Cool Men Praising Comfort

It wasn't hard to tell who were the most comfortable men in Pontiac yesterday. As the sun poured down around noon time — pushing the mercury to the 94 mark — members of the open sport shirt sect gladly went about their work with a comfortable cooling feeling about them.

Those residents still choking with the necktie—most had shed their suit coats—begrudgingly eyed their cooler counterparts.

So your sport shirt clad roving reporter looked into the situation and questioned some of the "cool" members. It was the concensus that wearing a sport shirt was the only sensible thing to do during the June heat wave.

Some hoped they had seen the customary tie and coat for the last time this summer.

One smiling individual said he was wearing a sport shirt because my wife gave me my Father's Day present early."

Here's what your reporter discovered about the comfort afforded by wearing sport shirts on blistering 90 degree days:

GEAL

Sid N. Geal, 161 W. Lawrence St.: "It's the only sensible and comfortable thing to do in weather like this. I feel there are times and places for formal dress, and in this heat it's not one of those times."

BABCOCK

William P. Babcock, 52 Parkhurst St.: "The wearing of the sport shirt and all other comfortable men's apparel is getting to be the trend, isn't it? And men get a lot more work done when they are comfortable, and relaxed, which is possible with the sport shirt."

MADOLE

John E. Madole, 140 Preston Ave.: "I'll tell you why I'm wearing this cool sport shirt — my wife gave my my Father's Day present early. Another reason is that it's naturally more comfortable and The Press made us feel more at home wearing sport shirts."

WAGER

Bartlet Wager, Waterford Townshop: "In nice humid weather like this I wouldn't think of wearing anything else but an open sport shirt. It's the cool thing to do and certainly makes a man more relaxed."

FORTINO

Joe Fortino, 310 Dix St.: "In hot weather like this believe me I'm looking for all the comfort I can find. Doesn't this shirt look a lot more comfortable than those being worn by gentlemen with ties?"

PASICK

Irving Pasick, 29 S. Saginaw St.: "The sport shirt is very comfortable and relaxing when a man is working. Never in my lifetime would I consider returning to the tie and coat as long as the weather is this hot. Why make yourself miserable."

Leap From Fire Fatal

DETROIT (INS)—Booker Shaw, 42, of Detroit, died yesterday of injuries suffered Monday when he leaped from a second-story window of a burning house. Police said Shaw was homeless and had taken shelter in the unoccupied house.

Beaches and Lakes Popular

LET IT SIZZLE — The beaches of Pontiac Lake in the Pontiac Recreation area yesterday proved a comforting and cooling haven to many Pontiac area residents who sought an escape from the fourth straight day of blistering 90 degree temperatures. This is typical of the scenes witnessed at many of the county lakes.

Mild Weekend Is Seen as Heat Records Tumble

Forecast Temperatures in 80's; Area Showers Forecast for Tonight

TEMPERATURE TODAY

7 a. m.	74	11 a. m.	86
8 a. m.	75	12 m.	86
9 a. m.	78	1 p. m.	88
10 a. m.	80	2 p. m.	90

The record-breaking heat wave will lessen somewhat over the weekend, the U.S. Weather Bureau forecasts. But only as low as the middle or high 80's.

For the third straight day yesterday, a sizzling sun shoved the mercury to a record-breaking 94 degrees at 2 p.m. The previous record for June 14 was 93 established in 1952.

Although predicted thunderstorms have failed to materialize the last two nights, the Weather Man repeats that Pontiac area residents can look forward to rain tonight and tomorrow.

The low tonight should be around 65 with a high of 85 predicted for Saturday.

A cool air mass blew into the Upper Peninsula today and traces are expected to drop into lower parts of the state causing the expected drop into the 80's.

Houghton reported a low reading of 58 this morning and it was 60 at Grand Marais and 62 at Kinross.

The Pontiac water works pumped a total of 16,068,000 gallons of water yesterday. This is shy of the record 1955 figure of 21 million gallons pumped last summer.

While a little relief from the first June heat wave was being welcomed in the Great Lakes and Mississippi Valley regions, the eastern half of the nation continued to swelter.

New York City reported a record 96 degrees and Newark, N. J., 99. Further west, El Paso and Phoenix had 101 while San Antonio residents melted in 100 - degree heat.

The five-day forecast on the local scene is for temperatures to average around five degrees above the normal maximum of 79 and the normal minimum of 59.

The warming trend will return the first of the week with cooler temperatures expected to appear about Wednesday.

The lowest temperature preceding 8 a.m. was 72. A reading of 90 was recorded at 2 p.m.

IT'S WET, DADDY — Even though the cooling waters of Pontiac Lake were mighty wet, it didn't make any difference to Mr. and Mrs. John Newcombe of Drayton Plains and their two children, Tommy, 2½ years, and Nancy, 1½. The family were typical of thousands of Pontiac area residents who flocked to county lakes to seek relief from yesterday's 94 degree heat.

Cobo Opens Area Drive With Speech in Berkley

By LAWRENCE S. MARTZ JR.

Detroit Mayor Albert E. Cobo last night kicked off his Oakland County campaign for the governorship of Michigan with a half-hour speech before the North Woodward Republican Club in Berkley.

The mayor made it clear he will run on his Detroit record, stating his administration has started 32 major projects worth $633 million in the 6½ years he has been mayor.

Cobo said Detroit now has less debt and lower taxes than when he first took office.

Today, the mayor planned his formal entry in the August 7 primary. He will travel to Lansing to present his nominating petitions at the Department of State.

Contrasting his own "straightforward, calm, businesslike" type of government to what he said was the Democratic philosophy of "government behind closed doors, and if you don't like it, you can get out," Cobo said the difference lies in cooperation between lawmakers and executives.

'NO PROJECTS VETOED'

"I believe the legislators are just as important as I am, and maybe more so," he said. He added that in his 6½ years as mayor of Detroit, the Common Council has never voted down any of his projects.

In an obvious reference to Gov. G. Mennen Williams, Cobo said that "In Lansing today, the executive officer wants to make a big splash in the headlines. He doesn't work with the Legislature."

In a review of Williams' attitude toward highway tax money, Cobo said the Governor didn't champion a building program "until it suddenly became popular. Then he started blaming his highway department for not building roads when he hadn't been giving them any money."

HITS SPECIAL SESSION

Cobo charged Williams "knew all about" the faulty wording in the 1955 highway construction act which required a special session of the Legislature this summer.

"Don't tell me he didn't know about it," the mayor said. "He was just seeking the publicity."

The mayor repeated his pledge to conduct the state government on the same principles he has acted on in Detroit.

"We'll be truthful and sincere," he said, "I believe 90 per cent of the American people want that. But they get confused by the ballyhoo and headlines."

Ike Continuing Firm Recovery

Visits by Adenauer and Dulles Pep Up Spirits; Talk With Nixon Hinted

WASHINGTON (INS) — President Eisenhower continued steady progress on the road to recovery from major surgery today,—one week after he was stricken.

Yesterday, his first visitors outside his family, White House staff members and his doctors, called his recovery virtually "miraculous."

This was the opinion of Chancellor Konrad Adenauer of West Germany and Secretary of State John Foster Dulles who spent 10 minutes with the convalescing President in his hospital room.

The next visitor was expected to be Vice President Richard M. Nixon, who may go to the hospital sometime today.

The chief executive was obviously given a lift by his talk with Adenauer and Dulles. His doctors reported that he had suffered "no untoward physical reaction."

Plan for 3,500-Acre Park Near Rochester Revealed

The Huron-Clinton Metropolitan Authority has disclosed details of a project to establish a 3,500-acre park near Rochester.

The five-county authority said it already has options on 650 acres of the site. The general location is in Oakland and Macomb Counties between 26 and 28 mile Roads, with Sheldon Road on the west and Mound on the east.

The proposed recreation area will have a 600 to 800-acre lake made by damming Stoney Creek, two swimming beaches accommodating 50,000, a wildlife area and sports and picnic areas.

Residents from the proposed park area appeared at the authority's meeting to protest about the secrecy involved in obtaining options and to ask how their property would be affected.

Herbert L. Frisinger of Ann Arbor, authority chairman, said full details will be available at a meeting that is planned within two weeks. Paul V. Buskirk, advance planning engineer for the authority, said he knows of only 19 homes in the proposed site.

Buskirk said much of the area around the creek is marshy and that very little of the area is in use today.

The Authority elected Charles H. Sutton of Livingston County as chairman to succeed Frisinger.

Legislators Recess to Ponder Two Bills

Gotham Subways Rolling Again

NEW YORK (AP)—Subways rolled as usual today, bringing back to work the hundreds of thousands who spent sweltering, hectic hours getting home by makeshift means last night during a subway motormen's strike.

The vast subway system was all but paralyzed during the nine-hour walkout, unprecedented in the history of city transit.

With the return to work, the city's transit authority announced that 27 motormen, including 25 officials of their union, the Motormen's Benevolent Assn., had been suspended for their part in the affair.

Among them was Theodore Loos, president of the MBA.

Hundreds of thousands, heading home from offices and fac-

(See story page 2)

tories, were stranded by the first city-wide subway strike in New York history.

The strike hit the world's largest passenger-carrying railroad with startling suddenness on a day of record heat—96.1 in the shade. It began as a wildcat strike of three motormen on the BMT line, gradually spread to all three subway lines, and built to a crescendo of confusion and congestion during the rush to get home.

When the end of the walkout came, it took several hours to restore the system to full operation.

On a normal day, about 4½ million people ride over the city's 228 miles of subway and elevated track, some 800,000 of them during the morning and evening rush hour periods.

NO DEATH OR INJURIES

Although the crush of humanity caught underground, waiting for trains that never came, sometimes threatened to dislodge passengers onto the tracks, the strike ended without death, injury or panic.

Many night workers, including hospital employes, were unable to get to their jobs.

Overground, the congestion was equally intense. Buses, taxis and private cars attempted to take up the transportation slack. They succeeded in producing traffic jams that approached a policeman's nightmare — that vision of cars, buses and trucks hopelessly entwined from the northern border of New Jersey to the southern tip of Connecticut.

It was almost that bad. Traffic jams of more than an hour's duration were reported at bridges and tunnels leading to the heavily populated boroughs of Brooklyn and Queens and on parkways heading out to Long Island and other suburbs.

Detroiter Killed in Auto Crash

Two Companions Hurt When Car Rolls Over Passing Truck

A Detroit man suffered fatal injuries and two companions were hurt when their car on Northwestern Road overturned near Telegraph Road, Southfield Township, yesterday afternoon.

Eugene A. Moore, 20, died shortly after the crash at William Beaumont Hospital. He was a passenger in a car driven by Donald Doellefeld, 20, also of Detroit.

Doellefeld was reported in "fairly good" condition at the hospital today. He suffered several fractured ribs in the accident.

Dwight Presser, 19, Detroit, was treated and released yesterday for contusions of the right forearm and left leg.

Investigating Redford Post State Police said Doellefeld apparently lost control of the vehicle while attempting to pass a truck on the one-way road. The car went off the left side of the highway, according to the Troopers.

Still No Contest Winner

O Woeful Day, Wails Pot, and Hikes Prize to $300

It could be the heat—or the dazzling effect of exposure to the brain-searing reflections given off by June's multi-colored sportshirts.

Anyway, the Press' POT-O-GOLD has yet to be tapped by a lucky winner at the end of the word game's second week. The best thing that can be said is that its contents are getting pretty close to the brim.

For lack of a winner in Puzzle No. 2, the contest jackpot climbed to a bulky $300 today. It could reach $325—if the winner of the current puzzle happens also to be a Pontiac Press subscriber of record.

Rapid calculation by our disappointed judges reveals that about 8,000 local readers have exercised their minds in trying to work out solutions to the first two puzzles.

Many have come close—within a word or two—to fame and fortune as initial winners.

Much further away, however, were the 80 who sent last week's entries to us via envelopes. Another 24 prize aspirants missed the Tuesday (midnight) deadline. Contest rules, our bottom-heavy POT-O-GOLD points out, are just as important as picking the right words.

But don't be discouraged. Contests were made to be won. Another chance to be a winner appears on Page 18 of today's Press in the form of Puzzle No. 3. You have until Tuesday to send it in for study by the judges.

You can find out how you fared last week (and perhaps pick up a few pointers on the kind of reasoning used by the people who figure these things out) on Page 29. We've even included words you might have used and why they were not as good as the right ones.

Next week, the Press will launch the fourth phase of the contest while waiting hopefully for someone who can claim the $300 which will belong to the winner of the third.

You can be that winner. Dig into the bookcase and bring out that dictionary, and remember, as you study the clues and rules, that a hairline often separates one word from another when you're looking up definitions.

Those hairlines can mean the difference between a person with $300 to spend and an also-ran. Good word-hunting!

Maxwell Early Round Leader

Cary Middlecoff Fires Two-Under-Par 33 for Front Nine at Open

ROCHESTER, N. Y. (AP)—Dr. Cary Middlecoff, the golfing ex-dentist, fired a two-under-par 33 over the front nine of the tree-lined Oak Hill course today to cut a big slice out of Bob Rosburg's first-day lead in the U.S. Open Golf Championships.

Starting with a score of 71, three strokes behind the pace that gave Rosburg the lead on yesterday's first round, Middlecoff played near-perfect golf over the difficult first nine holes. Rosburg, a late starter today, wasn't due off the first tee for an hour after Middlecoff rounded the turn.

Bill Maxwell, the chunky Texan, fired a 71 in his second round to add to his 72 of yesterday for a 143, which was one of the better scores among early finishers.

Jack Isaacs who had a 77 yesterday, shot a par-70 for a two-round total of 147.

Early area finishers today showed Mike Ditz of Indianwood with a 74 for a 147 total and Bob Gajda of Forest Lake with 77 for a 156 total.

Second round scores

Jack Isaacs	77-70—147

381 Pontiac High Grads Receive Diplomas, Advice

Dr. Tennyson Guyer, minister and humanitarian from Findlay, O., counseled 381 Pontiac High School graduates to "be a real person," in his address at annual commencement exercises last night.

Held for the first time in Wisner stadium, the graduation program was attended by about 5,800 parents and friends.

Dr. Guyer, holder of five honorary doctor's degrees, told graduates in his talk entitled "How High Is Your Star," to find their aptitude in life, develop an attitude and have an altitude.

"We need more sunshine people who actually act as if they're interested in other people," he said. "With altitude you'll be developing a normal grandeur that puts you above the pesky influences of life."

What is wrong with the world today is that the world is afraid of the unknown, of tomorrow,

Take Five Days to Study Prison, Jobless Plans

Road Law Revised, but Other Williams' Ideas Believed Doomed

LANSING (AP) —Michigan lawmakers fanned out to their homes today for a five-day breathing spell after granting Gov. Williams one of his three main requests and putting off final decisions on the other two.

Technically, they postponed a decision on the governor's unemployment compensation proposal, and on his bill for another $125,000 to supplement construction funds for the medium security prison at Ionia.

But as a practical matter it appeared they had turned down both.

Only the highway problem served up by the governor won speedy legislative approval.

Many of the majority Republican senators were adamant in their view that business would not stand for the added costs involved in stepping up both the rate and duration of jobless pay benefits, as proposed by Williams.

In agreeing to a recess rather than adjournment, they were playing for time on the outside chance that the House Labor Committee might generate an acceptable substitute idea.

* * *

The Labor Committee planned hearings and discussions on the subject between now and next Wednesday when the legislators were due back at the Capitol to resume their special session.

FEATHER IN CAP

The one big feather in Williams' cap was an okay for an agreed Democratic-Republican bill eliminating a hitch in a 1955 highway act that rendered bonds issued under the act unsalable.

The House followed the Senate in approving it Thursday.

The amendment, backers said, was intended to simplify the process of revising the revenue distribution formula for road monies should this be deemed advisable by the 1957 Legislature.

Some sort of temporary hike in state unemployment benefits appeared today to be the only hope

Road Contracts OK'd

LANSING (INS) — Michigan's Highway Commissioner Charles M. Ziegler today authorized immediate contracts for 219 miles of four-lane highways at a cost of $146,300,000.

The authorization came as the result of action at the special session of the Legislature, correcting an error in the 1955 bonding act.

NEW HAVEN, Conn. (AP)—Former Secretary of State Dean Acheson says congressional committees take up too much of a secretary of state's time nowadays and limit his "flexibility" in dealing with foreign matters.

Outdoor Commencement Held for P.H.S. Class

Pontiac Press Photo

PONTIAC HIGH GRADUATES — Commencement exercises last night in Wisner Stadium found 381 graduates receiving diplomas. Here seniors are listening to Tom Cross, senior class president speak on behalf of the 1956 class. He advises class members to thank all who helped them reach this goal.

381 Pontiac High Grads Receive Diplomas, Advice

(Continued From Page One)

Guyer continued. "This shouldn't be. We don't know everything and that's good."

The humorous speaker told graduates to be proud of where they begin and that now was the time to make their decisions of where they were going.

Louis Schimmel, president of the Pontiac Board of Education presided over the commencement program.

Dr. Dana P. Whitmer, superintendent of schools, awarded diplomas to the graduates who filed past the speakers stand.

Francis Staley, principal of Pontiac High, presented the class and announced that the Student Council of Pontiac High had donated $500 toward a Civic Auditorium for Pontiac.

Tom Cross, senior class president, in his remarks paid tribute to teachers, parents and community "who have helped us reach this goal tonight."

He told parents, "We are looking forward to our futures with enthusiasm and high hopes."

Dr. Milton H. Bank, pastor of the Central Methodist Church, gave the invocation.

The Pontiac High School band under the direction of Dale C. Harris played "Processional" by Savino as graduates marched across the field to their seats.

Other numbers played by the band included selections from "Carousel" by Rodgers, a march, "The Southerner," by Alexander and the Recessional "University March" by Goldman.

Pontiac Deaths

Mrs. Charles J. Cummings

Mrs. Charles Judson (E. Blanche) Cummings, 76, who made her home with her daughter, Mrs. John Huntzinger, 170 Chippewa Rd., died early this morning. She had been ill one month.

She was born in Lockwood, Sept. 24, 1879, the daughter of Thomas and Harriett Van Allen Joslyn.

Mrs. Cummings had lived 40 years in Oakland County and 16 years in Pontiac. She came to Pontiac from Holly where she was a life member of the Eastern Star, Electa Chapter.

Surviving are two daughters, Mrs. Kenneth Henry of Dearborn, and Mrs. Huntzinger with whom she lived; five grandchildren and a brother, Darwin A. Joslyn of Sylvan Lake.

Service will be at 10:30 a.m. Monday from the Donelson-Johns Funeral Home with Dr. William H. Marbach of the First Presbyterian Church officiating. Mrs. Cummings' body will be cremated at White Chapel Memorial Cemetery. Friends may call at the funeral home after 7 o'clock this evening.

Gordon Arthur Tear

Gordon Arthur Tear, 32, of 30 James St., who was drowned yesterday in Otter Lake, was born July 14, 1923 in Detroit. His parents were Ernest and Pearl Moyer Tear.

He attended Pontiac Schools and was a veteran of World War II. He had been employed by the Gaukler Moving & Storage Co.

He leaves his wife, the former Gertrude Powell whom he married here Aug. 26, 1952; his mother; one son, Clifton Leslie Tear; two brothers, Lawrence of Pontiac and Paige of Commerce; four sisters, Mrs. Marilee LaClare, Mrs. Elizabeth Monroe, Mrs. Myrna King and Mrs. Lillian Clark, all of Pontiac.

Service will be at 1:30 p.m. Saturday from the Huntoon Funeral Home with the Rev. Hilding E. Bihl of the Perry Park Baptist Church officiating. Burial will be in Perry Mt. Park Cemetery.

Glenn L. Turner

Glenn L. Turner, 60, of 245 N. Perry St., died at 7:25 this morning in Pontiac General Hospital after an illness of four years.

Born in Lincoln, Neb., Dec. 1, 1895, he was the son of Lafayette and Sadie Kempner Turner. On June 15, 1929, he was married to Irene Sutton in Burlington, Ont., Canada.

He came to Pontiac 29 years ago from Burlington and was employed by the Pontiac Folding Chair Co.

Mr. Turner, a veteran of World War I, was a member of BPOE 810 and F&AM in Canada.

Surviving are his wife; three brothers, Clarence C. Turner of Denver, Colo., J. B. and Arthur C. Turner, both of Oakland, Calif.; two sisters, Mrs. Hettie Wilmeth of Phoenix, Ariz. and Mrs. Grace Murphy of Fort Madison, Iowa.

Mr. Turner's body is at the Kirkby Funeral Home where funeral arrangements are pending.

Carl R. Williams

Carl Williams, 60, of 1849 E. Maple Rd., Birmingham died of a prolonged illness today in the William Beaumont Hospital in Royal Oak.

Mr. Williams was born in Poplar Bluff, Mo., April 6, 1890 and had been a resident of Birmingham for the past year.

For the past 15 years Mr. Williams was chief inspector of quality standards for Fisher Body in Pontiac. He was also a member of the Holy Name Parish in Birmingham.

He is survived by his wife Rita Ellen and three sons, Robert an Carl of Detroit and David at home.

Other survivors are one brother, Robert L. Williams of North Hollywood, Calif., and two sisters, Mrs. Samuel Somers of Clawson and Mrs. Joseph Kluss of Berkley.

Rosary service will be in the Bell Chapel of the William R. Hamilton Funeral Home Sunday evening. Requiem Mass will be sung in Holy Name Church in Birmingham Monday at 9:30 a.m. Burial will be in the Holy Sepulchre Cemetery.

Coal Bin Blaze Blankets Lapeer With Smoke Pall

Lapeer firemen today still battled a stubborn blaze in huge coal bins at the old City Water Works, which started about 7 p.m. yesterday, sending black, coal gas-laden smoke hundreds of feet into the air.

One fireman, Fred Wilder, was overcome but later revived by resuscitator. A second man, Albert Roman, a school teacher who tried to extinguish the blaze at its start with a garden hose, was treated for a gashed hand at Lapeer County General Hospital.

Fire in the old building, used by the Lapeer School District for coal storage boiler housing and school-bus workshop, was discovered by Lapeer Boy Scouts meeting in nearby Cramton Park. They turned in the alarm.

Thousands of people watched the blaze and traffic on M24 was diverted because of it. Lapeer's Mayor, W. E. Rowden said this morning that the loss, estimated at $25,000, is covered by insurance.

ham, now being pushed for nomination as state attorney general.

CHARGES VOTE BUY

Calling Cobo an advocate of the "sound, responsible leadership sorely needed in Michigan for the past few years," Van Dusen charged Williams is trying to "buy votes" with the unemployment issue he placed before the Legislatrue's special session.

The Governor's proposed compensation levels are "literally fantastic," Van Dusen said.

Cobo's appearance in Berkley High School was sponsored by county Republican Clubs. The audience was estimated at 150.

Cobo's announced rival for the GOP gubernatorial nomination, Donald S. Leonard, has not yet filed his nominating petitions. Leonard was the 1954 nominee.

Clarence A. Reid of Detroit, a five-term state senator and former lieutenant governor, filed petitions Thursday to enter the Republican race for nomination as lieutenant governor.

He was defeated in his bid for a second term in the office by Lt. Gov. Philip A. Hart in 1954.

Legislators Recess to Delay Decisions

(Continued From Page One)

for breaking the Legislature's deadlock on the subject.

* * *

Republicans, solidly opposed to Gov. Williams' plan, talked increasingly of a temporary boost to tide workers over until the auto industry shifts to new models in the fall.

WON'T CONCEDE

But some of them refused to concede that even that was necessary.

The Labor Committee scheduled a meeting for 2 p.m. Monday in order to hear what businessmen have to say about the governor's plan.

* * *

"We have requests to appear from 25 or 30 companies," said Rep. George Van Peursem (R-Zeeland), chairman. "We hope to give them all a chance to appear."

The committee listened to an hour-long defense of Gov. Williams' plan yesterday by Walter P. Reuther, UAW president.

* * *

Reuther insisted the state must adopt the Williams' proposals to prevent unemployment from spreading from the auto industry to employes of other industries.

Williams told a press conference later in the day that a temporary plan would be "inadequate."

* * *

He said the Legislature's decision to recess for a few days before acting on the plan indicated lawmakers realize the seriousness of the situation.

West Germany Returns 29 Red Prisoners

HELMSTEDT, Germany (AP) — West Germany today handed over 29 Russians, all convicts serving long prison terms, to Soviet representatives at the East German border checkpoint of Marienborn.

All had volunteered for repatriation to the Soviet Union.

* * *

Their return to the Soviets followed Russian complaints that Soviet nationals were forcibly prevented from leaving West Germany.

* * *

The Bonn government replied that Soviet nationals imprisoned in West Germany for crimes could go home only if the government of the state in which they were sentenced would release them. All other Soviet citizens could leave at any time, the West Germans said.

Originally 30 Russian prisoners volunteered for repatriation. One changed his mind early today.

To Commission Ship

PHILADELPHIA (INS) — The USS Canberra, the world's second guided-missile ship, will be commissioned by the Navy today at the Philadelphia Naval Base.

Many home accidents occur on stairways. Their number is reduced when the stairs are carpeted to cover the slip-prone wood surface.

But No Panic or Violence

New Yorkers Endure Strike and Record Heat

NEW YORK (AP) — Millions of subway riders endured a citywide underground strike yesterday in prostrating heat—and there was no panic, violence or injury.

Of course there was grumbling. The 96.1 record temperature for a June 14 would have been cause enough for that.

* * *

In desperately trying to get home the teeming, steaming hordes put bulging pressure on other transit facilities, hotels, restaurants, and the telephone company.

As one man described the overflow crowds on the baking streets of mid-Manhattan: "It's like New Year's Eve."

ANXIETY REIGNS

Only instead of jollity there was anxiety, frustration and extreme discomfort.

One woman, thwarted in getting to her Queens home, groaned:

"I had a premonition something like this would happen when I came downtown—my corns hurt."

Hundreds queued up in orderly fashion to get aboard overtaxed buses.

* * *

One woman suggested to a bus driver: "Can't you go a little faster?"

"Lady," replied the driver, "We ain't going at all. This is what they call a traffic jam. We'll be lucky if we get on that bridge within an hour."

New York's new antinoise campaign proved a boon during the various traffic tie-ups. Only an occasional horn honked.

Radiators boiled over and tires blew out on passenger cars. But tempers were held remarkably well in check.

TEMPERS BOIL

Naturally it wasn't all sweetness and light. As a man and woman elbowed through the frustrated rush-hour throngs the woman said: "But I don't want to go in a bar and sit down."

"All right, all right," the man threw up his hands. "If you feel like standing out here all night, we'll just stand."

* * *

Chivalry took a beating in another incident. A man and a woman dashed for the same cab. The man beat her through the door by seconds and refused to budge.

At Coney Island the biggest weekday crowd of the season—75,000 to 100,000 — was trapped there for hours without transportation home. But they at least could go back on the beach or in the water.

Hitchhiking became a favorite sport.

* * *

A group of young women hailed a dusty, grimy truck. "I'm too dirty," the perspiring driver told the ladies.

"You're clean enough for me, baby," said one of the young women. She climbed into the truck as it set off for Brooklyn.

The Day in Birmingham

Detroit, Local Waters Begin Mixing; Turn Red

BIRMINGHAM — Red water flowed in Birmingham yesterday as the oxygen-laden Detroit water began mixing with the local water, forming iron oxide with the heavy content of iron here.

The water is absolutely safe, despite its color, says L. R. Gare, Director of Public Works.

The tapping into Detroit water was begun early because of the "terrific demand," according to Gare. The previous day, Birmingham set a water consumption all-time record of 6,021,000 gallons.

"It was either that or the sprinkling ban," Gare says. However, he explains that if Detroit puts on its sprinkling ban, Birmingham will have to put on a similar ban, or one more stringent.

Plans earlier had been for a July 1 tapping in on Detroit water. Equipment for mixing the water in constant amounts is not yet installed.

* * *

Herbert Gardner, president of Birmingham National Bank, who is becoming senior vice president and a director of the Detroit Bank in the merger, is among the 2500 bank employes involved who do not know their future duties.

Whether he will be in charge of the five Birmingham and Ferndale banks involved, or whether he will be in the Detroit office will not be set until the stockholders meeting Aug. 15.

However, it is known now that the present members of the board of the Birmingham National and the Ferndale National will be retained as an advisory board to the Detroit office because of their experience in local banking decisions.

* * *

The Federal Savings and Loan Co. here is preparing to move to new quarters in the Pierce-Maple corner of their present building.

Lake Jewelers, which now is between the other two sections of the building, will move into the Maple-Woodward corner as soon as the institution moves into its new quarters. Remodeling of the former Kay Baum location will begin July 1.

Then, when Lake's have moved, the rooms they leave will be redone to house the firm's bookkeeping department, according to President Walter Moreland.

* * *

Patrolman Glenn E. Foltz has been named a Patrol Sergeant by Police Chief Ralph Moxley. He has been with the force since 1945.

* * *

Summer garbage collection will be twice a week, says R. S. Kenning of the Department of Public Works. Starting Monday, the schedule calls for collection of just garbage, no rubbish, on the third day after each regular day, not counting Sunday.

Picnicking in Shain Park is not allowed, although eating lunch there is, according to police officers who are enforcing the rule. "Picnicking—that's what we have Springdale Park for," one says.

Norma June Erickson

Mrs. Willard (Norma June) Erickson, 28, 1751 Holland, died this morning after a long illness. Born in Detroit, she married in 1951 in Birmingham. She was a graduate of St. Mary's High School in Royal Oak, and is a member of St. Columban's Church, Birmingham.

She leaves her husband, Willard, her parents, Mr. and Mrs. Marius A. Duffoure, Birmingham; four sisters, Mrs. Cliffton Stockwell of Clawson, Mrs. Bertram Andrews and Mrs. Douglas Ammeli both of Center Line, and Mrs. Gordon Riley of Royal Oak; and a brother Pierre, of Clawson.

Services are pending at the Manley Bailey Funeral Home.

Don't Welcome That Burglar!

These Precautions May Save Your Home When You're on Vacation

Vacation time is here again and thousands of Michigan citizens will be leaving the city every weekend for picnics, trips to the country, and summer vacations. The experienced burglar has many ways of detecting the home of a vacationer. But there are many precautions people can take before going on vacation. Here is a list of do's and don'ts that will prove helpful when the time comes for you to take to the open road.

1. Do leave a lamp or two connected to an automatic timer to turn lights on and off regularly each evening.
2. Do close and lock all windows.
3. Do cancel all deliveries. Have the post office or a neighbor hold your mail until you return.
4. Do tell your neighbors you are leaving—have them notify police if they see anyone prowling around.
5. Do notify your local police the date you are leaving and when you will return.
6. Do have your lawn mowed and sidewalks swept by a neighbor at least once a week.
7. Do have your phone disconnected.
8. Don't close blinds or draw shades.
9. Don't leave valuables lying around the house.
10. Don't tell friends, neighbors, or work associates of the valuable possessions you have around the house.
11. Don't leave the garage door open—an empty garage with the door open is a good sign people are out.

While most of the above do's and don'ts should be followed when leaving the home for a weekend or longer, an automatic timer connected to a lamp to "light-guard" the home should be used even when leaving for an evening only.

Coronado, early Spanish explorer, determined the daily distance of his marches by delegating a foot soldier to count his steps.

Navy Orders Clamp-Down on Smuggling

MANILA (AP)—All U.S. Navy commanders in the Philippines were ordered today to make a "drastic overhaul" of measures to prevent smuggling by American Navy personnel.

Rear Adm. Wendell G. Switzer, commander of U.S. Naval Forces in the Philippines, issued the order after Philippine police said a suitcase of assorted jewelry had been smuggled into Manila aboard a U.S. Navy plane from Hong Kong.

* * *

Navy authorities are investigating a Filipino charge that Jerome F. Rice, a Coast Guard aviation mechanic from Miami, Fla., handled the suitcase. The Filipino police arrested a Manila Chinese jeweler.

* * *

Switzer warned that Navy personnel caught smuggling would be subject to possible trial, conviction and imprisonment by Philippine courts and also trial by Navy court-martial.

Did H-Bomb Miss Mark? Air Force Noncommittal

WASHINGTON (AP) — The Air Force had only a noncommittal reply today to question about whether the B52 which dropped an H-bomb over Bikini last month missed the target.

The Atomic Energy Commission had nothing to say.

Reports that the big bomb was wide of the intended point of burst in midair have become current in recent days. They apparently come directly or indirectly from persons who saw the target point after radioactivity had diminished in the area.

* * *

Some speculation places the margin of error in excess of 3,500 yards from the place above Namu Island where the explosion was intended. That's about two miles.

* * *

In response to a question, an Air Force spokesman said:

"The recent thermonuclear air drop at Bikini was conducted as scheduled.

"The Air Force considers that the ability of the B52 bomber to deliver a thermonuclear bomb was demonstrated successfully.

"Detailed information about the distance and altitude of the explosion in relation to the target is considered classified (secret) information under the provisions of the Atomic Energy Act."

* * *

An error of even 3,500 yards might not be serious in an actual wartime drop of a weapon which has a major destructive force extending out to at least 12 miles from the point of burst.

* * *

But under the precise conditions set up for the Pacific test it could be disturbing. Recording instruments are oriented carefully on the intended point of burst. If an explosion occurs elsewhere, some vitally needed information on the efficiency of the bomb is missed.

A miss also involves the pride of the bombing crew or of the designers of the ballistic container or detonating equipment of a nuclear bomb.

The Air Force prides itself on accuracy.

ARMY CELEBRATES WITH NEW FLAG — The U. S. Army celebrated its 181st birthday by publicly unfurling its new flag at Independence Hall, Philadelphia. In ceremonies at the Capitol, Vice President Richard Nixon, right, presents the standard to Army Secretary Wilber Brucker, center, while Gen. Maxwell Taylor, Army chief of staff, looks on. Colors of the flag are blue and red on a white silk background.

Leftist May Decide Peru Election Race

LIMA, Peru (AP) — A left wing party that doesn't exist officially figures to be the deciding factor in a presidential election Sunday that offers three candidates — all conservatives.

* * *

The winner is to succeed Gen. Manuel Odria who took over the presidency in a 1948 revolution.

The leftist element expected to tip the balance is the Aprista party formed in the 1920s and outlawed when it rebelled eight years ago against Odria's predecessor, Dr. Jose Luis Bustamante.

The Apristas also figure to make their weight felt in the Sunday balloting for two vice presidents, 53 senators and 182 deputies.

It is estimated there are 1½ million voters among Peru's 9¼ million people. About 500,000 of those registered are women, to vote for the first time in Peruvian history.

Drownings in County Stress Safety Need

There is grim warning to all lovers of water sports in three Oakland County drownings.

These tragedies are only part of the midweek statewide toll of eight lives lost in Michigan lakes and rivers. As was the case over last weekend when nine other drownings were reported, all of these deaths were preventable.

★ ★ ★

The fact that all three Oakland victims were swimmers emphasizes how vital is the exercise of prudence in and around water. One, a fisherman, sank in 60 feet of water after slipping over the side of a small boat. The two others overestimated their strength and paid with their lives.

The warning in these avoidable tragedies has special impact in a county with more than 400 of Michigan's 11,000 inland lakes. Any heat wave normally sends thousands in search of relief in the cooling waters of our lakes.

★ ★ ★

Those same lakes challenge swimmers, fishermen and boating enthusiasts to observe all the widely recognized rules of water safety. They also challenge parents to be ever on guard for the safety of children in lake country.

Never take any chances on or in the water!

Ike Continues Fight for Foreign Aid Bill

Hospitalized though he is, President Eisenhower is not abandoning the fight he lost in the House for his $4.9 billion mutual security bill.

Instead, through his lieutenants he is continuing to press for Senate restoration of the $1.1 billion slashed from the bill in the lower chamber. There wasn't any doubt about House sentiment. When the final standing vote was taken, the count was 273 to 122, with many Republicans voting against the Administration.

★ ★ ★

Mr. Eisenhower could take some comfort, however, from the fact that an effort to kill the bill in the House failed 147 to 52. There also is cheer for him in the stand taken by Chairman George of the Senate Foreign Relations Committee. The Georgia Democrat has sided with the President to the extent of saying that at least half of the House cut should be restored.

This newspaper is glad to note that the President is exerting the full power of his leadership in behalf of the measure. We are among those who believe he was right when he told House Republicans through a letter to Minority Leader Martin, that restoration of the cuts is vital.

Among other things the letter pointed out was that the entire foreign aid program would be "seriously impaired," by the cuts. It added that the free nations "cannot afford to move hesitantly and uncertainly in this matter" and that "grave consequences are involved."

In our opinion for the Senate to permit the House action to stand would weaken the U. S. campaign to seize the initiative and counteract Russia's economic offensive.

"Arguments make for a happy family," says a psychologist. If so, it is wondered how certain families can stand being so hilarious.

A Welcome Visitor

The Nation is privileged once again this week to play host to a distinguished visitor, West Germany's Chancellor Konrad Adenauer.

In America primarily to receive honorary degrees at Yale and Marquette Universities, the Chancellor also has another important objective. He hopes to discuss the increasingly troublesome question of German reunification with our Government leaders and U.N. Secretary General Hammarskjold.

★ ★ ★

The Chancellor has won world renown by his leadership of West Germany out of complete collapse into new nationhood, prosperity and membership in NATO. In recent days he has added to his many laurels three new achievements.

These include his agreements with France on the Saar treaty and with the United States on financial support of U.S. troops in Germany. In addition, as the result of a compromise at home, he has come to agreements with opposition parties on conscription for the new German army.

★ ★ ★

Dr. Adenauer's desire to discuss reunification with our leaders is understandable. The situation which keeps 17,000,000 East Germans under the heel of the USSR is reported to have started restlessness which might be exploited by the politically ambitious and increase pressure for a deal with Russia.

Our hope is that despite the illness of President Eisenhower, the Chancellor will find his Washington talks both pleasant and fruitful.

'I Feel Fine—You O.K.?'

David Lawrence Says:

Nuclear Warfare May Take Back Seat to Conventional Arms in Next Big War

WASHINGTON — The biggest news story in the world today — and the hardest to write—relates to the grave danger of defeat which faces the United States and its Allies at the hands of the Soviet gangsters who control the largest single military apparatus of all times.

It isn't solely a question of atomic bombs or intercontinental bombers or missiles. Even if the United States Congress appropriated all the money the Air Force is asking for, it wouldn't alter the situation. For the next war may never see atomic weapons of any kind used because of the danger of mutual destruction. Hence, the potential value of conventional armies with conventional navies and air forces and conventional bombs becomes more important than ever before, coincident with some form of counterstrategy to meet the infiltration of smaller countries by the enemy.

The truth is a paradox—Gen. LeMay is right in wanting all the air power he can get as a deterrent and Generals Ridgway and Taylor are right also in wanting all the conventional arms they can get as a deterrent. The three armed services are right on the whole in emphasizing the need for more of each of their respective forces. Their disputes reflect an honest grouping for some solution to the most difficult problem America has ever faced.

NUCLEAR WAR OR NOT?

The real factor or fear is derived from the prospect that, even though no international agreement exists or may exist, the aggressors will, of their own volition, refrain from the use of any nuclear weapons. Then what? Would the Western Allies even initiate the use of such weapons in defense and thus invite retaliation? Military men are confident that the answer will be "yes." Political governments—civilians who control them—will have the decision and the consensus of many civilian officials here and in Europe is that the answer will be "no."

The idea of "race suicide" and of "wiping the human race from the face of the earth" has been so widely advertised everywhere that what began as a Communist propaganda line a few years ago —when the Soviet government was in an inferior and unprepared status with respect to the manufacture of superbombs—now has been endorsed inside the United States by high officials, scientists, spokesmen for the church and many sections of the press. It seems clear that no civilian government in the free world will ever authorize the initial use of atomic weapons.

As a result, Moscow and Peking will dominate both Europe and Asia. Western Europe, which has up to now considered itself protected by the North Atlantic Treaty Organization, will discover in due time the fallacy of the "new look" in military organization. For the dimunition of ground forces and the arming of remaining divisions with nuclear weapons merely emphasizes the danger that Moscow could conquer Western Europe without firing a single shot, because nuclear weapons would never be used.

CLEVER MOVE BY REDS

The Soviets have offered to reduce their land armies by 1,200,000 men. This, however, is a small proportion of their total. It is a clever maneuver designed to get the West to deplete its far smaller armies. The Communists coincidentally have begun their "parliamentary offensive," which means infiltration in the parliaments of Western Europe and a step-up activity inside the United States, where already three Supreme Court Justices say that Communist activity is just "another political party."

Thus, on the political front as well as on the military front, the Communists are threatening. The whole answer doesn't lie merely in spending more money for air power or in spending more money than ever before to mobilize ground armies—even though both are necessary. It lies basically in the principle reiterated a few days ago by Secretary of State Dulles, when he said:

"There is only one cure for the evils of the imposed Soviet dictatorship—that is government which derives its powers from the consent of the governed. This is a lesson that history teaches, that Khrushchev confirms and which needs to be applied if we are to have a world society of peace and justice."

This is but another way of saying that the peoples of the Soviet Union and the satellite states hold the key to peace. They must be persuaded to choose a free government. It's the only thing that can truly make the world safe for the continuance of democratic governments anywhere. It requires a job of infiltration and conversion through every avenue of moral force. It's a job which the West has all too long neglected.

Don't Let a Metabolimeter Determine the Basal Rate

By WILLIAM BRADY, M.D.

A poor . . . poor soul—writes: "Have had four basal metabolism tests taken. It's such a gruesome ordeal, and I still come out minus 42. This makes me definitely a Hypothyroid . . . your article about 'Poor Man's Metabolimeter' . . ." (Mrs. G. R. E.)

The "poor man's metabolimeter" means the basal temperature test which gives as much information about the patient's metabolism as the basal metabolism test does, and costs little or nothing. Any doctor can learn all about it by reading the report by Dr. Barnes in the JAMA for 8-1-'42.

I can imagine a customer, impressed by the scientific pretensions of the trick specialist or clinic racketeer, readily, even eagerly undergoing a test with the basal metabolism machine . . . push button medicine is just around the corner now.

But blessed if I can understand anyone submitting to such hocuspocus four times in succession.

From the views and reports of many authorities I conclude that a real doctor gets more knowledge of the state of the patient's metabolism and what to do about it from examination and study of the patient than the trick specialist or clinic racketeer can get from the funny machine.

In the physiology laboratory the metabolimeter is as essential as any other instrument of precision.

In the practice of medicine the basal metabolism "test" is sheer hokum calculated to make the credulous customer think he is getting "scientific" treatment.

Signed letters, not more than one page or 100 words long pertaining to personal health and hygiene, not to disease, diagnosis, or treatment, will be answered by Dr. William Brady, if a stamped self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan.

Independent Rule Creates New Woes for Morocco

By JOHN H. MARTIN
INS Foreign Director

Morocco's government has ordered a halt to emigration of Moroccan Jews to Israel.

Officials say the action was taken because the mass departure of Jews might harm the Moroccan economy.

This is just one side of the growing pains of newly sovereign Morocco, which fought the French bitterly for years to win independence, or what is called "inter-dependence" with France.

A Newsweek correspondent says that when the Spanish ambassador presented his credentials to Sultan Mohammed Ben Youssef last week, Morocco's new ministers—many of them only recently released from French jails — had to send rush orders to Paris for new clothing, the protocol cutaways.

Great confusion exists in Morocco today in the shift from being a protectorate of France to being a sovereign state.

There is no foreign ministry budget. Yet, the Moroccans are planning embassies and naming ambassadors. New recruits are being sworn into the army daily, yet there is no money for that, either.

"Many of Morocco's immediate woes," says Newsweek, stem "from an appalling lack of trained personnel."

When Morocco got its independence last March, there was available only one polytechnician, Mohammed Douiri, 28. He was quickly named minister of public works.

There are 8,000,000 Moslems in Morocco. But when independence was granted by the French there were only one doctor of law, five graduate professors, three public works engineers, 18 lawyers, 20 agricultural engineers, 21 medical doctors, 42 professors of Arabic, and less than 100 university graduates, most of whom now hold top government posts.

A country embarking on a new course faces many staggering problems. The newly organized 12,000-man police force, for instance, still is 70 per cent French. The sultan's army of 15,000 is under French officers, and the nation's industry is 80 per cent French-controlled.

These government problems will be solved in time, but there still will be another threat. This is the tension between Moslem and French populations, and the relations between Jew and Moslem.

A French "Committee of Resistance" still exists in Morocco. The French army is kept under wraps by the Moroccan government so that it cannot deal effectively with the Moroccan rebel "Army of Liberation," a force that still defies both the French and the Sultan's government.

Morocco apparently hopes to get financial aid from the United States, which already has sunk approximately a half billion dollars into Morocco to establish defense bases.

And if the Moroccans find the United States cool toward aiding them, there is always the possibility they will turn to Moscow, as did Egypt.

Case Records of a Psychologist

Advanced Degrees Fine for Teachers, but Salesmanship More Important

Howard agrees that a good teacher should not be primarily a storehouse of knowledge but a salesman thereof. Many learned educators are failing in the classroom because they never did any house-to-house selling of magazines or newspapers in their youth. Good teachers use dramatic delivery and advertising "gimmicks" to perk up their students.

By DR. GEORGE W. CRANE

Case R-383: Howard K., aged 38, is a county superintendent of schools in a midwestern state.

★ ★ ★

"Dr. Crane, I like your emphasis on teaching as a field of salesmanship," he complimented me after I had addressed his state teachers' convention.

"I had several professors in college who put us students to sleep by their colorless personalities and monotonous lecturing.

"They couldn't practice what they were teaching, yet one of them was head of the department and they were all accorded great respect because they had Ph. D. degrees.

"I find that a teacher with no advanced college degrees but with a great love for youth and an enthusiastic way of presenting the lessons, is far superior to one with an M. A. degree who makes his pupils hate him.

"But I hesitate to admit such things publicly for it is so fashionable nowadays to stress advanced degrees that most educators think you are naive if you emphasize classroom salesmanship."

TEACHERS VS. GYMNASIUMS

Nowadays millions of Americans are being stampeded into thinking that a big gymnasium for basketball players, plus teachers with M. A. or Ph. degrees, are the only two requisites for a Class "A" school.

★ ★ ★

Both of those are helpful but the primary requisite is stellar salesmanship in the classroom.

We psychologists do not decry big, new consolidated school buildings and elaborate gymnasiums provided the teachers are top notch salesmen of ideas in the classroom.

But don't measure a school's efficiency by the size of its buildings.

TEST FOR SHCOOLS

"Mark Hopkins on one end of a log and a student on the other,"

used to be the criterion for perfect college.

Please notice that nothing was included in that terse formula about new buildings and swanky gymnasiums.

★ ★ ★

No, the emphasis was placed squarely on a talented teacher with the true missionary zest to impart knowledge and set the pupil on fire with zeal for further investigation of facts.

If you have the right type of teachers, the school buildings are of secondary importance.

Good teachers in an old barn or circus tent can run circles around sour puss teachers with Ph. D.'s even though the latter are housed in latest consolidated schools and surrounded by expensive laboratory equipment.

A good teacher is the true test of a good schoolroom, just as a good mother is the primary requisite of a good home.

And a good mother can rear a little Abraham Lincoln in a log cabin with no modern plumbing fixtures whatever.

★ ★ ★

Obviously, I am not decrying large buildings and elaborate science halls. But it is time taxpayers stressed salesmanship in the classrooms above all else.

TAXPAYERS, BEWARE

Every teacher should have previously served an internship as a house-to-house salesman, if only for six weeks.

For salesmanship is much alike, whether of insurance and magazine subscriptions, or of ethical ideas from the pulpit or educational concepts from the school teacher's rostrum.

And a former house-to-house salesman would never let his student snore in the classroom. He'd wake them up by some device even if he had to imitate Dr. Goddard and buy some magic tricks.

So stress former sales training on the part of new teachers as much as advanced degrees. For such salesmanship actually pays richer dividends in the classroom.

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long 3c stamped, self-addressed envelope and 20c to cover typing and printing costs when you send for his psychological charts and pamphlets.

Honor 47 New Citizens in Flag Day Ceremonies

Forty-seven new citizens, naturalized in Oakland County within the last year, were honored last night as the 14th annual Flag Day program was held at the Elks Temple. Lynn D. Allen was chairman of the banquet which was attended by 250 persons.

* * *

Flag Day is being celebrated today throughout the nation.

A featured highlight of the affair was the presentation of a $25 U. S. Savings Bond to Mr. and Mrs. Allison May, of 871 Walton Blvd., for having the most attractively displayed flag. Allen said the flag judging committee had toured Pontiac seeking people who display their flags daily before making the decision.

Thomas Roumell, regional director for the National Labor Relations Board and Past State Commander of the American Legion, was the main speaker.

Jack Bender, Exalted Ruler of Lodge 810, gave the welcome address. Other talks were given by Janice Antona, president of the Citizens League, Charles Snyder, Past President of the State Optimists, and Donald Smith, State Commander of the American Legion.

* * *

Miniature American flags were presented to each of the new citizens. Miss Antona explained the work of her group and said 10 different countries are represented in her present class. Sixteen members of the class gave an outline of the Constitution and three others recited on important documents.

Brother, Sister Hurt in Second-Story Fall

DETROIT (INS) — A three-year-old Detroit boy and his year-old sister were in Receiving Hospital today with minor injuries received in a 14-foot fall from their second-story apartment home.

* * *

David Johnson and his sister, Ivory, were playing on a bed in front of a screened window and apparently pushed the screen aside and tumbled out.

Clothes Afire, Boy Fights to Save Music

TULSA, Okla. (AP)—Howard Peterson Jr. and his family barely escaped from their burning home early yesterday after their dog aroused them by scratching on a door.

In the confusion, Peterson knocked his 14-year-old son unconscious in order to get him out.

* * *

The boy, Howard 3rd, got head and hand burns when he tried to put out the flames in a grand piano and save his classical sheet music. His sister, Jan. 15, received similar burns.

* * *

Mrs. Peterson and a 4-year-old son escaped through a window. Peterson said he had to knock his son out when the boy became frantic at seeing the piano burn. He tried to save his music even though his clothing already was afire.

Engineers in Demand

ANN ARBOR (AP) — The 210 engineers graduating from the University of Michigan had an average choice of five jobs each offering salaries 10 per cent above last year. The university placement office said starting salaries averaged $426 a month, about $35 above the 1955 level.

School Head Resigns

CHEBOYGAN (AP) — William Jakad has resigned as Cheboygan County superintendent of schools to become an associate professor at Central Michigan College, Mount Pleasant.

Game of Catch Ends in Explosion for Boys

DENVER (AP)—A game of catch with a live, five-pound bomb—played intermittently the past three months by two dozen South Denver boys—ended in a blinding flash that burned three of them.

* * *

The aerial bomb exploded yesterday afternoon after three older boys had poured out most of the powder and removed the detonating device. The blast rattled windows and scorched the fingers of Greg Loney, 16, Gene Columbus, 16, and DannyMcKenna, 15, who had been dismantling it.

* * *

Police said they were taking it apart by pounding it with a rock and prying at it with an icepick and table fork.

Officers were trying to learn the source of the bomb. They said the boys were not aware that it was a live bomb.

Old Michigan Statute Annuls Odd Marriage

OWOSSO (AP) — A divorce case ended in an annulment yesterday because of an old Michigan statute which forbids marriages between a man and his dead wife's daughter.

The two-year-old marriage of David Bodary, 69, and his stepdaughter, Thelma Lowrey Bodary, 41, was dissolved by Circuit Judge Michael Garland.

Bodary, a retired railroad union official, married Mrs. Anna Lowery, a widow, in 1932. She died in 1953 and he married her daughter, Thelma, the following year.

Harriman to Adenauer: Dems Will Back NATO

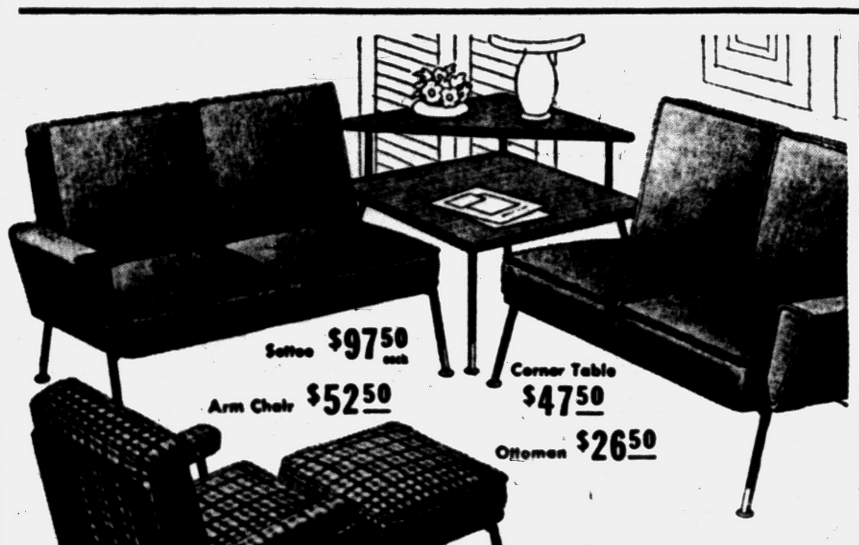

NEW YORK (AP) — Gov. Averell Harriman has told West German Chancellor Konrad Adenauer that a Democratic administration in Washington would continue to support the North Atlantic Treaty Organization and work for German unification.

Harriman, a candidate for the Democratic presidential nomination, told newsmen he gave Adenauer the assurance during a visit the chancellor made at the governor's residence yesterday.

Adenauer leaves by plane today for Chicago. He then will go to Milwaukee where he will receive an honorary degree from Marquette University.

BE IT EVER SO HUMBLE — TV antennae tower over this paintless dwelling and neighboring homes behind it in suburban Moscow is evidence of Muscovites' love for the home screens. Western observers in the Soviet's capital city quote prices as ranging from 950 to 2,300 rubles for a set. Some factory workers are said to earn from 1,000 to 1,400 rubles a month.

Bob Considine Says:

Expert Sees Red Air Power Scaring West

NEW YORK (INS)—Maj. Alexander P. de Seversky, the aviation prophet, predicts that Gen. Nathan Farragut Twining and other airmen who will attend Moscow's air show on June 24 will be given a demonstration that may "scare the free world out of its wits."

The Red air force's T37 Bison is superior to our B52, the Russian-born American plane designer and authority on air power flatly declares in the new conservative weekly, "National Review."

The Bison, he states, is powered with bypass jet engines which will give it enough range to bomb certain U. S. cities and return to Russian territory without refueling.

The even longer-ranged Russian turbo-prop bombers could reach any target in the U. S. We do not have a counterpart of this bomber, the outspoken critic swears, because we were too pigheaded to take such power designs from the British when offered them years ago.

* * *

De Seversky insists that our aviation industry met the challenge of lost superiority by embarking on a "Hollywood-type public relations and advertising campaign to herald the appearance of 'artist's conceptions' of the superb American commercial jet aircraft that will maintain fantastic flight schedules—four years from now.

SHATTERED DREAM

"This alluring dream of American jet transport supremacy was rudely shattered last March when Gen. Ivan Serov was flown to London, not in an artist's conception but in a magnificent twin-engined jet transport, acclaimed by all experts as 'more advanced than anything likely to be available in Britain or America for at least three years.'

". . . Russia this year (will) start regular jet airline service between Moscow and the principal cities of Europe."

The Reds have invited Twining and other Air Force officers to their show to "scare the free world out of its wits by presenting incontestible evidence of Soviet aeronautical superiority," the major grimly writes.

Russia has built and tested a 1,500-mile ballistics missile, and has an 800-miler in production, De Seversky writes. He blasts Secretary of Defense Wilson and calls for planes capable of striking back at the enemy not from foreign bases but from American soil.

Strong stuff

The handful of reporters, cameramen, radio and TV people at the recent air-drop of an H-bomb at Bikini teletyped home 172,400 words, took 3,500 feet of 16 mm. film for TV, 900 feet of 35 mm. film for theatrical newsreels, and burbled for a total of 180 minutes over the U. S. radio industry's special voice circuit.

Put it all together and it spells "Boom!"

My father-in-law, Dr. J. J. Anderson of Kansas City, said something interesting about New York the other day while we slowly fried in a crosstown traffic jam.

"It's a great place to visit," Pop said, "but I sure wouldn't want to live here." He gave me permission to quote him.

But what other city in the world has a doughnut laboratory? Does Kansas City? No, by cracky, but we have. It's in West 36th street.

A whole floor of people interested in the doughnut mess around with the lightweight bagels day and night, taking their temperatures, measuring their holes, checking the degree at which they can be frozen, counting their calories and so forth.

* * *

Some 630,000,000 dozen doughnuts were sold last year. Doughnut experts, like thoroughbred stables, won't rest until the breed is improved.

A piano teacher in Milan, Italy, who read in his Rome Daily American my recent piece about a kids' piano recital, writes:

"Surely, your little girl did not use the left pedal while playing MacLachlan's 'Yellow Butterfly.' It would ruin it.

Then why in hell didn't you tell Debbie?

BERRY PRETTY — Wendy Smith, 18, of Mattituck, L. I., reigns over a batch of kingsize strawberries. Wendy is "Long Island Strawberry Queen" at the Strawberry Festival in Mattituck this month.

Twister Alarm Suggestion: Ship's Foghorn

BATTLE CREEK (AP) — An old-time lighthouse keeper says foghorns could beat either sirens or firecrackers as a tornado warning device.

He is Charles Ferris, who made his suggestion after reading how many Michigan communities are seeking a way to sound the alarm when a tornado is sighted.

Ferris will be 89 in August but he still keeps up a lively interest in current events. He listened to a foghorn for 7½ years while stationed at the Port Austin Lighthouse on the tip of Michigan's thumb.

"People in nearby towns said the horn often kept them awake at night," he recalled. "The noise went right through closed doors and windows. You couldn't do better than a foghorn warning signal."

Ferris is confied by a broken hip now but keeps busy at his oil painting hobby. His favorite subjects are ships at sea.

About 95 per cent of U. S. farm dwellings are made of wood.

Michigan CIO Ends Parley

Adoption of Civil Rights Plank, Blasts at Both Parties Are Highlights

GRAND RAPIDS (AP)—The Michigan CIO Council wound up a four-day convention yesterday with adoption of a civil rights plank charging the lack of congressional action on anti-segregation to "an unwholesome coalition of the worst elements in the Democratic and Republican parties."

Delegates adopted a resolution which said:

"To those who urge a 'go slow' approach, we would point to the 90 years of patience shown by Negroes since the Emancipation Proclamation."

The resolution called for a 14-point program of state and federal action to eradicate racial segregation and discrimination in employment, education, medical care, housing, travel and voting.

BUTLER SPEAKS

Butler, delivering the closing address, answered attacks on southern Democrats by United Auto Workers president Walter Reuther and UAW secretary-treasurer Emil Mazey.

"I would oppose just arbitrarily or brashly leading out of the Democratic party those states south of theMason-Dixon line," Butler said. "We must win over those who disagree with us by persuasion and logic, not by force."

Reuther had described the southern element in the Democratic party as a "millstone" endangering the party's liberalism. Mazey had criticized the "moderate approach" to segregation as urged by some party leaders.

'Reds Have 8 Million Armed'—Brucker

PHILADELPHIA (AP)—The Communists have more than eight million men under arms, including 2½ million in China, Secretary of the Army Wilber Brucker said yesterday. He said most of them are ground troops.

Brucker told a Flag Day celebration at Independence Hall that the ground troops are organized into 405 "welltrained divisions ready for immediate action."

He said the Communist force and ". . . a diabolical ideology of hate, atheism and intellectual perversion" are two important Communist weapons.

Appalachian Trail Is Beauty

Eastern Hikers Glory in Nature and History on Summer Vacation

WASHINGTON — As summer stirs, all the way from Maine to Georgia hikers will be "coming 'round the mountains" on their favorite public path, the Appalachian Trail.

* * *

Called "one of the seven wonders of the outdoorsman's world," and familiarly known as the "A.T.," it extends from mile-high Mount Katahdin in Maine to Mount Oglethorpe, 3,290-foot peak showing the night lights of Atlanta, the National Geographic Society says.

The entire 2,050-mile Trail has been covered by walkers with determination and time. Most excursionists, however, take it for less-trying distances. At any point, it holds rewarding scenes.

There are luring side trails: Kokadjo, Kennebago and Chattahoochee, reminding hikers of Indians that roamed those regions. There are musical names like Lonesome Lake and Raccoon Run, and others to amuse: Sugar Loaf, Saddleback, Chunky Gal Mountain, Hogwallow Flat, Hangover Mountain and Old Rag Mountain.

HIGHEST POINT

Deer flash through the brush. Most anywhere a black bear may loom ahead, lazily exploring berry bushes. Sometimes they become troublesome in the Great Smokies. Amusing porcupines arrest walkers' attention in New England.

Trampers stand on the Trail's highest point—6,642 feet above sea level—at Clingman's Dome on the Tennessee-North Carolina boundary.

The White Mountains of New Hampshire have the longest exposed section of the Trail—19.5 miles wending above the tree line. This region is sometimes wracked by fierce winds and abrupt changes of temperature.

* * *

Then hikers recall an old White Mountain saying, "If you don't like the weather wait a minute."

Bluntness of Youth

ALAMOGORDO, N. M. (AP)—An eighth-grader from Portales may unwittingly be the cause of a feud with residents here. He wrote the chamber of commerce "I have the job to sell Alamogordo to my classmates. It will be a hard job to do. So send me some good material."

CRITCHFIELD HONORED — President Howard L. Bevis of Ohio State University (right) presented the Lamme Medal to Robert M. Critchfield, General Motors vice president and general manager of the Pontiac Motor Division, at commencement exercises in Ohio Stadium, Columbus. In background are (l-r) Vice President Frederic Heimberger and Lawrence D. Jones, associate dean of engineering college and secretary of the university's faculty.

NEW YORK — "A great many so-called "poor" people are now able to retire at a respectable age, and on a decent income due to sound financial planning."

* * *

"However," points out Donald I. Rogers, financial expert, "it's the kind of planning that has to start now."

Some of the tips making up Rogers' plan are: a. Learn to save. b. Learn how to invest. c. Live off the proceeds.

With reference to the best way of saving money Rogers advises, "Decide exactly on how much you are going to save based on your total earnings, then make it a regular charge against your income—just as your light bill, rent or mortgage. Make the payments to your savings account no matter what the temptation to do otherwise."

Rogers, Financial Editor of the New York Herald Tribune, says some of the main considerations of a sound investment program are: Buy common stocks, purchase stocks at regular intervals to take advantage of fluctuations, and reinvest your dividends to keep your capital active.

Blood Testing Aids the Police in Investigation

ANN ARBOR (INS) — Biologist Frederick P. Thieme says law enforcement officers can do themselves a favor if they use blood tests more frequently in their criminal and paternity investigations.

* * *

Thieme runs a research blood-testing laboratory at the University of Michigan that, in addition to research problems, frequently does work for law enforcement agencies and courts of law.

* * *

The biologist pointed out you don't necessarily have to have the blood itself to determine the type. "Even the saliva left on a cigarette at the scene of a crime can be used to determine blood type," he declared.

* * *

Thieme said it is definitely possible to exclude suspects on the basis of tests.

Appetites of Young Birds Astound Hearty Eaters

WASHINGTON — It's a hearty eater, man or mammoth beast, that can match the appetite of a bird.

Young birds, in particular, need astonishing quantities of food, the National Geographic Society says. During its period of fastest growth, a feathered youngster eats more than its own weight daily.

Under observation, a black tern weighing 31 grams consumed 48 grams of earthworms in a single day. A house wren, watched continuously for some 15 hours, fed its young 1,217 times.

In Yosemite National Park researchers found that the stomachs of a flicker, a quail and a nighthawk contained, respectively, 3,000 ants, 500 chinch bugs and 500 mosquitos in addition to weed seeds.

MAN REQUIRES LESS FOOD

To rival these feats of gormandism, a growing youth would have to stow away two or three lambs or a whole calf each day. The average adult, weighing in at 150 pounds, eats only 1,531 pounds of foodstuffs a year.

Yet the prodigious appetites of birds serve a useful purpose in nature's well-balanced scheme. If birds and other enemies did not prey upon harmful insects, rodents and weeds, these rapidly reproducing pests would soon drive all other forms of life from the earth.

Other small creatures are big eaters, too. A shrew, for instance, eats almost continuously and can gobble down its own weight in food every three hours.

Ten field mice occupy an average farm acre. Capable of breeding 17 times a year, the 10 mice and their progeny would require 3,000,000 tons of food—if they all survived.

A single colony of several thousand hungry mound-building ants collects several hundred thousand insects a day.

A squat, muscular little glutton called the "smoky jungle frog" ranks second to none in the eating department. It can swallow almost any living thing up to two-thirds of its own size.

Democrats Promise to Give Ike No 'Privileged Sanctuary' on Illness

By RUTH MONTGOMERY

WASHINGTON (INS)—Top Democratic strategists at a series of emergency huddles have decided to continue their direct attacks on President Eisenhower and "the men around him," despite his current illness.

A spokesman for the group told this correspondent: "It's perfectly obvious to us that Ike is going to run again, so we're not going to let him enjoy a long period of 'privileged sanctuary' like he had after his heart attack last September."

The prominent politician said Democratic policy-makers have determined there is no resemblance between the present and previous situations concerning Eisenhower's health.

"At that time we thought he might not live, and we certainly thought he wouldn't declare for re-election," he explained. "A heart attack is a dramatic situation that plays on the nation's heart strings, so we laid off.

"Now, however, the administration is telling the world that Ike will be better off than before the operation. He is pictured as a man with a slight 'belly-ache' whose life expectancy increased, so we're going to play it rough. There'll be no temporary political sanctuary this time."

The strategy group agreed there is no time to lose, and that with Ike already signing state papers and making important decisions, the Democrats will hold him personally responsible for all affairs of the administration.

A politico told this writer that Adlai Stevenson, again the front-runner after the Florida and California primaries, expects to "take it easy" at his Libertyville, Ill., farm — except for an occasional political sortie — until convention time in August.

He said Adlai's advisers believe their man will "wear out his welcome" if he continues too much in the headlines.

"But make no mistake about it," he continued, "Stevenson's agents will be busily traveling all over the country, calling on state chairmen and Democratic leaders wherever they can find them. They're letting no grass grow under their feet, although they will be mighty quiet about their whereabouts."

Stevenson supporters are admittedly wary about the big 11-state rally to be held in Denver this weekend in behalf of Averill Harriman's candidacy.

Gov. Harriman will be there in person, as will a few unidentified "spies" from the Stevenson camp.

A Stevenson aide ruefully conceded the conservative front-runner has little present hope of luring former President Truman back into his camp.

Truman is also still smoldering over what he considered Adlai's stubborn refusal to accept his advice in 1952, and his failure to set up an effective liaison with the White House during his unsuccessful presidential candidacy four years ago.

The park system of the U. S. capital comprises almost 750 units in the District of Columbia and vicinity.

Clubs Plan Gala Events on Saturday

Dinner - Dances Set at Birmingham and Orchard Lake

BIRMINGHAM — Country clubs will be gay Saturday evening. Birmingham Country Club will entertain at its opening dinner-dance, and many cocktail parties will precede that dance and another one at Orchard Lake Country Club.

One of the largest parties will be given by Mr. and Mrs. Frederick A. Erb in their home on Suffield road.

* * *

Mrs. Waldemar A. P. John and her sister, Mrs. Albert A. Clark, have returned from Evanston, Ill., where they spent 10 days as guests of Margaret Walsh.

* * *

Mrs. William L. Mahon entertained at luncheon Wednesday at Orchard Lake Country Club honoring her houseguests, Helen and Kathryn Day of Moweaque, Ill.

* * *

Mr. and Mrs. C. Hugh Whitelaw will give a dinner Thursday in honor of bride-elect JoAnne Wellman, whose marriage to James Nels Nelson will take place June 23.

On the day of the wedding Mr. and Mrs. J. Robert Moseby will entertain at a brunch for the bridal party and out-of-town guests. Mr. and Mrs. William B. Giles will give the rehearsal dinner at the Detroit Golf Club.

* * *

Lee Graves of New York is the houseguest of her fiance, Richard Martz, and his parents, Mr. and Mrs. Laurence Martz of Oak Grove drive.

* * *

Mrs Charles Richards and her daughter, Mary will entertain at a shower this evening for bride-elect Nancy Middleton. Nancy, daughter of Mr. and Mrs. Lawrence Middleton of Yorkshire road, will be married June 23 to Robert Simanek of Detroit.

* * *

Cranbrook Music Guild will close its season with a chamber orchestra concert Sunday afternoon, June 24, in the Greek Theater at Cranbrook.

Leroy W. Dahlberg was elected next year's president at the guild's recent board meeting. William L. Graham is vice president, Frederick G. Weed, treasurer, and James Schneider, secretary.

New board members of the guild are Mrs. Leonard T. Lewis, Mrs. Louis B. Sappington and Clyde Craine.

Mr. and Mrs. Albert L. Hopkins have returned from a two-month trip to Europe. In Spain they visited their son, James.

Students Present Recital at Church

Pupils presented in a piano recital Tuesday evening at First Congregational Church were Connie Vanderlind, Gail Caughill, Ricky Gaff, Susan Dawe, Linda Sutton, Susan Killen, Vicki Canfield, Rebecca Lazelle, Carol Merz, Dietre Kaiser, James Nicholie, Robin Canfield and Carol McDermid.

* * *

Others taking part were Kenneth Grattan, Harriet Young, Earl Nicholie, Diane Haines, John Horton, Edward Grattan, Doreen Santala, Priscilla Dawe, Sue Lippert and David Wilson.

* * *

Duets were played by Vicki and Robin Canfield, Earl and James Nicholie, Dietre Kaiser and Rebecca Lazelle, and Edward and Kenneth Grattan.

Sisters-in-law making plans to attend the Top Hat Ball are Mrs. Robert Gaines (left) and Mrs. Paul Valentino, both of Whittemore street. Members of St. Theresa Guild, they are both serving on dance committees.

Mrs. John Nichols Jr. to Supervise '1956 High Fever Follies' for Auxiliary

Mrs. John Nicolls Jr. was named chairman of the "High Fever Follies of 1956" at a Thursday planning session for the yearly project of Pontiac General Hospital Auxiliary.

* * *

Dates for the follies set by the committee are Oct. 24 and 25.

The organization committee consists of Mrs. Robinson Brownell, Mrs. William Merrill, Mrs. Dexter Kennedy, Mrs. Jack Hale and Robert Miller.

Others are John Bell, John Hirlinger, Mrs. John Marra, Mrs. Leland Clemence and Mrs. Nicolls.

* * *

Also attending the meeting, held at the Pontiac Chamber of Commerce office, was Lauretta Paul, Pontiac General Hospital administrator, who explained the purposes of the follies and reviewed accomplishments of the two previous projects.

Proceeds from the 1954 event, under the direction of Mrs. William McClure and Mrs. Harold Tripp, and the 1955 project, headed by Mrs. Charles Scribner, went for the purchase of hospital bassinets.

This year's profits will purchase more bassinets for Pontiac General Hospital.

* * *

Another planning session will be held in the board room of the Chamber of Commerce Thursday, when committee chairmen will be appointed.

Gatherings to Be Held Before Ball

Several pre-dance parties have been planned for Saturday evening before "The Continental Ball" being held at Westacres Community House by members of Junior Chamber of Commerce Auxiliary.

* * *

Exercise Develops Leg Muscles

By JOSEPHINE LOWMAN
(The Friday Question Box)

Q. "Is it possible to develop muscles in the legs after the age of 30? My calves are very thin although my thighs are large. This makes my legs look pretty awful."

A. Yes you can develop the calves with exercise. Raising high on the toes and then lowering the heels to the floor is a good one. If you or any of my readers would like to have my leaflet which gives you corrective exercises for the most usual defects in leg contour send a stamped, self-addressed envelope with your request.

* * *

Q. "Here is my worry. After I lose a bit there seems no chance of wearing a swim-suit because of the unsightly little blood vessels. Is there a way to hide these or what?"

A. These do not come from loss of weight. As a matter of fact, the overweight woman is more likely to have them. These can be removed. Ask your doctor about it. There also are products which will hide them.

* * *

Q. "I am a girl of 16 and a sophomore in high school. I have two problems which I wish you could help me with. My first problem is my legs. They seem to chap and peel. They do not get sore but they look very rough. I don't look nice in shorts.

"My second problem is my underarms. After I shave, my underarms are sore. I use a good deodorant so that can't be the problem."

A. Massage your legs with a good body lotion every night before going to bed. This condition can also come from vitamin deficiency. Talk to your doctor about this.

Do you use soap when you shave under your arms? You should do so. Even though you are using a good deodorant you may be allergic to it. I suggest that you try another brand.

Q. "Are there any foods that will put weight on faster than others? I am underweight."

You can develop the calves with exercise. Rising high on the toes and then lowering the heels to the floor is a good one.

A. Some foods are higher in calorie count than others, mainly starches and sweets and fats (the oils and butter and cream, fat meat, gravy, etc.) You can have generous portions of these but do not neglect the proteins and vegetables and fruits. Your diet must be well balanced when gaining weight.

* * *

Q. "Will using a rolling pin on my stomach make it flat? I have a roll of fat there but nowhere else."

A. No, honestly, I do not think this will help. Exercise is much more effective and much better for you.

Use Cherry Filling in Torte

Mrs. Scott Mixes Sugar, Oats, Butter for a Tasty Crust

By JANET ODELL
Pontiac Press Home Editor

Here's a different kind of a torte to serve with coffee for a snack or for dessert. Today's cook is Mrs. Stanley Scott who shares her recipe for Cherry Torte.

Mrs. Scott has six children and an occasional outside job. She belongs to the Fashionette Club.

Mrs. Scott's neighbors know her as a very friendly person who likes to cook and entertain.

CHERRY TORTE

By Mrs. Stanley Scott

2 quarts tart red cherries
2 cups cherry juice
1 cup sugar
1½ tablespoons cornstarch
Salt

Mix sugar, cornstarch, pinch of salt and cherry juice. Cook over low heat, stirring constantly, until thick. Add cherries and let cool.

1½ cups brown sugar
2 cups quick oats
2 cups sifted flour
1 teaspoon baking soda
1 cup shortening

Crumble all ingredients together. Place half the mixture in a baking pan. Add the cooled cherry mixture. Cover with rest of crumbled mixture. Bake 40 minutes at 350 degrees. Cut into squares to serve.

Preparing for Vacation?

Travel Light—Pack Wisely—Have Fun

Planning your vacation? When traveling keep luggage to two pieces — a 26-inch pullman case and a train case or overnight bag. If you get separated from your big bag, the smaller case should carry enough essentials to live with.

* * *

Into your shoulder bag, stash besides passport, ticket, traveler's checks and other vital possessions, enough cosmetics for a complete makeup change, a small plastic container of cleansing cream for removing it and enough facial tissue for use in transit.

Carry a couple of lipsticks: one in a clearly red shade for daytime, one slightly darker for evening. Have both the long-lasting kind which go on easily and cleanly even with your eyes shut, need no blotting for on-the-wing use.

Into your overnight bag, put in with night clothes and other essentials all the other cosmetics you're carrying: and all in plastic containers, either those they came in or those you use for transfer.

* * *

Now, for the contents of the pullman case. Take a tip from one of the big airlines, and make cardboard trays for it, exactly the size of your case. Tape tab each tray at each end for ease in removing.

Into this two-tray case, regiment everything you carry for convenience in groping for and using.

As the airline's counsellor advises, put shoes, belts, bags and such oddments in the bottom of the bag. Pack dresses and suits on the first tray you put in.

On the last tray, pack things you'll need to get at first—lingerie, robe, bedroom slippers, loafers, stole, sweater, raincoat, etc.

Then you can forget your luggage, and have fun.

Lincoln Junior High School Conducts Final Assembly on Thursday

Departing Students Hear Rev. Ryan Give Address

Lincoln Junior High School held its last assembly of the year Thursday morning honoring the 257 9A's who are leaving the school for the 10th grade at Pontiac High School. Judy Phipps, acting president of the school, served as mistress of ceremonies for the occasion.

* * *

L. Robert Slusser and Jerry Smith, music instructors, played the processional, "Pomp and Circumstance" by Elgar at the duo-pianos as the class marched across the stage to the places of honor.

The Rev. Herbert Ryan of Detroit, formerly of Pontiac, gave the main address to the class members, their parents and their friends. He stressed the need for a life of service, one dedicated to a worth while purpose, for the benefit of mankind.

"I could spend two hours," said the Rev. Mr. Ryan, "in telling you of the great opportunities for service that are before you. Oppuortunities are all about you."

He continued by saying that diligence, effort and preseverance for a worthy aim will bring each individual a full and useful life. He punctuated his remarks with timely anecdotes which pointed up the need for fine goals in life, for drive and force within to achieve these goals, and for a dedication of purpose.

GIFT PRESENTED

Kathy Myrben and Frank Lovse, 9A members from Room 119, presented a tape recorder to the school as an expression of the students' appreciation for what Lincoln has done for them.

The money was earned by the students over a three-year period from the time they were seventh graders. Phillip Wargelin, principal of the school, accepted the gift for the use of all students.

Mr. Wargelin congratulated the students upon their fine achievement while at Lincoln and expassed a wish for their continued success.

Concluding the program, 30 members of the 7A Choral Reading Choir presented a number entitled "My Pledge of Allegiance," reciting the pledge and giving an explanation of each word and phrase. Mrs. T. E. Wiersema directed the group in this observance of Flag Day.

* * *

A tradition at Lincoln is "The Passing of the L" ceremony a marching drill by outstanding girls in the 9A who "pass" the golden L on lage hoops to the oncoming 9As.

The 9B girls, who are also honor students, receive the charge and try to live up to the high standard set by the previous class. Mrs. Earl Gregoire directed the traditional march.

PLAY RECESSIONAL

The recessional was played by the duo-pianists, Mr. Smith and Mr. Slussen.

Jane Fox, assisted by James Burke, was director of the program, with Hazel Potts, Beryl Roush, Cres Barner, Francile Schymik and Mrs. Gladys Wilkinson helping.

'47 Nurse Alumnae Gather at Watkins

Mrs. Clyde Deacon of Watkins Lake entertained members of the 1947 nursing class of St. Joseph Hospital, Mount Clemens, at her home recently.

Guests were present from Flint, Mount Morris, Detroit, Grand Island, Neb., and Pontiac. Plans are being made for a reunion to be held next year.

Pontiac Press Photo

On Thursday, members of the 9A class at Lincoln Junior High School presented a gift to the school as their final gesture of thanks. Pictured (left to right) are students Linda Hamilton of Scottwood avenue, Frank Lovse of Pensacola avenue and Kathy Myrben of Lowell street. Receiving the tape recorder for the school is Phillip Wargelin, Lincoln principal.

Sorority Holds Informal Initiation

Memebers of Gamma Chapter, Beta Theta Phi sorority, met at the home of Mrs. Jerome Martin on Durnham road Tuesday evening.

* * *

An informal initiation was conducted for Mrs. William Grubbs, Mrs. Richard Daugherty, Mrs. William Doerr and Mrs. Charles Opie. Plans were completed for the annual summer picnic to be held July 21 at the home of Mrs. Thomas Moffat.

* * *

Mrs. Robert Clark assisted the hostess with refreshments. The group was invited to the home of Mrs. Robert Jones in Birmingham for the June 26 meeting.

Harsh Code May Strengthen Girl

By MURIEL LAWRENCE

A recent meeting of professional parent advisers asked itself this question: What can we do about foreign-born parents who ask their American children to obey the codes of their native lands?

* * *

Someone presented the case of a Mrs. P., who had been reared in a country that tolerated no unchaperoned contact between young people of opposite sex.

Though her native village would smile indulgently on such human foibles as adultery, stealing, gambling, it simply couldn't bring itself to allow a girl and boy to be alone together for five minutes.

Mrs. P.'s compatriots were convinced that the only mutual interest a boy and girl alone could share was sexual satisfaction. And by stamping her with this cultural conviction, they made it impossible for her to accept her American daughter's social life.

* * *

A high school senior, Maria was forbidden classmates' parties, dances, movie dates. As in all these social excursions there might occur some fatal interlude that left Maria alone with a boy, her mother could not permit them.

OLD WORLD CODE

Instead of realizing that American girls are supposed to be reared with built-in chaperons, Mrs. P. refused Maria the supervision of her own social activites—and demanded that she submit to the code of an Old World mountain village.

* * *

The parent advisers had some suggestions for changing her mind. One lady counselor said: "This mother chose America when she left her native country to come here. She should be told that by leaving it, she also left behind its customs—and took ours."

Another lady said: "She should be warned of the scar these restrictions will leave on Maria." And another: "What about introducing her to some Americanized mothers?"

Then arose a wiser member of the parent education profession.

* * *

She said: "Are we not rushing to conclusions here? How do you know that these restrictions will scar Maria? How do you know that living with authority she doesn't agree with for the next three years may not be precisely the discipline she needs to make her an unusually understanding and brave person?"

NATIONAL TENDENCY

She was reproving our national tendency to regard any unusual harshness in children's experience as dooming to them.

* * *

Let me quote Dr. Viktor E. Frankl, famed psychoanalyst of the University of Vienna, on this tendency.

He writes, "Goethe says, 'There is no predicament that we cannot ennoble either by doing or enduring.' This right enduring is the kind that constitutes moral achievement."

Miss Peterson, Ann Gosner, Miss Tobin and Grace Mills were hostesses for the meeting.

Tell Friends of Betrothal Via Paper

Boy's Parents May Put Notice in Local Publication

By EMILY POST

A mother writes me as follows: "Our son is engaged to a very lovely girl who lives in another town. Her parents announced the engagement and also sent a notice to their local newspaper.

"We have many friends living here who would like to know of our son's engagement, but since you say printed engagement announcements are not in good taste, how can we let them know the news. Would it be proper for me to send a notice to the newspaper in our town?"

Answer: You cannot announce your son's engagement, but you may with perfect propriety send a notice to the newspaper, reading: "The engagement of Mr. John Smith of this town has been announced to Miss Jane Brown of Fartown. He is the son of Mr. and Mrs. Henry Smith of 10 Elm St." And of course add anything more about the engaged couple that you think will be interesting.

"Dear Mrs. Post: I've been married about six months and have failed to send out thank-you notes for the many lovely presents I received—and realize that I should definitely have done so.

"Is it too late now to send out these thank-you notes? If not, would I apologize for not having thanked those who sent gifts sooner, or would it be best to say nothing about the delay?"

Answer: By all means say thank-you enthusiastically, and regret that you have not done so sooner.

"Dear Mrs. Post: My son and I disagree on the good taste of the expression 'okay.' He thinks it is entirely acceptable, whereas I think it is slang and should be avoided. I would very much like to have your opinion."

Answer: Although heard every day in the world of sports and business as well as in that of early youth, it certainly is ot in the vocabulary of the fastidious.

PHS Y-Teens Send Two to Conference

Two representatives of the Pontiac High School Y-Teens left this morning for the annual Y-Teen Midsummer Conference, to be held for a full week at Camp Tyrone, near Flint.

The girls, Darlene Joyce and Barbara Miller, were accompanied by Dorothy Spann Redmond, Y-Teen director of the Pontiac YWCA. About 100 girls, plus adult staff members from all the YWCAs in the area, as well as from the regional and national offices of the association, will attend.

Tribute to Teacher

Miss Olive Taylor, who has taught in Pontiac for 40 years, retires from teaching this year. She has taught at Washington Junior High School for 27 years.

The final edition of the Tom-Tom, the student newspaper, was dedicated to Miss Taylor in appreciation of her service to the students and Washington Junior High School.

Financial Needs Inspire Hobbies

By ANNE HEYWOOD

"Why are you always talking about money?" an irate young mother writes me.

"The people you write about are in some kind of job or hobby or home project just to make money, but there are plenty of other reasons for doing it.

* * *

"Take me, for example.

"We're not rich, but we have enough to live on and support the two boys. I took up ceramics because I love it. It's an outlet for my artistic interests and it is really creative and satisfying.

"Doesn't that ever occur to you?"

* * *

Indeed it does occur to me.

HOBBY NEEDED

Whenever I hear young mothers complaining about the monotony, loneliness and drudgery of their lives—or whenever I read another of the everlasting tomes on Modern Woman's Dilemma—I yearn to tell each of them to take up a creative hobby.

* * *

But most women are not as clear-thinking as this young mother. Mostly, my experience has been, they put it off as something to do some day.

And they usually don't do it. Unless—and here is my point—they are forced into it by financial pressure!

Many women would never get around to developing their outside interests and talents unless pressured into it by lack of money. And so, they get to work and they make money.

But money isn't all they make. They find, as this young mother did, a wonderful outlet for otherwise unused talents.

They find relief from the monotony of duting and dishwashing. They find recognition and a sense of personal fulfillment. But—they get going in the first place simply because they need money!

THEY SAVE IT

And another interesting thing happens, I've found. Once they get going, and begin making money, they save most of it!

* * *

They start out planning to spend their earnings on something they desperately need. But once they get excited about their job, or their home project, they find that they don't need as many consolation prizes.

They begin to save the money for a nest egg, for the children's education, or to add it to their husband's retirement fund.

If you have a hobby or a project that gives you great satisfaction, write and tell me about it, so I may share it with other women.

Want to Tan Beautifully?

Six Tips Provide Dos and Don'ts for Sun Safety

For beauty on the beach, six tanning tips are suggested:

1. Use a creamy sun lotion if you have fair or dry skin; an alcohol-based lotion for oily skin. If you have normal skin, try one of the new oil spray mists in an aerosol container.

2. Take 20 minutes sun exposure if you're fair; 30 minutes if you're dark, and increase exposure time by ten minutes each day. Warning: Any more sun will only produce a painful burn, subsequent peeling. Then you'll have to start all over again.

3. If you're a complete heliophobe (allergic to sun) buy your tan in a bottle. It looks like clear black coffee but the tan it supplies will stay on your skin until you scrub it off. When out in the sun, use a sun-blocking cream.

* * *

4. Sun rays are doubly intense when reflected in water. Use twice as much sun lotion offshore or afloat; cut sun exposure time in half.

5. Protect your hair from the sun by smoothing some sun tan cream on it and on scalp.

6. You've had enough sun when your skin feels taut, when you begin to freckle, or when your skin begins to turn faintly pink.

7. Avoid overexposure on cloudy days. The sky's sunless appearance is deceiving—and a bad burn lurks behind those clouds.

The French roll is a hairdo becoming to very few women. If you find you can't wear it, don't persist for fashion's sake.

ROYAL CRISIS — Reports circulating in Europe state that a rift may have developed between Queen Juliana of the Netherlands and her husband, Prince Bernhard, over the alleged influence a woman "faith healer" exercises on Her Majesty. The healer, 61-year-old Greet Hofmans, is said to have promised the Queen that partially blind Princess Marijke, 9, would have full sight in both eyes.

Icebergs Supply Water Source

Scientist Wants to Tow Mountains of Ice From South Pole to U. S.

LA JOLLA, Calif (INS) — A 43-year-old scientist has advanced the revolutionary idea that Southern California may some day help supply its swelling population with pure water by towing huge icebergs from the South Polar regions.

• • •

Prof. John D. Isaacs, oceanographer at the University of California's Scripps Institution of Oceanography at La Jolla, is father of the speculative thought. He says:

Towing an iceberg would be the cheapest way to move a lot of water. I cannot now say this would be feasible, yet there are some factors surprisingly in favor of considering the idea for future use — possible when we have atom-powered vessels."

Professor Isaacs lists as favorable the plentitudes of giant icebergs of the low flat type peculiar to the Antarctic region, and currents from that region that carry almost to the doorstep of Los Angeles. He points out:

• • •

"In the past years these icebergs have drifted on the Humboldt current, along the South American coast, as far north as Peru. This current ties into others to make an almost continuous 'highway' from the Antarctic, although we would have to do considerable guiding and make a loop westward, then turn back toward southern California.

A New Chance to Win $100 -- Puzzle No. 3

POT-O-GOLD, the Pontiac Press' exciting new summer word game, begins its third week with Puzzle No. 3, below. It's fun—read the directions carefully, fill out your entry and send it in. It can mean ta least $100 to you every time you win.

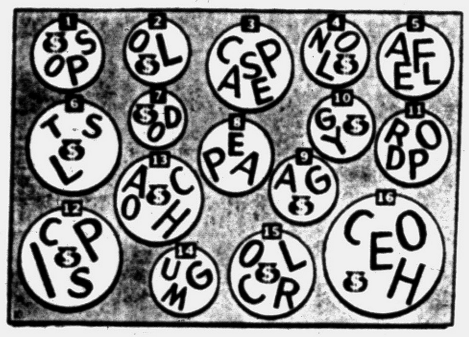

The puzzle consists of (1) a number of circles which contain a few scrambled letters, and (2) a orresponding list of clues to these words printed below. The object is to arrange each group of circled letters into a word that best fits its clue. The word which you select for Circle No. 1, then, would be the one which you would print in the space to the right of (1) below.

You'll notice that some circles contain $ signs in pots of gold. You may use such a symbol as any letter you wish. However, it and all letters in that circle must be used. The $ sign, of course, can represent ANY letter in the word.

Do the same in all the other circles. Study the clues carefully and arrange all the letters into words that you believe best conform to these clues. Use your $ signs to help you spell out the right words.

That's all there is to it. Good luck!

OFFICIAL CONTEST RULES

1. Anyone is eligible to enter the POT-O-GOLD contest with the exception of Pontiac Press employes or their immediate families.

2. A contestant may submit as many entries as he or she wishes but they must be on official entry blanks printed in this newspaper.

3. To submit an entry the contestant must print his answer words in the proper spaces, cut out the area enclosed by dotted lines and attach it securely to a 2-cent postcard. No entries will be accepted if they are in envelopes. Entries for Puzzle No. 3 must bear a Tuesday, June 19, postmark (or before). No entries received after that time, whether mailed or delivered by hand, will be declared eligible. The Press is not responsible for entries lost or delayed in the mail.

4. Sorry, telephone calls or mail concerning details of the contest cannot be answered or acknowledged.

5. The Pontiac Press will award a cash prize of $100 a week to the winner of each weekly POT-O-GOLD contest. If more than one winning answer is received the prize will be divided equally among the winners. If any week or weeks should pass without any winners, the prize will be added weekly until a winning solution is submitted.

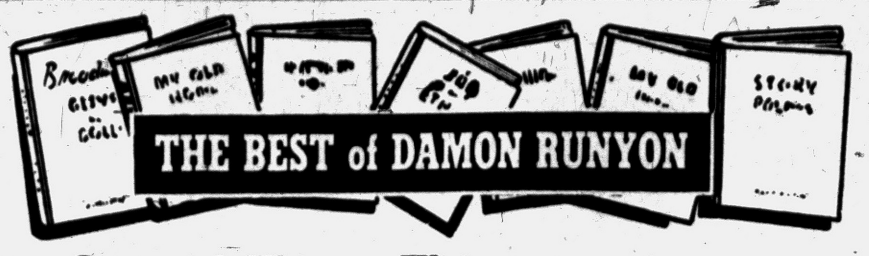

6. Winners will be awarded an extra cash bonus of $25 each if they are Pontiac Press subscribers of record on the day winners are announced. Only one such bonus can be awarded to each prize-winner, no matter how many weekly prizes may accumulate.

7. Each week's puzzle will be published Monday, Wednesday and Friday until the contest's end, Labor Day. Either or all will be considered as official entry blanks.

8. Winners and correct solutions will be announced each Friday of the week following individual contests. Official keeper of answers will be Frederick C. Ziem, prosecutor for Oakland County. Only the General Features Corp., originators of the puzzles, will konw the solutions until after each contest is over. Answers will be delivered to the Press judges by Mr. Ziem after the final deadline.

9. There is only one correct solution to the POT-O-GOLD puzzle, and only that correct answer can win. The decision of the judges is final and all contestants agree to abide by the judges' decision. All entries become the property of The Pontiac Press and none can be returned.

10. Completed puzzles must be addressed to POT-O-GOLD, POST OFFICE BOX 58, Pontiac, Michigan. Winners will be notified either by telephone or in the mails.

One of Those Things

By DAMON RUNYON

The art of self-defense was Runyon's favorite spectator sport. Nothing ever won his interest and devotion as thoroughly as prize-fighting. He was fascinated with its ins and outs and was happiest when he had a hand in arranging a championship bout. He yearned to be the "owner," i.e., manager of a champion, more than anything else, it appears.

"One of Those Things," a boxing story with Joe and Ethel Turp among its characters, was one of the last pieces of fiction he finished before his death.

Brooklyn

Dear Sir:

My wife Ethel's Uncle Ben called me up one afternoon not long ago and ses Joe, a friend of mine from Scranton is in town and he bought two duckets to the fight at Madison Square Garden tonight and all of a sudden he finds he can't go so he has given them to me and I want you to go with me.

* * *

I ses why sure and thanks for thinking of me, Ben. He ses okay meet me at Fiftieth and Broadway at 7 o'clock and we will have a nice Italian dinner somewheres and go. So I telephoned my wife Ethel that I would not be home and I met her Uncle Ben right on the dot and we went to the Progressivo Restaurant in West Fifty-fifth and had some real nice spaghetti.

While we was eating Uncle Ben looked all around and then dropped his voice almost to a whisper and ses Joe, did you bring any dough with you? I ses Oh, so that is it, is it? I ses I suppose you are clean and I will have to pay for this spread? He ses no, no, Joe. It is all on me because I am really loaded tonight. I am there with over a hundred fish but I want to give you a chance to pick up a few seeds.

I ses how? Ben ses well, I have found out that this fight tonight is one of those things. It is a do-se-do. It is a rumba, with music by Cugat. Joe, the guy who is the 1 to 3 favorite is going to blow the duke to the other gee and all you have to do to pick up a nice bundle is to bet on the short-ender. I have already bet myself fifty and I will get you on for whatever you feel like going for.

SUIT YOURSELF, JOE

I ses Uncle Ben, I do not feel like going for anything. I ses now that I am a partner in our business I have to be more careful with my dough than ever before and besides I do not think it is dignified for a business man to be betting on prize fights. Uncle Ben ses suit yourself Joe, but don't get jealous when you see me with a hundred and fifty bills that I haven't got now.

I ses what makes you so sure this is one of those things? I ses I have seen many a one of those things go wrong in my time at the old Ridgewood Grove. He ses why everybody in town knows it. A fellow standing on the sidewalk in front of the Forrest Hotel that I never saw before in my life told me. A shoeshine kid on Eighth avenue told me. A guy who runs one of the newsstands at Fiftieth and Broadway told me while I was waiting there for you. The whole town is hep, Joe.

The favorite walked over to the gee and belted him with a big right hand and he went down.

I ses, well, Uncle Ben, I haven't paid much attention to fights since the war but if everybody knows like you ses, the price ought to be shorter than 3 to 1 because everybody would be betting on the short-ender. Uncle Ben ses well, of course I am speaking of the early betting. I expect it to be something like even money at ring time. Anyway, I will give you a piece of my bet at three if you like, Joe, but I ses thanks, but I am keeping my money in my kick.

BET ALL THE DOUGH

When we got to the Garden, I went right to my seat but Uncle Ben hung out in the lobby awhile and when he came in I ses is it still one of those things? Uncle Ben ses sure. Everybody out there knows it. The favorite is to pull to the other gee from start to finish. The price is still three so I bet all the rest of the dough I had on me. I only hope there isn't too much of a scandal about it.

I ses Uncle Ben, I would be worried about that price if I was you. I ses it ought to be shorter and he ses the price makes no difference and just then the bell rang and the favorite walked over to the other gee and belted him to the chin with a big right hand and the short-end fellow went down and plumb out.

I turned around to say something to Uncle Ben but he had disappeared and he didn't come back for ten minutes when nearly everybody was out of the building and he ses I went around to see what happened. Do you know what happened, Joe? They forget to tell the favorite this was to be one of those things.

Yours truly,
JOE TURP.

At Least, They Eat

WASHINGTON (INS)—Andorra, the tiny principality lying between France and Spain, pays a strange yearly tribute to its co-ruler, the Bishop of Urel: 6 rams, 6 cheeses, 12 hens and 460 pesetas, or about $42. The bishop comes off better than Andorra's other ruler, the President of France, who receives only $2.80, the National Geographic Society reports.

European Trip at Cost of $50 Seen by Hostler

NEW YORK (AP)— The possibility of the average wage earner being able to take $50 trips to Europe on huge cafeteria-style ships was envisioned yesterday by a New York hotel man.

* * *

H. B. Cantor, president of the Dixie Hotel, said he has plans to build two 90,000-ton ships, each capable of carrying 6,000 passengers. They would cost 100 million dollars each.

Cantor told newsmen financing has been made possible through recent amendments to the Maritime Financing Act.

* * *

He said there was "something cockeyed" about the present formula of steamship fares. He believes this is due to luxuries that travelers don't want.

Each of his proposed ships would have a cafeteria with 1,500 seats, as well as automatic food dispensers.

The $50 fare would cover berth and transportation only. Cantor estimated meals would cost about $4 a day extra. He expressed confidence the ships could operate profitably in this fashion.

* * *

"There will be two swimming pools, a skating rink, two theatres, a copcert hall and facilities for religious services, but no pheasant or caviar," said Cantor.

One-third of the average American family budget goes into the categories of food, liquor, and tobacco.

A Bookkeeper's Mind

LONDON (INS)—A London divorce court was told that a factory owner took his married secretary on a romantic vacation in the south of France, and then deducted $2.80 per week from her check to cover her share of the expenses. The judge awarded a decree to the secretary's husband, and remarked of the boss: "He attached considerable importance to money standards in life."

WASHINGTON (UP)—United Airlines today opened its ranks to younger and taller airplane stewardesses.

* * *

United stewardesses in the future may be as tall as 5 feet 8 inches, instead of 5 feet 7, and as young as 20, instead of 21.

They Ponder Life Among the Dead

Serene Graveyards Attract Many Tourists

By PHYLLIS BATTELLE

TARRYTOWN, N. Y. (INS) — Sacrilegious it may sound. Morbid it may appear. But a favorite pastime of a large slice of humanity is roaming through quiet, quaint old cemeteries.

* * *

Of a summer afternoon, when sportsmen are working themselves into a frenzy and the city is throwing off sparks of excess energy, these lovers of serenity and history go graveyard-strolling.

There is much to be pondered, of life, amid the soft, green memories of it.

Here in Tarrytown, the site of Ichabod Crane's mad race with the headless horseman, is the cemetery of "Sleepy Hollow."

* * *

Here, on a modest 3-foot tombstone, is the vital statistic of Washington Irving, creator of Ichabod and the HH and a founder of this rolling lawn that holds the legend of our early American ancestors.

It reads: "Washington Irving, born April 3, 1783, died Nov. 28, 1859."

RESTFUL EXPERIENCE

No poetic sayings or Bible quotations were desired by Irving, for he was a man who considered death a simple, personal, restful experience.

* * *

This cemetery once was called "Tarrytown Cemetery," but he applied to the State Legislature to change it to "Sleepy Hollow" — writing, in 1849:

"The projectors (of the cemetery) are plain matter-of-fact men, but are already, I believe, aware of the blunder which they have committed in naming it the Tarrytown' instead of the 'Sleepy Hollow' cemetery.

"The latter name would be enough of itself to secure the patronage of all destrous of sleeping quietly in their graves . . .

"Besides, I trust that I shall one day lay my bones there."

* * *

Irving's predecessors among the early settlers of New York are all around him. And the weatherbeaten stone, barely legible on some 18th Century tombs, tells stories of another world.

A CRUEL WORLD

It was a cruel world for children and women in childbirth.

* * *

Many hundreds of the nearly 28,000 graves are dedicated to babies who never grew up, and wives of 18 to 20 years.

Under a rhododendron tree, fresh-planted, is a gray stone marked: "Margaret Morison, died 1850, aged 20 years. And John, son of the above, died 1851, aged one year."

They were God-fearers, these old Dutch and German and English families who lived and died in Tarrytown. Most of the 19th Century tombstones have Bible inscriptions under their marble angels and lilies.

Others are simply sacredly affectionate . . . "Safe at home in the sweet bye and bye" . . . "He lived and died bravely" . . . "The mortal must put on immortality" . . . "His parting words were 'Let us trust in God.'" . . . and "His dying message, 'Tell my parents I tried to serve the Lord.'"

* * *

Many inscriptions, like the one for Adolphus, 17 years and 10 months and 4 days, indicate the young men of the 19th Century had roving blood, even as young men today.

Adolphus "died at sea, in sight of Boston, 1866." Several other graves record, "buried at sea, and the sea shall give up his dead."

AND THEN SLEEP

If they survived the critical stages of adolescense and roving, our forefathers lived to the enormous age of 65 or 70. At which time, their monuments record, they "fell asleep."

In case some readers might consider the tombstone tourists of America a depressive lot, we quote more words from Washington Irving, a reverent man and philosophic.

Writing to a friend he respected, he suggested that they meet in Sleepy Hollow—"and (thunder and lightning permitting) have a colloquy among the tombs."

Romanian Princess Enjoying Reunion With POWs Befriended During WW II

KENDALL (AP) — A Romanian princess is enjoying a reunion with Michigan men she befriended when they were prisoners in World War II.

She is Princess Catherine Caradja, whose wartime friends are repaying her kindness by helping her make a lecture tour in this country.

The graying, 62-year-old princess came to this Van Buren County village to visit with former Air Force Sgt. Earl C. Westcott.

He was among more than 100 American airmen the princess helped in defiance of the Germans at a prisoner of war camp in Timis, Romania, in 1943 and 1944.

In gratitude the former POW's, like Westcott, formed the nucleus of a national group which arranged speaking engagements around the country for Princess Caradja.

GUEST OF HONOR

A highlight of the princess' tour will come Aug. 1 when she will be guest of honor at the Timis POW camp group's annual reunion in Colorado Springs, Colo. The organization numbers 108 out of 540 airmen shot down during the massive air raid on the Ploeste oil fields.

The princess, who has had bitter experience of oppression, has taken as her mission exposing conditions behind the Iron Curtain and encouraging the free world to protect and defend its freedom.

Her lecture tour was made possible by aid from the Americans she had helped in the POW camp. At the time of the Ploeste raids, Princess Caradja was caring for war orphans at her family's country estate.

She added to her charges the more than 100 Americans taken prisoner after the raids, visiting their camps at least once a week to bring books, musical instruments and other gifts.

The princess' own life has been a dramatic one of court intrigue and politics. She was separated from her mother at the age of 3 and placed in an English orphanage.

TOOK OVER ORPHANAGE

She returned to her own country only after her mother's death. There she found her mother had established an orphanage during the bitter years of searching for her own daughter.

The princess took over charge of the orphanage and in World War I, she also set up a hospital for typhus victims which she maintained at her own expense.

After World War II, Princess Caradja continued her orphange foundation although the Russians now occupied her country. However, she said the foundation was confiscated bit by bit by various Communist agencies and finally was dissolved in 1949.

The princess left Romania in 1952 with the aid of her daughter, who had previously escaped to the West. She has lectured against communism in France and England and last winter organized child relief in earthquake stricken zones in Algiers.

Ohio Prisoners in Cancer Test

Live Cells Injected Into 14 "Lifers" for Study of Dreaded Disease

COLUMBUS, Ohio (AP)—Fourteen Ohio penitentiary inmates were injected yesterday with live cancer cells in the first phase of a major study of the disease.

Warden Ralph W. Alvis said Dr. Alice Moore and Dr. Chester M. Southam of the Sloan-Kettering Institute in New York administered the injections into the inmates' forearms.

Some 134 inmates had volunteered to participate in the research program. Ohio State University researchers will examine the 14 daily.

Alvis said the inmates got no special treatment "because the doctors want it that way in their study."

The cancer cells were taken from test tubes where they have grown. A spokesman for the cancer foundation said the volunteers will be in no serious danger. He explained that any cancer injection which might take effect would spread slowly and remain in the immediate area of the innoculation.

Doctors said the research program may provide information as to how the non-cancerous individual's body reaction kills off foreign cancer cells transplanted into it.

The 14 inmates injected are between 25 and 55 years old. They had sentences ranging up to life.

Wierd Dragon Tree

WASHINGTON—The weird dragon tree of Spain's Canary Islands sometimes reaches 50 feet in circumference. Islanders once used the dark-red resin, called dragon's blood, to embalm their kings and nobles. The trees live to a great age. One on Tenerife Island is believed to be 3,000 years old.

Digestive Ills Up

OMAHA (INS)—Studies of claims received by the world's largest insurance company indicates that digestive ailments among adults are on the increase. The study of 1,104,142 disability claims from over the entire nation showed the digestive system was responsible in 14.83 per cent of the cases in 1952. By 1954, the number had increased to 15.92 per cent. Figures for 1955 were not available as yet.

There are three great classifications of rocks constituting the earth's surface — igneous, sedimentary, and metamorphic.

The albatross ranks as the most powerful sea bird on the wing. Its air speed approximates 60 miles per hour.

First Remove Red Tape, Then Wash Scout Cars

HAVERHILL, Mass. (AP) — The Haverhill police cruisers got washed after an order went through a municipal chain of command.

The city council approved the order for having the cars washed. The council relayed the order to the city manager.

The city manager relayed it to Police Chief William J. Collins.

Collins passed it on to a police department mechanic. With no one below him, the mechanic washed the cars.

Union Chief Dave McDonald to Lead Negotiation Parley With Big Steel Firms

(This is the second of two articles on the key men in steel industry contract talks now under way in New York. Yesterday James L. Kilgallen introduced you to steel's John A. Stephens. Today The Union's David J. McDonald.)

By JAMES L. KILGALLEN

NEW YORK (INS) — The labor movement was inbred in David J. (Dave) McDonald, 53-year-old international president of the AFL-CIO United Steelworkers of America.

• • •

Dave's father was a local union officer in Pittsburgh years ago. McDonald himself got "the union fever" in his youth when he landed a job as private secretary to the late Phil Murray, one of America's outstanding labor leaders.

Today the gray-haired, pipe-smoking McDonald, a strapping 6-footer, is in the throes of negotiating a wage contract here with the "big three" in steel — U. S. Steel Corporation, Bethlehem Steel and Republic Steel.

Both sides anticipate that contracts will be signed well in advance of the June 30 deadline.

BORN DURING STRIKE

Like many other suffessful labor leaders, McDonald came up the tough way. The day he was born — Nov. 22, 1902 in Hazelwood, a part of Pittsburgh — his father was on strike.

• • •

Dave went to St. Stephen's School in Pittsburgh and attended Holy Cross High School for two years, during which he took a commercial course.

At 15 he went to work for Jones and Laughlin Steel Corporation, and then for the National Tube Continental Works, where he stayed for six years. During this time he attended night school at both Duquesne University and Carnegie Institute of Technology.

Dave was elected secretary-treasurer of the steelworkers in May, 1942, and was reelected without opposition in 1944, 1946 and 1949. He became president of the steelworkers in late, 1952.

WORKING AMICABLY

Steel management normally has found McDonald to be a reasonable man with whom to deal. In their negotiations with him, settlements were reached without strikes in 1953 and 1954 and with a strike of less than a day last year.

In the current negotiations, both labor and management are working together amicably and hopefully, with both sides striving to avoid a work stoppage, realizing that an extended steel strike would upset the economy of the country.

He has a philosophy of modern labor management relations which he calls "mutual trusteeship." He feels that both management and the union have a duty to see that the steel enterprise is operated to the advantage of the workers, the owners and the people at large.

Politically, McDonald is a Democrat. He was a delegate to the last Democratic National Convention. In 1943 he traveled in South America in the interest of production, and talked to workers, government officials and employers. He also plugged the "Good Neighbor" policy in Canada, Mexico and Cuba.

McDonald, who is divorced, lives in Mt. Lebanon, Pa. He and his wife had one son David J., 16, who is attending Mt. Lebanon High School.

McDonald has a variety of hobbies. "I'm a dub golfer," he said. "I swim for exercise. I used to play handball. I like all kinds of sports — baseball, football, basketball and boxing. My favorite ball team, of course, is the Pittsburgh Pirates."

"I also play a bit of jazz piano," he added. "And I'm an amateur photographer."

McDonald is also fond of the theater. In fact, when he attended Carnegie Tech Dramatic School, he produced several plays.

• • •

The leader of the steelworkers smokes an occasional cigar and has a collection of 200 pipes. The only trouble with pipe smoking, he says, is that it causes him to burn holes in his clothes.

2 Roosevelt Masons Will Attend Dinner

Two members of Roosevelt Masonic Lodge No. 510 of Pontiac will represent this sector at a dinner in honor of Francis M. Dodge, the recently elected Most Worshipful Grand Master of Masons in Michigan, Saturday in Detroit.

Arthur Thomas and Robert Tarr and their ladies will attend the affair to be held at the Detroit Masonic Temple's Fountain Room. The other two Pontiac lodges, Brotherhood 561 and Brotherhood 21, will not be represented.

The dinner will be held at 6:30 p.m. with entertainment to follow. Dodge is a well known Detroit attorney. He previously served as Grand Master of the International Order of Odd Fellows.

Board Accepts $704,995 in Bids

Multi-Purpose Rooms, Additions Scheduled for 3 Schools

The city Board of Education last night accepted bids totalling $704,995 to construct multi-purpose room additions plus classrooms at three elementary schools.

The all-purpse areas are expected to be completed by Feb. 1 next year. The board hopes that the additional classrooms at Crofoot, LeBaron and McCarroll Schools will be ready fr occupancy during the fall semester.

Bids on multi-purpose rooms at five other schools are expected to be sought this summer.

Dr. Dana P. Whitmer, superintendent of schools, pointed out that construction of the multi-purpose units at the three schools was hurried because of the need for the classroom additions.

Four classrooms will be constructed at Crofoot School to replace remporary portable classrooms; two classrooms are slated for LeBaron School; and five classrooms, an ffice area, library and boiler-room are scheduled for McCarroll School.

The multi-purpose rooms are figured to cost between $105,000 and $110,000 apiece without corridor tie-ins. They will house facilities for gym, auditorium, lunch and other school activities, as well as facilities for community and adult groups.

Low bids for construction at the three schools were by three Pontiac concerns: $475,669 for construction by Schurrer Construction Company; $47,608 forelectrical installations by Ballard Electric Company, and $181,718 for mechanical work by Eamez and Brown Inc.

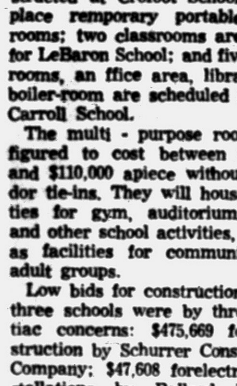

Original plans to build circular, domed structures for multi-purpose additions were scrapped because costs were too high.

The rectangular buildings now planned will be about 700 square feet smaller in size, but were described by Whitmer as "excellent additions, considering what the board can afford to pay."

Over 1,100 Cities Fluoridate—and Still Battle Rages

By DAVID L. BOWEN
Associated Press Writer

Over the past 10 years, more and more American cities have found themselves engaged in a usually bitter debate: should they or should they not add fluoride to their municipal water supply?

The lines of battle are frequently standardized. Proponents cite figures attesting to the effectiveness of fluoride in preventing tooth decay and point to support by organizations such as the U.S. Public Health Service, the American Dental Assn., the American Medical Assn. and other professional goups.

Opponents denounce addition of the chemical on the grounds it is "mass medication" which violates constitutional rights. Some also object that it is a poisonous substance and that scientific studies have yet to prove with absolute certainty that no harmful results follow its use over long periods.

Fluoride in drinking water became an issue after World War II. The government had found that more men were rejected for military service because of dental defects than for any other reason. It had also discovered that dental conditions are very much better in areas where drinking water contains a certain amount of natural fluorides.

These studies and others, a sampling of which are shown on the accompanying charts, led to the introduction of fluoride in a growing number of cities. Starting from three cities in 1945, the list grew to 78 in 1950, 637 in 1952, 1,049 in 1954 and 1,123 in 1955.

The water systems adding fluoride now serve more than 22 million persons. In addition to this number, several million other people drink fluoridated water in cities where nature itself adds the fluoride.

On the other hand, proposals to introduce fluoride into municipal water supplies have often been defeated. In some cases, fluoridation was begun and then halted. No completely accurate record is available on all city council actions on the matter.

In those hundreds of occasions when the question was put to the people in a referendum, fluoridation proposals have been defeated about half the time.

* * *

The U.S. Public Health Service, which announced "unqualified endorsement" of fluoridation in 1951, maintains that the procedure reduces tooth decay by 65 per cent. The charts comparing Grand Rapids, Mich., and Aurora, Ill., illustrate this point. The one on the right shows what happened after Grand Rapids began adding fluoride.

The health service explains that the rate among older children in Grand Rapids remained higher after fluoridation because these children had already developed their teeth by the time fluoride was introduced.

The lower left-hand chart illustrates another contention of the Public Health Service—that fluoride has a lasting effect. Adults in Colorado Springs, where water is naturally fluoridated, lose less teeth in later life than their neighbors in Boulder, where fluoride doesn't exist.

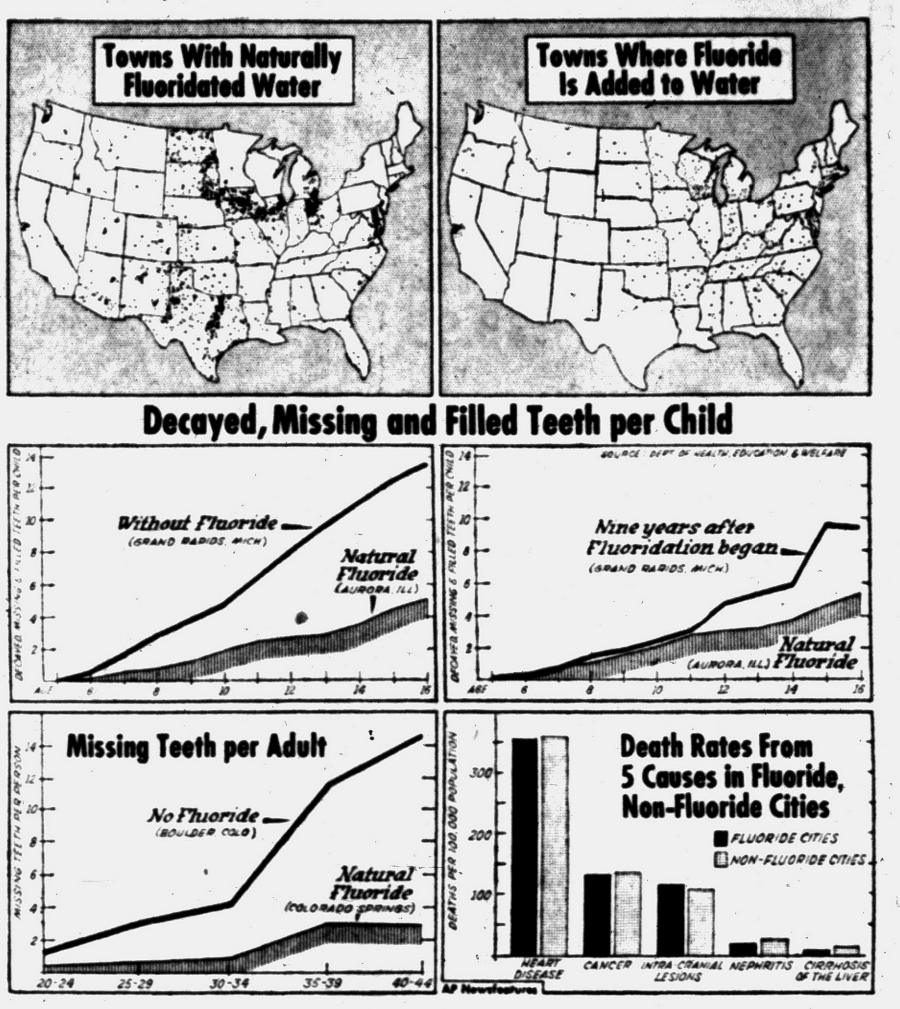

* * *

The bottom right-hand chart is aimed at answering claims that fluoride is damaging to health. The chart is based on mortality rates in 32 cities with fluoride and 32 without. The health service says no significant differences exist. It has not been able to discover any deleterious effects in careful studies of those communities where fluoride occurs naturally and has been in the drinking water since time immemorial.

Although fluoride is, like chlorine, a poisonous substance, the National Research Council holds that "there is a safe margin between trace quantities in drinking water which are required for optimal dental health and that amount which produces undesirable physiological effects."

Normally, one part of fluoride per million parts of water is the concentration maintained in fluoridated water supplies. To cause even mild illness, says the Public Health Service, 200 times the recommended amount would have to get into the water system. To cause death, 3,200 times the proper amount would have to get in.

Illustrating what it calls the practical impossibility of a disastrous error, the health service points that in order to cause sickness—not death—to an adult in a city the size of New York, 408 freight-car loads of fluoride would have to fall into the water supply at one time.

Teacher Aide Experiment Eyed by Area Educators

A top issue and one viewed with interest in educating circles these days is that of the use of teacher aides in the classroom.

* * *

Two county school districts are part of an experimental plan that uses teacher aides. The plan is now in its third year at Bay City where it originated an dhas one more year to go.

Holly schools are in their second year of the program and the Lake Orion school system started the system there in January of this year.

The experiment involves the use of selected women to assist teachers with clerical and housekeeping chores and certain duties, such as correcting papers.

* * *

The Bay City plan utilizes eight experimental rooms from kindergarten to seventh grade with a minimum of 45 pupils in each.

Charles G. Coggins, superintendent of schools at Holly, says, "We have used eight teacher aides all year. Last year we started with four and increased to five during the year because of increased enrollments."

Lake Orion is using nine teacher aides in elementary grades 1, 3 and 4 at Blanche Simms School and 2 and 7 at Proper School.

Six national educators made a survey of the experiment in Bay City and their reports varied as to value of the program.

Their views on the plan fell into four general categories:

1. **The plan seems to work as an emergency measure but aides cannot reduce overcrowding or cure bad teaching.**
2. The professional teacher should be in contact with pupils all the way through their work, even in checking their errors.
3. The experiment is not broad enough to produce real results.
4. A better plan might be to hold classes on a smaller level with clerical assistance from the school office to the teachers.

* * *

Coggins said of his Holly plan, "We feel the teacher aides have been very beneficial to our school because of limited classrooms. We of necessity had to have larger classes.

"I feel this is a much better solution than to use unqualified teachers and hold the classes down to 25 or 30."

Mrs. Vena Kirkpatrick, director of elementary education in Lake Orion and head of the teacher aide program there, said "We feel this is the best emergency measure we can come up with at the present time. There are 45 to 50 children in these classrooms where aides are used.

Oakland County superintendent of schools, Dr. William Emerson, "It's an experiment and a necessary one. I reserve any judgment to its value for at least the period of the experiment and perhaps until it's been tried out in a number of practical situations after the experimental stage has passed.

Dr. Dana P. Whitmer, Pontiac superintendent of schools, is of the same opinion: "The program at Bay City is an experimental and controversial thing. I'm reserving judgment until an evaluation is made after the experiment is over. Any judgment now is premature."

Central Michigan College set up the teacher aide plans at Bay City and Lake Orion. Michigan Normal College educators are supervising the Holly program.

MSU to Conduct Class in Reading

Summer Program Offers Area Teachers Special Study Techniques

Michigan State University will offer a creative reading workshop in Pontiac this summer.

Administrators have urged elementary and secondary teachers in the area to enroll for the workshop, which will meet at Longfellow School. The course will meet June 21 to July 18 and will offer six quarter hours of graduate or undergraduate credit.

Persons seeking information about the workshop may contact Dr. Harry T. Hahn, director of the Oakland County Reading Service with offices in the Oakland County Board of Education office.

Hahn, former professor of education at Lehigh University, will serve on the faculty for the course along with Josef Guteknust, professor of art education, State Teachers College, Kutztown, Penn., and Edwin Crandell, grade school principal at Birmingham.

Scott reports that Pontiac is one of 19 Michigan communities in which Michigan State will conduct two summer courses.

The workshop is intented to provide enrollees with practice, skill and confidence in the use of different techniques, materials and devises to help children read, write speak and think creatively, Hahn said.

Scout Wins Trip to Japan

One of this summer's biggest national scout honors will go to Eagle Scout Richard C. Eriksen Jr., 15, of Waterford Township.

* * *

He has been chosen as one of 42 scouts in the nation to travel to Japan under the auspices of the National Council to further friendship and understanding between youths of both countries.

Another Oakland County boy, Charles Mathews of Huntington Woods also was selected.

A top scout in Pontiac troop 244, "Rick" will make the trip by U. S. Navy air-and-sea lift, starting July 10.

* * *

Son of Richard and Audrey Eriksen, 995 LaSalle Ave., it will be Rick's first trip abroad and he's excited about it.

Besides participating in Japan's national scout camporee, Rick in his highly-decorated uniform will visit many curious remains of the past, as well as view Japan's up-to-the-minute modern city's in the eight-weeks trip.

Especially appealing, Rick says, is the opportunity to meet Japanese boys his own age at the campout Aug. 2-7 at Karuizawa, a six-hours train ride from Tokyo.

The camping end of it will be old stuff to Rick, who is taking along his sleeping bag and ground cloth for the occasion.

He's bought a new set of uniforms — including khaki shorts — for sightseeing tours of palaces, museums, historic Buddah temples and medieval castles.

It'll be Rick's first view of mountains, and he tells with excitement that Japan is crammed with them, including Mt. Fuji, which is included in the scout tour.

* * *

On July 10 Rick and his fellow-scout, later winning bronze and serve Air Station at Glenview, Ill. by air transport to Seattle, where he will board the Navy transport U. S. Mann. The voyage to Yokohama will last 10 days.

A sophomore next fall at Waterford High School, Rick has been a scout since February, 1953, when he was one of the original members of the troop at Grace Lutheran Church, headed by Scoutmaster Jack Bell.

By April 5, 1955 he was an eagle scout, later winning bronzse and gold palms to add to his 34 merit badges.

* * *

As a senior patrol leader, he spends meeting nights teaching youngsters scouting lore, expecially helping the boys studying for first class badges.

Rick is a member of the Order of the Arrow and has won the church scouting award, Pro Deo et Patria.

He plans to apply for cadet training at the Air Force Academy after high school graduation.

JAPAN-BOUND — "Rick" Ericksen, top scout of Pontiac Troop 244, is shown examining a Nipponese sword as a preview to a trip to Japan this summer. He will leave July 10 via Navy air-and-sea lift as one of 42 scouts in the nation chosen by the National Council to further international understanding and world brotherhood. "Rick," 15, is the son of Richard and Audrey Eriksen of Waterford Township.

Ducks and Ducklings Everywhere

Nature Turns Relative's Gift Into Full-Time Occupation

A gift of a Mallard duck and drake started off quite a project at the E. M. Buckley home, 4116 Commerce Rd., Cass Lake.

A nephew of the Buckleys sent the ducks from his home in Iowa in March of this year. Shortly after, the duck laid 20 eggs, 17 of which hatched.

The ducklings are now an "elderly" three weeks old and learning all the ways of the duck world. They're learning fast, too, says Mrs. Buckley.

The little ones (now numbering 10) turned up missing the other morning. Buckley, thinking an animal had reached them, started a search and found them swimming on Cass Lake.

Their pen is about a city block away from the lake itself, Mrs. Buckley estimates, so the little ones had quite a way to go.

As often happens to the young and inexperienced, they got lost and couldn't find their way back to their parents.

After a few fruitless attempts to rescue them and bring them back to the pen, Buckley brought the drake down to the lake.

Proud pappa gathered his brood about him and taught the ducklings how to go up and down the steps leading to the lake.

So now, all is well. The ducklings, gathering in swimming prowess and worldly knowledge, spend quite a bit of time in the water, but at feeding time, they hop back up the steps and take the hike to their pen.

Future duck plans in the Buckley home include the swapping of several Mallards for different varieties from other duck lovers. This may turn into quite a hobby, the Buckleys agree.

U.S. Coast Guard Photo From UP

BRANDED — Puffing out its chest, a four-foot Emperor penguin shows off the "USCG" painted on its feathers at McMurdo Sound in the Antarctic. The bird was recruited as a mascot by crewmen of the Coast Guard icebreaker Eastwind which was unloading supplies for "Operation Deepfreeze." There's no danger of it popping off the buttons on its white vest—they're painted on, too.

British Airman Found in Jungle

Aborigines Spot Flier in Malayan Wilds After 23-Day Disappearance

LONDON (INS) — Twenty-three days ago RAF Sgt. Kenneth McConnel took off in a small plane over the Malayan jungles after telling his worried wife "no matter what happens, I will land my plane and get back."

The plane disappeared and McConnel was listed as "missing and presumed dead."

McConnel's wife, Helen, and their three children were flown back to London but they continued to cling to the slender hope given by McConnel's last words before he took off on his lonely flight.

Yesterday the war office informed Mrs. McConnel that her faith in her husband was well placed. A group of aborigines had found him crawling through the jungle after living on roots and quinine tablets for 22 days.

He is believed to be the first Malaya jungle air crash victim ever to survive.

McConnel, in a hospital at Kualalumpur, said he crashed in a heavy rainstorm. He remained by the wreckage of his plane for five days, then began walking through the nearly impassable jungle.

Thursday morning McConnell, in the final stages of collapse, was discovered by the aboridines who were armed with blowpipes and shotguns.

State Judges Convene

MIDLAND (AP) — Some 40 city judges and court clerks are expected to attend the annual summer convention of the Michigan Municipal Judges Assn. today and Saturday. Speakers include Tyrone Gillespie, assistant to the president of the Dow Chemical Co., and Edward N. Curtis of the American Bar Assn.

Fan Crushes Worker

LANSING (INS)—Paul M. McDaniel, 25, was crushed to death at the Oldsmobile plant in Lansing yeserday when a 175-pound fan he was removing from overhead moorings fell on him. McDaniel was an apprentice millright.

No Changes Planned for Ike's Campaign

WASHINGTON (INS)—President Eisenhower still expects to make those "five or six major campaign addresses" at Republican rallies this fall, despite his recent operation for ileitis.

This correspondent has learned on highest authority that "the only problem is that the President will want to do even more than the politicians want him to, to prove his fitness."

The agreed-upon strategy of the Republican national committee—despite caustic attacks from some quarters—is to treat Ike's present malady as "something that could happen to anybody."

A member of the top strategy team disclosed that the President's campaign intentions are "totally unchanged" by his current hospitalization.

Potter Names Aide

WASHINGTON (INS) — Sen. Charles Potter (R-Mich), yesterday appointed Mrs. Vera E. Glaser s his public relations aide, succeeding Harry Travis of Kalamazoo.

WELCOME BACK — Three members of the 703rd Tank Battalion of Pontiac are welcomed back from six months active duty in the Army at the unit's recent regular meeting. Lt. Dale Rector, left, is shown greeting his Company D men. They are, left to right, Pvt. Urban A. Kaltz, of Port Huron; Pvt. Kenneth Deneweth, Mt. Clemens, and Pvt. Bernard Miller, Utica. The trio were on duty under the new RFA 55 program. Pontiac Press Photo

Jury Convicts Ex-HST Aides

Connelly, Caudle Guilty for Conspiring to Help Income Tax Dodger

ST. LOUIS (AP) — Attorneys for Matthew J. Connelly and T. Lamar Caudle, high officials in the Truman administration convicted of conspiring to help a tax dodger, plan to seek a new trial for their clients July 19, the same date set for sentencing.

* * *

The 48-year-old Connelly was White House appointments secretary to former President Truman. Caudle, 52, was head of the Justice Department's tax division. They were convicted by a federal court jury yesterday after it deliberated about nine hours.

Maximum penalty is five years in prison and a $100,000 fine.

ACQUITTAL SOUGHT

U.S. District Judge Rubey M. Hulen set July 19 as the date for sentencing. Defense attorneys said they also plan to file a motion for a judgment of acquittal notwithstanding the jury's verdict.

"No comment, boys," was all the trim Connelly would say to newsmen as he hurried from the the verdict. He appeared grim and tight-lipped.

* * *

Caudle, also obviously shocked, refused to talk at first but then said:

"I know I am an innocent man, convicted for something I never did. I will face my God, my sweet children and my friends when my time comes. I have no apologies for anything I have done."

Five Turkish Books Given to University

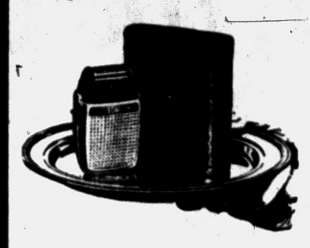

LOS ANGELES—The University of California has acquired five of the earliest books ever printed in Turkey.

They date from 1729, soon after Ibrahim Muteferrika, father of Turkish printing, succeeded in setting up a printing press in Istanbul after a 244-year ban on mechanical printing was lifted.

One of the books is about the discovery of America. The others are a Turkish dictionary believed to be the first book off the new press, a history of the Afghan invasion of Persia (Iran), the Chronicles of Nalima, and a set of chronological historical tables.

They were found by chance by a U. C. L. A. faculty member traveling abroad.

Hal Boyle Says:

Dads Want Sons Who'll Follow Same Path

NEW YORK (AP)—Few things warm a man's heart more on Father's Day than to know he has a son following successfully in his footsteps.

And every day is Father's Day to him if he knows the son is showing more promise than he himself did at the same age.

What deeper flow of satisfaction can a father have than to turn over the running of his business to his son, or at least to know that he has a son who will in time be able to shoulder that responsibility?

* * *

This desire that a son take up the same calling is probably as old as mankind. Even if a man has met with only mediocre success—or even failure—in his own line of work, he often nourishes a secret hope his son will take up the same path and go on and excel him. It affords a further continuity to his own life and work.

Sometimes, of course, it is impractical for a father to want his son to pursue the same career. Every now and then a 6-foot policeman has a 5-foot-4 son—too small for "the force."

* * *

Artists, opera singers and authors have a problem in this respect, too. They have special talents which, for some reason, rarely are hereditary. There have been some distinguished exceptions.

NO INHERITANCE

I knew an old Irishman once who used to say gravely that the reason he never wanted to be Pope was because "I couldn't hand the job on to my son."

* * *

But lawyers, doctors, politicians and businessmen often have sons who take up the same lifework.

American corporations teem with noteworthy examples, ranging from elderly John D. Rockefeller Jr., who followed his famous father in both finance and philanthropy, to young Henry Ford II.

A few more you may not be quite so familiar with:

Donald W. Douglas, pioneer airplane designer and manufacturer, has a son, Donald Jr., who, at 38, is vice president in charge of sales and since 1943 has supervised the testing of 20 types of aircraft.

INSURANCE FIELD

Frederick H. Ecker, honorary chairman of the Metropolitan Life Insurance Co., whose assets of nearly 14 billion dollars make it the world's second largest business enterprise, has a son, Frederic W. Ecker, who is president.

* * *

Only last month Thomas J. Watson Sr. turned over the reins of the vast International Business Machines Corp. to Thomas J. Watson Jr., who is 42. Young Tom started in the company as a $185 a month student salesman.

Alfred C. Fuller founded the Fuller Brush Co. as a one-man operation 50 years ago. His son, A. Howard Fuller, who first worked for the firm as a door-to-door salesman, became president in 1943 at 30, added cosmetics and other items to its sales line and increased the annual businecess from 20 million dollars to 90 million.

* * *

Some six months ago at 37, Robert W. Sarnoff became president of NBC, a post once held by his father, David Sarnoff, chairman of RCA, the parent corporation.

WORKED TO TOP

Before reaching the presidency, young Sarnoff worked his way up in several branches of NBC and produced the film documentary series, "Victory at Sea," which won a Navy award.

* * *

One thing stands out in most son-follows-dad success stories. The father generally has been a stickler for one thing: He has insisted that, before taking over a top job, his son first dirty his hands and bloody his nose learning his business from the ground up—the way the old man had to learn it himself.

* * *

The formula seems to work better than any other. A son who rises to the top that way is determined to succeed—if for no other reason than a fear of letting his father down.

Seek Salt Mine Beneath Lake

Drill 2,000 Feet Under Erie Waters Near City of Cleveland

CLEVELAND (AP) — Drillers are searching for a salt mine 2,000 feet under Lake Erie.

The International Salt Co. of Scranton, Pa. is spending a million dollars to find out if there is a good salt mine under the lake off Cleveland.

"Depending on the drilling results," said engineer J. L. Harper, "present plans call for an inclined shaft, starting on Whisky Island and extending 6,000 feet out under Lake Erie, at an approximate 30-degree slope. At the end of the slope would be the mine, 2,000 feet under the surface of Lake Erie."

Whisky Island is in the mouth of the Cuyahoga River, between Edgewater Park and the municipal stadium.

Harper, head of the Cleveland company that is doing the initial drilling, said engineers estimate there are billions of tons of salt under Cleveland, and the city probably rests on a salt bed millions of years old.

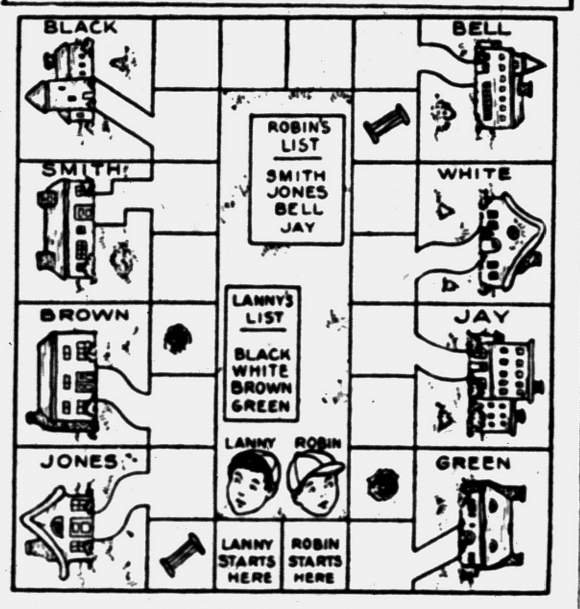

The drilling will determine if that theory is correct, and if the salt is pure enough to mine.

Seeks Dem Nomination

GRAND RAPIDS (AP)—George E. Clay, 44, chairman of the National Affairs Committee of the Kent County Democratic Committee, said Thursday he is a candidate for the Democratic nomination for Congress from the Fifth Congressional District.

TODAY'S ASSIGNMENT FOR:

JUNIOR EDITORS

GAMES FOR SUMMER — 5
They Deliver the Goods

This is a brand new game to play while resting.

Lanny and Robin work on Saturdays in two grocery stores, and they are often sent on errands. This time both are bound for the same neighborhood with packages, and the one who delivers his first is the winner. These packages must be delivered to the houses in the order shown on the lists in the center.

You will need a penny to toss and two buttons of different colors to use as markers, representing Lanny and Robin. A toss of heads gives you two moves, tails gives you one. You may move back or forwards as you wish. Sometimes the longest way round may be the quickest as there are obstacles in the way. There are two barricades across the sidewalk, and two big holes, all of which must be avoided. Whenever a player gets a toss that would carry him on to an obstacle, he loses that move and must wait for his turn to come around again.

Both players may occupy the same square if the toss brings them together. A player gets an extra toss every time he delivers each of his three first packages.

(This idea was first submitted by Diana Rhodes, Birmingham, Ala. Maybe you have an idea for Junior Editors. If so send it in care of this newspaper, and it may be worth $10 to you. Violet Moore Higgins; AP Newsfeatures.)

This Pace Reserved for BUICK OWNERS

Buick CENTURY 6-Passenger 4-Door Riviera

-because only Buick has this new Switch-Pitch Marvel!

WANT TO MOVE in with the really modern travelers?

Want to drive a car with a transmission that breaks with the past—that puts the principle of today's modern airplane propeller to work—and that now goes airplanes one big step better?

Then maybe you ought to try a '56 Buick with *today's* advanced new Variable Pitch Dynaflow.*

Here, no gears ever shift, even automatically. So you have *absolute* smoothness every inch you drive.

Here, propeller blades whirling in oil switch their pitch when you floor the pedal—and split-second quick you get full-power acceleration for a needed safety-surge, like a pilot at take-off.

And here—now—you get a brilliant new getaway response in the thrifty *first inch* of pedal travel, even before you switch the pitch. And when you drive that way, you get better gas mileage.

But a brand-new advance in Dynaflow isn't the only reason for the wonderful pace Buick owners enjoy.

There's a big new V8 engine of 322-cubic-inch might to put plenty of life to it all.

There's a sweet and silky new ride—with the buoyancy of all-coil springing, and the cushioning of new shock absorbers that move through triple the former volume of pillowing oil.

New steering linkage and front-end geometry make handling a '56 Buick a soft touch even for a lady's delicate fingers—give this smart beauty a "sense of direction" travel ease.

Truth to tell, this is the most modern, the most thrilling and the most satisfying Buick ever—the best Buick yet. And we'd like you to try it.

We're reserving the best seat in the house for you—at the wheel of a '56 Buick. Drop in soon as you can. You'll even find good news in the take-home prices.

*New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

Romeo to Name Peach Queen; Start Recreation Program

Reassure Six-Week Plan With Finances, Equipment

ROMEO — A six-week summer recreation program for Romeo children has been assured by Village Council action, setting aside $750 to support it.

Local voters had favored the appropriation of $1,500 to underwrite cost of the program and to purchase recreational equipment in the annual election in March.

Robert Hutton Jr., was named program director at a salary of $400. He has been conferring with members of the village parks and Recreation Committee to decide on the activities to be offered and the dates the program will be in operation.

Councilman William Totten was appointed village president protem while President Ray Mellen is spending five or six weeks vacationing in Alaska providing previous appointee Lynn Posey is unavailable.

Back on the job is Department of Public Works head Kenneth Ellsworth. He had retired earlier this spring and had been serving as a consultant until a successor could be named. He was given a substantial increase in salary.

John J. McMahon of Detroit was appointed consulting engineer for the village.

A 30-foot easement across village property adjacent to the new high school site was given by the council to the school district to provide access to Memorial Stadium.

Odin Johnson Seeks Nomination for Clerk

Pontiac attorney Odin Johnson announced today he has filed nominating petitions to place his name on the August 7 primary ballot for Oakland County clerk on the Democratic ticket.

Johnson, 51, was appointed Pontiac Municipal Judge in 1954, but lost the ensuing election to present Municipal Judge Cecil McCallum.

A member of Eagles, Moose, Knights of Pythias and the county, state and national bar associations, Johnson is a graduate of the University of Michigan and Detroit College of Law.

Married with two children, he lives at 486 W. Iroquois Rd.

The "Cubstone Serenaders" and several other quartets will offer various selections at the meeting. Group singing will be conducted and instructions given men interested in learning barber shop harmony.

All interested men are invited to attend. Refreshments will be served. State quartets from Detroit, Lansing, and Grand Rapids are competing in the national singing contest at Minneapolis, Minn., this weekend.

Delay Construction of $1,500,000 Center

CLAWSON — Construction of a $1,500,000 shopping center here has been delayed for another two weeks.

City Clerk Gertrude Cadger said this morning that the delay was necessary until the Planning Commission can work out the problem of which streets to close, and the keeping of traffic off nearby residential streets.

The center will be known as Clawson Sales Center and will be located on the south side of 14 Mile road, between Manitou and Batchewana.

Marlette Considers New Water Source

MARLETTE—At a recent meeting of the Marlette Village Council, the acquisition of a new location for a village water pump was recommended by Councilman Lionel Thompson.

During the last two years two new pumps have been installed in the present wells, and both are drawing from the same vein.

Meanwhile pressure troubles are appearing in some areas of the town. Thompson's recommendation was that an engineering survey be made to determine the most desirable location for a second pumping station.

Then, he suggested, an attractive pumphouse and underground pressure tank should be installed, and the surrounding grounds landscaped.

The village is investigating trench diggers, with an eye toward purchase.

Sand Hopper Collapses; Truck Driver Crushed

BRIGHTON (INS)—A truck was crushed and its driver pinned in the cab yesterday when a huge hopper collapsed with its load of more than 100 tons of sand in a pit between Brighton and New Hudson.

Set July Date for Library

Opening of New Unit Sought Early; Board Streamlines System

WALLED LAKE — Members of the Library Planning Board here are redoubling efforts to achieve a new goal — that of having a library open to the public early in July.

The library is being set up in the second floor of the Ramsey Dry Goods Building in downtown Walled Lake.

A decision was made at the latest board meeting to establish a new system that divides responsibilities among the members. It was expected that the new streamlined system would hasten the opening day by about two months. A September opening was planned.

Assignments were made as follows:

Mrs. Gertude Bailey, Recruiting Volunteer Aid, MA 6-8811; Mrs. Alice Jacki, Book Screening, MA 4-2909; Mrs. Myrtle Joramo, Book Catalog, MA 4-2138; Mrs. Mary Hughes, Shelves and Physical Layout, EM 3-4178; Mrs. Helen Foss, Fund-Raising; Iola Shipman, MA 4-1360, and Mrs. Cecil Davidson, By-Laws and Constitution.

Pedestrian Injured by Truck at Corner

A woman pedestrian, 44, struck down yesterday by a pickup truck while it was reportedly running a red light, was listed in satisfactory condition in Pontiac General Hospital today.

Mrs. Lorene Grennier, 76 Mariva, suffered possible back, hip and hand injuries, authorities said.

According to Pontiac police, Seth F. Thomas, 48, of 25 Auburn Ave. drove the truck through the intersection of N. Perry and W. Huron streets when he failed to notice the traffic light.

Auburn Heights Resident Takes Bride in Beal City

AUBURN HEIGHTS — Roger Vogler, son of the Bernard Voglers of Auburn Heights, took Vera Mae Streng, daughter of the Joe Strengs of Mt. Pleasant, as his bride in recent ceremonies in Beal City.

Geraldine Streng was her sister's maid of honor and bridesmaids were Blanid Murphy and Joan Fleming. Best man was Jerry Vogler, the bridegroom's brother, and ushers were Fred Streng, the bride's brother, Jerry Host, Bob Finnerty and Lee Grable.

The bride wore a lace and tulle gown of floor length, and a fingertip veil held by a seed pearl crown. She carried roses.

After a reception at the bride's parents' home, the couple left on a Northern Michigan wedding trip. They will live in Auburn Heights.

Berry and Asparagus Yield Down With Heat

LANSING (AP)—Heat and lack of rainfall threaten to reduce Michigan strawberry and asparagus yields, the State-Federal Crop Reporting Service said today.

The service said absence of rainfall in much of June would substantially reduce yields in southwestern counties.

Fragrance adds so much to the pleasures derived from plants on the home property that special efforts should be made to have a succession of sweet-scented blooms.

Weak Trees Attract Destructive Borers

Like other criminals, insectdom's most ruthless villains prefer to prey on the weak. That's why good diet and proper care protect trees against destructive secondary borers.

These most common kinds of tree borers attack ailing trees. Primary borers will invade any tree that strikes their fancy regardless of its vitality.

Little can be done about primary borers. But keeping trees in good health is the best way to thwart secondary borers.

No. 1 preventive measure is feeding with a special tree fertilizer. This restores vigor to depleted trees and is a major deterrent to borer entry.

Garden Clubs Prepare Show

Flower Exhibit Slated August 25-26 at CAI Building

Waterford Garden Clubs have started the weeks of planning that go into their annual Flower Show slated this year for Aug. 25-26 at the CAI Building on Williams Lake Road.

Clubs planning the show include Dirt Gardeners, Better Homes and Garden Club and the Waterford and Sylvan Lake branches of the National Farm and Garden Association.

Theme of this year's show is "Summer Bounty." Displays will center around the theme covering artistic arrangements, monochromatic arrangements, dried arrangements, vegeable and fruit displays, arrangements for tables and a host of others.

Children between the ages of 6 and 15 will also participate in the show. Their categories will include container arrangements, miniature arrangements, using color of bud or butterfly, individual specimen and best group specimens. They will also participate in vegetable exhibits.

All clubs are helping with this junior division, but the Sylvan group is responsible for setting it up.

A bazaar table and gulop tree for the children will be other attractions during the two day show.

LANDSCAPE PERFECTION—The top picture shows the perfect appearance of the West Terrace at Cranbrook House. The beautiful tiered gardens stretching for acres have lovely sights every season of the year. In the lower picture Mrs. Robert J. Moffatt, Oak Park, chairman of the gardens for Kingswood alumni shows one of the large peony bushes on the grounds.

Gardens, Park Are 'Perfection'

Tiered Levels Show Landscaping of Finest at Cranbrook House

Gardening perfection is what you'll find when you take a tour through the gardens and park of Cranbrook House.

In the heart of the cultural center of Cranbrook, this former home of founders Mr. and Mrs. George G. Booth is a veritable park filled with attractive flowers, trees, lawns, in every season.

One of the most beautiful sights is the view of the Sunken Garden. Here in stately squares 3,000 tulips just finished blooming.

They will be dug out and replaced with different varieties of summer annuals. The garden surrounded by a vine covered wall is almost regal in its appearance.

Paths galore lead from one level to another and from one area to another. These paths are lined with many different ivy varieties plus tall evergreen trees.

The West Terrace shown in the picture above, features two small ponds, surrounded with different flowers. In bloom this week were poppies and peonies.

The iris can be seen on top of the wall near the house.

Funds collected from tours through the garden go to the Kingswood fund for scholarships.

From the Garden Editor

Poison ivy is one of the least popular things about summer, but research is producing some pretty potent things to get rid of the plant itself and to help you treat it after you've been exposed.

Reports deem a new poison ivy and poison oak killer most effective. The preparation is trade named Amizol.

The company says it's cheaper to use, does not sterilize or affect the soil and renders spray equipment readily cleanable. Its action is immediate yet selective.

It's also expected to fill a gap in the weed field, against hard to kill perennial grasses such as quack and Bermuda and certain woody plants.

If you get poison ivy, the old aggravating sores may be losing their sting. Parke Davis Co. recently introduced Ziradryl a new lotion designed to cut down the after effects of exposure and possibly to eliminate the after effects altogether if applied before contact.

Our best advice to you is to stay away from it, but treat it promptly if you get into the dangerous ivy by mistake. If you find any on your property, get rid of it.

Take Notes Now on Fall Transplanting Needed

Make notes now in your garden diary about fall transplanting and thinning needed by the spring flowering bulbs. A map indicating locations is important, for their foliage will have disappeared completely when the time for such work comes.

Use Sprinkling Can

Galvanized steel sprinkling cans are to a gardener what "plumber's helpers" are to a plumber. The rust-resistant sprinklers are used to spray plants with insecticides as well as water flower beds. The multi-purpose sprinkler sees plenty of action around most well-kept yards and gardens.

Overplanting Prime Mistake

The week-end gardener continually planting things because he can't resist adding just one more "choice" bit of greenery can turn his dream castle grounds into a horticultural nightmare.

Overplanting is one of the prime mistakes in do-it-yourself landscaping. Many home owners are influenced more by whim than by master plans for grounds beautification.

To help guide property owners to more enjoyment from more beautiful grounds, the Davey experts have compiled a list of six fundamental "do's and don'ts."

1. Don't overplant or hesitate to remove unneeded trees. A few good specimens are better than a large number of overcrowded beanpoles.
2. Don't plant flowering shrubs, perennials, annuals or vegetables in heavy shade areas.
3. Do plant (or keep) trees that will shade the terrace, breezeway or porch and the children's play areas in the afternoon.
4. Do plant evergreens, shrubs and decorative trees where they will shield private areas from public view.
5. Don't conceal the front of your home with dense plantings of low hanging trees or evergreens.
6. Do plant trees in locations where they will soften the sharp angles of buildings.

Pluck Flowers to Keep Annuals Blossoming

All annuals will keep blooming longer if withering flower blooms are kept plucked.

Members of the early blooming viola family, particularly pansies, can be kept in bloom most of the early summer provided they are regularly picked over and provided they have some protection from burning sun.

Nut Trees Thrive in Northern Area

American home owners are urged to rediscover the "forgotten tree"—the nut tree.

Every back yard landscape can be graced with one, even far north of the Mason-Dixon line, a leading tree authority reports.

Actually, fine black and English walnut and hickory trees will thrive and produce their tid-bits as far north as Canada. The English walnut, will survive anywhere where apples grow, except the deep South. Peculiarly, winters there are too warm for successful growth fruiting.

The long-lived English walnut makes a desirable shade and ornamental tree, slightly taller than the conventional apple.

All chemical weed killers aren't alike. If you want a weed killer that gets deep down into the root system and kills thoroughly and permanently, you need Weedone. What Weedone kills stays killed.
First and still the best-known name in selective chemical weed killers, Weedone contains the powerful 2,4-D and 2,4,5-T. It kills dandelions, plantains, poison ivy, poison oak, honeysuckle, brambles, and over 100 other weeds and woody plants. Yet Weedone doesn't injure the grass . . . is harmless to people and pets. This summer have the weedfree lawn of your dreams. Make sure you get Weedone: First with the kill that lasts.

Lady Mashers Annoy Muscleman Mickey

By EARL WILSON

NEW YORK—"Vomans"—women—are a pain in the neck to Mickey Hargitay. "The way they act," he says, "I'm surprised."

I don't think anybody properly appreciates what "Mr. Universe" goes through—with women chasing him all the time . . . except me . . . and, of course, Jayne Mansfield.

★ ★ ★

MICKEY & MAE

While around with Mickey and Jayne the other night, I learned how women are always making passes at him. It must be dreadful and I wonder how I could get it to happen to me.

"The vomans wait for you and grab you and kiss you," the 6-foot-2, 230-pound Mickey said.

His accent is cute, he's Hungarian like the Gabors and the words come out somewhat the same way.

Just before the Big Brawl with Mae West's beau, Chuck Krauser, when Mickey was at the Latin Quarter here, a woman sculptor—"skoolpter"—wanted to meet him.

"She started telling me she saw the show 10 times and she just admires my physique so, and am I interested she should make a statue of me?

"It hit me like strange and I say 'Let me think it over.'

"Den I told her I must be paid for my time. She says she had been thinking of paying me $3,000 for 5 days' posing in her house. She says I am supposed to pose in no clothes.

PAT

"Ven I hear this I say 'All right, and one more thing, my manager must come along.'

"She say O. K. but she can't do it right now—she must go to Europe for some weeks and she take is up with me when she come back. I guessed maybe about that time she was phony."

Mickey—his first name's Miklos—left Budapest 9 years ago at 17, and grew 2 inches and 60 pounds since. For a while he was an adagio dancer, then a model, and now there are acting opportunities.

THE MIDNIGHT EARL . . .

Ingrid Bergman's daughter, Pia, visiting N. Y., said she hopes to enter a drama school here . . . There are more changes—lots of 'em—backstage at the Godfrey show . . . Calypso singer Pat Mathews is a candidate for the "Miss Tamarack Lodge" title.

Jane Withers and her groom bought the Desi Arnazes' estate in Encino . . . Gretchen Wyler and Shepard Coleman won't wait—they'll be married in L.A. next week instead of July . . . Bob Hope and his four kids, plus Pearl Bailey, will revive vaudeville at the Paramount for one day when "That Certain Feeling" opens. (Fearl's billing has been boosted) . . . Lawrence Tierney's being a good boy; when he enters a Third Avenue bar now it's to play word games with the barflies.

Earl's Pearls . . .

All men are born equal—the tough job is to outgrow it.

WISH I'D SAID THAT: "A genius," notes Tony Pettito, "is often someone who doesn't take as many pains as he gives."

TODAY'S BEST LAUGH: "Why is it," sighs Mike Connolly, "that every year it takes less time to fly across the ocean and longer to drive to the office?"

Nowadays it's easy to spot a foreigner in any American city; he's the one driving an American car. That's earl, brother.

Oops—So Very Sorry

UXBRIDGE, Eng. (INS) — A woman looked at the man sitting next to her in a local movie theater and gulped with excitement. She informed the theater manager that the man in the next seat was a jail-breaker hunted throughout England. A short time later police were making their apologies to a highly respectable Royal Air Force officer who vaguely resembled the criminal in question.

Duke Is Decimated

DURHAM, N. C. (AP)—Duke's football fortunes may be on the rise next fall despite the loss of 13 lettermen. Much of their success may depend on Harold McElhaney, Jr., a 197-pound junior fullback from Burgettstown, Pa. He is versatile going through the line or catching passes.

Queen Victoria ruled England for 64 years, longest reign of any English sovereign.

BASKING BEAUTY — Hillevi Rombin, holder of the 1955 Miss Universe title, basks in the sun on the roof of a Cleveland, O. hotel. The Swedish beauty was in Cleveland recently to appear in a swim suit fashion show and in order to beat the 92-degree heat donned a swim suit for a sun bath. Rising in the background is the Cleveland Union Terminal, the tallest building in the U. S. outside of New York.

17 Beauties to Vie June 20 for 'Miss Michigan' Title

MUSKEGON (AP)—For an attractive summer dish:

Pack 2,000 spectators into the Michigan Theater; stir by parading some lovely girls across the stage; allow to stew while judges huddle.

It comes up Miss Michigan for 1957.

* * *

The annual Miss Michigan Pageant June 20 is sponsored for the seventh year by the Greater Muskegon Junior Chamber of Commerce. It hasn't failed yet in eye appeal and spectator enthusiasm.

At least 17 regional beauty queens have registered for a chance at the state crown and the right to represent Michigan in the Miss America contest at Atlantic City.

A shower of prizes, including a $500 educational scholarship, a modeling scholarship, travel expenses to the Miss America pageant, a complete wardrobe, a pet dog and other awards also fall to the state winner.

DONATED BY MERCHANTS

The awards are presented by Muskegon merchants.

Margaret Devereaux, who won last year as Miss Livingston County, and Miss America—Sharon Kay Ritchie—will take part in coronation ceremonies.

This year the Michigan contest has for its theme "The A, B, C's of any successful woman—A for ability, B for beauty and C for charm.

The advance field has shaped up with entries from Muskegon, Grand Rapids, Livingston County, Oceana County, Saginaw, Waterford Township, Paw Paw, South Haven, Jackson, Lansing, Central Michigan College, Benton Harbor and the Detroit area — with the Wayne County firemen entering "Miss Flame" and press photographers backing "Miss Photo Flash."

Hollywood Headlines

Anna Maria Alberghetti Gets Role on Broadway

By LOUELLA O. PARSONS

HOLLYWOOD (INS)—My young friend Anna Maria Alberghetti gets her chance on Broadway, and I am wagering you'll be hearing more about her.

She steps into Susan Strasberg's role in "The Diary of Anne Frank." When Mrs. Strasberg was here with Marilyn Monroe, she saw some tests of Anna Maria that Columbia had made, and suggested the young singer for her daughter's role while Susan is resting.

"I leave Aug. 1," Anna Maria told me, "and I think it's one of the greatest breaks I've ever had, and just think, I act and do not sing!"

Sounds a bit risque to say Van Johnson will be in "10,000 Bedrooms," doesn't it?

But this catchy title is the name Joe Pasternak has given his next musical which is about a debonair millionaire who owns a chain of hotels all over the world with—what else?—10,000 bedrooms. Conrad Hilton, anybody?

Anyway, Van who has been very serious in his last three movies, including "Miracle in the Rain," gets back to the musical comedy field in this one.

Producer David Lewis was very eager to get Rossano Brazzi to co-star with Eleanor Parker in "The Painted Veil," but the New York office turned thumbs down for some reason.

But David is not unhappy now, because William Travers, the young Englishman who is currently starring with Jennifer Jones in "The Barretts of Wimpole Street," is set to play opposite the beautiful Eleanor.

Travers also plays the young Indian station manager with Ava Gardner in "Bhowani Junction," and the reports from the theaters where this picture has been shown have been most favorable to the young man, hence MGM's choice.

The experiences of my old friend Marvin Miller has as host and narrator of "The Millionaire" TV show would fill a book. People think he's really a millionaire and write him asking for money!

Marvin, who always has worked harder than anyone I know, flies to Europe in July. He, his wife Elizabeth and their two children will attend the Salzburg Festival which this year celebrates the 200th anniversary of Mozart's death.

While Marvin is vacationing in Europe, he'll scout material for "The Millionaire" and do research for his daily radio program. Meanwhile, Mrs. Miller will shoot footage for documentary films — and it wouldn't be Marvin if he didn't narrate Elibabeth's project.

Snapshots of Hollywood collected at random: Reginald Gardiner telephoned from Mount Sinai Hospital that aside from terrific pain he's okay and goes home soon.

Irish Ponder Need for Belfast Hotel

BELFAST—This city needs a million-pound ($2,800,000) hotel, according to R. Z. Frizzell, manager of Northern Ireland's Tourist Board.

* * *

Present hotels in Belfast could nearly subsist without tourists and could fill many of their rooms now accommodating tourists with business people, he said.

Out of roughly 400,000 people who came to Ulster on vacations in 1955, there were 15 complaints, Frizzel declared, but from the thousands who could not get accommodation in July and August, there were thousands of complaints.

* * *

"We have tried to alter the holiday habits of the British people in going away in July and August, but we have failed," he said.

Real Fire Bird

OMAHA (INS) — Pudgie, a 15-month-old parakeet who lives in the recreation room of the Omaha fire station, knows a fire hazard when she sees one. Every time the parakeet spots a lighted cigar, she swoops down on it and bites a big chunk from the middle of the cigar. Pudgie continues until the cigar is destroyed.

Animals Face Extinction

HELENA, Mont. (AP)—The grizzly bear, the Montana grayling (a fresh water fish) and the trumpeter swan are three native Montana species of wildlife facing extinction. The Montana Fish and Game department blames their decresing numbers on civilization's continued movement into primitive areas.

Infant Son Treated After Mom's Arrest

A doctor finally treated little Jimmy Ridge's measles yesterday.

Jimmy, 18 months old, had been in hiding with his four brothers and sisters and their mother, Mrs. Bettey Ridge, 27, fleeing from an Oakland County bad check warrant.

Mrs. Ridge was seen in Rouge Park Tuesday, washing Jimmy's diapers in a drinking fountain. Wednesday, police watched her old address in Taylor Township and spotted someone trying to take clothing from the house.

They traced the license and found Mrs. Ridge hiding under a bed.

Her husband, Edward, 32, is in Oakland County Jail awaiting examination on a grand larceny charge under $10,000 bond.

Police say the pair have engineered a string of swindles, operating under at least seven aliases.

Jimmy was sent to Detroit Receiving Hospital.

Athletes' Grade Levels Above Par, Says MSU

EAST LANSING (AP)—Are athletes all brawn and no brains? Michigan State University says "no," and has come up with some figures to prove it.

University officials said the registrar's office studied the academic records of men students and found that 379 varsity athletes had an average of 2.45, compared with a 2.36 average for all men on the campus.

Averages are computed on the basis of three points for a "B" and two points for a "C."

Group to Sponsor Dance

The Knights of Guadalupe will sponsor a public dance at the Knights of Columbus Hall, 295 S. Saginaw St., tomorrow night to raise funds for the organization's treasury, officers announced today. The church group is made up of local residents of Mexican extraction.

It's How You Look at the Words That Count

Solution to Pot-O-Gold Puzzle No. 2

1. **GAG** is right. Though people may egg a speaker (pelt him with eggs, missiles, etc.) that is no guarantee that he will be silenced. He may speak on, have the means to fight back, or speak elsewhere. If people GAG him, they stop him by authority in a way he cannot combat.

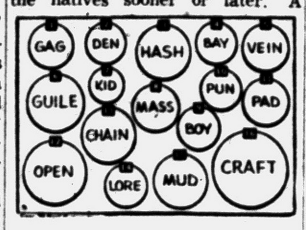

2. **DEN** is right. "Any man" would include a doctor or policeman, or any other person who is dedicated to the public. Such a man may not like being disturbed when in bed, but he certainly must expect to be, and will recognize the need for it. When he retires to his DEN, or private room, he does so on his own time, and usually chooses such a time when he can very well withdraw himself from his job.

3. **HASH** is right. Serving a **shah** (eastern Ruler) would most certainly cause an upset in some households. The only place where it would not cause one would be in his own household. Serving a HASH (a meal of leftovers) might cause an upset in some households, and then again it might not. The word "might" implies both possibilities.

4. **BAY** is right. The **may**, or hawthorne, is a fragrant flowering shrub. It is naturally fragrant, exuding its scent merely by existing. The BAY, or laurel, can be made to yield a fragrance resulting from laurel oil, obtained from BAY leaves. A **yam**, or sweet potato, is cooked to be eaten. Its resulting aroma is not nearly as much of a fragrance as the scent of BAY. Hay would usually be used without "the," and "can be made to" does not apply to HAY which has a natural fragrance of its own.

5. **VEIN** is right. A **vine** shows the shape of the leaf in actuality, and does not merely indicate or suggest the shape. A VEIN must run through every leaf, and the distribution of the VEINS indicate the ultimate shape of the leaf.

6. **GULE** is right. In either sense of the word "attain," to reach or to acquire, GUILE is more suitable. Cunning or deception, if clever enough, is equal to strategy, and strategy can get you into forbidden territory, or win it. A **guide** may be clever but he cannot assure your attainment of forbidden territory, as you must face the natives sooner or later. A

guise, or appearance that is put on, will not be enough to help you attain your object. Action is called for.

7. **KID** is right. A sympathetic person is more likely to feel a special tenderness toward any KID or child, because it is the nature of such a person to feel this way, and a KID would certainly stir up this feeling. In respect to **kin**, or relatives, such a person may also have the same feeling, but not to any KIN. There is always some relative in every family for whom even a sympathetic person feels no special tenderness. This aspect of human nature is undeniable.

8. **MASS** is right. The very nature of a MASS, either a lump or a crowd, requires it to be in one place, else it is not a MASS. Moss may be on a certain side of rocks, but it can also be distributed in a vague and loose manner so that it is not concentrated in one place. **Mess**, a gathering for mealtime in the army or navy, may take place in different quarters, as with officers' mess and mess for the rest of the men.

9. **BOY** is right. "Sounds like" is the clue here, and of all the possible words (BOY, **bow**, **gob**, **Bob**, **cob**, etc.) Boy is the only one that "sounds like" buoy, as a lifebuoy or channel marker; and a buoy is always on the water. A **bow** of a boat may be out of water when in drydock; a **gob**, or sailor, need not be on the water. The same reasoning holds to rule out the other possibilities.

10. **PUN** is right. PUN and **fun** are the only choices that meet the "intellectual" idea. Superior sort of fun should appeal to everybody, intellectual or not. A superior PUN, or play on words, by its very superiority can only be appreciated intellectually.

11. **PAD** is right. If you **paw** things indiscriminately, it is quite obvious that you are not seeking an artistic effect, but are merely feeling or seeking something. If you **pat** things, such as your hair or suit, you are not going to change them very much. If you PAD things, such as a suit, or furniture, and you do this indiscriminately, the effect may be overdone and therefore inartistic.

12. **OPEN** is right. A **pose**, in the sense of a sham, may be held for an indefinite period. A **pole** position may be held for long enough to win a race, and for the competitors this is surely too long a time. An OPEN position, that is, in an available job, may not be held (kept for a particular person) for too long a time; there are far too many others eager to fill the OPEN position.

13. **CHAIN** is right. If a **niche** is your job, you need not offer a distinctive service to earn a place. There are many jobs that are quite ordinary and can be held without being distinctive at them. A niche as a place for a bust is most frequently reserved for the honored great of the past, and our tense is the present. A CHAIN, or group of broadcasting stations, would require one of its units to offer a distinctive service to a community. This is readily understood, and makes the best sense of the clue. A **pinch** or emergency would not require "distinctive" service.

14. **LORE** is right. One special **role** will not make an actor prominent. If he has a special LORE, or knowledge of his craft, that is what he needs to become prominent. A role could serve to make him prominent if he had the other qualifications indicated by LORE. But first he needs the know-how to gain the roles that will bring him prominence.

15. **MUD** is right. The words "seem to relish" mean that it appears to be so without having actual proof that it is so. This applies to MUD. Children play in the MUD, when there is MUD, and if there is none, they play anyway. They may even regret the MUD while playing happily in it. About **gum** there is absolutely no doubt, since children spend their pennies to get it. They actually do relish it. And of the two, MUD can be called "somewhat sticky." Gum is very sticky.

16. **CRAFT** is right. The word "if" implies that you are merely considering it, or at best, have not yet done it. In this case, the first thing you need to navigate any waters, strange or not, is a good CRAFT or vessel—that is most essential. A good **chart** may seem to be essential, and may save lives; but sailors like Columbus went forth without a chart (though not without good CRAFT) and were eminently successful.

Warn Milk Dealers of Container Order

LANSING (AP)—The State Agriculture Commission said today it is sticking by its stand that after Jan. 1 retail milk dispensers must have rust and corrosion proof liners.

Stainless steel is one of the materials that meets this specification.

The commission said its regulation, first adopted in October 1954, does not apply to cans used in transporting milk from farm to processing plants—only to dispensers in restaurants, hotels, cafes and similar retail outlets.

The regulation was reviewed after opposition to it was voiced by the Farm Bureau.

Agriculture Director G. S. McIntyre said many other states have similar restrictions, and that they serve the interests of public health.

Speeding Violation Brings 20-Day Jail Sentence

A traffic violation resulted in a 20-day sentence to Oakland County Jail yesterday for Sammy L. Keeter& 18, of 22 School St.

He was jailed after failure to pay fine and costs totaling $35. Keeter pleaded guilty to a speeding charge at the arraignment before Justice Willis D. Lefurgy, of Waterford Township.

Before World War I, there were no independent Arab nations, says the National Geographic Society.

T. J. Murphy to Speak at State VFW Parley

LANSING (AP) — Timothy J. Murphy, national commander of the Veterans of Foreign Wars, will deliver the keynote speech at this year's state encampment, VFW headquarters announced today.

The four-day encampment opens June 21 in Bay City.

Murphy will address a joint business session of the convention June 22. State officers will be elected June 24.

Boulder, Colo., owns Arapaho glacier, which is the source of the city's wafer supply.

To Check Oil Firms on Tax Deductions

By JOHN CHADWICK

WASHINGTON (AP)—Sen. Anderson (D-NM) said today federal tax authorities should check the legality of tax deductions by oil companies on funds they contributed to an "educational campaign" against federal regulation of the natural gas industry.

A member of the Senate lobby investigating committee, Anderson said he questioned whether these contributions could be treated as deductible business expenses.

• • •

His comments were made as the committee prepared to take further testimony about the activities of the Natural Gas and Oil Resources Committee (NGO), an organization formed in October 1954 and financed by oil and gas companies.

• • •

The special Senate committee was set up in February to inquire into any improper or illegal attempts to influence senators or other government officials through lobbying, campaign contributions, or other activities.

Unusual Long Flight Poops Stowaway Bird

MONTREAL (AP) — The Cunard liner Ascania, now steaming toward Montreal, reports she is bringing a stowaway who joined the ship 1,500 miles out of Britain.

• • •

A radio report from the ship said the unexpected passenger is a pigeon, found exhausted on the rear deck by a member of the crew Wednesday night.

• • •

Officials of the line suggested the bird might have been attracted by another pigeon being brought to Canada by a passenger.

Ornithologists said the stowaway's flight was "unusually long."

Adults in families with small children usually have more colds than other adults.

IRISH SITTER — Gifted with the proverbial luck of the Irish, a dove, above, found a vase of potted shamrocks on a St. Louis, Mo., porch, thus ending her search for a nesting place. With the moving-in chores accomplished, mama sits and sets, waiting for her offspring.

The United States has 281,632 miles of pipe line, carrying crude oil, natural gas, and petroleum products.

7 Argentinians Regain Asylum

Government Gives Up Rebels Kidnaped From Haitian Embassy

BUENOS AIRES (AP) — Argentina's provisional government gave dramatic support to the traditions of political asylum and diplomatic immunity last night. It returned much-sought rebel Gen. Raul Tanco and six other fugitives to the Haitian embassy 4½ hours after machinegunners abducted them and delivered them to the army.

• • •

President Pedro Aramburu ordered the return of the rebels as soon as he received an angry protest from Haitian Ambassador Jean Brierre. Although Tanco had been the object of a nationwide hunt as a top leader of Sunday's buru said he was guilty only of political crimes and therefore entitled to the asylum he had reached.

• • •

Brierre smiled relievedly today as he told newsmen his seven charges were safely back in their apartment over the embassy garage. In hiding since the 12-hour Tanco eluded a citywide dragnet and slipped into the sprawling suburban residence before dawn yesterday.

• • •

Earlier the rebel leader had been reported in Uruguay. A government source said this was a ruse by followers to throw Tanco's trackers off the scent.

• • •

Brierre thanked the government for its speedy action in returning his wards. Presumably they will be allowed eventually to leave the country, as Juan D. Peron was following his overthrow as president last fall.

Brierre said authorities had assured him the 20 men who invaded his home would be caught and punished.

• • •

the kidnapers as military men and civilians. Informants said they apparently were anti-Peron extremists from one of the civilian revolutionary groups that helped throw out Peron.

• • •

The band did not harm Tanco or the other six. They sped them to a Buenos Aires army base and turned them over to the military.

88-Year-Old Senator to Kick It Off

Foreign Touch to Feature American Jazz Festival

NEWPORT, R.I. (AP) — The third annual American Jazz Festival — in what may be its swan song here — swings into tempo next month with some of the greatest names in jazz on the bandstand.

In addition to more than 100 American jazz artists, the festival will feature three foreign pianists whose stylings are the talk of the trade.

• • •

They are Jutta Hipp, a German; Toshiko Akiyoshi, a Japanese, and Freiderich Gulda, an Austrian, making his American jazz debut.

Festival officials again have invited one of the nation's oldest jazz fans to "kick off" the cere monies, which get the downbeat on July 5. He is 88-year-old Sen. Theodore Green (D-RI).

50,000 EXPECTED

The three-day forum, panel, concert, jam and experimental jazz sessions are expected to attract some 50,000 jazz lovers from the United States, Canada and Mexico.

Reports that future shows will be staged elsewhere persist, but festival President Louis L. Lorillard insists "there are no definite plans for the festival to locate in any particular city next year."

• • •

The festival is the brain child of Lorillard and his wife, Elaine, longtime residents of this city's Bellevue avenue and Boston maestro George Wein. They brought the festival to millionaire's drive with the belief that "every man's music in a high society setting would be a walloping success."

• • •

Among the stars signed are Louis Armstrong, the Count Basie Orchestra, Dizzy Gillespie, Ella Fitzgerald, Dave Brubeck and his orchestra, Art Tatum, the Modern Jazz Quartet, Miles Davis, Anita O'Day, Eddie Condon, Chico Hamilton, Ben Webster, Roy Eldridge and Teddy Wilson.

Only bird known to hibernate is the poorwill, a southwestern cousin of the whippoorwill. One was found sleeping in a cave two consecutive winters.

Guardsmen to Train

MUSKEGON (AP)—A total of 1,800 National Guard troops from Michigan, Indiana and Illinois will train at nearby Camp Claybanks from July to September in antiaircraft warfare. For the first time this year the gunnery trainees will fire 120-millimeter weapons, brought in temporarily from Chicago Army units.

Proves Honesty; Pays $2 Debt After 50 Years

WINCHESTER, Ky. (AP) — A man's memory and honesty has enlightened Jim Snowden, Clark County tax commissioner.

Jim Snowden, Clark County tax commissioner, can vouch for both.

In 1906, George Rose, now of Indianapolis, bought a bicycle from Snowden for six dollars. Rose only had four dollars at the time and promised to pay the remainder later.

Yesterday, Snowden said Rose recently stopped by his office and paid the debt he had owed for a half century.

Snowden had forgotten about it.

For a long time, people of Europe used tomato plants only as ornaments for gardens. The red fruit was supposed to be poisonous.

From the Press Box

BY BRUNO L. KEARNS
Sports Editor, Pontiac Press

This gal Roberta Gubbins has mighty good aim with that long barreled Winchester she packs.

But here is a case where being too good seems to have hurt rather than helped her.

Actually, Roberta isn't the "pistol-packin'" girl she is made out to be. She is a charming 20-year-old University of Michigan coed from Birmingham majoring in journalism who likes to apply her skill in rifle shooting where it is best utilized, as a member of the Wolverine rifle squad.

When Big Ten coaches recently decided by a vote of 5-3 to outlaw women in rifle competition Roberta remarked, "It's obvious the action was directed at me."

★ ★ ★

There could be no one else because there has been no other female competitor in the sport in the Big Ten.

This came as a sour note for Roberta who for two years has been a member of the Michigan championship squad.

ROBERTA GUBBINS

"I'm hoping for an appeal to be considered this summer," she said.

In the meantime she is making plans for an active summer of rifle competition, and her eight year record of firing speaks for itself.

Roberta was 11 when her father presented her with a .22 calibre rifle for Christmas.

It would seem like an odd gift for a girl, but Roberta explains the motivating force for wanting a gun.

★ ★ ★

"I lived in a neighborhood in Flint where there were all boys," she said, "and they were all getting BB guns for Christmas." "So I wanted one also," she added.

Instead her dad, Robert, who was the vice-president of the Oakland County Sportsman's Club bought her a .22 and taught her to use it in the proper place for firing, a rifle range.

In her first rifle competition at 12, she placed second in the Junior Girls division of Michigan and at 14 she won the Woman's State Title.

★ ★ ★

At 17, firing against men and women, she took the Michigan State Outdoor Open championship and in 1953 she was named to the International Women's team after placing 4th in the Nationals.

Her den in the Gubbins home has accumulated quite a display of ribbons, medals, trophies and plaques for the past eight years.

Her distinction has been unique at Michigan, being 3rd "man" on the rifle squad and 7th best in the Big Ten.

Roberta admits it has been awkward at times. "I remember the surprise of one of the locker room managers at one of my first Big Ten matches," she said.

"You're with the rifle team?" he asked, scratching his head. He then showed her to the girls' locker room.

Dr. John B. Stetson, the coach, and members of the Wolverine squad were angry over the coaches' decision. "They just don't like being beaten by a girl," was their cry.

So Roberta is paying the price of being too good for her male competitors.

Rosburg Leads in Hassle-Torn Open

ROCHESTER, N.Y. (AP) — Golf must be played according to the rules—but rules may be interpreted.

That stand by the U. S. Golf Assn., taken on no fewer than four occasions, resulted in probably the most hectic opening day in the history of the U. S. Open golf championship—a tournament that started out this year with the tag of the "Sweetness and Light" Open.

Going into today's second 18-hole round at the picturesque Oak Hill Country Club the question was not so much who is leading the tournament but who's in it?

The leader was Bob Rosburg, a rotund, bespectacled Stanford University graduate who looks about as much like a pro golfer as your maiden aunt. Rosburg, a terrific putter when he's hot, fired an early round of 34-34—68, two under par, and saw it stand up all day as the Rules Committee meetings overshadowed what was happening on the golf course.

Next at even par 70 came Australia's two-time British Open champion Peter Thomson. Then there were a whole flock of players with 71's — including three former Open champions, Ed Furgol, Julius Boros and Cary Middlecoff.

Everybody who started still was on deck for the second round although three of golf's most prominent players — Henry Cotton, Jackie Burke and Doug Ford — were threatened with disqualification at one time or another. Only the unusually lenient attitude of the USGA officials let them off easily. Burke and Ford drew two stroke penalties and Cotton none.

Most of the estimated 10,000 paying spectators who thronged the tree-lined Oak Hill course, didn't know about it, but here's what happened.

Cotton, three-time British Open champion, was charged with scoring a five for himself on the 17th hole when he actually took a six. After hitting one out of a trap, he was left with a short putt. He reached out to knock it in with the back of his putter and some observers thought he had hit the ball twice. Cotton said it was only once.

USGA officials, who refused to say who had reported the incident, decided after a lengthy meeting to accept the word of Cotton and his scorer and there was no penalty. Later it was learned Cotton's playing partners, Middlecoff and Jimmy Demaret, had called the stroke.

A few minutes later Burke came in and almost tearfully admitted he had signed an incorrect card, which normally calls for disqualification. He had taken a bogey five on the 18th hole and his marker put down a four. Jackie, tired and uncomfortable, in the 90-degree heat, didn't check it.

Later, when he learned a 75 instead of a 76 had been posted for him, Burke made the correction himself. Since he freely admitted the mistake was his, the committee decided to invoke a rule which permits modification of the disqualification penalty — something that never before had been done in the case of a scorecard error.

The 78 resulting from the penalty left Burke in a precarious position approaching the cutdown point. After today's round only the 50 low-scoring players and ties for 50th will continue in the final 36 holes tomorrow. It took a 75 to tie for 50th today, when scores soared unusually high.

Ford's mistake may have been more costly. He dropped a new ball too quickly after seeing an

EARLY LEADER—Bob Rosburg of Palo Alto, Calif., grins and waves his eyeshade happily as he leaves 18th green at Oak Hill Country Club in Rochester after posting a 68 to lead the first round of the U. S. Open.

Four at 73

Michigan Contingent Has Monopoly on 5th

ROCHESTER, N.Y. (AP) — The Michigan delegation almost had a monopoly on 5th place today going into the second round of the National Open Golf Tournament.

Four Detroit area pros and two outsiders fired opening round 73's yesterday to fall five strokes back of chubby Bob Rosburg, whose two-under-par 68 won first-round honors.

In 5th place — but trailing a score of other hopefuls packed closer to the front—were Wally Burkemo of Franklin Hills; Pete Cooper of Knollwood, Mike Dietz of Indianwood; and Rudy Horvath, unattached pro at Windsor, Ont.

Burkemo had 34-39; Cooper 37-36; Dietz 38-35; and Horvath 37-36.

Biggest slump among the Michigan shotmakers was the 81 turned in by Chick Harbert. The 40-41 card of the 1954 National PGA was one of his worst tournament rounds.

Bob Gajda of Forest Lake did little better. He came home with a 77.

Trailing the four front-running pros in the Michigan delegation by a stroke was Bill McNary of Wayne, with a 38-36—74. Amateur Edward Ervasti of Royal Oak fired a 37-39—76.

Reaches East Finals

HAMILTON, N. Y. (AP) — Top-seeded Les Dodson of Kalamazoo is in the finals of the Eastern Intercollegiate Tennis Tournament today after eliminating John McLean of Princeton yesterday, 6-1, 6-0, 6-2.

Dodson will meet Princeton's Jim Farrin tomorrow for the varsity singles title. Farrin needed five sets to polish off Barry Walraven of Oklamoma yesterday.

Boston Bats Hot

Tigers Face Bosox

DETROIT (AP)—The Boston Red Sox are wondering what will happen if their hot team batting cools off on the Western trip which opens tonight in Detroit.

• • •

Boston's 10-9 verdict over Cleveland yesterday marked the third triumph against the Tribe in the final four home games. The other ended in an 8-8 tie by reason of a rainstorm in the 12th inning. It will be played at a time to be decided later.

In those four contests, the Sox averaged 14 hits a game and still the scores were 5-1, 9-7, 8-8 and 10-9.

The fact is that despite the heavy hitting the Sox' riddled pitching staff barely has been able to hold its own.

Yesterday, for instance, Cleveland belted Ike Delock, Tommy Hurd and Leo Kiely for 13 hits.

• • •

Now, just a game behind Chicago and Cleveland who are deadlocked for second place in the American League, Boston has had to leave three pitchers at home.

Willard Nixon stayed behind for a complete checkup at the Lahey clinic. Will apparently doesn't feel at his best. Lefty Frank Baumann — who hasn't been right all season—is to get treatment for his $100,000 ailing arm from team physician, Dr. Ralph McCarthy.

Righthander George Susce Jr. still is hospitalized with phlebitis (a blood clot) in his throwing arm and the club has no idea how long he will be out of action.

• • •

That leaves seven hurlers with the club plus southpaw Mel Parnell whose 30-day required stay on the disabled list is up tomorrow. Mel injured his ankle in a slide a month ago.

• • •

Besides Nixon, Delock and Bob Porterfield have proved shaky starters. Porterfield, incidentally, is due to face Detroit's Frank Lary under the lights of Briggs Stadium tonight.

New Facilities Readied for Detroit Horse Show

By BILL CORNWELL

Increased facilities will be in use during the Detroit Horse Show, which gets under way next Wednesday at the Bloomfield Open Hunt Club in Bloomfield Hills.

The new improvements are designed to make the 39th annual program run as smoothly as possible during its 5-day tenure.

Show manager Bert McIntire announced that additional grandstand seats are being placed around both the main show ring and the one-third mile outside course to raise the total seating capactiy to more than 6,000 for each event.

"The additional seating capacity is designed to accomodate the larger crowd expected this year," McIntire said. "More than 60,000 people are anticipated at this year's 5-day show," he added, "compared to 50,000 persons who attended the 4-day program in 1955."

A new and permanent hexagonal obstacle has been installed in the center of the main show ring to make competitive course layouts easier to arrange. Less time will be required to change obstacles, thereby speeding up the show.

"This is the first time that such an obstacle has been used at any major horse show in the United States," McIntire claimed. "All of the exhibitors agree that it will help make the show more enjoyable for competitors and spectators alike," he said.

In order to accomodate additional entries as well as mounts for the Detroit Police Department Mounted Division Drill Team, which will perform at the show, stable space has been expanded from 350 to 400 stalls.

As in the past, the main show ring will be lighted for night events and a public address system will announce the proceedings. Free parking facilities will be provided on the show grounds.

Accredited as a Class A show by the American Horse Shows Association, the Detroit Horse Show will draw entries from throughout the United States and Canada.

Olympic Games in Second Half

Major Robert Borg Goes Through Paces of Grand Prix for U.S.

STOCKHOLM (INS) — Thirty-seven riders, representing 18 nations, begin competing today in the Grand Prix de Dressage, 2nd part of the 1956 Olympic Equestrian Games.

The riders, 26 men and 11 women, will go through their paces for two days. The United States is represented by Maj. Robert Borg of Dallas, Tex., and Elaine Shirley Watt of Montclair, N.J.

Great Britain won the 1st team Gold Medal and Sweden's Petrus Kastenman captured the 1st individual Gold Medal yesterday at the conclusion of the 3-day event—dressage, cross-country and jumping.

The British 3-man team won with a low score of 355.48 penalty points. Germany captured 2nd place with 475.91 points and Canada was 3rd with 572.2 points.

The U.S. and 10 other countries in the original 19-team field had been eliminated from the 3-day event Wednesday when riders failed to finish the grueling 22-mile course.

America's Walter G. Staley of Mexico, Mo., the only U.S. survivor in the individual competition, was ruled out of the jumping when his mount left the course.

Dixie Club to Hold Junior Horse Show

Dixie Saddle Club will hold a junior horse show Sunday, June 17 on the grounds of the Glenn Ellis Farm, 9331 Dixie Hwy.

Program consists of 17 events, both Western and English classes.

Classes include:

Pony class, 12 hands and under; Pony class, over 12 hands; Musical stalls, under 13; western pleasure, 18 and under. English pleasure, 18 and under; bending race, under 13, and bending pace, 13 through 18; musical barrels, 13 through 18; English threegaited, 18 and under; speed and horsemanship, 18 and under; English horsemanship, 18 and under; flag race, under 13; Tennessee walking horse class; pick up race 18 and under and bale race, 18 and under.

Trophies and ribbons will be given for each event.

Inboards Run

OCBC Regatta June 23-24

Annual summer inboard power boat regatta at Oakland County Boat club has been scheduled for the weekend of June 23-24, according to plans announced today by chairman Tom E. Comps.

Many features are planned. Outstanding area water skiers will perform,' including the Sylvan Lake Water Ski club. There will be the annual ball on June 23 at the clubhouse. Public may attend by making reservations in advance.

A parade in downtown Pontiac will display various types of craft taking part in the regatta. This event takes place at 11 a. m. June 23.

More than 75 boats are expected for the Sunday race program. Five classes are expected to compete in the hydroplane division, in the 48, 135, 136, 225 and 226 cubic inch groups, according to Ward Richards, in charge of registration. The 48s are the only outboards.

Among the awards will be two memorials. The Lloyd Maddock trophy for 135s will honor Maddock, one of OCBC's greatest race boat enthusiasts who lost his life a year ago in a Detroit River race. A cup for the 225 class will also be offered in memory of past commodore of OCBC, Frank Baldwin, who died recently in Florida.

Pontiac Motor to Air Irish Grid Contests

Pontiac Motor will sponsor one half of each game on the Notre Dame football schedule next fall, it was announced today.

Beginning September 22 and continuing through December 1, the series will cover Notre Dame playing Southern Methodist, Indiana, Purdue, Michigan State, Oklahoma, Navy, Pittsburgh, North Carolina, Iowa and Southern California.

Joe Boland, former Notre Dame sports commentator and Harry Wismer, nationally known sports announcer, will do the broadcasts over 500 stations in the Mutual Radio Network.

Yanks Sell 1st Baseman to A's

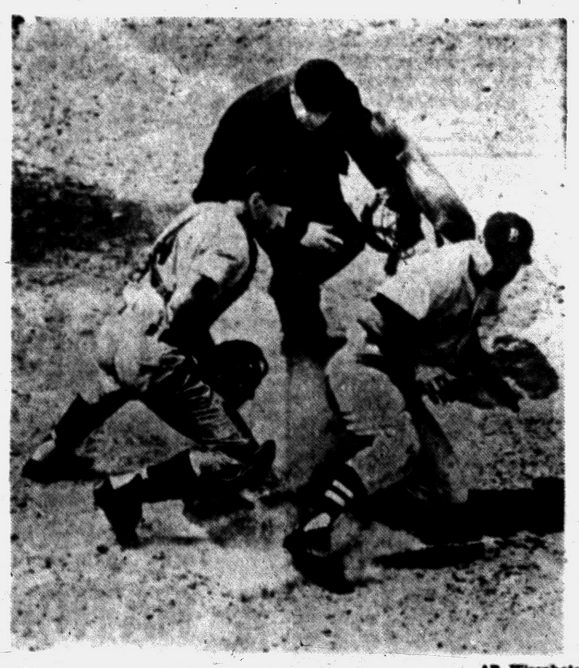

CLEVELAND (AP) — Rookie outfielder Norm Siebern and shortstop Billy Hunter today were back with the New York Yankees, who open a three-game series with the Cleveland Indians tonight.

• • •

Siebern, the prize newcomer in the Yankees' spring camp before injuring a knee, was recalled from Denver of the American Assn. where he was hitting .300. The 22-year-old left-handed hitter is a service returnee and does not count in the Yankee roster limit.

• • •

To make room for Hunter, on the inactive list since fracturing an ankle at Denver last season, the Yankees sold first baseman Eddie Robinson to Kansas City for an undisclosed sum. Robinson, 33, was batting .222 for New York with five home runs among his 12 hits. He came to the Yankees from the Philadelphia A's in an 11-player deal Dec. 16, 1953.

U.S. Net Girls Heavy Choices

Favor Wightman Cup Team to Score Tenth Straight Title

By THE ASSOCIATED PRESS

The best of America's women tennis players sally forth on two fronts today with the U.S. Wightman Cup team favored to continue its dominance over Britain's top stars and Althea Gibson the choice to wrap up her 10th successive title in the West of England championships.

Only a few super-optimistic British tennis fans expect their girls to break America's 26-year-old hold on the coveted international trophy. The United States has a 23-4 edge in the series.

Louise Brough, Wimbledon champion from Beverly Hills, Calif., takes on Britain's top-rated Angela Mortimer in the first of gles and one doubles. Three singles and one doubles. Three sinl gles matches and one doubles match Saturday wind up the competition.

Mis Gibson, 28-year-old poker-faced New Yorker, met Daphne Seeney of Australia in the finals of the West of England championships at Bristol.

Scotchlite in Highlight

DETROIT (AP) — Scotchlite won twice last night to capture the $25,450 Motor City pace at the Detroit Race Course. The winner's share of the richest stake ever offered for harness horses in Michigan was $10,179. The mutuel handle was $323,486.

Exhibition Game

Pirates Rap Bengals, 8-4

DETROIT (AP)—The Detroit Tigers return home tonight from a road trip so successful that many ardent Bengal fans almost wish the club could finish the season away from Briggs Stadium.

• • •

Home games have proved the undoing of the Tigers this year. They were tied with Washington for 6th place when they left May 28 on the 16-game jaunt.

After capturing all but five of the league road games, the Tigers return to Detroit in firm control of 5th place.

It might be argued by pessimists that the Tigers were already feeling the hometown jinx last night when they dropped an exhibition contest to the Pittsburgh Pirates, 8-4. But the Boston Red Sox had better not count on it tonight.

Last night the Pirates hammered 10 safeties off Detroit's Jim Brady in the 1st five innings before Duke Maas came in to inherit an 8-0 deficit.

Pirate starter Laurin Pepper allowed Detroit only two hits before turning over the pitching duties to reliever Art Swanson. Swanson didn't find the Tigers such pushovers. He gave up three runs in the 7th.

The Bengals scored their final tally in the 8th, when they got three walks.

The exhibition contest was sponsored by the Pittsburgh Sun-Telegraph for the benefit of the Western Pennsylvania Safety Council.

Morse Quells Elk Rally for 2-1 Jeweler Victory

Shaw Jewelers, behind the the strong arm of Clell (Mutt) Morse, stamped out a last-ditch rally to score a 2-1 victory over Elks No. 810 in a City Softball League game Thursday night at Beaudette Park.

A triple by Bill Almas in the 7th inning with only one man out scored Yarbro from 1st base, but Almas died on 3rd as Morse struck out McIntosh and rival pitcher Ed Miller to preserve the win.

Howard Willis smashed a double in the 1st inning to drive in both of Shaw's runs. Morse and Miller each hurled 4-hit ball.

Richard Cork pitched a 5-hitter as Sam Benson downed Stadium Inn, 5-3, in an American League game at Beaudette. Jim Batchelor homered for the winners.

Oxbow Pavilion chased six runners across the plate in the 7th inning, only to see Pontiac Select a Drink tally once in the bottom of the same frame for a 7-6 decision at North Side Park. A single by Don Quackenbush scored the winning run for PSAD.

Richard's Tavern downed Lunsford Market, 5-3, in an exhibition contest at North Side. Balle, the winning pitcher, slammed a solo home run in the 6th.

Draper, Byard Lead Qualifiers

By H. GUY MOATS

Husky Tom Draper, veteran amateur shotmaker, and his capable partner Perry Byard, yesterday once more showed the Pine Lake Invitational best-ball field they're the team to beat. Big Tom, just back from France where he made a try for the French Amateur title teamed with Byard for a 2-under par 70 to top the championship flight, and for the 2nd straight year to take medalist honors. Last year they compiled a sizzling 68, went on in match play to grab it all.

Medalists card:

Par out	535	344	444	36
Medalist	535	345	354	36
Par in	543	534	534	36—72
Medalist	443	624	434	34—70

Only two other teams broke par in Thursday's qualifying play. They were Blaine Eynon of Forest Lake and Dave McHarg of Dearborn CC, and Bob Babbish of Detroit Golf Club and Bill O'Brien of Oakland Hills CC. Both carded 71s. Joe Watson and John Griffin of Lansing CC wree the only team at even par 72.

At one over 73 were Richard Robertson and Glenn Harding of Pontiac CC, and Howie Nielson of Pine Lake and Joe Grace Jr., of Detroit Golf Club.

Two finished at 74. One team comprised young Tom Cross of this year's Pontiac High SVC winners and Ed Novak, both of Pine Lake. Tom is one of the event's youngest players. The other pair was Floyd Burdette and Ed Flowers of Oakland Hills CC.

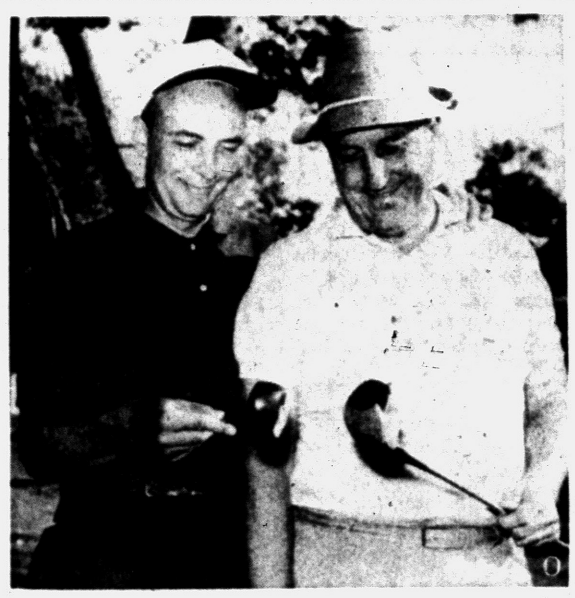

Other qualifiers for the top flight included: at 75 — B. W. Bogan of Pine Lake and John Prestini of Red Run, Cy Firth unattached, and Dr. John Murphy of CC of Detroit, Randy Ahern of Oakland Hills and unattached John Driver, Bill Nettle of Pine Lake and Bill Pettibone of Red Run, and Mason Brown and Jack Walsh of Plum Hollow; at 76 — Bob Zinn and Ray West of Red Run, Jim Funston of Red Run and Bill Krall, Plum Hollow and Jack Emery of Lochmoor and Dick Wibel of Bloomfield Hills.

First match play encounters began at 8 a.m. today. The round will chop the fields in half at the end of today's play. Rounds of 18 holes make quick work of paring the big field of more than 100 teams.

Championship flight matches were scheduled as follows, beginning at 11 a.m. Draper, Byard vs Bogan, Prestini; Neilson, Grace vs Brown, Walsh; Watson, Griffin vs Ahern, Driver; Burdette, Flowers vs Emery, Wibel; Eynon, McHarg vs Firth and Murphy; Robertson, Harding vs Zinn, West; Babbish, O'Brien vs Nettle, Pettibone; Cross, Novak vs Funston, Krall.

Neilson originally teamed with Ed Ervasti of Detroit (who qualified a week ago for the U. S. Open now under way) Neilson, however, did all right with Joe Grace, subbing for Ervasti who was in the big Open field at Rochester, N. Y.

Among the capable youngsters making yesterday's preliminary round were the Pine Lake lookalikes, twins Jim and Jerry Krause. They finished with 79, good for the 1st flight.

TOP QUALIFIERS — Here are the top shotmakers for the Pine Lake Invitational best-ball tourney in yesterday's qualifying rounds. They are defending titlists Perry Byard (left) and husky Tom Draper, both of Red Run CC. The pair fired a 2-under-par 70 to lead the field of some 100 or more teams. They were also medalists in last year's tourney. Draper has been a member of two championship teams, winning his first title with Bob Whiting in 1953. Championship flight consists of 16 pairs, which began match play at 11 a. m. today. Tourney runs through Sunday.

Rosburg Fires 68 in National Open

(Continued from page 31)

iron shot splash into a creek at the 10th hole. Before he actually played it, the original ball was found on the far side of the water and Doug played out the hole with it.

The committee ruling was that the ball was "in play" as soon as Ford dropped it and the penalty was two strokes for removing it from play. It could have been a lot stiffer and Ford, after sweating out the meeting, commented he would have been happy to take a four-stroke penalty.

The two he got cost him second place, since he took 69 actual strokes. His official 71 put him in a tie with Furgol, Boros, Middlecoff, Errie Ball, Jay Hebert and young Wesley Ellis. A lot of celebrated names were further down the list.

Four-time champion Ben Hogan, for instance, had a 72 after a round on which he said he made but two errors in judgment. Sam Snead and top money winner Gene Littler had unsatisfactory 75's and another ex-champion. Lew Worsham, shot an 83.

As far as the proceedings on the golf course went, it was a matter of Rosburg sinking a lot of putts and then the rest of the field charging at him and falling back.

The pudgy Californian used only 27 putts on 18 holes and made a lot of fine iron shots to get up so close. Thomson, who putted 34 times after making some great recoveries from the rough, came nearest to him. Thomson admitted he was just trying for pars.

At various times, others threatened. Middlecoff was one and he's still in an excellent position. Another was Al Brosch, a 48-year-old veteran who has been an early leader more than once in this tournament. He went out in 33—the best nine of the day — then double-bogeyed two short holes for a 72.

Unpredictable Favorite

Needles Set for Belmont

NEW YORK (AP)— Unpredictable Needles is expected to be the favorite for the 88th Belmont Stakes tomorrow, and Trainer Hugh Fontaine isn't exactly happy at the prospect as he prepares to saddle his first starter in the $100,000-added race.

Needles, who gives his trainer fits during morning workout hours but usually makes up for it in the afternoons when he races, "is just the same old boy," Fontaine declared today as entries for the mile and one half classic were dropped in the box at a fee of $1,000 apiece.

In addition to Needles, owned by Bonnie Heath and Jack Dueley, the Belmont Field is expected to include Calumet Farm's Fabius, winner over Needles in the Preakness, the C. V. Whitney entry of Career Boy and Jazz Age, the Christiana Stable's Ricci Tavi, Laudy Lawrence's Beau Diable, Mrs. C. B. Fischbach's Frosty Mr., and Fortune P. Ryan's Charlevois.

Fontaine had reasons to shy away from the role of favoritism. The records show that in the last 15 Belmonts going back to Whirlaway in 1941, 11 of the favorites have been odds-on. That means a horse, had he won, would pay less than even money.

However, only five of the 15 have won the race, which is the toughest and longest of the triple crown series. They were Whirlaway, Count Fleet (1943), Citation, (1948), Native Dancer, (1953) and Nashua (1955).

Win 10-9 Decision

Bosox Outslug Tribe

By THE ASSOCIATED PRESS

Cleveland's Indians are like the horse player who stayed up all night figuring the angles for a sure thing, then overslept and couldn't get his bet down.

When the New York Yankees built their American League lead to 6½ games with a hot 13-4 streak late last month, Manager Al Lopez and the Tribe shrugged it off. "It can't last," said the Injuns. "They can't keep hitting like that. Their pitching isn't really that good."

The Tribe was right. The Yankees have won only five of 12 in June—the worst record of any club in the AL, including last place Washington. Cleveland, however, has won but eight of 15 in that stretch and has managed to trim New York's lead by a mere 1½ games.

* * *

Pitching — Bob Lemon, Early Wynn, Herb Score and Mike Garcia — was to be Cleveland's trump card. But in the 15 games played in June, Lemon, Wynn and Garcia have a combined 3-5 mark. Score, sidelined by a tummyache, worked only one game, and won it.

Lemon's been the big loser, dropping three of four June decisions. He was whacked again yesterday for 11 hits and eight runs in four innings as the Boston Red Sox out-slugged the Tribe 10-9.

* * *

The Yankees, meanwhile, were taking the rubber match in a series with the second place White Sox 5-1 with Bob Grim tossing a four-hitter and Mickey Mantle hitting his 22nd home run — his first in nine days.

* * *

No other games were scheduled in the AL as the Yanks, who open a road trip at Cleveland tonight, put their lead at five games with the Indians only five percentage points back of the White Sox.

Only one National League game was scheduled and the Milwaukee Braves closed their 15-game home stand with a 5-10 mark by beating the New York Giants 5-2.

Oldtimer Lineups Settled

Lineups for Sunday's ball game between Pontiac and Detroit Oldtimers were settled today. On the Detroit roster are a number of former major leaguers, including Diz Trout (pitcher), Ace Lee and Mike Tresch (hurler) and catcher, Mike Mjland (catcher), Don Waddell (p-outfield), George Oliver (catcher), George Lerchen (cf), Jack Moran, 1st base, George Wade 2nd, Shelly Harris, shortstop, Bill Moran 3b, Jack Mayhew lf and Don Walters rf.

For Bud Leslie's club, in the games at 2 p.m. at Washington Junior High field, will be the following: Leslie, Walt Honchell, George Bone, "Mut" Morse, Leo Swindell, Al Servoss, R. Rodriquiz, D. Wolf, Les Greenless, Micky George, Clyde George.

June, July schedule:
June 17—Detroit in Pontiac (2 p.m.); June 23—London at Toledo; July 8—London at Detroit; St. Thomas at Pontiac (2 p.m. Wisner); July 15—Detroit at Toledo; July 21—Pontiac at Detroit; July 22—St. Thomas at Toledo; July 28—Detroit at London.

Runaway Victories in Church Loop Play

Two of the Free Methodist Church League softball teams Thursday engaged in scoring field days at the expense of their opponents, compiling winning totals of 30 tallies in each game.

Fighting Farmers dumped Bulldogs 30-11 to take over 1st place in standings. Sluggers scored another 30 total against Crusaders' 15 to hold the runnerup spot. Both 2nd round games were played at GMC Athletic Field.

Line scores:

Fightin' Farmers	1003 0170 x		30
Bulldogs	000 1 70 0		11

Myers and Lovelace; Riemenschneider and Burton, Bigger.

Sluggers	156 044 10		30
Crusaders	203 063 1		15

Lovelace and Martell; Pratt and Stevens, Lowry, Roth.

Standings:

	W	L
Fightin' Farmers	2	0
Crusaders	1	1
Sluggers	1	1
Bulldogs	0	2

Gidley, VFW Win Waterford Games

Gidley Electric and the VFW came out on the long end of the score last night in Waterford League softball games at Drayton Plains.

Catcher Jim Lesar's 2-run single in the 7th inning handed Gidley a 4-3 triumph over White Brothers. St. Amour's 2-run double in the 6th frame brought White a 3-1 lead until Gidley's winning rally.

Mike Haynes twirled a 1-hitter to pace the VFW to a 7-1 decision over Thrifty Drug in the nightcap. Fargar made the lone safety, a single in the 3rd. The winners wrapped out 10 hits, two by Stillwell.

Gidley	001 000 3	4	0
White	001 002 0	5	2

Cuthrell and Lesar, Brown and Cummings.

VFW	030 130 0	7	10
Thrifty	000 001 0	1	4

Haynes and Young, Farnsworth and Karrigan.

Dog Scares Helicopter

MEXICO CITY (AP) — A helicopter climbed back into the air to avoid hitting a barking dog which rushed out to attack it.

The crowd burst into laughter and cheered. The dog took one more look at the machine overhead, and proudly trotted from the field.

Hamia Meets Berrios in Televised Fight

NEW YORK (AP) — The "little men" take over Madison Square Garden tonight with a featherweight battle between Cherif Hamia, the handsome Algerian import, and Miguel Berrios, the mighty mite from Puerto Rico.

As Hamia is ranked No. 3 among Sandy Saddler's contenders in the 126-pound division and Berrios is a recent prelim grad making his first Garden start as a main eventer, the Algerian probably will enter the ring a slight favorite.

Browns Sign 4 Players

CLEVELAND (AP) — Coach Paul Brown of the Cleveland Browns, professional football champions, said today that signed contracts have been received from four players, including Walter Michaels, defensive signal caller, and end Darrell Brewster, the team's leading pass receiver.

Of West Virginia's 66 football roster members, 38 are native to the state and only four of them live beyond 75 miles of the main campus, according to college surveys.

Bass Season Last to Open

DETROIT (INS) — Michigan's one million fishermen may take anything with fins after 12:01 a.m. (EST) Saturday morning.

Small and large mouth bass are the last of many seasons which have been opening since the first of the year.

There are no new rules this year for the bass season, which runs through Dec. 31 on all waters except trout lakes and trout streams. In these waters the season ends Sept. 9, the same day as the trout season.

The creel limit is five per day and they must be at least 10 10 inches long. Anglers may take 10 walleyes, black bass and northern pike, but not more than five singly, or in the aggregate of the latter two species. They may be taken from the Great Lakes, Lake St. Clair, and St. Mary's River and the Detroit River.

* * *

The conservation department says the best way to identify bass is to close the fish's mouth then draw a vertical line through the pupil of the eye across the head. If the line nicks the corner of the mouth it is a smallmouth, but if it passes through the mouth it is a largemouth.

* * *

There are many other ways to tell one bass from another, but fishermen claim this is the easiest method.

* * *

Field reporters say one of the best bass fishing spots in the state is Fletcher Flood Waters.

Larry Tennis, who operates Jack's Landing on the other side of Hunt's Landing, said the spot has been known for years as "the place for pike," but now the bass have taken over. "I attribute this," says Tennis, "to pike spearing in the winter."

A conservation commission spokesman reports:

* * *

"Few people realize it, but more anglers go after bass than any other species of fish. The best time to catch bass is early in the morning or late in the evening. Best baits are artificial lures like small mice, etc. The best live baits are crawfish, small frogs, toads, live mice and worms, in that order.

BOILING TEMPERS — Tempers were as hot as the sun as the White Sox engage in a verbal duel with the umpires at Yankee Stadium yesterday. 87 Schools Entered

35th Annual NCAA Track Meet Begins

BERKELEY, Calif. (AP)—A young army of about 300 athletes representing 87 schools swings into action today in the 35th annual National Collegiate Athletic Assn. Track and Field championships.

Only one final event, the 10,000-meter run, was on the initial program of the two-day meet. The remainder of the schedule, starting at 2 p.m., (4 p.m., EST) was devoted to qualifying trials for the finals tomorrow.

* * *

Kansas and UCLA were favored by some for the team championship. But no one discounted the possibility of a repeat triumph by USC which has won the title 19 times.

The first six finishers in each event automatically qualify to compete in the final Olympic tryouts in Los Angeles June 29-30 and a chance to make the U.S. Olympic team.

The 100 and 200-meter dashes and the 1,500-meter run shaped up as standout attractions tomorrow in the host University of California's Edwards Stadium.

* * *

Hot rivalry and a bit of revenge figure in the two sprints, featuring Duke's Dave Sime and Bobby Morrow of Abilene Christian College. Sime handed Bobby his only defeat this year in the Drake Relays this spring.

The 1,500-meter run—about 119 yards short of 1 mile—features Oregon's Jim Bailey and Ron Delany of Villanova, who have joined the sub 4-minute mile club, and Bobby Seaman of UCLA.

* * *

Bailey is from Australia and Delany from Dublin, Ireland, so can not figure in the American Olympic picture. But Bailey is the defending champion here and Delany two weeks ago defeated Denmark's great Gunnar Nielsen.

Certainly imperiled is the NCAA meet record of 3:50.7, set by Bob McMillen of Occidental College here in 1952.

Sixteen were entered in the 10,000-meter run. The favorite might be Max Truex of USC, with 9:01.5 for 2 miles, if this is any indication. The 10,000 meters amounts to about 6.2 miles.

Julius McCoy Signs to Play With Hawks 5

ST. LOUIS (AP) — Julius McCoy, former Michigan State basketball star, has signed a contract with the St. Louis Hawks professional basketball team.

McCoy, runnerup to Robin Freeman of Ohio State in Big Ten scoring last year, ranked 4th among the nation's major college scorers. He had a total of 600 points in 22 games for the Spartans.

The 6-foot-2 Spartan star was alloted to the Hawks in the National Basketball Assn. draft.

12 Fillies at Delaware

STANTON, Del. (AP)— Twelve 3-year-old fillies are expected to go to the post tomorrow in Delaware Park's first big distaff event this season, the $50,000 Oaks.

The Oaks, worth $53,675 if all 12 start, is the first of three Delaware Park races for fillies and mares. It will be followed the next two Saturdays by the $50,000-added New Castle and the $150,000 Delaware Handicap.

KEYS IN TRADE — Trader Frank Lane of the St. Louis Cards was in action again yesterday when he swapped Eddie (Red) Schoendienst, a Cardinal veteran and three others for four Giants players including Alvin Dark, (right) whom Lane said was the key in the trade.

Cards Trade 4-for-4 in Latest Lane Deal

ST. LOUIS (AP)—Frank Lane, a perpetual motion machine on baseball's trading market, has the St. Louis Cardinal fans reeling with his latest deal.

The Redbird general manager, who has almost completely reshuffled the team's roster since taking over last October, swapped Red Schoendienst to the New York Giants yesterday in a four-for-four package that brought Alvin Dark to the Cards.

Newspaper switchboards were swamped with calls after the deal was announced, swamped with such questions as:

"Who's next?"

"What's he trying to do?"

During the spring, Lane talked of the future and the youngsters on the club. Now he's after the National League flag in 1956.

"I am concerned about 1956 and not the future," he said.

"We couldn't win with our infield.

Schoendienst, 33-year-old veteran of 12 seasons with the Redbirds has ben hobbled with a sore arm but the Giants aren't worried about that.

"Red has had arm trouble for 10 years," said Giant Manager Bill Rigney. "He's OK."

The popular second baseman went to the Giants along with rookie outfielder Jackie Brandt, catcher Bill Sarni and pitcher Dick Littlefield.

In exchange the Cards got first baseman Whitey Lockman, catcher Ray Katt and pitcher Don Liddle. Schoendienst and Dark were the captains of their respective clubs.

Lane said Dark was the big factor in the deal.

The Cards plan to move Don Blasingame from short to second and put Dark at shortstop. Lockman at first. Wally Moon, who has been at first, will move into center field—his natural position. Rookie Hal Smith takes over as top catcher.

Galophone Wins $25,000

WESTBURY, N.Y. (AP) — Galophone wasn't quite good enough to beat Scott Frost in the Hambletonian last August but he appears ready now to offer the 1955 4-year old champ a real argument.

* * *

The 4-year-old son of Bill Gallon, owned by William T. Maybury of Dexter, Maine, was slow to round into form after getting the worst of a fight with another horse en route to Florida last fall.

* * *

He was beaten five times before coming through with his first victory at Rosecroft June 1. A week ago he stepped a winning mile in 2:03 and came back last night to take the $25,000 mile and one-quarter of the American Trotting Championship at Roosevelt Raceway in 2:33 1-5.

Tigers Sign Spartan for Minor Loop Job

DETROIT (AP) — Detroit Tigers announced today they had signed Frank Franchi, Michigan State University sophomore catcher, to a minor league contract.

Franchi, a 20-year-old who stands 5-feet-8 and weighs 175, will be assigned to Durham in the Class B, Carolina League. He is a righthander and had a .375 Big Ten and .344 overall batting average during the 1956 collegiate season.

A native of Detroit and resident of suburban Dearborn, Franchi had a .365 batting record in Detroit semi-pro play last season. He was signed by scout Don Lund.

Union 9 Takes 'Landslide' Win

Makes Good Use of 10 Walks, Nine Safeties to Down Fowlers

The CIO Local 594 collected nine hits off the slants of four pitchers to easily defeat Fowler's Foods, 14-3, in a Class A City Baseball League game Thursday night at Wisner Field.

Hal Trott and Ken Orr led the assault with two safeties apiece and the parade of Fowler moundsmen issued a total of 10 walks. The losers were guilty of six errors to further promote the landslide decision.

Five Union runners crossed the plate in the 1st inning and eight more scored in the 4th frame as 14 men batted. Dick Covrea hurled the distance for the CIO and limited the opposition to four hits.

A City League twin bill is scheduled Sunday afternoon at Columbia-Joslyn's south diamond. Unbeaten GMC tackles Elks No. 723 at 1:30 and Fowler's club faces Griff's Grill in the 3:30 nightcap.

Guided Missiles—the Ultimate Weapon?

Nazi Germany Launched Rocket Research

(This is the last of three articles on the newest weapons of the 20th Century which the U.S. is developing as deterrents to war.)

BY DARRELL GARWOOD
INS Staff Writer

Both the U. S. and Russia owe much of their present progress toward an efficient intercontinental ballistics missile to their defeated, mutual enemy Nazi Germany.

For despite its failure to affect the course of World War II, the German 250-mile V-2 rocket carried a one-ton payload through space at a speed of more thn 3,000 miles an hour at an altitude of 60 miles.

It established new orders of magnitude for size, speed, distance and altitude of missiles. It laid the foundations for missile control and guidance.

Neither Russia nor the U. S. had a counterpart of the 14-ton V-2 when their armies moved across Germany in the spring of 1945. In May, the Red Army captured the famous German rocket center at Peenemunde. Simultaneously the American army captured the V-2 factory at Neidersachswerfen.

REDS GET RUBBLE

The factory was in territory scheduled to be turned over to the Russians, but before this was done 300 freight carloads of VA-2 parts were shipped to the West. From these parts, U. S. scientists and technicians put together and fired 150 specimens of the V-2.

The Russians were not so fortunate — at least by their accounts which said Peenemunde was "75 per cent wreckage" due to Allied bombing.

Most of the German rockets experts had fled from the Eastern areas of Germany in advance of the Russian army. They were brought to the U. S. in a program known as "Operation Paper Clip." Most of them have become U. S. citizens and are employed on missile projects.

These experts include Prof. Hermann Oberth (whose book, "The Rocket into Interplanetary Space," opened the modern missile era in 1923), Dr. Wernher Von Braun who directed construction of the V-2 and Maj. Gen. Walter Dornberger who was Von Braun's commanding officer.

BUT GET TECHNICIANS

The Russians, however, did get several hundred younger rocket technicians who were transported to the Soviet Union where there already were a number of theoretical rocket experts.

America's use of rockets in World War II was mainly of those in small calibers, such as bazookas for destroying tanks. The tendency for larger missiles was to built robot, radio-controlled pilotless planes.

This tendency continued for some time after the war. The U. S. now has a 5,000 mile intercontinental missile, the "Snark," but it is simply a 60-ton pilotless jet plane, not the ultimate rocket weapon.

In the post-war years, each of the three military services worked at developing its own arsenal of missiles best suited to its peculiar needs.

SEEN INACCURATE

Then in 1955, a top level U. S. scientific group decided in secret that it would be possible to launch an H-bomb warhead more than 5,000 miles in a space traveling rocket. The decision caused a tremendous disturbance in the missile program.

For the decision tended to nullify the argument that such long-range rockets are bound to be inaccurate. The H-bomb's blast effects would make up for several miles of error and its radioactivity could spread over thousands of square miles.

Since, in addition, the space rockets travel at such speeds that there is no present defense, the logical conclusion was that if only one side had such missiles in a war the other side would be helpless.

If this were clearly the case, the indicated course would be to devote all possible resources to achieving the intercontinental missile, on the assumption Russia would be doing the same.

CRASH PROGRAM

This was the view taken by Assistant Air Force Secretary Trevor Gardiner. His superiors only partly agreed; he was unable to get as much money as he thought necessay for the missile program; and he therefore resigned.

Gardner advocated a "crash program, on a wartime emergency basis" to build intercontinental missiles. This would have meant taking the lid completely off of spending and cutting back other efforts to put more people and factories on the missile job.

Defense Secretary Charles E. Wilson would agree only to a "highly accelerated program" for the intercontinental missile. For example, the standard work week in this field was increased from forty to forty-five hours, and contractors were authorized to pay overtime whenever necessary.

Gardner was even unable to get a comparatively modest increase from $610,000,000 to $800,000,000 in his budget for research and development.

QUARLES STOPS IT

The request did not reach Wilson, President Eisenhower or Congress because it was denied by Gardner's immediate superior, Air Force Secretary Donald A. Quarles.

How greatly the two men differed on the immediate urgency of the H-bomb missile has since been shown in lengthy testimony by Quarles, including these statements:

"I would think that in a global war five years from now the long-range missile would not be a decisive factor . . . I would not think they would play as important a part five years from now as would our manned bombers.

* * *

"The point I am making is that we have gotten this thing completely out of perspective . . . nobody is going to start a war because they have this kind of weapon unless they can see a way to avoid destruction to themselves; and the addition of this weapon to their arsenal, whether or not we have it, will not avoid destruction to themselves."

Dem Party Loaded, Says GOP Solons

WASHINGTON (INS) — Senate GOP policy strategists state there are "at least a half dozen multi-millionaire Democratic senators, more it seems than can be found on the Republican side of the aisle."

A 32-page staff report of the Republican policy committee also declared that the GOP, even in its "most active days in control of the government, never had such extensive big-business connections" as the Democrats did.

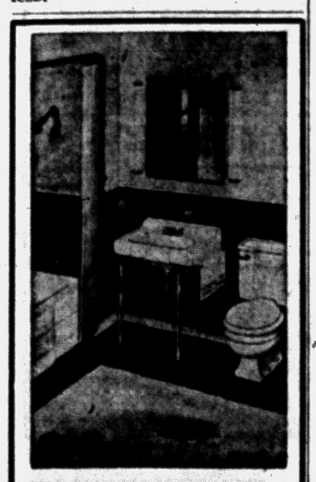

The "multi-millionaire Democratic senators" were identified in the report as Harry F. Byrd, Va.; Theodore F. Green, R.I.; Robert S. Kerr, Okla.; Herbert Lehman, N.Y.; James E. Murray, Mont., and Stuart Symington, Mo.

Among the "big backers" of the Democrats listed by the GOP were:

Former Defense Secretary Robert A. Lovett, New York Governor Averell Harriman and the late Defense Secretary James Forrestal.

Machine to Restore 'Dead Heart' Action

QUEBEC (CP) — A machine designed to restore the beat of a heart after it has stopped during surgery was demonstrated here yesterday.

The mechanical massager was shown at the 89th annual meeting of the Canadian Medical Assn. by Dr. A. Vineberg and Dr. J. Litvack, both of Montreal's Royal Victoria Hospital.

* * *

The machine consists of two metal "clam-shells" lined with nylon and connected to a pump. One shell is clamped on the other and a regular pulsating movement is set up.

* * *

The inventors say the machine is more efficient than massaging by hand because it can maintain a more regular rate.

To create its lake, Shasta dam holds back three rivers (Sacramento, McCloud and Pitt).

Grains Mixed, Fairly Active

CHICAGO (AP) — Grains turned mixed after opening slightly lower on the Board of Trade today. Dealings again were fairly active.

At the outset there was some carryover of the selling which became pronounced late in the previous session. But as trading progressed new crop corn and soybeans got back above the prevous close. Wheat reduced early losses.

Buying in corn, oats and soybeans reflected some disappointment at the failure of predicted moisture to materialize in any volume. While there were some scattered showers in small sections of the Midwest overnight, they were not widespread enough to be of much help.

Wheat near the end of the first hour was ⅛-¾ lower, July $2.08¾; corn ⅝ lower to ⅝ higher, July $1.52⅛; oats ¼ lower to ⅛ higher, July 66¾; rye ¼-½ lower, July $1.26; soybeans 1½ lower to 1¼ higher, July $3.13½; lard 8 to 13 cents a hundred pounds lower, July $11.70.

Dondero Asks Probe on Red Art in U.S.

WASHINGTON (AP) — A Michigan Congressman claims Communists have "increasingly and ruthlessly dominated . . . the great field of American art."

And in making this claim, Rep. Dondero (R-Mich) wants an investigation by the House Committee on Un-American Activities.

Dondero, in a speech partly delivered to the house and partly inserted into the Congressional Record yesterday, said Soviet news releases show "culture" is a major communist propaganda weapon now in use in non-communist countries.

Market Holds Fairly Steady

NEW YORK (AP)—Prices held fairly steady today in the stock market in the early afternoon.

Although most changes were small, some plus signs were as large as 2 points. Losses usually were no greater than a point.

Trading was quite slow, at a pace eve nunder yesterday's low 1,670,000 shares.

Few stocks were featured in trading, and no single major group distinguished itself.

Cement stocks were higher without activity. Chemicals were up for a while but turned mixed.

Among higher issues were U.S. Rubber, Caterpillar Tractor, Consolidated Natural Gas, American Cyanamid, Lone Star Cement, Penn Dixie Cement, General Portland Cement and Southern Railway.

Lower were Bethlehem Steel, Commonwealth Edison, Allied Chemical, Chesapeake & Ohio and Royal Dutch Petroleum.

Women Passengers Hurt as Cars Collide at Corner

Two women suffered slight injuries last night in a two-car collision at N. Johnson and N. Cass avenues.

A passenger with her husband Gilbert H. Williams, 46, of 301 N. Saginaw St., Mrs. Jessie N. Williams, 42, was released from Pontiac General Hospital after treatment for head bruises.

Ruth Guzman, 62, of 212 Harrison St., a passenger in another car, also was released after treatment for shoulder injuries, authorities said.

7,000 Workers Idle at Plymouth Plants

DETROIT (AP) — Chrysler Corp. again closed down Plymouth assembly lines today following a walkout and resulting layoffs that idled more than 7,000 workers.

Sixteen thousand workers had been idled yesterday at four Chrysler plants in Detroit. All of them had been instructed by the United Auto Workers union to return to work oday.

The latest walkout, like others in the past week, occurred among 1,100 trim workers in the Mack Automobive Body Division. The walkout idled 3,700 workers at the plant.

The company said the work stoppage forced the closing of Plymouth assembly lines, idling 2,500 more workers.

The company attributed previous walkouts to a dispute over the firing of two union stewards who led unauthorized strikes over production standards. Earlier this week one strike was attributed by the company to a 94-degree heat wave.

No Injuries Sustained in Three-Car Collision

There were no injuries and only minor car damage in a three-car collision on Orion Road, Oakland Township Thursday.

Deputies of the Oakland County Sheriff's Department reported a car being driven by Anna M. Furse, 41, of 231 S. Anderson St., struck another which was coming out of a driveway and then sideswiped an unoccupied parked vehicle.

Richard R. Weir, 20, of 36 Fiddis Ave., was the operator of the car attempting to enter the highway.

Mrs. Furse told deputies she swerved to the right to avoid the backing Weir car and then struck the parked vehicle.

ORDINANCE NO. 84-C

An Ordinance to Amend Ordinance No. 84 entitled "An Ordinance Regulating the Adoption and Approval of Plats or Subdivisions in the Village of Orchard Lake" by adding to said Ordinance Section 4-B.

The Village of Orchard Lake Ordains:

Section 1:

That Section 4-B be added to Ordinance No. 84 entitled "An Ordinance Regulating the Adoption and Approval of Plats or Subdivisions in the Village of Orchard Lake," said added and amended Section 4-B to read as follows:

Section 4-B: The Village Commission may accept the dedication of a presently existing private road, street or lane on the following conditions:

1). An easement right of way of not less than 50 feet in width shall be granted to the Village.

2). The road, street or lane shall be graded or improved in accordance with the specifications adopted by the Village Engineer.

3). The road, street or lane shall be blacktopped to a width of not less than 18 feet and a thickness, after rolling, of not less than 2 inches.

In the event that it is not feasible to complete the blacktopping before dedication and acceptance by the Village of the street, road or lane, a cash bond may be deposited guaranteeing the completion of such blacktopping. Such blacktopping shall be completed within the time limit to be determined by the Village Council and upon completion of such blacktopping and presentation of satisfactory proof that the work has been paid for the cash bond shall be returned to the depositor. In the event the blacktopping is not completed within the time specified or is not undertaken by the owner of the property the Village shall cause such work to be completed and pay for the expense of such installation out of the cash bond deposited.

Section 2:

All ordinances or parts of ordinances in conflict herewith are hereby repealed.

Section 3:

This Ordinance shall take effect 20 days from and after its final passage by the Village Commission of the Village of Orchard Lake.

Made and passed by the Village Commission of the Village of Orchard Lake this 11th day of June, A.D. 1956.

'This Is Show Business' Returns to Video on Tuesday

The principal sum left by Alfred B. Nobel as the basis of funds for Nobel prize winners was nine million dollars.

It happened in the Olympics...

Felix, the Marathoner, ran 700 miles to the starting line! During the race, he:

- *gained weight*
- *was treed by a dog*
- *sat down and cried*

No Time for Bridge

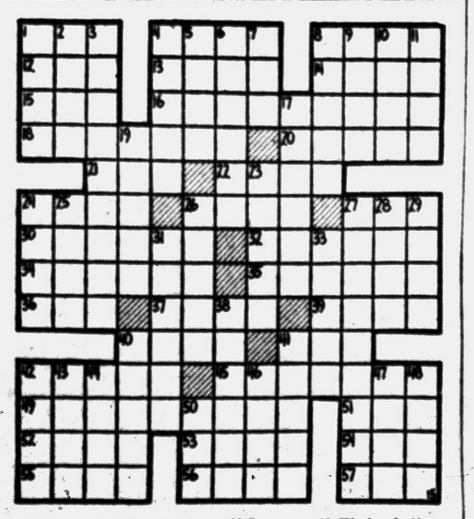

WASHINGTON (INS) — Army dentists are getting down in the mouth—figuratively, not literally. Here's why: In the fiscal year ending June 30, 1955, service dentists found it necessary to install 3,372,372 permanent fillings, 99,117 partial dentures, and 14,079 fixed bridges; and to extract 1,101,024 teeth, the Army Surgeon General's office reports with a trace of sadness.

Program Takes Whiteman Spot

Mike Stokey, Allen and Garroway Are Eyed as Possible Emcees

By JACK O'BRIAN

NEW YORK (INS)—"The Paul Whiteman Show" due on NBC Tuesday night has been canceled and "This Is Show Business" hustled hurriedly under an NBC contractural pen.

Odd item—"Show Biz" is a CBS show, so the rival network will be earning NBC cash in competition with its own Phil Silvers' profits. No stars set—the deal was really a quickie.

Emcee possibilities include Mike Stokey, Steve Allen and Dave Garroway, the latter two hardly likely.

"Show Biz" creator Irving Mansfield, who invented "Talent Scouts" for Arthur Godfrey, will produce for NBC as he did during its CBS years.

ARB surveyed the whole past season and named the long-pull top 10 as: $64,000 Question, Ed Sullivan, Lucy, Groucho, Disneyland, I've Got a Secret, Gobel, Como, Hit Parade, December Bride.

Eight of the top 10 radio-daytimers are soap operas.

HOLLYWOOD STEAL

RKO Pictures stole James MacArthur, Helen Hayes' son, away from TV where he first starred—a a multi-picture deal.

His first RKO pix also is his TV vehicle, "Strike a Blow," by Bob Dozier, producer Bill's bright boy.

Giselle MacKenzie gets a "Chevy Show" Tuesday, July 5.

Don't envy Wally Cox for his fall NBC-TV series—it's up against Disneyland and Godfrey.

Jack Benny's reviews and rating on his first BBC-TV show in Blighty were ruddy good, pip-pip and all that (they've invited the old boy back).

TEARFUL REPEATS

Ho hum: "This Is Your Life" starts repeating its backlog of salty old tears for 13 weeks June 27.

"Pantomime Quiz" summer-subs for "Person-to-Person" for 10 weeks, starting July 6.

The "Crime and Punishment" production that everyone at NBC dearly hopes will star Marilyn Monroe "ill be a modern rewrite —with Raskolnikov updated to become a UCLA student."

Perry Como finished his NBC season five full Trendex points ahead of "Honeymooners." The Como show next season will originate in NBC's Ziegfeld Theater, meaning it'll be in color.

Mark Hellinger's O. Henry-like columns have been sold (again) for TV films; when-and-if, Bob Considine may host the series.

$300,000 A SHOW

NBC's "Producers' Showcase" will spend an average $300,000 per show on talent and production alone this fall (time costs hoist the tab another $100,000 or so).

Negotiations are off-and-on for NBC to bug MGM's backlog of fine old color features to help push color-set sales.

Pilot Survives as Jet Crashes Into Auto, Wall

THANET, England (AP) — Pilot Thomas B. Adams, 23, of Millbrook, N. Y., rammed his jet plane into an occupied automobile and knocked 50 feet out of a garden wall yesterday — but nobody was hurt.

"It was a miraculous escape for everyone," said a U. S. Air Force spokesman. He said it happened this way:

Too late, Adams saw a parked car directly in his path as he was taking off in his F84F fighter bomber. In a split second he pulled back on the stick, enough to lessen the impact on the car. But the jet bounced into the wall around the garden of Lady Carson, widow of a prominent North Ireland lawyer, and came to a screeching halt 50 yards from a road full of traffic.

Brian Hollyhead, a civilian, was pulled from his crumpled car uninjured.

Adams crept from the wreckage of his plane and gasped, "My gosh."

Lady Carson, who has refused to pay her taxes because of the noise made by the jets, grimly observed the bricks scattered over her garden and commented, "I have nothing to say, but I think my lawyer shall."

Same License Number

KREMLIN, Okla. (AP)—Postmaster J. Carlton Rathmel was more than mildly surprised when he looked at the number on his 1956 automobile license tag. It was the same number as the 1955 tag. Rathmel said he had made no request for any special number and that it was strictly a coincidence.

Canada's Land Valuable

OTTAWA — A survey indicates that real-estate valuations increased by 4.21 per cent in Canada during 1955, with nine of the principal cities showing higher valuations. Edmonton, Alberta, had the largest increase—16.85 per cent—and Toronto, Ontario, reported the smallest—three tenths of one per cent.

Marriage Ends for Jane Froman

LAS VEGAS, NEV., (AP) — The storybook marriage of singing star Jane Froman ended in court yesterday when she divorced the airline pilot who saved her life in a crash in Portugal 12 years ago.

She accused John Curtis Burn, her second husband, of desertion.

The crash which brought them together and led to their romance attracted nationwide interest and a movie was made about her comeback from serious injuries.

District Judge Frank McNamee granted the decree to the singer, who finished a month-long hotel engagement here last week.

The marrigae, in Coral Gables, Fla., March 12, 1948, was Burn's first. Miss Froman had been divorced from Donald Ross.

5-MINUTE HEARING

Miss Froman's attorney, Miss Emilie Wanderer, said the hearing, in the judge's cahmbers, lasted only about five minutes.

Under questioning, Miss Wanderer said, Miss Froman testified "simply that he left her a year ago and they hadn't gone back together."

"The grounds were very simple," the attorney added. "Desertion for a year is one of the grounds for divorce in Nevada."

Miss Forman didn't even detail where the separation took place, Miss Wanderer added.

The singer announced in New York last February: "John and I have agree to separate for the present."

MET IN CRASH

Both Miss Froman and Burn were severely injured in 1943 when a Pan American plane crashed in the Tagus River near Lisbon. It was carrying USO entertainers on a wartime tour of American troops. Twenty-four of 39 persons aboard died.

Burn, aboard the ill-starred plane as an observer, suffered a broken back in the crash. He held Miss Froman above the icy water for nearly an hour, however, before they were rescued.

At their marriage, Miss Froman walked to the altar on crutches. For five years she had fought her crippling injuries, undergoing 25 operations and spending three out of five years in hospitals.

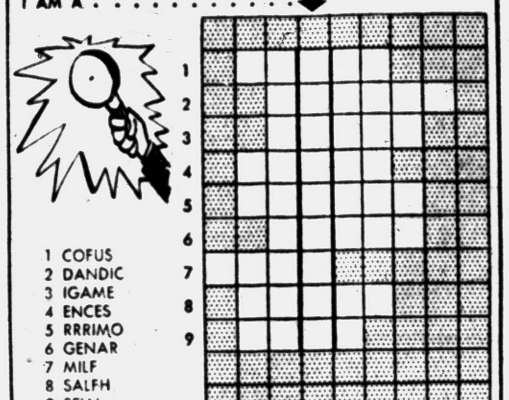

Miss Forman's plucky comeback in show business won the nation's hearts. A movie, "With a Song in My Heart," was made about her life with Susan Hayward as star.

Judge McNamee said property settlement was presented whereby each spouse releases any claim to property of the other. He said Miss Froman waived alimony.

Doctors Praise Surgery Test

New Device Permits More Accurate Check for Diagnosis

By ALTON L. BLAKESLEE
AP Science Reporter

CHICAGO (AP)—A look-see test can save many women from unnecessary surgery to remove the womb, a physician said today.

It is done with a pencil-thin instrument that permits direct vision of the interior of the womb or uterus. With light from a tiny bulb on the end of the instrument, the physician can see whether tumors are really present that call for a hysterectomy, or removal of the uterus. Photographs can be taken through it.

* * *

Hundreds of American women daily have hysterectomies. Their tumors are quite often found to be a benign or harmless kind, fibroid tumors, growing in such a way that they would not cause trouble. Many of the women are young enough still to bear children.

The unique instrument, the hysteroscope, is being shown in an exhibit at the American Medical Assn.'s annual meeting by Drs. William B. Norment and C. Henry Sikes of Greensboro, N.C.

Fibroid — noncancerous — tumors are often found during physical exams.

If they are not large and are growing only on the outside wall of the uterus, they can be left alone, Dr. Norment said. The woman can still bear children. These fibroid tumors disappear after menopause or change of life.

* * *

But if the tumors have penetrated through to the inside of the uterus, they cause bleeding and other distress. There can also be a question whether the tumor is really benign, or dangerous. Doctors hesitate to take a chance that it could not be or become dangerous.

* * *

The instrument developed by Dr. Norment gives direct vision to learn whether the tumor is on the inside. If not, the operation could be avoided. It can also show whether the bleeding might be due to hormonal upsets that can be treated medically.

Established methods of exploring the interior of the uterus can at times miss because there is no direct vision, Dr. Norment said.

He and Dr. Sykes said the method has saved some women from unnecessary hysterectomies. The instrument is being used by some gynecologists in other cities.

They Eat Commercials!

NEW YORK — Talk about ramming commercials down a person's throat! Commercials are even being eaten these days. Company slogans and sales messages are being printed on one brand of peppermint candies.

Report Two Priests Set Free by Reds

HONG KONG (AP) — Two American priests are reported on their way out of Red China after three years in prison. But they were not on the last daily train today from the Communist mainland.

* * *

A U.S. consular official said it might be several days or even a week before the Rev. John Williams Clifford and the Rev. Thomas Leonard Phillips crossed the border into this British colony.

The two Roman Catholic priests will be the first American prisoners freed by the Reds in six months. Word of their impending release raised hopes that the Reds soon would free 11 other imprisoned Americans in a move to pump new life into the long deadlocked U. S.-Chinese negotiations at Geneva.

U. S., British and Roman Catholic Church officials maintained a fruitless, daylong vigil at the border to receive them.

Summer Vacation Calling City Children

Some 17,292 Pontiac public school children closed the books officially today and prepared to launch the summer vacation with many plans for swimming and picnics.

Parochial students attended their last classes for the summer last Friday and will resume again in early September.

The Pontiac Public Schools will reopen for the fall term Sept. 6. Teachers will return Sept. 4.
