

Romney Warns Tax Needed

State Surplus Hits New High

LANSING (AP)—Gov. George Romney pegged the state treasury surplus today at a record \$135.5 million but warned that higher-than-expected figures do not diminish the need for tax action this fall.

Working with figures for the fiscal year ended July 30, the Republican governor announced a surplus that was \$7.5 million higher than he had forecast less than two months ago.

State income during the year climbed a whopping 5.5 per cent, he said, but he rattled off a series of automobile production figures which he said show that Michigan cannot expect the same rate of growth to continue.

Romney said he is summoning legislative tax negotiators back to see if levels of a proposed state income tax should be re-

duced in light of the more favorable treasury figures.

Romney and the bipartisan committee—which has agreed on a tax program to present to legislative leadership—have been shooting to raise \$200 million in extra funds by mid-1968.

NEW FIGURES

Romney's new figures show that only \$169 million would be needed providing his economic growth forecasts are accurate.

The governor predicted state revenue would increase 5 per cent in the fiscal year which began two months ago. He tapered the prediction down to 4 per cent for the next two fiscal years.

The sales tax revenue, increase the past two months has been more than 10 per cent over last year.

Taking out time to telephone the Automobile Manufacturers Association for figures, midway

GOV. ROMNEY

in his news conference, the governor said that "it's impossible" for auto production to increase as fast in the next five years as it has in the last five.

CAR PRODUCTION

The governor said passenger car production had climbed from 5.4 million in 1961 to an estimated 8.8 million this year—a leap of more than 60 per cent.

"This would mean 15 million cars produced in 1969," he said.

"It's impossible. There isn't anyone planning for such production. There aren't the facilities. A 10 or 11 million car year by then won't begin to approach the level of (increase) of the past years."

Romney credited increased auto production and the 1962

nuisance tax package with producing the revenue which has carried the state from its deficits of the late 50s and early 60s to the present surplus.

NEW TAXES

But as he has said all year, the surplus will be gone within two years unless new taxes are enacted to counter the rising costs and scope of state services.

Romney's new figures show the treasury could get through mid-1967 even if state programs are improved by \$22 million.

But by mid-1968, he said, even budgets which added no improvements beyond those of the current year would leave the state \$79 million in the red.

Romney and the legislative committee came up with their \$200 million estimate of required funds by figuring how much the budget must increase just to service the expanding population, then adding \$25 million for improvements in 1966-67 and \$29 million for new or expanded programs in 1967-68.

GENERAL FUND

Such expenditures in 1967-68 would push the state general fund budget beyond \$1 billion for the first time in Michigan history. The current year's budget is \$820 million.

Romney said he plans to meet with the committee—with whom he's negotiated all year—just before they present the tax program to the legislative leadership Sept. 8.

Romney said if the \$200 million requirement figure is scaled down to \$169 million, there should be a downward adjustment in the income tax.

The program now proposes a 3 per cent personal income tax and a 4 per cent corporate levy.

Planes Battle Over Kashmir

NEW DELHI, India (AP)—Indian and Pakistani planes fought in the skies over south-west Kashmir today, while ground, Pakistan's army pushed five miles inside India's positions, the Defense Ministry said. Fighting raged for the second straight day.

A ministry spokesman said Indian planes were attacked by the Pakistani planes as they flew reconnaissance over Pakistani positions.

"Our fighter escort drove the Pakistani planes across the international frontier," the spokesman said. "All our aircraft returned to base after successfully completing their mission."

There was no claim that any Pakistani planes had been shot down.

Defense Minister Y. B. Chavan told Parliament a massive attack by at least 3,000 Pakistani troops and 70 tanks across the international frontier had "seriously escalated" the (Continued on Page 2, Col. 4)

REVIEW PLANS—Going over final arrangements, subchairmen of the commercial division of the Pontiac Area United Fund met this morning in preparation for the UF drive

next month. Checking plans are (from left) William R. Freshour, Richard C. Fell, James P. Dickerson and A. H. Magnus Jr. Dickerson is commercial division chairman.

Johnson Gives Prod to Steel Bargainers

WASHINGTON (AP)—President Johnson, stepping personally into steel negotiations at a crucial moment, told industry and union representatives today he sees no reason why their dispute can't be settled—hopefully before Labor Day.

Johnson, who would like to spend the holiday weekend with his family at his Texas ranch, spent 43 minutes with the negotiators in a bid to push the talks toward a quick agreement.

The President, who got a report Wednesday night from Secretary of Labor W. Willard Wirtz and Secretary of Commerce John T. Connor that indicated progress was being made, obviously thought this was the best time to step personally into the picture.

Johnson emphasized the losses that would be experienced by both sides in the event of a nationwide strike.

Citing an array of statistics showing how well the companies and their workers have fared, and coupling these with other figures on the costly effects of the 116-day steel strike in 1959, Johnson said another strike could put as big a dent in the economy in a couple of months as would a recession lasting nine months.

Johnson told the negotiators he had not walked from his White House office to their conference room in the neighboring executive office building to present a settlement proposal.

Neither, he said, did he want to twist arms.

KNOW THE EFFECTS

But he asserted that he wanted both sides to know how a strike would affect them and the nation, and to urge them to consider the national interest.

Johnson was said to be quite confident that an agreement would be reached without a strike.

He would like to see that agreement tonight, so he could feel free to fly off to his ranch.

UF Division Leaders Meet

Commercial Group Hopes to Top Record

James P. Dickerson, commercial division chairman of the Pontiac Area United Fund, met today with commercial leaders to review final division plans in preparation for the UF drive beginning next month.

The division will seek to better the all-time commercial record of \$234,117 raised last year.

Initial appointments of key chairmen made last spring have mushroomed into appointments of subchairmen and solicitors.

William Freshour, residential sales supervisor, Consumers Power Co., heads the chapter plan operation consisting of some 30 firms of 10 or more employees which last year raised \$143,571.

Professional chairman John Napley, oil producer, heads efforts to enlist the support of over 400 contributions in the professions.

HEADS EDUCATION UNITS Richard C. Fell, assistant superintendent, Pontiac School District, is in charge of educational units in the six township areas.

All governmental units are headed by John Witherspoon, Oakland County personnel director.

A. H. Magnus, of Jenkins and Eshman, accounting firm, is organizational chairman for small business calls of nine or less employees.

At the present time all but a few of the 600 volunteers needed have been appointed. Kickoff plans for a special commercial division luncheon have been set for Oct. 11 at the Pontiac Elks Temple.

600 Guardsmen Sent to Natchez in Riot Threat

NATCHEZ, Miss. (AP)—Gov. Paul Johnson sent 600 Mississippi national guardsmen today into this historic city which he said is threatened with racial rioting.

Six companies of guardsmen encamped at the Natchez armory on a standby basis.

State highway patrol guarded the streets. The town appeared quiet but tense at midday.

City officials were huddled behind closed doors with a Negro delegation pressing for an immediate answer to desegregation demands. These demands were made following the booby-trap bombing last Friday of a Negro leader's car.

Chance of Showers Seen for Tomorrow

Today's clear skies will continue through the night and most of tomorrow. There's a chance of a few scattered showers drifting in to dampen the area by late afternoon or evening.

Temperatures dropping into the 50s tonight will rise to 70 to 85 tomorrow.

Forty-eight was the low in downtown Pontiac prior to 8 a.m. The mercury reading at 2 p.m. was 74.

Congress to Probe Singapore Bribery

WASHINGTON (AP)—A congressional committee today called on the State Department and Central Intelligence Agency to explain why a formal denial of a \$3-million bribery incident that took place in Singapore in 1960 backed into the embarrassment of the U.S. government.

Rep. Clement J. Zablocki, D-Wis., chairman of the House Foreign Affairs subcommittee on the Far East, said closed

hearings will be held after the Labor Day recess to obtain an explanation from responsible officials on bribery allegations brought by Singapore Prime Minister Lee Kuan Yew.

Lee threatened to name an American presidential intermediary of high rank who he said offered him the bribe in 1960 if he would not reveal the arrest of an American CIA

agent trapped trying to buy information from Singapore secret agents.

State Department officials were taken aback Tuesday

See Analysis, Page A-6

when Lee released a letter from Secretary of State Dean Rusk which apologized for improper activities by American agents and promised disciplinary action.

Zablocki said it was "most unfortunate" that the State Department had issued a formal denial of the bribery charge on Tuesday and then had itself reversed yesterday.

NOT DIFFICULT

"It is not too difficult to look back to what action Prime Minister Lee was talking about," Zablocki said. He refused to elaborate.

State Department officials insisted that only Rusk and the Central Intelligence Agency knew of the letter to Lee. Zablocki indicated that Congress had been filled in on the incident when it occurred toward the close of the Eisenhower administration.

Zablocki said the case indicates a need for a joint congressional committee composed of the chairmen of the Armed Services, Foreign Affairs and Appropriations Committees of the Senate and House to look into CIA activities.

Administration authorities said U.S. Ambassador James D. Bell in Kuala Lumpur will meet soon with the late Singapore prime minister to discuss problems between the two countries. Consideration also is being given to naming an ambassador to the newly independent island state.

Press Hunt for Killer of Student

DETROIT (AP)—With one man held for questioning, police of the homicide bureau today pressed their investigation of the slaying of Mrs. Edna Lee, a Wayne State University graduate student.

Mrs. Lee, 32, a twice-wed beauty with degrees from two colleges and described as the estranged wife of a nuclear physicist, was found strangled in the bathtub at her apartment Wednesday.

Police said Mrs. Lee's purse was found in the apartment and nothing had been disturbed.

Two men reported to have dated Mrs. Lee on the weekend were picked up. One later was released.

Inspector Hiram Phipps of the homicide bureau said a relative of Mrs. Lee said she was the wife of Jung K. Lee, physicist at a Kansas University.

LEE END HUSBAND Phipps said the family described Lee as a member of a wealthy Chinese family. Lee was Edna's second husband.

An earlier marriage ended in divorce, police said.

Mrs. Lee's mother, Mrs. Alice LeFleur of Detroit, 66, said her daughter's husband recently sent her \$3,000 which she used to buy a car. The couple had maintained friendly relations, the mother said.

The car was found locked and parked in a lot behind the apartment house in a midtown section a few miles from the Wayne State campus.

The slaying victim's body was found by Mrs. LeFleur and a second daughter, Mrs. Nancy Mack, 29, of Warren. The two women said they went to the apartment after telephone calls to Mrs. Lee had gone unanswered.

HHFA authorities in Washington, D.C. This will formally revise plans

for the city's five-year-old maid-en effort at urban renewal.

4.3 ACRES

Essentially, the revised R20 plan will permit the purchase of 4.3 acres of property, most of it vacant land.

In addition, financing behind the project will be revised. Gross cost of the project will be lifted from its original esti-

mated in 1960 of \$6.1 million to \$10.3 million.

Perhaps more significant, however, are the two changes most apt to be noticed by the taxpayers. These are:

• A \$1-million drop in the gross cost of the project.

• An extension of the R20 project's closing date from March 31, 1966 to April 7, 1967. This latter change would mean that Pontiac will live with urban renewal, at least on paper, for another two years.

Pontiac's second urban renewal project—R1A—is also slated for a time extension. A similar request for a spring, 1967

closing date is before HHFA officials.

REVISED PACKAGE

The revised R20 package, first submitted last December, has received preliminary approval from the federal government, along with conditional approval for a portion (\$2.1 million) of the city's grant of federal funds.

In granting the tentative okay, federal authorities trimmed \$116,000 from the city's revised R20 application.

HHFA deleted \$32,672 for site improvements, \$34,456 in the land disposal account, and increased by \$37,753 what the city (Continued on Page 2, Col. 3)

City After Final OK on R20 Revision

By L. GARY THORNE

Next week city officials will dispatch a revised plan on Pontiac's R20 project to the Chicago regional office of urban renewal. A local public hearing, necessary but routine, will be held on the plan Tuesday.

Shipping the bulky R20 document to Chicago for the second time, local officials hope to complete complicated legal steps toward final approval of the plan. Preliminary approval has already been secured.

Hopelily, Housing and Home Finance Agency personnel in Chicago will stamp their okay on the package. Eventually, similar approval will be added by

Pontiac, Waterford Teachers Attend Preschool Sessions

Pontiac and Waterford Township teachers will take part in an extensive preschool workshop program this week and next prior to the beginning of classes.

Throughout this week in Pontiac workshops have been conducted in nine separate areas and all new teachers and teachers who have previously not taught in these areas will attend the sessions.

Instructional areas selected for workshops include secondary social studies, language arts, and mathematics, special education, home economics and physical education.

On Friday a special "Welcome to Pontiac" workshop is scheduled for all new teachers in the district.

In the morning teachers will meet at the Pontiac Central High School for a welcome by city officials, school administrators and school board members.

Hurricane Eye off Bahamas

MIAMI, Fla. (AP) — Hurricane Betsy roared with increased fury today toward the southeastern Bahamas Islands, but a gradual turn toward the northwest eased the storm's threat to the heavily populated southeast coast of Florida.

At 11 a.m. EST, the Miami Weather Bureau reported that the hurricane's top winds had risen to 45 miles an hour, but no further intensification was indicated.

"Betsy is expected to remain a small hurricane," the advisory said, "and is forecast to move on a west-northwest course near 10 miles an hour during the next 12 to 24 hours, with a little more turning toward the northwest late Friday."

The forecast track would take the storm center a short distance to the north of the Bahamian island of San Salvador.

An earlier report from a hurricane hunter plane indicated that top winds had risen to 125 miles an hour, but this figure was downgraded after further readings.

Gales extended 200 miles in all directions from the eye except on the southwest side, where they whipped out only 75 miles.

The Weather

Full U.S. Weather Bureau Report
PONTIAC AND VICINITY — Fair and warmer today and tonight. Highs today 70 to 78. Lows tonight 59 to 58. Friday partly cloudy and warmer with a chance of a few scattered showers in late afternoon or evening. Highs 77 to 85. Showers winds 10 to 15 miles today. Saturday's outlook: Partly cloudy and a little cooler.

North Viet Nam Pushing for 'Big City' Unrest

By WILLIAM L. RYAN
AP Special Correspondent

In this important anniversary week for North Viet Nam, its regime acts like a gambler reaching for the ace up his sleeve—the potential for trouble

among influential Buddhists and intellectuals in South Viet Nam.

The North's propaganda hammer at this resilience in an obvious attempt to activate and enlarge a political warfront in the South's cities, thus "attack-

ing the enemy's rear" in support of Communist forces.

The success of the effort would depend upon the extent to which Communist agents have infiltrated and influenced the South's restive elements.

Exactly 20 years ago, Sept. 2, 1945, Ho Chi Minh appeared in Hanoi's Ba Dinh Square and proclaimed a "Democratic Re-

public of Viet Nam." The event heralded two decades of war in Indochina.

WARTIME FIGHTER

In many Western eyes at the time, "Uncle Ho" was a nationalist patriot and reformer, a fighter against the Japanese wartime occupation and against the returning French colonial power. Today, North Vietnamese propaganda describes Ho's strategy of that time as "clever association of the experiences of the Russian October revolution and those of the Chinese revolution."

North Viet Nam's Communists call the events leading to the Sept. 2 proclamation "the August revolution." A little more than a week ago, they directed propaganda appeals to their collaborators and sympathizers in the South to adopt the same tactics.

It may be just coincidence, but the past week brought a rash of demonstrations in the South similar to the one in Hue over the weekend involving 3,000 Buddhists and another at Da Nang, where the U.S. Marines have their most important base. There are also evidences of resurgent student restlessness in Saigon.

Hanoi's propaganda urges Communists and their sympath-

izers to exploit all possibilities, "political, military, economic and cultural."

VIETMINH MODEL

It urges them to model themselves on Ho's Vietminh in its war on the French, to "engage in regional guerrilla war and partial uprisings, seize power in rural areas, gradually turn this guerrilla war into an all-out war of the people, drive back the enemy step by step and advance toward seizing all the power from the enemy."

These instructions call for "uprisings by city people who have collaborated with the revolutionary forces in rural areas, to attack the enemy's rear, shake and weaken him and prevent him from leading a calm life in a safe rear area."

"Everyone under any circumstance must know how to apply cleverly these two forms of struggle in order to make the enemy increasingly passive and confused, prevent him from using his whole strength and prevent him from using his intelligence to cope with our attacks or extricate himself from his present embarrassed and stymied situation," the instructions say.

Like Mao Tse-tung's Communist revolution in China, the Vietnamese one began in rural areas; Hanoi's spokesmen say the Viet Cong now control four-fifths of the countryside and 10 million people. Thus, they find it is time to bring the war to the cities in whatever forms possible.

One form of warfare is exploitation and constant exacerbation of political unrest. The United States has turned its attention to the need for psychological warfare to win over peasants in rural areas. Evidently the restive elements in the cities will be as much, if not more, a problem from now on.

Maverick jeans

Lawyers Seek Hoffa Retrial

Motion Is Filed on Jury Fixing Charge

CHATTANOOGA, Tenn. (AP) —Attorneys for Teamsters Union President James R. Hoffa Wednesday filed a motion for a new trial on jury tampering charges.

The motion listed 26 grounds for another hearing, among them alleged misconduct of jurors and U.S. marshals and bias of the trial judge during Hoffa's 1964 trial in Chattanooga.

The attorneys also asked that U.S. District Judge Frank Wilson who sat on the bench in the case, be disqualified from further hearings.

Hoffa was convicted on charges of tampering with the jury during a 1962 conspiracy trial in Nashville. He was sentenced to eight years in prison. The conviction was affirmed by the 8th U. S. Circuit Court of Appeals July 29.

CODEFENDANTS

Attorneys said that three codefendants probably would join in the new trial motion today.

The three were Larry Campbell, an official of the Detroit Teamsters local; Thomas Ewing Parks of Nashville, Campbell's uncle; and Ewing King, former president of the Nashville Teamsters local.

The five-page motion was signed by attorneys Harold Brown of Chattanooga and James E. Haggerty Sr. of Detroit, who was Hoffa's chief counsel during the trial.

The document alleges that U.S. marshals in charge allowed jurors to have girls visit them in their hotel rooms while they were supposedly locked up overnight.

Baton Crown to Sophomore at Waterford

Waterford Township High School sophomore Mickey Burns is the new Michigan State Fair 15-year-old baton twirling champion.

Competing against twirlers in her age group from throughout the state, Miss Burns outscored them all in senior division action at the fairgrounds.

Championships were also decided in the 16- and 17-year-old classes.

Miss Burns won a gold medal for her effort.

Two years ago, she placed third in her age group in the same competition and, last year, finished second.

She is the daughter of Mr. and Mrs. Van H. Burns, 939 Lakeside, Waterford Township.

Plan Your Labor Day With Care—and Use It

Established in 1894 by a bill signed by President GROVER CLEVELAND, Labor Day was conceived as a period of rest and surcease from toil for the workers of America.

It was initially observed by parades, ceremonies and community recreation.

As the years passed and the country more and more came to live on wheels, the ceremonial aspects of the holiday have given way increasingly to motoring interludes to points near and far.

But because of the growth in population, the amazing increase in automobile ownership and the vast network of highways crisscrossing the United States, the pleasure that rightfully belongs to Labor Day has become tempered by the sorrow of mounting motoring fatalities.

Of the three summer holidays, Labor Day puts the most autos on the highways and tragically exacts the highest death toll. Moreover, in recent years, the first Monday of September has given rise to a growing tendency on the part of the undisciplined to indulge in collective demonstrations of lawless dissipation and destruction.

Last year, over the 78-hour Labor Day holiday (6:00 p.m. Friday to midnight Monday) highway accidents claimed 535 lives. Michigan's total was 26.

With 5 per cent more auto travel this year over last, the National Safety Council grimly foresees 500-600 lives lost on the Nation's highways this weekend.

Safety exhortations and periodic warnings seemingly have had little effect in stemming the growing highway slaughter. They will not be repeated here, except to point out two significant factors:

- The preponderance of highway deaths occur within 25 miles of the victims' homes. Of the total of 42 deaths in Michigan over Memorial Day and Independence Day holidays, all but six were killed within that radius.

- Eighty-five per cent of all highway fatalities occur between 6 p.m. and 6 a.m.

If the implication of these two findings are given due consideration by motorists and proper restraint exercised by those bent on convivial celebration, the Nation may awake Tuesday morning to the heartening news that safety and sanity have prevailed to make Labor Day the occasion for which it was intended.

De Gaulle Under Spell of Old Maginot Line

Venting an anachronistic urge difficult to comprehend, French President CHARLES DE GAULLE is pouring millions of ill-spiced dollars into the ghost of the old Maginot Line to preserve the legend of France's military predominance.

Although he has inflexibly pursued the objective of an independent French nuclear capability, scorning the West's proposals for a multi-power nuclear alliance, Le Grand Charles has committed more than \$300 million in upkeep of the famous Line since World War II.

Built in the 1920s and '30s to make France invulnerable to German attack, the defense system requires weekly tests of guns, independent power installations and ventilation.

The Germans, who have tried unsuccessfully to persuade DE GAULLE to scrap the Maginot Line, calling

it a divisive symbol between Germany and France, say the French leader cherishes it as a memorial to his country's military might.

In vindication of the Line's ineffectiveness in halting the Nazi invaders, DE GAULLE asserts that the enemy went around, not through it.

But to demolish the fortification would be in effect an admission on DE GAULLE's part of French fallibility and lay open to question his own infallibility in pushing for a national nuclear weapon program at the cost of conventional armed strength.

The latter has now been reduced to 600,000 men — plus, of course, the military fiction of the impregnability of the Maginot Line.

We wonder whether the old conceit that "50 million Frenchmen can't be wrong" shouldn't be reduced by one.

Just as you have observed, statisticians learn a lot that the rest of us have known all along. For example, one of them recently announced that a check of 700 representative types of people showed that women are broader-beamed than men.

New Approach by Presidents

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON — The country is getting a new kind of presidency. Television and changing times are part of the reason.

This week, President Johnson looked like an on-the-ball chief executive when he went on television to announce he had obtained an eight-day postponement in the steel strike.

The idea wasn't quite new with him. President John F. Kennedy did pretty much the same kind of thing. Johnson just does more of it.

Kennedy used a televised news conference in 1962 to congratulate the steel union and industry for what he thought was an "obviously noninflationary" settlement.

Then when the industry, to his chagrin, raised prices, Kennedy used another televised news conference to denounce the steelmakers, who backtracked fast and dropped the price boost.

Kennedy and Johnson were doing two things:

Taking action and letting the nation see it close up pretty much as it happened. But still using the steel industry as an example, they weren't the only presidents who took strong action.

Dwight D. Eisenhower, after getting a postponement but then letting a steel strike start in 1953, finally asked for an injunction to cool it off.

In 1962, Harry S. Truman seized the steel mills to prevent a shutdown.

All four men had to take decisive steps in many times which would have seemed extreme to presidents in the 19th century and to some of them in the first 30 years of this century.

But, with television so handy, presidents in the future, after the examples set by Johnson and Kennedy in using it in tense, national moments, will be expected to go on the air to let the nation be the latest.

Further, since they will be on screens from coast to coast, they don't dare look wispy-waspy and must at least try to give the impression of decisive action even when they're hedging.

Since the depression of the 1930s, when the nation had to look to the White House for action, President Franklin D. Roosevelt set the pattern for the future by accepting true responsibility.

Since Roosevelt, every president has found himself deeper and deeper in monumental problems that couldn't be ignored or let slide and the reasons for that are obvious.

Gradually, as the American society and the economy have become more interdependent, among all their parts, there has been less room for delay or indecision.

With Bribery, Spy Charges

Why Did Singapore Blast U.S.?

By JOHN CANTWELL
SINGAPORE (AP) — Why did Singapore's Prime Minister Lee Kuan Yew drag up bribery and spy charges against the United States this week — some 4½ years after the incidents occurred?

Two theories appear to be gaining support among political observers in this newly independent nation.

One view is that prestige-conscious Lee, worried by the small number of African and Asian countries that have recognized his government, made the anti-American charges to prove that he is not a "neocolonialist stooge."

The other theory is that the United States has been putting pressure on Lee since Singapore separated from Malaysia to declare that he is in the anti-Communist camp. Such a move by Lee would and his chances of being recognized as a neutral by the African and Asian nations.

Observers here generally give more support to the first view than the second.

Some had noted that Lee appears to be worried by the illness of someone close to him and that he is under tremendous strain to reorganize his government since separation from Malaysia.

Observers were startled by Lee's show of emotion when announcing that this tiny island state had been forced by Malaysia to leave the federation.

He broke down, and wept while explaining the move at a news conference. In the past he had created an impression of being fiery and tough.

Some also were taken aback by the prime minister's anti-American statements during a televised news conference Tuesday. He said then the U.S. government had offered him a \$3-million bribe not to reveal that a Central Intelligence Agency operative had been caught and arrested for trying to buy state secrets.

FORMAL DENIAL
The U.S. State Department issued a formal denial of Lee's charges. But after Lee produced a letter of apology written by Secretary of State Dean Rusk, it said the denial was in error.

The letter, written April 15, 1961, apologized because "certain U.S. government officials" had been engaged in "improper activities in Singapore."

Although Lee, 42, rode to power with the support of Communists, he is generally believed to be anti-Communist.

Lee, a graduate of Cambridge University, claims to be a democratic Socialist. But his Socialist leanings are mild.

He was trained as a lawyer. And his wife, who is also a lawyer, runs his successful law firm here.

Lee claims he is not an apologist and says he hates "what the British pumped into me" when he was at school in England.

But he always wears an old-school tie on formal occasions and shows a marked preference for things English.

He seems to believe that Americans are not as sophisticated, subtle or accomplished statesmen as his old mentors.

U.S. ROLE
But Lee realizes the role the United States is playing in Southeast Asia. Despite his claim that he will "never have the Americans" in Singapore, he knows their presence is necessary for his survival.

Observers believe Lee is unlikely to continue to attack the United States. He told newsmen Wednesday "I have made my point. So we ought to leave the position as it stands."

Observers believe Lee has made his claim to African and Asian support and is likely to be satisfied with it.

Smiles
It's time to put away a little cash each day so you'll have some money to go broke with, come Christmas.

"The taxpayer never knows how many taxes he pays when he buys something," says an economist. Yes, and in this case, however, what he doesn't know does hurt him.

WASHINGTON (NEA) — In part, President Johnson's aides, in the maritime strike and in the steel labor "contract negotiation difficulties," may have been reaping the results of past government intervention.

Some administration labor negotiators privately say that knowing the President would move in makes stalling profitable.

When one side in a labor dispute thinks it can gain more from White House intervention than it can gain at the bargaining table from its opponent, then it stalls until the government intervenes.

United States. He told newsmen Wednesday "I have made my point. So we ought to leave the position as it stands."

"The taxpayer never knows how many taxes he pays when he buys something," says an economist. Yes, and in this case, however, what he doesn't know does hurt him.

WASHINGTON (NEA) — In part, President Johnson's aides, in the maritime strike and in the steel labor "contract negotiation difficulties," may have been reaping the results of past government intervention.

Some administration labor negotiators privately say that knowing the President would move in makes stalling profitable.

When one side in a labor dispute thinks it can gain more from White House intervention than it can gain at the bargaining table from its opponent, then it stalls until the government intervenes.

Some of these men point to the long fight over eliminating firemen from freight trains.

They say this conflict lasted for years in part because it was certain the government would prevent a nationwide railroad strike at any cost.

"Sometimes," says one official wryly, "both sides figure they have nothing to lose by toughening their positions and

holding out. They believe presidential intervention will rescue them from their own stubbornness."

Steel and maritime labor-management negotiations are not the only labor disputes Johnson and his aides have moved in on this year.

For some time now, the White House has kept a continuous tight check on aerospace and other military contractor-labor negotiations.

Teams at the Department of Defense, for example, all this year have been required to prepare reports on each aerospace company's defense production well in advance of the expiration of its labor contract.

These reports show the effects on defense output, if labor-management negotiations should break down and the men decide to go on strike.

Separate tables give the effects of a short strike and a long strike at each company concerned. Other tables give the cost of various possible wage-fringe benefit settlements.

If either a short or long strike would slow the output of needed arms or other defense materials, the government moves in to bring pressure to a settlement.

Voice of the People:

Director Details Function of County Animal Shelter

In 1964 there were 11,072 dogs handled at the Oakland County Animal Shelter. Of these, 930 were reclaimed by their owners, about 3,000 placed with new owners, and the balance disposed of in a humane manner. Many of the dogs in this latter group were disposed of at the request of the owners, many were sick or injured when brought to the shelter, and some were newborn puppies.

In addition, 10,000 cats were brought in by private citizens, as the dog wardens do not pick up cats. Under the State law, cats fall into the same category as timber wolf, coyote, fox, weasel, etc.—they may be trapped, hunted and killed at any time. Less than one tenth of the total cats received find new homes and the rest are put to sleep humanely. Cats do not adjust well to confinement, being predators by nature.

Representatives of the American and the State Humane Societies have visited our shelter and reported it to be one of the best county animal shelters in the United States as to construction and operation. The vast majority of the animals brought here are not "household pets." Many are sick, hungry and frightened. Many are vicious. The dogs are put to sleep by use of electricity—4800 volts—and the cats by the use of exhaust from a motor, passed through water into the container holding them.

Reader Comments on Parking Restrictions

I am very disgusted with parking restrictions near the Electrolysis Center in Waterford. My aged mother has to walk in pitch darkness to the center and my father has to park in the dark and wait.

We remember how this street looked before the center was opened. It was an eyesore. If Waterford wants a ghost town, it is doing a good job.

LBJ Labor Intervention Unwise

By RAY CROMLEY

WASHINGTON (NEA) — In part, President Johnson's aides, in the maritime strike and in the steel labor "contract negotiation difficulties," may have been reaping the results of past government intervention.

Some administration labor negotiators privately say that knowing the President would move in makes stalling profitable.

When one side in a labor dispute thinks it can gain more from White House intervention than it can gain at the bargaining table from its opponent, then it stalls until the government intervenes.

Some of these men point to the long fight over eliminating firemen from freight trains.

They say this conflict lasted for years in part because it was certain the government would prevent a nationwide railroad strike at any cost.

"Sometimes," says one official wryly, "both sides figure they have nothing to lose by toughening their positions and

holding out. They believe presidential intervention will rescue them from their own stubbornness."

Steel and maritime labor-management negotiations are not the only labor disputes Johnson and his aides have moved in on this year.

For some time now, the White House has kept a continuous tight check on aerospace and other military contractor-labor negotiations.

Teams at the Department of Defense, for example, all this year have been required to prepare reports on each aerospace company's defense production well in advance of the expiration of its labor contract.

These reports show the effects on defense output, if labor-management negotiations should break down and the men decide to go on strike.

This has been for national security. When men are fighting a war, as in Viet Nam, there must be assurances that these men get the arms and the supplies they need.

One result has been few major strikes. Delivery schedules of defense materials have not been interrupted.

The other result has been a general breaking of the government's own wage-increase guidelines. Wage increases, including fringe benefits in the aerospace industry of late, have been above national increases in productivity.

The wage increase precedents resulting from government action bring pressure on other industries, including steel, for equal wage gains.

The President's men have not yet figured a way out of this dilemma.

Ghana Chief Controls Army

Rumors That Generals Want to Depose Him

ACCRA, Ghana (AP) — President Kwame Nkrumah has taken direct command of Ghana's army following widespread rumors that some generals wanted to depose him.

Sources said two generals, ousted from their posts and retired in a surprise move last month, suggested Ghana would be better off without Nkrumah.

There was no indication, however, the generals actually plotted against the Ghanaian president.

Nkrumah took over command of the army Tuesday in a ceremony at Accra's Burnaby Camp.

TOOK OATH

His newly appointed chief of defense, Maj. Gen. N. A. Aferi, and other senior officers then took an oath of allegiance to Nkrumah.

Aferi and Maj. Gen. Charles M. Barwah were named chief and deputy chief of the defense staff early last month. Replacing Maj. Gens. S. J. A. Otu and Iji A. Ankrabeh respectively. Neither of the officers, both 49, has been held or charged.

Ghana's government-controlled press and radio gave no reasons for the unexpected staff changes.

By taking direct command of the 10,000-man army Nkrumah left Defense Minister Kofi Baako with only the jobs of civil defense, the veterans organization and administrative work.

PREVIOUSLY TAKEN

Nkrumah previously had taken direct command of his personal security battalion which acts as his household guard.

Ghana's special security police are Soviet-aided.

Congress Pigeonholes 3 Key Measures in September Adjournment Drive

By JACK BELL

WASHINGTON (AP) — Democratic congressional leaders have decided to jettison minimum wage, congressional redistricting and unemployment compensation legislation in their drive for a late September adjournment.

This decision, reflected in Senate Democratic Policy Committee action, apparently has at least the tacit approval of President Johnson. The three major measures "to be pigeonholed with remain alive for action in 1966."

Senate Democratic Leader Mike Mansfield said in an interview the party policy committee has called for Senate action on a half dozen major measures before the current session ends. These include the \$4.7-billion higher education aid bill on which Senate debate begins today.

Other measures the committee wants pushed to a vote, Mansfield said, include bills to repeal state union shop bans, revise the farm subsidy system, abolish the national origin quotas on immigration, step up vocational rehabilitation and beautify highways. Included

'What a Coincidence

Bumping Into You'

OSCODA — State Police captured a 15-year-old fugitive from Ypsilanti State Hospital Wednesday night near here after the boy had gone on a car stealing spree in a flight northward.

Police said the youth was apprehended after he collided in the last of his stolen cars with a car of Josco County authorities who were seeking him.

also are the regular money bills, with the always controversial foreign aid bill among them.

PROPOSED HIKE

A proposed pay increase for federal civilian employees was not on the priority list. Action on it seems to depend on whether sponsors lower their sights to levels acceptable to Johnson. The minimum wage measure, which would expand coverage to 7.2 million more workers, is jammed up because Johnson has taken no position on House committee action to raise the federal minimum from \$1.25 to \$1.75 an hour. Some legislators

think its passage in the 1966 election year would leave its benefits fresh in the minds of low-income voters.

The congressional redistricting bill, passed by the House, has had scant Senate attention. Neither house has shown any inclination to act on Johnson's proposal for standardization of state unemployment benefits.

The Senate policy group added the highway beautification bill to its list of priority legislation largely because Johnson repeatedly reported to congressional leaders that Mrs. Johnson

keeps after him to get it passed. The farm bill has had heavy going in the Senate Agriculture Committee but Chairman Allen J. Ellender, D-La., said he believes the group is near an agreement on it.

The House-passed immigration measure temporarily is

snarled in a dispute over whether the Senate Judiciary Committee is going to send to the calendar a proposed constitutional amendment on state legislative reapportionment.

Senate Republican Leader Everett M. Dirksen, sponsor of

the amendment, has blocked committee action on the immigration measure until he can get assurances that this reapportionment proposal will go to the calendar for action next year.

Mansfield and other leaders are reserving the final weeks of

the session for consideration of the proposed repeal of the Taft-Hartley law provision which allows states to ban labor contracts that require workers to belong to a union. Nineteen states have such laws. Dirksen has threatened a filibuster against action on it.

Juvenile Officers' Session

Seminar Tickets Are Available

Reservations are still being accepted for the Oakland County Juvenile Officers' Association-sponsored workshop session Sept. 15 at Southfield Civic Center.

All police officers in the county are invited to attend the all-day seminar, cosponsored by Probate Court.

Included topics are Juvenile Court procedure, matters of handling detention, the bad-driver point system which now affects 16-year-olds and new legislation pertaining to juveniles.

The program will begin at 8:30 a.m. with a registration period. There will be four sessions, two in the morning at 9:45 and two in the afternoon at 1:15.

Luncheon will be provided at the Civic Center before the afternoon sessions.

INTRODUCTIONS

Judge Clarence Reed Jr. of Southfield Municipal Court will open the program by introducing various dignitaries and participants.

Officers planning to attend are asked to send a \$2.50 remittance for registration and luncheon fee to James Davis, Beverly Hills Police Department.

There is only one city in the 21-square-mile island of Bermuda, Hamilton, capital of the island, has a population of 2,871. The only other community, St. George has a population of 1,869.

Says Critics Irrked JFK in Cuba Crisis

NEW YORK (UPI) — "If they want this job, they can have it; it's no great joy to me."

The speaker was the president of the United States, the late John F. Kennedy.

The time was during the Cuban missile crisis of October, 1962, when he thought the odds were about 50-50 that the Soviet Union and the United States would go to war.

This estimate of the chances of a U.S.-Soviet conflict was made by the late president, said one of his chief advisers, Theodore C. Sorenson, in an article in the current issue of Look magazine.

Sorenson quoted Kennedy as saying the chance of nuclear war was "somewhere between one out of three and even" during those 13 tense days when the Soviet missile buildup led to a U.S. blockade of the Caribbean island.

MET IN BRIEFING

Sorenson said Kennedy was annoyed with certain congressmen who met with him in a president went on television to inform the nation of the Soviet missiles.

The congressmen had complained that the naval blockade was not enough.

After the meeting, Sorenson met Kennedy.

"As I walked with him, he told me of the meeting, muttering, 'If they want this job, they can have it; it's no great joy to me.' But in a few minutes, he was calm and relaxed again," Sorenson said.

REACHES PEAK

The crisis reached its peak, Sorenson said, on Saturday, Oct. 27, five days after Kennedy informed the nation of the presence of the missiles.

On that day, an unarmed American U2 plane was shot down by a surface-to-air missile (SAM) during a surveillance flight over Cuba.

"If the Soviet ships continued coming, is the SAMs continued firing, if the missile crews continued working and if (Soviet Premier) Khrushchev continued insisting on concessions with a gun at our head, then — we all believed — the Soviets wanted a war, and war would be unavoidable," Sorenson wrote.

By "we", he was referring to Kennedy's closest aides.

PLANE DOWNED

Then came news of the downing of the U.S. plane. He said Kennedy's plans for such an eventuality called for a single retaliatory strike against Cuban anti-aircraft missile sites, manned by Soviet crews. Kennedy decided to wait a day, however, and the next morning, Khrushchev accepted the terms for removal of the over.

Grand Jury Calls 'Enforcer'

MT. CLEMENS (AP) — Santo (Sam) Perrone, identified by police as an "enforcer" for the Mafia, was one of seven witnesses called before a Macomb County grand jury Wednesday. The grand jury is looking into the gangland-style killings of Pete Lombardo, 64, a reputed lower echelon Mafia leader; Sol C. Brodski, 43, and Joseph C. Mocerri, 44.

Chatting amiably with newsmen, the one-legged Perrone — his right leg was blown off in 1964 by a bomb planted in his car — said of the investigation "I don't think it's nothing."

When he emerged later from the jury room together with other witnesses he snapped "Don't bother me, I'm sick."

KEY FIGURE

Perrone is believed to be the key figure in the investigation.

Romney to Be Host

LANSING (AP) — Gov. George Romney will host a dinner at Lansing Sept. 8 to formally present Maj. Gen. Clarence Schmitz, newly appointed adjutant general of Michigan. Some 500 members of the Michigan National Guard, other armed forces officials and state officials are scheduled to attend.

Probe to Start in Ticket-Fixing

Grand Juror Calls for All Evidence in Case

DETROIT (AP) — Circuit Judge Edward S. Piggins, named to conduct a one-man grand jury investigation of the Wayne County ticket-fixing scandal, said Wednesday he hopes to start hearings next Tuesday.

Piggins also ordered the sheriff's department and the prosecutor's office to send to him all evidence available in the case, including all tickets fixed since 1961.

"It is the duty of any American citizen with any knowledge relating to the inquiry within the scope of the grand jury to advise the grand juror. The information will be kept in utmost confidence," Piggins said.

Wayne County Sheriff Peter L. Buback announced, meanwhile, he had hired a lawyer to fight an accusation that he personally was told the ticket-fixing 15 months ago.

VOIDED TICKETS

Stanley Swiatkowski, chairman of the Nankin Township safety commission, said Tuesday he personally met with the sheriff in June 1964 and turned over to Buback photostatic copies of the voided traffic tickets.

Buback, in a prepared statement, said he has instructed his attorney "to take each and every action which the law permits to prove Swiatkowski's statement to be the lies they are."

In another development, Jerry Maton, 42, a Van Buren Township trustee, told the Wayne County prosecutor's office Wednesday he had been beaten and kicked by three men who warned him to "keep your mouth shut about ticket-fixing."

Maton said he was attacked early Friday outside his home in Belleville.

UNKNOWN MEN

He told Wayne County deputies afterwards he didn't know the men who attacked him.

Maton said he could give no reason for the beating.

"I don't know anything about any ticket-fixing," he said.

Widow, 77, Due Debut in College

CLEVELAND, Ohio (AP) — A 77-year-old grandmother will attend Cuyahoga Community College this fall on a senior citizen scholarship.

"I want to go to college so I can improve myself and gain a better understanding of what is going on in these changing times," Rosa Jane Davis said in an interview. "In so doing, maybe I can help someone else."

Mrs. Davis is the oldest of 34 persons in Greater Cleveland recently awarded senior citizen scholarships. The senior citizen scholarship idea was announced last spring and drew about 70 applicants, all required to be 60 years or older. Tuition, fees and books are provided by the college and a private firm (Revo Drug Co.).

Born on a farm in Madison County, Ga., Mrs. Davis came to Cleveland in 1923 after "my four sisters and three brothers were married."

MAIN PURPOSE

"My main purpose in coming to Cleveland was to attend night school and further my education, but my work here was harder than I had been accustomed to and I found I couldn't work and go to school, too," she said.

She retired when she was 65 after jobs in school cafeterias. She now devotes most of her time to work in the St. John's African Methodist Church and her six grandchildren. A widow since 1957, she has lived with her daughter.

The schools she attended in her native Georgia "were not graded in my day," Mrs. Davis said, but she estimated her formal education was about equivalent to 9th grade.

Now she plans to take a liberal arts course, concentrating on literature and composition. She hasn't decided how many courses she will take.

"I have two grandsons in senior high school," she said. "I might call on them to help me with my college work."

Rate of South Viet Desertions Decreased by Over Half, Pentagon Reports

WASHINGTON (AP) — The rate of desertions from South Viet Nam's armed forces has dropped by more than half from a high point early this year, Pentagon sources disclosed today.

This is considered a hopeful sign, possibly indicating an up-

swing in South Vietnamese morale and a rising confidence in the non-Communist cause.

The Pentagon refused to discuss the desertion rate. But knowledgeable sources said it is now down below 5,000 a month. About 10,000 men a month

were pulling out of the South Vietnamese armed forces for about three months early this year.

HEAVY DRAIN

Although the desertion rate has been cut by more than half, it still represents a heavy drain

on a force already stretched so thin that the U.S. troop commitment in Viet Nam has had to be increased heavily.

The desertion problem makes much tougher the job of building the South Vietnamese armed forces by another 100,000

men. The present strength stands at about 545,000.

U.S. authorities are hopeful that higher pay and reforms aimed at improving the lot of soldiers and their families will lower the desertion rate further. Also, the national police are

being strengthened, in part, to cope with the desertions from the armed forces.

HOME GUARD

U.S. officials said most desertions have been from part-time regional and home guard elements, rather than from the regular army.

They were unable to say how many men went over to the Communist Viet Cong and how many simply returned to their villages and farms. Former Ambassador Maxwell D. Taylor said recently, "We have very little indication of defection to the enemy."

Got Last Rites From Cardinal

BOSTON (AP) — Richard Cardinal Cushing climbed into the wreckage of an auto outside his home and administered last rites of the Roman Catholic Church to two youths trapped inside. One of them died.

The archbishop of Boston, 70, reported on a radio broadcast that he was sitting in his study about 5 p.m. Wednesday when he heard "this dreadful crash."

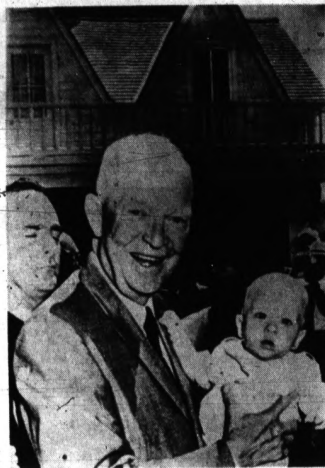

He took his ammentment oils ran from the chancery and jumped off a wall to reach Commonwealth Avenue. The car had crashed into a utility pole.

The cardinal crawled above the steering wheel and gave the last rites to Philip Bemis, 22, and John Flueckinger, 17.

Bemis was killed, Flueckinger and two other teen-agers riding in the car were seriously injured. The cardinal ministered to all four.

The cardinal reported that Bemis said to him, "Thank you, cardinal. Take care of my friends."

The cardinal later aided firemen in freeing Bemis and Flueckinger.

MEETS NAMESAKE — Gen. Dwight Eisenhower, visiting Denison, Tex., yesterday, holds a lad who was named after him. Eisenhower was paying a visit to his birthplace (building in background). The boy is 2-month-old Dwight David Gaines, son of Mr. and Mrs. E. F. Gaines of Dallas.

Sailor Pulled Bobby From Stormy Sea

NEWPORT, R.I. (AP) — Boatswain Mate I.C. Sam E. Harris, 26, described today hauling Sen. Robert F. Kennedy aboard a small Coast Guard cutter in 20-foot seas and 40-mile-an-hour winds off the Massachusetts coast.

Harris had received word at the Castle Hill Coast Guard station that the New York Democratic senator's daughter, Kathleen, 14, was injured — perhaps critically — when her horse fell on her Sunday during a Cape Cod horse show.

The Coast Guard said all efforts to reach Kennedy, seven of his children and friends aboard a yacht, Neris, in Rhode Island Sound failed because the yacht radio had been turned off.

Harris said he and his crew aboard a 30-foot craft finally reached them several miles off shore but the waves were so high he was unable to pull alongside.

ATTEMPT TO SWIM

Kennedy, 39, then decided he would attempt to swim to the cutter despite the waves, occasionally reaching heights of 30 feet. That he was forced to dive from the yacht and make the

swim was learned Wednesday night by the Washington Post, and confirmed today by Harris. He said Kennedy took off his shirt, put on an orange floater vest, and swam for 32 seconds toward the cutter, which was then able to clip in on him and pull him aboard.

Both the cutter and the Neris then had to battle back to Cape Cod.

Harris said: "Fifteen minutes later we came off the back of a 30 foot wave and slammed into the trough of another and the water broke two windows and came pouring into the cabin," containing Kennedy, Harris and two crewmen.

100 STITCHES

Harris suffered a severe hand cut and was later hospitalized for two days.

The senator expressed concern over the welfare of the Neris, Harris said, and another 44-foot lifeboat was sent out and escorted it to Martha's Vineyard.

Kennedy and the cutter reached Woods Hole about three hours after the Castle Hill station was alerted of Kathleen's

injury, and Kennedy then went to Cape Cod Hospital. The girl was reported in fair to good condition today.

In the meantime, aboard the Neris, the senator's 13-year-old son Joseph, was struck on the chest by the boom and suffered an injury from which he is recuperating at the Kennedy's home in Hyannis Port.

HAND CUT

Two days earlier Robert Jr., 11, suffered a leg cut for which 100 stitches were taken when he fell through a window from a garage roof at the Kennedy compound.

Tuesday, the head of the family, former Ambassador Joseph P. Kennedy, 76, was admitted to New England Baptist Hospital in Boston. He was reported resting comfortably during his treatment for a skin rash and his general checkup.

Hanger: Police Lack Men to Stop Crime

By DON FEMBER

Are the people of Pontiac becoming afraid to go out on the streets alone at night because they fear thugs and hoodlums? Do husbands hesitate to leave their wives home alone at night because they are alarmed at the number of assaults and burglaries taking place in city homes and businesses?

At least one man in Pontiac believes this to be true — Police Chief William K. Hanger.

The chief makes no bones about it.

"Police service in Pontiac should be greatly improved," he said.

MORE NOTICEABLE

"We have reached the point where deficiencies in police service are going to become increasingly more noticeable," he added candidly.

The problems in the Pontiac police department are the obvious ones — manpower, equipment and training.

In 1957, this department had 112 men. Today, we have only 110," Hanger said.

Since 1957, the police chief said the work load in his department has doubled.

His staff, we investigated 1,500 serious crimes in Pontiac last year, we investigated 3,925.

"We policed 2,500 more accidents last year than we did in 1957," Hanger said.

"And we wrote reports on 20,000 incidents last year; incidents which, in most cases, involved follow-up," he added.

"My men are using some cars that are not safe to drive. And the men realize these facts," Hanger explained.

OLDER CARS

He said the police department is still using 1960 model cars.

For comparison, the Oakland County Sheriff's Department usually has a complete turnover of cars during a two-year period.

The Michigan State Police buys some cars each year and usually retires a patrol car when it has 60,000 miles on it.

Proper in-service training is done on a very limited basis, Hanger said.

"All my men are working. I can't pull them off duty to go to classes, as they should. Instead, they have to come in on their day off and the city must pay

overtime so they can go to school," he said.

The police department was allotted \$2,000 for training in the last budget.

"By all recognized standards, we should have at least \$10,000, or five times what we got," Hanger added.

RESULTS SEEN

Hanger said he was the first to recognize the financial plight of the city, but added that something has to be done soon.

The results of shortages in the police department manifest themselves in many ways.

"We have to make criminal complaints to investigate that we don't have the time we need to spend on crime prevention."

"I feel crimes are committed because the criminals know we sometimes don't have the time to devote to making apprehensions or arrests," he said.

Hanger said that other criminals are fully aware of the frequency of patrol in an area.

WANTS FOR CAR

"If we only have time to check an area once a night, a thief will just wait until he sees our

car go by and then pull his job," the chief said.

The detective division does not always have the time to investigate complaints thoroughly, Hanger noted.

"Sometimes, it is two or three days before they can get to a complaint," he added.

ACCIDENT RATE

Traffic control is another area

on which the department can't spend enough time, Hanger said.

"Because of this, we have a high accident rate. And because of the high accident rate, Pontiac motorists pay the highest automobile insurance rates in the state."

The high crime rate could also have an effect on theft and burglary insurance for commercial establishments, Hanger said.

How many police officers does Pontiac need?

"I estimate, and this is a conservative figure, that we could do the essential jobs with 130 men, or 20 more than we have now," Hanger said.

TRAFFIC CONTROL

"The National Safety Council, however, said in their annual traffic inventory that we need 153 men to do an adequate job in regards to traffic control," he added.

What if the police department got the money needed to pay 20 more men — could they be found?

"This is also a problem. We

have a very difficult time finding qualified applicants. This is due in part to the general conditions today and the life a policeman leads," Hanger said.

To find good men, the police department will have to recruit — such as the Flint and Detroit police departments do.

STATEWIDE SEARCH

Flint and Detroit both have statewide recruiting programs in an attempt to secure new officers.

"But, we don't have the money to do that. Last year, we were given \$150 to spend on advertising and recruiting. That doesn't go very far," Hanger said.

The chief noted that out of every 20 applicants the department gets, about two men finally qualify.

"And it takes us several months to find 20 applicants," he added.

DIFFICULT TIME

Hanger said that the conditions a policeman must face today are very difficult.

Until recently, the law officer was looked upon with re-

spect. When he made a decision, both sides knew it was a fair one, Hanger said.

"When an officer makes a decision today, someone is always on his back, ready to argue with him or criticize him," the chief noted.

Hanger added that a policeman's personal security is another matter which dissuades good men from becoming police officers.

MORE ATTACKS

"Assaults on officers are becoming more frequent," he said.

And in the case of Pontiac, where the department is undermanned, this is a real problem, Hanger said.

"If one of our officers gets in a tight spot, sometimes there is no one to send to his aid immediately," the chief explained.

Hanger stressed that he realized the city was short of funds — and there was little relief in sight.

However, he said, the police department has a direct responsibility to the people, a responsibility which must be fulfilled.

WILLIAM K. HANGER

In Depth Program Planned

Study of County Police Problems OK'd

By JOE MULLEN

Acting on a proposal by Circuit Court Judge Arthur E. Moore, Oakland County officials yesterday authorized an in-depth study of law enforcement problems.

Purpose of the study to be conducted by a nine-member committee appointed by DeLo Hamlin, chairman of the Oakland County Board of Supervisors, will be to determine how police can perform at maximum efficiency in the face of present restrictive laws.

Judge Moore proposed the study to the ways and means

committee of the Oakland County Board of Supervisors and pointed out that the problem is "urgent."

Moore cited the rising crime rate and said that the public is rapidly being left more and more unprotected.

"The truth is that the more recent decisions of the United States Supreme Court, and also decisions of other courts, now give tremendous protection to the guilty criminal as well as the innocent person," Moore told the committee members.

PROTECTION FOR ALL

"However, we cannot attempt to change this for the law is our law. It is for the protection of all and it demands our respect."

"Our concern and energy should be toward living with the law."

Moore then told the committee that the best way to protect the public is by aiding police enforcement officers.

"We should provide them better skills and training toward utilizing the methods still available to legally track down and convict the guilty criminal," Moore said.

URGES ACTION

The judge called for expedient action in the race against accelerating crime.

He said the skills of police

officers must be upgraded and that cooperation of the community in law enforcement must be acquired before the criminal elements more fully abuse the constitutional protections.

Named as vital areas in police training in view of recent court decisions were arrest, searching procedures, a suspect's right to counsel and confessions.

Moore called the growing ten-

dency to criticize police both unfair and improper and that much of it exhibits a tendency toward criticism of law enforcement in general.

PRAISES POLICE

"I believe the police of this county and of its various units have, by and large, done excellent, conscientious police work and are to be trusted, respected, and appreciated," Moore said.

He added that most of the resentment regarding police

work is largely unmerited and probably engendered by those who resent the authority of reasonable law enforcement.

Moore then suggested that the study committee be established to set the program in motion and make Oakland County a safe place to live.

On the recommendation of the ways and means committee, Hamlin will begin to assemble a committee of persons repre-

senting public bodies connected with law enforcement.

MEMBERSHIP SOURCES

Membership sources will be such as the sheriff's department, prosecutor's office, County Bar Association and police organizations.

Hamlin said he would present

names of the committee members at the Sept. 20 meeting of the Oakland County Board of Supervisors.

Pontiac Press Photo

"SOME CUKIE!"—A cucumber who would a boomerang be grow in the garden of Basil Dyoenis of 53 N. Midland. Holding the two and one-half pound Greek cucumber is Dyoenis' daughter, Tina.

ARTHUR E. MOORE

County Is in Areas Reporting VD Rise

The nation's doctors have initiated a campaign to halt the spread of venereal disease, which has registered alarming increases throughout the country and the entire country, according to the American Medical Association.

Oakland County was among the areas reporting an increase last year in the number of VD cases. So far this year, the number of VD cases is also on the rise.

There were 433 cases reported through July 31, 1964, while in the first seven months of this year there have been 599 VD cases reported to health authorities.

A spokesman for the Oakland County Health Department said 1,614 cases were reported last year by the local agency. This was 168 more than the total reported in 1963 and the 344 more cases than were reported in 1962.

Of those reported the county treated 221 cases last year, 179 in 1963 and 151 in 1962.

The AMA has launched a nationwide drive to encourage pre-

vention and prompt treatment of syphilis and gonorrhea.

Local health officials plan no increase in activity in conjunction with the AMA effort, but will continue existing educational programs and clinic treatments.

Dr. Bernard Berman, county health director, characterized the county's VD rate as "a significant problem."

The AMA estimates that venereal diseases are infecting 1.1 million Americans a year—about 3,000 a day, or almost two a minute.

Both syphilis and gonorrhea are curable. The cure is penicillin, which has been available since 1943.

Despite the known cure, health officials are unable to lick the VD problem.

The AMA cites complacency, ignorance and free and easy moral standards as the reasons for the rapid rise in venereal diseases.

The nationwide campaign will include the distribution of posters, pamphlets and radio and television announcements.

The luxury look...with fashion appeal ...a Rose diamond set in 18 karat gold

So many women have wished for the everlasting richness of full 18 karat gold mountings that Rose Jewelers has had a special new series designed to satisfy this request. These delightfully feminine rings are set with the most brilliant diamonds that ever filled a dream! See these precious 18 karat gold diamond rings at your nearest Rose Jewelers... they are unlike any others in beauty, quality and lifelong guaranteed value! Senate Group OKs 14B Bill

Labor Unit Approves Section Repeal, 12-3

WASHINGTON (AP) — The sharply controversial bill to repeal Section 14B of the Taft-Hartley law has cleared the Senate Labor Committee by a bigger margin than its sponsors expected.

The panel approved the measure 12 to 3 Wednesday but agreed to withhold it from the Senate until late next week so its foes could write their views on it.

The White House said after the vote President Johnson expects final congressional action before adjournment. The House passed the bill 221 to 203 in July. Senate sponsors say they have the votes to pass the bill but expect a two-week floor battle. The big fight will be over amendments to restrict union activities.

27 SENATORS

Opponents say they have lined up 27 senators who are ready to voice their opposition at length. Section 14B allows states to ban labor contracts that compel workers to join a union. Nineteen states have enacted such bans.

In the Senate committee, the chairman, Sen. Lister Hill, D-Ala., and Sens. Peter H. Dominick, R-Colo., and Paul J. Fannin, R-Ariz., voted against the bill.

Ten Democrats and two Republicans — Sens. Jacob K. Javits of New York and George Murphy of California — voted to clear it. Sen. Winston L. Prouty, R-Vt., voted present.

MURPHY A SURPRISE

Sponsors were surprised at Murphy's vote. They had expected to get only 11 votes.

Javits said he favored the bill because he believes "we should have a truly national labor policy in its essentials, the same in every one of the 50 states."

"We should lift the restrictions on the freedom of labor and management to bargain collectively regarding the union shop in each of the states."

But, he added, there also "should be measures to provide added responsibility to complement the added authority granted to trade unions and employers under this measure." He said he would offer amendments in the Senate to accomplish this. Republicans, including Javits, proposed many amendments in the committee's consideration of the bill.

DEM MAJORITY

All were defeated by the Democratic majority which contended that questions of revising the nation's labor laws generally should be left to a study next year.

The Democrats did agree to an amendment of Sen. Wayne Morse, D-Ore., to cover persons who object to union membership on grounds of religious conscience.

Under it, they could pay to a charitable organization sums equivalent to union dues.

78-Day Maritime Strike Ends as Ship Crews Return

NEW YORK (AP) — Crews return today to ships that had been strikebound for 78 days, signaling the end of one of America's longest and costliest maritime walkouts.

Deck and radio officers, who had removed their picket lines Monday, voted Wednesday to ratify four-year contracts hammered out in long Washington sessions.

The 13,000-ton freighter American Crusader, owned by the United States Line, cast off from her Hudson River pier Wednesday night. More of the approximately 100 idled ships in Atlantic and Gulf Coast ports were to follow today.

Incomplete results showed members of the International Organization of Masters, Mates

and Pilots, AFL-CIO, voting heavily for the new contract.

OTHER UNIONS

Officials of the other striking AFL-CIO union, the American Radio Association, said their members also voted overwhelmingly to end the strike. The vote was being tabulated, but the sailing of the American Crusader made it clear the American Radio Association considered the strike over.

The U.S. Maritime Association estimated the strike cost more than \$150 million in direct losses to the companies, the strikers and other employees idled by the walkout.

Some industry sources expressed fear some of the loss would continue into the future. "There is no doubt," said one company official, "that we will never be able to make up all the business we lost and regain all the shippers that used to ship with us before the strike."

PAST STRIKES

He said that in past strikes the industry had permanently

lost about 10 per cent of its business to foreign-flag competition. "Although we have received some encouraging reports that some shippers are returning to the affected companies, it's probable others will never come back," said another source.

The strike began July 16 when members of the Marine Engineers' Beneficial Association struck eight companies represented by the American Merchant Marine Institute. The deck and radio officers joined the strike the next day.

The engineers ratified their agreement Aug. 19, freeing five strikebound passenger liners.

MAIN ISSUES

The principal issues were manpower on automated ships, pension plans and union representation for masters in some companies.

The engineers' agreement provides for a special five-man panel to work out solutions to problems stemming from automation. The panel includes AFL-CIO President George

Meany and Secretary of Labor W. Willard Wirtz. Wirtz personally led long negotiating sessions in Washington. Last Sunday President

Johnson announced tentative agreements had been reached with the deck and radio officers. Capt. Lloyd W. Sheldon, president of the mates union, said

the contract was the best his union had negotiated in its 85-year history.

Before the ratification vote,

Joseph B. Gaier, president of the mates' New York local, told members, "You will not get a better contract if you remain on strike for another 70 days."

Convicted Bandits Get Prison Terms

GRAND RAPIDS (AP) — Maximum prison terms of 25 years each were ordered Wednesday by U.S. District Court Judge Noel P. Fox for two men convicted in the May 17 armed robbery of \$43,303 from a suburban Wyoming bank branch.

Grant Rapids, and James K. Marshall, 22, of Rockford, Ill., were convicted Aug. 4 by jury trial here.

They were charged as the shotgun-carrying bandits who invaded a branch of Union Bank & Trust Co., forced employees to lie on the floor and fled with cash scooped up from teller cages.

But Past Lives On

Soviets Decry Gaming

MOSCOW (UPI) — From the two-ruble window at the Moscow Hippodrome is the domino tables in Gorky Park, gambling — "a monstrous remnant of the past" — lives on precariously in modern Russia.

Officially, gambling — any kind of gambling — is in bad repute here. The press attacks it as "dirty and decadent."

Casinos, gambling dens, roulette wheels and the friendly bookie were banned long ago by the Kremlin.

But, as in so many aspects of Soviet life, the dead hand of the past hangs on.

Betting on state-owned horses at state-owned tracks thrives in Moscow and several provincial cities.

Eight times a year, the government draws prizes—ranging from one ruble (\$1.11) to 132 new cars worth 4,000 rubles (\$4,444 each—for owners of state bonds.

Another lottery, also run by the state, sells tickets at 20 kopecks (25 cents) each and awards prizes in goods and cash, also ranging up to a car. The lottery is believed to give the house a 50 per cent profit.

Other small lotteries award books, paintings, even trips abroad to see soccer matches.

In addition, dominoes, a favorite sport in park and parlor here, is often played for money, but on a private basis and for small amounts. The state turns a blind eye and takes no cut.

Some money changes hands over cards, too, but this is frowned upon — not only by the state, but by average Russians who look on poker-players as "the lower classes."

The official lotteries are immensely popular and are supported by millions of Russians.

The Hippodrome, Moscow's lone race track, attracts up to 40,000 Muscovites — out of a city of 6.5 million — on a sunny Sunday. The races, naturally, are not televised.

The Young Communist League — which runs the lotteries — has led the campaign against betting on the ponies.

"A dirty institution, a monstrous remnant of the past which smells of the bourgeois spirit," its newspaper, Komsomol Pravda, once said. "The time has come to think about banning the betting."

Then why does horse betting go on?

For two reasons, according to observers here.

It encourages interest in horse-breeding and makes a tidy profit for the state.

WELCOME HUNTERS!

Bomb Hits Israeli Area Near Truce Line

TEL AVIV, Israel (UPI) — An explosion rocked an Israeli settlement near the armistice line with Jordan last night. Israeli officials lodged a protest with the United Nations truce commission.

The blast, believed caused by planted charges, damaged one of two water pumping machines at Beitein settlement northeast of Kfar Saba. The area is about 900 yards from the truce line. Israeli officials have blamed

Arab infiltrators for previous border explosions.

It's Stag-gering Record

WINNIPEG, Canada (U) — Joe Lecoux of McCreary, Man., believes he holds a record of some sort. Although 86 years old, he is still an enthusiastic deer hunter. He says he brought home his first buck in 1896 and dropped his 69th consecutive deer with one shot in the 1964 deer season.

Amish School to Be Studied

State Education Unit to Visit Community

LANSING (AP) — The State Board of Education will visit the Amish community near Camden to try to work out an education problem with the religious sect.

The board decided Wednesday to make what is called "another sincere effort" after it was told the Amish school has reopened with its uncertificated teacher.

The Amish religious community has been in trouble with the state over its use of a teacher without formal education beyond the eighth grade. The sect does not want non-Amish persons teaching its children but do not normally go beyond the eighth grade.

Alexander Kloster, acting Superintendent of Public Instruction, told the board that "efforts to work out a solution of the Amish school situation within the framework of the law have not been fruitful to date."

TEACHERS OFFER

He said retired teachers with proper certification have volunteered their services on either a full or part-time basis and that other certificated teachers have offered to teach secular subjects part-time.

Board President Thomas Brennan said he, board member Donald Thurber and Amish families will confer with the Kloster family. He said the board "is willing to do everything reasonable and possible to accommodate these good people, but the board must operate within the framework that has been legally set up for the protection of educational standards."

A provision exempting the Amish from teacher certification requirements won Senate approval last spring after a bitter debate but was killed by the House.

A Department of Public Instruction representative talked to the Amish group when the 22-pupil school opened Monday with teacher Ruth Graber, 21.

He explained that a school operated to meet state attendance requirements must have certified teachers. The Amish turned down a proposal that their children attend some classes at Camden Frontier School.

Vehicle License Plates

Now Sell for Half Price

LANSING (AP)—Secretary of State James Hare has issued a reminder to bargain-hunters.

Vehicle license plates sell for half price after Sept. 1 and will be legal up until the end of next February.

PETOSKEY (AP) — Sen. Thomas Schweigert, R-Petoskey, is being honored here Sept. 25 at a testimonial dinner announced Wednesday by Dr. E. Charles Price, treasurer of the Emmet County Republican Committee. Lt. Gov. William G. Milliken is scheduled featured speaker.

Camera Angles

Negative Filing System Helpful

BY SANDY COLTON
AP Newsfeatures

If you do any amount of picture taking a negative filing system is important to you.

A good system not only insures proper care and storage of your negatives but also lets you know what you have, where you can find a specific picture immediately and when it was taken.

The system you use can be as simple or complex as you want to make it.

Here's one I've found particularly satisfactory and if you work at it faithfully, it only takes a few minutes to keep up.

First, always keep your negatives in some sort of file folder.

MAKE OWN

Such folders are usually available through the agency that develops your film. If you can't get any, make your own with onion skin paper for the negative sleeve and enlarging paper or similar thin cardboard for a cover.

Never store negatives without paper separation between them or they may stick together.

Don't pack your negatives tightly together in your file box. This can result in impressions on the film.

File each negative or group of negatives, when you are using roll film, separately.

IN ONE FOLDER

File 120 film cut into clips of two or three frames together in one folder, 35mm film in clips of three or six frames.

Cut or pack film can be filed separately as can color slides. Movie film can be stored in cans or on reels.

Try to keep each roll of film in separate folders.

Here's basic numbering system with which you'll be able to tell when you shot your pictures as well as the type of film you use more than one type of camera.

MARK NUMBER

Mark this number on each file folder, box of color slides or can of motion picture film.

If you use more than one type or size of film your first letter will identify it.

I use R for roll or 120 film, M for miniature or 35mm film, S for Kodachrome negative film, S for 35mm slides and F for 455 pack and sheet film. If I had to contend with movie film too, I'd probably give it a Z to identify it.

Choose the letter that makes the most sense to you for each type and size film you use.

DENOTE YEAR

Next I use a number for the year in which the picture was taken, 65 for this year. The next number is the month, 8 for August. The next number is the day, say 21.

If I shot more than one roll of one particular size film that day I add the number of the roll, 1, 2, 3, etc.

IMPORTANT EQUIPMENT—Ingredients for a successful negative filing system include a negative filing folder, India ink and marking pen, a magnifying glass and a numbering system to make it easier to find your negatives.

Under this system the second roll of 120 film I shot on that day would be numbered on the file folder R-65-8-21-2.

Since most of the roll films have a frame or exposure number, this number can be added to the other to identify a specific picture. For example, the 10th frame of this particular roll would be R-65-8-21-2-10.

FRAME NUMBER
To have a separate file number for each picture (and this could be the case with people who sell their pictures or who might expect someone to ask for the picture later on) it might be necessary with some films which aren't numbered to mark the frame number on the edge of the negative with India ink.

Now, file your negatives according to type in separate boxes or drawers.

Empty 500 sheet 8x10 paper boxes have made beautiful file boxes for me, each marked on the outside with the contents, the first number and last in the box.

This system can be simplified if you don't shoot many pictures shoot only one kind of film or one size.

JUST USE YEAR
You can cut the date and just use the year and film type (R-57-1, R-57-2, etc.) or, when only a very few rolls of one type are involved, simply 1, 2, 3, etc.

To make it easy to research all of your negatives make or have made contact sheets of each roll or folder of black and white and negative color film.

A piece of 8x10 paper will take 12 exposures of 120 film or 36 exposures of 35mm film.

Pursuit Ends in Man's Death

TOLEDO, Ohio (UPI)—James William Lewis, 33, Inkster, Mich., was shot to death last night at a roadblock following a 20-mile high-speed chase on U.S. 25 in a stolen car containing his wife Clarice, 34, and two hostages from southwestern Ohio.

Highway Patrolman Neil States of the Walkbridge Post was shot in the leg and Cpl. V. L. Stambaugh of the Toledo Post in the hand, while Wood County George Ginter was grazed on the right temple by a bullet.

Dayton police had issued an alert for the stolen 1965 Cadillac and its four occupants, described as dangerous. Later, it was learned two were hostages.

The Lewis couple was said by the patrol to have kidnapped Don Woody Larkin, 51, Cincinnati taxicab driver, and then gone to Dayton where they grabbed a Mrs. Ross and her car.

HEADING NORTH

The wanted auto was spotted heading north on Interstate-75 near Sidney and later noticed by Patrolman K. E. Gardian at Bowling Green, from where the pursuit started.

Wood County deputies joined the chase and the Perryburg police were asked by radio to set up a roadblock.

The chased car stopped at the blockade with the police cars right behind.

Both women got out and Lewis started firing. Stambaugh mounted a semitrailer and shot Lewis down.

SUMMER TRAVEL

When You TRAVEL / You Need INSURANCE

TRIP ACCIDENT INSURANCE IS AS NECESSARY AS YOUR TICKET

In any amount from \$5,000 to \$50,000.

It protects you wherever you go—on land or water and while a passenger in any properly certificated aircraft—anywhere in the world. It does not cover while engaging in professional athletics; nor loss caused by war.

ACCIDENTAL DEATH—Pays full amount of death benefit if within 90 days from date of accident injury results in death; or the full amount or portion thereof, according to a schedule in the policy, if such injuries result in LOSS OF SIGHT or DISMEMBERMENT. Only one amount, the largest to which you are entitled, is payable as a result of one accident.

MEDICAL EXPENSE—Pays up to \$500 for each \$5,000 death benefit for the actual cost of physician, trained nurse and hospital confinement, beginning within 26 weeks of date of accident and resulting from injuries sustained.

The policy is not renewable, but subsequent policies may be purchased to provide continuing coverage.

State Legislature Salary Fight Looms

By DICK BARNES
Associated Press Writer
LANSING — A major salary battle pitting legislators' pay against that of top state appointive officials may develop at the autumn legislative session. The House approved a \$5,000 hike in legislators' pay

earlier this year but the provision died in the Senate. This fall, however, there is expected to be available what some legislators consider an excellent wedge to increase their pay—Gov. George Romney's desire to set salaries for the new

top posts established by government reorganization. Romney indicated earlier this year he opposed raising legislative pay. But some thinking is that he wouldn't veto a raise if it were tied to salary-setting for the new officials whom Romney will appoint.

The governor's office is currently studying civil service commission recommendations for the top level salaries in the 19 principal departments created by the recently-passed reorganization act.

SALARY RANGE

Fifteen of the proposed directors' salaries are \$24,000 or more. None is less than \$20,000. Romney's aides indicate this is at least the level of salaries they are considering for the jobs.

The governor wants the salaries set promptly so he can name people to the jobs and implement reorganization. But Sen. Garland Lane, D-Flint, head of the appropriations committee, isn't ready to rubber-stamp a series of high salaries.

OUTSIDE DOOR

Lane characterized many appointees as "lining up outside the (appropriations committee) door to ask what they should do—why should they get \$25,000 when we get \$10,000 to set the policies of the state?"

Legislators receive \$10,000 annually plus \$2,500 in expenses. Lane implied the legislature would be foolish to approve high appointive salaries without securing its own raise at the same time when it would be difficult for Romney to reject it.

In the Senate last spring, the \$5,000 proposed pay hike never got out of Lane's appropriations committee.

If a legislative pay boost is not approved this fall, none is likely to come before 1970. A pay raise in an election year—1966—could be a liability at the polls. And senators, elected to four-year terms at the next election, can't raise the pay for their own terms because of a constitutional prohibition.

Thus, two-year House members would have to wait through two more terms for a raise. Some don't want to wait.

In the spring Romney decried the salary boost attempt, which included a raise for the governor.

"The governor said he didn't need a raise," said Lane. "But maybe the next governor can't afford the job at its present salary (\$30,000). I know I couldn't afford it."

OVERHAUL NEEDED

A thorough overhaul of all non-civil service state salaries is needed, Lane told the Associated Press, and with reorganization in progress, the autumn legislative session would be the appropriate time to do it. Lane would not commit himself to a target figure for legislators' salaries. He said there is some sentiment for fringe benefits rather than only more pay. This could include health insurance and use of state automobiles—which many state employees have but legislators do not, Lane said.

He said legislators might be smart to peg their own salaries to congressional pay so as to avoid future fights.

"Fifty per cent of congressional salary (\$30,000) would be about right," he said. "I represent half as many people and work just as hard."

SALARY TIE

Congress in turn has pending a measure which would tie its future salary boosts to federal civil service pay increases. Romney aide Walter Devries acknowledged that a salary don'tbrook could develop if a legislative pay raise is proposed.

The governor also is faced with a Democratic desire to know who will get the new jobs before big salaries are furnished.

This angle is particularly evident with the enlarged department of labor. The Democratic-controlled senate rejected Romney's appointment of former Sen. Frederic Hilbert to the now-existing job of labor commissioner. Democrats from both houses have been constantly critical of the labor department.

DIRECTOR'S PAY

The labor director salary proposed by the civil service commission is \$25,000.

Proposed salaries for the new departments of commerce, and licensing and regulation are \$24,000 and \$20,000 respectively. These two offer Romney appointments of broad new overall responsibility.

The recommended salaries for other single-head departments are: State (secretary of state) \$24,000; attorney general \$26,000; treasury \$26,000; administration \$24,000; state police \$22,000; military affairs \$20,000; mental health \$35,000; public health \$30,000, and social services \$28,000.

Proposed pay for directors of departments headed by a commission or board are: education \$28,000; civil service \$24,063.76; highways \$28,000; civil rights \$20,000; agriculture \$22,000; conservation \$24,000, and corrections \$24,000.

Salaries for non-civil service top aides to the department heads also must be set by the legislature but action here is less likely to come before next year.

NAACP Raps Cavanagh on Detroit Jobs

DETROIT (AP)—The Detroit branch of the National Association for the Advancement of Colored People charged Wednesday Mayor Cavanagh ignored Negroes for appointments to his staff and key commissions.

The NAACP demanded a meeting with the mayor to remedy "this dreadful situation" on or before Friday.

Cavanagh said he would be willing to meet as soon as he can fit it into his schedule.

The NAACP said in a telegram to Cavanagh it wants the meeting "because your administration has failed to appoint Negroes to nine significant commissions of our city and because Negroes pay taxes and for too long have been ignored in having representation on these policy making bodies."

Cavanagh, after making the telegram public, said, "our first executive order banned discrimination. The big thing is that we have never appointed on the basis of race, but rather on the ability to do the job and the quality to do the work."

'Yes, Above That Rain, the Sun Is Shining'

DETROIT (AP)—At precisely the same time a heavy rain was beating down upon Detroit Wednesday, the U. S. Weather Bureau telephone information service was saying, "Partly sunny and mild."

GLENWOOD PLAZA CORNER NORTH PERRY AT GLENWOOD

Famed Gourmet Chef to Demonstrate Art

"Artistry in the Kitchen," a gourmet cooking demonstration, is slated for Oct. 12 and 13 at Birmingham Theater by the Village Woman's Club.

Dione Lucas, "master of the culinary arts" will demonstrate cooking secrets and gourmet recipes from her New York cooking school and French cookbook.

Consumers Power Company is assisting the club with this cooking know-how program.

TWO MENUS
Scheduled from 10 a.m. to 1 p.m., the program will present the preparation of two different menus by Mrs. Lucas.

Areas such as selection of ingredients, preparation of dishes for freezing, the enhancement of sauces and appropriate wines will be covered.

Mrs. Lucas, who teaches world renowned celebrities at her New York cooking school, is a diplomat of the famed Ecole du Cordon Bleu in Paris.

She is author of "The Gour-

met Cooking School Cookbook" and a teacher-chef on her own television show.

The latest in gas cooking equipment for the demonstration, plus two home service advisors will be on hand to assist Mrs. Lucas on stage.

DISPLAYS
Mrs. Lloyd H. Diehl Jr., Mrs. Frederick Pugh and Mrs. L. Scolaro will preside in the lobby at table setting displays.

Tickets for one day, two days or reserved seats for both days may be ordered from Mrs. John Siegemund, care of the Village Woman's Club, 190 East Long Lake Road, Bloomfield Hills, 48303.

Mrs. John W. Fauver, chairman, and Mrs. F. J. Whitcroft, cochairman, report that ticket sale proceeds will be used to further the club's purposes in providing educational, cultural and philanthropic programs for the community.

CONTINUING EDUCATION
During the past year, 32 classes and special events in the fields of religion, art, music, current history, theater, language, antiques, travel and flower arrangement have been sponsored by the club.

In addition, widespread donations have been made to local hospitals, emotionally and physically disadvantaged children, World Medical Relief and Baldwin Library.

Other chairmen working on the program are: Mrs. Fred Crockett and Mrs. John F. Cole Jr., fashions and flowers; Mrs. Fritz Tiesselemann, program; Mrs. Richard S. Kelley, ushers; and Mrs. Dale O. Miller Jr., publicity.

Completing the list are Mrs. Nicholas Martin Jr., treasurer; and Mrs. Frank Fehr and Mrs. A. E. Purman Jr., cooks.

Set Confab for Nurses

EAST LANSING — "The Head Nurse: Her Role in Job Performance Evaluation" is the theme of a Michigan State University conference Sept. 14.

More than 250 head nurses from Michigan hospitals are expected at The Kellogg Center for Continuing Education to attend the first of two day-long sessions designed to help the head nurse with evaluating the work of each of her subordinates.

The conference, taught by MSU and University of Michigan faculty, is a continuing education activity of the MSU School of Nursing. Cooperation is the Head Nurse Section of the Michigan Nurses Association.

Music plays an important role in the lives of the John E. Tirrell family of Bloomfield Hills. Even little Alice (in foreground) loves to take part whenever she can. Seated at the piano is

the real music lover of this family, Mrs. Tirrell (Louise). Starting from left behind her are Ann, Paul, Christene, and Eric.

'Do Something Creative Everyday'

By JEANNE NELSON

"The need to do something creative everyday" is symbolic of Louise Tirrell's philosophy.

Mrs. Tirrell, the wife of Oakland Community College's president, Dr. John E. Tirrell, is profoundly sincere in her role as mother of five active children.

AFFLUENCE
In speaking of youth today, she attributes the seemingly wild antics of young people to the fact that they have entirely too much money available.

She says, "the affluent society has brought about many of the changes in adolescence and accounts for the all-too-often frustrations suffered by teens and their parents."

This vital auburn-haired woman is intensely concerned with family life as such and insists that "children must have an anchor."

"They deserve to have a place in which to belong or they will have been cheated," she says.

In cases where it is impossible for the home to be an anchor, she suggests that refuge can be sought through a hobby or sport.

Mrs. Tirrell and her youngsters, Eric, 14, Christine, 12, Paul, 9, Ann, 8 and Alice, 4, came to their new home in Bloomfield Hills last January from St. Louis, Mo.

Dr. Tirrell had come on ahead to begin his work and locate a new home for his family.

ANTIQUE BUFF
Enthusiastic about antiques, the Iowa-born Mrs. Tirrell has many authentic pieces about her home along with some reproductions. The cherry cradle hand-made for her youngest child is a reproduction, but done so authentically it stands proudly in her family room.

Sometimes, the children like to put George, the family's tiny black kitten, into it and rock him to sleep.

HIGH ON A HILL
The Tirrells' five bedroom home stands high atop a steep hill and overlooks a gracious sloping lawn with a large apple tree. Right now, its branches are bent with the weight of the fruit.

Sorority Unit Opens Season

The Coats Road home of Mrs. Leonard Lackner was the setting Wednesday for the first meeting of the season for members of Xi Gamma Delta chapter, Beta Sigma Phi.

Plans were discussed for the November state convention to be held in Jackson.

Mrs. Lackner presented the program.

Chris has shown a great interest in the violin, which pleases her mother greatly.

Mrs. Tirrell is an accomplished violinist herself and taught instrumental music in the elementary schools in Holland.

Incidentally, she met her husband in this city.

SEAMSTRESS
Sewing is her most enjoyable hobby and with four females in the family, a practical one.

She had "fun" last year making a pale yellow, rather elaborate, floor length sheath with one bare shoulder for the opera.

Whipping up a new dress for Ann's birthday recently was no chore for this talented mother who is looking forward to meeting her husband's colleagues soon.

Since there aren't a great many children in her immediate neighborhood, Mrs. Tirrell feels that her own brood have gotten to know one another better this summer vacation and have developed what she calls a more humanistic attitude toward their sisters and brothers.

PEACEFUL HOME
She admits that the situation has helped her become closer to her children and resulted in a more peaceful home so necessary to her husband's comfort.

For the findings, The Eureka Home Care Institute (let's face it, the Institute is appliance-oriented) talked to some 200 couples. Only the answers of the women, however, were noted.

Most of the women mentioned the desire for household appliances over hiring help for several reasons. A clergyman's wife from Arlington, Va., thought most domestic help was incompetent. Others mentioned the desire for privacy.

Some of the women without help thought it unnecessary except for the woman who holds an outside job.

INCOME NO GUIDE
Income level apparently has very little to do with who has a maid. The wife of a fireman, the wife of a bus driver, the wife of a bartender had part-time help.

Neither is age a factor. Fifty-nine per cent of the women who have domestic help were under 40 years.

What does the help usually do? Fifty-five per cent of the women put the servants to work with general cleaning, 21 per cent with ironing. As for their most helpful appliance, next to the big three of stove, refrigerator and washing machine, the women listed the vacuum cleaner, the clothes dryer and the dishwasher, in that order.

Park the Car and the Kids

ROANOKE, Va. — Mothers are able to park their children as well as their cars while shopping downtown stores here. The baby-sitting plan is operated similarly to the Park-and-Shop plan.

The nursery, for pre-school children not under six months, is maintained by Central YWCA on Tuesday, Wednesday and Friday from 9:30 a.m. to 3:30 p.m.

The rates are 50c an hour for each child but purchases at participating stores earn free nursery time. Each 50c purchase is good for one hour in the nursery.

Survey Says Maids Are in Disfavor

By GAY PAULEY

NEW YORK (UPI) — Speak for yourself, Jane.

You may elect to do your own housework. Me, I'll take maid.

The home today is probably without servants, but all this time I thought it was because of a shortage of household help for hire, that it'd been siphoned off to better-paying office and factory jobs.

Then across the desk came one of those studies. Homes, it says, are without servants because the housewife prefers it that way.

The people who did the study talked with women from assorted parts of the country as they toured The House of Good Taste at the New York World's Fair.

PREFER APPLIANCES
According to the researchers, the women will take an automatic dishwasher or electric carving knife anytime over domestic help, human variety.

As the wife of a Hackensack, N. J. accountant, and mother of four children, remarked, "I don't want any domestic help. But if I had any, I'd put them to work in the garden."

For the findings, The Eureka Home Care Institute (let's face it, the Institute is appliance-oriented) talked to some 200 couples. Only the answers of the women, however, were noted.

Most of the women mentioned the desire for household appliances over hiring help for several reasons. A clergyman's wife from Arlington, Va., thought most domestic help was incompetent. Others mentioned the desire for privacy.

Some of the women without help thought it unnecessary except for the woman who holds an outside job.

INCOME NO GUIDE
Income level apparently has very little to do with who has a maid. The wife of a fireman, the wife of a bus driver, the wife of a bartender had part-time help.

Neither is age a factor. Fifty-nine per cent of the women who have domestic help were under 40 years.

What does the help usually do? Fifty-five per cent of the women put the servants to work with general cleaning, 21 per cent with ironing. As for their most helpful appliance, next to the big three of stove, refrigerator and washing machine, the women listed the vacuum cleaner, the clothes dryer and the dishwasher, in that order.

Women's Section

For Mature Women

Slate Testing Course

A five-session psychological testing course for mature women starts Sept. 28 at Oakland University, as part of the program of the new Continuum Center for Women inaugurated this fall. It will operate under a grant given to the Division of Continuing Education by the Kellogg Foundation.

The testing course helps the adult woman, who may wish to combine activities outside of the home with her home responsibilities, determine her aptitudes, abilities, personal interests and values.

The first, four-course sessions on Tuesday evenings from 7-10 p.m. combine lecture and discussion with the administering of standard tests.

The fifth session is an individual interview with a psychologist arranged by appointment. At this interview the psychologist explains what the woman's test scores show about her.

Dr. Kenneth Coffman, Director of Psychological Services at the University, directs the psychological assessment course. To register, call the university.

The Continuum Center for

Women will open the rest of its program on the September 28th date with education, volunteer placement and employment counselors available to assist women.

A continuing program of special courses, conferences, research, a reading room, and a speakers' bureau will also be maintained by the Center.

The Continuum Center is an outgrowth of women's conferences and a pilot program in psychological testing conducted over the past two years. Priscilla Jackson (Mrs. Walter) will direct the Continuum Center.

Bride-Elect Entertaining Is Concluded

A recent luncheon and shower in Mrs. Jack Gladwin's home on Kirkway Drive concluded a round of entertaining for bride-elect Toby-Lynn Stern.

Ronna Stern will give the spinster dinner for her sister, Saturday, in the Birmingham Country Club.

Mrs. and Mrs. Ernest A. Jones of Bloomfield Hills will host the rehearsal dinner, Sept. 10, in the Bloomfield Hills Country Club for their son Ernest A. Jones II and his fiancée.

She is the daughter of Mrs. W. H. Kraus of Bloomfield Village.

The Sept. 11 ceremony will be at Kirk-in-the-Hills Presbyterian.

Sick Man Needs Rest to Recupe

By The Emily Post Institute

Q: My husband is recuperating from a heart attack. He is well on the road to recovery but he still has to be very careful and get plenty of rest.

Quite often friends will stop by in an evening to visit and sometimes they stay on past my husband's bedtime. I think when this happens he should excuse himself and go to bed. He thinks it would be very rude to do this and actually force them to leave.

I would appreciate suggestions you may have to offer as to a proper and tactful way to handle this situation.

A: It will be quite proper, and your friends will surely understand, if you say to your husband, "Henry, you know the doctor's orders. It's your bedtime."

Say good-night and hurry off to bed. Helen and John will stay on to keep me company."

The Emily Post Institute cannot answer personal mail, but all questions of general interest are answered in later columns.

Club Donates to Hospitals

Department of Michigan and hospital donations were made when Blue Star Mothers, Chapter 4, met recently in the home of Mrs. Helen Smale.

Mrs. James Schram, hospital chairman, reported on lap robes which the club provides.

Members were notified of a general meeting of past presidents in Flint Sept. 21 and a district meeting at Fowlerville Sept. 16.

The September meeting will be at the Pontiac YMCA.

The Paris house of Dior offered, left, at the fall and winter showings, an evening ensemble in pink and gold brocade trimmed with embroidery, gold and diamonds. Earrings match the embroidery and there is a Broche hat. At right is Dior's "Vania," an evening gown in dark grey velvet embroidered with silver threads at bottom.

Nina Ricci's fall and winter fashions shown in Paris highlighted a natural and slender line. At left, a white flower-embroidered over white wool dress and jacket is a good example. It is worn with a white rabbit coat and matching foulard hat. Ricci calls it "Big Bunny." At right is a red woolen suit and matching hat, with red shiny boots and yellow gloves. It's designed for rainy weather.

MARY LOU BERRES

Mr. and Mrs. Matt Berres of Big Lake announce the engagement of their daughter, Mary Lou to Darryl J. Anderson, son of the V. K. Andersons of Holly. They are seniors at Eastern Michigan University and University of Michigan respectively.

The Harold A. Pickfords of Oxford announce the engagement of their daughter, Ann to Vernon H. McKinley, son of the Vernon E. McKinleys of East Detroit.

She is an Oakland University senior and he attends Wayne State University. June 1966 votes are planned.

ANN PICKFORD

Raise the Roof Enough And He Will Get the Idea

By ABIGAIL VAN BUREN
DEAR ABBY: I know I'm not the only wife with this problem, so maybe if you printed this your answer could help countless others.

I've been married for over 25 years. My husband and I are both over 50. We have children and grandchildren.

The problem, of course, is my husband. He's good-looking, young-looking, in excellent health, and a hopeless woman chaser. (Not that he would be hard to catch.)

He makes no secret of his escapades, expecting me to forgive and forget and not to take them seriously and he "loves" only me.

I'm not afraid of "losing" him, but I'm humiliated. I see no end to his behavior. I must admit he is kind, considerate, a good provider (though I work, too) and I do love him in spite of everything.

What to do? Divorce him and live a lonely, unhappy life? Or just wait for old age?

EVE
DEAR EVE: Don't divorce him — but don't condone his behavior, either. Every time he steps out of line, raise the roof and let him know you are hurt, disgusted and humiliated.

Punish him a little by being cool to him, but don't banish him to the couch or he'll have a good excuse to find a more comfortable bed. Many men stray because they really believe their wives don't care enough.

Show him you care plenty. What do you have to lose?

DEAR ABBY: When a group of people work together on a project, such as a committee formed for the purpose of revising by-laws, in what order should the names of these people be listed in the report? There was no official chairman or head. Thank you.
BURNED UP

DEAR BURNED: It doesn't matter. They could be listed alphabetically, or according to age, height or body weight. But the fairest method would be to put all their names into a hat and draw lots. This is sometimes known as "spit in the ocean."

DEAR ABBY: I hope this will help parents who don't know when, how or if they should tell a child that he is adopted.

I am 16 years old and was adopted when I was a week old and have known it for as long as I can remember. I wouldn't want it any other way.

Being adopted is an accepted part of my life. Like having brown hair and hazel eyes. My mother used to introduce me as her little "adopted" girl even before I understood what the word "adopted" meant. It has always made me feel special, not different.

If I had grown up believing that my parents were my "real" parents, and they later told me (or I found out) that they were not my real parents after all, I would have been shocked and confused whether I was 10 or 20 at the time.

Being adopted doesn't make any difference in the way I

feel about my parents. If anything, I think it makes me love them more because I know they gave up a part of

their lives to raise me and they didn't even have to.

Thank you for letting me say this, Abby. I've kept it inside of me for a long time.
"ADOPTED"

Problems? Write to Abby, care of The Pontiac Press. For a personal reply, enclose a stamped, self-addressed envelope.

Takes the Cake

The birthday cake, whole, is a masterpiece. But when it's served, it looks as though it had been cut with a hacksaw. Sound familiar? You can get smooth, even slices from any cake if you heat and wet the knife in boiling water — but don't dry it — before cutting the cake.

The average rainfall in Japan, which is dominated by the Asiatic monsoon, exceeds 40 inches annually.

Why Grow Old?

By JOSEPHINE LOWMAN

Aurelien Lintermans has long been one of Europe's most lionized hair stylists. He has cut and styled the hair of such women as Joan Crawl-

ford, Anne Francis, Princess Maria Pia de Savoie, Mrs. Howard Hughes and many others.

He only recently opened his New York salon.

This humorous Belgian-born dynamo, who looks 35 but is actually 51, is especially famous for his genius with the scissors. He said, "It is to a woman's benefit to know what is right before she puts herself in the hands of the local hairdresser. The most important step ABSOLUTELY is the cut, because if the cut is expertly done the hair will stay neatly in place even when the set is out."

Mr. Lintermans has some revolutionary ideas and I was quite pleased with one. For years I have been insisting that my hair be cut dry rather than wet. Now I have some professional support.

Mr. Lintermans says that the hair should always be cut when it is dry. He said, "Neither you nor your hairdresser can tell how your hair is going to look if it is cut wet. The hairdresser has to judge the length and how the hair springs back."

BLUNT CUT

This expert also warns you to insist on hair cut blunt with scissors. He feels that razors twist and tear hair ends and take the body away from fine hair. He also says that rollers do nothing for fine or straight hair. Lintermans uses pin curls, big ones, little ones, pin curls that stand straight up. Stand-up pin curls give the same height as rollers and they comb out nicely blended together without spaces.

For a soft wave, roll the pin curl starting at the root. For no wave but curled ends, start at the tip of the hair and roll in.

Safety Talks for Women Are Planned

EAST LANSING — Safety chairmen of 41 Michigan women's organizations have been invited to participate in a traffic safety conference Sept. 20-22 at Michigan State University.

Gov. George Romney has invited state, district or county safety chairmen of major women's groups to take part in the third Michigan Women's Conference on Traffic Safety.

Special attention will be given to the status of legislative and administrative programs designed to help cut Michigan's highway accident rate.

FIVE SPONSORS
The conference is co-sponsored by the Highway Traffic Safety Center of the MSU Continuing Education Service, the home economics division of the MSU Cooperative Extension Service, the Michigan State Safety Commission and the Michigan Citizens' Highway Safety Action Committee, assisted by a grant from the Allstate Foundation.

Bride's Gown Fashioned by Mother

A silk organza Venetian-appliqued gown, fashioned by her mother, was worn by Barbara Jean Steckling for recent vows with Robert John Newman. The ceremony was performed in St. Mark's Lutheran Church, Union Lake.

Parents of the couple are Mrs. Arnold Steckling of Elder Street, West Bloomfield Township and the late Mr. Steckling, and the Donald O. Newmans, Lakewood Drive.

BOUFFANT VEIL

An appliqued pill box with bouffant French silk illusion veiling was worn by the bride whose bouquet was comprised of gladiolus, Stephanotis and ivy.

Attendants were Diane Fuller, honor maid, and Leslie Bailey, Mrs. Wayne Andersen, Jackie Karr, Mrs. Brian Keen, and Kathleen Gotham.

Ron Newman attended his brother as best man, along with ushers Wayne Andersen, Tom Hoffmeyer, Jon Rowland, Tom McArthur and Tom Goddard.

A northern Michigan honey-

moon followed the couple's reception at Westacres Club House.

Recent graduates of Michigan State University, they will reside in Racine, Wis.

MRS. ROBERT JOHN NEWMAN

Married recently in St. Mark's Lutheran Church, Union Lake, were Barbara Jean Steckling and Robert John Newman. Their parents are Mrs. Arnold Steckling, West Bloomfield Township, and the late Mr. Steckling, and the Donald O. Newmans, Lakewood Drive.

Polly's Pointers.

Use Coffee Grounds

DEAR POLLY—Lemon juice has long been an old standby for whitening grimy and discolored hands.

My husband showed me a better way. Cup damp coffee grounds in the palm of the hand and squeeze lemon juice liberally over the grounds. Rub the hands as if washing them.

When the grounds are rinsed off, the hands will be clean and soft.—KATHRYN

DEAR POLLY — To strain paint, cut a disk out of window screening that will just fit in the can. As the screen settles to the bottom of the can, all the junk and dirt will go down with it.—ALICE

GIRLS — Of course, if there is a solid coating of scum across the top of the paint this would have to be broken up and the paint stirred before putting in the screen disk.—POLLY

DEAR POLLY — We save all small samples that come through the mail such as soap, tissues, dishwashing liquid, as well as salt and pepper packets from the drive-in and anything similar that is in a small package.

These are dropped into a plastic bag and kept for our vacation trip. It is amazing how often the bag will have something that we would have otherwise forgotten.

If you break the hook off your crochet hook, don't throw it away. The remaining part

makes the best thing I have found for use at the sewing machine to guide material and hold seams as they go under the pressure foot.—MRS. A. M.

DEAR POLLY — We are the newest family living in our subdivision. All the other young couples seem very much like us and our children but they are not very friendly.

They speak when we meet but see them visiting each other's houses and the girls sit together when they watch the children play. My husband blames me and says I am too stand-offish.

—PATTY

PATTY — Join any PTA or church groups that will provide contacts with other young mothers your age and give them a chance to see what a nice neighbor they have. All may be lost if you try to force the issue.—POLLY

Homemakers across the country are using the practical Pointers in Polly's 22-page booklet. Put these Pointers to work for you. Order your copy! Send your name, address with zip code and 50 cents to: Polly's Pointers, care of The Pontiac Press, P. O. Box 489, Dept. A, Radio City Station, New York 19, New York.

Parents Must Take Necessary Action

By MURIEL LAWRENCE

DEAR MRS. LAWRENCE: Our 2-year-old grandson lives with us as he was abused by his mother until she was put in a mental hospital. I had trouble with him until I started holding him quietly like you said so he now knows that I won't hit him.

We also have his 5-month-old sister. But our son is the real problem. He won't face reality. Though his wife is so retarded by brain damage that the county won't even let her see the children, he is trying to get her out of the hospital so he can live with her again.

ANSWER: Are you afraid that his living with her again means more babies for you to take care of?

If so, that is your reality — the one you have to face. If you can't make him face his, you can face your own — the truth that you don't want to take on any more consequences of his sexual relationship to this mentally deficient woman. And you can do something about it.

You can't expect any respon-

sibility from your son. He just hasn't developed any. He can't see, for example, that his choice of a wife has deprived his babies of a mother and exposed them to mistreatment. He can't see what burdens his choice has imposed upon you.

He can't even see how cruel it is to require his mentally deficient wife to assume the obligations of wifehood and motherhood.

So you're involved, not with just one irresponsible person but with two — your son and his wife. If you're sensible, you'll take steps to protect yourself and their unborn babies against any more abuse by their incompetence.

Is there a social work department in the mental hospital which now confines his wife?

If there is, how would you feel about talking to the social worker in charge of her case? It's this worker's obligation to foresee, as you do, the births of more abused, unparented babies.

By referral to a staff psychia-

trist, your son will then be confronted with the disasters he is inviting by insisting on resuming the relationship.

Were I you, I should not hesitate to rally all the support I could to protect myself and my unborn grandchildren against

the irresponsibility of a father who could feel no concern for anyone, including himself.

Even if he were my dear son, I'd have to do that.

But you are not me. So you'll have to struggle for your own answer to your fear of further exploitation by your son. Such answers are not to be had by writing to newspaper columnists.

Mrs. Schneidt Fetes Couple

Mrs. Henry Schneidt will host the rehearsal dinner for her son Frederick W. Jones III and his fiancée, Ruthann Alice Eakle, this evening in her home on Pontiac Lake Road.

Miss Eakle is the daughter of the Russell J. Eakles of Ravenglass Drive. Her fiancé is also the son of Frederick Jones of Melbourne Beach, Fla.

Hostesses at recent showers for the bride-elect were Mrs. Larry Combs, Oak Hill Street; Nancy Ray, Ravenglass Drive and Mrs. Otto Koler of Marlinton Street.

Guests are arriving from Florida, California, Texas, New York and St. Louis for the Friday evening ceremony in the Drayton Plains United Presbyterian Church.

April S. Davis Is Married

Mr. and Mrs. Robert C. Davis of Riviera Street announce the recent marriage of their daughter, April Susan, to Warner Leslie Moore III, son of the Warner L. Moores of Oak Park.

Justice of the Peace William H. Stamp performed the ceremony in Clarkson.

A reception Tuesday evening in her parents' home will honor the newlyweds who will make their home in Philadelphia, Pa.

Balenciaga Clients Affluent

PARIS (UPI)—She wore a purple linen suit with a pink chiffon sleeveless blouse and the label in the pocket tossed over her chair said "Balenciaga."

Her pearls were real and her gray hair was stylishly short. Next to her sat her white-haired American husband, the fellow who'd be paying the bills.

If you've ever wondered exactly who buys those expensive handmade clothes at the Paris fashion salons, this couple was typical of private customers who jammed the Balenciaga winter fashion show, to which the press incidentally was invited one month after other press showings of the Paris clothes.

Each mannequin glided by carrying a numbered card, and the woman marked the numbers she liked on a card a saleslady gave her. She chose 15 out of the collection of 175 numbers.

"The day clothes are better at Dior," remarked the woman as she eyed Balenciaga's new line of seven-eighths coats and low belted two-piece day-time dresses.

"That long black gown would be fine to take to India," commented her husband. Or she chattered, "the pink coat banded in black mink would be nothing without the fur. I'm going to use my 12-year-old sales that way..."

They finally chose a purple brocade cocktail suit and a black lace ruffled short evening dress with a detachable lace apron, at probably \$3,000 each.

Although this customer thought the new short coats didn't suit her, store-buyers already have rushed to place orders for copies that soon will grace department stores. The Balenciaga coats have double rows of black or gold buttons, narrow half belts in black, narrow collars and raglan sleeves giving a roomy shoulder.

His daytime suits are roomy, too-long jackets to the end of the hip, fitting loosely almost like a sloppy joe sweater. Another new suit style was a wide short acket with an extra full skirt.

Daytime dresses had hip-hugging belts, softly gathered skirts and usually cap sleeves

with a high, rounded shoulder. Balenciaga stuck to straight lines without that gently sloping A-line that has reigned in Paris for years.

One outfit guaranteed not to wind up in mass market department stores was a flesh-colored chiffon sleeveless long evening gown. Underneath the mannequin appeared nude, but she actually wore a flesh-colored Trouser jump suit.

Balenciaga also featured knee and mid-calf boots or colored wool stockings for daytime, reversible wool coats, cocktail suits of stinky "cire" raincoat fabric, navy blue as a winter daytime color and rafts of black lace ruffled short evening dresses.

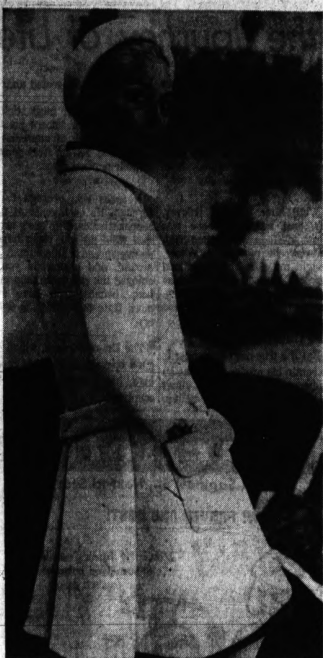

Pepper Pilderers

LAS VEGAS, Nev. (UPI)—Fresh pepper appears more valuable than money at a ho-

tel here. Pepper mills are concealed under the cash register in the coffee shop. Waitresses must sign for them before taking them to a customer's table.

Many Languages

Most overseas airline firms require their stewardesses to be multi-lingual.

The cropped coat with flared fullness is one of the two trend-setting coat shapes from Balenciaga which give new emphasis to youth in his pre-eminent elegant designs. In Litz-Nattier's fine herringbone of wool and "Orlon" acrylic, this coat of palest greige has swinging skirt in back with two big unpressed pleats controlled by a half-belt. Dress in raspberry jersey shows less than two inches at the hemline.

Cherry, Oak or Teak, Which Do You Prefer?

The results of a survey made by motivation researcher G. W. Blomgren Jr., of the McMurry Co., Chicago, will be helpful to husbands and wives planning purchase of new hardwood furniture, wall paneling or flooring.

NATURALLY

If you find your preferences for a certain species of wood is quite different from your spouse's, Mr. Blomgren would expect just that. Some woods have more appeal to women than men, his survey revealed.

About some popular furniture hardwoods, the surveyed group of 75 men and women expressed these ideas:

● Pecan: Men think of it as feminine and sophisticated. Half of them felt it is modern. The women's reactions were: beautiful, warm and friendly. Both men and women think of pecan as decorative, luxurious.

● Oak: To the last man, oak was considered a masculine wood, and the women agreed. But men think of oak as old-fashioned, while only half the ladies did.

● Mahogany: Men see it as beautiful, old-fashioned, elegant, masculine. Women agreed and added dignity to the list of adjectives.

● Teak: Both sexes strongly felt it beautiful, elegant and modern. Women felt it a friendly wood, but fragile. Men rightly thought of teak as strong and durable.

● Cherry: This caused the widest differences of opinion among men and women. They agreed that it is a friendly wood and beautiful. Men think of it as feminine and old-fashioned, but durable. Women think of cherry as elegant and warm.

NO QUESTIONS

About walnut, the most popular furniture wood of all, the researcher asked no question. Sales figures for walnut wall paneling and furniture indicate it apparently pleases most men and women.

Passengers Need Courage for the Journey of Life

By HAL BOYLE
NEW YORK (AP) — Curious comments of a Pavement Plate:
Some like to take the wheel in our journey through life, while others prefer to go along as passengers.
It seems to me that the role of the passenger is an important one and has its advantages.
The function of the passenger is to serve as the audience for the actors of this world.

BOYLE

The actors are the people who drive cars, sail boats, buy

houses in the country. They surround themselves with expensive toys, and like any child with a new toy they are never quite happy alone.
MUST SHOW OFF TOYS
They must show their toys off to somebody. That is where the passenger comes in. His job is to praise the new toys and the skill with which their owner plays with them.
Recently I accepted an invitation to go for a cruise with a man who had just bought an expensive sailboat. There were just the two of us aboard.
During those four days I never asked to steer the boat or offered to reef or unreef a sail or perform a helpful chore of any kind.
At the end of our cruise my host said to me with that faint note of hostility that creeps ultimately into every host's voice: "You know, you're really just an eternal passenger. You've made a career of being helpless. You don't know how to do anything, and what is more you don't even want to learn how to do anything."
ANNOYING INGRATITUDE
His ingratitude rather annoyed me. So I endeavored to set him straight.
"You are implying that there is no difference between a passenger and a barnacle," I told him. "But there is. A barnacle is merely an inactive hitchhiker."
"But as a passenger I've been

quite useful to you. For four days I've praised your boat's performance, admired your skill at the tiller, listened to your woes, agreed that you were a better man than your enemies, and refrained from giving you advice of any kind."
Well, after thinking it over, my host admitted there was some merit in what I had said. Anyway, he rowed me ashore, bought me a fast beer and said I would have to take a cruise with him again sometime—maybe next year, maybe the year after.
RETAIN STATUS
But if a true-born passenger is to retain his proper status as an audience, he must never climb on stage and assist the actors.
He must remain seated and applaud judiciously.
The shoemaker must stick to his last, and a sincere passenger must stick to appreciating others and refrain from joining in their performances.
It takes real courage to go through life as a constant passenger, dedicated to one's craft. You wind up with clean hands, you've spread a little human joy around, and meanwhile you've enjoyed the ride more than anybody because you have had more time to look at the scenery.
The United Nations, which began operations with 61 members, has grown to include 156 countries.

The DRC Story

QUINELLA

SI, SI.....AQUI, AQUI

I am a prejudiced witness. I think there is greater drama, more excitement and thrills in thoroughbred racing than any other sport.

I am not standing alone in the middle of the track with that viewpoint either.

Racing **OUTDREW EVERY RIVAL SPORT** in Detroit in 1964. The thoroughbreds attracted 1,672,130 fans. We are well on our way to helping top that total for our current season.

I think racing's growth and popularity can be traced to one basic thing . . . a **FUN FACTOR**. We must compete with many other attractions for your time and your entertainment dollar. Consequently, our job becomes one of making racing real fun for you . . . of making the Detroit Race Course a place where you can relax and enjoy yourself in the most pleasant atmosphere and delightful surroundings.

The **QUINELLA**, which we are introducing to Michigan racing fans, is one of these **FUN FACTORS**.

What is a Quinella?

It is a form of pari-mutuel wagering which is **NEW** to Michigan, but time-tested, exciting and highly popular elsewhere in the United States, Canada and South America.

The imaginative race track operator who originated the Daily Double, Canadian Leo Dandurand, also is responsible for introducing the Quinella to North American sports fans. He borrowed the idea from a jai alai fronton in Rio de Janeiro and, along with an associate, James Monroe, first tried it in 1931 at Old King's Park in Montreal.

The **QUINELLA** races at the DRC are

the fourth and the eighth daily. In Quinella betting, the object is to select the first two horses in the race, regardless of the order of their finish. The selections can run first and second, or second and first, and you still collect on your wager.

It makes for added racing excitement and thrills, just as does the ever-popular Daily Double, which we run on our first and second races.

The **QUINELLA** is just one of the many **FUN FACTORS** at the DRC. Coming up is the big Labor Day Week-end. Why don't you join us for it?

Our new \$3,000,000 clubhouse is open. It's the talk of the town and of the racing world.

We have two excellent dining terraces, "The Winner's Circle," in the new clubhouse, and "The Mile Terrace." There's a picturesque old world-tavern, "Ye Olde Tired Horse Pub"; beef buffets and snack bars. Your reservation for the dining terraces is invited. Call GA 1-7170.

Our racing program will be highlighted by the \$10,000-added Mile Trial on Saturday, Sept. 4, and the \$25,000-added Labor Day and the \$10,000-added Union Special on Monday, Sept. 6.

Our "Corridor of The Stars" has a superlative collection of 30 paintings of thoroughbred racing scenes by Fay Mowery Moore, the nation's foremost feminine artist of the sports world.

FUN FACTORS . . . you will find them everywhere at the Detroit Race Course.

Elevator Falls; 4 Workers Die

Houston Man Killed
in 22-Floor Plunge

HOUSTON (UPI) — Four plumbers and a carpenter finished delivering bathroom fixtures to the 22nd floor of the new \$8 million luxury Houston house-apartment complex. They started to descend in an outside construction elevator.

Far below, Jack Barga, 38, was operating the winch that drove the elevator. He felt a shudder.

"I heard a snap then and looked up," Barga said. "The elevator was falling. The cable had broken. It was flapping around and around the winch spool."

Moments later, four of the workers were dead and the fifth lay seriously injured.

CAGE STRIKES

The elevator cage struck the ground with such force that the heavy floorboard timbers splintered "like balsa wood."

Barga said he threw on the brake, "but nothing happened."

An emergency stopping device also failed to work.

The dead were Billie Albright, 31; Lorenzo Brewster, 60; Charles Ingalls, 36 and James Deel, 33. Eugene Burger, 18, the carpenter, was in serious condition at St. Joseph's Hospital.

PRONOUNCED DEAD

Brewster and Albright were pronounced dead at the scene, and Deel and Ingalls died soon after they were rushed to a hospital.

"It hit with a deafening roar," said Romero Alexander, a cement tender standing five feet from where the elevator crashed.

Alexander said the lift descended about two floors when the cable broke.

The 33-story apartment building, located in downtown Houston, is to be officially opened tomorrow.

There are more than 1.5 million domestic workers in the nation, according to the Labor Department. About 50 per cent work part-time.

Rights Leader: N. Carolina Demonstrations May Spread

By the Associated Press
A national civil rights leader says demonstrations may spread from violence-stricken Plymouth into other sections of North Carolina, a Southern state with a record of good race relations.

Massed police made more arrests Wednesday in Plymouth as they sought to relieve racial tensions which city authorities blamed on the Ku Klux Klan and out-of-town thrill seekers.

Officers have arrested six persons since two white men were wounded in a street clash between whites and Negroes Tuesday night. The tensions grew out of Negro voter registration demonstrations which began more than two weeks ago in the fishing and paper mill town of 5,000 in eastern North Carolina.

Violence was touched off Tuesday night for the second time in a week when a group of

Negroes walked past a crowd of whites on the main street. A few minutes earlier, Negro leaders, fearing trouble, had called off a protest march.

ANOTHER TOWN

In Durham, Floyd McKissick, national chairman of the Congress of Racial Equality, said, "when Plymouth stops, it's going to be another town — you pick it. There are dozens of Plymouths in North Carolina."

The CORE leader said there were other issues at Plymouth besides voter registration. He listed among them "unemployment, schools, insults heaped upon the people daily, no enforcement of the public accommodations law. All these things go into one big pot and the pot is boiling over."

Integration of schools in the Plymouth area began last week without incident. Elsewhere on the racial

scene, there were these developments:

An aide to Dr. Martin Luther

King Jr. announced in Atlanta that King will go to Chicago and Los Angeles this fall in an effort

to interest civil rights, ghetto and gang leaders in those cities in his nonviolent movement. King called the effort a "pilot project on problems facing Negroes in northern ghettos."

The Rev. Andrew Young, executive director of King's Southern Christian Leadership Conference, said King had picked Chicago and Los Angeles as his major targets, but the effort might spread to other northern cities if it is successful in these two. The two cities have been hit recently by racial violence.

After a summer of violent racial turmoil, public schools in the troubled southeast Louisiana mill town of Bogalusa integrated quietly and peacefully. Two

Negro boys and a girl, arriving alone on a school bus, entered Bogalusa senior high school along with nearly 600 white pupils as police kept curious whites two blocks away.

No spectators and only a few police were at Columbia Street Elementary School when a Negro boy and girl, clasping their mothers' hands, arrived by private car. Desegregation of the first and 12th grades had been ordered earlier by a federal judge at New Orleans.

The town's Roman Catholic school, Assumption, also desegregated, enrolling five Negro elementary pupils.

Former President Dwight D. Eisenhower returned to his home town of Denison, Tex., to

speak of "disgraceful riots" and moral deterioration in the United States.

Eisenhower said causes of recent rioting and racial violence were not to be found in any one minority group or faction but in each person. "I'm concerned about a general disregard for the moral law and the legal law in this country," he said. "A deterioration has been going on since the first world war."

Leaves Predict Mild Winter

VANCOUVER, B.C. (AP)—British Columbia residents who believe in Dominic Charlie can breathe easier.

Last year, the elderly weather prophet of the Squamish Indian tribe looked at the leaves and decided from their color it would be a bad winter.

British Columbia was buried in snow which tied up traffic and vital services and drove some suburbanites to move into downtown hotels last winter.

Charlie looked at the leaves again Wednesday.

BE MILD
"It's gonna be mild," he said.

School Report Given for State

More Taught, Spent,
Employed Last Year

LANSING (AP) — Michigan's education system taught more students, employed more teachers, spent more money, and did it all better last year than at any time in history, reports Alexander Kloster, acting State Superintendent of Public Instruction.

The state will have to do even more in the school year opening this month and there still will be room for significant improvement, Kloster said in the annual report of the State Board of Education Wednesday.

Kloster, who took over shortly after Dr. Lynn Bartlett resigned to take a federal post June 30, was lavish in his praise of the Michigan legislature.

A \$72.9 million increase in state aid to education raised the state's share of the financing of schools past the 50 per cent mark for the first time in many years, he said.

AID PROMISED

He also said the more than \$550 million in school aid provided additional money for districts with less than the average of \$13,000 of state equalized valuation per student. It also provided some \$4 million to districts in which there are large numbers of economically and culturally deprived children.

The school aid act, he said, "represents an outstanding contribution toward meeting the growing investment in Michigan education."

The past year was "an historic one" for Michigan education because of legislative and congressional action, he said.

Among the statistics and records he cited were:

—An estimated exodus of 1,975,000 boys and girls from Michigan homes to public elementary and high schools, starting next week, and enrollment of 370,000 in nonpublic schools for a gain of 58,000 over the past school year.

EMPLOYMENT

—The employment of an estimated 79,000 teachers, administrative and professional personnel.

—An average teacher salary of more than \$6,700.

—More than 4,000 new classrooms in the past year.

—Continuing consolidation of the state into districts providing kindergarten through 12th grade education. The total number of districts has dropped from 1,414 a year ago to 1,188 Wednesday, he said, placing more than 95 per cent of all children in the state in to such districts.

APPROPRIATION INCREASE

An increase of 43 per cent in the appropriation for special education programs for the physically or mentally handicapped, the emotionally disturbed and others) — jumping from \$14.5 million last year to \$20.75 million this year.

—A "phenomenal" growth rate for community colleges, which expect an enrollment of some 65,500 this fall, compared with 47,500 last year. There will be 19 such colleges in operation this fall. Five other community college districts have been approved by voters.

—The creation of Saginaw Bay State College, bringing the total number of state-supported institutions of higher education to 11.

—A public college enrollment of 146,000 and a private school student population of 44,000 — increases of 10 and seven per cent, respectively.

State Police Chief Asks Safe Driving Over Weekend

EAST LANSING (AP) — State Police Commissioner Fredrick Davids has issued an urgent plea for safe driving over the Labor Day weekend.

"Although we will have special patrols out and be assisted by the National Guard, that just won't do the trick alone," Davids said.

"It's up to the driver to save his family and himself by driving defensively and to honestly avoid taking those chances that end in accidents."

Davids said State Police will provide maximum coverage throughout the holiday from 9 a.m. until 9 p.m., when traffic is expected to be the heaviest. Special attention will be given to the highway stretches with the worst accident records.

High Interest Shown in White Lake Twp. Water, Sewer Plans

WHITE LAKE TOWNSHIP—Residents here apparently are in favor of finding out about White Lake Township's potential in the development of water and sewer systems.

Township officials called them together last night to find out

how they felt about applying for a federal loan to finance preliminary studies.

Some 110 persons attended the hearing at the Township Hall.

A few of those had left by the time Supervisor Edward Cheyz asked persons objecting to the idea to raise their hands.

Seven indicated they were opposed to the idea.

NO ACTION

The Township Board took no formal action on applying for the federal loan.

"We feel that we will go along with it," Cheyz said after the meeting. "But we want to wait to find out the cost of the water sewer line through Waterford Township."

A White Lake Township sewer system would be connected to the Waterford lines of the Dequindre Interceptor.

If such a program is contemplated for any time in the future, the Waterford lines soon to be built should be large enough to accommodate the needs of White Lake, which would have to pay for the additional capacity.

The planning now contemplated would be preliminary.

"The township would not be going into the water and sewer business tomorrow," Cheyz said.

Philip Hampton, representing township engineers at Johnson and Anderson, Inc., of Waterford Township, explained the 702 Program under which White Lake would apply for the federal planning funds.

Administered by the Housing and Home Finance Agency, the program provides money for preliminary studies or a master plan.

TIME PERIOD

The only stipulation is the municipality involved must intend to start some portion of the project within a reasonable period—usually five years, Hampton said.

This does not mean that the whole program must be started or that the unit is obligated to start at all, he said.

The interest-free loan is paid back when work on the program is begun.

The preliminary planning would determine routes for sewer and water lines, the proposed size of the lines, elevations, location of pumping stations and cost estimates.

PREDICTED COST

Engineers have predicted that sewer lines would cost about \$4.3 million and a water system about \$3.4 million.

Hampton said it would take a month to six weeks to prepare the application and another two or three months to be processed by the Housing and Home Finance Agency.

Another year would be required for completion of the plans.

Added to that would be the five-year grace period granted by the federal government.

7 YEARS AWAY

"We're talking about a program which might conceivably be started seven years from now," Hampton said.

Cheyz listed the road projects being contemplated for the near future, pushing development out to White Lake Township.

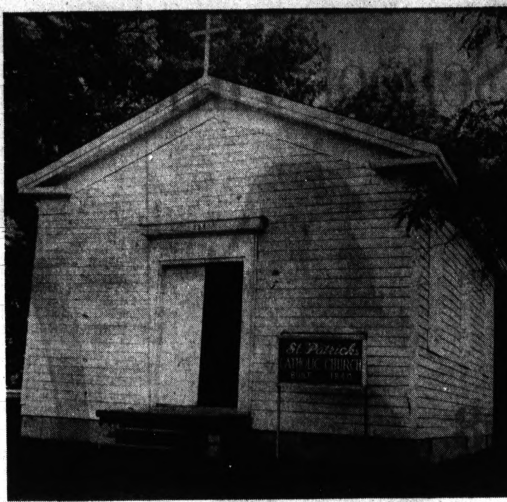

Among them were the widening of M59, blacktopping of White Lake Road and the designation of Oxbow Lake Road as a scenic highway.

"We also know that extension of Northwestern Highway is on the drawing boards once again and that a cost study is being made now," Cheyz said.

"One, if not more, of these will be completed in the next five to seven years."

"We know the highways are going through and we know how fast we are being developed."

About 500 million bushels of wheat are consumed annually in this nation.

The Old St. Patrick's Chapel Was Built 125 Years Ago

Ceremony Set by Old Church

To Mark 125th Year,
Start New Building

WHITE LAKE TOWNSHIP—A little bit of the new will be combined with reverence for the old at St. Patrick Catholic Church Monday.

Members of the parish and guests will mark the 125th anniversary of the small white chapel which was Oakland County's first Catholic church. Then they will break ground for a new \$350,000 edifice.

Rev. Lewis Ellis, St. Patrick pastor, will celebrate an 11 a.m. Mass in the chapel at 725 Union Lake.

The Mass will be served by Francis J. Donohue, Union Lake postmaster and a descendant of one of St. Patrick's pioneer families.

Rev. John Finnegan, pastor of St. Brendan parish in Detroit, will deliver the commemorative sermon. Father Finnegan spoke at the centennial celebration at the chapel 25 years ago.

FORMER PASTORS

Also to attend the ceremonies are three of the parish's four former pastors, Rev. Frederick Dolaney, Rev. Louis Prohaska and Rev. Thomas Edison.

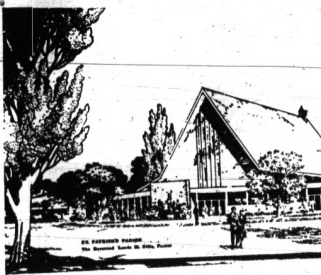

Rev. Morgan Harrison, the parish's second pastor, is deceased.

Following the Mass, ground will be broken for the new St. Patrick church, to be built west of the existing church-school-rectory complex at Union Lake and Hutchins roads.

A luncheon for the guests will be served in the parish hall.

2 FIRES

The 125-year-old chapel, said to be the oldest standing Catholic church in the Lower Peninsula, has not been used regularly since 1948 when it was hit by two fires.

The New Church Soon To Be Constructed

For Guild Membership

Hospital Tea Is Set

AVON TOWNSHIP—The Avon Center Hospital Guild will hold its membership tea from 1 to 4 p.m. Sept. 14 in the Gold Room at Oakland University.

Guest speakers for the afternoon will be Mrs. Gordon Hobbs, supervisor of nurses at the hospital; Mrs. Campbell Ward, state and national chairman of the Allied Organization of the Osteopathic Guild; and Mrs. Byron Kraft, state advisor of the Michigan Osteopathic Guild Association.

Central Junior High Honor Society to Meet

ROCHESTER—A meeting of members of the Central Junior High School Honor Society will be held at 1:30 p.m. Tuesday in room 111 at the school.

The purpose of the meeting is to help make plans for orientation day on Wednesday.

Chairman of the membership committee is Mrs. Ben Traxler, of 2900 Hixon, Romeo, with Mrs. James Wallace, of 178 E. Tienken, as cochairman. Mrs. Frank Voll Jr., of 302 Glendale, Rochester, is chairman of the decorations committee.

Oakland 4-H'ers in Winning Mood

The Oakland County delegation of some 75 4-H Club members is making its presence felt this week at the annual State University campus.

Competing with over 5,000 4-H'ers from throughout the state, local club members have taken 17 blue ribbons and rosettes since the four-day event opened Monday.

Numerous other awards were also won by county youngsters, according to County 4-H Agent Jack Worthington, who said final results are yet to be tabulated.

The highest award won by an Oakland County 4-H'er thus far went to Nancy Mills of the Oakhill Club, who was named tops in the state in over-all achievement.

Daughter of Mr. and Mrs. Osmond Mills of 9200 Oakhill, Groveland Township, Nancy was named top girl winner in the annual county Spring Achievement program last March.

AWARD VICTOR

She has won numerous other awards and trips for her accomplishments in clothing, foods and home improvement. The state honor entitles her to attend the National 4-H Congress in the fall.

Rosettes were won by Holly Head of the Bloomfield Club, who was reserve champion in stock horse horsemanship, and L. C. Scramlin of the Oakhill Club, who had the reserve junior champion Ayshire and grand champion Ayshire cow.

Blue ribbon awards went to the following: Holly Head, stock horse pleasure class; Sharon Barkham of the Paint Creek Valley Club, registered Morgan; Dennis Waite of the East Orion Club and Linda Armstrong of Galloway Lake, flower arranging.

Other blue-ribbon winners were David Harrington of Skill and Craft and Jesse Bachelor of Skill and Craft, wild flowers; Jack Middleton of East Orion, sub-novice dog obedience; and Nancy Milligan of Seymour Lake, leathercraft.

Roads to Be Crowded

DETROIT (AP)—About 3.5 million cars carrying 7.5 million passengers are expected to travel on Michigan highways during the Labor Day weekend, the Automobile Club of Michigan estimated Wednesday.

Others were George Shaker of Skill and Craft, junior vegetable demonstration; Carolyn Middleton of East Orion and Rose Theriot of Oakhill, conservation exhibits; and Susan Wilson of East Orion, plant science.

Others were L. C. Scramlin, senior helper; Donna Horning

of West Bloomfield and Linda Armstrong of Galloway Lake, records.

Second and third-prize winners were as follows: Douglas Canfield of Nu-Lyn-Wix, third junior Holstein calf; Ed Theriot of Oakhill, second senior helper; Bloomfield Club, second model business team in white division.

Others were Linda and Susan Armstrong of Galloway Lake, second dog demonstration; Vicki Stiles of East Orion, third dog obedience in sub-novice B division; Allen, Bess of Ortonville, second in automotive contest.

IN THIRD PLACE

Pat Mulholland of Los Caballeros, third in stock horse fitting and showing, ages 13-14; and Oakland County had the second-place Ayshire herd.

Worthington said additional winners will be announced tomorrow.

NANCY MILLS

East Michigan Fair to Start on Monday

IMLAY CITY—Harness racing will be the featured attraction at the 67th annual Eastern Michigan Fair which will be held for six days starting Monday at the fairgrounds.

Post time for the first races Monday will be 2 and 8 p.m. About 400 horses are expected to be raced this year in the six scheduled racing days.

The Almost High School band will provide music at the fair at 1 p.m. Monday. Opening night music will be played by the Imlay City High School band in a concert at 7 p.m. in front of the grandstand.

Activities Monday will also include a midway. Rounding out the day will be a fireworks display at 10 p.m.

Tuesday and Saturday will be Children's Days with rides at reduced prices at the Happyland Carnival.

AUTO DAREDEVILS

Tuesday's show will also feature two performances by Johnny King's Automobile Daredevils.

Horse judging and harness racing are on the schedule for Wednesday.

Livestock will be judged at 10 a.m. Thursday followed by light-weight horse pulling at 2 p.m.

The Lapeer High School band will present a concert at 7 p.m.

Other harness races will be held Thursday, Friday and Saturday.

BAND CONCERT

The Imlay City High School band will present its second concert at 5:30 p.m. Saturday.

Following the harness racing Saturday, there will be a Grand Old Opry stage show.

Visitors at Fair Set Record for 6th Day

DETROIT (AP)—A total of 80,000 visitors crowded the grounds at the Michigan State Fair yesterday, setting a new record for the sixth day of the fair.

Last year, a total of 76,660 persons were at the fair on the same day.

So far, 479,219 persons have visited this year's fair, compared with 496,664 last year.

Highlight of today's events will be the auction of grand champion and reserve champion livestock as part of the horse show starting at 7 p.m.

Peach Queen Beauties Fare Well at Fair

ROME—Peach Festival beauty queens made a good showing in the preliminary contest last night for a Michigan State Fair queen.

Peach Queen Tjwana Jean Holley, Miss Utica, and her first maid of honor Charlotte Hamady, Miss East Detroit, both placed in the top 10 finalists.

The queen will be chosen tonight.

Tjwana Jean is the daughter of Mr. and Mrs. Melvin Holley of 43609 Deborah, Sterling Township.

If she is chosen State Fair Queen she will have to divide her time between the fair and the Peach Festival which runs Saturday through Monday.

Roberts to Speak Monday

S. Lyon Prepares for Gala Day Events

SOUTH LYON—Fun and games time is coming up in South Lyon during the three Gala Days scheduled for this weekend.

Among the events planned for the annual celebration are a carnival, chicken barbecue and parade.

State Sen. Farrell Roberts, R-14th District, will deliver a Labor Day address.

Most activities will take place in McFlattie Park on Dorothy Street, one-half block west of Pontiac Trail.

A carnival open from 10 a.m. to 10 p.m. will feature helicopter and kiddie rides. There will be free games for youngsters at 1 p.m. Saturday, Sunday and Monday.

South Lyon's new Teen Queen will be announced at 8 p.m. Saturday.

She will be crowned by last year's queen, Geraldine Burton of 20909 John, Lyon Township.

Among the four 16-year-old girls competing for the honor are

FARRELL ROBERTS

Other contestants are Sheila Minton, daughter of Mr. and Mrs. Garvin Minton, 4218 Ada, sponsored by the Jaycees, and Connie Blevins, daughter of Mr. and Mrs. Gilbert Blevins, 160 Woodland, sponsored by the Jaycee Auxiliary.

MAKE PENNY VOTE

Votes are being cast for the girls by shoppers dropping change into canisters. The girl with the most penny-votes will be declared winner.

Baby royalty, both a king and a queen, will be crowned at 3 p.m. Sunday.

The South Lyon Kiwanis Club will serve barbecue chicken Sunday and Monday.

Leading off Labor Day activities will be a parade organized by the Kiwanis Club. Starting at 10 a.m., it will follow a half-mile course to the park.

Immediately after the parade, Sen. Roberts will speak. The celebration will be capped by a fireworks display at 9 p.m. Monday.

Johnson and the Presidency—III

Foreign Problems Plague LBJ

(EDITOR'S NOTE—Congress may be irascible, but the world at large is not. In his foreign policies, President Johnson has come up against some king-sized problems. This is the third of four articles on LBJ in action.)

By LEWIS GULICK

WASHINGTON (AP) — "We cannot expect to maul a button," President Johnson said soon after he took office, "and have our wishes carried out all over this globe."

Today Johnson could find use for a string of magic buttons which — presto — could wipe out foreign policy problems which have risen up to plague him.

To name three: Viet Nam, the Dominican Republic, and United Nations finances. The last two, while still present, are not acute at the moment, but the question of Viet Nam has become more serious since he took office in November 1963.

Johnson came to the White House comparatively untested on foreign issues. On the other hand, he was a recognized master of domestic issues.

BRIGHTER SPOTS

But the foreign picture has its brighter spots, too. To name three again:

The Panama problem, which erupted with Canal Zone riots in January 1964 as Johnson's first full-blown foreign crisis, has receded into negotiations.

The former Belgian Congo, giant in the heart of Africa, has survived insurgency and African animosities with a strengthened pro-West regime at Leopoldville.

Cyprus, threatening to ignite war between North Atlantic Treaty Organization allies Turkey and Greece a year ago, has calmed after extensive U.S. diplomacy in foreign chanceries and the United Nations.

NOT LAST WORD

To label any one of these cases as a success or failure entirely attributable to Johnson is to credit him with more power than he commands. As Johnson put it, "We are not the last word" — other forces are at work too, and every crisis has historical antecedents.

The final verdict is in the distant future on Johnson's foreign most foreign affairs difficulty — the conflict with communism in Southeast Asia.

Secretary of Defense Robert S. McNamara returned from a July inspection trip to South Viet Nam saying the situation had deteriorated. Johnson had ordered the first sustained bombing of North Viet Nam begun in February and sent initial U.S. ground combat forces to South Viet Nam the following

month. Now he has increased the U.S. military manpower commitment by 50,000, to 125,000.

Battle reports are producing moderate optimism on defeating the current Viet Cong summer offensive. Yet the Reds still show no sign of wanting to talk peace. Even if there should be clear military gains in the coming months, a long task would be ahead in strengthening South Viet Nam to the point where it could stand without outside aid.

GRAVE QUESTION

There persists the grave question of whether the Communists, Chinese might move in bodily on the Viet Nam warfare.

In the Dominican chaos last April, Johnson averted what he portrayed as the threat of an

other Cuba by sending in more than 20,000 troops. Still, there was sharp criticism from many Latin Americans who protested what they called a return to the gunboat diplomacy which preceded the good neighbor policy of Franklin D. Roosevelt.

The Organization of American States has been on the scene in the Dominican Republic now, with a force still largely American negotiating for an interim government.

U.N. ENVOY

At the United Nations Ambassador Arthur J. Goldberg announced the administration's formal abandonment of the lengthy U.S. effort to force the Soviet Union and other delinquent members to pay their U.N. dues on peacekeeping operations.

This about-face from the position previously taken by the Johnson and Kennedy administrations indicates a new method of financing the world organization will have to be worked out. The United States has been by far the largest contributor.

The wide and often turbulent field of U.S. Soviet relations generally has come under the cloud of Viet Nam. Keeping affairs with Moscow on an even keel is Washington's main effort now. U.S. Soviet negotiators succeeded last year in agreeing on a consular treaty. No breakthrough on disarmament is in sight.

Some progress with Communist bloc countries is in increased trade, travel and relaxing tensions has been reported from Johnson's policy of building bridges to Eastern Europe. This is a slow but continuing process.

WESTERN EUROPE

Stagnation marks U.S. relations with Western Europe. Johnson has hewed to American policy favoring European unity and closer transatlantic ties. A revival of talk about a multilateral nuclear force is expected after West Germany's elections this fall.

The record is mixed elsewhere. The overthrow of Ahmed Ben Bella seems to have improved the U.S. view of Algeria. Relations with the United Arab Republic's Gamal Abdel Nasser are uneasy but not rock bottom. With Indonesia's Sukarno they are going sharply downhill. U.S. diplomats have found no way to stop the India-Pakistan strife.

In Latin America the Johnson

administration has stepped up Alliance for Progress aid. The program still gets complaints from Latin Americans of bureaucratic strictures by Washington, and criticisms from some U.S. officials that the Latin Americans are foot-dragging on reforms.

An election in Chile and a military coup in Brazil last year went in the right direction from Washington's standpoint. Prime Minister Fidel Castro's Cuba, under continued U.S. quarantine, is reported losing some of its charm for hemisphere left-wingers.

SIZABLE ATTENTION

Johnson has devoted sizable attention to foreign affairs right along. Viet Nam and other troubles — including de Gaulle's unreciprocated seem to have soured his hopes for some travel abroad this year.

After a period during which a number of ambassadors here complained of not seeing the President, he has become more accessible. For one thing, he has taken some of them for boat rides on the Potomac.

Johnson continues to rely heavily on the top foreign policy advisers of the late President John F. Kennedy. In picking ambassadors, he has tended to choose a higher ratio of professional diplomats from the ranks than his predecessor. A recent count showed 75 per cent of the Johnson ambassadorial appointments came from career foreign service ranks, compared with about 69 per cent under Kennedy. Although he had a clear opportunity to replace Dean Rusk as secretary of state after his election last November, Johnson asked Rusk to stay on and has defended him warmly in the face of criticism.

White House adviser McGeorge Bundy, Defense Secretary McNamara and Secretary of State George W. Ball are other Kennedy carry-overs still active in policymaking at the top.

Next: Johnson and his critics.

Police Dog in Disgrace

ALTON, Ill. (AP) — A German police dog is in disgrace here. Mrs. Beatrice Archibald was walking along the sidewalk when the canine jumped up, grabbed her purse and trotted off down the street carrying the purse in its mouth. Police Corp. Harold Cox took the dog in custody after the victim had flagged down a patrol car. No one admitted ownership of the canine. It was relegated to the animal shelter.

ANOTHER JOB—President Johnson talked with Gen. Maxwell Taylor last night at the White House. Johnson announced Taylor has complied with an "urgent request" to serve as a special consultant to the President and

review all government programs aimed at countering Communist encroachments abroad. Taylor recently resigned as ambassador to South Viet Nam.

Taylor Named as Special Consultant

WASHINGTON (AP) — President Johnson has named Maxwell D. Taylor a special consultant and said he will have a continuing role in support of the people and government of South Viet Nam.

This role was not spelled out as the President—Taylor beside him—made his announcement Wednesday night. Nor did Johnson amplify other special assignments he said he will give the former U.S. ambassador to South Viet Nam.

Johnson said Taylor, a former chairman of the Joint Chiefs of Staff, will be charged with reviewing all government pro-

grams aimed at countering Communist advances abroad. Taylor will operate, when in Washington, from the executive office building, across the street from the White House.

Taylor said he thinks Johnson has in mind "a kind of task force assignment."

Henry Cabot Lodge, who succeeded Taylor in Saigon, also served as a special presidential consultant. Taylor will go on the government payroll Sept. 15. Johnson said he will be paid at a daily rate for the days he actually works. The President did not say what this rate is.

The President said that Taylor wished to devote more time to his personal affairs, but had responded to an "urgent request" to serve as a consultant. "I just don't know how I can give him up completely," Johnson said of the former envoy.

Man Is Electrocuted

DUNDEE (AP) — Elmer J. Tabbert, 17, of Petersburg was electrocuted Wednesday in a junk yard at Dundee. He climbed a boom of a crane to free a cable and touched a high tension wire, Monroe County sheriff's men said.

Elusive Bulgarian Girl Tells Her Story

DETROIT (AP) — A 19-year-old Bulgarian girl who has been eluding immigration authorities seeking to return her to her country, briefly came out of hiding Wednesday to tell why she wants to stay in America.

"If I must go back, it will be the end," said Nevenka Tchobanova in an interview.

Nevenka disappeared Aug. 1—the day she was to return to Bulgaria after her three-months' visit had expired. She had been visiting an uncle, Kiril Tchobanoff, of Warren.

She reappeared briefly last Saturday to stay one night with other relatives in Toledo, Ohio. She was met at their house by

an immigration official who took her passport and who asked her to come to his office Sunday.

'BIG SHOT'

She did not keep the appointment.

Wednesday she told that a "Communist big shot" with a "big apartment, a big car," in Bulgaria wanted to marry her, but she didn't want to.

"If I want to live better I have to get married with a Communist," she said in her accented English. "But most of my relatives are not Communists."

"If I get married with him they will not come to see me

because they will be afraid to talk with him."

ALWAYS LISTENING

"If I get married with him, I can't talk free," Nevenka added. "My parents can't talk free because always he will be listening."

Nevenka wants to stay in America and study.

"I would like to study something I want—not what other people tell me I must learn," she said.

"I want to have a job where I can work with pleasure."

TALE OF DREARY

She told a tale of dreary, crowded conditions. She lived with her father, a \$40-a-month

assistant manager in a Sofia Bulgaria, department store, her mother, and a 20-year-old brother in a two-room apartment without a bathroom. To take a bath meant a four-hour trip to the public bathhouse.

Telephone and television were unheard of.

"It was very bad there, very bad," she said. "All the time unhappiness. That is all I know."

The interview over, she left to stay with an unknown family which had given her shelter since she disappeared.

Self is the only person that can ever bind the soul.—Henry Van Dyke

Weeks Of Back Pain Now Relieved

"After weeks of pain in my back and hips, I tried DeWitt's Pills and got wonderful relief," says Mrs. R. Gardner, Waterloo, Iowa.

People write in every day praising the remarkable relief they get with DeWitt's Pills.

DeWitt's Pills not just with a proven scientific to relieve pain of backache. Their mild diuretic action helps to eliminate retained fluids and flush out irritating bladder wastes that can cause physical distress. If pain persists, see your doctor. DeWitt's Pills often succeed where others fail—quickly relieve minor muscle aches and pains, too. Insist on the genuine DeWitt's Pills.

Over 15 million DeWitt's Pills are sold by druggists day after day after day, the world over—a tribute to their amazing action!

WINNERS — Driver Del Cameron and owner Rachel Dancer of New Egypt, N.J., join Egyptian Candor in the winners circle after

the pacer had won the Hambletonian Trophy Race in Illinois last night.

AP Photo

In Hambletonian Race

Wife's Racer Earns a Trophy

DU QUOIN, ILL. (AP) — The Hambletonian Trophy, most coveted in harness racing and a winning check of \$59,900 was in the Dancer family Thursday but it wasn't put there by the head of the household, Stanley.

In five previous attempts to win the top stake for 2-year-old trotters, the 38-year-old Stanley Dancer had failed. But this time everyone thought he was a shoo-in with Noble Victory, unbeaten in 20 starts with record earnings for his division of \$280,566.

Noble Victory didn't make it. But Egyptian Candor, his stablemate, did. He is owned by Stanley's wife, Rachel, trained by Stanley, but driven by close friend, Del Cameron.

The sleek, brown son of Star's Pride is named after Candor, the first horse the Dancer's ever owned and the one who launched Stanley on a fabulous career of driver and trainer,

capped in 1964 when he became the first reinsman ever to drive winners of more than \$1 million in a single season.

FOUR HEATS

It took four heats to decide the winner Wednesday and only three times previously in the Hambletonian's 40-year history had it taken that many for a decision.

Short Stop, a \$6,000 purchase by the Penwin Stable of Winston-Salem, N.C., and driven by Ned Bower, won the first heat by a head over Nimble Boy in 2:05 1-5 Egyptian Candor took a nose victory over Nimble Boy and Ralph Baldwin in the second mile in 2:04 3-5.

Ambro Flight, entering the Hambletonian with a winning string of 22 starts, captured the third heat by a head over Egyptian Candor in 2:03 4-5.

The only filly in the starting field of 11, Ambro Flight, is

owned by the Armstrong brothers of Brampton, Ont., and driven by Joe O'Brien.

Meanwhile, Noble Victory, the unofficial 1-2 choice in the betless race, broke stride at the top of the stretch while leading in the first heat and finished ninth.

In the second heat he was seventh and in the third he was third.

In the race-off of heat winners, Short Stop broke at the start and trailed all the way. Egyptian Candor led until the home turn when Ambro Flight got up by not more than a head in front. They pounded down the stretch as if glued together with Egyptian Candor finally winning by a head.

The victory was the 12th in 27 starts in Egyptian Candor's racing career and boosted his winnings to \$162,933. Ambro Flight earned \$29,950 and Short Stop \$14,976.

Fourth place, worth \$9,584, went to Nimble Boy with 2-2-7 finishes while fifth and \$5,990 went to Marengo Hanover with 3-4-5.

Southern 500 Has 'Junior' at Pole Spot

DARLINGTON, S.C. (AP) — Junior Johnson won the pole Wednesday for the Labor Day Southern 500 with a record-shattering 137,528 miles per hour and led a procession of old pros into the top of the starting field. Johnson, driving a factory-backed 1965 Ford, knocked almost a mile per hour off the old Southern 500 four-lap record of 136,415 m.p.h. set last year by Richard Petty.

Fred Lorenzen, who nailed down the outside front row spot, also eclipsed the old mark with a six-mile average of 137,318 in his 1965 Ford.

SEVEN VETERANS

The first eight starting positions—all available for this first day of qualifying for Monday's 500-mile grid—were taken by seven veterans and one complete newcomer.

The veterans included 41-year-old Curtis Turner, who qualified a makeshift 1965 Plymouth Fury in eighth place. Turner, whose four-year suspension was lifted by NASCAR only two months ago, complained that his car wasn't geared right. Nevertheless, he averaged 134,474 m.p.h. for four laps over the mile and three-eighths Darlington International Raceway—toughest on driver and car of all the South's big speedways.

Marvin Panch, favored by most to win Monday's \$95,000 classic, put his Ford into third place with 135,797 m.p.h. Next was Earl Balmer, driving a 1964 Mercury, 135,551.

Flint 2-1 Victor in City Regional

Flint Top Hat pushed across two runs in the third inning last night at Beaudette Park to down Port Huron Bowl-O-Drome, 2-1, and win the Class A state softball regional tournament.

The Flint squad will move to Lansing for the finals.

Port Huron took a 1-0 lead in the second when Jim Rooney came across on an infield out, but Flint went in front an inning later on a run-scoring single by Harry Frettenborough and a triple by John Budnor.

Out for Season

Injury Halts Spartan

EAST LANSING — Attrition started early in the first full day of football practice at Michigan

State Wednesday as Ed Macuga, a key lineman, was knocked out of play with a knee injury.

Macuga, a senior and letterman from Danville, Pa., was scheduled as a starter at defensive end. He caught a cleat in the turf and went down and tore ligaments in his left knee.

Dr. James Feurig, team physician, said Macuga would be operated on next week and probably would be out for the season. ANN ARBOR — The Michigan Wolverines ran through a hard-hitting football scrimmage for more than an hour today. The first offensive and defensive units saw extensive action.

Mike Bass, first team defensive halfback from Ypsilanti, was the only principal player who missed practice. He has a pulled groin muscle but is expected to recover soon.

OTHER CAMPS

Around the other Big Ten football camps:

ILLINOIS — The veteran-shy Illinois opened fall practice Wednesday with three major shifts by Coach Pete Elliott. Letterman Dale Grieco was elevated to No. 1 defensive right tackle.

NORTHWESTERN — The Wildcats had a casualty before they stepped onto the practice field for their first drill. John McCambridge, starting defensive end, reported with a pulled leg muscle which may bench him two weeks.

IOWA — The Hawkeyes opened fall training with emphasis on conditioning and individual coaching. The morning practice session was split so coaches could work individually with players.

MINNESOTA — Eight seniors and three juniors drilled on the first team, including quarterback John Hankinson, holder of most of the school's passing records. The Gophers went through three drills, with Coach Murray Warmath scheduling a special evening session.

WISCONSIN — Fundamental blocking was the order of the day, as 71 would-be Badgers worked out in limited-contact sessions during the morning and afternoon.

INDIANA — Coach John Pont moved junior John Eichstead from the left to the right side in the opening session. Most of the 35-minute contact session, minus tackling, concentrated on basic defense.

PURDUE — Purdue set up offensive and defensive crews during the first practice session. Twenty-two of Coach Jack Mollenkopf's 81 Boilermakers are lettermen, but two veterans are out with injuries — end Rich Ruble and tackle Walter Gahn.

**OLIVER
BUICK**

210 Orchard Ln. Ave. at Williams

Oliva's Bid to Repeat Boosts Twins

By the Associated Press
When baseball starts handing out its post-season awards, it's just possible that Minnesota's Tony Oliva will wind up with his second silver bat and first purple heart.

Oliva, who has been playing all season long with a bone chip in the middle finger of his right

hand, came back from a week's layoff Wednesday night and resumed defense of his American League batting title with two doubles and a single in the Twins' 5-3 victory over Detroit.

The 34-year-old left-handed swinger still trails Boston's Carl Yastrzemski, who is hitting .323, and Brooks Robinson of Balti-

more, swinging at a .319 clip, in the three-way struggle for the title and the silver bat that goes with it.

SINCE WILLIAMS

But Oliva's 3-for-4 performance quickly shot him back into contention with a .315 mark as he attempts to become the first batting champion to repeat since Boston's Ted Williams accomplished the feat in 1957 and 1958.

Oliva, who stroked 217 hits for a .323 average as a rookie last season, now has collected 181 hits and also could put together a rare double if he can overhaul Yastrzemski and Robinson while reaching the 200-hit level in the Twins' remaining 27 games.

Only two AL batting champions ever have won successive batting titles with 200-hit sea-

sons — the last time 34 years ago. Ty Cobb of Detroit was the first to do it, with 248 hits in 1911 and 227 the next year. Al Simmons of Philadelphia matched that with 211 hits in 1930 and 200 the following season.

While Oliva resumed his chase for the batting title, the front-running Twins moved eight games ahead of second-place Chicago in the AL pennant race. The White Sox were rained out at Baltimore.

Elsewhere, Kansas City edged Cleveland 4-3, Washington outlasted Boston 8-7 and the Los Angeles Angels nipped the New York Yankees 7-6 in 12 innings.

Home runs by Bill Bryan and Wayne Causey got the job done for the A's. The Indians took a 2-0 lead against John O'Donoghue in the second but Bryan hit a three-run shot in the A's half

and Causey hit what turned out to be the clincher with the bases empty in the sixth inning off Luis Tiant.

The Senators pulled out front to stay, 8-6, in the seventh inning after the Red Sox had tied the score in their half with a three-run rally built on Jim Gosger's double, four walks, two wild pitches and a sacrifice fly. Ken Mullen's double and Willie Kirkland's single broke the tie and Don Lock singled in the final run.

The Yankees contributed to their own downfall by committing seven errors and having two men picked off. The winning run in the 12th was set up when Pedro Ramos issued two-out walks to Bob Rodgers and Paul Schaal. Jose Cardenal then singled Rodgers home with the winning run for the Angels.

East Sweepstakes Carry Big Payoffs

SALEM, N.H. (AP) — The New Hampshire Sweepstakes Classic, its value doubled over 1964, will be raced for the second time at Rockingham Park Saturday with five rich payoffs awaiting the outcome of the 1¼ mile race.

Four of the payoffs will be for \$100,000 each and the fifth for \$183,118 if the names of the 11 expected starters are dropped into the entry box today.

The \$100,000 payoffs will go to the holders of the sweepstakes tickets on the first horse across the finish line.

The big one is what the owner of the winning horse will take home as a reward for sending his thoroughbred to America's richest 3-year-old race at this picturesque track in the foothills of the White Mountains.

Although the sale of sweepstakes tickets fell far below expectations, Howell F. Shepard, chairman of the Sweepstakes Commission, estimated that the state's educational fund would receive close to the \$2,768,088 realized last year when the sale of tickets totaled 5.7 million.

BANK ACCOUNT
When the 1965 sale ended Tuesday, approximately \$3.9 million was in the bank. The drawings already have been made for \$2 million and the remainder will be drawn from the huge drums tonight in two pools.

In addition to the \$100,000 first prizes, holders of tickets on the second horse to finish will receive \$50,000 each with \$25,000 to third and \$12,500 to fourth. There also are lesser amounts to be distributed to persons holding tickets on one of the 422 horses originally nominated for the race at \$10 each.

Market Advances

Savings Firms, Airlines Strong

NEW YORK (AP)—Savings and loan holding companies and airlines were strong in an advancing stock market early this afternoon. Trading was active. The rails followed in the proposed Chesapeake & Ohio-Norfolk and Western merger put on a scrambled showing. Rails were ahead as a group, however, and the trend also was higher among aerospace issues, electrical equipments, utilities and electronics. It was the first really clear-cut market advance of the week, even though the gain on average was modest. STEELS UNCHANGED. Steels were unchanged to a little higher as labor negotiations continued. The Associated Press average of 60 stocks at noon was up .8 at 333.7 with industrials up 1.2, rails up 2 and utilities up .3. The Dow Jones Industrial average at noon was up 2.19 at 895.79. Among the savings-and-loans Great Western Financial looked like a clinch to repeat yesterday's role as most active stock

Labor Agency for State Is Hit

One of Worst in U. S. — Study Group Head

By BILL STALL, RENO, Nev. (AP)—As a Philadelphia banker, Stuart B. Webb used to spend his leisure hours on cattle here. He's found no hunting since moving to Nevada to be president of the state's second largest bank. "But I've been on horseback looking at our cattle. We lend money on cattle here, so something unusual for the East," Webb, 40, already has become a heart's desire by filling top officer of the Nevada Bank of Commerce, with 13 branches throughout the state and assets of \$65.6 million. MOVED TO RENO. Webb was born, reared and educated in the East. He moved to Reno in April as administrative vice president and became president July 29. Why did he come? "I was looking for a situation that would lead to a top spot in the banking business. This one came to my attention, so I joined it. It's always been my heart's desire to be a bank president."

Head 2nd Largest Nevada Bank

Webb wasn't a total stranger to the West. "We have some family property near Idaho Springs, Colo., and we used to go out there every summer." Webb and his wife have three children, Peter, 15; Nancy, 8; and Scott, 5. Webb is a native of Washington, D.C., who was graduated from Lehigh University in 1959. He did graduate work at the University of Pennsylvania and Rutgers before joining Provident National Bank in Philadelphia. He worked his way up and then became an executive of the National Bank of Pottsville, Pa. Sam Dawson is on vacation.

House Unit OKs Aid Bill

With Smallest Cut Ever

WASHINGTON (AP)—A \$3.285,000,000 foreign aid appropriation bill emerged today from the House Appropriations Committee with the smallest cut in the aid program's 18-year history. The \$75 million trimmed by the committee from the \$336.1 million program authorized by Congress only last week compared with the previous low of \$198 million cut from the 1952 program. Last week's bill fixed the limit of new financing for the present fiscal year at a level of about \$66 million below what President Johnson requested. In addition to financing the foreign aid program, the money bill also would provide funds for several other activities, including the Peace Corps, boosting its over-all total of \$4,001,453,000. "This over-all total is up \$91.9 million from figures for the fiscal year just ended, and the \$3.285,000,000 amount for foreign aid is up \$35 million. Some Republican committee members were dissatisfied with the committee's action and called for a review of the entire program. Largest allotment in the bill was \$1.7 billion for direct military assistance to provide defense equipment and training for nations resisting Communist encroachment. This is the amount the President requested and is \$115 million more than was appropriated last year. The money is earmarked for 54 nations. Other large allotments included: \$402,355,000 for technical cooperation and development grants to promote the social and economic progress of friendly nations. This is \$7.6 million less than Congress authorized. \$399,200,000 for economic assistance designed to help less-developed nations expand their defense programs. This is the amount authorized. \$445,125,000 for development loans in Latin America under the Alliance for Progress program.

Successful Investing

By ROGER E. SPEAR "My husband and I have never been able to save much money. Our savings are in Government bonds, bank certificates, and we have bought Montana Power and a few other stocks. We are now looking for a way to invest our money. We would like to buy a drug stock because we believe Medicare will help these companies. What do you think of that? We would like to know how many people are writing you about this much money, but we know we are just as happy as they could possibly be." R.B.

Oakland Highway Toll 105

State Police are searching for a hit and run auto driver who ran over a Pontiac youth apparently lying in the middle of Dixie Highway in Waterford Township Friday morning. Edwin J. Black, 18, of 456 Colorado, died yesterday at Pontiac General Hospital from injuries received in the mishap. A witness told State Police at the Pontiac Post that he had driven past Blackthunder moments before the accident, thinking the youth was a prankster. The witness said the youth was curled up in the middle of the road as he was going to sleep. State Police said the witness told them he saw a northbound car run over the youth. The unidentified car stopped, then fled from the scene, the witness said. State Police have requested that any person having information about the accident call or stop by the Pontiac Post.

Treasury Position

WASHINGTON (AP)—The cash position of the Treasury tomorrow with corresponding data for year 1965. Balance: \$1,307,354,242.84. Deposits: \$1,307,354,242.84. Withdrawals: \$1,307,354,242.84. Total: \$1,307,354,242.84. Gold: \$1,307,354,242.84. Silver: \$1,307,354,242.84. Copper: \$1,307,354,242.84. Lead: \$1,307,354,242.84. Zinc: \$1,307,354,242.84. Nickel: \$1,307,354,242.84. Tin: \$1,307,354,242.84. Iron: \$1,307,354,242.84. Steel: \$1,307,354,242.84. Aluminum: \$1,307,354,242.84. Magnesium: \$1,307,354,242.84. Titanium: \$1,307,354,242.84. Vanadium: \$1,307,354,242.84. Chromium: \$1,307,354,242.84. Manganese: \$1,307,354,242.84. Cobalt: \$1,307,354,242.84. Nickel: \$1,307,354,242.84. Tin: \$1,307,354,242.84. Iron: \$1,307,354,242.84. Steel: \$1,307,354,242.84. Aluminum: \$1,307,354,242.84. Magnesium: \$1,307,354,242.84. Titanium: \$1,307,354,242.84. Vanadium: \$1,307,354,242.84. Chromium: \$1,307,354,242.84. Manganese: \$1,307,354,242.84. Cobalt: \$1,307,354,242.84. Nickel: \$1,307,354,242.84. Tin: \$1,307,354,242.84. Iron: \$1,307,354,242.84. Steel: \$1,307,354,242.84. Aluminum: \$1,307,354,242.84. Magnesium: \$1,307,354,242.84. Both Pontiac Yankee Stores

WE'RE LOADED WITH BACK-TO-FALL SAVINGS IN EVERY DEPARTMENT . . . BRING THE WHOLE FAMILY IN!

Boys' Back-to-School Slacks

BOYS' WASHABLE SLACKS

Cotton and rayon blends. New slim trim continental and Ivy styles. New high pockets—cont. less. Tan, olive, black. Sizes 28 to 36.

117

BOYS' SHARKSKIN SLACKS

Washable-bridges—cont dress up fabric. High style pockets, continental waist. Swing pockets, olive. Sizes 28 to 36.

179
2.99 Value

Boys' Orlon Laminated Parka Jackets

Value

Bulky knit collar, zip off hood, expand trim pockets, durable warm quilt lined. Washable. Sizes 8-16.

588

JUNIOR BOYS' SKI JACKETS

Reversible nylon quilted nylon, hooded, big zipper front closures.

\$4.97

Special Purchase \$1.99 Val.

BOYS' SPORT SHIRTS

6 to 16

117

"Wash 'n wear" cottons. Dacron and cotton blends. Irresistant solid shades, checks, woven plaids. Button down collar. Sizes 6 to 16.

Girls' 7 to 14

TAKE THE PRESS-URE OFF MOM!

Junior Boys' 3 to 7

Koratron Perma Finish Slacks

Wrinkle free, always neat. NEVER NEEDS IRONING. Guaranteed shrinkage control and shape retention.

GIRLS': 65% Dacron - 35% cotton. Solid color slacks in red, black, green.

BOYS': Choose from a 50% Fortrel, 80% cotton or 15% nylon, 35% acetate. In western, continental or regular fitted styles. Colors indigo, blue, black, charcoal.

288

JR. BOYS' 2-PC. SLACK SETS

SIZES 3 to 7

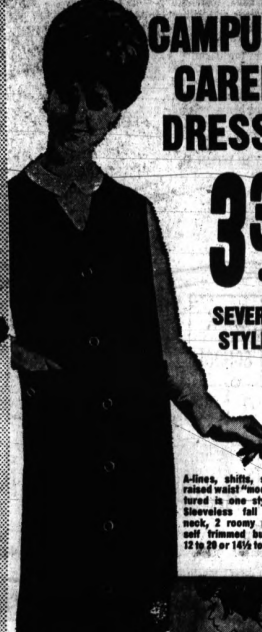

189

Choose from a selection of patterns in flannel, cotton long sleeve shirts - with matching cotton corduroy lined slacks. Zipper fly fronts - pocket detail.

JUNIOR BOYS' SKI PAJAMAS

Quilted knit - knit bottoms and vests. Sizes 4 to 6.

\$1.69

CAMPUS or CAREER DRESSES

3.33 each

SEVERAL STYLES

A-line, shift, sheath and raised waist "mod" styles. Pleated in one style of many. Sleeveless full jumper. V-neck, 2 roomy pockets. Six self trimmed buttons. Sizes 12 to 28 or 14½ to 24½.

ELABORATELY TRIMMED COTTON FLEECE ROBES

389

Soft, fluffy, warmth without weight. 65% acetate, 35% nylon fleece robe. Self quilted neckline and matching self quilted cuffs on sleeves. Coral and blue. Sizes 10 to 18.

ROYAL ADAGIO PROPORTIONED STRETCH PANTS

588

Royal Adagio Milken. These perfectly proportioned garments are obtainable in three lengths. Petite 8 to 16. Average 8 to 18, and tall 12 to 28.

"GO-MAN" TEEN STYLE NO IRON SLACKS

Fresh Fruit in Desserts

Fresh fruit desserts are delightful, but for a change try this!

Dale Crumble Sundae
 1 cup unsifted regular flour
 1 teaspoon baking powder
 1/2 teaspoon salt
 2 large eggs
 1/2 cup each firmly packed light and dark brown sugar
 1 teaspoon vanilla
 1 cup packaged diced dates
 1/2 cup chopped walnuts
 Vanilla Ice Cream

Grease an 8 by 8 by 2 inch cake pan; line bottom with wax paper; grease paper.

On a piece of wax paper, thoroughly stir together the flour, baking powder and salt.

In a 1-quart mixing bowl, beat the eggs until thickened and lemon color; gradually add brown sugar; gradually beat in the brown sugar, then the vanilla. Fold in the dry ingredients, dates and walnuts.

Turn into prepared pan. Bake in a slow (325 degrees) oven for 40 minutes.

Turn out on wire rack; remove paper; turn right side up; cool. Cut into bars.

At serving time, cut these bars into tiny squares; sprinkle these between layers of vanilla ice cream in parfait glasses.

Store remaining bars tightly covered and use as desired.

Something Different to Serve Your Guests

Time for a party at your house? Summer is enough reason to gather your favorite friends together for an indoor buffet or backyard party.

Whichever type you're planning, you'll be the "hostess with the mostest" if you serve a snappy flavored, wholly different and thoroughly delectable meal we call Corned Beef Vinaigrette.

Sound too fancy? Don't be misled. This party platter is as easy to prepare as one-two-three and most important it's a cinch to fix well ahead of time. Here's how:

One. Pick out the best piece

of corned beef you see at your store. One five-pound piece will give you about 25 slices, plenty for a party.

Remove the corned beef from its protective plastic packaging... and say thank you to that packaging because it's the packaging that locks in all the corned beef's bright color and flavor.

Two. After removing from the wrap, place corned beef in large pan and cover with cold water. Add three bay leaves, cover pan with lid and bring water to boiling point. Reduce heat and simmer till tender or about 45 minutes per pound. Re-

move corned beef from water and refrigerate till serving time. To go with your corned beef, we suggest a variety of fresh cooked vegetables which, like the corned beef, you can also cook up ahead, again leaving you free to enjoy your party. Vegetables such as sliced potatoes, carrot sticks, string beans julienne and baby beets.

Arrange vegetables and thin slices of corned beef on a platter, garnish with tomato and hard-cooked egg slices and your basic meal is ready... almost.

Three. The finishing touch is the flavor twist... Vinaigrette Sauce. And there's hardly any sauce you've ever tried that's easier to prepare (or more delicious).

Vinaigrette Sauce

1/2 cup salad oil
 6 tablespoons vinegar
 1 teaspoon salt
 4 tablespoons sweet pickle relish
 2 hard-cooked eggs, chopped
 Combine and chill well before serving. Makes about 2 cups of sauce.

Avocado, Melon Make Pretty Salad

Green and orange-gold slices make a pleasing summer salad. Cantaloupe and Avocado Salad Alternate slices of avocado, which have been peeled and dipped in lemon juice, with slices of flavorful western-grown cantaloupe on crisp lettuce leaves.

For variation of texture and flavor tuck in a few sections of canned or fresh grapefruit.

Did You Know Pork Loins Roast at 170 Degrees?

You can roast today's modern pork loins to an internal temperature of 170 degrees rather than the previously recommended 185 degrees.

Roasts cooked to this lower internal temperature will be more juicy, have lower cooking loss and will require less cooking time.

These facts are reported after intensive research at Iowa State University. The recommended

oven temperature for roasting pork remains the same as it has been for some time, 325 degrees to 350 degrees.

It's easy to take the guesswork out of cooking pork loins if a roasting meat thermometer is inserted in the thickest part of the meat, resting neither in fat nor on bone.

The pork roast will be done when the meat thermometer registers 170 degrees.

Seeded Rolls

Give those homemade rolls real interest; brush them with beaten egg and sprinkle with toasted sesame seed before putting them in the oven to bake.

A SNAPPY PARTY PLATTER—What a simple platter to prepare. The secret... delightful and delectable thinly sliced corned beef (you'll find corned beef at its flavor peak when it's packaged in see-through plastic) topped with a tangy, refreshing Vinaigrette Sauce, which also tops cold slices of your favorite cooked vegetables.

Salads Better Tasting With Special Dressings

Wedges, slices and balls of various melons make summer meals a cool adventure. Try these fruit dressings on your favorite salad.

Lime-Honey Fruit Salad Dressing

1/2 teaspoon grated lime peel
 1/2 cup lime juice
 1/2 cup honey
 1/2 teaspoon salt
 1/2 cup salad oil
 1/2 teaspoon paprika
 1/2 teaspoon prepared mustard
 1/2 teaspoon seasoned salt

Combine all ingredients in a bowl or covered glass jar; beat or shake thoroughly and chill well. Beat or shake again just

before serving. Makes approximately 1 cup dressing.

Citrus-Peanut Dressing

2 tablespoons orange juice
 1/2 cup peanut butter
 1/2 teaspoon prepared mustard
 1/2 teaspoon salt
 1/2 cup commercial sour cream
 1/2 teaspoon grated orange peel

Gradually blend orange juice with peanut butter, mustard and salt. Add sour cream and orange peel. Serve over fresh fruit salad. Makes 1/2 cup dressing.

Low Calorie Dressing

1 cup farmer style cottage cheese

2 tablespoons undiluted pineapple-orange juice concentrate, thawed

1/2 teaspoon ground ginger
 Combine all ingredients and chill thoroughly. Makes about one cup dressing.

Spice With Ginger

Exotic ginger spices this refreshing bean salad. In bowl, lightly mix 1 can (1 pound) pork and beans with tomato sauce, 1/2 cup cubed luncheon meat, 1 cup pineapple tidbits, and 1/2 to 1/4 teaspoon ground ginger. Chill and serve on salad greens. Makes 4 servings.

Brother Home After Futile Search in Viet

LOS ANGELES (AP) — Don Dawson, who searched the jungles of South Viet Nam in vain for 10 months to find his brother dead or alive, returned home to a dry-eyed reunion, saying he just wants "to go back to work to support my family."

Dawson, 28, was met at the airport Wednesday night by his wife, Jeanne, 27. They had only a moment's privacy before facing newsmen. They obliged cameramen with a long kiss.

Dawson, skipper of an oil survey ship before he left for Asia late last year, said he spent \$3,000 in the search, but failed to find his brother, Army Lt. Daniel Dawson, 27, a spotter plane pilot who disappeared over enemy territory last Nov. 6.

During his search, Dawson was held for four months in a Viet Cong prison camp, was stricken with malaria, then finally released after the Communists told him his brother was dead.

WAS CONVINCED

"I finally convinced them that my one wish was to have my brother's remains with me when I left. It was hell, but it was worthwhile. My brother would have done the same thing for

me, and I would do it again," Dawson said.

His wife agreed: "I feel it was worthwhile," but added: "I'm glad that he is home."

"When I left home," Dawson told newsmen, "I insured myself for \$10,000, figuring that would keep my wife going until she got another husband. I didn't figure I'd be gone this long. I thought I'd be gone a couple of months and that that wouldn't be much out of our lives."

On his failure to return with his brother's remains, Dawson said he doesn't consider that this is a finished story. When the war is over, I've got to go back, and they (the guerrillas) will take me to my brother's grave.

BACK TO WORK

"In the meantime, I've got to go back to work to support my family."

Asked if he believes his brother dead, Dawson replied: "The only thing I have is the assur-

ance of high level officers of the 'Liberation Front' that Danny is dead. I believe that if he had been alive, they'd have photographed us together and made a big propaganda thing of it."

The red-headed seaman arrived wearing GI boots, khaki clothing and an unloaded 38-caliber pistol. He said military officials had taken the ragged clothing he wore when he came out of the jungle and issued the military garb.

CONG PRISONER

Describing his experience as a Viet Cong prisoner, Dawson said he laid on a bamboo rack for the first week. He said he had to convince them he wasn't an undercover man for Army intelligence, and that he carried water, dug trenches and patched buildings while a prisoner.

He said the typical Viet Cong soldier was "a well-educated, fierce little fighter who lives in the jungle on rice, monkey meat and lizard. He has no pleasures

so he must have some strong attraction to keep him there. The Viet Cong believe they will win the war."

Janet Cowling to Wed Twice on Saturday

LONDON — Two men will be married to Janet Cowling at St. James Church here Saturday. But the bridegrooms, Peter Fountain and Michael Goodall, aren't complaining.

By coincidence, Janet Cowling of Nottingham and Janet Cowling of London, who have never met, picked the same church and day for their weddings.

Service Normal—Erratic

HASTINGS, England (UPI)—A notice posted at the railroad station here this week reads: "Normal Sunday service except for alterations, additions and cancellations."

PHONE 333-7812

BACK HOME — Don Dawson, 28, of Costa Mesa, Calif., was reunited with his wife in Los Angeles yesterday after returning from a 10-month search of the Viet Nam jungle for his missing brother, Army pilot Lt. Daniel Dawson. In his search, Dawson was captured and held prisoner by the Viet Cong, who assured him his brother was dead.

German Writers Aid Try to Oust Erhard

By WELLINGTON LONG.
BONN (UPI) — Germany's so-called intellectual writers have assigned themselves to help West Berlin Mayor Willy Brandt oust Chancellor Ludwig Erhard. Only the Sept. 19 election will show whether they helped or harmed his cause.

A dozen well-known authors are volunteering Brandt their services as speech and gag writers or campaign rally speakers. They have added spice to the campaign, but they also have presented broad targets to Erhard and his friends.

Stars of the Brandt intellectuals are "Tin Drum" and "Do Years" author Günter Grass, "Marat" writer Peter Weiss and "The Deputy" playwright Rolf Hochhuth.

All are postwar writers whose works are controversial on grounds of taste. They share a dislike of Erhard and his prosperity program which they consider petit bourgeois and undemocratic.

Erhard has reacted angrily, referring to writers who criticized him as "Philistines" and

"narrow-minded fellows." He describes their books as "debased art," a phrase invented by the Nazi book burners but rarely heard in the last 30 years.

INDISCRETION

An indiscretion by Willy Brandt contributed to the row.

President Heinrich Lübke told Social Democratic Chief Brandt he was shocked he should accept help from Grass because "Frau Lübke tells me there are things in Grass's books that even married people don't say to one another."

Brandt defended the story, and Lübke's remark was published. Lübke now is angry with Brandt for passing on the remark. The bright, brittle young people seem to think the contempt is hugely funny. But the under-25s in this country generally don't bother to vote, and the reaction of the over-25s isn't in yet.

Hochhuth and Grass were prominent in a list of writers who prepared a book, "Plea for a New Government," extolling Brandt and other Social Demo-

cratic leaders. Hochhuth's demand in this volume for a return to class warfare sparked sharp reactions from Erhard.

SHOULD HAVE

But Ernest Cramer, editor of the national daily "Die Welt," said the Social Democrats themselves should have complained, in view of Brandt's successful campaign to lead the party away from Marxism.

Former Defense Minister Franz Josef Strauss, a favorite target of Brandt's writer fans who consider him a modern Fascist, also has gotten into the act. He gives as good as he takes.

Although Hochhuth claims the

poor get poorer and rich richer in West Germany, says Strauss, the author himself has elected to become a resident of Switzerland for tax purposes because high income groups get off easier there than in Germany.

"Hochhuth and Grass are successful writers, that is, they make a lot of money at their trade," Strauss tells his election rallies. "As citizens and, in Grass's case, as taxpayers, they have every right to voice any opinion they wish."

"I personally give their opinions on social conditions—in our state as much weight as I would give Miss Germany's expressed views on the control of nuclear weapons."

ROCHESTER

As the moonshine racket flourishes in your state, so do many other associated crimes, such as robbery, narcotics, larceny, gambling and murder.

'Voice of America' Says Yeh, Yeh, Yeh

WASHINGTON (AP) — "It is my intent that we 'swing' a little," John Chancellor said after taking the oath as new director of the Voice of America.

"Under my stewardship," the former NBC White House correspondent said Wednesday, "the Voice of America will not drift into arcane intellectualism or academic pedantry."

"We will be vigorous, amusing, avant garde; we will be with the latest, we will be current and contemporary."

Joyce Founder Dies

PRISON ART — John Torrence (left), supervisor of education at the federal penitentiary at Leavenworth, holds a portrait of an American Indian. It is one of more than a thousand paintings to be offered for sale to the public at the fourth annual show and sale of prison art at the prison next Sunday. Standing beside another inmate painting is Norman Langdon (right), assistant supervisor of education at the federal prison.

Gallery Decorates Home

Jessel Needs No Wallpaper

By BOB THOMAS
AP Movie-Television Writer
HOLLYWOOD (AP) — George Jessel was wearing undershorts when he came to the door of his modest home in suburban Reseda.

"When I realized I was home only three days a month, I sold my other houses and moved out here," he explained as he paced through the small rooms. "All I needed was someplace where I could change clothes and hang my photographs."

Wallpaper is unnecessary in the Jessel home. Wherever you look there are plaques, trophies, framed letters and photos. He has a picture and autograph of everyone from David Ben-Gurion to Jayne Mansfield. Included are all the recent U.S. presidents, Elizabeth Taylor and most of her husbands.

THOMAS

As he roamed through the gallery, Jessel seemed impatient to don his clothes and fly off to Miami Beach or Haifa to address a luncheon or plant a tree. He took a dip in the pool in the steady.

DISPLAYS SCAR
He returned in dry trunks and displayed a four-inch scar on his left thigh. "Picked that up in Viet Nam just recently," he explained. "Snipers. We were coming off a plane and they opened up from across a rice paddy. Also picked up a bug of some kind. Can't shake it."

Jessel sat briefly in a contour chair to explain some of his other activities. "I'm going to be Jackie Gleason's talent ambassador," he said. "I did two or three shows with him last year and they were so successful that he asked me back for 13 this season. But I'll have something more to do than get up and say, 'Two Jews got on a streetcar.'"

"I'll be going to 13 different

American cities to find talent to appear on Gleason's show. I'll come on and say, 'This is so-and-so from Chicago, and I think she's got a great future as a singer.'"

"Then I'll say, 'Two Jews got on a streetcar.'"

Jessel also plans to tour with a new act composed of himself, Sophie Tucker and Ted Lewis. "We did fantastic business in the East," he remarked. "It's amazing when you consider that Sophie is 82, Ted is 77, and I am 67; together we're older than the United States."

HEADS FIRM
Another enterprise is a public relations firm he heads. Among his clients are Joseph E. Levine's Embassy Pictures, Israel, a distillery and a sausage concern. "I did two or three shows with him last year and they were so successful that he asked me back for 13 this season. But I'll have something more to do than get up and say, 'Two Jews got on a streetcar.'"

Prison 'Lifer' Now Married

PRINCETOWN, England (UPI) — A man who was arrested for murder minutes before his scheduled wedding, condemned to death and subsequently reprieved, was brought from prison yesterday to marry his teen-age sweetheart.

John Stoney, 21, now serving a life sentence for killing a cabdriver last year, married 19-year-old Patricia Munden at St. Michael's and All Angels' Church.

The church is located 500 yards from Britain's maximum security prison on Dartmoor.

The only witnesses to the ceremony were two prison guards who took Stoney to the church and John Wood, a prison welfare officer who gave away the bride.

The couple was allowed 15 minutes for a "wedding breakfast" of sandwiches and tea. Then, Stoney was driven back to jail.

PLANS APPEAL
Patricia said she believes her new husband is innocent of murder and announced that she plans to appeal his case to the queen. "But whatever happens, I shall wait for him and remain true," she said, "for however long it takes."

Fang Now Able to Eat, Thanks to Police Chief

PORTLAND, Ind. (UPI) — Fang, a crime-busting dog assigned to the Portland Police Department, owed a favor today to Police Chief Fred Pensinger.

Fang faced the prospect of going hungry all through 1966 when the city council eliminated a \$150 item in the proposed budget to provide food for him. When Pensinger objected, the councilmen restored the item to the budget.

400 in London Greet Beatles

LONDON (UPI)—The Beatles came home to Britain today, richer because of their tour of the United States but apparently still lovable.

An estimated 400 screaming and waving teen-agers showed up at the airport at 5:50 a.m. to welcome the singers but barely got a glimpse of their four heroes.

Police had scoured the airport in advance and herded the nearly hysterical fans into an airport terminal building.

Ringo, Paul, George and John came running down a ramp and hopped into an airport bus which zipped them to a waiting limousine. Then away they went under a police motorcycle escort.

George Harrison summed up the Beatles' 16-day tour which culminated in a near-riot at San Francisco's Cow Palace Tuesday night — "great, just great."

GREAT TIME
His meeting with Elvis Presley? "Great too," said George. "He was even better than I expected."

The Beatles made their 6,000 mile flight from San Francisco in a huge Boeing jetliner.

"That was quite a nice aircraft," commented Beatle manager Brian Epstein.

"Yes," agreed Ringo, "let's buy it."

Still Primary School

New Lacks Students

BIRMINGHAM, England (UPI)—The headmistress and three teachers were on hand for the opening of a new primary school here yesterday. But there were no pupils.

The school was built to accommodate children in a recently built housing complex. However, families have not yet moved into the development.

Bygone American Film Star Rediscovered in Homeland

By EARL WILSON

ROME—I strolled onto an Italian movie set, and there was a familiar cinema face before me... a chin chiseled out of rock, a nose that belonged to an eagle, and curly black hair that exploded from both his forehead and the back of his neck as forbodingly as storm clouds over the Catskills on a Friday night before Labor Day.

"The greatest Italian of them all... Vittorio Maturio!" I cried.

Victor Mature!

Ruggedly handsome, muscularly masculine, now in his 40's, he's playing an American movie star in a United Artists picture about thieves, starring Peter Sellers, titled "After the Fox."

"How many pictures have you made, Victor?" I asked. "This is No. 56," he replied, with precision. "What could you tell me about your part in this one?"

"Well, I wouldn't want to spoil the plot..." We had gone now to his dressing room and he was having a little lunch...veal and a peach...to keep his weight just where it was. It developed that Peter Sellers' real life wife, the Swedish beauty Britt Ekland, tries to make love to him in the film and he resists.

I felt that in real life, Victor Mature didn't want to discuss that phase because his real life wife, June, a British girl to whom he has been married six years, is ill in London from a California auto accident of a few months ago.

"She is all right now, thank God," Victor Mature said.

"Tomorrow morning," De Mille said.

"Then tonight," said Mature, "I suggest you take him to a dentist and have his teeth extracted."

THE MIDNIGHT EARL

Barbra Streisand recorded a song her husband Elliot Gould sings in "Dial M for Mr." Henry Fonda had dinner at Luchow's with son Peter, daughters Jane and young Amy... Does Producer David Merrick know that he gets smaller billing than choreographer George Chakraborty on the "Hello, Dolly" posters in A-7?

Phyllis Diller, dining at Sardi's, got into conversation with a patron nearby, discovered each had a ticket for a show the other wanted to see. So they swapped... The Volcan shuttered for refurbishing, reopens Sept. 9... Dean Martin'll co-produce a movie with his son and Desi Arnaz's son, and their rock 'n' roll group.

WISH I'D SAID THAT: There's one local fellow so poor he can't even afford to go window shopping.—Wallace Davis, Houston.

EARL'S PEARLS: Jack LaForge figured out what N.Y.C. kids of his generation had that today's youngsters don't—rain. That's earl, brother.

(The Hall Syndicate, Inc.)

New 'Antibug' Device Aimed at Snoopers

SANTA MONICA, Calif. (UPI)—Dectron Industries Inc. announced yesterday it will market a device to combat the "ever-increasing invasion of privacy."

The product is an "antibug" which electronically jams miniature snooping devices in its vicinity. It costs \$300.

MAKING OVER 1000 Teachers

City, Waterford Teachers Attend Preschool Sessions

Pontiac and Waterford Township teachers will take part in an extensive preschool workshop program this week and next prior to the beginning of classes.

Throughout this week in Pontiac workshops have been conducted in nine separate areas and all new teachers and teachers who have previously not taught in these areas will attend the sessions.

Instructional areas selected for workshops include secondary social studies, language arts, and mathematics, special education, home economics and physical education.

On Friday a special "Welcome to Pontiac" workshop is scheduled for all new teachers in the district.

In the morning teachers will meet at the Pontiac Central High School for a welcome by city officials, school administrators and school board members.

Probe Called in Bribe Case

(Continued From Page One)

unfortunate" that the State Department had issued a formal denials of the bribery charge on Tuesday and then had itself reversed yesterday.

NOT DIFFICULT "It is not too difficult to look back to what action Prime Minister Lee was talking about," Zahlocki said. He refused to elaborate.

State Department officials insisted that only Rank and the Central Intelligence Agency knew of the letter to Lee. Zahlocki indicated that Congress had been filled in on the incident when it occurred toward the close of the Eisenhower administration.

Zahlocki said the case indicates a need for a joint congressional committee composed of the chairman of the Armed Services, Foreign Affairs and Appropriations Committees of the Senate and House to look into CIA activities.

Administration authorities said U.S. Ambassador James D. Bell in Kuala Lumpur will meet soon with the Irian Singapore prime minister to discuss problems between the two countries. Consideration also is being given to naming an ambassador to the newly independent island state.

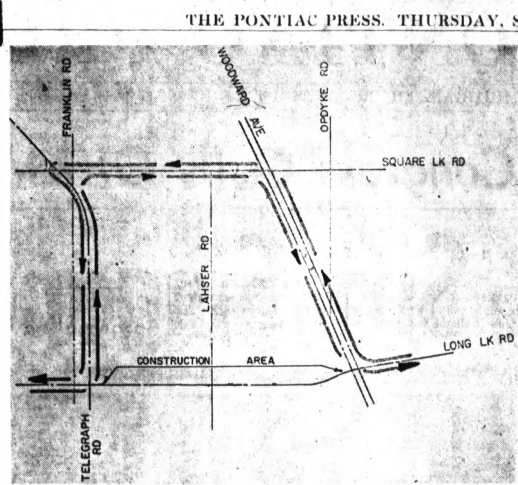

The Weather

Full U.S. Weather Bureau Report
PONTIAC AND VICINITY — Fair and warmer today and tonight. High today 79 to 78. Lows tonight 56 to 58. Friday will be mostly cloudy with a chance of a few scattered showers in late afternoon or evening. High 77 to 85. South-westerly winds 10 to 15 miles today. Saturday's outlook: Partly cloudy and a little cooler.

NATIONAL WEATHER — Showers and thunderstorms are expected tonight over the entire Rocky Mountains and the upper Mississippi Valley and the east Gulf coast region and extensive Pacific Northwest. A cooling trend is forecast for the north and middle Atlantic Coast states and the northern Plains.

LONG LAKE DETOUR — The Oakland County Road Commission Tuesday will close West Long Lake Road between Telegraph and Woodward in Bloomfield Township and Bloomfield Hills. The detour route, which makes use of Square Lake Road, is shown in this map. It is expected to be in effect until Nov. 1. Target date for completion of the \$185,886 improvement project is Dec. 1.

Eye Final OK on R20 Revision

(Continued From Page One)

has received for the sale of land during the time the revised plan was in the process of being approved.

This represents the million-dollar decrease in the gross project costs. Originally the gross cost was estimated at \$11.4 million, but this was trimmed to \$10.3 million.

NONCASH CREDIT Federal urban renewal officials slashed what the city had asked as noncash credit for the Clinton River Drain work. A total of \$1,099,032 was disallowed as a noncash credit.

There are two methods by which the city can pay its share of urban renewal costs: cash and a noncash credit. The latter is money already spent on related improvements which the federal government agrees to "credit" toward the city's share of the tab.

For example, construction of the multistory parking structure would earn the city \$1.2 million in noncash credit.

This would have gone toward

Group Raps Pay Hikes for Judges

A proposed \$3,000 raise for Oakland County judges was attacked yesterday by a newly formed citizens group comprised mainly of retirees.

F. L. Clark, chairman of the Citizens Tax Payers Committee issued a written protest at the meeting of the ways and means committee of the Oakland County Board of Supervisors.

Clark asked to be allowed to elaborate on the citizens committee stand, but ways and means committee chairman David Levinson said that any comments on salaries would have to be made at the Oct. 4 public hearing on the proposed 1966 county budget.

The ways and means committee was in the second day of a three-day review session on the proposed budget which will be submitted to the full board on Oct. 4.

Clark said that there is no shortage of lawyers willing and able to serve as judges at the present salary level.

ADDED BURDEN

He also stated that tax increases resulting from salary hikes are added burdens to senior citizens and other persons with fixed incomes.

Clark pointed out that judges received a \$2,000 raise two years ago and that at this time two more circuit judges were approved for the county.

Clark, of 664 Scottwood, said there are 25 or 30 members on his committee now, and these, as well as several expected new members, will attend the Oct. 4 hearing.

The \$3,000 raise for both circuit and probate judges was recommended by the salaries committee Monday. This would hike the circuit salaries to \$29,000 and probate court to \$26,500.

Birmingham Area News

Boost Attack on Road Woes

BIRMINGHAM — The city has stepped up its attack on East Maple traffic problems.

A recommendation that the Maple-Adams traffic signals be interconnected with Maple-Eton signals now is being studied in an attempt to improve safety on the stretch.

Radar enforcement also has been increased in the area.

The police department soon will add a traffic patrol car for high-speed, high-volume streets, according to Chief Halph W. Moxley.

The City Commission recently received a letter from a resident pointing out traffic problems on East Maple.

These included high density of traffic, excessive speeds, numerous accidents, excessive noise, debris from passing vehicles and the need for pedestrian crosswalks.

He claimed the street has developed into a "high accident" area since it was widened in 1962.

City Manager Robert S. Kenning said there had been an increase in accidents between Adams and Eton but a decrease between Eton and Coolidge.

Kenning said pedestrian crosswalks at Rugby and at Cambridge are not warranted by the number of people that would use them.

SPENDING LEADS LIST

He said continued spending is the most serious problem and recent steps to control it should bring about a reduction.

One of every 1,500 Birmingham residents will be a freshman at Alma College this fall. While Alma College spokesmen do not see this as an indication of a mass exodus, they note that more members of the Alma class of 1969 are coming

from Birmingham than from any other city—including Tokyo, the world's largest.

Birmingham is sending 17 of its 25,525 residents to join the 1,870,144 inhabitants.

Second highest contributor to the Alma freshman class is Detroit, which is sending 13 of its

2.59

the city's share of urban renewal costs, which are split one-third local and two-thirds federal in the R20 project.

TUNNEL WORK On the Clinton River tunnel work, the city has been allowed "credit" for that work that was actually in the boundaries of the R20 and R44 projects.

City officials had sought 100 per cent credit for the \$2.6-million river work on the basis it was necessary to the total renewal effort.

Urban renewal officials hiked the city's noncash credit for the river work by more than half-a-million dollars, from \$393,657 to \$192,000.

Despite the uncomfortable cut-

backs, it appears possible the R20 project can be eventually wiped up without an actual cash payment by the city.

PARKING STRUCTURE

One prime concern is the fate of the projected parking structure.

This facility is still in the R20 plan, but the question remains whether such a structure is necessary.

City officials have indicated that financing construction through revenue bonds would not be possible unless the need can be justified.

It would require significant development downtown to justify the building.

King-Sized Ranch

A 'Ponderosa' for Sale

CARSON CITY, Nev. (AP) — This may be the perfect gift for that fellow who has everything: A Nevada ranch the size of Luxembourg, the largest of Fish Creek.

The Bartholomae properties cover 25 townships, but only 9,277 acres are deeded land. As with most large western ranches, the rest is leased from the federal government.

The price tag for all this? That's indefinite until sealed bids are opened in private sale Sept. 7 in Carson City.

But the outfit has been appraised at \$1,876,313.90, including land and leases, grazing rights, the horses, 2,220 head of Hereford cattle and \$9,535 worth of vehicles.

The sale notice stipulates that the entire ranch is to be sold as a package.

Bartholomae, 70, was fatally stabbed in his Newport Beach, Calif., home Jan. 5, 1964, by Mi-nola Gillardo, 32, a dancer from Spain. Her sister was married to Bartholomae's brother.

She was acquitted July 7, 1964, after testifying that the language barrier between her and Bartholomae led to a struggle and his death.

Light-Fingered Filcher Spotted by Bird Watcher

NEW YORK (AP) — The view through her binoculars was strange for Ruby Cooley, an avid bird watcher.

There were no cardinals, tanagers, orioles, bobolinks or even crows. Instead, she spotted a thief in Central Park yesterday.

One hundred yards away she saw a man smashing the window of a car with a rock. She watched him take a woman's wig and a pocketbook from the front seat.

Playing nearby were three boys from Brooklyn, John Szalkiewicz, 13, and brothers Joseph, 12, and John Manzone, 10. "There's a thief," yelled Ruby. "Go call the police."

The boys went to a police call box and notified the desk sergeant.

Patrolman Edward Connery sped to the park and arrested George Varnusha, 43, of the Bronx. In his possession, Connery said, were the wig valued at \$200 and the pocketbook.

SIMMS BROTHERS

Got Last Rites From Cardinal

BOSTON (AP) — Richard Cardinal Cushing climbed into the wreckage of an auto outside his home and administered last rites of the Roman Catholic Church to two youths trapped inside. One of them died.

The archbishop of Boston, 70 reported on a radio broadcast that he was sitting in his study about 5 p.m. Wednesday when he heard "this dreadful crash."

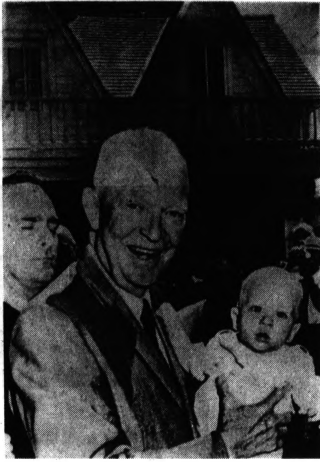

He took his anointment oils, ran from the chancery and jumped off a wall to reach Commonwealth Avenue. The car had crashed into a utility pole.

The cardinal crawled above the steering wheel and gave the last rites to Phillip Bemis, 22, and John Flueckinger, 17.

Bemis was killed, Flueckinger and two other teen-agers riding in the car were seriously injured. The cardinal ministered to all four.

The cardinal reported that Bemis said to him, "Thank you, cardinal. Take care of my friends."

The cardinal later aided firemen in freeing Bemis and Flueckinger.

AP Photos

MEETS NAMESAKE — Gen. Dwight Eisenhower, visiting Denison, Tex., yesterday, holds a lad who was named after him. Eisenhower was paying a visit to his birthplace (building in background). The boy is 2-month-old Dwight David Gaines, son of Mr. and Mrs. E. F. Gaines of Dallas.

Sailor Pulled Bobby From Stormy Sea

NEWPORT, R.I. (AP) — Boatswain Mate I.C. Sam E. Harris, 26, described today hauling Sen. Robert F. Kennedy aboard a small Coast Guard cutter in 20-foot seas and 40-mile-an-hour winds off the Massachusetts coast.

Harris had received word at the Castle Hill Coast Guard station that the New York Democratic senator's daughter, Kathleen, 14, was injured — perhaps critically — when her horse fell on her Sunday during a Cape Cod horse show.

The Coast Guard said all efforts to reach Kennedy, seven of his children and friends aboard a yacht, Neris, in Rhode Island Sound failed because the yacht radio had been turned off.

Harris said he and his crew aboard a 30-foot craft finally reached them several miles off shore but the waves were so high he was unable to pull alongside.

ATTEMPT TO SWIM

Kennedy, 39, then decided he would attempt to swim to the cutter despite the waves, occasionally reaching heights of 30 feet. That he was forced to dive from the yacht and make the

swim was learned Wednesday night by the Washington Post, and confirmed today by Harris.

He said Kennedy took off his shirt, put on an orange floater vest, and swam for 32 seconds toward the cutter, which was then able to close in on him and pull him aboard.

Both the cutter and the Neris then had to battle back to Cape Cod.

Harris said: "Fifteen minutes later we came off the back of a 30 foot wave and slammed into the trough of another and the water broke two windows and came pouring into the cabin," containing Kennedy, Harris and two crewmen.

100 STITCHES

Harris suffered a severe hand cut and was later hospitalized for two days.

The senator expressed concern over the welfare of the Neris, Harris said, and another 44-foot lifeboat was sent out and escorted it to Martha's Vineyard.

Kennedy and the cutter reached Woods Hole about three hours after the Castle Hill station was alerted of Kathleen's

injury, and Kennedy then went to Cape Cod Hospital. The girl was reported in fair, to good condition today.

In the meantime, aboard the Neris, the senator's 12-year-old son Joseph, was struck on the chest by the boom and suffered an injury from which he is recuperating at the Kennedy's home in Hyannis Port.

HAND CUT

Two days earlier Robert Jr., 11, suffered a leg cut for which 100 stitches were taken when he fell through a window from a garage roof at the Kennedy compound.

Tuesday, the head of the family, former Ambassador Joseph P. Kennedy, 76, was admitted to New England Baptist Hospital in Boston. He was reported resting comfortably during his treatment for a skin rash and his general checkup.

We fuss a lot!

Some mothers say Kinney makes too big a fuss over fitting children's shoes!

Our 71 years experience tells us we don't!

Sure we fuss a lot about fitting children's shoes. But we know, you, as parents wouldn't have it any other way. We measure both feet separately from heel to toe, then recheck for perfect fit. We call it our "Certift Program." Of course, we fuss a lot about quality too. Shoes like our Nationally Advertised Educator Royals are the shoes people talk about when they say "They're out grown before they're out worn." Of course, that's because we give top craftsmen the finest materials to work with. So come on in and see the most complete selection of back-to-school shoes ever.

Sweet as honey! Educator Royal's square toe side-buckle in brown beeze wax leather. **\$5.99**

Young Exec Gets Wish

MARKETS

The following are top prices covering sales of locally grown produce by growers and sold by them in wholesale package lots. Quotations are furnished by the Detroit Bureau of Markets as of Wednesday.

Produce

Table with 2 columns: Item and Price. Includes items like Apples, Grapes, Peaches, etc.

Moderately Active Trading

Stock Prices Generally Higher

NEW YORK (AP)—The stock market moved generally higher in moderately active trading early today. The rally involved in the Chesapeake & Ohio, Norfolk & Western merger plans simmered down considerably in view of widespread objections and of predictions that consummation of the merger would take years.

Great Western Financial, Wednesday's most active stock, opened on a high of 50,000 shares, up 1% at 13 1/4 and traded a few minutes later at 13 1/2 on a block of 49,500 shares. Airlines moved ahead moderately, Eastern advanced a point. Du Pont was up nearly a point.

Labor Agency for State Is Hit

One of Worst in U. S. ---Study Group Head

LANSING (AP)—The chairman of a legislative study committee Wednesday said Michigan "has one of the worst labor departments of any state in this nation."

"The committee learned that labor departments in only one or two other states are considered to be as bad or worse," said Rep. James Bradley, D-Detroit. "All the rest are better; some much better."

The New York Stock Exchange

NEW YORK (AP)—Following is a list of selected stock transactions on the New York Stock Exchange with 10:30 prices.

Table with 4 columns: Symbol, Price, Change, and Volume. Includes various stock symbols and their corresponding market data.

While gains of a point or so were scored by Baltimore & Ohio, IBM and General Electric. Steels were unchanged to narrowly mixed, motors just a shade higher on balance, tobacco and aerospace issues mostly unchanged.

Wednesday, The Associated Press Average of 60 stocks rose 5/8 to 322.9. Prices were generally higher on the American Stock Exchange.

By BILL STALL

RENO, Nev. (AP)—As a Philadelphia banker, Stuart B. Webb used to spend his leisure hours fox hunting. He's found no fox hunting since moving to Nevada to be president of the state's second largest bank.

"I've been on horseback, looking at our cattle. We lend money on cattle here—something unusual for the East," Webb, 40, already has filled a heart's desire by becoming top officer of the Nevada Bank of Commerce, with 13 branches throughout the state and assets of \$55.6 million.

MOVED TO RENO Webb was born, reared and educated in the East. He moved to Reno in April as administrative vice president and became president July 29.

Why did he come? "I was looking for a situation that would lead to a top spot in the banking business. This one came to my attention, so I seized it. It's always been my heart's desire to be a bank president."

Webb did have some qualms about moving from the old, established eastern financial world to Nevada, the only state with casino gambling.

"I have been most agreeably surprised with the inside look that I've had of the financial structure of gambling casinos. They are well set up and very well managed."

Casinos reported gross winnings of more than \$200 million during 1964.

Casinos have an excellent cash flow, Webb says. "Their business is cash. Very little credit is involved in it. Ready cash flow depends on the cash-flow analysis and this comes up quickly."

Nevada has a newer, lustier economy than the East, Webb says.

MORE CREDIT "As a result, I think the banks extend more credit to a particular customer than would fit the pattern in the East."

But growth has created a greater demand for capital than Nevada banks can meet, so a large amount of building is going on.

As the probe continues, Bradley said, his committee also will ask the aid of labor experts in Michigan colleges and universities.

Labor Department Director Roy Johnson was not at his office and was unavailable for comment. Aides refused comment. The department, along with many others in state government, is in the process of reorganization as ordered under the new State Constitution.

Q "My husband and I have never been able to save much money. Our savings are in Government bonds, bank certificates, etc. We have bought a few stocks and a few other good stocks and are pleased with them. We would like to buy a drug stock because we believe Medicare will help these companies. What do you think of Parke, Davis or would you prefer another? We sometimes wonder how many people writing you accumulate so much money, but we know we are just as happy as they could possibly be."

A Medicare provides only for the use of drugs in the hospital—not purchased outside—so that no great gain is seen in prospect for the pharmaceuticals. Hospitals, whenever possible, buy drugs by their generic names, rather than by the higher-profit brand names. Parke, Davis is a good company, but is highly dependent on Chloromycetin, on which its basic patents expired in 1966. I prefer Merck & Company.

Q "You very rarely write about corporate bonds. Is this because there is little interest in the field or because you don't favor them? I'm old-fashioned enough to like to own a few bonds as a backup to my stock list. Any suggestions?" G. W.

A Corporate bonds have a largely priced themselves out of the reach of all but the institutional investor. In addition to low yields in relation to other fixed investments, such as savings and loan accounts—there is usually very little in the way of call protection. You might be interested in Chase Manhattan Bank 4.90 notes of 1990, noncallable before 1970, now yielding 4.68 per cent.

(Copyright, 1965)

Webb wasn't a total stranger to the West.

"We have some family property near Idaho Springs, Colo., and we used to go out there every summer."

Webb and his wife have three children, Peter, 15; Nancy, 8; and Scott, 5.

Webb is a native of Washington, D.C., who was graduated from Lehigh University in 1950. He did graduate work at the University of Pennsylvania and Rutgers before joining Provident National Bank in Philadelphia.

WORKED WAY UP He worked his way up and then became an executive of the National Bank of Pittsburgh.

Sam Dawson is on vacation.

WASHINGTON (AP)—A \$3,285,000 foreign aid appropriation bill emerged today from the House Appropriations Committee with the smallest cut in the aid program's 18-year history.

The \$75 million trimmed by the committee from the \$3.6 billion program authorized by Congress only last week compared with the previous low of \$18 million cut from the 1952 program. Last week's cut fixed the limit of new financing for the present fiscal year at a level of about \$96 million below what President Johnson requested.

In addition to financing the foreign aid program, the money bill also would provide funds for several other activities, including the Peace Corps, boosting its overall total of \$4,001,653,000.

This over-all total is up \$9.1 million from figures for the fiscal year just ended, and the \$3,285,000 amount for foreign aid is up \$35 million.

DISSATISFIED MEMBERS Some Republican committee members were dissatisfied with the committee's action and called for a review of the entire program.

Large allotment in the bill was \$1.7 billion for direct military assistance to provide defense equipment and training for nations resisting Communist encroachment. This is the amount the President requested and is \$15 million more than was appropriated last year. The money is earmarked for 54 nations.

Other large allotments included: \$302,355,000 for technical cooperation and development grants to promote the social and economic progress of friendly nations. This is \$7.6 million less than Congress authorized.

U.N. FUNDS —\$44,755,000 for U.S. contributions to international organizations and programs, including the United Nations. This is the amount authorized.

\$209,200,000 for economic assistance designed to help less developed nations expand their defense programs. This is the amount authorized.

\$50 million, the amount authorized, for emergency use to cope with needs not now foreseen.

\$89 million, the amount authorized, for expanded production of GM Trucks & Coach Division's eight-month production figures to 88,656 compared with 75,770 units for the same period last year, according to preliminary figures prepared for month-end reports by General Motors Corp.

Rob \$40,000 Worth of Gems

OLD WESTBURY, N.Y. (UPI)—Three masked gunmen invaded the home of a prominent Howard Phipps early today, pistol-whipped Phipps in his bedroom and forced his wife to hand over more than \$40,000 in gems.

A butler, a maid and a chauffeur fled the robbery in the Howard Phipps early today, pistol-whipped Phipps in his bedroom and forced his wife to hand over more than \$40,000 in gems.

Police said the robbery occurred between 3 and 4 a.m. They said the gunman climbed in through an unlocked library window on the first floor of the mansion in this Long Island community. They apparently took the gems because they moved quickly to Phipps' second-floor bedroom, police said.

They kicked in the door and smashed Phipps in the face with a pistol while blinding him with powerful flashlights. He was later treated for injuries to the right cheekbone and right eye.

Phipps, who is hard of hearing, said at first he could not understand what the intruders wanted of him.

Mrs. Phipps, elderly arborer of New York and Palm Beach society, told police she believed the gunmen were the same men who successfully burglarized the house of the same amount of gems and cash last year.
