yesterday by the Michigan Agricultural Conference.

Conference members, representing 78 Michigan farm groups, said the entire idea behind the service was essentially sound.

The service had been criticized by Rep. Russell H. Strange Jr. (R-Clare) for issuing bulletins on some things he thought were non-essential.

Strange, 23, the state's youngest on such subjects as knitting and how to entertain at buffets, teas and parties.

"The program issues a wide variety of bulletins," said Forrest H. Smith of Lansing, conference secretary. "Our vote does not mean the program is without need of change or constant watch. But the basic idea of broadcasting farm information and new ideas of research is good."

The conference agreed that the program must be continued for the good of Michigan's "agri-business" — the big business of agriculture. Conference members said they thought Michigan was behind some other states in the business of farm marketing and packaging agricultural products for consumer acceptance.

Chippewa Fellowship to Visit Hadley Church

HADLEY — Several members of the Chippewa Christian Fellowship from Mt. Pleasant will arrive in Hadley Saturday. A 6:30 p.m. potluck supper will be held in the Federated Church parlor for all in the Hadley area who may wish to attend.

Services will begin at 8 p.m. and all churches are invited. Sunday morning there will be a guest speaker and special music at the Federated Church.

The Christmas program will be held Dec. 22 at 8 p.m. with both the junior and senior choirs participating under the direction of Beverly Passmore.

Plans to Incorporate Under Way in Holly

HOLLY — With the endorsement plans are under way to submit a proposition to change from a village to city status at the regular annual election on March 10.

Petitions asking for the election have been submitted by the required number, and without doubt the question will come up for a vote at that time.

Holly was first organized as a village 92 years ago, and has continued since as such, although its population now is larger than most Michigan cities.

Issue 21: Home Permits

ORTONVILLE — Building permits for 21 new homes and one business were issued in 1957, Gerald Bandy, zoning chairman for Brandon Township, reported. The estimated value of construction this year is \$190,967, he reported.

Last year, permits were granted for 19 new homes and the Belle Ann School, with a total valuation of \$237,368.

to purchase window shades, as money permits, to reduce the glare in many classrooms.

It also was reported the lunch room shows an 1,800 average participation in the system, which had 2,867 students on Dec. 1.

In other action, the board announced the purchase of a used car from the Federal Surplus Depot at Jackson. A 1951 Chevrolet, the auto will be used by the Maintenance department.

Cash on hand was reported at a low of \$7,450 when the board met. Arlie Reed, superintendent, called Lansing and was assured state aid funds will be available to meet the Dec. 30 payroll.

Head-On Crash Fatal to Youth

His Auto Collides With Milk Tanker Truck in Imlay City

IMLAY CITY — A 19-year-old Imlay City youth was killed at 1:05 a.m. today when his car collided head-on with a milk tanker truck on M53 in Imlay City.

Donald E. Reynolds of 285 Second St., Imlay City, was pronounced dead at the scene of the accident by Coroner Dr. Dorothy Leith of Imlay City. He suffered a broken neck, she said.

Dennis Locklin, 5170 Imlay City Rd., Attica, truck driver for the Michigan Milk Producers Assn., told sheriff's deputies Reynolds' car crossed the center line of the pavement and crashed into his truck. Locklin escaped serious injury.

The Reynolds youth is survived by his mother, widow of the late Edward Reynolds. Reynolds was graduated from Imlay City High School with the class of 1957.

Walled Lake Principal Returns From Meeting

WALLED LAKE — E. V. Ayres, principal of the Walled Lake Senior High School, has returned from the annual meeting of the Michigan Assn. of Secondary School Principals in Lansing.

Ayres also was a speaker at the annual meeting of the Michigan Collegiate Registrars and Admissions Officers held recently at Marygrove College.

He is co-chairman of the high school college relations committee of the MASSP.

Rehearsing Yule Play at Rochester Church

ROCHESTER — The Senior Pilgrimage Fellowship of the First Congregational Church is rehearsing for its play, "The Light Still Shines," under the direction of Mrs. Oral Woodruff.

It will be presented as part of the Christmas Eve candlelight communion service at 11 p.m. in the church sanctuary.

The group also is planning a holiday dance party for Dec. 30, from 8 to 12 midnight, in the church hall.

Heads Holly C of C

HOLLY — Glen Sawyer is new president of the Holly Chamber of Commerce and will assume office at the January meeting, succeeding Raymond E. Addis who declined to accept the position again. Other officers for the coming year are: Donald R. Winglemire, vice president; Robert B. Wheeler, secretary, and Maurice H. Bennett, treasurer.

Farm Work Force Cut

WASHINGTON (INS) — Bad autumn weather cut the farm work force in November to 7,188,000 people, down two million from a month earlier. The Agriculture Department said that family workers are down three per cent from last year. Hired workers are down one per cent.

Takes Top Livestock Showmanship Honors

Rochester Youth Wins at 4-H Club Show

ROCHESTER — Fritz Lutz, 17-year-old member of the East Orion 4-H Club, Rochester, took top honors Wednesday when he was awarded the first place trophy for the showmanship contest at the 4-H Junior Livestock Show at State Fair Grounds in Detroit.

Fritz won the title for showing his steer which also was awarded second place in a field of 294 contestants and the title of reserve grand champion steer.

Twelve of the 14 Oakland County 4-H members who entered the show received awards in the top divisions of the statewide contest.

Members of the East Orion club who won honors include: Ardis Storm, 66 Lake Orion, 5th, light shorthorn; Ritz Spezia, of Leonard, 11th, middle weight Hereford; Tom Middleton, of Lake Orion, 7th, Angus steer; John Spezia, of Leonard, 5th, Angus steer and 5th, best showmanship; Bill Middleton, of Lake Orion, 9th, Angus steer; Ed Braid, of Lake Orion, 10th, Angus steer and first place in the pen of three steers; and Howard Storm, of Lak Orion, 13th in pen of three shropshire sheep.

No-Ly-Wix Club members who

won outstanding awards include: Acres Club from Milford placed 12th in the pen of three Shropshire sheep. Oakland County placed fourth in the contest between the 32 counties participating in the group of three steer contests, according to Jack Worthington, Oakland County 4-H agent.

High School Yule Program

Concert Slated at Oxford

OXFORD — The annual Christmas concert by the Oxford High School vocal department will be presented at 8 p.m. Monday in the high school auditorium. Mrs. Dorothy Jean Valentine is the director.

The senior choir will be appearing in robes for the first time. A successful drive for the \$1,500 to purchase them has just been completed.

Other groups participating in the concert will be the girls' and mixed quartets, and junior and senior ensembles.

Soloists are Judy Cash, Joanne Maguire, Marilyn Unger, Robert Perry, Paul Miller, Daniel Hobbs and George Polly. Accompanists are Judy Daubermann, Barbara Ellis, Lynne Frailing and Lois Stoddard.

For Paris NATO Conference

Top Ghost Writer Readies Ike's Speech

By RUTH MONTGOMERY
WASHINGTON (INS) — President Eisenhower's ghost writer—better known as the Republican Party's No. 1 egg-head—is working on Ike's address to the Paris NATO Conference.

The nation's top ghost writer is Arthur Larson, former chief of the U. S. Information Agency and author of the GOP best-seller, "A Republican Looks At His Party."

HARD AT WORK
Larson is already hard at work on an extensive series of presidential speeches which is expected to cover such broad national problems as education in the space age, farm policies and the domestic economy.

The ace writer, who joined the White House advisory staff in October, steadily burned the midnight oil for the first month while drafting the first three in the series of Eisenhower speeches.

The first two which dealt with missiles and science were delivered as scheduled, but the third had to be canceled because of Ike's mild stroke.

NEVER RELEASED
That message, which was to have dealt with world trade and foreign economic aid, has never been released. In it, the President intended to deal largely with the contribution that foreign aid and trade can make to the peace and security of the world.

Labor Secretary James P. Mitchell, in a New York address Nov. 26, listed some of the points he said the President intended to make in the third speech. Mitchell said Eisenhower wanted Americans to give their fullest support to an expanded mutual security and economic aid program overseas and would ask an extension of the Trade Agreements Act.

Ike has not discarded the speech, however. Instead, it will probably be brought up to date and delivered by the President soon after he has fully regained his strength.

The others will then be scheduled at regular intervals to inform the American public of the administration's policies in an unsettled world.

This new speech could well prove to be one of the most important presidential utterances of the decade. Ike hopes by his presence and his words to instill renewed confidence into our allies who have become dispirited as a result of Russia's lead in the missile race.

The usual procedure in speech writing is for Larson to meet with the President to learn his specific ideas. Larson and his assistants then borrow a number of trained researchers from the executive departments to check all needed facts.

Larson prepares a rough draft,

which Ike pencils with his own language and thoughts. Ordinarily each speech is re-drafted a half-dozen times before it receives the final Eisenhower OK.

The presidential ghost writer who once cringed at his "egg-head" title now finds the classification less lonely since the GOP-controlled State Department has borrowed Democratic "egg-head" Adlai Stevenson, and belittles have suddenly become the men-of-the-hour.

In fact, Larson's 18-year-old son, now a freshman at Deep Springs Experimental College in California, is studying to become a scientist.

Young Larson shows evident signs of joining the egg-head fraternity. He was one of only six high school graduates from the entire country to be selected for scholarship attendance at the exclusive scientific college.

Hare Comments on Road Safety

Says Ike's Confab, Now Meeting, Reveals 3 Michigan Needs

LANSING UP — The President's Conference on Traffic Safety in Washington, D.C., this week showed at least three areas that seemed to need further emphasis in Michigan, Secy. of State James M. Hare said yesterday.

Hare said figures put Michigan second only to Tennessee in the percentage reduction of traffic deaths during the past two years.

But improvement still could be made in these specific areas, Hare said:

1. The problem of drinking drivers, which has received "substantially" more emphasis in states other than in Michigan.
2. More emphasis on removing the unlicensed drivers from the highways, such as has been done in Tennessee by "rolling blockades" in which drivers were stopped and their licenses examined.
3. Premature restoration of licenses to drivers who have had them revoked for drunk driving and other serious charges. "Apparently," Hare said, "this happens only in Michigan, where several hundred of these licenses are returned each year."

"It looks as though we've reached a 'plateau' in our campaign to save lives in traffic," he added. "It seems to me that now, instead of trying to improve driving conditions in general, we've got to concentrate on specific areas of bad driving and eliminate them if possible."

The mother of Theodore Roosevelt was from Georgia. Two of her brothers fought in the Confederate army.

Another \$100 Adds to Bulge in Pot-O-Gold

It's getting closer and closer to Christmas and still no one has found the solution that will relieve old Pot-O-Gold of its increasing bulge. A winner for this week will find his efforts worth \$100, not bad pay for the little time it requires. You still have time to get in on the big money before those Christmas bills start pouring in, so get busy right now.

The new puzzle contains a series of squares which are alphabetically lettered and a corresponding list of sentences with two clue words. Each of the words is numbered. The object is to select the word which you think best fits the clue sentence. You then place the number of that word in the square which has the same letter as the clue sentence.

In other words, you will read the clue labeled A and decide which of the two words makes the most sense in the puzzle square marked A.

Do the same with all other squares. Read all the clues carefully and be sure the right numbers are in the right squares.

OFFICIAL CONTEST RULES

1. Anyone is eligible to enter the POT-O-GOLD contest with the exception of Pontiac Press employees or their immediate families.
2. Entries must be on official entry blanks printed in this newspaper.
3. To submit an entry the contestant must print his name in the proper spaces, cut out the area enclosed by dotted lines and attach it securely to a 2-cent post card. No entries will be accepted if they are in envelopes. Entries for Puzzle No. 80 must bear a Tuesday, Dec. 17 postmark (or before). No entries received after that time whether mailed or delivered by hand, will be declared eligible. The Press is not responsible for entries lost or delayed in the mail.
4. Sorry, telephone calls or mail concerning details of the contest cannot be answered or acknowledged.
5. The Pontiac Press will award a cash prize of \$100 a week to the winner of each weekly POT-O-GOLD contest. If more than one winning answer is received the prize will be divided equally among the winners. If any week or weeks should pass without any winners, the prize will be added weekly until a winning solution is submitted.
6. Winners will be awarded an extra cash bonus of \$25 each if they are Pontiac Press subscribers of record on the day winners are announced. Only one such bonus can be awarded to each prize-winner no matter how many weekly prizes may accumulate.
7. Each week's puzzle will be published Monday, Wednesday and Friday until the contest's end. Either or all will be considered as official entry blanks.
8. Winners and correct solutions will be announced each Friday of the week following individual contests. Official keepers of answers will be Frederick C. Ziem, proprietor for Oakland County. Only the General Features Corp., originators of the puzzles, will know the solutions until after each contest is over. Answers will be delivered to the Press judges by Mr. Ziem after the final deadline.
9. There is only one correct solution to the POT-O-GOLD puzzle, and only that correct answer can win. The decision of the judges is final and all contestants agree to abide by the judges' decision. All entries becoming the property of The Pontiac Press and none can be returned.
10. Completed puzzles must be addressed to POT-O-GOLD, POST OFFICE BOX 58, Pontiac, Michigan. Winners will be notified either by telephone or in the mails.

Jaycees in Educational Drive on Constitutional Convention

A public education program to enlighten Michigan voters on why a state constitutional convention is needed, has been endorsed by the

Pontiac Junior Chamber of Commerce.

Father's a Lion, Mother's a Tiger; So They're Ligers

BOMBAY (AP)—Four ligers, the rare offspring of a lion father and a tigress mother, were born last night at the Victoria Gardens zoo. Officials said they might survive.

The mother is Mary, a royal Bengal tigress, and the father is Shankar, star lion of a circus menagerie. The animals have been cage companions for two years.

Three of the gray ligers were delivered in rapid succession. The fourth arrived some hours later. The zoo superintendent said ligers are a rarer phenomenon than tigers, the offspring of tigers and lionesses. The zoo bred one ligon 12 years ago but it did not live long.

Trucks carry about nine billion tons of freight in the U. S. each year.

"We want to emphasize that the Jaycee organization is non-partisan," said Leslie W. Langford, president. "But we do feel because of the unwieldy and cumbersome nature of our state Constitution the need of a convention should be brought to the attention of the citizens."

The Pontiac chapter will take its endorsement before the executive board of directors of the Commerce Jan. 10. If favorable reaction is received here it will go before the full Board of Directors at a Feb. 22 meeting in Detroit.

Spearheading the drive here has been Don Weddle, Pontiac Jaycee second vice president, and Clyde R. Haskill, one of the Michigan Jaycee vice presidents.

The drive will be part of the Jaycees' annual get-out-to-vote campaign, Langford said.

Officers of the Pontiac chapter met this week with Mrs. Berrien C. Ketchum, of Birmingham, president of the League of Women Voters of Michigan, which is

striving also for a public awareness regarding a constitutional convention.

Michigan voters will cast ballots next November on whether the state needs such a convention. The constitution calls for a vote on this every 16 years.

Langford pointed out that no specific changes are being proposed by the Jaycees. "We just want the voters to have the facts behind the constitutional convention," he said.

Firm Discloses Why It's Staying in State

MANISTEE (AP)—Stability and high production by its employees convinced Glen of Michigan, a Manistee garment manufacturing firm, that it should remain in Michigan, an industrial workshop was told yesterday.

Harlees Feagins, plant manager, told some 50 civic leaders that his firm had made extensive surveys of possible locations outside of Michigan.

"When we needed an expansion program, we looked through the South and listened to financial offers," Feagins said. "We decided to stay at Manistee because of the stability and motivation of

labor. We felt it better to stay where the workers know how to produce quality goods."

Japan Indicts State GI in Strangulation-Murder

YOKOHAMA, Japan (AP)—Specialist 3, C. Gregory K. Kupski of Detroit was indicted in a Japanese court today for the murder of a Japanese girl.

Kupski, 23, was arrested Nov. 23 and U. S. Army officials said he admitted strangling Kuzue Eikawa. He nude body was found in a Yokohama alley a week before, a nylon blouse twisted around her neck.

There was no indication when Kupski's trial could start. The maximum penalty in Japan for murder is death, the minimum of three years in prison.

Waterford Student Vies for Scholarship

A course of instruction in archery has been started at the Community Activities Center in Waterford Township. Entire families have been invited to participate, according to Recreation Director Tom Belton.

On each Tuesday from 7 to 8 p.m., a qualified instructor shows the fundamentals of shooting, care of equipment, and the perfecting of target practice.

After the total registrations have been established, members of the course, will be divided into various groups according to age, Belton said.

Grand Coulee dam is said to be the largest concrete structure in the world.

Five barrels of gasoline contain the same energy as one ton of coal.

Employment
in Area ClimbsChangeover Completed,
Number of Work Hits
27,300 Level

With the changeover to 1958 models complete, employment in Pontiac motor vehicle plants climbed substantially to 27,300—the highest level since April.

Overall employment in the Pontiac area increased by 6,000 in the 30 days preceding Nov. 15, according to figures just released by the Pontiac Michigan Employment Security Commission office.

Total employment rose to 74,300 for the period, Paul Kimball, branch manager, said.

Manufacturing employment showed a 30-day rise of 5,900, reflecting the completion of the changeover. Despite this climb, factory employment in mid-November of 36,200 was still 1,900 below the level a year ago.

The largest employment gain took place in the auto plants where 6,300 returned to work. This was offset by a 100-person increase in metal fabricating plants and a 500-worker decrease in non-electrical machinery manufacturing.

Non-manufacturing employment rose slightly by 1,000 to reach 30,600 in mid-November. This amounted to 600 above the November, 1956 level.

Unemployment at mid-November was estimated at 3,300, down 2,300 from the October level. This unemployment made up 4.1 per cent of the total labor force of 80,500, as compared to 10.5 per cent in October and 4 per cent a year ago.
