CHEVROLET CAPRICE CLASSIC

Compare the 1992 Caprice to any car in its class. Its standard safety features include 4-wheel anti-lock brakes (ABS) and a driver's-side air bag. Its corrosion protection

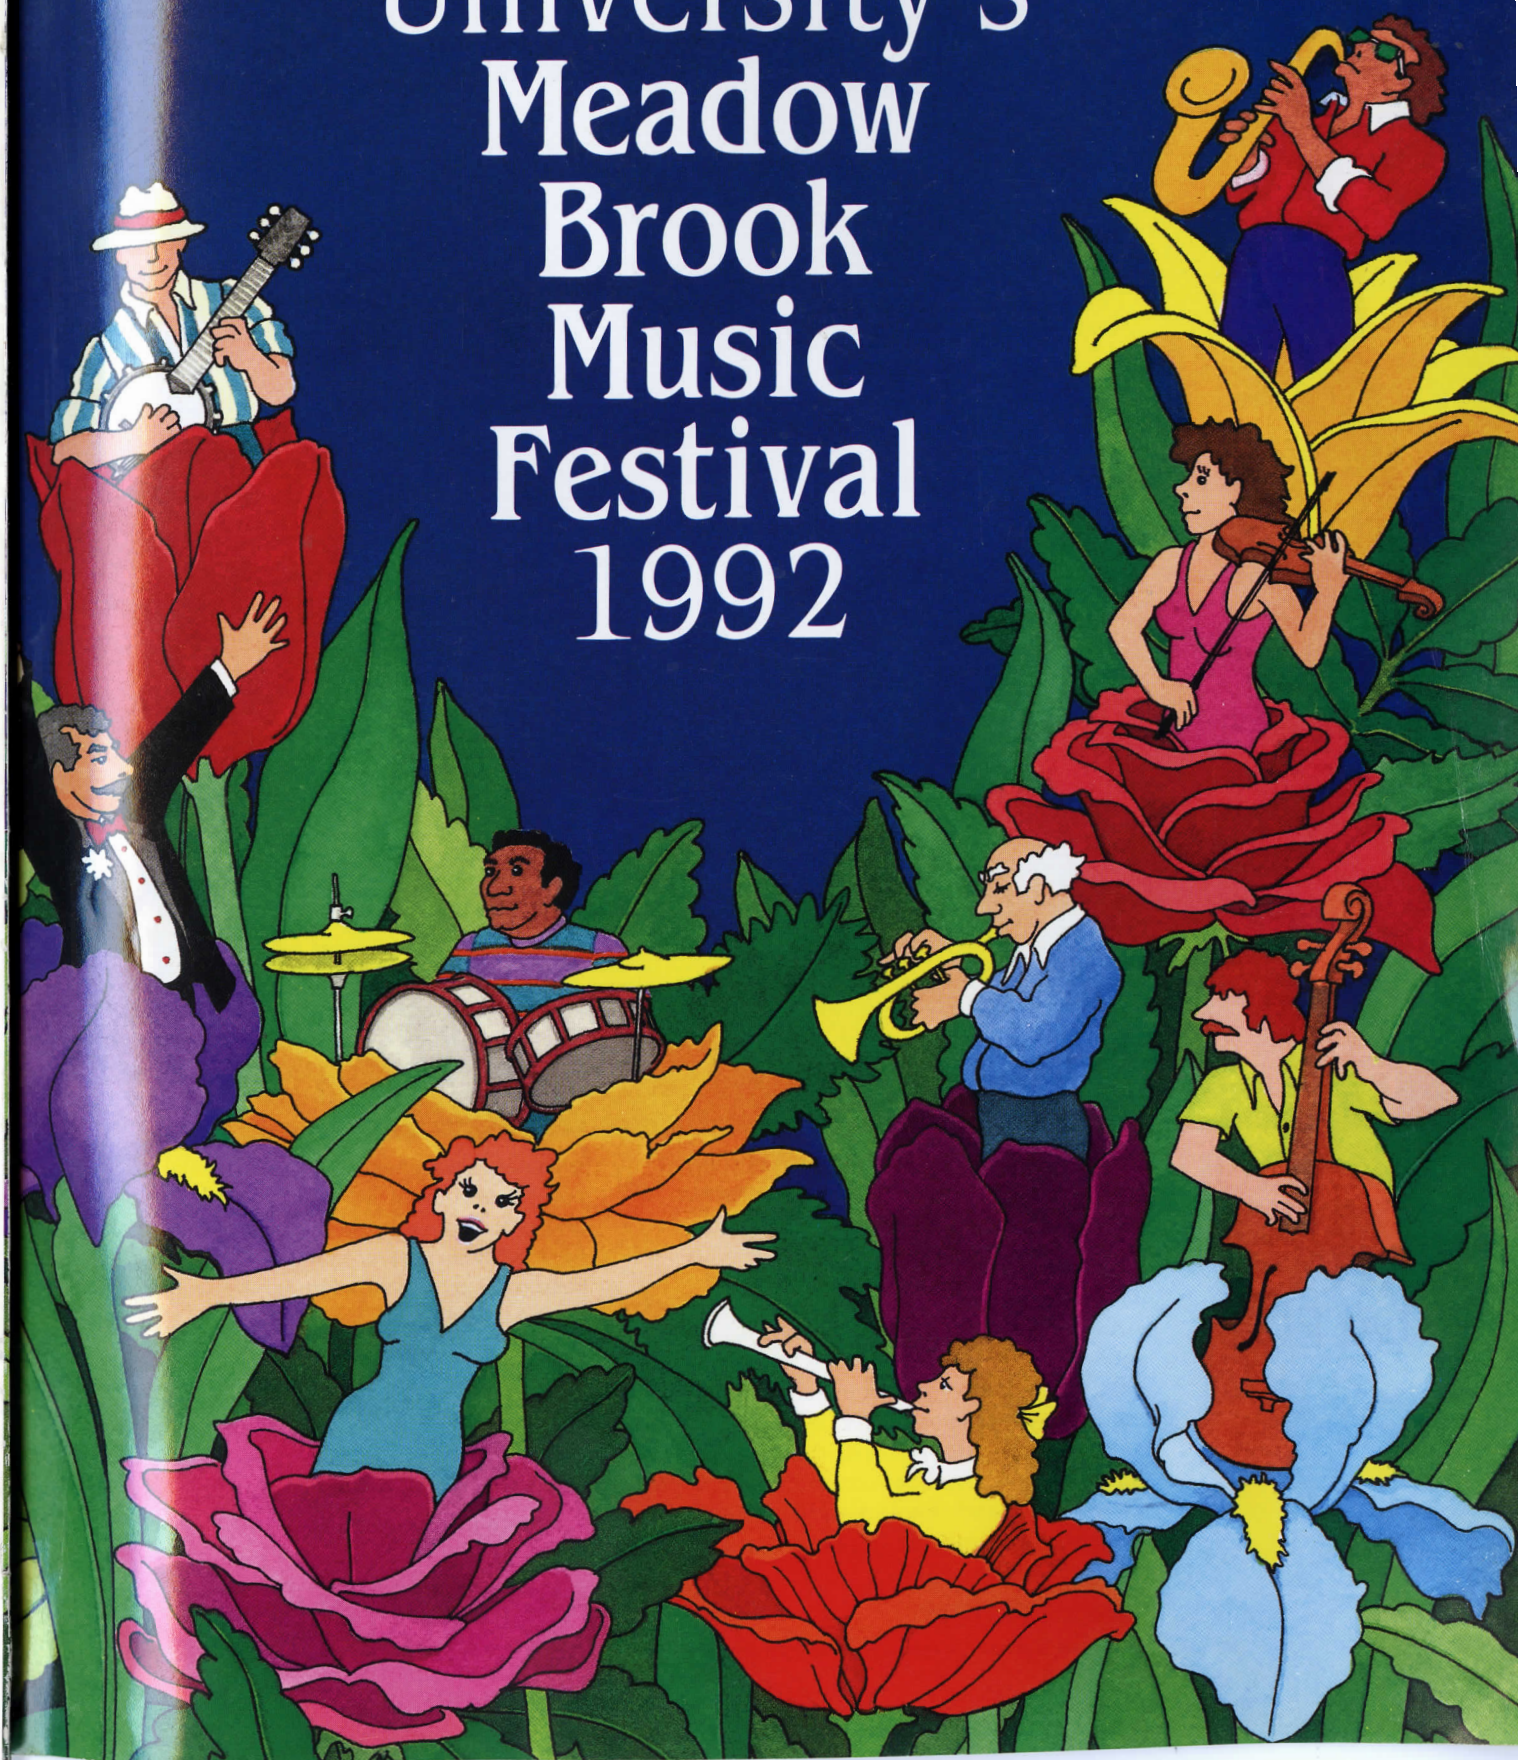

is unsurpassed. It's roomy, quiet, smooth, comfortable and aerodynamic. Such traditional values and forward thinking are why the new Caprice has received such a warm reception. Obviously, it's the new standard for affordable,

full-size luxury. And one well within your means.

THE HEARTBEAT
OF AMERICA IS
WINNING.™

Oakland University's Meadow Brook Music Festival 1992

THE SEQUEL THAT IMPROVES ON THE ORIGINAL.

HAVE YOU DRIVEN A FORD LATELY?

You've been waiting for it. The evolution of the revolutionary Ford Taurus. Be prepared to cast aside the limits of traditional sedan expectations.

THE REINTRODUCTION.

And here it is. The 1992 Ford Taurus. An innovative wonder that gives refinement and subtlety their due. The new Taurus has a completely redesigned exterior that gives you a distinct new edge of sophistication. The interior is quieter, more comfortable. And the instrument panel flows smoothly from door to door, with controls put in places that will pleasantly surprise you.

THE SAFETY STORY.

But this Taurus is not just a testament to

smoothing rough edges. It's taking the best of new ideas and putting them to use. Anti-lock brakes are available. And Taurus offers *dual air bags* (standard driver and optional right-front passenger air bag supplemental restraint system to be used with your safety belts)—a Ford Motor Company exclusive in this class.

THE SATISFYING CONCLUSION.

The 1992 Ford Taurus. An excellent reminder that the best sequels are the ones that know why the original was a success.

If it had less legroom, a lesser warranty,
and cost thousands more, it could be a Cadillac.

Logic would seem to dictate that when you pay thousands of dollars more for a car, you should get a lot more car. Apparently, in the case of the Cadillac Sedan DeVille versus the Chrysler Fifth Avenue, logic does not apply. Both cars provide ample room for six, air-conditioning, automatic transmission, automatic load leveling, stereo sound system, fully reclining seats, all as standard equipment. Both offer safety and performance. A driver's air bag is standard on the Chrysler Fifth Avenue, as is a powerful fuel-

injected, 3.3-liter V-6. Anti-lock brakes are also available. Here, however, is where logic totally falls apart. The restyled Chrysler Fifth Avenue costs thousands less, yet it has more rear legroom than the largest Cadillac*. And it offers a better warranty: bumper-to-bumper

protection for 5 years or 50,000 miles! So if you're looking for a great luxury car, defy logic. Pay less, get more. Chrysler Fifth Avenue. For more information, call 1-800-4A-CHRYSLER.

ADVANTAGE: CHRYSLER 
A DIVISION OF CHRYSLER CORPORATION

*Standard equipment levels vary. Legroom comparison to Cadillac Brougham. †Excludes normal maintenance, adjustments and wear items. See limited warranty at dealer. Some restrictions apply.

Welcome

Welcome to the 29th season of Oakland University's Meadow Brook Music Festival. We hope you enjoy this year's program. For the first time, the festival is brought to you through a partnership between Oakland University and Olympia Arenas/Brass Ring Productions.

Through this new collaboration, we are able to bring you a broader and more diverse array of programming. We are pleased by this opportunity and hope that you will continue to enjoy the Meadow Brook Festival offerings.

As in the past, programs offered by Meadow Brook Hall, the Art Gallery and the Theatre will continue to be offered as part of Oakland's extension of its mission as a cultural resource for the community and as steward of the wonderful heritage left by OU's benefactors, Matilda and Alfred Wilson.

My husband, Martin, and I are extremely pleased to be at Oakland University and to share with you the music festival events. We look forward to the opportunity to get to know and become part of the community and to your continued participation in this festival and other Meadow Brook and university programs.

Cordially,

Sandra Packard
President
Oakland University

EVERYTHING UNDER THE STARS.

From old favorites to new wave...from comedy to country...from Broadway to blues...they all sound better at Meadow Brook.

The men and women of General Motors join with you for another night of magic under the stars at the Meadow Brook Music Festival.

Anti-Lock Brakes

Traction Control

Front-Wheel Drive

THE OLDSMOBILE EIGHTY EIGHT ROYALE LS HAS THREE ELEMENTS TO BEAT THE ELEMENTS.

We know that all your roads won't be sunny roads. That's why, when we re-engineered the Eighty Eight® Royale® LS, we gave it the intelligence to overcome the elements of rain, snow, sleet and ice. ¶ We call it Advanced Traction Engineering™. Anti-lock brakes for more accurate stopping power; available traction control for slippery conditions; and the road-holding performance of front-wheel drive. In other words, the three elements to beat the elements. ¶ We also give you the Oldsmobile EdgeSM. It's the most comprehensive owner satisfaction program in the industry. With it, you have the confidence of knowing you'll be taken care of...rain or shine. Visit your Oldsmobile® dealer for a test drive or call 1-800-242-OLDS, Monday through Friday, 8 a.m.-7 p.m. EST.

Can
your vehicles
go 0-9,500,000
every month?

Ours can.

Dean Siracusa

Want to see how fast *fast* is?
Put your product on the pages of *Road & Track* and *Car and Driver* and hang on.
With blinding speed and laser-like efficiency, you've just reached 9,500,000
people. The largest reach, by the way, among the automotive magazines.
And since new people are consistently coming to the new car and truck market,
it makes sense to advertise consistently, while these readers are gathering
information about what to buy.
Our subscribers also make quick work out of influencing others. Approximately
65% of them were consulted for advice and advised over 8 different people.
And nearly *half of them* bought a new car!
When you want things to move fast, count on us to reach the people that count.

INNOVATION FOR A COMPLEX WORLD

"DOING RESEARCH AS AN UNDERGRADUATE IS SOMETHING UNIQUE, REALLY. FEW UNIVERSITIES OFFER SUCH OPPORTUNITIES, ESPECIALLY THE TYPE OF RESEARCH I WAS ABLE TO DO. THAT SET ME APART WHEN I APPLIED TO MEDICAL SCHOOL."

— ALLISON HENDERSON ('88)
MEDICAL STUDENT
B.S., BIOLOGICAL SCIENCES

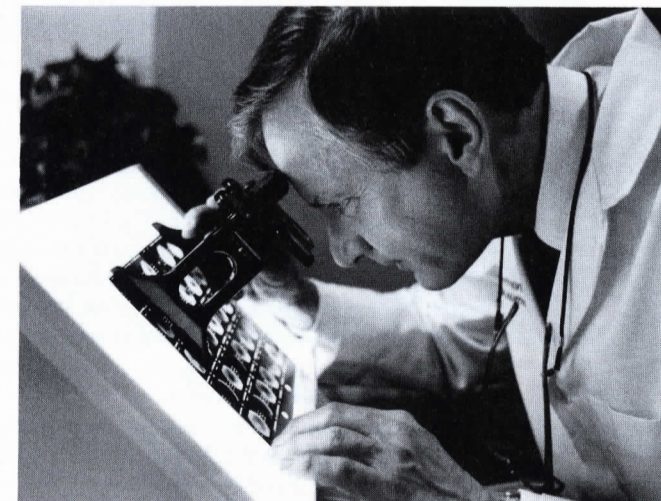

Oakland University is applying its resources to its critical programs, programs that can make a real difference in people's lives. One of the greatest of those resources is its hard-working and talented student body.

At Oakland, undergraduate students have opportunities to collaborate with faculty on vital research projects — projects such as the ones on the next few pages.

Oakland University is known for its personalized instruction — and opportunity for one-to-one interaction with faculty members. Close to 90 percent of Oakland's full-time professors have earned doctoral degrees from prestigious institutions. Many are internationally and nationally known experts in their fields. These professors — not teaching assistants — instruct most classes.

Oakland and national survey responses show that a higher percentage of Oakland faculty members published books and articles in professional journals than did faculty members at any type of institution nationally except major research universities.

THE EYES HAVE IT

A landmark study by Oakland University's Eye Research Institute, in conjunction with William Beaumont Hospital in Royal Oak, may help save America's aging eyesight.

Some 450 Michigan senior citizens are volunteering for the 10-year study — the first to track the natural history of age-related eye diseases — which is being funded by a \$2.5 million grant from the National Eye Institute.

Under the direction of Dr. Raymond Margherio, chief of ophthalmology at Beaumont and a clinical professor at Oakland, the study will determine if vitamins and nutrients can help prevent cataracts, glaucoma and macular degeneration.

STRUCTURALLY SOUND

The next time your plane lands safely on the runway, you can thank an Oakland University professor for the smooth ride.

Blowouts on airplane tires have been virtually eliminated in the last several years, thanks to an invention by Michael Hung, professor of engineering and associate director of Oakland's Center for Robotics and Advanced Automation.

Using a video camera, a laser and a computer, Hung's invention — which he calls shearography — can detect flaws and imperfections in everything from spaceships to computer chips. Such imperfections can mean unsafe products and can cost lives.

Shearography is now being used by NASA and by the aircraft and automotive industries to detect flaws in composite materials.

BUSINESS SMARTS

While many Oakland University students come to evening classes directly from work, many of its lecturers are also heading to class — directly from the executive suites of big business.

Oakland's Executive-on-Campus Program is bringing area business leaders to campus for classroom talks and question-and-answer sessions with students in the School of Business Administration.

Executives from Volkswagen of America (President and CEO William J. Young pictured at left), GM, Chrysler, Kmart, Ziebart, Fidelity Bank, Data Systems Network, GMF Robotics, GKN Automotive and the Sandy Corporation are just a few who are sharing their "business smarts" with business students.

The program is one of several new initiatives under way at the school to ensure that students are exposed to the best of both business theory and work place practice.

HEALING HANDS

The statistics are staggering.

By the year 2010, more than 35,000 Certified Registered Nurse Anesthetists will be needed nationally. Oakland's graduate degree program in nurse anesthesia, established in partnership with William Beaumont Hospital, is helping combat the shortage. Currently, more than 100 CRNA positions remain unfilled in Michigan hospitals alone.

Oakland is also the only nursing school in Michigan engaged in hospital collaborative research projects.

And, through its School of Health Sciences, Oakland is one of only five public universities in the state to offer a degree program in the critical field of physical therapy.

HOPE AHEAD

There is new hope for stroke and migraine headache victims — hope that comes through scientific research within the walls of Henry Ford Hospital.

Studies by Oakland alumnus Joseph A. Helpert (Ph.D., '88, pictured above), director of Nuclear Magnetic Resonance research in Henry Ford's Department of Neurology, have revealed that high glucose levels and high body temperature may hinder the recovery of stroke patients.

The Detroit-based stroke center is one of just 11 nationally. It is also one of two major research efforts for Oakland University and Henry Ford involving the human brain.

Using one of the world's 16 Neuromagnetometers, Oakland physicist Norman Tepley, Ph.D., heads an Oakland/Henry Ford Hospital research group tracking magnetic fields generated by intracellular currents in the scalp, skull and brain — linked to what may be the root cause of migraines.

COUNT ON IT!

It's math time in eight Detroit-area elementary school districts and the students are raring to go — reciting rhymes and poems with a math twist, and placing colored pegs in a large pegboard.

And they like it.

The key is a new Beginning School Mathematics program, introduced nationally by Oakland University's School of Education and Human Services after development by the New Zealand Ministry of Education.

The educational program is one of several made possible by Oakland University through a \$496,200 grant from the W. K. Kellogg Foundation. ■

Welcome to Meadow Brook

Dear Concert Patron:

AT&T is proud to be the major sponsor of the 1992 Meadow Brook Summer Music Festival, of which this concert is a part. It's our way of showing support for our customers and the communities we serve.

This year, a portion of the proceeds generated through the Festival will support the Detroit Compact College Fund. Why the Detroit Compact? Simply stated, we at AT&T believe the future of Southeastern Michigan, to a large extent, will be determined by our ability to educate our young people. Southeastern Michigan needs well-educated young people who fill the job requirements of companies competing in what has become a global economy.

The Detroit Compact helps students improve their academic performance and guarantees college scholarship assistance and job placement for students who meet Compact standards. The "certainty of opportunity" offered by the Compact encourages academic achievement.

Communities that generate job- and college- ready students will retain and attract the employers of the 21st century. In a very real sense, our ability to accomplish this challenge will decide the future economic vitality of our region.

Have a great Summer!
Sincerely,

Mark Trierweiler

Mark Trierweiler

Please Support Oakland University's **MEADOW BROOK FUND**

The continued support of our contributors, which has been the keystone of success for Oakland University's cultural programs, is critical to the university's public service mission. The university's current fund drives in support of cultural activities are being designated to the newly formed Meadow Brook Fund. The Meadow Brook Fund will include:

- ◆ Support of the Meadow Brook Theatre season
- ◆ Support of this summer's Mormon Tabernacle Choir Concert and possible future cultural events at the Festival or Theatre
- ◆ Special programs for underprivileged area students
- ◆ Scholarships in the Department of Music, Theatre and Dance
- ◆ Internships and apprentice programs in cooperation with Music, Theatre and Dance
- ◆ Other components which will mutually benefit Oakland University's cultural activities and educational programs

Recent cuts in state funding for the arts make donor support more important than ever to the university's cultural programs. Your support of the Meadow Brook Fund will assure the growth and quality of Oakland University's cultural offerings. For more information, or to make a contribution to the Meadow Brook Fund, please call the Office of Cultural Affairs at (313) 370-3186.

WINNER
3 OF 4 TOP
DETROIT FREE PRESS
THEATRE
EXCELLENCE
AWARDS

PYGMALION by George Bernard Shaw
Oct. 1 - Oct. 25

A highly successful phonetics expert wagers that he can transform a spunky flower girl with a cockney accent into a lady of lovely voice and pass her off in high society. You'll love this romance of Eliza and her Professor Higgins.

MASS APPEAL by Bill C. Davis
Oct. 29 - Nov. 22

This is a brilliantly funny yet warmly compassionate play about a comfortably ensconced priest whose world is disrupted by the arrival of an intense and idealistic young seminarian. Don't miss this "generation gap" with spiritual overtones.

A CHRISTMAS CAROL by Charles Dickens and adapted by Charles Nolte
Nov. 27 - Jan. 3

We have presented this wonderful adaptation of the story of Tiny Tim, Bob Cratchit and Scrooge for eleven years. Tickets for A CHRISTMAS CAROL make the perfect gift.

"MASTER HAROLD"...AND THE BOYS by Athol Fugard
Jan. 7 - 31

One of the most powerful plays of the modern theatre. The impassioned study of the coming of age of a young white boy in South Africa; you will long remember this gripping drama!

THE FOURPOSTER by Jan de Hartog
Feb. 11 - Mar. 7

A moving chronicle of a husband and wife from their wedding night in 1890 until they pack and move 35 years later. Don't miss this warm and witty play upon which the musical *I Do, I Do* is based.

DR. JEKYLL AND MR. HYDE by Robert Louis Stevenson and adapted by Charles Nolte
Mar. 18 - Apr. 11

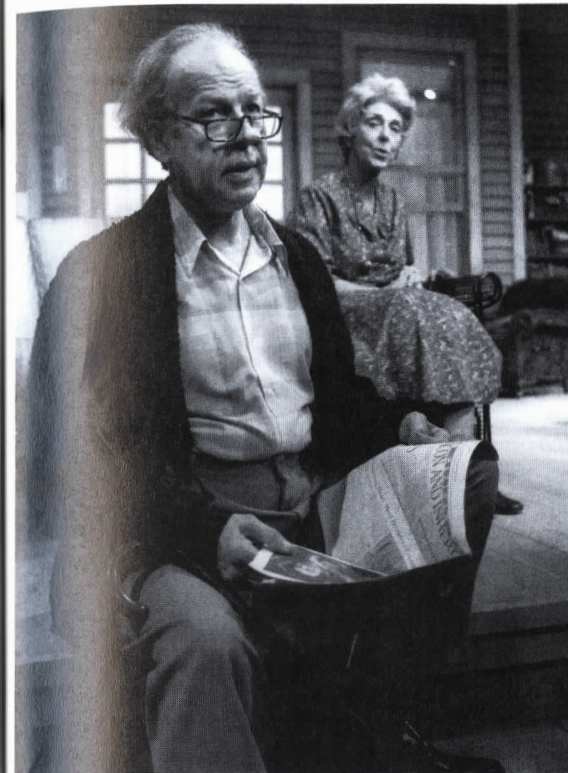

The macabre double life of handsome Dr. Jekyll takes him from the world of the rich and powerful to the crime-infested back streets of London's slums. We are proud to present the world premiere of Charles Nolte's new adaptation of this classic of horror and suspense.

PLAZA SUITE by Neil Simon
Apr. 22 - May 16

This hit is actually a set of three plays set in a luxurious suite of New York's swank Plaza Hotel. Each is hilarious and richly entertaining. The perfect play for sheer fun and entertainment.

Program subject to change

Over 10,000 subscribers agree that Meadow Brook Theatre is one of the greatest entertainment bargains in the Detroit area. For 26 years, we have presented outstanding Broadway quality theatre at reasonable prices. We believe that variety is the essence of good theatre and our programs have ranged from Shakespearean classics like "Othello" and "Romeo and Juliet" to Agatha Christie mysteries—from great modern dramas to musicals like "Guys and Dolls," "Cabaret" and "Ain't Misbehavin'."

As Artistic Director of Meadow Brook Theatre, I invite you to join us for the kind of enjoyment and stimulation that only great live theatre can offer.

Become a Meadow Brook subscriber and you are not only guaranteed the same good seating for each performance, you will also enjoy great savings.

See you on the aisle.

BEST WISHES
FOR
THE 1992 SEASON

We regret the omission of those names received too late for publication.

Al Gerstenberger: Ford Designer

"You might be surprised to learn who builds five of the ten best selling vehicles in America."

At Ford Motor Company, when we set out to design a new car or truck, we never forget that your opinion is the most important one. So, we get input from customers at every stage of new product development to find out exactly what you're looking for. That may be why five of the ten best selling vehicles in America are made by Ford Motor Company.*

Ford • Lincoln • Mercury • Ford Trucks

QUALITY IS JOB 1.SM IT'S WORKING.

Buckle up—Together we can save lives.
*Based on 1991 Calendar Year sales data.

Always insist on genuine Ford Motor Company collision repair parts.

William Michael Harnett *Music* 1886 The Manoogian Collection

*"Music expresses
that which cannot be said
and on which
it is impossible to be silent."*

Victor Hugo

All our lives have been enriched by Meadow Brook's
twenty-nine year celebration of music.
Congratulations from your friends at Masco Industries.

THE BURNETT APPLE.

In 1935, when we started our advertising agency, we put out a bowl of apples in our reception room. It was our way of saying, "Come in. Sit down. Make yourself to home." Today, Burnett apples remain a familiar sight in our offices all over the world. So, while we may have gotten bigger, the down-to-earth philosophy behind the apples hasn't changed. And we like to think it's always reflected in the advertising we do.

Best All-Around. Solar Control.

Solar Control Automotive Glass

EZ-KOOL®
SOLAR CONTROL GLASS

**LOF Libbey
Owens
Ford**

A member of the Pilkington Group

**The Coolest Ones
Under the Sun.**

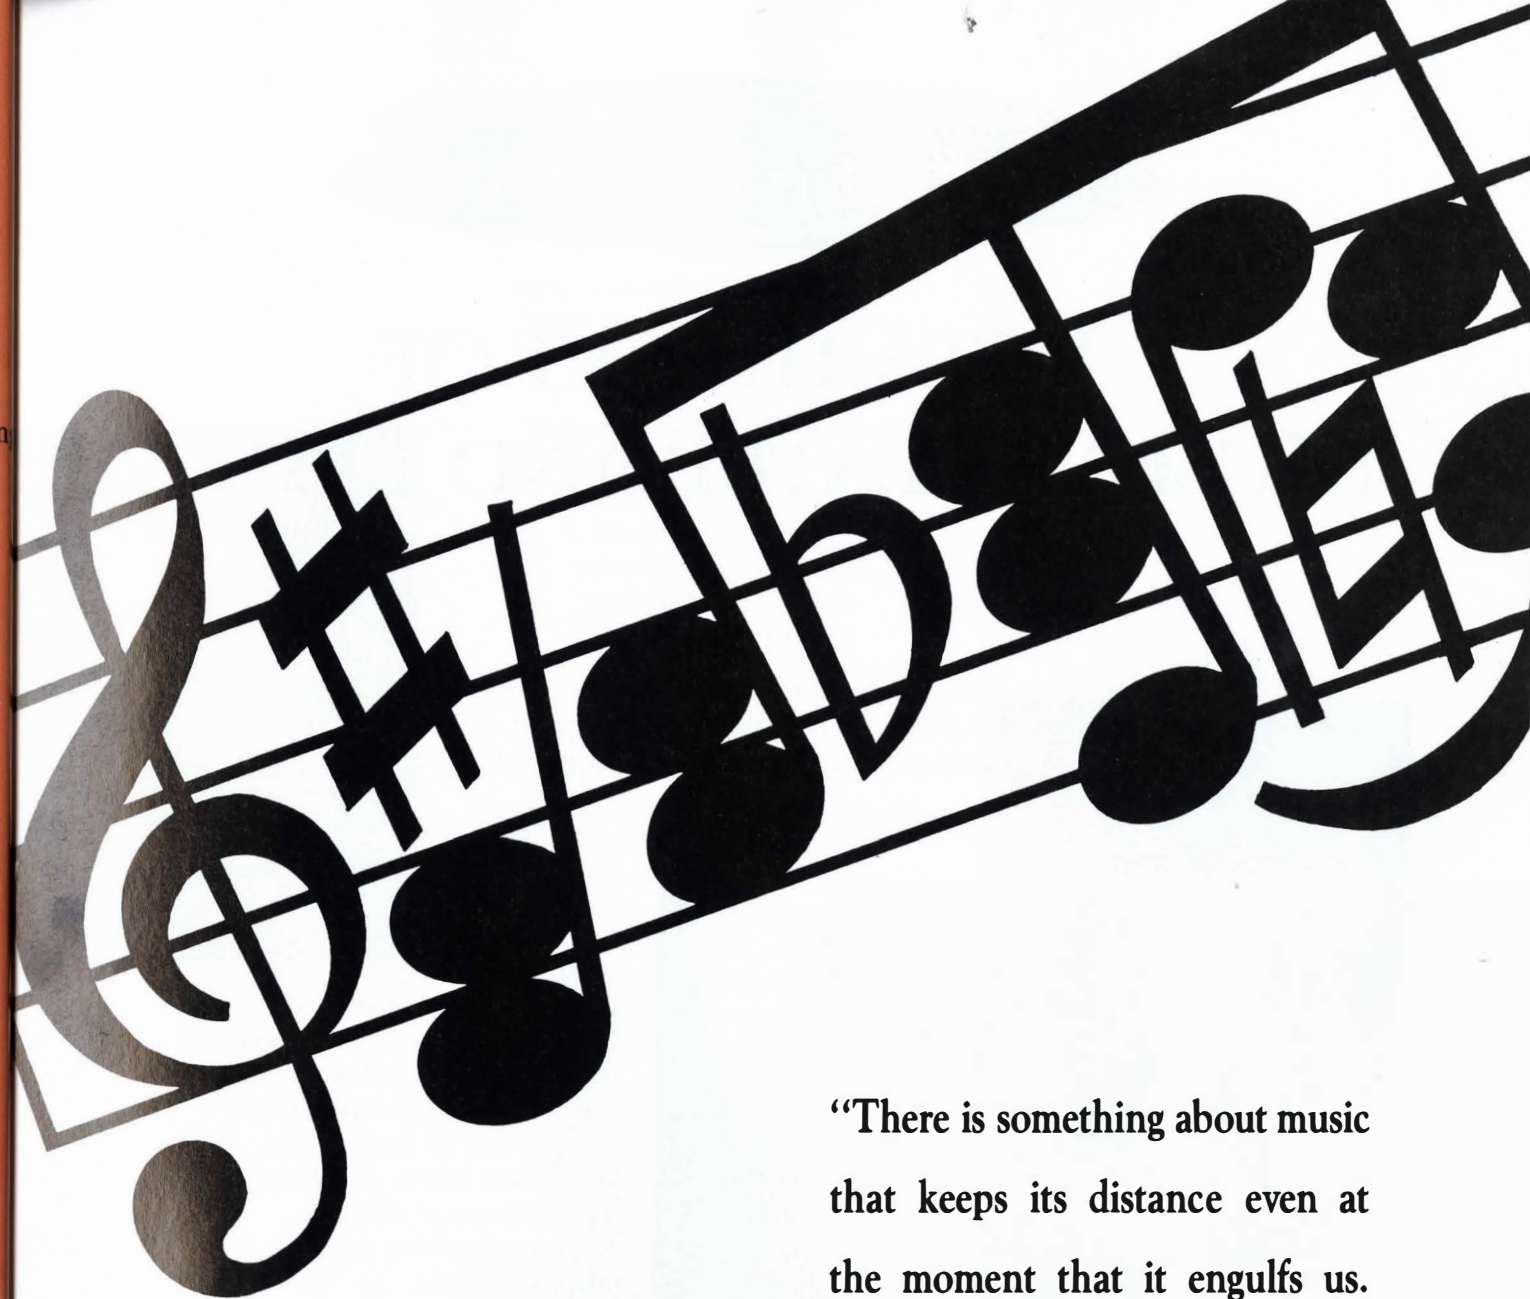

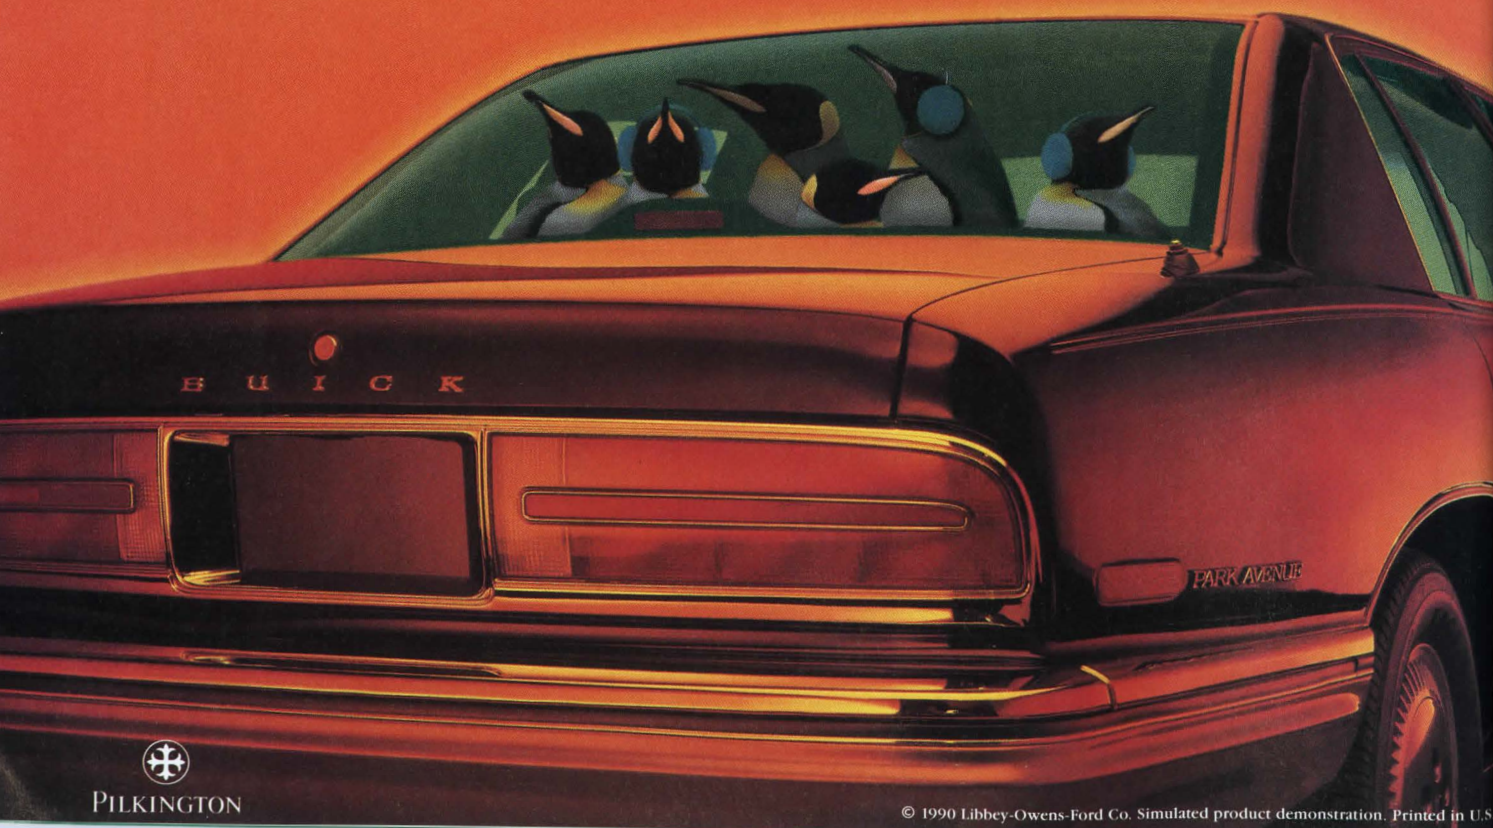

LOF's EZ-KOOL® solar control glass offers the best balance of price, performance and aesthetics for all automotive applications. It's ideal for all glass opening

EZ-KOOL glazing controls infrared and ultraviolet infiltration that can degrade interiors and may cause health concerns for some passengers.

By controlling the heat gain and other effects of the sun before they enter the passenger compartment, EZ-KOOL glass gives auto designers more flexibility in HVAC design.

Find out more about EZ-KOOL glass from LOF. It delivers the best all-around solar control, all around the vehicle. Write or call:

LOF Automotive - OE Marketing

OAKLAND UNIVERSITY

DEPARTMENT OF MUSIC, THEATRE AND DANCE

For over thirty years, the performing arts have been an integral part of the liberal arts environment at Oakland University. The Department of Music, Theatre and Dance is a major component of this environment with its programs, performances and academic offerings.

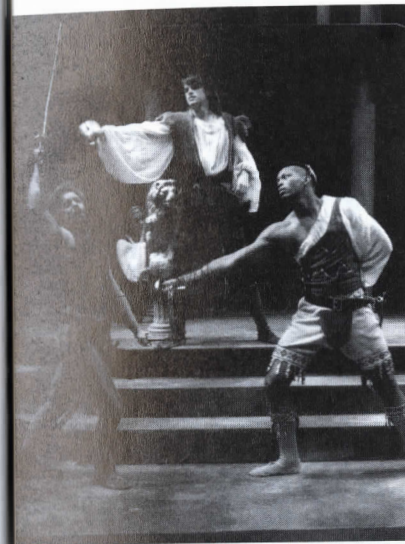

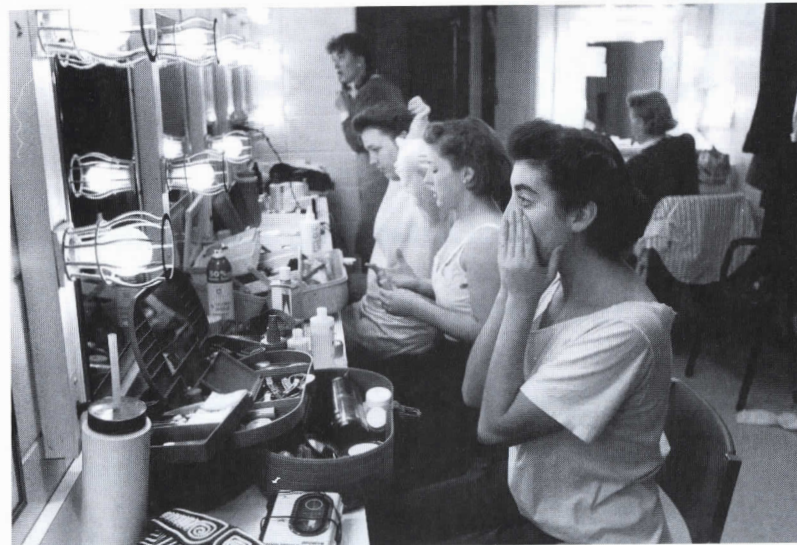

The department provides excellent preparation for a broad range of careers in the performing arts. Programs include: Bachelor of Arts, Bachelor of Music with majors in music education, performance, composition, or sacred music. Master of Music with concentrations in music education, performance, pedagogy, conducting, composition, or sacred music. Liberal Arts minors are offered in music, theatre or dance; a secondary teaching minor is offered in music.

The faculty members are of marvelous stature, both professionally and academically, and their commitment to teaching is second to none. Many of our

alumni have entered the field and become leaders in music, theatre and dance, the "lively arts."

The performing arts— primary sources of intellectual, emotional and spiritual enrichment— are fundamental to how we define our lives, our values and our culture.

We invite you to share the performing arts with us during our 1992-1993 season of events featuring theatrical productions; choral, instrumental, and dance concerts; and the premiere of *Sensory Perceptions*, a new series of performances by national and international artists, including our own faculty. Pages 40-41 will provide you with a complete list of upcoming events.

We're changing to meet your needs.

Being competitive in the 90's and beyond means being responsive to the customer.

That's why Kmart has developed an aggressive renewal program designed to handle the present and focus on the future.

What's this renewal all about? It's a fresh new approach in the way we look, feel, and mostly — the way we do business.

It started with our re-styled logo, signaling major changes throughout the company to the world.

The renewal includes enlarging, renovating and modernizing our stores where needed... making them more convenient, with wider aisles and modern fixtures.

It includes more up-to-date brand name merchandise — merchandise that fits your lifestyle and your budget.

And finally, it includes renewing and strengthening our commitment toward offering customer service second to none.

**We're changing
to keep in step with you.**

ITT AUTOMOTIVE APPLAUDS THE CLASSICS.

We're pleased to support the 1992 Meadow Brook Music Festival and its music for all the generations. It's another small way of showing we're involved in the Detroit area, the communities we work in, the communities we live in. We, the employees of ITT Automotive, are looking forward to continuing our community involvement...and to the next generation of automotive excellence.

And We Thought The All-New Grand Am® and Bonneville® Would Silence The Critics.

"The new-for-'92 Grand Am's wild exterior look and stylish yet functional interior show you how far Pontiac has come."
AUTOMOBILE MAGAZINE, OCTOBER, 1991

On Grand Am, "Completely revitalized for 1992...a Best Buy compact coupe or sedan."

CONSUMERS DIGEST, NOVEMBER/DECEMBER, 1991

"Three cheers for distinctiveness... the Grand Am is fresh, neatly sculpted, well integrated, carries a strong Pontiac identity, and we like it."
MOTOR TREND, OCTOBER, 1991

Pontiac Grand Am named "Domestic Car of the Year."
AUTOMUNDO MAGAZINE, FEBRUARY, 1992

On Bonneville, "Completely recharged...a Best Buy sports sedan."
CONSUMERS DIGEST, NOVEMBER/DECEMBER, 1991

Bonneville SE is America's "Best Sedan." The third straight year Pontiac has won this award.
MOTORWEEK
NETWORK TELEVISION SERIES, APRIL, 1992

"This year's Bonneville is a gem."
CAR AND DRIVER, OCTOBER, 1991

OUR PRESIDENT CAN'T SING WORTH A DIME, BUT YOU OUGHT TO HEAR HIS PITCH.

Recently, a number of audiences were so impressed by what they heard, they not only gave us their applause, they gave us their business. Then *Adweek* magazine gave us rave reviews and named us "Midwest Agency of the Year." All of which means that if you want to increase the response of your audience, call Pete Dow, President, at (313) 574-3400. His pitch is perfect.

For help with your robot and automation needs, come to GMFanuc. We combine the technologies you need most, like INSIGHT™ integral vision system, off-line robot programming systems, application specific tool kits and the most complete line of special- and multi-purpose robots in the industry. It's a line that includes models like the L-100 laser processing robot, the M-400 palletizing system, and the S-500 and S-700 (pictured) general purpose robots. All this, and a customer support system that's second to none. So call 1-800-47-ROBOT, and find out why nearly 1,500 companies have already integrated 11,500 of our robot units totalling over one-half billion dollars in delivered systems.

1992 MEADOW BROOK EXECUTIVE COMMITTEE CHAIRPERSONS Mrs. and Mrs. William Hoglund

We are pleased to have Bev and Bill Hoglund chairing Oakland University's Meadow Brook Executive Committee in this year of transition. It is a challenge for them as well as for other members of the committee to provide the necessary leadership and initiative to help secure the future of the university's cultural programs. We are fortunate to have dedicated community leaders willing to assume these responsibilities. We are most appreciative of their support.

Sandra Packard
President
Oakland University

WHY

do people prefer one thing over another?
Why is desire such a force?

AND

are you assuming there's a limit to
what people will and will not accept?

ARE

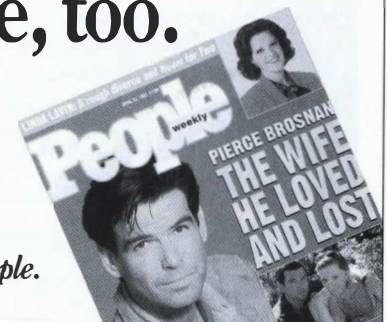

you being too cautious?

Young & Rubicam Detroit
Start something.

With little sleep and no rehearsal, an unknown Leonard Bernstein filled in for conductor Bruno Walter. The rest was history.

We're these kinds of people, too.

A place to meet the fascinating as well as the famous. That's the beauty of People.

PAST CHAIRPERSONS

The best in classical and popular music performances is the standard to which the Music Festival has aspired since its inception in 1963. Much of the success of the Music Festival is attributed to the achievements of the Chairpersons of the Meadow Brook Executive Committee. Some highlights of this leadership during the past 28 seasons is portrayed in the following pages.

Mr. and Mrs. Semon Knudsen
Chairpersons 1964

Meadow Brook is established as the summer home of the Detroit Symphony Orchestra . . . 12 classical symphonic concerts under the direction of Sixten Ehrling . . . Howard C. Baldwin Pavilion built.

Mr. and Mrs. Rinehart S. Bright
Chairpersons 1965

18 classical symphonic concerts . . . Robert Shaw heads the Summer Music School . . . permanent seating added to the Pavilion . . . Trumbull Terrace built.

MADE IN DETROIT.

evolution

Change is constant.
Depend on it.

Our world is evolving beyond imagination. Toward the future of global freedom and security. Toward preserving our planet and fragile planet. Toward human exploration of our earth, the moon and Mars.

The aerospace industry is seeking ideas. Redefining strategies and resources. Forming new alliances. And sharing knowledge to create new opportunities.

For the thousands of men and women at Ford Aerospace, our company is working, too. We are ready for the challenge. Managing our diversified programs in space systems, satellites and ground communications, information systems and electronics. Leveraging technologies to provide real value where it counts. Continuously improving.

Our vision may change, but the fundamentals will remain the same. The depth and breadth of our talent. The quality of our work. The long-term commitment to our customers. The dedication to the future. Depend on it.

Ford Aerospace

Quality is Job 1.

How do we help you? Let us count the ways.

When the call for credit support help goes out, it's comforting to know that, like life's other needs, there will be someone there to answer the call. Ford Credit has been answering a lot of calls so far. Calls for loan assistance with new locations, renovations, and facilities. Our Mortgage Loan Program is ideally suited for these kinds of needs.

And of course, there's the call we get for help with retail financing and leasing. Ford Credit's Red Carpet Lease Plan, and Customer Satisfaction Program have proven themselves invaluable in both targeting and attracting high quality credit prospects. And our exclusive CREDITNET credit approval service continues to prove its value year after year.

Ford Credit is also particularly proud of our track record in the broad and better side of the business - Wholesale Floorplaning. We are one of the

most reliable sources of wholesale financing you'll find anywhere at any time. And to help you even more, Ford Credit has also established the innovative Signature Plan that can actually help improve a dealer's bottom line.

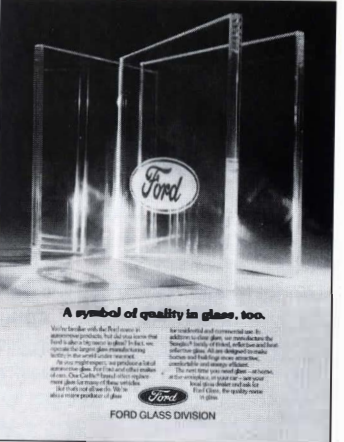

Ford Credit

We also know what quality customer service is all about. It's about the thousands of men and women who are Ford Credit employees. It's about a national network of dealer financing experts who know your market, your customers, and your financing needs. And it's about a corporate commitment to quality that began years ago, and is stronger than ever today.

So if you're a Ford or Lincoln/Mercury dealer, remember now, many ways we have to help you. And if by chance you should need help, don't panic and don't dial 911, stay calm and call 800-535-3404. When you need a little help from your friends.

She's a free spirit, loves music and drives a Ford JB Audio System.

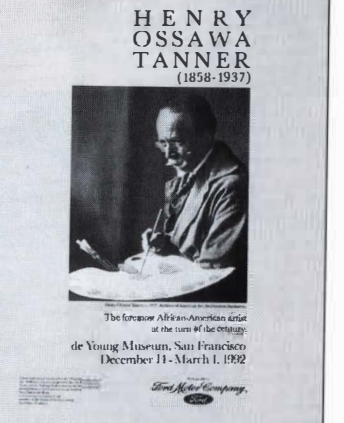

A symbol of quality in glass, too.

It's not just another car phone. It's the new Cellular Phone System for Lincoln.

*Budd's
helped
North
American
automakers
come a
long way in
80 years.*

*And we're
going a lot
further.*

For the past 80 years Budd has used its automotive technology to help North American carmakers set world standards virtually from bumper to bumper. Whether it's steel or composite body panels, frame constructions, aluminum components, or gray and ductile iron castings, automakers have looked to Budd for answers. There's no secret formula, just good old-fashioned hard work and innovation. We're proud of that, and the fact that we've been helping lead the world for almost a century.

PAST CHAIRPERSONS

SPECIAL ACKNOWLEDGMENTS

THE KRESGE FOUNDATION

The Meadow Brook Music Festival expresses its appreciation to one of its most important benefactors — The Kresge Foundation.

In 1964 when the Festival was a dream, the Kresge Foundation made a \$76,000 gift to the capital fund in memory of civic leader and foundation trustee, Howard C. Baldwin, for whom the pavilion is named. A second gift, a year later, of \$50,000 made possible the permanent seating in the pavilion. Subsequently, the Foundation provided an additional capital grant of \$33,000 which provided additional dressing rooms below stage, new electrical circuits, a sound reinforcement system and new restroom facilities. A grant of \$145,000 provided for repair work in the pavilion and a box office addition in 1977. Most recently, a grant of \$100,000 has been used to upgrade the lighting system, structural improvements in and around the stage area, paving the service road and loading dock area, painting of the seats and girders, and general repair.

LULA C. WILSON TRUST

The original gifts of the Lula C. Wilson Trust provided the concert shell for the stage house of the Music Festival. The Meadow Brook acoustics distinguish the Music Festival as one of the front-ranked concert and amphitheatres in North America.

The continuing support of the Lula C. Wilson Trust assists the Music Festival in providing the finest cultural programs to enrich the community as a whole.

MRS. GEORGE T. TRUMBULL

The original gift of Mr. and Mrs. George T. Trumbull made possible the construction of the Trumbull Terrace dining facility; and patrons of the Meadow Brook Music Festival continue to benefit from their generosity. Mrs. Trumbull has provided improvements to Trumbull Terrace, the magnificent flowers on the grounds, and the tables and chairs in the Cafe Promenade and her most recent endowment gift. We are grateful for her continued interest and support.

FESTIVAL WOMEN'S COMMITTEE

Special appreciation goes to the Women's Committee which has contributed over \$750,000 to the Festival since 1980. The Treble Clef Gift Shop, the automobile raffle, and the annual summer fashion show continue to be highly successful ventures.

We are grateful for the dedication of the members and appreciate the many hours of hard work which have made the committee one of our most important benefactors.

MEADOW BROOK THEATRE GUILD

The many actors and directors who come to Oakland University to perform at the Meadow Brook Theatre rave about the special treatment and hospitality provided by the Guild. In recent years the Guild's financial support has provided for renovations of the box office and trailer dressing rooms as well as the many significant contributions to meet the needs of the Theatre. In addition the community has enjoyed the social aspects of the Guild's many projects such as the Holiday Benefit and Luncheon on the Aisle. We are grateful for their support.

Other cities on this tour include Toronto and, of course, Columbus, Ohio. The tour also coincides with release of the choir's latest album, "America's Heartland."

The choir's origins trace to Utah's pioneer days in the mid-1800's. It is recognized worldwide for its weekly CBS radio broadcasts, several films, concert tours, and more than 130 recordings, including five gold albums, one platinum album, and one Grammy.

Choir members serve without pay as a service to The Church of Jesus Christ of Latter-Day Saints (nicknamed the "Mormons.") Choir members include businessmen, homemakers, teachers, government employees, farmers, and a broad range of other professions.

These dedicated singers report for duty to the Mormon tabernacle on Temple Square in downtown Salt Lake City, Utah, each Sunday morning at 7:25 to add the finishing touches to their weekly half-hour radio broadcast at 9:30 a.m. (MDT).

The choir also rehearses Thursday evenings from 7:30 to 9:30, and additional rehearsals are added when preparing for recording sessions, concerts, tours, or the church's semi-annual general conferences held the first weekends in April and October.

Audiences for the weekly radio broadcasts number in the millions. It is impossible to know how far the broadcasts reach, but the telecast in conjunction with the 1984 Olympics, for example, reportedly came in loud and clear in China and Eastern Europe.

Jerold Ottley

Director

Salt Lake Mormon Tabernacle Choir

Dr. Jerold Ottley, a native of Salt Lake City, Utah, has been music director and conductor of the world famous Mormon Tabernacle Choir since April 1975. His career with the Choir was preceded by many years as teacher and conductor in the

schools and churches of the area. He is currently Adjunct Professor of Music at the University of Utah, where he acts as advisor and special lecturer.

Dr. Ottley holds degrees in music from Brigham Young University, the University of Utah, and the University of Oregon. In 1968 as a Fulbright student, Mr. Ottley studied conducting, voice, and choral performance practice at the Academy of Music, Cologne, West Germany.

Dr. Ottley's duties with the Tabernacle Choir have included preparation of the weekly radio and television broadcast of "Music and the Spoken Word" which began the 62nd year on live, nationwide radio in July 1990. He has conducted many recordings for CBS Masterworks Records, and has directed concerts in Japan, Korea, Brazil, Northern Europe, Holland, England, New Zealand, and Australia. Under the direction of Maestri Eugene Ormandy, Maurice Abravanel, Ling Tung, Stanislaw Skrowaczewski, Michael Tilson Thomas, Robert Shaw, and Julius Rudel, the Tabernacle Choir has performed major choral works prepared by Mr. Ottley with the Philadelphia, the Utah Symphony, and the Grand Teton Festival Orchestras. He has also conducted the Utah Symphony Orchestra in recording and performance, and the Columbia Symphony in recording.

Wendell M. Smoot, Jr.

President

Salt Lake Mormon Tabernacle Choir

Wendell M. Smoot, Jr., was appointed President of the Salt Lake Mormon Tabernacle Choir on July 15, 1984. He has served the Choir since his appointment as vice president on October 1983.

Mr. Smoot is a native of Salt Lake City, where he attended the University of Utah, earning a degree at the School of Business. The Choir official is president and founder of Smoot, Miller, Cheney & Co., a Salt Lake City based investment counsel firm which specializes in the management of state, county, and municipal pension and retirement plans.

A member of The Church of Jesus Christ of Latter-day Saints, Wendell Smoot has served his church for many years in a number of roles, including as a bishop (a lay position), high councilor, Temple Square guide, youth leader and a leadership missionary.

Over the years, Mr. Smoot has also been affiliated with several local associations and service clubs including the Salt Lake Rotary Club, the Salt Lake Society of Security Analysts, president of the Great Salt Lake Council of Boy Scouts, and chairman of the Pioneer Memorial Theatre Advisory Board.

Mr. Smoot and his wife, the former Barbara Davis, are the parents of five children, three sons and two daughters.

Chrysler designed it.
We turned it
into a household word.

Back in 1983, no one had ever seen anything like it. A vehicle smaller than a full-size van, but bigger than a car. A "mini-van."

Chrysler Motors' hugely successful introduction of the Plymouth Voyager grew out of a partnership between two companies that share the same belief: The key to success is being close to the customer.

Bozell worked closely with Chrysler to shape and define this new category of vehicle. We conducted wave after wave of research. Worked with engineers and designers to position Voyager in the most profitable niche.

The result of being so close to the

customer? A product so successful today that Chrysler can't make enough of them. So successful, that Ford is working to develop a front-wheel drive minivan. So very successful, in fact, that GM and the imports recently introduced front-wheel drive minivans in an effort to expand the lucrative market that the Chrysler/Bozell partnership created.

Someday, just as the competition tries to copy our client's success, we suspect every major agency will "create" some version of our Close to The Customer philosophy. Well, they say imitation is the sincerest form of flattery. But to copy our

system of 9 full-service and 19 client service offices, strategically located to capitalize on America's unique regional diversity – we say, they've got their work cut out for them. And with the competition trying to play catch-up, if you want to get really close to *your* customers, we suggest you call us.

Ask for Kim Gaynor at (313) 262-8600.

WHEN THREE MICROPROCESSORS TALK TO EACH OTHER, WHAT DO THEY TALK ABOUT?

Computer conversation: It could be about something as simple as wheel speed or as esoteric as steering rate of change. Or any of thousands of bits of electronic information that help make Continental one of the world's most capable luxury cars. Consider for example, a drivetrain core computer that coordinates engine operation and electronic transmission shifting for a nearly seamless flow of power. And a computerized suspension system that electronically regulates gas pressurized

shocks and air springs to optimize ride and handling. To this, add the stability of computer-controlled anti-lock braking (ABS). The precision of computer-regulated speed-sensitive power steering. The peace of mind of a driver and right front passenger air bag Supplemental Restraint System*. Add, in brief, a proficient array of microprocessor-managed driving systems that help make Continental one of today's most advanced luxury cars. Something well worth talking about.

LINCOLN WHAT A LUXURY CAR SHOULD BE.

Detroit Compact
Certainty of Opportunity for Success

A PARTNERSHIP FOR THE FUTURE . . .

The Detroit Compact is a comprehensive education partnership bringing together government, business, the community and the Detroit Public Schools. The Compact's mission is to expand the number of job and college ready graduates.

GROWING SUCCESS . . .

The Compact in its first three years of operation, has seen significant increases in student attendance, grades and test scores. This summer over 1,000 students qualified for either the job or college pledge.

YOU CAN HELP . . .

As the Compact expands to more Detroit schools, we can use your help -- as a volunteer tutor or mentor, as an employer who needs quality employees, or as a contributor to the Compact's college assistance endowment. To help, call the Compact at 396-9160 or write to 2751 E. Jefferson, Detroit, Michigan 48207.

Special thanks to AT&T for their support of the Compact College Fund

IN HONOR OF THE MEADOWBROOK MUSIC FESTIVAL, WE'VE CHANGED OUR SLOGAN:

**The Power of Pictures
Tra, La, La.**

C O N T I N U I N G

A great season
depends on
continuing excellence.
The same is true in the
automotive industry.

A successful musical season requires more than a single virtuoso performance or one popular program . . . it means creative scheduling, careful balancing, and lively interpretations.

Similarly, success in the automotive industry involves a commitment to excellence over the long run, with the desire and capability for continuing across-the-board improvements in quality, productivity and service.

Indian Head Industries, Inc., composed of Detroit Gasket, MGM Brakes, and DG Trim Products, has been in a position of leadership in the manufacturing of high-quality components — MGM Brakes for over 30 years, Detroit Gasket for over 60 years, and DG Trim Products for over 20 years.

Our decades of experience combined with strategic planning and dedicated and knowledgeable personnel, give us the flexibility to change with — and help lead — our industry.

WE COUNT ON RESEARCH TO GIVE US THE ANSWER. BUT CAN IT COME UP WITH THE QUESTION?

Ten years ago, our research showed potential car buyers knew about Ford quality, but hadn't experienced it "lately." The home run came in the form of a question. Have you driven a Ford lately? Results? The Ford Escort is the largest-selling small car in the U.S.A. Taurus Wagon, the best-selling wagon. And for the sixth year in a row, the best-selling trucks are Ford trucks. Can smart, focused research lead to a home run? No question about it. If you have a product that could use some power hitting, call Peter Schweitzer at (313) 568-3800.

When it's your decision
to choose a
nursing care residence...

**Windemere offers a choice
you can feel good about**

You may never face a more difficult decision than moving a loved one into a nursing home. It's a daily struggle with your emotions. The guilt. The worries. The what ifs.

Windemere can help. We offer several levels of care to satisfy your family's special needs. Our goal is to improve the quality of life, not just maintain it. And that is something you can feel good about.

**What Are
You
Waiting For?**

Hopefully not a heart attack, hypertension, diabetes, obesity, depression or anxiety. Many Americans develop physical and medical problems that could be prevented with increased awareness of their own bodies and a change in behavior. The Meadow Brook Health Enhancement Institute's Individualized Health Maintenance/Health Improvement program addresses the important elements of nutrition, weight and substance control, physical fitness and stress management. Through our program, you'll learn to assume more responsibility for your own health. For an appointment call (313) 370-3198.

Enhancing your health and quality of life is our goal.

Meadow Brook Health Enhancement Institute,
Oakland University, Rochester, Michigan

**Quality Service
is a Symphony**

Conductor Neeme Järvi directs the individual talents of musicians to create a symphony. At KPMG Peat Marwick, our professionals take this classical approach to deliver quality service.

Orchestrating the skills of audit, tax, and consulting professionals, our client service partners help management compose complete business plans bringing their dreams to reality. We are proud to serve the area's major employers and scores of entrepreneurial businesses facing systems, employee benefits, and other taxing issues.

After nearly a century of service, we recognize that individuals are instrumental to success, but know their greatest achievements are realized in concert.

THE RAGTOP CUT FROM A DIFFERENT CLOTH.

Saab engineers have created an alternative to the sawed-off hardtops most car-makers call convertibles.

With the help of a Cray supercomputer, they designed 23 new structural members to overcome the stresses inherent in open cars. To minimize cockpit air turbulence, they increased the rake of the windscreen. And by using Saab's compact, yet spirited, 900 Turbo engine, they bestowed more space on the passenger com-

partment, and less on the engine's. Space enough for four Scandinavian-sized adults.

The result: the Saab 900 Turbo Convertible. A car capable of inspiring the kind of sensual experience not normally enjoyed on a public thoroughfare.

To experience it for yourself, just stop by your Saab dealer today for a test drive.

It works.

For us. For our clients. And has since 1902.

That's because it's more than a slogan. It's the way we do business. We find the truth about a client's product—both the objective truth and the subjective truth. Then, we turn these truths into forceful, compelling advertising. Advertising that works—for hundreds of clients in 82 countries around the world.

If you'd like to know more about us, and how we work, call Sean Fitzpatrick, Dick Hill or John Mead at (313) 362-4800.

They'll tell you the truth. And they'll tell it well.

McCANN-ERICKSON

NO MATTER
WHERE YOU ARE
IN YOUR THINKING
ABOUT GOD . . .

He's always here, always available, always loving and caring for you.

You can learn more of why this is so, at a Christian Science church service or Wednesday evening testimony meeting. Or Reading Room. And, until you're 20, at the Christian Science Sunday School.

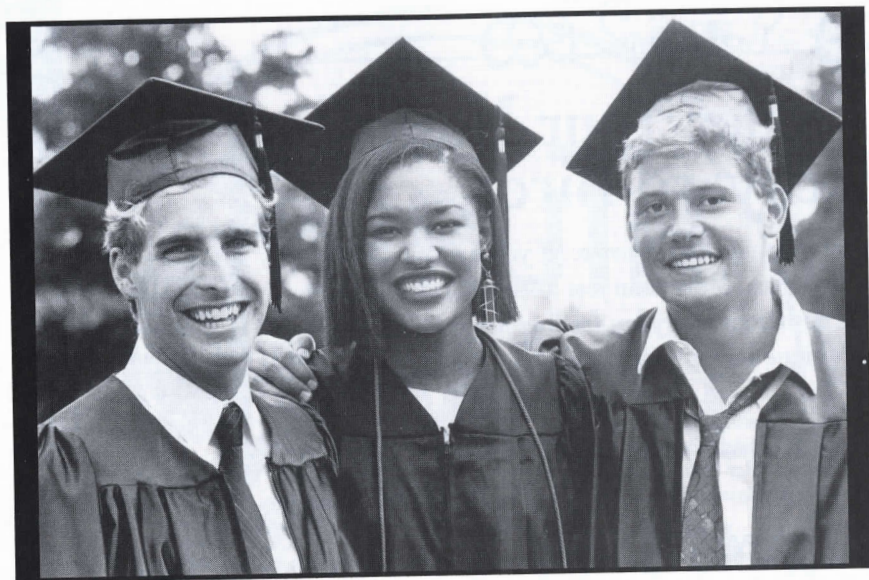

FIRST CHURCH OF CHRIST, SCIENTIST
1119 N. MAIN STREET

SUNDAY MORNING 10:30
WEDNESDAY EVE. 7:30

24600 Hallwood Court
Farmington Hills, MI 48335-1671
(313) 478-7800

Thanks for noticing.

We're Oakland University, and we've been named one of the best in the Midwest and a "best buy" by *U.S. News & World Report*.*

Maybe we're one of America's best because:

- ▼ Oakland students are more satisfied with the quality of teaching they receive than students at other universities nationally.
- ▼ Overwhelming majorities of Oakland University students and graduates say:
 - ▼ they would recommend Oakland to their friends, and
 - ▼ having top faculty in the classroom teaching introductory courses makes a big difference in the quality of education they receive.
- ▼ More than 93% of Oakland graduate students are employed in professional jobs within three months of graduation.

Or maybe it's because we simply care about educating our students. Call us, and become one of the 12,500 men and women from 18 to 80 who call us home every academic year.

Rochester, Michigan
(313) 370-3360

* Oakland University ranked 11th among the Midwest region's top 15 four-year colleges and universities. Rankings were based on academic reputation, student selectivity, faculty and financial resources, student satisfaction and average or midpoint SAT/ACT scores.

When you need it most, it's at its best.

The new All-Wheel Drive Dodge Caravan.

For the same reasons you'll find all-wheel drive technology in some of the world's best performance cars and sport utility vehicles, you'll find it available in America's favorite minivan: Dodge Caravan.

All-wheel drive adds greater security.

Caravan's automatic all-wheel drive system can improve traction and handling in any weather. And it adds security to a vehicle that already offers a unique combination of available safety features...including the first minivan driver's airbag* and the industry's first available built-in child seats.

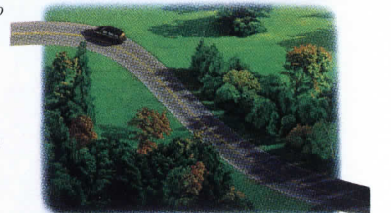

When you need all-wheel traction, you've got it...automatically.

And now you get the Owner's Choice Protection Plan: our exclusive 7 year/ 70,000 mile powertrain

Let it snow. The AWD Caravan responds to changing road conditions.

respond to your family's needs like no other minivan can. And it can handle just about anything the weatherman can throw at it...automatically.

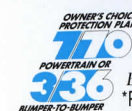

All-wheel drive improves handling even when the road is dry.

Rediscover American Value.
Call 1-800-4-A-DODGE for a free product brochure.

Advantage: Dodge

AWD Dodge Caravan

BUY OR LEASE AT YOUR DODGE DEALER. Buckle up for safety.

*Provides added safety only when seat belt is worn. **See limited warranties, restrictions & details at dealer. Excludes normal maintenance, adjustments & wear items.
